## MUNICIPAL BOND SALES IN 1915.

Again we can say that the municipal bond sales for the calendar year are the very largest on record. This is the third successive year in which this statement has been true, and for 1915, as for 1914, it is the more noteworthy because of the existence of special circumstances and conditions which it might have been supposed would have the contrary effect.

In 1914 the further growth in the aggregate of municipal bond disposals occurred, notwithstanding the extraordinary financial conditions which developed upon the outbreak of war in Europe and which for over four months kept the Stock Exchange The explanation of the apparent anomclosed. aly in that year was found in the extent of the sales in the seven months from January to July, inclusive-that is, before the European war came in as a disturbing factor. Municipal securities then were in active demand for a twofold reason : In the first place, railroad and industrial securities were in considerable disfavor because of hostile governmental and legislative policies and also because of growing depression in trade and a tremendous contraction in railroad revenues. A second incentive to investments in municipal securities was found in the circumstance that such securities under the tariff law of October 1913 are entirely free from the Federal income tax. The result was that the aggregate of municipal bond sales, which in 1913 had increased to \$403,246,518 from \$386,551,828 in 1912, now ran up to \$474,074,395.

For 1915 now there is a further expansion in the aggregate, raising it close to a round half billion dollars, the exact total being \$498,557,993. And the figures have reference of course entirely to issues of a permanent character, temporary obligations of every nature being excluded. What an augmen-tation this total of roughly \$500,000,000 represents will appear when we say that it was only two years before that the \$400,000,000 mark was reached, and that ten years before, in 1905, the grand total of the sales was less than \$200,000,000, being only \$183,080,023. The advantages operative in favor of municipal bond issues in 1914 existed also in 1915, namely that railroad securities were not in keen demand (the improvement in railroad conditions not

coming until the latter part of the year) and that municipal obligations continued to enjoy exemption from the Federal income tax. Nevertheless, it might well have been doubted whether the exceptionally high total of 1914 would be repeated, seeing that the European nations, particularly Great Britain and France, appeared as borrowers in our market and offered obligations attractive for many reasons.

Not only, however, did the disposals continue to grow, but (particularly during the last three months of the year) a marked improvement occurred also in values. The placing here of the \$500,000,000 Anglo-French loan in October on an income basis of  $5\frac{1}{2}@5\frac{3}{4}\%$  might have been expected to have a distinctly adverse effect on investment values as a whole. Instead the curious fact was presented of an advance in high-grade bonds generally (gilt-edged railroad bonds sharing in the appreciation in bond values) and on an income basis yielding a very much smaller return than that afforded by the Anglo-French loan. As is usually the case, the experience of this city furnishes an excellent illustration of the course and tendency of municipal bond prices. New York City on June 29 put out \$46,000,000 41/2% 50-year stock at an average price of 101.253 (the income basis being 4.437% and \$25,000,000 15-year serial bonds at an average price of 101.306, an income basis of about 4.297%. About two-thirds of the bonds went to a syndicate which offered the longterm issue to the public at 102. As late as Oct. 1 these bonds sold on the Stock Exchange at  $101_{34}^3$ . On Dec. 10 sales occurred at 107 and the price Dec. 31 was  $106\frac{3}{8}$ . As another illustration of the improvement which occurred in prices. Newark, N. J., on Aug. 20 disposed of \$500,000  $4\frac{1}{2}\frac{7}{6}$  45-year dock bonds at 102.08. On Nov. 22 Newark awarded \$250,000 of the same dock bonds at 108.31.

Further significance to these large sales of bonds by United States municipalities is given by the fact that Canada was also a borrower in this market. In July 1915 the Canadian Government, which heretofore had always done its financing in London, arranged for the first time in its history to borrow from New York bankers. It negotiated a loan for \$45,000,000 at 5% interest, consisting of \$25,000,000 1-year obligations and \$20,000,000 2-year obligations. The issue was taken by a syndicate composed of J. P. Morgan & Co., Brown Brothers & Co., the National City Bank, the First National Bank and the local agency of the Bank of Montreal. The Government of the Dominion then stipulated that it would not borrow further sums in the United States during 1915. Since the close of 1915, as is well known, a further loan of \$75,000,000 5% bonds has been placed in the United States. Aside from the borrowing by the Dominion Government itself, Canadian municipalities also borrowed here and to a much larger extent than in previous years. The loans by the Dominion itself, together with those of the various Provinces and municipalities, aggregated altogether \$280,230,470, and according to the records kept by E. R. Wood, of the Dominion Securities Corporation, \$113,332,896 were placed in the United States, \$24,333,333 in Great Britain, while \$142,564,241 were taken within Canada itself.

The great increase in the aggregate of bond sales by United States municipalities during the last two years, it is important to observe, came only in small part from the newer sections of the country where the most development may ordinarily be supposed to be going on. This is a reversal of the experience in the years prior to 1914. It may be recalled that up to two years ago the increase in the output of new issues was especially pronounced in the newer parts of the country, thus supporting the inference that in the main these new issues represented normal outlays in behalf of the proper development of our cities and towns. The experience of the last two years would seem to afford some reason for modifying this conclusion, since the further addition has occurred almost entirely in the North Atlantic tier of States and in those of the North Central group. To bring out this distinction we again reprint a table given by us many times before (but with the 1915 figures added) and which shows the distribution of the bond sales for the last twelve years among the different geographical divisions of the country.

The further gain in 1915 in the first two groups occurred notwithstanding a decrease of 201/2 million dollars in the North Atlantic tier, due in part to the diminished output of New York City. On the other hand, in the three remaining groups the additions were in no case striking, while in one instance at least, namely the Western or Pacific division, there was actually a decrease the last two years. In 1915 the Pacific group contributed only \$55,906,-444 to the total, as against \$63,107,177 in 1914, \$74,148,282 in 1913, \$68,473,242 in 1912 and \$71,276,437 in 1911. The Pacific group consists of California, Oregon and Washington, besides Idaho, Nevada, Utah, Arizona, New Mexico, Colo-rado, Wyoming and Montana. The falling-off occurred mainly in the three States first mentioned. In Washington and Oregon business depression continued quite marked, repressing all tendency toward further expansion and development for the time being, while in California the completion of the work incidental to the San Francisco Exposition (in preparing for which considerable amounts of State and municipal bonds had been put out) served in like manner to limit new issues. The 1915 result for the manner to limit new issues. The 1915 result for the Pacific group might have been different if Denver had succeeded in making a sale of its contemplated issue of \$8,000,000  $4\frac{1}{2}$ % 30-year municipal water bonds, but legal proceedings interfered.

What a contrast the last two years furnish respecting the distribution of the sales with the years pre-

ceding, becomes evident upon a very cursory examination of our table. Between 1904 and 1913 the yearly output of municipal bond issues in the South Atlantic, South Central and Pacific groups rose from \$32,101,623 to \$149,721,428, while the North Atlantic tier of States (comprising New England, together with New York, New Jersey and Pennsylvania) and the North Central division (embracing Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota, Iowa, Missouri, the two Dakotas and Nebraska and Kansas), though still contributing the bulk of the year's sales, increased their total only from \$218,653,323 to \$253,525,090. In the two years since 1913, on the other hand, the combined sales for the South Atlantic division, South Central division and Pacific division increased only from \$149,721,428 to \$153,135,588, while the amount for the North Atlantic division and North Central division jumped from \$253,525,000 to \$345,422,405.

With the exception of New York City, most of the important municipalities put out larger totals of bonds in 1915 than in 1914 or 1913; particularly is this true regarding the prominent cities in the North Atlantic tier and the North Central division. York City's public offering was larger in 1915 than in 1914, being \$71,000,000 against \$65,000,000, but the aggregate of all new issues by the city was smaller, the comparison being between \$96,059,936 and \$104.-194,945; the sales to the sinking fund having been on a greatly reduced scale. In 1913, however, New York City's aggregate new issues were only \$84,978.-079 and in 1912 \$85,901,000. Philadelphia with its school districts put out a total of \$12,360,000 new bonds in 1915 against \$5,625,000 in 1914 and \$8,375,-000 in 1913. Chicago with its sanitary and park districts marketed \$10,780,600 in 1915 against \$3,-123,500 in 1914 and \$1,719,000 in 1913. Boston placed \$7,377,100 in 1915 against \$6,731,000 in 1914 and \$8,170,500 in 1913. Baltimore placed \$8,800,-000 against \$8,550,000 and \$7,825,000, respectively. Pittsburgh with its school districts disposed of \$6,-750,000 against \$980,500 and \$7,534,500. Cincinnati and its school districts put out \$4,535,943 against \$3,283,518 and \$4,875,879. Cleveland's contribu-tion was \$7,944,000 against \$10,092,000 in 1914, but only \$2,854,000 in 1913. Newark, after having marketed \$9,010,000 in 1914, placed only \$1,965,000 in 1915, which compares with \$1,550,000 in 1913.

We have spoken above of the diminished sales on the Pacific Coast. Los Angeles, however, disposed of \$4,446,000 in 1915 against only \$2,250,000 in 1914 and but \$1,750,000 in 1913. Back in 1912 Los Angeles placed \$9,696,000. For San Francisco our records are incomplete, as we have been unable to obtain any figures showing the sales "over the counter." Probably the new issues did not exceed \$5,000,000 against \$5,785,500 in 1914, \$9,675,100 in 1913 and \$8,166,000 for 1912, revealing the diminution following the completion of work in connection with the Exposition. The same is true with reference to the State of California, which put on the market only \$5,300,000 new bonds in 1915 against \$6,400,000 in 1914 and \$12,800,000 in 1913.

As far as the interest rates of the new issues are concerned, the improvement that occurred in prices is seen chiefly in the increased amounts of 4% issues disposed of. Altogether \$85,203,091 of 4s were marketed in 1915, forming 17.16% of the whole, against only \$70,349,598 in 1914, constituting 15.35% of the whole. The improvement in bond values, however, did not occur until the latter part of the year, and the New York City public offering of \$71,-000,000 in June consisted of  $4\frac{1}{2}$ s, as against \$65,-000,000 4 $\frac{1}{4}$ s put out in April 1914, before the advent of the European war. The change of New York City from  $4\frac{1}{4}\%$  will account for the diminution of the amount and proportion of the  $4\frac{1}{4}$ s. This proportion was for 1915 only 9.33% against 16.75% in 1914. For the same reason the proportion of  $4\frac{1}{2}$ s in the total has increased from 33.33% to 38.74%. Nevertheless, the general tendency of interest rates was but slightly modified by the changes noted. 3% and 31% bonds have disappeared, the ruling rates now running from 4% to 5%. The contrast in this respect with earlier periods continues noteworthy in the extreme. A dozen years ago the prevailing interest rates in municipal bonds were 3@31%and 4%. The issues at above 4% were relatively small. Now the great bulk of the whole is at interest rates above 4%. In 1915, for instance, the 41%and 5% issues constituted 62.36% of the whole. The 41% rate, as we have seen, is most in vogue. In

The  $4\frac{1}{2}$ % rate, as we have seen, is most in vogue. In 1915 \$192,310,181 of the new issues bore this rate, constituting 38.74% of the whole, as against \$152,775,-791, or 33.33% of the whole in 1914; \$131,651,211, or 34.09% in 1913; \$87,009,994 in 1912, or 22.71%; and only \$48,926,761 in 1909, or 14.86%. On the other hand, if we go only one year further back, to 1908, we find that the  $4\frac{1}{2}$ s then also made up a great part of the whole, being \$104,272,059, or 33.62%. That was a period, however, when  $4\frac{1}{2}$ s and 4s were still the most popular issues; sales of 4s in that year (1908) reached \$123,984,503, or 39.91%. It was the period when 4s and  $4\frac{1}{2}$ s had replaced the old rates of 3 and  $3\frac{1}{2}$ %, marking the culmination of the first stage of the advance in interest rates. We have prepared the following summary to indicate the aggregate of the bonds put out at the different interest rates for 1901, for 1906 and for 1914 and 1915. We exclude the New York City sinking fund takings, as these are usually low rate issues and yet furnish no criterion of market conditions.

In 1901, it will be seen, out of a total of \$140,185,-499 bonds placed, no less than \$116,240,993, or 82.92% of the whole, consisted of 3s,  $3\frac{1}{2}$ s and 4s, the  $3\frac{1}{2}$ s forming much the larger part, they comprising \$68,693,268, or nearly one-half of the year's disposals. In 1915, on the other hand, with a total of sales raised to \$496,498,057, no 3s were floated and only \$30,000 of  $3\frac{1}{2}$ s, and no less than \$441,170,074 of the year's issues, or 88.85%, were 4s,  $4\frac{1}{4}$ s,  $4\frac{1}{2}$ s and 5s.

To complete our analysis of the bond disposals of 1914 we furnish below a comparison of the new bond issues according to the purposes for which they were used or created.

After apportioning the amounts under the different heads an aggregate of \$98,133,035 remains for 1915, it will be seen, under the designation "miscellaneous" and the amounts for other years are also large. In explanation it should be said that this item comprises mainly bonds issued for special purposes, like the canal and canal terminal bonds of New York State (of which \$17,000,000 were put out in 1915), the \$30,000,000 rapid transit and the \$2,357,102 dock and ferry bonds of New York City,

the \$4,700,000 rapid transit bonds of Boston, the \$10,360,000 bonds sold by Philadelphia for "various municipal purposes," and bonds for the improvement of harbors and levees, irrigation bonds, street railway bonds, &c., purposes of not sufficiently common occurrence to warrant our providing an extra column for the same in our full-page compilation. A foot-note to the detailed table on the following page gives the leading items that go to make up the "miscellaneous" column.

In conclusion, we will reiterate what we have said in previous years, namely that our figures deal only with issues of a permanent character—such as, by their nature, constitute a real addition to the debts of the municipalities. We rigidly exclude floatingdebt obligations and everything of a temporary nature, and we are careful also to avoid duplication or the inclusion of loans that do not belong in the footings. As the best explanation of our reasons for excluding floating-debt obligations, we may refer to the case of this city, which during 1915 issued no less than \$110,177,322 of temporary obligations in anticipation of taxes, and redeemed \$118,272,619 of the same class of obligations, and also issued \$44,981,555 of corporate stock notes (a new form of obligation since 1912), and retired \$69,778,247 of the same.

In order that the reader may know what the grand aggregate of the sales for the 12 months would be with all these various items included, we will say that the total in that event would be over \$1,053,-000,000. The actual municipal bond sales for the twelve months within the territorial limits of the United States were, we have seen, \$498,557,993, the temporary loans reached \$249,251,863; sales of permanent securities by Canadian municipalities (including \$169,333,333 Dominion of Canada stock and \$45,480,800 Provincial loans) were \$280,230,470; general fund bonds of New York City \$23,000,000 and general fund bonds of Baltimore \$300,000, besides which Porto Rico sold \$839,000 bonds and the Territory of Hawaii \$1,179,500, giving a grand total of \$1,053,358,826. In the following we furnish a five year tabular comparison of the various classes of new issues:

 \* Includes temporary securities (revenue bonds and corporate stock notes) issued by New York City: 8155,158,878 in 1915, \$300,922,414 in 1914, \$467,386,432 in 1913, \$243,062,183 in 1912 and \$304,275,292 in 1911.

It will be noted that in 1915 the amount of temporary loans negotiated greatly diminished, indicating that resort to temporary borrowing was not found necessary to the same extent as in 1914. As a matter of fact, however, practically the entire difference is due to the diminished temporary borrowing of New York City, which in 1915 placed only \$155,158,877 of temporary loans, against \$300,922,-414 in 1914 and \$467,386,432 in 1913. It will be recalled that New York City in the autumn of 1914, when the disorganization of the investment market was at its acutest point, was obliged to place 100 million dollars of 1 to 3-year obligations at an interest rate of 6% per annum. Of the \$71,000,000 long-term bonds floated by the City in June 1915, no less than \$57,000,000 was to take up a corresponding amount of these 6% obligations of last year.

A full page tabular presentation of the sales of a permanent character within the limits of the United States for the late year appears on the following page. In giving this compilation, we are continuing a practice begun by us with the bond transactions of 1901.

## and Its History. States Debt United

The following is a statement of the debt of the United States past and present. To add to its usefulness we give refer-ences to the laws authorizing each of the issues of bonds outstanding to-day. All our figures, except when otherwise noted, represent the status at the close of business June 30 or the beginning of business on July 1 of each fiscal year. To conform to that feature and yet furnish information through which any reader can always have the data for a correct exhibit of the debt situation at any past or future day, and make an accurate com-parison with previous years, we present, first, the details as they stood at the close of the last fiscal year ending June 30 1915; second, the changes in those details since June 30 1915 down to May 1 1916; third, the items of interest-bearing debt, &c., at the beginning of each fiscal year since July 1 1878; fourth, we publish in the "Chronicle" every month—usually the third or fourth Saturday—the full detailed Government statement of the debt as reported by the Treasurer on the last day of the previous month; some months lack of space forces us to delay the publication to a later week.

POSTAL SAVINGS BONDS.—(Column 8.) The Act of June 25 1910, authorized the issue to depositors with the United States under the postal Savings Bank Law upon the surrender of allor any part of his deposits, of course of the denominations of \$20, \$40, \$50, \$50, \$50, \$100 and multiples of \$100 and \$500. Under the Act \$7, 307, 100 of such bonds refeemable at various dates between July 1 1912 and July 1 1912 and July 1 1916 and payable between July 1 1931 and like date in 1935 and \$938,000 refeemable after Jan. 1 1917 and payable between July 1 1918 and like date in 1935 and \$938,000 refeemable after Jan. 1 1917 and payable federal Reserve Act of 1913. We dust he provision in full: ONE-YEAR TREASURY NOTES.—(Column 3a). These Treasury Notes, as also the Conversion Bonds, are authorized by Section 18 of the United States without the circulation priviles to an amount on the version and states to be and are now outstanding.

f Continued at 3 35%. f Continued at 3 %.

CONVERSION BONDS-(Column 1a). (See explanation under one-year Treasury Notes.) Of these bonds \$5,545,300 had been issued to May 1. "CERTIFICATES OF INDEBTEDNESS" OF 1908, Authorized by Act of June 13 1898. \$15,436,500 of the certificates were issued in denomi-nations of \$50, payable to bearer: dated Nov. 20 1907; Interest at the rate of 5% per annum, payable with the principal sum on and after Nov. 20 1908, on presentation of the certificates for redemption. For details, "Chronicle," Nov. 23 1907, page 1311—the certificates have all been retired.

In April 1895 we gave a table showing the debt of the United States on the first day of July 1856, and every subsequent year. It is not necessary to repeat all those figures. We have determined on this occasion to begin our statement with 1878, as that year antedates all of the issues now outstanding, and yet carries the record sufficiently far back to show the nature and extent of the Government securities when the refunding operations of that period began. It has the advantage, too, of giving separate and distinct each issue of bonds now outstanding. The statement is subjoined.

Note 1.—The annual interest charge is computed upon the amount of outstanding principal at the close of the fiscal year, except in the case of October, for which the total is of that date, and is exclusive of interest charge on Pacific Railway bonds. Note 2.—The figures for July 1 1879 were made up assuming pending funding operations to have been completed. Note 3.—Under the Act of March 14 1900 the Treasury Department has kept the gold Reserve Fund as a separate item, and not included it in the available cash balance. In the above statement, however, we have continued to include the item so as not to embarrass comparison with previous years, not table. a Under the new form of statement issued by the Treasury Department the gold reserve (\$152.979.023 21 on May 1) is deducted from the total of United States notes outstanding, decreasing to that extent the debt bearing no interest and consequently making a similar reduction in the balance of Cash available to pay maturing obligations.

PACIFIC RAILROAD DEBT.—One other class of bonded debt must be referred to which has never been included in the total of Government debt—we mean the Pacific Railroad subsidy debt. To show the situation of this indebtedness we have merely to state that the balance unsettled May 1 1916 consisted of principal and interest of the Central Branch of the Union Pacific RR., \$1,600,000 and \$2,004,203 23 respectively, or \$3,604,203 23 in all.

TAXATION OF MUNICIPAL BONDS.—Chap. 55 of the Laws of 1907 provides that any city, town, precinct or village district may exempt from taxation any future issue of its bonds, provided such exemption shall apply only to bonds owned and held by citizens of said city, town, precince or village district. State bonds are subject to taxation unless exempted by the terms of the Act under which they are issued. In 1913 the privilege of exemption was extended by Chapter 51 of the Acts for that year to future bond issues by school districts when held by residents. Another Act of 1913 (Chapter 112) exempts from taxation all the bonds or notes of the State or any of its minor civil divisions bearing not exceeding 5% interest.

1900.....428.556 [1860.....174,620] [1820..... 83,059] STATE AND MUNICIPAL INDEBTEDNESS LIMITATIONS.--Un-der Section 13, Article IV of the State constitution, the General Assembly has no power to incur State debt to an amount exceeding 550,000 without the consent of the people, except in time of war or of insurrection or in-vasion. In no case is the Assembly to pledge the faith of the State (or the payment of obligations of others without the Approval of the people. In reference to eity debts, there is nothing in the constitution of Rhode Island limiting the amount of such obligations. The following, howeyer, are two sections taken from Title S, Chapter 46 (page 221) of the Itevised Statutes of the State of 1900. Since 1878 these provisions have been in force, and consequently 3% of the taxable property has been the limit of the power of each town (which includes city) to create debt.

1907. 17.290.660 1907. 17.290.660 + Comptroller's temporary loan certificates amounting to \$650.000 were also outstanding Sept. 30 1914. \* In addition, there were outstanding Sept. 30 1913 & 27.000.000 notes issued in anticipat-on of the sale of bonds. TAX VALUATION, TAX RATE, &c.—Large increase in values for 1904, due mainly to New York City's real estate being assessed about full value. The constitutional amendment adopted in 1905 permits interest and sing find requirements to be met out of funds in the Treasury instead of by menns of a direct tax as heretofore. No direct State levy, therefore, was made in 1906 to 1910, revenue being entirely raised through the opera-tion of mortgage; stock transfer, flouor, inheritance and corporation taxes. In July 1911, however, the Legislature again imposed a direct tax of 6-10 of a milit on each dollar of real and personal property. In 1012 the Legisla-ture made provision for a direct tax a bull was introduced to permit the transfer to the general fund of a part of the linking fund. This meas-me, however, failed to pass both houses. V. 96, p. 1435. On Sept. 17 1913, while the Legislature was in extra session, a bill was passed authorizing the levy of a direct tax of 5805-10000 of a mill. \*No assessment or tax in 1898. In 1903 the assessment of real estate was made on the basis of about real value; 1903 and subsequent values, therefore, are greatly in excess of those for previous years, and consequently the tax rate is much lower. Under a law passed by the 1911 Lerislature, the collection of taxes takes place semi-annually instead of annually, as heretofore, V. 93, p. 63.<sup>1</sup> [State Supreme Court early in 1916 decided against the city in its efforts to have value of bank shares excluded from personal tax valuation in levying direct State tax. See "Chronicle" of Mar. 4 1916, page 906.<sup>1</sup> PAR VALUE OF BONDS.—Under the provisions of the city charter, registered bonds may be issued in denominations of \$10 of any multiple thereof.

COUNTY OF QUEENS. The debt of the county of Queens is reported under the county of warm name on a subsequent page; the amount of the original debt which was chargeable to the City of New York was adjudicated finally to be 33,796,032.11, leaving \$1,011.967.89 as Nassau County's share of the old indebtedness. Instead of apportion-ing certain bonds to N. Y. City and to Nassau County, the debt and in-terest is not divided, but N. Y. City pays 78,952414973 of the principal and interest as 16 becomes due, and Nassau County 21.047585027. The Comptroller of N. Y. City acts as agent in the payment of the debt. The amount of Queens County bonds outstanding on Apr. 29.1916 was \$1,345,000, of which \$3,432,851 was chargeable to New York City. COUNTY OF RICHMOND. Payable from Taxation. Payable from Taxation. SAVINGS BANKS INVESTMENTS, —There are in this State general banking laws under which savings banks may be organized, but a number of the savings institutions have been incorporated under special charter. However, in both the general and special laws there appears to be a pretty general authority granted for investing the deposits. The general law states that—

of the sayings institutions have open incorporated index special charter. However, in both the general and special laws there appears to be a pretty general authority granted for investing the deposits. The general law states that— Any sayings institution incorporated under this article shall be capable of receiving from any person or persons, or bodies corporate or politic, any deposits of money, which shall be invested or loaned out on good security in the discretion of the directors, provided that no part of the funds of said corpora-tion shall be loaned to any officer or director of such corporation. In a special charter granted to the Germania Savings Bank of Baltmore in 1890, the power to loan the deposits is made a little more definite. The sec-tion referring to that subject states that the "corporation shall have power to "borrow money, receive money on deposit, loan money, taking such secur-'ity therefor, either real or personal, as the board of directors may deem "sufficient, provided that no part of the funds of said corporation "board to an officer or director thereof." We cannot discover any marked difference in the two provisions cited except that the escurity can be either real or personal. But as much as that would, we think, be assumed as authorized under the general provi-sion, since no limit is made, and loaning on bond and mortgage is always a legitimate part of the business of savings banks. # District of Columbia.

(INCLUDING THE LATE CORPORATION OF WASHINGTON.)

On July 1 1878 the duties of the Sinking Fund Commissioners of the District of Columbia were transferred to the Treasurer of the United States, and since that date Congress has appropriated annually a sum suf-ficient to pay not only the interest on the District's bonds, but also, it is believed, sufficient to extinguish the entire debt of the District upon the maturity of the 3.65% loan, in 1924. Bonds are tax-exempt. LOANS- - - Interest - Principal

\*The faith of the United States was pledged to secure the payment of the interest on these bonds and to maintain a sinking fund sufficient to redeem them all by maturity. The issue was limited to \$15,000,000 and is exempt from taxation by Federal, State or municipal authority. Of the \$15,000,000 bonds authorized, \$14,097,300 were issued, of which \$2,476,300 have been retired to date, leaving \$6,521,000 outstanding. The coupon bonds are for \$50 and \$500 each, the registered bonds \$1,000 and \$5,000 each.

INTEREST on the bonds is paid at the United States Treasury in Wash-ington and at the Sub-Treasury in New York. TOTAL DEBT- Apr. 1 16 Oct. 1 15. Oct. 1 '14. Oct. 1 '13. Total funded debt. Sub-Treasury in New York. On July 1 1878, when the duties of the Sinking Fund Commissioners of the District were transferred to the Treasurer of the United States, the total debt was 222.106.560. On April 1 1916, stock and bonds to the amount of \$1.080 on which interest has ceased were still outstanding: funds for their payment are deposited in the United States Treasury. Below we give the figures of assessed valuation of real estate and personal property. The tax rates shown in the tables are those levied on real estate values. The rate of tax on personal property vales, ranging in 1915 from 115 % to as high as 6% on the gross earnings of national banks and trust cos

Bittler LEGISLATURE meets blennially in odd years on the Thursday after the first Monday in January, and sessions are limited to sixty-one days.

HISTORY OF DEBT.—The historical details of Indiana's State debt from 1832 ap to 1891 will be found in the "State and City Supplement" of April 1894, pages 55 and 86. On Jan. 4 1916 the only bonds outstanding were \$25,000 3% Vincennes University bonds dated 1909 and maturing April 10 1917. An issue of \$340,000 Purtue University bonds heretofore included in the State a bonded debt are now a trust fund, in accordance with an opinion of the State Attorney-General, rendered Jan. 4 1916. Money has been set aside for the redemption of the above \$25,000 honds.

ASSESSED VALUATION.—The following table shows the total valua-tion of real and personal property, including railroad and other property; also the State tax rate (per \$1,000) for the general fund for the years indi-cated. By an Act of the Legislature of 1905 the General Fund tax was fixed at \$1,20 per \$1,000 for each of the years 1905, 1906, 1907, and 90 cents per \$1,000 annually thereafter; the law also stopped levy for sinking fund until 1908, when it was again resumed.

DEBT LIMITATION.—In the present constitution of Indiana, which went into effect Nov. I 1851, and was amended in 1881, there are explicit provisions limiting the power of both the State and its municipalities to contract debt.

contract debt. FIRST, as to the State, Section 5 of Article 10 provides that no debt except to meet casual deficits in revenue, to pay interest, to repel inva-sion, &c., can be contracted. The section in full is subjoined. CREATION OF DEBT FORBIDDEN.—No law shall authorize any debt to be contracted on behalf of the State except in the following cases: To meet casual deficits in the revenue; to pay interest on State debt; to repel invasion, suppress insurrection, or, if hostilities be threatened, provide for the public defense. In the sixth section of the same article the last clause prohibits the assumption by the State of the debts of any municipality or corporation. The clause referred to reads as follows: "Nor shall the General Assembly ever on behalf of the State assume the debts of any county, city, town or township, nor of any corporation. winterver."

"Nor shall the General Assembly aver on behalf of the State assume the debts of any county, city, town or township, nor of any cornoration, "SECOND, as to municipalities, the provision contained in the consti-tution seems to be equally clear and emphasic, and, as will be found, fixes that are seems to be equally clear and emphasic, and, as will be found, fixes anondment to the ISB1 constitution adopted March 14 ISB1) which relates to this subject, and we quote the article as follows: "ITED—EXCESS VOID.—No political or municipal corporation this State shall ever become indebted in any manner or for any pur-pose to an amount in the agregate exceeding 2% on the valuation of the assessment for State and county taxes provide to the incurring of such assessment for State and county taxes provide to the incurring of such assessment for State and county taxes provide to the incurring of such assessment for State and county taxes provide to the incurring of such assessment for State and county taxes provide to the incurring of such assessment for State and county taxes provide the anonut given by such corporation shall be void *Provided*. Several such laws were passed at the IS99 session of the Legis taxes." Several such laws were passed at the IS99 session of the Legis taxes. But in the case of Stribe Vs. Cor, Treas, 111 Ind., the Supreme Court of Indiana held that gravel read bonks are not properly indebted-soft the county—hence do not corporation unless paid for at time of such subscription. The section which down within the inhibition of Sketion 30 at the co

The prohibition which this section contains applies, as already stated, only to counties. Consequently the Legislature was at liberty to author-ize cities to subscribe to the stock of railroads, as it did by a general law passed in 1869, granting the power to subscribe to the stock of any railroad running into or through any city or near its corporate limits. Other laws of a somewhat similar character have been passed at other dates. We notice one law, too (Section 5377, Burns's Annotated Statutes, revision 1901), which authorizes counties bordering on the State line, or any town-ship or city situated in such county, to subscribe for railroad stock. In that law no attempt is made to endow counties with power to issue bonds for this purpose (thus obeying the mandate of the constitution), though by the succeeding section (Section 5378) cities are given authority to issue such bonds. COUNTIES are apparently restricted by statute to a lower than the

Such bonds. COUNTIES are apparently restricted by statute to a lower than the constitutional limit of 2% in the matter of creating certain kinds of debt. For instance, Section 5991 of Burns's Annotated Statutes, 1914, authorizes any county to issue bonds when necessary to construct, complete or re-pair court house, jail or other county buildings, or to fund existing debt; in those cases county commissioners may borrow for that purpose not ex-ceeding 1% on assessed valuation and issue bonds therefor, provided that no second or subsequent loan shall be made or authorized so long as any former loan made under the provisions of the Act shall remain unpaid. From Section 6094 it appears, moreover, that whenever the *aggregate* tion of over 20,000 amounts to or exceeds 1%, it is not lawful to increase such indebtedness, funded or otherwise, of any county having a voling popula-tion of over 20,000 amounts to or exceeds 1%, it is not lawful to increase in anticipation of the rowenue of the then current fiscal year and not exceeding year.

In anteriary two-thirds of the amount of the county tax duplicate of the pre-ceeding year. Limit of 1% may be exceeded in counties for funding purposes in certain cases where the aggregate indebtedness in 1879 exceeded 1% (see Burns's Revised Statutes, 1914, Section 6092). Also the limit of 2% may be exceeded for the purpose of making gravel roads (see above), the Supreme Court having decided that gravel road bonds are not properly an indebtedness of the county. By statute the limit for such bonds (Section 7725a) is 4%. In addition to the foregoing, general statutes have been passed by the Legislature granting general powers to cities and towns to issue bonds for legitimate corporate purposes, subject, however, to the constitutional finit of 2% on valuation. But we have not the space to set out here the details or the details of the other legislation applicable to cities of larger and smaller population, and covering specific purposes, such as water-works, &c. GRAVEL ROAD LAW OF 1995,—The State Supreme Court in No-

 GRAVEL ROAD LAW OF 1905.—The State Supreme Court in Normber 1909 decided that this Act was unconstitutional on the ground hyperial Act. The decision was based on that part of the law which provides that "whenever a petition sinced by fifty or more freeholders and yoters of any township in any county in this State includes any incorporated town or eity in such township baving a population of less that 30,000 (inhabitants, praying." Act. the commissioners shall proceed to carry out that this section as printed contained a clerical error, and the Court on Jan. 25 1910 reversed itself and upheld the contention that the word "Includes" should be read "including", thereby making eligible to become petitioners for gravel roads any freeholder and voters in any township with the exception of those residing in incorporated towns and clifbs of over 30,000 (inhabitants, which latter should be read itself and upheld the contention that the word "Includes" should be read "Including", thereby making eligible to become petitioners for gravel roads any freeholder and voter in any township with the exception of those residing in incorporated towns and clifbs of over 30,000 (inhabitants, which latter should be neglistate or 1903 passed a law (Chan. 179, Laws of 1903) exempting from taxation all bonds, notes de, hereafter issued by State or municipal corporations. The sort follow:

value instead of 1-5—see remarks below. Under a law passed Feb. 25 1898 there is a general assessment of real estate but once in every four years instead of annually, personal prop-erty is listed every year. The law also provided that property shall be appraised at full value, but assessed at only one-fifth of such value. This law was changed, however, by an Act passed in 1909 which provides for the assessment of property at one-third of the actual value. The new basis of assessment went into effect in 1909, with the result that values for pondingly.

SECTION 20. The State shall never pay, assume or become responsible or debts of liabilities of, or in any manner give, loan or extend its credit o or in aid of, any public or other corporation, association or individual.

o or in all of, any public or other corporation, association or individual. CANAL BONDS.—At the general election in November 1908 the people ys vote of 692.522 "for" to 195.177 "against" adopted an amendment to be State constitution which provides for the issuance of not exceeding \$20.-00.000 bonds, to construct a deep waterway or canal, and to erect, equip and maintain power plants, locks, bridges, dams and appliances suitable or the development and utilization of the water power. See V 85, p. 1289-ad V, 87, p. 1372. No action has yet been taken to avail of this amend-nent, and o. Oct. 25 1911 the Illinois House of Representatives defeated a lift for the appointment of a deep waterway commission and for obtaining rater-power sites between Lockport and Utica. See V. 93, p. 1211. SECOND amendment of a deep waterway commission and for obtaining

Althe power sites between Lockport and Utica. See V. 93, p. 1211. SECOND. municipal indebtedness is regulated only in the constitution of 870. In that instrument the subject is dealt with in all its phases. *Pirst* a provision in Article 3, Section 3, forbidding the General Assembly and very municipality from making any appropriation in all of any sectarian unpose. Second is a "separate section" forbidding any such monicipality rom becoming a subscriber to the stock of any railroad, &c., or to foan its redit. *Third* is the broad and general provision. Section 12, Article 9, hitch limits the indebtedness of all municipalities to 5% of the value of hit stability of the stock of any railroad, &c. or to the value of hit stability therein. "&c. We give these sections below:

ARTICLE S, Section 3. Neither the General Assembly nor any county ity, town, township, school district or other public corporation shall ever nake any appropriation, or pay from any public fund whatever, anything aid of any church or sectarian purpose, or to help support or sustain any chool, academy, seminary, college, university or other literary or scientific satisfies any seminary, college, university or other literary or scientific satisfies any seminary, college, university or other literary or scientific or shall any grant or donation of land, money or other personal property war be made by the State or any such public corporation to any church r for any sectarian purpose.

or for any sectarian purpose. ARTICLE 9, Section 12. No county, city, township, school district or other municipal corporation shall be allowed to become indebted in any manner or for any purpose to an amount, including existing indebtedness, in the aggregate exceeding 5% on the value of the saxable property therein, to be ascertained by the last assessment for State and county taxes previous to the incurring of such indebtedness. Any county, city, school district or other municipal corporation incurring any indebtedness as aforesaid shall, before or at the time of doing so, provide for the collection of a direct annual tax sufficient to pay the laters to n such debt as it falls due, and also to pay and discharge the principal thereof within twenty years from the time of contracting the same. This section shall not be construed to pre-vent any county, city, township, school district or other municipal corpora-tion from issuing their bonds in compliance with any vote of the people which may have been had prior to the adoption of this constitution in pur-suance of any law providing therefor.

which may have been had prior to the adoption of this constitution in pur-suance of any law providing therefor. SEPARATE Sections. [Municipal subscriptions to railroads, &c.] No county, dity, town, township or other municipality shall ever become sub-scriber to the capital stock of any railroad or private corporation, or make donation to or loan its credit in aid of such corporation; provided, honever, that the adoption of this Article shall not be construed as affecting the right of any such municipality to make such subscriptions where the same have been authorized under existing laws by a vote of the people of such municipalities prior to such adoption. The foregoing limitation to 5% is general, as will be seen—that is, it ap-ples to all municipalities. With this limitation preserved the Legislature has passed general laws authorizing the City Council in cities and the board of trustees in villages to issue bonds for corporate purposes, for refunding and consolidating dobt, for waterworks, &c., and the county board of any county has been authorized by general attaute to issue, when it deems if a preceduiste of the issue. An attempt was made to limit 'any county fuy, township, school district or municipal corporation. In counties county as preceduiste of the issue. An attempt was made to limit 'any county fuy, township, school district or municipal corporation. In counties county and r. 12 1900 the State Supreme Court ruled that this was an arbitrary and unmatural classification of municipalities which could not be sustained. See Vol. 70, p. 242. The matter of the assue thas been complicated in late years by changes in the method of assessing property. A letter of the State Auditor in Y. 74, p. 741, throws some light on these changes.

TAXATION OF MUNICIPAL BONDS.—J. S. McCullongh, State Aud-itor, advised us under date of Dec. 11 1911 that there is no law exempting from taxation bonds, notes or other evidences of indebtedness issued by the State or any of its municipalities.

State of any of its municipalities. INVESTMENT OF TRUST FUNDS.—Chapter 140B of the Revised Statutes of 1911 provides that : Investments of trust funds by trustees may, when not otherwise provided by the will, deed, decree, gift, grant, or other instrument creating or fixing the respective trust, be in the bonds of the United States, or of any of the States of the United States, or in the first mortgages upon real estate in any State, or in the bonds of any county, city or municipality in any State, or in the bonds of any county, city or municipality in any State, or in the first mortgage bonds of any corporation of any State upon which no default in payment of interest shall have occurred, for a period of five years, but no trustee shall be authorized by this act to invest trust funds in any bonds in which cautions and intelli-gent persons do not invest their own money, and any trustee may continue to hold any investment received by him under the trust, or any increase thereof.

The amendments to the tax has providing for a decrease in the state of the second and introduce the state of the second and the state of the st

WATER CEETIFICATES IN EXCESS OF DEBT LIMIT. —A law was passed in 1899 allowing cities bonded to their legal limit to issue (for the improvement of wate-works) certificates against the earnings of the Water-Department without regard to the bonded indebtedness. Several munici-palities are understood to have taken advantage of this law. In the case of the City of Joliet, however, which attempted to issue bonds under the law, the matter was taken into the courts in a test suit, and an injunction granted by Judge Dibell, who held that the 5% limit could not be exceeded, V, 73, p. 94. This decision was confirmed by Supreme Court. V. 74, p. 491.

V. 73. p. 94. This decision was confirmed by Supreme Court. V. 74, p. 491. IMPROVEMENT BONDS.—There is a kind of improvement bond authorized in some cases which is made a special lien on the land benefited and to which the 5% limit has no reference. We refer to cases which come under the law entitled "To divide cities and villages subject to overflow into improvement districts." This statute provides that any such city or village or part thereof may be laid off into an improvement district for the purpose of drahning, raising the grade of the streets and improving the district; that after the cost for the work has been ascertained as to seen such city or village may issue bonds sufficient to part to ease such city or village may issue bonds sufficient to pay the assessment. In that case the bonds are a lien on the lote, blocks or parts thereof which shall be designated therein; but before the issue the evener of the lots, &c., to be charged must endorse upon the base of such bond his consent, under seal, in substance, as follows: "I hereby indores the within bond and consent that the lot or lots or parts thereof therein designated shall become liable for the interest and principal therein maned, and the same shall be a lien upon said property from this date until paid off and discharged." The bond when executed by the city or village and so endorsed by the evener shall be recorded in the Recorder's office in the county, and such record shall be a notice of the lien created to the same extent as the record of morizages is a notice. We have room to give only this very brief and imperfact outline of this statute. The whole law will be found in Hurd's Revised Statutes of Illinois, the 1911 edition, pages 345, 346 and 347.

LEGISLATURE meets biendally in odd years the first Wednesday in January, and there is no limit to the length of seesion, excepting special seesions, in attending which members can receive no more than 20 days pay. HISTORY OF DEBT.—The historical details of Michigao's State debt up to 1894 will be found in the "State and City Supplement" of April 1894, hage 98. In 1864 the State Treasurer reported the funded debt as \$3.880. 599 and \$1,450.472 additional "trust fund debt". The State has no bonded debt at present. The "trust fund debt" is however, a misnomer. In explanation it should be said that the United States Government set aside certain lands in the State of Michigan for educational purposes, and under the Michigan statutes the money received from the said of these hards is used to pay the general expenses of the States the aw provides, nowever, that a certain specified rate of interest must be annually figured on the tail amount accumulated from said sales and be paid over to the educational bestitutions specified. The amount of interest to be so paid is raised by taxation.

EQUALIZED VALUATION.—Since 1856 the equalized valuation has been determined only once in five years. The following shows the equalized valuation and tax rate for State purposes.

all taxation. V. 88, p. 1452. TAX ON SECURED DEBTS.—The 1913 Legislature passed an Act (No. 142) providing that by the payment of a specific tax of 15%, "secured debts" may be exempted from the payment of further general taxes. In 1915 this haw was amended so as to exempt multipal bonds issued by places outside the State upon the payment of a similar tax. See "Chron-lele" of May 29 1915, State & City Department. The Attorney-General has ruide that drainage and laves bonds do not come within the scope of the law referred to. See V. 101, p. 709. SAVINGS BANK INVESTMENTS—The law governing investments by Michikan savings banks as amended in 1913 was printed in full in the "Chronicle" of May 21 1913, page 1507.

The Legislature may also borrow money to repel invasion, suppress insurrection or defend the State in time of war; but the money thus raised shall be applied exclusively to the object for which the loan was authorized or to the payment of the debt thereby created. SECTION 9. Etidences of debt. No scrip, certificate or other evidence of State debt whatsover shall be issued, except for such debts as are au-thorized by the sixth and seventh sections of this article. SECTION 10. assume property of the State as determined by the last preceding State assessment. (2) *CITTES, counties, towns, elliages, &c.*, were unrestricted except by legislative enactment until 1874. Since that amendment was adopted 5% on the value of the taxable property has been the extreme amount of debt permissible for any municipality. Not only is that the case, but, as will be seen, the municipality is required before, or at the time when it incurs any indebtedness, to make provision for an annual tax sufficielent to pay the in-terest and also sufficient to pay the principal within 20 years from the time of contracting the debt. The voters in Nov. 1913 adopted an amendment to Section 3 of Article XI, extending the time to fifty years within which clicies or counties having a population of 150,000 or over shall pay debts incurred for the acquisition of land. The section referred to now reads as follows:

clies or counties having a population of 150,000 or over shall pay debts incurred for the acquisition of land. The section referred to now reads as follows: Section 3, Article XI.—"It shall be the duty of the Legislature, and they are hereby empowered to provide for the ortaalion, assessment, borrow-ng money, contracting debts and loaning their credit, so as to prevent abuses in assessments and taxation, and in contracting debts by such unleipal corporations." "No county, city, town, village, school district or other municipal corpora-tion shall be allowed to become indebted in any manner or for any purpose, to any amount, including existing indebtedness in the aggregate exceeding 5% on the value of the taxable property therein, to be ascertained by the last assessment for State and county taxes previous to the incurring of such indebtedness. Any county, city, town, village, school district or other municipal corporation incurring any indebtedness as aforesaid shall, before or at the time of doing so provide for the collection of a direct annual tax sufficient to pay the interest on such debt as it fails due, and also to pay and discharge the principal thereof within twenty years from the time of con-tracting the same, except that when such indebtedness is incurred in the acquisition of lands by clies, or by counties having a population of one hundred and fifty thousand or over, for public, municipal due poses or for annual tax sufficient to pay the interest on such debt as it fails due, and also to pay and also to pay and discharge the principal thereof within the period not ex-ceeding fifty years from the time of so doing, provide for the collection of a direct annual tax sufficient to pay the principal thereof within the period not ex-ceeding fifty years from the time of contracting the same." The Legislature has from time to time passed laws providing for the issuance of bonds for various specified purposes, but these laws are too numerous to be given here. # State of Minnesota.

Listo 1944 Order in January, and sessions are limited to minety days. HISTORY OF DEBT. —For the early history of Minnesota's debt see "State and City Supplement." April 1893, page 103. The State has no bonded debt, but certificates of indebtedness have been authorized by the Legislature for various purposes. Many are held by the school and other State funds. They run only a few years. The certificate debt Feb. 18 1916 was as follows: \$\$21,000 prison buildings; \$30,000 interlate hospital; \$421,000 educational buildings; \$20,000 national guard armories. \$125,000 itaska Park and \$50,000 Historical Society Bids. Of the total (\$1,657,000) \$596,000 are held by State funds. Payment of the above certificates, which are payable from the income from the 2% precived from ilguor licenses issued by local municipalities. TNTEREST on all certificates, which are payable from the income from the 2% precived from ilguor licenses issued by local municipalities. TNTEREST on all certificates, which are payable from the information of the above certificates of an exception of the hospital certi-ficates, is payable at State Treasurer's office. PERMANENT SCHOOL FUND.—The school fund on Aug. 1 1015 amounted to \$25,162,123. Including \$50,4421 in cash. \$5,916,956 in and contracts and \$19,194,725 in bonds. The permanent university fund on Aug. 1 1915 amounted to \$1,627,606; swamp land fund to \$4,792,008 and the internal improvement land fund to \$360,166. TAXABLE VALUATION.—The taxable valuation, total tax lavied and the rate of State tax have been as follows for the years named: <u>Tarable Valuation</u> Total Levied, pers 1,000

" This is exclusive of \$213.078.632, representing monors and credits, which are assessed at their full cash value. These in 1915 amounted to \$196,173.719." "The total taxes levied in the above table include the amounts raised not only for Nata purposes, but also all taxes raised by the various minor divisions of the State. The tax rate, however, is for State purposes, and in 1915 it was \$2.87; adding the tax of \$1.23 for school and university purposes, the total tax rate was \$4.10. "ASSESSMENTS NOW MADE ON NEW BASIS.—The Legislature in 1915 passed a new law, known as Chapter 483; General Laws; 1913, under which the county assessor assesses platted real estate at 40% of its full value and unplatted at 33 1-3%, where previously it was customary to assess real property at 50% of its full valuation and any improvement thereon at 50%. The personal property under this new law is now being assessed at 33 1-3% and 25% of its full valuation, where formerly about 50% was assessed. DEBT LIMITATION.—Minescoat has protected the \$126 for entity at severy kind of debt making. That instrument fixes the link at \$250,000 "for the purpose of defraying extraordinary expenditures"; and an amend-ment, ratified in 1879, extended this power to \$250,000 additional "for receting and completing buildings for the insame, a deaf, dumb and blind sy turn, and State prison." Besides the foregoing, it is also provided that the State credit shall not be loaned, &c. With regard to the debt of municipalities there is but one section in the constitution which relates to that subject, and that has reference to making ralicoal debt.

FIRST, as to State indebtedness, the sections which treat of the subject are in article 9, sections 5, 6, 7, 8 and 14. There is no limit to length of session.

HISTORY OF DEBT.—For the early history of Iowa's debt see "State and City Supplement" of April 1893, page 108. FINANCIAL CONDITION.—Iowa has no bonded debt. On Dee, 31 1915 there were 3410.744 94 warrants outstanding and the State had cash in the general revenue fund amounting to 3281,618 90. The Permanent School Fund on Dec. 31 1915 aggregated \$4,804,445 60. During 1913, 1914 and 1915 the State issued and disposed of \$955,000 5% certificates, the proceeds of which are to be issued for the extension of the capitol grounds. Up to Dec. 31 1915 3666,200 of these certificates had been redeemed, leaving \$258,800 outstanding on that date. EQUALZED VALUATION —The granulard second metation

Previously moneys and credits were assessed at full value and taxed at 25% of this value the same as other monarky. property

TAX RATE. —The State tax (per \$1.000) for 1915 was \$4.50; this included \$2.22 general tax, \$2.11 for educational institutions and 17 cents for Capi-tol ground extension.

32.22 general tax, \$2.11 for educational institutions and 17 cents for Capitol ground extension. DEBT LIMITATION.—Iowa's constitution restricts the creating of dabt, both State debt and municipal debt. We have not the space here to dabt, both State debt and municipal debt. We have not the space here to the ground in full by referring to the State and City Section for they may be found in full by referring to the State and City Section for Nov. 1913, page 119. First as to the State dobt, the limit is placed at \$250,000 to supply casual deficits or failures in revenues, or to meet expenses otherwise provided for. In addition to the above limited power to contract debts, the State may contract dobts to regel invasion, suppress insurrection or defend the State in war. The State is also permitted to but this permission is vary safely guarded—(1) the law must provide for the collection of a direct annual tax sufficient to pay at least the work of the collection of a direct annual tax sufficient to pay in the constitution. No optical component is the solution of the solution in the constitution. No optical indicated to the solution of the solution of the rotes cast. Under this law property is assessed at	2002 actual value when onapter 13.

In 1913 the Legislature passed a new general revenue law—Chapter 73.
 Under this haw property is assessed at 20% actual value, whereas in earlier years the proportion seems to have been much lower.
 METHOD OF ASSESSING.—Section 19911 of the Compiled Statutes of 1907 reads: "All property in this State not expressly exempt therefrom shall be atblect to taxation, and shall be valued at its actual value, which shall be entered opposite each item and shall be assessed at twenty per cent (20%) of such actual value. Such assessed value shall be entered opposite each item, and shall be taken and considered as the taxable, which the value of the column opposite each firm, and shall be taken and considered as the taxable value of such property, and the value at which it shall be entered in a separate column opposite each litem, and shall be taken and considered as the taxable value of such property, and the value at which it shall be the entered of the value of the value. Such assessed value shall be entered in a separate column opposite each litem, and shall be taken and considered as the taxable value of such property, and the value as used in this Act shall mean its value in the market in the ordinary course of trade." DERT LIMITATION.—Section I of Article XIV. of the constitution of 1875 contains the following regarding public indebtedness:
 STATE indebtedness is restricted to \$100,000 to meet casual deficits in orvenues, except in case of invasion, &c., while the loaning by the State of its credit is provibiled by Sec. 2 of Article XIV. that no city, county, cown, preched, mulcipality or other subdivisions of the availed constitute, unless a proposition so to do shall have been first submitted to the qualified electors thereof at an election by anthority of law; provided, that such domations of the state shall we done only on the domations of such as the sum of participation of the state shall we done on suprespite shall not exceed ten per cent (10%) of the assessed v

DEBT, RESOURCES, ETC. 

INCIDENTS IN STATE ORGANIZATION, &c.—See "State and City Supplement" of April 1393, page 124, for the facts and statementa formerly given under this head.
 HISTORY OF DEBT.—When Kaneas was admitted into the Union as a State (in 186) is had a bonded debt of \$150,000. The Constitution of 1895 limited the debt-making power to \$1,000,000 (with certain restrictions and exceptions), as more fully described below. In 1866 the bonded debt, \$350,775, of which the State owned \$23,850. In 1878 the total bonded debt was \$1,181,975, of which the State owned \$13,600. The bonded debt, which on Oct, 5 1915 amounted to \$159,000 and was held by the State Permanent School Fund, has all been refired. Permanent School Funds Aug. 1 1914 unnounced to \$5,559,310 92.

INTEREST on bonds of 1915 at State Treasurer's office. ASESSED VALUATION.—For 1915 the total assessed valuation was \$439,785,918, of which real estate was \$242,647,599, personal property \$71,707,000, live stock \$46,235,588 and railroads \$79,195,951; In 1914 total assessed valuation was \$412,361,919. The State tax rate (per \$1,000) in 1915 was \$2,80 on total valuation and \$3 extra on live stock. DEBT LIMITATION.—The constitution of Montana was adopted by popular vote Oct. 1 1889. Article XIII, contains the Sections which regulate the debt-making powers of State, courty and city. Counties are allowed to become indebted to an amount not exceeding five (5) per centum and cities, towns, townships and school districts to an amount not exceeding three (3) per centum of the value of taxable property; but in the latter case or water purposes, provided the question is submitted to a vote of the tax payers. All the provisions in full and also those relating to the power of the State itself to create indebtedness may be found on page 135 of the "State and City Supplement" of April 1895.

TAXATION OF MUNICIPAL BONDS.—Concerning the taxation of bonds or notes or other evidences of indebtedness issued by this State or any of its municipalities, the Attorney-General advised us under date of Dec. 22 1911 that there is no legislative enactment expressly exempting such se-curities from taxation.

POPULATION OF STATE— 1910...376,053 [1900...243,329] [890...132,159] [830...39,159] [870...20,599] In 1890 there were 10,755 indians and whites on Indian reservations, and In 1880 31,656 such persons, which number should be added to the total for those years in making accurate comparisons. In 1900 and 1910 these figures were not reported. The number of Indians alone included in the population for 1900 and 1910 was 10,076 and 10,766, respectively.

1908..... 67.580.051 TAX RATE.—The total State tax (per \$1,000) in 1914 was \$2.55. CREATION OF A COMMISSIONER OF TAXATION.—The 1909 Legislature passed an Act (Chapter 66, Laws of 1909) creating the office of Commissioner of Taxation. This official is appointed by the Governor with the advice and consent of the Senate. The new Commissioner is given power and authority to exercise general supervision over the administration of all assessment and tax laws, over all county, town and city tax assessors and boards of equalization, lavy and assessment, to the end that taxation of all property, real, personal and mixed, shall be made relatively just and uniform, and at its true and full cash market value. Assessors of boards failing to assess property in accordance with this new law do so under pen-alty of forfeiure and removal from office. Heretoforo property in the State is understood to have been assessed at 33 1-3% of its actual value. V. 83, p. 956.

State is understood to have been assessed at 33 1-3% of its actual value.
 Y. 88, p. 956.
 DEBT LIMITATION.—In Wyoming the provisions of the constitution with respect to debt contraction and limitation are quite voluminous. They are all found in Article 16 of that instrument, and prohibit the State from creasing any indebtedness exceeding 1% of the assessed valuation except to suppress insurection or to provide for the public defense. Counties, cities, towns or villages, or any subdivision thereof, are limited to 2% on the assessed valuation. An additional indebtedness for the public defense. Counties, cities, towns or villages, or any subdivision thereof, are limited to 2% on the assessed valuation. An additional indebtedness of the courpose of building sowers therein. Debts contracted for supplying water to cities towns are not included in the limitations in this section. Neither the state or any subdivision thereaft.
 EXEMPTION FROM TAXATION.—The Legislature of 1905 passed an Act exceeding 1% is permitted with. The Act follows:
 MARTER 17, LAWS 0F 1905.—Be H Encied. Els.: "That coupon or resistered interest-bearing bonds of the State of Wyoming, shall be exceeding the shade of wyonds, or any county, school district or municipality of the State of Wyoming, shall be exceeding assessment schedule, describing such bonds and the amount thereof, and shall mark opposite thereof on such schedule 'caunty'."
 MORTGAGES EXEMPT FROM TAXATION.—An Act of the Legislature approved Feb. 21 1911 (Clap. 72) exempts from taxatic, all monters, 'v. 93, p. 1054.

In 1890-1900 the increase was 73,224, or 82.70%, a part of which is due to the fact that the 1900 aggregate embraced indians and whites on Indian reservations not theretofore included. Such persons numbered 4.163 in 1890 and 3.420 in 1380, which amounts should be added to the totals for those years in making comparisons. No report was made in 1910 of the Indians and whites. In 1900-10 the increase in population was 103.822, or 101.3%. The number of Indians alone included in the 1910 population was 3.988.

The present debt is \$479,000, con-sisting of what are known as Re-funding Bonds of the State of New Maxico. Series "B." Santa Fe County. While these bonds are bonds issued by the State and are primarily its obligation. Sauta Fe County is responsible for the inter-est, which is at 454 %, payable semi-ann. (M. & S.), and is also responsi-ble for the principal, but in case of default upon the part of the county. the State would have to take care of them, having recourse them on the county. In addition to these bonds there are, we are advised, probably a few outstanding bonds of older issues, and probably some past due and unpaid Coupons, and possibly a judgment based on such bonds, were absolutely assumed by the State of New Mexico, which issued the bonds in payment therefor without any recourse on the county. the S. Congress having made a large land domation to these bonds. The assessed valuation in 1913 was 34,110,77, and the total State and county tax per thousand in 1913 was about 370. by a system of accounting that shall be uniform for each class of accounts, State and local, which shall be preserviced and audited by authority of the State. TAXATION OF MUNICIPAL BONDS.—In reply to our inquiry as to whether or not bonds or notes or other evidences of indebtedness issued by the State or any of its municipalities were accempt from taxation, we were advised, under date of Dec. 11 1911, by the office of the Secretary of State, that "the only evidences of indebtedness issued by this State that are exampt from taxation are the public-building fund bonds." For opinions regarding terriforial and municipal bonds being exempt from taxation, see V. 85, p. 1534; Y. 86, p. 240; Y. 87, p. 111, and Y. 98, p. 1258. BONDS TO PURCHASE SEED WHEAT ILLEGAL.—The Attorney-General in an opinion to B. W. Parks of Hooker held that counties cannot issue bonds for purpose of purchasing seed wheat for farmers. V. 93, p. 423. MUNICIPAL BOND ISSUES.—Future bond issues are to be approved by Attorney-General, V. 90, p. 1114. POPULATION.—Population of State 1910 (Census), 1,657,155; in 1907; (Census), 1,414,177. The population of the Territory in 1890 was 61,834; in 1900, 308,331.

\* Of which \$1,526,500 held by State School Fund and \$751,000 by Uni-

versity fund. INTEREST is payable at the office of the Treasurer in Sacramento and Bankers' Trust Co., New York City. TOTAL DEBT.—The total bonded debt of the State Mar. 15 1916 was \$33.013.500, including \$4,000 civil bonds on which interest has ceased. The warrant debt on Mar. 11916 was \$716,269.93. Cash in treasury on Mar. 15 1916 amounted to \$19.729,148.97. The sinking fund March 15 1916 amounted to \$76,784.72. The \$2,000,000 sea-wall bonds (\$932,000 now outstanding) issued for San Francisco are not included in the total indebted-ness of the State; these bonds are payable out of a sinking fund roceiving its revenue from moneys collected by the San Francisco Harbor Commis-sioners.

its revenue from moneys collected by the San Francisco Harver Connuc-aloners. The bonds of 1873 (\$2,377,500) matured in 1893. No sinking fund hav-ing been provided for their payment, they were taken over by the State for its school funds and have been so held since 1893. The State Treasurer on Mar. 15 1916 held bonds aggregating \$7,570,-562 42 for the benefit of the State School Fund, this includes \$1,526,500 of the funded debt bonds of 1873. The State Treasurer also holds \$3,481,317 50 for the benefit of State funds other than the School Fund. This includes \$751,000 of the funded debt bonds of 1873 held in trust for the University Fund referred to above. The State tax rate (per \$1,000) for 1915 was \$5.63.

The State tax rate (per \$1,000) for 1915 was \$5.63. DEBT LIMITATION.—Nevada has in its constitution limited the State to \$300,000 debt, except for the purpose of "defraying extraordinary must provide an annual tax sufficient to pay the interest semi-annually and the principal within twenty years. Further, the State is forbidden ever to assume the debt of any county, city, &c., or to donate or loan its money or credit, or to subscribe to the stock of any company, &c. *Counties, lowns, cities, &c.,* cannot become stockholders in any company, or loan their wredit, &c. But other than that the constitution omits to put any limit on county, city, &c., debts; though it provides that the Legis-lature shall make general laws restricting their borrowing power. The con-stitutional provisions referred to will be found in full in the State and City Section for Nov. 21 1914, page 168. TAXATION OF MUNICIPAL BONDS.—The Department of State ad-vised us under date of Dec. 29 1911 that bonds or other evidences of indebt-edness of State, county or municipalities are not assessed in Nevada. TAXATION OF MORTGAGES.—See Y. 97, p. 540, for an Act passed

TAXATION OF MORTGAGES.—See V. 97, p. 540, for an Act passed by the 1913 Legislature making provision for the taxation of mortgages, deeds of trust, &c.

POPULATION OF STATE.—The 1900 figures include persons on Indian reservations not considered in previous aggregates. Of such persons there were 1,594 in 1890 and 6,800 in 1880. The number of Indians alone in-cluded in the 1900 and 1910 total were 8,321 and 6,192, respectively.

members elected to each house concur. MUNICIPAL AND COUNTY INDEBTEDNESS.—A new Constitution went into effect in April 1902. One of its provisions fixes a limit of indebt-edness in the cases of cities and towns of 18% of the assessed value of real estate, unless the issue be authorized by a majority of the qualified voters. V, 74, p. 741. Under a law passed in 1908 (Chapter 70) the right is given to any magisterial district located in counties of this State to issue bonds at not exceeding 6% interest for roads and bridges up to 10% of the assessed value of the taxable property contained therein, provided they are author-led by a majority vote. A tax levy must be made each year to meet the interest and provide a sinking fund to extinguish the debt in thirty-four years.

interest and provide a sinking fund to extinguish the debt in thirty-four years.
 TAXATION OF MUNICIPAL BONDS. —We were advised under date of Dec. 12 1911 by the office of the Auditor of Public Accounts that the only bonds exempt from taxation under the laws of this State are bonds of the United States and of the State of Virginia.
 STATE DEBT. —For a detailed report of the Virginia debt as it stood prior to 1592, and for the history of the debt settlement made by and between the Virginia Debt Commission and the Bondholders' Committee, set the 'State and City Supplement' of April, 1593, pages 151 and 152.
 On May 1 1916 Virginia's debt stood as shown below:

Auditor (term expires Mar. 4 1917)\_\_\_\_\_\_J. S. Darst LEGISLATURE meets blennlally in odd years on the second Wednesday in January; sessions are limited to 45 days, but may be extended provided two-thirds of the members elected to each house concur. TOTAL DEBT.—This State has no debt. In the settlement of the Vir-ginia debt, the U. S. Supreme Court on June 14 1915, after lengthy litica-tion, decided that West Virginia should assume liability for a debt of \$12,-393,929.50, of which the principal is \$4,215,622.28 and interess \$5,178,-397,22. See "Chronicle" of June 19 1915, page 2099; and editorial on page 2037 of the same issue. Also see "Chronicle" for Oct. 23 1915, page 1394. Attorney-General of Va. to apply to U. S. Supreme Court on June 5 1916 for execution of judgment. See "Chronicle" of May 20 1916, page 1915. The amounts in the various State funds and in banks on June 30 1915. May gregated 5959,186.72. In addition, the State School Fund had invested \$987,800 and the Workmen's Compensation Fund \$474,500. Total of all funds invested and in banks on June 30 1915 was \$24,314,360 72. ASSESSED VALUATION.—The following table gives the assessed valu-ation of real estate, personal property and ralicoad property. Under the ax law passed in 1904 assessments are said to be made at about actual value. This accounts for the large increase in values beginning with 1906, returns or ear for years having been on a much lower basis.

INTEREST is payable in Frankfort. STATE DEBT.—The educational bonds are not, strictly speaking, a debt of the State. They are irredeemable; the fund is inviolate, and the 6% semi-annual interest drawn by them is provided for out of the revenue placed to the credit of the sinking fund annually. The amounts are as follows: State bonds, issued Jan. 1 1870, \$1,327,000; county bonds, issued Jan. 1 1885, \$331,986; new school bonds, issued March 12 1892, \$066,641. The \$165,000 school bonds are also irredeemable; the interest is paid to the State University and the State normal school for colored persons. The balance in the sinking fund in Oct. 1914 aggregated \$13,838.71. ASSESSED VALUATION.—

INTEREST is payable in New York at the National Park Bank and at any bank in Raleigh. The State does not have to raise money for the interest on the 6% bonds for the reason that the lease of the North Carolina RR. provides a fund for the payment of the interest thereon, and the State holds three millions (par value) in the stock of the road, which if sold would much more than pay the principal. In addition the State holds 12,666 shares of stock in the Atlantic & North Carolina RR, valued at \$1,266,800 and \$240,500 (par value) shares of stock in other roads. ASSESSED VALUATION.—The State's assessed valuation prior to 1903 was made on the basis of about 2-3 of the cash value; in 1903, however, the attempt was to assess at true value. *Corporation*

DEBT LIMITATION.—The State Constitution contains the following regarding public indebtedness.

regarding public indeptendences. Article 5, Section  $A_{--State}$  Indeptedness.—Until the bonds of the State shall be at par, the General Assembly shall have no power to contract any new dobt or pecuniary obligation in behalf of the State, except to supply a casual deficit, or for suppressing invasion or insurrection, unless it shall in the same bill levy a special tax to pay the interest annually. And the Gen-eral Assembly shall have no power to give or lend the credit of the State in

the majority of the qualified voters therein. Section 13.—No county, city, town or other municipal corporation shall assume to pay, nor shall any tax be levied or collected for the payment of any debt, or the interest upon any debt, contracted directly or indirectly n aid or support of the rebellion. Article 8, Section 4.—It shall be the duty of the Legislature to provide for the organization of cities, towns and incorporated villages, and to restrict their powers of taxation, assessment, borrowing money, contracting debts and loaning their credit, so as to provent ablies in assessments and in con-tracting debts by such municipal corporations. TAXATION OF STATE AND MUNICIPAL BONDS.—We were ad-vised Jan. 16 1912 by the Attorney-General that each and every Act author-tion. The Legislature declines to make such exemption in favor of county and city bonds, and it is thought probable that, under the constitution, they cannot do so. INVESTMENT OF TRUST FUNDS.—Sec. 1292. DEBT LIMITATION	NStateThe	State Constit	ution of 1895 1	mposed

DEBT LIMITATION.—State.—The State Constitution of 1959 imposed several checks on the creation of deit by the State, all of which may be found in Article X of that instrument. Briefly, they may be stated as Section 6 states that the credit of the State shall not be pledged or loaned for the benefit of any individual, company, association or corporation, &c. This section was amended in Nov. 1910 and now reads: "The credit of the State shall not be pledged or loaned for the benefit of any individual, company, association or corporation; and the State shall not become a

DEBT AND TAX LIMITATIONS.—A revised Constitution was adopted at the election held Nov. 11 1901 and became effective Nov. 28 1901. The new instrument makes radical changes in relation to debt and taxation, an outline of which was furnished in an editorial in our "State and City Supplement" of October 1901. The constitutional provisions will be found in the "State and City Supplement" for Nov. 27 1915.

In the "State and City Supplement" for Nov. 27 1915. INVESTMENT OF TRUST FUNDS.—Sections 6076 and 6077 of the Code of 1907 provide as follows: SEC. 6076.—Trustees May Invest in State or United States Securities.—A trustee, having moneys to invest or lend, may invest them in the purchase of the interest-bearing securities of the State, or of the United States; but for such investment his liability is governed by the general rules of the law. SEC. 6077.—Inestment Without the State. —If the cestus que trust, or any of them, reside without the State, and the trustee has funds to lend or invest, the loan or investment whereof in the State of their residence is desirable, the trustee may there lend and invest them, under the authority of a decree of the Court of Chancery.

BONDS TAX-FREE.—By Section 13 of an Act approved March 31 1911, entitled "To further provide for the revenues of the State of Alabama," the following securities are exempted from taxation: "All bonds of the United States and of this State, and all county and municipal bonds issued by counties or municipalities of this State."

DEBT. RESOURCES ETC.

INTEREST is payable at office of State Treasurer. TOTAL DEBT. --Mississippi's funded debt on Jan. 1 1016 amounted to \$2,754.000. The floating debt on Jan. 1 1016 was \$6.316.06 (including \$450.6% bond issue of 1875. Int. censed 1878, and \$2.449 Certificates of Indebtedness issued in 1870. On the same date the various trust funds of the State aggregated \$2.346.092.02. These funds were momeys taken over by the State, and only the interest is paid on them. Cash on hand and in depositories Oct. 1 1915, \$251.582.51. The met revenues of the State amount annually to about \$3,500.000. The constitution of the State interdicts the payment of the so-called "Union Bank" and "Planters' Bank" bonds. For readjustment movement see Y. 03, p. 1803. BOND ISSUE OF 1910-FACTS CONCERNING.-The State Su-preme Court on May 29 1911 decided the sub started by former State Treasure Edwards, who refused to pay the interest due Jan. 1 1911 on \$600,000 bonds sold in July 1910, on the ground that should the bond-holdness receive interest that accrued prior to the date on which they paid their purchase money, the sale would be below pat, in violation of the statutes. The Scate Sapeme Court bald this view was correct. V. 92. p. 1511. Holders of the issue of 1910 were then given the privilege of ex-changing their holdings for new bonds or accepting cash for the same. Of the total of \$600.000 bonds, \$336.000 were reachanged for new bonds. taxable. The courts have decided that the State as a sovereign has no right to tax its own bonds.
 LEGAL INVESTMENTS FOR SAVINGS BANKS.—On Oct. 22 1913
 the Attorney-General of New York State rendered an opinion holding that bonds of the State of Louisiana are legal investments for New York State savings banks. See item under New York State in V. 97, p. 1227 and 1444; also item under Louisiana in V. 97, p. 1367.
 MUNICIPAL BONDS AS SECURITY FOR POSTAL SAVINGS BANKS.—On Oct. 23 1913
 the dust in under Louisiana in V. 97, p. 1367.
 MUNICIPAL BONDS AS SECURITY FOR POSTAL SAVINGS BANKS.—Bequitations eliminating special assessment bonds as security for deposits held not to apply to bonds supported by a general tax limited in amount. See item under Shreeport, La., in V. 98, p. 1179.
 FIXINO THE SITUS FOR TAXATION OF MORTGAGES AT THE DOMICILE OF HOLDER.—The Legislature passed an Act in 1908 which was approved July 3 1903, whereby it is sought to provent double taxation by making morigage paper and other evidence of Indebtedness taxable only at the situs of the owner and holder thereof. V. 87, p. 1110.
 REAL ESTATE MORTGAGES, ETC.—An amendment adopted In Nov. 1908 provides for the exemption from taxation, under presentised conditions, of loans made upon moritages of real estate and the notes evidencing such loans and loans made by life insurance companies. V. 87, p. 1424.
 SUPREME COURT DECIDES DRAINAGE BOND CASES.—The Louisiana Supreme Court on Feb. 26 1912 and April 22 1912 rendered decisions which are considered of great benefit to dramage and reclamation projects in this State. V. 97, p. 644, 1200 and 1519.

102,449,430 12370,400 174,328,830 DEBT LIMITATION.—The provision of the constitution concerning State and municipal indebtedness are contained in Sec. 1 of Art. 16. This section prohibits the creation of debt by either the State of its sub-divisions. It is proper to state, though, that there are numerous improvement dis-tricts, much as schools, isves, bridges, drainage, &c., which, under special Acts, have been allowed to borrow money or issue bonds for their comple-tion. Bonds of this character, we are told, do not seem to come clearly mader the prohibitory mandate of the constitution, and for that reason these districts are allowed to proceed in this manner. It is general election Sect. 14 1014, a proposed amendment to Sec. 1 of Art. 16 was voted permitting cities and towns under certain conditions to issue bonds and other videocces of indebteness. The State Supreme Court, however, on March 22 1915 ruled that, while the amendment re-received a majority of the votes cast for State officers, and therefore failed of adoption. V. 100, p. 1185.] Bate Supreme Court upholds road building law passed by Legislature in 1915. See "Chronicle" of May 6 1916, page 1733.]

TAXATION OF MUNICIPAL BONDS.—As indicated above, the State not allowed to issue bonds. Other evidences of indebtedness are subject taxation.

The proportion of the colored population was 25.1% in 1910, 28% in 1900, 27.59% in 1800 and 26.25% in 1880. In numbers, blacks were 442,891 in 1910, 366,856 in 1900, 311,227 in 1860, 210,666 in 1880, 122,169 in 1870, 111,259 in 1860, 47,708 in 1850.

 MUNICIPAL AND COUNTY BOND LAW. —A State law approved in 1893 has done much to withen the market for new Toxas municipal toans. At present before any bond can be issued by a municipality or country is must except the berney-General that it is a lawful obligation. It must then be registered in the office of the State Comptroller, and when the bond is so issued its validity cannot be questioned except and when the bond is so issued its validity cannot be questioned except and when the bond is so issued its validity cannot be questioned except and when the bond is so issued its validity cannot be questioned except and when the issues put out prior to the enactment of the State Comptroller, and when the issues put out prior to the enactment of the above law. A law went into effect Aug. 26 1890 compelling counties and incorporated towns and cities to submit propositions for the issues or bonds all except "unding bonds issued or to be issued of any valid outstanding bonds is required by the law of 1893. V. 69, p. 509.
 The Attorney-General's Department in May 1913 rendered opinions holding (1) that no town of law than 1,000 inhabitants is authorized to issue bonds and (2) that road and school bonds are subject to taxation. V. 97, p. 310.
 TAXATION OF MUNICIPAL BONDS.—We were advised by the Atorney-General's Department in May 1913 rendered opinions of palley.
 DECISIONS AND OPINIONS.—For court decisions and opinions randered opinions and optime evidences of indebtedness issued by the Atorney-General's Department index date of any winside optimes for base that no optime in under date of Dec. 12 1911 that they find no average with the Constitution or statutes of this State in favor of bonds er notes or other evidences of indebtedness issued by the State of any municipative.

Of the total population in 1910, 690,020 were blacks, which compares with 620,722 in 1900, 492,837 in 1890, 393,384 in 1880, 253,475 in 1870, 182,931 in 1860 and 55,555 in 1850. It will be observed that the proportion
