

BANK AND QUOTATION SECTION

OF THE

COMMERCIAL & FINANCIAL CHRONICLE.

Copyrighted in 1915, according to Act of Congress, by WILLIAM B. DANA COMPANY, in office of Librarian of Congress, Washington, D. C.

VOL. 101.

NEW YORK, SEPTEMBER 4 1915.

NO. 2619.

BANK AND QUOTATION SECTION

The Bank and Quotation Section, issued monthly, is furnished without extra charge to every annual subscriber of the Commercial and Financial Chronicle.

The Railway and Industrial Section, issued three times a year on the last Saturday of February, June and October, is likewise furnished without extra charge to every annual subscriber of the Chronicle.

The Railway Earnings Section, issued monthly, containing the sworn returns of earnings and expenses filed each month with the Inter-State Commerce Commission, is also furnished without extra charge to every annual Chronicle subscriber.

The Electric Railway Section, issued three times a year, in January, May and September, is likewise furnished without extra charge to every Chronicle subscriber.

The State and City Section, issued semi-annually on the last Saturday of May and November, is also furnished without extra charge to every subscriber of the Chronicle.

The Bankers' Convention Section, issued yearly, giving the detailed proceedings of the annual convention of the American Bankers' Association, is also furnished without extra charge to Chronicle subscribers.

Terms for the Chronicle, including the six Supplements above named, are Ten Dollars per annum within the United States, Thirteen Dollars (which includes postage) in Europe, and \$11.50 in Canada.

File covers for the Chronicle are sold at 60 cents each; (which includes postage). File covers for Supplements can be had at same price.

REVIEW OF AUGUST.

August was marked by momentous events. Chief among these was undoubtedly the sinking of the White Star Line steamer Arabic by a German submarine. This, for a time, threatened serious consequences, presenting the possibility that the United States might become embroiled in the conflict raging among the nations of Europe. Quite to the surprise of everyone, however, Germany's course with regard to the act was such as to give the affair a most dramatic ending. After the lapse of a few days the Kaiser's Government unreservedly expressed its intention to accord full satisfaction to the United States should investigation establish that the act was really the work of a German submarine. In its conciliatory attitude it went further and yielded completely to this country in the matter of the President's demands regarding the protection of the lives of Americans traveling in ocean steamships. The result was that by the end of the month the differences between the two countries in that respect appeared to have been completely smoothed out—an outcome no one would have deemed possible previous to the actual happening of the event.

The declaring of cotton contraband of war by Great Britain and her Allies; the dealing of further crushing blows to the Russian army by the Teutons; the renewed demoralization of the foreign exchanges to an even greater extent than before, with the dispatching of large consignments of gold and of securities to the United States in the effort to correct the dislocation of the exchanges, were among the other important events. In addition, the Inter-State Commerce Commission handed down two decisions of great consequence, both disappointing in the extreme.

The sinking of the White Star Line steamer Arabic caused, when the news came, a feeling of the deepest consternation—so much so that for a time it appeared to be merely a prelude to a rupture of diplomatic relations between the United States and Germany, if it did not actually eventuate in war between the two countries. The Arabic was bound from Liverpool for New York and was torpedoed by a submarine (presumably a German submarine) on Thursday morning, August 19, about 60 miles off Fastnet on the south coast of Ireland. All accounts agree that the vessel was attacked without warning. She went down in about ten minutes. There were 423 persons on board the liner, 180 passengers and 243 members

of the crew; of this number 44 remained unaccounted for, 25 of whom were members of the ship's crew. It is understood there were 29 American passengers aboard and that there were also some Americans among the crew. It was definitely established that two Americans lost their lives—Mrs. Josephine S. Bruguere of New York and Dr. Edmund F. Woods of Zanesville, Wisconsin. One of the factors which served to prevent a greater loss of life is said to have been the preparedness for emergencies, of all British steamers in passing through the war zone, the lifeboats being kept in readiness for immediate use. The survivors, who left the liner in the ship's boats, were picked up by passing vessels and arrived at Queenstown on Thursday night, August 19. The torpedo struck the ship on the starboard side about 100 feet from the stern. Just before the Arabic was torpedoed the British freight steamer Dunsley had been torpedoed and it was while the Arabic's passengers were observing the Dunsley sink that the fatal shot was fired against their own boat.

The British Admiralty on August 23 authorized a denial that the Dunsley was an armed patrol acting as a convoy to the Arabic or that the Arabic was under naval convoy of any kind, and so liable to attack without warning under the rules of warfare. It was declared that the Dunsley was an unarmed trader and that the Arabic was an unarmed passenger ship outward bound to a neutral port. On the voyage across from this side to Great Britain the Arabic had been heavily loaded with ammunition, but on her return trip to this side she carried, of course, no munitions of war. Suggestions that the Arabic had attempted to ram the submarine were likewise refuted. The Arabic had 2,813 bags of mail on board, mostly for the United States. First accounts that she carried a considerable amount of gold were later denied, but she seems to have had an extensive quantity of securities on board.

As the last note of the United States to Germany had made it plain that a repetition of submarine attacks involving loss of American life would be regarded by the United States Government as a "deliberately unfriendly" act, the Administration at Washington was confronted with a graver situation even than that which ensued when the Lusitania was sunk, and there appeared little likelihood that a rupture of relations with Germany could be avoided, the more so as in view of the warning given by our Government, the attack on the Arabic looked like a premeditated act, intended as Germany's answer to the demands of the United States. The feeling in official circles was exceedingly tense and pessimistic. President Wilson took prompt steps to ascertain all the facts in the case. A report was sought from Ambassador Page at London, while at Berlin Ambassador Gerard was instructed on August 23 to ask the Imperial Foreign Office if a report in the matter had been received by the German Government. If so, he was to request a copy, if available, but to seek no other explanation. President Wilson authorized no statement with regard to the affair, except a brief announcement by Secretary Tumulty on Monday, August 23, to the effect that as soon as all of the facts were at hand the course of action of our Government would be determined.

A rift in the clouds appeared, however, quite unexpectedly. This was the presentation on August 24 to the State Department at Washington by the German Ambassador, Count von Bernstorff of very pacific and friendly instructions just received by him from the German Government. These instructions asked the American Government to suspend judgment until Germany could make an investigation into the truth of current reports and declared unqualifiedly that "if Americans should actually have lost their lives this would naturally be contrary to our (Germany's) intentions." The exact wording of the statement was as follows:

"So far no official information is available concerning the sinking of the Arabic. The German Government trusts that the American Government will not take a definite stand after hearing only the reports of one side, which, in the opinion of the Imperial Government, cannot correspond with the facts, but that a chance will be given to Germany to be heard equally."

"Although the Imperial Government does not doubt the good faith of the witnesses whose statements are reported by the newspapers in Europe, it should be borne in mind that these statements are naturally made under excitement which might easily produce wrong impressions."

"If Americans should actually have lost their lives this would naturally be contrary to our intentions. The German Government would deeply regret the fact and begs to tender its sincerest sympathies to the American Government."

This was followed the next day (Aug. 25) by the issuance by the Imperial Chancellor at Berlin of an even more emphatic statement to the same effect, and saying that if the Commander of the German submarine had gone "beyond his instructions" the German Government "would not hesitate to give complete satisfaction to the United States," the precise text of his statement being as follows:

"As long as the circumstances surrounding the sinking of the Arabic have not been fully cleared up, it is impossible for me to make a definite statement. Thus far we have received no report about it."

"Now we do not even know whether the sinking of the ship was caused by a mine or by a torpedo fired from a German submarine, nor do we know whether, in this latter case, the Arabic herself may not by her actions, perhaps, have justified the proceedings of the commander of the submarine."

"Only after all these circumstances have been cleared up will it be possible to say whether the commander of one of our submarines went beyond his instructions, in which case the Imperial Government would not hesitate to give such complete satisfaction to the United States as would conform to the friendly relations existing between both Governments."

On the same day (Aug. 25) at the request of the German Minister of Foreign Affairs von Jagow, Ambassador Gerard conferred with the former at Berlin while Count von Bernstorff on Aug. 26 and succeeding days had further interviews with Secretary of State Lansing, the Count repeating his statement that Germany would give complete satisfaction if it developed that the commander of a German submarine had gone beyond his instructions and sunk the Arabic. The outlook grew steadily more assuring after that, and it became apparent that the Arabic episode was going to lead to the settlement of the entire submarine controversy, Germany accepting President Wilson's contention that merchant ships must not be attacked without warning and that the lives of passengers on such ships must not be jeopardized. There appeared reason to think, too, that the German Government had given instructions to that effect after the American representations regarding the Lusitania, though there were misgivings as to whether these instructions had been conveyed to the submarine commanders by the German Grand Admiral von Tirpitz, the German Minister of Marine and author and instigator of Germany's policy of submarine warfare. Up to the close of the month the accounts were all of a like tenor, and a cablegram on Aug. 30 stated that the pacific intentions as declared by Dr. von Bethmann-Hollweg, the German Imperial Chancellor, had been approved at a conference with the German Kaiser at the latter's headquarters on the Eastern front, attended by Admiral von Tirpitz and others. The German Government having failed to get any report regarding the attack on the Arabic, there were suggestions that the submarine had itself been sunk.

On Sept. 1, following an oral statement to Secretary of State Lansing that Germany had accepted the declarations of the United States in the submarine controversy, Count von Bernstorff sent the following letter to Mr. Lansing, apparently closing the matter. Almost simultaneously there came cablegram reports that Admiral von Tirpitz was ill from overwork and exhaustion and would take a holiday extending over several weeks.

My Dear Mr. Secretary:—With reference to our conversation of this morning I beg to inform you that my instructions concerning our answer to your last Lusitania note contain the following passage:

"Liners will not be sunk by our submarines without warning and without safety of the lives of non-combatants, provided that the liners do not try to escape or offer resistance."

Although I know that you do not wish to discuss the Lusitania question till the Arabic incident has been definitely and satisfactorily settled, I desire to inform you of the above, because this policy of my Government was decided on before the Arabic incident occurred.

I have no objection to your making any use you may please of the above information.

I remain, my dear, Mr. Lansing,

Very sincerely yours,

J. BERNSTORFF.

To relieve the distressing and disturbing situation caused by the renewed demoralization of foreign exchange rates, enormous special shipments of gold and of foreign-owned American securities were made to this country. Sterling bills, as set out further below in our review of the foreign exchange market, several times during the month dropped to new low levels, and on the last day (August 31) sight bills on London dropped to \$4 55½, the par of exchange being \$4 8665. There were reports all through the month of possible negotiations for the establishment of a huge credit, either on British account or the joint account of Great Britain and her Allies, or yet again, for the floating of a British loan here for a large amount, but the month closed without anything definite having been done in that respect. It was known, however, that deputations of financial representatives from both the British and the French Governments were on the way to the United States for the purpose of taking up the grave problem with American bankers. From Brown Brothers & Co. announcement came on August 24 that arrangements had been definitely concluded for a \$20,000,000 French commercial credit. This credit is independent of the Morgan-Rothschilds loan arranged for the French Government in June and part of the collateral for which consisted of bonds of the Pennsylvania Company. Messrs. Brown Bros. explained that the purpose of this commercial credit is to enable American exporters to be paid in dollars in the United States, eliminating any risk of exchange and thus facilitating our exports. It will also enable French buyers of American merchandise and other commodities, who have found it difficult to do so, owing to extraordinary conditions now prevailing, to obtain exchange with which to settle their accounts with American merchants. The credit is for a period of one year and is to be availed of by drafts at ninety days' sight. Care has been taken, it is stated, to comply with the requirements of our banking laws relating to commercial acceptances. In addition to the responsibility of the French drawers of the bills, the credit is secured by the guaranty of the Banque of France of payment at maturity in gold, if necessary. Collateral is also deposited in New York as additional protection of the credit. As the drafts come forward and are discounted in the open market, an opportunity will be offered for the first time, it is declared, to American institutions and investors of buying commercial paper drawn by firms and institutions of the highest character in Europe on correspondingly strong firms and institutions in this country, which should discount at the finest rates.

The first special shipment of gold arrived here on August 11. It consisted of 1,050,000 ounces of United States gold coin worth \$18.604 per ounce,

and having an aggregate value of \$19,534 200. There were also about \$30,000,000 of securities. The shipment was consigned to J. P. Morgan & Co., who are acting as the fiscal and commercial agents for the British Government in this country. The shipment was conveyed from England to Halifax on a British battleship and was shipped from the latter place to this city by special train. On Sunday, August 29, there was a second arrival here of gold and securities from Halifax, where the consignment had been delivered by a British cruiser. The shipment consisted of \$19,500,000 gold, together with securities of an estimated value of \$35,000,000, though no precise information as to the latter was vouchsafed. The consignment was from the Bank of England to J. P. Morgan & Co. and the understanding is that the securities are intended as collateral for loans to help pay for Great Britain's enormous purchases of munitions of war in the United States. Besides these special shipments large amounts of gold are also known to be on the way to the United States in the ordinary course, especially from Australia and South Africa.

The Inter-State Commerce Commission handed down decisions in two very important cases pending before it. They both proved deeply disappointing to the railroad interests affected. The first decision was announced on August 11 and was on the application of 41 roads in Western Classification Territory for increases in rates on a limited number of articles. Most of the advances requested were denied. Two of the members of the Board, namely Commissioner Harlan and Commissioner Daniels, dissented from the decision of the majority, whose conclusions were summarized under twelve heads and cannot therefore be enumerated here. As indicating what a mere pittance was granted, it is only necessary to state that Commissioner Daniels estimated that the aggregate increase of revenue permitted would hardly exceed \$1,600,000. As the majority report expressly stated that aggregate freight revenues in the fiscal year 1914 for the 41 roads involved in the proceeding had been approximately \$641,000,000, it accordingly appeared that the Commission had granted relief to the extent of one-quarter of one per cent. The second decision came the next day, August 12, and under it the Commission ordered a large and general reduction in the rates on anthracite coal from the Pennsylvania coal fields to tidewater. This decision was the outcome of a general investigation initiated by the Commission on June 10 1912. The Commission's conclusion was that prevailing rates are unreasonable, as yielding too great a profit on the operating cost, and it ordered a reduction from the producing districts in the Wyoming, Lehigh and Schuylkill regions of Pennsylvania to tidewater and to certain interior points of from 5 to 80 cents per ton. The new rates go into effect October 1. It has been pointed out that this decision does not rescind the 25 cents advance in anthracite freight rates to Chicago and Buffalo put into effect some weeks earlier.

In the foreign exchange market there was, as already indicated, renewed demoralization, and more utterly so than before. It appeared to be impossible to arrest the decline, and rates again and again touched figures never previously reached under the present method of quoting sterling, whatever may have been the case some time in the remote past. Nor were the declines confined to fractions. On the contrary, on more than one occasion, breaks of several cents a day were registered. And curiously enough, the heaviest declines were established at the times of the large special importations of gold and securities outlined above. The first special shipment arrived here on Aug. 11. Bankers' sight bills were then in the neighborhood of 4 75. By the 16th they had got down to 4 64. Then occurred a recovery and for a time sight bills stood in the neighborhood of 4 67. Then rates gradually fell off again and a

new low level at 4 63 $\frac{1}{8}$ was reached on Aug. 27. On Aug. 28 rates held steady at a range of 4 63 $\frac{1}{4}$ @ 4 63 $\frac{3}{8}$. The second large special importation of gold and securities was received here on Sunday, Aug. 29. So far from this having a steady influence upon exchange, the result, as in the case of the earlier special gold arrival, was precisely the reverse. On Monday, Aug. 30, there was a drop to 4 60 $\frac{1}{4}$, while on Aug. 31 the exchange market went all to pieces, and at the close of the day transactions as low as 4 55 $\frac{1}{2}$ were reported, while it was quite apparent that the bottom had not even then been reached. On the opening business day of the month (Aug. 2) the range for sight sterling was 4 76 @ 4 76 $\frac{1}{8}$, and the decline from those figures to 4 55 $\frac{1}{2}$, therefore, represented a drop of 20 $\frac{1}{2}$ cents for the month. This occurred in face of gold importations of fully \$50,000,000—there having been other gold imports both on the Atlantic and on the Pacific besides the two special importations aggregating, roughly, \$39,500,000, made on consignments to J. P. Morgan & Co.

Though sterling exchange was particularly weak, exchange on the Continental centers was also depressed, though the lowest figures were not in all cases reached on the closing day of the month. Thus French checks on Aug. 17, when sight sterling got down to 4 64, were quoted at 6 04, meaning that it required over six francs to make a dollar, where, under normal conditions, only about 5.2 francs are required for the purpose. In this case there was considerable recovery with a renewed break at the close, when, however, the previous low depth was not again quite reached, the closing quotation Aug. 31 being 6 01. Kuhn, Loeb & Co. were at one time reported quite heavy purchasers of Paris checks and cable bills in connection with the sale to them of the 150,000,000 franc Pennsylvania Company bonds held here on Paris account, which doubtless served to hold French exchange at relatively steady figures. German reichsmarks on Aug. 31 reached the new low record of 80 $\frac{3}{8}$.

The reason why the large special importations of gold did not serve to arrest the downward course of rates is found in the circumstance that the gold was used directly in settlement of debts owing in this country, and that exchange was not purchased to cover the gold importation as is generally the custom when normal conditions exist. The common understanding is that J. P. Morgan & Co. used the gold to pay for purchases of munitions of war and other things on British account, thereby avoiding the discount which would have to be borne if payment were made with bills of exchange commanding 20 to 30 cents less per pound sterling than the gold value of the pound.

As for the general downward course of exchange rates the explanation is of course found in the enormous trade balance in favor of the United States on the merchandise movement that has accumulated during the last eight or nine months, and to which further large additions are being made week by week. The downward plunge of rates, however, is being accentuated and aggravated by the action of buyers of exchange in refraining from purchasing bills because of a feeling that by waiting they can buy at still lower figures. Newspaper accounts confirm the presence of this influence. Thus, one of the papers in its report of the exchange market for August 31, stated that the "chief feature of the market was the absence of buyers, and this absence was most pronounced in the market for cotton bills." With heavy offerings of 60 and 90 day bills "bankers would not buy even at these concessions. Business in sterling was small because of this lack of buyers, and exchange on other financial centers simply held to parity with demand sterling, but with declines in rates, also without any material amount of business." It was everywhere recognized that, in view of the vast extent of the trade balance, the dislocation of the foreign exchanges

could be corrected only through the creation of an enormous credit here in favor of Great Britain and her Allies, or by the floating of a large loan in this country on foreign account. Rumor concerned itself chiefly with discussions as to the precise form the negotiations to that end would ultimately take. The \$25,000,000 Russian acceptances arranged last January became due on August 5 and were paid off, but new credit extended.

On the Stock Exchange the speculative furor of the previous month, based on the execution of war orders by American manufacturing concerns, was continued and made further spectacular progress. The market was, however, subjected to wide and sensational fluctuations, under the influence of the momentous events that marked the course of the month. At the beginning of August there was rapid recovery from the setback experienced at the close of July and many new high records were established. The industrial issues were again very prominent and advances of 5 to 15 points or more were common. But railway shares were also taken in hand and though the advances in these were much more modest and moderate than in the case of the industrial properties, they were, nevertheless, substantial. The movement was inaugurated on the idea that the Inter-State Commerce Commission would grant the advances in rates requested by Western railroads. Canadian Pacific enjoyed an exceptional rise when it appeared that there would be no reduction in the dividend rate. When the decision of the Commission was announced on August 11, it proved very disappointing, a mere pittance of an increase being allowed. Moreover, this was followed by another decision the next day in the case of the anthracite coal roads, and here the Commission ordered a reduction in rates from the anthracite regions to tidewater and to certain interior points ranging from 5 to 80 cents.

These two decisions caused a sharp break in the railroad shares and gave the entire market a black eye for the time being. The cliques and pools in the war stocks, however, were not discouraged, and had resumed their manipulative tactics (as one instance, Studebaker common was on August 16 jumped up from 102 $\frac{1}{4}$ to 120) when news came on Thursday, August 19, that the White Star steamship Arabic had been torpedoed that morning by a German submarine and that some Americans had lost their lives as a result of the act. The market immediately suffered a severe setback and as the situation appeared to be exceedingly grave and official circles at Washington made no attempt to conceal their anxiety regarding the affair, the downward plunge in prices reached large proportions the next two days, the declines in the war shares being in proportion to their previous prodigious advances. The collapse reached its culmination on Monday, August 23, under further startling

declines. By the end of that day, however, a considerable upward reaction was established on rumors that Germany was not at all inclined to stand by the action of the commander of the submarine, but was as surprised as our own Government over what had happened. When these rumors were replaced by definite advices to the same effect, the Stock Exchange continued its response and the next few days the bulk of the large losses, which news of the sinking of the Arabic had precipitated, was recovered.

As it became day by day plainer that Germany would not only disavow the Arabic action, but seemed prepared to meet American views altogether with reference to submarine warfare, thus removing all cause of friction between the two countries, the market gave evidences of great resiliency, prices rebounding to their former high levels, and manipulation carrying special stocks to new heights. Railroad shares were also again taken in hand, this time on the theory that they must soon share in the revival in business which the European war orders were gradually bringing about, and New Haven stock was made the object of special attention. The tone of the market was very good at the close, but with evidence of realizing sales on a large scale

in the case of the industrial issues that had enjoyed the most extensive rises.

CONDITION OF THE TRUST COMPANIES OF NEW YORK STATE.

We present below comparative statements showing the condition of the trust companies of New York State at the date of the last call and of various previous calls since August 1907. We give separately the totals for the Greater New York and those for the whole State. We also add tables to indicate the changes in deposits for all the separate companies in the different boroughs of this city.

AGGREGATE DEPOSITS OF THE SEPARATE TRUST COMPANIES.

NEW YORK STOCK EXCHANGE

MONTHLY AND YEARLY RECORD

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1915. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. The black-faced letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

In accordance with the rule adopted by the New York Stock Exchange in 1909, all quotations for interest-paying bonds are at a price to which accrued interest must be added. The exceptions to the rule are income bonds and bonds on which interest is in default. This method of quoting bonds became effective January 2 1909.

For foot-notes to tables see last page of bonds and last page of stocks.

STATE AND MUNICIPAL BONDS.

It is not the custom in quoting municipal bonds to include accrued interest in the price given. Hence this accrued interest must in all cases be added on. There are very few instances which form exceptions to the rule—that is, where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark, thus (f).

The figures in the column "to net" indicate the basis on which the securities sell or the interest rate which the securities if held to maturity will net to the purchaser at the present market price.

BANKS AND TRUST COMPANIES.

Quotations in this department are given per share, not per cent, except for stocks of New York City, Brooklyn and Canadian institutions, and are as near as possible for the closing day of the month preceding the date of issue, though often are nominal. An asterisk (*) denotes sales. The letter (h) prefixed to a price indicates that the figures show the book value.

Figures of deposits, capital and profits for the national banks are from the Comptroller's last call; for all other institutions they are the latest obtainable, direct returns being procured by us where no periodic statements are required. For the Clearing-House banks of New York, Philadelphia and Boston, deposits are taken from the latest weekly statement.

Where Names are Printed in Italics Fuller Returns may be Found in the Advertising Columns
