#### CLEARING HOUSE RETURNS.

Returns of Bank Clearings heretofore given on this page now appear in a subsequent part of the paper. They will be found to-day on pages 778 and 779.

#### THE FINANCIAL SITUATION.

Perhaps the most important event of the week has been the action of the Federal Reserve Bank of New York, as also the Federal Reserve Bank of Boston, in advancing their rediscount rates from 4% to 41/2%. Announcement of the action did not come until after the close of business on Wednesday and much interest was displayed in seeing how the step would be viewed in financial circles. It had no disconcerting effect on the Stock Exchange yesterday, and there is no reason why it should. There is an active demand for money from every quarter, and an advance in the rediscount rate was the logical outgrowth of the existing situation. Securities in enormous volume are being floated and the financing required in connection therewith is no small matter. On subsequent pages we give to-day our extended tabulations showing the new capital flotations during the month of January, and they reveal some striking results. The new stock and bond issues brought out in that month are seen to have been of such huge size, aggregating no less than \$879,268,265, that they have not been even closely approached in any month in the past.

Then, Stock Exchange loans are beli red to be close to the highest figures on record. It is estimated that they are in the neighborhood of \$2,000,000,000. At the same time the demand for money for business purposes is steadily growing, and sure to be urgent and persistent for many months to come. On that

issued yesterday by the Federal Reserve Board at Washington regarding the member banks, which we have had telegraphed to us. These returns for the member banks are always a week behind the returns of the Federal Reserve banks themselves, and hence show the condition of the bank for last week. The statement is printed on page 768, and there is just one remark in it to which we wish to direct attention here. The remark is to the effect that since the close of 1922 commercial loans of these member banks have increased by about \$226,000,000. Of this increase \$118,000,000 has been contributed by the member banks in the New York Federal Reserve district. Finally, the 4% rediscount rate in New York and Boston was 1/2 of 1% lower than the rate in all the other Federal Reserve districts barring only San Francisco. Obviously, with the rate lower here and the demand for accommodation urgent from all quarters, the New York and the Boston banks were running the risk of being obliged at any time to assume more than their share of the burden. A cautious policy is always wise in the conduct of the affairs of the Federal Reserve banks, and in the present instance an advance in the rate to the level of that which has prevailed so long in the nine other Reserve districts—which is all that has been done was acting merely in accord with what due prudence would seem to require.

Regarded as a distinct proposition, the assertion of officials of miners' unions in Pennsylvania that anthracite is \$3 61 too dear will meet general concurrence, and perhaps the consumer will think that figure an understatement. The heads of three unions join with two heads of the international organization in a plaint to the "fact-finding" Commission. Evidently they wish to affirm the guiltlessness of labor, and they say so, remarking that they are "tired, in the face of the real figures, of the operators' common cry that coal strikes are caused by the lack of ability to pay better wages." The overcharge, they say, occurs in three divisions: \$126 added unnecessarily as mining cost, \$1 needlessly as carrying cost, and \$1 35 in distribution cost, making the \$3 61, and they add that "in land owning there is an overcharge which we will not attempt to estimate, but which may become the most disturbing factor in the industry in the immediate future." Coming to particulars, this committee alleges that six of the larger anthracite-producing corporations made a total profit of 32 millions in 1920, against a little over 83/4 millions in 1912, and if all others did equally well and persistent for many months to come. On that the earnings of 1920 would be 51 millions, against point we wish to direct attention to the statement 13 millions in 1912. They admit inability to get all the data desired, but are sure the alleged overcharges take unnecessarily from the public some 2523/4 millions a year.

Well, all experience shows that God does not love us in the manner of the love of earthly parents. He does not pet and coddle us; on the contrary, he lets us butt our heads against the immovable, and he sets difficulties and problems before us, that we may develop by solving them. This is the very nub of explanation of permitting war. We are to find a way out and to struggle out of all our troubles. Our industrial problems are one, our fuel problems are another, our transportation problems are another, our botchy democracy is the biggest. It is plain enough that our coal mines are overmanned, that the output and the distribution are too spasmodic, that the most favored mines must be permitted (as also in the matter of transportation) to make perhaps undesirable profits, in order that the lean mines may be worked. So some persons call for "standardizing," that is, a pooling, to which the first objection is that it brings in Government, the factor which should be kept out of everything until the very last. One straight way out is to lessen the dependence upon anthracite and upon all accumulated fuel stores by utilizing great natural forces now running off to waste; therefore, the "Chronicle" views with keen interest all hydroelectric schemes, anxious only that political and Governmental meddling be kept away from them.

The miners are tired of being unjustly accused, they say; the fault is elsewhere. Somebody has just written to the "Herald" that he was formerly a retail coal dealer, equipped with all labor-saving devices, but he did not discover profits, and therefore sold out, to his present thankfulness. Not long ago, he says, in Manhattan Borough there were more than 125 retail dealers, and "those that made some money could be counted on your fingers." He admits that the dealer buys at 2,240 lbs. to the ton and sells at 2,000; but, he adds, a shortage of 1% on the barge is allowed by law, which may run to 5 tons on a 500-ton barge and formerly reached six times that when coal pirates were busy in New Jersey. Coal is friable, as everybody knows, and there is a consequent waste of some 5% in handling; in loading, some falls on the ground and is smashed under the wagon wheels. All the sorting and handling processes in the yard cost money and involve waste; at one time, says this man, he had to load the dust and pay 50 cents a load to take it to scows to get rid of it, and so there is little left of the 240 lbs. Most of the business is also done in seven months, leaving men and animals and materials to be "carried" in idleness during the other five. Could he have netted one-fifth of the 60% profit somebody says dealers make, he would not have sold out, concludes this man.

The truth lies somewhere between extremes and extremists. Some half-century ago, the Nast cartoons in "Harper's Weekly" disturbed the peace of mind of the Tweed Ring more than almost anything else. One of those showed the members of the Ring standing in a circle, each of them with a smirk on his face, and with one hand at his side and the thumb pointing to the next man as the culprit. That is in human nature. And now the miners ask the Commission to examine into the coal industry "with a view to eliminating everything which is unnecessary and unwarranted." That would be well. What we need of this investigation is that it shall search out facts which are real facts, without respect or care for

anybody's previous impressions or anybody's interests except those of the entire people. The field and the opportunity are wide.

Imports of merchandise in November last, as just made known (the new tariff law having occasioned delay in the publication of the figures, as previously pointed out by us), were valued at \$294,000,000. These figures contrast with \$276,082,699 for the preceding month and with \$210,948,036 for November 1921. The latest report is for the second month under the new tariff law, and it is apparent that notwithstanding the higher customs duties, the movement of merchandise into the United States from foreign countries continues to expand. Naturally, the merchandise imports in September were exceptionally heavy, for it was during that month that the new law became operative and there was a rush of goods to our shores from all foreign ports in an effort to secure entry here in advance of the new law. Imports showed steady growth each month during 1922, the amounts for both October and November exceeded those of every other month-barring September-for two years, or since November 1920, and the November imports, as shown above, were larger than those for October. For the eleven months of 1922 the value of the merchandise imports into the United States was \$2,821,132,000, as compared with \$2,271,-652,000 for the eleven months of the preceding year. Merchandise exports in November, it may be recalled, were valued at \$380,056,542, so that the excess of exports over imports was \$86,056,542; for the preceding month the excess of exports was \$94,635,-896, and for the eleven months of 1922 the excess of exports amounts to \$674,374,675.

Last week we reviewed the statement of exports for January, giving the figures for both merchandise and for gold. The figures for silver exports were not available at that time. Imports of silver 'January were valued at \$5,824,637 as compared with \$6,495,758 for January of the preceding year, while the exports of silver in January this year were \$6,921,002, as contrasted with only \$3,977,118 in Jan. a year ago.

The tug-of-war between the French and Germans in the Ruhr Valley continues, with little apparent advantage to either side. Ex-Premier Lloyd George made a speech in the British House of Commons in which he urged the Government "to invite the United States to approach France to ask her to accept mediation." His proposal was defeated by 305 to 196. The British have turned over to the French and Belgians a narrow strip on the western end of their zone in the Rhine country "so as to give those two nations complete control of the double track railroad line from Duesseldorf" Fresh trouble has broken out between the Poles and Lithuanians, for which the latter are blamed by the former. The Turkish Nationalists are still considering their reply to the peace proposals of the Allied Powers.

The French Mission, headed by Yves le Trocquer, Minister of Public Works, returned t Paris from London a week ago last evening, after a conference with Andrew Bonar Law, British Prime Minister, relative to a request of the French Government to operate its trains within the British zone on the Rhine. The early dispatches indicated that the British had granted only a small part of what was asked. The London correspondent of the New York

"Times" said, "but it [the Mission] has a proposition which it will present for Premier Poincare's consideration." The Associated Press correspondent in the British capital asserted in a cablegram dated Feb. 16 that "it is known that the French Mission on Cologne transit was a failure, as the French proposals-the chief one of which provided that they should receive the privilege of running trains on the main lines in and out of Cologne-were not accepted." He explained that "the conference was wrecked on the same rock as attempts to solve the reparations problem; that is, the impossibility of separating economic from political questions. The French spokesman came to arrange what the French regarded solely as an economic proposition, only to find himself immediately involved in the political implications of his demands, that acquiescence by the British Government would bear the aspect of approval of the French action in the Ruhr."

Announcement was made in Paris on Feb. 16 that "the Interallied High Commission decided at Coblenz to-day to take over the German customs in the occupied territory and levy a tax of 10% on imports. Allied officials will at once take over all customs offices they wish to keep open and close the others. The German personnel of the customs will be at first entirely removed and later allowed to re-enlist for service under Allied officials if they like. It is probable the Germans who do not choose to serve under the Allies will be expelled." The same day Chancellor Cuno "made a strong personal appeal to the German Agricultural Council, in session in Berlin, imploring its members and circles influenced by it to forget all class differences and by all means to refrain from extortionate practices, because, he declared, one who in these times committed extortion was a traitor to his country."

In their efforts to carry out their plans in the Ruhr Valley the French authorities convicted by court-martial Oberburgomaster Havenstein of Oberhausen and Vice-Lord Mayor Schaefer of Essen. The former was charged with "refusal to obey French orders and received a sentence of two years' imprisonment." The latter "was charged with not supplying automobiles and coal for the troops." It was announced that "he also was sentenced to two years in jail and a fine of 10,000,000 marks." It seems that "Herr Buszmann, Director of the Essen light plant, was fined 5,000,000 by the same court-martial for interference with French orders."

It soon appeared that the British Government was prepared to yield in part at least to the French demands. The report came from Paris a week ago this afternoon that "Britain has agreed to withdraw her troops from a portion of the occupied zone on the Rhine so that the French may occupy and utilize the Duren line for transporting coal from the Ruhr, Yves le Trocquer, Minister of Public Works, reported to the Cabinet to-day. He has just returned from London, where he conferred with Premier Bonar Law." The dispatch also stated that "Gen. Godley and Gen. Degoutte are to discuss the utilization of Cologne for troops and foodstuffs, under arrangements made at London, le Trocquer said." The correspondent added that "Premier Poincare announced that Britain showed the greatest desire not to hinder execution of French projects."

There has been a surprisingly small amount of disorder in the Ruhr Basin as a result of the French in-

vasion. Duesseldorf dispatches made public here a week ago this afternoon and the following day told of a bomb explosion in that city. The New York "Times" representative at that centre cabled that "a bomb exploded in one of the side streets of Essen late last evening near 'he Kaiserhof Hotel, which is the headquarters of the French Engineering Mission and is guarded day and night. It was the first bomb which has played a part in the occupation, and luckily it was a small part, for beyond broken windows and a chipped wall, no damage was done. The bombthrower escaped." He added that "the incident, however, serves well to show the tendency of events in the capital town of the Ruhr. Under the strain of occupation and intense underground fighting which have been going on during the last two weeks, the town has reached a point at which violence seems almost inevitable. If it does come, it will be spasmodic and sporadic, and for that reason perhaps even more difficult to deal with than if its organization could be discovered."

In a long cablegram last Sunday, the Paris correspondent of the New York "Times" gave in considerable detail the request of the French Mission in London on Feb. 16 and also the British reply. He said that "the French asked of the British two things: First, free use of the railroad line from Duesseldorf to Duren and Treves, which for a distance of nine kilometres runs through the British occupied zone, and, second, free use of the Rhine railroad line running through Cologne for the transport of troops from the zone of Mayence to the Ruhr." He added that "M. le Trocquer reported that on the first request the British Government was ready to give complete satisfaction by withdrawing their zone so as to leave outside it the section of the Duren-Treves railroad line, which means leaving the whole railroad in the control of the French and Belgians. The French Cabinet agreed tentatively to this arrangement, which will relieve the pressure on the Duesseldorf-Aix-la-Chappelle line, the only one hitherto open between the Ruhr and France and which also serves the Belgians." Continuing his outline, he said that "on the second request M. le Trocquer reported the British not disposed to grant readily the complete request but had suggested a compromise by which the line through Cologne from Mayence could be used for the transport of French troops in the same proportion as prior to the occupation of the Ruhr—that is, for the movement of troops to and from Duisburg, Duesseldorf and Ruhrort, occupied in 1921 with the full consent of the British." As a consequence, he stated that "the Cabinet decided on a conference between General Degoutte and General Payot, commanding French communications in the Ruhr, and British officials at Cologne to study this proposal and perhaps work out a substitute which will be acceptable to London."

Although the French authorities had stated emphatically that German Government officials would not be permitted to visit the occupied portions of the Ruhr Valley, the Germans continued to go. As a consequence, in Paris, on Feb. 18, announcement was made that "hereafter if Chancellor Cuno or members of his Cabinet visit the Ruhr in defiance of the Allied orders they will not brag about it, the French say." The New York "Times" correspondent added that "to meet the situation the Allied command has decided that communities visited by German minis-

ters in the future will be fined heavily." In their determination to hold their ground, French military officials in the Ruhr Valley made further arrests of prominent German Government officials. From Duesseldorf Monday morning came the announcement that "Dr. Gruetzner, President of the Prussian Government District, in which are included Duesseldorf and the Ruhr area, was arrested this [Sunday] afternoon by the French and expelled from occupied into unoccupied German territory. He was charged with writing an insulting letter in protest against the conviction of Dr. Jarres, Mayor of Duisburg, and received one month's imprisonment for defying the French authorities."

It became known in Paris on Monday that "Premier Theunis of Belgium is coming to Paris Wednesday to discuss the Ruhr situation with Premier Poincare." The New York "Times" correspondent there said that "it is believed the two Premiers will decide on a common policy toward offers of mediation or intervention which may come from London, Washington, Rome, Geneva or elsewhere." The London representative of the "Times" cabled that "one of the chief features of to-day's [Monday] debate in the House of Commons on the Ruhr question was an appeal made by former Premier Lloyd George to the Government to invite the United States to approach France and ask her to accept mediation. The amendment was defeated by 305 to 196, the Government thus securing a majority of 109 despite the united opposition of the two wings of the Liberal Party and a majority of the Labor Party." The next day the British Prime Minister stated in the House of Commons that "it would not be proper for Great Britain to initiate a discussion with the American Government as to whether the French action in the Ruhr was in accordance with the Treaty of Versailles, since the United States was not a party to the treaty." The Premier's statement was made in reply to a question of J. C. Wedgewood, Laborite. In a subsequent cablegram the New York "Times" representative in Paris cabled that "Premier Poincare of France and Premier Theunis of Belgium spent five hours in conference to-day [Feb. 21] on the Ruhr situation and will continue their talks to-morrow." He added that he learned that "two decisions were reached: First, the establishment of the civil administration of the Rhineland and Ruhr railroads on a business basis, and second, the creation of special Rhineland money to meet the difficulties which will arise when the supply of marks in the occupied territory becomes short." The correspondent further stated that "the project of a profit-taking administration of the railroads is to be put into effect at once. Instead of the lines being run as at present, on a military basis with no fares charged and under the direction of a General, it is proposed to put them on the basis of charging for transportation. The French and Belgians believe they can greatly extend operation by using the German railway men who wish to go back to their jobs. It is stated here that 5,000 have now been enroled and that more will return as the days pass."

Word came from Cologne Monday evening that "the British to-day turned over a six-kilometre strip on the western end of their zone so as to give the French and Belgians complete control of the double track railroad line from Duesseldorf, a short stretch

of which ran through the British area." The New York "Times" correspondent at Duesseldorf reported the incident as follows: "General Arthur Godley, British Commander-in-Chief at Cologne, handed over this afternoon to French engineers control of the short section of railroad track which passes through the northern part of the British bridgehead and now gives the French troops and missions operating here double-line communication with the forces in Lorraine and with France." London sent word that "the first French train passed through the new Rhine territory transferred by the British to the French, at 4 o'clock yesterday [Monday] afternoon, dropping off French officials at various stations."

Speaking for three and one-half hours in the French Chamber of Deputies on Monday, Premier Poincare "exposed the situation of France in international matters." The New York "Times" correspondent cabled that "in concluding his explanation of the Ruhr occupation he said: 'Our policy moves along without precipitation but with system and with necessary firmness. We can have confidence in the future." He also said that "among the facts the Premier gave the committee were the following: 'We occupy 2,800 of 3,300 square kilometres in the Ruhr district. The region we occupy produced 91,000,000 tons of coal annually. The rest of the district produces 8,000,000 tons. There are 14,500 coke ovens, of which we hold 14,200, which can produce 90,000 tons daily. The population of the Ruhr is 3,500,000. We control 3,000,000. There are 500,000 miners, of whom 450,000 are in the occupied region. We control nine-tenths of all the Ruhr production." Continuing his synopsis of the Premier's assertions, the "Times" representative said in part: "M. Poincare made the important statement that the policy of the French and Belgians was not to exploit the Ruhr but to control its production. The Premier said 283 officials had been expelled from the Ruhr and 55 from the occupied Rhineland. In regard to the railroads, he said that before the occupation the average circulation in the Ruhr was 585 passenger trains and 620 freight trains. At the present time the circulation was 70 trains daily, including both passenger and freight. There were 946 French railroad men in the Ruhr. In the six weeks of occupation 1,026 cars of been delivered from the Ruhr to coal had France."

The attitude of the Germans was shown in the announcement from Duesseldorf on Feb. 20 that "as a protest against the arrest and expulsion of District President Gruetzner and Oberburgomaster Koerdgen, all the banks, post and telegraph offices and schools closed this afternoon and public service was suspended."

Announcement was made in Berlin on Thursday that "in reply to seizure by the Franco-Belgian military of the German customs tax offices in the occupied area the Federal Government at Berlin has forbidden the inhabitants to pay taxes to the occupational forces. It states that any payments would be invalid and would not release the taxpayer from these obligations to the Fatherland." The Associated Press correspondent said that "a proclamation from the Federal Minister of Finance impresses upon customs tax officials of the occupied areas their duty to the nation and expresses confidence they will oppose the Interallied Rhineland Commission's order

for seizure of the customs offices with 'the same firmness and endurance as manifested heretofore in other German circles.'"

According to a report in circulation in Berlin last evening, martial law had been proclaimed in Bochum. From Essen came an Associated Press dispatch stating that "the French have decided to replace German customs officials by French throughout the Ruhr." In a dispatch from Duesseldorf it was said that "the French maintain that their customs barrier is secure and that the course of Germany's economic lifeblood has been diverted."

Fresh trouble has broken out between Poland and Lithuania. Word came from Paris Monday morning that "Polish forces have invaded Lithuania and attacked the Lithuanian troops, according to a dispatch from Kovno issued by the Lithuanian Legation here. The dispatch adds that dozens of persons were killed and hundreds wounded." In the same message it was also stated that "the Lithuanian Government has telegraphed the League of Nations reporting the fact and asking it to take the necessary steps to prevent an extension of the conflict." The next day the Paris representative of the New York "Times" reported that "the Polish Minister called on Premier Poincare to-day and delivered a note from his Government denying the report that Polish soldiers had crossed the Lithuanian border in the Vilna region. He repeated that his Government was ready to accept the League of Nations line, which up to this time the Lithuanian Government has not accepted." The Associated Press correspondent at Moscow cabled that "Russia is alarmed by the situation on her southwestern border, declares Foreign Minister Tchitcherin in a note to Poland and Lithuania under date of Feb. 17 proffering the friendly assistance of Russia in settling the disputes over Memel and the neutral zone in the Vilna region." Premier Sikorski of Poland gave out a statement on Tuesday in reply to a recent communique by the Lithuanian Legation in Paris, in which the Lithuanians were blamed for the trouble between the two nations. It was asserted that the Lithuanians had provoked hostilities by attacks in the neutral zone. The Paris correspondent of the New York "Times" cabled that "proof that Moscow is urging the Lithuanians to refuse to accept the decision of the League of Nations in the frontier dispute between Poland and Lithuania is afforded in the text of the note from George Tchitcherin, the Soviet Foreign Minister, to the Kovno Government, a copy of which has reached Paris." Commenting upon the note, the correspondent said that "since the Poles have occupied the district allotted to them by the Council of the League, it is evident that any action by the Lithuanians to recover it may result in war. It is believed here that the Soviet Government, thinking that England has her hands full in the Near East, and that France has all she can attend to in the Ruhr, is considering the advantages that it might gain from a new conflict in Eastern Europe." He added that "Tchitcherin in his note argues that the Poles and Lithuanians agreed by the Treaty of Riga to settle their frontier dispute between themselves, without the participation of a third party. Therefore he protests against a set lement by the League, and then says that Russia would be glad to help settle it. The note is regarded as a patent effort to stir up the Lithuanians against their neighbors."

Ismet Pasha, Turkish Foreign Minister, arrived in Constantinople a week ago to-day "for a conference with Gen. Harington, British Commander in the Near East." London received a news agency dispatch from Constantinople a little later stating that in his conversation with Gen. Harington Ismet Pashaw "reiterated his sincere desire for peace. He emphasized the necessity of reaching a settlement before spring and expressed satisfaction at having virtually reached an agreement with Great Britain." The correspondent said that "Ismet added that the obstacles were economic questions, which were of primary importance to Turkey, a poor country economically, but far less essential to the Allies." Mustapha Kemal Pasha arrived at Eskishehr from Smyrna on Tuesday, and was met by Ismet Pasha. The New York "Herald" correspondent at that centre cabled that "they immediately began a long discussion of the report regarding the Lausanne Conference which Ismet is to make before the National Assembly in secret session at Angora to-night" (Feb. 20). In an Associated Press dispatch from Constantinople last evening it was stated that "Turkey's answer to the peace proposals of the Allied Powers, as set forth in the draft treaty presented at Lausanne, has been framed by the Council of Ministers after protracted discussions in secret. The reply will probably be presented to-morrow [to-day] to the Grand National Assembly, and it is thought action will be taken by this body almost imrediately, allowing submission of the answer to the Allied High Commissioners here next Monday."

No change has been noted in official discount rates at leading European centres from 12% in Berlin; 5½% in Madrid; 5% in France, Denmark and Norway; 4½% in Belgium and Sweden; 4% in Holland; 3½% in Switzerland, and 3% in London. Open market discount rates at the British centre remained practically unchanged, being quoted at 2¾ @2 7-16% for short and three months' bills, against 2 7-16@2½% last week. Money on call, after touching 2%, closed unchanged at 1¾%. At Paris the open market discount rate continues to be quoted at 4½%, and 3% in Switzerland, unchanged.

A further small increase in gold, amounting to £5,761, was shown in the Bank of England's weekly statement. Note circulation expanded £22,000. so that total reserve fell £17,000 and the proportion of reserve to liabilities declined to 19.56%, as against 19.98% a week ago. At this time a year ago it was  $18\frac{5}{8}$ %, and in 1921 15%. Deposits were again expanded—public deposits £2,519,000 and "other" deposits £65,000. Loans on Government securities were reduced £1,190,000, but loans on other securities increased £3,812,000. The Bank's stock of gold aggregates £127,499,186, as compared with £128,-761,537 last year and £128,327,987 in 1921. reserve stands at £25,204,000. A year ago it was £25,665,842 and in 1921 £19,080,077. Circulation stands at £120,740,000, as against £121,545,566 in 1922 and £127,697,910 a year earlier. Loans amount to £74,435,000, in comparison with £81,638,700 and £95,220,101 one and two years ago, respectively. Clearings through the London banks for the week were £692,081,000, against £710,539,000 a week ago and £789,334,000 last year. The Bank's minimum discount rate remains at 3%. We append herewith comparisons of the principal items of the Bank of England returns for a caring of years: England returns for a series of years:

| 1923.                           | 1922.       | 1921.       | 1920.       | 1919.       |

The Bank of France in its weekly statement shows a further small gain of 30,100 francs in the gold item this week. The Bank's gold holdings are thus brought up to 5,535,763,800 francs, comparing with 5,525,250,928 francs at this time last year and with 5,503,010,259 francs the year before; of these amounts 1,864,344,927 francs were held abroad in 1923 and 1,948,367,056 francs in both 1922 and 1921. During the week silver gained 177,000 francs, advances rose 11,336,000 francs and Treasury deposits were augmented by 28,211,000 trancs. Bills discounted, on the other hand, fell off 76,379,000 francs, while general deposits were reduced 34,829,000 francs. A further contraction of 120,710,000 francs occurred in note circulation, bringing the total outstanding down to 37,055,354,000 francs. This contrasts with 36,150,809,365 francs on the corresponding date last year and with 37,808,110,675 francs in 1921. Just prior to the outbreak of war in 1914 the amount was only 6,683,184,785 francs. Comparisons of the various items in this week's return with the statement of last week and corresponding dates in both 1922 and 1921 are as follows:

BANK OF FRANCE'S COMPARATIVE STATEMENT.

The Imperial Bank of Germany issued, as of Feb. 15, another of its characteristically sensational statements, this time showing an expansion in note circulation of no less than 450,831,325,000 marks, thus carrying the total note issue outstanding up to the colossal sum of 2,703,794,678,000 marks, which compares with 115,755,409,000 marks last year and 65,933,800,000 in 1921. Treasury and loan association notes increased 214,451,972,000 marks, bills of exchange and checks 444,009,728,000 marks, discount and Treasury bills 376,654,318,000 marks, and deposits 281,252,846,000 marks. "Other liabilities" were also heavily increased-313,278,-432,000 marks. Smaller increases included 12,077,-000 marks in notes of other banks, 77,508,000 marks in investments, and 90,925,069,000 marks in other assets. Advances declined 80,768,050,000 marks and total coin and bullion 19,000 marks. Gold was unchanged and remains at 1,004,831,000 marks, as against 995,689,000 marks in 1922 and 1,091,600,000 marks a year earlier.

The Federal Reserve Bank statement, issued on Friday (Thursday was a holiday) afternoon, showed that bill holdings had decreased and gold holdings reduced somewhat, though the New York Bank gained in gold. Taking the banks as a group, gold

declined \$3,000,000. Rediscounts of Government secured paper fell off sharply, but there was an increase of \$34,967,000 in "all other," and total bill holdings fell off \$27,000,000. Total earning assets were also \$27,000,000 smaller and deposits decreased \$65,000,000. The New York bank gained \$26,500,000 in gold, at the expense of interior institutions. Here also rediscounting operations of paper secured by Government obligations showed a heavy decline and the net result was a decrease in bill holdings of \$56,000,000. Deposits declined \$51,000,000. Both locally and nationally the amount of Federal Reserve notes in circulation expanded, \$9,700,000 in the former case and \$17,000,000 in the latter. In consequence of the addition to gold and the decrease in deposits, reserve ratios were increased, 4.1% to 79.0% in the local institution and 0.5% to 75.8% for the combined system.

Saturday's statement of the New York Clearing House banks and trust companies was featured by increases in loans, deposits and in reserve credits of member banks with the Reserve Bank. The loan item expanded \$5,135,000. In net demand deposits there was an increase of \$30,250,000, to \$3,973,365,-000. This is exclusive of Government deposits to the amount of \$33,781,000, a falling off for the week of \$9,097,000. Other changes included a decline in cash in own vaults of members of the Federal Reserve Bank of \$2,725,000, to \$50,121,000 (not counted as reserve), a decrease in reserves of State banks and trust companies in own vaults of \$376,000, and an increase of \$636,000 in the reserve of those institutions kept with other depositories. Member banks again increased their reserves with the Reserve Bank, this time \$9,881,000, and the net result was an addition to surplus reserve of \$6,434,990, which brought the total of excess reserves up to \$19,383,050. The above figures for surplus are based on reserves of 13% above legal requirements, for member banks of the Federal Reserve System, but do not include cash in own vaults amounting to \$50,121,000 held by these banks on Saturday last.

The advance in the discount rate of the Federal Reserve banks of New York and of Boston from 4 to 4½% was spoken of as the outstanding feature in the money market. It did not exert the influence upon the stock market yesterday that was predicted after the close of business on Wednesday and before it opened yesterday. There is a question as to whether there was a disposition, when the announcement was first made, to attach too much importance to this action on the part of the New York and Boston members of the Federal Reserve System. It is worth bearing in mind that, for some little time, those two institutions and the one in San Francisco, were the only three out of the twelve members that did not have a 41/2% rate. Bankers in this city were quoted yesterday as expressing the opinion that the advance in New York and Boston should be regarded as a bullish factor in the stock market, because it indicated a further increase in the general business of the country. Conservative observers were disposed to suggest that it should be regarded as the first definite step upon the part of the Governors of the Federal Reserve Bank here and in Boston to check undue speculation in securities, and also undue inflation in commodity prices and in the business of the country as a whole. The best opinion is that if those who are

most active in both these general lines will heed this warning there will be no occasion for apprehension or alarm. The general trend of both call and time money in the local market was upward. A 6% quotation for the former was reached yesterday afternoon. According to Washington advices, the Government will not be in the market with additional Treasury certificates until early next month. During the remaining days of this mont1 't will be necessary for the banks and corporations to make preparation for the March 1 disbursements. There is nothing to indicate that the local market will be easier in the meantime. Unless there is a pronounced reaction in stocks, that would cause substantial liquidation, and if the business of the country continues to expand, there is no reason to look for materially easier money at any time in the near future, except possibly for brief periods, during which specific conditions might bring about a reaction in rates.

Referring to money rates in detail, the week's range for loans on call was 41/2@6%, which compares with 4@6% a week ago. On Monday the high was 5%, the low 41/2% and renewals at 5%. Tuesday renewals were put through at  $4\frac{3}{4}\%$ , but the maximum still was 5%, while the lowest rate touched was 43/4%. Firmness developed on Wednesday and a high level of  $5\frac{1}{2}\%$  was reached; the minimum was 5% and this was also the ruling rate. Thursday was a holiday (Washington's Birthday). On Friday the range was  $5\frac{1}{4}$ @6% with  $5\frac{1}{4}$ % the renewal basis. The above figures apply to both mixed collateral and all-industrial loans alike. In time money, also, the undertone was firm and there has been a fractional advance to 5% for all periods from sixty days to six months, as against 43/4@5% last week. Trading was quiet throughout and no really large loans were reported. Increased activity on the Stock Exchange and preparations for the coming month-end disbursements were held responsible for the stiffening in rates.

Commercial paper has also advanced slightly and sixty and ninety days' endorsed bills receivable and six months' names of choice character are now quoted at  $4\frac{3}{4}\%$ , as against  $4\frac{1}{2}@4\frac{3}{4}\%$ , with names less well known at  $4\frac{3}{4}@5\%$ , in comparison with  $4\frac{3}{4}\%$  a week earlier. Out-of-town institutions were still the chief buyers. A good demand was reported, but trading was not active as the supply of offerings was light.

Banks' and bankers' acceptances were dealt in by institutions, but transactions in the aggregate were With the tightening in money, the inquiry fell off perceptibly. Individual investors were less in evidence. Following the advance in the Reserve Bank's rate, the open market undertone stiffened and increases are expected, though actual rates were not changed. For call loans against bankers' acceptances the posted rate of the American Acceptance Council was quoted at 43/4%, against 41/2% last week. The Acceptance Council makes the discount rates on prime bankers' acceptances eligible for purchase by the Federal Reserve banks 41/8% bid and 4% asked for bills running form 30 to 120 days and 41/4% bid and 41/8% asked for bills running 150 days. Open market quotations follow:

| SPOT D   | ELIVERY.  |                    |                     |

Both the Federal Reserve banks of New York and Boston this week increased their rediscount rate from 4% to  $4\frac{1}{2}\%$  on all classes of paper, the advanced rate being made effective Feb. 23. As a result of this action, the Federal Reserve Bank of San Francisco is the only one maintaining a 4% rate, the rate in the case of all of the other Federal Reserve banks being  $4\frac{1}{2}\%$ . The following is the schedule of rates now in effect for the various classes of paper at the different Reserve Banks:

DISCOUNT RATES OF THE FEDERAL RESERVE BANKS IN EFFECT FEBRUARY 23 1923.

Sterling exchange prices this week took another wide forward step in their march toward higher levels and trading operations were distinguished by a series of sharp advances which eventually carried demand bills to 4 72½, the highest point in nearly four years and about 4 cents under the official rate fixed by the British Government which prevailed up to March 20 1919. This figure represents a gain over the high record established in December 1922 of 25/8 cents and compares with the extreme low level of 3 18 touched Feb. 4 1920. Pronounced strength was in evidence almost from the start and although trading could at no time be regarded as active, new high points were achieved on four consecutive trading days. At first the movement was regarded as the natural sequence of improved prospects for a speedy passage of the debt funding agreement by the Senate; but it soon developed that while these underlying influences had without doubt exercised an important psychological effect in bringing about a near approach to par, the immediate cause of the rise was the inauguration of an inquiry for sterling bills on the part of German interests who are being compelled to buy coal in England. Coupled with this was the unwillingness of dealers to operate on either side of the market, which was responsible to a considerable extent for the acute shortage of bills that played so large a part in advancing quotations. London persistently sent higher prices and this as usual served to strengthen the local market; but dealers are showing extreme caution in the matter of making commitments and the disposition seems to be to await the outcome of developments in the Ruhr before resuming regular market operations. There is a well defined opinion that Franco-German affairs are fast approaching a crisis and that negotiations looking to arbitration are likely to be announced at any time. On the other hand, nothing definite in this respect is as yet available and there are some who predict a long-drawn-out struggle before the reparations wrangle is adjusted. Interest in Far Eastern affairs is temporarily sidetracked, but conditions at Lausanne still continue an element of uncertainty with unpleasant possibilities until settled. On Wednesday pre-holiday dulness

set in with prices firmly held, but with the resumption of business yesterday (Friday) after the holiday, a sagging tendency was noted and the close was under the best. Locally, trading has been light throughout. On the Continent, however, a fairly large turnover is reported. Owing to heavy transfers of balances from the Continent to London, the bulk of the week's operations abroad have been of a financial rather than commercial nature; although coal exports apparently played an important part in the dealings.

Referring to quotations in greater detail, sterling on Saturday last was firm and fractionally higher, at  $4.68\frac{3}{4}$ @ $4.69\frac{1}{8}$  for demand, 4.69@ $4.69\frac{3}{8}$  for cable transfers and 4 665/8@4 67 for sixty days; light offerings figured in the advance. On Monday increased strength developed and demand moved up to the highest point in three years, namely  $469\frac{1}{4}@46915-16$ , cable transfers  $469\frac{1}{2}@4703-16$ and sixty days 4 671/8@4 67 3-16; trading was not active. As a result of continued light offering and a better inquiry, demand sterling on Tuesday was advanced to 4 71½—the highest point since March 1919; the low was 4 705/8, while cable transfers ranged at  $4.70\frac{7}{8}@4.71\frac{3}{4}$  and sixty days at  $4.68\frac{1}{2}$ @4 693/8. Wednesday pre-holiday dulness prevailed, but the market was strong and there was a further advance to  $471\frac{1}{2}@472\frac{1}{8}$  for demand,  $471\frac{3}{4}$ @4 723% for cable transfers and 4 693%@4 70 for sixty days. Thursday was a holiday (Washington's Birthday). With the resumption of business on Friday prices ran off slightly and demand bills sold lower at 4 713-1 6@ 4 72; cable transfers 4 71 7-16@ 4 721/4 and sixty days 4 69 1-16@4 697/8. Closing quotations were 4 691/4 for sixty days, 4 713/8 for demand and 4 715% for cable transfers. Commercial sight bills finished at 4711/8, sixty days at 4683/8, ninety days at 4 671/2, documents for payment at 4 68 11-16 and seven-day grain bills at 4 703/8. Cotton and grain for payment closed at 4 703/8.

Gold shipments, which for a time were halted by the movement to India, are now coming this way again, though on a much smaller scale. Early in the week the SS. Berengaria brought 7 boxes of gold bars valued at \$225,000 consigned to Kuhn, Loeb & Co., and three boxes for the Irving Bank-Columbia Trust Co., from England. The French liner Roussillon arrived with gold to the value of 3,085,000 francs. From South America the Panama brought 44 bars of gold and silver bullion and several small shipments of gold and platinum from Central American and South Pacific ports.

Movements in the Continental exchanges were largely overshadowed by the record-breaking rise in sterling and even the more prominent Continental currencies were in neglect. Berlin marks opened at close to the high levels established last week, but with the advance in British exchange due to German buying reichsmarks were correspond ngly depressed and there was a loss of about 12 points to 0.00401/2, although traces of support by the German Government were stil plainly evident at intervals. French francs, on the other hand, after early weakness, steadied and recovered more than 17 points to 6.11 for checks. Belgian currency followed suit. Austrian kronen remain nominal and fluctuated between  $0.0014\frac{1}{2}$  and  $0.0014\frac{1}{4}$ . Italian lire, which are apparently not seriously affected either by the Ruhr debacle or the Turkish problem, ruled quiet but firm

at close to 4.78 until Wednesday, when there was an advance to 4.84. Greek drachma were fractionally easier, but Czechoslovakia and the other Central European exchanges were steady at previous levels. It is claimed that lire quotations are likely to advance quite materially in the next few months, since Italy's trade balance is improving, while steps taken by the Government of Italy to enforce needful economies are proving very successful. Thus far the Mussolini regime is progressing smoothly. Dispatches from Berlin regarding the probable course of the mark are extremely d vergent. Few, if any, traders expect that it is to be permanently stabilized. The belief seems quite general that foreign credits have been used to raise the mark rate for some specific purpose; possibly to stimulate a resumption of foreign speculation in German currency. Trading on the local market was dull and featureless, with the undertone showing some irregularity, especially in the initial dealings. Later on improvement was visible, but with the interruption of Washington's Birthday holiday no increase in the volume of transactions took place and the bulk of the business passing was of foreign origin.

The London check rate in Paris finished at 77.42, as compared with 76.45 a week ago In New York sight bills on the French centre closed at 6.061/2, against 5.99; cable trans\_ers at 6.071/2. against 6.00; commercial sight at 6.04½ against 5.97, and commercial sixty days at 6.011/2, against 5.94 last week. Closing rates for Antwerp francs were 5.321/2 for checks and 5.33½ for cable transfers. The previous week the close was 5.26 and 5.27. Reichsmarks finished at 0.00441/2 for both checks and cable transfers, in comparison with 0.00521/4 a week ago. Austrian kronen closed at 0.0014½, (unchanged). For lire the final range was 4.82 for bankers' sight bills and 4.83 for cable transfers. This compares with 4.781/4@4.791/4 last week. Exchange on Czechoslovakia finished at 2.97, against 2.96½; on Bucharest at 0.48, against 0.47; on Poland at 0.00022, against 0.00023, and on Finland at 2.70, against 2.60 a week earlier. Greek exchange closed at 1.08 for checks and 1.13 for cable transfers, against 1.15 and 1.20 the week before.

Movements in the former neutral exchanges were not particularly significant and rate variations were confined to a few points in either direction. Taken as a whole, the tendency was to follow the lead of sterling and gains of from 4 to 10 points were made during the latter half of the week in guilders, francs and pesetas. Rates on Denmark and Sweden likewise advanced.

Bankers' sight on Amsterdam closed at 39.56, against 39.45; cable remittances at 39.65, against 39.54; commercial sight at 39.51, against 39.40, and commercial sixty days at 39.20, against 39.09 a week ago. Swiss francs finished at 18.82 for bankers' sight bills and 18.83 for cable transfers. Last week the close was 18.77 and 18.78. Checks on Copenhagen closed at 19.49 and cable transfers at 19.53, against 19.01 and 19.05. Swedish checks finished at 26.61 and cable transfers at 26.53, against 26.58 and 26.62, while checks on Norway closed at 18.57 for checks and 18.61 for cable transfers, against 18.65 and 18.68 the previous week. Spanish pesetas finished at 15.68 for checks and 15.69 for cable transfers, in comparison with 15.62 and 15.63 the preceding week.

With regard to South American exchange, the situation remains about the same and rates were maintained on restricted trading. Argentine checks closed at 37.35 and cable transfers at 37.40, against 37.13 and 37.18, while Brazil finished at 11.55 for checks and 11.60 for cable transfers, comparing with 11.55 and 11.60 last week. Chilean exchange was firmer, finishing at 12.30, against 11.95, but Peru was unchanged at 4 01.

Far Eastern exchange has for the time being relapsed into dulness and rates were not materially altered, except for Chinese currency, which closed strong. Hong Kong finished at  $53\frac{3}{4}$ @54, against  $52\frac{7}{8}$ @53\frac{1}{8}; Shanghai at 73@73\frac{1}{4}, against  $73\frac{3}{4}$ @74; Yokohama,  $48\frac{5}{8}$ @ $48\frac{7}{8}$ , (unchanged); Manila,  $50\frac{1}{8}$ @30\frac{3}{8}, against 50@50\frac{3}{8}; Singapore,  $55\frac{1}{4}$ @55\frac{1}{2}, against  $32\frac{1}{8}$ @32\frac{1}{2}, and Calcutta,  $32\frac{1}{4}$ @32\frac{1}{2}, against  $32\frac{1}{4}$ @32\frac{1}{2}, against  $32\frac{1}{4}$ @32\frac{1}{2}.

Pursuant to the requirements of Section 522 of the Tariff Act of 1922, the Federal Reserve Bank is now certifying daily to the Secretary of the Treasury the buying rate for cable transfers on the different countries of the world. We give below the record for the week just past:

FOREIGN EXCHANGE RATES CERTIFIED BY FEDERAL RESERVE BANK TO TREASURY UNDER TARIFF ACT OF 1922, FEB. 17 TO FEB. 23 1923, INCLUSIVE.

| Country and Monetary Unit.  | Noon Buying Rate for Cable Transfers in New York. Value in United States Money. |          |          |          |             |         |

The New York Clearing House banks in their operations with interior banking institutions have gained \$1,463,233 net in cash as a result of the currency movements for the week ending Feb. 22. Their receipts from the interior have aggregated \$2,767,233, while the shipments have reached \$1,304,000, as per the following table:

CURRENCY RECEIPTS AND SHIPMENTS BY NEW YORK BANKING INSTITUTIONS.

| Week ending Feb. 22.     | Into        | Out of      | Gain or Loss     |

|                          | Banks.      | Banks.      | to Banks.        |
| Banks' interior movement | \$2,767,233 | \$1,304,000 | Gain \$1,463,933 |

As the Sub-Treasury was taken over by the Federal Reserve Bank on Dec. 6 1920, it is no longer possible to show the effect of Government operations on the Clearing House institutions. The Federal Reserve Bank on Dec. 6 1920, it is no longer possible to show the effect of Government operations on the Clearing House institutions.

eral Reserve Bank of New York was creditor at the Clearing House each day as follows:

DAILY CREDIT BALANCES OF NEW YORK FEDERAL RESERVE BANK AT CLEARING HOUSE.

| Saturday,  | Monday,    | Tuesday, | Wednesd'y, | Thursday, | Friday,  | Aggregate for Week. |
|------------|------------|----------|------------|-----------|----------|---------------------|
| Feb. 17.   | Feb. 19.   | Feb. 20. | Feb. 21.   | Feb. 22.  | Feb. 23. |                     |
| \$ 000 000 | \$ 000 000 | \$       | S          | \$        | S        | \$<br>Cr. 342000.00 |

Note.—The foregoing heavy credits reflect the huge mass of checks which come to the New York Reserve Bank from all parts of the country in the operation of the Federal Reserve System's par collection scheme. These large credit balances, however, show nothing as to the results of the Reserve Bank's operations with the Clearing House institutions. They represent only one side of the account, as checks drawn on the Reserve Bank itself are presented directly to the bank and never go through the Clearing House.

The following table indicates the amount of bullion in the principal European banks:

| Banks of-   | Feb. 22 1923. |            |             | Feb. 23 1922. |            |             |  |

## FUNCTIONS AND LIMITATIONS OF THE LABOR BOARD.

A difference, some 18 months old, between the Labor Board and the Pennsylvania road ("Chronicle," Aug. 13 and 20, 1921, pp. 674 and 893) has just been passed on by the Supreme Court, on appeal from the Federal Circuit Court of Appeals. The road had obtained an injunction to restrain the Board from publishing its opinion that its decisions had been violated or disregarded. The road had objected to the Board's attempt to induce the railroads to confer with certain dissatisfied employees who acted apart from the rest of the employees, and if such conferences proved unsuccessful to continue the old rules and working conditions. So far as relates to the effort of the Board to intervene between the road and its men and to pass upon the validity of votes taken by the latter is concerned, the "Chronicle" held at the time, and still holds, that the Pennsylvania was right and the Board had sought to exceed its powers.

As to making public its decisions and its belief in respect to acceptance or non-acceptance of those by either railroads or anybody else, it must be admitted that the law is entirely clear, and so Chief Justice Taft finds and declares. The grants and limitations of the Board in respect to industrial disputes have been already pointed out in the "Chronicle" and need not be repeated. The Board is a virtual body of arbitration in the interest of harmony, and Section 313 distinctly says that if it has reason to think any decision of its own or of an adjustment board has been violated it may hold a hearing, decide for itself on the question of fact, "and make public its decision in such manner as it may determine." This grant of authority could not be more unmistakable, and it is the plainer because nothing more is left for the Board to do; indeed, Mr. Hooper has complained that its powers are too feeble, so that all it can do is to point the finger at any disrespectful party. So Mr. Taft sees the matter: "the decisions of the Labor Board are not to be enforced by process; the only sanction of its decision is to be the force of public opinion, invoked by the fairness of a full hearing, the intrinsic justice of the conclusion, strengthened by

the official prestige of the Board, and the full publication of the violation of such decision by any party to the proceeding."

The Court's interpretation of the subject is also notable, and it exactly sustains the interpretation we have always urged. Congress, says Mr. Taft, thought it of the utmost importance to prevent any traffic interruption by disputes, and planned to settle those, first, by direct conference, next, by reference to special "adjustment" boards, and finally by a hearing before the Labor Board itself. Says he:

"The evident thought of Congress in these provisions is that the economic interest of every member of the public in the undisturbed flow of inter-State commerce and the acute inconvenience to which all must be subjected by a serious and widespread labor dispute fastens public attention closely on all the circumstances and arouses public criticism of the side thought to be at fault. The function of the Labor Board is to direct that public criticism against the party which it thinks justly deserves it."

It is not for any court, says Mr. Taft, to pass on the correctness of the conclusion of the Labor Board "if it keeps within the jurisdiction thus assigned to it by the statute," which does not require a road to recognize or deal with labor unions or "to deal with employees through their fellow employees." But his directly-following sentence—that "we think it does vest the Labor Board with power to decide how such representatives ought to be chosen, with a view to securing satisfactory co-operation, and leaves it to the two sides to accept or reject the decision"—is much less free from doubt. We find nothing in the Act to warrant any intervention between a road and its men, and must respectfully differ with the Court upon this, believing that the record shows that the Board did seek an unwarrantable interference. Incidentally, however, the Court gives an indirect rejoinder to the restless persons who persist in accusing the courts of a desire to find judicial actions unwarranted and statutes unconstitutional. So far as the decision does make for direct handling and adjusting of disputes between employer and employee, we agree with Chairman Hooper's reported opinion that it is a long step towards industrial peace in transportation.

## MORE VEHICULAR TUNNELS UNDER THE HUDSON PROPOSED.

The vehicular tunnel under the Hudson is now past its early difficulties, and an interesting announcement is that bills have been introduced in our own and in the New Jersey Legislature for incorporating the Inter-State Vehicular Tunnel Co., which proposes two (or perhaps three) more tubes for vehicles, the terminus of the first one to be on this side somewhere between 23rd and 42nd streets, the precise spot not being decided yet, and being also withheld from publicity for the suggestive reason that knowledge of it "might have the effect of greatly increasing neighboring real estate values." The bills give the right to charge tolls to be controlled by prevailing ferry charges, to condemn needed property and to issue securities; after five years from the date of completion, the States or the cities may take over the property at the construction cost plus 15%, or, later, with an annual 2% taken from cost, as a depreciation allowance; at the end of 50 years the property is to revert to the cities and to the municipalities.

As an engineering problem, the feasibility of these tunnels has passed all reasonable question. schemes for extending Manhattan out into the bay are probably feasible, as such a problem, and perhaps the East River could be set back into Long I land, thus broadening the "Dutch baby's foot" which Manhattan was long ago said to be. Engineering is one thing, and economic feasibility is another; but while our bridges are valuable and to be maintained, the question of under-water tubes as against more bridges seems to be decided in favor of the former. The proposed new tubes are to have emergency paths for pedestrians, and the labor unions have given us memorable lessons concerning the need of connections between this city and New Jersey which neither weather nor the crass stupidity of labor can interrupt.

The economic question is the real one. In its 1921 report the Inter-State Tunnel Commission offered figures showing that in 1914 the number of vehicles, horse-drawn and motor-driven, crossing the Hudson on a five-ferries group was 2,839,055, increasing in 1920 to 3,853,793, and, of course, the number must be expected to continue growing. The projectors think the earnings of their tubes may cover the cost in a dozen years. Frank M. Williams, of Albany, a former State Engineer; Newton M. Porter, head of the New Jersey Chamber of Commerce, and Darwin R. James, head of the East River Savings Bank, are among the proposed incorporators, and they feel a confidence that the needed funds will be obtainable. At least, there is a guarantee of practicality and of efficient handling in the fact that private and not public funds are to do the work. It will not be undertaken unless there is a reasonable prospect of financial success, and the funds will be handled with reasonable strictness, instead of being flung broads cast.

## THE TRUST COMPANIES IN NEW YORK AND ELSEWHERE.

Continuing the practice begun by us a long time ago, we again present our annual comparative returns of the trust companies in this city (Manhattan and Brooklyn boroughs) and also those in Boston, Philadelphia, Baltimore and St. Louis, bringing down the figures to the close of 1922. In our detailed presentation of the returns of the separate companies, on subsequent pages, we also include many of the companies in Chicago, but we attempt no general totals for that city.

For this city the figures, as far as the liabilities and assets of the different companies are concerned, are those furnished to the Superintendent of Banking at Albany, under his latest call, namely Nov. 15 1922. As has been many times pointed out by us, it was the practice of the Banking Department for a quarter of a century or more to require reports for the closing day of the year, but this was changed in December 1911 by the then executive head of the Department, and from that time to 1914 various dates in December were fixed as the time of the return, while in December 1915 the last day was again chosen, but for 1916 the date was dropped back to Nov. 29, for 1917 to Nov. 14, for 1918 to Nov. 1, while for 1919 the date was fixed at Nov. 12, and for 1920, for 1921 and for 1922 at Nov. 15. The Superintendent who inaugurated the departure evidently contemplated that there should always be a return for some date in December, though the date was not to be known beforehand. Succeeding incumbents of the office have not felt bound by any such rule, and accordingly have named a day in November, aggravating the effects of the original change.

The most noteworthy feature of these trust company returns for the latest period is the recovery shown in deposits and aggregate resources after the contraction in these items in both 1920 and 1921. In this the experience of these institutions is like that of the banks, and as a matter of fact the fluctuations in the items referred to in the case of the trust companies always correspond very closely with the fluctuations in the same items in the case of the banks. The business of the two classes of institutions is getting to resemble each other more and more closely, at least in this city. While the trust companies cannot be said to do a mercantile business in the ordinary sense, not a few of the banks are assuming trust company functions, besides which there have recently been several important amalgamations of trust companies with banks, and in such instances the consolidated institution of course continues both the former mercantile business and the trust company work. In some of these amalgamations the result has been to transfer a bank to the trust company list, the charter of the bank being surrendered and the charter of the trust company retained, while in other cases the effect has been to transfer a trust company to the bank group, the charter of the trust company being given up. In the course of our present remarks we shall have occasion to refer to both types of merger. The truth is there has been so much shifting, as a consequence of such combinations from the trust company list to the bank group, and vice versa, that the result has been seriously to disturb the value of the comparisons between one period and

Nevertheless, the fact which stands out very prominently amid all the changes is that while in 1920 and 1921 the trust companies, like the mercantile banks, had their deposits drawn down under the influence of business depression, credit restriction and price deflation, on the other hand in 1922 the trust companies, no less than the banks, enjoyed renewed growth in their deposits with the return of business activity and recovery from the severe period of industrial prostration. For the Greater New York aggregate deposits between Nov. 12 1919 and Nov. 15 1921 fell from \$2,443,087,071 to \$2,001,080,342. Now, for Nov. 15 1922 we find the amount back to \$2,208,982,-617, and were it not for certain mergers which took some well-known trust companies out of the trust company list in 1922 the recovery would have reached still larger proportions. What is more, certain other trust companies which in the two previous years had been absorbed by banks and consequently disappeared as trust companies, thereby adding to the loss resulting from business depression, did not, of course, rejoin the trust company list, preventing the general total of trust company deposits from returning to its former large figures. Thus the Irving Trust Co., which on Nov. 12 1919 had reported aggregate deposits of \$76,278,900, was on April 19 1920 merged in the Irving National Bank, while on May 1 1920 the Franklin Trust Co., which the previous Nov. 12 had reported deposits of \$25,278,100, was merged in the Bank of America. The elimination of these two institutions from the trust company list accordingly accounted for over \$100,000,000 of the \$288,000,000 loss in the deposits in 1920.

During 1921 the only further absorption of moment was that of the Hamilton Trust Co. of Brooklyn by the Metropolitan Bank. During 1922, however, there were several other mergers which served to take trust companies out of their class. For instance, in April 1922 the Mercantile Trust Co. was taken over by the Seaboard National Bank, while in July 1922 the Lincoln Trust Co. was merged in the Mechanics & Metals National Bank. The first-mentioned trust company on Nov. 15 1921 held deposits of \$18,437,450 and the Lincoln Trust Co. at the same date was credited with deposits of \$25,773,985, making over \$44,000,000 together. On the other hand, in the consolidation in Sept. 1922 of the Bank of New York with the New York Life Insurance & Trust Co. and the continuance of the operations of the combined institutions under he title of Bank of New York & Trust Co., with retention of the trust company charter, the trust company list got the benefit of the additional deposits of the Bank of New York which the previous December were reported at \$52,-

Enumeration of these changes in corporate forms is necessary to a proper interpretation of the course of the deposits. Making due allowance for them. there appears to be full warrant for the conclusion that except for the part played by these changes in affecting the totals, the amount of these deposits would be found up to the highest figures ever reached at the corresponding date. This has reference to the trust companies in the Greater New York, but the same remark applies to the figures for the whole State, including Greater New York. The changes in corporate form have affected these latter figures the same as the deposits in the Greater City. For the whole State the deposits of the trust companies, after having fallen from \$2,885,355,813 Nov. 12 1919 to \$2,672,280,444 Nov. 15 1920 and then to \$2,497,547,-429 Nov. 15 1921, have now for Nov. 15 1922 got back to \$2,770,799,561 and on June 30 1922 stood as high as \$2,975,498,306, there having been in 1922, as in most other recent years, a considerable drawing down of the deposits in the summer and autumn as a result of the increased demand for funds at those seasons of the year.

Capital stock is at the highest figure ever recorded, notwithstanding the elimination of so many companies from the list. For the Greater New York there had been between Nov. 12 1919 and Nov. 15 1920 an increase from \$104,700,000 to \$116,983,300 and by Nov. 15 1921 a further increase to \$125,500,-000, details of which were set out in our article of last year. Now, for Nov. 15 1922, we find the total up to \$127,600,000 notwithstanding the elimination of the Lincoln Trust Co. with a capital of \$2,000,000 and the Mercantile Trust with a capital of \$1,000,-000. The further increase is mainly accounted for by the fact that the capital of the American Trust Co. has been increased from \$1,500,000 to \$2,000,000, the capital of the Peoples Trust Co. of Brooklyn from \$1,500,000 to \$1,600,000 and that the New York Life Insurance & Trust Co., with a capital of only \$1,000,-000, has been replaced by the Bank of New York & Trust Co. with a capital of \$4,000,000.

The item of surplus and profits, which the previous year had shown some shrinkage owing, no doubt, to diminished profits as well as the charging off of heavier losses than usual, now records new high record totals. Interest rates during the year were satisfactory and security values (of the classes held by

the trust companies) have been rising, obviating the need of charging off losses. In addition, the effect of some of the mergers has also been to increase the surplus item. For instance, on Nov. 15 1921 the New York Life Insurance & Trust Co. reported surplus and profits of only \$2,716,600, while for Nov. 15 1922 the Bank of New York & Trust Co., which has taken its place, has to its credit surplus and profits of no less than \$11,841,927. The result altogether is that surplus and profits for the trust companies in Greater New York on Nov. 15 1922 stood at \$197,-338,717, as against \$175,565,266 Nov. 15 1921, \$187,-349,200 Nov. 15 1920, and \$179,330,500 Nov. 12 1919. For the whole State, including the Greater New York, the surplus account (with all undivided profits) Nov. 15 1922 was \$235,322,994, against \$209,223,-775 Nov. 15 1921, \$219,945,439 Nov. 15 1920 and \$211, 441,830 Nov. 12 1919.

The trust companies have practically stopped borrowing and have only a trifling amount of bills payable outstanding, with no rediscounts as far as the trust companies in the Greater New York are concerned. During the war period, when the trust companies, like the banks, were financing heavy purchases of United States Government obligations for themselves and their customers, these institutions had recourse to the loaning facilities of the Federal Reserve Bank of New York on quite an extensive scale. For all the trust companies in the Greater New York the total of the bills payable outstanding Nov. 15 1922 was only \$9,281,621, with the rediscounts, as already stated, nil. This compares with \$35,631,000 of bills payable and rediscounts Nov. 15 1921, \$242,934,500 Nov. 15 1920 and \$232,174,600 Nov. 12 1919.

Turning now to the assets and examining the collateral loans, the largest single item among the investments-such loans having always been a favorite form of investment with the trust companies-we find considerable increase again in this item after a marked contraction in previous years. The increase, of course, is natural in view of the renewed growth in the deposits. The aggregate of these loans fell from \$1,115,505,900 Nov. 12 1919 to \$896,288,800 Nov. 15 1920 and further declined to \$744,386,339 Nov. 15 1921; for Nov. 15 1922 the amount is up to \$846,437,-293. The bill holdings have somewhat further decreased, after having heavily diminished in the previous year. The designation of this item in the statement given out by the State Banking Department is "Loans, Discounts and Bills Purchased, Not Secured by Collateral," and for Nov. 15 1922 the amount for the trust companies in Greater New York is reported as \$448,204,530, as against \$486,467,500 Nov. 15 1921; \$646,822,300 Nov. 15 1920, and \$479,327,900 Nov. 12 1919.

The stock and bond investments increased quite considerably during the year and the aggregate for the companies in the Greater New York Nov. 15 1922 was \$607,744,930 (a decline from \$656,402,462 June 30 1922), against \$480,806,007 Nov. 15 1921; \$460,767,500 Nov. 15 1920, and comparing with \$570,203,900 Nov. 12 1919. The real estate held does not vary greatly from year to year and for the companies in Greater New York was \$48,900,549 Nov. 15 1922 against \$45,975,995 in Nov. 1921; \$45,401,600 in Nov. 1920, and \$45,050,700 in Nov. 1919. The amount of real estate mortgages owned also varies comparatively little from year to year. The total of such mortgages owned in Nov. 1922 was \$55,660,301,

against \$60,374,001 in Nov. 1921; \$58,694,400 in Nov. 1920 and \$60,597,600 in 1919.

The reserve held by the trust companies with the Federal Reserve Bank was further reduced during the year and the coincident increase in the collateral loans and the stock and bond investments shows that the trust companies have been keeping a larger proportion of their funds employed. The amount due from the Federal Reserve Bank of New York less offsets, combined with the amount due from approved reserve depositories less offsets, aggregated \$243,-672,704 for the trust companies of Greater New York November 15 1922, against \$234,304,212 in November 1921; \$233,154,800 in November 1920 and \$293,350,400 in Nov. 1919. The trust companies never hold large sums of cash in their own vaults and the holdings of "specie" in Nov. 1922 were only \$4,000,736, which compares with \$5,233,340 in Nov. 1921; \$8,877,800 in 1920 and \$11,138,900 in 1919. In addition they reported \$17,851,658 of "other currency" authorized by the laws of the United States in 1922 against \$17,704,536 in 1921; \$19,419,500 in 1920 and \$23,316,200 in 1919. The remaining cash items, viz. "exchanges and checks for next day's clearings and other cash items" aggregated \$164,-352,748 Nov. 15 1922, against \$146,049,871 in 1921 and \$156,056,000 and \$105,552,300 in 1920 and 1919, respectively.

In the foregoing we have been dealing with the trust companies as a whole. As far as the separate companies are concerned, the elaborate statements on subsequent pages will enable the reader to ascertain what the experience of each company has been as between 1922 and 1920. To furnish a sort of general survey we introduce here the following table comprising all the companies in the Boroughs of Manhattan and Brooklyn, and showing the deposits on Dec. 9 1913, Nov. 12 1919, Nov. 15 1920, Nov. 15 1921 and Nov. 15 1922. Most of the companies, as would be expected in view of what has been said above, enjoyed sharp recovery in deposits in 1922, but a few have remained stationary.

a Transatlantic began business May 28 1912 and liquidated by U. S. Govern agents in 1919

For Aug. 22 1907 the total does not include deposits of Flatbush of Brooklyn, b For Aug. 22 1907 the total does not include deposits of Flatbush of Brooklyn, which was consolidated with Broadway of N. Y. City March 6 1912. The Broadway changed title to Irving Trust Nov. 30 1917 and Market & Fulton Nat. consolidated with Irving in March 1918.

The total for Dec. 9 1913 does not include Home Trust Co. of Brooklyn, consolidated with Lawyers' Title Insurance & Trust Co. of N. Y. City February 1915.

c The total for Aug. 22 1907 includes deposits of Flatbush and the total for Dec. 9 1913 includes deposits of Home Trust Co.

d Washington Trust Co. absorbed by Corn Exchange Bank on Jan. 26 1914.

e Clitzens' Trust Co. and Manufacturers' Nat. Bank consolidated in Aug. 1914 Manufacturers' Trust absorbed the West Side Bank, New York City, June 15 1918 f Nassau frust Co. merged into the Mechanics Bank June 27 1914.

g Mutual Alitance taken over by Chatham-Phenix Nat. and Century banks January 1915.

January 1915

h Mercantile Trust began business May 1 1917.

i Scandinavian began business June 11 1917 and taken over by Liberty National ank Oct. 1919.

k Central and Union consolidated June 18 1918.

m American Trust organized Jan. 27 1919, absorbed Queens Co. Trust Sept. 1919, p Italian Dis. & Tr. began business Nov. 11 1918. q Merged in Irving National Bank April 19 1920.

r Merged in Bank of America May 1 1920. s Began business Sept. 1920. t Hamilton Trust merged in Metropolitan Bank Jan. 29 1921 u Lincoln Trust merged in Mechanics & Metals National Bank July 1922.

v Mercantile Trust merged in Seaboard National Bank April 1 1922.
w New York Life Insurance & Trust merged with Bank of New York, forming Bank of New York & Trust Co., Sept. 1922.

#### TRUST COMPANIES AT OTHER POINTS.

In the case of the trust companies at Boston, Philadelphia, Baltimore and St. Louis, the figures as presented on subsequent pages for the different institutions are all our own, we having in each instance made direct application for them to the companies, though in a few instances, where our requests met with no response, we have had to have recourse to official statements made in pursuance of calls of the public authorities. In the nature of things, as we are entirely dependent upon the companies themselves for the figures, and no general data of an official kind are available, comprehensive totals and elaborate details, such as are possible for the institutions of New York, are out of the question. Our summaries for these other centres are such as we have been able to prepare ourselves and necessarily are limited to a few leading items. Nor are the returns in those instances cast on uniform lines, nearly every company having its own distinct method of classification, making general footings out of the question, except as regards those few common things treated alike by all, and which have definite, established meaning, such as capital, surplus and deposits.

The Boston trust companies, like those of New York, after recording contraction in both deposits and aggregate resources in 1920 and 1921, show renewed expansion in 1922. The recovery is the more noteworthy as it occurred in face of diminution in the number of companies by two-there being 21 companies on Dec. 31 1922 against 23 on Dec. 31 1921. The Market Trust Co. was taken over by the International Trust Co. and the Metropolitan Trust Co., together with the Back Bay National Bank, was absorbed by the Federal Trust C Total deposits increased from \$392,924,224 to \$446,844,659, and aggregate resources from \$456,840,076 to \$507,282,285. While increases in these items were practically general with all the companies, more than one-half the gain was contributed by three companies: the International Trust Co. reports deposits for Dec. 31 1922

at \$45,495,146, against \$30,510,362 for Dec. ?1 1921; aggregate resources as \$50,120,053 for 1922, against \$35,059,810 for 1921, this increase due, no doubt, to the inclusion of the Metropolitan Trust Co. and Back Bay National Bank, as noted above. The Federal Trust reports deposits on Dec. 31 1922 at \$19,863,634, against \$12,847,598 in 1921, and aggregate resources at \$22,973,065, against \$14,927,753. The Massachusetts Trust Co. gives its deposits as \$18,292,444, against \$14,500,223, and aggregate resources as \$20,-093,259, against \$16,308,937.

Capital has risen from \$23,450,000 to \$23,850,000. Three companies increased—the Federal from \$1,-000,000 to \$1,500,000, the Beacon from \$600,000 to \$1,000, 00 and the New England from \$600,000 to \$1,000,000. Two companies, the Market, capital \$400,000, and the Metropolitan, \$500,000, have disappeared from the list, as noted above.

The following furnishes a comparison for the various items for the last twenty-three years:

| BOSTON.  | Capital.   | Surplus and<br>Profits.   | Deposits.  | Aggregate<br>Resources.  |  |
|--|--|---|--|--|--|

In Philadelphia, too, changes in the figures of the individual companies and necessarily the totals, have been, without exception, towards higher levels. Four new companies have been added, the Chestnut Hill Title & Trust Co., Cobb's Creek Title & Trust Co., Fairhill Trust Co. (conversion of the Fairhill State Bank) and the Sixty-Ninth Street Terminal Title & Trust Co., each with a capital of \$125,000. One company has disappeared, the Rittenhouse Trust Co., which was taken over by the Corn Exchange Bank. Increases in capital have been numerous, no less than nine companies having made changes to higher figures. The total of this item for all the companies has risen from \$46,098,021 Dec. 31 1921 to \$47,554,243 Dec. 31 1922, but surplus and profits have decreased from \$91,183,753 to \$88,125,-428. Deposits have risen from \$407,600,404 to \$489,-308,036, while aggregate resources moved up from \$561,639,998 to \$635,130,394. In both instances the amounts are the largest ever recorded.

Following is a comparison of the various items for a series of years:

The number of companies in Baltimore remains the same—thirteen in all—and but two companies have increased their capital, viz. Atlantic Trust Co., from \$500,000 to \$1,000,000, and the Title Guarantee & Trust Co., from \$200,000 to \$400,000, making total capital of all the Baltimore companies \$11,500,000 Dec. 31 1922, against \$10,800,000 for Dec. 31 1921.

Surplus and profits have risen from \$15,988,624 Dec. 31 1921 to \$17,361,792 Dec. 31 1922; deposits have increased from \$110,811,291 to \$137,308,934, and aggregate resources from \$140,781,858 to \$169,330,708. Every one of the items is in excess of the best previous total. In tabular form the comparisons are as follows:

| BALTIMORE.                                       | Capital.               | Surplus and<br>Profits.  | Deposits.                | Aggregate<br>Resources.    |  |

Changes in St. Louis have all been upward, with the exception of the number of companies, which has been reduced by one-the Union Station Trust Co., capital \$500,000, having surrendered its trust company charter and been converted into the St. Louis National Bank. Increases in capital have been made by four companies—City Trust, Easton-Taylor Trust, Laclede Trust and North St. Louis Savings Trust, each increasing its capital from \$100,000 to \$200,000. The total of this item now stands at \$12,-650,000, as against \$12,450,000 for Dec. 31 1921. Surplus and profits have advanced from \$15,300,040 to \$15,662,452. Deposits have increased from \$154,- $556,\!540$  to \$171,019,489, and aggregate resources from \$186,171,366 to \$204,152,108. Comparison for a series of years is as follows:

| ST. LOUIS.             | Capital.    | Surplus and Profits. | Depostts.    | Aggregate<br>Resources. |  |
|------------------------|-------------|----------------------|--------------|-------------------------|--|

\*Reduction in totals due to the elimination of the St. Louis Union Trust Co., whose banking business was taken over by the newly organized St. Louis Union Bank. The Trust Co. reported no deposits on Dec. 31 1915 against \$25,710,275 on Dec. 31 1914 and \$11,244,321 aggregate resources Dec. 31 1915 against \$36. \$35,227 on Dec. 31 1914.

x All items heavily increased through the establishment of the Liberty-Central Trust Co. by the merger of the Central National Bank and the Liberty Bank.

## THE NEW CAPITAL FLOTATIONS IN JANUARY, THE OPENING MONTH OF THE NEW YEAR.

January broke all records for new capital flotations in the United States as represented by the stock, bond and note issues brought out on behalf of corporations and by States and municipalities, foreign and domestic, and as represented by Farm Loan issues. The op ning month of the year is nearly always distinguished for offerings above the average monthly amounts, but the present year this distinction has been carried to unusual heights. The grand total of stocks and bonds which came on the market aggregated no less than \$879,268,265. This is 412 millions in excess of the offerings in the corresponding month last year, nearly 457 mil-

lions in excess of those for 1921, 391 millions in excess of those for 1920, and 596 millions in excess of those for January 1919. In others words, as against this year's total of \$879,268,265, the amount last year in January was only \$467,209,905, in January 1921 but \$422,716,766, in January 1920 \$488,225,639, and in January 1919 no more than \$283,041,421. The total is of such magnitude that it cannot be said to have been even closely approached in the past, the highest previous amount for any month of any year, as far as our records go, having been May 1922, with a total of \$617,235,070.

It is proper to state that the bringing cut of a few issues of exceptional size is responsible for the extreme magnitude of the month's total. As noted further below, the Anaconda Copper Mining Co. appealed to the investment market with two huge issues calling for \$150,000,000 and Armour & Co. offered two issues which combined called for \$110,000,000. These four issues alone therefore represented no less than \$260,000,000. In addition, a new offering of Federal Land Bank bonds for \$75,000,000 was made.

Another important point to bear in mind is that a very large part of the month's total was for the purpose of acquiring or redeeming existing issues. This is important because to the extent that this is the case the offerings do not represent applications for new capital. And this calls attention to the need and value of segregating the amounts each month, as we do in our tables, so as to show how much of the new security issues represents applications for strictly new capital and how much is merely to take up or retire stocks or bonds already outstanding. In January the present year fully \$184,985,825 out of the grand total of \$879,268,265 of new issues placed, was for "refunding," a designation we use to indicate the absorption or taking up of any outstanding issues of stock or long term bonds. Even with the refunding part taken out, however, it must be admitted that the remainder nevertheless is very large, being \$694,282,441.

We wish again to joint out that with new issues increasing in every other direction, the total of offerings by States and municipalities is running smaller than a year ago. For January the amount was \$93,726,479 for the States and municipalities of this country, besides which \$18,153,000 of Canadian issues were placed in the United States during the month. In January last year the amount for this country was \$108,653,605 and the amount of the Canadian issues, \$20,736,000.

The investment market demonstrated its ability to absorb the flow of new offerings and some of the issues have already registered substantial increases in market value. The success attending the flotations may in part be ascribed to general recognition of a bright business outlook and to low money rates. These two factors enabled many companies to refund outstanding issues at maturity, or in advance thereof, on a lower cost basis. It is significant, too, that this refunding was accomplished mainly through the medium of long term borrowing. The improved business condition further permitted corporations to resort to stock issues, and no less than \$135,873,786 was raised in this manner in January. This total of stock issues more than doubles the monthly average for 1922 and is almost 50% of the total for the entire year of 1921.

New flotations by industrial companies predominated in the month's business, amounting to \$422,707,500. The foremost issues in this group follow: \$100,000,000 Anaconda Copper Mining Co. 1st cons. mtge. 6s "A," 1953, offered at 96½, yielding 6.25%; \$50,000,000 Anaconda Copper Mining Co. 15-year Convertible Debenture 7s, offered at par, yielding 7%; \$60,000,000 Armour & Co. (of Del.) 7% Guar. Pref. Stock, offered at 99, yielding 7.07%; \$50,000,000 of the same company's 1st mtge. Guar. 5½s "A," 1943, offered at 96, yielding 5.85%; \$25,000,000 Bethlehem Steel Corp. Cons. Mtge. 5½s "B," 1953, placed at 93, yielding 6%, and \$20,000,000 Fisher Body Corp. Serial 6s, 1924-28, sold at prices to yield from 5½% to 6½%.

The total of public utility offerings reached \$145,879,286, constituting one of the largest months on record. The principal issues of this nature were \$35,000,000 Bell Telephone Co. of Pa. 1st & Ref. Mtge. 5s "B," 1948, offered at 98½, yielding 5.10%; \$22,000,000 Spring Valley Water Co. 1st Mtge. 5s, 1953, placed at 98½, yielding 5.12%, and \$17,500,000 Laclede Gas Light Co. 1st Mtge. Coll. & Ref. 5½s "C," 1953, offered at 96.45, yielding 5.75%.

Railroad issues were on a much larger scale than in recent months, amounting to \$54,802,000, which compares with only \$29,871,500 in December 1922 and but \$7,505,000 in November. The most important offerings were: \$13,875,000 Balto. & Ohio RR. Equip. 5s, 1924-38, offered on a 5.20% basis; \$12,660,000 N. Y. Central Lines Equip. 4½s, 1923-37, offered to yield 5%, and \$10,000,000 Northern Pacific Ry. Co. Ref. & Imp. 5s "D," 2047, offered at 99, to yield 5.05%.

The long awaited Republic of Cuba loan was finally floated in January. It was the only foreign obligation sold during the month. The offering was made in the form of 30-year Sinking Fund 5½% Gold Bonds, 1953, at 99¼, to yield about 5.55%.

Thirteen issues of farm loan bonds, aggregating \$94,000,000, were brought out at prices to yield from 4% to 4%%. The largest of these was the \$75,000,000 Federal Land Bank 4½s, 1933-43, sold at 101, yielding 4%%.

The following is a complete summary of the new financing—corporate, foreign, Government and municipal, and farm loan issues—for January of the last five years. We desire to point out that we have further subdivided the figures—showing in the case of the corporate offerings both the long term and the short term issues for the bonds, and separrating the common from the preferred shares for the stocks.

## Indications of Business Activity

### THE STATE OF TRADE-COMMERCIAL EPITOME.

Friday Night, Feb. 23 1923.

American trade continues to sweep forward in not a few of the big industries and in cotton the highest prices of the season were reached, that is, nearly 30 cents per pound. In the South above that price has been paid, with the supply decreasing and the mill demand expanding, partly because some of the Southern shippers are believed to be in arrears on their engagements with the mills. But an interesting outcropping of the general expansion of business in this country is seen in the iron and steel trade. Both are active at rising prices. Copper has been in large demand at some advance. In sugar there has been a large businss at rising prices, and to-day 5%c. was reached for Cuban raws, as against 3½c. at the opening of February, a rise in a few weeks, that is to say, of about 65%, under the stimulus of a big demand, domestic and foreign. Refined is up to 9c. And there has been an advance in tin a d lead, though rubber has receded slightly and grain prices are lower for the week, with only a moderate export demand, largely because of the competition from Argentina, Australia and other countries. Yet it is reported that nearly 50,000 sacks of flour have just been cleared from New Orleans for China. And Germany has latterly been buying American flour to some extent.

But the American farmer is still at a disadvantage, even though his position is not quite so bad as at one time. dominance of labor in this country gives an advantage to the workers in the great towns and cities over the agricultural population. In other words, a comparatively small fraction of our population, now estimated by 110,000,000, is able, through the power of combination in its essence illegal, to dictate terms, which not only hit the farming population, but also large sections of the population in other fields of activity. General Charles G. Dawes, former Director of the General Budget, in his speech at Chicago on Feb. 22, pointed out not only the demagoguery in the legislative bodies of the country currying favor with labor, but also the cowardice of political parties, the leniency of public officials towards Red criminals, and finally, the spirit of lawlessness among labor unions. Well did General Dawes demand a new bill of rights against minority organizations. It has been declared recently that labor unions are acting in a spirit of socialism and are usurping a larger share of the fruits of industry in this country than they are entitled to. But apart from all this, it has long been recognized that the farming population has suffered severely from the encroachments of labor in keeping up the cost of living. The artificial scarcity of labor grows more and more acute as immigration fails to keep pace with the demand, though skilled workers are coming from England and Canada to this country. There is still a great scarcity, however, of labor throughout the United States, notably common labor. It is needed to work in the mills and factories and will also be needed later on to cultivate the cotton crop, which has failed for two years in succession and may fail again unless there is an ample supply of labor to combat the weevil pest. It may be added that the situation in the Ruhr is still unfavorable, with a smoldering discontent among the German population as the French grip on that region tightens. On the other hand, there are growing hopes that the Turks will soon sign the treaty of peace.

Apart from this, many features affecting the business of the United States are distinctly favorable. It is true that the Federal Reserve Bank rediscounts have been advanced from 4 to 41/2%. But this is only in accordance with the healthy demand for money as trade widens out. Sterling exchange has reached a new high during the week, that is only some 4% below par. Stocks and bonds in the main have been active and rising. Failures are decreasing strikingly. The total for the week, which includes a holiday, is put at 311, as against 395 last week, also a holiday week, 506 for this week last year and for the first time lower than in the corresponding week in 1921, when they were 350. The weather goods, pig iron, steel ingots, locomotives, zinc, bituminous

in the main has been more favorable, although it is still very cold in some parts of the country. Transportation is less difficult and soft coal and live stock are lower. It is true that low temperatures have continued to restrict jobbing and retail trade to a certain extent. But in the nature of things this can be only temporary, and latterly, indeed, conditions in this respect have improved. The spring business in both jobbing and retail lines is considerably larger than that of a year ago. The great industries are very busy, and production of iron and steel mounts, without overtaking the demand, so that premiums for prompt delivery are apparently more general in some branches of the steel trade. Trade would be better with a larger supply of cars, and in some parts of the country influenza is a temporary factor. railroads are buying equipment on a large scale. And it is a noteworthy fact that American makers of railroad cars are having a better export business, as European mills, owing to the troubles in the Ruhr, are out of the running. Pig iron is advancing, partly because of the inability of Continental mills to export this product to America. Agricultural implements are in active demand. And automobile manufacturers are buying steel on a big scale. Where r the weather has permitted, building has been very active. Great snows recently have, it is true, interfered with the output of lumber in the Far Northwest. But this is in all likelihood only for the moment. There are complaints of scarcity of other building materials. Lower prices for bituminous coal, however, have helped Western makers of brick and tiles. In the textile industries there is a brisk business in both cotton and silk goods at rising prices. Crude oil has continued to advance and oil operations in the Southwest are more active. Finally, collections have been rather better. The general outlook for trade in the United States is considered promising.

Unemployment in England is reflected in an influx of skilled mechanics into the United States and Canada, says the State Department of Labor and Industry Employment Bureau. Information received by the Bureau indicates that laborers of this class are arriving at the rate of 2,000 a Lack of work and no prospects of improvement caused the exodus to the United States, which the reports received by the Department said, has alarmed the British Government to such an extent that an embargo is being considered.

In New Hampshire advocates of the 48-hour bill have been checked in their efforts to rush the measure through the State Senate. Senator Lippitt of Rhode Island, opposing the 48-hour measure in the State Senate, declared that Rhode Island is facing one of the most critical situations in its industrial history. Southern c apetition in textiles is certainly growing year by year. New England cotton mills are hampered by snows and he necessarily slow railroad service for the moment. The strike of the New York dress and waist workers has been settled on the basis of a 40-hour week, piece work and 10% increase in wages. The International Ladies' Garment Workers is the first needle trade union in the city to get a 40-hour week. The British Cotton Yarn Association at a meeting held on Tuesday passed a resolution recommending, in view of the present state of the industry, that all mills be stopped for two weeks in the month of March. At Ludlow, Mass., a wage increase of 10% to all their 2,000 employees at the jute mills has been granted by the Ludlow Manufacturing Associates. The advance came after a strike of a few carders. It was stipulated that there shall be no further demand for six months. At York, S. C., the Cannon Cotton Mill, which for some weeks has been running full capacity in day time, is now running an increasing number of looms at night. This is because of a sudden and abnormal demand for towels, which until recently could hardly be sold at a profit.

A very large increase in productive activity is indicated by figures received to date by the Department of Commerce through the Bureau of Census on January business conditions. New high records were made in many cases. Cotton coal and flooring are among the basic commodities whose January production figures show the largest output since the boom period of 1920. Sales were big especially in metals and building materials. The large car loadings and seasonally high retail sales, as well as the general depletion of manufacturers' stocks, indicate that the goods produced are quickly passing into consumption. The present increase in productivity has thus far been differentiated from the 1919 boom by the relatively small expansion of commercial credit and the relatively gradual increase in prices. The price increase during 1922 amounted to less than half of the increase in wholesale prices during 1919.

Last Sunday the thermometer here was down to 7, which was 3 degrees lower than the previous lowest, during the cold wave in January. At least 17 persons lost their lives in the Northwest as a result of the blizzard of the 13th inst. in Minnesota, South Dakota, North Dakota and Saskatchewan Province, Canada. The authorities of Saratoga have seized nine cars of coal to meet the distress in that town. Other northern towns plan to seize coal also. The New York State Senate on Feb. 19 passed unanimously a resolution authorizing the State Administrator to seize coal in transit. The resolution is now before the Assembly. On the 19th inst. warmer weather extended over the territory east of the Rockies, but some New England harbors were blockaded with ice. The temperature was below the freezing point with killing frosts as far south as northern Florida and the Alabama coast., while central Florida reported light frosts. In Boston on the 18th inst. the thermometer was down to 5 degrees. For six days it had not been above 25. Several seaport and river towns were blockaded with ice, with fuel supplies running low. Marblehead and Salem harbors were frozen over so solidly that it was impossible for coal barges to get through, and Pawtucket, R. I., was in a similar predicament because of the heavy river ice. To-day it has been clear and cold here, i. e. 23 to 25 degrees in the early afternoon. Fair and colder weather is predicted. In the far Southwest there were light rains and springlike temperatures.

#### Structural Bookings Largest Since May.

The increase in sales of fabricated structural steel begun in December was continued in January, with the largest bookings since last May, according to reports received by the Department of Commerce through the Bureau of the Census. January sales amounted to 75.2% of shop capacity, as against 57.3% for December. Sales reported by 147 firms with a capacity of 218,645 tons per month amounted to 164,404 tons, or 65.2% of shop capacity, as against 57.8% of shop capacity reported for December. The following table compares reports of 158 identical firms with a capacity of 220,690 tons per month from April through October, while later reports are based on a varying number of firms, with little change in total capacity. For comparative purposes each month's figures are also prorated to obtain an estimated total for the United States on a capacity of 250,000 tons per month.

| per monen.     | Actual          | Per cent     | Estimated       |

#### Increase in Automobile Production.

Automobile production increased in January to the highest point reached since last August, according to reports received by the Department of Commerce through the Bureau of the Census, in co-operation with the National Automobile Chamber of Commerce. Output of passenger cars increased from 206,372 cars in December to 221,697 in January, while output of trucks declined from 20,035 cars in December to 19,206 in January. Passenger-car production was almost three times as large as in January 1922, while truck production was more than double the January 1922 output. Total revised production for the year 1922 amounts to 2,334,790 passenger cars and 242,975 trucks. The following table gives the total production for each of the last seven months, with the corresponding figures for the

same months of the previous year. With few exceptions, it is stated, the reports each month are from identical firms and include approximately 90 passenger-car and 80 truck manufacturers.

Automobile Production-Number of Machines.

#### Railroad Car Loadings Reflect Growing Trade Activity.

Loading of revenue freight totaled 853,289 cars during the week which ended on Feb. 10, according to reports filed today by the carriers with the Car Service Division of the American Railway Association. This was not only a continuation of the unusually heavy loading for this season of the year which has been in evidence for some months, but exceeded all corresponding weeks for past years on record. The total for the week was 75,498 cars in excess of the same week last year, and exceeded the same week in 1921 by 165,422 cars. Due principally to severe weather conditions in various parts of the country, the total, however, was a decrease of 12,386 cars, compared with the preceding week this year.

Coal loading amounted to 190,860 cars, 1,087 cars in excess of the week before. While this was a decrease of 1,929 cars, compared with the corresponding week last year, when the coal movement was stimulated somewhat by fears of a miners' strike, it exceeded the corresponding week in 1921 by 38,288 cars.

Loading of grain and grain products totaled 40,939 cars, which was a decrease under the week before of 797 cars and a decrease under the same week last year of 13,070 cars. It was, however, an increase of 7,477 cars over the same week in 1921. Live stock loading amounted to 32,277 cars. While this was a reduction of 1,398 cars below the preceding week, it was an increase of 2,476 cars compared with the corresponding week in 1922 and an increase of 4,634 cars compared with the same week in 1921. Forest products loading totaled 64,310 cars, 5,457 cars below the week before but 12,316 cars over the same week last year. It also exceeded the same week two years ago by 11,175 cars.

Loading of merchandise and miscellaneous freight, which includes manufactured products, totaled 499,605 cars, a decrease of 5,681 cars under the previous week. This was, however, an increase of 62,279 cars compared with the corresponding week last year and an increase of 96,042 cars over the corresponding week two years ago.

Coke loadings showed an increase of 989 cars over the preceding week, the total being 15,188 cars. Compared with the same week last year, this also was an increase of 7,367 cars and with the same week in 1921 an increase of 5,790 cars. Ore shipments amounted to 10,110 cars. While this was a reduction of 1,129 cars under the week before, the total was an increase of 6,049 cars over the corresponding week last year and an increase of 2,016 cars over the corresponding week two years ago.

Compared by districts, increases over the week before in the total loading of all commodities were reported in the Pocahontas and Central Western districts, with decreases in the Eastern, Allegheny, Southern, Northwestern and Southwestern districts. Except in the Southwestern, all districts reported increases over not only the same week last year but also the same week in 1921.

Course of Wholesale Prices in January.

While wholesale prices reacted to some extent in January from the upward movement of recent months, no change in the general level is again shown by the index number compiled by the U.S. Department of Labor through the Bureau of Labor Statistics. This index number, which includes 404 commodities or price series taken in representative markets and which is weighted according to the relative importance of such commodities, again rounds off to 156 for January, the same figure as announced for November and December. The Bureau, in its statement regarding the course of wholesale prices, issued on Feb. 17, also says:

Appreciable price decreases took place during the month among certain farm products and foodstuffs. Corn, oats, rye, wheat, cattle, hides, eggs, and potatoes were all cheaper than in the month before. The decrease in the group of farm products as a whole was over  $1\frac{1}{2}\%$ . Foods decreased

over 2%, due mainly to declines in fresh beef and other meats, butter, cheese, milk, wheat and rye flour, corn mean, lemons, oranges, and sugar. In all other groups of commodities, prices averaged higher than in December. Cloths and clothing were 1% higher, owing to considerable increases in cotton goods. Practically the same per cent of increase also was reported for fuel and lighting materials and for housefurnishing goods. In the groups of metals and metal products and building materials prices were 1½% higher as a result of advances in pig iron, steel billets and plates, copper, lead, silver, tin, lumber, shingles, sand and gravel, lime, and paint materials. The group of miscellaneous commodities, including among others such important articles as bran and millfeed middlings, linseed meal, hemp, jute, sisal, manila rope, and rubber, also rose 1½% above the December level. Chemicals and drugs were only slightly higher than in December.

Of the 404 commodities or series of quotations for which comparable data for December and January were collected, increases were shown in 156 instances and decreases in 103 instances. In 145 instances no change in price was reported.

Index Numbers of Wholesale Prices, by Groups of Commodities (1913-100).

Comparing prices in January with those of a year ago, as measured by changes in the index numbers, it is seen that the general level has risen 13%. Building meterials show the largest increase, 19½%. Metals and metal products follow next with an increase of 18¾%. Farm products have increased 17¼%, fuel and lighting materials 11¼% and cloths and clothing 11¼% in price in the year. Food articles, chemicals and drugs, housefurnishing goods and miscellaneous all show smaller increases compared with prices of a year ago. pared with prices of a year ago.

#### Decrease in Retail Prices of Food During January.

The retail food index issued by the United States Department of Labor through the Bureau of Labor Statistics shows that there was a decrease of 1% in the retail cost of food to the average family in January 1923, as compared with December 1922. December 1922 the index number was 147, January 1923, 144. The Bureau's statement, made public Feb. 19, says:

During the month from Dec. 15 1922 to Jan. 15 1923 18 articles on which monthly prices are secured increased in price as follows: Onlons and cabbage, 11%; navy beans, 4%; hens, 3%; plate beef, leg of lamb, evaporated milk and cheese, 2%; sirloin steak, rib roast, chuck roast, bread, rolled oats, canned peas, canned corn and coffee, 1%; round steak and tea increased less than five-tenths of 1%.

Sixteen articles decreased in price as follows: Strictly fresh eggs, 16%; oranges, 4%; butter, nut margarine, storage eggs, and raisins, 2%; pork chops, bacon, ham, lard, wheat cereal, macaroni, prunes and bananas, 1%; canned salmon and vegetable lard substitute, decreased less than five-tenths of 1%.

The following 10 articles remained unchanged during the month: fresh milk, oleomargarine, flour, cornmeal, cornflakes, rice, potatoes, baked beans, canned tomatoes and granulated sugar.

For the 10-year period, Jan. 15 1913 to Jan. 15 1923, the increase in all articles of food, combined, was 2%.

For the 10-year period, Jan. 15 1913 to Jan. 15 1923, the increase in all articles of food, combined, was 47%.

#### Strike in the Dress and Waist Manufacturing Trades Settled.

Symptoms of condition that has variously been described by some economists as the beginning of a period of prosperity and by others as the beginning of a period of secondary inflation are becoming more numerous in the industrial situation with advances in wages granted in many manufacturing trades.

The strike in the dress and waist manufacturing trades of New York, but two weeks old, was settled this week, the manufacturers, or contractors, as they are called, granting to the workers a 40-hour week of five days to replace the 44hour week, as well as a 10% increase in wages. Agreement between the manufacturers and workers was reached on Feb.

The workers failed to secure one of their chief demandsreadjustment of the system of pay from a piece-work to a week-work basis.

#### Strike in the Boston Dress and Waist Industry.

A strike of workers in the waist and dress and the cloak making trades in Boston, announced by the International Ladies' Garment Workers' Union, began on Feb. 20. It was said by union leaders to involve 3,000 workers and by manufacturers to involve 1,500. The union rec ntly demanded a 10% wage advance, provision for arbitrating disputes and an agreement by manufacturers to send out work only to sanitary shops. The manufacturers, it was said, made no reply.

## Current Events and Discussions

#### The Week With the Federal Reserve Banks.

Net liquidation of \$53,800,000 of discounted bills by the New York Reserve Bank, as against a further increase of \$28,300,000 in discounts held by the other Reserve banks, is shown in the weekly bank statement issued as at close of business on Feb. 21 1923, and which deals with the results for the twelve Federal Reserve banks combined. Acceptances purchased in open market show a decrease for the week of \$2,100,000 and Government security holdings an increase of about \$500,000. After noting these facts the Federal Reserve Board proceeds as follows:

eral Reserve Board proceeds as follows:

Deposit liabilities fell off about \$64,800,000, while Federal Reserve note circulation increased \$16,900,000. Total cash reserves show a decline of \$15,400,000, while the reserve ratio, because of the substantial reduction in deposits, shows a rise for the week from 75.3 to 75.8%. Gold reserves decreased by \$3,300,000. Shifting of gold through the gold settlement fund accounts for the increases in gold reserves of \$26,600,000 and about \$7,000.000 shown for the New York and Chicago Reserve banks. All other Reserve banks show smaller gold reserves than the week before, Kansas City by \$7,500,000, San Francisco by \$5,700,000, Atlanta by \$5,600,000, Richmond by \$5,200,000 and the six remaining banks by \$12,800,000. Holdlings of paper secured by Government obligations show a reduction for the week from \$428,700,000 to \$368,200,000. Of the total held on Feb. 21, \$172,800,000, or 46.9%, were secured by U. S. bonds, \$2,300,000, or 0.6%, by Victory notes, \$177,200,000, or 48.1%, by Treasury notes and \$15,900,000, or 4.4%, by Treasury certificates, compared with \$197,200,000, \$4,600,000, \$186,400,000 and \$40,500,000 reported the week before.

The statement in full in comparison with preceding weeks and with the corresponding date last year will be found on subsequent pages, namely pages 802 and 803. A summary of changes in the principal assets and liabilities of the Reserve banks on Feb. 21 1923, as compared with a week and a year ago, follows:

#### The Week With the Member Banks of the Federal Reserve System.

Aggregate increases of \$51,000,000 in loans secured by corporate obligations and of \$18,000,000 in other loans and discounts, offset in part by net liquidation of \$11,000,000 of Government securities, are shown in the Federal Reserve Board's weekly statement of condition on Feb. 14 of 778 member banks in leading cities. It should be noted that the figures of these member banks are always a week behind those of the Federal Reserve banks themselves. Member banks in New York City report increases of \$29,000,000 in loans on corporate securities and of \$10,000,000 in other loans and discounts, as against a reduction of \$17,000,000 in investments, mainly Government securities. Since the close of last year loans secured by corporate obligations shown by the reporting banks have declined about \$47,000,000, while all other, largely commercial, loans and discounts have increased by about \$226,000,000 for the same period. The New York City members show a decline of \$57,000,000 in loans on corporate securities as against a rise of \$118,000,000 in all other loans and discounts.

Government deposits declined by about \$20,000,000, time deposits increased by about \$5,000,000, while net demand deposits show an advance of \$127,000,000, largely outside of New York City. Further comment regarding the changes shown by these member banks is as follows:

shown by these member danks is as Ioliows:

Borrowings of the reporting institutions from the Federal Reserve banks increased from \$357,000,000 to \$446,000,000, or from 2.2 to 2.7% of their total loans and investments. For member banks in New York City an increase from \$168,000,000 to \$234,000,000 in borrowings from the local Reserve Bank and from 3.2 to 4.5% in the ratio of these borrowings to combined loans and investments is noted. Since Dec. 27 of last year accommodation of all reporting banks at the Reserve banks has gone up over \$70,000,000, while like accommodation of the New York City banks has increased about \$150,000,000.

over \$70,000,000, while like accommodation of the New York City Dails has increased about \$150,000,000.

Reserve balances of the reporting institutions show an increase for the week of \$54,000,000, while cash in vault rose about \$3,000,000. Corresponding changes for the New York City banks comprise an increase of \$27,000,000 in reserve balances and a nominal change in cash.

On a subsequent page—that is, on page 803—we give the figures in full contained in this latest weekly return of the member banks of the Reserve System. In the following is furnished a summary of the changes in the principal items as compared with a week and a year ago:

|   | Increase       |        | Decrease (                   | —)  |
|---|----------------|--------|------------------------------|-----|

#### House Concurs in Senate Amendments to British Debt Funding Bill-Text of Bill.

With the acceptance by the House of Representatives on the 22d inst. of the Senate amendments to the British debt funding bill, the measure needed only the approval of President Harding to place it on the statute books, and to enable the exchange of formal settlement agreements. As was made known in our issue of Saturday last (page 665), the bill was passed by the House on Feb. 9 by a vote of 291 to 44, and on the 16th inst. the Senate passed the bill in amended The vote whereby the bill was adopted by the Senate was 70 to 13. Forty-six Republicans and 24 Democrats voted for the adoption of the bill, while nine Democrats and four Republicans voted against the bill. Regarding the Senate action on the bill, we quote the following from the "Journal of Commerce" Washington advices of the 16th:

The vote was not reached until after 7 o'clock and after a continuous session of eight hours and a total of four days of debate. The bill was passed a week ago to-day by the House after one day's discussion and goes to conference with a certainty of enactment before Congress adjourns. Chairman McCumber of the Finance Committee, Senator Smoot, Republican, Utah, a member of the Finance Committee and also of the Allied Debt Commission, and Senator Williams, Democrat, Mississippi, were appointed conferees for the Senate. mission, and Senator W conferees for the Senate.

#### Important Amendments.

Only two important Senate amendments are in dispute between the Senate and House. These are the amendment of Senator Robinson, Democrat, Arkansas, providing for approval by Congress instead of the President of funding agreements with other nations and one by Senator Harris, Democrat, Georgia, providing for appointment of three Democrats on the Allied Debt Commission. Both were adopted by the Senate without record votes. The Robinson amendment was accepted by Administration leaders, but they opposed that of Senator Harris and said it would be dropped out in conference if it threatened to delay enactment of the legislation.

The attacks in final debate to-day, as well as in previous discussion, centred on the reduced interest provided in the British settlement. This is 3% for the first ten years and 3½% thereafter. Opponents rallied finally upon the amendment of Senator Hitchcock, Democrat, Nebraska, proposing that Great Britain should pay the same rate paid by the United States upon its securities averaged each year.

Anneal by Glass. Only two important Senate amendments are in dispute between the Senate

#### Appeal by Glass.

This was rejected 61 to 29 and ended the interest fight

This was rejected 61 to 29 and ended the interest fight.

The battle was waged all day before crowded galleries with flights of oratory. Probably the most dramatic speech was by Senator Glass, Democrat, Virginia, formerly Secretary of the Treasury, who painted in fervid colors a picture of the British and Allied services in the war against the common enemy. Senator Glass said the British funding agreement was "a sound economic proposition and eminently fair so far as the interests of the United States are concerned."

On the meeting of Secretar McComplex, the Secretar are the

On the motion of Senator McCumber, the Senate on the 16th agreed to submit the bill to conference, and Senators McCumber, Smoot and Williams were appointed conferees on the part of the Senate. On the 19th inst., however, the House Ways and Means Committee instructed Chairman Fordney to move in the House on the 20th to accept the Senate changes to the bill, thus making unnecessary a con-The following is the bill as passed ference on the measure. by the Senate on the 16th inst. and agreed to by the House on the 22d inst.:

On the 22d Inst.:

Be it enacted, etc., That the first proviso of Section 2 of the Act entitled
"An Act to create a commission authorized under certain conditions to
refund or convert obligations of foreign governments paid by the United
States of America, and for other purposes," approved Feb. 9 1922, is
amended to read as follows:
"Provided, That the settlement of indebtedness of the United Kingdom
of Great Britain and Ireland, to the United States, as follows:
Principal of notes to be refunded.

\$4,074,818,358 44

accrued and unpaid up to Dec. 15 1922 at the

rate of 414%. \$4,704,654,465 43

Deduct payments made Oct. 16 1922 and Nov. 15 1922 with interest at 4¼% thereon to Dec. 15 1922\_\_\_\_\_ 100.526.379 69

\$4,604,128,085 74 4,128,085 74 To be paid in cash\_\_\_\_\_

Total principal of indebtedness as of Dec. 15 1922 for which British Government bonds are to be issued to the United States Government at par\_\_\_\_\_\$4,600,000,000 00

"The principal of the bonds shall be paid in annual installments on a fixed schedule, subject to the right of the British Government to make these payments in three-year periods. The amount of the first year's installment will be \$23,000,000 and these annual installments will increase with due regularity during the life of the bonds until, in the sixty-second year, the amount of the installment will be \$175,000,000, the aggregate installments being equal to the total principal of the debt.

"The British Government shall have the right to pay off additional amounts of the principal of the bonds on any interest date upon 90 days' previous notice.

"Interest is to be payable upon the uppaid belones at the following

previous notice.

"Interest is to be payable upon the unpaid balances at the following rates on Dec. 15 and June 15 of each year: At the rate of 3% per annum, payable semi-annually from Dec. 15 1922 to Dec. 15 1932, thereafter at the rate of 3½% per annum, payable semi-annually until final payment.

"For the first five years one-half the interest may be deferred and added to the principal, bonds to be issued therefor similar to those of the original issue.

to the principal, bonds to be issued therefor similar to enose of the issue.

"Any payment of interest or principal may be made in any United States Government bonds issued since April 6 1917, such bonds to be taken at par and accrued interest—is hereby approved and authorized, and settlements with other governments indebted to the United States are hereby authorized to be made upon such terms as the commission, created by the Act approved Feb. 9 1922, may believe to be just, subject to the approval of the Congress by Act or joint resolution.

"Sec. 2. That the first section of the Act entitled 'An Act to create a commission authorized under certain conditions to refund or convert obligations of foreign governments held by the United States of America, and for other purposes,' approved Feb. 9 1922, is amended to read as follows:

follows:

"That a World War Foreign Debt Commission is hereby created consisting of eight members, one of whom shall be the Secretary of the Treasury, who shall serve as chairman, and seven of whom shall be appointed by the President, by and with the advice and consent of the Senate. Not more than four members so appointed shall be from the same political party."

"Sec. 3. That the provisions of Section 2 of this Act shall not affect the tenure of office of any person who is a member of the World War Foreign Debt Commission at the time this Act takes effect."

#### Speyer & Co. Not in Mexican Bank.

Mexico City dispatches to the effect that Speyer & Co. had agreed to take a majority stock interest and put up \$25,000,000 for reserve in the new Mexican National Bank, presumed to be headed by Edward Iturbide, are denied at the office of Speyer & Co.

#### French Senate Approves Treasury Bond Issue.

Associated Press advices from Paris Feb. 20 said.

The Senate, almost without discussion, to-day voted the bill already passed by the Chamber authorizing the Government to issue short term Treasury bonds to the amount of 13,000,000,000 francs, during the present year. The bonds must be repaid within ten years.

#### Prime Minister Bonar Law of Great Britain Averse to Initiation of Discussion with U. S. on Ruhr.

The statement that it would not be proper for Great Britain to initiate a discussion with the American Government as to whether the French action in the Ruhr was in accordance with the Treaty of Versailles, since the United States was not a party to the Treaty, was made by Prime Minister Bonar Law in the House of Commons on the 20th inst. The Associated Press cablegrams from London in reporting this, said:

The Premier's statement was in answer to a question by J. O. Wedgwood. Laborite, as to whether Great Britain would ascertain the views of the United States Government on the subject, for the purpose of adopting a common policy, "seeing that the action of France in occupying the Ruhr without the co-operation of the Allies is hardly in accordance with their legitimate powers under the Versailles Treaty and in view of the expressed opinions of Senator Borah."

#### Laborite Members of British House Appeal to President Harding For European Co-Operation

Eighty-eight Laborite members of the House of Common, according to Associated Press advices from London Feb. 16, signed the following cablegram to President Harding:

America, with Great Britain, unwittingly has made France's present destructive action possible. We appeal for American co-operation to-day as the one hope of saving Europe.

#### Over-Subscription of Dutch East Indies Bonds-Closing of Subscription Books.

The Guaranty Company of New York, on behalf of the Syndicate Managers announced on Feb. 16 that subscriptions in excess of \$25,000,000 Dutch East Indies bonds had been received and the books were closed. The offering referred to in these columns last week, page 673.

#### Offering of \$1,000,000 Bonds of First Joint Stock Land Bank of Montgomery, Ala.

Barr Brothers & Co., Inc., of this city, and the First National Bank of Montgomery, Ala., offered on Feb. 20 \$1,000,000 5% farm loan bonds of the First Joint Stock Land Bank of Montgomery, Ala. The bonds were offered at 1021/2 and accrued interest to yield about 4.67% to the optional maturity and 5% thereafter. The bonds are dated Nov. 1 1922, are due Nov. 1 1952, and are callable at par

on Nov. 1 1932 or any interest date thereafter. The bonds are in coupon form in denomination of \$1,000, and are fully registerable and interchangeable. Principal and semiannual interest (May 1 and November 1) are payable at the First Joint Stock Land Bank of Montgomery, Ala., or the Chase National Bank, New York City. The bonds are legal investment for all fiduciary and trust funds under the jurisdiction of the Federal Government, and are exempt from Federal, State municipal and local taxation. By Act of Congress these bonds are declared instrumentalities of the Government of the United States and are prepared and engraved by the Treasury Department. The constitutionality of this Act and tax exemption features of these bonds were sustained by the Supreme Court of the United States in a decision rendered Feb. 28 1921. The Bank operates in Georgia and Alabama. Information taken from various data supplied by President A. M. Baldwin of the First Joint Stock Land Bank of Montgomery, to the institutions offering the bonds (and embodied in the circular, says in part:

By D to February 1 loans havebeen approved for an amount totaling well over \$500,000 by the First Joint Stock Land Bank of Montgomery, Ala. These loans at present are for only 34.1% of the total appraised value of the property to be mortgage which indicates the conservative policy of the

management.

The First Joint Stock Land Bank of Montgomery, Ala., makes loans in only 45 counties of Alabama. These counties constitute 70.78% of the total farming area of the State, and 76.82% of the value of all farm lands in the State. This shows a safe margin of value in favor of the territory selected by this Bank. These 45 selected counties in 1919 produced 75.22% of all the crops grown in Alabama. The average value per acre of lands in these 45 counties in 1919, was \$30 14, while the average value for the remainder of the State was \$22 03 per acre, a difference of \$8 11 per acre in favor of the selected area. in favor of the selected area

In favor of the selected area.

This Bank makes loans in only 76 counties in Georgia. These counties constitute 56.68% of the farming area of the State and 66.66% of the value of all farm lands in the State. In 1919 these 76 selected counties produced 67.46% of all the crops grown in the State. The average value per acre of lands in these 76 counties in 1919 was \$52 62, while the average value for the remainder of the State was \$34 44 per acre, a difference of \$18.18 per acre in favor of the selected area.

#### In a letter Mr. Baldwin says:

In a letter Mr. Baldwin says:

The officers and directors of the First Joint Stock Land Bank of Mont gomery, Ala., established 1871, managed and control the operation of the First Joint Stock Land Bank of Montgomery. The senior officers have each had more than thirty-five years' service with the First National Bank and have contributed to its growth from a small country bank of \$100,000 capital to its present commanding position with capital and surplus of \$1,500,000; their experience and record, together with the intimate knowledge of the manager of the Bank with the entire territory and his experience of a life time in mortage loan banking offers every assurance of skillful and prudent management. It is also worthy of mention that the entire force, including appraisers and chief clerk, are all experienced in farm loan work; there is not an amateur or sinecure in the organization.

The charter for the First Joint Stock Land Bank of Montagements.

The charter for the First Joint Stock Land Bank of Montgomery, was obtained on Aug. 21 1922. The officers of the Bank are: A. M. Baldwin, President; W. A. Howell, Vice-President & General Manager; A. S. Woolfolk, Vice-President; J. A. Ledbetter, Secretary & Treausry, and S. R. Cook, Assistant Sectretary. The directors are:

R. Cook, Assistant Sectretary. The directors are:

Henry Abraham of Abraham Bros. Horse & Mule Co.; Director, Firs-National Bank, Montgomery, Ala.; A. M. Baldwin, President, First National Bank, Montgomery, Ala.; Director, First National Bank, Montgomery, Ala.; W. A. Bellingrath, Prop. Montgomery Coca Cola Bottling Co.; Director, First National Bank, Montgomery, Ala.; H. M. Hobbie, President, Hobbie Grocery Co.; President, S. D. Winn Cigar Co.; Director, Alabama Power Co.; Director, First National Bank, Montgomery, Ala.; R. F. Ligon, Cierk, Supreme Court of Alabama; Director, First National Bank, Montgomery, Ala.; Arthur Pelzer, President, Alabama Machinery & Supply Co.; Director, First National Bank, Montgomery, Ala.; and A. S. Woolfolk, Vice-President, First National Bank, Montgomery, Ala.; Director, First National Bank, Montgomery, Ala.; Director, First National Bank, Montgomery, Ala.;

#### Offering of \$2,000,000 Des Moines Joint Stock Land Bank Bonds.

A \$2,000,000 issue of Des Moines Joint Stock Land Bank 5% farm loan bonds was offered on Feb. 20 by C. F. Childs & Co. at 103½ and interest, to yield 4.55% to 1932, and 5%thereafter. The bonds are dated Nov. 1 1922 and will mature Nov. 1 1952. They are redeemable at the option of the bank at par and accrued interest on Nov. 1 1932, or on any interest date thereafter. They are coupon bonds of \$1,000 and \$10,000 denomination, fully registerable and interchangeable. Principal and semi-annual interest (May 1 and Nov. 1) are payable at the bank of issue or at the Continental & Commercial National Bank in Chicago or at the Chase National Bank in New York City, at the holder's option. The bonds, issued under the Federal Farm Loan Act, are exempt from Federal, State, municipal and local taxation, and are legal investment for trust funds under the jurisdiction of the Federal Government. The bonds are secured by "prime mortgages in the 'corn belt' of Iowa and Minnesota." The following is from the official circular:

The initial \$250,000 capital of this bank was all subscribed by country ankers in Iowa. The controlling interest is now held by officers of the bankers in Iowa.

Chicago Joint Stock Land Bank, thus insuring conservative, experienced and successful management.

And successful management.

Loans are confined to farmers located in the best agricultural districts in Iowa and southern Minnesota, recognized as the greatest food-producing region in America.

No loan may be made in excess of \$100 an acre under the ruling of the Federal Form Loan Board.

Region in America.

No loan may be made in excess of \$100 an acre under the ruling of the Federal Farm Loan Board.

According to the U. S. Department of Agriculture, Iowa ranks above every State in the Union in the value of farm property.

The total value of farm lands in Iowa and Minnesota was \$12,000,000,000, according to the 1920 U. S. Census.

Crops are diversified in this territory of black corn land, having an average depth of brown silt loam of thirty inches.

All lands are first appraised by private experts employed by this bank before it accepts loans for Federal appraisers to approve.

A summary of the security supporting the loans of this bank is as follows:

#### Secretary of the Treasury Mellon Finds Lenroot Farm Credits Bill "Unsound and Dangerous" Capper Bill Approved.

Pointing out what he considers "grave defects" in the Lenroot-Anderson farm credits bill (which, as indicated in these columns Feb. 10, page 569, passed the U. S. Senate Feb. 2), Secretary of the Treasury Mellon has, in a letter to Chairman McFadden of the House Committee on Banking and Currency, stated that in his opinion "the greatest service could be rendered to agriculture by enacting into law at the present session the Capper bill, and withholding action upon the Lenroot bill until the situation can be more thoroughly investigated." Summing up the reason why the Capper bill is preferable to the Lenroot bill, Secretary Mellon stated that the latter "attempts to create a separate and independent rediscount system for agriculture," while "the Capper bill aims at strengthening and developing the existing banking structure and the Federal Reserve System and rendering them more useful and more suited to the needs of agriculture." Secretary Mellon's letter to Representative McFadden on the 19th was submitted in response to the Committee's request for an expression of opinion with respect to the so-called Lenroot-Anderson bill; the letter was accompanied by a memorandum analyzing the Lenroot bill. While he presents it as his conclusion that "its financial provisions as now drawn are unsound and dangerous, and that its administrative features are unworkable," Mr. Mellon nevertheless finds that certain features of the Lenroot bill have great merit, and "should in my opinion be incorporated in the Capper bill." The latter, as noted in our issue of Jan. 27, page 364, is now under consideration by the House Banking and Currency Committee. Secretary Mellon's letter to Chairman McFadden follows:

My Dear Congressman McFadden:—I received your letter of Feb. 17 1923, requesting my opiaion on the bill (S. 4287), "to provide credit facilities for the agricultural and livestock industries of the United States; to amend the Federal Farm Loan Act; to amend the Federal Reserve Act; and for other purposes," which was recently approved by the Senate and is now under consideration by your committee. I have been particularly concerned to see whether the bill conforms to sound banking principles and whether its administrative features are workable.

I have had prepared and send you herewith a detailed memorandum analyzing the bill from these points of view, and commenting also upon some other features which seem to be important. This memorandum points out grave defects in the bill, not only in matters of draftsmanship, but in its larger outlines and policies as well. It seems to me that a careful study of the measure in the light of this memorandum leads necessarily to the conclusion that its financial provisions, as now drawn, are unsound and dangerous, and that its administrative features are unworkable.

able.

I realize that some support has been given to the bill in the belief that it will assist the farmers of the country in obtaining credit accommodation, adapted to the needs of agriculture, and in sufficient amounts to avoid the disastrous effect of a credit stringency similar to the one through which this country has recently passed. With this object I am in the heartiest accord. I feel that the students of our banking structure have given too much

attention in the past to the commercial and industrial needs of the country, and not enough attention to the vital problem of fitting our banking structure to the needs of agriculture. I am convinced, however, that no benefits will inure to the farmer from a system which is financially unsound. The farmer has suffered enough in the past from unsafe banking systems. Let us not now add to this source of danger to the farmer by giving the sanction of the United States Government to a system which violates every canon of sound banking to which this Government has been committed since the establishment of the national banking system.

Some support has also been given upon the assumption that this bill was endorsed by the Joint Commission of Agricultural Inquiry, which conducted an elaborate investigation and has published a valuable report upon agricultural conditions. This, however, is a misapprehension, for the bill in its present form differs radically from the bill which the Joint Commission endorsed. Many of the features especially criticised in the accompanying memorandum were not contained in the bill endorsed by the Joint Commission, but were added in subsequent revisions. The endorsements given to the bill in its originl form, therefore, are not applicable to the bill as it passed the Senate.

passed the Senate

passed the Senate.

In my opinion the greatest service could be rendered to agriculture by enacting into law at the present session the Capper bill (S. 4280), and withholding action upon the Lenroot bill until the situation can be more thoroughly investigated. The Capper bill has the endorsement of the livestock industry, and of the great co-operative marketing movement. It will go far, in my opinion, in satisfying the needs of those sections of the country which have suffered in the past from inadequate credit facilities. At the same time it is financially sound, and in its administrative features avoids the excessive centralization which, in my opinion, constitutes a serious defect in the Lenroot bill. The Capper bill carries with it important amendments to the Federal Reserve Act. It also includes a provision extending for nine months the time during which the War Finance Corporation can make loans for agricultural purposes, thus bringing assurance that any unforeseen credit needs will be amply taken care of during the coming crop season. Until the results of further investigation and experience are available, it seems to me that this is a complete and adequate program of agricultural credits legislation.

There are certain features of the Lenroot bill which have great merit and

gram of agricultural credits legislation.

There are certain features of the Lenroot bill which have great merit and should, in my opinion, be incorporated in the Capper bill by your committee. The farm credits departments contemplated in the Lenroot bill are, for instance, authorized to make loans direct to co-operative marketing associations upon warehouse receipt security. It seems to me that similar powers could well be given to the rediscount corporations contemplated in the Capper bill. The Lenroot bill also renders eligible for rediscount with Federal Reserve banks the paper of factors based upon agricultural products in their raw state. It seems to me that this provision is sound, and I recommend its insertion in the Capper bill. I should also suggest including in the Capper bill the section of the Lenroot bill which repeals the amendment to the Federal Reserve Act authorizing progressive rediscount rates.

the amendment to the Federal Reserve Act authorizing progressive rediscount rates.

If I may sum up briefly the reason why, in my opinion, the Capper bill is preferable to the Lenroot bill, it is this: The Lenroot bill attempts to create a separate and independent rediscount system for agriculture. Necessarily this will be a secondary and, in all probability, an inadequate rediscount system. It seems to me, on the other hand, that the agricultural interests can properly demand that they be given the benefit, upon sound lines, of the best and most adequate rediscount system which the country can furnish, and that, in my opinion, is the Federal Reserve System, liberalized and extended as proposed in the Capper bill. The Capper bill aims at strengthening and developing the existing banking structure and the Federal Reserve System, and rendering them more useful and more suited to the needs of agriculture.

Very truly yours,

(Signed) A. W. MELLON,

Secretary of the Treasury.

Hon. L. T. McFadden, Chairman, Committee on Banking and Currency, House of Representatives, Washington, D. C.

Secretary Mellon's memorandum analyzing the bill fol-

Secretary Mellon's memorandum analyzing the bill fol-

MEMORANDUM ON S. 4287. February 19 1923 Sections 1 to 6 of the Lenroot-Anderson bill (S. 4287) provide for the organization and operation of farm credits departments in the Federal Land banks throughout the United States. Sections 7 to 13, inclusive, contain amendments to the Federal Reserve Act similar to those embodied in Part 2 of the Capper-McFadder bill. It is the purpose of this memorardum to discuss those sections of the Lenroot-Anderson bill which relate to the organization of farm credits departments.

the organization of farm credits departments.

The purpose of these sections appears to be to establish a separate rediscount facility for certain types of agricultural and live stock paper.

The bill provides in effect for twelve agricultural rediscount barking departments, one in each of the existing Federal Land banks. Each such department would have a capital of \$5,000,000 (to which an additional \$10,000,000 might be added with the approval of the President), to be subscribed and paid in by the United States Government. The aggregate capital of all the Farm Credits departments might therefore reach \$120,-000,000.

capital of all the Farm Credits departments might therefore reach \$120.-000.000.

To a considerable extent the proposed new rediscount system would perform functions which are already being performed by the Federal Reserve banks. Federal Reserve banks agricultural paper with a maturity up to six months. Under other pending legislation this maximum maturity will be extended to nine months. Under the Lenroot-Anderson bill, however, the farm credits departments of Federal Land banks could discount, for national banks, State banks, trust companies and certain other enumerated kinds of credit institutions, agricultural paper with a maturity of not less than six months nor more than three years. As far as concerns agricultural paper having a maturity from six to nine morths, inclusive, offered by national banks or State banks which are members of the Federal Reserve System, the two systems would, therefore, be overlapping.

The main purpose of the bill, however, appears to be to establish a rediscount system for agricultural paper which is not eligible for rediscount in the Federal Reserve System, either because of its maturity or because it does not carry the endorsement of a member bank. It is contemplated that such longer term paper shall be made the basis for the issuance of collateral trust debentures, which would be sold in the investment market in the same manner that Farm Loan bonds are now sold. These debentures would be exempt from all taxation, State or Federal, including surtaxes, and would be secured by the agricultural paper discounted or purchased by the farm credits departments would be completely supplied by the Urited States Government, and these departments would be operated by directors appointed by the Government. In effect, therefore, the system contemplates a policy of Government ownership and operation of

an agricultural banking system, through the medium of subsidiary corporaan agricultural banking system, through the medium of subsidiary corporations owned and operated by the United States. It does not appear to be contemplated that the United States shall be legally liable upon the debentures or other obligations of farm credits departments. Yet the moral obligation would be a strong one, for it is hardly conceivable that the United States Government could permit a corporate subsidiary owned and operated by it to default upon its just debts. In estimating the liability which the Government would assume in enacting the bill, we must therefore consider not only the technical liability which under the bill might reach \$120,-000,000, but also the potential moral liability, which might be in any amount up to \$1,200,000,000.

Before launching the United States Government in a business venture

up to \$1,200,000,000.

Before launching the United States Government in a business venture which involves an investment of \$120,000,000 in cash and a possible moral obligation of \$1,200,000,000, the proposed plan should be studied not only with a view to ascertaining whether it is drawn upon sound lines and with proper safeguards sufficient to insure its financial integrity, but also to see whether it is effective in accomplishing the purposes which its authors have in mind.

1. The System Is Financially Unsound.

proper safeguards sufficient to insure its financial integrity, but also to see whether it is effective in accomplishing the purposes which its authors have in mind.

1. The System Is Financially Unsound.

The farm credits departments organized under the Act are expected to operate principally upon borrowed capital. It is provided that they may issue collateral trust debentures up to ten times the amount of their paid-in capital and surplus. These debentures would be secured by at least a like face amount of agricultural paper bearing the endorsement of the discounting bank or other institution. The financial integrity of the system would depend, therefore, upon three factors: (1) the financial strength of the farm credits departments primarily and secondarily liable upon the debentures; (2) the financial strength of the bank or other rediscounting institution; (3) the nature and value of the primary paper pledged as collateral. (1) The Farm Credits Departments—The capital supplied by the United States Government is expected to stand as a guaranty fund to protect holders of debentures. In estimating the value of this guaranty certain elements of weakness must be considered. There is no requirement that any part of this capital be maintained in liquid form, or that a cash reserve be maintained. All the capital might be invested in non-liquid agricultural paper. There is no limit to the amount of paper which may be taken from any one discounting agency in relation to the capital of the farm credits department; so far as legal limitations are concerned, the whole capital could be invested in paper bearing the endorsement of one bank or other discounting agency. Considering that the liabilities of the farm credits department would be protected by a pro rata guaranty of all other farm credits department would prove insufficient to pay all its outstanding debend to a very large extent upon the value of the agricultural paper in which its assets are invested. It is not a joint guaranty. He assets of a farm credits dep

be national or State bank or a trust company, savings institution or incorporated livestock loan company. In the bill as it passed the Senate there are added rural credit corporations, incorporated farm credit companies, co-operative banks and co-operative credit or marketing associations. The additions are important.

National banks, and to a large degree, State banks, savings institutions and trust companies, are subject to limitations under State or national law, and to periodic inspections by State or national examiners. They are required to keep a minimum cash reserve; their investments are frequently limited; there is usually double liability on the part of stockholders, and any tendency toward unsound practices can be quickly checked by State or national banking authorities. Incorporated livestock loan companies are generally formed on a substantial scale, and take only secured paper. In the original bill, therefore, some reliance could have been placed on the indorsement of the discounting institution.

No such safeguards surround the operations of the institutions added by the revised Lenroot-Anderson bill. Rural credit corporations, incorporated farm credit companies, co-operative banks or co-operative credit or marketing associations are enumerated, but not defined, in the new bill, hence it is impossible to ascertain under what limitations they will operate. There is no requirement that they be subject to periodic inspection, State or national. There is no requirement that they maintain a cash reserve, or maintain their capital in liquid form. There is no limitation on the amount which such an institution may lend to one borrower—a limitation essential to sound banking. There is no requirement that there be any capital at all.

As amended in the Senate, the bill contains certain limitations on the amount of paper which may be discounted for any one institution, but upon examination it appears that these limitations could hardly be effective. No paper may be discounted for any agricultural credit cor

the bill to prevent a company from incurring liabilities in any amount which unsound finance might dictate after it has discounted its limit with the farm credits department. A company with \$10,000 capital could discount \$100,000 of paper with a farm credits department, and the next day borrow \$100,000 more from some other source.

As far as "co-operative credit associations" are concerned, there is no limit whatever upon the amount which they may discount.

Even if the limits which the bill attempts to place were effective, they would be far too high to afford adequate protection. A company taking the best quality of real estate mortgages, or paper secured by livestock or commodities with a safe margin, can properly borrow a maximum of ten times its capital. The discounting agencies may, however, do a miscellaneous agricultural business, and may make loans without security, or upon questionable security such as crop mortgages or second or third mortgages on land. For such companies the limit of ten to one is much too high. For banks the limit (unless further restricted by State or Federal law) is five to one. A bank already has demand or short time deposit Habilities which often exceed ten times its capital and surplus. A law which encourages such banks, in addition, to incur rediscount liabilities equal to five times their capital and surplus, is an invitation to unsound banking and a menace to the public welfare.

It follows, therefore, that no great reliance can be placed upon the endorsement of the discounting institutions contemplated by the bill, since they are not surrounded by the restrictions and safeguards which experience has shown to be essential to sound banking.

3. The Agricultural Paper—We are thrown back, then, upon the primary agricultural paper upon which the whole capital reserve of the discounting institutions, as well as of the farm credits departments, may be invested in this paper. If the paper is unsound, the system is built. Not only the proceeds of debentures, but the whole capital r

mortgage paper upon which the existing Federal Farm Loan systems based.

No such limitations or safeguards are provided. Only in the case of direct loans to co-operative producing or marketing associations is there any requirement as to security. Such direct loans must be upon livestock or commodities, and must not exceed 75% of their value. These limitations are not applicable to paper rediscounted for banks, rural credit corporations, livestock loan or farm credit companies, or co-operative credit associations. A farm credit corporation could invest ten times its capital in crop mortgage paper, with all its hazards and uncertainties. A co-operative credit association, without a dollar of capital, could make unlimited loans to its members without any security whatever. And such paper, discounted with a farm credit department, could form the security for debentures issued under Government auspices and sold to investors.

investors.

It is apparent, therefore, that the most elementary principles of sound finance have been overlooked in drafting the bill. In its national banking laws the United States Government has set up a standard of sound banking which is regarded as a model among the States. Through the Federal Reserve Board, it endeavors to promote sound banking practices on the part of State banks which are members of the system. In its Federal Farm Loan System it has set a standard of conservatism and soundness which has won the confidence of investors. It is difficult to conceive that Congress should now stand sponser for a system which violates every sound banking principle and contains not even the rudiments of safety.

#### II .- The Administrative Features of the Bill Unworkable.

II.—The Administrative Features of the Bill Unworkable.

The discussion heretofore has been of the financial features of the bill. Even the soundest firancial plan, however, must depend upon good administration for its success. It is important to examine, therefore, the administrative structure which the bill contemplates, both with respect to the management of the farm credits departments, and with respect to their supervision by the Federal Farm Loan Board.

Nominally, the new powers conferred by the bill are vested in the Federal Land banks. These are corporations organized under the Farm Loan Act, for the exclusive purpose of making mortgage loans upon farm lands. The last annual report of the Secretary of the Treasury showed that the Government on Oct. 31 1922 owned somewhat over \$4,000,000 out of a total of approximately \$35,000,000 of the capital stock of these banks, the remainder being owned by local farm loan associations and to a small extent by individual borrowers. Under the Farm Loan Act, the temporary management of these banks is placed in the hands of five directors appointed by the Federal Farm Loan Board. The permanent management was to be in a board of nine directors, of which six, known as "local directors," were to be selected by the stockholding farm loan associations, and three, known as "district directors," were to be appointed by the Farm Loan Board. In fact, however, the permanent organization has never been effected, a joint resolution approved Jan. 18 1918 authorizing the Secretary of the Treasury to purchase Farm Loan bonds from the Federal Land banks, and continuing the temporary organization as long as any such bonds are held. The Strong Bill, recently reported by the House Banking and Currency Committee, provides for termination of the temporary management, and substitution of a permanent board composed of three local directors chosen by the farm loan associations, three district directors appointed by the Farm Loan Board out of three nominees selected by the Farm Loan Board out

other officers and employees of the Federal Land banks, to define their duties, and to dismiss them at pleasure.

Upon this existing structure, the Lenroot-Anderson bill superimposes an auxiliary organization designed to exercise the powers conferred in the bill. It is provided that each Federal Land Bank shall establish "under the supervision of its temporary directors and, after the establishment of the permanent organization, under the supervision of its district directors," a farm credits department. During the temporary organization, therefore, the five directors appointed by the Government to carry on the farm loan business will also operate the farm credits department. Under the permanent organization the three directors appointed by the Government will act, apparently, as a separate board of directors in charge of farm credits. There will, therefore, be one corporation with two boards of directors. Such a situation can hardly promoet efficient administration, since the same set of officials and employees will be subject to the orders of two boards of directors.

directors.

The most serious objection to the plan, however, is that in either event the operation of the farm credit rediscount system will be placed in the hands of men who have no special qualifications for the positions. The temporary directors of the Federal Land banks have already been selected and are now in office. They were selected, it may be assumed, because of their experience in passing upon real estate mortgage loans, and not because of their familiarity with loans upon live stock, agricultural products, of

growing crops. These directors are to be required to undertake the administration of an entirely new business, enormous in scope, technical and difficult in its details, and very much more hazardous than the mortgage loan business which they are now carrying on.

If the strong bill is adopted at this session (it has not yet passed the House, and has not even been considered by the Senate Banking and Currency of the through the control of the control of

A fundamental defect in the Lenroot-Anderson bill, from the point of view of the farmers whom it is intended to benefit, will be its inelasticity. The Federal Reserve System is based upon the theory of an elastic currency. As long as reserve requirements are met, the Federal Reserve banks can issue all the currency that is required for legitimate commercial or agricultural needs. The farm credits system created by the Lenroot-Anderson bill, however, depends upon the sale of debentures in the investment market. In a time of difficulty debentures may be unsalable. Yet it is in period of stress that the farmer is generally most in need of credit. During the collapse in agricultural prices in 1921 the situation was greatly aggravated by a general calling of loans on the part of the banks due to reduced deposits. collapse in agricultural prices in 1921 the situation was greatly aggravated by a general calling of loans on the part of the banks due to reduced deposits. A bank has a strong incentive to accommodate its customers in a time of stringency. The investors holding farm credit debentures will have no such incentive. They will expect that the debentures be paid when due, regardless of the needs of the farmer. To protect their debentures, the Land banks will be compelled to liquidate their paper, to press it for a collection, regardless of the hardships to the farmer. Far from supplying a reserve facility in times of deflation and stringency, the Lenroot-Anderson bill will, therefore, tend to accentuate the stringency and accelerate the contraction of credit.

#### LV .- The System Rests upon Tax Exemption.

In its promise of cheap money to the farmer, the bill relies mainly upon exemption of debentures from Federal and State taxes. Yet the House has recently passed a resolution for a Constitutional amendment prohibiting the issuance of tax-exempt obligations. A proviso exempting farm loan bonds from the prohibition was rejected. It is difficult to see how the House could consistently, within a few weeks, authorize the issuance of a large amount of new tax-exempt securities, nor is a possible additional billion of tax-exempt securities to be contemplated without grave concern.

#### V .- Other Defects.

V.—Other Defects.

There are other defects in the Lenroot-Anderson bill, largely due to faulty draftsmanship, which will be alluded to only briefly:

(a) By providing that debentures shall be payable only out of the assets of farm credits departments, the bill might render them non-negotiable, in view of the provisions of the Negotiable Instruments Law.

(b) The bill provides that discount rates shall not exceed by more than 1% the rate borne by the last preceding issue of debentures (Sec. 202). It also contemplates that collateral may be segregated, so that high-grade paper, e. g., warehouse receipt paper, may be made the basis of a separate issue, and thus obtain the benefit of the lower interest rate to which its credit standing entities it. (Sec. 201b.) If the last previous issue was based on such high-grade paper, this would set a standard for discount

rates for all paper, whether high-grade or otherwise. In a period of rising rates, the banks might find their operations paralyzed by this limitation.

(c) Moreover, the makers of the high-grade paper would not get the benefit of the lower rate to which their paper is entitled, since discount rates must apparently be uniform to all.

(d) The provision which purports to limit to 1½% the amount which a discounting institution may charge for its endorsement is ineptly drawn. Any paper upon which the borrower "has been charged!" more than 1½% in excess of the discount rate is ineligible. There is no criminal penalty for any evasion of the Act. Moreover, a bank which has paper upon which a greater rate has been charged cannot make such paper eligible by rebating the excess to the borrower. Unless the discount rate is high, there will, therefore, probably be but little eligible paper in the Western and Southern agricultural States, where interest rates are often as high as 10 and 12%.

(e) The provision relating to distribution of earnings are incomplete. No disposition is made of earnings above dividends and above the 25% to be used to retire stock.

(f) There is no provision for liquidation of farm credits departments, or administration in the event of insolvency.

(g) No provision is made for suits by or against farm credits departments.

(h) Agricultural paper is not correctly defined. Only paper the proceeds of which have been used for an agricultural purpose is eligible. Paper "issued" for an agricultural purpose, such as fertilizer notes, or note evidencing purchase of livestock or farm supplies, is apparently not eligible, since "proceeds" of such notes are not generally used for an agricultural purpose. The corresponding definition in the Federal Reserve Act covers both types of paper.

both types of paper.

#### Strong Farm Loan Bill Passes the House-Agricultural Credits Program of House.

The Strong bill amending the Federal Farm Loan Act, broadening the loan making powers of the system, was passed by the House of Representatives on the 20th inst. by a vote of 150 to 61. The bill, among other things increases from \$10,000 to \$16,000 the maximum of loans to individual borrowers makes provision for loans up to \$25,000 in exceptional cases.

On the 20th inst. it was stated, that a comprehensive agricultural credit program, based on the Capper bill passed by the Senate, would be reported probably on the 22nd and taken up for passage in the House to-day (the 24th) under plans disclosed by Republican leaders. On the 22nd inst. the "Journal of Commerce" reported the following from Washington:

Plans for House consideration of farm credit legislation on Saturday were abandoned late to-night, when Chairman McFadden notified Representative Mondell of Wyoming, the Republican floor leader, that the Banking Committee would be unable to complete its work before late to-morrow. It was announced that a bill would be reported in time for consideration on Monday

or Tuesday.

The Committee completed consideration of the Capper bill authorizing the

The Committee completed consideration of the Capper bill authorizing one formation under Federal charter of agricultural credit corporations, and added to it the Strong bill liberalizing the activities of the Farm Loan Bank, which already has been passed by the House.

Consideration will be given to-morrow, it was said, to features of the Lenroot-Anderson bill providing for agricultural rediscount banking departments in the Federal Reserve banks, which are to be included in the composite measure to be reported.

The same paper also said in further advices:

Farm bloc leaders in the House to-day resolved upon the course of forcing the adoption of the Lenrood-Anderson system of intermediate rural credits through amendments on the floor to the Capper bill.

It was understood that several amendments suggested by Secretary of the Treasury Mellon would be made in the Capper bill by the Banking Committee and that some of the minor features of the Lenroot-Anderson bill would appear in the finished draft.

#### Prospects of Legislation

Prospects of Legislation.

Unless the House can force the addition of the Lenroot-Anderson bill, which has been assailed by Secretary Mellon as violating all of the canons of sound banking, there is little prospect of Congress passing more than one of the three so-called rural credits measures.

The Senate Committee on Banking and Currency met to-day, but did not vote to take up the Strong bill as this session. Senator Fletcher of Florida, has announced his opposition to the bill, which makes a number of amendments to the Federal Farm Loan Act and provides for a permanent organization of the twelve Federal Land Banks.

While the prospective withdrawal of the ship subsidy bill would alter the situation somewhat. Representative Strong to-night admitted that he did not expect the Senate to pass it at this session.

The rural credits program is in a snarl. The farm organizations, it is known, will register the most vigorous protest against the passage of only the Capper bill. Gray Silver, the Washington Representative of the American Farm Bureau Federation, served notice upon the members of the House to-day that its passage would only mean that "the farmer will continue to be at the mercy of the old system" and that by setting up "note shaving instrumentalities without limitations" made "safe the unscrupulous in the charging of usury."

#### Distinction Between Federal Land Bank Bonds and Joint Stock Land Bank Bonds.

A very timely statement or "memoranda" has just been issued by the group of bankers that has brought out all the different issues of Federal Land Bank bonds, namely Alexander Brown & Sons, Harris, Forbes & Co., Brown Brothers & Co., Lee, Higginson & Co., the National City Co., and the Guaranty Co. of New York, dealing with the respective merits of the Federal Land Bank bonds and the Joint Stock Land Bank bonds. The compilation was prepared partly to correct misconception and partly for the enlightenment of the houses who participate in the ultimate distribution of the securities. In view of the widespread interest felt in the

subject we print the statement in full below, notwithstanding its great length.

FEDERAL LAND BANK-JOINT STOCK LAND BANK. Memoranda of Comparative Value and Security of These Bonds. (Prepared for Members Federal Land Bank Distributing Group and

(Prepared for Members Federal Land Bank Distributing Group and Investors.)

In view of recently issued statements comparing the bonds of the Federal Land banks and the Joint Stock Land banks inquiries have come to us from a number of sources asking for correct data on the subject.

In some of these statements referred to the surprising opinion is expressed that the Joint Stock Land Bank bonds are as a class superior to those of the Federal Land banks. This is so far from the truth that it seems incumbent to point out the essential difference between the two classes of obligations. In order that our position may not be misunderstood at the outset we desire to state that in our judgment the bonds of Joint Stock Land banks are high grade investments when issued under certain conditions stated at the conclusion of this article. But this is very far from fathering the opinion that all Joint Stock Land bank issues are what might be called "good investments," or that individually or as a class they may be recognized as the equals of the Federal Land Bank bonds.

We might rest content by referring the reader to a recent statement made

equals of the Federal Land Bank bonds.

We might rest content by referring the reader to a recent statement made by the Farm Loan Commissioner. He writes that the literature embodying the statements referred to above, "is unsound both in its statement of law and fact and in its reasoning," and concludes with the unqualified statement that the Federal Land Bank bonds are "certainly more attractive" and "deservedly so."

In view, however, of the discussion which has taken place, it may be of

In view, however, of the discussion which has taken place, it may be of interest to members of the Federal Land Bank group and investors interested in the bonds to have before them much fuller memoranda embodying data

in the bonds to have before them much fuller memoranda embodying data concerning both issues.

The superiority of one class of bonds over the other must lie in one of two factors or in both, namely: (1) the strength of the bank of issue, or (2) the security back of the bonds.

The relative strength of the banks of issue can best be determined by a study of the history of the Act and its provisions, an analysis of the differences in organization and management and a statement of the responsibility, if any, of the Government for the two classes of banks.

History of the Act and Its Provisions.

The national banking system of the United States provided an adequate system of short term credits adapted to the needs of practically every branch of industry except agriculture. The farmer required long term credits. The national banking system could not safely grant these and the farmer was automatically excluded from the banking system of his country.

As a result, the one fundamental need of all the people of the United States, namely the development of an adequate food supply, was retarded.

This fact had long been recognized by those familiar with agricultural needs and was under discussion for many years before the Act known as the Farm Loan Act, was passed by Congress. This Act, approved July 17, 1916, was not a hastily drawn or ill-conceived act. On the contrary, it is one of the most carefuly thought out and scientifically drafted statutes passed by Congress in many years. To quote from an article by George W. Norris, first Commissioner of the Farm Loan Board, now Governor of the Federal Reserve Bank of Philadelphia, published in the issue of the "Commercial and Financial Chronicle" of Mar. 9, 1918:

"It is a wide departure from the truth to suggest that the Act establishing the Farm Loan System of the United States was hasty and ill-considered

Bank of Philadelphia, published in the issue of the "Commercial and Financial Chronicle" of Mar. 9, 1918:

"It is a wide departure from the truth to suggest that the Act establishing the Farm Loan System of the United States was hasty and ill-considered and that there was any political pressure exerted to secure its passage. On the contrary, with the exception of the Federal Reserve Act, there probably was never an Act passed by Congress after more extended study, or more mature deliberation. The subject of rural credits, which had been discussed for years, was brought to a focus at a convention held in Nashville in 1912. In that year Ambassador Herrick submitted to President Taft an elaborate report on the subject of rural credits in Europe, and himself addressed the conference of Governors at the White House on the same subject. A system of educational propaganda was carried on continuously throughout the balance of President Taft's term. Numerous bills were introduced in the Sixty-second and Sixty-third Congresses. In the summer of 1914 a Commission, on which almost every State in the Union was represented, went abroad to make a study of the various systems in existence there, and their report was presented to Congress. In the Sixty-third Congress a Joint Committee on Rural Credits was created, representing Congress. Public hearings were held over a period of months. Senator Hollis of New Hampsbire and Senator Fletcher of Florida and Representatives Phelan of Massachusetts, Buckley of Ohio, Moss of Indiana and Glass of Virginia were particularly interested. David Lubin came from Rome, and scores of other agricultural economists and financiers presented their views before this Committee. The Committee finally agreed upon a bill which passed both Houses of the Sixty-fourth Congress with substantial unanimity."

The draftors of the Act took as their pattern, for organization purposes, the National Rapiders and the latest of the statest of the second of the statest of the second of the statest of the second of t

unanimity."

The draftors of the Act took as their pattern, for organization purposes, the National Banking Laws of the United States, which practical experience over many years had moulded into a satisfactory and well rounded system.

The National Banking System, broadly speaking, had at its base the national banks of the United States. The twelve Federal Reserve banks were created in later years to correlate the banks of the country. The national, and other member banks of the system, became the stockholders in the Federal Reserve banks. At the head of the system was placed the Federal Reserve Board. erve Board

Reserve Board.

So the draftors of the Farm Loan Act created farm loan associations, analogous to the national banks, established twelve Federal Land banks, analogous to the twelve Federal Reserve banks, and placed at the head a Federal Farm Loan Board, analogous to the Federal Reserve Board.

Inasmuch as the farm loan associations were not then in existence, the United States Government supplied practically all of the capital by purchasing the stocks of the Federal Land banks, under an arrangement by which the farm loan associations could later become the owners of Federal Land Bank stock, just as the member banks had become the owners of Federal Reserve Bank stock. Bank stock.

stock, just as the member banks had become the owners of Federal Reserve Bank stock.

The members of the Federal Farm Loan Board are appointed by the President of the United States, by and with the advice and consent of the Senate, just as the members of the Federal Reserve Board are appointed. There are five members. The Secretary of the Treasury is a member and Chairman ex-officio of the Board. The Board is a bureau of the Treasury Department of the United States.

After the Act had been drafted, an incident occurred which produced a new form of institution having no direct analogy in the National Banking System. The farm mortgage banks and other organizations which had formerly, out of private capital, loaned money to farmers, feeling that their business would be destroyed by Government competition, asked that provisions be inserted in the Act giving them the right to charter under Congresional authority, so that the bonds issued by them would carry the same tax-exemption as the Federal Land Bank bonds.

This request was granted and new provisions were inserted in the proposed Act permitting the creation of Joint Stock Land banks.

The two ideas were not consistent in many respects and it was felt by many that the exemption from taxation, so granted, would go in too large a proportion directly into the pockets of private stockholders and not benefit sufficiently either the public or the farmers.

Three Secretaries of the Treasury have urged that tax-exemption privileges be taken away from future issues of the bonds of the Joint Stock Land banks, but the provisions still remain in the law.

The framers of the Act did not rely solely upon descriptive terms such as "Federal" to indicate the relationship of the Federal Land banks to the Government and "Joint Stock" to indicate the private character of these other banks. The Act went much further in distinguishing between the two classes of bonds. For example, the Act provides (with relation to Federal Land Bank bonds alone) the following:

Bank bonds alone) the following:

"Every Farm Loan bond issued by a Federal Land Bank shall be signed by its President and attested by its Secretary, and shall contain on the face thereof a certificate signed by the Farm Loan Commissioner to the effect that it is issued under the authority of the Federal Farm Loan Act, has the approval in form and issue of the Federal Farm Loan Board, and is legal and regular in all respects; that it is not taxable by national, State, municipal or local authority; that it is issued against collateral security of United States Government bonds, or indorsed first mortgages on farm lands, at least equal in amount to the bonds issued; and that all Federal Land banks are llable for the payment of each bond."

It should be noted that the Farm Loan Commissioner who gives this certificate is the Government officer whose position corresponds to that of Governor of the Federal Reserve Board.

But Congress did not stop there. So strongly was it felt that promoters or bond salesmen might take advantage of the similarity between the two classes of bonds, that two provisions were inserted in the Act. Section 16, under the title "Joint Stock Land Banks," provides:

"Farm toan bonds issued by joint stock land banks shall be so engraved

under the title "Joint Stock Land Banks," provides:

"Farm ioan bonds issued by joint stock land banks shall be so engraved as to be readily distinguished in form and color from farm loan bonds issued by the Federal land banks, and shall otherwise bear such distinguishing marks as the Féderal Farm Loan Board shall direct."

And finally the following penalty was provided:

"Any person who shall deceive, defraud, or impose upon, or who shall attempt to deceive, defraud, or impose upon, any person, firm or corporation . . by falsely pretending or representing that any farm loan bond, or coupon, issued under the terms of this Act by one class of and banks is a farm loan bond, or coupon, issued by another class of banks, . . . shall be fined not exceeding \$500 or imprisoned not exceeding one year, or both."

Differences in Organization and Management of the Banks.

The organization of the Federal Land banks was made was detayn by Act.

The organization of the Federal Land banks was made mandatory by Act of Congress as part of the banking system of the United States Government. The Government was the original stockholder, practically the sole stockholder.

of Congress as part of the banking system of the United States Government. The Government was the original stockholder, practically the sole stockholder.

All of the directors were originally appointed by the Farm Loan Board. The Act provided, however, that eventually three of the directors should be appointed by the Federal Farm Loan Board and six elected by the farm Ioan associations as stockholders, just as the Federal Reserve Act provides that three directors of the Federal Reserve banks shall be appointed by the Federal Reserve Board and six elected by the stock-holding banks.

They are still all Government appointees as an amendment to the Act provided that all of the directors should continue to be so appointed so long as the United States Treasury continued to hold Federal Land Bank bonds.

On the other hand, the organization of Joint Stock Land banks was permissive only. They obtain their charters by application to the Farm Loan Board which may decline to issue them. They are purely private ventures.

The Government of the United States is strictly prohibited by the Act itself from subscribing to the stock.

The Government does not appoint a single one of the directors. The affairs of the banks are examined by the Farm Loan Board, just as the affairs of the national banks are examined and in a measure controlled by the Comptroller of the Currency. The Farm Loan Board also, as in the case of the Federal Land banks, approves all loans made by the Joint Stock Land Banks before they are accepted as collateral to secure the bonds, but the Government assumes no more liability to the bondholders of a Joint Stock Land Banks.

The relationship of the United States Government to the Federal Land Banks has been clearly stated by an ex-Justice of the Supreme Court of the United States, now Secretary of State, Mr. Charles E. Hughes. In his opinion submitted while he was practicing law in New York in 1916, to the bankers (ffering the Federal Land Bank bonds, he says:

"Taking into consideration the facts which have

ion submitted while he was practicing law in New York in 1916, to the bankers effering the Federal Land Bank bonds, he says:

"Taking into consideration the facts which have been stated with respect to the organization and control of the Federal Land Banks, I am of the opinion that the Farm Loan bonds which are about to be issued by these banks under the authority and direction of the Federal Farm Loan Board by virtue of the powers conferred by Congress, and which have been expressly declared by Congress to be instrumentalities of the Federal Government, must be regarded as obligations having the support of the good faith and credit of the United States. An while such obligations, because of the nature of sovereignty, confer no right of action against the United States without its consent, being only binding on the conscience of the sovereign, and hence in this aspect invite reliance on the sense of justice of Congress, still the actual relation of the Government to the issue of these bonds affords additional ground for sustaining their validity."

The relationship thus is clearly defined. The United States Government does not guarantee the bonds. If it did the bonds could not be bought at anything like present prices. They would sell on approximately the same basis as the present Liberty 3½% tax-exempt bonds. Furthermore, because of the "nature of sovereignty" the Government cannot be sued upon the bonds but Federal Land Bank bonds have the support of the "good faith and credit of the United States" because the United States Government organized the banks, was the original stockholder, named all the directors and will always be represented upon the board.

Mr. Hughes's opinion has been completely justified by practice. It could not be otherwise under the law. After the Farm Loan Board had been appointed by the President and the Government had subscribed to the stock of the banks, the Government officials as directed by the law, organized the Federal Land Banks and assumed at once responsibility for their direc

"The Supreme Court of the United States by its recent decision has firmly established the Federal Land Banks as a part of the banking system of the country. In view of the very satisfactory financial condition of the banks themselves, of the exemption of the bonds issued by these banks from Federal, State, municipal and local taxation everywhere in the United States, and of the very adequate security back of these bonds, they should prove an attractive security to investors large and small throughout the country."

This was not a personal oninion volunteered by Mr. Mr. Mr. Mr.

This was not a personal opinion volunteered by Mr. Mellon; it was issued in the line of his duty as financial agent of the Government to see that adequate provision was made for these banks. They were a "part of the banking system of the United States." It was a part of his duty to see that they were properly provided with funds.

Another illustration: by the spring of 1917 the Federal Land Banks had been organized and were ready to function. They were able to sell promptly \$25,000,000 of bonds. So great, however, was the drain upon capital for Liberty Loan issues that it was felt that it might be difficult for the Banks to continue to secure funds. Congress passed an Act authorizing the Secre-

tary of the Treasury to purchase \$200,000,000 of the bonds. This authority covered a two-year period and \$136,000,000 of bonds were purchased thereunder. Upon expiration of the time limit, the banks were confronted with an attack in the courts upon the constitutionality of the Act and the exemption of the bonds from taxation. Under these circumstances, it was necessary to finance the banks in order that they might not cease to function. Congress promptly passed another Act extending the power of the Secretary of the Treasury to purchase Federal Land Bank bonds. When the Act was fully sustained by the Supreme Court of the United States the Government holdings were approximately \$180,000,000. It now holds \$112,000,000 of these bonds. They are sold from time to time in co-operation, and not in conflict with the plans of the Federal Farm Loan Board.

Neither of the Acts above referred to, authorized or permitted the United States Government to purchase bonds of privately owned Joint Stock Land banks and the Joint Stock Land banks then in existence found themselves for a while in a somewhat embarrassing position. But, as stated by Mr. Hughes, the "good faith and credit" of the United States was pledged to the Federal Land Banks and Congress had no hesitancy in promptly recognizing its obligation.

The Enderal Land banks under authority of law were made and are to deve

The Federal Land banks, under authority of law, were made and are to-day,

The Federal Land banks, under authority of law, were made and are to-day, depositaries of Government moneys.

The relationship between the Treasury Department and the Farm Loan Board has been as close as that between the Department and the Federal Reserve Board. This is not a matter of choice; it is in accordance with law. The opinion of Mr. Hughes then as to the relationship of the United States Government to the Federal Land Banks has been clearly borne out in practice and to-day no one familiar with the situation as a practical matter questions the Government's responsibility for the Federal Land Banks any more than they would question the Government's responsibility for the Federal Reserve Banks.

The argument that the United States Government while an original stock-

Reserve Banks.

The argument that the United States Government while an original stockholder, is automatically withdrawing from stock ownership in the Federal Land Banks, has little or no bearing. Stock ownership is not the only evidence of Government responsibility for the banks. If this were the sole evidence, then the Government has no responsibility for the Federal Reserve Banks as it has never owned a dollar's worth of their stock.

But in this connection it is worthy of note that the Act provided that no Government capital could be withdrawn until the capital of a Federal Land Bank had doubled its original amount, and from that point on the Government could withdraw only 25% of all the additional capital subscribed by the farm loan associations.

the farm loan associations

We do not believe that the United States Government will repudiate or in any way overlook its responsibility for either the Federal Reserve or Federal Land Banks. The motive force of this is not alone the moral law, but the

law of self-protection and of necessity.

A failure to assume such responsibility when required might well bring the banking system crashing down on the heads, not merely of Government officials, but of all the people. The failure of a single Federal Land bank, for example, while it might not affect the security of bonds outstanding, would destroy the whole fabric of agricultural credit in the United States as it would prevent future bond sales.

The Government, therefore, could not afford to permit a single Federal Land Bank to fail. The failure of a Joint Stock Land Bank, on the other hand, would not have any important bearing on the system.

Socialistic Legislation.

The second argument is not an argument at all; it is a plea to investors not to buy the bonds of the Federal Land Banks because the Act is a "socialistic" one.

not to buy the bonds of the Federal Land Banks because the Act is a "socialistic" one.

The Supreme Court of the United States has held in substance that the creation of the Farm Loan System was a legitimate extension of the banking system of the United States. The argument, therefore, that the creation of the Federal Land Banks is "socialistic" applies with equal force to the creation of the Federal Reserve Banks. The argument that granting tax exemption to their bonds is "paternalistic and socialistic" offers at once debatable ground, but is not an argument to be presented in favor of Joint Stock Land Bank bonds which are issued under the same Act, and granted the same exemption from taxation as the Federal Land Bank bonds.

Management of the Banks.

A third point has been made that the Joint Stock Land banks are privately owned and managed and are therefore likely to be better managed than those which are "politically" directed.

Here the argument finds itself on sounder ground, but one could fairly admit it and still ask, "Does this prove that the bonds of small privately owned Joint Stock Land Banks are as a class superior to the bonds of the Federal Land Banks?" One might argue that the management of national banks is superior to the management of the Federal Reserve banks, but would anyone say that the obligation of a national bank is superior to an obligation assumed by all twelve Federal Reserve Banks?

Federal Reserve Bank notes which were to become currency were, of course, specifically declared by law to be obligations of the United States. They are therefore not legitimately comparable with the long term bonds of the Federal Land Banks, but we are comparing now the relative strength of the banks of issue.

We may be straining values a bit by the comparison, but the analogy still

are therefore not legitimately comparable with the long term bonds of the Federal Land Banks, but we are comparing now the relative strength of the banks of issue.

We may be straining values a bit by the comparison, but the analogy still holds. The bonds of a single relatively small Joint Stock Land Bank, or even the bonds of the strongest Joint Stock Land Bank, cannot properly be claimed to be equal to the bonds of the twelve great Federal Land Banks, to the payment of the principal and interest of which each and every Federal Land Bank is pledged.

And while it prolongs the discussion to consider the question of management, it may be well to point out what the Federal Land Banks have accomplished. They have been functioning about six years. Their joint capital as of Dec. 31, 1922, was \$37,000,000; their reserves, surplus and undivided profits aggregated over \$6,700,000. Each bank is on a dividend paying basis. Under the policy established by the Farm Loan Board every dollar more than ninety days overdue is promptly charged off. But the record shows also wise discrimination in the making of loans and demonstrates the conservatism in appraisals. A statement of the Farm Loan Commissioner, made in June of last year, said:

"Our report of April 30 showed that the Federal Land banks had made total of 182,470 loans in the sum of \$537,449,589. Of this number

appraisals. A statement of the state of the

made on it, and it is not to be contemplated that any considerable number will fail to bring at final sale the amount invested. We feel that when the amount involved is considered, the number and amount of foreclosure makes a very satisfactory record indeed and, to repeat, it is inconceivable that losses can occur which will impair the steadily growing undivided profits accounts of the several banks."

Since this date, under suggestion from the Board, every bit of real estate taken over under foreclosure by the banks, has been marked down to "nothing" on their books. When note is taken that during the period covered by the above report this country was suffering from one of the most extensive depreciation in land values in its history, as a result of the World War, this record is a most satisfactory assurance of the continued successful operation of the system.

record is a most satisfactory assurance of the continued successful operation of the system.

Incidentally the above figures dispose of any criticism that the liability of the banks for the bonds of each other, is of little value in reassuring investors, because of "inadequacy of surplus and reserves." In this field, as in many others related to banking, the test of the adequacy of surplus and reserves, is not aggregate liability but average loss as determined by experience. With one demonstrated loss to date of \$200 in nearly six years and with other losses cared for as set forth above, it would appear that surplus and reserves of \$6,700,000 as of Dec. 31, 1922, afforded the bondholders ample protection.

But to quote the Farm Loan Commissioner, surplus and reserves are not all

But to quote the Farm Loan Commissioner, surplus and reserves are not all

But to quote the Farm Loan Commissioner, surplus and reserves are not all that is to be counted. The Board says:

"It is not true that under the Farm Loan Act the reserves and undivided profits only of the Federal Land Banks stand behind their joint guaranty. As a matter of fact and law, all of the free assets of all of the banks, amounting to more than forty millions of dollars, are available to meet such guaranty should occasion ever arise. That it will arise, in view of the satisfactory condition and progress of the banks, seems entirely beyond even the realm of reasonable possibility."

Security.

And now a word about the security back of the two issues.

The mortgages of the twelve Federal Land Banks cover farms in every section of the United States, while the Joint Stock Land Banks function in relatively small areas. If the area covered by a Joint Stock Land Bank is visited by drouth or storm or there is a crop failure, the bank will suffer altogether out of proportion to the Federal Land Banks whose mortgages cover the whole of the United States.

The importance of this wide distribution of mortgage security should be self-evident.

self-evident.

self-evident.

Now a word as to appraisals. It will be noted that the Federal Appraisers fix the values of properties on which loans are to be made by both classes of banks. It is the custom of the Farm Loan Board in the case of the Federal Land Banks to accept the Federal or local appraisement, whichever is lower. The best test of conservatism, however, is not speculation as to whether the correct method of appraisals has been adopted in the Act, nor quotations from an Appraiser or some other supposed authority here or there. The best test is that of experience. Given the appraisal on one side, then, what is the best test of its accuracy? Manifestly, the price which the property actually brings in the market.

Applying this test: in the year ending Nov. 30 1922 there were 4.714

ally brings in the market.

Applying this test: in the year ending Nov. 30 1922 there were 4,714 sales of property reported on which the Federal Land banks held mortgages. The sales prices aggregated \$39,701,625; the appraisals had been \$36,247,533 and the loans on these properties \$14,925,994.

In two years there were 9,439 sales with sale prices in excess of \$95,000,000, against which the banks had loaned \$30,000,000.

So much for the underlying security, but it is urged that Joint Stock Banks have a double liability attached to their stocks and Federal Land Banks have not

So much for the underlying security, but it is urged that Joint Stock Banks have a double liability attached to their stocks and Federal Land Banks have not.

This again indicates a failure to understand the true character of a Federal Land Bank. They are the banks which represent the Government's participation in the business. The Government was to become the first stock-holder and double liability was not provided. But Congress did require a double liability on Joint Stock Land Bank stock.

Furthermore, it required each Farm Loan Association to guarantee every mortgage submitted by it to the Federal Land Banks. The Farm Loan Association is the cog in the organization which more nearly compares to the Joint Stock Land Bank, if any comparisons are to be made, and while it may rightly be said that a Joint Stock bondholder may proceed against all of the Bank's stockholders after a default on his bond, while a Federal Land Bank bondholder can recover only against the stockholder of the Farm Loan Association which is in default, still the practical answer is that if only a few Associations fail, there can be no default whatever by the Federal Land Bank, while if many fail, the double liability of the many is there.

To sum up: the Federal Land Bank bonds are secured (1) by United States Government bonds or widely diversified first mortgages on the basis of 50% of land values and 20% of permanent insurable improvements, which mortgages are reduced each year by payment of part of the mortgage debt; (2) by the guarantees of the Farm Loan Associations with a double liability on their stock; (3) by the obligation of all twelve Federal Land Banks, and (4) by the relationship of the United States Government to the Banks so clearly stated by Mr. Hughes and so plainly demonstrated in practice.

clearly stated by Mr. Hughes and so plainly demonstrated in practice.

Summary.

The Farm Loan Board has in a brief statement noted the difference between the two issues. It says:

tween the two issues. It says:

"In order to avoid confusion, it should be noted that the bonds of the Federal Land Banks are issued by banks created by the United States Government in which banks the Government now owns a substantial amount of stock. Each of the twelve Federal Land Banks is liable for the ultimate payment of all the bonds issued by any Federal Land Bank.
"Joint Stock Land Banks, while organized under the same Act of Congress, are owned by private interests, the United States Government holding none of the stock, and there is no liability on the part of one Joint Stock Land Bank for the obligation of the others."

To repeat and amplify our statement made at the outset of this discussion—no one should question that Joint Stock Land Bank bonds are good when issued by a bank covering a good agricultural territory, whose management is efficient and conservative, where the surplus is adequate, and where the capital has been supplied and the stock will continue to be held by responsible holders.

The value of the double likelike at the likeli

sible holders.

The value of the double liability of stockholders so greatly stressed by the advocates of Joint Stock Land Bank bonds, depends entirely upon whether or not the stockholder is good for his liability.

We are informed that in some instances the stocks of these banks have been peddled around the country. While in the case of the farm loan association every stockholder must be a landholder, anyone able to raise the few dollars necessary to buy a share, or able to borrow for that purpose, may become a stockholder in a Joint Stock Land Bank. We are informed that in other instances the stocks of the Joint Stock Land Banks are yet to be distributed to responsible stockholders, although the bonds themselves have been sold to investors. This is not in accordance with sound banking, and does not go to make safe investments. The danger and wrong of the argument therefore in favor of Joint Stock Land Banks as a class is that it tends to blind the investor to the necessity of exercising a proper and just discrimination between them.

There has been in evidence also an illogical effort to lay emphasis upon the exemption of the bonds from taxation as proving their safety. Such an exemption may make an attractive, but it cannot make a sound investment. The soundness of the investment depends upon the soundness of the bank itself, and the value of the security back of the mortgages. We therefore cannot correctly think of Joint Stock Land Bank bonds as a class.

It is proper, however, to think of the bonds of the twelve Federal Land Banks as a class for the reasons above cited and more especially because of the liability of each and every bank for the bonds of the other.

The bonds of each Joint Stock Land Bank then must stand on their own merits and the actual merits of each proposition, the history of the bank, date of organization, capital, surplus and character of management, should all be frankly and fully stated to the prospective investor by investment houses.

houses.

The Federal Land Bank bonds, however, rest on a different base. Their history is known; their records are public; their relationship to the Government, especially the Treasury Department, demonstrated; their conservative management and appraisals proven.

At the time of the first offering, estates managed by some of the most conservative and experienced investors in the United States after a careful examination participated in by their lawyers, bought heavily of the bonds. Time has justified their opinion.

Secretary Mellon has recommended them as "an attractive investment to investors large and small throughout the country." Nearly a thousand of the most conservative bond houses in the United States participate in the sales of the bonds.

of the bonds.

of the bonds.

They are now well established as high grade investments, eligible for savings banks in over three-quarters of the States in the Union, and with excellent marketability. So much cannot be said for the Joint Stock Land Bank bonds as a class nor will the confidence of investors be strengthened in this class of securities by the assertion of extravagant and ill-founded claims on their behalf.

February 7 1923.

Since preparing the above data we have received the following statement from the Farm Loan Commissioner which embraces some of the matters quoted above, but which amplifies and explains the subject in a concise and interesting way:

"TREASURY DEPARTMENT. TREASURY DEFAILS.
"Federal Farm Loan Bureau.
"Washington, Feb. 10, 1923.

"Makington, Feb. 10, 1923.

"Alex. Brown & Sons, Baltimore, Md.

"Gentlemen: Replying to yours requesting comment upon literature that has been put in circulation by certain distributors of Joint Stock Land Bank bonds, claiming for such bonds, as a class, superiority over the bonds of the Federal Land banks, as a class, permit me to state, what I am sure you will readily understand, that it is a delicate matter for the Farm Loan Board to comment on the relative attractiveness of the bonds of the Federal Land Banks and Joint Stock Land Banks, as all of these institutions are under our supervision and it is our duty and purpose to see that the bonds issued by all are beyond question.

are beyond question.

"The literature to which you refer is unsound both in its statement of law and fact, and in its reasoning. It is not true that under the Farm Loan Act and fact, and in its reasoning. It is not true that under the Farm Loan Act the reserves and undivided profits only of the Federal land banks stand behind their joint guaranty. As a matter of fact and law, all of the free assets of all of the banks, amounting to more than forty millions of dollars, are available to meet such guaranty should occasion ever arise. That it will arise, in view of the satisfactory conditions and progress of the banks, seems entirely beyond even the realm of reasonable possibility. The Federal farm loan bonds—that is, the bonds of the Federal Land Banks—are certainly nore attractive because of this joint liability and frankly, we think deserve

more attractive because of this joint hability and frankly, we think deservedly so.

"We believe, as stated above, that the bonds of any of the Joint Stock Land banks are a safe investment, but it occurs to us that it would be absurd to say that the bonds of any one of them would not be more attractive and actually better if they were guaranteed under proper provision of law and resolutions of the board of directors by eleven other equally good joint stock land banks. Such is the fact as to the Federal farm loan bonds.

"The statement in this 'literature' as to the amount of reserve and undivided profits is correct in dollars and, frankly, seems to us very gratifying in view of the fact that it has been created wholly from earnings in a very short period. The necessity and value of reserve and undivided profits should be measured largely by the probable call upon them, and such call in the case of the Federal Land Banks can only result by loss on foreclosed properties. The fact that in nearly six years of loaning operations there has been but one such loss, and that amounting to a nominal sum, while the reserve and undivided profits accounts of the several banks in the last single year were increased by nearly \$2,500,000 after distributing liberal dividends and charging off all properties which had been acquired by foreclosure, would seem to set at rest any question as to the sufficiency of the reserve and undivided profits alone to take care of any possible loss that might hereafter accrue.

"The deduction that greater conservation in the making of loans should be

"The deduction that greater conservatism in the making of loans should be expected from Joint Stock Land Banks, as a class, because of the financial interest of the management, is not borne out by experience, and presents an issue which I am sure would not be raised by anyone familiar with the work of our reviguing appraisance.

issue which I am sure would not be raised by anyone familiar with the work of our reviewing appraisers.

"The Federal Land Banks as now administered, and because of their joint liability, and identity of interest, have a united and continuing policy which does not, and which in the nature of things cannot, obtain in the Joint Stock Land Banks, in which there are naturally nearly as many different ideas as there are institutions.

"Federal Farm Loan bonds may properly be treated as a class, while the attractiveness of Joint Stock Land Bank bonds must ultimately rest upon the financial condition and management of each particular institution, and the fact of Government supervision.

"The Sixth Annual Report of the Farm Loan Board will come from the printer within a day or two, and I shall take the liberty of mailing you a copy, which I trust you will take time to examine and hope you may find of interest.

"Respectfully yours, "CHAS. E. LOBDELL, Farm Loan Commissioner."

Receivers Appointed for the Cleveland Discount Co.

A voluntary petition for a receivership for the Cleveland Discount Co. of Cleveland, said to be the second largest mortgage company in the United States, was filed in the Common Pleas Court in Cleveland late on Thursday of this week (Feb. 22). Judge Pearson at once appointed William L. David and Thomas H. Hogsett, Cleveland attorneys, receivers for the organization, who immediately took charge

of its affairs. At the same time two other lawyers were appointed attorneys for the receivers. The application for the receivership was made by W. H. Hopple of Tiffin, Ohio, former Chairman of the Board of Directors, who stated that it was made in behalf of more than 15,000 stockholders scattered throughout the country. In the petition it was set forth, it is said, that the company was not by any means bankrupt; that the action was taken merely to protect the many stockholders and that "if the assets are conserved and the affairs properly managed," not only will the institution be able to pay its creditors in full, but a substantial portion of the capital will be left for the benefit of the stockholders.

On the evening of Feb. 22 the receivers, it is said, gave out a statement in which they said:

We are informed by officials of the company that while many of the assets are frozen and that time will be required to liquidate them, yet in their opinion the company is solvent. We expect to use every effort to prevent the dissipation of the assets of the company through needless litigation.

According to newspaper advices from Cleveland, during the past two weeks many rapid changes have taken place in the personnel and the methods of operation of the Cleveland Discount Co., of which the appointment of the receivers on Thursday last was the culmination. On Feb. 12 Josiah Kirby, President and Chairman of the Board of Directors (by whom the company was organized), resigned from these offices, only remaining as director of the institution. He gave as his reason for withdrawing from the leadership of the company, it is said, a difference of opinion between himself and other members of the organization as to the managerial policy to be followed. His resignation, according to "Finance and Industry," of Feb. 17, "was the aftermath of a series of consultations between officers, directors and stockholders of the company with a number of leading Cleveland bankers, including Mr. Fred H. Goff, President of the Cleveland Trust Co.'

Following Mr. Kirby's resignation, Fred C. Emde, who had retired, it is said, as Vice-President of the company last summer, was elected Vice-President and General Manager, and was, furthermore, given the duties of Acting President. At the same time, Mr. Hopple, who is said to be the largest individual stockholder in the company, was named Chairman of the Board. On Feb. 21 both Mr. Emde and Mr. Hopple resigned their positions, though in the case of Mr. Hopple, it is said, his resignation was not announced until the following day (Feb. 22). In resigning Mr. Emde declared, it is said, that he did so because the "ramifications of the business all over the United States were so enormous that it was simply impossible for me to handle it and conserve the best interests of all parties."

The Cleveland Discount Co. was founded by Mr. Kirby in December 1918. Within a year, it is said, offices had been opened in various cities in Ohio and its capital increased to \$20,000,000. In September 1920 the organization had branches, it is said, in Baltimore, Philadelphia, New York, Pittsburgh, Albany, Los Angeles and some places in Indiana. All or most of these, it is said, were closed two weeks ago. The New York office of the company is at 469 Fifth Avenue, Gage E. Tarbell, Vice-President and Eastern General Manager, being in charge. The company did a mortgage business, it is said, money being loaned on income producing real estate—usually on hotels, apartment houses, &c .- and bonds issued against these first mortgages.

According to a press dispatch from Cleveland yesterday (Feb. 23) appearing in the New York "Evening Post" the same date, involuntary petitions in bankruptcy against the company were filed yesterday by three former salesmen of the company as creditors. It was also stated in the dispatch that an official of the organization placed the number of purchasers of the company's securities at \$30,000. According to the "Post," about \$1,000,000 in bonds of the failed company have been sold in this city.

#### Increase in Rediscount Rates of New York and Boston Federal Reserve Banks.

Effective Feb. 23, the Federal Reserve Banks of New York and Boston increased their rediscount rates on all classes of paper from 4% to  $4\frac{1}{2}\%$ . With these advances a rate of  $4\frac{1}{2}\%$  is now maintained by all of the Federal With these advances Reserve banks except the Federal Reserve Bank of San Francisco, which still holds to the 4% rate. The following announcement of the increased rate was issued by Governor Benjamin Strong of the Federal Reserve Bank of New York on Feb. 21:

FEDERAL RESERVE BANK OF NEW YORK.

[Circular No. 531, Feb. 21 1923, superseding Circular No. 469, dated June 21 1922.1

Rates of Discount.

To All Member Banks in the Second Federal Reserve District:
You are advised that, effective from the opening of business on Friday,
Feb. 23 1923, until further notice and superseding all existing rates, this
bank has established a rate of 4½% for all rediscounts and advances.

Very truly yours, BENJ. STRONG, Governor.

With regard to the advance special advices to the "Jour-nal of Commerce" from Washington said:

nal of Commerce" from Washington said:

Advance in the rediscount rates of the New York and Boston Federal Reserve Banks from 4% to 4½% was regarded by fiscal officials here to-day as foreshadowing a general readjustment on rate llevels in the System. Rate changes by other Reserve banks are not looked for at once, but the view is held that conditions throughout the country are rapidly approaching the point where higher rediscount rates would be justified.

The immediate effect of the increase by New York and Boston is to bring all the Federal Reserve rediscount rates into line at 4½%, with the exception of San Francisco, and is regarded by members of the Reserve Board as creating a much desired uniformity.

Increasing demands for money and credit and the possibilities of speculation and inflation developing as business conditions improve are being closely watched by the Board and the System is prepared to make such adjustments as it considers necessary to meet changing conditions.

Sound Industrial Situation.

#### Sound Industrial Situation.

Sound Industrial Situation.

The increase in New York and Boston was regarded as substantial evidence of a thoroughly sound industrial and commercial situation in those districts and proof that the demand for money has sprung up again. It is predicted that holdings of rediscounted paper by the Reserve banks are about to increase and Board members look upon the business prospects with some satisfaction.

Acting Governor Platt of the Federal Reserve Board expressed the opinion that the increase in the rediscount rate reflected an added need for money by commerce and industry both in Boston and in New York, where the situation has been influenced by world conditions, with money pouring in from all four quarters of the globe.

The same paper referring to local bankers' views regarding the increase in the rate of the New York Reserve Bank had the following to say:

New York bankers said the advance probably was made to make the rediscount rate in the New York district conform with that in other cities. Heretofore New York, Boston and San Francisco have been the only cities whose Reserve banks have charged 4%, while the nine other district bank charged 4½. Another reason for the rise is that the rediscount rate now shows less disparity compared with open market interest rates.

#### Financing Diverted.

There has been a tendency, because of the 4% rate, to divert some financing to New York, bankers explained, and the advance is expected to

of the first one since that the advance is expected to discourage this trend.

Commencing an advance in Nov. 1919, the rediscount rates reached their peak at 7% on June 1 1920. This rate prevailed until May 5-1921, when it became 6½%. The advance on Wednesday was the first one since that time.

It is not expected the new rate will have much effect on the prospectiv Government financing next month because of the present selling basise of the Government securities.

## Resignation of H. F. Whitney as Member of Governing Committee of New York Stock Exchange.

Announcement of the resignation of Howard F. Whitney from the Committee of the New York Stock Exchange was announced as follows by the Committee on the 14th inst.:

The resignation of Mr. Howard F. Whitney as a member of the Governing Committee was accepted with regret.

#### New York Stock Exchange Grants Extension of Time to Henry B. Cannon, New York.

The Governing Committee of the New York Stock Exchange has granted Henry B. Cannon of this city an extension of time of three months from Feb. 14 1923 within which to settle with his creditors.

# Meeting of Federal Advisory Council with Federal Reserve Board—Question of Inflation Discussed.

With the bringing under way on the 19th inst. of the first meeting of the present year between the Federal Advisory Council and the Federal Reserve Board, the "Journal of Commerce" in a Washington dispatch said:

Commerce" in a Washington dispatch said:

Discussions at the meeting, which is to be continued to-morrow, were understood to have centred mainly about the ideas of Paul Warburg, representing the New York Reserve District of the Council, as to the possibilities of inequalities in the application of rediscount rate levels to city and country banks being avoided. It was recognized that any changes in that direction could not be made until well in the future, but members of the Board were impressed with the theories advanced.

Mr. Warburg is said to have advanced the view that in normal times large city banks, members of the Federal Reserve System, should not rediscount their paper, but should finance through the sale of acceptances, either in the open market or in the Federal Reserve banks. By leaving the practice of rediscounting entirely to the country banks it was contended the system could establish rate levels with only the needs of the smaller institutions in mind, while the city banks could provide for their needs at current rates.

In reporting the conclusion of the meeting the same paper

In reporting the conclusion of the meeting the same paper stated:

Possibilities of the Federal Reserve System again being called upon to cope with a period of inflation were discussed by the Federal Advisory Council at its first meeting of the year with the Federal Reserve Board, which was concluded to-day.

It was not generally regarded that the country is entering upon a phase of inflation such as was, experienced after the war as yet, but the Board's advisers considered it wise to look ahead to a situation which it is felt may develop if business prosperity continues on the upgrade and speculation and inflated credit follows. There is well defined belief that when some of the differences in Europe are smoothed out, business in this country will move forward with a jump.

Lack of a Governor and the new "dirt farmer" member, however, is understead to be holding the Board back from the formulation of definite policies

Lack of a Governor and the new "dirt farmer" member, however, is understood to be holding the Board back from the formulation of definite policies for the direction of the Federal Reserve System under present conditions and the preparation for situations which may arise during the coming year.

Comptroller of Currency Crissinger's nomination for the Governorship is being held up in the Senate and President Harding is withholding issuance of a commission to Milo D. Campbell of Michigan as the new member of the Board because the failure of the Senate to confirm James B. McNary of New Mexico as Comptroller may necessitate rearrangement of these appointments to meet the geographical requirements of the Board.

L. L. Rue of Philadelphia was re-elected President of the Council, and Paul M. Warburg of New York was re-elected Vice-President. Members of the Council named to comprise the executive committee are Messrs. Rue, Warburg, J. J. Mitchell, Chicago; E. F. Swinney, Kansas City; A. L. Aiken, Boston, and J. M. Miller Jr., Richmond. New members of the Council are Mr. Miller, who succeeds J. G. Brown as the Richmond representative, and Mr. Aiken, who succeeds Philip Stockton of Boston.

#### Robert Mueller Elected Class B Director of Federal Reserve Bank of Chicago.

Robert Mueller, of Decatur, Ill., has been elected as a Class B director of the Federal Reserve Bank of Chicago, to fill the unexpired term of A. R. Erskine, resigned, which ends Dec. 31 1923.

#### New Orleans Cotton Exchange Calls a Conference of the Various Interests in the Cotton Trade.

The New Orleans Cotton Exchange over the signatures of President Edward S. Butler and that veteran in the trade, Col. Henry G. Hester, the Secretary of the Exchange, has called a conference to be held in New Orleans on Mar. 1 and 2, of the various interests engaged in the c tton trade for the purpose of considering measures essential to a better and more harmonious understanding betwee i shippers and mills. This is a most praiseworthy effort, deserving general commendation, and important results are expected from it. Cotton merchants, shippers, spinners and representatives of cotton exchanges, cotton associations and spinners' associations from all parts of the country have been included in the call and the movement seems assured in advance of the success which it so richly merits. We print the call in full below and a glance at the subjects that are to be considered will suffice to indicate the broad nature and scope of the movement.

#### NEW ORLEANS COTTON EXCHANGE.

The New Orleans Cotton Exchange requests you to appoint a committee of as many of your members as will attend, as delegates to a conference to be held in New Orleans on Mar. 1 and 2 1923.

The conference has been called at the earnest solicitation of various interests engaged in the cotton trade for the purpose of considering measures to create a better understanding between the shippers and the mills on the following qustions, viz:

- New Orleans Arbitration:

  (a) Interpretation of selling terms and staple lengths:

  (b) Fixing the cost of arbitration.

  - (a) Discussion of New England mill rules and Carolina rules and various points embodied therein;
    (b) Question of insurance on shipments

  - 3.
  - Mutual margin calls on forward sales;
    Mutual margin calls on shipments invoiced at provisional prices against contracts, the prices of which have not been fixed.

Any delegate may present for discussion any question which will tend to establish uniform practice and will eliminate misunderstanding in the interpretation of the rules regarding the handling and shipping of cotton

of cotton.

A full and representative attendance is desired, because the matters to be discussed are of vital importance to the cotton trade, and in consequence thereof invitations to be present have been extended to all cotton exchanges, cotton shippers, cotton merchants, spinners, cotton associations, spinners' associations, the U. S. Bureau of Agricultural Economics and to the cotton trade in general.

Please given this communication the fullest publicity associations.

Please give this communication the fullest publicity among your member-

#### Advances by War Finance Corporation Account of Agricultural and Live Stock Purposes.

The War Finance Corporation announced on Feb. 20 that from Feb. 1 to Feb. 15 1923, inclusive, the Corporation approved 36 advances, aggregating \$1,322,000, to financial institutions for agricultural and live stock purposes.

#### Repayments Received by War Finance Corporation.

From Feb. 1 to Feb. 15, inclusive, the repayments received by the War Finance Corporation totaled \$6,518,114, as follows:

On export advances and on loans made under war powers\_\_\_\_\_ \$223,741 On agricultural and livestock advances: 

\$6,518,114

The repayments received by the Corporation from Jan. 1 1922 to Feb. 15 1923, inclusive, on account of all loans totaled \$202,298,306.

#### Time When Income Tax Claim for Refunds on 1917 Returns Must Be Filed.

With regard to the item in our issue of Saturday last (page 689) relative to the expiration of the date for the filing of claims for refunds on 1917 returns, we have received the following letter from Lybrand, Ross Bros. & Montgomery, which is self-explanatory. Col. Montgomery of that firm is the author of that standard manual, "Income Tax Procedure-1923," published by the Ronald Press of this city, from which we quoted in our remarks of last week.

LYBRAND, ROSS BROS. & MONTGOMERY.

New York, Feb. 19 1923.

Editor "Commercial & Financial Chronicle," New York City:

Dear Sir:—In the absence of Colonel Montgomery, who is at the present time abroad, we take the liberty of calling attention to an inaccuracy of date in the reference to the subject of claims for refund on 1917 returns which appears on page 689 of the "Chronicle" of February 17.

The article in question states that the time limit for filing refunds on 1917 tays explices on March 15 1922. This data is evidently bested on the

The article in question states that the time limit for filing refunds on 1917 taxes expires on March 15 1923. This date is evidently based on the Revenue Act at present in force, which requires that calendar year returns be filed on or before March 15 of the succeeding year. The 1917 Act, however, required returns for that year to be filed on or before March 1 1918. Therefore the five-year period within which claims for refund must be filed would expire March 1 1923. The Treesury, though, will recognize the five-year period as running to March 31 1923, inasmuch as a general extension of thirty days was granted for the filing of returns in 1918 (see Treasury Decision 2650).

On this subject we call your attention to a letter of the Deputy Commissioner of Internal Revenue, dated Feb. 14 1923, which has just been made public in the Corporation Trust Co.'s income tax service (paragraph 3229, page 726).

page 726).

The Deputy Commissioner definitely states that the Treasury will consider The Deputy Commissioner definitely states that the Treasury will consider the five-year period not to have expired before April 1 1923 because of the general extension of one month granted for the filing of all 1917 returns. The Deputy Commissioner further points out that in any individual cases where additional extensions were granted, the five-year period will be deemed to run from the extended date and not from April 1 1918.

Very truly yours,

LYBRAND, ROSS BROS. & MONTGOMERY.

#### ITEMS ABOUT BANKS, TRUST COMPANIES, ETC.

Reports were current a week ago to the effect that negotiations were under way for the merger of the Importers & Traders National Bank of this city with the Equitable Trust Co. As to this reported movement we quote the following from the "New York Commercial" of the 20th inst.:

New York Commercial" of the 20th inst.:

Negotiations have not been completed in the Equitable Trust Co.-Importers & Traders National Bank deal. It developed yesterday that several overtures have been received by the Importers & Traders in recent months from other financial institutions looking toward the absorption of the bank.

H. H. Powell, President of the Importers & Traders, yesterday definitely stated that the talked-of merger with the Equitable had not been closed, and that proposals received from other institutions had not been productive of results.

of results

The Importers & Traders National has a capital of \$1,500,-000, surplus and profits of \$8,500,000 and deposits of approximately \$30,000,000. The Equitable Trust has a capital of \$20,000,000, surplus and undivided profits of \$8,479,-124 and deposits (Dec. 30) of \$270,544,399.

The stockholders of the Irving-Columbia Trust Co., cently formed by the consolidation of the Irving Bank, New York, and the Columbia Trust Co., held a special meeting in the Woolworth Building on Feb. 23 and elected the following board of directors for the new institution:

Milo M. Belding William C. Breed A. E. Carlton Edward H. Clark Edward Cornell Warren Cruikshank William K. Dick Henry Fletcher James M. Gifford Alexander Gilbert J. Horace Harding Harold A. Hatch

Willard V. King Lee Kohns Frederic G. Lee Adam K. Luke
Arthur W. Milburn
Sidney W. F. Mitchell
Augustus G. Paine Jr.
Hubert T. Parson
Charles E. Perkins Lewis E. Pierson John J. Pulleyn Jacob L. Reiss

Noah C. Rogers Arthur Sachs William Skinner Frederick Strauss Alfred H. Swayne William A. Tucker William A. Tucker Elisha Walker Harry E. Ward Theodore F. Whitmarsh Daniel W. Whitmore Harry W. Williams

Lewis E. Pierson continues as Chairman of the Board and Harry E. Ward as President.

At a meeting of the board of directors of Guaranty Co,pany of New York, on Feb. 20, all of the officers were reelected. At the same meeting John F. Patterson was appointed an Assistant Vice-President of this company. It was also announced that W. M. Falion has been appointed an Assistant Treasurer of this company.

At a regular meeting of the directors of the Coal & Iron National Bank of this city on Feb. 14, William H. Jaquith was elected Vice-President and at the same time was appointed to the additional office of Cashier. Mr. Jaquith had previously been an Assistant Cashier of the bank. As Cashier Mr. Jaquith succeeds Addison H. Day, who has resigned.

Eugene D. Miller, Vice-President of the Hotel Biltmore, and George W. Sweeney, Vice-President of the Hotel Commodore, have been elected to the Advisory Board of the Harriman National Bank, of this city.

Nicholas Biddle, General Manager of the properties of Vincent Astor, and during the war the head of the Army Intelligence Department in the New York district, died Feb. 18 1923. He was in his 44th year. At the time of his death, Mr. Biddle, was a trustee of the Atlantic Mutual Insurance Co., the Bank for Savings in New York City, and the Bank of New York & Trust Co. He was likewise a director of the Bankers Trust Co., the Lands Co. of Depew, the Niagara Falls Power Co. and the Niagara Junction Railway Co.

The stockholders of Fidelity-International Trust Co. of this city, in accordance with resolution of Jan. 7, exercised their privilege of paying in \$500,000 new capital at \$100 per share, increasing it to \$2,000,000. In addition to this the company's surplus and undivided profits amount to over \$1,800,000.

Alexander G. Armstrong, Assistant Cashier of the American Exchange Bank of New York has been elected a Vice-President of the Greenville Banking & Trust Co. of Jersey City, N. J.

#### THE ENGLISH GOLD AND SILVER MARKETS.

We reprint the following from the weekly circular of Sauel Montagu & Co. of London, written under date of Feb. 7 1923:

The Bank of England gold reserve against its note issue on the 31st ult. was £125,663,525, as compared with £125,661,735 on the previous Wednesday.

A fair amount of gold has been on offer, and a good proportion was The Reichsbank has fixed the purchase price of the gold 20-mark piece

at 150,000 paper marks for the week Feb. 5 to 11.

The following are official figures (in lacs of rupees) with regard to Indian imports and exports:

SILVER.

The market has lacked animation lately—a fact that can hardly call or surprise. China cannot be expected to require much silver now that the Chinese New Year is so close at hand (Feb. 16th). The onus of support therefore falls upon India, whose readiness to take fresh supplies is less in evidence after the very large shipments to that quarter made during the last two months. The total drawn from London, China and America during this period has been about £4,000,000. The offtake is still high, but it is possible that some of the shipments on the way are of a speculative nature, and may have to be sold on arrival. American sales are not large, and China has been working both ways— covering bear positions as well as selling afresh. well as selling afresh.

We have been favored with the following figures as to silver shipments:

1922. 1921. Shipments to India-From New York. 17,678,000
From San Francisco 4,738,000 1,100,000 370,000 22,416,000 1,470,000 -45,927,000 38,721,000 68,343,000 40,191,000 Shipments to China-From America and London ..... ---72,000,000 63,000,000

As the above figures do not include shipments between China and India and vice versa, it is not possible to deduce from them the relative absorption of the two countries during the respective years. India's consumption includes also the Burma production of about 4,000,000 ounces.

#### COURSE OF BANK CLEARINGS.

Bank clearings continue to run heavier than a year ago. Preliminary figures compiled by us, based upon telegraphic advices from the chief cities of the country, indicate that for the week ending to-day, Saturday, Feb. 24, aggregate bank clearings for all the cities in the United States from which it is possible to obtain weekly returns will show an augmentation of 10.5% as compared with the corresponding week last year. The total stands at \$6,626,216,885, against \$5,998,-510,981 for the same week in 1922. Our comparative summary for the week is as follows:

| Clearings—Returns by Telegraph.<br>Week ending Feb. 24.   | 1923.   | 1922.   | Per<br>Cent.  |
|---|---|---|---|

a No longer report clearings. \* Estimated.

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them to-day, inasmuch as the week ends to-day (Saturday) and the Saturday figures will not be available until noon to-day. Accordingly in the above the last day of the week has in all cases had to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results for the week previous—the week ending Feb. 17. For that week the increase is 15.7%, the 1923 aggregate of the clearings being \$7,314,628,831 and the 1922 aggregate \$6,323,220,831. Outside of this city the increase is 19.9%, the bank exchanges at this centre having recorded a gain of only 12.6%. We group the cities now according to the Federal Reserve districts in which they are located and from this it appears that in the Boston Reserve District the improvement is 30.8%; in the New York Reserve District (including this city), 12.6%, and in the Philadelphia Reserve District 21.0%. The Cleveland Reserve District shows an

expansion of 22.0%; the Richmond Reserve District of 25.6%, and the Atlanta Reserve District of 23.4%. In the Chicago Reserve District the totals are larger by 21.0%; in the St. Louis Reserve District by 34.4%, and the Dallas Reserve District by 13.2%. The Minneapolis Reserve District and the Kansas City Reserve District both register losses this time, the falling off being 3.3% for the Minneapolis District and 0.1% for the Dallas District. The San Francisco Reserve District enjoys a gain of 19.8%.

In the following we furnish a summary of Federal Reserve districts:

districts:

## Trust Company Returns.

# NEW YORK, BROOKLYN, BOSTON, PHILADELPHIA, BALTIMORE, CHICAGO AND ST. LOUIS.

We furnish below complete comparative statements of the condition of all the trust companies in Boston, Philadelphia, New York, Brooklyn, Baltimore and St. Louis, and many of the companies in Chicago. This is in continuation of a practice begun twenty-one years ago, the compilation having been enlarged six years ago by the addition of Baltimore's institutions, and in 1921 being further enlarged by the inclusion of the Chicago companies. The statements occupy altogether about seventeen pages.

The dates selected for comparison are December 31 1922, December 31 1921 and December 31 1920. In the case of the Boston, the Philadelphia, the Baltimore, the Chicago and the St. Louis companies, we have sought to get figures for these dates and have largely succeeded. As, however, returns for these dates are not required in all the States, a few of the companies have not found it convenient to compile statist-

In the matter of the New York companies we take the returns under the call of condition nearest the close of the year. Formerly it was the practice of the State Banking Department to require the trust companies to render a statement of their condition, showing resources and liabilities for the last day of December, and also to furnish certain supplementary statistics for the twelve months of the calendar year. But in December 1911 this time-honored practice was abandoned, and the Superintendent instead now calls on the companies for a statement of their condition for some date towards the end of the year (Nov. 15 on the present occasion), and waives entirely the requirement as to the supplementary items of information. As these supplementary statistics, dealing with earnings, expenses, dividends, &c., constituted a most valuable feature of the annual returns and the record extended back a quarter of a century or more, we have not felt satisfied to let the record be broken. Accordingly we have made direct application to the companies in each instance and in not a few of the cases we have been successful in obtaining the supplementary statistics, though the number of companies supplying such data has been greatly reduced as compared with the original number. As regards the resources and liabilities, we use the November 15 figures just as shown in the returns of the Banking Department.

#### NEW YORK CURB MARKET.

Active trading continued in most of this week's sessions of the Curb Market and advances in prices were the rule. To-day's market showed a weak tone, though losses were only fractional. Motor shares were in good demand and good advances were recorded in a number of instances. Durant Motors rose from 603/8 to 69, reacted to-day to 663/4 and closed at 683/8. Durant Motors of Ind. advanced from 163/4 to 187/8 and ends the week at 183/4. Stutz Motor sold up from 193/8 to 203/4 and to-day back to 197/8. Cleveland Automobile com. improved from 311/4 to 341/2 but to-day sold down to 32½. Checker Cab Mfg., Class A stock, admitted to trading to-day, sold down from 66½ to 61¼. Nat. Dept. Stores com. lost a point to 33½. Nat. Supply Co. com. after fractional advance from 62 to 62¾ eased off to 611/4, closing to-day at 613/8. New Fiction Publishing improved from 101/2 to 11 but to-day dropped to 81/2 with the close at 934. Oil shares were featured by a heavy demand for the Standard Oil issues. Continental Oil advanced from 471/4 to 50, reacted to 481/2 and sold finally at 49. Cumberland Pipe Line rose from 113 to 115 and finished to-day at 11434. Galena Signal Oil gained almost 10 points to 78, eased off to 741/4 and sold finally at 76. Prairie Oil & Gas from 258 advanced to 270, reacted to 262 and closed to-day at 266. Prairie Pipe Line sold up from 115 to 118½, back to 115½ and at 116 finally. Solar Refining gained 18 points to 203. Standard Oil (Kansas) rose from 47 to 57 and sold finally at 54, ex-dividend. Standard Oil (Kentucky) from 10434 rose to 110 and ends the week at 108½. Vacuum Oil, after early loss from 49¾ to 48⅓, sold up to 55 and closed to-day at 54. Gulf Oil of Pennsylvania rose from 661/2 to 675% but reacted to 645%, the final figure to-day being 66¼. Maracaibo Oil Exploration was off from 12 to 10¾. Heavy trading was noted in the mining list. Bonds moderately active and steady.

A complete record of Curb Market transactions for the week will be found on page 816.

#### TRADE AND TRAFFIC MOVEMENTS.

UNFILLED ORDERS OF STEEL CORPORATION.—
The U. S. Steel Corporation on Saturday, Feb. 10, issued its regular monthly statement showing unfilled orders on the books of the subsidiary corporations as of Jan. 31 1923 to the amount of 6,910,776 tons. This is an increase of 165,073 tons over the unfilled tonnage on hand Dec. 31 last, and contrasts with 4,241,678 tons on hand at the close of January 1922. In the following we give comparisons with previous months:

| Tons.                  | Tons.                   | Tons.                   |
|------------------------|-------------------------|-------------------------|
| Jan. 31 1922 6,910,776 | Nov.30 1920 9.021,481   | Sept.30 1918 8,297,905  |

### IMPORTS AND EXPORTS FOR JANUARY.

The Bureau of Statistics at Washington has issued the statement of the country's foreign trade for January and from it and previous statements we have prepared the following. In the case of the merchandise movement, however, the figures of exports alone are shown, the enactment of the new Tariff Law having delayed the compilation of the import figures as stated more at length in the foot note to the table.

FOREIGN TRADE MOVEMENT OF THE UNITED STATES. (In the following tables three ciphers are in all cases omitted.)

f Excess of imports.

Note.—The compilation of the figures of merchandise imports under the new Tariff Law, from Sept. 22 to Jan. 31, has been much delayed, according to the Department of Commerce, on account of the many and complicated changes in classification and rates of duties. For 1922 exports only are shown. Imports will be published as soon as the reports are received.

The figures of merchandise imports for the month of November have just been made public and below we bring the November statement of the country's foreign commerce forward with the import figures for 1922 inserted.

| Nov.                    | Merchandise.       |                    |                    | e II.           | Gold.          |                         | Stiver.        |                |                         |

Stock of Money in the Country.-Further below we give the customary monthly statement issued by the United States Treasury Department, designed to show the general stock of money in the country, as well as the holdings by the Treasury and the amount in circulation on the dates given. The method of computing the figures has been changed with the The method of computing the figures has been changed with the idea of eliminating duplications, especially in arriving at the amounts of money in circulation. Under the new form the per capita circulation Feb. 1 1923 is found to be \$40.74, whereas by the old method the amount would have been \$50.66. The cha ge dates from July 1 1922 and the notice issued in connection with it by the Treasury Department was given by us in publishing the statement for that date in our issue of July 29 1922, page 515. The money and circulation statement in its new form follows:

\*The form of circulation statement was revised as of July 1 1922 so as to exclude from money in circulation all forms of money held by the Federal Reserve banks and Federal Reserve agents, whether as reserve against Federal Reserve notes or otherwise. This change results in showing a per capita circulation on Feb. 1 1923 of \$40.74, whereas under the form of statement heretofore used it would have been \$50.66. For the sake of comparability the figures for Feb. 1 1922 and April 1 1917 have been computed on this statement in the same manner as those for July 1 1922. a Does not include gold buillion or foreign coin outside of vaults of the Treasury, Federal Reserve banks and Federal Reserve agents.

b These amounts are not included in the total since the money held in trust against gold and silver certificates and Treasury notes of 1890 is included under gold coin and buillion and standard silver dollars, respectively.

c The amount of money held in trust against gold and silver certificates and Treasury notes of 1890 should be deducted from this total before combining it with total money outside of the Treasury to arrive at the stock of money in the United States.

d This total includes \$18,440,833 of notes in process of redemption, \$180,050,214 of gold deposited for redemption of F. R. notes, \$13,446,267 deposited for redemption of antional bank notes, \$22,980 deposited for retrement of additional circulation (Act of May 30 1908), and \$5,566,493 deposited for retrement of additional circulation (Act of May 30 1908), and \$5,566,493 deposited for retrement of additional circulation (Act of May 30 1908), and \$5,566,493 deposited for retrement of additional circulation (Act of May 30 1908), and \$5,566,493 deposited. Freasury, this reserve fund may also be used for their redemption; silver certificates are secured dollar by gold held in the Treasury for their redemption; silver certificates are secured dollar by gold held in the Treasury notes of 1890, which are also secured dollar for dollar by standard silver dollar

#### Weekly Return of New York City Clearing House Banks and Trust Companies.

The following shows the condition of the New York City Clearing House members for the week ending Feb. 17. The figures for the separate banks are the averages of the daily results. In the case of the grand totals, we also show the actual figures of condition at the end of the week.

NEW YORK WEEKLY CLEARING HOUSE RETURNS. (Stated in thousands of dollars—that is, three ciphers 1000)

Philadelphia Banks.—The Philadelphia Clearing House return for the week ending Feb. 17 with comparative figures for the two weeks preceding, is given below. Reserve requirements for members of the Federal Reserve System are 10% on demand deposits and 3% on time deposits, all to be kept with the Federal Reserve Bank. "Cash in vaults" is not a part of legal reserves. For trust companies not members of the Federal Reserve System the reserve required is 10% on demand deposits and includes "Reserve with legal depositaries" and "Cash in vaults."

### CURRENT NOTICES.

—A new investment house under the name of George B. Robinson & Co., Inc., has been formed with offices at 67 Wall St., New York, to deal in high grade securities. The officers of the concern are George B. Robinson, formerly General Sales Manager of Henry L. Doherty & Co., President and Treasurer; Edward O. Robinson, Vice-President, and Frederick W. Mowbray, Secretary.

—Hon. Bainbridge Colby, former Secretary of State, was the principal speaker at the monthly luncheon of the British Empire Chamber of Com-merce at the Bankers Club Wednesday, Feb. 21.

## Weekly Return of the Federal Reserve Board.

The following is the return issued by the Federal Reserve Board Friday afternoon, Feb. 21, and showing the condition of the twelve Reserve Banks at the close of business on Wednesday. In the first table we present the results for the system as a whole in comparison with the figures for the seven preceding weeks and with those of the corresponding week last year. The second table shows the resources and liabilities separately for each of the twelve banks. The Federal Reserve Agents' Accounts (third table following) gives details regarding transactions in Federal Reserve notes between the Comptroller and Reserve Agents and between the latter and Federal Reserve banks. The Reserve Board's comment upon the return for the latest week appears on page 768, being the first item in our department of "Current Events and Discussions."

COMBINED RESOURCES AND LIABILITIES OF THE FEDERAL RESERVE BANKS AT THE CLOSE OF BUSINESS FEB. 21 1923.

#### Weekly Return for the Member Banks of the Federal Reserve System.

Following is the weekly statement issued by the Federal Reserve Board, giving the principal items of the resources and liabilities of the 781 member banks, from which weekly returns are obtained. These figures are always a week behind those for the Reserve Banks themselves. Definitions of the different items in the statement were given in the statement of Oct. 18 1917, published in the "Chronicle" Dec. 29 1917, page 2523. The comment of the Reserve Board upon the figures for the latest week appear in our Department of "Current Events and Discussions" on page 768.

#### Bankers' Gazette

Wall Street, Friday Night, Feb. 23 1923.

Railroad and Miscellaneous Stocks.—Several outstanding events of special interest in Wall Street have occurred this week nearly all of which have to do with higher prices. On Monday it was sterling bills of exchange, which sold up to a fraction over \$4.70, the highest recorded price since March, 1920. On Tuesday cotton advanced to 29 cents, the highest figure reached in several years past, and it was announced that the average price of stocks had advanced from a little over \$4 on Jan. 17th to 91.30, or somewhat more than 7 points. On Wednesday it became known that the New York Federal Reserve Bank had advanced its discount rate from 4 to 4½%, which was not surprising in view of the fact that the rediscounts now held by the Bank are substantially more than double what they were a year ago. On Wednesday also a long list of active shares advanced from 1 to 3 points, the general bond market was unusually strong with a noteworthy upward movement in some of the British, French and central European issues, while sterling reached a new high level of \$4.72½, making a total gain of 5 cents within two weeks, and spot cotton was quoted at 29.45 cents.

The general bond market was easier and sterling exchange loss about a point of its recent advances.

The general bond market was easier and sterling exchange lost about a point of its recent advance.

The following are sales made at the Stock Exchange this week of shares not represented in our detailed list on the pages which follow:

Foreign Exchange.—Sterling excharge, though quiet, was strong and sharply higher, and quotations advanced to the highest point scored in almost four years. The Continental exchanges continue irregular, with francs still under some pressure and marks relatively firm.

To-day's (Friday's) actual rates for sterling were 4 69 1-16@4 69% for sixty days, 471 3-16@472 for cheques and 471 7-16@472¼ for cables. Commercial on banks sight 470 15-16@471¾, sixty days 468 3-16@484, and documents for payment (sixty days) 468 11-16@469½, Cotton for payment 470 15-16@471¾ and grain for payment 470 15-16@471¾.

To-day's (Friday's) actual rates for Paris bankers' francs were 6.01@6.05¼ for long and 6.04@6.08¼ for short. Germany bankers' marks are not yet quoted for long and short bills. Amsterdam bankers' guilders were 39.20@39.30 for long and 39.51 for short.

Exchange at Paris on London, 77.42 francs; week's range, 77.42 francs high and 77.70 francs low.

New York Curb Market.—Below is a record of the transactions in the New York Curb Market from Feb. 17 to Feb. 23, both inclusive, as compiled from the official lists. As noted in our issue of July 2 1921, the New York Curb Market Association on June 27 1921 transferred its activities from the Broad Street curb to its new building on Trinity Place, and the Association is now issuing an official sheet which forms the basis of the compilations below.

| Week ending Feb. 23.  |             | Week'          | s Range                                 | Sales<br>for<br>Week. | Ras                      | nge sin    | ce Jan.              | 1.         |

### RAILROAD GROSS EARNINGS

The following table shows the gross earnings of various STEAM roads from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from Jan. 1 to and including the latest week or month. The returns of electric railways are brought together separately on a subsequent page.

## AGGREGATE OF GROSS EARNINGS-Weekly and Monthly

### FINANCIAL REPORTS.

Annual, &c., Reports.—The following is an index to all annual and other reports of steam railroads, street railways and miscellaneous companies published since and including Feb. 3 1923.

This index, which is given monthly, does not include reports in to-day's "Chronicle."

Bold face figures indicate reports published at length.

x To afford, as far as possible, a correct basis for comparison, the operating results of the U. S. RR. Administration for the months of Jan. and Feb. 1920, together with overlapping items relating thereto, are included with the operating results of the company for the 10 months of 1920, resulting in an increase in this item of \$983,335 over the actual net income of the company as shown for the year 1920.—V. 116, p. 75.

## Goodyear Tire & Rubber Co., Akron, Ohio.

(Adjusted Balance Sheet as of Dec. 31 1922.)

The following is the balance sheet as at Dec. 31 1922, consolidated with principal selling companies, adjusted to give effect to subsequent acquisition for redemption of voting trust certificates representing 130,980 shares of Prior Pref. stock, the purchase of an additional \$1,500,000 Debenture bonds in anticipation of sinking fund requirements, and satisfaction of accrued dividends on Prior Pref. stock. For offering of \$14,505,800 8% Cumulative Prior Pref. stock see under "Investment News" below.

#### Columbia Gas & Elec. Co. (of W. Va.), Cincinnati, &c. (Report for Fiscal Year ending Dec. 31 1922.)

The remarks of President P. G. Gossler, together with the consolidated comparative income accounts for several years of the Columbia Gas & Electric Co. and subsidiary companies, and the consolidated balance sheet as of Dec. 31 1922, will be found on subsequent pages of this issue. Compare map on page 155 of the "Railway and Industrial" Section of Nov. 25 1922.

President Gossler in his remarks (see subsequent pages) says in part:

says in part:

Says in part:

This group of companies, including the leased properties, had outstanding in the hands of the public at Dec. 31 1922, \$165,730,368 of securities, consisting of \$54,316,568 bonds and debentures, \$46,227,600 Preferred and Common stocks entitled to dividends at fixed rates specified in the various leases, and \$65,186,200 Common stock. The market value of these securities, based on quotations at that date, amounted to more than \$167,200,-000 [taking at less than 75% of their book value the minority stocks owned by Ohio Fuel Supply Co. and for which there is no public quotation].

The total gross earnings of all the companies, constituting the system operated by Columbia Gas & Electric Co., for 1922 amounted to \$35,322,-

086. Net earnings for the above period, after eliminating inter-company transactions, were \$16,427,445.

The oil production was practically the same as in 1921. The policy of the company has been to restrict its oil operations largely to such production as has resulted from drilling for gas, and to defer active work in its extensive oil fields until the price of oil makes such development more attractive. During the year the subsidiary companies in the Cincinnati district entered the retail field for both gas and electric appliances through the purchas of Gas & Electric Appliance Co., which operates several attractive and profitable "Electric Shops" in Cincinnati, Covington and Newport. Three months' operation of this department of the business has clearly demonstrated that the investment will prove profitable and will tend to increase the demands for the company's service.

All of the properties have been maintained in first class operating condition and operating expenses include provision for the depreciation of the properties of Cincinnati Gas & Electric Co. and the subsidiaries of Cincinnati Newport & Covington Light & Traction Co.; in addition to which there has been set aside from surplus of Columbia Gas & Electric Co. and Union Gas & Electric Co. for depreciation for the year the sum of \$348,020, and from the surplus of United Fuel Gas Co. and Virginian Gasoline & Oil Co. for depreciation and depletion of their properties during the year, an amount in excess of \$3,000,000.

During the year cash dividends have been paid quarterly to the stockholders of Columbia Gas & Electric Co. at the rate of 6% per annum.

x Property account, comprising gas fields, plants, franchises, leases and stock owned of subsidiary companies.

Note.—There is a contingent liability due to the guaranty by Col. Gas & El. Co. of the principal and interest payments on \$2,031,000 1st M. 5% bonds of Cincinnati Gas Transp. Co. due July 1 1933. These bonds will be retired before maturity by operation of the sinking fund.—V. 116, p. 725, 415.

#### American Locomotive Company.

(Report for Fiscal Year ended Dec. 31 1922.)

Report for Fiscal Year ended Dec. 31 1922.)

President Andrew Fletcher Feb. 8 reports in substance:

Results.—Gross earnings were \$29,122,112, and after deducting \$27,821,633 for cost of manufacturing, maintenance, administrative expenses, interest on bonds of constituent companies and an allowance for depreciation of \$1,447,274 on plant properties, there remained a gross profit for the year of \$1,300,478, from which has been deducted an allowance of \$200,000 for estimated U. S. Federal taxes, the remaining balance of \$1,100,478 being the net available profit for the year.

During the year the usual 7% dividend \$(1,750,000) on the pref. stock, and 6% in dividends \$(1,500,000) on the common stock, were paid. Of the stan of \$2,250,000 ments of the year showed a deficit of \$966,779 before dividends, after allowing \$200,000 for estimated taxes. The net profit for the last six months period showed a net profit of \$2,067,258 before dividends, after allowing \$200,000 for estimated taxes. The net profit for the last six months of the year was \$442,258 in excess of the required amount to pay the six months dividends of \$1\square\text{5}\square\text{6}\text{7}\text{9}\text{0}\text{7}\text{1}\text{9}\text{2}\text{3}\text{2}\text{0}\text{0}\text{7}\text{2}\text{8}\text{2}\text{8}\text{1}\text{0}\text{2}\text{3}\text{2}\text{3}\text{0}\text{2}\text{3}\text{3}\text{4}\text{3}\text{0}\text{0}\text{1}\text{1}\text{1}\text{1}\text{1}\text{2}\text{2}\text{3}\text{1}\text{3}\text{2}\text{3}\text{0}\text{1}\text{3}\text{1}\text{3}\text{1}\text{3}\text{0}\text{1}\text{1}\text{1}\text{3}\text{3}\text{1}\text{3}\text{1}\text{3}\text{0}\text{1}\text{1}\text{3}\text{3}\text{3}\text{1}\text{3}\text{1}\text{3}\text{3}\text{3}\text{3}\text{3}\text{0}\text{1}\text{3}\text{3}\text{3}\text{3}\text{3}\text{3}\text{3}\text{3}\text{3}\text{3}\text{3}\text{4}\text{3}\text{

Illinois Central RR.—Bonds Sold.—Kuhn, Loeb & Co., New York, have sold, at 99 and interest, to yield over 5.05%, \$13,447,000 Refunding Mortgage Gold Bonds bearing 5% interest. Due Nov. 1 1955. (See advertising pages.) Interest payable M. & N. Principal and interest payable in gold coin of the United States without deduction for any tax or taxes which the company may be required or permitted to pay thereon or retain therefrom under any present or future law of the United States, or of any State, county or municipality therein. Denom \$1,000 c\* & r\*. Redeemable only as a whole at 107½% and interest on any interest date upon not less than 13 weeks' previous notice. Authorized, \$120,000.000, of which \$54,187,000 bonds will be outstanding after the present issue, \$57,588,000 reserved to Carondelet 1st Mtge. 6s, the refunding of which is herein included), and \$8,225.000 bonds pledged as part collateral for 15-Year 6½% Secured Gold Bonds due July 1 1936.

Data from Letter of Chairman Charles A. Peabody, Feb. 20.

This Issue.—These bonds will be issued under the Refunding Mortgage dated Nov. 1 1908, and the principal as well as interest at the rate of 4% per annum will be secured by the lien of that mortgage. As the terms of that mortgage provide for interest at the rate of not exceeding 4% per

annum, the additional 1% interest which these bonds bear will be secured under a supplemental indenture by a lien on the property subject to the Refunding Mortgage (except approximately 2.6 miles) subordinate to the lien of the principal of the Refunding Mortgage bonds and interest thereon at the rate of 4% per annum.

Purpose.—Proceeds will be applied: (1) to reimburse company for refunding \$968,000 Kankakee & Southwestern RR. 5% bonds, matured Aug. 1 1921, and to refund \$470.000 Belleville & Carondelet 1st Mige. 6s, due June 1 1923 and (2) to reimburse the treasury for improvements heretofore effected on the company's lines of railroad subject to the Refunding Mortgage bonds are secured by direct mortgage on the company should be secured by direct mortgage on the company should be secured by direct mortgage on the company womed in fee east of Dubuque, and south of Chicago to Cairo, III. (with the exception of the so-called Litchfield Division extending from Springfield to Bridge Junction, III., a distance of \$7.59 miles), the very valuable Chicago terminals as well as other terminals, yards, depots, lands, &c.

Dividends.—Company has paid dividends on its capital stock uninter-

(with the exception of the Sovieties, 1975, 59 miles), the Springfield to Bridge Junction, Ill., a distance of 97.59 miles), the Springfield to Bridge Junction, Ill., a distance of 97.59 miles), the Springfield to Bridge Junction, Ill., a distance of 97.59 miles), the Springfield to Bridge Junction, Ill., a distance of 97.59 miles), the Springfield Spr

Interborough Consolidated Corp.—Offer to Stockholders to Subscribe for I. R. T. New Notes.—The Interborough-Metropolitan 4½% bondholders committee, Grayson M.-P. Murphy, Chairman, in a notice to the holders of Preferred and Common stock (see advertising pages), says:

The time for the deposit of Interborough-Metropolitan 4½% bonds and Interborough Rapid Transit Co. stock under the Interborough Ananhattan plan of readjustment has expired. Holders of such bonds and stock have subscribed for all except \$733,000 of the total of \$10,500,000 of new Interborough 10-Year 6% Gold notes offered for subscription under the plan. The committee, with the consent of the underwriting syndleate, now off rs to holders of Preferred and Common stock of Interborough Consolidated Corp., as contemplated by the plan, the privilege of subscribing for these \$733,000 of Interborough notes, with appurtenant shares of voting Avenue Bus Securities Corp. as follows, namely:

For each \$1,000 subscribed for and allotted there will be delivered, against payment of \$1,000, the following securities: \$1,000 Interborough 6% notes (carrying int. accrued from Dec. 27 1922), 15 shares Interborough voting trust certificates, and 10 shares Fifth Avenue Bus voting trust certificates, and 10 shares Fifth Avenue Bus voting trust certificates, and 10 shares Fifth Avenue Bus voting trust certificates, and 10 shares fifth Avenue Bus voting trust certificates and 10 shares fifth Avenue Bus voting trust certificates and 10 shares Fifth Avenue Bus voting trust to make allotments upon subscriptions in such manner as it may determine but om making such allotments the committee reserves the right to make allotments upon subscriptions being as nearly as may be in denominable of the Preferred stock and prior consideration to subscriptions received, the allotments on such subscriptions being as nearly as may be in denominations of \$1,000.

Allotments and delivery o

Balance, surplus\_\_\_\_\_ \$175,053 V. 114, p. 2823. \$51,773 \$327,035

Dated Dec. 1 1922. Serial maturities of \$420.000 per annum Dec. 1 1923 to Dec. 1 1937, both incl. Denomy. 1,000. Divs. payable in New York, trustee. Authorized by the L.-S. C. Commission. The certificates are to be issued to provide for part of the comotives, 12 heavy Mikado locomotives, 1,000 steel underframe box cars and 2,000 55-ton steel hopper cars. The foregoing equipment is to cost approximately \$7,951,115, of which over 20%, or \$1,651,115, is to be paid in ask.—V. 116, p. 720.

Louisiana & Northwest RR.—Earnings.—
The company (owned by Middle States Oil Corp.) reports for 1922:
Gross earnings \$1.705,558; operating expenses, taxes, rentals and bond interest, \$1.116,145; net earnings, \$589,413; dividends paid, \$69,000; balance, surplus, \$520,413.—V. 116, p. 176.

Louisville Ry.—To Resume Preferred Dividend.—
A Louisville, Ky., dispatch states: "Announcement is made that dividends will be resumed on the Preferred stock on Aprill 1 on the basis of 1½% quarterly. An additional payment on the 20% accumulated dividends will also be made and may amount to as much as 3½%."—

Manhattan Ry. Co.—Stock Change.—

Alvin W. Krech, Chairman of the stockholders' committee, has notified the holders of certificates of deposit that the Equitable Trust Co., 37 Wall St., New York, as depositary, is now ready to receive certificates of deposit in exchange for new certificates of stock of the company bearing endorse ment of the form of guaranty provided for in the plan. The committee has determined to make no further payments of dividends on certificates of deposit. Dividends on new stock due April 2 1923 will be payable on that date to holders of record Mar. 10 1923. Prompt exchange of certificates of deposit on or before Mar. 10 for new certificates of stock is urged by the committee.

The committee further gives notice that additional deposits of stock of the Manhattan Railway Co. under the plan of readjustment and related papers will be accepted by the depositary only up to and including the close of business March 10.—V. 116, p. 516, 296.

Morgantown & Wheeling Ry.—Sale.—
The sale of the company's property was decreed Feb. 16 by Judge A. G. Hughes in the Monongahela County Circuit Court to satisfy indebtedness of approximately \$1,500.000. The stockholders were given 60 days to discharge the indebtedness, failing which the road will be advertised for sale.—V. 115, p. 2794.

Missouri Kansas & Texas Ry.—New Terminal.—
The new freight terminal at Denison, Texas, which the company is constructing, is now nearing completion. The project includes a large classification yard together with a complete engine terminal. See "Railway Age" of Feb. 17, pages 415 to 418.—V. 116, p. 721, 616.

Pacific Southwestern RR.—Capital Stock.—
The I.-S. C. Commission has authorized the company to issue not exceeding \$100,000 capital stock, stock to be sold from time to time at not less than par, and the proceeds used to acquire rights of way and to construct a railroad. See V. 116, p. 616:

Pere Marquette Ry.—Budget for 1923.—
The company's budget for 1923, which includes the completion of certain work under way last year will amount to approximately \$10,862,000.

—V. 116, p. 77.

Leon Jewell as Vice-President in charge of traffic; W. K. Myers as Vice-President in charge of finance and accounting.—V. 116, p. 616, 411.

Reading Co.—Objections to Plan.—
Objections have been made by counsel for the bondholders' protective committee to the second modified plan on the following grounds:
(1) Because it fails to provide for a public sale of the capital stock or physical assets of the Coal company and of the Iron company, and the application of the proceeds to payment of the bonds.

(2) Because it fails to provide that the consideration of the sale of the stock of the Iron company to the Coal company shall be applied to payment of the bonds,
(3) Because it makes no provision for damage to the bondholders caused by the severance of the obligations of the companies and the segregation of their properties:
(4) Because it falls to make provision for the treatment of the consolidated mortgage according to legal principles announced by the Supreme Court and made applicable to the general mortgage,
(5) Because by providing for leaving the interest rate on the Coal and Iron company bonds at 4% it fails to recognize the essential conditions necessary to protect bondholders from an additional loss by reason of such Interest rate, and
(6) Because the plan as a whole contradicts a principle recognized by the Supreme Court in attempting to place upon bond creditors the burden incident to the dissolution while securing to debtor stockholders all possible benefits to be derived therefrom.

Objections to the plan have also been filed by (1) the Continental Insurance Co. and the Fidelity-Phonix Insurance Co., of New York, stockholders, (2) Walter I. Cooper, who holds 2,200 shares of 2d pref. stock, Elmira A. Hazard, 200 shares, Pauline C. Rebman, trustee, 1,000 shares, and Walter I. Cooper and Pauline C. Rebman, trustee, 1,000 shares, and Walter I. Cooper and Pauline C. Rebman, trustee, 1,000 shares, and Filed must be investigated in order to ascertain whether or not the parties of record in the case. If not par

Company.—Wilmington & Chester Traction Co. properties form a most important integral part of Wilmington & Philadelphia Traction Co. system to which its properties are leased. Latter company, through subsidiary and leased companies, does all the electric light and power and street railway business in the city of Wilmington. Del., and vicinity, also the entire street railway business in the city of Wilmington. Del., and vicinity, also the entire street railway business in Chester, Pa., Delaware City, Del., and New Castle, Del., as well as operating connecting lines between those cities and Philadelphia. Estimated population, 273,000. Of these properties, Wilmington & Chester Traction Co. controls a large part of the 28,000 k. w. central station generating capacity in Wilmington, the principal street railway lines in that city, and also all the street railway lines in Chester, and certain suburban lines, making a total trackage of 77 miles out of 130 miles for the entire system.

Lease.—Under lease to Wilmington & Philadelphia Traction Co. for a period of 990 years from July 1 1910, the latter agreeing to pay interest on all funded debt of the leased companies and subsidiaries, and in addition, to pay an annual rental on a sliding scale, the 1922 rental payment, including interest on funded debt, amounting to \$417,950.

Security.—Secured by the pledge as collateral of all the outstanding capital stock except directors' shares, subject to only \$1.450,000 underlying bonds, of the following subsidiary companies: Wilmington City Ry., Gordon Heights Ry., Chester Traction Co., Front & Union Streets Ry., Chester & Delaware St. Ry., and Union Ry. Co. of Chester. Also secured by pledge of \$781,000 bonds and demand notes of these subsidiaries and in addition are a lien on all property now owned or hereafter acquired.

INDUSTRIAL AND MISCELLANEOUS.

The following brief items touch the most important developments in the industrial world during the past week, together with a summary of similar news published in full detail in last week's "Chronicle" either under "Editorial Comment" or "Current Events and Discussions."

### Steel and Iron Production, Prices, &c.

The "Iron Age," Feb. 22, said in brief:
"Pig iron has definitely taken the strong turn. Heavy buying of basic, malleable and foundry grades has brought a number of advances. In the East, sales of steel-making irons have included 45,000 tons of basic and 5,000 tons of low phosphorus, the latter to be imported from England by a Steel Corporation subsidiary. There has also been heavy buying of foundry

iron in the East and in Chicago, and of basic iron in Cleveland. Charcoal iron has been advanced \$1 50, basic has been marked up 50c. to \$1 in the Central West and foundry and malleable have advanced \$1 at Pittsburgh.

Operation.—"The Steel Corporation is averaging close to a 90% of capacity operation. The Carnegie Steel Co. has five more stacks in blast than it had a week ago, and in the next few weeks four more are expected to be blown in. Production of independent companies, if anything, has increased.

Prices.—"The market in bars, plates and shapes is now squarely a minimum at 2.25c., Pittsburgh. It is largely nominal, seeing that the larger companies are well booked to July 1 and that the smaller companies for urgent needs readily get higher prices. The advance from 2c. to 2.25c. has come from a continued buying demand after large commitments at the former prices, and thus does not affect much of the orders on the books to-day.

former prices, and thus does not affect much of the orders on the booksto-day.

'In Chicago, the Inland Steel Co.'s response to the advances was the naming of 2.30c., 2.40c. and 2.50c., Chicago, for bars, shapes and plates, respectively, for the second quarter, and in the few days elapsing found its capacity for the period oversold.

'The Iron Age' composite price for finished steel is now 2.631c. per lb., against 2.596c. last week, or 70c. per net ton advance. One month ago it was 2.489c., and one year ago 2.005c.

'The selling of plates by Eastern mills for shipment west has been at 2.50c. mill, often equivalent to 2.65c. and 2.75c. Pittsburgh. High prices are offered as the reason for the abandonment of some Lake shipbuilding prospects.

The selling of plates by Eastern the 2.75c., Pittsburgh. High prices are offered as the reason for the abandonment of some Lake shipbuilding prospects.

"Track spikes and bolts have been advanced \$3 a ton. Structural and boller rivets are stiffening in price. Leading makers of shafting are asking 2.80c., or a \$3 a ton advance.

"In sheets, demand for early lots of blue annealed is bringing \$2 to \$5 above the 2.65c., Pittsburgh, quotation. The Inland Steel Co. has allocated its sheet production for the second quarter. For prompt shipment \$3 to \$5 premium is obtained also on black and galvanized sheets.

"Heavy sales of skelp have carried the price to 2.25c. Orders.—"Especially notworthy is the railroad equipment buying, Swelled by 275 for the Pennsylvania, 303 locomotives were bought and inquiries appeared for 277, including 66 for the Southern, 36 for the Louisville & Nashville and 30 for the Seaboard. Car orders exceeded 6,250, with over 14,000 added to the ending list.

"Advancing costs appear to have no effect on building work. Awards called for 43,000 tons and fresh projects requiring 22,000 tons appeared. The fabricated steel subiness of January was better than any month since May 1922. Buying of concrete bars is heavy. In tubular goods more business is being refused than is being entered.

"Demand from the farm implement makers is steadily increasing. "Fearful of higher third and fourth quarter prices, special efforts have been made to enter tin plate orders. Sheet and tin plate deliveries particularly have been affected by shortage of suitable cars and skilled labor. Foreign Situation.—"Following heavy sales of ferromanganese, British makers have advanced quotations \$2.50 and are asking \$110, seaboard, but the domestic product has not yet been marked up.

"Sales of foreign ores, amounting to about 100,000 tons, to Eastern steel companies, indicate that Lake Superior producers will have difficulty in selling in the East at the expected advance of 50c. per ton.

"British export prices have elimbed sharply,

Coal Production, Prices, &c.

The United States Geological Survey Feb. 17 1923 estimated production as follows:
"Preliminary estimates for the week ended Feb. 10 indicate that the total tonnage of soft coal raised was 10,836,600 net tons, which is an increase of 150,000 net tons over the revised estimate for the week ended Feb. 3.

reillimiary estimates for the week charact row. 10 machines to total tomage of soft coal raised was 10,836,600 net tons, which is an increase of 150,000 net tons over the revised estimate for the week ended Feb. 3.

"Preliminary reports of cars loaded during the present week (Feb. 10-17) shows 40,000 cars on Monday, a drop to 32,787 cars on Tuesday, and further decline to 28,428 cars on Thursday. Thus the indicated total output for the present week is about 2% less than for the week preceding, and may be expected to be about 10,600,000 tons.

"The production of anthracite showed a small decrease in the week ended Feb. 10. The total output, including mine fuel, local sales, and dredge and washery output, is estimated at 2,023,000 net tons on the basis of 38,689 cars loaded as reported by the principal anthracite carriers.

"Preliminary returns for the first four days of the present week (Feb. 12-17) indicate an output of about 2,000,000 tons.

"Receipt of final data on the shipments of anthracite permits a revision of the estimates of anthracite production in January. The total output, including mine fuel, local sales, and barge and washery output is placed at 8,713,000 net tons.

"Accumulated production during the present coal year to date stands at a little less than 39 and a half million tons. This is approximately 49% less than the average production during the corresponding periods of the past nine coal years."

Estimated United States Production in Net Tons.

While 'no market' losses are greatest in the States west of the Mississippi, River, that same cause of decreased production is also gradually extending its sphere of influence farther east. At this time the principal manifestations are a growing inclination to look more to the quality of the coal and to express quality differences in greater price differentials and the increasing difficulties experienced in moving certain sizes, and as stated in an earlier paragraph, car supply as a factor in price maintenance is less effective than usual.

paragraph, car supply as a factor in price maintenance is less effective than usual.

"With the colder weather that spread over the country last week, demand for anthracite was naturally still further quickened and it was easier to obtain high independent prices for the larger sizes, but the premium market on the buckwheats was weaker. By-product coke output last month, approximately 3,100,000 tons, established a record."

Oil Production, Prices, &c.

The American Petroleum Institute estimates the daily average gross crude oil production in the United States for the week ended Feb. 17 as follows:

Air Reduction Co., Inc.—Quarterly Statement.—
For the quarter ended Dec. 31 1922, company reports: Gross income, \$2,171,496, operating expenses, \$1,450,347, additions to reserves, \$224,472, bond interest, \$34,369, net profits, before Federal taxes, \$462,308.

California Cyanide Co. Formed.—
The company on Feb. 19 announced that it had joined with Los Angeles interests in the formation of the California Cyanide Co., which will engage in the manufacture of liquid hydrocyanic, sodium cyanide and kindred products. F. W. Braun of Los Angeles, ploneer in the application and use of liquid hydrocyanic in citrus fruit tree fumigation as well as in the use and application of sodium cyanide in mining operations, will be President of new company. It is planned to raise more than \$1,000,000 for working capital and work on a new plant will be started immediately. Other officers of the new company are John Pike, V.-Pres. & Gen. Mgr.; J. D. Neuls in charge of field service and R. W. Poindexter in charge of laboratory. Directors: F. W. Braun, H. W. O'Melveny and John Pike, Los Angeles; Samuel F. Pryor, L. F. Loree (Pres. Delaware & Hudson RR.) and C. E. Adams (Pres. Air Reduction Co).—V. 116, p. 617.

American Gas & Electric Co.—No Par Shares—
The stockholders on Feb. 20 voted to change the shares of Common stock from par of \$50 to shares of no par value and increase the number of shares to 1.750,000 shares. The new shares of Common stock of no par value shall be issued in place of the outstanding shares of Common stock in the ratio of 5 shares of Common stock, no par value, for each share of Common stock, par \$50.—V. 116, p. 518.

stock, par \$50.—V. 116, p. 518.

American Mfg. Co.—Resumes Dividends.—
The company has declared a quarterly dividend of 1½% on the Common stock, and the regular quarterly dividend of 1½% on the Preferred, both payable March 31. It is the intention of the directors to declare a dividend of the same amount on the Common shares in the remaining quarters of this year. The dividends will be paid from accumulated surplus and not from 1923 earnings.

This is the first cash dividend on the Common stock since Dec. 31 1921, when a payment of 1½% quarterly and ½ of 1% extra was made. A stock dividend of 10% was paid on March 31 1922.—V. 114, p. 2244.

American Metal Co., Ltd.—Sale—New Director.—
The company, it is stated, has sold the properties of the Arkansas Zinc & Smelting Co. at Van Buren, Ark., to William Lanyon, who intends to operate this plant as an independent smelter under the name of the Falcon Zinc Co. The Van Buren plant formerly belonged to L. Vogelstein & Co. and came to American Metal Co. at consolidation.

Heath Steele has been elected a director, succeeding H. V. Putzel.—V. 116, p. 618, 413.

American Public Utilities Co.—Plan Approved — The stockholders have approved the plan for the reclassification of the capital stock, as outlined in V. 116, p. 518.

American Safety Razor Corp.—Dividend No. 2.—
A dividend (No. 2) of 25c. per share has been declared on the Capita stock, no par value, payable April 2 to holders of record March 12. An initial dividend of like amount was paid on Oct. 2 last.—V. 116. p. 298, 179.

Atlas Tack Corporation.—Preliminary Earnings.—
For the year ended Dec. 31 1922, the corporation reports net earnings before taxes of \$117,621, comparing with a loss in 1921 of \$299,114.—V. 115, p. 2049.

Baltimore Gas Appliance & Mfg. Co.—Stock Div., &c.—
The company has declared a 20% stock dividend on the outstanding \$335,200 Common stock, par \$100. An extra cash dividend of 4%, together with a quarterly dividend of 2%, was also declared. All dividends are payable March 1 to holders of record Feb. 15.—V. 104, p. 562.

Barney & Smith Car Co.—Sale Postponed.—
The sale of the company's plant has again been postponed for 30 days by agreement between Valentine Winters, receiver, the Court, and two prospective bidders. It is stated that the bidders desire more time in which to inspect the company's property. The property cannot be sold for less than \$947,892.—V. 116, p. 413.

which to inspect the company's property. The property cannot be sold for less than \$947,892.—V. 116, p. 413.

Bassick-Alemite Corp.—Common Stock Offered.—Central Securities Co. and Paul H. Davis & Co., Chicago, are offering at \$27 50 per share 50,000 shares Common stock of no par value. The bankers state:

Listing.—Application will be made to list stock on Chicago Stock Exch. Company.—Organized in Feb. 1923 in Delaware to acquire all ef the outstanding Common stock of Bassick Co. of Bridgeport, Conn., and 5,000 shares of Common stock of Bassick Co., the total outstanding capital stock of the Bassick Mfg. Co. Company has actually acquired 29,774 shares of Common stock of Bassick Co., leaving only 584 shares still outstanding, all but 44 of which have definitely assented to the plan.

The Bassick Co. is the largest producer of furniture and truck casters in the world and one of the leading manufacturers of furniture and automobile hardware. Plants located at Bridgeport and Meriden, Conn., and Newark, N. J. Bassick Mfg. Co. (incorp. Del.), plant in Chicago, manufactures the nationally known Alemite system for high pressure lubrication of automobiles and industrial machinery. The Alemite system has been standardized by 470 prominent automobile manufacturers and is installed on 3,000,000 cars and trucks. The products of the operating companies have a national distribution, the Alemite products alone being distributed by 20,000 dealers throughout the United States.

\$303,148

Management.—E. W. Bassick, President.

Bayuk Bros., Inc.—New 7% Pref. Stock, &c.—
The company has called for redemption on April 15 1923 at \$110, all of the 8% Cumulative Convertible 1st Preferred stock now outstanding. Payment is to be made at Guaranty Trust Co., 140 Broadway, New York, on April 16.

Holders of the 1st Pref. stock may convert into Common stock up to April 10. Those desiring to exercise their conversion rights are required to give at least 5 days' written notice prior to the date specified in such notice for conversion, and must at the time of giving such notice surrender to the corporation at Guaranty Trust Co., New York, the certificates representing the 1st Preferred stock to be converted. The stock is convertible at the rate of one Preferred share for two shares of Common.
The stockholders on Feb. 13 authorized the creation of an authorized issue of \$5,000,000 New 7% Cumulative Participating Sinking Fund 1st Preferred stock, and to issue \$2,000,000 of this 1st Preferred stock as soon as possible. This proposed issue of New 7% 1st Preferred stock has been underwritten by a group of bankers with Blake Bros. & Co., New York, as syndicate managers.

An arrangement has been made with the bankers under which they will offer the 8% Preferred stock for 11 shares of new stock. Such an exchange is to be made as of April 15 1923 so that the old stockholders will be entitled to receive the full quarterly dividend due on that date on the old 8% 1st Preferred stock, and the certificates for the New 7% 1st Preferred stock will bear dividends from that same date. If, under this plan of exchange, any holder of old 8% 1st Preferred stock is entitled to a fractional share of New 7% 1st Preferred stock is neutiled to a fractional share of New 7% 1st Preferred stock is neutiled to a fractional share of New 7% 1st Preferred stock, an equitable adjustment in cash will be made. The offer must be accepted on or before April 2 1923.—V. 116, p. 724, 618.

Data from Letter of John E. Campbell, President, Feb. 21.

Data from Letter of John E. Campbell, President, Feb. 21.

Company.—Incorporated in New Jersey. Has succeeded to the entire business and assets of a Delaware corporation of the same name. Manufactures a taxicab originated and designed exclusively for taxicab purposes. Production begun only in the early part of 1922 with less than one cab a day, has increased to an average of 6 cabs a day at present time. Company at present time has on hand and available orders sufficient to occupy entire production for the current year.

Purpose.—Proceeds will enable the company immediately to increase production.

Purpose.—Proceeds will enable the company immediately to increase production.

Assets.—After giving effect to present financing, corporation begins business with liquid assets substantially in excess of \$1,000,000 over and above liabilities. Although the operations for the 8 months up to Nov. I last resulted in little net profit because of the small output, the operating profit during the months of November and December last were very substantial upon a production of 56 taxicabs in November and 74 taxicabs in December, and in January 1923, the company reached an output of 112 taxicabs resulting in an operating profit for January 1923 of \$42,000 and a net profit for that month, after extraordinary expenses of \$37,000.

Chickasaw Refining Co.—Removed from List.—
The New York Curb Market has removed from the list the company's \$1,060,000 Pref. and \$1,420,555 Common stock. See V. 115, p. 873.

Columbia Gas & Electric Co.—To Change Par of Stock.—
Stockholders will vote April 10 on changing the par of the stock from \$100 a share to stock without par value and the issuance of 3 shares of stock without par value in exchange for every share of \$100 par value. The company has at present 500,000 shares, par \$100, so that the capital as changed will consist of 1,500,000 shares, no par value.

President P. G. Gossler in a letter to stockholders says:

President P. G. Gossler in a letter to stockholders says:

This action has been recommended for several reasons. In the first place, it is believed that shares without par value represent, more truly than shares of a stated or par value, the proportionate parts in the ownership and earnings of a corporate enterprise, which is the true function of shares of Common Capital stock. The actual proportionate interest represented by a share of stock with par value must almost always be more or less than the par value of the share, only by accident and in rare instances can it be the same. From this result, which is likely to mislead, shares of stock without par value are free. They certify simply that the owner of the share is the owner of a proportionate interest in the assets and earnings of the company applicable to the shares. By this his rights are preserved to the same extent as in the case of shares with par value, no misleading deductions can be drawn, and the attention of the investor is placed, as it should be, on the actual tinancial condition of the company rather than on an artificial par value which may have no relation to the actual worth of the stock.

It is also believed that a division of the present shares into three of the new shares will tend to a wider distribution of the stock through placing the market value per share better within reach of the small investor. An increase in the number of shareholders by this means is considered by the board to be extremely desirable and for the best interests of the company.

The annual report for 1922 is given in full on a subsequent.

The annual report for 1922 is given in full on a subsequent page.—V. 116, p. 725.

Cities Service Co.—Dividends.—
The company has declared the regular monthly cash dividends of ½ of 1% on its Preferred and Preference "B" stocks and ½ of 1% in cash scrip and 1½% in stock scrip on the Common stock, all payable April 1 to holders of record March 15. Like amounts are also payable March 1.—V. 116,p.619

Cleveland Brass & Copper Mills, Inc.—To Reorganize.—
Cleveland dispatches state that reorganization plans are under way whereby stockholders are to purchase the property and get it in operation under a new regime. The plan as worked out, it is stated, provides for an issue of bonds to be subscribed for by present stockholders, and thus raise enough funds to liquidate the company's debt and furnish money for working capital. A syndicate committee has been prepared to act for the stockholders, it is said.—V. 115, p. 1946.

Clinchfield Coal Corp.—Tenders.—
The Equitable Trust Co., trustee, 37 Wall St., N. Y. City, will until Feb. 28 receive bids for the sale to it of 10-Year 8% Sinking Fund Gold De-

bentures dated April 1 1921 to an amount sufficient to exhaust \$37,800 at a price not exceeding 105 and int.—V. 115, p, 2797.

(John T.) Connor Co., Boston.—5% Div.—Earnings.—
The directors have declared a quarterly dividend of 50c. a share on the Common stock, par \$10, payable April 2 to holders of record March 20. A like amount was paid Jan. 2 last on the old capitalization outstanding prior to the distribution of the 40% stock dividend.

Net profits after taxes and all charges for the quarter ended Dec. 31 1922 were \$124,234 and gross sales \$3,276,149.—V. 116, p. 620, 181.

Consolidated Cigar Corp.—Date of Annual Meeting.—
The stockholders on Feb. 19 voted to change the date of the annual meeting from the third Monday in February to the first Monday in March.
Ira Skutch has been elected a director. An amendment was adopted increasing the number of directors to 20 and the executive committee to 8. The Preferred stockholders elected a majority of the directors while the Common stockholders elected the minority. This was due to the fact that the company failed to pay full dividends on the Preferred stock for three consecutive quarters.—V. 116, p. 718, 620.

Consolidated Gas Co. of N. Y.—Initial Preferred Div.—An initial dividend of 1%% (87% cents) has been declared on the 6% Part. Pref. stock, par \$50, payable May 1 to holders of record March 15. The company in Jan. last placed its no par Common stock on a \$5 annual basis. Compare V. 116, p. 415, 520.

Sinking Fund.—Provision is made for a sinking fund, beginning not later than April 1 1928 to provide semi-annually 1½% of the maximum principal amount of refunding bonds which shall at any one time preceding the date of such sinking fund payment have been outstanding. Present sinking fund provisions in prior lien indenture are operative to 1928.

Purpose.—Entire proceeds will be used for the acquisition of the Lincoln Gas & Electric Co. (V. 115, p. 2386), for large additions to present properties, for construction of additional facilities, and for the reimbursement of the treasury for new construction.—V. 115, p. 2384.

Consolidated Gas El. Lt. & Pr. Co. of Balt.—Rights.—

The Common stockholders of record March 5 are given the right to subscribe on or before March 20 to \$2,922,000 additional Common stock at par (\$100). Subscriptions will be payable, in cash in New York or Baltimore funds, at company's office, Lexington Bldg. Baltimore, or New York Trust Co., 100 Broadway, New York, or Aldred & Co., Ltd., London, England, as follows: \$25 upon subscription on or before March 20 and \$25 each April 20, May 21 and July 2. Subscribers may at their option make payment in full on the date of any installment.

Interest at rate of 6% per annum on installments paid and dividend at the now current rate of 8% per annum shall be adjusted and paid, at the time of final payment. All of the new stock will rank for all regular dividends after the quarter ending June 30; new stock paid for in full on March 20 will be adjusted by payment to subscribers at the rate of 8% per annum to April 1 1923.

There have been no arrangements made for syndicating any un-subscribed portion of this issue.—V. 116, p. 725.

Curtiss Aeroplane & Motor Corp.—Report.—
The operating results for the year 1922 (subject to audit) showed a profit of \$16,170, compared with the profit of \$101,207 for 1921.

Orders on the books at the close of the year amounted to \$3,752,009, as compared with \$1,763,225 in 1921.

President C. M. Keys says: "It is necessary to revise the capitalization of the company and a plan to this effect will be submitted to the stock-holders shortly for their approval. It may also be necessary, in view of the larger volume of business being transacted, to arrange for the raising of working capital. The possible need for this is reflected in a decrease of cash on hand at the close of the year from \$994,880 in 1921 to \$174,744 in 1922, and an increase of the Government work in production from \$122,629 in 1921 to \$791,978 in 1922."

Arthur H. Marks has been added to the board.—V. 116, p. 415.

On Dec. 29 last the company paid a 50% stock dividend on the Common stock. Prior to this stock distribution dividends at the rate of 8% per annum (2% quarterly) were paid.—V. 116, p. 726, 715.

Dupont Motors.—Capital Increase.—
The company has filed notice with the Secretary of State of Delaware of an increase in its authorized capital stock from \$4,500,000 to \$25,000,000

of an increase in its authorized capital stock from \$4,500,000 to \$25,000,000.

Durant Motors, Inc.—Acquires Glass Works.—
President W. C. Durant, it is announced, has taken over the entire capital stock of the American Plate Glass Co., Kane, Pa. The company, it is stated, has an annual capacity of approximately 6,000,000 sq. ft. of plate glass, an amount sufficient to meet all the requirements of the Durant organization.

The Durant Motors of Michigan for the year ended Dec. 31 1922 reports net profits of \$1,437,749 after setting aside \$237,495 for Federal, State and local taxes and \$71,754 reserved for depreciation, and that the profits are equal to slightly more than 100% on the investment. Of the profits, 50% goes to Durant Motors, Inc., for the use of the name, patents, management and other purposes, while 40% goes to stockholders.—V. 116, p. 182.

Elder Steel Steamship Co., Inc.—See page 834.

Elder Steel Steamship Co., Inc.—See page 834.

Endicott Johnson Corporation.—Listing.—
There have been added to the Boston Stock Exchange list 67,560 additional shares (par \$50) Common stock, the same having been issued on Feb. 15 to holders of record Jan. 25 1923 as a stock dividend.—V. 116, p. 726.

Fay Taxicabs, Inc.—Common Stock Offered.—McClure, Jones & Reed, New York, are offering at \$32 per share, 50,000 shares Common stock.

Company was incorporated in New York, in June, 1922, with 17 taxicabs. Company has steadily grown and will have 300 cabs in operation by the end of February. The sale of this tock will provide funds for the purchase of taxicabs, and by April next, corporation expects to have 500 in operation. Company also operates 3 garages.

Depreciation of 25% per annum is charged against the cost of each cab, and after this and all other charges, except taxes, current earnings are in excess of \$4 50 per cab per day. With 500 cabs in operation it is estimated that earnings will be at ieast \$70,000 per month, or about \$840,000 per annum. Lawrence Fayis President.

Fisher Body Corporation .- To Increase Common Stock

Fisher Body Corporation.—To Increase Common Stock—Preferred Stock to Be Retired.—
The stockholders will vote March 6 on increasing the authorized Common stock from 500,000 shares to 600,000 shares, no par value. The additional 100,000 shares will be offered pro rata to Common stockholders at \$75 per share (Compare V. 116, p. 416, 521).
The stockholders will also vote on reducing the number of directors from 14 to 11.
The corporation will redeem all of its outstanding Preferred stock on May 1 at 120 and dividends. Payment will be made by the Bankers Trust Co., 16 Wall St., New York City, Holders of said stock may present same for payment any date before May 1 and will receive 120 and dividends to date of presentation.—V. 116, p. 521, 416.

date of presentation.—V. 116, p. 521, 416.

Fisk Rubber Co.—Orders Increase.—
The company's current orders are 80% larger than this time last year, according to an official of the company. In addition to the general improvement in the tire industry Fisk Rubber is reaping the benefit of the combined business of the Federal Rubber Co. of Milwaukee and the Ninigret Co., both of which were acquired last year. Gross sales and net earnings in 1923, it is stated, are expected to be far in excess of last year, when net sales were \$45,000,000 and net profits approximately \$1,630,000.—V. 116, E.-J. Material Co.

Ford Motor Co., Detroit.—Production.—
Final figures for January show that the company in that month produced 125,271 cars and trucks. Of the 125,271 cars and trucks, 111,145 were turned out at the U. S. plants and 5,758 at the Canadian plant. Total tractors built in January was 7,904.—V. 116, p. 726, 621.

—V. 115, p. 2799.

General Electric Co., Schenectady, N. Y .- Employees'

-V. 115, p. 2799.

General Electric Co., Schenectady, N. Y.—Employees'

Eccurities Corporation Formed.—

Securities of a number of important public utilities companies are made part of an interesting new savings plan for the company's employees, through the formation of the G. E. Employees' Securities Corp. A particularly interesting feature is that employees will themselves have a voice in the Securities Corporation by virtue of electing 7 bond directors. The G. E. Company chooses 8 directors representing the stock of the corporation.

Outlining the plan, President Swope, in a formal announcement, says:

"In the past three years many thousands of our employees have, in addition to the purchase of about 50,000 shares of the company's capital stock, subscribed for over \$5,000,000 of Employees' 7% Investment bonds. This result has led the directors to adopt a broader plan, enabling employees to continue and extend the habits of saving thus formed.

"With the thought in mind that the employees might wish to become interested not only in the General Electric Co. serves, a new company, the G. E. Employees' Securities Corp., has been formed to invest its funds in the stock of the General Electric Co. and in the securities of public utilities which the General Electric Co the invest its funds in the stock of the General Electric Co. will subscribe for the entire issues of bonds and 10,000,000 shares of no par value capital stock.

"The General Electric Co. will subscribe for the entire issues of bonds and stock. The stock will be retained by the General Electric Co. but the bends will be sold to employees."

The General Electric Co. agrees with the original holder of bonds that so long as he remains in the service of the company it will pay at the same time the interest is paid an additional 2% per annum, making a total of 8% per annum in the value thereof.

The funds of the new corporation, it is announced, are invested in approximately 25% of G. E. Company Common stock and 75% in securities of public utility compani

Entire outstanding amount in a voting trust expiring May 1 1941 or earlier, at option of voting trustees.

Outlook—During last two years the rubber industry has labored under frequent reductions of the selling prices of its products imposed by the continued downward trend of the market prices of the principal raw materials. In the face of this the company was obliged to use and pay for high-priced materials purchased in 1920. These materials have now been taken in and consumed and the company is again operating with inventories, the average cost of which is at or under current market. With better selling prices now prevalent, and sales volume steadily increasing, the company's outlook for a profitable business is excellent. [The balance sheet as of Dec. 31 1922 (adjusted) is given under "Reports" above.]—V. 116, p. 716, 727.

Haytian-American Corp.—Reorganization.—

Acquisition of the properties of the company by a new company known as the Haytian Corporation of America, under a plan designed to enable the corporation to engage in the sugar industry on an enlarged scale, has been completed. Capitalization of the new corporation will consist of an authorized \$3,000,000 8% 15-year Debenture Income bonds and 100,000 shares of Common stock without par value, of which \$2,375.000 bonds and 80,000 shares of Common are to be immediately issued. Proceeds of the financing, in the form of working capital, are expected to equip the corporation with the funds necessary to active exploitation of its sugar, railway, electric light and dock subsidiaries in Hayti, all of winds are understood to have secured improving results in recent months.

Officers of new corporation are: Pres., C. Edgar Elliott, V-Pres., E. S. Paine; Treas., E. H. York; Sec., W. A. Kroether. Executive committee: George D. Graves, Chairman; F. H. Berlin, Frank Finsthwait, S. S. Paine, E. H. York, William K. Dick and Charles J. Welch. Directors include the foregoing and Clarence K. Bowie, William D. Breed, George C. Forrey, Guthrie B. Plante and William M. Ramsay.—V. 115, p. 2386.

(George W.) Helme Co.—To Reduce Par Value.—

(George W.) Helme Co.—To Reduce Par Value.—
The stockholders will vote March 5 on changing the authorized Common stock from 80,000 shares, par \$100, to 320,000 shares, par \$25. There are outstanding 60,000 shares of Com. stock, par \$100.—V. 116. p. 718, 622

Howe Rubber Corp., New Brunswick, N. J.—Receiver.

Application has been made to Federal Judge Lynch for the appoint ment of a receiver for the company, with a plant at New Brunswick. Two stockholders brought the action, alleging that the company is being run at a loss. ("Financial America.")—V. 110, p. 1294.

Hupp Motor Car Co.—10% Stock Dividend &c.—

A 10% stock dividend has been declared on the outstanding Common stock, par \$10, payable March 15 to holders of record March 1. The stockholders recently increased the authorized Common stock from \$5,192,100 to \$10,000,000, par \$100 (compare V. 116, p. 522).

Net profits for 1922 after Federal taxes were \$3,778,780 compared with \$\$90,278 in 1921.

It is stated that the company's entire 1923 output of 40,000 cars has already been contracted for delivery. The 1923 output of 40,000 cars has compares with about 15,000 in 1921 and 34,000 in 1922.—V. 116, p.

Capitalization.—Authorized, 1,000,000 shares. Outstanding, 450,000 shares. No bonds.

Capitalization.—Authorized, 1,000,000 shares. Outstanding, 450,000 shares. No bonds.

Data From Letter of Pres. E. H. Moore, Okmulgee, Okla., Feb. 20.

Purpose.—Proceeds will be used in the development of present holdings and to acquire properties, which have been offered on advantageous terms.

Properties.—Properties are advantageously located in the heart of the Mid-Continent field immediately available to pipe line connections and consist of carefully selected oil and gas leases totaling approximately 18,000 acres, which have been accumulated during the past 3½ years. The first wells in this district were brought in in 1905, and these wells are producing oil in commercial quantities at this time. There are 6 known producing sands underlying this district, all of which have in the past yielded high-grade oil in paying quantities. There are 120 producing oil wells, with a present settled and semi-settled net daily production of over 2,550 barrels. In 1922 company drilled 69 locations of which 42 developed into producing wells. It is estimated that production will average 4,000 barrels daily for 1923.

Earnings.—Net earnings before depletion and depreciation for 1922 totaled \$2,225,000, and, after charging off depletion to cost and all charges, were \$1,666,000, or approximately \$3 70 per share of stock to be outstanding were \$1,666,000, or approximately \$3 70 per share of stock to be outstanding. These earnings were made with oil at an average price of \$2 per barrel. The substantial additional production being developed and the increased price for oil (company is now receiving \$2 50 per barrel) should materially augment these earnings.

Dividends.—In 1922 company paid cash dividends aggregating \$500,000 and it is the intention of the management to inaugurate the payment of dividends at the rate of \$1 50 per share per annum.—V. 115, p. 1949.

Inland Steel Co., Chicago.—New Financing Rumors.—
It is reported the company is negotiating for the sale of a large block of Preferred stock to Kuhn, Loeb & Co., the proceeds to be used to finance additions.—V. 116, p. 728.

Inspiration Consol. Copper Co.—Resumes Divs.—
A dividend of 5% has been declared on the outstanding \$23,639,340 capital stock, par \$20, payable April 2 to holders of record March 15. Quarterly dividends of 5% each were paid in July and Oct. 1920; none since.—V. 115, p. 756.

International Cement Corp.—Notes Called.—
All of the outstanding 5-year 8% Convertible gold notes, dated June 1
1921, have been called for payment March 20 at 110 and int. at the Equitable Trust Co., 37 Wall St., N. Y. City. Any of the notes may, at any time
until and incl. March 20, be converted at the option of their holders into
shares of Common stock, no par value, upon surrendering notes at the office
of the trust company.—V. 116, p. 728.

International Silver Co.—Accumulated Pref. Dividends. The company has declared a dividend of ¼ of 1% on account of deferred cumulative dividends and the regular quarterly dividend of 1¾% on the Pref. stock, both payable April 2 to holders of record Mar. 16. Compare V. 115, p. 2484.

Iron Products Corp.—May Recapitalize.—

The directors are said to have under consideration plans for recapitalizing the company. According to reports, the plan contemplates the retirement of the present \$987.000 8% Cumul. Preferred stock and the issuance in its stead of new Preferred and at the same time increase the Common stock. The reports also state that the plan is likely to include the issuance of a stock dividend to Common stockholders.—V. 116, p. 728.

Island Refining Co.—Suit.—
The Metropolitan Trust Co., New York, has filed suit in Federal Court at New Orleans to foreclose the \$6,000,000 mortgage.—V. 116, p. 303.

Isle Royale Copper Co.—1922 Dividends.—
The company announces that of the dividend of 50c. per share paid Aug. 31 1922 (V. 115, p. 763), 43.043c. per share was out of earnings considered subject to Federal income tax as a dividend and is returnable as taxable income. The balance, 6.957c. per share, and all of the dividend of 50c per share paid Dec. 22 1922, being distributions of paid-in surplus, are not returnable as taxable income. The stockholders are also advised that for the Commonwealth of Masaschusetts both dividends are considered return of capital and non-taxable.—V. 115, p. 763.

Island Warehouse Corp., Buffalo, N. Y.—Bonds Sold—W. A. Harriman & Co., New York, and Lane, Piper & Jaffray, Mianeapolis, have sold at 97½ and int., to yield over 6.20%, \$2,000,000 1st Mtge. 6% 20-Year Sinking Fund gold bonds, Series A. (Ses rdv. pag s.)

Dated Mar. 1 1923. Due Mar. 1 1943. Int. payable M. & S. without deduction of Federal income tax not exceeding 2%. Denom. \$1,000, \$500 and \$100 (c\*). Red. all or part on any int. date on 60 days notice at 110 and int. through Mar. 1 1924, the premium decreasing ½% each year thereafter to maturity. Chase National Bank, New York, trustee.

Data from Letter of President Edwin T. Douglas, Buffalo, Feb. 19.

Company.—Incorp. in 1921 in New York. Owns and will operate in Buffalo, N. Y., a grain elevator, capacity 2,600,000 bushels, and a warehouse. Has under construction a flour mill scheduled for completion in Oct. 1923, which will be immediately equipped for a production capacity of 4,500 barrels per day, and having an ultimate capacity of 8,000 barrels per day.

Lockwood, Greene & Co.—To Acquire Greelock Co.—
The stockholders will vote Feb. 26 on: (1) purchasing all of the assets of the Greelock Co. at the present market or fair value thereof and to pay therefor partly in cash and partly by assuming all of the outstanding obligations of the Greelock Co., (2) changing the par value of the common stock and Class B stock from \$100 to \$5\$ a share, and thereafter, if advisable, to change the par value of the shares from \$5\$ a share to no par value, (3) increasing the authorized capital stock by authorizing 40,591 shares of additional pref. stock, to be identical with the pref. stock now outstanding (4) increasing the authorized capital stock by authorizing \$1,19 shares (or some multiple thereof) of additional Class B stock to be identical with Class B stock now outstanding, (5) authorizing an issue of \$6,000,000 10-Year 7% Notes, dated March 1 1923.

President Edwin Farnham Greene says in substance:

On-Year 7% Notes, dated March 1 1923.

President Edwin Farnham Greene says in substance:
Company now owns substantially 41% of the outstanding capital stock of the Greelock Co., and directors have felt it advisable to consolidate both companies. The plan provides for the payment of all but a relatively small part of the current liabilities of both companies, and for the refinancing for ten years of the now outstanding \$5.000.000 note issue of Greelock Co. This company will purchase the assets of the Greelock Co., subject to its liabilities, and in connection therewith it is expected that the Greelock Co. will purchase sufficient additional preferred and Class B stock of this company so that the stockholders of the Greelock Co., other than Lockwood, Greene & Co., Inc. (whose Greelock stock drops out in the consolidation) will be entitled to one share of pref. stock and 2-10 share (or some multiple thereof) of Class B stock in lieu of each share of the Greelock stock now held. There will also be issued \$6,000.000 of ten-year notes.

In carrying out the plan the pref. stock will be increased from \$1,500.000 to \$5,559,100 and the Class B stock from 2.000 shares to 10,119 shares (or some multiple thereof). It is also proposed to increase proportionately the minimum requirement of the sinking fund for the pref. stock, and to change the par value of the Class B and common stocks to no par value. This change in par value will not affect the value of these stocks.

Consolidated Balance Sheet as of Dec. 31 1922 (After Proposed Merger).

Motor Wheel Corporation, Lansing, Mich.—Bonds Offered.—National City Co. and E. H. Rollins & Sons are offering, at 96 and int., to yield about 6.55%, \$2,000,000 10-Year Sinking Fund 6% Gold Bonds.

Dated March 1 1923. Due March I 1933. Interest payable M. & S. without deduction for normal Federal income tax up to 2%, at National City Bank, New York, trustee. Denom. \$1,000 and \$500 (c\*). Redeemed able, all or part, on any interest date on 30 days' notice at 103 if redeemed on or before March 1 1926; at 102 thereafter, if on or before March 1 1929, and thereafter at 101. Penn. 4 mills tax refunded.

Data from Letter of Pres. H. F. Harper, Lansing, Mich., Feb. 17. Company.—Organized in 1920, taking over all the assets of Prudden Wheel Co., Gier Pressed Steel Co., all of Lansing, Mich., and Weis & Lash Mfg. Co. of Memphis, Tenn. These companies as a whole represented a complete cycle of the manufacture of wheels for motor vehicles. Corporation since inception has been one of the largest manufacturers of motor wheels in the world. Corporation has acquired the plant and bursiness of Forsyth Bros. Co., at Harvey, Ill., and the business, machinery, equipment and inventory of the Detroit Pressed Steel Co. of Detroit, Mich., used in the manufacture of the Disteel wheel. These two acquisitions include the right to operate under all the Forsyth and Disteel wheel patents. With these acquisitions the corporation will now be able to furnish to automobile manufacturers, in addition to a complete line of wood wheels, the three distinct types of steel wheels, namely, the Tuarc demountable rim type, the Disteel demountable hub type, and the Forsyth which embodies certain of the features of both the Tuarc and Disteel wheel patents. Sinking Fund.—The trust agreement will provide for a fixed semi-annual bening Jan. 15 1924. As an additional sinking fund, the corporation will agree to pay semi-annually out of surplus earnings a furthe

National Cloak & Suit Co.—Plan to Retire \$4,500,000 8% Notes Through Issuance of \$4,000,000 7% Pref. Stock.—

The stockholders will vote March 8 on increasing the 7% Cumulative Preferred stock from \$4,330,000 to \$8,330,000. This is in accordance with a plan formulated by the directors for retiring the 8% Convertible Sinking Fund Gold Notes. It is proposed to create and issue an additional \$4,000,000 7% Cumul. Pref. stock which will be identical with the existing Preferred stock except that dividends on the increased amount will be cumulative only from March 1 1923.

Arrangements have been made with Goldman, Sachs & Co., Lehman Bros, and the Chase Securities Corp. for the sale of this \$4,000,000 additional Preferred stock. Proceeds of this sale, together with other moneys made available by the company, will provide sufficient funds for the retirement of the entire amount of the \$4,500,000 outstanding 8% notes, at 106½ and will be employed for that purpose.

President S. G. Rosenbaum further says in brief.

President S. G. Rosenbaum further says in brief:
The foregoing arrangement is believed to be exceedingly advantageous for the company and for the stockholders of both classes. It permits the elimination of a fixed indebtedness of substantial amount, having complete priority over the existing Preferred stock. It also places the company in a very favorable financial position to handle its increasing volume of business. The transaction will result in the retirement of the entire \$4,500,000 of 5% notes, calling for annual interest payments of \$360,000, against the issue of \$4,000,000 of 7% Preferred stock calling for annual dividend payments of \$280,000.

Application will be made to list the content of the entire \$4.500 to \$4.500

Application will be made to list the new stock on the New York Stock Exchange.—V. 116, p. 612. 624.

National Conduit & Cable Co., Inc.—Report.—
The committee for the \$4,168,500 1st Mtge. 6% 10-Year Sinking Fund gold bonds of 1927. Charles E. Mitchell, Chairman, in a circular to the holders of certificates of deposit for the bonds, gives the report of the receiver, dated Feb. 7 1923, which shows the results of operation for the period of receivership.

Results for Period July 15 1921 to Dec. 31 1922.

Net loss—July 15 1921 (date of receivership) to Dec. 31 1921.
\$49.872, net loss—Jan. 1 1922 to June 30 1922, \$11,953, net income—July 1 1922 to Dec. 31 1922, \$94,322, net income—312, 32,497

Deduct—Inventory adjustments Dec. 31 1922, \$40,377, other adjustments, \$5,000—45,377

Net loss July 15 1921 to Dec. 31 1922\_\_\_\_\_ \$12,880

During this period the New York & Hastings Steamboat Co. (owned by company) has been operated at a net profit of \$21,363.

Operating losses during the early part of the receivership have given way to a substantial net income in recent months. Figures for the last 6 months of 1922 as reported by the receiver, are:

| o months of 1942 | , as reported by the receiver | , arc.      |            |
|------------------|-------------------------------|-------------|------------|
| 1922             | x Shipments (lbs.).           | Sales.      | y Net Inc. |

x This item almost entirely represents deposits received from purchasers which are repayable upon return by them of reels, spools, etc., and includes \$110,876 on new business done by the receiver and \$98,078 on business done prior to the receivership. Company's experience indicates that the return of a substantial portion of these deposits will probably never be called for. y 250,000 shares of no par value at book values.

The committee says in part: "We have kept in close touch with the conduct of the receivership and feel that receiver Clarence G. Galston is entitled to much credit for the manner in which the business has been carried on and increased. While only the rod, wire and cable mills, in the South plant are being operated, they are running to capacity, with a large routput than ever before and with a large volume of orders on hand. The tube mill, in the South plant, is not being operated. The sheet mill, or North plant, has not been operated since the Fall of 1920 Receiver, having petitioned the court for permission to offer this plant for sale at public auction, has been ordered to hold such a sale March '9 1923. The court has fixed an upset price of \$550,000. Committee considers the market prices of 40-50, at which bonds have been sold, to be considerably less than the bondholders would receive upon a liquidation of the company, and advises the depositing bondholders not to sacrifice their holdings, but to continue to exercise patience."—V. 116, p. 624.

National Enameling & Stamping Co.—Dividends.—
The directors have declared the regular annual dividend of 7% on the outstanding Preferred shares, 13/1% each on March 31, June 30, Sept. 29 and Dec. 31 1923 to holders of record March 10, June 9, Sept. 10 and Dec. 11 1923, respectively.

National Surety Co.—Quarterly Dividend of 2½%, payable April 1 to holders of record Mar. 20. The company recently increased its capital stock from \$7.000.000 to \$10.000.000 through the declaration of a stock dividend which gave the stockholders 3 shares of stock for every 7 shares of stock held. The old outstanding \$7.000.000 capital stock was on a 12% a year dividend basis. The dividend just declared places the now outstanding \$10.000.000 capital stock on a 9% a year dividend basis so that the declaration just made actually represents an increase in the dividend disbursement to stockholders.—V. 116, p. 523.

National Transit Co.—Extra Dividend of 4%.—
An extra dividend of 4% has been declared on the outstanding \$6,362,500 capital stock, par \$12.50, payable Mar. 15 to holders of record Feb. 28. An extra of 2% was paid in Sept. last. Dividends of 4% were paid extra in March 1922 and in Dec. 1921; in Sept. 1921 and Sept. 1920, 8% each were paid extra; in March and June 1921, and in March and June 1920, extras of 4% each were paid, and in Dec. 1920, 6%.—V. 116. p. 419.

New Dominion Copper Co.—Listing.—

The Boston Stock Exchange has authorized for the list temporary certificates for 45.649 shares Class "A" Capital stock; Capital stock; authorized, Class "A," 600.000 shares; Common, 1,400.000 shares; issued, Class "A," 45.649 shares; Common, 1,203,576 shares. Par value, Class "A" and Common, \$1.

The company was organized Sept. 11 1916. Property consists of 21 claims patented, and 4 claims unpatented, in the Globe Mining district, Arizona. In 1916 the property was acquired by a group which organized the New Dominion Copper Co., which proceeded to develop it, until conditions resulting from the war caused a suspension of operations. Subsequently work on the property was renewed, and an arrangement made with the Old Dominion Copper Co. to handle its ore, the expectation being that such shipments will begin regularly early in March at the rate of 45 tons per day, to be increased to 200 tons.

In addition to the 45.649 Class "A" shares, to which this listing applies, there have been sold 125.000 additional shares, payments for which have not yet been completed, but are being completed in accordance with a contract between the company and subscribers under date of Jan. 9 1923.

Directors.—E. W. Mitchell (Pres.), P. M. King (V.-Pres.), A. G. Bisgood (Sec.), W. O. Edwards, A. C. Holman (Treas.), J. B. Kelley, R. E. Vandruff.

North American Co.—Dividend of 2½% Payable in Stock (or at Holders' Option in Cash)—To Increase Preferred and Common Stock—Te Reduce Par Value of Common Stock from \$50 to \$10 Per Share.

\$50 to \$10 Per Share.—

The directors have declared a quarterly dividend of 2½% on the Common stock, payable in Common stock on April 2 to holders of record Mar. 1. [In July, Oct. and Jan. last the company paid quarterly cash dividends of 2½% each.]

Treasurer Robert Sealy states that "stockholders who desire cash instead of the Common stock which will be issuable to them in payment of such dividend may, by signing and returning dividend order provided for the purpose so that it shall be received by the company not later than Mar. 19. dispose of such dividend stock at the rate of \$2 for each \$1 par value of such stock. Checks will be mailed on Mar. 31 to such stockholders in payment for the Common stock so disposed of by them. This payment is equal to a quarterly cash dividend at the annual rate of \$20%.

"This arrangement is made solely for the convenience of stockholders who desire to have cash rather than stock on the dividend payment date. The price so fixed in advance may not correspond to the market price of the Common stock on that date, and attention is directed to the fact that such price is lower than the present market price of the Common stock."

A quarterly dividend of 1½% on the 6% Cumul. Pref. stock will be paid on April 2 to holders of record Mar. 1.

To Increase Capital and Change Par Value of Common Stock

To Increase Capital and Change Par Value of Common Stock

on April 2 to holders of record Mar. 1.

To Increase Capital and Change Par Value of Common Stock and Date of Annual Meeting.—

The stockholders will vote March 21 (1) on changing the par value of the shares of Common stock from \$50 to \$10 per share, and (2) on increasing the authorized capital stock from \$60,000,000 (consisting of \$30,000,000 6% Cum. Pref. stock, par \$50, and \$30,000,000 of Common stock, par \$50, and \$30,000,000 of Common stock, par \$50, and \$60,000,000 Common stock, par \$10. Holders of outstanding shares of Common stock, par \$10. Holders of outstanding shares of Common stock, par \$10. Holders of outstanding shares of Common stock, par \$10. Holders of outstanding shares of Sanres of Common stock, par \$10. The stockholders will also vote on changing the date of the annual meeting commencing with the year 1924 to the first Wednesday of April.

In reference to the proposed changes in capitalization President Frank L. Dame, Feb. 21, says in substance:

A considerable number of holders of the Common stock have from time to time suggested to change the par value of the Common stock from \$50 to \$10 per share, so that the holders shall receive in exchange for each \$50 to \$10 per share, so that the holders shall receive in exchange for each \$50 to \$10 per share, so that the holders shall receive in exchange for each \$50 to \$10 per share, so that the holders shall receive in exchange for each \$50 to \$10 per share, so that the holders shall receive in exchange for each \$50 to \$10 per share, so that the holders shall receive in exchange for each \$50 to \$10 per share, so that the holders shall receive in exchange for each \$50 to \$10 per share, so that the holders shall receive in exchange for each \$50 to \$10 per share, so that the holders shall receive in exchange for each \$50 to \$10 per share, so that the holders shall receive in exchange for each \$50 to \$10 per share, so that the holders shall receive holders.

During the past year properties of large earning power have been acquired and substantial expe

Northwestern Bell Tel. Co.—Acquisition Authorized.—
The I.-S. C. Commission has authorized the company to acquire the properties of Musson Brothers, who own and operate a local telephone system in the city of Atlantic, Cass County, Iowa. Their exchange serves 1,419 stations in the city and 435 rural subscribers, making a total of 1.854 stations. The purchase price is \$85,000, to be paid as follows: (1) By paying \$50,000 notes given by Musson Brothers and secured by a mortgage upon the properties involved; (2) by satisfying and discharging certain claims liquidated and unliquidated in favor of the Bell Co. and against Musson Brothers, and (3) by paying to Musson Brothers the balance of the purchase price in cash.—V. 115, p. 2694.

Ohio & Northern Gas Co.—Definitive Notes Ready.—
The Guaranty Trust Co. of N. Y. is now prepared to deliver definitive Guaranteed 3-Year 7% Secured gold notes, Series "A." in exchange for outstanding interim receipts. (See offering in V. 115, p. 2590.)—V. 116, p. 624.

Ohio Oil Co.—Blackstone Suit Adjusted.—
The controversy between this company and the Blackstone Petroleum Co. over the operation of 260 acres in the Salt Creek, it is stated, has been amicably adjusted and the suit in the Federal Court dismissed.—V. 116, p. 524.

Oklahoma General Power Co.—Bonds Sold.—H. M. Byllesby & Co., Inc., New York, and Federal Securities Corp., Chicago, have sold at 92 and int., to yield about 65%%, \$1,000,000 1st Mtge. Gold Bonds 6% Series "A" of 1922. Due April 1 1952. Guaranteed principal, int. and sinking fund by Oklahoma Gas & Electric Co. (see description in V. 114, p. 1660).

Company.—Owns property rights in Oklahoma and has under construction a modern steam electric power house near Muskogee, Okla., and has completed an extensive system of transmission lines. Present power plant installation is 10.000 h.p., which will be increased by 20.000 h.p., making the total installed capacity 30.000 h.p. Company will also own \$1,125,000 Oklahoma Gas & Electric Co. 6% Gold Notes, due 1927.

Purpose.—Proceeds will provide funds to be used in the installation of the additional 20,000 h.p. capacity. Company will own and have pledged with the trustee of the mortgage securing the bonds, \$1,125,000 Oklahoma Gas & Electric Co. 6% notes, which may be withdrawn against the deposit of cash at par or construction at cost.

Earnings.—The terms of the lease provide for payment of rentals by Oklahoma Gas & Electric Co. of Oklahoma General Power Co. of an annual amount equal to not less than 134 times the annual interest charge on these 1st Mtge. Gold bonds at any time outstanding.

Annual rental payments by Oklahoma Gas & Electric Co. under this lease will be included in the operating expenses of that company. After the payment of all operating expenses, maintenance and taxes, excuding depreciation, for the 12 months ended Dec. 31 1922, Oklahoma Gas & Electric Co. had a balance of \$1,472,921 available for interest charges, dividends, &c. Dividends on its Common stock have been paid in each year since 1909, at various rates. (Compare V. 114, p. 1660.)—V. 116, p. 624.

W. A. Harriman & Co., New York, have sold at \$42 50 per share, \$1,750,000 Capital Stock (par \$50). A circular shows:

Company.—Incorp. in 1911 in Pennsylvania to succeed Pennsylvania Coal & Coke Co., substantially all of the assets of which were immediately thereafter sold, subject to underlying liens, to Clearfield Bituminous Coal Corp., the entire capital stock of which is owned by New York Central RR. Clearfield Bituminous Coal Corp., in turn, leased to Pennsylvania Coal & Coke Corp. all the improved and operated properties, so acquired, subject to underlying liens and to the mortgage of Clearfield Bituminous Coal Corp. In December 1922. Pennsylvania Coal & Coke Corporation acquired the assets and assumed the liabilities of Watkins Coal Co.

Directly or through subsidiaries owns in fee 8,031 acres, and holds under lease 36,343 acres of coal. Estimated reserves of unmined coal, over 182,000,000 tons, and at average rate of production of last six years are sufficient for over 65 years of future operation.

Earnings.—During the six years, 1917 to 1922, inclusive, average annual net income after charges, contingent reserves and Federal taxes, was \$967,636, or \$5.60 per share on 172,666 shares of capital stock now outstanding. Giving effect to Federal taxes at the 1922 rate, the corresponding average annual net income would be \$1,342,423, or \$7.77 per share now outstanding. In addition to net income as above, the amount set up for return of capital through amortization of value of leaseholds, has aggregated \$1,106,964 in the six years, an annual average of \$184,494.

Dividends.—Has paid dividends continuously since 1917. Present rate of \$% per annum has been maintained since August 1918. Dividends have been paid quarterly F., &c. Recently a 40% stock dividend was declared apayable to holders of record Feb. 3 1923. A cash dividend of 2% on the increased Capital stock was also declared payable Feb. 10 1923.

Porto Rican-American Tobacco Co.—Report.—
Pres. L. Toro, Feb. 21, says in brief: While the report shows losses of \$390,238, after depreciation of inventories, company has been operating at a profit since Oct. I 1922, and every indication points to bigger and better business for 1923. Profits from operations during the last quarter, before depreciation, have been about \$150,000, and there is every reason to believe that company will show substantial profits in 1923.

Balance, sur. or def\_def\$390,238 df\$2.853,702 sur\$401,724 def\$160,687 Profit and loss surplus\_\_ \$8.804 d\$399,042 \$1,959,343 \$1,557,619

a Loss for the year, after writing down inventory losses of \$283,018 in 1922. b Net profits after deducting all charges and expenses of operations and providing for income and excess profits taxes. C Net Income for 1919 very small because of strike in Porto Rico. d After adding capital adjustment effected through partial re-appraisement of good-will, brands, &c. The dividends above include scrip payments as follows: 1921, 3%: 1920, 12%; 1919, 6%; 1918, 9%.—V. 115, p. 434.

Prairie Pipe Line Co.—Shipments.—
Shipments of crude oil in December amounted to 5,170,890 barrels, against 5,573,757 barrels in November, and 5,868,017 barrels in October. Runs from wells in December amounted to 4,340,000 bbls., compared with 4,170,000 bbls. in November.—V. 116, p. 305.

Laws of N. Y. at \$5 per share.

Note.—(a) Subject to certain provisions in the company's charter, the 1st & 2d Pref. stocks are redeemable at \$115 and \$100 per share, respectively, and are each entitled annually to cumulative dividends of \$7 per share. Such dividends have not been paid for 1921 and 1922. (b) No item of good-will has been taken into consideration, although the good-will, trademarks and copyrights owned by the corporation are of great value.

The usual comparative income account was published in V. 116, p. 730.

Remington Typewriter Co.—Subsidiary Co. Stock.—
The Remington Accounting Machine Corp., a subsidiary, has filed a certificate decreasing its authorized Capital stock from \$2,000,000 to \$2,000—V. 116, p. 730.

Riverside Portland Cement Co.—Stock Dividend, &c.—
This company, formerly the Southern California Cement Co., has declared a 20% stock dividend on the authorized and outstanding \$5,000,000 capital stock, par \$100. The stockholders on Jan. 25 last increased the capital stock by \$1,000,000.
The directors also declared the regular monthly dividend of 50 cents a share, payable March 1 to holders of record Feb. 25. The new stock will also participate in this distribution.

Savannah Sugar Refining Co.—Clears Up Back Dividends—Stock Increased.—
At the adjourned special meeting of the stockholders, held Feb. 23, authority was given to the directors to declare a dividend of 25 2-3% on the Preferred stock, payable May 1 to holders of record March 15. This will clear up all back dividends on the issue.

The stockholders have ratified an increase in the authorized capital stock from 27,500 shares of Preferred, par \$160\$, to 37,560 shares, and from 49,500 shares of no par value Common to 57,500 shares, also of no par value. Of the no par value Common 30,000 shares will be issued only in exchange for conversion in the ratio of four-fifths of a share of Common for one share of Preferred.—V. 116, p. 421.

Skelly Oil Co.—Capital Increased and Par Value Changed. The stockholders on Feb. 20 increased the authorized capital stock from \$20,000,000 to \$35,000,000 and changed the par value of the shares from \$10 to \$25.—V. 116, p. 731, 306.

\$10 to \$25.—V. 116, p. 731, 306.

Southern California Edison Co.—To Issue Bonds.—
The California RR. Commission has authorized the company to issue
\$10,000,000 General Mortgage 5% bonds, the proceeds to be used to pay
for new construction and development work to be carried on during 1923
at a total cost of \$26,000,000. The budget of expenditures for the current
year provides for the completion of new water power plants of 125,000 h. p.
capacity, as well as transmission line construction and extensions to all
distributing systems throughout Southern California and the San Joaquin
Valley.

The company's construction program calls for a total expenditure during
this year and the next succeeding five years of \$137,000,000 on account of
which \$23,024,000 is already spent.—V. 116, p. 626, 188.

Southern States Oil Co.—10% Stock Dividend.—
The company has declared its regular monthly cash dividend of 1%, payable March 20 to holders of record Feb. 28, and a 10% stock allotment for the current quarter, based on acquisition and development of additional producing properties, to be delivered on April 20 to stockholders of record March 31. On Jan. 20 last, the company made a stock distribution of 8%.—V. 116, p. 626, 526.

Southwestern Bell Telep. Co.—Acquisitions Approved. The I.-S. C. Commission has authorized the company to acquire the properties of the Kinloch Long Distance Telephone Co. of Missouri, the Kinloch Telephone Co. (V. 114, p. 1069), the Suburban Telephone Co., the Sedalia Home Telephone Co. and the Kinloch Building Co.—V. 116, p. 526.

Standard Oil Co.., N. J.—Unfair Competition Charged.—
Because of the acquisition of a controlling interest in the Humble Oil & Refining Co., the Standard Oil Co. of New Jersey and the Standard Oil Co. of Louisiana have been cited by the Federal Trade Commission for alleged violation of the Clayton Anti-Trust Act.—V. 116, p. 731, 422.

Standard Sanitary Mfg. Co.—Annual Report.—
The company reports total seles in 1922 of \$55,200.647. Net earnings ter dividends of 7% on the Preferred stock were \$7,010,446.—V. 116, 520.

Star Motors, Inc.—Production.—
During January the company built and marketed 9.160 cars. In February 11,000 cars will be built and marketed, and in March, according to officials of the company, the production is expected to exceed 13.000 cars.—V. 115. p. 878.

Steel & Tube Co. of America.—Injunction Against Sale.
On the application of the Allied Chemical & Dye Corp., the Court of
Chancery at Wilmington, Del., issued a temporary restraining order
restraining the company from disposing of its property to the Youngstown
Sheet & Tube Co. The plaintiff company, it is said, owns approximately
16% of the stock of the Steel & Tube Co.—V. 116, p. 526, 422.

Stewart-Warner Speedometer Corp.-Report.

Pres. C. B. Smith says in brief: "Production demands at present time are nexcess of the largest month in 1922, which was June, and that, furthermore, was the largest month in the history of the business. Cash pstion is exceedingly good. Turner no bonds, briefo and no debt other than current bills. Present cash balance suid take care of the \$6 div. rate for entire year and leave a hance working capital. This could be done without touching the proffer be earned for 1923. The earnings for 1922 amount to \$12 63 per out tanding share of stock. Taking into consideration the dividend just declared at the rate of \$6 it will mean a total dividend of \$5 per share out of the earnings of 1922, leaving \$7.63 per share.

per share.
"Present indications promise that sales for 1923 will greatly exceed
1922, by far the biggest year in the history of the corporation."
The usual comparative income account was published in V. 116, p. 731.

Sulphur Export Corporation.—Capital Increase.—
The company has filed notice with the Secretary of State of Delaware of an increase in capital stock from \$100,000 to \$500,000. The purpose of this increase, it is said, is to facilitate negotiations which are under way between the company and the Italian Government with respect to the exportation of sulphur.—V. 116, p. 85.

Superior & Boston Copper Co.—Shipments.—
During the quarter ended Dec. 31 1922 the company shipped 5,115 dry
tons of ore that averaged 3.39% copper and 8.71 oz. silver per ton and
contained 346,821 lbs. of copper and 44,579 oz. of sliver. The company
received from the smelter in payment of the above metals \$56,935, which
represents an average return of \$11 13 per ton. Compare V. 116, p. 422.

United Cigar Stores Co. of America.—Lease.—
The company has leased the southeast corner of Wilson and Clifton Aves.,
Chicago, Ill., from Carter H. Harrison, Wm. Preston Harrison and Heaton
Owsley, trustees, for 30 years for a term rental of \$465,000.— V.116, p.
731, 513.

United Engineering & Foundry Co.—To Decrease Amount of Authorized Preferred and Common Stock.—
The stockholders will vote April 24 on decreasing the authorized Common stock from \$15,000,000 to \$7,500,000, par \$100, and the Preferred stock from \$2,500,000 to \$1,800,000, par \$100.—V. 116. p. 422.

United States Express Co.—Liquidation Dividend.—
A liquidation dividend of \$5 per share has been declared on the 100.000 outstanding shares, payable Mar. 28 to holders of record Mar. 3. This brings the total distributions in liquidation paid since Nov. 1915 up to date to \$89 50 a share (par \$100). The last payment (\$30 a share) was made May 3 1920.—V. 110, p. 1533.

United States Steel Corp.—Schoen Steel Bonds.—
Thirty-seven (\$37,000) 1st Mtgc. 5% gold bonds, due March 1 1926, of the Schoen Steel Wheel Co., have been called for redemption March 1 at par and int., at the Girard Trust Co., trustee, Philadelphia, Pa.—V. 116, p. 732.

Bonds.— \$1.500,000 \$1.500,000
The remaining \$500,000 bonds can be issued against 66 2-3% of cost of

Common stock. \$1,500,000 \$1,500,000
Bonds. 1,500,000 1,000,000
The remaining \$500,000 bonds can be issued against 66 2-3% of cost of additions to property and plant, but only if annual net earnings are at least 3 times the amount of the annual interest charge on the \$1,000,000 of bonds now being issued.

Sinking Fund.—Annual sinking fund commencing Feb. 1 1926 of 3% of the amount of bonds issued will retire approximately 80% of these bonds by maturity. Bonds will be purchased in open market, if obtainable, at or below call prices; if not they can be called on any int. date on 30 days; notice at the following prices: 105 and int. from 1923 to 1927 incl.; 104 and int. from 1928 to 1932 incl.; 103 and int. from 1933 to 1937 incl.; 102 and int. from 1938 to maturity.

Company.—Controlled by Sir W. G. Armstrong, Whitworth & Co., Ltd., of England. Latter company also owns Charles Walmsley & Co., Ltd., of England. Latter company will manufacture this machinery in Canada under the rights and patents of the English company, with an initial capacity valued at over \$2.000,000.

Assets.—Total net tangible assets (fixed and current) available as security for this bond issue will be over \$2,100,000.

Purpose.—Proceeds will be used for additions to the property and plant and additional working capital.

Earnings.—On a turnover of only \$500,000 (less than one-quarter of the plant's annual capacity) it is estimated that net profits will be more than sufficient to pay bond interest.

The company has declared two dividends of 2% each on Preferred stock, both payable Mar. 1 to stock of record Feb. 15.—V. 115, p. 1219.

Elder Steel Steamship Co., Inc.—Reorg. Plan.—

The protective committee for the \$1,935,000 outstanding 1st Mtge. serial 7% gold bonds. (Edgar E. Caffal, Chairman), has adopted a plan of reorganization. Under the plan holders of certificates of deposit (and undeposited bondholders who deposit their bonds) have until March 17 to subscribe to the new Mortgage Income bonds (as outlined below). Subscriptions to the new bonds (and deposits) are to be made at the Guaranty Trust Co.. 140 Broadway. New York, depositary.

Digest of Statement of Protective Committee, Feb. 10 1923.

Vessels Now Idle.—The steamships West Catanace (8,453 d. w. t.) and Deerfield (9,725 d. w. t.), upon which the bonds are secured, having discharged their cargoes, are now at New York and owing to the lack of working capital, it is impracticable for the receivers to continue their further operation. They must, therefore, either be sold or sufficient funds raised to purchase them for the bondholders, so that they may be leased, as intended under the plan.

Brief History.—On June 21 1922 receivers were appointed. On Aug. 18 1922, the bondholders were advised that about 190,000 maritime liens existed against the SS. Deerfield and West Catanace, and the committee authorized the Chairman to borrow not exceeding \$138,000 with which to acquire such liens as might be enforced against the vessels.

On July 21 1922 the Guaranty Trust Co.. New York, trustee, instituted proceedings to foreclose the mortgage. Maritime liens so far acquired by the committee amount to \$124,358. In order to enable the two vessels

to complete their voyages, so as to comply with the court's order to tie up both vessels, it was necessary for the committee to advance further funds to the receivers to the extent of \$25,474, which were secured by receiver's certificates (since paid off) and an assignment of the freights of the SS. Deerfield and West Catanace. This made a total of \$149,832 which the committee obtained from Halsey, Stuart & Co., Inc., and William R. Compton Co. and advanced to the receivers. In addition the committee has obtained from Halsey, Stuart & Co., Inc., and William R. Compton Co. \$5,000 to provide for certain pressing claims, salaries, &c. Receivers' certificates have been issued to cover this amount. In addition to the above \$149,832\$, there are claims approximating \$110,000 of which part are concededly maritime liens and part are in duspute. At the time of the appointment of the receivers, company was also operating the steamship Neponset (of 9,725 d. w. t.) under a charter population of the company of the company was given the option to purchase this vessel to \$1,007 (which company was given the option to purchase this vessel to \$1,007 (which company was given the option Nov. 29 1920 no further payment has been made. Wevership. Since Nov. 29 1920 no further payment has been made. Wevership. Since retained possession of the vessel.

On Dec. 14 1922 the U. S. Government filed a proof of claim with the receivers claiming a balance of \$1,276,637 due from company under the receivers claiming a balance of 15 1276,637 due from company under the receivers claiming a balance of Il furnished the steamships Deerfield and West Catanace, for which provision has been made in the plan No provision is made in the plan for the balance of the claim of the U. S. Government, as counsel for the committee are of the opinion that this balance is simply an unsecured claim and not a lien against the vessels.

A discontinuate of the west Catanace would be rought the average price of between \$15 and \$20 per ton. The hole to be rought the aver

proceeds. In the event of such liquidation, the proceeds of sale after deducting the expenses of sale, will be used to satisfy the maritime liens, preferred claims existing against the vessels, administration expenses of distributed pro rata among all of the holders of the outstanding 1st Mtge. bonds.

The committee has adopted the following plan which is recommends been underwritten, and the consummation of the plan is deduction the action of the bondholders. The cash requirements under the law have now the action of the bondholders in subscribing funds necessary to declare the plan operative, otherwise the boats will have to be sold. The committee is unreservedly of the opinion that the bondholders in providing funds necessary to the plan operative, otherwise the bondholders in providing farmagnements for such purchase can be made. The acquisition of the Neponset would increase the deadweight tonnage to 27,903 tons which, upon the basis of the above mentioned reproduction costs, would have a value of \$2,500,000, as compared with the maximum amount of bonds to be outsiden. Plan of Reorganization Dated Feb. 10 1923.

Sale, &c. of Vessels—The two mortaged vessels will be offered for sale and if sufficient funds are subscribed, will be bought in on behalf of the committee and transferred to a new company. As soon as the recryanization has been completed the new company will endeavor to enter into a contract with a responsible company to operate these vessels.

Plan of advances made, including acquisition or payment of maritime liens, &c., \$235,500, (b) pay expenses of receivership, foreclosure certain taxes, expenses of committee, &c., \$44,500, (d) reserve for working capital, necessary in the event the tree boats are not leased, \$75,000, (e) reserve for purchase of steamship Neponset, \$200,000. (f) reserve for expenses and contingencies, \$80,000.

(g) reserve for purchase of steamship Neponset, \$200,000. (f) reserve for expenses and contingencies, \$80,000.

(g) open processes of a subscriber of the Neponset of t

## KELLY-SPRINGFIELD TIRE CO.

ANNUAL REPORT AS OF DECEMBER 31, 1922.

CURRENT ASSETS:

New York, February 17 1923.

To the Stockholders of

Kelly-Springfield Tire Company:

Your Directors submit herewith Statement of Income and Profit of your Company for the fiscal year ending December 31, 1922, together with the Balance Sheet of that date.

The business of the Company for the year 1922 was the largest in its history. Both the Akron and Cumberland Plants were operated at full schedule.

During the year, various real estate holdings no longer required for the Company's business were sold upon satisfactory terms.

For the Directors,

ALFRED B. JONES,

President.

#### COLUMBIA GAS & ELECTRIC CO. AND ITS SUBSIDIARY COMPANIES

#### ANNUAL REPORT 1922.

To the Stockholders of Columbia Gas and Electric Company: Your Directors are pleased to present herewith the Annual Report covering the operations of your Company for the year 1922. The Statement of Earnings and Balance Sheets and the Statistical Record are appended. The field of operations is well illustrated by the enclosed map [pamphlet report].

#### OPERATED PROPERTIES.

Columbia Gas and Electric Company owns and operates natural gas fields in West Virginia and operates a vast system producing and distributing electricity and natural gas, producing gasoline and oil, and operating a street railway.

The Companies in this system, which are controlled by stock ownership or lease, are the following:

The Union Gas and Electric Company, which operates under lease the property of The Cincinnati Gas and Electric Company, and does the entire gas and electric business in Cincinnati, Ohio, and more than twenty adjacent communities.

The Union Light, Heat and Power Company, which does the entire gas and electric business in Covington, Newport, and adjacent municipalities in northern Kentucky in the

The Cincinnati, Newport and Covington Railway Company, which does the entire street railway business in Covington, Newport and adjacent municipalities in northern

Mgton, Newport and adjacent municipalities in northern Kentucky, with entrance into Cincinnati and a terminal in the new Dixie Terminal Building there.

Cincinnati Gas Transportation Company, which owns a pipe line system of approximately 183 miles in length connecting the natural gas fields in West Virginia and Kentucky with Cincinnati and neighboring communities in Ohio

and Kentucky.

Maytown Natural Gas Company, which owns leasehold estates for the production of oil and natural gas on lands in Kentucky.

Kentucky.

United Fuel Gas Company (Columbia owns 51% of the stock), which owns and operates extensive gas fields in West Virginia and Kentucky, distributes natural gas at retail in Charleston, Huntington and numerous other municipalities in West Virginia, and sells natural gas at wholesale to many large distributing companies serving important portions of the States of West Virginia, Pennsylvania, Ohio and Kentucky tucky.

Virginian Gasoline and Oil Company (Columbia owns 51% of the stock), which owns and operates extensive oil fields in West Virginia and Kentucky, and which is also a large producer of gasoline extracted from the natural gas produced by the other companies in this system.

The Gas and Electric Appliance Company, which conducts a merchandising business, selling all kinds of appliances for the use of gas and electricity, in Cincinnati and the adjacent

communities served by the above companies.

Loveland Light and Water Company, which does all the electric and water business in the City of Loveland, Ohio.

Wood Coal Company (Columbia owns 50% of the stock and has a contract for the output of the mine on favorable terms), which owns and operates a mine in West Virginia, producing high grade steaming coal. The capacity of this mine is sufficient to provide all the coal necessary for the

operation of the electric generating stations in Cincinnati.

The earnings from these five last named companies are The earnings from these five last named companies are included in the Consolidated Earnings Statement appended to this report only to the extent of cash dividends received, which are included in the item "Other Income." The decrease of \$831.992.37 in this item as compared with 1921, is more than accounted for by the reduction of \$918,000.00 in the dividends received from United Fuel Gas Company. The reduction of the rate paid was deemed advisable on account of the reduced prices received for gasoline and oil.

This group of accounts is including the leased presention.

This group of companies (including the leased properties This group of companies (including the leased properties) had outstanding in the hands of the public at December 31 1922, \$165,730,368 33 par value of securities, consisting of \$54,316,568 33 Bonds and Debentures, \$46,227,600 00 Preferred and Common Stocks entitled to dividends at fixed rates specified in the various leases, and \$65,186,200 00 Common Stock. The market value of these securities, based on quotations at that date, amounted to more than \$167,200,-000.00 \* 000 00.\*

The total Gross Earnings of all the above companies, constituting the system operated by Columbia Gas and Electric Company, for the year 1922 amounted to \$35,322,086 75. Net Earnings for the above period. after eliminating inter-company transactions, were \$16,427,445 43.

#### **OPERATIONS**

#### Electric-

The growth and development of the electrical operations has fully realized the most sanguine expectations and is very pleasing to report. The demand for energy resulted in a

\* Taking at less than 75% of their book value the minority stocks owned by Ohio Fuel Supply Co. and for which there is no public quotation.

peak load on the system of 100,000 k.w. and a maximum daily output of 1,348,555 k.w.h., both occurring during December. This maximum load and daily output represent increases of 33.3% and 26.9%, respectively, over 1921, and were the largest in the history of the Company up to the end of 1922, but already in 1923 the maximum daily output has again increased by over 4,500 k.w.h.

The campaign for new electrical consumers, particularly in the residential class, has resulted in signing contracts with 20,720 new consumers during the year. The Company has entered into new three-year street lighting contracts with the City of Cincinnati and the Village of Elmwood Place and a ten-year street lighting contract with the City of Norwood.

of Norwood.

The campaign for new residential consumers will be continued and, through intensive development of the territory already covered by the Company's distribution system, should result in substantially increased demand. The industrial load is growing both from the addition of new customers and increasing demand from those already being served by the Company. The Company's engineers have been engaged for several months in preparing plans to provide the additional generating capacity which will be required by this

continuing rapid growth.

Taking all these conditions into consideration, the prospects for continued growth and increasing earnings in the electrical business are very encouraging.

The gas business in the Cincinnati district continues satisfactory, both in volume of gas sold and earnings derived therefrom. The rates, however, now being obtained by United Fuel Gas Company in the territory supplied directly by it, are much lower than those commonly charged whereever natural gas is in use, and a decided increase in these ever natural gas is in use, and a decided increase in these rates, corresponding more nearly with the value of the service, may naturally be expected. The litigation referred to in the last Annual Report, following the passage of the increased gas rate ordinance in Cincinnati, effective for three years from January 1 1922, has been finally determined and every claim of the Company fully sustained.

The quantity of gasoline produced has increased substan-ally. During the year careful examination and experimentation has been pursued with a new patented process for the extraction of gasoline from natural gas. As a result of this study, your Company has purchased the right to use the new process, which will supplement its existing gasoline plants and is expected to materially increase the volume of gasoline recovered.

The oil production was practically the same as in 1921. The policy of the Company has been to restrict its oil operations largely to such production as has resulted from drilling for gas, and to defer active work in its extensive oil fields until the price of oil makes such development more attractive.

#### Appliances

During the year the subsidiary companies in the Cincinnati district entered the retail field for both gas and electric nati district entered the retail field for both gas and electric appliances through the purchase of The Gas and Electric Appliance Company, which operates several attractive and profitable "Electric Shops" in Cincinnati, Covington and Newport. Three months' operation of this department of the business has clearly demonstrated that the investment will prove profitable and will tend to increase the demands for the Company's sayrice. for the Company's service.

Street Railway The Street Railway—
The Street Railway has carried in 1922 a larger number of passengers than ever before in its history, and through economic operation, shows an increase in Net Earnings greater than in Gross. It is most gratifying to report the improved results and prospects of this branch of the Company's activities.

#### FINANCES.

During the year \$166,500 Columbia Gas and Electric Company First Mortgage 5% Bonds were issued to cover construction expenditures, but as these expenditures were made out of current funds, the bonds were not sold, but were placed in the Company's Treasury, as has been the custom in the past several years. The Sinking Fund, required by this mortgage, redeemed and canceled \$100,000 principal amount of the Bonds.

\$245,000 First Mortgage 5% Bonds of the Cincinnati Gas Transportation Company were redeemed and canceled through sinking fund payments made by Columbia Gas and Electric Company in accordance with the provisions of the lease by which it operates that property. Out of the original issue of \$5,000,000 of these Bonds, there were left outstanding at December 31 1922 \$2,031,000.

The Cincinnati Gas and Electric Company sold \$6,000,000 Prior Lien and Refunding Mortgage Forty-year Sinking During the year \$166,500 Columbia Gas and Electric Com-

Fund Gold Bonds, Series B 5½%, the proceeds of which were applied to the payment of \$2,400,000 6% Three-year Secured Gold Notes and \$2,000,000 7% Three-year Gold Notes of that Company, called for redemption July 1 and also provided sufficient cash to meet requirements for additional conditions of the property of the conditions of the conditio tions and extensions to the property of that Company throughout the year.

The \$6,000,000 Convertible 8% Gold Notes of The Cincinnati Gas and Electric Company were also called for redempnati Gas and Electric Company were also called for redemption on August 1. In accordance with the provisions of the Indenture und r which they were issued, \$5,556,000 of these Notes were converted into Prior Lien and Refunding Mortgage Forty-year Sinking Fund Gold Bonds, Series A 7%, of which there are now outstanding \$5,592,500. The balance of the Notes were raid in cash upon presentation.

the Notes were paid in cash upon presentation.

The sinking fund provided under the First and Refunding Mortgage of The Cincinnati Gas and Electric Company acquired during the year and holds alive \$147,000 5% Bonds

quired during the year and holds alive \$147,000 5% Bonds secured thereby.
\$39,100 First Mortgage 7% Bonds, Series A, of The Union Light, Heat and Power Company were retired and canceled through operation of the sinking fund for the year.
On July 1 \$2,850,000 First Consolidated Mortgage 5% Gold Bonds and \$859,000 Second Consolidated Mortgage 5% Gold Bonds of The Cincinnati, Newport and Covington Railway Company (Ohio corporation) matured and were paid from the proceeds of the sale of \$4,000,000 Series A 6% Bonds out of an authorized issue of \$7,500,000 new First Mortgage Bonds of The Cincinnati, Newport and Covington Railway Company (Kentucky corporation), successor to South Covington and Cincinnati Street Railway Company by change of name. The new Company has acquired and merged the properties of the Ohio corporation of the same name and of the Licking River Bridge Company, Cincinnati, Covington and Erlanger Railway Company, and Cincinnati, Covington and Rosedale Railway Company. The proceeds of the sale of these Bonds also provided sufficient cash to cover capital expenditures made on this property during the year.

expenditures made on this property during the year.
\$5,400 First Mortgage 5% Sinking Fund Bonds of Licking
River Bridge Company were acquired during the year
through operation of the sinking fund and are held alive in

through operation of the sinking fund and are held alive in the sinking fund of that mortgage.

As of May 1, the properties of United Fuel Gas Company were separated and the gasoline, oil and carbon black properties formerly owned by that Company were transferred to a new Company, the Virginian Gasoline and Oil Company, in exchange for the issuance by the latter of \$890,200 of its capital stock (total issued) and the assumption by it of a proportionate amount, \$1,717,000 of the First Mortgage 6% Bonds of United Fuel Gas Company, the transfer of the property having been made subject to the lien of that mortgage. The stock so received by United Fuel Gas Company was then distributed to Columbia Gas and Electric Company and Ohio Fuel Supply Company, the owners of United Fuel and Ohio Fuel Supply Company, the owners of United Fuel Gas Company.

Gas Company.

\$122,000 First Mortgage 6% Bonds of United Fuel Gas Company were issued to cover capital expenditures and are now held in the Treasury of that Company. \$577,000 Bonds secured by the same mortgage, from the Company's Treasury, and \$17,000 purchased by the Trustee, were acquired by and are now held alive in the sinking fund. In anticipation of the 1923 sinking fund payment, the Company has purchased in the market and holds in its Treasury \$222,000 additional of these Bonds. In December the Directors of the United Fuel Gas Company authorized the calling of \$1,906,500 of that Company's 7½% Ten-year Secured Gold Bonds for redemption on February 15 1923, the other \$93,500 of that issue having been retired and canceled by operation of the sinking fund. Part of the necessary funds have been paid out of current cash in the Company's Treasury and the balance is expected to be paid out of future earnings. Upon the redemption of these Secured Gold Bonds there are released to the Company's Treasury the \$3,000,000 First Mortgag 6% Bonds pledged as security therefor, making the total of those Bonds in the Treasury \$4,657,000.

During the year the Maytown Natural Gas Company was incorporated to take over the natural gas and oil leases of the Columbia Gas and Electric Company situated in the State of Kentucky in exchange for all the capital stock of the Maytown Natural Gas Company.

These financial operations have resulted in the retirement of \$17,461,500 bonds. Including the provision of the additional capital needed during the year, only \$15,592,500 new bonds were issued, so that there has been a net reduction of \$1,869,000 in the total funded debt outstanding.

The Earnings Statement, as reported, includes in expenses charged for the year provisions for all State and Federal taxes.

All of the properties have been maintained in first class \$122,000 First Mortgage 6% Bonds of United Fuel Gas

All of the properties have been maintained in first class operating condition and operating expenses include provision for the depreciation of the properties of The Cincinnati Gas and Electric Company and the subsidiaries of The Cincinnati, Newport and Covington Light and Traction Company; in addition to which there has been set aside from surplus of Columbia Gas and Electric Company and The Union Gas and Electric Company, for depreciation for the year, the sum of \$848,020 25, and from the surplus of United Fuel Gas Company and Virginian Gasoline and Oil Company for depreciation and depletion of their properties during the All of the properties have been maintained in first class for depreciation and depletion of their properties during the year, an amount in excess of \$3,000,000.

During the year cash dividends have been paid quarterly to the stockholders of Columbia Gas and Electric Company at the rate of 6% per annum.

#### CAPITAL EXPENDITURES.

Capital Expenditures for the extension and improvement of properties of this system amounted to \$3,426,610 87 in 1922, of which \$1,896,134 37 was spent on the properties of The Cincinnati Gas and Electric Company, \$251,680 62 was spent on the distributing properties in Kentucky, and \$1,278,795 88 was spent on the producing properties in West Virginia and Verticles. ginia and Kentucky.

#### GENERAL.

The Board of Directors desire to express their sincere appreciation of the conduct and loyalty of the officers and employees of the Company and its subsidiaries, which have resulted in the extremely satisfactory results as above reported.

The Directors look forward to 1923 with great confidence that the present growth of the Company's business and earnings will continue satisfactory.

By order of the Board of Directors.

P. G. GOSSLER, President.

Charleston, W. Va., February 15 1923.

West Missouri Power Co.—Bonds Offered.—Arthur Perry & Co., Boston; Guaranty Trust Co., Kansas City, and Powell, Garard & Co., Chicago, are offering at 98½ and int. to yield about 6.13%, \$1,350,000 1st Mtge. 6% 20-Year gold bonds, series of January 1923.

Dated Jan. 1 1923. Due Jan. 1 1943. Interest payable J. & J. in Chicago or Kansas City without deduction of normal Federal income tax up to 2%. Pennsylvania 4 mills tax and Massachusetts income tax up to 6% refunded. Guaranty Trust Co., Kansas City, trustee. Denom. \$100. \$500 and \$1,000 (c\*). Redeemable all or part on any interest date at 105 and interest less ½ of 1% for each full year expired subsequent to Jan. 1 1933.

Issuance.—Authoirzed by Missouri P. S. Commission.

Data from Letter of Pres. L. K. Green, Pleasant Hill, Mo., Feb. 16.

Company.—Engaged in manufacture, transmission, and distribution of electric power in the territory lying to the southeast of Kansas City. Furnishes electric light and power in 46 communities, and in addition water and gas only in the city of Olinton, all without competition. Total population in excess of 43,000. Territory served extends into 8 counties of Missouri. Company has 2 modern steam generating stations located at Pleasant Hill and Olinton, and 2 reserve stations at Warrensburg and El Dorado Springs. Total generating capacity of system, about 5,000 kilowatts. Transmission lines total 482 miles.

Western States Gas & Electric Co.—To Issue Stock.— The California RR. Commission has authorized the company to issue \$300,000 of 7% Cumul. Pref. stock, the proceeds to be used to pay for extensions, additions and betterments to its property and plants during 1002

1923.
The Commission has also authorized the company to withdraw \$318.848 of the proceeds obtained from the sale of the Series "A" 6% notes, authorized Oct. 18 1922 (V. 115, p. 1954) and to use \$97,000 of such proceeds to finance in part construction expenditures made prior to Nov. 30 1922, and to use \$221.848 to reimburse its treasury or to pay current indebtedness since Dec. 1 1919.—V. 116, p. 86, 307.

Westinghouse Electric & Mfg. Co.—Bookings, &c.—
It is stated that bookings in the first half of this month were 25% ahead of the corresponding period of January last.

The company has received an order amounting to approximately \$160,000 from the Philadelphia Electric Co. for 20,000 watt-hour meters.—V. 116, p. 732.

Wilson & Co., Inc.—Not Considering Merger.—
President Thomas E. Wilson has emphatically denied that this company was considering a merger of any nature with other Chicago packers. Mr. Wilson said: "There is no basis of fact in the rumor that Wilsons are in negotiation with another firm looking to a merger. Nothing of this nature is being considered now and nothing is in contemplation, nor is company considering a sale of its business to any other packing firm. I want to make this statement just as definite as it can be made, so as to set at rest for all times rumors that there may be changes in the business of the company."

#### CURRENT NOTICES.

—Answers to the many problems which confront individuals nad corporations in preparing returns for the State income tax are given in a booklet, "New York State Income Tax Laws," just issued by the Irving Bank-Columbia Trust Co. This is the first publication issued since the Irving Columbia consolidation. The book is a companion to the 1923 edition of "Practical Questions and Answers on the Federal Income Tax Laws," recently issued by the Irving Bank. It has been prepared by specialists in tax legislation and covers in question-and-answer form a wide range of typical cases which arise in the computation of income taxes to the State. It is a book of 64 pages, divided into four parts. The first two parts are devoted to problems arising under the Income Tax Law affecting individuals, and unusual points raised by the State Legislature in 1922. The third and fourth sections, respectively, contain the text of the Individual Income Tax Law and the Corporation Income Tax Law.

—The Special Libraries Association, which is a national organization of

Law and the Corporation Income Tax Law.

—The Special Libraries Association, which is a national organization of all business and special librarians in the country, will hold its 14th annual convention in Atlantic City Tuesday, May 22, to Friday, May 25, at the Hotel Chelsea. On Monday evening, May 21, the New York Special Libraries Association will hold its last monthly meeting of the year, to which all delegates to the convention are invited. On Tuesday all the special libraries of New York City will be open to visitors. Saturday, May 26, following the convention at Atlantic City, the Special Libraries Council of Philadelphia and the District of Columbia Library Association will have local meetings to which all the librarians are cordially invited; thus an opportunity is afforded of visiting the special libraries in these two cities. All librarians, special and public, are cordially invited, we are informed. Business men and research workers and statisticians are also urged to meet at the Special Libraries Association Convention.

#### COMMERCIAL EPITOME

[The introductory remarks usually appearing here will be found to-day in an earlier part of the paper, immediately following the editorial matter, in a new department headed "INDICATIONS OF BUSINESS ACTIVITY."]

COFFEE on the spot quiet but steady; No. 7 Rio, 131/4c.; No. 4 Santos, 153/4@16c.; fair to good Cucuta, 163/4@17c. Futures declined this week in the end, though at one time May was higher. Trading has not been very interesting of late. The South has sold. Some scattered liquidation has had some effect. Sugar has rather monopolized attention at the Exchange. On the 19th inst. Brazil markets were practically unchanged with spot demand small. Trading in futures here was trifling at a drop of half a dozen points. There was a lack of interest. That told more than any news affecting the market. On the 20th inst. liquidation by longs in a narrow market caused a drop of some 20 points. Trade interests then bought May and July. That checked the decline and caused a slight rally. On the 21st the market was uneventful. To-day prices fell and they ended 13 to 33 points lower for the week, the latter on March. Cables were lower and 40 notices were issued to-day. A Coffee Exchange seat sold at \$5,900.

two years ago. Centrals grinding totaled 178, against 170 last week, 157 in the same week last year and 184 two years ago.

Earl D. Babst, President of the American Sugar Refining Co., on his return from Cuba on Feb. 20, declared that the sugar supply in the United States, according to the company's weekly canvass, was ample. "We have on our books practically a 30 days' business for our customers," he is quoted as saying, "and have raw sugar to operate all of our refineries at capacity for that period. The one thing, however, that we, as refiners, cannot provide against is a stampede, either in the trade or among consumers. Such unthinking action only plays into the hands of speculators and the public puts up sugar prices on itself unnecessarily. These facts are given to the public in an effort to forestall even a start of conditions which led to the over-buying of 1920. The present speculation on the New York Sugar Exchange is greatly to be deprecated. Those who foster it and those who follow it are introducing a gambling element into a food necessity which in my judgment should be left entirely to the law of supply and demand."

On Feb. 19 big buying orders for March and May caused a rise of 18 to 21 points. July and September advanced only 7 points. Later in the day considerable profit-taking brought about a decline of 20 to 22 points, and the market closed under pressure of stop orders. Some think, however, that prices later in the year will move upward.

The Louisiana "Planter" said: "With the exception of The Louisiana "Planter" said: "With the exception of local showers during the early part, the week has been favorable for placing the land in condition. While the latter part of the week has been cool, no frosts have occurred in the sugar district. Work is now progressing throughout the cane belt. A continuation of fair weather will facilitate these operations to a marked extent. Good progress is being made in the development of the crop, with conditions remaining favorable and the outlook promising. With the prices of sugar continuing good, planters are extending every remaining favorable and the outlook promising. With the prices of sugar continuing good, planters are extending every effort to take advantage of the weather conditions in developing the crop." Batavia cabled a noteworthy increase in exports of Java during January over December. The total was 164,000 tons, of which 18,000 tons were shipped direct to the United States or Europe, and 11,000 to Suez or Port Said for orders. The total exports from the beginning of the crop year April 1 1922 to Jan. 31 1923, were 1,360,000 tons, against 1,439,886 tons for the same time in 1921-22, and 1,272,421 tons in 1920-21.

The increased consumption of sugar by American families.

the crop year April 1 1922 to Jan. 31 1923, were 1,360,000 tons, against 1,439,886 tons for the same time in 1921-22, and 1,272,421 tons in 1920-21.

The increased consumption of sugar by American families, it is pointed out, is a factor in the recent advance in prices. The consumption has arisen since the war. The average per capita in the United States in 1922 was 101½ lbs. a year compared with 90 lbs. in 1921 and 87 lbs. in 1920. The American consumption in 1920 was 4,101,100 short tons; in 1921, 4,299,589 tons and in 1922, 4,988,343. The American exports of sugar in 1922 were double those of 1921 and 1920. In 1920 exports of refined sugar were only 461,943 tons, and in 1921 466,897 tons, but in 1922 they reached the imposing total of 920,374 tons. The American refiner, it would seem, is a match for foreign competitors. Much of this export trade was with Europe, Japan, China, South America, Australia, Africa and the island of the Atlantic and Pacific oceans. Compared with pre-war years the exports in 1922 make a striking showing. Prior to 1914 they averaged only about 50,000 tons. The inincrease since is nearly twenty fold. That is because such big producers formerly as Germany and Austria-Hungary are out of the running in the foreign trade. Before the war they used to sell their crop of beet sugar largely to England. Moreover the German and Austrian beet industry is still under a cloud, though Germany's yield this year will be larger. They have been raising little more than enough for their own consumption. It remains to be seen at what price, if the advance continues in the United States, the consumer will call a halt. The Department of Agriculture at Washington says that the production of sugar beets in Germany is placed at 11,869,000 short tons or an increase over 1921 of 3,100,000 tons. Lamborn & Co. estimate on the basis of the consumption of 1922, a statistical shortage in 1923 of 197,000 tons if the reserve stock is to be maintained. The price will be the key, they think, to the size of the supply. T

LARD firmer; prime Western 12@12.10c.; refined to Continent 13c.; South America 13.25c.; Brazil in kegs 14.25c. Futures advanced on the 17th inst. on buying of Eastern houses against sales of cottonseed oil. That offset a drop of 20 to 25c. in hogs. Besides Liverpool prices advanced and corn was up. Packers' sales were promptly taken. Exports of lard last week were 30,573,000 pounds against 22,988,000 in the same week last year; of bacon 19,364,000 pounds, against 12,748,000 last year. To-day futures advanced somewhat, and the ending for the week is 23 to 33 points higher.

RUBBER quiet and lower. Spot ribbed smoked sheets and first latex crepe were 35½c.; March, 35¾c.; April-June, 36½@36¾c.; July-December, 37¾@37½c. About the only buying interest being shown is for second and third quarter deliveres. Early in the week London was reported steady, but business there is described as only moderate. Early in the same some small sales were made of April-June delivery at 36¼c. Factories, it is said, paid 35½c. London on the 22d was 17½ for standard and weaker. Singapore, 18½d. prompt shipment. In London on the 20th inst. the market was quiet and slightly lower at 17¾d. spot plantation standard.

173/4d. spot plantation standard.

HIDES were steadier though in general not at all active, although the demand was reported somewhat better early in the week. Bogata were said to have sold at 22c. The range of quotations was 21 to 22c. Country hides showed little change. There was a better inquiry but no sales were reported. The River Plate reported 3,000 Bovril Matadero steers sold at 191/4c. c. & f. Some 33,000 frigorifico steers sold at 22c. to 231/2c. City packer hides were dull at 14 to 23c. Some 2,000 Salta Province hides in the River Plate section sold, it seems, at 26 3-16c. At Chicago country hides have been in good demand, though only where prices favored the buyer. Sales were reported there of Iowa all weights at 121/4c., selected, delivered Chicago. Also sales of Missouri extremes at 13c., selected, delivered Chicago. Some Texas fifty up current receipts were offered at 10c. flat f. o. b. shipping points. Shoe manufacturers said they had bought men's weight calf leather at 44c. per foot for top grade. Some tanners are still asking 45c. to 50c. per foot. Later frigorifico hides were more active and 9,000 cows sold at \$40 50, equal to 165/4c. c. & f., or a rise of 1/8c. In Chicago big packer hides were only fairly active. Smaller packers sold January slaughter heavy native steers, 60 lbs. or over, at 18c. or over, at 18c.

or over, at 18c.

OCEAN FREIGHTS were dull early in the week and rates were no more than steady with the supply of tonnage far exceeding the demand. Latterly there has been a somewhat better business in time charters.

Charters included linseed from River Plate, \$5.75 up-river, \$5.25 below the bar, to New York, March, sugar from Cuba to London, Liverpool or Greenock, 19s. 6d., March, from Cuba to London, Ds. 3d., first half March; pitch from Pensacola to United Kingdom, prompt, 17½c.; petroleum or products from California to Atlantic coast not north of Philadelphia, 80c. bbl., April; 6 to 8 months time charter. April delivery, 5s.; 3 months timer charter in West Indies trade, \$1.30, March delivery in Cuba; coal from Hampton Roads to west coast of Italy, prompt, \$3.10; 1, 110-ton steamer three months' time charter in West Indies trade, prompt delivery, at New York, \$1.35; 1,236-ton steamer, one round trip in West Indies trade, \$1.20 prompt; linseed from Santa Fe and Diamante to New York, \$5.25 (berth terms), prompt; linseed from Roario to New York, \$5.80, March 20th.

COAL prices have been steady during the week, but are now tending downward on soft coal, with better railroad transportation and warmer weather. Anthracite looks steady for the moment, but consumers, it is intimated, will soon begin to hold off for lower prices. There may be a price war. Various mines in the non-union groups are taking up the question of lowering wages to enable them to continue to produce coal at a profit. New York tidewater piers reported a total of 2,849 cars of coal on Wednesday, of all grades of bituminous. This was an increase of 38 cars over Tuesday's reported total, 308 over Monday and 440 over last Saturday. All piers were working. COAL prices have been steady during the week, but are

TOBACCO.—Of late there has been a fair business in some grades, though others find trade only moderately active. On the whole, there is considerable room for improvement. Yet with general business in this country rising, it is natural to suppose that tobacco is bound to participate in the increasing activity sooner or later. Meanwhile prices are in the main regarded as steady. The feeling in the trade is generally hopeful. After a prolonged period of inactivity, supplies in some cases are believed to be only moderate. And in a word better trade is looked for later on.

COPPER higher both here and in London. The present buying movement is said to be the largest since the war. Electrolytic quoted at 16 to 16½c. Some producers are holding at 16½c., while others refuse to quote at all. The American Brass Co. advanced most of its products on the 17th inst. ¼c. per lb. Sales were made early in the week at 16c. to 16½c. Germany was said to have bought 2,000,000 lbs. from American producers. Monday's sales were said to have reached 2,000,000 lbs. France, England, Italy and Scandinavia bought freely.

TIN advanced to new high levels in sympathy with higher markets for other metals. London has also been higher. Spot 43c. Futures are at a premium over spots of 1/8c., which is something new in the situation for some time past.

LEAD in the main is rather quiet but steady. Consumers are getting enough shipments for the time being to keep them out of the market. Spot New York 8.10@8.25c.; Eeat St. Louis, 8@8.15c. Receipts at East St. Louis for the week were 56,970 pigs against 54,600 in the previous week; since Jan. 1st they were 405,370 pigs against 537,320 last year. Shipments were 32,030 pigs against 23,370 the week before; shipments since Jan. 1st 199,300 pigs against 218,510 in the same period last year.

ZINC higher. April delivery meets with the most demand. There is also moderate activity in Feb. and Mar. deliveries. Spot New York 7.65@7.70c.; East St. Louis 7.30@7.35c. East St. Louis receipts for the week were 40,950 slabs against 30,600 in the previous week; since Jan. 1st 231,650 slabs against 333,660 last year. Shipments for the week were 29,400 slabs against 50,300 last week; since Jan. 1st 254,780 slabs against 630,430 last year.

ments for the week were 29,400 slabs against 50,300 last week; since Jan. 1st 254,780 slabs against 630,430 last year.

STEEL is in good demand and rising. And the mills are now picking their buyers. The demand from farm implement manufacturers is steadily rising. On bars, plates and shapes 2.25c. at Pittsburgh is the minimum. Smaller companies will not accept that price. They easily get higher quotations, especially when the buyer is in a hurry. The big companies are well sold up for four months ahead. In Chicago one concern quotes bars at 2.30c., shapes at 2.40c. and plates at 2.50c. for the second quarter. What is more, in two or three days it found itself oversold. That is eloquent testimony to the urgent demand at this time. Building is going on at a remarkable rate. Higher prices seem to impose no check upon it. The sales of fabricated steel are the highest for nearly a year past. Large sales of concrete bars are being made. New business in tubular goods is not wanted. A rise of \$3 a ton has taken place in track, spikes and bolts. Quotations are firmer for structural and boiler rivets. Shafting is up \$3 a ton among leading manufacturers. Prompt blue annealed sheets are \$2 to \$5 above the Pittsburgh quotation of 2.65c. A premium of \$3 to \$5 is demanded and obtained on prompt black and galvanized sheets. Eastern steel companies have bought 100,000 tons of foreign ore. The question is whether Lake producers will get that 50c. rise that has been predicted. British export prices have jumped very noticeably, owing to the widespread stoppage of production on the Continent. The steel output will reach the maximum next month. The production may exceed a rate of 45,000,000 tons per year. It is expected to decrease as labor shortage becomes more acute. decrease as labor shortage becomes more acute.

PIG IRON has been firm with a steadily rising demand. Eastern Pennsylvania iron is expected to advance this week \$1 from the recent basis of \$28. Trade is very active here in the East. Foreign iron is advancing steadily and there is some business being done, especially in New England. It is not the menace, however, to the American product that it was at one time, and sales are not large. There is a sharp demand for basic, malleable and foundry grades. Sales in the East of steel-making iron are said to have reached 45,000 tons of basic and 5,000 tons of low phosphorous, the latter to be imported from England. Foundry iron has also been active in the East and at Chicago. Buying of basic iron in Cleveland has been brisk. There has been a rise of \$1.50 in charcoal iron, 50c. to \$1 in basic in the Middle West, and \$1 on foundry and malleable at Pittsburgh. PIG IRON has been firm with a steadily rising demand

foundry and malleable at Pittsburgh.

WOOL has been rather quiet here, and recent declines in London and Australia have, of course, had a certain effect on sentiment, even if holders as a rule are described as firm. Trade here, however, has been slow for many weeks, much to the disappointement of holders, especially of late. In Boston, too, trade recently has been less active, though prices have been reported firm. The West has also seemed less active. In any case, American markets have recently shown less life and snap. Most of the business has been in foreign wool. London cabled that the British Australian Wool Realization Association returns of wool in warehouses and afloat on Jan. 31 show 817,332 bales, divided into 495,457 bales of Australia and 321,375 bales of New Zealand. The quantity of merino in the above is 51,571 bales. The 495,457 bales of Australia and 321,875 bales of New Zealand. The quantity of merino in the above is 51,571 bales. The Realization Association owns one-half of the Australian total, all of the remainder belonging to the Government. At Napier, N. Z., 27,500 bales were offered and 16,500 sold on the 19th inst. Average selection of crossbreds. Closing tone fairly firm. Demand fair. Prices of cross breds were as follows: 50-58s, 16d. to 23½d.; 48-50s, 13d. to 14¼d.; 46-48s, 12d. to 15d.; 44-46s, 10½d. to 14d.; 40-44s, 8d. to 12d., and 36-40s, 7¼@9½d. Boston on the 19th inst. had advices from the auction in Sydney, Australia, that

the market opened there very firm compared with the closing rates of last week, when 70s-80s combing wools cost about \$1 40 clean basis landed Boston in bond, and 70s combined about \$1.30. Malbauma has reported weeker prices about \$1 30 clean basis landed Boston in bond, and 70s combing about \$1 30. Melbourne has reported weaker prices, supposedly in some cases on inferior wools. Arizona reported that the Colin Campbell clip in Phoenix, choice and light shrinking wool, has been sold to a Boston house at 50c. in the grease, although some advices place the minimum price at 48c.

#### COTTON

Friday Night, Feb. 23 1923.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 83,536 bales, against 83,079 bales last week and 87,381 bales the previous week, making the total receipts since the 1st of August 1922 4,764,744 bales, against 4,113,116 bales for the same period of 1921-22, showing an increase since Aug. 1 1922 of 651,628 bales.

Speculation in cotton for future delivery which lagged for a time, has latterly been more active at higher prices. In fact, new "highs" have been reached. March and May have cleared the 29-cent barrier. The strength of spot cotton and of March at the South and here has been the outstanding factor. March has shot ahead until it is well above March in New Orleans and has cut down the discount under May some 20 points. Recently it was 32. At the close on Wednesday it was only 11. To-day was the first notice day. But March is controlled by big interests here. Not many notices were expected. The cotton here is too good and too cheap were expected. The cotton here is too good and too cheap for that. There has been considerable buying of March here for that. There has been considerable buying of March here by trade interests and to cover shorts, and at the same time quite a little selling of May and July. Next crop months have hung back of late owing to better weather at the South and the general belief that the acreage will be increased. Wall Street and other interests have been selling October and December. But taking the market as a whole, it has been distinctly strong on trade buying, firm spot markets, and, it may be added, somewhat better foreign political news. For instance, on Tuesday there was a report that the French delegates at the Lausanne Conference had expressed the belief that Turkey would sign the treaty. That would. news. For instance, on Tuesday there was a report that the French delegates at the Lausanne Conference had expressed the belief that Turkey would sign the treaty. That would, of course, remove a troublesome question. And on Wednesday there were intimations that the Ruhr trouble was not going to last quite so long as people have feared it might. Paris has an idea that Germany is not averse to negotiations over the Ruhr trouble. It is hoped that in the end France will agree to mediation by England and the United States looking to a settlement of the vexed question of reparations. Meanwhile sterling exchange has been steadily rising. It has reached the highest point since March 1919. On Wednesday it was only about 15 cents under the par. In spite of this advance in sterling, Liverpool has shown considerable strength. Its spot sales on the 20th inst. were up to 8,000 bales after being for some days only 6,000. There were reports that Russia had bought 11,200 bales of American cotton, much of it in Bremen. It is said that a Russian commission is to go to Bremen with the idea of further business in American cotton. Milan is urging American merchants to consign cotton to that market. Japanese interests have been reported to be good buyers in the Southwest. Supplies in China and East India are said to be none too liberal. Egypt reported to be good buyers in the Southwest. Supplies in China and East India are said to be none too liberal. Egypt complains of a low Nile. In that comparatively rainless country, of course, the overflow of the Nile is a very important factor. A low stage of the Nile is dreaded. And meanwhile Southern shippers are in some cases said to be in unpleasant predicament. It appears that shipments due to the mills in January, were deferred at the request of the shippers until February and March. And now it appears, judging from various reports, that the shippers are scouring the South for cotton to fill these engagements with the mills and South for cotton to fill these engagements with the mills and with very meagre success. It is inferred that if they cannot get the actual cotton at the South they will buy futures not get the actual cotton at the South they will buy futures at New York. That might whip up the price more than ever. The last crop was a high grade one. Low grades have been scarce for some little time. One indication of this has been the steady reduction in the discounts on such cotton for weeks past. Georgia in some cases has reported sales of middling at 30½ cents. Other reports say that cotton held for some time at 30 cents has been withdrawn from the market. The basis has been steadily rising.

From all over the belt have come reports that the demand was good and offerings small. Houston and Dallas reports have been of very strong markets and a sharp demand. New Orleans dispatches have concurred. On Wednesday spot cotton here advanced 45 points. On Tuesday and Wednesday new high record prices for this season were made in futures under the spur of heavy buying by the trade and con-

cotton here advanced 45 points. On Tuesday and Wednesday new high record prices for this season were made in futures under the spur of heavy buying by the trade and considerable buying by Liverpool, Wall Street, uptown and inferentially the West. Wall Street shorts have within a week or ten days covered a very large amount of cotton. According to some estimates, America will consume 7,000,000 bales this season against, roughly, 6,500,000 last year and 5,400,000 the year before. Stocks are too scanty. And there will be no heavy supplies of new cotton before October. Meanwhile there is a widespread fear of the boll weevil. A convention has been in session this week at Atlanta, Ga., to consider measures looking to the control of the pest. The New York Cotton Exchange sent a delegation headed by its President, George M. Shutt. The members of the Exchange here have contributed approximately \$75,000 in sums of \$10 to \$5,000 towards a fund to fight the weevil. Funds are raised under the auspices of the American Cotton Association. If the acreage is large, as very many believe it will be, the question is whether it can be effectively cultivated. There are doubts on that point. For there are persistent reports that negroes are still leaving parts of the Atlantic States. The negro

exodus may have been exaggerated. It would not be at all surprising. But reports are persistent that negroes are leaving for hig industrial centres of the North and the West. There is some truth in them. Recent reports from the iron and steel trade of Pittsburgh certainly spoke of the importations of negroes from the South as an actual fact at that centre. tre. Another indisputable fact is that the big manufacturing towns of the North and the West can afford to pay much

higher wages than the South.

On the other hand, conservative interests here naturally deprecate a runaway market. The later reaction might be On the other hand, conservative interests here naturally deprecate a runaway market. The later reaction might be quite the reverse of satisfactory to the trade at large. There are those who think that present prices discount anything really bullish in the situation. They believe that before long the next crop will be a big factor in the making of prices. As to the action of the next crop months, it is of interest to recall that on Wednesday, when the old crop advanced 25 to 50 points, the next crop advanced only 10 to 12 points, and although the old crop closed substantially higher for the day even after some reaction, the next crop ended slightly lower. That looked rather suggestive. The belief is widespread and deep-seated that the acreage is going to be very large, that new lands are going to be broken up west of the Mississippi River, especially in western Texas, and that west of the river they have learned to fight the weevil far better than the farmers of the Eastern belt have yet learned to combat it. It is believed that after all the crop is largely a matter of weather. The last one was cut down by prolonged hot dry weather west of the river and protracted rains in the Eastern belt. These conditions may not recur this season. It would be rather strange if they should. In other words, there are those who believe that there is a possibility of a noteworthy increase in the crop this year and of lewer prices.

Eastern belt. These conditions may not recur this season. It would be rather strange if they should. In other words, there are those who believe that there is a possibility of a noteworthy increase in the crop this year, and of lower prices later on. New Orleans and the South have been selling here. Also, at times, it appears, Japanese interests. And whatever may be said, the political situation on the Continent of Europe is still disturbing. Finally, a point is bound to be reached when the consumer may put a veto on the rise. He knows how to. The experience of 1920 and the first half of 1921 proved that. The "buyers' strike" told.

To-day prices advanced into new high ground. The old crop rose 43 to 54 points, the latter on March, which led the way upward. March notices amounted to 20,000 bales. But on the whole they were promptly stopped. March ended 5 points over May as against a discount under May recently of 30 to 32 points. March ended nearly 30 points over New Orleans March. But the next crop advanced at the most only 6 to 15 points, as the weather was good and the talk is persistent of a big acreage. Wall Street also sold these months. Next crop deliveries ended 10 to 27 points lower. Even the old crop gave way at one time under the impact of large profit taking. But it ended some 15 to 38 points higher for the day, the latter on March. Spot houses also bought. Mills, Liverpool and Wall Street were buyers. The West sold May freely. Statistics grow steadily stronger. Prices came within 10 points of the predicted 30 cents. Last prices show a rise for the week of 70 to 124 points on the old crop but only 20 to 22 points on the next crop. Spot cotton ended at 29.80c. for middling, a rise for the week of 125 points.

The following averages of the differences between grades, as figured from the Feb. 21 quotations of the ten markets

The official quotation for middling upland cotton in the New York market each day for the past week has been:

Feb. 17 to Feb. 23—
Sat. Mon. Tues. Wed. Thurs. Fri. Middling uplands.

28.50 28.65 29.00 29.45 Hol. 29.80

NEW YORK QUOTATIONS FOR 32 YEARS.

WEATHER REPORTS BY TELEGRAPH.—Reports to us by telegraph from the South this evening indicate that rainfall has been scattered and as a rule precipitation has been light. Our Mobile correspondent adds that the indications are of a much larger cotton acreage than last year, judging by the large purchases of mules and fertilizer. Farm work is getting under way.

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

| Week   | Rece    | Receipts at Ports. |  |           | at Interior | Receipts. | Receipts from Plantation |         |            |

The above statement shows: (1) That the total receipts from the plantations since Aug. 1 1922 are 5,269,633 bales; in 1922 were 4,395,324 bales, and in 1921 were 5 263,713 bales. (2) That although the receipts at the outports the past week were 76 269 bales, the actual movement from plantations was 9 640 bales, stocks at interior towns having decre sed 73 896 bales during the week. Last year receipts from the plantations were 49,092 bales and for 1921 they were 98,849 bales.

#### BREADSTUFFS

Friday Night, Feb. 23 1923.

Flour has been quiet, although the American Relief Administration has been in the market for first clears and seems not averse to taking hard and soft winter straights if need be. But aside from this, the market is a tedious affair. Last week's decline in wheat had a more or less unsettling effect. Mills have been plainly disposed to sell at current prices. Competition is sharp. Buyers now and then have been able to secure more or less flour at inviting prices. Meantime the generality are holding aloof. They are buying only as their necessities require, hoping for lower prices later. Export trade as a rule has been small. Most foreign buyers object to current quotations. Some exporters, on the other hand, have been rather optimistic. They reported that their dispatches were rather more favorable for business. It would seem that Europe will be obliged sooner or later to increase its purchases. The point is that it is not increasing them now. The market is a listless affair, drifting with the current of things pending further developments. the dulness of trade caused more or less depression. Only a small foreign trade was done. Rye flour, it is true, sold more freely, but at prices said to be below the cost of production. The flour trade, it is said, is not affected by the congestion of grain at the eastern ports. At Minneapolis mills are, it seems, sold ahead on low grades, but very severe weather has checked shipments. There is some export demand for clears for export. At Kansas City domestic trade was slow, but export demand was better for clears without being active. In New York from Hamburg latterly there has been a rather better demand. Sales are estimated at 25,000 bbls. The American Relief Administration has been buying this week, possibly 50,000 bbls. or more, principally first clears, with, it is surmised, a few straights. Late to-day there was a report that 46,000 sacks of flour had cleared from New Orleans for China.

Wheat ended lower. Arthur Cutten of Chicago issued a bearish statement pointing out that Europe is supplying her needs, reduced to the minimum by disorder and financial distress, largely from Argentina, Australia and her own potato crop, while America continues to maintain prices, and pile up grain in the United States and Canada at a time when American stocks should be rapidly decreased. He adds:

when American stocks should be rapidly decreased. He adds:

The visible supply of wheat in the United States and Canada approximates \$0,000,000 bushels, with probably 20,000,000 bushels scattered around at different points not included in the visible figures. For several weeks exports of wheat from the United States and Canada have been falling off, until last week, when they showed a very substantial decline. Notwithstanding this decline, world's wheat shipments totaled 12,000,000 bushels, and were ample for all needs. The amount on passage for last week increased 2,000,000 bushels, and now totals about 56,500,000 bushels, or 8,000,000 bushels in excess of last year. Wheat in the United States last week decreased less than 200,000 bushels and at the rate of decrease which has been going on for the past month or more, it will take until midsummer or later to take care of the stock of Canadian wheat already in the United States, while the opening of navigation is less than two months distant, with 35,000,000 bushels or more of wheat in store at Duluth, Fort William and Port Arthur, looking for a market as soon as water transportation is available. There is a small amount of business doing in Gulf wheat occasionally at only about 7 cents over May, f. o. b. vessel, which for the most part does not represent new business, but swaps and changes, for the purpose of adjusting and meeting freight commitments. Seven over May, f. o. b. Gulf, will force wheat to Southwestern terminal markets, as was evident in yesterday's increased receipts at Kansas City, Hutchinson, Salina and Wichita. Early in the season Broomhall and other authorities were a unit in declaring Europe would need 200,000,000 bushels or more of our wheat this year than in the past year. Yet the first six months of the present year show that she has taken less than 20,000,000 bushels more, and at this rate of consumption, we find the prospects at present for a world's carryover of 225,000,000 to 250,000,000 bushels, which is an average pre-war carryover wh

The French crop shortage is smaller than has been estimated. Paris cables that the last crop was 66,000,000 quintals instead of 64,000,000, as previously estimated there. In India favorable prospects are maintained. In Europe generally the weather has become more wintry. The crop developed satisfactorily during the long period of mild weather, especially in Central Europe and in Germany. Spring sowing has already started in some early districts. In Australia exports are continuing normally; recent rains have favored early buying and have apparently dispelled fears of another drouth. In the United Kingdom the weather has been severe. The Australian wheat yield this season is estimated at 109,000,000 bushels. In 1921 it was 140,000,000 bushels. Broomhall of Liverpool cable: "A steadler feeling prevails in the United Kingdom, owing to the smaller shipments from North America. There is a better demand generally from United Kingdom millers, as English native supplies have now become very much reduced, and during the coming months these will approach the vanishing point. Continental importers are taking half of the cargoes afloat for "orders," but generally foreign purchases are below earlier expectations. Supplies throughout Europe are smaller than is customary at this time, and possibly any break in the international price of wheat will bring out some buying. Argentine exporters have again shipped large quantities of their wheat, consigned for "orders," unsold; offers from there, however, are moderate. Indian shippers are now offering new crop wheat for shipment in the spring, but buyers are apart, as prices are at too high a premium over the Manitobas and Plate wheats, and trading is consequently low. The exportable surplus next season will be around 40,000,000 bushels. Exports so far this season have amounted to only 3,800,000 bushels, including only 5,054,000 bushels from North America, against 12,974,000 bushels last week. Yet, curiously enough, the amount on passage actually increased 2,000,000 bushels. Melbourne, Australia, cabled orders to Chicago on Feb. 19 to buy July wheat. It was believed to be the first Australia

Indian corn advanced with quite a good inquiry at one time for export. The sales to Europe on the 10th inst. reached 250,000 bushels, and on the 17th 200,000. Many of the bids, however, were too low for business. Yet prices moved upward even in the teeth of considerable long liquidation by Eastern interests. The visible supply in the United States increased last week 1,123,000 bushels, against 1,656,000 last year. It is now 28,654,000 bushels, against 36,420,000 in 1922. Despite the cold weather and good roads in many parts of the West, country offerings have not been very large; certainly not so large as might have been expected, although it is true there has latterly been some increase. South Africa says the corn crop in the Union of South Africa in 1923 is estimated at 15% more than last year's yield. Copious rain has broken the drouth in the Northeastern district of the Cape Province. On the 21st inst. prices declined with wheat, though they rallied later. Selling pressure increased, however, early in the day, with the foreign markets down. Buenos Aires was off ½ to 1%c, since Feb. 19. On the other hand, there was said to be a fair export inquiry in this country for corn, and net changes for the day showed only a trifling decline. To-day prices declined, partly in sympathy with wheat, but also because of lower cables and rains in Argentina. Buenos Aires dropped ½ to 1c. Closing prices here show a loss for the week, however, of only % to ½c.

Oats fluctuated feebly with the cash situation however firm, though there was no activity. A lack of striking features was again an outstanding fact. The visible supply in the United States decreased last week 244,000 bushels, against 313,000 last year. This makes the total 30,296,000, against 6,857,000 a year ago. To-day, partly because of weakness in corn and other grain, prices gave way 1c. on May and 5% to 7%c. on other months, with no striking fea-

tures in the trade. There was simply some scattered liquidation in response to the weakness in the grain list generally. The market still maintained the listless and uninteresting appearance which has characterized it most of the week. Cash demand is only moderate, and however strong the statistical position may be regarded by some, the fact remains that oats show no individual intiative in the direction of better prices. Final quotations to-day reveal a loss for the week of ¾ to 1¼c., the latter on May.

Rye advanced last Saturday on small offerings and report that Germany was trying to buy a large quantity in the United States. On the 19th inst., cash rye was weak and futures fell 1½c. for a time in a dull market. No further export business was reported. The visible supply in the United States increased last week 253,000 bushels, against 163,000 last year. The total is now 13,046,000 bushels, against only 7,273,000 last year. Later the tone was weaker, with trade still dull, export trade in abeyance and wheat irregular. Today prices gave way in sympathy with other grain, and they show a decline for the week of 1½ to 1½c.

WEATHER BULLETIN FOR THE WEEK ENDING FEB. 20.—The general summary of the weather bulletin issued by the Department of Agriculture, indicating the influence of the weather for the week ending Feb 20, is as

influence of the weather for the week ending Feb 20, is as follows:

Unfavorable weather prevailed during much of the week ended Feb. 20 throughout the greater part of the country. The temperature was slightly above the normal in the Southwest and in California and more favorable conditions continued in the Northwest during the latter part of the week, but the temperatures averaged much below normal in the Northwest and in Central and Eastern districts.

Wheat and grass field: suffered in the Central and Eastern regions where not snow-covered, and there was considerable damage to truck crops in the Southeast by freezing weather or frost. Beneficial rains occurred in Southwestern Texas and sufficient precipitation for crop needs in most of the East and North.

Moisture was needed, however, in most of Florida, and in the trans-Mississippi Valley States. Cold weather was beneficial in retarding the development of the deciduous fruits, but there was considerable suffering among stock, except in the Southwest.

Oonditions were most unfavorable for outdoor work owing to the cold weather. Ice harvests continued in the Northern districts except where delayed in the Hudson Valley and its tributaries by severe snow cover. The drifting snow interfered with highways and railroad traffic in all the Northern border States and in Western Colorado.

Extremely cold weather prevailed in the Eastern winter wheat States, which, in the absence of snow protection, was unfavorable for that crop. The temperature fell as low as 10 to 15 deg. as far south as Tennessee, where some damage to grain occurred, and it was believed some harm resulted in Kentucky. Zero weather was reported from some places in Ohio, with probably some injury, while ice covered many fields in Indiana. Much wheat was thrown in Central Illinois and there were some ice-covered fields in the northern portion of this State also.

Wheat appeared at the end of the week to be generally uninjured in the trans-Missispipi States, although some was frozen to the ground in Ce

Northwest except in portions of Montana. Heavy snow was especially beneficial in Washington, as the ground was mostly unfrozen when the snow fell. The cold was rather unfavorable for winter cereals in the South Atlantic and East Gulf States. Spring oats seeding was interrupted in the extreme Southern Great Plains because of unfavorable weather conditions.

#### THE DRY GOODS TRADE.

New York, Friday Night, Feb. 23 1923.

Markets for dry goods displayed a moderate amount of activity during the past week and prices gained further strength in some directions. Cotton goods in particular were strength in some directions. Cotton goods in particular were inclined toward greater firmness owing to the upward trend of raw cotton markets. Revisions of dress goods orders in worsted and woolen lines made further progress, following a superabundance of business, while a more active demand was reported for novelty silks. Evidence of large purchasing power on the part of many retailers throughout the country is indicated by the manner in which whole store buying forces come to town to provide for their spring and summer requirements. Although some stores are looking ahead into fall, the bulk of the business placed at present is confined to spot and nearby deliveries. Fall cotton goods, however, have sold better than it was expected they would. According to reliable statements, many Southern mills have already booked to an extent that precludes them from accepting further business calling for delivery this side of September on stable and dress ginghams. Production in textile mills is well assured for some time to come. Many of the cotton mills are turning out fall goods on a liberal scale, and express much satisfaction with the progress made and amount of business booked, while wool and worsted goods mills have of business booked, while wool and worsted goods mills have also done very well. In some quarters, however, there is fear of curtailment of production which is likely to arise from short hour legislation or from strikes for higher wages. On the other hand, these things do not appear to be giving buyers of merchandise any serious worry. An improvement buyers of merchandise any serious worry. An improvement has been noted in the export demand for goods, a very fair volume being reported of late in small quantities of goods for Mexico, Canada and South America. Although the business in only a few instances is much in excess of pre-war totals, many markets not open a few years ago are now buying regularly here.

DOMESTIC COTTON GOODS: Influenced by the strength of raw cotton markets, which reached new high levels for the season, domestic cotton goods ruled decidedly firm during of raw cotton markets, which tended decidedly firm during season, domestic cotton goods ruled decidedly firm during the past week. While trading was not particularly broad, due in part to the holiday, a few large transactions were under way looking toward covering requirements of sheetings and print cloths for April and May by consumers who have been hesitating. Orders for fall ginghams are being steadily received despite the sold up condition of mills, and buyers are complaining because they are obliged to cut down orders. There has also been a more active demand for many of the heavier colored staples for working suit purposes. Buyers heavier colored staples for working suit purposes. Buyers from agricultural sections are talking more of high prices than some others, but notwithstanding this fact, they are opthan some others, but notwithstanding this fact, they are op-erating quite liberally and on a much better scale than some department heads in jobbing houses had expected. Some fabrics are scarce in first hands, notably denims, the wider sheetings and a number of novelties for which there has re-cently been a craze. The producers of fine and fancy wash fabrics claim that they are being requested to do all sorts of impossible things in bringing out new designs and colorings for prompt sales. An encouraging feature during the week for prompt sales. An encouraging feature during the week has been the improved demand for export account. More inquiries have been received from Mexico, Canada and South America, and moderate sales have been put through. Sales have also been made to the Philippines, and in a smaller way have also been made to the Philippines, and in a smaller way to other countries of the world. Print cloths, 28-inch, 64 x 64's construction, are quoted at 8½c., and the 27-inch, 64 x 60's, at 8½c. Gray goods in the 39-inch, 68 x 72's, are quoted at 12½c. to 12½c., and the 39-inch, 80 x 80's, at 14½c.

WOOLEN GOODS: Business in woolens and worsteds continues active. Sales of heavy woolens and worsteds have been particularly encouraging, and a large business has been put through in overcoatings for fall a good portion of which

been particularly encouraging, and a large business has been put through in overcoatings for fall, a good portion of which has consisted of fancy black goods. The activity in many lines of fancy worsteds for fall cutting has also surprised some of the selling agents. Dress fabrics sellers report a very satisfactory business on many lines of staples and on some satisfactory business on many lines of staples and on some fancies, and withdrawals of different lines continue to take place as the goods become sold up. In the women's wear division of the market a better feeling prevails owing to the settlement of the garment workers' strike in New York City.

FOREIGN DRY GOODS: Trade in linens remains active and well up to the volume noted in recent workers. Demand

FOREIGN DRY GOODS: Trade in linens remains active and well up to the volume noted in recent weeks. Demand continues broad and covers practically all descriptions of dress and housekeeping lines. There have been many out-of-town buyers in the market, which has added to the activity. The freedom with which jobbers are buying linens, and the many requests received for prompt shipments indicate that stocks in the hands of retailers have been allowed to run low. With the exception of some price concessions reported in sheers and cambrics, prices for linens in general have been firmly maintained. Representatives of Irish linen manufacturers are beginning to arrive on their semi-annual trips to canvass for forward business, and they are very much encouraged over the outlook. Burlaps have failed to develop any activity, the market continuing quiet and about steady. Light weights are quoted at 7.30 to 7.35c., and heavies at 8.90 to 8.95c.

# State and City Department

#### NEWS ITEMS

New York State—Governor Urges Bond Issue for Hospitals.—On Feb. 21 Governor Alfred E. Smith sent a special message to the Legislature urging that action be taken to better the crowded condition of State hospitals which a week ago resulted in the loss of twenty-five lives at the Manhattan State Hospital fire on Ward's Island. He advocated the submission to the voters of a \$50,000,000 bond issue for the construction of new hospital buildings.

HARRISON COUNTY (P. O. Marshall), Texas.—BOND SALE.—
The Dallas "News" on Feb. 13 said:
"Harrison County sold \$190,000 worth of good road bonds to-day at a meeting of the County Commissioners.
"The bonds were voted some months ago and have been held up, pending litigation, and are known as the Noon Day road and the Harleton and Ashland Road bonds. There are \$130,000 of the Noon Day and \$60,000 of the Ashland-Harleton bonds. A number of bidders were present and sealed bids were on file, but it was decided to auction off the bonds, which were sold to H. D. Crosby of Dallas for C. W. McNear & Co. of Chicago at 102,72½, \$313 50 more than the sealed bids would have brought.
"The bonds of \$190,000 and accrued interest from last October, and a premium of \$5,177 50 brought Harrison County approximately \$198,217."

VANCOUVER, Clarke County, Wash,—ADDITIONAL DATA.—We are informed by Wm. C. Bates, City Attorney, that the sale of the \$35,000 coupon city hall purchase bonds, which were offered but not sold or Jan. 2 (V. 116, p. 437) will be delayed until the title to the property is placed in shape satisfactory to the city.

WAKEFIELD, Dixon County, Neb.—BOND SALE.—Jas. T. Wachob & Co. of Omaha, have purchased at par \$19,000 51/5 % 2-20-year serial intersection paving bonds. Denom. \$500. Interest J. & J.

p. 746. The loan was negotiated on a 4.02% discount basis plus \$1 31 premium.

WASHINGTON COUNTY (P. O. Salem), Ind.—BOND SALE.—The following three issues of 5% road bonds which were offered for sale en Feb. 20—V. 116, p. 747—were awarded to J. F. Wild & Co. State Bank of Indianapolis for \$24,481 85 (101.584) and int., a basis of about 4.70%; \$5,900 John W. Polson et al., and Elmer Nice et al., county unit bonds. Denom. \$295. Due \$295 each 6 months from May 15 1924 to Nov. 15 1933, inclusive.

2,000 David F. Voyles et al., Howard Township bonds. Denom. \$100. Due \$100 each 6 months from May 15 1924 to Nov. 15 1933 incl. 16,200 Lewis Dennis et al., Washington Township, bonds. Denom. \$810. Due \$810 each 6 months from May 15 1924 to 1933 inclusive.

Date Feb. 5 1923. Interest (M. & N. 15).

WATERVLIET, Albany County, N. Y.—BOND OFFERING.—Sealed bids will be received by M. I. Dunn, Director of Finance, until 7 p. m. March 5 for the purchase at not less than par and int. of \$257,000 coupon (with privilege of registration as to principal only or as to principal and interest) paving bonds. Pucrhaser to state rate of interest, on exceeding 6% expressed in multiples of ¼%. Date March 1 1923. Denom. \$1,000. Int. (M. & S.) payable at the office of the Director of Finance, Due \$7,000 on March 1 1924 and 1925; \$8,000 on March 1 from 1924 to 1932 incl. Certified check for 2% of the par value of the bonds bid for, payable to the City, is required.

WATERVLILE VILLACE SCHOOL DISTRICT (P. O. Waterville).

bonds bid for, payable to the City, is required.

WATERVILLE VILLAGE SCHOOL DISTRICT (P. O. Waterville), Lucas County, Ohio.—BOND OFFERING.—Sealed proposals will be received by Merle Vanfleet, Clerk of the Board of Education, until 6:30 p. m. Mar. 10 for the purchase of \$43,050 5% coupon school bonds. Auth. Sec. 7630-1 of the Gen. Code. Date Mar. 1 1923. Denom 1 for \$550: 9 for \$500 each, and 38 for \$1,000. Int. M. & S. Prin. and interest, payable at the office of the Treasurer of the Board of Education. Due on Sept. 1 as follows: \$1,550, 1924; \$1,500, 1925 to 1933, incl., and \$2,000, 1934 to 1947, incl. A cert. check for 2% of the par value of the bonds, on a Lucas County bank or a N. Y. draft, is required. Bonds to be delivered and paid for within 10 days from date of award.

WELD COUNTY CONSOLIDATED SCHOOL DISTRICT NO. 40.

paid for within 10 days from date of award.

WELD COUNTY CONSOLIDATED SCHOOL DISTRICT NO. 40, Colo.—BOND SALE.—The International Trust Co. of Denver, has surchased \$38,000 5½% building bonds. Denom. \$1,000. Date April 1 1922. Principal payable at the office of the County Treasurer and semi-annual interest (A. & O. 1), payable at the office of the County Treasurer or at the banking house of Kountze Brothers, New York City, at the option of the holder. Due yearly on April 1 as follows: \$1,000 1938 3,000 1939 to 1942, incl., and \$5,000 1943 to 1947, incl. This reports corrects the reports given in V. 114, p. 1694, and V. 116, p. 645.

WELLESLEY, Norfolk County, Mass.—TEMPORARY LOAN.—A temporary loan of \$75,000, dated Feb. 19 and matruing Nov. 19 1923, has been awarded to the First National Bank of Boston on a 4.02% discount basis, plus \$1.75 premium.

WEST CHESTER CONSOLIDATED INDEPENDENT.

WEST CHESTER CONSOLIDATED INDEPENDENT SCHOOL DISTRICT (P. O. West Chester), Washington County, Iowa.—BOND ELECTION.—An election is to be held on March 12 to vote on a proposition to issue \$65,000 bonds for a new school house. R. C. Ferguson is Secretary of the Board of Education.

WESTFIELD, Hampden County, Mass.—LOAN OFFERING.— It is reported that proposals will be received until 11 a. m. Feb. 24 for the purchase at discount of a temporary revenue loan of \$250,000. Date Feb. 26 1923. Due \$150,000 Oct. 10 1923 and the balance Nov. 10 1923.

WEST PLAINS, Howell County, Mo.—BOND OFFERING.—Bids will be received until Feb. 27 for the \$25,000 6% I-10-year (opt.) water system bonds voted on Feb. 9 (V. 116, p. 748).

WHITE COUNTY (P. O. Monticello), Ind.—BOND SALE.—The \$10,400 5% road impt. bonds (not \$14,400 as stated in V. 116, p. 645) which were offered for sale on Feb. 15 were awarded to The Bankers' Investment Co. of Indianapolis, for \$10,580, euqal to 101.73, a basis of about 4.63%. Date Dec. 5 1922. Denom. \$520. Int. N. & N. 15. Due \$520 May 15 1924 and each 6 months thereafter.

WHITE SALMON, Klickitat County, Wash.—CORRECTION.—Using newspaper reports, we stated in V. 116, p. 438, that this town had sold \$155.000 local impt. bonds to Freeman, Smith & Camp Co. of Portland. This report was incorrect as we are now informed by C. H. Estes, Town Clerk, that "no bonds were sold to the above named firm."

BOND SALE.—We are also informed by Mr. Estes that his town sold \$25,000 6% water system purchase bonds during May 1922 through the Columbia State Bank of White Salmon, at about 101. Denom. \$500. Date May, 1922. Due in 20 years. Can bonds be retired before maturity? When? "Yes, optional."

Date May, 1922. Due in 20 years. Can bonds be retired before maturity? When? "Yes, optional."

WICHITA COUNTY WATER IMPROVEMENT DISTRICT NO. 1

(P. O. Wichita Falls), Tex.—BOND SALE.—Referring to the report which appeared in V. 116, p. 748, the \$750,000 bonds recently sold to R. Morant & Co., Inc., are part of an authorized issue of \$4,500,000, of which \$3,750,000 were sold to Wm. R. Compton Co. of New York and Kauffman, smith, Emert & Co. of St. Louis in November 1921. (See V. 113, p. 2338.) Denom. \$1,000. Date Oct. 1 1922. Payable as to both principal and semi-ann, int. (A. & O.) at the Hanover Nat. Bank of N. Y. Due yrly, on April 1 as follows: \$8,000 1924, \$9,000 1925, 1926 and 1927, \$10,000 1928, \$11,000 1929. \$12,000 1930, \$13,000 1931. \$15,000 1932, \$16,000 1933. \$81,000 1934. \$21,000 1930, \$13,000 1931. \$15,000 1937, \$28,000 1938. \$31,000 1934, \$45,000 1944, \$45,000 1944, \$45,000 1944, \$45,000 1944, \$45,000 1944, \$45,000 1945, \$7,000 1940. \$54,000 1944, \$54,000 1945, \$48,000 1946, \$7,000 1940, \$54,000 1947, \$52,000 1938. \$34,000 1949, Lake County, Ohio.—BOND OFFERING.—Sealed proposals will be received by Arvilla Miller, Village Clerk, until 12 m. Mar. 17 for the purchase at not less than par and int. of \$5,275 5½% sewer bonds. Date Oct. 1 1922. Denom. 20 for \$250 each, and 1 for \$275. Int. A. & O. Due on Oct. 1 as follows: \$250 from 1924 to 1943, incl., and \$275, 1944. A cert. check for 5% of the amount bid for, payable to the Village Treasurer, is required. Bonds to be delivered and paid for within 10 days from date of award.

WILLIAMSON INDEPENDENT SCHOOL DISTRICT (P. Q. Will-

award.

WILLIAMSON INDEPENDENT SCHOOL DISTRICT (P. O. Williamson), Lucas County, Iowa.—ADDITIONAL INFORMATION.—
The purchaser of the \$15,500 school house bonds, reported sold in (V. 116, p. 646) was the Ringheim-Wheelock Co. of Des Moines. The bonds bear 5% int., payable semi-ann. (M. & N.), are in demon. of \$500 and mature in 20 years.

WINCHESTER, Clark County, Ky.—BOND SALE.—We are unofficially informed that the \$150,000 school bonds, voted on Jan. 27—V. 116, p. 748—have been sold. The bonds bear 5% interest and mature serially on March 1 from 1924 to 1943 inclusive.

WYNNEWOOD, Garvin County, Okla.—BOND SALE.—The Brown-rummer Investment Co. of Wichita has been awarded the following 5½ %

WYNNEWOOD, Garvin County, Ukla.—BUND SALE.—On Feb. 7 \$139,577 81

YORK, York County, Nebr.—BOND SALE.—On Feb. 7 \$139,577 81 5½% district paving bonds were sold to the First Trust Co. of York at par and int. Denom. \$500. Date April 1 1923. Int. annually. Due 1932 optional after 5 years.

ZIEBACH COUNTY SCHOOL DISTRICT NO. 1, So. Dak.—BOND OFFERING.—The offering of the \$25,000 school bonds, which was to have taken place on Feb. 3) V. 116. p. 643) has been postponed to to-day (Feb. 24). Bids will be received by W. W. Alenta, District Clerk, at Isabel, for \$25,000 school bonds. Date Aug. 15 1922. Int. rate not to exceed 6%. Due on Aug. 15 as follows: \$6,000, 1932, 1935 and 1938, and \$7,000, 1941. Prin. and semi-ann. int., payable at a place to suit the purchaser. A cert. check for \$1,000, payable to the District, required.

## CANADA, its Provinces and Municipalities.

HANOVER, Ont.—DEBENTURE SALE.—The \$135,000 5½% 30installment debentures which were voted on Oct. 16 (V. 115, p. 2185)
have been awarded to Gairdner, Clarke & Co. of Tronto, at 99.77, a basis
of about 5.52%. The following bids were received:
