The full details for the week covered by the above will be given next Saturday. We cannot furnish them to day, clearings being made up by the clearing houses at noon on Saturday, and hence in the above the last day of the week has to be in all cases estimated, as we go to press Friday night. We present below detailed figures for the week ending with Saturday noon, May 9, for four years:

Clearings at-	Week ending May 9.

OUR RAILWAY EARNINGS ISSUE.

We send to our subscribers to-day the May number of our "Railway Earnings" Section. In this publication we give the figures of earnings and expenses for the latest month of every operating steam railroad in the United States required to file monthly returns with the Inter-State Commerce Commission at Washington.

This Earnings Supplement also contains the companies' own statement where these differ from the Gommerce returns or give fixed charges in addition to earnings, or where they have a fiscal year different from the June 30 year, as is the case with the New York Central Lines, the Pennsylvania RR. and others.

THE FINANCIAL SITUATION.

If, as generally expected, the Inter-State Commerce Commission shall presently grant permission to the Eastern railroads to make the five per cent advance in freight rates for which they are contending, a large part of the good expected to result from such action will be frittered away should the bill for the Federal control of railroad stock and bond issues, which was favorably reported to the House of Representatives at Washington last week by the Committee on Inter-State and Foreign Commerce, become a law. The advance in freight rates is desired, not merely to restore railroad earnings but to restore railroad credit. The credit of the railroads has been seriously damaged as a result of the adverse developments of recent years, thereby impairing their borrowing capacity, with the effect of curtailing the supplies of new capital available for their extension and development. Authority to advance rates will fail to yield one of the main benefits looked for, if quick appeal to the money market for the purpose of obtaining the new supplies of capital which the carriers so sorely need is in any way interfered with, or if the machinery for the emission of stocks and bonds shall be obstructed so as to occasion great delay in perfecting applications for new capital.

That there will be delay-intolerable and insufferable delay-should the Commerce Commission have its powers still further enlarged, and be endowed with authority to regulate new security issues, seems beyond question. Yet the matter is receiving very little attention; and while railroad officials are opposing certain features of the proposed anti-trust legislation so far as it would apply to the railroads, they are manifesting no opposition to the provisions of the bill which would make it necessary for the railroads to get the approval of the Commerce Commission before they could put out further stock and bond issues of any kind. Doubtless railroad men realize how objectionable the imposition of such conditions must be, but hesitate about raising their voices in opposition, out of a fear that their action might be construed as implying unwillingness to subject new security issues to close scrutiny and rigid tests. Objection does not lie at all on that score, but in the fact that the process of emitting new security issues would be rendered so cumbersome and be attended with so much red tape and the possibility of interposing obstructive moves would be so great, that long periods of time would have to elapse between the initiation of the step for a new stock or bond issue and the complete legalization of the securities.

The Commerce Commission is a slow-moving body. That has been made painfully manifest by the experience of the last four years since the Commission has been given power to pass upon propositions for advances in rates. It is also an over-worked body. It has altogether too many duties and responsibilities-too many functions to perform. Suppose, now, it be called upon to consider every application for new stock and bond issues from every railroad in the country, how could it make time for the additional services required of it, and how would it be possible to prevent very long delay upon each application, while, meanwhile, the railroads would be languishing and become impoverished because cut off from the sources of new capital supplies. The Commission could not refuse to grant hearings to all parties in every case. What an opportunity this would afford for holding up proposed increases to any one inimical to a railroad or having speculative designs! There are many persons who would feel called upon to oppose any contemplated new security issues and thus we would have a repetition of the experience the railroads are now having with reference to their proposition for an increase in rates. Such opposition might be looked for no matter how sound or meritorious the application for new security issues.

The situation is not at all analogous to having State commissions sanction new issues, though as a matter of fact even here there is delay enough in all conscience. The jurisdiction of a State commission is limited to the railroads within State borders, while the Commerce Commission would have to deal with proposals concerning the whole forty-eight States of the Union. The railroads were never in such direful need of new capital as at present. There are hundreds of millions of notes or short-term obligations outstanding which will presently mature and must be extended or converted into obligations of more enduring form. These would come immediately before the Commerce Commission for the bill under discussion provides that "every common carrier subject to the provisions of this Act shall file with the Commission on or prior to the date of issuance of any stocks, bonds, notes or other evidences of indebtedness payable at periods of more than twelve months after the date thereof, and now or hereafter to be authorized, a certificate of notification in such form as the Commission may from time to time determine and prescribe." It also makes it unlawful for any inter-State carrier to issue any capital stock, or certificate of stock, or any bond or other evidence of indebtedness, or assume any other obligation, "even though permitted by the authority creating the corporation," "unless and until, upon application and after investigation in the premises by the Inter-State Commerce Commission of the purposes and uses of the issue, and the proceeds thereof, such issue is approved by said Commission as necessary and appropriate for the purposes stated in the application." Even in the case of notes maturing not more than one year after their date, a limitation is imposed, the condition being that "such notes do not at any time aggregate more than five per centum of the aggregate of the stocks and bonds of such carrier which may have been issued and are then outstanding."

Thus everything in the way of new capital issues would come under the jurisdiction of the Commerce Commission. Furthermore, it would be practically impossible for the Commission to act promptly in

MAY 16 1914.]

each case, for the bill expressly provides that, upon application to the Commission for approval of proposed issues of stocks and bonds, "the said Commission shall cause notice to be given, with copy of application and any other proceedings had, to the Railroad Commission, or Public Service or Utilities Commission, or whatever other appropriate State authority may exist, and, if none, then to the Governor and Attorney-General in each State through which any railroad or part of the system concerned passes, or through which the carrier making the application operates any part of its lines."

Hence the States would be represented on every occasion, and necessarily so, and their attitude, we may suppose, toward propositions for new security issues would be different from what it is at present. The responsibility would no longer be theirs, and many of the States could always be depended upon to oppose any increase on general principles. The Commerce Commission would have to listen to what every one had to say (which would always include a good deal of vituperation), just as they have had to listen lately to the Munchausen tales of Clifford Thorne of the Iowa Railroad Commission, when appearing against the proposed increase in rates in a territory remote from Iowa and remote also from the other Western States on behalf of which Mr. Thorne appeared.

It should be remembered, too, that many reorganizations of bankrupt railroads are impendingthe St. Louis & San Francisco, the Wabash, and numerous others-and none of these could be carried out under the proposed bill without the consent of the Commission. If there be delay in other cases there would be still greater delay on security issues connected with reorganizations. The stockholders or the bondholders might feel aggrieved and voice their objection along with all the other protestants. The Commerce Commission itself might feel dissatisfied with the plans and refer them back for modification many times. How could the Commission do all this work and grant extended hearings to everybody and anybody without incurring great delay, thereby deferring indefinitely the rehabilitation of such properties-and unfortunately the number of bankrupts is likely to be swelled if relief of some kind is not speedily granted in the railroad world.

There is really no need for making new security issues dependent upon the volition of the Commerce Commission. The same end can be attained through the other provisions of the bill. The object in view, of course, is to make certain that a proper equivalent is obtained for new security issues, that the proceeds are honestly and properly applied, and the money used for the legitimate purposes of the carrier. What every one wants to prevent is such reprehensible performances as have been disclosed in connection with the management of certain properties that are just now prominently in the public eye. This purpose will be achieved if the carriers are made to account fully for all new security issues.

Publicity is the remedy for the evils and abuses that have flourished in certain directions. Give the Commission the completest power of investigation and the right to require most elaborate reports, and the power also to see that the money, after it is obtained, is applied in the manner set out. The Commission certainly should have "notification," as re-

issue, including the disposition to be made of the proceeds, should go promptly on the record, and the officials should be held to a rigid accountability for all their acts.

This would provide effective regulation without the prolonged delays that would be unavoidable if the consent of the Commission had first to be obtained, relieving the Commission, also, of the burdens involved in making an extended preliminary examination in each instance. It may well be doubted whether the provision requiring the consent of the Commission in the case of a corporation created by State laws is Constitutional, for it is conceivable that a new capital issue might relate to the performance of functions lying wholly within the State, in which event it is difficult to see how any right could be claimed for Congress or the Commission to interfere. And yet it would be hard to distinguish between the requirements of purely State traffic and those relating to commerce between the States.

This question of Constitutionality would be entirely avoided if the Commission were limited to ascertaining the facts and to giving them publicity. It is not claimed by any one that even the approval of the Commission would ensure the investor against loss. The most that can be done in any event is to employ all reasonable means to that end. On that point it is significant that the framers of the bill have inserted an express declaration to the effect that "nothing herein contained shall be construed to imply any guaranty or obligation as to such issues on the part of the United States." In its general provisions the bill is sound and meritorious. For instance, it is provided that:-

"The Commission shall have the power to investigate all financial transactions of said carriers and to inquire into the good faith thereof, to examine the books, papers and correspondence of carriers, construction of other companies, or of firms or individuals with which the carrier shall have had financial transactions, for the purpose of enabling it to verify any statements furnished and to examine into the actual cost and value of property acquired by it or services rendered to such carrier. The carrier may be required by order of the Commission to disclose every interest of the directors of such carrier in any transaction under investigation. In addition to the certificates and reports herein before mentioned, the Commission may require the carrier to furnish any further statements of fact or evidence that it may deem necessary or appropriate."

There are other similar provisions, and none of the essential purposes of the measure will be sacrificed if the requirement of unqualified approval of new stock and bond issues by the Commerce Commission is eliminated.

The gold production exhibit for the Transvaal for April 1914, while showing a slightly greater per diem output than during preceding months of the current calendar year, does no more than did the results then submitted to foster belief in the imminence of a return to normal working conditions in the world's premier gold field. There has been a quite satisfactory increase in the labor force employed at the mines since last November, and ordinarily that would leave no uncertain impress on the output. It is evident, therefore, from the latest return, that, efficiency being lacking, mere gain in numbers has counted for little. From an average daily yield of quired in this bill; and all the details of a proposed 22,155 fine ounces in March there was an augmentation to 22,796 fine ounces in April, giving for the full month a product of 683,877 fine ounces; but that total is more than 100,000 fine ounces less than returned for the corresponding period last year, nearly 54,000 fine ounces below 1912 and only 16,000 fine ounces more than in 1911. Furthermore, the deficiency in output for the four elapsed months of 1914, as contrasted with 1913, is no less than 450,346 fine ounces-comparison being between 2,648,692 fine ounces and 3,099,038 fine ounces. Expressed in another, but probably clearer, way, the loss in gold yield in the Transvaal in the first four months of this year has been close to 9½ million dollars.

The Fall River cotton mills dividend record for the second quarter of 1914 furnishes no more cause for satisfaction to shareholders in general than did that for the first quarter, the return on the capital invested being much below the average of former years, and comparatively meagre withal. There is little, if anything, in fact with regard to the current cotton-manufacturing situation of an encouraging nature. Aside from the curtailment of output that has been a feature of more or less prominence for many months past, the relation between the selling price of goods and the cost of the raw material has been such as to make it exceedingly difficult to operate at a profit. In this respect the corporations running on fine goods have been least favorably situated and in a few instances have suspended dividends temporarily. The Granite mills, the latest addition to the non-payers, passed for the first time since 1912 and the second time since 1898. In most cases distribution has been made upon the same basis as heretofore-usually 1 to 11/2% per quarter-but some of the mill officials have remarked that dividends have been kept up by drawing upon surplus accounts, earnings having been insufficient to pay them.

The second quarter's dividend exhibit, needless to say, is less favorable than that for the corresponding period of 1913, and, as intimated above, not as good as for most earlier years. Seven corporations that made no distribution for the first quarter continued that policy and one other mill joined the nonpayers. It is to be noted in passing that in the case of some of these establishments it is from 3 to 4 years since owners in these mills have had any return on their investments. Concerning the remaining 29 mills, one slightly increased the rate of distribution, two decreased it and twenty-six, following a definite conservative plan inaugurated long ago, maintained the rate of 1913. Altogether the amount to be paid out in the second quarter of 1914 is \$315,667, or an average of 1.07% on the capitalization of \$29,531,-670, this comparing with \$357,675, or 1.22% in the like period a year ago; and, furthermore, in only four years since 1896 has a lower rate been paid for the second quarter than that of this year. Moreover, the return for the elapsed half year, at 2.27%, has been below the average of former times.

A considerable contraction in building operations in the United States, both as compared with 1913 and 1912, is indicated by our compilation of the estimated cost of construction work under the permits issued in 149 cities during April. Furthermore, nowithstanding the further advance of spring, which normally increases activity in this line, the month's ized for FRASER time, however, comparison with April

tended expenditures than did those for March. In some localities the work outlined to be done has been greater than ever before. But at most of the important centres of trade, the month was a relatively quiet one, as the returns for Greater New York (particularly Manhattan Borough), Chicago, Los Angeles, Newark, Milwaukee, Philadelphia, San Francisco, Washington, Portland, Ore., Dallas, New Orleans and New Haven clearly demonstrate.

The aggregate estimated expenditure for the 149 cities reaches only \$84,610,568, against \$100,922,417 in April 1913 and 1071/2 millions in 1912—the high record for the period. Greater New York's exhibit for the month is the poorest for April for fully a decade. The outlay predicated upon the permits issued, in fact, stands at only \$14,689,081, against \$15,886,262 a year ago and over 28 millions in 1912. The decrease is most noticeable in Manhattan Borough, where business structures are the predominating factor, but returns for the Bronx also evidence lessened prospective building. In the outlying sections of Brooklyn and in Queens, however, some revival of activity is manifest. For the 148 cities outside of New York the total, at \$69,921,487, compares with \$85,361,155 in 1913 (the high mark for April) and 79 millions in 1912.

For the four months of the current calendar year the showing, while not as good as in either 1913 or 1912, is hardly unsatisfactory, taking into account the disturbing and uncertain conditions of the times. Twenty New England cities report a slight gain in the aggregate over last year and 28 in the Middle West exhibit very moderate declines. But for the 35 municipalities in the Middle section (exclusive of Greater New York) there is a loss of some 61/2 million dollars, or 12%, the result at the South (29 cities) is a little over 4 millions poorer than in 1913 and for the Pacific slope 13 cities report a total of expected outlay almost 10 million dollars, or 25%, below a year ago. The remainder of the West, 23 municipalities, makes a very good showing, with an increase of 3 1-3 millions, or some 13%. Combining the returns for the 148 cities outside of New York we have a four months' total of \$221,948,788, against \$239,-990,084 in 1913; Greater New York's aggregates are \$48,935,553 and \$60,152,621, respectively, and those for the whole country \$270,884,341 and \$300,142,705.

A quite general let up in activity in building operations in Canada in April is denoted by the returns at hand and, so far as the Eastern Provinces are concerned, it is ascribed to the lateness of the spring. For 28 cities in the East the returns indicate a rather large decrease in outlay-\$9,746,188, comparing with \$11,863,477-and the aggregate for the four months at \$20,902,079 contrasts with \$24,618,661. For the West 15 cities make reports and furnish a month's total barely more than half of last year and the four months shows a loss of 9 million dollars-\$11,467,-454 comparing with \$20,572,051. For the whole of Canada (43 cities) the April result is \$15,301,651, against \$21,440,500, and for the period since Jan. 1 it is \$32,309,533, against \$45,190,712 and, moreover, falls below 1912.

Commercial failures in April 1914 made the most satisfactory exhibit of any month thus far in the current year, the number of reverses having been less than in any of the three preceding months, with a concurrent drop in the aggregate of indebtedness.

of recent previous years is rather unfavorable, an excess being shown in both items. Large failures, moreover, were again a notable feature of the exhibit, 33 defaults contributing no less than \$9,117,736 of the month's liabilities, or close to half of the grand total, while for the four months since January a relatively small number of large insolvencies (143 for amounts of \$100,000 or more, out of 6,162) contributed \$51,432,520 of the combined debts of 104 million dollars reported for the period.

Messrs. A. G. Dun & Co.'s compilation, the authority for our remarks, indicates that the number of casualties in April this year was 1,336, involving liabilities of \$20,549,144, these comparing with 1314 and \$18,445,355 a year ago, 1,279 and \$16,874,727 in 1912, somewhat similar results in 1911, and 1,309 and \$20,316,468 in 1910. The showing in the manufacturing division, it is to be stated, was a little better than last year, indebtedness of \$6,424,059 contrasting with \$6,662,356, but in both trading lines and among agents, brokers, &c., a greater business mortality and larger liabilities were revealed. Failures in the first-named class were for \$10,627,229 against \$9,310,301 in 1913, and in the other \$3,497,-856 and \$2,472,698.

For the four months of 1914 the aggregate number of insolvencies is 6,162 and the amount of indebtedness \$103,770,970, or some 8 millions more than that of the year of depression, 1908. In 1913 the figures were 5,772 and \$95,277,632 respectively, and in 1912 reached 6,107 and \$79,887,050. In each of the various divisions into which the failures are segregated, the volume of liabilities is in excess of the four months of 1913.

Across the border, in Canada, the situation as regards failures has thus far this year been much the same as in the United States, both number and indebtedness involved exceeding 1913.

In the House of Commons on Tuesday Premier Asquith pledged the Government to introduce an amending bill to the Home Rule for Ireland measure in the hope of its being passed by agreement between the parties. His idea was that the original Home Rule Bill and the amendment would become law practically simultaneously. No change could be made, he added, in the original bill if the Parliamentary Act is to be taken advantage of. That Act provides that if any public bill be passed by the House of Commons in three successive sessions and be rejected or unacceptably amended by the House of Lords in each of those sessions, it may become law by receiving the Royal assent, providing that two years have elapsed between the second reading in the first of the three sessions and the final reading in the third session. The Premier announced that the third reading will be taken before Whitsuntide, and said: "I have said I will never close the door on the possibility of any settlement. I am going a step farther than I have ever gone before when I say on behalf of the Government that while I shall ask the House of Commons to give the Irish Home Rule Bill its third reading before Whitsuntide, the Government will make itself responsible for introducing amending proposals to that bill in the hope that a settlement by agreement may be arrived at in regard to matters immediately outstanding." Mr. Redmond, leader of the Irish Nationalists, declared that he sympathized most sincerely with the Prime Minister's hope of an ultimate settlement. If those

hopes were to be realized, he contended, the best course would be the introduction of an amending bill. But Mr. Asquith had declared that even if all efforts to arrive at a peaceful settlement failed, it was still his intention to introduce an amending bill. The Nationalist leader added that he must be allowed to say that this was a very serious decision to announce, and for his part he could not commit himself to approval of this course—certainly not approval at this moment when pourparlers were supposed to be going on and there was hope of reaching an ultimate peaceful settlement. While the Nationalists desire a peaceful settlement, the speaker continued, they were opposed to fresh offers at the present stage.

The final results of the French elections indicates a distinct gain by the Socialists, who elected 61 deputies on the second ballot, which was taken on Sunday last. The re-balloting occurred in 252 constituencies in which there had been indecisive results at the regular balloting on April 21. Sunday's results give the Socialists 102 seats in the new Chamber as compared with 68 in the old. The Caillaux radicals held their own, electing 74 members on the second ballot, which, with 86 elected on the first, gives the party a total of 161, comparing with 156. The other Republican groups to which most of the Briandists were attached elected 101, making, with those elected on the first ballot, a total of 262, as compared with 294. It is evident, therefore, that there is slight reason to hope for any modification of the objectionable tax legislation introduced at the recent session of the Deputies.

The port of Tampico was finally captured by the Mexican Constitutionalist troops on Wednesday. This is a severe blow to the Federal forces, as, unless Huerta can by means of his gunboats effect a complete blockade of the port, the rebels will be in a position to obtain new supplies of arms and ammunition whenever needed. Press dispatches agree that the port was captured at heavy loss of life, but the sacrifice was considered necessary, owing to the embargo that is still being observed by our own Government upon the transfer of munitions of war across the Mexican border. Reports from Washington contain the suggestion that the Constitutionalists, having captured Tampico, will be willing to participate in the peace conference that is to begin on Wednesday on the Canadian side of the Niagara Falls. But this view is not generally entertained at Washington on the ground that General Carranza has no intention of taking any action that will interfere with his plan to capture Mexico City. The Huerta delegates to the conference are Senors Emilio Rabasa, Augustin Rodriguez and Luis Elguero. They arrived at Key West on Thursday evening from Havana, and will, it is understood, spend some time in Washington before completing their journey. They refused to be interviewed when questioned as to their position, saying they would "just listen" at the conference and then decide what action was necessary. Associate Justice Lamar of the United States Supreme Court and Frederick W. Lehmann of St. Louis are the American delegates appointed by President Wilson to the mediation conference.

General Zapata, who is the head of the revolutionary forces in the south of Mexico, is reported to be within ten miles of the capital. He and his lawless followers are in control of the entire State of Morelos. Further south the brothers Figueroa and their army of bandits are running riot through the State of Guerrero. To the west of Mexico City the railroad to Manzanillo is still open, but American warships dominate that port, while to the east of Mexico City Vera Cruz is in the hands of American troops, and the whole stretch of wild country northward to Tampico is cut off. According to latest reports received at Vera Cruz, General Villa is beseiging San Luis Potosi. The way is apparently thus opened for the concentration of the Constitutionalists from the eastern to the western coast for their final march from San Luis Potosi on to the capital, 250 miles to the South.

The Administration at Washington seems again to be placing credence in reports that have heretofore proved to be illusive, that Huerta is ready to flee, if he can be assured of safe conduct for himself, family and personal property, to some foreign country. Thus far there has been no destruction at the oil wells or of the storage plants in the Tampico district. But General Herrera, jefe de armes of the Juarez district, has been sending strong appeals to Americans to return, guaranteeing protection to them. On Thursday General Herrera sent a commission to El Paso to inform Americans that unless they returned and reopened their plants in fifteen days, he would himself reopen them and operate them for the benefit of the public. It is estimated that American investments in the Parral district represent \$30,000,000, and if General Herrera carries out his threat, it will obviously amount to confiscation. General Villa has suggested that President Wilson name a commission to decide how much ammunition he shall have. He promises to take Mexico City promptly if this suggestion is accepted. Villa claims to have 20,000 men in the Torreon district.

A special urgent deficiency appropriation bill carrying \$6,770,632, including more than \$6,000,000 for the military establishment for expenditure on account of past and contemplated activity in Mexico and on the Mexican border, was ordered favorably reported to the House of Representatives by the Appropriations Committee on Thursday. It will be taken up in the House next week. No attempt will be made to issue bonds or treasury bills unless the Mexican troubles develop into formal warfare. General Huerta, having filed a protest with the mediators on the ground that American troops had violated the armistice by capturing Lobos Island, Rear Admiral Mayo cabled in explanation that the Mexican keepers deserted the great lighthouse on the island, and that the destroyer tender Dixie was "maintaining it for the benefit of navigation." Admiral Mayo denied that the island had been occupied. The lighthouse, he explained, was essential to safe navigation, and when it was deserted by its keepers, it became the duty of the Dixie to keep it in operation. The explanation, it is understood, is satisfactory to Huerta.

New York did honor on Monday morning to the seventeen American marines whose bodies were brought back from Vera Cruz. on the armored crusier "Montana." President Wilson, the Governor of New York State, the Mayor of the City and Senators and national representatives rendered official honors on behalf of the Nation, State and city. Hundreds of thousands of persons paid their edly prove a handicap to important advances in

respects along the avenues as the flag-draped coffins passed on the two hours' march from the Battery to the Navy Yard in Brooklyn. The exchanges opened at 11 o'clock instead of their usual hour as a mark of respect. At the Navy Yard President Wilson delivered an address couched in the polished and earnest language of which he has proven himself such a master. We print it on a subsequent page.

Cable accounts from London this week contain the explanation of the mystifying weakness and liquidation that had been the recent features in the security markets at the British centre. Two important firms have been tided over after unsuccessful speculations involving many millions of dollars. The most important of these when first reported caused quite some consternation in the market here, a similarity of names creating the impression that the London representative of a large American house was concerned. Happily, this interpretation was entirely without foundation, but the embarrassment nevertheless proved to be an important one. Its extent may probably best be judged by the news that a syndicate of London Stock Exchange houses and bankers that was formed to aid the firm in question was understood to have taken over securities having a face value of £5,000,000 (\$25,000,000), of which £3,000,000 (\$15,000,000) represented par value of stock in the Grand Trunk Ry. of Canada. Among the members of the syndicate which took over securities (quoting from London press cables) are representatives of the Bank of England and of the Bank of Montreal. Another member of the syndicate is reported to be Robert Fleming, who is well known in New York, and a number of New York financial houses are also reported to be interested. The London market is in doubt whether the speculation was an individual one or whether it represented an attempt to obtain control of the Grand Trunk Ry. It is suggested that the operation was connected with American interests. If so, it has obviously been unsuccessful. The firm was also heavily involved by reason of its holdings of shares of the Hudson Bay Company. The second embarrassment referred to was that of an old firm of London Stock Exchange jobbers, who have also been especially prominent in Grand Trunk shares and in Colonial securities generally. The weakness in Canadian securities which has resulted from the industrial reaction that has taken place in the Dominion has been aided by the recent decision of the Canadian Railway Commission arbitrarily reducing railroad rates west of Lake Winnipeg. These combined influences, obviously, have produced embarrassment in London that is quite widespread. While the two involvements referred to have become public, London correspondents state that a number of smaller Stock Exchange firms are still on thin ice.

Toward the close of the week the British market began to show a response to the fact that the most threatening features in the situation had been adjusted. Liquidation by each of these concerns had in a quiet way been in progress for several weeks and their weakness had been known to a number of the larger houses. It is now believed that the serious situation has been relieved; there is no further reason to expect market shocks from further embarrassments. Nevertheless a period of protracted liquidation seems in sight that will undoubt-

tized for FRASER raser stlouisfed org/

quotations of the securities that have been tak B over by the syndicate. Coincident with the clearing of the London situation in this respect has been a better feeling regarding money prospects at that centre. Discounts in Lombard Street rose to 2 15-16% for both sixty and ninety-day bills and in instances the full Bank rate of 3% has been demanded-facts that are highly significant of the financial strain that has been current. At the close, however, 27/8% was the quotation for both long and short bills. During the final days of the week, the Russian demand for gold moderated. Sterling checks in Paris suggested, too, that the French strain had been relieved. The Bank of England was not able to obtain any of the new Cape gold that was offered on Tuesday, £200,000 being secured for India, while £470,000 was taken for Paris without premium. This is in direct contrast with the results of the preceding offerings, France and Russia having, it will be recalled, both paid a premium last week which, plus the commission and other charges, brought the cost up to 77s. 101/4d. per ounce, which was a new high record price since 1909. The fact that Russia was not an insistent bidder on Tuesday is interpreted as an indication that the situation at St. Petersburg has materially moderated.

Investment conditions in London have been so unsatisfactory that underwriters have not attempted to bring out additional large new issues. The crisis caused by the important embarrassments already referred to seems to have diverted attention from the budget, which London correspondents describe as having been apathetically received. Closing quotations of representative securities are suggestive of the better tone that the market is showing. British consols, for instance, closed at 74 15-16, against 74 9-16 a week ago. London & Northwestern Ry. finished at 13034, against 1291/2, Great Western closed at 11434, against 1131/2, and the Great Eastern at 501/4, comparing with 491/2. Japanese 4s remain at 771/2; Bulgarian 6s have advanced 1 point to 102, and Russian 4s are 1/2 point higher at 87. Servian unified 4s are without change from $78\frac{1}{2}$ and Mexican Government 5s are 1 point lower at 84, while Mexican railways ordinary shares have advanced 1 point to 301/2. German Imperial 3s remain at 76. Dayto-day funds in London closed at 13/4@21/4%, comparing with 11/2@13/4 % a week ago.

The situation in Paris has not shown an improvement corresponding to that at the British centre. The Paris banks, according to responsible press cable accounts, have intervened to support the general financial situation, but their efforts have been negligible in results since it was found impossible to interest outside support. Investors are reported to be centralizing their purchases in foreign giltedged stocks, completely ignoring all other issues. Brazilian and all South American securities, as well as those of Mexico, are declared to be unnegotiable at any price. The same is true of large Balkan issues that have recently been floated in Paris. Banking interests at the French capital are keenly disappointed at the results of the second elections that were held in the indecisive districts on Sunday last. These showed important gains by the Socialistic Party, which necessarily means that the radical taxation methods that were proposed by the Caillaux regime are to be fully carried out, if, indeed, they are not to become even more radical. The present

expectation is that there will be a French National issue, either of treasury bills or other descriptions of securities, except rentes, early in July. While, as is customary in Paris, the rate of interest will not be definitely announced until immediately before the offering is made, it is believed in usually wellinformed circles that a 4% rate will be decided upon, as the new issue will be subject to the income tax. French capitalists are reported to be withdrawing their funds from French securities for the purpose of investing them abroad. It is rumored that an important block of gold, representing, in part, the proceeds of the Turkish loan, is to be transferred from Paris to London. No additional embarrassments have been reported on the Paris Bourse. French rentes closed last evening at 86.75 francs, which compares with 86.90 francs a week ago. Money in Paris finished at 2%, against 21/2% on Friday of last week. French bank shares have been under particular pressure during the week. France, in fact, appears to be suffering a considerable degree of trade and industrial depression. Importations in March, according to cable accounts, increased 70,000,000 francs, whereas exports were lower by 14,000,000 francs, comparing with the same month of 1913. Such an increase in purchases with decrease in sales is not regarded as a favorable symptom. There was a falling off of 30,000,000 francs in the exportation of manufactured goods during the month in question. Railway traffic statements afford additional evidence of the reactionary conditions, the returns for March showing a loss of 7,000,000 francs.

Cable correspondents in Berlin complain more of unsettled political conditions than do those at other European centres. The health of the Austrian Emperor, Francis Joseph, seems a particular feature of solicitude, and suggestions are made that the real condition of the aged ruler is not as satisfactory as the official bulletins report. The Russian situation is also a disconcerting one at the German centre, and Paris is alleged to have been selling Russian securities on the German market. A dispatch from the Russian capital on Thursday stated that for the first time in its history the Duma had rejected the Budget. The majority against the Government was seventy. Another feature is the unfavorable condition of the German steel trade, predictions being current that a further cut in quotations for steel products is in prospect. An engagement of \$1,000,000 in gold for shipment from New York to Berlin was announced here on Monday, but rumors were current in foreign exchange circles that the real destination was St. Petersburg. No confirmation of this report is available and the chances seem rather against its accuracy, as there has recently been ordered a transfer of £7,000,000 sterling to London that has been on deposit on account of Chile at the German centre. It is reported that at a conference at Port au Prince, Hayti, representatives of the Zamor Government with the German Minister, Dr. Pepyl, virtually concluded arrangements whereby German bankers are to loan to the Haytian Government about \$2,000,000 and Germany is to receive in return certain ports and customs receipts, but this has been denied; and if true would doubtless constitute a violation of the Monroe Doctrine. Money in Berlin closed at 21/2%, which compares with 21/2 @3% a week ago.

There have been no changes in discounts by the official European banks this wesk. Private bank rates in London, however, have been exceptionally firm, closing at 21/8%, or within 1/8% of the Bank of England rate; this compares with 234@278% for both long and short bills a week ago. In Paris bankers' combination rate remains at 23/4%. The private rate in Berlin has not been changed from 21/2%. Vienna is 1/4% lower at 3% and Brussels 3%% lower at 31/4%, while Amsterdam remains at 2 15-16%. Official rates at the leading foreign centres are London 3%, Paris 31/2%, Berlin 4%, Vienna 4%, Brussels 4%, Amsterdam 31/2%.

The Bank of England again presented an unfavorable return, which suggests that substantial basis exists for the report current in New York that inquiries that have been made regarding American eagles in New York have in fact been for Threadneedle Street. The Bank again failed to obtain new gold at Tuesday's offering of South African bars. A loss in gold coin and bullion holdings of £135,247 is reported this week and of £30,000 in the reserve. Meanwhile the proportion of reserve to liabilities is 44.51%, which compares with 44.26% last week, as a result of a further reduction in obligations. A year ago the total was 50.25%. There was a further net reduction of £379,000 in loans (other securities), of £106,000 in note circulation and of £628,000 in ordinary deposits. Public deposits showed an expansion of £224,000. The Bank now holds £35,-806,352 in bullion, which compares with £36,361,-981 in 1913 and £39,832,338 in 1912. The reserve totals £25,533,000, against £26,210,971 one year ago and £29,499,353 in 1912. "Other securities" (loans) aggregate £38,456,000. In 1913 they were £30,-878,754 and in 1912 £30,530,822. Our special correspondent furnishes the following details by cable of the gold movement into and out of the Bank for the Bank week: Imports, £73,000 from South America; exports, £125,000 (of which £75,000 to the Continent, £50,000 to Java) and shipments of £83,000 net to the interior of Great Britain.

The Bank of France in its report on Thursday reported an increase of 13,486,000 francs in its gold holdings, but a decrease of 5,192,000 francs in silver. A contraction of 51,050,000 francs was recorded in note circulation and of 23,000,000 francs in the Bank's advances. General deposits increased 4,-225,000 francs and there was a net addition of 44,-525,000 francs to discounts. The Bank's gold stock now amounts to 3,674,322,000 francs. One year ago the total was 3,504,350,000 francs and in 1912 3,241,225,000 francs. The silver supply is 629,-429,000 francs, against 608,750,000 francs one year ago and 812,350,000 francs the year preceding. Circulation is now ahead of earlier years, amounting to 5,844,241,000 francs, against 5,613,786,065 francs last year and 5,215,156,140 francs in 1912. General deposits stand at 672,741,000 francs. A year ago they were 615,469,814 francs and two years ago 555,502,708 francs. Discounts aggregate 1,435,-131,000 francs, against 1,676,385,903 francs in 1913 and 1,093,365,497 francs in 1912.

The weekly statement of the Imperial Bank of Germany, which was published on Saturday, showed 015,000 marks in total cash, including gold. There in addition to J. P. Morgan & Co., of the First

was a decrease of 94,867,000 marks in note circulation and of 3,268,000 marks in treasury bills. The deposits showed an expansion of 12,340,000 marks, but loans were reduced 23,426,000 marks and discounts suffered a contraction of 61,180,000 marks. The Reichsbank now holds 1,659,035,000 marks in cash, against 1,263,680,000 marks one year ago and 1,230,400,000 marks in 1912. Combining loans and discounts, we have a total of 1,097,352,000 marks, which compares with 1,321,400,000 marks at this date in 1913 and 1,156,420,000 marks in 1912. Outstanding circulation aggregates 2,006,440,000 marks, one year ago the total was 1,975,180,000 marks and two years' ago 1,705,320,000 marks.

There has been no change thus far from the pronounced ease that has been the feature of the local money market for so protracted a period. Rates for the nearer maturities are, in fact, fractionally easier, notwithstanding that there have been additional engagements of gold for export aggregating \$4,000,000 since we last wrote. Last Saturday's bank statement indicated a further increase in the surplus above reserve requirements of \$5,197,100, bringing the total surplus up to \$41,683,650, which compares with \$19,802,600 at this date a year ago and \$11,920,300 in 1912. The actual cash held by the Clearing House institutions increased \$7,466,000 during the week, but an expansion of \$9,010,000 in deposits called for \$2,268,900 additional reserve. There was a reduction of \$912,000 in loans during the week. The banks reported an increase of \$4,108,000 in cash in their vaults, while the trust companies reported \$3,358,000 increase in cash in vaults and \$4,291,000 increase in cash in banks.

The unknown factor in money market prospects necessarily is the question whether there is to be actual war with Mexico. Should intervention become an established fact, then the Treasury will be compelled to call on the money market for the "sinews of war", and this demand will undoubtedly take the form of a bond issue or a considerable offering of treasury notes. Either of these, it is thought, would influence a rise in money rates. However, there seems a disposition in banking circles at New York to agree with President Wilson that, now that the first shock of the occupation of Vera Cruz has passed, the prospects for a settlement of the Mexican question by mediation are becoming brighter. The actual demands upon the capital market still are light. The Kuhn, Loeb & Co. syndicate was called upon to take up approximately \$16,000,000 of the \$55,000,000 convertible bonds offered by the Southern Pacific Railway to its own stockholders. These have been sold to distributing bankers. Kuhn, Loeb & Co. this week sold \$8,000,000 Chicago & North Western Ry. general mortgage gold bonds to investors. J. P. Morgan & Co. have advised holders of New York New Haven & Hartford 6% notes, dated November 18 1913, that on and after May 18 the notes will be paid at the option of the holders on presentation at the office of J. P. Morgan & Co. at New York, or the office of the Old Colony Trust Company, Boston. Meanwhile, the bankers report an excellent inquiry for the new notes (amounting to \$50,000,000) of the New Haven and its subsidiaries, were offered for public subscrip-tion this week. These notes are being offered an increase of 2,730,000 marks in gold and of 12,- by an influential syndicate of bankers, consisting,

MAY 16 1914.]

National Bank, the National City Bank, Kidder, Peabody & Co., and Lee, Higginson & Co. There is quite a large volume of notes of various companies maturing in June, most of which, however, are likely to be extended. The Missouri Pacific, for instance, has \$25,000,000 5% notes maturing on June 1. There has been some negotiations with a view of inducing Kuhn, Loeb & Co. to finance the entire issue, but the banking firm, after a thorough investigation by two representatives, decided that the road needed a more comprehensive scheme of financial rehabilitation and declined the immediate proposal. The present plan adopted by the directors of the company is to extend the \$25,000,000 5 per cents by a similar issue of 1-year 6 per cents and to deposit as additional security \$3,000,000 Iron Mountain Railroad bonds. The Missouri Pacific will then have a full year to work out the more elaborate plan of finance that the representatives of Kuhn, Loeb & Co. found desirable. Kuhn, Loeb & Co. and Speyer & Co. yesterday offered \$35,000,000 1-year 41/2% secured notes of the Baltimore & Ohio at par and interest and the issue was heavily subscribed.

The practical work of organizing the regional banks under the new banking law has now been undertaken. There seems every reason to expect that the new system of re-discount will be available for general use early in August and will thus be in ample time to meet the increased demand for funds that is seasonal during the crop-moving period. The Secretary of the Treasury, Mr. McAdoo, had, however, already indicated that the Treasury Department would repeat its last year's experiment of depositing Government funds in the national banks of the agricultural sections, in the event of there being any delay in the inauguration of the new system. Thus there has been slight fear in banking circles of any strain in money during the autumn. Unless there shall be sudden improvement in the speculative activity on the Stock Exchange, or unless real war shall unfortunately develop, there does not appear to be any general expectation of much higher rates for money for some time ahead. Funds are accumulating as fast as they are released as a result of the restriction in general trade and industry. It is conceded, should the approaching decision of the Inter-State Commerce Commission on the application for an increase in rates be favorable to the transportation lines, that such a result would be likely to give business quite a substantial movement. This appears about the only important demand upon the money market that is at present in prospect. Commercial paper still continues in better demand than supply and high-grade six months' names continue selling at 33/4%.

Referring to call money rates in detail, the range in quotations on each day of the week was $1\frac{3}{4}@2\%$, with 134% the renewal basis. For time money 21/4 @21/2% were the closing quotations for sixty days (unchanged for the week), 21/4% for ninety days (unchanged), $2\frac{3}{4}@3\%$ for four months (against $2\frac{3}{4}$ @3% a week ago), 3% for five months (unchanged) and 3@314% for six months (against 3@31/2%). Commercial paper closed at 334@4% for sixty and ninety-day endorsed bills receivable and for four to six months' single names of choice character. Names less favorably known still require 41/4@43/4%.

With private bank rates in Lombard Street ad-

it is not surprising that the market for sterling exchange this week should have ruled strong. Engagements aggregating \$4,000,000 in gold bars have been made for exports this week, including \$1,000,-000 for Berlin and \$3,000,000 for Paris. These shipments have virtually exhausted the supply of gold bars at this centre and further engagements if they are made in the near future must contemplate the shipment of gold coin, which as a result of abrasion requires a slightly higher rate of exchange if the metal is to go forward purely as an exchange transaction. It is also necessary for shippers on this side to revise their estimates of profits in view of the elimination of the premiums that have recently been paid at the London weekly offerings of Cape metal. Advices cabled from London state that the Russian demand for the precious metal seems to be subsiding. This is confirmed by the failure of St. Petersburg to bid for Tuesday's Cape gold. Meanwhile the British centre is to receive, or already has received, £7,000,000 of Chilian gold that has been on deposit in Berlin and also a considerable block of gold from Paris representing part of the proceeds of the recent Turkish loan. Barring war with Mexico, which concededly would upset all calculation as regards the money market and the sterling exchange situation, there seems a feeling in representative sterling exchange circles that the gold efflux, that apparently has begun in earnest will assume substantial proportions. As a broad proposition it may be stated that funds are in much greater demand abroad than at home and supplies will always move to sources of employment where most lucrative rates of interest are available. In London, Paris and Berlin there have been quite serious embarrassments of late and financial conditions are much disturbed. At home here trade and industry are suffering severe curtailment-a feature that is releasing banking resources and rendering the outlook one for comfortable conditions for a considerable time ahead. There is, furthermore, the promise of an early completion of arrangements to place the Federal Reserve Banking Law in practical operation-a development serving to relieve our bankers of the necessity of making as careful preparations for the autumn requirements as they otherwise would feel impelled to do. The foreign demand for American gold is not entirely arbitrary. It is, for instance, estimated that fully 300,000 shares of American securities besides considerable blocks of bonds and short-term notes have been returned to this market since the Balkan War. In addition the relation of imports and exports is being modified by the incentive for increased imports contained in our lower tariff rates and by the discouragement of large exports from this country contained in the depression abroad. Thus gold is going forward to a large extent as a legitimate and not an artificial movement. The Bank of England, so we are informed, is bidding 77s. 31/2d. for eagles in this market. On this basis it is figured that demand bills, which yesterday touched 4 8835, must reach at least 4 89 before the coin can go forward as an exchange transaction.

The Continental exchanges have moved in favor of London this week. Demand sterling at Paris closed at 25.19 francs, which compares with 25.16 francs a week ago and 25.15 francs a fortnight ago. In Berlin the London check rate finished at 20.481/2 marks after having touched 20,49 marks on Wednesvancing to within 1/8% of the Bank of England rate, day. This compares with 20.48 marks last week.

Sterling exchange in Amsterdam as reported by cable last evening closed at $12.11\frac{1}{4}$ guilders, against $12.10\frac{3}{4}$ guilders on Friday of last week. Berlin exchange in Paris finished at 122.90 francs, against 122.79 francs a week ago. Mexican exchange on New York closed at 290 and on London at 1s. $4\frac{3}{4}$ d. These figures compare with 300 and 1s. $4\frac{1}{4}$ d. a week ago. New York exchange on Mexico closed at 35, against 33 last week and $31\frac{1}{4}$ a fortnight ago.

Compared with Friday of last week, sterling exchange on Saturday continued to advance; demand and cable transfers touched new high levels for the current movement, being quoted at 4 8790@4 88 and 4 8825@4 8835, respectively; sixty days was unchanged at 4 8525@4 8540; the dominating market influence is still the hardening tendency in English Another sharp rise characterized Mondiscounts. day's operations, inducing additional engagements of gold for export and occasioned chiefly by renewed firmness in discounts at London and a good inquiry for exchange; demand advanced to 4 8805@4 8815, cable transfers to 4 8835@4 8845 and sixty days to 4 8535@4 8550. On Tuesday trading was dull and inactive and rates showed little change; demand declined 5 points to 4 88@4 8810, while cable transfers remained at 4 8835@4 8845 and sixty days at 4 8535@4 8550. A weaker tone was evident at the opening on Wednesday, though later this was fol-lowed by a renewal of firmness; the range was slightly higher at 4 88@4 8815 for demand and 4 8835@4 8850 for cable transfers; sity days still remains at 4 8535@4 8550. On Thursday an active demand for exchange, together with further stiffening in English discounts, sent sterling up to another new high record, the rates established being the highest since March 1909; cable transfers advanced to 4 8855 @4 8865 and demand to 4 8815@4 8825; sixty days, however, was without change at 4 8535@4 8550. Closing On Friday the market ruled very firm. quotations were 4 8535@4 8560 for sixty days, 4 8825@4 8835 for demand and 4 8865@4 8875 for cable transfers. Commercial on banks closed at 4 84@4 85, documents for payment finished at 4 84³/₄@4 86 and seven-day grain bills at 4 87¹/₂ @4 875%. Cotton for payment closed at 4 8434@ 4 85, grain for payment at 4 851/2@4 853/4.

The New York Clearing-House banks, in their operations with interior banking institutions, have gained \$12,992,000 net in cash as a result of the currency movements for the week ending May 15. Their receipts from the interior have aggregated \$18,186,000, while the shipments have reached \$5,-194,000. Adding the Sub-Treasury operations and the gold exports, which together occasioned a loss of \$2,968,000, the combined result of the flow of money into and out of the New York banks for the week appears to have been a gain of \$10,024,000, as follows:

Week ending May 15.	Into Banks,	Out of Banks,	Net Change in Bank Holdings,
Banks' interior movement.	\$18,186,000 24,299,000	\$5,194,000 27,267,000	Gain \$12,992,000 Loss 2,968,000
Total	\$42,485,000	\$32,461,000	Gain \$10,024,000

The following table indicates the amount of bullion in the principal European banks.

THE FALL OF TAMPICO.

The capture by the insurgent Mexican army of the important seacoast city of Tampico has been accepted in all quarters as a development of high importance in the Mexican situation-one, indeed, which should bring considerably nearer the breaking of the present absolute deadlock in our relations with the Mexican Government and people. This is the furthest point, within the territory controlled by Huerta, of which the Constitutionalist forces have yet gained possession. It is nearly the same distance from the capital as Vera Cruz-three or four hundred miles. Its capture not only inflicts a serious blow on the prestige of the Dictator, but, combined with the occupation of Vera Cruz by the American forces, it cuts off Huerta from supplies arriving on the East coast of Mexico, and it virtually separates him from at least one of his important garrisons, against which General Villa is already moving. From a military point of view, Huerta is already in a more desperate position than was President Diaz when he fled before Madero. Judged by ordinary inference, it should mean the beginning of the end of his rule in Southern Mexico.

This change in the situation has been accepted, alike at Washington and on the Stock Exchange, as greatly simplifying the Mexican problem. It is so regarded, obviously, because of the unusual position in which our Government was placed by the Administration's theory regaring our Mexican relations. So long as it was contended that we were at war with General Huerta and not with Mexico, so long as we continued our ultimatum that Huerta must personally withdraw, and so long as Huerta himself refused to do so, it was manifest that even the South American mediators could accomplish nothing final.

Only two ways out of the dilemma seemed to be open. One was our own advance on Mexico City and the deposition of Huerta by our army—which would have involved the breaking of the armistice arranged by the mediators and which would possibly have brought about a collision between ourselves and all other factions and leaders in Mexico. The other was the forcible expulsion of Huerta by the Mexican insurgents. The fact that this second solution of the difficulty now seems to be in sight is the reason for the more cheerful view entertained, these last few days, of the Mexican situation.

This is very far from meaning, however, that the problem ahead of us, even supposing Huerta's downfall to be assured, is a simple one. It is not by any means clear just what will be our status in Mexican affairs, with Carranza and Villa installed in the capital and in virtual control of the country. The attitude of these leaders towards our occupation of Vera Cruz has been a matter of precarious uncertainty all along; what it would be when the Constitutionalists had become the unquestionable de faclo Government is pure conjecture. The most we know as yet is that Carranza, though not arrogating to himself any higher title than revolutionary chief of the Province of Coahuila, has openly regarded our seizure of Verz Cruz with suspicion, jealousy and resentment; but that Villa, apparently the more virile personality of the two, and certainly the more conspicuously successful commander, has pursued a conciliatory policy, and has endeavored, with not a little diplomatic skill, to maintain good relations with the United States and with the Mexicans at once. There is reason enough, all things considered, to look for a good deal of disturbing news, rumor and conjecture regarding Mexico during the next few weeks or months. We shall doubtless hear, at more or less frequent intervals, that new and insurmountable obstacles have arisen. It is not too early, therefore, to warn people that they will have to exercise great judgment, self-restraint and discrimination in sifting the news which is hereafter to come in. We lay stress on this aspect of the matter because it has to be regretfully confessed that the policy pursued by the correspondents, sent to Vera Cruz by many of our important newspapers, has been exceedingly discreditable.

The editorial attitude of the American press, with few exceptions, has been altogether commendable; it has been based throughout on a resolute effort to hold back our Government and people from a plunge into a war whose consequences nobody could foresee. But if the correspondents to whom we have referred had deliberately formulated a program for lashing the American people into insensate fury, for driving them into war on the basis of exaggerations, misstatements or pure inventions, we do not see how they need have adopted any different policy from what they did.

There are times when an international situation of this nature is so delicate that even the truth shoud be told and discussed with the utmost care. That was notably true in the case of the Maine explosion on the eve of our Spainsh war, when, it is pleasing to recall, the behavior of the American press was beyond criticism. But from Vera Cruz we have been supplied, during the highly critical period of the past three or four weeks, with special/dispatches which, while doubtless not malicious and deliberate inventions, represented at least the sensational repetition, apparently without the slightest effort at investigation, of haphazard stories told by refugees, street corner gossips and untrustworthy roving correspondents. Again and again the assertions contained in these published dispatches have been proven fase within twenty-four hours of their publication.

One day a series of dispatches from a number of Mexican interior cities told the New York reader of the wholesale slaughter of American residents. It was pure invention. Next came similar highlycolored dispatches reporting Huerta as flinging into jail at Mexico City the Americans who wished to leave for Vera Cruz, especial stress being laid on his treatment of women and children. The truth, which presently caught up with the invention, was that permission for the American residents to leave had been withheld pending news as to how the Mexicans in Vera Cruz had been treated by our forces. When the facts in that regard had been learned by the Huerta Government, Americans who wished to leave for Vera Cruz were duly released, and almost the latest news of the present week is that Americans in Mexico City, to whom permission had been granted to withdraw, had openly declared their prefernce to remain and were going about their ordinary affairs as usual. Contradiction of one of these stories seemed not in the least to discourage fresh inventions of the sort. Three of four newspaper correspondents who had gone from Vera Cruz to Mexico City, and who, as our War Department this week officially declared, had violated rule and precedent in doing so, were arrested by General Huerta,

wholly in line with military right and propriety; whereupon there arose in the dispatches to our newspapers the accusation that Huerta was imprisoning in dungeons, if not actually massacring, these gentlemen—the repetition of that story being stopped only by the actual news that the parties in question had been courteously released on the representations of our State Department. After all this, there is scarcely need for comment on such cabled details as the plans of the Huerta Government to poison the wells and burn the oil tanks, and as to an American citizen discovered in a filthy dungeon of Vera Cruz—all of these stories being duly displayed on the front pages of reputable newspapers, and each being presently proved to be entirely false.

We certainly trust that this highly discreditable performance will never be repeated. Even if there should be war between the United States and Mexico, it is time that our war correspondents learned that when they go to the front they take such risks as naturally attend the experiment, and that they are not indulging in a picnic excursion in which they can be protected by the police. Both they and their editors at home owe it to their readers who wish to learn the truth to refrain hereafter from publishing inventions and misrepresentations of so grotesque a sort, which might possibly have been excusable if published in Mexico City regarding the Americans, but which are wholly beyond excuse when published in New York as a veracious account of the actions of our unlucky enemy. It is owing to these achievements that, with all his faults, the conduct of General Huerta in the period of crisis stands out in a light perhaps more honorable, all things considered, than that which rests on the majority of other people directly connected with this affair.

Meantime, the real drift of affairs, in our own Mexican relations, can only be judged in the light of subsequent events in Mexico itself. There is at least this much of reassurance; that the general position of things, after the insurgents had defeated Huerta and gained control of Mexico, would be very different from what they were when our Government's negotiations with Huerta began. Carranza neither does nor can assert a title to the Presidency of Mexico, as Huerta did, through observing in form the Constitution's rule for a provisional Executive. Furthermore, the official mediators of Argentina, Brazil and Chile are now in the field, and have opened formal relations with all parties to the Mexican controversy, with the publicly avowed purpose of a general pacification.

Not least of all, the European governments which had either recognized Huerta or were undecided as to their attitude on the question, and which therefore were a help to him in the earlier stages of his undertaking, have now aligned themselves positively with the United States and the South American mediators. Financial Europe will necessarily take its stand with the European Foreign Offices and it is with this array of powerful influences, making for a peacable and Constitutional adjustment, that the victors in the Mexican civil war will have to reckon.

MAKING AN EXAMPLE OF DISTURBERS OF THE PEACE.

The conviction of Rev. Bouck White, for a deliberately planned disturbance of the service at the Calvary Baptist Church on Sunday morning, indicates, we hope, that a beginning has been made in sterner and safer dealings with persons who at once | commit and incite violations of public order. This man is a clergyman who has lost some church positions because he has become irregular; he would probably rate himself a martyr to his convictions of duty, but neither those nor the character and potential value of the more or less organized body of persons he now claims to lead, under the title of the Church of the Social Revolution, need be considered at present, inasmuch as his recent conduct alone is material in this case. He says that he addressed to the pastor of the Calvary Baptist Church a written proposition for a joint discussion of the theological question whether Jesus taught "the immorality of being rich", and that he interpreted silence as The pastor explains that the letter reached consent. him just before the hour of morning service and had not even been opened; had it been received earlier and been left unnoticed the case would be unaltered.

It is not needful to discuss the Gospel teachings as to being rich, or any of the relations between wealth and Christianity or public duty; these are irrelevant. Mr. White and his followers continued the practice of disturbing church services, and in this instance purposely selected the church with which the Rockefellers are identified as supporters. Just as a half-irresponsible female follower of the I. W. W. interrupted the Easter service at Dr. Parkhurst's church by an attempted arraignment of him personally, these persons now planned the most sensational and disturbing raid of which they could conceive. Their purpose was to continue the annoyances to which Mr. Rockefeller has been subjected and to hold him and his father up to public view as "murderers."

The Colorado trouble remains substantially as it was; the real issue involved is too plain to allow obscuring by any minor questions, and the supremacy of law and of the rights of individual labor must be achieved before any minor points can even be considered. The attack upon a ,man who is known to be rich and made because he is so known brings up another phase of the one supreme issue, that is all. These disturbers have devised a new form of the familiar "picketing"; under the alleged maintenance of freedom of speech they wish to pillory Mr. Rockefeller and then invite the populace to join them in execrating him. It has long been asserted (and this proposition is the basic assumption under many a statute) that it is not possible to punish rich men, in this country, when they have done wrong; whether they can be protected in their personal rights when they have not done wrong is another question which must be answered.

In sentencing Mr. White to six months' imprisonment, Magistrate Campbell justly pronounced the offense especially flagrant, because the offender is an American and educated, not an alien and ignorant; if law and order (he said) cannot be maintained in churches, maintenance is possible nowhere. Beyond this, it is clear that an example is needed. Our great cities contain a large alien population, very difficult and slow of political assimilation. They difficult and slow of political assimilation. are a compact body, to whom government seems despotism and liberty means doing as the individual pleases; their reasoning powers and habits are slow and dull, their passions ready and violent. They are the prey and the reliance of demagogues; material from which the mob can be gathered quickly, given the utmost importance to Gompers, because, as we

only the screaming voice and the swinging arm, for denunciation of wealth and order supplies a ready occasion.

Aside from important considerations such as the common right to unimpeded use of the streets and the right of business concerns to unimpeded access to their premises, a higher consideration is the fact that ranters who gather listeners about the Franklin statue and elsewhere out-of-doors are potential murderers, whatever their immediate intentions, since this misuse of speech tends directly to bloodshed. These persons are waving torches near explosives. The disturbance must be checked before it gains strength by weak indulgence, or New York will have to learn a costly lesson.

THE GOMPERS CONTEMPT CASE CLOSED.

The Gompers contempt case and conviction are now disposed of, as a matter of court procedure. The case has been referred to by us from time to time, as it dragged its slow length along. It began in the closing month of 1907, when the Supreme Court of the District of Columbia harkened to the complaint of the Bucks Stove & Range Company of St. Louis that Gompers and his associates had been blacklisting the company in the American Federationist", the official organ of the American Federation of Labor, thus producing a boycott, in effect, upon the company's goods, this being an attempt, like that in the case of the Danbury hatters, to enforce the power of organized labor to control all labor by compelling the closed-shop. Workers who would not surrender and come under the "union card" were to be denied work through compelling employers to treat union membership as the first qualification and refuse a place to any who did not establish himself by the union hallmark; this was to be accomplished by intimidating customers of the shops, and this was to be accomplished, in part, by intimidating customers of those customers, and so on along the chain.

The District Court granted the injunction sought, but it is charged that Gompers hurried to get the next number of the organ off the press ahead of the injunction. At least, he paid no respect to the order, and on various occasions publicly criticized the judge who issued it. Contempt proceedings and a sentence of fine and imprisonment followed, and he has been fighting that ever since. The United States Supreme Court has aided him by halting the procedure against him, upon various technical grounds, and now removes the unfilled sentence from above his head by dismissing the whole as barred by the statute of limitations, which provides that "no person shall be prosecuted, tried, or punished, for any offense not capital, unless the indictment is found or the information instituted within three years" next following commission of the offense. By a very brief time, the punitive action missed coming within this term allowance, and the highest Court wipes the whole case off the record of matters to be adjudicated, this action being, once more, on technical grounds and without passing upon the merits of the three defendants.

There is a legal gain, however, in that disobedience to a judicial order of injunction is now brought within the category of crimes. This is one more instance of escaping justice because justice is so heavy and slow of foot. It has been a matter of have already pointed out, he must appear completely invulnerable, or he could not well keep his firm hold upon labor; he must appear, as he virtually proclaimed himself, above even the courts, or laborers would begin to ask who he is that they should obey him. He will, therefore, claim that he has proved this supremacy, and will be emboldened (and aided) to press the audacious demand that organized labor be made, in express terms, free from all anti-trust Acts, old and new. The question whether there is, or whether there shall be, a privileged class in this nominally free country remains, none the less, one to be settled; nor will dodging and truckling to it accomplish any more than to merely defer the straightforward answer.

THE SUPREME COURT DECISION ON THE POWER OF A STATE OVER INSURANCE.

The recent decision of the Federal Supreme Court, affirming the power of a State to fix rates of fire insurance, while unhappily although perhaps unconsciously conforming to the trend of superficial popular opinion, compels us to once more use the right of private dissent so soundly and quaintly declared when the late Justice Brewer, out of court, said what might very well have been said in court, that after a judge has announced his position he is subject to fair criticism like other folks.

The case at bar was on appeal from the Federal Circuit Court, and arose out of the Kansas law of 1909, whose chief section enacted that "when the Superintendent shall determine any rate is excessive or unreasonably high or not adequate to the safety or soundness of the company, he is authorized to direct the company to publish and file a higher or a lower rate, which shall be commensurate with the character of the risk; but in every case the rate shall be reasonable." Ostensibly providing for either lowering or raising rates, that solvency as well as fairness might be safeguarded, the intent was notoriously to mark rates down, and they were immediately ordered reduced 12%. The prevailing opinion, of great length, was written by Juctice McKenna, with Justices Holmes, Hughes, Day and Pitney concurring; a dissenting opinion of about the same length was written by Justice Lamar, with Justice Van Deventer and Chief-Justice White concurring, Justice Lurton not participating.

Sometimes an advocate well states—and sometimes, also, he fails to shake—the position of the other side. A good example of this appears here, for the prevailing opinion compacts into a single sentence this : "the basic contention is that the business of insurance is a natural right, receiving no privilege from the State, is voluntarily entered into, cannot be compelled nor can any of its exercises be compelled; that it concerns personal contracts of indemnity against certain contingencies merely."

Justice McKenna's argument boils down to this: that "a personal character" does not preclude regulation, and in fact the States have for many years regulated insurance in sundry particulars, "restraining the absolute liberty which businesses strictly private are permitted to exercise;" that insurance is so indispensable that it becomes so affected with a public interest as to involve the power to regulate it; that the general legislative conception of insurance as so concerned with the public welfare as to invoke and require regulation is to be assumed sound; that "rates are formed in the councils of the under-

y writers", the business thus having a monopolistic character, and the people are helpless, with the alternative of paying what is demanded or doing without an indispensable commodity.

As to these, very briefly, the deduction that because a private business may be and is regulated in some particulars, it may be in all particulars, is an obvious non sequitur; further, "absolute liberty" exists nowhere and its absence does not prove a business not private, nor do any limitations upon use justify a prohibition of use. As a single example, there are conditions and restrictions in the private business of banking; but it is not claimed that the law may prescribe rates of interest for a bank. Next, if the indispensableness of a commodity implies statutory power to fix its prices, anything of real public consequence may be brought under such a deduction and we should immediately begin with food, the most indispensable of all. Next, it is not correct that rates leave the public helpless; the field of insurance lies wide open, on equal terms, to all the free capital of the world; and persons who really believe rates are too high have the ready alternative of combining to insure themselves and others on terms they consider more fair.

In dissent, Justice Lamar points out that while a common carrier, for example, must serve all upon the same terms, an insurance company may choose its customers, declining any offered risk without giving reasons or canceling any when it chooses. He cites from the Kansas Supreme Court the fundamental characteristics of a public business, that "all of the public have an equal right to demand and share in it," and says that when a company may insure a risk or refuse it "then, by the very definition of the terms, it is not a public business;" if, as conceded, a property-owner is not entitled to demand insurance as a matter of right then the business is not public and is under the constitutional protection of private property. Justice Lamar does not, like Justice McKenna; pass by as irrelevant and immaterial to the case the fact "that the reasoning of the [majority] opinion has the broad reach of subjecting to regulation every act of human endeavor and the price of every article of human use." On the contrary, he cites this monstrosity as indicating that there must be some serious defect in an argument which tends to such intolerable consequences.

The decision must, of course, be accepted, al-though under protest. But it is certain that the way will not be smoothed by it for those who still imagine that a statute can work arithmetical impossibilities. This struggle and that over transportation have one part in common : that, if legislators and officeholders, eager to please the people, persist in trying to compel a service to be rendered at the sacrifice of private capital, the States in the one case and the country in the other must take up the service and find by trial what they can do with it. Private capital will not continue working at its own loss; so much ought to be distinctly and quickly understood. This decision will not help the situation in Missouri where an insurance deadlock existed last year, nor in Kentucky, where the same foolish deadlock exists now, to the distress and detriment of all business. In Kansas, a suit to set aside the rate-reduction order which led to the action now decided is expected to come up in the State Supreme Court in June; any general withdrawal of companies from Kansas will

Yet, even if it is established by the highest authority that the sovereign people have a legal right to act like lunatics and try to commit commercial suicide, it does not certainly follow that they will do On the contrary, throwing down all Constitu-80. tional barriers might have a sobering effect. Those who rebel and plunge against restraints of reason may possibly, when they are bidden to do as their whims suggest and take the consequences, begin to restrain themselves.

RAILROAD GROSS AND NET EARNINGS FOR MARCH.

Railroad gross and net earnings for the month of March, as displayed in the extended compilations which we present to-day, make much better comparisons than in the months immediately preceding. The improvement, however, is apparently the result wholly of temporary circumstances affecting the comparisons and can not be regarded as significant of any change in general conditions.

As was pointed out in our preliminary review of the earnings for the month under consideration, railroad earnings in the closing week of March 1913 were very unfavorably affected by the great floods which then occurred in the Middle and Middle Western States. These floods not only caused immense property damage and the loss of many lives but resulted in a complete suspension of railroad operations for a few days on a good part of the railroad mileage in Ohio and Indiana and on all the lines connecting therewith from the East, the West and the South. These interruptions had a double adverse effect, first in reducing gross revenues and, secondly, in adding enormously for the time being to the expense accounts, and the trouble of course continued throughout the following month. Naturally, the roads which last year thus had earnings reduced have the present year recovered some of the loss and, accordingly, are able to report increases -in a few cases of considerable amount-and these increases have served to that extent to offset the losses on other roads or to overcome them altogether.

Besides this, there was a favoring influence the present year in the fact that in many districts of the bituminous coal regions coal mining was pushed to the utmost in March the present year, out of a fear (subsequently realized in a number of districts) that mining operations would be suspended on April 1 with the expiration of the old wage scale.

Briefly speaking, gross earnings the present year in the month referred to, ran about even with those of a year ago, there being a trifling increase-\$660,-166, or a fraction of 1% (the increases in the case of the roads which had suffered losses last year making good the decreases on other roads), while in the case of the net earnings there is an increase in amount of \$3,104,528, or 4.78%, the roads which last year had suffered such a large augmentation in expenses by reason of the floods having the present year found it possible to get their expenses down to a more moderate basis.

earnings and was due to an augmentation of \$14,-870,984 in expenses at a time when the addition to gross earnings (the floods as already stated, having greatly cut down the normal rate of addition) was but \$10,595,839, or 4.46%. As a matter of fact, however, net earnings have been making poor exhibits for several successive years-perhaps more so in March than in other months. Our compilations for March 1912 registered \$12,955,678 gain in gross (5.77%), but of this only \$848,494 was carried forward as a gain in the net, indicating how cost of operation was rising at that time. Going a year further back, we find that there was an actual loss in both gross and net in March 1911; by the figures of the Inter-State Commerce Commission, \$11,-264,790 in gross and \$9,148,129 in net. In the year preceding, large expenditures were also a conspicuous feature of the returns; according to the tabulations of the Inter-State Commerce Commission there was an increase in gross in March 1910 of no less than \$32,887,440 but the gain in net was no more than \$8,664,106. In March 1909, of course, there were striking gains in both gross and net-\$22,190,078 in the former and \$14,303,842 in the latter; but these gains followed largely as the result of the heavy losses sustained in 1908, the year following the 1907 panic. In 1908 the Commission had not yet begun to give out comparative figures. Our own compilations at that time were somewhat incomplete. owing to the circumstance that earnings were running so poorly that a number of big companies withheld their figures, as they did not care to disclose the magnitude of their losses. On an aggregate of only 152,058 miles of road, our statement then showed a decrease of \$21,531,681 in gross and of \$6,543,631 in net. We stimated that for the entire railroad mileage of the country the falling off in gross for the month must have been about \$34,000,000, with a shrinkage of \$10,000,000 in net.

In the following we give the March totals back to 1896. For 1911, 1910 and 1909 we use the Inter-State Commerce figures, but for preceding years we give the results just as registered by our own tables each year-a portion of the railroad mileage of the country being always unrepresented in the totals, owing to the refusal of some of the roads to give out monthly figures for publication.

96 in 1906, 94 in 1907; in 1908; is for realing were pased on 152,058 miles of read; in 1909, 233,702; in 1910, 239,601; in 1911, 244,051; in 1912, 238,218; in 1913, 240,510; in 1914, 245,200. Neither the Mexican roads nor the coal-mining operations of the anthracite coal roads are included in any of these totals.

When we come to examine the returns of the separate roads we find it easy to trace the influence of the floods last year, combined with the tendency the present year to increase coal production. The Pennsylvania Railroad on the lines directly operated statement then showed \$4,275,145 decrease in net the present year has \$81,194 increase in gross,

with \$789,029 increase in net. Last year the Pennsylvania lines directly operated recorded \$269,436 decrease in gross and no less than \$1,967,098 decrease in net. The New York Central System lines have not done quite so well as the Pennsylvania, the coal traffic being less of a feature with that system. The present year the New York Central System reports relatively small changes, namely \$286,090 decrease in gross and \$212,486 decrease in net. Last year in the same month it recorded \$443,559 gain in gross with \$1,177,995 loss in net. The Baltimore & Ohio this time has \$184,523 addition to gross and \$851,636 addition to net. Last year it had \$352,440 decrease in gross and \$1,009,452 decrease in net. The Chesapeake & Ohio now registers \$260,969 gain in gross and \$215,276 gain in net. Last year it had \$181,220 decrease in gross and \$240,-855 decrease in net, having suffered very severely as a result of the floods and the interruption of traffic resulting therefrom.

But many other roads outside the flood zone also, a year ago, from one cause or another, suffered heavy reductions of their net earnings, and, as a consequence, are able the present year to show some betterment of results. In New England, the New York New Haven & Hartford had a trifling gain in gross, with \$680,648 loss in net. The present year it has \$218,-349 loss in gross with \$103,618 gain in net. The Boston & Maine has \$210,585 increase in net in 1914, after \$140,507 loss in 1913.

In the West the Milwaukee & St. Paul has \$663,825 gain in net, following \$468,275 gain in 1913. The Burlington & Quincy, on the other hand, has \$808,-464 gain in net, following \$218,758 decrease last year and the Chicago & North Western gains \$557,-903 in net, after \$136,971 increase in net in 1913. It must not be supposed, however, there are no decreases the present year. The Northern Pacific falls behind \$672,053 in gross and \$255,216 in net, but last year had \$690,930 addition to gross and \$134,041 addition to net. Southern and Southwestern roads, as a rule, have done poorly in net the present year. The St. Louis & San Francisco loses \$330,990 in net, the Southern Railway \$275,223, the St. Louis & Southwestern \$102,799 and the Southern Pacific \$240,577. Some exceptions to the rule are found, however, the Louisville & Nashville having improved its net by \$332,355, the Atchison by \$389,655, the Missour Pacific by \$164,313 and the Rock Island by \$292,022. In the following we show all changes for the separate roads for amounts in excess of \$100,000, whether increases or decreases, and in both gross and net.

Draws 111, includes all of Oliio and Indiana; all of Michigan except the northern peninsula, and that portion of New York and Pennsylvania west of Buffalo and Pittaburgh. *Trougs IV, and V, combined include the Southern States south of the Ohio and east of the Mississippi River. Groups VI, and VII, combined include the Southern States south of Michigan, all of Minnesota, Wisconsin, lowa and Blinois, all of South Dakota and Netrough and Missouri north of St. Louis and Kanasa City; also all of Montana, Wyoning and Mesneyka, together with Colorado north of a line parallel to the State line passing through Deaver. Groups VIII, and IX, combined include all of Kansas, Oklahoma, Arkaness and Indian Territory, Missouri south of St. Louis and Kansas City. Colorado south of Denver, the whole of Texas and the bulk of Louisiana, and that portion of New Mesico north of a line running from the northwest corner of the State through Santa Fe and east of a line running from Santa Fe to El Paso.
<i>Groups X, includes all of New Mesico.*

RAILROAD GROSS EARNINGS FOR APRIL.

There is nothing of an encouraging nature in our preliminary compilation of the gross earnings of United States railroads for the month of April. In the article immediately preceding we show that the completed returns for the month of March, covering both gross and net earnings, make on the whole a relatively satisfactory exhibit, particularly in the case of the net, where there is a substantial increase following the loss in net in the same month last year. It would seem doubtful if a similarly satisfactory outcome can be counted on when our final statement for the month of April is compiled several weeks hence-this too notwithstanding that the adverse influences operative in March last year and which were responsible for the poor earnings then recorded continued also through April of that year, materially reducing earnings then on many important systems. At all events, the preliminary figures which we present to-day, based on a part of the railroad mileage of the country, make a much more unfavorable showing than did our preliminary figures for the month of March covering substantially the same mileage.

Stated in brief, there is a loss for the month of April by to-day's statement of \$4,466,008, or 6.28%. For the month of March the loss from last year on almost exactly the same mileage was \$2,191,364, or 3.01%. In both cases comparison is with a period in 1913 when the great floods in the Middle and Middle Western States had played a very important part in interrupting railroad operations and in reducing railroad revenues-if anything, these floods exercised a more serious adverse influence in April than in March, since they did not happen till towards the very close of March, whereas in April the after effects were felt throughout the whole month and proved very serious. The large falling off now recorded occurs in the face of the fact that several roads in the flood district now have very substantial gains, reflecting a recovery of part of the loss suffered a year ago by reason of the circumstance mentioned. The Chesapeake & Ohio, for instance, has an increase of \$675,740, following a loss of \$746,420 in April 1913. The Cincinnati New Orleans & Texas Pacific is able to report \$146,047 increase, whereas its decrease in 1913 was only \$91,272. The Illinois Central has an increase of \$155,352, following an increase of \$311,242; but this year's total nevertheless is not equal to that of April 1911.

A particularly significant feature is that the losses in the case of the individual roads are not only large but they are general, coming from all parts of the country and from all classes of roads. There are only seven companies that register increases exceeding \$30,000 in amount and only sixteen roads altogether out of the 50 contributing returns that are able to report any kind of increase, large or small. On the other hand, the decreases are not only numerous but many of them are for considerable amounts; our tabulation includes the three large Canadian systems, namely the Canadian Pacific, the Grand Trunk Ry. and the Canadian Northern, and among these the Canadian Pacific is particularly distinguished for its large contraction in gross revenues, viz .: \$2,040,000; but even among United States railroads the Great Northern is obliged to report a decrease of over a million dollars-this following, however, an almost correspondingly large gain the previous year. There is no other United States road with an equally striking loss, but there are nevertheless many with a very considerable shrinkage in revenue. Thus the Soo road loses \$311,825, the Louisville & Nashville \$254,672, the Buffalo Rochester & Pittsburgh \$246,964, the Wabash \$235,226, the Missouri Pacific \$207,236, the Colorado & Southern \$190,335, the Denver & Rio Grande \$146,600, the Missouri Kansas & Texas \$138,226, the Chicago & Alton \$117,989, &c., &c. In the following we show all changes for the separate roads for amounts in excess of \$30,000, whether increases or decreases. Southwestern roads are particularly distinguished for the large and general character of their losses.

ized for FRASER //fraser.stlouisfed.org/ good returns of earnings. The country's industries are in a state of pronounced reaction, while the iron and steel trade is exceedingly depressed. In addition coal-mining in the bituminous regions of the Middle West was more or less restricted over considerable areas pending an adjustment of wage differences. In Ohio practically every mine in the State has been shut down since the first of April, a new law providing for payment on the mine-run basis having come in to further complicate the situation. Out in Colorado the strike of the coal miners which has been in progress for so many months reached an acute stage, a state of insurrection having developed where the State authorities found themselves unable any longer to cope with the disturbances, and appeal had to be made to the Federal authorities for aid in restoring civil order. Besides all this, Western roads had a diminished grain traffic and Southern roads had a cotton traffic not much heavier

than that of a year ago and much below that of 1912. The shipments of cotton overland were 95,611 bales in April 1914, against 112,346 bales in April 1913 and 138,255 bales in April 1912, while the receipts at the Southern outports were 398,645 bales in 1914 and 380,741 bales in 1913, against 502,917 bales in 1912, as will be seen by the following.

In the Western grain movement there was a falling off in all the leading cereals with the exception of Thus the receipts of wheat for the four weeks corn. ending April 25 were 11,174,000 bushels, against 12,711,000 in the corresponding four weeks of 1913, the receipts of oats 11,894,000 bushels, against 12,536,000 bushels; of barley 3,589,000, against 5,264,000 bushels; of rye 699,000 bushels, against 1,144,000 bushels, while the receipts of corn were 9,839,000 bushels, against 8,793,000 bushels. Alto-gether, aggregate grain deliveries in the four weeks of the present year were 37,195,000 bushels, against 40,448,000 bushels in the same four weeks of the previous year. The details of the Western grain movement in our usual form are set out in the

oama Great South N O & Texas Pac ew Orleans & N E

Total (50 roads).... Net decrease (6.28%)

Interoceanic of Mex._____ Mexican Railway_____ Nat Rys of Mexico.r.

It deserves to be stated that in April last year, notwithstanding the drawbacks imposed by the floods, general trade was still good, and the volume of railroad traffic continued to expand. As a result, the roads represented in our early statement recorded a collective gain of \$4,243,312, or 6.51%. In 1912, too, the showing was very good, the roads furnishing early returns registering a gain of \$5,643,482, or 9.66%. In 1911, however, our early statement showed \$1,238,713 decrease, or 1.99%. Prior to 1911 the record was one of almost continuous gains, except that a very heavy contraction occurred in 1908 following the panic of 1907, as will be seen by the summary of the totals which we now present.

 $\begin{array}{r} 854,512\\792,400\\4,056,760\end{array}$

AND THE HENNESSY AMENDMENT. BY JOHN FREEMAN DAY, OF THE OFFICE OF HAWKINS, DELAFIELD & LONGFELLOW.

A statute (generally referred to as the Hennessy Act)

which has recently been enacted by the New Jersey Legislature (Laws of 1914, Chapter 144) has given rise to questions which are important to dealers in municipal securities. This statute is, in form, an amendment to the earlier statute (generally known as the Walsh Act), which permits New Jersey municipalities to adopt a commission form of government, and its provisions relate only to such municipalities as have adopted, or may hereafter adopt, the form of government prescribed by the Walsh Act.

The first section of the Hennessy Act amends Section 1 of the Walsh Act so as to read as follows:

the Walsh Act so as to read as follows: "1. All municipalities of this State, except counties and school districts, that have heretofore adopted or shall here-after adopt the provisions of this Act shall be governed as herein set forth; and wherever the word "city" or "cities" appears in this Act, it shall be construed to mean "munici-pality" or "municipalities," as the case may be, but shall not be construed to include counties or school districts. Such municipalities shall be, and are hereby declared to be, a distinct class of municipalities, and shall not be subject to any laws of this State except laws applicable to all municipalities of this State other than counties and school districts." If this statute be constitutional, its effect seems to be

If this statute be constitutional, its effect seems to be clearly to render inapplicable to commission governed mu-

Mileage.

196

309

-4,460,008 93,167 91,892

1.031 $\begin{array}{rrrr} -43.224 & 1.031 & 1.031 \\ -106.600 & 395 & 361 \\ -1.456.808 & 6.135 & 6.135 \end{array}$ nicipalities all earlier statutes, whether general or special, except such as are applicable to all municipalities of the State other than counties and school districts. There are but few statutes in New Jersey which are applicable to all municipalities of the State other than counties and school districts, and of these only a small proportion confer any borrowing or bonding powers. Therefore, in any case where a municipality desires to borrow money and issue negotiable municipal bonds, and power to do so is not conferred by a statute of the character last referred to, the municipality is apparently wholly without power to do so unless such power can be said to have been conferred by the Walsh Act itself.

But an inspection of the Walsh Act as amended by the Hennessy Act reveals no express grant of power to borrow money or to issue negotiable bonds. The courts have again and again affirmed the rule that municipal corporations have no powers except those which have been conferred upon them by statute; that such statutes are to be strictly construed against the municipality in all eases of doubt; and that by such statutes no powers are conferred except those granted in express terms or by necessary implication. In applying these principles to municipal corporations, the Supreme Court of New Jersey has held that the power to borrow money cannot be implied as necessarily incidental to the grant of municipal franchises (37 N. J. L., 191); and the Supreme Court of the United States has declared that express authority to borrow does not involve the conclusion that the right to issue negotiable bonds is intended to be conferred (144 U. S., Whether power to borrow money and issue bonds 173). can be implied from the Walsh Act as amended seems, therefore, to be extremely doubtful.

Without taking up or even mentioning all the arguments pro and con which have been urged, or which might be urged, with respect to the Hennessy Act, or attempting to solve in advance the problems created by its provisions, it will suffice to say that this statute has created very grave doubts as to the power of municipalities which have adopted commission government in New Jersey to borrow money, to issue negotiable bonds, or to do various other acts heretofore permitted by their local charters or by other statutes now rendered inapplicable, and that these doubts cannot be solved until at least one and perhaps many test suits have been brought, and the whole matter thoroughly threshed out in the courts. It has been suggested that the Hennessy Act is unconsti-tutional, and possibly it will be so held.

Test suits have already been commenced in the New Jersev courts; but until an authoritative decision has been handed down, the question of what borrowing or bondissuing powers are possessed by those municipalities which have adopted, or which may hereafter adopt, commission government in New Jersey cannot be answered with any degree of certainty.

DEMOCRACY IN BANKING-COMPTROLLER WILLIAMS ON THE NEW BANKING LAW.

We print below the full text of the address which John Skelton Williams, the U. S. Comptroller of the Currency, delivered on Wednesday night of this week before the North Carolina Bankers' Association, at Raleigh, on "Democracy in Banking," expounding and analyzing the new Banking and Currency Law. Mr. Williams will be one of the most influential members of the Federal Reserve Board, which is given supreme control over the new banking system. He and the Secretary of the Treasury will be the two Government officials on the Board, and it seems reasonable to assume that the views and desires of these officials will always carry much weight with the other members of the Board. Therefore what Comptroller Williams has to say on the purpose and probable working of the law is of the highest interest and importance. Mr. Williams tells us, what was well understood before, that de-centralization in banking is the main aim of the law. The address is also useful in throwing light upon the genesis of the law, making it plain that opposition to the concentration of banking interests or to the so-called Money Power was the moving consideration with those who directed the enact-ment of the new law. It is rather noteworthy that on the eve of the inauguration of the new system, Mr. Williams repeats the characterizations of large financial interests which have become the stock in trade of so many in the political world.

World. Mr. President and Members of the North Carolina Bankers' Azsociation: About a week from now those of you who believe in the Mechlenburg Declaration of Independence will celebrate it. Maybe some of those who will celebrate will have doubts, and I shall not undertake either to change those doubts to full faith, or to confirm them. The Government

assumes that I am to do a certain amount of work for it, and experience proves that he who becomes thoroughly involved and interested in the dis-cussion of the Mechlenburg Declaration, whether for the affirmative or the negative, will have no time left for other matters. Whether Thomas Jefferson of Virginia borrowed his Declaration from the work of a talented North Carolinian may be left, like that other question between the two States, which sent to the front the gallant soldier whose life blood flowed highest on the heights of Gettysburg, for each man to decide for himself. In both those great events of American history there is honor enough for all the participants. all the participants.

In both those great events of American history there is honor enough for all the participants. My purpose is to talk to you of a new Declaration of Independence, in-volving no shock of arms, no shedding of blood, no severance of ties, yet mighty in its consequences for the present and the times to come after. No-where in the world could such a theme be presented more appropriately than in the capital of a people who from the beginning of their history on this continent have been foremost in protest against error, evil and oppres-sion; most restless under injustice; most energetic in demand for freedom and the rights conferred by freedom, and constituting it. The new banking law, of which I, as Comptroller of the Currency, am asked to talk to you North Carolina bankers, is not only a *decla-ration* but a guaranty of the freedom of the financial and commercial in-terests of our country from the possibility of the rule of a small group of men, sometimes unknown, sometimes too well known. It is a plan of decentralization and distribution, demanded by the expansion and growth of our Republic. It is not intended to injure anybody; and it will not injure any but those who insist on being injured, and let us hope that there will be none such. There is strength in voluntary and accepted unity, but there is none in servitude of units enforced by law. There is vigor irresistible in the willing combination of many for a common purpose. There is weak-ness and inevitable and infinite corruption in the concentration of power, which means tyranny on one side and enslavement on the other. We have been living in swaddling clothes, which have become fetters—tightened or loosened by a few strong hands. Alternately business has been stimulated to feverish and sometimes wild exertion, and given knock-out drops, re-ducing it to helplessness and the very appearance of death. We have grown, but the growth has been uneven and therefore sometimes unhealthy. Too often our prosperity has been of the kind that shows in statistics spl citizen

citizen. The system we have endured through half a century hampered us because t checked our growth and was unequal to our needs. It was dangerous— deadly dangerous—not only because it compressed control of our increasing resources and wealth into the keeping of a small number of individuals at certain great centres, but because it aided in the heaping up of vast fortunes, inciting discontent and resentment, the parents of revolution, the fore-runners of destruction. Poverty is not always feit acutely until contrasted with riches. Ine-qualities vividly evident are the worst foes of any Government, the surest evidence of its inadequacy, the urgent signals for its amendment. When nobody is swollen abnormally with riches, nobody feels plached, or is made angry or desperate by lack of them. This new measure is part of a general and deen movement for a new life.

This new measure is part of a general and deep movement for a new life, new standards, new methods for the United States. A change is neces-sary and is coming, and common sense tells us to prepare ourselves and our affairs for it. When loans and discounts of the national banks in the fifty reserve and central reserve cities increase, as they have done, from 1,800 million dollars in 1903 to more than 3,000 million dollars in 1914, we surely need a banking and currency system with the capacity to stretch

and give. When a dozen men own among themselves 1.600 million dollars, and through a system of interlocking directorates control as much more, direct-ing an amount equal to the total currency supply for a hundred million people, we should realize that such power is a peril, not only to our com-merce, and to the people at large, but to the Government itself. I have heard it said those men have held this huge republic by the throat, but if that statement is strong, we do know that under the conditions which have existed they could precipitate a panic, or force artificial and injurious activity at their will. Working from ambush, seen by none, felt by all, they could have shaken the credit of the country so as to paralyze and make, in time of peace, ruin and desolation worse than war. There is no need to quarrel with these men. Considering what they could and might have done, we may say, as was said of Warren Hastings in India, we are astonished at their moderation.

astonished at their moderation. Some of these commanders-in-chief of finance and captains of industry have proved that they had high patriolic instincts and came to the help of the Government and people in time of stress. Others had the sound wisdom to realize that their real prosperity and the stability of their great posses slons were best promoted by reasonable prosperity and hopefulness among the masses of the people. Yet it is not right or safe that the happiness and hope of all these scores of millions of our citizens should depend on the mercy, the caprice or the opinions of any twelve, or fifty, or a hundred men.

mercy, the caprice of the opinions of any tweve, of futy, of a hundred men. Some of the greatest fortunes, the magnitude of which takes the breath of the ordinary man and strains his imagination, are results of our system of banking and finance, of a protective tariff taxing many for the benefit of the few and of laxity in the enforcement of laws, inadequate and feeble at their best. They are dangerous, not only to the general body of the people, but to their possessors, and it must be remembered that a huge mass of money does not always either prove or supply wisdom, and to the contrary sometlines unsets it.

money does not always either prove or supply wisdom, and to the contrary sometimes upsets it. There is a suggestion of cynical satire in the mythological story that King Midas, whose touch changed to gold everything upon which it fell, was given at last the ears of an ass. He prayed to the gods to relieve him of the rich but deadly faculty which forbade him even from cating food possible to digest. So men with the genius, the faculty, the instinct, whatever it is, for what we call making money, may well pray for a law or dovetailing plan of laws forbidding them from pilling up money in quantities greater than any man can use confortably or can be entrusted with safely. There is no natural limit to greed and the ambition to acquire. If we cannot provide artificial limitations, we can, at least, devise and provide plans to prevent centralization and to protect the public. As we have seen' within the last few years, men who have learned arrogant confidence in the overwhelming power of gathered gold, have been led, perhaps, almost im-perceptibly to themselves, to use it for the mastery of goivernment is far more destructive to both than could be any assault of either on the other. An open wound may be healed and a direct attack may be repelled; but hidden rout in the vitals will kill the strongest living thing, and poison saps the sources and roots of life. We were led unseeing from the concentration of financial power to the concentration of political by the aid of financial power, from the interlocking directorates to the interlocking of the interests and influence of the con-cealed controllers of money and the known leaders of political parties. We

lived beneath a potent despotism, we could not see a touch or quite under-stand, but which every man of us could realize and feel every day of his life. We could see things done: effects were before us plainly. But we could not know how nor by whom they were done, nor the processes by which the effects were produced. We stood on a gathering volcano of unrest. Ob-serving men could note the symptoms and threats, but were bewildered in seeking causes.

<text><text><text><text>

St. Louis, we would not have known that there was a paine in considered. Conditions were all right out here, but our resources were simply tied up and we were helpless." Understand, it is not assumed, or promised, that this new law will per-form the functions of Divine Providence, shower blessings on everybody or establish universal prosperity. Nor will it boltster up or save banks im-providently, recklessly or corruptly managed. It is intended to enable banks honestly and sagaciously conducted to enjoy the legitimate results of their own integrity and sagacity. Its purpose is to enable the natural and just laws of trade, beautiful, symmetrical and sane, when undisturbed —as is the law of gravitation—to work their results naturally and smoothly. It will provide no artificial stimulant or prop. It will remove artificial barriers to prosperity, unnecessary burdens, perils and impediments. It can not provide immunity from such disasters as short crops, great fires or earthquakes, or disorders at home or complications abroad. It will, we think, restrain the effects of these within the limits of the unavoidable and prevent them from being exaggerated and wantonly magnified in their effects.

<text><text><text><text>

No sudden swoop by a feudal magnate on his peaceful neighbors was a more cruel or shameless plundering expedition than some of the transac-tions which have been brought to light by which the shareholders of rail-ways and other great enterprises, established to build up the country and to promote the public interests, were despoiled. Their property and money were taken from them by the might of masses of money working stealth-ily. The raids had none of the attractions of the picturesque or the merit of courage. They were cold-blooded, relentless seizure of other men's goods by plots, treachery and betrayal of trusts which should have been held sacred.

goods by plots, treachery and betrayat or trusts which such as a commun-sacred. Yet it would be foolish, unjust and wicked to hold New York as a commun-ity, or her leading citizens generally, among whom are men as high and hon-orable as any country contains, responsible for the misdeeds, treachery and lawlessness of certain conspicuous offenders. Without doubt, the overwhelming majority of the citizens of our great cities, as of our people generally, have viewed such violations of laws, legal and moral, with as great abhorence as any of us, and have felt the blush of shame that such crimes are possible in this enlightened age and under the form of Government which has also produced our long procession of heroes, patriots and states-men.

crimes are possible in this enlightened age and under the form of Government which has also produced our long procession of heroes, patriots and states-men. Every thinking and patriotic American must exult in New York's splendid achievements, in the glories she has built, which have made her the wonder and admiration of the world. The people of the South would be ungrateful if they forgot the generosity of her people when trouble bad come upon them from fire, earthquake and pestilence, and her purse has been opened wide to every appeal from any part of the land. The purpose should be to change the relation of New York to the country generally from an attitude of dominating ownership to friendly partnership-Big as New York is, it is not big enough to direct the desthies of this cons-tinent. Fast as it has grown, it has not grown so fast as the United State-has grown in wealth, capacity, population, thought and aspiration. No one reservoir is wide or strong enough to hold and control the money supply for the inconceivably tremendous activities in which we are engaged, for our endless variety of industries and enterprises, our different climates, seasons and products, our requirements sometimes crowding and conflicting with each other. No group of men at any centre, how ever broad in mental grasp or earnest in intent to seek the best results for all, can be entrusted safely with the unlimited and unrestrained control and direction of the flowing and recall of supplies of currency for the needs of the present, and the increasing needs, hat will come with the near future. In our political affairs we impose on those to whom we entrust anthority the work careful and elaborate restrictions. We draw lines beyond which no government or representative of government is permitted to step. We have decreed that the humblest home shall not be seized, the most obscure man shall no be derived of this liberty, without due process of law. Yet we have permitted to grow up what is aptly called an "invisible govern-ment," more p

no citizen, shall faithfully return the few dollars he may collect. Under-our laws control of millions and billions of dollars, power to confiscate or destroy railway systems, great manufacturing industries, towns and cities are forced to the keeping of unknown men who give no ascurity, are re-sponsible to nobody, who remain undiscovered, and act frequently through acknowledged "dummles," until some accident, some chance question by an investigating Congressman or inquiry by a newspaper reporter, brings them and their transactions into the light. Even then usually there is no provision for recovery by the injured or for punishment of the wrongdoer, no bond on which anybody can sue. Beneath his skin every American citizen of every station and avocation and whatever party name he may wear, is a Democrat in all the essentials and fundamentals. That is, he is attached passionately to the principles of local self-government, of the widest individual liberty compatible with the general weal and order of society. This new currency measure is democratic essentially. It looks to decentralization of direct financial con-trol, to *financial local self-government* so far as is consistent with stability and the general safety; to a currency which will be worth its face value everywhere, which will be based on the actual values it purporis to repre-sent, as well as the faith and credit of the general avoranding to meet recoding when not needed; a system fitted to meet any emergency, moving smoothly and noiselessly for the ordinary uses of business in tranquil times. Too much money and too little money are alike evil and dangerous. Opinions differ as to which is the worse. Probably one is as bad as the other. The design of the new law is to supply just enough money, or credit, when and where business needs it, to create for our commerce, as has been said, foundations so even, so broadly laid and so deeply plantet that they can not be shaken. As it is, the country bleeds and sweats to the big financial centres. Take the So

when and where business needs it. to create for our commerce, as has been said, foundations so even, so broadly laid and so deeply planted that they can not be shaken. As it is, the country bleeds and sweats to the big financial centres. Take the South as an instance—and the conditions with which you here in North Carolina are familiar exist everywhere in the country. Most of our railway systems are controlled, frequently through the trust known as the voting trust—by men who are interested in the great banks in the three Central Reserve cities. So it happens that the large deposits of the railways, their collections from the Southern people, as also from the Western people, are sent on largely to those banks. The same is true of the telegraph and telephone companies, the life and fire insurance companies and of many of the larger manufacturing enterprises. The merchants and manufacturers of North Carolina pay their freight bills to the railways. The money goes largely and promptly to New York, and is lent cut and used there in stock market operations, or as the directors of the banks, who are also often the directors of the roads and other corporations, may elect. Of course there is no law which provides for the carrying of the reserves and bank balances of railways and industrial corporations in the Central Reserve cities where the national banks of the country have also been accustomed to keep their reserves.

reserves. When North Carolina needs money to move the cotton crop, her banks must call on New York for money which should be in their own vaults, for the *return* of money paid in here in freight bills, insurance premiums and otherwise, and your banks sometimes think themselves lucky if they can be allowed the use of any part of it. Let us illustrate more conclusely: In February last the national banks of New York and Chicugo held on deposit from the banks and trust companies throughout the United States more than a thousand million dollars—an amount equal to nearly one-third of the total money in circulation in the entire country. No wonder you and the financial business men of the country shook with violent ague whenever New York chose to show indications of having cold feet. Of this thousand

with other countries. Of course, absolutely free banking is as impossible as it would be to leave to each individual the regulation of his own conduct according to his own impulses or conclusions. You would realize this more clearly than you do if you could be behind the scenes in the Comptroller's office. You would learn that the banking business is one of the safest as well as one of the most worthy in the world when conducted with close compliance to the laws and regulations, and the demands of honesty. Defalcations, excessive loans and concentration of credits to single or allied interests are the three most fail unaladies.

ioans and concentration of credits to single or allied interests are the three most fatal maladies. It would do no harm if every President of a national bank would read over and study his oath of office at least once a month. I venture the asser-tion that some of them—present company excepted, of course—do not know what they have sworn to do and not to do. On one occasion a member of Congress, now past history, complained personally to a Comptroller of the Currency of criticism of exceessive loans made by the bank of which he was President—loans far beyond the legal limit he had sworn should not be exceeded. He did not understand really his obligations and legal limitations. Another bank in the West that came under the observation of the Comp-troller's Office had a board of directors composed of the President, his wife, son, daughter and son-fn-law, and reported that directors' meetings of the directors until emphatically required by the examiner to do so. The directors appeared, rejoicing, and it was discovered that by a by-law they were entitled to \$10 each for every meeting attended. The directors urged the bank examiner to call again soon; but the President was not at all hospitable.

they were entitled to \$10 each for every meeting attended. The directors used the bank examiner to call again soon: but the President was not at all hospitable.
They taken advantage of the privilege of being the only speaker to talk ony out at some length. It is an unusual and happy experience to have an competition or limitation in carcory, with the knowledge that I shall escape the criticism by taking an early train for Washington. It is delightful for a speaker to thave an audience at his mercy—makes him feel quite like a New York financial potentate. Now I will detain you just a little longer to speaker to take not require a single business man to change his account from the bank with which he has kept it, or any business man er bank to suspend dealings with the bank or banks in the central reserve or reserve cities with which they have in the past been doing business. It does offer to banks freedom of choice. It says to the banker that he can follow his preferences, sentiments or habit in selecting the source of his borrowing: and the member banker of any Federal reserve bank with as much ease as is normaling a rising out of actual commercial transactions which he member banks of habits in selecting for him to withdraw his an ever been possible to draw on credit balances with any ot respondent. It is not dependent on the whins or fortunes of any other bank. He need not shiver at the prospect of abundant crops for fear he may not have available but he sinds, so are ease is not shiver at the prospect of the atmest you. Will detain solve that, but which he has low in governey on the second with a single prospect of the second of the free and balances. The needs noney to accommodate the banks's customers he can, as a matter of right, call on his Federal reserve bank. He need to shiver at the prospect of abundant crops for fear he may not have available bit finds ensering the second of the free sarty Department with which he needs money to accommodate the banks's customers he can, as a matter of right

exchange. In this District, embracing the States of North and South Carolina, Virginia, West Virginia (except the panhandle), the District of Columbia and Maryland, there are some 475 member banks. A cotton mill at Columbia, S. C., under the old plan sends its check on its Columbia bank for a shipment of coal to the coal company at Blue-field, W. Va. The local bank at Bluefield forwards this check to its corre-

<text><text><text><text><text><text>

meet a run, and the bank, though thoroughly solvent, might be forced to suspend. Under the new law, however, if a bank with \$200,000 capital and de-posits of \$1,500,000 should have loaned \$1,200,000 to its customers on commercial paper and should encounter an unexpected run, in addition to borrowing \$200,000, the amount of its capital, such a bank would have authority to re-discount with the Federal reserve bank of which it is a mem-ber notes, drafts and bills of exchange issued or drawn for agricultural, industrial or commercial purposes having not more than ninety days to run, to any reasonable extent which may be approved by the Federal reserve bank to which application for such re-discounts may be made. In other words, if such a national bank as we have used in this illustration should have loaned the entire amount of its deposits, less the 15% which it is re-quired to keep as reserve, to its customers on acceptable commercial paper, and for any unexpected reason should have the authority to re-discount for the member bank to its district would have the authority to re-discount for the member bank to entire amount of its bills receivable, as represented by its commercial paper, thus enabling the bank to pay its depositors immedi-ately and in full.

Interfort Data the entry amount of its bills receivable, as represented by its commercial paper, this enabling the bank to pay its depositors immediately and in full.
We cannot over-estimate the value of the additional security which this provision of the Act confers upon every honesity, capably managed member bank, and the relief from strain and anxiety and from the fear and apprebank, and the relief from strain and anxiety and from the fear and apprebank, and the relief from strain and anxiety and from the fear and apprebank.
Another important change provided for by the Federal Reserve Act is the new arrangement for the compensation of national bank examiners. Under the present law the compensation of national bank examiners is based except as to reserve clies on the capital stock of the bank examiner. Under the operations of this law a national bank examiner has been receiving for the examination of a certain national bank counter due to any study of assets and many thousands of accounts, the munificent sum of \$25. It is, of course, clear that an examiner could make only an imperfect examination of such a bank in the space of three days, at a compensation of say \$8 per day, out of which \$8 allowance he has to pay his own raitroad fare, hotel expenses, as well as elerical assistance. It is not unnatural that but few examiners would willingly spend the ten days to two weeks which it might require to make a thorough examination of such a bank will not by the recompensation of the Comptroller of the Currency, is given authority to fit the compensation of bank examiners on the basis of annual salary, so that those banks which need additional time and attention from the examiner may receive the careful, close structing which the the ass may callery. It is believed that the new system of bank examinations will reduce materially the number of bank failures and enable the Department to check up many abuses and correct many evil situations which in the past have beer ignored or glossed over by examine

THE LATEST TRADE AND TRUST PROPOSALS IN CONGRESS.

The deliberations of Congress during the remainder of the present session are limited to the three pending anti-trust bills and the regular appropriation bills, under the program endorsed at the Democratic caucus of the House on Tuesday. The failure of the caucus to include rural credits legislation as part of its program was due, it is said, to the action of the President in rescinding, at the last moment, his orders for its enactment in view of the fact that the rural credits bill, drafted by a sub-committee of the Banking and Currency committees of the House and Senate (and made public on Tuesday) did not meet his views on the subject. The caucus decision to eliminate rural credits and cotton futures legislation was not accepted without an effort on the part of some of the members to incorporate both these features in the party program. Representative Ragsdale was one of those who strongly protested against the dropping of the rural credits, and he declared that the President, in consenting to its abandonment, had broken faith with the farmers. Despite its elimination from the program, the Democrats of the joint sub-committee which drew up the rural credits bill, voted on Wednesday unanimously to report the measure to the full committees. Further reference to the bill is The three anti-trust bills which, under the made below. caucus resolution, are to receive the exclusive attention of Congress, are the Covington Inter-State Trade Commission Bill (printed in our issue of April 18); the Clayton omnibus anti-trust bill (given on page 1430 of the "Chronicle" of last Saturday) and the Rayburn bill, providing for the Federal control of railroad stock and bond issues, which we gave in last week's issue on page 1432. Opposition to the trust pro-posals has been registered in various quarters during the The Philadelphia Board of Trade, in a vigorous week. memorial against the omnibus anti-trust bill, prepared on the 9th inst., says:

It is certain that the country must suffer unless the laws affecting busi-ness are framed with scientific accuracy to prohibit only the thing that is wrong without interfering with the convenient machinery of business or limiting the initiative and effective energy of the people.

The terms of the measure, the memorial contends, "would place every one doing business in the United States in jeopardy of fine and imprisonment." In further indicating the Board's strictures on the bill, the Philadelphia "Ledger" says

Says: Holding that the omnibus bill makes it a crime to discriminate in price between purchasers of commodities with the intent to injure a competitor, the memorial contends that while no one would disagree with the general moral purpose of the provision, the Act as drawn would do substantial harm, as "there is such a thing as an effort to wantonly destroy the business of a competitor by means other than those recognized as fair competition." It goes on to say: "Discriminations in price are essential to any freedom in trade. The manufacture or dealer in yours who has a here smooth in the destroy the

Togets on rotations in price are essential to any freedom in trade. The manufacturer or dealer in goods who has a large supply in the West with a small demand, must be at liberty to sell in the West at a lower price than he would in the East if he had there a small supply and an active demand. He must sell at an advancing or declining scale of prices, and on such market as may exist in different localities. Discrimination in price per se is a part of the life of trade and contains no element of immorality. The avowed purpose of the competition is to take the competitor's business from him as he is attempting to take your business from you.
"It follows, therefore, that every person in a competitive business who cuts prices in order to obtain the business form you.
"It follows, therefore, that every person in a competitive business who cuts prices in order to obtain the business form you.
"It follows, therefore, bat every person in a competitive business who cuts prices in order to obtain the business formerly held by some other competitor would come within the terms of the proposed Act. The Act as drawn should not, therefore, be passed. It would place every one doing business in the United States in jeopardy of fine and imprisonment.
"If we assume that there is such a thing as a wilful and maheious attempt to injure or destroy the business of a competitor, outside the scope of legitimate competition, legislation should be directed against such practices."
Tonake and unnecessary, the protest designates the provision of the omnibus bill which provides that no corporation engaged in commerce shall acquire the stock of another corporation if such acquisition will lessen competition. It says:
"The degree of competition which will work the best result for all cannot be determined by legislation—it must be worked out by the slow process

competition. It says: "The degree of competition which will work the best result for all cannot be determined by legislation—it must be worked out by the slow process of evolution. The great period of consolidation through which the cointry has passed was due partly to the realization that unrestrained competition was wasteful and uncenomic; partly because the world trade has grown to a point where the countries which would lead must operate through larger and more powerful units of business. The result has been, on the whole, good. No one familiar with conditions at the beginning of the period of consolidation and expansion would return to them. The law as it stands prohibits consolidations which unduly restrain trade or create monopaly." Congressman J. Hampton Moore, of Philadelphia, at the convention in that giv on Tuesday of the National Associa-

convention in that city on Tuesday of the National Association of Hosiery and Underwear Manufacturers' had something to say regarding the pressure felt by business through

thing to say regarding the pressure felt by business through the enactment of needless legislation. On this point he said: It has been almost impossible for a manufacturer to lift up his head in the halls of Congress, for it somehow has been made a crime to be engaged in extensive industry. He is considered as grinding, grasping and monopo-listic, and he receives scart consideration for the risk of his capital in enter-prise. Very few men under present conditions care to engage in industrial enterprise. We need a better understanding of the business of industry, a better understanding between employer and employee, and less inter-ference with those who are undertaking to do things. The worker has an undonbted interest in the success of the employer, and there ought to be a

spirit of co-operation as between the employer and the employee in deter-mining the laws that shall govern their welfare. Laws now pending, passed or proposed in Washington, are, many of them. similar to State laws that have been tried, found wanting and relegated to the ash heap. Men who have no fixed occupation are tinkering with near house. your business

Views counter to those of Mr. Moore were expressed at the same convention by City Statistician Edward James Cattell, who, in characterizing the present business uncertainty as nothing more serious than a "case of nerves," declared that business men are needlessly fearful of new conditions imposed by the modernizing of national legislation in accord with the trend of social thought.

The New York Board of Trade and Transportation at its meeting on Wednesday adopted a report of its executive committee opposing the Senate bill (Newlands) providing for an Inter-State Trade Commission, the report declaring that the bill confers upon the Commission "such powers as might be conceived to be directed against none but those guilty of heinous and atrocious crimes; but here are directed against citizens engaged peaceably in the pursuit of ordinary They constitute an invasion of prilegitimate businesses. vate, inalienable and inviolable rights, a usurpation of power, contrary to sound principles of government and subversive of liberty."

The Rochester Chamber of Commerce, in passing on the recommendations respecting the Inter-State Trade Commission Bill on which the Chamber of Commerce is seeking a referendum vote (these recommendations were set out in the "Chronicle" of April 18, page 1213), not only indicates its unqualified disapproval of the bill, but describes the so-called omnibus bill as "unnecessary, harassing and harmful to legitimate business"; its opinion is contained in the following resolution:

resolution: Whereas, All men connected with business—employers, employees and investors, and with them, the progress and prosperity of the entire country —are suffering from undue interference on the part of Government; Whereas, Industrial and mercantile enterprises, legitimate and beneficial in their relation to all the people, are being prosecuted under a strained and forced application of existing law, sufficient for the proper regulation of business, if wisely and temperately administered; *Resolved*, That the Rochester Chamber of Commerce, being opposed not only to the 'Trade Commission Bill, but also to the so-called omhibus Anti-Trust Bill, as unnecessary, harassing and harmful to legitimate busi-mess, refrains from voting on Referendum No. 7, except to protest vigor-ously against the recommendation of the special committee, that the bill be enacted into law. be enacted into law.

A number of railroad representatives pointed out some of the harmful tendencies of the Senate Inter-State Trade Commission Bill before the Senate Committee on Inter-State Commerce on Monday last. The views of Judge Robert S. Lovett, Chairman of the Board of the Union Pacific RR.,

S. Lovett, Chairman of the Board of the Union Pacific RR., as presented to the Committee, are printed quite fully in the New York "Times," from which we take the following: The enactment into law of this bill, in my opinion, would cause the greatest shock to railroad securities that has been felt in years. I came here to represent the railroad executives. What I say is submitted with the hope that it will help the Committee in its efforts to pass just legislation. I recognize that there is a demand for some of the proposed legislation. I recognize that there is a demand for some of the proposed legislation. I recognize that there is a demand for some of the proposed legislation. It recognize that uses of this measure.
I will take up the section that prohibits participation in inter-State commerce of railroads and industrial corporations that compete for business and have interlocking directors. I can see why the Government should not allow common directors in industrial corporations that competer, for they have secrets from the public. Railroads have no such secrets now, as the Inter-State Commerce Commission has to give its permission to change rates. Therefore, the railroads should be dealt with separately. Railroads have inductrial corporations are through an holding or limiting interlocking directorates, interlocking stock ownership and the common control of two or more competing companies through a holding company or agency. All these inhibitions apply to common carriers as well as to industrial.

company or agency. All these inhibitions apply to common carriers as well as to industrials. "If Congress is going to legislate on matters of this sort," said Judge Lov-ett, "that legislation ought to be direct, making unlawful such interlocking relations, instead of merely barring a corporation that disobeys the bill's recommendations from inter-State commerce. Directors are elected by stockholders and comportions, and cannot always control these alecteders stockholders and corporations, and cannot always control these elections, Laws ought not to be passed that will be inoperative. I find nothing in this bill that makes the election of a director of one company who is a director of a competing company unlawful. That is what the bill should

director of a competing company unlawful. That is what the bill should provide. "If it is to be the policy of the Government to abolish interlocking direc-torates, the law should be applied to individuals. If you would prohibit common directors, do it directly, and not in the way you propose here. This bill ought to be changed so as to distinguish between independent and subsidiary corporations. I believe that if this law you propose is to be retroactive all great railroad systems in this country will be disrupted, and there will be the greatest shock to railroad scentrities ever known in the history of the United States. In my opinion, Congress should let stand the railroad systems that now comply with the provisions of the Sherman law and not make this bill retroactive. Leave alone what is now not in conflict with the Sherman law."

At Tuesday's hearings of the Senate Committee, S. G. Gibboney, of counsel for Bertron, Griscom & Co. of New

York and Philadelphia, was one of those heard in opposition Mr. Gibboney declared that "if holding companto the bill. ies of public utilities should be held to be engaged in inter-State commerce, the effect might be to prevent such a company from acquiring or holding the controlling interest in the gas and electric plants in a particular locality, even though the State Commission permitted it."

A protest against the bill on behalf of the Investment Bankers' Association of America was lodged with the Committee on Wednesday by Lawrence Chamberlain of Chicago. According to the "Journal of Commerce," Mr. Chamberlain criticised many of the provisions of the proposed legislation, especially its provisions regarding interlocking directorates. He stated that there are 350,000 corporations in the United States now reported and that 95% of these corporations would fall under some provision of the proposed law. It was of the greatest importance to the commercial world, he said, that no mistake should be made in framing such a law. He pointed out that there were between 3,000 and 4,000 investment banks in the country, practically all of which are inde-pendent, buying the securities of the industrial and other corporations which will be affected by the proposed bill. He said there were not enough trained men in the investment banks to serve on the boards of directors of all the great corporations in whose stocks the investment banks were dealing, should the prohibition against interlocking directorates be enacted into law.

A minority report on the Clayton anti-trust bill, filed on Tuesday by Representatives Graham of Pennsylvania; Danforth of New York, and Dyer of Missouri, of the House Judiciary Committee, asks for a cessation of further legislation, saying:

tion, saying: "The anti-trust laws on the statute books at this time have been carefully considered by the Supreme Court and judicially interpreted through a period of twenty-four years, and if properly enforced are believed by us to strip corporations and trusts of any power to injure or oppress. No possible good can come from constant interference with business. It is our belief that business should have a rest from further legislation and be given an opportunity to adjust itself to the environment created by existing anti-trust laws as the same have been interpreted and are now being administered. The proposed legislation contains many new phrases and sets up new standards, all of which would require a period of years for in-terpretation by the courts before their full meaning may be definitely known by the business world. It is very undesirable to bring about such a period of uncertainty and doubt to worry and harass the business of the country." country.

Two other minority reports on the Clayton bill were filed on Wednesday, one signed jointly by Representatives Nelson of Wisconsin and Volstead of Minnesota, and the other presented individually by Representative Morgan of Okla-homa. The Nelson and Volstead report, the "Times" states, refers to the Clayton bill as "an assurance to big business and a sop to public opinion," and adds:

During the hearings no big trusts appeared to oppose the tentative bills, nor has the introduction of this final draft created any uncasiness or flurry in Wall Street. Like a Don Quixote, the committee sallied forth valiantly to overthrow the Giant Monopoly, but, under the pressure of political expediency, it turned aside to assail the windmills of little business."

The rural credits bill, presented this week by Representative Bulkley, Chairman of the sub-committee of the House Banking and Currency Committee, and Senator Hollis, Chairman of the sub-committee of the Senate Banking and Currency Committee, provides for the creation of farm loan associations and Federal land banks. The bill, it is stated, has not received the endorsement of the full committee of the House, and is opposed by President Wilson because it would call for Governmental aid in the operation of the land banks, whereas it is understood he favors the creation of a system operated by private capital under Government supervision. Under the Bulkley-Hollis bill there would be created farm loan associations with a capital of not less than \$10,000 each. These associations would be authorized to loan to farmers for productive purposes, not to exceed \$4,000 to any one borrower. They would not do any other business and would not accept deposits. All loans would be on the amortization plan for not less than five or more than thirty years, the borrower to have the option to pay up either in whole or in part on any interest day after five years. These associations would sell the mortgage with their endorsements to an amount not exceeding twenty times the capital and surplus of their respective associations to the Federal land banks of their respective Twelve Federal land banks are to be established, districts. the districts to be substantially the same as the Federal reserve districts. These land banks will be capitalized at not less than \$500,000 each. They will issue bonds on These land banks will be capitalized at approval of the Federal Reserve Board based on the security

The rate of interest dorsements of the local associations. on the bonds will be fixed by the Federal Reserve Board, which shall not exceed 5%. The land bank and the local association making the loan will each get 1/2 of 1% per annum on the total outstanding unpaid amount of the mortgages which they have placed. The land banks, besides having to issue and sell bonds, would be empowered authority to invest funds in first mortgages, to receive deposits from associations and to acquire real estate under limitations. The bill also provides that the Secretary of the Treasury, upon the recommendation of the Federal Reserve Board, may purchase land bonds not exceeding \$50,000,000 per annum. The bill further provides for appraisal of land, series of farm loan bonds, redemption of farm loan bonds, relations between loan associations and land banks, special reserve, general reserve and dividends of land banks, defaulted loans, general reserve and dividends of national farm loan associations, exemption from taxation, use of postal savings for purchase of farm loan bonds, and the examination of the banks and associations.

of the mortgages which they have purchased with the en-

Three reasons have been advanced by Representative Glass, of the House Banking and Currency Committee, for the shelving of rural credit legislation, and these, according to the Baltimore "Sun," are:

First. The rural credits sub-committee of the Banking and Currency Committee has not been able to agree on a bill. It would require at least six weeks for them to prepare a measure which will be acceptable to the Administration. This would keep Congress in Washington until

Committee matrix weeks for them to prepare a measure which will be acceptable to the Administration. This would keep Congress in Washington until late in the fall.
Second. The new Federal Reserve Act provides far more banking assistance to farmers than is generally supposed. Under it national banks may make leans on improved and unneumbered farm land for five-year periods, the amount of the leans being limited to one-hair the value of the lands. The amount of these leans under the provisions of the Act. Is estimated to be around \$500,000,000. The Act also provides almost unlimited credit to farmers for crop-movement purposes.
Third. By the delay of rural credits until next winter, farmers and others interested in this financial reform legislation will have had six months' time to study the Bulkley and other bills, and to determine whether or not they meet their financial requirements in conjunction with the farm-lean credits provisions of the Federal Reserve Act.
The President, it is stated, is especially anxious that the Rural Credit Act should extend credit to the tenant farmer.

Rural Credit Act should extend credit to the tenant farmer. Under the Bulkley bill land-owners only would be able to get credit.

THE COLORADO MINING TROUBLES.

The Denver Chamber of Commerce has issued a statement taking occasion to set forth the true conditions growing out of the Denver coal strike, which, according to the Chamber, have been grossly misrepresented by some Denver papers. We quote its statement below:

DENVER CHAMBER OF COMMERCE.

Denver, Colo., May 8th 1914.

DERVER CHAMBER OF COMMERCE. DERVER CHAMBER OF COMMERCE. Derver, Colo., May 8th 1914. To the Public: The deplorable conditions arising out of the coal strike in Colorado have necessitated the calling of Federal troops to the assistance of the Governor and local authorities, and have attracted the attention of the whole country. Carital newspapers of Denver, the capital of the State, have grossly misrepresented the actual facts. They have published accounts of the so-called battles in the coal fields and sent them broadcast over the country. In these accounts they have charged the State militia with massacring women and children, and by their lurid statements have incited ignorant men to commit acts of lawlessness in attacking coal mines and the defenders thereof, including the State militia, which attacks have resulted in great destruction of life and property. In thread have the State militia bave killed no women or children and none have been killed by any person or persons. Two women and eleven children were found dead from suffocation in a cellar under a tent, where they had gone without the knowledge of the militia. Others were discovered by the State militia in similar places and were rescned by them at great risks to themselves. One boy of twelve was shot in one of the fights, but by whom and under what circumstances is not yet known. Because of this situation this Chamber deems it to be its duty to enter its viscorous protest against the misrepresentations and micitements to violence which have gone out from newspapers of this city, and to support the forvernor and the authorities. State and national, in the enforcement of hav and order. While some things may have been done by individuals which are not to be defended, which is always the case when industrial con-tests reach an acute stage, this Chamber asis the affiliated organizations to urge their members and through them the people of the country to reserve their judgment and give full credit to the Governor and all hose acting under him, including t

The compulsory disarmament of all persons in the Colorado strike district was begun on May 13, following the issuance of a proclamation on the 11th inst. by Col. Lockett, under authority of the President, fixing 5 o'clock of that day as the time limit for the voluntary surrender of arms. Under that date Col. Lockett reported to the War Department that there had been surrendered 2,678 firearms to the military authorities in the Trinidad district; the arms were turned in as follows: From strikers, 552; operators, 745; other citizens

1,381, and 6,000 rounds of ammunition. He also reported that 300 rifles and 60,000 rounds of ammunition were taken from the railroads in transit, with the consent of the strikers to whom they were consigned. Reports that the importation of strikebreakers in the Colorado strike zone would be forbidden were denied on Monday last by Secretary of War Garrison, who stated that it was the intention to defer the opening of the mines where operations had been suspended until conditions warranted their reopening, irrespective of whether strikebreakers were imported or whether the labor was on the ground. On the 14th, inst., however, following the interference with twenty-five miners imported by the Oakdale Coal Co. to work in the Oakdale mine, near Laredo, and five men held at Primero, it was announced at Trinidad that, unless further orders were received from Washington, the attitude of the army toward the employment of miners would be as follows:

Men brought into the district by the coal companies will not be allowed to work in the mines.

Men who come voluntarily seeking employment will be permitted to work. Skilled workmen whose services are needed to prevent the deterioration of property will be permitted to go from one to another mine owned by the same corporation.

None of the men referred to above were arrested or deported, the officers merely preventing them from going to work.

At Boulder on the 14th inst. indictments charging murder in the first degree were returned by the grand jury against William T. Hickey, Secretary of the Colorado State Federation of Labor; John O'Connor, President of the Louisville, Col., local union of the United Mine Workers of America, and Jerry Carter and Joe Potestio, union leaders. Indictment charging conspiracy to murder were also returned against Edward L. Doyle, Treasurer of District No. 15, United Mine Workers of America; John R. Lawson, International Board Member of the American Federation of Labor, and forty-eight others, including the four men named in the indictments, charging first decree murder. The action of the grand jury followed the return on the 13th of 14 true bills The action of the against strikers and sympathizers alleged to have been active in the attack April 28 on the Heela mine, near Louisville.

THE FEDERAL RESERVE DISTRICTS.

It became known definitely yesterday that H. A. Wheeler of Chicago had declined appointment as a member of the Federal Reserve Board. It had been rumored during the past week that it was unlikely that he would accept the post. The President thus has two places to fill on the Board, Richard Olney having indicated last week his inability, because of other interests, to serve as Governor.

In announcing last Monday the names of the five institu-tions in each of the Federal Reserve Districts which have been selected to execute the certificates of incorporation of the twelve Federal reserve banks, the Federal Reserve Bank Organization Committee stated that every effort is being made to expedite the preliminary proceedings with a view to placing the banks in actual operation by Aug. 1. The Committee announces the following as the banks chosen to sign the organization certificates:
DISTRICT NO. 1.-FEDERAL RESERVE BANK OF HOSTON. Connecticut-First National Bank, Erdigeport.
Mano-Casco National Bank, Portland.
Mano-Casco National Bank, Portland.
Mano-Casco National Bank of Commerce, Providence.
DISTRICT NO. 2.-FEDERAL RESERVE BANK OF NEW YORK.
New Hampshire-First National Bank, Sommerce, Providence.
DISTRICT NO. 2.-FEDERAL RESERVE BANK OF NEW YORK.
New Hampshire-First National Bank, New York: National Park Bank, New York, National Commercial Bank, Many, Marine National Bank, New York, National Commerce Providence.
DISTRICT NO. 3.-FEDERAL RESERVE BANK OF PHILADELPHIA.
DESTRICT NO. 3.-FEDERAL RESERVE BANK OF OLEVELAND.
DESTRICT NO. 3.-FEDERAL RESERVE BANK OF CLEVELAND.
Demasylvania -Philadelphia.
Make Neware.
Pennsylvania -Philadelphia.
DISTRICT NO. 4.-FEDERAL RESERVE BANK OF CLEVELAND.
Menneria, Philadelphia.
DISTRICT NO. 4.-FEDERAL RESERVE BANK OF RICHMOND.
New First National Bank, Columbus.
New First National Bank, Columbus.
Maryland -Merchants' K Mechanics' National Bank, Cleveland.
New Yendina-Chizes National Bank, Columbus.
Weth Carolina-Murchison National Bank, Columbus.
Noth Carolina-Murchison National Bank, Columbus.
South Carolina-Murchison National Bank, Columbus.
Mathan-First National Bank, Montgomery.
Florida -Exchange National Bank, Montgomery.
Florida -Exchange National Bank, New Orleans.
Mathana-First National Bank, New Orleans.
Mana-First National Bank, New Orleans.</li Committee announces the following as the banks chosen to sign the organization certificates:

Iowa—First National Bank, Sioux City. Michigan—First & Old Detroit National Bank, Detroit. Wisconsin—Wisconsin National Bank, Milwankee. DISTRICT NO. 8—FEDERAL RESERVE BANK OF ST. LOUIS. Arkansas—German National Bank, Little Rock. Illinois—Ayres National Bank, Jacksonville. Indiana—Second National Bank, New Albany. Kentucky—National Bank of Kentucky, Louisville. Tennessee—First National Bank, Memphis. DISTRICT NO. 9—FEDERAL RESERVE BANK OF MINNEAPOLIS. Minnesota—Capital National Bank, St. Paul. Montana—Merchants' National Bank, Grand Forks. South Dakota—First National Bank, Lead. Wisconsin—Commercial National Bank, Osbkosh. DISTRICT NO. 10—FEDERAL RESERVE BANK OF KANSAS CITY. Colorado—Denver National Bank, Denver. Nebraska—Central National Bank, Lincoln; United States National Bank Oklahoma—First National Bank, Lincoln; United States National Bank Nebraska—Central National Bank, Lincoln; United States National Ban Omaha.
Oklahoma—First National Bank, Muskogee.
Wyoming—Rawlins National Bank, Rawlins.
DISTRICT NO. 11—FEDERAL RESERVE BANK OF DALLAS.
Louisi ana—First National Bank, Shreveport.
Oklahoma—Durant National Bank, Shreveport.
Oklahoma—Durant National Bank, Shreveport.
Oklahoma—First National Bank, El Paso.
Union National Bank, Houston.
Frost National Bank, San Antonio.

DISTRICT NO. 12-FEDERAL RESERVE BANK OF SAN FRAN-CISCO. Arizona-Phoenix National Bank, Phoenix. California-First National Bank, San Francisco. Oregon-First National Bank, San Itaneisco. Utah-Descret National Bank, Sati Lake City.

Washington-National Bank of Commerce, Seattle.

In furnishing the above list, the Committee issued with it the following statement:

the following statement: The execution of this certificate will practically complete the incorpora-tion of each Federal reserve bank, and, when filed with the Comptroller of the Currency, the election of Directors may be immediately proceeded with. The board of each bank will consist of nine directors. Six of these are elected by ballot by the subscribing banks and three are appointed by the Federal Reserve Board. When this board has been organized, the Comp-troller of the Currency will issue his certificate or charter authorizing the Federal reserve banks to begin business. In order to expedite the incorporation and organization of the several Federal reserve banks, the Secretary of the committee has telegraphied each bank designated, asking that a special meeting be called at once for the purpose of passing a resolution authorizing its officers to execute the organization certificates. Arrangements have been made with each of the designated banks to have their representatives meet in the office of the President of the Clearing House Association of each Federal reserve city as soon as the resolution mailed to each bank has been passed by its Board of Directors.

Board of Directors. In the meantime the certificate of organization has been prepared by its Board of Directors. In the meantime the certificate of organization has been prepared by the committee for each Federal reserve bank and will be mailed at once to the President of the Clearing House Association in each Federal reserve eity, to be held by him until the representatives of the designated banks can be convened. In the districts in the East and Middle West the certificates will, therefore, probably be excented and returned to the committee to be filed with the Comptroller by May 16 or 17, and the Western districts should be received very shortly thereafter. By the end of the month it is hoped that the committee will receive nom-inations for Class A and Class D directors and the names of the district reserve electors elected by the subscribing banks, so that the vote may be taken early in June. Forms for use in reporting election of district reserve electors and the nominating of candidates will be mailed to the several banks as soon as the organization certificates have been received and filed. Every effort is being made by the Committee to expedite this election, so that the Board of Directors of each Federal reserve bank may be organized in ample time to elect officers, select employees and banking quarters, and to place the banks in actual operation by August 1.

Meetings of members of the three groups in the New York Federal Reserve District are to be held in New York next week at the Clearing House for the purpose of proceeding with the nomination of the directors of Classes A and B. The conferences have been called by Albert H. Wiggin, President of the Chase National Bank and Chairman of the Clearing House Committee. As indicated in the table of the Federal Organization Committee, printed in our issue of last Saturday, Group 1 of the New York District will comprise 160 banks, having aggregate capital and surplus of \$190,000 or more; Group 2, 159 banks having aggregate capital and surplus of less than \$190,000, but more than \$70,000, and Group 3, 159 banks having aggregate capital and surplus of less than \$70,000. The meeting of Group 1 is fixed for Tuesday next, the 19th inst., at 11 a. m.; that of Group 2 for Friday the 22nd at 11 a. m. and Group 3 for Friday afternoon at 2 P. m. The letters sent out to the members of the three groups are similar, and that addressed

members of the three groups are similar, and that addressed to those in Group 2 is shown herewith: Genlæmen—The organization of the Federal reserve bank of this district is nearly completed, so far as the Government is concerned and presently the individual banks will be called upon to perform the part devolved upon them by statute—the election of a director representing the banking inter-ests, and also a director representing the commercial, agricultural or other industrial interests of the district. In order that there may be intelligent and concerted action, it is deemed desirable that a preliminary conference he held. We suggest a meeting of the members of each group of this Federal reserve district in order that each and every bank may be given a voice in the proceedings and harmouy and unity of action be secured. We are arranging for a meeting of the members of group 1 on May 19 and for groups 2 and 3 on May 22. We invite you to attend a meeting of group 2 of this Federal reserve district at the Clearing House, in this city on Friday. May 22, at 11 a. m. for the purpose of a general discussion, interchange of views and the adoption of a proper course of procedure. We very much hope that some one representing your good institution will be present on this occasion.

1506

Representatives of the five banks in this State which have been designated to execute the certificates of incorporation for the New York Federal Reserve Bank will meet at the Clearing House at 2 p. m. on Monday to execute the certificate.

In addition to Charles J. Rhoads, Vice-President and Treasurer of the Girard Trust Co., and Alba B. Johnson, President of the Baldwin Locomotive Works, the members of the Philadelphia Clearing-House Association have nominated as the third director of the Federal Reserve Bank of Philadelphia Joseph Moore Jr., President of the Clearing-House Association and President of the National Bank of Northern Liberties.

A statement made by George M. La Monte, New Jersey Commissioner of Banking and Insurance, at the convention last week of the New Jersey Bankers' Association as to the possibility of five national banks in Jersey changing to the State system because of their dissatisfaction in being allied with the Philadelphia Federal Reserve District, is said to have brought to light the fact that the First National Bank, the Third National Bank and the Hudson County National, all of Jersey City, are three of the institutions which have made inquiries concerning the adoption of State charters. Edward I. Edwards, State Comptroller and Cashier of the First National of New Jersey, who was interrogated as to the plans of his institution, is quoted in the Newark "News" as saving:

as saying: We had hoped nothing would be said in the newspapers about this move for the present, but since some of the facts have been given out I can see no reason why the truth should not be known. Speaking as a representa-tive of the First National. I asked Commissioner La Monte if he would put anything in our way if we decided that placing us in the Philadelphia district had hurt banking in Jersey City, and we decided we would relin-quish our national charter and take out a State charter. He said there would be no trouble if we were willing to liquidate and straighten out our affairs for the change. Nelson J. H. Edge. Vice. President of the Hudson County

Nelson J. H. Edge, Vice-President of the Hudson County National Bank, is quoted to the following effect:

National Bank, is quoted to the following effect. We have not actually applied for a State charter, but there is a strong possibility of our doing so, unless the Federal Reserve Board, when it organizes, heads our appeal and places us in the New York district. The annexing of our banks to the Philadelphia district will prove a matter of great inconvenience. I do not believe we would experience any great difficulty in securing a State charter.

The following six directors have been nominated for the Minneapolis Federal Reserve District, subject to the approval of all the national banks in the district:

E. W. Decker, President Northwestern National Bank and the Minnesota Loan & Trust Co., Minnespolis. L. B. Hanna, Governor of North Dakota, President First National Bank of Page and formerly President First National Bank of Fargo. J. C. Bassett, President Aberdeen National Bank, First National Bank of Webster (S. D.), Commercial State Bank of Langford and First State Bank of Pierpont, S. D.

Bank of Pierpont, S. D.
 Business Men.
 F. R. Bigelow, President St. Paul Fire & Marine Insurance Co. and director Merchants' National Bank of St. Paul.
 Frank P. Hixon, lumberman, President Listman Mill Co., La Crosse; Vice-President National Bank of La Crosse and director Security National Units of Missionella.

Bank of Minneapolis.

Norman B. Holter of the A. M. Holter Hardware Co., Helena, Mont.

A resolution taking exception to the placing of the northern part of Wisconsin in the Minneapolis district, and requesting that the entire State of Wisconsin be incorporated in the Chicago district, was adopted on the 6th inst. at a meeting in Wausau, Wis., of the Northern Wisconsin Development Co.

Fifty national bankers from central and upper Wisconsin in convention at Oshkosh on April 29 also placed themselves on record as opposed to the inclusion of Northern Wisconsin in the Minneapolis district.

The showing of the several groups in the Chicago district as outlined by the Organization Committee is criticized in a letter which has been addressed to the Committee by James B. Forgan, President of the First National Bank of Chicago. According to the table given out by the Committee last week, and published on page 1429 of the "Chronicle" of May 9, the Chicago district would be divided as follows:

Group No. 1-319 banks having each a capital of \$120,000 or more. Group No. 2-319 banks having each a capital of \$120,000 or more. Group No. 2-319 banks having each a capital of less than \$120,000 and more than \$55,000. Group No. 3-319 banks having a capital of less than \$55,000.

In his criticism of the above analysis Mr. Forgan is quoted

In his criticism of the above analysis hit roughn is quoted in the Chicago "Tribune" as saying: In this district the national banks favor \$100,000 as the basis of capi-talization. There are 335 banks eligible to membership that have a capital of \$100,000 or more. Of this number 190 have a capital of \$100,000. This would leave only 146 banks eligible to group I as provided in the test taive

analysis. Group No. 2 as outlined would be represented by 319 banks having capital of less than \$120,000 and more than \$55,000. In this dis-trict there are only 71 banks having a capital of less than \$100,000 and more than \$55,000. This added to the 190 banks with \$100,000 capitalization would make 261 banks for Group No. 2 as outlined. This would leave a grand total of 550 banks, not 319, having a capital of less than \$55,000 for classification into Group No. 3. The trouble seems to be that the Organi-zation Committee in its analysis simply divided the 957 eligible banks by three and performed the same arithmetical division as regards the capital of the banks. The Organization Committee's classification is incorrect. The Organization Committee's classification is incorrect. of the banks.

The Oklahoma State Press Association, at a meeting in Ardmore, Okla., on the 9th inst., placed itself on record as favoring the inclusion of all of Oklahoma in one regional district, with headquarters at Kansas City.

Upholding the right of the United States to exempt coastwise shipping from the payment of tolls in the Panama Canal, Philander C. Knox, Secretary of State in President Taft's Cabinet, in a statement made public on the 10th inst. asserts that in the discussion of the question too much consideration has been given to "treaties, correspondence, documents, opinions, beliefs and imaginings that are wholly foreign to the simple issue involved." "This issue," says Mr. Knox, "arises out of one tremendous fact, and one brief treaty affecting that fact. The fact is our Canal at Panama and the treaty is the one negotiated in 1901 by John Hay and Lord Pauncefote." Pointing out that Great Britain's challenge of our right to exempt coastwise vessels from the payment of tolls, is predicated upon the claim that

from the payment of tolls, is predicated upon the claim that by the Hay-Pauncefote Treaty we bargained away that right incident to our ownership, Mr. Knox says in part: "The United States possesses no more costly and perhaps no more valuable plece of territory than the Panama Canal, and Great Britain's claim is that the Hay-Pauncefote Treaty not only encumbers that territory with equal rights of use by all other nations, but impresses upon it a servitade by which the United States loses the free use of its own canal for its own yessels.

by which the United States loses the free disc of its own chain for different "Sir Edward Grey's protest states the same proposition in different words: "The treaty,' says Sir Edward, 'imposes limitations upon the freedom of action of the United States' in respect to the canal. In other words, he claims the treaty imposes limitations upon American sovereignty. "From these premises it is easily deduced that the pairfoldsm and good faith of those who maintain as an earnest conviction either side of this disputed legal question should not be challenged. It is just as praiseworthy to defend the American right to deal with our own in accordance with our own convictions of true national interest, if we believe we have not parted with that right, as it is to insist that we should fully comply with our inter-national engagements if we have contracted away our full liberty of action. "The President has assigned three reasons why he wishes Congress to repeal the free toils provision:

"The President has assigned three reasons why he wishes Congress to repeal the free tolls provision: "First. Because it violates our treaty. "Second. Because it is bad economic policy. "Third. Because it is bad economic policy. "Third. Because it will assist him in handling our foreign relations. "If the first reason is good no other is necessary. If the first reason is not good the other two are as insufficient as they would be if they were urged as reasons for voluntarily dividing our sovereignty over the Missis-sippi River. "If the exemption is a violation of the treaty no man who believes it meeds an apology for favoring its repeal. If it does not violate the ireaty no man who believes it does not can justify favoring a surrender of American sovereignty over American property under pressure from a foreign Govern ment.

<text><text><text><text><text>

herself claims and exercises and which every other nation in the world

hereaft claims and excluses and third draw of the possesses. "If the limitation which Sir Edward Grey says is imposed upon our free-dom of action in respect to the canal does not arise by necessary implication from these facts, let us see if we can find it in the language of the treaty. In short, let us seek the words of limitation. "They are found, according to the British contention, in Article III. This article is a declaration by the owner of the canal of the terms upon which it is to be used. There are, all told, six rules. "The first grants a privilege, the other five specify the conditions upon which that privilege is to be enjoyed. "The canal shall be free and open to vessels of commerce and of war of all nations observing these rules,' is the language of the grant.

which that privilege is to be enjoyed. "The canal shall be free and open to vessels of commerce and of war of all nations observing these rules," is the language of the grant. "Do these rules apply to the United States? They do if the United States is included in the language upon which Great Britain relies, namely "the canal shall be free and open to the vessels of commerce and of war of all nations observing these rules on terms of entire equality." "Of course it must be admitted that by applying a childish logical formula to this text it can be claimed that the United States is included within the words 'all nations,' but a consideration of the relation of the parties to the subject of the treaty shows that the United States, the grantor of condi-tional privileges in the canal to all nations, parted with no particle of its rights of ownership in the property or subjected its own use of the canal to the conditions it imposed upon the beneficiaries of its generosity. "Has the United States bound itself not to use the canal if it should exercise a right of war or act of hostility within it: if it should revelctual its ships or take stores in the canal: if it should embark or disembark troops within the canal: if its vessels of war should remain within the waters longer than twenty-four hours, and if so, who is going to enforce these rules upon the United States, and will our obedience to them be compelled by the guns we are planting there for the protection of the canal? "Does not such a view of our rights invite all oher nations to war with us if we, during an actual state of war, use the canal for any military purpose? In short, would we not thus make all nations the alles of our immediate adversary if we have agreed with all nations through Great Britain that the rules we prescribe for the use of the canal apply to our-selves, the grantors of the use?

selves, the grantors of the use?
"Now, if the right to protect the canal and the right to protect ourselves by exercising privileges in and about the canal, denied to other nations by our rules, is an incident to our sovereignty, and thus takes the United States out of the meaning of the general words 'all nations,' the right to promote our domestic commerce in a field exclusively its own is an incident of sovereignty and ownership having the same effect.
"To deny the free use of our own canal for our own vessels is just as much an impairment of our sovereignty as to deny our right to exercise acts of belligerency in and for its protection. And the implication that we have not surrendered one of these sovereign powers by the use of the words 'all nations' is just as strong under the first rule, which is our contention, as it is under the other five, which is Sir Edward Grey's contention.
"It was never contemplated at any period in the history of the Isthmian undertaking that Great Britain should be on terms of equality with the owner of a canal or even with the other users of the canal except as compensation for her protection of the rant.
"She never had any treaty with any nation contemplating building a canal until the Hay-Pannecfote Treaty, her previous efforts having been confined to declaring the extent of her intentions in respect to some one's else canal, to which she proposed to extend her powerful protection.
"How is the United States assured that Great Britain or any other nations will observe the rules we have prescribed for the use of the canal? They have not agreed to do so. The Hay-Pauncefote Treaty contains no such an obligation on their part. We refused to accept language proposed by Great Britain that would make the right to use the canal to other mations a contractual right.

The failure of other nations to comply with our rules only debars them from the use upon equal terms with such nations as do comply with them, and how are we to know whether they will comply with the rules, which all relate to war, until war exists?"

In defense of the President's movement to secure the repeal of the exemption clause, Senator Hoke Smith of Georgia, in the Senate on Tuesday, said he would vote for the repeal "because of our treaties with Great Britain and Panama," and because in his opinion "it is right that the owners of these vessels should bear, for using the Canal, a fair part of the cost of our Government of building and operating In the course of his argument the Senator said: it."

it." In the course of his argument the Senator said: "The coastwise vessels will naturally stop at the ports of Cuba, Mexico Central America, Panama and, perhaps, elsewhere. Their cargoes will not be limited exclusively to bona fide coastwise traffic of the United States. Traffic from foreign countries will be unloaded at ports of the United States to be immediately reloaded in a coastwise vessel for passage through the Canal to the opposite coast of the United States, thus in reality carrying through the Canal foreign traffic in coastwise vessel without paying tolls. "Those who seek to restrict the meaning of the Hay-Pauncefote Treaty by picking here a word and there a word in disregard of the entire tenor of tha subjects of Great Britain and of other nations observing the rules prescribed, so that there would be no discrimination against any of the citizens with respect to the conditions or charges of traffic for passing their commerce through the Canal. through the Canal.

"When the President in his message referred to 'other difficulties' to be caused by the passage of our coastwise vessels through the Canal without charge, while I do not speak ex cathedra. I may well conceive that he had in view our general relations with all our neighbors in America, and not, what many have suggested, some ulterior purpose in connection with the Government of Great Britain."

The Senator argued that the United States really would surrender nothing by the repeal. "The surrender," he contended, "is made only if we fail to make the corporations owning these vessels pay their just part of the expense of the Panama Canal. Their gain through the subsidy now allowed is the loss of all the people." He asserted that if a subsidy were to be granted to any vessel, "it should be given to those engaged in the foreign trade, which need help, not to those engaged in the coastwise trade, already protected from foreign competition, already rich and prosperous."

Impressive memorial ceremonies were held in New York last Monday in tribute to the seventeen marines and sailors of the United States Navy who lost their lives in Mexico following the occupation of Vera Cruz by the American forces on April 21. The eruiser Montana, bearing the bodies, arrived at the Battery on Sunday last, escorted by the battleship Wyoming and the yacht Mayflower, Secretary of the Navy Josephus Daniels joining in the reception of the bodies at New York. The honors paid to the dead on Monday were national in character; the bodies were borne on caissons from the Battery to the Brooklyn Navy Yard in solemn procession, followed by carriages in which were President Wilson and other Governmental dignitaries, including a committee of Congress, State and city representatives and others of prominence. At the City Hall Mayor Mitchel offered the city's tribute in an address and wreath, the singing of hymns by five hundred school children adding to the impressiveness of the ceremonies. At the memorial exercises at the Navy Yard President Wilson delivered an eulogistic address and the religious features included prayers by William G. Cassard, Chaplain at Annapolis, and Rabbi Wise, and a benediction pronounced by Father John P. Chidwick, who was Chaplain of the Maine. Business was practically suspended in the lower part of the city while the procession was en route to the Navy Yard. The Stock Exchange and other local exchanges delayed their opening until 11 o'clock out of respect to the men in whose honor the ceremonies were held.

We print President Wilson's remarks in full below. He spoke, addressing the Secretary of the Navy.

spoke, addressing the Secretary of the Navy. spoke, addressing the Secretary of the Navy. Mr. Secretary—I know that the feelings which characterize all who stand about me and the whole nation at this hour are not feelings which can be sultably expressed in terms of attempted oratory or eloquence. They are things too deep for ordinary speech. For my own part I have a sin-gular mixture of feelings. The feeling that is uppermost is one of pro-found grief that these lads should have had to go to their death, and yet there is mixed with that grief a profound pride that they should have gone as they did, and, if I may say it out of my heart, a touch of envy of those who were permitted so quietly, so nobly, to do their duty. Have you thought of it, men? Here is the roster of the navy, the list of the men, officers and enlisted men and marines, and suddenly there swim nineteen stars out of the list—men who have suddnily gone into a firmament of memory, where we shall always see their names shine, not because they called upon us to admire them, but because they served us build upon us as well as upon them. Duty is not an uncommon thing, gentlemen. Men are performing it in free ordinary walks of life all around us all the time, and they are making great sacrifices to perform it. What gives men like these peculiar dis-tinetion is not merely that they did their duty but that their duty had nothing to do with them or their own personal and peculiar interests. They did not give their lives for themselves. They gave their lives for us because we called upon them as a nation to perform an unexpected duty. That is the way in which men grow distinguished, and that is the only way—by serving somebody else than themselves. And what greater thing could you serve than a nation such as this we love and are proud of? Are you sorry for these lads? Are you sorry for the way they will be remem-bered? Does it not quicken your pulses to think of the list of them? I hope to God none of you may join the list,

<text><text><text><text>

postors. The cheers of the moment are not what a man ought to think about, but the verdict of his conscience and of the consciences of mankInd. So, when I look at you I feel as if I also and we all were enlisted men. Not enlisted in your particular branch of the service, but enlisted to serve the country, no matter what may come, what though we may waste our lives in the ardnous endeavor. We are expected to put the utmost energy of every power that we have into the service of our fellow men, never sparing ourselves, not condescending to think of what is going to happen to our-selves, but ready, if need be, to go to the utter length of complete self-sacrifice. sacrifice

sacrifice. As I stand and look at you to-day and think of these spirits that have gone from us I know that the road is clearer for the future. These boys have shown us the way, and it is easier to walk on it because they have gone before and shown us how. May God grant to all of us that vision of patriotic service which here in solemnity and grief and pride is borne in upon our hearts and conscienc

It may be noted incidentally that while the dead at the Navy Yard actually numbered seventeen, two others who met their death in Mexico were also included in the list of those honored-hence President Wilson's reference to nineteen.

The Court of Appeals of the District of Columbia on the 4th inst. upheld the Supreme Court of the District of Washington in dismissing last October the application for a writ of habeas corpus sought on behalf of David Lamar. The writ was sued out following the issuance of the order calling for Lamar's removal to New York in the extradition proceedings begun in Washington in September. Lamar is wanted in New York to answer to an indictment for having impersonated Congressmen Riordan and Palmer.

The sentences imposed on Samuel Gompers, John Mitchell and Frank Morrison, respectively President, Vice-President and Secretary of the American Federation of Labor, in the contempt proceedings growing out of the Bucks Stove & Range case, were set aside for the second time by the United States Supreme Court on the 11th inst. The statute of limitations served as the basis for the dismissal of the proceedings this week by the Supreme Court, this statute, which requires the prosecution of crimes within three years, applying as well, according to the ruling of the Court, to contempt The contempt proceedings in the present case grew cases. out of an alleged violation of an injunction issued in 1907 restraining the American Federation of Labor and its officers from conducting a boycott against the Bucks Stove & Range Co. of St. Louis. In December 1908 Gompers was sentenced by the Supreme Court of the District of Columbia to twelve months and Mitchell and Morrison were sentenced to nine and six months, respectively. These sentences were affirmed by the Court of Appeals of the District of Columbia in 1909. but in May 1911 the sentences were set aside by the United States Supreme Court because the defendants had been prosecuted under criminal instead of civil statutes, and it was left for the lower Court to initiate new proceedings. These were begun immediately (on May 16 1911) and in June 1912 the three men were again found guilty of contempt by the Supreme Court of the District of Columbia and in July 1912 the earlier sentences of twelve, nine and six months, respectively, were again imposed. In affirming the judgments in May 1913 the Court of Appeals of the District of Columbia reduced Gompers's sentence from twelve months to thirty days, and vacated the sentences of nine and six months imposed respectively against Mitchell and Morrison, and instead fined them each \$500. The opinion of the Supreme Court, handed down last Monday, setting aside the thirty-day sentence of Gompers and the fines imposed against the others, was announced by Justice Holmes. Justices Van Devanter and Pitney dissented, the division being seven to two. In part the Court said:

Van Devanter and Fittley inscritted, the division being seven to two. In part the Court said:
It is urged in the first place that contempls cannot be crimes, because, although punished by imprisonment and therefore if crime, infamous, they are not within the protection of the Constitution and the amendments giving a right of trial by jury, &c., to persons charged with such crimes. But the provisions of the Constitution are not mathematical formulas having their essence in form. They are organic, living institutions, trans-planted from English soil. Their significance is vital, not formal. It does not follow that contempts of this class under consideration are not crimes, or, rather in the language of the statute, offenses, because trial by jury, as it has been gradually worked out and fought out, has been thought not to extend to them as a matter of Constitutional right. These contempts are infractions of the law visited with punishment as such. If such acts are not criminal, we are in error as to the most fundamental characteristics of crime as that word has been understood in English speech. So truly are they crimes that it seems to be proved that in the early law they were pun-ished only by the usual criminal procedure, and that, at least in England, it seems that they still may be, and preferably are, tried in that way.
We come, then, to the construction of the statute. It has assumed that the concluding words, "unless the indictment is found or the informa-tion is instituted within three years" limit the offenses given the benefit of the Act to those usually prosecuted in that way, and the counsel for the patibilitioners were at some pains to show that the charges of antiquarkan speculation. But this question is not one to be answered by refinements and curious inquiries. In our opinion, the proper interpretation of the

statute begins with the substantive, not with the adjective part. The sub-stantive portion of the statute is that no person shall be tried for any of-fense except within a certain time. These words are of universal scope. What follows is a natural way of explaining that the proceedings must be-gin within three years; indictment and information being the usual mode by

What follows is a natural way of explaining that the proceedings must be-gin within three years; indictment and information being the usual mode by which they are begun, very likely no other having occurred to those who drew the law. Indeed, the punishment of these offenses peculiarly needs to be speedy. If it is to occur. The argument loses little of its force, if it should be determined hereafter, that in the present state of the law an in-dictment would not lle for contempt of a court of the United States. If even the statute does not cover the case, by its express words, as we think it does, still, in dealing with the punishment of them, a rule should be laid down, if not by Congress by this Court. The power to punish for contempt must have some limit in time, and in defining that limit we should have regard to what has been the policy of the law from the foun-dation of the Government. By analogy, if not by constrment, the limit is three years. This case cannot be concluded otherwise so well as in the language of Chief Justice Marshall in a case where the statute was held to be applicable to an action of debt for a penalty. Chief Justice Marshall said: "It is contended that the prosecutions limited by this haw are those only which are carried on in the form of an indictment or information, and in those where the penalty is demanded by an action of debt. But if the words of an Act be examined they will be found to apply not to any particu-lar mode of proceeding, but generally to any prosecution, trial or punish-ment for the offense. It is not declared that no indictment shall be found. In expounding this law, it deserves some consideration that if it does not limit action of debt for penalties, those actions might, in many cases, be brought at any distance of time. This would be utterly repugnant to the genius of our laws. In a country where not even treason can be prosecuted atter a lapse of three years, it could scarcely be supposed that an individual would remain forcever liable to a pecuniary forfei

As stated above, the proceedings against the labor leaders were begun for the second time on May 16 1911, so that the three-year statute of limitations would exclude all offenses prior to May 16 1908; on the other hand the injunction was made permanent on March 23 1908.

Arrangements are being perfected for the National Foreign Trade Convention, to be held at the Hotel Raleigh in Washington on Wednesday and Thursday, May 27 and 28. The conference will enter into a nation-wide discussion of American foreign trade and will be the first meeting of its kind ever held. A number of important chambers of commerce, boards of trade and manufacturers' associations have signified their approval of the convention and their intention to participate in it by sending delegates. Lloyd C. Griscom, Chairman of the convention, will open the meet-Some of those who have promised to address the gathing. ering are James J. Hill, President of the Great Northern Ry.; Hon. W. Cameron Forbes, of J. M. Forbes & Co. of Boston; H. G. Herget, President of the Illinois Manufacturers' Association; Ellison A. Smyth, President of the Cotton Manufacturers' Association of Greenville, S. C.; M. A. Oudin of the General Electric Co.; George L. Duval, of Wessel, Duval & Co. of New York; Fairfax Harrison, President of the Southern Railway; P. A. S. Franklin, Vice-President of the International Mercantile Marine Co.; Edward Hurley, President of the Chicago Pneumatic Tool Co.; Alba B. Johnson, President of the Baldwin Locomotive Works, Philadelphia; S. D. Webb, Wilbur J. Carr, Director-General of the Consular Department, State Department, Washington; W. P. G. Harding, President of the First National Bank of Birmingham, Ala., &c. Mr. Harding's topic will be "The Federal Reserve Act, with Special Reference to the Extended Facilities Which it Offers for Financing Our Foreign Trade." Willard Straight is Treasurer of the con-Foreign Trade." Willard Straight is Treasurer of the con-vention and E. V. Douglass is Secretary.

The Naval Appropriation Bill, calling for the construction of two battleships, was reported to the Senate on May 12. It passed the House on the 7th inst. The House voted to sustain the two-battleship program on the 5th inst., when by a vote of 148 to 91 the one-battleship proposal was voted down and a motion to strike out the two-battleship provision was rejected by a vote of 152 to 41. On the 7th the "little navy" men in the House made their final stand against two battleships on a motion to send the bill back to the committee, which was defeated 201 to 106. In addition to two battleships, the bill provides for one sea-going submarine, six torpedo-boat destroyers, three coast defence submarines for use on the Pacific Coast and four harbor defence submarines for use on the Gulf Coast and at Panama. It calls for an appropriation of \$140,990,833.

Frank A. Vanderlip, President of the National City Bank, took occasion to issue a statement last Saturday concerning the loan of \$11,000,000 alleged to have been made by his institution in 1909 to John L. Billard in a transaction involving the acquisition by the latter of 109,985 shares of stock of the Boston & Maine RR. It was stated that as a result

of the examination last week of Mr. Billard in the inquiry which has been conducted by the Inter-State Commerce Commission into the affairs of the New York New Haven & Hartford RR., Comptroller of the Currency John Skelton Williams intended to inquire whether there had been any violation by the National City Bank of the National Banking Law with regard to the limitation of loans. Mr. Vanderlip

Law with regard to the limitation of ioans. Mr. vancernp in his statement concerning the matter said: There was no violation of the law in any way. Had Mr. Williams made inquity of us we would have explained the transaction and would have shown him that we did not acceed the \$5,000,000 fixed by law as the maxi-mum loan to any individual. The loan of \$11,000,000 was distributed among a number of banks and trust companies and they shared in it. I do not remember off hand how many banks there were, but there were a number of them. A participation was made before the loan was made and the money came to us. It was a perfectly simple transaction and usual where large loans are to be made. where large loans are to be made.

The United States Supreme Court on April 27 passed upon a motion made in the suit of R. H. Macy & Co. against the American Publishers' Association and the American Booksellers' Publication. Last December, it will be remembered, the Supreme Court decided that the agreements between publishers and booksellers not to sell books to those re-selling at a price less than that fixed by the publisher are in conflict with the Sherman anti-trust law, both in the case of copyrighted and of uncopyrighted books. The point at issue in the latest motion is somewhat technical in character and, we learn, does not relate to the case decided last December but to another and a separate action brought on behalf of the same parties. Edmond E. Wise (of the law firm of Wise & Seligsberg), one of the attorneys for the plaintiffs, has favored us with the following statement of facts concern-

ing the ruling of April 27: In the action in which the United States Supreme Court handed down its decision on Dec. 1 1913, an application is now pending before Judge Green-baum of the State Supreme Court for the appointment of a referee to take

decision on Dec. 1 1913, an application is now pending before Judge Green-baum of the State Supreme Court for the appointment of a referee to take proof of the damages suffered by Macy & Co. The memorandum handed down by the United States Supreme Court on April 27 1914 in the case of Isidor Straus et al. against the American Publishers' Association et al. affects another case brought by the same plain-tiffs against the same defendants in the Federal courts for triple damages as provided in the Sherman Anti-Trust Law. This latter action was not brought until after the Court of Appeals had denied relief to the plaintiffs in so far as copyrighted books were concerned. The defendants in the second action set up as a bar the judgment in the State Court on the ground that the decision of the State Court was binding upon all the parties and barred any further action. The District Court of the United States, Judge Lacombe sitting, sup-ported this position and dismissed the complaint. The plaintiffs appealed to the Circuit Court of Appeals, which in December 1912 affirmed the decision of Judge Lacombe. In the meantime an appeal had been taken to the United States Supreme Court from the State Court judgment, and in December 1913 is rendered its decision and reversed the judgment, of the State Court. As the effect of the State Court judgment, which had been pleaded as a bar in the second action in the Federal Court, that thus been destroyred, a motion was made in the United States Supreme Court of Appeals an appeal had been taken, to reverse the Circuit Court of Appeals judgment or to advance the hearing of the cause if the Court deemed oral argument necessary or advisable. The Supreme Court denied the motion to reverse, but it advanced the cause to an earlier hearing and set the same down for argument for Oct. 13.

An application for an injunction to restrain the New York Photo-Engravers' Union No. 1 from interfering with the business of the Gill Engraving Co. was denied on the 4th inst. by Judge Hough in the United States District Court. The action was brought under that section of the State Penal Law forbidding "aets injurious to trade and commerce" and under the State anti-trust law and the common law. It was contended that the union had sought to prevent its members from doing work on orders given to their employers by firms which also gave part of their work to the Gill Engraving Co. (a non-union engraving concern), and that thereby there had been established a secondary and illegal boycott. In denying the motion Judge Hough held that although injury had occurred and was forseeen, the object of the defendants' combination was not to injure the company, and that the latter was not entitled to injunc-

the company, and that the latter was not entitled to injunc-tive relief under the law. In part Judge Hough said: "Applying the rule laid down by Judge Holmes in 1894 to this case, the object of the defendants' combination is not to injure the Gill Company, though such bijury has occurred and was foreseen. The object is to in-crease the power of the union so as to get more, easier and better paid work for its members. This is now regarded as landable. "Regarding the means employed, everything lately done and alleged as ground for the present action consists in threatening strikes. This is the exercise of a legal right. If defendants have sought to attain a legal end by legal means, that a motive or part of a motive was hate of Gill is imma-terial. That wrong and influry are being done in this matter is plain enough. Why does the law refuse or neglect to correct it? Judge An-drews has, I think, given the best answer: "Injury is never good, but to suffer it may entail less evil than the attempt to check it by legal means. In the last analysis this freedom to commit injury and the bounds imposed on it are regulated by what has been thought to be public policy." The controlling case in the United States courts in this district accepts the New York cases fully, plously regrets the injuries and writes the epitaph of such litigation as this by declaring that where legal rights clash, equity is helpless. This is true. It

would have been just as true to point out that the result of legalizing strikes, lockouts and boycotts under any circumstances must be that those who understand the use of such legal tools can always keep within the law and accomplish their main purpose while inflicting all necessary 'incidental' inducy.

The company had also brought suit against the union for \$50,000 damages for the alleged restraint of trade. It is stated that the Gill Engraving Co. intends, nevertheless, pressing its suit against the Photo-Engravers' Union and hopes to win in the end. The New York "Times" quotes Walter Gordon Merritt, counsel for the Gill Co., to the following effect:

Mr. Merritt explained that there was much difference between the con-siderations justifying temporary and permanent injunctions. The former are graated or withheld according to the circumstances before the court, and the fact that Judge Hough did not consider that the facts warranted a temporary injunction did not mean that an application for a permanent injunction backed up with evidence would be refused.

H. G. S. Noble was elected President of the New York Stock Exchange at the annual meeting on Monday, succeeding James B. Mabon, who retires after two years' service. Henry C. Swords was re-elected Treasurer and H. K. Pomroy was re-elected a trustee of the Gratuity Fund to serve five years. All of the above were nominees on both the regular and independent tickets. The only contest was over the members of the Board of Governors, and the regulars succeeded in electing all but one of those nominated on their ticket while the independents failed to elect four of their number. The successful candidates were: To serve four years-Dexter Blagden, Jay F. Carlisle, Le Roy Frost, Donald G. Geddes, Robert Gibson, William A. Greer, R. T. H. Halsey, James B. Mabon, S. F. Streit and William C. Van Antwerp. To serve one year-Oliver C. Billings. George C. Hollister and Newton E. Stout. C. W. Provost was the one candidate on the regular ticket who failed of election, and Samuel F. Streit, his successful opponent; the four defeated on the independent ticket were S. L. Cromwell, Warren B. Nash, Robert R. Atterbury and Edward Roesler.

George W. Ely, Secretary of the Exchange, observed the fortieth anniversary of his appointment as Assistant Secretary on Wednesday; several years after he had served in that capacity Mr. Ely was made Secretary.

Secretary Frederick R. Fenton of the Investment Bankers' Association of America has just issued a forty-page bulletin embodying the report of the General Counsel to the Board of Governors on their work since last October. The report points out the results obtained in legislation, litigation, income tax rulings and other subjects, besides showing the need of constructive legislation along certain lines. Another subject covered very exhaustively is that of taxation, a question of grave concern to investment bankers at the pres-ent time. The Tennessee "blue-sky" law just passed and ent time. The Tennessee "blue-sky" law just passed and the Ohio "blue-sky" law as recently amended, are also printed in full in the bulletin.

Group VIII. of the New York State Bankers' Association held its annual meeting at the New York Clearing House on Thursday, when the following members of the Executive Committee were elected: Joseph B. Martindale (President of the Chemical National Bank), Chairman, succeeding James S. Alexander (President of the National Bank of Commerce); Thomas Cochran Jr. (Vice-President of the Astor Trust Co.), Secretary and Treasurer; Charles Elliot Warren, President of the Lincoln National Bank; Benjamin Strong Jr., President of Bankers Trust Co.; Stephen Baker, President of the Bank of Manhattan Co.; H. R. Eldridge, Vice-President of the National City Bank; Louis G. Kaufman, President of the Chatham & Phoenix National Bank, and Joseph Byrne, Vice-President and Cashier of the Merchants' National Bank. As Secretary and Treasurer Mr. Cochran succeeds Charles Eliot Warren, who, however, is re-elected a member of the Executive Committee.

'The New Jersey Bankers' Association, at the closing session, on May 9, of its annual convention held at Atlantic City, adopted a resolution protesting against the inclusion of the northern portion of New Jersey in the Philadelphia Federal Reserve District. The resolution, which authorizes the appointment of a committee to appear before the Federal Reserve Board to personally enter opposition to the arrangement, was offered after the presentation of the report on the subject of the Association's Committee on Banking and Currency by its Chairman, W. M. Van Deusen, Cashier of the National Newark Banking Co. of Newark. According to Mr. Van Deusen's report, the

"arrangement will work a great injustice upon all banks north of Mercer, which have for years had close business re-lations with the banks of New York. It is manifestly a violation of that provision of the Federal Reserve Act which says that the districts shall be so arranged as to best serve the convenience of the banking members." The interlocking directorate bill now before Congress also came in for discussion at the meeting and a committee has been delegated to undertake a study of it-especially as to its provisions affecting banks. The recently enacted New Jersey bank stock tax Act similarly underwent criticism, and the law permitting trust companies to create branches likewise caused some agitation; the convention, however, instead of denouncing this legislation and taking action toward its repeal, as seemed likely when the meeting opened, confined itself to the adoption of a resolution calling for the appointment of a committee of twenty-one-a representative from each county-to consider the subject of branch banking and to reintroduce a substitute branch bank law if a referendum vote of the members of the association should approve such a course. The newly elected members of the association are President I. Snowden Haines, Cashier of the Mechanics' National Bank of Burlington, N. J.; Vice-President, Edward S. Pierson, President of the Greenville Banking & Trust Co. of Jersey City; Treasurer, John D. Everitt, President of the Orange National Bank, and Secretary (reelected), William J. Field, Secretary and Treasurer of the Commercial Trust Co. of New Jersey, at Jersey City.

A treatise on intestacy, wills, testamentary trusts, personal trusts, guardianship, executors, administrators, and the powers and functions of trust companies, &c., has been prepared by Charles H. Lovett of the New York bar. The pamphlet is issued under the caption "There are Reasons"; "Do You Know Why?" and is intended for free distribution by the various trust companies of the United States in connection with a proposed nation-wide, personal, "Educational Publicity Campaign." The suggestion is made that each trust company send a copy to every one of its depositors, and in furtherance of the idea to present the matter to each one individually. The cover bears the heading "In the Matter of the Estate of"—a blank space being left for the name of the one addressed. "There are reasons why you should not die without a will;" "There are reasons why you should make a will and make it now;" "There are reasons why you should not name an individual as your executor, trustee or guardian," are some of the titles under which the subject matter is presented.

Edward Earl, President of the National Nassau Bank of this eity, which was taken over by the Irving National Bank last week, has been elected a Vice-President of the Irving. N. D. Alling and A. W. Gilbart, respectively Vice-President and Cashier of the National Nassau Bank, have been appointed Assistant Cashiers of the Irving. The stockholders of the National Nassau Bank will hold a special meeting on June 16 to formally ratify the consolidation and take action toward placing their institution in voluntary liquidation.

Action on the question of increasing the capital of the State Bank of this city from \$1,000,000 to \$1,500,000 will be taken by the stockholders on June 2. The new issue is to be sold at \$150 per \$100 share.

Henry E. Hutchinson, formerly President of the Brooklyn Bank, of Brooklyn Borough, died on the Sth inst. in his seventy-seventh year. Mr. Hutchinson entered the Brooklyn Bank as Cashier in 1877 and was its President at the time it closed its doors in 1907; the bank, it will be recalled, was later reorganized but was placed in voluntary liquidation in 1911. From 1863 to 1867 Mr. Hutchinson was United States Assistant Assessor of Internal Revenue for the Fourth District of New York State.

A movement to consolidate the business of the First National Bank of Red Bank, N. J., with that of the Red Bank Trust Co. is under way. The matter is to be passed upon by the stockholders of the bank on May 23. It is understood that it is planned by the trust company to purchase all the assets of the bank, including the latter's building, the proceeds being divided pro rata among the bank's stockholders.

The Central City Trust Co. began business in Syracuse on May 1 with a capital and surplus of \$300,000 each. The first day's deposits were reported as \$265,000. The new institution is under the management of Louis Will, Chairman of the Board; George M. Barnes, President; W. Snowdon Smith, John S. Gray and Charles E. Chappell, Vice-Presidents, and L. D. Holmes, Secretary and Treasurer.

The rounding out of a half-century in the service of the First National Bank of Oxford by President John R. Van Wagenen is commemmorated by the issuance in the form of an engraved card of the following unique and commendable announcement:

announcement: Our Mr. J. R. Van Wagenen, having this day completed a half-century in the service of this bank, desires in this manner to express his thankfulness to a Kind Providence which has kept him in active service all these years (Assistant Cashier three years; Cashier twelve years; President thirty-five years), and to his surviving fellow-bankers of past years his hearty good wishes for their welfare and happiness. FIRST NATIONAL BANK.

Oxford, N. Y., May 12 1914.

The directors of the Aetna National Bank of Hartford, Conn., have elected as Assistant Cashiers Dudley W. Hubbard and E. M. Crampton. Mr. Hubbard has been with the bank since 1898, while Mr. Crampton entered its employ in 1905. Henry T. Holt was recently advanced from the post of Assistant Cashier to that of Cashier.

Charles A. Russell has been elected a director of the Union Trust Co. of Providence, R. I.

Edward H. Gleason, who was Assistant Cashier of the National Bank of Commerce of Boston at the time of its merger with the Merchants' National on May 4, has been made Vice-President of the latter. William R. Whittemore, Cashier of the Commerce, is an Assistant Cashier of the Merchants'.

The building which was formerly the home of the failed Tradesmen's Trust Company of Philadelphia was sold at auction on March 25 for \$400,000. The sale was ordered by Percy M. Chandler, receiver of the company. The institution closed its doors in September 1911. Two dividends— one of $37\frac{1}{2}\%$ and the other of $19\frac{1}{2}\%$ —have been paid to the depositors.

The Exchange Bank of Washington, D. C., began business on the 14th ult. with a capital of \$50,000. It is under the management of Robert L. Montague, President; Dr. M. F. Finley and Victor J. Evans, Vice-Presidents; Dr. Elmer Sothorn, Treasurer; John B. Flynn, Cashier, and William R. Nagel, Assistant Cashier.

P. W. Huntington has retired as President of the Huntington National Bank of Columbus and has been succeeded in the office by his son, F. R. Huntington, heretofore Vice-President. The elder Mr. Huntington, who has actively participated in the banking affairs of Columbus for over sixty years, will retain his connection with the management of the Huntington National as Chairman of the Board.

The creation of a bond department by the Ohio National Bank of Columbus was recently decided upon by the directors. Henry Deeg, First Assistant Cashier, has been chosen as manager of the new department. L. F. Kiesewetter, Vice-President and Cashier of the bank, has relinquished the cashiership, and Frank L. Stein, an Assistant Cashier, has been elected Cashier. Mr. Kiesewetter continues as First Vice-President.

The Peoples' State Bank of Detroit has arranged for the construction of an extension to its building, the increased area giving the institution one of the largest banking offices in the United States. The new section, which is to be completed by the spring of 1915, will be a low building made architecturally to conform to the design of the present classic structure. The main floor plans contemplate two broad public vistas extending from the main entrance on Fort Street to the entrance on Congress Street, each lined on both sides with the various departments of the bank with which the public transacts its business. The present building was completed in June 1900 as the home of the State Savings Bank, which was consolidated with the Peoples Savings Bank in 1907. The land on which the extension is to be erected

MAY 16 1914.]

has been leased for a ninety-nine year period. In line with the authority of the stockholders in January the People's State Bank on April 1 sold 5,000 new shares of stock at \$250 per share, raising the capital and surplus to \$2,000,000 each; \$50 per share of the premium was added to the undivided profits, which are now more than \$1,000,000. The deposits approximate \$40,000,000 while the total resources are in excess of \$45,000,000. The officers of the bank are George H. Russel, President; George E. Lawson, R. S. Mason, F. A. Schulte, and Burnham S. Colburn, Vice-Presidents; Austin E. Wing, Cashier; H. P. Borgman, Cashier of the Savings Department; R. W. Smylie, Manager of Credits and Audits; J. R. Bodde, Charles H. Ayres, Enoch Smith and R. T. Cudmore, Assistant Cashiers and George T. Courtney, Auditor.

A tentative agreement to lease for twenty-five years, at an annual rental of \$35,000, a part of the ground floor of the Monward Building, at Broadway and Olive Streets, St. Louis, has been entered into by the Boatmen's Bank of that city. The bank has been located in the Pierce Building, at Fourth and Pine Streets, since its own quarters were destroyed in the fire of March 9 last. If the lease is finally executed, it is expected that the name of the Monward Building will be changed to the Boatmen's Bank Building.

Plans for the reorganization of the Mercantile Bank of Memphis were consummated this week, with the opening on Monday of the new Mercantile National Bank, whose formation was undertaken a month or more ago. The new Under the institution has a paid-in capital of \$500,000. reorganization proceedings, it is understood, all depositors with accounts up to \$1,000 are paid in full at the outset, while 75% of their accounts are made available to the larger depositors who have discounted their claims to the extent of The directors are said to have contributed \$300,000 25%. toward the payment of the depositors, and it is understood that those who have supplied this sum have been released from any liability whatsoever to the Mercantile Bank. In the creation of the Mercantile National, the business of the Mississippi Valley Bank & Trust Co. (capital \$300,000) has been merged with the new bank. J. L. Hutton, who became State Superintendent of Banks in January, when the new bank law of the State went into effect, has taken an active part in the development of the reorganization plans, and resigned a few weeks ago as head of the Banking Department to take the presidency of the new bank. J. C. Ottinger, President of the Mississippi Valley Bank & Trust, is a Vice-President of the Mercantile National, the other officers of which are James F. Hunter, Vice-President; J. D. McDowell, Cash-ier; C. M. Norfleet, W. L. Huntley Jr, and W. H. Wilkes, As-sistant Cashiers. The Mercantile Bank closed its doors on Its former President, C. Hunter Raine, was arrested Feb. 9. on that date on a charge of embezzling \$788,804 of the bank's funds. There are now said to be eighteen indictments against him. He was released on a personal bond for \$25,000 on Apr. 27.

The People's Banking & Trust Co. of Macon, Ga., formed by the consolidation of the People's Bank & Trust Co. and the Tharpe & Hertz Realty Co., began business in new quarters on April 30 at 352 Second Street. The institution has a capital of \$100,000. Its officers are Lee M. Happ, President; Price E. Hertz, Louis A. Tharpe, and Charles E. Newton, Vice-Presidents, and William C. Miller, Secretary and Treasurer.

In the pamphlet report of the year's operations, the National Bank of Cuba (head office, Havana) for Dec. 31 1913 shows deposits of \$25,495,490 as compared with \$23,-714,339 on the same date in 1912, an increase of \$1,781,151, or 7.51%. The regular dividend of 8% per annum was paid, and the surplus was increased to \$1,300,000, leaving \$75,077 in undivided profits after having made ample provision for bad and doubtful accounts. The movement in eash at the head office during the year 1913 amounted to \$1,579,-685,000, or on an average of \$5,162,000 per banking day, as compared with \$1,493,639,000, or an average of \$4,895,000,-000 and in addition to its surplus of \$1,300,000, has undivided profits of \$275,077. Its resources on Dec. 31 1913 were \$40,551,442. The bank has thirty-six branches in Cuba, besides a New York agency. W. A. Merchant is President of the institution.

TRADE AND TRAFFIC MOVEMENTS.

UNFILLED ORDERS OF STEEL CORPORATION.— The United States Steel Corporation on Saturday, May 10, issued its regular monthly statement showing the unfilled orders on the books of the subsidiary corporations at the close of April. From this statement it appears that the aggregate of unfilled orders on April 30 was 4,277,068 tons, 376,757 tons less than on March 31 last and 5,040 less than on Dec. 31 1913, when the amount of orders outstanding was the smallest for over two years, or since Nov. 30 1911. In the following we give the comparisons with previous months.

	Tons.	Tons.	Tons.
	Apr. 30 19144,277,068	Jan. 31 1913 7,827,368	Sept. 30 19113.611.317

• The figures prior to Dec. 31 1907 are on the old hasis. Under the present method only orders received from sources outside of the company's own interests are shown. The amount as of Sept. 30 1904, shown above as 3,027,430 tons, the former basis, would, it is stated, be 2,434,736 tons on that now embloyed.

LAKE SUPERIOR IRON ORE SHIPMENTS.—The shipments of Lake Superior iron ore during April 1914 were 269,686 tons, against 866,387 tons in 1913, 204,042 tons in 1912 and 331,645 tons in 1911. Below we compare the movement from the various ports for April 1914 and three previous years:

	$1914. \\ 110,729$	$ \begin{array}{r} 1913 \\ 217,029 \end{array} $	$ 1912. \\ 80.530 $	1911. 93,532

The State Banking Department also furnishes weekly returns of the State banks and trust companies under its charge. These returns cover all the institutions of this class in the whole State, but the figures are compiled so as to distinguish between the results for New York City (Greater New York) and those for the rest of the State, as per following:

For definitions and rules under which the various Items are made up, see "Chronicle," V. 86, p. 316.

SUMMARY COVERING BOTH BANKS AND TRUST COMPANIES.

Circulation .- On the basis of averages, circulation of national banks in the Clearing House amounted to \$41,012,000 and according to actual figures was \$41,768,000.

THE CHRONICLE

The Banking Department also undertakes to present separate figures indicating the totals for the State banks and trust companies in the Greater New York, not in the Clearing-House. These figures are shown in the table below, as are also the results (both actual and average) for the Clearing-House banks and trust companies. In addition, we have combined each corresponding item in the two statements, thus affording an aggregate for the whole of the banks and trust companies in the Greater New York.

Wall Street, Friday Night, May 15 1914.

Wall Street, Friday Night, May 15 1914. The Money Market and Financial Situation.—Almost no other influence than the further kaleidoscopic develop-ments in Mexico have this week affected the security mar-kets. The latter remained in a decidedly passive state until news came of the capture of Tampico by the Consti-tutionalist army. This was regarded as an important step towards a settlement of the long-existing internal strife in Mexico and the probable elimination of the de facto Presi-dent of that unfortunate republic. The result was a sub-stantial increase in the volume of business at the Stock Ex-change and a corresponding advance in prices.

stantial increase in the volume of business at the Stock Ex-change and a corresponding advance in prices. Little attention was paid to the advance in foreign ex-change to $4.88\frac{1}{4}$, the highest price quoted in recent years, nor to the shipment of \$4,000,000 in gold to Paris and Berlin. Moreover, the statement showing that the number of idle freight ears on May 1 was nearly 229,000, as against less than 40,000 a year ago, passed almost without comment, as it simply confirms the reports of trade conditions from other sources

than 40,000 a year ago, passed almost without comment, as it simply confirms the reports of trade conditions from other sources. In the iron and steel industry a little more hopeful feeling is said to exist, chiefly because it is thought that any change must be for the better and that a change is about due. In some cases this feeling is so strong that idle equipment is being put in working order. Perhaps the wish in these cases is the chief or most tangible incentive to action. Crop news continues to be of the most favorable character. Spring-wheat acreage is nearly all seeded and the ground generally in excellent condition. Continental Europe is still seeking gold, although at some centers holdings of the metal are now relatively large. Paris took nearly all the \$3,500,000 received in London early in the week and the Bank of England reports a somewhat reduced amount on hand. With these conditions existing it seems likely that further demands on our resources will be made. The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from $1\frac{3}{4}$ (@2%). Friday's rates on call were $1\frac{3}{4}$ (@2%) Commercial paper on Friday quoted $3\frac{3}{4}$ (@4%) for sixty to ninety-day endorsements and prime four to six months' single names and $4\frac{1}{4}$ (@4 $\frac{3}{4}$ % for good single names. The Bank of England weekly statement on Thursday showed a decrease of 135,247 and the percentage of reserve to liabilities was 44.51, against 44.26 the week before. The rate of discount remains unchanged at 3%, as fixed Jan. 29. The Bank of France shows an increase of 13,486,000 frances gold and a decrease of 5,192,000 france silver. State and Railroad Bonds-Sales of State bonds at the Board include \$200,000 New York 41/28 at 109, \$7,000 N.Y.

Canal 4½s at 109, \$3,000 N. Y. 4s, 1962, at 102, and \$73,000 Virginia 6s deferred trust receipts at 60 to 61½. In the market for railway and industrial bonds activity has been limited to a few issues and fluctuations have gen-

has been limited to a few issues and fluctuations have gen-erally been within a narrow range. Rock Islands and South-ern Pacifics have been notably active, but in all cases net changes are fractional and to a higher level. Among the exceptional features, Missouri Pacific 4s were conspicuous for a decline of nearly 4 points. A part of this was recovered later, however, on a better outlook in the mat-ter of the company's financial needs. As evidence of the market's steady condition, 7 out of 25 active bonds close at the same level as last week.

United States Bonds.—Sales of Government bonds at the Board are limited to \$8,000 2s, coup., at 97% and \$5,000 2s, reg., at 97. For to-day's prices for all the different issues and for yearly range see third page following.

and for yearly range see third page following. Railroad and Miscellaneous Stocks.—In the shares department business has been on a limited scale throughout the week. It was exceptionally light and the tone steady during the first three days but on Thursday the market was decidedly more active and buoyant and these conditions, in a somewhat modified form, prevailed to-day. As a result of the week's operations, a considerable list of important stocks is from 2 to 4 points higher than last week. Chesapeake & Ohio, on limited transactions, is up 4 points. Missouri Pacific, which declined early in the week, shows a net gain of over a point. Consolidated Gas, on the other hand, moved irregularly and has declined 4 points. Mexican Petroleum has moved up 9 points on the occupation of Tampico by General Villa's army. Steel common has ad-vanced 3 points on a good demand. For daily volume of business see page 1523. The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

Investment and Kailroad Intelligence.

RAILROAD GROSS EARNINGS. The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including the latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. The returns of the electric railways are brought together separately on a subsequent page.

Net Earnings Monthly to Latest Dates.—In our "Rail-way Earnings" Section or Supplement, which accompanies to-day's issue of the "Chronicle", we give the March figures of earnings of all steam railroads which make it a practice to issue monthly returns or are required to do so by the Inter-State Commerce Commission. The reader is referred to that Supple-ment for jull details regarding the March results for all the separate companies. In the following we give all statements that have come in the present week covering a later or a different period from that to which the issue of the "Railway Earnings" Section is devoted. We also add the returns of the industrial com-panies received this week. <u>—Gross Earnings</u>—<u>Net Eerning</u>

ANNUAL REPORTS.

Annual Reports.—An index to annual reports of steam railroads, street railways and miscellaneous companies which have been published during the preceding month will be given on the last Saturday of each month. This index does not include reports in the issue of the "Chronicle" in which it is published. The latest index will be found in the issue of April 25. The next will appear in that of May 30.

Illinois Traction Co.

(Report for Fiscal Year ending Dec. 31 1913.)

The full text of the reoprt, together with the income account and balance sheet, will be found on a subsequent page. The usual comparative tables were given in the "Chronicle" last week on page 1457. See map of the system on page 26 of the "Electric Ry. Section."—V. 98, p. 1457.

New York Chicago & St. Louis RR.

(27th Annual Report-Year ended Dec. 31 1913.)

New York Chicago & St. Louis RR. (27th Annual Report—Year ended Dec. 31 1913.) Thes. William H. Canniff, Cleveland, says in substance: The gross revenue was \$12.342,000, an increase of \$115,763, or 0.95 c. The gross revenue was \$12.342,000, an increase of \$115,763, or 0.95 c. The dood in March and April. There have been practically no changes in the dood in March and April. There have been practically no changes in the dood in March and April. There have been practically no changes in the dood in March and April. There have been practically no changes in the dood in March and April. There have been practically no changes in the increased from 5.02 mills in 1912 to 5.14 mills in 1913. The ratio of operating expenses to the total revenues for the year being the dood in March and April. There have been practically no changes in the increased from 5.02 mills in 1912 to 5.14 mills in 1913. The ratio of operating expenses to the total revenues for the year being there increased \$217.295, maintenance of cultument increase of \$205.363, interessed \$217.295, maintenance of cultument increase of \$210,503, then the uncantity of new steel rati laid and of \$2,625 in number of new theory interessed \$126,733, of this amount \$60,970 was due to increase of \$2,620,363, in the reveal of increased waves. There were relief during the year 9 operatives and 600 cars of all classes, the yalus of which has been charged to thereto depreciation at the rate of 2% per annun has been accrude the theory of the increase in operating expenses is the to canses of four interesses were still of an interest in waves in the total structure, and by the increases were still on the rate of 2% per annun has been accrude there to depreciation at the rate of 2% per annun has been accrude there to depreciation at the rate of 2% per annun has been accrude the interest were still on the research of the increase in wave, and by the increases were still on the research of the increase in wave, and by the increases were still on the research of the increase in

American Beet Sugar Co., New York.

(Report for Fiscal Year ending March 31 1914.)

Pres. H. Rieman Duval, N. Y., April 30, wrote in subst .:

Pres. H. Rieman Duval, N. Y., April 30, wrote in subst.: Results.—The income account shows that receipts increased \$1,865,950 and expense increased \$2,121,193; receipts per bag decreased 46 ets., ex-pense per bag decreased 13 ets., net earnings per bag decreased 46 ets., ex-pense per bag decreased 13 ets., net earnings per bag decreased the expense of \$311,061 (which includes freight, brokense, discount, &c.) was due to the increased anount of sugar sold. Factory net receipts per bag in 1912; 13 were \$4 28; in 1913-14, \$3 84. Output, &c.—Ownard, Chino, Rocky Ford and Grand Ialand factories were operated, while Las Animas and Lamar were closed. There were were brought over from the last campaign 523,283 bars of sugar, compared with 134,265 bars form 1911-1912. There were sold 1,323 601 bags, as against 1,270,125 bags last year, and there are carried forward 511,644 bags. Beets in California were inferior in sugar content and purity to those of last year, and yielded only 338,50 lbs. of sugar per ton, as ngalanst 356,17 lbs. in 1912-13. In Colorado the yield was 292.57 lbs. of sugar to the ton,

Niagara Falls Power Co.

(Report for Fiscal Year ending Dec. 31 1913.)

(Report for Fiscal Year ending Dec. 31 1913.) The report signed by Edward A. Wiekes, President, and F. L. Lovelace, Secretary, says in substance: *Results*—The substantial increase shown in the combined operating reve-bles of the two generating companies was made possible mainly by (I) the combined of generating unit No. 7 in the Canadian plant; (2) the release, y expiration of the Burton law in March 1913, of restrictions expressly imposed by Congress on transmission into the United States of electricity generated in Canadia and (3) the substitution for the peak measurement of water diversion under the lineton law of the more practicable method indi-cated in Arthele Y of the International Waterways Treaty of determining the rate of daily diversion. A decrease in non operating revenues of the generating companies is due to find a Power Co. have stopped since the order made by the Public Service Commission, Second Dist., In April 1913, reducing by 28% the power or railway purposes. An appeal from this order is now pending: *Legislicon*—As in previous years various of the Gealing with Niagara di-version and, more or less drastically, with the rights of the operating power companies at Niagara Falls, have been introduced in Congress and in the

N. Y. Legislature. The Legislature has adjourned without enacting any bill upon the subject, and the bill of Mr. Cline of Indiana is still before the Foreign Affairs Committee of the House of Representatives.
 Tale of Interest in Calarace Power & Conduit Co.—Present conditions, we believe, call for the cousoidation of the two companies now distributing in that city Niagara power furnished by your generating companies. The Niagara Falls Power Co. so far as may be should refrain from engaging in the retail lighting and public distribution branch of the power business by means of corporations which it does not wholly own and control. Its normal function generally should be the production of power for industrial uses and its transmission in large amounts for distribution by others. In they of this, and of the opinion of the P. S. Commission, an agreement has been made for the sale to the Buffalo General Electric Co. (the lighting company in Buffalo) of the 10,050 shares (a majority) of the capital stoke of the Cataract Power & Conduit Co., owned by the Niagara Falls Power Co. for the sum of \$1,457,250 (\$145 per share), with interest on the purchase price from Dec. 1 1913 at 62 per annum, accepting in parment (a) \$1,05,-000 First Refunding 5% gold bonds of the purchaser, due April 1 1035, (b) in cash \$452,250 and interest; the bonds and the money to be lodged with the trutce under the last M. In lieu of the stoke rolesaed therefrom. Before such sale and the general the sale so the cataract Power & Conduit Co. acceeding to sea sale and the general therefrom.
 Media bedraft become effective (1) the sale must be approved by the biolders of a majority in interest; of our starsholders; (2) a supplemental mortgage will be exceuted by the Cataract Power & Conduit Co. acceeding to sea sale and interest; the consent of the P. & Conduit Co. activity and (3) the Buffalo general Electric Co. Will for 30 days purchase all or any price and in like mannel; (4) the consent of the P. & Conduit Co

(Seventh Annual Report-Year ended Dec. 31 1913.)

Pres. S. W. Eccles, N. Y., Apr. 3, wrote in substance:

HTes. S. W. Leccles, N. 1., Apr. 5, Wr016 in Substance:
Higher Costs.—While the results for the year are very satisfactory, it is proper to call attention to the higher cost of producing copper, viz. 9, 51 cfs. per lb. of electrolytic refined copper f.o.b. Atlancic seaboard, as compared with 8,33 cfs. for 1912, a difference of 1.13 cfs., due chiefly to—

(a) Larger proportion of pit tonnage takkon from the Liberty-Hecka area (47%, against 21%, in 1912), the cost of removing overburden per ton of ore being 22 cfs. at Liberty and 30 cfs. at Hecka, as against 15 cfs. at the Eurola pit.
(b) The lower ratio of concentration of the Liberty-Hecka area, processary to smelt more tons of concentrates for the same tonnage of ore.

Rubber Goods Mfg. Co., New York.

(Fifteenth Annual Report-Year ending Dec. 31 1913.)

President Elisha S. Williams April 9 wrote in substance: President Elisha S. Williams April 9 wrote in substance: The fiscal year 1913 witnessed a very large decline in prices. This, of course, reduces the value of the goods sold. The quantity of goods sold compares very favorably with previous years. The total net sales of our product were \$35,640,365 (the tire sales included in this total not being the deliveries of the factories to the United States The Co., but a proportion of the United States The Co's actual sales based on the deliveries). The net profits were less than in 1912, due to the declining market and a very sharp reduction in the prices. As our tire-manufacturing subsidiaries required a larger amount of working capital, 6% pref. stock of certain the companies was issued during the year to an amount aggregating \$1,300,000, the same being subscribed for by the United States Rubber Co. (see V. 98, p. 77). The net argement of the Morgan & Wright tire plant at Detroit is nearing completion and its capacity is steadily increasing. (See also annual report of U. S. Rubber Co., the owner of most of the cap. stk., in V. 98, p. 758.)

Baltimore & Ohio RR. — Notes Sold. — Kuhn, Loeb & Co. and Speyer & Co. announced yesterday that an issue of \$35,000,000 one-year 4½% secured gold notes due June 1 1915, offered by them at par and int., had been largely oversubscribed. Interest J. & D. Trustee U. S. Mtge, & Trust Co. Denominations \$1,000 and \$5,000. These notes are to be secured by pledge of the following collateral (face value):
B. & O. Chicago Term. RR. 1st Gold 4% bonds, due Apr. 1 1960\$32,000,000 Reading Company frest preferred stock. 4,000,000 do do second preferred stock. 4,000,000 do do common stock. 4,000,000 with privilege of substitution under the limitations to be stated in the trust indenture. As to \$20,000,000 collat. notes to be paid July 1, see V. 96, p. 1700.

General Financial Plan,-President Daniel Willard yes-terday made the following statement:

General Financial Plan,—President Daniel Willard yesterday made the following statement: The present offered the most favorable opportunity to provide for the retirement of the maturing notes finchiding \$20,000,000 one-year 57, secured gold notes due July 1 1914 and for current requirements, and the arrangement of the completion of improvements now under way, and some additional facilities which, while not extensive, are urgenity demanded. The issue of \$35,000,000 notes provided for all present requirements, and the arrangement is made for one year only for the reason that the company has in preparation a bread financial plan which, it is believed, will effectively care for the company's requirements in the future.
This plan will probably take the form of a general mortgage, combining in a single indenture all of the properties of the system, including the company's Chicago and New York terminals and in addition to providing for existing indebtedness, will make ample provision for additions to roord and facilities which the unification of its various properties. The company recently took over the direct ownership of all of its lines in West Virginia. And has combined the principal properties in Pennsylvania in a single company known as the Baltimore & Ohio RR. Co. in Pennsylvania. The sepected that these arrangements will have been completed in the near future and be was therefore deemed hadvisable at this time to arrange for additions and onces provides for the payment of \$20,000,000 of notes may be additioned to addition of the completion of the company tree deemed in advisable at this time to arrange for the mean site Baltimer & School 000 of two additional tracks between the distances provides for the completion of the company has for addition thereby completing a four-track system between Cherry Run and yield of the first state of the completion of the first state of the company is a distance of 17 miles, on the company is a single company has the Baltimer & School 000 of two additional tracks be

Bay State Street Ry., Boston.—Bonds Offered.—Wm. A. Read & Co. offered publicly on May 14, at 89 and int., to net 4.60%, the unsold portions of \$760,000 Old Colony

Street Ry, and \$285,000 Boston & Northern Street Ry, Co.

Street Ry. and \$285,000 Boston & Northern Street Ry. Co. 1st M. refunding gold 4s due July 1954. Interest in Boston J. & J. The bankers say in substance: Legal investment for savings banks in Mass., N. H., R. I. and Me., and for life insurance companies in Mass., N. Y. and Conn. Direct obligations of the Bay State Street Ry. Co. secured by first and ref. M. liens and fol-lowed by outstanding issues as follows: \$1,975,000 5% debentures, \$2,748,-600 6% cum. first pref. stock and \$20,517,200 common stock. For the year ended June 30 1913 the company reported net earnings after payment of all operating expenses and taxes of considerably over twice ond interest, and a balance over prior lien interest equal to more than four times the accrued interest on both issues of First M. Ref. 4s above named.--V. 98, p. 1391, 1468. Birmingham (Ala.) Bailway, Light & Power Co.--

of a joint conference. Ed. 1 V. 98. p. 1458, 1315. Boston & Maine RR. — Financial Plan — Proposition to Notcholders. — Holders of the \$27,000,000 6% notes due June 1 are asked by the company to notify the Old Colony Trust Co., Boston, by 3 p. m. May 25, which of the following alternative propositions they desire to accept: 1. Any holder may extend full amount until Mar. 2 1015, with interest at 6%, or 2. Any holder may extend 60% as above and receive in exchange for remaining 40% at par 5-year 5% notes of Maine Rallways Co., due April 1 1919 (V. 98, p. 912, 1245).

at 6%, or
2. Any holder may extend 60% as above and receive in exchange for remaining 40% at par 5-year 5% notes of Maine Railways Co., due April 1 1919 (V. 96, p. 912, 1245).
Extracts from Official Statement About to be Sent to Noteholders. To put the company's affairs on a stable basis and provide for future capital requirements, the companies comprising the system should be for future and the right acquired under proper conditions to issue pref. stock and a mortgage on the combined property securing all outstanding bonds and notes and notes. Dut give due recommition to the shares of the leased companies, time is needed to work out a plan and to apply for legislation permitting issue of pref. stock and mortgage bonds.
T such reorganization is accomplished, it is necessary that substantially all the Boston & Maine notes, amounting to 227,000,000, should be extended or exchanged for new notes. The company therefore makes these alternative propositions to holders of its notes.
A rardul study of the present financial and physicial condition and future modes made for the board by Harry 1. Miller shows the propert its generally in good physicial condition: that the decline in net has been due partly to the decrease in gross, out chiefly to the large increase during the last for the board by Harry 1. Miller shows the property is generally to be determine and safety of the probabile, but without adding to revenues; that while certain economies may be possible, company must have and is pustled to higher rates to cam a fair return on actual cest of the properties that while certain stable of provements. A quarterial and burget charges increase during the last for the sentermative properties: that disinternation of the system would be disavantageous not only to holders of securities but to the public. -V. 98, p. 1243.
Bristol & Plainville (Conn.) Tramway Co.—*Slock*.— The report is confirmed that the directors have recommended an increase in capital stock from \$375,0

Canadian Pacific Ry.—New Director.—A. M. Nanton of Osler, Hammond & Nanton of Winnipeg, has been elected a director to succeed the late Sir William Whyte. The

vacancy created by the death of Lord Strathcona remains unfilled.—V. 98, p. 1155, 911.

unfilled.—V. 98, p. 1155, 911. Chesapeake & Ohio Ry.—Appeal.—The company and the Lake Shore & Michigan Southern Ry. have appealed to the U. S. Supreme Court from that part of the decree entered by the U. S. District Court in March last which ordered the C. & O. to dispose of its half interest in the majority stock of the Kanawha & Michigan or to other purchasers satis-factory to the Court. The C. & O. and Hocking Valley will not, however, appeal from that part of the decree ordering the latter company to dispose of the Sunday Creek Co. The Court has granted an extension to Oct. 15 to effect a sale of the Sunday Creek Co. stock. Compare V. 98, p. 911, S38. Sale Arranged Subject to Approval of Court—Extension.— The following announcement (in substance) was made on Thursday:

The following announcement (in Substance) was made on Thursday: The directors approved an agreement to sell to Lake Shore interests 40,392 shares of Kanawha & Michigan Ry, stock at par. The stock was purchased in 1910 at \$72 a share, all except a few shares being pledged under the C. & O. first lien and improvement M. , under the terms of which the proceeds, including the profit on the transaction, are to be used to purchase other property or securities, or for additions or betterments. The state is made to couply with the decree of the U. S. District Courf in the anti-trust suit brought by the Government. If the sale is approved by the Court, the appeal taken from the decision will be dismissed. The C. & O. now contemplates building a line from a point near South Portsmouth, Ky., to Columbus, O. [93 miles—Ed.] to obtain the most statisfactory connections with the Hocking Valley and provide for the preat increase of coal traffic west of Charleston, W. Va., now in sight, Vice-President Capples, who is in charge of the matter, is expected to make a report by June 1—Ed.]—V. 98, p. 911, S38. Chicago Elevated Rys.—Notes, & c.—No authoritative

a report by June 1-Ed.J-V. 98, p. 911, 838. **Chicago Elevated Rys.**—*Noles*, &c.—No authoritative statement is obtainable regarding the plans for retiring the \$30,000,000 collateral gold notes due July 1 1914, but current rumors point to a possible sale of \$12,500,000 Northwestern Elevated 1st M. bonds along with the 2-year notes and 10-year debentures of the Chicago Elevated Rys.

Elevated 1st M. bonds along with the 2-year notes and 10-year debentures of the Chicago Elevated Rys. As the project for uniting under one control the elevated railways and the surface roads of Chicago has not been carried out, the Commonwealth Edison Co., it is expected, will on or before July 1 purchase from the syn-dicate which underwrote the pref. shares 20,000 shares of Chicago Elevated Rys. common stock for \$6,000,000, in accordance with the terms of an arreement said to have been entered into in 1911. The syndicate, it is understood, will be extended until July 1 1915.-V. 97, p. 1425. **Chicago Rock Island & Pacific RR.**-Conclusions of *Mr. E. W. McKenna's Report to the Protective Committee of Holders of Collateral Trust* 4% Gold Bonds of 2002, -The con-elusions of Expert McKenna, given out May 9, are in subst.: If the sum of approximately \$65,000.006 is applied, as per tabulation palae the property in such physical condition as to secure a great propor-tion of the traffic of the country it serves. The property will be excured which should be retired; possibly 4,000 of these cars will be found to be in such condition that their fife can be ex-emed for from two to five years. This would mean a retirement of 16,000 cars. The present cost per car for the first years should not exceed s25 per car per year. In the tabulation of prospective capital require-ments, which contemplates about \$37,000,000 that 5,000 new cars would produce an efficiency of equipment at least 50% greater than the cars retired, and the maintenance cost of these new cars for the first five years should not exceed s25 per car per year. In the tabulation of prospective capital require-ments, which contemplates about \$37,000,000 there is an estimated saving in operation of \$4,400,000 per annum. It is assumed further that the high years condition of the railway and its equipment would produce an increase of revenue over existing conditions of at least \$5,000,000 per annum. It is assumed further that the furpro-tery on its maintenan

Mr. McKenna's Supplemental Memorandium of May 8 1914, after Con-ference with Mr. Schumacher and Mr. Mudge of C. R. I. & P. Ry. A farther study of the estimate of "prospective capital requirements" and expenditures for "deterrod maintemance" has been made, and the fol-lowing program, which does not call for as great a sum of money, is herewith

 presented. In respect to "prospective capital requirements." the only safe suggestion that is apparent would be to estimate the expenditures upon a three, instead of a five-year basis.

 In respect to the expenditures for "deferred maintenance," the prospects of the property are materially enhanced since the original estimate was made. At the time this estimate was prepared, the crop prospects were excellent; in the intervening period these prospects, due to fideal weather conditions, are practically assured, and at this writing it seems certain that an unusual crop will be garacted in the Southwestern territory covered by the Rock island lines. Localized prosperity, due to these conditions, produces faither presumption that the rallway company should have increased net income for the ensuing fiscal year approximating \$2,000,000.

 The important items in "deferred maintenance" are "maintenance of equipment," "cross-ties," and "deferred maintenance" are "maintenance of affect the safety of the operation of the property. The minimum that should be applied to these three items in the next fiscal year is \$3,380,000.

 The application of the money previously paid in dividends on the stock of the operation of the provide this amount, and if the increase of net income. Just only the company. If ordinary conditions, of \$2,000,000 per amount, is realized, this latter sum could be application of capital to fixe application of capital the first year, and 75% of the "deferred maintenance" and would apply in the same relation to that year, and 75% of the "deferred maintenance" and would apply in the island year is \$3,000,000.

 The amplication of the tradice and the store of additions of capital to a faiter year is \$3,000,000.

 Prospective Capital Requirements.

 The same relation to that year, and 75% o

Total \$31,000,000 This study of the question does not represent any departure from my provious estimate of \$41,000,000 for "prospective capital requirements," and in order to seeme the results predicated in my report, it will be neces-sary in the two years following to provide the balance of the sum of capital hereinbefore written.

As to plan see Rock Island Co. below.—V. 98, p. 1459.

As to plan see Rock Island Co. below.—V. 98, p. 1459. Chicago & North Western Ry.—Bonds.—The \$8,054,-000 general M. 4% gold bonds due Nov. 1 1987, which have been placed privately by Kuhn, Loeb & Co. at 9414 and int. (V. 98, p. 1459), are part of an authorized issue limited to \$165,000,000, of which there are outstanding \$30,827,000 314% bonds and \$30,554,000 4% bonds, including those now offered. date of payment of tax. Digest of Letter from H. M. Atkinson. Atlanta, April 30 1914. Organization — Incorporated in 1911 and has acquired various water-power properties in Northeastern Georgia, and has constructed and op-rates in connection therewilk street and interurban railway lines; also has leased for 999 years the Georgia Railway & Electric Co.. which company controls all the street railway, electric light, power and gas business of the city of Atlanta and Fulton County, Ga. During the year 1913 we oper-ated 212 miles of electric railway. Produced a gas output amounting to SSS,011,048 cu. ft. and distributed electric current of 80.547.605 k. w. h.

Childred and states fulled County, G.A., During the year 1013 we often and fulles of the city of All and states builts and produced a gas output annomiting to use of the city of All and states builts and electric current of 80,547,605 k. w. h. *Capitalisation*. *Capitalisation*. *Solution*. *Solution*.

Georgia Railway & Power Co., and until April 1 1914 we received no earn-ings from this development. The surplus earnings of the company for the year ending April 1 1914, after payment of all interest charges, rentals, taxes, &c., amounted to \$660,000; in other words, the surplus revenue without any earnings of the Tallulah Falls development is to-day under full operation, and, based on signed contracts, business in sight and actual busi-ness now being delivered, the aforesaid engineers is statud busi-payment of the company will show not carnings of \$1,090,946 applicable to interest charges of \$163,250 on the present outstanding Pirst and Refunding M. 5% bonds, leaving a surplus of \$607,696. General-Adanta is now one of the most presperous and flourishing dries in the country. Its population inside the corporate limits increased from \$9,872 in 1900 to 154,839 in 1910, and is now estimated to be in access of 175,000, while its real population inside and outside the corporate limits is probably over 225,000. The United Gas Improvement Co. of Phila-delphia has a very considerable interest in both the Gropsia Railway & Electric Co. and the Georgia Railway & Power Co. and has a represent-tion on the board. See annual report, V. 98, p. 757, 1459. Georgia & Florida Ry.-Wang Increase.—The arbitra-

Georgia & Florida Ry.—Wage Increase.—The arbitra-tion board selected some weeks ago to adjust the differences with the engineers and firemen over the question of rules and increase in wages rendered their report on May 9 substan-tially granting the demands of the men.

tially granting the demands of the men. The board declined to consider the inability of the road to meet its op-erating corpenses, saying: "The employees have the first claim on the earn-ing of a road for a reasonable ware to be determined not by the financial condition of the company but by the rates pial by other roads in the same section of the country for line services. Respecting the wages of employees we see no difference in principle between the inability of a road to meet its operating expenses and its inability to pay dividends on its stock and interest on its indebtedness. In either event, as above stated, the em-ployees, for the services they render, have the first claim on the earnings for a reasonable and just compensation." — V. 98, p. 155.

Great Northern Ry.—Decision.—'The U. S. Supreme Court on Monday dismissed the appeal of the company from a conviction for violation of the Federal "hours of service" Act in Idaho.

Act in Idaho. A fine was imposed for violation of the Act by keeping a locomotive fire-man on duty more than 16 hours. The fireman, after being on duty 15 hours and 59 minutes, was left to guard a train that had been sidetracked. The company claimed that the practical management required firement to stay on duty until another crew arrived .— Y. 98, p. 1071, 763.

New York New Haven & Hartford RR.—Sale of Notes.—J. P. Morgan & Co., First National Bank and National City Bank, New York, and Kidder, Peabody & Co., Boston, and Lee, Higginson & Co., Boston, offered on May 8 \$50,-000,000 ecoupon notes of the several issues described in the "Chroniele" of May 2, p. 1393. The notes are all dated May 1 1914 and all in denomination of \$1,000, \$5,000 and \$10,000, with both principal and interest (M. & N.) payable in N. Y. City or Boston. See advt, on another page. The company's \$45,000,000 for one for the several issues described in the "Chroniele" of May 2, p. 1393. The notes are all dated May 1 1914 and all in denomination of \$1,000, \$5,000 and \$10,000, with both principal and interest (M. & N.) payable in N. Y. City or Boston. See advt, on another page. The company's \$45,000,000 for one of on and atter May 18 1914, will be taken at par and the to maturity in payment for the bove-mentioned notes, or on and atter May 18 1914 and the demonster May 18 1914 will be paid at the temporary office of J. P. Morgan & Co. at 15 Broad St., New York, or at the Od Oolony

Supervised by the price of the second sec

ford R.R. Co., to have a value of at least \$20,000,000 for purposes of collateral. See also V. 98, p. 1393, 1460.
 New York Railways Co.—Suit Under Adjustment Mtge.— The New York Life Insurance Co., as owner of \$1,000,000 of the adjustment income bonds, has requested the Farmers' Loan & Trust Co. to bring suit to compel payment of the full 5% interest on the bonds since Jan. I 1912, which it claims has been earned. In case the trustee does not comply, the insurance company intends to institute a suit in behalf of itself and all other bondholders for appropriate relief.—V. 98, p. 690, 1072.
 New York Westchester & Boston RR.—Purchase.— Charles S. Mellen in his testimony before the I.-S. C. Commission on May 14 stated that in 1908-09, when the N. Y. N. H. & Hartford was acquering this property, the directors of that company placed in his hands 5,000 shares of New Haven stock to be given by him in exchange for the minority shares, one of New Haven for three of Westchester, and that he recent of which are saill outstanding) being redeemable on presentation of the waven shares, but not to exceed \$150 per share therefor.—V.97, p.1827.
 Norfolk Southern RR.—New President.—Joseph H. Young, who has in the past been connected with the Hill lines, has been elected President and Gen. Mgr. to succeed Charles H. Hix, who resigned.—V. 98, p. 1072, 1000.

Charles H. Hix, who resigned.—V. 9S, p. 1072, 1000.
Omaha (Neb.) & Council Bluffs Street Ry.—Decision.
—District Judge Sears on May 12 granted a temporary injunction restraining the enforcement of the city ordinance providing for 7 fares for 25 ets., pending the trial of the suit, on the ground that it appears from the papers submitted that the rate would be confiscatory.
The company was ordered to give a surety bond for \$100,000 to take care of any claims that may be made should the ordinance be finally upheld in the supreme Court.
The ordinance was adopted by the Clip Council and approved by the electors at a referendum on April 10 last by a vote of 4,709 in favor and 3,910 against, only a small proportion of the voters casting a ballot.— V. 98, p. 237, 156.

Pere Marquette RR.—Adjournment.—The hearing on the application to issue \$12,000,000 receivers' certificates has been postponed from May 16 to May 25, because of the ab-sence from Detroit of Judge Tuttle on other court business. V. 98, p. 1460, 1393.

sence from Detroit of Judge Tuttle on other court business.
 V. 98, p. 1460, 1393.

 Standard, Shawmut RR. Consists of 90.11 miles of main line with its northern terminus at Brockwayville in Western Pennsylvania and 125.18 miles of track, newly constructed on highest modern standard. Of this mileage, 16 miles of main line from Richamburg to Freeport, the southern terminus, will be completed in the near future, connecting with the pennsylvania RR. Also owns entire cap. stock of Allegheny River Mining Co. and a very large percentage of the bonded debt of Pittsburgh Shawmut & Northern RR.
 The investment of the Pittsburgh & Shawmut RR. Co. to-day represents an amount very largely in excess of the total face value of all its obligations. The Allegheny River Mining Co. owns either in fee or the coal rights on 23,000 acres of bituminous coal continuous to the lines of the Pittsburgh & Shawmut RR. On which there are mine developments with a present daily output of 6,500 tons, which is shortly to be increased to over 11,000 tons. Mr. d'Invillers estimates these lands to contain 190,000,000 net tons of recoverable coal and piaces the value of the proceeds of the proceeds of the present instantion to spend over \$30,000 on additional developments to this property. Verturating value of 6650,000 at \$33,000,000.
 Mr. d'Invillers estimates these lands to contain 190,000,000 net tons of recoverable coal and piaces they alue of the present intention to spend over \$30,000 or 36,800,000 or 45,800,000 or 1425.
 Pittsburgh Youungstown & Ashtabula Rv. Rande

Pittsburgh Youngstown & Ashtabula Ry.—Bonds Authorized.—The Ohio P. U. Commission on May I author-ized the company to issue \$510,000 4% 40-year bonds, to be sold at not less than par, to reimburse the lessee, the Penn-sylvania Co., for improvements.—V. 97, p. 729.

\$1.187,500, against \$4 25 (\$1.062,500) in 1912.-V. 98, p. 1317, 1246. Rock Island Co.—Financial Plan.—The stockholders' committee (Wm. A. Read, Chairman) expects shortly to complete a tentative plan for reorganizing the Chicago Rock Island & Pacific Ry. The plan will be submitted to the Wallace committee representing the C. R. I. & P. Railroad collateral trust bondholders, and if an agreement between the two committees is reached efforts will be made to put the plan into affect

two committees is reached choice with 5c made to put the plan into effect. The stockholders' committee has decided that to put the railway on a self-supporting basis it will be necessary to raise at the outset \$30,000,000. To provide this amount an assessment of \$10 a share on Rock Island Co. common and pref. stock and of 20%, or \$200 a bond, on the collateral trust bonds has been suggested, making the amount to be supplied by each class of security holders the same. Interests connected with the reorgani-zation this week declined to discuss these figures. See Chicago Rock Island & Pacific RR, above. V. 98, p. 913, 691.

& Pacific RR. above.--V. 95. p. 913, 691. St. Louis & San Francisco RR.--2-Year 6% Notes--Final Call.--The committee of 2-year 6% gold notes due Sept. 1 1914, Henry E. Cooper, Chairman, gives notice that 85% of those \$2,600,000 notes has already been deposited and that the holders of the remaining notes who wish to share in the value of the collateral after acquisition theroof must deposit their notes at once with the Eq. Tr. Co., N.Y. June 15 1914 is set as the final date for the receipt of the notes. On all notes received after that date and before the date of the reduction of the collateral to possession a penalty of \$10 per note will be imposed. New Collage Receipt of the procession of the procession of the procession of the penalty of \$10 per note will be imposed.

New Orleans Texas & Mexico 1st M. Div. Bonds.—The pro-tective committee for this issue has received deposits of slightly more than 90% of the \$23,580,000 bonds outstand-ing in the United States. Further deposits are subject to a penalty of \$10 per bond. See V. 98, p. 1461.

San Pedro Los Angeles & Salt Lake RR.—Application. —The company has applied to the Cal. RR. Commission for authority to issue \$861,000 1st M. bonds, to be sold for not less than 90.—V. 97, p. 177.

Southern Pacific Co.—Bonds Sold.—The syndicate headed by Kuhn, Loeb & Co., who underwrote the \$55,-000,000 5% 20-year convertible bond issue has placed pri-vately the bonds not taken by stockholders, amounting to about \$16,000,000.—V. 98, p. 1394, 1158.

about \$10,000,000.-V. 98, p. 1394, 1158.
 Tacoma (Wash.) Railway & Power Co.-Decision. The Washington Supreme Court on May 7 affirmed the decision of the Pierce County Supreior Court holding that the City of Tacoma has the right to selze and take over the company's lines, poles and equipment. furnishing power and light to the Northern Pacific Ry. depot and shops in South Tacoma. The company ignored notices canceling its special permit for such service in April 1913. The Supreme Court holds that the limitation was not abrogated by the State P. S. Commission Law, and that the dispute over furnishing power for the Northern Pacific Ry. amply justified the city in canceling the franchise and seizing the property. The Tacoma city charter provides that no franchises may be granted to any company for then the city is in a position to do so, although special franchises may be granted for sections the municipal plants cannot reach.-V. 90, p. 1678.
 Toronto Hamilton & Buffalo By.-Earnings.-

The total profit and loss surplus Dec. 31 [1913, after deducting sundry items aggregating (net) \$55,084, was \$833,073.-V. 97, p. 883. **Union Pacific RR.**—Appeal Allowed.—The Appellate Division of the Supreme Court has made an order granting permission to the Equitable Life Assurance Society to appeal to the Court of Appeals from the decision of the Appellate Division denying the motion to enjoin the company from distributing the extra dividend which was declared on Jan. S last, payable in Baltimore & Ohio stock and cash (\$3 per sh.). Compare V. 98, p. 1394. Joseph T. McCaddon, who on Jan. 8 brought suit to enjoin the distribution the extra dividend to holders of Union Pacific common stock on the ground that it ignored the rights of the preferred stockholders, has addressed at last is not affected by the decision in the Equitable Life suit. "As the complaint in the Equitable suit does not charge all the facts as the complaint in the exist." *Quarterly Dividend* 2%.—The executive committee on Thursday recommended the declaration of a quarterly dividend of 2% on the common stock, payable July 1 to holders of record June 1. A special meeting of the board will be called as soon as convenient. Compare V. 98, p. 1246.—V. 98, p. 1394, 1246.

V. 98, p. 1394, 1246.
United Railways Investment Co.—Readjustment Committee.—The following committee has been chosen in accordance with the vote of the shareholders on May I for the purpose either of carrying out the plan suggested by the company (V. 98, p. 1170) or of modifying the same:
Henry Ahmstedt, Charles H. Bean, Henry J. Bowdoin, James D. Caldry, Frank R. Ford, Sidney H. March, F. S. Smithers, M. B. Starring and Edwards Whitaker. Messrs. Starring, Bowdoin, Callery and Smitheers are directors of the company.—V. 98, p. 1394.
Virginian Ry.—Listed.—The New York Stock Exchange has listed \$2,000,000 additional 1st M. 50-year 5% bonds, series A, due 1962, which were recently sold (V. 98, p. 454), making the total amount listed \$27,000,000.

making the total amount listed \$27,000,000.
 Of the bonds, \$1,000,000 were issued as a "working fund" and the remaining \$1,000,000 for 75% of the actual cost of equipment (12 locomover, 10,000 for 75% of the actual cost of equipment (12 locomover, 10,000 for 75% of the actual cost of equipment (12 locomover, 10,000 for 75% of the actual cost of equipment (12 locomover, 10,000 for 75% of the actual cost of equipment (12 locomover, 10,000 for 75% of the actual cost of equipment (12 locomover, 10,000 for 75% of the actual cost of equipment (12 locomover, 10,000 for 75% of the actual cost of equipment (12 locomover, 10,000 for 75% of the actual cost of equipment (12 locomover, 10,000 for 75% of the actual cost of equipment (12 locomover, 10,000 for 75% of the actual cost of equipment (12 locomover, 10,000 for 75% of the actual cost of equipment (12 locomover, 10,000 for 75% of the actual cost of equipment (12 locomover, 10,000 for 75% of the actual cost of equipment (12 locomover, 10,000 for 75% of the actual cost of equipment (12 locomover, 10,000 for 75% of the actual cost of equipment (12 locomover, 10,000 for 75% of the actual cost of equipment (12 locomover, 10,000 for 75% of the actual cost of actual cost

States may join, will, it is reported, take place on May 21, having been postponed to give time for some changes in the plan and in the method of presenting it to the Commis-sion.—V. 98, p. 1394, 1158.

Washington Utilities Co.—Notes.—The Fidelity Trust Co. of Baltimore is offering, on a 614% basis, \$1,500,000 one-year 5% collateral trust notes dated May 1 1914, secured by pledge of \$2,750,000 common stock of Washington Railway & Electric Co.

Dividends on its stock are to be limited during the life of the notes to 2%year. The earnings of the Washington Utilities Co. applicable to the ites are stated at about three times the interest charge on the issue.— . 98, p. 691.

Washington Water Power Co.—Buys Transmission Lines.—The company has recently purchased the power transmission system of the Lewiston-Clarkston Improve-ment Co. (V. 90, p. 1174) from Leon Station, Nez Perce County, Idaho, connecting the systems at Moscow, Pullman, Uniontown, Genesee and Colton, which were acquired last year by the Power company. The (from) generating plant of the Lewiston people will continue to

year by the Power company. The (steam) generating plant of the Lewiston people will continue to furnish power for these local systems until the Power Co. can complete its extensions into the certitory, probably June 1. Surveys have been made to Troy, Kendrick and Julietta, and it is likely that a line will be built into that territory. Arrangements have been made with the Lewiston-Clarkston interests whereby power is interchanged. The large new power plant which the company is rapidly completing at Long Lake is expected to be finished before this year.—V. 98, p. 605, 454. Wilkes-Barre (Pa.) & Hazleton RR.—Interest Not Paid. —Funding Plan.—The interest due May 15 on the \$1,900,000 collateral trust 5% bonds due May 15 will not be paid by the Guaranty Trust Co. In lieu of paying the interest, the com-pany is asking the bondholders to surrender their coupons due May 15 1914 to Nov. 15 1916 inclusive.

due May 15 1914 to Nov. 15 1916 inclusive. In return, the company will issue non-interest-bearing cartificates for the coupons when they become due. The company has issued a circular to bondholders asking them to accede to the plan, and a number have al-ready expressed their acceptance.—V. 87, p. 679.

INDUSTRIAL, GAS AND MISCELLANEOUS.

American Gas & Electric Co.—Stock Increase.— The stockholders will vote June 3 on increasing the \$3,500,000 common Notice of the meeting will be mailed to the stockholders at par, or \$50 a share. V. 97, p. 1585.

V. 97, p. 1585. American Ice Co.—Compensation Law Valid.— According to newspaper dispatches, the U. S. Supreme Court on May 11, in a suit brought on account of the death of an employee killed by an ice-cuting machine, sustained the validity of the Pennsylvania factory Act, which makes industrial plants liable for injuries due to machinery not properly equipped with safety guards and regardless of negligence. The question came up on an appeal by the American Ice Co. of Philadelphia from a judgment for \$2,000.—V. 98, p. 602, 68.

From a judgment for \$2,000.— Y. 98, p. 692, 08.
American Lace Mfg. Co., Elyria, O.—Stock Dividend.— The company paid on May 1 a stock dividend of 10% on its \$437,000 stock; total authorized issue \$500,000. An initial cash dividend of 1% was recently paid and the company expects to pay a similar dividend in July putting the stock on an 8% basis. A. B. Taylor of Elyria is Treasure and Victor Sincero of Cleveland is a director.

Victor Sincero of Cleveland is a director.
 American Water Works & Electric Co. — Officers Elected. This company, formed under reorganization plan of Amer. Water Works & Guar. Co. to take over some of its properties, has elected the following officers: President, II. Hobart Porter of Sanderson & Portur Vice-Press. and Treas., Stuart II. Patterson: Asst. to Press. J. H. Purdy; Secretary, Harry E. Towlo. — V. 98, p. 1395.
 Ansco (Camera) Co., Rochester, N. Y. — Mitg. Satisfied-The company has filed in the County Clerk's office, Rochester, a cer-tificate of satisfaction of the mortgage for \$500,000 to the Empire Trast Co., dated Oct. 1 1907. Compare V. 98, p. 1159.

Quarterly Dividend 2^{1}_{2} %.—A quarterly dividend of 2^{1}_{2} % has been declared on the \$1,000,000 common stock, payable July 1 to stockholders of record June 19. See advertisement on another page. Compare V. 98, p. 1159, 1002.

July 1 to stockholders of record June 19. See advertisement on another page. Compare V. 98, p. 1159, 1002.
Astoria Light & Power Co., New York. — Morigage. — The company has filed a mortgage to the Farners' Loan & Trust Co. of New York, as trustee, to secure an issue of \$5,000,000 51%, 50-year gold bonds. Compare Consolidated Gas Co. Item in the "Chronicle" inst. week, page 1463. — V. 97, p. 301.
Boott Mills, Boston. — \$1,000,000 7% Deferred Redeemable Obligations — Present Issue \$600,000. —
Stockholders of record May 5 1914 had until May 14 the non-assignable right to subscribe at par for \$600,000 or an authorized issue of \$1,000,000 7% cumulative deferred redeemable obligations to an amount equal to 60% of their respective holdings of stock. Subscriptions payable 25% forthwith and the balance in one or more installments on call of company, at office, 79 Milk St. The proceeds, it is understood, will be applied to re-duction of floating debt now said to aggregate about \$900,000.
The company will madually liquidate the new securities, and it covennus to pay the same upon any liquidation of its business, ins of ar as the assets will, after satisfaction of all other indebtedness, permit, before any distribu-tion upon the stock; and in the meantime, to pay 7% cumulative interest eracticable and prident, and any arears of interest with interests at 6%. The obligations are callable, in whole or part, on 15 days notice, (a) for first ten years at par, with a premium of 1% for each year or fraction from fate of original issue during which they shalt have been outstanding; and (b) thereafter at 110%, in either case with all arrests of interest. Nome of the sories can be sold at less than mar.
The company further covenants that until it shall so redeem those obliga-ing original issues of the series, bonds or delayed will not give any guaranty of any mortgage notes, bonds or delayed and will not give any guaranty of any mortgage notes, bonds or delayed will not give

Builte & Superior Copper Co. — First Dividend. — An initial quarterly dividend of 75 ets. per share (par \$10) has been de-clared, payable June 30 to holders of record on June 12. The report for the first quarter will be mailed to all stockholders within a day or two. — V. 98, p. 1462.

V. 98, p. 1462.
 By-Products Coke Corporation.—Dividend Reduced.— A quarterly dividend of 1% has been declared on the \$4,000,0000 stock, payable May 15 to holders of record Apr. 30. This comparis with the former rate of 14%, but Chicago advices state that it is genorally expected that the company will pay the usual 5% during the year. In 1913 6% was paid and in 1912 8% (incl. 2% extra in Feb.).—V. 98, p. 764, 712.
 Canada Foundries & Forgings, Ltd.—Bonds.— Anderson, Robinson & Harcourt, Toronto, are offering at par and int, the unsold portion (\$75,000) of the issue of \$200,000 1st M. 6% 30-year

sinking fund gold bonds dated Feb. 2 1912, due Feb. 2 1942. Int. F. & A. 2 at Royal Bank of Canada. Par \$100, \$500, \$1,000. Redeemable as a whole at 110 and int. on any int. date on 3 mos. notice or annually pedianing Feb. 21915 for the sinking fund that will retire entire issue prior to maturity. Trustees, Montreal Trust Co. A circular reports: "Security: Real estate, buildings, plant and equip-ment (exclusive of good-will, trade-marks, &c.). \$804,278; current assets (after deducting all liabilities), \$301,387; total surplus assets, \$1,105,665. After adding the proceeds of these bonds, the assets are about six times the bonds. Net earnings: 1911, \$90,842; 1912, \$108,782; 1913, \$112,899. Average earnings for three years are over 8.2-3 times this bond interest. Cap. stock (14 pref. 7% cum.), \$1,920,000. See V. 95, p. 178; V.98,99.15.

 Cleveland Telephone Co.—Noles Authorized.— The Ohlo P. U. Commission yesterday authorized the company to issue \$4,000,000 5% 2-year notes. Of the notes more than \$3,000,000 will be used to refund previous bond issues and the remainder for improvements and extensions. Compare V. 98, p. 1319, 1247.
 Colorado Fuel & Iron Co.—Suit.—
 The company has withdrawn its former suit for \$500,000 for libel against the Denver Publishing Co., publishers of the "Rocky Mountain News" and "Denver Times." and has filed a new suit in the Federal Courtasking damages for \$600,000. The suit is a result of the coal miners' strike in Southern Colorado. The complaint alleges "false and defamatory writ-ing." with "malice towards the plaintiff and reckless disregard of the plaintiff's rights." See aditorials, &c., as to strike situation in V. 98, p. 1434, 1357-60, 1278.—V. 98, p. 1159.
 Consolidated Copper Mines Co.—Application for Re-ceiver.—

Ceuver.— Martin W. Littleton of New York, representing Enos A. Wall of Salt Lake City, Utah, on Thursday applied for the appointment of a receiver for the company. A statement issued by the President of the company says. "Suit is brought upon misapprehension of facts, and in the opinion of counsel the case is without merit. The company apprehends nothing but a favorable outcome of the litigation." Subpoenas were issued requiring the defendants to answer the bill on May 27.—V. 97, p. 240.

Plan to Permit Shareholders to Subscribe at Par for \$25,000,-000 5-Year 6% Debentures Convertible after 3 Years into Stock at Par.—The shareholders will vote May 25 on proposi-tions set forth in a circular signed by Pres. Geo. B. Cortelyou as of May 9, substantially as follows:

tions set forth in a circular signed by Pres. Geo. B. Cortelyou as of May 9, substantially as follows:
 (a) To increase the capital stock from \$100,000,000 to \$125,000,000, to provide for the reinbursement in part of mencys actually expended from income and from other moneys in the treasury not secured or obtained from the issue of stocks, bonds, notes or other evidences of indebtedness for the acquisition of property and for the discharge of obligations, and for such other purposes as the stockholders, at such meeting, may determine
 (b) That if such increase be authorized, the company shall forthwith issue, with the approval of the P. S. Commission. 6% convertible debentures at par, in denominations of \$500 and such multiples thereof as the board may determine.
 (c) That if such increase be authorized, the company shall forthwith issue, with the approval of the P. S. Commission. 6% convertible debentures at par, in denominations of \$500 and such multiples thereof as the board may deem expedient, to the extent of \$25,000,000, payable in cash five years after date thereof, unless sooner converted into stock, with coupons payable quarterly. The holder thereof to have the privilege, upon the expiration of 3 years, to convert the said debentures into capital stock at its par value; said increased capital stock to be reserved for such conversion.
 (c) That the stockholders of record on a date to be fixed by the board shall have the right within 20 days thereafter to subscribe at par for the said debentures, to the extent of 25% of their holdings of the stock; payments and 40% six months thereafter, with the privilege of anticipating the payment of said last two installments. -V. 98, p. 1463, 613.
 Connecticut River Power Co. of Maine. - Div. Increased. A semi-annual dividend of 15% has been deelared on the \$2, 200,000 with 15% on Jan. I last and July 1 1913, the finitial distribution. The regular induces of record June 23, comparing with 15% o

Eastman Kodak Co., Rochester, N. V.—New Plant.— The directors have decided, owing to the large increase in Canadian and English business, to construct a new plant near Teronto, Can., at a cost of over \$1,500,000, to take the place of the several plants now operated by the subsidiary Canadian Kodak Co., Ltd. Seven buildings with a floor reas of II acres will be built this summer on the 24-acre site purchased last year near Weston, a suburb of Toronto. About 500 persons will be employed at the start, but this will be increased as necessity demands. The Canadian tariff is favorable to the manufacturer in that raw ma-terials are entered at an extremely low rate, while a high tariff protects. the completed article. England and Canada, it is reported, take approxi-mately nine-tenths of the total exports of motion pleture films. The com-pany, it is staid, has increased its motion pleture films. The com-pany, it is staid, has increased its motion pleture films. The com-pany, it is staid, has increased its motion pleture films. New York MiHs, Utica, N. Y.—Offer for Pref. Stock.— The holders of the \$400,000 pref. stock last week received a letter from Attorney Charles A. Miller, President of the Savings Bank of Utica, which is quoted as saving in part:

From the enclosed statement of Dec. 27 last year will see that the N. Y. Mills owe about \$3,900,000, most of which is held by A. D. Julillard & Co. of N.Y., who have had complete control of the management. Accounts receivable and each aggregate not quite 31,200,000, while cotton, materiais, supplies and goods in process bring up the quick assets to a total of about

\$2,400,000. There is, therefore, a deficit of quick liabilities over quick assets amounting in round numbers to \$1,500,000. The plant is of course neither worth nor saleable at any thing like this amount.
 Since January last Mr. Julliard has offered me \$40,000 to use in closing up the affairs of the N. Y. Mills Co. by receivership or otherwise, and I intend to devote the \$40,000 to its on the dollar. There are 4,000 shares of such stock outstanding of par value of \$400,000. Holders of 2,165 shares of such stock outstanding of par value of \$400,000. Holders of 2,165 shares of any a receivership or otherwise, and I intend y a receiver the or otherwise and the dollar. There are 4,000 shares of such stock outstanding of par value of \$400,000. Holders of 2,165 shares of any pref. stockholder receiving anything. (The mills are reported to have 73,000 spindles and 1,230 looms. Common stock is \$1,000,000.]—V. 70, p. 844, 743, 534.

. 70, p. 544, 743, 534. Northern Indiana Gas & Electric Co.—Bonds, &c.— The Indiana P. S. Commission on May 9 authorized the company to sue, it is stated, \$1,020,000 bonds and \$282,000 gold notes to pay for a prover plant (costing, it is stated, \$966,794) at East Chicago and for her extensions.—V. 95, p. 484.

other extensions.-V. 95, p. 484. Osceola Consol. Copper Mining Co.-Injunction.-Justice Howard Wiest in the ingham County Circuit Court at Lansing, Mich., on May 14, in the suit brought by Charles M. Turner, a minority stockholder, granted a permanent injunction restraining the Calumet & Hecka Mining Co. from controlling and voting shares of stock of the Osceola company. An appeal, it is stated, will be taken to the Supreme Court. -V. 98, p. 241.

company. An appeal, it is stated, will be taken to the Supreme Cours, --V. 98, p. 241.
 Oro Electric Corporation, Cal.—Re-hearing Granted.— The California Supreme Court, which recently overruled the decision of the State RR. Commission in the case of the Western States Gas & Electric Co. vs. Oro Corp., in which the Commission denied the latter competitive rights in Stockton, has granted a rehearing in response to a petition signed y many of the leading attorneys of the State, among them those for the RR. Commission, the facilic Gas & Electric Co. and the Southern California Color of the commission and regulation carried to the point of thing a creating attorneys of the resultation carried to the point of thing a creating attorney of the fact the position that if rates are to be cut down by the Commission and regulation carried to the point of thing a creating rate of resymme, then the regulated companies must be pro- tected in their fields from competition. Competition and regulation do not go together. Either competition must be allowed to take its course in determining rates, or. If rates are to be fixed by regulation, then the power that regulates must protect from competition. If competition is allowed there should be no regulation, and if regulation is enforced then competition should be restricted. This is an important economic prin- ciple. It has been said that the California RR. Commission has taken ad- vanced ground in seeking to protect regulated companies from unneces- sary competition, but as a matter of fact the older commissions of New York, New Jersey and other States have taken much more advanced po- sitions in this regard and they have been followed by the newer commis- sions of Idaho, Montana and Arizona."—V. 98, p. 1397, 1075.
 Pacific Light &

Pacific Light & Power Corporation, Los Angeles.— The Cal. RR. Commission recently approved the proposition to issue (a) \$2,500,000 6% notes for retirement of the \$2,500,000 6% notes due May 1 1914 (V. 96, p. 1367); (b) \$1,233,000 40-year 5% gold bonds, to be sold to retire notes held by H. E. Huntington.—V. 98, p. 1248, 527.

Som to retre notes held by H. E. Huntington.-V. 98, p. 1248, 527.
 Pacific Telephone & Telegraph Co.-Dual Service.The U. S. Dist. Court at San Francisco on May 4 sustained an order recently issued by the Oregon RR. Commission to compel the company to
interchange service with the Home Telephone Co. In two hotels in Portland, Ore. I. e., calls coming over either system may be connected with
telephones in rooms having the other service. Judge Bean wrote the opinfor. concurred in by Judges Gilbert and Wolverton. The decision is regarded as far-reaching, as under its terms any hotel in the State may apply
for and be allowed to receive joint service from two competing telephone
lines. The Pacific company contested the order on the ground that it
involved taking of property without due process of law and that it violated
the Inter-State commerce clauses of the U. S. Constitution..-V. 98, p.
1003, 908.

Pennsylvania Steel Co.—Mr. Donner Elected Chairman. William H. Donner, President of the Cambria Steel Co., was on Monday elected Chairman of the board, a new position.—V. 98, p. 1464, 1396.

Pure Oil Co., Pittsburgh.—Option.—V. 96, p. 1464, 1396. Pure Oil Co., Pittsburgh.—Option.— The Pittsburgh "Gazetto Times" says: "The English syndicate which is seeking an option on a majority of Pure Oil common stock until June 10 1914 has bid \$26 a share less a commission of 714%, which would net \$24 05 a share to holders. The option is not to become binding unless 51% is obtained and it is the understanding that all stockholders. Jarke and small, are entitled to come in under the same price and terms." The offer, it is reported, is made on behalf of the Anglo-American Oil Co.—V. 98, p. 1320, 836.

City.**-Debenture Bonds. --The stockholders' committee has issued a circular urging the stockholders and bondholders, on or before June 15, to subscribe at 90, (with 25% bonus in common stock), for an issue of not exceeding \$1,000,000 6% 6 to 9-year deben-ture bonds, payable in four equal installments at the end of 6, 7, 8 and 9 years, and callable at par on any quarterly in-terest day. A circular dated May 7 says in substance: The time has come when it is necessary for the scentry holders to par-ticipate in funding the company's debt. The balance sheet of Dec. 31 1913 shows (after an appraisal) a net work over Habilities other than capital stock of \$4,241,167, the pref. stock being intact and the common stock having a book value of about \$40 per share. When the present manage-ment assumed control. April 1 1913, the total outstanding noteindebtedness. Including the controlled Queen Dycing Co. Sterling Impt. Co. and C. P. Darling Co., was \$2,245,000. To-day the note inductations is \$1,721,467, a reduction of \$623,533; while the moregage debt also has been reduced during the year by payments into sinking fund of \$85,960, all without ma-terial change in the amount of scounds payable. The notes, creeping C. P. Darling Co. and Sterling Impt. Co. for \$23,000, all without ma-terial change in the amount of the scounds payable. The notes, creeping C. P. Darling Co. and Sterling Impt. Co. for \$23,000, all without ma-terial change in the amount of scounds payable. The notes, creeping for ond scound scarged to cypense in the amargement, the formpary losses entailed by the reorganization of the management, the formation of \$6,5,323,221 for the previous 13 months. The outlook for the coming year is march brighter and, with normal trade conditions, we believe the annual exrings should aggregate \$350,0

Reports and Documents.

ILLINOIS TRACTION COMPANY

TENTH ANNUAL REPORT-FOR THE YEAR ENDING DECEMBER 31 1913.

To the Shareholders of the Illinois Traction Company: The Board of Directors take pleasure in submitting the Tenth Annual Report, together with Balance Sheet, State-ment of Receipts and Expenditures, and other statistics of your Company, for the year ending December 31st 1913. As will be noted from the accompanying statistical state-ments, gratifying increases in gross and net earnings over previous years have been developed from operation. Gross Revenue for the year was \$7,948,097 51, derived in the following manner:

the following manner: From Interurban Railroads \$2 055 510 76

From	City Lines	2,129,803 61
	Electric Lighting and Power	1,977,349 50
	Gas Lighting and Fuel	466,449 66
	Steam Heating	247,530 48
From	Miscellaneous	71,444 50
Gro	ss Revenue increased during the year \$532,450 38, or	7.18 per cent.

Net Earnings increased during the year \$272,327 96, or 8.89 per cent. Surplus Income increased during the year \$113,933 25, or 15.35 per cent.

Surplus Income for the year, after paying 6 per cent divi-dends on the Company's Preferred Stock, was \$855,850 57, equivalent to 8,56 per cent upon the Common Stock of the Company, as against 7.43 per cent for the preceding year. Surplus Account, therefore, stood at December 31st 1913 as follows follows :

1542

\$2,550,206 21

MAINTENANCE, RENEWALS AND BETTERMENTS.

The practice of maintaining in a high state of efficiency the physical condition of all the properties controlled by the Company has been continued. During the year there was expended on this account the sum of \$1,343,489 29, which was 16.9 per cent of the gross receipts, as against 15.7 per cent the province year cent the previous year.

IMPROVEMENTS.

During the year there was also expended for Improvements on the properties controlled by the Company \$1,660,155 96.

INTERURBAN LINES.

Additional passenger motor and trail cars have been sup-plied and equipment in service at December 31st was :

21 Passenger Trailers.	116 Box.
6 Parlor Cars.	319 Gondola.
4 Sleeping Cars.	37 Flat.
4 Combination Passenger and	9 Refrigerator.
Baggage.	2 Scenery.
17 Express Motors.	228 Hopper Bottom.
98 Express Trailers.	13 Cabooses,
B Line Motors	54 Miscellaneous and Work C:

The installation of electric automatic block signals was started between Springfield and Carlinville and between Staunton and Edwardsville and at December 31st the work was fifty per cent completed. The interurban now has 145 miles of its trackage protected by these signals. It is inter-esting to note that during the year the signal operation was 00 07 per cent perfect

99.97 per cent perfect. Three new grain elevators have been constructed at points along the line, making a total of twenty such elevators now

Over five miles of industrial tracks and side tracks have been added and additional track connections with four railroads made

The roadbed has been well maintained and improved-fourteen bridges being replaced with permanent concre openings

A 5,000 kilowatt turbine has been ordered for installation in the Riverton power house, which will produce surplus energy to cope with almost any emergency.

GENERAL

Particular attention has been devoted to increasing ef-ficiency and economy in the power plants and satisfactory results have been obtained.

The usual rate of increase in consumers has prevailed on the city electric and gas properties and exceptionally large power contracts were secured at Bloomington and Decatur. The installation of a new gas plant, of the most modern and efficient type and 600,000 cubic feet in capacity, was started at Decatur and about half completed during the year. New properties were acquired as follows :

In Illinois Monticello Electric Light Company, Clinton Gas & Electric Company, Lexington Electric Light Company.

Lectington Electric Digit volume In Iowa-Oskaloosa & Buxton Electric Railway Company, Oskaloosa Traction & Light Company, Montezuma Electric Light, Power & Heating Company, Colfax Electric Light Company, New Valley Junction Water & Light Company.

A new three-story brick terminal and office building was erected at Champaign. The erection of the Peoria terminal building was temporarily delayed, but it is expected to pro-ceed with the work on this building early next year. Crop conditions throughout Illinois were not up to the usual average and in Kansas the partial failure of the crops was reflected in reduced earnings of the properties in that State.

It is gratifying to report the freedom from serious accidents in the operation of all the properties. During the past year the Common Stock was put upon a dividend basis at the rate of 3 per cent per annum, the first quarterly dividend being paid on the fifteenth of May last.

WESTERN RAILWAYS & LIGHT COMPANY.

WESTERN RAILWAYS & LIGHT COMPANY. As the management of the Western Railways & Light Company and the Illinois Traction Company has been sub-stantially identical for the past seven years, the advisability of consolidating the two companies has been under serious consideration. In this connection an offer may shortly be made to the shareholders of the Western Railways & Light Company. This consolidation is, in the opinion of your Directors, natural and reasonable and beneficial to both com-panies and to their shareholders.

CONCLUSION.

The accounts have, as usual, been audited by the Messrs. P. S. Ross & Sons, Chartered Accountants, Montreal, who have affixed their signatures to the balance sheet and other statements statements

statements. The Board take pleasure in again recording their apprecia-tion of the efficient service rendered by all the Officers, Heads of Departments and the employees generally. Respectfully submitted, W. B. McKINLEY, President. H. E. CHUBBUCK, Vice-President Executive.

Champaign, Illinois. Genllemen—We hereby certify that the foregoing statement in our opinion exhibits correctly the financial position of your Company as at 31 December 1913, as shown by the books of account.

books of account. The securities covering the investments of the Company have been verified by personal inspection or Trustees' cer-tificates. The Cash and Bank balances have been verified. The value of Stores and Supplies have been substantiated by signed Inventories. The disbursements during the year have been verified by satisfactory vouchers. *Montreal, Canada, March* 4 1914.

P. S. ROSS & SONS, Chartered Accountants.

Walpole Tire & Rubber Co.—Re-Sale Ordered.— At the time set for the sale on May 11 a bid of \$800,000 for the property made by the stockholders' reorganization committee was the only one re-ceived. As the upset price was \$1,50,000, the property was not sold. Judge Dodge has instructed the receivers to draft another order of sale, without restrictions as to an upset price. The receivers, it is said, are now winning the business at a profit of \$20,000 a month and will shortly pay a second dividend, having, it is said, \$170,000 on hand. The first dividend was one of 4%. Compare V. 98, p. 1172, 1251. Western Power Co.—New Officer.— F. Lothrop Ames of Boston has been elected President. Irving W. Bon-bright has been chosen a member of the executive committee. Notes Provided For.— See Great Western Power Co. above.—V. 97, p 1668.

-RAILWAYS OF CENTRAL AND SOUTH AMER-ICA.—Francis Emory Fitch, Inc., 47 Broad St., New York, has just published a volume entitled "The Railways of South and Central America." The book is by Frederic M. Halsey, with the Stock Exchange firm of Jas. H. Oliphant & Co., and contains an introduction by Floyd W. Mundy, author of "The Earning Power of Railroads." The book gives an interesting description of the railway development through-out South and Central America, Mexico, the West Indies, and particularly throughout Argentine, Brazil, Chili and Uruguay, together with data concerning about eighty rail-ways, such data consisting of income accounts, capitaliza-tion, mileage, nature of country traversed, history, &c. ways, such data consisting of income accounts, capitaliza-tion, mileage, nature of country traversed, history, &c. Certain details have been added unusual for a statistical volume, such as a brief account of the building of Meiggs' famous Oroya or Peruvian Central Ry., "the highest line in the world," which crosses the Andes at an altitude of 15,865 ft. Details are also given of the trans-Andine tunnel connecting Argentine and Uruguay, &c. The volume is 183 pages, 5³/₄x8, bound in red cloth, stamped in gold, containing frontispiece showing the handsome building of the Pan-American Union at Washington, three maps, one a large one in colors showing all the railroads in course of op-eration or under construction in the territories covered. The price at retail is \$150. __________Kidder_ Deabody & Co. of Boston and New York are

-Kidder, Peabody & Co. of Boston and New York an-nounce the removal of their office to new and larger quarters in the Wilks Building at 17 Wall St., on the southwest corner of Wall and Broad streets, adjoining the New York Stock Exchange. Kidder, Peabody & Co. have for many years been one of the best-known international banking houses of the country. The firm is the representative in this country of Baring Brothers & Co., Ltd., of London, and has long been known for the extent of its foreign relations and for its prominence in the field of investment securities and foreign exchange. foreign exchange.

-Bertron, Griscom & Co. of 40 Wall St., New York, Land Title Building, Philadelphia, and 19 Boulevard des Capueines, Paris, are publicly offering a block of Birming-ham Railway, Light & Power Co. 6% debenture gold notes due July 1 1915 at 100 and interest. The bankers state that the company reports applicable earnings of eight times the annual interest on outstanding notes, which are followed by dividend-paying stocks with present market valuation of over four times the par value of these notes. See the ad-vertisement elsewhere in the "Chronicle" to-day for other particulars. particulars.

-William R. Compton & Co. of Pine St., corner William, this city, Chicago and St. Louis, is advertising a list of municipal bonds in our advertising columns to-day which are free from Federal income tax. The investment yield ranges from 4.15% to 5%. Some of the bonds are legal in-vestments for savings banks and trust funds.

vestments for savings banks and trust funds.
James V. Dignan, formerly in the employ of Henry & West, and William M. Cooper, formerly of Marshall Bros. & Co., have affiliated themselves with Perry B. Strassburger, dealer in investment bonds, with offices in the new Stock Exchange Building, Philadelphia.
Borton & Borton, Cleveland, have prepared an exhaustive circular regarding the Goodyear Tire & Rubber Co. and its preferred stock.
Boissevair & Co. New York, on Mar, H issued a size

-Boissevain & Co., New York, on May 11 issued a cir-cular recommending Kansas City Southern Ry. Co. 4% preferred stock, present price 60, netting over 61/2%.

-Henry & West, 1417 Chestnut St., Philadelphia, have issued a circular on public utility bonds. Copy will be mailed upon request.

-R. M. Grant & Co. of New York and Chicago have rented larger quarters for their Chicago offices in the same building where they have been located, at 111 Monroe St.

The Commercial Times.

COMMERCIAL EPITOME.

Friday Night, May 15 1914.

Sentiment is a little more cheerful. Not that there has been any great increase in business, but the feeling on the whole is rather more hopeful in the iron and steel trade, and much is expected from a record-breaking wheat crop. The whole is rather more hopeful in the iron and steel trade, and much is expected from a record-breaking wheat crop. The Mexican question is perhaps again nearing a crisis, but there is hope that there may now be a peaceful solution of this thorny question. In the textile industries there is a more confident tone. Retail trade is better and collections at the West have improved. There is no blinking the fact, however, that wholesale and jobbing business in very many depart-ments is unsatisfactory. Railroad business leaves much to be desired. The building trades are sluggish. There is still more or less fear of adverse legislation of one kind or another. But money continues easy, the stock market has improved and there is said to be some prospect that Congress will adjourn early in July. LARD has been quiet; prime Western \$10 35, refined to

LARD has been quiet; prime Western \$10.35, refined to the Continent \$10.60, South America \$11.30, Brazil \$12.30. Lard futures have fluctuated within narrow limits. Cer-tainly the net changes have not been large. Packers have been selling to some extent and hogs have been lower. To-day prices were higher, with packers buying and prices for hogs advancing. The receipts of hogs at Western points were only 53,000, against 78,100 on the same day last year.

at 38c. for domestic. Corn quiet and unchanged at 6.55@
6.60c.
SUGAR stronger on light offerings. Philadelphia interests have been buying. There were heavy rains reported in Cuba. European cables have latterly been firmer. Centrifugal, 96-degrees test, 3.20c.; molasses, S9-degrees test, 2.55c. The stock in the United States and Cuba is 1,097,602 tons, against 1,071,282 tons last week and 1,004,960 tons last year. Refined firmer at 4c. for granulated.
TOBACCO has been quiet. There is still a disposition among eigar manufacturers to hold aloof. The buying of both filler and binder is small, owing to the fact that prices are considered too high, while the consumption shows some decrease. New Sumatra, is quiet as there is still a large quantity of old leaf on the market. At the inscriptions the buying is not so large as it was last year. Cuban is quiet and steady.
COPPER has continued dull, with Lake 14½c. and elee-

and steady. COPPER has continued dull, with Lake 1414c. and elec-trolytic 1414c. London has been only moderately active and rather easier. Tin on the spot here has been 3334c., showing greater firmness, though trading has not been large. The London and Singapore markets, however, have been dis-tinetly stronger. Lead here 3.90c. and spelter 5.15c. Pig iron has met with rather more inquiry, with No. 2 East-ern \$14 and No. 2 Southern Birmingham \$10 50. Iron and steel generally have continued quiet, and some recent de-cline is reported in plates, bars, wire and sheets. Still, the feeling in the iron trade is somewhat more hopeful. Railroad companies have bought rails and rolling stock on a very moderate scale.

Friday Night, May 15 1914.
THE MOVEMENT OF THE CROP, as indicated by our
telegrams from the South to-night, is given below. For the
week ending this evening the total receipts have reached
63,812 bales, against 77,063 bales last week and 75,428
bales the previous week, making the total receipts since
Sept. 1 1913 9,810,597 bales, against 9,162,804 bales for the
same period of 1912-13, showing an increase since Sept. 1
1913 of 647.793 bales.

Note.-New York exports since Sept. 1 include 9,996 bales Peruvian, 75 bales Brazillan, 27 bales West Indian to Liverpool and 26 bales West Indian to Havre. In addition to above exports, our telegrams to-night also give us the following amounts of cotton on shipboard, not cleared, at the ports named. We add similar figures for New York.

This was under the spur of reports of a backward season in the Southwest, notably in Texas, the large consumption in April as revealed by the Census Bureau's figures, the firmness of May and July, especially May, the activity and strength of the Liverpool market and finally a good deal of covering of shorts. In Texas the season is said to be two to three weeks late. Very heavy rains have occurred in Texas at times, reaching as high as 5.38 inches at Houston, whereas Texas needs dry, warm weather. In some respects the weekly weather report last Tuesday was not favorable. The Eastern belt needs rain. Drought and high winds, it is stated, have injured cotton in South Carolina. That State needs a copious rainfall. The southern part of North Carolina is also said to need rain, as well as some parts of Mississippi. The Brazos and Trinity rivers of Texas are said to have overflowed. Temperatures in the Southwest have been too low. Liverpool's spot sales much of the time have been too low. Liverpool's spot sales much of the time have been 10,000 to 12,000 bales. Liver-pool has been a free buyer of May on a rather liberal scale, but on Thursday that month suddenly ran up over \$1 a bale. The New York market has been encouraged by the strong Liverpool advices. The Continent has been buying here on the bad crop reports from this side. It is said, too, that some 200,000 bales of the Liverpool stock are not tenderable on contracts. A rumor has also been in circulation that some 40,000 bales of the New York stock will be shipped to Southern mills. The chief bullish factor, however, has been the unfavorable weather and crop reports from Texas. A wet some 40,000 bales of the New York stock will be shipped to Southern mills. The chief bullish factor, however, has been the unfavorable weather and crop reports from Texas. A wet May is feared. Meantime the consumption is large and there is growing nervousness over the question whether an adequate erop will be raised. Liverpool and the Continent seem, if anything, more alarmed over the outlook than this country. Yet the rains and cold weather in Texas and the Census fig-ures on the consumption have undoubtedly caused a good deal of buying for both sides of the account by spot interests, Wall Street and the South. The "flurry" in May has also impressed not a few. On the other hand, the general situa-tion in the Eastern and Central belts is considered not un-favorable, and there are those who think that it is premature to become much alarmed over the outlook in Texas. Trade in cotton goods has continued slow and speculation has, as a rule, been far from active. Yet there is no doubt, however, that the weather news is now becoming an all-important factor. Rains in the Eastern belt, as already intimated, are desirable, and west of the Mississippi a period ofsome weeks of dry, warm weather. The statistical position is regarded as more or less bullish. And as regards the reports of dulness in cotton goods there are those who think that the situation in the cotton-manufacturing industry must be better than is generally supposed, else how to account for the big consump-tion figures? To-day prices were irregular, ending slightly lower. Week-end statistics were bullish, however, and Liverpool was active. The circulation of some May notices depressed that month to some extent. Spot cotton closed at 13.40c. for middling uplands, showing an advance for the week of 40 points. The rates on and off middling, as established Nov. 19 1913*

affirmed Feb. 4 1914

The official quotation for middling upland cotton in the New York market each day for the past week has been: May 9 to May 15- Sat, Mon. Tues. Wed. Thurs. Fri.

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Foreign stocks, as well as the afloat, are this week's returns, and consequently all foreign figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Friday), we add the item of exports from the United States, including in it the exports of Friday only.

WEATHER REPORTS BY TELEGRAPH .- Our telegraphic reports this evening from the South indicate that while in Texas rain has been quite general, although moderate on the whole during the week, over very much of the remain-

while in Texas rain has been quite general, although moderate on the whole during the week, over very much of the remain-der of the cotton belt dry weather has been the rule. Re-ports from Texas are to the effect that under recently pre-vailing conditions the plant has not been able to make much headway and continued dry, sunshiny weather is needed. From some points along the Gulf and Atlantic there are complaints that moisture is still needed. *Galveston, Tex.*—Cool weather, with occasional rains, pre-vailed Tuesday and Wednesday in Texas. Temperatures are now rising, however, with generally clear weather. The plant is in need of continued dry weather and has not been able to make much headway under present conditions. It is feared that on account of the poor quality of seed, the quality of the 1914 erop will not be as good as in normal years. Rain has fallen on one day of the week, the rainfall being one inch and sixty-two hundredths. Average thermo-meter 71, highest 80, lowest 62. *Abilene, Tex.*—There has been rain on one day of the past week, the rainfall being twenty-eight hundredths of an inch. Minimum thermometer 46. *Brenham, Tex.*—We have had heavy rain on one day dur-ing the week, the rainfall reaching two inches and twenty-four hundredths. Thermometer has averaged 73, ranging from 58 to 88. *Cuero, Tex.*—We have had rain on one day during the week, the rainfall reaching eighty-eight hundredths of an inch. Thermometer has ranged from 56 to 88, averaging 72. *Dallas, Tex.*—It has rained on one day during the week, the rainfall being forty-four hundredths of an inch. Low-est thermometer 50, highest 84, average 67. *Henrietta, Tex.*—There has been light rain on three days during the week, the precipitation reaching twenty hun-dredths of an inch. The thermometer has averaged 67, the highest being 56 and the lowest 48. *Huntsville, Tex.*—There has been rain on one day the past week, the rainfall reaching one inch and seventy-eight hun-dredths. The thermometer has averaged 70, ranging from 54 to

54 to 86. Kervrille, Tex.—It has been dry all the week. The ther-mometer has ranged from 52 to 84, averaging 68. Lampasas, Tex.—We have had rain on one day during the week, the rainfall being eighty hundredths of an inch. Minimum thermometer 50, highest 88, average 69. Longview, Tex.—There has been rain on one day during the week, the precipitation reaching forty-eight hundredths of an inch. The thermometer has averaged 70, the highest being 86 and the lowest 54.

week, the rainfall being one inch and six hundredths. The thermometer has averaged 70, the highest being 86 and the lowest 54. Luking, Tex.—We have had rain on one day during the week, the rainfall reaching one inch and sixty-two hundredths. The thermometer has averaged 72, ranging from 56 to 88. Nacogdoches, Tex.—We have had rain on one day during the week, the rainfall being ninety-four hundredths of an inch. The thermometer has ranged from 54 to 84, averaging 69. Palestine, Tex.—There has been rain on one day during the week, the rainfall being one inch and six hundredths. Average thermometer 70, highest 86, lowest 54. Paris, Tex.—There has been rain on three days during the week, the precipitation being one inch and thirty-four hundredths. The thermometer 70, highest 86, lowest 54. San Antonio, Tex.—There has been heavy rain on one day the past week, the rainfall reaching two inches and fourteen hundredths. The thermometer has averaged 68, the highest being 86 and the lowest 50. San Antonio, Tex.—There has been heavy rain on one day the past week, the rainfall reaching two inches and fourteen hundredths. The thermometer has averaged 72, ranging from 56 to 88.

from 56 to 88.

Taylor, Tex.—We have had light rain on one day during the week, to the extent of twenty-two hundredths of an inch. Minimum thermometer 54. Weatherford, Tex.—We have had rain on two days of the week, to the extent of eighty-eight hundredths of an inch. Minimum thermometer 46, maximum 88, mean 67. Ardmore, Okla.—We have had rain on two days of the week, the precipitation reaching fifty-six hundredths of an inch. The thermometer has averaged 65, the highest being 86 and the lowest 44. Holdenville, Okla.—We have had rain on one day during the week, the rainfall reaching one inch and fifteen hundredths. The thermometer has averaged 62, ranging from 42 to 82. Marlow, Okla.—There has been rain on one day during the week, the precipitation reaching twenty-eight hundredths of an inch.

an inch. The thermometer has ranged from 43 to 84, averaging 64. Muskoges, Okla.—We have had rain on one day of the week, the precipitation being one inch and ninety-eight hun-dredths. Average thermometer 64, highest 86, lowest 42. Eldorado, Ark.—There has been no rain the past week. The thermometer has averaged 72, the highest being 87 and the lowest 48. Fort Smith, Ark.—Rain has fallen on one day of the week, the precipitation reaching one inch and twelve hundredths. The thermometer has averaged 68, ranging from 48 to 88. Little Rock, Ark.—There has been rain on two days during the week, the precipitation reaching sixteen hundredths of an inch. The thermometer has ranged from 49 to 86, averaging 67.

ar men. The intermometer has ranged from 500 averaging 67. *Texarkana, Ark.*—Rain has fallen on one day during the week, the rainfall being fifty hundredths of an inch. Highest thermometer 87, lowest 50, average 68.

Alexandria, La.—There has been rain on one day of the past week, the rainfall being five hundredths of an inch. The thermometer has averaged 70, the highest being 88 and the lowest 53. Lafayette, La.—There has been no rain the past week. The thermometer has averaged 70, ranging from 55 to 85. New Orleans, La.—It has been dry all the week. The thermometer has ranged from 60 to 86, averaging 73. Shreveport, La.—There has been rain on one day during the week, the rainfall being forty-one hundredths of an inch. Average thermometer 71, highest 87, lowest 56. Cotumbus, Miss.—We have had no rain during the week. The thermometer has averaged 67, the highest being 89 and the lowest 45.

Columbus, Mass.—we have had no rain during the week.
The thermometer has averaged 67, the highest being S9 and the lowest 45.
Greenwood, Miss.—We have had no rain during the week.
Thermometer has averaged 67, ranging from 45 to 89.
Meridian, Miss.—There has been no rain the past week.
The thermometer has ranged from 46 to 87, averaging 66.
Vicksburg, Miss.—Rain has fallen to an inappreciable extent on one day during the week. Highest thermometer 87, lowest 51, averaging 68.
Liwingston, Ala.—Dry all the week. Highest thermometer 86, lowest 46, averaging 66.
Mobile, Ala.—Dry weather retards growth, but no injury to the plant as yet. We have had no rain during the week.
The thermometer has averaged 68, ranging from 53 to 83.
Montgomery, Ala.—It has been dry all the week. Average thermometer 70, highest 88, lowest 52.
Selma, Ala.—We have had no rain the past week. The thermometer has averaged 67, ranging from 50 to 83.
Albany, Ga.—We have had no rain the past week. The thermometer has averaged 72, the highest being 91 and the lowest 52.

lowest 52.

Atlanta, Ga .--We have had dry weather all the week. The

Notes of Allana, Ga.—We have had dry weather all the week. The thermometer has averaged 68, ranging from 48 to 88. Augusta, Ga.—There has been no rain the past week. The thermometer has averaged 71, ranging from 50 to 92. Savanah, Ga.—Dry all the week. The thermometer has averaged 74, ranging from 55 to 88. Madison, Fla.—We have had rain on one day during the week, the rainfall being six hundredths of an ineh. The thermometer has ranged from 55 to 93, averaging 73. Tallahassee, Fla.—Rain has fallen on one day of the week, the precipitation reaching sixty-seven hundredths of an inch. The thermometer has averaged 72, ranging from 54 to 91. Charleston, S. C.—It has rained on two days of the week, the precipitation being sixty-eight hundredths of an inch. The thermometer has ranged from 55 to 84, averaging 70. Greenville, S. C.—There has been no rain during the week. The thermometer has ranged 68, the highest being 88 and the lowest 48.

The thermometer has averaged 68, the highest being 88 and the lowest 48. Greenwood, S. C.—It has been dry all the week. The ther-mometer has ranged from 50 to 92, averaging 71. Spartanburg, S. C.—Rainfall for the week eighteen hun-dredths of an inch, on two days. Average thermometer 70, highest 93, lowest 46. Charlotte, N. C.—There has been rain on one day of the week, to the extent of four hundredths of an inch. The thermometer has averaged 73, ranging from 56 to 90. Goldsboro, N. C.—There has been rain on one day during the week, the rainfall being thirteen hundredths of an inch. The thermometer has averaged 70, the highest being 91 and the lowest 49.

The thermometer has averaged 70, the highest being 91 and the lowest 49. Raleigh, N. C.—We have had no rain during the week. The thermometer has averaged 72, the highest being 92 and the lowest 52. Weldon, N. C.—It has rained on two days of the week, the precipitation being seventy-one hundredths of an inch. The thermometer has ranged from 52 to 90, averaging 71. Dyersburg, Tenn.—Dry all the week. The thermometer has averaged 66, ranging from 45 to 87. Memphis, Tenn.—There has been no rain during the week. The thermometer has ranged from 49 to 87, averaging 65. Milan, Tenn.—We have had no rain during the week. The thermometer has averaged 65, ranging from 43 to 87. NEW YORK COTTON EXCHANGE.—Nominations.—

The thermometer has averaged 65, ranging from 43 to 87. NEW YORK COTTON EXCHANGE.—Nominations.— The Nominating Committee has announced the following ticket to be voted for on June 1: For President, Edward K. Cone: for Vice-President. Henry H. Royce: for Treasurer, James F. Manry: for Managers' Leopold S. Backo, Robert or Calens, N. L. Carpenter, W. H. Hubbard, Charles A. Kittle, J. G. Contans, N. L. Carpenter, W. H. Hubbard, Charles A. Kittle, J. G. Contans, N. L. Carpenter, W. H. Hubbard, Charles A. Kittle, J. G. Contans, N. L. Carpenter, W. H. Hubbard, Charles A. Kittle, J. G. Contans, N. L. Carpenter, W. H. Hubbard, Charles A. Kittle, J. G. Sondale, Luitpold Mandelbaum, E. P. McEnany, Gardiner H. Miller, Bruce L. Rice, Clayton E. Rich F., Henry Schaefer, Paul Schwarz, G. M. Shutt and Spencer Waters: for Trustee of the Gratuity Fund, to serve two years, William Mohr: for Inspectors of Election, William A. Boger, Charles H. Cohran and Frank A. Kimball. DOMESTIC EXPORTS OF COTTON MANUFAC-TURES.—We give below a statement showing the exports of domestic cotton manufactures for March and for the nine months ended March 31 1914, and for purposes of compari-son, like figures for the corresponding periods of the previous year are also presented:

vear are also presented:

According to the foregoing, Bombay appears to show an *increase*, compared with last year, in the week's receipts of 14,000 bales. Exports from all India ports record a gain of 84,000 bales during the week and since Sept. 1 show an *increase* of 983,000 bales.

ALEXANDRIA RECEIPTS AND SHIPMENTS OF COTTON.—Through arrangements made with Messrs. Choremi, Benachi & Co., of Boston and Alexandria, we now receive a weekly cable of the movement of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the two previous years:

Alexandria, Egypt, May 13.	1913-14. 1912-13.		1911-12.			
Receipts (cantars)— This week	7.5	10.000	9,000 7,424,624		12.000 7,202.863

BREADSTUFFS.

Friday Night, May 15 1914. Flour has been quiet as ever, buyers still adhering to the policy of purchasing only as their immediate necessities dicpolicy of purchasing only as their immediate necessities dic-tate. Nor does there seem to be much prospect of any in-crease in business in the near future, unless the crop pros-pects of wheat should become suddenly clouded. As the case now stands, with the belief so general that the next wheat crop will far surpass anything on record, buyers of flour think that they will lose nothing by playing for time. Under the circumstances, the transactions are of a very slim volume and prices to a considerable extent are nominal. The total pro-duction last week at Minneapolis, Duluth and Milwaukee was 363,555 bbls., against 392,675 bbls. in the previous week and 369,585 last year. Wheat has been stronger, partly owing to reports of damage

duction last week at Minneapolis, Duluth and Milwaukee was 363,555 bbls., against 392,675 bbls. in the previous week and 369,585 hast year. Wheat has been stronger, partly owing to reports of damage to the crop by the Hessian fly in Missouri and a few sections of Illinois and Indiana, unfavorable weather in the Northwest and strong foreign markets. There is an idea among some who watch the crop prospects closely that recent indications were rather too beautiful to hast, and that it is doubtful whether the estimates of 630,000,000 bushels of winter-wheat are going to be realized. At the same time there is a searcity of native wheat in the United Kingdom and some Continen-tal countries, despite the fact that the world's shipments show an increase. The trouble is that the proportion shipped to the United Kingdom was considered rather small. Liver-pool has an idea that the spring-wheat crop of the United States and Canada is not having a favorable start. There are some complaints, too, from parts of France in this respect and also from Hungary and Rumania. In Spain some districts have sustained permanent damage from drought. Ru-mania also needs rain. The largest districts in Hungary complain of drought. In Argentina the weather has been unfavorable for planting wheat. Southwestern Russia needs more rain. There is very little native wheat or rye left in Germany. Farmers' holdings in Australia are also small. There is a steady export demand in American markets, even if the transactions have not been very large. Europe, too, has been buying September wheat. The situation in the May option also continues to attract attention. A week ago May was about 8½c, over July in Chicago, whereas latterly it has been about 9/c, over July in Chicago, whereas latterly it has been about 9/20, ower July in Chicago, whereas latterly it has been about 9/20, ower July in the easine week last year. For several weeks it, will be recealed, the total approxi-mated only about 9,000,000 bushels, so that the increase last week was quite mar

Malting _____ WEATHER BULLETIN FOR WEEK ENDING MAY⁰ 11.—The general summary of the weather bulletin issued by the Department of Agriculture for the week ending May 11 is as follows :

the Department of Agriculture for the week ending May 11 is as follows :
The week, as a whole, was moderately favorable, although cold weather with forst caused some damage to fruit, and retarded vegetable growth in the Northwest and portions of the mountain districts, while heavy rains will further delayed farming operations in portions of the colutions of the Ohio Valley and lower Lake region. In most other districts moderately warm weather favorable for the continuance of the high outlook for wheat, and the absence of rain permitted of excellent progress in farm work.
The mean work and the absence of rain permitted of excellent progress and moderately warm weather was favorable for core planting and other farm work, and were the central and western portions the generally clear and moderately warm weather was favorable for core planting and other farm work, and weather still further delayed corn planting and other work, and warm dry weather is much needed.
The sping-wheat region the weather was favorable for the growth of balkots and high winds work had that a delayed seeding in North Dalkots and high winds progress, except in the more eastern portion of all kinds made growthe adventer growthe and high winds made favorable for other growth and high winds or the ection region the absence of rain permitted of much farm work, and the sping-wheat region the vester for gress, except in the work and high winds were the context and dry weather prevailed, especially in South Carolina, where drough and high winds work the most favorable of the senson to date, and vegetation and the senson to date, and vegetation and shifts and the senson to date, and vegetation and the region and the senson to date, and vegetation and the senson to date, and vegetati

THE DRY GOODS TRADE.

New York, Friday Night, May 15 1914. The dry goods trade has shown signs of improvement during the week, although business has been restricted by unseasonable weather conditions here and in many other sec-tions of the country. Prices on staple lines of cotton goods are considered to be at rock bottom, and efforts on the part

RONICLE 1549 of buyers to secure concessions on business for forward de-invanifacturers could secure a large volume of orders if they would cut prices an eighth to a quarter cent. Prices on fin-shed goods now compare very favorably with other periods when the cost of raw material was lower than it is now, and when stocks in the hands of merchants were more plen-tiful than at present. It is not thought that buyers can delay much longer in placing their forward requirements if they expect to obtain goods when needed, and some of the in-quiries now in the hands of selling agents are expected to ma-terialize when it is found that manufacturers will not make a fair business has been secured since the first of the month for deliveries running through August. Jobbers are not prepared to meet any extra heavy dimand and there are no required to meet any extra heavy dimand and there are no son manufacturers are determined to go slow in the expect-tion that they will secure full prices in the long run. Hand-lers of summer wash goods fear that more business has been sort through unseasonable weather than can be made up by any late improvement in demand. Speculation in staple ines is not heard of these days, although from the under-son the part of merchants to place forward business at pre-valing prices, it would seem that the opportunity is ripe for profitable speculation against the future. Many large and strong retail institutions now hesitate in placing business a formorthe ahead at prices which involve a risk of only a quarter of a cent or so per yard. Business in woolens and worsteds is spotted; dress goods lines are doing well for the all season, while advancing prices are restricting fall buying of mer's wear. Export trade in cotton goods continues quiet, with little prospect of improvement in the near future. Stocks at leading ports are plentiful and the prices ruling of most cases much lower than anything American manu-action most cases much lower than anything American manu-terin most cases much lowere

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending May 9 were 6,506 packages, valued at \$334,950, their destination being to the points specified in the tables below:

points specified in the tables	1	914	1	913
New York to May 9— Great Britain Other European China India, Arabia Arabia Arrica West Indies Mexico Central America	2.024 1.378 447 159 758 16 565	Since Jan. 1. 1.307 1.253 32.325 6.139 5.012 4.074 20,830 277 8.783	Week, 10 84 390 658 575 52 354	Since Jan. 1. 462 390 25,290 6,783 13,900 11,865 15,512 1,251 6,275

and from very poor weather conditions this spring. Gray goods, 38-inch standard, are quoted 5 1-16c. to 53%c. WOOLEN GOODS.—A heavy demand for woolens in rough finishes is the feature of the market just at present, and as a result most manufacturers are giving their whole attention to goods of this sort. The new cape and loose cloak styles for the coming fall are responsible for the prefer-ence shown these goods, and many new tickets have been placed upon the market at attractive prices. Foreign manu-facturers of ready-to-wear garments are making strong bids for business in finished garments in this market, and are re-ported to have a slight advantage, owing to the fact that the new styles, being of foreign origin, are better understood by them. Fall trade in other lines is moving quietly, with a good business reported in serges and broadcloths. Men's wear buyers are slowing up as a result of the higher prices being named, but the tendency to higher levels has also served to check any further cancellations of business placed earlier. FOREIGN DRY GOODS.—Business in staple and novelty linens awaits improvement in the weather, although a better call for dress fabrics is reported since the first of the month. Many attractive lines of sheer linens for shirt waists are being offered and are well received. The trend of styles continues to be against staple linens and in favor of silks, silk mixtures and novelty cotton constructions, although a better demand for the old line linens is reported from rural sections of the country, where styles are not the feature. Household lines are moving steadily, demand being benefitted by the addi-tional inquiry for furnishings at summer resorts and out-ing places. Burlaps continue to rule quiet, with prices steady. Light-weights are quoted 4.75c. and heavy-weights at 5.75c. to 5.80c.

GEORGE 1. SKINNER. Acting Superintendent.

GEORGE 1. SKINNER. Acting Superintendent. Philadelphia, Pa.—Supreme Court Delivers Opinion Concerning City Loans.—As previously stated in these columns, the Pennsylvania Supreme Court, in preliminary opinions handed down March 30, declared illegal the \$8,600,000 bonds voted (but not yet issued) last November and enjoined the city from holding an election March 31 to vote on an addi-tional loan of \$12,900,000. Subsequently, on April 7, the Court re-opened the cases, principally for the purpose of hearing argument on the constitutionality of the Act of June 17 1913 under which additional personal property (\$571,539,535 75) is assessed, thus increasing the taxable property to which the 7% debt limit is applied in fixing the power of the city to increase its indebtedness. In the final opinions, which were handed down last Monday (May 12), the Court sustains the constitutionality of the Act in question, but holds at the same time that loans authorized but not issued and the portion of the city's indebtedness assumed by the Board of Education cannot be excluded in determining the city's borrowing capacity. **Toto Rico.**—Bond Sale.—On May 15 the \$200,000 4% 10-25-year (opt.) gold registered tax-free coupon bonds (V. 98, p. 1473) were awarded to Breed, Elliott & Harrison of Indianapolis at 100.81.

Bond Calls and Redemptions.

Japan.-Bonds Drawn for Redemption .- Notice is given (see official advertisement on preceding page) that 10,000,000 yen of the 5% loan bonds (internal issue) were drawn for redemption in Japan on May 5, redeemable on May 30 1914 in Japan. For the convenience of the holders of these bonds, a list of the drawn bonds will be posted by the Yokohoma Specie Bank, Ltd., 55 Wall St., N. Y. City, about May 30,

Missouri.—Bond Calls.—Whitaker & Co. of St. Louis, in their quotation pamphlet dated April 15, include the follow-ing list of municipal bonds which have been called for redemption:

The Union Trust Company of New York has renewed for a term of years its lease of the quarters occupied as a Branch Office at the corner of Fifth Avenue and 38th Street. This gives the Company two permanent and well-equipped branches for its up-town business—the 38th Street Branch in the heart of the busy Fifth Avenue shopping district, and the Plaza Branch at Fifth Avenue and 60th Street, just opposite the entrance to Central Park.

The facilities of all the offices of the Company are offered to depositors of either Branch or of the Main Office at 80 Broadway. The Union Trust Safe Deposit Company, entirely owned by

the Union Trust Company, conducts modern safe deposit vaults at both Branches.
