Published every Saturday morning by WILLIAM B. DANA COMPANY. President and Editor, Jacob Seibert; Business Manager, William D. Riggs; Treas., William Dana Seibert; Sec., Herbert D. Seibert. Addresses of all, Office of Co.

The Financial Situation.

No little concern is being felt at the moment regarding the course of agricultural prices and the conditions relating to the same. The situation is a decidedly anomalous one. The prevailing feeling is well expressed in a telegraphic dispatch coming from Chicago which appeared in the New York "Times" on Thursday morning and which carried the significant title "Wheat Traders Kept Guessing by Unprecedented Conditions." The dispatch itself said that conditions surrounding the wheat market were different from any ever known before, even during the World War, and that traders were being kept guessing as to the next move by the stabilization officials. That the latter would buy wheat on breaks seemed certain. So far, however, it was ascertained, there was no evidence that they had sold any of the wheat bought in leading markets.

Thus we see Government injected into another of the country's activities, and in most mischievous fashion. The Government itself does not buy either wheat or cotton, but it does buy both through cooperative agencies available for the purpose or especially organized at the instance of the Federal |

Farm Loan Board. These co-operative bodies get the wherewithal for making the purchases through loans obtained from the Farm Loan Board, and in both the case of wheat and that of cotton the Government is loaning up to a figure which is above prevailing market prices. Supply and demand are no longer the sole controlling factors in determining the course of the market from day to day, though the fact that co-operative buying-and evidently on a large scale, too-has failed to stem the downward course of values, shows plainly enough that supply and demand are nevertheless exerting their influence and still constitute the underlying factor in the situation. Yet co-operative purchases may at any given moment come in to arrest the decline for the time being, and may even bring about a sharp upward reaction. This, then, is the uncertainty regarding which market operators find it necessary to engage in guessing from day to day.

What the ultimate outcome of the Farm Loan policy will be need not be in doubt. The Government, through the Farm Loan Board, is expressly urging farmers to hold on to their wheat and to their cotton, and is telling farmers and planters that they need not worry even if the price continues to fall, the Board has no intention of calling the loans. This naturally encourages farmers to hold back their crops, but deceives no one.

What is causing anxiety is as to what will happen when the inevitable crash comes and how the Government will fare when it does come. The Farm Loan Board appears to have unlimited funds at its command. In the meantime, as far at least as wheat is concerned, Canada, holding large unsold supplies, will not fail to avail of the opportunity to dispose of them. Canada had a shortened yield the past season, and yet has large stocks of wheat, which must be marketed sooner or later. The probabilities are that the Dominion wheat production the present vear will again be normal, and then, indeed, there must be a royal battle with our neighbor on the north to see which shall first reach a market. The question what the losses are to be when our wheat finally is disposed of, that is, when accumulated supplies are let go, is a serious one. This remark applies to cotton as well as to wheat, though of course it is possible that some fortunate turn in affairs will help the Farm Loan Board and the co-operatives out of their dilemma in the matter of cotton and wheat alike. The whole thing is Government meddling, and meddling of the worst kind. Judging from six months' experience, this meddling is not helping either the wheat grower or the cotton grower. Neither is deriving any benefit from the efforts of the Government to help him.

Unfortunately, too, the menace involved is beginning to have some effect upon general business. And there is grave danger that the revival in trade, which during the last six weeks has been proceeding with such great rapidity, may be arrested. The accounts regarding the steel trade continue satisfactory in the extreme, and the automobile trade is also showing increasing activity, the revival in the steel trade, however, coming not from that source, but from the liberal orders that are being given by the railroads. President Hoover's strenuous efforts to prevent large scale unemployment may be foiled by this unhappy development.

The Secretary of the Treasury at Washington has this week made another offering of Treasury bills. This came unexpectedly, but at an opportune moment for the Treasury. With the Federal Reserve banks all reducing their rediscount rates, Boston and Kansas City having joined New York in reducing from 41/2% to 4%, and the Federal Reserve Bank of St. Louis having at length reduced from 5% to 41/2%, leaving no Reserve bank in the System quoting higher than $4\frac{1}{2}\%$, the time is evidently favorable for bringing out a new offering of Treasury bills bearing no interest and selling on a discount basis. It should be noted, too, that the rate at which the Federal Reserve Bank of New York will purchase bank acceptances has been reduced another 1/8 of 1% on Tuesday, and the buying rate for acceptances by the Federal Reserve Bank of Boston has likewise been reduced. The new buying rate for acceptances is 33/4% for maturities of two months or less, and 31/8% for longer maturities, both below the New York and Boston Federal Reserve rediscount rate of 4%, showing a preferential rate in favor of bankers' acceptances. The Treasury offering of bills was \$50,000,000, and comprised bills running 90 days, and in view of the circumstances mentioned its success was a foregone conclusion, though announcement as to the result will not be made until to-day. At the first offering of these bills, on Dec. 13 last, which was for amount of \$100,-000,000, the tenders aggregated \$223,901,000. The highest bid then was 99.310, equal to an interest basis of 23/4%, and the lowest bid accepted was 99.152, equal to 33/8%. The total then accepted was \$100,000,000, and the average price was 99.181, an interest basis of 31/4%.

The Federal Reserve statements this week contain no features of unusual interest. Brokers' loans are now slowly increasing. After last week's increase of \$57,000,000, there is a further increase the present week of \$48,000,000, making \$105,000,000 for the two weeks, and bringing the grand total of these loans on securities to brokers and dealers by the reporting member banks in New York City up to \$3,450,000,000, at which figure, however, comparison is with \$5,568,-000,000 a year ago, on Feb. 13 1929. The changes for the week in the different categories of loaning show that the increase was entirely for account of out-of-town banks, the total of whose loans rising during the week from \$927,000,000 to \$989,000,000. The loans made by the reporting member banks for their own account were slightly lower, falling from \$928,000,000 to \$924,000,000, and the loans made "for account of others" were also somewhat lower, falling from \$1,547,000,000 to \$1,536,000,000.

The Federal Reserve banks in their own returns also show no important or significant changes. Member bank borrowing for the 12 Reserve banks

as a whole remained substantially unchanged, the discount of the 12 Reserve institutions being \$381,-914,000 this week against \$381,422,000 last week, although we notice that at the Federal Reserve Bank of New York, considered by itself, member bank borrowing increased from \$54,720,000 to \$79,298,000. Holdings of acceptances of the 12 Reserve banks purchased in the open market decreased during the week from \$295,791,000 to \$276,084,000, while holdings of United States Government securities increased slightly, rising from \$477,844,000 to \$478,560,000. Altogether, the total of bill and security holdings the present week stands at \$1,147,838,000 against \$1,167,237,000 last week, showing a reduction during the week in the amount of Reserve credit outstanding of \$19,399,000. The amount of Federal Reserve notes in circulation is \$1,682,444,000 as against \$1.683,481,000 last week, while gold reserves are slightly lower, being \$2,974,978,000 against \$2,-976,563,000.

The foreign trade of the United States during January was again considerably reduced, as it has been for several months past. Merchandise exports have declined each month since September, and imports since November. Prior to the dates last mentioned, an increase appeared for practically each month in 1929. The unsettlement incident to the financial disturbance in the latter part of last year is undoubtedly reflected in the decreased foreign trade movement. Exports of merchandise in January were valued at \$417,000,000, and imports at \$312,000,000. For the corresponding month of last year the value of exports was \$4\$8,023,000, and of imports \$368,897,000. There was also a decline last month in exports compared with December, in which month the merchandise movement out of the United States was valued at \$426,596,000, but imports in January were slightly above those of December, the amount for the last-mentioned month having been \$310,573,000. Exports in January were the lowest since August, while imports, with the exception of the preceding month, were the lowest in three years.

There continues to be a large balance on the export side, the latter being in excess of imports for January by \$105,000,000. For December the excess of exports was \$116,023,000, and for January of last year it was \$119,126,000.

A part of the decline in the value of merchandise exports for last month was due to a further reduction in the value of the cotton movement abroad, as it was both in November and December. Cotton exports in January were only 728,740 bales, against 813,800 bales in January of last year. The value of cotton exports last month was \$72,112,000, a reduction of \$12,770,000 from the movement a year ago. These figures show that the loss in the value of exports other than cotton in the month just closed from January of the preceding year was approximately \$58,850,000.

For the seven months of the fiscal year to and including January, merchandise exports were valued at \$3,035,004,000, and imports at \$2,425,832,000. A similar statement for the corresponding period of the preceding fiscal year shows exports of \$3,238,391,000 and imports of \$2,374,410,000. The excess of exports over imports for the current seven months amounts to \$609,172,000, while for the earlier period exports exceeded imports by \$863,981,000. So far the current fiscal year, merchandise exports show a decline of \$203,387,000, while imports still have to their credit an increase, but for only \$51,423,000.

Another reversal appears in the gold movement in January. Gold exports amounted to \$\$,948,000 against \$12,908,000 for imports. In December gold exports jumped rather suddenly to \$72,547,000, while imports were only \$\$,121,000. In January of last year exports of gold were \$1,378,000 and imports \$48,577,000. Exports of silver last month were \$5,891,000 and imports \$4,756,000.

The stock market this week has continued to develop growing confidence, with a further appreciation in market prices of stocks. There have been no special features distinguishing the course of speculation. Trade revival, as reflected in the favorable accounts regarding the state of the iron and steel trade, with no untoward development either in the industrial or the financial world, seem to be the main basis for the continued rise in security prices. And low money rates also count as a favoring circumstance, the call loan rate on the Stock Exchange never having been above $4\frac{1}{2}$ % during the week, and on Tuesday and Thursday having been only 4%. The market displayed its most confident tone on Thursday, and further advances occurred on Friday.

The volume of business on the Stock Exchange still further increased. On the New York Stock Exchange the sales at the half-day session of Saturday were 1,657,500 shares; on the full day Monday they were 3,165,670 shares; on Tuesday, 3,321,710 shares; Wednesday, being Lincoln's Birthday, was a holiday; on Thursday, the sales reached 3,668,730 shares, and on Friday, 3,513,850 shares. On the New York Curb Exchange the sales last Saturday were 589,226 shares; on Monday, 964,100 shares; on Tuesday, 935,700 shares; on Thursday, 1,111,200 shares, and on Friday, 1,000,100 shares.

Prices quite generally show gains for the week, though the usual exceptions appear. American Can closed yesterday at 143% against 1345% on Friday of last week; United States Industrial Alcohol at 1203/4 against 1181/2; Commercial Solvents at 30 against 2934; Corn Products at 9534 against 967/8; Shattuck & Co. at 453/4 against 467/8; Columbia Graphophone at 293/4 against 29; Brooklyn Union Gas at 163 against 1451/2; North American at 1071/4 against 1021/4; American Water Works at 1053/4 against 971/2; Electric Power & Light at 641/2 against 61; Pacific Gas & Elec. at 611/2 against 571/2; Standard Gas & Elec. at 123 against 1183/8; Consolidated Gas of N. Y. at 119 against 111; Columbia Gas & Elec. at 911/8 against 881/8; Public Service of N. J. at 94 against 89; International Harvester at 90 against 88; Sears, Roebuck & Co. at 903/8 against 95; Montgomery Ward & Co. at 423% against 451%; Woolworth at 631/2 against 67; Safeway Stores at 107 against 116; Western Union Telegraph at 213 against 2101/4; Amer. Tel. & Tel. at 2315/8 against 2291/4, and Int. Tel. & Tel. at 687/8 against 651/8.

Allied Chemical & Dye closed yesterday at 276 against 276 on Friday of last week; Davison Chemical at 331/8 against 34; E. I. du Pont de Nemours at 1271/8 against 126; Radio Corp. at 425/8 against 385/8; General Elec. at 76 against 747/8; National Cash Register at 775/8 against 791/2; Fox Film A at 305/8 against 371/8; International Combustion Engineering at 65/8 against 61/2; International Nickel at 377/8 against 387/8; A. M. Byers at 87 against 823/8; Timken Roller Bearing at 785/8 against 75; Warner Bros.

Pictures at 61% against 57%; Mack Trucks at 80%against 83%; Yellow Truck & Coach at 22 against 19%; Johns-Manville at 142 against 141%; National Dairy Products at 50% against 49%; National Bellas Hess at 13% against 14; Associated Dry Goods at 33% against 34%; Lambert Co. at 104% against 102%; Texas Gulf Sulphur at 63% against 63%, and Kolster Radio at 3 against 2%.

The steel stocks shares were leaders in the general rise. United States Steel closed yesterday at 1891/4 against 1823% on Friday of last week; Bethlehem Steel at 102 against 1001/2, and Republic Iron & Steel at 781/2 against 74. The motor stocks are mostly lower. General Motors closed yesterday at ex-div. 433% against 433% on Friday of last week; Nash Motors at 511/2 against 53; Chrysler at 38 against 40; Packard Motors at ex-div. 161/2 against 165/8; Hudson Motor Car at 58 against 593%, and Hupp Motors at 22 against 225%. The rubber group has been exceptionally strong. Goodyear Rubber & Tire closed yesterday at 831/2 against 715% on Friday of last week; B. F. Goodrich at 471/4 against 461/2; United States Rubber at 273% against 253%, and the preferred at 511/4 bid against 50.

Railroad stocks have been in renewed demand at advancing prices. Pennsylvania RR. closed yesterday at 84½ against 80¼ on Friday of last week; New York Central at 191½ against 184; Erie RR. at 63% against 605%; Del. & Hudson at 178½ against 177; Baltimore & Ohio at 118¼ against 117¼; New Haven at 1223% against 113½; Union Pacific at 2317% against 228; Southern Pacific at 124 against 122; Missouri Pacific at 92 against 88½; St. Louis-San Francisco at 113 against 112½; Missouri-Kansas-Texas at 53 against 54; Rock Island at 125½ against 120¼; Great Northern at 99 against 99¼, and Northern Pacific at 93% against 91.

The oil shares have regained very little of their losses of last week. Standard Oil of N. J. closed yesterday at 61% against 62% on Friday of last week; Simms Petroleum at 25 against 25%; Skelly Oil at 29% ex. div. against 30½ bid; Atlantic Refining at 40% against 38%; Texas Corp. at 52% against 53½; Pan American B at 52% against 53½; Phillips Petroleum at 30% against 33½; Richfield Oil at 23½ against 24¼; Standard Oil of N. Y. at 32¼ against 32½, and Pure Oil at 22% against 23%.

The copper shares are mostly lower on a large increase in the stocks of the metal. Anaconda Copper closed yesterday at 76 against 78½ on Friday of last week; Kennecott Copper at 58¼ against 61½; Calumet & Hecla at 30½ against 31½; Andes Copper at 34½ against 36⅛; Inspiration Copper at 28¾ against 30¼; Calumet & Arizona at 84 against 86¼; Granby Consolidated Copper at 57 against 58½; American Smelting & Refining at 73½ against 76¾, and U. S. Smelting & Ref. at 33⅓ against 34¼.

Trading on the larger European stock markets was again very quiet this week, while prices moved irregularly lower under the influence of sporadic selling. Public interest in the stock markets at London, Paris and Berlin has been at a low ebb for some months and operations have been largely professional. Reassuring developments such as the general declines in bank discount rates have brought small temporary improvement from time to time, but industrial and political uncertainties have prevented any far-reaching response. In the current week much concern was expressed in European financial

circles regarding the fall in prices of some important commodities. The decline in wheat created a very pessimistic feeling on the London market, according to a dispatch to the New York "Times." Dealings in London were further subdued by settlements in shares of the Hatry group of companies, which were effected Thursday. No further difficulties occurred, however, owing chiefly to the arrangements made by the unofficial Stock Exchange committee for the formation of a pool of \$5,000,000 to cover losses. Some anxiety is also being caused in London by the poor results currently achieved with offerings of new issues. An important issue was recently left largely with the underwriters, while other offerings are meeting little response.

The London Stock Exchange was fairly firm at the start of trading Monday, but business was small and mainly professional. British funds improved slightly and Indian loans also gained. Some irregularity developed, however, among British industrial stocks while international issues were mostly Small advances in the gilt-edged list were lower. again the rule Tuesday, while encouragement was gained from an oversubscription of a £6,000,000 Government of India loan. This development counteracted to a degree the poor results attained in a £7.000,000 Central Electricity Board offering, of which 92% was left with the underwriters. Business was on a small scale, and the general list remained irregular. Interest at London centered on home rails Wednesday, as three of the four great railway systems of England announced increased dividends. Market expectations were exceeded by the Great Western Railway, which is paying a total of $7\frac{1}{2}\%$ for the year as compared with 5% the year before, and by the Southern, which is paying $2\frac{1}{2}\%$ as against 2%. Disappointment was expressed, however, at the Midland Railway distribution, which is $4\frac{1}{2}\%$ for the year, or 1% more than for the previous year. Gilt-edged securities were steady, but shipping shares dropped sharply. The day's business was small, notwithstanding the developments. Most sections of the market were weak Thursday. British funds sold off slightly, while home rails suffered from profit-taking. British industrials were uncertain, but the tobacco and copper groups both lost considerable ground. Gilt-edged stocks were easier at London yesterday, while the market as a whole was irregular.

Prices of issues listed on the Paris Bourse slowly receded in the opening session of the week, while transactions were on a very limited scale. The Paris market has been extremely dull for weeks, and a disposition is growing to have the French Government take steps for improvement by lowering the taxes on transactions and on the profits of industrial companies. Turkish securities led the downward procession on the Bourse Tuesday. Advices from Angora failed to deny reports of a moratorium of the Turkish debt payments and the selling wave that followed caused a sharp drop. French stocks also remained weak, and the market thus receded as a whole. A measure of improvement was noted Wednesday, both in the prices of French securities and in the volume of business on the Bourse. Turkish loans were again weak, however, and international stocks also dropped. The Paris market resumed its downward course Thursday, virtually the entire list losing ground. Much of the liquidation was attributed to Belgian sources, as a number of bankruptcies | Donald also held a "confident hope" that the matter

have been reported from Brussels. Prices on the Bourse finally steadied to some extent yesterday.

The Berlin Boerse was dull and depressed at the opening of trading Monday, but slight improvement took place as the session progressed. Business was in very small volume, with the exception of a few issues which were favored by speculators. Telephone Berliner advanced sharply on the announcement of the merger of the company with the Standard Electric Co., and a few artificial silk issues also gained. Transactions were on a still smaller scale Tuesday, as the Reichstag began its discussion of the new Young plan. Prices were irregular, with the general trend downward. The trend at Berlin was again uncertain Wednesday, with the volume of trading extremely small. North German Lloyd shares dropped two points in connection with the fire on the liner Muenchen in New York. Easier money conditions caused a slightly better tone toward the close of the session. Weakness in Siemens Halske debentures at Amsterdam Thursday caused a decline of more than 5 points in the shares of this company at Berlin, but the Boerse otherwise was dull and uninteresting. Most stocks weakened slightly in the course of the session, and the close was listless. The Berlin market was virtually unchanged in yesterday's trading.

Practical proposals for the limitation of all classes of warships were considered at the London naval conference this week by the delegates of the five principal sea powers. Questions of procedure still troubled the course of the conference to a degree, notably in the diverse views of the British and American delegations regarding the advisability of seeking complete accord first on cruisers or on battle-Ramsay MacDonald, Prime Minister of ships. Britain, is understood to have suggested early this week that the meeting proceed to definitive discussion of capital ships. Secretary of State Stimson insisted for the United States, however, that settlement should be reached on cruisers before formal talks on battleships are resumed. The conference, which began Jan. 21, was signalized this week by formal declarations on submarines on the part of all five powers represented. The statements made in a public session Tuesday were much in line with general expectations. Great Britain and the United States urged the abolition of submarines, France and Japan opposed the suggestion, and Italy remained neutral. It was made plain by the chief opponents of undersea craft, Britain and the United States, that if such vessels could not be eliminated their use in war should at least be "humanized." General assent was given to this proposal, and it was subsequently stated by Mr. Stimson that this development was "worth the visit of the American delegation to London."

An authoritative summary of the progress made at the naval conference was given by Prime Minister MacDonald Monday, in reply to questions put in the House of Commons by former Prime Minister Stanley Baldwin. Much preliminary work has been done and progress achieved all along the line, Mr. Mac-Donald stated. He added that the delegations are now nearly in accord on the difficult question of ship classification, which had proved a stumbling block at the Geneva conference of the League of Nations Preparatory Disarmament Commission. Mr. Mac-

of an equilibrium of naval strength among the nations would soon be satisfactorily adjusted. London reports to the New York "Times" from Edwin L. James, general European correspondent of that journal, it was suggested that the conference is likely to get down to its real problems by the end of this month, while "it seems to be the expectation in both British and American quarters that a naval treaty will be written and signed here by Mar. 15." Experienced observers are in agreement, according to Mr. James, that there have been few international conferences with such important issues at stake which have been marked by less bad atmosphere. "No one any longer doubts that a treaty will be made successfully," the correspondent added. "However, no one believes there will be any great reduction, and, as far as the American delegation is concerned, it will probably leave the conference with a total tonnage for America very near the figures with which it entered the conference. But the fleet will be better balanced and much nearer parity with England."

Some disturbance was caused over the last weekend by a misunderstanding regarding the statement issued by Secretary of State Stimson Feb. 6 in clarification of the American position at the conference. A summary of the declaration, prepared for publication by the American delegation, failed to make clear all details of the American proposal for curtailment of battleship fleets and extension of the holiday in capital ship construction. Both the British and American delegations indicated their willingness to bring their fleets down to 15 capital ships each in 1931, but some differences remain over the question of replacements. "While having accepted the building holiday in principle, the Americans now seek modifications in the non-replacement principle," a London report of last Saturday to the New York "Times" said. "No public pronouncement has been made on the subject, but it seems to be an open secret among all the delegations that the United States delegation would like to build at least one more 35,000-ton battleship while that size is in style. This probably would involve our scrapping four instead of three ships, leaving the total number always at fifteen." Construction of this new battleship, it appeared, would correct the disparity occasioned by the recent British construction of the Rodney and the Nelson. British views on this proposed altera-tion in the American battleship fleet were aired Monday in the London "Times" and the "Daily Herald," semi-official organs of the London Government. It was remarked in both journals that construction of such an American capital ship would lead to resumption and not to cessation of battleship building. It was suggested in some reports that the American delegation, as an alternative to the construction of the new vessel, had proposed scrapping by Britain of some of her newer capital ships rather than the older and slower ships. In reply to questions put in the House of Commons Wednesday, Prime Minister MacDonald denied that any such suggestions had been made, while A. V. Alexander, First Lord of the Admiralty, stated that there was no question of Great Britain's scrapping any of her latest battleships. "There have been a great many denials and affirmations, both official and otherwise, about this part of the American battleship program," a dispatch to the New York "Times" said. Discussion of submarines occurred Tuesday in a

plenary session at St. James's Palace to which press representatives were admitted. Mr. Alexander spoke first and proposed in behalf of the British delegation that the use of submarine vessels for purposes of war should be totally abolished. Such action, he pointed out, would make possible large savings, not only in submarines, but also in destroyers and antisubmarine units. "The powers here represented have built, are building, or have authorized over 400 of these vessels designed for submarine warfare." Mr. Alexander declared. "They are expensive in maintenance. They have most complicated machinery and a very high proportion of skilled personnel is required to man them. They are very expensive to build. They require extensive provision in the way of shore establishments and depot ships to maintain them. Their abolition would in itself, therefore, achieve enormous reduction in armaments expenditures." The British case for abolition of these ships was summarized by the First Lord of the Admiralty as follows: (1) in the general interest of humanity; (2) in consideration of the British view that the vessels are primarily offensive instruments; (3) in order to secure a most substantial contribution of disarmament and peace; (4) in view of the very important financial relief to be obtained; (5) in consideration of the conditions of service of the personnel and the undue risks which can be abolished. "We should also propose to the conference," Mr. Alexander added, "that if submarines are to be retained, the most definite conditions should be laid down and agreed upon with a view to preventing these vessels from being used as commerce destroyers in violation of international law and practice, under the standards of conduct which public opinion most certainly demands. To that end we should seek to revive the agreement signed in Washington on Feb. 6 1922, but which was not fully ratified by the signatory powers to regulate the attack of merchant ships by submarines in accordance with the rules and practice set out in that treaty."

Secretary of State Stimson, who followed, made plain that the attitude of the United States Government has changed since 1922, when opposition was registered to the abolition of submarines. "Years of reflection have tended to crystallize the conviction through the world that inhumane use of the submarine should cease," Mr. Stimson said. After dealing briefly with some of the technical considerations involved, he added that "we cannot but feel that for this conference to sanction an instrument of war, the abuses of which were directly responsible for calling the Western world into the greatest European war of history, would be a contradiction of the purposes for which we have met." The possibility of a further similar occurrence, "which human experience shows is likely to be repeated," was urged in support of the American contention for abolition of submarines.

Marine Minister Leygues reiterated in behalf of the French delegation the statements on French naval needs previously outlined by Premier Tardieu. The requirements of France in connection with her metropolitan and colonial situation include the use of the submarine, he indicated. "The French Government," he continued, "considers that the submarine is a warship like all the others; that it is a defensive weapon which all the naval powers cannot do without, and that the use of the submarine should and can be regulated like any other warship." A navy of lesser order with extensive responsibilities cannot do without the defensive means offered by submarines, M. Leygues contended. France relies upon such vessels, he said, for: (1) protection against enemy attacks of populations and cities along the coast in the absence of the high seas fleets and the defense of distant dependencies pending the arrival of supporting fleets; (2) escort and protective convoys transporting men and goods between the mother country and the colonies or between the colonies themselves; (3) guarding lines of communication over long distances when bases are lacking; (4) scouting and protection of the high seas fleets. Conceding the necessity for the regulation of the submarine, M. Leygues proposed that the conference adopt the following resolution: "A committee shall be appointed to prepare an agreement, open for signature of all naval powers, forbidding submarines to act toward merchant ships otherwise than in strict conformity with rules, either present or future, to be observed by surface warships."

Admiral Takarabe assured the conference that the Japanese delegation fully sympathizes with the high humanitarian motives that prompted the suggestions for abolition of submarines. Although most emphatically opposed to unrestricted submarine warfare, Mr. Takarabe declared that the submarine has its proper legitimate use. Japan sees in the submarine, he said, "a convenient and adequate means for providing for her national defense," with which she can look after her extensive waterways and vulnerable points. While desiring to retain submarines, Japan "heartily associates herself with the proposal which is apparently in the minds of many of my colleagues, to submit this category of arms to the strict circumscription of law." Signor Grandi of Italy welcomed the proposals for restricting the use of the submarine in warfare. In the present state of armaments the Italian Government believes, he declared, that abolition of submarines would favor the stronger navies to the disadvantage of the weaker, but the Italian Government was nevertheless determined to keep an open mind on the subject of total abolition. "We do not object in principle to the abolition of submarines," he said, "if all the naval powers concur therein, and if such an abolition is to exert a decisive influence in bringing about that drastic reduction of armaments which the whole world desires."

Secretary of State Stimson declared to press correspondents after this meeting of the delegates that the London conference has solved the problem of the submarine insofar as that problem involves the use of the vessels in sinking unarmed merchant ships. He remarked in the most positive language that the conference took a definite, not a tentative, position on the question, a dispatch to the New York "Times" reported. "I regard that single incident as worth the visit of the American delegation to London," Mr. Stimson said. "That marks a step forward in a matter that our country once went to war about. There was an agreement. Other things have been referred to subcommittees to investigate and report, but this, if you read the language of the resolution offered by the French and agreed to by everybody, was a direction to the committee to draft a paper. The second thing I want to call to your attention is the impetus that was received for a movement for the eventual abolition of submarines. I think German reparations payments and the correlative

this debate shows a rising tide in the desire on the part of the nations for the eventual abolition of that weapon of warfare and marks a step in that direction."

Statements in clarification of the French and Japanese positions at the London conference were issued by these delegations Thursday, in keeping with the practice inaugurated by the American and British representatives on Feb. 6 and 7. The French memorandum indicated that the present fleet of France, afloat, building or authorized, consists of 681,808 English tons, a reduction of 457,192 from the comparable total of 1,139,000 of 1914. The current French naval budget, moreover, was shown to be inferior to the pre-war budget. "It may therefore be said that in the same spirit as Great Britain and without waiting for a possible decision of the present conference, France has already and in considerable measure cut down her building program," the statement continued. The French delegation, nevertheless, declared its willingness to accept as a ground for an agreement a naval building program running from 1930 to 1936 as previously proposed by the American and British delegations. Under this program, France would have a fleet on Dec. 31 1936 of 724,479 English tons, made up as follows: Capital ships coming under the Washington substitution rule, 156,466; capital ships not under the Washington substitution rules, 52,791; cruisers of 10,000 tons each, 100,000; old cruisers mounting guns with a calibre over eight inches, 24,850; light ships, 258,597; aircraft carriers, 32,146, and submarines, 99,629. "In case a naval holiday should be proposed for battleships until 1936, France would be willing to accept such a holiday up to a total of 105,000 tons," the statement said.

The Japanese statement made clear the determination of that delegation to contribute their full share in bringing about all-round reduction in naval weapons to the end that human happiness may be increased and financial burdens of peoples lightened. "Too strict an application either of the principles of global tonnage or division into categories would not be suitable for arriving at agreement among the powers concerned," the statement added. "The Japanese delegation is in favor of a formula which would harmonize the two extremes, allowing transfers in certain categories. The Japanese delegation is ready to agree not to lay down any capital ships until 1936. It also deems it desirable that agreement should be reached so as to reduce the size of capital ships to 25,000 tons from the 35,000 tons stipulated in the Washington treaty. The maximum gun calibre should be reduced to 14 inches. Japan advocates the lengthening of the age limit from 20 to 26 years." A desire for limitation of aircraft carriers of less than 10,000 tons also was indicated by the Japanese. Strength in proportion to other fleets, particularly in eight-inch gun cruisers, was stipulated as a particular requirement of Japan, but it was considered by observers especially significant that the Japanese statement made no express declaration on the 70% ratio of American strength in 10,000-ton cruisers previously asked. The Japanese statement concluded with suggestions for limiting the size and extending the age limits of small cruisers and submarines.

Parliamentary debate on the new Young plan of

agreements which were signed by the interested governments at The Hague Jan. 20 was begun in the German Reichstag Tuesday. Dr. Julius Curtius, Foreign Minister of the Coalition Government, presented the bills for passage by the chief German law-making body and set forth their significance in an able address. Opposition to the proposed legislation promptly developed, chiefly from Dr. Alfred Hugenberg, the Nationalist leader, but early passage of the more important agreements was nevertheless considered assured. The Reichstag was asked to consider not merely the Young plan proper, but also the special reparations agreement with the United States, the new Reichsbank and German railway statutes, and finally the Polish liquidation agreement. The only measure that may meet defeat, dispatches indicated, is the Polish agreement. Passage of the other agreements by the Reichstag will be followed by rapid consideration of the Young plan accords in the French, British, Italian, and other Parliaments, in all of which speedy acceptance is considered probable. Completion of this cycle will finally clear the way for full legal operation of the Young plan, which was signed by the Paris experts on June 7, last year. Payments by Germany have been made in accordance with the lower schedule for some time in the expectation of eventual acceptance by all interested governments.

In opening the discussion on the plan in the Reichstag, Dr. Curtius enumerated five reasons for considering the plan a step forward from the German viewpoint. First, the new arrangement would fix the limits of Germany's reparations liability; second, the Young plan annuities are much lower than those of the Dawes plan which it is to supplant; third, the Young plan offers even better guarantees for the maintenance of German currency and industry than the Dawes plan; fourth, the new scheme removes foreign control and supervision from German business, and fifth, it means the end of foreign occupation of German territory. "The sole and only valid test for a decision on the Young plan," Dr. Curtius told the Reichstag, "is the answer to the question as to whether anything better could have been attained by our experts and the German Government, and whether that which has been attained means progress as compared with the existing state of affairs or not. The first question the German Cabinet answers negatively and the second question affirmatively." Dr. Hugenberg led the attack on the Young plan in an extreme speech. Acceptance of the plan will bring Germany to the brink of decay and Bolshevism, he declared, and German sickness and death would "spread the germs of the disease to all Western countries." In subsequent sessions of the Reichstag the plan gained the support of such eminent German parliamentarians as Dr. Bernhard Dernburg. The bills are to be discussed by Reichstag committees for a week or 10 days, after which they will come up for final ratification. This is to occur before Feb. 25, in keeping with an agreement said to have been reached between Dr. Curtius and Premier Andre Tardieu of France.

The committee of three bankers appointed to consider details of the organization of the Bank for International Settlements, which is an integral part of the Young plan, met this week in Basle and Milan. Meetings at Basle, the seat of the new bank, were for the purpose of selecting a building where temporary quarters can be established in time for

the first meeting of the bank's governing body on Mar. 5. In Milan the committee discussed problems of organization with officials of the Bank of Italy, similar discussions having already taken place in Paris, Berlin and Brussels. Some objections were voiced in the German press this week to the selection of Pierre Quesnay of the Bank of France as the Director General of the Bank for International Settlements. The statements aroused little concern in France, where it was confidently assumed that M. Quesnay will ultimately obtain the post. A Paris dispatch of Feb. 9 to the New York "Herald Tribune" indicated on "high authority" that Gates W. McGarrah and Leon Fraser will be the American directors of the Bank. Mr. McGarrah, who is Chairman of the Board of the Federal Reserve Bank of New York, is to be elected Chairman of the Bank for International Settlements, the report said.

The first issue of reparations bonds under arrangements to be made by the Bank will probably be floated in May, according to a Paris dispatch to the New York "Times." The United States is to be asked to subscribe the largest allotment in the \$300,000,000 bond issue, the report indicated. "France is said to be willing to assume one-third, but from the various conferences held so far with various European banks it may be difficult to place the remaining \$100,000,000 in European markets," the dispatch said. "Britain does not desire more than the minimum, which was fixed at 10% of the annuities due to her under The Hague agreements. Germany has reluctantly agreed to place \$12,500,000. Italy is now being sounded, but it is believed she also desires to keep to the minimum, so that with what Belgium and perhaps, indirectly, some other European markets will absorb, there remains as much as \$50,000,000 uncovered. If the United States should accept this additional allotment it would support just half the first slice of the Young plan loan." Details of the loan are to be settled in March when the bank's directorate meets, it was said.

Profound improvement in the political situation in Spain has followed the relinquishment of power on Jan. 28 of the Dictator, General Primo de Rivera, and the appointment of General d'Amaso Berenguer as Premier to guide the country toward Constitutional government. One of the first acts of the new Premier after forming his Cabinet was the publication of a decree of general amnesty, which provided for the immediate liberation of all political prisoners. The amnesty, which also ended all political exilings, affected numerous Spaniards and caused rejoicing throughout the country. The censorship on dispatches of foreign correspondents in Spain was promptly lifted, but that on domestic newspapers was continued. Premier Berenguer indicated, however, that the censorship in Spain will be lifted gradually. Steps were taken in Madrid last week for the formation of two political parties to replace those dissolved by the former regime. Confidence in the new Premier quickly spread in Spain. according to a Madrid report of last Saturday to the New York "Times." "The Government's chief accomplishment," the dispatch said, "has consisted in rearranging the administrative structure which had been built around one man and which had to be modified to meet the needs of an administration which intends to hand power back to the people." General Primo de Rivera left Spain this week for

Paris, where, it is understood, he intends to stay for several weeks.

A treaty of friendship between Italy and Austria was signed in Rome, Feb. 7, by Premier Benito Mussolini of Italy and Johann Schober, Chancellor of Austria, marking further improvement in the relations of these States. Provision is made in the new instrument for conciliation and for judicial settlement of disputes. In other respects, also, the treaty is similar to those previously signed by Fascist Italy with Hungary, Bulgaria, Germany, and other countries. The pact, however, does not apply to any question that may arise in regard to Southern Tyrol. A dispute over Italian treatment of the Germanspeaking minority population of the Tyrol caused a severe strain in the relations of the two countries some time ago, and diplomatic relations were severed for a while. Such matters, according to international law, come within the jurisdiction of Italy alone and they are, therefore, automatically excluded from the new pact. The duration of the treaty is fixed at 10 years, with provision for renewal. It will be registered with the Secretariat of the League of Nations. There are no economic clauses in the treaty, a Rome dispatch to the New York "Times" indicates, but experts of the two countries were said to be negotiating a trade agreement intended to improve the commercial relations of the two countries. The treaty was signed in the Palazzo Venezia at Rome, which was formerly the property of the Austrian Crown and now is the official residence of the Italian Prime Minister.

A hotly contested Presidential election in Colombia last Sunday resulted in the election of Dr. Enrique Olaya Herrera, Minister to the United States and Liberal candidate, to succeed Dr. Abadia Mendez as the chief executive of the South American republic. Interest in the election was keen and the largest vote in the country's history was cast, reports indi-Dr. Olaya ran for the Presidency on a cated. national ticket in which he emphasized the broad national needs of Colombia, particularly along economic lines, and stood for a program of friendship in Colombia toward foreign investments in that country. His chief opponents were General Alfredo Vasquez Cobo, candidate of the Independent Conservatives, and Dr. Guillermo Valencia, regular Conservative. Dr. Olaya, however, received more votes than both his rivals together. In a Washington special to the New York "Times," it was indicated that the new Colombian President will return to this country for a brief period to complete his work at the Legation before being inaugurated on Aug. 7. Dr. Olaya is 48 years old and has been in politics much of his life. It was he who, as Foreign Minister in 1922, induced the Colombian Congress to ratify the treaty with the United States which settled difficulties between the two countries over the Panama incident of 1903. He resigned as Foreign Minister shortly thereafter to become Minister to the United States.

The National Bank of Austria on Feb. 10 reduced its rate of discount from 7%, the figure in effect since Jan. 25, to $6\frac{1}{2}\%$. On Feb. 13 the National Bank of Hungary also reduced from 7% to $6\frac{1}{2}\%$. The 7%% rate had prevailed since Jan. 25. On Feb. 11 the Bank of Java marked its rate down from

 $5\frac{1}{6}$ / 6 to 5%. Other than this, there have been no C anges this week in the discount rates of any of the European central banks. Rates continue at 7% in Italy; at 6% in Germany; at $5\frac{1}{2}$ % in Spain; at 5% in Norway and Denmark; at $4\frac{1}{2}$ % in Great Britain and Sweden; at 4% in Holland; at $3\frac{1}{2}$ % in Belgium and Switzerland, and at 3% in France. In the London open market discounts for short bills yesterday were 4% against 3 15/16% on Friday of last week, and 3 15/16% for long bills against 3 15/16% the previous Friday. Money on call in London yesterday was $3\frac{3}{8}$ %. At Paris the open market rate remains at 3%, and in Switzerland, at $2\frac{3}{4}$ %.

The Bank of England statement for the week ended Feb. 12 shows an increase in gold holdings of £287,113, bringing the total up to £151,499,219 as compared with £150,154,375 a year ago. A contraction of £687,000 appears in note circulation, and this, together with the gain in bullion brought about an increase of £974,000 in reserves. Public deposits decreased £5,357,000, while in other deposits a gain of £4,088,315 occurred. Other deposits consist of bankers' accounts and other accounts. The former increased £4,833,478, while the latter fell off £745,163. The proportion of reserves to liabilities is now as high as 56.43%, as against 50.2% last year and 54.95% a week ago. Loans on Government securities decreased £5,183,000, and those on other securities rose £2,959,240. The latter consist of "discounts and advances" and "securities," which increased £2,360,563 and £598,-677, respectively. The bank rate of $4\frac{1}{2}\%$, which went into effect last week, remains unchanged. Below we furnish a comparison of the various items for five years:

a On Nov. 29 1928 the induciary currency was amaigamated with Bank of England note issues, adding at that time £234, 199,000 to the amount of Bank of England notes outstanding.

The French Bank statement for the week ended Feb. 8 reveals a gain in gold holdings of 10,041,952 francs. The total of gold is thus raised to 42,931,-048,630 francs, which compares with 34,018,098,489 francs in the corresponding week last year. Credit balances abroad record a decline of 5,000,000 francs, while bills bought abroad increased 8,000,000 fransc. French commercial bills discounted register an expansion of 528,000,000 francs, while the item of advances against securities remain unchanged at 2,578,493,956 francs. Notes in circulation show a contraction of 910,000,000 francs, reducing the total of the item to 69,428,616,860 francs, as compared with 63,100,593,305 francs at the corresponding week last year. A decrease also appears in creditor current accounts of 145,000,000 francs. Below we furnish a comparison of the various items of the past two weeks and also for the corresponding week last year:

The Bank of Germany in its statement for the first week of February shows a gain of 28,891,000 marks in gold and bullion. This raises the gold holdings to 2,325,941,000 marks, compared with 2,729,-111,000 marks last year and 1,886,620,000 marks two years ago. Reserve in foreign currency, bills of exchange and checks and advances show decreases of 3,257,000 marks, 92,868,000 marks and 114,-848,000 marks, respectively. An increase appears in silver and other coin of 2,142,000 marks and in notes on other German banks of 9,930,000 marks, while deposits abroad remain unchanged. Investments increased 660,000 marks, while other coin declined 103,270,000 marks. On the liabilities side of the account, note circulation shows a contraction of 272,288,000 marks, reducing the total of notes outstanding to 4,380,954,000 marks. The total of notes in the corresponding week last year amounted to 4,236,113,000 marks and the year before to 3,983,840,000 marks. An increase appears in other daily maturing obligations of 94,167,000 marks and a decrease in other liabilities of 94,499,000 marks. A comparison of the various items of the Bank's return for the past three years is furnished below: REICHSBANK'S COMPARATIVE STATEMENT.

Money rates in the New York market showed little change from previous periods in the short business week now ending. The leveling process in the discount rates of Federal Reserve banks was continued. The St. Louis institution, which had maintained a 5% rediscount figure, reduced its level to 41/2%, Monday, while the Boston and Kansas City banks came down from 41/2% to 4% later in the week. The similar downward tendency among European institutions was marked by a drop from 7% to 61/2% in the rate of the Austrian National Bank, Monday. Stock Exchange call loans on the local market fluctuated between 4% and 41/2% all week. After renewing at 4% Monday, the rate was marked up to $4\frac{1}{2}\%$ for new loans, as the market tightened a little when banks withdrew \$30,000,000. The 4% level prevailed all of Tuesday, with some funds available in the outside market at 31/2%. All loans were again 4% on the Stock Exchange Thursday, but withdrawals by the banks amounted to \$15,-000,000, and the market remained sufficiently close to prevent any outside offerings at concessions. After renewing at 4% yesterday, call loans were marked up to 41/2%. Withdrawals by the banks were estimated at \$40,000,000. Time loans were

and bond collateral increased \$48,000,000 for the week ended Wednesday night, according to the tabulation made by the Federal Reserve Bank of New York. Gold movements reported by the institution for the same period consisted of imports of \$92,000, with no exports and no net change in the stock of gold held ear-marked for foreign account. The daily statement for Thursday, however, showed imports of \$5,110,000 from Brazil.

Dealing in detail with the call loan rates on the Stock Exchange from day to day, the renewal rate was 4% on Monday, from which there was an advance to 41/2% in the afternoon. On Tuesday and Thursday (Wednesday was Lincoln's Birthday, and a holiday) all loans were at 4%. On Friday, after renewals had again been effected at 4%, the rate advanced to 41/2%. Time money displayed little or no activity. Rates each day have been 41/4@41/2% for 30 days, 41/2@43/4% for 60 days, 45/8@43/4% for 90 days to four months, and 43/4 @5% for five months and six months. On Friday, however, the range for 90 days and four months widened to 41/2@43/4%. The demand for commercial paper in the open market was unusually brisk throughout the week. Rates for names of choice character maturing in four to six months continue at 41/2@43/4%. Names less well known are quoted at 43/4 @5%, with New England mill paper at 5%.

Prime bank acceptances have shown continued activity, with demand and supply remaining on a fairly even level. Rates have remained unchanged. The Federal Reserve Bank on Tuesday reduced its buying rate for acceptances by $\frac{1}{8}\%$. The new rates are 33/4% on maturities of two months or less, and 31/8% for longer maturities. The Reserve Banks have decreased their holdings of acceptances during the week from \$295,791,000 to \$276,084,000. Their holdings of acceptances for their foreign correspondents fell from \$526,924,000 to \$523,891,000. The posted rates of the American Acceptance Council remain at 37/8% bid and 33/4% asked for bills running 30 days, and also for 60 and 90 days, and likewise for 120 days, and 4% bid and 37/8% asked for 150 and 180 days. The Acceptance Council no longer gives the rates for call loans secured by acceptances, the rate varying widely. Open market rates for acceptances have also remained unchanged, as follows:

Prime eligible bilis	Bid.	Days- Asked. 3%	Bid.	Days- Asked. 31/2	Bid	Asked.
Prime eligible bills	Bid.	Days Asked. 334	Bid.	Days Asked. 3¾	Bid.	Asked.
FOR DELIVE Eligible member banks Eligible non-member banks						

 $4\frac{1}{2}\%$ for new loans, as the market tightened a little when banks withdrew \$30,000,000. The 4% level prevailed all of Tuesday, with some funds available in the outside market at $3\frac{1}{2}\%$. All loans were again 4% on the Stock Exchange Thursday, but withdrawals by the banks amounted to \$15,-000,000, and the market remained sufficiently close to prevent any outside offerings at concessions. After renewing at 4% yesterday, call loans were marked up to $4\frac{1}{2}\%$. Withdrawals by the banks were estimated at \$40,000,000. Time loans were unchanged all week. Sterling exchange has been under pressure during the greater part of the week, and in Thursday's trading cable transfers sold as low as 4.86 5-32, a new low for the year. The range this week has been from 4.85 11-16 to 4.861/s for bankers' sight, compared with 4.857/8 to 4.861/4 last week. The range for cable transfers has been from 4.86 15-32 to 4.863/8, compared with 4.865-16 to $4.86\frac{5}{8}$ a week ago. Considering the general drop in money rates at all centres, as evidenced in the past few weeks by reductions in the official discount rates at Paris, London, New York and Berlin, the lower range for sterling exchange does not seem abnormal, although mid-February marks the beginning of seasonal firmness of exchange on London with respect to New York. The weakness in sterling is attributed in part to the low rates prevailing on the Latin American countries and the Far East, since softness in these exchanges leads to drawing upon London. However, many bankers ascribe the weakness to recent purchases of American securities for British account. It is also assumed that there is much selling of sterling for Japanese account and withdrawal of Japanese funds on account of the return of confidence and business revival in Japan. The Bank of England has succeeded in increasing its gold holdings without advancing its statutory rate for purchases in the open market.

This week the Bank shows an increase in gold holdings of £287,113, the total standing at £151,-499,219. On Saturday the Bank sold £1,727 in gold bars. On Monday the Bank received £12,800 in sovereigns from abroad and sold £1,714 in gold bars. On Tuesday the Bank apparently took none of the open market gold. There were £991,000 available, of which £911,000 were taken for shipment to Germany at a price of 84s. 107/8d. and £80,000 were absorbed by the requirements of the trade and of India. Next week £827,000 will be available and the following week £777,000 and £250,000 in sovereigns. Despite rumors to the contrary, London bullion brokers foresee a further shipment of £2,000,-000 gold from Spain. A shipment of £7,000,000 known to be coming from Australia is expected to arrive at the end of April and will come in the form of sovereigns. On Wednesday the Bank sold £1,721 in gold bars and bought £8 in foreign gold coin. On Thursday the Bank received £25,000 in sovereigns.

At the Port of New York the gold movement for the week Feb. 6-Feb. 12, inclusive, as reported by the Federal Reserve Bank of New York, consisted of imports of \$92,000 chiefly from Latin-American countries. There were no gold exports and no change in gold earmarked for foreign account. On Thursday, however, the Federal Reserve Bank reported the receipt of \$5,110,000 gold from Brazil. On Tuesday it was announced that \$3,750,000 gold had been received from Japan at San Francisco. In tabular form, the gold movement at the Port of New York for the week ended Feb. 12, as reported by the Federal Reserve Bank of New York, was as follows:

GOLD MOVEMENT AT NEW YORK, FEB. 6-FEB. 12, INCLUSIVE
Imports
\$92,000 chiefly from Latin America
\$92,000 total

Net Change in Gold Earmarked for Foreign Account. None

Canadian exchange continues at a discount, though the rate is less unfavorable to Montreal than in recent weeks. On Saturday last Montreal funds were at 13-16 of 1% discount; on Monday 23-32 of 1%; on Tuesday 25-32 of 1%; on Thursday $\frac{1}{16}$ of 1%; and on Friday at $\frac{1}{16}$ of 1%.

Referring to day-to-day rates, sterling exchange on Saturday last was steady. Bankers' sight was 4.86 1-16@4.861/s; cable transfers 4.86 7-16@4.861/2. On Monday sterling was under pressure. The range was 4.85 27-32@4.86 for bankers' sight and 4.86 7-32 @4.863% for cable transfers. On Tuesday the market continued under pressure. Bankers' sight was 4.85 27.-32@4.85 15.16; cable transfers 4.86 7-32@ 4.86 9-32. On Wednesday, Lincoln's Birthday, there was no market in New York. On Thursday sterling continued under pressure. The range was $4.85 \, 11-16$ @ $4.85 \, 15-16$ for bankers' sight and $4.86 \, 3-16@$ $4.86 \frac{1}{4}$ for cable transfers. On Friday the range was 4.85 23-32@4.86 for bankers' sight and 4.86 5-32 @4.86 7-32 for cable transfers. Closing quotations on Friday were 4.85 13-16 for demand and 4.86 3-16 for cable transfers. Commercial sight bills finished at 4.85 9-16, sixty-day bills at 4.821/8, ninety-day bills at 4.805%, documents for payment (sixty days) at 4.821/8, and seven-day grain bills at 4.84 15-16. Cotton and grain for payment closed at 4.85 9-16.

Exchange on the Continental countries has been dull, irregular, and inclined to ease. This condition is due in part to the easier rates on sterling, but is more largely a consequence of the general drop in money rates at all international centres. On Tuesday and again on Thursday French francs sold at new low levels for the year. The weakness in the franc is generally attributed to the low interest rates in Paris, making it possible for extensive shortterm loans in markets outside France. Hence there is a demand in Paris for other currencies without a corresponding demand anywhere for francs. French bankers are believed to be heavier lenders in the German markets and it is generally thought that there is a considerable flow of French funds to the New York security markets with the return of confidence here. The gold reserves of the Bank of France show an increase for the week ending Feb. 7 of 10,-041,000 francs, bringing the total to 42,931,000,000 francs, which compares with 34,018,000,000 francs a year ago. The gold reserves of the Bank of France are now at record high, the Bank's ratio of reserves is also at record high, standing 49.36%, which compares with 41.25% a year ago and with the legal requirement of 35%. Present rates for francs with respect to both dollars and sterling and also with respect to a number of other currencies make gold imports by Paris impossible. It is believed that the gold imports are not likely to be resumed in the near future. This view is based partly on the continued unfavorable character of the visible balance of French foreign trade.

German marks have been especially weak. Cable transfers sold in New York on Thursday as low as 23.87, after holding up around 23.891/2. The weakness is due to the further easing of the Berlin money market. In Berl'n bankers acceptances have eased to about 53%, the lowest level in five years, and are out of line with the 6% bank rate. Hence the market is expecting that the Reichsbank will presently make a further reduction in its rediscount rate, probably to $5\frac{1}{2}$ %, because of the softness in the money market. Berlin is receiving credit supplies in large amounts not only from the United States, but from London, and there is especially keen competition between Amsterdam and Paris to supply the German needs. Consequently a further lowering of borrowing rates is expected. Present ease in the mark is only relative when it is considered that dollar parity is 23.82. There is a greater demand for marks at all centres than for foreign currencies in the German markets. As noted above, the greater part of the London open market gold this week, as during the past few weeks, was taken for German account. This week the Reichsbank shows an increase in gold holdings of 28,891,000 marks, the total standing at 2,325,-900,000 marks. Further indication of the general ease in money rates is seen in the reduction in the bank rates of Austria and Hungary. The Austrian bank rate was reduced on Monday from 7% to 61/2%, and the National Bank of Hungary reduced its discount rate on Thursday to $6\frac{1}{2}\%$ from 7%, where it had stood since Jan. 24.

The London check rate on Paris closed at 124.17 on Friday of this week, against 124.07 on Friday of last week. In New York sight bills on the French centre finished at $3.91\frac{1}{4}$, against $3.91\frac{7}{8}$ on Friday of last week; cable transfers at 3.911/2, against 3.921/8; and commercial sight bills at 3.91, against 3.915/8. Antwerp belgas finished at 13.921/2 for checks and at $13.93\frac{1}{2}$ for cable transfers, against $13.92\frac{1}{2}$ and 13.931/2. Final quotations for Berlin marks were 23.861/4 for checks and 23.871/4 for cable transfers, in comparison with $23.88\frac{1}{2}$ and $23.89\frac{1}{2}$ a week earlier. Italian lire closed at 5.23 1-16 for bankers' sight bills and at 5.23 5-16 for cable transfers, against 5.23 3-16 and 5.23 7-16 on Friday of last week. Austrian schillings closed at 141/4, against 141/4. Exchange on Czechoslovakia finished at 2.96, against 2.96; on Bucharest at 0.601/2, against 0.601/2; on Poland at 11.25, against 11.25; and on Finland at 2.52, against 2.52. Greek exchange closed at 1.30 for bankers' sight and at $1.30\frac{1}{4}$ for cable transfers, against 1.30 and 1.301/4.

Exchange on the countries neutral during the war has been dull and irregular, showing a decidedly easier trend. The Scandinavian exchanges, however, are an exception. These currencies have been steadier and show only such ease as might be expected from the lower trend of sterling exchange. Exchange on Denmark has been relatively firmer, especially with respect to the Norwegian kroner. The premium of the Danish kroner over the Norwegian kroner has become steadily larger during the past few months and reflects the consistent improvement in economic conditions in Denmark. Holland guilders have been easier for several weeks. The ease in guilders is largely attributable to the low level of money rates in Amsterdam and to the steady sterdam money to the New York security markets. This accounts in some degree for the appreciation of the dollar with respect to the guilder. In connection with exchange on Holland it is of interest to note that the Bank of Java reduced its discount rate on Tuesday by 1/2 of 1% to 5%. Spanish pesetas have fluctuated widely during the week and on balance show sharp declines. This is due to speculative transactions, especially in European markets, and to the uncertainty as to what position the Government will take with respect to stabilization of the currency. A London dispatch on Tuesday stated that the further ease in the peseta was due to the official announcement of the removal of all restriction on foreign exchange dealings imposed since March 6 1929.

also believed that there is a return flow of Am-

Bankers' sight on Amsterdam finished on Friday at 40.063/4 against 40.113/4 on Friday of last week; cable transfers at 40.083/4 against 40.133/4; and commercial sight bills at 40.031/2 against 40.08. Swiss francs closed at 19.283/4 for bankers' sight and at 19.293/4 for cable transfers, in comparison with 19.30¹/₂ and 19.31¹/₂ a week earlier. Copenhagen checks finished at $26.76\frac{1}{2}$ and cable transfers at 26.78 against 26.72 and 26.73¹/₂. Checks on Sweden closed at 26.801/2 and cable transfers at 26.82 against 26.83 and 26.841/2; while checks on Norway finished at $26.71\frac{1}{2}$ and cable transfers at 26.73, against 26.70and 26.711/2. Spanish pesetas closed at 12.49 for checks and at 12.50 for cable transfers, which compares with 13.14 and 13.15 a week earlier.

The South American exchanges are dull and show an easier undertone. The decline in the Argentine peso, which has been under way for several weeks, is attributed partly to the low prices of Argentine products, and also to uncertainty which banks feel as to whether or not the conversion office will be reopened. Brazilian milreis, while continuing to show an easier tone, are relatively steady, due largely to shipments of gold to both London and New York for the purpose of supporting exchange. As noted above, the Federal Reserve Bank of New York reported on Thursday the receipt of \$5,110,000 in gold from Brazil. Argentine paper pesos closed at 37 11-16 for checks, as compared with 37 15-16 on Friday of last week; and at 3734 for cable transfers, against 38. Brazilian milreis finished at 10 15-16 for bankers' sight and at 11 for cable transfers, against 11 3-16 and 1114. Chilean exchange closed at 12 1-16 for checks and at 121/8 for cable transfers, against 12 1-16 and 121/8; Peru at 4.00 for checks and at 4.01 for cable transfers, against 4.00 and 4.01.

The Far Eastern exchanges are dull. The exchanges on the Chinese centres continued demoralized owing to low and fluctuating prices of silver, although there appears to have been a greater demand from China since Saturday last. However, the main trend of the silver units seems to be downward and no marked recovery is expected in the immediate future. Japanese yen are steady and show a slight improvement over last week. The yen rate is practically pegged as a result of credits established in New York and London. Renewed confidence in the future prosperity of Japanese business is reflected in the yen rate. Closing quotations for yen checks yesterday were 491/8@49 7-16, flow of Dutch funds to the German market. It is against 49.15@497-16. Hong Kong closed at 385/8

[Vol. 130.

@38 11-16, against $38\frac{3}{6}$ @38 7-16; Shanghai at $48\frac{3}{4}$ @49¹/₈, against $48\frac{3}{6}$; Manila at $49\frac{1}{2}$, against $49\frac{7}{8}$; Singapore at 56 3-16@56⁵/₈, against 56 3-16 @56⁵/₈; Bombay at 36³/₈, against 36¹/₂; and Calcutta at 36³/₈, against 36¹/₂.

Owing to a marked disinclination on the part of two or three leading institutions among the New York Clearing House banks to keep up compiling the figures for us, we find ourselves obliged to discontinue the publication of the table we have been giving for so many years showing the shipments and receipts of currency to and from the interior.

As the Sub-Treasury was taken over by the Federal Reserve Bank on Dec. 6 1920, it is also no longer possible to show the effect of Government operations in the Clearing House institutions. The Federal Reserve Bank of New York was creditor at the Clearing House each day as follows:

DAILY CREDIT BALANCES OF NEW YORK FEDERAL RESERVE BANK AT CLEARING HOUSE,

Barurday,	Monday,	Tuesday,	Wednesday	Thursday,	Friday,	Aggregate
Fed. 8.	Feb. 10.	Feb. 11.	Feb. 12.	Feb. 13.	Feb. 14.	for Week.
3	\$	\$	\$	\$	\$	\$
136,000,000	102,000,000	148,000,000	Holiday.	184,000,000	169,000,000	C7. 739,000,000

Note:—The foregoing heavy credits reflect the huge mass of checks which come to the New York Reserve Bank from all parts of the country in the operation of the Federal Reserve System's par collection scheme. These large credit balances, however, reflect only a part of the Reserve Bank's operations with the Clearing House institutions, as only the items payable in New York City are represented in the daily balances. The large volume of checks on institutions located outside of New York are not accounted for in arriving at these balances, as such checks do not pass through the Clearing House but are deposited with the Federal Reserve Bank for collection for the account of the local Clearing House banks.

The following table indicates the amount of bullion in the principal European banks:

a These are the gold holdings of the Bank of France as reported in the new form of statement. b Gold holdings of the Bank of Germany are exclusive of gold held abroad, the amount of which the present year is $\pounds7,489,400$. c As of Oc . 7 1924. d Sliver is now reported at only a triffing sum.

The complaint was made of President Coolidge's naval conference at Geneva that it failed because the three Powers represented had failed to reach preliminary agreements regarding the matters which were to be discussed, with the result that the conference wasted a good deal of time debating questions of procedure and ended without reaching common ground on anything. It cannot be said that the preliminary conversations that preceded the London Conference, and least of all the understanding at which Mr. Hoover and Mr. MacDonald were reported to have arrived, have availed to expedite business at the London meeting. At the end of nearly four weeks after the formal opening, the Conference is still receiving statements or proposals emanating from the various delegations, but without reaching any decision as to the point at which the problem of naval reduction and limitation shall actually be attacked. In addition, the heads of the delegations have been indulging in speeches and radio talks in which expressions of interest and good will have not been accompanied by any real clarifying of the situation. On the other hand it was doubtless necessary, in the absence of any preliminary agreement regarding procedure, for the positions of the different Governments to be stated, perhaps more than once, in order to bring out all the main points at issue, and while the statements that have been made raise more difficulties than they dispose of, they at least show that the Conference has a perfect realization of the large scope of its task.

On Feb. 6 Secretary Stimson transmitted to the heads of the British and Japanese delegations a statement, promptly made public by the State Department at Washington, summarizing the American position. The statement called, first, for "immediate parity" with Great Britain "in every class of ship in the navy," on the basis of an "actual tonnage difference between the two cruiser fleets" of only 12,000 tons. In working out this plan, Great Britain was to have 15 large cruisers and the United States 18, "an advantage to the latter of 30,000 tons," while in smaller cruisers Great Britain was to be allowed an advantage of 42,000 tons, but with the right accorded to each country to "duplicate exactly" the cruiser fleet of the other. "Thus Great Britain," the statement suggested, "would have the option, by reducing its number of small cruisers, to increase its large cruisers from 15 to 18 so as to give it a total tonnage of 327,000 tons, the exact amount of tonnage which the United States now asks. On the other hand, the United States would have the option, by reducing its large cruisers from 18 to 15, to increase the number of its small cruisers so as to give it a total cruiser tonnage of 339,000 tons, the exact amount of tonnage which the British now ask." It was further proposed that the number of battleships on each side should be reduced so as to equalize the two fleets in this respect in 1931 instead of in 1942, together with equality in tonnage of destroyers and aircraft carriers, and "the lowest tonnage possible" in submarines in case the submarine can not be abolished.

The issuance of this statement was followed the next day by the appearance of a British statement, calling, first, for the eventual abolition of the battleship, and failing that a construction holiday until 1935 and a reduction in the maximum tonnage of any such ship in the future from 35,000 to 25,000 tons; second, a reduction of aircraft tonnage under the Washington Treaty from 135,000 to 100,000 tons, and a reduction in maximum size to 25,000 tons; third, a single class for all cruisers, with limitation by guns and tonnage; fourth, a limitation of destroyer tonnage to 200,000 tons for each of the two countries, this figure to be subject to reduction; and fifth, abolition of the submarine, or, failing that, a limitation of size and number so as to make the submarine a defensive weapon only, and a restriction of the employment of submarines against merchant vessels.

The publication of these statements did not have the clarifying effect that their authors presumably expected. The American naval experts at London were quoted as insisting that the British proposal to reduce the tonnage of aircraft carriers would actually result in leaving Great Britain 40% ahead of the United States in this type of vessel; or, according to another estimate, that Great Britain would be enabled to possess from 150 to 225 more airplanes than this country. On the part of the American delegation it was admitted that the American proposals included the right to build at least one battleship of the 35,000-ton type in order to equalize the battleship strength of the two fleets. Japan was reported to be extremely dissatisfied with the small increase of cruiser tonnage that seemed likely to be allotted to it, while French opinion, irritated at the publication of British and American official statements without consulting with or advising France, was pretty clearly represented by M. Tardieu's reported inquiry of Mr. MacDonald, "Is this a conference of five Powers, or of four, or of three, or of two?"

The American and British statements were important, however, as showing both concretely and comprehensively how those two Governments were prepared to reduce and limit their fleets, and as making clear their united opposition to the submarine. It was at this latter point that the issue was definitely joined in the plenary session on Tuesday. A. V. Alexander, First Lord of the Admiralty, in a carefully prepared speech, arraigned the use of the submarine in offensive warfare, dwelt upon its relative costliness in building and operation, referred to the hardships of the crews and the peculiar dangers to which they are exposed, and emphasized the inhumane use to which the submarine had been put in the World War. Secretary Stimson followed with a briefer plea for the abolition of this type of vessel on similar grounds, and urged that technical considerations be set aside in view of the gains which abolition would bring. On the other hand M. Leygues, speaking for France in the absence of Premier Tardieu, eloquently defended the submarine, and Admiral Takarabe stated frankly that Japan desired to retain the submarine for the defense of her extensive waterways and vulnerable points. Italy, through Signor Grandi, took the middle position of defending the submarine, but expressing its willingness to accept abolition if all the naval Powers concurred. The rift in the Conference was clear. The only inference to be drawn from the statements was that while the use of the submarine might be humanized, the vessel itself would continue to be employed by all the naval Powers.

Both Mr. Alexander and Mr. Stimson, in their statements, referred to the Paris peace pact, but a

brief passage in Mr. Stimson's remarks was quickly seized upon as an intimation that the Paris pact was not, after all, an effective assurance of peace. "If we are here today," said Mr. Stimson, "it is because there is an insistent and growing demand on the part of the nations of the world that we revise our armaments in the light of the solemn covenants of the Briand-Kellogg pact and the mutual confidence engendered by it. We cannot but feel that for this Conference, called under such influences, to sanction an instrument of war (the submarine) the abuses of which were directly responsible for calling the Western world into the greatest European war of history, would be a contradiction of the purposes for which we have met. I am not speaking of theory. I am speaking of historical fact, and a fact which human experience shows is likely to be repeated." Was the American Secretary of State pointing to the likelihood of another war, and one into which the United States might be drawn, notwithstanding the solemn renunciation of war "as an instrument of national policy" which the nations have made? The question was widely asked in Conference circles, and seemed to gain some weight because of the quiet discussion that has been going on, outside of the Conference sessions, of the desirability of including in the ultimate naval treaty some provision for a joint consultation of the Powers in case war is threatened.

The immediate outcome of the session on Tuesday was the acceptance by the Conference, and reference to a committee, of two resolutions, one French and the other American, looking in substance to an agreement subjecting submarines, in their action toward merchant vessels, to the same rules that govern surface vessels of war. As far as the abolition of the submarine is concerned, the British and American contention appears to have been defeated, as has also the attempt of Mr. MacDonald to put the question of battleships ahead of the question of cruisers in the order of topics to be discussed. On this latter point Mr. Stimson is reported to have stood firmly for the prior claim of the cruiser issue. A French statement on Tuesday asked for a fleet of 724,479 English tons by the end of 1936, 240,000 tons of that amount to be built during that period, while a Japanese statement of the same day expressed general agreement with the British and American proposals without specifically mentioning the demand for a 70% ratio in heavy cruisers. It was reported on Friday that efforts were being made to get France to reduce what were regarded as extreme demands, especially for new tonnage.

Beyond this, the Conference closes its first four weeks with its main task still before it. The American and British statements submitted on Feb. 6 and 7 do not necessarily advance the business of the Conference very much, partly because neither delegation appears to have accepted the statement of the other, and partly because neither statement has much application to the special conditions of France and Italy. The crux of the whole difficulty, apparently, is the Anglo-American idea of parity. The statement of the correspondent of the New York "Times" on Wednesday that "it is going to cost the United States more than \$500,000,000 to get parity with the British fleet by 1936," notwithstanding that "that would be about half of what it would have cost the United States without the London Conference," shows how large an undertaking parity is

when one fleet is greatly inferior to the other. To the solution of this problem the Conference can not as yet be said to have made any substantial contribution.

Intensified Effort in Industry—After Effects of Stock Market Collapse.

One of the lessons to be learned from the collapse of the long boom in the stock market is that when the delusive dreams are done there is nothing left but work. If, as alleged, we think exaggeratedly, corporation owners and managers were neglecting their own businesses to follow the lure of stock speculation, in the quiet times now ensuing, they must reflect that they have no opportunity now save intensive application to the work that formerly made them rich. If holding companies bought and sold securities on quick turns, in the lethargy now prevailing they much realize that income on long held stocks and bonds is their only sure source of profits. If huge manufacturers found they could put their surpluses on call at extraordinary interest rates, they find now that these surpluses must be used in enlargements and improvements or not at all. If central city banks, relying on the Federal Reserve, placed excessive amounts in brokers' loans, they now find business and industry an outlet for funds that, large or small, realieves them from rediscounts and strengthens their general position. So it is that the common run of things, legitimacy, is the law of continued prosperity at last.

This return to the normal is fraught with benefit to the country at large and to industry in particular. Not that we overestimate the importance of the stock boom. Taking a period of years into account it was but an episode, an interference. Nevertheless, it taught a lesson, and that now, in the aftermath, we are learning. One immediate effect is a changed attitude on the part of industry. Changes in the financial structure of corporations must now be made on a new and more stable basis. Mergers and split-ups have no longer an inflated market before them. But the most important consideration is that since structural modificatins no longer invite former attention the industry itself comes in for more intensified study. Perhaps it is true that there was some neglect here; a drawing away from real trade; a state of mind that rendered increased production and sale a less imperative object; if so, the return to these ever-insistent problems presages a better kind of prosperity.

Before the World War Germany, it is well known, was making inroads on the foreign trade of England by making and packing products in ways and forms that pleased South American customers. The fact suggests that in the enlargement of our own industries the desires and tastes as well as needs of both domestic and foreign customers are to become a prime consideration. This is a far different thing from saving in waste and overhead. It is not connected directly with "efficiency" as popularly regarded in "management." It is independent of chains and branches. The "pleased customer" is the sole end in view. Are we wrong in believing that here is a vast field for industrial expansion? Are we wrong in suggesting that mass production in this sense misses the mark? Is it too much to assert that as the economic knowledge and aesthetic taste of the people are elevated by the natural course of

progress machine-made goods will lose something of their appeal?

We have been sweeping along on a wave of conformity. Profits have been large. There have been so many new things to buy that quality in the sense of meeting an improved taste, a questioning of fitness and adaptability to more reasonable and equalized life, has been ignored. Our inventions have been so miraculous that we could not resist immediate ownership. We did not judge them by their influence upon the best of life, but upon the most of life. We must have them at any cost, any and all of them, without discrimination. Consequently certain luxuries prospered unduly. In the more sober years that are to come (are we mistaken in believing they must come?) is it unreasonable to believe that necessities will require and receive more attention from the manufacturers? Is it not likely that customers will demand, not so much cheapness, which will naturally come, but more adaptability to taste and use? And will not this form of intensified industry open the way to vast expansions and consequent stable progress and adequate profits?

Now, then, if we are compelled to readjust our attitude toward large corporations as integers for exploitation on the stock market, may we not expect a like change toward the purpose and products of their internal life? Not only have we had an excess of conformity in the life of the people, but of uniformity in manufacture to meet their wants and needs. This tendency to mass production-making things all alike for everybody-this uniformity in machine-made goods-is not an unmixed blessing. It tends toward monopolies. Lessening the number of sizes in screws and bolts, for example, lessens the variety in products, and enables a few mastodon corporations to occupy the whole field. It also enables high wages to machine tenders not possible to more individual workers. Conformity and uniformity are therefore opposed to equalization in the industrial life. More variety in products, more plants; more plants, more opportunity for concentrations of capital; consequently more moderate fortunes; more moderate fortunes, more employers; more employers, more specialized and applied employees; more of these, more appeal to the personal in buyers.

Are we leaping too far and too fast in this analysis? Proof, we think, lies in our coming foreign trade that must in time react on our domestic. Widely separated countries, conflicting climatic conditions, race characteristics and consequent likes and dislikes, even costs in transportation, will compel a greater variety in the kind, shape and sizes of foreign borne products. This tendency is inevitably away from conformity and uniformity. The same result must obtain at home in time. If so, manufacturing for a certain clientele must take the place of manufacturing for millions. Making needful things in a more attractive and serviceable way must supersede making luxuries that will, unless human nature takes a violent change, go out of style, become no longer desirable simply because new, curious, or miraculous-all compelling a readjustment not only of our manufacturing integers but of their products and prices. Differentiation will, naturally, follow dwarfing and confining concentration.

This lesson we see in the results of the collapse of the stock boom cannot be illogical if we credit the event with being an eye-opener to general tend-

encies compelling examination and analysis. Intensive study of plants almost compels intensive study of products. When products are studied, mass production, uniformity as the progenitor of high wages to machine tenders, and the inequalities in the labor-life of the country as studies must follow. Viewed thus the "stock smash" induced a general shake-up that will be years in unfolding. Would not these possible changes have ensued without the "smash"? Probably, but they would have been delayed, and, in instances, prevented. Special corporations to meet special needs will prevent, if they do not compel, the dissolving of monopolistic corporations. After all, the maker is at the mercy of the user, the seller at the will of the buyer. Running hog-wild after certain theories of saving waste, uniformity, mass, and machine, can never eliminate individuality in human nature.

Life and Law.

Millions of men, in a republican government, delegate to five or six hundred men in a national assembly the power and the duty of making laws. These assemblymen (Congressmen) are said to be representative of the people. But their law-making powers are general. Seldom do they receive specific instructions to enact a particular statute. When Congress convenes, on his own initiative each Congressman, be he Senator or Representative, introduces such bills as he deems worthy to become laws for the good of the country. Thousands pour into the hopper, and though many "die in committee," thousands are voted on, and even thousands are passed and become laws.

The people at large have little to do with this procedure. Out of political platforms and campaign contests issue certain principles and sometimes these are formulated into statutes. For the most part the people appear before committees considering bills and make known their views. But laws are passed of which the citizens know nothing until they are printed in the statute books. Outside of newspaper information they have no way of following proceedings.

Two views of this accepted condition are worthy of comment. When this constitutional power of making laws was given Congress in the inception of the Government it was not believed there ever would be an actual need for the making of multitudinous laws. Minds in those days were engaged with broad principles upon which to erect the structure of a free government. And the freedom of the individual to "life, liberty and the pursuit of happiness" was the keynote of the whole. In convention assembled the people delegated certain powers to the Federal Government, reserved certain powers to the States and the people, and provided thus that these were certain unalienable rights of the citizen which Government must protect and therefore could not take away. There was, in imagination even, no suspicion that Congressional law would ever penetrate the common business customs or the common longestablished personal manners and customs of the citizens of good repute.

If this view is correct, it is a rebuke to long drawn-out sessions of Congress and to the temerity of those Senators and Congressmen who introduce and seek to have passed these thousands of bills touching the common life of the citizens, embodying 1029

no important or well established principle, perhaps incorporating some disputed political policy into the body of the law, and having little power to further the general good though restrictive on the personal liberty of the individual. And in the same category of causes are petitions of classes and associations for special laws. It is this view, secondary to the assumed duty and prerogative of Congressmen to make any and every law that may come into their heads, that affects life by circumscribing its course and confining its motives. We do not live by law, though we live under it. It is not the law that initiates the public welfare, it but defines it-and naturally cannot put motive in the individual mind and heart. No man chooses his occupation by or because of law.

Life precedes law, and must ever do so. Youth makes its way by virtue of the inner purpose, strengthened and guided by the teaching collected out of experience. It follows that to entangle the national life of endeavor and enterprise in a network of superimposed statutes is to restrict its scope and to impede its progress. Laws, rules of right action, drawn out of the common experience of the race, are stronger than statutes that seek to control or direct. And in view of the vital principle of guaranteed personal rights in our Constitution, laws that do not embody the great common law have no essential right to exist. Of course there are necessary small laws that are no more than guide-books on the way. We come, then, to the proposition that the Congressman has no right to put private ideas and ideals into public law; he has no right to enter the domain of private rights, nor to invade the conduct of business by which men live.

If law-making continues at its present momentum we will soon have more law than life in our human relations. We will have a race of automatons who work only when the strings are pulled. We will have a body of citizens who are incapable of acting singly because of the law. At the same time the former common association will cease to exist because men are afraid of the overawing power of the Government commission. Government thus, through law, while ostensibly aiding business, will impede progress, which is no more than the endeavors of all merging into a common procedure and a common end. How futile, then, are these haphazard "investigations," supposedly seeking truth upon which to base a law, which too often is not needed and is futile when enacted! A repealing session has been mentioned. But this is the important thing-a realization on the part of the electorate that men are not sent to Congress to enact political whims or personal beliefs into enduring law.

Life is the important issue to those who must live it by virtue of toil and thought. Strictly speaking, the law does not help any man to make a living. It is not an active force either in private or public affairs. It does not say thou shalt be a farmer, merchant, manufacturer, or professional man. It is not a party to any contract made for private or public good. It is, in some fields of collective endeavor, an agent, through government, of all the people. Nor, again, is the law the government. That is ministerial. Law is passive; life alone active. How far we have departed, and are continually departing, from this view is apparent in the petitions by cliques and classes that go up to Congress and our Legislatures for aid and help. No wonder that Congressmen without instructions arrogate to themselves the duty to make laws that have never been born in the mind of the people but emanate from their own ideas of what ought to be.

Probably the worst and most oppressive laws we make are our commissions, which are blanket laws unto themselves, independent of the Government and of the people. We are creating new ones every year. Ostensibly to aid certain classes and industries, they are pressing the spontaneity out of life and crushing out its freedom. Already it has come to pass that a farmer of his own free will cannot plant a field to corn or wheat as experience with the soil dictates; he must listen to the Federal Farm Board which commands him to limit his acreage to shorten the surplus and thereby to increase price. The merchant cannot, having the idle money, lay in an extensive stock; he is admonished to keep on his shelves only enough to supply the current trade-that no possible panic in prices may occur, and production and consumption be kept on an even keel. If there is no actual commission to do this, there probably soon will be one. The working man cannot stock his own larder according to his ideas of economy and frugality-he must eat better food and more of it to increase production and enhance wages that prosperity may continue. And soon, we may expect, the banker must follow his borrower around to see that he does not violate his promise not to bet the money on the Stock Exchange. Now, mark you, these laws, like those which prohibit the drinking of certain beverages, because they conflict with the life behind the law, in the sense of personal being, and with work and business to sustain that being, are in fact unenforceable.

Estate of Late Benjamin Strong of New York Federal Reserve Bank Appraised at \$578,208.

Benjamin Strong, Chairman of the Federal Reserve Bank of New York, who died Oct. 16 1928, left an estate appraised

on Jan. 30 at \$629,768 gross and \$578,208 net, which was reduced by debts of \$12,471 and other deductions. This was noted in the New York "Times" of Jan. 31, which said:

Mr. Strong had \$23,518 in cash, \$10,558 in personal effects, \$9,585 in

Mr. Strong had \$23,518 in cash, \$10,508 in personal effects, \$36,555 in accounts due, including \$2,083 salary for 15 days, \$36,002 insurance and \$395,197 in securities. The appraisal also includes gifts of \$154,473, made mainly to Mr. Strong's children during the two years before his death, but including \$5,000 given to a person not named by the executors. The contents of the apartment at 270 Park Avenue were valued at \$6,582, while he had jewelry worth \$2,340, clothing valued at \$250 and fur coats appraised at \$285. A portrait of himself at the Federal Reserve Bank and a replica bronze bust were valued at \$500 each at \$500 each.

at \$500 each. Mr. Strong's securities included 18 stocks, worth \$189,735, the remainder of the securities being in bonds. Several worth \$189,735, the remainder of the securities being in bonds. Several worthless stocks were listed, including 2,400 shares Canadian Puget Sound Lumber Co., Ltd.; 786 Green Water Copper Mines and Smelters, and 1,000 North American Silver Mining Co. Benjamin Strong Jr., son, received \$10,558 in direct bequests, and a third of the residue, \$127,725, in addition to \$46,543 in gifts before his father's death, while Philip G. Strong received \$66,006 in gifts and an equal amount of the residue. Catherine S. Humphries, a daughter, received a third of the residue for life and \$32,925 in gifts before her father's death. The will left \$25,000 in trust to Annie Orlich, for caring for Mr. Strong's daughter, and \$1,000 to Princeton University to continue the work in the

daughter, and \$1,000 to Princeton University to continue the work in the library there begun by Mr. Strong in connection with banking and finance. daughter, and \$1,000 to Princeton University to conclude the work in the library there begun by Mr. Strong in connection with banking and finance. Gates W. McGarrah, who succeeded Mr. Strong as Governor of the Federal Reserve Bank, received \$2,000 to be devoted to the bank's club, while an equal amount went to Mr. Strong's valet, Ernest Kendall. The death of Governor Strong was noted in these columns

Oct. 20 1928, pages 2170, 2174.

Deerfield Academy Gets Gift of \$100,000-Thomas Cochran, of J. P. Morgan & Co., Makes Initial Donation in Campaign for \$1,500,000 Endowment.

Thomas Cochran of J. P. Morgan & Co. has given \$100,000 as the initial subscription to a \$1,500,000 endowment fund which is sought by Deerfield Academy, Deerfield, Mass., it was announced on Feb, 6, according to the New York 'Times." That paper also stated:

"Times." That paper also stated: Mr. Cochran is a member of the campaign committee, which includes a number of men of prominence in education and in business. Most of its members are parents of students at the school. As outlined by the committee, the endowment project is designed to provide an adequate equipment for Headmaster Frank L. Boyden, who in the past few years has brought recognition to the school as one of the outstanding secondary schools in the country. Eight years ago, it was explained, the Academy, which dates back to Colonial times, was run down to the point where it was barely surviving. Last year 1,600 applica-tions for admission were refused. The academy at present has no endowment. It is housed in a number of private dwellings of the Colonial era which, though picturesque, are altogether inadequate. Three heads of other preparatory schools. Horace D. Taft of Taft,

altogether inadequate. Three heads of other preparatory schools. Horace D. Taft of Taft, Lewis Perry of Phillips Exeter and Alfred E. Stearns of Phillips Andover, were placed upon the campaign committee at their own request. A joint statement from them refers to the Academy's "remarkable headmaster" and to the records which its recent graduates have made in college and in the world.

The New Capital Flotations During January, the Opening Month of the New Year.

New financing in the United States during January reached good sized proportions, reflecting a return to the normal after the setback occasioned by the stock market collapse in the autumn of 1929, though the total is large by reason of the bringing out of some issues of unusual size-such as the offering of \$150,000,000 5s by the American Tel. & Tel. Co., the \$87,500,000 Pacific Tel. & Tel. stock, and \$50,000,000 debenture 5s by the Int. Tel. & Tel.-rather than being made up of a host of issues of ordinary size. One other distinctive feature will appear as we proceed, namely, that the character and composition of the financing has also changed, stock issues no longer being dominant in contradistinction with the experience during 1929, marking a return to the normal also in that respect.

Our tabulations, as always, include the stock, bond and note issues by corporations, by holding, investment, and trading companies of one kind or another, and by States and municipalities, foreign and domestic, and also farm loan emissions. The grand total of the offerings of securities under these various heads during January aggregated \$824,183,488. This compares with \$658,012,982 in December and with only \$298,029,283 in November, showing a progressive increase, month by month, for the three months. In October, when the total had already begun to dwindle, because of Stock Exchange conditions, the new offerings footed up \$878,901,935, while in September, when all records of monthly totals for new capital issues were

broken, the new flotations mounted to \$1,616,464,867.

At \$824,183,488 for January 1930, comparison is with \$1,066,167,103 in January 1929, but with \$775,026,579 in 1928 and with \$941,361,175 in January 1927. The corporate issues, as usual, make up the greater part of the total, aggregating \$702,178,554, and here comparison with January 1929, when the total of the corporate offerings was \$970,847,138, is illuminating, when the details are examined, as to the change in the character of the financing. A year ago common stock offerings reached \$499,318,388, and the preferred stock issues footed up \$134,017,750 more, making for the two combined no less than \$633,336,138. On the other hand, the long-term bond issues contributed no more than \$321,878,000, and the short-term issues but \$15,560,000. In contradistinction, in January the present year the common stock issues contributed only \$122,338,054, the preferred stock issues no more than \$4,475,000, while the bond issues, long-term and short-term, made up \$575,365,500 of the amount, of which \$31,000,000 consisted of Canadian issues.

Another quite noteworthy change appears. The financing done on behalf of investment trusts and trading and holding companies aggregated no more than \$63,250,000, whereas in January last year the financing on that account footed up \$277,013,500. In one particular, however, the characteristics of the financing of 1929 is still maintained. We refer to the fact that the tendency to make bond issues and preferred stock issues more attractive by according to the

purchaser rights to acquire common stock continued during January. In the following we bring together the more conspicuous issues floated during January of the present year containing convertible features of one kind or another, or carrying subscription rights or warrants to subscribe for or acquire new stock. In the detailed enumeration of all the issues which were brought out during the month of January given at the end of this article we have put in italics the part relating to the right of conversion or subscription in all cases where such rights exist, italic type being used to designate the fact so that it may be readily detected by the eye.

CONSPICUOUS ISSUES FLOATED IN JANUARY WITH CONVERTI-BLE FEATURES OR CARRYING SUBSCRIPTION RIGHTS OR WARRANTS.

- OR WARRANTS. \$60,000,000 Insull Utility Investments, Inc., 10-year deb. 6s B, 1940, with non-detachable warrants whereby each \$1,000 deben-ture may be surrendered at its principal amount in exchange for common stock during the calendar years 1930 to 1934 at prices ranging from \$65 to \$125 per share. Each warrant also provides for purchase of ten additional shares of common stock during the same period at prices ranging from \$62½ to \$115 per share.
- stock during the same period at prices ranging from \$0272 to \$115 per share.
 30,000,000 Associated Gas & Electric Co. conv. deb. 5s, 1950, convertible after March 15 1931 and on or before March 15 1933 into class A stock at rate of 18 shares for each \$1,000 debenture.
 10,000,000 Northwestern Power Co., Ltd. (Canada), Ist mtge. conv. 6s A, 1960, convertible into Winnipeg Electric Co. common stock up to Jan. 2 1945 at prices ranging from \$65 to \$100 per share.
- per share. 6,000,000 Associated Telephone Utilities Co. conv. debs. 5½s C, 1944, each \$1,000 debenture convertible up to May 1 1932 into 33 shares of common stock and thereafter to and includ-ing May 1 1935 into 30 shares of common stock. Each \$500 debenture carries proportionate privilege. 3,000,000 Newton Steel Co. 2-year conv. 6s, Dec. 1 1931, each note convertible into common stock at any time not less than 15 days prior to maturity (or in event of earlier redemption then on or before the date of notice of redemption) at the rate of 12 shares of common stock for each \$1,000 of notes.
- 12 shares of common stock for each \$1,000 of notes

Proceeding with our analysis of the corporate flotations during January, we find that of the corporate total of \$702,178,554, public utility offerings contributed no less than \$492,000,000, or fully 70% of all corporate offerings. This total of \$492,000,000 for public utilities in January more than triples the December total of \$150,778,771. It also marks the second successive month in which public utility offerings led in volume among the corporate group. Industrial and miscellaneous financing during January aggregated \$149,695,554, showing also an increase over the December total of \$60,984,340 for this group. Railroad issues, however, totaled only \$60,483,000 as against \$133,-183,365 during December.

Total corporate offerings, foreign and domestic, during January were, as already stated, \$702,178,554, and of this amount long-term bonds and notes, including \$31,000,000 Canadian, accounted for no less than \$511,195,500, or nearly three-quarters of the total; stock issues, all domestic, accounted for \$126,813,054, while short-term bonds and notes, including \$5,000,000 foreign, totaled \$64,170,000. The refunding portion was \$73,096,000, or slightly over 10%. In December the amount for refunding was \$83,055,000, or about 24%, while in January a year ago \$142,547,192, or nearly 15% of the total, was used for this purpose. Two prominent issues were brought out in January of this year to be used entirely for refunding. The issues were \$35,-088,000 Chesapeake & Ohio Ry. Co. ref. & imp. mtge. 4½s B 1995 and \$18,000,000 Canadian National Ry. Co. guaranteed 5s 1970.

The total of \$73,096,000 raised for refunding purposes in January (1930) comprised \$40,193,000 new long-term to refund existing long-term, \$22,000,000 new long-term to refund existing short-term, \$4,628,000 new short-term to refund existing long-term and \$6,275,000 new short-term to refund existing short-term.

Canadian and other foreign corporate securities sold here during January aggregated \$36,000,000 as against \$30,-000,000 in December. The January offerings were as follows: Canadian: \$18,000,000 Canadian National Ry. Co. guaranteed 5s 1970, offered at 991/2; \$10,000,000 Northwestern Pr. Co., Ltd., 1st mtge. conv. 6s. A 1960, offered at 98, to yield 6.14%, and \$3,000,000 Montreal Tramways Co. gen. & ref. mtge. 5s D 1955, issued at 911/2, to yield 5.63%. Another foreign offering was \$5,000,000 United Industrial Corp. (Germany) 7% notes, represented by ctfs. of participation and due July 15 1930, offering of which was made at 99%.

Foreign government financing during January comprised \$4,000,000 Province of Buenos Aires (Argentine) 6 months 6% external note due June 30 1930, in which certificates of

participation were privately offered. There were no offerings of farm loan securities during January.

Among the domestic issues offered in January the largest was, of course, the \$150,000,000 American Telephone & Telegraph Co. 35-year deb. 5s 1965, offered at 991/2. There were many other conspicuous issues by public utilities, among which may be mentioned: \$87,500,000 Pacific Telephone & Telegraph Co. common stock, offered at par (\$100); \$50,-000,000 International Telephone & Telegraph Corp. deb. 5s 1955, offered at 961/2, to yield 5.25%; \$30,000,000 Associated Gas & Electric Co. conv. deb. 5s 1950, issued at 90, to yield 5.85%; \$30,000,000 Edison Electric Illuminating Co. of Boston 3-yr. 5% notes, due Jan. 15 1933, offered at 98%, yielding 5.45%; \$25,000,000 New England Pr. Assn. deb. 51/2s 1954, sold at 95, to yield 5.88%; \$25,000,000 North American Edison Co. deb. 5s C 1969, priced at 951/2, to yield 5.25% and \$20,000,000 Public Service Electric & Gas Co. 1st & ref. mtge. 4½s 1970, sold at 95½, to yield 4.75%.

Industrial and miscellaneous issues of importance comprised: \$60,000,000 Insull Utility Investments, Inc. 10-yr. deb. 6s B 1940, offered at 991/2, to yield 6.07%; 1,075,100 shares The Pittston Co. (Del.) capital stock offered at \$20 per share, involving \$21,502,000; \$12,500,000 Forty Wall Street Corp.-The Manhattan Co. Bldg. (N. Y.) 1st mtge fee and leasehold 6s 1958, offered at 961/2, to yield 6.25% and \$7,500,000 Butler Bros. (Chicago) deb. 5s 1932-45, sold at prices to yield from 5.30% to 5.75%.

There was one domestic railroad issue of unusual size during January, namely: \$35,088,000 Chesapeake & Ohio Ry. Co. ref. & imp. mtge. 41/2s B 1995, offered at 94, to yield 4.80%.

There were two offerings of securities during January which did not represent new financing by the companies whose securities were offered. These issues aggregated \$25,349,155, and, as pointed out by us in previous months, are not included in our totals of new financing. The issues are shown, however, in tabular form following the details of actual new capital flotations during the month. See page 1034.

An interesting development during January was the attempt of the Fox Securities Corp. to sell at par \$35,000,000 of its own 3-year 7% notes due Jan. 15 1933. The results of this offering are expected to be publicly announced in the course of the coming week.

The following is a complete summary of the new financing corporate, State and city, foreign government, as well as farm loan issues-for January. It should be noted that in the case of the corporate offerings we subdivide the figures so as to show the long-term and the short-term issues separately, and we also separate common stock from preferred stock, and likewise show by themselves the Canadian corporate issues, as well as the other foreign corporate flotations:

SUMMARY OF CORPORATE, FOREIGN GOVERNMENT, FARM LOAN AND MUNICIPAL FINANCING FOR THE MONTH OF JANUARY.

MONTH OF JANUARY.		1930.

In the elaborate and comprehensive tables on the succeeding pages we compare the foregoing figures for 1930 with the corresponding figures for the four years preceding, thus affording a five-year comparison. We also furnish a detailed analysis for the five years of the corporate offerings, showing separately the amounts for all the different classes of corporations.

Following the full-page tables we give complete details of the new capital flotations during January, including every issue of any kind brought out in that month.

While efforts to reach Mr. Baker were unsuccessful, and Dr. Ernest Mark Hopkins, President of Dartmouth, declined either to confirm or deny the latest gift, affirmation that the donation had been made for upkeep of the library was obtained from an authoritative source. The new library was dedicated in June 1928, when George F. Baker Jr. was present to represent his father, who had hoped to attend the ceremonies but had been forced by orders of his physician to remain at home. The dedication marked the culmination of many years of preparation for building a library. The building houses comfortably about 550,000 volumes and will seat about 1,000 students. The structure is on the northern side of the campus in a dominating position to carry out the ideas of its planners that it should be at the heart of the college and serve as a "central reality" for the in-stitution. George F. Baker Gives Another \$1,000,000 for Memorial Library at Dartmouth College. George F. Baker, financier, has made a new donation of \$1,000,000 to Dartmouth College for the maintenance and operation of the Baker Memorial Library there, it was learned on Feb, 4, according to the New York "Times," which said: Mr. Baker provided \$1,100,000 several years ago for the construction of the library in Hanover, N. H., as a memorial to his uncle, Fisher Ames Baker, Dartmouth, 1859.

THE CLEVELAND STOCK EXCHANGE—STOCKS AND BONDS. On this and the following pages we furnish a complete record of the high and low prices for both stocks and bonds made on the Cleveland Stock Exchange for each month of the last three years. The compilation is the work of the Cleveland Exchange itself and is, of course, based on actual sales, and covers these and nothing else.

MONTHLY RANGE OF PRICES ON CLEVELAND STOCK EXCHANGE FOR 1929.

Optimism Holds in Ohio.

By Leonard P. Ayres, Vice-President of the Cleveland Trust Company. Business sentiment in the Cleveland district is confident but cautious, competent but careful. The district and its leading city had in 1929 the most prosperous year in their history. Business in this district depends primarily on the iron and steel industry. and on the automobile industry. When the production of automobiles is large, the consumption of steel is heavy, the demand for Akron's tires is great, and a great many other lines of this district's unusually diversified industries are stimulated.

In 1929 the output of automobiles was greater than ever before, steel output surpassed all previous records, machinery sales reached new high levels, tires were produced in record breaking volume and employment conditions were exceptionally good. It was a year of business expansion for the city and more than 1,500 new business enterprises were added to the number of its activities. Of these about onethird were new manufacturing undertakings, and about another third commercial establishments, while the rest were divided among new mercantile, distributing and financial firms. Not only were new enterprises attracted to the city in exceptionally large numbers and variety, but insolvencies among those previously established were far fewer than in recent years.

With the coming of autumn and winter, industry, commerce and transportation slowed down in distinctly more than seasonal degree. Perhaps it is no longer true that steel is either prince or pauper, but it clearly is so that the iron and steel industry and the automobile industry have exceptionally wide swings from good times to slow ones, and the Ohio district is fully aware of the contrasts resulting from them. It is the belief of the most competent judges of such matters in Cleveland that the turning point toward better business will be reached well before warm weather comes.

Cleveland business is essentially conservative rather than speculative, and the stock market decline did less serious harm in the district than might reasonably have been feared. Probably it is true that the banks, the business firms, the industrial establishments and the citizens are better fortified to withstand a period of slow times and better prepared to increase activities again than ever before. Besides these general considerations there are two specific ones which tend to make Clevelanders philosophic and cheerful. One of these is that the lake shipping, most of which is owned in Cleveland, has had a most exceptionally profitable year. The other is that trains have begun to run into the new Union Terminal and by next summer the city will have in full operation a railroad station that it can be proud of.

Ohio agriculture experienced a satisfactory yearin 1929, although not an exceptionally good one. The total income of the farmers was greater than that of 1928. The wheat crop was almost four times as large as that of the previous year, and the prices received for hogs were substantially better. These increases more than offset a poor fruit crop and a slight decline in the corn harvest. The production of potatoes and tobacco showed no great change from 1928, but the crops of apples and of oats were smaller. All in all, it is clear that the farmer buying power is better than it was a year ago.

The Cleveland district has another asset to which it cannot refer in statistical terms, but in which it places profound faith. It is the business leadership of the Van Sweringens, and of the Eatons. This is an era of mergers and consolidations, and Cleveland numbers among its citizens some of the nation's ablest consolidators.

Review of Ohio Municipal Bonds in 1929. By W. Kelvin Gray, Manager, Buying Department of Seasongood & Mayer, Cincinnati.

The way of Ohio municipal bonds for the year 1929 was a path of uncertainty with less than the usual activity. The year opened with high hopes and a good demand, but as money rates were advancing and offerings of new issues were large, the market was one of gradual recession, with inquiry kept down by an inclination on the part of buyers to try their luck in the stock market, which was running rampant at the time. High money rates throughout the State also made it prohibitive for dealers to carry large lists or help maintain prices.

During the summer months the usual quiet market prevailed, with few new offerings and a general lack of interest in anything but vacations. By fall prices were at a point where they were noticeably cheap, and those with foresight were able to pick up real bargains which have since shown a good profit. The break in the stock market found a better demand with dealers' lists bare, and resulted in a rapid upswing. As officials during the summer had sensed the low market and withheld new flotations wherever possible, the situation was ripe for a healthy advance.

Toward the close of the year more new issues were brought forward and interest was revived to the extent of a good market with firm prices. The yield on Ohio bonds is still far above the average and dealers in general are predicting a continued advance in price.

A continued growing demand outside the State is being noted in Ohio bonds. This can be largely attributed to the benefits derived from the Uniform Bond Act passed by the State Legislature in 1927 and now fully in effect. Formerly, with one or two exceptions, Ohio municipal bonds were payable from a limited tax, which feature was highly objectionable to large buyers and institutions, particularly in the East. Under the new law all voted issues are outside of any tax limitations and qualify thereby in a larger number of investment portfolios. Furthermore, with the changes in the requirements for investment by New York savings banks, a larger number of Ohio municipalities qualify by reason of the lower population requirement and unlimited tax provision on voted bonds.

In a recent report by Governor Cooper, the State has pledged itself to continue its road construction plans, and municipal improvements are expected to

The new year is looked forward to with optimism for Ohio municipal bonds.

Cleveland Stock Exchange Makes New Records in 1929.

By Cecil B. Whitcomb, Secretary Cleveland Stock Exchange.

Much additional interest developed during the year in the Cleveland Exchange and its importance as a security trading centre. Cleveland has long been one of the country's leading industrial centres and now it is also making rapid strides as a financial centre. This was evidenced by the fact that during the year 62 applications for listings were approved for trading. Forty-four of these were new or original issues. This represented a very material increase over any previous year and amounted to over eight million new shares available for trading in this market. Such an increase indicates more conclusively the increasing importance of Cleveland as a financial centre and the Cleveland Stock Exchange as an important factor in this development.

During the year 241 issues of stocks and bonds were traded in, which is a greater number of issues than were traded in in any previous year. The trading in bonds showed a very healthy growth and established a new high record of \$1,490,100 par value of bonds traded for the year.

The increase of prices paid for memberships in the Exchange was a further indication of the high regard and increased interest in the Cleveland Exchange that is developing. Previous to 1929 the highest price reached for a membership was \$6,500, and during this year it rose to \$15,000 for a record. This is again indicative of the growing importance, felt by many, of the Cleveland Exchange as a centre for trading in securities. In view of this widespread development of interest in the Cleveland Exchange, the Governing Committee authorized the sale of a limited number of Associate Memberships, to security dealers outside of Cleveland. The immediate response that this offering brought was most gratifying and indicative of the high regard that was placed on a membership in this Exchange.

Another development that was apparent during the year was the ever increasing number of requests for the daily quotations of securities traded in on the Cleveland Exchange, from all types of newspaper and periodical publications. This in turn added to the widespread interest in the market. And it is expected that within the next year this development will be greatly increased by the demand of the investing public.

Based not only upon the growth over the past years, but also realizing the need in the future, the Exchange has laid plans for the building of entirely new quarters which will be completed in the spring of 1930.

With previous records being broken almost yearly and the growing importance of this market, it is felt that the Cleveland Stock Exchange is in a very enviable position.

THE STATE OF TRADE—COMMERCIAL EPITOME. Friday Night, Feb. 14 1930.

With mild weather there has been a slight increase in wholesale business. The improvement has been more perceptible in retail trade in the South and Southwest, as well as further north. Trade and industry on the whole show some indications of improvement. It is not pronounced, but betterment seems now on the whole to follow the line of least resistance. Some of the department stores are having special sales of winter goods, thereby stimulating business. Also there is an effort to increase trade in spring goods, with a fair measure of success. There is a gradual increase in employment and of course this is a favorable feature as increasing the buying power of the country. The rise in cotton and the steadiness of grain prices were also factors of interest. Moreover, the late date of the Easter holidays this year, which has been deplored heretofore, may after all give retailers a better opportunity to catch up in their trade. Among the industries showing an improvement steel is the most conspicuous, and Chicago plants are reported to be working at 90% of capacity.

But the recent sharp advance in cotton has also had a beneficial effect on cotton textiles. Unfinished cotton The 381/2goods have been firmer and rather more active. inch 64x60s print cloths, which at one time sold at as low as $6\frac{1}{4}c$., have latterly been selling, it is stated, at $6\frac{3}{6}$ to $6\frac{1}{2}c$. Sheetings have been quiet but steady. A rather better business was done in fine and fancy cloths. The trade in finished cotton goods is less satisfactory than that in the unfinished fabric. The demand is mostly for small Meanwhile curtailment is still going on in the cotton lots. textile industry of this country. In Lancashire, however, there has been a better business of late, not only with India but also with the Near East and South America. A fair business has been done in silks, woolens and worsteds, but it was mostly in small lots. The rayon industry is fairly active. The big New York garment strike has been ended by a two-year agreement with more satisfactory conditions for the workers. Raw silk has been steady but quiet. Wool has shown a greater degree of steadiness with a fair business in some descriptions. As might have been expected, building has still been on a restricted scale, despite the low rates for money. New building permits in nearly two hundred cities showed a decrease of fully 9% in January as compared with December, but were nearly 50% less than in January last year. New York City gained 291/2% in January over December, but showed a decrease compared with January last year of nearly 65%. Under the circumstances building materials have been quiet. There has been very little business in brick, glass and tiles. Lumber production has fallen off and the sales are about on a par with the reduced output. Hides have been irregular and leather dull. In furniture special sales have had a fair degree of success, but it cannot be said that furniture manufacturing at this The shoe manufacturing industry is faring time is brisk. better at the West than in the East. There is a larger business being done by radio tube makers, but the radio industry itself shows very little life at the present time.

As to the crops, the winter wheat section is without snow covering, but so far as can now be judged winter killing up to this time has been light. Preparations for the cotton crop in the South are well behind, owing to prolonged bad weather and wet fields. It looks as though there might be some decrease in the cotton acreage in Texas and Oklahoma if Jeports of a large increase in the oats acreage in those States may be taken as an indication. There is a fair degree of activity in the manufacture of machine tools and agricultural implements. A slight increase in the output of cheap automobiles is noticed but as regards higher priced cars the industry is quiet. Retail trade showed a gain in January of 9% in the sales of chein stores and mail order houses as compared with January 1929. But this is the smallest percentage of increase for any month since April 1928. Department store sales in January were 2% smaller than in January last year.

Steel has been rather firmer in some directions and railroads reported to be good buyers, if automobile companies are buying sparingly for the time being. Scrap has recently advanced. Pig iron has been quiet and Buffalo is reported 50 cents lower. Copper has been quiet, but steady, and

lead and zinc also rather slow and none too steady. Coal with milder weather has of late met with less demand.

Cotton advanced a cent recently with shorts alarmed by the aggressiveness of the Farm Board which is said to have bought 100,000 bales more of co-operative contracts, making its holdings as commonly understood 300,000 bales. That absorbs a large enough percentage of the floating supply of contracts here rather to overawe the opponents of higher prices. Latterly, too, there has been a better trade demand from the United States, England, France and Germany. Worth Street has had a rather better trade and Manchester also. The domestic consumption of cotton in January was 577,235 bales against 453,892 in December and to be sure 668,286 bales in January last year, 586,142 in January 1928, and 603,242 in 1927. The point is that in January 1928, and 603,242 in 1927. the consumption in the United States, judging by present appearances, shows some signs of increasing in 1930. The Cotton Textile Merchants Association reported a decrease in stocks in January of about 2% against an increase in December of 7% and ratio of shipments to production in January of 102.5% against 87.9% in December. It is true that the ratio of sales of standard cloths to a curtailed production in January was only 901/2% against over 124% in December and that unfilled orders decreased over 9% in January against an increase of 26% in December. But not a few preferred to emphasize the more hopeful features of the report. Spot cotton at the South is quiet with the basis firm and prices 65 points higher than a week ago.

Provisions have been firmer and lard a little higher, with hogs steadily advancing and the cash demand for lard at times good. Rubber has advanced half a cent here and has also risen in London and Singapore with a growing inpression that the Dutch committee will be able to effect an agreement to reduce tapping. Coffee has declined, especially Santos with Brazilian markets more or less weak and a political outbreak to-day in Victoria in which 10 persons were killed. Sugar has been dull and 10 to 12 points lower on futures, with a growing belief that restriction of the crop in Cuba is to be abandoned. Refined sugar has dropped to 5.95 cents, following the action of beet root refineries in cutting prices and making them retroactive for some weeks back, something which has also been done by at least one refinery here.

Wheat shows no marked change from a week ago, but it suffers the disadvantage of big stocks and a poor export demand, despite the fact that the Grain Stabilization Corp. has begun to function, it is stated, in half a dozen Western States. The one big desideratum is a good foreign outlet, but Argentina is offering wheat freely to Europe at attractive prices, and this country seems to be shut out of the European market. Canada, too, is doing only a small export business. Corn has had a net decline of less than a cent, despite favorable weather of late and some increase in the country offer-Some have been buying corn against sales of wheat. ings. The Argentine corn crop, it is said, is likely to be smaller than in recent years. Argentina, however, has a large exportable surplus estimated at 265,000,000 to 300,000,000, and Canada has been buying Argentine corn. Oats declined slightly and rye 1 to 4c., with an absence of foreign demand for rye still plainly felt.

The stock market has recently been firm with call money 4%. United States Steel advanced on the 13th inst. accompanied by American Can, Westinghouse Electric, Ameri-can Tobacco, Vulcan Detinning, Michigan Steel, Air Reduction and others. To-day a reaction after a rise lasting about three weeks characterized the later trading after a moderate early advance which carried U.S. Steel to a new high for the year. Brokers' loans increased \$48,000,000, which was no surprise. Bank clearings continue to decrease. January exports were \$9,646,000 smaller than in December while imports increased \$3,000,000 over December leaving a balance of trade in favor of this country of \$105,000,000 against \$119,000,000 in January 1929. Bonds of late have been active with sales on the 13th inst. the largest thus far this year. To-day it is true the trading was small with small changes. Liberty and Treasury bonds were slightly lower. Railroad bonds were very dull. Foreign issues were a shade higher.

Boston reported that general business conditions were becoming clearer. Within the next two months it is felt much more will be accomplished in stabilizing the financial and producing lines. The prospect in the building industry is materially brighter, particularly in Boston and every large New England city. The credit situation is apparently clearer than a year ago at this time, and collections have improved slightly. Retail trade is quiet and clearance sales as a whole have been only moderately successful.

Manchester, N. H. wired that it was stated the Amoskeag Manufacturing Co. made a net profit of upward of \$1,500,000 in 1929 as against a loss in 1928 of \$1,723,000. Nashua, N. H. wired that the Nashua Mills of the Nashua Manufacturing Co. are stepping up production as a result of favorable orders received following the opening of the new line about two weeks ago. This plant, which is the largest manufacturer of blankets in the world, is to-day operating at about 50 hours a week in practically every department. This is a satisfactory gain in operating time. The Harris-Emery Woolen Mills at Penacook, N. H., which have been operating only three days a week, due to lack of orders, has received a sizeable order and as a result the entire plant has just been put back on full time. At Suncook, N. H. there is a falling off in production of fine cotton and rayons of the Suncook Mills. The plant is not operating at better than 60% of capacity, but it is not believed that the dull period will be for long at Suncook. At New Auburn, Me., the Barker Mill which produces sheetings and skirtings will shut down for an indefinite period when its present stock runs out, unless business conditions improve. The present run is expected to last about two months.

Spartanburg, S. C. reported that textiles have made no advance from the previous state of protracted inactivity. Here and there a few manufacturers report small sales, but for the most part the goods remain stored in warehouses. But mills continue operations. There is a partial reduction schedule effective in a good many cases but at this season textile executives of the Southeast are extremely reluctant to make more drastic cuts in working hours. A favorable report, it is stated, has been agreed upon by the committee on commerce and manufacturers in the South Carolina House of Representatives on the 48-hour per week bill for all cotton and woolen mills of South Carolina. Charlotte, N. C. reported that the textile industry is slowly and steadily making new advancements. It was added that in spite of the chaotic conditions prevalent for many months, conditions are steadily improving in the textile trade.

At Wilmington, N. C., the Delgardo Cotton Mills where 200 weavers have been on a strike for more than a week, it was announced that the dispute had been settled and work resumed. The weavers struck because of the installation of a stretch-out system and a reduction in wages. They asked that their former wage basis be restored. Just what was the basis of settlement was not disclosed. At Winston-Salem, N. C., operation of Joyce Hosiery Mills is well under way. Huntsville, Ala., wired that the Helen Mills have accepted orders that will require the plant to operate day and night for some time.

At Manchester, England, cotton cloths and yarns have latterly been in better demand. Berlin wirelessed the New York "Times" that experts in the textile trade are predicting a crisis in the cotton planting industry and declare that the cotton market may follow the market for sugar, rubber and steel because of permanent over-production. They declare that international regulation may be necessary and add that rayon men also fear that the decline in the price of cotton goods may check recovery in their industry. Two Italian rayon mills have reduced their dividends; one passed it for the second time.

The strike of 25,000 garment workers ended on Feb. 12. This is said to be the shortest general strike in the history of the garment industry.

It was cold here early in the week. On the 10th inst. it was 30 to 40 degrees. On the 11th inst. it was 23 degrees early. Overnight Boston had 22 to 44 degrees; Montreal zero to 30 above; Philadelphia 24 to 42; Portland, Me. 16 to 40; Chicago 24 to 26; Cincinnati 22 to 38; Cleveland 22 to 26; Detroit 18 to 24; Milwaukee 18 to 34; Atlanta 34 to 50; Norfolk 34 to 50; Kansas City 38 to 52; St. Paul 16 to 26; St. Louis 34 to 46; Winnipeg 12 to 18; Denver 46 to 64; Helena 38 to 52; Salt Lake City 36 to 52; Los Angeles 50 to 64; Portland, Ore. 40 to 52; San Francisco 50 to 60; Seattle 36 to 50. On the 12th inst. it was 44 degrees here. It was colder at the West with a cold wave and sub-zero tempera-

Falling Off in Department Store Sales in January.

tures in the Northwest and Canada. Chicago reported 28

degrees. To-day temperatures here were 27 to 35 degrees

Department store sales for January were 2% smaller than in the corresponding month a year ago, according to preliminary reports made to the Federal Reserve system by 490 stores located in leading cities of all Federal Reserve districts. The Board under date of Feb. 8 adds:

For the country as a whole the decrease was the same as that shown in the comparison of December with December a year ago. Per centage changes in sales between January 1929 and January 1930 are given by districts in the following table:

Federal Reserve District.	Percentage of Increase or Decrease in Sales January 1930 Com-	No. Store	s Report's

Loading of Railroad Revenue Freight Lower Than in Either of Two Previous Years.

Loading of revenue freight for the week ended on Feb. 1 totaled 898,894 cars, the Car Service Division of the American Railway Association announced on Feb. 11. This was an increase of 36,273 cars above the preceding week this year but a reduction of 48,260 cars under the same week in 1929 and a reduction of 27,368 cars under the same week in 1928. Details follow:

Miscellaneous freight loading for the week of Feb. 1 totaled 306,045 cars, 26,432 cars below the same week in 1929 and 12,618 cars below the corre-sponding week in 1928. Loading of merchandise less than carload lot freight amounted to 238,106

cars, a reduction of 7,660 cars under the same week last year and 10,988

Loading of merchandise less than Carload lot freight amounted to 238,106 cars, a reduction of 7,660 cars under the same week last year and 10,988 cars under the same week two years ago. Coal loading amounted to 213,833 cars, an increase of 2,740 cars above the same week in 1929 and 33,177 cars above the same week in 1928. Forest products loading amounted to 48,422 cars, 10,994 cars below the same week last year and 20,990 cars under the corresponding week in 1928. Ore loading amounted to 7,682 cars, a decrease of 989 cars under the same week in 1929 and 206 cars below the corresponding week two years ago. Coke loading amounted to 12,155 cars, a decrease of 326 cars under the corresponding week last year but 787 cars above the same week in 1928. Grain and grain products loading for the week totaled 44,563 cars, a reduction of 5,173 cars under the corresponding week in 1929 and 9,356 cars below the same period in 1928. In the western districts alone, grain and grain products loading amounted to 30,992 cars, a reduction of 3,780 **cars** under the same week in 1929. Live stock loading totaled 28,088 cars, 574 cars above the same week in 1929 but 7,174 cars below the corresponding week in 1928. In the western districts alone, live stock loading amounted to 22,214 cars, an increase of 1,383 cars compared with the same week last year. All districts reported reductions in the total loading of all commodities compared with the same week last year except the Pocahontas and North-

compared with the same week last year except the Pocahontas and North-western, while all reported decreases compared with the same week in 1928 except the Allegheny and Pocahontas, which showed increases. Loading of revenue freight in 1930 compared with the two previous

National Building Survey Conference Looks For Increased Activity in Construction Field With Easier Credit Conditions.

Indications that credit is resuming its flow in normal channels in larger volume, paving the way for increased activity in the construction field, are disclosed in a survey made by the National Building Survey Conference under the direction of the Chairman, Fenton B. Turck, Vice-President of the American Radiator Co. The survey, in which banks, building and loan associations, insurance and mortgage companies co-operated, is said to show that building mortgage conditions on the West Coast are now favorable, money being available in sufficient quantity for prudent residential, renovating and business building loans. The rate varies from $5\frac{1}{2}$ to 7% on a basis of 60% valuation. In the districts surrounding Cincinnati, Cleveland, St. Louis and St. Paul, it is stated, there has been a particular pick-up during the past week in the mortgage market, with many loans being favorably negotiated at the present time.

It is likewise reported that there is a slight improvement in the situation in New England and that a considerable optimistic attitude has developed in that section regarding the immediate future of the mortgage money market. No favorable change has been noted in the situation in the districts surrounding Chicago, Detroit, Pittsburgh and Indianapolis. This also applies, it is said, to certain spotty conditions in the South, including Atlanta, where sufficient funds have not been received to enable them to enter the mortgage market in a noticeable manner. The Baltimore district in the past few days has shown considerable improvement. Funds have been put out recently from New York and its suburbs on a conservative basis. The situation in the Philadelphia district is improving. Mr. Turck states:

Philadelphia district is improving. Mr. Turck states: It is with special interest that we are watching building and loan asso-ciations, because they play such a large part in home construction and renovating finance. The increasing supply of funds flowing into these channels at this time, particularly in the Eastern district, is a most interest-ing reflection. The Railroad Co-operative Building and Loan Association, with assets of \$55,000,000 has just made seven building loans which are the first group they have made since Oct. 23. The general tendency seems to be to pay courteous attention to appli-cations which represent real value and for loans involving betterments and renovation to property. Careful examination of data would indicate that the better classes of people seeking mortgage loans are active at this time and will benefit by filing applications so that their cases may receive con-sideration as surplus funds come into the mortgage market. In making public the results of the survey the Building

In making public the results of the survey, the Building Survey Conference says:

Survey Conference says: It was the sense of industrialists meeting with President Hoover after the stock market recession, as well as of the National Business Survey Con-ference, that a speeding up of construction, repairs, replacements, &c., would serve as one of the most important stabilizing influences in the business situation. The Building Survey Conference was organized in January to carry out this purpose. It brings together for the first time all of the units in the building and construction field. The work of the conference is under the general direction of a represent-ative executive committee. Particular phases of it are dealt with by special committees among which are the following: Building & Loan Committee—Ernest A. Hale (Chairman) Pres., United States League of Building & Loan Associations. Statistical Committee—Thomas F. Holden (Chairman), Vice-President in Charge of Statistics, F. W. Dødge Co. Trade Publications Committee—F. W. Feiker (Chairman), Managing Director, Associated Business Papers, Inc. Special Home Financing Committee—M. B. Nelson (Chairman), Pres., Long-Bell Lumber Co. Architects Committee—E. J. Russell (Chairman) Pres., American United States Committee—E. J. Russell (Chairman) Pres., American

Architects Committee—E. J. Russell (Chairman) Pres., American Institute of Architects. Radio Committee, Frank A. Arnold (Chairman) National Broadcasting

Radio Committee, Frank A. Arnoid (Chairman, Company, Real Estate Committee—Leonard P. Reaume (Chairman) Pres., National Association of Real Estate Boards. The following appointments have been made to the Executive Committee: R. B. White, representing important lumber interests; A. C. Pearson, Chairman of the Board, United Business Publishers; William A. Starrett, President of Starrett Brothers, Inc.; George A. Wilson, of Breed, Abbott and Morgan, New York City.

Orders for Electrical Goods in Fourth Quarter of 1929 Below Those for Third Quarter.

New orders booked during the fourth quarter of 1929, as reported to the Department of Commerce by 81 manufacturers of electrical goods, were \$288,736,209, as compared with \$338,169,678 for the third quarter of 1929 and \$282,-226,449 for the fourth quarter of 1928. Total bookings for 1929 amounted to \$1,290,193,618, an increase of 25% over the \$1,029,721,508 of orders booked in the prevous year. The following totals of bookings for each quarter since the beginning of 1924 are presented, not as a complete statement of the industry, but as probably suffciently representative to indicate the trend:

R ELECTRICAL GOOD

Bank of America N. A. Says Recovery in Basic Lines of Industry Surpasses Expectations-Finds Dullness in Textile Lines.

Recovery in basic lines of industry during January surpassed expectations while easier money rates and the check to the gold export movement created a more optimistic sentiment in financial markets, according to the current review of the Bank of America N. A. of New York. The review notes that operations in the steel mills increased to within about 10% of the high rate of January 1929; that

activity in automobile manufacturing showed a substantial gain, and that wholesale trade increased in volume. Building continued below the level of a year ago but the volume of construction work was well above it.

A less cheerful picture, however, it is stated, is presented by the dullness in the textile industries and the sharp decline in the prices of principal agricultural products, notably cotton and wheat. Recently, however, some slight improvement was shown in the cotton goods business. As for wheat, world supplies this year are well below those of a year ago and this should eventually be reflected in prices, according to the review.

Asserting that the reduction of the discount rate of the Bank of France from $3\frac{1}{2}$ to 3% is expected to put an end, for the present at least, to any large movement of gold into that country, the review points to the fact that the net export of gold in January amounted only to \$1,700,000, compared with a net export from the entire country in December of about \$65,000,000. Furthermore, it is explained that the net gold export from New York in January was more than offset by the release of \$2,500,000 gold held for foreign ccount, which resulted in a net gain of \$800,000 gold for the four-week period.

National Shawmut Bank of Boston Finds Present Credit Conditions Comparable with 1927 and Early 1928.

The National Shawmut Bank of Boston says:

Recent Federal Reserve statements indicate that present credit condi-tions are comparable with 1927 and early 1928, which was an easy credit

period. Total Federal Reserve credit is lower now than the corresponding date in 1927 but higher than 1928 (accounted for by increased holdings of United States securities).

United States securities). "Bills discounted for member banks" reflects the extent to which banks are forced to obtain additional funds for credit extension. As bills dis-counted by the Federal Reserve banks are less than in 1927 and early 1928, it would appear that present credit conditions are comparable with the earlier periods and that interest rates should seek the levels then prevailing.

New Building in U. S. During January \$450,000,000 According to Indiana Limestone Company.

New building in the United States for the first month of the year had a value of approximately \$450,000,000, according to a nationwide survey Feb. 9 by the Indiana Limestone Co. The figures are based on reports from several hundred eities and towns. "The volume of construction during January reflects an increase over the same period of last year," says President A. E. Dickinson. "The building industry is looking forward to a big year." Mr. Dickinson adds:

Reports from 26 States and a conservative estimate of partial returns from the remaining States, would indicate more than \$3,000,000,000 will be spent for public works this year. The largest program, according to reports already submitted, will be carried out by New York, the second largest by Ohio; Texas and Massachusetts rank next. It is believed the first quarter of 1930 will be about on an even keel with 1929. By the second and third quarter, however, gains should show a worked dwarps ourset the part user.

New activity is in evidence in the Middle West. In Chicago the coming World's Fair, air rights over the Illinois Central rallroad, and a normal

deamnd for all types of construction are in the offing. In California, especially in Los Angeles, a lively building program is assured.

Substantial recoveries have marked construction in New York. Public works and commercial and residential types of building show greates works and commercial and residential types of building show greatest activity. Despite severe winter weather, an upward trend is noted in the North-

Despite severe winter weather, an upward trend is noted in the North-west. A large spring program has been arranged. Increase in building operations is reported from all parts of the South. Atlanta, Ga., seems to have charted a building course that should double the volume of last year. In point of valuation of building permits in 20 leading cities, New York heads the list with Chicago, Philadelphia, Detroit, Los Angeles, Boston, Milwaukee, Baltimore, Cleveland, Houston, Pittsburgh, Cincinnati, San Francisco, Seattle, St. Louis, Buffalo, Minneapolis, Indianapolis, Kansas City and Atlanta following in the order named.

Secretary of Commerce Lamont Sees "Nothing in Business Situation to Be Disturbed About."

After a study of business survey data received at the Department of Commerce at Washington, Secretary of Commerce Robert P. Lamont finds an approximately normal level in the production and distribution of commodities in the United States for this season. Secretary Lamont is quoted as saying that "there is nothing in the business situa-tion to be disturbed about." In indicating the Secretary's views, a Washington dispatch, Feb. 10, to the New York "Times" said:

He [Mr. Lamont] suggested that in making comparisons against a year ago it would be well to take into account that January and February of 1929 were exceptional months. Ordinarily, he said, January and February represent comparatively "low point periods in the calendar schedule of American business."

"January and February are stock-taking periods for most large corpora-tions, and are not the months in which enterprises are customarily ex-tended," he said, "but we are having very good reports from construction sources. There are grounds for assuming that this is about a normal

"One difficulty in the way of general realization of that fact is that our statistics concerning business must be compared with 1929 conditions. And it is obvious that 1929 presented a picture of abnormally stimulated industry in almost every line."

And it is obvious that 1929 presented a picture of abnormally stimulated industry in almost every line." Employment, Mr. Lamont said, is picking up, although somewhat below a year ago. In this connection, he emphasized the importance of the unemployed statistics to be collected this year in connection with the decennial census. Complete returns on a national basis, he asserted, would eliminate speculation as to the real employment situation, and would provide means for remedial action if necessary. The construction outlook, Mr. Lamont said, continues "good." Steel mills are running at 80% capacity, and fabricating plants making steel shapes for automobiles and other purposes are "filled up" for months to come.

to come

to come. Referring to questions reaching the department concerning the Russian grain situation, Mr. Lamont said that authentic information from official Russian sources showed that the entire country is on a ration basis which amounts to scarcely more than a subsistence quota. According to these sources, he said, Russia is not expected to export any wheat during the 1929-30 season.

Annalist Weekly Index of Wholesale Commodity Prices.

The "Annalist Weekly Index" of wholesale commodity prices stands at 138.1, a decrease of 0.2 point from last week (138.3 revised), and compares with 146.2 during the corresponding period in 1929, a decline of 5.5% for the year. The "Annalist" adds:

The "Annalist" adds: Of the eight groups, comprising the composite index, two—the farm products and the metal groups—have made slight advances; all remaining groups show declines. Sharp advances in wheat, hogs and steers in the farm products group are balanced by declines in lamb, cotton, hides hay and wool. In the food products group fluctuations are moderate, except in butter, which advanced sharply, and sugar which went below 5 cents a pound for the first time since last June. Further declines in cotton yarns continue to make new seasonal lows for the textile index. A seasonal advance in bituminous coal prices is partly balanced by a further drop in crude petroleum. Declines in zinc and pig iron prices explain the lowered metals index, and the reaction in lumber prices, after last week's advance, brings the building materials index back to approximately the index of two weeks ago. A sharp decline of lubricating oil to 36.5 cents a gallon, 4 cents lower than last week and 10 cents lower than in June explains the most important index change in the groups. THE ANNALIST WEEKLY INDEX OF WHOLESALE COMMODITY PRICES.

Upward Turn in Business Indicated in Annalist Index for January.

In presenting on Feb. 14 its index of business activity for January the "Annalist" says:

In presenting on Feb. 14 its index of business activity for January the "Annalist" says: The "Annalist" index of business activity for January shows a sharp uptura, the preliminary index being 93.3, as compared with 89.6, the revised figure for December. With respect to the movements of the individual components of the business composite, however, the January recovery from the low levels reached in December was decidedly irregular, as shown by the fact that of the eight components for which January data are available four advanced and four declined. The advance in the combined index, indeed, was brought almost entirely by marked improvement in three industries: automobiles, cotton textiles and steel. Electric power production, based on a preliminary estimate of a January output of \$,550,000,000 kilowatt hours, was also higher than in December, but the gain, after allowance for normal seasonal variation and long-time trend, was slight, a fact which is of significance, in view of the all-inclusive nature of the electric power Index. It is also significant that the adjusted index of freight car loadings, which also reflects the trend of activity in a wide group of industries, showed a further decrease in January to 91.0 from 92.3 for December. Bituminous coal production increased by less than the usual seasonal amount in January, causing a decline in the adjusted coal index; and pig iron production increased by less than the usual seasonal amount in January, causing a decline in the adjusted zinc index was small, the January index decrease in the adjusted zinc index was small, the January index index and of the ten component series, each of which has been adjusted, seasonal variations, long-time trend and variations in cyclical amplitudes before being combined into the "Annalist" index of business activity. Table 2 gives the combined into the "Annalist" index of business activity. Table 2 is the combined into the "Annalist" index of business activity. Table 2 is the combined into the "Annalist" index of busines

Conditions in Pacific Southwest as Viewed by Security-First National Bank of Los Angeles.

Business and industrial activity in Los Angeles and Southern California, generally, declined during January 1930, both as compared with the corre-sponding month a year ago and with the preceding month of December. The slowing down of activity is reflected in the figures of bank debits which becking in in the provide for which there of the activity is preflected. Bank The slowing down of activity is reflected in the figures of bank debits which declined in six of seven cities for which these data are available. Bank debits in Los Angeles during January 1930, were 14.6 and ½ of 1% less, respectively, than during January 1929, and December 1929. Despite the lowering of activity in general, the fundamental factors underlying the general business situation are sound. This is the introductory paragraph of the Monthly Summary of Business Conditions in the Pacific Southwest territory compiled by the Department of Research and Service of the Security-First National Bank of Los Angeles, and released for publication Feb. 1. The summary continues in part:

Conditions in the Pacific Southwest territory compiled by the Department of Research and Service of the Security-First National Bank of Los Angeles, and released for publication Feb. 1. The summary continues in part: Organizations in oil fields, iron and steel fabricating plants, meat packing establishments, automobile tire factories, and furniture factories in Southern California were, in general, carried on at lower levels during January 1900. Angeles during January 1920. The value of building permits issued in Los Angeles during January 1930, was more than double that of December 1929, and was 21.3% larger when compared with permits issued during January 1929. The comparatively large January building valuation total, however, was due to a few permits issued for large amounts. The number of business failures in Southern California during the four weeks' period ending Jan. 23 1930, was smaller than the number for the proceeding four weeks period in December. There was comparatively little difference in the volume of trade at retail during January 1930, as compared with January 1929, as measured by sales of department stores. Some Los Angeles department stores reported small declines which were partly counterbalanced by increases in others. How-ever, the situation in other lines of retail trade was not so favorable in some cases. Commerce through the Los Angeles Harbor during January 1930, was 16.8 and 2.0% less, in tonnage and value, respectively, than during January 1929, according to preliminary figures. The agricultural situation improved during January. Rain and snowfall in Southern California during the month have improved the hitherto poor condition of pastures and ranges and have replenished the supply of soil moisture for the coming 1930 crops. Seasonal rainfall at most Southern California points is now either approximately the same or ahead of last sear's figures, but is still below normal for this season to date. Marketing of citrus fruits, as indicated by carlot shipments, was in smaller volume dur

1929.

Banking.

Banking. Deposits and loans of Los Angeles banks which are members of the Fed-eral Reserve Bank of San Francisco were smaller on Jan. 22 1930, as com-pared both with the figures for one year and one month ago. Total deposits on Jan. 22 1930, were nearly 48 million dollars, or 6.1% less than at this time last year, and 644 thousand dollars less than on Dec. 24 1929. Total loans on Jan. 22 1930, stood at 5¾ and 13½ million dollars less, respectively, than on Jan. 23 1929, and on Dec. 24 1929. Investment holdings have shown a slight upward tendency in recent weeks which is in contrast to the general downward tendency shown during 1929. The total investments of reporting member banks in Los Angeles on Jan. 22 1930 were approximately 4 million dollars, or 1.9% larger than on Dec. 24 1929, and were 44½ million dollars, or 17.1% smaller than on Jan. 23 1929. Interest rates generally were unchanged during January.

Falling Off in New York State Factory Employment Continued in January.

January marked the third successive month that representative New York State factories have reported widespread reductions in employment. A statement issued Feb. 10 by Industrial Commissioner Frances Perkins at Albany estimates that more than 100,000 employees have been laid off by the factories of this State since the middle of October. The Statement of Commissioner Perkins goes on to say:

While a decrease in employment is usual from October to January, the decline this year has been much greater than usual. In October 1929 the factories of New York State were employing more workers than at any time since the end of 1926. In January 1930 they were employing fewer workers than at any other time since the summer of 1928. This is a very low figure for January, probably the lowest January figure ever reached. reached.

All of these statements are founded upon reports from over 1,500 manufacturing firms reporting each month to the Bureau of Statistics and Information of the Department of Labor. The factories were selected to represent the diverse industries located in the State and employ approximately one-third of all factory workers.

Decline Widespread in January.

The decline which began in November and enlarged in December con-tinued widespread in January. The index of employment based upon the monthly average for 1925-27 dropped to 92. This decrease is somewhat greater than the usual decrease from December to January, indicating that some industries were reporting greater drops than usual at this season of the year. Eight of the eleven main industry groups showed net de-creases in emplooment from December to January. Over half of the 55 separate industries reduced forces more than 1% while several registered losses in excess of 10%. in excess of 10%.

However, the decline in January was less than that recorded in De-cember, when employment dropped 4%. Replacement of forces in some steel and automobile plants evidenced some recovery from December. Many brass, copper and aluminum plants took on workers In general, the other metals lowered employment. A severe cut marked the cooking, heating and ventilating apparatus firms. A general downward trend characterized instruments and appliances, sheet metal and hardware, and firearms, tools and cutlery. Beasonal activity caused men's clothing, women's apparel and milli-nery to advance. A number of shoe firms replaced forces. The other clothing, leather and textile groups made reductions. Especially large cuts occurred in many knit goods factories. Most of the food insustries continued to lay off workers but some firms in flour, feed and cereals, sugar and other groceries, and meat and dairy

Most of the food insustries continued to lay off workers but some firms in flour, feed and cereals, sugar and other groceries, and meat and dairy products increased employment. Good general advances marked pulp and paper makers, but paper goods producers continued to lose. Printers could not hold the December gain. Many drug and industrial chemicals as well as photographic and miscelianeous chemical plants improved. Losses continued in all of the stone, clay and glass and wood industries.

Commodity Prices Decline Further According To National Fertilizer Association.

Commodity prices declined three-tenths of 1% during the week ended Feb. 8, according to the wholesale price index of the National Fertilizer Association. The Association's advices, Feb. 10, stated:

Eight groups declined, while only one advanced. Thirty-seven items declined and only 19 advanced. The more important declines occurred in textiles and textile materials; petroleum; fertilizer ma-terials, fats, grains, feeds and livestock; soft wood lumber; and miscellaneous commodities. The only group that advanced was that Thirty

of foods-other-than-fats. Based on 1926-1928 as 100 and on 474 quotations, the index for the week ended February 8 stood at 93.3; for that ended February 1, 93.6; and for that ended January 25, 94.1.

Consumption of Crude Rubber Higher in January Imports Also Increase.

Consumption of crude rubber of all classes by manufacturers in the United States in the month of January is estimated at 36,669 long tons, according to statistics compiled by the Rubber Manufacturers Association. This compares with estimated consumption of 23,531 long tons in December and 43,002 long tons in January 1929. Consumption of reclaimed rubber is estimated at 16,785 long tons for January as compared with 13,233 long tons in December and 19,459 long tons in January 1929.

The Association estimates total domestic stocks of crude rubber on hand and in transit overland on Jan. 31 at 120,649 long tons compared with 105,137 long tons as of Dec. 31 and 76,342 long tons as of Jan. 31 1929. Crude rubber afloat for United States ports on Jan. 31 is estimated at 61,863 long tons as against 62,388 long tons on Dec. 31 and 93,333 long tons a year ago.

Imports of crude rubber of all classes into the United States during the month of January totaled 47,462 long tons according to estimate issued by the Association. This compares with imports of 43,542 long tons in December and with 52,305 long tons in January 1929.

Shipments of Crude Rubber From Malaya Under New Method of Compilation.

Total shipments of crude rubber from Malaya during January, under a new method of compilation, were 52,330 tons, according to a cable received on Feb. 6 by the Rubber Exchange of New York.

This total is for the territories of Singapore, Penang, Malacca and Port Swettenham, and while not comparable with the total for December, which amounted to 48,513 tons, they showed an increased rate of export to the United States for the month over December.

January shipments to the United States were 32,840 tons, compared with 32,559 tons for December, while exports to the United Kingdom amounted to 11,274 tons, as compared with 7,927 tons during December.

The grand total, as contained in the cable, includes 3,246 tons previously reported, and excludes 435 tons carried over from the end of December. Domestic exports during January from British Malaya were 43,081 tons.

Drop in Silver Causes Acute Situation in Chinese Raw Silk Industry-Closing Down of Filatures in Canton.

Canton cables to the National Raw Silk Exchange on Feb. 8 indicated that all filatures in that city are closing down, it being impossible to operate them at present price levels for Chinese raw silk. The Exchange also states that the sharp drop in silver, the cable stated, has brought about an acute situation in the Chinese raw silk industry.

World Visible Supply of Coffee Feb. 1, 5,124,144 Bags. World visible supply of coffee as of Feb. 1 1930, according to an estimate by the New York Coffee & Sugar Exchange was 5,124,144 bags. This, it is stated, compared with actual world supply totaling 5,079,355 bags as of Jan. 1 1930, and 5,037,516 bags on Feb. 1 1929.

Lumber Demand Less Than Production.

Lumber orders were about 6% less and shipments were about 7% less than production for the week ended Feb. 8, it is indicated in telegraphic reports from 793 hardwood and softwood mills to the National Lumber Manufacturers' Association. These reports gave combined production as 295,862,000 feet. A week earlier 827 mills gave production as 258,086,000 feet, with new business 13% and shipments 11%, respectively, above that figure. Four hundred and eighty softwood mills reported unfilled orders on hand Feb. 8 as the equivalent of 23 days' production, which may be compared with an equivalent of 24 days' reported by 522 mills a week earlier. For the week, as compared with last year, 385 identical softwood mills reported production 4% less, shipments 16% less and orders 29% less than for the same week a year ago; for hardwoods, 209 identical mills gave production 18% less, shipments 25% less and orders 21% under the volume for the same week last year. Lumber orders reported for the week ended Feb. 8 1930

by 585 softwood mills totaled 244,392,000 feet, or 6% below the production of the same mills. Shipments as reported for the same week were 240,026,000 feet, or 7% below pro-

duction. Production was 258,664,000 feet, or 7% below pro-Reports from 230 hardwood mills give new business as 34,409,000 feet, or 7% below production. Shipments as reported for the same week were 33,923,000 feet, or 9% below production. Production was 37,198,000 feet. The Association's statement also shows:

Unfilled Orders.

Unfilled Orders. Reports from 480 softwood mills give unfilled orders of 996,670,000 feet on Feb. 8 1930, or the equivalent of 23 days' production. This is based upon production of latest calendar year—300-day year—and may be com-pared with unfilled orders of 522 softwood mills on Feb. 1 1930, of 1,071,-135,000 feet, the equivalent of 24 days' production. The 341 identical softwood mills report unfilled orders as 918,432,000 feet on Feb. 8 1930, as compared with 1,135,068,000 feet for the same week a year ago. Last week's production of 385 identical softwood mills was 196,794,000 feet, and a year ago it was 205,441,000; shipments were respec-tively 193,920,000 feet and 231,960,000; shi orders received 186,258,000 feet and 261,606,000. In the case of hardwoods, 209 identical mills re-ported production last week and a year ago of 33,840,000 feet and 41,298,000; shipments, 31,513,000 feet and 41,928,000, and orders, 31,149,000 feet and 39,456,000

West Coast Movement.

West Coast Movement. The West Coast Lumbermen's Association wired from Seattle that new business for the 212 mills reporting for the week ended Feb. 8 totaled 141,587,000 feet, of which 42,503,000 feet was for domestic cargo delivery and 30,914,000 feet export. New business by rail amounted to 59,514,000 feet. Shipments totaled 132,414,000 feet, of which 57,524,000 feet moved coastwise and intercoastal and 14,698,000 feet export. Rail shipments totaled 51,537,000 feet and local deliveries 8,655,000 feet. Unshipped orders totaled 635,191,000 feet, of which domestic cargo orders totaled 271,040,000 feet, foreign 160,211,000 feet and rail trade 203,939,000 feet. Weekly capacity of these mills is 247,586,000 feet. For the five weeks ended Feb. 1, 140 identical mills reported orders 18.1% over production and shipments were 11% over production. The same mills showed a decrease in inventories of 3% on Feb. 1, as compared with Jan. 1. Southern Pine Benerts.

Southern Pine Reports.

Southern Pine Reports. The Southern Pine Association reported from New Orleans that for 143 mills reporting, shipments were 15% below production, and orders 12% below production and 4% above shipments. New business taken during the week amounted to 52,374,000 feet (previous week at 136 mills 55,923,000): shipments, 50,589,000 feet (previous week 54,936,000), and production, 59,685,000 feet (previous week 54,803,000). The three-year average production of these mills is 71,157,000 feet. Orders on hand at the end of the week at 112 mills were 169,071,000 feet. The 132 iden-tical mills reported a decrease in production of 14% and in new business a decrease of 36% as compared with the same week a year ago.

tical mills reported a decrease in production of 14% and in new business a decrease of 36% as compared with the same week a year ago. The Western Pine Manufacturers' Association of Portland, Ore., reported production from 77 mills as 22,733,000 feet, shipments 30,140,000 and new business 27,020,000 feet. Sixty identical mills reported a decrease of 11% in production and of 19% in new business when compared with last year. The California White and Sugar Pine Manufacturers' Association of San Francisco reported production from 14 mills as 2,469,000 feet, shipments 11,734,000 and orders 10,208,000 feet. The same number of mills reported production 65% less and orders 9% more than that reported in 1929.

1929

The Northern Pine Manufacturers' Association of Minneapolis, Minn., reported production from eight mills as 1,968,000 feet, shipments 3,598,000 and new business 2,966,000. The same number of mills reported production 52% less and new business 69% less than that reported a year ago. The Northern Hemlock and Hardwood Manufacturers' Association of Oshkosh, Wis., reported production from 22 mills as 3,457,000 feet, shipments 1,680,000 and orders 1,528,000. The same number of mills reported an increase in production of 15% and a decrease in orders of 21% when compared with the corresponding week of last year.
The North Carolina Pine Association of Norfolk, Va., reported production from 109 mills as 10,346,000 feet, shipments 9,548,000 and new business 5,309,000. Thirty-four identical mills reported a decrease in production of 16% and in new business of 33% in comparison with 1929.
The California Redwood Association of San Francisco reports were not received in time for publication.

Hardwood Reports.

The Hardwood Manufacturers' Institute of Memphis, Tenn., reported production from 208 mills as 30,911,000 feet, shipments 30,182,000 and new business 30,904,000. Reports from 187 identical mills showed a de-crease in production of 17% and a decrease in new business of 31% when compared with the same period a year ago. The Northern Hemlock and Hardwood Manufacturers' Association of Oshkosh Wis reported production from 22 mills as 6.287 000 feet ship.

bolkosh, Wis., reported production from 22 mills as 6,287,000 feet, ship-ments 3,741,000 and orders 3,505,000. The same number of mills reported production 31% less and orders 19% less than that reported for last year.

Production, Sales and Shipment of Cotton Cloth in January--Production in Five Weeks of January 323,287,000 Yards, Compared with 243,735,000 Yards in Four Weeks of December.

Statistical reports of production, sales and shipments of standard cotton cloths during the month of January 1930 were made public Feb. 10 by the Association of Cotton Textile Merchants of New York. The figures cover a period of

the Merchants of New York. The figures cover a period of five weeks, says the Association, which adds: Production during the five weeks of January amounted to 323,287,000 yards, or at the rate of 64,657,000 yards per week. Shipments during the month of January were 331,481,000 yards, equiva-lent to 102.5% of production. Sales during the month were 292,034,000 yards, or 90.3% of production. Stocks on hand at the end of the month amounted to 452,819,000 yards, representing a decrease of 1.8% during the month. Unfilled orders on Jan. 31 were 391,571,000 yards, representing a de-crease of 9.2% during the month.

Unfiled orders on Jan. 31 were 391,571,000 yards, representing a de-crease of 9.2% during the month. These statistics on the manufacture and sale of standard cotton cloths are compiled from data supplied by 23 groups of manufacturers and selling agents reporting through the Association of Cotton Textile Merchants of New York and the Cotton-Textile Institute, Inc. The groups cover up-wards of 300 classifications or constructions of standard cotton cloths and represent a large part of the production of these fabrics in the United States.

Production Statistics January 1930.

The following statistics over upwards of 300 classifications or construc-tions of standard cotton cloths, and represent a very large part of the total production of these fabrics in the United States. This report represents all of the yardage reported to our Association and the Cotton-Textile Insti-tute, Inc. I. is a consolidation of the same 23 groups covered by our re-ports since October 1927. The figures for the month of January cover a period of five weeks.

The December statistics were given in our issue of Jan. 11, page 204.

Bituminous Coal Markets Continue Activity-Prices Slightly Higher.

Buoyed up by real winter weather, the bituminous coal markets of the United States in the past month maintained the activity begun in December and domestic and industrial demand, with few exceptions, continued at a high rate, the "Coal Age" reports in its current issue. Prices moved up slightly in all but a few markets as compared with the higher than in the same month last year. Buying in general continued to be of the hand-to-mouth variety, continues the Age," adding:

January coal production is estimated at 49,750,000 net tons, an increase of 3,550,000 net tons over December 1929, and a decrease of 1,706,000 net tons as compared with production in January 1929. The "Coal Age" index of spot bituminous prices for January (preliminary) was 154½, which compares with 154½ for December. The corresponding weighted average spot price for last month stood at \$1.88½, which compares with \$1.87½ for December.

for December. Conditions in the anthracite markets of the country in January were largely a question of weather. Activity in the domestic sizes, however, was only fair, with consumers and dealers still reluctant to lay in stocks. Chestnut was the leading size. Steam sizes, on the contrary, enjoyed a fairly active demand as a result of the rising call for buckwheat for use as a domestic fuel, which carried the others along with it.

Typographical Union Rejects Pay Increase—Refuses Offer Made by New York Newspaper Publishers of \$1 a Week Rise Instead of Five-Day Week.

Members of Typographical Union No. 6 at a meeting at the Yorkville Casino, 86th Street and Third Avenue, on Feb. 9 rejected by a vote of 1,599 to 1 a proposal of the New York newspaper publishers that they accept \$1 a week wage increase instead of a five-day week. The New York "Times" in reporting this said:

The Union adopted a resolution reiterating its demand for the five-day working schedule. A committee headed by Sigmund Oppenheimer, which has been negotiating with the publishers, was directed to convey the union's refusal to the publishers and to report back to the members at a meeting on the first Sunday in March. The union, popularly known in New York as "Big Six," first made its request for a five-day week last July at the expiration of the agreement under which the members had been working for three years. As a basis of the next agreement "Big Six" insisted upon a five-day week instead of the present six-day one. This request the newspaper publishers refused to grant. After a series

the present six-day one. This request the newspaper publishers refused to grant. After a series of conferences with the committee representing "Big Six," and an official of the International Typographical Union, of which "Big Six" is a member, the publishers made a counter-offer of \$1 a week wage increase over the present scale of \$65 a week for day work and \$68 for night work. This offer was turned over to a committee which reported unfavorably upon it yesterday. Then the vote was taken. The resolution followed a speech by Leon H. Rouse, President of the local. The request made by "Big Six" would affect about 3,000 men machine operators, make-up men, proofreaders and others employed in the com-posing rooms of the metropolitan dailies. About 2,000 attended yester-day's meeting.

day's meeting.

Petroleum and Its Products-No Immediate Revision of Mid-Continent Crude Prices to Former Levels-California Situation Blamed for Decision of Purchasing Companies.

There will be no immediate upward revision of Mid-Continent crude oil prices to the levels prevailing before the recent cuts, it is announced by W. S. Farish, President of the Humble Oil & Refining Co., subsidiary of the Standard Oil Co. of New Jersey. Mr. Farish was in New York this week conferring with officials of the Standard of New Jersey. Following the meeting, in discussing the genesal situation, he declared that with California gasoline available in Atlantic Coast markets at eight cents a gallon, or even less, the lowering of crude oil prices in the territories affected by such competition was necessary to protect refiners who purchase a large part of their crude requirements.

Discovery of a new field of high-gravity crude was indicated by the completion by Lion Oil Refining Co. of a wild cat well located three miles from Zwolle field in Louisiana. The wild cat blew in flowing 5,000 barrels of 42 gravity crude daily. It has been brought under control and is flowing 2,000 barrels daily through a choke. This is exceptionally valuable oil because of its high gasoline content and falls within the category of "sweet" crude.

General recognition of the seriousness of the California crude situation is shown in the calling of a conference of business organizations by the Los Angeles Clearing House Association last Monday, Feb. 10. The conference was called to discuss means of arousing public interest in the proper method of conservation. L. P. St. Clair, Executive Vice-President of the Union Oil Co., and a Vice-President of the American Petroleum Institute, reviewed for the conference the general situation, pointing out that the situa-tion of the entire oil industry of the State was precarious, and that the seriousness extended even throughout the nation, all because of the success of a minor number of "irreconcilables" in defeating all measures aimed at conservation in California.

Executives of leading oil companies operating in California have estimated that 600,000 per day is the most that California can sately produce throughout the rest of 1930 December level and, on the average, were substantially without creating a surplus which may affect the oil market

structure not only in the West Coast State but in the other important centres throughout the country.

Mr. St. Clair made an appeal to the conference to stir up public support of the State conservation law, to the end that litigation a fecting it may win priority in court. It is declared probable that if the effort at proration of production from California's flush tields is abandoned, crude oil prices will have to be reduced and that the reduction this time will stand for a considerable time.

Texas operators, hampered in their efforts to bring about adequate crude oil curtailment to the level of the demand of their own State, are taking their problem direct to Governor Moody, and are requesting special legislation which will broaden the powers of the State Railroad Commission, which exerts authority over and administers the conservation laws of Texas. The operators are seeking more definite protection for their members who comply with the Commission's orders.

REFINED PRODUCTS-STANDARD OF NEW YORK REDUCES TANK WAGON GASOLINE-DEMAND INCREASES FOR DO-MESTIC HEATING OILS-DIESEL OIL STEADY-NO IM-PROVEMENT IN KEROSENE BUSINESS.

A reduction in tank wagon gasoline prices featured the refined products market during the past week. Standard Oil Co. of New York made the move, cutting the price one cent per gallon throughout New York and New England. The new tank wagon price in New York City is 13.3 cents per gallon, while the service station price remains unchanged at 15.3 cents per gallon, exclusive of the State tax.

Bulk gasoline demand has maintained a fairly steady tone this week but business is not as great as anticipated. The uncertainty of the weather is blamed for this, however, making the basic cause seasonal, rather than otherwise. More activity is shown by buyers in making inquiries, but they are not placing business in the usual volume. The Mid-Continent crude situation is holding back buying movement considerably, due to the general belief that the lower crude prices now in effect must eventually be reflected in the refined products market. The tank car price of U.S. motor gasoline remains unchanged at 834 cents per gallon at refinery.

There is a better interest shown in domestic heating oils, as consumption has increased steadily during this season, and prices are firmly established. Movement against contracts has been good and repeat orders have been frequent.

Diesel oil continues steady at \$2 per barrel, with consumption satisfactory.

In the California gasoline situation it is reported that shipments are available in cargo lots at 8 cents c.i.f. Eastern ports, while one factor reports that he was offered a lot at slightly less than this quotation.

In the kerosene division conditions are not so satisfactory. Consumption is keeping up fairly well but stocks are increasing rapidly. Refiners have been able thus far to maintain the level of $7\frac{3}{4}$ cents per gallon for 41-43 water white at refineries, however.

The price changes of the week follow:

Feb. 11.—Standard Oil Co. of New York announces reduction of one cent per gallon in tank wagon gasoline, effective throughout New York State and New England.

The American Petroleum Institute estimates that the daily average gross crude oil production in the United States for the week ended Feb. 8 1930 was 2,613,800 barrels, as compared with 2,595,000 barrels for the preceding week, an increase of 18,800 barrels. Compared with the output for the week ended Feb. 9 1929, of 2,693,550 barrels daily, the current figure represents a decrease of 79,750 barrels per day. The daily average production east of California for the week ended Feb. 8 1930 was 1,905,900 barrels, as compared with 1,884,400 barrels for the preceding week, an increase of 21,500 barrels. The following are estimates of daily average gross production, by districts:

Substantial Increase in Steel Orders Over Year Ago.

Unfilled orders on the books of subsidiaries of the United States Steel Corp. as of Jan. 31 1930 amounted to 4,468,710 tons, the highest the figure has been since Jan. 31 1926. At Dec. 31 1929 the unfilled tonnage was 4,417,193 tons, and a year ago it was 4,109,487 tons. Below we show the monthly figures back to 1925. Figures for earlier dates may be found in the "Chronicle" of April 17 1926, p. 2126.

Weekly Refinery Statistics for the United States.

According to the American Petroleum Institute, companies aggregating 3,484,400 barrels, or 95.4% of the 3,650,-900 barrel estimated daily potential refining capacity of the plants operating in the United States during the week ended Feb. 8 1930, report that the crude runs to stills for

the week show that these companies operated to 69.7%of their total capacity. Figures published last week show that companies aggregating 3,469,350 barrels, or 95% of the 3,650,900 barrel estimated daily potential refining ca-pacity of all plants operating in the United States during that week, but which operated to only 71.4% of their total capacity, contributed to that report. The report for the week ended Feb. 8 1930 follows:

x Revised, due to transfer of approximately 2,000,000 barrels to unfinished oils in Louisiana Guif Coast.

in Louisiana Guif Coast. Note.—All crude runs to stills and stocks figures follow exactly the present Bure of Mines definitions. In California, stocks of heavy crude and all grades of fi oll are included under the heading "Gas and Fuel Oll Stocks." Crude oil runs stills include both foreign and domestic crude.

Steel Production Makes Slight Gain-Demand Also Increases-Pig Iron Price Lower.

Steel demand, after rebounding sharply in January, is not only holding its own, but in the aggregate, has shown a further slight gain, reports the "Iron Age" of Feb. 13 in its current review of iron and steel conditions. The most recent expansion of business, however, has not been shared in by al producers. Whereas steel ingot output at Chicago has risen to 90% of capacity, at Pittsburgh it remains at 75% and in the Youngstown district has declined a few points. The average for the country at large has advanced to 79%compared with nearly 77% a week ago, says the "Age" which further states:

which further states: Rail releases help account for the high rate of production in the Chicago district. One Lake Michigan rail mill is now running full and the other will reach capacity operations by the end of the month. Bookings in other pro-ducts are also large, with deliveries on plates, shapes and bars now ranging from four to six weeks. Last month's specifications for soft steel bars at Chicago were 16% larger than in January 1929. The outlook in heavier rolled products is generally favorable, thanks to railroad equipment purchases and structural steel awards. The Van Sweringen lines have placed 13,500 freight cars in the last fortnight and may soon purchase 2,500 additional. Fabricated steel lettings were in heavy volume for the third week, totaling 52,000 tons, compared with 52,500 tons last week and 53,000 tons two weeks ago. Electrifi-cation work for the Pennsylvania Railroad, 12,000 tons, and a New York subway section, 6,800 tons, were consplcuous among the current contracts.

York subway section, 6,800 tons, were conspicuous among the current contracts. Chicago mills look for the early release of 100,000 tons of plates for a gas line pipe contract placed last fall. Among prospective pipe projects is a 500-mile line to be built in northwestern Texas by the South Plains Pipe Line Co., a subsidiary of the Prairie Oil & Gas Co. Chicago reports the award of 2,000 tons of plates for oil storage tanks, with 20,000 tons of such work in sight. Shipbuilders are figuring on four tankers, requiring 8,000 tons of plates, for Pacific Coast oil companies. Demand for automobile steel, although still gaining, is not well diversi-fied. A Cleveland bar mill is operating at 100%. Similarly, a number of sheet and strip mills are running well, with schedules arranged for two weeks or more, but other makers of flat-rolled products continue on a day-to-day basis. January production of motor cars totaled 300,000 units, compared with slightly more than 400,000 in the first month of 1929. While the Ford and Chevrolet companies promise to show a material increase in output this month, makers of medium and high-priced cars will probably do little better than maintain their January rates. The bulk of the steel being bought is for prompt requirements. The

The bulk of the steel being bought is for prompt requirements. The caution that still dominates the policy of buyers is reflected in the hesitancy of container manufacturers in releasing orders against tin plate contracts. Tin mills, however, are keeping their schedules well adjusted to actual demand, with present operations at 75%.

The gain of 51,517 tons in the unfilled orders of the United States Steel Corp. in January brought the total to 4,468,710 tons, compared with 4,-109,487 tons one year previous and 4,275,947 tons two years ago. Total bookings, however, are less significant than the rate of specifying. Pro-duction in both January 1929 and January 1928, was larger than last month.

January production of steel ingots for the entire industry was 3,786,319 tons or 140,234 tons a day. The daily rate, although 21% greater than in December, was the smallest for any initial month since 1924.

Irregularities in stele prices have not disappeared, but the trend is toward a steadier market. A number of leading sheet mills have announced that they will not accept orders at less than 2.65c., Pittsburgh, for black sheets, 3.30c. for galvanized and 2.10c. for blue annealed light plates. An expan-sion in demand for metal furniture sheets has brought out concessions of \$2 a ton to 3.90c. a lb., Pittsburgh.

Sea ton to 3.90c. a lb., Pittsburgh. Scrap markets, although still rather apathetic, are slightly stronger. Heavy melting grade has advanced 25c. a ton at Pittsburgh, Chicago, Cleveland and Clncinnati, and 50c. at Buffalo. Pig iron demand is spotty, with some melters still buying from hand to mouth and others using up tonnage still due on contracts. Shipments, however, show an upward tendency, particularly to automotive foundries. The price situation is tenser in districts where Alabama iron is competitive.

In the New York district Buffalo foundry iron has broken 50c. a ton to \$16.

In the New York district Burrato formany non-maganese have adopted quantity furnace. Domestic and foreign producers of ferromanganese have adopted quantity differentials. The new schedule ranges from \$94 a ton, seaboard, for 2,000 tons or more to about \$118 a ton, f.o.b. furnace, for lots of 500 to 999 lb. packed in barrels. The "Iron Age" composite for pig fron has declined from \$18.17 to \$18 a ton, the lowest figure since October 1928. Finished steel is unchanged at 2.305c. a lb., as the following table shows:

 2.30050; a 10., as the following table shows:

Steel requirements of the country continue to expand but at a slower rate than in January and less evenly distributed both as to consumers and producers, states the "Iron Trade Review" of C eveland of this week. Those districts deriving major support from the railroads, bent on retaining their title of premier consumer of steel, are more active than those largely dependent upon the automotive industry, continues the "Review", which further goes on to say:

tille of premier consumer of steel, are more active than those largely dependent upon the automotive industry, continues the "Review", which further goes on to say: Jannary's rebound was the sharper because of the extremely poor showing of December. For last month's rate of increase to have extended into February would have required a surge in demand foreign to the season. Hence there is no abatement of the expectation that once the industry gains its second wind this month it will again move forward. Chicago district mills, rolling customary first-quarter track material and entering heavier specifications from freight car builders, have stepped up their operations to 55-88% compared with 90 a year ago. Pittsburgh mills, in a more spotty automotive situation, are holding at 75%. Youngs-town mills also are at 75%, a fractional gain over last week. Eastern mills are on more soild ground this week, averaging 80%. Thirty of the 34 open-hearth furnaces at Cleveland are active, a decline of two. Stee corporation subsidiaries, at 80% last week and 75 two weeks ago, are operating this week at 82%. Independents are averaging 76% and the entire industry 78, contrasted with a general rate of 57% a year ago. Now that production has made a heartening and unexpectedly-rapid comeback thus far in 1930, increasing concern is manifest over prices. It seems certain that an effort will be made in the next thirty days to advance prices from the low levels to which they retreated last month. If past experience is any criterion, however, consumers will be paralited isome cov-erage before the higher levels are made effective. To the 11,350 freight cars ordered by the Chesapeake & Ohio, Pere Marquette and Hocking Valley railroads and 2,150 by the Erie will shortly be added 2,000 by the Seaboard Air Line and 1,800 by the Louisville & Mashville. February, looks like a 17,000-car month, compared with 4,966 in January, 9,710 in December and 13,196 in January, Will probably show a slight appreciation in the daily rate in February. The ind

In the Federal Reserve discount rate may expedite financing of some pipe line projects. Emphasis in pig iron is on shipments rather than sales, to be expected at this season. Pittsburgh reports steelworks taking more iron. A Virginia pipemaker has closed on 15,000 tons. Pig iron prices generally are steady, as are those on beehive coke in the absence of forced sales. Despite the recent \$1 reduction, semi-finished steel, especially sheet bars and wire rods. Continues under pressure. Wire products quotations are less steady. Galvanized sheets again have been reduced at Chicago. Pig iron's fractional gain in the daily rate of January over December was considerably bettered by steel ingots, the daily ingot rate of 140,234 tons in January comparing with 115,851 tons in December and 166,300 tons in January, 1929. In ingots as in pig iron, January was the first month since last May to record improvement. The Steel corporation's fifth con-secutive gain in unfilled tonnage, as of Jan. 31, brought obligations to 4,468,710 tons, the highest since Feb. 28, 1926. Apparently denoting stabilization of prices, "Iron Trade Review" com-posite of iron and steel products is unchanged for the second consecutive week, at 35.24, after having declined continuously since early December. A year ago this index was at \$36.25.

Ingot production of the United States Steel Corp. has been increased and is now between 83 and 84% of theoretical capacity, compared with about 80% in the preceding week and 77% two weeks ago, states the "Wall Street Journal" of Feb. 11. The "Journal" continues:

F6D. 11. The "Journal" continues: Independent steel companies have kept pace with the gain made by the Steel Corp., and are running at approximately 76%, against 73% last week and 70% two weeks ago. For the entire industry the average is now between 79 and 80%, contrasted with around 76½% in the previous week and 73½% two weeks ago. At this time last year the Steel Corp. was running at 89%, with inde-pendents at 84%, and the average was slightly better than 86%. In the second week of February in 1928 the Steel Corp. was producing ingots at better than 90%, independents at a shade over 80%, and the average for the industry was nearly 85%.

Output of Bituminous Coal Lower-Anthracite Production Increases.

FEB. 15 1930.7

According to the United States Bureau of Mines, Department of Commerce, 11.624,000 net tons of bituminous coal were produced in the week ended Feb. 1, as compared with 11,675,000 tons in the same period last year and 11,703,000 tons in the week ended Jan. 25 1930. The total output of Pennsylvania anthracite during the week ended Feb. 1 1930 is estimated at 1,861,000 tons as against 1,718,000 tons during the corresponding period in 1929 and 1,749,000 tons during the week ended Jan. 25 last.

For the coal year to Feb. 1 1930, the production of bitum inous coal amounted to 438,570,000 net tons as compared with 424,088,000 tons in the coal year to Feb. 2 1929. The Bureau's statement says:

BITUMINOUS COAL.

The total production of soft coal during the week ended Feb. 1 1930, including lignite and coal coked at the mines, is estimated at 11,624,000 net tons. Compared with the revised estimate for the preceding week, this shows a decrease of 79,000 tons, or 0.7%. Production during the week in 1929 corresponding with that of Feb. 1 amounted to 11,675,000 tons.

Estimated United States Production of Bituminous Coal (Net Tons).

a Revised since last report. b Subject to revision.

The total production of soft coal during the present coal year to Feb. 1 (approximately 259 working days) amounts to 438,570,000 net tons. Figures for corresponding periods in other recent coal years are given below:

As already indicated by the revised figures above, the total production of soft coal for the country as a whole during the week ended Jan. 25 is esti-mated at 11,703,000 net tons. Compared with the output in the preceding week, this shows an increase of 1,036,000 tons, or 9.7%. The following table apportions the tonnage by States and gives comparable figures for other recent years other recent years. Estimated Weekly Production of Coal by States (Net Tons).

Coal Wage Accord Voted in Chicago-Dealers' Association Accepts Modified Demands of Teamsters' Union-Ten-Hour Day as Basis.

From its Chicago bureau the "Wall Street Journal" of Feb. 5 reported the following:

Of Feb. 5 reported the following: The Chicago Coal Merchants' Association unanimously voted to accept a modification of the demands of the Chicago Coal Teamsters' Union. Instead of a nine-hour day for all classifications of the 9,000 workers and a 90-cent increase a day in the pay of chauffeurs, with \$6 a day for helpers the labor committee of the association will proceed to negotiate a new scale on the basis of a 10-hour day with a 40-cent a day increase to chauffeurs and helpers and 15 cents a ton shoveling charge for hikers instead of 10 cents a ton

There will be no change in day labor so far as placing the men on a straight There will be no change in day labor so far as placing the men on a straight day basis is concerned. Wages will continue on piece rate and when the new scale is completed it will be retroactive as of Jan. 1 1930, when the old contract expired. The new contract will be for two years. This is the first time in the history of the wage negotiations with the union that a two-year contract has been agreed on. Heretofore the contracts have been for one was not been for one year only

year only. The only agreement gave chauffeurs working ten hours a day a wage of \$8.10. Chauffeurs' helpers received \$6.10. Milton Booth, President of the union, demanded \$9 a day for nine hours' work for the chauffeurs and \$6 a day for nine hours' work for the chauffeurs' helpers. The union also asked a nine hour day for hikers, the men who carry in the coal and work on a piece basis at 55 cents an hour.

Preliminary Estimates of Production of Coal and Beehive Coke for the Month of January 1930.

The following preliminary estimates for the month of January, as given in the United States Bureau of Mines report, are subject to slight revisions, which will be issued in the weekly report about the 15th of this month. AII current estimates will later be adjusted to agree with the results of the complete canvass of production made at the end of the calendar year. The figures as now reported show that about 49,750,000 net tons of bituminous coal were produced in January 1930, an increase of 3,550,000 tons as compared with the previous month, but represented a decrease of 1,706,000 tons as compared with the output in the month of January 1929. Anthracite production during the month under review showed a decrease of 428,000 net tons as compared with the corresponding month in the preceding year, and was 749,000 tons below the total output for the month of December 1929. The statistical tables as given by the Bureau of Mines are appended:

	Total for Month (Net Tons).	Number of Working Days.	Average per Working Day (Net Tons).
January 1930 (preliminary) a			1. 1. 1. 1. 1. 1. 1. 1. 1. 1. 1. 1. 1. 1
Bituminous coal	49,750,000	26.4	1,884,000
Anthracite	6,909,000	26.0	265,700
Beehive coke	312,600	27.0	11,578
Bituminous coal	46,200,000	25.0	1.848.000
Anthracite	7,658,000	25.0	306,000
Beehive coke January 1929—	344,900	25.0	13,796
Bituminous coal	51,456,000	26.4	1.949.000
Anthracite	7,337,000	26.0	282,000
Beehive coke	479,100	27.0	17.744

a Slight revisions of these estimates will be issued in the weekly coal report about the middle of the month.

Current Events and Discussions

The Week with the Federal Reserve Banks.

The consolidated statement of condition of the Federal Reserve Banks on Feb. 12, made public by the Federal Reserve Board, and which deals with the result forthe 12 Reserve banks combined, shows a decrease for the week of \$19,700,000 in holdings of bills bought in open market and small increases in holdings of discounted bills and U.S. securities. Member bank reserve deposits declined \$31,200,-000, Government deposits \$13,800,000, Federal Reserve note circulation \$1,000,000 and cash reserves \$3,000,000.

Total bills and securities were \$19,400,000 below the amount

Total bills and securities were \$19,400,000 below the amount reported a week ago. After noting these facts, the Federal Reserve Board proceeds as follows: The principal changes in holdings of discounted bills were an inc ease of \$24,600,000 at the Federal Reserve Bank of New York and decreases of \$10,800,000 at San Francisco, \$8,900,000 at Chicago and \$2,400,000 at Boston. The System's holdings of bills bought in open market declined \$19,700,000 and of Treasury certificates and bills \$14,200,000, while holdings of Treasury notes increased \$15,000,000. Federal Reserve note circulation increased \$8,700,000 during the week at the Federal Reserve Bank of Cleveland, \$4,000,000 at Philadelphia, \$2,900,000 at Chicago and \$2,700,000 at San Francisco, and declined \$8,400,000 at New York, \$4,700,000 at Boston and \$2,000,000 at St. Louis.

Returns of Member Banks for New York and Chicago Federal Reserve Districts-Brokers' Loans.

Beginning with the returns for June 29 1927, the Federal Reserve Board also commenced to give out the figures of the member banks in the New York Federal Reserve District, as well as those in the Chicago Reserve District, on Thursdays, simultaneously with the figures for the Reserve Banks themselves, and for the same week, instead of waiting until the following Monday, before which time the statistics covering the entire body of reporting member banks in 101 cities cannot be got ready.

Below is the statement for the New York member banks and that for the Chicago member banks thus issued in advance of the full statement of the member banks, which latter will not be available until the coming Monday. The New York statement, of course, also includes the brokers' loans of reporting member banks. The grand aggregate of these brokers' loans the present week shows an increase of \$48,000,000, the total on Feb. 11 1930 being \$3,450,000,000 as compared with \$6,804,000,000, the high record in all time established on Oct. 2 1929 and 5,568,000,000 on Feb. 13 1929. The loans "for own account" decreased during the week

from \$928,000,000 to \$924,000,000 and loans "for account of others' from \$1,547,000,000 to \$1,536,000,000, but loans "for account of out-of-otown banks" increased from \$927,000,000 to \$989,000,000.

Chicago member banks are now given out on Thursdays, simultaneously with the figures for the Reserve banks them. selves, and covering the same week, instead of being held until the following Monday, before which time the statistics covering the entire body of reporting member banks, in 101 cities, cannot be got ready. Beginning with the statement of Jan. 9 1929, the loan

Complete Returns of the Member Banks of the Federal

Reserve System for the Preceding Week. As explained above, the statements for the New York and

figures exclude "Acceptances of other banks and bills of exchange or drafts sold with endorsement," and include al real estate mortgages and mortgage loans held by the banks; previously acceptances of other banks and bills sold with endorsement were included with loans, and some of the banks included mortgages in investments. Loans secured by U.S. Government obligations are no longer shown separately, only the total of loans on securities being given. Furthermore, borrowings at the Federal Reserve are not now subdivided to show the amount secured by U.S. Government obligations and those secured by commercial paper, only a lump total of the two being given. The figures have also been revised to exclude a bank in the San Francisco district, with loans and investments of \$135,000,000 on Jan. 2 1929, which was merged with a non-member bank.

In the following will be found the comments of the Federal Reserve Board respecting the returns of the entire body of reporting member banks of the Federal Reserve System for the week ended with the close of business Feb. 5:

the week ended with the close of business Feb. 5: The Federal Reserve Board's condition statement of weekly reporting member banks in leading cities on Feb. 5 shows decreases for the week of \$78,000,000 in loans and investments, \$53,000,000 in time deposits, \$18,-000,000 in Government deposits and \$20,000,000 in borrowings from Federal Reserve banks, and an increase of \$58,000,000 in net demand deposits, Loans on securities increased \$10,000,000 at all reporting banks and \$56,-000,000 in the New York district, and declined \$27,000,000 in the Boston district and \$6,000,000 in the Cleveland district. "All other" loans declined \$61,000,000 at all reporting banks, \$41,000,000 in the New York district, \$10,000,000 in the Chicago district and \$6,000,000 in the Boston district.

and increased \$7,000,000 in the Philadelphia district. Holdings of U. S. Government securities show little change for the w while holdings of other securities declined \$22,000,000 in the New Y York district, \$10,000,000 in the Chicago district and \$30,000,000 at all reporting banks

The principal change in borrowings from Federal Reserve banks for the eek was a decline of \$15,000,000 at the Federal Reserve Bank of New York.

A summary of the principal assets and liabilities of weekly reporting member banks, together with changes during the week and the year ending Feb. 5 1930, follows:

Would Cancel Debts-Member of British Cabinet Says Method Will be Sought.

From London, Feb. 9, the New York "Times" reported the following:

The six-line statement by a member of the MacDonald Cabinet, which may or may not be of particular significance is published without comment in the London press. Speaking at the Wesleyan Church at Finchley, William Graham, President of the Board of Trade, is reported to have said: "We will seek some method of National debt cancellation on new and fair lines in order that social progress, particularly in the more backward countries of the world, may proceed more speedily." Reports of Chancellor of the Exchequer Snowden's broadcast talk to the United States to-day contain no reference to debt cancellations.

Failure of London Electrical Loan-92% of £7,000,000 **Electrical Offering Unplaced.**

From London, Jan. 31, the New York "Times" reported the following:

In the matter of public subscriptions to new loans, the £7,000,000 issue of 5% stock at 9714 by the Central Electricity Board was a complete failure. The underwriters had to take up this week 92% of the loan. This is accepted as proof that the investment market is not yet in a position to absorb large amounts of new securities. It is also recognized that the issue was made at a time when large sums were required for meeting

the final call on the government's conversion loan. Moreover, the term⁸

the final call on the government's conversion loan. Moreover, the term³ offered were none too generous. Several important British municipal loans are impending, but their chances for success are diminished by the failure of the electricity issue. A good deal of temporary finance through "bill issues" continues to be done; this is the cheapest form of borrowing at present. New Capital issues at London during January aggregated £16,925,542, comparing with £5,283,1Q0 in December and with £47,418,161 in January of last year. The total does not include government borrowings or special issues, such as conversions and capitalizations of reserves. Home issues accounted for £11,250,000 of the January total.

Fears for British Budget-Chancellor Snowden Says Income Tax is Yielding Less Than Estimate.

Leeds (England), Canadian Press advices Feb. 2, pub-lished in the New York "Times" state:

Itshed in the New York "Times" state: The budget estimates of last year will not be realized, unless there is considerable improvement in receipts from income tax in the next 12 months, declared Philip Snowden, Chancellor of the Exchequer, speaking at a dinner of the Leeds Chamber of Commerce last night. The yield from the stamp duties would probably be several million pounds short of the estimated yield, the Chancellor said, owing to the decreased Stock Exchange activity. The estimated duty was another source that had not come up to expectations. He declined to disclose budget secrets, but declared national finance must pay its way. Mr. Snowden promised, however, that he would not make any raids in the Labor Government's first budget. first budget.

Belgian Minister Blames Wall Street and Higher Duties in U. S. for Diamond Trade Troubles.

Charges that the diamond trade slump which has put Antwerp cutters and their employees on half-time work was the result of the Wall Street slump and the increased duties on diamonds in the United States were made in the Cha nber of Deputies at Brussels, Feb. 4, according to a cablegram from that city to the New York "Times" which added:

M. Van Berckelaer, Socialist, questioned Labor Minister Heyman on his failure to pay a dole to the diamond cutters out of work, to which M. Heyman replied that there was no unemployment and that all the workers, in accordance with employers, had been retained at reduced pay and on a restricted output in part. In outlining the causes for the diamond crisis, M. Heyman mentioned chiefly the Wall Street slump and the higher duties.

Accumulation of \$200,000,000 in Silver in Bank of Shanghai Reported as one of Causes of Depreciation of Chinese Money-Cities Menaced by War Send Metal for Safekeeping.

From the New York "Times" of Feb. 9 we take the following special correspondence from Shanghai Jan. 11:

From the New York "Times" of Feb. 9 we take the follow-ing special correspondence from Shanghai Jan. 11: Accumulation in the banks of the International Settlement at Shanghai of well more than \$2.0,000,000 in silver, which is one of the main causes of the depreciation of Chinese money, is largely due to the cripiling of business by misgovernments, in the opinion of foreign bankers here. This enormous store of idle silver, for which there is no call from the in-terior of China and no market abroad, has forced the exchange of the Chinese dollar down to almost a three-to-one rate as compared to the American dolar. Less than a year ago an American dollar brought around \$2.20 in Chinese money. This accumulation of silver in Shanghai is attributed to a variety of causes, chief of which, in the opinion of financial experts, are the following: Clvil war, official extortion, confiscation of property, brigandage and busi-ness paralysis in interior China. During 1929 China, supposedly united, experienced eight separate civil wars or rebellions, in addition to the costly Russian-Manchurian conflict in the far Nerth. This almost ceaseless domestic strife has naturally crippled business, increased taxes and keep prospects so uncertain that merchants and bankers in the interior have avoided making future commitments whenever possible. Because countless cities have been repeatedly in danger of capture, the banks have sent their silver to the International Settlement at hanghai for safekeeping. Normally more than half of the silver now stored here would be circulating in trade channels up the Yangste River basin. The civil wars have so often prompted local authorities to levy special taxes, and have even been used as excusses for immediate confiscation of properties in order to raise emergency defense funds, that money has literally been scared out of the interior cities into the vaults at Shanghai. Another development which has frightened a vast amount of wealth into the foreign protected area is the fact that the Nanking G

well intentioned, but Nanking has not the power to enforce it over more than a small area. Brigandage is so extensive over many provinces that no one dares to appear prosperous lest he be kidnapped and held for ransom, and in some provinces large bands of brigands levy regular monthly payments upon villages and towns as the price of sparing them from raids of looting parties. The villages and towns must pay, or they will be attacked, looted and burned and their women carried off to the brigand mountain retreats. Despite these conditions taxes keep mounting in order to pay for the up-keep of the 2,000,000 soldlers maintained by the various Generals—soldiers engaged periodically in factional wars, but rarely sent on missions to capture or scatter the powerful bandit gangs, some of which are several thousand strong.

strong.

Ambassador Edge of France and French Government Drafting Commercial Treaties.

Associated Press accounts from Paris state:

Associated Fress accounts from Paris state: Ambassador Walter E. Edge is now working hard on the preliminary draft of a Franco-American commercial treaty on which he hopes to inaugurate negotiations with the French Government soon. The French Foreign Office also is working independently on a draft of its own. The proposed treaty is to be substituted for the present modus vivendi, which both the United States and France believe should be superseded by a definite long-running treaty, thus placing their growing commercial relations on a more satisfactory basis.

Denies Free State Seeks a Loan Here-Minister at Washington Terms False the Report an Envoy Is on Way to "Sound" Wall Street.

The following from Washington, Feb. 7 appeared in the New York "Times":

Reports that the Government of the Irish Free State has dispatched a representative to sound the opinion of Wall Street on the flotation of an-other loan were denied today by Michael MacWhite, the Minister of the Irish Free State to the United States. In a statement he said:

Irish Free State to the United States. In a statement he said: The Minister of the Irish Free State said there was no ground whatsoever for the report published in New York yesterday from Dublin that the Government of the Irish Free State had dispatched a representative to sound the opinion of Wall Street Irish Free State had dispatched a representative to sound the opinion of Wall Street has so far taken no decision with regard to the flotation of the second part of the 1928 Ioan, the authorized total of which is £15,000,000 (\$72,975.000). The Irish Free State has no agent or representative in the United States outside of the Minister at Washington and when the Ioan is issued it will be in the free market and at such a time as will suit the convenience of the Irish Government'

Two Big Italian Banks in Surprise Merger—Credito Italiano and Banca Nazionale di Credito Fuse with Government Sanction.

In Rome (Italy), advices Feb. 11 the New York "Times"

In Kome (Italy), advices Feb. 11 the New York "Times" stated: A most important banking amalgamation was announced officially late this evening, causing the greatest surprise in banking circles, where the operations which had been conducted for this fusion were completely unknown. The banks concerned are the Oredito Italiano and the Banca Nazionale di Credito, two of Italy's Big Four banks. For the last two years the Fascist Government has followed the policy of co-ordination and amalgamation among many industrial concerns and the success of this policy led the Government to direct its attention to the activities of Italian banks with a view to secure in that branch of the National economy similar amalgamations. The Government which had been previously informed of the negotiations between the managers of the Credito Italiano and the Banca Nazionale di Credito, encouraged these of Italiano and the Banca Nazionale di Oredito, encouraged these discuts in the same time instructions on the lines on which the agreement should be based. Both banks have been amalgamated into one giant banking institution, which entirely absorbs the activities previously carried on by each of the banks. At the same time the new institution will be divided in two sections: One to be devoted exclusively to banking operations, finance industrial undertakings and carry on similar operations. The former section will be known under the name of the Credito Italiano, while the latter will be known under the name of the Credito Italiano, while the latter will be known under the name of the President of the section called Credito Italiano the divided in two sections; etc., the other to operate as a securities corporation, finance industrial undertakings system and the most beneficial results are expected from it. The new President of the section called Credito Italiano, while the latter will be known as the Banca Nazionale di Credito. Alberto Pirelli, former President of the International Chamber of Commerce, has been nominated Vice-President o

Fall of Spanish Currency Causing Concern in Business. From Madrid, Feb. 12 the New York "Times" reported the following:

the following: The peseta fell considerably today, and as a result of the continued monetary slump business in all lines began to show a disquieting decline. Speculation in the peseta abroad as a result of lack of confidence in the political situation is felt to be causing the persistent weakness. It has been learned from authoritative sources that the government Department of Labor has decided to lay off 5,000 State employees, includ-ing office and road laborers, in the interests of economy. Associated Press accounts from Medvid Feb. 12 stated.

Associated Press accounts from Madrid Feb. 12 stated:

The peseta was quoted in the closing unofficial Exchange to-day at 7.92 to the dollar, the lowest figure reached since Domaso Berenguer assumed the Premiership in place of Primo de Rivera. In banking circles it was said, however, there was no basic cause to justify alarm.

Ecuador Exchange Upset-Apprehension Exists Over Drop in Central Bank's Gold Reserve.

A cablegram to the New York "Times" from Guayaquil Feb. 12 said:

There is apprehension over the rate of exchange, according to Quito papers, on account of the reduction in the gold reserve of the Central Bank. El Dia commenting on the last bulletin of the Central Bank, says: "In the month of January, the balance between the purchase and the sale of foreign exchange was disturbed, as purchases were only 600,000 sucres, while sales were 2,977,000 sucres, resulting in a loss in the gold reserve of 2,386,000 sucres." 2.386.000 sucres

A prominent banker gives as the cause the low figure of exports and the payment of outstanding foreign debts by merchants.

Peru to Repay \$4,600,000 Loan From U. S. Bankers

Washington advices as follows Feb. 12 are taken from the New York "Journal of Commerce":

Short term advances made to Peru by American bankers during 1929 totaling approximately \$4,600,000 are to be repaid under a bill which has been passed by the Peruvian Senate, according to a cable to the Department of Commerce to-day from Lima, Peru. Repayment will be made by draw-ing upon the \$4,000,000 exchange fund and the \$1,600,000 deposited for the Mortgage Bank in New York since the contraction of the national loan in December 1927.

The Senate has also passed a stabilization bill proposed by the Govern-ment, fixing the value of the Peruvian pound at \$4. It is anticipated that these bills will become law within a few days. It is anticipated that

Argentine Peso Drops-Decline Laid to Demand for Foreign Currencies.

The New York "Herald Tribune" is authority for the following Buenos Aires advices (United Press) Feb. 7:

The Argentine gold and paper peso continued its decline on the foreign change to-day. The gold peso, with a par value of 96½ cents, reached a

The Argentine gold and paper peso continued its decline on the foreign exchange to-day. The gold peso, with a par value of 96 ½ cents, reached a new low of 86 cents, a decline of more than four cents since Monday. The paper peso was quoted at 36 cents from Monday's value of 37 9-10 cents. The general concensus of opinion among bankers here was that the decline on the exchange is due simply to an excess demand for United States dollars and other foreign currencies with no bills in the local market for sale. Cer-tain quarters expressed the opinion that unless the Gold Conversion Office was reopened the present situation could only be remedied by flotation of a foreign loan, the proceeds to remain abroad to cover Argentine commitments. The Banco Anglo Sud Americano and the Banco Italo-Belga deposited \$200.000 and £100.000, respectively, in the Argentine Legation at London yesterday for release of the equivalent in paper pesos here to local cor-respondents. Yesterday's deposits brings the total of paper pesos.

Turkish Loan Arranged-Newspapers Report Moratorium Contemplated.

From Constantinople, Feb. 9 advices to the New York "Times" said:

"Times" said: With neither denial nor affirmation from Angora of the rumored declara-tion of a moratorium for the Ottoman debt, newspapers here are discussing the possibility at length. The Milliet, government organ, reiterates that the "Government will not hesitate in regard to the health of the national money" by means of a foreign moratorium if the need arises. The paper specifies that this will apply only to the public debt and the Anatolian rail-road debt but not the naval and more recent railroad construction. A significant dispatch from Angora states that the Banca Commerciale d'Italia is arranging to place £1,000,000 at the disposition of the Govern-ment to stabilize the Bourse. The Ottoman debt is held principally by England and France, with lesser sums due Switzerland, Holland and Italy. The moratorium talk is believed to be traceable to the fact that the Turk-ba Government is now obliged to use for stabilizing its money large quantities of European exchange intended to start the proposed national bank. Further advices from Constantinople (Feb. 10) to the

Further advices from Constantinople (Feb. 10) to the

same paper said:

Same paper said: The Minister of Finance, Sarajogiu Shukru Bey, has categorically denied that the Government will declare a moratorium. Turkey is paid up in its obligation until June, he said, and in the meanwhile will seek other remedies for its financial problem. Obviously the moratorium reports had spread abroad, and the uncertainty cuased a slight rise in sterling. With the Banca Commericale Italiana arrangements completed and \$1,000.000 just paid into the Turkish Treasury for Russian Government purchases, the situation is temporarily relieved.

The "Times" later (Feb. 12) announced the following from Constantinople:

from Constantinopie: The newspaper "Aksham" says that sentiment in government circles at Angora favors a moratorium only if the Ottoman Debt Commission cannot make any other proposal. Kiazim Pasha, President of the National Assembly, says: "This would be a tool in the hands of our enemies abroad to attack Turkey, but we are accustomed to that. Our desire is a mutual understanding only on the old debts involved, not on those of the republican government."

Debt Worries Turkey-Ottoman Commission asked to Suggest Way Out of Fiscal Muddle.

Under date of Feb. 11 the "Times" reported the following from Constantinople:

That a moratorium is not a dead issue is indicated by a statement sent o the Ottoman Debt Commission in Paris by the Turkish Minister of

Finance in response to urgent inquiries. "The present state of affairs being capable of aggravation at the next date of payment. I am prepared to tell you that, to prevent a crisis which might injure the country's economic situation and the interests of the debt holders, it would be opportune for the commission to consider a solu-tion and to suggest it to my government."

India's New Loan Draws Response-Attractive Terms Effective -Other Loans Benefited.

A special cablegram from London Feb. 10 to the New York "Journal of Commerce" said:

The attractive terms of India's new £6,000.600 loan at 99 brought a good response to-day. The loan is redeemable at par in two years, or at the Government's option in three years at 101. Lists closed early, being largely oversubscribed. The development gave a better tone to gilt-edged securities and other Indian loans hardened, while British conversion loans and War 5s improved appreciably. Australian loans were also firmer.

Japanese Internal Bonds.

United Press advices from Tokio published in the "Wall Street Journal" of Feb. 7 said:

The Imperial Japanese Government is issuing internal bonds yielding 5.63%, redeemable after 55 years in connection with its earthquake reconstruction program financing.

Australian Gold Policy in Effect-Certain Associated Banks Refuse to Give Information Requested by Commonwealth Bank.

In its issue of Feb. 14 the "Wall Street Journal" carried the following Sydney advices:

Commonwealth Bank took the first official step recently under the powers conferred by the amending act dealing with the concentration of gold reserves and the export of gold. The bank made a request of the associated banks for information as to the gold held by them and their commitments in London. The banks were required under the amending act to provide in-formation regarding the gold held, but no provision was made to empower the Commonwealth Bank to demand information regarding the associated bank's business in other directions. Some of the banks have refused this additional information and a some-

bank's business in other directions. Some of the banks have refused this additional information and a some-what embarrassing position has resulted. It obviously is desirable that the Commonwealth Bank should be in possession of the facts concerning London funds so that it can make plans for the efficient use of the gold which it may requisition from the other banks. Moreover the Commonwealth Bank can assist only through the information desired in dealing effectively with the acute exchange position with which they are faced. Some of the banks are apprehensive of the use which might be made of in-formation regarding their private affairs by the Commonwealth Bank as long as it still has trading functions. This fear should be dissipated when action is taken in the next session of Parliament to separate completely the central reserve and the trading functions of the Commonwealth Bank.

The Bank of Iceland Closes Its Doors.

A wireless message from Copenhagen Feb. 3 to the New York "Times" said:

York "Times" said: Recent rumors of difficulties in connection with the falling of the Bank of Iceland's shares on the Copenhagen Stock Exchange were confirmed to-day when the bank did not open. It is now stated that the Althing (Par-lament) at Reykjavik held a plenary meeting lasting from 7 p. m. Sunday until 5 this morning, while the bank's council also met this morning. An official statement is expected later. In 1927, when deflation affected all Denmark, and especially Iceland, where it coincided with a period of low fishery prices, the bank's customers suffered heavily. Lack of confidence prevailed and the depositors with-drew their money to a great extent. The Bank of Iceland was formed in 1902 as a private bank with note issuing rights for thirty years, but the island's Landsbank by agreement will take over the note issue from 1931. The Bank of Iceland's present capital is 4,500,000 kroner (about \$1,135,-000). Since 1925, when it paid 5%, the bank has declared no dividend. Quotations for the bank's shares on the Stock Exchange in Copenhagen for the last three years were at about 30% of their face value, and on Saturday Feb. 1 they dropped to 25%. To-day the quotation was sus-pended.

Associated Press accounts from Copenhagen Feb. 3 had the following to say regarding the closing of the bank:

After a long discussion in Reykjavik to-night the Althing refused to grant the Bank of Iceland's request that the Government guarantee all its liabilities and furnish a loan of 1,500,000 kroner. Messages from Reyk-javik said a bill for the eventual liquidation of its affairs would be submitted to the Althing.

An official bank inspector and the manager of the Farms Bank of Reyk-javik, after a cursory examination of the Bank of Iceland's books, expressed the opinion that its liabilities would not exceed its assets.

From the New York "Times" we take the following from Copenhagen, Feb. 11:

The Icelandic Alting's second chambre concluded early this morning its debate regarding the reconstruction of Iceland's Bank. The recon-struction proposal was rejected by a vote of 17 to 11. The government parties liquidation proposal was carried, 17 to 8, and went to the third reading, where it is almost certain to be adopted. The main points of the government scheme are that the Finance Minister would appoint three men to a liquidation committee, while the Icelandic State would guarantee payment of the notes issued by the bank.

New York Agency of National Bank of Greece Incorporates Under Name of Hellenic Bank Trust Co.

For the benefit and convenience of the 60,000 Greeks residing in this State, the New York Agency of the National Bank of Greece has taken out a charter under the New York State Banking Laws to transact a general banking business under the name of the Hellenic Bank Trust Company. The new institution opened for business on Feb. 10 at its office at 51 Maiden Lane. The bank has a capital of \$1,000,000; surplus of \$300,000 and reserves of \$200,000, and is equipped to accept deposits and operate all the facilities of an up-todate State banking institution, including compound interest, foreign exchange and commercial banking departments. Heretofore, the activities of the agency have been limited. The new institution has been organized under the auspices of the National Bank of Greece with the co-operation of influential Greek residents here. John Plastropoulos is President; Demosthenes Megalides, Secretary, and Epaminondas d War 5s improved appreciably. Australian loans were also firmer. The Indian loan was referred to in our Feb. 8 issue, p. 906. Kaperonis, Treasurer. The board of directors, in addition to Mr. Plastropoulos, includes:

John Drossopoulos, Governor, National Bank of Greece, Athens; Thrasybule Bogdanos, National Bank of Greece, Athens; Athanassios Darmos, Agent, National Bank of Greece, New York Athanassios Darmos, Agent, National Bank of Greece, Athens; John Galanos, National Steamship Navigation of Greece, New York; Theodose Mitrou, Commercial Union of America, New York; Alexander Koryzis, Sub-Governor, National Bank of Greece, Athens; Joseph C. Rovensky, Vice-President, Chase National Bank, New Yor Spyro Skouras, Warner Bros., New York; Stephen C. Stephano, Stephano Bros., Philadelphia, Pa.

Bonds of City Savings Bank of Budapest, Hungary Called for Redemption.

The Irving Trust Co., at its Corporate Trust Division, 60 Broadway, N. Y. City, will pay on Feb. 15 1930, at par 7% 25-year secured sinking fund gold bonds (series A of 1928), due Feb. 15 1953 of City Savings Bank Co., Ltd., Budapest, Savings Bank Co., Ltd., Budapest, , of which \$15,000 par value have been called for Hungary, redemption.

Bonds of Saxon State Mortgage Institution Called for Redemption.

The National City Bank of New York, as fiscal agent, has issued a notice to holders of Saxon State Mortgage Institution mortgage collateral sinking fund 6% guaranteed gold bonds, due Sept. 15 1947, to the effect that it intends to redeem \$15,000 aggregate principal amount of these bonds at par on March 15 1930 at its head office, 55 Wall St., New York.

City of Christiana (Norway) Bonds Drawn.

Kuhn, Loeb & Co., as fiscal agents, announce that \$26,-000 principal amount of City of Christiana (Norway) municipal external loan of 1924 thirty-year 6% sinking fund gold bonds, due Sept. 1 1954, has been drawn by lot for redemption at par on March 1 1930. Bonds designated for redemption will be paid out of sinking fund moneys at the office of Kuhn, Loeb & Co. upon presentation and surrender with all coupons maturing on and after March 1 1930.

Bonds of Republic of Peru Drawn for Redemption.

J. & W. Seligman & Co. and The National City Bank of New York, fiscal agents of the Republic of Peru, are notifying holders of Peruvian National Loan 6% external sinking fund gold bonds, second series, due Oct. 1 1961, that \$132,-500 of these bonds have been drawn by lot for redemption at their principal amount and accrued interest on Apr. 1 1930.

Bonds of Sao Paulo Purchased for Cancellation by Speyer & Co.

Speyer & Co., as fiscal agents, have purchased for cancellation through the sinking fund \$58,000 bonds of the State of Sao Paulo secured 7% waterworks loan of 1926. This represents the first installment of the sinking fund for the current year.

Republic of Salvador Customs Collections and Debt Service.

As reported by the fiscal representative, collections for January are as follows:

1929 January collections \$661,919 Service on "A" and "B" bonds \$80,964 Available for series "C" bonds \$80,955 Interest & sinking fund requirements on ser. "C" bds. 70,000 \$771,791 82,957 688,834 70.000

In making public the above, F. J. Lisman & Co. state: Collections for the month of January 1930, after deducting service requirements for the month on the "A" and "B" bonds, were equivalent to over 8.29 times interest and sinking fund requirements on the series "O" bonds.

The bankers' representative collects 100% of the import and export aties, all of which is available for bond service if needed, and 70% of duties, all of which is specifically pledged for that purpose.

Offering of \$40,000,000 Republic of Cuba 51/2% Bonds -Loan Arranged by Chase National Bank-Intermediate Credit of \$20,000,000 Also Arranged-To Be Funded Later Out of \$80,000,000 Authorized Bond Issue.

It was announced on Feb. 10 that the Chase National Bank had concluded negotiations with the Government of the Republic of Cuba for the purchase of \$40,000,000 of its public works sinking fund 51/2% gold bonds, maturing June 30 1945. A public offering of the issue was made Feb. 11 by a group headed by Chase Securities Corp., Bancamerica-Blair Corp., the Equitable Corp. of New York, and Continental Illinois Co., Inc. The bonds are a part of an authorized issue of \$80,000,000, secured under the agreement by a first preferential lien and charge on 90% of the rev-

enues collected from certain taxes specified in the Cuban Public Works law, subject to the outstanding public works serial 51/2% certificates limited to \$20,000,000 maturing serially on and prior to June 30 1933.

In order to carry forward without interruption the public works program an intermediate credit of \$20,000,000 also has been arranged which it is intended to fund out of the authorized bonds. Pending such a funding operation, the credit will rank equally in lien with the bonds.

The \$40,000,000 issue was offered on Feb. 11 at 98 and interest to yield about 5.70%. A substantial portion of this issue has been withdrawn for sale in Europe and Cuba, of which \$3,000,000 of bonds will be offered in Holland by a group which will include Amsterdamsche Bank, De Twentsche Bank, Lippmann Rosenthal & Co., R. Mees & Zoonan. The bonds will be dated Jan. 1 1930. It is announced that:

The bonds will be entitled to the benefit of a sinking fund, payable in on Dec. 31 1935 and on June 30 and Dec. 31 in each year thereafter to and including June 30 1945, sufficient to retire the bonds by maturity.

The bonds will be redeemable as an entirety at any time at 105% of the principal thereof and accrued interest on 60 days' notice. They will be callable for the sinking fund at 100 and accrued interest on 30 days' notice. The bonds will be in coupon form in the denomination of \$1,000 registerable as to principal only. Principal and semi-annual interest (June 30 and Dec. 31) will be payable in gold coin of or equivalent to the present standard of weight and fineness of the United States of America gold coin at the Chase National Bank of the City of New York in New York City or Havana, at the holder's option, without deduction for any Cuban taxes present or future.

Mario Ruiz Mesa, Secretary of the Treasury of the Republic of Cuba, in advices to the syndicate offering the bonds, says in part:

Pledged Revenues.

The revenues pledged as security for these bonds include the tax imposed on automobiles and other vehicles, importation and consumption of gaso-line, $\frac{1}{2}$ % tax of sales and gross receipts, the surcharge on customs duties, the tax on the export of money or its equivalent, the tax on the rent and income of real property or property rights and 50% of the excess territorial tax. line, ½% duties, th rent and rent and income of excess territorial tax.

excess territorial tax. The amounts collected from the taxes under the Public Works Law in the first four fiscal years, after settlement for adjustments and refunds, and the official estimates of the revenues to be derived from such taxes for each fiscal year of the 20-year period ending June 30 1945, are as

Year Ended June 30-	Amts. Collected.	Official (Est.)
1926	\$12,162,628,25	\$10,000,000
1927	15,904,075.20	16,000,000
1928	16.680.448.46	16,000,000
929	18,034,340.41	18,000,000
1930-45 inclusive		18,000,000
* Doos not include \$2,958,574,34	transferred to the special	fund for public

works constituted by the Public Works Law.

Punpose of Issue.

The Public Works Law of 1925 contemplates a comprehensive program of improvements, national in character, and of great economic importance to Cuba. The program includes the construction of the great Central Highway of over 700 miles in length, traversing the island and connecting the various Provinces with Havana; the construction of water works, the various Provinces with Havana; the construction of water works, bridges, sewer and drainage systems, public schools and public buildings. Over 62% of the Central Highway is substantially completed, and 341 miles are now in use. It is expected that the Central Highway will be completely finished and in use by March 1931. The Public Works $5\frac{1}{2}\%$ Sinking Fund Gold Bonds and said \$20,000,000 credit are for the purpose of refunding or paying indebtedness of the Republic incurred for work completed and accepted in accordance with the provisions of the Public Works Law. Works Law.

General.

General. The present population of the Republic of Cuba is estimated in excess of 3,500,000. The total funded debt of the Rpublic as of the end of the fiscal year, June 30 1929, was \$87,174,200, exclusive of \$20,000,000 Public Works 5½% Serial Certificates outstanding, of which \$77,660,000 was external. Floating indebtedness as of the same date amounted to approximately \$5,000,000. Between 1904, the year during which the oldest of the external issues now outstanding was made, and Jan. 31 1930, the Republic of Cuba has retired, through payment of serial maturities or sinking fund operations, a total of \$47,800,500 of external bonds.

Federal Farm Board Provides Initial Credit of \$10,000,-000 for Grain Stabilization Corporation-Funds Used to Buy Wheat.

Government funds administered by the Federal Farm Board were put to a new use on Feb. 12, when, for the first time (according to a Chicago dispatch to the New York "Times") wheat was purchased in considerable quantities on six primary markets at prevailing low market prices to be held processed and merchandised at the order and risk of the Grain Stabilization Corporation. The dispatch went on to say:

This action followed the meeting and election of officers this morning in Chicago of the Farm Board's organization, incorporated Monday in Delaware. The Board acted to meet demands for drastic action in the

wheat market glut voiced by seven advisory committee wheat growers here a week ago. Chicago wheat prices have advanced seven cents since the announcement.

the announcement. While over 2.000,000 bushels of this grain, country-run only, have been bought over a period of several weeks by the \$20,000,000 Farmers' Na-tional Grain Corp. to protect sums totaling over \$10,000,000 advanced to farmers' co-operatives by the Farm Board, this is the first truly "specula-tive" purchasing of wheat since the Farm Board's initial attempt to boost wheat prices last October.

Wheat prices last October. The new stabilization corporation is a non-stock, non-profit organiza-tion, hence without capitalization. It has been granted a line of credit of \$10,00,000 from the Farm Board's revolving fund. Although its ac-tivities are confined to wheat, the charter empowers handling of other grains such as corn, oats, barley or rye, should such be necessary at a later date. Only cash grain is being purchased thus far, no officer being willing to commit the corporation on whether it might enter the "futures" market now or later.

market now or later. Officers of the new grain stabilization corporation named to-day in-clude W. G. Kellogg, President; G. E. Huff, Salina, Kan., President of Farmers Educational and Co-operative Union, Secretary; Ward M. Buckles, formerly Vice-President of the Federal Intermediate Credit Bank, Spokane, Wash., Treasurer; S. J. Cottington, Stanhope, Iowa, former President of National Farmers Elevator Grain Co., and E. V. Maltby, Chicago, Manager of the Rural Grain Co., Vice-Presidents. To-day marked the re-entry of some foreign buying in American wheat markets, as well as more activity in the buying of futures by millers. Chicago prices led general advances in all world markets (losing at \$1.10 for March

markets, as well as more activity in the buying of futures by millers. Chicago prices led general advances in all world markets, closing at \$1.19 for March and \$1.23½ for May wheat. Purchases were made to-day by the farmers co-operatives in Minneapolis, Duluth, Omaha, Chicago. Kansas City and Hutchinson, Kan., according to W. G. Kellogg, newly elected President of the stabilization corporation and General Manager of the Farmers National Grain Corp., He declined to say how much was purchased.

Announcement that the Federal Farm Board would provide an initial credit of \$10,000,000 to the Grain Stabilization Corporation was made by the Board on Feb. 10. In giving the Board's announcement the "United States Daily" In of Feb. 11 said in part:

of Feb. 11 said in part: The Federal Farm Board is prepared to recognize the Grain Stabilization Corporation recommended by the wheat advisory commodity committee as a stabilization corporation for wheat and will provide an initial credit of \$10,000,000 to the new corporation, the Board announced Feb. 10. The Farm Board may approve the Grain Stabilization Corporation Feb. 11, if the Board is able to act on the organization by that time, it was stated orally at the Board. The Grain Stabilization Corporation can buy grain from any one and there is no limit to the amount of wheat that it may buy, Chairman Legge stated orally at a press conference Feb. 10. Financially, the new stabilization corporation is a creature of the revolving fund provided by the agricultural marketing act, Mr. Legge explained.

marketing act, Mr. Legge explained.

Amount Available.

Amount Arailable. A total of \$500,000,000 is authorized as a revolving fund by the terms of the act, of which about \$150,000,000 is now available. The corporation is to be managed by William G. Kellogg, who was elected President at a meeting of the wheat advisory commodity com-mittee in Chicago, according to Mr. Legge. Mr. Kellogg is General Manager of the Farmers National Grain Corporation. Co-operatives who are members of the Farmers National Grain Corpora-tion, or who are to become members of this national grain co-operative, are setting up the Grain Stabilization Corporation, Mr. Legge said. He ex-plained that the Grain Stabilization Corporation is a distinct organization from the Farmers National Grain Corporation, and the former is not a part of the latter. of the latter.

of the latter. The Federal Farm Board's written announcement concerning the organiza-tion of the Grain Stabilization Corp. follows in full text: "The Federal Farm Board announced Feb. 10 that the wheat advisory commodity committee had recommended to the Board that it recognize the Grain Stabilization Corp., a non-stock corporation organized by grain co-operatives, as a wheat stabilization corporation under the terms of the agri-cultural marketing act, and that a loan be granted to this corporation suffici-ent to carry on its initial operations. "The Grain Stabilization Corp. is composed solely of qualified Capper-Volstead grain co-operatives and its membership is open to all such co-operatives. The various members have waived all rights or claims to any profits which may accrue from its operations, to the end that all profits or losses willfall upon the revolving fund provided in the agricultural marketing act.

act. "This is simply another step in the program of the grain co-operatives and the Farm Board for a unified national system for marketing grain co-operatives and been under consideration by the Board for several months. The Board, after careful study, is prepared to recognize this organization, set up by the grain co-operatives, as a wheat stabilization corporation under the terms of

the agricultural marketing act. "In accordance with the recommendation of the wheat advisory com-modity committee, the Board will provide an initial credit of \$10,000,000 to the corporation.

The Farmers' National Grain Corp. has already purchased about 2,000,000 bushels of wheat, it was roughly estimated while he was in Chicago attend-ng the Wheat Advisory Commodity Committee meeting, Mr. Legge said.

Cotton Co-operatives Name Advisory Committee-Said to Have Been Appointed at Instance of Federal Farm Board.

The New York "Journal of Commerce" reported the following from Washington Feb. 7:

lowing from Washington Feb. 7: With the continued falling prices of cotton the Federal Farm Board to-day announced the appointment by the cotton co-operatives of an advisory commodity committee for the industry. The statement said the cotton committee was appointed on the invitation of the Board. Appointment of the advisory commodity committee is necessary before the Board can set up a stabilization corporation for any commodity, al-though in the case of cotton emergency measures were taken earlier this week when the board of directors of the American Cotton Co-operative Association was authorized to place Allen Northington, President, in charge of marketing operations, pending the selection of a general manager of the \$30,000.000 sales agency. Authorized by law to buy from any existing surplus and withhold it from the market, such stabilization ocrporations can be established only on recommendation of the advisory committee.

The committee consists of seven and includes Bradford Knapp, President, College of Agriculture, Auburn, Ala: Robert Amory, Amory, Brown & Co., Boston, Mass.; U. B. Blalock, general manager and Secretary-Treas-urer, North Carolina Cotton Growers' Co-operative Association, Raleigh, N. C. H. Large Venue and the generative Secretary Use Breddert Officient College of Agriculture, Auburn, Ala.: Robert Amory, Amory, Brown & Co., Boston, Mass.; U. B. Blalock, general manager and Secretary-Treas-urer, North Carolina Cotton Growers' Co-operative Association, Raleigh, N. C.; H. Lane Young, cotton grower, executive Vice-President, Citzens & Southern National Bank, Atlanta, Ga., and Chiarman, agricultural committee, National Bankers' Association; A. H. Stone, Vice-President, Staple Cotton Growers' Association, Greenwood, Miss.; Lynn Stokes, Presi-dent, Texas Farm Bureau Cotton Association, and general manager, Texas Farm Bureau Gin Co. (co-operative). Dallas, Texas, and S. L. Morley, general manager, Oklahoma Cotton Growers' Association. Oklahoma City, Okla. Mr. Amory was certified to the board as an "experienced processor, cotton spinner," and Mr. Stokes as an "experienced processor, manager of cotton gins."

Fourth Advisory Commodity Committee.

This is the fourth advisory commodity committee to be set up by co-operative associations on invitation of the Farm Board, as provided by the Agricultural Marketing Act, the others being dairy products, wool and

Agricultural Marketing Act, the others being dairy products, wool and mohair, and wheat. While the Farm Board's statement gave no further details, the appoint-ment of the advisory committee for cotton was the same step taken by the wheat co-operatives. In the case of the committee for wheat, however, the advisory body was headed by the general manager of the \$20,000,000 Farm-ers' National Grain Corp., which it is anticipated would be constituted the stabilization corporation for wheat if such action is contemplated. No general manager has yet been selected for the American Cotton Co-operative Association, although it is considered that to-days' action in appointing the cotton advisory committee represents a set-up for cotton similar to that contemplated for the wheat Industry.

Northington Directing Activities.

Northington Directing Activities. Pending the selection of a general manager for the glant sales agency fc² cotton, Allen Northington is directing the association's marketing activities from his office in Montgomery, Ala. At the time the board of directors of the association placed Mr. Northington in active charge of the marketing operations, the Farm Board stated that the association would take over all marketing activities of the various member State co-operative associations and also to finance the handling of all cotton now held by the various member associations. Previously the Board announced that it had made a loan to official figures were given, it was estimated that upward of 400.000 bales of cotton are involved, this being the approximate holdings of the several members of the State co-operatives. The following further advices Feb. 13 were reported from

The following further advices Feb. 13 were reported from Washington by the same paper:

Although indications came to-day that a stabilization corporation for cotton would be set up similar to that just formed for the wheat industry, the Federal Farm Board made it clear that no action will be taken by the Board until the cotton co-operatives have made their plans.

Board until the cotton co-operatives have made their plans. Carl Williams, member of the Board for cotton, who has just returned from a series of conferences in the South, said to-day that within three weeks it is believed that the cotton farmers would formulate their plans. He explained that the Farm Board in formulating a policy with respect to cotton wanted to conform as closely as possible with the growers' ideas. Questioned by newspapermen concerning the cotton price situation, Mr. Williams explained that the average drop of 2c. a pound over a period of about three weeks was caused by this year's consumption being far be-hind that of last year and the uncertainty among buyers as to next year's supply. While short selling may have helped, he said that he was inclined to dismiss this theory as being the cause of the decline.

Japanese Cotton Spinners to Curtail Operations.

From the New York "Sun" of last night (Feb. 14) we take the following United Press advices from Tokio Feb. 14:

the following United Press advices from Tokio Feb. 14: Japan Cotton Spinners Association mills probably will operate at reduced capacity for six months, effective to-morrow. At its meeting held at Osaka the directors of the association adopted a production program which provides a 10% cut in active spindles and monthly extra holidays of two days and nights. Approval of this plan by the spinning mills was sought at the general meeting of the association. One significant provision in the tentative plan is that the executive com-mittee has the power to modify the rate of output within the limit of 5% after May 16. The salient points of the tentative resolution for decreased production follow:

Reduction effective for six months from Feb. 15 to August 15. All mills enforce extra holidays of two days and nights on top of 10% reduction in active spindleage. Production of yarns for weaving at own mills 5% reduction instead of 10%

of 10% two days and nights holidays can be substituted by 3.6% spindle

capacity For any new spindles installed during the time this resolution is being put in force a 20% reduction is enforced.

Farm-Labor Banking Urged by Senator Brookhart-Co-operative System Senator's Remedy to Avoid Wall Street Control.

A co-operative banking system founded and operated for farmers and industrial workers as the only means of equalizing capital control in the United States was advocated by Senator Smith W. Brookhart of Iowa at a labor protest meeting in Philadelphia Feb. 9, sponsored by the American Federation of Labor. The New York "Journal of Commerce" reporting this, and added:

Merce" reporting this, and added: Declaring that this was the only civilized country in which these two classes were prohibited by law from establishing their own banking system, the Senator said the Government has already recognized the co-operative principle in producing and distributing. "Recognizing the inadequacy of the Federal Reserve Board, the Govern-ment, moreover, has furnished a system for the needs of the farmer in the formation of the Intermediate Credit Bank, but it has been dehorned and denatured," the speaker continued. "The decoy ducks have been at it."

Senator Brookhart gave statistics on the comparative investment and the product value of agriculture and manufacturing, and declared present banking laws, chain organizations of all kinds and a system of government of labor by injunctions were the principal factors in maintaining an unfair capital return.

Outlines European Development.

Outlines European Development. The development of co-operative enterprises in various countries of Europe was outlined by the speaker, who predicted that the retail grocery trade and druggists would take steps along these lines to prevent centraliza-tion of credit control in Wall Street. Senator Brookhart repeatedly scored the Federal Reserve Board for assuming the right to adopt and push through any deflation policy after this body had been instrumental in inflating the financial situation. He urged his audience to support the Glass bill for a 5% stock sales tax and the Shipstead injunction measure. An outgrowth of strike conditions at the hosiery mills in the northeast district, the meeting attracting more than 5,000. Hundreds, unable to gain entrance, heard the addresses through amplifiers in the streets outside.

Suit in Ohio Against Henry L. Doherty & Co. Charges Sale of Cities Service Stock Was in Violation of State Gambling Law.

Associated Press advices from Elyria, O., Feb. 11, stated: A suit on file in Common Pleas Court here to-day charges that sale by the Henry L. Doherty Co. of New York of a portion of the Cities Service Co. stock has been in violation of Ohio gambling and bucket-shop laws. The suit is a test case, and the Doherty company is made defendant

a \$150 judgment.

for a \$150 judgment. The plaintiff, John Evenchick, President of the Rigbee Supply Co. here, for whom the suit was filed yesterday, bought twenty shares of Cities Service common during the December rebound at \$48 a share, paying \$150 down. Under contract it was stipulated that if any of the subsequent time payments became more than a month delinquent the contract would be canceled and Evenchick would receive his back payments, plus or minus the market quotations of his stock when he bought it, and when the con-tract was canceled minus another 10% as "liquidation damages."

Hornblower & Weeks Install Automatic Quotation Board in Boston.

"The customers' "room of Hornblower & Weeks's Boston office has been equipped with the first installation in Boston of the Remington automatic quotation board, which is now in operation. It is, with one exception, the largest yet produced by the company. The quotation board shows the opening, high, low and last sale of 300 stocks at all times, and also shows the market trend for the last seventeen consecutive sales.

J. E. Jarrett Co., Investment Banking Firm, San Antonio, Texas, In Hands Of a Receiver.

Judge Duval West of the Federal Court has appointed R. M. McMillan receiver for the J. E. Jarrett Co., San Antonio, an investment banking concern capitalized at \$1,250,000, according to advices from that city by the United Press, printed in the "Wall Street Journal" of Feb. 8. The dispatch went on to say that the receivership was granted on application of Warwick Field of New York, a stockholder, who claimed the recent stock market upheaval had undermined the credit of the Jarrett Co.

New York Clearing House Said To Have Under Consideration Question Of Reduction In Interst Rates On Bank Deposits.

It was reported in the New York "Times" that a special meeting of the New York Clearing House committee was held on Monday, Feb. 10 to discuss the advisability of reducing the interest rate paid on deposits by the banks of the city, but no action was taken, and no announcement was made concerning the meeting. The "Times" account also had the following to say:

As the Clearing House committee ordinarily would not hold its regular meeting until Feb. 25, the calling of yesterday's gathering aroused keen interest in financial circles. The question of such a re-duction has become a lively one since the lowering last Thursday of the rediscount rate of the Federal Reserve Bank of New York from 4½ to 4%.

4½ to 4%. Earlier in the year leading bankers, questioned about the likelihood of lowering interest on deposits, said that since rates had not been greatly advanced during the tight money last year there was no par-ticular hurry about reducing them. It is understood, however, that several banks feel now that the general level of money rates has fallen sufficiently to make advisable a less return to depositors. Present interest rates fixed by the Clearing House are 2% on deposits of banks, trust companies and private bankers; 2½% on deposits of mutual savings banks and 2½% on all other deposits. The one-half of 1% fee charged by banks for placing brokers' loans for account of out-of-town banks and non-banking lenders did not come up for discussion at the meeting, it is believed.

Income Tax Exemptions Proposed In Albany Bills.

Two measures amending the income tax law were introduced on Feb. 7 in the legislature by Senator Samuel H. Hofstadter and Assemblyman Abbot L. Moffat of New York City. We quote from an Albany dispatch to the New York "Times" which also said:

One increases the age limit for dependents from 18 to 21 years, and adds an exemption for dependents over 60 years of age. The other bill would permit tenant owners in co-operative apartment houses to deduct, when computing their income tax, those shares of their maintenance charges directly attributable to real estate taxes paid by the corporation in connection with the building.

House Adopts Resolution Calling For Inquiry Into Chain and Group Banking.

Double Barreled action affecting the country's banking operations marked the session of the House on Feb. 10 when the Committee on Banking and Currency received authorization to conduct an investigation of branch and chain banking and a move was made to ascertain the facts and scope of the intentions of the Federal Reserve System in regard to the past, present and future plans on international finance, particularly with respect to the Bank of International Settlements. The Washington correspondent of the New York "Journal of Commerce" in observing this on Feb. 10, stated further:

Authorization for the Committee's inquiry into branch and chain banking with a view to determining legislative needs came with ap-proval of the resolution recently offered by the Rules Committee, after a brief debate. Following the action, Chairman McFadden announced the Committee would map plans for the hearings at a meeting Tuesday, Feb. 18. He said he expected the hearings to get under way either by Feb. 24 or the first week in March. He explained that time lost in starting the investigation may necessitate the holding of daily sessions, whereas originally the Committee had contemplated only two hearings a week.

The resolution calling for the inquiry into group, chain and branch banking, was presented by Representative Michener of Michigan, and was agreed to by the House as follows:

House Resolution 141.

Resolved, That for the purpose of obtaining information necessary as a basis for legislation the Committee on Banking and Currency, as a whole or by subcommittee, is authorized to make a study and investi-gate group, chain, and branch banking during the present session of Congress. The committee shall report to the House the results of its investigation, including such recommendations for legislation as it deems advisable advisable.

advisable. For such purposes the committee, or any subcommittee thereof, is authorized to sit and act at such times and places in the District of Columbia, whether or not the House is in session, to hold such hear-ings, to employ such experts and such clerical, stenographic, and other assistants, to require the attendance of such witnesses and the pro-duction of such books, papers, and documents, to take suck testimony, to have such printing and binding done, and to make such expendi-tives as it deems necessary.

The debate in the House on the resolution on Feb. 10, before the motion to agree on the same was adopted, is indicated in the following which we quote from the "Congressional Record" of that day:

gressional Record" of that day: Mr. Michener: Mr. Speaker, this resolution creates no commission and it sets up no new committee. It simply gives the Committee on Banking and Currency, as a committee or a subcommittee thereof, the power to investigate and study group, chain, and branch banking, a matter which is a very live subject in the United States today. This committee, if this resolution is adopted, is permitted to hold sessions anywhere within the United States during the present session of Con-gress and to report its action— Mr. McFadden: Will the gentleman yield? Mr. Michener: I yield.

anywhere within the Onited Stating the present environment of the second states and the present is action— Mr. McFadden: Will the gentleman yield? Mr. McFadden: I would like to suggest to the gentleman that the hearings are confined to the District of Columbia. Mr. Michener: That is correct; the resolution was amended, and the hearings are confined to the District of Columbia. The committee is to report during the present session, and in substance that is all the resolution does. There is no opposition, so far as I know. Mr. Brand of Georgia: Will the gentleman yield? Mr. Michener: Yes. Mr. Brand of Georgia: I did not understand what the distinguished chairman of the committee said to the gentleman from Michigan. Mr. Michener: The gentleman from Michigan stated that this reso-lution would permit the committee to hold hearings anywhere in the United States. The chairman of the Banking and Currency Commit-tee corrected the present speaker by stating that the resolution confines the hearings to the city of Washington. Mr. Brand of Georgia: That answers my question, but I want to come contents ourseling.

the hearings to the city of Washington. Mr. Brand of Georgia: That answers my question, but I want to ask another question. The gentleman from Pennsylvania (Mr. Mc-Fadden) told me that he construed this second paragraph of the reso-lution to mean that all sessions of the committee or a subcommittee thereof will be held to consider the subject matter of this resolution during the present session of this Congress, and that there will be no meetings of the Banking and Currency Committee or subcommittee thereof after the Congress adjourned.

Interings of the Daming adjourned. Mr. Michener: That is the plain language of the resolution and the intent of the resoultion. Mr. Brand of Georgia: It is the language of the resolution; but is that what the Rules Committee contemplates? Mr. Michener: That is the purpose of the resolution, that the com-mittee will hold hearings only during the present session of the Con-gress and will then report to the Congress. Mr. Michener: Mr. Speaker, the gentleman's last statement cor-rectly interpretates the resolution. The gentleman says he has studied the problem for 17 years and that he is going to devote 90% of his time between now and the next session in a study of the matter. I am sure that the gentleman, who is one of the best-informed men on the committee, and with his past study and his future study will be able to bring to the Congress helpful information looking toward a

solution of the problem without a great deal of additional work by an extra committee.

So far as the resolution is concerned, it in no way limits the power of the existing committee or the powers conferred on the Committee on Banking and Currency by the rules of the House. It gives addi-tional power to permit the committee to sit during the sessions of the House throughout the present session and to bring before it papers and documents and make a thorough investigation. That is all there is to the resolution is to the resolution.

Mr. Speaker (Mr. Stafford), Speaker, I yield five minutes to the gentleman from Wisconsin

(Mr. Stafford). Mr. Stafford: Everyone in this House knows that one of the most urgent questions up for consideration is that of chain, group, and branch banking that has evolved during the past year. The people in various parts of the country expect Congress to take some steps toward solving this important question, and they hope, at least I hope, that this Committee on Banking and Currency, one of the great committees of the House, particularly by reason of the consideration of this present and pressing question, will be able to report substantive legislation at this session of Congress. Up to the present time the banks have merged without let or him.

this session of Congress. Up to the present time the banks have merged without let or hin-drance by the Treasury Department. From the set address delivered by the Comptroller of the Currency at the meeting of the American Bankers' Association at San Francisco I conclude he favors the trend of consolidation. The Secretary of the Treasury has stated in an ad-dress that the bank mergers should not be permitted to continue without legislative inquiry, and perhaps sanction and regulation. The Wisconsin State Bankers' Association at a recent meeting dis-approved the policy of amalgamation. To my mind, there is no ques-tion of the need of legislation to restrict and regulate these controllers of bank credit.

tion of the need of legislation to restrict and regulate these controllers of bank credit. Knowing the keen interest that the public generally is taking in this question, I hope the committee will be able, after study and investiga-tion, to report a constructive policy at this session on this most im-portant question that, as I view it, affects the vitals of our banking institutions institutions.

institutions. Mr. Knutson: I would like to ask the gentleman from Michigan if this should not carry an appropriation? Mr. Michener: That is taken care of by the Accounts Committee. Mr. Dyer: I understand the chairman on Banking and Currency is authorized in the resolution to appoint a subcommittee to make the investigation. Is that correct? Mr. McFadden: If the gentleman from Michigan will yield, I will say that while that authority is granted it is not the purpose of the chairman to appoint a subcommittee unless it is absolutely necessary. In other words. he considers this subject of such great importance that he would expect the whole membership of the committee to be in attendance. attendance.

Now that I am on my feet I would like to add that, as has been stated here, this study is going to mean a lot of hard work to com-plete it by the time that Congress adjourns. But I will say that we are going ahead to do the best we can under this limitation. Mr. Dyer: I would like to ask if the only question they expect to consider is whether there shall be branch banking? Mr. McFadden: Branch banking, chain banking, and group banking, and the committee hearings will be confined to those subjects. Mr. Dyer: I think the House is pretty well informed on branch banking, and if the gentleman can bring further information to show that branch banking would be disastrous, I hope the committee will bring it in.

Mr. Morton D. Hull: Will the gentleman yield? Mr. McFadden: I yield.

Mr. Morton D. Hull: Is it contemplated that the hearings will be public? Mr. McFadden: It is.

Federal Reserve Banks of Boston and Kansas City Reduce Discount Rates From 41/2 to 4%-St. Louis Reserve Bank Lowers Rate From 5 to 41/2%.

The Federal Reserve Banks of Boston and Kansas City this week lowered their discount rates from $4\frac{1}{2}$ to 4%; the 4% rate was established a week ago by the New York and Chicago Federal Reserve Banks—that rate thus being in effect at four of the Reserve Banks. The announcement of the change in the rate of the Boston Reserve Bank was made as follows on Feb. 12 by the Federal Reserve Board:

The Federal Reserve Board announces that the Federal Reserve Bank of Boston has established a rediscount rate of 4% on all classes of paper of all maturities, effective Feb. 13 1930.

The $4\frac{1}{2}$ % rate had been in effect at the Boston Bank since Nov. 21 1929.

The lowering of the discount rate of the Federal Reserve Bank of Kansas City from 4½ to 4% was announced yesterday (Feb. 14), the higher rate had been in effect at that bank since Dec. 20 1929.

The St. Louis Federal Reserve Bank, which had maintained a discount rate of 5% since July 19 1928 reduced its rate to 41/2% on Feb. 10, effective Feb. 11. The Reserve Board's announcement on Feb. 10 follows:

The Federal Reserve Board announces that the Federal Reserve Bank of St. Louis has established a rediscount rate of $4\frac{1}{2}$ % on all classes of paper of all maturities, effective Feb. 11 1930.

The New York "Journal of Commerce" in a dispatch from Washington, Feb. 10 regarding the lowering of the rate of the St. Louis Bank said in part:

The action of the St. Louis Bank said in part. The action of the St. Louis bank was not regarded with particular sig-nificance. Officials pointed out that that institution could not have well maintained a rate 1% above that of the adjoining district of Chicago. There was considerable speculation here as to how soon Boston and the other list of banks on the $4\frac{1}{2}$ % level would reduce to 4% to conform to New York. Some reductions may come during the present week, ac-cording to officials. It was stated that generally speaking conditions in

most of the districts maintaining 41/2 % rates apparently justify a reduction

most of the districts maintaining $4\frac{1}{2}$ % rates apparently justify a reduction of $\frac{1}{2}$ of 1%. Treasury, Reserve Board and other Administration officials will be well satisfied when all the rates have been decreased to 4%, since that will be a contributing factor to the further easing of money market conditions, regarded as essential in the carrying out of the various projects outlined by business leaders when they conferred with President Hoover recently. -

Representative McFadden Sees Federal Reserve System Co-Operating In Establishment and Operation Of Bank For International Settlements-Under Writing Of American Portion Of Stock By J. P. Morgan & Co.

In a lengthy speech in the House on Feb. 10, Representative Louis T. McFadden, of Pennsylvania (Rep) Chairman of the House Committee on Banking and Currency declared that there is a feeling "that the Federal Reserve System, perhaps more particularly the Federal Reserve Bank of New York, through the Chairman and Deputy Chairman of the Board, as well as the Deputy Federal Reserve Agent, are keeping in too close touch with the organization and possible management of the Bank for International Settlements." Mr. McFadden prefaced the foregoing with the statement that it is "an announced determination on the part of the United States Government that no participating directly or indirectly shall be had by the Federal Reserve System in the Bank for International Settlements. Mr. McFadden also stated that it has recently been announced in the press that J. P. Morgan & Co. will shortly offer the American allottment of stock in the International Bank, and added that it is understood that they "will also offer America's share of the proposed \$300,000,000 of the reparation bonds which are to be issued in connection with the launching of the Young plan." Mr. McFadden went on to sav:

Because of the close relationship of this private banking house to the governments and their Central Banks, as well as its close working agreements with the Federal Reserve Bank of New York, it is naturally assumed that the Bank for International Settlements, when established, is, so far as the United States is concerned, to be represented by the Morgan firm.

Morgan firm. It would appear that it is acceptable to both the State Department and the Federal Reserve System that the entire resources of the Federal Reserve System shall be used in co-operation with J. P. Morgan & Co., who are to direct the American participation in the Bank for Interna-tional Settlements. I am not attempting to suggest that the Morgan firm does not possess the right to act in this capacity. I am doubting, how-ever, the wisdom of permitting the use of the Federal Reserve System in this manner. this manner.

"Inasmuch as this whole international relationship, so far as Federal Reserve Banks are concerned, is being conducted under the authority of Section 14 of the Federal Reserve Act, and believing, as I do, that Congress never intended that Section 14 should convey this authority, is it not about time that Congress took notice of this situation and ascer-tained the facts and the scope of the intentions of the Federal Reserve management in regard to the past, present and future plans on inter-national finance?"

The following reporting what Representative McFadden had to say is taken from the "Congressional Record" of Feb. 10:

<text><text><text><text><text>

Every Federal reserve bank shall have power: :: (a) To deal in gold coin and bullion at home or abroad, to make loans thereon, exchange Federal reserve notes for gold, gold coin, or gold certi-ficates, and to contract for loans of gold coin or bullion, giving therefor, when necessary, acceptable security, including the hypothecation of United States bonds or other securities which Federal reserve banks are authorized to hold;

authorized to hold; To buy and sell, at home or abroad, bonds and notes of the United States, and bills, notes, revenue bonds, and warrants with a maturity from date of purchase of not exceeding six months, issued in anticipation of the collection of taxes or in anticipation of the receipt of assured revenues by any State, county, district, political subdivision, or munici-pality in the continental United States, including irrigation, drainage and reclamation districts, such purchases to be made in accordance with rules and regulations prescribed by the Federal Reserve Board; (c) To purchase from member banks and to sell, with or without its indorsement, bills of exchange arising out of commercial transactions, as hereinbefore defined.

(d) To establish from time to time, subject to review and determina-tion of the Federal Reserve Board, rates of discount to be charged by the Federal reserve bank for each class of paper, which shall be fixed with a view of accommodating commerce and business.

ition of the Federal Reserve Board, rates of discount to be charged by the Federal reserve bank for each class of paper, which shall be fixed with a view of accommodating commerce and business.
(e) To establish accounts with other Federal reserve banks for exchange purposes and, with the consent or upon the order and direction of the Federal Reserve Board and under regulations to be prescribed by said board, to open and maintain accounts in foreign countries, appoint correspondents, and establish agrencies in such countries wheresoever it may be deemed best for the purpose of purchasing, selling, and collecting bills of exchange (or acceptances) arising out of actual commercial transactions which have not more than 90 days to f exclusive of days of grace, and which bear the signature of two or more respondents or agencies, bills of exchange (or acceptances) arising out of actual commercial transactions which have not more than 90 days to me, exclusive of days of grace, and which bear the signature of two or more respondent has been appointed by a Federal reserve bank, with the consent of or under the order and direction of the Federal Reserve Board, to open and maintain banking accounts for such foreign correspondent has been appointed by a Federal reserve bank, with the consent of or under the order and direction of the Federal Reserve Board, any other Federal reserve bank may, with the consent and approval of the Federal reserve bank opening such account or appointing such ascent or conduct, through the Federal reserve bank opening such account or appointing on the rules and regulations to be prescribed by the board.
Of course, neither the authors of the act nor Congress itself expected or intended that this language would permit a transaction of this character to be consummated by the Federal reserve system. This is obvious if only for the fact that the Federal reserve system's credit comes are supposed to be held in trust for the purpose of supplying credit needs in times of stress to enabl

member banks to a foreign central bank guaranteed by its government. Consummation of this loan gave definite assurance to European central banks that our Federal reserve system had been made readily available for their assistance. Thus was established a dangerous precedent for further co-operation of the kind I have just described. The execution of this loan accelerated the close working understanding between the governor of the Federal Reserve Bank of New York and the governor of the Bank of England in the administration of these two systems and marked the beginning of an era of very confidential relationships, which it has since been disclosed has caused considerable concern to the members of the Federal Reserve Board as well as to the officers of the other 11 Federal reserve banks. The climax of these continued relationships arrived in the summer of 1927 when the heads of these central banks came to the United States on one of these frequent confidential missions and conferred in private with the governor of the Federal Reserve Bank of New York for a period of about two weeks. These conferences resulted in a definite change of policy on the part of the Federal reserve system, causing the lowering of the discount rate to $3\frac{1}{2}\%$. This simultaneously re-sulted in the releasing, coupled with active operations in the open market, of a large volume of credit, which during the ensuing months permitted th shipment of over \$500,000,000 worth of gold to Europe. Thus was carried out the scheme of the foreign bankers to get a grip on our banking system. In order to make sure that a sufficient amount of gold would be avail

th shipment of over \$500,000,000 worth of gold to Europe. Thus was carried out the scheme of the foreign bankers to get a grip on our banking system. In order to make sure that a sufficient amount of gold would be avail-able to cover the requirements of Europe, the Federal reserve banks released an excess amount of credit which resulted in the beginning of 1928 to the disastrous panic of October, 1929. Through the perfecting of methods of communication and the frequent exchange of visits by the heads of the co-operating central banks with the Federal reserve banks a highly sensitized working arrangement has been perfected. The international debt settlement has acted as an aid in the working out of this system by bringing closer together the central banks of the debtor and creditor countries with the treasuries of these countries. In that connection it should be noted that the man most of the Federal Reserve Bank of New York. When that plan was put into operation a former Under-Secretary of the United States Treasury Department was placed in charge of its execution, a man closely allied with Federal reserve operations. Shortly thereafter the then chairman of the board of the Federal Reserve Bank of New York resigned to go to Berlin to assist, apparently, the reparations agent under the Dawes plan; the new chairman of the Dawes plan, made a director of the Reichsbank of Germany. The governor of the Federal Reserve Bank of New York was, under the Dawes plan, made a director of the Reichsbank of germany. of Germany.

of Germany. The governor of the Federal Reserve Bank of New York was per-mitted to have a desk and a private secretary in the Bank of England, where frequent conferences took place concerning international financial matters. These close-working arrangements were further enlarged by the employment by the Bank of England of the former economist and statisti-cian of the Federal Reserve Board. He remained in the employ of the Bank of England until quite recently, when he was supplanted by one of the leading economists closely associated with the Federal Reserve Bank of New York and its former governor. As a result of the building up of this relationship, meetings have been held, attended by the economists of all of these banks, either independent

of, or in co-operation with the economic organization of the League of Nations, perhaps more properly known as the Genoa conferences; all of which tends to indicate a definiteness of purpose looking toward a universal plan of banking operations by and through the central banks and the Federal reserve banks.

plan of banking operations by and through the central banks and the Federal reserve banks. Concrete evidence of this development materialized when, at the in-stance of the reparations agent in the handling of the Dawes plan, a meeting was called to consider reparations settlements in which the United States, although it took no official part, was unofficially repre-sented by J. P. Morgan, Owen D. Young, Thomas N. Perkins, and Thomas W. Lamont. This meeting was held in Paris a year ago in conjunction with the representatives of the other governments involved, including Germany, and the plan of settlement now known as the Young plan was consummated. In connection with this settlement plan, a plan for the establishment of an international bank of settlements was drafted, which plan was sponsored by Mr. Young, and, it is understood, was adopted largely through the study of the operations of the gold settlement fund of the Federal reserve system, with the assistance of Mr. Young and those associated with him in the Federal Reserve Bank of New York. This plan has now been adopted by subsequent confer-ences participated in by two additional unofficial representatives from the United States, the presidents of the First National Bank of Settle-ments, it is now understood, has been definitely located at Basle, Switz-erland, and will open for business on or about April 1, 1930, with an authorized capital of \$100,000,000, the stock of which is to be divided equally between the central banks of each of the participating countries and the United States. Mr. Summers of Texas: Mr. Chairman, will the gentleman yield there?

Mr. Summers of Texas: Mr. Chairman, will the gentleman yield there?

Mr. McFadden Yes. Mr. Sumners of Texas What does the gentleman mean by the "cen-ral bank" of each country. Does he include the Federal reserve system

tral bank" of each country. Does ne include the restrict of the United States? Mr. McFadden: I will come to that later. I referred to govern-mental institutions abroad, like the Bank of England and the Bank of France, and in this instance the Federal Reserve Bank of New York, which is acting practically as a central bank. Mr. Cooper of Wisconsin: Mr. Chairman, will the gentleman yield? Mr. McFadden: Yes. Mr. Cooper of Wisconsin: I regret I did not hear the gentleman's opening statement, but I have been much interested in what he has just been saying. Can the gentleman approximate the aggregate amount of those foreign loans?

just been saying. Can the gentleman approximate the aggregate amount of those foreign loans? Mr. McFadden: I recall that one of \$200,000,000 to the Bank of England and a loan of several millions to the Bank of Belgium. I think

England and a loan of several millions to the Bank of Belgium. I think loans were also made to one or two other countries. Mr. Sloan: Mr. Chairman, will the gentleman yield? Mr. McFadden: Yes. Mr. Sloan: Are those loans that were made still existent? Mr. McFadden: I understand the loan to Great Britain is not now existent. Whether the loans that were made to the other banks are now existent I do not know. But the Federal Reserve Board has been co-operating with those countries that have been undertaking to go back to the gold standard by loaning them money during an emergency. emergency

gency. . Stafford: Does the Federal Reserve Board or the Federal re-system co-operate with those foreign banks, as I understand the gentleman to say?

Mr. McFadden: Yes; chiefly through the Federal Reserve Bank

Mr. McFadden: Yes; chiefly through the Federal Reserve Bank of New York. Mr. Stafford: Are they coming into this international system? Mr. McFadden: Most of these loans are handled by the Federal Re-serve Bank of New York. Mr. Stafford: It was done through the governor of the Federal Re-serve Bank of New York? Mr. McFadden: I think largely through the governor of the Federal Reserve Bank of New York. Mr. Knutson: Mr. Chairman, will the gentleman yield? Mr. Knutson: Does the gentleman understand that any negotia-tions had between the Federal Reserve Bank of New York and these foreign banks had the approval of the Federal Reserve Board in Wash-ington?

Mr. McFadden: I think they should be all approved. Mr. Knutson: Has the gentleman any information on that? That

Mr. McFadden: I think they should be all approved.
Mr. Knutson: Has the gentleman any information on that? That is very interesting.
Mr. McFadden: When the members of the Federal Reserve Board appeared before our committee in regard to this transaction they evidenced a lack of knowledge as to the details of these transactions, but they stated that most of the arrangements had been made by the Federal reserve bank at New York, and subsequently made known to the board.
Mr. Sloan: Mr. Chairman, will the gentleman yield?
Mr. Sloan: Mr. Chairman, will the gentleman yield?
Mr. McFadden: Yes.
Mr. Sloan: Were these Federal reserve banks informed that they would have to contribute?
Mr. McFadden: They were informed that they would be expected to contribute in proportion to their assets.
Mr. Briggs: Mr. Chairman, will the gentleman yield?
Mr. McFadden: Yes.
Mr. Briggs: Are the gentleman's remarks going to cover the question whether there is any relationship existing between the Federal reserve system and this establishment of the international bank for the international loan settlements?
Mr. McFadden: I will come to that; yes.
When in May, 1929, the announcement was made of the proposed establishment of the International Bank of Settlements the fact that the vice chairman of the board of the Federal reserve agent of the Federal Reserve Bank of New York were in Paris at the time, apparently in connection with this matter, caused much concern in this country as to what part the Federal reserve banks were to take in this establishment. Owing to the conflicting reports coming from abroad regarding the extent of the participation of the Federal reserve banks in the project and the proposed election or selection of two directors by the Federal Reserve Bank of New York, the Secretary of State anregarding the extent of the participation of the Federal reserve banks in the project and the proposed election or selection of two directors by the Federal Reserve Bank of New York, the Secretary of State an-nounced officially that neither the New York bank nor the Federal re-serve system would be formally represented on the board of the new international bank. His statement follows:

In respect to the statements which have appeared in the press in regard to the participation of any Federal reserve officials in the crea-

tion or management of the new proposed international bank, I wish to make clear the position of this Government: While we look with interest and sympathy upon the efforts being made by the committee of experts to suggest a solution and a settlement of the vexing question of German reparations, this Government does not desire to have any American official, directly or indirectly, participate in the collection of German reparations, this Government does not desire to have any American official, directly or indirectly, participate in the collection of German reparations through the agency of this bank or otherwise. Ever since the close of the war the American Government has consistently taken this position; it has never accepted membership on the reparations commission; it declined to join the allied powers in the confiscation of the sequestered German property and the aplication of that property to its war claims. The comparatively small sums which it receives under the Dawes plan are applied solely to the settlement of the claims judicially ascertained by the Mixed Claims Commission (United States-Germany) in fulfillment of an agreement with Germany, and to the repayment of the expenses of the American Army of occupation in Coblera, which remained in such occupation on the request of both the allied nations and Germany. It does not now wish to take any step which would indicate a reversal of that attitude and for that reason it will not permit ny official of the Federal reserve system either to themselves serve or to select American representatives as members of the proposed international bank.

Two days before this statement the New York Times reported under a Washington headline that President Hoover, according to informa-tion obtained in a reliable quarter, was opposed to the United States acting through the Federal reserve system in any manner in the setting up of the International Bank of Settlements to handle German reparaa payments as proposed by experts of the reparation committee Paris.

at Paris. Objection was raised to the semiofficial inclusion of the Federal Re-serve Bank of New York in organizing the bank or recommending a director. In this the administration followed closely the policy laid down by the Coolidge administration, namely, that the United States has no official interest in the reparations question and will not become involved in any way as to the terms of settlement or the program for the collection of reparations. Since this is a announced determination on the cost of the Victory

the collection of reparations. Since this is an announced determination on the part of the United States Government that no participation, directly or indirectly, shall be had by the Federal reserve system in this International Bank of Settlements, the Federal Reserve Board and the Federal reserve banks disclaim any participation whatsoever in the organization or operations of the International Bank for Settlements. There is a feeling, how-ever, that the Federal reserve system, perhaps more particularly the Federal Reserve Bank of New York, through the chairman and deputy chairman of the board, as well as the deputy Federal reserve agent, are keeping in too close touch with the organization and possible management of the Bank of International Settlements. The two American bankers who were chosen by J. P. Morgan and his

keeping in too close touch with the organization and possible management of the Bank of International Settlements. The two American bankers who were chosen by J. P. Morgan and his associates to represent the United States in the conferences leading up to the organization of the bank have completed that work and have returned to the United States. It is understood that the organization committee are actively at work in Paris completing the details for he opening of the bank; and it is commonly reported, both from Paris and New York, that the present chairman of the Federal Reserve Bank of New York is to be the governing head of the Bank of International Settlements. A strange coincidence in this connection is the return from Berlin of the former chairman of the board of the Federal Re-serve Bank of New York, who, it is understood, is again to become chairman of the Federal Reserve Bank of International Settlements; and it all causes us to ponder over the strange announcement by the Secretary of State that the Federal reserve system is not to be permitted to have any part in the Bank of International Settle-ments; and it all causes us to ponder over the strange announcement by the Secretary of State that the Federal reserve system is not to be permitted to have any part in the Bank of International Settlements. This apparently is the first time that the State Department has assumed to speak for the Federal reserve system, a system which is not a gov-ernmental institution and whose right to participate in international financial transactions has been established by previous actions in co-operation with the central banks of issue of the other countries of the world, and in the granting of loans to the extent of several hundreds of millions of dollars under the authority of section 14 of the Federal reserve act, which loans I have referred to as being a part of the loans negotiated by J. P. Morgan & Co. It is well to uote here, in connection with this whole situation, that reserve act, which loans I have rei negotiated by J. P. Morgan & Co.

It is well to note here, in connection with this whole situation, that any obligation that is consummated by any bank, banker, or groups of bankers, or business institutions in the United States, calling for the shipment of gold out of this country, has to be fulfilled through the operations of the Federal reserve banks, because they and the United States Government, for whom the banks act as fiscal agents, control practically all of the gold in the United States, which is in excess of 40% of the world's gold at the present time. It is important to note also these L B. Margan & Car an final

It is important to note, also, that J. P. Morgan & Co. are fiscal agents in this country of Great Britain, France, Italy, Belgium, and apparently are to be of Germany, through their connection with the International Bank of Settlements; and it is understood that J. P. Morgan & Co. are to be the principal American representatives of the Bank of International Settlements, and their nominees for directors of this bank will be elected. bank will be elected.

The New York Times of this morning contains a cablegram fr Paris, headed "Paris sees accord on the world bank—Believed Reic bank will end objection to Quesnay, citing Young plan spirit." particular attention was called to the last paragraph, which reads: from Reichs

Arrangements have been made at Basle for the bank to occupy pro-visional headquarters while a permanent building is being made avail-able. A hotel near the railway station is being remodeled for the permanent headquarters. It has three large halls and 80 rooms, which can be prepared quickly to accommodate the bank. The annual rent has been fixed at 200,000 Swiss frances (\$40.000). Mr. Siepman, representing American Federal reserve system and the Bank of England, with Mr. Van Zeeland, of Belgium, has gone to Milan. There they will be joined by M. Quesnay on Tuesday for con-versations with Italian financiers.

Minit i in the tree is the second s

CHRONICLE [Vol. 130.] mittee on Banking and Currency, assured the committee that all dis-cussion in this coming study of branch, chain, and group banking would be confined to those particular subjects. It has recently been announced in the press that J. P. Morgan & Co. will shortly offer for subscription in the United States the United States allotment of the stock in the international Bank of Settlements, which subscription was announced as guaranteed by the two bankers' representatives on their arrival at the last conference in The Hague. It was generally understood by this announcement that J. P. Morgan & Co. had underwritten that portion of this subscription allotted to the united States and will also offer America's share of the proposed \$300,000,000 of the reparation bonds which are to be issued in con-nection with the launching of the Young plan. Because of the close relationship of this private banking house to the ments with the Federal Reserve Bank of New York, it is natually as-sumed that the Bank of International Settlements, when established, is, so far as the United States is concerned, to be represented by the Morgan firm. When one considers the relationships which have grown up during the past few years in international finance between the central hanks of Europe and fiscal agents, J. P. Morgan & Co., and the Federal reserve banks, particularly the New York Federal Reserve Bank, which must be construed in the light of present-day developments as being at heast in the same relationship to the other central banks of the world subush it were a central bank. That it is is made more certain the apparent acquiescence of the other 11 Federal reserve banks and up the apparent acquiescence of the other 11 Federal reserve banks and the state Department has recognized the possible scope and the impor-tion of the State Department in speaking thus openly for the prossible scope of operations which may develop through the organization and operation of the bank of internationa

possible scope of operations which may develop through the organization and operation of the bank of international settlements. Can it be that the State Department has recognized the possible scope and the impor-tance of the connection of the Federal reserve system with this interna-tional bank? Is it possible that the State Department has recognized the fact that this bank of international settlements was to be a more powerful influence diplomatically than a treaty, or the League of Na-tions, or the World Court? Can it be that the State Department, be-cause of this fact, wanted to keep the Federal reserve system from having any voice in the organization and management of this bank, fearing lest Congress, and particularly the United States Senate, who have the authority under the Constitution to act on questions of treaties involving international situations in diplomacy, might object to the establishment of relations of this character by the Federal reserve banks? Can it be that the State Department fielt that, through the organization and partici-pation on the part of the Federal reserve system in the bank of interpation on the part of the Federal reserve system in the bank of inter-national settlements, that the Federal reserve system and not the State Department would be handling more important diplomatic relations than are now handled by the State Department under the approval of trtaties negotiated by the President of the United States and approved by the negotiated by the Pres United States Senate?

Can it be that the State Department sees no harm in the private bank-ing house of J. P. Morgan & Co. representing the United States in the bank of international settlements, particularly when they must know that these operations in international financial transactions can not be that these operations in international financial transactions can not be successfully conducted except by and through the Federal Reserve Bank of New York; and by this acquiescence are they not approving of the possible use of the Federal reserve banks in all international financing which may be carried on through the international bank of settlements or the firm of J. P. Morgan & Co.? And is this not giving the Morgan firm a valuable franchise? Is it not fair to assume such to be the case when we review the negotiations that led up to the granting of the recent loan of \$300,000,000 by the Federal reserve banks and the Mor-gan firm to the Bank of England and England, wherein the Morgan firm were paid a commission of \$1,125,000 for the first year and the credit ran for two years and the Federal reserve banks received no interest? interest?

Chairman: The time of the gentleman from Pennsylvania has The expired.

Mr. Wason: Mr. Chairman, I yield the gentleman 15 additional minutes

Mr. McFadden: In the light of all of these occurrences, and the new opportunities of financing which the organization of this bank will open to the Morgan firm, is it not possible that in spite of the order of the State Department that the Federal reserve system has been and is at the present time being used; and may it not be possible that the forbidding by the State Department of any participation by the Federal reserve has only tended to accelerate and consummate this other rela-tionshin?

tionship? Everything is being done to minimize the importance of the establish-ment of this international bank. It is with the utmost difficulty that any definite information is obtained pertaining to its purposes, its or-ganization, or its scope. That we as a country are being involved there is no longer any doubt. It is clearly indicated that the American leaders in this institution are going to be the "House of Morgan." It is clearly indicated that through this institution all of the repara-tions and international debts are to be handled, and the distribution to the various governments are to be made. It is also clearly indicated that the splitting up and making liquid of such amounts of reparation debts as may be deemed advisable are to be handled by the interna-tional bank. It is also clear that this international bank will be given the right to deal in gold and exchanges and perform other important tional bank. It is also clear that this international bank will be given the right to deal in gold and exchanges and perform other important international governmental transactions. It is also intimated that there will be a mobilization of international gold reserves, either through the actual deposit of gold reserves in the vaults of the international bank or by the process of earmarking, and that eventually an international circulating medium will follow. Apparently this institution is also to be permitted to buy and sell Government note issues and make distri-bution of the securities thus originating under its auspices in the countries who participate in the organization of the bank. While the Young plan settles the renaration issues and determines

countries who participate in the organization of the bank. While the Young plan settles the reparation issues and determines the amount that Germany is to pay and fixes the term of payment, there is no assurance that this is a final solution of the debt settle-ment; but on the contrary the organization of this International Settle-ments Bank affords a vehicle through which a subsequent readjustment of the debt issue may be possible, particularly so when we already know that the great majority of international bankers, and particularly those associated in the International Bank of Settlements, are in favor of debt cancellation. associated in the debt cancellation.

Let us not deceive ourselves as to the real motives, the real purposes behind the creation of the Bank of International Settlements. Let us recall the fact that at two recent elections the American people have voted 7,000,000 strong against our meddling in international affairs. We have voted down the League of Nations and now the same crowd that are behind the international bank are behind our joining the World Court under the so-called Root plan; and if we do not watch our step the American people will be drawn into the international situation through our joining the World Court and this proposed international bank in spite of the same opposition that was also manifested to the cancellation of our international debts. The World Court will be the judicial part of the League of Nations; and the international bank will be the financial part of the League of Nations. Just bear in mind that, while the American people insisted on debt settlements in full, there is hardly any mention of the fact that the United States, by the funding agreements. already has canceled the war debts on an average of 51.2% if values are figured at 5%, or 43% if 4,25% interest is used. Bear in mind that most of the American people themselves do not realize that such cancellations have been made. And is it possible now that our State Department and Federal reserve system are co-operating in this international entanglement in the face of the well-known expressed opposition of such an overwhelm-ing majority of American sentiment? Should we not awaken to the fact that we are being led by a small group of clever internationalists? The Earl of Beaconsfield, more familiarly known as Disraeli, once said: . said:

The Earl of Beaconsfield, more familiarly known as Disraeli, once said: The world is governed by very different personages from what is imagined by those who are not behind the scenes. I doubt whether this international institution will be able to func-tion without the co-operation of the Federal reserve banks in the United States. In this connection, let us recall that Lord Melchett, the re-nowned British industrialist, said only last year: It will be impossible to make a success of either the scheme of repa-ration payments or still more the Bank of International Settlements, unless the financial power of the United States frankly, fully, and wholeheartedly comes to its assistance. Because of this fact and the effect the building of an institution of this magnitude might have upon the operations of our own domestic banking system, I feel that it is incumbent upon the administration and the management of the Federal reserve banks to be frank with the American people in regard to what is now being done and how our financial system is to be involved internationally. Upon analysis of the present dilemma, it would appear that it is acceptable to both the State Department and the Federal reserve system that the entire resources of the Federal reserve system shall be used in co-operation with J. P. Morgan & Co., who are to direct the American participation in the Bank of International Settlements. I am not at-tempting to suggest that the Morgan firm does not possess the right to act in this capacity. I am doubting, however, the wisdom of permitting the use of the Federal reserve system in this manner, and would point out that the Morgan firm, after all, is a private bank, free from gov-ernmental control, and is the fiscal agent in this country of several of the leadiag countries of the world. There is no doubt that this proposed organization is going to have a broad field of influence of a most positive character, as is indicated by a paragraph in the annual report of Barclay's Bank (Ltd.), of London, England. I

tlements, it says that the bank— May have for its object not only the adjustment of payments actually rising out of the war but also of playing an increasingly important part as a supercentral bank for the regulation of gold movements and inter-national exchange, which hitherto have been adjusted through the money markets of London had the principal share. This statement, which I take from the Jan. 25 issue of the London Economist, tends to confirm the statement that was issued in Paris on March 29, 1929, just prior to Secretary Stimson's statement of last spring, by Mr. Randolph Burgess (which he has since denied), who represented the Federal Reserve Bank of New York at the Paris con-ference on the subject of the creation of the bank of international regu-lations, in which it was declared that the project was almost completed; and further stated that and further stated that-

The Federal reserve bank will act as correspondent to the new estab-lishment as it does for other central banks, which will avoid the neces-sity of special American legislation. The Federal reserve bank will make important deposits of gold in the international bank abroad and will receive in New York deposits of gold from it. Mr. Burgess adds that—

The statutes of the new establishment have been prepared in such a ay as to avoid recourse to legislative measures in the various European way as t countries

countries This statement indicated clearly the reliance of the Federal Reserve Bank of New York upon their construction of section 14 of the Federal reserve act as giving them the right to participate in the organization and operations of the Bank of International Settlements. Mr. Merritt: Will the gentleman yield? Mr. McFadden: Yes

and operations of the Bank of International Settlements.
Mr. McFadden: Yes.
Mr. McFadden: Yes.
Mr. McFadden: He made a denial of that statement, but because of this dist encounce of the same state of the state Department and the Federal reserve banks the foreign countries. The Trasury Department and the Federal reserve banks this whole international relations, both domestic and intersections of the Sector of the State Department, is possession of diplomatic relations with the state Department and the Federal reserve banks this whole international relations, both domestic and intersections of the Federal reserve banks this whole international relations, both domestic and intersections of the federal reserve banks this whole international relations, both domestic and intersections of the Federal reserve banks this whole international relations, both domestic and intersections of the federal reserve banks this whole international relations, both domestic and intersections of the Federal reserve banks this whole international relations, both domestic and intersections of the federal reserve banks this whole international relations, both domestic and intersections of the federal reserve banks this whole international relations, both domestic and intersections of the federal reserve banks this is subtrated to the the sectored of the situation and ascertained that the federal reserve banks this is subtrated in reserve banks this whole international relations, both domestic and intersections of the federal reserve banks this whole international relations whole the federal reserve banks this and the sectored of the situation and ascertained that the federal reserve banks this conduction the federal reserve banks at the

Offering of \$50,000,000 of Treasury Bills.

Invitations for tenders for a new issue of 90-day Treasury bills, to the amount of \$50,000,000, or thereabouts, were asked by Secretary of the Treasury Mellon on Feb. 10. This is the second issue of these bills; the initial offering was announced Dec. 9, tenders at that time having been invited for an issue of \$100,000,000, as was noted in these columns Dec. 14 1929, page 3733. The tenders received totaled \$223,901,000 and the amount accepted was \$100,-000,000. The Treasury bills, as heretofore noted, are issued under the authority of the amendment to the Second Liberty Loan Act, signed by President Hoover on June 17 1929. The bills, which are payable at maturity without interest, are sold on a discount basis to the highest bidder. The new issue, for which tenders were asked this week, will be dated Feb. 18 1930, and will mature on May 19 1930.

They will be issued in bearer form only and in amounts or denominations of \$1,000, \$10,000 and \$100,-000. No tender for an amount less than \$1,000 will be considered. Secretary Mellon's statement announcing the new offering follows:

new offering follows: The Secretary of the Treasury gives notice that tenders are invited for Treasury bills to the amount of \$50,000,000 or thereabouts. The Treasury bills will be sold on a discount basis to the highest bidders. Tenders will be received at the Federal Reserve banks, or the branches thereof, up to two o'clock p. m. Eastern standard time on Feb. 14 1930. Tenders will not be received at the Treasury Department, Washington. The Treasury bills will be dated Feb. 18 1930 and will mature on May 19 1930 and on the maturity date the face amount will be payable without interest. They will be issued in bearer form only, and in amounts or denominations of \$1,000, \$10,000, and \$100,000 (maturity value). It is urged that tenders be made on the printed forms and forwarded in the special envelopes which will be supplied by the Federal Reserve banks or branches upon application therefor.

It is urged that tenders be made on the printed forms and forwarded in the special envelopes which will be supplied by the Federal Reserve banks or branches upon application therefor. No tender for an amount less than \$1,000 will be considered. Each tender must be in multiples of \$1,000. The price offered must be ex-pressed on the basis of 100, with not more than three decimal places, e.g., 99,125. Fractions must not be used. Tenders will be accepted without cash deposit from incorporated bank and trust companies and from responsible and recognized dealers in in-vestment securities. Tenders from others must be accompanied by a deposit of 10% of the face amount of Treasury bills applied for, unless the tenders are accompanied by an express guarantee of payment by an incorporated bank or trust company. Immediately after the closing hour for receipt of tenders on Feb. 14, all tenders received at the Federal Reserve banks or branches thereof up to the closing hour will be opened and public announcement of the accept-able prices will follow as soon as possible thereafter, probably on the fol-lowing morning. The Secretary of the Treasury expressly reserves the right to reject any or all tenders or parts of tenders, and to allot less than the amount applied for, and his action in any such respect shall be funal. Those submitting tenders will be advised of the acceptrace or rejection thereof. Payment at the price offered for Treasury bills allotted must be made at the Federal Reserve banks in cash or other immediately available funds on Feb. 18 1930. The Treasury bills will be exempt, both as to principal and interest

made at the Federal Reserve banks in cash of other inimediated, attack funds on Feb. 18 1930. The Treasury bills will be exempt, both as to principal and interest (discoupt), from all taxation, except estate and inheritance taxes. The amount of discount at which the Treasury bills are originally sold by the United States shall be considered as interest for tax exemption purposes. Department Circular No. 418, dated Nov. 22 1929, and this notice as issued by the Secretary of the Treasury, prescribe the terms of the Treasury bills and govern the conditions of their issue. Copies of the circular may be obtained from any Federal Reserve bank or branch thereof.

Treasury Department Circular No. 418 was published in our issue of Nov. 30, page 3410.

Continued Improvement Reported In Condition Of William Howard Taft, Former Chief Justice Of the United States Supreme Court.

Continued improvement in the condition of William Howard Taft is reported in press advices from Washington. Mr. Taft, as was indicated in our issue of Feb. 8, (page 917) resigned on Feb. 3, as Chief Justice of the United

on Tariff Bill-Delay on Bill With Senate Action Debate on Unemployment-Reduction in Rates on Red Lead and Carbon Black-Increase in Starch Tariff Rejected.

Unemployment conditions were injected into the tariff debate in the Senate on Feb. 8, on which date, said the "Herald Tribune" no progress was made on the bill. The paper referred to said:

For about three hours discussion centered about an amendment by For about three nours discussion centered about an amendment oy Senator La Follette to cut the spirit varnish rate from 25 to 20%, thus reducing it below existing law. No vote was reached, and the debate was largely devoted to the general proposition of reduction of 1922 rates which have not been disturbed by either the House or Senate Finance Committee.

In indicating the discussions which took place on Feb. 8 the New York "Times" in its Washington dispatch that day said in part:

Coalition members were stirred to angry retort in the tariff bill debate to-day as Senators Goff of West Virginia and Fess of Ohio, regular Re-publicans, charged that attacks made on the bill by the Western insurgents and Democrats had unsettled business, and that unless assurances were quelkly given that the level of the 1922 industrial rates was to be maintained, further disturbance of trade might be expected. Senator Goff asserted that the rate cuts forced through by the coalition would lead to an extension of unemployment. Senator La Follette, independent Republican of Wisconsin, in a reply, said that the Hoover Administration had done nothing to remedy unem-ployment except to issue "optimistic ballyhoo statements," and that it had little accurate information on the employment situation.

ployment except to issue "optimistic ballyhoo statements," and that it had little accurate information on the employment situation. Senator La Follette had offered an amendment providing that the rate on spirit varnishes, including the so-called gold size or japan, not specially provided for, should be fixed at 20% instead of 25% ad valorem as pro-vided by existing law and the pending bill. Senator Goff's attack, which followed, started a debate that precluded any action on tariff duties during the day.

Attack Arouses La Follette. "I am not surprised at the Senator's position," said Mr. La Follette, "I am not surprised at the Senator's position," said Mr. La Follette, addressing Senator Goff. "His reactionary record since he has been in the Senate is a clear indication that he regards the interests of property paramount to the interests of humanity. "If this bill can be sent to conference without reductions below the rates of 1922, the consumer will be bound, gagged and delivered." Senator La Follette then referred to statements isued at the White House and by the Department of Labor tending to show improvement in business conditions. He charged that nether President Hoover nor his party had done anything to aid in the solution of the problem of unemployment. Mr. Hoover, while Secretary of Commerce, he said, specialized in increasing mass production, and the effect was to bring about "technological un-employment." employment.'

Mr. Hoover, he added, was well aware of this, but had not, either as accretary of Commerce or as President, taken any steps to remedy the situation.

Following the recent slump in the stock market, Mr. La Follette added, the President had called a conference of industrial leaders to take account of the business situation, but had not embraced the opportunity to send a message to Congress recommending legislation on the subject of unemployment.

employment. "Can it be," asked Mr. La Follette, "that the Republican party, which had lived on talk about prosperity since 1922, finds itself in a more con-venient position not to have facts about unemployment so that these optimistic, ballyhooing statements may be issued to the public based upon absolutely unreliable data collected in times of depression?"

Copeland Mentions Situation Here.

Copeland Mentions Situation Here. Senator Copeland, Democrat, of New York, Interrupted to remark: "Last Sunday morning I walked down Sixth Avenue, New York City, where the unemployment bureaus are located. In front of every one of them there were scores of men seeking work. The unemployment in my city is terrific. There is no doubt about that." "Probably the most reliable statistics gathered about unemployment in this country to-day are gathered by the Government of the State of New York," Mr. La Follette observed. Senator Fees said an unsettling effect on business had resulted when

York," Mr. La Follette observed. Senator Fess said an unsettling effect on business had resulted when word went out that there was a coalition with power to reduce tariff rates even below the present law if it desired. Mr. Fess contended that the operations of the coalition had lent an element of uncertainty to the business situation that was a matter of

element of uncertainty to the business situation that was a matter of grave concern. "The Stock Exchange crash had to come," he said, "and I think, out-side of individual losses, it has been rather a good thing for the country and in 30 days from now probably we will not know there was such a thing. The country is on a substantial basis. "For nine years our purchasing power has been on a higher level than that of any other people in the history of the world. The politicians in this body will deny that, but nobody but politicians would have the temerity to assert that that is not true."

Calls Accusations Unfair.

Calls Accusations Unfair. Senator Fess insisted that "because a business is prosperous," is no reason for reducing the tariff duty without ascertaining all the facts. "More than that," he added, "it is not fair for any one to say there has been nothing done for business, only because the administration has not accepted his peculiar nostrums as fundamental. This administration will not accept Government price fixing. "This administration will not accept unemployment allowances in the form of doles, which was recommended at the close of the war. This ad-ministration does not propose to enter into subsidizing for the mere purpose of subsidizing. This administration is not going to proceed to lower the price of public service below cost and then make it up out of the treasury of the United States. "If the complaint that we have done nothing is based on the fact that we have not accepted these unsound proposals, then I accept the complaint:

It the complaint that we have done nothing is based on the fact that we have not accepted these unsound proposals, then I accept the complaint; but it is not based upon anything that rings sound in economic judgment." This was the fourth day that the Senate had devoted to a review of the chemical schedule for individual amendments, and the view was ex-pressed that if as much time was given to the 14 other schedules the tariff bill would not go to conference until some time in March.

It was stated in Associated Press advices from Washington that the first effort to lay aside the tariff bill temporarily for passage of an annual departmental appropriation measure was made on Feb. 8, but failed. The advices went on to say:

Four supply measures have come over from the House, but leaders of both parties agreed at the outset of the session that no measure of import-ance would be allowed to displace the tariff until the latter had been dis-posed of. Senator McNary, Chairman of the Agriculture Committee, asked that the tariff be laid aside to enable passage of the Department of Agriculture appropriation measure, but Senator La Follette objected.

On Feb. 7 the combined irregular Republicans and Democrats in the Senate forced the adoption of amendments reducing the duty on red lead from the present rate of 23/4 cents to $2\frac{1}{8}$ cents a pound; on litharge, a lead pigment used in glass and pottery making, from the present rate of 21/2 cents to $2\frac{1}{8}$ cents, and on carbon black from $20\,\%$ to $15\,\%$ ad valorem. The "Times" in reporting this added:

The Republican regulars were able to sustain by a vote of 38 to 37 the present rate of $2\frac{1}{2}$ cents a pound on white lead. The coalition amendment called for a cut to 2 cents. They were also able to defeat an amendment reducing from 30% to 25% the levy on all lead pigments not specified in the bill the bill.

Courens Leads Opposition.

Courses Leads Opposition. Senator Courses of Michigan started the debate by attacking the pro-posal to reduce the duty on red lead. "It is unfair to pass legislation changing the rates as fixed in the law of 1922 without giving the public an opportunity to be heard," he said. He declared he would vote against the amendment on every roll-call. Senator Bingham of Connecticut assalled a policy of "trying to sock the industry in the eye" for the sole reason that, apparently, it was success-ful and prosperous. He suggested that 30 days' notice be given by Senators who decided to present individual amendments. Senator Harrison, who introduced the reduction amendments, said this would "hamstring" the Senate. Senator Swanson contended that the doc-trine presented by Senators Bingham and Couzens would deprive Senators from offering amendments to reduce the 1922 rates, many of which were "exorbitant and indefensible."

exorbitant and indefensible." Senator La Follette maintained that to bar amendments dealing with industrial rates unless they had been made the subject of hearing or no-tice had been given that they were to be introduced, would amount to a recognition of the theory that "beneficiaries of the tariff had vested rights to certain duties." He charged that the tariff bill had been drafted at secret sessions of Republican members of the Finance Committee, after hearings before subcommittees in which the spokesmen of industries concerned had their say." their say. "Was th

"Was the consumer put on notice?" Mr. La Follette asked. "Did he have an opportunity for a hearing?" "Many of the rates of the 1922 law are indefensible," he continued, "and

"Many of the rates of the 1922 law are indefensible," he continued, "and it is the duty of the Senate to scrutinize them, and reduce them, if necessary, through the medium of the bill we now have before us." He recalled that during consideration of the tariff bill by the Finance Committee, Charles L. Eyanson of the Connecticut Manufacturers' As-sociation had acted as an adviser of Senator Bingham. Senator Bingham retorted that the people had elected a "high protection Congress," and had not given a mandate for a reduction of rates. Senator Norris contended that farmers were vitally interested in the duties on materials used in the manufacture of paint. Senate leaders are trying to arrange a program that will assure adjourn-ment some time in June but are by no means certain that such an early adjournment can be brought about. Opinion seems to be general that the seesion is likely to last at least until the first week in July.

Farm organizations seeking upward revision in rates on agricultural products and a scaling of rates on manufactured goods in the pending tariff bill were twice rebuffed on Monday, Feb. 10, when the Senate voted to place common brick on the dutiable list and rejected a proposal to increase duties on starch. The dispatch to the New York "Times" stated this and added:

stated this and added: The action of the House in making common brick, now duty free, pay a rate of \$1.25 a thousand, a proposition that was accepted by the Senate Finance Committee, aroused the fre of the farm groups, which have con-tended that duties on brick and other items of building material would im-pose a heavy burden on the agricultural West. The votes on brick and starch came on the heels of the demand by the American Farm Bureau Federation and others, printed this morning, that unless important changes were made in the Smoot-Hawley bill "it would be better for agriculture to continue under the tariff Act of 1922." The vote on brick was polled on an amedment offered by Senator Barkley, Democrat, of Kentucky, providing that the rates of \$1.25 a thousand on common brick and \$1.50 a thousand on glazed or ornamental brick should be stricken from the bill. The amendment failed by a tie vote of 36 to 36, and the rates will stand unless later altered by the Senate *Capper's Motion on Starches Lost.*

vote of 36 to 36, and the rates will stand unless later altered by the Senate Capper's Motion on Starches Lost.
An amendment offered by Senator Capper, Republican, of Kansas, proposing a rate of 2½ cents a pound on all starches, instead of varying rates as provided by the bill, was defeated by a vote of 42 to 32. Some starches are on the free list, and the rates on those made dutiable in the bill are less than that urged by Mr. Capper.
After the vote on the Capper amendment, Chester H. Gray of the Farm Bureau Federation said that increased duties on starches were just as essential to agriculture as increased duties on casein, sugar, hides, fats and oils, and that if the Senate continued to turn a cold shoulder to agriculture its spokesmen would urge Western Senators to vote finally against the tariff bill. the tariff bill. The Senate

The Senate completed consideration of the chemical schedule and then took up the earthenware schedule, which embraces brick and other industrial products.

products. Senator Watson, Republican floor leader, in a speech urged the Senate to expedite action, and Senator Simmons, Democratic tariff spokesman, supported his plea. Mr. Watson said that many Senators desire to fill speaking engagements on Lincoln's Birthday, but he was opposed to ad-journment on that or any other day until the bill was completed. In support of his motion to keep brick on the free list, Senator Barkley said that to do so would encourage the building of homes. Dutiable brick. he said was demanded only by a few brick makers in New York and other cities on the seaboard.

cities on the seaboard.

Senator Copeland, Democrat, of New York, supported the duty, say-ing it was essential to keep the brick makers of the East busy. There was

Copeland Replies to Barkley.

a lot of unemployment, he added, and the Senate should bear this in mind. Referring to Mr. Barkley's statement that brick should be admitted free to encourage home building, Mr. Copeland said less than 1% of the population in New York owned their own homes and that bankers in the State preferred to make loans to speculators. On the defeat of his amend-ment, Mr. Barkley gave notice that he would ask for another vote on it later later.

In behalf of Senator Wagner of New York, who was absent, Mr. Barkley offered an amendment proposing a duty of 35 cents a pound on vermillion reds, instead of 22 cents a pound and 20% ad valorem as reported by the Finance Committee. This was adopted by a viva voce vote.

Finance Committee. This was adopted by a viva vote vote. The Senate reduced the duty on sulphate anhydrous from \$4 a ton, as recommended by the bill, to \$2 a ton. By vote of 40 to 38, the Senate rejected an amendment offered by Senator La Follette proposing to reduce the duty on spirit varnishes from 25 to 20% ad valorem.

According to the "Times," in the face of protests by regular Republicans, the Senate coalition on Feb. 11 forced the adoption of amendments to the tariff bill restoring the 1922 duties on window and plate glass, thus eliminating increases on those products voted by the House and endorsed by the Senate Finance Committee in line with the higher duties declared by Presidential proclamation last year. Further reporting the developments on Feb. 11 the "Times," said:

Under the flexible provisions of the present law and on recommendation of the Tariff Commission, President Coolidge about a year ago raised the duty on plate glass. President Hoover in June increased the levy on some classes of other window glass.

The fight to reduce the duties on glass was led by Senators Barkley, Democrat, of Kentucky, and McMaster, insurgent Republican, of South Dakota.

Senator McMaster charged that the Pittsburgh Plate Glass Co., which he said dominated the industry, sold products abroad at prices 20 to 25% below those quoted in the domestic market: and this, he contended, was proof that the corporation did not need the additional protection carried in the bill.

broot that the corporation during the neer the attention and the bill dealing with glass. Three votes were taken on paragraphs of the bill dealing with glass. By 41 to 40, the Senate adopted an amendment offered by Mr Barkley reducing the rate on ordinary window glass, not exceeding 154 square inches, from 1% cents to 1% cents a pound. This eliminated the Hoover flexible incre

By viva voce action the Senate then cut the rates on other sizes of win-dow glass to correspond to the duties collected under the present law. The rates in this class under the Barkley amendment range from $1\frac{1}{5}$ to $2\frac{1}{2}$ cents a pound, according to length of pieces, as against rates of from 2 1-16 to $3\frac{1}{5}$ cents a pound as recommended by the Finance Committee.

The McMaster amendment, adopted by a vote of 43 to 36 substituted the 1922 duties on plate glass, ranging from $12\frac{1}{2}$ cents to 17 cents a square foot, for the duties recommended by the committee of from 16 cents to 22 cents a square foot. The latter rates were put into effect on Feb. 16 1929, by proclamation of President Coolidge.

Senators Barkley and McMaster insisted that the higher rates on glass were not justified, that the industry was prosperous and had a big export trade, and that under the circumstances the duties should be leveled to those provided by the law of 1922.

On Feb. 12 arguments on the nomination of Charles Evans Hughes, for the post of Chief Justice of the Supreme Court of the United States served to push aside tariff debate on that day. Nothing was accomplished on the bill on Feb. 13, the "Times" indicating, in part as follows the debate which ensued that day:

Prohibition, the tariff and political changes all were said to have accounted for the election of William J. Granfield, a Democrat, to the House from the Second District of Massachusetts, an old Republican stronghold, when the subject got into debate on the floor of that body to-day.

subject got into debate on the floor of that body to-day. The prohibition angle was broached by Representative La Guardia, who said that the district had given the Democratic candidate a majority of 8,000 after having given a vote of 26,000 to a referendum for repeal of the State prohibition Act, and having delivered a majority of 400 votes to former Governor Smith when he ran for President. His argument was questioned, however, by Representative Allen T. Treadway, Republican, of Massachusetts, who agreed with another state-ment by the New Yorker that "there is something wrong with Massachu-setts," but ascribed it to unemployment. This condition he ascribed to the lack of action on the pending tariff bill, continuing: the lack of action on the pending tariff bill, continuing:

Removal of Shoe Tariff Blamed.

Removal of Shoe Tariff Blamed. "If there is anything under the sun that will upset business, it is a lack of certainty regarding the tariff. It may be improper for me to say that the Senate is to blame for that condition, but I will say it. And who is to blame for that uncertainty in the Senate? It is the Democratic minority alded by a few Republicans." Representative William P. Connery, Democrat, of Massachusetts, agreed with his Republican colleague that unemployment accounted or the upset, saying that 6,000 people stormed the court house at Lynn demanding work. He termed the attitude, however, one of "revolt against Hoover prosperity."

demanding work. He termed the attitude, however, one of "revolt against Hoover prosperity." The prediction that a Democrat would be elected to succeed Senator Gillett also was made by Representative Connery, who blamed an action by President Hoover, who he said was responsible in removing the tariff on boots and shoes, for the unemployment conditions in the New England State.

ITEMS ABOUT BANKS, TRUST COMPANIES, ETC.

Arrangements have been made for the sale of a New York Curb Exchange membership for \$160,000, an increase of \$10,000 over the last preceding sale.

Two New York Cotton Exchange memberships were reported sold this week, that of Pierce C. Rucker to H. Allen Wardle for \$20,000 and that of G. Abbott Middleton to E. J. Wade for \$21,000. The last preceding sale was for \$21,000.

were reported made this week for the Arrangements transfer of two New York Stock Exchange memberships one for \$398,000, an increase of \$3,000 over the last preceding sale, and the other for \$399,000.

The election of Freeman C. Allen as a director of the Central Trust Co. of Rochester, N. Y., was announced on Feb. 11 by John H. Gregory, President of the institution, according to the Rochester "Democrat" of Feb. 12. Mr. Allen is connected with the credit department of the Eastman Kodak Co. and is a director of the Rochester and Genesee Valley Railroad Co.; director of the Ohmer Fare Register Co., Dayton, Ohio; Secretary and director of the Rochester Credit Men's Service Corp.; Secretary and director of the Genesee Valley Club, and a member of the National Association of Credit Men.

The Central Hanover Bank & Trust Co. of New York, announces the appointment of William C. Bennett as Assistant Vice-President. Mr. Bennett has been associated with the Bank since Aug. 1929 as Assistant Secretary. Before joining the Central Hanover, Mr. Bennett was associated with Edwin Bird Wilson, Inc., financial advertising agents, as Vice-President in charge of the Atlanta office.

Manufacturers Trust Co. of New York, announces the elevation of Lee S. Buckingham from the position of Assistant Secretary to that of Assistant Vice-President, at the Columbus Circle office of the company. At the same time, announcement is also made of the promotion of Cornelius Van Inwegen, Richard H. Morris, Ernest H. Lankenau and William M. Stevenson to the position of Assistant Secretary.

Edward C. Delafield, President of The Bank of America National Association and Oliver W. Birckhead, President of the Murray Hill Trust Co. of New York announced that stockholders of both institutions at meetings held on Feb. 10 approved the merging of the Murray Hill Trust Co. with The Bank of America National Association. This merger will give the Bank of America National Association capital, surplus, undivided profits and reserves of \$79,275,300. The Murray Hill Trust Co., after to-day, Feb. 15, the date of the physical merger of the two institutions, will operate as a branch of The Bank of America National Association in charge of Oliver W. Birchkead, former President of the Murray Hill Trust Co., as Vice-President. An item regarding the proposed consolidation appeared in our issue of Jan. 11, page 235.

Chester D. Pugsley, Vice-Chairman of the Board of Directors of the Westchester County National Bank at Peekskill, N. Y. leaves on Monday, Feb. 17 for Winter Park, Florida to attend the annual trustees meeting of Rollins College there on Feb. 19.

The City Deposit & Discount Co. of Bristol, Conn. established a little more than a year ago, failed to open its doors on Feb. 13, according to a dispatch by the Associated Press on Feb. 13 from Bristol, appearing in the New York "Herald-Tribune." Losses suffered through allegedly poor investments are believed to be responsible for the bank's failure. State Banking Commissioner Lester E. Shippee assigned the bank's business to the Bristol Trust Co. for the purpose of liquidation, the advices said.

Stockholders of the Medford Trust Co., Medford, Mass., have approved a plan to increase the authorized capital of the bank from 25,000 to 30,000 shares of the par value of \$20 a share (from \$500,000 to \$600,000) and to issue the additional 5,000 shares at the price of \$40 a share, according to the Boston "Herald" of Feb. 6.

The Webster & Atlas National Bank, one of the oldest banking institutions in Boston, announces the formation of the Webster & Atlas Corporation which will conduct a general investment business at 199 Washington St., that city. Henry P. Briggs, formerly Vice-President of the Atlantic Corporation and at one time in charge of the Toronto office and director of Harris, Forbes & Co., Ltd., has been appointed President of the new corporation, while Elmer V. Cartledge has been made Treasurer. Raymond B. Cox, President of the Webster & Atlas National Bank will serve as Chairman of the Board of Directors, which includes Henry P. Briggs, Amory Eliot, Richard M. Everett, James P. Hale, Edward Motley, Dudley P. Rogers, Frederic S. Snyder, Robert G. Stone and Edward A. Watson. Reference was made to the new corporation in the "Chroincle" of Dec. 7 1929, page 3579, and Jan. 18 1930, page 416.

Net earnings of \$2,807,374 for the year 1929 were shown in the annual report of the Fidelity-Philadelphia Trust Co. of Philadelphia, submitted by William P. Gest, Chairman of the Board of the bank, at the annual meeting of the stockholders on Feb. 11, according to the Philadelphia "Ledger" of Feb. 12. The undivided profits on Dec. 31 1929 were \$4,872,021, a net gain for the year of \$701,841. Four quarterly dividends of 6% each, totaling \$1,608,000, were paid. The total individual trusts in charge of the company at the end of the year were \$846,788,081, a gain of \$136,-106,823. The company is also trustee for \$890,829,270 of corporate trusts. Deposits as of the end of the year were \$80,437,392. Continuing, the paper mentioned said in part: The total number of trust accounts in the hands of the company on

The total number of trust accounts in the hands of the company on Dec. 31 1929 was 7,178. The report stated that 80% of the entire Fidelity-PhiladelphiaTrustBuild-ing of 30 stories, which was completed for occupancy by tenants on June 1 1928, is now rented. The trust company owns all of the stock of the Fidel-ity Building Corp., the holding company for the building. Mr. Gest in his report said: "No report for the last year would be complete without an allusion to the financial disturbance through which the country has passed. Dur-ing the months of November and December the efforts of the casistance of our friends where conditions warranted the extension of help. There is reason for congratulation to our stockholders and clients that a time of Is reason for congratulation to our stockholders and clents that a time of danger has passed with so little financial disorder."

The stockholders amended the by-laws of the company so as to confer on the stockholders, in compliance with the Act of Feb. 19 1926, and not on the board of directors, as the by-laws had provided, the power to increase or diminish the board at any regular annual meeting or any special meeting called for the purpose. Directors of the ocmpany were re-elected.

At its meeting on Feb. 11 1930 the Board of Directors of the Bankers Trust Co. of Philadelphia appointed Edwin Ristine Treasurer in addition to his present position as Vice-President. Mr. Ristine becomes Treasurer in place of E. Raymond Scott, who has been Vice-President and Treasurer, and whose resignation was accepted with regret. Mr. Scott will assume his new duties about March 1 as President of the Chester County Trust Co., West Chester, Pa. The board also elected Reginald P. Yomer an Assistant Treasurer.

The Philadelphia "Ledger" of Feb. 7 stated that J. Everton Ramsey, heretofore President of the Chester County Trust Co. of West Chester, Pa., has been made Chairman of the Board of the institution, and has been succeeded in the Presidency by E. Raymond Scott, formerly Vice-President and Treasurer of the Bankers' Trust Co. of Phil-adelphia, Philadelphia. Mr. Scott will assume his new post on March 1, it was stated.

According to the Philadelphia "Ledger" of Feb. 12, announcement has been made by A. A. Jackson, President of the Girard Trust Co. of that city, of the purchase from the Plaza Trust Building Corp. of the property at the Southwest corner of Broad St. and South Penn Square, Philadelphia. The purchase price was not made public, it was stated. The paper mentioned furthermore said:

The property was for many years in the ownership of the West End Trust Co. passing to the Plaza interests following the merger of the West End Trust Co. the Real Estate Title Insurance & Trust Co. and the Land Title & Trust Co., under the name of the Real Estate-Land Title & Trust Co

Co. By acquiring the Plaza Trust Building, the Girard Trust Co. has rounded out its holdings so that it is now the owner of what may be considered one of the most valuable properties in Philadelphia, covering the whole frontage on the west side of Broad St. from Chestnut St. to South Penn Square, about 200 feet, the frontage on South Penn Square from the corner of Broad St. to 1414 South Penn Square, a distance of a little less than 140 feet, and on Chestnut St. a frontage of 140 feet from Broad St. to the Morris Building which is owned by the Girard Trust Co. and has a frontage on Chestnut St. of 112 feet additional. The purchase announcement says:

The purchase announcement says

The purchase announcement says: "Plaza Trust Co., from whose building corporation the old West End Trust Co. property was bought, will continue for the time being as a tenant on the ground floor in its present offices, but it may be expected that the Giratd Trust Co. will in due course utilize the corner by an addition to its present banking house in order to afford it the space needed for its busi-ness, which is growing so rapidly as to render already inadequate the ac-commodations given by the addition made only a few years ago on South Penn Square."

At the annual meeting of the stockholders of the Lehigh National Bank of Philadelphia, held Feb. 11, five new directors were elected, namely Frank J. Clarke, William J. Freihofer, Frank Monahan, Hyman Freed and Howard E. Edson, according to the Philadelphia "Ledger" of Feb. 12. The meeting took place in the new banking quarters of the institution at the Southeast corner of 23d St. and Lehigh Ave., it was said.

At a meeting of the directors of the Kensington Trust Co., Philadelphia, on Feb. 11, William H. Braehm, was advanced to 1st Vice-President of the institution to succeed the late James Henry, and John B. S. Rex was appointed Vice-President, according to the Philadelphia "Ledger' of Feb. 12. At the same meeting Dr. Rolla L. Smith was elected a director.

As of Feb. 1, the Union National Bank of Huntingdon, Pa., became the Union National Bank & Trust Co.

The National Bank of Chester County, West Chester, Pa., on Feb. 1 became the National Bank of Chester County & Trust Co.

From the Detroit "Free Press" of Feb. 6, it is learned that the new Equitable & Central Trust Co. of Detroit, Mich-formed by the union of the Equitable Trust Co. and the Central Trust Co., as indicated in our issues of Dec. 21 and Jan. 4, pages 3909 and 65, respectively-was granted a charter on Feb. 5 by the Banking Commissioner, Rudolph E. Reichert to do a general banking business and will engage in such activities as well as conducting a general trust business. The paper mentioned said: "The trust company in making its application for the charter took advantage of the new banking law which permits trust companies to do a general banking business upon allocation of one-half of their banking capital for that purpose.

"The Equitable and Central will carry both commercial and savings accounts. The institution has capital of \$1,000,-000, surplus of \$500,000 and undivided profits of \$196,000. Thomas Neal is President."

From Lancaster, Pa., advices by the Associated Press on Feb. 11, printed in the Philadelphia "Ledger" of the following day, it is learned that as a step in the liquidation of the Terra Hill National Bank, Terre Hill, Pa., the assets and liabilities of the institution were on Feb. 11 taken over by the Blue Ball National Bank of Blue Ball, Pa. Both the institutions are in Lancaster Co. The dispatch went on to say:

Dr. John M. Wenger, President of the Terre Hill Bank, said his insti-tution lacked the confidence of the community and that it was decided to liquidate. All depositors will be paid in full, he said. In 1926 the Terre Hill Bank lost \$200,000 through "frozen assets," but it later was re-opened after a reorganization. The \$40,000 capital stock of the Terre Hill Bank still remains with its stockholders and no announcement was made as to its dimension

stockholders and no announcement was made as to its disposition.

The People's State Bank of Maywood, Ill., was closed for examination on Feb. 8 by State Auditor Oscar Nelson while the institution's directors retained in voluntary custody Elmer P. Langguth, its President, following his alleged confession of having appropriated funds of the bank for his own use, according to advices from Chicago on that date to the New York "Times." The closed bank is capitalized at \$100,000 with surplus of \$10,000, while deposits are listed at \$500,000. Nels Thorhaug is Chairman of the Board of Directors of the institution, which was organized in 1925. The People's State Bank, the dispatch said, was the sixth Illinois bank to close its doors in 3 days, the other 5 being the H. N. Schuyler State Bank of Pana, the Rosamond State Bank of Rosamond, the Nokomis National Bank of Nokomis, the First National Bank of Milford and the Farmers' State Bank of Cornell. We quote further from the dispatch as follows:

Auditors of the People's State Bank would place no probable figure on the amount of Langguth's alleged defalcations, merely characterizing the amount as "considerable," though unconfirmed rumors placed the losses from \$50,000 to \$175,000.

amount as "considerable," though unconfirmed rumors placed the losses from \$50,000 to \$175,000. Discovery of one shortage amounting to \$10,000 in a routine examination of the bank's books by a representative of the State Auditor's office led to the uncovering of the condition of Langguth's accounts, it was learned. Funds amounting to \$47,000 belonging to the village of Maywood were tied up by the closing of the bank, which is used by the town as a depository. Langguth is said first to have confessed his alleged defalcations to his father and the other directors of the bank, admitting the shortages began more than a year ago when he was village tax collector in Maywood. Later he repeated his confession to the State Auditor, it is said. No formal charge had been placed against him to-day (Feb. 8). Officials of the bank are said to be hopeful that the losses will be made up. The bank is covered by insurance, it was said. Just what Langguth did with the money remains a mystery. He so far has persisted in throwing no light on this phase of the case, it was declared. * * * He denied he had lost money in the recent stock market slump. Miss Lingren, the Cashier, who is said to have had considerable to do with the direction of the bank's affairs, so far has declined to make a state-ment at the auditor's office, it was learned. The closing of the N. H. Schuyler State Bank of Pana, mentioned above, which took place on the afternoon of

mentioned above, which took place on the afternoon of Feb. 6, was reported in advices from Pana on that date to the St. Louis "Globe-Democrat." This bank, which

has deposits of over \$2,000,000, was organized 54 years ago as a private banking institution by Henry N. Schuyler. It was re-organized 25 years ago by its founder and several of his friends and given the name it now bears. It was capitalized at \$200,000 with surplus of \$30,000. State Auditor Nelson and his assistants, the dispatch furthermore said, had been examining the books of the institution for 3 days previous to the closing.

The respective directors of the Pennsylvania Co. of Insurances on Lives & Granting Annuities of Philadelphia and the Colonial Trust Co. of that city at special meetings on Feb. 7 approved a plan for the consolidation of the institutions under the name of the former, according to advices from Philadelphia on that date to the New York "Times." The merger, will, if consummated by the stock-holders, give Philadelphia a \$223,000,000 bank, it is said, as well as the oldest State-chartered banking institution in Pennsylvania. The stockholders of both institutions will vote on the proposed merger at special meetings on March 17, on the basis of the exchange of two shares of Pennsylvania Co. stock, of a par value of \$10 a share, for one share of Colonial Trust Co. stock of the par value of \$50 a share. We quote from the dispatch mentioned as follows:

The Pennsylvania Co. stock was quoted recently as high as \$121 and at of the Colonial Trust at \$251. that

that of the Colonial Trust at \$251. Under the directors' plan the merged institutions would be known as the Pennsylvania Co. for Insurances on Lives and Granting Annuities, the Colonial Trust losing its identity except for its title-insurance and rea estate operations. The Pennsylvania Co. was chartered in 1812. "It is the firm belief of both managements," a joint statement says, "that the consolidated company with its largely increased resources and with 12 well located offices, can be of the greatest usefulness and service to the whole community." The combined balance sheets of the two companies, as of Feb. 1, show capital and surplus of \$45,136,000, deposits of \$165,812,045 and total re-sources of \$223,189,371. Personal trusts total \$702,513,718 and corporate trusts \$1,847,993,886. C. S. W

C. S. W. Packard, President of the Pennsylvania Co., would nead the new institution under terms of the directors' agreement, and William Fulton Kurtz, President of the Colonial Trust Co., would become a Vice-President of the merged concern. C. S. Newham, Executive Vice-President of the Pennsylvania Co., would retain that position, and William M. West would continue the title business of the Colonial Trust Co. through the medium of a new whelly corned subsidiary company which is to be or-Packard, President of the Pennsylvania Co., would head the

West would continue the title business of the Colonial Trust Co. through the medium of a new wholly-owned subsidiary company which is to be or-ganized when the merger is completed. The Colonial Trust's main office at 20 South 15th St. will be operated as the Colonial branch of the consolidated company, the head office of the merged institution remaining at 15th and Chestnut Sts. under the merger plan.

The following in the matter comes to us this week:

The following in the matter comes to us this week: The Goldman Sachs Trading Corp., through its holdings of stock in the Colonial Trust Co. of Philadelphia, will have an interest in the \$223,000,000 banking institution resulting from the merger of that company and the Pennsylvania Co. of Insurance on Lives & Granting of Annuities, accord-ing to reports current in local banking circles recently. While no official confirmation of this was forthcoming either from the corporation or from Goldman, Sachs & Co., it is known that the stock of the Colonial Trust Co. was purchased as a capital investment and that the corporation has maintained its position in the bank intact since acquisition of the stock last May.

Iast May, H. S. Bowers and Sidney J. Weinberg of Goldman, Sachs & Co. are members of the Board of Directors of the Colonial Trust Co. and it is under-stood that the Goldman Sachs interests will be represented on the board of directors of the merged institution.

The Madison & Kedzie Trust & Savings Bank of Chicagoa new organization which succeeds the Madison & Kedzie State Bank -opened on Feb. 10 in the banking quarters of its predecessor, at Madison and Kedzie Sts., according to the Chicago "Journal of Commerce" of Feb. 11. New deposits received on the first day amounted to \$500,000, it was stated. Chicago advices on Feb. 10, appearing in the "Wall Street News" of the next day, after stating that the assets and business of the old Madison & Kedzie State Bank were recently acquired by a syndicate having connections with several Chicago banks, gave the following additional information regarding the new bank:

tion regarding the new bank: George R. Boyles, Vice-President of the Lake View State Bank, will be President of the reorganized bank. Other officers of the present institution will be retained. A new directorate, including officers of the Central Trust Co., Terminal National Bank, the present Madison & Kedzie Bank and the Central Manufacturing District State Bank among others, will supplant present directors, it is understood. The reorganized institution will have a paid in capital of \$1,000,000 and a surplus and contingent fund of \$1,000,000, of which \$500,000 will be guided by a Board of Directors of which William N. Jaragin, President of Central Manufacturing District Bank, is to be Chairman and an advisory committee headed by Eugene V. R. Thayer, Chairman of executive committee of the Central Trust Co. of Illinols. The advisory committee, which it is understood will virtually direct the bank's affairs, includes several bankers and others who like Mr. Thayer are ineligible to serve as directors under provisions of national banking laws. The committee consists of Mr. Thayer, Chairman, Nelson L. Buck, Vice-President of William Wrigley, Jr. Co., David W. Clarke, Vice-President of the bank, Alen C. Dixon, Vice-President of Terminal National Bank, Irving S. Florsheim, President of Florsheim Shoe Co., Arthur Meeker, a director of Armour & Co., Joseph E. Otis, Chairman of board of the Central Trust Co. of Illinols, H. E. Poronto, trustee of Central Manufacturing District Bank,

David E. Shanahan, Chairman of the board of the Terminal National Bank and Central Manufacturing District Bank and Frank L. Webb, President of the Terminal National Bank.

The annual statement of condition of the Central Manufacturing District Bank of Chicago as of Dec. 31 1929 has just recently come to hand and makes a very satisfactory showing. After reserving \$193,376.10 for taxes, interest, and other reserves, the net earnings for the year 1929 were \$215,205. This is equivalent to earnings of 36.3% on the average capital stock of \$591,667 or 14.8% on the average invested capital of \$1,447,136, consisting of capital stock, surplus and undivided profits. This compares with last year's net earnings of \$206,874, which were equal to 41.3% on the capital stock of \$500,000 and 15.5% on the average invested capital. In addition to a 20% stock dividend of \$100,000 paid from undivided profits, cash dividends aggregating \$108,000 or 50.1% of the year's net earnings were paid. The foregoing cash dividends consisted of 10%or \$60,000, regular and 8% or \$48,000 extra, total 18% or \$108,000, as against 18% or \$90,000 disbursed last year. During the year 1929, an aggregate of \$47,800,082.72 in loans was handled as against \$44,189,827.02 for 1928. The assets in the custody of the Trust Department averaged \$1,872,985 during 1929 as against \$1,000,661 and \$664,919 for 1928 and 1927 respectively. On Feb. 1 1929, the bank paid a 20% stock dividend by transferring \$100,000 from undivided profits to capital stock, thereby increasing the capital stock from \$500,000 to \$600,000. At the same time an additional \$100,000 was transferred from undivided profits to surplus, increasing the surplus from \$500,000 to \$600,000. Total resources of the institution are approximately \$14,000,000 and deposits stand at \$11,159,320. The Central Manufacturing District Bank began business Oct. 7 1912. Its officers are: David E. Shanahan, Chairman of the Board of Directors; William N. Jarnagin, President; Frank L. Webb, Executive Vice-President; H. E. Poronto, Vice-President; F. C. Hoebel, Assistant Vice-President; Walter R. Costello, Cashier; J. R. Rolley, S. M. Goldberg, Thomas Kekich (and Auditor) and H. P. Johnston, Assist-ant Cashiers; Geary V. Stibgen, Trust Officer; Walter A. O'Brien, Assistant Trust Officer, and W. R. Samuel, Manager of the industrial real estate department.

The following resolutions were adopted at the first annual meeting of the stockholders of the Wisconsin Bankshares Corp., Milwaukee (the recently organized holding company with authorized capital of \$100,000,000 of the First Wisconsin National Group of banks), held Tuesday, Feb. 11 1930:

Resolved, That the Wisconsin Bankshares Corp. is an owned and directed agency brought into existence by the member banks for their mutual

advantage; *Resolved, That the directors of the member banks shall all be men of the

Resolved, That the unrectors of the memory banks shall all be men of the locality in which the bank operates and these directors shall have complete freedom in choosing the banks officers; *Resolved*, That the member banks of the group shall have representation on the board of directors of the Wisconsin Bankshares Corp.: *Resolved*, That the management, policies and extended credits of a mem-ber bank shall be subject only to the control of the board of directors and of the officers of such bank.

In addition to the 30 directors of the corporation who were named at the first meeting, 38 additional directors were elected at the meeting. At the close of the stockholders' meeting the first annual directors' meeting was held. The present oficers were all re-elected, namely: Walter Kasten, President; Louis Schriber, Fred K. McPherson, Vice-Presidents; Edward A. Bacon, Vice-President and Treasurer; William H. Correll, Secretary, and Francis W. Dickey and Charles M. Scudder, Assistant Secretaries. Three additional members were elected to the executive committee, viz.: Erwin C. Uihlein, Robert A. Uihlein, Fred K. McPherson. A co-ordinating committee was appointed to serve in an advisory capacity only, for the benefit of the member banks of the group. This committee consists of:

Commercial banking, Walter Kasten; financial position, E. A. Bacon; credits and statistics, C. M. Scudler; business development, time deposits and foreign and travel service, R. L. Stone; distribution of securities, W. H. Brand; trusts, H. W. Grove; personnel, L. T. Crowley; interior service. S. R. Quaden; legal counsel, J. B. Blake; economics and research, Francis W. Dickey.

Negotiations have been concluded whereby the First Bank Stock Corporation of Minneapolis and St. Paul is to acquire the Security State Bank of Robbinsdale, according to an announcement from T. P. Howard, President of the bank. The actual affiliation of the Robbinsdale bank with the group awaits the formal transfer of a susbstantial block of the bank's stock held by Captain W. H. Fawcett, who is

now in Europe. The communication in the matter by the corporation goes on to say:

The Security State Bank of Robbinsdale will be the first Hennepin County bank, outside of Minneapolis, to affiliate with the group. It will continue to develop and serve the community business of Robbinsdale and its board of directors is to be expanded to include several more representative Robbinsdale business men.

its board of directors is to be expanded to include several more representa-tive Robbinsdale business men. The Security State Bank is capitalized at \$25,000 with surplus and un-divided profits of \$23,412.77. Deposits as of Dec. 31 were \$354,934.15 and total resources \$405,407.87. Officers of the bank are: President, T. P. Howard, Secretary -manager of the Howard Lumber Co.; Vice-President, W. H. Fawcett, President of Fawcett Publications, Inc.: Cashier, J. W. Roche: Assistant Cashiers, E. A. Jaenisch and L. W. Chouinard. Mr. Howard and Mr. Roche with a group of associates organized the Security State Bank in January 1919 to provide Robbinsdale for several years and Mr. Roche, who prior to the war had been with the traffic department of the Omaha railroad, had come to Robbinsdale after his discharge from the army. W. H. Fawcett, who had established the headquarters of his publications in Robbinsdale, bought a substantial interest in the bank § years ago, and with his participation the capital was increased from its original figure of \$15,000 to \$25,000. Throughout its history, the Security State Bank has conducted a com-bined community and agricultural business, serving the business interests of Robbinsdale and its adjoining farm area. The bank's deposits represent approximately 1,800 accounts.

approximately 1.800 accounts.

On Jan. 31 the Comptroller of the Currency granted a charter to the Freeborn County National Bank & Trust Co. of Albert Lea, Minn., capitalized at \$100,000. W. L. Palmer is President and L. H. Peterson Cashier of the new institution, which succeeds the Freeborn County State Bank.

Chester W. Snyder, Chairman of the board of directors of the Topeka State Bank, Topeka, Kan., and prominent in the financial affairs of Kansas, died at his home in Topeka after an illness of four weeks. Mr. Snyder, who was 76 years of age, was born in Red Creek, Wash., in 1854 and was a graduate of Union Seminary. In 1879 he went to Kansas and settled in Clifton, where he entered the banking busi-For years he was President of the First National ness. Bank of Clifton; the Exchange Bank of Linn; Vice-President of the Carbondale State Bank; Vice-President of the Bank of Leavenworth and a stockholder of various banks in Kansas and Oklahoma. In 1894 Mr. Snyder moved to Topeka and in 1906 organized the Topeka State Bank. He was President of the institution until his retirement three years ago to become Chairman of the board of directors. The deceased banker also was interested in the Capitol Building & Loan Association for years and was Treasurer of the association.

Effective Feb. 1, the American-First National Bank of Stillwater, Okla., changed its title to the First National Bank.

The name of the Planters' National Bank of Rocky Mount, N. C. on Feb. 1 was changed to the Planters' National Bank & Trust Co.

The Dothan National Bank, Dothan, Ala., said to be the oldest bank in that place, failed to open for business on Jan. 29, according to Associated Press advices from Dothan on that day, appearing in the New Orleans "Times Picayune" on Jan. 30. A sign posted on the doors stated that the action was taken by the directors pending the arrival of a National bank examiner. The closing of the bank, which was capitalized at \$400,000 with surplus of \$60,000 was unexpected. Continuing the dispatch said:

Rumors began circulating that the bank was in difficulties Tuesday. A small, orderly crowd was assembled for the opening to-day when the sign announcing the closing was posted. The sign read: "This bank has been closed by order of the board of directors pending the arrival of the examiner. Other banks in the city opened at the accustomed hour with no display of excitement by their depositors. J. L. Crawford, President of the bank, said the closing was made neces-sary by a run which started last Friday by "idle gossip among different persons."

Dersons

Crawford said more than \$250,000 of the approximately \$1,000,000 on deposit had been withdrawn since the run developed. He said the bank was "absolutely solvent."

According to the "Wall Street News" of Feb. 4 the Alabama State Banking Department has reported the suspension of business by the Clio Banking Co., Clio, and the Peoples Bank of Pinckard. The latter cleared its business through the Dothan National Bank.

Jacob J. Funk, for 37 years President of the Second National Bank of Hagerstown, Md., and one of the leading bankers of Western Maryland, died at his home in Hagers-

town on Jan. 29 at the age of 81 after a prolonged illness. Mr. Funk was born on a farm near Hagerstown and received his education in the public schools of Washington County and the Pennsylvania State Normal School at Millersville, Pa. In 1876 he went to Hagerstown and almost immediately became interested in various business enterprises, among which was the Hagerstown Steam Engine & Machine Co. He was one of the organizers of the Second National Bank in 1889 and was chosen a director of the institution at the organization meeting. Four years later he became President the office he held at the time of his death.

Spartanburg, S. C., advices on Feb. 13 to the New York "Journal of Commerce", reported that the American State Bank of Gaffney, S. C., had been closed and its attairs placed in the hands of the State Bank Examiner. The President of the institution, D. C. Ross, the dispatch said, was a director in the Globe Mills of Gaffney, which were recently placed in the hands of a receiver by Court order. The closed bank's statement of condition as of Jan. 1 1930, showed capital of \$150,000, surplus of \$18,315 and deposits of \$953,589. The bank operated branches at Cowpens and Blacksburg, S. C. In conclusion the dispatch said:

Closing of the institution comes within a month of the discovery of a loss of more than \$100.000 sustained by the First National Bank of Gaffney, which became known following the death of its President, Maynard Smyth, who was found shot to death at the entrance of his garage in Gaffney about the middle of January. The First National had a surplus of \$15,000 and has continued to operate since the death of its President.

The Farmers' Bank of Greenville, N. C., located in the tobacco district of the city, was closed on Jan. 31 for the protection of its depositors, according to a press dispatch from Greenville on that date, printed in the Raleigh "News and Observer" of Feb. 1, which said in part:

"Frozen assets" accumulating over a period of several years of operation, made it inadvisable to continue operation, and the suspension this morning, according to a statement of one of the officials, was to protect the interests of the depositors.

of the depositors. While the bank has been in operation for 17 years, it was pointed out that it had never paid a dividend, and about two years ago stockholders were re-quired to stand a 75% assessment in the hope of bridging over the difficulties. One or two large withdrawals immediately after opening this morning (Jan. 31) brought the cash on hand below the legal requirements, and con-vinced officials that immediate action was necessary to protect the interests of all concerned of all concerned.

The bank was organized in 1913 with a capitalization of \$25,000. The capital stock was later increased to \$50,000 and when the institution closed to-day its actual capital paid-in stock was \$43,550. The published statement of the bank at the close of business Dec. 31, showed total resources of \$351,042.90, with loans and discounts of \$203,169,-42 and money borrowed \$55,000. It was stated this morning that all public funds on deposit in the bank were secured and that in addition there were deposits, time savings and checking accounts totalling \$90,000. While no definite statement could be made pending arrival of State bank examiners, hope was expressed that in the process of liquidation enough would be realized from the loans and discounts to repay the borrowed money and the depositors and prevent their loss. depositors and prevent their loss.

A new financial institution-the Barnett National Bank has been opened for business in Avon Park, Fla., according to advices from that place on Feb. 13 to the "Wall Street The new bank, which is backed by the Barnett Journal". National Bank of Jacksonville, Fla., is capitalized at \$50,000 with surplus of \$10,000. J. N. Greening is President; W. T. Coates, Vice-President and Cashier, and M. V. Pilcher, Assistant Cashier. These officials together with W. A. Marschall, S. J. Pendleton and C. H. Walker, all of Avon Park, will compose the Board of Directors, the dispatch said.

Announcement was made on Feb. 8 by the directors of the Florida National Bank of Jacksonville, Fla., of the appointment of Alfred I. du Pont of Delaware as President of the institution to succeed Arthur F. Perry, resigned, according to a dispatch by the Associated Press from Jacksonville on Feb. 8, printed in the New York "Times" of the following day. It was stated, the advices said, that Mr. Perry would join the Barnett National Bank organization, Jacksonville. It was furthermore stated that Mr. du Pont had accepted the Presidency.

According to an Associated Press dispatch from Ennis, Texas, on Feb. 10, appearing in the New York "Times" of the next day, the First National Bank of Ennis failed to open its doors on that day. Its affairs were placed in the hands of a National bank examiner. The institution, it is understood, is capitalized at \$200,000 and its deposits approximate \$550,000.

Advices by the Associated Press from Jefferson, Texas, Feb. 10, printed in the New York "Times" of Feb. 11, stated that the Commercial National Bank of that place had failed to open for business on that date, and a bank examiner was investigating its affairs. The institution had suffered a "run" on Feb. 8. Reports were that the closing was only temporary and that the bank would be open for business again in a few days.

The Farmers' State Bank of Merkel, Texas, with capital of \$50,000, was not opened for business on Feb. 10, according to Associated Press advices from Merkel on Feb. 10, printed in the New York "Times" of the next day. An announcement stated that its assets had been turned over to the State Banking Department.

The directors of the Midland Bank, Ltd. of London announce that they have elected Robert Alexander Murray, a director of the Clydesdale Bank, Ltd., to a seat at their board.

The New York Agency of the National Bank of Greece has taken out a charter under the New York State Banking Laws to transact a general banking business under the name of the Hellenic Bank Trust Co. The new institution opened for business on Feb. 10 at 51 Maiden Lane, this city. Further references to the new institution appears in the front part of our paper to-day in our items under "Current Events and Discussions."

THE WEEK ON THE NEW YORK STOCK EXCHANGE.

The stock market has displayed considerable improvement the present week and while there have been no sensational features the general trend has been toward higher levels. The market leadership has alternated between the public utilities and the railroad issues, but there have been semi-occasional upward spurts in the industrial and electrical groups. The weekly statement of the Federal Reserve Bank, made public after the close of business on Thursday, showed an increase of \$48,000,000 in broker's loans. Call money renewed at 4% on Monday, advanced to $4\frac{1}{2}\%$ at mid-session, and fluctuated between 4% and $4\frac{1}{2}\%$ during the remainder of the week.

Renewed activity in the railroad stocks and a selected few of the public utilities and tobacco issues, sent shorts to cover in the final hour on Saturday. Trading was in moderate volume and while the market was generally unsettled during most of the session, the closing prices were, as a rule, higher. The four-for-one split-up of Canadian Pacific on Friday stimulated trading in the rails, Union Pacific leading the upward climb as it broke into new high ground above 236, with a gain of eight points. New York Central followed with a gain of 21/2 points to 1861/2, Chesapeake & Ohio with a sharp advance of 71/4 points to 2351/4, Delaware & Hudson four points to 181, Delaware Lackawana & Western 61/4 points to 153, Atchison 21/2 pointsto 2401/4 and Southern Pacific three points to 125. In dustrial stocks were represented in the advances by American Can which moved up to a new top for 1930 and closed at $138\frac{1}{2}$ with a gain of $3\frac{1}{2}$ points. The strong stocks of the public utilities were Western Union Telegraph which mounted four points to 2147_8 , though it lost most of its gain before the close, American Power & Light which gained about two points to 921/4, American Water Works which showed about the same improvement, Peoples Gas which gained three points to 25634 and General Public Service which closed at 42% and registered a gain of 2% points. Other strong stocks of the day included such issues as American Tobacco, United Aircraft, Warner Bros. and Paramount.

On Monday the railroad stocks again led the market and the brisk buying sent a goodly number to new tops for 1930. The outstanding strong issues in this group were New York Central, up two points to 143; Norfolk & Western, 3 points to 256; Canadian Pacific, which shot upward to 226 and then dropped back to 221 ¼ following heavy realizing with a net loss of 3½ points; Rock Island, which gained 2 points to 122, and Bangor & Aroostook, which improved $1\frac{1}{2}$ points to 73 ½. Merchandising shares were freely offered, particularly Montgomery Ward and Sears, Roebuck, which were in supply throughout the day. The public utilities on the side of the advance were Pacific Lighting, Brooklyn Union Gas, and Peoples Gas, the latter running up $6\frac{1}{2}$ points to 263. Other stocks prominent in the day's trading were American Machine & Foundry, which surged forward $3\frac{3}{4}$ points to $243\frac{3}{4}$, Auburn Auto, which advanced

points to 232; Radio Corporation, which gained 21/8 points to 421/8, and United States Rubber pref., which moved ahead 21% points to 51%. Atlantic Refining was also in demand and ran up 2 points to 401/2. Other oils were steady but without noteworthy gain. Early reactionary tendencies were followed by a brisk upward movement on Tuesday and a number of the market leaders made noteworthy advances. United States Steel, common led the upward swing and closed with a gain of 2 points. American Can crossed 141 to a new top with a net gain of 4 points, and Wesitnghouse Electric registered a new peak above 170. Railroad stocks were superseded as market leaders by public utilities, which moved vigorously forward to higher levels. The most conspicuous in this group were American & Foreign Power, which improved 15% points to 96; American Power & Light, which moved ahead 2 points to 961/8, Standard Gas & Electric, which shot ahead 3 points to 12134; Consolidated Gas, which ran ahead 2¼ points to 121%, Detroit Edison, which gained a point to 242, and American Water Works, which closed at 104 with a net gain of 51/4 points. Goodyear carried the rubber stocks upward as it extended its gains nearly 9 points to 825%. Other note-worthy instances of strength were American Tobacco B, up 2½ points to 227½; J. I. Case, 3 points to 241; Colorado Fuel & Iron, 23/4 points to 513/4; Western Union Telegraph, 43/4 points to 2163/4; General Asphalt, 4 points to 595/8. and Insland Steel, 2 points to 85.

The New York Stock Exchange, Curb Market and commodity markets were closed on Wednesday in observance of Lincoln's birthday. While there was a brief period of irregularity after mid-session on Thursday the market closed with many of the leaders at new tops for the movement. A few special stocks developed considerable weakness, though this did not, on the whole, affect the general trend of the market. Public utilities were in urgent demand throughout the day and with the possible exception of Western Union practically every active member of this group showed improvement at the close. New tops were recorded by North American, Public Service of New Jersey and American Water Works. Substantial gains were also scored by Detroit Edi-American & Foreign Power, Federal Light & Traction son. and Electric Power & Light. Other features of importance were the strength of American Can which gained 334 points to 14434, New York Central which closed at 188 with a gain of about 11/2 points. In the late afternoon trading, United States Steel, common reached a new high on the recovery at 1863% and closed at 1847% with a gain of nearly 2 points and General Electric sold within a fraction of its record top for these shares. Independent Steel stocks included in the advance were Ludlum Steel, Michigan Steel, Republic Iron & Steel and Truscon Steel. American Tobacco "B" again displayed considerable strength and closed with a gain of 71% points at 235.

United States Steel, common assumed the leadership on Friday and moved briskly forward 45% points to a new high for the year at 189¼. The stock was bought in large quantities and reached its top price late in the afternoon. Railroad stocks also moved ahead under the guidance of New York Central which crossed 191 with a gain of $3\frac{1}{2}$ points. Other strong stocks of the railroad group included Atchison which improved 2 points, Rock Island which gained $2\frac{3}{6}$ points and closed at $125\frac{1}{6}$ and Union Pacific which advanced 4 points to $234\frac{1}{2}$. Public utilities were again in demand and were represented on the side of the advance by Consolidated Gas which reached 119 with a gain of $2\frac{3}{6}$ points to $164\frac{1}{2}$. The final tone was good.

THE CURB EXCHANGE.

Despite profit taking, prices on the Curb Exchange continue to move upward, many issues establishing new high records for the year. Utilities were again the centre of interest, with Electric Bond & Share com. the most active. From 943% it sold up to 10234 and reacted finally to 1003%. Allied Power & Light com. advanced from 48 to 521/8, but fell back to $50\frac{3}{4}$. American Gas & Electric com. rose from 133 to $142\frac{1}{2}$ and sold finally at 136. Commonwealth Edison improved from 2651/2 to 288, the close to-day being Long Island Lighting com. moved up from 47 to at 2843/4. 531/2 and sold finally at 51. Northern States Power com. advanced from 17334 to 1831/2 and ends the week at 181. Among the investment trusts, National Investors com. was conspicuous for an advance from 171/2 to 263/4, the close to-day being at 251/4. Fourth National Investors improved from 391/4 to 433/8. Third National Investors com. eased from 391/4 to 433/8. Third National Investors com. eased off from 38 to 361/2, then sold up to 41. Deere & Co. old com. gained 30 points to 640, the new stock advancing from 1241/4 to 1307/8. Republic Steel com. advanced from 713/4 to 771/2 and closed to-day at 76. Oils were higher through changes were for the most part narrow. Gulf Oil advanced from $134\frac{1}{2}$ to $139\frac{3}{8}$ and ends the week at 138.

A complete record of Curb Exchange transactions for the week will be found on page 1098.

THE ENGLISH GOLD AND SILVER MARKETS.

We reprint the following from the weekly circular of Samuel Montagu & Co. of London, written under date of Feb. 00 1930:

GOLD.

The Bank of England gold reserve against notes amounted to £151,-058,475 on the 22nd inst. (as compared with £150,466,378 on the previous Wednesday), and represents a decrease of £2,847,840 since April 29 1925—

Wednesday), and represents a decrease of £2,847,840 since April 29 1925— when an effective gold standard was resumed. Gold from South Africa to the value of about £480,000 was available in the open market yesterday and was realized at 84s. 11 ½d. per fine ounce. Trade requirements absorbed only £58,000; Germany secured the remain-ing £422,000 and this was supplemented by a withdrawal of about £100,000 from the Bank of England, as indicated below. Movements of gold as announced by the Bank of England show a net efflux of £960,518 for the week under review. Receipts amounted to £22,948, and of the withdrawals amounting to £983,466, £850,000 was in sovereigns "set aside" and £102,000 in bar gold for Germany. It has been suggested that the recent setting aside of sorreigns has been for account of the Argentine; should this be so, the matter is, or course, in quite a different category from the "earmarking" of gold on behalf of British Dominions, which is normally only of a temporary nature The following were the United Kingdom imports and exports of gold registered from mid-day on the 20th inst. to mid-day on the 27th inst.: ed from mid-day on the 20th inst. to mid-day on the 27th inst.:

Imports— France British South Africa British West Africa Other countries	£15,281 558,935 45,065 7,156	Exports— Germany France British India Other countries	$\begin{array}{c} \pounds 245,110\\ 395,781\\ 25,920\\ 10,043 \end{array}$
\overline{I}	626,437		£676,854

SILVER.

SILVER. The market has ruled quietly steady during the past week and move-ments in quotations have been within narrower limits. Operations have been chiefly on account of the Indian Bazaars, who have made forward sales besides further purchases for shipment by this week's steamer, which is due to arrive in Bombay in time for the February settlement. The imminence of the China New Year holidays has tended to restrict business with that quarter; some re-sales have been recorded, but the buying orders have been limited as to price. American operators have both bought and sold, but with little activity.

[VOL. 130.

On the 24th inst., the premium on silver for cash delivery was reduced to 3-16d., at which it remained until to-day, when the difference between

the two quotations narrowed to $\frac{1}{2}$ d. The following were the United Kingdom imports and exports of silver registered from mid-day on the 20th inst. to mid-day on the 27th inst. Exports-Imports-

COURSE OF BANK CLEARINGS.

Bank clearings this week will again show a decrease as compared with a year ago. Preliminary figures compiled by us, based upon telegraphic advices from the chief cities of the country, indicate that for the week ended to-day (Saturday, Feb. 15) bank exchanges for all the cities of the United States from which it is possible to obtain weekly returns will fall 24.5% below those for the corresponding week last year. Our preliminary total stands at \$9,596,751,543, against \$12,714,474,940 for the same week in 1929. At this center there is a loss for the five days ended Friday of 28.3%. Our comparative summary for the week follows:

Clearings-Returns by Telegraph. Week Ending Feb. 15.	1930.	1929.	Per Cent,
New York	\$4,583,000,000	\$6,394,000,000	-28.3
Chicago	442,493,811	602,209,191	-26.5
Philadelphia	403,100,000	425,000,000	-5.2
Boston	341,000,000	362,000,000	-5.8
Kansas City	102,887,303	108,636,171	-5.4
St. Louis	99,000,000	117,000,000	-15.4
San Francisco	148,696,000	152,227,000	-2.4
Los Angeles	139,503,000	181,239,000	-23.0
Pittsburgh	120,010,084	135,020,668	-11.1
Detroit	115,026,099	159,652,806	-27.9

New Orleans	53,633,000	48,369,301	+10.9
Thirteen cities, 5 days	\$6,725,380,069	\$8,874,314,393	-24.2
Other citles, 5 days	938,579,550	1,033,002,955	-9.2
Total all cities, 5 days	\$7.663,959,619	\$9,907,317,348	-22.7
All cities, 1 day	1,932,791,924	2,807,157,592	-31.1
Total all cities for week	\$9,596,751,543	\$12,714,474,940	-24.5

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them to-day, inasmuch as the week ends to-day (Saturday) and the Saturday figures will not be available until noon to-day. Accordingly, in the above the last day of the week has in all cases had to be estimated.

In the elaborate detailed statements, however, which we present further below, we are able to give final and complete results for the week previous-the week ended Feb. 8. For that week there is a decrease of 26.3%, the aggregate of clearings for the whole country being \$10,873,288,169 against Outside of this \$14,751,009,941 in the same week of 1929. city the decrease is 12.5%, while the bank clearings at this centre record a loss of 32.5%. We group the cities now according to the Federal Reserve districts in which they are located, and from this it appears that in the New York Reserve District, including this city, there is a loss of 32.2%, in the Boston Reserve District of 7.7% and in the Philadelphia Reserve District of 6.8%. The Cleveland Reserve District shows a decrease of 9.0% and the Atlanta Reserve District of 6.6%. The Richmond Reserve District has a trifling increase, namely 0.7%. In the Chicago Reserve District the totals show a shrinkage of 23.3% and in the St. Louis Reserve District of 12.0%, but the Minneapolis Reserve District has to its credit a gain of 4.0%. The Kansas City Reserve District falls 3.2% behind, the Dallas Reserve District 13.5% and the San Francisco Reserve District 16.1%.

In the following we furnish a summary by Federal Reserve districts:

Philadelphia Banks .- The Philadelphia Clearing House return for the week ending Feb. 8, with comparative figures for the two weeks preceding, is given below. Reserve requirements for members of the Federal Reserve System are 10% on demand deposits and 3% on time deposits, all to be kept with the Federal Reserve Bank. "Cash in vaults" is not a part of legal reserve. For trust companies not members of the Federal Reserve System the reserve required is 10% on demand deposits and includes "Reserve with legal depositaries" and "Cash in vaults."

Beginning with the return for the week ending May 14 1928, the Philadelphia Clearing House Association discontinued showing the reserves and whether reserves held are above or below requirements. This will account for the queries at the end of the table.

Weekly Return of the Federal Reserve Board.

The following is the return issued by the Federal Reserve Board Thursday afternoon, Feb. 13, and showing the condition of the twelve Reserve banks at the close of business on Wednesday. In the first table we present the results for the system as a whole in comparison with the figures for the seven preceding weeks and with those of the corresponding week last year. The second table shows the resources and liabilities separately for each of the twelve banks. The Federal Reserve Agents' Accounts (third table following) gives details regarding transactions in Federal Reserve notes between the Comptroller and Reserve Agents and between the latter and Federal Reserve banks. The Reserve Board's Comment upon the returns for the latest week appears on page 1051, being the first item in our department of "Current Events and Discussions."

Weekly Return for the Member Banks of the Federal Reserve System.
Following is the weekly statement issued by the Federal Reserve Board, giving the principal items of the resources and liabilities of the member banks in 101 cities from which weekly returns are obtained. These figures are always a week behind those for the Reserve banks themselves. Definitions of the different items in the statement were given in the statement of Dec. 12 1917, published in the "Chronicle" of Dec. 29 1917, page 3475. The comment of the Reserve Board upon the figures for the latest week appears in our department of "Current Events and Discussions," on page 1052, immediately preceding which we also give the figures of New York and Chicago reporting member banks for a week later.
Beginning with the statement of Jan. 9 1929, the loan figures exclude "Acceptances of other banks and bills of exchange or drafts sold with endorsement, and include all real estate mortgages and mortgage loans held by the bank. Previously acceptances of other banks and bills of exchange or drafts sold with endorsement were included with loans, and some of the banks included mortgages in investments. Loans secured by U. S. Overment of Digations are being given. Furthermore, borrowing at the Federal Reserve are not any more subdivided to show the amount secured by U. S. Obligations and those secured by commercial paper, only a lump total being given. The number of report in Francisco district with loans and investments of \$135,000,000 on Jan.2 which recently merged with a non-member bank. The figures are now given in frances are now given in the state of the same of the Same and investments of \$135,000,000 on Jan.2 which recently merged with a non-member bank. The figures are now given in francisco district with loans and investments of \$135,000,000 on Jan.2 which recently merged with a non-member bank. The figures are now given in francisco district with loans and investments of \$135,000,000 on Jan.2 which recently merged with a non-member b

Total bills and securities (See Note) _____ 387,589,000 383,373,000 365,960,000 for foreign correspondence______ 171,029,000 174,062.000 96,285,000 NOTE.—Beginning with the statement of Oct. 7 1925, two new items were added in order to show separately the amount of balances held abroad and amounts due to foreign correspondents. In addition, the caption "All other earning assets," previously made up of Federal Intermediate Credit bank debentures, was changed to "Other securities," and the caption "Total earning assets" to "Total bills and securities." The latter term was adopted as a more accurate description of the total of the iscount acceptances and securities acquired under the provisions of Sections 13 and 14 of the Federal Reserve Act, which, it was stated, are the only items included therein.

New York Curb Exchange—Weekly and Yearly Record In the following extensive list we furnish a complete record of the transactions on the New York Curb Exchange for the week beginning on Saturday last (Feb. 8 1930) and ending the present Friday (Feb. 14 1930). It is compiled entirely from the daily reports of the Curb Exchange itself and is intended to include every security, whether stock or bonds, in which any dealings occurred during the week covered.

Investment and Kailroad Intelligence.

Latest Gross Earnings by Weeks.—In the table which follows we sum up separately the earnings for the first week of February. The table covers five roads and shows 10.91% decrease under the same week last year:

1104

First Week of February.	1930.	1929.	Increase.	Decrease
Canadian National. Canadian Pacific Minneapolis & St Louis St Louis Southwestern. Western Maryland.	\$ 3,921,539 2,905,000 237,297 433,100 366,749	\$ 4 375,872 3,312,000 269,669 501,946 366,303	\$ 446	\$ 484,333 407,000 32,372 68,846
Total (5 roads) Net decrease (10.91%)	7,863,685	8,825,790	446	992,551

In the table which follows we also complete our summary of the earnings for the fourth week of January:

Fourth Week of January.	1930.	1929.	Increase.	Decrease
Previously reported (6 roads) Western Maryland	\$ 15,937,790 526,497	\$ 18,483,877 517,149	\$ 9,348	\$ 2,546,087
Total (7 roads) Net decrease (13.37%)	16,464,287	19,001,026	9,348	2,546,087 2,536,739

In the following table we show the weekly earnings for a number of weeks past:

P	7est	Current Year.	Previous Year.	Increase or Decrease.	Per Cent.
lst week Nov.	(7 roads)	\$ 10.016.635	\$ 11,582,851	\$	12.53
2d week Nov.	(8 roads)	13,321,885	17.436.765	-4.114.880	23.18
3rd week Nov.	(7 roads)	9,461,558	11,553,954	-2.082.396	18.11
4th week Nov.	(7 roads)	16,167,720	21,192,292	-5,024,572	23.72
1st week Dec.	(6 reads)	12,513,496	15,718,973	-3,205,478	20.40
and week Dec.	(8 roads)	12,570,553	15,524,333	-2,953,780	19.03
	(7 roads)	9,444,380	10,803,703	-1,360,323	12.59
	(6 roads)	10,087,804	11,840,065	-1,752,261	14.80
ist week Jan.	(7 roads)	6,803,011	7,657,759	-854,748	11.17
d week Jan.	(8 roads)	10,755,827	12,059,865	-1,303,018	10.81
d week Jan.	(8 roads)	11,532,884	12,989,338	-1,456.454	11.21
th week Jan.	(7 roads)	16,464,287	19,001,026	-2,536,739	13.37
lat week Feb.	(5 roads)	7,863,685	8,825,790	-992,105	10.91

We also give the following comparisons of the monthly totals of railroad earnings, both gross and net (the net before the deduction of taxes), both being very comprehensive. They include all the Class 1 roads in the country.

Month.		Gross Earning	8.	Length of Road.

Commercial Credit Co., Baltimore.

(18th Annual Report-Year Ended Dec. 31 1929)

A. E. Duncan, Chairman of the board, says in substance: Inasmuch as many economists, statistical agencies, investors, bankers and business men have felt that the recent stock market collapse and the current business recession would be a real test as to the fundamental sound-ness of instalment selling and the financing of receivables in connection therewith, the 18th annual report contains more data than would otherwise be issued.

therewith, the 18th annual report contains more data than would be be issued. Many apparently forget that almost everything that can happen in financ-ing and in business has happened during the past 15 years, including the World War and the violent deflation and depression in 1920-1921, as well as the depressions during 1924 and 1926-1927, through all of which instalment selling and instalment financing passed without any serious setback. Special attention is called to all of the data herein, and including follow-ing brief comparison of consolidated operations: Consolidated Operations-Net operating credit after common dividends_____\$2,425,916 \$2,087,488 % net inc. on ave. consol. cap., surp. & undiv. profits 12.82 13.62 2.09 2.31

GENERAL INVESTMENT NEWS.

STEAM RAILROADS.

STEAM RAILROADS. Merger Hearings Ordered by I.-S. C. Commission.—Commission moves to speed the work on consolidation by taking up short-line proposals; complete details asked. N. Y. "Times" Feb. 12, p. 34. Piont protest to 1.-S. C. Commission that increase is discriminatory. N. Y. "Times" Feb. 14, p. 33. Report to Shippers Assails I.-S. C. Commission Plan.—Conference ap-proves criticism of large rail system proposed by board. N. Y. "Times," Feb. 12, p. 12. I.-S. C. Commission Sets Rules in Rail Mergers.—The I.-S. C. Com-mission, Feb. 10, announced a definite schedule of rules to be followed by the carriers in filing merger applications. New York "Sun," Feb. 10. Atlantic Coast Line RR.—Seeks Control of Charleston & Western Carolina Ry.— The company made application Jan. 28 to the I.-S. C. Commission

Atlantic Coast Line RR.—Seeks Control of Charleston & Western Carolina Ry.—
 The company made applications. New York "Sun." Feb. 10.
 Atlantic Coast Line RR.—Seeks Control of Charleston & Western Carolina Ry.
 The company made application Jan. 28 to the L-S. C. Commission for authority to acquire control of the Charleston & Western Carolina Ry.
 The lease proposed would be for a period of 99 years from Jan. 1930. As money rental the A. C. L. is to pay an amount equal to an SY dividend per annum on so much. havy. of a period of 99 years from Jan. 29 dividend per annum os much. Havy. of a period by the A. C. L.
 The lease proposes to pay the inder or held by the A. C. L.
 The also proposed to pay the inder or held by the A. C. L.
 The also proposed to pay the inder or held by the A. C. L.
 The also proposed to be sized by that condition on stilling the second of the size of a summed by the Charleston & Western Carolina Ry. and on \$1,000,000 of bonds proposed to be issued by that condition of stilling the summer and the A. C. L.'s application dees not involve the issuance of any securities by that carrier.—
 The A. C. L. desires authority to assume, as to the securities of the road proposed to be acquired, now outstanding bereafter to be issued as provided in the lease. C. Ocommission to acquire control of Buffalo Rochester & Pittsburgh.—The company has been authorized by the I.-S. C. Commission to acquire control of the Buffalo Rochester & Pittsburgh Ry. by purchase of capital stock upon the condition that existing routes and channels of trade are maintained unless otherwise authorized by the I.-S. C. Commission to acquire control of the Buffalo Rochester & Pittsburgh Ry. by purchase of capital stock upon the condition that existing routes and channels of trade are maintained unless otherwise authorized by the Commission, according to a report and order made public Feb. 12.
 The con

Sion's consonatory pairs and in identical letters written to the four trainalines: "This application is not complete in that does not present the terms of conditions nor the consideration on which it is proposed to acquire the lines contemplated by it. It is not in all respects in accord with the com-plete plan of the Commission. "My own view is that a hearing on it would be useless and that should either be withdrawn by you or dismissed by the Commission. Before making a recommendation in the matter, however, I would appreciate the benefit of your views on this."-V. 130, p. 792. Buffalo Rochester & Pittsburgh Ry.—Control by Balti-

making a recommendation in the matter, however, i would appreciate the benefit of your views on this."—V. 130, p. 792.
Buffalo Rochester & Pittsburgh Ry.—Control by Baltimore & Ohio Approved by Commission.—See Baltimore & Ohio RR. above.—V. 129, p. 275.
Canadian Pacific Ry.—New Branches To Total 160 Miles. The company will have five bills for branch lines before Parliament this session, according to a despatch from Ottawa. The bills provide for the construction of approximately 160 miles of lines, distributed among three Provinces: Alberta, Saskatchewan and Quebec. They are as follows:
From a point on the Taber subdivision of the C.P.R., near Tempest, Alta., southwest for approximately 10 miles.
From Dunelm, Sask., on the Swift Current southeasterly branch of the C.P. R., southwesterly for a distance about 50 miles.
From Duval, Sask., on the Pheasant Halls branch, easterly for a distance of some 30 miles.
From Duval, Sask., on the Pheasant Halls branch, easterly for a distance.
Miles.
From Line is a short one, in the Parish of He Perrot, Vaudreuil County, Quebec.
The fifth line is a short one, in the Parish of He Perrot, Vaudreuil County.

The bills will ask for authority to issue securities in respect to these lines to an amount not exceeding \$50,000 a mile.

So an amount not exceeding \$50,000 a mile. New Director.— Robert O. Stanley, President of the International Nickel Co., of Canada, has been elected a director. He assumes the vacancy caused by the death of S. W. Molson.—V. 130, p. 966.
Central RR. Co. of N. J.—Acquisition.— The I.-S. O. Commission Jan. 25 approved the acquisition by the com-pany of control of the Wharton & Northern RR. and the Mount Hope Mineral RR. by purchase of capital stock.—V. 129, p. 3957.
Charleston & West Carolina Ry.—Control.— See Atlantic Coast Line RR. above.—V. 128, p. 4150.

Delaware & Hudson Co.—Protests Commission's Merger Rules—Doubts Legality of Considering Recent B. & O. Deal in Other "Acquisitions of Control."—

Rutes—Doubts Legality of Considering Recent B. & O. Deal in Other "Acquisitions of Control."—
 The company in a letter sent to the I.-S. C. Commission takes issue with the Commission's views on the procedure to be followed by rail-roads in merger petitions. The letter was prepared by H. T. Newcomb, General Counsel for the D. & H., in reply to a letter sent by Charles D. Mahaffie, finance director of the Commission. Mr. Mahaffie asked the B. & O., the Chesapeake & Ohio, the Wabash and the Delaware & Hudson to withdraw their merger petitions and file new ones that would give effect to the Commission's own imerger plan.
 Mr. Mahaffie objected also because the four plan did not include fi-mancial details. Mr. Mahaffie's suggestions were embodied in a set of rules for merger procedure announced by the Commission this week.
 In the hearings on the B. & O.'s application for control of the Buffalo. Rocchester & Pitisburgh, which has since been granted. Mr. Newcomb contended as an intervenor that, since the record was closed prior to promu-sidered a determining factor in the case. That Mr. Newcomb's belief goes further was indicated in his reply to Mr. Mahaffie, which disclosed that the Delaware & Hudson had serious doubts as to whether the plan can lawfully be considered in the determination of all cases of "acquisition of control." Mr. Newcomb's letter said that the effect of the Commission's consolida-tion plan on applications of railroads to acquire control of other carriers "presents several questions which seem to require careful examination" and urged no "premature action" be taken in regard to the Delaware & Hudson's proposal for its merger with 16 other railroads to form a belt line in the East. Herbert Fitzpatrick, Vice-President & General Counsel of the Chesapeake & Ohio, has asked that the Chesapeake & Ohio merger plan beld in use spense until he can discuss it personally with Mr. Mahaffle. R. Marsden Smith, counsel for the B. & O., has told the Commission

Delaware, Lackawanna & Western RR.—Guaranty.-See Morris & Essex RR. below.—V. 129, p. 4136.

See Morris & Essex RR. below.—V. 129, p. 4136.
 Denver & Rio Grande Western RR.—Pres. J. S. Pyeatt Explains Purpose of Application for Salt Lake Road Control.— Commenting upon the company's application to the L-S- C. Commission to purchase control of the Denver & Salt Lake Ry., J. S. Pyeatt, President says: "There was and could be only one incentive for this purchase, namely to carry out a policy expressly announced in the 1924 reorganization of the Denver & Kio Grande Western, which was 'To encourage the creation of a short line from Denver to Salt Lake City through the utilization of the existing line from Salt Lake City to Dotsero, and a line from the latter point through the proposed Moffat Tunnel to Denver." "The Denver & Kio Grande Western has purchased this stock with no other purpose or expectation than that it will bring about, through cordial co-operation with others interested in the Denver & Salt Lake the early construction of the Dotsero cut-off, and an arrangement whereby the D. & R. G. W. will have a short route through Denver gateway to the West. Assuming that the Commission approves the application, the only apparent obtacles which would delay the building of the cut-off are the appeal of the Moffat Tunnel Commission from the decree of the United States Dis-trict Court for Colorado, respecting the validity of the Moffat Tunnel lease, and the consummation of arrangements between the two railroads."— V. 130, p. 967.
 Ft. Dodge Des Moines & Southern PR — Interest D

Ft. Dodge Des Moines & Southern RR .- Interest Defaulted-Protective Committee.-

faulted—Protective Committee.— The company has not provided the funds for the payment of the interest due Dec. 1 1929 on the 1st mtge. 5% gold bonds. The committee below has consented to act as a bondholders protective committee under a deposit agreement dated Feb. 10 1930, under which Bankers Trust Co., New York; Old Colony Trust Co., Boston, and Rhode Island Hospital Trust Co., Providence, are acting as depositaries. In the judgment of the committee united and harmonious action is necessary on the part of the holders of the bonds, and the committee there-fore strongly recommends that holders deposit their bonds at once, in order that the committee may be in a position most effectively to repre-sent the 1st mtge. bondholders and to protect their interests. *Committee*.—Louis C. Midland Valley RR.—Bonds.— The I.-S. O. Commission Feb. 3 authorized the company to issue \$289,000 Ist mtge. 5% 30-year gold bonds in part reimbursement of capital expendi-tures heretofore made; all or any part of said bonds to be pledged and re-pledged as collateral security for short-term loans.—V. 129, p. 3323.

Missouri Pacific RR .- Minority Shareholders Oppose Issuance of More Common Stock .-

ance of More Common Stock.— Minority stockholders have filed a protest with the 1.-S. C. Commission against the granting of permission for the issuance of \$38,659,900 of addi-tional common stock. Edward C. Bailly of New York, as counsel for William F. Connor and C. N. Muse, stockholders, urged the Commission to withhold action on the ground that such an issue of common stock was unlawful in Missouri. It was set out in a brief filed with the Commission that the issue would dilute the present holdings; that the proceeds were to be used to pay back dividends on pref. stock in violation of Missouri law because the issue of such additional stock has not been submitted to and approved by the stockholders of record. In a brief filed with the Commission the road defended its proposed stock The company said: "The proposed issue is in the interest of the preferred stockholders, since they will, at present market prices, receive common stock having a value in excess of the present use of their right to receive dividends even if the accumulated dividends should be at the rate of \$5 per share per year. "The proposed issue is also in the interest of the common stockholders, accumulated dividends should be at the rate of \$5 per share per year. "The proposed issue is also in the interest of the common stockholders abecause they will be relieved of a charge of more than \$34,000,000 ranking ahead of them both as agaanst current income and as against assets in liquidation." Oral Argument Feb. 28 on Unification Plan

Oral Argument Feb. 28 on Unification Plan.-

Oral Argument Feb. 28 on Unification Plan.—
 Announcement was made by the I.-S. C. Commission Feb. 8 that oral arguments on the proposed unification of the Missouri Pacific would be heard before the Commission on Feb. 28. The arguments will be based on the tentative report and recommendation of Examiner C. D. Weed, who approved the Missouri Pacific plan with certain conditions.
 Twenty-two railroads are involved in the unification plan. Some of them may be considered in the category of larger lines and others are short lines. All would be acquired by the Missouri Pacific. The list includes the New Orleans Texas & Mexico, the International-Great Northern, the Orange & Northwestern, the New Iberia & Northern, the Iberia, St. Mary & Eastern, the Houston & Brazos Valley, the San Antonio Southern, the Austin Dam & Suburban, the Beaumont Sour Lake & Western, the Houston North Shore, the Natchez & Louisiana Railway Transfer, the New Orleans & Lower Coast, the Fort Smith Suburban and the Missouri Pacific RR. Corp. in Nebraka.—V. 130, p. 133.

Morris & Essex RR.—Guaranteed Bonds Sold.—J. P. Morgan & Co. offered Feb. 10 \$25,000,000 construction mortgage gold bonds due Nov. 1 1955. Of the issue \$10,000,000 5% series A bonds, dated Nov. 2 1925 were offered at 103½, to yield 4.76% and \$15,000,000 4½% series B bonds, dated Nov. 1 1928 were offered at 96½ and int. to yield 4.73%. The issue has been oversubscribed. Bonds of both series bearing interest from Nov. 1 1929, payable May 1 and Nov. 1 in N. Y. City. Unconditionally guaranteed by endorsement, both as to prin. and int., by Delaware, Lackawana & Western RR. City Bank Farmers Trust Co., New York, trustee. Not redeemable prior to maturity. Denom. e*\$1,000 and r*\$1,000 and thereof. Legal investment, in the opinion of counsel, for Savings Banks in the State of New York.
Data from Letter of J. M. Davis, Pres. of The D. L. & W. RR.
Purpose.—These \$25,000,000 construction mige gold bonds, 5% series A and soft proves.

Determinister. Difference of J. M. Davis, Pres. of The D. L. & W. RR.
Durpose.—These \$25,000,000 construction mtge. gold bonds, 5% series A and 41% % series B, of Morris & Essex RR., were originally issued to Delaware, Lackawanna & Western RR. to reimburse it for expenditures for additions and betterments previously made to the property and leased lines of the Morris & Essex. The proceeds of the sale of these bonds will be used to defray the cost of other additions and betterments heretofore made or to be made to the property and leased lines of the Morris & Essex. The proceeds of the sale of these bonds will be used to defray the cost of other additions and betterments heretofore made or to be made to the properties of the Lackawanna System, including the Morris & Essex.
Mortgage.—These bonds are issued under the construction mtge, dated Nov. 2 1925 of Morris & Essex RR., which limits the total amount of bonds susuable thereunder to \$35,000,000. The mtge, is a direct lien on the of that company's lst refunding gold mtge, under which there is now outstanding the total authorized amount of \$35,000,000 as 12% bonds, due Dec. 1 2000. Company's owned lines, which comprise 125 milles of road, form the main line of the Lackawanna System between Hoboken, N. J., and Include the Boonton Branch extending from a point on the main line are Hoboken through Paterson to a point near Dover, N. J. Company's lands, yards and buildings at Secancus, Jersey 20tt; and Hoboken, N. J., constitute the tidewater terminals of the Lackawanna System on New York Harbor.
Lexe.—The property of the Morris & Essex is leased to The Delaware, Lackawanna and Western for the term of the continuance of the former ompany's charter and of any renewals thereof. Under the terms of the case and later agreement, the Delaware, Lackawanna & Western assumes

1

igitized for FRASER tp://fraser.stlouisfed.org/

all the bonds and other debt of the Morris & Essex and also agrees to pay dividends at the rate of 7% % per annum on the latter company's capital stock, which is outstanding in the amount of \$15,000,000. Guaranty.—Delaware, Lackawanna & Western RR. guarantees by endorse-ment these \$25,000,000 construction mtree. gold bonds both as to prin. and int. It also guarantees \$35,000,000 lst refunding gold mtree. 3½% bonds of Morris & Essex, \$10,000,000 New York, Lackawanna & Western RY. Ist & refund. mtge. 4½% gold bonds, series B due 1973, and \$1,394,000 Warren RR. Ist refund. 3½% bonds, due 2000. Its total funded debt to be out-standing in the hands of the public upon the sale of these construction mtge. bonds comprises the above-mentioned guaranteed bonds and \$44,000 of direct long term debt and amounts to \$71,438,000.—V. 128, p. 3182.

Mount Hope Mineral RR.—Control.— See Central RR. Co. of N. J. above.—V. 125, p. 382.

Bee Central RR. Co. of N. J. above.-V. 125, p. 382.
 New York Central RR.—To Buy Short Lines.— The co. has asked the I. S. C. Commission for authority to acquire control of the 20-mile Federal Vailey RR. by purchase of its capital stock, for \$150,000.
 The road extends from Falos to Lathrop, Ohio. The price to be paid was arrived at through arbitration proceedings, since the Central, under the Commission's decision of last year, authorizing the unification of its prop-erties, was required to include certain short lines.
 The N. Y. Central has asked the I.-S. C. Commission for authority to acquire control of the Owasco River Ky., a small switching line in Auburn, New York by purchasing its entire capital stock from the International Harvester Co. for \$75,000. The Central was required to include this prop-ert is unified system in the unification plan.
 The Central has also applied to the Commission for authority to acquire foint control with the Canadian Pacific Ry. of the Canadian Pacific Car & Passenger Transfer Co., Ltd., by purchase of its capital stock. The transfer company operates a ferry service between Ogdensburg, N. Y., and Prescott, Ont. Under the property of the ferry company.
 Second Equipment Trust of 1929.—
 The I.-S. C. Commission Feb. 6 authorized the company to assume obli-ment trust of 1929 4½% equipment trust gold certificates, to be issued by the Guaranty Trust Co. of New York as trustee, under an agreement dated bec. 1 1929, and to be sold at not less than 98.657 and divs. in connection with the procurement of certain equipment.—V. 130, p. 967.
 Earnings for 3 and 12 Months Ended Dec. 31. (Including Boston & Albany RR. and Ohio Central Lines.)

Seaboard Air Line Ry.—Asks I.-S. C. Commission To Permit Larger Return from Proceeds of Sale of Common Stock.— The I.-S. C. Commission's authority to permit unrestricted use of \$3,342.522 out of the \$20,489,180 net proceeds from the sale of 1,893,630 shares of company's no par common stock under its recently consummated refinancing is requested in a supplementary application filed with Com. mission. The provision of order objected to requires railroad to devote the proceeds in excess of the \$12,680,908 required to pay debts and provide additional working capital, to reduction of outstanding funded indebtedness and to additions and betterments and other capital purposes. No part

of the balance remaining shall be expended until the proposed expenditures have received the Commission's approval. The modification of commission's order approving the reorganization plan so that limitations will apply to only \$4,465,750 instead of \$7,808,272 is urged.

The modification of commission's order approving the reorganization plan so that limitations will apply to only \$4,465,750 instead of \$7,508,272 is urged. Supplementary application points out that road sold 1,892,630 shares of common stock to its stockholders for which it received \$20,818,930 or \$12 a share less \$1 a share commission. The agregate increase in capital stock liability as a result of the plan was estimated at not more than \$24,194,750, consisting of \$20,489,180 as maximum receipts from the outricht stock issue and \$3,705,570 represent-ing an additional 336,870 shares of common stock issued in conversion of \$11,229,000 of first and consolidated bonds. The carrier points out that from the \$24,194,750 aggregated capital stock liability figure would be deducted \$11,229,000 for bonds exchanged and \$2,000,000 representing a Government loan which was paid. This would leave a net capital stock liability increase of \$10,965,750 which upon deduction of \$6,500,000 allowed for working capital would leave \$4,465,750, which the road believes is the maximum amount to which the commission is applying any limitations should apply. The sale of stock under that plan and that the Commission in applying apy limitations to the use of the proceeds from the sale of stock should give full weight to such reduction in funded debt. "The requirements of the applicant in the immediate future are such that it can not afford to be deprived of the issuance of its first and consolidated bonds to reimburs its treasury for capital expenditures," L. R. Powell Jr., President, pointed out. Attention was directed to line's balance sheets as of Aug. 31 1929, com-pared with Nov. 30 1929. On the latter date andited vouchers and wages payable amounted to \$6,441,598, an increase of \$806,000 over Aug. 31, whereas aggregate of cash and special deposits decreased \$447,000 in the same period. It was stated that this situation has been brought about by the contrac-tion in business which occurred in October and continued through November and De

Wabash Ry.—Agrees with Commission's Plan—Road Offers To Amend Its Fifth System Proposal To Fit In Consolidation— Baltimore & Ohio and Chesapeake & Ohio Also Reported Moving

Wabash Ry.— Agrees with Commission's Plan—Road Offers To Amend Its Fifth System Proposal To Fit In Consolidation— Baltimore & Ohio and Chesapeake & Ohio Also Reported Moving Toward Merger Accords.—
 A special dispatch from Washington, Feb 13, to the New York "Times," had the following:
 The Wabash Ky. is in agreement with the proposed plan of consolidation announced by the L-S. C. Commission and is conducting negotiations aimed at setting up the proposed Wabash-Seaboard fifth system in Eastern territory, Chairman William H. Williams of the Wabash, Feb 13, informed the Commission.
 To this end the Wabash soon will file an application supplementing its previous consolidation proposal, together with a presentation of the financial plan under which it will seek to consolidate the new fifth system Mr.
 Williams said. The Wabash thus would become the first trunk line to accept the Commission proposed plan of consolidation and to move to put is pareard;
 The the Commission will depend upon the Wabash being able to supply absolute evidence that the Pennsylvania RR. Interests have re-linquished control of the Wabash, therefore, may bring a real test as to the attitude which the Pennsylvania is prepared to take in connection with its control of the Wabash sexpected to touch off the whole tense East-ern trunk line situation developing as a result of the whole tense East-ern trunk line situation developing as a result of the whole tense East-ern trunk line situation developing as a result of the Wabash in progress to take over New York to-day (Feb. 13) of Daniel Willard, President and George H. Shriver, Senior Vice-President of the Baltimore & Ohio, was reported here to be in connection with the negotiations in progress to take over New York Central holdings in the Reading Set with. The chespacke & Ohio and then the Buffalo Kord.
 The draw and Striver Senior Vice-President of the Baltimore & Ohio, take over New York Central holdings in

the final plan which the Commission has adopted." Mr. Williams con-tinued: "I take it that the final plan is an expression of national policy, not inflexible, but admitting of no departure not affirmatively justified to the Commission and sanctioned by it under supplemental jurisdiction re-served to it by Congress under the Act; that is, as our general counsel has expressed it. "The final plan is like a final decree in an equity cause, where jurisdiction is reserved at the foot of the decree to take such further action as justice may require." "It is the purpose of the Wabash to continue negotiations already begun and designed to effect the grouping prescribed by the Commission, and to amend and supplement its application as promptly as necessary negotia-tions may admit, in order to fully meet the requirements of the Com-mission in the statement of terms and conditions upon which appropriate acquisitions and their approval by the Commission are sought." In a second letter Chairman Williams advised the Commission that at least nine State Public Service Commissions would support the fifth system plan, while more than 6,000 individuals and organizations had also expressed approval of the project, either to Wabash officials or to the State Com-mission." Seeks Right To Use Lehigh Stock for Leages Counting

Seeks Right To Use Lehigh Stock for Loans Security.— The company filed a supplement.] application with the I.-S. C. Com-mission, Feb. 12, which seeks the modication of the Commission's order

of May 2 authorizing the issuance of certain bonds, so as to permit the use of all, or any part of the common stock of the Lehigh Valley RR, now owned by the Wabash, as collateral security for any loans made by the Wabash company. By original application filed in March 1928, the Wabash asked authority to issue \$17,867,000 of refunding and general mortgage 4½% gold bonds, series C. The Commission authorized the issue subject to certain con-ditions.

The order safe of the commence of the construction of the const

a. ten. Act.

Waco Trinity Beaumont & Sabine RR.—*Receivership.*— According to a dispatch from Houston, Tex., Feb. 7, receivership for the company was ordered by District Judge S. W. Dean of Navasota on application of officials of the line. Paul T. Sanderson of Trinity was named receiver. The petition listed assets as \$2,640,000, and obligations as \$800,000. The court directed the receiver to take charge of the proper-ties, make repairs and to continue service.—V. 127, p. 2363.

Western Maryland Ry.—Hearing Date Set.-See Wheeling & Lake Erie Ry. below.—V. 129, p. 3324.

Bee Witeeling & Lake Erie Ry.—Hearing on Proposed Line.— The company's amended proposal to construct 39 miles of line from a connection with South San Francisco Belt Ry. in San Francisco, extending through South San Francisco industrial and water front district to a con-nection with its line at Niles, has been assigned for hearing at San Fran-cisco, on March 13, before In.S. C. Commission Examiner H. C. Davis. The line would be built by a subsidiary, the Western Pacific California RR. It is the initial step in providing Western Pacific with a through air-rail line to San Francisco via Niles and Redwood City. The project includes construction of a bridge across San Francisco Bay.—V. 130, p. 795.

Wharton & Northern RR.—Control.— See Central RR. Co. of N. J. above.—V. 126, p. 105.

Wheeling & Lake Erie Ry.—Bonds Offered.—Stone & Webster and Blodget, Inc., recently offered an additional issue of \$409,000 ref. mtge. 5% gold bonds, series B, at 100 and int. Dated March 1 1917; due Sept. 1 1966.

issue of \$409,000 ref. mtge. 5% gold bonds, series B, at 100 and int. Dated March 1 1917; due Sept. 1 1966.
 Data from Letter of W. M. Duncan, Chairman & President.
 Bonds.-Bonds are authorized in the amount of \$50,000,000. There will be outstanding in the hands of the public (upon completion of this financing): Series A 4½s, \$4,827,000; series B 5s, \$3,303,000. In addition there have been issued under this mortgage \$8,959,000 bonds which are held in treasury and \$1,637,000 which are pledged with the United States Government.
 Company.-Operates 511 miles of railroad extending southeast from Toledo, 0. to Steubenville, O. and Wheeling, W. Va., and south from Cleveland to Zanesville, O. Company owns 479 miles of the total lines operated. In the balance being operated under trackage rights. It also operates Lorain & West Virginia Ry., 25 miles in length. It owns all the outstanding securities of Lorain & West Virginia Ry. Zanesville Belt & Terminal Ry., Toledo Belt Ry., Wandle Co., and Sugar Creek & Northern RR. Other mileage, including main line second track. sidings, yard track, spurs and belt lines brings the total mileage of the system to 1,018.37 miles. Company has entered linto a contract for the use of the union depot pasenerg facilities nearing completion in Cleveland. O.
 The principal tonnage carried consists of iron ore, coal, iron and steel products and general freight. In 1928 approximately 56% from manufactures and miscellaneous. About 47 % of the tonnage carried ord in the ending mige., these bonds are being such dimension and improvement 5% bonds, due Feb 1 1930. Security.-Mortgage provides for a general life upon the entre property of company, subject to \$6,870,000 of underlying bonds (exclusive of the solution is the exceed and refunding mige. Such as the refunding mige. Securities. The extension and improvement 5% bonds, due Feb 1 1930. Security.-Mortgage provides for a general life upon the entre property of company, subject to \$6,870

Hearing Set for March 10.-

The applications of the Pittsburgh & West Virginia and the New Y or Chicago & St. Louis railroads to acquire control of the Wheeling & Lak , Erie have been assigned for hearing March 10 before Assistant Financy Director Burnside by the I.-S. C. Commission. The application of the Pittsburgh & West Virginia to acquire control of the Western Maryland will be heard April 9, also before Director Burn side.

The application of the Fittsburger April 9, also before Director burn of the Western Maryland will be heard April 9, also before Director burn of the Western Maryland will be heard April 9, also before Director burn wheeling & Lake Erie stock is now held by a trustee and the certificat ; of deposit are held by the Nickel Plate. The trusteeship was set up throug i an order of the Commission requiring the Baltimore & Ohio and the Ne ... York Central to divest themselves of Wheeling & Lake Erie stock. The Baltimore & Ohio was recently ordered by the Commission to sell its holding in the Western Maryland in an anti-trust decision. Under the Commission's consolidation plan the Wheeling & Lake Erie and the Western Maryland are assigned to the Wabash-Seaboard system. —V. 130, p. 968.

PUBLIC UTILITIES.

Matters Covered in the "Chronicle" of Feb. 8 1930.—(a) Output of electric power in the United States in Dec. 1929 exceeded corresponding month in 1928 by approximately 8%; production in calendar year 1929 exceeded previous year by about 11%, p. 891.

American States Public Service Co.—Subs. Contracts.— The company reports the power load of its subsidiary, the Grimes Pass Power Co. in Idaho, has been increased 40% as the result of five new con-tracts with industrial companies in that territory. The Grimes Pass Co. operates a hydro-electric plant.—V. 130, p. 969.

Columbia Gas & Electric Corp.—Listing etc.— The New York Stock Exchange has authorized the listing of 3.207.950 additional shares of common stock (no par value) upon official notice of issuance thereof as follows: (1) not to exceed 869.783 shares to be issued against the surrender of outstanding subscription receipts of the corporation; and (2) not to exceed 2.338.167 shares to be issued as a stock dividend to the holders of record on Feb. 28 of common stock; making a total of 11.690,-835 shares of common stock listed or authorized to be listed. H. O. Blackwell has been elected a Vice-President. Mr. Blackwell has for some while been President of the Cincinnati Gas & Electric Co, the Union Gas & Electric Co, and some other subsidiaries of the Columbia Gas & Electric Corp. all of which positions he is retaining in addition to his new office.—V. 129, p. 3164.

Commonwealth & Southern Corp.-Merger Plan Approved .-

proved.— Chairman B. C. Cobb on Feb. 10 announced that the stockholders of this corporation, Allied Power & Light Corp. and Penn-Ohio Edison Co. had each approved a plan of merger and consolidation of the Commonwealth &co-Southern Corp., Allied Power & Light Corp. Commonwealth Power Corp., Penn-Ohio Edison Co. and Southeastern Power & Light Co., and had also specifically approved the agreement of merger and consolidation of the three companies incorporated in Delaware, namely: the Commonwealth & South-ern Corp., Allied Power & Light Corp. and Penn-Ohio Edison Co., thus com-pleting the first and most important step in the simplification of the corp-rate structure of the Commonwealth & Southern System. Meetings of the stockholders of the Maine corporations, namely: Com-monwealth Power Corp. and Southeastern Power & Light Co., over 96% of the common stock of which corporations is already owned by the Common-wealth & Southern Corp., will be held later in the week.—V. 130, p. 466.

Empire Corp.—Preferred Dividend No. 2.— The directors have declared a quarterly dividend on the cum. conv. pref. stock, \$3 optional div. series, payable March 1 to holders of record, Feb. 20 1930, at the rate of 1-16th of one share of common stock or, at the option of the holder, 75 cents in cash. An initial dividend at the same rate was paid on Dec. 1 last.—V. 129, p. 3325.

Empire Public Service Corp. -To Consolidate Twelve Subsidiaries in Maryland into One Operating Company.

The corporation has submitted a plan to the Maryland P. S. Commis-sion to consolidate 12 electric subsidiary companies in Maryland. The new corporation to be formed, according to the plan, is to be known as the Maryland Light & Power Co., and will be an operating company. The Commission is expected to render a decision on the proposal which the next two weeks. Commis-nd. The

Commission is expected to render a decision on the property of a next two weeks. The Empire corp., which was formed in August 1929, owns 95% of the class B stock of the Empire Public Service Corp. It isplanned/that the Empire Public Service Corps. holdings of operating companies in North Carolina and Virginia will also be consolidated into a similar company in the near future.—V. 130, p. 971.

European Electric Corp. Ltd. (of Canada).—De-bentures Offered.—Bonbright & Co., Inc., Field, Glore & Co. and Banca Commerciale Italiana Trust Co. are offering \$12,900,000 35-year 6½% gold debentures, series due 1965 (with common stock option warrants) at 100 and int.

(with common stock option warrants) at 100 and int. Option Warrants.—Debentures will be accompanied by option warrants entitling the holder to purchase shares of the class A common stock of the corporation, at the rate of 30 shares for each \$1,000 debenture, as such stock may be constituted at the time of exercise of the rights evidenced by such warrants, at any time on or after April 1 1930, at a price of \$15 in United States currency per share (although in no event less than the par value of such share in Canadian currency at the time of payment). Provision will be made for protection of the warrant privilege in event of a split up of the class A common stock or of the issuance of additional shares thereof as special stock dividends, as more fully defined in the option warrant. Dated Feb. 1 1965. Interest payable A. & F. Principal and int. will be payable in United States gold coin of or equal to the stand-ard of weight and fineness existing on Feb. 1 1960, at the office or agency of the corporation in N. Y. City. Red, all or part at the option of the corporation agrees to pay principal and interest without deduction for any U. S. Federal

Data from Letter of G. Motta, Pres. & Managing Director.

Business.—Corporation with its subsidiary companies constitutes the old-est and one of the largest electric light and power systems in Europe. It was organized in 1884 for the purpose of exploiting the patents of Thomas A. Edison and supplying electric energy to the City of Milan and adjoining territory. From the outset its development has been marked by steady progress and impressive expansion. The corporation is both an operating and a holding company and has ac-quired substantial interests in numerous other electric power companies.

 Missiesinni River Fuel Corp.—New Contracts.—

Management.—This corporation is a part of the Middle West Utilities system.—V. 128, p. 3512. Mississippi River Fuel Corp.—New Contracts.— The corporation has made contracts to supply the entire fuel requirements, aggregating 30,000,000 cubic feet of natural gas a day, for local plants of Owens Illinois Glass Co., Alpha Portland Cement Co., Granite City Steel Co., Aluminum Ore Co., and Pittsburgh Plate Glass Co. Deliveries will start during February and will substantially increase the present output from the 526-mile pipe line recently built from the Louislana gas fields by the Standard Oil Co. of New Jersey, United Gas Co., Electric Bond & Share Co., and other interests, for which the Mississippi River Fuel Corp. is the operating company. Deliveries are expected to exceed 70,000,000 cubic feet a day within a few months.—V. 130, p. 287.

 Public Utility Holding Corp.—Investments Extended.— The proposed transfer by this corporation of the Portland Electric Power Co, to the Central Public Service Corp., as announced last week, is an important step in the extension of the Public Utility Holding Corp.'s investments. In this connection it was stated in circles close to the Public Utility Holding Corp. that upon the transfer of the Portland Electric Power Co. to the Central Public Service System, the holding corporation will have approximately \$10,000,000 in cash. Furthermore, over 23% of the total net earnings of the Central system, after pref, stock dividends, will accrue to the class A and voting common stocks of Central Public Service System to be owned by the Public Utility Holding Corp. since its formation less than six months ago by Harris Forbes-American Founders interests shows considerable progress by the management toward the objec-tives announced at the time of organization. It is revealed that the cor-poration also has holdings in International Power & Paper Co., and is among the largest stockholders of Associated Gas & Electric Co. With plans of the management are stated to be still in a formative stage.— V. 130, p. 974.

Allied Motor Industries, Inc.—1929 Sales.— Net sales of Henney Motor Co., a susbidiary during 1929 totaled \$1,-943,473, compared with \$1,389,450 in 1928 and \$1,622,325 in 1927. The Henney Motor Co., has placed an order with the Lycoming Motor Co. for 400 motors, delivery to begin at once. The order is for the first quarter's requirements of the Henney company which manufactures a special line of motorized hospital and funeral equipment. President John W. Henney said that business was expanding at a satisfactory pace despite the widely-circulated reports that industry, especially in the automotive field, was going through a period of depression.—V. 129, p. 3475.

Allis-Chalmers Mfg. Co.—Record Bookings.— Dr. Charles Albright, a director, states that the company can sell all the tractors it can produce in the current year so that it has primarily a manu-facturing, and not a selling problem on its hands. Orders booked in January amounted to \$4,030,000 against \$3,644,000 for the same month in 1929, a gain of \$386,000. This was the best January business in history. Unfilled orders are up \$200,000, totaling \$12,872,000 as of Jan. 1, and \$13,077,000 on Feb. 1. The company put on 600 more men in January with 9,101 working on Feb. 1, against \$,489 on Jan. 1 and \$,964 in July last, the previous high mark.—V. 130, p. 623.

American Austin Car Co., Inc.—Contracts.— With contracts signed at the trade showing of the cars in Chicago by leading dealers who came to attend the annual Automobile Show there during the week of Jan. 25-Feb. 1 and those signed at New York on the occasion of the National Automobile Show recently, the bantam Austin will go into production this Spring at Butler. Pa., with contracts from dealers and distributors for 55.575 of the new cars, at a total list value of about \$37,000,000, it is officially announced by C. A. Best, General Sales Manager of the company. "These are contracts accepted from dealers of recognized standing and financial responsibility." Mr. Best declared. "In addition we have ap-plications for 60.570 further Austin cars which are still to be acted upon. --V. 130, p. 469.

American Brown Boveri Electric Corp.-Patent Dis-

American Brown Loven 2000 pute Ended.— The corporation on Feb. 10 announced that patent disputes with com-petitors have been settled. The company's statement said: "Agreement has been consummated between the General Electric Co., Westinghouse Electric & Manufacturing Co., the Cooper-Hewitt Electric Co. and the American Brown Boveri Electric Corp. for the interchange of rights and patents of the respective companies relating to mercury are rectifiers.".—V. 129, p. 3169.

American Ice Co. (& Subs.).—Earnings.— Month of December— Net profit after int. but before deprec. & Fed. tax... \$89,896 —V. 130, p. 138. 1928.\$151,022

American Stores Co.—Sales for January.— 27. Days End. 28DaysEnd. Period— Sales. The above figures, presented by the company, cover different periods of time, thus showing a small decrease for the current year, however, average sales for the period in 1930 were \$478,766 per day as compared with \$464,656 per day for the 1929 period.—V. 130, p. 469.

American Woolen Co.—\$500,000 Shawsheen Notes Called. The directors have voted to retire another \$500,000 of the Shawsheen Mills 7% notes due Oct. 1 1931 (see below). This makes a total of \$1,000,-000 of the original \$5,500,000 issue that has been called, \$500,000 having been redeemed late in December. W. H. Dwelly, Treasurer, 1 Federal St., Boston, Mass., will until March 3 receive bids for the sale to the American Woolen Co. of \$500,000 10-year 7% gold notes of Shawsheen Mills at a price not exceeding 100 and interest.—V. 129, p. 3638.

Armour & Co. (III.).—Listing.— The New York Stock Exchange has authorized the listing of 2,000.000 shares of class A common stock (par \$25) and 2,000,000 shares of class B common stock (par \$25), upon official notice of issuance in exchange for listed voting trust certificates.—V. 130, p. 281.

Common stock (par \$20), dps. V. 130, p. 281.
 Armour Fertilizer Works, Inc., Chicago.—Sells Plant.— The Kalbfleisch Corp. of New York City has purchased from the Armour Fertilizer Works, Inc., Chicago, the sulphate of alumina plant and busi-ness of the Jarecki Chemical Co., Cincinnati. No change is contemplated in the operations of the plant. The Isaac Winkler & Bro. Co., Cincin-nati, will continue as selling agents.
 The Kalbfleisch Corp. is affiliated with the American Cyanamid Co. and will doubtless have an intimate connection with the bauxite opera-tions of the latter in consequence of the acquisition by the American Cyanamid Co., of the business of the Superior Chemical Co., Jollet, Ill. Negotiations in this transaction were completed a week or so ago. The Superior Chemical Co. was organized in 1921 by J. W. Block and asso-ciates, after an earlier Block chemical enterprise had been taken over by the Calumet Baking Powder Co., as the Calumet Chemical Co. The Superior, officials of the company, have been added to the directorate of the Cyanamid company.— ("Oil, Paint & Drug Reporter.")—V. 130, p. 138.
 Associated Alloy Steel Co., Inc.—Organized.—

Associated Alloy Steel Co., Inc.—Organized.— Incorporation of the above company was announced on Feb. 11 by M. T. Lothrop. President of the Timken Roller Bearing Co., Severn P. Ker, President of the Sharon Steel Hoop Co., and H. G. Batcheller, Vice-President of the Ludlum Steel Co. Mr. Batcheller is President of the new company. The Associated company will sell exclusively alloy steels designed to re-sist corrosion, heat and wear, and produced by the Timken, Sharon and Ludlum companies. The products include nirosta, nitralloy and stain-less steels. Nirosta and Nitralloy were developed by Fried. Krupp A. G., Essen, Germany.

American Laundry Machinery Corp.—*Plan Approved.* The stockholders on Feb. 11, approved the proposal to authorize the directors to purchase 30,000 shares of the company's stock at market prices, to be bought in the open market for the purpose of resale or allot-ment to employees or others, and for any other purpose of resale or allot-directors may determine. Stockholders also approved of the release of their preemptive rights to participate in purchase of the stock when it is resold. The directors have declared two regular quarterly dividends of \$1 each, payable March 1 and June 1 to holders of record Feb. 19 and May 20, respectively.—V. 129, p. 1915.

American Mfg. Co. (Mass.).—Larger Common Dividend.— The directors have declared four quarterly dividends of 1% on the out-standling \$8,800.000 common stock. par \$100. for the year 1930, placing the issue on a \$4 annual basis against \$3 per share paid in 1929 and \$4 per share paid in 1928. Four regular quarterly dividends of 1¼% were also declared on the preferred stock for 1929. The dividends are payable March 31, July 1, Oct. 1 and Dec. 31 to holders of record March 15, June 15. Sept. 15 and Dec. 15, respectively.—V. 128 p. 1057.

p. 1057. **American Re-Insurance Co.**—New Director.— A. C. Robinson, President of the Peoples Savings & Trust Co., Pitts-burgh, has been elected a director. The directors whose terms expired and who were re-elected are Vincent Cullen (Vice-President of National Surety Co.), Wallace P. Harvey (General Counsel of Fidelity & Deposit (Co.), Charles H. Jacobs (President of Whitney & Kemmerer, Inc.), John L. Kemmerer (Chairman of Board of Whitney & Kemmerer, Inc.), C. Ste-venson Newhall (Vice-President of Pennsylvania Co. for Insurances on Lives & Granting of Annulties), and Mark Wilcox (Vice-President of Bank of North America & Trust Co.)—V. 129, p. 3475.

American Scantic Line.-Interest Acquired by Bertron.

American Scantic Line.—Interest Acquired by Bertron, Griscom & Co., Inc.— S. Reading Bertron, head of the banking house of Bertron, Griscom & Co., Inc., has just concluded negotiations for the acquisition, for his firm and associates, of a substantial interest in the American Scantie Line. Inc.. organized to maintain a regular passenger and freight service between the United States and the Baltic and Scandinavian countries, including Finland. By virtue of a contract with the Polish Government, the Line handles Poland's freight business, through the newly developed port of Odynia. Mr. Bertron has also arranged for an exclusive contract with the Russian Government for the latter's freight business, which has assumed consider-able importance as a result of the steadily growing commerce between Russia and this country. Announcement is also made of arrangements between the Scantic Line and the Am-Derutra Transport Corp., resulting in marked expansion of the Scantic Line which will include the maintenance of weekly direct service from the port of New York to Leningrad and Murmanst. The American Scantic Line is managed by the Moore & McCormack shipping interests who acquired the Line from the United States Shipping Board more than three years ago.

Atlantic Refining Co.—*Extra Dividend.*— The directors declared an extra dividend of 25c. a share in addition to the regular quarterly dividend of 25c. a share, both payable March 15 to holders of record Feb. 21. Like amounts were paid in each of the four quarters of 1929. In Dec. 1928 the company reduced the par value of the stock from \$100 to \$25 and made an initial payment of 25c. a share on the new stock.—V. 129, p. 3170.

Auburn Automobile Co.—January Sales.— January sales were 40% greater than in the corresponding month of 1929, according to Vice-President R. H. Faullener.—V. 130, p. 625.

1929, according to Vice-President R. H. Fanilener.—V. 130, p. 625. Auto-Strop Safety Razor Co., Inc.—New Product.— Chairman H. J. Gaisman states that the new double-edge blade now being exploited under the name of "Probak" is covered by patents granted and issued by the United States and other countries throughout the world. These patents cover an important field in the razor industry. He says: "Probak" is now being marketed throughout this country, Ganada, Eng-land, &c., and not only have the initial orders been most satisfactory, but repeat business is being received in large volume. Probak is owned and marketed by Probak Corp., a wholly-owned subsidiary of the Auto-Strop Safety Razor Co., Inc. —V. 129, p. 2686.

Baldwin Locomotive Works.—January Doorings, Surp-ments, &c.— With shipments of \$2,000,000 In January 1930 against \$500,000 in January 1929, the company started the new year under more favorable conditions than have existed for several years. Bookings in January ap-proximated \$3,000,000, or about \$1,000,000 in excess of shipments, so that unfilled orders were slightly larger on Feb. 1 than at the beginning of the year when they approximated \$24,000,000. Operations are gradu-ally being increased, with plant getting under way in first quarter and reaching a normal rate of operation in second quarter. The plant is now employing around 5,000 men, and this number will be increased in second quarter to around 7,000. Second quarter operations wile be at the highest rate since removal of Philadelphia works to Eddystone was completed, and will therefore give best indication of economies made possible by cen-tralized plant under centralized management. Showing for the full year will be dependent upon business developing in second half of year. (Phila-delphia "Financial News").—V. 130, p. 139.

delphia "Financial News").--V. 130, p. 139. **Basic Commodities Corp.**-Stock Offered.--The com-pany, with offices at 44 Beaver St., N. Y. City, is offering. 700,000 shares common stock (no par value) at \$10 per share. *Capitalization*.--The authorized capital of 700,000 shares represents the only type of capital of the corporation. The shareholders have full voting represent and advanced to the corporation for its necessary and proper expenses and services there have been issued or will be issued 9,763 shares. Transfer Agent, Hibernia Trust Co., New York. Registrar, International Trust Co., New York. Business.--Corporation has been organized in Delaware by F. R. Hender-son and associates, primarlly, to invest in businesses dealing and trading in basic and cssential commodities, or raw materials both domestic and foreign. [Company was incorporated as New York & Republic Corp., but changed name to present title Feb. 11 1930].

The approximate value of commodities, such as rubber, coffee, sugar, cocoa, hides, raw silk, and metals, imported in 1929, according to the U. S. Department of Commerce was \$1,500,000,000. The corporation's charter permits participation in syndicates, underwritings and other financial operations. It is believed, however, that a very unusual opportunity presents itself in participating in a field where development is inevitable and values are in many cases below production costs. For many years private capital has dominated these important markets, and public participation has been limited almost entirely to unintelligent speculation. The corporation has organized a thoroughly scientific research department competent to ascertain commodity values. Management.—The management will be under the direction of President., R. Henderson (Pres. of the Rubber Exchange of New York) member of the Board of Governors of the National Raw Silk Exchange, New York Hide Exchange, National Metal Exchange; and Pres. of F. R. Henderson Corporation. An advisory board will asist in determining the investment policy with regard to bank stocks and other investment securities. Corporation will start in business with cash and without commitments.

-V. 130, p. 626. Burroughs Adding Machine Co.—Larger Dividend.— The directors have declared a quarterly dividend of 25 cents per share, payable March 5, to holders of record Feb. 11. In each of the two previous quarters a reuglar distribu-tion of 20 cents per share was made. A special dividend of \$1 per share was paid Oct. 19 1929. Prior to the recent 5-for-1 split-up, the company paid 75c. per share quarterly, and, in addition, special distributions from time to time. The last special dividend on the did shares was \$2 per share paid Feb. 11 1929 on the old capital stock (V. 128, p. 562).-V. 129, p. 2540. (F. T.) Burrowes Co.—Plant Sold for Targes —

(E. T.) Burrowes Co.—*Plant Sold for Taxes.*— The plant of the company, manufacturers of screens and billiard, pool and card tables, was purchased Feb. 3 by the City of Portland, Me., at public auction for recovery of taxes.

Bush Service Corp.—Subscriptions.— See Bush Terminal Co. below.—V. 130, p. 978.
Bush Terminal Co.—Rights, &c.—To Increase Cash Dividend to \$2.50 per Share and Discontinue Stock Dividends.— Merges Foreign Subsidiaries into One Company.— The directors have decided upon a policy to increase the cash dividend, states President Irving T. Bush in a letter to stockholders.
In connection with the organization of the Bush Service Corp. 1st prev. The providends of the provideo of subscripting, at \$100 per share of a proportioned number of shares of Bush Service Corp. 1st prev. The base of the privilege of subscripting, at \$100 per share of the guard states of the subscripting at \$100 per share of the subscripting at \$100 per share of the privilege of subscripting, at \$100 per share of the provideo of subscripting, at \$100 per share of the appropriate trained to \$100 per share of the subscription of common stock of \$15 will be lassied to the Bush Terminal Co. and 49% to others associated in the enterprise. There are \$250.000 shares of common stock of no par value." states Mr. Bush. "Term and Do, and 49% to others associated in the enterprise. There are \$250.000 par value is now offered."
"All of the common stock of Bush Service Corp. Is being placed in a yording trade for others. No trading commitments of any kind are involved, as no buying or selling for account of the company is ordinated with a state structer, on the source of establishment in 10 others. No trading commitments of any kind are involved, as no buying or selling for account of the source, took the form of a businest of the company is of the company is of the subscription of the subscription division, through all of the companies are to focal experience and knowledge of local conditions of a subscription division, through all of the set of the subscription division, through all of additional companies are the estillation of the Bush Service Corp. and the best of local experience and knowledge of local conditions of \$1000

Application will be made to list the 1st preferred stock on the New York Stock Exchange. The Committee on Securities of the New York Stock Ex-change has issued the following statement: Notice having been received from the Bush Terminal Co. and the Bush Terminal Buildings Co. of an offer made personally and individually by the president of the Bush Terminal Co. of a non-assignable right to all stock-holders of record Jan. 31 1930, to subscribe for 1st pref. stock of the Bush Service Corp. to the extent of one share accompanies by one share of common stock represented by voting trust certificates at \$100 for each 10 shares of stock held, with the privilege of subscribing for additional stock subject to allotment, in the maximum of one share accompanied by one share of common stock represented by voting trust certificates, at \$110 for each 5 shares of stock held. The Committee on Securities is of the opinion that the Bush Terminal Co. 7% debenture stock and common stock and Bush Terminal Building Co. 7% preferred stock purchased prior to Jan. 31 1930, carried with it the rights, and stock purchased on and after that date did not carry the rights. Upon proper statement of ownership to the company warrant records will be modified to provide that actual owners of stock may subscribe and outstanding loans should be settled accordingly. Right to subscribe expires Feb. 15 1930.—V. 130, p. 626.

Caterpillar Tractor Co.—Extra Dividend.— The directors have declared an extra dividend of 25c. per share in ad-dition to the regular quarterly dividend of 75c. per share, both payable on or before March 15 to holders of record Feb. 15. During 1929 four quarterly dividends of 75c. per share were paid. President R. C. Force, Feb. 4, said in part: Heretofore the patents asset of your company has been carried on its books in the amount of \$278,308. In the opinion of the board of directors a very much greater, though problematical, value attaches to not only the patents but to the trademarks, good-will, &c., owned and enjoyed by the company. Being unwilling to hazard an appraisement of the value of these important assets, it has been decided to carry them combined in the sum of \$1, as shown on the balance sheet of Dec. 31 1929. Earns. Chicago Investors' Corp.-Report.-

Chicago Investors' Corp.—Report.— Ralph A. Bard, President, says in part: The unprecedented deflation in security prices which took place during the latter months of 1929 not only adversely affected the corporation's operating profits, but also resulted in a very substantial depreciation in the market value of investments owned at the end of the year. Directors feel that this inventory depreciation, although not necessarily a permanent loss, should be charged off as such. In the accompanying balance sheet, therefore, securities are valued at cost or market, whichever is lower, and the profit and loss account reflects their depreciation in market value as an actual loss, changing an operating profit of \$1,212,405 to a net loss for the year of \$2,937,828. It should be noted that as a result of this method of accounting, securities are carried on the balance sheet at a figure \$156,504 less than their market value Dec. 31 1299, as shown on the list of securities owned. As of Dec. 31 1929, after giving effect to the purchase of the total of \$0,000 shares of convertible preference stock the net market value of the share on the convertible preference stock the net market value of the share on the convertible preference stock now outstanding. On Jan. 27 1930, the net market value of the corporation's assets was more than \$500,000 in excess of the value shown in the accompanying Dec. 31 1929 balance sheet.

Federal Securities Corp., N. Y.—Recent Consolidation.— See Central-Illinois Co. above.—V. 127, p. 3404.

See Central-Illinois Co. above.—V. 127, p. 3404. Federated Capital Corp.—Increases Dividend.— The directors have declared a quarterly cash disbursement of 20 cents a share on the \$5 par value common stock, in addition to the stock dividend which is being paid at a rate of 4% per annum. The directors also voted a regular quarterly dividend of 37½ cents per share on the \$25 par value pref. stock. The increased cash dividend rate on the common stock places it on an annual basis of 80 cents per share, as compared with the former annual rate of 75 cents per share, and is equivalent of 16% on the \$5 par value common stock.

The preferred and common stock dividends are payable Feb. 28 to holders of record Feb. 15.---V. 129, p. 3641. Feldspar Glass, Ltd., Oshawa, Ont., Canada.-To

Reorganize.

Reorganize.— The reorganization of the capital structure of this company is to take place almost immediately, the shareholders already having given their consent to the plan formulated by the directorate. Simultaneously the name of the organization will be changed to that of the National Glass Co. Feldspar Glass, Ltd., which was formed about five years ago to develop a new process of glass making, has a total capitalization of \$1.000.000, divided into 100.000 shares of 8% pref. stock and 900.000 shares of com. stock, both of them of \$1 par value. All of this stock is held by somewhat over 800 shareholders in various parts of the Dominion of Canada, but chiefly in the province of Ontario. The head office of the company is in the Royal Bank Building, Toronto, and W. J. McCallum is President. It is proposed that the National Glass Co. shall have a total capitaliza-tion of 3.000,000 class B. The class A shares will be preferred as to divs. to the extent of 20 cents per annum, payable quarterly, and will have one vote for each 10 of class B. After the class B shares have obtained a dividend of 20 cents per annum, both classes of stock will share equally in any further division of profits. In making the exchange proposed one share of class A stock will be given for every share held in the existing company, plus a bonus of 10% in stock. Fractional shares are to be adjusted at the rate of 8% from Jan. 1 1927. The plant at Oshawa. Ont., has just been placed in operation. (Toronto "Financial Post.") Fidelity Investment Association.—New Directors.—

Fidelity Investment Association.—New Directors.— Floyd B. Odlum (Vice/President and director of the Electric Bond & Share Co. and Vice-Chairman and director of the American Foreign Power Co.) and Harry M. Durning (member of the firm of Moore & Schley and a director of many corporations) have been elected directors.—V. 129, p. 3806. 129

issue. Sinking Fund.—In accordance with the provisions of the trust indenture, \$595,000 of the certificates are to be retired prior to maturity. See also V. 129, p. 483.

First Industrial Bankers, Inc.—Pref. Stock Offered. —August Belmont & Co., New York, are offering 89,000 shares participating preference stock (no par value) at a price to yield 7%. Stock is non-callable.

to yield 7%. Stock is non-callable. Entitled to preferential cum. divs. at rate of \$2 per share per annum, payable Q.-F., after which out of the remaining surplus equal additional divs. may be declared on the partic, pref. stock and the com. stock, class for class, until such additional divs. on the partic, pref. stock shall equal \$1 per share; any further divs. are payable by classes, 40% to the partic, pref. stock, and 60% to the com. stock. Entitled to \$33.50 per share and dividends in dissolution. Transfer agent, Fidelity Trust Co. of New York. Registrar, Guaranty Capitalisation—

share of old stock for two shares of the new.) Data from Letter of Wallace Groves, Pres. of the Company. Company.—Incorp. in Jan. 1929, in Delaware and acquired substantially all of the assets of six small loan businesses. Subsequently the company acquired or opened additional branches and is now operating a total of 24 offices, located in Penna., Md., Va., La. and Iowa, having outstanding as of Jan. 31 1930, 17,610 loans totaling \$1,942,449. The business of company consists of lending money to individuals in amounts not exceeding \$300.

Operations are confined to States which have enacted the "Uniform Small Loan Law" and are conducted under strict State supervision. Because of the small size of the average loan and consequent high unit cost of overhead, one of the principal endeavors has been the constant reduction of expense. Through the use of specially designed posting and computing machines, whereby manual entries in receiving payments and keeping office records have been eliminated, a high degree of efficiency in this respect has been reached.

whereby manual entries in receiving payments and keeping office records have been eliminated, a high degree of efficiency in this respect has been reached. Uniform Small Loan Law.—It has been estimated that over 80% of the families of this country are without ordinary bank credit. Realizing the economic necessity of meeting the requirements of such a large majority of the population, the Russell Sage Foundation has made an exhaustive study of credit conditions as they affect small borrowers. It has recommended remedial legislation, designed both to protect the borrowers, and at the same time to make capital available through providing for an adequate return thereon. Legislation of this character, commonly termed the "Uniform Small Loan Law," has been enacted by 22 States. In their practical application these laws succeed in preventing the un-scrupulous from capitalizing on the necessity of individuals of limited means. Such laws provide in general that licensed lenders, operating under strict State supervision, may lend not more than \$300 to any one person. The maximum interest rate is 3½% monthly on unpaid balances and may not be compounded. No deductions or commissions are allowed, and fees may be charged only for the amount actually paid out by the lender in recording security for the loan. Loans may be repaid by the borrower at any time before maturity. Lenders are required to keep uniform records which are at all times subject to inspection by the State banking departments. *Purpose.*—Proceeds will be applied towards the redemption of \$1,000,000 7% collateral truits notes and towards additional working capital. *Earnings.*—Of the company's 24 offices on a profitable basis, a substantial portion of the earnings of the older offices nas necessarily been doffices and to the organization of the company. At the end of its first year of operation all of the offices of the company. At the end of on shares of partic. preference stock has been ratified by the stockholders. *Directors.*—Morgan Belmont (Ausust

FitzSimons & Connell Dredge & Dock Co.—Director.-F. H. Camphausen has been elected to fill a vacancy.—V. 130, p. 981.

Formica Insulation Co.—Larger Quarterly Dividend.— The directors have declared a dividend of \$2 per share for the year 1930 payable quarterly April 1 July 1 Oct. 1, 1930 and Jan. 1 1931, to holders of record March 15, June 15, Sept. 15 and Dec. 15, 1930, respectively. For the year 1929 the company paid four regular quarterly dividends of 35c. each and extras amounting to \$1.20 per share.—V. 129, p. 3807.

Fox Film Corp.—Financing Put to Stockholders—Will Vote \$65,000,000 Issues and Probably Other Plans Urged for

on \$65,000,000 Issues and Probably Other Plans Urged for Film Company.— Stockholders of the Fox Film Corp. and the Fox Theatres Co. will have aniopportunity to express their opinion on the refinancing proposal involv-the issuance of \$65,000,000 in new stock and debentures and possibly on one or more alternative financing plans. Judge Frank J. Caleman in Federal Court Feb. 13 adjourned argument on an order to show cause why a receiver should not be appointed until after the stockholders have voted on the refinancing. This will probably be at least two we ks, since stockholders must have 10 days notice of the meeting. The New York "Times" in reporting the matter had the following to say: Conflicting viewpoints boiled to the surface during argument which did little to advance the solution of the difficulties in which the company

<text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text>

directed Roberted T. Swain, attorney for the bankers, to make available all information auditors had obtained and which had been used in working out their plan.
 Further details of the financing plan, as outlined in the "Wall Street Journal," follow:
 The financing provides for the issuance of \$40,000,000 7% debenture bonds with warrants attached, which give holders the right to subscribe to 25 shares of common stock during the first 3 years at \$20 a share, the follow:
 The financing provides for the third years at \$30 a share. These debentures will be redeemable at \$110 for the first period, \$107.50 for the second period and \$105 for the third period.
 Plan also provides for the the redeemable at \$110 a share, the follow: The remaining \$25,000,000 of financing would be in 7% cumulative preferred stock, convertible into common at \$20 a share during the first 5 years and at \$25 thereafter. The preferred is redeemable at \$110 a share. The bankers' commission will consist of 135,000 shares of common stock. plus the usual 9% underwriting commission and in addition 65,000 shares of took for the syndicate in commetion with the \$65,000,000 financing. The voting trust agreement is to last for 10 years, under which the class B stock will be deposited. The plan also provides for an arbitration committee to setule differences between Fox and the bankers.
 Mr. Untermyer stated that the \$65,000,000 of mane size of the Gaumont Theatres properties in England.
 To Theatres Corp. will be as the amount owing on the purchase of the Gaumont Theatres properties in backard. Fox Film dop 100,000 additional which will be advanced by Fox Film and about \$18, 000,000 additional which will be downed for Fox Film and about \$18, 000,000 additional which will be downed for Fox Film and about \$18, 000,000 additional which will be advanced by fox Film and about \$18, 000,000 additional which will be downer the to these debentures at par for one year. The debent

\$32,000,000 underlying securities of the Theatest Corp. Customers. Under the new plan, \$40,000,000 would be added to the obligations of the Theatres company, without underwriting by the bankers. Halsey, Stuart & Co. were asked to turn over control without any provisions being made for their interest, according to Halsey, Stuart & Co. attorney. He said, there-fore that his clients were not ready to say that they would give up their position.—V. 130, p. 806.

(H. H.) Franklin Mfg. Co.—Deliveries Higher.— More Franklin cars were delivered at retail by dealers during the month of January 1930, than during the corresponding month last year and the gain over 1929 figures has been maintained to date in the current month. President H. H. Franklin stated. Orders from customers to the present week of the current month are 35% ahead of orders received during a similar period in January. Mr. Franklin said. Retail orders on dealers' books for later delivery are 26% ahead of the figure reported one month ago.—V. 129, p. 3972.

(George A.) Fuller Co. of Canada, Ltd.—Participating Preferred Dividend.— The directors have declared a participating dividend of \$4.79 per share out of residuary net profits for the eight months ended Dec. 31 1929, on the 6% cum. guaranteed and participating preferred stock of \$100 par value,

First National Stores, Inc. January Sales. 4 Weeks Ended Jan. 25 1930. 1929. Sales \$8,496,665 \$6,124,617 -V. 130, p. 295. \$25. \$3.496,665

payable Aug. 1 to holders of record July 15. The total dividend received by preference shareholders for the year ended April 30 1929 amounted to \$10.38 (incl. partic. div. of \$4.38). The company recently changed its fiscal year to end Dec. 31.--V. 129, p. 136.

General Asphalt Co.—Board Increased.— John S. Skelly of Monongahela, Pa., has been elected a director, increasing the membership on the board from eight to nine.—V. 129, p. 3331.

Gillette Safety Razor Co.—No Delay in Output.— Frank J. Fahey, Vice-President and General Manager, states in con-nection with rumors that there is no delay or postponement in production schedule and that razors and blades will be distributed between Feb. 15 and March 1 in increasing volume, reaching a total of 80,000 razors and 2,700,000 blades each day by March 1. This means that the goods will be in the hands of the distributors so as to make effective the advertising which is being released during the first week of March.—V. 130, p. 295.

which is being released during the first week of March.-V. 130, p. 295.
Gilmore Oil Co. Ltd., Los Angeles.-Rights-Earnings. Vice-President C. S. Beesemyer, Jan. 30, said in substance: The market for Glimore products is increasing and this is particularly true of Glimore Blu-Green gasoline. At the present time we are building a wholesale unit in San Francisco, which we expect to have completed by Mar. 1 1930. We are also erecting storage and distributing facilities in Seattle. Portland, and Tacoma, to take care of the "Great Northwest." Possibilities for a substantial business in this area are most encouraging. During the first 8 months of this fiscal year the company earned \$471,479, or \$2.50 per share. Including the portion of undistributed earnings of affiliated corporations, the net earnings for the first 8 months of this fiscal year were \$665,947, or \$3.53 per share. The stockholders are again being offered the privilege of acquiring a small amount of stock in the company at \$12 per share. We have received a new permit from the Corporation Commissioner to sell 4,739 shares of stock at \$12 per share for cash. This stock will be sold to stockholders of record Jan. 15 1930, on the basis of one share for each 40 shares owned on the above date. No fractional shares will be issued. The permit for additional shares remained open until Feb. 10 1930.--V. 130, p. 295.
(S. M.) Goldberg Stores, Inc.-Initial Common Dividend.

(S. M.) Goldberg Stores, Inc.—Initial Common Dividend. The directors on Feb. 7 announced that the common stock had been placed on a \$1 annual basis through the declaration of a regular quarterly dividend of 25 cents a share. pyaable March 15 to holders of record Feb. 28. The regular quarterly dividend of \$1.75 a share on the \$7 cumul. pref. stock was declared, payable June 16 to holders of record May 31. The board also voted that a second quarterly distribution of 25 cents a share on the common stock be paid June 16 to holders of record May 31. —V. 128, p. 2100.

Goldman Sachs Trading Corp.—Not Interested in Offer. With reference to the offer made to stockholders of the International Germanic Cor. Ltd. to exchange their stock for stock of the Goldman Sachs Trading Corp. officers of the Goldman Sachs Trading Corp. announce that the Goldman Sachs Trading Corp. is neither directly nor indirectly inter-ested in this offer and the same is not being made by or on behalf of the Goldman Sachs Trading Corp.—V. 130, p. 808.

Goodyear Tire & Rubber Co.-Control Reported in Eaton-Otis Group.-

According to press reports control of the company is believed to have passed definitely to Cyrus E. Eaton-Otis & Co. interests. Dillon, Read & Co., bankers since reorganization in 1921 and dominant in company's affairs prior to dissolution of voting trust in spring of 1927. have been gradually withdrawing from active interest in the management and at present make no pretence of controlling company.—V. 129, p. 3175.

Gosnold Mills Corp.—*Initial Preferred Dividend.*— The directors have declared an initial quarterly dividend of \$1.50 per share on the pref. stock, payable Feb. 15 to holders of record Feb. 5.— V. 129, p. 1598, 973.

Gotham Silk Hosiery Co., Inc.—To Decrease Pref. Stock. The stockholders at the annual meeting to be held on March 3 will be asked to approve the retirement of 5,731 shares of preferred stock, now held in the company's treasury.—V. 130, p. 142.

Great Western Sugar Co.—Suit Dismissed.— The Government's suit against the company, charging an attempt to restrain inter-State commerce by a "price war" has been dismissed by Federal Judge Woodrough, according to an Omaha dispatch. The reason for sustaining the demurrer of the company was that the suit had not been filed until after the three-year statutory limit had expired, and that there was no proof of any conspiracy having originated in Nebraska.—V. 128, p. 4166.

Greyhound Corp.—Earnings for January.— Month of January— Gross pass. rev. between Chicago and New York._ 9407,517 —V. 130, p. 983. 1929. \$325,643

-v. 130, p. 983. **Grigsby-Grunow Co.**—*Suit.*— The "Wall Street Journal" says: The existence of a suit for \$2,777.500, with interest from Oct. 2, against the company was made known when papers in the action were transferred from the Supreme Court of New York County to the United States District Court. The plaintiffs are Sulzbacher, Granger & Co., brokers, 120 Broadway, who asked the amount sued for in connection with services allegedly rendered from April 1 to Oct. 2 1929, in connection with the promotion of an English corporation to be affiliated with the defendant company. These services included the procurement of underwriters for the proposed company in return for which the plaintiff was to have obtained certain rights and 5% of what Grigsby-Grunow Co. should receive. The plaintiffs ask \$15,000 for ex-penses incurred and the remainder for services rendered. After details of the promotion whe completed and the plaintiff offered to underwrite the capitalization the defendants refused to give their con-sent, the complaint charges.—V. 130, p. 809. Curlt States Stael Co.—Denvise Sale of Company.—

sent, the complaint charges.—V. 130, p. 809. **Gulf States Steel Co.**—Denies Sale of Company.— Reports that the Republic Steel Corp. Interests have purchased control of the company were denied by W. H. Coverdale, President, according to Associated Press and other dispatches from Birmingham, Ala. Mr. Coverdale, it was reported, estimated that 20% of the stock might have been purchased. There are 20,000 shares of 7% cum. 1st pref. and 197,500 shares of common, with equal voting rights. "There has been a suggestion of a merger with Republic," he said, the by-laws provide that only three new directors are to be elected each year, and it would take at least three years for a new board to transfer considering nucleation, Mr. Coverdale was quoted as source to been considering nucleation.

control." American Rolling Mill Co., Mr. Coverdale was quoted as saying, has been considering purchasing control but no sale is in sight as far as he could see. Guif States is licensed under patents of American Rolling Mill and produces ingots for the latter.—V. 130, p. 631.

and produces ingots for the latter. --V. 130, p. 631.
 Hadley Mills, South Hadley, Mass. --Bankruptcy. -- The company, manufacturers of worsted fabrics, has filed voluntary petition in bankruptcy in Federal Court, Boston, giving assets at \$280,581 and liabilities \$212,093, all unsecured. Assets, it is stated, consist chiefly of real estate, without encumbrances, valued at \$201,150 and equipment valued at \$50,000. Principal creditors are: C. Fayette Smith, Holyoke, \$85,160 for salary and money loaned; Hadley Falls Trust Co., \$30,792 loaned, and Gurin Mills, Inc., of Woonsocket, \$37,894 for merchandise. The bankruptcy petition came as the result of a vote of stockholders on Jan. 22, declaring that in view of a lawsuit and attachment of property by Gurin Mills, and the fact that the company's assets were tied up, and

it was unable to meet post due obligations, it was decided to take advantage of the bankruptcy laws to give all creditors equal protection.

Hamilton-Brown Shoe Co.—New Director.— D. E. Spatbelf has been elected a director succeeding Charles E. Ross. 128, p. 1064. V

Harbison-Walker Refractories Co.—Extra Dividend.— The directors have declared an extra dividend of 25c. per share in addition to the regular quarterly dividend of 50c. per share on the no par com.
 stock, payable March 1 to holders of record Feb. 20. Like amounts were paid on Dec. 2 last. Quarterly dividends of 50c. per share were paid on the common stock from Dec. 1 1928 to Aug. 31 1929, inclusive.
 The directors also declared the regular quarterly dividend of 1½% on the preferred stock, payable April 19 to holders of record April 9.—V.

Hollywood Beach Hotel, Florida.—Sale.— Mercantile Investment & Holding Co. has bought Hollywood Beach Hotel property for \$536,000 at a special master's sale, ordered to satisfy a mortgage held against the property by the company.

Hudson Motor Car Co.—January Shipments.— The company announces the shipment of 18,948 Hudson and Essex cars in January. This is a marked pickup in activity from the closing months of 1929 and though below the record of January a year ago, is in line with the shipping schedule which the company laid out for itself the first of the year. it is announced.—V. 130. p. 983

Insuranshares Certificates, Inc.—Initial Dividend.— The directors have declared an initial dividend of 15 cents per share on the capital stock, payable March 15 to holders of record Feb. 28.—V. 129, p. 3483.

International Combustion Engineering Corp.—Re-organization Committee.— At the request of preferred and common stockholders and creditors, a new committee has been fromed for the purpose of preparing a plan of reorganization. The plan, when completed, will be submitted to the preferred and common stockholders and the creditors for their approval. The committee is composed of the following: E. W. Stetson (Vice-Pres. Guaranty Trust Co.) Chairman; J. N. Darrow (of Otis & Co.); George L. Bourne (Chairman of Superheater Co.); R. C. McMath (Vice-Pres. of Bethlehem Steel Corp.); Charles Hayden (Hayden, Stone)& Co.), and L. N. Amster. George W. Grove is Secretary, and White & Chase, Counsel. —V. 130, p. 632.

International Germanic Co., Ltd.—Offer Extended.— The company recently announced that its stock exchange offer, scheduled to expire at noon on Feb. 8, had been extended to Friday, Feb. 14, at 3 p. m. The plan, which alms at the company's liquidation, invited preferred stock-holders to turn in their stock in the limited company for stock of Goldman Sachs Trading Corp. in the ratio of one share of Goldman Sachs for every two shares of International stock held.—V. 129, p. 4147.

International Standard Electric Corp.—Acquisitions. This corporation, the manufacturing subsidiary of the International Telephone & Telegraph Corp. has purchased control of the Oesterreichischen

Telephonfabrik Aktiengesellschaft vormals J. Berliner, located in Vienna, and of H. Telephonfabrik Berliner Aktiengesellschaft in Berlin, according to advices received on Feb. 10 at International headquarters, 67 Broad St., N. Y. City. The former company is engaged in the manufacture of telephonic ap-paratus and equipment primarily for the Austrian Government, which operates the telephones and telegraphs in Austria. The latter purchase was made by the International Standard Electric Corp. through its associated company in German, Standard Electricitats Gesellschaft. The newly acquired firm has a factory in Berlin where elephone apparatus and equipment for the German Government telephone administration is manufactured. Associated with the International Stand-ard Electric in its German business are the firms of E. Allgemeine Elek-trizitats Gesellschaft and Felton and Guilleaume, two of the largest elec-trical manufacturing companies in Germany. -V. 129, p. 137.

trical manufacturing companies in Germany. --V. 129, p. 137. International Superpower Corp. --Liquidating Value \$47. The liquidating value of corporation's stock on Feb. 8 1930 was \$45.83 per share, as compared with \$40.58 on Dec. 31 1929, according to an an-nouncement made by Calvin Bullock, supplementing the annual report recently released. The major part of the corporation's funds is invested in stocks of domestic utility companies. On Feb. 8 the assets, with securities taken at closing market prices, amounted to \$12,152,458 which compares with \$11,016,775 at the end of 1929. During the fall decline in security markets the company bought for retrement, below liquidating value, 24,900 shares of fits capital stock, of which 2,200 shares remained uncancelled on Dec. 31. The current liquidating value of around \$47 is considerable above the current market price. --V. 129, p. 4147.

 Iron Asphalt Corp. of America.—Formed.— Organization of this corporation to manufacture and distribute nationally a new patented product for use in the paving, building and construction industries, is announced by H. M. Cross, President of the company. Capi-talization consists of an authorized issue of 400,000 shares of no par class A 7% participating preference non-voting stock, of which 100,000 shares will shortly be outstanding, and 100,000 shares of class B common voting stock.
 Company's engineers it is stated, have perfected a new process for making an ingredient known as "Iron Asphalt" which eliminates the voids and pores in asphalt mistures and thus prevents cracking and ultimate dis-integration. This product is particularly desirable for use in paving, piers, platforms and factory floors, according to officials.
 Besides Mr. Cross and Mr. Dervoe hold similar positions with The U. S. Waterproofing Co.
 According to the announcement, a new plant will be built in Chicago soon forfmanufacturing "Iron Asphalt." It is expected that financing to provide funds for contruction of this plant will be undertaken shortly by a syndicate of New York bankers.

(Byron) Jackson Pump Co.—2% Stock Dividend.— The directors on Feb. 8 declared a 2% stock dividend on the outstanding common stock, no par value, payable March 1 to holders of record Feb. 15. During 1929, four quarterly cash dividends of 50 cents per share and a 100% stock distribution were made on this issue.—V. 130, p. 633.

JOU% stock distribution were made on this issue.—V. 130, p. 633. Jantzen Knitting Mills.—To Build New Plant.— The company has purchased a tract of 6½ acres of land in London, England, upon which it will establish a new factory for the purpose of supplying the European markets with the company's products, Asst. Sec. Irwin S. Adams announced. John R. Dodson, Vice-President, will sail for England in March to supervise construction of the new factory, which will have an area of 22,500 sq. ft. of floor space. Production is expected to be under way by the close of 1930, enabling the company to make de-liveries of its products for the 1931 season.—V. 129, p. 3974.

Virginia Firm.— A certificate of domestication has been issued to Johnson & Johnson, a New Jersey corporation, with principal office in Virginia at Richmond, with E. C. Toone, agent in charge of business, to manufacture and deal in drugs, chemicals, physicians' and surgeons' supplies. Maximum capital is \$8,200,000.—V. 119, p. 2769.

International Arbitrage Corp.—Extra Dividend in Stock. The corporation has declared an extra dividend of 6%, payable in com. stock, in addition to the regular quarterly cash dividend of 2% on the common stock, both payable March 1 to holders of record Feb. 20 1930. —V. 129, p. 3333.

-V. 129, p. 3333.
(Julius) Kayser & Co.—New Melbourne Plant.— The company will place their new Melbourne, Australia, plant in opera-tion early in May, it was announced this week.
The Melbourne plant is being established in conjunction with the Aus-ralian Knitting Mills of Melbourne, licensees for the manufacture of Kayser silk underwear in that country, and L. & E. Marks & Saulwick Pty., Ltd., sales agents for the Kayser company in Australia and the Orient. Control of the Australian project will be in the hands of Julius Kayser & Co. (Australia), Ltd., subsidiary of the American company. Initial production of the Melbourne plant will be 1,000 dozen pairs of full-fashioned silk hosiery per week, with the factory constructed to permit of the doubling of this output after operations have been started.
Establishment of manufacturing operations in Australia will add sub-tantially to the company's export sales and earnings. The Australian plant was decided upon following the imposition of a prohibitive import duty on silk hosiery business in that country.-V. 130, p. 633.

Kroger Grocery & Baking Co.—Sales Increase.— The company reports sales of \$24,482,571 for the four weeks and four days ending Feb. 1 1930 as compared with sales of \$23,943,804 for the like period in 1929 This is an increase of 2.25%, while the 5,527 stores in operation on Feb. 1 1930 represents an increase of 0.9% over the number of stores in operation Feb. 1 1929. The increase in sales for January, the management points out, was accomplished not only in the face of a smaller increase in the number of stores in operation, but also with a reduction of approximately 5% in the retail price of commodities over the 1929 period. —V. 130, p. 297, 144.

Lackawanna Mills.—*Receiver.*— A Scranton, Pa., despatch says that Judge George W. Maxey of the ckawanna County Court appointed Fred K. Lengler of Scranton as

temporary receiver. The receivership was requested in a petition presented to the Court by the Dime Bank Lincoln Trust Co. of Scranton, which holds notes amounting to approximately \$75,000.--V. 94, p. 915.

Laconia Car Co.—Liquidating Dividend.— The directors have voted a dividend in partial liquidation of \$15 per share on the 1st pref. stock to stockholders upon presentation of their certificates for endorsement at the First National Bank of Boston, transfer department. —V. 130, p. 144.

Lambert Co.—To Reorganize . See Pro-phy-lac-tic Brush Co. below.-To Reorganize Pro-phy-lac-tic Co.-Brush Co. below.-V. 130, p. 812.

See Pro-phy-lac-tic Brush Co. below. -V. 130, p. 812. Leighton Industries, Inc. - To Decrease Dividend. --To facilitate an expansion program and at the same time maintain an ample working-capital position, the directors will reduce the usual \$1 annual dividend on the class B stock to 50 cents and the management, which hol is 40,000 shares of the 117,000 outstanding, will temporarily accept class O non-dividend-paying stock for their holdings, which will be convertible back to B stock after certain stipulations have been complied with, according to a letter to the stockholders. The dividend on the A stock is unaffected. The letter stated that earnings in 1929 applicable to the class A stock amounted to \$228,800, against dividend requirements of \$87,000. This leaves a balance for the B stock of \$141,800, on which the \$1 per share dividend on the total 117,000 shares outstanding would amount to \$117,000. Los Angeles "Times". --V. 127, p. 962.

Libbey-Owens Glass Co.-New Member of Executive

Committee.— F. E. Notebaert has been elected a member of the executive committee. —V. 130, p. 812.

Lion Oil Refining Co.—Outlook.— The company is facing the best year in its history, according to Col. T. H. Barton, President. The company has increased its production, improved its refinery and now has retail distribution covering practically the entire Southwest.—V. 130, p. 984.

Mesta Machine Co.—10c. Dividend.— The directors have declared an extra dividend of 10c. a share and an initial quarterly dividend of 40c. a share on the new capital stock, payable April 1 to holders of record March 15. This is equivalent to \$16 a share annually on the old stock, which received a quarterly of \$3 a share and an extra of \$1 a share on Jan. 1 last (prior to the 10-for-1 split-up).—V. 130, 208 extra e p. 298

Midland Steel Products Co.-Recapitalization Plan Approved .-

A pproved.— The stockholders have approved the plan of recapitalization for the com-pany which provides for the retirement of the present participating pre-ferred and common stocks and the issuance of three new classes of shares. Fully 77% of both classes of the present outstanding stock was represented at the meeting, it was stated by President E. J. Kulas. For each share of the participating preferred stock will be exchanged one share of the new 8% cumul. pref. stock and two of the new common and for each of the common shares will be given two shares of the new 8% cumul. pref. shares and one of the new common stock. The stock must be exchanged by March 25. The directors have author-ized an application to list the new stock on the New York Stock Exchange. After the exchanges there will be outstanding 96,930 shares of the new 8% cumul. pref. stock, 96,930 of the new \$2 mon-cumul and 242,325 of the new 8% cumul. pref. stock, 96,930 of the new \$2 mon-cumul and 242,325 of the new 8% cumul. pref. stock. Motor Bankers Corp.—New Vice-President.— George C. Booth has been elected Vice-President to fill the place of ranklin Robbins who was recently made President.—V. 130, p. 986.

Motor Wheel Corp.—75c. Dividend.— The directors have declared a quarterly dividend of 75c. a share on the common stock, no par value, payable Mar. 10 to holders of record Feb. 20. A dividend of the same amount was paid three months ago when the rate was changed from \$1 a share. See also V. 129, p. 3178.

(G. C.) Murphy Co.-20% Stock Dividend, &c.-The directors have declared a 20% stock dividend on the common stock payable on Feb. 18 to holders of record as of the same date. At the same time the directors declared a quarterly dividend of 40 cents a share, payable March 1 to holders of record Feb. 19, the cash dividend therefore applying to the extra 20% distributed in the form of a stock dividend. J. F. Mack has been elected Chairman of the board, as well as President, and W. C. Shaw has been elected General Manager.-V. 130, p. 986.

National American Co., Inc.—Plans to Liquidate.— The stockholders will vote on March 12 on a proposal to liquidate this company. It is a holding and management company, established in 1927 to take over the assets of a concern of the same name and the Realty Founda-tion Co. as well as two mortgage organizations. At one time it dealt actively in the securities of local banks and trust companies, obtaining and disposing of what were believed to be controlling interests in several cases.

According to what were concrete to be controlling interests in several According to the liquidation plan, the National American Co. will sell to the State Title & Mortgage Co. a block of 99,000 shares of the General Surety Co. which it holds, receiving one share of State Title & Mortgage stock for every two shares of General Surety stock. The total holdings of State Title stock will then be distributed to shareholders of the National American Co. It is estimated that this distribution will be at one share of State Title for each 12½ shares of National American held. After this distribution National American will have remaining some assets which will be liquidated. The proceeds will bring a small further distribution to shareholders of the latter company.—V. 130, p. 298.

National Family Stores, Inc.—Distributors of Stock.— P. H. Whiting & Co., Inc., in conjunction with F. A. Brewer & Co., Chicago and New York, has undertaken the distribution of common stock of the National Family Stores, Inc., a chain store organization comprised of 80 stores. The issue is listed on both the New York Curb Exchange and the Chicago Stock Exchange. Sales for Month and Year Ended Jan 31. 1930—Jan.—1929. Increase. 1930—12 Mos.—1929. The stocks are being offered as being speculative in character

Declars, James H. Raud J., New York, W. R. Green, Cleveland, Joseph Trees, Pittsburgh, Major J. Andrew White, William Dubilier, R. D. Jackson, Harries A. Mumma, Arthur S. Tobias and Dean Babbitt, all of New York. Data from Letter of Dean Babbitt, Pres. of the Corporation. *History*.—Corporation was organized in Delaware to acquire all the assets, including patents, patent rights, &c., of the Lucian Tube Corp. In addition, it has acquired the machinery and equipment of a modern radio tube plant located in Cleveland, O., to which is being added add-tional production facilities and equipment, so that the company is star-ing its operations with a modern and fully equipped plant. The idea of using a renewable element for a radio tube was conceived by Professor A. N. Lucian of the University of Pennsylvania. Its development and perfection is the work of C. E. Quinn, who for 21 years has occupied engi-neering and plant management positions with the General Electric Co. and 12 years of which had charge of Tantalum Lamp Works at Cleveland, O. *Product*.—The Quinn refillable vacuum tube is an outstanding and economic achievement and takes its place in a field recognized as a neces-sity in one of the most rapidly growing industries of the present age. The patents and subsequent claims which have been granted place the Quinn tube in a class by itself. Because of these facts and the fact of its greater economy, it is believed that this tube will be a revolutionary economic factor in the vacuum tube industry. The heating element of the Quinn tube is in a hollow sleeve, extending what from the base through the grid, and does not burn in the vacuum. Humming noises and the breaking down of the vacuum by gases given off, as the heating uit slowly disintegrates—(a condition which occurs in ordinary tubes), is thus minimized. The heating element in the Quinn tube is removable and is replaceable in a few seconds at a nominal cost of 50 cents, as compared with about \$2.50, the average price of the ordi

Occidental Insurance Co. (Calif.).—Had Good Year.— President J. B. Levison at the annual meeting held last week called attention to the fact that this was the first full year of the company's operations and that he considered the results exceedingly satisfactory. The net premium income amounted to \$718,000 and the income from invest- ments \$156,000. The net surplus stands at \$1,952,000 and the unearned premium reserve \$565,000. In other words, the original surplus paid in by the stockholders, viz., \$2,000,000, had been impinged upon only to the extent of \$48,000, notwithstanding the establishment of an unearned premium reserve \$560,000 and expenses incidental to the planting of a new company. The assets have increased over \$600,000 since the organization and now amount to \$3,602,000. In conclusion, Mr. Levison stated that the company was now operating in 45 states, and that he looked upon the future with much encouragement and confidence. The following directors were then re-elected: H. F. Alexander, R. I. Sentley, Edward T. Cairns, Wm. J. Dutton, Mortimer Fleishhacker, Jean Ar. S. Shainwald. Obia Oil Co. — 50c. Extra Dividand

Ohio Oil Co.—50c. Extra Dividend.— The directors have declared an extra dividend of 50c. a share in addition to the regular quarterly dividend of 50c. a share in the outstanding \$60,-000.000 capital stock, par \$25, payable March 15 to holders of record Feb. 14. Like amounts were paid on Dec. 14 last, while on Sept. 14 1929, an extra distribution of 1% was made. In each of the last three-quarters of 1927 the company paid an extra dividend of 25c. per share in addition to the regular of 50c. per share.— V. 130, p. 300.

Paramount Famous Lasky Corp.-Dividend Increased

Paramount Famous Lasky Corp.—Dividend Increased to \$4—Directors Recommend Increase in Authorized Number of Shares and Change of Name to Paramount Publix Corp.—At a meeting of the board of directors on Feb. 10 a quarterly dividend of \$1 per share was declared payable March 29 to holders of record March 7. Heretofore 75 cents per quarter has been the usual dividend. This, there-tore, increases the rate from \$3 to \$4 per share per annual meeting which will be held April 15, an increase in the translow of the reating of the board of the resonance of the conductive of the stockholders for approval at the annual meeting which will be held April 15, an increase the tabe from \$3 to \$4 per share per annual the name of the comparison from Paramount Famous Lasky corp. to Paramount Publix Corp.
The directors also voted to recommend to the stockholders for approval at the annual meeting which will be held April 15, an increase the cases the rate from \$3 to \$4 per share years and also a change in the name of the corporation from Paramount Famous Lasky corp. to Paramount Publix Corp.
The commenting upon this action, President Adolph Zukor stated that the form the results during the month of January, he believed that the directors were amply justified in increasing the dividend rate from \$3 to \$4. He further stated that there was no intention at present of issuing any substantial amount of additional stock. The company had, however, rown steadily in the last few years and the directors deemed it advisable to increase the capital by 1.000 000 shares so that the company will be noportinities arise as they have in the past. He pointed out that there with 250.000 additional reserved for employees, as heretofore approved by the stockholders, and that in view of the fact that the total capitalization is only 3.000.000 shares now available for possible expansion.
The connection with the recommendation for the change of name, Mr. Takor stated that the directors deemed it advisable to include in the corporation,

Sams said, "While a certain very definite part of the gain shown in the sales of the company for January may be credited to the fact that we have opened a number of new stores during the past 12 months, the per-centage gain made by the older stores accounted for one third of the gross gain for the month. "Anticipated retrenchments in buying, particularly in the retail dry goods field, nave not developed in the widespread sections of the country where we

gain for the month. "Anticipated retrenchments in buying, particularly in the retail dry goods field, nave not developed in the widespread sections of the country where we have stores. "The increased volume of sales made by our organization was achieved in spite of the generally backward weather conditions which prevailed in a ray all parts of the country and which were especially severe in the South.' - V. 130, p. 301.

Pennsylvania Co. for Insurances on Lives and Granting Annuities, Philadelphia.—Merger Approved.— The directors of both this company and the Colonial Trust Co., Phila., last week announced that a plan of merger of the two companies has been approved, subject to ratification by the stockholders March 17.
 The consolidated company will retain the name of the Pennsylvania Co. for insurances on Lives & Granting Annuities. The plan calls for an ex-change of stock on the basis of two shares of Pennsylvania stock (par \$10) for each share of Colonial stock (par \$50).
 The merger agreement provides in part the following officers: President C. S. W. Packard; Executive Vice-President, C. S. Newhall; Vice-Presi-dents as follows: John H. Mason, William Fulton Kurt, Arthur V. Mor-ton, Jay Gates, C. P. Lineaweaver, Frank G. Sayre, Joseph R. Carpenter Jr., Anthony G. Felix, Richard E. Hanson, John H. Packard, R. F. Me-Kinley, Mark Willcox; Treasurer, James Cheston 3rd; Secretary, L. J. Clark.
 As of Feb. 1 1930 the consolidated balance sheet of the two companies show: Capital and surplus of \$45,130,000; deposits, \$166,812,045; total resources, \$223,189,371; personal trusts aggregate \$702,513,718; corporate trusts, \$1,847,993,886.—V. 130, p. 988.

Rand Mines, Ltd.—\$1.52 Div. on "American" Shares.— The Bankers Trust Co., as depositary of certain ordinary sterling shares of Rand Mines, Ltd., has received dividend No. 53 of 50% and is paying to holders of its certificates for "American" shares, (each such certificate representing 2½ deposited ordinary shares), \$1.52 per "American" share, the equivalent of such dividend at the current exchange rate. The dividend will be paid on Feb. 23 1930 to holders of record of "American" shares on Feb. 21 1930.—V. 130, p. 302.

RCA Victor Co., Inc.—Expansion Project.— An expansion program involving the expenditure of more than \$7,500,000 during 1930 is to be undertaken at once by this company, according to President Edward E. Shumaker. More than \$5,500,000 of this sum will be spent for the construction of a new building, and mechanical equipment including machine tools, small tools, conveyors and other important items. The new building is to be used for the manufacture of radio parts for radio assembly and shipping. In addition to this, over \$2,000,000 worth of equipment is being brought to Camden, N. J., from the General Electric and Westinghouse plants for use in radio production in the RCA Victor Plant. Combined with the appropriation of \$3,820,000 which was auth-orized last year and which is still being expended, the RCA Victor Co. by the end of 1930 will have made an outlay of \$11,420,000 for plant expansion and development.

orized last year and which is stil being expended, the RCA victor Co. by the end of 1930 will have made an outlay of \$11,420,000 for plant expansion and development. Preparations for the construction of the new building are already under way. The structure will occupy the entire square bounded by Delaware Ave., Cooper, Front and Penn Streets, with the exception of the plot now covered by the RCA Victor executive offices. Several rows of houses, two parking places, the Victor individual garages, the present factory wmployment office, an old factory building and the engine house of the Victor private fire department will have to be removed to make room for the new factory building. Mr. Shumaker pointed out that since the unification of Victor with RCA and with the radio manufacturing organizations of General Electric and Westinghouse, the need for expansion of the RCA Victor plant has been acute. It has been decided that not only Victor Radio, Electrolas and records, but also RCA Radiolas—which formerly were manufactured in Westinghouse and General Electric plants—will now be produced in the Camden plant of the RCA Victor Co. This plan demands immediate addition of space and equipment and will make Camden the radio manu-facturing center of the United States, the announcement states.—V. 130, p. 302.

Republic Iron & Steel Co.—Listing.— The New York Stock Exchange has auth. the listing of certificates of deposit of Guaranty Trust Co. of New York and the Cleveland Trust Co. for 250,000 shares pref. stock (par \$100) and 939,164 shares common stock (no par value) on official notice of issuance in exchange for pref. and com. stock now outstanding. The purpose of the plan, pursuant to which the certificates of deposit are to be issued, is to unite in a single corporation the property, business and assets of Republic Iron & Steel Co., Central Alloy Steel Corp., Donner Steel Co., Inc., and The Bourne-Fuller Co. Compare V. 130, p. 815.

Retail Properties, Inc.-New Name.-Sec Schulte-United Properties, Inc., below.

Sec Schulte-United Properties, Inc., below. **Richfield Oil Co. of California.**—Acquisition.— The acquisition of the Northwestern Oil Co., Inc., by the Richfield Oil Corp. of New York, a 100% subsidiary, was announced this week by President C. M. Fuller. The Northwestern Oil Co. was organized in the fall of 1927 as a gasoline distributing agency for Long Island, N. Y., and was the first company in that territory to distribute ethyl gasoline to dealers for resale to the con-sumer. With the growth of business the company entered the New York metropolitan area, and when the Richfield Oil Corp. mergerd with the Walburn Petroleum Co. in the summer of 1929 Northwestern continued as a distributing agency for Richfield products.

The main bulk plant of Northwestern is located at Hyde Park, Nassau County, Long Island, and in merging with Richfield the latter estimates its increase in sales at approximately 5,000,000 gallons of gasoline annually and a proportionate volume of lubricating oils and greases. About 100 retail dealer outlets, 50 commercial accounts and contracts with approxi-mately 25 large estates in Long Island, not only for land uses but for marine equipment as well, have been added to Richfield's sales. Dublica Commercian

equipment as well, have been added to Richfield's sales. Drilling Campaign.— The company last week completed one of the most successful drilling cam-paigns in the history of the petroleum industry in California, an announce-ment says: Eighteen consective producers have been drilled on Section 22-28-27 in the Kern Front Field. The wells in question are located on 160 acres in the heart of the field, and the property is part of that taken over in the acquisition of the Pan American Petroleum Co. The first well was completed May 19 1928, with the last on Dec. 22 1929. Twelve undrilled locations remain on the quarter section but it is not ex-pected that these holes will be put down until the latter part of the current year.

The wells are only on production to prevent the drainage of this acreage due to demands from the respective land owners.

Additional Contracts Closed—Gasoline Sales, &c.— The signing of a five-year contract for all aviation gasoline and lubricat-ing oils to be used by the Mid-Continent Air Express was announced on Jan. 29 by President C. M. Fuller. At the present time Mid-Continent is operating 14-place tri-motored Fokker planes between Dodge City, Kan., Wichita, Kan., Pueblo, Colo., and Albuquerque, N. M., and is planning to extend its operations in the spring north to Denver and south to El Paso. Texas.

Texas. Mr. Fuller also announced the closing of a contract with the West Coast Mr. Fuller also announced the closing of a contract with the West Coast Air Transport Corp., operating between San Francisco and Seattle, for vir-tually all its lubricating oil needs, as well as additional contracts with the U. S. Army for the delivery of Richfield aviation gasoline to Crissy Field, San Francisco, and Tucson, Ariz., Airdrome, for all Army needs at these points to June 30 1930. Casoline sales of this company in Montana for 1930 are estimated at

san rrancisco, and Tucson, Ariz., Airdrome, for all Army needs at these points to June 30 1930. Gasoline sales of this company in Montana for 1930 are estimated at 6.000,000 gallons, according to Reese R. Hall, manager for that state. This estimate is based on a survey which Mr. Hall has just completed, accompanied by C. L. Colbert of the Colbert Oil Co., Deer Lodge, Montana, Richfield distributor in that territory. Within the next 60 days, addl-tional territory will be opened which will give Richfield distribution from Helena, 250 miles West to the Idaho line, it is announced. At the present time, the Richfield company is distributing out of Anaconda, Deer Lodge, Avon, Drummoad, Butte and Missoula with bulk distributing plants located in the last four cities. Distribution from Butte was only started Jan. 21, while the Missoula region was opened Jan. 23. Eight additional cities will be entered under present expansion campaign. Gasoline sales of this company in the State of California during 1929 totaled 163, 105,493 gallons, accordings to official figures on which the State gasoline tax was paid. This was an increase of 26,528,096 gallons over the year 1923, including gallonage of Pan American Western Petro-leum Co., control of which was acquired by the Richfield company on June 30 1928. The Richfield Oil Co. of California on Jan. 25 completed Industrial No. 1 well at Santa Fe Springs, flowing 2,500 barrels of 34 gravity oil and 7,500,000 cubic feet of gas daily initial from a depth of 8,040 feet.—V. 130, p. 637.

The Richfield Oil Co. of California on Jan. 25 completed Industrial No. 1 well at Santa Fe Springs, flowing 2,500 barrels of 34 gravity oil and 7,500,000 cubic feet of gas daily initial from a depth of 8,040 feet.—V. 130, p. 637.

Schulte-United Properties, Inc .- To Become Retail

Properties, Inc.— The stockholders have voted to change the name of their company to Retail Properties, Inc. in order that it may more correctly designate the nature of the company's activities. The company owns valuable retail locations in 22 cities of the United States and Canada and leases them largely to outstanding retail store companies.—V. 128, p. 2286. New Director.—

Serelco, Inc.—New Director.— George Henry Warren, Jr. of New York City, director of the Ritz Carlton Hotels Corp., has just been elected a director of Serelco, Inc. This com-pany is the owner of patents under which it manuafctures low priced electric stoves and ranges which are said to be as fast as gas stoves and as cheap to operate. Herbert A. Wagner, President of the Consolidated Gas, Electric Light & Power Co. of Baltimore is also a member of the Serelco board.

A Power Co. of Baltimore is also a member of the Serelco board.
 Shaffer Oil & Refining Co.—Sales Increase.—
 Continued increases in sales of Kant Nock Ethyl gasoline are resulting from an advertising campaign by this company, the oil subsidiary of Standard Gas & Electric Co., according to B. L. Majewski, Vice-President in Charge of sales.
 The company has just been awarded a contract for 1,000,000 gallons of Deep Rock Ethyl aviation gasoline by the U. S. Air Service to be distributed during the first six months of 1930 to various Government airports scattered throughout the United States, including Boiling Field; Langley Field; Middletowa Airport; Aberdeen Proving Grounds; Fort Bragg; Biggs Field; Marshall Field, Fort Riley, Kansas; Maxwell Field, Alabama; Fort Sill, Okahoma; and Selfridge Field, M. Clemens, Michigan. The company, incidentally, had a similar contract with the Government for furnishing aviation gasoline during the last ix months of 1929.—V. 129, p. 3648

aviation gasoline during the last six months of 1929.—V. 129, p. 3648
 (Frank G.) Shattuck Co.—Expansion, &c.—
 This company, which owns and operates Schraft's stores, is planning to open this spring its largest store at Madison Ave and 58th Street, N. Y. City, according to an analysis of the company prepared for distribution by Dominick & Dominick, members of the New York Stock Exchange. During the summer, another store, catering to the residential district in the 70's between Riverside Drive and Central Park West, will be opened at Broadway and 74th St., N. Y. City.
 "Further expansion into other cities is being rapidly consumated," the booklet continues. "Negotiations are under way in Atlantic City and a number of other Eastern cities. All the stores in the Metropolitan district are at present located in Greater New York. The company plans to take advantage of the many opportunities in outlying districts and also plans to enter such cities as Chicago. Philadelphia, Baltimore and Washington and the subject of the company's financial situation, the booklet says: "The company is in excellent financial position. Based on the balance sheet at June 30 last, current assets of \$5,172,139 were equivalent to over 4.3 times current liabilities of \$1,192,961. Cash, call loans and U. S. Gov-cernment securities alone amounted to \$4,570,073, or over 3.9 times current liabilities. Since the acquisition of W. F. Schraft & Sons Corp., the Company's current position has been further improved."—V. 30, p. 638.
 (W. A.) Sheaffer Pen Co.—50c. Extra Dividend.—

(W. A.) Sheaffer Pen Co.—50c. Extra Dividend.— The directors have le lared a.) extra dividend of 50c. a share and the regular annual dividend of \$2.00. Half of the regular, together with the extra dividend, is payable March 15 to holders of record Feb. 25. The other half of the dividend will be paid on Sept. 15 to holders of record Aug. 25. An extra of 50c. a share was paid on March 15 and Sept. 15 1929.—V. 129, p. 3181.

Siemens & Halske, A. G., Berlin.—Listing.— There have been placed on the Boston Stock Exchange list \$14,000,000 participating debentures, series A, dated Jan. 15 1930 and due Jan. 15 2930. See also V. 130, p. 985.

Simpson Creek Collieries Co.—Liquidating Div., &c.— The Central Hanover Bank & Trust Co., trustee, 70 Broadway, N. Y. City, paid on Feb. 10, \$14.30 per share on the pref. stock certificates of deposit, making a total of 96.05% paid to date on principal account, leaving a balance of 3,95%.

The trustee also paid the interest at the rate of 6% per annum for the six months up to Feb. 10 1930, of 54.75 cents per share on 7,000 shares outstanding, also \$1.15 per share on 20,000 shares common stock. See also V. 128, p. 1246.

outstanding, also \$1.15 per share on 20,000 shares common stock. See also V. 128, p. 1246.
Sinclair Consolidated Oil Corp.—Reduction in Crude Oil Prices Met by Jointly Owned Company.—
The Sinclair Crude Oil Purchasing Co., jointly owned by the Sinclair Consolidated Oil Corp. and the Standard Oil Co. of Indiana announced effective Feb. 13 it would meet the reduction in crude oil prices in Texas, Oklahoma and Kansas made Jan. 15 and 16 by the subsidiaries of the Standard Oil Co. of New York.
Commenting on this announcement H. F. Sinclair, Chairman of the Sinclair Consolidated Oil Corp. said:

"The reduction made on Feb. 13 has been decided upon reluctantly.
We regard the reductions as inequitable and a backward economic step, but of course no one company can continue indefinitely to pay higher prices for its raw material than are paid by its competitors.
"Crude materials or valuable as petroleum should not be sold below cost of production. That course, if pursued, leads eventually to demoralization and loss with no real gain to the community and certainly none to the efforts toward sane, stable conduct of the industry, and impair the spirit of co-operation which had been built up.
"It is certainly not a step in the upbuilding of general prosperity towards which all industries and all forces have been so urgently invited to contribute."—V. 129, p. 3181.

Sonora Products Corp. of America.-To Continue.

Federal Judge Alfred C. Coxe has authorized Irving Trust Co. as re-ceiver to continue the business of the Sonora Phonograph Co. and Sonora Products Corp. for two months in an effort to effect a reorganization and to enable the liquidation of a large part of the inventory. The receiver re-ceiver reported to the court that numerous economies had been effected, including a reduction in the Buffalo plant's weekly payroll to \$2,400 from: \$13,000. The California branches of the company will be closed.—V. 129, p. 4151.

Soule Mills, New Bedford.—Smaller Dividend.— The directors have declared a quarterly dividend of \$1.50 par share of the capital stock, payable Feb. 15 to holders of record Feb. 7. Previous the company paid quarterly dividends of \$2 per share.—V. 128, p. 4020.

Southern Sugar Co.—New Director.— Harold G. Ferguson has been elected a director. Mr. Ferguson is President of the Harold G. Ferguson Corp., the Harold G. Ferguson Engineering Corp., Ltd., Winsett System Corp., the Farold G. Ferguson Engineering Harold Corp., Ltd., Winsett System Corp., the Farold S. Chairman of the Belter Business Bureau of Los Angeles Realty Board: Chairman of the Better Business Bureau of Los Angeles Advertising Club; Chairman of the Board of Governors of the California Stock Exchange, and a director of California Real Estate Association.—V. 130, p. 303.

Sparks-Withington Co.—Earnings.— The company reports for the six months ended Dec. 31 1929, net profit of \$1,639,365 after depreciation, Federal taxes, &c., equivalent, after allowing for requirements on \$364,900 6% preferred stock, to \$2.36 a share on 684,606 shares (no par) common stock.

Standard Investing Corp.—To Increase Stock.— The stockholders will vote Feb. 20 on increasing the authorized pref. stock from 100,000 shares to 200,000 shares and the common stock from 350,000 shares to 1,000,000 shares.—V. 130, p. 817.

Standard Oil Co. of Ind.—Gasoline Cracking Pool Is Dissolved by Decree—Judgment of Court of Appeals Stayed To Permit Case To Be Carried Up.— A decree declaring over 50 large and small oil refining companies using assoline cracking patents, guilty of violation of the Sherman anti-trust with the en bane decision of the United States Circuit Court of Appeals to that effect issued last June, was handed down at Chicago, Jan 20 by an "expedition" Federal Court. The companies were permanently enjoined from further interchange of patent rights on oil-cracking processes the basis of the contention. Attorneys for the defendants obtained a stay of execution pending an appeal to the U. S. Supreme Court. The case is one which has been fought through Federal courts for more than 5 years, known as the gasoline cracking process patent case. The contention with an appeal direct to the Supreme Court would be possible. The court issued later the Government and the defendant companies without the necessity of undue delay, so that an appeal direct to the Supreme Court would be possible. The court issued lite order after the Government and the defendant companies for the defence are now planning their fight before the highest for the super the defendant companies found themselves unable to agree on the decree. Attorneys for the defence are now planning their fight before the highest found. They say that the production of gasoline by cracking—now a chaotic condition unless the decision of the lower court is reversed.—V. 130, p. 990.

'13.

Standard Oil Co. of Louisiana.—Correction.— Due to a typographical error the balance sheet published in last week's "Chronicle" was given as of Dec. 31 1929. This should have been Dec. 31 1928.—V. 130, p. 990.

Standard Oil Co. of Nebraska.—25c. Extra Dividend.— The directors have declared an extra dividend of 25 cents per share in addition to the regular quarterly div. of 62½c. per share, both payable March 20 to holders of record Feb. 25. Like amounts were paid in each of the 5 preceding quarters. Record of dividends paid since 1913 follows:

Transamerica Corp.—New Interests.—
The directors on Feb. 8 elected Elisha Walker, Chairman of the board of directors and of the corporation's executive committee. L. M. Giannini was elected President and Jean Monnet was elected Vice-Chairman of the board of directors. A. P. Giannini, following the custom established in the Bank of Italy, became Chairman of the aftairs of the corporation's executive committee.
The directors on feb. 8 elected Elisha Walker, Chairman of the board of directors. A. P. Giannini, following the custom established in the Bank of Italy, became Chairman of the aftairs of the corporation, which is the largest of its type in the world. P. C. Hale, Vice-President, and James A. Bacigalupi, former President of the Bank of Italy were chosen as Vice-Chairman of the advisory committee.
Coincident with the new administrators taking office, it became known that Elisha Walker, Jean Monnet and associates in Bancamerica-Blair Corp., have become very large shareholders in Transamerica Corp. on a permanent investment basis.
"We are pleased with the results of the first year of operation of Transamerica Corp as a holding company." said President L. M. Giannini, "In reporting earnings of \$96,000,000 in a year of such unprecedented market readjustment as we have been throot. The Transamerica Corp are more than justified the expectations of its founder, A. P. Giannini, This first year has seen the accomplishments of the diricult tasks of anal gamating the various affiliated corporation for directors and and thermationally prominent financiers and executives as Elisha Walker and Jean Monnet insures the continuity and development of the corporation, and cannot but presage a period of greater expansion in national and international ifelds than heretofore. In order to give Transamerica is national danarester.

wide and international character the board of directors has been emailed so as to include representation of outstanding American and International interests. "It shall be our fixed policy to engage in and deal only in the soundest investments and conduct a conservative business according to the high-est approved standards to the end that the reputation established by this corporation for the soundness and conservatism of its policies and securi-ties be maintained and enhanced. "We intend to aggressively carry forward the program having as its goal the securing of 500,000 stockholders inaugurated by A. P. Giannih some months ago. This program is progressing satisfactorily and we are adding on the books of the corporation new shareholders at the average rate of approximately 9,000 per month." New directors chosen at the stockholders meeting were: Paul D. Cravath, Edward H. Clark (Pres. of the Homestake Mining Co. and of the Cerro de Pasco Copper Co., and a director of the Irving Trust Co.), George Ne Armsby (of Bancamerica-Blair and Vice-Pres. of the Calif. Packing Corp.), Louis Ferrari (Vice-Pres. & Gen., Counsel of the Bank of Italy), E. R. Tinker (Pres. of Interstate Equities Corp.). Jean Monnet (Vice-Chairman of the board of directors of Transamerica Corp. and an international financier), and Howard P. Preston (Vice-Pres. of Transamerica Corp. and represen-tative of the Bank of Italy in New York. *Earnings Statement.*—

The set that cost, and, as of Jan. 25 1930, \$1,781,209, of \$25,501 In excess of cost. —V 129, p. 2700.
United International Hotels, Inc. — Merger Dropped. — The plan by which it was sought, through the creation of the United International Hotels. Inc., to bring 12 profitable and prominent hotels in the United States and Canada, under a single executive management, as-designed to perfect the details, will be returned to their original owners. The committee, consisting of Frank A. Dudley, Charles Dougherty, Hon, P. R. Du Tremblay and William Dewey Loucks, has issued a formal statement to those interested in which it is made clear that if was not the surrounding circumstances. The final success of the plan was primarily utendant upon the raising of new capital, and this, it was believed, would be impossible in the circumstances. — The final success of the plan was primarily attendant upon the frast and for the new still one of the letter of the necesary, and attendant upon the surrounding circumstances. — The final success of the plan was primarily attendant upon the raising of new capital, and this, it was believed, would be impossible in the circumstances. — The final success of the necesary, and attendant agreement was then undertaken. A couple of months later while the debate was still under way, a drastic decline occurred in the security markets, and this finally altered the complexion of affairs very materially. — The main portion of the letter of the necesary, was as areholders of the markets, and the still under way, a drastic decline occurred in the security markets, and the surface of the shareholders of the shareholders of the shareholders of the shareholders of the respective was still under way, a drastic decline occurred in the security markets, and the shareholders of the eccesary is an advective of the various companies, explaining the lapse of the merger, was as follows: — The made by the committee to carry the plan into effect. In these

efforts the committee has been ably assisted by the personnel of the local boards of directors, the organization of the United Hotel Co. of America and by the bankers. "In an undertaking of this magnitude and complexity it was natural that there should arise misunderstandings in the minds of individual stockholders, as to the effect and meaning of the plan and its probable outcome. Many delays were experienced on account of the difficulty of accurately interpreting its meaning to individual stockholders, and, while sufficient stock was deposited to warrant the committee in proceeding with the comsummation of the plan, it has been felt that the wishes of the minority should receive the utmost consideration. "The radical readjustment of the market in November resulted in a condition of depreciated value of common stocks as compared with those of preferred stocks. Many depreciated stock holders had come to a decision to exchange their preferred stocks for common stocks prior to this readjustment of the security markets and were bound by their deposit in respective of the changed basis of values. In deciding to abandon the plan the committee has given consideration to the property of such depositing shareholders being reduced throught their commitment." "It is equally true that the debentures with warrants attached which it was proposed to sell to the bankers were designed to meet a market condition no longer existing. As a consequence the bankers were forced to the conclusion that these debentures were unsaleable at any time in the limmeditept that engred consideration. "The committee has decided that to hold the deposited stock until October 2000 the shale decided that to hold the deposited stock until October 2000 on the sale of its debentures, would be unfair to the individual stockholders and consequently the abandomment of the plan was deemed to be in their best interests."-V. 129, p. 2875, 1932.

United States Electric Light & Power Shares, Inc.-

fund. Charles S. Thomas, Vice-President of George H. Burr, Conrad & Broom, Inc., has been elected a director. A total of \$42,800,000 of the trust's series A certificates are now outstand-ing in the hands of investors, it is announced. The resources, however, are being further increased through issuance of a new issue of series B cer-tificates.—V. 129, p. 3649.

United States Envelope Co.—Extra Dividend.— The directors have declared an extra dividend of 4% on the outstanding \$1,750,000 common stock, par \$100, in addition to t 'e usual semi-annual dividend of 4%, both payable March 1 to holders of record Feb. 15. An extra cash disbursement of like amount was made on March 1 1928 and 1929, while in March 1926 and March 1927, an extra of 2% was paid.— V. 129, p. 3183.

United States Gypsum Co.—Stock Increased.— The stockholders on Feb. 13 approved an increase in the authorized common stock from 1,250,000 shares of \$20 par value to 3,000,000 shares. The authorized preferred stock unchanged at 100,000 shares of \$100 par value.—V. 130, p. 991.

 Van Sicklen Corp.—Subs. Protects Patent Rights.— The Lorraine corporation, manufacturers of a controllable automobile driving lamp protected by more than 300 patents, has brought suit for infringement of patent rights against the single manufacturer who has not already acknowledged Lorraine's claims. The suit was brought suit for British against the Single manufacture who has not already acknowledged Lorraine's claims. The suit was brought suit of the strict Court for the Northern District of Illinois, Eastern Division, and according to officials of Lorraine Corp., will be pressed vigorously for trial.
 Intention to press its claims against any and all infringers was announced by Lorraine Corp., which recently became a division of the Van Sicklen Corp., a subsidiary of Alied Motor Industries, Inc.—V. 130, p. 649.
 Vogt Mfg. Corp.—Acquires Fabric Plant.—

Corp., a subsidiary of Alifed Motor Industries, Inc.-V. 130, p. 649. Vogt Mfg. Corp.—*Acquires Fabric Plant.*— The corporation has acquired the plant and business of the Waterloo (N. Y.) Textile Corp. The latter company manufactures high-finish

textiles and fabric linings for the interior of automobiles. It is understood that this business was acquired on an exceedingly favorable basis and it is estimated by officials of the company that this acquisition will add substantially to the book value and earnings per share of the common stock of the Vogt company. Purchase of the Waterloo Textile Corp. will entail no new financing on the part of the Vogt corporation. This acquisition follows the purchase during the latter part of 1928 of the George R. Carter Co. and now gives Vogt facilities for the manu-facture of a complete line of interior fabrics for automobiles.—V. 129, p. 3649.

West Coast Life Insurance Co., San Francisco.— Extra Dividend—Stock Increased.— The directors have declared an extra dividend of 4½c. a share, and the regular semi-annual dividend of 9c. a share, both payable Feb. 25 to holders of record Feb. 14. The stockholders, at the annual meeting, approved the proposal to increase the capitalization from 500,000 shares, par \$1, to 750,000 shares, par \$1.

Western Electric Co., Inc.—Rights.—The directors on Feb. 11 authorized the issuance of 750,000 shares of no-par common stock to be offered to stockholders of record Feb. 17 in the ratio of one share of new stock for each seven shares of old stock then held, at \$40 per share payable on or before March 31 1930. President Edgar S. Bloom stated that with the issuance of the new stock there will be outstanding 6,000,000 shares of no-par common stock, and that the \$30,000,000 which will be received if the 750,000 shares of new stock are fully subscribed for will be used to finance the expansion of manufacturing facilities now in progress.—V. 129, p. 3817.
White Rock Mineral Springs Co.—Stock Increased.—

129, p. 5017.
 White Rock Mineral Springs Co.—Stock Increased.— The stockholders on Feb. 7 approved an increase in the common stock to 250,000 shares of no par from 200,000 shares, and ratified changes in the company's articles of incorporation to provide for the exchange of 2d pref. stock for common stock. The directors in October 1929 offered holders of 2nd pref. stock, of which 10,000 shares were outstanding, the right to exchange their stock for common shares on the basis of five com-mon for one of 2nd pref. On Jan. 15 the plan was declared operative, holders of 8,339 shares of 2nd pref. stock having already deposited their shares for common stock. Since that date additional 2nd pref. has been deposited, making a total of more than 90% at present. Complete conversion of the 2nd pref. into common stock would leave the company with a capitalization consisting of 20,000 1st pref. shares and 250,000 common shares. See also V. 130, p. 649.

Will & Baumer Candle Co., Inc.—Extra Dividend.— The directors have declared an extra dividend of 10c. a share and the regular quarterly dividend of 10c. a share on the common stock, both payable May 15 to holders of record May 1. The directors also declared the regular quarterly dividend of \$2 a share on the preferred stock, pay-able April 1 to holders of record on March 15. An extra dividend of 10c. a share was paid on the common stock on Nov. 15 last.—V. 129, p. 2702.

contract), and to the bankers. An additional 90,000 shares are reserved against purchase warrants which may be issued in further acquisition of assets.
 Warrants entitle the holder to purchase one share of com. stock represented by voting trust certificates at \$7 per share at any time before Dec. 1 1934, and at \$10 per share any time before Dec. 1 1939.
 Business.—Corporation was organized in 1929 in Delaware, with broad charter powers, to operate as an investment company of the general management type, and, to acquire or organized in 1929 in Delaware, with broad charter powers, to operate as an investment company of the general management type, and, to acquire or organized in 1929 in Delaware, with broad charter powers, to operate as an investment company of the general management type, and, to acquire or organized in vestment companies of practically any size or type. Corporation owns a controlling interest in the Securities Research Corp.
 Mongement.—Corporation is under the direction of men who have had long training in industry, investment banking, and finance.
 The Securities Research Corp., under the supervision of the board of directors of the Yosemite Holding Corp. will completely manage the portfolios of those companies acquired or organized by the Yosemite Holding Corp. The management fee will be 1% of the average market value of invested funds, annually, (15% for counsel and advice and 25% for administrative expense). It will charge the Yosemite Holding Corp. the same fees for the management of its funds.
 Income.—The income of corporation will be derived chiefly from dividends and market appreciation of its portfolio, and from the organization and market appreciation of its portfolio, and from the organization and market appreciation of its portfolio, and from the organization and market in the Securities Research Corp. should become more profitable as the funds brought under its management are increased.
 Offic

CURRENT NOTICES.

CURRENT NOTICES.
As a result of over 5,000 questionnaires directed to every State and covering every line of business, George H. Burr & Co., 57 William St., N. Y. City, have compiled a comprehensive survey of business conditions in 1929 an a forecast for the current year. A striking feature of the questionnaire look for an increase in sales during the present year, and that five of the seven chain store classifications expect that prices will remain the same in 1930 as they were in 1929. The two exceptions were the clothing line in which the responses are divided evenly between maintenance of 1929 prices and a lowering of prices for 1930; and in the shoe store business where 75% were forecasts of unchanged prices and 25% of lower prices. In the chain store field as a whole, no expectations of higher prices were voiced. The results of the survey are being broadcast, while the answers under five general classifications, namely, sales, collections and prices in 1929, and forecasts of sales and of prices for 1930. In the chains so of a decrease in sales (uring 1930. In the hosiery business 90% expect an increase in sales, in the department, store field 62%; automobile accessories 84% and agricultural implements, 64%. In no line of business surveyed did a majority forecast higher prices for the distributing field, Blyth & Co. have announced that they would withdraw form the brokerage business and enlarge their investment distributing four on and after Feb. 28, be conducted by Russel, Miller & Co. The firm's Chicago brokerage business will be transfer distributing power of Blyth & Co., through offices maintained in experiments will be transfer to shale to a similar transgements will be transfer the shale to the interfield or public utility, industrial and private finate.

—O. R. Seagraves and G. F. Balme have been elected to the board of directors of G. E. Barrett & Co. and E. G. Diefenbach, President, has been re-elected to the board. Mr. Balme, who is Vice-President of G. E. Barrett & Co., is a director of Consolidated Gas Utilities Co., American Utilities & General Corp., South Texas Gas Co., Southern Gas Utilities, Cady Lumber Co., Belamose Corp., and Duval Texas Sulphur Corp. Mr. Seagraves is President and director of United Gas Co. and all of its subsidiaries and is Chairman of the Board of Duval Texas Sulphur Corp.
—According to the February issue of "Monthly Financial Analysis" prepared by Clokey & Miller, 52 Broadway, N. Y. City, the market for bank stocks during January was seemingly dull and listless. Nevertheless the trend in the leading issues was decidedly upward. During the month averages rose from 98 to 108 and closed at 107 or approximately 7% above the 1929 opening levels. The insurance stocks during January gave their best exhibition of technical strength in over a year, averages advancin week by week, namely 66-67-68-70-71.

On the 11th inst. early cost-and-freight offers were unchanged or lower and in view of the decline in Brazilian exchange, shippers were disposed to consider bids below their asking prices. For prompt shipment Santos Bourbon 2-3s were quoted at 151/4 to 15.70c.; 3s at 13.70c.; 3-4s at 13.40c. to 15.60c.; 3-5s at 12.80 to 13.90c.; 4-5s at 11.70 to 13.15c.; 5s at 121/2 to 12.85c.; 5-6s at 11.65 to 12.30c.; 6s at 11 to 11.40c.; 6-7s at $9\frac{3}{4}$ to 10.85c.; 7s at 11.35c.; 7-8s at $8\frac{1}{4}$ to 10.95c.; part Bourbon 3-5s at $13\frac{1}{4}$ c.; 4-5s at $11\frac{1}{4}$ c.; 6-7s at 10c.; 7-8s at 10.65c.; peaberry 3-4s at 15.80c.; 4s at 13c.; Victoria 7s at 8.50c.; 7-8s at 8.30c.; rain-damaged 7-8s at 9.65c. To-day cost-and-freight offers from Brazil were unchanged to 20 points lower. Prompt shipment Santos Bourbon 2s were here at 14.85 to 15.45c.; 3s at 13.40 to 13.60e.; 3-4s at 13.15 to $14\frac{1}{2}$ c.; 3-5s at $12\frac{1}{2}$ to 13.90e.; 4-5s at 12.60 to 13.45c.; 5s at $12\frac{1}{4}$ to 12.65c.; 5-6s at $11\frac{3}{4}$ to 11.90c.; 6s at 11.40 c.; 6-7s at 101/4 to 103/4c.; 7s at 101/4c.; 7-8s at 8.40 to 10.60c.; part Bourbon 4-5s at 121/4 c.; 4-6s at 12.65c.; Peaberry 3-4s at 15.55c.; Santos rain-damaged 7s at 8.65c.; 7-8s at 8.10c.; Victoria 7-8s at 8.35c.

The world's visible supply of coffee on Feb. 1 totalled 5,119,144 bags against 5,079,355 bags held at the start of the previous month and 5,037,516 bags on Feb. 1 1929 according to data compiled by the New York Coffee Ex-Stocks of coffee in the United States on Feb. 1 change. were 670,640 bags against 692,872 bags on hand Jan. 1 and 732,320 bags held in this country on Feb. 1 last year. Arrivals of all coffees in the United States during January totalled 933,707 bags against 970,583 bags in the previous month. Total arrivals of all coffees in the United States for the seven months ended Jan. 31, the first seven months of the current crop year were 6,244,214 bags against 5,973,-633 bags in the comparable months of the previous year. Arrivals of mild coffee in the United States for the month thus far aggregated 132,919 bags against 142,137 for the same time last year. The deliveries thus far this month were 129,665 bags against 103,761 for the same time last year. Stock of mild coffee in the United States on Feb. 10 was 232,732 bags against 229,478 on Feb. 1 and 408,881 at this time last year. The Institute De Cafe Do Sao Paulo reports coffee stocks in Sao Paulo interior warehouses and railways, Jan. 31 (includes Minas Geraes) 19,377,000 bags against 18,357,000 bags on Dec. 31. Interior stocks as reported by the Sao Paulo Coffee Institute, Jan. 31, were 19,377,000 bags against 12,279,000 in 1929; visible supply of the world on Feb. 1, 5,119,144 against 5,037,516 on the same date last year. Clearances from Santos for the United States during January totalled 738,000 bags according to data compiled by the New York Coffee & Sugar Exchange. This was the largest total since October 1923, when a total of 751,000 bags was cleared from that port for the United States. 633 bags in the comparable months of the previous year.

States. Futures on the 8th inst. were irregular. Santos closed 4 to 7 points higher on buying by Brazilian interests and covering with sales of 22,500 bags. Rio ended at 2 points off to 2 points up with sales of 6,500 bags. No "future" business was done in mild. It ended on that day unchanged to 2 points higher. On the 11th inst. futures were irregular with Rio ending 14 points lower to 1 point higher with sales of 51,000 bags of Rio and Santos. On the 13th inst. prices ended 7 to 12 points lower on Santos and 10 points lower to 3 points higher on Rio. New York and Brazil sold. The trade took part in the selling. Brazilian cables over the

holiday were disappointing. Trading was not on a big scale. That is Santos contracts was about 47,000 bags and in the Rio 16,000. Mild sold at 14.60 to 14.75c. for Septem-ber ending at prices 20 points off to 5 up. The cables to the Exchange said that the receipts at Rio between Feb. 16th and Feb. 28th will be 12,585 bags daily. Cost and freight offers from Brazil were in good suplpy and were unchanged to slightly lower. To-day private cables reported the out-break of political fighting in Victoria with 10 people killed and this with the weaker closing cables from Brazil depressed futures here. The ending was at a net decline of 2 to 13 points with sales of 11,000 bags of Rio and 15,000 Santos. Mild coffee closed with March, 15.88c.; July 15 to 15.10c. and Sept., 14.65 to 14.70c. with sales of 2,000 bags. Final prices show a decline for the week on Rio of 1 to 3 points and of Santos of 18 to 26 points. Rio coffee prices closed as follows:

COCOA to-day ended with March 9.05c.; May 9.41c.; ly 9.65c. Final prices are 23 to 30 points lower than a July 9.65c. week ago.

week ago. SUGAR.—Prompt Cuban raws were at 3.77c. duty paid and 3.61c. duty free with little business. The Selling Agency price was 2 1-16c. Refined was 5c. with light trading. Futures on the 8th inst. closed 1 to 3 points higher with sales of only 5,700 tons and 25% was in switches. Receipts at Cuban ports for the week were 165,257 tons against 266,347 in the same week last year; exports 19,275 tons against 125,830 last year; stock (consumption deducted) 341,334 tons against 566,192 last year; centrals grinding 151 against 163 last year. Of the exports 3,395 went to Atlantic ports, 4,025 to New Orleans, 1,279 to Interior United States; 3,393 to Charleston; 33 to South America and 7,150 to Europe. Old crop (1928-29) exports 38,169 tons; destinations: Atlantic ports, 26,659; Galveston, 7,156; Savannah, 4,353; stock, 93,524 tons. Receipts at U. S. Atlantic ports for the week were 43,852 tons against 31,779 in the previous week and 75,238 same week last year; melt-ings 54,769 tons against 58,329 in previous week and 53,229 last year; importers' stocks 365,229 tons against 376,964 in previous week and 81,723 last year; refiners' stocks 161,-412 against 160,594 in previous week and 83,931 last year; total stocks 526,641 against 537,558 in previous week and 165,654 last year. total stocks 526,641 against 537,558 in previous week and

in previous week and \$1,723 last year; refiners' stocks 161,-412 against 160,594 in previous week and \$3,931 last year; total stocks 526,641 against 537,558 in previous week and 165,654 last year. Tefined was 4.95c. with the situation unsettled partly because of an announcement by each of the Pacific Coast and Southern refiners that their price of 4.95c. less 2% is retroactive to Jan. 6. No action in this matter has yet been taken by the local refiners and it is uncertain whether they will retaliate by making it a general movement or will continue to quote 4.95c. less 2% effective from Feb. 3. On the 10th inst. 10,000 bags Porto Ricos for prompt ship-ment to Philadelphia sold at 3.64c.; 1,000 tons of that crop for April-May shipment at 3.77c. delivered. The Cuban Export Sales Agency reported no sales on the 10th inst. but on Saturday sold a part cargo to the United States understood to a Gulf port at 21-16c. c. & f. On the 11th inst, futures with an unsettled market for the actual sugar dropped 1 to 2 points. On the 11th inst. the easier tone of the London terminal market is attributed in private cables to fear of tenders. London reported offerings of parcels of raw sugar for February shipment at 7s. 7½d. c.i.f., about 1.49c. f.o.b. Cuba; offerings of March shipment at 7.6. 9d. or 1.51c. f.o.b. and April at 7s 11¼c. or 1.56c. f.o.b. One cable stated that the Single Seller is willing to sell at 1.65c. f.o.b. for April shipment. The 11th inst. 12,000 bags of Porto Ricos, due about Feb. 24, sold at 3.61c. delivered, or 1 27-32c. e. & f. On the 13th inst. futures dropped 2 to 5 points largely owing to reports that the idea of restricting the crop in Cuba had been abandoned. Cuban interests were said to have been heavy sellers. The sales made at 7s. 6d. Refined was 3d. lower. One refiner here was quoting 4.95c. retroactive to Feb. 3. Trading in the actual raw sugar was quiet. Some 1,800 tons Philippine raw sugar for April-May shipment sold on the 13th to an operator at 3.66c. delivered or 1 point under 129:32c. e.

crop did not start until Jan. 15, the yield of 10.82% to the end of January reflects the operations of the first seventeen days. Last year, grinding operations started on Jan. 1, and for the first fifteen days, the yield averaged 10.74%. Havana cabled that the Santa Clara Association has called a meeting of sugar planters for Monday next to discuss restriction. It is added that sentiment is strongly opposed to official cutting down of the crop. Liverpool cabled: "The Liverpool Sugar Exchange which has been in process of organization for several months, will open for trading on Feb. 25th, it was announced. Contracts will be based on 96 degrees cane sugar in Liverpool, with sellers' option to deliver either cane or beet sugar in other ports under special conditions." The total melt according to the Sugar Insti-tute, Inc. from Jan. 1st to Feb. 1st was 360,000 long tons against 375,000 long tons in the same time last year; deliveries Jan. 1st to Feb. 1st were 335,000 long tons against 330,000

and the form the total melt according to the Sugar Institute, Inc. from Jan. 1st to Feb. 1st was 360,000 long tons against 375,000 long tons in the same time last year. One comment was. "The unfavorable statistical position in the United States and the constant flow of Supplies from Insular Possessions bar Cuba from obtaining the necessary outlet for her mounting stocks. A similar situation exists abroad. These factors would seem to operate against a bullish trend to values for some time to come, at least until 1931 crop prospects become a more important factor. Barring unforescen developments, particularly restriction in Cuba, we should think that prices must remain around present levels or possibly recede somewhat before any improvement can be maintained."
One forecast of the world's sugar production for 1929-30 is 27,252,000 tons against production in 1928-29 of 28,057,000 tons, a decrease of \$05,000 tons or 2.187%. Consumption for 1929-30 they estimate at 27,837,000 tons against actual last year of 26,967,000, an increase of \$70,000 tons or 3.22%. Stocks in all U. S. Refining ports and in entire Island of Cuba according to Willett & Gray are as follows: United States Atlantic ports (New York, Boston, Philadelphia and Baltimore 526,641 tons, against 1,217,118 last year; afloat, 225,000 against 200,000 last year; total in United States and Cuba and afloat, 1,809,233 tons against 4,680,242 last year; afloat, 225,000 against 200,000 last year; total in United States and Cuba and afloat, 1,809,233 tons against 4,600 tons or propresed development destinations. During January 1930 were 138,000 tons of which 6,000 tons were shipped to Western destinations. During January 1929, 213,000 tons were work of which 4,000 tons were shipped to Western destinations. During January 1929, 213,000 tons were asported, divide state and the seconting the percentage opposed, the correspondent would not venture a guess but believes that all were against it, but concerning the percentage opposed, the correspondent w tons.

LARD on the spot was firm with prime Western 11.45 to 11.55c.; Refined to Continent, 11½c.; South America, 11¾c.; Brazil, 12¾c. Futures on the 8th inst. advanced 5 to 8 points with hogs firm with a top of 11c., cash demand good and Liverpool 6d higher. Hog receipts at the West were 41,400 against 52,671 on the same day in the previous week. On the 11th inst. futures advanced 2 to 7 points with hogs up 10 cents and Chicago receipts smaller than expected. The total at the West was 124,800 however against 121,000 last year. Exports f om New York reached the liberal total of 4,594,000 lbs. to English, Irish and German ports. Cash prices were stronger. On the 13th inst. prices ended unchanged to 3 points lower partly in sympathy wth the reaction in grain. Hogs however were 10 to 20 cents higher. Chicago's top was \$11.35 the best of the year. Export demand, however, was said to be smaller. Total receipts of hogs were only 116,500 against 152,000 a year ago. New York cleared 338,000 lbs. to Europe. Prime Western spot was 11.45 to 11.55c.; Refined Continent up to 11¾c.; South America, 11½c.; Brazil, 12½c. To-day futures closed 7 to 10 points higher partly in response to a stronger cotton oil market. Final prices of LARD FUTURES IN CHICAGO.

PETROLEUM.—The Sinclair Crude Oil Purchasing Co. met the reduction in crude oil prices in Texas, Oklahoma and Kansas made in January by subsidiaries of the Standard Oil Cos. of New Jersey and of New York. Heating oils of late have been a little firmer. Demand was good and con-tract deliveries heavy. Stocks on hand were small. Marine fuel oils were rather quiet at \$1.05 for grade C bunker and \$2 for Diesel oil at nearby refineries. Gasoline demand fell off a little. Leading refiners quoted 834c. for U. S. Motor in tank cars at refineries, but 8½c. was said to have been accepted in some instances. Export business was quiet. Kerosene of late was easier with 41-43 water white freely offered at 734c. Buying was routine, and mostly confined to filling standing contracts. A fair movement of cased kerosene was reported to the Levant and the Orient, but bulk purchases were negligible. Lubricating oils were rather quiet and easier. quiet and easier.

Tables of prices usually appearing here wid be found on an earlier page in our department of "Business Indications," in an article entitled "Petroleum and Its Products."

quiet and easier.
 Tables of prices usually appearing here will be found on an earlier entitled "Peterioleum and its Products."
 RUBBER on the Sth inst. advanced at New York 40 to 0 points with sales of 1,262 tons. London advanced ¼d. and Singapore 1-16 to 3-16d. Large dealers bought. Wall the restriction committee's findings would advise joint action by British and Dutoh growers on reduced tapping and planting. The market was in the mood to accept this report at its face value. Standard ribs advanced ¼c. in the outside market. New York on the Sth inst. closed with February, 15.70 to 15.80c.; March, 16c.; May at 16.30c.; July, 16.70 to 16.80c.; September, 17.10 to 17.20c.; December, 17.70 to 17.80c. Outside prices: Ribbed and smoked sheets, spot and February, 1537 to 164.20c.; July-Sept., 167% to 17% cc; Oct.-Dec., 17% to 16% c; clean thin brown crepe, 14% to 14% c; is pecky crepe, 13% to 14c.; rolled erepe, 10 to 10.4cc.; No. 2 amber, 14% to 14% c; is logapore, February, 7.7-16d. On the 10th inst. New York sales were 717 tons closing 10 to 20 points lower though 30 points higher early in the day for the 5.80 c; March, 16 to 5.90cc; March, 16 to 16.40c, if No. 2 amber, 14% to 14% c; is medianed 1-16 to 14/d. higher. February have a small market here. London opened at 8d. for spot and February, but weakened and closed at 7% d. Singapore ended 1-16 to 15.70c.; January, 17.80 to 17.90c. Outside prices: Ribbed and smoked sheets, spot and 7 ebruary, 16 to 16.20c; January, 16 to 16.40c.; September, 17c.; Oetober, 17.20c.; December, 17.60c. January, 17.80 to 17.90c.
 Muther Market there is the following figures for January. Arrivals 47,462 tons against 43,542 in December, 17.20c.; December, 17.60c. 16.90c; March, 16 to 161/dc; spot first latex, 164/s to 163/sc.; is and the ison against 43,542 in December 1929 and 52,305 in January last year; docas 12,305 in January last year; on the 14% to 14% c; is addition in a stafe prices were, despite firm cables for liquidation in

an increase of 650 tons while a decrease of 100 tons is looked for in Liverpool. Final prices at New York show an advance for the week of 40 to 50 points. The London stock increased 1,022 tons for the week to 61,482 while Liverpool's stock decreased 137 tons to 19,761 tons.

1,022 tons for the week to 61,482 while Liverpool's stock decreased 137 tons to 19,761 tons. HIDES on the 8th inst. ended unchanged to 5 points higher with sales of 520,000 lbs. Feb., 13.90c.; March, 13.95c.; May, 14.15c.; Sept., 15 to 15.10c.; Dec., 15.40c. Common dry Orinocos, 16½c.; Maracaibo, 15½c.; Central America, 15½c.; Savanilas, 15½c.; Santa Marta, 16½c.; Puerto Cabello, 15½c.; Packer spready native steers, 16½ to 17c. Country hides were dull and weaker. Frigori-fico were said to be a little steadier. New York City calfskins 5-7s, 1.75c.; 7-9s, 2.20c.; 9-12s, 2.70 to 2.75c. On the 10th inst. prices advanced 5 to 30 points with sales of 560,000 lbs. May sold at 14.50c. but closed at 14.20 to 14.35c.; Sept. sold at 15 to 15.30c., closing at 15.30c. Dec. sold at 15.50 to 15.75c., elosing at 15.50 to 15.60c. River Plate frigorifico was firmer. No great advance has been recorded. United States buyers have cleaned up the Argentine market and 42,000 Argentine steers were sold last week at prices up to the equivalent of 17¼c. Of Uruguayan steers were 18,000 with last sales at 17 5-16c. On the 13th inst. prices declined 6 to 9 points with sales of 480,000 lbs. Sept. sold at 15.10 to 15.15c. closing at 15.20 to 15.25c.; Dec. sold at 15.55 to 15.60c., closing at 15.20 to 15.25c.; Dec. sold at 15.55 to 15.60c., closing at 15.20 to 15.25c.; Dec. sold at 15.55 to 15.60c., closing at 15.20 to 15.25c.; Dec. sold at 15.55 to 15.60c., closing at 15.60c. Country hides were dull and weak. Common dry were dull. Frigorifico firm with a fair demand from the United States. Imports of hide and skins into the United States during 1929 were 515,680,184 lbs. and above the average for the past three years, the largest indeed for any year since 1923, according to the Department of Commerce. To-day futures closed 5 points lower to 15 points higher, Feb. ending at 14c.; March, 14.10c; May 14.40c. and Sept., 15.16c. Final prices for the week show a decline on May of 10 points while Feb. and March are 10 to 15 points higher.

OCEAN FREIGHTS.-Grain rates were firmer.

CULARN FREIGHTS.—Grain rates were firmer. CHARTERS included sugar from Cuba, first half March, to United Kingdom-Continent, 15s. 6d. Tankers: New high record, 55s. for San Pedro, March-April, clean, to United Kingdom-Continent; rumored, dirty, to north of Hatteras from Gulf, 41c.; March-April, Gulf to French Atlantic, 45s., new high record; clean, March, Gulf to French Atlantic, 42s. 6d.; Gulf, clean, May, to United Kingdom-Continent, 34s.; March, Gulf to north of Hatteras, not east of New York, 40c. Time: West Indies round north of Hatteras, prompt, 90c.; west coast South America round, Feb., 95c.; West Indies round prompt, 90c.; prompt, Philadelphia-West Indies round, 65c

Feb., 95:: West indies round prompt, 90:: prompt, Philadelphia-West Indies round, 65c
TOBACCO.—In the main business has been quiet at steady prices. In about a month the Amsterdam sales will be held. At Mayfield sales for the week were 1,615,515
Ibs. at an average of \$10.20, 20c. higher than the preceding week. At Paducah sales for the week, 746,940 lbs.; average, \$9.50 or 42c. lower than the preceding week. At Murray sales for the week, 551,265 lbs.; average \$10.08, or \$1.35
lower than preceding week. At Hopkinsville sales for the week 2,198,790 lbs. of dark at an average of \$10.91 and 150,680 of burley average \$14.64. Dark 12c. and burley 98c. lower than preceding week. At Clarksville sales 1,765,-680 lbs.; average of \$13,53 or 79c. higher than preceding week. At Springfield sales 1,130,140; average, \$14.07, or 27c. higher than in the preceding week. Richmond, Va. to the U. S. Tobacco Journal: "Tobacco sales on the Black-stone, Va. market for the week ended Jan. 31 totaled 407,622
lbs. The average price was \$19.60. Sales for the season total 3,495,678 lbs.; average for season \$19.56. An in-crease of 1,405,837 lbs. over last season is revealed in the statistics and an increase of \$5.89 in the average price. Sales last week would no doubt have been the largest of the season, but for the heavy snowstorm of Wedesday night and Thurs-day. Sales on Wednesday were the largest of the season and three warehouses selling 154,000 lbs." Louisville re-ports that rapid selling of leaf will soon bring the season to a close; price are firm. San Francisco complains that money loans seem difficult to obtain except by big concerns. Havana reported to the "Journal": "During the previous week the majority of first and second capaduras of Remedios tobaccos sold were purchased for South America. This week, how-ever, heavy buying in these two grades was for the United States market." Damage to ripe Porto Ricean tobacco has been done by rains. Memphis, it is said, is doing a good whol TOBACCO.-In the main business has been quiet at

what larger. Crop reports are favorable. COAL. -Smokeless declined with the available supply somewhat larger at Hampton Roads. Recently they called slack f.o.b. nominally \$4.40 at piers but little if any trading was done at that price and later New River slack fell below \$4.20 and Pocahontas below \$4 and even as low in unusual cases as 3.70. Smokeless run of mine at the Roads was quoted at \$4.25 for Pocahontas. Soft coal was in better demand at Pittsburgh and Chicago. Fairmont and Buffalo prices, however, were a bit unsettled. In domestic an-thracite was rather slow at New York, But buckwheat has been in better demand. Independent No. 1 size has been held for \$3.50 with some sales at \$3.25. The circular

price is \$2.50 wholesale and \$7.15 to the house consumer. Later prices were easy enough at Hampton Roacs—rather to puzzle seeing that the production was nothing burdensome on its face. New River was \$4.05 to \$4.30 some said \$4.10 and Pocahontas anywhere from \$3.65 to \$4. For the best navy standard \$4.50 to \$4.60; average price somewhat below \$4.50. Of late anthracite has been quiet. Industries are slow in buying at this time. slow in buying at this time.

COPPER has of late been quiet and rather weak. Statistics for Jan. were rather bearish. In fact they showed the largest surplus stock of refined since May 1922. It increased 32,084 tons during Jan. It is now 203,404 tons. That is equal to about two months consumption. The production of refined copper in the two Americas reached 132,374 tons in Jan. a decrease of 5,829 tons. In the United States the output was 67,602 tons a decrease as compared with Dec. of 6,504 tons. Total stock in North and South America on Feb. 1 was 473,219 tons an increase in a month of 33,493 tons. Stocks of blister copper including copper in process in the two Americas on Feb. 1 were 269,815 tons an increase of 1,408 tons as compared with the same date last year. Producers talk 18c. At the Exchange on the 13th inst. there were no sales. Prices were easier. Feb., 17.40c. asked: March, 16.90 to 17.20c.; May, 16.50 to 16.80c.; July and beyond 16.50 nominal. In London on the 13th inst. standard spot declined £2 10s. to £71 15s.; futures dropped 15s. to £68 17s. 6d.; sales 300 tons spot and 200 futures. Electro-lytic was £83 10s. spot and £84 5s. futures. At the second session spot standard fell 15s. while futures advanced 5s.; sales 25 tons spot and 175 futures. To-day futures ended at 17.40c. for Feb., 16.90 to 17.60c. for March, 16.50 to 16.80c. for May, and 16.50c. for July. Final prices show a decline on Feb. for the week of 10 points, while other months are 20 points higher. COPPER has of late been quiet and rather weak. Statistics are 20 points higher.

are 20 points higher. TIN.—At some decline of late there has been a better business for consumption. On the 13th inst. Straits fell about ¼e. Prompt sold at 38.45c. and May at 39c. Prompt closed at 38.½c. on that day; March, 38.65c.; April, 38.85c.; and May, 39c. There was a very noticeable falling off in business at the Exchange. Prices fell 10 to 35 points. March closed at 38.35 to 38.40c. at the Exchange and May at 38.60 to 38.70c. On the 13th inst. London declined 12s. 6d. for spot standard to £173 15s.; futures off 15s. to £176 12s. 6d.; sales 50 tons spot and 250 futures. Spot Straits dropped 12s. 6d. to £176; Eastern c. i. f. London closed at £179 7s. 6d. with sales of 250 tons. At the second session standard fell 12s. 6d. on sales of 10 tons spot and 190 futures. To-day prices ended with Feb., 38.30c.; March, 38.40 to 38.50c. and May, 38.90c. Final prices are 10 to 40 points lower for the week.

LEAD has been rather slow with no striking features. Prices for East St. Louis remained on the basis of 6.10c. and New York, 6.25c. Consumers seem to be pretty well supplied for February. In London on the 13th inst. prices were unchanged at ± 21 13s. 9d. for spot and ± 21 11s. 3d. for futures: sales 200 those spot and ± 20 futures for futures; sales, 200 tons spot and 50 futures.

ZINC has remained very quiet. In fact it has been quieter of late than at any time since the beginning of the year. Consumers doubt the stability of present prices. That is plain. For February-March shipment 5.20c. for East St. Louis was quoted and 5.25c. for April and May. Sales of prime Western slab zinc in February for shipment were 10,327 tons at an average of 5.20c. East St. Louis. London on the 13th inst. declined 2s. 6d. on the spot to £19 11s. 3d. while futures were £20 1s. 3d. showing the same decline; sales 25 tons spot and 225 futures.

decline; sales 25 tons spot and 225 futures. STEEL.—Pittsburgh wired that there was only a slight increase in the demand for steel. Auto companies were buying little. It added that orders were not large enough to provide producers with operations of better than 65%. Sheet prices were called fairly steady. Black sheets gener-ally were 2.65c. Pittsburgh; single carloads sometimes 2.75c. Galvanized is 3.30c., with jobbers generally not receiving the former differential of \$2 a ton. Blue annealed 2.25c. for 13-guage sheets and 2.10c. for plates. Auto-body generally 3.90c. Specifications for cold finished steel cars and shafting are on a fair scale, but new business in the Pittsburgh district is not so good as a month ago. Un-filled orders for the U. S. Steel Corporation as of Jan. 31 showed an increase of 51,517 tons, bringing the total to 4,468,710, indicating that business in January must have been nearly 1,100,000 tons. The demand from the automo-bile trade though better than recently is not well distributed. been nearly 1,100,000 tons. The demand from the automo-bile trade though better than recently is not well distributed. Some mills are working at a much higher rate than others. Demand for steel in some directions increased according to later reports. Chicago production is up to 90%. It must be confessed, however, that in the Pittsburgh district it remains at 75%. The average for the country at large, however, is up to 79% an increase within a week of 2%. Railroads and structural works are buying on a scale that encourages makers of heavier rolled products.

encourages makers of neaver roled products. PIG IRON.—Buffalo iron was reported weaker with sales, it is stated, at \$16 a decline of 50c. for No. 2 plain and No. 2-X iron. In the South, it is stated, business is gradually improving. Birmingham wired that there was an increase of both sales and melt. Production of pressure pipe, radiation and other products was steady and numerous orders continued for iron, though in small quantities and for delivery shortly. New

There are few if any signs of buying for York was dull. the second quarter.

York was dull. There are few if any sighs of buying for the second quarter.
WOOL has been in better demand and steady. A Government report from Boston said: "Inquiries for the 58s. 60s and 64s or finer territory wools are more frequent and they involve substantial weights of wool. Sales are being closed somewhat more freely on these grades at steady prices. Private cable advices from abroad indicate that the improvement noted in South American markets last week is being maintained. Australia is reported firmer and New Zealand stronger." Ohio and Pennsylvania fine delaine, 33 to 34c.; ½ blood, 35 to 36c.; ¾ blood and ¼ blood, 36 to 37c. Territory, clean basis, fine staple, 78 to 80c.; fine medium French, combing, 73 to 75c.; medium, clothing 70 to 72c.; ½ blood staple, 75 to 77c.; ¾ blood, 70 to 72c. Texas clean basis, fine, 12 months, 75 to 76c.; 8 months, 68 to 70c.; fall, 67 to 72c. Pulled, scoured basis, A super, 75 to 80c.; B, 65 to 70c.; C, 50 to 55c. Domestic, mohair, original Texas, 49 to 50c. Australian, clean basis, in bond, 64-70s, combing super, 60 to 62c.; 64-70s, clothing, 53 to 55c. New Zealand, clean basis, in bond, 58-60s, 50 to 51c.; 56-58s, 48 to 50c. Montevideo grease, basis in bond, 58-60s, 24 to 25c.; II (50s), 23 to 24c.; Buenos Aires, grease basis, in bond, III (46-48s), 22 to 23c.; IV (40-44s), 20 to 21c. Cape, clean basis, in bond, average longs, 54 to 55c.; best combings, 56 to 57c.
On Feb. 8 at Timaru sales closed with prices fairly firm.

55c.; best combings, 56 to 57c. On Feb. 8 at Timaru sales closed with prices fairly firm. Of the 14,000 bales offered 12,000 sold. There was a repre-sentative selection of crossbreds, but merinos were poor. Yorkshire, the Continent and America were fairly active with fine crossbreds wanted. Compared to the close of Dunedin sales crossbreds ranged from par to 5% higher, merinos ruling in sellers' favor. Prices paid for merinos averaged 10d. to 14d. Crossbred 56-58s, realized 10¼d. to 13¼d.; 46-48s, 8½d. to 10¼d.; 40-44s, 6¼ to 7¾d. At Christehurch on Feb. 12th 22,500 bales were offered and 19,900 sold. British and Continental buyers bought freely. A feature was increased bidding by Americans. Fine and medium crossbreds were in particular demand. Compared with the sales at Timaru on Feb. 8 prices on crossbreds ranged from par to 5% higher; merinos were unchanged, ranging from 9d. to 11¾d. Best crossbred 56-58s sold at 13¾d.; 50-56s, 13d.; 48-50s, 11d; 46-48s, 8½d.; 40-44s, 7¾d. The Perth sale, originally fixed for February 18 has been postponed to March 4. SILK closed 2 points lower to 1 point higher on new con-

SILK closed 2 points lower to 1 point higher on new con-tracts with sales of 50 lbs. February ended at 4.55c.; March, 4.53 to 4.55c.; May, 4.48 to 4.50c. and Sept. at 4.41 to 4.43c. Final prices show February unchanged for the week while March is 1 point higher.

COTTON

Friday Night, Feb. 14 1930. THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 53,506 bales, against 82,277 bales last week and 87,594 bales the previous week, making the total receipts since Aug. 1 1929 7,223,628 bales, against 7,929,028 bales for the same period of 1928, showing a decrease since Aug. 1 1929 of 705,400 bales. Friday Night, Feb. 14 1930.

*Beginning with the season of 1926, Houston figures include movement of cotton previously reported by Houston as an interior town. The dis-tinction between port and town has been abandoned.

The exports for the week ending this evening reach a total of 107,423 bales, of which 22,341 were to Great Britain, 9,958 to France, 28,879 to Germany, 12,451 to Italy, 13,982 to Japan and China, and 19,812 to other destinations. In the corresponding week last year total exports were 108,644 bales. For the season to date aggregate exports have been 5,087,798 bales, against 5,836,629 bales in the same period of the previous season. Below are the exports for the week.

In view, however, of the numerous inquiries we are receiving regarding the matter, we will say that for the month of December the exports to the Dominion the present season have been 19,385 bales. In the corresponding month of the preceding season the exports were 37,170 ba-es. For the five months ended Dec. 31 1929 there were 99,437 bales exported, as against 117,101 bales for the five months of 1928.

In addition to above exports, our telegrams to-night also give us the following amounts of cotton on shipboard, not cleared, at the ports named:

*Estimated.

Speculation in cotton for future delivery has been on a very fair scale, and, in the main, at rising prices, with a better trade demand and heavy covering of shorts owing to aggressive action by the Farm Board. The Board is criticized here for engaging in the cotton trade to the extent that it has. But this does not alter the fact that the shorts are nervous and cover very quickly on the first alarm. Moreover, the textile outlook is better than it was a week ago, both at home and in Lancashire. On the 8th inst. prices advanced 20 to 30 points in an evidently short market. Long liquidation had left the technical position much better. There was a better tone in Liverpool. It was announced by the agents of the Farm Board here that the recently taken over holdings here of the Co-operative Associations had not been taken for the purpose of liquidation. The inference drawn here from this statement was that they would be disposed of at the convenience of the Farm Board. The American Cotton Crop Service said that preparation of the ground for the next cotton crop made some progress, but is generally behind; that while the delay is not yet serious, late preparation detracts from yield probabilities, and after Feb. 15 begins to affect the acreage. This year the Government is behind the movement to reduce the acreage. Spot markets advanced 7 to 20 points, and for the first time recently were larger than on the same day last year. But the main thing in the situation here was a better technical position after a recent decline of 2 to 21/2c. There was said to be a better feeling in Worth Street, though actual business was small. Manchester, too, was dull.

On the 10th inst. prices advanced 30 to 40 points, owing to strong cables, light offerings, and a bullish technical position. The agents of the Farm Board here, it was stated, to strong cables, light otherings, and a burnish technical position. The agents of the Farm Board here, it was stated, took over 100,000 bales on Saturday on the basis of the closing prices of the 7th inst. The trade, spot firms, Liver-pool and Wall Street bought. The short account formed on the recent decline of 2 to 2½c, was large. Cotton has recently been selling at 2 to 2½c, under the Farm Board loan price, and it is said 2c, under the cost of production. Also spot cotton has sold at some 4¾c, under the spot price of a year ago. Cotton goods have been selling in many cases at the same level of prices as when cotton was selling at 12½c. In other words, cotton goods have been selling at 3c, under the recent price for cotton. On the 11th inst, prices advanced 17 to 20 points net on scarcity of contracts and a good demand from the trade, Wall Street, and, to cap the climax, apparently from in-terests acting for the Farm Board. They were said to have bought 25,000 bales, mostly July. Also the Exchange Service estimated the domestic consumption in January at 590,000 bales against 453,000 in December, and, it must be added, 000 bales against 453,000 in December, and, it must be added, 000 bales against 453,000 in December, and, it must be added, 000 bales against 453,000 in December, and, it must be added, 000 bales against 453,000 in December, and, it must be added, 000 bales against 453,000 in December, and, it must be added, 000 bales against 453,000 in December, and, it must be added, 000 bales against 453,000 in December, and, it must be added, 0000 bales against 453,000 in December, and, it must be added, 0000 bales against 453,000 in December, and, it must be added, 0000 bales against 453,000 in December, and, it must be added, 0000 in 15000 bales, mostly July.

estimated the domestic consumption in January at 590,000 bales against 453,000 in December, and, it must be added, 668,268 in January last year. But the gain of 136,000 in January over December, it was believed by some, meant the beginning of an improvement for the year 1930. Also the Textile Merchants' Association had stated the night before that the shipments of standard cloths in January had reached 102.5% against 87.9 in December, and that stocks in January had decreased 1.8% against an increase in De-cember of 6.9%. The Exchange Service says that the stock of East Indian cotton is smaller than that of a year ago. That is something new. It seems that India consumed and exported in the five months ended Jan. 1, 2,109,000 bales against 1,833,000 in 1928 and 1,560,000 in 1927. This cut into supplies. At the close of December this season the balance supply in India, including the unharvested and uninto supplies. At the close of December this season the balance supply in India, including the unharvested and un-marketed portion of the new crop, was about 5,268,000 bales against 5,741,000 on the same date last season and 5,222,000 two seasons ago. That is to say, the stock in India on Jan. 1 this season was 473,000 bales less than a year previously, if it was about the same as two seasons ago. Distribution by India, through domestic consumption and exports, from Aug. 1 to Dec. 31 was about 276,000 bales more this season than last season, and 549,000 bales more than two seasons than last season, and 549,000 bales more than two seasons ago. It is added that India cannot continue to distribute cotton at the high rate prevailing in recent months without reducing its stock to below an average total. Some are afraid that the Farm Board will exact delivery on its purchases of March cotton. The Grain Stabilization Corp. was set up on the 10th inst. It began to function on the 11th inst. Some were afraid something of the kind might be inst. Some were afraid something of the kind might be organized in the cotton trade. Spot cotton was 15 points higher. Yet at first on the 11th inst. prices were 20 to 23 points lower, so little can be told nowadays by the early prices. Some of the textile figures for January were not cheering for a bull. For instance, unfilled orders fell off 9.2% in January and the ratio of sales to production was only 90.3% in a month of five weeks. And, heterodox as it seems to some, there are people who do not have much, if any, faith in Governmental measures to stabilize prices. They say that the only thing that will help the cotton is to cut down production both in the cotton field and the cotton mill. mill

On the 13th inst. prices declined early 15 to 20 points on On the 13th inst. prices declined early 15 to 20 points on rather poor Liverpool cables, a somewhat weaker technical position and liquidation after a rise in four trading days of 80 to 90 points. Later came a sudden upturn of 25 to 30 points on a sudden falling off in the offering, trade buying; buying by Liverpool and France, and scattered covering. But when this buying slackened prices reacted again and ended at a net decline for the day of some 7 to 15 points. The International Bulletin of the British Master Spinners quoted an estimate of the world's consumption of Amer-ican cotton at 14,600,000 bales against 15,076,000 from the same statistician last year. On this side the consumption same statistician last year. On this side the consumption

gitized for FRASER p://fraser.stlouisfed.org/

last year was estimated at 15,169,000 to 15,250,000 bales. British exports of yarns in January were 13,000,000 pounds against 17,000,000 in January last year and 19,093,000 in January 1913. The British exports of cloths in January were only 313,000,000 yards against 379,000,000 in January 1929, and 648,912,700 in January 1913. To-day prices were very irregular, rising at one time 15 to 23 points, but afterwards losing most of the advance, and then rallying and ending 5 to 10 points net higher for the day. The weekly statistics were for the most part con-sidered bearish, although the quantity brought into sight according to one calculation was 66,000 bales smaller than in the same week last year. The domestic consumption in January was stated by the Census Bureau at 577,235 bales against 453,892 bales in December and 668,286 in January last year. This had no great effect. It was found to have been practically discounted. The Bureau of Eco-nomics at Washington, however, stated the amount of tento have been practically discounted. The Bureau of Economics at Washington, however, stated the amount of ten-derable cotton in this crop up to January 16 at only 76.4% against 83.14 up to the same time last year; untenderable, 23.6% against 16.68 for the same time last year; $\frac{1}{3}$ to 1 1/32-inch tenderable 65.7% against 73.51 for the same time last year. Moreover, spot markets were higher, though not at all active. Liverpool reported a better spot demand. Worth Street was a little more active at 6½c. for print cloths, which recently sold at 6%c; that is, $38\frac{1}{2}$ -inch 64x60s. Manchester had a broadening demand, which is something new. Moreover, domestic and foreign mills were more dis-posed to buy there. This included British and Continental interests. There is said to be a large short account for Bombay in Liverpool in the shape of hedges and straddles. Some of the shorts were covering in March and switching to the late months fearing that the Farm Board might call for delivery on March contracts. German spinners, it is said, fixed prices on a very fair scale. Final prices show a rise for the week of 54 to 68 points. Spot cotton ended at 15.85c., a net advance for the week of 65 points.

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week Ended	Rece	ipts at P	Ports.	Stocks o	u Intertor	Towns.	Receipts	from Pla	ntations
Linucu	1929.	1928.	1927.	1929.	1928.	1927.	1929.	1928.	1927.

	104,523 98,388 87,594 82,277	172.340 151.177 171.761 155,731 135.078	117,331 122,215 120,405 139,567	1,477,345 1,456,833 1,432,387 1,403,107	1929. 1,240,631 1,203,459 1,161,140 1,118,699 1,072,678 1,007,913 966,412	1,261,688 1,212,543 1,180,096 1,134,087	138,073 84,011 73,942 58,314 34,701	135,168 108,858 129,320 109,710 70,313	1928. 77.113 83.487 78.070 82.958 93.558 65.392 68.945

from the plantations since Aug. 1 1929 are 8,315,458 bales; in 1928 were 8,557,673 bales, and in 1927 were 7,557,326 bales. (2) That, although the receipts at the outports the past week were 53,506 bales, the actual movement from plantations was 23,972 bales, stocks at interior towns having increased 29,534 bales during the week. Last year receipts from the plantations for the week were 40,069 bales and for 1928 they were 68,945 bales.

1929-30 1928-29 1927-28	3,000	5,000 33,000 16,000		5,000 33,000 19,000	$70,000 \\ 56,000 \\ 58,500$	332,000 276,000 269,000		402,000 332,000 327,500
Total all— 1929-30 1928-29 1927-28	2,000	46,000 54,000 50,000		111,000 54,000 67,000	110,000 82,000 91,500	757,000 699,000 566,000	783,000	1,600,000 1,564,000 1,181,500

According to the foregoing, Bombay appears to show an increase compared with last year in the week's receipts of 67,000 bales. Exports from all India ports record an increase of 57,000 bales during the week, and since Aug. 1 show an increase of 36,000 bales.

ALEXANDRIA RECEIPTS AND SHIPMENTS.—We now receive weekly a cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years:

Alexandria, Egypt, Feb. 13.	192	₽ - 30.	192	8-29.	192	7-28.
Receipts (cantars)— This week Since Aug. 1	6,1	85.000 17.047		00,000 01,194		05,000 02,442
Exports (bales)—	This Week.	Since Aug. 1.	This Week.	Since Aug. 1.	This Week.	Since Aug. 1.
To Liverpool To Manchester, &c To Continent and India. To America	10,000 7,000	$\begin{array}{r} 102,242 \\ 102,648 \\ 292,344 \\ 69,317 \end{array}$	7,000	$\frac{116,405}{116,072}\\305,333\\101,081$	8,000	95,163 243,686
Total exports	17,000	566,551	30,000	638,891	19,550	503,737

Note.—A cantar is 99 lbs. Egyptian bales weigh about 1,750 lbs. This statement shows that the receipts for the week ending Feb. 13 were 185,000 cantars and the foreign shipments 17,000 bales.

185,000 cantars and the foreign shipments 17,000 bales. MANCHESTER MARKET.—Our report, received by cable to-night from Manchester, states that the market in both yarns and in cloths is steady. Demand for both yarn and cloth is improving. We give prices to-day below and leave those of previous weeks of this and last year for comparison:

BREADSTUFFS

Friday Night, Feb. 14 1930.

Flour at New York was for the most part quiet, awaiting developments in the wheat market. There were reports from the West of a better business recently. Clearances on the 11th inst. were 8,000 barrels in all from New York and Baltimore. Domestic trading was light and there was no real snap in the export demand. Chicago wired that a rush to buy flour when wheat prices took their drastic drop last week found millers at a peculiar disadvantage. Flour buyers were acting on the strength of the decline in wheat futures, while the actual cash wheat which the millers needed was being held steady, several cents above the futures, by the activities of the Farm Board subsidiaries. The result was that the bakers and other large flour buyers demanded their flour at prices in line with the low futures market, while the millers could not buy their wheat on any

such basis. Nevertheless, millers generally sold more flour than at any time in recent weeks. Bookings ran from 80 to 100% of mill capacity, whereas in January new business was averaging less than 25% of capacity.

Wheat was helped by the establishment of the Grain Stabilization Corp., which began to function early in the week. But, on the other hand, export trade was dull under the competition of other countries. That was a big drawback. Stocks in the United States are large, and the foreign outlet is quite the reverse of satisfactory. Prices show only a trifling rise for the week. On the Sth inst. prices closed ¼c. lower to ¼c. higher. The market was uncertain. It was awaiting action on the Stabilization Board. Liverpool was very disappointing. It closed ¾d. to 1¼d. lower. That was much lower than was due. The weakness in Liverpool was attributed to lower prices for Argentine wheat and the pressure of nearby Australian shipments on a dull market. Yet Buenos Aires ended at ¾ to ‰c. higher, with the exchange rate ¼c. higher at 38. But export business was small. There were reports, afterwards denied, that the Western Canadian wheat pool was asking for financial help from the Canadian Government.

small. There were reports, afterwards denied, that the Western Canadian wheat pool was asking for financial help from the Canadian Government. On the 11th inst. prices ended ¼ to 1% c. higher, with the Farm Board in operation. The idea was that the price would be maintained at a minimum of \$1.18 at Chicago for No. 2 hard winter. The Farm Board was said to have received \$10,000,000 as the first contribution towards stabilizing wheat. The Canadian pool said that British requirements were larger than had been estimated. Bad weather was reported on the Continent. On the 13th inst. prices advanced early 1½ c., but lost this and ended about ¼ c. net lower in Chicago and 1½ to 1% c. lower in Winnipeg. Export demand was poor; sales were only 300,000 bushels, largely Manitoba. There is a lack of snow covering over a large area of the winter wheat belt. Complaints are heard of alternate thawing and freezing. But they had little effect in the long run. And so with the statement of a member of the Farmers' National Grain Corp. at Minneapolis that \$1.25 for No. 1 Northern was the lowest price at which wheat should sell based on known conditions. Russia, on the other hand, was reported to have sold 10,000 tons of spot wheat to Hamburg at equal to \$1.32 per bushel. Elevator interests were buying at Minneapolis, but the cash business there fell off. Some grades were 1 to 2c. lower than futures. Co-operatives continue to buy country run of wheat at Minneapolis at the Farm Board loaning price.

loaning price. The Federal Farm Board, according to Washington reports definitely committed itself to an attempt to stabilize the wheat market through recognition of the Grain Stabilization Corp. Later it was said to be buying in six States through co-operatives. London cabled, Feb. 8: "Referring to January's break of 7 shillings per quarter in imported wheat, after comparative stability during the last four months of 1929, the London "Economist" draws the inference editorially that maintenance of the North American Producers' plan of withholding stocks from the market with a view to higher prices may become a matter of great difficulty. It suggests that even the Canadian wheat pools may be facing formidable losses. The wheat market's history in recent months, the "Economist" thinks, illustrates once again in a forceful manner the insuperable difficulty of trying to stabilize the supply of any commodity which is dependent on weather. It also illustrates the "boomerang" effect on prices which such experiments frequently produce." Some comment was: "The wheat pool has developed a powerful influence on the price of Canadian wheat, but we need support from other wheat-growing countries, especially the Argentine, Australia and the United States." To-day prices closed 1% to 2%c. lower on active trading.

United States." To-day prices closed 1% to 2½c. lower on active trading. The cables were lower. Export sales were only 300,000 to 400,000 bushels, largely Manitoba. Liverpool closed 1½d. lower, and Buenos Aires was 1½c. off. The surplus in the Pacific Northwest is said to be the largest ever known at this time of season. The prospects seem to point to another large winter wheat crop. At the Canadian Northwest it was very cold, with little or no snow covering left. But this failed to count. The co-operatives continue to buy cash wheat. Mills, moreover, wanted the better qualities in the Northwest. They are said to have bought 300,000 bushels of winter wheat out of store at Minneapolis. In Omaha the Farm Board bought 22 cars of hard wheat. The Australian visible supply is stated at 62,000,000 bushels against 75,000,000 a year ago. Argentine shipments were 2,805,000, and Australia 1,592,000. Bradstreet's North American exports were 5,203,000. So that the world's shipments this week look like 11,000,000 bushels. To-day showed a lack of snap, a lack of real rallying power. Final prices, however, show comparatively little change for the week; they were ½ to 1½c, higher than last Friday.

Indian corn, with better weather and somewhat larger offerings from the country, ended somewhat lower, wheat giving this cereal very little help. The cash demand, more-over, has slackened. On the 8th inst. prices ended $\frac{1}{4}$ to $\frac{1}{2}c$, higher, despite favorable weather and some selling on that account. But offerings were promptly taken. Be

over, has succened. On the Stn inst. prices ended $\frac{1}{4}$ to $\frac{1}{4}$ c, higher, despite favorable weather and some selling on that account. But offerings were promptly taken. Re-ceipts did not increase despite the more favorable weather conditions. On the 11th inst. prices closed unchanged to $\frac{1}{4}$ c. lower, after some early advance. The accumulation of stocks thus far this season has not been so large as usual. Country offerings were small. Shippers had a better trade. On the 13th inst. prices ended $\frac{1}{2}$ to $\frac{1}{3}$ c. lower, partly in sympathy with the decline in wheat. The weather was favorable. In the Omaha territory country offerings were larger. Cash markets were weaker. It is said that there will be an import duty imposed by Congress of 25c. per bushel. Canada is said to have been a fair buyer of Argen-tina corn of late. Argentina, it seems, is offering to sell at 83c. c.i.f. bay ports. Shippers had a better outside demand and reported a good business. Still the influence of wheat and some liquidation sent prices downward in the later trading. To-day prices ended $\frac{1}{6}$ c. lower, with the weather favorable, wheat down and liquidation something of a feature. On the decline professionals bought and shorts covered, which acted as a check on any downward move-ment. Also some were buying corn against sales of wheat. and that indications now point to a smaller crop than in recent years. But country offerings were larger at the West, while cash business was on only a moderate scale. Final prices show a decline for the week of $\frac{1}{2}$ to $\frac{3}{4}$ c.

Oats show practically no change for the week. They are a triffle lower in sympathy with the sluggishness of other grain markets. On the 8th inst. prices ended unchanged to ½c. higher. They were sustained partly by the firmness of other grain. On the 11th inst. prices were ¼ to ¾c. higher in response to the better tone in other grain. But the trading was small. This meant, however, that there was very little pressure to sell. On the 13th inst. prices ended ½ to ¾c. lower. Texas, it is said, will have the largest crop planted ever known, in at least some sections of that State, and also in Oklahoma. To-day prices ended ½ to ¾c. lower in sympathy with the decline in other grain, and also because of liquidation and other selling. One unfavorable feature was that shorts were the largest buyers. The outside public did not seem disposed to take hold. Final prices were unchanged to ¼c. lower for the week. Oats show practically no change for the week. They are

Rye has dropped some 1 to 4c. during the week, with a

Rye has dropped some 1 to 4c. during the week, with a lack of export demand and at times a weaker tone in wheat, notably to-day. On the 8th inst. prices ended un-changed to ½c. lower on some liquidation and the old draw-back of export dullness. On the 11th inst. prices advanced ¼ to 1¾c. The rise was checked by considerable selling of May at 85c. Shorts were about the only buyers. On the 13th inst. prices ended unchanged to 1c. lower in sym-pathy with the drop in wheat. There was also more or less scattered selling. On the other hand, the trading was on a small scale. The open interest is said to be of fair size. To-day prices ended 1c. lower in response to the drop in wheat and because of the old trouble of the lack of export trade. In Winnipeg rye dropped 2 to 2¼c., but rallied later and ended unchanged to ¼c. lower. At Chicago final prices show a decline for the week of 1 to 1¾c. WEATHER BULLETIN FOR THE WEEK ENDED FEB. 11.-The general summary of the weather bulletin issued by the Department of Agriculture, indicating the influence of the weather for the week ended Feb. 11 follows:

Intence of the weather for the week ended Feb. 11 follows: At the beginning of the week a "low" was central off the New England coast, and another was over the lower Lake region. The eastern "low" had been attended by widespread precipitation over most of the more eastern States, while scattered rain or snow was reported elsewhere. Ex-cept for this more or less general precipitation, there were no widespread falls during the week, although some locally heavy amounts were reported, principally on the Florida Peninsula and in the far Northwest. Temperatures were generally moderate for the season, with no damaging cold weather in the South, while subzero readings were confined to local places in the more northern States. It was extremely cold in the North-east on the 6th when a minimum of 30 deg. below zero was reported from Canton, N. Y., but with this exception there were practically no subzero temperatures noted at first-order stations.

and seeding oats delayed. No material damage to white wheat by January freeze and condition generally good. Pastures short and poor; livestock thin.
 Arkansas.—Little Rock: Warm, dry weather of past week very favorable. Fields and dirt roads drying rapidly; fields about dry enough for work to begin in many portions and some gardens started. Pastures becoming green. Wheat, meadows, rye, and apples in good condition; oats killed in most portions. Enough peach buds escaped frost in central and southeast to make good crop, but all buds and many trees killed in most portions.
 Tennessee.—Nashville: Prevailing temperatures somewhat above seasonal average, with rain first and last of week. Favorable for winter grains in east, while less advanced in central and west. Plowing to some extent. Livestock fair.
 Kentucky.—Louisville: Moderate temperatures. Some heaving from night freezes on saturated soils; otherwise winter grains are mostly in week, but water drained off toward end. Favorable for movement of tobacco.

THE DRY GOODS TRADE

New York, Friday Night, Feb. 14 1930. Little of importance transpired in the textile markets during the past week, aside from the settlement of the gar-ment strike. On Wednesday evening representatives of the union signed an agreement with manufacturers which is expected to bring peace to the garment industry during the next two years. The strike, which lasted eight days and

was claimed to be the shortest general strike in the garment industry, ended with the workers victorious in virtually all of their demands. Chief among the latter was the appointindustry, ended with the workers victorious in virtually all of their demands. Chief among the latter was the appoint-ment of an impartial board to settle disputes. Operators began to return to their work Thursday morning, and it is expected that by Monday all of the strikers will have re-turned. It is believed that the strike has been terminated with a minimum of loss to all concerned, owing to the prompt settlement. Had it been prolonged, there might have been many adverse results, but manufacturers are now looking forward to a revival of active business. Another encourag-ing feature during the week was the increase in retail trade which began on Lincoln's Birthday, when ideal shopping weather prevailed. This was considered as a significant indicator that when really favorable climatic conditions return throughout the country the spring season will get off to a good start. The industry is confident that a satis-factory season will be experienced. Such sentiment has been increased of late by reports from industrial centers stressing increasing business and expansion of employment which, naturally, will augment consumer purchasing power. Another stimulating factor has been the firming tendency of some of the raw materials. For instance, raw cotton has necovered from the recent low levels. Although this has not caused any appreciable increase in business, there has been a revival in demand for certain types of needed cloths. Raw wool has also displayed a strengthening undertone, especially in foreign markets. wool has also displayed a strengthening undertone, Raw especially in foreign markets.

especially in foreign markets. DOMESTIC COTTON GOODS.—Although the decline in raw cotton values has been arrested, buyers in the markets for domestic cotton goods continue more or less apathetic. Confidence in the maintenance of "futures" prices is lack-ing, as a general rule, and cloth buyers have been limiting purchases to fill-in orders. Anticipatory commitments have been conspicuous by their absence. Buyers of both large and small sized lots have been decidedly timid as a conse-quence of the unsettling conditions which have developed in the midst of moving their spring goods. In fact, the decline in raw material prices has been so persistent that many buyers have withdrawn from the market until more stable conditions prevail. As a result, cloth values have receded until they are considerably below the parity of raw cotton. This, in turn, has encouraged manufacturers of finished goods to further curtail their operations so as to avoid accumulations of goods while their unfilled orders continue to decline. At current levels, prices are admittedly to avoid accumulations of goods while their unfilled orders continue to decline. At current levels, prices are admittedly attractive from many angles, and if the raw "futures" market should return to normalcy, the trade is reasonably certain that there would be a sharp increase in business. It is reasoned that with the raw product evidently so thoroughly deflated, it is only a question of time before the speculative pendulum swings in the opposite direction. Even now the goods market is not without its more favorable features. There were important developments along these features. There were important developments along these lines during the past week. First was the restoration of dividends by the Amoskeag Mfg. Co. This action on the part of one of the oldest and most capably managed mills was taken to indicate that the management sees the beginwas taken to indicate that the management sees the begin-ning of the end of the long period of deflation. Secondly, the January statistics covering the production and distribu-tion of cotton goods, compiled and published by the Associa-tion of Cotton Textile Merchants of New York, were rather better than expected. They placed sales at 90.3 and ship-ments at 102.5% of production, while stocks on hand at the end of the month declined 1.8 and unfilled orders 9.2%. Print cloths 27-inch 64x60's construction are quoted at 4%c., and 28-inch 64x60's at 4%c. Gray goods in the 39-inch 68x72's construction are quoted at 7%c., and 39-inch 80x80's at 9c.

WOOLEN GOODS .- Sentiment in the markets for woolens WOOLEN GOODS.—Sentiment in the markets for woolens and worsteds continued cheerful during the past week, chiefly owing to the firming tendency of raw wool values. Actual business, however, was rather irregular. This was principally due to the fact that distribution of men's wear fabrics was small pending the openings of fancy lines for fall. On the other hand, demand for women's wear fabrics continued active, with basket weaves, tweeds and various fancies the features. Now that the garment strike has been settled, work will be resumed on the manufacture of blouses which go with tailored suits. The output of these styled goods has increased considerably of late, as it is expected that they will be very popular during the coming season. season.

FOREIGN DRY GOODS .- Aside from the sustained de-FOREIGN DRY GOODS.—Aside from the sustained de-mand for linen suitings and dresses, markets for linens are somewhat less active than they have been during recent weeks. However, prices continue firm and reports of con-cessionnaire offerings have been emphatically denied by pro-ducers who claim that quotations are already at rock bottom. Increased activity is expected during the coming months, especially in damask tablecloths and luncheon sets. It has been pointed out that stocks in distributive channels throughout the country are exceedingly small and with throughout the country are exceedingly small, and with more intensive efforts on the part of both Irish and French producers to cultivate the American market, offerings are becoming much more attractive, which should stimulate a more popular demand among consumers. Burlaps have been generally quiet, with but slight change in prices. Light weights are quoted at 5.05c., and heavies at 6.65c.

New York State.—Changes in List of Legal Investments. —The following comprises securities which have been found by the State Banking Department to be legal investments for by the State Banking Department to be legal investments for savings banks and trust funds during the past year, since the issuance of the Dec. 1 1928 list, and which were inadvertently omitted from the additions and removals to the investment list as it appeared in V. 130, p. 1003. The greater number of additions consists of railroad obligations owing to the fact that railroad bonds comprise a large part of the total obligations listed. The additions are:

obligations listed. The additions are: Atchison, Topeka & Santa Fe adjustment 4s of 1995; convertible 4s of 1955 and 1960; convertible debenture 4½s of 1948; California-Arizona Lines ist refunding 4½s of 1962, series A and B; Rocky Mt. Division 1st 4s of 1965, and Transcontinental Short Line 1st 4s of 1958. Chesapeake and Ohio gen. 4½s of 1992; ref. and imp't 4½s of 1993, series A; Craig Valley Branch 1st 5s of 1940; Potts Creek Branch 1st 4s of 1968; Richmond Allegheny division 1st cons. 4s of 1989, 2nd cons. 4s of 1989, and the Warm Springs Valley Branch 1st 5s of 1941. Cleveland, Clincinnati Chicago and St. Louis ref. and imp't 4½s of 1977, series E; ref. and imp't 5s, 1963, series D; ref. and imp't 6s, 1941, series F; Cairo 1st 4s of 1930; Clincinnati Wabash and Michigan1st 4s, 1991; deb. 4½s of 1931; European Loan 4s, 1930. Great Northern gen. 7s, 1936, series A; gen. 5½s, 1951, series B; gen. 5s, 1973, series C; gen. 4½s, 1976, series D, and the gen. 4½s, 1977, series E. Lehigh Valley cons. 4½s, 2003, and the gen. cons. 5s of 2003. Norfolk and Western conv. 4s of 1932; conv. 4½s, 1938, and div. of 1st lien and gen. 4s of 1942. Also included are Pennsylvania's gen. 6s, 1970 and the secured 6½s, 1936, and the secured 7s, 1930. One railroad bond included in our list and which should

One railroad bond included in our list and which should

have been omitted was the following: Buffalo, Rochester and Pittsburgh gen. mtge. 55, 1937, and the cons. mtge. 4½s of 1957; also the Hocking Valley Rallway 1st cons. 4½s of 1999, and several obligations of the smaller rallroads. A few changes are noted in the public utilities division of the legals list. In the additions there should have been included the following: the legals list. In the additions there should included the following: Alabama Power Co. 1st and ref. 5s of 1968. Brooklyn Brough Gas Co. gen. and ref. 5s, 1967. Consumers Power Co. 1st lien and unifying 4½s of 1958. Southern California Edison ref. 5s, 1954. Waterbury Gas Light Co. 1st 4½s of 1958. The bonds of the Poonles Cas Light & Coke (

The bonds of the Peoples Gas Light & Coke Co., are now omitted from the list.

omitted from the list. South Carolina.—Repeal of Highway Bond Act Sought in Bill.—An Associated Press dispatch from Columbia to the New York "Times" of Feb. 12 reports that Representative C. L. Johnson of Spartanburg County introduced a bill in the House on Feb. 11 which would repeal the \$65,000,000 highway bond act passed by the State Legislature in 1929— V. 128, p. 1772, 1958. He is reported to have said that the bond act would be tied up in litigation for another year and that by repealing it the State would be enabled to continue highway construction, using funds from the 6 cent gasoline tax.

BOND PROPOSALS AND NEGOTIATIONS.

AKRON, Summit County, Ohio.—SALE NOT CONSUMMATED.— BONDS RE-OFFERED.—The award on Jan. 13 of six issues of bonds ag-agregating \$1,507,000 to a group headed by Halsey, Stuart & Co., of Chicago as 445s and 434s, at 100.098, an interest cost basis of about 4.528%—V.
130, p. 496—was not consummated.
