THE FINANCIAL SITUATION.

Banking interests and the Government have dealt in a commendable way with the extraordinary crisis that has arisen in the world's affairs. Measures have been adopted for conserving the country's gold resources and the machinery has been set in motion for providing additional circulating media to supply the extra demand for currency to conduct mercantile and financial operations. Congress has done its part and amended the law for the issuance of emergency currency so as to remove all limit as to the aggregate amount of notes except the limit based upon the capital and surplus of the banks.

The volume of circulating media required in a period of monetary distress and disturbed confidence is undoubtedly greater than that needed when things are in a healthy and normal state. Nevertheless, the utmost care should be exercised against the possible abuse of the privilege. It is perfectly obvious that no emergency currency and no Clearing-House certificates will be put out except on adequate security. The Government will see to that, and so will the Clearing-House authorities. Absolutely no ground for apprehension exists on that score. But it is possible to put out too many notes and certificates even if they are abundantly secured. All new issues should be fortified by adequate gold reserves, and yet at the moment extra supplies of gold are hard to get. We notice that Congress this week, in amending the law regarding emergency currency issues, provided that a 5% gold reserve against the same must be maintained with the Treasury Department. This is a step in the right direction, and is a recognition of the need referred to, though the percentage of reserve fixed seems rather meagre.

There is another aspect of these new note issues that should not be overlooked. At the moment it seems to be thought in the highest degree commendable to take out these notes with the utmost freedom as a token of a desire to assist the community and guard against the development of panicky conditions. But it should never be forgotten that while the issuance of new notes serves to add to the circulating medium, it is at the same time going into debt, and we need hardly say that incurring overmuch debt is always hazardous, no matter how extensive the resources on which the debt is based.

When the banks put up securities or mercantile paper in order to get some of the emergency currency, they are incurring an obligation which must ultimately be repaid. The interest or tax which the borrower has to pay on the notes will act to compel their ultimate retirement, but much less surely than under the provisions of the original Aldrich-Vreeland emergency currency law. In the original law the initial rate of interest was 5%, increasing by 1% a month until 10% was reached. Now the rate is only 3% per annum for the first three months, and increases $\frac{1}{2}$ of 1% a month, while the maximum is fixed at 6%.

The need for caution in the issue of this emergency currency is all the more urgent inasmuch as the duty rests upon us to secure, not alone our domestic resources but also in a measure those of the rest of the world. With all the leading countries of Europe at war and their financial position jeopardized thereby, the United States is the only haven where capital can count upon absolute safety. As a result

of this condition large credits will undoubtedly be established here on foreign account, and it would not be surprising if special gold funds were also created here for the benefit of foreigners. The arrangement just entered into between the French Government and J. P. Morgan & Co., under which the latter firm will have charge of a gold fund to take care of the special needs of the French Government, is likely to prove the forerunner of many other similar transactions should the unsettled state of things abroad be long continued. It seems incumbent therefore upon our bankers to proceed cautiously in encouraging the creation of paper-money tokens. They will thereby show due appreciation of the new responsibilities being thrust upon this country and of the sense of obligation which such responsibilities impose.

The official report on the grain crops for Aug. 1, made public by the Department of Agriculture yesterday afternoon, clearly reflected the unfavorable weather conditions that prevailed during July over a large section of the cereal-producing area and was, therefore, in consonance with general expectations. Reports from time to time during the month indicated important damage to corn and spring wheat by dry, hot weather, and in the case of the last-named rust was also referred to, and within the last week further deterioration is reported by reliable crop observers. Returns from the winter-wheat harvest, on the other hand, are even better than a month ago, holding out a promise of a still larger yield than then looked for.

For corn the average condition on Aug. 1 is given by the Department as only 74.8, this being a deterioration of 11 points from July 1 and actually 1 point lower than at the same date a year ago. It compares, moreover, with 80 in 1912 and a ten-year average of 81.9. The situation in most of the large corn States is less satisfactory than in 1913, the notable exceptions being Kansas, where the condition of 30 then reported indicated a virtual crop failure, and Nebraska and Oklahoma. This year Missouri, Illinois, Ohio, South Dakota, Texas and Indiana all show more or less deterioration from a year ago, varying from 2 points in the first-named to 17 points in the last. On the basis of the average condition Aug. 1, the indicated yield per acre is officially figured out to be 25.1 bushels, foreshadowing a total crop of 2,634,000,000 bushels, as against 23.1 bushels per acre, and an aggregate yield of 2,447 million bushels in 1913 and 3,125 million bushels (the high record) in 1912.

With regard to winter wheat, the Aug. 1 report encourages belief, as already stated, in an even better outcome than had been forecasted on July 1. The yield per acre is now estimated at 19.1 bushels, against 18.5 bushels, the figure announced on July 1, and the aggregate product as approximately 675 million bushels—a new record—exceeding that of 1913 by over 150 million bushels and contrasting with 400 million bushels in 1912.

Spring wheat exhibits a falling off in condition of 16.6 points for July, and at the same time the status of the crop Aug. 1 (75.5), although a little higher than at that date last year, is low, comparing with 90.4 in 1912 and a ten-year average of 80.1. The indicated yield per acre is stated at 13.1 bushels, against 13 in 1913 and 17.2 in 1912, and on that basis the total crop figures out 236,000,000 bushels,

against 233 millions last year and 330 millions in 1912—the high record. For spring and winter wheat combined the current expectation, according to the Department, is for a yield of 911,000,000 bushels, or a new record by a considerable margin and 148 million bushels over the harvest of 1913.

Oats deteriorated to a less extent than spring wheat, but the condition as reported by the Department for Aug. 1 at 79.4 contrasts with 84.5 a month earlier, 73.7 in 1913, 90.3 in 1912 and a ten-year average of 80.9. A yield of 30 bushels per acre is estimated, which on the area under cultivation would give a crop of 1,153 million bushels, against 1,122 million last year, and the 1912 record total of 1,418 million bushels. The amount of oats in farmers' hands in the United States Aug. 1 was considerably less than at the corresponding time in the previous year, due to the smaller yield of 1913. The total promulgated is 62,467,000 bushels, against 103,900,000 bushels. In 1912 the holdings were only 34,872,000 bushels.

Bank clearings in the United States for July, while in no sense reflecting any special revival of commercial or industrial activity, make a better exhibit with the previous year than did previous months of 1914, the generally favorable crop outlook having served as a stimulus to trade in many directions. Speculative operations continued comparatively dull, however, transactions on the various stock exchanges of the country reaching rather small aggregates, though the latter part of the month the situation of affairs in Europe led many foreign holders of American stocks to throw their holdings upon the New York Stock Exchange and compelled the closing of the Exchange on July 31.

Our statement of clearings for July given on the first page of this issue includes altogether 160 cities, of which 83 report aggregates in excess of 1914, with the percentage of gain quite large in some instances. For all the municipalities outside of New York the July clearings aggregated \$6,315,900,959, against \$6,209,537,843 a year ago, or a gain of 1.7%, and contrasted with 1912 the increase reaches 5.2%. At New York the current year's figures, at \$8,180,484,621, exceed 1913 by 11.4%, and two years ago by 3.3%, so that for the whole country the month's result is \$14,496,385,580, or 6.9% more than a year ago. For the seven months there is a nominal gain at New York as compared with 1913 (0.2%), the outside cities showing an increase of 0.07%, and the total of all a gain of 0.2%.

Speculative transactions on the New York Stock Exchange in July were of restricted volume day by day until the 28th, when the war scare in Europe precipitated a selling movement and increased dealings. The closing of the Exchange followed on the 31st. The dealings of the month aggregated 7,920,924 shares, against 5,124,015 shares in July 1913, a little over 7 million shares in 1912 and no less than 14,254,713 shares in 1910; for the seven months they were only 45,990,575 shares, against 51,381,313 shares last year and 112,095,658 shares four years ago. The seven months' record made in 1901 is 192,080,413 shares. Bonds were more freely traded in during the month, the increase being due mainly to dealings in speculative issues. The transactions since Jan. 1 total 425 million dollars, par value, against 319 millions, 457½ millions and 528 millions, respectively, in 1913, 1912 and 1911.

The Canadian clearings exhibit for July does not differ so essentially from the preceding month as to call for extended comment. At most of the cities in the Eastern Provinces gains over 1913 are shown, but Western municipalities continue to furnish evidence of lessened activity. The aggregate for 21 cities for the month registers a gain of 0.7% over July of last year but for the seven months there is a decline of 7.3% from the high-water mark then established.

Commercial failures in the United States in July 1914, while much larger in number than for the like period of 1913, covered a volume of indebtedness only nominally heavier than then recorded, though being the largest for that month in very many years. The aggregate of liabilities reported by insolvents since January 1 is also in excess of that of all years since 1893. Insolvencies for large amounts, moreover, were a feature of the month, as they have been for some time past; in July, in fact, 29 failures contributed \$8,589,014 of the liabilities, while for the seven months 230 disasters, constituting only 2¼% of the whole number, covered 115 million dollars of debts, or quite a little over half of the grand aggregate. Four brokerage firms in New York (S. H. P. Pell & Co., Flower & Co., Homer, Howe & Co. and F. J. Frederickson & Co.) suspended the last day of the month as a direct result of the demoralization of financial markets brought about by the European war situation; but their liabilities are not included in the July statement, as no figures were available at the time the statistics were compiled.

The aggregate of insolvent liabilities in all mercantile and industrial lines in July 1914 reached, according to Messrs. R. G. Dun & Co., \$20,377,148, representing 1,411 defaults, this comparing with \$20,325,705 and 1,169 in the previous year and \$16,098,460 and 1,230 in 1912. Of the fifteen branches into which the manufacturing division is segregated, only six show heavier liabilities than in the month a year ago, but there is an aggregate increase of some 1½ million dollars. In the trading group, on the other hand, ten branches report debts greater than in July of last year, but for the whole division there is, nevertheless, a decrease of over one million dollars. Among brokers, transporters, &c., the exhibit is also more satisfactory, the drop in amount of liabilities from 1913 being over one-third of a million.

The showing for the seven months is much less favorable than a year ago. The number of insolvents is well ahead of 1913, but the amount of debts involved exceeds all earlier years except 1893, and last year largely. For the period in 1914, in fact, the number, at 9,715, and the debts, at \$205,476,878, contrast with 9,332 and \$153,234,766 a year ago, 9,547 and \$124,110,683 in 1912 and 8,187 and \$115,845,104 in 1911. The liabilities in manufacturing lines this year reach \$69,051,235, against \$63,483,323 in 1913; the comparison in trading branches is between \$110,599,066 and \$70,117,736 and among brokers, &c., \$25,826,577 and \$19,739,707.

Jose Castellot, representative of Provisional President Carbajal of Mexico, after a conference with Secretary Bryan on Thursday officially confirmed the statement that an agreement between Gen. Carranza and the Carbajal delegates had been reached, and expressed the opinion that the situation had

cleared and that the peaceful occupation of Mexico City by the Constitutionalists was assured. Carbajal has waived all conditions except the request for an amnesty and guaranties to life and property. Villa is mobilizing his troops, however, and there still seems danger of trouble from this source.

The much-dreaded general European war is now in full operation. In last week's issue we recorded the declaration of hostilities against Servia by Austria-Hungary and also the decree promulgated by the German Kaiser on Friday morning declaring that "a state of war" existed. The latter was at first regarded as a declaration of war against Russia. But this was not its purport, for it was merely a declaration of martial law under which the military authorities control the nation and by means of which mobilization may be secretly effected. The developments this week, which have come fast and furious, have included the formal declaration of war between Russia, France, Belgium and Great Britain and Italy on the one hand and Germany on the other. Austria-Hungary, so far as the definite records that have been received by cable show, has not in all instances been included in the declaration, but as Germany's openly there is no reason to doubt the fact. Austria formally declared war on Russia on Thursday. Servia must necessarily be included on the side of the Triple Entente (Great Britain, France and Russia), since it was the invasion of Servia by Austria that furnished the spark from which the great conflagration has grown. Montenegro has also joined on the side of the Triple Entente. Recording events in their chronological order, it may be stated that the time limit of Germany's ultimatum demanding that Russia cease mobilization having expired at noon on Saturday, at 7:30 p. m. the German Ambassador at St. Petersburg delivered on the same day to the Russian Government a declaration of war in the name of Germany. On Sunday the German forces began the invasion of France, two German detachments entering French territory and moving in the direction of Paris. Russia on Sunday began the invasion of German territory, its troops having crossed the German frontier at Schwinden, southeast of Biella, while on Saturday night the Russian patrol was reported from Berlin to have entered Germany near Eichenreid in Posen.

Germany delivered an ultimatum to Belgium on Monday morning, agreeing to assure the integrity of Belgian territory if the passage of the German troops would be permitted. Belgium refused and after appealing to Great Britain told Germany she would resist the passage of troops through the Kingdom. On Tuesday the French Minister of War at Paris issued the following note:

"The German Ambassador has demanded his passports, and diplomatic relations between France and Germany have been broken off.

"War is declared.

"The first act of the Germans, according to information from a positive source to the Minister of War, was to execute M. Samain, former President of the French War Society, who lived in Metz, and to imprison all the members of that society."

On Tuesday Great Britain sent an ultimatum to Germany, demanding by midnight a reply in which Belgian neutrality should be agreed to. At the same time King George proclaimed the mobilization of the British army. Great Britain declared war on

Germany at 7 o'clock p. m. on Tuesday, Aug. 5, "as from 11 o'clock p. m." The following official statement was issued by the British Foreign Office at 12:15 o'clock on Wednesday morning (Aug. 5):

Owing to the summary rejection by the German Government of the request made by his Britannic Majesty's Government for assurances that the neutrality of Belgium be respected, his Majesty's Ambassador at Berlin has received his passports and his Majesty's Government has declared to the German Government that a state of war exists between Great Britain and Germany as from 11 p. m., Aug. 4.

The following is the official text of the British Government's announcement of Germany's declaration of war against Great Britain:

The Government is informed that Germany declared war against this country at 7 p. m. to-day, when the British Ambassador was handed his passports. A state of war therefor exists between Germany and this country as from 7 p. m. Aug. 4.

At the same time it was stated officially that Germany's reply to the British ultimatum demanding respect for the integrity of Belgium was unsatisfactory. On Wednesday a large force of German troops crossed the Belgian border at three points and began a concerted attack on Liege, the chief strategic point in Belgium, for an advance on France from that quarter. The Belgians repulsed the invaders, to the consternation of the latter. The difference in time in the British notes above has a special reference, apparently, to the attitude of Italy. Italy on Monday decided to remain neutral, taking the ground that her obligations in the Triple Alliance were confined to participation in armed conflict only in the event of her allies being attacked. In the present instance the allies were the aggressors. On Thursday the Kaiser sent an ultimatum to King Victor Emmanuel, calling upon Italy to live up to her obligations under the Triple Alliance. Italy, in response last evening (Friday) declared war on Germany, its former ally.

The direct cable between this country and Germany having been cut, and a severe censorship being exercised over messages by all countries concerned, reports of military and naval engagements must necessarily be taken with reserve. There appears no doubt as to the accuracy of the news that the Belgians administered a most serious check to the Germans while the latter were invading their country on their way to France. No decisive conflict between the British and German fleets has yet been reported, although cable advices agree that one is imminent. The Japanese Foreign Office on Tuesday issued a statement that if the war extends to the Far East and England is involved in it, Japan may find it necessary to participate in fulfilment of the Anglo-Japanese Alliance. It was reported early in the week that Emperor Francis Joseph of Austria had been assassinated. The report did not prove correct. At The Hague on Thursday an official gazette proclaimed the strictest Dutch neutrality in the war. The Austrians have apparently for the time being abandoned as a practical proposition the invasion of Servia in order to be able to hold back the Russians.

The British Parliament on Thursday granted £100,000,000 for war and voted to increase the army by 500,000 men. This followed a vote of £105,000,000 "for emergency purposes" by the House of Commons on Tuesday. The financial plans of France

have not been definitely stated, although one measure was introduced in the French Parliament on Tuesday authorizing the Bank of France to increase its note issues to 12,000,000,000 francs. Last week's report of the Bank showed a total of 6,683,185,000 francs.

President Wilson on Tuesday issued a formal proclamation of neutrality, expressly forbidding the fitting out of ships for battle or enlisting men for foreign armies or permitting facilities of our country to be used in any way for or against any of the belligerents. No ship of war or privateer of any belligerent will be permitted to make use of any port, harbor, roadstead or waters subject to the jurisdiction of the United States from which a vessel from an opposing belligerent (whether the same shall be a ship of war, a privateer or a merchant ship) shall have previously departed until after the expiration of at least twenty-four hours from the departure of such last-mentioned vessels beyond the jurisdiction of the United States. If any ship of war or privateer or belligerent shall enter any port, harbor, roadstead or waters of the United States, such vessels shall be required to depart and put to sea within twenty-four hours after entrance into such port, harbor, roadstead or waters except in case of stress of weather or of her requiring provisions or things necessary for the subsistence of her crew or for repairs; in any of which cases the authorities of the port or nearest port (as the case may be) shall require her to put to sea as soon as possible after the expiration of such period of twenty-four hours without permitting her to take in supplies beyond what may be necessary for her immediate use; and no such vessel which may have been permitted to remain within the waters of the United States for the purpose of repair shall continue within such port, harbor, roadstead or waters for a longer period than twenty-four hours after her necessary repairs shall have been completed unless within such twenty-four hours a vessel, whether ship of war, privateer or merchant ship of an opposing belligerent shall have departed therefrom, in which case the time limit for the departure of such ship of war or privateer shall be extended so far as may be necessary to secure an interval of not less than twenty-four hours between such departure and that of any ship of war, privateer or merchant ship of an opposing belligerent which may have previously quit the same port, harbor, roadstead or waters. It is further provided that no ship of war or privateer or belligerent shall be permitted to take in any supplies except provisions, &c., and, except so much coal only as may be sufficient to carry such vessel, if without any sail power, to the nearest port of her own country, or in case the vessel is rigged to go under sail and may also be propelled by steam power, then with half the quantity of coal which she would be entitled to receive if dependent upon steam alone. And no coal shall be again supplied to any such ship of war or privateer in the same or any other port, harbor, roadstead or waters of the United States, without special permission, until after the expiration of three months from the time when such coal may have been last supplied to her within the waters of the United States, unless such ship of war or privateer since last thus supplied has entered a port of the government to which she belongs. We give the neutrality proclamation in full on a subsequent page.

After a series of conferences with his Cabinet and other advisers, President Wilson on Tuesday offered the services of the United States in the interest of peace. The offer was conveyed to the European capitals through their embassies here.

One of the spectacular features of the week was the unexpected arrival at Bar Harbor, Maine, of the North German Lloyd steamship Kronprinzessin Cecilie, which left this port bound for Southampton and Berlin on Tuesday of last week. She was a treasure ship, as she had on board \$10,697,000 in gold and a considerable amount of silver. The vessel proceeded on her way until Friday night, when, on nearing Plymouth, she received instructions by wireless to proceed with all speed to the nearest American port, as war was imminent. The mails and specie, after having been landed at Bar Harbor, were forwarded to New York, and the gold is to be returned to the original shippers. The failure of the gold to reach its original destination, namely London and Paris, added, not unnaturally, to the demoralization into which the market for foreign exchange had already been thrown. Reports were current of the Cecilie having been pursued by French or English cruisers. The accounts in this direction, however, were largely circumstantial, and seemed to be part of the urgent demand for the sensational in news.

One of the most distressing features of the European conflict outside of the financial disturbance has been the unfortunate plight in which thousands of American tourists have found themselves. With the interruption of steamship sailings, with the lack of communication between the belligerent countries, and with the complete breaking down of foreign exchange machinery, thousands of Americans have been left without funds and without means of reaching home. Their letters of credit became valueless. Bankers promptly took the matter up and our own Government has also shown itself alive to the seriousness of the situation. The worst part of the strain appears to have been surmounted. The first step took the form of banking relief in the establishment by the Bank of France, through J. P. Morgan & Co., of a credit in the United States on which the Bank could draw for bills incurred here. The credit transferred to this side through Morgan, Harjes & Co. in Paris was \$6,000,000. This sum was credited in New York to the account of the French Ambassador at Washington. A considerable part of the money thus made available in France will be used for the relief of stranded Americans in Paris. A similar arrangement, it is understood, is now under negotiation with London.

The armored cruiser Tennessee of the United States navy sailed, presumably for Falmouth, on Thursday carrying \$4,500,000 in gold for the relief of American tourists who are stranded in Europe. The amount of gold that it was originally intended to send by the cruiser was reduced to this figure because of the transaction of the Bank of France with J. P. Morgan & Co. At one time there appeared to be some doubt as to the necessity of sending any gold at all in this arbitrary way in view of the easier feeling in foreign exchange circles. There was also some difficulty in obtaining insurance for the gold, as underwriters are already so heavily involved in gold risks that they are indisposed to increase their burden. Of the gold carried \$1,500,000 was from a fund appropriated

by Congress for the relief of American tourists. The remaining \$3,000,000 in gold was delivered by a committee of ten bankers.

Bankers in New York, as soon as the news of the declaration of war by Germany on Russia was announced, recognized the strain that would have to be met. The New York Clearing-House Committee was in session during the greater part of Sunday, and there was also a conference of leading bankers at the Vanderbilt Hotel on Sunday night. After the meeting Secretary McAdoo made a formal announcement that arrangements had been made for the issuance to the New York banks of \$100,000,000 of additional currency, if required, to enable them to respond promptly to the calls of their correspondent banks throughout the country for money to meet the demands for crop-moving and other purposes. The Secretary stated it was his intention to permit the issue of similar currency to banks in other sections of the country upon their application to the Treasury Department and compliance with the provisions of the Act. The Clearing House on Monday decided to issue Clearing-House certificates for the settlement of differences between banks. These and other emergency measures which were subsequently adopted served to bring about a comparatively calm situation in banking circles during the week. The chief drawback remaining was the complete disorganization of foreign exchange. So far as the New York stock market is concerned, there have been gradual deliveries in settlement of business transacted at the closing session of the Exchange on Thursday of last week. Thus the nervousness that followed the necessity for closing the Exchange has in a measure been relieved. It is yet too early to make any predictions as to the date when the Governors of the Exchange will feel disposed to order a resumption of business. It may be stated, however, that ample notice of the opening will be given and that financial affairs as a whole will be, as far as human foresight can judge, in an entirely sound condition.

Abroad, financial business has reached a stage of complete suspension. There has been some intimation that the London Stock Exchange will be opened for cash business in a few days in order to facilitate the distribution of the English war loans. No definite decision in this respect has been announced by cable. A dispatch as late as last Tuesday announced that the Parquet of the Paris Bourse was still open though no attempt was being made to do business. It is also uncertain whether other of the large Continental exchanges have officially closed down. No definite word, for instance, so far as we have been able to observe, has been received by cable stating whether the Berlin Bourse, the Vienna Bourse or the bourses at Budapest and Hamburg have really officially suspended business. But it seems quite safe to assume that if they are open they are only nominally so. On Wednesday announcement was made that trading on the Bourse at Rome had been suspended indefinitely and that the Italian Government had issued three decrees affecting financial business. The first of these decrees authorized the savings banks to limit until Aug. 20 the payment of more than 5% of deposits except that they must pay any depositor having sufficient funds in the bank not less than 50 lire (\$10) on demand; the second suspended for

twenty days all payments with Italy, and the third authorized banks to increase their note issues.

Press dispatches have been somewhat indefinite as to the official action taken by foreign governments in the way of suspending contracts between individuals. On Sunday the French Minister of Finance announced a moratorium suspending the payment of all debts in France until Aug. 31. According to the London Press Association King George signed a proclamation on Sunday authorizing the suspension of specie payments. Last Monday was a Bank holiday in London and it was decided to extend the holiday until yesterday (Friday), when the London banks reopened. It was at first reported, then denied, that the English Bank Act had been suspended. The latest definite information in this respect was a cable received by the National City Bank on Thursday from London to the effect that the Bank Act had been definitely suspended and that additional Bank of England notes were being issued in denominations of 10s. and £1. London bankers were also said to be recommending the circulation of Post Office money orders of small denominations. The National City Bank also received from its London representatives the following cable referring to the English moratorium: "Moratorium only affects bills of exchange other than checks or demand bills. Bills accepted before Aug. 4 must be re-accepted, extending the maturity one calendar month from date of original maturity. Amount then payable is plus accrued interest at Bank rate current at date of re-acceptance. The prescribed form of re-acceptance follows: 'Re-accepted under proclamation of Aug. 2 1914 (stating total amount due, namely, amount of bills plus interest).'

As the private banks throughout the world have stopped buying bills, private discount rates are entirely nominal. On Saturday the Bank of England rate was advanced to 10% from Friday's quotation of 8%. On Thursday, however, a reduction to 6% was made with the announcement that the Bank Act had been suspended. A press dispatch from London yesterday stated that a further reduction in the English Bank rate to 5% would be announced to-day. On Saturday, also, the Imperial Bank of Germany advanced its rate to 6% from 5% on Friday and 4% the rate previously ruling since Feb. 5. The same day the Bank of France advanced its minimum to 6% from 4½% for discounts, while its rate for loans was 7%. The Bank rate in the Netherlands on Saturday was raised to 6% from 4½% and the Bank of Belgium quoted 6% as against 5% on Friday. On Monday the Austro-Hungarian Bank advanced its minimum rate to 8% from 6%. On Saturday Switzerland advanced its rate to 5½% from 3½% and on Tuesday Denmark advanced from 5% to 7% while Norway on the same day advanced to 6½% from 5%.

The usual weekly statements of the European banks have not been published this week, except that of the Bank of England. The Bank of France has definitely announced that the return would not be issued. The Bank of England in its weekly return on Thursday reported a decrease in its gold coin and bullion holdings of £10,509,475. The Bank's gold holdings now amount to £27,622,069, which compares with £39,013,434 in 1913. The total reserve showed a

contraction of £16,908,000 and notes reserved a reduction of £17,029,000. There was an increase in note circulation of £6,399,000, a decrease of £1,213,000 in public deposits, an increase of £2,330,000 in other deposits and the large increase of £18,044,000 in loans (other securities). The proportion of reserve fell to 14.60% from 40.03% last week and compares with 55.92% at this date last year. The reserve aggregates £14,811,000, against £27,507,169 at this date in 1913, and the loans £65,351,000, against £26,988,361. Our special correspondent furnishes the following details by cable of the gold movement into and out of the Bank for the Bank week: Imports, £442,000 (of which £174,000 from Brazil and £268,000 bought in the open market); exports, £2,740,000 (of which £1,130,000 to France, £548,000 to Belgium, £250,000 to Gibraltar, £100,000 to Egypt, £80,000 to Malta, £60,000 to Switzerland and £572,000 to other Continental points), and shipments of £8,211,000 *net* to the interior of Great Britain.

The local money market has not been called upon to meet important demands. Rates have very largely been a matter of negotiation. The Stock Exchange being closed there has been no regular market for call loans, and what transactions have been reported have been within a range of 6 to 8%. Canadian banks in some instances called in loans and some of the interior banks asked their New York correspondents to call in loans placed for their accounts. These requests the New York banks declined to carry out on the ground that the Stock Exchange was closed, and the calling of loans would be likely to result in inconvenience. A feature of the week has been the taking up by customers of securities from commission houses that the latter were carrying on margins. This, however, did not involve any important changes in the volume of outstanding loans as brokers would necessarily have to pay off loans in order to obtain the collateral to make their deliveries. Last Saturday's bank statement showed an increase of loans of \$1,182,000 and a decrease of \$46,776,000 in deposits. There was a reduction of no less than \$56,299,000 in cash and of \$43,599,500 in the cash surplus above requirements. In fact, instead of a surplus a deficit of \$17,425,750 was reported. A year ago the surplus above requirements was \$26,208,100 and two years ago there was a surplus of \$20,398,950. The banks reported a reduction of \$49,212,000 in their cash in vaults and the trust companies a reduction of \$7,087,000 in cash in vaults and of \$10,692,000 in cash in banks.

Referring to call money rates in detail, we may say that the range on Monday was 6@8%, with the 6% the ruling figure; on Tuesday there was only one rate, namely 8%; on Wednesday 8% was the highest, 6% the lowest and 8% the ruling rate; on Thursday only a single rate of 8% was quoted. Friday's range was 6@8%, with 6% the ruling figure. The Stock Exchange Committee early in the week ruled that stocks being carried by its members should be charged at the rate of 6% for money. Time money at the close was nominally quoted at 8% for sixty and ninety days, 7% for four months and 6% for later maturities up to six months. Commercial paper closed 5½@6% for sixty and ninety days endorsed bills receivable and for four to six months' single names of choice character. Names less favorably known may be quoted at about 6½%.

The market for sterling exchange, as will be readily inferred from our remarks in preceding columns, has been at a complete standstill. Having no credits abroad, foreign exchange houses are unable to draw, and as the movement as a result of the heavy sales of American securities is at present all one way, and as, moreover, there is a very active demand to send relief to American tourists, there has been an active demand for remittances. People anxious to make remittances to their relatives and friends abroad have been willing to pay any price asked. In this way small transactions have been made as high as \$7 to the pound sterling for cable transfers. Later in the week some small amounts of business were reported on the basis of 6.25. Towards the close of the week the arrangement between J. P. Morgan & Co. and the Bank of France, to which we have already alluded, exerted a reassuring influence. The total gold engaged for Europe this week, including the shipments on the Government cruiser Tennessee, is \$9,423,000. In addition, \$11,380,000 was withdrawn for shipment to Canada. The latter represents the calling of their New York loans by the Dominion banks and is expected to continue, as New York exchange in Montreal closed at the high discount of \$1 25 per \$1,000.

The demoralized condition of sterling exchange was the subject of a meeting of foreign exchange bankers on Saturday at the offices of the Guaranty Trust Company. The matter was referred to a committee composed of Max May of the Trust Company in question; R. Y. Hebden of the Bank of Montreal; August Ulrich of Ladenburg, Thalmann & Co., John E. Gardin of the National City Bank and A. H. Pavenstedt of G. Amsinck & Co. The committee went to Washington to confer with the Secretary of the Treasury with the view of seeking Government co-operation. They reported to an adjourned meeting of the bankers on Monday without definite result. Later a nominating committee was appointed to arrange a permanent committee. On Wednesday J. J. Hannauer of Kuhn, Loeb & Co. reported the following names for an enlarged committee: Chairman, John E. Gardin; Max May, R. Y. Hebden, Henry Ickleheimer and A. Pavenstedt. The President of the New York Produce Exchange appointed a committee composed of William H. Kemp, C. R. Carhart, George W. Blanchard, William Riemschneider and Benjamin B. Colby to meet the bankers' committee for the purpose of discussing such matters as will lead to a relief of the present serious situation surrounding the export and import of commodities. The two committees have not yet held a joint meeting; but the committee of foreign exchange bankers at a meeting thoroughly discussed the situation and came to the conclusion that until the supremacy of the seas had been established, the question of an open foreign exchange market would have to remain in abeyance. But in the meantime it was recommended that shippers of grain and other commodities require of the purchasers that a satisfactory credit be opened, either in London or in New York. The responsibility for the documents, bills of lading, insurance certificates, including war risks, to be upon the shoulders of the bankers granting the credit. "This is the only way," according to a formal statement by Mr. Gardin, which was issued after the conference, "that a solution can be found at the present moment for a partial relief of the congestion that

has arisen in consequence of the war conditions. Various committees were appointed and peculiarly knotty points arising out of the present conditions were discussed, and it was decided to bring these points to the attention of legal authority with a view of making a recommendation to the bankers later on at a subsequent meeting."

Compared with Friday of last week, demand sterling and cable transfers on Saturday made still further spectacular advances, being quoted at 5 50@6 00 and 7 00 respectively, but without possibility of transacting business; sixty day bills are not quoted; the imminence of a general European conflict caused a complete paralysis of exchange operations. On Monday the market adopted a waiting attitude, pending further developments in the European war situation; a few small transactions were arranged for cable transfers on the basis of 6 25@6 75, but no other quotations were available. The conditions incident to the war crisis abroad continued on Tuesday; foreign exchange business was practically suspended, with the exception of cable transfers, which were again negotiated in small lots at a range of 6 25@6 75; no other quotations were named. On Wednesday relief measures were under discussion by a committee appointed for the protection of foreign exchange interests, but no definite plans had as yet been announced; actual hostilities between the great European Powers at war had commenced and dealings in exchange were at a complete standstill, with no quotations given. There were no new developments in the exchange situation on Thursday; war was actually in progress and trading in foreign exchange continued impracticable; no rates were quoted. On Friday the deadlock in exchange transactions remained unchanged. At the close no quotations are obtainable. Sixty days, nominal; demand, nominal; cable transfers, nominal. Commercial on banks nominal; documents for payment, nominal; seven-day grain bills nominal. Cotton for payment, nominal; grain for payment, nominal.

The New York Clearing-House banks, in their operations with interior banking institutions, have lost \$10,483,000 net in cash as a result of the currency movements for the week ending Aug. 7. Their receipts from the interior have aggregated \$13,894,000, while the shipments have reached \$24,379,000. Adding the Sub-Treasury operations and the gold exports, which together occasioned a loss of \$16,820,000, the combined result of the flow of money into and out of the New York banks for the week appears to have been a loss of \$27,303,000, as follows:

Week ending Aug 7	Into Banks	Out of Banks	Net Change in Bank Holdings
Banks' interior movement.....	\$13,894,000	\$24,377,000	Loss \$10,483,000
Sub Treas. oper. and gold exports...	25,672,000	42,492,000	Loss 16,820,000
Total	\$39,566,000	\$66,869,000	Loss \$27,303,000

The following table indicates the amount of bullion in the principal European banks.

Banks of	August 6 1914.			August 7 1913.

a Data for 1914 is for last week (July 30).

THE FINANCIAL CRISIS OF THE WEEK.

The events of the present week, on the markets of the world, have been such as only a fortnight ago the most experienced financier would have declared inconceivable. But that is only because a general European war had also been outside the domain of serious business calculations. Such a war has, it is true, been discussed intermittently and vaguely during the forty-three years since the Peace of Paris, and apprehensions on the European markets have flared up with each collision of interests between the great European Powers—in Afghanistan in 1884, at Constantinople in 1895, at Fashoda during 1898, in Morocco in 1911 and in the Balkans at all times, with a culmination in 1913. But despite these occasional apprehensions, the actual effort to picture an outcome of the sort baffled the financial imagination. Being unable to conceive the resultant circumstances in finance, markets dismissed the idea of a general European War as a practical consideration.

It is, however, evident that in one way the markets as well as the foreign offices have been preparing with instinctive apprehension for the present crisis, during the past twelve months. It has long been a legend on the European markets that in 1911, during the clash between France and Germany over Morocco, the Kaiser asked the Berlin bankers if the German markets were in a situation to confront the chance of war, and received a negative answer. The story goes that he bade them instantly put themselves into such a position. Whether this be true or not—and such stories are usually exaggerated—the fact remains that the Bank of Germany has added upwards of \$100,000,000 gold to its reserve since the Morocco incident. The great bulk of this addition has been accumulated since the recent Balkan war. Along with these accumulations at Berlin, the Imperial Bank of Russia has, since the outbreak of the Balkan war, added nearly \$150,000,000 to its home reserve of gold, while the Bank of France holds upwards of \$170,000,000 more than at that date.

Recent events have, in fact, thrown clear light on the recent urgent purchases of gold by the Bank of France, particularly in our market. All of this accumulation of gold reserves has proceeded, step by step, along with the increase in their military armaments and reserves by Germany and France. It is not improbable that history will hereafter look on the murder of the Austrian Archduke, during June, as only the incident which happened to throw the spark into the magazine. Had it not been this incident, it might easily have been something else which would have served the purpose.

But granting all this instinctive preparation, the fact remains that the world's greatest markets were incredulous to the last over the possibility of such a war and were caught off their guard by its actual outbreak. Probably this unreadiness would have been inevitable in any case. The interlacing credits of the world, under the present vastly expanded system of exchange of capital, have created a situation infinitely more intricate than existed at the time of the Franco-Prussian war, and so different in character and magnitude from that of the Napoleonic periods, as to make a financial and commercial parallel with that epoch quite impossible.

Considered in the broadest way, the first effect of the actual outbreak of war was the complete

breakdown of commercial and credit relations between the world's great markets. This was, indeed, inevitable from the mere fact that the countries in which those markets were located were confronted with an embargo on all mutual relations. We have now learned something of what this means.

As usual, the far-sighted Stock Exchanges saw the coming storm. The rush of European investors to their stock exchanges a fortnight ago, to turn their securities into cash, was the first plain warning. In some markets this appears to have occurred under the direct and public advice of important banks. The movement was particularly violent in case of securities of one nation held by investors of another, for in such case actual facilities for realizing were threatened to be blockaded at any moment. This liquidating converged with the utmost violence on the Paris Bourse, which early last week virtually stopped business under orders of the Government, being utterly overwhelmed by the liquidation from other markets. Thence the full force of the movement converged on London, where the Continental liquidation was so enormous and the consequences of withdrawal by foreigners, in the form of gold, of their resultant credit balances so formidable, that on Friday of last week the London Stock Exchange closed its doors. Our own necessarily followed suit, because of the same motives as existed at London.

But there came in immediate sequence, even in advance of actual declaration of war by England, a complete blockade of international credit. Merchandise trade, the fundamental basis of such transactions, was necessarily affected on a prodigious scale by the danger involved to shipping under the state of international hostilities and by the doubt as to collections. But this embargo left immense sums of bills of exchange outstanding at London, the world's clearing house, which were due to mature shortly, yet were uncovered by merchandise which could now be expected to arrive. The first protective measure on the London market, the advance of the Bank of England rate to 8% and then to 10%, was designed to stop peremptorily the foreign demand for gold.

The next emergency measure, declaration by Parliament of extra Bank holidays from Monday to Friday in the present week, was designed to protect the foreign exchange bankers. A general moratorium on settlements of indebtedness was then discussed; it was at once applied, in the case of bills of exchange, and, lastly, in preparing for the re-opening of business yesterday, after the special holidays, the final emergency expedient of a general moratorium for a month, on settlement of financial and commercial indebtedness, was decreed in Parliament. It was coupled with a reduction in the London Bank rate from 10% to 6%, but by the suspension of the Bank of England Act, for the first time since 1866. This action does not of itself suspend gold payments, but it permits the Bank to issue notes not covered in full by the institution's gold reserve. The figures cabled yesterday, giving the Bank of England's status, showed the necessity for such action. Its stock of gold had been cut down £10,509,000 in the week; its reserve of notes and gold combined £16,908,000, and the ratio of reserve to deposit liabilities fell to the amazingly low figure of 14.60%, as against 40.03% a week ago.

The moratorium—never resorted to before in England since modern finance and commerce reached its present status—explicitly excludes wages, salaries,

taxes, Government payments and insurance; it is purely designed to meet the critical emergency of the home and international banking situation. In France the same abnormal expedient was resorted to last week; in Germany it appears to have been authorized by the Government early this present week.

That our market should be involved in this extraordinary entanglement of credit was inevitable. Our bankers, like those of Lombard Street, held huge sums in uncovered foreign bills. Consignments of merchandise to our ports were blocked. Meantime our gold supply was threatened until the actual facilities of the foreign exchange market broke down. The possibilities of this situation, even to a market not entangled in the war, were of such far-reaching character as to suggest immediately the authorizing of the emergency bank note currency under the law of 1908 and the issue of clearing-house loan certificates for use in meeting balances between banks. These expedients averted panic by preparing against it in advance. The general consensus of opinion now is that the crisis was met with admirable wisdom, promptness and sagacity by the New York banks and by the Government at Washington.

The embargo on our inward and outward foreign trade resulting from this abnormal combination of circumstances remains yet to be dealt with. It is impossible to measure all its consequences. Exchange on London will, apparently, by degrees get once more into operation; so also will the trans-Atlantic shipping service, if England retains control of the seas. This should have its first effect in releasing the piled-up wheat awaiting shipment from our abundant winter-wheat harvest—supplies which our market is not only anxious to send forward, but which Europe absolutely requires for its own pressing needs.

How far the general problem of the trade entanglement can be solved with existing facilities so long as the war continues, is another matter. The problems which confront importing merchants with connections on the European Continent and the problems which affect the Government's revenue from customs are intricate in a high degree. That wide dislocation will be caused in our domestic trade is quite inevitable. Without doubt, some home productive industries will expand substantially, through the need of goods to replace, with home consumers, the blockaded imports. Other home industries must alter their methods and divert their scope of activity. Still others, even if enjoying a temporarily larger home demand, may ultimately be much embarrassed through the embargo on raw materials necessary to their production, and obtainable only through importation from Continental Europe.

In other words, we shall feel the effects of this European war for a considerable time to come, even though we have no direct connection with it. This is the Nemesis of all such barbaric conflicts. Nevertheless, it may be said, as a matter of historical fact, that rarely, if ever, has a neutral State on the outbreak of a general war, found itself in so enviable a position. We are self-sustaining; we have in store, and are producing constantly, goods such as Europe positively must get from us—notably our wheat and cotton. Above all, we are at peace, and will continue to employ to the full in our own peaceful industries the accruing capital of our people. If we have a rough road still to traverse, in this episode, it is still true that our eventual position, in regard to the outside world, may easily resemble that which was gained

by England after the long period of active production and commerce pursued in that nation for the benefit of the rest of the world during the Napoleonic wars.

THE COMMERCE COMMISSION'S RATE DECISION.

The decision of the Inter-State Commerce Commission on the petition of the railroads east of the Mississippi and north of the Ohio and Potomac rivers for permission to make a 5% advance in freight rates has created little surprise in railroad circles. The railroads expected little and they get little. Of course, to a starving man even a dry bone is welcome, but in no other sense can any comfort be derived from the action of the Commission. Over large sections of the territory covered by the petitioning roads no increase whatever is allowed, and in the particular section where it is allowed it is so whittled down by the exclusion of important classes of traffic, and by exceptions of various kinds, that the possible yield in additional revenues will at the best be exceedingly small. In the circumstances one can well believe the report that has been current that the roads think of addressing the Commission again, after having made careful computations of yield, with the view to asking whether that is all the Commission intended to grant.

At first sight an important point appears to have been gained in having the Commission declare flat-footedly that "the operating income of the railroads in Official Classification Territory, taken as a whole, is smaller than is demanded in the interest of both the general public and the railroads." But as the Commission manifests reluctance to respond to its own conclusions and refuses to recognize the obligation which it imposes, it is difficult to see where any advantage is to accrue to the carriers. In like manner the declaration that the public owes a duty to the owners of the railroads and "must afford them a full opportunity to earn a fair return on their investment and to share in the general prosperity" is an empty phrase so long as the Commission evinces no disposition to act in accordance with the rule laid down. As a matter of fact, this is merely a repetition of the statement which has appeared in many previous opinions of the Commission, and yet the roads have been able to get no help from the Commission in the direst cases, no matter how clear might be the need for urgent relief. "Fine words butter no parsnips," and this Commission, like an individual, must be judged by its deeds rather than its professions.

In dealing with the present financial difficulties of the railroads, the Commission expresses a desire to help in solving the problem created thereby. This desire is expressed in the following words: "It is our duty and purpose to aid, as far as we legally may, in the solution of the problem as to the course carriers may pursue to meet the situation." But after so frankly declaring its obligations, it falters and palters and practically does nothing for the relief of the roads. After pointing out that Official Classification Territory embraces three distinct rate divisions, known as New England territory, lying east of the Hudson River; Trunk Line territory, lying between New England and the Buffalo-Pittsburgh line, and Central Freight Association territory, lying between the Buffalo-Pittsburgh line and the Mississippi River, it disallows entirely all increase in rates in the first two great geographical divisions.

It does allow an increase in Central Freight Association territory, but so hedges it about, as already stated, with restrictions and exceptions, as to make the concession of very little value. It is undoubtedly true, as the Commission asserts, that rates in Central Freight Association territory as a whole are lower than the rates in either Trunk Line or New England territory, and also lower than in any other part of the United States. This being so, it would seem that the Commission, in a whole-souled way, should have provided relief adequate to the needs. But what does the Commission grant? It rules that the carriers in Central Freight Association territory are entitled to an increase of 5% on all class and commodity rates on shipments wholly within that territory *except* the rate on coal, coke, iron ore, cement, brick, tile, clay, starch and plaster, and any rates which are controlled by specific unexpired orders of the Commission. The unfortunate feature of this grant is that the excepted items of traffic form the great preponderating part of the whole. But the Commission goes even further in the exceptions it names, and adds: "The proposed increase in lake-and-rail rates and in rates between Central Freight Association territory and other portions of Official Classification territory are disallowed. The effect of the findings is also to disallow the application of the proposed minimum increase of 5c. a ton on those commodities for which a charge is now made of less than a dollar a ton."

Is it an exaggeration, therefore, to say that the permission granted will be productive of very little additional revenue?

The suggestions and recommendations made to the roads indicating how in various small ways they can improve their position may be taken for what they are worth. That passenger traffic fails to bear its proper share of the cost of transportation is beyond question. Nevertheless it will be no easy matter to advance passenger rates. The difficulty that there will be in doing away with the allowances to industrial plants has already been indicated by practical experience. As to "increasing rates that are found to be clearly unremunerative and modifying burdensome rules and regulations relating to minimum rates and similar matters," we imagine the Commission itself will be the greatest obstacle in the way. To the question of "increasing freight-car efficiency" railroad managers have been giving a large share of their attention for years, and while the possibilities in that direction have by no means been exhausted, there is little prospect of getting much in that way in the immediate future. "Fuel economy" is also being practiced and the promise of large results from that source at present is likewise dubious.

As to the remaining things recommended by the Commission, the carriers would not be justified in ignoring any of them; but as aids for improving their fiscal results for the immediate future, they are decidedly chimerical. The carriers were deserving of better treatment at the hands of the Commission and their failure to get what was so clearly necessary for placing their income on an assured basis so as to promote their credit will be sure to paralyze their activities for years to come. The Commission, we assume, aims to serve the public by withholding permission to make rate advances, but the public will itself be the chief sufferer from the inability of the roads to get the needed capital for the improvement and extension of their systems.

AVERTING A RAILROAD STRIKE BY THE USUAL METHODS.

The strike of locomotive engineers threatened, as the usual and forcible substitute for argument, on the ninety-eight Western roads latest involved was to have occurred yesterday, but it has been deferred—not prevented finally, but deferred to some future date—by the familiar device of a pretended arbitration. The managers of the roads say that the controversy had narrowed down to the single issue whether the roads “can be heard in arbitration on the claims made by them during their negotiations with their men?” This means that the men have repeated their usual statement of what they want and think they fairly ought to have, with the additional suggestion that if the roads were properly managed financially there would be no difficulty whatever in granting the demands, and also one very novel claim: that as fast as a heavy outlay of capital in betterments increases the efficiency, about which there has been so much solemn lecturing, the pay of the men should correspondingly rise. Per contra, the roads replied that this would require thirty millions more per year and is impossible.

This has been pleaded before, prior to and in course of professed arbitration hearings, and the professed arbitrators have either declined or avoided considering it. On one occasion, while perfectly clear about what the men “ought to” have, the arbitrators declared themselves unable to determine what the roads could do, thus virtually assuming the very thing upon which they confessed inability to pass. On another, the arbitrators found that this half of the case lay outside their own province, although the side of the complaining men lay clearly within it, and the suggestion was gravely made that if the roads really could not pay more, they might ask the Federal Commission for an advance in rates whereby to become able to pay more. It is a maxim in judicial practice that the law never requires impossibilities; in these cases, the law as practically administered not only disregards this maxim, but refuses to consider the impossibility or let it be shown, and now the travesty goes one step further, for this latest arbitration proposes an option to one side which is not offered to the other. Consider this announcement, word by word:

“To avoid all possibility that under an arbitration award a reduction in pay might be forced upon the men, the railroads proposed that the arbitration agreement should give to the men in each road the right to elect, after a complete schedule was awarded by the arbitrators, either to adopt the schedule thus awarded or to continue their prior schedules.”

That is, the “arbitration” is avowedly to be none. It may, as it is expected to, offer the men an advance, but it shall not offer the roads anything; and if the men are not satisfied with what advance they get they may take it or else leave it by going on as before. After alleging, as a reason for refusing an arbitration, that the roads have not carried out awards in good faith, the men are now to accept the result or not, as they choose. This amounts to a wager in which one side hazards nothing. Suppose such an unexpected result as no award of increase whatever, what holds the men to going on as before? The utmost they venture on the proceeding is that they will not strike now but may at some later date.

This is announced as a concession to the present dreadful situation. To avert the national disaster of a strike, the President has urged that there is now “a crisis in which patriotism and a regard for public welfare are paramount to all other considerations, even to the sacrifice of what, in ordinary circumstances, might properly be insisted upon as a right.” So the roads accept the plan proposed by the mediators, “which provides that no claims other than those of the employees as originally presented shall be submitted to arbitration.”

No sane mind can make light of or fail to appreciate the consequences of a strike such as threatened, yet not even the absorption of public attention by the appalling scene now presented in Europe should be permitted to obscure the fact that here is a deep and lasting question of principle. It must be said that there is an unfortunate use of language when patriotism and the public welfare are offered as occasion for surrendering a principle. Were it the first surrender, and for this occasion only, a plausible plea might perhaps be made; but patriotism is in standing for principle, at the cost of some present suffering, not in surrendering principle in order to avoid a present suffering. The surrender is worse because it defers once more a stand which can be evaded only by rushing into the unsounded sea of Government ownership.

Again and again has this surrender been made, just to escape the issue for this present time and put it off once more to some indefinite future—a weakness of procrastination which lessens the fibre and ability of making the stand and increases its difficulties with each repetition. Railroad managers have made, as we have suggested before, a serious error in trying to act as a body in this matter, yet the blame cannot justly be laid entirely upon them; the most serious fault is in the public attitude. A public duty is required of the roads, but none is perceived to lie on the employees, who are permitted to coerce the roads by repeating a threat to coerce the public. Militarism as it exists in Europe is now doing its worst and possibly is moving to its own downfall as the controlling force, but it incidentally offers us one lesson we might profitably learn: that railway work is not something which can be done or not done just as the employee chooses; on the contrary, it is a public service, involving duty, and to be sternly required as such.

RAILROAD GROSS EARNINGS FOR THE HALF-YEAR.

It has been a poor year for the railroads thus far in 1914 and their earnings have been heavily reduced. This applies to both the gross and the net results; but as many roads have not yet submitted statements of their expenses, our tabulations to-day for the half-year relate only to the gross earnings, and in our present analysis we shall confine ourselves entirely to them.

General conditions were nearly all adverse to the carriers, and many special conditions were of the same nature. Trade was more or less depressed, the inactivity growing more pronounced with the progress of the year, while in the iron and steel industry, which furnishes such a large volume of traffic to the rail transportation lines, a set-back of large proportions was encountered. The importance of this latter feature will appear when we say that the U. S. Steel Corporation reported unfilled

orders on the books of the subsidiary corporations on June 30 1914 of only 4,032,857 tons and of 4,282,108 tons Jan. 1, as against 5,807,317 tons on June 30 1913 and of 7,932,164 tons Jan. 1 of that year. Last season's diminished agricultural yield was also an adverse influence of no mean proportions, involving among other things a large shrinkage in the grain movement both on Western lines and those in the East. Labor troubles of one kind or another were unusually prominent—not in the railroad field, of course, but in trades furnishing considerable traffic to the railroads. The disturbances in the copper-mining regions of Lake Superior were a feature during the greater portion of the half-year, the strike not being terminated until April. The mining troubles in the coal fields of Southern Colorado lasted through the whole six months, and at one time reached a decidedly acute stage, not only restricting the coal output of the State, but exercising a blighting effect upon all of the industries of the stricken community.

Besides this, there was an extensive suspension of mining in many districts of the bituminous coal regions of the Middle and Middle Western States, beginning with the first of April, due to differences between miners and operators regarding new wage scales. In most cases an adjustment of these differences was reached by the end of April or the beginning of May, but in the Kanawha field of West Virginia settlement was somewhat longer delayed, and in Ohio mining remained completely suspended until the end of the half-year.

Winter weather conditions, which sometimes affect railroad operations for the worse during the early months, were on the whole quite satisfactory in 1914, just as they had been in 1913, the comparison between the two years being therefore free from disturbance on that account. Here in the East a severe snowstorm on Lincoln's birthday, followed by several others, caused considerable interference with railroad operations during the latter half of February, but the blockade from that source was confined mainly to the coast section and did not extend very far inland. Taking a broad survey of all the influences that had a bearing on railroad traffic and revenues, the only distinctly favorable element anywhere was that the railroads in the South had the advantage of a larger cotton traffic.

With these preliminary remarks, the reader will be prepared for the statement that the gross earnings of United States railroads in the first six months of 1914 fell off no less than \$84,601,109 as compared with the first six months of 1913. In other words, the roads earned only \$1,379,095,321 this year, against \$1,463,696,430 last year, there being thus a reduction of close to 6%—in exact figures 5.78%. The significance of this loss is increased by the circumstance that there was an absence in 1914 of one serious disturbing influence which had existed in 1913, and which then cut down railroad traffic and railroad earnings heavily on certain roads. We refer to the fact that at the close of March last year tremendous floods occurred in the Middle Western States and worked immense havoc, seriously interrupting railroad traffic in that part of the country throughout the next month and in some cases leaving the roads crippled for a much longer period in performing their functions as carriers.

It is rather noteworthy that there has been little permanent growth in railroad revenues in the first

six months of the last few years. That is an important fact to bear in mind, since, with railroad expenses rising, it shows we have had diminishing returns of net earnings at a time when the roads had additional interest and dividend charges to meet by reason of the new capital outlays they have been obliged to make to meet the demands of the public for adequate and improving service. The first six months of last year business conditions were much more encouraging than the present year, and there was also a large traffic in agricultural products following the previous season's abundant harvests. Accordingly, our tables then recorded a gain of \$136,097,376, of which \$84,601,109, as we have seen, has been lost the present year. Parenthetically we may say here that in our final compilation this year's loss is likely to be larger rather less. Our totals are very comprehensive as will be noted by their size and as also appears from the fact that they cover 247,619 miles of road. Yet there are some roads which are not represented in it, their returns being unavailable. Most important of all, however, the figures in our tables for a number of roads cover only five months instead of the full six months, the June returns not yet having been filed with the Inter-State Commerce Commission at Washington and the companies not yet having given out their own returns. June being the closing month of the fiscal year, the returns for that month are always delayed, and it will be several weeks before the missing returns are all in.

Among the more recent years, 1913, with its increase of \$136,097,376, has been the only one recording a fairly satisfactory addition to gross earnings; and this addition was less significant than it otherwise would have been, inasmuch as it followed only a moderate increase in 1912 and an actual loss in 1911. For the first six months of 1912 our compilation registered an increase of no more than \$51,012,535, or 3.99%. In the first half of 1911, as stated, there was an actual falling off in gross earnings, the amount of the loss reaching \$26,557,747, or 2.03%. It is necessary to go back beyond 1911 to get really satisfactory results and really striking ratios of improvement. In 1910, when trade activity was in full swing, the addition to the gross revenues reached no less than \$173,044,812, or 14.85%, while in 1909, when there was a recovery following the tremendous shrinkage that occurred after the panic of 1907, the increase was \$122,730,709, or 11.86%. On the other hand, in 1908 the loss, according to our tabulations, was \$197,085,791, or 16.65%; but the figures related to only 202,172 miles of road, and we estimated that the total falling off must have reached \$235,000,000. Prior to 1908 the country was in the full flush of prosperity and the trend was almost uninterruptedly upward for a full decade. The table we now insert gives the comparisons for the first six months of each year back to 1897.

Jan 1 to June 30	Mileage			Earnings		Increase or Decrease	
	Year Given	Year Preced.	In-crse	Year Given	Year Preceding		
	Miles	Miles	%	\$	\$	\$	%
1897	158,295	157,463	0.52	473,084,924	475,293,350	-2,208,426	0.46

1914	247,619	245,656	0.79	1,379,095,321	1,463,696,430	-84,601,109	5.78

Note—Neither the earnings of the Mexican nor Canadian roads nor the mining operations of the anthracite coal roads are included in this table.

As indicating how decidedly traffic was curtailed in certain directions as a result chiefly of the unfavorable trade conditions prevailing, it should be observed that the shipments of iron ore from the Lake Superior regions up to June 30 the present season reached only 9,624,116 tons, against 16,125,042 tons in the corresponding period of last year. Anthracite coal production was on the whole well maintained, there having been no suspension of mining here and the output of hard coal being influenced very little by prevailing conditions relating to general business. Yet even anthracite production was reduced, the shipments to tidewater for the six months of 1914 having been only 32,945,789 tons, against 34,851,854 tons in 1913. The falling-off in coal traffic generally is well indicated by the figures relating to the Pennsylvania RR., this being the largest coal-carrying system in the country. On all lines east of Pittsburgh and Erie the shipments of coal and coke for the first half of 1914 aggregated 34,437,344 tons, as against 37,087,558 tons in 1913, a decrease of 2,650,214 tons, or a little over 7%.

We have already indicated that the grain movement was heavily reduced, following last season's poor crops. At the Western primary markets the receipts of wheat for the 26 weeks to June 27 in 1914 reached only 88,593,000 bushels, against 118,187,000 bushels in the corresponding period of 1913; of corn only 117,504,000 bushels, against 140,685,000 bushels; of oats 95,997,000 bushels, against 111,882,000 bushels; of barley 30,312,000 bushels, against 44,237,000 bushels, and of rye 4,623,000 bushels, against 5,669,000 bushels. Altogether, the aggregate of the receipts the present year of the five cereals combined was only 337,029,000 bushels, as against 420,660,000 bushels in 1913. But the present year's movement was by no means small. In the same period of 1912 the receipts were only 260,406,838 bushels and in 1911 but 229,648,363 bushels. The details of the Western grain movement in our usual form are set out in the following:

Jan. 1 to June 27—	Flour. (bbls.)	Wheat. (bush.)	Corn. (bush.)	Oats. (bush.)	Barley (bush.)	Rye. (bush.)

Necessarily, the grain movement to the seaboard was correspondingly reduced. The receipts at these seaboard points amounted to only 104,373,000 bushels, as against 164,802,000 bushels last year, but comparing with 105,951,010 bushels in 1912, as will be seen by the following:

Receipts of—	1914.	1913.	1912.	1911.	1910.
Flour.....bbls.	10,506,000	11,006,000	8,466,135	9,170,530	8,317,837

The cotton movement in the South ran heavier than last year, but merely because then it had been very small. The gross shipments overland for the six months were 813,596 bales, against 757,916 bales in 1913, but as against 1,050,320 bales in 1912. The receipts at the Southern outports reached 3,365,164 bales, against 2,402,659 bales in 1913, but comparing with 4,247,705 bales in 1912.

The falling-off in earnings extended through all the months of the half-year except that in March there was a trifling gain, due to the fact that coal-mining in the bituminous regions of the Middle and Middle Western States was pushed rather hard in fear of a suspension of mining with the first of April on the wage question (a fear which was found to be well grounded in a number of cases), and due in part, also, to the fact that comparison was with the period of the tremendous floods in the Middle Western States the latter part of March last year. We annex a summary of the monthly totals.

	—Mileage—		1914.		1913.		—Inc or Dec—

As far as the separate roads are concerned, there is an almost uniform record of decrease and the losses in most cases are of large proportions. They come, too, from all sections of the country and from all classes of roads. Increases are not entirely lacking, and as a matter of fact 157 roads out of the 498 roads included in our table record larger or smaller gains, usually because of some special circumstance relating to the comparison or because of a heavier traffic movement in some particular commodity. Thus the Bangor & Aroostook suffered a reduction of its revenues last year by reason of labor troubles and the present year has more than recovered the loss. The Chesapeake & Ohio suffered severely in 1913 by reason of the flood troubles and escaped a repetition of the event the present year. Many Southern roads were able to add to their revenues the present year because of a heavier cotton traffic. The table we now insert shows all changes for the separate roads, for amounts in excess of \$500,000, whether increases or decreases.

Note.—Figures in parenthesis after name of road indicate number of lines or companies for which separate returns are given in our compilation. a Figures are for five months only. b These figures cover merely the operations of the New York Central itself. Including the various auxiliary.

and controlled roads, like the Michigan Central, the Lake Shore, the "Big Four," the "Nickel Plate," &c., the whole going to form the New York Central System, the result is a gain of \$15,386,887.

This is the result for the Pennsylvania RR., together with the Pennsylvania Company, and the Pittsburgh Cincinnati Chicago & St. Louis the Pennsylvania RR. reporting \$8,437,263 decrease, the Pennsylvania Company \$5,655,695 loss and the P. C. & St. L. \$2,140,726 loss. Including all lines owned and controlled which make monthly returns to the Interstate Commerce Commission, the result is a loss of \$15,226,130.

We now add our full detailed statement, embracing all roads for which it has been possible to procure or make up the figures.

GROSS EARNINGS FROM JANUARY 1 TO JUNE 30

Table with columns: Name of Road, 1914, 1913, Increase (+) or Decrease (-), Mileage (1914, 1913). Lists various railroad lines and their financial performance.

a These figures are for five months only in both years. c These figures are furnished by the company.

Payment in full has been made to the depositors of the West Side Dime Savings Bank of Columbus, Ohio, except for a small number of claims aggregating \$1,595 which depositors have failed to present. The process of winding up the institution was begun on Aug. 14 1913, following an examination by the State Banking Department which showed an impairment of \$19,000 in the \$25,000 capital. In order to insure the depositors against loss, State Banking Superintendent Lattner arranged with a number of the larger banks of the city to guarantee full payment of every claim. The liquidation has been conducted through the State Savings Bank & Trust Co. The amount due the other Columbus banks is said to be \$39,000 while the appraised value of the remaining assets in the hands of the trustee is \$49,636.

THE MEASURES OF RELIEF.

Prompt measures to provide against the effects of the war disturbances abroad were undertaken by the Treasury Department and the banking interests of New York following the crisis which eventuated in the closing of the Stock Exchange last week and the tremendous outflow of gold. One of the first steps taken by Congress was to amend the Federal Reserve Act so that the privileges of securing the emergency currency under the Aldrich-Vreeland Act might be extended to all the national banks, and the amount of emergency currency authorized under that Act raised from \$500,000,000 to approximately \$1,000,000,000. Plans for the issuance to the New York banks of \$100,000,000 of currency under the Aldrich-Vreeland Act were perfected at a conference in this city, held on Sunday last, by Secretary McAdoo with leading bankers of the city; announcement was made at the same time that it was proposed to permit the issue of similar currency to banks in other sections of the country which might apply for the same; \$46,000,000 of the new currency was received at the Sub-Treasury in New York on Monday.

Up to last night (the 7th) twenty-five banks of this city had applied for \$73,461,100 of the emergency currency. Of the \$46,000,000 of notes actually delivered to the Sub-Treasury at New York, \$41,212,000 has been issued to twenty-four banks and by Monday the balance of the \$50,000,000 will be issued and the distribution will continue at the rate of \$12,000,000 daily until the full quota applied for is disbursed to the banks of this city.

John Skelton Williams, Comptroller of the Currency, last night gave out the following statement:

Reports coming to this office from all sections of the country indicate that the demands made upon the national banks in the central reserve and reserve cities by their country bank correspondents are being well taken care of and that currency is being supplied to meet the reasonable requirements of trade and business everywhere by banks, large and small. "I see no reason," said the Comptroller, "why there should be any suspension of currency payments anywhere in this country, and if this Department hears of any national bank refusing to honor the legitimate requests of its customers or correspondents for currency, when such ample opportunities exist for supplying all proper applications, such delinquent bank will be promptly investigated and dealt with. The shipments of currency which have been made from this office to the sub-treasuries throughout the country for delivery to national banks and to the national banks direct since Saturday last up to the close of business to-day amount to 137 million dollars. The principal shipments were as follows: To New York, 47 million; Philadelphia, 10 million; Boston, 12 million; Baltimore, 4 million; Chicago, 25 million, including 7 million for Minneapolis and St. Paul; Cincinnati, 6 million; St. Louis, 12 million (including 4 million for Kansas City and St. Joseph, Missouri, and three hundred thousand for Wichita, Kansas, and 3 million for Denver); Pittsburgh, \$1,700,000; New Orleans, \$2,250,000. There are now organized 24 currency associations covering all of the 12 Federal reserve districts and eight additional currency associations are now in process of organization, those reported now organizing being Milwaukee, Seattle, Richmond, Fort Worth, Buffalo, Portland, Ore., and also associations in the States of Iowa and West Virginia. National banks desiring to exercise the privilege of issuing the additional currency are strongly advised to join the national currency associations in their respective Federal reserve districts. The Department prefers that all applications from national banks should be made through a currency association, although requests from national banks made under the terms of Section 3 of the authorizing Act will receive proper consideration.

As a means of protecting the gold supply of the United States, the New York Clearing-House Association took action on Monday toward the issuance of Clearing-House certificates. The foreign exchange bankers have taken cognizance of the unusual situation which has been brought about by the conditions in Europe, and on Monday, at a meeting of foreign exchange interests representing banks, bankers and trust companies, a resolution to the following effect was adopted:

"Whereas, It is reported that a moratorium has been declared in London, therefore no interests are jeopardized; hence the following resolution was offered:

"It is the sentiment of this meeting that all adjustment covering letters of credit and all other maturing obligations be deferred for the present

until some stability has been arrived at in connection with rates of exchange, agreeing with customers to accept the approximate amount pending final adjustment on the basis of the following rates:

"\$5 for £1 sterling.
"\$1 for five francs.
"\$1 for four marks."

It was the sense of the meeting that everybody should co-operate with the national banks and the Government to discourage gold shipments to any foreign country at the present.

Acting in accordance with the suggestion of State Superintendent of Banks, Eugene Lamb Richards, the New York State Savings Bank Association decided at a meeting on Monday to enforce the sixty-day requirement with regard to savings deposits, except in the cases of sums to the amount of \$25 or \$50. Superintendent Richards took possession during the week of several East Side private banking concerns. In response to a message of President Wilson on Monday, Congress voted an appropriation of \$250,000 for the relief, protection and transportation of Americans in the disturbed territory of Europe. Later a further appropriation of \$2,500,000 was provided for the same purpose, at the President's suggestion. To relieve, in a measure, the situation which the European war has brought about in hampering American commerce, Congress early in the week took action toward the adoption of an amendment to the Panama Canal Act so as to admit immediately foreign vessels to American registry. The bill eliminates the requirement that foreign-built ships admitted to American registry must be less than five years old. The bill empowers the President to suspend the provisions of the law prescribing that all the officers of United States vessels registered for foreign trade shall be citizens of the United States. A bill has likewise been passed by the Senate during the week authorizing the Secretary of the Navy to make use of naval vessels in carrying passengers, mail and freight between this country and both South America and Europe. On Tuesday a proclamation declaring the neutrality of the United States was issued by President Wilson. This we print on a succeeding page.

On the other side of the Atlantic King George of England issued a proclamation on Sunday (Aug. 2) authorizing a partial moratorium, or a suspension of the payment of bills of exchange, other than check or bill on demand, for one month. On the 6th, Chancellor of the Exchequer Lloyd-George announced in the House of Commons that the Government had decided to proclaim a general moratorium for a month. Wages, salaries, rates and taxes, Government payments and national insurance transactions are not to come within its scope. A moratorium suspending the payment of all debts in France until Aug. 31 was declared on Sunday by the Minister of Finance. On the 3d inst.—which, with Aug. 1, was a bank holiday in England—the British Government, acting on the recommendation of the Governors of the Bank of England, extended the holiday to and including Thursday (the 6th).

The Brazilian Congress at Rio Janeiro recommended a moratorium of four months on the 6th, and the Argentine Government on the same date recommended a moratorium of a month.

In his semi-weekly talk with newspaper men on Monday, President Wilson had a few words to say with reference to the situation in Europe, and urged our own nation to maintain its self-possession and, with "calmness of thought and steadiness of purpose to help the rest of the world." The President in his words of counsel said:

"Gentlemen, before you question me, I want to say this: I believe it is really unnecessary, but I want to tell you what is in my mind. It is extremely necessary—it is manifestly necessary—in the present state of affairs on the other side of the water that you should be extremely careful not to add in any way to the excitement. Of course the European world is in a highly excited state of mind, but the excitement ought not to spread to the United States.

"So far as we are concerned, there is no cause for excitement. There is great inconvenience, for the time being, in the money market and in our exchanges, and, temporarily, in the handling of our crops, but America is absolutely prepared to meet the financial situation and to straighten everything out without any material difficulty. The only thing that can possibly prevent it is unreasonable apprehension and excitement.

If I might make a suggestion to you, gentlemen, therefore, I would urge you not to give currency to any unverified rumor, to anything that would tend to create or add to excitement. I think that you will agree that we must all at the present moment act together as Americans in seeing that America does not suffer any unnecessary distress from what is going on in the world-at-large.

"The situation in Europe is perhaps the gravest in its possibilities that has arisen in modern times, but it need not affect the United States unfavorably in the long run. Not that the United States has anything to take advantage of, but her own position is sound, and she owes it to mankind to remain in such a condition, and in such a state of mind that she can help the rest of the world.

"I want to have the pride of feeling that America, if nobody else, has her self-possession and stands ready with calmness of thought and steadiness

of purpose to help the rest of the world. And we can do it and reap a great permanent glory out of doing it, provided we all co-operate to see that nobody loses his head.

"I know from my conferences with the Secretary of the Treasury, who is in very close touch with the financial situation throughout the country, that there is no cause for alarm. There is cause for getting busy and doing the thing in the right way, but there is no element of unsoundness and there is no cause for alarm. The bankers and business men of the country are co-operating with the Government with a zeal, intelligence and spirit which makes the outcome secure."

Conferences between leading New York banking interests and Secretary of the Treasury McAdoo were held both in Washington and New York on Saturday, Sunday and Monday last, and it was at the instance of the executive committee of the National Currency Association that it was decided to amend the Federal Reserve Law in so far as it relates to the Aldrich-Vreeland Act. A provision in the Emergency Currency Act of 1908 permitted the issue of such currency only to those member banks having circulating notes outstanding secured by the deposit of bonds of the United States to an amount not less than 40 per centum of their capital stock. It was pointed out that this provision would serve to prevent some of the banks from availing of the emergency currency privilege, and it was urged that this drawback be eliminated; on Friday, July 31, the Senate adopted legislation to that end in passing a bill amending Section 27 of the Federal Reserve Act by giving the Secretary of the Treasury power to suspend the limitation; on Monday (the 3rd) the House adopted the Senate bill and added a provision authorizing the Secretary of the Treasury to waive also, in his discretion, the limitation of the aggregate amount of emergency currency that may be issued (fixed at \$500,000,000 in the Aldrich-Vreeland Act); the House also inserted an amendment so as to accord emergency currency benefits to State banks and trust companies which have joined the Federal Reserve system, or which may decide to avail of it within fifteen days from the enactment of the bill. When the bill went back to the Senate, it dissented from the House proposal that the Secretary of the Treasury be allowed to issue emergency currency to an unlimited amount, and proposed instead that the issue of the notes be limited to 100% of the unimpaired capital and surplus of the banks. It was agreed in conference to accept the Senate amendment except as to the amount of the notes to be issued, a compromise agreement fixing this at 125% of the capital and surplus. The conference report as thus agreed to was adopted by both Houses on Tuesday, and the bill was signed by President Wilson on the same day. The bill stipulates that each bank desirous of taking out the emergency currency must maintain on deposit in the Treasury of the United States a gold redemption fund of not less than 5%. We give the bill below, as enacted, showing in italics the new matter it adds to Section 27 of the Federal Reserve Act:

That Section 27 of the Act approved Dec. 23 1913, known as the Federal Reserve Act, is hereby amended and re-enacted to read as follows:

Section 27. The provisions of the Act of May 30 1908, authorizing national currency associations, the issue of additional national bank circulation and creating a National Monetary Commission, which expires by limitation under the terms of such Act on the 30th day of June 1914, are hereby extended to June 30 1915, and Sections 5153, 5172, 5191 and 5214 of the Revised Statutes of the United States, which were amended by the Act of May 30 1908, are hereby re-enacted to read as such sections read prior to May 30 1908, subject to such amendment or modifications as were prescribed in this Act:

Provided, however, that Section 9 of the Act first referred to in this section is hereby amended so as to change the tax rates fixed in said Act by making the portion applicable thereto read as follows:

National banking associations having circulating notes secured otherwise than by bonds of the United States shall pay for the first three months a tax at the rate of 3 per centum per annum upon the average amount of such of their notes in circulation as are based upon the deposit of such securities, and afterward an additional tax rate of one-half of 1 per centum for each month until a tax of 6 per centum per annum is reached, and thereafter such tax of 6 per centum per annum upon the average amount of such notes. *Provided, further, that whenever in his judgment he may deem it desirable the Secretary of the Treasury shall have power to suspend the limitations imposed by Section 1 and Section 3 of the Act referred to in this section, which prescribe that such additional circulation secured otherwise than by bonds of the United States shall be issued only to national banks having circulating notes outstanding secured by the deposit of bonds of the United States to an amount not less than 40 per centum of the capital stock of such banks, and to suspend also the condition and limitations of Section 5 of said Act, except that no bank shall be permitted to issue circulating notes in excess of 125 per centum of its unimpaired capital and surplus. He shall require each bank and currency association to maintain on deposit in the Treasury of the United States a sum in gold sufficient in his judgment for the redemption of such notes, but in no event less than 5 per centum. He may permit national banks, during the period for which such provisions are suspended, to issue additional circulation under the terms and conditions of the Act referred to, as herein amended: Provided further, the Secretary of the Treasury, in his discretion, is further authorized to extend the benefits of this Act to all qualified State banks and trust companies which have joined the Federal Reserve system or which may contract to join within fifteen days after the passage of this Act.*

The enactment of the bill caused the issuance of the following statement by Secretary McAdoo:

The passage by unanimous vote of the House and Senate this afternoon of the amendment to the Federal Reserve Act, whereby the Secretary of the

Treasury is vested with power to issue additional national bank currency in such amount, exceeding even \$500,000,000, as, in his judgment, may be necessary to protect the business situation in this country, puts at rest any question as to the ability of the banks to take care of the situation.

There need be no fear whatever of insufficient currency to move the crops and to meet the demands of business. The bill, as amended, authorizes the Secretary, in his discretion, to permit national banks to have outstanding a maximum of circulating notes equivalent to 125 per cent of their unimpaired capital and surplus. This provision will enable banks which have now outstanding circulation equal to their capital stock to secure a large amount of additional circulation. Applications have been received from a number of national currency associations throughout the country for additional currency and these applications are being promptly responded to. Already \$100,000,000 of currency has been shipped to the Sub-Treasuries in New York, Chicago, St. Louis, Cincinnati, San Francisco, Boston and Philadelphia, in order that the needs of the banks may be promptly supplied. In many cases banks have applied for additional currency merely as a precautionary measure.

The situation throughout the country is excellent, and no greater testimonial to the inherent strength of our financial and economic position and condition could be given than the way in which the country has withstood the shock of the greatest European disturbance that has occurred in the last hundred years.

The unanimous vote in the House and the Senate is an inspiring evidence of the patriotism of the representatives of the American people, who, whenever there is a threatened danger, forget party lines and present a solid front in support of the common interest.

In explanation of the bill as originally presented to the Senate on July 31, Senator Owen, Chairman of the Senate Committee on Banking and Currency, said:

I am authorized by the Committee on Banking and Currency to report and ask the Senate to proceed to the consideration of a bill amending the Aldrich-Vreeland Act, so as to enable banks which have not 40% of their capital invested in United States bonds and circulating medium issued against it to receive emergency circulation under the Aldrich-Vreeland Act by the consent of the Treasury Department. The stock exchanges of all Europe have been closed. The Bank of England has suspended specie payment, the Bank of France has suspended specie payment, the Bank of Germany the same, and there is a possibility of some disturbance in our country unless we take immediate steps to prevent it.

I will read what has been prepared by the officers of the Treasury Department bearing upon the subject. It is a proposed amendment of Section 27 of the Federal Reserve Act, the Federal Reserve Act in Section 27 having amended the Vreeland-Aldrich Act and continued it until June 30 1915; but the Vreeland-Aldrich Act provided that banks which have not an amount equal to 40% of their capital invested in United States bonds, with circulation issued against it, might not avail themselves of emergency circulation.

I will say that many of these large banks—banks which are holding the reserves of the country banks—have not thought it desirable to have a large volume of United States bonds, but these bonds are practically absorbed now by the banks; \$730,000,000 of them are held as security now by the Government of the United States for circulation and for advances made to national banks. So there is a very small volume of them available.

I therefore ask, in order to protect the country, that we may have immediate consideration of this measure.

A meeting of the Executive Committee of the National Currency Association of New York was held last Saturday—the 1st—to consider applications for national bank notes under the emergency currency Act. The meeting was attended by Frank A. Vanderlip, President of the National City Bank and President of the National Currency Association; Richard Delafield, President of the National Park Bank; Gates W. McGarrah, President of the Mechanics' & Metals' National Bank; James S. Alexander, President of the National Bank of Commerce, and E. Townsend, President of the Importers' & Traders' National Bank. At its conclusion Mr. Vanderlip gave out the following statement:

At a meeting of the Executive Committee of the National Currency Association, held at the Clearing House yesterday afternoon, applications were considered for a substantial amount of national bank notes which may be issued under the provisions of the Currency Act. All the machinery for rapid action under this Act is in readiness, and it is expected that a sufficient amount of these notes can be issued to meet any demands that are likely to be made for circulating media. Large amounts of the notes are now printed, and it is expected that the notes for New York banks will be forwarded to New York and lodged with the Sub-Treasury here, so as to be immediately available for use.

Under the terms of the law, national banks are permitted to take out additional national bank notes up to an amount equal to the capital and surplus of each bank, although there is a total limit of \$500,000,000 upon this form of additional currency. Banks may deposit either commercial paper or securities with the Currency Association Committee. The committee passes upon the character of the collateral and it is also passed upon by representatives of the Treasury. Commercial paper may be deposited for additional notes up to an amount equal to 30% of the capital and surplus of a bank; or a bank may deposit securities for any part of the additional circulation which it obtains.

A bank may apply directly to the Treasury Department without the intervention of the Currency Association if it has State or municipal bonds of approved character which it wishes to deposit as security for additional notes.

Mr. Vanderlip also took occasion in a further statement to say:

The action of the New York Currency Association in getting all the machinery ready for the issue of additional bank-notes should give assurance that there will be no lack of an ample circulating medium. It is now possible to create a considerable amount of additional currency that is absolutely secure and in exactly the same form as the present national bank notes. It is obvious that in the present disorganized financial condition in Europe the demand for any additional circulation must be met from within ourselves.

This law offers a perfectly sound method of converting assets into circulating notes. There need be little fear, therefore, of any repetition of the conditions of 1907, when there was so much distress through the inability of banks to supply a circulating medium. The banks of the country under this law may take out \$500,000,000 national additional bank notes.

There is no probability that anything like that amount will be needed, or could be used, but the banks are in a position to make their assets liquid and to meet demands upon them in a perfectly satisfactory manner by increasing their national bank notes under the provisions of this Act. The Act provides a true expanding currency, and it is most fortunate, under all existing conditions, that it is available for the national banking institutions of the country.

The Treasury is co-operating in every way possible. It has been forward in printing these notes in advance, so that they are immediately available, and the door is open for the creation of any reasonable amount of perfectly sound currency to meet whatever legitimate demands there may be for a circulating medium.

Always, at this crop-moving season, there is a demand for a large amount of additional circulation, and it is not improbable that under the serious strain the European situation has put upon us, there may be more than an ordinary demand for money for circulation, and while the financial condition of the country is sound and pre-eminently strong in the world to-day, nevertheless it has been deemed wise to get this effective machinery ready to meet any eventualities that may arise.

The meeting on Sunday between Secretary McAdoo and bankers of this city held here at the Hotel Vanderbilt, to discuss the issuance of emergency currency notes, resulted in the promulgation of the following statement by Mr. McAdoo late on Sunday night, after a conference lasting three and a half hours:

I came to New York for a conference with leading bankers about the issuance of national bank currency under the Aldrich-Vreeland law, as amended by the Federal Reserve Act, and for a discussion of measures for the protection of the gold supply of the country.

The meeting was held at the Vanderbilt Hotel, the following being present: Comptroller of the Currency Williams, Messrs. W. P. G. Harding and Charles S. Hamlin of the Federal Reserve Board, and Francis L. Hine, William Woodward, W. A. Nash, Richard Delafield, E. S. Marston, C. H. Sabin, H. P. Davison, W. E. Frew, George L. Baker Jr., J. P. Morgan, B. Strong Jr., J. N. Wallace, S. R. Bertron, F. A. Vanderlip, G. W. McGarrah, W. O. Potter, J. S. Alexander, A. J. Hemphill, S. Baker, E. W. Sheldon, A. B. Hepburn and F. Q. Brown of New York, and J. McAllister, Joseph Wayne and Mr. Caldwell of Philadelphia.

Arrangements were perfected to issue to New York banks \$100,000,000 of additional currency, if required, to enable them to respond promptly to the calls of their correspondent banks throughout the country for money to meet the demands for crop-moving and other purposes.

It is my intention, as already announced, to permit the issue of similar currency to banks in other parts of the country upon their application to the Treasury Department and compliance with the provisions of the Act.

One of the bankers present at the meeting was quoted in the "Times" as saying with regard to the deliberations:

The meeting was arranged with the idea of getting all the facts before the Treasury Department so that we could work in harmony. Mr. McAdoo was in a receptive frame of mind and displayed every desire to do what was right. We are disappointed, however, in the amount of Aldrich-Vreeland currency that is printed and ready for use here. I understand that the full \$500,000,000 permitted under the law is on hand in Washington, but it bears the names of 3,000 banks, and the proportion which can be issued immediately by the New York institutions is about \$46,000,000, or less than half of the amount which the banks here could issue. For instance, one downtown bank's name is on only \$2,600,000 of the notes, whereas it has capital and surplus that entitle it to \$9,000,000. This difficulty is mechanical, and will be remedied as fast as the presses can turn out more notes.

The day (Sunday) was also marked by a meeting at the Metropolitan Club of the Clearing-House Committee of the New York Clearing-House Association. A statement as to that gathering issued Sunday night said:

The Clearing-House Committee was in session most of the day, and met with the Secretary of the Treasury and the Comptroller of the Currency and members of the Federal Reserve Board, Messrs. Harding and Hamlin. The aim of the Clearing-House Committee has been to conserve the gold situation of the country, and adequate measures will be taken to that end. There will be a meeting of the Clearing-House Association at 9:30 o'clock to-morrow morning, when the banks will be asked to act upon such recommendations as the Clearing-House Committee may make.

In view of the action taken in New York on Sunday, a conference of the Chairmen of the clearing houses in the three central reserve cities—New York, Chicago and St. Louis—which was to have been held in Washington at the instance of Secretary McAdoo on Monday last was called off. An informal talk was held by Mr. McAdoo, however, on that day with Festus J. Wade of the St. Louis Clearing-House Association. Mr. Wade is understood to have given assurances that conditions in St. Louis and contiguous territory were exceedingly good and that there was no reason for alarm as to its ability to take care of the situation.

At Monday's meeting of the New York Clearing-House the decision was reached to issue Clearing-House certificates for the settlement of balances between banks. The last time these certificates were called into use was during the panic days of 1907-08; the aggregate amount then authorized was \$101,060,000 while the maximum amount outstanding at any one time was \$88,420,000. Monday morning's meeting was attended by representatives of practically all the sixty-one State banks and trust companies making up the membership of the Association. The intention of the Association to again resort to the certificates as a currency medium, with a view to protecting the gold supply of the United States, was made known in the statement which we print herewith:

At the meeting of the New York Clearing-House Association this morning, the situation abroad was discussed, and its bearing on the business of this country.

It is the opinion universally expressed that, in view of conditions existing in all countries of Europe, every means should be adopted to protect the

gold supply in the United States, and it was, therefore, voted that at the present time the Clearing-House Association be placed upon a certificate basis.

A second resolution was also adopted making available in payment of balances all forms of currency issued under the authority of the National Government.

This indicates the desire on the part of the bankers to use freely the currency issued through national currency associations and to care to the fullest extent for the requirements of their correspondents and the needs of inland exchange.

The resolution, which was offered by William Woodward, President of the Hanover National Bank and Chairman of the Clearing-House Committee, is as follows:

Resolved, That until further action all forms of currency issued under authority of the National Government be received in payment of balances at the Clearing House.

Resolved, That the Clearing-House Committee, with the President of the Association, be authorized to receive from members of the Association bills receivable and other securities to be approved by said committee, who shall be authorized to issue therefor to such depositing members loan certificates bearing interest at 6% per annum, and such loan certificates shall not be in excess of 75% of the market value of the securities for bills receivable so deposited, and such certificates shall be received and paid in settlement of balances at the Clearing House.

The committee which is charged with the task of passing upon the collateral offered as security for the certificates consists of Albert H. Wiggin, Chairman, President of the Chase National Bank; William Woodward, President of the Hanover National Bank; Clarence H. Kelsey, President of the Title Guarantee & Trust Co.; Stephen Baker, President of the Bank of the Manhattan Co., and Mr. Hine, President of the Association. The following have been named to assist the Committee:

Walter E. Frew, President of the Corn Exchange Bank; William A. Simonson, President of the Second National Bank and Vice-President of the National City Bank; Gilbert G. Thorne, Vice-President of the National Park Bank; Otto T. Bannard, President of the New York Trust Co., and Herbert P. Howell, Vice-President of the National Bank of Commerce.

Other cities which went on a clearing-house certificate basis this week are Boston, Philadelphia, Baltimore, Cincinnati, Kansas City, Sioux City, Chicago, St. Louis and New Orleans.

Numerous meetings to devise means to cope with the situation as far as it affects the foreign exchange market have been held during the week by the foreign exchange interests. At a meeting last Saturday a committee of five, consisting of Max May, Vice-President of the Guaranty Trust Co.; August Ulrich, of Ladenburg, Thalmann & Co.; John E. Gardin, Vice-President of the National City Bank; R. Y. Hebden, of the Bank of Montreal, and George Le Blanc, of the foreign exchange department of the Equitable Trust Co., was appointed to determine what action should be taken to deal with the international situation. On Sunday last Messrs. May and Ulrich, with several others, conferred with Secretary of the Treasury McAdoo in Washington; they returned to New York with Mr. McAdoo, whose conferences in this city are alluded to above. The deliberations of the foreign exchange interests culminated in the adoption of a resolution on Monday fixing the rates of exchange on the basis outlined above. At the meeting on Saturday, when the question of foreign exchange rates was considered, it developed that some of the bankers were seriously proposing the shipment of \$100,000,000 gold to London, to relieve the situation there. This appeared from the remarks of Mr. Ulrich, Chairman of the meeting. Mr. Ulrich at this meeting, speaking of this and the ruinously high rates prevailing, said:

We have been guilty in a certain way and have helped this ruinous rise along in our anxiety and courtesy to place foreign correspondents in funds over night by trying to outbid each other when there was not enough exchange to satisfy all buyers. Had there existed between us foreign exchange bankers a certain understanding such as there ought to exist and such as we have on two different occasions tried to bring about, our exchange market might not have acted so disgracefully as it has done this week.

Gentlemen, you know that the intrinsic value of a pound sterling is only 4.86 2-3 and yet any importer who wanted to remit yesterday had to pay rates which cost him a premium of all the way from 5 to 40%.

And yet while we were boasting that we could absorb all the foreign sales of securities better than any other financial centre, that gold here was not at a premium, yet the American business man has to pay such outrageous premiums on checks which, when they are presented abroad, could not be redeemed in silver, leave alone gold. We possess the intelligence to pay Europe all we owe it without undue injury to the American business man. We shall find the proper and at the same time honorable way to adjust our exchange transactions, but we must end these exorbitantly high rates.

In 1907 it was London that provided us with gold and ungrudgingly helped us. It now behooves us to stand by London in its present embarrassment. I understand that a shipment of \$100,000,000 in gold to London, either in the shape of a loan or in payment of a purchase of bonds, would greatly relieve the London money market. It would benefit London and would react to the benefit of our own money market.

I am firmly of the opinion that in view of the present unusual conditions we ought to fix exchange rates and do this more in accordance with the natural parities, as they are arrived at from day to day, taking into account the intrinsic value of foreign exchange, the value of loanable capital both

here and abroad and making due allowance for proper differences between checks and cables.

I therefore strongly advocate daily meetings of a committee, to be chosen from among representatives of exchange banks and trust institutions, whose duties it shall be to fix a reasonable range of rates and to supervise the exchange of foreign bills on cable transfers, to appoint if necessary agents at foreign centres who would attend to the collection of bills in case a moratorium should be established abroad and in general to look after any other transactions as may from time to time have to be settled abroad.

Or to appoint trustees in New York with whom could be deposited gold in trust for foreign central banks in case shipments of specie should become too perilous and too expensive.

It is generally recognized by foreign exchange experts that this country, in spite of the tremendous liquidation of foreign holdings of American securities which has been going on here, still owes a great deal abroad. Not the least of this amount is in the millions of dollars in letters of credit which have been issued. The establishment here of a trustee in New York City with whom gold could be deposited in trust for foreign central banks would help to relieve that indebtedness abroad to some extent. In that way, provided there was any trans-Atlantic shipping, Europeans could purchase our grain and other agricultural and industrial products, and payments to the farmers and manufacturers could be made by the trustee from the fund of \$100,000,000, or what other amount, were deposited here as a loan or in payment of an issue of bonds.

In addition to the action taken by the foreign exchange bankers on Monday in determining upon \$5 as the basis of exchange, it was decided on Tuesday to place the risk of shipments with the foreign governments. Following this meeting Mr. May said:

We are compelled to make a complete change in the method of handling foreign exchange in this country. Heretofore Americans have purchased documentary bills of exchange and have taken the risk regarding the carrying out of the shipment covered by the documentary and the payment of the bills of exchange.

Hereafter we will require that the Government of England, France or Germany will take the risk regarding the shipments on the payment of the exchange. If England wants grain or any other commodity, she will have to deposit money with the Bank of England to the credit of the London representative of the American banker, and the English consignee will have to take the risk of the arrival of the commodity. In other words, England or France or Germany will have to deposit money in advance of the shipments. With this money deposited we will be able to draw bills of exchange on our London branch and get our money, and the risk regarding the shipments, so far as New York bankers and producers are concerned, will be eliminated.

Foreign exchanges cannot be conducted when countries are at war in the same fashion that it could be conducted if countries are at peace. The position is that England and the Continent want our grain, our cotton and our commodities, and it is only a matter of prudence that we require payment in advance and government guaranty regarding the delivery of the shipments.

Mr. May made it evident that there was no intention of re-shipping the \$10,000,000 of gold on board the Kronprinzessin Cecilie of the North German Lloyd, which turned about and returned to America from its trip abroad when within two days from Plymouth on receipt of instructions from Bremen. On this point Mr. May said:

That gold will stay here and will be re-deposited in the Sub-Treasury to the credit of the banks which made the shipment. Now that foreign exchange transactions are to be placed on a war basis, the shipment of this gold abroad is out of the question.

In addition to the committee of five, a committee of three was appointed on Tuesday to name another committee to determine upon the steps necessary to facilitate the export movement of grain, cotton and other commodities. The committee of three consisting of Messrs. May, Hebden and J. J. Hanauer of Kuhn, Loeb & Co. named as the new committee on Wednesday Messrs. Gardin, May, Hebden, Henry Ickelheimer of Heidelberg, Ickelheimer & Co. and A. Pavensstedt of Amsinck & Co. This committee, which is empowered to add to its membership, is said to have under consideration plans for the creation of a fund of \$300,000,000 to the credit of foreign bankers, the fund to be trustee and secured by issues of bonds of countries purchasing American commodities. The Produce Exchange has also appointed a committee to co-operate with the committee representing the foreign exchange interests. At the conclusion of a meeting held by the committee representing the foreign exchange interests yesterday (the 7th) the following statement was given out by it:

An informal discussion of the present conditions took place and the consensus of opinion was that until the supremacy of the seas had been established, the question of an open foreign exchange market would have to remain in abeyance, but in the meantime it was recommended that shippers of grain and other commodities require of the purchasers that a satisfactory credit be opened, either in London or in New York, the responsibility for the documents, bills of lading, insurance certificates, including war risks, to be upon the shoulders of the bankers granting the credit.

This is the only way that a solution can be found at the present moment for a partial relief of the congestion that has arisen in consequence of the war conditions.

Various committees were appointed and peculiarly knotty points arising out of the present conditions were discussed and it was decided to bring these points to the attention of the legal authorities with a view of making a recommendation to the bankers later on at a subsequent meeting.

That the urgency of conserving the gold supply of the United States was realized in some quarters even before the close of last week is shown by the following letter which we have received from Orvis Brothers & Co. of this city:

New York, August 3 1914.

To the Editor of the Commercial and Financial Chronicle.

Dear Sir:—We have read with particular interest your leading editorial of August 1 entitled "The Duty of the Hour."

That it coincides with our views is shown by the fact that we telegraphed to President Wilson last Thursday urging him to safeguard the American gold supply.

We hand you herewith a copy of that telegram.

Yours very truly,

ORVIS BROTHERS & CO.

[Copy.]

July 30, 1914.

To the President of the United States, Washington, D. C.
If you immediately use your power to stop further gold exportations, foreign countries would cease dumping securities into our stock exchange—the only cash market now open in the world—thereby saving incalculable losses to our people and possibly avert the greatest panic of the age and wholesale destruction of American prosperity. Unusual happenings require drastic measures and quick action.

ORVIS BROTHERS & CO.

The cotton interests have been active in seeking the adoption of steps for the protection of the cotton growers, and a call has been issued by E. J. Walton, President of the Southern Cotton Congress, for an extraordinary meeting of that organization in Washington on the 13th and 14th inst. In calling the conference, Mr. Walton is quoted as saying:

Cotton is not alone the South's chief asset, it is the chief asset of the nation, preserving the world balance of trade in favor of the United States and bringing to America her golden stream. In the past few days the great European cotton-consuming countries have been plunged into a war which it now appears, brings the grower and handler of cotton face to face with disaster. In two days the price of cotton has begun to fall startlingly. Cotton is about to move to the markets; the markets are about to be curtailed by millions of bales and closed. From the standpoint of the financial stability and integrity of the nation itself, of the producers, of the banks and bankers, of the merchants and business men, of every commercial interest of our own textile plants, it is vital that the 1914 crop of American cotton shall not be sacrificed to the irreparable damage of a prosperous and rapidly-developing section of the Union and of the nation.

I do not believe in business hysteria, and for several days have awaited and watched the course of events. It is clear that great damage has already been done, certainly more than can be undone were there an immediate suspension of hostilities. Whether the danger of a total financial loss for one year at least to growers of cotton is impending is immaterial; the danger is sufficiently manifest to show that the time for concerted action between growers, merchants, business men, bankers, cotton manufacturers, and even the National Government itself, has come.

The "Journal of Commerce" stated yesterday that Senators and Representatives in Congress from the cotton-growing States were understood to have proposed to the Treasury Department that the Government deposit money in the South for the purpose of advancing \$50 a bale on cotton to all the cotton farmers desiring Government aid during the present emergency. Secretary McAdoo is said to have disapproved the proposition and to have pointed out that to make such advances on cotton would practically mean that the Government would buy all cotton offered at 10 cents per pound. The Government would have to store the cotton, bear the expense of insurance, and the risk of depression in the cotton. According to the "Journal of Commerce," Mr. McAdoo is reported to have told the cotton States delegation that if the Government made advances on cotton, demands would be made upon the Government for similar advances on practically all the products of the country in order to prevent a depression anticipated as a result of the European war.

The use of a part of the new issue of emergency currency for the financing of the crop is favored by W. P. G. Harding, a member of the Federal Reserve Board, and the bankers of New York, in co-operation with the Southern bankers, are said to be working out with the Reserve Board measures of relief. On Wednesday Mr. Harding was quoted to the following effect:

News reached me during the day that a number of important banking houses here had taken up the matter of lending money on cotton placed in warehouses in order to prevent enormous prospective losses to the growers and other interests. I am in hearty sympathy with the movement and hope to see it go on to the success which can easily be attained.

There is no doubt that the great cotton crop of the United States, which ordinarily runs into billions of dollars, is in danger of being unable to find a profitable market until the European war runs its course. I believe that the new emergency notes can be put to excellent use in saving the cotton crop from the sort of disaster which must come if the export trade is blocked, and if the cotton belt is forced to pay off its loans. Every one knows that the South sells more than half its cotton crop abroad, and as soon as the export trade is stopped the market is virtually taken away. For that reason it is of the greatest importance that the cotton belt should be helped to carry the crop and not to force it upon the market at a time when the buying power is so greatly reduced.

If the New York banks decide to use their emergency notes for such purposes after the immediate strain is over here, they will be doing a great service to a large portion of the community. The cotton crop, as every one knows, is a tremendous factor in making exchange, and there is no doubt that the situation will right itself in time if the planters are enabled to meet their obligations at the banks through extensions or otherwise. The cotton crop is too important to be sacrificed, but it is certain that assistance will have to be forthcoming in order to prevent sales at ruinous and utterly ridiculous prices.

Yesterday in a further discussion of the matter Mr. Harding said:

The cotton crop is usually ready for movement about Sept. 1, and in late years about Oct. 1. This year the crop is somewhat earlier and will be ready to be moved about Aug. 20. As far back as last March Southern bankers began to make advances to the cotton growers, and these have been

increasing. Such advances are secured by mortgage liens on their crops and on real estate, if the holder owns real estate, and if not, on his mules, cattle and farming implements. These loans could be repaid when the proceeds of the first cotton come in, but the idea would be to renew these notes for a period of 30 days or so, instead of forcing early sales of the staple.

The expectation is that loans would be repaid on Sept. 1, but instead, the matter could be regarded in the same way as though the crop was a late one, and the advances already made be extended for a period of 30 days. This the banks would be willing to do in ordinary times. Why not extend the loans for a month with the aid of emergency currency? Of course, the cotton crop must be picked and ginned, but the staple could be kept for 90 days or longer without deterioration.

The joint resolution appropriating \$250,000 for the relief, protection and transportation of Americans in Europe was promptly passed by both the Senate and House on Monday, and signed by the President on the same day. The message asking for the appropriation was transmitted to Congress at the opening session of the week; in his communication the President said:

The present disturbances in Europe, with the consequent interruption of transportation facilities, the increase in living expenses, coupled with the difficulty of obtaining money from this country, have placed a large number of American citizens temporarily or permanently resident in Europe in a serious situation and have made it necessary for the United States to provide relief and transportation to the United States or to places of safety.

The situation has also thrown upon our diplomatic and consular officers an enormous burden in caring for the interests of Americans in the disturbed areas, and makes it necessary to provide for greatly increased expenses.

In view of the exigency of the situation as above outlined, I recommend the immediate passage by the Congress of an Act appropriating \$250,000, or as much thereof as may be necessary, to be placed at the disposal of the President, for the relief, protection and transportation of American citizens, for personal services and other expenses which may be incurred in connection with or growing out of the existing disturbances in Europe.

The resolution making the appropriation reads as follows:

Resolved, That for the relief, protection and transportation of American citizens, for personal services and for other expenses which may be incurred in connection with or growing out of the existing political disturbances in Europe, there is appropriated out of any money in the Treasury not otherwise appropriated the sum of \$250,000, to be expended at the discretion of the President; *Provided*, That American citizens to whom relief is extended or transportation is furnished hereunder shall pay to or reimburse the United States all reasonable expenses so incurred, respectively, on their account, if financially able to do so.

A further appropriation of \$2,500,000 for the relief of Americans in Europe was asked for in a message to Congress on the 4th, when arrangements were completed for the dispatch from New York on Thursday of the armored cruiser Tennessee, carrying \$4,500,000 gold (\$3,000,000 of which is sent at the instance of the New York banking interests), for use in bringing back stranded Americans. The joint resolution providing the \$2,500,000 passed both branches of Congress on the 5th and was signed the same day by President Wilson. The message calling for this appropriation was as follows:

After further consideration of the existing condition in Europe, in so far as it is affecting the citizens of the United States who are there without means, financial or otherwise, to return to their homes in this country, it seems incumbent upon the Government to take steps at once to provide adequate means, by the chartering of vessels or otherwise, of bringing Americans out of the disturbed regions and conveying them to their homes in the United States. Moreover, in view of the difficulty of obtaining money upon letters of credit, with which most Americans abroad are supplied, it will be necessary to send agents abroad with funds which can be advanced on such evidences of credit, or used for the assistance of destitute citizens of the United States.

In these circumstances, I recommend the immediate passage by the Congress of an Act appropriating \$2,500,000, or so much thereof as may be necessary, to be placed at the disposal of the President for the relief, protection and transportation of American citizens and for personal services, rent and other expenses which may be incurred in the District of Columbia or elsewhere, connected with or growing out of the existing disturbance in Europe.

The second and larger appropriation is authorized under the following resolution:

Resolved, &c., That for the relief, protection and transportation of American citizens, and for personal services, rent and other expenses which may be incurred in the District of Columbia or elsewhere in connection with or growing out of the existing political disturbance in Europe, there is appropriated, out of any money in the Treasury not otherwise appropriated, the sum of \$2,500,000, to be expended at the discretion of the President; *Provided*, That American citizens to whom relief is extended or transportation is furnished hereunder shall pay to or reimburse the United States all reasonable expenses so incurred, respectively, on their account, if financially able to do so. In the execution of the provisions hereof the President is authorized to employ any officers, employees and vessels of the United States and use any supplies of the naval or military establishments, and to charter and employ any vessels that may be required. A detailed statement of all expenditures hereunder, and under the appropriation of \$250,000 made in the joint resolution approved August 3 1914, and of all amounts reimbursable to the United States of such expenditures, shall be made to Congress on or before the beginning of its next regular session.

The plans of the Government in the matter were announced as follows by Secretary of the Navy Garrison on Wednesday:

"The President, after considering the situation and conferring with the various departments whose activities will be engaged, has approved the following plan in the existing emergency:

"The Navy Department will start the cruiser Tennessee from New York to-morrow night for the other side. In addition to whatever funds of the United States that may be sent by her she will carry \$5,117,000 to be utilized in furnishing gold currency to the clients of the following concerns:

"American Express Co., J. P. Morgan & Co., Bankers Trust Co., First National Bank, National Bank of Commerce, National City Bank, Brown

Bros. & Co., Kidder, Peabody & Co., Farmers' Loan & Trust Co., Guaranty Trust Co.

"Officials of the Treasury Department will accompany the expedition to attend to the primary disbursement of the Government fund, and the Treasury Department will designate fiscal agents on the Continent and in Egypt to handle the financial emergencies which may arise with respect to American citizens.

"The Assistant Secretary of War and a number of army officers will be sent over on the Tennessee. The matter of the transportation of returning Americans who are required by the exigencies of the situation to depend on the Government will be attended to by the War Department. Cases of urgent necessity will likewise be attended to by the War Department. The Assistant Secretary and the officers will, as soon as possible, establish headquarters at the practicable points of embarkation in England and on the Continent.

"All Americans within the respective zones will be advised to communicate with the headquarters in question. Whatever can be done in the way of aiding them will then be done. As soon as it is possible to do so, ships will be provided and sent to the various points of embarkation in England and upon the Continent, as stated above. Upon these ships Americans desiring to do so may secure passage for this country upon such terms as under the circumstances are found to be necessary.

"Of course the situation will be treated as one of emergency and the absence of ready money will not result in anyone failing to secure passages. Cases of emergency and destitution will be dealt with in the proper way as they arise.

"Through the diplomatic agencies notices of the arrangements above outlined will be disseminated as widely as possible, and any Americans applying to any of the diplomatic agents will be directed in the proper course. The Navy and the War Departments are to co-operate in every practicable way."

A further statement in the matter emanating from Secretary of the Treasury McAdoo was made public on the 5th; we give it herewith:

In order to provide a method by which relatives and friends in this country of Americans traveling in Europe may deposit funds to be used for the relief of such travelers, the Secretary of State, the Secretary of the Treasury and the Secretary of War had a conference this afternoon at the Treasury Department at which the following plan was agreed upon:

The Treasury Department at Washington and the sub-treasuries at San Francisco, Chicago, New Orleans, Baltimore, Boston, St. Louis, New York, Cincinnati and Philadelphia will receive deposits for the benefit of American travelers and give receipts therefor. The Congress appropriated to-day \$2,500,000, with authority to make advances to American travelers in Europe who may be in need of assistance. A large part of this appropriation will be sent to Europe immediately, to be advanced to American travelers under the direction of the Secretary of the Treasury, acting in co-operation with the Secretary of State and the Secretary of War, whose representatives will accompany the cruiser Tennessee, sailing Aug. 6. Whenever funds are deposited with the Treasury Department for the benefit of any American citizen in Europe, the Treasury Department, acting in conjunction with the State and War Departments, will endeavor to locate the proposed beneficiaries, and, if found, will make such advances to them out of the above appropriation as may be necessary to cover their immediate needs. The Department will reimburse itself for such expenditures out of the funds that may be deposited in the Treasury or sub-treasuries, as aforesaid, and will return to the depositors, when the accounts are finally made up, any unexpended balance of their deposits.

From this time forth funds should not be sent to the State Department or to any other department, except the Treasury Department or to the sub-treasuries above mentioned. All moneys thus far deposited with the State Department will be turned over to the Treasury Department for the benefit of the persons for whom such deposits were made.

Congress, by unanimous vote, passed a joint resolution appropriating \$2,500,000 for this purpose. The Tennessee is expected to sail from New York some time on the 6th inst. Assistant Secretary Breckenridge will accompany the ship as a representative of the War Department. The State Department and the Treasury Department will also send representatives. They will be designated later.

Just before the cruiser sailed the Navy Department rescinded its prohibition against the carrying of any civilians to supervise the distribution of the relief fund. As a result Elliott Tuckerman, representing J. P. Morgan & Co., J. P. Grier, representing C. D. Barney & Co., Henry W. Lewis, J. P. Jones and H. D. Gibson, representing other bankers, were allowed on board as passengers, as well as William G. Sharp, new Ambassador to France.

While bankers originally intended to ship \$5,117,000 of gold on the "Tennessee" for London and Paris, it was decided at the last moment to reduce the amount by \$2,117,000 in view of the appointment on Thursday of J. P. Morgan & Co. as representatives of the French Government and the arrangements entered into by that firm for the transfer of \$6,000,000 in gold from the Bank of France to Morgan, Harjes & Co., the Paris house of J. P. Morgan & Co. As a result of these proceedings the \$3,000,000 sent abroad by the bankers is all intended for London. The committee which arranged for the shipment of gold consists of Benjamin Strong Jr., Vice-President of the Bankers' Trust Co., James Brown of Brown Brothers & Co. and George C. Taylor of the American Express Co. Mr. Strong gave out the following statement in the matter yesterday:

Three million dollars in United States gold was yesterday delivered to the Assistant Treasurer of the United States for shipment to England in the United States cruiser Tennessee. This gold was delivered by the following committee of ten: J. P. Morgan, of Messrs. J. P. Morgan & Co.; James Brown, of Brown Brothers & Co.; William L. Benedict, of Kidder, Peabody & Co.; Benjamin Strong Jr., of the Bankers Trust Co.; A. J. Hemphill of the Guaranty Trust Co.; John E. Gardin, of the National City Bank; James S. Alexander, of the National Bank of Commerce; Charles D. Norton, of the First National Bank; George C. Taylor, of the American Express Co.; and C. R. Agnew, of the Farmers' Loan & Trust Co., representing a large number of contributors whose names will be announced later. Subscriptions to the fund are still being received.

Arrangements for distribution of the gold were made in conjunction with the United States officials and a committee in London representing the New York committee.

The impression has gotten abroad that this shipment is being made for account of the above New York institutions and firms, to take care of their own customers to the exclusion of holders of other credits and checks. This is incorrect. The New York committee is acting for a large number of American issuers of travelers' checks and letters of credit who have contributed to the fund, and all holders of American travelers' checks and letters of credit issued by responsible concerns will be recognized, irrespective of whether the issuers are contributors to the fund or not.

The sole object of this shipment is to provide for all who are in need and to give them the means of securing the funds necessary to maintain them in London and to furnish them with money for their return to the United States at the earliest possible moment.

The immediate delivery of this large shipment of gold into the custody of the Government for transmission to Europe in this emergency has been made possible by the active co-operation of a committee of officials of the Government in Washington, and a number of members of the Cabinet, who have been in constant touch with the committee in New York in order to put this plan into effect.

It was originally intended by the committee to ship \$5,117,000, but negotiations have been under way for some days, through Messrs. J. P. Morgan & Co., for the deposit of gold with a responsible New York depository, for the credit of the Bank of France, against which deposit disbursements could be immediately made in Paris in a similar manner to the disbursements in London, and the fund made immediately available without the shipment of gold. The committee having been informed by Mr. Morgan that this arrangement could probably be completed within a few hours and that disbursements were already being made in Paris through Messrs. Morgan, Harjes & Co., which would be charged against obligations which the committee was willing to incur for the deposit of this gold in New York, it was decided to ship no more than \$3,000,000 to London and retain the balance for relief in Paris under the arrangement above outlined.

Since the announcement was originally made that a fund was being raised for the above purpose and that it was intended for the benefit of all American holders of credits issued by responsible concerns, a large number of firms and institutions throughout the country with which the committee was unable in the first instance to communicate have voluntarily sent contributions to the committee through the Bankers Trust Co., and the committee is prepared to accept similar contributions to the fund by any responsible users of such credits who wish to become participants in the plan.

With regard to arrangements entered into between J. P. Morgan & Co. and the French Government, Mr. Morgan on Thursday said:

The French Government has deposited with J. P. Morgan & Co., through their Paris house, Morgan, Harjes & Co., 30,000,000 francs, which has been placed to the credit of the French Government to be drawn by the French Ambassador in Washington for the current needs of his Government. This is considered a significant and encouraging sign as evidencing a movement on the part of foreign governments to establish credits in the United States.

Morgan, Harjes & Co. have arranged that a large portion of this fund shall be payable in gold in order to provide for the wants of travelers in Paris. This will be carried out in connection with the same group of bankers which is forwarding gold to London by the Tennessee for the same purpose.

Mr. Morgan was further quoted as saying:

The French Government has bought cable transfers in Paris for a large sum of money, a sum sufficient to meet all the immediate needs of the American tourists over there. Part of this money is to be payable in gold.

How we shall arrange this in connection with the relief group has not yet been settled; in fact, none of the details is settled.

The simple fact is that there is sufficient gold to meet all needs that may arise. The amount is \$6,000,000, one-half of which is in gold. It is at the order of the French Ambassador, who will draw on it at this centre.

Probably half of the amount will be needed in Paris to meet the needs of the stranded travelers, while the balance will be available to meet payments of obligations of the French Government. In other words, France has established a credit balance here which will take care of immediate needs.

The Underwood Bill, designed to remedy the lack of shipping facilities growing out of the European war by amending the Panama Canal Act so as to eliminate the provision which requires foreign-built ships admitted to American registry to be not more than five years old at the time of their registration, was passed by the House on the 3rd inst. The bill also authorizes the President, whenever in his discretion the needs of foreign commerce require, to suspend by order, so far and for such length of time as he may deem desirable, the provisions of law prescribing that all the watch officers of vessels of the United States registered for foreign trade shall be citizens of the United States. It also stipulates that "under like conditions, in like manner, and to like extent, the President of the United States is also hereby authorized to suspend the provisions of the law requiring survey, inspection and measurement by officers of the United States of foreign vessels admitted to American registry under this Act." Action on the bill was deferred in the Senate on the 6th owing to the death of Mrs. Wilson. In defense of the bill, on Aug. 3 Representative Underwood said:

For many years I have favored legislation that would build up an American merchant marine that would be commensurate with the needs of our commerce. I do not contend for one moment that the bill that is now pending before the House supplies that demand. It does not. If the American people and the American Congress really desire a merchant marine, there is legislation needed in the future to accomplish that result. But to-day we face an emergency. I do not contend that this bill more than attempts to relieve the present situation. Before I explain this bill I wish to call your attention to the fact that this not only means the admitting of foreign ships to American registry, it means the admission of ships that are owned to-day by American citizens and American corporations

to American registry and authorizes them to fly the American flag instead of a foreign flag. The contention is here made that we are going to violate the neutrality laws if we pass this bill. What are we about to do? We have already (two years ago) passed a bill authorizing foreign ships that were not over five years of age to take American registry. This bill merely wipes out the five-year limitation and allows all foreign-built vessels to take American registry. Other nations to-day admit foreign ships to their registry without limitation. We are merely passing a law to-day to put our country on the same basis as the ships of foreign countries. We are not affecting the law of to-day as to ownership. There is not one word on that subject in this bill. We are eliminating the time limit. The other propositions are just as simple. They authorize the President in case of an emergency, in his discretion, to waive temporarily the law that requires American officers to man these ships. The other proposition is one that will probably not have to be availed of. That is to authorize the President to waive the question of survey, inspection and measurement. Most of these ships are already surveyed and measured by the Lloyds Society. Their surveys and measurements are printed and known and the probability is that the President will never have to waive that requirement.

Senator John Sharp Williams of Mississippi tendered his resignation as a member of the Senate Committee on Foreign Relations on the 5th inst. during the debate on the bill for the American registration of foreign built ships. Senator Williams offered a bill of his own, which failed to receive support, authorizing the Secretary of the Treasury to buy for cash ships of foreign registry, give them American registration, man them with enlisted men of the navy or other seamen, and use them for the shipping of anything except "absolute contraband" to any port in the world, unless blockaded. His resignation is as follows:

I hereby resign from the Foreign Relations Committee of the Senate on account of the failure of that committee to support the Administration in its program of mediation and arbitration and because of its equally disgusting hesitancy to supply ships to move the cotton crop.

The resignation was ruled out of order by Vice-President Marshall and an appeal from the decision of the Chair was voted down.

At the instance of the Stock Exchange and the banks Adrian H. Muller suspended on the 5th inst. the customary weekly sales of securities at auction. No sales will hereafter be held during the suspension of operations on the Stock Exchange. It is announced that public auction houses of Philadelphia have decided upon a similar course.

Following the action taken during 1907, the New York Clearing House Association announced on Thursday that the figures of the separate banks would not appear in this week's Clearing-House statement, which will be issued in general form only, with totals of the combined member banks.

Several statements on behalf of the New York Stock Exchange, which has remained closed since it was decided temporarily to suspend operations on July 31, have been issued during the week. On Monday Secretary Ely gave out a notice which said:

Announcement is made by Mr. H. G. S. Noble, President of the New York Stock Exchange, in answer to inquiries as to when the Exchange will open, that ample notice of such opening will be given.

The knowledge on Friday last (the 31st) that some "over-the-counter" dealings were being conducted after the closing of the Exchange, resulted in the issuance of a notice directing attention to one of its by-laws, which stipulates:

Dealing upon any other exchange in the city of New York, publicly outside of the Exchange, either directly or indirectly, in securities listed or unlisted, or quoted on the Exchange, is forbidden; any violation of this rule shall be deemed to be an act detrimental to the interests or welfare of the Exchange.

As stated last Saturday, a committee of five was named on July 31 for the purpose of deciding questions affecting the receipt and delivery of stocks. On the 3d inst. the Board of Governors adopted a resolution authorizing this committee "to decide all questions relative to the business of the Exchange and its members." The committee consists of H. G. S. Noble, Donald G. Geddes, Ernest Groesbeck, Henry K. Pomroy and Samuel F. Streit. The Governors of the Association of Partners of Stock Exchange Firms decided on the 3d to hold daily sessions at 11 o'clock, in order to deal with any matters which might come up, but the necessity for daily meetings had apparently ceased to exist before the end of the week, for on Thursday it was decided that further sessions would be held subject to call only.

Under date of the 5th inst. an announcement issued by Secretary Ely of the Exchange indicated that trading in securities pending the opening of the Exchange would find sanction only in very extreme cases, and then only "provided such dealings were for the benefit of the situation and in no sense of a speculative character." His notice says:

In answer to repeated inquiries from members of the Exchange as to whether they are permitted to buy or sell securities during the period in which the Exchange is closed, the Sub-Committee of Five appointed by the Governing Committee makes the following statement:

"When the Governing Committee ordered the Exchange closed, it was their intention that all dealings in securities should cease pending the adjustment of the financial situation and the reopening of the Exchange.

"It is possible that cases may occur where an exception would be warranted, provided such dealings were for the benefit of the situation and in no sense of a speculative character or conducted in public.

Any member, however, taking part in such transactions must have in mind his loyalty to the Exchange, whether or not he is living up to the spirit of its laws, and that he is not committing an act detrimental to the public welfare.

On Thursday a meeting of representatives of leading bond and banking houses was held in this city to determine to what extent trading in stocks and bonds "over the counter" should be permitted while business on the Exchange is suspended. The interests in attendance at the meeting included among others J. P. Morgan, William A. Read, Albert Strauss, of J. & W. Seligman & Co.; Charles Sabin, Vice-President of the Guaranty Trust Co. One of those present is quoted as saying:

The purpose of the meeting was to reach an understanding with respect to trading in securities during the period of suspended operations of the New York Stock Exchange. This is a time when a little philanthropic work on the part of banking and bond interests will be of much assistance in relieving the present unfavorable situation in the money markets here and abroad.

There was a universal feeling among those present that in so far as possible all trading in securities for the present should be suspended, so that nothing might be done to aggravate the situation. It was, however, left to the discretion of each house represented at the meeting.

Some of the bankers maintained that to trade in securities on an absolute cash basis could not work any harm to the situation. For instance, if an investor desired to purchase a bond for cash, it was asserted that it would not be indiscreet for bankers to accommodate him. It was decided, however, that in so far as possible and consistent with existing conditions all houses would refrain from transactions of every character.

At the same time the committee representing dealers in unlisted securities—Frederic H. Hatch, Harry G. Toby and J. K. Rice Jr.—gave out the following statement:

The committee selected to represent the dealers in unlisted bonds and stocks is strongly of the opinion that any attempts to trade or deal generally at this time are against the public interest.

The committee calls attention to the following extract from the notice of the New York Stock Exchange, dated Aug. 5, and published Thursday morning:

"It is possible that cases may occur where an exception would be warranted, provided such dealings were for the benefit of the situation, and in no sense of a speculative character, or conducted in public."

The committee is of the opinion that there should be no advertising of, or for, securities by circular or otherwise, and that any transactions required by necessity should be absolutely of a private nature.

The committee urges upon all dealers in stocks and bonds to observe the spirit of this notice and to refrain from any acts that may have a disturbing tendency.

Conferences were held during the week between representatives of the Stock Exchange and the Clearing House relative to the disposition of the securities sold in Europe last week and which arrived in this city on the Olympic on Tuesday night. Various estimates as to the value of these securities have been made, running all the way from \$4,500,000 to \$15,000,000 to \$20,000,000. A member of the sub-committee of the Exchange which was delegated to handle the matter said Thursday: "We have no power to make a statement in this matter, but will report our findings and conclusions directly to the special Committee of Five. If this committee approves our work, an announcement will be made by the special Committee of Five. This announcement will probably come from the New York Stock Exchange offices."

Warnings against the acceptance of quotations emanating from temporary exchanges, or those attempting to establish quotations, were issued during the week by both the Exchange and the Association of Partners, President Noble of the Exchange saying:

It is highly undesirable that such practices should prevail, and, on behalf of the Exchange, I must ask the newspapers of New York to co-operate with the officials of the Exchange in preventing these practices, not merely in the interest of the banks and the Exchange, but in the interest of the whole public.

Hartman K. Evans, Vice-President of the Association of Partners of Stock Exchange firms, in his warning, said:

The Association of Partners of Stock Exchange Firms wishes to warn the members and the general public against dealing in securities in any irresponsible or unregulated places. The best interests of all concerned will, in their opinion, be best served by a complete stoppage of all dealings until the New York Exchange again opens.

Dealers in unlisted securities have agreed not to solicit or accept business except where a transaction is a necessity of conditions, and a notice to publishers this week asked the latter to assist as far as possible in the elimination of all advertisements tending to make quotations which might be detrimental to the interests of the business community.

The New York Curb Market Association took occasion to circulate the following notice on the 3d inst.:

Members of the New York Curb Market Association are indignant at the advertisement in the newspapers this morning signed "New York Curb" and implying the existence of an emergency stock market. "The New York Curb" is a publication having no official connection with the New York Curb Market Association, which has issued the following notice to the public:

"The New York Curb Market Association wishes to deny emphatically any connection with advertisement appearing in the New York newspapers of to-day's date, entitled 'Emergency Stock Market,' signed 'New York Curb.'"

Attention is called to the fact that the Board of Representatives of the New York Curb Market Association, at a meeting held last Friday, adopted a resolution forbidding either direct or indirect dealings in any securities listed or quoted on the curb market and warning members that any violation of the rule would be considered an act detrimental to the interest and welfare of the New York Curb Market Association, which would be equivalent to expulsion from the Association.

While there was a pretty general closing of the stock exchanges throughout the country on July 31, following the action of the New York Exchange, the Cleveland Stock Exchange did not suspend operations until Saturday, the 1st. The Cincinnati Stock Exchange has continued its tradings and on Tuesday of this week the Board of Governors of that Exchange took formal action on the question, when they decided to continue the daily sessions.

At a meeting of the Philadelphia Stock Exchange on the 3d a resolution was adopted calling for the appointment of a Committee of Five with full authority to decide all questions relating to the business of the Exchange and its members during its suspension. The committee consists of Isaac T. Starr, James D. Windsor Jr., Charles H. Bean, Horace H. Lee and the President of the Exchange, W. D. Grange. On the 4th inst. Secretary Horace H. Lee made the following announcement:

The Special Committee of the Board of Governors of the Philadelphia Stock Exchange, in whose hands is vested all questions relating to the business of the Exchange and its members during the present period of closure, make the following announcement:

Except with the approval of the Committee, all trading in all securities shall cease until further notice. This includes trading over the counter, the offering to buy or sell or the making of quotations in any securities in any way, either by telephone, bond salesmen, circulars or otherwise.

Any infraction of the above will be considered an act detrimental to the interest or welfare of the Stock Exchange, in accordance with Article XX. of the constitution.

The Association of Partners of Stock Exchange Firms, following a session on the 1st inst., issued the following statement endorsing the action of the Stock Exchange in suspending operations, and urging that the firms themselves restrict their transactions as much as possible and confine their operations for direct clients to private transactions, so that the dealings and prices will not tend to establish a market.

The wise action of the Board of Governors in closing the New York Stock Exchange at this time protects American interests and restricts the withdrawal of gold by Europe.

We, therefore, strongly urge our members and all those who deal in securities, to follow the purpose of the Governors of the Exchange in limiting stock operations at a time of alarm. The exigencies of the situation necessarily will require transactions in adjusting accounts. In closing the exchange, obviously it was the intent that trading should not be transferred elsewhere, and it is therefore incumbent upon our firms, in loyalty to the welfare of our clients, as well as the Exchange, to carry out this intention in good faith, restricting transactions in both listed and unlisted securities as much as possible, and confining operations, as must occur, for direct clients, to private transactions, so that the dealings and prices made under stress shall not tend to establish a market. It is impossible to lay down hard and fast rules governing so exceptional an occasion as that which has arisen, but your Board of Governors earnestly hopes that the members of this association will observe with the utmost faith the purpose for which the Exchange was closed.

It is a source of congratulation that the crisis was met with such calmness and reason, and we express the hope that our membership will assist in suppressing the distribution of unwarranted rumors which would tend to injure credit or disturb confidence.

The adoption of the sixty-day clause by the savings banks throughout the State was in conformity with a resolution of the New York Savings Bank Association passed on Monday in response to a request of Superintendent Richards, who, in a statement concerning the action, said:

"The institutions that have been under the supervision of the Banking Department have never in their history been in better condition. The giving of the notice was not to help any institution or institutions but was caused solely by the unique and extraordinary conditions prevailing in Europe. The course adopted is the only available method of preventing large withdrawals of currency from the banks and from the country."

While the by-law requirement of the banks generally varies from thirty to ninety days, it was decided to call for a uniform notice of sixty days. The Seamen's Bank for Savings, although not a member of the New York Savings Bank Association, decided to conform to the arrangements adopted in compliance with Superintendent's Richard's desires. It was agreed by the savings banks to permit the withdrawal of small amounts without requiring the necessary notice.

The sixty-day clause, in so far as the withdrawal of savings funds of more than \$50 is concerned, has been put into effect by the savings banks and trust companies of Cleveland, this action being taken on the recommendation of the Cleveland Clearing-House Association. Cincinnati, Detroit, Des Moines, Duluth, St. Paul, Minneapolis and New Orleans have a

taken advantage of this clause so far as savings accounts are concerned.

The decision of the officials of the savings banks of Greater New York to give the sixty-day notice of withdrawal of deposits was followed on Aug. 3 by the issuance of an order by Superintendent Richards advising all savings and loan associations to take similar action. Private bankers of the State also availed themselves of a similar privilege. Later in the day Superintendent Richards issued an order to all State banking institutions, savings banks and private bankers in New York City advising them that the hours for doing business would be limited for the time being to from 10 a. m. until 3 p. m. and on Saturdays between the hours of 10 a. m. and 12 noon.

On the 5th Superintendent Richards received such encouraging reports as to improvement in conditions that he rescinded the order, so that both banks and private bankers may open on week days at 9 a. m.

Superintendent Richards also late in the afternoon of the 3d took possession of the business and affairs of Adolf Mandel at 155 Rivington Street and M. & L. Jarmulowsky at 165 East Broadway, Manhattan, private bankers. State examiner J. J. Kennedy was appointed Special Deputy Superintendent to assist in the liquidation of the assets of Adolf Mandel, while Charles A. Horne, another State Bank examiner, was designated as Special Deputy Superintendent to assist in the liquidation of the affairs of M. & L. Jarmulowsky. Mr. Kennedy and Mr. Horne took possession of the affairs of both bankers. An examination made of the affairs of these two private bankers is said to have disclosed a condition which showed them to be in an unsound and unsatisfactory condition. The assets of Mandel aggregated about \$2,000,000 while those of M. & L. Jarmulowsky total about \$1,600,000.

For the purpose of safeguarding the interests of depositors and in order to conserve the assets, Superintendent Richards on the 4th took possession of the business and affairs of Max Kobre, a private banker doing business under the title "Max Kobre's Bank" at 41 Canal Street, Manhattan, and its two branches, at 81 Grand Street and corner Pitkin and Stone Avenues, Borough of Brooklyn. This step was taken with the knowledge and approval of Max Kobre. Mr. Richards designated State bank examiner George V. McLaughlin to assist in the liquidation of the bank's affairs. The deposits aggregate about \$3,800,000.

On July 31 Mr. Richards took over the business of Deutsch Bros., private bankers, doing business at 319 East Houston Street, Manhattan. Superintendent Richards took this action upon request of the private bankers themselves. During the week Deutsch Bros. had been subjected to heavy withdrawals, and in order to conserve the interests of the depositors Superintendent Richards deemed it advisable to act at once. Deutsch Bros. did a small business. Their deposits were slightly in excess of \$200,000. An examination showed assets about equal to the liabilities.

Following the discontinuance on the 1st inst. of all contracts for the carriage of foreign mails of the United States in vessels flying the German flag, Postmaster-General Burleson canceled the trans-Atlantic mail contracts with the British steamship lines, and the American mails are being transferred to ships of the United States, Sweden and other countries not involved.

On the 3d inst. the Post Office Department suspended the parcel-post service between the United States, Germany and France. France and Germany have suspended their parcel-post service.

On the 1st inst. Postmaster General Burleson issued the following instructions to postmasters regarding international money orders, this being supplemented by later instructions which we give further below:

The treaties concluded by the United States with foreign countries give each postal administration power to suspend temporarily the exchange of money orders "in case the course of exchange or other circumstances should give rise to abuses or cause detriment to the postal revenue."

The sudden and extraordinary advance in bankers' exchange due to the public apprehension of a general European war may lead to "abuses" of the money-order system because of the much lower rates of conversion obtainable at the post offices.

In these unusual circumstances and until the return of normal conditions, postmasters may decline to accept applications for international money orders when made for unusually large sums, and when there is reason

believe the orders are wanted for speculative purposes. In every such case, however, immediate report of the facts should be made at the office of the Third Assistant Postmaster General, Division of Money Orders.

In his second statement in the matter, issued on the 3rd inst., Mr. Burleson said:

It is not my purpose to restrict the money order service to a point where it will prove injurious to any Americans in Europe who may be financially embarrassed now by the sudden turn of affairs there. It is the intention of the Department, however, to so restrict the service that money cannot be transferred to Europe for speculative purposes. The Post Office Department will lend every assistance possible in transmitting money to aid Americans to return to this country. The Third Assistant Postmaster General, therefore, will notify all postmasters authorized to issue international money orders to sell them for this purpose, limiting the amount to \$100 for each person. Postmasters will continue to decline to issue money orders for unusually large sums and where there is reason to believe the orders are desired for speculative purposes, as required by the notice of the Third Assistant Postmaster General appearing in the "Daily Bulletin" of orders affecting the postal service of August 1.

At a meeting of traffic managers of the Eastern trunk-line railroads of this city on Tuesday, to consider the question of dealing with the rail movement of miscellaneous merchandise from interior points to the seaboard for export shipment, it was decided that the present conditions do not warrant the issuance of a general embargo. As a means of self-protection, however, it was agreed by the traffic managers to issue instructions to all their inland connections and agents at such points not to accept any more shipments for foreign ports via the Atlantic seaboard on through bills of lading. The instructions to the agents on these shipments will read that all consignments to foreign ports must be shipped on domestic bills of lading. It is pointed out by the "Journal of Commerce" that the railroads regularly allow 30 days' free storage time on domestic bills of lading, but on through bills of lading the storage time is not limited. The limitations of all export shipments to domestic bills of lading by the decision of the managers therefore means that such shipments will only be permitted to take advantage of the ordinary 30 days' free storage time before demurrage rates become effective.

The Montreal "Gazette" on the 4th inst. summarizes in the following the protective measures decided upon by the Canadian Government for the safeguard of the Dominion interests:

1. The emergency circulation provision of the Bank Act, which does not come into force ordinarily before September, becomes effective at once.
2. Dominion notes will be issued to the banks on the basis of approved securities instead of the gold required by law.
3. The banks are authorized to make payment by notes instead of by the gold that might be demanded.

These measures have been decided upon with a view to what may prove to be the necessities of the situation rather than on account of actual needs at the moment.

The provision making it unnecessary for the banks, unless they wish it, to make payments by gold is of course with a view to protecting the gold now in the country. Similar measures have had to be adopted in London and New York and it was inevitable that similar steps should be taken here. Otherwise the gold might be gradually drained out of the banks and disappear altogether from the usual channels of business.

This was the summary of an official announcement given out from the office of the Minister of Finance at Ottawa, furnished in more detail by the "Gazette" as follows:

Having regard to the world-wide financial crisis which has developed upon the outbreak of hostilities in Europe, and in view of the action of the Imperial Government for conserving the financial and commercial interests of the United Kingdom, the Minister of Finance announces on behalf of the Dominion Government that, while it is not probable that such action on its part will be required, it stands ready to issue Dominion notes to such amount as may be necessary against securities deposited by the banks and approved by the Minister of Finance.

The Minister of Finance further announces that the Government has authorized the chartered banks of Canada to make payments in bank notes instead of gold or Dominion notes until further official agreement in that behalf. This action will tend to conserve the Canadian gold supply against demands from foreign sources, a course now being followed by all the leading nations of the world.

The Minister further announces that the Government has authorized the chartered banks of Canada to issue excess circulation to an amount not exceeding 15% of their combined unimpaired paid-up capital and rest or reserve fund from this date until further official announcement.

Any necessary special legislation will be obtained at the next session of Parliament.

The Minister further announces that the Government, if necessity should arise, will give every other possible assistance in order to prevent any unavoidable interruption of stable business conditions, and for this purpose it will not hesitate to use to the fullest extent all existing powers and to ask further the powers from Parliament if that course should seem necessary or expedient.

THE PRESIDENT'S PROCLAMATION DECLARING THE NEUTRALITY OF THE UNITED STATES.

That the United States will remain strictly neutral in the present general war among the great nations of Europe was officially declared by President Wilson in the following proclamation issued on Tuesday, the 4th inst.:

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA—
A PROCLAMATION.

Whereas a state of war unhappily exists between Austria-Hungary and Serbia and between Germany and Russia and between Germany and France; and whereas the United States is on terms of friendship and amity with the contending Powers and with the persons inhabiting their several dominions;

And whereas, there are citizens of the United States residing within the territories or dominions of each of the said belligerents and carrying on commerce, trade or other business or pursuits therein;

And whereas, there are subjects of each of the said belligerents residing within the territory or jurisdiction of the United States and carrying on commerce, trade or other business or pursuits therein;

And whereas, the laws and treaties of the United States, without interfering with the free expression of opinion and sympathy, or with the commercial manufacture or sale of arms or munitions of war, nevertheless impose upon all persons who may be within its territory and jurisdiction the duty of an impartial neutrality during the existence of the contest;

And whereas, it is the duty of a neutral government not to permit or suffer the making of its waters subservient to the purposes of war;

Now, therefore, I, Woodrow Wilson, President of the United States of America, in order to preserve the neutrality of the United States and of its citizens and of persons within its territory and jurisdiction, and to enforce its laws and treaties, and in order that all persons, being warned of the general tenor of the laws and treaties of the United States in the behalf, and of the law of nations, may thus be prevented from any violation of the same, do hereby declare and proclaim that by certain provisions of the Act approved on the 4th day of March, A. D. 1909, commonly known as the Penal Code of the United States, the following acts are forbidden to be done under severe penalties within the territory and jurisdiction of the United States, to wit:

"1. Accepting and exercising a commission to serve either of the said belligerents by land or by sea against the other belligerent.

"2. Enlisting or entering into the service of either of the said belligerents as a soldier, or as a marine, or seaman on board of any vessel of war, letter of marque, or privateer.

"3. Hiring or retaining another person to enlist or enter himself in the service of either of the said belligerents as a soldier, or as a marine or seaman on board of any vessel of war, letter of marque, or privateer.

"4. Hiring another person to go beyond the limits or jurisdiction of the United States with intent to be enlisted as aforesaid.

"5. Hiring another person to go beyond the limits of the United States with intent to be entered into service as aforesaid.

"6. Retaining another person to go beyond the limits of the United States with intent to be enlisted as aforesaid.

"7. Retaining another person to go beyond the limits of the United States with intent to be entered into service as aforesaid. (But the said Act is not to be construed to extend to a citizen or subject of either belligerent who, being transiently within the United States, shall, on board of any vessel of war which, at the time of its arrival within the United States, was fitted and equipped as such vessel of war, enlist or enter himself or hire or retain another subject or citizen of the same belligerent who is transiently within the United States, to enlist or enter himself to serve such belligerent on board such vessel of war, if the United States shall then be at peace with such belligerent.)

"8. Fitting out and arming, or attempting to fit out and arm, or procuring to be fitted out and armed, or knowingly being concerned in the furnishing, fitting out or arming of any ship or vessel with intent that such ship or vessel shall be employed in the service of either of the said belligerents.

"9. Issuing or delivering a commission within the territory or jurisdiction of the United States for any ship or vessel to the intent that she may be employed as aforesaid.

"10. Increasing or augmenting, or procuring to be increased or augmented, or knowingly being concerned in increasing or augmenting the force of any ship of war, cruiser, or other armed vessel which at the time of her arrival within the United States was a ship of war, cruiser, or armed vessel in the service of either of the said belligerents, or belonging to the subjects of either, by adding to the number of guns of such vessels, or by changing those on board of her for guns of a larger calibre, or by the addition thereto of any equipment solely applicable to war.

"11. Beginning or setting on foot or providing or preparing the means for any military expedition or enterprise to be carried on from the territory or jurisdiction of the United States against the territories or dominions of either of the said belligerents."

And I do hereby further declare and proclaim that any frequenting and use of the waters within the territorial jurisdiction of the United States, by the armed vessels of a belligerent, whether public ships or privateers for the purpose of preparing for hostile operations, or as posts of observation upon the ships of war or privateers or merchant vessels of a belligerent lying within or being about to enter the jurisdiction of the United States, must be regarded as unfriendly and offensive, and in violation of that neutrality which it is the determination of this Government to observe; and to the end that the hazard and inconvenience of such apprehended practices may be avoided, I further proclaim and declare that from and after the fifth day of August instant, and during the continuance of the present hostilities between Austria-Hungary and Serbia, and Germany and Russia, and Germany and France, no ship of war or privateer of any belligerent shall be permitted to make use of any port, harbor, roadstead or waters subject to the jurisdiction of the United States from which a vessel from an opposing belligerent (whether the same shall be a ship of war, a privateer, or a merchant ship) shall have previously departed, until after the expiration of at least twenty-four hours from the departure of such last-mentioned vessel beyond the jurisdiction of the United States.

If any ship of war or privateer or belligerent shall, after the time this notification takes effect, enter any port, harbor, roadstead or waters of the United States, such vessel shall be required to depart and to put to sea within twenty-four hours after her entrance into such port, harbor, roadstead, or waters, except in case of stress of weather or of her requiring provisions or things necessary for the subsistence of her crew, or for repairs; in any of which cases the authorities of the port or nearest port (as the case may be) shall require her to put to sea as soon as possible after the expiration of such period of twenty-four hours, without permitting her to take in supplies beyond what may be necessary for her immediate use, and no such vessel which may have been permitted to remain within the waters of the United States for the purpose of repair shall continue within such port, harbor, roadstead or waters for a longer period than twenty-four hours after her necessary repairs shall have been completed, unless within such twenty-four hours a vessel, whether ship of war, privateer, or merchant ship of an opposing belligerent shall have departed therefrom, in which case the time limited for the departure of such ship of war or privateer shall be extended so far as may be necessary to secure an interval of less than twenty-four hours between such departure and that of any ship of war,

privateer, or merchant ship of an opposing belligerent which may have previously quit the same port, harbor, roadstead or waters.

No ship of war or privateer of a belligerent shall be detained in any port, harbor, roadstead or waters of the United States more than twenty-four hours, by reason of the successive departures from such port, harbor, roadstead or waters of more than one vessel of an opposing belligerent. But if there be several vessels of opposing belligerents in the same port, harbor, roadstead or waters, the order of their departure therefrom shall be so arranged as to afford the opportunity of leaving alternately to the vessels of the opposing belligerents, and to cause the least detention consistent with the objects of this proclamation.

No ship of war or privateer of a belligerent shall be permitted while in any port, harbor, roadstead or waters within the jurisdiction of the United States to take in any supplies except provisions and such other things as may be requisite for the subsistence of her crew, and except so much coal only as may be sufficient to carry such vessel, if without any sail power, to the nearest port of her own country, or, in case the vessel is rigged to go under sail and may also be propelled by steam power, then with half the quantity of coal which she would be entitled to receive, if dependent upon steam alone, and no coal shall again be supplied to any such ship of war or privateer in the same or any other port, harbor, roadstead or waters of the United States, without special permission, until after the expiration of three months from the time when such coal may have been last supplied to her within the waters of the United States, unless such ship of war or privateer shall, since last thus supplied, have entered a port of the Government to which she belongs.

And I do further declare and proclaim that the statutes and the treaties of the United States and the law of nations alike require that no person within the territory and jurisdiction of the United States shall take part, directly or indirectly, in the said wars, but shall remain at peace with all of the said belligerents, and shall maintain a strict and impartial neutrality.

And I do hereby enjoin all citizens of the United States, and all persons residing or being within the territory or jurisdiction of the United States, to observe the laws thereof, and to commit no act contrary to the provisions of the said statutes or treaties or in violation of the law of nations in that behalf.

And I do hereby warn all citizens of the United States, and all persons residing or being within its territory or jurisdiction, that, while the free and full expression of sympathies in public and private is not restricted by the laws of the United States, military forces in aid of a belligerent cannot lawfully be originated or organized within its jurisdiction, and that, while all persons may lawfully and without restriction by reason of the aforesaid state of war manufacture and sell within the United States arms and munitions of war, and other articles ordinarily known as contraband of war, yet they cannot carry such articles upon the high seas for the use or services of a belligerent, nor can they transport soldiers and officers of a belligerent, or attempt to break any blockade which may be lawfully established and maintained during the said wars without incurring the risk of hostile capture and the penalties denounced by the law of nations in that behalf.

And I do hereby give notice that all citizens of the United States and others who may claim the protection of this Government, who may misconduct themselves in the premises, will do so at their peril, and that they can in nowise obtain any protection from the Government of the United States against the consequences of their misconduct.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the city of Washington, this fourth day of August, in the year of our Lord one thousand nine hundred and fourteen and of the independence of the United States of America the one hundred and thirty-eighth.

The following further proclamation, bearing on the wireless system within the jurisdiction of the United States, prohibiting any unneutral service during the continuance of the European hostilities, was issued by the President on the 5th:

Whereas, Proclamations having been issued by me declaring the neutrality of the United States of America in the wars now existing between various European nations; and

Whereas, It is desirable to take precautions to insure the enforcement of said proclamations in so far as the use of radio communication is concerned;

It is now ordered, by virtue of authority vested in me to establish regulations on the subject, that all radio stations within the jurisdiction of the United States of America are hereby prohibited from transmitting or receiving for delivery messages of an unneutral nature, and from in any way rendering to any one of the belligerents any unneutral service during the continuance of hostilities.

The enforcement of this order is hereby delegated to the Secretary of the Navy, who is authorized and directed to take such action in the premises as to him may appear necessary.

This order to take effect from and after this date.

The issuance of President Wilson's instructions on the wireless was followed by the promulgation on the 6th inst. of the following statement relative thereto by Secretary of the Navy Daniels:

No cipher or code messages are permitted to be transmitted to, or received from, radio ship or shore stations of belligerent nations by any Government or commercial radio station situated in the United States or its possessions, or in territory under the jurisdiction of the United States except cipher to or from United States officials.

No cipher or code radio messages will be permitted to be sent from any radio stations in the United States via foreign stations if destined to a belligerent.

Radio messages containing information relating to operations, material or personnel of armed forces of any belligerent nation will be considered as unneutral in character and will not be handled by radio stations under the jurisdiction of the United States.

In general, the censoring official will assure himself beyond doubt that no message of an unneutral character is allowed to be handled.

In order to insure that the censors may in all cases be informed thoroughly and correctly as to the contents of radio messages coming under their censorship, they will demand, when necessary, that such messages be presented for their ruling in a language that is understandable to them.

In case of doubt as to the character of a message it should be stopped and its contents, with full explanation of details, be forwarded to the Department by telegraph for instructions as to the proper procedure to follow.

A tender of his good offices in bringing about peace between the warring nations of Europe was made by President Wilson in the following message on the 5th inst. to Emperor

William of Germany, Emperor Nicholas of Russia, Emperor Francis Joseph of Austria-Hungary, President Poincare of France and King George of Great Britain.

As official head of one of the Powers signatory to The Hague Convention, I feel it to be my privilege and my duty, under Article Three of that Convention, to say to you in a spirit of most earnest friendship that I should welcome an opportunity to act in the interest of European peace, either now or any other time that might be thought more suitable, as an occasion to serve you and all concerned in a way that would afford me lasting cause for gratitude and happiness.

WOODROW WILSON.

The proffer of good offices was forwarded by Secretary Bryan to the American embassies in the nations involved, to be transmitted through them to the governments.

BUSINESS CONDITIONS AND TRADE AND TRUST PROPOSALS.

Once more President Wilson declined to stay the proceedings on the trust legislation, a postponement urged upon him by Senators Brandegee, Gallinger and Smoot (Republicans) on the 3d inst., because of the conditions arising out of the European troubles, having resulted in his declaring that if final action were not taken on the bills at the current session, the uncertainty of the trust legislation would prove more harmful than its enactment. On the 5th inst. the Federal Trade Commission Bill passed the Senate by a vote of 53 to 16, and the Clayton anti-trust bill was made the unfinished business of the Senate. The bill providing for the Federal regulation of railroad security issues will be taken up by the Senate after the Clayton bill is disposed of. The Federal Trade Commission Bill, which is the Senate substitute for the Inter-State Trade Commission Bill that passed the House on June 5, provides for a Trade Commission of five members which will take over the work now delegated to the Bureau of Corporations, in addition to being invested with powers additional to that already conferred on the Commissioner of Corporations. The powers of the Commission would be divided into two classes, one of the investigation into the business, the financial condition, conduct and management of corporations engaged in inter-State commerce and the other issuing and enforcement of orders against "unfair competition" by corporations. The bill as presented to the Senate by Senator Newlands was printed in our issue of June 20. The Pomerene substitute for Section 5 (dealing with "unfair competition"), referred to in these columns last Saturday, failed of adoption in the Senate, although agreed to by the Senate Committee on Inter-State Commerce, and on Aug. 1 the Senate adopted (by a vote of 33 to 25) the Cummins substitute, as follows:

Section 5. That unfair competition in commerce is hereby declared unlawful.

The Commission shall have authority to prevent such unfair competition in commerce in the manner following, to wit:

Whenever it shall have reason to believe that any person, partnership or corporation is violating the provisions of this section, it shall issue and serve upon the defendant a complaint stating its charges in that behalf and at the same time a notice of hearing upon a day and at a place therein fixed. The person, partnership or corporation so complained of shall have the right to appear at the place and time so fixed and show cause why an order should not be entered by the Commission requiring such person, partnership or corporation to cease and desist from the violation of the law so charged in said complaint.

If upon such hearing the Commission shall find that the person, partnership or corporation named in the complaint is practicing such unfair competition, it shall thereupon enter its findings of record, issue and serve upon the offender an order requiring that within a reasonable time, to be stated in said order, that the offender shall cease and desist from such unfair competition. The Commission may at any time set aside, in whole or in part, or modify its findings or order so entered or made. Any suit brought by any such person, partnership or corporation to annul, suspend or set aside, in whole or in part, any such order of the Commission, shall be brought against the Commission in a District Court of the United States in the judicial district of the residence of the person or of the district in which the principal office or place of business is located and the procedure set forth in the Act of Congress making appropriations to supply urgent deficiencies and insufficient appropriations for the fiscal year 1913, and for other purposes relating to suits brought to suspend or set aside, in whole or in part, an order of the Inter-State Commerce Commission shall apply.

If within the time so fixed in the order of the Commission the person, partnership or corporation against which the order is made shall not cease or desist from such unfair competition, and if in the meantime such order is not annulled, suspended or set aside by a court, the Commission may bring suit in equity in a District Court in any district wherein such person or persons reside, or wherein such corporation has its principal office or place of business, to enforce its said order, and jurisdiction is hereby conferred upon said court to hear and determine any such suit and to enforce obedience thereto according to the law and rules applicable to suits in equity. All the provisions of the law relating to appeals and advancement for speedy hearing in suits brought to suspend or set aside an order of the Inter-State Commerce Commission shall apply in suits brought under this section.

An amendment to Section 5 proposed by Senator Newlands and agreed to by the Senate provides that "neither the orders of the Commission nor the judgment of the court to enforce the same shall in any wise relieve or absolve any person or corporation from any liability under the Act entitled 'An Act to prohibit trade and commerce against unlawful restraints and monopolies.'" Senator Reed proposed on the

4th that there be added a new section, modified by Senator Clarke of Arkansas, so as to read:

The term "unfair competition," as used in Section 5, is hereby defined to embrace all those acts, devices, concealments, threats, coercions, deceits, frauds, dishonest practices, false representations, slanders of business and all other acts or devices, whether of like nature to those enumerated herein or not, done or used with the intent or calculated to destroy or unreasonably injure the business of another or prevent another from engaging in business or to restrain trade or to create a monopoly.

This proposal was defeated by a vote of 32 to 30. On the day of the passage of the bill (the 5th) an amendment of Senator Saulsbury's requiring that corporations with capital stock, surplus, bonded indebtedness and undivided profits of \$5,000,000 shall maintain agents in Washington upon whom all orders of the Trade Commission could be made, was adopted. An amendment offered by Senator Pomerene and accepted on the 5th, provides that complainant persons or corporations before the Trade Commission may become parties to the suit and may be represented by counsel in all subsequent proceedings. The Pomerene amendment, providing for a broad court review of the orders of the Commission, was again defeated, 38 to 27. Of the 53 votes by which the bill passed the Senate, 12 were cast by Republicans, viz.: Senators Brady, Bristow, Clapp, Crawford, Cummins, Fall, Gronna, Jones, Kenyon, Norris, Perkins and Sterling. Two Democrats voted against the bill—Senators Thomas of Colorado and West of Georgia.

Robert R. Reed of Caldwell, Masslich & Reed had the following to say regarding the Senate Trade Commission Bill on the 6th:

Though the Cummins amendment to the Trade Commission Bill, now adopted by the Senate, is an improvement on the Stevens amendment, which it supersedes, the fatal vice remains. There is no law until the Commission acts, that is, there is no law but the executive mandate, and there is no crime but disobedience to the executive mandate. The legislative power of declaring the law is completely vested in the Commission. The judicial power of restricting the Commission, of defining and limiting the scope of its power, is left to the courts, though without the power to review the facts found by the Commission. The result is a law in effect punishing disobedience of an executive order prohibiting an act of unfair competition. Until such an order issues, the prohibition is nominal. When it issues, it is real. The law rests, not on all persons, but on those only to whom the Commission directs its application. It is a very simple proposition, in a way very inviting to the casual reader. In principle, I believe, it is fundamentally wrong, and in its ultimate effect on our institutions it is bound to prove disastrous. Its efficiency is that of monarchy, of personal government, and it has no place whatever in a democracy. "Institutions alone," said Napoleon, "fix the destinies of nations." Our institutions are grounded in our written Constitution, and I have little doubt but that the bill now passed by the Senate will be declared unconstitutional if it is finally adopted in its present form.

A petition urging the postponement of further action on the trust bills, in view of the disturbed conditions incident to the European wars, was sent to Congress by the Merchants' Association of New York, through its President, W. A. Marble, on the 5th. It says:

The industry and commerce of this country, already disturbed by the necessity of readjustment to new conditions created by tariff and currency legislation, are suddenly confronted by the paralyzing effects arising from the possible, if not probable, suspension for an indefinite period of foreign commerce and of international trade and financial relationships. Under such circumstances, additional readjustment to comply with the terms of pending anti-trust legislation, irrespective of the merits of the pending bills, would constitute a burden which our industry and commerce may be unable to bear and would be likely to precipitate a crisis so serious as to constitute a national calamity.

The Merchants' Association of New York therefore respectfully urges that further consideration of and action upon any of the anti-trust bills now pending be immediately postponed until a later session of Congress.

THE DECISION OF THE COMMERCE COMMISSION ON THE APPLICATION FOR HIGHER RATES.

The report of the Inter-State Commerce Commission on the petition of the railroads east of the Mississippi and north of the Ohio and Potomac Rivers for permission to make a general advance in freight rates of 5% was filed last Saturday, August 1. The opinion, written by Chairman Harlan, consists of 77 pages. It is concurred in by Commissioners Clements, Clark, Meyer and Hall. Commissioner McChord and Commissioner Daniels have each filed a separate opinion, differing from the majority as to a part of the findings. A synopsis of the report was prepared by the Commission for the press, and this we give in full as follows. It will be understood that this is the Commission's own statement of the purport of the decision.

The more significant features of the Commission's report are:

First. The contention of the railroads that their revenues under the present scale of rates are inadequate is sustained, the Commission saying that—
the operating income of the railroads in official classification territory, taken as a whole, is smaller than is demanded in the interest of both the general public and the railroads.

After referring to the duty the railroads owe to the public of conducting an efficient and safe service, the Commission declares that the public owes a corresponding duty to the owners of the railroads and must afford them

a full opportunity to earn a fair return on their investment and to share in the general prosperity, so long as the rates exacted by them of the public are just and reasonable. The report says on this point:

It is not only consistent with a national policy that invites the private ownership of railroads that there should be a liberal return on a particular railroad investment, when the property has been wisely planned and honestly constructed and is efficiently managed; but the full development of that policy, as well as justice, requires that such a return should be made. The public interest demands not only the adequate maintenance of existing railroads, but a constant increase of our transportation facilities to keep pace with the growth and requirements of our commerce. If, however, that development is to be accomplished with private capital, in conformity with our traditions, nothing can be more certain than that the facilities will not be provided except under such a system of regulation as will reasonably permit a fair return on the money invested.

The present financial difficulties of the railroads are recognized by the Commission as a problem not only of the railroads but of the public, which it is the duty of the Commission to help to solve. On this point the Commission says, speaking of the need of the carriers for additional revenues, that—

It is our duty and purpose to aid, as far as we legally may, in the solution of the problem as to the course carriers may pursue to meet the situation.

Second. The Commission points out that the official classification territory embraces three rate territories, known as the New England territory, lying east of the Hudson River; the trunk line territory, lying between the New England territory and the Buffalo-Pittsburgh line, and the central freight association territory, lying between the Buffalo-Pittsburgh line and the Mississippi River, and that the financial and traffic conditions of the railroads operating in these three rate territories differ widely. The Commission finds that the rates in central freight association territory, as a whole, are not only lower than the rates in either trunk line or New England territory, but that they are lower than the rates in any other part of the United States. If the average freight rate had been as high on the central freight association territory lines as on the roads in trunk line territory, the former would have earned in 1913 \$56,000,000 more than they actually did, and that the 28 representative roads in central freight association territory, which are most in need, would have earned \$29,000,000 more.

Third. The aggregate mileage of the roads in central freight association territory is greater than that of all the roads in the New England and trunk line territories combined. The increase in revenues resulting from increases in rates in central freight association territory will afford some relief to practically all the lines in official classification territory which are in need of additional revenues, except the New England lines, whose needs are being locally cared for. The three great trunk lines have each a large mileage in central freight association territory, so that their revenues will be augmented by rate increases in that territory. Thus, of the New York Central system's 12,690 miles of line, 8,938, or more than two-thirds, are in central freight association territory. Nearly one-half of the mileage of the Pennsylvania system is also in that territory and more than one-half of the Baltimore & Ohio, the Erie, the Chesapeake & Ohio, and the Norfolk & Western also have important mileage in central freight association territory. The systems in trunk line territory which have no mileage in central freight association territory are in large part roads with large anthracite coal traffic and they are very prosperous.

Fourth. The Commission finds that the class rates effective in central freight association territory are so low that an increase of 5 per cent would clearly not be unreasonable, but points out that the class rate structure in that territory is honeycombed with inconsistencies, and says—

The attitude of the officials of the roads operating in central freight association territory, as disclosed on the record, indicated that they joined in this proceeding not because they thought the so-called 5 per cent increase of rates would meet their requirements or that this form of relief is appropriate in central freight association territory, but only because of the desire of other and more powerful lines operating in trunk-line territory to present to us in this proceeding one general plan of relief. These officials, while stating that the so-called 5 per cent increase would add substantially to their revenues, expressly condemn the present basis of rates as unsuitable and unsatisfactory. The leading railroad witness on the question affirmed, with some earnestness, that "the class rates do not sustain any logical relation to each other," and that under the present basis of rates "certain shippers of certain classes of freight have not for years borne their share of the burden of transportation, and in addition to the rates being extremely low they are unscientific and illogical."

This view was also expressed of record by many large shippers. A rate expert of the Chicago shipping interests, whose testimony in another proceeding was put of record here, testified that the central freight association scale was a "relic of barbarism."

The report also says—

Counsel who presented and argued the case for the central freight association lines admitted and definitely stated that while the 5 per cent increase would help the financial situation, the whole rate structure in that territory needed a readjustment; that many of the lines in the territory would not survive without "an overhauling of their rates," and "could not serve the public as they should until those rates are readjusted and brought upon some logical basis." He also stated that if the rates [were now advanced on the so-called 5 per cent basis, it would be but a short time before those lines would be before us again. He gave express notice that the central freight association lines, if the 5 per cent increase were now allowed, would "in due time file tariffs and bring the matter to the attention of the Commission."

The Commission then adds—

There can be no doubt upon the record that the carriers in central freight association territory ought, in the public interest, to have as much additional revenue as would be produced by a 5 per cent increase, as modified herein, and possibly more. It is not improbable, however, in view of the modifications we have required in those tariffs, that they will find it more desirable at once to undertake the readjustment which they assert is necessary.

Fifth. The Commission finds that the carriers operating in central freight association territory are entitled to an increase not exceeding 5 per cent on all class and commodity rates on shipments wholly within that territory, except the rates on coal, coke, iron ore, cement, brick, tile, clay, starch and plaster, as to which the carriers did not sustain their burden of proof, and any rates which are controlled by specific unexpired orders of the Commission. The proposed increases in lake-and-rail rates and in rates between central freight association territory and other portions of official classification territory are disallowed. The effect of the findings is also to disallow the application of the proposed minimum increase of 5 cents a ton on those commodities for which a charge is now made of less than a dollar a ton. This minimum increase, in some instances, would have resulted in increasing rates as much as 25 to 50 per cent.

Sixth. The Commission finds that the financial conditions of the carriers in trunk line territory do not warrant a general increase of freight

rates and that the needs of the New England lines are being cared for locally, and disallows the proposed increases in those territories; but under the title of "How carriers may increase their revenues," finds "that great opportunity exists for increasing the net revenue of all carriers in official classification territory otherwise than by resorting to a general advance in their freight rates," and makes the following specific suggestions:

Seventh. The Commission suggests that, following the plan adopted in New England, conferences be held between the State commissions, the carriers and representatives of the public with a view to advancing such passenger fares as may be shown to be clearly unremunerative. With respect to fares fixed by statutes in certain States, the Commission expresses confidence that if these fares are clearly shown to be unduly burdensome to the carriers, the people of those States will cheerfully acquiesce, as the people of New England have done, in reasonable increases, and that the necessary legislative authority will be promptly given. The Commission further says:

An accurate ascertainment and frank disclosure of operating costs is the most effective protection against the possibility of unjust legislation, for we must assume that the public conscience intends no injustice against the owners of these great properties that are devoted to the service of the public, and adds—

Passenger fares are paid directly to carriers by those making use of the service and they know what it costs them. Payments for freight charges, while less direct, are none the less actual. The general public does not know, and probably does not stop to consider, what proportion of the cost of a ton of coal, or of the price of a dwelling, or the rent of an apartment represents freight charges, but the cost of freight transportation enters into the cost or selling price of practically everything used by the public. In many cases, to be sure, freight charges represent but a small proportion of the total cost of things used or consumed, but it is quite probable that the average family pays much more in the course of a year as freight charges than it does for passenger fares. We know of no provision of law under which we would be justified in increasing freight rates to provide a return upon property used exclusively in the passenger service, much less to take care of losses incurred in such service. In our opinion each branch of the service should contribute its proper share of the cost of operation and of return upon the property devoted to the use of the public.

Eighth. The Commission suggests that "all the railroads in official classification territory examine carefully their freight rates, rules and regulations with a view to increasing rates that are found to be clearly unremunerative, and modifying burdensome rules and regulations relating to minimum weights and similar matters where this may justly be done," saying: "Many unremunerative rates had their origin in fierce competition for traffic or under the menace of the big traffic of powerful shippers. Many such rates have doubtless been continued through ignorance of the loss they entail upon the carriers."

Ninth. The Commission suggests that "all railroads in official classification territory should ascertain to what extent * * * special services now being rendered by the carriers to shippers for which no special charge, or a noncompensatory charge, is made * * * constitute an unjust burden upon the carriers or result in unjust discrimination among the shippers." In this connection the Commission calls attention to compilations prepared by it from the carriers' answers to the Commission's inquiries showing the practice of individual roads as to: "(a) allowance of free time for loading or unloading carload freight; (b) collecting and delivering freight; (c) storing freight; (d) transporting containers; (e) furnishing and transporting dunnage, preservatives, &c.; (f) furnishing or paying for wharfage and dockage; (g) refrigeration service; (h) loading and unloading carload freight; (i) re-consigning carload freight; and (j) other special services." The Commission also refers to "independent investigation of some of these subjects, and particularly of switching, lighterage and storage in New York, Chicago and other large cities," the results of which will be submitted later for the consideration of carriers and shippers.

Tenth. The Commission recommends that the practices of granting free transportation of passengers and private cars should be further restricted by the carriers, and calls attention to the fact that during the 11 months ending November 30 1913 78 roads in official classification territory issued 629,668 annual passes and 408,848 passes for shorter terms, and in addition thereto in the single month of June 1913 issued passes for single trips to the number of 482,709. The Commission says in this connection:

June is perhaps not a representative month, but at that rate the number of trip passes issued in the year would be approximately 5,792,500, representing over one billion passenger miles. The amount of travel on annual and term passes has not been determined. At the average rate per passenger mile in official classification territory in 1913, the passenger miles represented by trip passes alone would have yielded in passenger revenue \$18,520,000. * * * If to trip passes is added the travel on annual and term passes, it will perhaps be found that the travel on passes exceeds 10 per cent of the total passenger travel in official classification territory.

Compilations prepared by the Commission show that the revenue from private cars handled free during the year 1913 on 88 of the roads which have made answer to our question would, at tariff rates, have amounted to \$644,250 79.

But the direct cost and revenue loss attendant upon the present practice are less serious than is its demoralizing effect. It is natural that subordinates should be wasteful when their superiors are extravagant; and that efforts to secure economies should often prove futile when, at the expense of stockholders or the public, the luxury of a private care is freely granted for personal and private use to officers and directors or even to subordinate officials and members of their families. The record of one of the railroads most prominent in the appeal for a freight-rate advance discloses such liberal grant of free transportation of private cars, not only to directors and officers of other independent railroads, but to lesser officials of such carriers and to members of their families. Among the beneficiaries were the wives of first, second and third vice-presidents, the wife of a superintendent, the wife of a superintendent of telegraph, the mother of a chairman, the secretary of the vice-president of a telegraph company, and the chief clerk to a president. Indeed, not a private car merely, but two special trains were furnished free to the widow of a former director, the tariff rate for which service would have been \$3,466. The wife and daughter of the president of that company enjoyed in a single year free transportation in private cars for nine trips on which the tariff rates would have aggregated \$3,577.

Eleventh. The Commission recommends "a careful review of methods for increasing freight-car efficiency," saying: "Taking the average of all roads in official classification territory for the whole year, the time a car is moving in trains probably does not exceed 3 days out of 30, and the car is under load only 2 out of those 3 days. Furthermore, the cars under load are loaded on an average to only about 58 per cent of their capacity. The percentages of empty movement and of waste capacity in loaded cars have both grown."

Twelfth. The Commission calls attention to the fact that fuel, next to wages, is the largest item in operating expense; that the railroads in the United States report their aggregate fuel cost to be about \$250,000,000 a year, and that the cost of coal is increasing, and adds: "Much has been done in recent years by means of mechanical devices and otherwise to reduce fuel costs, * * * but it has been demonstrated clearly that by knowledge and care on the part of employees and the management, much greater savings can be made."

Thirteenth. The Commission also suggests that "in other departments the management undertake, in co-operation with employees, an extensive inquiry into possible economies in operation," adding: "The increased operating ratio of recent years is accounted for directly, in large part, by increase in the rates of wages. But even greatly increased rates of wages are perfectly consistent with reduced unit labor cost."

Fourteenth. The Commission suggests that "as soon as reasonable opportunity offers, properties heretofore acquired by the carriers which are not used or held by them for transportation purposes be sold," adding: "From compilations prepared by the Commission of the incomplete replies to our questions, it appears that the aggregate cost of such investments in official classification territory was more than \$684,000,000. Included in these are properties of the aggregate cost of \$183,146,659 from which no net income whatsoever was received in the year 1913. These investments by the carriers have, through increasing the amount of capital required to be raised, imposed in many cases a great and unnecessary strain upon the carrier's credit, with the result of an increased charge on all new capital secured and sometimes of preventing improvements which would have yielded transportation economies."

Fifteenth. The Commission also suggests "that an investigation be made with a view to determining to what extent the cost of construction or of acquiring properties or capital or of operation is being increased, through the holding 'by directors, officers, or employees, of interests in other concerns with which the carrier has dealings', and calls attention to the fact that the compilation from answers to the Commission's questions on this subject show that 'a considerable proportion of the officers and directors of railroad companies have interests in such concerns, including locomotive works, car-manufacturing companies, steel and iron works, coal mines, wire works, bridge companies, manufactories of railway appliances, oil companies, electric-machinery companies, glass companies, cement companies, warehouse companies, surety companies, railway publishing houses and trust companies.'" It also refers to a further investigation into the subject which is being conducted independently by the Commission.

Sixteenth. The Commission suggests that all expiring contracts with sleeping-car companies should be carefully reviewed before being renewed.

The Commission makes no suggestions in regard to railway mail pay, "as that subject is under investigation by another branch of the Government," adding "it may be assumed that if the compensation for the service is found to be unjust to the carriers, relief will promptly be afforded."

The Commission concludes its report by saying:

We may justly feel proud of the development of our transportation system. Despite occasional discreditable chapters, the history of our railroads has been marked by great achievements. There is a growing spirit among the carriers of co-operation with the Commission in its efforts to enforce the law. With the application of correct and helpful accounting, the establishment of sound business methods and a better understanding by both carriers and the public of their mutual obligations, to which we believe this investigation has contributed, the future is full of promise. We see no reason why our American railroads should not enjoy a large measure of prosperity consistently with just and reasonable rates

THE FEDERAL RESERVE APPOINTMENTS.

The membership of the Reserve Board was completed this week, with the nomination by President Wilson on the 4th inst. of Frederic A. Delano of Chicago to take the place of Thomas D. Jones of Chicago, whose name was withdrawn two weeks ago. The nominations of Mr. Delano and Paul M. Warburg of New York were favorably reported to the Senate on the 5th inst. by the Committee on Banking and Currency, and they would have been confirmed on Thursday had it not been for the adjournment of Congress on account of the death of Mrs. Wilson, the President's wife. Both nominees were confirmed yesterday (Friday). Mr. Warburg consented to appear before the committee a week ago, having advised Senator Owen of his intention to waive all personal considerations in view of the urgency developed by the troubles abroad, in the following telegram:

In deference to the President's urgent request and in view of the present urgency which renders desirable the promptest possible organization of the Federal Reserve Board, I have decided to waive all personal considerations and am prepared to appear before your Committee at the earliest convenient date.

Mr. Warburg was before the Committee on the 1st and 3rd inst.; Senator Bristow is said to have done most of the questioning, his inquiries dealing particularly with the alleged part played by Mr. Warburg's firm of Kuhn, Loeb, & Co., in transactions relating to the Chicago & Alton RR., the Rock Island, &c.

Mr. Delano, who was named as a member of the Board this week, is President of the Chicago Indianapolis & Louisville Ry. Co. He was born in Hong Kong, China, in 1863 but spent most of his boyhood days at Newburgh, N. Y. He was graduated from Harvard in 1885 with an A. B. degree. He began his railway service in 1885 with an engineering party of the Chicago Burlington & Quincy RR. Co., operating in Colorado. In 1889 he was made Assistant to the Second Vice-President of the Chicago Burlington & Quincy, and in 1890 he was made superintendent of freight terminals at Chicago; in 1899 he became superintendent of motive power at Chicago and from 1901 to 1905 he was General Manager at Chicago. Subsequently he became consulting engineer to the War Department in respect to Philippine

railroads, and later President of the Wheeling & Lake Erie RR. President Taft named him a member of the Commission on Industrial Relations in 1912, and he was renominated for this Commission by President Wilson.

A bill proposing an amendment to Section 19 of the Federal Reserve Act relating to the reserves held by the State banks, and permitting the latter during the period of thirty-six months within which the system is being put in force, to continue holding reserves now held by them for other State banks and have such reserves counted as if they were held by national banks, was passed by the Senate on the 5th inst. and by the House yesterday (the 7th). The bill was introduced last March and was printed in our issue of March 28.

BANKING, FINANCIAL AND LEGISLATIVE NEWS.

A New York Stock Exchange membership was posted for transfer this week, the consideration being \$42,000. This is an unchanged price from the last preceding transaction.

Andrew J. Peters of Boston was nominated by President Wilson on the 6th inst. to be Assistant Secretary of the Treasury, succeeding Charles S. Hamlin, recently appointed to the Federal Reserve Board.

Announcement that the funds intended for crop-moving purposes would be immediately available to the banks upon compliance by them with the terms and conditions outlined last week was made by Secretary of the Treasury McAdoo on the 1st inst. in the following statement:

"Secretary McAdoo announced to-day that the \$34,000,000 which he decided a short time ago to deposit with national banks for crop-moving purposes will be available immediately upon compliance by the banks with the terms and conditions of the circular letter issued and forwarded to the banks. The money will be deposited in installments of 25 or 50% each, except in such cases as in the judgment of the Secretary will make a departure from this rule desirable.

"In the circular issued by the Secretary it is stated: 'It is understood that such deposits are made to prevent or mitigate the financial tension so common at this period of the year incident to the movement of crops, and that the funds received by the banks will be used in good faith for this purpose and not for speculative or other transactions. It is not intended that such funds shall be utilized by the depositaries selected to discharge their obligations to other banks, such as re-discounts or bills payable, but in order that the legitimate purposes of the deposit may be accomplished, the banks receiving the same will be expected to extend to the banks in smaller towns such accommodations as may be consistent with sound and conservative principles of banking, and that in all cases the rate of interest charged such banks will be moderate and reasonable.

"In other words, since it is impracticable under existing conditions for the Government to extend these deposits to the various towns and cities, the depositaries selected are expected to act as mediums of distribution in furnishing funds to the localities in need of them, for the purpose stated, of transporting and marketing the crops and of assisting legitimate business.

"In apportioning the funds among the banks in each city, consideration will be given to the character of the business done by the applicant bank and the extent to which it is lending money to its country correspondent banks. Particular consideration will be given to the willingness of the banks receiving such deposits to lend to their country correspondent banks at reasonable rates of interest. The Secretary is deeply interested in having the Government money distributed in such a way as to enable the ultimate borrower to get it at the lowest possible rate of interest."

"The circular also deals with the character of collateral security to be furnished by the bank, the custody of the securities, the time of re-payment of the deposits, and with various other details, which are similar to those which governed the deposit of crop-moving funds last year."

It was announced this week that the full program for the convention at Richmond Oct. 12 to 17 of the American Bankers' Association will shortly be ready. The tentative plan for the entertainment of the bankers includes every function that will tend to offer entertainment, sight-seeing, recreation and social and educational interest. Municipal authorities, Chamber of Commerce, Business Men's Club, Reserve City Bankers' Association, the Clearing House, Bankers' Institute, Shriners, Rotary Club, Advertisers' Club and Elks, have all joined with the General Committee in carrying out a typically Richmond reception of all who attend the convention. There will be banquets, teas, receptions and other functions by various local organizations, automobile rides to points of interest and visits to unique manufacturing plants, a great ball at which the Governor of Virginia will head the receiving line, luncheons and other functions for the ladies of visiting delegates and guests, musicale at the City Auditorium, and theatre parties, and a boat trip down the historic James River. The Hermitage and Country Club will be open to delegates and guests throughout the week, where golf may be indulged in by devotees of the game.

In advices to Commissioner Davies of the Bureau of Corporations relative to the inquiry now under way into condi-

tions in the beet-sugar industry, Secretary Redfield states that the investigation has no relation to any change in the tariff. Secretary Redfield's letter was written in reply to an inquiry from Mr. Davies, who pointed out that the "impression has gone abroad that this investigation has been entered into with the possible view of bringing about a change in the attitude of the Administration upon the sugar tariff schedule." Mr. Redfield states that "no such change is, to my knowledge, considered."

The report of the Senate inquiry into the Gold Hill Consolidated Co., submitted by the sub-committee of the Committee on Privileges and Elections and adopted by the Senate on July 17, exonerates all parties concerned. The report states that Senators Overman, Chilton, Pomerene, Swanson and Representative Flood bought and paid for their stock on regular terms and did not receive any special favors and inducements from Walter George Newman, the organizer and promoter of the company; that none of them was in any way responsible for the use of United States stationery in the course of the promotion of the organization; that John Skelton Williams, Comptroller of the Currency, was not and never has been a stockholder, nor in any way pecuniarily interested, in the Gold Hill Consolidated Mining Co. The inquiry was called for under a resolution adopted by the Senate on June 19, and referred to in our issue of June 20. Senator Pomerene, a member of the committee which conducted the investigation, was relieved, at his own request, from service under the resolution, since he holds some stock of the company.

We give below the text of a bill introduced by Senator Borah in June, intended to "prevent the use of the stop-watch or other time-measuring device on Government work, and the payment of a premium or bonus to Government employees." It is a gem in its way. The bill was referred to the Committee on Education and Labor, where it has since reposed.

A BILL

To prevent the use of the stop-watch or other time-measuring device on Government work and the payment of premium or bonus to Government employees, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That it shall be unlawful for any officer, manager, superintendent, foreman, or other person having charge of the work of any employee of the United States Government, to make or cause to be made with a stop-watch or other time-measuring device a time study of the movements of any such employee.

Sec. 2. That it shall be unlawful for any officer, manager, superintendent, foreman, or other person having charge of the work of any employee of the United States Government, to use the results or records obtained by a stop-watch or other time-measuring device in determining what amount of work or labor is to be done in a given time by such employee.

Sec. 3. That it shall be unlawful for any officer, manager, superintendent, foreman, or other person having charge of the work of any employee of the United States Government, to pay or cause or allow to be paid to any employee of the United States Government any premium or bonus as wages or otherwise: *Provided*, That the terms "premium" or "bonus" as herein used shall not be construed to include any cash reward paid any employee under authority of law for suggestions, patents or devices resulting in improvement or economy in the operation of the plant in which he is employed.

Sec. 4. That any person violating any of the provisions of this Act shall be deemed guilty of a misdemeanor, and shall be punished by a fine of not more than \$500 or by imprisonment for not more than six months, or by both such fine and imprisonment.

Sec. 5. That this Act shall take effect upon its passage.

A bill proposing to extend the thanks of Congress to Col. George W. Goethals and others who assisted in the construction of the Panama Canal was favorably reported by the House Committee on Military Affairs on July 27. In addition to Col. Goethals, the thanks of Congress would be extended to Brigadier-General William C. Gorgas, Colonel H. F. Hodges, Lieutenant-Colonel William L. Sibert and Commander H. H. Rousseau, a navy civil engineer. The bill also recommends that Colonel Goethals and Brigadier-General Gorgas be advanced to the rank of Major-General.

Following the resignation on July 21 of Representative James F. McDermott, the Judiciary Committee of the House decided on July 28 to take no further proceedings on the resolution reprimanding him, drawn up as a result of its inquiry into "lobbying" practices.

Members of the Coffee Exchange last week received through the mail copies of the proposed amendments to the by-laws, which provide for trading in sugar futures. These amendments were recently approved unanimously by the Board of Managers, and the members will be called upon to vote on them on Aug. 21. Should the members vote in favor of these amendments, trading in raw sugar futures will begin on the Coffee Exchange on Sept. 1. The amend-

ments to the by-laws provide for a Committee on Sugar, to consist of five members, at least one of whom shall be a member of the Board of Managers; also that the Sugar Committee shall consider, report and recommend to the Board of Managers for its action such matters pertaining to sugar as they consider advisable and beneficial to the interest of the Exchange and, in conjunction with the Committee on Trade and Statistics, shall, so far as practicable, establish relations with similar sugar associations for information of common interest; also the securing of such market reports, cables and other statistics as may be thought needful. The Committee shall see that the existing import duties imposed by the Government on foreign sugars shall always be posted on the bulletin board of the Exchange, and shall promptly post any prospective changes as announced by the authorities. They shall also establish daily at 2 p. m. (Saturdays at 11:30 a. m.) the spot quotation for Cuba centrifugal 96 degrees average polarization and report the same to the Superintendent. One section provides that no contract for the future delivery of sugar shall be noticed in any respect, or in any manner recognized by the Exchange, unless both parties thereto shall be members of the Coffee Exchange of the City of New York. The grades deliverable under contract 1 shall be raw sugar based on Cuba centrifugal sugar 96 degrees average polarization outturn and shall embrace all centrifugals first running, the first product of European beet root sugar of 88% net analysis. All contracts for future delivery shall be for 50 tons of 2,240 lbs. each and multiples thereof.

An announcement concerning the rules adopted by the Board of Managers for sugar trading says:

There will be one call for the purchase and sale of raw sugar daily at 11 o'clock, except on Saturdays, when the call will be at 10:30 a. m. Exchange hours for trading in sugar will be from 11 a. m. until 2:45 p. m., except on Saturdays, when the hours shall be from 10:30 to 11:45 a. m. All offers to buy or sell sugar for future delivery, unless otherwise specified, shall be understood to be for 50 tons, and offers to buy or sell in larger quantities shall be in multiples thereof. It is likewise provided that all trading in sugar for future delivery shall be in cents and decimal fractions of a cent, and no transactions shall be permitted wherein the difference in price shall consist of a smaller fraction than one-hundredths of a cent per pound represented by such contract, nor shall any additional money consideration whatever be allowed. After providing that all contracts made in sugar shall be promptly reported to the Superintendent of the Exchange, the rules stipulate that either party to a contract shall have the right to call an original margin of from \$125 to \$250 for each contract. The Superintendent of the Exchange shall every day except Saturday, at 11:30 a. m. and 1 p. m., post on the bulletin board the bidding price for each month dealt in, and if there be no bids, the last reported sale as fixed by the Sugar Committee. These prices shall govern all calls for margin. The hour for such posting on Saturday shall be 10:30 a. m.

The new rules also make provision for deficiency of excess of weights settling contracts, for trading in duty-free sugar by mutual agreement only for the drawing, mixing and testing of samples, and for chemists' fees. The New York Sugar Trade Laboratory is designated under the rules the official representative of the Coffee Exchange in the testing of samples, and only chemists, weighers and samplers licensed by the Coffee Exchange are to be employed. The minimum rate of commission to be charged for buying and selling sugar when the transaction is for any one not a member of the Exchange will be \$10 each way for a 50-ton lot. The minimum rate to members is to be \$5, except where one member buys or sells for another, giving up his principal on the day of the transaction, and not accepting or carrying the contract. The rate on such trades is to be \$1 25 per 50-ton lot. In addition to the foregoing, the rules fully cover all matters pertaining to the time and method of delivery and all notices of transfer, as well as failure to receive or deliver, and provide a penalty for any such failure. This penalty has been fixed at 1/2 of a cent per pound above the spot quotation for Cuban centrifugal of 96-degrees test.

The movement looking to dealings in sugar futures was inaugurated by Franklin W. Hopkins of the Stock Exchange firm of Hopkins Bros.

The right of State Superintendent of Banks, Eugene Lamb Richards, to take possession of a private banking institution when he believes public interest requires it was upheld on the 6th inst. by Judge Grubb, sitting in the United States District Court for the Southern District. After hearing arguments, the Court denied an application made for the appointment of a receiver in the involuntary proceedings against Adolf Mandel, private banker, 155 Rivington Street, whose bank was recently taken over by Superintendent Richards, pursuant to the new Banking Law. Counsel representing those who sought to take away from the Superintendent the control over Mandel's business and affairs contended that the Superintendent of Banks took possession unlawfully. On behalf of Superintendent Richards it was argued that the new Banking Law gave him the right to take over private banking institutions when it appears that such institution is insolvent or that it is unsafe for it to continue business. Judge Grubb, in rendering his decision upon the merits of the application for the appointment of a receiver, decided that the Superintendent of Banks being in possession, it would be unwise to change that possession, and that Mr. Richards could, undoubtedly

better and with less expense, represent the interests of creditors and depositors. This decision of Judge Grubb is in harmony with the decisions previously rendered by Federal courts in bankruptcy proceedings involving private bankers.

By the payment of \$140,000 to R. H. Macy & Co. by the American Publishers' Association and the American Booksellers' Association, litigation started a dozen years ago was ended on July 17. The Supreme Court of the United States handed down a decision in favor of R. H. Macy & Co. last December, but no award of damages was made at that time. Frederick R. Coudert was appointed referee to assess the damages but before any hearings were held Charles L. Bernheimer, Chairman of the Arbitration Committee of the Chamber of Commerce, succeeded in having the parties agree on \$140,000 as the amount of damage suffered by R. H. Macy & Co. Judgment was accordingly entered for that amount in the United States Supreme Court in settling the suits. The actions were brought to contest the right of publishers to arbitrarily fix the price at which books should be retailed. A late reference to the matter appeared in our issue of May 16 1914.

The Supreme Court of Errors of Connecticut at New Haven in a decision filed July 14 upheld the right of the Associated Hat Manufacturers to compel its members to observe a rule of the Association and remain in the organization during labor troubles. The opinion was handed down in a test case brought by the Associated Hat Manufacturers against the Baird-Unteidt Co. of Bethel. It was charged that during the labor troubles in Danbury in 1909 the defendant concern had violated a regulation of the organization which stipulated that "no member of the Association should resign from membership during a cessation of work ordered by the Association." Members of the Association bound themselves to pay \$5,000 for violation of or failure to comply with the regulations, prohibitions, decisions or orders of the Association. The defendant and fourteen other concerns which withdrew in 1909 claimed that they had complied with the regulations of the Association by giving sixty days' notice of their withdrawal, but the organization contended that this provision in its by-laws applied only in times of peace. The matter was heard in the Superior Court of Connecticut about two years ago and was carried by agreement of counsel to the Supreme Court for decision. Under the latter's decision the plaintiff is awarded \$5,000 with interest from July 14 1909. It is estimated that, under the ruling, about \$75,000 may be collected from the other firms who took like action with the Baird-Unteidt Co. These firms were: the Lee Hat Co., Hawes von Gall Co., Lee Soft Hat Co., Simon & Kane, Delohery Hat Co., S. C. Holley & Co., A. A. Hodshon Co., Beltaire Hat Co., S. A. G. Hat Co., H. McLachlan Co., Hoyt-Messinger Co., Danbury Hat Co., Piex Hat Co., all of Meriden, and the Edwin Short Hat Co. of Bethel.

In the suit against the Chicago Board of Trade brought by the Government under the Sherman Anti-Trust Law, Judge Landis has ordered stricken out that portion of the defendant's answer which maintained that the grain "call" is justified because the elevator companies work under a similar agreement. The "call" constitutes an arrangement whereby the price for grain is fixed by a committee of five after the closing of the market each day, such prices prevailing until trading is resumed. In the Government's charge, the fixing of this "call" price is alleged to be a conspiracy and combination to prevent competition. The suit was instituted on February 11 1913, as indicated in the "Chronicle" of February 15 1913.

State banks in Memphis, Tenn., have decided that hereafter they will make statements only when called upon to do so by the State Banking Department, in accordance with the State banking law which became effective last January. Under this Act the Banking Superintendent is required to secure reports twice a year, but at such times as he may determine. Heretofore the banks had issued statements regularly on Jan. 1 and July 1.

Three receivers for the firm of S. H. P. Pell & Co., which suspended last week, were named by Judge Grubb of the United States District Court on the 4th inst.; they are Arthur R. Marsh, Theodore H. Price and Joseph M. Hartfield. Mr. Marsh is a former President of the Cotton Ex-

change and Mr. Price is one of two assignees appointed by the State Supreme Court. The other was J. Edwards Wyckoff. The liabilities of the firm are said to exceed \$5,800,000. On the day of its suspension it purchased 200,000 bales of cotton for about \$12,000,000. Of this amount \$4,800,000 worth, it is said, remain unclosed. The Cotton Exchange members are liable for more than a million, it is reported. Among the assets are \$3,000,000 worth of stocks and bonds pledged for bank loans. The remainder consists of cash and commercial paper. Colonel Robert M. Thompson, a special partner in the firm, is said to be a creditor to the extent of \$3,000,000.

On July 28 a dividend of 20% (or \$1,000,000) was declared on the \$5,000,000 capital of the Marine National Bank of Buffalo, to be applied as purchase money for the \$1,000,000 capital of the proposed Bankers Trust Co. A statement of the directors of the bank says:

"At a meeting of the board of directors of the Marine National Bank held at 11 o'clock to-day, it was unanimously voted to declare an extra dividend of 20% on the \$5,000,000 capital stock of the bank, allowing the recipients of the dividend to apply same towards the purchase of stock in the new Bankers Trust Co. of Buffalo, now organizing. This extra dividend is in addition to and in no wise interferes with the regular 16% annual dividend rate of the bank. The last quarterly dividend of 4% was paid June 30. The regular and extra dividends for this year will result in a disbursement of \$1,800,000 in cash.

John L. Billard, President of the Meriden Savings Bank of Meriden, Conn., for eleven years, resigned that position at the annual meeting of the trustees on July 20. Mr. Billard will continue with the institution as Vice-President. He is succeeded in the presidency by Eugene A. Hall. Mr. Billard was one of those who figured in the affairs of the New York New Haven & Hartford RR., recently inquired into by the Inter-State Commerce Commission.

Action on the question of increasing the capital of the Home Savings & Banking Co. of Cleveland from \$50,000 to \$125,000 is to be taken by the stockholders on Sept. 1. Of the new issue \$50,000 is to go to present stockholders and \$25,000 to new interests. The Cleveland "Plain Dealer" states that the proposed stock will probably be offered at \$130 a share and that it will cost present shareholders only \$25 a share, as the bank's surplus will contribute to the extent of \$105 per share. It is proposed to amend the charter of the institution so as to permit it to engage in a trust business, its name being accordingly changed to the Home Savings & Trust Co.

The Broadway State Bank of Chicago, one of the institutions which suspended with the closing of the La Salle Street Trust & Savings Bank in June, was taken over by the Edgewater State Bank on July 25. The latter commenced business in April as successor to the Edgewater Bank, with a capital of \$200,000. On July 22 the stockholders of the Edgewater State Bank decided to increase the capital of their institution to \$300,000, fixing the selling price of the new stock at \$130. It is stated that a large part of the issue will be paid in by the stockholders and depositors of the Broadway State Bank. Through the merger, it is reported, the Edgewater Bank assumes all of the deposits of the Broadway and takes over the latter's approved assets. According to the Chicago "Herald," the \$100,000 deposit of the City of Chicago held by the Broadway Bank will be allowed to remain with the Edgewater Bank for eighteen months without interest. Before the negotiations for the absorption of the Broadway Bank, plans had been under way for its reorganization under the name of the Wilson Terminal State Bank, but these were abandoned in favor of the new proposition. O. F. Paisley continues as President of the Broadway State Bank.

The Illinois State Bank, another of the institutions which closed when the La Salle Street Trust failure occurred, has perfected its reorganization through an assessment on its capital and reopened on the 1st inst.

The Farmers' Bank of Bithalto, Ill., which closed at the time of the failure of the La Salle Street Trust, reopened on July 9 in charge of John Scullin, a representative of the State Banking Department.

We noted last week the proposed organization of the Chicago Avenue State Bank of Chicago to succeed the Chicago Savings Bank. It is important to point out that there is no connection between this institution and the Chicago

Savings Bank & Trust Co., the latter being an institution which has already established for itself a prosperous record.

The Standard Bank of South Africa, Ltd., of London, entertained the fifty agricultural delegates from South Africa who are visiting Europe as the guests of Sir Owen Phillips at a grand banquet Monday evening, July 13, at the Pica-dilly Hotel. The "farmers," as they modestly describe themselves, had just completed a tour of the farming districts of England and Scotland, and the banquet preceded their departure to the Continent, Holland being the next country on their itinerary. The Rt. Hon. Lord Welby, a director of the bank, presided and delivered a felicitous speech of welcome, and in his toast, "Prosperity to the Farmers of South Africa," he referred eloquently to the growth and agricultural development of South Africa. J. A. Nesor, Chairman of Committees in the Union House of Assembly, speaking for his associate farmers, gave an interesting review of conditions, needs and possibilities of farming in the South African country. An informal exchange of views followed between the delegates and the leaders of South African finance and commerce present. The occasion brought a large number of distinguished people together. The vice-chairs were filled by Sir David M. Barbour, Robert E. Dickinson, James F. Finlay, Sir Charles Freemantle, Horace Peel and the Rt. Hon. Lord Sydenham—all directors of the Standard Bank. The institution is represented in this country by W. H. Macintyre at 55 Wall St., this city. The Standard Bank of South Africa is banker to the Government of Good Hope and the British Government in the Cape Colony and Transvaal, and it maintains over 183 branches in Cape Colony, Natal, Transvaal, Orange River Colony, Basutoland, Rhodesia, British Central Africa and East Africa.

A. E. Holt has become a director of C. Meredith & Co., Ltd., of Montreal, succeeding H. Robertson. Mr. Holt is Manager of the Royal Trust Co. of Montreal, having succeeded Mr. Robertson in that capacity last year.

IMPORTS AND EXPORTS FOR JUNE.

The Bureau of Statistics at Washington has issued the statement of the country's foreign trade for June, and from it and previous statements we have prepared the following interesting summaries:

FOREIGN TRADE MOVEMENT OF THE UNITED STATES. (In the following tables three eiphers (000) are in all cases omitted.)

	Exports			Imports		
	1914.	1913.	1912.	1914.	1913.	1912.

Pennsylvania	406,760	439,912	3,623,848	3,607,018
Erie	717,201	683,161	4,707,228	4,762,953
Ontario & Western	202,362	213,213	1,350,845	1,498,091
Total	5,391,857	5,487,852	38,337,646	40,339,706

LAKE SUPERIOR IRON ORE SHIPMENTS.—The shipments of Lake Superior iron ore during July 1914 aggregated only 5,784,514 tons, as against 8,204,416 tons for the month of July last year. The total shipments for the season to date show a decrease of 8,920,830 tons, as compared with the same period last year. In the following we give the shipments from the various ports in July 1914, 1913 and 1912 and for the season to July 31.

Port (tons)	July		Season to July 31	
	1914.	1913.	1914.	1913.
Escanaba	664,721	858,696	836,346	1,740,741
Marquette	297,413	496,725	511,924	681,361

Superior	1,936,911	2,396,064	2,324,324	5,690,413
Duluth	1,169,410	1,938,716	1,540,324	2,949,286
Two Harbors	1,162,315	1,759,886	1,616,258	2,930,004
Total	5,784,514	8,204,416	7,600,233	15,408,630

COPPER PRODUCTION AND CONSUMPTION.—The Copper Producers' Association did not issue the usual copper statement for July, and made the following announcement, dated August 4 1914, in explanation:

In view of the conditions now existing in the markets of the world, it was decided by the Copper Producers' Association that the usual monthly reports issued by the Association be suspended until further notice.

Canadian Bank Clearings.—The clearings of the Canadian banks for the month of July 1914 show an increase over the same month of 1913 of 0.7%, and for the seven months the loss reaches 7.3%.

Brazilian Tract., I. & Pow., com. (qu.)	1 1/2	Aug. 20	Holder of rec. July 31 ^a

Table with columns: Name of Company, Per Cent., When Payable, Books Closed. Days Inclusive. Lists various companies like Amalgamated Copper Co, American Bank Note, etc.

The capital of the trust companies is as follows: Brooklyn, \$1,500,000; Bankers, \$10,000,000; United States Mortgage & Trust, \$2,000,000; Astor, \$1,250,000; Title Guarantee & Trust, \$5,000,000; Guaranty, \$10,000,000; Fidelity, \$1,000,000; Lawyers' Title Insurance & Trust, \$4,000,000; Columbia-Knickerbocker, \$2,000,000; People's, \$1,000,000; New York, \$3,000,000; Franklin, \$1,000,000; Lincoln, \$1,000,000; Metropolitan, \$2,000,000; Broadway, \$1,500,000; total, \$46,250,000.

For definitions and rules under which the various items are made up, see "Chronicle," V. 85, p. 836, in the case of the banks, and V. 92, p. 1607, in the case of the trust companies.

DETAILED RETURNS OF BANKS.

We omit two others (00) in all cases.

Table with columns: Banks, Capital, Surplus, Loans, Specte., Legals., Net Depos., Reserve. Lists various banks like New York, Manhattan, Merchants, etc.

Circulation.—On the basis of averages, circulation of national banks in the Clearing-House amounted to \$41,578,000 and according to actual figures was \$41,737,000.

SUMMARY COVERING BOTH BANKS AND TRUST COMPANIES.

Table with columns: Week ending Aug. 1, Capital, Surplus, Loans, Specte., Legal Tenders, On Dep. with C.H. Banks, Net Deposits. Shows summary figures for banks and trust companies.

The State Banking Department also furnishes weekly returns of the State banks and trust companies under its charge. These returns cover all the institutions of this class in the whole State, but the figures are compiled so as to distinguish between the results for New York City (Greater New York) and those for the rest of the State, as per the following:

For definitions and rules under which the various items are made up, see "Chronicle," V. 98, p. 1661.

STATE BANKS AND TRUST COMPANIES.

Table with columns: Week ended Aug. 1, State Banks in Greater N. Y., Trust Cos. in Greater N. Y., State Banks outside of Greater N. Y., Trust Cos. outside of Greater N. Y. Shows detailed figures for state banks and trust companies.

a Transfer books not closed for this dividend. b Less British Income tax. c In correction. d Payable stock. e Payable in common stock. f Payable in scrip. g On account of accumulated dividends. h Being a distribution in cash on the 40% increased stock of the rental accruing from Jan. 1 1911 under the lease. i Transfer books closed from Aug. 15 to Aug. 25, both inclusive. j Under date of July 31 the Cities Service Co. decided to defer payment of dividends including that due Aug. 1.

Statement of New York City Clearing-House Banks and Trust Companies.—The detailed statement below shows the condition of the New York City Clearing-House members for the week ending Aug. 1. The figures for the separate banks are the averages of the daily results. In the case of the totals, actual figures at the end of the week are also given:

DETAILED RETURNS OF TRUST COMPANIES.

Table with columns: Trust Cos. Oos omitted, Surplus, Loans, Specte., Legals., On Dep. with C.H. Banks, Net Deposits, Reserve. Lists various trust companies like Brooklyn, Bankers, U.S. Mtg. & Tr, etc.

+ Increase over last week. — Decrease from last week. * As of March 2.

The Banking Department also undertakes to present separate figures indicating the totals for the State banks and trust companies in Greater New York, *not in the Clearing House*. These figures are shown in the table below, as are also the results (both actual and average) for the Clearing-House banks and trust companies. In addition we have combined each corresponding item in the two statements, thus affording an aggregate for the whole of the banks and trust companies in Greater New York.

NEW YORK CITY BANKS AND TRUST COMPANIES.

Week ended Aug. 1.	Clear.-House Members Actual Figs.	Clear.-House Members Average.	State Banks & Trust Cos. not in C.-H., Av.	Total of all Banks & Tr. Cos., Averg.
Capital as of June 30	175,300,000	175,300,000	28,950,000	204,250,000
Surplus as of June 30	296,930,800	296,930,800	70,887,900	367,818,700
Loans and investments	2,058,755,000	2,056,190,000	570,812,400	2,627,002,400

43 EXCHANGE PLACE NEW YORK

Albany Boston Chicago
 Members New York and Chicago Stock Exchanges

Bankers' Gazette.

Wall Street, Friday Night, Aug. 7 1914.

The Money Market and Financial Situation.—The absolute paralysis which suddenly seized the international money and exchange markets a week ago still retains its hold upon them, but the stunning effect of all that has transpired is less pronounced. The steps taken by the Secretary of the Treasury to relieve the situation by providing a liberal supply of currency, issued under the Aldrich-Vreeland Act, supplemented by the New York Clearing House in arranging for the immediate use of Clearing-House certificates, greatly relieved the situation early in the week. At the same time the savings banks safeguarded the interests of depositors by requiring 60 days' notice of intention to withdraw, a measure which every one saw the wisdom of and approved. Confidence and hopefulness were further restored by the announcement on Thursday that the Bank of England had reduced its discount rate from 10 to 6 per cent. The feeling in financial circles as the week closes is one of more cheerfulness than a few days ago seemed possible, but so long as the great exchanges of the world remain closed there can, of course, be no market or quotations for securities and the opening of these exchanges is, therefore, a matter of great consequence, not only in Wall Street but in every department of industry affected by international trade. Indeed, with the five largest countries in Europe and several smaller ones actually engaged in war, the problems confronting the business world are altogether unique and so serious as to require the wisest and most careful consideration.

Commodity values are already disturbed. Prices for primal iron products have advanced sharply and the retail price of sugar in New York to-day is nearly 10 per cent higher than a week ago. In many cases the cost of living is already affected and it is apparent that other social and economic, as well as industrial and financial changes, must follow.

Every loyal American of whatever party or creed was, we believe, in accord with President Wilson's declaration of neutrality and later with his tender of the good offices of this Government in the interest of peace.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 6% to 8%. Friday's rates on call were 6@8%, Commercial paper closed at 5½@6% for sixty to ninety-day endorsements and prime four to six months single names, and 6½% for good single names.

The Bank of England weekly statement on Thursday showed a decrease of £10,509,475 in gold coin and bullion

holdings and the percentage of reserve to liabilities was 14.60 against 40.03 the week before. The rate of discount was reduced on Aug. 6 from 10%, to which it was raised on Saturday, Aug. 1, to 6%. The Bank of France issued no statement.

NEW YORK CLEARING-HOUSE BANKS.
(Not Including Trust Companies.)

	1914. Averages for week ending Aug. 1.	Differences from previous week.	1913. Averages for week ending Aug. 2.	1912. Averages for week ending Aug. 3.

Surplus reserve	10,401,500	Dec. 13,430,250	27,865,750	19,281,000

Note.—The weekly bank and trust company statements issued by the Clearing House and by the State Banking Department appear in full on the two pages preceding.

Foreign Exchange.—The market for sterling exchange has continued in a completely demoralized condition. Some small transactions in cable transfers were reported early in the week at \$7 per pound sterling and later at \$6 25. But at the close rates were entirely nominal.

To-day's (Friday's) actual rates for sterling exchange were nominal for sixty days, cheques and cables. Commercial on banks and documents for payment not quotable. Cotton for payment and grain for payment nominal.

Bankers did not post their rates this week. To-day's (Friday's) actual rates for Paris bankers' francs were not quotable. German bankers' marks were not quotable. Amsterdam bankers' guilders were entirely nominal.

Exchange at Paris on London, nominal. Exchange at Berlin on London, nominal.

The range for foreign exchange for the week follows:

	Sterling Actual—	Sixty Days.	Cheques.	Cables.
High for the week	---	---	No quotations.	
Low for the week	---	---		
Paris Bankers' Francs—			No quotations.	
High for the week	---	---		
Low for the week	---	---		
Germany Bankers' Marks—			No quotations.	
High for the week	---	---		
Low for the week	---	---		
Amsterdam Bankers' Guilders—			No quotations.	
High for the week	---	---		
Low for the week	---	---		

Domestic Exchange.—Chicago, 10c. per \$1,000 discount. Boston, par. St. Louis, 50c. per \$1,000 premium. San Francisco, par. St. Paul, 50c. per \$1,000 premium. Montreal, \$1 25 per \$1,000 discount. Minneapolis, 50c. per \$1,000 premium. Cincinnati, 25c. per \$1,000 premium.

Owing to the fact that the New York Stock Exchange has remained closed since the afternoon of July 30, that business is also suspended at the Stock Exchanges at Boston, Philadelphia, Baltimore, Pittsburgh, Chicago, and nearly everywhere else in the United States, and that security dealings have by common consent been discontinued, it having been decided to omit even the customary auction sales of securities at New York, Boston and Philadelphia so long as the Stock Exchanges are closed, we are compelled to omit the 10 pages of stock and bond prices ordinarily appearing in this department.

Investment and Railroad Intelligence.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including the latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. The returns of the electric railways are brought together separately on a subsequent page.

Main table with columns: ROADS, Latest Gross Earnings (Week or Month, Current Year, Previous Year), July 1 to Latest Date (Current Year, Previous Year). Includes sub-tables for 'Various Fiscal Years' and 'AGGREGATES OF GROSS EARNINGS—Weekly and Monthly'.

AGGREGATES OF GROSS EARNINGS—Weekly and Monthly.

Summary table with columns: Weekly Summaries (Current Year, Previous Year, Increase or Decrease, %), Monthly Summaries (Current Year, Previous Year, Increase or Decrease, %).

a Mexican currency. b Does not include earnings of Colorado Springs & Cripple Creek District Ry. from Nov. 1 1911. c Includes the New York & Ontario, the St. Lawrence & Adirondack and the Ottawa & New York Rys., the latter of which, being a Canadian road, does not make returns to the Inter-State Commerce Commission. d Includes Evansville & Terre Haute and Evansville & Indiana RRs. e Includes the Cleveland Lorain & Wheeling Rys. in both years. f Includes the Northern Ohio RR. g Includes earnings of Mason City & Fort Dodge and Wisconsin Minnesota & Pacific. h Includes Louisville & Atlantic and the Frankfort & Cincinnati. i Includes the Mexican International. j Includes the Texas Central in both years and the Wichita Falls Lines in 1912, beginning Nov. 1. k Includes not only operating revenues, but also all other receipts. l Includes St. Louis Iron Mountain & Southern. m We no longer include the Mexican roads in any of our totals.

Latest Gross Earnings by Weeks.—In the table which follows we sum up separately the earnings for the fourth week of July. The table covers 26 roads and shows 3.75% decrease in the aggregate under the same week last year.

Fourth Week of July.	1914.	1913.	Increase.	Decrease.
Buffalo Rochester & Pittsburgh	\$ 349,815	\$ 367,920	-----	18,105
Canadian Northern	478,400	593,800	-----	115,400
Canadian Pacific	3,181,000	3,643,000	-----	462,000
Chesapeake & Ohio	1,245,057	1,095,557	149,500	-----
Chicago Indianapolis & Louisv.	196,662	202,936	-----	6,274
Colorado & Southern	376,067	397,044	-----	20,977
Denver & Rio Grande	680,400	707,300	-----	26,900
Western Pacific	197,000	196,200	800	-----
Detroit & Mackinac	32,762	38,913	-----	6,151
Duluth South Shore & Atlantic	94,649	105,106	-----	10,457
Grand Trunk of Canada	1,592,244	1,658,446	-----	66,202
Grand Trunk Western	-----	-----	-----	-----
Detroit Grd Haven & Milw.	-----	-----	-----	-----
Canada Atlantic	-----	-----	-----	-----
International & Great Northern	274,000	288,000	-----	14,000
Louisville & Nashville	1,580,475	1,615,112	-----	34,637
Mineral Range	25,571	13,083	12,488	-----
Minneapolis St Paul & S S M.	750,378	737,244	13,134	-----
Missouri Kansas & Texas	919,705	986,061	-----	66,356
Missouri Pacific	1,807,000	1,801,000	6,000	-----
Mobile & Ohio	406,336	370,308	36,028	-----
St Louis Southwestern	306,000	355,000	-----	49,000
Southern Railway	1,861,484	1,839,815	21,669	-----
Texas & Pacific	485,033	470,838	14,200	-----
Toledo Peoria & Western	46,988	47,482	-----	494
Toledo St Louis & Western	98,816	118,163	-----	19,347
Total (26 roads)	16,985,842	17,648,323	253,819	916,300
Net decrease (3.75%)	-----	-----	-----	662,481
Mexican Roads (not included in Inter-oceanic of Mexico)	70,502	259,789	-----	189,287
National Railways of Mexico	408,663	859,383	-----	450,720

For the month of July the returns of 26 roads show as follows:

Month of July.	1914.	1913.	Decrease.	%
Gross earnings (26 roads)	\$ 50,380,119	\$ 53,052,625	—2,672,506	5.03

It will be seen that there is a loss on the roads reporting in the amount of \$2,672,506, or 5.03%.

Net Earnings Monthly to Latest Dates.—The table following shows the gross and net earnings of STEAM railroads and industrial companies reported this week:

ANNUAL REPORTS.

Annual Reports.—An index to annual reports of steam railroads, street railways and miscellaneous companies which have been published during the preceding month will be given on the last Saturday of each month. This index does not include reports in the issue of the "Chronicle" in which it is published. The latest index will be found in the issue of July 25. The next will appear in that of August 29.

Buffalo Rochester & Pittsburgh Railway.
(Report for Fiscal Year ending June 30 1914.)

The remarks of President William T. Noonan are given at length on subsequent pages.

The figures of earnings, expenses, balance sheet, &c., have been compiled for several years as follows:

Western New York & Pennsylvania Ry.

(Report for Fiscal Year ending Dec. 31 1913.)

Pres. Jno. P. Greene, Phila., April 6, wrote in substance:

Mileage.—The mileage increased about 1-1/3 miles, due mainly to changes of line on the West Seneca and Lakeville branches. The increase in mileage used under trackage rights (6.57 miles) is due to the arrangement made for trackage over the Delaware Lackawanna & Western R.R. in Buffalo, N. Y., and the Grand Trunk Ry. between Buffalo, N. Y., and Bridgeburg, Ontario, Canada, by which a through route is secured for traffic to and from Canadian points.

General Results.—There was an increase as compared with 1912 of \$865,650 in operating revenues, of which over \$650,000 was in the freight revenues, mainly due to an increase in the coal and coke traffic. Passenger revenues also increased more than \$132,000, due in large measure to special excursions on account of the celebration of the 50th anniversary of the Battle of Gettysburg and the inauguration of the President. The increase of about \$46,000 in "other transportation" receipts was caused mainly by increases in milk and switching revenues.

Operating expenses increased \$1,751,974, or nearly 22%, of which over \$270,000 was in maintenance of way and structures, over \$912,000 in maintenance of equipment, and more than \$828,000 in transportation expenses, caused not only by the increased traffic handled, but by heavy expenditures on account of floods, heavy repairs to locomotives and freight and passenger cars, changes in charges for depreciation on freight cars and locomotives, embargoes placed on connecting roads in Buffalo, adjustments in wages and working conditions, and increased expenditures on account of extra crew laws and other wasteful and unnecessary legislation. As a result of these heavy operating expenses, an increase of about \$6,000 in taxes and a slight decrease in other income, gross income decreased nearly \$900,000. There is a deficit of \$1,781,896 after deducting fixed charges, while expenditures for additions and betterments increased the deficit to \$3,281,748, which was charged to profit and loss account.

Construction and Equipment Expenditures.—Net increase in road as per balance sheet, \$1,289,208; net increase in equipment (rebuilt cars, &c.), \$309,288; total, \$1,598,496. Of this total \$1,499,852 was charged against income, representing mainly expenditures for reconstruction and change of line and grades, extension and re-arrangement of yards and tracks, station and siding facilities, snow fences, telephone apparatus, interlocking, shop tools, increased weight of rails and track material, improvement of bridges, trestles and structures, and for rebuilding equipment.

Improvements.—The work of revising the grades and alignment between Oil City and Buffalo via Brocton, to which your attention was called in the last annual report, has been vigorously prosecuted during the year, and in connection therewith sidings have been constructed and extended at various points in order to permit the utilization of the line as your principal freight route between Oil City and Buffalo. Portions of the new line are now ready for service and the whole work has so far progressed that it is expected that it will be entirely completed and ready for use during the summer. A large expenditure has been made upon the Ebenezar yard in order to permit of a more economical handling of traffic and avoid congestion in the Buffalo Terminal district.

Montreal Tramways Co.

(Report for Fiscal Year ending June 30 1914.)

President E. A. Robert says in substance:

Results.—The gross earnings have increased \$388,577, or 5.75%, the operating expenses \$173,450, or 4.30%, and the net earnings \$215,127, or 7.90%. The ratio of operating expenses to earnings is 58.39%, compared with 59.71% last year, which is considered satisfactory.

Contingent Renewal Account.—The sum of \$417,125 has been charged to this account during the year, representing expenditures made for special renewals.

Maintenance.—The sum of \$829,706 has been expended on the maintenance of properties, plant and equipment, and charged to operating expenses. This, together with the \$417,125 charged to renewal account, above noted, makes a total expenditure of \$1,246,831 (equal to 17.46% of gross earnings) during the year on the upkeep of the properties.

Capital Charges.—There has been expended on capital account for additional rolling stock, extensions and improvements, the sum of \$2,711,572.

Financial.—There has been redeemed and canceled \$313,893 of the underlying bonds. The amount of underlying bonds redeemed to date is \$838,607.

Rolling Stock, Extensions, &c.—Large additions have been made to the rolling stock. A new type of motor car and trailer has been introduced which has very materially helped the service on St. Catherine St., the main line, and the company is now considering the advisability of building more cars of this type as requirements may warrant. The increased rolling stock and extensions made have necessitated further extensions of our power requirements, which has also been materially increased. A large portion of the re-building of track has also been completed, which it is proposed to continue as fast as possible. Owing to the rapid growth of the city, for some time past the city has been requesting the company to make numerous extensions of its service in outlying wards not covered by the contract with the city, and negotiations are now pending for a readjustment of the existing contract, and it is hoped that a satisfactory agreement will be completed which will provide the company with the proper facilities to meet the constant demand necessitated by the rapid growth of Greater Montreal.

Acme White Lead & Color Works, Detroit.

(Report for Fiscal Year ending Nov. 30 1913.)

Pres. Wm. L. Davies, Detroit, Jan. 6 1914, wrote in subst.:
The general curtailment of business throughout the United States, due in part to the important legislation affecting the tariff and currency, has naturally reflected upon the operations of the company. Our gross sales for the year 1914, however, show an increase of approximately 8% over the preceding year, and under normal conditions should for the year 1913-14 show a very substantial increase.

The stockholders on June 28 1913 authorized the directors to fund the floating obligations by creating a bond issue, which was underwritten by responsible banking houses in July following. Since Nov. 30 1913 \$236,024 has been so received, and an equal amount of floating debt retired and canceled. (V. 97, p. 239.)

The company operates factories in Detroit, Mich.; Lincoln, Neb.; Boston, Dallas and Los Angeles, and branches and stores in Birmingham, Ala.; Chicago, Cincinnati, Detroit (store), Fort Worth, Jackson (Mich.), Minneapolis, Nashville, Pittsburgh, Portland (Ore.), Salt Lake City, San Diego (Cal.), San Francisco, Spokane, St. Louis, Toledo and Topeka (Kans.).

Ray Consolidated Copper Co., New York.

(Report for Fiscal Year ending Dec. 31 1913.)

Pres. Sherwood Aldrich, N. Y., April 1, wrote in substance:

The closing months of the year 1913 witnessed the practical completion of all construction and equipment at the mine and mill for the production and treatment by your company of at least 8,000 tons of ore daily. The underground development has required nearly four years time and the driving of over 70 miles of underground workings.

A total of 54,158,309 lbs. of copper were produced during the year in concentrates and high-grade crude concentrates. After deductions for losses in smelting there were left 52,341,029 lbs. of copper. Our sales and deliveries of copper for the year were made at the gross price of 15.371c per lb., or, after deducting delivery charges, a price of 15.201c. The difference between this 15.201c. received for the copper and the figure of 14.994c at which our income was computed, is due to reducing to a lower valuation the inventory price of our unsold copper, which stood at the end of the year 1913 at 14c. per lb.

Dividends at the rate of \$1 50 per share annually were commenced at the close of the second quarter of the year and have been paid quarterly since.

A depreciation charge amounting to \$276,727 was for the first time made against general income. This depreciation charge, which amounts to 5% of the cost of the improvements, creates a reserve for the extinguishment of the improvement account in advance of the exhaustion of the mine. A charge of \$236,739 is also made against general income as a sinking fund for the redemption of outstanding bonds, being 10c. for each ton of ore treated, below 110, or selected by lot for retirement. July 1 1914, at 110 and interest.

The State Legislature of Arizona, by a law passed last year, made a large, and as we believe, a radically unjustifiable, increase in the basis of mine valuation for taxation purposes, with the result that taxes paid by your company in the State during 1913 amounted to \$140,319, an increase of nearly \$90,000 over 1912.

A daily average of 1,576 men were employed at the mine during the year, but this number had been increased to 1,667 in Dec. last. An average of 663 men were employed in the mill during the year, and this average, too, had been increased to 742 for Dec. With the reduction which followed on Dec. 31, the latter number has since been reduced.

Data from Report of Managing Director D. C. Jackling, Salt Lake City, March 14 1914.

Mine Development and Ore Reserves.—No drilling or underground work was done during the year for the express purpose of developing additional ore reserves and no definite extensions of ore reserves were recorded excepting in the vicinity of the No. 3 shaft in original Ray Central territory, where underground development in the blocking out of ore for mining disclosed an addition of about 90,000 tons of ore averaging approximately 3.5% copper. During the year's operations there was mined, including a small tonnage of ore shipped direct to the smelter, a total of 2,366,007 tons averaging 1.72% copper. The total developed tonnage remaining is, therefore, 78,380,966 tons. The total tonnage mined from the beginning of operations up to the end of the year 1913 was 4,613,402 tons. The limit of all the ore bodies, however, have been by no means defined, and it is reasonably certain that a moderate amount of additional drilling would disclose increased ore reserves much greater than the quantity of ore that has been mined since the beginning.

The total underground development for the full period of operations up to the end of 1913 was approximately 377,000 ft., or about 71 miles, of which 242,000 ft., or about 46 miles, is still open and available for use.

Of the total tonnage produced for the year, 63.4% was mined from the higher-grade ore body; No. 2 shaft produced 33.4%; No. 3 shaft, serving the higher-grade ore body, produced only 3.2%, but is now producing over 6%, or about 500 tons per day. As in the previous year, most of the tonnage mined in the No. 1 area came from a comparatively low-grade body of ore, which, on account of its location, it was necessary to mine out before the deeper-lying and better grade ores in that section could be attacked. There still remains a very large reserve tonnage of this lower-grade material, which will be drawn upon during the coming year, but as the No. 2 section is now pretty fully developed, the percentage of the total tonnage coming from this area is increasing, and as the grade of ore being produced and available for the average grade here is approximately up to the average for the property, the average grade for the coming year should show a substantial improvement over that for the period covered by this report.

The cost of mining ore from all sources for the year was 73.23c. per ton, as compared with 77.55c. per ton for the year 1912. These costs include all fixed and general charges as well as the cost of operating the coarse crushing plant at the mine and loading the crushed ore into railroad cars for shipment to the mill. The latter two items of cost amounted to approximately 3½c. per ton, so that the net cost of mining proper, including a proper apportionment of all charges, was a little less than 70c. per ton.

Construction.—The seventh section of the mill was completed in Jan. 1913 and operated intermittently as needed, the mine being unable to supply continuous tonnage for more than six sections at that time. The eighth and last section of the mill was completed and started up in October. Since that time all sections have been operated as required, and at the end of the year were handling nearly their rated capacity of 1,000 tons per section per day, or 8,000 tons per day for the completed plant.

Operations at Mill.—The total amount of ore treated for the year was 2,365,296 tons, as compared with 1,565,875 tons for 1912 and 681,520 tons for the nine months of 1911, during which a portion of the mill was in operation. The average copper content of ore treated for 1913 was 1.719%, as compared with 1.677% for 1912. The average recovery for the year, based on the total copper contained in concentrates produced, was 66.09%,

corresponding to 22,723 lbs. of copper per ton of ore, as compared with 22.9 lbs. for the previous year. The recoveries for the year were affected adversely by a considerable amount of oxidized ore coming at times from upper levels, and also by the irregular operations of the mill during the last half of the year, when improvements were in progress. These improvements are not yet entirely completed, but the benefits of them are illustrated by the fact that at the close of the year, and the time of writing this report, recoveries have been increased to a point exceeding 68%.

Cost of Copper.—The average cost per lb. of net copper produced, after making allowances for smelting and refining deductions, and crediting dividends from the Ray & Gila Valley R.R. as a reduction of operating costs, but excluding credits for other miscellaneous earnings, was 9.7836c. per lb., as compared to 9.8231c. per lb. for 1912. These costs include a charge of 12½c. per ton of ore treated, or over ½c. per lb. of net copper, for the extinguishment of mine development expense. They also include all fixed and general charges of every nature, excepting bond interest and depreciation. In comparing this with 1912, it should be remembered that charges for mine development expense did not begin until April 1912, whereas it applied throughout the entire year 1913.

Outlook.—The outlook for 1914 is that the percentage of increase in copper production will be almost as great over the production of 1913 as was the increase of that year over the production of 1912. Such being the case, and in view of the excellent physical and operating conditions prevailing, there will undoubtedly be a marked decrease in the cost of producing copper.

The balance sheet of the Ray & Gila Valley R.R. as of Dec. 31 1913 shows total assets (including cash, \$75,397), \$1,118,851; offset by capital stock, \$1,070,000; current liabilities, &c., \$39,127 (including dividends payable, \$30,000); profit and loss, \$9,725.—V. 98, p. 1248, 1004.

Riordon Pulp & Paper Co., Ltd., Montreal.

(Report for Fiscal Year ending Dec. 31 1913.)

Pres. C. Riordon, Montreal, March 5, wrote in substance:

The net profits for the year 1913 were practically the same as during 1912. The improvements and additions to the plant at Hawksbury were completed during the year, but owing to the business depression prevailing in Canada and the United States during the past year the company was unable to market its full production and the total sales during 1913 fell short of the 1912 sales by \$98,946. During the year the amount expended upon the property was \$536,000 and during the same period the current assets increased \$420,000 and the current liabilities increased \$896,000.

We propose to reduce the current liabilities by the sale of bonds when the market is favorable for their sale. About 84% of the company's product for 1914 is sold at satisfactory prices. The outlook for business during the year is very good indeed. The production of sulphite pulp has been increased at both mills 30 to 40% and it is proposed to increase the output of the principal lumber mill this coming season by running the mill nights as well as during the day time, as the prices obtainable are the highest we have ever received.

Wayagamack Pulp & Paper Co., Three Rivers, Que.

(Report for Fiscal Year ending June 30 1914.)

President J. N. Greenshields, July 16, says:

It will be recalled that in our first year's report we pointed out that we had constructed a plant with an initial capacity of 50 tons of pulp and 50 tons of paper, and that it had been so designed as to permit of its gradual extension to a 200-ton mill. During the current year we have doubled the capacity of the plant. The company has contracts in hand to take care of this entire increased pulp and paper production at good profits. Our sales during the year have shown a steady advance each month, as the output has gradually been increased. Our shareholders will be gratified to learn that during a year of such depression and general industrial curtailment we have been able to make and market a steadily increasing output, and, as anticipated, have shown a steady growth in profits.

GENERAL INVESTMENT NEWS.

RAILROADS, INCLUDING ELECTRIC ROADS.

Atchison Topeka & Santa Fe Ry.—Lease.—See Oklahoma Central Ry. below.—V. 99, p. 195, 47.

Chicago Great Western Ry.—Voting Trust Ends.—Holders of the outstanding stock trust certificates are notified, by adv. on another page, that the voting trust agreement dated Sept. 1 1909 will terminate on Sept. 1 next, and that on and after that date the trust certificates may be exchanged for corresponding certificates of stock.

Exchanges will be made at the temporary office of J. P. Morgan & Co., New York, on or after Sept. 1 1914, but not more than one hundred schedules per diem will be received. Pending the preparation of the stock certificates, suitable temporary receipts will be issued.—V. 99, p. 195.

Cities Service Co., N. Y.—Dividends Deferred.—The company has deferred payment of dividends (including those due Aug. 1) on its preferred and common stocks. The dividends on the stocks of the Gas Securities Co., Gas & Electric Securities Co., Empire District Electric Co. and Electric Bond Deposit Co. A circular dated July 31 says:

The directors have decided to defer the payment of further cash dividends until a reliable forecast can be made of the outcome of the strained condition which now pertains to the financial situation and the security markets. The directors feel that unless a decided change for the better occurs it may be some time before normal financial conditions will prevail and all requirements of the company may have to be met from the earnings of the subsidiary companies. The earnings of these companies are entirely satisfactory and we expect them to so continue. Your board feels that all cash resources of the company should be conserved. They hope for an immediate change for the better which will insure a speedy return to normal conditions and enable cash dividends to be resumed. In their decision they are also mindful of the present practically prohibitive rate of exchange applying at this moment to dividend payments abroad.

Another meeting of the board has been called for Aug. 7 to consider further the matter of dividends in relation to the situation as it then exists. We will communicate with all the stockholders after this meeting is held, and we plan to issue a weekly letter to the stockholders until such time as normal conditions are established or until we feel they are fully insured. [The meeting of the board to take further action on the matter has been adjourned to Monday, Aug. 10. It is expected that the dividends, if declared, will be made payable in stock, scrip or convertible scrip.]—V. 98, p. 124.

Cleveland Interurban RR.—New Company.—See Van Sweringen Co. under "Industrials" below.

Columbus (O.) Ry., Power & Lt. Co.—Approved.—The stockholders at an adjourned meeting on July 30, by a majority of over three-fourths, ratified the financial plan (V. 98, p. 1767).—V. 99, p. 48.

Connellsville & Monongahela Ry.—Called Bonds.—

Bonds of 1905, Nos. 228 to 260, both incl., for redemption at par and int. on Sept. 1 at the Union Trust Co. of Pittsburgh, trustee.—V. 97, p. 443.

Consol. Rys., Lt. & Pow. Co. of Wilmington, N. C.—See Wilmington & Carolina Beach Ry. below.—V. 85, p. 1143.

Denver & Rio Grande RR.—Western Pacific Interest to Be Paid—Proposed Readjustment.—See Western Pacific Ry. below.—V. 98, p. 1316.

Denver Union Terminal Ry.—Sale of Bonds.—The Union Pacific RR. has purchased \$4,000,000 first mortgage bonds, the proceeds to be used for the construction of the new union station.

The bonds are 50-year gold 4½s, dated March 2 1914, part of an authorized issue of \$10,000,000. Int. payable Mar. 1 and Sept. 1. Compare V. 98, p. 762; V. 97, p. 1115, 1024.

President A. L. Mohler on Aug. 3 said: "The Union Pacific bought the bonds because the company is extremely desirous of having the improvement begun and carried to completion. The other interested lines agreed that we should take the bonds at a figure a little higher than that of the highest previous bid. All that remains is the letting of the contract. The bids are now being tabulated in the office of the architects of the terminal company, Grove & Walsh, and work will be started as soon as possible. It probably will be a week before we learn who is the lowest bidder."—V. 98, p. 762.

Duluth-Superior Traction Co.—Decision.—Judge E. R. Stevens in the Dane County Circuit Court on July 28 sustained the order of the State RR. Commission, requiring

the Duluth Street Ry. to sell 6 single-fare tickets for 25 cts., in addition to the 5-cent cash fare in force.

The company is required to redeem coupons issued under the injunction secured by it on Nov. 30 1912 staying the enforcement of the order pending an appeal to the courts. An appeal, it is expected, will be taken to the State Supreme Court.

The company contended that the provision in the franchise for a 5-cent single fare is in the nature of a contractual obligation which the Commission has no power to impair, and also that the order requiring it to sell 6 single-fare tickets for 25 cts. is unreasonably, considering the investment and the amount of net earnings. The Court cited the decision in the Milwaukee street car 6-ticket case, holding that the 5-cent fare provision in the franchise was a limitation on the amount that might be charged for a single fare, and not a power to charge less than 5 cents. Judge Stevens found that the property in Superior is reasonably worth \$700,000, as fixed by the Commission. The Court says: "The order of the Commission will undoubtedly increase the sale of tickets and thereby reduce the revenue per passenger for those that use the tickets, but it is by no means certain that the loss will be fully compensated by increased density of traffic due to the use of the tickets and to the natural growth of the city. Among the most striking examples of the effect of reduced fares is the increased density of traffic which followed the passage of the steam railroad 2-cent fare law in Wisconsin. The order of the Commission does not make sweeping reductions in the rate of fares; it does not change the present cash fare. The proof falls short of the clear and satisfactory evidence required to satisfy the Court that the order of the Commission is either unlawful or unreasonable." Compare V. 95, p. 1472; V. 98, p. 1694.

Erie RR.—New Locomotive Makes Record.—The company on July 24 made a test at Binghamton, N. Y., of the tractive power of the new centipede locomotive, which weighs 410 tons and has 24 driving wheels, 8 of them being under the tender to secure additional driving power.

The officers in charge kept adding car after car of coal to the train until it consisted of 250 fully loaded steel "battleships", with a total weight of 21,000 tons.

The locomotive pulled a train of 250 fully-loaded steel coal cars with a total weight of 21,000 tons for 40 miles, establishing, it is said, a new train-load record, not only for American roads, but also for roads anywhere in the world.—V. 99, p. 48.

Florida East Coast Ry.—Extension—Ferry.—The following is confirmed:

The new freight car ferryboat built for the company will, it is expected, be launched at the Cramp shipyards on Sept. 30. This will be one of the largest car ferryboats ever put in service. It will hold 30 cars and will be seaworthy in every kind of weather. The boat will probably be ready for service by Jan. 1. At Havana the ferry will connect with the Cuban Ry. lines, assuring a large traffic. The English company owning the Cuban road is arranging for the expenditure of \$1,000,000 or more in terminals. In addition to the large shipments of Cuban fruits northward, the boat will carry meats from the packing houses of this country to Cuba. A heavy traffic will, it is stated, be developed on the completion of these transportation facilities.

The company will shortly finish its Kissimmee Valley extension to Lake Okeechobee, 123 miles in length, about 93 miles of which have been completed and which will be ready for operation about Jan. 1.

The work of substituting concrete bridges over the Keys wherever trestlework and fills have been before will shortly be completed.—V. 98, p. 1993.

Grand Junction & Grand River Valley Ry.—Foreclosure.—Judge Black in the District Court at Montrose, Colo., on Aug. 3, on application of the Colorado Title & Trust Co., mortgage trustee, granted a decree of foreclosure, the interest being in default.

There are said to be \$1,383,000 1st 20-year gold 6s outstanding, due July 1 1929. The railway owns the entire stock (\$250,000) of the Grand Junction Elec., Gas & Mfg. Co., and also all but \$30,000 of its \$200,000 1st M. 5% 20-year gold bonds, due March 1 1927.

Grand Trunk Pacific Branch Lines Co.—Mortgages.—Notice was given on July 20 that there had been filed in the office of the Secretary of State of Canada the following mortgages:

(1) A supplementary trust indenture, dated April 4, securing bonds to be issued on a portion of the railway and guaranteed by the Prov. of Alberta.
(2) A mortgage or deed of trust, dated April 4, being the "Third Supplementary Instrument" (Saskatchewan Lines) securing bonds to be issued on portions of the railway and guaranteed by the Province of Saskatchewan.—V. 98, p. 763.

Grand Trunk Ry. of Canada.—New Officers.—E. J. Chamberlain, President of the company and of the Grand Pacific Ry., announces:

Owing to the death of M. M. Reynolds, Vice-President in charge of finance and accounting, that position has been abolished. Frank Scott is appointed Vice-Pres. and Treas. in charge of finance and W. H. Ardly Comptroller in charge of accounting.—V. 99, p. 48.

Greenville & Knoxville Ry.—Successor.—See Greenville & Western RR. below.—V. 98, p. 1767.

Greenville & Western RR.—Reorganized Co.—The company has been organized as successor of the Greenville & Knoxville Ry., foreclosed June 1 1914 and sold to Atlanta (Ga.) parties (V. 98, p. 1767). The officers are:

President and Gen. Mgr., R. A. McTyer; Vice-Pres., A. P. Coles; Treas., Carl Lewis, all with offices at Atlanta, Ga.

Gulf Texas & Western Ry.—Authorized.—The Texas RR. Commission on July 27 authorized the issue of \$471,000 additional 1st M. bonds. This makes a total of \$2,000,000 outstanding.—V. 96, p. 1089.

Hudson & Manhattan RR.—Authorized.—The P. S. Commission has authorized the company to issue \$202,500 1st Ref. M. 5s to be sold at not less than 80.

Of the proceeds, \$162,000 are to be used to reimburse the company for expenditures for construction and improvements. The remaining \$40,500 are issuable for expenses in connection with the sale of bonds to be amortized by the company.—V. 99, p. 196.

International & Great Northern Ry. Co.—Circular.—The noteholders' committee referred to last week (p. 342), in a circular requesting noteholders to deposit their notes without delay with the Central Trust Co., N. Y., says in substance:

Circular of Noteholders' Committee Dated July 31 1914.
The note issue falls due at a time of great financial and industrial depression and after a fiscal year of unprecedentedly adverse conditions, a situation almost impossible of repetition. In addition to a decline in traffic all over the country, and particularly in Texas, due locally to the partial failure of the cotton crop and the closing of the Laredo Gateway, owing to the Mexican revolution, there have been disastrous floods, with a consequent loss of property and of business amounting to many hundreds of thousands of dollars. Notwithstanding these misfortunes, Messrs. Haskins & Sells, certified public accountants, state that the company has fallen short of earning the interest on all its obligations for the 9 months ended March 31 1914 by only about \$300,000, and that during the last 2½ years it has earned in the aggregate a surplus of over \$930,000 above all fixed charges, after making ample allowance for depreciation of equipment.

Under these circumstances, and in view of the unsettlement of the money markets of the world, an extension of the notes has become necessary.

The committee, acting in the interests of the holders of a majority in amount of the notes, have for some time past been in conference with the company and with representatives of the control of its stock, and a basis of agreement has been reached whereby the company is to offer to extend the notes to Feb. 1 1917, with interest at the rate of 6%, payable semi-annually, and provision is to be made to furnish to the company, if necessary, up to a maximum of \$660,000 to provide for any deficit in interest during the period of extension.

Arrangements have been made whereby the present owners are to give an option, conditioned upon the extension becoming effective, to purchase 51% of the outstanding preferred stock of the railway company and 51% of the stock of the Internat. & Great Northern Corp., owning the common stock of the railway company, and are to join with the purchasers in case the option shall be exercised, in making provision for certain needed improvements and new equipment and for immediate financial requirements of the company and, if the extension becomes effective, it is intended that the noteholders shall be offered an opportunity to participate in this transaction through the syndicate which may be formed to carry it out.

A deposit agreement is being prepared under which a committee representing the holders of the notes will be appointed. The committee to be named in the agreement will, among other things, be empowered thereby to consent, on behalf of the depositing noteholders to the extension, to settle the form of the extension agreement and to procure the execution of, or to approve, such further agreements as may be required to carry out the arrangements outlined.

Failure to extend the notes is certain to result in a receivership, with the heavy expenses entailed by such proceedings, and the non-payment of the Aug. 1 coupon and the probable depreciation of the property by reason of its not securing the benefit of the moneys to be spent upon the property under the arrangement for transfer of control.—V. 99, p. 342, 269.

International Ry. of Central America.—Status.—
See United Fruit Co. under "Industrials" below.—V. 98, p. 1684.

Interoceanic Ry. of Mexico.—Through Traffic Resumed.
See Mexican Ry. below.—V. 99, p. 342, 48.

Lincoln (Ill.) Railway & Light Co.—Receivership.—
James E. Hoblit, Cashier of the Lincoln State Bank, has been appointed receiver, as the result of two suits to foreclose the mortgage, assuming charge on July 18. Compare V. 98, p. 1920.

Los Angeles & San Diego Beach Ry., San Diego, Cal.—Application.—The company has applied to the California RR. Commission for authority to issue \$825,000 bonds to electrify certain portions of the company's lines, as previously ordered by the Commission.

The company also proposes to acquire new terminal grounds in San Diego and to erect a terminal building at a cost of \$25,000. The company also desires to purchase 16 passenger cars and 17 passenger trailers at a cost of \$125,000. The expenditures planned, aggregating \$723,198, are divided as follows: Plant investment, \$371,612; new equipment, \$131,000; refunding debt, \$180,586, and interest for first year, \$40,000.—V. 89, p. 104.

Macon Dublin & Savannah RR.—New Director.—
J. R. Frink has been elected Sec. & Treas., with headquarters at Macon, Ga., to succeed A. S. Hale, who resigned.—V. 92, p. 396.

Memphis (Tenn.) Street Ry.—Wage Increase.—
The company on July 31 announced a voluntary increase in wages of motormen and conductors of one cent an hour, applying to employees who have served six months or more, and making an addition to the pay-roll of about \$20,000 a year. This does not affect the semi-annual bonus of one cent an hour for each hour's service which has been paid to conductors and motormen who during the preceding six months have not had an accident for which they were personally responsible. Employees are also given the right to subscribe for American Cities Co. stock on liberal terms.—V. 98, p. 912.

Mexican Ry.—Through Traffic on Main Line.—The relaying of the damaged portion of track outside of Vera Cruz has been completed and through traffic between Vera Cruz and Mexico City was resumed on July 23. Compare Interoceanic Ry. of Mexico item, page 342 last week.—V. 98, p. 1845.

Michigan Ry.—Mortgage Filed.—The company has filed its first mortgage to the Michigan Trust Co. and Frank A. Gorham, as trustees, to secure an issue of 30-year 5% gold bonds limited to \$15,000,000, dated June 1 1914, of which \$6,250,000 has been deposited as part collateral for the first lien 6% 5-year gold notes (auth. issue, \$7,000,000, of which \$5,000,000 have been sold). Compare V. 98, p. 1993.

¹ The bonds are in denom. of \$1,000, \$500, &c. No further bonds can be issued until the retirement of the notes.—V. 98, p. 1953.

Monterey (Mex.) Ry., Light & Power Co.—Int. Delayed.
The directors announce that, owing to the continuance of the disturbed conditions in Mexico, that led to the delay in the payment of the int. on the 1st M. deb. stock due Feb. 1, they are compelled to postpone the payment of interest on the 1st M. deb. stock due Aug. 2 until it is possible to transfer the money on reasonable terms. Compare V. 98, p. 523.

National Railways of Mexico.—Offer to Pay Interest due from July 1 to Sept. 30 With \$3,099,046 6% Notes at Par, Secured by Pledge of \$11,232,477 Mexican Government 6% Ten-Year Bonds—Assent Requested by Sept. 1.—Prest. E. N. Brown, by advt. of July 31 (see another page) says:

Owing to the continued and increased interference with the service of the company's lines, due to the disturbed conditions in Mexico, resulting in interruptions to traffic, loss of earnings and increased expenses, the company was unable to pay in cash the interest due July 1 1914 on such of the securities as matured on that date as well as the principal of the equipment notes, series 10, of the Mexican Central Ry., Ltd., also then due.

In response to the company's request and for the protection of its own interests in the system, the Federal Government of Mexico has offered to advance to the company \$11,232,477 of its 6% redeemable Mexican gold bonds of 1914 authorized under the law of July 6 1914, to be used as collateral security for an issue of notes of the company to provide for not only the July 1 payments but those maturing between that date and Sept. 30 next, and the said offer has been accepted by the company, viz.:

Issues (Amts. Supplied by "Chronicle")	Amount	Payment	Interest
Prior lien 4 1/2% 50-yr. s. f. gold bonds	\$84,821,115	-----	\$1,908,475
Mexican Central Ry., Ltd., priority 5s.	1,374,000	-----	34,350
5% equip. & coll. 2d series	300,000	\$50,000	-----
Equipment notes, series 8	158,456	31,691	-----
Equipment notes, series 10	342,000	57,000	8,550
Equipment notes, series 11	162,000	27,000	4,050
Mexican Internat. RR. prior lien 4 1/2%	5,850,000	-----	131,625

Nat. RR. of Mexico prior lien 4 1/2%	23,000,000	-----	517,500
Pan-American RR. 1st gold 5s.	(a) 2,400,000	-----	50,075
General Mortgage gold 5s.	(b) 3,654,000	-----	37,100
Vera Cruz & Pac. 1st 4 1/2% guar. bonds	7,000,000	-----	157,500

(a) \$397,000 owned by Nat. Rys. of Mexico.
(b) \$1,484,000 in hands of public; balance owned by Nat. Rys.

Accordingly, the company proposes to pledge the bonds under a trust agreement between the company and Guaranty Trust Co of New York as trustee, to secure an issue of notes of the company limited to the aggregate principal amount of \$3,099,046 U. S. currency, the total of the payments maturing during the said period. The notes will be payable Jan. 1 1917, will bear interest at 6% per annum, payable at maturity, will be redeemable in whole or in part at the option of the co. at par and interest on 30 days' notice, will be payable in United States gold and the equivalents thereof in foreign currencies at the rates of exchange specified in the trust agreement and will be in suitable denominations to meet the requirements of the various payments. Subject to the conditions hereinafter stated, the company offers to make payment of the interest and principal becoming due between July 1 and Sept. 30 1914, inclusive, in the notes at par. Holders of the securities desiring to avail themselves of the offer are requested to deposit their coupons and maturing notes not later than Sept. 1 with Guaranty Trust Co of N. Y., either at its New York office, 140 Broadway, or at its London office, 33 Lombard St., London, E. C., or at such other offices as may from time to time be designated. Temporary receipts will be issued for coupons and notes deposited.

The offer may become effective if within said period holders of the above securities to the amount of not less than 75% thereof shall have deposited their coupons and maturing notes or otherwise satisfactorily signified their assent thereto. It shall become effective if holders shall have so assented to the amount of not less than 85% thereof.

Offer to Holders of 3-Year 6% Secured Gold Notes Dated January 1 1914.—The advertisement further says:

The company, likewise, being unable to pay in cash the coupons which matured July 1 1914 on the notes named, amounting to \$73,809 75 U. S. currency, the Federal Government of Mexico has offered to advance \$267,523 of its 6% redeemable Mexican gold bonds of 1914 and the offer has been accepted. To include these coupons in the foregoing plan would necessitate the issuance of a large number of notes of very small denominations, and therefore it has been determined to pledge the bonds with Guaranty Trust Co. of N. Y., trustee of the agreement under which the notes dated Jan. 1 1914 (V. 98, p. 74) are issued as additional security for the payment of the said coupons. Therefore holders of the notes will retain the coupons due July 1 1914 in lieu of receiving new notes therefor.—V. 99, p. 343, 270.

New Jersey & Hudson River Ry. & Ferry Co.—Suit.—
The company, as owner of the stock and bonds of the Riverside & Fort Lee Ferry Co., on June 23 brought suit in the U. S. District Court against the Ferry Co., the City of New York and the Board of Chosen Freeholders of Bergen Co., N. J., asking that the resolution of the Freeholders passed on June 15 reducing the fares on the ferry from the foot of West 129th St. to Edgewater, N. J., from 5 to 3 cents for an adult and from 4 to 2 cents for a child, be declared illegal and void.

The complaint alleges that the reduction would cause a loss to the ferry company of \$100,000 annually, which would have to be borne by the bond and stockholders, in violation of the terms of the leases with the City of New York authorized by the Montgomery charter. Judge Mayer granted an injunction temporarily restraining the ferry company from collecting less than 5 cents for an adult and 4 cents for a child.—V. 92, p. 462.

New Jersey & Pennsylvania Ry.—Lease Not Yet Made.
Vice-Chancellor Backes at Trenton, N. J., on Aug. 4 made an order releasing Lewis S. duFour, Augustus C. Durling and Joseph L. M. duFour from the terms of the order made by Vice-Chancellor Stevens under which they were to lease the road. Frank W. Patterson and J. C. Melton of Charleston, W. Va., who were associated with the three men named, have, it is said, done nothing toward carrying out their part of the deal, but are still subject to the terms of the order provided for the leasing of the road.—V. 98, p. 1845.

New Orleans Texas & Mexico RR.—Sale.—Judge Foster in the Federal Court at New Orleans, La., in the suit brought by the New York Trust Co., as trustee, has ordered the foreclosure sale of the road.—V. 99, p. 120.

New York Central & Hudson River RR.—Indictments.
The Grand Jury in the Federal Court on July 31 returned three blanket indictments against the company and three of its subsidiaries and officers and the O'Gara Coal Co. An indictment was handed down for alleged rebating in Nov. 1912.

The first indictment charges discriminations in favor of the O'Gara Co. in the granting of extensions of time by the railroad for payment of freight bills in violation of the Inter-State Commerce Act prohibiting the acceptance by railroads of a less or different compensation than that published in the tariffs.

The second indictment charges violation of the Elkins Act in granting of discrimination by the extension of credit for 60 to 90 days to pay freight bills.

Fifty instances are cited where the roads accepted a less and different compensation for freight charges than the published tariff, each being based on separate shipments of coal. There are 49 counts charging acceptance of coal in payment of freight bills, in violation of Section 6 of the Inter-State Commerce Law, and 50 counts charging discrimination in favor of the O'Gara Co. in connection with the buying of fuel coal and the method of payment. The railroads are also charged with loaning the O'Gara Co. a total of \$500,000 in cash, including the alleged rebate of \$60,000 on which the former indictment was based, which was not carried on the books.

The third indictment contains 112 counts and is directed against the O'Gara Co. and its officers. It charges 112 separate violations of the Elkins Act, which applies alike to shippers or to those who accept or receive favors and advantages in respect to inter-State commerce. Fifty of the counts charge the defendants with accepting concessions in the form of extensions of credit for the payment of freight bills and 50 the acceptance of concessions shippers on the lines of the roads named; and the other 12 the acceptance of money from the railroads.

The penalty for violation of the Elkins Act is a fine of from \$1,000 to \$20,000 and not exceeding two years imprisonment for each offense; and for violation of the Inter-State Commerce Law forbidding rebates and discriminations, a fine of not exceeding \$5,000.—V. 99, p. 343, 270.

New York & Long Island Traction Co.—Decision.—
County Judge James P. Niemann, in a suit brought against the company by Lucy Raynor of Baldwin, L. I., an employee of Doubleday, Page & Co., on June 22, it is reported, held that the company, under its franchise, could not charge more than 10 cents for a 10-mile ride. The plaintiff was awarded \$500 damages.

The plaintiff and 50 other employees of the publishing house had been ejected from a trolley car on May 1 1913 for refusing to pay 15 cents for an 8-mile ride. Miss Raynor sued for \$2,000 for injuries, and for the indignity attending her ejection.—V. 98, p. 1696.

New York New Haven & Hartford RR.—Mr. Billard Resigns as Director.—The resignation of John L. Billard as a director was announced on July 31.

This leaves the number of directors 22. As the directors desire to reduce the number to 19 or less, no successor will be elected. Homer S. Cummings, of Stamford, counsel for Mr. Billard, issued a statement saying that he desired to resign some time ago but that he had refrained because it did not seem desirable to take any step which might change the status of affairs while the Inter-State Commerce Commission was conducting its investigation. Now that the Commission's report has been made, and in view of the fact that a committee of New Haven directors has been appointed to investigate and report further upon the Billard company affairs, Mr. Billard feels that his presence on the board might possibly be embarrassing to his associates, and it is his wish that the investigation shall be as complete and unlimited as the most exacting could require.

Another Stockholders' Suit for an Accounting.—
Thomas C. Spelling, as attorney for Tisla D. Clark of New Jersey, holder of 20 shares of stock, brought suit in the U. S. District Court in this city on Aug. 3 asking that former directors be compelled to account for the

moneys alleged to have been misappropriated during the Mellen administration.—V. 99, p. 343, 270.

Oakland Antioch & Eastern Ry.—Authorized.—The Cal. RR. Commission on July 30 authorized the company to issue \$900,000 6% convertible gold notes, to be secured by 1st M. 30-year gold bonds in the ratio of 2 to 1. Arrangements, it is reported, have already been made for the taking up of the notes by Eastern syndicates. Compare V. 99, p. 343.

Oklahoma Central Ry.—Sale.—The road was sold at foreclosure sale on July 31 to F. X. Quinn of Philadelphia, representing the bondholders, the only bidder, for \$1,000,000. Judge Campbell in the Federal Court on Aug. 1 confirmed the sale.

The road was then turned over to the Oklahoma Central RR., which was incorporated in Oklahoma on July 31 with \$1,500,000 authorized stock, per plan V. 98, p. 1845. The new company has, in accordance with the plan, leased the road to the Atchison Topeka & Santa Fe Ry., which has taken an option on the stock and income bonds, the latter having been deposited with the Columbia Trust Co.—V. 99, p. 199.

Ontario West Shore Ry.—Sale of Road.—

Proudfoot, Hays & Killoran of Goderich, and Thomas Strothers, trustees, Duncannon, P. O. Canada, will receive tenders up to Aug. 15 noon for the sale of the railway franchise extending from Goderich to Kincardine, and covering other territory in the counties of Huron, Bruce, Grey, Lambton and Middlesex, the road being built from the C. P. R. crossing near the town of Goderich, to Kintail, about 14½ miles. The tenderer is to enter into a contract with the trustee to complete the road.

Pacific Gas & Electric Co.—Consumers May Subscribe.—The company, for mutual advantage, offers to consumers the right to subscribe before Aug. 15 for any part of the new \$12,500,000 first pref. stock on the same terms as those announced for stockholders and employees. Compare V. 99, p. 199, 121.

Philadelphia Co. of Pittsburgh.—Decision.—

Judge Ford in the Common Pleas Court at Pittsburgh on July 30 held that under the terms of the old ordinance passed in 1884 known as the George Westinghouse ordinance, which provided that he and his associates agreed to furnish free of cost all the natural gas necessary for fuel for the buildings of the "police, fire, markets and city property departments," the company is obliged to furnish free gas for all city departments and properties, including the case in question—the municipal hospital. The company will appeal from the decision.—V. 99, p. 344.

Quebec Oriental Ry.—New Prior Lien Mortgage Filed.—

Notice is hereby given that on July 28 there was deposited in the office of the Secretary of State of Canada an indenture dated June 26 1914 canceling the trust deed dated Oct. 24 1912 securing an issue of £50,000 5% prior lien mortgage (Metapedia section) gold bonds and also a trust deed dated June 26 1914 between the said railway and the Royal Trust Co. to secure an issue of £100,000 5% prior lien mortgage (Metapedia section) gold bonds. Compare V. 97, p. 238.

Rapid Transit in New York City.—

The P. S. Commission will open bids on Aug. 21 for the construction of section 3 of route 33, which will connect the Brooklyn Rapid Transit tunnel from Whitehall St., Manhattan, to Montague St., Brooklyn, with the Fourth Ave. subway in the Flatbush Ave. extension and also the new Interborough tunnel from Old Slip to Clark St. with the present subway at Borough Hall.—V. 99, p. 344, 50.

Rates.—Decision of I.-S. Commerce Commission on 5% Advance Rate Case in Official Classification Territory.—See outline of decision, also editorial remarks, on previous pages of to-day's issue.—V. 99, p. 121.

St. Louis & San Francisco RR.—Notice to Bondholders.—

The protective committee for 4% Refunding M. gold bonds (Frederick Strauss, Chairman) gives notice by advertisement on another page that after Aug. 12 no further purchases will be made by the committee of the coupon which matured July 1 1914. Holders may, however, continue to deposit their bonds during the pleasure of the committee, the right being reserved to refuse additional deposits without further notice.—V. 99, p. 199.

San Antonio Uvalde & Gulf Ry.—Ownership.—A. R. Ponder, Pres. and Gen. Mgr., confirms the statement that the Bankers Trust Co. of St. Louis owns all of the bonds and stock issued by the company, viz., \$4,113,000 bonds and \$315,000 stock.

The securities were acquired by John E. Franklin while President of the company. They were authorized by the Texas RR. Commission on a valuation of \$5,051,071. Mr. Ponder says that the road will be self-sustaining by fall, when the cotton shipments begin.—V. 99, p. 199.

San Diego & Arizona Ry.—Modification.—The Cal. RR. Commission on July 8 modified its previous order authorizing the company to issue bonds.

Under the supplemental order, the company may execute a trust deed to secure an issue of bonds limited to \$25,000,000 instead of \$15,000,000, as formerly fixed, and sell \$10,000,000 bonds at 85 and accrued int. instead of 80, and also \$3,000,000 capital stock at not less than 85 instead of at par. Compare V. 98, p. 840.

Savannah & Northwestern RR.—New Officers, &c.—

C. E. Gay Jr. has been elected Vice-Pres. to succeed R. M. Hitch, who declined re-election on account of his duties as Secretary, Gen. Counsel and member of the executive committee. C. W. Skinner of Waynesboro, Ga., J. H. Evans, Sylvania, Ga., and William G. Low Jr., New York, have been added to the board.—V. 98, p. 1317.

Texas & Pacific Ry.—Ratified.—The stockholders on Aug. 3 approved the several propositions in regard to the Trans-Mississippi Term'l Co., &c., referred to in V. 99, p. 50.

Timpson & Henderson Ry.—Mortgage.—The Texas RR. Commission on July 18 authorized a mortgage for \$100,000 to J. G. Ragland, President of the company, payable in four years with interest at 6%.

The proceeds are to be used for improvements and additional equipment of the line, extending from Timpson to Henderson, 35 miles.

Toledo Rys. & Lt. Co.—Municipal Ownership Election.—See "Toledo" in "State and City" department.—V. 99, p. 344.

Toledo St. Louis & Western RR.—Default.—Deposits Called For.—Default having occurred in the payment of the

Aug. 1 coupon on the collateral trust 4% bonds, the Merrill protective committee requests holders of series A" and series B" bonds to promptly deposit the same with the Union Trust Co. of N. Y., in order that their interests may be adequately protected. See advertisement on a previous page.—V. 99, p. 344, 199.

Toronto (Can.) Ry.—Bonds Called.—Seventy-one 4½% currency bonds of \$1,000 each and 322 sterling bonds of £100, issued under 1st M. dated Sept. 1 1892, have been drawn for redemption at par and int. on Aug. 31.

Payment will be made at the Canadian Bank of Commerce, Toronto.—V. 98, p. 1461.

Underground Electric Rys. Co. of London, Ltd.—

Listed.—The London Stock Exchange has admitted to quotation a further issue of £179,000 6% income bonds of £100 each, Nos. 28, 282 to 30,071.—V. 99, p. 271.

United Railroads of San Francisco.—Supplemental Order.—The Cal. RR. Commission on July 30 made a supplemental order authorizing the company to issue \$378,000 car-trust certificates (V. 98, p. 1695).

The original order provided that the certificates might be paid off in ten years. The new order enables the company to pay off the certificates in a shorter time, if desired.—V. 99, p. 344.

Valdosta Moultrie & Western RR.—Sale Ordered.—Judge Thomas of the Southern Circuit on July 29 ordered the foreclosure sale of the road on Dec. 1 in the suit brought by B. P. Jones as holder of \$300,000 bonds.

Mr. Jones obtained a verdict for the amount loaned, with interest at 8%. Stockholders and creditors will, it is stated, appeal and carry the case to the Supreme Court.—V. 97, p. 597.

Virginian Ry.—Coal Traffic.—"Coal Trade Journal" Aug. 5 reports:

Shipments of coal over the railway during the fiscal year ended June 30 (4,682,068 tons) broke all previous records, being 549,304 tons, or 13.6% more than the previous year. Compared with the fiscal year ended June 30 1912, the 1914 tonnage shows an increase of 1,328,711 tons, or 39.6%, while in comparison with shipments in 1911-12 there was an increase of 2,507,479 tons, or 115.3%.

Wages.—Railroads Accept Arbitration Plan.—Chairman

A. W. Trenholm of the managers' committee for 98 Western roads, announced on Monday that, at the urgent request of President Wilson, the committee would consent to the plan of arbitration for the settlement of the differences between the roads and the engineers and firemen. Mr. Trenholm's letter says:

Our committee has been fully impressed with the grave public considerations that you so strongly urged upon us in our conference of Saturday with you and again in your letter delivered to us last night. Under any ordinary circumstances we should feel that our plain duty to the interests committed to our charge would not merely justify but would require us to insist upon a plan of arbitration that would recognize our right to be heard upon claims regularly presented in our behalf.

But we also appreciate keenly, as you have pointed out, that an unparalleled condition has arisen which hardly permits a full consideration of the merits of our case, and which constrains you to ask us to waive any discussion of merits and accept the plan of arbitration proposed by the mediators, which you feel convinced offers under the existing circumstances the only possible way of averting a disastrous strike on all railroads of the Western half of the United States.

In view, therefore, of the situation as you have presented it, and of your appeal to our patriotism and to our regard for the public welfare, we beg to express to you herewith our acceptance of the plan of arbitration proposed.

The agreement between the roads and the men was signed at 1 o'clock on Tuesday morning. It provides for an arbitration board of 6 members, 2 to be chosen by the roads and 2 by the employees, these to select 2 others to complete the board. The latter is to be organized within 30 days. The decision is to be reached within 3 months and is to go into effect at the expiration of another 10 days. The order, whatever it may be, is to remain in effect for a year.

W. S. Carter, President of the Brotherhood of Locomotive Firemen and Enginemen, says that the arbitration will probably begin about Oct. 1 and that the sessions will be held in Chicago.—V. 99, p. 344, 271.

Warren Brookfield & Spencer St. Ry.—Sale.—The

foreclosure sale has been again adjourned to Sept. 10 on account of the absence of bidders.—V. 99, p. 200.

Western Pacific Ry.—First Mortgage Interest to Be Paid

Sept. 1, but No Further Support by D. & R. G. Unless Re-adjudgment is Made.—The following announcement was made Thursday:

The board of directors of the Denver & Rio Grande RR. has authorized the announcement that the interest which will fall due Sept. 1 upon Western Pacific 1st M. bonds will be paid, but that if the Denver & Rio Grande is to continue its support of the Western Pacific, some plan of adjustment of Western Pacific finances and the relation of the Denver & Rio Grande thereto must be devised which will be acceptable to the holders of bonds, and that a call for the deposit of these bonds will be put forth at an early date by a committee of responsible bankers, looking to the adoption of a plan which will at once lighten the burden which the Denver & Rio Grande is now carrying, to place the financial structure of the system upon a basis of recognized solvency and credit, and as far as may be practical provide means for the development of the Western Pacific.

The payment of interest will fall due Sept. 1 1914, it has been decided upon, in order to give time to prepare and submit for the consideration of the proposed plan. Money is already assured for the payment of the interest. An examination by J. S. Stevens, under the supervision of the bankers of both companies, of the property, traffic and needs of both the Denver & Rio Grande and the Western Pacific is in progress.

Committee.—The committee of bankers that will call for the deposits of bonds will, it is reported, be Blair & Co., Wm. A. Read & Co. and William Salomon & Co. The depositary has not yet been selected.—V. 98, p. 691.

Wilmington (N. C.) & Carolina Beach Ry.—Franchises.

The City Council on July 29 unanimously passed an ordinance granting the company the right to build and operate an electric road over a number of business and residential streets and adopted a resolution calling a special election on Oct. 7

to ratify or reject the same. The Tidewater Power Co. opposed the granting of the franchise.

The Consolidated Railways, Light & Power Co., lessor of the Tidewater Co., also presented a petition for a franchise to extend its existing lines. The proposed city lines of the W. & C. B. Ry. will be about 11 miles in length and the suburban line from the city to Wilmington Beach and Carolina Beach over 13 miles. The estimated cost of the lines and power plant is \$750,000. The franchise grants the right to manufacture and sell electric current for power, lighting and heating purposes.

Youngstown & Ohio River (Electric) RR.—Earnings.—
C. E. Denison & Co. of Cleveland and Boston report:

Year ending	Gross Earnings.	Exp., Taxes & Rentals.	Net Earnings.	Bond Interest.	Balance Surplus.
June 30—					
1913-14	\$258,581	\$160,655	\$97,925	\$50,000	\$47,925
1912-13	245,933	158,336	86,697	50,000	36,697

The bankers are offering a small block of the bonds.—V. 98, p. 1995.

INDUSTRIAL, GAS AND MISCELLANEOUS.

Alton (Ill.) Steel Co.—Receivership.—

Judge Hadley in the Madison County Circuit Court on July 9, on application of the Alton Banking & Trust Co. and three other banks, which, it is stated, hold \$200,000 of an issue of \$300,000 1st M. bonds appointed James Duncan, Pres. of the Duncan Foundry & Machine Works and Vice-Pres. of the Alton Water Co., receiver. The plant was placed in operation about a year ago, manufacturing hoop steel and cotton ties. F. W. Fownes and others of Pittsburgh are said to hold the remaining \$100,000 1st M. bonds. There are also \$350,000 2d M. bonds for the conversion of which \$350,000 of the \$950,000 stock is reserved. The floating debt, it is reported, was about \$125,000. The company was organized by T. S. Clark of Erie, Pa., and associates. Mr. Clark being President.

Amalgamated Copper Co.—No Statement of Production.—
The Anaconda Copper Mining Co. management has decided not to announce as usual its copper production for July.

The Copper Producers Association on Tuesday decided, "in view of the condition now existing in the markets of the world, that the usual monthly reports issued by the corporation be suspended until further notice." The statement for the month of July was, therefore, not published.—V. 97, p. 1603.

Curtailment.—Vice-President Kelley of the Anaconda Copper Mining Co. is quoted:

Curtailment has been made absolutely necessary by reason of the general conditions which prevail. For nearly a year the domestic copper trade has been very bad, due to the general business depression existing in this country. The copper producers have been kept going by the European trade, which has been fairly good, the greater part of the copper which has been sold having been exported.

During this time large copper stocks have accumulated, and the producers have on hand a very large amount of copper for which there is no market in sight. The crisis which has developed in European affairs has resulted in a practical suspension of international trade relations, rates of exchange have been destroyed and it is impossible to carry on a foreign business. Under present conditions it is impossible to make shipments to Europe, and it is likewise impossible to receive payments for copper which is now being delivered. As a result our operations cannot be continued on a normal scale. The Great Falls smelter, reduction works and refinery will suspend operations at once. A curtailment in tonnage here equivalent to the shipments to Great Falls must be made. The following mines will suspend operations: Mountain Consolidated, High Ore, Pennsylvania, Poulin, Badger State, Tropic and Ella.

I wish to make it very clear that the present curtailment has no reference to any local conditions, as we all hoped until the precipitation of the present foreign crisis that operations here would not be interrupted.

[There has been curtailment of copper production throughout the country, some reductions being unofficially reported as follows: Utah Copper, 50%; Phelps, Dodge & Co., 25%; Ray Consolidated, 50%; Chino, 50%; Miami, 50%; Calumet & Hecla, 25%.]—V. 98, p. 1842.

American Chicle Co.—Acquisition.—New Stock.—

See Sen-Sen Chiclet Co. below.—V. 99, p. 271, 122.

American Light & Traction Co., New York.—Earnings.

Yr. end.	Earns. from	Other	Net	Prof.	Div.	Common	Balance.
June 30—	Sub. Cos.	Income.	Profits.	(6%)	Dividend.	Surplus.	
1913-14	\$1,987,715	\$717,868	\$4,276,145	\$854,172	\$1,408,728	\$2,013,245	
1912-13	3,751,432	3,791,131	4,240,722	854,172	1,277,008	2,109,541	

There were also deducted stock dividends on the common stock amounting to \$1,408,728 in the year ending June 30, 1914, against \$1,277,008 in 1912-13, leaving a balance of \$604,518 in 1913-14, against \$892,534 in 1912-13.—V. 98, p. 1395, 1158.

American Milling Co., Philadelphia.—Listed.—

The Philadelphia Stock Exchange has listed \$2,940 additional stock issued in exchange for Marsden Co. common stock, making the total listed \$665,760.—V. 99, p. 200.

American Tobacco Co.—Common Dividend Payable in Scrip, Not Cash.—

The usual quarterly dividend of 5% has been declared on the \$40,242,400 common stock, payable Sept. 1 to holders of record Aug. 14. The distribution will not, however, be made, as is customary, in cash, but in scrip or notes due Sept. 1 1915 with interest payable semi-annually at the rate of 6% yearly, which will be mailed on Sept. 1 or as soon thereafter as practicable.

An official statement says: "The President stated that the earnings and surplus fully justify the payment of the regular dividend of 5% that under ordinary circumstances the financial situation of the company would justify such payment. In cash, the indebtedness of the company being considerably exceeded by its cash in bank. He stated further, though, that the time for the marketing of leaf tobacco has already arrived as to some of the types, and was approaching as to other types, and that the needs of the company for ready money would therefore be considerable. In view of the European war situation and the derangement of finances incident thereto, he suggested that it would be the part of conservatism and wisdom to pay the customary 5% dividend in the 6% scrip for notes of the company due one year after Sept. 1 1914, with interest payable semi-annually."—V. 99, p. 122.

Anaconda Copper Mining Co.—Favorable Decision.—

See Parrot Silver & Copper Co. below.—V. 98, p. 1696.

Berwind Fuel Co., Superior Wis.—Stock Increase.—

The company has filed notice of increase of its authorized capital stock from \$1,500,000 to \$2,300,000. The increase is to cover the cost of constructing the new West Duluth dock, the largest on the Great Lakes, and improvements to the Superior plant now under way. When the work is completed, the Superior dock will have a storage capacity of 900,000 tons. The new West Duluth dock has a storage capacity of 1,000,000 tons and a ten-hour handling capacity of 10,000 tons.

British Columbia Packers' Association.—Guaranteed Bonds Offered.—

This company has purchased the plant and business of the George & Barker Salmon Packing Co. of Point Roberts, Wash. Aemilius Jarvis & Co. of Toronto are offering \$150,000 bonds of the latter company at 93 and int. & guar. prin. & int. by the Packers' Assn.—V. 98, p. 1696.

British Union Oil Co., Ltd.—Preference Shares Offered.—

The National Bank of Scotland, Ltd., and Lloyds Bank, Ltd., London, as the bankers of the company which recently secured control of the Union Oil Co., received subscriptions up to July 31 for an issue of £1,500,000 6% cumulative participating preference shares of £1 each, payable 2s. 6d. on

application, 7s. 6d. on allotment, 5s. 0d. on Sept. 30 1914 and 5s. 0d on Jan. 2 1915.

[A private cable received in San Francisco on July 30 stated that £1,000,000 of the pref. stock offered was at once subscribed, but in view of the disturbed conditions of the London market it is thought that this amount may include the transactions which had been going on quietly during the week the public offering was postponed.]

Prospectus Showing Properties, Capitalization, &c.

Capitalization.—Incorporated under the Companies Acts, 1908 and 1913. Capital, £6,000,000, in shares of £1 each, divided into 5,000,000 6% cumulative participating preference shares and 1,000,000 deferred shares. The preference shares are preferential both as regards the fixed 6% cumulative dividend and repayment of capital and entitle the holders over and above the fixed dividends to have distributed ratably among them 50% of the balance of the profits of the company (remaining after payment of such dividend) which it may from time to time be determined to distribute, but not to any further participation in assets.

Acquisition of Union Oil Stock.—The company has agreed to acquire, in each case at par, (a) \$15,000,000 stock of the Union Oil Co. for cash, payable over the period ending Dec. 31 1916; and (b) \$4,444,650 stock of the United Petroleum Co. (carrying the voting control of an additional \$15,788,400 stock of the Union Oil Co.) for preference shares fully paid up. The British Co. will therefore own or control over \$30,700,000 out of \$46,292,800, which will be the issued stock of the Union Oil Co. when the \$15,000,000 treasury stock is allotted. The British Co. has also agreed to acquire at par such further stock of the Union Oil Co., the Union Provident Co. and the United Petroleum Co. as may be exchanged by the holders thereof for fully paid preference shares of the company. The balance of the preference shares will be issued for this purpose or for cash. The Alliance Debenture Corporation, Ltd., of 21 Bury Street, E. C., who are the promoters of this company, have incurred large obligations, including liability for procuring subscriptions for \$15,000,000 stock of the Union Oil Co. and for the payment of (a) £200,000 for cancellation of outstanding options on the \$4,444,650 stock of the United Petroleum Co. being acquired by this company; (b) commission to underwriters of £1,000,000 of the present issue, which has been underwritten to the promoting company at a commission of 5% and 2% overriding commission; and (c) the preliminary expenses of this company to allotment, and as consideration therefor will receive from the Union Oil Co. 15% on the \$15,000,000 of its stock as and when subscribed. They will also receive from this company in consideration for their procuring for it the above-mentioned exchanges of stocks of the Union Oil Co. and its holding companies fully-paid deferred shares of this company equal to 15% of the amount of preference shares issued in exchange.

Purposes of Issue.—The proceeds of issue of £1,500,000 6% cumulative participating preference shares will be applied towards the carrying out of the primary objects for which the company was incorporated.

(1) Of acquiring by direct subscription at par and exchange of shares at par a large interest and the controlling vote in the Union Oil Co. of California and of supplying the Union Oil Co. during a period ending on Dec. 31 1915 with upwards of £2,500,000 of new cash capital.

(2) Of forming subsidiary companies to provide for the transportation and for the establishment of distributing depots throughout the world, taking advantage of the opportunities afforded by the opening of the Panama Canal of reaching markets which have hitherto been closed to California oil.

Extracts from Letter of Lyman Stewart, President of Union Oil Co.

The Union Oil Co. owns or controls, either directly or through its subsidiary companies, the oil rights of upwards of 200,000 acres of land, and, in addition, has built up during the last 24 years an almost unique organization for the production, transportation, refining and sale of petroleum and its allied products; also that it owns or controls approximately 650 miles of pipe lines and its sales for last year were over \$20,230,000 (24,150,000).

The oil properties have been appraised independently as being alone worth \$58,065,000 (£11,900,000), on which basis the total value as being alone Union Oil Company's assets is practically £20,000,000, as against liabilities of about £3,400,000. The Union Oil Co. has large contracts with the United States Government, the Canadian Pacific, the Northern Pacific, and other railway and large industrial enterprises throughout the Western coast of British America, the United States and South America. The profit-earning capacity of the company will be considerably increased by the additions to its refineries and the extension of its operations which the new working capital will enable it to make.

Earns. of Union Oil Co. Six Years 1908 to 1913 (Aver. Net Profits \$523,925).

During the above six years no less than £1,305,472 has been provided for depreciation, and no account has been taken in the certificate of the enhancement in the value of the oil properties referred to above.

	1908.	1909.	1910.	1911.	1912.	1913.
Profits on trading	£742,799	£759,776	£883,340	£761,726	£947,980	£945,507
Net profits available for distribution	£531,838	£529,433	£602,098	£431,012	£541,408	£502,357

The profits shown above give a total for the 6 years of £2,138,151, out of which £2,085,958 was paid away in dividends, or an average rate of 6% per annum, leaving undistributed a balance of £1,053,093, which on the average capital for the period works out at an additional 3% per ann. The book value of the assets of the company and its subsidiaries wholly owned by it was shown by the consolidated balance sheet of Dec. 31 1913

Less—Bonded debt and notes and current liabilities—£12,234,488 14 2

£8,757,446 5 11

Excess of assets. The average yearly profit as certified is more than sufficient to provide the fixed 6% dividend on the preference shares, including the present issue, and Mr. Lyman Stewart states in his letter above referred to that the employment of the additional working capital will afford such an increased profit as should enable a substantial distribution to be made to this company's preference shareholders in excess of the fixed dividend.

In addition to and quite apart from the above, the earnings of the subsidiary English marketing companies above referred to should provide the British Co. with a large additional separate revenue also available for distribution.

Directors.—Rt. Hon. Earl Grey, G.C.B., Howick, Northumberland (Chairman); Rt. Hon. Lord Pirrie, K.P., P.C., 1 Cockspur St., S.W.; D. M. Coppenham, Messrs. Harland & Wolff, Ltd.; H. N. Anderson, G.C.D.; Royden, 20 Brown's Bldgs., Liverpool, deputy-chairman Cunard S.S. Co., Ltd.; Andrew Weir, 21 Bury St., E.C., of Andrew Weir & Co., Ship-owners (managing director); Lyman Stewart, Pres. Union Oil Co.—V. 99, p. 345.

California Development Co.—Decision.—

The Cal. RR. Commission on July 30 held that the company is a public utility and subject to the regulation of the Commission. The case came up on three complaints alleging, among other things, that the company and the receiver refused to deliver water to persons entitled thereto, claiming the right to deliver water or not as they saw fit, and were discriminating unjustly in charges for water. The Imperial Valley is, it is stated, dependent on the company for water for domestic and irrigation purposes, as it practically controls the water supply of the Colorado River and sells it to intermediary companies, which in turn supply consumers. Receiver Holabird says that it is a physical impossibility to serve more water than at present; that any more checks put in, any more laterals, will reduce the velocity of the flow and the canals will at once commence to silt up and in one year ruin. An appeal, it is expected, will be taken to the State Supreme Court, which three years ago, it is stated, held that the company is not subject to the Commission, as it is not a public utility, and to hold otherwise now would, it is said, therefore be a reversal of its former ruling.—V. 98, p. 692.

California Oil Fields, Ltd.—Application by Subsidiary.—

See Valley Pipe Line Co. below.—V. 97, p. 804.

Canadian Car & Foundry Co.—New Director.

Kenneth W. Blackwell, Vice-Pres. of the Merchants' Bank of Canada, Montreal, has been elected a director.—V. 98, p. 1922.

Central Coal & Iron Co., Central City, Kan.—Sale.—

An advertisement signed by Secretary J. H. Small announces that, pursuant to resolution of the stockholders and directors, all of the assets of the company will be offered at public sale at Central City, Ky., on Aug. 10, including: (1) about 2,714 acres of coal in Muhlenberg Co., Ky., 820 acres of which has been mined for No. 9 coal in Muhlenberg Co., Ky., 820 acres of land in Muhlenberg Co., Ky., about 464 acres of which is town lots in and near Central City, Ky.; (2) about 714 acres of coal in Ohio Co., Ky., 474 acres

of which has been mined for No. 9 coal, and about 496 acres of surface land; (4) 2 lots in Louisville and 2 lots in Nashville, Tenn.; (5) 28 acres of coal and surface land in Hopkins Co., Ky., near Hilsley, and (6) a mine at Central City, Ky., and (7) at McHenry, Ky., mine equipment, live stock, machinery, &c. Of the purchase price one-third is to be paid in cash and one-third each in, or before, 6 months and one year from date of sale.

Central District Telephone Co., Pittsb.—Earnings.—
For the 6 mos. ending June 30 1914 the earnings were: Gross, \$3,256,230; expenses, \$2,496,172; net earnings, \$760,058; interest and dividends, \$752,192; balance, surplus, \$7,866.—V. 98, p. 1159.

Central New York Gas & Electric Co.—Authorized.—
The P. S. Commission has authorized the company to issue \$123,000 5% 1st M. gold bonds at not less than 90. Of the proceeds \$31,740 will be used for improvements in the gas department and \$83,562 in the electric department.—V. 97, p. 668.

Citrus Belt Gas Co., California.—Application.—
The California State RR. Commission will on Aug. 12 hear for the second time the application for permission to issue \$475,000 bonds to meet outstanding obligations. The company now has outstanding \$267,000 bonds. When the Commission heard the application before, it declined to grant the request, but approved instead an issue for \$84,000 and stock at the rate of 50 cents on the dollar of claims, or practically \$200,000. The company has plants in San Bernardino, Redlands, Corona and Colton.

(H. B.) Clafin Co., New York.—Note Extension.—
Judge Grubb in the U. S. District Court has authorized the company to enter into an agreement with banks and trust companies of Pittsburgh to extend from July 20 until July 1 1915 \$1,000,000 notes of McCreey & Co. of Pittsburgh, bearing John Clafin's personal guaranty, under the stipulation that the Clafin Co. waive its claims against the McCreey Co. until the notes have been paid. The notes are as follows: Bank of Pittsburgh, \$200,000; People's National Bank, \$125,000; Monongahela Bank, \$100,000; Real Estate Trust Co., \$300,000; Union Trust Co. of Pittsburgh, \$150,000, and the Pittsburgh Trust Co., \$125,000. The extension does not affect the priority of payment to the banks and trust companies.

In addition to the debt of the McCreey Co. to those banks, it owes, it is stated, the Mercantile Trust Co. of St. Louis \$100,000 and \$300,000 to individuals on notes indorsed by the H. B. Clafin Co.

The noteholders and the merchandise creditors' committees have been holding meetings during the week to discuss plans of reorganization that have been suggested, but the issuance of a plan has, it is understood, been deferred until financial conditions become more normal.—V. 99, p. 345, 272.

Crystal Oil Co. of Des Moines, Ia.—Decision.—
The Iowa Supreme Court has sustained the decision of the lower court awarding F. S. Dunsbee, assignee of the company, \$7,000 damages against the Standard Oil Co. for alleged unfair competition, by which the company was forced to suspend operations in 1899. The charge of conspiracy by the defendant company was upheld, but the local agents were held not to be personally liable for the acts of the company. It was claimed that the company had sustained such losses and damage that it was brought near to insolvency and was compelled to sell property valued at \$15,000 for \$2,100.

Electric Bond Deposit Co. (of Del.), N. Y.—Dividends Deferred.—
See Cities Service Co. under "Railroads" above.—V. 94, p. 1510.

Empire District Electric Co.—Dividends Deferred.—
See Cities Service Co. under "Railroads" above.—V. 98, p. 841.

Excelsior Springs (Mo.) Water, Gas & Elec. Lt. Co.—Application.—

The company has applied to the Missouri P. S. Commission for permission to issue \$52,000 1st M. 20-year 6% bonds, the proceeds to be used for general improvements.—V. 97, p. 1826.

Frisbie & Stansfield Knitting Co.—Re-Inc. of Controlled Company.—
See Oneida Knitting Co., Inc., below.—V. 98, p. 1770.

Gas Securities Co., N. Y.—Dividends Deferred.—
See Cities Service Co. under "Railroads" above.—V. 96, p. 792.

General Railway Signal Co., Rochester.—
Sidney G. Johnson has been elected Vice-President and director, with headquarters at 55 Liberty St., N. Y., to fill a vacancy of long standing. Mr. Johnson is said to have been identified for years with one of the leading competitors of the company as Vice-President and General Sales Manager.—V. 98, p. 1395.

George & Barker Salmon Pkg. Co., Pt. Roberts, Wash.—
See British Columbia Packing Co. above.

Goldfield (Nev.) Consolidated Mines Co.—Earnings.—
Production (Tons Treated and Shipped) and Earnings for Second Quarter.

Month	Dry Tons	Gross Value	Total Costs	Net Profits
April	28,221	\$320,778	170,014	\$150,764
May	30,181	329,401	174,352	155,049
June	25,924	295,000	155,000	140,000
Total	84,326	\$945,179	\$499,366	\$445,813

—V. 98, p. 346, 52.

Grand Junc. Elec., Gas & Mfg. Co.—Foreclosure.—
See Grand Junc. & Grand River Valley Ry. under "Railroads" above.

Hamilton (O.) Gas & Electric Co.—Decision.—
U. S. District Judge Hollister on Aug. 5 sustained in greater part the report of Referee H. H. Haines in June last levying an assessment of 100% on \$300,000 of so-called bonus stock issued in 1907. The Court holds that all creditors whose debts were created after the stock was issued, except those creditors who are holders of the bonus stock, or who had knowledge of its issuance prior to the date of the creation of their debt, are entitled to share in the fund in bankruptcy of the company may bring a suit in equity to recover. The matter is referred back to Referee Haines with instructions to ascertain which of the creditors hold claims contracted since the issuance of the bonus stock and with further directions to report his conclusions of fact and law in such a way that the Court may either sustain or overrule his findings. Compare V. 97, p. 369.

Holton Power Co., California.—Application.—
The company has applied to the California RR. Commission for authority to issue \$200,000 additional First and Ref. bonds for improvements.—V. 97, p. 1826.

Houston Oil Co. of Texas.—Payments.—
One hundred New Series Timber certificates issued under the Kirby Lumber Co. contract dated Aug. 1 1911 were paid on Aug. 1 at par and int. at Maryland Trust Co., Balt., or the Chase Nat. Bank of N. Y.; also the outstanding principal (\$436,000) of series "C" second issue of said certificates. These payments and the dividends on the 6% cum. pref. stock and the interest on the 6% account dividend certificates, make a total distributed on Aug. 1 of over \$1,000,000.—V. 98, p. 1770.

Hudson Iron Co., Secaucus, N. J.—Foreclosure Suit.—
The Columbia-Knickerbocker Trust Co. (now Columbia Trust Co.) all on June 23 brought suit in the U. S. District Court in this city to foreclose the mortgage of 1906 under which \$802,000 5% bonds are outstanding. Default has been made in the payment of the coupons due Feb. 1 and sinking fund installments of \$10,000. The trust company, through Oswald G. Villard as its agent, on June 20 took possession of the property and has since operated it.—V. 82, p. 872.

International Power Co.—Proceedings Continued.—
Chancellor Walker at Trenton, N. J., on Aug. 4 signed an order continuing from week to week the proceedings instituted by Henry W. Bull of New York, asking for the appointment of a receiver for the company on the ground that its affairs have been mismanaged and its assets dissipated. The continuance was granted on the representation that the officers had agreed to comply with a mandamus from the Supreme Court directing that the books and other records be produced for examination at the registered office in New Jersey. The order provided that all restraints contained in the previous order of the Chancellor shall continue in force pending further

action of the Court. Either side may apply to the Court for modification of the order on 2 days' notice.—V. 99, p. 273.

Isabella-Connellsville Coke Co.—Foreclosure.—The Colonial Trust Co. of Pittsburgh, as mortgage trustee, on Aug. 4 brought suit in the Fayette County Court at Uniontown to foreclose the mortgage of 1909.—V. 99, p. 123.

Jersey Electric Co.—New Company.—
See Taylor-Wharton Iron & Steel Co. below.

Lindsay Light Co., Chicago.—Com. Div. Discontinued.—
The directors have decided to discontinue dividends for the present on the \$600,000 common stock because of disturbed financial conditions. The regular quarterly dividend of 1 3/4% has been declared on the 400,000 7% pref. stock, payable Aug. 31 to holders of record Aug. 15. On June 17 1913 the stock was increased from \$200,000 to \$1,000,000 by the payment of a 400% stock dividend, since which time quarterly payments of 1/2 of 1% have been made on the common, the last disbursement having been on May 29 1914.—V. 98, p. 1918.

Lone Star Gas Co., Ft. Worth, Tex.—Listed.—
The Pittsburgh Stock Exchange has admitted to the list \$500,000 additional capital stock, making the total listed \$4,000,000.—V. 98, p. 1532.

McCaskey Register Co., Cleve., O.—Probable Settlement.—
David S. Day of Canton, O., in a letter some time since, stated that the Government in its suit against the company has not asked for its dissolution, as stated in the newspapers. At a conference in Washington, participated for the company, such progress, it is stated, was made on an agreement for a settlement that an amicable adjustment will probably soon be reached. If the company, as in many other similar suits, finally agrees with the Government on the form of a "consent decree," under which the company's practices are amended, the business of the company would not be interrupted. Compare V. 96, p. 556.

Manufacturers' Light & Heat Co., Pittsb.—Earnings.—

6 Mos. end.	Gross	Net	Other	Interest	Balance			
June 30	Earnings	Earnings	Income	&c.	Dividends			
1913	---	\$3,693,840	\$1,697,832	\$31,031	\$71,024	(1%)\$927,000	\$737,839	
1914	---	3,485,778	1,766,724	39,079	150,744	(3 1/2%)	805,000	859,059

—V. 99, p. 346.

Miami (Fla.) Gas Co.—New Bonds.—
The company has, it is reported, issued \$200,000 of bonds for improvements, including additional pipe lines, container of 300,000 cu. ft. capacity and other equipment. The company had outstanding \$183,000 1st M. 30-year 5% due April 1 1942; int. due April 1 and Oct. 1 at the office of the Central Trust & Savings Co., Phila., trustee, auth. issue, \$200,000. Stock auth. outstanding, \$194,750; par, \$25. Pres., H. M. Van Court; Vice-Pres., H. C. Roome; Treas., H. G. Van Court; Sec., W. C. Roome. Office, 406 Central Trust Building, Philadelphia, Pa.

Midwest Oil Co.—Decision.—
Judge Riner in the U. S. District Court of Wyoming on June 16 1913 decided in favor of the company the test suit brought by the Government to recover a 160-acre tract, forming part of a large tract in Salt Creek Valley, which was withdrawn from private entry. The case is now pending in the U. S. Supreme Court, briefs having been filed. The decision will also affect the title to holding, by others in the Salt Creek field, amounting, it is said, to between 5,000 and 6,000 acres. Some 2,000,000 acres of rich oil lands in California alone, now owned by various companies, are, it is stated, calmed by the Government under withdrawals by the President and stand in about the same position as the land involved in the Wyoming case. Compare item and report in last week's "Chronicle," pp. 766 and 760.

Missouri Public Utilities Co.—Decision.—
The Missouri P. S. Commission on July 31 rendered a unanimous decision in the complaint of the Mayor and Councilmen of Webb City alleging failure on the part of the company to comply with certain conditions of a franchise granted by the city to the Webb City & Carterville Water Works Co. on Oct. 16 1909 and assigned to the Utilities Co. It is held that, aside from any agreement in the franchise with regard to the laying of mains, the Commission has the power to require the extension of mains where the same is for the better protection of the public. The company is therefore required to lay mains as provided in the franchise and to complete the work within 9 months and also to make certain extensions demanded by resolution of the Council within 90 days.

National Refining Co., Cleveland.—Dividend.—
A quarterly dividend of 1 1/4% has been declared on the \$4,000,000 stock as increased by the payment of a 100% stock dividend on July 15 last, payable Aug. 15 to holders of record Aug. 1. This is at the rate of 5% yearly, or 10% on the stock as formerly existing. The dividends previously paid were at the rate of 8%. President Lamprecht says: "Whether we will declare more at the next period I cannot tell. Earnings would warrant more, but we believed it better to be conservative under present world conditions."—V. 98, p. 1923.

National Sugar Mfg. Co., Buffalo.—Bonds Called.—
Thirty-seven 1st M. bonds, dated Mar. 15 1904, for payment at 105 and int. on Sept. 1 at Buffalo Trust Co., Buffalo.

President Francis K. Carey states that \$11,000 of the 1st M. bonds were redeemed on June 1 last, making the amount of bonds redeemed to date \$195,500 and reducing the amount outstanding to \$550,500. Indications are, it is stated, that the present campaign will be one of the most successful and profitable in the history of the company.—V. 98, p. 1464.

Natomas Consolidated, San Francisco.—Consents.—
Press dispatches state that holders of about \$400,000 first mtge. bonds have agreed to sell their holdings at 25 to a syndicate friendly to the plan of reorganization (V. 99, p. 273), and that the plan is expected to become effective. Total deposits up to July 25 were, it is said, about \$7,900,000 of the \$14,000,000 outstanding.—V. 99, p. 273, 52.

Natural Gas Co. of West Virginia.—Decision.—
The West Virginia Supreme Court of Appeals on May 12, by a vote of 4 to 1, reversed the ruling of the Circuit Court of Ohio County and held that the city of Wheeling cannot monopolize the business of gas lighting. The city owns and operates a municipal coal gas plant and sells gas for all purposes. In 1885 the National Co. secured a franchise to supply natural gas to Wheeling consumers, which was amended in 1896 and 1907, and this, it is stated, did not interfere much with the city plant until the use of the Welsbach mantle became general and the use of natural gas for lighting became possible. The city then took measures to prevent the company from selling gas for lighting purposes.

The city grant to the Natural Gas Co. was made upon condition that natural gas should not be sold through its pipes for lighting purposes in competition with that manufactured by the city. Local papers say that the city has "granted franchises to electric-light companies to sell electricity in competition with its gas, it knowingly permits citizens not reached by its pipes to use natural gas as an illuminant, it has suffered its gas plant to become dilapidated and no longer makes gas fit for lighting purposes, and because of the poor quality of its gas many citizens continue to burn natural gas for lighting purposes against the protest and notice of the Natural Gas Co." The Court states that when a municipality steps outside its governmental sphere to engage in a business enterprise, its "contracts, rights and obligations are measured by the same rules applicable to private persons"; that if the old Wheeling Gas Co., whose rights the city acquired, were complaining, instead of the city, and under the same circumstances, no court of equity would hold the Natural Gas Company to the condition of its franchise; and that by force upon the citizens served the use of a gas unfit for consumption, and deprive them of rights enjoyed by others in the use of a better and cheaper gas.

Nevada Consol. Copper Co.—Earnings.—3 and 6 mos. ending June 30:

	—3 mos. end. June 30—	1914.	1913.	—6 mos. end. June 30—	1914.	1913.
Gross production—lbs.	14,322,807	17,928,746	29,920,399	32,452,311		
Total income	\$614,818	\$1,106,788	\$1,416,259	\$1,885,716		
Deprec'n Steeple plant	149,382	131,653	302,841	264,382		
Ore extinguishment	79,856	126,916	155,086	246,436		
Dividends	749,796	749,796	1,499,592	1,499,592		
Bal., deficit	\$364,116	sur\$98,422	\$541,260	\$122,695		

The above earnings are computed upon the basis of 14.049 cents for the quarter ending June 30 1914.—V. 98, p. 1533.

New York Edison Co.—Decision.

The Appellate Division of the Supreme Court in this city on July 13 unanimously reversed the order made last year by the P. S. Commission on the application of C. Percival, and held that the company is compelled to supply current for only certain hours of the day when provision has been made to obtain current at other times from other sources. The Court says that when the company refused the plaintiff's request it placed "itself squarely upon the position that it was under no obligation to furnish electric current to any one unless that person agreed to take from the company all the current which it required." It is held that in consideration of the privileged position of the company, it is bound to serve impartially every member of the community who demands its services, and while it may establish reasonable regulations, which the consumer must observe, the requirement that he must take all his electricity from one company or receive none is in any proper sense a regulation respecting the use of the service, but is a purely arbitrary attempt on the part of the company to insure to itself a monopoly of furnishing electrical current.

If that were permissible, the company, it is stated, could also refuse to furnish current to a consumer who was himself manufacturing part of the current he needed, and this had already been severely condemned on grounds of public policy. If the company had established the fact that the hours during which the supply of current was asked were those in which the greatest demands were made upon its services, this condition could have been met by making a special rate for the service.—V. 98, p. 1531.

Oahu Sugar Co., Honolulu.—Bonds Authorized.

The stockholders on July 8 approved the issue of \$1,750,000 25-year 6% gold bonds, redeemable in 10 years. The proceeds are to be used to refund \$809,000 bonds now outstanding, re-pay advances of H. Hackfeld & Co. to the Waiahole Water Co. and complete the Waiahole tunnel. With the increased water resources from the tunnel it is expected to add 3,000 acres of cane land to the plantation, bringing the annual sugar-producing capacity up to 45,000 tons.—V. 98, p. 291.

O'Gara Coal Co.—Further Indictments.

See N. Y. Central & Hudson River under "Railroads."—V. 98, p. 766.

Oneida Knitting Co., Inc.—Incorporated in Mass.

The company has been organized under Massachusetts laws with \$750,000 auth. capital stock, consisting of \$600,000 7% cum. pref. and \$150,000 common stock, as a re-incorporation of the Oneida Knitting Co., which was recently acquired by the Frisbie-Stansfield Knitting Co. See that company, V. 98, p. 1770.

Parrot Silver & Copper Co.—Favorable Decision.

Judge Bourquin in the Federal Court has rendered a decision holding valid the sale in April 1910 of all of the property of the company to the Anaconda Copper Mining Co. The suit was brought by William F. Wall and Louis Foss, of Boston, against the two companies.—V. 92, p. 192.

People's Gas Light Co., Manchester, N. H.—Reduction.

The New Hampshire P. S. Commission has ordered the company to reduce its gas rate from \$1 10 to \$1 per 1,000 cu. ft. beginning July 1 1914. It appeared that while large earnings have been made in the past, particularly by the old company, under much higher rates than those now in force, operating costs in later years, because of increased prices for coal, oil, labor, &c., have so greatly increased that the present rate prior to 1912 could not be held to afford an excessive return upon the present value of the properties used. It is found, however, that the business has now become sufficient in volume so that under a \$1 rate the company can now pay its operating charges, make a reasonable reservation for depreciation, and still earn \$54,000 yearly for the properties used.—V. 91, p. 1331.

People's Water Co., Oakland, Cal.—President Resigns.

In order that the refunding committee may be given full reign to rehabilitate the company, Frank C. Havens has resigned as President and J. Y. Eccleston has been named as his successor by the committee. Mr. Havens owns nearly all of the preferred stock and a large part of the bonds. W. R. Alberger is appointed Manager. The following directors were chosen: John S. Drum, E. A. Heron, J. Y. Eccleston, H. C. Capwell, Frank A. Leach, George N. O'Brien and H. G. Tashelira.

It was announced that the Mercantile Trust Co. of San Francisco holds a majority of the stock, under control of the refunding committee, and that the future policy of the company would be to operate under strict supervision of the State RR. Commission.

The noteholders' protective committee recently issued a statement requesting the unanimous backing of the noteholders. A sale of the bonds that have been pledged would, it is said, increase the bonded and secured debt to the extent of nearly \$5,000,000 and would diminish the value of the security of the notes to the extent of nearly 33%. It is, therefore, in the judgment of the committee vital to the interests of all that no further sales of pledged bonds take place, and the committee, therefore, asks the noteholders to give it an assurance not to sell, at least for 90 days, any of the pledged bonds.

At a joint meeting of the refunding committee and the noteholders' protective committee on July 30, many of the noteholders agreed to withhold demand for payment of their overdue notes, and also not to sell the notes pending the reports of three engineers who are examining the property of the company and its subsidiaries. More than \$1,000,000 of the notes, it is stated, have been extended for 60 to 90 days.—V. 99, p. 274, 123.

Phelps, Dodge & Co.—Copper Production.

The production of copper by the Copper Queen, Detroit and Motezuma mines, owned by Phelps, Dodge & Co., for the seven months ended July 31 1914, was 84,678,429 lbs., as compared with 80,257,960 in 1913, as follows:

Pounds.	1914.	1913.	Pounds.	1914.	1913.
January	12,715,084	11,510,711	May	12,837,220	11,857,535
February	10,905,527	10,519,051	June	12,684,835	11,481,874
March	11,979,348	11,517,338	July	12,188,123	11,682,094
April	11,368,292	11,689,357			
Total (pounds) for eight months				84,678,429	80,257,960

Customs ores business added a further amount for the seven months of 3,771,915 lbs. in 1914, against 6,570,016 in 1913.—V. 99, p. 53.

Pierce, Butler & Pierce Mfg. Co.—Sale Again Postponed.

The sale of the property, which was originally advertised to take place on July 23 and adjourned to Aug. 4, has been further postponed for one week by Judge Ray in the Federal Court because of the unsettled financial conditions.—V. 99, p. 274, 55.

Pittsburgh & Allegheny Telephone Co.—Officers.

The following officers and directors were elected at the adjourned annual meeting held on July 13:

Directors: John L. Dickey, W. C. Handlan, Samuel W. Harper, Richard Hawkey, Cyrus Huling, Frank C. Huling, A. M. Moreland, J. G. Spiane, John S. Weller.

Officers: Pres., Cyrus Huling; V. Pres. & Gen. Mgr., Richard Hawkey; Treas., Frank C. Huling; Sec., Samuel W. Harper; Asst. Sec. & Asst. Treas., Thomas G. Davis; Gen. Counsel, John S. Weller. The company was recently turned over to its stockholders and plans for extensions and betterments are, it is said, being pushed to completion.—V. 98, p. 1854.

Porto Rican Tobacco Co.—Earnings.

June 30	Net (after other)	Total	Dividends	Balance.	
Year	Depr., &c.)	Income.	Taxes, &c.	Surplus.	
1914	\$438,459	\$216,229	\$654,988	\$85,790 (20%)	\$399,880
1913	477,956	266,170	744,126	72,153 (18%)	359,892

The dividends as above in 1913-14 include four quarterly payments of 5% in acrip on outstanding capital stock. The total surplus June 30 1914 was \$1,307,496, against \$1,138,178 in 1913.—V. 97, p. 1429.

Pure Oil Co.—Deal Pending—Pref. Stock Retired.

The deal involving the sale of the controlling interest to an English syndicate is, it is stated, still pending, notwithstanding the European war, and may finally be consummated. The pref. stock, which had been reduced to \$481,700 in February, has, it is said, since been retired, leaving only the \$4,535,245 common stock outstanding.—V. 99, p. 347, 53.

Ray Consol. Copper Co.—Earnings, June & March Quarters.

Quarters End.	June 30 '14	Mar. 31 '14	Quarters End.	June 30 '14	Mar. 31 '14
Net produc-			Total income	\$1,003,075	\$922,099
tion—lbs.	18,748,343	17,234,346	Bond interest	43,581	44,655
Gross profits	\$987,881	\$913,004	Divs. (3 3/4%)	545,364	543,964
Misc. income	15,194	9,095			

Total income, \$1,003,075 \$922,099 Bal. for year \$588,945 \$588,619
The earnings for the June 30 quarter are computed on the basis of 13.9198 cents per lb. for copper, against 14.41 cents for the quarter ending March 31 1914.—V. 98, p. 1541.

Rochester (N. Y.) Telephone Co.—Authorized.

The P. S. Commission has authorized the company to issue \$100,000 5% 30-year bonds at not less than par, the proceeds to be used to erect the new north-west exchange in Broedel St. and make necessary connections and changes in the system.—V. 98, p. 1923.

St. Louis Steel Range Co.—Anti-Trust Suit.

The company on July 22 brought suit in the Federal Court at St. Louis against the Wrought Iron Range Co. for \$750,000 (three-fold) damages under the Sherman Anti-Trust Law. The petition states that the Wrought Iron Co. has not only conspired to injure the business of the complainant but within a few years, through oppressive and unlawful business methods, has forced 14 stove manufacturers and dealers out of business, leaving the Wrought Iron Co. and the Sanitary Stove Manufacturing Co., operating in Bellevue and Benton, Ill. (of which the former purchased control in Feb. last), the only two companies at present selling ranges "by models and photos." The complainant's sales exceeded, it is stated, \$500,000 yearly, the monthly sale of stoves being reduced from 700 to 200, causing a heavy loss.

St. Paul (Minn.) Gas Light Co.—Temporary Injunction.

Judge Booth in the U. S. District Court has granted a temporary injunction restraining the city from putting into effect the 85-cent gas ordinance passed on May 20 last.

The company is ordered to give a bond sufficient to guarantee that consumers shall receive a return of 5 cents a 1,000 cu. ft. in case the new rate is held not to be confiscatory.—V. 98, p. 1698.

Salmon River Power Co.—Authorized.

The P. S. Commission on Aug. 3 authorized the company to issue \$300,000 additional 5% 40-year 1st M. bonds at not less than \$5, to net \$255,000. This makes a total of \$3,535,000 bonds outstanding.—V. 99, p. 53.

San Antonio Land & Irrigation Co., Ltd.—Application for Receiver, &c.

Henry Westbury, of London, Eng., a bondholder, on July 31 applied to the Fifty-Seventh District Court for the appointment of a receiver. Judge Minor set the hearing for Aug. 24. Interest on the bonds (about \$400,000) due May 1 is in default.

The meeting of the holders of the 6% 1st M. bonds, which was to be held in Toronto on July 21, was adjourned to London on July 31 by request of the committee appointed on July 1. The report of the majority of three states that the company appears to have no available funds, even for current requirements, and, according to a statement furnished to the committee, about \$2,400 per month is required to pay taxes, salaries and general expenses, and that in addition \$19,800 must be provided shortly to complete the purchase of certain lands at San Antonio, in respect of which the vendors retain a lien as security for such unpaid purchase money. There are also, it is stated, local creditors in Texas and elsewhere to the extent of \$9,300. As it would be unwise at the moment to anticipate the immediate receipt of any substantial amounts from sales of land, &c., they say that it will be necessary to provide for all the above requirements spread over the next 12 months, and at least \$57,900 is therefore needed, without taking into account interest on any new loans.

It was proposed that \$600,000 6-year 6% land mortgage notes be issued, ranking as a first charge on 30,000 acres of land, or approximately one-half the holdings of the company, and holders of the notes be given the benefit of an agreement to supply water as required, and also that there be deposited two-thirds, or \$3,000,000, of the bonds created and issued to the company by the Medina Valley Irrigation Co., a subsidiary concern organized to construct and operate the water-works; that all rentals received from lands of the company be used in paying off the notes and 30% of the net proceeds of any land not mortgaged be paid over to trustees on behalf of the note-holders, who would thereupon release a certain proportion of the mortgaged land in exchange. This, it is stated, would avoid receivership and protect the interests of all parties, and, for refraining from enforcing their rights, the bondholders, it was suggested, should be given 35% of the net profits of the company so long as it exists.

The minority of two maintain that the rights of the bondholders as mortgagees should be enforced forthwith, and the Empire Trust Co. be requested to take steps to enforce the bondholders' rights.—V. 99, p. 124.

San Joaquin Light & Power Corp.—Financing.

The Cal. RR. Commission has authorized the company to issue \$249,967 notes in renewal of outstanding notes. The Commission has also made an order granting the company additional time up to Dec. 31 1914 in which to issue \$1,776,000 bonds which it proposes to pledge as security for certain 2-year 6% collateral trust notes. The directors are taking steps to pay the floating debt of \$1,615,000 and provide for new construction.

The meeting of stockholders to vote on authorizing \$3,500,000 of the present assessable pref. stock held in the treasury to be converted into 6% prior cumulative non-assessable pref. stock, with preference over the present pref. stock both as to assets and dividends, and also \$2,000,000 first and refunding bonds or debentures to be issued if satisfactory arrangements cannot be made to market the pref. stock, was again deferred to July 29, owing to the protest of some of the pref. stockholders, who objected to the issuing of stock having prior rights and not subject to assessment, as is the present pref. stock. A meeting of dissatisfied stockholders, called by Julius A. Landsberger, was to be held at San Francisco on July 24.—V. 99, p. 124.

Santa Monica (Cal.) Water Co.—Authorized.

The Cal. RR. Commission has authorized the Santa Monica Water Co. to issue \$257,000 5% 30-year bonds. Of the bonds, \$250,000 will be exchanged for outstanding bonds dated July 1 1907, \$3,500 to retire a note and \$2,800 for additions and betterments.

Sears, Roebuck & Co.—Total Sales.

1914—July	—1913	Decrease.	1914—7 Mos.—1913.	Increase.
\$6,326,117	\$6,349,111	0.36%	\$54,227,129	\$51,259,082 5.79%

Sen-Sen Chiclet Co.—Distribution.

The company in a circular to stockholders announces, that pursuant to the action of the stockholders at the meeting held July 28, the company has received in its treasury from the sale of its property, assets and goodwill to the American Chiclet Co. the \$2,000,000 common stock of the American company provided in the agreement of sale. In accordance with action taken by the directors of the company on July 29th, the stock will be distributed among the stockholders of the Sen-Sen company, on the basis of exchanging one share of American Chiclet Co. common stock for every 2 shares of Sen-Sen Chiclet Co. stock.

As the American company expects to continue the payment of monthly dividends, it is important for the stockholders to obtain promptly the stock of that company to which they are entitled.—V. 99, p. 274, 54.

Southern Alberta Land Co., Ltd.—Advisory Committee.

At the ordinary general meeting held in London on July 22 an advisory committee of three was appointed to sit with the board. William Walker, was elected a director to succeed A. M. Grenfell. The other vacancy was not filled.—V. 93, p. 801.

Southern California Gas Co.—Temporary Injunction.

Judge Ross in the Circuit Court on July 27 granted the company a temporary injunction restraining the enforcement of the ordinance recently passed reducing the price of gas. A bond is to be given to reimburse consumers in case the ordinance is found not to be confiscatory.

An application has been filed with the State RR. Commission for a rehearing of the order compelling the company to deliver gas to the Los Angeles Gas & Elec. Corp. and Economic Gas Co.—V. 99, p. 203.

Standard Oil of New Jersey.—*Curtailed of Output.*—

The company has issued the following statement:

The company may be compelled, on account of the interruption of foreign commerce, resulting from the war situation in Europe, to materially curtail its output of all petroleum products. This sudden loss of market, coupled with the very large accumulated stocks of finished product now on hand, will necessarily limit their ability to purchase crude oil. At the moment it is impossible to say to what extent and how long this unfortunate condition will continue.

Owing to the interruption of shipping facilities not alone to Europe, but also to South America, a cut has, it is stated, been made in working hours at the Bayonne plant and about 900 men, many of whom are part of the extra force in normal times, have been reduced to a part-time basis.

Proceedings Charging Violation of New Jersey Laws.—
See "Banking, Legislative and Financial News" on page 316 last week.—V. 99, p. 203.

Taylor-Wharton Iron & Steel Co.—*Acquisition.*—

The property of the Clinton Electric Light Co., recently purchased by Charles S. Johnson of this city, has been taken over by the Taylor-Wharton Co., which has also obtained control of the new company recently organized under the name of the Jersey Electric Co. The latter will erect transmission lines in the vicinity of Hampton, Glen Gardner, Clinton, Annandale, Lebanon and High Bridge. The Jersey Electric Co., the new company, will probably take over the Hunterdon Electric & Power Co. of High Bridge. Mr. Johnson has been retained as consulting engineer by the Taylor-Wharton Co. and by the Jersey Electric Co. Contracts for materials will be placed at once. The details of the new securities to be issued have not been arranged.—V. 98, p. 1465.

Tobacco Products Corporation, N. Y.—*Status.*—

See United Cigar Stores Co. of America.—V. 98, p. 609.

Union Provident Co., California.—*Dividend.*—

See United Petroleum Co. below.—V. 98, p. 1698.

United Cigar Stores of America.—*Business.*—

George J. Whelan, representing the controlling interest of the company, the Tobacco Products Corp., the United Profit Sharing Co. and the Riker-Hegeman Drug Co., is quoted as saying that the European war will not interfere with the expansion plans of those companies. Mr. Whelan says:

"Not one of these companies is a borrower of money and at least three of the four are large lenders. The United Cigar Stores Co. alone has between \$2,500,000 and \$3,000,000 lending on call, the United Profit Sharing Corp. in excess of \$300,000 and the Tobacco Products Corp. more than \$1,250,000. The United Cigar Stores Co. is doing a big business—well ahead of last year. Foreign troubles will in no manner interfere with our expansion program. The agency idea, which means the selling of United products throughout the country, will be pushed ahead just as if there were no war."

The United Cigar Stores Co. of New Jersey has declared a cash dividend of 15% on its \$900,000 stock, all of which is owned by the company. This makes thus far 125% this year, or \$1,250,000, to go into the treasury of the company. Compare V. 98, p. 1998.—V. 99, p. 124.

United Fruit Co., Boston.—*New Steamships, &c.*—

Minor C. Keith, Pres. of the International Ry. of Central America, and Vice-Pres. of the United Fruit Co., on his return from Europe confirms the following:

I did not go abroad, as has been reported, to arrange the debt of Honduras to European countries. We are not doing anything in Honduras at present, but we are proceeding with railroad building at Guatemala and San Salvador.

The United Fruit Co. has placed orders for 13 new ships of the most approved type, 6 of which are for the English trade and 7 for the West Indian trade. These 13 vessels are being built at the Belfast shipbuilding yards of Workman & Clark, and will be ready to put into commission in the spring and summer of next year.

European trade of the United Fruit Co. is growing by leaps and bounds, which is evidenced by the necessity of 6 new steamers for that trade. The West Indian and Central American bananas are fast taking the place of the Canary Island fruit in England and Germany. Formerly the German supply was had almost entirely from the Canary Islands. We have a great advantage in being able to ship the West Indian bananas naked, in bulk or on the stalk, whereas the Canary Island fruit is packed individually, which is very much more cumbersome and expensive.

The work in Central America is progressing as fast as possible. The company is proceeding with the continuous rail route from the United States into Central America, and connection has already been made with the Mexican system. With two vessels we can make weekly trips to the United States and we require seven vessels to make weekly trips in the English trade. We purpose making 3 to 4 trips weekly between the West Indies, Central America and England as soon as our new fleet of steamers is ready.—V. 99, p. 275.

United Fuel Supply Co., Pittsburgh, Pa.—*Earnings.*—

Year	Gross Earnings	Net Income	Dividends Paid	Depr. & Acc. Balance	Reserves	Surplus
1913-14	\$258,223	\$128,549	(8%) \$40,000	\$27,190	\$61,359	64,160
1912-13	336,482	199,160	(7%) 35,000	100,000	64,160	

United Petroleum Co., California.—*Dividend.*—

In connection with the resumption of dividends on the stock of the Union Oil Co. (V. 99, p. 204), it should be noted that the United Petroleum Co. and the Union Provident Co., controlled by it, which in turn owned a majority of the Union Oil Co., the latter having just been sold to the British Union Oil Co., mentioned last week (page 345), have also each declared dividends of 2% on their stocks, payable at the same time, viz. Aug. 15 to holders of record July 31.—V. 98, p. 1698.

Utah Copper Co.—*Earnings.*—3 and 6 mos. end. June 30:

	—3 mos. end. June 30— 1914.	1913.	—6 mos. end. June 30— 1914.	1913.
Gross production—lbs	40,017,562	31,785,448	72,863,717	55,669,915
Net profits	\$2,424,536	\$1,332,071	\$3,978,435	\$2,942,447
Miscellaneous	19,381	11,495	55,369	61,324
Net Cons. dividends	375,187	375,187	750,374	750,374
Total net profit	\$2,819,104	\$2,218,753	\$4,784,178	\$3,754,115
Dividends paid	1,201,710	1,186,628	2,391,150	2,373,256
Net surplus	\$1,617,394	\$1,032,125	\$2,393,028	\$1,380,859

The above earnings are computed upon the basis of about 13,916 cents and 14,403 cents for copper in the quarters ending June 30 and March 31 1914, respectively, and 15 and 15.07 cents for the respective quarters in 1913.—V. 98, p. 1699.

United States Light & Heating Co.—*Deposits Asked.*—

The stockholders' protective committee referred to last week (page 347) requests stockholders to deposit their certificates of stock at once with the Guaranty Trust Co., which has been named as depository under the terms of an agreement dated July 23, copies of which may be obtained from the depository or any member of the committee.

The committee says: "Receivers have been appointed for the property by the U. S. District Court for the Western District of New York upon the application of creditors. It appears, however, that the assets of the company are very largely in excess of its debts and obligations. The undersigned, all of them stockholders of the company and representing a large amount of the common and pref. stock of the company, have been constituted a committee for the protection of the holders of the stock. The past management of the company and the protection of its assets under present conditions peculiarly require the united action of the stockholders for their mutual protection. Application is intended to be made for listing these receipts on the New York curb market."

The agreement mentions the filing of a stockholders' bill in U. S. District Court by Frederick R. Hampage, one of the stockholders' investigating committee, who was appointed under a resolution passed at the last annual meeting, and states that the company has outstanding notes and bills and accounts payable of \$850,000 or \$900,000, but has assets, not including any valuation for patents or good-will, in excess of \$2,500,000.

The committee has power to arrange or accept a plan or plans for reorganization readjustment and to negotiate with the creditors for the compromise or settlement of their claims and accept the terms of such compromises or settlements. Any plan or amended plan will become binding upon stockholders unless they shall within 2 weeks after notice of the same deliver to the depository their written dissent therefrom.—V. 99, p. 347, 275.

Valley Pipe Line Co.—*Application.*—

The company, controlled by the Dutch-Shell interests, on July 21 petitioned the California RR. Commission for authority to issue \$5,318,400 common stock at \$50 a share. The California Oil Fields, Ltd., is the owner of oil fields near Coalinga and proposes, through the Valley Pipe Line Co., to construct a pipe line about 174 miles in length from Coalinga to a point near Martinez, where a refinery is to be built at an estimated cost of \$4,254,685. There has already been spent \$52,469 for rights of way, surveys, &c. The line will be equipped with pumping stations and pipe of sufficient capacity to deliver at least 15,000 bbls. of crude oil of the ordinary grades in 24 hours. The "hot system" is to be used, requiring the equipment of each pumping station with heaters which heat the oil by the exhaust steam of the engines. Eleven pumping stations will be needed, each equipped with two pumps and 2 or 3 boilers. The total capital stock authorized by stockholders is \$10,000,000, in shares of \$100 each. It is not proposed to issue bonds. The directors are: W. Melschke-Smith of London, John Lawson of S. F., Balfour D. Adamson of Piedmont, J. C. Van Eck and H. R. Gallagher of San Francisco.

Van Sweringen & Co., Cleveland, O.—*Bonds Offered.*—

Tillotson & Wolcott Co. of Cleveland, N. Y. and Cincinnati are offering at par \$750,000 6% collateral trust bonds maturing in 8 installments of \$187,500 each Sept. 1 1916, 1917 and 1918, respectively, and one of \$195,000 on Sept. 1 1919. Dated July 1 1914. Denominations \$1,000, \$500 and \$100. Redeemable on any interest day (Jan. 1 and July 1) at 101 and int. Principal and int. payable at Citizens' Savings & Trust Co., Cleveland, trustee. A circular issued by the bankers says in substance:

The bonds are secured by first 6% mortgages deposited with the trustee, aggregating \$761,232 on property appraised at \$1,149,025 and also by \$180,000 1st M. notes and the entire capital stock (\$146,500) of the Cleveland Interurban RR. The interest on the collateral is sufficient to meet that on the bond issue, and the maturities of the mortgages are such as to provide for the payment of the bonds as they mature. The property lies partly within the city limits and in the village of Shaker Heights, and constitutes a part of Cleveland's finest residential district. Two beautiful lakes and a 278-acre park pass through the property, which has been deeded to the city as a part of the park system; boulevards and streets have been laid out and dedicated, and proper restrictions as to the character of improvements are maintained. Apartment houses and business blocks are eliminated except at certain points. The new rapid transit system under construction will put this section within 16-minute touch with the Public Square, and will probably materially increase present property values.

The Cleveland Interurban RR. Co. is an Ohio corporation which owns a double-track railroad extending from the intersection of Fairmount Boulevard and Coventry Road on Shaker Heights, southerly and easterly, for the most part on private right of way, to a point on Shaker Boulevard near Fontenay Road in the village of Shaker Heights, and is operated by the Cleveland Ry. Co. on a conventional schedule and serves a large number of people who have built homes in the village. The railroad also extends westward along Shaker Boulevard from Coventry Road to East 132d St., extended. Construction is in progress on a portion of the line from the western terminus of the Cleveland Interurban RR. at the intersection of Shaker Boulevard and East 132d St., extended, to a point near East 55th St. in the city of Cleveland, and contracts for the remainder of the rapid transit line will, it is expected, be let as soon as details can be arranged. The capital stock of the Van Sweringen Co., an Ohio corporation (\$1,500,000 authorized, of which \$750,000 has been issued), is owned by the Shaker Heights syndicate and will be released by it upon the satisfaction of various claims accruing to it in connection with the objects of its organization. Officers (and directors): Pres., W. S. Hayden; V.-Pres., and Treas., Otto Miller; Sec., W. D. Turner; J. R. Nutt and O. P. Van Sweringen.

Walpole Tire & Rubber Co.—*Sale Postponed.*—

Judge Dodge in the U. S. District Court at Boston again postponed the receiver's sale from Aug. 12 by agreement of all parties, as a precautionary measure in view of the existing financial conditions arising out of the European war. Counsel for the reorganization committee stated that sufficient pledges had been received to carry out the purchase as agreed upon, but it was deemed best to postpone action in order that no one might be embarrassed by the fulfilling of their pledge. The Court has set Aug. 31 for a hearing on the question of fixing another date for the sale.—V. 99, p. 124.

Washington-Oregon Corporation.—*Receivership.*—

The U. S. District Court at Tacoma, Wash., has, on application of the Fidelity Trust Co. of Philadelphia, mortgage trustee, appointed a temporary receiver for the property.

Elmer E. Hayden of Tacoma has been named. It is alleged that the corporation has defaulted in 1913 taxes and also in interest on a \$350,000 loan of one of its subsidiaries to the Standard Trust Co. of N. Y. and on a \$400,000 mortgage to the Philadelphia Safe Deposit & Insurance Co., and has outstanding overdue accounts exceeding \$100,000 and bills payable of \$250,000.—V. 97, p. 1754.

Willys-Overland Co.—*Bids for Preferred.*—

The company having set aside \$250,000 out of net earnings as the yearly sinking fund pursuant to the provisions governing the issuance of the 7% cum. pref. stock, Secretary Royal C. Scott has sent a circular letter to the pref. shareholders inviting them to submit tenders for the sale of stock to the Bankers Trust Co. not later than noon, Aug. 20.—V. 99, p. 347, 205.

Wolverine Copper Mining Co.—*Report Yr. end. June 30.*

Fiscal Year	Total Year	Net Earnings	New Con- structed.	Dis. on Stock	Balance Surplus
1913-14	\$484,061	\$95,353	\$14,278		\$81,075
1912-13	1,326,591	601,514		\$600,000	1,514

During the year ending June 30 1914 there were produced 3,435,459 lbs. of refined copper, against 8,350,312 in 1912-13; total cost in 1913-14, 11.72c. per lb.; average selling price 14.09c.

Frank McM. Stanton has been elected a director to succeed the late J. Wheeler Hardley.—V. 93, p. 699.

(F. W.) Woolworth Co.—*Earnings.*—

Year	Total	Increase	1914—Seven Mos.—	1913.	Increase
1914—July—1913.	\$4,914,636	4.01%	\$35,727,672	\$33,265,095	7.40%

Wrought Iron Range Co., St. Louis.—*Anti-Trust Suit.*

See St. Louis Steel Range Co. above.

—While dealings have been temporarily suspended in the security markets, many investors desire to inform themselves as to intrinsic values with the idea of selecting satisfactory investments when dealings are resumed. Accordingly, Spencer Trask & Co., of 43 Exchange Place, this city, are making general distribution of special circulars describing conservative bonds, convertible bonds and listed stocks. Write for circulars numbered 616, 617 and 618.

—C. W. Schroeder, formerly of the Harrison Williams organization, 60 Broadway, this city, is now identified with the bond department of the National City Bank of New York. Mr. Schroeder specialized in the financial investigation of public utility properties while he was connected with Harrison Williams.

BUFFALO ROCHESTER & PITTSBURGH RAILWAY COMPANY

TWENTY-NINTH ANNUAL REPORT—FOR YEAR ENDING JUNE 30 1914.

The Directors of the Buffalo Rochester & Pittsburgh Railway Company submit to the Stockholders the following report for the year ending June 30 1914:

ROAD OPERATED.

	1914. Miles.	1913. Miles.	Increase. Miles.
Owned.....	367.06	360.30	6.76
Leased.....	89.90	87.29	2.61
Trackage rights.....	129.52	128.87	.65
Total length of road operated.....	586.48	576.46	10.02
Second track.....	207.32	194.89	12.43
Sidings.....	360.48	333.59	26.89
Total miles of all tracks, all steel rail.....	1,154.28	1,104.94	49.34

The increase of road operated is due to the construction of 6.76 miles of mine lines, 2.61 miles of additional line leased from the Allegheny & Western Railway Company and an adjustment of .65 mile in trackage rights, from re-measurement.

The second track was increased by the construction of 12.09 miles between Rochester, N. Y., and Scottsville, N. Y., .09 mile at Riverside, N. Y., and an adjustment of .25 mile of trackage rights, from re-measurement.

Sidings were increased 26.89 miles.

INCOME.

	1914.	1913.	Inc. (+) or Dec. (-)
Rail Operations:			
Operating revenues.....	\$10,709,534 81	\$10,947,246 06	-\$237,711 25
Operating expenses.....	7,938,062 89	7,665,891 28	+272,171 61
Net operating revenue.....	\$2,771,471 92	\$3,281,354 78	-\$509,882 86
Outside Operations:			
Revenues.....	\$25,213 99	\$25,581 60	-\$367 61
Expenses.....	28,111 02	32,946 34	-\$4,835 32
Deficit.....	\$2,897 03	\$7,364 74	-\$4,467 71
Total net revenue.....	\$2,768,574 89	\$3,273,990 04	-\$505,415 15
Taxes Accrued.....	234,000 00	216,000 00	+18,000 00
Operating Income.....	\$2,534,574 89	\$3,057,990 04	-\$523,415 15
Other Income.....	\$21,223 05	1,018,717 73	-\$197,494 68
Gross corporate income.....	\$3,355,797 94	\$4,076,707 77	-\$720,909 83
Deductions for Interest and Rentals.....	2,001,013 78	1,949,713 70	+51,300 08
Net corporate income.....	\$1,354,784 16	\$2,126,994 07	-\$772,209 91
Appropriations:			
Pension and Fire Insur- ance Funds.....	\$16,432 49	\$1,497 51	+\$14,934 98
Equipment Agreement Sinking Funds.....	348,351 67	448,795 68	-\$100,444 01
Total Appropriations.....	\$364,784 16	\$450,293 19	-\$85,509 03
Surplus available for divi- dends.....	\$990,000 00	\$1,676,700 88	-\$686,700 88

Taxes amounted to \$234,000, an increase of 8.33%, due to additional property purchased, higher assessments on capital stock and the new Federal Income Tax Law.

A special appropriation of \$348,351 67 was made from the Net Corporate Income. Of this amount \$125,000 was paid into the Sinking Funds under Equipment Agreements Series A, B and C, out of which \$2,000 Series B and \$50,000 Series C bonds were retired, leaving \$73,000 to be applied to the purchase of new rolling stock; \$207,000 represents one-half of the principal of Equipment bonds Series D, E and F paid off during the year, the other half being refunded by 4½% Consolidated Mortgage bonds held in the Treasury of the Company; the remainder, \$16,351 67, is a part of the appropriation to the Sinking Fund under Equipment Series G, together with the interest accrued on the various Sinking Fund balances in the hands of the Trustee.

Profit and Loss Account was charged with \$138,433 05, the balance required for the Sinking Fund under Equipment Agreement Series G.

DIVIDENDS.

	1914.	1913.
Dividends in cash were paid on:		
Preferred stock.....	\$6,000,000 6%	\$360,000 6%
Common stock.....	10,500,000 6%	630,000 6%
Total.....	\$16,500,000	\$990,000

Since the close of the fiscal year, your Board of Directors has declared semi-annual dividends of three per cent on the preferred stock and two per cent on the common stock, payable August 15 1914.

CAPITAL STOCK.

There has been no change during the year in this account. The total outstanding Capital Stock of the Company amounts to \$16,500,000, and consists of \$6,000,000 preferred stock and of \$10,500,000 common stock.

FUNDED DEBT.

In accordance with the provisions of the Consolidated Mortgage of 1907, \$1,051,000 4½% bonds were issued and sold, and the proceeds applied to payment of Additions and Betterments. The Trustee also delivered to the Company \$206,000 Consolidated Mortgage 4½% bonds, representing 50% of Equipment Bonds Series D, E and F retired during the year. These bonds, added to those in the Treasury of the Company, made a total of \$1,524,000, of which \$349,000 were sold during the year for corporate purpose, leaving a balance of \$1,175,000 held in reserve.

Under the terms of the Sinking Fund for the redemption of Equipment Bonds, \$619,000 bonds were retired as follows: \$2,000 Series B; \$50,000 Series C; \$117,000 Series D; \$117,000 Series E; \$179,000 Series F, and \$154,000 Series G. The balance of Equipment Bonds Series G authorized in 1910 was issued to the amount of \$887,000.

To provide for additional rolling stock, an issue of \$2,000,000 five per cent Gold Bonds was authorized, to be secured by new equipment costing \$2,200,000. These bonds were issued under an Agreement known as Equipment Agreement, Series "H," dated July 1 1913, and were all sold during the year. The agreement provided that both principal and interest are payable without deduction for any tax. The bonds mature in annual installments of \$125,000, commencing Jan. 1 1915 and ending Jan. 1 1930.

The net result is an increase of \$3,668,000 in the bonded debt of the Company outstanding on June 30 1914.

CONSTRUCTION.

Capital account has been charged during the year with \$1,892,696 28 for additions and betterments, as follows:

Land.....	\$51,323 48
New station, Lackawanna, N. Y.....	5,807 53
Station improvements.....	12,357 47
Genesee dock improvements.....	16,433 74
Second track, Rochester, N. Y., to Scottsville, N. Y.....	190,393 37
Second track, Riverside Junction, N. Y.....	5,127 01
Improving bridges and culverts.....	173,440 63
Increased weight of rail, frogs and fastenings.....	54,927 22
Stone ballast.....	29,371 16
Tearing Run mine line.....	351,785 90
Guthrie mine line.....	43,898 12
Sidings and yard extensions.....	138,494 65
Interlocking apparatus, C. & M. Junction, Pa.....	11,589 29
Automatic block signals.....	150,973 78
Telephone train despatching lines.....	16,528 95
Roadway machinery.....	4,849 53
Roundhouse, Du Bois, Pa.....	139,180 67
Additions to shops, Du Bois, Pa.....	84,769 79
Shop machinery.....	53,451 79
Water and fuel stations.....	8,829 53
Storage warehouse, Rochester, N. Y.....	46,638 30
New terminal, Lincoln Park, N. Y.....	256,937 64
Subway, Saxton St., Rochester, N. Y.....	15,789 02
Other items.....	29,792 71
Total.....	\$1,892,696 28

The following work, referred to in last year's report, is completed:

Telephone train despatching line between East Salamanca, N. Y., and Punxsutawney, Pa., a distance of 119 miles.

Automatic block signals for 76 miles, from Gainesville, N. Y., to East Salamanca, N. Y., and Falls Creek, Pa., to Punxsutawney, Pa.

Second track, Rochester, N. Y., to Scottsville, N. Y., a distance of 12.09 miles, turned over to the Operating Department on December 8 1913.

The Tearing Run and Guthrie mine lines.

New Yard near Rochester, N. Y.

New roundhouse and extension of boiler and tank shops at Du Bois, Pa.

A new station was constructed at Lackawanna, N. Y.

Among the important work now in progress may be mentioned:

Storage warehouse at Rochester, N. Y.

Subway, Saxton St., Rochester, N. Y.

Extension of power house, &c., at Du Bois, Pa.

Automatic block signals for 45 miles, from Buffalo Creek, N. Y., to Ashford, N. Y.

Replacing various timber bridges, trestles and culverts in permanent form.

In keeping with the policy of your Company to promote efficiency and economy in operation, other improvements were made, including the construction of 26.89 miles of additional sidings and yard tracks.

EQUIPMENT.

Expenditures were made for new rolling stock as follows:

Three passenger locomotives.....	\$69,550 12
Twelve freight locomotives.....	277,799 32
Twenty-seven steel passenger train cars.....	377,885 41
One thousand steel coal cars.....	789,609 40
Six caboose cars built at Company's shop.....	5,843 84
Three locomotive crane hoists.....	21,930 07
One scale-test car.....	4,163 36
Two derrick cars.....	3,866 72
Steel underframes applied on four hundred and eleven freight train cars.....	26,321 36
Steel side stakes applied on two hundred and thirty-six freight train cars.....	3,954 34
Sundry other betterments, including re-classification or transfer of nineteen freight train cars and twenty-five work equipment cars.....	47,963 33
	\$1,628,887 27

In addition to the above, fifteen freight locomotives, two passenger locomotives and one thousand steel underframe freight cars for commercial traffic were purchased, but, owing to late delivery, will be accounted for in next year's report.

There was credited for equipment sold, transferred or destroyed, the following values, Charged in part to Operating Expenses, and the balance, representing the depreciation since June 30 1907, charged to Reserve for Accrued Depreciation.

One locomotive.....	\$3,459 45
Seven passenger train cars.....	13,056 08
Six hundred and sixty-one freight train cars.....	290,776 20
Twenty-eight work equipment cars.....	11,222 27
	318,514 00

Making a net increase of.....\$1,310,373 27

The total tractive power of engines aggregates 10,643,255 pounds, an increase of 710,362 pounds over last year. The average tractive power of each engine increased 765 pounds, being 34,782 pounds, as against 34,017 pounds last year.

The total carrying capacity of cars in freight service now amounts to 737,498 tons, an increase of 28,685 tons over last year. The average carrying capacity or efficiency of each freight car increased 1.03 tons, being 42.29 tons as against 41.26 tons last year.

The reserve for accrued depreciation of equipment on June 30 1914 is as follows:

On equipment owned.....	\$1,912,961 95
On leased equipment.....	190,949 67
Total.....	\$2,103,911 62

PASSENGER REVENUES.

The gross passenger revenue, the largest in the history of the Company, amounted to \$1,184,416 99, a gain of 5.04% per cent, or \$56,804 87.

The average rate received per passenger per mile increased .063 cent, being 2.129 cents, as compared with 2.066 cents a year ago.

The average distance each passenger was carried increased .03 mile, being 27.01 miles, against 26.98 miles last year.

Passengers carried in 1914.....	2,059,683
Passengers carried in 1913.....	2,023,020

An increase of 1.81 per cent, or.....	36,663
Passengers carried one mile in 1914.....	55,632,097
Passengers carried one mile in 1913.....	54,573,203

An increase of 1.94 per cent, or.....1,058,894

FREIGHT REVENUES.

The average rate received per ton per mile increased .01 mill, being 4.62 mills, as compared with 4.61 mills last year.

The average distance each ton was hauled decreased 2.31 miles, being 161.04 miles, against 163.35 miles a year ago.

Pending an adjustment of the miners' wage scale, most of the collieries shipping over your line were idle for about six weeks from April 1st. In spite of this loss, the revenue coal tonnage moved was the largest in the history of the Company. All of the other general commodities show decreases, due to the depression of business, especially in the iron and steel trade.

The revenue tonnage moved was as follows:

	1914.	1913.	Increase.	Decrease.
Bituminous coal.....	8,176,430	7,980,204	196,226	
Coke.....	393,358	593,447		200,089
Iron ore.....	699,702	781,201		81,499
Pig and bloom iron.....	265,521	310,374		44,853
Other freight.....	2,760,038	2,825,382		65,344
Total.....	12,295,049	12,480,608		

A decrease of 1.57 per cent, or.....195,559

Tons moved one mile in 1914.....	1,980,012,951
Tons moved one mile in 1913.....	2,040,358,520

A decrease of 2.96 per cent, or.....60,345,569

The result for the year is a loss of 2.74 per cent, or \$257,-936 90 in gross freight revenue.

EXPENSES.

Operating Expenses increased \$272,171 61, or 3.55 per cent, due principally to advances made in wages, the employment of extra trainmen in New York under the requirements of the so-called "full crew bill," and the extraordinary expenses attending the large program of new work in progress during the year.

The operating ratio increased 4.09 per cent, being 74.12 per cent, against 70.03 per cent last year.

The percentage of each group of operating expenses to gross earnings for the past five years is as follows:

	1914.	1913.	1912.	1911.	1910.
Maintenance of way.....	13.52	14.23	12.52	12.57	13.65
Maintenance of equipment.....	20.69	19.74	18.94	19.35	20.78
Traffic.....	1.41	1.30	1.26	1.44	1.35
Transportation.....	36.23	32.71	32.88	32.11	28.55
General.....	2.27	2.05	2.14	1.81	1.74
Total.....	74.12	70.03	67.74	67.28	66.07

The average cost per ton per mile is 3.23 mills, being .23 mill more than last year.

The average number of revenue tons carried one mile per revenue freight train mile, excluding the mileage of helping engines, decreased 16.44 tons, being 693.60 tons, against 710.04 tons a year ago.

The average number of revenue tons carried one mile per revenue freight engine mile, including the mileage of helping engines, decreased 8 tons, being 454, against 462 a year ago.

The averages for the past ten years are as follows:

Year.	Train Load.	Engine Load.	Year.	Train Load.	Engine Load
1905.....	507	374	1910.....	638	420
1906.....	525	418	1911.....	635	430
1907.....	543	435	1912.....	647	439
1908.....	530	371	1913.....	710	462
1909.....	597	400	1914.....	694	454

The average number of revenue passengers carried one mile per revenue passenger train mile is 40, being 1 more than last year.

The non-revenue traffic, not included in any of the other figures of this report, is as follows:

	1914.	1913.
Number of passengers.....	323,720	331,305
Number of passengers carried one mile.....	13,098,629	12,820,161
Number of tons.....	1,106,032	1,117,413
Number of tons carried one mile.....	108,941,868	99,797,191

LEASED LINES.

Advances were made to leased lines for additions and betterment expenditures as follows:

<i>Allegheny & Western Railway.</i>	
Land.....	\$3,957 49
Track fastenings and other material.....	6,480 44
Sidings and spur tracks.....	15,887 13
Branch, Craigs ville, Pa.....	93,195 74
Block and other signal apparatus.....	5,018 26
Telephone and telegraph lines.....	9,339 55
New station, West Mosgrove, Pa.....	1,696 04
Terminal, New Castle, Pa.....	2,925 92
Other items.....	115 97
Total.....	\$138,616 54

<i>Clearfield & Mahoning Railway.</i>	
Land.....	\$2,356 48
Track fastenings and other material.....	2,213 37
Sidings and spur tracks.....	44,443 50
Other items.....	1,020 45
Total.....	\$50,033 80

All of the above work is completed, including the branch at Craigs ville, Pa., 2.61 miles in length, which was turned over to the Operating Department on November 19 1913.

FIRE INSURANCE FUND.

The assets of this fund were increased \$22,963 32 during the year, and now amount to \$282,507 47 in interest-bearing securities and cash.

PENSION FUND.

The assets of this fund, created July 1 1903, were increased \$6,623 14 during the year, and now amount to \$197,575 92 in interest-bearing securities and cash.

There were fifty-seven pensioners upon the roll on June 30 1914, a net decrease of one during the year.

GENERAL REMARKS.

The Ontario Car Ferry Company, Limited, paid a dividend of 5% for the year ending December 31 1913. The sum of \$12,485 received on the \$249,700 of this Company's stock was credited to Other Income account.

To accommodate the increasing traffic, the Ferry Company has contracted for another boat, with the Polson Iron Works, Limited, of Toronto, Canada, to be delivered the ensuing year.

The acknowledgments of the Board are renewed to the officers and employees for their faithful and efficient services. Statements and statistics of the operation of your road for the year are submitted herewith.

By order of the Board,

WILLIAM T. NOONAN, President.

Rochester, N. Y., July 31st 1914.

The Commercial Times.

COMMERCIAL EPITOME.

Friday Night, August 7th 1914.

Foreign trade has suffered severely by the sudden outbreak of an unparalleled war in Europe, with the dislocation of foreign exchange, the immense advance in war risks and a lack of ocean shipping facilities. The exchanges have had to be closed as a precautionary measure. When they will open is purely conjectural. But domestic trade under the trying circumstances is holding up better than might have been expected and as regards foreign trade it is hoped that a way will soon be found for its resumption on at least a moderate scale. Grain has advanced. Copper has declined.

STOCKS OF MERCHANDISE AT NEW YORK.

	Aug. 1 '14.	July 1 '14.	Aug. 1 '13.
Coffee, Brazil	bags 1,264,859	1,300,752	228,845
Coffee, Java	mats 28,741	30,851	31,520
Coffee, others	bags 264,155	243,002	1,268,531
Sugar	hhds. 53,248	51,257	71,990
Hides	No. 18,760	25,928	4,130
Cotton	bales 96,103	109,724	36,267
Manila hemp	bales 2,930	3,687	13,979
Sisal hemp	bales 140	1,480	241
Flour	barrels and sacks 23,100	39,000	38,500

LARD has been quiet. The European war has been a very disturbing feature. At Chicago cash lard has been 9.22@9.27½c. Here much of the time all cash quotations have been withdrawn. Last Monday lard futures dropped 1 cent, pork \$1 20 a barrel and short ribs ½c., all at Chicago. Nominal quotations here to-day were 10c. for prime Western, with the refined 10.35c. for the Continent, 10.90c. for South America and 11.90c. for Brazil.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
September delivery cts.	9.80	8.87	8.77	9.05	9.32	9.60
October delivery	9.92	8.87	8.95	9.20	9.50	9.77
January delivery	9.82	8.97	9.10	9.35	9.65	9.92

PORK quiet and unchanged; mess \$24@24.50; clear \$20 50@22; family \$24@25. Beef steady; mess \$18@19; packet \$19@20; family \$20@22; extra India mess \$28@30. Cut meats quiet and unchanged; pickled hams, 10 to 20 lbs., 14¼@15½c.; pickled bellies, 6 to 12 lbs., 14½@16¼c. Butter, creamery extras, 28½@29c. Cheese, State, whole milk, colored specials, 15¼@15½c.

COFFEE has been very irregular. Last week saw a decline of 1½ cents in coffee futures. But during the present week the Coffee Exchange has been closed owing to the war. Curb trading has been at a big advance. Spot quotations have been erratic and fluctuations have been wide, but generally towards decidedly higher prices. Last Saturday No. 7 Rio was quoted as low as 7½c., but latterly it has steadily risen to 9½ cents on large buying for the country, in the fear that importations might be held up by the great European war. Fair to good Cucuta has been quoted at 14 to 14¾c., No. 4 Santos at 14¼ and No. 7 Rio now at 9¼c. There have been no official quotations of coffee options but trading on the curb has been reported. September is said to have sold at 8.65c.; December also at 8.65c., and March and May at 8.60c. Later prices reacted 40 points on the curb. To-day a Rio cable said that railroads in the interior of Brazil have stopped receiving coffee.

SUGAR advanced sharply; centrifugal, 96-degrees test, 4.26c.; molasses, 89-degrees test, 3.61c. Stocks in the United States and Cuba are 816,604 tons, against 835,516 last week and 680,375 tons last year. Refined has been active and higher, with granulated quoted at 5.25c. The United Kingdom has been bidding for big supplies here.

OILS higher; linseed, city, raw, American seed, 60c.; boiled, 61c.; Calcutta, 70c. Coconut has advanced, 12½@14c., Ceylon 11@12c. Olive steady at 85c. Castor firm at 8¼@8½c. Palm higher at 9@9½c. for Lagos. Cod, domestic lower at 35c. Corn lower at 6.25@6.30c. Spirits of turpentine 46@47c. Common to good strained rosin \$3 95.

PETROLEUM steady; refined in barrels 8.25@9.25c., bulk 4.75@5.75c., cases 10.75@11.75c. Naphtha, 73 to 76 degrees, in 100-gallon drums, 23½c.; drums \$8 50 extra. Gasoline, 86 degrees, 26c.; 74 to 76 degrees, 25c.; 67 to 70 degrees 22c. Crude prices have been somewhat easier.

TOBACCO here is quiet but firm. But the new crop of Connecticut leaf, of both Havana leaf and broad leaf is being bought up at high record quotations, owing to the scarcity of wrapper. Packers and manufacturers are buying with avidity. As to Sumatra the question of futures supplies seems somewhat problematical. Still there is no great uneasiness as yet. The fall inscriptions do not occur for some time. Cuban leaf is steady but rather quiet.

COPPER has declined, owing to the European war; Lake 12½c., electrolytic 12¾c.; trade light. The Metal Exchange has been closed indefinitely. Tin has been excited and higher. It is feared that imports will be sharply reduced. Spot here 61@62c., showing a remarkable rise within a week; in London trade suspended or very unsettled. Lead here on the spot 3.85c.; spelter 4.95c. Pig iron dull. The European war has a more or less paralyzing effect on the iron and steel business. Ferro-manganese has been in active demand, however, and strong, fearing cutting off of supplies by the European war. Cargoes afloat, it is stated, have been sold at big premiums over recent sales at \$38, ex-ship, Baltimore. No. 2 Eastern iron \$13 50; No. 2 Southern, Birmingham, \$10@10 25. The United States Steel Corporation withdrew prices on all its products last Tuesday. Its subsidiaries are quoting on new business as it comes up; new prices are in some cases \$1 a ton higher.

COTTON.

Friday Night, Aug. 7 1914.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 5,891 bales, against 16,354 bales last week and 13,096 bales the previous week, making the total receipts since Sept. 1 1913 10,249,621 bales, against 9,532,301 bales for the same period of 1912-13, showing an increase since Sept. 1 1913 of 717,320 bales.

Note.—New York exports since Sept. 1 include 14,894 bales Peruvian, 75 bales Brazilian, 27 bales West Indian to Liverpool; 26 bales West Indian to Havre and 492 bales West Indian to Bremen and Hamburg.

In addition to above exports, our telegrams to-night also give us the following amounts of cotton on shipboard, not cleared, at the ports named. We add similar figures for New York.

Aug. 7 at—	On Shipboard, Not Cleared for—					Leaving Stock.

Speculation in cotton for future delivery has been suspended all the week, owing to the great European war. There has been a large attendance at the Exchange, however, in settling up old transactions. It is estimated that something like 300,000 bales have been settled, partly by the members privately and partly through the aid of a voluntary committee which has been in session daily for the purpose of closing out open transactions as far as possible. All the cotton exchanges of this country and Europe have been closed. Just when the Cotton Exchange here will reopen is purely conjectural. It is feared that if it were re-opened now, there would be a great flood of hedge sales by the South, which might easily have a decidedly depressing effect on cotton prices. Also, Liverpool might sell here on a large scale, especially if its own Exchange remained closed. Liverpool members of the trade are also closing up old transactions at fixed differences determined by that Exchange. It is felt here that the immediate future of the cotton trade in this country depends very largely on impending naval battles in the North Sea and elsewhere. It is assumed here that if England wins supremacy of the sea, exports of cotton will soon be resumed from American markets and that a speedy re-opening of the American cotton exchanges will follow. It is assumed, too, that if the war lasts for any length of time there will be a very large increase in the American consumption of cotton, growing out of an expansion of our export trade in cotton goods. It is expected that in such circumstances America would take over much of the trade of Germany, France and other European countries with South America and the West Indies, as well as China and Japan. Already reports come from some parts of New England of a better foreign demand for American cotton goods. It is hoped, too, that the rehabilitation of the American merchant marine, which is the object of pending legislation at Washington, will take place in time to greatly promote the American sales of both raw and manufactured cotton to foreign marts. It is intimated in some Washington advices that the Federal Reserve Board may assist the farmer in some way in the marketing of his crops. As regards the American consumption of cotton, it was stated in 1912-13 at 5,700,296 bales, and it is assumed that this season it will be approximately 6,000,000 bales. But if the European war lasts some time, there are those who think the total may easily reach anywhere from 7,000,000 to 8,000,000 bales, if not more, especially as the great Continental industries will be prostrated by the war. Naturally, in the absence of trade, prices here have been purely nominal. It may be noted that the drought in Texas has been broken by very heavy rains during the last few days. At some points they reached from 2 to over 7 inches. The general idea of the crop situation is that the plant is doing very well in the central and eastern sections of the belt, but that it is more or less spotted west of the Mississippi, particularly in Texas. The rains which have just fallen in Texas, however, are believed to have been beneficial for late-planted cotton. But in some sections of that State the rains have been veritable cloudbursts, and naturally a continuation of such conditions is not desired. A wet August is regarded by many as of unfavorable augury. Everybody in the cotton trade is now watching the issue of the naval and land conflicts abroad and of financial developments in this country. It is felt by many that either through the aid of emergency currency or by some other means a way will soon be found to resume exports of cotton, at least on a moderate scale. But viewing it in the most favorable light, it is certainly a trying time for the cotton trade of the world.

The rates on and off middling, as established Nov. 19 1913* by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows:

Fair	c. 1.75 on	Middling	c. Basis	Good mid. tinged	c. 2.00 off
Strict mid. fair	1.50 on	Strict low middling	0.50 off	Strict mid. tinged	0.20 off
Middling fair	1.30 on	Low middling	1.25 off	Middling tinged	0.40 off
Strict good mid.	0.90 on	Strict good ord.	2.00 off	Strict low mid. ting.	1.25 off
Good middling	0.65 on	Good ordinary	3.00 off	Low mid. tinged	3.00 off
Strict middling	0.32 on	Strict g'd mid. ting.	0.45 on	Middling stained	1.25 off

*Reaffirmed Feb. 4 1914.

NEW YORK QUOTATIONS FOR 32 YEARS.

The quotations for middling upland at New York on Aug. 7 for each of the past 32 years have been as follows:

1914	c. 12.50	1903	c. 10.70	1898	c. 6.05	1890	c. 12.25
1913	12.00	1905	10.85	1897	8.00	1889	11.31

1907	13.20	1899	6.12	1891	8.12	1883	10.25

*Quotation of July 30. Exchange closed since that date.

FUTURES.—There have been no transactions in cotton for future delivery on the New York Cotton Exchange this week.

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Foreign stocks, as well as the afloat, are this week's returns, and consequently all foreign figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Friday), we add the item of exports from the United States, including in it the exports of Friday only.

* Last week's figures; this week's not obtainable.

a July 30 quotation.

Continental imports for past week have been 64,000 bales.

The above figures for 1914 show an increase from last week of 98,410 bales, a gain of 715,459 bales over 1913, an excess of 774,300 bales over 1912 and a gain of 1,421,034 bales over 1911.

AT THE INTERIOR TOWNS the movement—that is, the receipts for the week and since Sept. 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of the previous year—is set out in detail below.

Towns	Movement to August 7 1914.			Movement to August 8 1913.

Total, 33 towns	6,210	7,206,295	11,103	115,246	12,728	7,166,672	25,174	131,012

The above totals show that the interior stocks have decreased during the week 4,893 bales and are to-night 15,766 bales less than at the same time last year. The receipts at all towns have been 6,518 bales less than the same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports Friday night. The results for the week and since Sept. 1 in the last two years are as follows:

	—1913-14—		—1912-13—	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
<i>Aug. 7.—</i>				
<i>Shipped—</i>				
Via St. Louis.....	1,550	566,811	4,347	565,191
Via Cairo.....	585	405,937	6200	6293,284
Via Rock Island.....		6,748		21,790
Via Louisville.....	574	122,593	558	92,992
Via Cincinnati.....	213	117,611	669	132,502
Via Virginia points.....	123	158,391	793	144,633
Via other routes, &c.....	15	346,259	57	385,146
Total gross overland.....	3,060	1,724,349	6,629	1,640,538
<i>Deduct shipments—</i>				
Overland to N. Y., Boston, &c..	112	126,237	800	145,519
Between interior towns.....	382	182,467	589	125,764
Inland, &c., from South.....	2,547	167,606	2,374	109,839
Total to be deducted.....	3,041	476,310	3,763	381,122
Leaving total net overland *.....	19	1,248,039	2,866	1,259,416

* Including movement by rail to Canada. b Revised.

The foregoing shows the week's net overland movement this year has been 19 bales, against 2,866 bales for the week last year, and that for the season to date the aggregate net overland exhibits a decrease from a year ago of 11,377 bales.

	—1913-14—		—1912-13—	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.—The markets being practically all closed, no quotations are obtainable.

NEW ORLEANS CONTRACT MARKET.—There have been no dealings at New Orleans the past week.

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic advices from the South this evening are on the whole of a satisfactory tenor. Copious rains over much the greater part of Texas have been of great benefit to cotton and elsewhere in the belt moisture has been quite general.

Galveston, Tex.—Good heavy rains occurring the last few days have been of vast benefit to cotton. Shedding and other deterioration have been checked. The weevil situation remains unchanged. We have had rain on three days of the past week, the rainfall being two inches and twenty-four hundredths. The thermometer has averaged 80, ranging from 72 to 88.

Abilene, Tex.—We have had rain on three days during the week, the rainfall being one inch and sixty hundredths. Minimum thermometer 68.

Brenham, Tex.—It has rained on four days of the week, the rainfall being two inches and eighty-four hundredths. Average thermometer 84, highest 98, lowest 70.

Cuero, Tex.—We have had rain on three days of the past week, the rainfall reaching seven inches and fifty hundredths. The thermometer has averaged 85, the highest being 102 and the lowest 68.

Dallas, Tex.—Rain has fallen on five days during the week, the rainfall reaching forty-six hundredths of an inch. The thermometer has averaged 86, ranging from 70 to 102.

Henrietta, Tex.—There has been rain on one day during the week, the precipitation being twelve hundredths of an inch. Thermometer has ranged from 68 to 110, averaging 89.

Huntsville, Tex.—We have had rain on one day during the past week, to the extent of one inch and forty-eight hundredths. Average thermometer 80, highest 96, lowest 64.

Kerrville, Tex.—There has been rain on two days during the past week, the precipitation reaching one inch and ninety-four hundredths. The thermometer has averaged 82, the highest being 98 and the lowest 66.

Lampasas, Tex.—We have had rain on three days of the past week, the rainfall being one inch and seventy-eight hundredths. The thermometer has averaged 85, ranging from 70 to 100.

Longview, Tex.—We have had rain on three days during the week, the precipitation reaching two inches and ten hundredths. Thermometer has ranged from 70 to 94, averaging 82.

Luling, Tex.—Rain has fallen on three days of the week, to the extent of two inches and eighty-four hundredths. Average thermometer 86, highest 102, lowest 70.

Nacogdoches, Tex.—There has been rain on one day during the past week, the precipitation reaching fourteen hundredths of an inch. The thermometer has averaged 82, the highest being 96 and the lowest 68.

Palestine, Tex.—We have had no rain during the week. Thermometer has averaged 82, ranging from 70 to 94.

Paris, Tex.—We have had no rain the past week. The thermometer has ranged from 68 to 102, averaging 85.

San Antonio, Tex.—Rain has fallen on four days of the week, to the extent of four inches and fifty-five hundredths. Average thermometer 84, highest 100, lowest 68.

Taylor, Tex.—There has been rain on three days during the week, the precipitation being two inches and eighty hundredths. Minimum thermometer 68.

Weatherford, Tex.—There has been rain on two days of the past week, the rainfall reaching twenty hundredths of an inch. The thermometer has averaged 87, ranging from 70 to 104.

Ardmore, Okla.—We have had rain on two days of the past week, to the extent of eleven hundredths of an inch. The thermometer has ranged from 67 to 111, averaging 89.

Holdenville, Okla.—It has rained on one day of the week, the rainfall being four hundredths of an inch. Average thermometer 87, highest 103, lowest 72.

Marlow, Okla.—There has been no rain during the past week. The thermometer has averaged 90, the highest being 111 and the lowest 70.

Eldorado, Ark.—There has been rain on two days of the past week, the rainfall being thirty-six hundredths of an inch. The thermometer has averaged 82, ranging from 66 to 98.

Fort Smith, Ark.—It has rained on two days of the week, the precipitation being fifty-eight hundredths of an inch. The thermometer has ranged from 68 to 98, averaging 83.

Little Rock, Ark.—Rain has fallen on three days of the week, to the extent of ninety-three hundredths of an inch. Average thermometer 80, highest 92, lowest 69.

Alexandria, La.—We have had rain on two days of the past week, the rainfall reaching sixty-five hundredths of an inch. The thermometer has averaged 80, the highest being 96 and the lowest 65.

New Orleans, La.—There has been rain on four days of the past week, the rainfall reaching one inch and twenty-seven hundredths. The thermometer has averaged 84, ranging from 74 to 94.

Shreveport, La.—There has been rain on one day of the past week, the rainfall being twenty-eight hundredths of an inch. The thermometer has ranged from 72 to 96, averaging 84.

Columbus, Miss.—Rain has fallen on two days of the week, the precipitation reaching two inches and eight hundredths. Lowest thermometer 80, highest 95, average 65.

Greenwood, Miss.—We have had rain on three days during the week, the rainfall being two inches and seventy-five hundredths. The thermometer has averaged 80, the highest being 96 and the lowest 65.

Vicksburg, Miss.—Rain has fallen on two days during the week, the rainfall reaching one inch and twenty-six hundredths. The thermometer has averaged 80, ranging from 72 to 92.

Livingston, Ala.—Rain has fallen on one day of the week, the precipitation being eighty-two hundredths of an inch. The thermometer has ranged from 69 to 96, averaging 83.

Mobile, Ala.—Cotton is opening rapidly. Light rains help the young plant. We have had rain on two days during the past week, the rainfall being one inch and nine hundredths. Average thermometer 81, highest 91, lowest 71.

Montgomery, Ala.—It has rained during the week on three days, the rainfall having reached one inch and forty-nine hundredths. The thermometer has averaged 80, the highest being 91 and the lowest 68.

Selma, Ala.—Rain has fallen on two days during the week, the rainfall reaching two inches and thirty hundredths. The thermometer has averaged 78, ranging from 69 to 92.

Madison, Fla.—Rain has fallen on four days of the week, to the extent of three inches and forty hundredths. The thermometer has ranged from 71 to 93, averaging 80.

Tallahassee, Fla.—We have had rain on four days during the past week, to the extent of one inch and thirty-three hundredths. Average thermometer 82, highest 96, lowest 68.

Albany, Ga.—The week's rainfall has been eighty-four hundredths of an inch, on three days. The thermometer has averaged 82, the highest being 95 and lowest 70.

Augusta, Ga.—There has been rain on six days of the past week, to the extent of two inches and sixty-nine hundredths. The thermometer has averaged 76, ranging from 64 to 88.

Savannah, Ga.—It has rained on six days of the week, the precipitation reaching seventy-eight hundredths of an inch. The thermometer has ranged from 70 to 90, averaging 80.

Charleston, S. C.—It has rained on five days during the week, the rainfall being two inches and sixty-nine hundredths. Average thermometer 80, highest 88, lowest 71.

Greenville, S. C.—We have had rain on four days during the week, the rainfall reaching seventy-six hundredths of an inch. The thermometer has averaged 74, the highest being 86 and the lowest 61.

Spartanburg, S. C.—Rainfall for the week two inches and fifty-nine hundredths, on four days. The thermometer has averaged 76, ranging from 60 to 91.

Charlotte, N. C.—We have had rain on three days the past week, the rainfall being thirty hundredths of an inch. The thermometer has ranged from 65 to 90, averaging 77.

Goldsboro, N. C.—It has rained on four days of the week, the rainfall being one inch and fifteen hundredths. Average thermometer 74, highest 93 and lowest 54.

Weldon, N. C.—We have had rain on two days during the week, the rainfall reaching one inch and four hundredths.

The thermometer has averaged 74, the highest being 93 and the lowest 54.

Dyersburg, Tenn.—There has been rain on one day during the week, to the extent of eighteen hundredths of an inch. The thermometer has averaged 79, ranging from 60 to 93.

Milan, Tenn.—Dry all the week. The thermometer has ranged from 63 to 99, averaging 81.

Memphis, Tenn.—We have had rain on one day during the past week, the rainfall being one inch and fifteen hundredths. Average thermometer 80, highest 93, lowest 69.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 a. m. of the dates given:

	Aug. 7 1914.	Aug. 8 1913.
	Feet.	Feet.
New Orleans.....Above zero of gauge.	4.4	5.6
Memphis.....Above zero of gauge.	8.2	10.0
Nashville.....Above zero of gauge.	7.5	7.3
Shreveport.....Below zero of gauge.	3.0	1.9
Vicksburg.....Above zero of gauge.	9.7	11.7

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week ending.	Receipts at Ports.			Stock at Interior Towns.			Receipts from Plantations		
	1914.	1913.	1912.	1914.	1913.	1912.	1914.	1913.	1912.
June 19	47,984	30,264	19,441	220,845	251,025	164,619	29,529	10,490	6,717
" 26	30,500	27,262	18,456	202,124	227,688	155,385	11,779	3,925	7,231
July 3	32,609	21,534	16,948	174,652	209,428	144,215	5,137	3,274	5,776
" 10	24,319	21,448	13,080	158,507	192,537	136,640	8,174	4,557	5,505
" 17	20,222	20,061	11,670	144,499	173,609	120,206	6,214	1,133	---
" 24	13,096	18,042	12,478	129,729	158,015	110,503	---	2,448	2,775
" 31	16,354	14,527	8,277	120,139	143,458	98,904	6,764	---	---
Aug 7	5,891	16,639	9,579	115,246	131,012	94,832	998	4,193	5,507

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1 1913 are 10,250,353 bales; in 1912-13 were 9,566,277 bales; in 1911-12 were 11,475,732. That although the receipts at the outports the past week were 5,891 bales, the actual movement from plantations was 998 bales, the balance being taken from stocks at interior towns. Last year receipts from the plantations for the week were 4,193 bales and for 1912 they were 5,507 bales.

WORLD'S SUPPLY AND TAKINGS OF COTTON.—The following brief but comprehensive statement indicates at a glance the world's supply of cotton for the week and since Sept. 1 for the last two seasons, from all sources from which statistics are obtainable; also the takings, or amounts gone out of sight, for the like period.

Cotton Takings. Week and Season.	1913-14.		1912-13.	
	Week.	Season.	Week.	Season.
Visible supply July 31.....	3,176,816	2,055,351	2,581,551	2,135,485
Visible supply Sept. 1.....	55,017	14,409,392	66,059	13,620,693
American in sight to Aug. 7.....	610,000	3,726,000	10,000	2,691,000
Bombay receipts to Aug. 6.....	64,000	851,000	19,000	519,300

Deduct.....	---	---	---	---
Visible supply Aug. 7.....	3,078,406	3,078,406	2,362,947	2,362,947
Total takings to Aug. 7 a.....	232,527	19,335,137	317,763	17,930,831
Of which American.....	94,427	13,811,337	234,663	13,821,231
Of which other.....	138,100	5,523,800	83,100	4,109,600

* Embraces receipts in Europe from Brazil, Smyrna, West Indies, &c.
a This total embraces the total estimated consumption by Southern mills, 2,911,000 bales in 1913-14 and 2,795,000 bales in 1912-13—takings not being available—and the aggregate amounts taken by Northern and foreign spinners, 16,424,137 bales in 1913-14 and 15,135,831 bales in 1912-13, of which 10,900,337 bales and 11,026,231 bales American.
b Estimated

LIVERPOOL COTTON EXCHANGE.—Settlement of August Contracts.—The Board of Directors of the Liverpool Cotton Exchange passed on Tuesday the following resolution:

Under present exceptional circumstances, the Board are of opinion that all August contracts outstanding should be settled on the basis of 25 points over January-February. For the general safety of the market they have, therefore, decided to ask all members to do this in general interest. There will be no trading in August deliveries during the month and no tenders will be allowed. Differences between January-February and other months will be adjusted by a special committee. All cotton sold on call on August alone, the price of which is not fixed, will become a sale on call on January February at 25 points increased basis.

The following further resolutions were adopted by the board of directors Aug. 4:

That all existing contracts for August-September must be transferred on the basis of 15 points over January-February, and that no future trading in this position or tenders be permitted until further notice. That all members having open contracts for themselves or clients in deliveries from Sept.-Oct. to Dec.-Jan., inclusive, shall transfer them into Jan.-Feb. at the following differences: Sept.-Oct., 6 points over Jan.-Feb.; Oct.-Nov., 4 points over Jan.-Feb.; Nov.-Dec., 1 point under Jan.-Feb.; Dec.-Jan., 1 point under Jan.-Feb. These transfers shall be made without any brokerage charge.

MISSISSIPPI'S FIRST NEW BALE.—The first bale of the new crop was received at Memphis on Aug. 3 from the Mississippi Delta Planting Co., Scott, Bolivar County, Miss., consigned to the Wilkinson & Carroll Cotton Co. It was donated to the Bachelor's Baby Club and will be sold at a later date for the benefit of the fund for sick children. The bale was 10 days earlier than last year and 15 days earlier than the average date. It graded good middling of 1 1-16-inch staple.

COTTON CONSUMPTION AND OVERLAND MOVEMENT TO AUG. 1.—Below we present a synopsis of the crop movement for the month of July and the eleven months ended July 31 for three years:

	1913-14.	1912-13.	1911-12.
Gross overland for July.....bales.	25,944	31,697	24,495
Gross overland for 11 months.....	1,721,289	1,632,939	1,850,088
Net overland for July.....	*3,279	22,115	11,247

Average net weight of bales.....	488.95	490.94	488.60

* Deductions greater than overland.

—Mr. Walter T. Miller, a leading member of the New York Cotton Exchange and for many years its Treasurer, died on Tuesday, Aug. 4, in his 86th year. Mr. Miller had been an invalid for several years.

COTTON CROP CIRCULAR.—Our Annual Cotton Crop Review will be ready in circular form about Thursday, Sept. 10. Parties desiring the circular in quantities, with their business card printed thereon, should send in their orders as soon as possible, to secure early delivery.

EGYPTIAN COTTON CROP.—Reports to Messrs. L. H. A. Schwartz & Co. of Boston, under date of Alexandria, July 4 1914, are as follows:

Zagazig.—Temperature continues very favorable and there is plenty of water. There is very little complaint of worms. On the other hand, eggs are again noticed, principally in the recently-irrigated fields. **Mansourah.**—Temperature for the week has been satisfactory, with the exception of June 28, which was cool, and cotton plants develop normally. Eggs have appeared all over in good numbers, but are being promptly gathered. Flowering has commenced in the early fields, and water is plentiful. **Kafr-El-Zayat.**—Temperature, although too cool at the beginning of last week, is satisfactory now and young plants have made normal progress all over. Eggs have increased in number since our last report, but cultivators work energetically to suppress them. Water is sufficient. **Magaga.**—Upper Egypt, Province of Minieh.—There have been lower temperatures the last week and fairly strong winds, and a certain degree of humidity which, however, has not interfered with the regular progress of the crop. In the normal fields flowering continues and bolls develop in a satisfactory manner. Somewhat higher temperatures might be desired for the late fields. Water continues to be plentiful.

INDIA COTTON MOVEMENT FROM ALL PORTS.

Note.—A cantar is 99 lbs. Egyptian bales weigh about 750 lbs.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market is quiet for both yarns and shirtings with prices nominal.

SHIPPING NEWS.—As shown on a previous page, the exports of cotton from the United States the past week have reached 2,660 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows:

	Total bales.
NEW YORK—To Barcelona—Aug. 6—Buenos Aires, 430	430
NEW ORLEANS—To Liverpool—Aug. 3—Antillian, 680	680
To Hamburg—Aug. 7—Georgia, 50	50
BALTIMORE—To Bremen—July 28—Friedrich der Grosse, 1,500	1,500

Total 2,660

The particulars of the foregoing shipments for the week, arranged in our usual form, are as follows:

	Great Britain.	French Ports.	Germany.	Oth. Europe.	Mex., &c.	Japan.	Total.
New York				430			430
New Orleans	680		50				730
Baltimore			1,500				1,500
Total	680		1,550	430			2,660

The exports to Japan since Sept. 1 have been 251,255 bales from Pacific ports, 32,670 bales from Galveston, 34,550 bales from Savannah and 10,550 bales from Mobile, 3,000 bales from Wilmington and 5,872 bales from New York.

LIVERPOOL.—The usual weekly statistical report has not been received this week. Dealings in spot cotton were resumed to-day on the basis of 6.50d. for middling uplands.

BREADSTUFFS.

Friday Night, Aug. 7 1914.

Flour at times has been more or less depressed from a fear that export trade had received its quietus from the great war in Europe. It is felt by many that the export question is the key to the whole situation, or comes very close to it. At the same time there has been more or less nervousness in the trade over the financial situation, though this has been largely relieved by the action taken in regard to emergency currency and other measures looking to the safeguarding of the country's business interests. Some mills have withdrawn quotations altogether. The total production last week at Minneapolis, Duluth and Milwaukee was 387,485, bbls., against 376,490 in the previous week and 364,950 last year. Large sales to speculators are said to have been made here during the week, including spring patents at \$4 50@ \$5 in jute.

Wheat has been active, excited and irregular, but on the whole decidedly higher. It is true that at times some depression has prevailed, owing to the great congestion of supplies here and at other seaboard ports, and a fear that the export trade with Europe by reason of the great war might be stopped for some time to come. But latterly the belief that a decisive victory on the seas for the British and French fleets would open the way for a resumption of exports has had a more or less stimulating effect. So have the measures at Washington looking to the rehabilitation of the American merchant marine, although nothing definite has yet been accomplished in that direction. But a move has been made, and it is hoped that ultimately the mercantile marine of the United States will take its old place on the high seas to the distinct advantage of American trade. The bill provides for more liberal features as regards the age limits of the ships to be registered and strikes out the provision for bidding the handling of such ships by foreign crews. At one time, too, there was a report that the British Government would take full responsibility for the war risks on cargoes, thus practically insuring the grain. This proved to be a mistake. It appears that shippers here were merely authorized to insure the grain for receivers' account and guaranteeing that the premiums would be paid. Still the news of large issues of emergency currency, the fact that already many millions have gone to Chicago and also a general belief that ways will be found to provide for export business, have all contributed to impart of late a stronger tone to the market. The vital point is to safeguard the export trade. That done, very many believe prices of wheat are bound to advance under the operation of the law of supply and demand in time of war. That would include the elimination of Russia's wheat from the markets of Western Europe and no doubt also a considerable percentage of the crops of Southeastern Europe. Liverpool has had a series of holidays, partly due to the extension of the Bank holidays in both Liverpool and London. The Argentina Government last Tuesday ordered a holiday extending for a week, owing to the European situation, which was regarded as rendering trade hazardous. Under the circumstances, our markets have much of the time been without the benefits of English and Argentina quotations, while the spread of war over the Continent has shut off information from markets there also. Not in the memory of any living member of the trade has such a situation ever before existed. Precedents are of no use, as the world never saw within the period covered by modern civilization any such gigantic war as now appals the civilized world. With Germany, France, England, Russia and Austria, to say nothing of the smaller Powers, engaged in a contest for supremacy, trade is, perforce, thrust into the background. The imagination is staggered by such a situation and its probable after-effects. As the case now stands, the reverberations of this gigantic struggle reached the remotest corners of the globe, and affect the grain trade everywhere. Naturally, the nations engaged will forbid the exportation of grain, and they may remove import duties. Meantime, in Roumania and Bulgaria the crop outlook is bad. Much damage has been done to spring-

wheat in Russia by continuous rains. In Northern France rain has also done damage and the yield will be much smaller than that of last year, just at a time when France needs a large harvest. Austria-Hungary's crop promises to be only 184,000,000 bushels, while the actual home requirements under ordinary conditions are placed at 224,000,000 bushels. On the other hand, the crop prospects in Italy are favorable, and the same is true of India. Better weather, too, has improved the outlook in Argentina. The food question is expected to receive the attention of the British Parliament. To-day prices advanced. The British Government is said to be ready to move 1,000,000 bushels of wheat out of Canada. It is believed that the Federal Reserve Board will yet do something to remedy the existing conditions in the grain trade, which involves peculiar hardship to this country. Ultimately it is expected that the export trade in wheat will be large at rising prices. During the Napoleonic wars, terminating with the battle of Waterloo in 1815, some assert America's foreign trade in all kinds of merchandise increased 450%. The Government crop report appeared to-day and stated the spring-wheat condition at only 75.5%, against 92.1% on July 1 this year and 74.1% on Aug. 1 last year. This points to a crop of 236,000,000 bushels of spring-wheat, against 239,819,000 bushels last year and 330,348,000 bushels two years ago. This would make a total crop of (allowing for 675,000,000 bushels of winter-wheat) of 911,000,000 bushels, against 763,380,000 last year, and would still mean the largest crop in history. This report came after the close.

Indian corn has advanced on a good cash demand upon Chicago from the East, together with unfavorable crop reports from some of the most productive sections of the United States. There has been, in fact, more or less complaint of hot, dry weather throughout much of the corn belt. Damage reports are becoming more frequent. Shipping sales at Chicago have been large, the demand more than keeping pace with the offerings. Country offerings, indeed, have been light. Cash houses have been steady buyers of September. At times it has been no easy matter to execute orders, owing to the prevailing excitement in the grain markets, although it is true that corn is now to a large extent a domestic proposition. It has been general expectation that the Government report of to-day would be more or less bullish. Liverpool has been closed much of the time, partly through an extension of the Bank holiday by the Government. To-day prices were higher, owing to hot, dry weather and a sharp demand for cash corn. The Government report after the close stated the condition at only 74.8%, against 85.8 on July 1 this year and 75.8 on Aug. 1 last year. The indicated crop is 2,634,000,000 bushels, against 2,446,988,000 last year and 3,124,746,000 two years ago.

Oats have advanced on a large cash demand, unfavorable crop reports from Canada, where hot, dry weather has prevailed and finally the firmness of other grain. At the same time, however, country offerings have been free. The movement has been large. Last week the visible supply increased 308,000 bushels, as compared with a decrease in the same time last year of 1,024,000 bushels. Yet, after all, the visible supply in this country is less than half what it was at this time last year, while prices are some 5 to 6 cents lower than then. The visible supply is 11,945,000 bushels, against 27,461,000 bushels a year ago. The arrivals at Chicago however, have been so large as to rather chill any bullish ardor. Still, sample prices at times have been noticeably strong, advancing in a single day there to two and a half cents. To-day prices were higher with other grain. The Government report stated the condition at only 79.4%, against 84.5% July 1st this year and 73.8% on August 1 last year. The indicated crop is 1,153,000,000 bushels, against 1,121,768,000 bushels last year and 1,418,337,000 bushels the year before.

WEATHER BULLETIN FOR WEEK ENDING AUG. 3.—The general summary of the weather bulletin issued by the Department of Agriculture for the week ending Aug. 3 is as follows:

A further continuation of the severe heat and drought over much of the great cereal, grass and cotton-growing districts during the past week further retarded growth and greatly interfered with the proper progress of such crops as are now at the critical stage of development. In the winter-wheat region the crop over the more northern and elevated districts ripened and is being harvested under favorable conditions, while dry weather favored a continuation of thrashing operations in other districts. In the spring-wheat region high temperatures and dry weather greatly damaged the crop in the more western districts, and heat and rust caused further damage in Minnesota, and the weather was somewhat unfavorable in North Dakota. The crop is ripening rapidly and harvest is well under way. In the corn belt the weather was nearly everywhere unfavorable, although the crop is still generally in good condition in the more northern districts. It is beginning to deteriorate in the central portions of the belt to westward of the Mississippi, where the outlook has heretofore been excellent, and continued dry weather over the Ohio Valley and to the eastward has caused further deterioration in those districts. Over the southern portions of the belt the early-planted is nearly everywhere a short crop or an entire failure, and the later-planted is very generally badly in need of rain. Oats harvest is nearing completion and threshing returns indicate generally light yields. Pastures are suffering for rain and are generally in poor condition in central and southern districts. In the cotton belt good rains occurred in portions of the eastern belt, especially in Alabama and Georgia, and the crop is reported as having made satisfactory progress in those States as well as in portions of the Carolinas and Mississippi, where showers occurred during the latter part of the week. Some deterioration occurred in the uplands of the Carolinas on account of drought and severe heat during the first part of the week. In the cotton districts to westward of the Mississippi the week was hot and dry, especially in Texas and Oklahoma, where practically no beneficial rains occurred, and the crop is suffering severely, although the early-planted is reported as standing the drought well in many sections. Bolls are opening prematurely and shedding is reported from some localities. In Florida more rain is needed in the citrus-fruit districts, but elsewhere in the southern trucking sections to eastward of the Mississippi the weather conditions were generally favorable and crops made satisfactory growth.

Over the Atlantic Coast States, from Virginia northward, local showers and moderately cool weather prevented serious deterioration of crops in the more southerly portions, although rain is now greatly needed. Over the Central and Northern States more generous rains occurred and crops made satisfactory growth, except that it was too cool over the more northern portions. Over the Mountain and Plateau districts of the West the weather was nearly everywhere favorable, except in the northern districts, where heat and drought greatly injured the spring-wheat outlook. The ranges continue in good condition, fruit is developing and ripening satisfactorily and water for irrigation continues plentiful. In Washington and Oregon heat and drought further injured spring wheat, but the weather was favorable for haying and winter-wheat harvest. In California all crops made the usual progress, and the canning, drying and shipping of fruit progressed rapidly.

The statements of the movement of breadstuffs to market indicated below are prepared by us from figures collected by the New York Produce Exchange. The receipts at Western lake and river ports for the week ending last Saturday and since August 1 for each of the last three years have been:

THE DRY GOODS TRADE.

New York, Friday Night, Aug. 7 1914.

Business in dry goods for near-by delivery is fairly active, although buyers are still showing hesitancy in placing orders for future delivery. Mail orders, which have been plentiful, have contained many requests for further supplies of summer goods to meet the late demand. Many large retailers are holding August sales to clean up summer stocks and are expected to turn their attention to their fall requirements in the near future. The European war is causing both importers and exporters considerable anxiety, as they are unable to obtain any definite information from abroad. Importers are afraid to proceed booking business which they have no assurance of being able to fulfill and all efforts to date to get information from their headquarters as to when shipments will begin to come forward have been disappointing. In the meantime, domestic manufacturers are making extensive preparations to substitute imported lines with their product. Exporters find themselves in a peculiar position, with the prospect of a very heavy demand for American goods from markets hitherto controlled by foreign manufacturers and no shipping facilities and necessary credit arrangements with which to meet it. They state that much depends upon the developments of the next few weeks—that is, whether the combined fleets of Great Britain, France and Russia will be able to keep the high seas open to shipping, so that it will be fairly safe to export goods to these countries, the Far East, Mediterranean and South American ports. American exporters realize that this is the opportunity of a century to obtain control of the South American trade, as well as other markets formerly controlled by German manufacturers, the only obstacle being the absence of adequate shipping facilities under neutral flags. Manufacturers of cotton duck are expecting large inquiries from Great Britain for supplies of army duck, but as yet no business is reported as having been closed. Officials of the International Cotton Duck Co. have let it be known that they are in a position to fill large orders for prompt delivery if needed, but as price quotations remain unchanged, it is evident that no very heavy demand has as yet come forward.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending Aug. 1 were 8,511 packages, valued at \$609,881, their destination being to the points specified in the table below:

New York to Aug. 1—	1914		1913	
	Week	Since Jan. 1	Week	Since Jan. 1
Great Britain	105	2,638	150	1,079
Other European	14	1,842	149	745
China	2,674	48,409	6,721	46,044
India	---	13,210	17	9,302
Arabia	1,365	9,193	100	21,686
Africa	319	5,884	81	17,722
West Indies	678	28,963	805	22,952
Mexico	14	322	---	1,575
Central America	290	13,892	392	9,735
South America	520	35,080	792	33,260
Other Countries	2,502	43,601	507	39,566
Total	8,511	203,034	9,714	203,687

The value of these New York exports since Jan. 1 has been \$14,556,556 in 1914, against \$15,935,318 in 1913.

Domestic cotton goods markets are spotty, some quarters reporting an active demand for fall merchandise while others state that buyers are holding off in anticipation of lower prices. The dulness in cotton yarns, together with expectations of a surplus supply of raw material as a result of the European war is encouraging buyers to look for lower prices for finished goods later in the season. Most large merchants realize, however, that there is little basis for any reduction in values, and are proceeding to place business covering their fall and winter requirements. Many large distributors, being aware of the shortage of supplies from domestic sources, owing to the strictly conservative operations of mills during the past year, and also realizing that there will be no imported goods in the market, are availing themselves of present prices to cover their forward needs. An indication of the firmness of prices is found in the fact that print-cloth manufacturers could do a large business if they were willing to accept offers which are being made at prices slightly under the market. The conservatism at present seems to be mostly among Southern merchants, who fear that the war will leave no market for cotton. They are being warned by selling agents, however, that there will, if anything, be a shortage of staple lines as the increase in exports of finished goods will more than offset the loss of exports of the staple. Gray goods, 38-inch standard, are quoted at 5c.

WOOLEN GOODS.—Selling agents handling dress goods lines are looking forward to an active demand for their goods from buyers who otherwise would take imported lines. Several large orders are reported as having been placed for both fall and spring materials. The opening of new spring lines during the week at prices considerably below those now in force for fall has attracted many buyers, and selling agents are unanimous in predicting a sharp advance from opening levels before the season is well advanced. Consequently they are advising their customers to purchase promptly and before the scarcity of imported lines becomes fully realized. In men's wear a like situation prevails and manufacturers are already considering advancing prices on spring lines. There are many who are deeply concerned over the prospects of a heavy falling off in wool importations, and in many instances are beginning to make arrangements for supplies of domestic yarns, for which they expect to have to pay much higher prices.

FOREIGN DRY GOODS.—Dry goods importers report in all cases that they have been advised by their foreign representatives that it will be impossible to send forward further shipments for an indefinite period, and that they had better hold all merchandise in their possession for higher prices. Linen importers have called in all their salesmen, and are not booking further business at any price, as it is impossible to quote values on business for future delivery. Prices on linens now in the hands of importers have been revised and advances ranging from 10 to 15% have been named. Heavy withdrawals from bonded warehouses are looked for during the coming week, and values for spot delivery may reach much higher levels. With the likelihood of no imports for some time to come, the markets for burlaps have been excited, with business active and the price no consideration. All goods are reported as being readily taken and it is impossible to quote any fixed values. Sales of lightweights, however, are reported at 7.50c., and of heavyweights at 8.50c.

Importations & Warehouse Withdrawals of Dry Goods.

The importations and warehouse withdrawals of dry goods at this port for the week ending Jan. 2 1913 and since Jan. 1 1914, and for the corresponding periods of last year, were as follows:

Imports Entered for Consumption for the Week and Since Jan. 1.

MUNICIPAL BOND SALES IN JULY.

The output of municipal bonds in July was much smaller than in the months preceding. Permanent loans amounted to \$25,708,703, which compares with \$55,003,140 in June, \$33,788,491 in May and \$102,851,996 in April. The temporary or short-term loans negotiated last month reached a total of \$14,290,751. In addition \$14,442,337 debentures were sold by places in Canada, including a £1,000,000 loan of the Province of Ontario. In the table below we give a comparison of all the various forms of securities put out in July of the last five years.

	1914.	1913.	1912.	1911.	1910.
	\$	\$	\$	\$	\$
Permanent loans (U. S.)	25,708,703	23,477,284	30,479,130	42,231,297	35,832,789
*Temporary loans (U. S.)	14,290,751	32,320,414	13,439,445	17,903,367	8,135,671
Canadian loans (perm't)	14,442,337	10,495,843	5,527,971	2,127,241	1,532,213
Bonds of U. S. Possessions	None	None	None	1,500,000	425,000
Gen. fund bonds (N.Y.C.)	None	5,000,000	None	None	4,000,000
Total	54,441,791	71,293,541	49,446,546	63,761,905	49,925,773

*Including temporary securities issued by New York City, \$9,202,953 in July 1914 and \$26,400,414 in 1913.

The number of municipalities emitting long-term bonds and the number of separate issues during July 1914 were 459 and 657 respectively. This contrasts with 529 and 760 for June 1914 and with 472 and 713 for July 1913.

For comparative purposes we add the following table showing the aggregates for July and the seven months for a series of years. In these figures temporary loans, and also issues by Canadian municipalities, are excluded.

Month of July	For the Seven Mos.	Month of July	For the Seven Mos.
1914	\$25,708,703	1902	\$12,861,550
1913	23,477,284	1901	8,262,495
1912	30,479,130	1900	18,613,958
1911	42,231,297	1899	7,805,563
1910	35,832,789	1898	17,389,559
1909	20,120,647	1897	5,313,495
1908	21,108,678	1896	15,374,660
1907	16,352,457	1895	8,253,237
1906	25,442,095	1894	74,680,229
1905	10,878,302	1893	1,691,600
1904	33,233,254	1892	4,139,100
1903	15,670,240		53,232,391

Owing to the crowded condition of our columns, we are obliged to omit this week the customary table showing the month's bond sales in detail. It will be given later.

News Items.

Covington, Ky.—Bonds Declared Valid.—The \$200,000 water-works bonds voted in Nov. 1912 (V. 98, p. 175) were declared valid Aug. 4 by Circuit Judge Harbeson.

Montana.—Initiative and Referendum Upheld.—The State Supreme Court on July 16 in a unanimous opinion upheld the constitutionality of the initiative and referendum amendment adopted in 1906. The decision holds that there was substantial compliance with the provisions of the law in the procedure for the adoption of the amendment.

New York City.—Halt Called on Many Improvements—Rigid Economy Urged.—After a conference on Aug. 4 between Mayor Mitchell and his department heads, the announcement was made that, to save the city from possible financial trouble as the result of the European war situation, it had been decided that all new city improvements that have been planned will be held up indefinitely.

This will affect work aggregating \$50,000,000, as it involves the \$20,000,000 New York County Court House, the \$2,500,000 Kings County Court House, the \$12,000,000 South Brooklyn marginal elevated freight railroad, and millions of dollars worth of local improvements. Work on the new dual subway system and dock improvements will not be affected, according to the Comptroller and the Mayor.

The Mayor also cautioned the heads of all departments to retrench wherever possible, to postpone purchases under

open market orders, and even not to fill vacancies where such occur as the result of death or retirement, until after a conference has been had with him.

Toledo, Ohio.—Voters Favor Purchase of Toledo Railways & Light Co.—The election held Aug. 4 resulted, it is stated, in a majority of 1,159 votes (10,597 to 9,409) in favor of the city issuing \$8,000,000 bonds for the purchase of the Toledo Railways & Light Co. There is doubt among the authorities, however, as to whether the ordinance required a bare majority or two-thirds of the votes cast, in order to carry. See V. 99, p. 358.

Bond Proposals and Negotiations this week have been as follows:

ABILENE, Dickinson County, Kans.—BOND SALE.—On July 6 \$50,000 5% 5½-year (aver.) internal-impt. bonds were awarded to the Fidelity Trust Co. of Kansas City, Mo., at 100.50 and int.—a basis of about 4.90%. Denom. \$500 and \$335. Date July 1 1914. Int. J. & J. Due one-tenth yearly from 1915 to 1924 incl. Using newspaper reports, we stated in V. 99, p. 282, that the amount of bonds sold to the above trust company was \$85,000.

NEW LOANS.

\$15,000

**City of South Amboy, N. J.,
SEWER BONDS**

Sealed proposals will be received by the Common Council of the City of South Amboy, New Jersey, at 8 P. M., on **TUESDAY THE EIGHTEENTH DAY OF AUGUST, NINETEEN HUNDRED AND FOURTEEN**, at the Council Chamber in the City Hall in the City of South Amboy, New Jersey, for the purchase of any or all of an issue of bonds of the City of South Amboy, for the payment of the construction of a part of the sanitary sewer system of said City of South Amboy to the amount of Fifteen Thousand (\$15,000) Dollars, of the denomination of One Thousand (\$1,000) Dollars each.

The bonds will be dated February 1, 1913, and the first bond will be redeemed twenty years from the date thereof, and thereafter said bonds shall be redeemed serially at the rate of one bond per year up to and including the year 1941, and during the years 1947 and 1948 three bonds will be redeemed in each year. Said bonds shall bear interest at the rate of five per cent per annum from the date thereof. The bonds may be registered as to principal and principal and interest. The principal and interest on said bonds shall be payable at the First National Bank of South Amboy, or a check for the interest can be mailed to the registered holders.

The bids or proposals will be opened on the date aforesaid and at the time and place aforesaid. Each bidder is requested to state in writing the number of bonds he will purchase. Each bid must be accompanied with a certified check of not less than two per cent of the face amount of the bonds bid for, and the Common Council reserves the right to reject any or all bids.

No bonds will be sold for less than par and accrued interest, and interest from the date of the acceptance of the bid to the date of delivery of the bonds will be charged to the purchaser.

Each proposal, together with certified check, should be enclosed in a sealed envelope and endorsed "Sanitary Sewerage Bonds of the City of South Amboy", and should be addressed to the Clerk of the City of South Amboy. Delivery of the bonds will be made as soon after the acceptance of the bids as possible.

FINANCE COMMITTEE of the Common Council of the City of South Amboy, N.J.
RICHARD M. MACK, City Clerk.
