

gitized for FRASER

## THE FINANCIAL SITUATION.

One passage in the exuberant statement issued by President Wilson upon the passage by the Senate on Tuesday afternoon of the Tariff Bill assumes importance beyond anything else said by the President in his congratulatory remarks. The Senate's action on the bill itself, which ordinarily would have been regarded as a matter of pre-eminent moment, has excited scarcely any interest whatever. It is easy to guess the reason why. Since Congress began work on the tariff measure, another subject has been introduced for consideration, on the President's insistence, namely the subject of banking and currency legislation; and the proposals which it is sought to embody in this legislation by the Administration are of such a character that the banking question has entirely supplanted the tariff question as the issue of transcendent importance, vital though the interests are which tariff legislation will affect.

The new system of tariff duties may impair the prosperity of some important industries and may in larger or smaller measure do more or less harm to other industries. But banking legislation, if unwisely conceived and blunderingly executed, might involve the whole country, from end to end, and all of its interests, financial and commercial, in a catastrophe the like of which has never been witnessed in all of the world's history. This is so because such a task has never before been undertaken on so gigantic a scale by any political body which has essayed banking reform, and the risks flowing from ill-advised action are in proportion to the magnitude of the task assumed.

Therefore President Wilson's coupling of banking legislation with tariff legislation in his remarks of this week has not unnaturally arrested wide attention. The President was unable to conceal his joy over the passage of the Tariff Bill by the Senate and, after saying that "a leadership and a steadfastness in council has been shown in both Houses, of which the Democratic Party has reason to be very proud", and adding, "I am happy to have been connected with the Government of the nation at a time when such things could happen and to have worked in association with men who could do them", he went on to make the following remark with reference to the prospects of banking and currency action: "There is every reason to believe that currency reform will be carried through with equal energy, directness and loyalty to the general interest. When that is done, this first session of the Sixty-Third Congress will have passed into history with an unrivaled distinction." Of the desirability of banking legislation of the right type, there cannot be the least question. On the other hand, banking legislation that is not undertaken in the proper spirit, not guided by intelligent action and sound knowledge and experience, is freighted with possibilities of mischief of which only the imagination can conceive. If the Government at Washington in its zeal to put a new banking law upon the statute books shall act in accordance with preconceived notions founded on error and shall overstep the limits of safetyif it undertakes to ride roughshod over the protesting forces in the business and financial world-it will be inviting direful consequences the effects of which system cannot take place without causing profound

no one can foresee beyond perceiving that they will be disastrous in the extreme.

No one would be foolish enough to charge that the authorities at Washington have a malevolent purpose in view or that they would understandingly enter upon a scheme of destruction. On the contrary, they are no doubt moved by lofty aims and desires. The President himself always speaks in elevating tones. But zeal without understanding, and in blind ignorance of the facts, just as surely leads to destruction and is as blameworthy as if there were a deliberate purpose to that end.

Some of the President's advisers in the Senate are evincing a disposition to halt, but Mr. Wilson himself is so confident of the correctness of his position that he is determined to push the Administration bill through, unchanged, despite all warnings. He will not brook any delay. It is on the tapis that the House of Representatives shall pass the measure without delay, and that it shall then be rushed over to the Senate, where also it is to be speeded to passage, though, perhaps, with a little more deliberation. If the President were disposed to heed the recommendations of the bankers and relieve the bill of its most vulnerable features, there would be little to fear, even if legislation were pushed hastily to completion, though even then lack of adequate attention would have to be deplored. But the President not only insists on quick action, but he is determined not to yield on what he calls the vital principles of the measure, and it is these so-called vital principles that are most open to criticism.

The Republicans on the Banking and Currency Committee of the House are to be commended for having presented a minority report, summarizing the objections to the bill as submitted to the House. The objections are stated with great force and ability, and if the Administration really desires to act in an enlightened manner and be mindful of the country's welfare, it cannot afford to ignore what this minority has to say. They urge that the amendments called for in the bill are comparatively few in number, but that they are fundamental. They object to the provision which makes purchase of stock in the Federal reserve or district banks compulsory upon all national banks in the country. They also object to the issue of Federal reserve notes as obligations of the United States, and, in the third place, they argue that the powers to be lodged in the Federal Reserve Board are altogether too great.

All these points are in our estimation well taken. But the most impressive remark contained in the minority report is the statement that "Should the national banks of the country, or even a large majority of them, elect to forfeit their present charters rather than come into the new system, our currency supply would be greatly curtailed, all business would be disastrously affected, and our national bank system would be destroyed." We believe this to be no exaggeration, but the literal truth. The issue at stake is the continuance of the national banking system. That alone would have to be deplored, should it occur, for the national system has filled a useful function during its half-century of existence. But the consequences involved are much more serious than this. The disruption of the national banking disturbance in the financial and banking world; and the national credit itself could not fail to become seriously endangered.

The President makes light of the objections that are urged against political control of the banking system. He is quoted as having expressed his inability to see how, through political control, the extraordinary powers granted could be perverted to political uses, and as having declared that "no man would ever be found who would be willing to imperil his reputation or tarnish his fame by so flagrant a prostitution of his high office." This has a plausible sound, and for that reason is apt to mislead the unthinking. It misses the main objection to political control or domination. The Federal Reserve Board, being a political body, would be amenable to political influences and subject to political vagaries. There would not necessarily be any prostitution of office, but yet the members of the Board, being political appointees, would always feel that they had been commissioned to act in the so-called interests of the people. This might make them inclined to disregard sound advice and correct principles of banking, just as the Administration, in framing a banking measure, is rejecting the opinion of competent critics, thinking itself better qualified to judge what is called for in the interests of the people than any one else could possibly be.

The attitude of the Administration at this moment is itself the strongest argument against political domination of the banking system as proposed. The President and his advisers have certain theories of what a banking system ought to be and are determined to put them into practice, no matter what those experienced in banking may say and no matter how strenuously those whose money is put at risk may protest. The high-minded men who will have a seat on the Federal Reserve Board may be wedded to similar notions and in like manner be prepared to proceed in disregard of all warnings. That might not happen immediately and might not happen for a very long period of time. The liability, however, would always exist, and whenever the radical element in politics was in control, great uneasiness would prevail for fear that the liability would manifest itself as a reality. That is the real, the serious danger, rather than the possibility of the prostitution of the system to political uses in the ordinarily accepted definition of the term.

Of course those behind the present measure do not imagine that there is the least likelihood of extensive withdrawals of banks from the national system as a consequence of the enactment of the proposed law. They affect to believe that all the suggestions of possible withdrawals are mere threats emanating from Wall Street and the big financial interests who, it is assumed, fear they will lose that control in the banking world which they now exercise. The Washington legislator thinks that the threat will never be carried into execution. He clings to the belief that in the end all the banks will acquiesce in the new scheme, even though they now plead to have it modified. But on that point Washington, we very much fear, is deceiving itself. Congressional authority over the banks is not what it is over other forms of human activity. When the railroads are pounded, as they have been for years, they have no alternative but to yield. They cannot get away and they are helpless. Similarly the country's great industries must submit to any system of tariff duties that Congress in its wisdom may see fit to impose. The banks, however, are in no such position of helplessness. A bank can go into liquidation without necessarily sacrificing its assets, and national institutions can convert to the State banking systems.

Congress has no power of compulsion over the national banks. It cannot compel them to stay in the system if they elect to pass out of it. It is all a question of advantages and disadvantages. Under the new system all the inducements heretofore existing for entering or staying in the national system are taken away and if, in addition, there is to be a species of political control, of which bankers everywhere are afraid, and there is to be a compulsory subscription to the capital of the district bank by the member banks to the extent of 20% of their own capital, it needs no prophetic vision to see that many banks will choose to give up business altogether or to continue their activities as State institutions.

What will happen while this process is going on must in a measure be left to conjecture, as already indicated. The only certain thing is that under wholesale withdrawals great and general disturbance would result. Obviously, the point raised is such a serious one that no responsible public journal cares to press it home with elaborateness of detail, since the effect might be to engender disaster in advance. But it is equally a public duty not to let the legislator proceed in ignorance of the calamity he is inviting if he persists in his present course and waives aside the objections of those who have no purpose but to guide him right. He should not proceed rashly. In the interests of the whole country, he should pause and consider. Let him not commit an act of folly and madness.

Transvaal gold production returns for August make a better exhibit than did those for July in that they indicated a marked recovery from the effect of the strike, and therefore a return to an almost normal working of the mines. The returns show that the total output of gold for the month was 728,096 fine ounces, against 655,389 fine ounces in July and comparing with 764,737 fine ounces in August 1912. This showing for August supports the inference that the friction the July strike may have engendered has been well allayed and that full production is now again assured. As a result of the decreased output of the last three months, the eight months' product of 1913, instead of being of greater magnitude than that of 1912, is some 50,000 fine ounces less, the contrast being between 6,023,906 fine ounces and 6,073,982 fine ounces. Other African fields have thus far this year done better than in 1912, so that for the whole of Africa the production of gold up to the end of August was a little in excess of the like period a year ago.

The commercial failures exhibit for the United States for August 1913 is both numerically and in amount of liabilities less favorable than for the corresponding month of any other recent year. The statement is, in fact, less satisfactory than for any year since 1908, when the adverse effects of the panic

of the fall of 1907 were still operative. It is to be stated, however, that a few large insolvencies account for the greater part of the August indebtedness, 33 suspensions showing \$11,292,668 liabilities. Messrs. R. G. Dun & Co.'s compilation for August, from which our deductions are drawn, makes the number of failures for the month 1,145, with liabilities of \$20,848,916, this contrasting with 1,102 with debts of \$16,153,166 in the period a year ago, 926 and 111/8 million dollars in 1911 and 1,199 and \$23,787,-378 in 1908. The increase over last year is mainly in manufacturing lines, the liabilities in that division being reported at \$11,254,770 the present year, against only \$7,259,346 last year. For the eight months the 1913 failures total 10,477, with liabilities of \$174,083,682, as against 10,649, and obligations of \$140,763,849 for the similar period of last year. Manufacturing insolvencies involved \$74,-738,093, as compared with \$58,540,689 last year; trading mortality reached \$77,739,582, against \$63,-955,325, and debts of brokers, &c., were \$21,712,-007. contrasted with \$17,767,835.

Business casualties in Canada during August were larger, both in number and total of debts, than in the like period a year ago, 112 failures for \$1,173,755 comparing with 103 and \$925,428. For the period since Jan. 1 the aggregate of debts this year is no less than \$11,451,905, against only \$6,779,428 in 1912, the manufacturing division accounting for \$4,777,-088, against \$2,125,277; traders \$5,531,975 and \$4,-063,536, and brokers, &c., \$1,142,842 and \$590,615.

The Mexican situation is obviously being allowed by each side to drift along. The Mexican Congress will convene on Monday in Mexico City and will receive Provisional President Huerta's message, which will, it is expected, be a document that will place the entire situation in a much more definite position one way or the other. Dispatches from Mexico City continue to quote Senor Gamboa as denying that assurances have been given that Huerta will not be a candidate for the Presidency. Confirmation of these denials seems to be contained in a statement issued by Nelson O'Shaughnessy, Charge d'Affaires of the American Embassy in Mexico City, denying that he had received any verbal or other assurances that Huerta would not be a candidate. According to Washington dispatches Mr. O'Shaughnessy's statement caused amazement at the National Capital. It was taken as evidence that the State Department and the Embassy in Mexico City are not working entirely in harmony or with complete understanding of the happenings in either capital. Huerta has sent a special representative to Washington to consult with President Wilson and Secretary Bryan in regard to their effort to straighten out the Mexican situation. This representative is Manuel de Zamacona, who was the Mexican Ambassador in Washington at the close of the Porfirio Diaz regime and until recently was the financial agent of his Government in London. It is stated that Senor Zamacona will perform in Washington the functions that John Lind, President Wilson's special representative and adviser, has been performing in Mexico, if our own Government will permit him to do so. There is, according to Washington correspondents, no disposition on the part of the Administration officials to

oppose granting him the unofficial recognition necessary to procure him a hearing from President Wilson or Secretary Bryan. Senor Zamacona arrived in Washington on Wednesday and declared that he was on "purely personal business." He has not yet had an interview with our own authorities.

An interesting question that has developed is whether fiat money issued by the Mexican Constitutionalist Government in the State of Sonora can be classified as "munitions of war" and thus be barred from exportation from the United States, where it is manufactured. It is reported that a decision will soon be reached as a result of a legal contest. The rebel Governor of Sonora recently issued orders that the fiat currency be accepted as legal tender. Our own Government holds that such money is "munitions of war" and at the request of the State Department the Attorney-General has instructed the United States Attorney for the Southern District of Texas to bring action looking to the confiscation of shipments of the currency.

A confidential agent of General Carranza, one of the revolutionist leaders in Mexico, has arrived in Mexico City to sound the Government as to the possibility of a peaceful adjustment of all differences. Carranza, it is said, wants amnesty and the assurance of a square deal for the rest of the present term if he enters the Presidential race. Advices from Mexico Ciry declare that he will be willing, if defeated at the polls, to abide by the result and will bind his followers to the same course. It is reported that Carranza recently visited Sonora to induce the leaders It has been announced there to take the same view. semi-officially that General Felix Diaz will return to Mexico City in time for the election and will be a candidate. Advices which seem to be based upon responsible authority state that President Wilson has decided to recognize as the Constitutional authority any government established in that republic by the President to be chosen in the Constitutional election set for October 26, provided that election shall prove to have been fair and free and properly conducted. That decision is understood to be qualified by the reservation that should General Huerta be a candidate for President and be elected, then the recognition of his new government, even if established under constitutional forms, may be withheld. John Lind is expected to remain in Mexico until after the October elections. Several American refugees who have reached Vera Cruz refused to accept the third-class passage to the United States offered by the State Department, and in some instances asked the Mexican Government for aid that was last week tendered by President Huerta. In one such case an American to whom Consul Canada had offered firstclass cabin passage to New Orleans for the women of his family, but only third-class accommodations for himself, telegraphed to General Huerta, who issued instructions through the Foreign Office to the Collector of Customs at Vera Cruz to provide firstclass passage to the American and his family to return to their home town. In all, ten Americans, including three women and two children, left Vera Cruz on Tuesday on steamer for Galveston, traveling firstclass at the expense of Huerta. Before sailing they sent a telegram to the Mexican Foreign Minister, saying: "We thank General Huerta for his attention

## SEPT. 13 1913.]

and kindness in enabling us to return to our country first-class." Eighty more Americans have, it is reported, received transportation from the Mexican Government, as they were not willing or were unable to comply with the demands of the consuls supplying passage. Officers of the National Railways of Mexico have been advised by the Mexican Government that it will provide whatever money is necessary to meet on October 1st interest obligations approximating \$1,500,000 in American currency.

David Lloyd-George, British Chancellor of the Exchequer, announces that he will inaugurate his land campaign at a meeting at Bedford on Oct. 11. The committee which the Chancellor appointed to study the question has concluded its labors and its report will be issued soon after the Bedford meeting. It is reported that the committee will recommend the adoption of small holdings cultivated by the tenant occupiers, this system being safeguarded by land courts. The committee also proposes reforms in the condition of agricultural laborers, including fewer hours of work, more holidays and the institution of wages boards. The Cabinet, however, is understood to be still far from a unit on the details of the land policy. According to the Liberal papers, the Government is basing all its plans on Parliament lasting until 1915. They point out, however, that dissolution is likely to occur in June or July of that year, which would be before the new Irish Parliament is actually sitting. A delay of some fifteen months is expected between the Home Rule Bill receiving Royal assent in June 1914 and the actual assembling of the Parliament at Dublin.

The Chinese Government is declared by press dispatches from Peking to be much concerned over the agitation in Japan in connection with the killing of several Japanese during the recent fighting at Nanking. Desiring to make reparation, the Government has instructed the Chinese Charge d'Affaires at Tokyo to express regrets to the Japanese Foreign Office. The Chinese Foreign Office at Peking has expressed official regrets to the Japanese Legation. The General in command at Nanking has sent a message of sympathy to the Japanese Consul-General and has offered to compensate the families of the victims. The newly-appointed Chinese Minister at Tokyo has been ordered to Nanking to conduct a full inquiry. Dispatches from Tokyo on Saturday last announced the assassination there of Montiaro Abe, Director of the Political Bureau of the Japanese Foreign Office. The assassins have not been discovered. He is believed to have been an indirect victim of the sensational press, which attacked him and other Japanese Foreign Office officials, declaring them traitors who must be removed. This was followed by the gathering of 15,000 persons in mass meeting in Hibiya Park, calling for military action against China. A majority of these marched to the Foreign Office and demanded the sending of troops to China to take such measures as are necessary to obtain satisfaction for the killing of the Japanese at Nanking. Failing this, they demanded the resignation of the Minister of Foreign Affairs, Baron Makino. The speakers denounced the emptiness of Japanese diplomacy in connection with California and China.

The Japanese Legation at Peking admits that about 20 Japanese helped the rebels at Nanking to defend that place against the attacks of the Loyalist troops, and that other Japanese assisted the Southern rebels elsewhere, although without the countenance of the Japanese Government. The Chinese officials say that 200 instead of 20 Japanese helped the rebels at Nanking, several of them serving the guns. An additional source of Japanese complaint is the fact reported by the Japanese Consul at Nanking that his messenger, who was traveling through the city carrying a small flag designating his nationality, was on Monday assaulted by Chinese soldiers, who took from him the Japanese flag and, after tearing it up, trampled it to pieces under foot. It is reported that a Japanese armed force was landed on Thursday at Nanking and is now quartered at the Japanese Consulate.

The Commission appointed by the Carnegie Endowment for International Peace to investigate the recent war in the Balkans has, according to a dispatch from Salonica, abandoned its task. Greece refused to recognize the Commission and objected particularly to Prof. Miluikoff. The Greek Government also objected to H. N. Brailsford of England, another of the Commissioners, on account of his pro-Bulgarian publications. At The Hague on Friday of last week the ceremony of unveiling by Andrew Carnegie a bust of Sir William Randal Cremer in the Hall of Justice of the new Peace Palace was made the occasion of a great demonstration in favor of the peace movement. Sir William was the originator of the inter-parliamentary conferences, a winner of the Nobel Peace prize, and for thirty-seven years Secretary of the International Arbitration League. After paying a tribute to the Russian Emperor for calling the first peace conference, Mr. Carnegie said: "Surveying the world to-day, the most striking figure to be seen is that of another Emperor-the German Emperor-who recently celebrated his twenty-fifth year of a peaceful reign. His hands are unstained with human blood-a unique record. Hence Germany's astounding progress, educationally, industrially and commercially, proving that the greatest of all national blessings is peace." If the German Emperor, said Mr. Carnegie, were to invite the chief nations to confer upon the best methods for securing and insuring the world's peace, success would certainly follow. All the inventions and discoveries, he said, had been achieved finally by slight advances because the ground had been thoroughly prepared, and he added: "So probably would it be with the change from barbarous war to civilized peace. One small spark would create a flame. The German Emperor holds in his hand the torch and should apply the needed spark." The German press has quite generally criticised Mr. Carnegie for his presumption in attempting to interpret the Kaiser's views on the peace movement.

The London and Continental stock markets have been well maintained this week, though any attempt to encourage speculative activity has been without success. At the British centre underwriters have shown some disposition to take on new commitments, and the week's new capital applications have in-

cluded an issue of \$2,000,000 Victoria Government 4% bonds at 98 and an issue of £3,000,000 Sudan bonds to aid the development of cotton-growing. These bonds will be guaranteed by the British Government and will bear 31/2%. The Winnipeg city government is soon to offer £2,600,000 bonds, the proceeds to be used for its water system. The financial agents in London of Montreal have been instructed to proceed at the most favorable moment with the flotation of the city's \$11,904,000 loan, which has been hanging fire for some months. The fortnightly settlement in London disclosed a light speculative position. Contango rates on Americans were  $4\frac{1}{4}$ %, which was without change from the preceding settlement, but compares with 4% a month ago. The Bank of England has not yet seen its way clear to reduce its minimum discount rate, notwithstanding the exceptionally strong position of Threadneedle Street, to which we refer in detail below. Money rates for day-to-day commitments have continued easy and closed at  $2\frac{1}{4}@2\frac{1}{2}\%$ , though some increase would not be surprising in the near future when the usual autumn demands assert themselves. British Consols, as reported by cable yesterday, closed at 733/8, comparing with 73 7-16 on Friday of last week. Balkan securities have shown no important changes on the London Stock Exchange. Turkish 4s closed without net change for the week at 88 and Bulgarian 6s are without alteration at 100. Greek Monopoly 4s are 2 points lower at 54, but Servian Unified 4s remain unchanged at  $81\frac{1}{2}$ . Russian 4s are  $\frac{1}{2}$  point higher at 92 and German Imperial 3s are 1 point higher at 75.

The position in Paris is described by one cable correspondent as firm but unenthusiastic. The recent steady advance in prices has encouraged profittaking, and very little new buying, either by speculators or investors, has developed. Money has shown a rather firmer tendency and is expected to touch  $3\frac{1}{2}\%$  during the settlement which begins to-day (Saturday). It is understood that a number of important applications for new capital will soon be announced. The first of these will be a 62,500,000franc issue of stock by the Russian General Oil Co., which is a combination of Russian oil companies that have special concessions from the Government. The new issues will not include any large offerings of Balkan State securities, though a Servian loan is rumored. It may be offered about Oct. 15. French bankers are in a rather unfortunate position in this respect, having been probably the chief lenders to the various States during the war with Turkey and lending at the same time to Turkey itself. In addition, a large part of the ante-bellum formal bond issues are held in France. When the Balkan Allies began fighting among themselves, it naturally was suicidal to their credit, and any future formal financing will necessarily be undertaken with great caution.

Germany has been drawing gold very freely from London and Paris, having, for instance, obtained  $\pounds 600,000$  of the  $\pounds 800,000$  that was offered in the London market on Monday. International bankers at this centre have received advices that it is this German demand for gold that is the real basis for the maintenance of the official Bank rates in both London and aris, as neither institution would care to make an i d pendent reduction with such an active

demand existing as is the case at the present time, and as is apt to continue during the closing weeks of the month. The quarterly German settlements occur at the end of this month. As has been the usual practice at the end of the recurrent quarters for a year or more, Berlin banks are making active preparations for the possible strain. These preparations will undoubtedly prove to be adequate there was over-preparation at the end of the June quarterbut neither London nor Paris can be expected to go out of its way to help the German situation along. Germany, until the Balkan war upset conditions, was in a position of active inflation. Ever since the withdrawal of French capital from the Fatherland that followed the Moroccan incident, there has been a steady movement by German bankers to place the finances of their country on an independent basis. The movement in this direction still continues; hence the constant demand for funds.

Financial affairs in the Balkans are necessarily in a highly complicated and over-strained condition. At the outbreak of the war, according to a statement in the "Frankfurter Zeitung," Servia decreed a moratorium with the provision that it should expire 45 days after demobilization. As the beginning of demobilization was officially announced for Aug. 11, the Servian period should accordingly expire on Sept. 24. It is now stated that the Servian Government has decided to extend the period until Nov. 12. Bulgaria's moratorium should also expire on Sept. 24. There has been no announcement indicating whether any alterations from this arrangement are contem-In Greece the moratorium was much more plated. vague; at any rate in its legal form. No period of expiry to come into force after demobilization was arranged, but a fixed term was given which, however, has already been delayed several times. The last extension brings the period up to Sept. 18. It is, however, considered probable that full liability to pay will not come in immediately. The courts will be open in the beginning of October and law-suits can then be instituted. But it is believed that executions will be put off for a further six months. In Montenegro the moratorium has experienced another interpretation. In the original law the date of expiration was fixed for six months from the conclusion of peace. This did not refer to the conclusion of peace among the Balkan States but to peace with Turkey. It is considered likely, however, inasmuch as Montenegro' is mentioned among the States agreeing to the Treaty of Bucharest that the six-month period will be counted not from the London peace but from Aug. 10, which was the date of the Bucharest Treaty. There was no formal moratorium in Roumania-only a period of delay in the liability for payment, namely the period for the debtors called upon for active service. This period expires in one month after the decree of demobilization. Turkey did not proclaim any delay in payment; during the whole duration of the war full liability to pay was enforced in that country.

Official Bank rates at the European centres have not been changed during the week. The rate of discount of the Bank of Bombay was raised from 4% to 5% on Wednesday: Private bank rates have remained firm. In Lombard Street there has been

### SEPT. 18 1913.]

some disposition by bill discounters to operate with a view of a firmer money situation in the autumn. Short bills in Lombard Street closed at 39-16%(against  $3\frac{1}{2}\%$  a week ago) and ninety-day bankers' acceptances at  $3\frac{3}{4}\%$  (against  $3\frac{5}{8}\%$ ). The private bank rate in Paris is still quoted at  $3\frac{3}{4}\%$  and in Berlin has advanced to  $5\frac{3}{8}@5\frac{1}{2}\%$  from  $5@5\frac{1}{4}\%$ a week ago. In Vienna the closing rate was  $5\frac{7}{8}\%$ (unchanged); in Brussels it continues at 47-16%and in Amsterdam the final figure is 47-16%(against  $4\frac{1}{2}\%$ ). Official rates at the leading foreign centres are: London  $4\frac{1}{2}\%$ , Paris 4%, Berlin 6%, Vienna 6%, Brussels 5% and Amsterdam 5%.

The Bank of England's weekly statement on Thursday, while it showed a reduction in the gold coin and bullion holdings of £815,659 and of £401,000 in the total reserve, was nevertheless a strong one, since the proportion of reserve to liabilities was further advanced to 60.55% from 59.59% last week and com-pares with 50.34% a year ago. The statement showed a reduction in obligations, including a loss of £1,011,000 in ordinary deposits and of £511,000 in public deposits. Note circulation was reduced £414,-000 and bills matured to the net amount of £1,110,-000. The Bank's bullion now stands at £42,434,493 and compares with £42,169,101 at this date last year and with £42,470,721 in 1911. The reserve aggregates £31,830,000. One year ago it was £31,659,826 and two years ago £31,539,351. Loans (other securities) are nearly £10,000,000 below last year and the year preceding, the aggregate being £26,522,000, against £36,088,331 in 1912 and £36,382,060 in 1911. Our special correspondent furnishes the following details by cable of the gold movement into and out of the Bank for the Bank week: Imports, £100,000 from Argentina; exports, £920,000 to Egypt and receipts of £4,000 net from the interior of Great Britain.

The weekly statement of the Bank of France again showed a loss in gold, namely of 1,228,000 francs, following the reduction of 6,002,000 francs last week. Silver holdings registered a contraction of 7,888,000 francs. There was, however, a substantial reduction in all the leading items of liabilities, so that the showing, taken as a whole, is not unsatisfactory. Note circulation shows a reduction of 151,675,000 francs, general deposits a contraction of 56,550,000 francs; bills discounted are 27,875,000 francs lower, Treasury deposits are 70,550,000 francs lower and advances decreased 23,500,000 francs. The gold holdings aggregate 3,440,545,000 francs and compare with 3,277,800,000 francs in 1912 and 3,136,775,000 francs in the year preceding. Silver holdings are 631,538,-00 francs. One year ago they were 772,825,000 francs and in 1911 834,175,000 francs. Circulation and discounts are still much ahead of the figures of recent years. The outstanding circulation is given at 5,606,839,000 francs and compares with 5,162,764,-680 francs one year ago and 5,163,941,950 francs in 1911. Bills discounted aggregate 1,617,136,000 francs and compare with 1,117,613,703 francs in 1912 and 1,104,942,878 francs in the year preceding.

The statement of the Imperial Bank of Germany published on Tuesday showed an increase in cash of 27,988,000 marks. There was an increase of 9,836,reduction in cash surplus is only \$457,750, making

000 marks in the stock of gold on hand. Loans decreased 13,677,000 marks and discounts decreased 54,850,000 marks. Treasury bills expanded 13,-988,000 marks; note circulation showed a contraction of 41,291,000 marks, deposits increased 4,736,-000 marks. The total cash holdings are 1,398,045,-000 marks and compare with 1,279,702,000 marks one year ago and 1,089,580,000 marks in 1911. Combining loans and discounts, we have a total of 898,325,000 marks. One year ago the aggregate was 1,201,744,000 marks and in 1911 1,034,830,000 marks. The outstanding note circulation aggregates 1,874,289,000 marks and compares with 1,746,327,-000 marks one year ago and 1,656,320,000 marks in 1911.

The week in local money circles has shown a fair degree of activity and strength. New York banks have experienced an increased demand from out-oftown correspondents, especially at the South, and it is evident that the Secretary of the Treasury's offer to deposit public funds in the banks of the agricultural sections is not meeting with the active favor Washington advices state that that was anticipated. the total deposits to date are only about \$9,000,000. In its formal statement on Aug. 24, the Treasury Department announced that \$46,500,000 have been allotted to banks in the various States, of which \$21,800,000 was to go to the thirteen Southern States and the District of Columbia. These Southern States were to get their funds in August and Septem-Thus it is evident that the banks in those secber. tions are particularly backward in applying for Government funds. New York banks have been rather surprised by the receipt of telegraphic requests for funds from Southern institutions that had expressed a determination to apply for Government deposits. It now appears that the necessity of purchasing Government bonds to deposit as security for public funds has been one of the chief drawbacks. In addition, the necessarily rigid requirements as to the commercial paper to be deposited as security for public funds has apparently also served as a handicap. New York banks are re-discounting paper for Southern banks at about  $5\frac{1}{2}$ %, and this apparently does not appear prohibitive to out-of-town institutions, which seem to be conducting their crop-financing in the usual way this year. If the interior banks should lose, say, 2% on the Government bonds they purchase as security in the six months they would have the Government funds on deposit, it would be at the rate of 4% a year. Adding the 2% which the Government is to charge for its funds would make the cost of the money 6%. This, of course, somewhat exaggerates the situation, as only a portion of the security required by the Government would be in the form of bonds. But it is suggestive of the greater convenience contained in the simple method of using the banks in the large cities at say 51/2%. Last Saturday's statement of the New York Clearing-House banks showed a reduction in the loan item of \$10,157,000 and a decrease of \$16,695,000 in deposits. The cash reserve was reduced \$5,038,000, the banks having lost \$9,890,000 and the trust companies having gained \$4,852,000. The decrease in deposits called for a reduction of \$4,580,250 in reserve requirements, so that the net the total actual surplus held by the banks and trust companies above requirements \$4,631,350, which compares with \$2,751,100 a year ago.

Call money this week has ranged between  $2\frac{1}{2}$  and 3%. On Monday 3% was the highest and ruling rate and  $2\frac{3}{4}$  the lowest; on Tuesday  $3@2\frac{3}{4}\%$  was again the range, while  $2\frac{3}{4}\%$  was the renewal basis; Wednesday's highest was 3%, lowest  $2\frac{1}{2}\%$  and ruling figure 23/4%; on Thursday 3% was again the highest and 23/4% the lowest and renewal rate; Friday's maximum was 3%, minimum 234% and renewal basis 234%. Time money closed at 4@414%for sixty days (unchanged for the week),  $4\frac{1}{2}@4\frac{3}{4}\%$ for ninety days (also unchanged), 5% for four months (against  $4\frac{3}{4}$ @5%), and 5% for five and six months (unchanged). Commercial paper has shown more activity. Closing quotations are 53/4@6% for sixty and ninety-day endorsed bills receivable and four to six months' single names of choice character; other are still quoted at  $6\frac{1}{4}@6\frac{3}{4}\%$ .

The market for sterling exchange has ruled quiet but steady. Firm discounts in Europe, resulting chiefly from the active demands by Berlin for funds in connection with the preparations for the strain that it is feared will accompany the quarterly payments at the close of this month, have caused a somewhat better demand for bills here. But the offerings, especially of grain and cotton bills, have been disappointing, the higher prices of these products resulting from the poorer harvest outlook having already appreciably interfered with the export demand. There have been reports of German inquiries for American funds and it is a fact that some New York banks and trust companies have been sounded by representatives of German interests. But so far as we have been able to learn no loans of importance have been arranged. Reports have also been current of negotiations by Mexico and Turkey for American funds. The strained relations existing between our own country and Mexico seem a sufficient warrant for the belief that no financial negotiations are seriously on foot at the moment except such as may be predicated upon the final satisfactory adjustment of the relations between the two countries. At this juncture it is worth recalling that Governor Lind, President Wilson's personal representative in Mexico, suggested on his own authority to the Mexican Foreign Minister at the beginning of his negotiations that the Washington Government might feel disposed to facilitate a loan by American bankers to Mexico in the event of peace being restored in our neighboring republic. Apparently this condition is still in the rather distant future. So far as the negotiations for a Turkish loan are concerned, they do not appear to have taken really practical form. British trade is showing somewhat of a reactionary tendency which will furnish some degree of relief in banking circles in London, though the usual autumnal demand for money is at hand and this may be expected to keep money rates firm, The regular monthly statement of the British Board of Trade of trade during August showed aggregate imports of £56,012,000, against £59,695,000 for August 1912, a decrease of 6%. British exports for the month were £44,111,000, as compared with £43,779,-000, showing alsight increase. Importations of in the principal European banks.

foreign merchandise are not unlikely to show a distinct improvement now that our new tariff bill is so close to final enactment. Bonded warehouses at this port are well filled with imported merchandise awaiting withdrawal as soon as the new tariff rates become operative. It is considered probable, however, that these goods have already been financed so far as the foreign exchanges are concerned.

The Continental exchanges have continued to rule in favor of Berlin, although the London check rate in Paris as reported by cable last evening closed at  $25.24\frac{1}{2}$  francs, which is a reduction of  $\frac{1}{2}$  centime for the week. In Berlin, however, the London demand rate has been reduced  $\frac{1}{2}$  pf. additional to 20.41½ marks, while Berlin exchange on Paris as reported by cable closed at 123.60 francs, contrasting with 123.61 francs on Friday of last week.

Compared with Friday of last week, sterling exchange on Saturday was unchanged with demand still quoted at 4 8555@4 8565, cable transfers at 4 8590@ 4 86 and sixty days at 4 8230@4 8245. On Monday the rise in English discounts and smaller supplies of commercial bills exercised a hardening tendency, and demand moved up to 4 8565@4 8575, cable transfers to 4 8595@4 8605 and sixty days to 4 8250 @4 8270. Notwithstanding dulness, the market continued firm on Tuesday, with a slight advance in demand and cable transfers at 4 8570@4 8580 and 4 86@4 8610, respectively; sixty days was unchanged. On Wednesday the tone was steady, though trading was extremely quiet; the range was still 4 8570@ 4 8580 for demand, 4 86@4 8610 for cable transfers and 4 8250@4 8270 for sixty days; the day's influences were light offerings of bills, higher rates for local money and the firmness in discounts at London. On Thursday there was very little business transacted in sterling, which moved within narrow limits; cable transfers were unchanged at 4 86@ 4 8610, while demand was slightly easier at 4 8565@ 4 8575 and sixty days at 4 8245@4 8255. On Friday the market ruled irregular, sixty-day bills being 10 points lower but demand bills 5 points higher; closing quotations were 4 8235@4 8250 for sixty days, 4 8570@4 8580 for demand and 4 86@4 8610 for cable transfers. Commercial on banks closed at 4 803/8@4 821/4, documents for payment finished at  $481\frac{1}{4}@482\frac{5}{8}$  and seven-day grain bills at  $484\frac{3}{4}$ . Cotton for payment closed at 4 821/4@4 823/8, grain for payment 4 821/2@4 825/8.

The New York Clearing-House banks, in their operations with interior banking institutions, have gained \$2,095,000 net in cash as a result of the currency movements for the week ending Sept. 12. Their receipts from the interior have aggregated \$12,579,000, while the shipments have reached \$10,484,000. Adding the Sub-Treasury operations. which occasioned a loss of \$2,351,000, the combined result of the flow of money into and out of the New York banks for the week appears to have been a loss of \$256,000, as follows:

Week ending Sept. 12.	Into	Out of	Net	Change in
	Banks.	Banks.	Bank	Holdings.
Banks' interior movement	\$12,579,000	\$10,484,000	Gain	\$2,095,000
Sub-Treasury operations	21,757,000	24,108,000	Loss	2,351,000
Total	\$34,336,000	\$34,592,000	LOES	\$256,000

# THE PROBLEMS OF THE PACIFIC.

The near approach of the completion of the Panama Canal gives special timeliness to the questions discussed in a recent book bearing the title of this article, written by Mr. Frank Fox,\* one of the editors of the London "Morning Post." His contention is that the Pacific is the ocean of the future. There will be the next great struggle of civilization, which will award as its prize the supremacy of the world. The Problem of the Pacific is whether that prize shall go to the White or the Yellow race. If to the White race, will it be under the British flag or under that of the United States, or will it be that of some other nation? The struggle ultimately will be industrial and commercial, though armies and navies will undoubtedly play their part, and the strategy of the great conflict is already being determined. The contest, indeed, so far as it is to be commercial and industrial, has already begun.

When Drake, the first English navigator to penetrate the Pacific, passed through the Straits of Magellan, he wrote in his log: "Now as we were fallen to the uttermost parts of these islands on Oct. 28 1578, our troubles did make an end, the storm ceased and all our calamities (only the absence of our friends excepted) were removed, as if God all this while, by His divine Providence, had led us to make this discovery; which, being had according to His will, He stayed His hand." It is to be hoped that the men who are to face the troubles of the near future will have equal assurance of Divine guidance.

As old titles are going to be revived and modern claims based on them, it may be well to recall a few dates. The Pacific Ocean was discovered by Balboa in 1513 and named by Magellan in 1521, and, though Drake showed the way to contest Spanish claim to its wealth, England paid little heed to it for nearly two centuries. In 1740 Admiral Anson took a fleet around Cape Horn to seize the Philippines and break the power of Spain in the Pacific; and Captain Cook made his famous voyage in 1770; but it was not till 1788 that the first English fleet sailed for establishing English rule in Australia, and that was by opening a penal colony.

Meanwhile the Straits Settlements, then called Malacca, were taken possession of by the Portuguese in 1511 and held by them until 1641, when they were driven out by the Dutch. In 1824, by treaty, the Malay Peninsula passed into the hands of England, and the Dutch secured undisturbed possession of the great adjacent islands, Sumatra, Java, &c. In 1841 a small English colony settled in New Zealand and in 1804 Great Britain finally took over that land. In 1841 England seized Hong Kong and has made it, with Singapore, her most important base in the Far East. But private enterprise was establishing other claims which are destined to have important results. Early

\* The American publishers of this book are Small, Maynard & Co., Bos-

in the 16th century two banking houses in Augsburg opened the way for Germany. The Fuggers were engaged in the East Indian trade under protection of the Portuguese flag as early as 1505. Somewhat later they secured the right to the trade of the West Coast of South America and "the islands of the Pacific," and had established their factories there when they were swept away by the descent upon them of Pizarro's conquistadores. In 1525 the Welsers bought from Spain for 20,000 ducats the monopoly of the trade with the West Indies and a vast land concession in Venezuela, including the hinterland with the obligation to plant a German colony. They entered upon the business with great vigor, built a large fleet, established forts and colonies on the islands and the mainland and penetrated the far interior. They were so prosperous that in 1556 the Spanish Crown swept aside their bargain and took possession of their lands and business. Only to-day have the Germans returned to establish successful private business in Brazil, Argentina and Guatemala and to make an oasis of culture and prosperity on the early site of the Fuggers' labors on the Aurecanian coast. The old titles were long since wiped out, but they are not forgotten. An echo of them was heard in 1898, when during the discussions of the Treaty of Paris, the "Frankfurter Zeitung" said: "It is particularly painful that with the Caroline Islands, to which will probably be added the rest of the islands, a piece of Spanish goods is disposed of to which we had the historical pre-emption claim."

Spain's claims to a place in the problem of the Pacific may be regarded as having ended for all practical purposes with her war with the United States, but when Vasco Nunez de Balboa on Sept. 25 1513, with uplifted face and drawn sword, strode into Panama Bay and pompously laid claim for Spain to the rest of the world not previously taken, all that ocean, all that it held or bordered on, it was a claim that proved valid enough for many a long year. "Never before or since," says H. H. Bancroft, the historian of the Pacific Coast, "were made or expressed human pretensions so vast and varied, or, if made, so nearly realized." Whatever may be the eventual role of Spain, her indomitable enterprise and her magnificent vision are not to be forgotten in that final opening of the Pacific which is to enlarge the ideas and undertakings of man in his daily life of affairs until it becomes commensurate with the globe on which he lives.

The position of Great Britain in the North Pacific has been so recently established in the formation of the Canadian Dominion as to need no comment. Her vast undeveloped resources of forest and mine and water-power, with her many fine harbors and her short sea route to the Asiatic markets are sure to accrue greatly to her advantage.

While Russia has an extensive littoral her trade in the Pacific is a negligible quantity and she is not likely to play an important part in the contest, except possibly as an ally of some other Power.

The relation of the United States to the problem of the Pacific prior to undertaking the construction of the Canal can be told in brief. Though as early as 1765 it was said by the "London Gazette," "Little doubt can be entertained that in time America will be the greatest and most prosperous empire that perhaps the world has ever seen:" we failed to interest ourselves more than momentarily in the affairs of the outside world. By 1803 we had taken over the rights of France and Spain in North America and had become the United States, stretching from ocean to ocean and from the Great Lakes to the Gulf of Mexico. In 1823 we promulgated the Monroe Doctrine, announcing that the American continents were not to be considered subjects for future colonization by any European Power, and that any intervention for the purpose of oppressing or controlling them by any European Power would be regarded as the manifestation of an unfriendly disposition toward the United States. In 1845 President Polk extended it to mean that no future European colony should be planted on any part of the North American Continent, and that it is the duty of the United States to annex American territory lest it be annexed by European Powers. Thereupon he brought about the annexation of Texas, Oregon and California. In 1867 the United States entered protest against the Federation of the Canadian Provinces, but did not press it. In 1895 in the Venezuela controversy it was claimed that foreign colonies ought to cease in this hemisphere; and more recently in the matter of Japanese settlement in Lower California the Doctrine has been stretched to mean protest against even private commercial settlements.

Under President Roosevelt, our fleet made formal demonstration in the Pacific; following the Spanish War, we took possession of the Philippines, as we had already annexed the Hawaiian Islands. Then came the Canal; and now there follow special protective treaties with Honduras and Nicaragua, extensive fortifications at both ends of the canal and negotiations with Ecuador for the Gallipagos Islands.

This is the statement of the relation of the White race to the problem of the Pacific. As for the Yellow, Japan, with all her brilliant recent history and an army and navy for its size without superior, is very poor, and despite her great efforts for industrial and commercial development, has not sufficient natural resources to produce the wealth necessary for great outside contests. Many, indeed, think that she has already reached the summit of her attainment of place among the great Powers. China, with great possibilities, is at present negligible. The individual Chinaman is patient, thrifty, indefatigably industrious and possessed of first-class personal qualities, but the nation is disrupted and no prognostigations of its future are valuable. India also, with all its vast population and high industrial development, seems not immediately concerned in the problems of the Pacific, though she may be destined to a large place in the future of the Orient.

Our author gives tables of the possible naval strength of the nations in the Pacific in the near future, but we consider them not important in view of the many other elements of the problem. It is true that neutral markets—that is, those to which all have free access—tend to be absorbed in the spheres of influence of rival Powers, but it is not to be believed that in the present temper of humanity any market is going to be permanently closed to any producer.

The instinct of race shows no sign of change or diminution. Each race will have its own place to fill, its own work to do, and, as far as eye can see today, the White race is destined to leadership in the Pacific as it has been in the Atlantic. and the significance of the oncoming contest is that it is to be in an arena such as the world has not known and for the enlargement of human attainment to an extent beyond our dream.

## MAYOR GAYNOR.

The sudden death of Mayor Gaynor while at sea in search of a little rest brings to mind the halfforgotten incidents of his early career, which show that he continued to the end essentially as he began. At first he moved upon the local liquor traffic and drove it into nearer compliance with the law, just as, very recently, he went to what seemed needlessly harsh action in enforcing the literal requirements as to the early closing of establishments in which liquor is sold. He successfully fought an attempted fraud upon the city of Brooklyn long ago, and was leader in the overthrow of a local "boss" who had been so powerful there as to deem himself above the law. As a judge, Mr. Gaynor showed some temperamental defects, as when an extra-judicial expression of his led to a disturbance over the trolley fare to Coney Island, but when he became Mayor he reached his largest scene of public service.

He stood for the good name of the city, and was an impatient defender of it against all who criticized it as comparatively wicked. On the one hand, he insisted that the proportion of immorality among the police was almost negligibly small; but on the other hand, he pushed to the extreme his notion of individual liberty as against arrest. His greatest service, not yet adequately appreciated, was in the matter of subways. No man could have more clearly appreciated, or more patiently explained, the dangerous assumption that the city had in its "borrowing capacity" an inexhaustible source of wealth for all purposes, necessary or merely desirable. The distinction between the legal right to borrow and the actual ability to borrow was clear to him, and he patiently presented it at every opportunity, as he did the fact that, under the law, the city would own all subways, no matter by whom or on what financial basis they might be built. The service he rendered in putting the subway problem where (as has been said in course of apology for a certain nomination) it could not be endangered by any attempt at reversion to a dangerous basis, is a lasting one which is yet to be fully measured.

He had almost a genius for administrative details, and no man could have kept them more completely in grasp. He was alert and a tireless worker. His early stand against the abuse by which nearly every city official had his automobile at the public expense and his declaration (enforced by example) of the wholesomeness of walking were a part of his effort to lop off waste; nor should it be forgotten that the murderous assault upon him which has cut short his career grew out of this effort to reduce waste.

His qualities as a quaint and pungent letterwriter have been largely before the public, and all sorts of persons have written to him about all sorts of troubles, from the boys who wanted a place for playing to nervous persons who wanted him to do something to suppress the nightly vocalizing of cats. To one who asked what he would say to the public through simultaneous publication in a great number of newspapers he made the characteristic answer that he judged the best thing would be a caution not to believe at once all that is found in them. The life and letters of this later Epictetus may yet be deemed worthy of preservation.

It now becomes clear that much of the querulous impatience and "crankiness" in him had grown out of the struggle against the effects of what now seems to have been a fatal wound. His acceptance of a public | nomination to which he could not respond verbally, and then his departure in search of fresh strength for an aggressive campaign that must be conducted on his part by the pen alone, certainly form a unique incident in political history. There is an unconscious pathos in his private letter of August 30, in which he referred to the persistent distress he was enduring through the labors of his vital organs to expel the "fishhook" which the bullet had left in his throat. His recent remark, "I have been Mayor", a remark not significant of itself, showed a belief that he had followed a high ideal of public duty, notwithstanding inevitable human mistakes; and, really the circumstances of his death make him appear not merely a remarkable, but rather a heroic figure:

## THE GRAIN-CROP SITUATION.

The grain-crop report of the Department of Agriculture for September, issued on Tuesday, while it furnished no data especially at variance with the generally-accepted view of the current cereal crop situation in the United States, did serve to confirm belief in the further important damage to corn in August, the result of continued drought and high temperature, a feature to which we referred editorially on Aug. 30. The condition of this leading grain crop, already low on the first of August, dropped no less than 10.7 points during the month, according to the official report, leaving the average for the whole country 65.1 on Sept. 1, much the lowest at But the extent of the dethat date in 12 years. terioration caused by the drought becomes even more obvious when it is noted that in some localities the havoc done has worked absolute crop failure. For instance, the Sept. 1 condition in Kansas is given as only 10, against 74 at the same time last year; in Oklahoma 39, against 64; Nebraska 37, against 80, and Missouri 41, against 84. In Iowa, the largest producer of all, the outlook is much better, but a drop from 93 to 76 is recorded. These five States combined embrace over one-third of the corn area of the United States and normally produce the same proportion of the crop. This year the average condition for the five States on Sept. 1 was, speaking roughly, but 43, against 81 a year In addition, Illinois, which last year raised ago. 426,320,000 bushels of corn, the present year has a promise of only about 325.000,000 bushels, with a condition of only 62, against 85 in 1912.

There have been rains reported over at least a portion of the drought-affected territory since the issue of the Department report, but to what, if any, extent benefit may accrue to corn therefrom is an open question. Quite certain it is that thus late in the season it cannot bring about any mentionable increase in yield. Aside from the loss in corn, it has been pointed out by crop experts that this year's drought, covering a later and more extended period than usual, has been doubly disastrous, and the most serious in many years, in that it has destroyed corn stover and late summer and fall pasturage. It is stated as a fact that this year there is no all pasturage in the affected districts, and that over large areas corn has been cut green for cattle-feeding, the loss of forage by the drought being claimed to have been only a little less serious than the loss of corn itself. Other crops have also felt decidedly the effect of

adverse conditions this year. Oats, barley, potatoes,

hay and buckwheat make a much less satisfactory promise than a year ago, and spring wheat shows a considerable reduction in yield. In this latter case, however, the shortage is more than made up by a bountiful crop of winter wheat. But the indicated increase of 24 million bushels over last year in the wheat crop as a whole falls into insignificance when set against the expected loss of 774 million bushels corn, 352 million bushels oats and 96 million bushels potatoes.

The condition of corn is stated by the Department as 65.1 on Sept. 1, against 75.8 a month earlier, 82.1 at date a year ago and a ten-year average of 80.9. The present condition is the poorest since 1901. On the basis of condition percentages, an approximate average yield of 22 bushels per acre is figured out, a product lower than in all but three of the previous 25 years. The 22-bushel average gives for the whole area 2,351,000 bushels, or about 774 million bushels less than the crop harvested last year.

The average condition of spring wheat at harvest is announced as 75.3, or 1.2 points better than on Aug. 1, but contrasting with 90.8 at time of harvest last year, only 56.7 in 1911 and a ten-year average of 76.9. As worked out officially, an average yield of 13 bushels per acre is indicated, or a total crop of 243 million bushels, which compares with 330 million bushels in 1912, the record, and 2901/8 million bushels in 1909. Combining the prospective spring-wheat yield with the official preliminary winter-wheat aggregate of 511,000,000 bushels, we reach a total product of 754 million bushels for 1913, which is the high-water mark for the cereal, showing, as it does, a gain of  $5\frac{1}{2}$  million bushels over 1901. The gain over 1912 promises to be 24 million bushels.

Oats, too, stood slightly higher in condition on Sept. 1 than a month earlier, but very much below a year ago. The condition when harvested is given as 74, against 73.7 Aug. 1 this year, 92.3 on Sept. 1 in 1912 and a ten-year average of 79.3 This crop, therefore, is also expected to be below most recent seasons in product per acre, the Department's preliminary calculation being for a yield of 27.8 bushels, against a mean of 29.7 for the previous five-year period, and an aggregate production of 1,066,000,000 bushels, as compared with the 1,418 million bushels of 1912, the country's largest oats crop, and 922 million in 1911.

The probable white potato outcome the Department finds reason to place at a much lower figure than as estimated on Aug. 1, as a result of the continued drought. Diminishing the anticipated yield per acre to 88.1 bushels, an aggregate crop of but 325,000,000 bushels is foreshadowed, this falling almost 100 million bushels under the outturn of a year ago and exceeding the comparatively short crop of 1911 by barely 33 million bushels. The indicated product of barley remains as estimated a month earlier-168 million bushels, or 56 millions smaller than a year ago, but of rye the yield is expected to be only a little less than the 1912 record outcome. Hay at 63 million tons falls below last year by about 10 million tons. Rice promises an aggregate greater than ever raised, owing to an increase in the planting; but in buckwheat a reduction of some 4 million bushels is predicted.

The foregoing brief outline of the crop situation this year as officially set forth indicates a considerable shortage as compared with 1912 in very important articles of food for man and beast. It is particu-

VOL. KCVII.

larly interesting to observe how the aggregate cereal production compares w th earlier periods. The Department of Agriculture has issued a supplementary report covering that phase of the subject and reaches the conclusion that the total of the cereal crops of the United States for 1913 will be about 111,484,000 tons, or 20.1% less than in 1912, some 1.4% in excess of the short crops of 1911 and 6.9% below 1910.

PROSPERITY OF NORFOLK & WESTERN. In considering the annual report of the Norfolk & Western Railway Co., we have to deal with the affairs of a very prosperous little system—a system which within a few years has added enormously to its traffic and revenues and which on very small rates is able to show surprisingly favorable results in face of heavily increased expenses and a rising cost of operation.

The Norfolk & Western comprises, roughly, only about 2,000 miles of road; yet such is the size of its traffic movement that in the year under review it moved nearly nine billion tons of freight one milethe exact figure having been 8,856,070,381 ton-miles. A better idea of the magnitude of the transportation service rendered by this little system can be gained by comparing its record in that respect with some of the larger railroad systems with three to four times the same length of road. The Chicago & North Western system, for example, for the previous fiscal year (the figures for the latest year are not yet available), on an aggregate of about 8,000 miles of road had a freight traffic movement of only 5,146,634,307 ton-miles. The Chicago Burlington & Quincy, with over 9,000 miles of road, in this previous fiscal year had a freight traffic of 7,675,979,757 ton-miles. Even the New York Central on the lines east of Buffalo, on an average length of road of 3,791 miles (nearly double that of the Norfolk & Western), is able to surpass the record of the Norfolk & Western by less than 20%, the Central having in the calendar year 1912 moved 10,395,676,370 tons of freight one mile. The figures in all instances are revenue freight.

But the Norfolk & Western is obliged, as already stated, to move its traffic at exceedingly low rates. For the late year it averaged only 4.24 mills per ton per mile, which means that it is necessary to haul nearly  $2\frac{1}{2}$  tons of freight one mile in order to earn a single cent gross. The New York Central in the calendar year 1912 averaged 6.26 mills per ton mile; the Chicago & North Western averaged for the fiscal year ending June 30 1912 9.10 mills per ton-mile and the Chicago Burlington & Quincy in the same year averaged 7.52 mills. The Norfolk & Western's traffic movement is of such huge magnitude that the average rate varies comparatively little, though all the time tending downward. For the late year, at 4.24 mills, it was absolutely the same as in the preceding fiscal year; however, if we go no further back than four years, we find that the road was then receiving 4.60 mills.

In face of these very small rates and the downward tendency of rates, earnings, by reason of the enormous additions to traffic, show, as already stated, very noteworthy growth. For the year under review, with a further increase of, roughly, \$4,000,000, gross earnings were brought up to \$43,739,921. Going back only four years, to 1908-09, we find that the total gross then was no more than \$29,327,101. Thus there has been an increase in these four years in the gross revenues of only a trifle'less than 50%. Even

the net earnings, which for a time fell off in face of continued expansion in the gross, have the last two years resumed their onward march, though, as would be expected in view of the rising cost of operations, the ratio of gain in the net is much smaller than that in the gross. After declining from \$14,017,110 in 1909-10 to \$12,599,242 in 1910-11, there was an increase to \$14,065,807 in 1911-12 and now a further increase to \$15,174,107 in 1912-13. At this latter figure, comparison is with \$11,597,345 net in 1908-09. This means that an increase in four years of \$14,-412,820 in gross has yielded an addition of \$3,576,-762 to the net. We have referred above to the freight-traffic movement in the late year having been 8,856,070,381 ton-miles; in 1908-09 the traffic movement one mile was only 5,377,021,000 ton-miles. This is an increase of over 60% in four years. The passenger traffic also keeps rising steadily, but at a smaller rate. For the late year 219,996,213 passengers were carried one mile, as against 171,270,331 in 1908-09.

It is hardly necessary to say that even such a huge volume of traffic could not be made to pay at the extremely low rate mentioned unless very high operating efficiency had been attained. The diminutiveness of the rate is compensated by steady additions to the size of the train-load. That is, as compared with other prominent systems, the trains haul a greatly increased load and in that way make up for the loss in rate. In the late year there was a further addition of no less than 71 tons to the average train-load, bringing it up to the splendid figure of 764 tons—and this is revenue freight only and does not include freight carried for the company's own use, which would add materially to the total. On the New York Central the average trainload of revenue freight for the lines east of Buffalo in the calendar year was 465 miles; on the Pennsylvania lines east of Pittsburgh and Erie, which have an enviable record in this respect, and which, like the Norfolk & Western, have a very large mineral tonnage, the train-load for the calendar year 1912 was 685 tons. Of course it is the character of the traffic that renders the Norfolk & Western's record in this respect possible, but the achievement is, nevertheless, noteworthy, and there are not many roads that can equal the record, and only a very few in the whole country (these latter having peculiar advantages in the way either of traffic or of grade or of both combined) that can surpass it; on the Eastern Pennsylvania Division (1,346 miles) of the Pennsylvania RR. the train-load in the late year was 805 tons.

The Norfolk & Western's traffic has been entirely built up on low rates and its freight is of such character (consisting chiefly of coal and other minerals) that high rates would in any event be out of the The company in the late year transported question. no less than 21,160,532 tons of bituminous coal, this constituting 64.71% of its entire freight tonnage. and it transported 1,598,855 tons more of coke, the two together forming 69.60% of the freight tonnage. Including ores and other items, the mineral tonnage formed over 76% of the total freight traffic. But, though rates have steadily declined, the train-load has been as steadily enlarged, and for the late year the trains earned \$3 24 per mile run, whereas in 1906-07 they earned only \$2 83 per mile run.

Thus there has been an increase in these four years in With such growth in traffic and with such operating the gross revenues of only a trifle less than 50%. Even efficiency, the income statement for the twelve

months is naturally a strikingly good one. After paying 6% dividends on the common shares and contributing the sum of \$1,553,088 to be applied towards additions and improvements, a surplus remained on the year's operations in amount of \$2,,-842,275.

# THE ILLINOIS CENTRAL REPORT.

The annual report of the Illinois Central Railroad Co. possesses special interest this time by reason of the recent reduction in the dividend on the shares. As the reader knows, the dividend paid the present month and covering the last half of the fiscal year was only  $2\frac{1}{2}$ %, making, with the  $3\frac{1}{2}$ % for the first six months, 6% for the year, against the previous 7% paid for a long period of time. The annual report is encouraging in that it indicates that the reduction in the dividend has followed entirely from the train of adverse influences to which the system was subjected during the last two years. A study of the various statistics so abundantly supplied in the report makes it evident that no lasting injury has resulted from the special causes mentioned. The operating efficiency is being maintained on the same high plane as before, the volume of traffic is being steadily enlarged, and if any impairment of the earning capacity of the property has to be reckoned with as an element having any degree of permanency, it is the outgrowth of conditions common to the whole railroad system of the country, namely (1) the increase in debt arising from additions to equipment and facilities year by year to take care of the growing volume of traffic, (2) the decrease in rates, and (3) the rise in operating cost.

The striking and perhaps most significant fact to be found in the report is that in the year under review the whole loss in gross earnings sustained in the previous twelve months, as a consequence of the special adverse influences then encountered, more particularly the shopmen's strike and the overflow of the Mississippi River, has been more than re-Gross earnings increased \$5,553,631, notcovered. withstanding that the company in the spring of 1913 was again handicapped by flood conditions in the Southern States, which entirely stopped the movement of traffic between the Northern and Southern lines for a period of nine days. In 1912 gross revenues decreased from \$62,088,736 to \$58,727,272, but now, for 1913, they are up to \$64,280,903. This latter total we may say, too, compares with only \$54,609,445 in 1909. The report points out that the revenue from both freight and passengers was the largest in the history of the road, the freight revenue being \$1,085,313 and the passenger revenue \$118,-322 in excess of the best previous year. The report does not refer to the fact, but the expansion in the freight revenues is the more noteworthy in view of the decline in rates which has occurred. For 1913 the average rate realized was only 5.77 mills perton per mile, against 6.10 mills in 1912, 6.09 mills in 1911, 5.91 mills in 1910 and 5.98 mills in 1909. As showing how traffic has expanded, the number of tons of revenue freight carried one mile in 1913 was 7,385,261,210, against only 6,134,717,635 in 1909, and the number of passengers carried one mile 711,368,242, against 603,638,248. From this it is evident that business on the Illinois Central continues to make progress towards larger figures as in the past.

In the case of the net earnings, comparisons are not so favorable, but the same remark applies to many

other roads. If we confined ourselves entirely to the late year's changes, the outcome as to the net might be considered satisfactory, for with an addition to gross revenues of \$5,553,630, the increase in expenses was only \$1,927,445, leaving a gain in net of \$3,626,185. But that there should have been any increase at all in the expenses, seeing the great augmentation which occurred the previous year, is the really significant fact. As emphasizing that point, we will mention simply one large item of expense incurred in 1912 which was not repeated in 1913. Under the outlays for maintenance of equipment, the so-called "other expenses" are found to have been only \$8,763 in 1913, against \$1,133,335 in 1912. To this account was charged, the previous year, the entire cost of securing new shop employees to take the place of those leaving the service of the company and also the expense of commissaries and various miscellaneous expenses in connection with the strike.

There were other extra expenses in 1912 which were not repeated in 1913. On the other hand, the congestion of traffic following the spring flood of 1913 was not conducive to good operating results in the late year, while additions to expenses were occasioned by the increased price per ton which had to be paid for fuel, by the settlement of a number of large personal injury claims sustained in previous years and to the constant growth in the loss and damage claims. As a matter of fact, the total of operating expenses has kept rising year by year, not excepting 1912, when the gross, as we have already seen, suffered an important falling off. This is the reason why the net earnings in 1912, after declining from \$17,330,879 in 1911 to \$10,605,805 in 1912, have recovered to only \$14,231,991 in 1913.

The enduring feature about the augmentation in expenses is that pertaining to the whole railroad system of the country, namely the general rise in operating cost occasioned by advances in wages, the increase in the price of fuel and the higher prices which have to be paid for practically everything entering into the operating accounts of the railroads.

The report states that the 6% dividends paid out of the late year's earnings were fully earned. The figures bear out this statement; for, the net income available for dividends on the year's operations was \$6,575,112, while the dividend call was (at 6%) \$6,557,760. President Markham notes that while income improved considerably over that of the previous year, it nevertheless did not come up to expectations; but in the last few months of the fiscal year the results proved decidedly encouraging. For May the net revenue, it is stated, was larger than that in any other month of May in the history of the company, and for June it closely approached the highest net revenue in any previous June. We may add to this that such an outcome is what would be expected, seeing the steady development of operating efficiency which has occurred in face of all the drawbacks experienced by the road. For 1913 the average train-load of revenue freight was 407 tons, against 356 tons in 1912, 358 tons in 1911, 361 tons in 1910 and 351 tons in 1909. These figures we extract from the statistical tables in the report. In addition President Markham directs attention to the fact that while the new shopmen in the previous year. were unable to perform the same amount of work, man for man, as the employees whom they displaced. in the late year they rapidly increased in efficiency, with the result that during the last two months of the fiscal year they not only were able to keep up with current repairs but made material strides in taking care of such work as had accumulated.

As showing the new capital needs of an active and growing system, the outstanding bonded and secured debt of the company was increased \$22,000,000 during the twelve months. In July 1912 \$15,000,000  $4\frac{1}{2}\%$  two-year secured gold notes were sold, in Jan. 1913 \$1,000,000 of refunding mortgage 4s were sold, and in Feb. 1913 \$8,000,000 equipment trust, Series "A," certificates were disposed of. As against these increases, \$2,000,000 of equipment bonds were canceled. Further financing would seem necessary in the not remote future, since, while current liabilities have been greatly diminished-having been reduced during the twelve months from \$21,769,159 to \$16,458,362-yet the amount of loans and bills payable included in this year's smaller aggregate is \$6,500,000, as against \$5,-900,000 on June 30 1912. The amount of actual cash on hand is a little larger now than a year ago, being \$2,234,240, against \$1,856,735, and the stock of materials and supplies has been greatly added to, standing now at \$6,982,517, against \$3,830,794. Besides being obliged to meet its own requirements for additional equipment and construction, advances have to be made from year to year to proprietary, affiliated and controlled companies for construction, equipment and betterments. Altogether, as with other important systems, the new capital outlays are an important drain and must be provided for if the system is to be kept abreast of the times and perform its functions as a carrier to its own satisfaction and that of the public.

### RAILROAD GROSS EARNINGS FOR AUGUST.

Our preliminary statement of railroad gross earnings for the month of August makes only an indifferent comparison with a year ago. The Canadian roads no longer have very large gains and the Canadian, Pacific as a matter of fact reports a very considerable loss, while in the United States some of the Southwestern and some of the Northwestern and also some of the Southern roads likewise report decreases in earnings, In the final result our totals record a trifling increase, hardly more than nominal in amount, namely \$71,670. These results, however, cover only the roads which make it a practice to furnish early estimates of their current gross revenues. They do not include any of the large trunk lines like the Pennsylvania RR., the New York Central, &c., &c., whose traffic is largely dependent on the condition of the country's manufacturing industries, which still remain very active. We should not be surprised, therefore, if our completed statement for the month, to be issued several weeks hence, and covering the entire railroad mileage of the country, should make a materially better showing.

Western roads, on the whole, had the advantage of a larger grain movement, though the latter part of August grain receipts began to taper off under the influence of drought and extreme heat, and the corn deliveries for the month were only about the same as a year ago, while at some of the primary markets they were actually quite considerably less. A number of the Western roads also got the benefit of a greatly increased live-stock movement, cattle having been rushed to market in view of the drying-up of streams and insufficient water supply and the prospective difficulty of finding feed for the animals. In

the South there was a somewhat larger cotton traffic, though the cotton movement never reaches very large proportions in August.

For the four weeks ending Aug. 30 the wheat deliveries at Western markets aggregated 35,324,000 bushels, against only 31,542,396 in the same four weeks of last year; the corn deliveries were 10,958,000 bushels, against 10,370,645 bushels; the oats receipts 28,925,000 bushels, against 22,881,536, and the barley deliveries 4,127,000 bushels, against 3,333,173 bushels. Adding rye, the total receipts for the five cereals for the four weeks this year were 80,763,000 bushels, against 69,432,574 bushels. The details of the Western grain movement in our usual form are shown in the following:

Comparison is, on the whole, with fairly good earnings in the same month of last year. Our early statement then recorded an increase of \$6,276,721, or 8.79%, the roads included being substantially the same as those represented the present year. In Aug. 1911, too, the showing was not unfavorable, our early statement then recording a gain of \$2,225,-398, or a little over 3%. In prior years, with the exception of the great contraction in 1908, which followed after the panic of 1907, the record of earnings in August has been one of accumulating gains. In Aug. 1910 our early statement showed an addition of \$5,600,104, or 9.90%. In 1909 also there was a gain, this being \$6,102,600, or 11.77%. These two, however, only a little more than sufficed to make good the \$10,691,980 loss experienced in 1908. Preceding 1908 there were increases in each and every

. Note.—Neither the earnings of the Mexican roads nor the mining operations of the anthracite coal roads are included in this table.

As far as the separate roads are concerned, this time, while gains are still numerous, there are no very large increases as far as absolute amount is concerned. On the other hand, there are some important decreases from various parts of the country. The Canadian Pacific has fallen behind \$824,000. In the South West the Missouri Pacific loses \$231,-000 and among Northern transcontinental lines the Great Northern has a decrease of \$179,203. The Wabash shows a shrinkage of \$89,610, the Chesapeake & Ohio of \$65,351 and the Mineral Range of \$50,241,the latter, presumably, because of the strike in the Lake Superior ore regions. In the South the Southern Ry. reports \$34,424 loss. In the table now presented we show all changes for the separate roads for amounts in excess of \$30,000, whether increases or decreases. We might add that a number of the smaller Southern roads have decreases of less than \$30,000.

The Administration currency bill, as adopted by the House Democratic caucus, was reported to the House of Representatives by Chairman Glass of the Banking and Currency Committee on the 9th and was taken up for general debate in the Committee of the Whole on the 10th. Two reports accompanied the bill, one embodying the views of the majority members of the committee and the other voicing the opinion of the Republican minority on the pending legislation. In the majority report, Chairman Glass, treating of the need for a change in the currency system, asserts that "in view of the lack of any factor of unity, the national banks

"in view of the lack of any factor of unity, the national banks have failed to furnish to the nation as a whole a single powerful system of credit". And, he adds: The evidence that this system has not done its duty is not found in dis-honesty or failure. While at times failures have been numerous among the national banks, as must necessarily be the case in any system of numer-ous and highly individualized banks, the average record of failure or irregu-larity has been small. No note-holder has ever lost a dollar, and the losses of depositors constitute in the aggregate a very small percentage of the total deposits held by the banks. The country has been enabled to do an ex-panding business, to its own great profit. But the evil of the situation has been perceived upon all those occasions when unusual pressure was brought to bear upon the banks of the country. In 1873, 1884, 1890, 1893, 1896 and 1907, to mention the most familiar occasions, it has been necessary for large banks practically to suspend specie payments. \* \* \* At periods of exceptional demand for credit, the movement of currency between various points, with attendant expense and delay, has been enor-

At periods of exceptional demand for credit, the movement of currency between various points, with attendant expense and delay, has been enor-mous, while the expansion of this currency has been slow and halting, local necessities being met by withdrawing circulating media from other regions In consequence, the marketing of the country's annual crops has been slow, difficult and expensive, and it has frequently happened that various sec-tions of the nation have been obliged to depend too largely upon the limited extension of credit to them by banks located in other regions. \* \* \* After looking over the whole ground, and after examining the various suggestions for legislation, the Committee on Banking and Currency is firmly of the opinion that any effective legislation on banking must include the following fundamental elements, which it considers indispensable in any measure likely to prove satisfactory to the country: 1. Creation of a joint mechanism for the extension of credit to banks which possess sound assets and which desire to liquidate them for the pur-pose of meeting legitimate commercial, agricultural and industrial demands

pose of meeting legitimate commercial, agricultural and industrial demands

on the part of their clientele. 2. Ultimate retirement of the present bond-secured currency, with suitable provision for the fulfillment of Government obligations to bondholders, coupled with the creation of a satisfactory flexible currency to take its pla

3. Provision for better extension of American banking facilities in foreign countries to the end that our trade abroad may be enlarged and that American business men in foreign countries may obtain the accommoda-tions they require in the conduct of their operations.

Beyond these cardinal and simple propositions, the committee has not deemed it wise at this time to make any recommendations, save that in a few particulars it has suggested the amendment of existing provisions in the National Bank Act, with a view to strengthening that measure at points where experience has shown the necessity of alteration.

The report of the minority was a relatively brief one as follows:

follows: The undersigned regret that when the committee on Banking and Cur-rency met finally to consider H. R. 7837, they found the majority members of the committee so bound by their caucus action that they could not con-sider the amendments to the bill which, if adopted, would have eliminated its unsound and questionable provisions. Such changes, while compara-tively few in number, in our opinion, are fundamental and vital. The ma-jority members of the committee refused to favorably consider them on the ground that they involved matters of Democratic Party policy settled by the caucus. by the caucus.

by the caucus. COMPULSORY PURCHASE OF STOCK. One objection to the proposed law goes to the provision which compels national banks to subscribe for the capital stock of the Federal reserve banks on pain of forfeiture of their charters. We believe this forfeiture of their charters. We believe this forfeiture provision is of doubtful constitutional-ity and wholly unnecessary and inexpedient. If the plan proposed by the bill proves to be a good one, the mercantile, manufacturing and agricultara interests of the country, which control the banks, can be depended upon to appreciate its advantages, and the banks will naturally and voluntarily join in trying to make it a success. At least time enough should be allowed for a gradual and natural development to fully demonstrate that the new system is a success before force should be applied, by way of quasi penal or forfeiture provisions, to compel reluctant banks to come into it. If, on the other hand, the plan proposed by the bill should prove to be

or forfeiture provisions, to compel reluctant banks to come into it. If, on the other hand, the plan proposed by the bill should prove to be too cumbersome or not workable, the tying up of so vast a quantity of the reserves as the bill proposes to compel would cause the borrowing public great hardship and the vast business interests of the country would be imperiled. Should the national banks of the country, or a large majority of them, elect to forfeit their present charters rather than come into the new system, our currency supply would be greatly curtailed, all business would be disastrously affected and our national bank system would be destroved. destroyed.

### FEDERAL RESERVE NOTES.

FEDERAL RESERVE NOTES. Another fundamental objection is to the provision (page 23, line 19) that the notes to be issued to, or through, the Federal reserve banks "shall be obligations of the United States." Section 17, in which this provision is found, practically creates a Government central bank or board of issue, which may issue notes on application without limit at its discretion for the ole accommodation of the banks and not to meet the necessities of the

Government. In times of serious crises, the Government obligation to pay these notes might, and probably would, lead to very serious compli-cations involving the credit of the Government, as the history of all such experiments amply proves.

experiments amply proves. FEDERAL RESERVE BOARD. The powers of the Federal Reserve Board are in our judgment too great. This Board should be given supervision, but not actual management, of the banking business of the country. We also believe that while an effort has been made to make the Board somewhat non-partisan, there is still great danger as the bill is now drawn that the banking business of the country may be used for partisan political advantage. Every possible provision should be incorporated to prevent a result which every right, thinking man would greatly deplore. Those who will most suffer from political management of this Board will be the small merchant and the bcrrowing public. There is also a clear impropriety in allowing the Comptroller of the Currency, who is charged with the supervision and administration of the whole national banking system, to serve on this Board.

There are other imperfections in the bill which will be pointed out during its consideration on the floor of the House.

When debate on the bill was opened in the House on the 10th Chairman Glass, in replying to criticisms that the Federal Reserve Board would be subject to political influence, said:

fluence, said: There is no politics in this matter; there can be none. It is my earnest conviction, based on long and serious reflection, that no man can conceive, as none has yet pointed out, how any part of this system can be perverted to political uses. I happened to be present when an eminent banker sug-gested such a possibility to the present occupant of the Executive chair and heard this banker vainly challenged to show how it might be done. I shall not soon forget the emphasis with which the President of the United States declared that no man would ever be found who would be willing to imperil his reputation or tarnish his fame by so flagrant a prostitution of his high office. his high office.

Alluding to the opposition of the banking interests to the bill, Mr. Glass censured them for their attitude, saying:

bill, Mr. Glass censured them for their attitude, saying: The whole fight of the great bankers is to drive us from our firm resolve to break down the artificial connection between the banking business of this country and the stock speculative operations at the money centres. The avowed purpose of this bill is to cure this evil. They do not want ex-isting arrangements disturbed; they desire to perpetuate a fictitious, un-scientific system, sanctioned by law, but condemned by experience and bit-terly offensive to the American people—a system which everybody knows encourages and promotes the worst description of stock gambling. The real opposition to this bill is not as to Government control, upon which we shall never yield; it is not as to the capital subscription required, which is precisely that of the Aldrich scheme unanimously indorsed by the American Bankers' Association; it is not as to the 5 dividend allowed member banks, the exact limit prescribed in the Aldrich bill; it is not as to compulsory membership, which was provided in another way in the Aldrich scheme; it is not as to the bond-refunding proposition, infinitely simpler and less expensive than the Aldrich device. It is none of these things that veres the big bankers. It is a loss of profits derived from a system which makes them the legal custodians of all the reserve funds of the country, \$240,000,000 of which funds on the 24th day of November, 1912, they had put into the maelstrom of Wall Street stock operations.

The old Assay Office-the oldest building in Wall Streetis about to be demolished to make way for a new structure. The building has borne a deserted appearance for the past two or three years, the visible sagging of the walls and floors having caused the Government some time ago to vacate the Wall Street front. Efforts to preserve the facade, considered one of the most beautiful architecturally in the city, if not in the country, have thus far been fruitless. The Treasury Department officials had hoped that it might be made a part of the new building, but this has been found to be impracticable. It has also been proposed that the facade be utilized by some historical society, but thus far the move-ment to this end has failed of its purpose. The Assay ment to this end has failed of its purpose. The Assay Office dates from 1823. The new Assay Office, which is to contain the greatest vaults in the country, is to cost \$600,000, of which \$322,000 will represent the cost of the vaults.

A recess was taken by the Senate Committee on Banking and Currency this week, its hearings having been suspendedon Monday, the 8th inst., until the 16th. That the Senate will not, however, be allowed to delay action on the bill was made evident during the week, when President Wilson summoned before him the Democratic steering committee of the Senate and insisted anew upon speedy action on the bill. At the conclusion of the conference, Senator Kern, Chairman of the steering committee, said:

There is no thought of any unnecessary delay. It is simply a question of how soon the currency bill can be reported from the committee. Until there can be a report from the conference committee on the tariff bill, the senate probably will recess three days at a time unless some business de-velops which would require meetings oftener than twice a week.

Chairman Owen also stated after the conference that immediate action on the currency bill would be insisted upon, and he expressed the belief that it would be passed by the Senate before Nov. 1. All of next week will be devoted to hearings, after which the committee will take the bill up for consideration. Those who have been invited to appear before it next week are:

A. B. Hepburn, Chairman of the Board of the Chase National Bank, New York City; Andrew J. Frame, President of the Waukesha National Bank, Waukesha, Wis.; Wm. H. Berry of Chester, Pa.; Douglas H. Thomas, Presi-dent of the Merchants'-Mechanics' National Bank, Baltimore; John Claffin

of the Chamber of Commerce, New York City; W. W. Flannegan of Mont-clair, N. J.; Prof. O. M. W. Sprague, St. Johnsbury, Vt.; Jeremiah Jenks, Columbia University; Joseph T. Talbert, Vice-President of the National City Bank, New York; Charles A. Conant, New York City; Logan O. Mur-ray, President of the Louisville Board of Trade; H. A. Moehlenpah, Presi-dent of the Wisconsin Bankers' Association; Prof. Irving Fisher, New Haven, Conn.; Newton D. Alling, Vice-President of the National Nassau Bank, New York City; E. D. Hulbert, Vice-President of the Marchants' Loan & Trust Co., Chicago; Charles H. Davis, Petersburg, Va.; John Wanamaker, Philadelphia; Samuel Untermyer of New York City; J. H. Davis, Sulphur Springs, Texas; and E. F. Swinney, President of the First National Bank Kansas City, Mo.

By a vote of 44 to 37, the Administration tariff bill was passed this week, on the 9th, by the Senate. Its passage by the latter occurs four months after it was disposed of by the House of Representatives, which adopted it on May 8. The bill as approved by the Senate carries the principal House provisions, including free wool and free sugar, as well as the income tax provision, although the latter has been materially changed under the Senate amendments. It is reported that the bill as it comes from the Senate represents an average reduction of more than 4% from the rates of the original House bill and nearly 28% from the rates of the existing law. Only two Democrats voted against the bill when it was taken up for final passage by the Senate on Tuesday, these two being Senators Ransdell and Thornton of Louisiana, both of whom have all along given evidence of opposition to the measure because of its free-sugar provision. While the two Demo-cratic Senators from Louisiana joined the Republicans in voting against the bill, the Democrats, on the other hand, received the unexpected support of Senator La Follette of Wisconsin, Republican, and Senator Poindexter of Washington, Progressive Republican, the votes of both of these being cast in favor of the bill. The full vote on the bill was being cast in favor of the bill. as follows:

as follows: Ayes.—Ashurst, Baeon, Chamberlain, Chilton, Clarke (of Arkansas), Fletcher, Gore, Hitchcock, Hollis, Hughes, James, Johnson, Kera, Lane, Lewis, Martin, Martine, Myers, Newlands, O'Gorman, Overman, Owen, Pittman, Pomerene, Robinson, Saulsbury, Shafroth, Sheppard, Shields, Shively, Simmons, Smith (of Arizona), Smith (of Georgia), Smith (of Maryland), Smith (of South Carolina), Stone, Swanson, Thompson, Tillman, Vardaman, Walsh, Williams—Democrats; LaFollette, Republi-can, and Poindexter, Progressive. Total, 44. Nays—Borah, Bradley, Brady, Brandegee, Bristow, Catron, Clapp, Clark (of Wyoming), Colt, Cummins, Dillingham, Fall, Gallinger, Jackson, Jones, Kenyon, Lippitt, Lodge, McCumber, McLean, Nelson, Norris, Oliver, Page, Penrose, Perkins, Root, Sherman, Smoot, Stephenson, Sterling, Sutherland, Warren, Weeks and Works—Republicans; and Ransdell and Thoraton, Democrats. Total, 37. Paired and not voting—Burton, Crawford, Goff, duPont, Townsend and Smith (of Michigan)—Republicans: Bankhead, Bryan, Culberson, Lea, Thomas and Reed—Democrats. Total, 12. Absent and not paired—Burtolgh and Gronna, Republicans. Total, 2.

Absent and not paired—Burleigh and Gronna, Republicans. Total, 2. Vacancy—Alabama, 1.

When the Senate's poll became known to President Wilson, he gave expression to his gratification at the result in an announcement as follows:

"A fight for the people and for free business, which has lasted a long meration through, has at last beeen won, handsomely and completely. generation through, has at last beeen won, handsomely and completely. A leadership and a steadfastness in council has been shown in both Houses. of which the Democratic Party has reason to be very proud. There has been no weakness or confusion or drawing back, but a statesmanlike directness and command of circumstances. I am happy to have been con-nected with the government of the nation at a time when such things could happen and to have worked in association with men who could do them. "There is every reason to believe that currency reform will be carried through with equal energy, directness and loyalty to the general interest. When that is done this first session of the Sixty-third Congress will have passed into bistory with an unrivaled distinction.

when that is done this first session of the Sixty-unit Congress will have passed into history with an unrivaled distinction. "I want to express my special admiration for the devoted, intelligent and untiring work of Mr. Underwood and Mr. Simmons and the committees associated with them."

Both Senators La Follette and Poindexter, whose votes were a complete surprise to their colleagues, took occasion to give out brief statements on Tuesday night as to their action in voting for the bill. Senator La Follette said:

action in voting for the bill. Senator La f'ollette said: I realize that what I did was a political sacrifice, but that within me compelled me to vote for the bill. The Tariff Act of 1909 was but little short of a crime; the bill passed to-day is not a Democratic measure, but is a protective measure. Every change made by the Finance Com-mittee was made by way of adjustment to a protective basis, except such as free wool and free sugar, which were determined upon outside. They treated the agricultural schedule. I regret to say, on a free-trade basis, and I would have retained more duty on cutlery and some other articles on which there are no data, in order to be surenot to ruin American produc-tion. Give the Democrate time and they will put everything on a free-trade basis, but they have not done it in this bill. Senator Poindexter had the following to say relative to

Senator Poindexter had the following to say relative to his vote:

F I voted. F I voted for the Senate tariff bill because it is, as a whole, a better bill than the Payne-Aldrich Law, now in force. Furthermore, it contains an income tax, which we have been trying to get for twenty years. Some of its rates are too, high and some are too low—but its general average on manufac-tures is high enough. Its classification is far from scientific but not more so than the existing law.

Senator Thornton also had something to say concerning his defection from Democratic ranks just before the voting began on the amendments on Tuesday. "It is hard," he said, "to feel compelled to vote against this bill, which has "It is hard," he been made a party measure. I cast my first vote for the Democratic Party 45 years ago. It is hard, too, that the

Democratic Party, to which the State of Louisiana has given undivided allegiance for 36 years, should strike a fatal blow at one of her important industries for the advantage of the rapacious sugar trust, the refiners of the Atlantic seaboard. But I am an ambassador of my State more than I am a Democrat, and I shall vote against the bill."

The bill had been reported to the Senate from the Committee of the Whole late last Saturday night-the 6th. After its passage by the Senate on the 9th, it was returned to the House on the 10th, and on Thursday, the 11th, was sent to conference. The following conference committee was named to represent the Senate on Tuesday: Senators Simmons, Stone, Williams and Johnson, Democrats; and Penrose, Lodge and La Follette, Republicans; the appointment of the last named created considerable feeling among the Republicans in view of his action in voting for the bill. In answer to the protests entered against the appointment, Senator Simmons, the Democratic leader, sought to convince the opponents of its fairness to the Republicans by showing that, while the Wisconsin Senator voted for the measure as a whole, he was against most of the amendments, and these amendments are the subjects which the conference will consider. The House conferees are Chairman Underwood; Representatives Rainey, Kitchin and Dixon, Democrats; Representatives Payne and Fordney, Republicans, and Representative Murdock, Progressive. Chairman Underwood's experts are said to have advised him that the revenues under the Senate bill will be about \$24,000,000 less than under the House bill; a loss of about \$9,000,000 alone under the Senate bill is figured in custom revenues. While it is admitted that the income tax changes of the Senate will increase the revenue to some extent, Chairman Underwood does not believe that it will be possible through the yield from that source. to make up the estimated difference of \$24,000,000 between the two bills. Under the Senate bill the basic exemption of the income tax was (hanged from \$4,000, as in the House bill, to \$3,000; this was made to apply to only single men or women; a provision was also adopted by the Senate allowing an exemption of an additional \$1,000 in the case of a married man with a dependent wife or a married woman with a dependent husband; there are also exemptions in the case of minor children. Under the bill as it passed the House, a normal tax of 1% was imposed against individuals whose net incomes exceeded \$4,000; in addition, there was to be assessed a surtax of 1% on earnings of individuals in excess of \$20,000, 2% additional on earnings in excess of \$50,000 and 3% additional on earnings in excess of \$100,000. The amendments adopted by the Democratic caucus of the Senate on Friday of last week, and approved by the Senate this week, make the total tax 1% on incomes from \$3,000 to \$20,000; 2% from \$20,000 to \$50,000; 3% from \$50,000 to \$75,000; 4% from \$75,000 to \$100,000; 5% from \$100,000 to \$250,000; 6% from \$250,000 to \$500,000, and 7% above \$500,000. The following are among the other changes made by the Senate:

Imposed a tax of one-tenth of a cent a pound on cotton sold for future delivery and levied a tax of one-tenth of a cent a pound on bananas; red the full internal revenue tax of \$1 10 a gallon on brandies used

to fortify wines; Exempted incomes of municipalities derived from operation of public utilities:

Changed the date from which the tax shall be computed for the first ear from Jan. 1 to March 1 1913. Free listed cattle and other live stock, wheat, hair of the angora goat

and some other agricultural products; restored oatmeal and rolled oats to the dutiable list and provided an elaborate inspection of meat imports. Reduced House rates on woolen manufactures to become effective

Provided, in the sugar schedule, for immediate abolishment of the Dutch

Standard test; postponed operation of proposed reduced rates until March 1 1914, leaving the provision unchanged for free sugar in May 1916. Slightly increased rates on finer cotton goods, re-classifying the whole cotton schedule and changing the silk schedule from an ad valorem to a

specific basis. Provided for an administrative force to handle income tax collections

Provided for an administrative force to handle income tax collections without regard to requirements of the civil service. Struck out a countervaling duty on wood pulp. Greatly reduced rates of the metal schedule. Struck out many provisions in the administrative section; rejected the anti-dumping clause, the 5% tariff reduction on imports in American vessels and the requirement for inspection of books of foreign manufac-turers in undervaluation cases; added a provision giving the President au-thority to retaliate against nations which discriminate against American goods. by proclaiming increased rates on certain goods. adopted a provisoods, by proclaiming increased rates on certain goods, adopted a provi-sion excluding goods manufactured chiefly by child labor, and provided for the creation of a commission to revise the customs laws. Important additions to the free list included antimony ore, limestone rock asphalt, asphaltum and bitumen, fabrics of jute yarns, wool blankets

rock aspnait, aspnaitum and bitumen, labrics of jute yarns, wool blankets valued at less than 40 cents a pound, textbooks, sugar machinery, cast-iron pipe, surgical catgut, cement, croosote oil, denatured alcohol, flax and hemp, furs and fur skins, gunpowder, pig iron, spiegelissen, ferromanganese, wrought iron, iron slabs and blooms, photographic moving picture films, steel ingoits, blooms, and slabs, cattle and other livestock, wheat, sawed cedar, angora goat and alpaca wool and paper twine for binding wool.

The urgent deficiency appropriation bill passed by the House of Representatives on the 9th inst. not only abolishes the United States Commerce Court but legislates its judges out of office. This is effected through an amendment offered by Representative Bartlett and adopted on the 9th by a vote of 180 to 78, repealing the law authorizing the appointment of five additional circuit judges to serve on the Commerce Court bench. As reported from the committee, the bill would have permitted the judges of the Commerce Court to remain as members of the circuits Courts of the United States. There are now four judges in the Commerce Court (the fifth, Judge Robert W. Archbald, having been impeached and removed from office), these four being Martin A. Knapp, Presiding Judge; William H. Hunt, John E. Carland and Julian W. Mack.

The United States Senate on the 10th inst. confirmed the following as members of the Committee of Nine on Industrial Relations: Frank P. Walsh of Missouri, John R. Commons of Wisconsin, Mrs. J. Borden Harriman of New York, Frederic A. Delano of Illinois, Harris Weinstock of California, S. Thurston Ballard of Kentucky, John B. Lennon of Illinois, James O'Connell of Washington, D. C., and Austin B. Garretson of Iowa. The appointment of the above by President Wilson on June 26 was announced in these columns July 5.

Advices to the effect that the investigation is still pending into the charge that the National City Bank of New York had advanced \$44,500,000 for the financing of the merger of the elevated railroads of Chicago were issued by the Treasury Department on the 9th inst., in the following statement:

Department on the 9th inst, in the following statement: In referring to the statements repeatedly published in the past ten days to the effect that the investigation now being conducted by Bank Exam-iner Starek in connection with charges filed with the Treasury Department by J. B. Hogarth, of Chicago, against the National City Bank, F. A. Van-derlip, Samuel McRoberts and others, had been completed, and the de-fendants vindicated. Secretary McAdoo stated to-day that these reports were incorrect and wholly unauthorized. The investigation, he said, has not been finished: the computer here are reported that grants and the said here. not been finished; the examiner has not reported that excessive loans were not made in regard to the alleged advances of \$44,500,000 to the Chicago Railways syndicate, nor that the bank was not guilty of ultra vires acts as charged by Mr. Hogarth in his complaint, and the Department has as yet rendered no decision in the matter.

The punishment of the sailors of the Pacific reserve fleet who participated in the riots at Seattle on July 17 and 18 against the Industrial Workers of the World and the Socialists was directed by Secretary of the Navy Josephus Daniels on August 20. The Secretary's action was based on a report made by a naval board of inquiry which had been delegated to investigate the disorders. This board, appointed by Rear Admiral Alfred Reynolds, Commander-in-Chief of the fleet, consisted of Commander Thomas Washington, Lieutenant-Commander Henry E. Jensen, Lieutenant-Commander Walter E. Whitehead and Lieutenant Harvey W. McCormack. In its report the board says:

McCormack. In its report the board says: The board believes the direct responsibility for the action of the crowd which contained a small portion of enlisted men was due to the fact that the police force of Seattle took no effective steps to prevent the destruction of property, which they witnessed, and also to their sympathy with the movement and purpose of the crowd. The board has no reason for believing that the idea of the destruction of the I. W. W. and Socialist property originated with the enlisted men of the navy and Marine Corps, and is inclined to the opinion that the movement is more properly attributable to the general sentiment of the better class of people against the I. W. W. society and to the general publicity and criti-cism given by the public press of Seattle to the doings and sayings of the I. W. W. and Socialists. In passing upon the report Secretary Daniels declared that

In passing upon the report Secretary Daniels declared that the conduct of those who "denounced the soldiers, abused the army and navy, reflected upon the flag and made assault upon soldiers in the American uniform, is most reprehensible and deserving of condemnation. But their violent language, unprovoked assault upon soldiers and lawlessness does not justify retaliation in kind. The conduct of those sailors who took part in the destruction of property in Seattle is against the law of their country as well as against naval regulations. Their conduct cannot be condoned or go unpunished." Admiral Reynolds was directed to have the Secretary's letter read on the ships of the fleet and to have the men engaged in the affair punished in such a manner as the Admiral might judge adequate for the offense. None of the sailors participating in the affair, it is understood, has been identified.

A resolution authorizing an investigation of charges against Judge Emory Speer of the United States Court for the Southern District of Georgia was passed by the House of Representatives on August 27. The investigation will be conducted by a sub-committee of the Judiciary Committee. The proceedings will be delayed until the late autumn. preliminary investigation has already been made by the Department of Justice, and, according to the Baltimore "Sun, the charges as summarized by Chairman Clayton of the Ju-

the charges as summarized by Chairman Clayton of the Ju-diciary Committee are as follows: They charge the Judge with having violated Section 67 of the judicia-code in allowing his son-in-law, A. H. Hayward, to be appointed and em-ployed in offices and duites in his Court; With violating the Bankruptcy Act in allowing compensation in excess of the provisions of that Act to a trustee who was his personal friend; With a violation of the laws in drawing juries; With an oppressive and corrupt use of his official position in deciding cases unjustly in favor of his son-in-law; With unlawful and corrupt conduct in proceedings in cases wherein his son-in-law had a contingent fee; With corrupt and unwarranted abuse of his official authority in using Court officials, who were paid by the Government, as private servants, without rendering any service to the Government; With allowing the dissipation of assets in bankruptcy estates by the em ployment of unnecessary officials and the payment of excessive fees; With abuse in granting orders appointing receivers for property without

With abuse in granting orders appointing receivers for property without otice to the owners and without cause, resulting in great loss of property; With abuse of authority in taking or causing to be taken money from the ourt fund for his private use:

With relatives and favorites to profit by the receipt of large fees; With allowing money to remain on deposit without interest in banks in which relatives or friends were interestsd,

Official notice of the Treasury Department's acquiescence in the decision last May of the Court of Customs Appeals at Washington granting the free entry of wood-pulp and paper to European countries with which the United States has "favored-nation" treaties was issued under date of July 28. The announcement, as published in the Department's Bulletin, "Treasury Decisions," is as follows:

[T. D. 33656.] Wood-Pulp and Paper.—Most favored nation treaty clauses.—Collec-tors informed of the Department's acquiescence in the decision of the United States Court of Customs Appeals in T. D. 33434, and instructed to make the necessary reliquidations and refunds and future liquidations strictly in accordance with that decision. TREASURY DEPARTMENT.

#### July 28 1913.

To Collectors of Customs and Others Concerned: To Collectors of Customs and Others Concerned: The Department has acquiesced in the decision, dated May 12 1913, of the United States Court of Customs Appeals (T. D. 33434) in the cases involving the most-favored-nation clauses of various treaties as affected by Section 2 of the Act of July 26 1911. <sup>)</sup> Attention is invited to the fact that the said decision does not in terms apply to importations from other countries than Norway, Russia, Austria-Hungary and Germany, and that the treaty of commerce and navigation between the United States and Russia of 1832 expired on Dec. 31 1912. Collectors of customs are hereby instructed to make the necessary re-

Collectors of customs are hereby instructed to make the necessary re-liquidations and refunds strictly in accordance with the terms of the Court's Iquidations and refunds strictly in accordance with the terms of the Court's decision, and to be governed thereby in all future liquidations until otherwise instructed. In view of the expiration of the treaty with Russia, the principle of the Court's decision will not, at this time, be applied to imports from that country made since Dec. 31 1912. The applicability of the principle of the said decision to imports from other countries than Norway, Austria-Hungary and Germany will be the subject of further instructions.

of further instructions. W. G. McADOO, Secretary.

In a subsequent ruling (Aug. 8) of the Department, made over the signature of Assistant Secretary Charles S. Hamlin, it is stated that the Treasury Department is in receipt of a letter from the Department of State from which it appears that the treaty status of Sweden is the same as that of Norway with respect to the "favored-nation" clause. The Court's decision has, therefore, been extended by the Treasury Department so as to apply to the wood-pulp and paper products of Sweden.

That the issuance of a pardon on Aug. 30 by Gov. Sulzer (against whom articles of impeachment were recently brought) to Joseph G. Robin, formerly President of the Washington Savings Bank of this city, was not within Mr. Sulzer's province, is the decision of Supreme Court Justice Hasbrouck as handed down by him at Kingston on the 11th inst. The Court holds that Gov. Sulzer was regularly impeached, and that while the presumption of innocence may still be claimed by him, he is quite as effectively shorn of his power as if a judgment of eviction had been passed against him, unless he is acquitted. The case was brought before Justice Hasbrouck last week through the issuance of a writ of habeas corpus calling for Robin's appearance before the Court following the refusal of Warden Hayes to recognize the pardon. The action of Gov. Sulzer in granting the pardon was regarded as an effort to test his right to act as Governor while resting under impeachment charges, but before being convicted. Robin was sentenced last January to a year in the peni-tentiary on Blackwell's Island; he had pleaded guilty on March 1911 to an indictment charging the larceny of \$27,000 of the funds of the Washington Savings Bank. In setting out the reason for the issuance of the pardon, Gov. Sulzer said:

In the matter of the application for pardon of Joseph G. Robin. The Justice who imposed the sentence on the prisoner did not hear any evidence,

In the matter of the appincation for parton of soseph G. Noom. And-Justice who imposed the sentence on the prisoner did not hear any evidence, for there was no trial, and there is some difference of opinion regarding the punishment of the prisoner in the office of the District Attorney. The senior assistant, the Hon. Frank Moss, who conducted an elaborate investigation under the direction of the District Attorney, rendered a writ-ten report which holds the prisoner innocent. It is claimed that the plea of guilty was entered upon an understanding that no sentence would be imposed and that Robin could thereby avoid the risk of a trial and at the same time relieve his sister from prosecution upon a charge of which he knew her to be innocent. Many citizens have requested clemency in this case, and, in view of the rule that punishment should not be inflicted where there is reasonable doubt of guilt, and, in consideration of the long time the prisoner was in the Tombs, the great service the prisoner has rendered the State in the adminis-tration of justice, and the further service he claims he can tender the State, I am convinced a pardon to Robin should be granted. WILLIAM SULZER. Albany, Aug. 30 1913.

Albany, Aug. 30 1913.

The details of the program which has been arranged for the annual convention of the American Bankers' Association, to be held next month in Boston, were made public this week. The bankers will convene on Oct. 6; the committee meetings and the meeting of the Executive Council will take up the attention of the members on the opening day of the conven-tion—Monday. Wednesday, the 8th, and Thursday, the 9th, have been set apart for the sessions of the main organization; the meetings of the Trust Company Section, the Savings Bank Section, the Clearing-House Section and the State Secretaries Section will all take place on Tuesday, the 7th; there will be no business session whatever on Friday, that day being given over entirely to the entertainment of the visitors. At the regular convention addresses will be made by James J. Hill of St. Paul; Dr. George E. Vincent, President of the University of Minnesota and Sam Jordan of Pettis County, Mø. The program of the Trust Company Section shows as speakers Hon. Samuel McCall of Massa-chusetts and Roberts Walker of New York; William J. Burns of the Wm. J. Burns National Detective Agency, New York, is one of those who will address the Savings Bank Section; among those slated to speak before the Clear-Bank Section; among those stated to speak before the Clear-ing-House Section are Carl Meyer of Chicago and Raymond B. Cox, Assistant Cashier of the Fourth National Bank of New York; in the case of the State Secretaries Section the speakers announced are Andrew Smith, Secretary of the Indiana Bankers' Association, and George H. Richards, Secretary of the Minnesota Bankers' Association. The complete program of the Association and its sections is as follows:

MONDAY, OCT. 6 1913. In the forenoon, committee meetings at the Copley Plaza Hotel, At 2 o'clock p. m., Executive Council meeting at the Copley Plaza Hotel. TUESDAY, OCT. 7,1913.

The entertainment features were referred to at length in

these columns Aug. 30.

David Lamar, who was indicted in July by the Federal grand jury in New York for having impersonated Congress-men Riordan and Palmer, was arrested in Washington on the 11th inst. He was released under \$3,000 bail and remanded for a hearing in extradition proceedings before U.S. Commissioner Taylor in Washington next Wednesday. Lamar's counsel is expected to oppose his removal to New York and attack the indictments on the ground that the section of the Federal criminal code he is charged with violating, dealing with impersonation of Government officers, does not apply to members of Congress. The indictments, as indicated in our issue of Aug. 16, are an outgrowth of the "lobby" investigation at Washington, during which Lamar admitted that he had impersonated the two members of Congress.

William F. Havemeyer, formerly of the sugar-refining firm of Havemeyer Brothers, and also prominently identified with numerous banking and industrial organizations, died suddenly on the 7th inst. Mr. Havemeyer, who was sixtythree years of age, retired from the sugar-refining business in 1899, when his firm sold out to the American Sugar Refining Co. Temporarily, during the 1907 panic, he served as President of the National Bank of North America of this city, of which he had previously been a director, and of which his father had been the first President. At the time of his death Mr. Havemeyer was a director of the Corn Exchange Bank, the New York Title Insurance Co., the New York Mortgage & Security Co., the United States Realty & Improvement Co., the Colorado & Eastern RR., and President of the Chelsea Realty Co. Mr. Havemeyer's father, William F. Havemeyer, was formerly Mayor of New York.

John H. Carr, Assistant Cashier of the Market & Fulton National Bank of this city, was elected Cashier at a meeting of the board of directors held this week, to succeed the late Thomas J. Stevens. Mr. Carr was formerly Assistant Cashier of the old Southern National and upon its merger with the Market & Fulton in 1896 he was appointed Assistant Cashier of the latter.

The Lawyers' Title Insurance & Trust Co. has declared a quarterly dividend of 2%, payable Oct. 1 to holders of record Sept. 15. Previous quarterly payments were 3%. It was stated, that owing to general conditions, it was deemed advisable to reduce the dividend at this meeting, but that this action would be no criterion for the future.

A motion for the removal of the liquidating committee through which the dissolution of the Audubon National Bank of this city is being conducted was recently denied by Judge Julius Mayer of the United States District Court. The application was made by some of the minority stockholders, whose motion for the appointment of a receiver was likewise denied. The placing of the bank in voluntary liqui-dation was decided upon in July 1911 with the discovery of the use of some of the funds by its former President, David S. Mills, in the purchase of stock in the institution.

The Brooklyn "Eagle" states that, in the opinion of Special Deputy Superintendent of Banks Edward L. Dodge, who has charge of the affairs of the failed Union Bank of Brook years of age, and had been connected with the bank for

lyn, it will be at least five years before any funds will be available for the liquidation of the depositors' claims. No return whatever has been made to the depositors since the institution closed its doors in April 1910.

The new Washington Trust Co. of Newark, N. J., organized under the presidency of John C. Eisele, began business on the 4th inst. The institution has a capital of \$100,000 and surplus of \$55,000. In addition to President Eisele, the management includes Edwin Ball and Peter B. Fox, Vice-Presidents, and T. L. R. Crooks, Secretary and Treasurer. The company's quarters are at 477 Broad Street.

At a meeting of the directors of the Commercial National Bank of Syracuse on Aug. 28, Anthony Lamb, Cashier, was elected Vice-President to fill the vacancy caused by the resignation of George M. Barnes, and Arthur A. White was appointed Assistant Cashier. Mr. Lamb will continue to hold the office of Cashier and Mr. Barnes will remain on the board of directors.

The directors of the First National Bank of Syracuse, N. Y., have elected Alfred W. Hudson of New York, Vice-President of that institution. Mr. Hudson, who has been with the Windsor Trust Co., and later with the Empire Trust Co., takes the position held by A. W. Loasby, former President of Syracuse Chapter of the American Institute of Banking, who has resigned to become President of the Trust & Deposit Co. of Onondaga. Mr. Hudson is thirtyseven years of age and has been in the banking business ever since he finished his education. His first position was with the Fifth Avenue Trust Co. of New York City. Early in 1908 he was appointed to a place in the State Banking Department. In 1909 he became Secretary in the Financial Department of the State Comptroller of New York and in 1911 he was elected to the vice-presidency of the Windsor Trust Co., which office he held until the merger of that company with the Empire Trust Co. early in the current year, and had since been identified with the combined organization. Mr. Hudson has been a member of the American Institute of Banking ever since it was founded, and is now President of New York Chapter.

Major John Ludlow Newman, President of the National Bank of Cohoes, N. Y., died on Sept. 7 of heart failure. Major Newman was born in Albany, N. Y., in 1836. On leaving the Albany Academy he entered his father's wool business, established by his grandfather, Charles Newman, in 1770, and continued in that business for twenty years, becoming a member of the firm under style of Charles & John L. Newman, 1866-80. He withdrew in 1880 to engage in the manufacture of woolen goods at Cohoes, N. Y. He had been a director of the National Bank of Cohoes since 1878; Vice-President, 1893-95, and President of the bank since then. He had served in the Civil War 1862-64, recruiting a company for the Union army and becoming its captain in the Forty-third Regiment, New York Volunteers, Third Brigade, Second Division, Sixth Army Corps. He was Vice-President and Trustee of the Young Men's Association, trustee Albany Institute and Historical and Art Society, member of the National Geographic Society and the Albany Chamber of Commerce. He was instrumental in obtaining for the city of Albany the Soldiers' and Sailors' Monument which stands at the entrance to Washington Park.

A second dividend in liquidation has just been distributed to the depositors of the Atlantic National Bank of Providence, R. I. Under the first dividend, paid in June, the depositors received 25% of their claims, while  $12\frac{1}{2}\%$  was paid in the second disbursement. The institution suspended on April 14 1913.

After having served the Second National Bank of Boston for nearly fifty years, T. Harlan Breed has resigned as Cashier, his resignation to take effect on Oct. 1. Appreciation of the services rendered to the institution by Mr. Breed (who has been identified with it since July 1864) is recorded in resolutions adopted by the directors on the 8th inst. John H. Symonds, heretofore Assistant Cashier, has been chosen as Mr. Breed's successor in the cashiership, and Horace F. Fuller has been appointed an Assistant Cashier.

Charles W. Lee, President of the Second National Bank of Philadelphia, died on the 6th inst. He was seventy-four

forty-eight years. He was elected to the presidency in

January 1911, having then been promoted from the office of Vice-President and Cashier.

At a meeting on the 5th inst. the stockholders of the Third National Bank of Scranton, Pa., ratified a proposal to increase the capital of the institution from \$200,000 to \$400.-The new shares will be issued at par to the present 000 shareholders and paid for out of a dividend of 100%. The institution has surplus and profits of \$1,253,000.

Berkley Williams, who for the past eight years had been associated with the banking firm of Middendorf, Williams & Co. of Baltimore, has returned to his former home, Richmond, to become a member of the firm of John L. Williams & Sons.

Edwin Warfield Jr. has been elected a director of the Fidelity & Deposit Co. of Baltimore.

Plans for the reorganization of the First-Second National Bank of Pittsburgh, submitted at a meeting on the 9th inst. of the stockholders and depositors whose claims amounted to \$25,000 and over, met with practically unanimous endorsement by the 150 or more bankers, stockholders and individual and corporation depositors present. The appointment of a committee of five depositors was authorized, this committee to investigate and report on the plan as outlined by the stockholders' committee, of which J. B. Finley is Chairman. Ralph Van Vechten, Vice-President of the Continental & Commercial National Bank of Chicago, presided at the meeting and will appoint the depositors' committee. In view of the fact that the Pennsylvania RR. and the United States Steel Corporation were two of the largest depositors, it is expected that these concerns will be represented on the committee, and that the other members will be banking A strong feeling of optimism prevails as to the creditors. outcome of the proposed rehabilitation of the bank. plan is outlined by the committee in the following letter. issued by it:

issued by it: Pittsburgh, Pa., September 9 1913. The undersigned committee of the stockholders of the First-Second National Bank of Pittsburgh, having examined into the value of the assets, and realizing the desirability of re-opening the bank, and thus saving further loss to the stockholders and depositors, suggest the following plan: That a stockholders' meeting be held and the capital reduced to \$550,000 and the surplus to \$170,000, and immediately thereafter there beauthorized an increase of the capital to \$5,000,000, with a surplus of \$1,000,000. The present stockholders to be allowed to subscribe for the new stock within ten days after its authorization, and thereafter the unsubscribed stock to be offered to the public. All balances in savings accounts and all other credits of less than \$2,000 to be released and placed on the same footing as before the suspension of the bank.

the bank. Creditors having claims of \$2,000 and upwards to have placed to their credit and subject to check 50% of the amount of their claims, and to be requested to underwrite, to the extent of not more than 25% of their claims, the new stock not taken by the present stockholders, and to accept certificates of deposit bearing interest at the rate of 3% per annum, payable in one year after the opening of the bank, for the remainder of their claims. If possible, a voting trust should be created to hold all of the capital stock for five years.

J. B. Finley,	John A. Beck,	J. Rogers Flannery,
William McConway,	William L. Curry,	H. Hughart Laughlin,
A. M. Moreland,	W. A. Renshaw,	Frank B. Nimick.
F. C. Osburn.	C. H. Friend,	

It is understood that the total assets of the bank set aside in the doubtful or worthless class amounted to \$4,500,000. Interests connected with the bank are positive that at least \$2,000,000 of this will be recovered within the next year or two, which, on the proposed capital of \$5,000,000, would The institution suspended on July 7. be 40%.

W. L. Guckert was elected President of the First National Bank of Allegheny on the 3rd inst. to take the place of James S. Kuhn, who resigned recently. Mr. Guckert had been Vice-President of the institution since 1904. John Thompson, a director and one of the organizers of the bank, has been elected Chairman of the board, and Hay Walker Jr. and William M. Orr have been elected to the directorate.

The latest statement of the Riggs National Bank of Washington, D. C., as of Aug. 9, the date of the last bank call, shows a very prosperous condition of business. Its deposits were \$11,343,021, cash and reserve \$2,203,747, due from banks \$602,823, surplus and profits \$2,188,083, in addition to \$1,000,000 capital and total resources \$17,641,027. The Riggs National Bank was organized July 1 1896 and succeeded Riggs & Co. The executives are: Charles C. Glover, President; Milton E. Ailes and William J. Flather, Vice-Presidents; Henry H. Flather, Cashier, and Joshua Evans Jr., Assistant Cashier.

gitized for FRASER . p://fraser.stlouisfed.org/

F. J. Woodworth, Vice-President of the First Trust & Savings Bank of Cleveland, and Charles E. Farnsworth, Cashier of the First National Bank of Cleveland, have been elected directors of the First National. Joseph R. Kraus, Third Vice-President of the latter, has been elected to the board of the First Trust & Savings Bank.

The question of increasing the capital of the Lake View Trust & Savings Bank of Chicago from \$200,000 to \$300,000 was approved at the special meeting of the stockholders on the 2nd inst. The additional stock is offered pro rata at par to the existing shareholders.

The Chicago Title & Trust has declared a quarterly dividend of 21/2%, payable Oct. 1 to holders of record Sept. 19. This is an increase of one-half of one per cent in the quarterly distribution and places the stock on a 10% per annum basis, as against 8% paid previously. The directors elected Frank G. Gardner, Treasurer, to succeed William R. Folsom, resigned.

James M. Miles, heretofore Cashier of the Standard Trust & Savings Bank of Chicago, has been made a Vice-President of the institution. He is replaced as Cashier by Frank T. Joyner, formerly of the Illinois State Trust Co. of East St. Louis.

Thomas E. Cooper, who had been Cashier of the American National Bank of Wilmington, N. C., since its organiza-tion in 1903, has been made active Vice-President, and in his new post will relieve President W. B. Cooper of a large part of the direction of the institution. With Mr. Thomas E. Cooper's advancement, Charles E. Bethea, heretofore Assistant Cashier, has become Cashier.

The crop conditions in Alabama are discussed in detail in the monthly "Financial and Commercial Review" of the First National Bank of Birmingham for September. While it is stated that the reports indicate that, owing to drought and heat, there has been more than the average deterioration in cotton during August, and that food crops have also been affected to some extent, the cotton acreage in a majority of the counties is larger than last year's, the exceptions being mainly in boll-weevil territory. The "Review" also states that the increase in corn acreage is marked and is noted in nearly every county.

The change in the name of the Central National Bank of Los Angeles, Cal., to the Security National Bank went into effect on the 2d inst. The adoption of the new title follow the completion of plans for a unification of the interests of the Central National and the Security Trust & Savings Bank.

Central National and the Security Trust & Savings Bank. The arrangements whereby this was accomplished are re-ported as follows in the Los Angeles "Examiner": The Security Trust & Savings Bank issued 1,500 shares of treasury stock; and the board of directors at the same time declared a dividend of \$675,000 from the undivided profits. After paying an amount according to a trust agreement, this money was utilized in the purchase of the stock of the Cen-tral National Bank at \$225 per share. The stockholders of the national bank, through trustees, then utilized this money, realized from the sale of stock; to the purchase of the treasury stock of the Security at \$400 per share. The trustees then held the national bank stock for the benefit of such stock-holders of the Security Trust & Savings Bank and the Central National Bank as had signed the trust agreement. Such stockholders now own a beneficial interest in the stock of the Central National Bank and will re-ceive dividends from each bank in projortion to their respective holdings of the Security Trust & Savings Bank stock. The increase of the capital stock of the Central National, now the Se-curity National Bank, from \$300,000 to \$1,000,000, will be followed by the declaring of a dividend from the undivided profits of the Security Trust & Savings Bank sufficient in amount to be used exclusively for the increase of the capital stock, reserve and undivided profits of the national bank.

The consolidation of the National Bank of Commerce and the Pacific National Bank of Tacoma went into effect on the 2nd inst., when the new National Bank of Tacoma, created through the merger, commenced business. The newly formed bank is the largest financial institution in Tacoma; it starts with a capital of \$1,000,000 and deposits of nearly \$9,000,000, the National Bank of Commerce contributing toward this \$3,794,440 (its Aug. 9 figures of deposits), and the Pacific National \$4,870,635—these also being the figures of Aug. 9. Along with the creation of the new bank, there has been established as an adjunct of it a trust company under the name of the Tacoma Savings Bank & Trust Company. The capital of the latter, \$200,000, is owned by the stockholders of the National Bank of Tacoma. The opening of the trust company occurred on the same date as that of the consolidated bank-Sept. 2. The National

Bank of Tacoma is under the management of Ralph S. Stacy, President; Chester Thorne, Chairman of the board; W. M. Ladd, George S. Long and E. T. Wilson, Vice-Presi-dents; Stephen Appleby, Cashier; D. A. Young and R. R. Mattison, Assistant Cashiers. The officers of the Tacoma Savings Bank & Trust Co. are Charles H. Hyde, President; Chester Thorne, Frederick A. Rice and Fred. S. Fogg, Vice-Presidents, and A. A. Miller, Cashier.

# TRADE AND TRAFFIC MOVEMENTS.

UNFILLED ORDERS OF STEEL CORPORATION UNFILLED ORDERS OF STEEL CORPORATION.— The United States Steel Corporation on Saturday, Sept. 10, issued its regular monthly statement showing the unfilled orders on the books of the subsidiary corporations at the close of August. From this statement it appears that the aggregate of the unfilled orders on Aug. 31 was 5,223,468 tons, 175,888 tons less than on July 31. In the following we give the comparisons with previous months:

Tons.	Tons.	Tons
Aug. 31 1913 5,223,468	July 31 1019 5 057 070	Tune 20 1011 9 901 050
Aug. 31 19126,163,375	July 31 1911. 3.584 085	· · · · · · · · · · · · · · · · · · ·
DI I TI OTI		

Prior to July 31 1910 reports of unfilled orders were issued only quarterly. In the following we show the totals at the end of each quarter or period for which the figures were made public, back to the organization of the Steel Company.

1 1 1 E	Tons.	1	1.	Tons.	a contraction	Tons

\*The figures prior to Dec. 31 1907 are on the old basis. Under the present hethod only orders received from sources outside of the company's own interests re shown. The amount as of Sept. 30 1904, shown above as 3,027,436 tons, the ermer basis, would, it is stated, be 2,434,736 tons on that now employed

ANTHRACITE COAL PRODUCTION.—The anthra-cite coal shipments to tidewater for the month of August 1913 aggregated 5,369,900 tons, a decrease of 1,206,691 tons from August 1912. In the following we show the shipments by the various carriers for the months of August 1913 and 1912 and for the periods Jan. 1 to Aug. 30:

The production decreased about 14,000,000 lbs. from last year, owing pre-sumably to the continued strike at the Lake Superior ore regions. In the following we compare the various items for the month of August 1913 and 1912 and also for the periods Jan. 1 to Aug. 30. We also add figures to indicate the Euro-pean visible supply.

\* Includes \$150,000,000 reserve fund. a Under the new form of statement adopted by the U. S. Treasury on July 1, e item "National bank notes redemption fund" is not only included in the "Debt aring no interest," but appears as a current liability in the Treasury statement "Cash assets and liabilities." In arriving at the total net debt, therefore, and avoid duplication, the amount is eliminated as a current liability, increasing that extent the cash balance in the Treasury.

The foregoing figures show a gross debt on Aug. 31 of \$1,343,783,964 66 and a net debt (gross debt less net cash in the Treasury) of \$1,044,852,814 76.

+ Increase over last week. - Decrease from last week.

+ Increase over last week. — Decrease from last week. Note.—"Surplus" includes all undivided profits. "Reserve on deposits" includes for both trust companies and State banks, not only cash items but amounts due from reserve agents. Trust companies in New York State are required by law to keep a reserve proportionate to their deposits, the ratio varying according to lo-cation as shown below. The percentage of reserve required is computed on the aggregate of deposits, exclusive of moneys held in trust and not payable within thirty days, and also exclusive of time deposits not. payable within thirty days thirty days, and also exclusive of the deposits not. payable within thirty days there are value (not exceeding par) of bonds or obligations of the State or City of New York owned by the bank or held in trust for it by any public department. The State banks are likewise required to keep a reserve varying according to loca-tion, the reserve being computed on the whole amount of deposits exclusive of time deposits not payable within thirty days, represented by certificates (according to the amendment of 1910), and exclusive of deposits secured (necording to amend-ment of 1911) by bonds or obligations of the City or State of New York, and ex-clusive of an amount equal to the market value (not exceeding par) of bonds or obligations of the State or City of New York owned by the company or held in trust for it by any public department. *—Trust Cos.*—*—State Banks— Total Or*

The Banking Department also undertakes to present separate figures indicating the totals for the State Banks and trust companies in Greater New York not in the Clearing House. These figures are shown in the table below, as are also the results (both actual and average) for the ClearingHouse banks and trust companies. In addition, we have combined each corresponding item in the two statements, thus affording an aggregate for the whole of the banks and trust companies in Greater New York.

Wall Street, Friday Night, Sept. 12 1913. The Money Market and Financial Situation .-- Practically the only event of the week affecting security values was a rumor persistently circulated on Wednesday to the effect that the Union Pacific directors, at their meeting on the following day, would authorize a liberal distribution of the proceeds of the recent sale of Southern Pacific shares. This caused an advance of nearly 6 points in Union Pacific stock, a sympathetic upward movement in other shares, and a corresponding increase in the volume of business. As no

a corresponding increase in the volume of business. As no action of that sort was taken at the Union Pacific directors' meeting, about half of Wednesday's advance was lost on Thursday, but to-day the upward movement was resumed and the stock sold 10½ points higher than earlier in the week. It is reported that this exceptional advance is a speculative movement—a theory which the facts surrounding the whole matter evidently substantiate. Other developments of the week which should logically have stimulated a somewhat more hopeful feeling was a report of greatly reduced stocks of copper metal in the hands of producers; the Government crop report, which estimated the entire wheat crop to be about 24,000,000 bushels larger than the biggest heretofore harvested—that of 1901; a report of the Steel Corporation's unfilled orders which was substantially better than had been expected, showing the falling off from last year's record to be about 233,000 tons less than for July; the beginning of a further distribution of Government funds' among, interior banks; reports from Washington that the Tariff Bill has passed the Senate and will receive early attention by the House; and a report from the Bank of England that its percentage of reserve is now at

will receive early attention by the House; and a report from the Bank of England that its percentage of reserve is now at the unusually large figure of  $60\frac{1}{2}$ . The local money market is experiencing a steady demand from the agricultural districts, but this is less urgent than has frequently been the case when crops were, as now, moving freely to market, and the opinion prevails that no undue strain will be felt during the remainder of the year. It is to be noted, however, that an analysis of the returns of na-tional banks made last month in response to a call from the Comptroller indicates that the banks outside of reserve cen-tres in nearly all parts of the country are relatively not as well prepared to meet the demands incident to the crop-moving season as last year. This feature, it is hoped, will be more than offset by the Government's deposits referred to. The open market rate for call loans at the Stock Exchange during the week on stock and bond collaterals has ranged

The open market rate for call loans at the Stock Exchange during the week on stock and bond collaterals has ranged from  $2\frac{1}{2}(\underline{a}3\%)$ . Friday's rates on call were  $2\frac{3}{4}(\underline{a}3\%)$ . Com-mercial paper on Friday quoted  $5\frac{3}{4}(\underline{a}6\%)$  for 60 to 90-day endorsements and prime 4 to 6 months' single names and  $6\frac{1}{4}(\underline{a}6\frac{3}{4}\%)$  for good single names. The Bank of England weekly statement on Thursday showed a decrease in bullion of £815,659 and the percentage of reserve to liabilities was 60.55, against 59.59 last week. The rate of discount remains unchanged at  $4\frac{1}{2}\%$ , as fixed April 17. The Bank of France shows a decrease of 1,228,000 frances gold and 7,888,000 france silver.

3,377,750 Dec. 11,274,750 2,850,250 22,437,750 Surplus reserve\_\_\_\_\_ Note.—The Clearing House now issues a statement weekly, showing the actual condition of the banks on Saturday morning, as well as the above averages. The figures, together with the returns of the separate banks and trust companies, also the summary issued by the State Banking Department, giving the condition of State banks and trust companies not reporting to the Clearing House, appear on the second page preceding.

368,465,000 346,027,250

351,104,000 348,253,750

State and Railroad Bonds.—Sales of State bonds at the Board include \$6,000 New York 4s 1958 at 983% to 98½, \$6,000 ditto 1962 at 99, and \$13,000 Virginia funded debt 1991 at 811/

1991 at  $81\frac{1}{2}$ . The market for railway and industrial bonds is reported to be in a more normal condition than earlier in the season, but, if so, transactions at the Exchange do not emphasize the fact. These transactions have averaged about \$1,300,000 per day, par value, but would have been much smaller had there not been a demand for a few specific issues, among which the local tractions have been conspicuous for both activity and strength. Otherwise the market has generally been dull and fluctuations narrow. activity and strength. Otherwise been dull and fluctuations narrow.

**Foreign Exchange.**—Sterling exchange has ruled very quiet during the week. Fluctuations were exceedingly narrow, but quotations have been well maintained, chiefly as a result of the firmer discounts abroad and smaller supplies of bills ffered.

To-day's (Friday's) actual rates for sterling exchange were 4 823 8250 for 60 days, 4 8570@4 8580 for cheques and 4 86@4 8610 for cab 4 81 1/4 @ s, 48570@48580 for cheques and 486@48anks 480%@482% and documents for pay for payment 482%@482% and grain for paym %. Cotton 1/2@4 82%.

4 82%. Cotton for payment  $4 82 \frac{4}{2} (9 + 82 \frac{8}{2})$  and grain for payment 4 82 $\frac{1}{2} (9 + 82 \frac{8}{2})$ . The posted rates for sterling, as quoted by a representative house, were not changed during the week from 4 83 for 60 days and 4 86 $\frac{1}{2}$  for sight. To-day's (Briday's) actual rates for Paris bankers' frances were 5 23 $\frac{1}{2}$  (6 5 23 $\frac{1}{2}$  during blacker's marks were 94 $\frac{1}{2}$  (less 1-16 $\frac{6}{2}$  19 $\frac{1}{2}$  less 1-32 for short. Germany bankers' marks were 94 $\frac{1}{2}$  (less 1-16 $\frac{1}{2}$  or short. Germany bankers' marks were 94 $\frac{1}{2}$  (less 1-61 $\frac{1}{2}$  or short. Cincinnati, 10c. discount: **United States Bonds.**—Sales of Government bonds at the Board include \$100,000 2s reg. at 98½, \$25,000 Panama 3s coup. at 100, \$1,000 3s coup. at 102¼ and \$10,000 4s reg. at 110¼. For to-day's prices of all the different issues and for yearly range, see third page following.

for yearly range, see third page following. **Railroad and Miscellaneous Stocks.**—The stock market was dull and generally steady during the early part of the week. On Wednesday, as noted above, a good deal more business was transacted, accompanied by a sharp upward movement of prices. Thursday the market was again dull and reactionary, a considerable part of Wednesday's advance having been lost. To-day Wednesday's advance was re-sumed, led, as then, by Union Pacific, and several issues scored a sensational advance. The movement was evidently a speculative one, as there is no adequate reason known te the well informed why any stocks should sell, as did Union Pacific to-day, 10½ points higher than on Tuesday, or Cana-dian Pacific 8½ points, or why other railway issues should have advanced from 3 to 4½ points during the same time. Virginia-Carolina Chemical shows an advance of 7 points, California Petroleum 3½ to 4½, and other industrial stocks are substantially higher.

are substantially higher. For daily volume of business see page 719. The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

RAILROAD GROSS EARNINGS. The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns columns the earnings for the period from July 1 to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. The returns of the electric railways are brought together separately on a subsequent page.

## ANNUAL REPORTS.

Annual Reports.—An index to annual reports of steam railroads, street railways and miscellaneous companies which have been published during the preceding month will be given on the last Saturday of each month. This index will not include reports in the issue of the "Chronicle" in which it is published. The latest index will be found in the issue of Aug. 30. The next will appear in that of Sept. 28.

## Illinois Central Railroad.

## (Report for Fiscal Year ending June 30 1913.)

The full text of the remarks of President Markham is given on subsequent pages; also the detailed operating revenues and expenses and income account for two years, comparative balance sheet for two years and numerous tables, including comparative traffic and operating results, &c. Below we give comparative operating revenues and expenses for four years (the figures in the three later years including the Indianapolis Southern RR., 176.94 miles, and the Omaha Bridge & Terminal Ry., 2.03 miles); also the income account for three years.

## New York Railways Company, New York City.

(Report for the Fiscal Year ending June 30 1913.)

Pres. Theo. P. Shonts, N. Y., Sept. 1; wrote in substance: PTes. Theo. P. Shonts, N. Y., Sept. 1; wrote in substance: Results.—Comparing with the year 1911-12 (six months of which were under receivers' operation), the revenue from transportation shows an in-crease of \$407,832; other operating revenue a decrease of \$46,390, resulting in a net increase in gross earnings of \$361,442, while the operating expenses show a decrease of \$97,345 and taxes of \$21,206. The resulting increase in income from operation was therefore \$479,992, which, with an increase in non-operating income of \$116,723, and making due allowance for the variation of \$106,000 in income from dividends not included during the receivership period (for the six months ended Dec. 31 1911), makes a total improvement in gross income of \$490,715. There has been expended for maintenance of track and roadway, electric line, buildings and structures, &c., \$1,216,759, and for maintenance of equipment, power plant, cars ,&c., \$966,564; the extraordinary charges for

improvements and replacements, included in the operating expenses, amount to \$582,153. An amount equivalent to 8% of the gross passenger revenue has been set aside for actual and contingent injury and damage claims and expenses of litigation. The full amount assignable for the year's taxes has been accrued or paid. A favorable decision is anticipated on amounts in litigation which, if re-ceived, will contribute a considerable refund to the credit of income account. By order of the P. S. Commission, the company has accrued 20% of its gross operating revenue for maintenance and a depreciation reserve fund. In case of a reversal of this order, so much of the amount as the board of directors may deem to be unreasonable will be credited to net income available for interest on the company's bonds. In all probability the writ of certiorari allowed April 17 1913 will be presented to the Court and a de-cision received before Jan. 1 1914. Railroads Owned and Leased.—We own about 46.06 miles of single track of

cision received before Jan. 1 1914. Railroads Owned and Leased.—We own about 46.06 miles of single track of street surface railroads, of which 29.60 miles are underground electric and about 16.46 miles horse railroad. There are also about 100.68 miles of single track controlled and operated under leases, of which about 92.10 miles are underground electric and about 8.58 miles of horse railroads. The company also operates over 12.27 miles of track under agreements with the City of New York and other railroad companies, of which 11.98 miles are underground electric and about 2.9 miles horse railroads.

Extension.—The extension of the tracks on 116th St. from Pleasant Ave. to the East River has been completed.

The boundary deck of the characterized interact under schements
 The boundary of the set of the

a 3-cent transfer ticket, thus giving the Borough of Richmond the 5-cent fare into Manhattan. Central Park North & East River RR. Co.—Among the obligations of the above company was \$1,200,000 First Consol. M. 7% bonds owned by the Metropolitan Street Ry. Co. Interest on these bonds remained unpaid from June 17 1908 and on Nov. 14 1912 the property was sold under fore-closure for a sum sufficient to pay the entire mortgage debt with accumu-lated interest, amounting to \$1,543,376. This sum was turned over to the trustee of the 4% refunding mortgage of the New York Railways Co. on April 26 1913 and is now held as additional collateral thereunder. The property is now known as the Belt Line Ry. Corp. and controlled by Third Ave. Ry. Co.] (Compare V. 95, p. 1331, 1402, 1744; and Belt Line Ry. Corp., V. 96, p. 200, 284, 789, 862, 1020; V. 97, p. 520.) Central Crosstown RR.—The New York Railways Co. controls absolutely the entire note issue of \$2,250,000, which in turns controls the entire con-solidated mortgage bond issue of \$2,490,000 held as collateral to said notes: The New York Railways Co. We plan to consolidate the Central Crosstown lines with the N. Y. Railways Co.'s lines through Metropolitan Co. together control, except for a small outstanding interest, substantially all crosstown lines with the N. Y. Railways Co.'s lines through the form of a legal merger or by foreclosure. (V: 94, p. 766; V. 96, p. 1772.) Adjustments.—Considerable progress has been made during the past year in the final adjustment of receivership matters, and many intricate questions have been settled. Metropolitan Crosstown Ry. 1st M. Bonds.—The entire \$600,000 issue has been acquired and is at present carried in a lon. This debt. being nark

year in the final adjustment of receivership matters, and many intricate questions have been settled. Metropolitan Crosstown Ry. 1st M. Bonds.—The entire \$600,000 issue has been acquired and is at present carried in a loan. This debt, heing part of original cost of property, can be extinguished either by the issue of 4% bonds, the use of cash now in the hands of the trustee or from the proceeds of real estate sales. (V. 94, p. 1627.) Wages.—In order to establish a uniform rate of pay properly graduated over a period of five years, a general increase in wages was granted to all motormen, conductors, inspectors, starters, flagmen, switchmen, car-house helpers, &c. This became effective as of Feb. 2 1913 and increased our pay-rolls about \$106,000 per annum. Special Cash Fund.—This fund of \$554,000 was received from the joint committee on reorganization, having been contributed as working capital. *Finances.*—The financial condition of the company is excellent.. It has cash in bank amounting to approximately \$1,800,000, not including cash in the hands of trustee and bills receivable representing loans to the City of New York amounting to 31,000,000. *Income Interest.*—By agreement with the directors representing the in-come bondholders, the amount payable on the income bonds for the first six months' period of operations was adjusted at \$7 71 per \$1,000 bond, For the corresponding six months' period of this year the amount author-ized was \$16 36 per \$1,000 bond. For the last six months' period of 1912 the amount paid was \$22 50 per \$1,000 bond. The corresponding period will be the last six months of this calendar year. *Improved Cars.*—The company will have in operation this fall additional improved acquipment consisting of 175 neves.vondere stepleter effectives.

will be the last six months of this calendar year. Improved Cars.—The company will have in operation this fall additional improved equipment consisting of 175 pay-as-you-enter stepless cars (including 150 authorized before July 1 1912 and 25 after that date) and 45 electric-storage battery stepless cars (the intention being to substitute the latter equipment for horse cars on all the existing horse car lines as soon as possible). The operation of this new equipment will economize power, lessen the percentage of injuries and insure the collection of fares: *Future Earnings.*—In addition, there will be reflected in future earnings the benefits accruing from the expenditure of approximately \$2,500,000 during the past year for maintenance, additions and betterments, which were not sufficiently advanced to be of any material advantage the past year.

California Shasta & Eastern Ry.—Acquisition.— A deed of the Anderson & Bella Vista RR., 15 miles long, from J. Terry of Sacramento, was delivered to the company on Sept. 4. Comp. V. 96, p. 947.—V. 97. p. 520.

Canadian Northern Ry.—Acquisition.— See Chatham Wallaceburg & Lake Erie RR. below.—V. 97, p. 592, 520.

See Unatham Wallaceburg & Lake Erie RR. below.—V. 97, p. 592, 520. Canadian Pacific Railway.—Slock, &c.—The London Stock Exchange has been requested to list a further issue of £745,481 4% non-cum. pref. stock and £1,766,153 perpetual 4% consolidated debenture stock, making the amounts listed £15,173,563 and £32,725,383 respectively.—V. 97, p. 594, 666.

Central Railway of Canada.—Overdue Coupons.—The Montreal Gazette" of Sept. 9 had the following from the "Montreal Gazette Canadian Associated Press:

In consequence of the uneasiness that is being displayed on this side of the water regarding the position of the French bondholders of the Central Railway of Canada, the London representative, on behalf of the President of the company; says that there appears to be no doubt that all coupons of French bonds have been duly paid except the last, and that the delay which has arisen is entirely due to the voluntary liquidation of La Banque Alsacienne de Paris. It is, however, definitely stated that this coupon, which fell due in July, will be paid on or about the 15th of this month.— V. 97, p. 175.

Chatham Wallaceburg & Lake Erie RR.—Sale.—At the annual meeting on Sept. 3 a majority of directors were elected representing the Canadian Northern Ry. The road extends from Chatham to Wallaceburg, Erie Beach, Charing Cross and Pain Court, Ont., 38.95 miles.—V. 81, p. 1435.

Cross and Pain Court, Ont., 38.95 miles.--V, 81, p. 1435. Chicago Elevated Ry.-Purchase:--The company, it is reported, now owns practically all of the stock of the under-lying companies, having just purchased 312 shares of North-western Elevated RR. pref. from David J. Evans, etc. The latter brought suit to compel the company to pay the Northwestern Elevated full value for its \$25,000,000 first mortgage bonds, which, it was alleged, had been issued for \$20,000,000. Complete corporate merger of the elevated roads is expected in connection with the financing necessary to refund the \$30,000,000 Chicago Elevated Rys. 5% notes due July 1 1914.--V. 96, p. 1772.

1914.—V. 96, p. 1772. Chicago Great Western RR.—New Securities.—The company on Sept. 9 applied to the Missouri P. S. Commission for permission to issue \$3,116,000 in bonds and a similar amount in 4% pref. stock to be issued in connection with the acquisition of the defaulted bonds of the Wisconsin Minne-sota & Pacific RR., per plan in V. 97, p. 51, 178, 523. It is understood that the Commission granted the application. —V. 97, p. 49. Chicago Bailways —Protect — John A. Proven of Chicago

Chicago Railways.—*Protest.*—John A. Brown of Chicago, as Attorney for the holders of consolidated M. bonds of 1907, has served notice on the trustees of the various mort-gages of the company and the directors, protesting against the further payment of dividends on the participation certfs.

the further payment of dividends on the participation certfs. The mortgage debt, it is said, amounts to \$90,084,611, against a valua-tion of \$77.488.461, for which the city may take over the property at any time for municipal operation within the franchise term. The latter, it is stated, includes about \$30,000,000, the original valuation of the properties taken over by the company, and the brokerage fee of \$5,995,000, leaving the present value of the property \$41,493,460, an amount insufficient to discharge the liabilities. This, it is said, would make it illegal for the com-pany to pay dividends. Suit is threatened unless the notice is heeded. Chairman Henry A. Blair says: "I don't know what is behind the suit to restrain dividends, but I suspect it is the same crowd that has been doing its best to injure the company and hamper the present manage-ment. One day this crowd brings a suit because we do not pay dividends and the next day they seek to prevent us from paying dividends. It is not far so the origin of the company and hamper the attorney in the suit is also attorney of record for James B. Hogarth, a discharged official, who recently filed a bill for accounting against the company and others, and that the management will defend itself against all such attempts to embarrass it. *Request for Proxies.*—A letter signed by Wallace Heckman

Request for Proxies.—A letter signed by Wallace Heckman, Seymour Morris and Henry A. Blair has been sent to the holders of the participation certificates, series 1, 2 and 3, urging that in their judgment the best interests of the com-pany require that the present management retain control for the ensuing year. for the ensuing year.

IOF LHE ENSUING YEAR. It is stated that if the protective committee should obtain control, the commercial value of the participation certificates would be destroyed. The criticisms of the present management have, it is said, emanated from sources in which there is a lack of understanding of the problems confronting it and are based "upon either deliberate misrepresentations and misstatements, or upon rumors spread by discharged employees and by others whose interests are inimical to those of the company." The present directors, it is said, not only represent large and substantial interests in the company, but each one of them, without a single exception, is a man of excellent repute in Chicago and represents interests of great magnitude. Certificate holders are requested to send their proxies to F. L. Hupp, Secretary of the Chicago Railways Co., 1504 Borland Block, Chicago. —V. 97, p. 442, 364.

International & Great Northern Ry.-Equipment Trust Notes.--The Equitable Trust Co., the trustee for the issue, recently offered, at a price to yield 6¼%, \$1,000,000 5% equipment trust gold notes dated Aug. 1 and maturing \$50,000 semi-annually from Feb. 1 1914 to Aug. 1 1923, par \$1,000. (Interest F. & A. in N. Y.) A direct obliga-tion of the railway covering new equipment costing about \$1,245,000. The advertisement, which appears on another page, is published as a matter of record only, the entire issue having been sold.--V. 97, p. 521.

having been sold.—V. 97, p. 521. Jamestown Chautauqua & Lake Erie Ry.—Sale—De-posits.—The bondholders' committee (Richard S. Storrs and St. George B. Tucker) notify the bondholders and holders of certificates of deposit of the N. Y. Trust Co. for 1st M. 4% bonds that, to participate in the plan of Aug. 26 for the sale of the property, they should deposit their holdings with Bertron, Griscom & Co., 40 Wall St. (the bankers who placed the receivers' certificates), on or before Sept. 25. In circular of Sept. 3 the committee says in substance:

with Bertron, Griscom & Co., 40 Wall St. (the bankers who placed the receivers' certificates), on or before Sept. 25. In circular of Sept. 3 the committee says in substance:
 On July 1 1966 the company defaulted on the interest then due upon its 4% bonds secured by 1st mite. of Dec. 23 1900. By agreement dated July 28 1911, a committee secured a deposit of over 90% (\$718,000) of the outstanding bonds (\$750,000). The N. Y. Trust Co., as substitute mortgage securing the \$250,000 brands of Jamestown & Chautauqua RY. Co., which are deposited as part security for the bonds of the J. O. & L. E. By. Co. The two railways will be sold on the same day (Oct. 7).
 Prior to the receivership, the property had been operated at a loss of about \$30,000 ayee, exclusive of interest charges, and the receiver found the property badly in need of repair. Notwithstanding his efforts to increase rownee and keep down expense account, the property has not been able to earn operating expenses. Early in 1912 bad washouts necessitated large expenditures. A total of \$163,000 receiver's certificates has been is sued for repairs and renewals and for oper, expenses not met out of stand,000 is needed for weballitation during the next 12 months.
 Facing this condition, the committee has concluded that the interests of the bondholders would be best served by a sale of the property, and it has, therefore, subject to their approval, entered into an agreement dated Aug. 26 1913, providing for a sale upon terms which should eventually yield to bondholders about 26% of the par value of their bonds.
 The committee strongly recommends said sale. The J. C. & L. E. Railway from Jamestown to Mayville, 21 miles, and the J. & C. Railway from Jamestown to Mayville, 21 miles, serving no places of importance except Jamestow (population from trunk lines also mill tates against a profitable business. The continued operation of the property by the receiver would necessitate the issue of additional receive

Metropolitan Street Ry., New York. - Sale. ---William L. Turner, as Special Master, will, on Oct. 7 at 12 o'clock noon, offer at auction through Joseph P. Day, as auctioneer, at the County Court House, Manhattan, by order of the U. S. District Court in the matter of the petition of the receivers of the company for an order directing the receiver of the New York City Ry, to deliver to them the proceeds of an action against Metropolitan Securities Co. all of the right, tille and interest of Metropolitan Securities Co. all of the right, tille and interest of Metropolitan Securities Co. all of the right, tille and interest in and to certain real estate in the Borough of Manhattan, City of New York, eituated east of First Ave., and running from 94th to 95th Street. ---National Railways of Mexico. --Mexican Government to

York, eliuated east of First Ave., and running; from 94th to 95th Street.-V. 95, p. 47. National Railways of Mexico.-Mexican Government to Put up Any Funds Needed to Meet Oct. 1 Interest.-The Mexi-can Govt., it is announced, has agreed to provide whatever funds may be required to meet the interst payments due Oct. 1, aggregating about \$1,500,000 (U. S. currency), on the General Mortgage 4% guaranteed bonds of the National Railways of Mexico and the First Consolidated M. 4% bonds of the National Railways Co. of Mexico. Special Cable Dispatch to the "New York Sun" from Mexico City, Sept. 10. On Oct. 1 interest on the guaranteed bonds of the National Railways of Mexico, amounting to \$1,500,000, will fall due. The payment of the in-terest on these bonds is guaranteed by the Mexican Government, and as the railways cannot pay the amount about to fall due on account of the losses suffered during the present revolt, the Government has assumed responsibility. The Government also has undertaken to pay \$495,000 interest falling due on the same date on consolidated bonds of the National RR. of Mexico, who said that the payments will be made from funds standing to the eredit of the Government in nine local banks, out of the loan, of wales a part was floated in Paris, and which will probably be raised to

\$7,500,000. The Government, it is stated, has taken this step in order to retain control of the railways and forestall any foreclosure proceedings by the bondholders.—V. 97, p. 666, 595.

the bondholders.—v. 97, p. 666, 595. New Jersey & Pennsylvania RR.—Order.—The New Jersey P. U. Commission on Sept. 5 issued an order declaring that the extension of time within which to raise money for needed repairs will expire in 30 days, and that unless the same s procured, operation by the receiver must cease.

Part of the work has been done but is now at a standstill. The road, it s reported, is in need of 100 tons of new rails, and most of the bridges are unsafe. Pending the making of further repairs or suspension of traffic, trains will have to run slowly.—V. 96, p. 1630.

trains will have to run slowly.—V. 96, p. 1630. New York Central & Hudson River RR.—Sale of Notes. —J. P. Morgan & Co. have placed on a 5½% basis a new issue of \$5,000,000 5% 1-year notes, dated Sept. 15 1913, denoms. \$1,000, \$5,000 and multiples. Investigation.—Hearings were begun on Wednesday by the Inter-State Commerce Commission in the investigation ordered by resolution of the U. S. Senate on July 10 last in regard to the proposed new bond issue, limited to \$167,-102.400.

regard to the proposed new bond issue, infinited to \$107,-102,400. J. P. Morgan testified that the company would need in the next 10 years about \$255,000,000 new capital and the Lake Shore about \$100,000,000. There are now outstanding about \$22,000,000 of New York Central short-term notes and about \$24,000,000 of Lake Shore short-term notes which will mature in the next 18 months. Mr. Morgan said that in his judgment the New York Central would save more than  $3^{\circ}$  of 1% additional interest it would be required to pay an account of the consenting LakeShore col-lateral bondholders by being able to finance the road's requirements under the proposed plan of a mortgage to become lien on the consolidated com-panies.—V. 97, p. 365, 176.

the proposed plan of a mortgage to become lien on the consolidated com-panies.—V. 97, p. 365, 176. New York New Haven & Hartford RR.—J. P. Morgan & Co. Cancel Contract.—In view of the change in the manage-ment of the road J. P. Morgan & Co. on Sept. 5 gave the necessary 90-days' notice of their intention to terminate the agreement under which they have acted as fiscal agents for the company. The firm, it is understood, is ready to enter into a new agreement to serve as fiscal agents and advisers for the road in case it is the wish of the management that they should do so, the purpose of the firm being to leave President Elliott free to shape the policy of the road in this regard as he may see fit. In response to a request from President Elliott, J. P. Mor-gan & Co. have furnished substantially the following data to the Mass. P. S. Commission regarding the underwriting commissions received by the firm from the New Haven system since Nov. 17 1910, the date of the fiscal agency agreements.

agreements.

agreements. Since Nov. 17 1910 the New Haven, the Boston & Maine and the Maine Central have raised for refunding and other purposes \$168,627,000, on which commissions amounted to \$889,405, approximately  $\frac{1}{2}$  of 1%. The total profits of J. P. Morgan & Co. were \$441,000, or  $\frac{1}{2}$  of 1%. The total profits of J. P. Morgan & Co. were \$441,000, or  $\frac{1}{2}$  of 1%. The total profits of J. P. Morgan & Co. were \$441,000, or  $\frac{1}{2}$  of 1%. As to the possible profit on the proposed issue of \$67,552,000 New Haven debentures, J. P. Morgan & Co. have retained one-third of the bankiers undertaking originally assumed by J. P. Morgan & Co. alone, commission on which will be \$112,587. In addition Morgan has subscribed \$5,000,000 to the syndicate upon the same terms as every other subscribed \$5,000,000 which the commission will be 2%, or \$100,000. Thus the total possible profit, including all commissions, is \$212,587, or approximately three-tenths of 1%.

Earnings for July .-- President Elliott is quoted as saying:

For July 1913 the road's earnings equaled all expenses and taxes, one-twelfth of the annual charge for dividends and interest, and a \$200,000 surplus. It is true that this figure is \$350,000 below the figure for July 1912, and July is a month of big earnings, but such a figure puts a receiver-ship out of the question.

Bond Issue, &c.—Before the Mass. RR. Comm. Sept. 9 President Elliott said:

President Elliott said: There are debts to be paid next December amounting to \$40,000,000 (the one-year 5% notes) and more debts are to be paid in January amounting to \$6,000,000, all large sums. A railroad is never finished. Vast improve-ments have to be planned in advance. The company has ordered equip-ment for \$7,000,000 of the most vital importance to safety and has con-tracted for future equipment of several millions. In addition to this the ordinary list of betterments authorized amounts to \$12,000,000. But this is not all. Additional tracks and terminal yards will have to be made and money must be provided as we go along for abolition of grade crossings, for freight facilities and rolling stock, signals, &c. (see V. 97, p. 595). It would seem that the directors acted wisely in authorizing these \$67,-000,000 debentures. The securing of this \$67,000,000, ill make it easier later to secure the \$29,000,000 that will be needed on the Boston & Maine before next June. It is not only a question for the management, it is a question for the employees, the stockholders and the shipping public. Check the proper development of the road and you check also the progress of the whole of New England. I'Pres. Kochersporger is quoted as saying that the company's share in the Grand Central, Station in New York was \$3,329,000, which gave it a permanent right in about half of the station. The company expects a good return from the buildings above the station.] Mr. Mellen's Position.--Mr. Mellen is quoted as saying:

good return from the buildings above the station.] Mr. Mellen's Position.—Mr. Mellen is quoted as saying: Despite all you may hear to the contrary, I have no connection whatever with the New Haven, and don't expect to have. I am retained to give in-formation and advice when called upon, at all reasonable times. I am in no sense an officer or employee and have the privilege of paying my fare the same as you do, and I shall kick and cuss when trains are late the same as if I were a citizen of Boston.—V. 97, p. 595, 666. Suil.—According to newspaper accounts this week, Attorney-General McReynolds has instructed Thomas W. Gregory of Austin, Tex., his special assistant who has been conducting an investigation, to prepare a bill in a new suit under the Sherman Anti-Trust Law. The suit begun by the Roosevelt Administration against the company

The suit begun by the Roosevelt Administration against the company and the Boston & Maine was dismissed on motion of Attorney-General Wickersham, Attorney-General under ex-President Taft.—V. 97, p. 666,595.

Northern Illinois Light & Traction Co. of Ottawa, Ill.—*Capital Stock.*—The company was recently reported as increasing its capital stock from \$250,000 to \$750,000. Compare V. 95, p. 1123.

Pittsburgh Youngstown & Ashtabula Ry.—Bonds.— Brown Brothers & Co. and Henry & West, Philadelphia, have place at 93 and int., yielding 4.40%, \$640,000 First Gen. M. Sinking Fund 4% gold bonds, series "" of 1908, due June 1 1948. (Interest J. & D.) Authorized, \$15,000,000; outstanding, \$2,586,000; canceled by sinking fund, \$54,000. Par \$1,000c\*. Tax-exempt in Pa. The advertisement ap-pears for record on another page. A circular shows:

A first and general mortgage on 137 miles of standard steam railroad ex-tending principally from Kenwood, Pa., to Newcastle, Pa., and Ashtabula, O., &c., subject only to \$1,652,000 underlying 5% bonds (at less than \$13,-000 per mile.) First General. 4s being reserved to retire these at maturity ; total outstanding bonded debt about \$30,000 per mile. Including a direct and short route to Lake Erie from Youngstown, at which city the Carnegie Steel Co. and National Tube Co. (subsidiaries of U. S. Steel Oorp.); Re-public from & Steel Co., Youngstown Sheet & Tube Co., &c., have plants and furnish a large and constant tonnage over this road. Annual sinking fund 1% of outstanding issue for purchase of bonds in the open market at par and int. or less. Bonds are not subject to call. For the cal. year 1912 the net earnings were over 12 times the interest charges, including the present issue. Property is leased for 999 years to bonds and dividends of 7% per annum on both the [\$9,088,450] pref. and the [\$2,100,000] common stocks. Pref. stock is quoted at about \$150 per share. The bal. sheet shows assets of over \$19,000,000; bonds now out only \$4,148,000, incl. this issue. -W. 96, p. 1630.

New Board of Directors as Reduced from Nine to Six.— Sir Rodolphe Forget, M.P., President; Hon. Robert Mackay and J. N. Greenshields, K.C., Lorne C. Webster, Paul Galilbert and O. D. Lesper-ance, M.P., Directors who retired, Hon. J. P. B. Casgrain, Messrs. L. O. Marcoux and O. B. d'Aoust.

Marcoux and O. B. d'Aoust.
 No meeting.—"Financial Times" Montreal, says: No representatives of the bondholders appeared at the meeting called for Sept. 2 last by the trustees of the two so-called "French issues" to consider what should be done in view of the registration of a lien against the mortgage property by the contractors, Messrs. O'Brien & Doherty.
 It is supposed that the holders, who are entirely in France, Belgium and Switzerland, did not have time or opportunity to arrange for representation in Montreal. The trustee, the Quebec Savings & Trust Co., will, it is understood, take such action as it considers advisable with out further consultation of the bondholders.
 Messrs. Campbell, McMaster and Papineau have brought action against the Quebec & Saguenay Railway Co. on behalf of Messrs. O'Brien & Doheny for \$839,511 for balance of money due under contract and for damages for its breach. The other action is still pending for \$300,000 and is set for trial in October. O. B. d'Aoust is President of the Quebec & Saguenay Railway Co. and Sir Rodolphe Forget is a director...-V. 97, p. 366, 238.

 Rapid Transit in New York City.-Bids Asked.-The P. S. Commission invites proposals to construct Section No. 2 of
Routes 4 and 38, a part of the Seventh Ave.-Lexington Ave. Rapid Transit
R. Beginning at a point under Greenwich St. Manhattan, near the
ing thence northerly under Greenwich St., West Broadway and Varick St.,
to about 100 ft. south of Beach St., and also a branch beginning at a point
inder Park Place, Manhattan, about 117 ft. east of the easterly line of
West Broadway, and curving thence northwesterly under Park Place,
private property and West Broadway to a connection with the main line.
The City and the Interborough Co. for the purpose of disbursing part of
its contribution toward the cost of construction, as provided in the contract
ated Mar. 19 1913 between the City and the Interborough Co. for the
equipment, maintenance and operation of additional rapid transit railroads.
The liability of the Interborough Co. will be limited to an amount equal to
95% of the aggregate sum arrived at by multiplying the estimated approximate quantities by the Unit Prices as contained in the Schedule of Unit
prices in the contractor's proposal. The contractor is to agree not to
look to the city except to the extent that the amounts earned under the contract may exceed the amount for which the Interborough Co. is liable.
A public hearing has been set for Sept. 26 on the form of construction
contract to be used for the Brooklyn Rapid Transit tunnel to run under the East
Miver to Brooklyn.
The plans for the river tunnel are not yet ready, but the engineers of the
Commission have been at work on the more several weeks, and it is hoped
that the Commission will be able soon to advertise for bids for the under
the St. Audit Co. 400 the severation of the Brooklyn Rapid Transit tunnel to run under the contract may exceed the amount for which the Interborough Co. is liable.

St. Louis Southwestern Ry.—Dividend Reduced.—A quarterly dividend of 1% has been declared on the \$19,893,-650 5% non-cum. pref. stock, payable Oct. 15 to holders of record Sept. 30, comparing with 1¼% quarterly from Oct. 1912 to July 1913 and a semi-annual distribution of 2½% in July 1912 and of 2% in Jan. 1912.

President F. H. Britton says:  
The outlook for traffic program of the following to the following to the

The outlook for traffic revenue, owing to the injury to the cotton and other crops, is not as good as heretofore, while the gradual increased ratio of expenses to earnings is the same as upon other roads, and, although the company has a substantial amount of cash on hand, with no floating debt, and the earnings might seem to warrant a continuation of the former rate, the directors were unanimous in the opinion that, as a precautionary meas-ure, the rate of dividend should be reduced.—V. 97, p. 455, 366, 360.

# South & North Alabama RR.—Proposed Sale. See Louisville & Nashville RR. above.—V. 88, p. 1622.

Southern Pacific Co.—Equipment Trust.—The com-pany, it is said, has arranged with bankers to take \$7,130,000 additional  $4\frac{1}{2}$ % equipment trust certificates, provided the necessary authorization can be obtained from the Cal. RR. additional 472 /0 equipment of disc continuous, provided the necessary authorization can be obtained from the Cal. RR. Com. This amount includes the ramainder (\$5,120,000) of the \$10,120,000 issue, of which \$5,000,000 were sold last May to Kuhn, Loeb & Co. and \$2,010,000 of a new issue (series B) to be dated Sept. 2. See V. 96, p. 1425; V. 97, p. 597.—V. 97, p. 667.

Third Avenue Ry., New York.—Income Interest.—The semi-annual installment of  $2\frac{1}{2}\%$  on the 5% adjustment income bonds for the 6 months ending June 30 1913 will be paid on Oct. 1 at the United States Mortgage & Trust Co. The first distribution of  $1\frac{1}{4}\%$  was made on April 1. Compare V. 97, p. 177.

Union Pacific RR.—Rumors.—The quotations for the company's stock rose considerably this week on the New York stock market on indefinite rumors of the probable declaration at some future time of an extra dividend from the proceeds of the \$88,357,600 certificates of interest in Southern Pacific Co. stock, from which about \$68,000,000 cash has been already received by exercise of the right by subscribers to pay for the same in full at this time. There is apparently nothing but a speculative basis for the rumors, directors being quoted as saying that the matter has not been considered by the board, although it may have been informally discussed. No announcement, it was reported, is likely to be made before the middle of next month at the earliest. Tharman Lovett is quoted as saying that the report that he sald that the got of a cash bonus to stockholders would be discussed at the meeting on Thursday was absolutely incorrect, but that "what I did say was that the cived from the sale of the Southern Pacific stock has not been decided that the matter will not be allowed to drift for a very long period. 'I do not care, however, to discuss the subject at this time."

Allotment.—The allotment to members of the Southern Pacific syndicate is 8.27%. The syndicate was, it is stated, dissolved on Wednesday, the profits of about \$900,000 being distributed to the 600 participants.—V. 97, p. 667, 522.

Williamsville Greenville & St. Louis RR.—Application for Receiver.—Canadian owners of \$230,000 bonds on Sept. 5 filed suit in the U. S. District Court at St. Louis, Mo., for the appointment of a receiver. Interest on the outstanding \$525,000 5% bonds has been, it is stated, defaulted during the last six years.

## INDUSTRIAL, GAS AND MISCELLANEOUS.

Alaska Gold Mines Co.—Listed on N. Y. Stock Exchange. The New York Stock Exchange has listed \$7,500,000 stock; par of shares \$10. A Maine corp. (incorp. Aug. 26 1912). owning \$3,184,000 of the \$3,500;000 outstanding 1st M. 6s and \$10,847,905 of the \$12,000,000 out-standing capital stock of Alaska Gastineau Mining Co., owning numerous lode and placer claims, &c. Charles Hayden, Boston, is President of the holding company.—V. 95, p. 482.

American Agricultural Chemical Co.—New Director.— Galen L. Stone has been elected a director to succeed W. H. Detrick, who resigned.—V. 97, p. 515.

who resigned.—V. 97, p. 515.
 American Coal Products Co.—Explanation.—
 In view of numerous inquiries regarding the reported dissolution of the "Coal Tar Products Trusts", under the decree of the Federal Court in the proceedings brought by the Government, ex-Senator John C. Spooner, counsel for the company, has issued the following statement: "While the mistake is a natural one for any layma, a misconception has arisen through misuse of the word trust. No trust in the true meaning existed in American Coal Products Co. or Barrett Manufacturing Co. and their allied institutions and subsidiaries. The suit against American Coal Products Co. and others was not for dissolution of these companies, but only for modification of there is a natural and contracts between those companies, and for dissolution of four concerns—National Coal Tar Co., Union Coal Tar & Chemical Co., W. H. Rankin Co. and N. Y. Coal Tar & Chemical Co., as for the decree agreed to make certain changes in the conduct of the business of the American Coal Products Co. as follows: First: That certain clauses in contracts held by Barrett Manufacturing Co. be changed, contracts when so changed to remain in force. Second: That the Barrett Manufacturing Co. reduce its percentage of holdings in H. F. Watson Co. from 70% to 45%, so that it might not have control. Third: That certain active subsidiaries of Barrett Manufacturing Co."—N. 97, 9. 667, 46, 51.

-V. 97, p. 667; 46, 51. American Malt Corporation.—Merger.— The stockholders of the company and of the American Malting Co. approved the agreement merging the two corporations in the name of the former. Of the Malting Co.'s stockholders, 273,479 shares voted in favor of the proposition and 1,020 against, the small minority interests protest-ing on various grounds. Of the Malt Corporation stockholders 101,126 shares approved the agreement, with only 372 opposed. The matter must now go before the Board of P. U. Commissioners of N. J.—V. 97, p.367, 178. American Type Founders Co.—Bonds Called.— Twelve 6% sinking fund gold bonds of \$1,000 each, three of \$500 each and eight of \$100 each issued under the trust indenture of May 1 1896 for payment at 105 and int. on Nov. 1 at Bankers Trust Co., N. Y.—V. 96, p. 1300.

-V. 97, p. 115. Detroit City Gas Co.—Acquisition.— The company on Aug. 1 took over the physical properties of the Detroit & Suburban Gas Co., the stockholders of the latter having voted to sell the same. Payment was made from cash on hand, no securities being issued to finance the deal. The §327,000 Detroit & Suburban Gas Co. 1st M. 20-year 5% bonds due Dec. 1 1928 (V. 89, p. 1413) will remain outstanding as an underlying lien. The Suburban company operated in the Eighteenth Ward of Detroit (formerly the village of Delray) and in the suburban towns of Ecorse, Oakwood, Trenton, River Rouge, Woodmere, Springwells, Ford and Wyandotte, the population served being about 70,000. The property purchased consists of a coal-gas plant with a dally capacity of 632,000 cubic feet, a water gas-plant with 750,000 cubic feet capacity, with one generator set in reserve and 110 miles of mains connected with 6,750 meters. The annual output was said to be about 190,000,000 cubic feet.—V. 97, p. 179. Detroit & Suburban Gas Co.—Sale \_\_\_\_\_\_

Detroit & Suburban Gas Co.—Sale.— See Detroit & Suburban Gas Co.—Sale.— See Detroit City Gas Co. above.—V. 97, p. 179. Dominion Glass Co., Ltd., Montreal.—1st Pref. Div.— An initial quarterly dividend of 1¼% has been declared on the \$2,600,000 7% cumulative pref. stock, payable Oct. 1 to holders of record Sept. 15. —V. 97, p. 119.

7% cumulative pref. stock, payable Oct. 1 to holders of record Sept. 15. -V. 97, p. 119. **Eastman Kodak Co.**—Foreign Plants.— The "Boston News Bureau" abstracts an article in the "Philistine" discussing the Government suit against the company, as follows: The Eastman Co. had plans complete for a doubling of manufacture. Instead of employing 10.000 people, they were going to employ 20.000. And all of their agencies all over the world were to be supplied with goods from the Rochester factory. This assault by the Government has caused the Eastman people to change their minds. They have canceled their order for building and for materials and are now preparing to supply the foreign market largely from their European factories. Italy wants big business. The Italian plant of the Eastman Kodak Co. will employ more than 10.000, and how many of these people are Americans? Just 42 of them. These 42 will equip the factory and start the business. In Rochester gloom pervades the atmosphere because the Government has struck a deadly blow at its greatest industry and has hit hard thousands of its best and most worthy citizens. The Eastman also have a kodak plant at Harrow, England, which is being trebled in size. Also, this concern has recently bought 35 acres in one of Toronto's delightful suburbs and a model plant is there being erected." The "News Bureau" says: "The Ansco Co. is known as an 'independent'. The Eastman is referred to as the 'trust'. I asked the Ansco people if they had any complaints to make about the methods of business in vogue with the Eastman Co. Their reply was: "The Eastman people maintain prices, and this is to our great advantage and benefit. Also, they have educated to world to the use of the camera, and on this fact we have been enabled to build our business. The Eastman Kodak Co. has created a market not only for their goods, but for ours.' "-V. 97, p. 524... Edison Electric Illuminating Co. of Boston.—*Earns*.—

Elk Horn Fuel Co.—Offering of 1st M. Convertible Gold Notes.—The Federal Utilities (Inc.) and the Guaranty Trust Co. of New York and Fidelity Trust Co. and Mercantile Trust & Deposit Co. of Baltimore recently offered, at 93 ½ and int., yielding over 6½%, the total issue of \$4,000,000
1st M. 5% 5-year convertible gold notes, dated May 1 1913. The Federal Utilities (Inc.), as managers of the syndicate, announce that the entire amount has been sold, but for purposes of record the advertisement offering the issue is given on another page of to-day's "Chronicle."
These notes are due May 1 1918, but are redeemable at option of company (in whole or in part by lot) on any interest date upon 60 days notice at 105 and int., and are also convertible at option of holders after Nov. 1 1913 and until Feb. 1 1918, or until 30 days before redemption, into Consolidation Coal Co. stock at par for notes and 105 for stock, with cash adjust. of int. and div., being virtually, therefore, at issue price a 5-yr. call on said stock at about 98¼. Digest of letter from Pres. C. W. Watson, Fairmont, W. Va., May 7 1913, was given in "Chronicle" of May 17, p. 1427. Also see Elk Horn Mining Corporation in V. 97, p. 524.—V. 97, p. 598.

V. 97, p. 598. Goldfield Consolidated Mines.—Extra Dividend.—A dividend of 30 cents per share and 10 cents extra has been declared on the \$35,491,480 stock (par \$10), payable Oct. 31 to holders of record Sept. 30. In July and Jan. last no pay-ment was made (V. 96, p. 1632, 1775), in April last 30 cts. was disbursed and from April 1909 to Oct. 1912 30 cts. per share quarterly, with 20 cts. extra Jan. 1910 to April 1912. Henry M. Hoyt, for several years chief counsel for the company, has been elected a director.—V. 97, p. 369. Hale & Kilburn Co.—No Common Dividend.—

elected a director.—V. 97, p. 369. Hale & Kilburn Co.—No Common Dividend.— The directors have declared the regular quarterly dividend of 1¾% on the first and second preferred stocks, payable Sept. 30 to holders of record Sept. 20, but have decided to omit the payment on the \$4,000,000 common stock, on which quarterly payments of 1% have been made. See annual report, V. 96, p. 942, 956. A director says the omission of the dividend on the common stock is due to a feeling of uncertainty on the part of directors in regard to the effect of tariff legislation on the products of the company and to the future of the money market for industrial companies. Unfilled orders on hand are said to be over \$1,000,000 ahead of last year. Earnings for the first 6 months of the year were well over dividend requirements on all three issues of stocks, but not as large as for the corresponding period last year.—V. 96, p. 942, 956.

942, 956.
Harris Abattoir Co., Ltd., Toronto.—Bonds Offered.— The Dominion Securities Corporation is offering at par and int. 1st M. sinking fund gold 5s, dated Feb. 1 1913, due Feb. 1 1928; callable at 105 (a) as a whole on or after Feb. 1 1916; (b) for sinking fund beginning Feb. 1 1914. Par \$100, \$500 and \$1,000, with sterling equiv., c\* & r\*. Principal and interest (F. & A.) payable at Canadian Bank of Commerce. Toronto. Montreal and London. The bankers report: Auth. issue 6% bonds, \$1,750,000; stock, \$1,000,000; issued bonds, \$750,000; stock, \$690,000. Total net assets, \$2,022,562. Results year ending Mar. 31 [913 (3 months est.), sales, \$6,150,000; net earnings, \$180,000. Assets: Land, buildings, machinery and equipment, \$1,017,990; investments, \$444,300; current assets in excess of current llabilities, \$560,380; total

assets, \$2,022,671. Distributes its products, principally fresh meats, through its branch house—St. Lawrence Market, Toronto, Subdury and Halleybury in Ontario; Montreal and Quebec City; and Syndey and Glace Bay in Nova Scotia. Has buildings now under construction at the Union Stock Yards, West Toronto, which, when completed, will be one of the most modern packing plants in Canada, consisting of six buildings, mostly of concrete construction and fireproof. The proceeds of this bond issue are largely for this new abattor. Pres., J. W. Flavelle. ssets, \$2.022.671. hrough its branch ho faileybury in Orthog

e largely for this new abattor. Pres., J. W. Flavelle. **Hercules Powder Co.**—*First Dividend.*— An initial dividend of 11%% has been declared on the \$6,500,000 stock, ayable Sept. 25 to holders of record Sept. 15. The company commenced ctive business on Jan. 1 1913.—V. 97, p. 447.

An initial dividend of 1½% has been declared on the \$6,500,000 stock, payable Sept. 25 to holders of record Sept. 15. The company commenced active business on Jan. 1 1913.--V. 97, p. 447. **Kanes Falls Electric Co.**, Glens Falls, N. Y.-Bonds Offered.--Ashley & Co. are offering by advt. on another page, at 92½ and int., (netting for ten years' maturity, 6%,) 1st M. gold 5s of 1905, due June 27, 1955, but red. (a) at Co's option at 105 at any int. date on 60 days' notice; or (b) at 100 at option of holder on or after Aug. 1 1923 on six months' notice to trustee. Authorized \$500,000; issued, \$178,000. Par \$1,000c\*. Interest F. & A. at Columbia-Knickerbocker Trust Co., N. Y., trustee. The Bankers say: The remaining bonds may only be issued at par for 85% of the cash cost of after-acquired property, extensions and improvements, when the annual net earnings are 1½ times the interest charge, incl. bonds then proposed. Has successfully operated for four years past an hydro-electric plant, embracing masonry dam, steel penstock and three electric generators (one 600 k.v. a. and one 150 k.v.a. Crocker-Wheeler and one 300 k.w. General Electric), located near Fort Ann, Washington Co., N. Y., with trans-mission line 13 miles long to Glens Falls, N. Y. Present annual capacity over 2,000 000 k.w.h. is building a new brick power station and a 14-mile transmission system on steel towers from Kanes Falls to Grapville, N. Y. and adjacent State quarries. Likewise owns another water power at West Fort Ann on Halfway Creek to be developed under a head of 200 ft. with an annual capacity of 2,200,000 k.w.h. Drainage area above Kanes Falls plant is 80 sq. miles: above proposed West Fort Ann plant, 18 sq. miles. The 13 reservoirs on the water-shed have been oper-ated for Ann and a lighting system has been in operation for three years. A contract has been made with the Granville Electric & Gas Co. guaran-teeing this company a minimum of \$8,760 per year for a specified number of k.w. h. daily. Will also supply power to the slate quarrie

these operators and enable them to use progressive and economical methods.
Kansas Natural Gas Co.—Nolice.—
Companies distributing natural gas in a large number of towns in Kansas and Missouri have received notice from the company that it will not be able to supply sufficient gas to meet the requirements of consumers for heating purposes, although it is expected that enough can be furnished for lighting.
-V. 97, p. 447, 240.
(S. S.) Kresge Co. (5 and 10 Cent Stores).—Sales.— Sales for the month of August 1913 were \$1,035,999, compared with \$848,547 in August 1912, a gain of 22.09%, --V. 97, p. 240.
Lake Superior Corporation, Toronto.—5% on Incomes. A dividend of 5% for the year ending June 30 1913 has been declared on the \$3,000,000 non-cum. 5% income bonds, payable Oct. 1 at the First National Bank, Phila. The same amount was paid last year. The only previous distributions were 2½% each in Oct. 1910 and 1911 and 5% Oct. 1906,--V. 97, p. 668.
Loutisville (Kv.) Gas & Electric Co. (of Dela.).—Status.

Louisville (Ky.) Gas & Electric Co. (of Dela.)—Status. See Standard Gas & Electric Co. in last week's issue, p. 669.

Capital Stock, &c.—The stock was recently increased (for acquisitions) as follows:

Milwaukee (Wis.) Gas Light Co.—Decision.— The Wisconsin RR. Commission has ordered a small reduction in the rates of the company, as follows: First 7,000 cu. ft. per month, 75 cts. net per 1,000 cu. ft.; next 13,000 cu. ft., 65 cts.; then 80,000 cu. ft., 55 cts.; then 100,000 cu. ft., 50 cts.; all above 200,000 cu. ft., 45 cts. The old rates ranged from 75 cts. net for the first 10,000 cu. ft., 45 cts. The old rates was determined by the Commission is \$8,770,148 and the cost of reproduc-tion \$9,841,986. No allowance was made for going value, although the company attempted to justify a claim of approximately \$2,000,000. The Commission held that earnings had been sufficient to provide a reasonable return on the investment and take care of depreciation. Although the south of the ty has increased 040%, the gas sales 645% and the sales per capita from 1,900 cu. ft. in 1890 to 7,300 cu. ft. in 1911. The company contended that certain economies, paticularly through the introduction of the booster system, should be capitalized. The Commission, while not fully conceding the claim, gave weight to the matter of "economies result-ing from unusual engineering foresight" in arriving at the value of \$10,700,-000, which was used as the basis of rates.—V. 91, p. 157. Minneapolis (Minn.) Gas Light Co.—Decision.—

Minneapolis (Minn.) Gas Light Co.—Decision.— District Judge Molyneaux on Sept. 3 denied the application of the com pany for a temporary injunction to restrain publication by the city of the Hooker ordinance reducing the gas rate to private consumers from 85 to 70 cents per 1.000 cubic feet. and annuled the temporary restraining order granted July 29. A stay of 30 days was granted to perfect an appeal to the State Supreme Court.—V. 97, p. 302.

State Supreme Court.—V. 97, p. 302. Nat. Bituminous Coal & Coke Co., Washington, D.C. The British Trust Corporation, Ltd., London, offered in May last, at 98%, \$1,000,000 6% 1st M. 20-year profit-sharing gold bonds of 1911 (part of a total authorized issue of \$2,000,000, of which \$1,000,000 were bought at 95 in London and Holland in Dec. 1911; of these \$25,000 have been redeemed by the sinking fund). In addition to the fixed rate of 6% per rennum, the bondholders are entitled to 25% of the net profits; for the year ended June 30 1912 an extra 2% was paid, making a total distribution for the year of 8%. Par, \$100, \$500 and \$1,000 (c\*). Due Aug. 1 1931, but redeemable on any interest date at 110 and int., either from the sinking fund by annual drawings or otherwise. Sinking fund from Jan. 1 1913,

# Reports and Documents.

## ILLINOIS CENTRAL RAILROAD COMPANY.

## SIXTY-THIRD ANNUAL REPORT-FOR THE YEAR ENDED JUNE 30 1913.

To the Stockholders of the Illinois Central Railroad Company: The Board of Directors herewith submit the following report of the operations and affairs of your Company for the year ended June 30th 1913:

The number of miles of road operated on June 30th 1912 was\_\_\_\_\_\_4,762.70 There was no change in the road mileage during the year and in consequence the number of miles of railroad operated on June 30th 1913, as well as the average number of miles operated during the year, was\_\_\_\_\_\_4,762.70

INCOME.

The following Income Account for the year is stated in accordance with the classification of the new form of Income Account promulgated by the Inter-State Commerce Commission, effective July 1 1912, and the account of the preceding year has been re-stated for purposes of comparison, the amounts accrued on the Company's holdings of securities of its own issue being eliminated from "Other Income" and from "Deductions from Gross Income."

## REVENUES.

REVENUES. While it was expected that the business for the current year would show a material increase as compared with the pre-ceding year, owing to the many disturbing factors which occurred in that period, it is gratifying to report that the operating revenues for the current year were \$64,280,903 02, compared with \$58,727,272 17 for the preceding year, an increase of \$5,553,630 85, or 9.46 per cent, and that, notwithstanding the fact that the Company was handicapped by the flood con-ditions in the Southern States, which entirely stopped the movement of traffic between the Northern and Southern likes for a period of nine days, the revenue from the transportation of freight and the revenue from the transportation of passengers were the largest in the history of your Company, the freight revenue being \$1,085,313 45 and the passenger revenue \$118,-322 05 greater than in any prior year. Compared with the previous fiscal year, the revenue from the transportation of freight increased \$4,707,532 74, or 12.43 per cent, and the increase was general over the Northern, Southern and Western lines. The tons of revenue freight carried were 30,447,165, compared with 26,339,149 tons. The principal commodities transported, as well as a comparison of the tonnage of such commodities with the previous year, are shown on Table No. 13. Revenue from the transportation of passengers increased \$118,322 05, or .89 per cent, compared with the previous year. The passenger revenue on the Northern and Western lines showed a satisfactory increase; but there was a decrease on the Southern lines. The general details of the freight and passenger traffic are shown in Table No. 12.

### EXPENSES.

The operating expenses increased \$1,927,445 03, or 4.01 per cent, being \$50,048,911 57, compared with \$48,121,466 54 for the preceding year.

## MAINTENANCE OF WAY AND STRUCTURES.

Maintenance of way and structures expenses increased \$827,810 39, or 10.76 per cent. There was a large increase in expenditures on roadbed and bridges occasioned by the damage caused by floods in the spring months and by the general use of heavier equipment on all main lines. There were also substantial charges to operating expenses in connection with the erection of a new mechanical plant at Centralia, Illinois, and other important additions and betterments, as well as large charges on account of a greater number of cross-ties placed in the track and a greater number of miles of rail laid replacing rail of lighter weight. The following important renewals were made, the entire cost of which was charged to operating expenses: 2,218,420 cross-ties were renewed, being equivalent to 739.49 miles of continuous track, or 11.2 per cent of all ties in track including eighter.

track, including sidings. There were 7.25 miles of track relaid with new steel rail and 1.59 miles with second-hand rail, replacing rail of the same weight

weight. 5,871 lineal feet of timber and pile bridges were rebuilt or replaced by embankments. 1,010 lineal feet of iron pipe culverts and 3,308 lineal feet of concrete pipe culverts were put in. 565 miles of ballasted track were repaired or renewed to restore to original standard. Information is given under the head of "Physical Changes" on a subsequent page as to work charged wholly to "Addi-tions and Betterments" as well as to work charged partly to "Additions and Betterments" and partly to "Renewals."

MAINTENANCE OF EQUIPMENT.

There was an increase in maintenance of equipment expenses of \$95,105 36, or .69 per cent.

Charges for depreciation of equipment amounted to \$1,560,730 56, compared with \$1,576,957 82 for the preceding year,

Charges for depreciation of equipment amounted to \$1,560,730 56, compared with \$1,576,957 82 for the preceding year, a decrease of \$16,227 26. Owing to the strike of shop employees on September 30th 1911 of which mention was made in the annual report of last year, it was necessary to secure practically a new force of shopmen on all of your Company's lines, and until these employees became accustomed to their new surroundings and conditions, they were unable to perform the same amount of work which had previously been turned out by a corresponding number of the employees who had left the service. However, the new men have rapidly increased in efficiency with the result that during the last few months of this fiscal year we have not only been able to keep up our current repairs, but have made material strides in taking care of such work as had accumulated. As considerable work was deferred during the previous year, a comparison of the important work performed this year is made with the year ending June 30th 1911. 358 locomotives received general repairs compared with 340 for the year 1911 and 323 received thorough repairs, com-pared with 335 for the year 1911. 57,963 freight cars received medium repairs, compared with 54,466 for the year 1911 and 31 060 received hears received

pared with 335 for the year 1911. 57,963 freight cars received medium repairs, compared with 54,466 for the year 1911, and 31,060 received heavy repairs, compared with 30,435 for the year 1911. 453 passenger train cars received general repairs, compared with 371 for the year 1911, and 151 received thorough repairs, compared with 124 for the year 1911. The average mileage per serviceable locomotive for the year was 30,976. The average age of locomotives was 12.77 years, compared with 13.98 years for the preceding year, of revenue freight cars 10.19, compared with 9.86 years for the preceding year, and of passenger train cars 17.8 years, compared with 19.1 years for the preceding year for the preceding year.

## TRAFFIC EXPENSES

There was a decrease in traffic expenses of \$80,358 41, or 5.74 per cent. A general agency was established at Portland, Oregon.

## TRANSPORTATION EXPENSES.

Transportation expenses increased \$1,090,075 20, or 4.61 per cent. The increase is in large part accounted for by the increased business handled, the tons of all freight carried one mile having increased 17.44 per cent, and the revenue passenger carried one mile .25 per cent. There was also a substantial portion of the increase chargeable to the congestion of traffic following the flood conditions in the South, to the increased price per ton paid for fuel, to the settlement of a number of large personal injury claims sustained in previous years which have been in litigation, and to the constantly growing loss and damage releime claims.

## GENERAL EXPENSES.

There was a decrease in general expenses of \$5,187 51, or .34 per cent.

## TAXES.

Taxes increased \$217,820 85, or 8.11 per cent. There was a substantial increase in the Charter Tax in Illinois, owing to the greatly increased gross revenue on our Charter Lines. There were also increases in taxes in the States of Iowa and Mississippi and in the State of Illinois on prop-erties other than the Charter Line.

#### FINANCIAL.

The financial condition of the Company at the close of the fiscal year, compared with the previous fiscal year, is shown in the general balance sheet, Table No. 4.

## CAPITAL STOCK AND FUNDED DEBT. '

There was no change in the capital stock during the year. During the month of July 1912 \$15,000,000 Four and One-Half Per Cent Secured Gold Notes due July 1st 1914 were

issued and sold. \$1,000,000 Refunding Mortgage Four Per Cent Gold Bonds of 1955 were issued and sold in January 1913. \$8,000,000 Illinois Central Equipment Trust, Series "A", certificates were issued and sold during the month of Febru-

1913. ary In accordance with the terms of the indenture, \$2,000,000 First Lien Equipment Bonds were delivered to the trustee and canceled.

### SECURITIES OWNED.

SECURITIES OWNED. The First, Second and Third Preference Income Bonds of the Central of Georgia Railway Company purchased during the preceding fiscal year were sold to that company, and \$15,000,000 of Central of Georgia Railway Company's six per cent Cumulative Preferred Stock was purchased at par. The stock purchased was pledged as part security for your Company's four and one-half per cent Secured Gold Notes due July 1st 1914. The Company also purchased the following securities: \$240,000 par value of the capital stock of the Belt Railway Com-pany of Chicago; \$520,000 par value of the common stock and \$150,000 par value of the preferred stock of the Chicago Memphis & Gulf Railroad Company. \$444,220 75 of bonds and scrip of The Yazoo & Mississippi Valley Railroad Company's Improvement Gold Fours of 1934, were received in payment for amounts advanced by your Company for construction. \$12,500 par value of Peoria & Pekin Union Railway Company's five per cent Debenture Bonds matured August 1st 1912 and were redeemed by that company. \$1,000,000 par value of Louisville Division and Terminal three and a-half per cent Bonds of 1953, held in the treasury were sold during February and March 1913. \$40,000 par value of preferred stock and \$40,000 par value of common stock of the Chicago Union Transfer Railway Company were sold.

Company were sold .-

## INSURANCE AND OTHER FUNDS.

The Insurance Fund was augmented during the year by charges to operating expenses; and other changes have been made as follows:

Amount at credit of fund July 1st	Year ending June 30 1913. \$2,086,259 39 60,000 00 3,417 18 84,300 00 13,670 74	Year ending June 30 1912. \$2,067,701 58 60,000 00 4,059 37 83,100 00 23,198 63

### PHYSICAL CHANGES.

The physical condition of the Company's road and equipment was materially improved and substantial additions made to its equipment. Below are listed the principal physical improvements, the cost of which was, in whole or in part, charged to "Additions and Betterments."

ROADWAY AND STRUCTURES.

160.62 miles of track were relaid with 90-lb. new steel rail and 11.93 miles with 75-lb. new steel rail, making a tota<sup>1</sup> of 172.55 miles of track relaid with new steel rail; and 46.47 miles of track were relaid with second-hand rail, all replacing rail of lighter pattern. The total mileage of track relaid with new and second-hand steel rail was 219.02, exclusive of the mileage mentioned under "Maintenance of Way and Structures" on a previous page. One hundred and five new industrial tracks were added with an aggregate length of 16.33 miles, after deducting the industrial tracks which were taken up. One hundred and seven new Company sidings were added, the additional mileage being 27.38, after allowing for tracks taken up.

taken up.

en up. Forty-four miles of partially ballasted tracks were re-ballasted and brought up to present standard. The remainder of the second main track between Ponchatoula and Orleans Junction, La., mentioned in the report the previous year, was completed and put into operation on November 25th, 1912. The grade crossing elimination work at Grand Crossing, Chicago, was continued, and \$119,830 43 was expended on

The grade crossing elimination work at Grand Crossing, Chicago, was continued, and \$119,830 43 was expended on this account during the year. There were installed and placed in operation 349.3 miles of electric automatic block signals as follows: Between Kan-kakee and Gilman, Ill., 54.2 miles; Mattoon Yard, Ill., 5.4 miles; between Mattoon and Sigel, Ill., 37.6 miles; between Mason and Branch Junction, Ill., 75.2 miles; between Centralia and Carbondale, Ill., 96.0 miles; between Belleville and Coulterville, Ill., 31.0 miles; between Clark Street, Chicago, and Parkway, Ill., 20.0 miles; between Scales Mound and Portage, Ill., 17.7 miles; and between Asylum and Nogan, Miss., 12.2 miles. With the trackage previously equipped this makes a total of 1,031.9 miles of protected track as of June 30th 1913. Electric block signals are being installed in the following locations: At Humboldt, Ill., 6.2 miles; at Carbondale, Ill., 8.2 miles; between Coulterville and Carbondale, Ill., 48.5 miles; and between Branch Junction and Centralia, Ill., 12.0 miles, a total of 74.9 miles. The work on the first three locations is practically completed. An interlooking plant at Manchae Bridge, La., is in process of installation. New passenger stations were erected at Pana, Ill.; Paxton, Ill.; Boos, Ill.; Oglesby, Ill.; Matlock, Iewa, and May-field, Ky.

An interlooking plant at Manchae Bridge, La., is in process of instance. New passenger stations were erected at Pana, Ill.; Paxton, Ill.; Boos, Ill.; Oglesby, Ill.; Matlock, Iowa, and May-field, Ky. New freight houses were erected at Cairo, Ill.; Manchester, Iowa, and Jackson, Miss. Station buildings were enlarged at Christopher, Ill.; Waterloo, Iowa; White Plains, Ky.; Hazlehurst, Miss.; Bel-mont, Miss., and Holcut, Miss. The work of constructing a new passenger station building at Memphis, Tenn., to be used jointly with the St. Louis & San Francisco and Chicago Rock Island & Pacific companies, was started during the year. Elevation of the tracks from Broadway to Huling Avenue, Memphis, is also in progress. New mechanical coaling plants have been erected at Springfield, Ill., and Hammond, La. A new pumping station was built at Independence, La. New wells were put down at Covington, Tenn., and Emden, Ill. Water station facilities were also improved at the following points: Pinckneyville, Ill.; Browns, Ill.; Freeport, Ill.; Carbondale, Ill.; Dubuque, Iowa; and Louisville, Ky. A new car-repair shed, replacing one destroyed by fire, was erected at East St. Louis, the round-house at Dubuque, Iowa. At Cedar Rapids, Iowa, a four-stall engine-house and sand and oil house, to replace facilities destroyed by fire, were constructed. A new sand house and a new einder pit were installed at Cairo, Ill.; Freeport, Ill.; Indianap-olis, Ind.; Waterloo, Iowa; Sioux City, Iowa; Louisville, Ky.; Jackson, Fenn.; Water Valley, Miss., and McComb, Miss. In connection with the elassification yard constructed. The work of installing a new mechanical plant at Nonconnah, Tenn., has just recently been started and is now in progress. A new turntable was installed at Matterson, Ill. Turntables replacing ones of smaller diameter were put in at Burnside, II.; Cario, Ill.; Sioux City, Iowa; Waterloo, Iowa; Duouyuue, Iowa, and Canton, Miss. The work of installing a new mechanical plant at Nonconnah, Tenn., has just recently been started and

4,061 lineal feet of permanent bridges and trestles were constructed, replacing timber and pile bridges, trestles and embankments.

2,133 lineal feet of permanent bridges and trestles were rebuilt or replaced by embankment. 10,411 lineal feet of timber and pile bridges and trestles were rebuilt or replaced by embankment.

EQUIPMENT.

EQUIPMENT. One hundred and thirty-six locomotives, consisting of fifty Mikado type freight locomotives, forty-five Pacific type pas-senger locomotives, and forty-one switching locomotives, were added during the year, and one hundred and thirty-four light locomotives were disposed of under lease with provision for sale, resulting in an increase of two locomotives with an increase of 1,142 tons in tractive efficiency. One hundred and seventeen passenger train cars were added during the year, and ten cars were vacated or transferred to other service, a net increase of one hundred and seven cars. Two thousand six hundred and eighty-eight freight train cars were added during the year, and one thousand four hun-dred and twenty-four cars were sold, destroyed, or transferred to work service, a net increase of one thousand two hundred and sixty-four cars. The cars retired from service were old and of light capacity. The average capacity of cars owned at the close of the year was 40.24 tons, compared with 39.57 tons last year, and the total capacity of cars was 2,266,490 tons, compared with 2,180,635 tons last year. Of an order for two thousand five hundred fifty-ton steel gondola cars contracted for delivery in the month of March of the current year, one hundred and thirteen had been delivered up to the close of the fiscal year; but they are now coming forward regularly, and it is expected that all will be delivered before the end of November 1913.

## GENERAL REMARKS.

On July 1 1912 your Company owned a number of Central of Georgia Railway Company's First, Second and Third Preference Income Bonds, and, as a part of the financing by that Company, the income bonds were sold to it, and your Com-pany in turn purchased \$15,000,000 of Central of Georgia Railway Company's Six Per Cent Cumulative Preferred Stock. In liquidating the indebtedness incurred in the purchase of the above-mentioned Income Bonds, your Company issued \$15,-000,000 of Four and One-Half Per Cent Secured Gold Notes due July 1st 1914, pledging as collateral security for the issue the \$15,000,000 of Central of Georgia Cumulative Preferred Stock so purchased and \$4,998,500 of Common Stock already owned.

000,000 of Four and One-Half Per Cent Secured Gold Notes due July 1st 1914, pledging as collateral security for the issue the \$15,000,000 of Central of Georgia Cumulative Preferred Stock so purchased and \$4,998,500 of Common Stock already owned. The past year has not been a favorable one for the issuance of long-term securities; and as your Company, in carrying well as additional new steel passenger train cars, it was considered desirable to purchase the equipment under an equipment lease. Under dato of February 1st 1913 equipment trust certificates aggregating \$3,000,000 were issued under lease and agreement known as "Illinois Central Equipment Trust, Series A", and were sold to provide in part for funds with which the dand five passenger train cars. A considerable portion of this equipment has been received during the fixed year; but, for such as has not yet been turned over to your Company by the builders, funds with which to make payments are in the hands of the trustee of the equipment trust. Along with a number of other rairoads in the Middle South, your Company suffered severely from the floads, and on March 29th 1913 the line to the South, across the Evansville Bridge, was washed out and remained out of commission until traffic on your line between Mounds and the Cario Bridge approach; but, notwithstanding the efforts made to prevent it, impassable for traffic of any description until late in the day on April 10th, when a train was moved over a single track when had been restored, but not until several days later was it possible to move traffic to any considerable action to the aggregers of the align expressible to move the far days expressive and disturbing matter to both the Company and its patrons. The result of this interruption of traffic was not only the loss of considerable revenue, but it also caused a large expressive and disturbing matter to both the Company and its patrons. The result of the information of the railroad washed out; and resulted in a congestion of traffic which was a very expen

half per cent upon the capital stock for the second an increase of the second and increase of the same date the previous year. The number of stockholders June 30th 1913 was 10,545, compared with 9,987 on the same date the previous year. Four hundred and sixteen pensioners were carried on the rolls on June 30th 1913. Pensions amounting to \$104,715 73 were paid during the fiscal year. The fidelity and efficient services of the officers and employees are gratefully acknowledged by the Board.

## C. H. MARKHAM, President.

1 Sec

March 25th 1913, between the Norfolk & Western Railway Company and the Guaranty Trust Company of NewYork, Trustee. By circular dated January 30th 1913, the stock-holders were given the privilege to subscribe at par on or before March 25th 1913 for an amount of bonds equal to fifteen per cent of their respective holdings of the stock of the Company as registered on its books at the close of business February 17th 1913. The aggregate amount of the issue so offered to the stockholders was \$18,353,000, of which \$17,138,500 was subscribed for. The bonds will be de-liverable after September 1st 1913, will be dated September 1st 1913, and will carry interest from that date; they will be convertible at any time prior to September 1st 1923 into common stock at par. The Company has the right to redeem the bonds at any interest period after September 1st 1923, at 105 per cent and accrued interest. An equivalent amount of common stock will be reserved to provide for the conversion of these bonds.

In the offer of the bonds to the stock will be reserved to provide for the was given to make subscriptions in sums of \$100 and multi-ples thereof, with the understanding that for amounts less than \$1,000, subscribers will receive certificates of common stock at new stock at par.

## ROAD AND EQUIPMENT.

ROAD AND EQUIPMENT. The total additions to cost of road and equipment shown in detail on page 22 of pamphlet report, aggregated \$10,-857,191 87. Of this sum \$1,486,917 83 is on account of equip-ment acquired out of depreciation reserves created by charges to operating expenses; \$2,680,820 01 is for trust equipment received from the Virginia Company, and \$1,553,088 is on account of other renewals, replacements, additions and better-ments which were necessary to maintain the earning capacity and preserve the value of the Company's property, and there-fore should not be capitalized; a sum sufficient to cover the latter has been reserved from profit and loss surplus. From the commencement of operations, October 1st 1896, to June 30th 1913, the charges in your Company's accounts for acquiring or constructing railroad lines, branches and exten-sions, second track, sidings and yards, for grade revisions, changes of line and other additions and improvements, for equipment and for advances to subsidiary companies for con-struction purposes, have aggregated the sum of \$107,917-140 86

struction purposes, have aggregated the sum of \$107,917-149 86, obtained or to be obtained as follows:

From sales of capital obligations\_\_\_\_\_ .\$79,052,53972.28,864,61014From revenues 28.864.610 14 By means of these expenditures and of its equipment trust agreements, your Company has added to its road 450.51 miles of main line and branches, 390.88 miles of second track and 3.20 miles of third track and 712.49 miles of sidings, and to its equipment 638 locomotives, 171 passenger train cars, 26,988 freight train cars and 915 work train cars. The increases in tractive power and capacity are very much greater than in the number of locomotives and cars, as is shown in the following table comparing the equipment of October 1st 1896 with that of June 30th 1913:

Locomotives—Increase in number, 157 per cent; in tractive power, 336 per cent. Freight cars—Increase in number, 169 per cent; in ton capacity, 362 per cent

Freight cars—Increase in number, 169 per cent; in ton capacity, 362 per cent.
Double track work is in progress as follows:
West of Suffolk, Va., to east of Zuni, Va., 15.60 miles; east of Disputanta, Va., to Estes, Va., 8 miles; east of Wilson, Va., to east of Nattoway, Va., 16 miles; Elam, Va., to east of Evergreen, Va., 5 miles; Hatfield Tunnel, W. Va., .5 miles. This will be completed about February 1914.
These sections will be completed about February 1914 and your Company will then have in operation between Lambert's Point, Va., and Columbus, Ohio, 606.19 miles of double track main line (including as second track the low grade lines around Petersburg, Va., and Lynchburg, Va. and the Big Sandy Line) and 97.57 miles of single track. The single track is between Jack, Va., and east of Disputanta, Va., 27 miles; between Radford, Va., and Coladdale, W. Va., in sections, 16.46 miles, and east of Wharneliffe, W. Va., 2.22 miles. 2.22 miles.

2.22 miles. Under authority given by your Board of Directors, your Company has leased from the Virginia Company: 80 Mallet freight locomotives. 11 passenger locomotives. 5,950 freight train cars, and 69 passenger train cars, destruction

of the approximate aggregate value of \$11,000,000. Of this equipment there had been received to June 30th 1913, 64 Mallet freight locomotives, 6 passenger locomotives, 24 passenger train cars and 136 freight train cars. The re-mainder of the equipment will be received during the current fiscal year.

mainder of the equipment will be received during determination of details, a temporary agreement Pending determination of details, a temporary agreement of lease was executed with the Virginia Company, to be re-placed later by an equipment trust agreement in the usual form. The new equipment received during the year was as follows:

The new equipment received during the year was as 5 passenger locomotives, 49 freight locomotives, 6 all-steel baggage and express cars, 8 all-steel baggage and mail cars, 10 all-steel drop-bottom gondolas, 115,000 pounds capacity, 1 all-steel drop-bottom gondola, 180,000 pounds capacity, 636 all-steel hopper coal cars, 115,000 pounds capacity, 636 all-steel and cars, 2 refrigerator cars (second-hand), 2 steam derrick cars, 1 piledriver car, 8 locomotive cranes, 1 scoop car.

1,636 25 2 2

1 piledriver 3 locomotive 1 scoop car.

Of the new equipment, 5 passenger locomotives, 501 all-steel drop-bottom gondolas, 1,500 all-steel hopper coal cars, 25 cabin cars and 1 scoop car, were built at your Roanoke shops.

ADDITIONS AND BETTERMENTS TO WAY AND STRUCTURES.

85.85 miles of main track were laid with 100-pound steel rails

4.64 miles of Cincinnati District were laid with re-sawed 85-pound rails.

98.26 miles of main track were reballasted with stone in place of gravel or slag.

Place of gravel of siag. Passenger stations and freight depots were built or enlarged at Norfolk, Suffolk, Pamplin, Rustburg, Nathalie and Mont-vale, Va., Rippon, W. Va., Limeton, Shenandoah, Basic and Grottoes, Va., Winston-Salem, N. C., Blacksburg, Dublin and Emory, Va., Delorme, W. Va. and Idlewild, Obio Ohio.

Ten section foremen's houses and nine 'section men's houses were erected

houses were erected. A roundhouse with twenty stalls, a machine shop 60x147 feet, a car repair shop 50x150 feet, a power house 28x44 feet, a car smith shop 31x79 feet, a washroom 22x40 feet, an oit house 44x68 feet and an office and storehouse 50x139 feet were constructed at Lambert's Point, Va. A coach-cleaning shed and a pump house 24 x 39 feet were constructed at Roanoke shops. The East roundhouse at West Roanoke was increased in span

span.

span.
A machine shop, a boiler room, a lavatory 87 x 139 feet and an office and storehouse 30 x 100 feet were constructed at Joyce Avenue, Columbus, Ohio.
A building for the Pullman Company's employees and a coach foreman's office were constructed at Norfolk, Va.
Yardmaster's offices 40 x 60 feet were constructed at West Roanoke, Va., and at Joyce Avenue, Columbus, Ohio.
Eight houses for storage of Inspectors' materials were erected. rected

Standard 50,000-gallon tanks were erected at Rileyville and Bandy, Va., and at Gary, Iaeger and Hix, W. Va. High concrete storage tanks of 200,000-gallons capacity were erected at Lambert's Point, Yadkin and Wilson, one of

100,000 gallons capacity at Pulaski and a 200,000-gallon steel tank at Elliston, Va. Coaling stations were erected at Lambert's Point, Va., Mohawk and Borderland, W. Va., and at Joyce Avenue, Columbus Obio

Mohawk and Borderland, W. Va., and at Joyce Avenue, Columbus, Ohio. Enlarged pumping plants were installed at Suffolk and Elliston, Va. A water-softening plant was installed at Elliston, Va. Interlocking and signal apparatus was installed at Poe, and at Walnut Street, Roanoke, Va., and the apparatus at Roanoke passenger station was enlarged. Automatic signals were installed at loce of the state of the sta

at Koanoke passenger station was enlarged. Automatic signals were installed between Gilmerton, Va., and Suffolk, Va.; between Poe, Va., and Jack, Va., and on the Petersburg Belt Line; between Nottoway, Va., and Burkeville, Va.; between Evergreen, Va., and Phoebe, Va.; between Phoebe, Va., and Posm, Va., on the Lynchburg Low Grade Line; and between Dry Branch, Va., and Belspring, Va. Your Company now has 100.3 miles of single track and 431 miles of couble track protected with automatic signals.

and 431 miles of couble track protected with automato signals. The Ohio River Bridge at Kenova, W. Va., consisting of four 300-foot spans and one 521-foot span, has been replaced by a new double-track steel structure, eliminating the last section of single track between Williamson and Columbus. 82 lineal feet of wooden trestles and 348 lineal feet of iron bridges were replaced by masonry culverts and fills. 3,871 lineal feet of iron bridges were replaced by new standard steel structures, and 688 lineal feet of iron bridges were replaced by fit iron girders, doubled.

standard steel structures, and 688 lineal feet of iron bridges were replaced by fit iron girders, doubled. 186 lineal feet of wooden bridges were replaced by iron bridges released from the main line. Grade crossings were eliminated by an overhead bridge at Crewe, Va., and by undergrade crossings at Burkeville, Emory and Bristol, Va. 100-foot turntables were installed at Lambert's Point and West Roanoke, Va., Williamson, W. Va., and East Ports-mouth and Columbus, Ohio, and a 75-foot turntable at Luray, Va. 487 lineal feet of turnel west of Pepper, Va., were lined

Luray, Va. 487 lineal feet of tunnel west of Pepper, Va., were lined with concrete. 103 lineal feet of Dingess Tunnel were lined with brick. 238,630 lineal feet (45.20 miles) of standard fencing were

erected

Work is progressing on the new coaling pier No. 4 at Lam-bert's Point, which should be ready for operation early in the year 1914.

## DRY FORK BRANCH AND CONNECTIONS.

DRY FORK BRANCH AND CONNECTIONS. Track has been laid from the Dry Fork Branch at Cane-brake 1 mile to the initial point of the Beech Creek Branch; on the Beech Creek Branch 1.56 miles to its connection with the Indian Creek Branch; and on the Indian Creek Branch 12:15 miles to Cedar Bluff, Va., with a Y-connection 0.36 miles at the latter point. This new line, 14.71 miles in length, completing the connection between your main line at laeger, W. Va., and the Clinch Valley District at Cedar Bluff, Va., was put in operation April 15 1913. The total cost to June 30 1913 was \$2,527,798 94, which includes \$780,000 for five tunnels aggregating 6,180 feet in length and \$453,000 for fifteen bridges, including three long, high viaduets.

high viaducts.

### TUG FORK BRANCH.

The Ballard-Harmon Spur of the North Fork Branch, 1.04 miles, has been completed.

## KING BRANCH.

This Branch, 0.95 miles, is under construction from a point 0.48 miles west of West Vivian, W. Va., and will be completed in September 1913.

## COMPANIES IN WHICH NORFOLK & WESTERN RAILWAY COMPANY HAS AN INTEREST. POCAHONTAS COAL & COKE COMPANY.

The production of coal during the year from lands leased The production of coal during the year from lands leased to mining companies by the Pocahontas Coal & Coke Com-pany aggregated 12,244,736 net tons, an increase of 954,697 tons, or 8.46 per cent over the preceding year. About 91,139 tons were consumed at the mines and 1,171,887 tons were converted into coke. From these lands your Company received for shipment 9,953,252 net tons of revenue coal, 725,765 tons of revenue coke and 1,004,424 tons of coal for its fuel supply. From other lands on your Company's lines, it received for shipment 10,535,786 net tons of revenue coal, 842,283 tons of revenue coke and 1,722,895 tons of aoal for its fuel supply. The sinking fund provided for in the Pocahontas Coal &

Inits, 18 Concerned and Sinference 10,000,100 for tons of revenue coke and 1,722,895 tons of soal for its fuel supply.
The sinking fund provided for in the Pocahontas Coal & Coke Company's Purchase Money First Mortgage dated December 2d 1901, amounted in the calendar year 1912 to \$266,627 06. Through this and other sums paid to the Trustee under the terms of the mortgage, bonds aggregating \$302,000 were purchased and canceled. From they beginning of its operation in 1906 to date, the sinking fund has received from royalties on coal mined the sum of \$1,425,-798 71 and from sales of lands the sum of \$124,800 52, a total of \$1,550,599 23; by means of which there have been purchased and retired bonds to the aggregate amount of \$1,716,000, reducing the outstanding bonds to \$18,284,000, and leaving a cash balance of \$847 48 in the Sinking Fund. The income of the Pocahontas Coal & Coke Company, after providing for the mortgage sinking fund, was insufficient for the payment of the interest on its mortgag bonds. The deficiency was advanced by your Company and the Pennsylvania Lines West of Pittsburgh, your Company's share, two-thirds, or \$92,000, being charged to income. The work of unifying the Company's properties, company has advanced to the Pocahontas Coal & Coke Company for these purposes the further sum of \$20,000, making a total to date of. \$1,292,000 charged in your Company's accounts as advances to that Company for property expenditures.

WILLIAMSON & POND CRHEK RAILROAD COMPANY. Grading has been completed and track laid on the main line of
the Williamson & Pond Creek Railroad Company12.06 miles Branches, including two "Y" tracks3.53 miles Sidings, including Narrows Spur9.05 miles
Total24.64 miles

A 50,000-gallon capacity tank, a pump house, a section foreman's house and a section hands' house were erected at Toler, Ky. This road was put in operation December 4th 1912. The cost of the Road and Equipment to June 30th 1913 was \$1,147,128 02.

o June 30th 1913 there had been delivered to the Norfolk & Western Railway from new coal operations reached by the Williamson & Pond Creek Railroad shipments aggregating 208,099 net tons, of which 45,944 tons were shipped during June.

## VIRGINIA-CAROLINA RAILWAY COMPANY.

VIRGINIA-CAROLINA RAILWAY COMPANY. Work upon the North Carolina Division is in progress. The amount charged to Construction to June 30th 1913 was \$182,228 11, on account of which your Company has ad-vanced the sum of \$147,075 36. It is expected that by the end of the year 1914 this Division will be completed to the Ashe-Watauga, N. C., County line, a distance of 48.38 miles, the estimated total cost being \$1,250,000. This Division will traverse large areas of virgin white pine, oak, poplar, chestnut and hemlock timber and will serve an excellent stock-raising, fruit and general farming section. It has further development possibilities in regard to high grade iron ores and bark extract. ores and bark extract

NEW RIVER HOLSTON & WESTERN RAILROAD CO.

NEW RIVER HOLSTON, & WESTERN RAILROAD CO. As part of the general plan for acquiring a controlling interest in the Virginia-Carolina Railway Co., your Board of Directors authorized the purchase of the outstanding capital obligations of the New River Holston & Western RR. Co. The transaction was consummated in December 1912, and your Company thereby acquired for the sum of \$206,000 all the said outstanding obligations, to wit: \$51,000 capital stock, \$50,000 First Mortgage Bonds and about \$292,000 of notes. Of the capital stock, \$25,000 (approximately 49%) was sold to the holders of a similar minority interest in the capital stock of the Virginia-Carolina Railway Company for the sum of \$20,000, making the net cost to your Company \$186,000. This line connects with your main line at Mile Post 322 00

\$186,000. This line connects with your main line at Mile Post 333.90, near Narrows, Giles County, Va., and runs southwest-wardly to Rocky Gap, Bland County, Va., a distance of 20.6 miles. It is proposed to construct an extension from the present terminus at Rocky Gap about 20 miles to the head waters of Hunting Camp Creek at an estimated cost of \$250,-000, which will be expended, at a moderate rate of progress, in about one year. The extension will penetrate large virgin forests and a well populated agricultural section, which will furnish an import-ant tonnage. FLOOD DAMAGE.

#### FLOOD DAMAGE.

Your road in Ohio sustained great damage from the extra-ordinary storms which devastated that State in the la ter part of March 1913. The direct physical loss to your Com-pany from extensive washouts and from damage to and destruction of bridges was approximately \$500,000. In addition to the work of restoration an expenditure of about \$700,000 will be made to put the line beyond reach of similar damage in the future by providing ample waterway at bridges \$700,000 will be made to put the line beyond reach of similar damage in the future by providing ample waterway at bridges and by protecting banks and fills. The cost of the mere restoration is being charged to operating expenses as it is paid and there has been so charged to June 30th 1913 a total sum of \$329,506 91. The further cost of improvement will be charged to Property Investment Accounts under therules established by the Inter-State Commerce Commission. The interruption to traffic caused by the Ohio storms extended from March 25th to the middle of April and had a marked effect on your Company's gross earnings, as was

marked effect on your Company's gross earnings, as was particularly show by its statement of Revenues, Expenses and Net Income for April. The statements for April, May and June show the further effect upon net revenues.

### ELECTRIFICATION.

ELECTRIFICATION. Your management, after full investigation, determined that the line between Bluefield and Vivian, W. Va., a dis-tance of about 30 miles, could be operated with much greater economy by handling with electric power the heavy coal traffic in that district, where the density of train service is greatest and the opposing grades are heaviest. The electri-fication of this portion of your line will cost about \$3,500,000 and will require about two years. Your Board of Directors has formally authorized the expenditure of \$1,000,000 on account of this work. Contracts are in preparation for accounting the results.

account of this work. Contracts are in preparation for acquiring the necessary apparatus, equipment and other appurtenances. The elec-trical power house will be erected near Bluestone, W. Va. with necessary sub-stations at other points. The firm of Gibbs & Hill, Consulting Engineers, of New York City has been employed for consultation and advice in connection with this project.

### VALUATION COMMITTEE.

The Act of Congress, approved March 1st 1913, directing a physical valuation of railroads by the Inter-State Commerce Commission, will require the preparation of an enormous

velume of information and will subject your Company to large expense. In order that the subject shall be treated thoroughly and with proper economy and that plans and methods shall be devised in harmony with those of other railroad companies and of the Inter-State Commerce Com-mission, your management has appointed a "Valuation Committee", consisting of your Chief Engineer, General Claim Agent and Statistician, who have been relieved from all other duties and are devoting their entire attention to the matter. The work of the Committee will doubtless extend over several years. matter. The worl

## INDUSTRIES.

Among the new local industries are the following: manufactories of mineral, metal and other products. manufactories of lumber products. manufactories of farm implements and farm products. coal mines.

At the close of the year there were 140 companies organized for producing coal and coke on your Company's lines, with a total of 221 separate mines, of which 212 were in actual operation.

Of the 13,931 coke ovens, 5,407 were in blast. Of the 22 iron furnaces, 12, having a total daily capacity of 1,770 tons of pig ,were in blast, and 10, with a total daily capacity of 1,435 tons, were out of blast.

## CHANGES IN ORGANIZATION.

CHANGES IN ORGANIZATION. At the annual meeting of the Company, held October 10th 1912, N. D. Maher was elected a Director in the place of Henry Fink, deceased, and at the meeting of the Board, held January 23d, 1913, M. C. Kennedy was elected a Director in the place of Samuel Rea, resigned Effective December 1st 1912, the titles of the Vice-Presi-dents were changed to the following: N. D. Maher, Vice-President in charge of Operation; T. S. Davant, Vice-Presi-dent in charge of Traffic; William G. Macdowell, Vice-

President in charge of Finances and Accounts. The follow-ing appointments were made as of the same date. A. C. Needles, formerly General Superintendent of the Eastern Division, was appointed General Manager; J. R. Ruffin, formerly General Freight Agent, was appointed Freight Traffic Manager; W. B. Bevill, formerly General Passenger Agent, was appointed Passenger Traffic Manager; De Los Thomas, formerly Assistant General Freight Agent, was appointed General Freight Agent; W. C. Saunders, formerly Assistant General Passenger Agent, was appointed General Passenger Agent; V. A. Riton, formerly Superintendent of the Norfolk Division, was appointed General Superintendent of the Eastern Division, and W. J. Jenks, formerly Super-intendent of the Pocahontas Division, was appointed General Superintendent of the Western Division vice W. S. Becker, who was made Assistant to the Vice-President in charge of Operation; E. A. Blake was transferred from the Superin-tendency of the Shenandoah Division to that of the Norfolk Division and J. D. Hester and H. C. Weller were appointed Superintendents of the Shenandoah and Pocahontas Divisions, respectively. respectively.

	and the second s				and the second data and the second data and the second	

The gross operating revenue for the year was \$32,497,-870 72, an increase of \$1,251,478 62. The net corporate income for the year was \$6,537,068 14, equivalent to 18.68% on the capital stock of the Company, as against 16.07% for the preceding year and 14.68% for the year previous to that. After the payment of all charges and dividends aggregating ten per centum upon the capital stock, the net surplus from operations for the year was \$3,037,068 14. By excluding from last year's earnings the \$900 000 received from a special dividend on the capital stock of the Rapid Transit Subway Construction Company the surplus from the operations of this year shows an increase of \$913,301 72 over the previous this year shows an increase of \$913,301 72 over the previous year

year. The operating expenses for the year were \$13,260,743 14, an increase of \$212,941 50, or 1.63%, as against an increase in operating revenue of 4.01%. Included in operating ex-penses this year is an item of increase in labor cost approxi-mating \$200,000, due to an increase in rate of pay awarded employees of the Company as of May 12 1912, as mentioned in last year's report. In addition to this there was absorbed in operating expenses and credited to "Depreciation Reserve" \$184,998 74 in excess of the amount so set aside in the opera-tions of the previous year. Eliminating, for the purpose of

184,998 74 in excess and created to Depretation reserve \$184,998 74 in excess of the amount so set aside in the opera-tions of the previous year. Eliminating, for the purpose of determining operating efficiency of the two years the total of these two items of arbitrary increase, operating expenses show an actual decrease of approximately \$172,000 00. Your directors declared an extra dividend of 2% during the year, payable out of the surplus of the Company. Not-withstanding this payment there was an increase of \$4,541,-695 13 in the profit and loss surplus during the year, of which \$2,057,033 15 represents the interest from July 1 1909 to March 19 1913, upon the advances made by this Company to the Trustees of the New York & Long Island Railroad Company to provide means for the construction of the Bel-mont Tunnel and recognized by the Public Service Commis-sion as part of the cost of the construction of the tunnel. The total number of passengers carried during the year was 634,316,516, an increase of 27,071,819, a gain on the Subway Division of 24,497,654, and on the Manhattan Division of 2,574,165; the greatest increases of 2,000,000 in the number of tickets sold, and at the Atlantic Avenue, Development of the cost of the area of 2000 conditions of the sold.

the orand Central Station with an increase of 2,000,000 in the number of tickets sold, and at the Atlantic Avenue, Brooklyn, Station, with an increase of 2,300,000 in the num-ber of tickets sold. The larger gain on the Subway Division is due primarily to the express service. This service will be inaugurated on all the divisions of the Manhattan Railway as soon as the third tracks recently authorized can be com-pleted pleted.

### NEW SUBWAYS AND ELEVATED EXTENSIONS

The contracts for the construction, equipment and opera-tion of the New Subways and Elevated Extensions were executed at the office of the Public Service Commission on March 19 1913. An attempt was made to block their exe-ion by the obtaining of an injunction order restraining le Public Service Commission from executing them. T e pinnetion order however, was unapimously vacated by the

<sup>1</sup>e Public Service Commission from executing them. T e njunction order, however, was unanimously vacated by the Appellate Division, the Court saying: "In so far as these contracts are the same as those con-sidered by the Court of Appeals, it has been determined by that Court that they are authorized by the Rapid T ansit Act and the question would seem to have been finally settled that the Public Service Commission and the City of New York have legal authority to execute them."

York have legal authority to execute them." The new Subway Lines embraced in Contract No. 3 con it of additions to and extensions of the present Subway Sys-

[These lines and the contract with the city respecting the same were fully described in the statement made to the N. Y. Stock Exchange June 30 1913, as shown in "Chronicle"

N. Y. Stock Exchange June 30 1913, as shown in "Chronicle" of Aug. 16 1913.] Contract No. 3 provides for the construction of the rail-roads above described, together with the necessary terminals, storage yards and shops, by the City of New York, and that the Company, the Lessee of said lines, shall contribute towards the cost thereof \$58,000,000, unless the total cost shall be less than \$116,000,000, in which case the Lessee's contribution shall be diminished by one-half the difference between \$116,000,000 and the total cost of construction. The Lessee is to be deemed to have contributed the sum of \$3,000,000 towards the cost of constructing the said rail-roads upon the assignment to the City by it of the railway known as the "Belmont Tunnel."

known as the "Belmont Tunnel." The Lessee shall provide at its own expense such equipment for the said railroads as shall be adequate to the requirements of the traveling public, not to exceed an estimated cost to the Company for initial operation of \$22,000,000. The City by the said Contract leases the said lines of rail-road and their equipment to the Company for operation in conjunction with its existing railroads and equipment op-erated under Contracts Nos. 1 and 2 for a term of forty-nine years beginning January 1 1917 and expiring December 31 1965, provided, however, that if the completion of the trunk lines should be delayed through no fault of the Company, the beginning of the term is to be correspondingly postponed. the beginning of the term is to be correspondingly postponed.

#### MANHATTAN RAILWAY CERTIFICATE

MANHATTAN RAILWAY CERTIFICATE. The Manhattan Railway Company was, by the Certifi-cate of the Public Service Commission dated March 19 1913, authorized to construct, equip and operate certain additional tracks as a part of the elevated system of the said Company upon its Second, Third and Ninth Avenue Lines, which Certificate has been accepted by the Manhattan Railway Company; and under date of March 15 1913 the Manhattan Railway. Company and Interborough Rapid Transit Com-pany have entered into an agreement providing that the plant and property to be constructed by the Interborough Rapid Transit Company under the said Certificate shall be deemed additions or improvements to the demised property made by the Lessee under the terms of the lease dated Janu-ary 1 1903, and providing for payment to Interborough Rapid Transit Company or to representatives of its bondhold-ers of any sum that may be paid by the City as condition of the termination of the authorizations granted by the said Certificate to the proportional extent that the plant and prop-erty taken by the City upon such termination shall have been paid for by the Interborough Rapid Transit Company. INTERBOROUGH CERTIFICATE.

## INTERBOROUGH CERTIFICATE.

The Interborough Rapid Transit Company was, by the Certificate of the Public Service Commission dated March 19 1913 authorized to construct, equip and operate certain extensions and connections of the Manhattan Railway System described as

Webster Avenue Line,

Eighth Avenue and 162d Street Connection, Queensboro Bridge Line,

West Farms Subway Connection.

## BONDS TO BE ISSUED.

For the purpose of financing the above expenditures and funding the outstanding notes and 5% bonds of the Com-pany, the latter dated November 1 1907, due 1952, it was deemed prudent and economical to issue a mortgage of such deemed prudent and economical to issue a moregage of stem proportions as would obviate the necessity for future issues, and a First and Refunding Mortgage was therefore created to the Guaranty Trust Company of New York, Trustee, securing \$300,000,000 of 5% Gold Bonds, dated January 1 1913, due January 1 1966. The Interborough Company has paid the special tax un-

The Interborough Company has paid the special tax un-der Article XI. of the tax laws of this State, so as to make the bonds now issued tax-exempt in New York. The said First and Refunding Mortgage provides that the \$33,959,000 45-Year Gold Mortgage 5% Bonds dated November 1 1907 shall, when and as redeemed, be deposited with the Trustee thereunder and held by it as part of the se-curity thereof until all of said bonds shall have been redeemed to sold call when they shall have been redeemed to the curity thereof that all of said bonds shall have been reteened pursuant to said call, when they shall be surrendered to the Trustee of the mortgage, dated November 1 1907, by whom said mortgage shall then be discharged and satisfied. Not exceeding \$170,000,000 of First and Refunding Mort-gage 5% Bonds were sold to J. P. Morgan & Co., Bankers, to be taken in not exceeding the following amounts:

During the year from January 1 1913 to January 1 1914	78,000,000
During the year from January 1 1914 to January 1 1915	30,000,000
	30,000,000
During the year from January 1 1916 to January 1 1917, not	H
then then	22 000 000

If any part of the Company's contribution should be deyed by the use of other available funds of the Company, foregoing issue of bonds may be correspondingly the for reduced

the foregoing issue of bonds may be correspondingly reduced. [For the security underlying the new bonds, see statement made to N. Y. Stock Exchange June 30 1913, upon listing of the new bonds, in "Chronicle" of Aug. 16, pages 450 to 455.] In case the City shall exercise the right of re-capture re-served in said Contract No. 3, or in the Manhattan and In-terborough Certificates, in respect of any of the lines of rail-way leased thereby, all moneys thereupon payable to the Company are to be received by the Trustee and applied to the redemption of the bonds. The moneys at any time so payable by the City will be sufficient to retire at 110 out-standing bonds of an amount equal to the unamortized portion of the bonds issued for the construction and equipment of the line or lines to be re-captured by the City, and, by the opera-tion of the sinking funds hereinafter mentioned, the full amount of the bonds issued for original construction and equipment is to be amortized within the terms of the lease. A cumulative sinking fund of one-half of one per centum for each half year, payable in cash or in bonds at the rates and under the condition therein specified, is required under the mortgage, the first 'semi-annual payment to be made not later than July 1 1918. Bonds may be redeemed in

any amount from the sinking fund, on any interest date, at 110 and accrued interest, or, as provided in the mortgage, may be acquired at a lower price. By the operation of the sinking fund, the amount of bonds issued for original construc-tion and equipment is to be amortized within the terms of the lease. The sinking fund and the terms of the contract and certificates are designed to provide adequately also for payment of bonds that later may be issued for additional improvements and equipment. The Company will have the right at any time to increase the sinking fund. The Company also, at its option, may call for redemption and cancellation on any interest day, at 110 per cent and accrued interest, all of the bonds then outstanding, or any amount thereof aggregating not less than \$500,000 of principal. The above mortgage was approved by the Public Service Commission under date of March 20 1913, the order of ap-proval carrying with it authority to issue \$160,957,000 face value of bonds redeemable at 110% of their face value and accrued interest. any amount from the sinking fund, on any interest date, at

value of bonds redeenable at 110% of their face value and accrued interest. These bonds, the Commission states, are necessary to and reasonably required by said Company for the acquisition of property or for the construction, completion, extension or improvement of its facilities in accordance with Contract No. 3 and the Interborough and Manhattan Certificates, and for the discharge or refunding of its obligations.

—Bertron, Griscom & Co., New York, Philadelphia and Paris, have prepared an exceedingly attractive 96-page booklet, bound in red Russia leather covers, containing clear tabular statements regarding the organization, franchises, capitalization, earnings, operations, &c., of the various com-panies which they control or directly supervise, together with maps of their several systems, electric railway, gas and electric lighting. On Dec. 31 1912 this firm's operating companies, as this booklet shows, had outstanding in the aggregate \$63,855,500 of common stock, wholly or largely, as the case may be, owned by the Bertron, Griscom & Co. holding companies; \$22,383,000 pref. stock and \$108,664,-700 bonds, while for the 12 months ending March 31 1913 these same operating companies show total gross earnings of these same operating companies show total gross earnings of \$27,165,432, net earnings of \$10,994,125 and a surplus bal-ance of \$5,572,376 after meeting all interest on bonds. Un-der the heading "Annual Reports" above will be found the report of the firm's principal holding company, the United Gas & Electric Corporation, with various statistics of earn-ings and capitalization brought down to June 30 for all the properties controlled by that company and the allied Ameri-can Cities Co. can Cities Co.

-The Federal Utilities Incorporated, 60 Broadway, this city, as managers of the syndicate, announce that the entire issue of \$4,000,000 Elk Horn Fuel Co. first mortgage 5% five-year convertible notes, have all been sold. For record purposes, the advertisement of this issue appears to-day in the "Chronicle". Associated with the Federal Utilities Inc. in the syndicate were the Guaranty Trust Co. of this city, the Fidelity Trust Co. of Baltimore and the Mercantile

Trust & Deposit Co. of Baltimore. See full particulars in the advertisement and our "General Investment News Department."

-R. M. Grant & Co., New York, were the successful bid-ders Sept. 11 1913 for the \$150,000 Essex County, N. J., 40-year  $4\frac{1}{2}\%$  bonds issued for Plank Road improvement, dated Aug. 1 1913 and in the denomination of \$1,000 each, with interest payable semi-annually. These bonds are to be engraved under the supervision of and certified as to their genuineness by the United States Mtge. & Trust Co. of New York City. According to the financial statement of the county, net bonded debt is less than 2% of the assessed valuation.

-F. W. Mason & Co., 53 State St., Boston, dealers in bonds and stocks, have admitted to membership as of Sept. 1 John C. McConnell, formerly of the firm of Lyman & Mc-Connell. The firm now consists of Frank W. Mason, Arthur A. Potter and John C. McConnell.

-Lamarche & Coady, 25 Broad St., this city, have issued a September letter commenting on the market conditions of the important public utility companies, with latest quotations, dividend rates and income return. A copy of the letter will be mailed to any interested inquirer.

-Joseph S. Jacobson and Nehemiah Friedman, formerly connected with William Salomon & Co., have formed a copartnership under the name of Jacobson & Friedman, with offices at 111 Broadway, for the transaction of a general investment and brokerage business.

# The Commercial Times.

**COMMERCIAL EPITOME:** Friday Night, September 12 1913. The passage of the Tariff Bill by the Senate is very gener-ally regarded as paving the way for better things in the world of trade. Fall business is more promising. Dry goods sales are large at higher prices. The drought in the corn and cotton belts has been relieved. The total wheat crop will be the largest ever known. That is important, even though it falls far short of offsetting the decrease in the yield of corn. The exports of wheat thus far this season are nearly double those during the same time last year. The consumption of steel continues on a liberal scale. The financial situation is considered better. The world's con-

crop will be the largest ever known. That is important, even though it falls far short of offsetting the decrease in the yield of cora. The exorts of wheat thus far this season are nearly double those during the same time last year. The consumption of American ectoton last season was the largest on record and in many quarters it is believed the high record will be at least maintained during the season upon which we have just entered. The general feeling in American 17.75c. Brazil in kegs 13.75c. Lard futures of late have been firmer, partly owing to a rise in the price of hose. Recessions, however, have occurred from time to time on profit-taking. Receipts of hogs at the Vest at times have been large. On a single day they reached the total of \$2,000, against 63,000 on the same day last year. Yet the packers have been buying (O ctober lard, supposedly to cover. To-day prices declined, but ralied taker on burying by shorts and packers. DALLY CLOSING PEICES OF LAND FUTURES IN CHICAGO and single day they reached the total of \$2,000, against 63,000 on the same day last year. Yet the packers have been buying (O ctober lard, supposedly to cover. To-day prices declined, but ralied taker on burying by shorts and packers. DALLY CLOSING PEICES OF LAND FUTURES IN CHICAGO and start the store start the same start is a start to the same start is an analy a start of the same start is a start to be an analy the start index and the same start is a start to the same start is a start to the same start is a start in the same start is a start in the same start is a start in the same start is the same start is a start in the same start is the packer is the packer is th

about 65,000 bales will be available. High prices are re-ported in Cuba. COPPER has been stronger; Lake 165%c., electrolytic 16½c. London of late has been weaker under heavy liquida-tion. It is partly a speculative market, though the recent rise has also been due in a measure to solid considerations of supply and demand. Tin has declined; spot 42.40c. There is said to be a good demand at something under current quotations. London has latterly been dull and lower, how-ever. Lead here 4.75c. on the spot; spelter 5.90c. Pig iron has been more active, especially Southern. No. 2 Southern \$11, with the tone firmer; Northern forge \$14@ \$14 50, and Eastern No. 2 \$15@\$15 25. There is evidently a large consumption of steel and buyers carry small stocks.

## COTTON.

Friday Night, Sept. 12, 1913. THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 217,200 bales, against 153,476 bales last week and 141,281 bales the previous week, making the total receipts since Sept. 1 1913 318,440 bales, against 300,517 bales for the same period of 1912, showing an increase since Sept. 1 1913, of 17,923 bales.

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Foreign stocks, as well as the afloat, are this week's returns, and conse-quently all foreign figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Friday), we add the item of exports from the United States, including in it the exports of Friday only. September 12-State of Unervol 1913. 1912. 1911. 1910. 25 000

cotton in that State has been retarded by the wet weather. cotton in that State has been retarded by the wet weather. Galveston, Tex.—Heavy precipitation has occurred through-out the State during the week, picking and moving of the crop has been retarded by the weather. Reports are con-flicting as to whether rain has damaged or will improve cotton, as the big storm of 1900 practically made that crop. Worm and weevils are reported over a rather large area. Rain has fallen on five days of the week, the rainfall being ten inches and sixty-one hundredths. Average thermometer 70, highest 88, lowest 70. Abilene, Tex.—There has been rain on three days during the week, the precipitation reaching one inch and twenty-seven hundredths. Lowest thermometer 64, Brenham, Tex.—It has rained on two days during the week, the precipitation reaching one inch and twelve hundredths. The thermometer has averaged 85, ranging from 70 to 100.

the precipitation reaching one inch and twelve hundredths. The thermometer has averaged 85, ranging from 70 to 100. *Cuero, Tex.*—Rain has fallen lightly on three days of the week, the rainfall being fifty hundredths of an inch. The thermometer has ranged from 72 to 100, averaging 86. *Dallas, Tex.*—Rain has fallen on five days of the week, the rainfall being two inches and forty-eight hundredths. Average thermometer 86, highest 100, lowest 66. *Henrietta, Tex.*—We have had rain on four days the past week, the rainfall being sixty-eight hundredths of an inch. -The firm of Hooper, Bazett & Co. has dissolved, Arthur Bazett having retired and J. C. Monier of New York, who had been with the late firm since its inception, has been ad-mitted into partnership. The business will be continued by Richard Henry Hooper, Herbert Washington Hooper, George Valentine Day and Joseph Conaughty Monier, under the style of Hooper & Co. at Liverpool and R. H. Hooper & Co. in New York.

PRODUCTION OF COTTON IN 1912-13 APPOR-TIONED TO STATES.—The subjoined statement of the yield of cotton in each producing State in 1912-13 is based upon investigations made by us since the close of the season. The commercial crop reached a total of 1,914,414 bales less than in 1911-12, but was 1,996,570 bales greater than the yield for 1910-11. The average yield of lint per acre was 186 lbs. the past season, or 23 lbs. less than in 1911-12. The production by states for the last five seasons has been as follows: follows:

PRODUCTION BY STATES.

## BREADSTUFFS.

Fiday Night, Sept. 12 1913. Friday Night, Sept. 12 1913. Flour has been quiet but on the whole firm. As the wheat crop this year promises to reach record-breaking proportions, buyers show a marked disinclination to purchase on a liberal scale. In fact, most of them are still keeping close to shore and buying only as their immediate necessities require. It is true that the spring-wheat crop will be smaller than that of last year by nearly 90,000,000 bushels, but the enormous winter-wheat crop offsets this in the eyes of most persons Meantime, supplies of flour available are considered ample. Meantime, supplies of flour available are considered ample. Whenever attempts are made to advance prices for flour, the demand immediately subsides and the market becomes quicter than ever. The production of flour at Minneapolis.

Whenever attempts are made to advance prices for nour, the demand immediately subsides and the market becomes quieter than ever. The production of flour at Minneapolis. Duluth and Milwaukee last week was 344,610 bbls., against 428,835 in the previous week and 388,525 bbls. last year. Wheat declined in price, owing to large receipts and the Government report pointing to the largest total yield on record. It will be, in other words, 754,000,000 bushels, in-cluding spring and winter, against 730,267,000 in 1912, 621,338,000 bushels in 1911, 635,121,000 in 1910 and 683,-349,697 in 1909. The winter-wheat crop promises to reach 511,000,000 bushels, against 399,919,000 last year, 430,656,-000 in 1911, 434,142,000 in 1910 and 417,781,000 in 1909. Rains have occurred in the Southwest, and farmers will, therefore, take up field work again for the new winter-wheat crop. The movement of spring-wheat has been large, and the belief is that it will continue so for a time. The visible supply is increasing and the stock in the United States now amounts to 45,074,000 bushels, against 22,691,000 a year ago. The European visible supply is 68,996,000 bushels. In Germany the weather has been favorable for harvesting, and supplies of native wheat have increased. Arrivals at Russian ports are beginning to increase. In Central and Eastern Russia the crop is turning out well.

**IRONICLE** [Vol. XCVII.] In parts of Bulgaria harvesting is progressing satisfactorily. The yield in Hungary will be about equal to the home con-sumption. Good progress is being made in India in seeding wheat and the outlook is favorable. In Australia on the whole the prospects are good, and there has been an increase in the acreage stated at 1,250,000 acres. At Chicago large operators have at times been very heavy sellers. On the other hand, it is not to be denied that the spring-wheat crop will be some 87,500,000 bushels smaller than the last yield. In other words, the latest Government crop reports point to only 243,000,000 bushels and 265,569,000 in 1909. Of late, too, a better each demand has been made at Du-luth. At Chicago the Eastern demand has increased. The world's shipments last week were only 12,080,000 bushels, against 13,688,000 in the previous week and 14,352,000 in the same week last year. Recent rainy weather has caused delay in harvesting in the United Kingdom. France is still buying foreign wheat, despite the reports that supplies of French wheat are increasing. In Rumania rain has been delaying threshing. Wet weather has damaged wheat in some parts of India. But whatever might be said in favor of better prices for wheat, most of the influences have latterly been adverse to an advance. To-day prices advanced and then reacted somewhat. Chicago cash interests and Northwestern concerns were the largest buyers. Liverpool was strong. In an address before the British Association for the Advancement of Science at Birmingham, England. H. N. Diekson, Pro-fessor of Geography at University College, Edinburgh, on Sept. 11 took the ground that the day of striking geographical explorations passed with the finding of the earth's two poles, and that the geographer of the future will have as his field the vital questions of supplying and distributing food and clothes to the world. Foremost of these questions, Prof. Diaksen believed will be that of growing wheat enough for

year, 922, 298,000 in 1911 and 1, 180, 341,000 in 1910. No. 2 white oats here are now 11 cents higher than a year ago. Of late, prices of oats futures have declined in sympathy with a sharp recession in corn and wheat, accompanied by general liquidation. Very many feel that at least a temporary recession is to be expected, although the movement of the crop is comparatively small. The contract stock at Chicago

is 5,453,000 bushels, against 140,000 a year ago. The cash demand has been either moderate or very small. To-day, prices were easier for a time and then rallied with corn. There is less fear of Canadian oats for the time being. To-day,

The following are closing quotations: 

AGRICULTURAL DEPAR'TMENT'S REPORT ON CEREAL CROPS, &C., TO SEPT. 1.—The Agricultura Department issued on the 9th inst. its report on the cereal crops for the month of August as follows:

The Crop Reporting Board of the Bureau of Statistics of the United States Department of Agriculture estimates, from the reports of the correspondents and agents of the Bureau, as follows:

WEATHER BULLETIN FOR WEEK ENDING SEPT.8 -The general summary of the weather bulletin issued by the Department of Agriculture for the week ending Sept. 8 is as follows:

The continued severe heat over the interior portions of the country and a further absence of beneficial rainfall over nearly the same regions were the marked features of the weather during the week, thereby still further increasing the serious losses that have already been experienced to the growing crops of those districts and adding much to the discomfort of both human and animal life from the persistent heat both day and night and the growing cores of those districts and adding much to the discomfort of both human and animal life from the persistent heat both day and night and the growing cores of those districts and adding much to the discomfort of both human and animal life from the persistent heat both day and night and the growing scarcity of water.
Over the corn-growing States both to eastward and westward of the Mississippi the week, as a whole, was very generally one of the warmest ever known. But little beneficial rain occurred, save over the extreme eastern portion, and severe drought continues very generally. In the spring-wheat States considerable showery weather interfered somewhat with threshing in portions of North Dakota and to the eastward, but over the remaining portions the weather was warm, dry, and favorable for threshing and other farm operations.
In the cotton region warm weather and local showers afforded favorable conditions for the development of the Catton plant throughout mose of the states to eastward of the Mississippi, although there has been insufficient precipitation in portions of nearly all the States. Some damage probably resulted from the high winds and heavy rains in Eastern North Carolina, and drought is severe over much of Tennessee and portions of South Carolina.

and drought is severe over much of Tennessee and portions of South Carolina. In the cotton-growing States to westward of the Mississippi River the drought in Arkansas was considerably relieved, and there were light showers at a number of points in Texas and heavy falls over small areas. In Okla-homa little beneficial rain occurred and similar conditions prevailed in Southern Missouri. Hot weather continued throughout the week, and it is probable the light falls of rain had very little beneficial effect. Over the Atlantic Coast districts the week was very generally warm and humid, with considerable precipitations near the coast and showers suffi-cient for present needs in many other portions. But little rain occurred, however, in the interior of New York and over Northern Pennsylvania, and serious drought and deficiency in the water supply now exists in por-tions of those States. Over the districts from the Rocky Mountains westward weather condi-tions ouring the week did not depart materially from the normal. Good rains occurred in the Central Mountain and Plateau regions and in the western portions of Washington and Oregon. In California moderate temperatures prevailed and conditions were favor-able for the ripening and drying of fruit and for other agricultural pursuits. The statements of the movement of breadstuffs to market

The statements of the movement of breadstuffs to market indicated below are prepared by us from figures collected by the New York Produce Exchange. The receipts at Western lake and river ports for the week ending last Saturday and since August 1 for each of the last three years have been:

Total Sept. 7 1912.-26,420 491 1,454 11,264 61 607 1,225 41 Total Sept. 7 1912.-26,420 491 1,454 11,264 61 607 1,225 41 **THE DRY GOODS TRADE.** New York, Friday Night, Sept. 12 1913. All descriptions of dry goods have continued to work into a stronger position during the past week and a very satis-factory volume of sales has been put through. Cotton goods lead the market in both strength and activity, owing to the firm raw material situation and a recent renewal of buying for export account. The tariff bill, having passed the Senate, is not expected to remain long in conference and will probably become a law soon, which, if anything, has had a stimulating effect upon sentiment. Manufacturers generally feel that they have made ample allowance for in-creased foreign competition, and are naturally anxious to have the bill disposed of as quickly as possible. All descrip-tions of finished cotton goods have been advanced in price since the recent rise in the cotton market, and, contrary to expectations, sales have increased as prices rose. Many prominent lines have now been placed at value and mills are not willing to book further business for very distant delivery at present prices, owing to the uncertainty of con-ditions following the passage of the tariff as well as the pros-pect of a firm raw material market during the current erop season. A fairly good export business has been done during the past week, several thousand bales of three and fourpect of a firm raw material market during the current crop season. A fairly good export business has been done during the past week, several thousand bales of three and four-seventy sheetings having been placed for China account. More business would have been put through had manufac-turers not marked up prices from an eighth to a quarter-cent. The reduction of Pepperell drills to 7% c. brought out new demand from India and a few thousand bales were booked for October and November delivery. No demand has been reported from Red Sea ports, as Austrian and Italian manu-facturers still dominate that market. In the cotton yarn trade spinners and commission houses have put through a large volume of business at steadily advancing prices. The firm raw-material situation has caused yarn buyers to despair of lower prices in the near future. In woolen and worsted of lower prices in the near future. In woolen and worsted dress goods new lines for spring 1914 have been opened up and buyers are generally showing an active interest in the new offerings. Manufacturers feel that they have made

ample provision for foreign competition in the radical price reductions, and buyers are placing their business early, in the opinion that these reductions may be greatly modified as the season progresses, and it is found that foreign competition has not developed to the proportion which had been expected. DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending Sept. 6 were 9,408 packages, valued at \$803,580, their destination being to the points specified in the table below: \_\_\_\_\_\_1913\_\_\_\_\_\_\_1912\_\_\_\_\_

#### CITY DEPARTMENT. State and

## News Items.

Akron, Ohio.—Commission Form of Government Defeated. —According to reports, the election held Aug. 26 resulted in the defeat of the commission form of government (V. 97, p. 540).

Arnold-New Kensington, Pa.—Consolidation Plan Re-jected.—A special election held Sept. 9 resulted in the defeat of the plan to merge these boroughs into a third-class city.

Bristol, Conn.-Voters Favor Purchase of Water Plant. A special election held Sept. 8 resulted in favor of the propo-sition to purchase the property of the Bristol Water Co. for \$483,357. The vote is reported as 782 to 364. See V.97, p. 388

p. 388.
Burlingame, Cal.—Purchase of Water Plant.—According to the San Francisco "Chronicle," the City of Burlingame on Sept. 2 purchased the Peninsula Water Co. for its new municipal water system. The price paid was \$48,375, being the figure fixed by the arbitration board. The company has agreed to accept \$48,000 in Burlingame water bonds and the remainder will be paid in cash. This plant, it is said, will form a nucleus for the municipal water system, for which \$175,000 bonds were voted.
The purchase of the Easton distributing system from A. M. Easton for \$5,620 was also effected on Sept. 2. A tentative agreement was likewise made with Easton to secure water from his Black Hawk Company.
Grant's Pass, Ore.—Bonds Declared Invalid.—The State

Grant's Pass, Ore.—Bonds Declared Invalid.—The State Supreme Court on Sept. 2 declared illegal the \$200,000 bonds voted in December 1912 for the purpose of building a rail-City, Cal. In reversing the lower Court, which decided in favor of the bonds (V. 97, p. 388), the Supreme Court says in part:

Tavor of the bonds (v. 97, p. 565), the Supreme Source steps in part: A municipality cannot amend its charter to confer on itself power or authority beyond what is properly municipal or governmental. The power of the Legislature is unlimited when not restricted by the constitution, but such power does not extend to a city except as granted by the State. Section 2. or Section 1 A, Article 4, of the constitution do not confer such power. The rights there given are municipal. The effect of adding Sec-tion 93 A to the charter was an attempt to ignore the State authority and to assume sovereign rights. Furthermore, such an amendment was only an attempt to enlarge the powers of a city in addition to those conferred in Section 93 and not an attempt to legislate. We cannot recognize the attempted charter amendment, as it was beyond the power of the city to assume to itself sovereign power that rests exclu-sively in the State. Defendants insist that the Legislative Act of 1913 gives validity to the charter amendment of December 1912, but it can have no retrospective effect. It does not operate as an amendment of the city charter; but charters may be amended to take advantage of powers granted. The attempted amendment of the charter was unauthorized when adopted and the legislative Acts could give it no validity. Neither it nor the legis-lative Act authorize a particular real estate; but before the city can have the benefit of the statute it must act affirmatively by making its charter and ordinance. Section 2, Article II, of the constitution confers powers and authority upon cities to form their own charters and make their own laws within their municipal needs. That is in local and special municipal legislation. Authority beyond that must come from the sovereign manely, the Legislature, by general laws, or by the people by general or special laws. **Greenville**, **Washington County, Miss.**—*Election on* 

Greenville, Washington County, Miss.—Election on Commission Form of Government.—An election will be held Oct. 15, reports state, to submit to a vote the question of establishing a commission form of government.

Hot Springs, Ark.—Conflagration.—Fire, which started Sept. 5, destroyed a large part of the eastern section of this city, causing a monetary loss estimated at \$6,000,000, of which approximately \$2,000,000 was covered by insurance.

Laurel, Miss.-Commission Government Retained .- Ac cording to a New Orleans newspaper, the voters of Laurel on Aug. 26 decided to retain the commission form of govern-ment by a majority of 72 votes.

Michigan.—Tax on Secured Debts.—The 1913 Legislature passed an Act (No. 142) providing that by the payment of a specific tax of  $\frac{1}{2}$ %, "secured debts" may be exempted from the payment of further general taxes. The Act in full is as follows:

The payment of further general taxes. The Act in full is as follows: [No. 142.]
AN ACT to provide for the assessment and the collection of a specific tax upon secured debts other than debts secured or evidenced by mortgages and liens upon real property, and which mortgages and liens are recorded in Michigan, and to repeal all Acts and parts of Acts in contravention thereto. The People of the State of Michigan enact:
Section 1. The words "secured debts" as used in this Act shall include: (1) Any bond, note or debt secured by mortgage or real property recorded in any State or country other than Michigan, and not recorded in the State of Michigan ote or debt secured by mortgage or real property recorded in the State of Similar bonds, notes or written or printed obligations, parts of a series of similar bonds, notes or written or printed obligations, forming part of a series of similar bonds, notes or written or printed obligations, forming part of a series of similar bonds, notes or written or printed obligations, forming of a series of similar bonds, notes or obligations, which are secured by a deposit of any valuable securities, as collateral security for the payment of bonds taxable under this Act.
Bec. 2. Any person may take or send to the office of the treasurer of the county where he ressurer shall thereupon make an endorsement upon said secured debt or shall give a receipt for the tax thereon, describing said secured debt or shall beduly signed and dated by the treasurer or his duly suthor receipt shall beduly signed and dated by the treasurer of dot secured debt. The consement or beserves and receipts with a description of such secured debt. The consement or beserves and receipts with a description of the same, and may pay to the county treasurer shall there and to the office of the treasurer of the county where he reasurer shall there and the treasurer or his duly suthor receipt shall beduly signed and dated by the treasurer of is subset the dorsement or besevent and th

Treasurer shall place the same to the credit of the general fund, to be used for general State purposes. Sec. 4. Secured debts upon which said specific tax shall be paid shall be exempt from further general taxes under the laws of this State. Sec. 5. All Acts or parts of Acts in contravention of the provisions of this Act are hereby repealed. Approved May 1 1913.

Constitutional Amendments.—At the 1913 session concur-rent resolutions were also adopted providing for the submis-sion to the voters at the general election in November 1914 of three proposed constitutional amendments. The first of these amends Section 10 of Article 10 so as to permit the of these amends Section 10 of Article 10 so as to permit the issuance of bonds by the State for the construction and im-provement of public wagon roads. Another proposal adds Section 15a to Article 8, granting to counties authority to issue bonds for the construction of drains and development and improvement of agricultural lands. The third amend-ment changes Section 1 of Article 3 so as to provide that students while in attendance at any institution of learning, members of the Legislature while in attendance at any ses-sion, or commercial travelers, shall not be deprived of their right to vote by reason of their absence from home. New York City — Death of Mayor Gaynor.—Mayor Wil-

New York City.—Death of Mayor Gaynor.—Mayor William J. Gaynor died early Wednesday afternoon on board the steamship Baltic, on which he sailed Sept. 4 with the intention of taking a brief vacation. Death was due to heart failure and occurred while the Mayor was resting in his chair on the deck of the liner. Mr. Gaynor was born in 1851 at Whitestown, Oneida County, N. Y., and was elected Mayor of this city in November 1909. Prior to his election he served for many years as Supreme Court Judge. Until Jan. 1 1914, when the Mayor's term expires, that office will be filled by Col. Ardolph L. Kline, President of the Board of Aldermen. Mr. Kline was sworn in on Thursday (Sep. 11).
New York State.—Justice Hasbrouck Upholds Assembly's

Aldermen. Mr. Kline was sworn in on Thursday (Sep. 11). New York State.—Justice Hasbrouck Upholds Assembly's Right to Impeach Governor and Decides Sulzer is Without Authority Pending Trial.—In setting aside the pardon of Jo-seph G. Robin by Governor Sulzer, Supreme Court Justice Hasbrouck on Sept. 11 decided that the impeachment of Sulzer by the Assembly was legal and that, while awaiting trial on impeachment charges, the Governor is without power to exercise any executive functions. The Court says in part: "A writ of habeas corpus was granted to Joseph G. Robin, a prisoner In the New York penitentiary, upon formal petition and a writing, purporting to be a pardon of the said Robin, signed, "William Sulzer, Governor of the State of New York," and attested by the seal of the State. "The warden of the penitentiary has made return to the writ in accord-ance with its terms, and has set forth among other things that Governor, Martin J. Glynn, only is competent to discharge the duties of the executive offlice. "Counsel for the relator in support of the writ stands alone upon the pardon. There is no question but the the writ stands alone upon the

Bate of New York, and attested by the seal of the State.
"The warden of the penitentary has made return to the writ in according the penitentary has made return to the writ in according the penitentary has made return to the writ in according the penitentary has made return to the writ in according the penitentary has made return to the writ in according the penitentary has made return to the writ in according the penitentary has made return to the writ is and solve upon the part of the prison to his liberty if Governor Sulzer passessed.
