Published every Saturday morning by WILLIAM B. DANA COMPANY, President and Editor, Jacob Selbert; Business Manager, William D. Riggs; Treas., William Dana Selbert; Sec., Herbert D. Selbert. Addresses of all, Office of Co.

### The Financial Situation.

One of the distinctive features of the time, in this hectic and feverish era, where the spirit of speculation is running wild and bank credit is being put to all sorts of meretricious uses, is the passive way with which growing evils are being viewed and tolerated. The spirit of resignation that is being displayed in dealing with such evils and the utter helplessness that is manifested in their presence are too palpable a development to be passed over without notice. The general attitude seems to be that unfortunate developments must be patiently and meekly borne and that there is really nothing that can be done about them. The evils are recognized, even discussed and exposed to view, but no one apparently possesses the courage or the ingenuity to grapple with the problem or seems bent on resolute action for eradicating the evils themselves, thereby warding off the menace for the future which they indubitably carry.

We are impelled to these reflections by the discussion of the question of brokers' loans contained in the December bulletin, issued the present week, of the Federal Reserve Board at Washington. The printed copy of this Reserve bulletin has not yet reached us, but news dispatches tell us that in its discussion the Federal Reserve Board lays stress upon the fact that corporations have played a prominent part in financing the recent speculative activities in the stock market. The reference is plainly to the class of brokers' loans made by the reporting member banks in New York City under the designation "for account of others" in distinction from those made by these reporting member banks for their own account and those made for account of out-of-town banks. How this corporate financing in behalf of speculative borrowing has come about, the Reserve Board outlines as follows:

"During the period of low money rates from 1922 to 1927," the board says, "securities were floated by

corporations in exceptionally large volume and the proceeds of these flotations not only strengthened the cash position of the corporations and enabled them to reduce their bank loans but also placed at their disposal funds in excess of their current requirements.

"The high money rates prevailing in recent months on loans in the security markets have attracted large amounts of these surplus funds, with the consequence that loans to brokers for the account of non-bank customers increased very rapidly during the last quarter."

To our mind the foregoing is only a partial explanation of the underlying causes of the great expansion in the class of borrowing referred to, and we are inclined to think it would never have reached the proportions it has if the banks themselves had not aided and abetted the movement. But let that pass. The Board goes on to say, what is true, that one of the effects of this transfer of lending from banks to corporations has been a decline in bank deposits, as the depositors have drawn on their balances to provide funds for the loans. "The decline in deposits, in turn, has been a factor in diminishing reserve requirements of member banks, and loans to brokers by corporations, therefore, have had the incidental effect of supplying credit for the use of the stock market while at the same time releasing member bank reserves." We should hardly call this matter of diminishing reserve requirements an "incidental effect." To us it seems the most serious effect of all, a development full of menace, and an evil to be redressed. But the Reserve Board has nothing to suggest and apparently is at a loss to know what to do. Has not the time arrived for grappling with the problem in sincere earnest and with the determination to apply a corrective which shall at least remove its most threatening phases and aspects. The question of adequate reserves is a vital one, and cannot and should not be side tracked.

The American Bankers' Association, in its annual convention at Philadelphia at the beginning of October, glossed over the matter in the same futile way. They adopted a series of resolutions which wound up with the placid declaration that "We therefore look upon the present situation as one which will undoubtedly correct itself as times goes on, until the banking system of the country again has a proper control over the surplus funds of the country. But it is our opinion that the development of the practice of withdrawals from banks by corporations and others for the purpose of making loans on Stock Exchange securities should be limited in some reasonable manner, possibly based upon the maintenance of normal balances which should not be disturbed by those who take part in Stock Exchange loans."

In still another resolution, the A. B. A. made a plea to the lenders themselves of the class of loans

referred to, this resolution saying: "We respectfully suggest that bank depositors who have funds for investment co-operate with their bankers to the end that nothing unsound shall be allowed to develop that might result in the disturbance of the healthy business conditions upon which we must all depend for our comfort and happiness." This is all very nice, but further enormous expansion in the loans of that character since the resolutions were adopted has made it plain that the offenders are not likely to be moved by appeals to their morals or their consciences. Moreover, relying placidly upon the idea that the existing situation "will undoubtedly correct itself as times goes on," is likely to lead to disappointment and to invite disaster. Sitting idly by, with folded hands, awaiting a miracle is, after all, nothing but a council of despair. Resolute, forward looking, action is needed. Nothing else will suffice. The time has gone by when anything less than that would answer.

The Federal Reserve statements this week may be said to be quite colorless and yet not out of line with expectations and prevailing conditions. Broker's loans show a further decline, but of only moderate dimensions. After last week's contraction of \$218,839,000, there is this week a further contraction of \$64,929,000, making \$283,768,000 for the two weeks combined. Considering that the shrinkage occurs after 15 consecutive weeks of increases, during which the total of these loans to brokers and dealers (secured by stocks and bonds), rose from \$4,201,131,000 on Aug. 22 to \$5,394,590 Dec. 5, the contraction now must be regarded as relatively small, especially considering the extent of the liquidation that has occurred on the Stock Exchange during the interval and the tremendous decline in stock prices which attended the liquidation. But though the outside public is no longer carrying the stocks, the cliques and pools who purchased the stocks after their drop of 20 to 25 points or more, and who apparently have not lost confidence in the belief of a new advance in prices, are presumably borrowing just as freely as did the deluded outsiders before the lesson they received from the collapse.

In these circumstances, it is probably too much to count upon very substantial reductions in Stock Exchange borrowing for any prolonged period, week after week. That there is great room for further reductions appears from the fact that even after the shrinkage of the last two weeks the total of these brokers' loans is still nearly 1½ billion dollars larger than at the corresponding date in 1927, the amount now at \$5,110,822,000 Dec. 19, comparing with only \$3,644,331,000 a year ago on Dec. 21. This week's decrease in these loans occurred mainly in the loans made for account of the out-of-town banks, the total of which dropped from \$1,794,073,000 to \$1,749,586,000. The loans made by the reporting member banks in New York City for their own account fell off during the week only from \$1,045,096,000 to \$1,030,060,000, while the loans "for account of others" show very little change, the total standing at \$2,331,176,000 Dec. 19 against \$2,336,582,000 Dec. 12.

In the returns of the Federal Reserve banks themselves a favorable feature is a substantial diminution in member bank borrowing, the total of the discount holdings of the 12 Reserve institutions having dropped during the week from \$1,028,352,000 to \$946,710,000. This is in sharp contrast with the

showing the previous week when member bank borrowing actually increased from \$1,012,182,000 to \$1,028,352,000 in face of the reduction of over \$218,000,000 in brokers' loans by the reporting member banks in New York City. The Federal Reserve institutions have also substantially reduced their holdings of acceptances bought in the open market, the amount of these having declined from \$494,323,000 Dec. 12 to \$453,111,000 Dec. 19. As against this, the holdings of U. S. Government securities have risen from \$235,507,000 to \$290,542,000. The increase in these holdings, however, is without significance. It occurs wholly in the item of certificates of indebtedness. These have risen from \$65,837,000 Dec. 12 to \$131,838,000 Dec. 19 and the increase is due entirely to purchases of temporary certificates of indebtedness to accommodate the U. S. Treasury pending the final collection of the Income Tax receipts. The Reserve banks purchased \$77,500,000 of these temporary certificates of indebtedness. Even after the increase in the holdings of Government securities the total of the bill and security holdings of the 12 Reserve institutions is only \$1,700,723,000 now (Dec. 19) against \$1,762,597,000 on Dec. 12, marking a decrease for the week of \$61,874,000, which is a step in the right direction.

One effect of the diminished borrowing of the member banks has been to cut down their reserves on deposit with the Reserve institutions, the deposits held by the 12 Reserve banks having declined during the week from \$2,465,967,000 to \$2,356,426,000. Federal Reserve notes in circulation, however, increased during the week from \$1,813,720,000 to \$1,869,192,000, while gold holdings declined from \$2,626,975,000 to \$2,614,967,000.

Perhaps too much significance should not be attached to the diminished borrowing of the member banks at the Reserve institutions, since it appears to be due in no small measure to an increase in government deposits. We notice that in the case of the 44 member banks in New York City, Government deposits have run up from \$1,101,000 Dec. 12 to \$67,953,000 Dec. 19, and in the case of the 43 reporting member banks in the Chicago Reserve district, they have increased from \$211,000 to \$7,505,000. It accordingly follows that for the entire body of 629 reporting member banks in the 12 Reserve districts combined the addition to government deposits during the week must have been very much larger than that shown at New York and Chicago alone.

The stock market this week has moved slowly, but steadily, towards a higher level. The course of prices has been ragged and irregular, both for the market as a whole and for different stocks and different groups of share properties. There has been more or less bear pressure at times, under which prices have declined from day to day and from hour to hour, but quick and ready rebounds have invariably occurred the moment the selling ceased. Some few stocks are lower for the week as a result of such selling, but on the whole the market has been more responsive to bull manipulations than to bear movements—that is, it has been easier to advance prices, than to reduce them. Some stocks indeed have had the good fortune of being able to record new high prices for the year. While the number is not large, a few have attained that distinction during the week, and in the following table we show the more important of them:

## STOCKS MAKING NEW HIGH FOR YEAR.

Railroad—	International Cement.
Western Pacific.	International Nickel.
Industrial & Miscellaneous—	McCall Corporation.
American Chicle.	Mohawk Carpet Mills.
Beech-Nut Packing.	Montgomery Ward, new stock.
Central Alloy Steel.	National Bell Hess.
Chicago Pneumatic Tool.	Otis Elevator.
Columbian Carbon.	Pierce-Arrow class A.
Detroit Edison.	Pittsburgh Coal.
Eisenlohr & Bros.	Pittsburgh Terminal Coal.
Electric Auto Lite.	St. Joseph Lead.
Federal Light & Traction.	Spicer Mfg.
Goodyear Tire & Rubber.	Standard Sanitary Mfg.
Granby Consolidated Mines.	Vick Chemical.
Greene Cananea Copper.	Waldorf System.

The market has been comparatively dull all week, though the volume of transactions has been gradually rising. With the falling off in the dealings, the Stock Exchange was able on Tuesday to resume showing the sales volume in the case of the individual transactions as reported on the ticker tape. The sales on the New York Exchange at the half-day session last Saturday were 1,290,850 shares. At the full day's sessions the sales were 2,231,100 shares on Monday; 2,273,430, shares on Tuesday; 3,401,240 shares on Wednesday; 3,812,520 shares on Thursday, and 3,463,600 shares on Friday. In the New York Curb Market business has also been gradually increasing, the sales on Saturday having been 620,300 shares; on Monday 746,800 shares; on Tuesday 955,900 shares; on Wednesday, 1,178,300 shares; on Thursday, 1,246,000 shares, and on Friday 1,225,600 shares. On both exchanges the sales increased and prices advanced notwithstanding tightening money conditions, call loans on the Stock Exchange on Thursday having touched 8% and on Friday, 9%.

As usual, the widest fluctuations have occurred in the specialties and the high priced stocks. Radio Corporation of America closed yesterday 380 $\frac{3}{4}$  against 350 on Friday of last week; Montgomery Ward & Co. closed at 144 $\frac{1}{2}$  against 121 $\frac{1}{2}$ ; Victor Talking Machine at 143 $\frac{1}{2}$  against 142 $\frac{1}{2}$ ; Wright Aeronautic Corp. at 255 against 215; Sears, Roebuck & Co. at 168 $\frac{1}{4}$  against 160 $\frac{1}{4}$ ; International Nickel at 263 against 255; A. M. Byers at 187 against 188; American & Foreign Power Co. at 70 against 68 $\frac{1}{4}$ ; Brooklyn Union Gas at 184 $\frac{1}{4}$  against 181 $\frac{3}{4}$ ; Consolidated Gas of N. Y. at 105 against 100 $\frac{1}{4}$ ; Columbia Gas & Elec. at 128 against 127; Public Service Corp. of N. J. at 73 $\frac{1}{2}$  against 72 $\frac{3}{8}$ ; American Can at 103 $\frac{1}{8}$  against 97 $\frac{1}{8}$ ; Allied Chemical & Dye at 241 against 225 $\frac{7}{8}$ ; Timken Roller Bearing Co. at 142 $\frac{3}{4}$  against 137 $\frac{3}{4}$ ; American Express at 290 against 283 $\frac{3}{4}$ ; Warner Bros. Pictures at 122 against 112 $\frac{7}{8}$ ; Commercial Solvents Corp. at 220 against 221; American Tel. & Tel. at 189 $\frac{1}{4}$  against 190 $\frac{7}{8}$ ; General Electric at 193 against 181; Mack Trucks at 104 against 99 $\frac{1}{4}$ ; Yellow Truck & Coach at 39 $\frac{1}{2}$  against 35 $\frac{5}{8}$ ; National Dairy Prod. at 122 $\frac{1}{2}$  against 119; Western Union Telegraph at 180 against 181 $\frac{1}{2}$ ; Westinghouse Electric & Mfg. at 129 $\frac{3}{4}$  against 123 $\frac{1}{8}$ ; Johns-Manville Corp. at 186 $\frac{1}{8}$  against 172; National Bellas Hess Co. at 198 against 150 $\frac{1}{8}$ ; American Radiator at 190 against 179 $\frac{1}{4}$ ; Associated Dry Goods at 64 $\frac{1}{8}$  against 67; Commonwealth Power at 101 at against 100 $\frac{3}{4}$ ; Lambert Co. at 128 against 120 $\frac{1}{2}$ ; Texas Gulf Sulphur at 73 $\frac{5}{8}$  against 73, and Kolster Radio at 69 against 68 $\frac{1}{4}$ .

The copper stocks have again shown special strength. Magma Copper increased its dividend from a basis of \$3.00 annually to \$4.00 annually and Granby Consol. Mining, Smelting & Power increased its quarterly dividend from \$1 to \$1.50 per share. Kennecott Copper closed yesterday at 144 $\frac{3}{4}$  against

133 $\frac{3}{8}$  on Friday of last week; Greene Cananea at 176 against 170 $\frac{3}{4}$ ; Anaconda Copper at 114 $\frac{1}{2}$  against 105 $\frac{1}{2}$ ; Calumet & Hecla at 41 $\frac{1}{2}$  against 40 $\frac{7}{8}$ ; Andes Copper at 49 $\frac{7}{8}$  against 47 $\frac{7}{8}$ ; Inspiration at 42 against 41 $\frac{3}{4}$ ; Chile Copper at 67 $\frac{3}{4}$  against 63 $\frac{1}{2}$ ; Calumet & Arizona at 119 $\frac{3}{4}$  against 111 $\frac{3}{4}$ ; Granby Consol. Copper at 88 against 82 $\frac{1}{4}$ ; American Smelting & Rfg. at 269 $\frac{1}{2}$  against 261; and U. S. Smelting, Rfg. & Min. at 62 $\frac{1}{8}$  against 63. All the motor stocks have been strong, not excepting General Motors, which rose sharply on the favorable outlook for 1929 prognosticated by President Alfred P. Sloan, Jr., of that company. The stock closed at 194 $\frac{3}{4}$  against 183 $\frac{7}{8}$  the close the previous Friday; Packard Motor Car closed at 151 $\frac{1}{2}$  against 149 $\frac{5}{8}$ ; Chrysler Corp. closed at 121 $\frac{3}{4}$  against 117 $\frac{3}{4}$ ; Studebaker Corp. at 75 $\frac{3}{8}$  against 72 $\frac{1}{2}$ ; Nash Motors at 102 against 95 $\frac{5}{8}$ ; Hudson Motor Car at 86 $\frac{7}{8}$  against 83 $\frac{1}{8}$ ; Chandler-Cleveland Motor pref. at 36 $\frac{5}{8}$  against 35 $\frac{1}{8}$ ; Hupp at 75 $\frac{1}{2}$  against 73 $\frac{1}{2}$ . The rubber stocks have again been strong, on the theory that the low price and unrestricted control of the production of rubber must in the end prove advantageous to all the rubber companies. Goodyear Tire & Rubber closed yesterday at 111 $\frac{1}{2}$  against 105 on Friday of last week; B. F. Goodrich closed at 93 $\frac{3}{8}$  against 88 $\frac{1}{2}$  and U. S. Rubber at 38 $\frac{5}{8}$  against 41 $\frac{3}{8}$  and the pref. at 76 $\frac{1}{2}$  against 73 $\frac{3}{4}$ .

The steel stocks displayed strength on the continued favorable outlook for the steel trade. U. S. Steel closed yesterday at 157 $\frac{7}{8}$  against 152 $\frac{3}{4}$  last Friday; Bethlehem Steel at 83 $\frac{1}{8}$  against 80 $\frac{7}{8}$ ; Republic Iron & Steel at 78 $\frac{1}{2}$  against 77 $\frac{7}{8}$ , and Ludlum Steel at 77 against 79. In the oil group, Phillips Petroleum closed yesterday at 44 $\frac{7}{8}$  against 45 last Friday; Texas Corporation at 64 $\frac{5}{8}$  against 64 $\frac{1}{2}$ ; Richfield Oil at 45 $\frac{3}{4}$  against 45; Atlantic Rfg. at 56 $\frac{1}{8}$  against 55 $\frac{7}{8}$ ; Marland Oil at 42 $\frac{3}{8}$  against 42 $\frac{3}{8}$ ; Standard Oil of New Jersey at 53 $\frac{3}{4}$  against 52 $\frac{3}{8}$ ; Standard Oil of New York at 40 $\frac{7}{8}$  against 38 $\frac{1}{2}$ , and Pure Oil at 26 $\frac{3}{4}$  against 26 $\frac{1}{4}$ .

The railroad stocks showed greater animation and joined in the upward movement. New York Central closed yesterday at 189 against 184 $\frac{7}{8}$  last Friday; New Haven at 76 $\frac{3}{4}$  against 73 $\frac{3}{8}$ ; Union Pacific at 209 against 207 $\frac{1}{2}$ ; Canadian Pacific at 234 against 228 $\frac{1}{4}$ ; Balti. & Ohio at 119 against 118; New York Chic. & St. Louis at 132 against 130 $\frac{1}{4}$ ; Del. & Hudson at 191 $\frac{1}{2}$  against 189 $\frac{1}{4}$ ; Atchison at 194 $\frac{1}{4}$  against 195; Southern Pacific at 125 $\frac{1}{8}$  against 125; Texas & Pacific at 170 against 161; Missouri-Pacific at 62 $\frac{1}{2}$  against 62 $\frac{3}{8}$ ; Kansas City Southern at 88 $\frac{1}{8}$  against 87 $\frac{3}{8}$ ; St. Louis Southwestern at 106 $\frac{1}{2}$  against 103; St. Louis-San Francisco at 114 $\frac{3}{4}$  against 114 $\frac{3}{8}$ ; Missouri-Kansas-Texas at 52 against 51; Rock Island at 128 $\frac{1}{2}$  against 127 $\frac{1}{2}$ ; Great Northern at 108 $\frac{7}{8}$  against 107 $\frac{7}{8}$ ; Northern Pacific at 107 $\frac{7}{8}$  against 105 $\frac{3}{8}$ ; Chicago Milwaukee St. Paul & Pac. pref. at 53 $\frac{7}{8}$  against 54 $\frac{1}{4}$ ; Chicago Great Western common at 20 $\frac{3}{8}$  against 24 $\frac{3}{8}$ , and the preferred at 46 $\frac{5}{8}$  against 49 $\frac{1}{8}$ .

Merchandise exports from the United States for November make another new record. The value for that month, as shown by the preliminary figures issued this week is slightly less than the total reported for October. In the latter month, as has previously been noted, merchandise exports were in excess of any previous peace-time monthly report. But November is a shorter month, two days shorter

if allowance is made for Sundays and holidays, and with this difference, the movement for November averages at a higher rate than in October by 1.3%. November exports are valued at \$546,000,000. The revised figures for October place the value for that month at \$550,866,000. These are both unusually heavy amounts. In November 1927 the export movement was \$460,940,000, the increase this year hence being \$85,000,000. On the other hand, merchandise imports last month again fell off, the value being less than in October as well as smaller than in November 1927. Imports in November are valued at \$327,000,000, these figures comparing with \$355,404,000 for the preceding month and with \$344,269,000 a year ago. The excess of exports for November is at the unusually large total of \$219,000,000; for October the amount was also very large at \$195,462,000, while for November 1927 it was \$116,671,000.

Unlike October, raw cotton contributed considerably to the larger exports of merchandise in November, the movement being 1,451,500 bales in November against 1,002,000 bales in November last year. Cotton exports in October were also in excess of last year, but the increase then was not as large as in November. At this season cotton exports are approximately one-quarter the total value of all exports, and this ratio was slightly exceeded in November. The increase in value of cotton exports last month over a year ago was \$26,530,000 or 21%. In October the increase in value of cotton exports over the preceding year was only 3.8%. For exports other than cotton, the value in November exceeded that of last year by \$58,600,000, and the corresponding figures for October were practically the same amount, \$57,400,000. It has been shown that in October the gain in exports was largely in the movement abroad of manufactures, notably in automobiles and agricultural implements; in crude materials other than cotton; manufactured foodstuffs, and semi-manufactures, these items contributing in the aggregate nearly 90% of the total value of all exports. Probably much the same movement was continued in November.

There has been an improvement in exports throughout the entire year, but it was not so large in the early months as in the past two months. For the eleven months of the calendar year merchandise exports are valued at \$4,655,460,000 and imports are \$3,752,475,000, the excess of exports being \$902,985,000. In the corresponding period of 1927 exports were \$4,457,735,000 and imports \$3,853,509,000, the excess of exports being \$604,226,000. Exports have increased this year by \$197,725,000, while imports this year to date are \$101,034,000 smaller than they were a year ago. Exports now promise to exceed in value for the full year the total for each calendar year back to 1920, but imports will be reduced as compared with each of the three preceding years. About \$44,000,000 of the increased value of exports this year is attributable to exports of cotton for the eleven months, but the actual cotton movement abroad for that period of 7,635,000 bales is more than 12% smaller than it was in 1927.

The gold movement both ways was larger last month than for several months past, reflecting conditions here in the money market. Imports of gold were higher in November than in any month since January last, and exports were higher than since July. Imports of gold last month were \$29,591,000

and exports \$22,915,000, the excess being on the import side for the fourth consecutive month, prior to which time, exports of gold exceeded imports for nearly a year by a large amount. For the eleven months of 1928 gold imports were \$143,943,000 and exports \$559,123,000, the excess of exports being \$415,176,000. For the corresponding period of 1927 gold imports were \$197,104,000 and exports \$123,606,000, imports being larger than exports by \$73,498,000. The movement of silver continued nominal in November, exports amounting to \$7,664,000 and imports \$5,447,000.

The prospects of next year's crop of winter wheat are encouraging rather than the reverse. The area sown the past fall is somewhat less than that sown for the preceding year, and the December 1 condition this year is slightly below that indicated for the crop put in the ground in the autumn of 1927. But all of this may be reversed in the next four months, or even after that time before the harvest. The crop put in a year ago made a very poor showing at the end of the winter, both as to condition and as to the area subjected to winter killing. The first report of the Department of Agriculture as to the winter wheat crop recently planted was issued at Washington early in this week. It gives the area sown the past fall to winter wheat at 43,228,000 acres. This compares with an estimate made a year ago as to the winter wheat crop planted in the autumn of 1927 of 47,280,000 acres and with 43,373,000 acres for the crop sown in the fall of 1926. But the winter killing for the crop planted in 1927 was exceptionally heavy, being 11,986,000 acres or 23.5% of the area sown, this figure having been exceeded only once in the preceding fifteen years, and that for the crop planted in the fall of 1916. Winter killing for the crop sown in the fall of 1926 was 3,550,000 acres or 13% of the area sown.

In spite of the large area planted a year ago the area harvested last summer was smaller than that of 1926, the former, the area harvested during the past summer, being 36,179,000 acres, against 37,723,000 acres, the latter from the crop of winter wheat planted in the fall of 1926. But there was marked improvement in the condition of the winter wheat crop harvested last summer after the opening of the growing season in the spring. So much better were conditions, notwithstanding the large deduction in area for winter killing, that the harvest was 578,964,000 bushels or 126,217,000 bushels more than was indicated by the condition of the crop on May 1 last. The final estimate of yield for the crop harvested a year earlier, in the summer of 1927 (the 1926 crop), was 552,747,000 bushels. The production of the crop harvested this past year was at an average of 16 bushels per acre—that of the preceding year was 14.7 bushels per acre.

As to condition of the present wheat crop, the one planted the past fall, the official record as of December 1 is indicated at 84.4% of normal; a year ago at the corresponding date for the crop planted in 1927, the condition was 86% of normal. In the preceding year, Dec. 1 1925 the crop harvested in the summer of 1926, a condition of 81.8% of normal was indicated and the ten-year average December 1 condition 1918-27 inclusive, is 84.6% of normal. For six of the ten years included in the above average the final estimate of yield of winter wheat was in excess of that harvested for the season just closed.

For rye, the area sown during the past fall for the crop to be harvested next year is now placed at 3,293,000 acres or 15.5% less than the revised estimate of 3,895,000 acres sown in the fall of 1927. For the crop of the preceding year, that put in the ground in the fall of 1926, the area planted was 3,817,000 acres. Rye also suffered very greatly during the crop year just closed from winter killing and other causes, and the yield on an area harvested of 3,444,000 acres was only 41,766,000 bushels, or an average of 12.1 bushels per acre. In the preceding year, the summer of 1927, the harvest of rye was 58,164,000 bushels, an average of 15.9 bushels per acre. The average condition of rye on December 1 of this year is now placed by the Agricultural Department at 84.4% of normal, against 89.3% of normal a year ago, and a ten-year average of 88.2%. It is to be noted, however, that the condition of the crop of rye harvested during 1928 declined to 72% of normal on May 1 last from 89.3% the preceding December. Furthermore, the area abandoned from winter killing for rye the past year was 31.8%.

European securities markets have been steady and cheerful during most of the present week, with only a few momentary sinking spells noted at Continental centers owing to local influences. The London Stock Exchange began the week in a quiet manner, with industrials, oils, mines and communication shares advancing moderately in a rise that was led by British funds. The market was again quiet but firm Tuesday, with interest in the industrial section centered in the commencement of business in shares of the newly organized Ford Motor Company, Ltd., of England. The interest was heightened by a previous announcement of the British Ford concern that small British investors would be favored in the allocation of shares over the larger subscriptions from Wall Street. The £1 shares were in heavy demand on the opening day, advancing at one time to a premium of £1. Business on the London Exchange diminished in volume Wednesday, with the tone still firm. British funds were steady with practically no changes, while better traffic returns gave an improved appearance to home rails. With the King's condition definitely better Thursday, further improvement followed. Home rails were marked up decidedly, with oil shares also gaining. Mond Nickel led the rise in the industrial section, the new Ford shares also being a feature. Interest in the stock market slackened yesterday with the holidays creeping nearer, but prices held steady notwithstanding the diminished trading. Further improvement was registered in gilt-edged securities and home rails, and industrials were in fair demand.

The Paris Bourse showed a favorable opening Monday, with banks and other leading stocks making gain, but some weakness followed when money rates advanced. Emphasis was laid in Paris on the absence of foreign buyers, who were believed to be holding off pending the outcome of the reparations negotiations. With money still tight Tuesday, the Bourse experienced a decided resumption of activity which carried bank, industrial and many international issues to higher levels. The favorable movement was continued Wednesday, despite the fact that trading was quiet and on a limited scale. Rentes and State securities showed steady progress. The Bourse maintained its advance Thursday with trading somewhat more animated. The French exchange

closed after yesterday's session for the four-day Christmas holiday, with the general impression quite favorable. The Berlin Boerse opened the week in a depressed state, owing to sharp passages at Lugano between the German and Polish Foreign Ministers which gave many traders the conviction that the League of Nations Council meeting had not brought any practical results. The tone improved substantially Tuesday on better inquiry for banks, shipping and dye trust shares. On easier money rates, Wednesday, the Boerse advanced further, although trading was restricted. With the Christmas holidays approaching closer, trading was confined almost entirely to speculators Thursday and yesterday, and prices fluctuated more widely under their ministrations. The general tone remained firm.

Private conversations regarding the reparations and Rhineland evacuation problems were continued at Lugano, Switzerland, over the last week-end by the Foreign Ministers of Great Britain, France and Germany, with the result that the accord arrived at in Geneva on September 16 last by the six interested powers was reaffirmed in a joint statement issued last Saturday. The Ministers met at Lugano a week earlier, in order to attend the sessions of the League of Nations Council. Overshadowing the League meeting, however, were the intimate talks in which Sir Austen Chamberlain, Aristide Briand and Dr. Gustav Stresemann reconciled differences which had arisen since their last private meetings. Their deliberations resulted, it was reported, in the restoration of an "atmosphere of confidence" among the three nations which are attempting a final liquidation of the problems left by the World War.

The common accord signed by the three Ministers last Saturday read: "This session of the Council has enabled us to resume personal meetings which had been interrupted for some time and to proceed to a very useful exchange of views. These conversations have had the effect of confirming our view that the policy of conciliation and rapprochement followed by our respective countries is best suited to assure peace. We remain faithfully attached to this policy. In this spirit we shall continue the negotiations begun in virtue of the accord arrived at in Geneva on September 16 last by the six interested powers. We are determined to do everything in our power to arrive as soon as possible at complete final settlement of the difficulties arising out of the war and thus assure upon a basis of mutual confidence a happy development in the relations between our respective countries."

The text as issued was declared in dispatches to be a revised version of one originally drawn which contained a reference to "complete agreement on outstanding issues." This was altered, a Lugano dispatch to the "New York Times" said, at the insistence of the German Minister, Dr. Stresemann, after he had consulted his Government at Berlin. He explained, the report said, that such a statement would arouse the German people, since complete agreement was far from existing on all points of the Geneva program. "As matters stand," it was added, "Dr. Stresemann returns to Berlin with a tentative promise about evacuation, but no definite comment. True, the French probably will withdraw from the second zone within the next two or three months, but for the remainder of the Rhineland all depends upon the efforts of the financial experts who will

convene at Paris between January 10 and 15." In a previous dispatch to the "Times" it was made clear that evacuation of the third Rhineland zone will depend on the progress made in the commercialization of the German Reparations debt.

Emphasis was laid in these reports on the British point of view on evacuation, which was said to differ from the French even while the British Government officially supported the Paris Government. London takes the position, the account said, that history will repeat itself and that the Rhineland question will follow the course of the Ruhr problem. "No one will advance the large sums needed to meet the German reparations obligations unless France makes possible the creation of the necessary goodwill on the part of Germany by freeing the Rhineland," it was added. "Hence, it is up to the bankers to solve the Rhineland question as they settled the Ruhr crisis through creating the Dawes plan." It was remarked as one excellent result of the conferences that the three Ministers promised each other to refrain from further inflammatory nationalistic speeches in their respective Parliaments.

Sir Austen Chamberlain was interpellated in the House of Commons in London, Wednesday, regarding the results of the Lugano meetings and he conveyed the impression that circumstances favored solution of the German reparations and Rhineland evacuation problems. These matters will work out, he said, "if further polemics can be avoided while the experts are performing their tasks." Little could be added, he remarked, to the joint statement given out at Lugano at the conclusion of the discussions. "Opportunity for removal of some misconceptions and for a very friendly interchange of views has become customary whenever we meet," he said. "No new decisions were either made or sought; the reparations problem is being dealt with in Paris and we did not attempt to duplicate negotiations on that subject. We are agreed that the first thing to do is to obtain appointment of a committee of experts. We hope that committee may get to work very early in the new year. Our discussion on other problems covered by the resolution of the six powers at Geneva last September was of a purely exploratory character, but I derived from it the impression that circumstances are favorable to a solution. That is all I can say at present in the public interest and in the interests of peace." Agreement between Great Britain and Italy as to the procedure for carrying out settlement of the reparations problem and evacuation of the Rhineland was announced by Sir Austen at Lugano just before he left.

A sharp clash between Dr. Stresemann of Germany and Foreign Minister Zaleski of Poland marked the concluding gathering of the League of Nations Council at Lugano last Saturday. The Council met for its fifty-third quarterly session on the preceding Monday, but the meetings on the whole were perfunctory owing to the more important private conversations carried on by the British, French and German Foreign Ministers. In the final gathering, however, a tense and critical situation developed when M. Zaleski, in the course of a speech, made charges against German minorities in Polish Upper Silesia. The minority organizations had protested to the League of Nations that Poland neglected to provide German language schools for the 200,000 Germans under Polish rule. M. Zaleski not

only denied these statements, but termed the actions of the German organizations "treasonable and a danger to the peace of Europe." Dr. Stresemann flushed, pounded the table with his fists, and, turning to M. Briand who presided, threatened to leave the meeting. M. Briand was able to restore calm. Dr. Stresemann subsequently retorted hotly to the Polish argument, accusing M. Zaleski of opening old wounds and of failing in good faith toward Germany. He concluded with a general appeal to the Council for support of minorities. M. Briand relieved the strain by assuring him that "there is no question of the League's abandoning its sacred duties to minorities."

Agreement between Great Britain, France and Germany on further postponement of the scheduled meeting of the League of Nations Preparatory Disarmament Commission was reported at Lugano December 14. After successive postponements, it was finally decided in September to hold this meeting before the expiration of the first two months of 1929. It was indicated in dispatches, on the authority of the "Big Three" of Europe, that the United States had requested a delay. "It is understood," a Lugano report of December 14 to the "New York Times" said, "that Hugh Wilson, the American Minister to Berne, has definitely informed League officials that the American Government desires delay." At the same time, the tentative date of Mar. 11 1929 was put forward as a suitable time for the meeting. President Coolidge promptly denied that his Administration had suggested the postponement of the Preparatory Disarmament Commission meeting until the next Administration. "The President let it be known," a Washington dispatch to the "Times" said, "that the United States Government, instead of seeking postponement, is ready to participate in the preliminary conference and do what it can to make it successful." Notwithstanding these denials, it was reported definitely Wednesday that a committee of experts will meet at Geneva March 11 to discuss control of the manufacture of armaments, while the Preparatory Disarmament Commission probably will not be convened until after Easter.

The League Council, after considering a report of an opium subcommittee, sent a note to Secretary of State Kellogg on December 14 in reply to the October note of the American Secretary refusing to participate in a special meeting to review this question. The Council previously had invited the United States to take part in the selection of members of a central board for carrying out the 1925 opium accord taking the place of the old Hague Convention. The reply of the Council to the American refusal was a lengthy one which reminded Washington that the Geneva convention represented the "maximum progress obtainable by an international conference attended by forty-one States and lasting three months." The League Council also gave consideration in a secret session to the dispute between Bolivia and Paraguay, and Foreign Minister Briand of France, as President of the Council, corresponded with both South American Governments. These proceedings are detailed separately further along in these columns.

The British nation again followed with anxious eyes the progress made by King George V in this fourth week of his illness. The reports over the last week-end were unsatisfactory, daily bulletins

by the doctors in attendance indicating that the monarch was suffering from additional complications which made his recovery a matter of grave doubt. Several bulletins commented on the persistent exhaustion in the condition of King George and the apprehension was increased when new methods of therapy were brought into play. A further setback occurred Monday with the signs of exhaustion marked, and the patient lapsing off into semi-unconsciousness. Quiet days and nights followed, however, and by Wednesday the doctors were able to report more solid grounds for hope. The best bulletin in several weeks was issued Thursday, when it was reported that "progress is now established on a firmer basis." This announcement was read with relief throughout the Empire. With the acute phases of the illness apparently over, commerce in England took on a more normal appearance during the last few days. The delayed Christmas shopping set in with a rush, and the outlook for trade improved to a marked extent.

Several of the greater States in South America were visited by President-elect Herbert Hoover during the past week on his Latin-American tour of friendship and good-will. Mr. Hoover attended a State Banquet at Buenos Aires, Argentina, December 14, at which President Hipolito Irigoyen made an address of formal and cordial welcome to the distinguished visitor from the United States. In thanking him, President-elect Hoover said: "I come with two simple purposes, to convey the spirit of friendship and to extend my knowledge of our sister republics. It is a privilege to have traversed this great empire and to have seen this amazing city, for it is a wonderful chapter in human endeavor to have created the beautiful capital and to have raised it among the first in the world in practically a quarter of a century. Its splendid buildings, its institutions, its parks, the culture of its people all demonstrate the virility and capacity of a great and growing nation." Mr. Hoover also spoke at length on "the bright outlook for the march of peace, for economic progress, for the growth of ordered liberty and liberal institutions, for opportunity, for achievement among men and growth of those things which dignify and ennoble life."

A delegation from Paraguay, headed by Eusebio Ayala, formerly Paraguayan Minister to the United States, called on Mr. Hoover in Buenos Aires last Saturday and exchanged felicitations with the American President-elect. Mr. Hoover expressed his disappointment at not being able to add Paraguay to his itinerary, explaining that it was impossible for him to make the extra journey to the inland country. Last Sunday Mr. Hoover and his party boarded the Argentine cruiser Buenos Aires, which carried the good-will party to Montevideo, Uruguay. President Campisteguy, of that country, greeted Mr. Hoover at a formal function, Monday, in a laudatory address. "I have hoped," said Mr. Hoover in reply, "that I might, by this visit, symbolize the courtesy call from one good neighbor to another that might convey respect and esteem and desire for intellectual and spiritual co-operation. Your Excellency has spoken of our common ideals of justice, not only in international relations, but in our systems of governments. Justice is not only an ideal, it is a science. In the contributions of leaders of Uruguay to the science of jurisprudence, both in national and

international fields, she has given proofs of great cultivation of mind, and at the same time demonstrated that the moral weight of nations is not based upon size or numbers, but upon the spirit and character of the people." The President-elect boarded the battleship Utah at Montevideo, Tuesday, for the final visit of his tour at Rio Janeiro, Brazil, where he arrived last night.

Hostilities between Bolivia and Paraguay were definitely averted early this week, after a further critical period over the last week-end in which it appeared for a time that war was well-nigh inevitable. Reserves were called to the colors and volunteers were enlisted by both nations in their dispute over the "Gran Chaco," and the border incident of early December which grew out of that territorial disagreement. As the crisis became graver, efforts were redoubled all over the western world to mediate in the affray and secure the consent of the disputants for arbitration of their difficulties. Foremost among the agencies working to promote peace and understanding between the two South American Republics was the International Conference of American States on Conciliation and Arbitration, which met at Washington the preceding Monday. With the single exception of Argentina, all of the American Republics were represented on this body. The Conference on December 14 offered its good offices to the disputants to conciliate their differences. The League of Nations appealed to the two Governments several times to avoid recourse to military measures. The permanent commission set up under the Gondra Accord, which sits in Montevideo for the express purpose of resolving the difficulties between South American countries, demanded that the matter be amicably adjusted. Besides these joint agencies, a number of other influences were brought into play. The American State Department took official steps in the matter, while offers of mediation and arbitration were made by a number of the Latin-American States. The demonstration thus afforded of an almost universal sentiment for peace was counted by many observers by far the most important development in the dispute between Bolivia and Paraguay.

Paraguay continued to accept virtually all offers of conciliation and mediation as they were made by the various bodies, giving every indication of a genuine desire to avoid a conflict. Each government considered itself the aggrieved party, but Bolivia was apparently the more determined in this attitude. La Paz insisted last week on "satisfaction which will erase the injury," after which it was intimated that mediation might follow. Similarly uncertain answers were made by La Paz to several Latin-American offers of mediation, although in most cases it was merely stated by La Paz that replies would be forthcoming later. This attitude caused increasing anxiety in the various international councils, which was not lessened when it was reported in La Paz dispatches of Dec. 14 that Bolivian reserves of the 1926 and 1927 classes, had been called to the colors.

The climax of the dispute was reached with dramatic suddenness on Dec. 15 when it was announced by the Bolivian Minister of War that the Paraguayan Fort Boqueron had been captured after severe fighting. No mention of casualties was made at the time. Later in the day the Bolivian Govern-

ment issued an official statement, saying: "After the outrage on our army at Fort Vanguardia, without ever forgetting our international duties and our sworn faith to maintain peace, as we informed the Council of the League of Nations, Bolivia has the unescapable duty to exact satisfaction and at the same time prevent a recurrence of clashes which seem possible owing to the concentration by Paraguay of new forces, including its general staff. Our legitimate forecasts have been realized." Intense excitement was caused throughout Bolivia by this development and additional thousands of Bolivians offered to enroll in the military. In Asuncion, a statement was made by the Minister of War on the following day to the effect that the Bolivians, without previous declaration of war, had attacked several Paraguayan forts, killing a number of Paraguayan soldiers. The Paraguayan populace responded to this declaration with a tremendous display of patriotism. Some 30,000 volunteers were hastily mustered into the army and three shiploads were sent north, toward the Bolivian frontier.

Promptly after the announcement of the fighting at Fort Boqueron, the Bolivian Government made public its replies to the League of Nations appeal for peace and the offer of mediation by the Permanent Commission at Montevideo. Paraguay had previously replied favorably to both communications. The Bolivian reply to the League was addressed to Aristide Briand as President of the Council. It set forth Bolivia's intention to adhere to the principles and obligations of the League Covenant. The document accused Paraguay of "violent aggression," and added that "the duty falls upon Bolivia of demanding proper apologies." Peaceful negotiations were declared impossible for the La Paz regime until such apologies had been given by Paraguay. To the Permanent Commission at Montevideo the Bolivian Government replied: "We have tried for years to end this dispute. Now we must have immediate reparation for this violent insult."

The League of Nations Council on the same day (Dec. 15) addressed a second appeal to the two disputants to adhere to the principles and obligations contained in the Covenant of the League. The two Governments were reminded that they cannot, without breaking their solemn engagements, fail to have recourse to one of the procedures for pacific settlement provided for in the Covenant. "The Council would insist," the message said, "on the fact that its experience suggests the great importance of any measures of self-defense being carefully limited to those which can neither be interpreted as aggressive by the other country nor are such as to involve risk of direct contact between troops, which would increase the gravity of the situation and render more difficult efforts which are at present being made for the maintenance of peace." Each Government was informed by the League Council of the reply made by the other.

Bolivia, late on Dec. 15, dispatched another note to the League of Nations Council, the document relating to the incident at Fort Boqueron in Paraguay. The note set forth that "Bolivia had found it necessary to take defensive military measures to safeguard Bolivian security. At that time Paraguay had established strong military outposts near the frontier but it was logical nevertheless to hope that further clashes might be avoided. Unhappily,

however, these clashes have taken place. According to the chief of the military zone, fresh detachments of the Paraguayan Army have threatened Bolivian forts in the affected areas with the result that Bolivian forces have occupied, after a sanguinary battle, the Paraguayan fort of Boqueron. This action was taken on the ground that Boqueron is a fort in territory over which Bolivia has a traditional and undeniable claim. This government, in compliance with your desires, is hastening to place these events before the Council of the League of Nations and before your Excellency. These events are not only just further unfolding of the aggression initiated by Paraguay, but are also transgressions of the solemn compacts which civilized peoples have evolved to maintain the peace of the world." Bolivia at the same time sent another rejection to the permanent commission at Montevideo of its offer to mediate. "On the day when Paraguay satisfies or repairs the injuries committed, Bolivia will return and believe in the protests of peace and amity of that country," the note said.

Paraguay took steps on Dec. 16 to make its own attitude plain. A cable from Asuncion to Juan V. Ramirez, Paraguayan Charge d'Affaires in Washington, was given out by that official. The cable read: "Bolivia has undertaken warlike hostilities against Paraguay, attacking its military positions on its frontiers near the Pilcomayo River and dropping bombs from several airplanes over Bahia Negra, a fort situated on the Paraguay River near the Brazilian frontier. A small Paraguayan fort, garrisoned by thirty men, has been captured. In view of this new, more extensive aggression, deliberate and unjust, the Government of Paraguay has been forced to accede to the imperative necessity of taking urgent measures for the protection of its territory." When giving out this cable, Senor Ramirez declared that "Bolivia wants war because she is prepared for it, and it now appears that, despite world opinion which clamors for a peaceful solution of international conflicts, and despite the good disposition of Paraguay, she is going to get what she wants."

A somewhat more pacific appearance was given the dispute on Monday, Dec. 17, when the La Paz Government released for publication a reply dated the following day to the League of Nations Council, in which the League body was informed that the Bolivian frontier forces had been ordered to halt their advance and cease their attacks on Paraguayan troops. Paraguay on the same day accepted the offer of the International Conference of American States on Arbitration and Conciliation for mediation of its boundary dispute with Bolivia. The reply was addressed to Secretary of State Frank B. Kellogg as permanent Chairman of the Conference. After a series of charges against the Bolivian Government, the note said: "I have been instructed to communicate to you the acceptance of the good offices offered by the Conference. At the same time I must declare that we have ordered mobilization of the army, although simply for defensive purposes made necessary by the grave circumstances created by Bolivia's conduct. I am complying with my duty in informing the Conference that the illustrious President of Argentina, being profoundly interested in the situation, offered his mediation, which my Government quickly accepted. But thus far Bolivia has not shown a similar sentiment."

On learning of the incident at Fort Boqueron, President Briand of the League of Nations Council, sent urgent messages on Dec. 17 to the two disputing Governments. The message to Bolivia said: I have the honor to have received your telegram of Dec. 16, which certainly was sent from La Paz before receipt of the one I sent your Excellency the same day in the name of the Council. The facts you bring to my attention of the situation created at the frontier by the contact of the military forces of the two countries make the danger to peace more evident and show the urgent necessity to which the Council called your attention, of taking proper measures to avoid new incidents susceptible of compromising the success of all pacific procedure. I permit myself to insist again upon the suggestions made to you by the Council, following your government's solemn assurances to respect your treaty obligations." M. Briand at the same time sent a cable to Paraguay in which he repeated the text of the Bolivian note. This note also urged pacific measures. Both Bolivia and Paraguay on Dec. 18 informed M. Briand that they were disposed to accept the mediation of the Conference of American States on Conciliation and Arbitration for settlement of the difficulties. In reviewing the matter, M. Briand told press correspondents at Paris that both countries had shown themselves loyal to the spirit of the League. "As for who arbitrates between them, why, it is best that these should be their friends and neighbors," he added.

Advices of Dec. 18 from both Washington and La Paz also made it clear that Bolivia had accepted the offer of conciliation made by the Conference on Conciliation and Arbitration. The note, addressed to Secretary Kellogg as President of the Conference, said: "This is to say that the Bolivian Government accepts the good offices of the Conference for Conciliation and Arbitration over which you preside." After again accusing Paraguay of "unjustified aggression," and stating that Bolivia had not mobilized her army, the note stipulated: "On entering upon your good offices, Bolivia requires that you investigate in the first place the attack on Fort Vanguardia without involving in the preliminary inquiry the questions at the bottom of the dispute, which have been entrusted to arbitration within the procedure established by the Argentine suggestion of December, 1927, and which was accepted by both countries." Soon after receipt of the message from Bolivia, Secretary Kellogg made the following statement: "The Chairman of the International Conference of American States on Conciliation and Arbitration has received the acceptance of Bolivia of the offer of good offices of the conference. As Paraguay has already accepted the offer of good offices, the matter is now in the hands of the conference."

Consideration of the steps to be taken by the Conference on Conciliation and Arbitration was promptly begun in Washington by a special committee of five members who were designated by Secretary Kellogg last week. The committee dispatched identical messages to Bolivia and Paraguay Dec. 19, in which questions were postulated to determine the exact scope of the proposed settlement. The two countries also were asked to express their views as to who should be selected on a mediation board. It was also inquired how many judges the two countries would prefer on the conciliation board. The

Paraguayan and Bolivian delegates to the Conference followed this move on Thursday by cabling their respective Governments to ask whether they are willing to resume diplomatic relations pending the outcome of the effort to conciliate the clash. M. Aristide Briand, as Acting President of the League Council, concluded his efforts to maintain peace by sending a cable to the two Governments, which said, "The Council, and all whose efforts were bent toward preventing aggravation of the dispute, and toward facilitating peaceful settlement by any method, can only rejoice at the halting of the conflict between two members of the League united by race and common traditions, and that the generous offer of Pan-American arbitration has been favorably received. The Council can only hope that, thanks to the procedure which these two parties have adopted, there will follow as rapidly as possible a settlement of their differences which will re-establish between them good understanding and pacific co-operation." Secretary Kellogg predicted, Thursday, that the Paraguayan-Bolivian dispute will soon be settled by amicable means.

Efforts of the International Conference of American States on Conciliation and Arbitration were again directed chiefly toward finding an amicable solution of the conflict between Bolivia and Paraguay in this second week of the meeting. The Conference began its deliberations on December 10, just as the South American quarrel became grave, and the developments in that conflict delayed the regular work of the gathering. A start was made Dec. 17 on the formulation of a conciliation pact, but the Bolivian and Paraguayan delegates, without actually mentioning their difficulties, took up most of the session to make their respective attitudes clear on international conflicts. Two sub-commissions, one on arbitration and one on conciliation, have been appointed by the Conference, to draft agreements suitable for submission to all American States. These, however, will first be considered by the Conference in plenary sessions. With the Paraguayan-Bolivian dispute apparently well on the way to settlement Thursday, the delegates focused their attention on the more academic problems.

Formal steps for the assumption of tariff autonomy by the Nanking Nationalist Government of China were taken in Nanking, the new capital, on Dec. 10, a new tariff being promulgated together with the statement that it will be effective as of Feb. 1 1929. Changes were noted in the new tariff in virtually every line of merchandise, but observers generally considered that no exorbitant rates were included in the schedules. Luxuries, however, including wines and tobacco, were severely affected. A summary of the fifty-two-page typewritten document, contained in a Shanghai dispatch of Dec. 10 to the New York "Times," remarked that "The schedule ranges from a 7.5% tariff on needles to a 59% duty on cigarettes, but the mean average is not more than between 22.5 and 27.5%. This, however, when compared with the old treaties allowing 5% plus the recent allegedly 2.5% surtax, is a revolutionary change so far as China's relations with the rest of the world are concerned. On the other hand, it is regarded as a conservative schedule."

The new tariff schedule was received without comment by all the foreign diplomats in China,

with the exception of S. Yada, the Japanese Consul General at Shanghai, who returned his copy to the Nationalist authorities. It was explained that Tokio was unable to accept Nanking's action as official as long as negotiations for the new commercial treaty were unfinished.

Quiet and unceremonious reopening of the American Consulate at Nanking on Dec. 14 aroused much interest in China, as the step was seen as a form of formal resumption of diplomatic relations between the United States and China. Temporary quarters were leased from missionary interests for the new consulate. This development was followed on Dec. 20 by formal British recognition of the Nanking Government. The British Minister, Sir Miles Lampson, signed a new customs treaty with Nanking on the preceding day, and formally presented his credentials Thursday morning to President Chiang Kaishek. The proceedings were highly ceremonious, the British cruiser Suffolk booming a salute of twenty-one guns, while Chinese airplanes circled over the city. Dr. C. T. Wang, the Chinese Foreign Minister, introduced Sir Miles as "Envoy Extraordinary and Minister Plenipotentiary of Britain." "In presenting my credentials," said the Minister in a brief address, "I seize the opportunity to assure your Excellency of my Sovereign's sincere wishes for the welfare of China and to convey the expression of his esteem and regard. It is a source of lively satisfaction to be enabled to deliver this message, and it will be my untiring endeavor to maintain and promote the closest and most friendly relations between our countries."

Leaders in aviation from forty countries gathered in Washington late last week to attend the first International Civil Aeronautics Conference, called by President Coolidge on the twenty-fifth anniversary of the first heavier-than-air flight to devise means of regulating the commerce of the skies. A total of 137 delegates assembled in the Chamber of Commerce Dec. 12 for the opening of the Conference. The guest of honor was Orville Wright, who with his brother Wilbur, made the first sustained flights in a powered flying machine at Kitty Hawk, N. C., on December 17, 1903. President Coolidge opened the meeting with a brief address in which he sketched the history of heavier-than-air flight and praised the pioneers who had developed the new means of transportation. At the conclusion of his address the President remarked significantly that "air transport means much to the United States, divided as it is in the West by lofty mountain ranges and deserts." As against the six months once required to go from Missouri to the Pacific Coast, an airplane has recently traversed the entire Continent in less than twenty-four hours, he pointed out. "What the future holds out, even the imagination may be inadequate to grasp," he added. "We may be sure, however, that the perfection and extension of air transport throughout the world will be of the utmost significance to civilization. While the primary aim of this industry is and will be commercial and economic and the prosperity of the world will be immeasurably advanced by it, indirectly, but no less surely, will the nations be drawn more closely together in bonds of amity and understanding. This conference, I know, will have far-reaching results in the advancement of a science and industry which appeals both to the spirit and the reason of man and

which as the years go by will cement more and more firmly the bonds of international brotherhood."

The delegates continued their discussions until Dec. 16, considering not only the development of air transportation, but also its organization, and its economic and legal aspects. The meeting was concluded Sunday with a visit to Kill Devil Hill at Kitty Hawk, where the first flights were made.

The Bank of Spain on Dec. 19 raised its rate of discount from 5% to 5½%. Otherwise there have been no changes this week in discount rates by any of the central banks of Europe. Rates continue at 7% in Germany; 6½% in Austria; 5½% in Italy and Norway; 5% in Denmark; 4½% in London, Holland and Sweden; 4% in Belgium, and 3½% in France and Switzerland. London open market discounts are 4 7-16@4½% for short bills, against 4⅜@4 7-16% on Friday of last week, and 4 7-16% for three months bills, against 4⅜@4 7-16% the previous Friday. Money on call in London was 3⅝% on Wednesday and Thursday, but down to 2¾% yesterday. At Paris open market discounts continued at 4¼% but in Switzerland have been reduced from 3 5-16% to 3¼%.

In its statement issued Dec. 20 for the week ended Dec. 15, the Bank of France reports a decrease in note circulation of 406,000,000 francs, reducing the total to 61,420,539,180 francs, against 61,826,539,180 francs last week and 62,659,539,180 francs the week before. On the other hand creditor current accounts rose 486,000,000 francs and current accounts and deposits 94,000,000 francs. Due to a gain of 83,304,274 francs during the week, gold holdings now aggregate 31,722,109,484 francs, but credit balances abroad dropped 63,425,828 francs. French commercial bills discounted declined 34,000,000 francs and advances against securities 17,000,000 francs, while bills bought abroad rose 338,000,000 francs. Below we furnish a comparison of the various items of the Bank's return for the past three weeks:

BANK OF FRANCE'S COMPARATIVE STATEMENT.

This week's statement of the Bank of England shows an unusually large increase in notes in circulation, due probably to the heavy holiday buying, and a further loss in gold, most of the demand for that metal having come from Germany and France. As the expansion in note circulation amounted to £9,290,000 and bullion declined £1,683,481 the loss in the reserve amounted to £10,974,000. Gold holdings now total £155,507,575 against £150,381,205 last year, and comparing with a high for this year of £176,584,789, it will thus be seen that the improvement in the Bank's gold position during the earlier part of the year has been almost entirely lost. The ratio of reserve to liabilities declined sharply going from 37.90% down to 29.24%, a loss of over 8%. This compares with a high for the year of 55.13% on Sept. 12. Loans on Government securities dropped £1,350,000. Notes in circulation now aggregate £384,110,000, against £138,778,715 in the

corresponding period last year, the great increase being due to the recent amalgamation of the currency issues. The new form of the Bank of England statement supplies us with more detailed information than was contained in the old statement in regard to two items, "other deposits" being subdivided into "bankers' accounts" and "other accounts," while "other securities" is subdivided into "discounts and advances" and "securities. From a table published in the "Wall Street Journal," dealing with the latest weekly statement, dated Dec. 19, it appears that bankers' accounts" decreased £7,172,000 and "other accounts," £763,000, the decrease in "other deposits" therefore amounting to £7,935,000. In the item "other securities" which rose £7,957,000, the subdivision shows that "discounts and advances" rose £4,481,000 and "securities," £3,476,000. The rate of discount remains at 4½%, but in face of the Bank's impaired reserve position an increased rate in the near future will not be unexpected. Below we furnish comparisons of the various items of the Bank of England return for five years.

a Includes, beginning with April 29 1925, £27,000,000 gold coin and bullion previously held as security for currency notes issued and which was transferred to the Bank of England on the British Government's decision to return to gold standard.

b Beginning with the statement for April 29 1925, includes £27,000,000 of Bank of England notes issued in return for the same amount of gold coin and bullion held up to that time in redemption account of currency note issue.

In its statement for the second week of December, the Bank of Germany reports a decrease in note circulation of 130,253,000 marks, reducing the total to 4,424,657,000 marks. Aggregate circulation last year was 3,931,441,000 marks and in 1926 3,165,804,000 marks. A decline of 53,334,000 marks was shown in other daily maturing obligations, while other liabilities increased 10,806,000 marks. On the asset side of the account, gold and bullion rose 38,214,000 marks, silver and other coin 6,233,000 marks, notes on other German banks 6,135,000 marks, advances 420,000 marks and investments 18,000 marks, while reserve in foreign currency decreased 8,233,000 marks, bills of exchange and checks 210,903,000 marks and other assets 3,825,000 marks. Deposits abroad remained unchanged. Below we furnish a comparison of the various items of the bank's return for the past three years:

Money rates on the New York market exhibited the stiffening tendency this week which was generally expected after the momentary ease of the previous week, induced by the accumulation of

funds in this center in connection with Treasury financing. Demand loans were quoted at 7% at the start, Monday, but dropped during the day to 6%, while in the outside market some business was reported at 5½%, these figures corresponding with the low rates of the preceding week. The market followed the same course Tuesday, but in Wednesday's session a firmer tone was manifested and the call loan rate held at 7% throughout on the Stock Exchange, although some 6½% money was offered on the Street. Renewals Thursday were again fixed at 7%, but withdrawals by the banks of about \$35,000,000 brought tightness and the rate was advanced to 8%. Some outside loans were available at 7½% after the higher rate was announced. In yesterday's market renewals were at 8%, but with an advance to 9%, after withdrawals by the banks of \$25,000,000. No outside offerings at concessions were reported. Time money reflected expectation of further stringency in the near future, the rate for thirty days rising to 8¼%, while longer maturities continued at 7¾% and 7½%. Brokers loans against stock and bond collateral, as reported for the week ended Wednesday by the Federal Reserve Bank of New York, again reflected the heavy readjustments occasioned by the downward sweep in the stock market a fortnight ago. The loan total was decreased \$64,929,000 for the weekly period. Gold movements through the Port of New York for the same weekly period consisted of \$10,012,000 imports, and exports of \$300,000.

Dealing in detail with the call loan rates on the Stock Exchange from day to day, the renewal rate on Monday was 7%, but the rate for new loans fell to 6%. On Tuesday the renewal rate was again 7%, while the charge for new loans fell to 6%. On Wednesday all loans were at 7%, including renewals. On Thursday the renewal rate was still 7%, but the general rate rose to 8%. On Friday the renewal rate was marked up to 8% and new loans were at 9%. The rate for time loans has moved to even higher levels. Thirty day loans were at 8% on Monday at 8¼@8½% on Tuesday and Wednesday and at 8¼% on Thursday and Friday. The rate for 60 days was 7¾% on Monday and Tuesday, at 7¾@8% on Wednesday, and at 7¾% on Thursday and Friday. The 90 day rate was at 7¾% throughout the week. The rate for four, five and six months was 7½@7¾% on Monday, Tuesday and Wednesday and at 7½% on Thursday and Friday. The commercial paper market has continued dull and inactive, with rates for names of choice character maturing in four to six months 5½%. For names less well known the quotation is 5¾%. New England mill paper commands 5½@5¾%.

No change has occurred in the rates for banks and bankers acceptances though there were indications at one time of a division of sentiment among the different acceptance houses. The posted rates of the American Acceptance Council for prime bankers' acceptances eligible for purchase by the Federal Reserve banks remain at 4¾% bid and 4½% asked for bills running 30 days and also for bills running 60 and 90 days, 4⅞% bid and 4⅝% asked for 120 days, and 5% bid and 4¾% asked for 150 and 180 days. The posted rate of the Acceptance Council for call loans against acceptances continued at 6%

until Thursday when there was an advance to 7%. Open market rates also remain unchanged. The open market quotations are:

Kansas City	4¾	June 7 1928	4
Dallas	4¾	May 7 1928	4
San Francisco	4¾	June 2 1928	4

Sterling exchange moved up again this week. Between the close on Saturday last and the late trading on Wednesday afternoon an advance of ½ cent was recorded. The range this week has been from 4.84 11-16 to 4.85 3-16 for bankers' sight, compared with 4.84 19-32 to 4.84 7/8 last week. The range for cable transfers has been from 4.85 1/8 to 4.85 5/8, compared with 4.85 1-32 to 4.85 3-16 the previous week. The exceptional firmness which has been gathering force for a few weeks is due largely to seasonal causes. It is customary for sterling exchange to firm up around the middle of December because of the withdrawal of London balances and because of transfers in connection with business settlements due in London. The withdrawal of London funds from foreign centres such as has taken place during the past week is largely for purposes of window-dressing by the British banks. The present firmness is believed to be of a temporary nature and traders here expect the rate to decline sharply, certainly by the first week in January. However, the end of seasonal pressure on London meanwhile comes to an end, so that any decline which may develop after the December squeeze will hardly carry the rate so low as to make it profitable for the American banks to import gold from London. The market was not taken by surprise by this week's rise in sterling, as foreign exchange traders had been expecting something of a squeeze at the year-end. For months the currencies of countries in which money rates are high, the United States and Germany, have been in demand, while the currencies of countries in which money rates are low have been under constant pressure from the flow of funds to New York and Berlin. That the advance in sterling should be so pronounced is not surprising owing to the large amount of foreign money on loan in New York since early in June.

When the year-end requirements for window-dressing and other purposes are completed, there will be a return flow of sterling and other foreign funds to New York unless money rates here should become excessively easy. Of this there seems hardly any

prospect. Offsetting the contingency of high rates in New York after the turn of the year which might attract London and Continental funds, there is a wide-spread belief in banking circles, both here and abroad, that the differential in rates cannot continue and that money must become firmer throughout Europe. This eventuality might restrict to a considerable degree, but not completely, the volume of European funds likely to seek the New York market. The Bank of England statement for the week ended Wednesday showed a sharp impairment of reserve position owing to seasonal rise of almost £10,000,000 in circulation, and continued drainage of gold from London. The proportion of reserves to liabilities declined 8.7% from 37.9% to 29.2%. Gold holdings now stand at £155,507,575, compared with £157,191,056 a week earlier and with the record high of £176,584,000 on September 13 and with £150,381,205 a year ago. Thus the improvement in the Bank's gold position made during the second and third quarters of this year has been almost entirely lost. It is believed that the unusual increase in circulation last week probably resulted from heavy holiday buying in England stimulated by the turn for the better in the condition of the King. On Saturday last the Bank of England sold £402,086 in gold bars, received £51,700 in sovereigns from abroad, and exported £4,000 in sovereigns. On Monday the Bank sold £216,315 in gold bars, on Tuesday £226,485 in gold bars, on Wednesday £1,783 in gold bars, on Thursday £286,640 in gold bars and exported £3,000 in sovereigns, while on Friday the Bank sold \$346,817 gold bars and earmarked £500,000 gold sovereigns. The bulk of the £730,000 South African gold available in London open market this week was taken by France, which is expected to take the major part of the £870,000 available next week, and of £528,000 the following week. At the Port of New York the gold movement for the week Dec. 13-Dec. 19, inclusive, as reported by the Federal Reserve Bank of New York, consisted of imports of \$10,000,000 from Canada and of \$12,000 chiefly from Latin America. The exports were \$300,000 to Venezuela. No change was recorded in earmarked gold. Canadian exchange continued at a discount ranging this week from ¼ of 1% to 15-64 of 1%.

Referring to day-to-day rates, sterling on Saturday last was dull. Bankers' sight was 4.84 11-16@4.84 13-16; cable transfers, 4.85 1/8@4.85 3-16. On Monday sterling was in demand and firmer. The range was 4.84 3/4@4.84 13-16 for bankers' sight and 4.85 5-32@4.85 7-32 for cable transfers. On Tuesday exchange advanced sharply. Bankers' sight was 4.84 13-16@4.85 1/8; cable transfers 4.85 7-32@4.85 15-32. On Wednesday sterling continued firm. The range was 4.85@4.85 1/4 for bankers' sight and 4.85 15-32@4.85 5/8 for cable transfers. On Thursday the rate moved slightly lower. The range was 4.84 15-16@4.85 3-16 for bankers' sight and 4.85 7-16@4.85 19-32 for cable transfers. On Friday exchange was firm. The range was 4.84 7/8@4.85 1/8 for bankers' sight and 4.85 11-32@4.85 7-16 for cable transfers. Closing quotations on Friday were 4.85 1-16 for demand and 4.85 7-16 for cable transfers. Commercial sight bills finished at 4.84 7/8; 60-day bills at 4.80 7/8; 90-day bills at 4.79 1/8; documents for payment (60 days) at 4.80 7/8, and seven-day grain bills at 4.84 1/8. Cotton and grain for payment closed at 4.84 7/8.

The Continental exchanges have been firm for practically the same reasons noted above in the discussion of sterling exchange. The German mark did not share so conspicuously in the firmness noted in the rest of the European list. This is doubtless due to the fact that Germany has less funds invested abroad, and consequently less to withdraw to meet year-end requirements, while on the other hand lenders in other centers, including New York, have doubtless withdrawn some funds from Berlin. There is no indication that the strength in mark exchange is ended, although Germany seems not to have been so heavy a purchaser of gold in London this week. It is believed that the German gold takings will be continued after the turn of the year. Since September Germany has purchased approximately £16,000,000 in gold from London. Germany has also taken a great deal of gold from Russia, said to amount to 290,000,000 marks in the first 10 months of the year. There is a heavy demand for both day and monthly loans in Berlin. Public bodies continue to borrow largely and there have been heavy withdrawals from the banks of Christmas cash, with the result that day loans rose from 6% to 8% last week and monthly loans from 9% to 9½%. The private discount rate is unchanged at 6½%.

French francs have been exceptionally firm. As noted above, most of the London open market gold this week has been taken by France, as have the receipts from South Africa for the next two weeks. The accessions of gold from this source, as well as the earmarkings for the Bank of France in New York a few weeks ago, and the accession of the Bank of France reserves of gold from hoarded stocks, are factors contributing to the firm undertone of the franc, but the more immediate cause is the large year-end withdrawals of French funds temporarily employed in other markets. This week the Bank of France shows an increase in gold holdings of 83,000,000 francs. The advance in the franc rate was doubtless due in part to action of the Bank of France in order to protect its gold holdings from impairment by transfer to Germany. According to figures disclosed in a recent Parliamentary report on French debt and finances, the Bank of France had dollar balances totaling \$616,188,800 at the time of stabilization, June 26. Sterling balances at the same time totaled £155,651,300, the only other currency held being 47,500,000 Swiss francs. Bank of France foreign balances have declined slightly since that date, but not to any great extent, and the balances are composed of probably the same factors as in June.

The London check rate on Paris closed at 124.01 on Friday of this week, against 124.15 on Friday of last week. In New York sight bills on the French centre finished at 3.91 3-16, against 3.90 9-16 a week ago; cable transfers at 3.91 7-16, against 3.90 13-16, and commercial sight bills at 3.90 7/8, against 3.90 5-16. Antwerp belgas finished at 13.91 ¼ for checks and at 13.92 for cable transfers, as against 13.89 ¾ and 13.90 ½ on Friday of last week. Final quotations for Berlin marks were 23.83 ½ for checks and 23.84 ½ for cable transfers, in comparison with 23.83 and 23.84 a week earlier. Italian lire closed at 5.23 ¾ for bankers' sight bills and at 5.24 for cable transfers, as against 5.23 ½ and 5.23 ¾. Austrian schillings have not changed from 14 ½. Exchange on Czechoslovakia finished at 2.9615, against 2.9615; on Bucharest at 0.60 ¼,

against 0.60; on Poland at 11.20, against 11.19, and on Finland at 2.52, against 2.52. Greek exchange closed at 1.29 1/8 for checks and at 1.29 3/8 for cable transfers, against 1.29 1/8 and 1.29 ¼.

The exchanges on the countries neutral during the war have shown a like degree of firmness with that displayed by sterling and the other European units. In the sharp advances on Wednesday guilders and the Scandinavians each gained a point or more. At the day's high Swiss francs had risen two points in as many days, guilders three points, Swedish kroner 4 ½ points, and Danish kroner three points. In most cases the gains took place in Europe before the New York market opened. The advances, as in the case of the French franc and of sterling, were due largely to year-end withdrawals from other markets, especially from New York. The sharpest rises were in currencies having the largest proportionate amounts of funds on loan in New York. Hence Dutch, Swiss, and Swedish currencies beat in unison with the characteristic note struck by sterling and the French franc. The "Financial News" of London, in commenting on the revival of the Scandinavian Monetary Union, says:

A conference held in Stockholm between the Riksbank, the Norges Bank and the Nationalbanken i Kobenhavn has resulted in the conclusion of an agreement as to the revival of the Scandinavian Monetary Union in a modified form. The gold coins of the three nations will once more become interchangeable, but token coins will not be accepted outside their country of origin. As to the redemption of notes, it has been agreed to defer a decision. The question whether the notes issued by the three central banks should become redeemable in coins or in bar gold only has been left open. At the present stage a decision in this respect would be premature, as the experience of the countries since the return to gold is not long enough to enable them to draw definite conclusions. The terms of redemption in the three countries differ considerably, and until a uniform system is agreed upon, the restoration of the Union cannot be carried out.

The report, elaborated by Mr. Moll, of the Riksbank, Mr. Rygg, of the Norges Bank, and Mr. Schroeder, of the Nationalbanken, points out the necessity of restoring the facilities of the three central banks to draw upon each other reciprocally. It emphasizes the urgency of the restoration of the Union in a modified form, but points out that decision as to the terms of convertibility will require some time.

Spanish pesetas have been exceptionally firm, due largely to operations of the exchange control committee in Madrid. The peseta sold as high as 16.31 in Wednesday's brisk market on the announcement that the Bank of Spain discount rate had been advanced to 5½% from 5%. The 5% rate had been in effect since Mar. 23 1923. The rise in the discount rate is intended to encourage repatriation of Spanish balances abroad and to stimulate the importation of capital. The Government made a move in the same direction recently when it decreed that Spanish insurance companies keep their reserves in Spanish securities.

Bankers' sight on Amsterdam finished on Friday at 40.17, against 40.15 on Friday of last week; cable transfers at 40.19, against 40.17, and commercial sight bills at 40.14, against 40.11 ½. Swiss francs closed at 19.27 ¾ for bankers' sight bills and at 19.28 ¾ for cable transfers, in comparison with 19.25 ¼ and 19.26 ¼ a week earlier. Copenhagen checks finished at 26.70 ½, and cable transfers at 26.72, against 26.67 ½ and 26.69. Checks on Sweden closed at 26.78, and cable transfers at 26.79 ½, against 26.73 ½ and 26.75, while checks on Norway finished at 26.67 and cable transfers at 26.68 ½, against 26.65 ½ and 26.67. Spanish pesetas closed

at 16.28½ for checks and at 16.29½ for cable transfers, which compares with 16.24½ and 16.25½ a week earlier.

The South American exchanges have been dull and show little change from the past few weeks. The Argentine paper peso is close to the point where gold might be expected to move from Buenos Aires to New York, and while it has been ruling slightly weaker since the middle of December, bankers do not expect that any important amounts will be shipped north. The weakness in the South American units is, however, a temporary factor. The balance of trade for the Latin-American republics as a whole is generally greatly in their favor so far as trade with the United States is concerned. For instance, total exports to Latin America for 1927 reached \$932,197,000, as compared with \$372,520,000 in 1913, while United States imports from Latin America increased in the same period from \$484,772,000 to \$1,116,135,000. Brazilian milreis have been on offer recently around the lowest of the year. The Brazilian banks, led by the Bank of Brazil, recently inaugurated a credit restriction policy in connection with the currency stabilization program which has aggravated an already depressed commercial position. The unsatisfactory position of the coffee market and the large stock of coffee held have increased the pessimistic feeling in Brazil. Bankers in New York feel that the situation is a normal result of the deflation which always seems to accompany the stabilization of a currency after a period of disorder.

The currencies of Bolivia and Paraguay play a very minor role in foreign exchange. Passing comment may, however, be of interest at this time owing to the threatening difficulties between the two countries. Bolivia returned to the gold standard only a few months ago with a parity of 36.50 for the bolivar, against pre-war nominal parity of 38.93. Business transactions between the United States and Bolivia usually take place in dollars. The Bolivian central bank has complete control of the exchange market. Hence, the present disturbance has not been reflected in the exchange rate. Paraguay's foreign commerce is transacted on a basis either of Argentine exchange or of the currency of the other country involved. Paraguay has a currency of its own, the peso, which has a value of about two cents, and which is stabilized in terms of Argentine pesos and backed by a reserve of Argentine pesos to the extent of about 45%. Prior to 1923, the Paraguayan peso fluctuated constantly, but mostly downward. In 1923 the unit was stabilized in terms of Argentine pesos and the relationship has been maintained since. Argentine paper pesos closed on Friday at 42.10 for checks, as compared with 42.13, and at 42.16 for cable transfers, against 42.18. Brazilian milreis finished at 11.88 for checks and at 11.91 for cable transfers, against 11.90 and 11.93. Chilean exchange closed at 12.05 for checks and at 12.10 for cable transfers, against 12 1-16 and 12½, and Peru at 4.00 for checks and at 4.01 for cable transfers, against 4.00 and 4.01.

The Far Eastern exchanges have been dull. The time is approaching when the Far Eastern exchanges should show decided improvement. Japanese yen have been free from speculative attack, although a depressing feature this week arises from the an-

nouncement that Viscount Korekiyo Takahashi, twice Minister of Finance and once Premier, and regarded as the nation's leading financial authority, stated a few days ago that the removal of the gold embargo in Japan would be an unwise step. This statement was made in a special interview with the "Wall Street Journal's" Tokio correspondent and was published here on Wednesday. Viscount Takahashi's views are believed to have settled for a long time to come the question which for many weeks has been the outstanding issue in the nation's affairs. Money is in strong demand in India and Straits Settlements. Bombay is taking heavy shipments of sovereigns direct from Durban in South Africa. A shipment of £500,000 was made last Saturday and another of £700,000 will be made next week. Closing quotations for yen checks yesterday were 45⅞@46⅛, against 45.85@46 on Friday of last week. Hong Kong closed at 49⅞@50 1-16, against 49.75@50; Shanghai at 63½@63 13-16, against 63⅜@63 11-16; Manila at 49¾, against 49¾; Singapore at 56 9-16@56⅝, against 56⅜@56⅝; Bombay at 36⅝, against 36⅝, and Calcutta at 36⅝, against 36⅝.

Pursuant to the requirements of Section 522 of the Tariff Act of 1922, the Federal Reserve Bank is now certifying daily to the Secretary of the Treasury the buying rate for cable transfers in the different countries of the world. We give below a record for the week just past:

FOREIGN EXCHANGE RATES CERTIFIED BY FEDERAL RESERVE BANKS TO TREASURY UNDER TARIFF ACT OF 1922, DEC. 15 1928 TO DEC. 21 1928, INCLUSIVE.

Country and Monetary Unit.	Noon Buying Rate for Cable Transfers to New York, Value in United States Money.					
	Dec. 15.	Dec. 17.	Dec. 18.	Dec. 19.	Dec. 20.	Dec. 21.

Owing to a marked disinclination on the part of two or three leading institutions among the New York Clearing House banks to keep up compiling the figures for us, we find ourselves obliged to discontinue the publication of the table we have been giving for so many years showing the shipments and receipts of currency to and from the interior.

As the Sub-Treasury was taken over by the Federal Reserve Bank on Dec. 6 1920, it is also no longer

possible to show the effect of Government operations in the Clearing House institutions. The Federal Reserve Bank of New York was creditor at the Clearing House each day as follows:

DAILY CREDIT BALANCES OF NEW YORK FEDERAL RESERVE BANK AT CLEARING HOUSE.

Saturday, Dec. 15.	Monday, Dec. 17.	Tuesday, Dec. 18.	Wednesd'y, Dec. 19.	Thursday, Dec. 20.	Friday, Dec. 21.	Aggregate for Week.
\$ 162,000,000	\$ 219,000,000	\$ 154,000,000	\$ 155,000,000	\$ 127,000,000	\$ 129,000,000	Cr. 946,000,000

Note.—The foregoing heavy credits reflect the huge mass of checks which come to the New York Reserve bank from all parts of the country in the operation of the Federal Reserve System's par collection scheme. These large credit balances, however, reflect only a part of the Reserve Bank's operations with the Clearing House institutions, as only the items payable in New York City are represented in the daily balances. The large volume of checks on institutions located outside of New York are not accounted for in arriving at these balances, as such checks do not pass through the Clearing House but are deposited with the Federal Reserve Bank for collection for the account of the local Clearing House banks.

The following table indicates the amount of bullion in the principal European banks:

Banks of	Dec. 20 1928.			Dec. 22 1927.		
	Gold.	Silver.	Total.	Gold.	Silver.	Total.
England...	£ 155,507,575	---	155,507,575	£ 150,381,205	---	150,381,205

Total week	806,135,951	34,400,600	840,536,551	638,695,679	52,572,503	691,268,182
Prev. week	805,109,298	34,496,600	839,605,898	638,247,718	52,555,543	690,803,061

a These are the gold holdings of the Bank of France as reported in the new form of statement. b Gold holdings of the Bank of Germany are exclusive of gold held abroad, the amount of which the present year is \$4,281,300. c As of Oct. 7 1924. d Silver is now reported at only a trifling sum.

Mediation in South America and the Anti-War Treaty.

The danger of open war between Bolivia and Paraguay appears to have been averted, for the time being at least, by the acceptance by those countries of the offer of mediation tendered by the Pan-American Conference on Conciliation and Arbitration on Friday of last week. The note of the Paraguayan Government accepting the offer was received at Washington on Monday, and on the same day the Bolivian Government informed the Council of the League of Nations, which had also been urging peace, that it had ordered a cessation of fighting. On Tuesday Bolivia followed Paraguay in formally accepting the tender of good offices by the Pan-American Conference. In the meantime each of the disputants had accused the other of beginning the conflict, considerable bodies of troops had been organized and set in motion by each country, and public opinion in the two countries was reported as strongly upholding the contentions of the respective governments.

The note of the Bolivian Foreign Minister, Tomas Manuel Elio, to Secretary Kellogg, Chairman of the Washington Conference, contained an important reservation. "On entering upon your good offices," the note declares, "Bolivia requires that you investigate in the first place the attack on Fort Vanguardia without involving in the preliminary inquiry the questions at the bottom of the dispute, which have been entrusted to arbitration within the procedure established by the Argentine suggestion of December 1927 and which was accepted by both countries." The same reservation, in somewhat different language, was made in a note to M. Briand, the note declaring, after a statement that the good offices of the Washington Conference had been accepted, that Bolivia "will request in the first place an investigation of the attack on Fort Vanguardia, without taking up the fundamental questions at the bottom

of the dispute. These are being submitted to arbitration on concretely defined points." The "fundamental questions" referred to concern the sovereignty over the Gran Chaco, the disputed territory in which armed clashes between the forces of Bolivia and Paraguay have occurred. That Bolivia intends to insist upon its sovereign claims in the territory in question appears from a further statement in the note to Secretary Kellogg, in which, after charging that "the deplorable conflict" had been "created by an unjustifiable aggression on the part of Paraguay," Foreign Minister Elio declared that "the Government of Bolivia has circumscribed its action to sustain its attitude, which attitude, in turn, was forced upon us by the unavoidable necessity of safeguarding our dignity and sovereignty and is consistent with the strictest international principles and practices."

It is perhaps because of this reservation, obviously of great importance if the dispute is to receive a permanent settlement, that the Conference at Washington appears to have felt the need of caution in bringing its good offices to bear upon the problem. Washington dispatches of Wednesday reported that the special committee appointed to give effect to the resolution of the Conference had decided, after a protracted session, that further information would be necessary before a definite recommendation could be made to the Conference, and that a more precise definition of the points at issue had been requested from the two governments. The representatives of Bolivia and Paraguay were also asked to obtain from their respective governments information "as to whether mobilization and troop movements would be definitely halted during the inquiry." The action of the committee seems to indicate some doubt regarding the actual status of the situation, and the length to which the mediation tendered by the Conference may properly go. An informal suggestion that, in view of the early adjournment of the Conference, the practical application of conciliation should be left to Secretary Kellogg was, however, properly opposed by Mr. Hughes, the American member of the special committee, who was reported as saying that the co-operative ideal of the Conference would not be furthered by "endowing one country with conciliatory powers in a dispute of this kind," and that a "united Pan-American front" should be maintained "in all matters affecting the Western Hemisphere." The view expressed by Mr. Hughes has since been reported as agreeing in general with that of Secretary Kellogg himself.

The obstacles which reservations, however much they may aim to safeguard a country's interests, may put in the way of adjusting international disputes or ratifying international agreements is further illustrated by the sharp difference of opinion that has developed over the pending ratification by the Senate of the Kellogg anti-war pact. The pact was laid before the Senate on Dec. 4 by President Coolidge, accompanied by a message in which the President expressed the hope that the Senate might give its approval in time for the treaty to be ratified before March 4. On Wednesday last the treaty was reported to the Senate by Senator Borah, Chairman of the Committee on Foreign Relations, with a recommendation that it should be ratified. With the treaty was also reported, but without recommendation, a resolution prepared by Senator Moses of New Hampshire, expressing certain "understandings"

with which the Senate is asked to qualify its consent. The proposals of Senator Moses, which have undergone several changes of form while the treaty has been before the Foreign Relations Committee, declare that the advice and consent of the Senate to the ratification of the treaty are given with the understanding that the treaty (1) "does not impair or abridge the right of the United States to defend its territory or other vital interests in accordance with traditional American policies"; that it (2) "imposes no obligation on the United States to resort to coercive or punitive measures against any offending nation," and that it (3) "does not obligate the United States to the conditions of any treaty to which the United States is not a party."

The controversy which has been carried on in the Foreign Relations Committee, and which has now been transferred to the floor of the Senate, over these and other proposed stipulations has been very much less concerned with the substance of the various formulas than with the question of whether or not the consent of the Senate should be saddled with any understandings or reservations at all. On this question there has developed a sharp difference of opinion. President Coolidge was reported on Dec. 14 as strongly opposed to any reservations, on the ground that the Senate ought not to interpret the treaty in advance. His objection was reaffirmed with added force on Friday, and with the further contention that it would be in questionable taste for one of the co-ordinate branches of the government to attempt to explain a document which had been framed and submitted by another branch. The position taken by Secretary Kellogg, who appeared before the Senate committee in behalf of the treaty, and by Senator Borah, to the effect that "the notes by Great Britain and other Powers expressing their attitude upon the treaty have no binding force," has been publicly challenged by a number of eminent authorities in international law as without support either in international law itself or in the practice of courts or tribunals of arbitration. There is certainly much evidence to sustain the contention that courts and other tribunals, in interpreting agreements, give weight to written statements of what the signatory parties meant when they affixed their signatures. The British note of May 19 last, addressed by Sir Austen Chamberlain to Ambassador Houghton, specifically states, with reference to that part of the treaty which provides for the renunciation of war as an instrument of national policy, that "there are certain regions of the world the welfare and integrity of which constitute a special and vital interest for our peace and safety. His Majesty's Government have been at pains to make it clear in the past that interference with these regions cannot be suffered. Their protection against attack is to the British Empire a measure of self-defence. It must be clearly understood that his Majesty's Government in Great Britain accept the new treaty upon the distinct understanding that it does not prejudice their freedom of action in this respect."

The practical difficulty that is at once encountered if reservations or understandings are attached to the Senate vote is that the ratification of the treaty by other Powers is certain to be delayed, and the treaty itself may be defeated. The conditions imposed by the Senate would of course be transmitted to other governments; indeed, the Moses resolution expressly

requests that they be so transmitted. It is hardly conceivable that all the governments would interpret the Senate reservations in identically the same way, and it is entirely possible that some of those governments, observing that the American Senate had seen fit to prescribe qualifications, might themselves offer other reservations which in turn would have to be considered by the United States. The diplomatic interchanges that would be necessary to harmonize these difference of view would take a great deal of time, and very possibly at the cost of weakening greatly the support for the treaty which, up to the present moment, has been general throughout the world.

The legal question of the binding force of such understandings as are set out in the Moses resolution, or of such reservations as the Chamberlain note clearly expressed, is, of course, one for international jurists to answer. There will be general agreement that the vital national interests of the United States, in whatever direction they may be seen to lie, should not be sacrificed or brought into jeopardy. On the other hand, the formal renunciation of war as an instrument of national policy, and the substitution of peaceable methods of settling international disputes, are freighted with such possibilities of benefit to mankind as to warrant the hope that the Senate may nevertheless find a way of approving the Kellogg treaty without incorporating in its resolution of approval any formal reservations, since the effect of such action would almost certainly be to precipitate a worldwide controversy and delay indefinitely the ratification of the pact by other Powers. The obligation to renounce war is, after all, a moral one. It is difficult for the lay mind to see in the Moses understandings anything of great moment that is not either implicit in the general conception of nationality and political independence, or else abundantly clear in the historic policy of the United States.

---

#### *Christmas Day—1928.*

The marts of trade are vacant. In factories, the wheels are stilled, and shadows gather. Out on rolling prairies, the farms are etched in black and white; there is a vast silence, broken, here and there, by the storm-king's diapason. In cities and towns, the attractive window-displays are shuttered, and the doors of the stores are closed; and the streets are filled with people, happy, gay, even careless. In churches and cathedrals, candles are lighted, above the altars hangs a star, low sweet music breathes amid the vaulted arches, and worshippers feel the solemn hush of a far-off event, unmatched in the history of mankind. It is Christmas Day, 1928. And in the homes and hearts of men there is quietude and peace.

For nineteen hundred years the Day has been celebrated. In all this time it has gathered sanction and sacredness. It is the day of the Child and the Star and the mother divine! Science has unlocked marvellous secrets of the universe; philosophy has probed into the causes and meaning and purpose of life; industry has created a material ensemble of machinery, stranger, more powerful, more magical, than the wizardry of fable; the Day remains, unchanged! A magnificent pause, in the advance; an interlude, in the never-ending physical endeavor; a recurrent glory, in the saga of toil and triumph;

a rebirth of love, and a benediction from the Infinite!

Periods of speculative doubt, of egoistic scientific inquiry, have swept over the story of the Christ, but its symbolism, solemnity and savor, have withstood them all. For man is an intuitive worshipper. However fathomless the natural laws of his environment, however unsatisfied his longings and unanswered his aspirations, man, in his heart, reveres, and thus loves, God. And the Christ who represents that Divinity, which is greater than thought, and wider than wisdom, and more precious than life—the essence of love and the embodiment of power—is near to the divine nature, and the exemplar of all man holds most dear. Nor does the world longer wait upon the scriptural story for its confirmation of the essential character of One who went about doing good, and taught lowly men eternal truth in parables, and gave himself, even in death, to the helpfulness of sacrifice and the saving power of good-will to all; it gathers inspiration from his life and love and kneels in adoration to his memory and accepts the spirituality of his teachings as the sanest, surest guide to purposeful and beneficent living. And thus on that day whereon he was born, and the heavens opened and the angels sang, and the wise men, guided by a star, gathered about him with gifts, increasingly as the years pass, on land, on sea, and on the islands of the sea, the nativity is celebrated, by all those who know and feel the wonder-working power of his humble and holy life and leading.

And so the spirit of the Nazarene, traditional or historic, has come to swathe the earth like a band of light. It mingles naturally with the essence of all religions. It unites the contemplation of the East with the energy of the West. Blooming in the heart, it bears fruit in the home. And when the deep-toned bells peal out upon the frosty air, and the carols are sung, and the yule log burns and the holly glistens, and friend greets friend, and there is a home-coming of those who are parted, the vicissitudes of life are forgotten, the ambitions are softened, the cares drop away, and a holy hush falls on the activities of a strenuous world, and rich and poor, learned and unlearned, toiler and thinker, feel in the sacred recesses of the soul that old, old paean of praise: Glory to God in the Highest—and on Earth, Peace and Good-will to men! We, of to-day, in our own fair land, are accused of a materialistic life. We are said to worship money and wealth. But when this Christmas Day returns, and the surge of the spirit of goodness invests us, we commemorate in charities unnumbered, and in tenderness unwritten, the glory of one who gave himself that others might have a happier and healthier living. It is not too much to say that the culmination of our industry and enterprise, by the illumination of the spontaneous and unselfish giving of this day, is shown to be a higher and nobler thing than mere acquisition and accumulation, that it is an emprise having for its aim and end the comfort and happiness of those who are near and dear, and the overflowing of which succors those who are in need and builds in permanent form the institutions which minister to the indigent and afflicted.

To intrude figures into the meaning and memory of this absolving day seems almost a sacrilege. But our everyday literature mentions half a billion dollars as the savings of the Christmas Clubs for the purpose of giving gifts, an eloquent sum as far as

this form of measurement indicates anything. And prosaic as it may be, the amount does indicate a toil, a kindness, a goodness, that has become a fixture in the customs of our time. Occasionally, we question the wisdom of these expenditures. Presents, as we call them, are, it is true, sometimes ill-fitted to needs, sometimes are given without a fullness of regard, signify in fact, a waste of effort. And yet, springing from this hallowed spirit that runs around the world, they signify, however imperfectly, in every instance a subjective benefit we can well afford to cultivate prodigally. If it is more blessed to give than to receive, as the old adage tells us, we have sufficient cause to remember those we love or regard, without a feeling of calculation, which, in any event, must dull the gladness of a good deed done in the right spirit, who can measure the gentle satisfaction which in millions of instances comes from a remembrance of others though it be only the trifling act of sending a card or writing a letter, or mailing a small package that holds little more than a kindly thought or message of good-will? The meaning justifies and consecrates the act, and when it is done, there is a glow in the heart that was not there before.

On this Christmas Day, as the year 1928 nears its close, how many tiny hands clutch tight the motley gifts that mean so much in the mighty march of our advancing life! How many aged eyes grow moist as memory recalls the years that are gone, the loves that are lost, as the loneliness of broken associations is dispelled by the gift of an absent one! How many homes are brightened, that know the care of unceasing toil and the sorrow of faded hopes, by the remembrances that come, perhaps unexpectedly, at this anointed time! It is a blessed and beautiful thought that true regard may take protean forms and that when one has responded to the spirit of the Day, there is a peace dwelling within that passeth understanding, and that partakes of the holiness that, for man, has its highest exemplification in the divine gift of Life itself. We are but wanderers on the shores of the everlasting, gathering the shells that are cast at our feet by the waves of the passing and hurrying years, and though we pause but an instant to give to others the shining baubles that have been thrown along our own pathway, we have glorified ourselves and conformed to the Holy Spirit, which, from the beginning marked out our course. Let us then bow to the inspiration that prompts the giving, and yielding to an impulse divine, give to those we know and to those we do not know, with no other thought than the will to be kind.

The magical and mystic day falls in a year when the public mind is occupied with progress and poverty, with prosperity and power, with exploitation of indigenous resources, with great corporate consolidations, with huge transactions on the exchanges, with pleasure, profit and plenty. There is an inordinate desire for riches, a strong suspicion that fast living is leading to some unknown catastrophe, an appeal to government for help and protection, a feeling the material is quenching the spiritual—almost a call for stock-taking in what we call civilization. In the quietude of this Day of good-will and loving kindness, the resting mind may, and must, contrast the sublime peace of retrospection, review, and restitution, one to another, with the eager, insatiate, frenzy for speculation and success. And in this hour, and on this Day of all days

in the year, it must come home to every heart that the simple relations of gentle folk and the lowly tasks of common people rise to the splendor of true devotion and submissions to the infinite. For the spirit of Christmas is the spirit of sacrifice, the spirit of duty, the spirit of love. And, ascending to the heights of achievement, the soul looks out with wider view, the purpose of endeavor broadens the scope of responsibility, and wealth assumes its rightful place in the hands of those who use it for the benefit of mankind. And happily, the 1928 retrospect and comparison brings more of realization than regret.

And so the latest Christmas will pass serenely into history. And from its influence a wave of spiritual reality will sweep into the New Year, to flame in hearts harried with cares of the world, lighting the dark chambers with compassion and mercy; and giving to reason and justice a clearer vision and a tendered voice. For as man loves so is he loved. And though the stern requirements of toil and trade may blur the picture of the Child and the Star, something remains not born of man, but eternal in the cause that gathered the heavens into their glory and the little lives of little men into the joy and peace of the sacred way the generations shall travel till time shall be no more. All Hail and Farewell! Around the fireside, under the glow of the evening lamp, in the home that celebrated the beloved Day, there comes a serene Presence—and the heart asks for absolution, the mind requests the benediction of truth, and the soul seeks solace in the enfolding spirit. Hail and Farewell—farewell until the star rests again above the manger, and hail to the coming year, wherein the doing of good may brighten every life, and the aspiration of man may go down into the dark places to uplift those who have fallen and save those who are spent.

#### *The Battle of the Parties.*

Professor Charles A. Beard has followed up his *History of American Civilization* by a study of our party politics which is interesting and timely.\* He finds the current conceptions of the existing two-fold distinction unsatisfactory. Politics is something more than a great game with party names and slogans the pieces on the board. Macaulay's explanation of party origins as the natural division between groups conservative in temper and disposition on the one hand, and people adventurous and restless on the other, is not convincing. Nor is any more successful Brander Matthew's conception of an instinctive turning of men of aristocratic temperament to a government by men like themselves, over against the Jeffersonians who believed that the average man, however unenlightened, knows what is best for himself and others better than any superior person can know it for him.

Of course, in most countries there are minor party divisions, clerical, agrarian, labor, &c. But even in America the distinction that long prevailed between the North and the South, or that of the intensive Hamiltonians and the instinctive Jeffersonians, is not self-explanatory and has not been consistent. Brice's theory of a party division based on the rights of the Federal government over against those of the States, also is not adequate to explain subsequent history. Prof. Beard finds President Madison's opinion that the real origin of the two

parties lies in a division of property, falls in the same class. It is not true that men without property have formed a class in the nation. Creditors and debtors stand in one common relation. The regulation of all these various personal interests forms the chief task of modern legislation and suffices to create differences of spirit and action in public life. But even this view is incomplete.

We are easily misled by such terms as capitalist, farmer, laborer. To-day each of these may represent men having so many different interests that it is difficult for political leaders to formulate any platform or appeal that will unite the major part of any one group, even of farmers or laborers. Prosperity may at any time be strikingly distributed in any group according to their connection with different interests. Big and little capitalists may not be united; and labor is subject to sharp division, even in kinds of work. National, racial or religious differences may co-exist effectively, even if only as traditional factors. Irish-Americans are generally Democrats, while Germans, who in any number came later, occupied the open lands of the West, which chanced to be provided by the Republicans to whom they naturally turned. Over all remains the fact that a political party out of power exploits every aid, whatever its history or connection, that may serve its immediate need, and the party in power if it would gain support feels it necessary to do the same.

The party once established, loyalty to it stands for patriotism. The man who falls out of its ranks is often treated with scorn and abuse. It was said, for example, in Maryland before the recent election, that in that State they always voted for "the quality," and for any one however prominent to be known to have voted the Republican ticket would end his political career. This used to be true throughout the South, but probably is not true to-day. After the Civil War, party alignment became so sharp that any "third party," independent action, or even indecision, was a species of treason.

With the growth of the country the number of elective offices became so great that it is practically impossible for most of the citizens to have any part in nominating candidates. The entire machinery of elections falls into the hands of men who make a business of it. Strong party organization becomes indispensable; it must embrace both State and Federal action if it would be successful. As things stand, it is the only method of securing any harmony of action between the executive and the legislative branches of the government. Not infrequently a legislature is chosen to make laws which stand to be enforced by an executive whose party is opposed to them. The co-ordination of the two departments of the government is therefore a main function of the party system. This domination by the system whether it is successful or not opens the way for subsidizing aid of every sort in its support. Patronage is at its command, covering every device for getting for its supporters some share of all money within reach, and exposing servants of the State to all forms of outside influence and pressure. Party leaders must use every method of winning votes. Politics becomes a serious business, getting all one can and never relaxing. The system underlies, if it does not determine, whatever changes take place in the administrative activity of the nation. Practically it fills the offices.

\**The American Party Battle.* C. A. Beard. Macmillan Co.

The short regime of the Federalists under the lead of Hamilton ended with the election of Jefferson in 1801. The earlier leaders were accused of favoring the well-to-do and disregarding the interests of the people. The new administration which lasted 28 years took the name of Republican. It experienced the great enlargement of the country, embracing Ohio in 1803, Louisiana in 1812, Indiana in 1816, Mississippi in 1817, Illinois in 1818, Alabama in 1819 and Missouri in 1821, encountered strong opposition, and developed a new type of economic society, hardy and restless, with ideas fundamentally different from those of the merchants of the East and the aristocratic land owners of the Hudson. The slave population of the South rapidly increased and the lust for money seized the planters, as it had the mill owners and traders of the North. A large foreign immigration during the first quarter century broke down restriction of the suffrage.

With Jackson's administration, 1828-1836, a new party appeared uniting his opponents as National Republicans, and then as Whigs, a name taken from English politics, signifying antagonism to high executive prerogative. It marshalled a miscellaneous collection of all who were discontented with Jackson. It enjoyed two brief periods of triumph. In 1840 it elected Harrison, a military hero, and again in 1848 carried the day with General Taylor, but failed utterly when it tried another military hero, General Scott. Without any definite principles, it lasted nominally till the election of Buchanan in 1856. The Democrats meanwhile got possession of the Supreme Court, brought Texas into the Union and spread the influence of slavery, despite growing Northern opposition.

A third Republican party, which had nominated Fremont in 1856, only to be beaten, came into power in 1860 and prevailed during the Civil War. It revived many of the Federalist principles, a protective tariff, a funded debt, a banking system, and a commercial empire which within a decade embraced Alaska, and planned extension in lines which became permanent. It extended judicial supremacy, secured the 14th Amendment to the Constitution and passed the Homestead Act providing free land for all comers. Prolonged supremacy in time weakened its hold, and in 1884 the Democrats elected President Cleveland, and though he secured two terms (though not consecutive), there was slight economic change. In 1896 the Republicans came again into power, to hold it until the election of President Wilson in 1912.

The period following the Civil War was a time of much economic change affecting the lives and movements of the people. Agrarian disturbance, free silver, the Spanish War, Labor, Socialism, and Prohibition, all gave rise to party divisions; and the revival of Jacksonian Democracy opened the way for prolonged internal controversy.

This made possible a left-wing agrarian movement which gathered strength until in 1896 it overwhelmed the Democratic party and split the Republicans. A vigorous return to the Hamilton, Seward, heritage of hard money, protection for American industries with the development of the trading empire which Seward had advanced, and the Spanish War, soon favored the Republicans, now heartily Federalist in their general position. President Roosevelt, however, aroused distrust of capitalistic influence. Trusts, railways, labor, and social ques-

tions came into prominence. Division in the Republican ranks arose. Wilson was elected President, and in 1914 the Great War broke out, and the situation changed radically.

A new world was created. Questions thrust upon us since then were occasioned by new conditions though their roots are deep in the past of our economic and political experience. Before we had gone far toward normal conditions, President Harding's death raised Mr. Coolidge to the Presidency and the situation to-day has resulted.

For us a Presidency new in many ways has been extended, and the questions of Party in the recent election were viewed in that light. Happily, Mr. Hoover's election is accepted by the country as a good augury. The story of the past shows that while political parties have immediate effect on the public welfare, economic and social forces are at work which are far more powerful than any political policy, and that parties are in the long run compelled to adjust their programs and tenets to them.

The electorate has vastly enlarged. The radio, the telephone and the airplane make intercourse complete and news and ideas are common to all; but tradition and self-interest remain. The past has still its hand upon us and easily controls unless its lessons are taken to heart and thinking is well informed as well as talkative.

"The tumult and the shouting dies, the Captains and the Kings depart," only to return, possibly with new names but the old ways. Right purpose that does not fade or fail is needed if well-being and peace are to be won. Kipling's prayer, "Lest we forget," may well be on every lip.

#### *The Paris Peace Pact—Lest We Forget.*

Now that we have come to the ratification of the solemn signing of the resolution to renounce war as an instrument of national policy, it is well to consider what we are relinquishing. There will always exist in the world the right and the duty of self-defense. Life is sacred, the gift of the Infinite, and should be treasured against destruction. But the individual life is different from the national. And the preservation of the former may *sometimes* be gained by the sacrifice of the latter. A nation is not always the representative of a people. Migrations and transplantations mix the races. Often the infiltration by immigration goes on unnoticed, unobjected to. A nation is known as a territorial government; it has boundaries, often, most often, the result of conflict. To defend these boundaries because they are the homes of men is one prolific cause of strife. Yet to pass these homes peacefully from one rule to that of another does not destroy them, and they may be so alienated without great harm. And often this is the case. More boundaries are arbitrated, and thus finally settled, than are fought over. To give up a preference for one autonomy for that of another may not be what we term loyal, but it protects individual life from destruction and is a form of equivalent to "turning the other cheek."

To surrender a national life—the autonomous life of a collective people—without a fight is unspeakable. We say, commonly, that it is nothing short of craven cowardice. Yet by this very act real life of massed individuals *may* be protected. To kill by wholesale to protect the *honor* of nations is the destruction of life by wholesale. *It is war!* But what-

ever may have been the necessities and duties of the past in the long progress of mankind we confront a fixed condition to-day. The whole earth is owned and occupied. It is a checker-board of nations. It is a congeries of peoples. It is a unit of varying civilizations. It is a map of territorial boundaries, behind which collective individuals erect liberal forms of government or submit, more or less willingly, to forms that are the result of force, past or present. At the passing moment, therefore, there is, of right, *no room for aggression*. This is robbery. It is international hold-up. It is wresting by force that which, whether priorly established by right or wrong, is fixed, is owned, is established. And by this very token, boundaries are not sacred; honor does not demand their protection by a greater evil than submission, the master evil of war. And by relinquishment through arbitration more is to be gained for mankind than by wholesale slaughter in defense.

Whatever their remote or immediate cause, whether over boundary lines, the protection of so-called interests, the maintenance of an indefinable so-called honor, or the protection of human rights inherent in citizens of the world, property on the high seas or in foreign countries, *wars are made by nations*, not by peoples or collective individuals. All nations should derive their just powers from the consent of the governed. But whether they do or not, there must be more reason for the resort to armed force than lies in any national autonomy in itself. If the assumed or invested power to protect results in the end in the unbridled and unmeasured destruction of the very *life* it presumes to protect, while there remains in the world the means we name conciliation, arbitration, and adjudication, *war is the madness of idiocy, it is the crime of all crimes, it is the Outlaw running amuck through all progress and civilization*. And this the Paris Peace Pact declares it to be; or to frame the intent in other words—a renunciation of resort to force as a national policy. This, and nothing more. There is, thereupon, no room for reservations to the declaration. It does not prevent the violation of right. It does not forever prevent war. It only stamps it in itself as inhuman, unintelligent, wicked, futile, and fratricidal. And by this it asserts that human life is sacred. And correspondingly that nations have no right to resort to this method of adjustment of wrongs because it is a greater wrong than all other wrongs.

If, then, in an occupied and already owned earth, occupied and owned in the course of events that cannot now be recalled, whether justified in that past or not, then, also, there is no right of aggression and no legitimate cause for any war. To relinquish the right of aggression is to fix the status quo among nations. It is to assert that resort to war is a national crime, and an insensate evil. If so-called honor, if property rights outside autonomies, if protection of human life because sacred wherever found, are infringed, still resort to armed force is not justified if in the doing of this more of honor is trailed in the dust, more property is destroyed, more sacred human life is sacrificed, than would be the case through submission to arbitration. And this, as the history of all wars proves, is the case. War is the sabre-tooth of civilization. It is the triumph of the jungle. *Vengeance is mine, saith the Lord*. War is hate, horror, inhumanity

to man. To declare it beneath the mind, heart and soul, is only to assert the dignity and worthiness of nations or collections of men. And one of the proofs of its infamy is that it sanctions murder which man himself in his civil laws condemns. And even if the punishment by death *is* embraced in the statutes of States there is nowhere the taking of two lives for one.

Shall we then halt and haggle over the commitment to outlaw war? What is there that cannot be settled by arbitration? What is there that draws the teeth of reprisal like renunciation? What kindness or love or good is there in the shedding of blood? When and wherever did might make right? Man fought the animals in primal history because in their low plane of consciousness they preyed upon him. It is said that there is a point in human development, as shown by the fossil remains of the cave dwellers, when it is impossible to tell whether the man ate the bear or the bear ate the man. But the man has progressed through savagery to civilization. How can the civilized resort to the weapons, a thousand times multiplied in their devilish ingenuity, of the barbarous? Having reached the high consciousness of recognition of the essential nature of warfare, how can man do less than to solemnly declare it? He who hesitates is lost; he who dallies is damned. War is the machinery of the beast. It harms the victor as well as the vanquished. It robs, but it never restores. It drowns the world in debt. It poisons the springs of goodwill and turns the life-giving waters of love into hate. To stand and repulse an onslaught but never follow on into reprisal is one thing; to pursue the enemy for the sake of vengeance is quite another.

The Paris Peace Pact is the high water mark of man's advance. It is the apotheosis of collective wisdom. It is the glorious delivery of the consciousness from the thoughts of evil that lead down to the depths of animalism. If man *will* not fight then *must* he arbitrate. There is in the mind of man enough of light to *know* what is fair and just and right. To submit all controversies to the impartial judgments of disinterested mediators is to find a way to settle all difficulties. To fly to arms in sudden anger is to destroy reason. When that has abdicated, any atrocity may legitimately follow. A few days ago, two small republics in South America were on the verge of war. Paraguay and Bolivia seemed bent on settling an imaginary line, a so-called boundary, by resort to war. It was said that one had offered an affront to the other that could not be borne. Therefore, they must affront the enlightenment of a whole world by killing each other by all the modern means of murder. And for what? A few square miles of territory and the proud satisfaction of defending a dubious honor. No matter under which flag, the land remains. But the people perish and the innocent suffer. For generations to come there would have been rancor and debt and dislike. Is this the boasted wisdom of civilization, the worship of a loving God?

There *is* a way to end war. Its rubicon is the Paris Peace Pact. Once that is crossed, once there is harmonious acknowledgement that war in itself settles nothing, there will be found some other means of adjustment. The brawler in the streets merits no respect. The armed bandit among nations is a danger to the whole world. Forever to expect war is to bring it about. To resolve to never again

resort to force, to denounce the method as barbarous, to solemnly invoke the instrumentality of arbitration, is to commit the world to peace. Once the best in man is firmly and finally committed to peace, only the outlaw war, running amuck among the nations, can produce conflict. Peace fattens on peace; war grows strong only by wars. Where is the man who left to himself would plunge peoples or nations in war? Shall governments continue to believe that they must do so? Not when all have signed a treaty solemnly abjuring its use! The conscience of an aroused humanity demands the signing without reservations.

**Is Not Group Speculating a "Conspiracy" Making for Inflation.**

ARTICLE II\* (Communicated).

In the preceding article (published in issue of Dec. 15, page 3303), three grounds of serious import were considered on account of which it was contended public opinion should be invoked against those mainly responsible for the unparalleled speculative drives which have been in progress on the New York Stock Exchange during the past year.

To these must be added: (4) The Resulting Bank and Credit Inflation.

But bad as mass speculating must prove in its effect on government finances, and the thousands of unsophisticated persons deluded by it, a worse feature lies in the manner in which it is coining, as it were, for these daring operators and a horde of small imitators, billions of dollars worth of what may properly be termed "false" or "fictitious" gold credits, and so threatening our financial standing as individuals, as a nation and as the custodian of no small part of the credit basis of foreign nations.

In other words, this speculation is in the nature of a mammoth counterfeiting machine, and its effectiveness arises not only from its ability to put up (or lower) prices of luxury and other stocks almost at will and thus to reap enormous profits, but also by stimulating with the profits so derived the luxury trades and those forms of business allied therewith, it gives to the luxury and allied stocks an extravagant earning power so long as the inflationary process continues.

These billions of inflated (fictitious) gold credits rank equally, dollar for dollar, with the poor man's pittance in the world's markets, and as bank savings; and when loaned abroad require payment on demand, if gold credits are lacking, in monetary gold for principal and interest as these mature unless they be reinvested abroad. On the other hand, these profits if retained in the United States and entrusted to the banks or others, serve to render less and less substantial the underpinning of gold on which all credits in the United States so largely rest.

So rapid indeed has been our bank expansion, owing to speculation and other causes of an inflationary nature, that despite the vast imports of gold (aggregating approximately 1 3/4 billion dollars net since 1913, making our total holdings in excess of 4 1/2 billions of dollars as figured by the Federal Treasury on Oct. 31 1928), the percentage of monetary gold in the United States and the percentage of such gold in bank reserves is, like that of Great Britain, relatively low.

Our gold reserve is also on the decrease as compared with the expanding deposits, although accounted ample for the nation's present need. Figures prepared by the expert of the Chase National Bank, but readily duplicated by any one willing to study the report of the Comptroller of the Currency, make the following comparison (see "Chase Economic Bulletins" of June 25 and Oct. 31 1928) :

\*The first article in this series appeared in our issue of Dec. 15, pages 3303-3304.

Percentage of Monetary Gold to Total Deposits. (Including All State and National Banks and Trust Companies.)  
Compared with Bank Deposits—

	June 1922.	June 1925.	April 1928.
Total monetary gold in United States...	12.33%	11.33%	9.73%
Total in reserve of Fed'l Reserve banks...	9.85%	7.24%	6.21%

Certainly as a nation we have the right to condemn and thwart the speculators' wholesale swelling of fictitious profits and credits that may tend to weaken the gold foundation on which our business structure stands.

OTHER INFLUENCES MAKING FOR CREDIT INFLATION.

But while speculation is to-day probably the greatest of all forces making for credit inflation in the United States, we cannot attribute to speculation the sole or even the chief place during the past decade in causing the credit expansion which has done so much to increase business.

It is true at the present time in the broad sense, as ever it was in the narrow application in which it was first used, that speculation and inflationary business will absorb any amount whatever of credit and other artificial purchasing power. (Prof. Sumner's dictum in 1884 when writing of paper money was to the effect that "The rise of prices and the multiplication of credit operations will go on to absorb any amount of currency whatever.")

Hence, whether we hold the banks accountable as is sometimes done, for the extraordinary credit expansion of the prosperity period, or whether we say with equal truth that they have merely supplied the current demands of an inflationary business greatly stimulated by speculation, the fact remains that the influx of monetary gold since 1913 has given the nation a vast artificial purchasing power that must either undergo at no distant date a substantial curtailment or get further artificial sustenance by drains on foreign gold or through a desertion by the nation of the tenets of sound money. It is difficult to discover any other alternative.

The Federal Reserve Board some ten years ago (see F. R. Bulletin July 1919, p. 614) in justification for their liberal loan policy enunciated the alleged principle that credit inflation does not arise except as there are "additions to credits not based on a commensurate increase in the production of goods." They failed to observe that it is an essential element of inflation to occasion an excessive diversion of a nation's borrowing capacity for luxury or other unproductive enterprises, and that with so much of the nation's producing capacity given over to different kinds of luxuries, we should hardly look for much over-production so long as the people are able and willing to borrow freely, as encouraged by the banks to do under the aforesaid principle.

Our banks, it is remembered, are still operating under a law purposely relaxed in its provisions to promote war financing—against their time deposits aggregating over 13 billions June 30 1928 the required reserve is only three per cent.—and bank expansion is therefore easy and extremely profitable, particularly with the recent call loan rates of from 7 to 10% and time money at 6 to 7%.

WARNING SOUNDED BY LEADING BANKERS.

On Nov. 20 George E. Roberts, Vice-President of the National City Bank of New York, in an address on the credit situation (see "Chronicle" of Nov. 24, page 2902), showed how in the five years ended June 30 1927 along with an increase of "\$800,000,000 in our gold stock," the loans and investments of all American banks, "member and non-member, increased by \$17,000,000,000, or a credit expansion of more than 20 to 1."

Mr. Roberts therefore considers that the United States has used in recent years as purchasing power, in addition to its "flow of income," a further "\$100,000,000 of bank credit for each \$5,000,000 or \$10,000,000 of gold imports."

This means, of course, that during this period of five years the nation has had at its disposal for purchases, investments or otherwise, bank credits to the enormous total of between 8 billions and 16 billions of dollars, "while now

it looks," Mr. Roberts says, "as though our purchasing power is to be reduced to current income with perhaps a small addition to the gold reserves." But are not speculation and business displaying an impetus that will upset this course of events by bringing in further gold for use as bank reserves? Mr. Roberts himself quotes the old British maxim that "10% money will draw gold out of the ground."

Speaking of the three-year period ended March 23 1927, Henry A. E. Chandler, economist of the National Bank of Commerce, in January last, in like vein, said: "The expansion of loans for all banks in the United States during this period was therefore more than twenty times the amount of new gold, and the expansion of total loans and investments was about 35 times." He added that "part of this expansion is not attributable to new gold," since "there has occurred some increase in the earning assets of the Reserve System and therefore of *secondary expansion*, and some net return of currency from abroad."

So also in an address before the American Banking Association at the recent convention in Philadelphia, Roy A. Young, Governor of the Federal Reserve Board, alluded to the fact that on the average the Federal Reserve banks need as reserve for each \$100 of member bank credit only about \$2.50 in gold or lawful money, and this proportion becomes still less if we include the non-member banks in the calculation. In substance, this means that say \$100,000,000 or more of new credit has been or may be created out of every \$2,500,000 of imported gold. (See this address on page 65 of the Chronicle's "American Bankers Convention Section," Oct. 20 1928.)

#### HOW INFLATED BANK CREDITS GET DISTRIBUTED.

The astonishing growth of bank credits in the United States between 1922 and 1928 under the stimulus of speculation and the appetite for luxuries is seen in the fact that notwithstanding both the constant distribution of credit going on from bank resources, and the growth of brokers' loans based on "outside credits," the combined commercial banks and trust companies of the United States reported (a) for the approximately 5¾ years ended April 11 1928 an increase in loans and investments of about 14½ billions and in deposits of 13½ billions, and (b) for the brief period of approximately 5¼ months ended Jan. 4 1928, an increase

in loans and investments of \$3,361,000,000 and in deposits of \$3,117,000,000 (the deposits aggregating approximately \$44,250,000,000 in April 1928).

In Bulletin of Oct. 31 1928 Benjamin M. Anderson, Jr., the economist of the Chase National Bank, makes substantially the following statement with reference to this expansion of bank credits (much condensed):

"This great expansion of bank credit represents savings only in part. It represents primarily the efforts of the banks to utilize excess reserves, the excess reserves being due (a) to excess gold and (b) to easy money policies of the Federal Reserve Banks" (and the present writer would add [c] to the credits generated by huge speculations, inflated business, inflated dividends, &c., which if the necessary bank reserves run short will certainly be used to encourage abnormal gold imports, as has recently been done).

"The expanding bank credit, unneeded by commerce, was utilized in real estate mortgage loans, in installment finance paper and above all in the buying of bonds and loans against securities. One result was an immense increase in volume of new security issues. An immense flotation of foreign loans took place in the same period, which placed the outside world in possession of a tremendous volume of short-term funds in dollars.

"As the process went on we have had a great rise in the price of urban and suburban real estate, and an immense speculative rise in the prices of securities. The old holders of real estate and securities who have sold their holdings have thus come into possession of their original capital in liquid form, plus large profits, which many of them are in a position to lend to the Stock Exchange.

"The primary source then of the great volume of free funds is the prior expansion in earning assets and deposits by the bank."

Somewhat more vividly the same bank's bulletin of Aug. 4 1924 said: "Even if we have not blown up a price bubble, we have been blowing up a credit bubble, especially in the form of long-term debts."

It is upon the dangerous expansion and inflation of deposits and credits by group speculation and otherwise that the authorities should call a halt.

ARNOLD G. DANA.

New Haven, Conn.

## Indications of Business Activity

### THE STATE OF TRADE—COMMERCIAL EPITOME Friday Night, Dec. 21 1928.

With colder weather, trade and industry show more life and snap than they have for two years past. In Chicago to-day the thermometer was below zero. It was down to 25 degrees here, and the outlook is for fair and colder weather overnight. It is remarked that commodity prices show no speculative inflation. The situation is considered sound. Money on call during the week has at times been down to 6%, though rising to 8% on Thursday and 9% to-day. Stock speculation died down at one time very noticeably. Even now it has none of that recent wildness which made thinking men shake their heads. It is gratifying to the people of the United States to know that the King of England is making satisfactory progress in his convalescence. One of the results from a business standpoint is a sharp increase in the holiday trade in London. In the cotton textile business on this side the tendency is for sales to exceed production. In November the sales were at the rate of 108% of output. This is a change of a whole diameter for the better.

It is remarked here that the business world in general will enter the new year under distinctly favorable auspices. The year 1928 has witnessed a steady increase in general business. The exceptions are rare. And yet production has not been overdone; far from it. At times curtailment of manufacture was very marked. Latterly, the manufac-

turing trade has reaped the benefit. Abstention from buying in some trades was followed by more vigorous buying as it became apparent that things were on the mend and that depleted stocks must be replenished, as an imperative necessity of awakening trade. It is believed that the general price situation in this country is sound. There has been an absence of excited speculation outside of the stock market. The call rate for money to-day, as already stated, was up to 9%, but it is well enough to remember that after the turn of the year, currency usually returns to the banks in very large amounts. For the moment the currency requirements are large, and enormous sums are still tied up in speculative loans.

Meanwhile, there is a good jobbing trade. In spite of the fact that this is the time for making inventories some industries show more activity than for three years past at this time. It is true that in parts of the South Atlantic States, trade is not altogether satisfactory, as the crops proved more or less disappointing. Moreover, in parts of the Southwest there has been something of an epidemic of influenza, due to prolonged abnormal weather, and this has militated against business to some extent. But temperatures are now more seasonable and if we compare conditions with those of a year ago, they are especially gratifying. At this time in 1927, trade was falling off. Now it is gaining. Detroit employment, though it decreased 1,100 for the week, is still up to 267,525, or 65,400 larger than a

year ago, and 151,800 larger than in 1926. Akron rubber and tire factories are very busy. November automobile output was 90% larger than in the same month last year, though 31% less than in the same month two years ago. For 11 months automobile and car output shows a gain of 26% over the like period last year and is practically the same as for that period in 1926 which has been the high record. That is to say, the decrease this year, as compared with 1926, is only one-tenth of one per cent.

Retail trade has taken on new life with a fall in temperatures, although it has suffered somewhat in the Southwest from a prevalence of influenza. Woolen goods have been firmer. Silks have been in sharp demand. Raw silk though quiet here has been firm at a slight advance. Some South Carolina cotton mills, it is said, will close for only 3½ days this year at the holidays instead of a week as usual. The feeling in the textile trades of New England is more cheerful. Some are adding to their looms. Worth Street has been rather quiet as regards finished cotton goods, and prices have now and then weakened. Fine gray goods and specialties have had a quick sale. Sheetings were in fair demand from the bag trade. Tobacco prices in Virginia are higher and also for that matter in the West, which helps trade in Kentucky. Cattle and hogs are lower with large supplies. Building materials have been quiet, as the colder weather spreads. At the Pacific Coast the merger of two large lumber corporations has had a tendency to brace prices. Wool has rather tended downward, although fleeces have sold a little more freely. Detroit says that Lake navigation will close this week. Pig iron has declined somewhat and there is a seasonal dullness. Steel is quiet but scrap is higher. Steel output keeps up well. Coal is in plentiful supply and at the West some descriptions are selling better, while others are dull with some tendency towards lower prices. Naturally, trade in coal would be the better everywhere throughout the country for settled cold weather.

Wheat has declined ½ to 1c. net during the week. In other words, it has not changed much. The opinion is more prevalent that the price is at or near the stabilization point in spite of the largeness of the supplies, because if stocks are abundant, there are signs of a large consumption throughout the world. Corn has advanced somewhat as country marketings have been moderate and the cold weather tends to increase the feeding demand. Besides the European consumption of corn is large. There is a belief in the trade that when the peak of the corn crop movement is passed higher prices are likely to prevail. One trouble is the lack of any important export business in either wheat or corn, though there is some inquiry from day to day. Rye has advanced somewhat and it is believed that sooner or later the export demand for this cereal will not be unimportant. One significant thing is that contrary to the usual experience in December carloadings show an increase. Leather prices are higher in New England and other consuming sections. The radio industry is active. The manufacture of rayon is on a large scale, even after a whole year of a stirring business. There are large sales of machine tools for this time of the year. Metal working trades are busy and this gratifying state of things is expected to continue into 1929. The shoe industry is doing well. Tampa, Fla., reports an increase of 7½% in the production of cigars, in November, as compared with the same month last year. A sign of the times is that jewelry factories are doing a large business. On the Pacific Coast the sales of flour to the Far East have increased.

The winter wheat section has on the whole had favorable weather, but the acreage of 43,228,000 acres is about 2,300,000 acres less than had been expected and nearly 9% below the revised figures of last year. Cotton has been under pressure of late in a somewhat overbought market, and with a falling off in speculation. Yet the decline is very moderate. The ginning up to Dec. 13 approximated 13,150,000 bales, which was rather less than had been expected. But the South has been selling as usual at the Christmas season. There has been some hedge selling and tired "longs" in not a few cases have let go as the market has at no time given any spectacular demonstration of strength. Yet many look for higher cotton prices in the first half of 1929 under the spur of a world's consumption of American cotton approximating that of last year when some put it at 15,500,000 bales. Moreover, the textile re-

ports are better from American, British, French, German and Japanese centers. Exports of cotton approach a total nearly 756,020 bales larger than up to this time last year. Spinners' takings show an increase and the world's increase in the supply of American cotton this week is less than 20,000 bales, which hints at an early decrease week by week. Rubber is slightly lower for the week, with trade for the time being seasonably quiet. Some are inclined to think that rubber prices are not very far from the stabilization point.

The stock market has latterly advanced somewhat with money cheaper and to-day rallied in a way that excited remark even though call money was up to 9%. Trading which had fallen off some 2,250,000 shares at one time was latterly increased to 3,800,000 and to-day approximated 3,300,000 shares as against 3,000,000 a week ago and 2,300,000 on this day last year.

New Bedford, Mass., had a fairly active week in fine goods, but was quiet as to coarse fabrics. Mills were running at about 93% of their pre-strike rate. Operations approximated 78% of single shift capacity, which would indicate there is still considerable unemployment. Charlotte, N. C., reported that a very good business has been done in a number of lines. The others were quiet. In the Greenville, S. C., section, cotton mills, it is stated, will close only 3½ days instead of 7 days as usual for the Christmas and New Year holidays. At Tarrytown, N. Y., 3,000 employees of the Chevrolet Motor Co. and the Fisher Bodies Corporation, who had been laid off since Nov. 1, were notified to return to work on Dec. 17. At Biddeford, Me., the Pepperell Manufacturing Co. has put 1,000 additional looms on production of white goods in narrow widths. Industrial operations in the United States reached record proportions in November according to the index of electrical energy consumption as given in reports to the "Electrical World" for more than 3,600 manufacturing plants. In the textiles, the rate of operations for November, as measured by consumption of electrical energy, is given as 11.5% greater than in October and 11.1% higher than in November last year. The increase was confined to the Northern States, the textile industry of the South reporting operations less than those of last year.

The weather was rainy here on the 17th inst. with temperatures moderate, but colder. It was 22 degrees in northern Texas over Sunday and 48 to 64 elsewhere in the South, with heavy rains in parts of Texas and Arkansas, and rather heavy in Tennessee and Louisiana. It was much colder over the Central West and in the American and Canadian Northwest where temperatures were 8 to 22 degrees above zero. On the 18th inst. temperatures here were 35 to 56 degrees. There was a heavy wind on Tuesday night. Boston had 38 to 48 degrees, Chicago 22 to 34; Cleveland 28 to 32, Detroit 26 to 32; Kansas City 26 to 40; Milwaukee 20 to 32; St. Paul 16 to 36; Omaha 24 to 42; San Francisco 44 to 56; Seattle 26 to 42; St. Louis 26 to 42. On the 19th inst. it was 2 below zero and 18 degrees above in the Northwest. To-day Chicago had a temperature of 4 degrees. In the Northwest it was 10 degrees below zero to 22 above. Here the temperatures were 25 to 39 degrees.

#### Wholesale Prices in November Undergo Further Decline.

Further reduction in the general level of wholesale prices is shown for November by information collected in representative markets by the Bureau of Labor Statistics of the United States Department of Labor. The Bureau's weighted index number, computed on prices in the year 1926 as the base and including 550 commodities or price series, stands at 96.7 for November, compared with 97.8 for October, a decrease of over 1%. The November index number exactly coincides with the index number for November 1927. The Bureau adds:

Foods let in price declines from the previous month, due to decreases in practically all pork products, fresh beef, flour, corn meal, oranges, lemons, and sugar. Butter and eggs, on the contrary, averaged higher than in October. Farm products as a whole also were lower, with weakening prices for most grains, livestock and poultry, clover and timothy hay, and tobacco.

Hides and leather products likewise showed an appreciable price decrease, while minor decreases were recorded for the groups of fuel and lighting materials, house-furnishing goods, and miscellaneous commodities.

No change in the general price level is shown for the group of textile products, while small increases took place among metals and metal products, building materials, and chemicals and drugs.

Of the 550 commodities or price series for which comparable information for October and November was collected, increases were shown in 140 instances and decreases in 148 instances. In 262 instances no change in price was reported.

Comparing prices in November with those of a year ago, as measured by changes in the index numbers, it is seen that appreciable increases took place among metals and metal products and building materials, and smaller increases among hides and leather products and fuel and lighting materials. On the other hand farm products, foods, textile products, chemicals and drugs, and house-furnishing goods were somewhat lower, while a considerable decrease took place in the group of miscellaneous commodities.

**Increase in Retail Food Prices in November.**

The retail food index issued by the Bureau of Labor Statistics of the United States Department of Labor shows for Nov. 15 1928, an increase of about one-third of 1% since Oct. 15 1928; an increase of a little more than one-half of 1% since Nov. 15 1927; and an increase of 50.0% since Nov. 15 1913. The index number (1913=100.0) was 156.5 in November, 1927; 156.8 in October, 1928; and 157.3 in November, 1928. The Bureau's survey issued Dec. 20 further stated:

During the month from Oct. 15 1928, to Nov. 15 1928, 13 articles on which monthly prices were secured increased as follows: Strictly fresh eggs, 9%; onions, 7%; leg of lamb and bananas, 2%; fresh milk, evaporated milk, butter, baked beans, canned tomatoes and prunes, 1%; and hens, storage eggs, and coffee, less than five-tenths of 1%. Eighteen articles decreased: Oranges, 12%; pork chops, 5%; round steak and raisins, 5%; sirloin steak, chuck roast, bacon, ham, lard and flour, 2%; rib roast, canned red salmon, cheese, rice and sugar, 1%; and vegetable lard substitute, wheat cereal and tea, less than five-tenths of 1%. The following 12 articles showed no change in the month: Plate beef, oleomargarine, bread, cornmeal, rolled oats, cornflakes, macaroni, navy beans, potatoes, cabbage, canned corn, and canned peas.

*Changes in Retail Prices of Food by Cities.*

During the month from Oct. 15 1928, to Nov. 15 1928, there was an increase in the average cost of food in 27 of the 51 cities as follows: Atlanta, Boston, Columbus, Dallas, Denver, Indianapolis, Kansas City, Little Rock, Minneapolis, New York, St. Louis and St. Paul, 1%; and Bridgeport, Buffalo, Butte, Chicago, Cincinnati, Detroit, Milwaukee, Mobile, Newark, New Haven, Norfolk, Peoria, Pittsburgh, Portland, Ore., and Springfield, Ill., less than five-tenths of 1%. The following 20 cities decreased: Baltimore, Birmingham, Fall River, Jacksonville, Omaha and Washington, 1%; and Charleston, S. C., Cleveland, Los Angeles, Louisville, Manchester, Memphis, New Orleans, Philadelphia, Portland, Me.; Providence, Richmond, Rochester, Savannah and Seattle, less than five-tenths of 1%. In four cities, Houston, Salt Lake City, San Francisco and Scranton, there was no change in the month.

For the year period Nov. 15 1927 to Nov. 15 1928, 37 cities showed increases: Memphis, 4%; Little Rock and Seattle, 3%; Butte, Cincinnati, Dallas, Denver, Los Angeles, Minneapolis, New Orleans, Portland, Ore. and Washington, 2%; Atlanta, Buffalo, Charleston, S.C., Chicago, Columbus, Indianapolis, Kansas City, Louisville, Mobile, New Haven, Omaha, Pittsburgh, Portland, Me.; Providence, St. Paul, Salt Lake City, San Francisco, Savannah and Scranton, 1%; and Bridgeport, Detroit, Houston, Norfolk, Rochester and St. Louis, less than five-tenths of 1%. Fourteen cities showed decreases: New York, 3%; Baltimore and Philadelphia, 2%; Birmingham, Cleveland, Fall River, Milwaukee, Newark and Peoria, 1%; and Boston, Jacksonville, Manchester, Richmond and Springfield, Ill., less than five-tenths of 1%.

As compared with the average cost in the year 1913, food on Nov. 15 1928, was 68% higher in Chicago; 67% in Washington; 65% in Scranton; 64% in Richmond; 63% in Buffalo and Detroit; 62% in Atlanta and New York; 61% in Cincinnati, New Haven, Pittsburgh and Providence; 60% in Birmingham, Boston and Dallas; 59% in Baltimore and Philadelphia; 58% in Charleston, S. C., Fall River and St. Louis; 57% in Milwaukee; 56% in Manchester and New Orleans; 55% in Louisville and San Francisco; 54% in Cleveland and Minneapolis; 53% in Indianapolis and Newark; 52% in Kansas City and Memphis; 51% in Little Rock; 49% in Los Angeles, Omaha and Seattle; 48% in Jacksonville; 45% in Portland, Ore.; 43% in Denver; and 36% in Salt Lake City. Prices were not obtained in Bridgeport, Butte, Columbus, Houston, Mobile, Norfolk, Peoria, Portland, Me., Rochester, St. Paul, Savannah and Springfield, Ill., in 1913, hence no comparison for the 15-year period can be given for these cities.

**Annalist's Index of Business Activity.**

The Annalist's Index, presenting preliminary figures of business activity in November, follows:

The Annalist Index of Business Activity has turned downward, the preliminary figure for November being 98.3, as compared with 100.8 for October and 98.8 for September. The decline was caused mainly by decreased activity in the automobile, transportation and iron and steel industries. Against this downward trend, however, two industries, bituminous coal mining and cotton textile manufacturing, show moderate improvement in output.

Table I summarizes for the last three months the movements of the combined index and of the ten component series, each of which has been adjusted for seasonal variation, for long-time trend and for variations in cyclical amplitudes before being combined into the Annalist Index of Business Activity.

TABLE I.  
THE "ANNALIST" INDEX OF BUSINESS ACTIVITY.

	Nov. 1928.	Oct. 1928.	Sept. 1928.

**Annalist's Weekly Index of Wholesale Commodity Prices.**

According to the Annalist, price movements during the past week have been diverse as to direction but narrow in extent, the only movement of importance having been in wholesale food prices, which show a rather pronounced decline due to falling quotations on dressed beef. Continuing the Annalist, says:

Of the other major commodity groups, four (textile products, metals, building materials and chemicals) show slight declines, while three (farm products, fuels and miscellaneous) show slight advances. On balance declines have predominated, however, and the Annalist Weekly Index of Wholesale Commodity Prices now stands at 147.3, as against 147.7 a week ago.

**Loading of Railroad Revenue Freight Running Ahead of Last Year.**

Loading of revenue freight for the week ended Dec. 8 totaled 984,352 cars, the Car Service Division of the American Railway Association announced on Dec. 20. This was an increase of 84,566 cars above the preceding week, which contained the Thanksgiving holiday, with increases being recorded in the total loading of all commodities. The total for the week of Dec. 8 was an increase of 106,676 cars over the same week in 1927 but 8,103 cars under the corresponding week two years ago. Details are outlined as follows:

Miscellaneous freight loading for the week totaled 353,629 cars, an increase of 45,747 cars over the corresponding week last year and 17,873 cars over the same week in 1926.

Coal loading totaled 199,090 cars, an increase of 26,663 cars above the same week in 1927 but 38,343 cars below the same period two years ago.

Grain and grain products loading amounted to 56,719 cars, an increase of 12,485 cars above the same week last year and 11,046 cars above the same week in 1926. In the Western districts alone, grain and grain products loading totaled 38,390 cars, an increase of 8,911 cars over the same week in 1927.

Live stock loading amounted to 33,697 cars, an increase of 1,918 cars above the same week last year but 447 cars under the same week in 1926. In the Western districts alone live stock loading totaled 25,596 cars, an increase of 1,572 cars compared with the same week in 1927.

Loading of merchandise less than carload lot freight totaled 255,875 cars, an increase of 9,218 cars above the same week in 1927 and 2,048 cars over the corresponding week two years ago.

Forest products loading amounted to 63,443 cars, 6,530 cars above the same week last year but 120 cars under the same week in 1926.

Ore loading amounted to 11,193 cars, 3,075 cars above the same week in 1927 and 1,125 cars above the corresponding week in 1926.

Coke loading totaled 10,706 cars, 1,040 cars above the same week in 1927 but 1,285 cars below the corresponding week in 1926.

All districts reported increases in the total loading of all commodities compared with the same week last year but all except the Northwestern, Central Western and Southwestern districts reported decreases compared with the same period two years ago.

Loading of revenue freight in 1928 compared with the two previous years follows:

	1928.	1927.	1926.
Four weeks in January.....	3,447,723	3,756,660	3,686,696

**Increase in November Sales of Life Insurance—Record for Eleven Months Shows 5% Gain.**

The regular monthly survey of sales of ordinary life insurance was issued Dec. 19 by the Life Insurance Sales Research Bureau. The November sales total \$722,495,000, which is a 9% increase over the volume sold in November, 1927. This increase is shared by 59% of the contributing companies and is distributed fairly generally throughout the country. For the 11 months of the year sales show a 5% increase over the same months in 1927. The production for the 12-month period just ended represents a gain of 4% over the production in the preceding 12 months. The Bureau's survey of the various sections of the country follows:

*November Production Records.*

*New England.*—The New England States show a 16% increase in sales over November, 1927. Vermont leads with a 35% gain; Connecticut follows closely with a 31% gain. The year-to-date records show a 7% increase which is shared by all States except Vermont which records a very slight decrease. For the twelve-month period just ended, sales in the New England States increased 5% over sales in the preceding twelve-month period.

*Middle Atlantic.*—The Middle Atlantic States lead the country for monthly sales, recording an increase of 17% over November, 1927. This increase is shared by all States, New Jersey leading with a 29% gain. For the eleven months the section shows a 5% increase and for the twelve-month period just ended records a 3% gain.

*East North Central.* The monthly sales of ordinary life insurance in this section show an 11% increase over November 1927. Ohio leads this section with a monthly gain of 17%. For the 11 months of the year the section as a whole shows a gain of 6%. For the 12-month period just ended the East North Central States record a 5% increase.

*West North Central.*—The West North Central States show a 6% loss in November production as compared to November, 1927. For the 11 months sales show a 4% increase over the same months in 1927. The record for the 12-month period just ended also shows a 4% gain over the preceding 12-months.

*South Atlantic.*—The November production of life insurance in the South Atlantic States shows a 4% loss over the volume sold in November, 1927. Delaware leads this section with a monthly gain of 7%. For both the 11-month and the 12-month period just ended the section records a loss of 1%.

*East South Central.*—The monthly volume sold by this section is slightly below the production in November, 1927. The year-to-date sales, however, show a 5% increase over the same months in 1927, Mississippi leading with a 15% gain. For the 12-month period just ended the records show a 5% gain over the preceding 12 months.

*West South Central.*—The West South Central States show a 5% gain over sales in November, 1927. Louisiana leads this section with a monthly increase of 17%. For the 11 months of the year, sales show a 6% increase over the same months in 1927.

*Mountain.*—The Mountain States show a monthly gain of 4% over November, 1927. Nevada records a 61% monthly increase and leads all States in the country. Nevada also leads all the States in both the year-to-date and 12-month sales. The Mountain section records a 4% gain for the 11 months of 1928 over the same months in 1927. The records for the 12-month period just ended show a 3% gain over the preceding 12-months.

*Pacific.*—These States show a monthly gain of 7% over November, 1927. Oregon leads with a monthly gain of 11%. For the eleven months of the year, this section shows a 2% increase over the same months in 1927, and for the 12-month period show a 1% gain over the preceding 12 months.

**Canadian Sales of Ordinary Life Insurance Show Gain in November as Well as for Eleven Months.**

The sales of new ordinary paid-for business in Canada during the month of November totaled \$54,865,000. This is the second highest month on record and is exceeded only by sales in October, 1928, when the total new business sold was \$55,743,000. The November sales represent an increase of 22% over sales in November, 1927, and this gain is shared by 73% of the contributing companies. Saskatchewan leads the provinces with a 54% increase; Manitoba follows closely with a 42% increase. These figures are issued by the Life Insurance Sales Research Bureau and represent the experience of companies having in force 84% of the total legal reserve ordinary life insurance in Canada, which says:

For the first 11 months of 1928 production shows a 16% increase over the same period in 1927. All provinces share in this general increase and show substantial gains. Newfoundland leads in the year-to-date increases and records a gain of 44%. For the twelve-month period just ended, the Dominion as a whole shows an increase of 14% over the preceding 12 months. All provinces again record an increase, Newfoundland leading with a 42% gain.

The records made by the cities vary widely. Hamilton shows a monthly gain of 124% and leads the cities both in the monthly and year-to-date increases.

**Further Decrease in Detroit Employment.**

The Detroit Employers' Association reports employment figures for the week ended Dec. 18 as 267,525, a decrease of 1,105 as compared with the previous week, but an increase of 65,437 over the corresponding period of last year.

**Theodore G. Smith of Central Union Trust Company of New York on Business Conditions—1928 a Year of Exceptional Prosperity.**

Unless some very adverse development intervenes, 1928 will go down in business history as a year of exceptional prosperity for trade and industry throughout the United States, in the opinion of Theodore G. Smith, Vice-President of the Central Union Trust Co. of New York. According to Mr. Smith, there seems to be little doubt that the period of depression that began in the early months of 1927 has been overcome. To-day practically all economic indices show good or excellent positions. Even relatively high money rates have not prevented the forward movement, and this is true of activities such as building, which, it was predicted, would react unfavorably to an increasing cost of funds. The situation seems to be, however, that demand in all departments is of a temper that will not be checked by factors that ordinarily are effective. Credit requirements have probably passed their seasonal peak and rates are easing slightly, which strengthens the prospect for continuance of present activity, although money rates may remain firm. Mr. Smith's statement issued Dec. 17 continues in part:

In staple lines, such as copper and steel, there is strong demand, and in other branches a large volume of goods is moving into consumption. Wholesale trade in general reports very satisfactory conditions, and retail trade throughout the country is in splendid shape. In the agricultural sections abundant crops will give a large purchasing power and strengthen the rural credit situation. Employment conditions are healthy and labor turnover high; indicating that workers feel their position sufficiently strong to abandon jobs not to their liking for others more to their taste.

Wholesale prices have been advancing steadily for the past four months, and in September reached the highest point since June 1926. Agricultural prices have shown a net improvement, as the result of sharp increases in live stock prices offsetting declines in grains and cotton; petroleum and petroleum products have registered substantial increases and copper is at the highest point in several years. Advances of a more moderate character have been noted in iron, coal and lumber. There is some evidence that the movement in the stock market is beginning to be reflected in general prices and business conditions, since more money is going into equipment and plant while stocks in a good many lines are larger than usual, although it is probable that present methods of buying will prevent any undue accumulation.

Movements of corporate shares and the conversion of bank depositors' balances into loans on these shares, are the outstanding features of the country's economic life. Transactions on the New York Stock Exchange are in immense volume and prices have been forced to high levels. Average yields at current prices are small and much below the cost of money used to finance stock speculation. Many months ago stock prices ceased to move in harmony with business developments, but the public is convinced that still higher prices will be obtained, basing its views on the prospect for larger equity values from increased earnings in the next three to five years.

A peculiar phase of the situation is that banks have not financed stock market expansion this year. In fact, total loans on stocks and bonds made by banks remain below the levels of last May and June, but loans to brokers and dealers made by banks for depositors show a large increase, and have supplied practically all the additional funds absorbed by the stock market since last spring. At present many corporations and individuals with surplus funds, deeming demand loans equivalent to demand deposits, regard the Wall Street call money market as a safe outlet at good rates, and there has consequently been a diversion of funds into this channel. The situation is one of considerable potential difficulty as these funds are not under the control of bankers, and may be withdrawn at any time without regard to the effect on stock values or public confidence.

The vote for Mr. Hoover seems on the whole to represent a refusal to risk a change of party administration during a generally prosperous situation, and Mr. Hoover's election apparently assures a continuation of the

governmental policies which have contributed to the present satisfactory business conditions. The political factors, accordingly, are in line with the general sum of prevailing business influences.

### Record of Building Permits for November and the 11 Months.

The year 1928 draws to a close with indications that the building construction records for the period will vary only slightly from those of 1927. How closely parallel the records of the two years are running is shown in the reports of building permits issued and plants filed in 587 leading cities and towns in the 48 States made to S. W. Straus & Co. For 11 months in 1927 these places recorded \$3,550,046,244, compared with \$3,548,668,073 for the same period this year, a difference of only slightly more than \$1,000,000.

The reports covering November tell a somewhat different story, for the 587 centers reported a loss of 14% from November 1927, and 9% from October. The figures are: November 1928, \$268,373,574; November, 1927, \$313,281,775; October 1928, \$294,391,473. S. W. Straus & Co. in their report continue as follows:

#### Twenty-Five Leading Cities.

In the group of 25 cities reporting the largest volume for November there was a loss of 12% compared with the same month last year, the total being \$158,502,858 his year and \$180,400,981 for the preceding period. In November 1926, the same places reported \$182,184,905.

Unquestionably the figures here presented indicate a slowing down in building construction in substantially all parts of the United States, due it is to be presumed, to the present financial situation. High money rates appear to be the only deterring influence as the background of general business is sound and industrial activities are proceeding at high levels with no immediate indication of any let-down.

New York, Chicago, and Los Angeles showed the greatest losses, while a considerable falling off was noted in San Francisco, Buffalo, Cleveland, St. Louis and Baltimore. Gains worthy of attention were registered in Detroit, Washington, Boston, Atlantic City, Newark, Milwaukee, Evanston, Ill., Houston, Memphis, Cincinnati, Richmond, Va., Atlanta and Indianapolis.

#### Building Materials.

The firmness of the building materials market reported for the last few months continued in November. A few local price declines in brick and Portland cement were reported, but on the whole price increases were more numerous than decreases for all materials. Structural steel and lumber, especially Southern pine, were strong as well as a number of the secondary materials.

#### Real Estate Financing.

Financing in November through real estate bonds, debentures, collateral trust obligations and land trust certificates, totaled \$65,591,000, a gain of 28% over November 1927. The total of \$68 issues for the 11 months this year was \$792,902,587, compared with 993 issues in the first 11 months of 1927 with an aggregate value of \$717,608,075, the gain in volume being 9.5%.

#### Labor Situation.

The 40-hour week, or the five-day week, received the endorsement of union labor at the recent meeting of the American Federation of Labor in its annual convention at New Orleans. While this information was in news dispatches several days ago, the reaction on the part of contractors and the building public will be exceedingly interest. President William Green of the American Federation of Labor has proved himself a worthy leader of labor and his solution of the difficulties involved in this situation will be awaited with interest by the building industry.

The year drawing to a close has been a prosperous one for labor. Employment conditions have been generally satisfactory and the period has been notably free from disturbances of a serious nature. Labor costs for the year have averaged from 1% to 1½% higher than last year with the tendency being continually upward.

### TWENTY-FIVE CITIES REPORTING LARGEST VOLUME OF PERMITS FOR NOVEMBER 1928, WITH COMPARISONS.

	Nov. 1928.	Nov. 1927.	Nov. 1926.	Oct. 1928.
New York (P. F.)	\$52,719,563	\$68,999,452	\$82,820,375	\$51,600,977

Richmond, Va.	2,058,758	2,442,300	3,905,305	2,342,100
Oak Park, Ill.	1,894,627	376,635	536,846	321,010
Atlanta	1,791,029	1,683,580	693,614	412,010
Indianapolis	1,789,766	909,571	913,507	1,756,028
Flint	1,778,672	1,332,196	1,382,966	1,556,574
		1,772,574	1,230,004	1,060,468
	\$158,502,858	\$180,400,981	\$182,184,905	\$152,905,297

(P. F.) indicates plans filed.

### Union Trust Co., Detroit, Expects Business in First Half of 1929 to Hold to Level of Last Half of 1928—Michigan Business Continues in Large Volume.

Stating that there are sufficient factors "to indicate that trade and industry during the first half of 1929 will hold to a level close to that which has prevailed during the past six months," Wayne W. Putnam, Assistant Vice-President of the Union Trust Co., Detroit, has the following to say regarding conditions the coming year, and present trade and employment in Michigan:

Much sober thought is being given to the course that business will likely take in the new year. During the next few weeks industry will be occupied with inventory taking and year-end changes which will result in some quietness. Trade will probably relax for a short time after the holidays. But beyond this what are the prospects? If business were to pursue a downward course after the turn of the year, we would expect to find in the wind a majority of the following straws: labor inefficiency, numerous strikes for higher wages, over-production, heavy borrowing, mounting prices, rising costs and excessive inventories. Labor has never been more efficient nor have real wages been as high as at the present time. Furthermore, the relationship between employer and employee has never been more friendly and peaceful. There is some over production, none of recent origin, however, but intelligent co-operation is pointing out paths leading toward a solution of the problems involved. Corporations for the most part are not borrowing heavily, the majority of them being in a good cash position. Earnest consideration is being given to volume but more attention is being paid to overhead in order to insure an adequate profit. There is no evidence of price inflation. Business firms have not forgotten the lesson learned in 1920 with respect to excessive inventories. There is, accordingly, very little to indicate a downward movement in the business cycle. On the other hand there are sufficient factors of a stimulating character to indicate that trade and industry during the first half of 1929 will hold to a level close to that which has prevailed during the past six months.

The prospects for the continuance of prosperity in 1928 would be further heightened by easier credit conditions. If the recent break in the stock market should continue until security prices are forced to a lower level, the present strain on the credit situation would be relieved and interest rates would be more favorable to business expansion. There is nothing to indicate, however, that credit will not be ample for all legitimate requirements at rates which, although firm, will not place a serious restraint on business enterprise.

#### Conditions in Michigan.

Business as a whole in Michigan continues in large volume and shows a marked gain compared with this time last year. Manufacturing throughout the State is holding up remarkably well. Some seasonal slackening is in evidence but the curtailment is less than usual. Production schedules in most lines for the new year are quite heavy. Automobile factories are busy with preparations for the new models. The whole automotive industry is looking forward to a large volume of business in 1929.

Furniture factories at Grand Rapids are operating slightly under normal. Radio plants are running night and day. Showcase and store fixture factories are curtailing production. Activity in agricultural implement plants is at a high level. Numerous pattern, tool and machine shops are working overtime. Paper mills at Kalamazoo are running full time. Forty per cent of the Jackson factories are working overtime. Muskegon and Benton Harbor report 10 and 15% overtime respectively. The copper mining situation continues healthy. Lumbering operations are practically at a standstill on account of a lack of snow.

The general employment situation continues good. Forty-three cities reported no change in industrial employment in November as compared with the preceding month. Increases were reported by fifteen cities and decreases by seven. Factory workers in Detroit, according to the December 14 report of the Employers' Association, whose members employ two-thirds of the city's working population, now total 268,630 as compared with 197,879 a year ago and 202,800 two years ago.

An active building program in Michigan during the winter is indicated by reports received from 21 Michigan cities which issued permits in November aggregating \$15,069,680 as compared with \$11,423,367 for the same month in 1927.

Bank debits to individual accounts in Detroit, Flint, Adrian, Bay City, Muskegon, Grand Rapids and Kalamazoo for November totaled \$1,886,478,000 as against \$1,420,525,000 for the same months a year ago.

Trade, wholesale and retail, in recent weeks has been good to excellent in manufacturing cities but only fair in most of the rural communities. Collections are fair to good. Lower temperatures and holiday purchases are proving effective stimulants and a large volume of retail trade is indicated for December.

### Trend of Business as Viewed by Continental National Bank & Trust Co. of Chicago—While Not Expected to Reach 1928 Activity, Business Will Continue Generally Prosperous in 1929.

In forecasting the continuance of generally prosperous business conditions, the Continental National Bank & Trust Co. of Chicago says:

There may be temporary reactions in the stock market and business may not be quite as active as in 1928. But business will continue to be generally prosperous in 1929 and should equal the average of 1927.

The bank observes that "business this year has been better than in 1927," and adds:

Domestic trade, measured by car loadings, will total about the same. Measured by bank debits, it will be much larger. But there must be allowance for checks drawn in making stock payments and we are inclined to use car loadings as a more accurate index. Export trade will be considerably larger; imports not quite so large.

Industrial production through October, the latest available figure, was larger than in the corresponding period of 1927. Returns for the remaining months will likewise be higher.

Employment in manufacturing industries has increased but has been somewhat less than last year. With larger production, this tells the story of greater efficiency.

New building permits will be fewer but of greater aggregate value.

Commodity prices have been higher than in 1927 and about as stable. The spread between the average of farm prices and the general level of all commodity prices has been distinctly favorable to the farmer—a reversal of the situation after the war.

Profits will make a much better showing in 1928 than in 1927.

In referring to instalment buying as a factor in sustaining business, the bank says:

Fear that consumer credit will collapse is idle, as business depression isn't in prospect. Repugnance for the financing of instalment buying seems to be lessening, perhaps because certain malpractices have been reduced or eliminated. Moreover, it is coming to be understood that consumer credit is a tremendous factor in sustaining the volume of manufacture and trade, in making possible lower unit costs throughout the mass production industries and thereby lowering the prices of a number of products.

The bank also states in part:

#### Reasons for Not Expecting Business Depression.

We've been positive in stating that there will be no depression in 1929, for the reason that current facts do not fit in with the tests. That is to

say, commodity prices haven't risen sharply, costs aren't out of hand, labor isn't inefficient and inventories haven't been piling up dangerously. Money is firm, but there's been no credit shortage for business and none is in prospect. An unprecedented speculative demand didn't deprive business of funds. There's room for credit expansion in the Reserve banks—a slack that won't be completely taken up for some time.

**Gold Not Likely To Increase Supply of Money During First Quarter of 1929.**

In an analysis of the money market, two supply factors must be considered—gold and Reserve bank operations—and three demand influences call for attention, namely, commercial, investment and speculative demand.

Some 575 million dollars worth of gold was exported from the United States, over and above imports, during the eleven months ended with July 1928. This loss of gold resulted in a shrinkage in the supply of loanable funds and contributed to the increase in money rates.

Figures for August, September and October show an excess of gold imports over exports—about 14½ million dollars. But lately there's been some ear-marketing of gold and recent two way shipments may not balance in favor of the United States.

Non-commercial interference with the international movement of gold should be greatly reduced, if not entirely eliminated, in 1929. Currency stabilization is an accomplished fact virtually the world over. Trade balances, money rates and price levels should again be the determinants of the gold movement. The first two of these factors may facilitate an increase in American holdings.

France, Germany and The Argentine are said to have gold which they could send to the United States. And America will probably get its share of the new gold mined. The point is made, especially by one economist, that the United States is the only country rich enough to afford an excess of that non-earning asset, gold.

But even if this is a sound appraisal, there seem to be obstacles to the immediate receipt of large amounts of gold.

**Reserve Policy Not Likely To Shorten Supply of Money.**

Lately the Reserve bank authorities haven't pursued a policy of restraint in the money market. A clue to their future policy can be followed by watching rediscounts. Total bills discounted by the Reserve banks now amount to something over a billion dollars. And the Governor of the Reserve Board stated that if rediscounts after January 1929 did not exceed a billion dollars, he would feel that "the situation had been handled admirably."

Accordingly, while we feel that any increment in the stock of gold will not be enough to increase the supply of loanable funds, considered particularly during the first quarter of 1929, it seems probable that the operations of the Reserve banks will not shrink the supply of money.

**Smaller Demand for Money Possible.**

There's nothing apparent now to lead to the assumption that the commercial demand for funds will increase in January or February. It may decline somewhat till March and then re-ax again till mid-summer. This is not an unusual occurrence. And a business reaction would certainly curtail the commercial demand for credit.

Investment demand may increase, but the volume of new and refunding issues is not likely to equal the figures for the first half of 1928. In any event, investment demand for credit should not do more than take up the possible slack in commercial demand.

**President Sloan of the General Motors Corporation on the Outlook for 1929.**

Regarding the motor car outlook for 1929, Alfred P. Sloan, Jr., President, General Motors Corporation, said on Dec. 20:

My viewpoint so far as 1929 is concerned is necessarily predicated upon what I believe to be a fact, viz., that there is nothing except soundness in the general economic and industrial situation, therefore, I see no reason why we should not continue to progress and enjoy excellent business and a generous measure of prosperity. It is quite generally understood, I believe, that the automotive industry is an important factor in contributing to our industrial activity and I am certain we can rest assured that this particular industry will do its share in that direction in the forthcoming year. This means, expressed otherwise, that I believe the production of motor cars will reach a satisfactory total. As a matter of fact, I look forward to a new record being established.

I reach this conclusion because I believe that the statistical position of the automotive industry indicates that sales during 1928 were limited by lack of production in the low price field, which means that we will carry forward a certain amount of business into 1929 which will, of course, be in addition to the normal trend. The normal trend will call for increased production due to the increased replacement demand over previous years plus increased demand from overseas markets which are expanding very rapidly, plus a reasonable amount of natural growth, all of which should swell the total to a point where I believe a new record for production will be established.

I appreciate that when any motor car manufacturer expresses an opinion of still new records in production, the question arises in many minds as to how much farther the industry can expand. We must remember that the life of any motor car is necessarily limited from the standpoint of both depreciation and obsolescence. The number of cars in daily use has increased tremendously for many years past and each year we therefore pick up an increased replacement demand. The increase in the number of cars per family is also a contributing factor and, as I have before stated, I do not think any of us have any real appreciation of what can be accomplished in the development of our overseas business.

**November Automobile Production Heavy.**

November production (factory sales) of motor vehicles in the United States, as reported to the Department of Commerce, was 256,936 (of which 217,256 were passenger cars and 39,680 were trucks) as compared with 134,370 in November 1927. The table below is based on figures received from 154 manufacturers in the United States for recent months, 47 making passenger cars and 121 making trucks (14 making both passenger cars and trucks). Figures for passenger cars include taxicabs and those for trucks include ambulances, funeral cars, fire apparatus, street sweepers and busses. Canadian figures supplied by the Dominion Bureau of Statistics:

**AUTOMOBILE PRODUCTION.**  
(Number of Machines.)

	United States.			Canada.a

a Reported by Dominion Bureau of Statistics. \* Revised.

**Production of Rubber Tires in October Higher—Shipments Decrease—Inventories Show Gain.**

According to statistics compiled by the Rubber Association of America, Inc., from figures estimated to represent 75% of the industry, 5,494,846 pneumatic casings—balloons, cords and fabrics—and 46,590 solid and cushion tires were produced during the month of October 1928, as compared with 5,101,187 pneumatic casings and 42,619 solid and cushion tires in the preceding month and 3,582,879 pneumatic casings and 33,577 solid and cushion tires in October 1927.

Shipments during October amounted to 4,287,556 pneumatic casings and 45,044 solid and cushion tires as against 5,358,728 pneumatic casings and 43,965 solid and cushion tires in September and 3,599,455 pneumatic casings and 42,968 solid and cushion tires in October last year.

Inventory of pneumatic casings at Oct. 31 1928 totaled 8,640,356, as compared with 7,323,645 at Sept. 30 last and 7,248,724 at Oct. 31 1927.

Inventory of both balloon and high-pressure inner tubes at Oct. 31 1928 amounted to 11,464,067, as against 10,157,593 at Sept. 30 1928 and 10,154,694 at Oct. 31 1927.

The total output for the 10 months ended Oct. 31 1928 was 49,698,145 pneumatic casings and 440,712 solid and cushion tires, as compared with 41,580,079 pneumatic casings and 494,277 solid and cushion tires in the corresponding period in 1927, while shipments amounted to 48,530,035 pneumatic casings and 444,776 solid and cushion tires, as against 41,699,709 pneumatic casings and 492,313 solid and cushion tires for the first 10 months of 1927.

The Association in its bulletin dated Dec. 17 gave the following statistics:

Month of October—	1928		1927	
	Production.	Shipments.	Production.	Shipments.
Tires—				
Balloons	3,443,334	2,668,049	1,683,003	1,809,385

Total	52,049,180	50,450,222	45,808,941	47,685,949

The Association also released the following figures, estimated to represent 75% of the industry:

**CONSUMPTION OF COTTON FABRIC AND CRUDE RUBBER IN THE PRODUCTION OF CASINGS, TUBES, SOLID AND CUSHION TIRES.**

Period—	Oct. 1928.	Sept. 1928.	Aug. 1928.	Oct. 31 '28.	1927.
Cotton fabric (lbs.)	20,294,517	17,796,599	21,853,756	189,833,418	177,979,818
Crude rubber (lbs.)	58,301,907	55,351,235	62,224,046	510,000,512	514,994,728

Statistics representing 100% of the following respective industries were also issued:

Period—	Month of—		10 Mos. Ended	Calendar Year
	Oct. 1928.	Sept. 1928.	Oct. 31 1928.	1927.
Gasoline consumed (gallons)-----	1,285,620,000	1,247,022,000	11,449,788,000	12,512,976,000
x Pass. cars produced-----	353,224	375,444	3,586,294	502,406
x Trucks produced-----	62,633	59,471	3,093,428	486,952

x These figures include Canadian production and cars assembled abroad the parts of which were manufactured in the United States.

**Industrial Employment in Ohio During November Shows First Decline Since January.**

According to Bureau of Business Research of the Ohio State University, "industrial employment during November showed its first decline since January." This decline, the Bureau says, "was caused entirely by a 25% decrease in construction employment." The survey of industrial employment in Ohio and Ohio cities continues:

Manufacturing employment showed an increase of one-fifth of 1% from last month. Industrial employment during November was 1% less than during October and 12% greater than during November, 1927. Of the 849 reporting concerns, 413 showed decreases of November employment from October, 364 showed increases and 72 showed no change from October. Average employment during the first 11 months of 1928 was 1% greater than during the same period of 1927. Manufacturing employment in Ohio during November was slightly greater than October, and 11% greater than November, 1927. Of the 630 reporting concerns, 287 showed increases of November employment over October, 299 showed decreases and 44 showed no change from October. Employment in the Ohio construction industry during November was 7% less than October, and 25% greater than November 1927.

**INDUSTRIAL EMPLOYMENT IN OHIO.**

[In each series, average month 1923 equals 100.]

Average Employment for First Half of Each Month from Individual Concerns.

**Akron.**

Industrial employment in Akron during November was 1% less than during October, and 18% greater than November, 1927. This decline from October was shared by 20 of the 43 reporting concerns, 16 showed increases and 7 showed no change from October. Average employment during the first 11 months of 1928 was 6% greater than during the same period of 1927.

November manufacturing employment in Akron was 1% less than October and 18% greater than November, 1927. Construction employment in Akron during November was 8% less than October and 20% greater than during November, 1927.

**Cincinnati.**

November industrial employment in Cincinnati showed no change from October and was 3% greater than November, 1927. Of the 111 reporting concerns, 47 showed increases of November employment over October, 58 showed decreases and 6 showed no change from October. Average employment during the first 11 months of 1928 was 2% less than during the same period of 1927.

Employment in the manufacturing industries of Cincinnati during November was 1% greater than October and 2% greater than November, 1927. November construction employment was 6% less than October and 13% greater than November, 1927.

**Cleveland.**

November industrial employment in Cleveland was slightly less than October and 25% greater than November, 1927. This decline from October was shared by 94 of the 195 reporting concerns, 84 showed increases and 17 showed no change from October. Employment during the first 11 months of 1928 was 3% greater than during the same period of 1927.

November manufacturing employment in Cleveland showed no change from October and was 25% greater than November, 1927. November construction employment was 4% less than October and 23% greater than November, 1927.

**Columbus.**

Industrial employment in Columbus during November showed no change from October, and was 18% greater than November, 1927. Of the 59 reporting concerns, 29 showed increases of November employment from October, 27 showed decreases and 3 showed no change from October. Employment during the first 11 months of 1928 was 2% greater than during the same period of 1927.

November manufacturing employment in Columbus was 1% less than October and 12% greater than November, 1927. Construction employment during November was 8% greater than October and 59% greater than November, 1927.

**Dayton.**

Dayton industrial employment during November was 2% less than October and 7% greater than November, 1927. Of the 62 reporting concerns, 30 showed increases of November employment from October, 26 showed decreases and 6 showed no change from October. Employment during the first 11 months of 1928 was 3% less than during the same period of 1927.

Employment in the manufacturing industries of Dayton during November was 2% less than during October and 12% greater than during November 1927. November construction employment was 6% less than October and 27% less than November, 1927.

**Toledo.**

Toledo industrial employment during November showed increases of 3% from October and 19% from November, 1927. This increase from

October was shared by 25 of the 46 reporting concerns, 18 showed decreases and 3 showed no change from October. Employment during the first 11 months of 1928 was 6% greater than during the same period of 1927.

Manufacturing employment during November was 4% greater than October and 19% greater than November, 1927. November construction employment was 2% less than October and 21% greater than November, 1927.

**Youngstown.**

November industrial employment in Youngstown showed a decrease of 4% from October and 15% increase from November, 1927. This decrease was shared by 13 of the 22 reporting concerns, 7 showed increases and 2 showed no change from October. Employment during the first 11 months of 1928 was 3% less than during the same period of 1927.

November employment in Youngstown manufacturing industries was 2% less than October and 12% greater than November, 1927. Construction employment during November was 18% less than during October and 46% greater than during November, 1927.

**Stark County.**

Industrial employment in Stark County during November was 3% less than during October and 26% greater than during November, 1927. This decline from October was shared by 21 of the 46 reporting concerns, 18 showed increases and 7 showed no change from October. Employment during the first 11 months of 1928 was 9% greater than during the same period of 1927.

November manufacturing employment in Stark County was 2% less than October and 20% greater than November, 1927. Construction employment during November was 8% less than October and 84% greater than November, 1927.

**Census Report on Cotton Consumed in November.**

Under date of Dec. 14 1928 the Census Bureau issued its report showing cotton consumed, cotton on hand, active cotton spindles, and imports and exports of cotton for the month of November 1928 and 1927. Cotton consumed amounted to 610,884 bales of lint and 68,569 bales of linters, compared with 626,742 bales of lint and 63,938 bales of linters in November 1927, and 618,188 bales of lint and 76,093 bales of linters in October 1928. It will be seen that there is a decrease from November 1927 in the total lint and linters combined of 11,227 bales, or 1.7%. The following is the statement complete:

**NOVEMBER REPORT OF COTTON CONSUMED, ON HAND, IMPORTED AND EXPORTED, AND ACTIVE COTTON SPINDLES.**

(Cotton in running bales, counting round as half bales, except foreign, which is in 500-lb. bales.)

All other-----	54,084	42,342	164,086	116,190
Total-----	1,427,699	984,254	3,730,981	3,039,479

Note.—Linters exported, not included above, were 23,806 bales during November in 1928 and 17,697 bales in 1927; 46,648 bales for the 4 months ending Nov. 30 in 1928 and 60,333 bales in 1927. The distribution for November 1928 follows: United Kingdom, 1,953; Netherlands, 1,249; France, 2,915; Germany, 14,161; Belgium, 1,489; Italy, 200; Spain, 200; Canada, 1,436; Mexico, 3; New Zealand, 200.

**WORLD STATISTICS.**

The estimated world's production of commercial cotton, exclusive of linters, grown in 1927, as compiled from various sources, is 23,370,000 bales, counting American in running bales and foreign in bales of 478 pounds lint, while the consumption of cotton (exclusive of linters in the United States) for the year ending July 31 1928 was approximately 25,285,000 bales. The total number of spinning cotton spindles, both active and idle, is about 165,000,000.

**Activity in the Cotton Spinning Industry for Nov. 1928.**

The Department of Commerce announced on Dec. 19 that, according to preliminary figures, compiled by the Bureau of the Census, 36,373,996 cotton spinning spindles were in place in the United States on Nov. 30 1928, of which 30,596,840 were operated at some time during the month, compared with 30,315,086 for October, 28,227,090 for September, 28,243,508 for August, 28,159,676 for July, 28,627,556 for June, and 32,314,114 for November, 1927. The aggregate number of active spindle hours reported for the month was 8,524,399,388. During November the normal time of operation was 25¼ days (allowance being made for the observance of Thanksgiving Day in some localities) compared with 26¾ for October, 24½ for September, 27 for August, 25 for July, and 26 for June. Based on an activity of 8.83 hours per day the average number of spindles operated during November was 38,232,864 or at 108.1% capacity on a single shift basis. This percentage compares with 103.9 for October, 90.6 for September, 87.7 for August, 79.7 for July, 88.4 for June, and 106.7 for November, 1927. The average number of active spindle hours per spindle in place for the month was 241. The total number of cotton spinning spindles in place, the number active, the number of active spindle hours and the average spindle hours per spindle in place, by States, are shown in the following statement:

**New York Cotton Exchange to Begin Trading in New Contract for Southern Delivery Jan. 2 if Members Approve Certain Amendments Dec. 26.**

Trading in the new contract for southern deliveries on the New York Cotton Exchange will commence Jan. 2 next, it was announced on Dec. 15, provided the members of the exchange at a meeting to be held on Dec. 26, vote favorably on certain necessary amendments to the by-laws. October will be the first position traded in. This was decided upon at a meeting of the Board of Managers on Dec. 14, and was made known to the membership when the exchange opened Dec. 15 by the posting on the bulletin board of the following resolution which had been adopted by the board:

"Resolved, that trading in the new southern delivery contract shall commence on Jan. 2, 1929, in contracts for delivery in October, 1929, and thereafter, providing the proposed amendments to the by-laws embodying the essential provisions of the new contract are passed by the members prior to that date."

If the proposed amendments are adopted, cotton will be deliverable at seller's option against the new contract of the New York Cotton Exchange at Norfolk, Charleston, Galveston, Houston or New Orleans. These five southern delivery points will be in addition to the present delivery at New York. The action toward southern delivery trading was referred to in these columns Nov. 24, page 2885.

**New York Cotton Exchange Enlarges Membership of Warehouse and Delivery Committee.**

Members of the New York Cotton Exchange on Dec. 18 voted to enlarge the Warehouse and Delivery Committee by the addition of five new members. The change was made necessary by the adoption by the exchange recently of southern deliveries in addition to delivery at New York. At present the committee consists of Gardiner H. Miller, President of the Exchange, ex-officio; William S. Dowdell, of the Board of Managers, who is Chairman, and five other members of the exchange. The amendment adopted this week increases the size of the committee to twelve members, one of whom shall be a resident of each of the

five southern delivery points—Norfolk, Charleston, Galveston, Houston and New Orleans, or adjacent thereto. The names of the new members of the Committee will be announced shortly.

**Members of New York Cotton Exchange Approve Proposal to Apply to Legislature to Amend Charter to Permit Trading in Securities.**

The New York Cotton Exchange, it was decided by a vote of the members yesterday, Dec. 18, will apply to the Legislature of New York State to have its charter amended to permit trading on the exchange in the securities of various companies. The resolution adopted by the membership authorizes the officers of the exchange to seek amendment of the charter so as to make it possible to trade in "stocks, bonds or other securities" issued by corporations engaged in any or all of the following activities:

Growing, manufacturing, buying, selling or handling cotton, wool, silk, rayon, artificial silk, jute, or linen, or textiles, made in whole or in part of any of these commodities; or manufacturing, buying, selling or handling the by-products of any of said commodities, or conducting a warehouse or compress or other plants or facilities suitable for use in connection with or for the promotion of any of said activities.

The present charter of the New York Cotton Exchange, which was granted by an act of the State Legislature, passed April 8, 1871, sets forth the purposes of the exchange in Section 3, as follows:

"The purposes of said corporation shall be to provide, regulate and maintain a suitable building, room or rooms for a cotton exchange, in the city of New York, to adjust controversies between its members, to establish just and equitable principles in the trade, to maintain uniformity in its rules, regulations and usages, to adopt standards of classification, to acquire, preserve and disseminate useful information connected with the cotton interests throughout all markets, to decrease the local risks attendant upon the business, and generally to promote the cotton trade of the city of New York, increase its amount and augment the facilities with which it may be conducted, and to make provision for the widows and families of deceased members."

The special Committee on Securities Trading, of which John H. McFadden, Jr., is Chairman, consulted the Exchange's counsel as to whether an amendment to the charter would be necessary to permit trading in stocks and bonds on the exchange and was advised that it would be desirable to have the charter broadened. It is understood that the matter will be submitted to the Legislature shortly after it convenes in January. The plans of the Exchange to trade in stocks and bonds of textile mills were noted in these columns Dec. 1, page 3035.

**Adoption of Standard Cotton Bale Covering by United States Urged by Department of Agriculture.**

The American cotton industry should adopt a standardized cotton bale covering to eliminate the heavy expense now borne by the industry as a result of unbusinesslike "tare" practices, the United States Department of Agriculture declares, following a study of Egyptian baling methods by William H. Holt, marketing specialist of the Bureau of Agricultural Economics. Regarding Mr. Holt's report, the Department on December 13 said:

Because of irregularity in weight, Mr. Holt says, shipments of American cotton to the mills in this and foreign countries are often subjected to taring to determine the actual weight of coverings. In this process 10% of a shipment is stripped, and the covering is weighed. The cost of this procedure is an unnecessary charge upon the industry and one which could be eliminated if the tare were uniform or if the covering of each bale were of known weight.

Moreover, this investigator adds, the use of an unnecessarily heavy covering involves needless expense both for the excess material used and for freight charges on the added weight. Because of the possibility of eliminating these charges, and with them the expense and annoyance of making and collecting tare claims, he says, considerable interest has been manifested in improving the American bale.

The merits of the Egyptian bale, says Mr. Holt, are recognized throughout the cotton world, as it is a model of uniformity in dimensions and in regularity of tare. The marketing of the Egyptian crop is free from the constant challenging and expensive testing for tare to which the American bale is continually subjected.

The conclusions drawn from the study, together with a detailed description of Egyptian baling methods, have been published by the Department in Circular 47-C, entitled "Standardized Cotton Tare in Egypt." Although the merchandising practices which are peculiar to Egypt have an important influence on the final form of the bale, the Department says, this fact does not preclude the possibility of adapting some of the methods to American conditions. The well-established reputation for excellence of the Egyptian high-density bale, with its noticeably uniform dimensions, weight, and density, with its complete covering of a closely woven bagging, and with its standardized tare, seems to point to a goal toward which the American cotton industry might well direct more effort.

**Lumber Demand Rises Despite Seasonal Tendency.**

The second week in December marked another slight increase in the demand for both hardwood and softwood lumber—one hardly to be expected in view of the seasonal ten-

deney. Telegraphic reports for the week ended Dec. 15 from 831 softwood and hardwood mills to the National Lumber Manufacturers' Association indicate some decline in softwood production, as compared with the previous week, a considerable decline in shipments and a substantial advance in new business. Hardwood production showed a slight increase over the previous week and new business and shipments made some gains. With 10 fewer softwood mills reporting, new business for the week ended Dec. 15 amounted to 348,909,000 feet, as compared with orders for 328,299,000 the previous week. Production was reported as 371,731,000 feet, as compared with 378,087,000; shipments fell off to 319,005,000 feet from 338,092,000. The West Coast Lumbermen's Association reported 241 identical mills' production as 200,839,719 feet, as compared with an average weekly operating capacity for three years of 248,008,316 feet. The Southern Pine Association reported production for 145 mills as 68,994,432 feet, which was 11,581,732 feet under the three-year average. The National Lumber Manufacturers' Association adds:

**Unfilled Orders.**

The unfilled orders of 338 Southern Pine and West Coast mills at the end of last week amounted to 857,588,222 feet, as against 842,489,853 feet for 336 mills the previous week. The 145 identical Southern Pine mills in the group showed unfilled orders of 240,484,222 feet last week, as against 233,161,853 feet for the week before. For the 193 West Coast mills the unfilled orders were 617,104,000 feet as against 609,328,000 feet for 191 mills a week earlier.

Altogether, the 525 reporting softwood mills had shipments 84% and orders 94% of actual production. For the Southern Pine mills these percentages were respectively 94 and 105; and for the West Coast mills 77 and 87.

Of the reporting mills, the 484 with an established normal production for the week of 353,034,000 feet gave actual production 88%, shipments 74% and orders 83% thereof.

The following table compares the lumber movement, as reflected by the reporting mills of eight softwood, and two hardwood regional associations, for the two weeks indicated:

	Past Week.		Preceding Week 1928. (Revised.)	
	Softwood.	Hardwood.	Softwood.	Hardwood.
Mills (or units x).....	525	369	534	380
Production.....	316,336,000	55,395,000	326,398,000	51,689,000
Shipments.....	265,928,000	53,077,000	285,339,000	52,753,000
Orders (new business).....	295,823,000	53,086,000	276,458,000	51,841,000

x A unit is 35,000 feet of daily production capacity.

**West Coast Movement.**

The West Coast Lumbermen's Association wires from Seattle that new business for the 193 mills reporting for the week ended Dec. 15 totaled 158,847,879 feet, of which 61,395,451 feet was for domestic cargo delivery, and 35,621,196 feet export. New business by rail amounted to 53,483,452 feet. Shipments totaled 140,081,400 feet, of which 50,330,850 feet moved coastwise and intercoastal, and 29,388,000 feet export. Rail shipments totaled 52,014,734 feet and local deliveries 8,347,780 feet. Unshipped orders totaled 617,104,000 feet, of which domestic cargo orders totaled 183,795,088, foreign 290,893,450 feet and rail trade 142,415,490 feet.

**Southern Pine Reports.**

The Southern Pine Association reports from New Orleans that for 145 mills reporting, shipments were 5.82% below production and orders were 4.79% above production and 11.27% above shipments. New business taken during the week amounted to 72,300,526 feet, (previous week 60,656,071); shipments 64,978,157 (previous week 65,838,378); and production 68,994,432 feet, (previous week 69,974,819). The normal production (three-year average) of these mills is 80,576,164 feet.

The Western Pine Manufacturers Association of Portland, Ore., reports production from 32 mills as 26,990,000 feet, as compared with a normal production for the week of 18,469,000. Thirty-three mills the previous week reported production as 28,905,000 feet. Shipments were about the same last week, with more than a 25% advance in new business.

The California White & Sugar Pine Manufacturers Association of San Francisco, reports production from 14 mills as 12,452,000 (43% of the total cut of the California pine region) as compared with a normal figure for the week of 10,676,000. Twenty-one mills the week earlier reported production as 23,432,000 feet. There were heavy reductions in shipments and new business last week, due to the fewer number of reporting mills.

The California Redwood Association of San Francisco, reports production from 14 mills as 7,170,000 feet, compared with a normal figure of 7,880,000, and for the week before 7,464,000. Both shipments and new business were considerably less last week.

The North Carolina Pine Association of Norfolk, Va., reports production from 77 mills as 11,541,000 feet, against a normal production for the week of 16,074,000, and for the preceding week 11,284,000. Shipments were slightly less last week, and new business slightly larger.

The Northern Pine Manufacturers Association of Minneapolis, Minn., reports production from 9 mills as 3,031,000 feet, as compared with a normal figure for the week of 5,400,000, and for the previous week 2,475,000. There was a nominal increase in shipments last week, and a slight reduction in new business.

The Northern Hemlock and Hardwood Manufacturers Association of Oshkosh, Wis. (in its softwood production) reports production from 41 mills as 4,512,000, as compared with a normal production for the week of 18,339,000. Forty-six mills the week earlier reported production as 4,541,000 feet. Shipments and orders showed some decrease last week.

**Hardwood Reports.**

The Northern Hemlock and Hardwood Manufacturers Association of Oshkosh, Wis., reports production from 63 units as 8,501,000 feet, as compared with a normal figure for the week of 13,185,000. Seventy-three units the week before reported production as 8,318,000 feet. There was no noteworthy change in shipments and new business last week.

The Hardwood Manufacturers Institute of Memphis, Tenn., reports production from 306 units as 46,894,000 feet, as against a normal production for the week of 55,018,000. Three hundred and seven units the preceding week reported production as 43,371,000 feet. Shipments were

about the same last week, and new business slightly above that reported for the week earlier.

Detailed softwood and hardwood statistics for reporting mills of the comparably reporting regional associations will be found below:

**West Coast Lumbermen's Association Weekly Report.**

According to the West Coast Lumbermen's Association, reports from 198 mills show that for the week ended Dec. 8 orders were 17.78% under production, while shipments decreased 19.41% from output. The Association's statement follows:

**WEEKLY REPORT OF PRODUCTION, ORDERS, AND SHIPMENTS.**  
198 mills report for week ended Dec. 8 1928.

Production.	Orders.	Shipments.
181,527,409 feet	149,243,649 feet	146,284,254 feet
100%	17.78% under production	19.41% under production

**COMPARISON OF ACTUAL PRODUCTION AND WEEKLY OPERATING CAPACITY (241 IDENTICAL MILLS).**

(All mills reporting production for 1927 and 1928 to date.)

Actual Production	Average Weekly Production 49 Weeks Ended Dec. 8 1928.	Average Weekly Production During 1927.	x Weekly Operating Capacity.
199,621,837 feet	195,915,121 feet	195,321,761 feet	245,972,707 feet

x Weekly operating capacity is based on average hourly production reported for the years 1925, 1926, 1927 and 4 months of 1928 and the normal number of operating hours per week.

**Petroleum and Its Products—Domestic Output at New High for Year.**

Establishment of a new high record for crude production for 1928 during the week ended Dec. 15 shares interest with an advance of 10c. a barrel on Corning crude this week.

The increase posted for Corning oil is in line with the advances on Pennsylvania grades made last week. Domestic crude oil production, which averaged 2,546,800 barrels daily for the week ended Dec. 15 sets a new high record for this year, being 22,800 barrels over the previous high, during the week ended Oct. 6. The high for this year is but 39,300 barrels under the record high for all time, 2,586,100 barrels daily, established during the week ended July 30 last year. Unless radical steps to cut production are invoked, it is considered likely that output by the close of the current year will reach a rate sufficient to establish a new high record in all time.

California has accounted for much of the increase in production during recent weeks, output for the week ended Dec. 15 in Pacific Coast fields showing a gain of 18,000 barrels. Oklahoma production has been gaining slightly, and this, in conjunction with the increase for the country as a whole, may prevent the advance in high gravity crude which has been talked of for the Mid-Continent for some months past. Reports in the trade this week indicate that any early advance is extremely doubtful, although the fact that Oklahoma light oil production is so closely held may force an upward move.

Reports from California indicate that further sharp gains in production may be expected from the Santa Fe Springs field. Output in this field jumped 16,000 barrels in the week ended Dec. 15, and with further completions, due within the next six to eight weeks, additional sharp gains in production totals are in sight. Santa Fe Springs, with 92,500 barrels daily at last reports, ranked second in California, being exceeded only by Long Beach, which is currently producing about 190,000 barrels a day.

REFINERY PRODUCTS—ELIMINATE KEROSENE CONCESSIONS.

Gasoline is still in easy position this week, but while scattered declines are reported at refineries, the general tone of the market is better than for several weeks past. In well-informed circles, the belief is expressed that the decline has about run its course. Export business is still slow, but foreign buyers have been out of the market for several weeks, and are expected in the market shortly with substantial requirements to be covered. When this buying materializes, it is believed, the market is in line for a recovery.

Standard Oil Co. of New Jersey announces that effective Dec. 24 it will establish a true tankwagon price of 13c. a gallon for kerosene throughout its territory, withdrawing all concessions to all classes of trade. The new price is 1c. under the previous scale. Standard of New Jersey on Nov. 21 took similar action with respect to its tankwagon gasoline schedule, and has been followed since by other important marketers. It is expected that other refiners and marketers will reorganize their kerosene marketing plans in conformity with the Jersey company's selling policy, which reflects the provisions of the recently adopted code of ethics for the industry.

Reports from leading refiners this week indicate that gasoline business thus far in the winter season has exceeded all expectations, and it is evident that a number of the market leaders will show new high records in gasoline sales for the year. This heavy consumption is expected to make for a continued steady market for tankwagon gasoline in New York. The present quotation, 18c. a gallon, is at the high for the year, but shows an advance of but 1c. from the low for the year, as compared with a gain of about 3 3/4c. in the tank car market in this territory during the same period.

Following last week's increase in Pennsylvania crude oil prices, refiners in that State again advanced lubricating oil prices this week. Quotations on some grades of cylinder lubricating oils are currently 4 to 5c. per gallon over prices prevailing two months ago, and further advances are talked of.

A chronological summary of the week's price changes follows:

December 15.—Pennsylvania refiners advanced cylinder stocks lubricating oils 1/2c. per gallon.

December 18.—Standard Oil Co., of New Jersey announced that effective December 24 it would establish a true tankwagon kerosene price of 13c. per gallon throughout its territory, eliminating all concessions. The former price was 14c.

Further Increase Shown in Crude Oil Output in United States.

The American Petroleum Institute estimates that the daily average gross crude oil production in the United States for the week ended Dec. 15 1928 was 2,546,800 barrels as compared with 2,520,850 barrels for the preceding week, an increase of 25,950 barrels. Compared with the output for the week ended Dec. 17 1927 of 2,456,950 barrels per day, the current figure shows an increase of 89,850 barrels daily. The daily average production east of California for the week ended Dec. 15 1928 was 1,849,200 barrels, as compared with 1,841,250 barrels for the preceding week, an increase of 7,950 barrels. The following are estimates of daily average gross production (in barrels) by districts for the periods shown below:

Weeks Ended—	Dec. 15 '28.	Dec. 8 '28.	Dec. 1 '28.	Dec. 17 '27.
Oklahoma.....	707,050	705,300	708,600	720,300

**Gross Crude Oil Stock Changes for November 1928.**

Pipe line and tank farm gross domestic crude oil stocks east of the Rocky Mountains decreased 2,110,000 barrels in the month of November 1928, according to returns compiled by the American Petroleum Institute from reports made to it by representative companies. The net change shown by the reporting companies accounts for the increases and decreases in general crude oil stocks, including crude oil in transit, but not producers' stocks at the wells.

**Changes in Stocks at Refineries East of California for November 1928.**

The following is the American Petroleum Institute's summary for the month of November 1928, of the increases and decreases in stocks at refineries covering approximately 86% of the operating capacity east of California.

(Barrels of 42 Gallons)	Increase.	Decrease.
Domestic crude oil.....	5,000	
Foreign crude oil.....	83,000	
Gasoline.....	2,104,000	
Kerosene.....		258,000
Gas and fuel oils.....		1,335,000
Lubricants.....	26,000	
Miscellaneous.....	211,000	
<b>Total.....</b>	<b>2,429,000</b>	<b>1,593,000</b>
Deduct.....	1,593,000	
<b>Net Increase.....</b>	<b>836,000</b>	

**World's Production of Copper for the Month of November Totalled Approximately 183,800 Short Tons, a New High Record.**

According to figures compiled by the American Bureau of Metal Statistics, the world's production of copper for the month of November amounted to about 183,800 short tons, a new high level, and compares with approximately 176,600 tons in the preceding month and about 145,000 tons in November 1927.

Copper output for the 11 months ended Nov. 30 1928 by principal countries of the world which furnished about 98% of the total, amounted to 1,704,231 short tons, as compared with 1,509,385 tons in the corresponding period last year. The daily rate of output for these countries for the month of November 1928 was 6,027 short tons, as against 4,733 tons in the same month last year and 5,601 tons in October 1928. A comparative table follows:

**MONTHLY COPPER PRODUCTION (IN SHORT TONS).x**  
(By principal countries of the world, which furnished about 98% of world's total.)

	Monthly Production.			Daily Rate.		
	1926.	1927.	1928.	1926.	1927.	1928.

x Table includes production by the United States, Mexico, Canada, Chile and Peru, Japan, Australia, Europe (partly estimated) and Belgian Congo.

**Moderate Gain in Call for Copper.—Rate of World Production Up.—Lead, Zinc and Tin Quiet.**

Except for improvement in the demand for copper the market for non-ferrous metals was a rather quiet affair in the past week, "Engineering and Mining Journal" reports. Prices for the major items underwent little change. Close to two thousand tons of copper a day was sold on the average during the week, largely for February shipment. The price held at 16 cents a pound on Eastern deliveries. Foreign demand was quiet, sales being at about the November rate.

Daily rate of world production of copper shows a rather surprising increase. Figures just released indicate that the daily rate of production for November was 6,027 tons, which compares with 5,601 tons in October, and 5,151 tons in September. All the principal producing countries shared in this increase.

Lead business has been small, the approach of the holidays and the inventory period being factors in restricting trade. Prices continue unchanged at 6.50 cents a pound, New York, and at 6.35 cents in the Middle West.

After a little unsettlement in prices, due to the fact that one seller found himself undersold, the market for zinc steadied toward the close and all quotations seem to be at 6.35 cents, St. Louis basis.

Tin is a fraction of a cent lower than last week.

Antimony is showing a slight upward trend.

**World Stocks of Slab Zinc Increase—Total on Dec. 1 Estimated at 71,000 Tons.**

The International Metal Service, London, foreign correspondent of the American Zinc Institute, Inc., estimates world stocks of slab zinc Dec. 1 at 71,000 metric tons of 2,204.6 pounds each, compared with 67,200 tons on Nov. 1, an increase of 2,800 tons. The following table gives in metric tons Mr. Sharpe's estimate of zinc stocks in the various countries:

	Dec. 1 '28.	Nov. 1 '28.	Oct. 1 '28.	July 1 '28.	Jan. 1 '28.	Jan. 1 '27.
United States.....	42,200	41,800	43,500	40,300	37,000	19,500
Canada.....	4,500	4,300	4,200	4,500	2,400	3,200
Australia.....	6,600	4,200	4,000	4,000	2,500	2,400
Germany and Poland.....	5,800	5,500	4,600	3,800	6,100	9,500
Belgium.....	6,000	6,200	6,000	5,200	4,200	4,000
Great Britain.....	1,500	700	1,400	1,300	1,100	1,000
Far East.....	800	800	800	800	600	500
Elsewhere.....	3,600	3,700	3,800	4,300	1,900	3,200
<b>Total.....</b>	<b>71,000</b>	<b>67,200</b>	<b>68,300</b>	<b>64,200</b>	<b>56,100</b>	<b>43,600</b>

x Including afloat. y Including 600 tons in France.

The International Metal Service, in reviewing world conditions of zinc, on Dec. 21 stated:

It is indeed pleasing to chronicle the marked change for the better which has come over the European zinc market since our last month's notes. Optimism as to a successful outcome of the negotiations for an international agreement or understanding between producers has been instrumental in reviving sentiment and recreating that measure of confidence which has been so sadly wanting all the year.

Speculators had been so long absent from the zinc market that their reappearance as buyers, coupled with a general reluctance amongst smelters to sell freely, conspired to make this section of the London Metal Exchange particularly active in November. The month's turnover totaled 24,150 tons, the increased business being mainly in the last 10 days of November. The effect was to lift the quotation from £23 16s. 3d. on the first day of the month to £26 7s. 6d. on the 30th, with a corresponding gain of £2 7s. 6d. per ton in the 3-months' position.

Probably this advance in the selling price has fully discounted the effect of any international agreement, for the time being at any rate. Consequently, we are inclined to expect the market to come back a bit and may fluctuate either side of £26. That indeed was the price idea of sponsors of the cartel at its birth, and we have no reason to believe that their views have undergone any change. Assuming that the selling quotation was stabilized at that figure for a period during which the world zinc industry could be rationalized by the moderate output curtailment necessary, then the way would be paved for stability at a higher price level.

A £26 selling quotation for two or three months would be greatly welcomed by the majority of small producers as a precursor to better things. In only one month this year has zinc averaged over £26. That was in January. The next 5 months only averaged £25 9s. 8d., while during the following 5 months the average price was no better than £24 12s. 6d. We estimate the mean average of G.O.B. zinc in London for the year 1928 at £25 4s. 3d., a figure which all will agree as being below the intrinsic value of the metal, especially having regard to the fact that the average price in 1927 was £28 9s. 11d. and in 1926 £34 2s. 0d.

Anyhow, the beneficent to producers has come at an opportune moment and the industry will be able to look forward to the new year with a greater degree of confidence than when 1928 was ushered in.

**Steel Output Continues at High Rate—Pig Iron Price Lower—Steel Price Unchanged.**

Despite holiday and inventory considerations, steel ingot output for the country at large is more than holding its own, although declines are reported at some plants, states the "Iron Age" of Dec. 20, which adds:

Specifying, in most districts, has been heavy in sheets, tin plate and wire products and cautious in lines where a price incentive has been lacking, while new business has been in unimpressive volume. At Chicago, however, total specifications are second only to those of the first week of January, and sales, influenced by orders for rails and track supplies, are well up to the average of the past six weeks.

Pig iron demand has diminished with the approach of the year-end, and price weakness has appeared. Valley foundry iron has declined 50c. a ton to \$17.50, furnace, and a softer market has developed along the Eastern seaboard. A Tennessee furnace has withdrawn a recent advance of 50c. a ton.

Scrap, on the other hand, shows further strength. Heavy melting steel at Pittsburgh, now \$18 a ton, has recovered in two weeks the peak position it held in October.

Sectional contrasts are evident in steel output. Operations of a leading Buffalo district producer have declined to 60% of capacity, but the average for the Greater Pittsburgh district is unchanged at 80%, and production at Chicago has risen to 85%, compared with 83% a week ago. Open-hearth operations in Alabama are at the highest rate of the year. The average output of Steel Corp. subsidiaries, estimated at 85%, compares with a recent rate of 84%.

The production situation also emphasizes contrasts among products. Heavy releases of sheet tonnage prior to the mid-month deadline on contract specifications have given producers backlogs that will carry them well into January. Mills are operating virtually full and Christmas shutdowns will probably be limited to two days. Tin plate output continues at 87% and also promises to carry through the month with a minimum interruption. Rail output is at an ascending rate, as a result of specifications against 1929 contracts.

In wire products, releases against contracts expiring Jan. 1 have been stimulated by the recent advance in prices. Since these specifications will be accepted until the end of the month, a test of the new quotations is necessarily deferred.

The market situation in bars, plates and shapes is quieter in most districts. Many buyers did not specify fully against their fourth quarter contracts and, not being apprehensive regarding prices, are in no haste to commit themselves for the next quarter. At Chicago, however, bar bookings for the week exceeded shipments. A feature of the Western market is the increasing demand from the farm equipment industry, which has temporarily forged ahead of automobile manufacturers as the largest user of bars.

First quarter prices on bars, plates and shapes at Eastern mill basing points, announced by the Bethlehem Steel Co., include minimum quotations on the last two products that are \$1 a ton lower than had been commonly conceded as representative of the market. The move is interpreted as

an effort to stabilize prices named to the largest buyers by substituting a single open quotation for varying preferentials. To compete for Eastern business of this category mills using a Pittsburgh base will have to quote 1.80c. to 1.85c.

A gas line from Baxter Basin, Wyo., to Ogden, Utah, requiring 33,000 tons of plates, has been placed with a Milwaukee fabricator. That company is also reported to have taken an order for 200 miles of 16-in pipe for the El Paso Natural Gas Co. Line pipe business placed this year is estimated at close to 1,000,000 tons.

Rail bookings have been augmented by a 15,000-ton order from a Western road. Although fewer roads have bought than had placed contracts up to this time in 1927, mills look for no decline in total tonnage booked when the rail buying movement is completed.

Fabricated steel orders for November, computed at 243,750 tons, were 3% above the total for the same month last year, but were the smallest except for October, since April.

Although sales gained, there was a slowing down in both production and shipments of steel sheets in November, according to reports compiled by independent mills.

Ohio River shipments of steel in November, at 137,000 tons, established a new monthly record. The total for the 11 months of this year, at 1,162,000 tons, exceeds by 150,000 tons the combined movement for the two previous years. Eastbound shipments of pig iron on the New York State barge canal also reached a new high, totaling 122,500 tons for the 1928 navigation season.

Iron ore receipts at Lake Erie ports this year totaled 36,959,000 tons over 1927. A much larger increase was shown in shipments to other than Lake Erie ports—mainly to the Chicago district—for which the total was 16,490,000 tons, or 2,447,000 tons more than in the previous year.

The "Iron Age" composite price for pig iron has declined from \$18.59 to \$18.46 a ton, its first drop since July. The finished steel composite remains unchanged at 2.39c. a lb., as the following table shows:

Finished Steel.			Pig Iron.						
Dec. 18 1928, 2.39c. a pound.			Dec. 18 1928, \$18.46 a gross ton.						
One week ago	.....	2.391c.	One week ago	.....	\$16.59				
One month ago	.....	2.369c.	One month ago	.....	18.54				
One year ago	.....	2.314c.	One year ago	.....	17.54				
10-year pre-war average	.....	1.689c.	10-year pre-war average	.....	15.72				
Based on steel bars, beams, tank plates, wire, rails, black pipe and black sheets, these products constituting 87% of the United States output of finished steel.

<i>Low.</i>			<i>Low.</i>						

Pig iron producers are planning active campaigns for the first quarter of 1929, according to the "Iron Trade Review" of Cleveland, in its weekly summary of iron and steel conditions, this week. Blast furnaces at Struthers, O., and Granite City, Ill., have been lighted in the past week, while one stack at Birmingham, Ala., and two at Buffalo will resume early in January, adds the "Review" which further states:

This capacity is being brought in against tangible requirements. Especially in those districts where automotive business is dominant have melters covered heavily for the first quarter. Furnace stocks are negligible, consumers will scarcely average a 10-day supply on their yards, and pressure for delivery promises to be insistent with the turn of the year.

Steelworks operations continue seasonally heavy. Steel corporation subsidiaries at 86% are at the highest rate so far in December. This is a gain of four points over last week and makes the average for the entire industry about 85%. Many finishing departments of steelworks will be down for repairs next week, but the expectation is that operations will come back rapidly after New Years.

The virility which has sent steel production and consumption to record heights this year is cushioning the markets from the shock of year-end handicaps. At Cleveland demand for heavy steel thus far in December has exceeded the comparable periods of October and November. In other districts the late-December recession has been greatly moderated.

Considering that first quarter prices on most products represent an extension of current levels, contracting has been broad and it is noteworthy that consumers rather than producers have taken the initiative. The Dec. 15 deadline on sheets, which have been advanced \$2 per ton for the first quarter, has driven in substantially all unspecified fourth quarter tonnage and the new prices now approach their test.

Railroad equipment buying is outstanding. Including 500 cars by the Boston & Maine, 300 by the Great Northern and 200 by the Chicago & Eastern Illinois, the week's car lettings total 1,214. Refrigerator lines have placed 796 steel underframes and are inquiring for 800. The Pennsylvania is taking tenders on 1,000 freight car bodies and the Elgin, Joliet & Eastern on 250 gondolas and 75 flat cars. In addition, 92 miscellaneous cars are on inquiry. From 18,000 to 20,000 tons of track fastenings was bought last week, with inquiry half that tonnage. Fifty thousand tons of rails may be placed at Chicago this week. The Louisville & Nashville has bought 24 locomotives.

Back of the unusual activity—considering seasonal factors—in sheets, strip and bars of all classifications is the automotive industry. Its requirements, especially for the higher finishes of sheets, promise to tax the mills in January. Pittsburgh and Youngstown mills as a rule now cannot deliver autobody sheets before the middle of January, while on common finishes the mills at Chicago have still longer delivery dates.

Only coke of the primary materials appears weak, and this situation results largely because some beehive producers, booked solid for January, prefer to accumulate a surplus to shutting down their ovens for only several weeks. Pig iron prices are strong despite a lull in buying, which producers discount as purely seasonal. Iron and steel scrap has been gathering its second wind, and if foundry and steelworks operations next quarter come up to expectations dealers believe advances are certain. Two consumers at Chicago have bought 18,000 tons of heavy melting steel in the past week.

Bethlehem Steel Co.'s announcement of a first quarter price of 2.00c. to 2.10c., base, Bethlehem, on structural shapes has the effect of narrowing the spread between Pittsburgh and the East from \$3 to \$2 per ton. The new 2.00c. to 2.10c., Coatesville, quotation by the same company on plates has the same effect. Live structural inquiries at Philadelphia aggregate 75,000 tons, a figure not approached in recent years.

Vessel rates on many iron and steel products from the Atlantic to the Pacific coast will be advanced 50c. to \$1 per ton Jan. 1. Rates between Gulf and North Pacific ports are expected to reflect these changes. On the Pacific coast demand for iron and steel has declined, largely for seasonal reasons.

Britain's foreign trade balance in iron and steel improved perceptibly in November, when imports declined and exports increased, states the "Iron Trade Review" weekly radio from London. British iron and steel production in November gained fractionally over October. The European Steel entente has extended current quotas into the first quarter.

Iron and steel prices have been firm but unchanged in the past week, resulting in the "Iron Trade Review" composite of 14 leading products remaining at \$36.24, the highest point in 15 months.

The "Daily Metal Trade" reported as follows:

Iron and steel scrap is showing considerable strength, despite the lack of mill buying. A condition approaching a scarcity of old material prevails and with mill stocks dwindling and dealers' yards nearly bare, shortage appears. Heavy melting steel is nominal at \$17.50 to \$18 with dealers' asking a price \$1 a ton higher.

The "American Metal Market" says:

Seasonal decreases in steel requirements in some lines of consumption have been offset by increased production of tin plate and rails, while agricultural implement industry runs at a very high rate and shipments to automobile and parts makers are increasing slightly. The year in steel is having a strong ending, which according to precedent passages increased activity in the first three months of the new year.

Monthly Production of Coal in November.

The total production of soft coal during the month of November amounted to 46,041,000 net tons, as against 50,360,000 tons in October, according to the United States Bureau of Mines. The average daily rate of output in November was 30,000 tons higher than that for the month of October, an increase of 1.6%.

The production of anthracite decreased from 8,554,000 tons in October to 7,457,000 tons in November, and the average daily rate of output was 5.5% lower in November than in October. The Bureau also issued the following statistics:

MONTHLY PRODUCTION OF BITUMINOUS COAL AND ANTHRACITE IN NOVEMBER (NET TONS).

Month.	Bituminous.			Anthracite.		
	Total Production	No. of Working Days.	Avg. per Working Day.	Total Production	No. of Working Days.	Avg. per Working Day.
September 1928	41,301,000	24.4	1,693,000	6,036,000	24	252,000
October	50,360,000	27.0	1,865,000	8,554,000	26	329,000
November a	46,041,000	24.3	1,895,000	7,457,000	24	311,000
November 1927	40,468,000	24.8	1,632,000	6,854,000	24	286,000

a Revised.

Production of Bituminous Coal and Beehive Coke Increased—Anthracite Output Lower.

According to the United States Bureau of Mines, the production of bituminous coal during the week ended Dec. 8 amounted to 11,219,000 net tons, an increase of 1,313,000 tons over the output for the preceding week (when Thanksgiving Day occurred). The current figure also compares with 9,687,000 tons produced during the week ended Dec. 10 1927. The production of anthracite during the week ended Dec. 8 last amounted to 1,600,000 net tons, a decrease of 28,000 tons as compared with the previous week, but is 212,000 tons more than mined in the week of Dec. 10 1927. Output of beehive coke during the week ended Dec. 8 1928 totaled 94,800 net tons, as against 81,300 tons in the corresponding week last year and 85,900 tons in the week ended Dec. 1 1928. The Bureau of Mines report is as follows:

ANTHRACITE

The total production of anthracite during the week ended Dec. 8 amounted to 1,600,000 net tons, a decrease of 28,000 tons, or 1.7%, from the output in the 5-day week preceding. The loss in tonnage was apparently due to certain religious holidays during the week.

Estimated United States Production of Anthracite (Net Tons).

Week Ended—	1928		1927	
	Week.	Cal. Year to Date.	Week.	Cal. Year to Date.

a Minus one day's production first week in January to equalize number of days in the two years. b Subject to revision.

BEEHIVE COKE.

The total production of beehive coke for the country as a whole during the week ended Dec. 8 is estimated at 94,800 net tons. Compared with the output in the preceding week, this shows an increase of 8,900 tons, or 10.4%. The increase was largely in Pennsylvania. Accumulative production since January amounts to 4,095,300 tons, as against 6,722,300 tons during the corresponding period of 1927.

Estimated Production of Beehive Coke (Net Tons).

BITUMINOUS COAL.

The total production of soft coal during the week ended Dec. 8, including lignite and coal coked at the mines, is estimated at 11,219,000 net tons. This shows an increase of 1,313,000 tons, or 13.3%, over the output in the preceding week, when working time was curtailed by the Thanksgiving holiday. The average daily rate per working day, however, as shown by the diagram above, was slightly lower in the week of Dec. 8 than in the holiday week.

Estimated United States Production of Bituminous Coal (Net Tons), Incl. Coal Coked.

Week.	1928		1927	
	Cal. Year to Date.	Week.	Cal. Year to Date.	Week.
Nov. 24	10,982,000	440,959,000	8,830,000	471,320,000
Daily average	1,830,000	1,587,000	1,731,000	1,698,000
Dec. 1 b	9,906,000	450,865,000	9,053,000	480,373,000

a Minus one day's production first week in January to equalize number of days in the two years. b Revised since last report. c Subject to revision.

The total production of bituminous coal during the present calendar year to Dec. 8 (approximately 289 working days) amounts to 462,084,000 net tons. Figures for corresponding periods in other recent years are given below:

1927	490,060,000 net tons	1924	449,862,000 net tons
1926	535,553,000 net tons	1923	534,816,000 net tons
1925	484,718,000 net tons	1922	390,202,000 net tons

The total production of soft coal for the country as a whole during the week ended Dec. 1 is estimated at 9,906,000 net tons, as against 10,982,000 tons in the preceding week. The decrease, 1,076,000 tons, or 9.8%, was due to the Thanksgiving holiday. The following table apportions the tonnage by States and gives comparable figures for other recent years:

Estimated Weekly Production of Coal by States (Net Tons).

State	Week Ended				Dec. 1923 Average a
	Dec. 1 '28	Nov. 24 '28	Dec. 3 '27	Dec. 4 '26

Current Events and Discussions

The Week with the Federal Reserve Banks.

The consolidated statement of condition of the Federal Reserve Banks on Dec. 19, made public by the Federal Reserve Board and which deals with the results for the 12 Reserve banks combined, shows decreases for the week of \$81,600,000 in holdings of discounted bills and of \$41,200,000 in bills bought in open market, and an increase of \$55,000,000 in holdings of U. S. Government securities. Member bank reserve deposits declined \$83,100,000, Government deposits \$24,200,000 and cash reserves \$22,100,000, while Federal Reserve note circulation increased \$55,500,000. Total bills and securities were \$61,900,000 below the amount held on Dec. 12. After noting these facts, the Federal Reserve Board proceeds as follows:

The principal changes in holdings of discounted bills for the week were decreases of \$94,100,000 at the Federal Reserve Bank of New York, \$17,200,000 at Cleveland, and \$4,000,000 at Minneapolis, and increases of \$9,700,000 at San Francisco, \$7,600,000 at Philadelphia, and \$6,500,000 at Boston. The System's holdings of bills bought in open market declined \$41,200,000 and of Treasury notes \$10,900,000, while holdings of Treasury certificates, which included \$77,500,000 of temporary certificates issued by the Treasury to three Federal Reserve Banks pending the collection of the quarterly installment of taxes, show an increase of \$66,000,000.

All of the Federal Reserve Banks except Boston reported increases in Federal Reserve note circulation for the week, the principal increases being \$18,700,000 at the Federal Reserve Bank of New York, \$11,600,000 at Chicago, \$4,500,000 at Cleveland, \$4,100,000 at Richmond, and \$4,000,000 at Philadelphia.

The statement in full, in comparison with the preceding week and with the corresponding date last year, will be found on subsequent pages—namely, pages 3508 and 3509. A summary of the principal assets and liabilities of the Reserve banks, together with changes during the week and the year ended Dec. 12, is as follows:

	Dec. 19 1928.	Increase (+) or Decrease (-) During Year.	
		Week.	Year.
Total reserves	2,723,757,000	-22,096,000	-133,785,000

Government deposits	5,489,000	-24,235,000	-9,936,000

Returns of Member Banks for New York and Chicago Federal Reserve Districts—Brokers' Loans.

Beginning with the returns for June 29 1927, the Federal Reserve Board also began to give out the figures of the member banks in the New York Federal Reserve District, as well as those in the Chicago Reserve District, on Thursdays, simultaneously with the figures for the Reserve banks themselves, and for the same week, instead of waiting until the following Monday, before which time the statistics cover-

ing the entire body of reporting member banks—now 629—cannot be got ready.

The following is the statement for the New York member banks and that for the Chicago member banks thus issued in advance of the full statement of the member banks, which latter will not be available until the coming Monday. The New York statement, of course, also includes the brokers' loans of reporting member banks, which this week show another decrease, this time of \$64,929,000, the grand aggregate of these loans on Dec. 19 being \$5,110,822,000. These loans are now \$283,768,000 below the peak total registered on Dec. 5, but are still nearly \$1,500,000,000 (the exact figure being \$1,466,491,000) over the total for the corresponding week last year.

### Complete Returns of the Member Banks of the Federal Reserve System for the Preceding Week.

As explained above, the statements for the New York and Chicago member banks are now given out on Thursdays, simultaneously with the figures for the Reserve banks themselves, and covering the same week, instead of being held until the following Monday, before which time the statistics covering the entire body of reporting member banks, now numbering 629, cannot be got ready.

In the following will be found the comments of the Federal Reserve Board respecting the returns of the entire body of reporting member banks of the Federal Reserve System for the week ended with the close of business Dec. 12:

The Federal Reserve Board's condition statement of 629 reporting member banks in leading cities as of Dec. 12 shows decreases for the week of \$89,000,000 in loans and discounts, of \$12,000,000 in investments, of \$12,000,000 in net demand deposits, and of \$15,000,000 in Government deposits, and an increase of \$7,000,000 in borrowings from Federal Reserve banks.

Loans on stocks and bonds, including U. S. Government obligations, were \$131,000,000 below the Dec. 5 total at all reporting banks, a reduction of \$167,000,000 at reporting banks in the New York district being partly offset by increases of \$13,000,000 in the Cleveland district, of \$8,000,000 in the Boston district, of \$6,000,000 in the Chicago district, and smaller increases in most of the other districts. "All other" loans and discounts increased \$25,000,000 at reporting banks in New York district, \$8,000,000 in Chicago district, \$6,000,000 in Cleveland district, and \$43,000,000 at all reporting banks.

Holdings of U. S. Government securities declined \$7,000,000 at reporting banks in the Chicago district, \$6,000,000 in the Boston district and \$16,000,000 at all reporting banks, while holdings of other bonds, stocks and securities declined \$8,000,000 in the New York district and increased \$4,000,000 at all reporting banks.

Net demand deposits declined \$100,000,000 at reporting banks in the New York district and increased \$44,000,000 in the Chicago district, \$15,000,000 in the St. Louis district, \$11,000,000 in the Kansas City district, and \$9,000,000 in the Atlanta district.

The principal changes in borrowings from Federal Reserve banks for the week were increases of \$30,000,000 at the Federal Reserve Bank of Cleveland and \$10,000,000 at Philadelphia, and declines of \$19,000,000 at Chicago and \$15,000,000 at San Francisco.

A summary of the principal assets and liabilities of 629 reporting member banks, together with changes during the week and the year ended Dec. 12 1928, follows:

	Dec. 12, 1928 \$	Week. \$	Increase (+) or Decrease (-) During Year. \$
Loans and investments, total.....	22,646,654,000	-100,694,000	+982,988,000

All other.....	266,498,000	+29,024,000	+183,544,000

As Monday and Tuesday, Dec. 24 and 25, will be observed as holidays, the statement for Dec. 19 will be issued on Wednesday, Dec. 26.

### Summary of Conditions in World's Markets According to Cablegrams and Other Reports to the Department of Commerce.

The Department of Commerce at Washington releases for publication Dec. 22 the following summary of market conditions abroad, based on advices by cable and radio:

#### ARGENTINA.

General business and the weather throughout the week were good. According to reports, the directors of the Union Telefonica have recommended to their stockholders that they accept the offer of an important American telephone and telegraph company to purchase a controlling interest in their company. As compared with the corresponding period of the previous year, exports during the first eleven months of 1928 have decreased 9.5% in tonnage but increased 2.7% in value, the decreased tonnage being due to lessened shipments of corn and meat. November imports of passenger cars and trucks broke all previous monthly records. Excluding one make of American car, imports of passenger cars during the first eleven months of 1928, as compared with the corresponding period of the previous year, advanced 46% and of trucks 92%. October imports into Argentina broke all previous records, but this might have been due to the fact that imports during the previous month were low.

#### AUSTRALIA.

The general trend in Australian business continued satisfactory during the week ended Dec. 12. Customs receipts in New South Wales last week were the highest on record. It is estimated locally that this season's apple crop in West Australia will be a million bushels. Wool sales now being held in several states are unchanged, with fine wool firm and other grades irregular. Australia Airways, Ltd., has registered for operation between Brisbane, Sydney and Melbourne, with a capital stock of £85,000. It is reported that the organizers of this company, Messrs. Kingsford-Smith and Ulm, are sailing for America late in December to purchase flying equipment.

#### BELGIUM.

During the past year greater progress has been made, it is believed, in the way of healthy economic development than any year since the war. Despite the slowness in voting the budget for 1928, Government finance is on a satisfactory basis, accounts are balanced and a substantial surplus is being provided for debt amortization. The Bourse crisis that occurred about the middle of the year was terminated without disastrous losses. There is now little activity on the stock market, but conditions are more stable. During the greater part of the year short term money was plentiful and rates were low. The discount rate for accepted drafts was maintained at 4½% until June 1928, when it was reduced to 4%. Although at the beginning of the year industry was only mildly active and even unsatisfactory in some cases, practically all major lines of manufacture have moved forward strongly during 1928. Iron and steel production was maintained at a high level, sales were large and the industry generally experienced prosperity. There was a marked tendency toward concentration and rationalization in the metallurgical, chemical and other industries. The coal industry, which at the beginning of the year was greatly depressed, has shown steady improvement and, though far from prosperous, conditions are relatively sound. The output of window glass was large and the plate glass industry has prospered. In the cement plants capacity production was maintained throughout 1928, but keen competition on the domestic market reduced profits. In the leather industry conditions were only relatively satisfactory and the textile mills were generally calm during the past year, although a recent improvement is noted. Sales of American automobiles during 1928 averaged over one-half of the total business. Notable progress was made in the chemical industry. Internal markets generally have been active and the purchasing power of the population has been relatively high. Foreign markets have expanded and it is expected that the trade balance for 1928 will be the most favorable and total commerce the largest since the war. Living costs have shown a distinct upward trend and wage revisions are necessary, but there have been few serious labor troubles. Despite the downward trend in the prices of foodstuffs, the financial position of the farmers is sound.

#### BRAZIL.

General business continues slow with no variation in exchange, but a steadier undertone. The coffee market is dull. No action has been taken yet on the tariff bill which is under the consideration of Congress.

#### BRITISH MALAYA.

Retail sales of staples continue fairly good. Dealers, however, report collections more difficult, especially in upcountry districts. An unprecedented demand for cargo space for exports to the United States is creating a shortage, which is inconveniencing produce shippers.

#### CANADA.

Record sales continue to characterize pre-holiday trade in the Dominion. Household electrical equipment and radios are proving particularly popular. Wholesale dry goods firms are taking inventory and are receiving some fair sized orders for spring delivery. Manufacturers in the Toronto district are unusually busy, and employment offices report a keen demand for skilled workers. Demand for pig iron is steady and the hide market is improving with the disposal of accumulated stocks. Farm income from crops in the Dominion declined 7% this year as compared with last, according to the preliminary estimate of the Dominion Bureau of Statistics. Average prices at the point of production were materially lower for all grains. Alberta crops register the largest decrease in value, 26% as compared with last year, and Manitoba crops the greatest gain, 39%, but wheat and oats in this Province were very poor in 1927. Ontario and Quebec Province show 10% decreases and British Columbia 5%. The value of crops of the Maritime Provinces shows a slight increase, in spite of lower prices for potatoes.

#### CHINA.

The closure of the Exchange Bank of China, a Sino-Japanese enterprise with offices in Tientsin, Peking and Shanghai, due chiefly to the non-realization of loans made to the former Peking Government, is reported. Chinese stockholders are attempting to reorganize the bank into a Chinese bank, but the bank's financial resources are said to be insufficient to meet outstanding note issues and other obligations. Failure of the bank has created a temporary flurry in Peking banking circles, resulting in the closing of the Sino-Scandinavian Bank, presumably for a month, and necessitating the shipping of silver specie to Peking in efforts to stabilize the money market. Release of the new tariff schedule through unofficial channels, and lack of official pronouncements with regard thereto either by the Nationalist Government or foreign Powers, is tending greatly to unsettle trade. On account of the proposed tariff increase, interest in imports is reviving with the result of increased orders for shipments of cargo to arrive prior to Feb. 1.

A better undertone in the labor situation in Shanghai is evident because of the settlement of the tramway strike resulting in the unconditional return to work of tramway employees in the French Concession who have been on strike for the past ten days. Business at Canton continues on about the same level as during November, with, however, considerable improvement over November of last year. The political and labor situation is quiet. Raw and waste silk markets are quiet, with prices firm. The crop situation remains unchanged and local authorities are attempting to meet the anticipated food shortage in central districts brought about by a failure of the second rice crop.

#### COLOMBIA.

A strike of dock workers at Puerto Colombia (port of Barranquilla) has resulted in 6,000 tons of cargo destined to that port being discharged at Cristobal, Canal Zone. The freight conditions at Puerto Colombia has resulted in some freight being diverted to Cartagena, somewhat congesting conditions at that place. Considering that nearly half of the merchandise entering Colombia goes through Puerto Colombia and that freight congestion continues at the various ports along the Magdalena River, the effect on the general economic condition of the country is considered apt to become serious and it is therefore suggested that American exporters closely follow the Colombian situation.

#### CUBA.

General business in Cuba is marking time, waiting for the sugar harvest and the arrival of tourists for stimulation of the volume of distribution. Reports from the interior fail to record any improvement in the prevailing depression, and it is evident that the amount of money that is being distributed in wages in preparation for sugar cane cutting and grinding is less than usual. In Habana retail trade is quiet and merchants are holding stocks to a minimum. The importations of candies and food luxuries for the holiday trade has been greatly reduced this year. An indication of the general situation is the drop in current importations through Habana as evidenced by a reduction in the duty collected on such goods during November of nearly \$100,000 from the previous month. The reduced volume of trade has caused a considerable reduction in traffic on the railroads and a consequent large drop in revenues. The revenues from all classes of service have been less, passenger as well as freight. Since July 1 the gross reve-

nues of one of the large systems have been consistently lower than in the corresponding period of 1927. These revenues average 86½% of the receipts during the same months of 1926-27, 81% of the receipts during 1925-26 and 64% of the receipts during 1925.

## FRANCE.

Further expansion in French business took place during November and the outlook continues favorable. Pronounced activity in the iron and steel trade received new stimulus as a result of the lockout in the Ruhr district. A wage agreement between coal mine operators and workers in the north of France has removed an element of uncertainty which has bothered activities. The demand for industrial coal continues rather weak, but sales of household coal have been very active. The coal production during October increased and imports were also much higher. Builders of railway equipment have been benefited by new orders. Manufacturers of electrical material are fully employed and all textile lines show improvement. There is increasing evidence of a labor shortage in the engineering trades. The rubber market is inactive and the lumber market is calm. The retail shoe trade is dull. On account of the more active demand in most lines, prices show a rising tendency and the movement for higher wages is spreading. However, recent wage agreements recognize the fact that wages must be determined by individual output if equilibrium is to be maintained between production costs and selling prices. The failure of the security market to respond to the favorable business situation is believed to be due to continued uncertainty regarding future political developments. Despite easy short-term money a decline in rates for permanent investment which had been hoped for has not materialized and further business expansion is hampered by conditions that are unfavorable to new security issues. The summer drought has been very disastrous to vegetables and forage crops and the yields are bad. However, the major cereal crops have been relatively satisfactory.

## GREECE.

The Greek Parliament has approved a bill authorizing the conclusion of a 6% loan for £4,000,000, to be floated in London. This is the first section of the Stabilization and Refugee loan. The discount rate of the National Bank has been reduced from 10 to 9%, effective Dec. 3. The rate was previously reduced in 1927 from 11 to 10%. Preliminary date on foreign trade for the first nine months of 1928, show little change from the corresponding period of 1927.

## INDIA.

Customs revenue in November amounted to 47,300,000 rupees as compared with 44,800,000 rupees in November of a year ago. According to indications, increases occurred in imports of sugar, petroleum, tobacco, cutlery, hardware, automobiles, tires and silk piece goods, and in exports of hides and skins. Imports of iron, steel, railway plant, cotton, yarn and piecegoods and matches, and exports of jute, burlaps and rice were smaller. Excise collections on gasoline were larger, but kerosene collections declined.

## JAPAN.

The probability of enforcement of the new Chinese tariff increases is causing some anxiety in business circles, with a distinctly divided opinion as to its probable effect on Japanese exports.

## MEXICO.

The general business situation during the week showed an improvement and a healthier tone prevails as a result of the Government's attitude towards recent labor developments. Retail trade showed a marked improvement due to the holiday season, but wholesale trade continues somewhat slow.

## NETHERLANDS.

General conditions in the Netherlands continue satisfactory and industrial amalgamations and expansions that have been effected or are contemplated foreshadow greater participation by Netherlands manufacturers in domestic trade and more active development of foreign markets. Capital issues have been much higher. The Stock Exchange was rather dull during November. The money market opened strong but later eased somewhat. The Hollandsche Discounterings Bank, an important installment institution, is said to have encountered difficulties and a syndicate is being organized to tide it over. A fusion is being considered between the important Gouda and Apollo Stearin works. Shoe factories are operating at capacity output, diamond cutting is active, lumber consuming industries are normal and automobile sales are good, considering the season. The commodity markets in general have been dull. Retail trade during the early part of November was unfavorably affected by weather conditions, but later improved sharply.

## PERU.

The general feeling in the Peruvian business community is one of optimism, but importers are displaying caution in placing foreign orders. Importers and bankers report that the economic situation is normal. The Deputies have submitted the budget results to the Senate which is expected to approve all the items this week, including the proposed restrictions for preventing future ministerial overdrafts. Negotiations for the funding of the internal and floating indebtedness of Peru are reported to be making progress, but certain important details have not yet been agreed upon.

## UNITED KINGDOM.

The value of November exports of United Kingdom goods at £63,767,000 was 9.6% below that for the same month of 1927. The chief decreases were in the cases of cotton goods, £2,555,000; woollens and worsteds, £1,003,000; machinery, £789,000; vehicles, £767,000, and nonferrous metals, £756,000. The aggregate import valuation was £106,856,000 and that of re-exports was £10,833,000, a decrease of 0.5% and an increase of 2.6%, respectively, as compared with the November 1927 trade. Thus the adverse merchandise balance was £32,256,000 for November, as against £29,414,000 for October and £26,272,000 for November 1927. However, the adverse merchandise balance for the eleven months of 1928 compares favorably with those for the same periods of 1927 and 1925, the respective figures being £321,183,000, £350,958,000 and £341,508,000. (Comparison with 1926 trade is misleading on account of the industrial difficulties of that year.) The week-to-week totals of work people listed for employment, as revealed by the unemployment registers, have shown considerable fluctuation, but the aggregate of 1,351,000 reported for Great Britain on Dec. 3 is only slightly greater than the total for Nov. 5. On the other hand, the total of 41,500 for Northern Ireland shows a reduction of 3,000 in the month.

The Department's summary also includes the following with regard to the island possessions of the United States:

## PHILIPPINE ISLANDS.

Reports on the extent of damage from the recent typhoon are still incomplete. According to estimates destruction of abaca plants will reduce next year's production by about 200,000 bales. It is expected that the output will be between 1,175,000 and 1,250,000 bales, compared with 1,450,000 bales produced this year. The abaca market of the past week was firm for all grades, especially Grade 1 and above. Inquiry from New

York and London was quiet and present prices range from the following quotations to a half peso higher in each instance. Grade F, 27.50 pesos per picul of 139 pounds; "I," 25.50; JUS, 20; JUK, 17.50, and L, 16. (1 peso equals \$0.50.) According to latest local estimates copra output next year will be below the amount forecasted previous to the typhoon, which was 616,000 tons. Production for the year just closing is estimated at 560,000 metric tons, or about 20% above last year's output. Arrivals of copra at Manila continue good and all oil mills are operating. Present f.o.b. prices are from 13 pesos to 12½ pesos, and 12½ centavos per picul for reseeded (dried copra) delivered at Manila; Cebu, 12.75 pesos, and Hondagua, 12.50 pesos (100 centavos, equal 1 peso.)

## PORTO RICO.

The holiday trade is gaining impetus and, although the volume of sales is not as great as was the case last year, nor is business as good, leading merchants are not complaining. Retail sales of high grade jewelry and luxury items of foreign manufacture are reported to be 25% below those of last year, but lower priced articles of a similar nature are moving better than was anticipated and sales are exceeding those of 1927. Recent receipts of Spanish and French candies for the Christmas trade have been at least equal to normal imports and extremely high priced candies from Switzerland are appearing in the Porto Rican market for the first time. Central Aguirre has begun its sugar grinding campaign and centrals Guanica, Colosa, Rufina and Mercedita are expected to be under way by the end of the month. Many other centrals are expected to commence operations during the second week in January. Preparations are being made to provide for the annual transportation of cane from the Dominican Republic for grinding by Central Guanica. The demand for staple foodstuffs, continues good. Stocks of coffee are low and indications point to an increasing demand for American roasted coffee for some months to come and possibly for several years. Sales of construction materials are now reported to be normal with the demand well sustained. Automobile stock sales are running ahead of those of last December, and registrations of new vehicles indicate that the low priced units comprise about 60% of the total.

Banks report that the volume of collections has been larger since the first of the month, but payments continue to be rather slow, especially in interior towns.

## Gold and Silver Imported into and Exported from the United States by Countries in November.

The Bureau of Foreign and Domestic Commerce of the Department of Commerce at Washington has made public its monthly report, showing the imports and exports of gold and silver into and from the United States during the month of November 1928. The gold exports were \$22,914,929. The imports were \$29,591,384, of which \$24,950,078 came from the United Kingdom and \$2,500,000 from Argentina. Of the exports of the metal, \$22,120,924 went to Canada.

## Payment of \$94,200,000 Made to United States Dec. 15 by Great Britain on Account of War Debt—Installments on Debts by Other Governments.

Payments totaling \$98,612,203 were received by the United States Treasury on Dec. 15 on account of the war indebtedness of Great Britain, Belgium, Czechoslovakia, Estonia, Finland, Hungary, Latvia, Lithuania and Poland. The major sum—\$94,200,000—was paid by Great Britain. Announcement of the Dec. 15 payments was made as follows by Under-Secretary of the Treasury Ogden L. Mills, according to the *United States Daily*:

The Treasury to-day received payments amounting to \$98,612,203.02, from the following foreign governments on account of their funded indebtedness to the United States:

Great Britain: The twelfth semi-annual payment of interest and the sixth annual installment of principal on the funded indebtedness of Great Britain to the United States under the terms of the debt settlement approved by the Act of Feb. 28 1923. The total payment amounted to \$94,200,000, of which \$67,200,000 was for interest and \$27,000,000 for principal, and as authorized by the terms of the settlement, was made in obligations of the United States which were accepted at par and accrued interest. The obligations were \$90,540,000 face amount 3½%

Treasury Notes, Series C-1930-32, maturing Dec. 15 1932; \$3,628,050 face amount 3½% Treasury Notes, Series B-1930-32, maturing Sept. 15 1932; accrued interest thereon, \$31,920.83, and cash adjustment of \$29.17.

*Seventh Belgium Payment.*

Belgium: The seventh semi-annual payment of interest on the post-armistice funded indebtedness of the Government of Belgium due the United States under the terms of the debt settlement approved by the Act of Apr. 30 1926. The payment amounting to \$1,250,000 as authorized by the terms of the settlement, was made in obligations of the United States, which were accepted at par and accrued interest. The obligations were \$1,000,000 face amount of 3½% Treasury Notes, Serie A 1930-32, maturing Mar. 15 1932; \$230,000 face amount 3½% Treasury Notes Series B 1930-32, maturing Sept. 15 1932; accrued interest thereon, \$10,901.14; and cash adjustment of \$98.86.

Czecho-Slovakia: The seventh semi-annual installment of principal on the funded indebtedness of the Government of Czecho-Slovakia due the United States under the terms of the debt settlement approved by the Act of May 3 1926. The payment amounting to \$1,500,000, as authorized by the terms of the settlement, was made in obligations of the United States which were accepted at par and accrued interest. The obligations were \$1,486,500 face amount 3½% Treasury Notes, Series B 1930-32, maturing Sept. 15 1932; accrued interest thereon, \$13,078.74, and cash adjustment thereon, \$421.26.

*Sixth Payment by Estonia.*

Estonia: The sixth semi-annual payment on account of the funded indebtedness of the Government of Estonia to the United States due under the terms of the debt settlement approved by the Act of Apr. 30 1926. The payment amounted to \$100,000, which was made in cash. The balance will be funded in accordance with the option given the Government of Estonia in the debt settlement agreement.

Finland: The twelfth semi-annual payment of interest and the sixth annual installment of the principal on the funded indebtedness of the Government of Finland due the United States under the terms of the debt settlement approved by the Act of Mar. 12 1924. The total payment amounted to \$183,460, of which \$131,460 was for interest and \$52,000 for principal, and as authorized by the terms of the settlement, was made in obligations of the United States, which were accepted at par and accrued interest. The obligations were \$181,800 face amount 3½% Treasury Notes Series B 1930-32, maturing Sept. 15, 1932; accrued interest thereon of \$1,599.54, and cash adjustment of \$60.46.

*Cash Payment by Hungary.*

Hungary: The tenth semi-annual payment of interest and the fifth annual installment of principal on the funded indebtedness of the Government of Hungary due the United States under the terms of the debt settlement approved by the Act of May 23 1924. The total payment amounted to \$39,773.01, of which \$29,133.01 was for interest and \$10,640 was for principal. The payment was made in cash.

Latvia: The sixth semi-annual payment on account of the funded indebtedness of the Government of Latvia to the United States due under the terms of the debt settlement approved by the Act of Apr. 30 1926. The payment amounted to \$40,000, which was made in cash. The balance will be funded in accordance with the option given the Government of Latvia in the debt settlement agreement.

*Lithuanian Payment.*

Lithuania: The ninth semi-annual payment of interest, except that part to be funded, on the funded indebtedness of the Government of Lithuania to the United States under the terms of the debt settlement approved by the Act of Dec. 22 1924. The total payment amounted to \$48,970.01, which was made in cash. The remainder of the interest, amounting to \$44,302.50, will be funded in accordance with the option given the Government of Lithuania in the debt settlement agreement.

Poland: The eighth semi-annual payment on account of the funded indebtedness of the Government of Poland to the United States under the terms of the debt settlement approved by the Act of Dec. 22, 1924. The payment amounted to \$1,250,000, which was made in cash. The remainder due will be funded in accordance with the option given the Government of Poland in the debt settlement agreement.

The obligations of the United States in the face amount of \$97,075,350, accepted in connection with the British, Belgian, Czecho-Slovakia and Finnish payments, have been canceled and retired and the public debt reduced accordingly.

**Treasury Turnover Dec. 15 \$1,709,000,000.**

A turnover of funds aggregating \$1,709,000,000 occurred in the Dec. 15 operations of the Treasury Department. The "Times" in a Washington dispatch on that date summarized the transactions as follows:

Treasury operations involving a total of about \$1,700,000,000 were in process to-day. All of the transactions were dated Dec. 15, but in some instances, such as the receipt of the quarterly income tax payments, actually extend over a considerable period. Among the transaction to-day was the payment into the Treasury of \$98,612,203 from foreign governments on their war debts, of which \$94,200,000 was paid by Great Britain.

The transactions dated as of to-day were as follows:  
Receipts—Quarterly income tax payment, \$445,000,000; proceeds of 4¼% short-term certificate sales, \$500,000,000; debt payments by foreign nations, \$98,612,203; total, \$1,043,612,203.

Disbursements—Liquidation of maturing short-term certificates of indebtedness, \$570,000,000; interest on public debt, \$96,000,000; total, \$666,000,000.

Total of receipts and disbursements, \$1,709,000,000.

**Morris Plan to Further Instalment Selling in Britain.**

Following the acquisition of Drage's Ltd., London instalment store, by the Drapery Trust, and the report, in press accounts from London, of Lord Beaverbrook's appeal for increased instalment selling in England, Arthur J. Morris, founder of the Morris Plan and President of the Industrial Finance Corp., states that the Morris Plan expected to play a large part in the establishing of consumer credit in the United Kingdom. "The Morris Plan was the pioneer in industrial banking and consumer credit generally in this country," he said, "and Lord Beaverbrook's broadside appeal

comes at a particularly apt time, inasmuch as our representatives are now in London arranging for the opening of the Morris Plan Bank of England. The Morris Plan Bank of England, like many Morris Plan institutions in this country, will not only make loans but will also handle instalment financing through dealers in various lines of merchandise. There has been a real need for such a service in post-war England."

**Barclay's Bank, Canada, to be Formed Under Canadian Bank Act.**

An application will be made at the next session of the Canadian Parliament to form a bank under the Canadian Bank Act to be known as "Barclays Bank (Canada)," according to advices received in New York by the representative's office of Barclays Bank Limited. The proposed bank will have an authorized and paid up capital of \$500,000 with a reserve fund of a like amount, the majority of the capital being subscribed by Barclays Bank Limited and Barclays Bank (Dominion, Colonial and Overseas). This latter institution, it will be recalled was formed in February 1926, by the amalgamation of the National Bank of South Africa, the Anglo-Egyptian Bank and the Colonial Bank with the object of furthering the interests of Imperial trade, and has branches at most of the important centers of the British Empire. This expansion into Canada on the part of one of the great British joint stock banks is expected to facilitate the introduction of British capital into the Dominion and form a further link with the financial interests of the Empire. It is understood that Sir Robert Borden, former Premier of the Dominion of Canada, will accept the office of President of the new bank.

**National Income of Great Britain.**

The national income of Great Britain for 1927 has been estimated by A. W. Flux, the recently elected President of the Royal Statistical Society at £3,650 millions. This compares with an estimate made by Sir Josiah Stamp and Professor Arthur L. Bowley of £4,213 millions for 1924, and with an estimate for 1924 made by Mr. Flux of approximately £3,975 millions, according to advices just transmitted to Bankers Trust Co. of New York by its British Information Service, and made public Dec. 10. In view of the fact that prices in 1924 were about 15% higher than they were in 1927, it is pointed out that it will be seen that the national income in the latter year was substantially the same as in 1924. The trust company adds:

The estimate made by Mr. Flux for 1924, ranging from £3,750 million as a minimum to £4,200 million as a maximum, or a mean of £3,975 million, is based on the census of production figures just issued by the British Board of Trade. The estimate is arrived at as follows: About £2,635 millions as the value of material goods, at the place of manufacture or import produced within the year; about £945 millions for transport and distribution charges, £650 millions for the paid services of persons and buildings, and a net export of capital of £50 millions, less some £300 millions for domestic capital replacement.

Making allowance for an 88% rise in prices since 1907, when the previous census of production was taken, the national income in 1924 had increased since the earlier date by about 7%, while the population increased by about 10%, showing a reduction in the amount of national income per capita. British statistical experts stress the fact that national savings in 1924 decreased by about 40% as compared with 1907, the new savings in 1924 being estimated at £300 millions, and in 1907 at about £480 millions after adjusting the actual figure of £260 millions for that year to the 1924 price level.

**Record Deposits of \$1,869,221,358 Reported By Midland Bank, London.**

The following London advices Dec. 5 appeared in the New York "Times":

What is said to be a world banking record was set in November by the Midland Bank, which has hundreds of branches all over the United Kingdom.

Its "current deposit and other accounts" during November were \$1,869,221,358, which, according to the bank directors, is the highest total ever published by any commercial stock bank in this or any other country.

Cash and money at call and short notice amounted to 22.5% of the deposits, while advances were 56.4% of the total.

**New Irish Coins Have Novel Symbols.—Animals and Birds by a Briton Depict Free State's Resources.**

Regarding the new coin of the Irish Free State, put into circulation Dec. 1, a message to the New York "Times" from London, Nov. 30 said:

An event unparalleled in the modern history of numismatics—the issue of an entirely novel series of eight coins—will to-morrow provide the people of the Irish Free State with a new currency.

According to a statement to-night by Dr. Thomas Bodkin, one of the committee responsible for them, the designs are symbolical of the natural wealth of Ireland. The obverse of every coin shows a harp, but the reverses are representations respectively of an Irish hunter, a salmon, a bull, an Irish wolfhound, a hare, a hen with chicks, a sow with a litter, and a woodcock.

The pattern of each coin was chosen separately, but in every case the committee unanimously chose designs which were afterward found to be

the work of one man, Percy Metcalf, a young Yorkshire sculptor. The designs themselves and the motives which made the committee select them represent a delightful blending of wit and humor.

Upon the half crown, the most valuable of the series, it was decided to show the Irish hunter, a horse famous throughout the world. The florin, similar to the half crown in size, is made as unlike as possible by the choice of the salmon, which, apart from the beauty of its form, has an important place in Irish legend. It was decided to place the bull upon the shilling to face in the opposite direction from the horse.

As the sixpence and threepenny bit are both of nickel and otherwise commonly associated, their association is emphasized by putting the hound on the sixpence and the hare on the threepenny bit. To the penny, since it is the coin most frequently used by the woman of the house and her children, the committee have the representation of the hen with her chicks.

For the halfpenny, despite unfair ridicule with which that noble and useful animal is often associated, the committee decided to favor the pig, which is depicted with a litter. For the farthing, Mr. Metcalf designed an exquisite woodcock—a bird beloved of sportsmen, shy, scarce and elusive, like the farthing itself.

As the Government had ruled that the inscription on the coins must be Irish only, the denomination of each coin has been indicated by numerals as well as words.

Criticism of the lack of religious symbols upon the coins was met by Dr. Bodkin with this phrase:

"Imagine two loafers at the bar of a public house tossing as to which of them should pay for drinks according to whether the image of Saint Bridget came uppermost or not."

### **\$1,250,000 to Aid Miners of Britain—Premier Baldwin Outlines to Commons \$21,250,000 Program for Unemployment Relief.**

The British Government's long-awaited measures to allay the suffering in the coal fields were announced in the House of Commons on Dec. 17 by Premier Baldwin, a wireless message from London on that date stating:

Briefly, they include an immediate grant of \$750,000 to the Lord Mayor's fund, thus doubling its present amount, a grant of \$5 for every \$5 contributed voluntarily by the public and still another grant of \$500,000 for the transference of married miners and their families from the stricken areas.

The word "emergency" was mentioned by Mr. Baldwin in describing the present plight of almost 1,000,000 people in the south Wales and Durham regions.

On all sides the government's action is recognized.

As a generous palliative but not, of course, as any far reaching remedy. There is some complaint that the scheme gives no relief to other depressed industries, such as iron and steel and shipbuilding, but when the House discusses the matter on Thursday it is believed certain it will approve Premier Baldwin's measures wholeheartedly.

Associated Press accounts from London on Dec. 17, regarding the measures, said:

Premier Baldwin in outlining in the House of Commons to-day an extended program of unemployment relief, involving immediately additional expenditures expected to total \$1,250,000, announced that special provisions made for assistance to unemployed generally and distressed areas particularly had exceeded the budget estimate during the current fiscal year by \$8,500,000.

The continuance of such assistance in the manner contemplated by the government for the next year and along the same lines as the present year would involve an expenditure of \$21,250,000, the Premier said.

"The primary object of the government policy is and must remain the training and transference, including the migration of the unemployed workers," he explained, adding that for this purpose \$10,000,000 was being provided in the current financial year expenditure.

For the year 1929, it was estimated, expenditure for the same purpose would amount to \$15,000,000.

Premier Baldwin emphasized that the measures for immediate relief would be supplemental and not in replacement of existing public services. For instance, he said, local educational authorities would continue to exercise their existing powers for feeding children and would continue to receive the usual grants from the Board of Education. But these authorities would now be able to supplement their resources by co-operating with the local committee of the Lord Mayor's fund.

### **Trading in German Bank Shares Opposed—Berlin Institutions Object to Listing of Their Stocks on New York Curb.**

According to wireless advices Dec. 14 from Berlin to the New York "Times" the announcement that Berlin bank stocks were dealt in on the New York Curb led at first to firmness in those stocks on the Berlin market, but the later attitude toward the innovation was unfavorable. The advices add:

It is now declared that the Guaranty Trust Co. acted without coming to complete agreement with three of the Berlin banks concerned, and those institutions are attempting to annul the existing arrangements, partly on considerations of prestige and partly from fear that curb trading in New York might affect Berlin quotations.

A general and heavy fall in stocks occurred on the Boerse at the beginning of the week; it was ascribed to the Wall Street collapse. Trading was mainly confined to Farbianindustrial, the electrical and brewery shares and Reichsbank stock. The Frankfurter Zeitung's index of average Stock Exchange prices as of Dec. 7 is 137.74, as against 133.44 on Nov. 30. A year ago this week the index number was 132.58; the high point of 1927 was 177.46 in May.

### **Reichsbank's Accumulation of Gold Called Unneutral.**

Under the above head the New York "Times" of Dec. 17 printed the following from Amsterdam Dec. 13:

The continued accumulation of gold by the German Reichsbank attracts increasing attention on other markets. It has now become evident that the Reichsbank authorities are purposely selling the bank's holdings of foreign exchange, with a view not only to accumulating gold, but to strengthening the mark's international price. The latest Reichsbank return shows a decrease of 17,400,000 marks in such holdings, and they are down 100,000,000 for the year. This policy is considered "unneutral" by many

financiers, all the more so since the Reichsbank is still refraining from absolute restoration of the gold standard.

The gold movement to Berlin is further stimulated by Germany's drawing on the proceeds of its foreign loans, which amounted to 1,484 million marks during the eleven completed months, with several new foreign loans announced in December. The gold movement is also helped by heavy remittances of capital from the British and French markets, where the 3 and 4% rates for money compares with 8 or 9 asked for "prolongation money" at Berlin and with private discounts commanding 6¼. It is recognized that the import balance in Germany's foreign trade is very large and actually increasing, but this itself is believed to be a result of the large foreign loans.

### **German Unemployed 400,000 Above 1927—Industry Reported, However, as Showing Signs of Stability.**

From the "Times" we take the following Berlin advices of Dec. 14:

This week's report shows that in the second half of November persons drawing unemployment insurance pay in Germany increased from 805,000 to 1,030,000. The total number now unemployed, not counting strikers or employes locked out, is 400,000 greater than at the same date in 1927. The latest increase of unemployment was mainly due to suspension of activity in building and other industries influenced by the season.

Railroad car-loadings show a sharp decline. The average daily loadings for the last reported week were 151,400 cars, as against 164,200 in the corresponding week of 1927. This, however, was due rather to the Ruhr lockout than to a shrinkage in general trade. Apart from the decrease natural to the season, industry shows in fact rather remarkable stability. One partial cause for this seems to be the increase in export trade, which tends to counteract the decrease in home buying.

### **Says Spain's Policy Reduces Gold Reserve—Capitalist Criticisms Means Used to Uphold Peseta—Financial Circles Uneasy.**

We quote from the "Times" the following Madrid advice Dec. 8:

An easy impression has been created in Spanish financial circles by the attack on the Spanish budget and government policy toward the stock exchange made by Senor Cambo, one of the leading capitalists of Spain.

Senor Cambo contends that official intervention to preserve the value of the peseta must have produced a loss to the country's gold reserve that cannot be estimated accurately because, he charges, the official figures do not reflect the true state of the Spanish treasury.

Some financial papers, following Senor Cambo's attack, have pointed out that public works, such as highways and housing reforms to which the government is pledged, will also be a great drain on the public treasury.

It is even reported that in 1927 the government's expenditures left a deficit instead of a surplus, as announced.

The Ministry of the Treasury denies these charges but has issued an appeal against the exportation of capital, which it admits is going on notwithstanding the obstacles to it that have been created.

### **Spain Fails to Check Falling Exchange—Creation of Monopolies and Trust Held to React Unfavorably Against Peseta.**

Under date of Nov. 3 from Madrid the "Times" announces the following cablegram from Madrid:

The rise of the foreign exchange to the detriment of the peseta is engaging the attention of the Spanish Government and confirms the prediction made upon the creation of the Exchange Committee that it would be unable to avert the depreciation of the peseta.

The Government maintains its action was proper and it will continue to interfere with the exchange, selling quantities of dollars and pounds in an effort to decrease their value.

But the cause of the situation lies deeper and is chiefly due to the critical industrial conditions resulting from Government intervention in industry, agriculture, cattle raising, mining and other productive activities.

The combination and monopolies existing in many branches of business, such as oil, resin, cement, and custom house brokerages, are endeavoring to form a trust of all steamship lines and another of all railroad companies. These trusts increase prices generally and the value of the peseta drops automatically. The customs difficulties caused by the decrease of exports owing to the creation of the amalgamation of fruit and other companies have contributed to the fall of Spanish money.

It is certain that a surplus in the national finances will result, but nobody knows the details of the accounts or of the Treasury transactions.

The truth of the matter is that the exchange rate which was maintained during the 1927 and the first part of 1928 with the dollar at 5.90 began to increase in proportion to the Government interference and has now reached the rate of 6.20.

### **Spanish Government to Create Foreign Trade Bank.**

Press advices from Madrid Dec. 5 stated:

A foreign trade bank is to be created by the Spanish Government to take care of and encourage Spanish trade expansion in foreign countries. The bank will open for business early next year. M. Calvo Sotelo, Minister of Finance, now is studying the various suggestions made to him by the several trade bodies interested in the matter.

### **Spain's New Tariff To Promote Exports—De Rivera States Revised Schedules Will Accord Special Privilege To Countries Purchasing Its Products.**

From Madrid the "Wall Street Journal" of Dec. 10 announced the following copyrighted by the United Press:

Spain's new tariff schedules are not intended to lessen imports from foreign countries, but if necessary will be revised to grant special tariff privileges to those countries which will reciprocate by purchasing Spanish products, stated General Primo de Rivera, Premier.

With a few justified exceptions, the schedules shortly to go into effect will include only a limited increase in tariffs, and no attempt will be made to protect home industries which cannot be protected without excessive rates, de Rivera said. It is Spain's wish to balance its exports and imports, but it desires to accomplish this by increasing its exports and not by reducing its purchases from other countries, he explained.

"Spain's imports are larger than her exports, by more than 500,000,000 pesetas a year," the premier said. "No impartial and right thinking person would deem it unjustified for Spain to attempt to balance her imports and exports, although we would always prefer to increase our exports rather than decrease our imports. The latter largely consist of machinery and materials to be devoted to the development of our own resources."

De Rivera cited the Spanish Morocco as an example of improvement in his country's provinces during the past five years.

The premier appeared in excellent health.

#### Decree Issued in Spain Nationalizing Reserves of Insurance Companies.

According to Associated Press advices from Madrid Dec. 13 the Ministry of Labor has published a decree nationalizing the reserves of insurance companies. The advices states that it is believed that this move would strengthen the financial position of Spain.

#### James Speyer Gets a Deserved Decoration from Hungary.

James Speyer, international banker, was decorated on Dec. 20 with the Hungarian Order of Merit, Second Class, with the Star. The honor was conferred upon Mr. Speyer by Count Laszlo Szechenyi, the Royal Hungarian Minister in Washington. The award of this honor was in recognition of unusual and distinguished services which Mr. Speyer had rendered to the Kingdom of Hungary. It was made at the command of The Regent of Hungary.

Mr. Speyer was the first of the American bankers to participate in the flotation of Hungarian Government loans. While European finances generally were upset, Mr. Speyer and his associates shared with European bankers in underwriting the first Kingdom of Hungary Loan. This was in 1924. Since then, many millions of dollars of Hungarian Government bonds have been subscribed and the award comes in recognition of Mr. Speyer's early pioneering.

In making this presentation, Count Szechenyi stated that Mr. Speyer had always been regarded as a sincere friend of Hungary and as one man who always had faith in the future of the Hungarian people. In reply, Mr. Speyer stated that he treasured no honor more greatly than the Hungarian award and accepted it not as an individual but in behalf of Speyer & Co. Among the notables present at the ceremony, which was held in the conference room of Speyer & Co., were George de Ghika, Royal Hungarian Consul General to New York and John Dyneley Prince, American Minister to Yugo-Slavia, who is the nephew of Mr. Speyer. Following the presentation of the Order of Merit, Mr. Speyer gave a luncheon to Count Szechenyi at the Recess Club. Among the guests were: George de Ghika, Royal Hungarian Consul General at New York; John Dyneley Prince, United States Minister to Yugo-Slavia; Henry W. Taft, and the following bankers: Stephen Baker, Bank of the Manhattan Co.; Henry E. Cooper, Equitable Trust Co. of New York; Halstead G. Freeman, Chase Securities Corp.; L. Brooks Leavitt, Paine, Webber & Co.; Jansen Noyes, Hemphill, Noyes & Co.; Allan M. Pope, First National Corp. of Boston; Clarkson Potter, Hayden, Stone & Co.; Frederick Strauss, J. & W. Seligman & Co.; Elisha Walker, Blair & Co., Inc.; Josiah Macy, Hambleton & Co. and also DeWitt Millhauser and Leon H. Kronthal of the firm of Speyer & Co.

#### Rumania's Progress Since War Depicted by George Boncesco, Financial Counselor of Rumanian Legation.

George Boncesco, Financial Counselor of the Rumanian Legation, in a speech on Dec. 14 at the School of Foreign Service, Georgetown University, said that Julius Maniu, the new National-Peasant Premier of Rumania, is patterning his Government very largely on American standards. Mr. Maniu, according to Mr. Boncesco, regards Abraham Lincoln as one of his ideals, and promises that his regime will be "a government of the people, for the people and by the people."

Although Rumania suffered heavily during the war, her progress during the last 10 years has been very marked, the speaker said. At the conclusion of hostilities the country found that all its machinery had been taken by the enemy; that out of 2,000 railway engines, only 87 were left to operate 6,000 miles of track. War and disease took 10% of the population and the nation lost more than \$200,000,000 as a result of the Russian Revolution, because the crown jewels and gold reserve of the National Bank had been sent to Moscow in 1917 for safe-keeping.

According to Mr. Boncesco, the greatest step in Rumania's post war economic program was the agrarian reform, by which 30,000,000 acres of arable land out of a total of 32,000,000 acres passed from the hands of the old landholders to about 4,000,000 peasant families. This action stabilized the country and saved it from Bolshevism. Despite the severe losses which the war entailed, the Rumanian budget has been balanced for five years and the country is now engaged in the intensive development of her natural resources, Mr. Boncesco said, for Rumania is one of the largest cereal exporters in the world and next to Russia is the leading petroleum producing country of Europe. Animal and dairy products form 12% of the total exports. The potential water power of Rumania is placed at 1,500,000 h.p., of which less than 4% is now utilized. Mineral deposits include iron, coal, salt, manganese, bauxite, quicksilver, gold and silver. In summing up the vast natural resources of Rumania, Mr. Boncesco declared that the average Rumanian is the fourth richest citizen in the world, coming after the American. Every Rumanian possesses theoretically \$2,808, and every American \$2,941. The richest, according to the World Economic Chart for 1927, was the New Zealander, with \$3,317, and the second the Swiss, with \$2,998.

#### Bread Lines in Moscow—But Food Department Official Denies Flour Shortage.

From Moscow Dec. 16 the "Times" reports the following advices (Associated Press):

Long bread lines outside bakeries of Moscow yesterday and the day before prompted reassurances by Soviet authorities to-day and statements that uneasiness over food supplies was unwarranted.

Mr. Prosorov, member of the Moscow Provision Department, when asked to explain the bread lines, said that on Dec. 14 some co-operative stores ran short of supplies, this immediately giving rise to rumors of a shortage of bread. He said these reports were not true and that there was sufficient reserve flour in Moscow to meet all demands.

It was learned an additional 100 tons of flour would be issued to-day and to-morrow to Moscow bakeries. Some authorities attribute the bread rush to hoarding for the approaching holidays.

#### Leipzig Fair Rates Announced.

We are glad to make room for the following, issued from the local office of the Leipzig Trade Fair at 11 West Forty-Second Street:

The Leipzig Trade Fair, by far the largest goods exchange in the world, will be held from Mar. 3 to 13 1929. Following its traditions of 700 years, the Fair will welcome exhibitors and buyers from all parts of the world. Visitors to the Fair this year will be able to shop profitably among some 11,000 elaborate exhibits, assembled from twenty-four countries. Fully 200,000 active buyers from 44 countries will attend, of whom 30,000 will come from countries other than Germany. No other industrial exchange attracts so cosmopolitan a group of business men, or approaches the Leipzig Fair in the variety of its exhibits, and the volume of business transacted.

Housed in the largest exhibition buildings in the world, the Fair forms a great "city within a city," organized from long experience for the convenience of all. The displays in each division form a cross section of an entire industry, often under a single roof. Months of travel to widely scattered world markets are thus eliminated. Special preparations have been made to serve visitors this year in the matter of banking facilities and the arrangement for packing and shipping goods. As the world's largest and busiest market place, the Leipzig Fair offers an unsurpassed opportunity for establishing live business contacts and entering world markets.

At the last spring Fair more than half a billion dollars worth of goods were sold within a week, of which one-half were for export, and subsequent orders greatly increased the total. Leading business men of many countries have been quick to take advantage of the opportunity. The Spring Fair will have three times as many exhibits, and ten times as many buyers as any pre-war Fair. America will be adequately represented by some 70 significant exhibits of its leading products, and 2,200 buyers from all parts of the United States will attend.

The lists of exhibits at Leipzig readily establishes it as the greatest cosmopolitan exchange in the world. One of the outstanding features of the spring Fair will be the display of building materials, machinery, iron and steel products, with 2,000 exhibits. The Toy Fair with 817 exhibits will be the largest of the world. There will be 720 exhibits of glassware and ceramics, 647 exhibits in the textile divisions, 535 household goods, and 716 exhibits of

books. The exhibition of rayon and textiles in general will be the largest ever assembled in Europe.

Detailed information concerning the Fair may be obtained by addressing the Leipzig Trade Fair, Inc., 11 West Forty-Second Street, New York.

#### New York Bankers Acquire Block of Hungarian General Savings Bank Stock—Offering of American Shares to Be Made in Near Future.

J. & W. Seligman & Co. and John Nickerson & Co., Inc., have acquired 140,000 shares of common stock of Hungarian General Savings Bank, Ltd., of Budapest. These shares will be deposited with the Central Union Trust Co. of New York against the issue of 28,000 American shares, each representing five Hungarian shares. The American shares, it is expected, will be offered in the near future. The Hungarian General Savings Bank, which operates the largest network of branch banks in Hungary, is said to have an unbroken dividend record since it was organized in 1881 by General Insurance Co. of Trieste, one of the oldest and largest of European continental insurance companies. For 1925 the bank paid a dividend of 10%, for 1926 12% and for 1927 13%. Without taking this financing into account, the bank's cash holdings have doubled in three years and its deposits have multiplied 2½ times. Its mortgage business, which three years ago was insignificant, now approximates \$5,000,000. Besides conducting commercial banking, mortgage and savings departments, the bank has substantial investments in industrial and financial enterprises.

#### Proposed Offering of German Savings Institutions.

From the "Evening Post" of Dec. 21 we take the following:

A syndicate of leading German banks will offer on Dec. 28 a new 30,000,000 reichsmark loan of the German Savings Banks and Clearing Association (Deutsche Sparkassen und Giroverband) maturing in 28 years and bearing an 8% coupon, according to Ludwig Bendix. The public offering price will be 94% and the subscription books will close on Jan. 8. A syndicate headed by Harris, Forbes & Co. in May offered a \$17,500,000 6% German consolidated municipal loan of the German Savings Bank and Clearing Association.

#### Japan Not Ready for Gold Standard—Nation's Leading Financial Authority States Removal of Gold Export Embargo Must Be Delayed.

The following special advices from Tokio appeared in the "Wall Street Journal" of Dec. 19:

The counsel of former Viscount Korekiyo Takahashi, twice Minister of Finance and once Premier, against removal of the gold embargo in Japan is believed to have settled for a long time to come this question which for many weeks has been now the outstanding issue in the nation's financial affairs.

Mr. Takahashi has been President of the Specie Bank, financial agent for Japan in England and the United States and governor of the Bank of Japan in addition to his high posts in the Cabinet. He has been for many years an outstanding adviser to the government on financial matters. He is known as the great patriarch of money matters in the Empire. Above all he commands complete attention in the circles of the Seiyukai, or government party.

In an interview granted "The Wall Street Journal," he said he could by no means approve lifting the embargo under the present economic circumstances in the Empire. He declared he was not opposed to the measure in principle but that the nation is not prepared for it yet.

It is believed that no Seiyukai government will act against such advice, despite a popular clamor in banking and chamber of commerce circles to the contrary. When Mr. Takahashi says, "It still is too early," the matter appears settled.

#### Not Yet Convinced of Safety.

"I am not opposed to the lifting of the gold embargo as a matter of principle," he said to "The Wall Street Journal." "That is the only right thing to do and every effort should be made to make conditions ready for it. It is only that I have not on my desk sufficient data to convince me of the safety of such a policy at the present moment.

"In matters of such importance one cannot be too cautious. The least doubt regarding the consequences of a new policy would justify opposition to it. Therefore, I counsel the wisdom of more investigation and more study, for this is not an issue in which a country can afford to take any risk.

"The supporters of lifting the embargo point to England's example, to the certainty of a fall in prices, to the eventual increase of exports and all that. But can we really depend upon a similar result? I rather doubt it. Did prices fall in England after it lifted the ban? No! Some fall was witnessed in the wholesale prices of commodities, but the retail prices in general remained little affected by the removal.

"There were good reasons for such disappointing results. When gold was made free, the pound came up to par with the dollar, gaining so much additional purchasing power for commodities of partly or entirely foreign origin. But wages, rents, freight and other items of expenses having direct or indirect bearing on the manufacturing cost of home industries did not come down on that account, with the result that home industries and the consumers of home manufactures benefited little from it.

#### Workers Would Not Meekly Consent.

"Tried in Japan, the same cause will produce the same effect. If the yen went up as a result of lifting the gold ban, would wages, rent and freight come down? Would the workers consent to it with meekness? No, they would by no means. The manufacturing cost of industries consuming imported raw materials would fall to the extent of the reduced

price of raw materials due to the yen recovering par, but no more, because wages and other items of expense would remain the same as before.

"The price of competing foreign commodities, however, might be reduced in greater ratios, because in this case, the improved exchange would have reacted on the selling prices in their entirety. If this argument is correct, Japan, after the removal of the embargo, will see reason for more imports. Its competing power will suffer and eventually it may get into serious trouble.

"I understand the result of the free gold policy adopted by England was such as I have mentioned. But in its case there was no danger, because if it over-imported by nearly £200,000,000, it received double that amount in the shape of gold imports outside of the trade account, in other words, in the payment of its invisible exports. Thus, it has £200,000,000 still to its credit after paying off the trade balance against it.

"It does not fare the same with us. In our own case, our gold receipts outside of the trade account, or the payment of invisible exports, is not enough to cover the adverse trade balance. With a free gold system, the balance would have to be paid out of the specie reserves, and if this occurs year after year, the effect would be ruinous to the country.

#### Once Lifted, Lifted for Good.

"So, not until we can see our way clear to making both ends meet at least, should we think of lifting the ban on gold exports, artificial and unnatural though it is to keep it, because this would constitute withdrawal of the only safeguard in our present economic circumstances. The gold embargo, once lifted, is lifted for all time. There is no going back. The consequences are too serious. Hence we must be very careful. We cannot be too careful.

"Then the question arises, naturally, as to what must be done by way of preparatory measures, that is, for bringing about the condition in which the embargo may be lifted without any chance of danger. I do not see that there is any solution of a fundamental nature except the thorough reorganization of the national industry on a self-sufficing basis, seeing that the trade balance is, after all, an industrial problem. European countries are doing this with commendable results. In our case, seriously handicapped though we are, we must follow their example.

"We must conquer the difficulties by all means, or we must perish. There is no choice.

"As we look at the country now, we see the economic situation without a controlling center. Everyone is for himself, competing, wasting, killing others and ruining himself. What we have now is about the worst, which should mean that great improvement is possible if only undertaken. In case effort is made, trade conditions will improve and we may be enabled to open the dam without the chance of thinning the gold reserve.

"The argument that the gold flow will spontaneously adjust itself even if left to itself, certainly holds good between the European and American markets, where international money movement is free and unhampered, but between Japan and the rest of the world, between the East and the West, money does not flow of itself, a circumstance which mainly is responsible for the frequent call for loans in foreign countries by the government, cities and public utility corporations.

#### Gold Out Is Gold Lost.

"Between Japan, on the one side, and Europe and America on the other, there is no free operation of the law of supply and demand as understood in the sense it has in the West. The raising of the discount rate of the Bank of Japan exercises no attraction for foreign capital. With us, gold out is gold lost. It does not come back in a spontaneous sort of a way. This peculiar circumstance must be borne in mind.

"As it is, economically and financially, Japan has just started to think the thoughts of the European countries. As yet we have no controlling center of national economy, no co-ordination, no standardization, no co-operation among the bankers, among manufacturers, among traders or between any of them. Hence great waste, high cost of production, little power to compete, excess of imports and an adverse exchange exist.

"When this is the actuality, when as yet we see no indication of an approaching change of an encouraging nature, when as yet no convincing argument based on solid figures has been advanced in favor of lifting the embargo, I cannot by any means approve of such a policy at the present moment, however natural and desirable. It still is too early, I believe."

#### New Laws Reform Finances of Bolivia.

The text of five Bolivian laws relating to the public finance of Bolivia have been received by the Department of Commerce, the Department announced Dec. 17. The announcement is given as follows in the "United States Daily" in full text:

The complete text (in Spanish) of each of the following important laws dealing with the financial reorganization in Bolivia has been received by the Finance and Investment Division from the American Legation at La Paz:

1. Law of April 27 1928, authorizing the Executive Power to organize a national revenue collecting company and to make a contract with the company for the collection of taxes, income and revenues in general.

2. Laws of April 27 and May 5 1928, establishing the organic budget law, the organization of the National Treasury and the General Comptroller's Office of the Republic.

3. Law of July 11 1928, on monetary reform (Article 1 of this law provides that "the monetary unit of the Republic of Bolivia will be the Boliviano which will contain 0.54917 gram of fine gold." Article 7 states in part, "the gold dollar of the United States of America of the present weight and fineness will be legal tender in the payment of all classes of public and private debts and in payment made to the National Government, its divisions and enterprises at the rate of \$2.7399 per dollar."

4. Law of July 14 1928, authorizing the Executive Power to contract, with fiscal guaranty for account and responsibility of the prefectures (departments) and municipalities one or various loans producing an amount up to \$16,803,300.

5. Law of July 20 1928, on the reorganization of the Banco de la Nacion Boliviano.

#### Bolivian Minister Denies Charges by Paraguayan Minister that Bolivia Used Loans to Buy Armament.

Charges that loans floated in the United States by Bolivia have been used in large part to purchase armaments with which to make preparations for a war with Paraguay were

made in Washington on Dec. 16 by Dr. Juan V. Ramirez, Charge d'Affaires of Paraguay, in a statement commenting upon reports of differences between the two South American countries. The New York "Journal of Commerce," in Washington advices, Dec. 16, in reporting this indicated that a denial of these charges had been issued by the Bolivian Minister; we quote in part the account in that paper:

"Bolivia wants war," Dr. Ramirez declared, "because she is prepared for it, and it now appears that, despite world opinion which clamors for a peaceful solution of international conflicts, and despite the good dispositions of Paraguay, she is going to get what she wants."

Dr. Ramirez charged that Bolivia "in her faith in the power of force has been using a great part of the loans obtained in the United States for the purchase of great armaments in Europe, thus preparing herself against Paraguay." He emphasized that "those who made these loans are nationally not responsible for this bad application made of them, but rather those who have abused the good faith placed in the contracts."\*\*\*

#### Denies Charge.

Minister Diaz de Medina of Bolivia, when interviewed following Dr. Ramirez's statement, said that the American loans floated by Bolivia had been employed to redeem previous obligations of his Government and not for the purchase of armaments. The Bolivian Minister refused to comment on reports of yesterday's conflict at Fort Boqueron, owing to lack of official advices.

Minister de Medina in his statement said that Paraguayan claims that Bolivia was armed in preparation for hostilities were not consistent with that fact of Paraguay's attack upon the Bolivian forces at Fort Vanguardia on Dec. 6. "If Paraguay," he argued, "was so convinced that Bolivia was seeking war and was possessed of much superior armaments why did the former open hostilities?"

#### Loans for Bolivian Railroad Projects Used for Specific Purpose for Which They Were Contracted.

Leonard Kennedy, President of Kennedy & Carey, construction engineers, who are building the Bolivian Government's \$35,000,000 railroad, authorized on Dec. 17 the following in reference to newspaper statements that Bolivia is using the proceeds of recent American loans to purchase armament:

In so far as the Government's railroad project is concerned, Bolivia is using the loan proceeds for no other purpose than the specific purposes for which the loan was contracted. As late as this morning we received a cablegram dated Saturday, from Harvey Fetter, General Manager for Kennedy & Carey at Cochabamba, transmitting a large order for railroad equipment and supplies.

The fact is that the 350-mile railroad from Cochabamba to Santa Cruz, on which we are working, is going ahead rapidly and we are informed that the Government has no intention of attempting to divert the funds to other uses. Our force now on the ground numbers more than 2,000 men. The first hundred miles of track is expected to be operating in about 18 months.

#### Union Joint Stock Land Bank of Detroit Declares Extra Dividend—Proposed New Capital and New Issues of Bonds.

The Union Joint Stock Land Bank of Detroit has declared the regular cash dividend of 3% and an extra of 2% payable Dec. 31 to stock of record Dec. 24. The Detroit "Free Press" from which we quote, says:

The board has authorized the issuance of \$1,000,000 in 5% bonds to be offered some time in January.

The board also has authorized an increase in capital stock by 1,000 shares of \$100 par value, which shares have been subscribed to and will be issued as of Dec. 31, thereby increasing the capital stock from \$500,000 to \$600,000 as of the end of the year. Officials estimate that the earnings of the bank this year will set new records.

#### Assessments Upheld on Stock of Milwaukee Bankers Joint Stock Land Bank.

According to the Milwaukee "Sentinel" the way has been cleared for completing collection of \$1,200,000 in assessments on stockholders of the Milwaukee Bankers' Joint Stock Land bank, by a decision of the Circuit Court of Appeals, Chicago, made known on Dec. 14, which reverses a previous one rendered by Judge Geiger, Milwaukee. The "Sentinel" adds:

Following the bankruptcy of the bank, Col. Howard Greene was made receiver, and upon being authorized by the Federal Farm Loan Board to levy a 100% assessment on stockholders, proceeded to make such collection. Not quite half of the amount had been collected when suit was brought to block collection.

#### Holders Doubly Liable.

The Federal Farm Loan Act, it was pointed out, specifically provides that share holders of every Joint Stock Land Bank shall be held individually responsible for all contracts, debts and engagements of such bank to the extent of the amount of stock owned by them at the par value thereof, in addition to the amount paid in and represented by their shares.

The Federal Farm Loan Board, it was further brought out, determined that there was a deficit in the assets of the bank to a sufficient in the assets of the bank to a sufficient extent to warrant the 100% assessment, and authorized and instructed the receiver to collect such double liability.

#### Receiver Starts Suits.

To enforce this liability, in instances where stockholders had refused to pay the assessment, the receiver instituted a number of actions at law in the United States District Court for the eastern district of Wisconsin.

Stockholders demurred, and were sustained by the court on the ground that the right to collect the double liability belonged to the creditors of the bank and did not pass as an asset to the receiver, and that therefore the receiver could not sue. The liability, however, was not denied, by the stockholders' counsel.

The payment of the first dividend in liquidation of the Bankers Joint Stock Land Bank was noted in our issue of Dec. 15, page 3336.

#### Iowa Bank Sinking Fund Is Held Valid—Supreme Court Defeats Suit Against Law Guarding Public Money.

The Iowa Supreme Court on Dec. 14 upheld the constitutionality of the Loverein-Brookhart act, creating a state sinking fund for the protection of public money in depository banks. A Des Moines, Iowa, despatch Dec. 14 to the Chicago "Journal of Commerce" in reporting this adds:

Validity of the law had been attacked by Scott County, one of the chief contentions being that the law deprived the county of interest on its public funds and diverted this sum to the benefit of other counties.

The act provides a mutual insurance for the repayment of public money lost in the failure of depository banks with each political subdivision contributing the interest on its public funds, when needed to make up the sinking fund.

The action was brought originally, in Scott County, where it was dismissed by the District Court. The Supervisors then appealed to the Supreme Court, where the case has been pending for about a year.

In deciding the case the supreme Court confirmed itself chiefly to the question of the right of a county to claim ownership of interest accruing from public funds. On this point the court ruled that the principal of south funds emanates from the legislature and that therefore the State has power to receive the returns of interest from the funds if it so desires.

#### New York Stock Exchange Purchases Blair and Commercial Cable Buildings.

Announcement that the New York Stock Exchange had arranged to purchase two buildings whereby it will become the owner of practically the entire block bounded by Wall St., Broad St., Exchange Place and New St., was made as follows by President E. H. H. Simmons on Dec. 20 in a letter to members:

Dec. 20 1928.

To the Members of the New York Stock Exchange:

I beg to advise you that the Exchange, acting through its subsidiary, the New York Stock Exchange Building Co., has contracted to purchase the Commercial Cable Bldg. and the Blair Bldg. The Commercial Cable Bldg. adjoins the Stock Exchange on the south and extends from Broad St. to New St., with an ell on New St. running to Exchange Place. The Blair Bldg. occupies the corner of Broad St. and Exchange Place and adjoins the Commercial Cable Bldg. on both streets. By these purchases the ownership of the entire block bounded by Wall St., Broad St., Exchange Place and New St. (except the Wilks property, which has been leased for a long term) will be vested in the Stock Exchange Building Co.

The Governing Committee, after a long investigation, decided that the purchase of these buildings was necessary in order to provide for future expansion of the Exchange. As no further extension of the trading floor of the Exchange was possible as long as the Commercial Cable Bldg. and the Blair Bldg. were not owned by the Exchange, the Governing Committee decided that the Exchange should acquire title to these buildings. These purchases will permit the Exchange to enlarge its present trading floor very considerably and will also permit it to increase the facilities which it makes available to the members of the Exchange.

It gives me great pleasure to be able to announce the successful termination of the negotiations between the Exchange and the owners of the Commercial Cable Bldg. and the Blair Bldg. I believe the acquisition of these two buildings will provide for the needs of the Exchange in the future and will prove of the utmost benefit to the members of the Exchange.

Yours very truly,

E. H. H. SIMMONS, President

It is stated that the contracts were consummated through Albert E. Ponter of Brown, Wheelock Harris, Vought & Co., Inc., after negotiations extending over several months.

It is announced that, in accordance with the terms of the sale, Blair & Co., Inc., will continue to occupy its present premises for a term of years.

#### Market Value of Listed Shares on New York Stock Exchange on Dec. 1 \$66,113,255,317—Increase of Over Five Billion Dollars in Month.

On Dec. 1 1928 there were listed 1,161 different stock issues aggregating 741,680,869 shares, as compared with 1,142 stock issues aggregating 727,792,206 shares on Nov. 1 preceding. In making this known on Dec. 20 the Stock Exchange said:

Also, on Dec. 1 1928 the total market value of all listed shares was \$66,113,255,317, an increase of \$5,037,441,852 over the figure of \$61,075,813,465 for Nov. 1.

Over the same period borrowings in New York on security collateral increased \$511,923,202 from \$5,879,721,062 on Nov. 1 to \$6,391,644,264 on Dec. 1.

The ratio of Exchange member borrowings to listed share values thus increased 0.04%—from 9.62% on Nov. 1 to 9.66% on Dec. 1.

The average market value of all listed shares advanced \$5.22 per share, from \$83.91 per share on Nov. 1 to \$89.13 per share on Dec. 1.

#### Market Value of Stocks Listed on Los Angeles Stock Exchange in November Aggregated over 6 Billion Dollars.

Average market valuation for the month of November of 113 stocks listed on the Los Angeles Stock Exchange aggregated \$6,125,035,963, as against an average for 103 issues over the preceding month of \$4,623,815,686, an increase of

\$1,501,220,686, or 32% over the thirty-day period, according to a statement released by the Exchange. This statement says:

During the month of November there was listed on this market 13,401,295 shares of stock having an aggregate market value during the closing rounds of the period of \$1,220,729,224. These shares were distributed between 13 issues representing 9 companies.

Since Jan. 1 1928, but prior to Nov. 1, there was listed 4,048,153 shares of stock, representing 15 companies and distributed among 19 separate issues making a total for the year to-date of 17,449,448 shares added to the board from 23 companies and including 32 individual security issues.

These figures compare with 11 original listings during all of 1927, representing a like number of companies and aggregating 10,138,718 shares of stock. Of this amount 6,038,250 shares, or approximately three-quarters of the entire amount, were allotted to two mining concerns whose shares were of nominal market value.

The increase in market value over the month just closed for all stocks listed prior to Nov. 1 1928 stands at \$280,491,462, which with the \$1,220,729,224 added during November rounds out the combined increase in market valuation during last month over the preceding month of \$1,501,220,686.

Stocks added to the board during 1928 had, during November, an average price per share of \$77, as against \$72 for the entire list, the new listings included.

This remarkable increase in the total valuation of all securities listed and in average price per share of new listings on the Los Angeles Stock Exchange represents the most rapid growth the institution has experienced since a substantial part of the gain is accounted for by new stocks added to the trading list.

Each of the five divisions of the list shared in the increase with the miscellaneous group well in the lead. All stocks listed in this division had an average over the month of \$1,879,230,263, as against \$768,053,350 during October, an increase of \$1,113,176,913.

Oil shares were next in line with an average for November of \$2,104,957,810, as against \$1,795,110,266 for October, a gain of \$309,847,544. Banking issues moved up from \$658,180,000 to \$678,010,000, a jump of \$39,830,000.

Public Utility stocks during October were valued at \$1,296,607,334, gaining \$33,356,767 to \$1,329,964,101. Industrial shares displayed the most moderate advances, moving up from \$127,864,325 to \$132,873,789, an increase of \$5,009,464.

### Colonel Ayres of Cleveland Trust Co. Ventures Opinion That Top of Bull Market Was Reached Nov. 30—Business in First Quarter of 1929 Probably Up to Final Quarter of 1928—Danger in Loans "For Others."

Stating that it ought to be, but is not "fairly easy to forecast at this time the probable course of general business in 1929," Col. Leonard P. Ayres, Vice-President of the Cleveland Trust Co., of Cleveland, in the latter's Business Bulletin Dec. 15 says:

The reason why it ought to be a relatively simple matter to discuss now the probable major developments of business during 1929 is that 1928 has been a year of exceptionally high short-term interest rates. In former years periods of interest rates as high and as long sustained as those of this year have invariably been followed by declines in the security markets, and by recessions in general business. But in 1928 high interest rates have not been acting normally. They have in only limited degree resulted in the developments that have in former periods characteristically preceded, and partially caused, subsequent down-turns in business. They have finally resulted in a break in stock prices, but this has been so long delayed as to constitute a complete departure from previous precedent in such matters. During the past half-century the movement of short-term interest rates has been the most trustworthy indicator of the probable course of coming developments in general business, but this year its indications are peculiarly difficult to interpret.

Col. Ayres observes that "loans for others are playing an almost hidden, but an extremely important part in our present business situation," continuing he says:

They are dangerous because they are so important. This great extension of credit by corporations and individuals is in reality the exercise of a banking function exempt from all the limitations and safeguards that Federal and State laws impose on banks. The loans are extended without being affected by the automatic controls that come into force when loans are made from bank deposits, and the deposits require reserves. They are beyond the control of the Federal Reserve System. They are made by firms and individuals who are charged with no responsibility for the safeguarding of credit conditions. They have made possible this year's runaway markets, and helped sustain this year's prosperity, but there is no precedent by which to judge what influence they may exert next year.

#### Prospects for 1929.

It seems wholly probable that general business will be good in the first quarter of 1929, and this is chiefly because it is so good in the closing quarter of 1928 that its momentum may be trusted to carry it ahead at about present levels well into the new year. With something less of confidence a similar comment may be made as to the probability of good business in the second quarter of next year. The outlook for the last half of the year does not seem equally clear, and one of the reasons for this is that 1929 will probably bring to the automobile industry a degree of keen competition such as it has never before experienced.

A few years ago the Ford plants were producing almost half of all the automobiles made in the world. Then they were closed down to prepare for the new model, and they remained closed so long that the manufacturing capacity of other companies was increased sufficiently to produce all the cars that this country uses, and to take care of the rapidly growing export trade as well. Now the Ford plants have come back into production with a larger capacity than before. The contests for supremacy and for survival will be under way in the next few months. New high records for output will almost surely be established in the early months of the year, and it seems likely that they will be followed by a period of price-cutting, lower profits per car, greater difficulty in selling used cars, and smaller margins of profit for firms supplying parts and materials. It does not seem likely that the stocks of automobile companies will be market leaders in 1929.

Building construction has been declining in volume rather rapidly since September. In view of the prospects for continued high interest rates, and because of the obstacles that such rates raise against floating new bond issues and making favorable mortgages it does not seem likely that the volume of building construction will be as great in 1929 as it has been in

1928. If building is less next year one result will be to reduce the demand for iron and steel, although that industry will benefit from the large demands of the automobile manufacturers.

Probably the wisest course for the businessman is to assume that 1929 will be a good business year, but to realize that the prospects for the second half of the year are by no means as clearly favorable as those for the first half, and to attempt where possible to avoid long-term commitments that might prove unfortunate if business does slow down in the latter months.

Most of the discussion contained in this number of the Business Bulletin may be summarized in the statement that the continuation of prosperity in 1929 is dependent on the continuation of credit expansion, which appears to depend in turn on progressive increases in loans made to brokers by corporations and individuals, for in the absence of such increases the tendency of bank credit will almost surely be to contract, with consequences adverse to business. One final rash comment may be ventured, and that is that the top of the great bull market for stocks was probably reached on Nov. 30 1928.

### New York Curb Market Permits Specialists as Emergency Measure to Have Clerks on Floor.

The adoption on Dec. 10 by the Governors of the New York Curb Market of a resolution enabling specialists, under certain conditions, to have a clerk on the floor, was announced as follows on Dec. 11:

NEW YORK CURB MARKET  
113-123 Greenwich Street, New York

Dec. 11 1928.

#### To the Members.

At a special meeting of the Board of Governors held Dec. 10 1928, the following resolution was adopted:

Resolved, It is the sense of this Board that, as an emergency measure, a specialist shall be permitted a clerk on the floor of the Exchange to take effect immediately; that the specialist engaging such clerk must pay to the Exchange a registration fee of \$25 and a fee of \$100 a month in advance, which latter fee shall be paid each month; that no rebate shall be given in the event a specialist finds it necessary to discontinue the services of such clerk during any calendar month; that all such clerks be uniformed, paid for by the member, and subject to rules governing such clerks which have this day been approved and adopted by this Board, and that the approval, disapproval and allocation of such clerks shall be left entirely to the discretion of the Committee on Membership.

E. R. TAPPEN, First Asst. Secretary.

The following are the rules of the Curb Market governing clerks of specialists:

1. Medical examination and the report of the doctor submitted to the Secretary's office, which must remain on file with the application of the specialist.
  2. The privileges of such clerk are limited, such as receiving and entering orders, writing out reports, &c.
  3. It is distinctly and definitely understood that such clerk may not execute any orders; he cannot watch orders for any member, for any paid employee, or so-called lunch orders. He cannot trade for his own account, either directly or indirectly, or have an account in another broker's office. If he does and the facts are uncovered, the case will be presented to the Committee on Membership.
  4. If the privilege is once revoked by the Committee on Membership, such clerk may never be reinstated, either by his present employer or by any other member who may wish to register him.
  5. Registration fee \$25.
  6. Fee \$100 a month, to be paid in advance to the Exchange, and no rebate shall be given in the event a member finds it not necessary to continue the services of such clerk.
  7. He cannot give out quotations.
  8. All clerks must be uniformed, paid for by member, the design of such uniform to be designated by the Committee on Membership.
  9. The approval, disapproval and allocation of such clerk is subject entirely to the discretion of the Committee on Membership.
- Any member desiring to propound questions to the Committee on Membership with respect to such clerks may do so, in writing, and an official answer will be given.

COMMITTEE ON MEMBERSHIP.

### Securities Traded in on New York Produce Exchange.

With the inauguration of its securities market on Wednesday last, Dec. 19, the New York Produce Exchange presented a list of 250 securities to be traded in. The official list, which was made public on Dec. 16, is composed of 133 industrial and miscellaneous stocks, none of which is listed on either the New York Stock Exchange or the New York Curb, and have been selected largely from the over-the-counter market and from other lists, some of which are on Canadian and other secondary American stock exchanges. There are 48 bank stocks, practically all New York. There are 33 insurance company stocks, and 36 coupon bonds. In its announcement of the list, the Exchange said:

Many of the issues have been active in their respective markets in different parts of the country and Canada, and it is the belief that this should make for a fairly active market even on the opening day of trading in New York's newest stock exchange.

In the group of industrial and miscellaneous stocks there are issues representative of public utilities, industrials, oil companies, construction companies, credit companies, investment trust organizations and the like.

Regarding the first day's trading (on Dec. 19), the "Times" said:

Trading in securities on the New York Produce Exchange opened yesterday with speeches by Timothy J. Shea, Deputy Attorney-General in charge of the Bureau of Securities, and William Beatty, President of the Exchange. About 150 floor traders heard the remarks and then began bidding. Sales for the trading period, which yesterday lasted from 11:10 a. m. to 3 p. m., totaled 13,750 shares. The light dealings were a surprise, as it had been expected that 50,000 to 100,000 shares would be dealt in on the first day.

Among securities to change hands were Associated Gas & Electric, Atlantic & Pacific, Allied Power, Andes Petroleum, Bank of America, Chase National Bank, Financial and Industrial Securities, International Germanic Trust, Splittorf Bethlehem Electric and State Bank.

The first sale was made by Wagner, Winter & Co., who sold ten shares of Macfadden Publications stock at 12 3/4 to C. E. Grim. All the initial sales and most of the following sales were for cash, although in a few cases delivery was deferred until to-day.

Five shares of National City Bank stock sold at 1,308. The board lot of the new market is ten shares, compared with 100 shares on the Stock and Curb exchanges. There is also odd-lot trading in all three markets. Trading hours will be from 10 a. m. to 3 p. m.

The total sales on the new market on Dec. 20 were 22,572 shares; yesterday (Dec. 21) the total number of shares dealt in was 17,783.

The Produce Exchange, which has a ticker service, began its securities trading with five posts designed to list 250 stocks. The stocks were chosen from suggestions by the members of the Produce Exchange. Questionnaires were sent to members to ascertain their views regarding stocks to be traded in and from these replies the list was made up. The "Journal of Commerce" in its issue of Dec. 17, commenting upon the list of securities to be traded in, said:

Banks May Object.

The announcement that bank stocks and investment trust issues are to be among those listed on the Produce Exchange aroused speculation as to whether or not the companies issuing the securities would permit them to be traded. It was recalled that both the National City Bank and the Chase National Bank had requested that their securities be taken off the Stock Exchange. The reason given was that trading in bank stocks on exchanges leads to fluctuations in price which do not reflect the actual condition of the banks. This, it was held, presented a danger to the entire banking situation.

Charles E. Mitchell, President of the National City Bank, in a statement to the "Journal of Commerce," published July 13, declared:

"I think it unwise for the securities of credit institutions to be traded in markets that are speculative and which feel the influence of speculative trends. My attitude has not changed since I went on record as being opposed to the listing of National City Bank stock on the Stock Exchange."

In the case of investment trusts, it was pointed out that several of the trusts had built up large dealer organizations which at present deal in trust issues. The listing of these securities on the Produce Exchange would diminish the business of dealers, whose profits at present result from the spread between bid and asked prices. Whether the investment trusts will attempt to protect their dealers is the subject of wide discussion.

The following is the list of securities which the Exchange announced would be dealt in at the start of its new securities market:

SECURITY MARKET ON THE NEW YORK PRODUCE EXCHANGE.

Stocks, Industrial and Miscellaneous.

Table listing various stocks and securities with columns for company name and price. Includes entries like American Bemberg Corp., American Glanzstoff Corp., Airway Electric Appliance Corp., Alabama Power Co., etc.

Table listing various stocks and securities with columns for company name and price. Includes entries like Industrial Acceptance Corp., International Germanic Co., International Securities Corp., Kings County Lighting Co., etc.

Stocks—Banks.

Table listing bank stocks with columns for company name and price. Includes entries like American Exchange Irving Trust Co., American Union Bank, Banco Di Sicilia Trust Co., etc.

Stocks—Insurance Companies.

Table listing insurance company stocks with columns for company name and price. Includes entries like American Alliance Insurance Co., American Insurance Co. (Newark), Baltimore American Insurance Co., etc.

Coupon Bonds.

 Southwestern Power & Light Co. 1st Lien Gold 5s, due June 1 1943.

**Dual Memberships Held by Members of Los Angeles Stock Exchange in Los Angeles Curb Undergoes Complete Separation.**

Complete separation of dual memberships held by members of the Los Angeles Stock Exchange in the Los Angeles Curb Exchange has been approved by the members of the former institution and will become effective on January 1, Norman B. Courteney, Secretary and Manager of the Los Angeles Stock Exchange, announced on Dec. 12. The announcement says:

The Curb was organized under the sponsorship of Stock Exchange members, which were held jointly with the Stock Exchange membership. Heretofore the two memberships could not be disposed of separately.

With the split-up in the identity of the two memberships, there will be a corresponding rearrangement of seat values on the two markets. Current quotations on Stock Exchange memberships without Curb privileges are placed at \$150,000, one of five recently created treasury seats having been sold at that figure.

The latest quotation on Curb seats is \$60,000 which would place the combined total for dual memberships at \$210,000. The last sold of a dual membership brought \$175,000.

Curb membership values represent an increase since the market was established of \$50,900 while the gain in exclusively Stock Exchange seats values has ranged from a low for the year of \$22,500 to \$150,000, a jump of \$127,500, or better than 500%.

The Curb Exchange has made remarkable progress since its inception. Mr. Courteney pointed out, far surpassing expectations held for it prior to the time it was launched on June 4th of this year.

A comparison of the relative activity of the local Curb with the San Francisco Curb Exchange over the past two months reveals that during October transactions here were valued at \$23,453,164, as against an estimated total of \$30,750,000 for the northern institution.

During November the Los Angeles Curb, with a turnover valued at \$35,766,661, eclipsed the estimated total for San Francisco for the first time by approximately \$5,000,000. So far over the current month the local market has handled securities valued at \$9,401,898, as against an estimated valuation over the San Francisco board of \$8,250,000. Memberships on the San Francisco Curb Exchange are currently selling around \$90,000, \$30,000 in excess of the local Curb price.

The original quarters provided for the Los Angeles Curb Exchange have already outgrown and preparations are now under way to add some 5,000 additional square feet of floor space to the trading quarters to take care of anticipated gains in the volume of business contemplated for 1929.

The Clearing House department of the Stock Exchange and Curb Exchange, which has shared the basement of the Los Angeles Stock Exchange Building with the Curb Exchange, will be moved to other quarters shortly to allow for expansion of the Curb trading floor.

The first steps in enlarging the Curb trading floor have already been taken, one additional trading post having been installed to assist the two originally provided. A fourth post has been constructed and will be put into operation as soon as conditions warrant.

The Curb functions with an independent group of officers and administrative staff. No changes in personnel are contemplated under the new set-up.

**Outstanding Bankers' Acceptances Reach New High Total of \$1,200,355,725—Gain of \$77,608,835 since Oct. 31—Federal Reserve System Holds Nearly \$500,000,000.**

The extent to which bankers' acceptance credits are being availed of to finance the foreign and domestic commerce of the United States is strikingly illustrated in the report made public Dec. 17 by the American Acceptance Council. Robert H. Bean, Executive Secretary of the Council, reports as follows:

On Nov. 30 the volume of outstanding dollar acceptances reached a new high total of \$1,200,355,725, an increase of \$77,608,835 since Oct. 31 and \$170,865,290 more than for Nov. 30 1927.

These figures give strong support to two important occurrences of the past week, first, the statement by Dr. W. Randolph Burgess on Tuesday concerning the open market policy of the Federal Reserve System and second, the advance in the buying rate for bills, put into effect by the bill dealers on Friday, making a 1/4% spread between the bid and asked rate.

For several weeks it has been clear that the accepting banks would show

a considerable gain in their acceptance business before Jan. 1 and offer the market more bills than could be profitably handled at the rates which have been in effect since Aug. 31.

The Federal Reserve System now holds close to \$500,000,000 in bills, an important share of which came from the acceptance dealers under purchase agreements, largely because of the dealers inability to secure carrying funds from the banks at respectable rates or to find a ready market for their increasing portfolio.

With an outstanding volume of bankers bills approaching one and a quarter billion dollars, it is obvious that the time is at hand for a serious study of the situation with a view to broadening the market for bills, outside of the Federal Reserve System, which now holds, for its own account, for the dealers, and for the account of foreign buyers, more than 65% of the total volume.

A solution of the dilemma would be found if the banks, particularly the large accepting institutions, would enter the market and regularly carry a substantial secondary reserve of the bills of other banks. At the present time they hold less than \$25,000,000 in the aggregate.

The current survey shows the principal gains in bills for export transactions which have advanced \$32,000,000 and in bills based on goods stored abroad or for shipments between foreign countries, which total is now \$14,000,000 higher than for Oct. 31 and \$110,000,000 over Nov. 30 1927.

While the volume of acceptances financing the storage of goods in American warehouses has increased \$24,000,000 in one month, the new total of \$162,000,000 is still considerably below the figure of \$186,000,000 a year ago.

Direct loans by the banks against warehouse receipts have been liberally used this year to carry staple commodities awaiting shipment or domestic consumption.

This may be taken as an indication of a rather comfortable bank credit condition during the autumn season.

In other years, when bank loans for commercial purposes were not so readily available, the warehouse credit requirements have been cared for with acceptances.

For the first time, the banks of the cities of New York and Boston now have outstanding acceptance liabilities in excess of \$1,000,000,000, the only other cities with substantial amounts being Chicago and San Francisco, but the combined acceptance business of these western cities with that for Philadelphia, Cleveland and New Orleans added would not equal the volume of the Boston banks.

Foreign trade financing with bankers' acceptances naturally centres in the seaboard cities and in close proximity to the active discount markets. In New York, Boston and San Francisco there are ready opportunities for such financing and a well developed market for the bills.

Although accurate figures are not available showing the volume of bills in the London market, it is reliably estimated that the present total of dollar acceptances is very close to, if not actually more than, the volume of sterling bills in the British market.

Whether the figures for Nov. 30 represent the high level for this season will depend, to some extent, upon the reaction to the market's advance in rates. Considering the present quotations for bank loans and time money and the rates prevailing in the London market, it is not believed that the recent advance of 1/8% will check the creation of dollar acceptances. They remain the most economical type of credit for foreign trade requirements.

The statistics supplied by Mr. Bean follow:

TOTAL OF BANKERS' ACCEPTANCES OUTSTANDING FOR ENTIRE COUNTRY BY FEDERAL RESERVE DISTRICTS.			
Federal Reserve District—	Nov. 30 1928.	Oct. 31 1928.	Nov. 30 1927.

**Federal Reserve Policy Shifts Bring Rumor of Conflict—Division Within the Board Thought to Explain Changes—Meeting of Bankers Here Said to Have Led to Renewal of Acceptance Purchases.**

Division of opinion with the Federal Reserve Board was the theory advanced by several bankers in New York on Dec. 14 to explain the transformations in Reserve policy which have taken place during the past month, said the New York "Journal of Commerce," in its issue of Dec. 15, from which we also take the following:

Money brokers and others continued to profess themselves puzzled by the alternate tightening and loosening of the money market which has occurred.

The resumption of acceptance buying during the past week, which played a leading part in bringing down the call money rate from 12 to 6% within a week, is not expected to continue, but few predictions are now heard as to whether or not any substantial reduction in acceptance holdings will take place this month. Possibilities of a rise or fall in the rediscount rate during the next month are also considered quite nebulous, depending, it is said, upon the action of the stock market, the attitude of Congress toward the brokers' loan situation, and, reflecting these

two factors, the balance of power within the Reserve Board between the two conflicting groups in it.

*Explain Stock Break.*

It is generally agreed in financial circles now that the sharp break in prices which marked trading in the latter three days of last week resulted from the action of the Reserve banks. By holding the purchase of bankers' acceptances the Reserve system appeared to give notice to the public that the open market operation by which they had fed additional credit into the money market for months would come to an end. This policy, it is generally assumed here, was adopted in response to the wishes of the element on the Reserve Board which has objected to the great expansion of speculation during the past year, especially in view of the fear of Congressional investigation that might lead to legislation later on.

The rise in the call money rate to 12%, which then occurred, brought on liquidation which was doubtless more drastic than had been expected. In fact, within three days the market lost more ground than it had gained during the entire month of the so-called "Hoover" bull market. As a result, those who had been sponsoring a policy of moderate credit contraction are believed to have become uneasy at the effects of the policy which they advocated, while the advocates of a policy of easier money gained the upper hand once again in the councils of the system.

It is reported in reliable circles that a meeting of large banking interests occurred Saturday afternoon [Dec. 8] in the offices of a leading Wall Street banking house. At this meeting bankers who are on the board of the local Reserve bank and members of the advisory council are said to have been present. There, it is stated, it was generally agreed that the rapidity of the decline had tended to undermine the speculative structure, and that serious consequences were thus made possible.

It is believed that the sequel of this meeting and the division of sentiment within the Reserve Board was the resumption of acceptance buying by the Reserve Banks last Monday, thus obviating a rise in the acceptance buying rate at that time. Combined with the purchase of Government securities and the expansion of rediscounts, a total expansion in reserve credit of approximately \$35,000,000 occurred, which resulted in a rapid improvement in the condition of the call market and a drop in the rate at the end of this week to 6%, which compares with the 12% rate established at the end of last week.

As a result of the apparent floundering policy of the Reserve Banks, reflecting internal division of opinion, few bankers and money market observers care to hazard a prediction as to what will be done in the future. It is thought by informed individuals, however, that a revival of extensive speculation for the rise might result in the return to a repressive policy by the Reserve banks, since the conservative elements in the Board could then point to the danger of Congressional action again.

**Alleged Clash on Rates Between Dealers in Bankers Acceptances—Claim Unequal Reserve Policy.**

For the first time in the history of the local acceptance market two different bid rates on bankers' bills were quoted by leading dealers on Dec. 20, a result of a fight which has split the market into two strongly opposed factions, said the New York "Journal of Commerce" in its issue of Dec. 21. Regarding the controversy it went on to say:

Three houses yesterday raised the bid rate 1/8 point, while three other houses retained the old rate of 4 3/4 c. Observers in close touch with the market generally predict that the rate will be advanced by the remaining dealers, as money tightens toward the end of the month, but they are apparently satisfied with the present lower rates.

The controversy also indicated that some dealers have been finding it easier to dispose of their acceptances to the Reserve banks than have others, and the latter are the chief protagonists for a higher bid rate. The acceptance has latterly been the cheapest form of credit instrument, because of the willingness of the Reserve Banks to absorb them at the relatively low buying rate made available. But being thus dependent upon the purchases of the Reserve Banks, those who could not dispose of bills freely to the latter have met difficulty. They contend that their portfolio of bills tends to expand to dangerous proportions, putting them in a position to suffer substantial losses should the prices drop for any cause.

Quoting the recent statement of the American Acceptance Council, they point out that the Federal Reserve Bank already holds about 65% of the outstanding bills, and that there is a strong chance therefore that it will either advance its buying rate or else discriminate in its purchase of bills. They do not look to the Reserve Bank for further support.

Meanwhile, they point out the banks, according to the American Acceptance Council, hold only a small volume of bills. The raising of the bid rate by these dealers, it was indicated, is a gesture intended to express their determination not to support the market until the banks do.

The dealers who have maintained the old rate, it was learned, handled more than 60% of the business yesterday. These dealers are generally supposed to have good banking connections and to be in close touch with the Federal Reserve system.

The smaller dealers contend that those who have refused to advance the rate will find themselves burdened with overlarge investments as the money market becomes tighter.

To neutral observers the fight was interpreted as a difference of opinion between the two groups of dealers as to the future policy of the Federal Reserve Bank. One group, expecting a falling off in Reserve support, it was declared, is seeking to protect itself against an anticipated advance in buying rates, while the other, assured as to Reserve policy, remains ready to handle whatever volume of business comes their way. This difference of opinion, some contended, resulted from failure of the Reserve Bank itself to indicate precisely what its policy would be.

Forces are at work, it was learned, to bring the two factions together. The opinion was expressed that if the two sides had held informal conferences to argue their viewpoints and predictions, the present clash would have been averted. An association of dealers, some feel, would furnish a solution of the problem.

**Election of Directors of Branches of St. Louis Federal Reserve Bank.**

According to announcement of Wm. McC. Martin, Chairman of the Board of the Federal Reserve Bank of St. Louis, at a meeting Dec. 19, the directors of the parent bank elected

the following branch directors to succeed those appointed by it whose terms expire at the end of this year:

For Louisville Branch—John T. Reynolds, Greenville, Ky., for three years, and W. P. Kincheloe, Louisville, one year.

For Memphis Branch—John W. Alderson, Forrest City, Ark., three years, and W. H. Glasgow, Memphis, one year.

For Little Rock Branch—Jo Nichol, Pine Bluff, Ark., three years, and A. F. Bailey, Little Rock, one year.

The board of directors of each branch consists of seven members, four of whom are appointed by the parent Federal Reserve Bank in St. Louis and three by the Federal Reserve Board in Washington. The Managing Director is elected annually, but the other six directors serve for terms of three years each. Of the latter, the terms of one director appointed by the Federal Reserve Board and one appointed by the Federal Reserve Bank expire each year.

**Details of Subscriptions to and Allotments of 4 1/4% Treasury Certificates.**

Final figures of subscriptions received to the two issues of 4 1/4% Treasury certificates of indebtedness were announced on Dec. 20 by Secretary Mellon. The total subscriptions amounted to \$631,182,000, while the total allotments were \$520,164,000. The subscription books, as we have heretofore announced, were opened on Dec. 7 and closed at the close of business Dec. 12. The combined offering aggregated \$500,000,000, as follows: Series TS2-1929 for \$200,000,000 or thereabouts, dated Dec. 15 1928 and maturing Sept. 15 1929, and Series TD-1929 for \$300,000,000 or thereabouts, also dated Dec. 15 1928 and maturing Dec. 15 1929. Subscriptions to the \$200,000,000 issue (Series TS2-1929) were \$263,227,000, and the amount of these certificates allotted was \$209,918,500. In the case of the \$300,000,000 issue (Series TD-1929), the subscriptions were \$367,955,000 and the allotments \$310,245,500. Of the total allotments of \$520,164,000, \$39,473,500 was on subscriptions for which Treasury certificates of indebtedness Series TD-1928, TD2-1928 and TD3-1928, which matured Dec. 15, were tendered in payment. All such subscriptions were allotted in full, while allotments on cash subscriptions were on a graduated scale. The subscriptions and allotments of the two issues of 4 1/4% certificates were divided among the Federal Reserve districts as follows:

SERIES TS2-1929.			SERIES TD-1929.		
District—	Subscriptions.	Allotted.	District—	Subscriptions.	Allotted.
Boston	9,647,000	8,617,500	Boston	8,100,000	7,826,500
New York	64,388,500	48,968,500	New York	146,044,500	116,700,000
Philadelphia	13,555,000	10,778,000	Philadelphia	24,381,000	21,063,500
Cleveland	22,710,500	17,854,500	Cleveland	21,369,000	18,748,500
Richmond	16,219,500	14,866,500	Richmond	9,042,500	8,565,000
Atlanta	18,419,500	15,961,500	Atlanta	17,964,500	16,335,000
Chicago	20,161,500	16,708,500	Chicago	24,103,000	21,867,500

Dallas	19,966,000	17,141,000	Dallas	25,432,000	23,929,500
San Francisco	58,218,500	41,881,500	San Francisco	64,295,500	49,969,000
Treasury	146,500	146,500	Treasury	222,000	214,500
Total	263,227,000	209,918,500	Total	367,955,000	310,245,500

The offering of the above certificates was referred to in our issues of Dec. 8, page 3186, and Dec. 15, page 3342.

**Representative Garner Alleges Secretary Mellon Misinformed President on Treasury Figures.—Secretary Mellon Says Tax Refund Figures Were Received Too Late for Inclusion in Original Estimates.—Under-Secretary Mills Expects No Deficit at end of Fiscal Year.**

A charge made by Representative Garner, Democrat, Texas, in the House on Dec. 19, that Secretary of the Treasury Mellon had misrepresented the condition of the Treasury to Congress drew from the Secretary on Dec. 20 a statement that Mr. Garner had employed "wrong figures, which do not fit the facts."

The Associated Press advices Dec. 20, quoted Secretary Mellon as saying:

The Treasury makes a statement and has the responsibility for it. Mr. Garner makes a statement and has no responsibility.

The Associated Press (Dec. 20) added:

Under-Secretary Mills joined the discussion by declaring there would be no deficit in Government funds in 1929 "unless Congress spends more money."

Garner, in the course of a general attack on Mellon and the Treasury yesterday, declared the Secretary had sent to Congress conflicting estimates as to possible surpluses and deficits. Secretary Mellon said he could not enter into a debate with Mr. Garner, but he observed that budget estimates submitted to Congress were prepared by the Budget Bureau and not by the Treasury.

Garner had charged also that the United States Steel Corp. would receive \$65,000,000 through tax refunds agreed on through settlements with the Treasury, and Mellon reiterated his declaration that Garner's figures did not fit facts in the tax refund cases.

From the Washington dispatch, Dec. 20, to the New York "Times" we take the following:

Under-Secretary Mills stated to-day that there would be no budget deficit at the end of the fiscal year, despite the fact that \$55,000,000 would be needed for the payment of tax refunds in addition to the \$150,000,000 upon which President Coolidge based his estimate of a surplus of about \$37,000,000 in his recent budget message. Mr. Coolidge's reasoning forecast a deficit of \$18,000,000 the difference between \$55,000,000 and \$37,000,000.

*Depend on Higher Income Receipts.*

The present Treasury reckoning is that, because, of the unusual corporation and individual earnings in this calendar year, upon which taxes paid in the last six months of the fiscal year are assessed, the income tax revenues for the complete fiscal year of 1929 will be considerably in excess of the earlier estimates, and certainly sufficiently in excess of the estimates made up to this time to cover an item of \$18,000,000.

Mr. Garner further made the charge that Secretary Mellon was turning back many millions to corporations in tax refunds which should be withheld.

He forecast as one such item a repayment of \$65,000,000, which he said was to be received by the United States Steel Corp., and expressed the belief that other corporate interests were being treated more generously in this regard than was their due.

To this arraignment Mr. Mellon refused to reply at this time, although it was reiterated in his behalf that Mr. Garner's figures "did not fit the facts." The point was made that, so far as the Treasury was concerned, details of prospective tax refunds were being held confidential until a report is made to Congress, which, it is understood, will be on Dec. 27.

The report, which will be available for publication, will cover details of all of the tax refunds adjusted up to that time.

*Charge Stirs the Secretary.*

The charge by Mr. Garner that the Treasury had attempted to deceive Congress and permit the President to forecast in his budget message a surplus instead of a probable deficit in order to obtain approval of the Greek debt pact, which called for a loan to Greece of about \$12,000,000, obviously had aroused Secretary Mellon.

"As far as the Treasury is concerned," he said, "our figures are correct and we have not made any mistakes." \* \* \*

Sums required for tax refunds, it was pointed out, were estimated by the Internal Revenue Bureau, which, it was contended, had been "remarkably close" in its forecasts.

Back tax cases are now being rapidly cleared up and this has made it difficult for the Bureau to estimate to the dollar, it was said. Also it was held impossible for the Bureau to foresee what action might be taken in pending cases by the Board of Tax Appeals or the Federal Courts, and that such decisions might call for heavy outlays during a fiscal year for tax refunds which had not been anticipated within that period.

*Tell of Changed Estimate.*

The first estimates of the sum necessary for tax refunds during the fiscal year, it was stated, had been \$130,000,000, but settlements had been made more rapidly during the first four months than expected, and the Treasury and Budget Bureau, prior to the day when the President transmitted his budget message, in which he predicted a surplus of about \$37,000,000, added another \$20,000,000 for refunds, bringing the total to \$150,000,000.

The Treasury Department's contention is that after it was too late to include the figure in the budget message, the Internal Revenue Bureau reported that an additional \$55,000,000 would be required for tax refund and it was this additional request which caused President Coolidge to warn more recently that there again was danger of a deficit.

Estimates given to Mr. Coolidge by the Budget Bureau apparently did not take into consideration the fact that because of the great business activity in the present calendar year, which has considerably exceeded that of 1927, income taxes to be collected in the March and June quarters of 1929 will be much greater than the estimated income from this source.

*Saving Interest, Mills Explains.*

The budget estimates of income tax, it is understood, have been based largely upon information actually at hand—namely, the earnings of corporations in 1927—rather than what now appears to be a more accurate indicator, the business activities of 1928, concerning which complete reports are not at hand.

In discussing the desire of the Treasury Department to make payment in tax refund cases at once, instead of putting off this obligation until the next fiscal year, Under-Secretary Mills pointed out that as a result of the law passed last year by Congress the Government must pay 6% interest on all taxes from the date of collection until within thirty days of the refund. Considering the large volume of the refund, he said, this was an important item.

"If we delayed these payments and kept on paying the interest," Mr. Mills said, "Mr. Garner would be among the first to protest at such a course."

**Senate Withdraws Demand for Strict Law on Tax Refunds—Large Repayments, However, Are Under Scrutiny by Committee—Appropriation Bill Providing Funds for Prohibition Enforcement.**

The Senate on Dec. 17 receded from its demand for legislation to require the Treasury Department to seek appropriations from Congress before making refunds of taxes erroneously collected. According to the Washington correspondent of the New York "Journal of Commerce" the advices to which state:

The proposal, known as the McKellar amendment, was made a part of the Treasury-Post Office Appropriation bill and was made the vehicle in the Senate a few days ago for criticism of the amount of tax refunds reported to Congress during the past seven years.

While the Senate was voting on the conference report on the Treasury Post Office Appropriation bill, the Congressional Joint Committee on Internal Revenue Taxation was holding forth in the office of Chairman Hawley receiving reports on tax refunds from the personnel of the committee. Under the law the Treasury Department is required to report to the Joint Committee all tax refunds of \$75,000 and over, 30 days in advance of repayment to the taxpayers.

While there has been no suggestion that the consideration given these refunds by the Joint Committee is merely a routine matter that is considered to be implied in the McKellar amendment. It was learned to-day that at the secret meeting of the Joint Committee, not only did it contemplate serious consideration of the refund reports, but with respect to one such report, involving the repayment to a taxpayer of several million dollars, additional data were sought by the committee and the matter deferred to a postponed session held to-night. No publicity is given by the Joint Com-

mittee to the matters passed upon by it. It was created by law to replace the plan in operation under previous acts of throwing open Federal tax lists to the scrutiny of the general public.

*Committee Has Mandate.*

It has been explained that if the Joint Committee feels that the grounds upon which the Treasury acted did not justify the refunding of taxes collected, it could certify to the Department the fact that in whole or in part the refund should not be made. There can be no disobedience of any such order since after all, the Treasury Department must later go to Congress for an appropriation to cover the expenditure, and even though a majority of the committee might be inclined to gloss over such a case, it would be found that one or more members would not be quite so sympathetic. Thus, it is declared, the interests of the Government are carefully safeguarded.

The mere fact that close scrutiny is being given to a particular case would not mean that there was any criticism of it, but rather that the amount involved is so large that the committee members would want to fortify themselves with facts with which to back up their decision in the event that after the refund has been made, the action should be criticized by Congress.

The big fight incident to the consideration of the conference report to-day was over the prohibition amendment that had been written into the bill in the Senate by the supporters of Senator Bruce (Maryland). This amendment increased to \$270,627,384 the \$13,500,000 fund for enforcing prohibition by the Treasury Department. A roll call was demanded and by a vote of 38 to 35, the smaller amount, as proposed by the House was adopted.

The Bruce amendment [carried in the bill as it passed the Senate Dec. 13] had the support of the dries in the Senate who are disappointed with the alleged failure of the Government to enforce the prohibition laws and of the wets who declared that funds should be provided for real prohibition enforcement, the theory being that the general public would soon become dissatisfied with the law because of the great activity that would follow the granting of so large a fund to the Government officers.

*Some Increases Opposed.*

Not all of the increases made by the Senate in the bill as it passed the House were accepted. The House declined to approve a \$6,000 appropriation for an additional assistant treasurer, and it opposed an additional \$250,000 fund to be added to the \$23,000,000 provided for the carriage of foreign mails by steamship and aircraft; compromised on \$4,300,000 for the movement of foreign-going mails by aircraft, making the amount allowable for such contracts not to exceed \$5,100,000; compromised on railway mail pay to employes at \$59,300,000, a reduction of \$200,000 from the Senate's proposal, and \$19,400,000 for vehicular allowance, refusing to increase the \$215,500 that had been authorized for studies of rural sanitation.

It was intimated at the Capitol to-day that had the Senate conferees not been willing, and it is not believed they put up any great amount of opposition, to agree to the rejection of the McKellar tax refund amendment there would have been no agreement on the appropriation bill. As it is, the conference report now goes to the House of Representatives, and it is not believed there will be any disapproval voiced in that body.

**Stewart Browne of United Real Estate Owners Criticizes New York City Budget—Extravagant Expenditures Made from Taxes Collected Principally from Realty Owners.**

A saving of \$45,000,000 in the budget of the City of New York, could, according to Stewart Browne, President of the United Real Estate Owners', "be saved without the slightest detriment to efficiency" with the repeal of mandatory salaries and positions. Mr. Browne spoke thus at the annual meeting of the Association held at the Biltmore on Dec. 10. His criticisms of the Government of the City were as follows:

The 1929 budget as finally adopted is \$600,000,000 and not \$538,000,000 as promulgated by the Board of Estimate.

I cannot understand why the Administration should not in the budget tell the truth, the whole truth and nothing but the truth, when it knows that the public don't know what the budget total is, and if it did know, wouldn't care. All the public cares about is to be let alone to make money in any old way.

The present and past Mayors have admitted that their budgets are entirely too high, but all place the blame on mandatory financial legislation affecting New York City, passed by a Republican majority in the New York State Legislature.

Every such mandatory law originated with the City and County Government of New York City. Every such law now on the statute books could have been vetoed by the Mayor for the time being. Every such law could have been repealed by any City Administration, but no such law was even attempted to be repealed and never will be. It is too good an excuse for willful squandermaniacal extravagances.

The City employes that are hard-working and conscientious get the smallest salaries and those that are "political worker" employees get the largest salaries.

Repeal mandatory salaries and positions and \$45,000,000 could be saved without the slightest detriment to efficiency.

Take this 1929 \$600,000,000 budget. The new year will no sooner be ushered in then the Board of Estimate will every week during 1929 increase the salaries of its political worker employes to the tune of about \$4,000,000. The money for which is found by taking moneys that should be credited to the "General Fund" to reduce taxation.

In 1921 we had a bill introduced in the State Legislature which became law, prohibiting increasing salaries between budget periods. But the Home Rule Law was no sooner passed than the Municipal Assembly repealed the law, and ever since the Board of Estimate has continued weekly to "grind out" salary increases. Why shouldn't it? It isn't the Board members' money and those who pay, don't seem to care a "hoot."

The Board of Estimate don't seem to realize that it is trustee for the taxpayers. No relief against such extravagances can be obtained from the courts. The courts only recognize fraud, illegality or unconstitutionality. Abuse of discretion, gross extravagance, stupidity, nepotism may exist, but the only remedy for these abuses is at the political polls. The courts cannot undertake to run the City of New York.

The 1929 budget high points are as follows:

Clerks	\$8,251,000	Phones	\$900,000
Inspectors	6,678,000	*Chauffeurs	800,000
Bookkeepers	5,527,000	Axeman and Rodmen	792,000
Motor Supplies	2,888,000	Contingencies	700,000
Engineers	2,778,000	Transportation	500,000
Stenographers and Typists	2,424,000	Phone Operators	300,000
Draftsmen	1,824,000	Motor Repairs	175,000
Mechanical Engineers	1,407,000	Motor Storage	41,000

\* Not including Police and Fire.

In only two or three of the departments is there a proper check on the incomings and outgoings of City employees. The day before, and the day after legal holidays many of the departments are denuded of employees.

In most departments employees use the City phones on private calls and even send telegrams on private business over them.

The city gets the moneys for its extravagant budgetary expenditures principally from the taxes collected from the realty owners, and these taxes are based upon the assessed valuations of realty as fixed by the Deputies, who annually make it their business to increase the land and building values.

The basis for assessed valuations is not as a rule, to-day's actual values, but "the city needs the money values." The City Charter does not protect the realty owner. It permits any value to be placed on each individual property and the owner must prove that such value is wrong. But there is nothing in the Charter that provides as to how such shall be done, and each Commissioner before whom assessed valuation appeals are heard, uses his discretion. Some assessed valuations are too low. Most valuations are too high, because while there are 800,000 parcels of realty, there are very few appeals.

The great mass of realty owners never kick until they get their increased tax bills and then it's too late, and that goes on year after year.

The City Administration will spend every dollar it can lay its hands on by taxation and otherwise. The realty owners can prevent this if they will act as a body. Will they ever do this? I doubt it.

We are sending out appeal blanks to realty owners generally to be used for appeals against the 1930 assessed valuations, and we have drafted a bill and intend having it introduced in the Municipal Assembly to amend the City Charter as regards appeals against realty assessed valuations by compelling recognition of local land inequalities, rentals, and prohibiting future potential values being considered as actual present values.

Another source of city extravagance is in connection with public improvement contracts.

We have just discovered that in the Hyland and Walker Administrations the prices and specifications of public improvement contracts when payable by assessment are never checked by either the Board of Estimate engineers whose salaries aggregate \$203,000 per annum or by the Comptroller's engineers whose salaries aggregate \$103,000 per annum.

The Secretary and the Chief Engineer of the Board of Estimate say that such checking has never been done because of an opinion given by the then Corporation Counsel in 1906 and the Comptroller says he has no power under the City Charter.

The two former are wrong as the opinion is silent upon the point and such checking has been done in previous Administrations; and while the latter may be right, previous Comptrollers have had their engineers check the specifications and prices of every proposed contract before being approved by the Board of Estimate. Probably \$250,000,000 a year has been paid in excessive prices due to these negligent practices.

Connolly-Phillip's excessive price sewer contracts never would have been possible, but for negligence on the part of the Board of Estimate.

The Board of Estimate methods in connection with public improvement contracts payable by tax notes, corporate stock and bonds have practically eliminated "competitive bidding" and substituted "collusive bidding." The methods employed have probably cost the taxpayers \$100,000,000 a year more than they would have, had the Federal Government's methods been employed.

"Public bidding" should apply to call contracts over \$1,000. The specifications and prices of every proposed contract should be checked by the Board of Estimate's engineers before being approved by the Board of Estimate and after the bids are in, all such bids should be checked by the Board of Estimate engineers and the Comptroller's engineers and the Board of Estimate then, and not until then, authorize that the contract be awarded to the lowest bidder or thrown out altogether and readvertised.

This would probably increase Board of Estimate and the Comptroller's engineers' salaries \$250,000 or so, but it would save \$100,000,000 on public improvement contracts.

\$10,000,000 was spent to elect Hoover and defeat Smith. Why do people contribute \$5,000,000 to keep the "Ins" in and get the "Outs" in? What do these contributors expect to get for their money? Salaried positions, Contracts, Pull or what?

The curious thing is that after every election, whether it be Federal, State or Municipal, the Public who contribute to both campaigns take not the slightest interest in seeing that the Government elected "runs straight."

They disappear into their respective holes as if they never existed and then come out again at the next election.

No wonder the late President Roosevelt said that "the American People are completely lacking in Civic Righteousness."

We also give herewith the following letter from William H. Allen, Director of the Institute for Public Service, published in the New York "Journal of Commerce" of Dec. 20:

New York, Dec. 15 1928.

Editor of the "Journal of Commerce":

Sir:—Of all chickens that come home to roost, I doubt if there is any which can beat the newspaper headline and editorial figure.

In spite of all that has been done to enlist the co-operation of editors in giving the public the truth about next year's city budget, every newspaper in town has, since yesterday, spoken of the "enormous budget of \$539,000,000," which prompted the Union League Club to action for permanent citizen fact-finding.

Yet the real budget is \$600,000,000, if we are to believe the Mayor's Committee of 477, the experts hired by its finance committee for \$60,000, Comptroller Berry, Alderman Pratt, &c., not to mention the budget itself and summaries of it which were given repeatedly to the newspapers.

Even the "World's" "budget pie," in a recent Sunday story, split up only \$539,000,000.

Now that there is a prospect of citizen fact-finding on an adequate scale, besides several other prospects of getting at the facts about city administration, won't you help Father Knickerbocker understand that his pocket money next year is \$60,000,000 larger than the sum which early headlines and the earnest desire of city spenders have fixed in the public mind?

WM. H. ALLEN, Director Institute for Public Service.

### Union League Club Sees "Waste" in Budget—New York Offers to Join Others in Obtaining Experts to Examine City Figures Annually—Committee to Be Named.

In the belief that the city's 1929 budget of \$539,000,000 can be reduced very considerably by the elimination of various items which are characterized as "annual waste," the Union League Club made public a statement on Dec. 14 in which it was set forth that the club would be willing to

co-operate with civic organizations in an effort to save some of this money. The "Times" of Dec. 15, from which the foregoing is taken also says:

The Chamber of Commerce of the State of New York, Merchants Association of New York, Citizens Union and City Club were specifically mentioned in a resolution as civic bodies with which the club would be glad to co-operate in this movement.

The resolution was adopted at a general meeting on Thursday night, when it was pointed out that, because of the complicated figures composing the budget, the work would require continuous and intelligent study on the part of a non-partisan, fact-finding organization rather than a few individual citizens.

The resolution was introduced by Thomas C. Desmond, Chairman of the Committee on Public Affairs, and seconded by William H. Sage of the same committee.

The resolutions declare:

Whereas the proposed budget of the City of New York for the year 1929 approximates the enormous sum of \$539,000,000; and

Whereas various people of high standing who have had occasion to study the situation have indicated in public statements that probably great savings could be made for the taxpayers by the elimination of various items of annual waste; and

Whereas to bring about such savings will involve continuous and intelligent study of the complicated figures composing the budgets, which would be quite beyond the capacity of a few individual citizens; now, therefore, be it

Resolved, That the Union League Club of the City of New York expresses its willingness to join with other organizations, such as the Chamber of Commerce of the State of New York, the Merchants Association of New York, Citizens Union, City Club and others, in securing a non-partisan and fact-finding organization, with experience and expert knowledge for the purpose of examining the annual budgets of the city and to follow up the contracts and expenditures under the appropriations made, so that there may be assurance not only that the money is properly appropriated but also properly and economically expended; and be it further

Resolved, That the President of the club is hereby authorized to appoint a committee of five members to confer with officers of other organizations on the above subject, said committee to report to the club as soon as feasible as to the practicability of the plan herein proposed; and be it further

Resolved, That nothing in these resolutions shall be construed as committing the club to any financial responsibility without further action and approval of the executive committee.

The members of the committee on public affairs besides Mr. Desmond and Mr. Sage are Henry H. Abbott, William W. Barbour, Harrison K. Bird, Robert W. Boynge, George T. Brokaw, Richard W. Lawrence, William H. Sage, Henry L. Stoddard, Louis W. Stotesbury, William L. Wemple, George B. Wightman and Phelps Phelps, Secretary.

### Incorporation of Panama-American Trust Under Laws of Panama—To Have New York Agency.

The Panama-American Trust Co. has been incorporated under the laws of Panama with an authorized capital of \$500,000 divided into \$100 par value shares, to be sold at \$150 per share, thus creating a surplus of \$250,000. It is learned that there is no local trust company in Panama; the commercial banking field is covered by the National Bank of Panama, all of the stock of which is owned by the Republic of Panama, and by branches of outside banks. While the principal office of the new trust company will be in Panama City, a majority of the directors will be citizens of New York. A branch office will be opened in Colon and there will be an agency established in New York City and Washington as soon as the company can qualify. The organization committee consists of A. Havens Bowditch, Frederick E. Farnsworth, John F. O'Hagan, Jost Von Wendenhoff, C. G. McClellan, George W. Platt and Louis K. Purdom. The Panama Holding Corp., which will act as the securities division of the new trust company, is in charge of the organization details, with offices at 516 Fifth Ave., New York City. It is stated that a considerable volume of trust business has already been offered the organization by American firms and individuals with property interests in Panama or who ship goods there.

### Bank of Italy With Security Company Will Have Capital Funds in Excess of \$500,000,000—World's Largest Banking Capital.

Noting that there is a significance in the recent incorporation of Bankitaly Co. of America in Delaware that has escaped attention, the "Wall Street Journal" adds "it is part of a plan that will lead to the largest single aggregation of banking capital in the world. The paper quoted, also had the following to say in its issue of Dec. 17:

The newly incorporated company takes the place of the National Bankitaly Co. of California, having total capital resources of more than \$100,000,000. The latter is the security affiliate of the Bank of Italy National Trust & Savings Association of San Francisco. Into this new company will be merged the Bankitaly Corporation of New York having a present capital investment of about \$300,000,000 making together a security institution with more than \$400,000,000 of capital funds.

Thus, the Bank of Italy, with its own \$105,000,000 of capital and surplus, etc., and its new affiliated security institution, Bankitaly Co. of America, will represent a combined capital investment in excess of \$505,000,000.

Some idea of the capital strength of this banking organization may be gathered from the fact that the National City Bank and National City Co., after present proposed capital increase is put into effect, will show combined capital funds of \$311,000,000. Chase National Bank and its security affiliation, the Chase Securities Corporation has indicated capital funds of \$177,400,000.

Trans-America Corporation.

In addition to the steps to consolidate the Bank of Italy capital resources, it is planned to bring under the control of a single institution the various A. P. Giannini corporate enterprises. This institution is to be known as the Trans-America Corporation. Arrangements are now under way to

bring the several enterprises in on an equitable stock basis, the idea being to have the Giannini interests extending across the continent, represented on the market in a single security which, it is calculated, will result in a better stabilization of the stock. Besides the Pacific Coast concerns already mentioned, the Giannini interests include: Bankitaly Mortgage Corporation, Americommercial Corporation, California Joint Stock Land Bank, Pacific National Fire Insurance Co. and Bankitaly Agricultural Credit Corporation.

Corporation, Americommercial Corporation, Insurance Co. and Bankitaly Agricultural Credit Corporation.

Other Giannini affiliations include Bank of America N. A. of New York with resources of about \$400,000,000; Banca d'America e d'Italia Corporation of Milan, Italy, with assets of about \$68,000,000; Bank of America of California, \$400,000,000, and miscellaneous California banks, \$50,000,000.

Bank of America of California, mentioned above, is projected amalgamation of United Security Bank & Trust Co. of San Francisco and Merchants National Trust & Savings Bank of Los Angeles, each with resources of about \$200,000,000. Plan of consolidation covers state wide branch banking system under state charter. Merchants National has 36 offices in Los Angeles and adjacent territory. The two merging banks have 90 offices in 50 cities and towns, in addition to about 60 independent banks and banking offices controlled by United Security and which are to be taken in.

#### Proposed Merger Plans.

While process of bringing the various Giannini interests into the fold of the Trans-America Corporation is under way it probably will be some time before this organization is fully completed. Official steps have already been taken to bring certain institutions, such as the Bank of Italy and Bancitaly Corporation under direct stock control. For instance, for each share of Bank of Italy there will be exchanged one and three quarters shares of Trans-America and the Bankitaly Corporation will go into the organization on a share for share basis. These plans will be consummated at a meeting to be held here on December 19. The other organizations will be brought in from time to time, not by any arbitrary methods of amalgamation, but by invitation to the stockholders.

Size of Trans-America Corporation will depend upon the extent to which the various concerns come into the organization. Their complete inclusion would represent total assets exceeding \$2,000,000,000.

#### Bank of Italy Largest Unit.

As projected, Bank of Italy will account for almost 75% of the total resources over which Trans-America will have present control. As of June 29, last, this institution's assets totaled \$804,675,525. Its outstanding capital was \$50,000,000, represented by 2,000,000 shares of \$25 par value, and surplus and undivided profits \$54,759,004. Bankitaly Corporation including its real estate investment subsidiary, Capial Co., the second largest unit, had resources of \$294,943,950 on July 19, last, with outstanding capital of \$130,000,000, represented by 5,200,000 shares of \$25 par value, and surplus and undivided profits of \$149,971,328.

Earnings of Bank of Italy in the first half of this year were about \$11,000,000, almost double half-year dividend requirements at the rate of \$6 annually. Bankitaly in the first half earned \$35,233,500 equal to \$6.74 a share on the 5,200,000 shares outstanding.

#### Initial Trans-America Capital.

Trans-America will have initial authorized capital of \$250,000,000, represented by 10,000,000 shares at \$25 par stock. On the basis of exchange of shares proposed to the principal Giannini companies, Bank of Italy, and Bankitaly Corporation, its outstanding capital will comprise 8,700,000 shares, or \$217,500,000.

Dividends on the new Trans-America stock will be at the rate of \$4 annually, an increase of \$1.76 a share over that paid on Bankitaly stock and an equivalent of \$7 on Bank of Italy stock, on which annual payments of \$6 had been made heretofore. This calculation, however, does not give consideration to extra disbursements made from time to time by these institutions. These it is likely, will be more than offset by additional payments to be made by Trans-America, as earnings warrant, and in accordance with past liberal Giannini policies.

#### ITEMS ABOUT BANKS, TRUST COMPANIES, ETC.

The New York Coffee & Sugar Exchange membership of Milton E. Hillman was reported sold this week to Gerard La Centra for \$21,250, a decline of \$500 from the last preceding sale.

At a special meeting of the board of directors of the International Acceptance Bank, Inc., on Dec. 20, a plan was in principle approved providing for an exchange of International Acceptance Bank, Inc., stock for the stock of the Bank of the Manhattan Company. The plan, according to the announcement made in the matter, is not to merge the two institutions, but rather to merge the two groups of shareholders by exchange of securities, maintaining the International Acceptance Bank, Inc., as a separate and distinct institution functioning as it does today. The announcement also states:

The shareholders of the International Acceptance Bank, Inc., will receive one share of Bank of the Manhattan Company stock in exchange for two shares (50% paid) of International Acceptance Bank, Inc., stock. The plan accordingly involves an increase of the stock of the Bank of the Manhattan Company from 160,000 shares to 222,500 shares. The capital will become \$22,250,000 with surplus and undivided profits of something over \$40,000,000 and total capital resources of more than \$62,000,000.

The full details of the plan and the arrangement of the directors have not yet been made known, but it is learned that in all probability a number of directors of the International Acceptance Bank, Inc., and the International Acceptance Trust Co. will join the board of the Bank of the Manhattan Company. The officials of the Bank of the Manhattan Company will remain the same except that Paul M. Warburg, Chairman of the board of the International Acceptance Bank, Inc., will become Associate Chairman of the board of the Bank of the Manhattan Company. J. Stewart Baker, President of the Bank of the Manhattan Com-

pany, will become a Vice-Chairman of the board of the International Acceptance Bank, Inc. F. Abbot Goodhue will remain as President of the International Acceptance Bank, Inc., and will become a member of the board of the Bank of the Manhattan Company.

It is further part of the plan that a new company, to be known as the International Manhattan Co., Inc., or by a similar name, will be organized to do a general investment banking business and to take over and carry on the securities and issuing business hitherto conducted by both institutions. James P. Warburg will be President of this company, and will also become a director of the Bank of the Manhattan Company. It is likewise announced:

When this plan is consummated a combination will result which should hold an outstanding position in both the domestic and foreign fields. For, whereas the Bank of the Manhattan Company has been developing rapidly along branch banking lines and building up domestic deposits, the International Acceptance Bank, Inc., has been specializing in International Banking and is considered one of the leaders in this field. Furthermore, the International Acceptance Bank, Inc., has during recent years taken a prominent part in the issuance of new securities, which business will be taken over by the International Manhattan Company, Inc., and combined with the security business now carried on by the Bank of the Manhattan Company throughout its branches.

The "Times" in noting that the development of the plans will result in bringing under centralized control banking resources totaling approximately \$500,000,000, said in part:

The latest statement of the Bank of Manhattan, issued as of Sept. 28, showed total resources of \$365,190,675. The International Acceptance Bank, Inc., at the time of its statement last June, had total resources of \$121,317,562, while its subsidiary, the International Acceptance Trust Co., had resources of \$15,114,659.

The combination of interests represents one of the most important financial expansions that has taken place in Wall Street this year. Through it the Bank of the Manhattan Company, which has built up one of the most comprehensive branch banking systems in New York City, with about fifty offices in Manhattan, Brooklyn, the Bronx and Queens, but whose operations heretofore have been mostly confined to interests in this city, now enters the foreign field on an extensive scale. International Acceptance has important connections in most of the capitals of Europe. The all embracing charter of the Bank of the Manhattan Company permits it, among other things, to act as a holding company, giving it the right to own the stock of International Acceptance. In addition to its entry into the foreign field, the Bank of the Manhattan Company also will develop on a large scale the underwriting and handling of new securities.

The union of these two banks is particularly interesting in that it brings together two organizations that bear the characteristics of family institutions. For the last 35 years the management of the Bank of the Manhattan Company has been in the hands of the Baker family, who have been largely responsible for its growth and development. On the other hand, the International Acceptance Bank, Inc., is generally considered a Warburg institution due to the fact that Paul M. Warburg organized it in 1921. It is a curious coincidence that the firm of M. M. Warburg & Co. of Hamburg, which is the most intimate relation of the International Acceptance Bank, Inc., was founded by the ancestors of the Warburgs in 1798 and that one of the original stockholders of the Bank of the Manhattan Company, when it was founded in 1799, was Stephan Baker, the great-grandfather of the present President of that institution.

At the weekly meeting of the executive committee of The National City Bank of New York held this week, Leo N. Shaw and George Whitlock were appointed Assistant Vice-Presidents, and Guy Holman was appointed Assistant Cashier. The appointment of Henry Mann as Assistant Vice-President was also announced by The National City Co. following the meeting of the directors.

C. S. McCain, President of the National Park Bank, of New York, announces that Richard C. Piper has been selected Assistant Cashier of the bank, to be in charge of the Seventy-fourth St. Branch, at Seventy-fourth St. & Broadway. Mr. Piper has been with the bank for seven years.

It was learned last night on reliable authority that negotiations have been pending for some time and have now practically been completed for the merger of the State Bank and Trust Co. and the Interstate Trust Co. of this city into the Manufacturers Trust Co., thus projecting a new and larger Manufacturers Trust Co. with total resources of over \$500,000,000 and having aggregate deposits of well over \$400,000,000. Announcement of the merger terms is expected to be made within the next few days.

The Manufacturers Trust Co. at present has thirty offices located throughout Greater New York, while the State Bank and Trust Co. has seventeen offices and the Interstate Trust Co. eight offices in metropolitan New York. Thus, the merged institution will have fifty-five offices. Announcement is also expected to be made of an increase in the capital stock of the Manufacturers Trust Co., with rights to be

issued to stockholders of this institution prior to the actual putting through of the consolidation. These details also have yet to be put in final form. The Manufacturers Trust Co. had exceptional development under Nathan S. and Ralph Jonas. Nathan S. Jonas is President; Henry C. Von Elm, Chairman of the Executive Committee, and James H. Conroy, Exec. V.-Pres. The Manufacturers Trust Co.'s affiliation with the Financial and Industrial Securities Corp. has been of advantage in the development of the trust company. The last condensed statement of the condition of the Manufacturers Trust Co., issued as of Oct. 1 1928, showed total resources of \$355,915,824, and deposits of \$275,821,005. The State Bank and Trust Co., of which Harold C. Richard is President, reported as of June 30 1928, total resources of \$117,735,110, and deposits amounting to \$100,632,576. The Interstate Trust Co., which is the newer of the three institutions participating in this merger, and was founded by George S. Silzer, former Governor of New Jersey, and associated, showed on June 30 1928, total resources of \$57,631,391, and deposits of \$40,930,011. The Manufacturers Trust Co. had its inception in September 1905, when the Citizens Trust Co. of Brooklyn was organized with a capital of \$500,000. Seven years later, through the energetic efforts of Nathan S. Jonas, President, and his brother Ralph Jonas, counsel for the company, there developed the first of a series of banking mergers. In 1915, about a year after the merger with the Manufacturers National Bank, the name of the enlarged institution took its present form. Within 23 years, it has absorbed 13 major banking organizations, several of which were themselves combinations of two or three individual banks. Among these banks which form the present Manufacturers Trust Co. are: Citizens Trust Co., Broadway Bank, Manufacturers National Bank, West Side Bank, Ridgewood National Bank, North Side Bank, Industrial Bank, Columbia Bank, Yorkville Bank, Fifth National Bank, Gotham National Bank, Commonwealth Bank, Standard Bank, United Capitol National Bank and Trust Co. A meeting of the stockholders of the State Bank and Trust Co. will be called shortly to rescind the action for a capital increase previously voted.

The proposed merger of the Seventh National Bank of this city into the Municipal Bank & Trust Co. of Brooklyn became effective on Dec. 21. Simon H. Kugel is Chairman of the board of the combined institutions and Samuel Barnett is President. The following new names appear on the board of directors: Julius Blauner, Harry H. Reyman, Arnold Gottlieb, Jacob De Jung, Joseph D. R. Freed and Louis M. Rabinowitz. An item regarding the proposed merger appeared in these columns Oct. 13, page 2045.

Francis D. Bartow, a partner in J. P. Morgan & Co., was elected a director of the Corn Exchange Bank of this city on Dec. 19.

The American Exchange Irving Trust Co. of New York announced on Dec. 21 the appointment of William I. Rosenfeld of William I. Rosenfeld & Co., 604 Fifth Ave., as a member of the advisory board of the company's 49th St. office at Seventh Ave. and 49th St.

At the meeting of the Board of Trustees of the New York Trust Co. on Dec. 19 George Munsick was appointed a Trust Officer and William N. Beebe and Myron B. Griswold Assistant Treasurers.

The directors of Bankers Co. of New York, a recently formed subsidiary of Bankers Trust Co., have elected the following officers: J. Howard Eager, E. F. Dunstan, and J. F. Grimm, Vice-Presidents; B. P. Leeb, F. M. Hampton, and W. Laud-Brown, Assistant Vice-Presidents. Mr. Eager, Mr. Dunstan and Mr. Grimm were formerly Assistant Vice-Presidents of the company; Mr. Leeb was formerly Sales Manager, Mr. Hampton, Syndicate Manager, and Mr. Laud-Brown, Sales Manager of the Fifth Avenue Branch. The formation of the Bankers Co. of New York was referred to in our issues of Oct. 20, page 2185 and Nov. 3, page 2457.

The Directors of the Central National Corp. have declared an initial dividend of 75c. per share on its Class A stock. The Central National Corp., with capital and surplus in excess of \$3,000,000, was formed earlier in the year by interests affiliated with the Central National Bank of the City of New York. The purpose of the Corp. is to deal in securities; to render investment and statistical service, &c. to the bank's depositors, stockholders, and others.

Col. Herbert H. Lehman, Lieutenant Governor-elect, resigned on Dec. 19 as director of the Fidelity Trust Co. of New York. In his letter of resignation to the Board of Directors of the Fidelity Trust Co. he said: "In view of the fact that on the first of January I will undertake my new duties in Albany, I feel that it is advisable for me to resign." The resignation was accepted with deep regret. Arthur Lehman, his brother, and a member of the banking house of Lehman Bros., was elected to succeed Col. Lehman.

Richard Edie, Jr., was elected a Director of the Murray Hill Trust Co. of this city on Dec. 12. Mr. Edie is President of the Westchester Trust Co. of Yonkers; Treasurer, Alexander Smith & Sons Carpet Co.; Director, Westchester Title & Trust Co., White Plains and Director W. & J. Sloan, New York.

Frank L. Polk was elected a Director of the Bowery Savings Bank of this city on Dec. 12 to succeed H. Blanchard Dominick, recently resigned because of ill health.

Bernard K. Marcus, C. Stanley Mitchell and Saul Singer, the committee for stockholders of the Bank of United States and City Financial Corporation, announce that the "Unit" plan is now operative for the combination of the interests of stockholders of both institutions. The time for depositing stock of the Bank of United States and City Financial Corporation under the "Unit" plan expired Dec. 15. Transfer books for deposit receipts were permanently closed on Dec. 20. Deposit receipts may be exchanged for units of Bank stock and Bankus Corporation stock on and after Dec. 21 at the Bank of United States, 535 Fifth Avenue, New York City.

Stephen Paul of the J. Henry Schroeder Banking Corporation has been elected President of the Foreign Exchange Club, succeeding L. B. Heemskerck, Vice-President of the Bank of America, N. A. Other officers elected for the year 1929 are F. A. Klingsmith of the Bankers' Trust Company and Archie Lochhead of the Chemical National Bank, Vice-Presidents, and R. B. Raymond of the U. S. Mortgage & Trust Co., Secretary and Treasurer. Four members were elected to the Executive Committee. They are L. B. Heemskerck of the Bank of America N. A., S. E. Ruth of the Philadelphia National Bank, Franz Meyer of the National Bank of Commerce and G. A. Polsey of W. A. Harriman & Co.

The Harriman National Bank and Trust Company of this city announces the establishment on Dec. 15 of a Thrift Department paying 4% on deposits. A feature of this new Department will be the unusual banking hours of the bank, from 8 a. m. to 8 p. m., every business day, including Saturday.

The Central Union Trust Company of this city on Dec. 17 appointed O. M. McCullough as field representative for the Southern States. Mr. McCullough was formerly an Assistant Vice-President of the American Trust Company of Charlotte, N. C.

Percy H. Johnston, President of the Chemical National Bank of this city, was elected a trustee of the Seamen's Bank for Savings of this city on Dec. 11.

Richard Edie, Jr., President of the Westchester Trust Company of Yonkers, New York, Treasurer of the Alexander Smith & Sons Carpet Company, a director of the Westchester Title & Trust Co. of White Plains, New York, and a director of W. & J. Sloan, New York, has been elected a director of the Murray Hill Trust Co. of New York.

Announcement is made of the election of four new directors to the Board of the Richmond Hill National Bank of New York, as follows:

Victor C. Bell, Chairman of the Board of Sonora Phonograph Company and Vice-President of A. D. Mendes & Co.

Arthur F. Lafrentz, First Vice-President of American Surety Co.  
Jacob Post, Chairman of the Board of the First National Bank of Rockville Center and a member of the boards of Citizens National Bank of Freeport and Hampton Bays National Bank.

John S. Snelham, partner of Deloitte, Plender, Griffiths & Co.

Frank H. Wright and Merton E. Ober, heretofore Cashier and Assistant Cashier, respectively, of the Second National Bank of Boston, Mass., were promoted to Vice-Presidents of the institution at a meeting of the directors on Dec. 19, according to the Boston "Transcript" of that date. Mr. Wright, who is Secretary of the Boston Clearing House Association, has been connected with the Second National

Bank since it took over the Suffolk National Bank in 1903, having served as Assistant Cashier previous to becoming Cashier. At the same meeting the directors declared an extra dividend of 1% in addition to the regular quarterly disbursement of 4%. Both dividends are payable Jan. 2 to stockholders of record Dec. 26. The bank has maintained an annual dividend rate of 16% since 1919. Continuing the "Transcript" said:

The institution is closing one of the most profitable years in its recent history and several months ago completed the charging-off of all known losses. The directors to-day credited a substantial amount to the undivided profits account, increasing that item to \$1,611,000, of which \$1,000,000 will be transferred to surplus. The capital then will stand at \$2,000,000, surplus will be \$4,000,000 and undivided profits \$611,000. The bank's statement of condition as of Oct. 31, last discloses a new high record in the volume of deposits, amounting to \$38,150,300 as against \$36,909,632 as of Dec. 31 1927, and \$36,558,382 at the close of 1926.

Proposed consolidation of the National Globe Bank and the Mechanics' Savings Bank (affiliated institutions) of Woonsocket, R. I., with the Rhode Island Hospital Trust Co. of Providence, R. I., was announced on Dec. 3. According to the Providence "Journal" of Dec. 4 expenses of liquidation of both institutions will be borne entirely by the Providence bank. A meeting of the corporators of the savings bank was to be held on Dec. 10 to vote on the bank's liquidation, following which the institution would officially close Dec. 14 to reopen Dec. 15 (to-day) as a branch office of the Rhode Island Hospital Trust Co. In the case of the National Globe Bank, liquidation of the institution cannot be accomplished until after the annual meeting of the stockholders on Jan. 8 next. Under the merger terms, according to the paper mentioned, the Providence bank has agreed to purchase all National Globe stock (par value \$20 a share) offered to it on or before Dec. 31 1928 at the price of \$45 a share. This offer is conditioned upon the transfer of at least 67% of the National Globe stock and the acceptance by the Mechanics Savings Bank of the proposal. In the case of the Mechanics Savings Bank, it was stated, there will be a distribution of surplus which will be 10% of all deposits in the bank at the close of business Nov. 30. This distribution includes and is substituted for the semi-annual dividend customarily payable in December. Such a distribution of surplus will be subject to the approval of the State Board of Bank Incorporation. Under the terms of the Rhode Island Hospital Trust Co.'s proposal, the deposits or any part of the deposits, together with the additional 10%, which are transferred to the trust company will draw interest from Dec. 15. The National Globe Bank was originally incorporated in the town of Limerock as the Providence County Bank and began business Sept. 1 1834. Ten years later the directors voted to move the institution to the Smithfield side of the river at Woonsocket Falls, and it was at this time that the institution first became known as the Globe Bank. Since 1856 (a period of 72 years) the bank has been located at the Market Square end of Main Street, Woonsocket. In 1865 the institution was nationalized under the title of the Globe National Bank. It is capitalized at \$100,000 with combined surplus and undivided profits of approximately \$90,000 and as of Oct. 3 last had total resources of \$1,092,325. The Mechanics Savings Bank was chartered in 1873 and began business April 1 of that year. At the close of business, Nov. 30, its deposits aggregated \$4,436,909 and its resources \$4,856,473. Frank E. Farnum (from whom the two Woonsocket banks have derived the popular name of "Mr. Farnum's banks"), who is Vice-President and Cashier of the National Globe Bank and Treasurer of the Mechanics Savings Bank, will continue to receive his present salary as a member of the Board of the Executive Committee of the Rhode Island Hospital Trust Co.'s Woonsocket branch. Over fifty years ago, in May 1878, Mr. Farnum became Cashier of the National Globe Bank and in January of the following year was elected Secretary and Treasurer of the Mechanics Savings Bank. Mr. Farnum has recently expressed a desire to be relieved of the managerial duties owing to ill health. Assistant Cashier Herbert P. Sutton will become an Assistant Manager of the trust company's Woonsocket branch and an Assistant Secretary of the Trust Company. The directors of the National Globe Bank and the Trustees of the Mechanics Savings Bank have been invited to become members of the Board of Managers of the Woonsocket branch office of the trust company. The employees of both banks will be retained at the same wages and will also be included in the Rhode Island Hospital Trust Co.'s pension system, with their ratings dating

from the time they entered the employ of the two banks in Woonsocket.

The First National Bank of Jersey City at a special meeting of the Directors Dec. 13 declared a regular dividend of 2% out of earnings for the current quarter. In addition the Directors declared an extra dividend of 1%. The regular and extra dividends will be payable on and after Dec. 31 to stockholders of record at the close of business Dec. 24.

On Dec. 15 the Bryn Mawr Trust Co., Bryn Mawr, Pa., formally opened its new bank building with a reception from 2:00 o'clock to 9:00 o'clock p. m.

Irvin T. Kepler, Treasurer of the Elkton Banking & Trust Co. of Elkton, Md., since its organization some 15 years ago, tendered his resignation on Dec. 12 to take effect Feb. 1 1929, according to a dispatch from that place on Dec. 12, printed in the Baltimore "Sun" of the next day. At the same meeting the directors appointed Dr. S. Claude Sykes, Treasurer, in lieu of Mr. Kepler. Mr. Kepler, the dispatch said, has accepted a position with the National Bank of Sunbury, Sunbury, Pa.

A dispatch by the Associated Press from Middletown, Del., Dec. 14, printed in the Baltimore "Sun" of the following day, stated that the People's National Bank of Middletown, (an institution with combined capital and surplus of \$115,000 and deposits of approximately \$500,000) was closed by its directors on that date (Dec. 14) after rumors had been circulated that caused some withdrawals from the institution. When withdrawals became numerous the directors decided that, rather than go out and raise funds to meet the "run", it was better to suspend temporarily. A committee was appointed to work out a reorganization, it was said. Subsequent advices from Middletown (Dec. 15), this time contained in a dispatch to the New York "Times", reported that the body of Watson K. Betts, Cashier of the closed bank, had been recovered that day by the State police from the shallow waters of Drawyer's Creek, seven miles north of Middletown. His jugular vein, it was said, had been severed, apparently by glass from the windshield of his automobile, which had crashed into a tree near the edge of the creek. This dispatch went on to say in part:

Soon after the body was found, it was announced that William L. Baker of the Federal Reserve Bank, had been appointed receiver for the People's National.

Betts, who was a church member and a leader in civic affairs, was last seen alive at 8.20 yesterday morning. After entering the bank he left almost immediately, announcing he would return at 9 o'clock. He stepped into his automobile and drove off toward Wilmington.

One theory is that, worried over the run on the bank and the condition of its loans, Betts sought solace in an automobile ride and steered off the road in the heavy fog. Other investigators advanced the theory that he had driven his car from the road with the intention of running it into the creek. They believe that after he had failed in this he left the car and jumped into the water.

When the bank closed its doors yesterday directors announced that all of the accounts were in good order and that the doors had been closed because there was no more ready cash on hand. Later it was said that "all depositors are safe."

The Riggs National Bank of Washington, D. C., announces this week the consolidation of the Farmers & Mechanics National Bank of that city (Georgetown) with the institution. The acquired bank, which for 114 years has been an essential factor in the commercial interests of Georgetown, will continue to serve the community as the Farmers & Mechanics Branch of the Riggs National Bank. In addition to the main office of the institution at 1503 Pennsylvania Avenue, other branches of the enlarged Riggs National Bank are the Friendship Branch, Dupont Circle Branch, Northwest Branch, 14th Street and Park Road Branch, and the 7th and Eye Streets Branch. Resources of the institution, which was founded nearly a century ago (1836), are now over \$50,000,000. The general officers are Charles C. Glover, Chairman of the Board of Directors; Robert V. Fleming, President; William J. Flather, Avon M. Nevius, Charles C. Glover, Jr., H. G. Hoskinson and George O. Vass (and Cashier) Vice-President, and Earle M. Amick, F. G. Burrough, Nelson B. O'Neil, I. J. Roberts, B. Gwynn Dent, and George F. Rainey, Assistant Cashiers.

Charles A. Hinsch, President of the Fifth-Third Union Trust Co. of Cincinnati, died on Dec. 18 following an operation for appendicitis. Mr. Hinsch, who was 63 years of age, was born in Cincinnati, the son of William A. Hinsch, himself a banker, and received his education in the Cincinnati public schools. The following outline of his banking career is from the Cincinnati "Enquirer" of Dec. 19:

The banking career that was to culminate in the position of influence and renown that Mr. Hinsch occupied at the time of his death began with an unimpressive "job" with the Exchange National Bank in 1881. Later he became associated with the Cincinnati National Bank, and still later, in 1887, was appointed Deposit Receiver of the Fidelity National Bank.

His affiliation with the Fifth National Bank, which he was to retain to the end of his life, began in 1889, with his acceptance of the post of Cashier. Mr. Hinsch was elected President in 1897.

June 1 1908 the Third National Bank consolidated with the Fifth National Bank under the leadership of Mr. Hinsch. In the same year the American National Bank and S. Kuhn & Sons private bank also were absorbed.

With the acquisition by the company of the Market National Bank, June 1 1919, accomplished largely through Mr. Hinsch's efforts, there became associated with Mr. Hinsch other financial leaders. At the same time he saw the advisability of taking preliminary steps toward the formation of one of the large business units of the future, and brought about the affiliation of the Fifth-Third National Bank and the Union Trust Co. Under the arrangement whereby the two companies were to be operated under the same ownership, Mr. Hinsch likewise became President of the Union Trust Co., a post he retained until the formal merger of the two great institutions in 1927.

Mr. Hinsch was a former President of the American Bankers Association (1917). He was a member of the Economic Policy Commission of that Association and a member of the Executive Committee of the National Foreign Trade Council. A long list of concerns of which the deceased banker was a director includes the following:

Black-Clawson Co., the Owens Bottle Co., the American Thermos Bottle Co., the Low Volatile Coal Co., the Knight Realty Co., the Gibson Realty Co., the Cincinnati, New Orleans & Texas Pacific Ry. Co., Taxicabs of Cincinnati, Inc., the American Tool Works Co., the D. L. Carpenter Co., the Midland & Atlantic Bridge Corp. and the Havlin Hotel Co.

The West Toledo National Bank of Toledo, Ohio, capitalized at \$200,000, was granted a charter by the Comptroller of the Currency on Nov. 27. Joseph A. Yager is President and J. D. St. John, Cashier. Reference to the new institution was made in the "Chronicle" of Sept. 22 last, page 1612.

On Nov. 28 the Comptroller of the Currency issued a charter for the Security National Bank of Downer's Grove, Ill., capitalized at \$100,000. G. H. Bunge is President of the new bank, and W. A. Grotefeld, Cashier.

At the meeting of the Board of Directors of the Chicago Title & Trust Company held on Dec. 12, a quarterly dividend of 4% and an extra dividend of 3% was declared, payable on Jan. 2 1929, to stockholders of record at the close of business on Dec. 12 1928. \$1,000,000 was transferred from undivided profits to surplus.

The Stockgrowers National Bank of Cheyenne, Wyo., has made extensions and improvements to its banking room. The bank will add new departments to take care of its increasing business.

Proposed absorption of the Farmers' Bank of Branson, Mo., by the Bank of Branson of that place, was announced on Dec. 1 by Leon Clippard, State Bank Examiner, according to a dispatch from Branson on Dec. 1, appearing in the St. Louis "Globe-Democrat" of Dec. 2. Officers of the Bank of Branson will continue as officers of the enlarged bank, namely: F. J. Long, President; W. H. Crowder, Vice-President, and Dave Parnell, Cashier. The Bank of Branson was organized in 1906 and has resources of more than \$350,000.

A merger which, if consummated, will unite two of the oldest financial institutions in St. Louis and form the third largest bank in that city was announced on Dec. 13, namely that of the Mississippi Valley Trust Co. and the Merchants-Laclede National Bank. According to the St. Louis "Globe-Democrat" of Dec. 14, the consolidated bank, the name of which has not yet been decided on, will have combined capital, surplus and undivided profits in excess of \$12,000,000; deposits of more than \$60,000,000 and total resources of approximately \$80,000,000. The announcement as printed in the St. Louis paper follows:

It is announced by the officers of the Mississippi Valley Trust Company and the Merchants-Laclede National Bank that negotiations have been concluded to consolidate the two institutions, which have been approved by their respective Boards of Directors.

A plan will be submitted to the stockholders of each institution for their approval at an early date. Final details have not as yet been worked out, but will shortly be announced.

The combined institutions have deposits of between \$60,000,000 and \$65,000,000. The capitalization of the new company has not as yet been announced, but the present combined capital, surplus and undivided profits of the two institutions are now in excess of \$12,000,000.

The entire staff of each institution will be retained in the merger. George E. Hoffman (President of the Merchants-Laclede Bank) will become Chairman of the board and J. Sheppard Smith (President of the Mississippi Valley Bank) will become President of the new institution.

The basis on which the stockholders of the respective banks will enter the merger, and whether the new institution will retain both the State charter of the trust company

and the National charter of the National bank, are details which the bankers were not ready to announce on Dec. 13, the paper mentioned said. It is expected it was said, the quarters of both banks will be retained and thrown together by taking in the Fourth Street corridor of the Merchants-Laclede Building, opening the intervening walls and throwing the two banking rooms into one large area. The Mississippi Valley occupies the building at Fourth and Chestnut streets and has an annex in the adjoining building which opens into the main building. The annex separates the main building of the Mississippi Valley and the Merchants-Laclede Building where the Merchants-Laclede National Bank has ground floor quarters at the corner of Fourth and Olive Streets. Throwing the quarters of the two institutions together would give the new bank entrances on Olive, Chestnut and Fourth Streets.

It was furthermore stated that there will be little duplication in the banking facilities to be combined, the Merchants-Laclede doing only a commercial banking business, while the Mississippi Valley, in addition to its commercial banking business, has a savings department, trust department, real estate department, bond department and safe deposit vaults. The Merchants-Laclede National Bank dates back to 1857 when it was chartered by the State of Missouri as the Merchants' Bank, while the Mississippi Valley Trust Co. was founded in 1890.

Directors of the Bank of Commerce & Trust Co. of Richmond, Va. have approved a split-up of the institution's stock on a 5 for 1 basis, reducing the par value of the shares from \$100 to \$20 a share, according to advices from that city on Dec. 18, appearing in the "Wall Street News" of the same date. The proposed reduction will be submitted to the stockholders at their annual meeting on Jan. 8. The number of shares of capital stock will be increased by the split-up from 5,000 to 25,000 shares. The stock, the dispatch furthermore stated, was recently quoted on the Richmond Stock Exchange at 250 bid.

The First National Bank of El Paso, Texas, has under consideration the forming of the First National Company to enter into real estate loans, rentals and insurance.

Formal consolidation of the Merchants' National Trust & Savings Bank of Los Angeles and the United Security Bank & Trust Co. of San Francisco became effective on Dec. 10, when, according to the Los Angeles "Times" of the previous day, the 140 offices in the new State-wide system were to open to the public as the Bank of America of California. The head office is in Los Angeles. The consolidated bank opened with a combined capital and surplus of \$50,000,000 and total resources in excess of \$400,000,000. The directors of the new bank in addition to Leon Bocqueraz (former President of the United Security Bank & Trust Co.), who is Chairman of the Board, and J. E. Fishburn (former Chairman of the Board of the Merchants' National Trust & Savings Bank), who is Vice-Chairman, named in the paper mentioned, are given below. They include leading bankers, business men and agriculturists drawn from all parts of California:

Morgan Adams, H. H. Ashley, Thomas W. Banks, F. N. Belgrano, Jr., C. R. Bell, Arthur S. Bent, N. B. Blackstone, Roger Bocqueraz, T. J. Brant, B. C. Brown, Louis M. Cole, H. H. Cotton, Arthur S. Crites, O. K. Cushing, A. De Bretteville, D. M. Dorman, W. F. Duffy, J. M. Dupas, E. E. Duque, F. J. Edoff, D. K. Edwards, Wilbur J. Edwards, Herbert W. Erskine, C. W. Fay, W. D. Fennimore, F. W. Flint, Jr., H. W. Frank.

H. C. Fryman, James A. Gibson, Jr., Alfred Harrell, Marco H. Hellman, Irving H. Hellman, James W. Hellman, E. Keller, John E. Marble, Henry S. McKee, Clay Miller, A. F. Morland, W. F. Morrish, E. J. Nolan, George L. Payne, John M. Perry, Paul A. Pflueger, R. I. Rogers, E. W. Sargent, James Shultz, Howard Spreckels, Joseph Topitzky, Nion R. Tucker, O. A. Vickrey, Hilliard E. Welch, Howard Whipple and Robert R. Yates.

In the active administration of the bank, E. J. Nolan, the President (former head of the Los Angeles bank), is assisted by the following Vice-President:

C. R. Bell, Marco H. Hellman, Irving H. Hellman, W. E. Duffy, Will F. Morrish, R. M. Philleo, cashier; H. H. Ashley, Howard Whipple, Robert R. Yates, Louis H. Moore, Paul A. Pflueger, R. W. Watson, F. R. Belgrano, Jr., J. A. Westmoreland, J. M. Dupas, Arthur S. Crites, T. J. Brant and others.

In a formal announcement, following the directors meeting on Dec. 8, President Nolan was reported as saying:

"Although new in name, the Bank of America of California will embody many of the oldest, as well as the most progressive traditions of Pacific Coast banking. Several of the institutions included in the consolidation date from the days when San Francisco was the roaring center of the gold rush, and Los Angeles consisted of a few adobes clustered around the Plaza.

"The Humboldt Savings Bank of San Francisco, which merged with the United Security in 1928, was founded in 1858, just ten years after Marshall's famous discovery of gold at Coloma. The Hellman Commercial Trust and Savings Bank, which in 1926 joined the Merchants' National Bank of Los Angeles to form the Merchants' National Trust and Savings Bank, achieved a record of growth paralleled by few banks. These institutions, probably better than any others, typify the heritage of experience and progressiveness with which the Bank of America of California is equipped to conduct its State-wide activities."

A dispatch from San Diego on Dec. 10 to the Los Angeles "Times" stated that the San Diego State Bank had been taken over by the Bank of America of California, according to an announcement by its President, Emil Klicke, on that date. The advices furthermore stated that the deal was in effect already and that management of the San Diego bank would not be affected by the change in name.

Still later advices (Dec. 11) this time from San Francisco and printed in the "Wall Street News" of Dec. 12, reported that Chairman Bocqueraz had announced the acquisition of 36 offices operated heretofore as offices and branches of the Merchants' Trust & Savings Bank. This dispatch went on to say:

Since the announcement of the merger of that bank with United Security, 40 additional branches have been added to the Bank of America system by the inclusion of a number of banks formerly owned by United Security.

The system now consists of 138 offices and direct branches with eight more banks now operating as affiliates which will become branches in the near future. It is the belief of the officers of the Bank of America of California that their organization has attained a permanent form except in the nature of continued expansion.

Citizens National Trust & Savings Bank of Los Angeles will submit to the stockholders at the annual meeting on Jan. 8 a proposal to increase the capitalization of the bank by \$5,000,000. This will be accomplished by the offer of 10,000 shares, \$100 par value, to present stockholders at \$500 per share. Proceeds will be used to increase capital to \$5,000,000, surplus and undivided profits to \$10,000,000 and to provide the Citizens National Company, investment subsidiary, with \$1,000,000 additional capital. The bank will then have a total of \$16,000,000 in capital funds and total resources of approximately \$130,000,000.

Rights to subscribe to the new stock issue will be allotted to present stockholders in the ratio of one new share to each four shares now held. The price will be \$500 per share. Directors have waived a portion of their rights in order to provide stock for sale to officers and employees of the bank.

The regular quarterly dividend of \$4.50 per share on the bank's stock will be paid at the end of the year to stockholders of record Dec. 25, and in addition a \$1 special dividend will be paid by the Citizens National Company. The regular dividend was increased from 16% to 18% several months ago so that the stock is now on a 19% basis.

A Christmas bonus of one half-month's salary was voted by the directors of the bank to all junior officers and employees who have been with the bank for one year or more. For those with less than a year's service a proportionate amount will be paid. Immediate distribution was decided upon in order to encourage early Christmas shopping. Over 800 will participate in the bonus, and the amount distributed will exceed \$55,000.

An improvement in earnings has resulted from the consolidation of the Citizens National Bank and the Citizens Trust and Savings Bank under a national charter which was effected last April. Banking quarters were enlarged during the summer and substantial economies effected by centralizing the management.

The original Citizens Bank was established in 1890 with a capital of \$100,000. To-day it has resources of \$130,000,000, a staff of more than 800 officers and employees and thirty banking offices all located within the city and industrial limits of Los Angeles.

"Available figures show that the Citizens Bank will round out an excellent year, perhaps the best in its history," Mr. Day said. "A satisfactory position of both earnings and resources is indicated with a healthy growth in deposits. The growing wealth of Los Angeles and Southern California indicates that this section will be in the front rank of American cities in investment and fiduciary business and the bank is preparing to handle its share of these transactions."

William E. Gerber, Chairman of the Board of Directors of the California National Bank of Sacramento and identified with banking in Northern California for the past fifty years, died in Sacramento on Dec. 5 after a prolonged illness. Mr. Gerber, who was 76 years of age, was born in New York and went to California with his parents in 1860. He began business in Sacramento as a grocer. In 1877 he was elected County Auditor and after serving two terms in that capacity, entered the banking field as Assistant Cashier of the California National Bank. After advancing through various positions, he was made President of the

institution in 1906 and eighteen years later (1924) became Chairman of the Board, the office he held at his death.

J. C. Ainsworth, President of the United States National Bank of Portland, Ore., on Dec. 6 announced that formation of a subsidiary of the institution to operate as an investment corporation would be voted upon at the annual meeting of the stockholders Jan. 8, according to the Portland "Oregonian" of Dec. 7. The new company will have a paid-up capital of \$300,000, consisting of 30,000 shares of class B stock with a par value of \$10 a share. This stock will carry full and exclusive voting privileges. The articles of incorporation also will provide for the issuance of class A stock without nominal or par value and without voting privileges. None of this latter stock is to be issued in the immediate future, Mr. Ainsworth said, but may be offered to the public later at the discretion of the corporation's directors. Continuing, the "Oregonian" said:

All class B stock will be owned by the shareholders of the United States National Bank. Each shareholder will have such pro-rata holding in the corporation as his stock bears to the entire capital of the bank. Sale or transfer of stock in the bank will automatically carry with it the shareholder's interest in the corporation.

Class B stock will be held by J. C. Ainsworth, Edward Cookingham, A. L. Tucker, Paul S. Dick and A. M. Wright as trustees for the shareholders. Payment of the \$300,000 paid-up capital of the new corporation, Mr. Ainsworth said, would be accomplished by transfer of that sum from the bank's undivided profit account so that value of the national bank stock will not be changed in any respect.

"The management of the bank has had in contemplation for some time the organization of the United States National Corporation as a necessary adjunct of the bank, which is restricted by law in its class of investments," said Mr. Ainsworth. "The new corporation will be empowered to exercise such functions as pertain to acquirement, purchase and sale of bonds and stocks and to make such other investments as may be deemed desirable by its board of directors."

G. A. Garrett and A. R. Munger, heretofore Assistant Cashiers of the Metropolitan National Bank of Seattle, were promoted to Cashier and Assistant Vice-President, respectively, at a meeting of the directors on Dec. 12, according to the Seattle "Post-Intelligencer" of the following day. J. T. McVay, President of the institution, was reported as saying that the promotions were in recognition of devoted service to the bank and had been well merited. Mr. Garrett entered the bank as a bookkeeper in 1909, when the institution first opened, while Mr. Munger joined the Metropolitan National in October 1927. Previously he was an officer of the United States National Bank of Portland, Ore. The "Post-Intelligencer" went on to say:

There were only four employees at the Metropolitan when it first opened. Its present location in Metropolitan Center was then quite a distance from the business part of the city, up the hill amid the stumps. Miss Mary B. Cummings was stenographer for the bank at its beginning, and she is still on duty.

In May of this year, Metropolitan National joined First National Bank here in the formation of First National Corporation, a holding company for the two. In June, three suburban banks were added to the group, and steps were taken to organize the First Security Bank on Broadway, which will open its doors Monday. The five banks hold deposits exceeding \$30,000,000. Other suburban members of the group are: First Greenwood National Bank, the Canal Bank and First Rainier Valley Bank.

Proposed consolidation of the Dexter Horton Banks of Seattle, Wash. (the Dexter Horton National Bank and the Dexter Horton State Bank), and the Marine Bancorporation (the holding company of the Marine National, Marine Central and Marine State Banks, the National City Bank and the National Bank of Commerce, all of Seattle, as well as several other Washington banks), thereby giving Seattle and the Northwest a banking institution with resources of nearly \$100,000,000, was formally announced by the respective directors of both organizations on Dec. 14, according to the Seattle "Post-Intelligencer" of the following day. Under the merger plan the name of the Marine Bancorporation will be changed to the Dexter Horton Marine Corporation, which will be the holding company for all the banks in both groups. Mark Reed will be Chairman of the Board while Andrew Price, President of the Marine Bancorporation, will continue as head of the new corporation. Other officers will be W. H. Parsons (now President of the Dexter Horton National Bank), Bruce Shorts (and Secretary), Homer L. Boyd, and Burle D. Bramhall, Vice-Presidents, and there will also be two more Vice-Presidents chosen from the personnel of the Dexter Horton National Bank.

The National Bank of Commerce and the National City Bank—both Marine group banks—will be consolidated with the Dexter Horton National Bank under the title of the Dexter Horton National Bank of Commerce. The National City Bank will at an early date be moved to the banking quarters of the Dexter Horton National Bank, while the

National Bank of Commerce will remain in its present location. Officers of the new Dexter Horton National Bank of Commerce will be: Manson F. Bachus, Chairman of the Board; James D. Hoge and J. W. Maxwell, Vice-Chairman of the Board; W. H. Parsons, President; A. Swallow, Chairman of the executive committee; Andrew Price, Executive Vice-President, and W. W. Scruby, Vice-President and Cashier. The directorate of the new bank will include members of the respective boards of the component banks. From the paper mentioned we take the following:

On the subject of capital stock, number of shares to be outstanding and their proration, the formal statement failed to shed any light. It was believed, however, that these details are being worked out and still are subject to some slight changes incident to the mergers of banks still to be effected and also subject to ratification of stockholders.

As of Oct. 3, statements of the individual banks in the two groups showed deposits in excess of \$75,000,000 and combined resources over \$95,000,000. In magnitude, this banking organization will be pre-eminent in the Northwest and it will have legal and actual ability to extend to customers enormous lines of credit.

There is only one class of stock, all of it voting, whereas formerly Marine Bancorporation had two classes of stock, voting and non-voting.

Ownership of the Capitol National Bank at Olympia, of the Grays Harbor National Bank at Aberdeen and of the First National Bank at Cosmopolis will be continued in Marine Bancorporation, or as it is to be called hereafter in Dexter Horton Marine Corporation.

The Marine National Company is to be rechristened as the Dexter Horton National Company and will unite the bond and investment departments of all these banking organizations. The capital is expected to be enlarged and the company will combine the resources and experience of many years in the investment business.

Great interest was excited yesterday in the disposition to be made of the National Bank of Commerce. This ancient and profitable institution is to be consolidated with Dexter Horton National Bank under the new name of Dexter Horton National Bank of Commerce, and yet the Commerce is to remain in its present location. A number of Seattle bankers asserted that this cannot be done under the laws as made and provided.

These other bankers say that while a man and woman may marry and live apart, that two national banks cannot be consolidated and live apart.

Maybe so and maybe not. That is for the legal talent to work out. Dexter Horton National now has two branches—the Seaboard and the Ballard. It was pointed out that a branch, once permitted, may move about in its orbit, and that the Ballard branch might be domiciled in the National Bank of Commerce habitation and a new State bank be created for Ballard, or something like that. Probably all of this has been figured out and will appear in later chapters of the running story.

Marine Bancorporation stock goes ex-dividend to-morrow. Thus earnings for the current quarter of Marine are to be disbursed. The presumption is that earnings of Dexter Horton National Bank for the same quarter and the extra Christmas disbursement will go to the present stockholders of Dexter Horton National.

At any rate, the negotiations that endured for more than five months have borne fruit and that it, roundly, a \$100,000,000 banking institution for Seattle and the Northwest with a confidence-inspiring personnel. Ownership is distributed among nearly 8,000 persons and the units are so located as to afford service in almost every part of Seattle. The structure is elastic enough to expand with the growth and development of Puget Sound industries.

Julian Smith, LL.D., of Montreal, Vice-President of the Shawinigan Water & Power Co., and Archibald Fraser of Fredericton, N. B., President and General Manager of the Fraser Companies, have been added to the directorate of the Royal Bank of Canada (head office Montreal), according to the Montreal "Gazette" of Dec. 12, which went on to say:

Mr. Smith, who is President of the Engineering Institute of Canada, is the directing genius of one of Canada's greatest engineering industrial organizations and the phenomenal development of the Shawinigan company and its subsidiary and associated companies is in no small measure due to him, for his has been the dominating personality responsible for the growth which has taken place during the twenty-six years of his association with the organization. Besides the position which he occupies with Shawinigan, Mr. Smith is President of the Montreal Tramways Company, United Securities, Ltd., Quebec Power Co., and Canada Carbide Co.; Vice-President of the Dominion Engineering Works, Ltd., and a director of Dominion Bridge Co., National Breweries, Montreal Light Heat and Power Consolidated and the Montreal Trust Co.

Mr. Fraser, the other new director of the bank, is one of the leading industrialists of New Brunswick and under his able direction the business of Fraser Companies has expanded in remarkable fashion in the past ten years. Extensive timber limits in New Brunswick and Quebec are owned by his company and, in addition to its Canadian mills, Fraser operates and owns two modern mills for the manufacture of book paper, &c., in the State of Maine.

THE WEEK ON THE NEW YORK STOCK EXCHANGE.

Quiet and irregular price movements have characterized the dealings on the New York stock market during the present week and the trading, at times, has been extremely dull as compared with the recent five and six million-share markets. Copper stocks have attracted considerable speculative attention and Radio Corporation issues have been in sharp demand. The report of the Federal Reserve Bank, made public after the close of the market on Thursday, showed a further decrease of \$64,929,000 in brokers' loans. Call money fluctuated between 6% and 9% the present week. Stocks drifted back and forth without definite trend during the greater part of the session on Saturday. Opening prices were irregular but improved somewhat at the end of the first hour when trading again turned sluggish. One of the features of the late trading was the sharp advance of the aeroplane stocks, Wright leading the upswing with a gain of 10 points to 225, and Curtiss moving ahead seven points to 139. Public utilities were moderately strong, Columbia Gas leading the advance with a gain of three points to 130. International Nickel moved to 258 1/2 at its high for the day, but closed at 249. In the railroad list Chic. & Great Western pref. moved into new high ground above 50. Victor Talking Machine was down two points at 140 1/2 and Radio Corporation showed a loss of 12 points at 338. United States Steel common closed at 151 1/8 with a loss of 1 1/2 points.

The market was again dull on Monday, the turnover barely reaching 2 1/4 million shares, the smallest on the New York Stock Exchange in over two months. United States Steel common dipped below 150. Bethlehem sold down to 79 when it was more than seven points below its recent high. Copper shares also dropped back, most of the prominent issues going down from one to three points. Motor stocks yielded with the rest of the list, General Motors (new) moving down below 74, the lowest level reached since trading began on this issue. On the up side Wright Aero closed with a gain of eight points at 233. National Bellas Hess scored a spectacular advance of 16 or more points to 175. Chrysler had a sharp run up to 119, but later in the day slipped back to 117 1/2 where it was up over a point for the day. The features of the railroad group were Western Pacific com. and pref., both of which moved ahead from two to three points, Atlantic Coast Line which moved ahead nearly two points and Texas & Pacific which gained four points to 165.

The market was a dull affair during the greater part of the day on Tuesday, but a sudden burst of strength in the last half of the session carried many stocks to higher levels for the day. Copper stocks moved to the front and substantial gains were recorded by Anaconda, Green-Cananea, Kennecott and American Smelting & Refining. Granby Mining also stood out prominently in the advance. Some of the railroad stocks displayed improvement, notably the Erie issues, Missouri-Kansas-Texas, Norfolk & Western and Texas & Pacific, the latter making a further gain of six points to 171. Merchandising stocks were represented on the upside by Sears-Roebuck, Woolworth and Montgomery Ward, the latter shooting upward 23 points to 218. Considerable buying also was apparent in such stocks as American Can which was up four points to 101, General Electric which improved three points to 183 1/4, Westinghouse Electric which gained four points at 125 3/4 and Consolidated Gas which moved ahead four points as it closed at 104. Motor shares improved, particularly Chrysler which was in sharp demand and sold above 120 with a gain of nearly three points and General Motors which sold up to 185 1/8 with a gain of nearly two points. Columbia Carbide & Carbon bounded upward to a new top for the year above 117. On Wednesday the market maintained the strength and activity of the preceding day. Copper stocks moved briskly forward under the leadership of Kennecott which pushed ahead nine points to 144. American Smelting had a similar gain and closed strong at 269 3/4. Anaconda improved about a point, but Greene-Cananea slipped back to 172, though earlier in the session it sold as high as 175. Oil shares moved up with the leaders, Sinclair Oil leading the upward swing with a gain of three points to 41, followed by many other issues prominent in the oil group. Among the so-called specialties that moved upward were Johns-Manville, Union Carbide & Carbon, Commercial Solvents and A. M. Byers. In the railroad list St. Louis Southwestern which moved ahead three points. Erie stocks and Delaware & Hudson shares were also in demand at improving prices. United State

steel common had a sharp run up near the close which carried it forward to 156 with a gain of about three points for the day.

Radio Corporation and Victor Talking Machine attracted considerable speculative attention on Thursday, the former moving upward about 15 points and closing at 361, while Victor Talking Machine improved six points to 147. Railroad stocks also were in demand, New York Central advancing to 186 1/8, followed by Central RR. of New Jersey with a gain of 5 1/4 points to 330, Pere Marquette, New York & Harlem and St. Louis Southwestern. Around midday the market slipped downward and many stocks declined from two to 10 points below their early levels, but much of the loss was made up as the market again turned to the buying side. Stocks pushed ahead to higher levels on Friday and many of the speculative favorites closed the session with substantial gains. Radio Corporation closed at 380 with a gain of 19 points. Goodyear Tire & Rubber bounded forward six points, Packard Motors had a similar rise and Montgomery Ward & Co. reached a new high for the present shares at 146 and closed at 144 1/2 with a net gain of 11 1/2 points. General Motors, General Electric and United States Steel common were also in brisk demand at higher prices. Railroad stocks again came to the front, speculative interest centering around Erie, St. Louis Southwestern, Chic. & North West, Pennsylvania, Ches. & Ohio and Rock Island. Substantial gains were made by National Bellas Hess, Gold Dust, Johns-Manville and Woolworth. The final tone was good.

THE CURB MARKET.

Curb Market trading this week was quieter than recently though the tone of the market continues strong. Prices moved somewhat irregularly with strength in spots. A feature was the admission of Ford Motor of London, Amer. Depository receipt to trading with the opening sales at 9 3/8. It moved up to 16 3/4 and closed to-day at 15 1/4. Airplane securities received considerable attention following the announcement that the Pratt & Whitney Aircraft Corp. and the Chance Vought Corp. would be consolidated with the Boeing Airplane & Transport Corp. Common stock of the latter rose from 90 to 97 1/4 dropped to 82 1/2 and finished to-day at 85 1/2. Niles-Bement-Pond which controls a half interest in Pratt & Whitney jumped from 185 to 212, reacted to 185 1/8 and recovered finally to 194 3/4. Amer. Commercial Alcohol advanced from 79 to 86, fell to 83 and ends the week at 83 1/2. Bahia Corp. com. sold up from 19 to 24 3/8 and at 22 3/8 finally. E. W. Bliss & Co., com. gained over 14 points to 60, dropped back to 46 3/4 and finished to-day at 51 1/2. Bohn Aluminum & Brass advanced from 94 3/8 to 119 3/8, reacted to 105 1/4 and closed to-day at 112. Firestone Tire & Rubber, com. after early loss from 198 3/8 to 193 1/4 ran up to 249, the close to-day being at 230 1/2. U. S. Freight eased off at first from 80 to 77 1/2, then rose to 87 3/8 with the final figure to-day 85 1/2. Utilities show few changes of

moment. Elec. Bond & Share Sec. sold up from 144 3/8 to 159 3/8, the close to-day being at 158 7/8. Among oils Prairie Pipe Line (old) advanced from 243 1/2 to 265 and sold to-day at 260. New stock improved from 49 7/8 to 54, the close to-day being at 53. Gulf Oil weakened from 141 1/4 to 138 3/4, then sold up to 148 with a final reaction to 143 1/4.

A complete record of Curb Market transactions for the week will be found on page 3528.

COURSE OF BANK CLEARINGS.

Bank clearings the present week will again show a substantial increase compared with a year ago. Preliminary figures compiled by us, based upon telegraphic advices from the chief cities of the country, indicate that for the week ended to-day (Saturday, Dec. 22) bank exchanges for all the cities of the United States from which it is possible to obtain weekly returns will be 23.7% larger than for the corresponding week last year. The total stands at \$13,727,775,833, against \$11,184,208,162 for the same week in 1927. At this centre there is a gain for the five days ending Friday of 28.0%. Our comparative summary for the week follows:

Clearings—Returns by Telegraph. Week Ended Dec. 22.	1928.	1927.	Per Cent.
New York	\$7,405,000,000	\$5,785,000,000	+28.0
Chicago	613,468,785	584,926,791	+4.9
Philadelphia	592,000,000	458,000,000	+29.3
Boston	524,000,000	394,000,000	+33.0
Kansas City	122,195,749	115,067,182	+6.1
St. Louis	141,600,000	127,700,000	+10.9
San Francisco	193,675,000	173,127,000	+11.9
Los Angeles	199,450,000	152,838,000	+30.5
Pittsburgh	182,952,417	154,983,791	+18.1
Detroit	238,201,465	151,500,000	+57.2
Cleveland	134,384,767	99,625,357	+34.9
Baltimore	90,681,927	91,298,622	-0.7
New Orleans	59,667,411	74,908,726	-20.3
Thirteen cities, 5 days	\$10,497,277,521	\$8,362,975,469	+25.5
Other cities, 5 days	1,109,202,340	1,071,896,580	+3.5
Total all cities, 5 days	\$11,606,479,861	\$9,434,872,049	+23.0
All cities, 1 day	2,121,295,972	1,749,336,113	+21.3
Total all cities for week	\$13,727,775,833	\$11,184,208,162	+23.7

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them to-day, inasmuch as the week ends to-day (Saturday) and the Saturday figures will not be available until noon to-day. Accordingly, in the above the last day of the week has in all cases had to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results for the week previous—the week ended Dec. 15. For that week there is an increase of 23.1%, the 1928 aggregate of clearings for the whole country being \$14,807,211,966, against \$12,036,078,195 in the same week of 1927. Outside of this city the increase is only 5.7%. The bank exchanges at this centre record a gain of 34.3%. We group the cities

now according to the Federal Reserve districts in which they are located, and from this it appears that in the New York Reserve District (including this city) there is a gain of 33.7%, in the Philadelphia Reserve District of 9.8% and in the Cleveland Reserve District of 2.5%. The Boston Reserve District shows a loss of 5.4%, the Richmond Reserve District of 4.1% and the Atlanta Reserve District of only 0.8%. In the Chicago Reserve District the totals are larger by 16.5% in the St. Louis Reserve District by 0.7% and in the Minneapolis Reserve District by 10.4%. The Kansas City Reserve District shows a decrease of 1.2%, but the Dallas Reserve District records a trifling increase of 0.8% and the San Francisco Reserve District an increase of 6.0%.

In the following we furnish a summary by Federal Reserve districts:

SUMMARY OF BANK CLEARINGS.

Table with columns: Week Ended Dec. 15 1928., 1928., 1927., Inc. or Dec., 1926., 1925. Rows include Federal Reserve Dists., 1st Boston, 2nd New York, 3rd Philadelphia, 4th Cleveland, 5th Richmond, 6th Atlanta, 7th Chicago, 8th St. Louis, 9th Minneapolis, 10th Kansas City, 11th Dallas, 12th San Fran., Total, and Outside N. Y. City.

We now add our detailed statement, showing last week's figures for each city separately, for the four years:

Large table with columns: Clearings at—, 1928., 1927., Inc. or Dec., 1926., 1925. Rows are organized by Federal Reserve District (e.g., First Federal Reserve District—Boston, Second Federal Reserve District—New York, etc.) and include sub-totals for each district.

Table with columns: Clearings at—, Week Ended Dec. 15., 1928., 1927., Inc. or Dec., 1926., 1925. Rows include various cities grouped by Federal Reserve District (e.g., Seventh Federal Reserve District—Chicago, Eighth Federal Reserve District—St. Louis, etc.) and include sub-totals for each district.

Table with columns: Clearings at—, Week Ended Dec. 13., 1928., 1927., Inc. or Dec., 1926., 1925. Rows include various cities grouped by Federal Reserve District (e.g., Canada, Montreal, Toronto, etc.) and include sub-totals for each district.

\* Manager refuses to report weekly clearings. \* Estimated.

**THE ENGLISH GOLD AND SILVER MARKETS.**

We reprint the following from the weekly circular of Samuel Montagu & Co. of London, written under date of Dec. 5 1928:

**GOLD.**

The Bank of England gold reserve against notes amounted to £159,088,945 on the 28th ultimo (as compared with £161,214,085 on the previous Wednesday), and represents an increase of £5,182,630 since April 29 1925, when an effective gold standard was resumed.

The first Bank return published following the fusion of the Treasury note issue with that of the Bank of England shows some departures from the form of return hitherto issued, inasmuch as the information is now given in more detail. In the return of the Banking Department, "Other deposits" are sub-divided showing the proportions deposited by "Bankers" and "Other accounts," while the assets appearing under the designation of "Other securities" are detailed as "Discounts and advances" and "Securities."

The silver coin which was held in the currency note reserve has been transferred to the Bank of England, and appears in the Issue Department's return as £5,240,157, forming part of the securities against the fiduciary issue.

Coincident with the new form of return, a new policy is being observed as to the announcement of receipts and withdrawals of gold from the Bank. While being more precise as to the actual amounts, the statement is now less informative, as the origin and destination of sovereigns received and withdrawn are no longer indicated.

About £448,000 bar gold from South Africa was offered in the open market yesterday. The demand was very keen and the whole amount was disposed of as follows: £240,000 for a destination undisclosed, £150,000 for Germany, £30,000 for India and £28,000 for the trade.

The following movements of gold to and from the Bank of England have been announced, showing a net efflux of £1,274,655 during the week under review:

	Nov. 29	Nov. 30	Dec. 1	Dec. 3	Dec. 4	Dec. 5
Received	Nil	Nil	£250,000	£87,000	Nil	Nil
Withdrawn	£27,065	£259,617	£201,513	£243,318	£320,387	£559,755

The receipts on the 1st and 3d inst. were in sovereigns, the former amount "released from abroad" and the latter "received from abroad." Only £8,000 in sovereigns was withdrawn during the week, the balance being in bar gold, of which about £1,240,000 was for Germany.

The following were the United Kingdom imports and exports of gold registered from mid-day on the 26th ult. to mid-day on the 3d inst.:

<b>Imports.</b>		<b>Exports.</b>	
France	£3,820	Germany	£1,229,331
Irish Free State	87,000	Netherlands	18,480
British West Africa	27,496	Switzerland	17,100
		Austria	216,350
		British India	47,890
		Other countries	18,772
	£118,316		£1,547,923

**SILVER.**

Prices have ruled at a slightly lower level during the past week and, following two successive falls of 1-16d., quotations of 26 9-16d. and 26 5/8d. for cash and two months' delivery respectively were recorded on the 30th ult. The cash quotation remained the same until yesterday, when it eased 1-16d. to 26 1/2d., but the price for two months' was unaltered for five working days.

These movements reflect the condition of the market, which has continued narrow with no outstanding features. The Indian Bazaars show little activity and reports from Bombay indicate that stocks there are ample for present needs. Operations on China account have shown no particular tendency, as both buying and selling orders have been executed for that quarter. Both America and the Continent have sold silver, but sellers have not pressed supplies, otherwise prices may well have shown more tendency to sag in view of the moderate demand.

The following were the United Kingdom imports and exports of silver registered from mid-day on the 26th ult. to mid-day on the 3d inst.

<b>Imports.</b>		<b>Exports.</b>	
Germany	£19,716	Egypt	£54,700
France	26,297	Other countries	12,733
U. S. A.	29,380		
Java	11,830		
Other countries	48		
	£87,271		£67,433

**INDIAN CURRENCY RETURNS.**

	Nov. 30	Nov. 22	Nov. 15

By Barnes & Lofland, Philadelphia:

Table listing various stocks and bonds with columns for Shares, Stocks, \$ per sh., and Bonds. Includes entries like Interborough Bank of Prospect, Philadelphia Nat. Bank, and various utility and industrial stocks.

By A. J. Wright & Co., Buffalo:

Table listing stocks and bonds for Buffalo, including 133 1-3 Connors Farms Inc., Monument Theatre Corp., and various mining and utility stocks.

By Weilepp, Bruton & Co., Baltimore:

Table listing stocks and bonds for Baltimore, including 12,750 American Stemmer Corp., Finance & Guaranty Corp., and various utility and industrial stocks.

DIVIDENDS.

Dividends are grouped in two separate tables. In the first we bring together all the dividends announced the current week. Then we follow with a second table, in which we show the dividends previously announced, but which have not yet been paid.

The dividends announced this week are:

Table of dividends announced this week, organized by category: Railroads (Steam), Public Utilities, and Miscellaneous. Columns include Name of Company, Per Cent., When Payable, and Books Closed Days Inclusive.

Main table of dividends, organized by category: Public Utilities (Concluded), Banks, Trust Companies, Fire Insurance, Joint Stock Land Banks, and Miscellaneous. Columns include Name of Company, Per Cent., When Payable, and Books Closed Days Inclusive.

Name of Company.	Per Cent.	When Payable.	Books Closed Days Inclusive.	Name of Company.	Per Cent.	When Payable.	Books Closed Days Inclusive.

**Weekly Return of New York City Clearing House.**—Beginning with Mar. 31, the New York City Clearing House Association discontinued giving out all statements previously issued and now makes only the barest kind of a report. The new return shows nothing but the deposits, along with the capital and surplus. We give it below in full:

**STATEMENT OF THE MEMBERS OF THE NEW YORK CLEARING HOUSE ASSOCIATION FOR THE WEEK ENDING SATURDAY, DEC. 15 1928.**

Clearing House Members.	*Capital.	*Surplus & Undivided Profits.	Net Demand Deposits Average.	Time Deposits Average.

**Philadelphia Banks.**—The Philadelphia Clearing House return for the week ending Dec. 15, with comparative figures for the two weeks preceding, is given below. Reserve requirements for members of the Federal Reserve System are 10% on demand deposits and 3% on time deposits, all to be kept with the Federal Reserve Bank. "Cash in vaults" is not a part of legal reserve. For trust companies not members of the Federal Reserve System the reserve required is 10% on demand deposits and includes "Reserve with legal depositaries" and "Cash in vaults."

Beginning with the return for the week ending May 14 1928, the Philadelphia Clearing House Association discontinued showing the reserves and whether reserves held are above or below requirements. This will account for the queries at the end of the table.

Two Clphers (00) omitted.	Week Ended Dec. 15 1928.			Dec. 8 1928.	Dec. 1 1928.

Weekly Return of the Federal Reserve Board.

The following is the return issued by the Federal Reserve Board Thursday afternoon, Dec. 20 and showing the condition of the twelve Reserve banks at the close of business on Wednesday. In the first table we present the results for the system as a whole in comparison with the figures for the seven preceding weeks and with those of the corresponding week last year. The second table shows the resources and liabilities separately for each of the twelve banks. The Federal Reserve Agents' Accounts (third table following) gives details regarding transactions in Federal Reserve notes between the Comptroller and Reserve Agents and between the latter and Federal Reserve banks. The Reserve Board's comment upon the returns for the latest week appears on page 3474, being the first item in our department of "Current Events and Discussions."

COMBINED RESOURCES AND LIABILITIES OF THE FEDERAL RESERVE BANKS AT THE CLOSE OF BUSINESS DEC. 19 1928.

	Dec. 19 1928.	Dec. 12 1928.	Dec. 5 1928.	Nov. 28 1928.	Nov. 21 1928.	Nov. 14 1928.	Nov. 7 1928.	Oct. 31 1928.	Dec. 21 1927.

NOTE.—Beginning with the statement of Oct. 7 1925, two new items were added in order to show separately the amount of balances held abroad and amounts due to foreign correspondents. In addition, the caption "All other earning assets," previously made up of Federal Intermediate Credit Bank debentures, was changed to "Other securities," and the caption "Total earning assets" to "Total bills and securities." The latter term was adopted as a more accurate description of the total of the discount acceptances and securities acquired under the provisions of Sections 13 and 14 of the Federal Reserve Act, which, it was stated, are the only items included therein.

Weekly Return for the Member Banks of the Federal Reserve System.

Following is the weekly statement issued by the Federal Reserve Board, giving the principal items of the resources and liabilities of the 629 member banks from which weekly returns are obtained. These figures are always a week behind those for the Reserve banks themselves. Definitions of the different items in the statement were given in the statement of Dec. 12 1917, published in the "Chronicle" of Dec. 29 1917, page 3475. The comment of the Reserve Board upon the figures for the latest week appears in our department of "Current Events and Discussions," on page 3330 immediately following which we also give the figures of New York and Chicago reporting member banks for a week later.

PRINCIPAL RESOURCES AND LIABILITIES OF ALL REPORTING MEMBER BANKS IN EACH FEDERAL RESERVE DISTRICT AS AT CLOSE OF BUSINESS DEC. 12 1928 (In thousands of dollars).
