

BANK AND QUOTATION

SECTION

OF THE

COMMERCIAL & FINANCIAL CHRONICLE.

Copyrighted in 1924, according to Act of Congress, by WILLIAM B. DANA COMPANY, in office of Librarian of Congress, Washington, D. C.

VOL. 119.

NEW YORK SEPTEMBER 6 1924.

NO. 3089.

BANK AND QUOTATION SECTION

The Bank and Quotation Section, issued monthly, is furnished *without extra charge* to every subscriber of the *Chronicle*.

The Railway and Industrial Section, issued twice a year on the last Saturday in May and November, is also furnished *without extra charge* to every annual *Chronicle* subscriber.

The Railway Earnings Section, issued monthly, containing the sworn returns of earnings and expenses filed each month with the Inter-State Commerce Commission, is likewise furnished *without extra charge* to every annual *Chronicle* subscriber.

The Electric Railway Section, issued twice a year, in April and October, is also furnished *without extra charge* to every annual subscriber to the *Chronicle*.

The State and City Section, issued semi-annually on the last Saturday of June and December, is likewise furnished *without extra charge* to every annual subscriber to the *Commercial & Financial Chronicle*.

The Bankers' Convention Section, issued yearly, giving the detailed proceedings of the annual convention of the American Bankers Association, is also furnished *without extra charge* to *Chronicle* subscribers.

Terms for the *Chronicle*, including the six supplements above named, are \$10 per annum within Continental United States, \$11.50 in Canada and \$13.50 in other foreign countries and United States Possessions.

File covers for the *Chronicle* are sold at \$1.00 each (postage 15 cents additional). File covers for Supplements can be had at same price.

REVIEW OF AUGUST—COMMERCIAL AND FINANCIAL EVENTS.

The event of commanding importance during August, both in its international aspect and in its bearing on domestic trade, was the successful outcome of the London Inter-Allied Conference for putting into effect the Dawes plan for dealing with the question of German reparations payments. Separate negotiations between the French and the Germans were necessary on certain collateral matters connected with the carrying out of the Dawes plan, such as the evacuation of the Ruhr by the French, and full agreement as to these was also reached and final seal given to the work of the Conference by the ratification of what had been done by both the French Parliament (the Senate and Chamber of Deputies) and the German Reichstag. While the putting into effect of the Dawes plan is certain to have far-reaching consequences, all of a highly beneficial character in their relation to the trade of the world, the immediate effect upon trade and industry in the United States was virtually nil. Business did improve a little in certain directions, but only the merest trifle, and slackness and dullness continued the prevailing characteristics. An optimistic note, however, was current, with expressions of confidence that decided improvement would come in the early autumn, or at all events, after the Presidential election.

The great rise in grain prices which was such a marked feature of affairs during June and July and which has so materially improved the prospects of the agricultural classes—completely transforming, indeed, their outlook and condition in certain crop raising districts—was interrupted the last half of August. Prices then sharply reacted, but this was not taken as implying any alteration in underlying conditions or the basic facts of the situation which in the end must be the governing factors in determining true values. Certainly as concerns wheat, the rise in which counts for so much, there has been nothing to indicate that the demand for our surplus on the part of consuming countries would not be of unusual extent, though accounts regarding the Canadian crop were not so extremely bad as was the case in

July. Even if the falling off from 1923 in the Dominion crop should not be so great as appeared in July it would yet be of large proportions. General feeling seemed to be that the upward movement in values had been carried a trifle too far. Prices fluctuated considerably from day to day and it was only during the last two weeks that declines of substantial proportions were recorded. It is rather noteworthy that the declines occurred while the takings of wheat here for export were reported, day by day, as being of very exceptional extent. The September option for wheat in Chicago opened at \$1 32½ Aug. 1 and, after fluctuating more or less from day to day, nevertheless still sold Aug. 18 at \$1 34 per bushel. By Aug. 27 the price was down to \$1 19, but partial recovery quickly ensued and the price was back to \$1 25 Aug. 29, with the close Aug. 30 \$1 23¼. This compares with \$1 02½ on the same date in the previous year, showing that even after the loss of part of the extreme advance the price was still over 20 cents a bushel above that ruling in the previous year. The December wheat option in Chicago opened Aug. 1 at \$1 36½, and after some sharp fluctuations from day to day sold as high as \$1 38¾ Aug. 16; by Aug. 27 there had been a tumble to \$1 23½, but two days later, on Aug. 29, the price was back to \$1 30; the close Aug. 30 was at \$1 28½. In the case of corn and oats still higher prices than those recorded in July were reached, but also with a sharp downward reaction the latter part of the month, followed by some recovery at the extreme close. The fluctuations in corn were wild and erratic, under the influence of unfavorable crop prices, which indicated probable losses by reason of drouth in some of the important corn-growing districts of the country and also laid stress on the backwardness of the crop, this latter engendering fears that the crop might not mature before the occurrence of frost and hence suffer great damage. A counterpoise was the news of the engagement of quite considerable quantities of Argentine corn for importation into the United States, the high level to which prices had been carried in the speculative markets in this country making such importations possible with profit. The September option for corn in Chicago opened at \$1 08¼ Aug. 1 and shot up with great rapidity until on Aug. 16 a high of \$1 25¾ was reached; then there was a dip to \$1 10 Aug. 25, with a recovery to \$1 20 Aug. 28 and the close Saturday, Aug. 30, at \$1 18¼. The December corn option at Chicago opened Aug. 1 at 97¼ cents, reached \$1 20½ Aug. 18, was down to \$1 02 Aug. 25, back again to \$1 15¼ Aug. 29, with the close Aug. 30 \$1 13¼. The September option for oats in Chicago opened Aug. 1 at 48¾c., sold up to 56c. Aug. 18, was as low as 46c. Aug. 25, recovered to 50¼c. Aug. 29 and closed Aug. 30 at 48½c. The December oats option in Chicago, opening Aug. 1 at 51½c., touched 59c. Aug. 19, tumbled to 48¾c. Aug. 25, recovered to 54c. Aug. 29 and closed Aug. 30 at 52½c. It will be observed that, after all, taking the opening and closing prices in the month as the standard, wheat is the only grain that shows a loss, corn prices being higher by 10@16c., while oats prices, notwithstanding the wide fluctuations during the month, remain substantially unchanged.

From Europe there came a number of reports of hardships resulting from the higher level of grain prices and consequent advance in the price of bread. In this country nothing of the kind was noted, and of course foreign consumers are under the disadvantage of having to add transportation costs to the prices paid here. As to other articles of food, sugar prices here again showed an upward tendency. Cuban raw sugar, which sold July 31 at 3¼@3 5-16c., advanced to

3 $\frac{3}{4}$ c. Aug. 29. This last was Friday, the Sugar Exchange and the offices of brokers having been closed on Saturdays during June, July and August and Aug. 31 having been Sunday. The wholesale price of refined sugar, according to the list prices of leading refineries in this part of the country, which ranged between 6.40 and 6.75c. July 31, advanced during August to a range of 6.90@7.10c. Coffee prices also moved somewhat higher, and No. 7 Rio was quoted at 17@17 $\frac{1}{4}$ c. Aug. 29, against 16 $\frac{1}{2}$ @16 $\frac{3}{4}$ c. July 31. There was also an advance in milk prices in this city. Following closely on the announcement by the producers of an increase in their prices, officials of the Borden's Farm Products Co. announced that beginning Aug. 18 consumers would be charged 1c. more a quart, the new prices being 14c. for grade B milk and 17c. for grade A milk in the different boroughs of New York. Cream prices were advanced at the same time 1c. a half pint. These advances were made necessary, it was stated, by the action of the Dairymen's League Co-operative Association in raising prices owing to the shortage of milk resulting from the prolonged drouth. The company pointed out that it would have to pay an advance of more than 1c. a quart to the farmers and this on top of the increase of almost half a cent on Aug. 1, which latter was not passed along to the public. Other distributing concerns followed the action of the Borden people.

As to the general course of trade and business in the United States we have already indicated that no improvement of any very great consequence occurred during the month. Orders, however, were placed a little more freely, and yet continued to be limited to absolute necessity, based on the prospective needs of the immediate future. The steel trade furnished an excellent illustration of this. The trade journals in their reviews from week to week indicated that capacity of mills and furnaces was being employed to a somewhat larger extent than in the preceding months, but nevertheless remained very low. The "Iron Age" in its issue of Aug. 28 noted that production was at a somewhat higher rate in the Pittsburgh and Chicago districts, but pointed out that the fact that some producers were running at a fairly high rate for several days to clean up orders on hand and then dropped down while business was again accumulating made exact estimates difficult. The United States Steel Corporation as a whole, it thought, was probably doing better than 55% of capacity, while the average for the independent steel producers was somewhat less. There was general agreement, however, according to the "Age," in the report that August had brought improvement in the steel trade, whether measured by new buying or by operations at the plants of the leading companies. It noted as an encouraging feature the appearance of demand for rails in conjunction with the promise of car buying. The "Iron Trade Review" of Cleveland in its issue of the same date (Aug. 28) reported that steel production for the first time in almost three months had again got definitely above the 50% mark. In July it had been down to around 40%. The Carnegie Steel Company had pushed up its steel production to 68%, but the United States Steel Corporation's activities at Chicago remained under 45% and the Steel Corporation as a whole was running about 60%, with the independent companies on a somewhat lower basis. It made the pregnant observation that "the outlook continues to improve, but the prospects remain better than the actual placing of tonnage." This authority said that buyers in general showed more willingness to consider their future wants, but in some lines they were acting slowly, trying to force further price concession. While stocks of steel in users' hands were understood to be low, this was offset by those of finished product "which have been accumulating in the hands of various manufacturers." This reference to price concessions indicates one of the features of the situation that remained unsatisfactory. The "Iron Age's" composite price for finished steel Aug. 26 was 2.510c. per lb., as against 2.524c. July 29, and comparing with 2.775c. Aug. 28 1923. The composite price for pig iron improved somewhat after the sharp break in preceding months, being \$19.46 per gross ton Aug. 26 1924, against \$19.29 July 29, but comparing with \$25.38 Aug. 28 1923.

In the case of the minor metals the tendency of prices was generally upward. In the copper market sentiment was decidedly improved in the hope that the placing of Germany on its feet through the Dawes plan would lead to greatly increased purchases of the metal by the Germans. The result was a further advance in the price of the metal after that achieved the previous month, though with some reaction at the close. Lake copper at New York moved up from 13 $\frac{1}{4}$ c. to 13 $\frac{3}{8}$ c. and was 13 $\frac{3}{8}$ c. Aug. 30. Electrolytic copper advanced from 12 $\frac{1}{2}$ c. to 13 $\frac{1}{2}$ c. and closed at 13 $\frac{1}{4}$ c. Tin and lead also commanded increasing prices, tin at New York rising from 49 $\frac{1}{2}$ c. to 52 $\frac{1}{2}$ c., but then shading off and closing

at 52c. Aug. 30. Lead at New York was marked up from 7.65c. to 8.25c., with the quotation Aug. 30 8.25c.

In the textile trades, as in the steel trade, indications of any decided improvement were lacking, and yet tone and sentiment seemed better. In the cotton goods trade the fluctuations in the price of the raw material, cotton, naturally had a disturbing effect. In the earlier part of the month a disposition existed among manufacturers to think things were shaping themselves for the better. Accordingly the inclination was to plan for some increase in production in the immediate or early future after the long policy of radical curtailment. The drastic decline, however, in the price of cotton, which occurred later in the month, again caused much unsettlement inasmuch as it naturally created a disposition on the part of even needy purchasers to hold off in the placing of orders in expectation of being able to purchase goods at lower figures, because of the lower cotton values. Middling uplands spot cotton in this market, which had been quoted at 32.40c. July 31, was down to 30.95c. Aug. 1, but back again to 31.50c. Aug. 2. Thereafter there was comparative steadiness for a time, and as late as Aug. 14 the quotation was about 30c. a pound, being on that day 30.20c. Later, however, there was a gradual decline, and Aug. 30 the quotation got down to 25.90c. Print cloths at Fall River for 28-inch, 64 x 64, were marked up Aug. 1 from 7 $\frac{1}{2}$ to 7 $\frac{3}{4}$ c., but marked down again to 7 $\frac{1}{2}$ c. Aug. 6 and further reduced to 7 $\frac{3}{8}$ c. Aug. 19 and to 7 $\frac{1}{4}$ c. Aug. 26. The decline in the price of cotton was based on expectations of a decided increase in the size of the crop as compared with the small production in the years immediately preceding. All accounts agreed in saying that prospects of a good yield were better than they had been for several seasons past, though there were fears of damage from continued drouth in a part of Texas and in two or three other States. The boll weevil did not appear active anywhere and their depredations were also restricted by the free-handed application of poisons. All this was reflected in the condition reports of the Department of Agriculture at Washington, of which there are now two a month as against one in previous years. A report on the growing cotton crop appeared on Friday, Aug. 8, and was issued in compliance with an Act passed at the last session of Congress. The Department of Agriculture found the condition to be (as of Aug. 1) 67.4, as against 68.5 two weeks before on July 16, and said this pointed to a total production of 12,351,000 bales of 500 pounds. The estimate for July 16 had been 11,934,000 bales and the actual crop in 1923 no more than 10,128,478 bales. Another semi-monthly report came on Saturday, Aug. 23, at noon-time and the cotton exchanges closed 15 minutes earlier, at 11.45 (Saturday being a half holiday), in order to avoid confusion that might arise just on the stroke of 12, when the Government report came over the wire. This Aug. 23 report showed the condition on Aug. 16, putting it at 64.9, against 67.4 for Aug. 1, as just stated, but as against only 54.1 on Aug. 25 1923. The forecast, accordingly, was for a still larger crop, or 12,956,000 bales, and it should be stated, furthermore, that private estimates of the probable size of the crop ran even higher than this.

As of some bearing on the cotton goods trade, it developed during the month that the Consolidated Textile Corporation was in financial difficulties and that one of the creditors of the company was seeking to enjoin a proposed plan for the reorganization of the corporation and its affiliated companies. There was apparently increased activity during August in the rubber tire trade and there was also a further sharp advance in the price of crude rubber, though towards the close of the month there was a downward reaction in rubber prices on a lower London market and profit taking. Ribbed smoked sheets for spot delivery on Aug. 30 were quoted at 27 $\frac{1}{4}$ c., and first latex crepe at 27 $\frac{1}{4}$ c., against 23 $\frac{1}{4}$ @23 $\frac{3}{8}$ c. and 24 $\frac{3}{8}$ c., respectively, on July 31 and 18 $\frac{1}{4}$ and 19 $\frac{1}{4}$, respectively, on June 30.

In the woolen goods trade the American Woolen Co., the largest producer of woolen and worsted fabric in the world, opened on Aug. 18 its lines of spring 1925 fabrics for the men's wear manufacturing trades. The prices showed declines averaging 7% from those of a year ago for the spring of 1924 and 2 $\frac{1}{2}$ % from the autumn prices of 1924 announced the previous January and February. The opening was noteworthy from the fact that this was the first occasion when the American Woolen Co. showed the entire offering of men's wear fabrics at one time. In former openings different groups of lines for the same season were shown on different dates. In connection with the announcement of the opening, Vice-President Cornelius A. Wood of the American Woolen Co. gave out a statement on Aug. 11 predicting higher prices for wools and woolen cloths. Mr. Wood directed attention particularly to the strong statistical position of the wool market the world over, as well as to the liquidated and healthy condition of the markets for cloth and for clothing. These two points he termed vital for the government of the trade. After the close of the month, that is early in September, the American Woolen Co. found itself obliged to suspend dividends on its common stock.

In the silk market there was a further advance in the price of raw silk and double extra kansai was quoted Aug. 30 at \$6.55@\$6.60 per pound, against \$5.95 to \$6.00 on July 31. At Paterson the Associated Silk Workers, an organization of about 2,500 union men, decided at a meeting on Aug. 5

to go on strike Aug. 12 for a wage increase and other concessions. The strike promptly went into effect on the day named, non-union as well as union workers joining in it. According to officials of the Associated Silk Workers, 3,000 broad-silk and 5,500 weavers went out, besides which 10,000 others were prevented from working because of their dependence on the product of the weavers. The strikers demanded the abolition of the multiple-loom system, an increase of 15% in wages and the discontinuance of all night work. They insisted that not more than two looms be operated at a time on the ground that more than that worked too great a hardship on the operators. Efforts looking to mediation by the Federal Labor Department were made both before and after the strike and the Paterson Chamber of Commerce conferred with John A. Moffitt of the United States Department of Labor, but nothing was accomplished along these lines and later in the month several hundred workers employed in a number of the smaller mills returned to their looms. These mills, it was stated, granted the demands of the workers for a 15% increase in wages and the elimination of the three-loom and four-loom system of operation. This, however, affected only a portion of the mills and on Aug. 25 the manufacturers adopted the following resolution indicating their determination to stand firm against the demands of the workers:

That the manufacturers of Paterson assembled to-night declare themselves to stand firm against the abolition of the three and four-loom system and all other unfair demands, and again wish to put ourselves on record that we have nothing to arbitrate with the Associated Silk Workers.

A settlement with them cannot be made whether they change their constitution or not. It is not only their constitution that the manufacturers object to, but the union itself, its misdeeds and its methods.

We again wish to state to the public and to our employees that they should not have any false hope of this strike being settled by arbitration.

(Signed) MANUFACTURERS' PRESS COMMITTEE.

Several clothing strikes were settled during the month. Thus a strike in the men's clothing manufacturing industry of Philadelphia was settled in a majority of the shops affected after running only a few days. The union announced that an agreement had been reached with many of the contractors providing that all their workers be union members and that the employers join the contractors' organization with which the labor organization is to conduct future negotiations. The aim of the union to unionize the contracting branch of the business having been virtually achieved the labor leaders announced that no effort would be made to unionize the large manufacturing houses. A strike in the women's wear manufacturing trades of Baltimore was also settled. A majority of the unionized shops granted the workers' principal demands and only a small number, it was stated, held out against the settlement. The chief demands to which the manufacturers acceded were unemployment insurance, to which they will contribute 2% and the workers 1% of the weekly wages, use of the sanitary label on union made garments, equal pay to men and women doing the same kind of work and abolition of the piece-work system. In Boston, also, labor troubles in the clothing trades found adjustment. About 1,500 union cloak, suit and skirt makers employed on women's garments in Boston went on strike on Aug. 21 in 70 shops to prevent employers from taking employees' places at the machines in dull seasons and establish union and sanitary conditions and eliminate the so-called "sweat-shop" in the industry. The strike had been in progress for only a few hours when announcement was made that 18 of the larger shops had signed agreements for stipulated improvements in working conditions. Earlier in the month workers in the men's clothing trade of Boston walked out, but on Aug. 14 settlements with more than 20 manufacturers were announced by the settlement committee arbitrating between the employers and members of the union affiliated with the Amalgamated Clothing Workers of America. Accordingly, 2,500 of the 4,000 workers who had gone on strike went back to work on Aug. 18.

New security offerings during August were on a somewhat larger scale than during July. A syndicate composed of Kuhn, Loeb & Co., Speyer & Co. and the National City Co. offered \$75,000,000 Baltimore & Ohio RR. Co. 1st mtge. 5% bonds, due July 1 1948, at 98½% & int., less int. at the accruing rate from date of payment to Oct. 1 1924, to yield over 5.10% to maturity. This issue was quickly oversubscribed. J. P. Morgan & Co. sold \$16,000,000 Louisville & Nashville RR. 1st & ref. mtge. 4½% bonds, ser. C, at 94½% (less an amount equal to int. at the rate of 4½% per annum from date of payment to Oct. 1 1924), to yield approx. 4.82%. The bonds were quickly taken. An oversubscription was announced to an issue of \$15,000,000 Commonwealth Edison Co. 1st mtge. 5% bonds, ser. B, due June 1 1954, offered by Halsey Stuart & Co., Inc., at 98½% & int., yielding about 5.10%. The National City Co. headed a syndicate which disposed of \$12,500,000 Pacific Gas & Elec. Co. 1st & ref. mtge., ser. C, 5½% bonds, due 1952, at 98 & int., yielding about 5.65%. Lee, Higginson & Co., Harris, Forbes & Co. and Brown Bros. & Co. sold at 99¾% & int., yielding 5.52%, \$10,000,000 Sun Oil Co. 15-yr. 5½% debentures. \$10,000,000 North American Co. 6% cum. pref. stock (\$50 par) was offered successfully at \$48 per share, to yield 6¼%, by Dillon, Read & Co. Bonbright & Co., Inc., brought out \$9,000,000 American Gas & Elec. Co. 6% debenture bonds (American series), at 95½% & int., to yield about 6.30%. \$8,000,000 Old Ben Coal Corp. 1st mtge. 20-yr. 6% bonds were offered

by Drexel & Co., the National City Co. and Cassatt & Co., at 98 & int., to yield over 6.17%. \$5,000,000 10-yr. 7½% debentures of the same company were also offered by Cassatt & Co. and National City Co. at 100 & int. Speyer & Co. and Dillon, Read & Co. sold \$5,000,000 Chic. R. I. & Pac. Ry. Co. 5-yr. 5% secured notes at 99 & int., to yield over 5.20%. \$5,000,000 American Power & Light Co. debenture bonds American 6% series, were offered by Bonbright & Co., Inc., at 94½% & int., to yield 6.35%. Aside from these offerings of domestic corporate issues there were also demands for capital from quarters outside the United States and offerings of new securities to the public in connection with these loans were made as follows: A large banking group headed by J. P. Morgan & Co. and the National City Co. offered \$25,000,000 Kingdom of Norway 20-yr. 6% external loan bonds at 97½% & int., to yield 6.22%, and an oversubscription was reported. The National City Co. disposed of \$22,000,000 the Industrial Bank of Japan, Ltd. (Kabushiki Kaisha Nippon Kogyo Ginko) external 3-yr. 6% debenture notes, unconditionally guaranteed by the Imperial Japanese Government as to principal and int. by endorsement on each note, at 99¼% & int., to yield over 6.25%. Bankers offered \$20,000,000 Province of Ontario, Canada, 4½% 20-yr. bonds, at 96¾% & int., yielding over 4.75%. The National City Co. headed a syndicate which sold \$10,000,000 4% coupon consol. debenture stock of the Canadian Pacific Ry. at 81 & int., yielding about 4.94%. \$3,065,000 Republic of Bolivia external 25-yr. sec. ref. 8% bonds were offered successfully by a banking syndicate at 93 & int., to yield about 8.70%. F. J. Lisman & Co. and Morgan, Livermore & Co. disposed of \$3,000,000 Lower-Austrian Hydro-Elec. Power Co. "Newag" 6½% 20-yr. closed 1st mtge. bonds (guar. prin., sink. fd. & int. by the Province of Lower Austria) at 85 & int., to yield over 8%.

There were only a few announcements of dividend changes during the month, but this may be attributed to the fact that August is an off month for dividends—the number of companies making disbursements in that month being relatively small. Among the changes referred to may be mentioned the Middle West Utilities Co., which declared a quar. div. of \$1.75 per share on pref., as against \$1.50 per share previously paid. International Securities Trust of Amer. raised the quar. div. on com. from \$1.25 to \$1.50 a share. Utah-Apex Mining Co. resumed divs. A stock div. of 33 1-3% was declared on Brooklyn City RR. Co. cap. stock. Crane Co. declared a stock div. of 10% on com. An extra div. of 1% on com. in addition to the usual quar. div. of 1% was declared by U. S. Gypsum Co. Associated Gas & Elec. Co. declared an extra of 50c. per share (payable in four installments of 12½c. each) on pref. and announced an initial div. of \$1 per share on com.

On the other hand, there were several announcements of reductions or omissions by large companies. The Atlantic Refining Co. omitted its usual quar. div. on com. The usual quar. div. on Standard Oil Co. (Kansas) capital stock was passed and at the same time it was announced that no more dividend payments would be made for the remainder of the year, in view of the unsettled conditions brought about by the overproduction of crude oil and gasoline. Pressed Steel Car Co. deferred action on the non-cum. pref. and com. stocks. Lindsay Light Co. also deferred action on its pref. stock. The quar. div. on Gosnold Mills of New Bedford com. was omitted. Cabot Mfg. Co. failed to pay its usual quar. div. Whitman Mills of New Bedford cut its quar. div. from \$2.50 to \$2 per share. The quar. div. on Holmes Mfg. Co. was reduced from 3% to 2%. Youngstown Sheet & Tube Co. reduced its quar. div. on com. from \$1.25 to \$1 per share. The regular cum. div. of 2½% on Curtiss Aeroplane & Motor Co., Inc., pref. was declared, as compared with 3½% paid last March.

The stock market after further sharp advances the early part of August, with continued manifestation of buoyancy, suffered a severe setback the last ten days of the month and prices tumbled all around. In the case of many specialties which had palpably been the subject of pool manipulation, and been whirled up with great rapidity, the slump was of very pronounced character and the extent of the decline sensational. The break, as usually happens after a long period of advance, came just at the time when it was least expected, inasmuch as the market had shown sustained strength for so long. There appeared to be no special reason for the collapse in any of the large factors in the situation. It is true that industrial activity throughout the United States continued at a low ebb and the railroads submitted poor returns of earnings, in token of the small volume of business being done, but these were no new developments, and had been strongly in evidence in the months preceding, while the stock market was displaying such great buoyancy. Moreover, there were not lacking signs of early improvement in the state of trade. On the other hand, the definite acceptance of the Dawes plan for German reparations payments was undoubtedly a favoring factor of large moment. But all this was ignored and values melted away in a surprising manner, the declines being as a rule in proportion to the previous advances. There was tremendous liquidation, much of it, no doubt, forced, but some of it also the result of profit taking. With the market now displaying weakness where previously it seemed invulnerable to attack, bear operators came in to accelerate its downward pace. Many new high records for the year were established during

the first 20 days of the month, while prices were still on their upward course, both in the industrial list and among the railroads, but a substantial part of the new gains was lost in the subsequent collapse, at least in the case of the specialties. Railroad stocks suffered less in the decline than the industrial properties, but then, also, their antecedent rise in most instances had been less spectacular, and indeed a number of railroad shares established new high records for the year in the closing days of the month, when the general market was weak. Plans for the merger of the New York Chicago & St. Louis, the Erie, the Pere Marquette, the Chesapeake & Ohio and the Hocking Valley, which had long been rumored, were definitely announced early in the month, and the stocks of all these moved to new high records, though the advances were not maintained and most of the stocks ended the month lower than they opened. The success attending the floating of \$75,000,000 Balt. & Ohio bonds served to strengthen the whole railroad list.

While the market in its upward course undoubtedly had had more or less organized support, it had become evident that cliques were taking advantage of this situation to indulge in skyrocket performances in shares not particularly distinguished for their merit, and it was stocks of this description that suffered most in the resulting decline. In this category, for one example, belongs Col. Fuel & Iron, which on Aug. 5 sold at 54¼, the highest figure of the year, but on Aug. 25 dropped to 35½. This stock had sold at 24⅞ the previous February and been boosted by clique manipulation on no surer foundation than the possibility of oil being found somewhere in its territory, and some other shares could be mentioned where the grounds for spectacular advances had been hardly more substantial. In the break at the end of the month many industrial stocks, while suffering severely, merely lost part of the further gains established the early part of the month, and that is the reason why closing prices Aug. 30 in not a few instances are higher than were the opening prices Aug. 1. The oil stocks all through the month were under the handicap of the continued reductions in the price of petroleum and gasoline, and, as noted above, the Atlantic Refining Co. suspended dividends on its common stock and the Standard Oil of Kansas also passed the dividend on its stock. The last two or three days of the month, after prices had broken so badly, the bulls again came to the support of the market and somewhat of a rally occurred. The bond market also declined, though only slightly, the latter part of the month; even United States Government securities showed some shading in prices, the Fourth Liberty 4¼s, for instance, selling down to 101 23-32 Aug. 27 after having made a new high record for the year of 103 Aug. 9.

The extreme ease existing in money for so many months continued in August, except that towards the close of the month there was a slight fractional advance in the rates for the nearer maturities in the time loan branch of the market. The call loan rate on the Stock Exchange never deviated from 2% on any day of the month and renewals also were at the same figure, while outside the Stock Exchange there was nearly always some money obtainable at 1½%. As mercantile trade remained exceedingly slack, there was no evidence of any increase in the demand for funds from that quarter. On the other hand there were some indications going to show that the demand for funds for crop moving purposes was at hand. This last found expression in the withdrawal of money loaned at this centre by interior banking institutions or, what is the same thing, the drawing down of balances held here by such institutions. There was some increase the early part of the month in the requirements for Stock Exchange purposes during the time when stock market prices were still rising with great rapidity, but that class of accommodation at the banks must have diminished again the last ten days of the month with the collapse of values which then occurred on the Exchange. The "Wall Street Journal," which has been making estimates from time to time of the extent of the borrowing from the banks for Stock Exchange purposes, contained a statement on Aug. 18 saying that brokers' loans had somewhat further increased as a result of the market's activity and rising prices, and estimated the total now as being approximately \$1,350,000,000, an increase of about \$20,000,000 since the 1st of August. As of July 29 brokers' loans had been estimated at \$1,330,000,000 and as of date May 19 at \$1,300,000,000. This, after all, was a relatively slight increase for a period of, roughly, three months. As has been many times stated in these columns, the total was estimated as high as \$2,000,000,000 back in February 1923.

The President of the New York Stock Exchange, E. H. H. Simmons, thought it expedient to issue a statement on Aug. 21 bearing on the nature of these figures of brokers' loans, saying:

The attention of the officials of the Exchange has been called to a statement published in various newspapers, purporting to give the amount of loans to brokers, and the changes that have occurred in the amount of such loans. The officials of the Exchange have no figures as to the amount of brokers' loans and so far as they have been able to ascertain there is no source from which accurate figures on the subject can be obtained.

In reply the "Wall Street Journal" made announcement as follows: "Dow, Jones & Co. and the 'Wall Street Journal' compile the only estimates of brokers' loans published regularly by any newspaper. These figures are not obtained from the New York Stock Exchange."

Fixed-date money, while at all times adequate for all needs, was offered somewhat less freely the latter part of the month for the reason already given. Time loans about the middle of August were 2% per annum for 60-day accommodation, 2½@2¾% for 90 days, 3% for four and five months and 3¼% for six months. At the close of August, when, as already noted, a firmer undertone was observable, the quotations were 2¾% for 60 days, 3% for 90 days, 3@3¼% for four months, 3¼% for five months and 3¼@3½% for six months. A better inquiry for accommodations was noted, while the supply of available funds appeared lighter than for some time previously. Preparations for crop moving were given as the reason for the hardening tendency, as also preparations for the 1st of September settlements. Commercial paper ruled easy with fractionally lower rates the last half of the month, when quotations were 3@3¼% for four to six months names of choice character, with 3¼% @3½% required for names less well known. New England mill paper and the shorter choice names were dealt in at 3%.

As indicative of the continued monetary ease there were further reductions in the rediscount rates of several of the Federal Reserve banks. The Federal Reserve Bank of New York led the way on Thursday, Aug. 7, with the announcement of a reduction from 3½% to 3% in the rate for all rediscounts and advances effective Aug. 8. Current comment was again to the effect that this was the lowest rediscount rate prevailing in any of the leading countries of the world. On Aug. 14 the Federal Reserve Board announced that the Federal Reserve Bank of Cleveland had reduced its rediscount rate on all classes and maturities of paper from 4% to 3½%, and, effective Aug. 25, the Federal Reserve Bank of San Francisco lowered its rate on all classes of paper and for all maturities from 4% to 3½%.

The foreign exchange market did not quite pursue the course that might have been supposed, considering that the month will always remain noteworthy for the final successful termination of the work of the London Inter-Allied Conference for agreeing upon methods for carrying into effect the proposals of the Dawes committee of experts for rehabilitating Germany, so as to enable her to make reparations payments and the successful termination also of the separate negotiations to the same end between the Germans and the French. It cannot be said that exchange rates did not respond to this highly favorable event and, in a sense, an event of controlling importance. The fact is, however, that it was not actually and definitely known until towards the very end of the month that the Parliaments of the different countries could be depended on to ratify the agreements entered into, particularly ratification by the German Reichstag, and when this stage was reached the exchange market evinced a tendency to react, so that the whole of the improvement established in the early part of the month was not maintained. Favorable conclusion of the protracted work was never seriously in doubt, though grave apprehensions attended the negotiations, and perhaps the event had been over-discounted, as so often happens in the case of matters of prime importance, making reaction natural and, indeed, inevitable. Be that as it may, the fact remains that the improvement established was not wholly retained when the event for which the whole world had been looking was definitely achieved, albeit definite ratification of the proposals by the German Reichstag on Friday, Aug. 29, was followed by a smart advance on that day in exchange rates.

As far as sterling bills on London are concerned, very substantial improvement in rates occurred the early part of the month, in response to the favorable outlook for a speedy and satisfactory settlement of the whole reparations issue question. Between Aug. 1 and Aug. 11 bankers' sight bills on London advanced nearly 17c. in the pound sterling, or from \$4 40¼ to \$4 57, to the highest level of the year. This compared with a low of \$4 20¾ reached the latter part of January. Trading for a while was quite active and sterling bills changed hands in round amounts. At one time or

another nearly all of the large international banking houses were said to have participated in the buying movement and on a number of successive days the rate advanced 2c. or more each day. A general feeling of optimism prevailed. Then came realization that there were still some obstacles to be overcome before final success could be claimed, and thereupon orders for the purchase of exchange ceased to appear and a disposition developed to take profits. Sales for this purpose were in no small measure responsible for the downward reaction which followed. Yet it was not until the middle of the month that a bad break appeared. There was also a somewhat freer offering of commercial bills, and by Aug. 23 the rate for sight bills was down again to \$4 47 5/8, or nearly 10c. off from the high point of the month at \$4 57. Most of the trading emanated from London and there were some who expressed the opinion that the setback in quotations was due to special transactions not made public, but this could not be verified. Although offerings of commercial bills were in larger supply, no general influx appeared as at this season in other years. Just how large a volume of commercial bills was being held for better prices was a question that excited considerable interest. Owing to prevailing high prices, merchandise exports were not considered as yet having attained normal proportions. Some few commercial bills against cotton shipments made their appearance. There has been comment, too, on the increasing demand for foreign securities on the part of American investors. It is naturally argued that if this should continue it would act as a powerful counterweight to the seasonal offering of commercial bills on Europe, thereby preventing a serious relapse in market levels should these bills commence to make their appearance in really large volume. With the announcement on Friday, Aug. 29, of the final acceptance of the London agreement by the German Reichstag, the rate on London for sight bills moved up over 2 1/2c. to \$4 50 3/4 and the range Saturday, Aug. 30, was \$4 48 5/8 @ \$4 49 7/8.

Rates of exchange on the Continental centres early in the month likewise reflected the favorable aspect of reparations matters and some notable advances in rates were established. But here, too, a part of the advance was lost towards the end of the month. French francs naturally took the lead

and under the stimulus of a buying movement of substantial proportions checks on Paris shot up from 5.08c. Aug. 1 to 5.77c. Aug. 11. Thereafter there was considerable irregularity in the movements of rates, with the tendency downward, and by Aug. 20 French exchange was back to 5.36 1/4c. The very next day, however, there was a recovery to 5.46 1/4c., only to be followed by a renewed slump two days later, on Aug. 23, to 5.31 1/2c., but subsequently there was steady recovery, with a sharp upward spurt on Aug. 29 on the action of the German Reichstag in ratifying the agreement, and the rate that day got up to 5.52 1/2c., with the range Saturday, Aug. 30, 5.38 3/4 @ 5.44. A feature in the rise was the circumstance that for the first time in a protracted period local bankers took active part in market operations. This applies more especially to the early days of the month, when a wave of enthusiasm swept over the market and brisk buying of Franc exchange developed. Buying for tourist account was still in evidence, though upon a gradually diminishing scale. The course of the Belgian franc corresponded more or less closely, as is always the case, to that of French exchange. The rate for checks on Antwerp was at its lowest on Aug. 1 at 4.61c., from which figure there was a rise to 5.23c. Aug. 11, but with a still higher rate on Aug. 16 at 5.25 1/2c. A downward reaction then carried the rate back to 4.91c. Aug. 23. Thereafter there was improvement again, and on Aug. 29 5.09 1/2c. was touched, with the range Aug. 30 4.99 1/2 @ 5.03 1/2. The Italian lire on sight bills moved up from 4.32 1/2c. Aug. 1 to 4.55c. Aug. 11, was back again to 4.38 1/4c. Aug. 20, recovered to 4.45c. Aug. 29 and was 4.42 @ 4.43c. Aug. 30. Greek exchange enjoyed a sharp recovery, the same as other exchange, with some reaction the latter part of the month. The extremes for checks were 1.71 1/4c. Aug. 2 and 1.85 1/2c. Aug. 18, with the rate Aug. 30 1.82 1/2c. The German mark deviated only by a very minute fraction and was .00000000023 7/8 Aug. 30 against .00000000024 at the beginning of the month. The Austrian crown nearly the whole month continued stationary at .0014 1/8, notwithstanding that the Bank of Austria was obliged to raise its rate on Aug. 12 from 12% to 15%, the 12% rate having been in effect since June 5. The advance was due to the financial crisis through which Austria is passing as a result of over-speculation. The Bank of Germany showed a contraction in its note cir-

RATES OF EXCHANGE ON CONTINENTAL CENTRES.

Note.—Method of quoting French, Swiss and Belgian francs and Italian lire changed on Dec. 1 1920 to show the value of all these different units in cents per unit. The previous method of quoting was to give the number of francs or lire to the dollar.

ulation the first week of the month of 9,592,730,000,000,000,000 marks and a further contraction of 29,696,855,000,000,000,000 marks in the second week and of 42,526,120,000,000,000,000 marks in the third week.

In the case of the former neutral exchanges, exchange rates also as a rule showed improvement the first half of the month, part of which was lost the second half, but with some recovery again at the close on the favorable action of the German Reichstag. Thus the Swiss franc on checks was 18.58c. Aug. 1; 19.02c. Aug. 8; 18.71½c. Aug. 25 and 18.81½@18.83 Aug. 30. The Dutch guilder, as measured by sight bills on Amsterdam, was 38.20c. Aug. 1; 39.19c. Aug. 11; 38.61c. Aug. 23 and 38.64@38.68 Aug. 30. The Spanish peseta was weak the latter part of the month on continued political and military dissensions, after having manifested considerable strength in the early part of the month. The rate on checks was 13.35c. Aug. 1 and 13.54c. Aug. 11, with a tumble to 13.24c. Aug. 28 and with the rate Aug. 30 13.32. Rates on the Scandinavian centres were somewhat irregular, with Swedish exchange somewhat lower at the close of the month than at the opening, but with both the Danish and the Norwegian crown substantially higher. The Danish crown on checks was 16.39 Aug. 30, against 16.02@16.11c. Aug. 1 and the Norwegian crown 13.82c, against 13.53c., while the rate for the Swedish crown was 26.56c. Aug. 30, against 26.59c. Aug. 1.

Rates of exchange on leading South American points were generally somewhat higher, though the improvement as a rule was not fully maintained at the end of the month. The peso on Argentina was 34.43 Aug. 30, against 32.96 Aug. 1; the milreis on Brazil 10.00 Aug. 30, against 9.69 Aug. 1; the peso on Chile 10.15, against 9.75, and the peso on Uruguay 81.10, against 76.73. Rates on the Far East were higher, except that the Japanese yen showed some weakness the latter half of the month. The yen was 41½@42 Aug. 1; 42¼@42½ Aug. 16 and 41½@41¾ Aug. 30. The tael on Shanghai was 75½@75¾ Aug. 30, against 73¼@73¾ Aug. 1, and the dollar on Hong Kong 53¾@54 Aug. 30, against 53½@53½ Aug. 1. The rate on Bombay was not changed greatly, rupees being 32¼@33 Aug. 30 and 32¼@32½ Aug. 1. The Imperial Bank of India unexpectedly advanced its rate of discount on Aug. 21 from 4% to 5%. The 4% rate had been in effect only since July 31.

NEW YORK STOCK EXCHANGE

MONTHLY AND YEARLY RECORD

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1924 to date. They need no extended introduction, as they are self-explanatory. The tables embrace every security dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. The black-faced letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

In accordance with the rule adopted by the New York Stock Exchange in 1909, all quotations for interest-paying bonds are at a price to which accrued interest must be added. The exceptions to the rule are income bonds and bonds on which interest is in default. A few other bonds, like the Holland-American Line 6s and the Anton Jurgens Works 6s, for special reasons, are also quoted "flat," but where this is the case the notation "flat" will be found against the name of the issue. This method of quoting bonds became effective January 2 1909.

For footnotes to tables see last page of bonds and last page of stocks.

On the basis of \$5 to the £ sterling. On the basis of four marks to one dollar. First installment paid. Full paid. Part paid. Option sale. Bonds "when issued." Flat price.

STOCKS—PRICES AND SALES FOR AUGUST AND THE YEAR TO DATE.

In accordance with a rule of the Stock Exchange, effective Oct. 13 1913, all stocks are now quoted dollars per share

Prices are on basis of 100-share lots. Exceptions of stocks which sell only in a small way are noted by the letter a. Option sales are disregarded.

GENERAL QUOTATIONS

OF BONDS AND STOCKS

1. In the following thirty-four pages of tables quotations are given for all the more important securities listed on any Stock Exchange in the United States; also for leading unlisted and inactive securities.

2. Quotations from all Stock Exchanges are as near as possible for the closing day of the month preceding the date of issue. As the New York Stock Exchange began with Jan. 2 1909 to quote all bond prices "and interest," we have adopted the same method and no longer employ a designating mark to indicate the fact except where there is a deviation from this rule. The reader will understand, therefore, that unless the letter "f" is prefixed to the price, he must pay accrued interest in addition to the price. This, however, does not apply to income bonds or bonds in default, in which cases the price includes the interest, should there be any.

3. The letter "f" prefixed to bond prices denotes that the quotation is a flat price—that is, that the accrued interest forms part of the price, and therefore the purchaser does not have to provide for it separately in making payment. As already stated in the case of income bonds and bonds in default, the price is always "flat," and no designating mark is employed to indicate the fact.

4. Stock prices marked thus (d) are per share. All others are per cent except bank stock prices, which are quoted per share unless otherwise stated.

5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

6. The following abbreviations are often used, viz.: "M" for mortgage, "g" for gold, "gu" for guaranteed, "end" for endorsed, "cons" for consolidated, "conv" for convertible, "s f" for sinking fund, "l g" for land grant, "op" for optional.

7. The black-faced type in the letters showing the interest period indicates the month when the bonds mature.

NOTICE.—All bond prices are "and interest" except where marked "f" and income and defaulted bonds.

INDUSTRIAL AND MISCELLANEOUS SECURITIES

Under the heading "Industrial and Miscellaneous Securities" we include all issued which do not appear under the previous two headings, namely, "Railroad (Steam)" and "Public Utilities." In the case of stocks, however, we put "Textile Manufacturing," "Insurance," "Mining," "Real Estate and Land," "Title Guarantee and Safe Deposit Companies" under separate heads, then follow with the rest of the "Industrial and Miscellaneous."

NOTICE.—All bond prices are "and interest" except where marked "f" and income and defaulted bonds.

Table of industrial and miscellaneous stocks and municipal bonds. Columns include Stock Name, Par, Bid, Ask, and Price. Rows list various companies like Stanley Works, Steel Co of Can, and various municipal bonds.

Assessment paid, d Price per share, not per cent. & Last Sale. n Nominal. r Canadian price. s Sale price. t New stock. u Ex cash and stock dividend. * Ex stock dividend. * Ex dividend. y Ex rights. y Without par value.

UNITED STATES AND MUNICIPAL BONDS

In States and municipal bonds the custom has always been to quote them "and interest." That is, the accrued interest must in all cases be added on. There are a very few instances which form exceptions to the rule—that is, where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark, thus (f). The figures in the column "to net" indicate the basis on which the securities sell or the interest rate which the securities is held to maturity will net to the purchaser at the present market price.

Table of United States and Municipal Bonds. Columns include Bond Name, Bid, Ask, To Net, and Price. Rows list various bonds from different states like Alabama, California, and Connecticut.

b Basis f Flat price. n Nominal. * Tax Free in Connecticut.

BANKS AND TRUST COMPANIES.

Quotations in this department are given per share, not per cent, except for stocks of Canadian institutions, and are as near as possible for the closing day of the month preceding date of issue, though often are nominal. An asterisk (*) denotes sales.

Figures of deposits, capital and profits for the national banks are from the Comptroller's last call; for all other institutions they are the latest obtainable, direct returns being procured by us where no periodic statements are required. For the Clearing House banks of New York, Philadelphia and Boston, deposits are taken from the latest weekly statement.
