

RAILWAY EARNINGS

SECTION OF THE

COMMERCIAL & FINANCIAL CHRONICLE

Copyrighted in 1914 according to Act of Congress, by WILLIAM B. DANA COMPANY, in office of Librarian of Congress, Washington, D. C.

VOL. 99.

NEW YORK, AUGUST 22, 1914.

NO. 2565.

THIS entire publication is devoted to a presentation of the reports of earnings and expenses of United States railroads for the latest month (June) and for the fiscal year to date, including said month. The table embraces every steam *operating* railroad in the country which is obliged to make monthly reports to the Inter-State Commerce Commission at Washington. Up to Jan. 1 1912 the Commission required monthly returns from every road, no matter how small its earnings. Since that date roads earning less than \$100,000 per annum have been relieved from the necessity of filing returns. Leased lines not operating their own roads do not make returns.

Sworn Returns. The figures are a transcript of the sworn returns on file at Washington. They have the further advantage of uniformity of method and classification. Every company is obliged to make up its returns on the same basis and in the same way as every other company.

Earnings Our Specialty. The "Chronicle" has always made a specialty of weekly and monthly reports of railroad earnings, and for over forty-five years its weekly and monthly summaries have been everywhere accepted as authoritative. The present publication is in continuation of this work and to aid the Inter-State Commerce Commission in the one direction in which lies its chief usefulness—the field of publicity.

Full Details. These Inter-State Commerce returns also make it possible for us to present full details of both the revenues and expenses. Besides reporting total gross earnings, we show separately the passenger and the freight revenues. In the case of the expenditures we report the outlays for both maintenance of way and maintenance of equipment as well as the traffic and transportation expenses. We also show the net revenue from outside operations. Lastly, we give the taxes and the miles of road on which the earnings are based.

Cents Discarded. The cents we have necessarily been obliged to discard altogether, and if in any case the results should happen to vary a dollar, one way or the other, from exact proof, the reason for the variance will be found in that circumstance.

Company Returns Also Given. To make this publication absolutely complete, we add several pages at the end to show also the figures issued by the companies themselves, where they are made up on a basis different from that of the Commerce returns, or where they give fixed charges in addition to earnings, or where they have a separate and distinct fiscal year.

Former Returns to be Continued. The matter contained in this extra and novel publication is entirely additional to the comprehensive reports of earnings we furnish in the "Chronicle" from week to week. All the returns of the leading roads, and also all weekly figures of gross earnings, are printed regularly and promptly in the "Chronicle" as soon as received. But in addition we issue once a month—say about the 20th—this special publication, furnishing a sort of compendium of earnings in which we bring together all the returns for the latest month for which the statistics are available.

Only for Subscribers. As in the case of our numerous other Supplements or "Sections," all of which are expensive publications, the "Railway Earnings Section" will be furnished only to "Chronicle" subscribers. These will receive it free of charge, one copy going with each subscription. It will be impossible to obtain copies in any other way, as none will be printed for general sale.
