

BANK AND QUOTATION

SECTION

OF THE

COMMERCIAL & FINANCIAL CHRONICLE.

Copyrighted in 1924, according to Act of Congress, by WILLIAM B. DANA COMPANY, in office of Librarian of Congress, Washington, D. C.

VOL. 119.

NEW YORK DECEMBER 6 1924.

NO. 3102.

BANK AND QUOTATION SECTION

The Bank and Quotation Section, issued monthly, is furnished *without extra charge* to every annual subscriber of the *Chronicle*.

The Railway Earnings Section, issued monthly, containing the sworn returns of earnings and expenses filed each month with the Inter-State Commerce Commission, is likewise furnished *without extra charge* to every annual *Chronicle* subscriber.

The Bankers Convention Section, issued yearly, giving the detailed proceedings of the annual convention of the American Bankers Association, is also furnished *without extra charge* to *Chronicle* subscribers.

The Public Utility Compendium, issued twice a year, in April and October, is also furnished *without extra charge* to every annual subscriber to the *Chronicle*.

The Railway and Industrial Compendium, issued twice a year on the last Saturday in May and November, is also furnished *without extra charge* to every annual *Chronicle* subscriber.

The State and Municipal Compendium, issued semi-annually on the last Saturday of June and December, is likewise furnished *without extra charge* to every annual subscriber to the *Commercial & Financial Chronicle*.

Terms for the *Chronicle*, including the six supplements above named, are \$10 per annum within Continental United States, except Alaska, \$11.50 in Canada and \$13.50 in other foreign countries and United States Possessions and Territories.

File covers for the *Chronicle* are sold at \$1.00 each (postage 15 cents additional). File covers for Supplements can be had at same price.

REVIEW OF NOVEMBER—COMMERCIAL AND FINANCIAL EVENTS.

The all-pervading, all-absorbing and all-controlling feature of affairs during November was the Presidential election and the decisive nature of the outcome in the overwhelming majority (both in the Electoral College and the popular vote) given the candidates of the Republican Party, namely Calvin Coolidge of Massachusetts, the present incumbent of the office, for President and Charles G. Dawes of Illinois for Vice-President. In the character of the issues involved, this was without question one of the most important Presidential elections in American history. Certainly there has been no Presidential election, since that of 1896, when William Jennings Bryan ran for President on a free silver platform, where the country had so much at stake in the outcome. The reason was that a third party appeared in the field and espoused radicalism in a very pronounced form, putting forth as its candidate for President Senator Robert M. La Follette, who for years has been the exponent of radicalism in Congress, besides being the head of the little band of insurgents, denominated the farmer-labor bloc, which has been holding the balance of power between the two great parties in the United States Senate and House of Representatives in the present Congress, and by acting with the Democrats, has been molding legislation in accordance with its extreme ideas. Mr. La Follette has been nominally a Republican because always running on the Republican ticket in his home State, Wisconsin. As his team-mate for Vice-President, he had Senator Burton K. Wheeler of Montana, previously a Democrat, but who bolted the Democratic ticket because he was not satisfied with the nomination of John W. Davis of West Virginia for President, regarding him as the tool of financial interests, though the Democratic ticket also had on it the name of Charles W. Bryan of Nebraska, a brother of William Jennings Bryan, as the nominee of the party for Vice-President. It is not needful to name all the radical doctrines embodied in the platform of the third party, commonly known as the Progressive Independent Party, and which, as we have seen, had on its ticket

representatives of each of the great political parties, but two of the planks in the platform stood out with great prominence during the campaign and may be accepted as typical of the whole movement and crusade. Of these two planks one was the declaration in favor of Government ownership of the railroads and the other the proposition which would have given Congress the power to overrule the United States Supreme Court and set aside its decisions in cases where the court declares an Act of Congress unconstitutional, because in conflict with the fundamental law embodied in the United States Constitution, on which the union of the States is founded and grounded. It should be added that Mr. La Follette had the endorsement of the Socialist Party.

President Coolidge and his party accepted the challenge offered by the Third Party movement, and met the issues involved in a plain and straightforward manner, without the slightest attempt to evade or equivocate. In this respect the campaign was unique among the Presidential contests of recent years. In all previous Presidential elections, during at least the present century, there has always been a disposition on the part of the politicians in both the leading parties not to antagonize the radical element within the party folds, but to placate and truckle to it in order to gain its favor and its support. As a consequence this radical element had been getting constantly bolder and more imperious in its actions and its demands until finally, as we see, it deemed itself warranted in thwarting legislation not in accordance with its designs and then to make an appeal to the electorate in its own name and on its own platform—with the disastrous results to itself now known to the whole world.

In business and financial circles the relief experienced and the gratification felt over the election results has been in proportion to the previous anxiety. We may repeat that no Presidential election has been held in recent years upon the outcome of which so much hinged and the response, now that doubt and anxiety have been replaced by assurance and the brightest promise, has been of the most pronounced character. A great incubus has been removed from men's minds. With radicalism defeated the threat of adverse and repressive legislation disappears. Even the devotees of radicalism may be expected to heed the voice of the people. Since the early spring of 1924 a fear of destructive legislation—with the farmer-labor bloc frustrating the President's tax reduction plan and other measures—has been hanging like a pall over the business world, and enterprise has everywhere been held in check. The volume of trade kept steadily dwindling until the early summer, when an acute stage of depression was reached. Then the nomination of Mr. Coolidge and the clear and unequivocal stand he took, began to inspire new hope. As the campaign progressed and it became more and more apparent that his candidacy would be endorsed at the polls, business began slowly to improve, but enterprise still continued to lag, since men of large affairs would not enter upon new ventures of any great consequence until the last vestige of doubt was removed regarding the issues that had been raised. Now that these issues have been definitely and decisively settled, energies are once more fully released, and the invigorating influence has been everywhere immediately felt throughout the length and breadth of the land.

The country has had post-election booms before, but apparently none that compares with the present one in character and dimensions and in the swiftness with which it has taken hold of the entire population. Trade revival is strongly under way in all leading lines of industry, the stock

market is buoyant and active almost beyond precedent, and even the foreign exchanges have improved in a wonderful degree, there having been in this latter case, as is known, additional stimulating influences (1) in the victory the previous month of the Conservative Party in Great Britain, no less emphatic than the Republican victory in this country, the two together showing a decided drift away from radicalism in widely different parts of the world, and (2) in the successful carrying out of the Dawes plan for the rehabilitation of Germany, also (3) in the floating of a large loan in this country for the French Government, and (4) considerable extension of private credit to Germany.

In these two last particulars the developments during the month were unusually noteworthy. The French loan for \$100,000,000 was offered in this country on Monday, Nov. 24, and, like the German loan of the month before, proved a tremendous success. The bonds immediately commanded a premium, selling on the New York Stock Exchange the same day up to 94 $\frac{3}{4}$, and this premium was maintained with slight fluctuations the remainder of the month, the closing price Nov. 29 on the New York Stock Exchange being at the same figure, that is 94 $\frac{3}{4}$, for the bonds "when issued."

Matters in Germany connected with the carrying out of the Dawes plan progressed satisfactorily and the developments showed that Germany was now getting outside financial assistance of various kinds. Thus on Nov. 27 it was made known that an agreement had been entered into between the German State Railway Co. (organized in accordance with the Dawes plan) and a New York banking group, composed of Speyer & Co., Chase Securities Corporation, Blair & Co., Inc., the Equitable Trust Co. of New York, Bank of the Manhattan Co. and J. Henry Schroder Banking Corporation, and a London banking group headed by J. Henry Schroder & Co., under which the bankers granted to the railway company a credit of \$15,000,000, of which amount about one-third, it was stated, was in pounds sterling. The railway company has the right to avail itself of this credit any time prior to Jan. 31 1926, if desired temporarily for additional working capital. In stating that no public offering of this \$15,000,000 German Railway credit could be made, Speyer & Co. explained that "this business was suitable only for large banks and trust companies, a number of whom had already indicated their desire to participate." The rate of interest, it is understood, is 7% per annum. Cable advices from Berlin the latter part of the month also announced that 40,000,000 gold mark shares (approximately \$10,000,000) of the Deutsche Bank, Berlin, which this institution has had at its disposal since the last increase in its capital, had been sold to J. Henry Schroder & Co., London, and Speyer & Co., New York. At the office of Speyer & Co. the purchase of these shares was confirmed and it was stated that no decision had been arrived at as to whether and when the shares would be offered for public subscription in London and New York. The Deutsche Bank was organized in 1870 and is Germany's foremost private bank. On Nov. 3 it was also announced that Speyer & Co., on behalf of a banking group, including the Equitable Trust Co., Chase Securities Corporation and Blair & Co., Inc., had concluded negotiations with the City of Berlin for a one-year \$3,000,000 loan. It is expected that during the period of this short-time loan the City of Berlin will arrange with this banking group for the issue of a larger long-term loan in the United States. Coincident with this announcement of a loan to the City of Berlin, it was made known that among other credits of a similar nature placed privately a short time ago was a loan of \$2,000,000 to the City of Cologne (Germany) by the International Acceptance Bank, Inc., and Dillon, Read & Co. It is expected that this loan will be followed by a much larger offering a little later on.

Among the industries that derived most immediate benefit from the results of the elections was, as might be expected, the iron and steel trade. This had considerably improved since the low ebb reached in July, as the indications of Mr. Coolidge's election became more and more pronounced, though with business still greatly restricted, in presence of the fear of a possible adverse result, which fear only the election itself could conclusively remove. In the circumstances it was natural that the gratifying nature of the election should be immediately reflected in a greatly changed outlook in this trade, which is widely considered a barometer of the country's industries. It is also to be remembered that according to the trade journals a considerable number of the orders placed before the election were conditional and subject to recall if the election resulted unfavorably. In its issue of Nov. 13 the "Iron Age" of this city stated that the election result had stimulated iron and steel markets and views of the future were uniformly optimistic. No rush of buying had been looked for, and none had come, but there was greater activity and it was more marked in the Chicago district than elsewhere. "With inventory so near, buying of finished steel for this year is well calculated, but there is a lively interest in requirements for the first quarter of 1925. Apparently a large business could be done at recent low levels, but most producers ask \$2 to \$3 a ton higher, and prices are thus the crux of the

situation." The "Iron Trade Review" of Cleveland in its summary of conditions on the same date spoke in the same encouraging way, saying the results of the election had restored market faith, and adding:

Election results have cleared the air of much uncertainty and indecision and have brought high confidence to the iron and steel market which has resulted in an appreciable stimulation of new buying the past week. This immediate buying has been more pronounced in basic materials, particularly pig iron which has been lagging, than in finished lines. However, the latter also are reflecting the enhanced faith in future conditions and the shaping up of larger programs to meet these. Consumers of iron and steel seem no longer to feel cause for hesitation in committing themselves on forward requirements, at least for the first quarter, and this attitude plainly has marked the tonnage placed this week.

On Nov. 20 the "Iron Age" reported increased buying of iron and steel followed by price advances. It said: "Buying of pig iron and the heavy forms of finished steel gathered momentum last week. A rather general advance in prices of 50c. to \$2 per ton in pig iron, of \$2 in plates, structural shapes and steel bars, and of \$3 in strip and other forms of steel, followed this week." On Nov. 27 the "Age" reported some subsidence in the buying of steel products, but a marked expansion in the tonnage of orders released against contracts.

The "Age" made the composite price of finished steel, Nov. 25, 2.517c. per pound, against 2.460c. Oct. 28 and the composite price of pig iron \$20.54 per gross ton, against \$19.46.

In the case of the minor metals there were further price advances following those of the previous month. The copper market was much firmer and electrolytic copper, which during October had risen from 12 $\frac{3}{4}$ c. per pound to 13 $\frac{3}{4}$ c., now moved up to 13 $\frac{3}{4}$ c. Lake copper in New York, after having risen from 13 $\frac{3}{4}$ c. to 13 $\frac{1}{2}$ c. in October, now advanced to 14 $\frac{1}{4}$ c. Nov. 29. Tin at New York, which in October had moved up from 48.60c. to 53.25c., in November advanced to 54.80c. Lead at New York again touched 9c., as against 8c. Oct. 1. The situation as to petroleum and its products also improved and price recoveries now occurred, at least in the case of gasoline. Thus the Gulf Refining Co. and the Standard Oil Co. of New York twice advanced the gasoline tank wagon price in New England 1c. a gallon, bringing up the quotation to 15c. a gallon, the same as in New York, where there was only a single advance of 1c.

In the textile trades there was also a change for the better, particularly in the case of cotton goods, where production proceeded on a greatly increased scale after the sharply curtailed output of the summer months. In part this followed from the increased supplies of cotton and the greater stability of the market price of the staple. Estimates of the size of the 1924 crop of cotton in the United States were gradually enlarged, due to the fact that favorable weather conditions in the Cotton Belt made possible a larger top crop than had seemed likely. On Nov. 8 the Department of Agriculture at Washington made public its semi-monthly report showing the condition of the crop Nov. 1 and estimated the production at 12,816,000 bales, as compared with 12,675,000 bales two weeks before on Oct. 18. On Nov. 21 came the second bi-monthly report giving the prospects as of Nov. 14 and this made a further increase to 12,992,000 bales. Private estimates put the probable yield still higher, as it became increasingly apparent that more of a top crop was being made than anyone had counted upon. The ginning returns also ran in excess of expectations, the Census Bureau reporting on Nov. 21 11,147,524 bales ginned up to Nov. 14 1924, against only 8,369,498 bales up to the corresponding date in 1923. It is to be stated that, owing to the unsettling influence that the semi-monthly reports of the Government have had on market prices, the Board of Managers of the New York Cotton Exchange decided to suspend trading on the Exchange on Nov. 21 from 10.55 to 11.15 a. m. to give an opportunity to digest the Government report, which was scheduled to appear at 11 o'clock. The New Orleans Cotton Exchange pursued a similar course and Liverpool suspended from 3.55 to 4.15 p. m., that Exchange then remaining open until 4.45 p. m. Fluctuations in the price of cotton during November were within a comparatively narrow range. Middling upland spot cotton in New York was 23.60c. Nov. 1 and 24.80c. Nov. 14, and these were the extremes for the month. The price Nov. 29 was 23.75c. The price of print cloths at Fall River was marked up Nov. 7 from 7 to 7 $\frac{1}{2}$ c., on Nov. 10 to 7 $\frac{1}{4}$ c., and on Nov. 17 to 7 $\frac{3}{4}$ c., this being the quotation of 28-in. cloths, 64 x 64 construction.

The increase in the production of cotton goods was pretty general all over New England, and many of the Southern mills also extended their operations. In not a few instances resumption of work was at lower wages. The Amoskeag Manufacturing Co. in New Hampshire on Nov. 10 resumed work at the 10% reduction in wages accepted by the operatives several weeks before, and the new scale, affecting 14,000 textile workers, went into operation on that date. At Clinton, Mass., the operatives of the Lancaster Mills, Inc., accepted a wage cut of 10% and it was announced that the big plant would start on full time on Dec. 1. Some Western Massachusetts mills also announced wage cuts of 10%, effective Dec. 1. In Connecticut several mills resumed full time at wage cuts of 12% to 15%. On Nov. 17 wage reductions of 10% in the Maine cotton mills effective Nov. 24 were quite generally announced. And these instances appear to be typical of a situation that has become more or less general in different parts of New England. Production

of woolen goods also increased, though apparently here without change in wage scales as a rule. There was greater activity, too, in the silk trade and raw silk here was quoted at \$6 65@ \$6 75 a pound Nov. 29 for Kansai double extra cracks, against \$6 20@ \$6 30 Oct. 31 and \$5 95@ \$6 Sept. 30. Crude rubber here reached 36c. and also made a new high record for the year in London. On Nov. 3 it was officially announced that the exportable allowance of crude rubber from British controlled plantations for the quarter beginning Nov. 1 had been reduced from 55% to 50%. Ribbed smoked sheets for spot delivery were quoted at 35 $\frac{1}{2}$ c. Nov. 29, against 34 $\frac{1}{4}$ c. Oct. 31 and first latex crepe at 35 $\frac{1}{8}$ c., against 34 $\frac{1}{4}$ c.

Food prices moved still higher in a number of leading instances. In coffee the further advance was sensational under the influence of short crop reports from Brazil, though with a break of 5c. per lb. the latter part of the month. The fluctuations in coffee futures were violent in the extreme. No. 7 Rio for spot delivery was at one time quoted as high as 25 $\frac{1}{4}$ c. The quotation Nov. 29 was 21 $\frac{3}{4}$ c., against 22 $\frac{3}{4}$ c. Oct. 31, 18 $\frac{5}{8}$ @ 18 $\frac{3}{4}$ c. Sept. 30 and 16 $\frac{1}{2}$ @ 16 $\frac{3}{4}$ c. July 31. Cuban raw sugar at one time earlier in the month was down to 3 $\frac{3}{4}$ @ 3 $\frac{3}{8}$ c., but Nov. 29 was quoted at 45-16@ 4 $\frac{3}{8}$ c., against 43-16@ 4 $\frac{1}{4}$ c. Oct. 31. The wholesale price of refined sugars at the different refineries except the Federal Sugar Refining Co. was 7.25c. on Nov. 12, but subsequent advances made the range Nov. 29 7.50@ 7.60c. The Federal Co. kept its prices at 7.15@ 7.20c., the quotations in effect since Sept. 26. Grain prices moved up to new high levels in the case of wheat, on continued large exports, bad crop news from the Argentine and the reduced yield in Canada. The December option for wheat at Chicago advanced from \$1 38 $\frac{1}{2}$ Nov. 3 to \$1 56 $\frac{3}{8}$ Nov. 13 and closed Nov. 29 at \$1 53 $\frac{7}{8}$. The May option at Chicago shot up from \$1 44 $\frac{1}{2}$ Nov. 3 to \$1 64 $\frac{1}{4}$ Nov. 24, with the close Nov. 29 \$1 62 $\frac{3}{8}$. The December corn option at Chicago jumped from \$1 04 $\frac{1}{4}$ Nov. 1 to \$1 20 Nov. 19, but closed Nov. 29 at \$1 13 $\frac{7}{8}$. The May corn option at Chicago jumped from \$1 08 $\frac{1}{2}$ Nov. 3 to \$1 25 Nov. 19 and closed Nov. 29 at \$1 21 $\frac{5}{8}$. The December oats option at Chicago advanced from 48c. Nov. 3 to 55c. Nov. 19 and was 52 $\frac{1}{2}$ c. Nov. 29, while the May oats option rose from 52 $\frac{3}{8}$ Nov. 3 to 60c. Nov. 19 and closed Nov. 29 at 58 $\frac{1}{2}$ c.

The outstanding feature of the November loan offerings, as already stated, was the flotation of \$100,000,000 Government of the French Republic external loan of 1924 25-yr. sink fund 7% bonds by a large banking syndicate headed by J. P. Morgan & Co. The issue was quickly taken at 94 & int., to yield approx. 7.53% to maturity. \$20,000,000 Cities Service Power & Light Co. 20-yr. 6% secured sink fund bonds, Ser. "A," were offered by Dillon, Read & Co., Federal Securities Corp. and A. B. Leach & Co., Inc. This issue was disposed of at 94 $\frac{1}{2}$ & int., to yield about 6.50%. Blair & Co., Inc., headed a syndicate which sold \$15,000,000 Sinclair Consolidated Oil Corp. 3-yr. 1st lien coll. 6% bonds, Ser. "C," at 98 $\frac{1}{2}$ & int. \$12,945,000 Illinois Central RR. 4 $\frac{1}{2}$ % equip. trust certifs., Ser. "K," were placed by Kuhn, Loeb & Co. at an average price for equal amounts of all maturities of 98 $\frac{7}{8}$ %, being an average yield of 4.68%. Dillon, Read & Co. announced the sale of \$11,500,000 The Cleveland Electric Illuminating Co. gen. mtge. bonds 5%, Ser. "A," at 100 & int. A syndicate of bankers headed by Blair & Co., Inc., disposed of 126,000 shares Carolina, Clinchfield & Ohio Ry. leased line stock at \$78 50 per share, to yield about 5.50%. \$7,000,000 Chicago Union Station Co. 5% guar. bonds were placed by a group of bankers headed by Kuhn, Loeb & Co. at 98 $\frac{1}{2}$ & int., to yield approx. 5 $\frac{1}{8}$ % to maturity. A. C. Allyn & Co., Inc., and Stroud & Co., Inc., announced an oversubscription to the offering of \$6,500,000 Central Iowa Power & Light Co. 1st mtge. 6% bonds, Ser. "A," at 100 & int. 130,000 shares The Brunswick-Balke-Collender Co. com. stock were placed by Goldman, Sachs & Co. and Lehman Bros. at \$49 50 per share. Kissel, Kinnicutt & Co. headed a syndicate which disposed of \$6,000,000 Winnipeg Electric Co. 30-yr. ref. mtge. 6% bonds at 94 $\frac{1}{2}$ & int., to yield over 6.40%. S. W. Straus & Co., Inc., offered \$5,750,000 One Park Avenue Building 1st mtge. 6% bonds (serial maturities 3 to 15 years) at prices to net 6% for all maturities except 1927, 1928 and 1929, which were offered at prices to yield 5.75%, 5.85% and 5.95%, respectively. Lee, Higginson & Co. and Cassatt & Co. sold \$5,000,000 South Penn Collieries Co. 1st mtge. 6% bonds, Ser. "A," at 94 $\frac{1}{2}$ & int., yielding about 6 $\frac{1}{2}$ %. \$5,000,000 Hotel La Salle Co. (Chicago) 1st mtge. 5 $\frac{1}{2}$ % serial bonds were brought out by Halsey Stuart & Co., Inc., and Kissel, Kinnicutt & Co. at 100 & int. Bonbright & Co., Inc., offered \$5,000,000 The United Light & Power Co. debentures, 6 $\frac{1}{2}$ %, series of 1924, at 95 & int., to yield over 6.85%.

As usual at this time of the year, announcements of extra or increased dividends and stock dividends predominate. The Peoples Gas Light & Coke Co. raised its quar. div. from 1 $\frac{3}{4}$ to 2%. General Motors Corp. decl. a quar. div. of \$1 25 per share on the new com. stock, being at the rate of \$5 per annum, and comparing with quar. divs. of 30c. per share on the old com. stock, which is equivalent to \$4 80 per annum on the present com. Acme Steel Products Co. increased its quar. div. from \$1 to \$1 50 per share. The quar. div. on Tower Mfg. Co. com. was raised from 50c. to 75c. per share. Bristol Mfg. Co. increased its quar. distribution from \$2 per share to \$3 per share. Laclede Light Co. decl. a quar. div. of \$2 per share on com., as against \$1 75 paid previously, and in addition decl. an extra of \$1 per share. The semi-ann.

div. on American Pneumatic Service Co. 2d pref. was raised from 50c. to 75c. a share. Chicago St. Paul Minneapolis & Omaha Ry. paid a div. of 5% on the 7% non-cum. pref. stock. This div. is in payment of the div. on which action was deferred in June 1924. Piedmont & Northern Ry. decl. a quar. div. of 1%. Maine Central RR. resumed divs. on its 5% cum. pref. stock. Butte Copper & Zinc Co. decl. a div. of 50c. per share. An initial div. of 50c. per share was decl. on Simms Petroleum Co. capital stock. B. Kuppenheimer & Co., Inc., decl. an initial semi-ann. div. of \$1 per share on com. The following companies declared stock divs.: N. Y. Cannery, Inc., 3% on com.; Standard Gas Equip. Corp., 128% on com.; Atlas Portland Cement Co., 12 $\frac{1}{2}$ % on com.; International Cement Corp., 10% on com.; Brunswick-Balke-Collender Co., 50% on com.; Lit Bros., 25%; Blaw-Knox Co., 60%; U. S. Gypsum Co. decl. a stock div. of 35% on com. and an extra cash div. of \$5 per share, and in addition raised the quar. div. from 1% to 2%. Besides their usual dividends a number of companies made extra distributions. Solar Refining Co. decl. an extra of 5% on its capital stock. Casein Co. of America (N. J.) paid an extra of 2% on pref. The Casein Co. of America (Del.) paid an extra of 1%. Vacuum Oil Co. decl. an extra of \$1 per share. An extra of 50c. per share was decl. by Texas Gulf Sulphur Co. Lehigh & Wilkes-Barre Coal Co. decl. an extra of \$3 per share on com. An extra of 20c. a share was decl. on Eagle-Picher Lead Co. com. Motor Wheel Corp. decl. an extra of 2% on com. An extra of \$2 per share was paid by Ludlow Mfg. Associates, Boston. Neild Mfg. Corp. paid an extra of 1%. Elgin Natl. Watch Co. decl. two extra divs. of \$2 50 each, payable Dec. 20 1924 and Jan. 20 1925. An extra of 50c. per share was decl. by Household Products, Inc. Beech-Nut Packing Co. decl. an extra of 3% on com. Hawaiian Sugar Co. paid an extra 60c. per share, while Oahu Sugar Co. paid 40c. per share extra. Municipal Service Co. decl. an extra of 40c. a share on com. An extra of 5c. per share was decl. by Brooklyn City RR.

On the other hand, there were also a few announcements of reductions and suspensions. Ohio Oil Co. reduced its quar. div. from 2% to 1%. Holmes Mfg. Co. paid a quar. div. of 1 $\frac{1}{2}$ % on com., as against 2% paid the previous quarter. The semi-ann. div. on York Mfg. Co. capital stock was reduced from 4% to 3%. Durham Hosiery Mills deferred the quar. div. on its 7% cum. pref., while Niles-Bement-Pond Co. and Pratt & Whitney Co. both deferred payments on their 6% cum. pref. stocks.

The stock market responded to the splendid election results with a degree of enthusiasm and buoyancy that has seldom if ever been surpassed. The buying was conducted with the utmost confidence and reached enormous proportions. It represented purchases not only for speculative account, but also for investment. Stocks in large quantities were bought and paid for and taken out of the street. Indeed, so much was this latter a feature that some conservative brokerage houses reported that they were actually borrowing less money from the banks to carry stocks than previously. The Stock Exchange seemed to sense the importance and significance of the defeat of the radical Third Party as no other branch of activity. The market began to boil the day after election and it maintained this characteristic, up to the very close of the month. Not only million-share days, but two-million share days became common, and the advances in prices day after day were spectacular and sensational. Moreover, the gains in prices were cumulative, each day adding something further to the advances previously established, and there were no reactions of consequence from beginning to end of the month. Sales to realize profits were on an enormous scale, but they had almost no effect on prices, which kept advancing to higher and still higher levels. The explanation was found in the fact that a new crop of buyers came in to take the reams of stocks that were thrown over by those who were satisfied with the profits that had already accrued in their favor. For the time being the attention of the whole country, and indeed of the entire world, was concentrated on the Stock Exchange. The idea seemed common to the entire community that this was pre-eminently the time to buy stocks, that with radicalism dealt a blow, such as it had not received before in decades, a new era had opened up for enterprise and general business development. As in the month preceding, the railroad shares continued prime favorites and now the conclusion was drawn that the carriers were destined to derive greater benefits from the new order than any other branch of the country's activities. With the farmer-labor bloc shorn of its powers the railroads had the assurance of exemption from hostile legislation and rate reductions would come only when their condition permitted such a step without menace to their solvency. Then, also, the status of many of these railroad companies had been greatly improved during the four years since their release from Government control, and if business revival and prosperity is now to follow as the result of the election the volume of traffic over the roads will be correspondingly increased, with resulting larger revenues and larger profits for the share holders. Many properties, too, reorganized years ago, have been managed very conservatively, surplus earnings having been ploughed back instead of being paid out in dividends. As it happened, too, current income statements were proving very favorable (after having been poor in the first half of the year), owing to the large grain movement and the advan-

tages derived by the farmers from the high grain prices and the good harvests. Finally rumors of consolidation, as favored under the Transportation Act of 1920, continued rife, and these rumors appeared to find support in the developments of the day.

The advances in the railroad list during the month have been such as have probably never before been witnessed in the same space of time, several of the low-priced issues having doubled in value. Stocks of Southwestern roads have been particularly prominent in the upward flight, and St. Louis-San Francisco common closed Nov. 29 at 61½, against 37½ Oct. 31, it being announced that this company, which only a short time back began dividends on the preferred stock, meant now also to inaugurate dividends on the common shares. As a matter of fact on Dec. 3 the directors declared a quarterly dividend of 1¼% on this stock, payable Jan. 15 1925. Missouri Pacific pref. closed Nov. 29 at 70, against 59 Oct. 31; Missouri Kansas & Texas pref. at 68½, against 49¼; Chicago Rock Island & Pacific com. at 48, against 34; Pittsburgh & West Virginia com. at 71¼, against 56½; Northern Pacific com. at 69¾, against 63½; Baltimore & Ohio com. at 71¾, against 61¾, etc., etc. But the high-priced shares were only a little less prominent in this respect. Thus Southern Pacific closed Nov. 29 at 101½, against 93¾ Oct. 31; Un. Pac. com. 150¾, against 138¾; New York Central at 117¾, against 108¼; Aetehison com. at 115½, against 106¾, etc., etc. The industrial list later in the month moved forward in equally striking fashion, as the indications of trade revival multiplied. Some observations made on Nov. 25 by Judge E. H. Gary of the U. S. Steel Corp. proved a potent influence in advancing the steel shares. Mr. Gary said that the demand for iron and steel products was large and increasing and promised to be fully up to, and perhaps in excess of, manufacturing capacity. He also said that steel prices had been too low. U. S. Steel common closed Nov. 29 at 117¼ ex-div. of 1¾%, against 109¾ Oct. 31. But, as usual, it was the specialties that made the most spectacular gains and U. S. Cast Iron Pipe & Foundry closed Nov. 29 at 140, against 117¾ Oct. 31; this stock last February sold as low as 64. In truth, all through the list of industrial stocks striking advances occurred and new high records for the year were established by the score. Sears, Roebuck com. closed Nov. 29 at 139½, against 123½ Oct. 31 and U. S. Rubber pref. at 92¼, against 87¼, the outlook for the rubber companies having greatly improved as a result of the sharp rise in the price of crude rubber. The tone of the market was buoyant at the close on Nov. 29 and a large majority of the stocks—rails, public utility and industrials alike—closed at not far from the best figures of the month. Total sales for the month on the Stock Exchange reached 41,657,077 shares, as against 22,588,598 shares in November last year and on 11 out of the 18 full business days after Election (meaning with the Saturday half days excluded) the number of shares dealt in each day exceeded two million shares, and on one of these 11 days they ran in excess of 2,500,000 shares and on another day they were close to 2,500,000 shares. In the bond market there was also pronounced activity, but the advances did not extend to all the higher grade issues, which were in some instances fractionally lower, and it deserves to be noted that that is true also of the U. S. Liberty Loan issues, the Fourth Liberty loan 4¼s, for instance, having closed at 102 Nov. 29, against 102 24-32 Oct. 31.

VOLUME OF BUSINESS ON THE STOCK EXCHANGE.

Month of November—	1924.	1923.	1922.	1921.

As was to be expected, in view of the rampant speculation on the Stock Exchange and the greater activity of trade, there was a stiffening of rates in the money market. This was reflected in higher call loan rates and in fractional advances in the quotations for the shorter maturities in the time loan branch of the market. While trade palpably improved in response to what was regarded as the very favorable outcome of the Presidential election, the momentum gathered was hardly sufficient, owing to the shortness of the intervening time, to add very greatly to the commercial demand for accommodation at the banks. On the other hand, there appears to have been some further drawing down by interior banking institutions of their balances at this centre, and it has been noted that mail order houses, as measured by the extent of their operations, appeared to be more than ordinarily busy. This last was construed to signify that the agricultural classes who have benefited so largely from the high prices prevailing for grain and other farm products, coming concurrently with excellent harvests (except in the single particular of the corn crop, which happens to be deficient in both quantity and quality), were buying goods and merchandise sooner and on a larger scale than

had seemed likely. The enormous trading on the Stock Exchange must have added considerably to the borrowing on the part of brokers and Stock Exchange commission houses. It was a characteristic, however, of this trading that no inconsiderable part of it seemed to represent buying for investment rather than for mere speculative account. At all events that deduction appeared to follow from the statements made by important bankers and heads of moderate-sized and especially conservative Stock Exchange houses that in a good many cases brokers' loans had actually decreased since the big upward movement in stocks had begun following Election Day. This much seems certain, namely that extensive cash purchases, along with liquidation of speculative accounts by those who had large profits to their credit, served to offset in larger or smaller degree new buying by those speculating on margin. An estimate made early in the month, a week after the election, when Stock Exchange speculation was already very active, placed brokers' loans on Nov. 10 at \$1,600,000,000, compared with \$1,475,000,000 Oct. 7 and \$1,300,000,000 May 19. Call loans on the Stock Exchange on Monday, Nov. 3, and on Wednesday, Nov. 5 (the latter the day following the Election Day holiday), ranged each day between 2½ and 3%. On Nov. 6 there was an advance to 3½%, but later there was renewed ease and on Nov. 12, 13 and 14 all transactions were at the single rate of 2%. Thereafter, however, there was an advance again to 2½% and on Nov. 26 some transactions were as high as 3%, while on Nov. 28 as much as 4% was charged for some of the loans on call—the highest figure recorded since the previous May 27. The advance was attributed to preparations for the 1st of December disbursements. The renewal rate throughout the month was at 2½% except Nov. 6 and 7, when the charge was 3%, and Nov. 12 to Nov. 18, inclusive, when the rate was down to 2%. For time money there was an advance in the shorter maturities the very first week of the month, due to heavy calling of loans by the banks. Previously 60-day money commanded 2½@2¾% and 90-day money 2¾@3%; now the quotation for both was marked up to 3@3¼%. Four and five-months money remained at 3@3¼% and six-months money at 3¼@3½%. In the second week of November the tendency was towards still greater firmness and for a while 60-day money was quoted at 3¼@3½%, with the longer periods at 3½@3¾%. Before the close of that week, however, relaxation set in and the quotation for 60-day loans declined to 3@3¼%, for 90 days to 3¼, for four months to 3¼@3½%, and for five months to 3½%, with the rate for six months remaining at 3½@3¾%. In the third week of November there came a reduction to 2¾@3% for 60 days and to 3@3¼% for 90 days, with the rates for the longer maturities remaining unchanged. In the last week of November the tendency was again towards slightly higher levels, and the 60-day rate was quoted at the single figure of 3%, the 90-day rate at the single figure of 3¼% and the four months rate at the single figure of 3½%, while the five months rate continued to be quoted at 3½% and the six months rate at 3½@3¾%. Commercial paper rates also moved to fractionally higher levels, with the quotations at the close of November 3¼@3½% for four to six months' names of choice character, against 3@3¼% in October, with 3½@3¾% required for names less well known, as against the previous quotation of 3¼@3½%. New England mill paper and the shorter choice names continued to be dealt in at 3¼%. Rates for bankers' acceptances also moved upward. For call loans against bankers' acceptances the posted rate of the American Acceptance Council on Nov. 29 was 2¼%, against 1¾% at the close of October. At the close of November the Acceptance Council made the discount rate on prime bankers' acceptances eligible for purchase by the Federal Reserve Banks, 2½% bid and 2¾% asked for bills running 30 days, 2½% bid and 2½% asked for bills running 60 days, 2¾% bid and 2¾% asked for bills running 90 and 120 days, 2¾% bid and 2¾% asked for bills running 150 days and 3¼% bid and 3½% asked for bills running 180 days. There were no changes during the month in any of the rates of the Federal Reserve banks.

RATES FOR MONEY AT NEW YORK, WEEKLY.

Week Ending—	Nov. 7.	Nov. 14.	Nov. 21.	Nov. 28.

Prime 4 to 6 months	3-3¼	3-3¼	3-3½	3¼-3½
Good 4 to 6 months	3¼-3½	3¼-3½	3¼-3¾	3½-3¾

The foreign exchange market, like everything else, was favorably influenced by the outcome of the Presidential election. In this case the event was coupled with the victory the previous month of the Conservative Party in Great Britain and the defeat of the MacDonald Labor Party. The two events together were hailed as important indications going to show growing popular discontent with the principles and manifestations of radicalism throughout the world. Sterling exchange rates responded in a most emphatic way to this feeling. Rates were strong throughout the month and there was a series of advances which carried quotations to new high figures for the year. The British

further reduction of 88,634,000 gold marks and in the third week of 83,049,000 marks. The rate of exchange on Austria remained unaltered throughout the month at .0014½. The National Bank of Austria reduced its rate discount on Nov. 6 from 15% to 13%.

Rates on the former neutral centres appeared to be favorably influenced by the success attending the carrying out of the Dawes reparations plan and nearly all moved to higher levels—in the case of Dutch guilders and Swiss francs this was on top of the notable advance of the previous month. Sight bills on Amsterdam Nov. 28 were up to 40.38 and Nov. 29 were quoted at 40.34, against 39.49 Nov. 1. The Swiss franc moved up more slowly, as was the case in October, but checks on Switzerland nevertheless were 19.31 Nov. 28 and 19.30½ Nov. 29, against 19.24 Nov. 1. This brought Swiss francs, like Dutch guilders, above the gold export point, but it is not thought that Holland has any intention of adding to her present gold holdings, while it is known that the Swiss Bank has definitely refused to buy gold bullion. Another currency now above the gold shipping point is the Swedish crown, which during the month advanced from 26.58½ Nov. 1 to 26.88 Nov. 28 and was 26.87 Nov. 29. The other Scandinavian exchanges also moved higher, and the Danish crown on checks was 17.53 Nov. 29, against 17.34 Nov. 1 and the Norwegian crown 14.77 Nov. 29, against 14.35 Nov. 1. The Bank of Norway reduced its discount rate from 7 to 6½%. Spanish pesetas were also higher and Nov. 29 were quoted at 13.67 for checks (after having been still higher in the interval), against 13.49 Nov. 1.

In exchange on South American points the Argentine peso shot up from 86.67 Nov. 1 to 83.16 Nov. 29. The high grain prices are of great advantage to Argentina. The Brazilian milreis on checks, after declining from 11.36 Nov. 1 to 11.09 Nov. 5, moved up to 11.89 Nov. 17 and was 11.55 Nov. 29. The peso on Uruguay advanced from 91.16 Nov. 1 to 100.20 Nov. 19 and was 98.52 Nov. 29. The Chilean peso fluctuated more or less from day to day and was 11.32 Nov. 29 on checks, against 11.20 Nov. 1. Rates on Ecuador and Colombia, however, were lower. Rates on the Far East fluctuated within narrow limits. The Japanese yen was 39@39¼ Nov. 29, against 39¼@39½ Nov. 1. The dollar on Hong Kong was 55½@56½ Nov. 29, against 55½@55½ Nov. 1 and the tael on Shanghai 78¼@78½ Nov. 29, against 78½@78¾ Nov. 1. Rupees on Bombay were higher, notwithstanding the decline in the price of silver, being 35@35½ Nov. 29, against 34¼@34½ Nov. 1. The price of silver in London

was down to 33 3-16d. Nov. 21 and closed at 33 7-16 Nov. 29, against 34¼d. Nov. 1.

NEW YORK STOCK EXCHANGE

MONTHLY AND YEARLY RECORD

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1924 to date. They need no extended introduction, as they are self-explanatory. The tables embrace every security dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. The black-faced letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

In accordance with the rule adopted by the New York Stock Exchange in 1909, all quotations for interest-paying bonds are at a price to which accrued interest must be added. The exceptions to the rule are income bonds and bonds on which interest is in default. A few other bonds, like the Holland-American Line 6s and the Anton Jurgens Works 6s, for special reasons, are also quoted "flat," but where this is the case the notation "flat" will be found against the name of the issue. This method of quoting bonds became effective January 2 1909.

For footnotes to tables see last page of bonds and last page of stocks.

On the basis of \$5 to the £ starting sale. On the basis of four marks to one dollar. First installment paid. Full paid. Part paid. Options. Bonds "when issued." Flat price.

STOCKS—PRICES AND SALES FOR NOVEMBER AND THE YEAR TO DATE.

In accordance with a rule of the Stock Exchange effective Oct. 13, 1913, all stocks are now quoted dollars per share. Prices are on basis of 100-share lots. Exceptions of stocks which sell only in a small way are noted by the letter a. Option sales are disregarded.

GENERAL QUOTATIONS

OF BONDS AND STOCKS

1. In the following thirty-four pages of tables quotations are given for all the more important securities listed on any Stock Exchange in the United States; also for leading unlisted and inactive securities.
2. Quotations from all Stock Exchanges are as near as possible for the closing day of the month preceding the date of issue. As the New York Stock Exchange began with Jan. 2 1909 to quote all bond prices "and interest," we have adopted the same method and no longer employ a designating mark to indicate the fact except where there is a deviation from this rule. The reader will understand, therefore, that unless the letter "f" is prefixed to the price, he must pay accrued interest in addition to the price. This, however, does not apply to income bonds or bonds in default, in which cases the price includes the interest, should there be any.
3. The letter "f" prefixed to bond prices denotes that the quotation is a flat price—that is, that the accrued interest forms part of the price, and therefore the purchaser does not have to provide for it separately in making payment. As already stated in the case of income bonds and bonds in default, the price is always "flat," and no designating mark is employed to indicate the fact.
4. Stock prices marked thus (d) are per share. All others are per cent except bank stock prices, which are quoted per share unless otherwise stated.
5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.
6. The following abbreviations are often used, viz.: "M" for mortgage, "g" for gold, "gu" for guaranteed, "end" for endorsed, "cons" for consolidated, "conv" for convertible, "s" for sinking fund, "l" for land grant, "op" for optional.
7. The black-faced type in the letters showing the interest period indicates the month when the bonds mature.

NOTICE.—All bond prices are "and interest" except where marked "f" and income and defaulted bonds.

INDUSTRIAL AND MISCELLANEOUS SECURITIES

Under the heading "Industrial and Miscellaneous Securities" we include all issued which do not appear under the previous two headings, namely: "Railroad (Steam)" and "Public Utilities." In the case of stocks, however, we put "Textile Manufacturing," "Insurance," "Mining," "Real Estate and Land," "Title Guarantee and Safe Deposit Companies" under separate heads, then follow with the rest of the "Industrial and Miscellaneous."

NOTICE.—All bond prices are "and interest" except where marked "P" and income and defaulted bonds.

Table of industrial and miscellaneous stocks and municipal bonds. Columns include Stock Name, Par, Bid, Ask, and Price. Rows list various companies like Stanley Works, Steel Co of Can, and various municipal bonds.

Assessment paid. d Price per share, not per cent. * Last Sale. n Nominal. r Canadian price. s Sale price. t New stock. u Ex-cash and stock dividend. v Ex stock dividend. w Ex dividend. y Ex rights. † Without par value.

UNITED STATES AND MUNICIPAL BONDS

In State and municipal bonds the custom has always been to quote them "and interest." That is, the accrued interest must in all cases be added on. There are a very few instances which form exceptions to the rule—that is, where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark, thus (f). The figures in the column "to net" indicate the basis on which the securities sell or the interest rate which the securities is held to maturity will net to the purchaser at the present market price.

Table of United States and Municipal Bonds. Columns include Bond Name, Bid, Ask, Net, and Price. Rows list various bonds from different states and municipalities, such as 2s Pan Can Nov 1938, 3s Panama Canal 1961, etc.

b Basis. / Flat price. Nominal. * Tax Free in Connecticut

BANKS AND TRUST COMPANIES.

Quotations in this department are given per share, not per cent, except for stocks of Canadian institutions, and are as near as possible for the closing day of the month preceding date of issue, though often are nominal. An asterisk (*) denotes sales.

Figures of deposits, capital and profits for the national banks are from the Comptroller's last call; for all other institutions they are the latest obtainable, direct returns being procured by us where no periodic statements are required. For the Clearing House banks of New York, Philadelphia and Boston, deposits are taken from the latest weekly statement.
