### The Financial Situation

LTHOUGH [noting with gratification the current reports of excellent business done at retail during the past few weeks, the continued upward trend of several of the other indexes, and the prospect of further moderate improvement in the activity of general business, forward-looking business and financial leaders are naturally concentrating their attention more and more upon the situation in Washington. What is expected to be the most radical Congress in the history of the country will convene within a few days. The President, with reports heaped about him from his own advisers proposing numerous remarkable and costly schemes, is occupied with the task of reaching final decisions as to what he will say both to Congress and the country in his regular message on the state of the Union and about the

While in the very nature of existing circumstances the uncertainties inherent n this situation will in substantial part continue for some time to come, the events of the next week or two, and probably those of the next week, will afford a better basis for judgment of what is ahead of us during the next year. latest reports from Washington suggest that the President will endeavor to avoid inflicting a shock upon the business community in his early recommendations to Congress, and in outward form at least undertake to give business an opportunity to get on a better footing during the next few months.

### **Deferring Decisions**

To this end it is suggested that the President

will either ask for large appropriations in a form that will enable him to decide at a later date (when possibly business conditions have improved and relief burdens become less troublesome) whether the funds thus provided will actually be expended and to what extent they will be laid out, or else he will for the present ask only such moneys, outside of the so-called regular budget, as are deemed necessary to carry the Treasury for a few months, leaving for the future the task of estimating the amount of funds really required and asking Congress to furnish them. In either case, according to report, he would have some conciliatory words for business and express the hope that industry and trade, given further opportunity, will respond to his policies with a strong upturn in activity.

No more than anyone else can we know whether the President will actually adopt any such policy, but it seems to us that if he does, he will succeed in doing little besides prolonging in a degree the uncertainty surrounding the situation as it now stands. So far as we can observe there has not been the

major improvement in business which some of the "brain trust" imagine they detect and upon which important changes in the Administration's program appear to depend. Nor are we able to believe that any such improvement is within the range of probability as long as business managers are not freed from the burdens and restrictions already imposed upon them by the New Deal, and as long as they can obtain no assurance that they will be freed from them within a definite period of time, or for that matter that they will not be subjected to further burdens and restrictions. As a matter of fact, actual adherence by the President to proposals now believed to have his endorsement which involve costly social insurance programs, public works expenditures and the like would obviously place the Administration on record in such a way that the

general business outlook would be definitely injured regardless of the President's soothing words or his further postponement of demands for money or specific legislative action.

### Social Insurance or Managed Money?

Plans that have been drawn for a national system of old age pensions are currently described as contemplating the accumulation of reserves amounting to from \$5,000,000,000 to \$12,000,000,000.

Unemployment insurance of the general type said to be under consideration at Washington is estimated by some of its leading advocates as providing for the accumulation of reserves amounting to approximately \$3,-300,000,000.

The proposal evidently in favor with the national authorities plans to concentrate, in the hands of the Federal Government, the management of these huge funds which, according to estimates, would be not less perhaps than \$8,000,000,000 and might reach almost twice that figure.

It remains to be seen what provision will be made for their investment. Some of the suggestions that have been made would, if adopted, simply wreck the banking system of the country and much besides. If the disposition of such sums is left within reasonable measure to the discretion of the managers, it is obvious that these managers can make themselves the dominant factor in the credit situation.

Such facts may well cause thoughtful people to wonder whether what is being planned is really a social insurance system or a managed money system. If developed in practice as apparently expected, the project would in fact be as much one as the other.

#### The Heart of the Matter

The question that is troubling the business community is not whether the President immediately upon the convening of Congress will demand appropriations, emergency or otherwise, of a specified number of billions of dollars for purposes which cannot fail to disturb and injure industry and trade. It is certainly not whether what has become known as the ordinary budget is to be cut to the bone, as Washington reports assert. The real question is whether or not he will espouse

causes in his annual message or elsewhere that must of necessity give rise, sooner or later, to large and wasteful expenditures and to conditions which would make the conduct of business difficult and unprofitable.

### Conservative by Comparison

While anything in the nature of prediction is in this case fraught with extraordinary hazard, it seems to be generally conceded that the President will appear conservative only by comparison with many if not the majority of the members of Congress, but that so compared he will seem moderate. This is indeed poor comfort, but perhaps we should be thankful for even this. It seems to be certain that all manner of proposals of the most visionary and destructive sort will be brought sharply to the attention of the public as soon as Congress gets well under way. Senator Thomas and his fellow inflationists are said to be planning an active and aggressive campaign for further devaluation of the dollar, and no one knows just what else. The bonus advocates are all prepared, so it is reported, to make heavy

demands upon the Treasury. War profits legislation of some unknown sort is apparently in prospect. All kinds of social insurance, Government ownership, public works, planned economy, and other schemes are unquestionably on foot. The general concensus seems to be that the President will develop his own technique for "side-tracking" much of this legislation. He has on several occasions seemed to express lack of sympathy with much of it. But he has many plans of his own, and just what these will be and what they will involve is a question.

The President is evidently keeping his own counsel concerning his final decisions at most vital points. It would appear, however, that he will be obliged to take the public into his confidence in some measure at least in his annual message, which will be broadcast, and in his discussion of the budget, both due within a few days after Congress convenes. Whatever he says on these occasions or at any other time in the early future will be scanned by the business community most carefully for information concerning his conclusions on such subjects as power, social insurance and relief. There are likewise a number of other highly important points on which relatively little of a specific sort is definitely known of the President's position. One of these is the bonus. Another is banking. Reports have it that he is prepared to make rather broad concessions on the bonus which would cost the country large sums of money. We hope that these reports are in error, but they seem to be semi-official.

### **Banking Legislation**

T HAS for some time past been supposed by many that the President was definitely determined, if not actually committed, to oppose any broad banking legislation at this session of Congress. Yet he has permitted reports by official bodies, such as that recently studying, or supposedly studying, the credit situation for the Treasury Department, to come into the hands of the public and those groups in Congress who are bent upon drastically unsound monetary and kindred legislation, and it must be said that these documents both as to alleged fact (which we do not for a moment concede to be fact) and conclusions are of just the sort to make it harder for the President to resist very harmful banking legislation. Moreover, recent dispatches in the daily press from Washington have had a good deal to say in rather vague language about plans of the Administration itself for drastic legislation, albeit the real nature of such enactments apparently would be thinly disguised.

### The Public Utility Situation

AS TO the attitude of the Administration toward the utilities industry, particularly the power companies, recent developments certainly do not bespeak moderation and constructiveness. Evidence continues to multiply that the President means business when he talks about applying the general principles now being worked out in the Tennessee Valley to practically all parts of the country. At the President's order the Federal Trade Commission has rushed to completion its study—and its excoriation -of the power companies. Another of the President's numerous committees has issued an official report in which much is said about power development and distribution in the Mississippi Valley, but some disturbing suggestions and recommendations about the power situation in general are also in-

cluded. Among these latter is the idea that in some way the Government owes it to the farmers to transmit electricity to their doors, and that perhaps the best way of accomplishing such an ambitious program would be for the Government itself to construct and operate a distributing system or systems of its own. Just why the Government is in duty bound to provide electric power to those who can not pay for it, any more than it is obligated to furnish automobiles to the thousands who doubtless would like to have them but who cannot afford them, will remain to most people a dark mystery. Meanwhile New York City authorities proceed with their plans for the construction of a municipallyowned power system, apparently enjoying the approval of the authorities both at Washington and Albany-since Chairman Walsh of the State Power Commission has added his name to the list of those rejoicing over recent developments in the matter and since it has been made known in Washington that the Public Works Administrator would like to aid other municipalities in similar projects.

### Misleading the Public

Meanwhile Mayor La Guardia has been holding out hopes to the uninformed of "profitless power," the implication of course being that such power would be much cheaper than that in the generation and delivery of which private enterprise had earned and taken a profit. Mr. La Guardia, like so many successful politicians, delights in catchy phrases designed to please the ear of the multitude. In ordinary times, the business community might be warranted in ignoring such loose talk on his part, but the situation being what it now is, such talk as this is hazardous. What the public is interested in, or should be, is inexpensive power. If power can be furnished most inexpensively, and we firmly believe that it can, by paying private capital to produce and deliver it, then the consuming public is best served by such a system. With the President leading the procession demanding some other plan of procedure, however, it is of course useless to expect local politicians to stick to real statesmanship in the matter.

### Social Security Proposals

As TO the details of what is called the social security program, little is definitely known of the President's final decision, if indeed he has reached any definite conclusions. From his general remarks on the subject, from recommendations made to him by bodies of his own choosing, and from current reports as to what he will demand of Congress, it is, however, clear enough that a threatening situation of the first magnitude confronts the country. Plans are said to have been drawn and placed on the President's desk which include much more than the so-called unemployment insurance which may well be the most troublesome of the lot. Advance accounts of these schemes speak with nonchalance about billions of dollars in cost. In many of them there appears a hint of a supposition on the part of certain public officials that in some way such expenses will not be so serious if borne by States and municipalities in large part instead of being entirely assumed by the Federal Government. course there is no source of funds available to any governmental unit in the country except productive business enterprise. If such schemes as these are adopted the business community must bear the expense of them no matter what form they may take or to what public offices the sums in question must be paid. It seems to be a foregone conclusion that they will in one form or another be placed upon the statute books of the nation this winter. We can only hope that some measure of common sense and foresight will be employed in the process.

### The Relief Problem

HE question of how the relief problem, which in several ways is closely connected with that of social insurance, is to be met also assumes first rate importance. There is nothing to indicate that the President has altered his opinion that it must be solved through "made work," that is, by conjuring up work for the unemployed to do, rather than by the much less expensive and less harmful method of direct relief. The business community is sufficiently well aware of the results of the CWA experiment of last winter to be thoroughly out of sympathy with this method of dealing with the problem, and for that matter to be convinced that if such a system is installed on a large scale, there is neither much hope of a balanced budget within the predictable future nor ground for expectation that private business can move steadily forward to the position required to reduce to modest proportions the necessity of granting public relief. Some reports seem to indicate that the President may be cautious in his commitments on this question in his forthcoming addresses to Congress in order to save the feelings of the business community, but it is rather probable that enough will be said to indicate to the thoughtful what he really has in mind.

### Senator Glass Condemns Usurpation of Power

HE nation has once again been given cause to be thankful that it has one sturdy old Roman left. We cannot too strongly express our approval of the communication Senator Glass sent to a member of the Federal Reserve Board on December 18. but which was not made public until early this week. We print this admirable letter in another column of this issue. Suffice it here to say that Senator Glass leaves the reader in no possible doubt of the remarkable nature of the action taken by the Federal Deposit Insurance Corporation in "requiring" non-member State banks whose deposits are insured by the Corporation not to pay more than 21/2% interest on time and savings deposits. In view of the remarkable evidence presented by the venerable Senator, we do not see how anyone can possibly differ with the conclusion he expresses in the following plain words: "In my view there can be no possible question of the illegality of the action, which plainly constitutes assumption of legislative authority, and I venture to think the Federal Reserve Board made a grave mistake in lending the force of its prestige to such illicit action by making itself the medium of the public announcement." usurpation of power has become all too characteristic of the actions of the Administration, and for that matter (and we do not believe Senator Glass would for a moment disagree with us) of the behavior of Congress in the past year or two. If we are to have a constitutional government of laws and not of men in this country a stop must be put to the practice. All this, let it be added, is quite irrespective of the merits or demerits of the policy adopted-a fact that public officials, or some of

them, do not seem to understand. We cannot refrain from adding our approval of the Senator's characterization of the so-called Viner report on banking which recently appeared.

### Price Fixing and the NRA

HE action of the National Industrial Recovery Board in suspending the price fixing provisions of the lumber industry code early in the week is supposed to foreshadow in part at least the conclusions reached by the President in respect to the NRA. That may be true, but even so large areas of uncertainty are left. Provisions in the codes undertaking directly to fix minimum prices and to control production constitute an important defect of the policies of the Recovery Administration. If they are really to be deleted, so much the better. But provisions by which trade terms and various other practices are controlled are in reality efforts to eliminate competition and but little less than direct price-fixing in their practical effects. What is to be done in regard to these? Then of course there are the iniquitous labor provisions. Let the public not get the impression that with the elimination of direct attempts at fixing prices and controlling production the NRA codes will have been made worthy of support. Such is in our view not the case.

### Economic Nationalism and War

SECRETARY of State Hull, in an article appearing in the New York "Times" last Sunday, after pointing out the relationship between economic nationalism and the danger of war, has the following to say:

"Can it not be contrived so that in the world scheme each nation to a reasonable and mutually profitable extent will perform the task for which it is best fitted, produce the things it can furnish better than any other, that all may be benefited and the springs of international hostility dried up? Admittedly the task is stupendous and the way to fulfillment is long and strewn its weary length with stubborn obstacles. But because of its difficulty are we not even going to try to bring about the necessary co-operation? Are we to be frightened by cries that it is quixotic and visionary? Is it in truth a goal which is unattainable?"

We recommend for this statement the careful consideration of public officials and industrial leaders throughout the world—and particularly of those of our legislators who presumably are desirous of preventing war and restoring economic health.

### Federal Reserve Bank Statement

ETAILS of Federal Reserve Bank operations, as contained in the customary report, disclose this week that the United States Treasury still is following the practice of sterilizing all gold acquisitions resulting from imports and fresh American production, so far as the money market is concerned. This practice was followed in the past on one or two occasions, but on a much more modest scale than in recent weeks, and a reversal usually occurred in the form of a hasty sale or deposit of large amounts of gold certificates to the Reserve System. Quite possibly the same method will be adopted on the present occasion. The current persistence of the tendency, however, also introduces the possibility that a new policy has been adopted in connection with such gold acquisitions. Although

the weekly credit summary shows an addition of \$30,000,000 to the monetary gold stocks in the week to Wednesday, gold certificate holdings of the Federal Reserve banks actually decreased slightly. Also of interest in the current weekly banking statistics is the modest advance of \$41,000,000 in the aggregate of the circulating medium in use. This is under the ordinary increase of the final pre-Christmas week, and the performance is the more noteworthy on this occasion because holiday trade was excellent in comparison with previous years of the depression. Only part of the currency increase is reflected in the Federal Reserve Bank statement, since the Treasury is now busily putting out large amounts of silver certificates and other forms of currency. In other respects the weekly bank statement is colorless.

Gold certificate holdings of the Federal Reserve banks on Dec. 26 amounted to \$5,122,396,000, against \$5,122,762,000 on Dec. 19, while a reduction in "other cash" caused a decline in total reserves te \$5,354,968,000 from \$5,361,878,000. Federal Reserve notes in actual circulation increased to \$3,-261,403,000 from \$3,231,862,000, but the net circulation of Federal Reserve Bank notes continued to decline and reached a total of \$26,603,000, as against \$26,752,000 a week earlier. Member bank deposits on reserve account have again started to rise, following the adjustments occasioned by the quarter date financing of the Treasury, and they amounted to \$3,961,204,000 on Dec. 26, against \$3,943,123,000 on Dec. 19. But Treasury deposits on general account declined rapidly, and in consequence the total deposits with the System fell to \$4,316,916,000 from \$4,360,293,000. Although reserves dropped somewhat and note liabilities increased, these changes were more than offset by the decline in deposit liabilities and the ratio of reserves to liabilities increased to 70.7% on Dec. 26 against 70.6% on Dec. 19. Discounts by the System increased modestly to \$9,281,000, and industrial advances also were higher at \$13,589,000. Bill holdings of the System showed no change of any consequence at \$5,611,000, while holdings of United States Government securities were slightly changed at \$2,430,198,000.

### Corporate Dividend Declarations

IVIDEND actions the current week were largely of a favorable nature, but among the actions taken was that of Consolidated Gas Co. of New York, which reduced the quarterly dividend on its common shares, to be paid March 15, to 25c. a share; the action was necessitated, according to President George B. Cortelyou, by increases in taxes and operating costs, together with reductions in electric rates since 1931, which aggregate \$11,000,000 a year; in the three preceding quarters, 50c. a share was paid on this stock, while in the two quarters prior thereto 75c. a share was paid. Swift & Co. declared a special dividend of 25c. a share, payable Feb. 15; the regular quarterly of 121/2c. a share, due Jan. 1, was previously declared. Discount Corp. of N. Y. declared an extra of \$8 a share in addition to the regular quarterly dividend of \$3 a share on the capital stock, both payable Jan. 2. National Distillers Products Corp. declared a dividend of 50c. a share on the common stock, payable Feb. 1; the last cash distribution was made Aug. 1 1932, when a similar dividend was paid; however, on Oct. 16 1933 stockholders received a dividend in warehouse receipts

for whiskey, on the basis of one 24-pint case for each five shares of common held.

### Foreign Trade in November

ERCHANDISE exports from the United States in November continued quite as heavy as those in October, and were in excess of every other month excepting October for the past three years. The total value of exports last month was \$194,901,-000 against \$206,492,000 for October and \$184,256,000 for November 1933. The increase over November last year was only 5.2%. No other month excepting October shows as large a value since October 1931, and allowing for the holidays in November, daily shipments abroad in that month were in excess of those for October. Furthermore, cotton exports in November were again considerably reduced and were very much less both in quantity and in value than in October, as well as for November in every year for a long time past.

On the other hand, merchandise imports into the United States in November were much higher, the value being \$150,919,000. In only two months earlier in 1934, March and May, was the value of imports above that for the month just closed, since August, 1933. Imports in November, 1933, amounted to \$128,541,000. The increase this year over a year ago was 17.4%. The excess value of exports last month over imports was \$43,982,000, compared with an export excess of \$76,723,000 in October and \$55,-715,000 for November, 1933. For the eleven months of 1933, exports of merchandise have amounted to \$1,962,731,000 and imports \$1,522,807,000, the excess value of exports being \$439,924,000, against exports for the eleven months of 1933, amounting to \$1,-482,355,000 and imports in the same time of \$1. 316,041,000, the excess of exports in that period being \$166,314,000. The increase in the value of exports for the current year to date over the same time in 1933 was 32.4% and for imports for the eleven months of this year 12.6%. For November, 1934, exports and imports increased only 5.2% for exports and 17.4% for imports over a year ago.

The decline in shipments of cotton abroad in the past three months has become very serious. Not for a great many years has this movement been so small. Attention was directed to this matter both for September and October and in the report of merchandise exports for November, conditions are quite as serious. Cotton exports last month were 591,042 bales against 933,212 bales in November, 1933, and 1,019,468 bales in that month two years ago. The value of cotton exports last month was \$39,205,598, compared with \$48,774,720 in that month last year. Exports other than cotton last month amounted to \$155,695,000 against \$135,481,-000 in November last year, the increase this year being 14.2%. In October exports other than cotton were valued at \$162,695,000 and the increase over that month in 1933 was 17.3%.

The specie movement in November was again subjected to another quite violent change. Gold exports were reduced to \$310,000 at the new value and gold imports raised to \$121,199,000, the latter the highest since March. With the exception of February and March this year, when gold imports were unusually large, imports last month were the highest in over three years. For the eleven months of this year gold exports have amounted to \$52,619,000 and imports \$1,094,421,000, both at the new value.

The latter was a record total. The excess of gold imports so far this year has been \$1,041,802,000. For the eleven months of 1933, gold exports were \$355,837,000 and imports \$191,510,000, exports exceeding imports by \$164,327,000. Silver imports were again higher in November, the value being \$15,011,000, while silver exports amounted to \$1,698,000. For the eleven months of 1934, silver imports have amounted to \$94,014,000, while exports were only \$15,538,000. The former was also a new record total for silver imports, and the bulk of the movement has been made since July.

### The New York Stock Market

SHARE and bond trading in the New York markets was quite active in this holiday week, while movements were irregular with a final upturn of vigorous proportions yesterday giving the lists a good appearance. The degree of activity was rather surprising, turnover in stocks on the New York Stock Exchange amounting to about 1,000,000 shares in most sessions, while 1,630,000 shares were traded on Thursday. Tax selling, which usually plays a part in the year-end markets, had little effect on the trend, and the market also overcame the adverse utility developments, which were capped by a reduction of the Consolidated Gas Company of New York dividend to 25 cents from 50 cents for the quarter. In Monday's session, price movements in stocks were small and uncertain. Utility issues tended to improve and most industrial and specialty stocks also gained, but rails were soft. Dealings were suspended, of course, for the Christmas holiday. Transactions on Wednesday were affected by the disclosure of plans to place a small utility plant in operation in New York City without delay to supply some municipal requirements. Shares of public utility companies were decidedly weak on this occurrence, but other groups held up well. Gains predominated on Thursday, when the most active trading in three weeks took place. Utility issues tended to recover, notwithstanding the reduction of the Consolidated Gas dividend, while industrial and motor stocks likewise improved. Railroad stocks were not much changed, but liquidation occurred in merchandising shares. The tendency yesterday was favorable in virtually all groups of stocks, and the vigorous advance left quotations substantially above those of a week ago. The impending Congressional session caused some nervousness, but the pressure of idle funds clearly was more im-

In the listed bond market movements closely resembled the trends in equities. Highest grade bonds, such as United States Treasury issues and obligations of leading railroad and industrial concerns, were in demand at most times and modest gains were general. Utility bonds were weak at times, owing to the indications of municipal competition in the power and light field. Speculative bonds were alternately weak and strong, with final quotations yesterday above those of a week ago. There were few important movements in commodities, the trends in leading grains and cotton being somewhat irregular, and little influence on securities was exerted by such markets. Foreign exchange dealings also disclosed nothing new, the dollar remaining stable in terms of the foremost European units, whether on or off the gold standard. Industrial and trade indices were favorable, and these indications undoubtedly stimulated some buying of stocks and bonds. Steel-making operations throughout the country were estimated by the American Iron & Steel Institute at 35.2% of capacity for the week beginning Dec. 24, against 34.6% a week ago, the steady advance being due largely to greater automobile production. Production of electric power in the week ended Dec. 22 was calculated at 1,787,936,000 kilowatt hours by the Edison Electric Institute, against 1,767,418,000 kilowatt hours in the preceding week. Car loadings of revenue freight in the week to Dec. 22 were 547,895 cars, according to the American Railway Association, this being a decrease of 32,040 cars over the previous week.

As indicating the course of the commodity markets, the December option for wheat in Chicago closed yesterday at 98%c. as against 97%c. the close on Friday of last week. December corn at Chicago closed yesterday at 94%c. as against 88½c. the close on Friday of last week. December oats at Chicago closed yesterday at 57½c. as against 53%c. the close on Friday of last week. The spot price for cotton here in New York closed yesterday at 12.85c. as against 12.75c. the close on Friday of last week. The spot price for rubber yesterday was 12.75c. as against 12.84c. the close on Friday of last week. Domestic copper closed yesterday at 9c., the same as on Friday of last week.

In London the price of bar silver was 24% pence per ounce as against 23 13/16 pence per ounce on Friday of last week, and spot silver in New York at 54% c. against 53½ c. on Friday of last week. In the matter of the foreign exchanges, cable transfers on London closed yesterday at \$4.93¾ as against \$4.94½ the close on Friday of last week, while cable transfers on Paris closed yesterday at 6.60½ c. as against 6.60½ c. on Friday of last week.

On the New York Stock Exchange 42 stocks reached new high levels for the year, while 73 stocks touched new low levels. On the New York Curb Exchange 28 stocks touched new high levels, while 70 stocks touched new low levels. Call loans on the New York Stock Exchange remained unchanged at 1%.

On the New York Stock Exchange the sales at the half-day session on Saturday last were 503,460 shares; on Monday they were 808,520 shares; Tuesday was Christmas Day and a holiday; on Wednesday, 1,055,065 shares; on Thursday, 1,632,065 shares, and on Friday, 1,276,151 shares. On the New York Curb Exchange the sales last Saturday were 108,130 shares; on Monday, 186,668 shares; on Wednesday, 274,430 shares; on Thursday, 405,070 shares, and on Friday, 248,799 shares.

The volume of trading in the stock market for the week was on an increased scale, with prices yesterday, in most instances, recording gains, and at the close substantially higher than on Friday of the previous week. General Electric closed yesterday at 21¾ against 19½ on Friday of last week; Consolidated Gas of N. Y. at 19¾ against 20; Columbia Gas & Elec. at 7¾ against 7½; Public Service of N. J. at 26½ against 26¼; J. I. Case Threshing Machine at 56 against 51½; International Harvester at 42½ against 38; Sears, Roebuck & Co. at 39½ against 38¾; Montgomery Ward & Co. at 29¾ against 28¼; Woolworth at 53¾ against 52⅓; American Tel. & Tel. at 103¾ against 102, and American Can at 114 against 108¾.

Allied Chemical & Dye closed yesterday at 1331/2 against 1301/2 on Friday of last week; E. I. du Pont de Nemours at 96 against 931/2; National Cash Register A at 175% ex-div. against 167/8; International Nickel at 24 against 223/4; National Dairy Products at 165/8 against 161/4; Texas Gulf Sulphur at 335/8 against 321/4; National Biscuit at 271/2 against 261/2; Continental Can at 631/2 against 621/4; Eastman Kodak at 1111/2 against 112; Standard Brands at 185% against 181/8; Westinghouse Elec. & Mfg. at 371/2 against 331/2; Columbian Carbon at 741/4 against 713/4; Lorillard at 193/4 against 195/8; United States Industrial Alcohol at 45 against 431/4; Canada Dry at 151/2 against 145/8; Schenley Distillers at 26% against 24%, and National Distillers at 28% against 27%.

The steel stocks closed at higher levels yesterday than one week ago. United States Steel closed yesterday at 38½ against 37 on Friday of last week; Bethlehem Steel at 31¾ against 29¾; Republic Steel at 14½ against 135%, and Youngstown Sheet & Tube at 195½ against 18. In the motor group, Auburn Auto closed yesterday at 25½ against 24¾ on Friday of last week; General Motors at 33½ against 31; Chrysler at 41¾ against 38½, and Hupp Motors at 3 against 2½. In the rubber group, Goodyear Tire & Rubber closed yesterday at 24¾ against 23 on Friday of last week; B. F. Goodrich at 11½ against 10½, and U. S. Rubber at 16¾ against 16½.

The railroad shares were higher at the close yesterday than on Friday a week ago. Pennsylvania RR. closed yesterday at 24% against 23% on Friday of last week; Atchison Topeka & Santa Fe at 541/4 against 521/4; New York Central at 203/4 against 20; Union Pacific at 1051/2 against 107; Southern Pacific at 181/2 against 171/2; Southern Railway at 153/4 against 151/2, and Northern Pacific at 21 against 195/8. Among the oil stocks, Standard Oil of N. J. closed yesterday at 43 against 421/2 on Friday of last week; Shell Union Oil at 63/4 against 63/8, and Atlantic Refining at 253/4 against 241/2. In the copper group, Anaconda Copper closed yesterday at 113% against 107% on Friday of last week; Kennecott Copper at 17% against 161/2; American Smelting & Refining at 38¾ against 36½, and Phelps Dodge at 151/8 against 141/2.

### European Stock Markets

EALINGS on stock exchanges in the leading European financial centers were very light this week, as the holiday season occasioned suspensions of trading for protracted periods in every case. The tone, however, was fairly cheerful in the few sessions, partly as a result of the good holiday trade which European countries enjoyed, in common with the United States. The London Stock Exchange was open Monday, but closed Tuesday and Wednesday. On the Paris Bourse trading was resumed for the week on Wednesday, while the Berlin Boerse remained closed until Thursday. Increasing optimism was reported in London, owing to the best Christmas trade that British shops, hotels and theatres have enjoyed since 1929. German holiday trade was active and probably the best since 1931, Berlin dispatches say. In Paris, however, there was some concern regarding the Citroen automobile factory, which was formally placed in bankruptcy last week after the disclosure of heavy losses during the last year of operation. This is one of the greatest financial collapses in French

history and it is still uncertain whether Government aid will be extended on a scale sufficient to assure continued production. The international currency outlook, however, is somewhat improved for the time being, and in France this was regarded as an offset to the Citroen developments. Italian gold reserves have increased somewhat under the recent exchange decrees, and the increase also tended to allay apprehensions regarding currencies.

Prices improved in almost all sections of the London market during the session on Monday, which was sandwiched in between the holidays. There was modest activity, as many members were absent from the Stock Exchange. British funds improved, and many good features appeared among the industrial issues. African gold mining stocks showed small gains, and international issues likewise reflected modest inquiry. After a two-day suspension, trading was resumed on the London Stock Exchange on Thursday, with cheerfulness still the dominent note. Good investment demand for British funds occasioned advances in these issues, while industrial stocks were in even greater request and moved forward materially. The gold stocks and the international securities likewise were firm, with movements small. Gilt-edged issues reacted slightly yesterday in London, but demand was good for industrial, gold mining and international stocks.

Extreme dullness marked the Paris Bourse when transactions on that exchange were resumed, Wednesday, after a prolonged holiday closing. Small gains were registered in rentes, while French equities moved narrowly and in both directions. Citroen shares gained 11 points of their huge losses of last week and closed at 64 francs on reports that the liquidators were making satisfactory progress. International securities were neglected. In another quiet session, on Thursday, small losses appeared in rentes, while other issues dropped more decidedly. Small offerings of stocks caused disproportionately large losses, owing to the thinness of the market. International issues dropped with the rest of the market. Rentes were strong on the Bourse yesterday, and most other issues likewise improved.

No trading took place on the Berlin Boerse this week until Thursday, and the resumption of dealings attracted little interest, since a further protracted suspension for the year-end holidays impends. The Berlin market has been very dull for many weeks, and it is evident that such measures as the limitation of dividends on stocks by the German Government have much to do with the general apathy. There were small losses in Reichsbank and I. G. Farbenindustrie shares when transactions for the week were resumed, but most other issues showed modest gains. Utility stocks showed better results than others. Quiet trading yesterday resulted in small losses on the Boerse, all groups of issues being affected.

### Stabilization Still Distant

In the course of a debate on international currency policies before the House of Commons, late last week, Chancellor of the Exchequer Neville Chamberlain made it clear that the British Government has no present intention of attempting stabilization of the pound sterling in terms of gold. There were no surprises in the statement, but the British reaffirmation of a desire to await developments nevertheless caused disappointment to all sound

money advocates. Some faint hopes of early joint action by Great Britain and the United States had been caused by the suggestion for early mutual stabilization made late in October by United States Ambassador Robert W. Bingham. The declaration now made by Mr. Chamberlain doubtless may be accepted as an answer, in one sense, to the suggestion of the American Ambassador to the Court of St. James's. While voicing regret that stabilization cannot now be attempted, Mr. Chamberlain remarked that in the future there will again be established a common international standard of currency, and it is thus evident that the British authorities at least do not contemplate indefinite maintenance of what has now come to be known as a "floating currency." Other than that, little comfort is to be gained from the declaration. Indeed, the impression was gained that the Chancellor rather definitely anticipates defections from the gold bloc and further currency unsettlement.

In reply to the representations by some Members of Parliament in favor of early stabilization, Mr. Chamberlain stated that the members of the National Cabinet are well aware of the desirability of a common international standard of currency. "We all hope it may be achieved, and we have ourselves made the best contribution we could in the circumstances by stabilizing sterling in the sterling area," he continued. "The policy we have followed has, I think, achieved a very considerable measure of success. The levels of the currencies of the countries of the Empire and those linked to sterling have remained really very stable during a period of two years, and the exchanges of goods and trade of the countries in the sterling area have shown a very gratifying increase when international trade was inclined to shrink. But at the present time we have on one side of us the gold bloc and on the other the dollar, which also is on the gold standard. We hold an intermediary position between the two. The real difficulty of the situation, which we ourselves are unable to control, is that the dollar and the franc are not in harmonious relations with one another. The pound, which stands between the two, is dear in terms of the dollar but not so dear as the franc. It is weak in terms of the franc, but not so weak as the dollar." The British Government, Mr. Chamberlain indicated, prefers to remain in a position to move in either direction, as an early attempt to stabilize the disharmony might leave Great Britain in a situation where the alternative would be faced of a further lapse from the gold standard or deflation. Nor is any move toward stabilization likely, he intimated, until price levels in general have changed sufficiently to bring the dollar and the franc into greater harmony. While discoursing on this matter, Mr. Chamberlain made it clear that the ultimate responsibility for British monetary policy must rest with the British Government, rather than with the Bank of England.

France continues to hold the key to the monetary policies of all members of the European gold bloc, and in an interview with a correspondent of the New York "Times," last Sunday, Premier Pierre-Etienne Flandin made it plain that France remains averse to any tampering with the currency. He declared that stabilization of currencies unquestionably is the most important step that could be taken for world recovery. But this is a matter for determination by the British and American Governments, M.

Flandin added, as France can do nothing but await the outcome of the fiscal policies of those monetary Powers. He expressed skepticism regarding the usual interpretations of American devaluation of the dollar as due to a desire to raise prices or to compete in world markets, and holds the opinion that the action was taken rather to adjust the "enormous load of private debt" and thus attain a better debtor-creditor relation. Turning to the franc, M. Flandin remarked that he saw no benefits to be achieved by devaluation under present conditions.

It is now well established that the silver purchase policy of the United States and the advances in the price of the metal thus occasioned have caused a severe crisis in Chinese monetary affairs. But in an interview with a correspondent of the New York "Herald Tribune," last Saturday, Wang Ching-wei, President of the Executive Council of the Nanking Nationalist Government, stated that there is no intention of devaluing China's silver currency or adopting paper money on any greater scale. The statement was made, according to the correspondent, in answer to widely prevalent rumors in Shanghai financial circles that devaluation was contemplated to counteract the drain on China's stocks of silver. "As the great bulk of silver in China is in the hands of the public," said Mr. Wang, "nothing can be gained from the nationalization of silver or devaluation of the silver dollar. The Government realizes that any such action is entirely against the State's interests and the wishes of the people, and on no account will the Government consider such impracticable measures. The Government is aware of the difficulties in the present situation and is anxious to do whatever is possible to improve matters. Dr. H. H. Kung, Finance Minister, is endeavoring to cut expenditures and reduce unnecessary imports, while at the same time encouraging agricultural production." The hope again was expressed that the United States, in carrying out its silver purchase plans, would bear the Chinese difficulties in mind and endeavor to minimize or remove them. It was added by the correspondent that the drain of silver from China has not been diminished by the equalization tax on silver exports, as much metal is being smuggled out of the country.

### Naval Treaties

ORMAL denunciation of the Washington naval limitation treaty is now a matter of a day or two only, and the text of the Japanese notification of abrogation was cabled early this week to Hiroshi Saito, the Japanese Ambassador to Washington. It was anticipated that Mr. Saito would deposit the notice at the State Department to-day, but some delay is possible. In any event, however, the treaty will be denounced formally by the Tokio Government before the end of this year, and at the end of 1936 the Washington and London treaties will lapse. The hope persists in Washington and London that adjustment will prove possible at some conference to take place in the next two years, as a race in naval construction looms as the unpleasant alternative. Complicating the treaty position, however, are reports from Paris which state that the French Government is likely to take determined action for a greater ratio than the 134 to which France, together with Italy, is restricted in the 5-5-3-13/4-13/4 arrangement. France, it is said, was ready to denounce the Washington accord if Japan did not act, but in view

of the action by the Tokio Government, the Quai d'Orsay now is expected to inform the other signatories that she considers herself no longer bound by the treaty ratios. After a meeting of the Cabinet, Francois Pietri, the Minister of Marine, described the existing treaties as "intolerable for France," a Paris report to the Associated Press states. It is already plain that any such action by France will again bring up pointedly the question of Italian desires for parity with France, and the whole problem thus appears to be as hopelessly involved as is the land armaments question.

### **European Diplomacy**

HERE are already some indications that great activity will mark the European diplomatic scene soon after the Saar plebiscite is concluded on Jan. 13. The quid pro quo offered by Germany in return for the practical abandonment of the French campaign in the Saar has not yet been revealed, but signs are beginning to point directly to a German return to the League of Nations, and this appears to be part of the general arrangement. Great Britain's Foreign Secretary, Sir John Simon, was in Paris last Saturday, and he conferred at length with Premier Pierre-Etienne Flandin and Foreign Minister Pierre Laval. He is reported to have urged upon France the necessity of reaching some compromise with the Reich on arms so as to satisfy Germany's national pride and permit her to return to Geneva. The French Premier and his Foreign Minister were invited to visit London in the latter half of January, with the object of examining the possibilities of achieving Germany's return to the League, and acceptance of the invitation is considered quite likely in Paris. The visit was followed almost immediately by suggestions in the French press that the Flandin regime views the German claim to rearmament somewhat differently from its predecessors, since it believes that German limitation under some formal convention would be preferable to the acknowledged but uncontrolled rearming now taking place in the Reich. In a London dispatch to the New York "Times" that able observer who writes under the pseudonym of "Augur" reports the extraordinary phenomenon of a sudden cessation of European fears of Germany. Berlin has joined the chorus with deprecations of exaggerated armaments scares in France, and it thus seems that the stage is being well set for German re-entry into the League and the General Disarmament Conference. The Saar plebiscite arrangements now are proceeding smoothly. The 4,000 British, Italian, Dutch and Swedish soldiers who are to maintain order during the balloting now have taken up their duties, and further unfortunate incidents are held unlikely, although they are always possible.

### French Policies Approved

MOST of the policies advocated by France's young Premier, Pierre-Etienne Flandin, gained the approval of the Parliament before that body adjourned for the usual year-end suspension, last Sunday, and there is now a correspondingly greater optimism regarding the situation in France, notwithstanding the increasingly serious inroads of the depression. One of the most significant incidents was the approval by the Chamber of Deputies, last Saturday, of the treaty abolishing double taxa-

tion of American firms in France, which was negotiated more than two years ago by the then Premier, Andre Tardieu, and United States Ambassador Walter E. Edge. Ratification at length was urged by the present French Government, and the action by the Chamber is likely to be followed by similar steps in the French Senate early next year. Formal action on the accord naturally would signify a very material improvement in Franco-American commercial relations. The French budget, as finally adopted, calls for expenditures of 47,817,000,000 francs and estimated receipts of 46,992,000,000 francs, leaving a deficit of 825,000,000 francs. The real deficit naturally will depend upon economic conditions next year, and warnings were given in the debates that it may easily amount to 3,000,-000,000 francs. One of the most difficult achievements of the Premier was the stifling of opposition to his wheat bill, which maintains a high price for French wheat until next July, but calls for some concessions on the part of French farmers. When Parliament again assembles, M. Flandin is expected to introduce measures for constitutional reform, and it is anticipated that the contest on such legislation will provide a greater test than any the Premier has met heretofore. It was on such reforms that M. Doumergue fell, but Premier Flandin has indicated that his measures differ from those of his predecessor.

### Russian Terrorism

CINCE the assassination at Leningrad, on Dec. 1, of Sergei Kiroff, one of the closest associates of Joseph Stalin in the ruling Communist group, Russian officials have proceeded relentlessly against what they chose to term "terrorist class enemies." The murder of M. Kiroff was followed by wholesale arrests, and the almost immediate execution of 66 persons accused or suspected of complicity in plots against the Soviet Government. Additional groups were shot without much delay, and at the present time the toll of deaths among the suspected enemies of the Soviets is 103. Scores more have been arrested, among them such prominent former leaders and associates of M. Stalin as Gregory Zinovieff and Leo Kameneff. The detention of these former leaders, who dared to question some aspects of M. Stalin's policies several years ago, was announced in Moscow last Sunday, and it was stated at the same time that a widespread plot had been discovered to overthrow the present dictator. These charges were elaborated on Wednesday, when Leonid Nikolaieff, the assassin of M. Kiroff, was accused of plotting both internal terror and the intervention of capitalist countries. The slayer is said to have confessed receiving money in Leningrad from the consul of an unnamed foreign Government, and he is also alleged to have stated that two separate attempts on the life of M. Stalin were being planned. Some of the persons accused by the authorities of a conspiracy to overthrow the Government were placed on trial Thursday before a military branch of the Russian Supreme Court, this action contrasting sharply with the previous summary executions of suspected persons. It is, of course, impossible to tell from this distance what substance there may be behind the accusations of the Russian officials. Even if they are strictly accurate, however, they indicate at the very least the existence of far more discontent with the Communist order than the authorities would be apt to concede is possible.

Indications have been made available in several quarters, meanwhile, that the Russian Government feels far more independent of foreign supplies of machinery and other materials than at any previous time. Reports from Moscow and London, as well as information available in New York, are to the effect that foreign purchases hereafter will be restricted to a cash basis, unless credits are made available at what the Russians describe as reasonable rates of interest. This seems to mean a rate of perhaps 4% to 5%, as against the 10% or more heretofore common on orders from Russia which required the extension of credit. This policy already is in effect in London, and it will probably guide the buying of the Amtorg Trading Corp. in New York as well. Noteworthy is the recent conclusion of an agreement between France and Russia, which stipulates that any French credits to Russia are to be at a "reasonable" rate of interest. In a Moscow report to the New York "Times" this new policy is said to reflect the determination of Russian authorities no longer to pay higher prices for goods and higher interest on credits than other countries. Whether the new policy will have any bearing on the debt negotiations now in progress between Washington and Moscow is not yet clear. Alexander Troyanovsky, the Soviet Ambassador to Washington, who is now en route, remarked briefly at Yokohama, Tuesday, that the debt problem probably will be adjusted soon.

### Austrian Debts

NDER an interpretation by the United States Treasury of Austria's position as a debtor to the United States Government, that country is now held to be one of the very few that have not defaulted on their intergovernmental debts. This position appears to involve technical considerations, but the action may have some practical importance in the future, since a country in default on its debts to the United States Government is automatically barred, under the Johnson Act, from floating any obligations in the American capital market. There is, of course, no present likelihood of an Austrian loan in this market. The current offer of the Austrian Government to convert 7% dollar bonds of the 1923-1943 issue, which have been called for redemption, into schilling bonds, is permissible under the Johnson Act, in any event. Removal of Austria from the ranks of the countries that are considered in default on intergovernmental debts nevertheless is a matter of considerable importance. In a Washington dispatch to the New York "Times" it is indicated that there will be no remittance on Austrian relief bonds held by the United States Government during 1935 owing to objections to such payments made by the trustees of the publicly-held League loan of 1923. The Austrian Government apparently is under the necessity of meeting the views of the trustees, since the 1923 League loan is a prior lien to the relief obligations, and the arrangements, moreover, have been embodied in agreements between Austria and the United States dated May 8 1930 and Sept. 14 1932. The Treasury, accordingly, postponed a payment of \$460,093 due from Austria on Jan. 1 1935, and agreement was made to effect the payment, with 5% interest, in 25 equal annuities from 1944 to 1968.

### Yugoslavian Cabinet

NLY halting progress has been made toward representative government in Yugoslavia by Boske Jeftitch, the new Premier, and already there are signs of disaffection in many quarters. M. Jeftitch met unexpected difficulties in organizing a new regime, and his slate of Ministers was announced in Belgrade on Dec. 21, three days after he began the task of forming a regime to succeed that of Nikola Uzonovitch, which was strictly Serbian. The new Premier was Foreign Minister under M. Uzonovitch, and he retained this post in his own Cabinet. The endeavor to obtain the support of most parties was unsuccessful, but a compromise was arranged whereunder some leaders agreed to join the Cabinet on a personal basis, without committing their parties to support of the Jeftitch regime. On this basis a Cabinet was formed which includes nine Serbians, one Moslem, three Croatians and one Slovene. The only so-called "strong man" in the regime is held to be General Peter Zivkovitch, who was also in the former Cabinet. Support of the Serbian group by the other parties was made conditional upon restoration of the freedom of the press, removal of restrictions on political meetings, and the holding of general elections next spring, but to these demands M. Jeftitch could not accede. Each party leader, accordingly, will determine his attitude toward the policies of the new Government on an individual basis. One of the first steps taken by the Jeftitch regime was the granting of amnesty to Vladko Matchek, the Croatian leader who was imprisoned a year ago on charges of attempting to set up an independent Croatian State. A favorable impression was occasioned by this move, but the Government met a rebuff on Wednesday when Aza Stanoyevitch, leader of the former Radical party, indicated that he is not prepared to support Premier Jeftitch.

### Manchukuo

MORE than a little interest attaches to a report on trade prospects in the Japanese puppet-State of Manchukuo, just issued in London by a small group that spent four weeks in the new country in behalf of the Federation of British Industries. This document, which avoids any comment on recognition, suggests that excellent opportunities now exist for British trade expansion, but it also contains a warning that the Manchukuoan policy on oil, which now has been made a State monopoly, will prevent foreigners from investing money in the new country. The inhabitants of Manchukuo now enjoy security and orderly government, and they are free from the depredations and exactions of War Lords, the report states. Plans are being made for improvement in transportation, communications, inland navigation, flood control, sanitation and other facilities which heretofore have been lacking, and Manchukuo thus offers an excellent market for industrial products, the group adds. It is indicated in a London dispatch to the New York "Times" of last Saturday, however, that officials of the British Government consider the comments on the Manchukuoan oil monopoly as much more important than the glowing descriptions of trade possibilities. Publication of the report, moreover, was followed within a few days by renewed indications of the international strain caused by the Japanese conquest of Manchuria and the formation of the puppet-State. Friction between Soviet Russia and Manchukuo has been caused by a border incident which seems to involve little more than a change in the course of a river marking the boundary between the two countries. Some Russians, who suddenly found themselves in Manchukuo, refused to leave when Manchukuo claimed the new strip. Reports from the Russian and Japanese capitals indicate that both Governments are anxious to settle such incidents amicably.

### Discount Rates of Foreign Central Banks

THERE have been no changes during the week in the discount rates of any of the foreign central banks. Present rates at the leading centers are shown in the table which follows:

DISCOUNT RATES OF FOREIGN CENTRAL BANKS

| Country    | Rate in<br>Effect<br>Dec.28 | Date<br>Established | Pre-<br>vious<br>Rate | Country      | Rate in<br>Effect<br>Dec.28 | Date<br>Established | Pro-<br>vious<br>Rate |
|------------|-----------------------------|---------------------|-----------------------|--------------|-----------------------------|---------------------|-----------------------|
| Austria    | 416                         | June 27 1934        | 5                     | Hungary      | 41/2                        | Oct. 17 1932        | 5                     |
| Belgium    | 21/2                        | Aug. 28 1934        | 3                     | India        | 31/2                        | Feb. 16 1934        | 4                     |
| Bulgaria   | 7                           | Jan. 3 1934         | 8                     | Ireland      | 3                           | June 30 1932        | 31/2                  |
| Chile      | 416                         | Aug. 23 1932        | 51/2                  | Italy        |                             | Nov. 26 1934        | 3                     |
| Colombia   | 4                           | July 18 1933        | 5                     | Japan        | 3.65                        | July 3 1933         | 3                     |
| Czechoslo- |                             |                     |                       | Java         | 31/2                        | Oct. 31 1934        | 3 4 7                 |
| vakia      | 31/2                        | Jan. 25 1933        | 41/2                  | Jugoslavia _ | 61/2                        | July 16 1934        | 7                     |
| Danzig     | 4                           | Sept. 21 1934       | 3                     | Lithuania    | 6                           | Jan. 2 1934         | 7                     |
| Denmark    | 214                         | Nov. 29 1933        | 3                     | Norway       | 31/2                        | May 23 1933         | 6                     |
| England    |                             | June 30 1932        | 21/2                  | Poland       | 5                           | Oct. 25 1933        |                       |
| Estonia    | 5                           | Sept. 25 1934       | 51/2                  | Portugal     | 5                           | Dec. 13 1934        | 51/2                  |
| Finland    | 4                           | Dec. 4 1934         | 41/2                  | Rumania      | 41/2                        | Dec. 7 1934         | 6 5                   |
| France     | 21/2                        | May 31 1934         | 3                     | South Africa | 4                           | Feb. 21 1933        | 5                     |
| Germany    | 4                           | Sept. 30 1932       | 5                     | Spain        | 6                           | Oct. 22 1932        | 636                   |
| Greece     | 7                           | Oct. 13 1933        | 734                   | Sweden       | 21/2                        | Dec. 1 1933         | 3                     |
| Holland    | 216                         | Sept. 18 1933       |                       | Switzerland  | 2                           | Jan. 22 1931        | 21/2                  |

### Bank of England Statement

HE statement for the week ended Dec. 26 shows a further gain of £16,132 in bullion which raises the total to another new high, £192,788,779 which compares with £191,686,728 a year ago. The gain in gold having been attended by an expansion of £3,173,000 in note circulation, reserves fell off £3,157,000. The reserve ratio dropped further to 35.16% from 37.30% a week ago; last year the ratio was 37.33%. Public deposits rose £1,489,000 while other deposits decreased £2,189,149. Of the latter amount £1,593,257 was from bankers' accounts and £595,892 from other accounts. Loans on Government securities increased £3,700,000 and those on other securities fell off £1,184,991 of which £554,314 represented a reduction in discounts and advances and £1,739,305 in securities. The rate of discount did not change from 2%. Below are the figures for five years:

### Bank of France Statement

THE weekly statement of the Bank of France, dated Dec. 21, records a decline in gold holdings of 108,439,909 francs. Owing to this loss, the total of gold stands now at 82,123,266,721 francs, which compares with 76,945,282,925 francs last year and 83,119,500,173 francs the previous year. Credit balances abroad and French commercial bills discounted register increases of 1,000,000 francs and 154,000,000 francs, while advances against securities and creditor current accounts show decreases of

26,000,000 francs and 497,000,000 francs respectively. Notes in circulation reveal a gain of 648,000,000 francs, bringing the total of notes outstanding up to 81,553,897,005 francs. Circulation a year ago aggregated 80,562,171,750 francs and two years ago 82,565,447,025 francs. The proportion of gold on hand to sight liabilities stands now at 80.74% in comparison with 79.20% last year and 77.72% the year before. Below we furnish a comparison of the different items for three years:

### Bank of Germany Statement

HE Bank of Germany in its statement for the third quarter of December reveals a further gain in gold and bullion, the increase this time being 51,000 marks. The Bank's gold now aggregates 78,762,000 marks, as compared with 391,592,000 marks last year and 800,076,000 marks the previous year. An increase appears in reserve in foreign currency of 184,000 marks, in bills of exchange and checks of 23,676,000 marks, in silver and other coin of 11,178,000 marks, in advances of 4,124,000 marks, in investments of 311,000 marks, in other daily maturing obligations of 4,743,000 marks and in other liabilities of 14,478,000 marks. The proportion of gold and foreign currency to note circulation remains at 2.23%, in comparison with 11.5% a year ago. Notes in circulation record an expansion of 4,684,000 marks, bringing the total of the item up to 3,724,-299,000 marks. A year ago circulation stood at 3,451,471,000 marks and two years ago at 3,371,-244,000 marks. Notes on other German banks and other assets register decreases of 3,039,000 marks and 12,580,000 marks respectively. A comparison of the various items for three years appears below:

### Foreign Money Rates

IN LONDON open market discounts for short bills on Friday were 9-16%, as against 9-16@5/8% on Friday of last week, and 9-16% for three months' bills, as against 9-16@5/8% on Friday of last week. Money on call on London yesterday was ½%. At Paris the open market rate remains at 1½%, and in Switzerland at 1½%.

### New York Money Market

THERE were not even faint indications this week of a year-end strain in the money market, rates being unchanged in all departments, while funds were available in perfectly enormous amounts. All

signs continue to point toward extremely low rates for an indefinite period, largely because of the apparent anxiety of the Administration in Washington to keep charges on accommodation low. The steps taken last week by the Federal Reserve Board and the Federal Deposit Insurance Corporation to reduce rates on savings and thrift deposits to a maximum of 21/2% occasioned some criticism, but no change in attitude. Here and there some institutions are lowering the maximum charges on real estate, commercial and other loans to 5%. The plethora of funds continues to increase, meanwhile. A number of large corporations recently have taken steps to reduce funded debt by calling redeemable bond issues, and in a few cases even stock issues now are to be repaid. So far as the money market is concerned, this means little more than a redistribution of available balances, but it is also a highly indicative sign of the times.

No special activity marked the dealings in the New York money market this week, preparations for the large year-end disbursements having been in progress for some time. The United States Treasury sold, on Dec. 21, an issue of \$75,000,000 discount bills, due in 182 days, at an average discount of 0.11%, computed on an annual bank discount basis. Call loans on the New York Stock Exchange again were 1% for all transactions, while time loans held to their range of 3/4@1%. Commercial paper and bankers' bill rates likewise were carried forward from last week.

### New York Money Rates

EALING in detail with call loan rates on the Stock Exchange from day to day, 1% remained the ruling quotation all through the week for both new loans and renewals. The market for time money has continued inactive this week, no transactions having been reported. Rates are nominal at  $\frac{3}{4}$ @1% for two to five months and  $\frac{1}{4}$ % for six months. Prime commercial paper has been in good demand throughout the week, and a fairly good supply of paper has been at hand most of the week. Rates are 3/4% for extra choice names running from four to six months and 1% for names less known.

### Bankers' Acceptances

THE market for prime bankers' acceptances this week has had very little business as there have been few bills available. Rates are unchanged. Quotations of the American Acceptance Council for bills up to and including 90 days are 3-16% bid and 1/8% asked; for four months, 5-16% bid and 1/4% asked; for five and six months, 1/2% bid and 3/8% asked. The bill buying rate of the New York Reserve Bank is 1/2% for bills running from 1 to 90 days and proportionately higher for longer maturities. The Federal Reserve banks' holdings of acceptances decreased from \$5,682,000 to \$5,611,000. Their holdings of acceptances for foreign correspondents, however, increased from \$651,000 to \$675,000. Open market rates for acceptances are nominal in so far as the dealers are concerned, as they continue to fix their own rates. The nominal rates for open market acceptances are as follows:

|                       | SPOT             | DELIVE     | HY                |            |                   |                    |

### Course of Sterling Exchange

STERLING exchange presents no new features of importance from the closing days of last week. The pound is relatively easy in terms of both the dollar and French francs. The range this week has been between \$4.93\\[^3\] and \$4.94\[^5\] for bankers' sight bills, compared with a range of between \$4.931/2 and \$4.95 last week. The range for cable transfers has been between \$4.937/8 and \$4.943/4 compared with a range of between \$4.935% and \$4.951/4 a week ago.

The following tables give the mean London check rate on Paris from day to day, the London open market gold price and the price paid for gold by the United States:

### MEAN LONDON CHECK RATE ON PARIS

### PRICE PAID FOR GOLD BY UNITED STATES (FEDERAL RESERVE BANK)

| Saturday, Dec. 22 | 35.00   Wednesda | y, Dec. 2635.00 |
|-------------------|------------------|-----------------|
| Monday, Dec. 24   | 35.00   Thursday | , Dec. 2735.00  |
| Tuesday, Dec. 25  | (Hol.) Friday,   | Dec. 2835.00    |

This is a seasonal interim in the foreign exchange market. All markets were closed on Christmas and on Wednesday also there was a holiday in London so that quotations for sterling on December 26 were nominal. The temporary lull should last until after the turn of the year and no important developments may be expected in the foreign exchange market before the consummation of the Saar plebiscite on January 13. Under normal conditions sterling and the European currencies should as a seasonal matter reverse trends and show firmness against the dollar from about the middle of January until the end of August. However, there is no way of knowing that seasonal trends will develop in the usual manner under the present abnormal conditions of international exchange. Unless more conservative policies are pursued by the Washington Administration it is thought quite probable that sterling will develop firmness after the first of the year regardless of the course of trade movements.

Foreign exchange operators and important leaders of opinion in other financial circles continue to be in agreement that there can be no steadiness in sterling or other currencies until some understanding as to stabilization is reached between the London and Washington authorities. There seems to be little doubt that informal conversations are recurrent in official quarters on this matter, but it is equally certain that London continues of the same opinion as has guided its policy for fully a year that on

authoritative steps leading toward stabilization of the pound can be possible until such time as Washington has definitely abandoned monetary experimentation. In other words, there will be no stabilization of the pound in terms of the dollar until the gold content of the dollar can be accurately foretold for a long period ahead. There can be little doubt that bankers in London and on the Continent are extremely doubtful as to the dollar outlook, and therefore it is impossible to foresee steadiness in foreign exchange for the coming months. Certainly it is unsafe to predict the course of exchange by reference to the seasonal factors which prevailed when international trade and currencies moved along normal seasonal lines.

In a recent interview, M. Pierre-Etienne Flandin, the French premier, asserted that international trade recovery awaits pound-dollar stabilization. This attitude is in contrast with the view expressed on Friday of last week in the House of Commons by Neville Chamberlain, the British Chancellor of the Exchequer, to the effect that the pound could not be stabilized until the dollar and the franc were brought into greater harmony. M. Flandin asserted, "It is a question for Great Britain and the United States. France can do nothing but await the outcome of the fiscal policy of the two great money powers." These expressions of opinion, combined with the known unpredictability of Washington policies, reveal a complete impasse in the foreign exchange situation so far as the immediate future is concerned.

At present London, like all the important financial centers, is dominated entirely by the year-end shifting of balances in connection with internal rather than external trade settlements, so that money rates show a tendency toward hardness though the superabundance of funds in London has made virtually no impression on open-market rates. Two-months' bills are 9-16%, three-months' bills 9-16%, four-months' bills  $\frac{5}{8}$ %, and six-months' bills  $\frac{5}{8}$ % to  $\frac{11-16}{6}$ .

Gold continues to be taken in the London open market for unknown destinations. While most of this gold is taken by private hoarders and remains in the safe deposit vaults of the London banks, considerable amounts reach the United States, some it is believed as the result of Treasury operations but also due in part to British settlements for imports and to increased interest recently evidenced by London in American securities. On Saturday last there was available in the open market and taken for unknown destinations £112,000, on Monday £198,000. There was no market on Tuesday and Wednesday owing to the holidays in London. On Thursday there was available and taken for unknown destination £227,000 and on Friday £207,000. The Bank of England statement for the week ended Dec. 26 shows an increase in gold holdings of £16,132. The total gold holdings of the bank now stand at £192,-788,779 which compares with £191,686,728 a year ago and with the minimum of £150,000,000 recommended by the Cunliffe committee.

At the Port of New York the gold movement for the week ended Dec. 26, as reported by the Federal Reserve Bank of New York, consisted of imports of \$25,125,000, of which \$7,892,000 came from France, \$7,744,000 from England, \$5,458,000 from India, \$1,676,000 from Canada, \$1,240,000 from Mexico, \$1,112,000 from Holland, and \$3,000 from Guatemala. There were no gold exports. The Reserve

Bank reported a decrease of \$984,000 in gold earmarked for foreign account. In tabular form the gold movement at the Port of New York for the week ended Dec. 26, as reported by the Federal Reserve Bank of New York, was as follows:

GOLD MOVEMENT AT NEW YORK, DEC. 20-DEC. 26, INCL.

| Imports   | Exports |
|---|---------|
| \$7,892,000 from France<br>7,744,000 from England |         |
| 5,458,000 from India<br>1,676,000 from Canada     | None    |
| 1,240,000 from Mexico                             | None    |
| 1,112,000 from Holland                            |         |
| 3,000 from Guatemala                              |         |
| \$25,125,000 total                                |         |

Net Change in Gold Earmarked for Foreign Account
Decrease: \$984,000

 $\it Note — We$  have been notifed that approximately \$340,000 of gold was received from China at San Francisco.

The above figures are for the week ended Wednesday evening. On Thursday \$3,000 in gold was received from Guatemala. There were no exports of the metal, but gold held earmarked for foreign account increased \$3,000. On Friday \$2,514,400 in gold was received from Canada. There were no exports of the metal or change in gold earmarked for foreign account.

Canadian exchange continues firm in terms of the United States dollar. On Saturday last Montreal funds were at a premium of 15-16% to 1%, on Monday at  $\frac{7}{8}$ %. On Tuesday, Christmas, there was no market. On Wednesday Montreal funds were at a premium of  $\frac{7}{8}$ %, on Thursday at  $\frac{5}{8}$  to 11-16%, and on Friday at 11-32 to  $\frac{1}{6}$ .

Referring to day-to-day rates, sterling exchange on

Saturday last was steady, inclined to firmness. Bankers' sight was  $4.94\frac{1}{2}$   $4.94\frac{5}{8}$ ; cable transfers,  $$4.94\frac{5}{8}$ @\$4.94\frac{3}{4}. On Monday exchange was dull and steady. The range was \$4.941/8@\$4.941/4 for bankers' sight and \$4.941/4@\$4.943/8 for cable transfers. On Tuesday, Christmas, there was no market. On Wednesday it was a holiday in London. In New York sterling was nominally quoted \$4.941/8@\$4.391/4 for bankers' sight and \$4.941/4@\$4.943/8 for cable transfers. On Thursday sterling was steady. The range was \$4.933/4@\$4.94 for bankers' sight and  $$4.93\frac{7}{8}$  \$4.94\frac{1}{8} for cable transfers. On Friday sterling was steady, the range was \$4.93% @\$4.93% for bankers' sight and \$4.931/2@\$4.933/4 for cable transfers. Closing quotations on Friday were \$4.93\% for demand and \$4.93\% for cable transfers. Commercial sight bills finished at \$4.93%; 60-day bills

### Continental and Other Foreign Exchange

closed at \$4.933%.

at \$4.927/8; 90-day bills at \$4.925/8; documents for

payment (60 days) at \$4.92\%, and seven-day grain

bills at \$4.931/4. Cotton and grain for payment

EXCHANGE on the Continental countries is dull under the influence of the holidays and may continue so for another week at least. Meanwhile the gold currencies are ruling firmer in terms of both sterling and the dollar. Speculative interests are at present conspicuously inactive in the market, due partly to an apparently greater return of confidence in the outlook in France and also to a cessation of devaluation talk in Belgium and Holland. The speculative interests are hardly likely to take a technical position in the market until after the Saar plebiscite. Undoubtedly the greater firmness in the Continental currencies at present is due to the success of the recent Italian measures taken to strengthen

the lira and to check the outward trend of gold from Italy to other countries.

Since early in March the steadily developing weakness in lire and continuous loss of gold by Italy threatened the entire gold bloc no less than the weakness of the currency and foreign exchange situation in Belgium, but the Italian decrees of Dec. 8, which were referred to in our last two issues, were promptly effective in bringing about a reversal of trend in the lira. It will be recalled that between February 28 and early December the Bank of Italy lost approximately 1,265,000,000 lire in gold. The Bank of Italy's statement for December 20 shows that the long continued drain on gold reserves has been checked, with a gain of 31,000,000 lire as compared with December 10 and of 9,000,000 lire in the credit balance abroad. The Italian gold reserves on December 20 amounted to 5,800,000,000 lire, which compares with 5,769,000,000 lire on December 10, when the low point was reached. Most of Italy's recently exported gold went to Paris and nearby countries. The lira is still under par with respect to the French franc but is ruling above the lower gold point. Hence, it is assumed that the recent addition to the Bank of Italy's gold could not have been acquired through exchange movements but must have been purchased in the open market and in all probability was bought at the Bank of France, where the Italian gold had formerly been sold.

French francs continue firm in terms of both sterling and the dollar. However, this firmness is only relative, for while for the past ten days or so the franc has moved above the lower gold point for gold from Paris to New York, it is still under new dollar parity of 6.63. The franc ranged this week between 6.601/4 and 6.61. Gold can hardly be profitably brought from France to New York unless the franc rules in terms of the dollar around  $6.58\frac{1}{2}$ . The current Bank of France statement shows a decrease in gold holdings of 108,439,909 francs. Total gold holdings now stand at 82,123,266,721 francs, which compares with 76,945,282,925 francs a year ago, and with 28,935,000,000 francs when the unit was stabilized in June 1928. The bank's ratio is at the high figure of 80.74%, which compares with 79.20% a year ago and with legal requirement of 35%.

The following table shows the relation of the leading European currencies still on gold to the United States dollar:

|   | Old Dollar                 | New Dollar                              | Range  |
|---|----------------------------|---|--|
|   | Parity                     | Parity                                  | This Week  |
| France (franc) Belgium (belga) Italy (lira) Switzerland (franc) Holland (guilder) | _13.90<br>_ 5.25<br>_19.30 | 6.63<br>23.54<br>8.91<br>32.67<br>68.06 | 6.60¼ to 6.61<br>23.41 to 23.49<br>8.55 to 8.57<br>32.41 to 32.43½<br>67.66 to 67.71 |

The London check rate on Paris closed on Friday at 74.72, against 74.82 on Friday of last week. In New York sight bills on the French center finished on Friday at 6.603/4, against 6.60 on Friday of last week; cable transfers at 6.60%, against 6.60% and commercial sight bills at 6.575/8, against 6.57. Antwerp belgas finished at 23.48 for bankers' sight bills and at 23.49 for cable transfers, against 23.41 and 23.42. Final quotations for Berlin marks were 40.22 for bankers' sight bills and 40.23 for cable transfers, in comparison with 40.21 and 40.22. Italian lire closed at 8.55 for bankers' sight bills and at 8.56 for cable transfers, against 8.54 and 8.55. Austrian schillings closed at 18.86, against 18.84; exchange on Czechoslovakia at 4.185/8, against 4.181/2; on Bucharest at 1.011/2, against 1.011/2; on Poland

at  $18.93\frac{1}{2}$ , against  $18.91\frac{1}{2}$  and on Finland at  $2.18\frac{1}{2}$ , against  $2.18\frac{1}{2}$ . Greek exchange closed at  $0.93\frac{3}{8}$  for bankers' sight bills and at  $0.93\frac{7}{8}$  for cable transfers, against  $0.93\frac{1}{4}$  and  $0.93\frac{3}{4}$ .

EXCHANGE on the countries neutral during the war is steady and fluctuations this week have been within exceptionally narrow limits. The steadiness is due entirely to the inactivity characteristic of the holiday season. The comments on the main features of sterling exchange and the French franc so far as seasonal trends are concerned apply likewise to the Swiss franc and the Holland guilder. The Christmas and New Year holidays are especially prolonged on the Continent and nowhere more so than in the Scandinavian countries. Hence all business comes virtually to a standstill. As frequently pointed out, the Scandinavian currencies move in sympathy with sterling exchange.

Bankers' sight on Amsterdam finished on Friday at 67.69, against 67.65 on Friday of last week; cable transfers at 67.70, against 67.66 and commercial sight bills at 67.67. against 67.63. Swiss francs closed at 32.42½ for checks and at 32.43 for cable transfers, against 32.40½ and 32.41. Copenhagen checks finished at 22.04 and cable transfers at 22.05, against 22.05 and 22.06. Checks on Sweden closed at 25.46 and cable transfers at 25.47, against 25.46 and 25.47; while checks on Norway finished at 24.79 and cable transfers at 24.80, against 24.81 and 24.82. Spanish pesetas closed at 13.69 for bankers' sight bills and at 13.70 for cable transfers, against 13.68 and 13.69.

EXCHANGE on the South American countries, except for the holiday dulness evident in all mackets, continues to follow the trends which have been apparent for many months. The Argentine and Brazilian units are relatively easy in sympathy with the course of sterling exchange. While currently owing to the Christmas and New Year holidays exchange on the South American countries is extremely dull, the major trend of these units continues to be one of increasing activity by reason of the steady improvement in the exports of South America. All indices reflect the steady economic improvement throughout South America. In Argentina it is expected that the new crops will be even more abundant and profitable than the last highly profitable season. Harvesting of wheat is now under way.

Argentine paper pesos closed on Friday, official quotations, at 32% for bankers' sight bills, against 32% on Friday of last week; cable transfers at 33, against 33. The unofficial or free market close was 25.15@25¼, against 25@25½. Brazilian milreis official rates are 8.24 for bankers' sight bills and 8¼ for cable transfers, against 8.23@8¼. The unofficial or free market close was 6.75, against 6.75. Chilean exchange is nominally quoted 10¼, against 10¼. Peru is nominal against 23 against 23¾.

EXCHANGE on the Far Eastern countries continues greatly disturbed because of the unsatisfactory relations prevailing among the major currencies—sterling, the dollar, and the French franc. The Chinese situation is especially clouded at this time owing to the American policy of silver purchases. China continues to be greatly disturbed by the loss of silver at Shanghai and the steady smuggling of metal from the country. The unsatisfactory

conditions resulting from the silver situation and the threats to the silver stocks of Shanghai, which are the cover base for Chinese currency, have caused money rates, in Shanghai and all parts of China under the firm control of the National Government, to mount at an excessive rate. It is reported in apparently well informed quarters that money is commanding rates even in excess of 20%. Japanese yen and the Indiana rupee move of course in harmony with sterling exchange.

Closing quotations for yen checks yesterday were 28.72, against 28.84 on Friday of last week. Hong Kong closed at  $42\frac{7}{8}@43$  3-16, against  $42\frac{3}{8}@42$  11-16; Shanghai at  $34\frac{7}{8}@35$ . against 34@34 1-16; Manila at 50, against 50; Singapore at  $58\frac{1}{8}$ , against 58.10; Bombay at 37.22, against 37.25 and Calcutta at 37.22, against 37.25.

PURSUANT to the requirements of Section 522 of the Tarift Act of 1922, the Federal Reserve Bank is now certifying daily to the Secretary of the Treasury the buying rate for cable transfers in the different countries of the world. We give below a record for the week just passed:

FOREIGN EXCHANGE RATES CERTIFIED BY FEDERAL RESERVE BANKS TO TREASURY UNDER TARIFF ACT OF 1922 DEC. 22 1934 TO DEC. 28 1934, INCLUSIVE

| Country and Monetary                    | Noon Buying Rate for Cable Transfers in New York<br>Value in United States Money |            |            |           |           |           |  |

a These are the gold holdings of the Bank of France as reported in the new form of statement. b Gold holdings of the Bank of Germany are exclusive of gold held abroad, the amount of which the present year is £1,060,200.

### Some Major Issues of 1935

The year 1934 closes with a good deal of uncertainty, at a number of points, regarding the legislation which President Roosevelt will recommend to Congress and the policies which the Administration may be expected to pursue during the next twelve months. Forecasts of the reorganization which is reported to have been planned for the National Recovery Administration have indicated a revision of the code system and the abandonment of price fixing as among the changes to be offered, but no concrete steps which have received the President's approval have yet been announced. There has been much talk of readjustments in the field of labor regulation, but the Labor Relations Board has continued its attempt to enforce the labor provisions of codes as if that part of the system, at least, were to continue. We shall not know, probably, until Congress meets what steps, if any, are to be taken to balance the Federal budget, or what reductions or increases in expenditure or changes in the tax laws are in contemplation. Such forecasts as experienced Washington correspondents have ventured to make, while doubtless not wholly without authority, are, like railway time schedules, subject to change without notice, and represent little more than shrewd guesses well weighted with uncertainty.

There are a number of issues, however, whose development during recent months, joined to their status at the present moment, makes it certain that they will press strongly for attention in the year to come. First in importance, beyond any question, is the issue of unemployment. In spite of local or temporary improvements here or there, the problem of finding work under normal industrial or business conditions for the approximately 11,000,000 unemployed has not been solved, nor has a solution, as far as can be seen, been brought any nearer. Neither the coding of businesses and industries, nor crop or acreage curtailment, nor price-raising efforts, nor appeals to banks to lend and to business to borrow have succeeded in so changing business and industrial conditions as to afford work to the millions who have long been without it. It is impossible that the situation should continue for another year without grave danger to Mr. Roosevelt's personal popularity and to the whole program of recovery to which he is committed, for the most enthusiastic supporter of the New Deal cannot pretend that the depression corner has been turned so long as the present huge volume of unemployment remains and twice the number of unemployed are in need of public relief.

The unemployment problem, then, will be with us as 1935 begins its round, and with it two other questions which go naturally with it. One of these questions is unemployment insurance. We have more than once expressed the opinion that unemployment is a condition which does not, and cannot, lend itself to actuarial analysis and consequently is not an insurable risk. It seems to be a general expectation, however, that some kind of an insurance plan will be advocated by the Administration, and that Congress will be asked to approve the experiment. Whatever the plan, it will necessarily, if it is to have national application and scope, involve a considerable Federal appropriation for its support. Washington reports have indicated that

while direct Federal grants may not be made, States and municipalities are likely to be aided somewhat in proportion to their own expenditures.

It seems hardly necessary to point out that no plan which undertakes to divide the burden between the Federal Government and the States will be likely to relieve the Federal Treasury from carrying, in the long run, the larger part of the load, and that no immediate benefit will accrue to the millions who are now unemployed. The most that the plan can do will be to provide for the accumulation, over a considerable period, of a fund which, if it can be made available on demand, may mitigate in some small measure the hardship of future unemployment over a comparatively short time. Federal and State contributions, if they are made, will add to a tax burden already alarmingly heavy, employers' contributions will be a further addition to the cost of doing business, and wage earners cannot be expected to contribute unless they are employed. Unemployment insurance, whether Federal or State or both, will not cut down the number of persons who now are, and for a long time, apparently, will be, in need of public relief, nor will it contribute an iota to the revival and expansion of industry and trade upon which the reduction of unemployment to normal proportions ultimately depends. country will be plunged into an experiment of indeterminate but certainly colossal cost which will do nothing to relieve present distress and contribute nothing to the solution of the unemployment problem.

The other related question is that of relief. The prompt rejection at Washington of the cogent criticism of work relief made by the recent conference of businessmen and industrialists at White Sulphur Springs confirms the impression that Administration circles are committed to the policy of making work for the unemployed, notwithstanding abundant demonstration of the futility of the policy and the obstacles which is places in the way of recovery. If recent statements credited to Secretary Ickes and Mr. Hopkins are to be accepted, public works of various kinds and Government competition with private industry are not only to go on but are to be enlarged. Government money will continue to be poured into undertakings which yield no revenue and produce no important demand for goods, on the theory that the money, filtering through various hands, serves in some way to "prime the pump" and that the irritating "dole" is being avoided. The White Sulphur Springs conference found some 200 enterprises in which the Federal Government is competing with private enterprises, but we must continue to have the competition on the specious pretext that it is better for people to work than to receive relief directly. It is possible that expenditures in these directions may be curtailed, but for the abandonment of the policy there seems as yet no hope.

Another issue over which a battle seems certain to be waged during the coming year concerns the status of utility companies. Ever since the Government launched the Tennessee Valley Authority, it has been clear that private utility companies were in danger, and events of the past few days have made the danger more acute. It seems clear that President Roosevelt is determined to give financial support to New York City in Mayor La Guardia's fight for a municipal lighting plant; a gigantic plan for the unification of the Nation's electrical resources

has just been submitted to the President, and the Electric Home and Farm Authority, a subsidiary of the Tennessee Valley Authority formed to expand the use of electrical appliances, is reported to have been told to prepare for a nation-wide expansion of its activities. One would be blind indeed who did not see in the multiplying attacks upon utility company rates, and the investigations, projected or in process, of companies rendering various kinds of light, power or communication services, a deliberate purpose to put private utility companies out of business, either by establishing publicly-owned competing companies, for the most part with Federal aid, or by forcing rate reductions to a point where private operation will cease to be profitable and public acquisition will be made easy.

The utility companies have plenty of sins to answer for, and high rates and general financial management have undoubtedly nourished the public feeling of which the Government is now taking advantage. It should be realized, however, that the attack on the utilities is at bottom an attack upon business profits and private business control, and that what is happening to the utilities may at any time happen to other industries. Administration spokesmen have from time to time disclaimed opposition to profits, but there is little in the industrial part of the recovery program to encourage capital investment or to safeguard profits beyond a low minimum. The main hope for investors in industries which, from their nature, are especially open to attack is in the possibility that the sweeping plans which are being proposed or initiated may, by their very magnitude in every financial aspect, call a halt in the demand for wholesale Government expenditure and give reason a chance to assert itself. If the lavish outlay of the past year and a half has not brought recovery, even the most radical members of Congress ought to perceive that adding further billions to the national debt is not likely to be more efficacious.

There remain, as continuing issues of prime importance, the railroads and the banks. The announcement, on Dec. 21, that the Reconstruction Finance Corporation had taken over the management of the Denver & Salt Lake Railroad to protect a Federal loan doubtless seemed to many to bring nearer the possibility of Government ownership of the railroads. The immediate problem, however, is not that of Government ownership or operation, but rather the wisdom of the policy of tiding over the railroads by loans which add to their debt without increasing their earning power. After years of discussion the unification and general reorganization of the country's railway system still waits, and low earnings do not warrant improved equipment. Here, at least, the Federal authority is undoubted; what is lacking is a policy.

The banks, on the other hand, thanks to recent laws and persistent Government pressure and interference, are rapidly being transformed into Government institutions, controlled by the Treasury and presenting more and more the characteristics of a Central Bank. The vigorous protest of Senator Glass against the arrogant assumption, by the Federal Deposit Insurance Corporation, of authority over interest rates on savings and time deposits is only the most recent reminder of the extent to which private control has diminished and Government control increased. No one who cares for sound

banking can see without grave apprehension the passing of the Federal Reserve System into the control of a Cabinet office whose policies, after all is said and done, are political.

These are some of the large national issues with which the old year ends and which the new year will have before it. One would like to think that the alleged radicalism of the new Congress, if it turns out to exist in fact, would restrain the radicalism of the Administration, open its eyes to the mistakes that have been made, and direct its zeal and energy away from perilous courses to others, too long neglected or too lightly viewed, in which the welfare of large national interests is involved. If that were done, the country might look forward with some confidence to a real recovery year.

### Increase of 0.9 Point Noted in "Annalist" Weekly Index of Wholesale Commodity Prices for Week of Dec. 24—Foreign and Domestic Indices for November

Advancing sharply, the "Annalist" weekly index of wholesale commodity prices rose 0.9 point to 118.0 on Dec. 24 from 117.1 Dec. 18. The "Annalist" stated:

The index is now the highest in four years with the exception of September The index is now the highest in four years with the exception of September and the second half of August. Advances were fairly widely distributed, with the farm, food and textile product and fuel groups all rising. The advance was, however, primarily the result of higher livestock and meat prices, reflecting aharply decreased receipts at markets.

As to foreign and domestic prices during November the "Annalist" reported:

Although foreign commodity prices in November showed a somewhat

Although foreign commodity prices in November showed a somewhat mixed trend in terms of domestic currencies, in terms of gold they generally advanced, and the "Annalist' international composite in terms of gold rose 0.8% to a preliminary 73.2 for November from 72.6 the month previous. As for the month in general, one may summarize with the statement that deflation continued in the Gold Bloc, while prices elsewhere tended upward. Weekly indices for the last weeks of November and the first of December show a continuation of the same trends in the United Kingdom, Italy, and France, resumption of an upward trend in Canada and a turning downward in Germany. downward in Germany.

### r's Daily Index of Staple Commodity Rises to Highest Levels Since August Moody's

Primary commodity markets, led by a sharp upturn in the price of hogs, scored, on the average, sizeable gains during this week. Moody's Daily Index of Staple Commodity Prices advanced 3.1 points to 154.4 and is now close to the year's high of 156.2 reached on August 29.

Seven of the 15 commodities comprising the Index advanced in price, three declined, and five were unchanged. A sharp rise in hogs was responsible for two-thirds of the gain in the index number, with corn, steel scrap, cotton, silver, silk and cocoa contributing the remaining third. There were small declines in wheat, wool tops and rubber, while hides, copper, lead, coffee and sugar were unchanged.

The movement of the index number during the week, with comparisons, is as follows:

| Fri.  | Dec. 21 151.3  | 2 Weeks Ago, | Dec. 14151.2  |

### The Course of the Bond Market

With the exception of an unsettled condition among public utility securities, the bond market has been characterized by very little fluctuation this week. On three different days the average of Aaa corporate bond yields touched 2.80%, the lowest in more than a generation. Other classes of issues were virtually unchanged since a week ago. Although there have been irregular movements among the various United States Government bonds, their average closed at almost the same level every day of this week.

Reviewing the progress of the year in the bond market, the outstanding characteristic has been strength and price improvement for highest-grade issues, irrespective of classification. Medium-grade bonds have maintained their position, and advanced in many instances. Among lower grades, considerable selectivity has been the rule, with the best advances being made by the bonds of industrials and utilities, while lower-grade railroad issues failed to show much progress. A peak in the bond market made in the spring was followed by a decline during the summer. Since September advances to new highs for the year have been made mainly by the bonds in upper rating groups. lower grades have not shared in this progress, particularly the railroad issues, although several lower-grade industrials and public utility operating company bonds have recently made new highs for the year.

United States Government bonds, which reached their year's high in July and thereafter declined by about 4 points, have displayed an irregular upward trend since September, but are well below the July high. Foreign bonds, as a group,

have improved very substantially.

Prices of high-grade and medium-grade rail issues hesitated in their upward trend of the last several weeks and closed unchanged or fractionally lower than a week ago. Atchison gen. 4s, 1995, were unchanged at 1071/4; Chesapeake & Ohio ref. 41/2s, 1995, were unchanged at 108; Illinois Central ref. 4s, 1955, closed at 841/2 compared with 845/8 last Fluctuations of lower-grade rail issues were somewhat erratic. Chicago Great Western 1st 4s, 1959, advanced 1% points to 30% ; Erie ref. 5s, 1975, closed at 71% , up % ; Louisiana & Arkansas 1st 5s, 1969, declined % to 66; Missouri-Kansas-Texas adj. 5s, 1967, at 31 were off 1% points.

Utility bonds were erratic, although high-grade issues maintained a good degree of stability. Among lower-grade bonds, holding company issues displaying the greatest activity including United Light & Railways 51/2s, 1952, which declined from 43 to 421/s, Philadelphia Co. 5s, 1967, which lost 21/8 points, closing at 801/8, and New England Gas & Electric 5s, 1947, which declined 1/4 point to 511/4. The prevailing tendency was to weakness although fairly good recovery was apparent on occasions. Issues of New York City utilities were also rather active because of the wide publicity given to prospective municipal competition but for the most part price changes were not large.

Declines appeared to outnumber gains in the industrial section of the list. In the main the more actively traded issues in the major groups receded but fractionally, although numerous larger losses were recorded here and there. American Smelting & Refining 5s, 1947, at 103½ were ¾ point lower; By-Products Coke 51/2s, 1945, lost 1/4 point to close at 76%, and General Baking 51/2s, 1940 declined 1 point to 103. Kelly Springfield Tire 6s, 1942, lost further ground, declining 1 point to 441/2, while Porto Rican American Tobacco 6s, 1942, lost a large part of last week's sharp advance with a 61/4 point decline to 451/4. In the motion picture group, Paramount Publix filed 51/2s, 1950,

Advances were seen in the case of American Rolling Mill 5s, 1938, which gained 3 points to close at 110%, B. F. Keith 6s, 1946, which at 73 were up 5 points and Francisco Sugar 7½s, 1942, which advanced to 25 from 21.

An irregular trend characterized the week's foreign bond worked.

market. Argentine and Chile issues were flower and Italian issues continued to lose ground. were irregular, with some of the corporate bonds slightly higher. Strength was displayed by Scandinavian and Finnish issues.

Moody's computed bond prices and bond yield averages are given in the following tables:

|                                    |                                  |                         |                             | 'S BON                     |                         |                         |                          |                         |                            |                                    |                          | MOODY<br>(Ba                   | 'S BON                          |                      |                      |                      | t                    |                      |                      |

• These prices are computed from average yields on the basis of one "ideal" bond (4½% coupon, maturing in 31 years) and do not purport to show either the average level or the average movement of actual price quotations. They merely serve to illustrate in a more comprehensive way the relative levels and the relative movement of yield averages, the latter being the truer picture of the bond market. For Moody's index of bond prices by months back to 1928, see the issue of Feb. 6 1932, page 907.

• Actual average price of 8 long-term Treasury issues. † The latest complete list of bonds used in computing these indexes was published in the issue of Oct. 13 1934, page 2264. †† Average of 30 foreign bonds but adjusted to a comparable basis with previous averages of 40 foreign bonds.

### Indications of Business Activity

### THE STATE OF TRADE—COMMERCIAL EPITOME

Friday Night, Dec. 28 1934.

Business activity showed notable expansion. All the important industry barometers allowing for seasonal changes showed increases for the last period reported. Steel, motors, textiles, shoes, glass, machinery and electrical equipment all showed gains for the week. There was a slight decrease in carloadings but the gain over last year was widened. The steel output was up to 35.2% and there was an increase of 40% in the production of automobiles. Electric output moved up to the best level since Dec. 1930. The crude oil production showed a gain but was within the enlarged Federal allowable. Soft coal output in the week ended Dec. 22nd increased substantially over 1933. Christmas buying was the best in many years. Retail business was better abetted by cold weather. Winter goods were in good demand. There was little disposition among merchants to lower prices on regular lines of men's and women's clothing because of the fact that inventories had been cut down materially as a result of the heavy holiday demand. Clearance sales were less in evidence. There was a heavy demand for the better grades of merchandise at the very few special sales events now in progress. Wholesale orders showed further expansion. Buyers' stocks are so low that they were forced into the wholesale market a week or two before schedule. Cotton moved within narrow limits during the week, early weakness being followed by firmness later on. The trade was holding aloof awaiting news from Washington concerning next year's crop. Worth Street reported some improvement early in the week, but recently quieted down. Grain markets were only fairly active at best, and after showing a reactionary trend early in the week, later showed more firmness. The recent cold snap in the winter wheat belt, it is feared, did considerable damage owing to a lack of snow covering. The strength of hogs caused the recent advance in corn. Oats and rye fluctuated with other grain in very light trading. Commodities of late were generally strong and more active, with a better outside public interest reported in several markets. A feature was the sharp rise in sugar, which started three days ago. Light snow flurries fell here on Christmas Day, and there was a heavy rain the following day. followed by gales from the Northwest and a prediction of a drop in the mercury to 10 degrees. This forecast failed to materialize, but the temperature did go down to 17 degrees on the 27th inst. Icy gales hit New England, where ship-

ping and inland traffic was delayed and over a million dollars' worth of damage was done. Up-State New York also suffered from heavy winds and a blizzard on the 26th inst. clogged up many highways. It reached 39 degrees below zero at Eveleth, Minn. It was 26 below at Duluth, and 18 below at Minneapolis. It was down to 2 above at Chicago. Many Canadian cities reported marks of 30 below. Florida recently had frost, which did heavy damage to the grapefruit crop. To-day it was fair and cold here, with temperatures ranging from 24 to 43 degrees. The forecast was for cloudy and warmer to-night; Saturday rain or snow, with moderate temperature. Overnight at Boston it was 12 to 20 degrees; Baltimore, 28 to 36; Pittsburgh, 28 to 36; Portland, Me., 10 to 20; Chicago, 30 to 34; Cincinnati, 36 to 46; Cleveland, 32 to 42; Detroit, 12 to 26; Charleston, 46 to 56; Milwaukee, 18 to 30; Dallas, 46 to 52; Savannah, 50 to 58; Kansas City, 40 to 46; Springfield, Mo., 36 to 42; St. Louis, 34 to 50; Oklahoma City, 44 to 54; Denver, 44 to 62; Salt Lake City, 34 to 50; Los Angeles, 52 to 58; San Francisco, 44 to 52; Seattle, 34 to 40; Montreal 4 below to 0, and Winnipeg, 30 to 10 below.

#### Wholesale Commodity Prices Unchanged During Week of Dec. 15, According to United States Department of Labor

Following a gradual rise for the past three weeks, wholesale commodity prices for the week ended Dec. 15 remained unchanged from the week previous, Commissioner Lubin of the Bureau of Labor Statistics, United States Department of Labor, announced Dec. 20. The Bureau's index remained at 76.7% of the 1926 average. Mr. Lubin stated:

mained at 76.7% of the 1926 average. Mr. Lubin stated:
The general level is the same as for the corresponding week one month ago. Current prices are 1.4% below the high for the year, the week of Sept. 8, when the index was 77.8, and 8% above the low point of 1934, 71.0, for Jan. 6. As compared with the week ended Dec. 16 1933, when the index was 70.8, the current index is up by 8 1.3%. It is 21½% higher than two years ago, when the index was 63.0%.

Of the 10 major groups of items covered by the Bureau, five—foods, hides and leather products, textile products, chemicals and drugs, and miscellaneous commodities—registered increases from the previous week. Three groups—farm products, fuel and lighting materials and building materials—showed decreases, while metals and metal products and housefurnishing goods were unchanged.

With the exception of nides and leather products, textile products and building materials, all of the 10 major groups showed higher average prices than for the corresponding week in 1933. Farm products registered the greatest rise over the year with an increase of 27%; foods have advanced 20%; miscellaneous commodities, 8½%, and chemicals and drugs, 6%. Fuel and lighting materials, metals and metal products, and housefurnishing goods showed smaller increases. During the 12-month period average prices of textiles have decreased 8¾%, hides and leather products 3 1-3%, and building materials 0.4 of 1%. All commodities other than farm products and foods are approximately 1% above a year ago.

The following table, contained in an announcement by the

The following table, contained in an announcement by the Department of Labor, shows index numbers and per cent of change between cur ent prices and those of March 4 1933, the low point of last year, and the week ended Dec. 16 1933:

| Commodity Groups                              | Dec. 15<br>1934 | Mar. 4<br>1933 | % of<br>Incr'se | Dec. 16<br>1933 | % of<br>Incr'se |

The announcement also contained the following:

The announcement also contained the following:

Wholesale food prices for the present week were up by 0.7 of 1%, due largely to an advance of over 2% in meats, 1% for cereal products, and smaller rises for butter, cheese and milk. Fruits and vegetables, on the other than, were lower by 1.7%. Price increases were reported for lard, oleomargarine, pepper, raw sugar and most vegetable oils. The index for the group, 75.4, is 20% above a year ago, when the index was 63.0 and 28%, above two years ago with an index of 58.8.

An advance of 6½% in hides and skins forced the index of hides and eather products were unchanged at the low for the year, while prices of leather were slightly lower.

Miscellaneous commodities, with an increase of 0.3 of 1% reached a new

Were signally lower. Miscellaneous commodities, with an increase of 0.3 of 1%, reached a new high for the year because of an advance of 51%% for cattle feed. Crude rubber was lower by 1% and paper and pulp 0.6 of 1%. The sub-groups of automobile tires and tubes and other miscellaneous commodities showed

no change.

Chemicals and orugs, with an index of 78.0, also advnaced 0.3 of 1%, due to higher prices for chamicals. The sub-groups of drugs and pharmaceuticals, fertilizer materials and mixed fertilizers were unchanged.

Textile products advanced slightly because of higher prices for knit goods and silk and rayon. Cotton goods and other textile products, on the other hand, were lower, while clothing and woolen and worsted goods were unchanged. The present index, 69.4, is up 0.1 of 1%.

A sharp decline in petroleum products largely accounted for the 1% drop in the group of fuel and lighting materials. Anthracite coal also was slightly lower, while bituminous coal and coke remained unchanged. The index for the group is now 75.2% of the 1926 average.

The second largest decrease for the major groups occurred in farm products. The decline was 0.8 of 1%. The index for grains was unchanged. Higher prices for barley and wheat were counterbalanced by lower prices for corn, oats and rye. Livestock and poultry prices dropped 2%; other farm products, including beans, eggs, apples, lemons, oranges, hops, onions and white potatoes, increased ½ of 1%. Advancing prices were reported for cotton, hay, peanuts, seeds, tobacco and sweet potatoes. The present farm products index, 71.1, is[27% above the level of a year ago and 59% higher than two years ago, when the indexes were 55.9 and 44.7%, respectively.

Fractional decreases in paint materials and lumber resulted in the group

Average prices of brick and tile,

Fractional decreases in paint materials and lumber resulted in the group of building materials declining 0.1 of 1%. Average prices of brick and tile, cement, plumbing and heating materials, structural steel and other building materials were unchanged.

Metals and metal products, with an index of 85.4, remained at the level of the previous week. Increases in prices of scrap steel and machine bolts were too slight to be reflected in the index. The index for housefurnisning goods remained at 82.4. Prices of both furniture and furnishings were stationary.

stationary.

The general level for the group of all commodities other than farm products and foods showed a decrease of 0.1 of 1%. The present index, 78.2, compares with 77.5 for a year ago and 69.5 for two years ago.

The index of the Bureau of Labor Statistics is composed of 784 price series, weighted according to their relative importance in the country's markets and based on average prices of the year 1926 as 100.0.

The accompanying table shows index numbers of the main groups of commodities for the past five weeks and for the weeks of Dec. 16 1933 and Dec. 17 1932:

Dec. 17 1932:

### Revenue Freight Car Loadings for Latest Week Decline

Loadings of revenue freight for the week ended Dec. 22 34~t taled 547,895~cars. This is a decrease of 32,040~c1934 t taled 547,895 cars. cars or 5.5% from the preceding week, and a gain of 16,431 cars or 3.1% from the total for the like week of 1933. The comparison with the corresponding week of 1932 was also favorable, the present week's loadings being 53,385 cars or 10.8% higher. For the week ended Dec. 15, loadings were 3.7% above the corresponding week of 1933 and 12.4%above those for the like week of 1932. Loadings for the week ended Dec. 8 showed a gain of 1.7% when compared with 1933 and an increase of 5.8% when the comparison is with the same week of 1932.

The first 16 major railroads to report for the week ended Dec. 22 1934 loaded a total of 237,891 cars of revenue freight on their own lines, compared with 249,028 cars in the preceding week and 230,497 cars in the seven days ended Dec. 23 1933. A comparative table follows:

The Association of American Railroads, in reviewing the week ended Dec. 15, reported as follows:

Loading of revenue freight for the week ended Dec. 15 totaled 579,935 cars. This was an increase of 28,924 cars above the preceding week, 20,516 cars above the corresponding week in 1933, and 64,166 cars above the corresponding week in 1932.

Total Londa Received

Miscellaneous freight loading for the week ended Dec. 15 totaled 196,813 cars, a decrease of 808 cars below the preceding week but an increase of 3,496 cars above the corresponding week in 1933, and 48,851 cars above the corresponding week in 1932.

Loading of merchandise less-than-carload-lot freight totaled 154,949 cars, a decrease of 2,129 cars below the preceding week this year, 4,764 cars below the corresponding week in 1933 and 4,778 cars below the same week in 1932.

week in 1932.

Coal loading amounted to 147,907 cars, increases of 29,819 cars above the preceding week, 20,459 cars above the corresponding week in 1933 and 3,104 cars above the same week in 1932.

Grain and grain products loading totaled 30,233 cars, an increase of 1,713 cars above the preceding week, 277 cars above the corresponding week in 1933 and 4,742 cars above the same week in 1932. In the Western districts alone grain and grain products loading for the week ended Dec. 15 totaled 19,240 cars, a decrease of 642 cars below the same week in 1933.

Livestock loading amounted to 18,564 cars, a decrease of 1,631 cars below the preceding week, but an increase of 1,071 cars above the same week in 1933 and 1,370 cars above the same week in 1932.

In the Western districts alone, loading of livestock for the week ended Dec. 15 totaled 13,759 cars, an increase of 792 cars above the same week in 1933.

in 1933.

in 1933.
Forest products loading totaled 20,725 cars, an increase of 201 cars above the preceding week, 358 cars above the same week in 1933, and 8,864 cars above the same week in 1932.
Ore loading amounted to 3,089 cars, a decrease of 508 cars below the preceding week, and 342 cars below the corresponding week in 1933, but an increase of 1,036 cars above the corresponding week in 1932.
Coke loading amounted to 7,655 cars, an increase of 2,267 cars above the preceding week, but a decrease of 39 cars below the same week in 1933. It was, however, an increase of 977 cars above the same week in 1932.
All districts except the Central Western reported increases for the week

of Dec. 15 above the same week last year. All districts reported increases compared with the corresponding week in 1932.

Loading of revenue freight in 1934 compared with the two previous

years follows:

Col. Leonard P. Ayres Finds Efforts to Achieve "Managed Recovery" Hindering Natural Upturn in United States—Says Three Chief Barriers to Revival Are Code Regulations, Monetary Uncertainty and Securities Act.

The United States has a brilliant opportunity to secure a natural business recovery, "if we are willing to give up trying to achieve a managed recovery," Leonard P. Ayres, Vice-President of the Cleveland Trust Company, meeting of the American Statistical Association in Chicago yesterday (Dec. 28). Col. Ayres said that the opportunity rests in immense shortages in construction and durable goods that have accumulated during the depression. estimated that the statistical total of such accumulated shortages is between \$85,000,000,000 and \$100,000,000,000, and added that if all these shortages had to be made up, the durable goods and construction industries would have to operate at 25% above their normal levels of activity for ten years in order to supply them.

Col. Ayres pointed out that at present we have huge shortages of necessary goods, millions of unemployed eager for work, and billions of idle capital seeking investment. "Always before," he said, "such a combination has promptly produced renewed prosperity. What we most need now is not greater public appropriations to build and make things, but a removal of the obstacles which now hold business back from taking advantage of the opportunity that is here."

Such obstacles, Col. Ayres said, are artificial and political, rather than natural and economic. Listing three principal barriers, he said that if these were removed the Nation would not need to worry about spending its way out of the depression with public funds, "for we should then rapidly finance the recovery with private profit-making funds.' In discussing these three obstacles to recovery, he said:

The first consists of nearly 5,000 new regulations controlling the conduct of business operations that are contained in the new codes. The second is continuing fear about the future of our money which is mainly based on the ever mounting budget deficits caused by our huge governmental expenditures. The third consists of the new regulations controlling the issuing of the securities by which the operations of heavy industry are financed.

Col. Ayres denounced the intervention of Government in business as tending to undermine private confidence and cause large corporations to postpone expenditures for durable goods, thus continuing widespread unemployment. As to this he said, in part:

this he said, in part:

When governments of capitalistic countries undertake to administer managed recoveries, as they have in this depression, they promptly encounter the difficulties that are inherent in the voluntary character of the enterprise that constructs private buildings, and of the purchasing that supports the durable goods industries. The revival of that voluntary purchasing is essential to recovery, and yet that is the part of our economy in which individuals and corporations have freedom to wait if they think it more advantageous or safer to do so.

Under such circumstances it is inevitable that governments should be tempted to intervene still farther into business activity, in the hope that ways may be found to make buying and building by corporations compulsory through public regulation, instead of letting it remain voluntary and subject to private decision. Their spokesmen complain of business not co-operating, which means that they resent the freedom which business retains to make voluntary purchases. They discuss the socializing of banking, which would not merely be of potent aid in a managed economy, but would eventually inevitably result in attaining it. Under such conditions the penetration of Government into business becomes progressive, politics becomes decreasingly an activity of parties seeking power, and increasingly one of pressure groups competing for economic advantages. In those circumstances the principles of democracy fare badly.

### At the outset of his remarks Col. Ayres said:

At the outset of his remarks Col. Ayres said:

We are entering the sixth year of the great depression, but the twentyfirst year of the causes of the depression. These causes are the economic
disorders resulting from the World War. All important modern wars have
been promptly followed by depressions, and in the cases of the truly major
conflicts the return of peace has been followed about ten years later by
secondary and exceptionally long and severe depressions. Cases in point
include the memorable depression beginning in England in 1825, a decade
after Waterloo; the long depression of the 70's in this country beginning
about ten years after the close of the Civil War; the depression of the 80's
in Europe ten years after the Franco-Prussian War; and now this great
world-wide depression starting ten years after the close of the World War.
This present period has been characterized by one most important
development that was not a feature of the earlier great secondary post-war
depressions. That new feature is the almost universal appearance and
continuing spread of economic nationalism. The war brought governmental intervention into the economic affairs of almost all nations on an
unprecedented scale, and this movement of government into activities
formerly left to business initiative has ever since been continued, and in
recent years rapidly increased.

In another part of his address Col. Ayres stated that "it is not hard to see why our great Federal spending program has not brought recovery." Continuing, he said:

Several of the billions have been paid directly to individuals. These recipients include the veterans who got a bonus payment early in the depression, the farmers, the young men in the conservation camps, and the families on the relief lists. The sums they have received have been spent almost wholly for consumers' goods. Such payments could ge continued for a long time on a huge scale without putting many people back at work in the durable goods industries where our great unemployment problem exists.

Other billions have been used in loans to bolster up weakened financial tuations. They include the loans of the RFC to railroads, banks, insur-

ance companies, and other corporations, and the billions advanced to refinance mortgages on farms, and on town and city homes. The effect of these expenditures has been rather to keep conditions from getting worse, definitely to make them get better. They are props rather than

Most of the rest of the emergency expenditures have gone for public works, which are effective and costly means for providing employment, but which seem to have little continuing influence in stimulating business. The reason appears to be that spending for public works does nothing to cure the maladjustments between costs of production and the prices the public is willing to pay. These maladjustments between costs and prices are first among the factors that prolong the depression, and public spending for construction tends to increase them. At the present time costs of building are so high, and rents so low, that almost no one undertakes new construction. Private building is a form of voluntary buying, and people are postponing it until prices appear more attractive. Government building does not prime the business pump because it does not help work out the needed adjustments between costs and prices.

\*\*Why Governments Tighten Their Grip\*\*

#### Why Governments Tighten Their Grip

Why Governments Tighten Their Grip

When governments intervene in business activities in order to get their countries out of depressions they always begin by making the same three kinds of emergency expenditures that we have made in this country in this depression. They disburse money for relief, and usually experiment with different forms of made work before they resort to direct relief payments; they lend public funds to bolster up weakened financial situations; and they undertake programs of public works. These steps have been taken by many governments in numerous depressions before this one, and they do not normally lead to further steps into activities ordinarily reserved to business.

In concluding his address Col Avres said.

In concluding his address, Col. Ayres said:

Whether or not we shall have as a nation the stamina of character to take advantage of the opportunity only future developments can reveal. It has long been a maxim of finance that you cna't unscramble scrambled eggs. It may be that we shall learn in the not far distant future that you can't unmanage a managed economy, and that in a democracy you can't persuade an economic nationalism to economize.

### Monthly Indexes of Federal Reserve Board for November

The Federal Reserve Board issued as follows on Dec. 26 its monthly indexes of industrial production, factory employment, &c .:

BUSINESS INDEXES

p Preliminary. r Revised.
a Indexes of factory employment and payrolls without seasonal adjustment implied by Bureau of Labor Statistics. Index of factory employment adjusted r seasonal variation compiled by Federal Reserve Board. Underlying figures e for payroll period ending nearest middle of month.

November 1934 figures are preliminary, subject to revision.

#### Retail Prices of Food Declined Further During Two Weeks Ended Dec. 4, According to United States Department of Labor

During the two weeks ended Dec. 4 retail food prices continued a gradual and steady decrease which began in September, Commissioner Lubin of the Bureau of Labor Statistics of the United States Department of Labor announced Dec. 18. He stated:

The present index on the 1913 base is 114.6, 0.3 of 1% below that for Nov. 20, and 1.9% below the September high for the year. It is, however, 8.6% above the level for Dec. 5 1933, when it was 105.5.

Of the 42 foods included in the index, 24 showed no price change, 9

Of the 42 foods included in the index, 24 showed no price change, 9 decreased and 9 increased.

Meat prices decreased 0.6 of 1%. Five meats showed lower prices; for three there was no change, and two showed an increase. The net decrease for the group was less than for any bi-weekly period since September. During the past three months meat prices have fallen 10.4%.

Egg prices fell off 1.2%. Fruits and vegetables declined 0.7 of 1%, due almost entirely to the continued drop in orange prices. Onions increased 2.6%.

Cereals remained unchanged throughout the group. Dairy products

creased 2.6%.

Cereals remained unchanged throughout the group. Dairy products showed only one change; an increase of 0.4 of 1% in the price of cheese.

Miscellaneous foods, including beverages and fats and oils, showed a negligible increase of 0.3 of 1%.

Prices fell in 31 of the 51 reporting cities. Eighteen cities showed increases and in two there was no change. The most significant city changes were an increase of 5.0% in Indianapolis and a decrease of 2.3% in Portland. land. Me.

Eleven of the 14 cities in the North Atlantic area reported price declines.

The greatest change was a decrease of 2.3% in Portland, Me.
In the South Atlantic area prices in Washington fell 1.8%. Other changes in this area were negligible.

changes in this area were negligible.

In the North Central States changes ranged from an increase of 5.0% in Indianapolis to a decrease of 1.0% in Cleveland.

The South Central States showed a net increase of 0.1 of 1%. Birmingham prices moved upward 1.4%; those in Houston, 1.3%.

In the Western area there were decreases of 1.5% in Portland, Ore., and 1.7% in San Francisco. There were no other marked changes in that area.

The following is also from Mr. Lubin's announcement:

Prices used in constructing the weighted index are based upon reports from all types of retail food dealers in 51 cities and cover quotations on 42 important food items. The index is based on the average of 1913 as 100.0. The quantities of the various food items used in constructing the index are based on the expenditures of wage earners and lower-salaried

The following tables show the percentages of price changes for individual commodities, and for the various cities covered by the Bureau Dec. 4, compared with Nov. 20 1934, Nov. 6 1934, Dec. 5 1933, Dec. 15 1932, and Dec. 15 1929.

# Monthly Index of Wholesale Commodity Prices of United States Department of Labor Unchanged from October to November

The general level of wholesale commodity prices unchanged from October to November. The index of the Bureau of Labor Statistics of the United States Department of Labor remained at 76.5% of the 1926 average. The November index, said an announcement issued Dec. 19 by the Labor Department, registered an advance of 6% over the low point of the year (January), when the index was 72.2, and a decrease of 1.4% from the 1934 high, 77.6, in September. The November 1934 index was 7.5% above November 1933; 19.7% above November 1932, and 9% above November 1931. However, when compared with November 1930, November 1934, prices were down by 6% and when compared with November 1929, were lower by 18%. The announcement continued.

Of the 10 major groups of items covered by the Bureau, four—farm products, foods, hides and leather products and miscellaneous commodities—registered increases. The remaining groups—textile products, fuel and lighting materials, metals and metal products, building materials, chemicals and drugs and housefurnishing goods—showed slight decreases. Changes in prices by groups of commodities were as follows.

| Groups  | Increases                                     | Decreases   | No Change  |
|---|---|---|--|
| Farm products Foods Hides and leather products Textile products Textile products Fuel and lighting materials Metals and metal products Building materials Chemicals and drugs Housefurnishing goods Miscellaneous | 29<br>55<br>10<br>15<br>7<br>4<br>6<br>7<br>3 | 28<br>31<br>10<br>40<br>8<br>20<br>11<br>10<br>10 | 10<br>36<br>21<br>57<br>9<br>106<br>69<br>72<br>48<br>31 |
| Total   | 145   | 180   | 459  |

Raw materials, including farm products, coffee, hides and skins, coal, crude petroleum, iron ore, crude rubber and other similar commodities, registered an advance of 0.1 of 1%, and were 15.7% above the November 1933 level. Finished products, among which are included more than 500 manufactured articles, also advanced 0.1 of 1% over October, and were 5.5% above the corresponding month of 1933. Semi-manufactured articles, including such items as raw sugar, leather, iron and steel bars, pig iron and other similar goods declined by 0.6 of 1%, as compared with the preceding month and 0.4 of 1% below November of last year.

The combined index of "All commodities exclusive of farm products and processed foods" registered no change between October and November but was higher than a year ago by 1%. The non-agricultural commodities group, which includes all commodities except farm products, advanced 0.1 of 1% to a point 4.7% above a year ago.

Miscellaneous commodities, with an index of 70.6, were higher by 1.3%, due to an advance of nearly 11% for cattle feed and 6.3% for automobile

tires and tubes. Crude rubber, on the other hand, decreased  $7\,\%$  while paper and pulp and other miscellaneous commodities showed smaller

A 5.7% increase in hides and skins and 0.4 of 1% for leather forced the index of hides and leather products up ½ of 1% to 84.2%. The sub-groups of shoes and other leather products registered slight declines.

index of index and leather products up ½ of 1% to 84.2%. The sub-groups of shoes and other leather products registered slight declines.

The foods group advanced 0.4 of 1% to 75.1% of the 1926 average, showing an increase of 16.8% over November 1933, when the index was 64.3, and an increase of 23.9% over November, 1932, when the index was 60.6. The wholesale food price index for November 1934, was 13% lower than for November 1930, and 24% below that of November 1929, when the indexes were 86.2 and 98.9, respectively. Important price advances in this group were reported for butter, cheese, family beef, lamb, mutton, dressed poultry, lard, oleomargarine, pepper, salt, raw sugar and most vegetable oils. Lower prices were recorded for flour, macaroni, fresh beef, bacon, ham, mess pork, fresh pork, veal, coffee, granulated sugar and tallow. Farm products also registered an advance during November, amounting to ¼ of 1%. Commodities in the group contributing to this rise were corn, oats, rye, wheat, lambs, cotton, eggs, fresh apples, sweet potatoes and tobacco. Barley, cattle, hogs, live poultry, lemons, oranges, hay, hops, fresh milk at Chicago, peanuts, seeds, dried beans, onions, white potatoes and wool, on the other hand decreased. The November level of farm products prices was 25% above that of a year ago and 51½% higher than November 1932. As compared with November 1929, however, they were down by 30%.

Textile products declined nearly 1% to a new low for the year. Average

November 1932. As compared with November 1929, however, they were down by 30%.

Textile products declined nearly 1% to a new low for the year. Average prices of cotton goods were lower by 12½%; woolen and worsted goods and clothing approximately 1%. Silk and rayon, on the other hand, advanced 4%, and knit goods 0.8 of 1%. The subgroup of other textile products remained unchanged. The index for the group, 69.7, was 9% lower than November a year ago, when the index was 76.8.

The group of housefurnishing goods registered a decrease of ½ of 1%. Both furniture and furnishings shared in the decline.

Higher prices for anthractic coal and petroleum products were offset by lower prices for electricity and gas, causing the group of fuel and lighting materials to drop ½ of 1%. Bituminous coal and coke remained unchanged.

In the group of chemicals and drugs, falling prices for fertilizer materials more than counter-balanced a slight rise in average prices of mixed fertilizers, resulting in the group of chemicals and drugs declining ¼ of 1%.

Building materials also declined ¼ of 1%, due to lower prices of lumber and paint materials. Plumbing and heating materials and other building materials registered slight increases, while brick and tile, cement and structural steel were unchanged.

Metals and metal products showed a fractional decrease between October

Metals and metal products showed a fractional decrease between October and November, because of declining prices for agricultural implements, certain iron and steel products and non-ferrous metals. Increases were recorded in average prices for scrap steel, antimony, bar silver and pig tin. The November index, 86.2, was 0.1 of 1% below the October level.

The Bureau of Labor Statistics' index, which includes 784 price series, weighted according to their relative importance in the country's markets, is based on the average prices of 1926 as 100.0.

Index numbers for the groups and sub-groups of commodities for November 1934, in comparison with October 1934, and November of each of the past five years are contained in the accompanying table. Metals and metal products showed a fractional decrease between October

Wholesale Commodity Prices Advanced Slightly During Week of Dec. 22, According to Index of National Fertilizer Association

The decline in wholesale commodity prices during the first two weeks of December was checked in the week ended Dec. 22, according to the index of the National Fertilizer Association. The index for the latest week was 75.4 compared with 75.2 in the week preceding; 75.7 a month ago, and 67.8 a year ago. The low point for this year was 68.6 reached in the week of Jan. 6, and the high point was 76.6 in the week of Sept. 22. The record low point reached by the index was 55.8, recorded in March 1933. (The three-year average 1926-1928 equals 100.) The Association on Dec. 24 further said:

Five of the component groups of the index advanced last week while three declined. The advancing groups were fuel, grains, feeds and live-stock, miscellaneous commodities, metals and fats and oils. Foods, building materials and fertilizer materials declined.

Prices of 20 individual commodities were higher than in the preceding week and 23 were lower. There were 28 advances and 27 declines during the week ending Dec. 15. The largest number of advances last week coursed in the grains feeds and livestock group with the prices of some

the week ending Dec. 15. The largest number of advances last week occurred in the grains, feeds and livestock group with the prices of seven commodities in the group moving upward. Four items of the textiles group and three in the fats and oils group advanced. Six tems in the foods, and seven in the grains, feeds and livestock group declined. Cottonsilk, butter, potatoes, cattle, hogs, sheep and gasoline were among the commodities which increased in price last week. The declining commodities included rayon, flour, corn, oats, wheat, cement, brick and lumber.

The index numbers and comparative weights for each of the 14 groups listed in the index are shown in the table below.

WEEKLY WHOLESALE PRICE INDEX—BASED ON 476 COMMODITY PRICES (1926-1928—100)

### Chain Store Sales Move Upward During November

Business of the chain stores in November displayed a decicedly buoyant and broadening tendency, all divisions, excepting the shoe, making a distinctly better showing as compared with October than in either of the two preceding years, according to the current review of "Chain Store Age," which continued as follows:

Substantial extra-seasonal gains were reported by the five-and-ten and the apparel chain groups. Returns of the grocery and drug chains were only fractionally under the respective October points. Shoe store sales receded a sizable distance from the previous month's record level.

In reflection of these results, the state of trade in the field, as measured by the "Chain Store Age" index, advanced in November to 92.9 of the 1929-1931 average taken as 100, from 92.0 in October. During the corresponding period of last year the index dropped from 86.4 in October to 85.5 in November, while in 1932 the index dropped from 81.5 to 79.4 during those two months. those two months.

those two months.

Total average daily sales of these 18 chains in November amounted to \$5,484,000. This was an increase of 8.8% over November 1933. The October sales of \$5,325,000 were approximately 5% greater than October last year. In 1932 sales declined slightly from October to November.

The index of sales of six five-and-ten chains in November was 99.0 against 97.0 in October. For the apparel group, the November index was 102.4 against 101.4 in October and 82.3 in November 1933.

For the grocery group, the index in November eased off to 84.8 from 84.9 in October as against a decline last year from 80.3 in October to 79.9 in November. The index of sales of two drug chains was 108.4 in November against 108.5 in October, while the index for two shoe chains dropped to 101.5 in November from 113.5 in October. The latter level was the high for all time for this division.

101.5 in November from 113.5 in October. The latter level was the high for all time for this division.

Chain store executives report a smart picking up of consumer buying in December after a slow start the first few days. The prospects are good for an active holiday trade and a very satisfactory volume for the month. Early signs of short stocks on lines not of a strictly seasonal nature indicate a favorable year-end close so far as inventories are concerned.

### Weekly Electric Output at Highest Figure in Five Years

The Edison Electric Institute in its weekly statement discloses that the production of electricity by the electric ght and power industry of the United States for the week ended Dec. 22 totaled 1,787,936,000 kwh. This was the highest output reported for any week since the week ended Dec. 21 1929, when 1,860,021,000 kwh. were produced. Total output for the latest week indicated a gain of 7.9% over the corresponding week of 1933, when output totaled 1,656,616,000 kwh.

Electric output during the week ended Dec. 15 1934 totaled 1,767,418,000 kwh. This total was the largest reported since the week of Dec. 20 1930 and was a gain of 7.5% over the 1,644,018,000 kwh. produced during the week ended Dec. 16 1933. The Institute's statement follows:

PER CENT INCREASES (1934 OVER 1933)

 $\mathbf x$  Decrease. Note—The monthly figures shown above are based on reports covering approximately 92% of the electric light and power industry and the weekly figures are ased on about 70%.

### New York Federal Reserve Bank Reports Increase of 5% in Chain Store Sales During November Over November 1933

"Total November sales of the reporting chain stores in the Second (New York) District were 5% higher than in the corresponding month of 1933, a slightly smaller percentage increase than in October, but on an average daily basis the increase was somewhat larger." In stating this, the Federal Reserve Bank of New York, in its "Monthly Review" of Jan. 1, adds:

Sales of the ten cent and variety chain stores were moderately larger than in November 1933, and drug chain sales showed a slight advance. On an average daily basis, the declines in sales registered by the reporting grocery and shoe chains were approximately the same as those recorded in the preceding month, while the reduction shown in sales of the candy chains was larger than in October.

The increase in sales per store for all reporting chains was slightly larger than that recorded for total sales, owing chiefly to a reduction in the number of grocery and shoe units operated between November 1933 and November 1934.

of grocer; ber 1934.

### Department Store Sales During November in New York Federal Reserve District Reported 6½% Above November Last Year—Increase Also Noted in Sales in Metropolitan Area of New York Dec. 1 to 24

"November sales of the reporting department stores in the Second (New York) District," states the Federal Reserve

Bank of New York, "were approximately 61/2% higher than in the corresponding month of 1933, and exclusive of liquor business, sales were about 4% higher." Continuing, the Bank also has the following to say in its "Monthly Review"

of Jan. 1:

Average daily sales of the reporting New York and Buffalo department stores showed the most favorable year to year comparisons since last March, while those of the Rochester, Syracuse, Northern New Jersey, Northern New York State, Southern New York State, Hudson River Valley District, and the Capital District reporting stores showed the most favorable comparisons in 4 to 6 months, in this connection, however, it should be pointed out that business in November 1933 was the poorest of the fall season. The reporting Bridgeport department stores recorded only a slight advance in sales over a year previous, and stores in Westchester and Stamford reported a lower dollar volume of sales. Apparel stores in this district reporting to this bank showed the smallest percentage increase in sales over the preceding year since last April.

Department store stocks of merchandise on hand at the end of November continued to show a decline from the previous year but the decrease was smaller than in the preceding three months. Apparel store stocks remained larger than in 1933. Collections continued to average higher than in the previous year both for department and apparel stores.

As to sales in the Metropolitan area of New York during the period from Dec. 1 to Dec. 24, the Bank states:

the period from Dec. 1 to Dec. 24, the Bank states:

For the period Dec. 1 to 24 inclusive, total sales of the reporting department stores in the Metropolitan area of New York were a little over 6% higher than in the corresponding period of 1933. Preliminary data for the first 14 days of the month showed sales about 13% larger than last year, but during the remainder of the Christmas shopping period the sales of these stores were barely equal to those of a year ago. On the basis of the figures for the first 24 days of the month, however, it appears that December sales in the Second Federal Reserve District showed a little more than the usual seasonal increase over November. The seasonally adjusted index for December was about as high as for any month since last spring, and was moderately above the December levels of 1932 and 1933, but remained considerably below the December levels of 1931 and earlier years. The aggregate dollar volume of sales for 1934 appears to have been about 6½% higher than in 1933, compared with a decrease of a little over 6% between 1932 and 1933. etween 1932 and 1933.

# Increase of 14% Over Year Ago Noted in November Sales of Wholesale Firms in New York Federal Reserve District

The New York Federal Reserve Bank reports that "total November sales of the reporting wholesale firms in the Second (New York) District averaged 14% higher than in November 1933, a slightly smaller increase than occurred in October, but with this exception the most favorable year to year comparison since last May." [In its Jan. 1 "Monthly Review" the Bank also says:

Large increases in sales were reported by the shoe and diamond concerns, and the cotton goods and paper firms registered the most favorable year to year comparison since last spring. A substantial advance occurred also in total sales of grocery firms, which was only slightly less than in October, but a considerable part of the November increase was due to liquor sales. Sales of silk goods, reported on a yardage basis by the National Federation of Textiles, again showed a sizeable increase over previous year. Smaller increases in sales than in October were registered by the stationery, hardware, and jewelry firms, and sales of men's clothing and drugs were lower than in 1933 following increases in the three preceding months.

months.
Stocks of merchandise on hand were higher in November 1934 than in 1933 in the reporting grocery, drug, hardware, diamond, and jewelry concerns. Collections continued better than in the previous year for all reporting lines

### Industrial Situation in Illinois Reviewed by Industry by Illinois Department of Labor—Decreases Noted in Employment and Payrolls from October to November

In a review of the industrial situation in Illinois by industry, issued Dec. 23 by Esther Espenshade, of the Division of Statistics and Research of the Illinois Department of Labor, it was stated that "employment in Illinois declined 2.7% and payrolls decreased 3.6% from October to November, according to the reports received from 4,627 manufacturing and non-manufacturing establishments in this State. During November these firms employed 459,462 workers and paid out, weekly, a total of \$9,925,135 in wages," the review said, adding:

November reports from 2,063 manufacturing firms showed losses of 4.3% in employment and 4.8% in payrolls. Declines of 0.2 of 1% in employment and 2.1% in payrolls were shown by reports from 2,564 non-manufacturing firms and 2.1% in payrolls were shown by reports from 2,564 non-manufacturing firms and 2.1% in payrolls were shown by reports from 2,564 non-manufacturing firms and 2.1% in payrolls were shown by reports from 2,564 non-manufacturing firms showed losses of 4.3% in employment and 2.1% in payrolls were shown by reports from 2,564 non-manufacturing firms showed losses of 4.3% in employment and 4.8% in payrolls.

ment and 2.1% in payrolls were shown by reports from 2,564 non-manufacturing establishments.

Although industrial activity is usually curtailed from October to November, the November 1934 declines for this period are considerably sharper than the average seasonal declines of 0.6 of 1% in employment and 1.7% in payrolls, which are the 11-year average changes disclosed by the records of the Illinois Department of Labor, which begin in 1923. The current October-November losses reported for the manufacturing industries are greater than the average seasonal declines of 1.6% in employment and 4.1% in payrolls. greater than the 4.1% in payrolls.

greater than the average seasonal declines of 1.6% in employment and 4.1% in payrolls.

The total actual hours worked in 3,206 firms reporting man-hours data, decreased 3.6% from October to November; those worked by men were 3.2% and those by women 6.0% less. In 1,744 manufacturing firms the total actual hours of work decreased 5.8% and in 1,462 non-manufacturing establishments they declined 0.1 of 1%. The average actual man-hours worked by 314,015 wage earners in all establishments reporting hours data decreased from 36.9 in October to 36.6 in November, or 0.8 of 1%. In manufacturing plants such hours declined from 35.5 to 35.1, or 1.1%, and in non-manufacturing industries they averaged 39.3 hours in both months. According to reports from 3,923 establishments, which showed data separately by sex, the number of male workers declined 2.4% and the number of female workers decreased 4.4%; the amount of wages paid to men decreased 3.2%, and that paid to women decreased 7.5% during November. In 2,014 manufacturing firms reporting data separately by sex, 2.8% less men and 7.9% fewer women were employed in November than in October; wage payments to men were 3.7% smaller, and those to women 10.7% less. In the non-manufacturing industries, 1,909 firms, which reported sex data, employed 1.5% fewer men and 0.4 of 1% more women in November than in October; these firms paid out 2.1% less in wages to men and 3.6% less to women workers.

Seven of the nine main manufacturing groups of industries, the stone, clays and class the workers.

wages to men and 3.6% less to women workers.

Seven of the nine main manufacturing groups of industries, the stone, clay and glass, the metals, machinery and conveyances, the wood products, the chemicals, oils and paints, the textiles, the clothing and millinery, and the food, beverages and tobacco, contributed to declines both in employment and payrolls. The declines in the clothing and millinery, and food, beverages and tobacco groups were particularly severe.

The only industry in the stone, clay and glass group not contributing to both the losses of 1.4% in employment and 2.8% in payrolls reported for the group was the glass industry, which increased both employment and payrolls.

payrolls.

Although seven of the 13 industries covered in the metals, machinery and Although seven of the 13 industries covered in the metals, machinery and conveyances group reported increases both in the number of employees and the amount of wages paid to them, curtailment in the other industries caused the declines of 1.0% in employment and 2.9% in payrolls for this group. The important iron and steel, the electrical apparatus, the cooking and heating apparatus, and the automobiles and accessories industries were largely responsible for the losses reported for the metals group of industries. The agricultural implements and the watches and jewelry industries showed substantial gains in both employment and payrolls.

All the industries in the wood products group, except pianos and musical instruments, contributed to the decline of 3.2% in employment and the reduction of 7.5% in payrolls shown for this group in November.

In the chemicals, oils and paints group, losses of 2.6% in employment and 1.2% in payrolls were reported. Paints, dyes and colors was the only industry not contributing to the loss in employment, while the drugs and chemicals, and mineral and vegetable oils industries were respossible for the decline in payrolls.

chemicals, and mineral and vegetable oils industries were respossible for the decline in payrolls.

In the textiles group, all industries contributed to the decline of 11.6% in payrolls, while all but the thread and twine industry also contributed to the reduction of 0.8 of 1% in the number of workers.

Although the clothing and millinery group usually experiences a curtailment in activity during November, the present reductions are unusually severe. The 11-year average November declines, as shown by the records of the Illinois Department of Labor since 1923, are 3.8% in employment and 13.8% in payrolls, compared with the current losses of 7.7% in employment and 21.1% in payrolls. The important men's and women's clothing industries were, for the most part, responsible for the marked curtailment shown by this group, although all the reporting industries contributed to the loss in employment.

The food, beverages and tobacco group also reported a much sharper curtailment than is usually shown for the month of November. The 11-year seasonal average of the Illinois Department of Labor indicates a 2.2% decline in employment and a 4.5% drop in wage payments during November. Industries in this group reported losses of 13.2% in employment and 8.8% in payrolls during November 1934. All the reporting industries contributed to the payroll decline and all except the beverage industry reduced working forces. The losses were particularly sharp in the fruit and vegetable canning, meat packing, and confectionery industries.

The furs and leather goods, and the printing and paper goods groups were the only manufacturing groups reporting gains during November. In the furs and leather goods group, all industries except furs and fur goods contributed to the gains of 3.0% in employment and 7.0% in payrolls. In the printing and paper goods group, all reporting industries except paper boxes, bags and tubes, and job printing contributed to the 0.3 of 1% increase in employment and all but the paper boxes, bags and tubes, and the miscellaneous paper goods industries also contributed to the gain of 1.9% in payrolls.

In the non-manufacturing industries, the services, the public utilities, and the building and contracting groups contributed to the losses both in employment and payrolls. The wholesale and retail trade group, and coal mining increased both the number of workers and the amount paid to them in wages.

Losses of 6.7% in employment and 7.0% in payrolls were shown for the services group.

mining increased both the number of workers and the amount paid to them in wages.

Losses of 6.7% in employment and 7.0% in payrolls were shown for the services group. Hotels and restaurants, and laundering, cleaning and dyeing establishments decreased both employment and payrolls.

Every reporting industry in the public utilities group reduced payrolls and all but street and electric railways also reduced employment. In the telephone industry and railway car repair shops wage payments were reduced sharply.

The building and contracting group reported losses of 11.2% in employment and 14.4% in payrolls. The reductions were sharpest in the road construction industry. The miscellaneous contracting group increased employment but reduced payrolls.

The mail order houses, which increased employment 9.5% and payrolls 7.7% were largely responsible for the gains of 2.8% in employment and 0.9 of 1% in payrolls reported for the wholesale and retail trade group. Milk distributing and miscellaneous retail establishments reported reductions in the number of employees; department stores, milk distributing, and wholesale grocery establishments reduced payrolls.

Coal mining, which usually shows a substantial increase in activity during November, added 2.9% more men and increased wage payments 0.4 of 1%.

In November 39 reports of wage rate increases, affecting 1,836 employees, or 0.4 of 1% of all employees reported during the month, were received by the Illinois Department of Labor. Three firms reduced the wage rates of 35 persons during November.

Weekly earnings for both sexes combined, for all industries, averaged \$21.60; \$23.90 for men and \$14.57 for women. In the manufacturing industries average weekly earnings were \$20.51 for both sexes combined, \$22.55 for males and \$13.49 for female workers. In the non-manufacturing industries these earnings averaged \$23.25; \$27.01 for men and \$15.97 for women.

### Conference of Statisticians in Industry Reports Slight Improvement in Business During November

Business conditions were slightly improved in November. The upturn during the month added to the gain in October brought the level of activity to where it was in August, according to the monthly report of the Conference of Statisticians in Industry of the National Industrial Conference Board. The report, issued on Dec. 24, said, in part:

Board. The report, issued on Dec. 24, said, in part:

Production in major industries recorded a moderate net advance over seasonal expectations. General distribution and retail trade showed only partial improvement in November as compared with October. Commodity and security prices advanced a little, while the cost of living eased off again. Industrial production showed mixed movements, with a resulting net gain. Automobile output declined in an approximately seasonal manner. Steel and iron production showed sizable gains in November over October, although downturns are usual at this time of the year. Textile activity during November maintained the relatively high post-strike level of October. Electric power output was increased more than seasonally. Building construction awards as a whole fell off a little more than seasonally, and residential awards, in declining, failed to maintain the upturn abserved in October. . . . . October.

### us Expansion of Trade in Canada During 1934 Reported by Bank of Montreal Continuous

The year now closing has witnessed a continuous expansion of trade in nearly all branches of industrial and mercantile pursuit in Canada, states the Bank of Montreal in its current business summary. The great majority of business barometers, the bank points out, show material advances over 1933. The summary, dated Dec. 22, continued, in part:

There remain areas, some of importance, in which the improvement is not pronounced, but they are exceptional. Perhaps most significant of all is the fact that the farmers of Canada, on whose purchasing power so much depends, will realize from their 1934 field crops, according to official estimates, a total of \$536,000,000, which is \$113,000,000 in excess of their return in 1933.

Of some 50 economic records available on a protable being a large of their contents.

of some 50 economic records available on a monthly basis, six show gains amounting to over 50%; 14 show gains ranging from 20% to 50%; 17 show gains ranging from 5% to 20%; seven show gains under 5%, while five are lower than in 1933. The business index of the Dominion Bureau of Statistics, a composite of these factors, which averaged 78.5 for the first 10 months of 1933, averaged 94.2 for the corresponding period of 1934 (1926 equals 100).

In the field of industrial production, the summary noted, continued improvement was registered during November in newsprint output, construction activities, steel and pig iron, and the motor car industry. The cumulative production of steel in Canada for the 11 months was approximately double

that of 1933. Employment continued upward in November. contrary to the usual seasonal movement

### Business Conditions in San Francisco Federal Reserve District — Industrial Activity Unchanged from October to November

The Federal Reserve Bank of San Francisco states that "industrial activity in the Twelfth (San Francisco) District was the same in November as in Ocotber, while seasonally adjusted indexes of retail trade and the physical distribution of goods advanced. Business measures generally were substantially higher than last year at this time," the bank said. In its summary of conditions in the San Francisco

said. In its summary of conditions in the San Francisco District, issued Dec. 22, the bank continued, in part:

Sales of department stores were larger than in any previous November since 1931. Sharp gains over the preceding month were reported by San Francisco and Seattle stores, and trade volumes were up to seasonal expectations in most other parts of the district.

Industrial employment declined during the month somewhat more than seasonally, but remained at approximately the level maintained since April 1934. As is usual at this season, employment in the canning, iron and steel, and motion picture industries was reduced considerably.

Rain and snowfall in November and the first half of December materially exceeded normal expectations in most parts of the district, resulting substantially better conditions for planted crops and livestock ranges than appeared probable a few months ago, in view of the extremely dry 1934 season. Because of the early harvests this year, crop marketings were smaller in volume late in the season than a year earlier. Prices received for farm products changed little between mid-November and mid-December.

### Greater Than Usual or Contrary to Seasonal Increases Noted in Most Lines of Wholesale Trade in Chicago Federal Reserve District from September to October —Department Store Trade Recorded a Non-Seasonal Decline

In a report of merchandising conditions in the Seventh (Chicago) District, contained in its Nov. 30 "Business Conditions Report," the Federal Reserve Bank of Chicago states that "following rather unfavorable trends during September in wholesale trade conditions of the Seventh District, October sales in most reporting groups showed greater than usual or contrary to seasonal expansion." The bank adds:

or contrary to seasonal expansion." The bank adds:

Wholesale hardware sales and the electrical supply trade recorded increases over September of 11% and 18%, respectively, as compared with gains in the average for the month of but 7% and 14%. Grocery sales exceeded those of the preceding month by 1%, and drug sales were greater by 13% as against declines in the seasonal average of 1% and 2%, respectively. The dry goods trade, on the other hand, experienced a decline of 14% from the September volume, whereas the 1924-1933 average for October shows a recession of only 6½% from the preceding month. In all but this last-named line, gains in the year-ago comparison were noticeably larger than in September, October last year having been a relatively unfavorable month. Data for the 10 months of 1934 show sales increases over the corresponding period of 1933 of 15% in groceries, 18% in drugs, 26% in dry goods, 33% in hardware, and 42% in electrical supplies. In groceries and dry goods, ratios of accounts outstanding at the end of October to sales during the month were higher than a month previous, but other groups had lower ratios; in all lines they were under those of a year ago.

WHOLESALE TRADE IN OCTOBER 1934

Continuing in its report, the bank had the following to say as to department store trade:

as to department store trade:

Seventh District department store trade recorded a non-seasonal decline of 3% in the aggregate for October from the preceding month. Recessions of 21% and 12%, respectively, in sales of Detroit and Indianapolis stores were responsible for this loss, as sales by Milwaukee firms expanded 13% over the September volume, Chicago trade gained 2%, and total sales for stores in smaller centers were 7% larger. In the first two named cities, however, exceptionally heavy increases had been shown in September over August. The gain for the district over a year ago—8½%—was practically the same as that shown in a similar comparison for September. Daily average sales totaled only 4½% larger than those of last October, and were 12% smaller than a month previous. An expansion in stocks of 7% on Oct. 31 over the end of September was in accordance with seasonal trend, and for the second successive month they were approximately 7% smaller than on the corresponding date of 1933. Stock turnover for the 10 months of 1934 was somewhat greater than for the same period last year.

After two months of much greater than usual expansion, the retail shoe trade dropped sharply in October, aggregate sales of reporting dealers and

department stores being 27% less than those of September, whereas the 1925-1933 average for the month shows a decline of but 10½%. As compared with last October, however, sales were 8% heavier, and for the 10 months of this year the sales volume totaled 17% above that of the same period a year ago. Stocks increased 2% over September and were 5% heavier than at the end of October 1933.

Sales of furniture and house furnishings by dealers and department stores declined 13% in the aggregate for October from the preceding month, although department stores are responsible for this recession, sales by dealers increasing moderately in the comparison. The 1927-1933 average for October shows a decrease of 16% from the September average. Sales totaled 18% larger than for October last year. An expansion of 6% was recorded in stocks over the close of September, but they were 7½% lighter than on Oct. 31 a year ago.

oct, 31 a year ago.

Thirteen chains operating 2,544 stores in October had aggregate sales 9% in excess of those a month previous and 7% heavier than for last October. Sharing in the expansion over the preceding month were five-and-ten-cent store, drug, shoe, cigar, men's clothing, and musical instrument chains, groceries alone showing a loss for the period. As compared with a year ago, the sale of musical instruments was smaller, but other groups showed

Reporting on the distribution of automobiles in the Middle West, the bank stated that "although distribution of automobiles at wholesale in the Middle West showed a further sharp drop in October from a month previous, retail sales increased somewhat in the companison—contrary to seasonal trend." The bank continued:

Furthermore, sales of used cars considerably exceeded those of September and were heavier than a year ago. A considerable decline in wholesale distribution of new cars and a smaller one in retail sales were recorded from a year ago. Stocks of new cars on hand were substantially lower at the end of October than a month previous, which has been the usual trend for the period in recent years, while used car stocks increased slightly, as is likewise usual. There was some lowering in October of the ratio of deferred payment sales to total retail sales of dealers reporting the item, 53% in the current period comparing with a September ratio of 59% for the same dealers, but with only 48% for October 1933.

### Business Conditions in Minneapolis Federal Reserve District—Increase in Volume Noted in November

According to the Federal Reserve Bank of Minneapolis, "the volume of business in the Ninth (Minneapolis) District advanced during November after allowance for purely seasonal factors." The bank indicated that the volume was also "larger in November than in the same month last year." In its preliminary summary of agricultural and business conditions in the Ninth District, issued Dec. 17, the bank

also had the following to say, in part:

Retail trade in the district was notably larger in November than in the same month last year. Twenty city department stores reported an increase of 19% in dollar volume, and 238 country general stores reported an increase of 27% over November last year. All sections of the district

shared in the increase

shared in the increase.

The estimated cash income to farmers in this district from the sale of seven important products during November was the same as the income from these sources in November last year. This does not include acreage rental and benefit payments nor drought relief funds received by Northwestern farmers during November of this year. There were larger cash receipts than in November last year, from the sale of potatoes, dairy products and hogs. Prices of all important Northwestern farm products were higher during November than a year ago with the exception of light feeder steers, lambs, ewes and potatoes.

### Business Conditions in Richmond Federal Reserve District-Volume of Trade in October and Early November at Seasonal Level

"In comparison with other months of the past four years," states the Richmond Federal Reserve Bank, "October and early November showed a volume of trade in the Fifth (Richmond) Federal Reserve District fully up to seasonalevel, and basic conditions on the whole appear more favorl able for fall and winter business than they have been since the depression set in." In its Nov. 30 "Monthly Review" the depression set in." the Bank also had the following (in part) to say:

the Bank also had the following (in part) to say:

Employment changed little during the past month and continues the weakest link in the business chain. Coal production in October showed a normal advance over September output, and also exceeded production in October 1933. Textile mills in the Fifth district, after voluntarily restricting operations in Julyland August and experiencing the strike in September, resumed operations on approximately a full-time basis in October, and consumed more cotton than in October a year ago.

Retail trade as reflected in department store sales exceeded the volume of trade in October last year by 20% and collections of outstanding accounts during the past month were the highest for any month in a number of years. Wholesale trade in October was better in four of five reporting lines than in October last year, shoes being the only line to fall below the 1933 level. Collections in wholesale lines were also better in October than in any recent month. Cotton growers with prices more than sufficiently higher to compensate for decreased production this year are in better position to buy consumers' goods, and tobacco growers are realizing more money for their 1934 crop than for any other crop in a number of years. Farmers throughout the Fifth district raised relatively large crops of food and feed crops, and all money crops yielded well. Weather for harvesting was unusually favorable and preparations for fall planting of grain are well advanced throughout the district.

### trary to Seasonal Increase in Ohio Industrial Employment from October to November Reported by Ohio State University—Follows Five Consecutive Declines

The Bureau of Business Research of the Ohio State University reports that "Ohio industrial employment in November broke the five-month decline which started in June with an increase of 1.2% from the October level. This was in contrast with a usual seasonal decline of 3.1% and marked the first October-November increase on record since the index was started in 1923." Under date of Dec. 7 the Bureau continued:

continued:

The November, 1934, employment level was 3.4% higher than the corresponding month a year ago, while for the eleven-month period from January through November 1934, it was 20.5% above the same period in 1933. The November increase in employment in all industries was led by the manufacturing group, which increased 2.0% from October. This increase is of importance since it is in contrast with a usual seasonal decline of 3.8%. Employment in non-manufacturing industries increased for the fourth successive month by registering an October-November increase of 0.6%. Construction employment declined 3.8% from October. Among the manufacturing industries, the metal products and the machinery groups led with increases of 5.9% and 4.7%, respectively. The lumber products, rubber products, and the miscellaneous manufacturing groups also showed greater employment in November than in October. The food products and the stone, clay and glass groups, with decreases of 3.0% and 2.7%, suffered the greatest declines. greatest declines.

greatest declines.

The three central and southwestern cities all showed increases in employment in November, while of those in the northern and northwestern section, Youngstown alone increased. Dayton and Columbus, with increases of 13.5% and 4.4%, led the other cities. In these cities, as in Youngstown and Cincinnati, the increases were in contrast with a seasonal decline. Although declines were registered in Cleveland, Akron, Canton and Toledo, they were all of less-than-seasonal proportions. Employment in Ohio outside of these 8 cities increased 2.3% in contrast with a seasonal decline of 3.9%.

### Factory Employment and Payrolls Decreased Season-ally During November, United States Department of Labor Reports—Increases Reported by 5 of 18 Non-Manufacturing Industries

Seasonal declines in factory employment and payrolls were reported in November! according to the Bureau of Labor Statistics of the United States Department of Labor. Employment, it was reported, decreased 1.9% over the month interval and payrolls decreased 2.5%. The slightly greater decrease in payrolls was due, to a slight extent, to the observance of the Armistice Day holiday during the November pay period. Thirty-seven of the 90 manufacturing industries surveyed reported gains in employment from October to November and 38 industries reported increased payrolls. An announcement issued by the Department of Labor also contained the following:

Labor also contained the following:

The Bureau of Labor Statistics' index of factory employment for November 1934 is 76.8 (preliminary) and the November index of factory payrolls 59.5 (preliminary). The indexes of factory employment and payrolls for October 1934 have been revised to include data supplied by a number of firms for which October information was not originally available and the revised indexes for October 1934 are 78.3% for employment and 61.0% for payrolls. Employment in November 1934 stands at 0.8% above the level of the November 1933 index (76.2) while payrolls are 7.2% above the level of the November 1933 index (55.5). The base used in computing these indexes is the average for the 3-year period, 1923-1925, which is taken as 100.

The indexes of factory employment and payrolls are computed from returns supplied by representative establishments in 90 important manufacturing industries of the country. Reports were received in November from 25,507 establishments employing 3,554,573 workers whose weekly earnings were \$67,036,788 during the pay period ending nearest Nov. 15. The employment reports received from these co-operating establishments cover more than 50% of the total wage earners in all manufacturing

earnings were \$67,036,788 during the pay period ending nearest Nov. 15. The employment reports received from these co-operating establishments cover more than 50% of the total wage earners in all manufacturing industries of the country.

The most pronounced changes in employment over the month interval were seasonal in character. The woolen and worsted goods industry in which increased activity is usually reported in November showed a gain of 10.1% in employment. The men's furnishings and the agricultural implement industries also reported seasonal increases of 9.2% and 9.1%, respectively. Employment in the rayon industry increased 4.5% over the month interval, and increases ranging from 3% to 3.6% were reported in the cane sugar refining, turpentine and rosin, clocks and watches, and iron and steel forgings industries. The hardware and glass industries reported gains in employment of 2.8% each and the lighting equipment industry reported an increase of 2.7%. Less pronounced gains in employment in industries of major importance were: Machine tools, 1.5%; structural metalwork, 1.4%; plumbers' supplies, 1.3%; leather and paper and pulp, 1.1% each; knit goods, 1%; blast furnaces, steel works, rolling mills, 0.7%; newspapers, 0.6%; and electrical machinery, apparatus and supplies, 0.5%.

The most pronounced decreases in employment were seasonal declines of 35.6% in the canning and preserving industry and 17.2% in the cottonseed oil cake-meal industry. Other industries in which substantial decreases, primarily seasonal in character, were reported were: Millinery, 13.8%; beverages, 9.7%; ice cream, 9.0%; men's clothing, 7.4%; confectionery, 5.3%; women's clothing, 5.1%; cement, 4.9%; tin cans and other tinware, 4.5%; marble-slate-granite, 3.9%; radios and phonographs, 3.7%; jewelry, 3.5%; flour, 3.4%; and boots and shoes, 3.1%. The decrease of 14.4% in employment in textile dyeing and finishing plants resulted largely from labor disturbances in this industry. This strike also affected operations of silk mills which r

cattle. Other industries in which substantial decreases in employment were reported were: Beet sugar refining, 5.7%; aircraft, 5.5%; steam railroad repair shops, 5.0%; sawmills, 3.3%, cast-iron pipe, 2.9%; shipbuilding, 2.7% and cigars and cigarettes and automobiles, 2.4% each. Lesser declines in industries of major importance were: Furniture and chemicals, 2% each; petroleum refining and automobile tires, 0.9% each; foundry and machineshop products, 0.7%; and cotton goods, 0.4%. A comparison of the level of employment and payrolls in November with the corresponding month of 1933 shows increased employment over the year interval in 52 industries and larger payrolls in 64 of the 90 industries surveyed.

In the following table are presented the indexes of employment and payrolls for November 1934, October 1934, and November 1933 for each

of the manufacturing industries covered by the Bureau of Labor Statistics. The indexes are not adjusted for seasonal variations.

The following regarding employment conditions in nonmanufacturing industries is also from the Department of Labor's index:

#### Non-Manufacturing Industries

Five of the 18 non-manufacturing industries surveyed monthly by the Bureau of Labor Statistics reported gains in employment from October to November and five industries reported increase in payrolls.

The changes in employment in November were largely of seasonal character. The increases of 3.8% in anthracite mining and 0.6% in bituminous mining reflected increased production during the November pay period, while the increase of 1.5% in retail trade was due largely to seasonal expansion in the general merchandising group of retail establishments. period, while the increase of 1.5% in retail trade was due largely to seasonal expansion in the general merchandising group of retail establishments. The subgroup of department, variety, general merchandise, and mail-order establishments reported an increase of 6.4% in employment. Employment in the remaining 56,766 retail trade establishments for which data were available decreased 0.1% over the month interval. The remaining two industries reporting increased employment from October to November were wholesale trade and banks, in which gains of 0.9% and 0.1%, respectively, were shown.

Declines in employment of 5.6% in the dueing and elemina and 4.2%

Declines in employment of 5.6% in the dyeing and cleaning and 4.3% in the quarrying and non-metallic mining industries reflect seasonal recessions.

in the quarrying and non-metallic mining industries reflect seasonal recessions.

According to reports supplied by 10,010 contractors employing 78,354 workers, employment in the private building construction industry declined 2.2%. This decline is not as pronounced as those that have occurred in November during the past three years. These building construction figures do not include employees on construction projects financed from Public Works funds. Laundries reported a seasonal decrease in employment from October to November of 1.7%. Brokerage firms reported a further decrease of 1.2% in number of employees over the month interval.

The remaining decreases in employment ranged from 0.9% in crude petroleum production to 0.3% in the metalliferous mining and real estate.

The 18 non-manufacturing industries surveyed, with indexes of employment and payrolls for November 1934, where available, and percentages of change from October 1934 and November 1933 are shown below. The 12-month average for 1929 is used as the index base, or 100, in computing the index numbers of the non-manufacturing industries. Information for earlier years is not available from the Bureau's records:

INDEX OF EMPLOYMENT AND PAYROLL TOTALS IN NON-MANUFAC-

# Summary of Business Conditions in United States According to Federal Reserve Board—Little Change Noted in Industrial Activity During November— Commodity Prices Reported Unchanged "In November," states the Federal Reserve Board, "the

rate of industrial activity showed little change, and the general level of commodity prices remained unchanged. Distribution of commodities to consumers was well main-In its summary of general business and financial conditions in the United States, based upon statistics for November and the first three weeks of December, issued Dec. 26, the Board reports:

### Production and Employment

Production and Employment

Volume of industrial production declined in November by an emount somewhat smaller than is usual at this season and consequently the Board's seasonally adjusted index advanced from 73% of the 1923-1925 average in October to 74% in November. In the steel industry output continued to increase during November and the first three weeks of December, contrary to the usual seasonal tendency. Automobile production also showed an increase in the early part of December, following a decline in cornection with preparations for new models. In November lumber output decreased by more than the estimated seasonal amount. At woolen mills there was a considerable increase in output, while consumption of cotton by domestic mills showed a slight decline. Activity at meat packing establi-hments showed less than the usual seasonal increase. Production of the leading minerals was at about the same level as in October.

Factory employment declined between the middle of October and the middle of November by the usual seasonal amount, and was at the same level as a year ago. Declines reported for the automobile, shoe and canning industries were smaller than seasonal, while decreases at railroal repair shops and saw mills were larger than are usual at this season. At meat packing establishments, where employment has been at a high level in recent months, there was a considerable decline, but the number on the payrolls in November was larger than in the corresponding muth of other recent years. Employment at woolen mills showed a substantial increase. The number employed on construction projects of the Public Works Administration declined further in November, according to the Bureau of Labor Statistics.

Value of construction contracts awarded, as reported by the F. W. Dodge

Value of construction contracts awarded, as reported by the F. W. Dodge Corp., showed a considerable decline in November and the first half of December, following an increase in October. The indicated decline in awards from the third to the fourth quarter was somewhat smaller 'han

Department of Agriculture estimates for Dec. 1 indicate that production of principal crops this season was about 22% smaller than in 1933 and 32% below the average for the previous 10 years, reflecting reductions in acreage and in yield per acre. There has been a shortage in feed crops accompanied by a sharp increase for the year in the slaughter of livestock. Although output of agricultural commodities has been smaller than in any other recent year, farm income has been larger than in either 1932 or 1933. reflecting chiefly higher prices and to a smaller degree benefit asymmetric. reflecting chiefly higher prices, and, to a smaller degree, benefit payments.

#### Distribution

Total freight car loadings declined in November by less than the estimated seasonal amount, reflecting chiefly a smaller decline than is usual in shipments of miscellaneous freight. Retail sales generally have seen well maintained. Department store sales increased by slightly less than the estimated seasonal amount in November; preliminary reports for the first half of December, however, indicate a more than seasonal increase in Christmes trade Ohristmas trade.

#### Commodity Prices

Wholesale commodity prices generally showed little change during November and the first half of December. Prices of scrap steel continued to increase during this period, while corn prices, which advanced rapidly in November, declined somewhat after the first week of December. Retail food prices declined in November, reflecting lower prices for meats.

### Bank Credit

Bank Credit

Developments at the Federal Reserve banks in December reflected largely the seasonal increase in the demand for currency and the continued inflow of gold from abroad.

Loans and investments of reporting member banks in leading cities showed an increase of \$150,000,000 in the four weeks ended Dec. 12, after declining somewhat in the preceding four weeks. The growth reflected increases in holdings of United States Government obligations and in brokers' loans. Deposits at banks showed a further considerable growth.

Yields on short-term Government securities declined slightly in December, while other short-term open-market money rates showed little charge. On Dec. 15 the discount rate of the Federal Reserve Bank of Atlanta was reduced from 3% to 2½%, and on Dec. 21 a similar reduction was made at the Kansas City Federal Reserve Bank.

## Report on Foundry Operations in Philadelphia Federal Reserve District by University of Pennsylvania— Marked Decline in Activity During November

There was a marked decline in foundry activity during November according to reports received by the Industrial Research Department of the University of Pennsylvania from foundries operating in the Philadelphia Federal Reserve District. The output of gray iron castings decreased 20%, malleable iron castings 15%, and steel castings 8%, said the Research Department in its monthly report on foundry operations in the Philadelphia Reserve District. These decreases were widely distributed among the various classes of work and among the foundries in various locations. In general, however, the production of the foundries located in Philadelphia declined more than that of plants operating in the balance of the District. The report continued:

Shipments of iron and steel castings also decreased. The tonnage of orders unfilled for steel castings continued to decline, but the iron foundries reported a gain of 15% in their backlog. Raw stocks on hand increased during November except for stocks of pig iron in the steel foundries.

### Gray Iron Foundries

Gray Iron Foundries

The production of gray iron castings during November in 30 foundries was 20% less than in the previous month and 6% less than in the same month of last year. Both classes of castings experienced the decline in activity, the output of castings for jobbing work was 22% less than in October and the tonnage of castings used in further manufacture was 13% less. Compared with the same month of last year, jobbing work showed a decline of 11% while the output for further manufacture increased 23%. The decrease in production was largely seasonal in character. Although production in November 1931 was practically the same as in the previous month, and although in the corresponding period of 1932 there was an increase of 2%, the same period of other years since 1926 has had decreases ranging from 8 to 20%.

The chart [this we omit, Ed.] compares the production of foundries located in Philadelphia with that of firms operating in the balance of this Federal Reserve District. From this chart it can be seen that firms in Philadelphia had a more severe decrease in output than did the remainder of the foundries. Of the eight plants which had a greater output in November than in October only two operate in Philadelphia.

Shipments of iron castings were 16% less in November than in the previous month and 3% less than in the corresponding period of last year. The tonnage of orders unfilled at the end of October was 15% more than at the beginning of the month, but in spite of this increase their total volume remained, for the fifth consecutive month, less than that for the corresponding month of 1933. All raw stocks on hand increased during November over those reported a month ago.

Malleable Iron Foundries

### Malleable Iron Foundries

The tonnage of malleable iron castings produced in four foundries during November was 15% less than in the previous month and 4% less than in November 1933. The chart of the index of the production of malleable iron castings [this we omit, Ed.] shows a downward tendency from the peaks reached in July and October 1933.

| 7                                 | Unfilled orders         | 1,628 short tons | -9.6                                    | +2.8                                    |
| 6                                 | Pig iron                | 341 short tons   | -9.8                                    | +57.9                                   |
| 6                                 | Scrap                   | 6.721 short tons | +4.7                                    | +46.6                                   |
| 6                                 | Coke                    | 208 short tons   | +72                                     | -1.0                                    |

The output of steel castings in eight foundries during November was 8% less than last month. The decrease was in both branches of the industry, the total output of jobbing work declined 4% while that used in further manufacture declined 23%. Four foundries, however, reported an increase in activity.

increase in activity.

This is the third consecutive month in which production has declined. As a result the total output in November was the least in any month of

As a result the total output in Atorians.

this year.

Shipments of steel castings were 24% less than in the previous month.

The total volume of shipments was less than the tonnage of castings produced. In spite of the continued decline in production and shipments, the tonnage of unfilled orders declined for the fourth consecutive month.

Stocks of pig iron were less at the end of November than at the beginning of the month, while the amount of scrap and coke on hand increased.

### Employment and Payrolls in Pennsylvania Anthracite Collieries Increased During November

The number of workers on the rolls of Pennsylvania anthracite companies and the amount of wage disbursements about the middle of November showed further increases of about 4 and 6%, respectively, according to indexes compiled by the Federal Reserve Bank of Philadelphia from reports to the Anthracite Institute by 34 companies employing over 84,000 workers whose weekly earnings exceeded \$2,000,000. An announcement by the Philadelphia Reserve Bank said:

Employee-hours actually worked in November in the collieries of 30 companies registered an additional gain of 6% as compared with the previous month. These increase in employment, earnings and working time reflect in a measure the usual seasonal expansion in the operations of the anthracite industry.

As indicated by the index of employment and census figures, the anthracite industry in Pennsylvania about the middle of November appeared to have employed approximately 120,200 workers as compared with 115,800 in the previous month and 120,900 a year ago. The amount of wages paid in November was nearly 7% larger this year than last. The trend in employment and payrolls is indicated by the following indexes.

1923-1925 Average=100

### New Business at Lumber Mills Maintains Level of Recent Past Weeks—Production Declines Sea\_ sonally

Due largely to reaction last December from the November peak of new business preceding the first publication of minimum cost protection prices under the Lumber Code, orders reported as booked so far this month are nearly 70% heavier than those of corresponding weeks of 1933. Those received during the week ended Dec. 15 1934, were however no more than maintaining the average of recent past weeks and production was lower than for any week of 1934 since January, except the week of July fourth, according to telegraphic reports to the National Lumber Manufacturers Association from regional associations covering the operations of leading hardwood and softwood mills. Reports were from 1,252 mills whose production was 141,937,000 feet, shipments, 151,516,000 feet, orders received, 170,819,000 feet. Revised figures for the preceding week were mills, 1,297, production, 151,064,000 feet, shipments, 158,331,000 feet, orders, 174,869,000 feet. The Association's report continued:

174,869,000 feet. The Association's report continued:

For the week ended Dec. 15, all regions except Southern Pine, California Redwood and Northeastern (Softwoods and Hardwoods) reported orders above production. Total orders were 20% above production, softwoods showing excess of 17% and hardwoods of 54%. Total shipments were 7% above production.

All regions but Northern Hemlock reported orders above those of corresponding week of 1933, softwoods showing gain of 83% and hardwoods of 74%. Total production was 10% above that of the 1933 week; shipments were 11% above those of similar week.

Unfilled orders on Dec. 15 as reported by identical mills were the equivalent of 21 days' production, compared with 21 a year ago. Identical mill

stocks on Dec. 15 were the equivalent of 168 days' average production, compared with 155 days' on Dec. 16 1933.

Forest products carloadings totaled 20,524 cars during the week ended Dec. 8 1934. This was 1,892 cars more than during the preceding week; 107 cars less than during similar week of 1933, and 5,170 cars more than during corresponding week of 1932.

Lumber orders reported for the week ended Dec. 15 1934, by 913 softward mills totaled 151 103 000 foct or 17% above the preduction of the

Lumber orders reported for the week ended Dec. 15 1934, by 913 soft-wood mills totaled 151,102,000 feet; or 17% above the production of the same mills. Shipments as reported for the same week were 135,787,000 feet, or 5% above production. Production was 129,168,000 feet. Reports from 377 hardwood mills give new business as 19,717,000 feet, or 54% above production. Shipments as reported for the same week were 15,729,000 feet, or 23% above production. Production was 12,769,000 feet.

#### Unfilled Orders and Stocks

Reports from 1,628 mills on Dec. 15 1934, give unfilled orders of 699,-169,000 feet and gross stocks of 5,321,323,000 feet. The 656 identical mills report unfilled orders as 498,454,000 feet on Dec. 15 1934, or the equivalent of 21 days' average production, as compared with 514,179,000 feet, or the equivalent of 21 days' average production on similar date a year ago.

#### Identical Mill Reports

Last week's production of 442 identical softwood mills was 122,723,000 feet and a year ago it was 128,884,000 feet; shipments were respectively 129,477,000 feet and 114,200,000; and orders received 147,352,000 feet, and 80,617,000 feet. In the case of hardwoods, 232 identical mills reported production last week and a year ago 11,459,000 feet and 19,810,000; shipments 13,719,000 feet and 14,611,000 and orders 17,973,000 feet and 10,-235,000 feet. 338,000 feet

### Less Than Seasonal Decline in Farm Employment from Nov. 1 to Dec. 1 Reported by Bureau of Agricultural

Employment of farm labor on farms of crop reporters declined less than seasonally from Nov. 1 to Dec. 1, but dropped, nevertheless, to the lowest level for Dec. 1 during the 12-year period covered by the record. In stating this on Dec. 22, the Crop Reporting Board of the Bureau of Agricultural Economics, United States Department of Agriculture, said:

The number of persons employed per 100 farms was reported as 267 on Dec. 1 compared with 284 on Nov. 1. The number of family workers declined from 204 persons per 100 farms on Nov. 1 to 201 persons a month later. The employment of hired labor made about the usual seasonal decline, dropping from 80 persons per 100 farms on Nov. 1 to 66 persons on Dec. 1. No data are available fro Dec. 1 1933, but in 1932 the total number of persons employed per 100 farms was reported as 286, or 19 more than on Dec. 1 this year.

than on Dec. 1 this year.

The record low level of farm employment which has prevailed throughout The record low level of farm employment which has prevailed throughout the fall of this year is a result of the sharp reductions in the production of fall harvested crops following the severe and widespread drought. The sharpest decline during November was recorded in the South Atlantic States, where family and hired labor combined fell from 401 persons employed per 100 farms on Nov. 1 to 376 persons on Dec. 1. Cotton picking reached its peak in late September, but the number of persons engaged at this task fell off somewhat in the latter half of October and sharply in November. Tobacco harvesting was well under way in September, but practically completed in November. The most moderate decline occurred in the West North Central States, where employment on farms of crop reporters has been at comparatively low levels during each of the last six months of the year. months of the year.

### Increase Noted in Newsprint Production in Canada During November — United States Production Dropped

During November Canadian mills produced 240,869 tons of newsprint, which compares with 235,021 tons in October and 193,718 tons in November of last year, according to a report of the News Print Service Bureau. Shipments by the Canadian mills, the Bureau said, totaled 262,296 tons during the month. A decrease in United States production as compared with October and November 1933, was shown by the report. In reporting the foregoing, the Montreal "Gazette" of Dec. 14 stated:

"Gazette" of Dec. 14 stated:
For the 11 months of this year ended with November, production by mills in the Dominion amounted to 2,358,098 tons, which contrasts with 1,833,722 tons in the corresponding 11-months' period of 1933, representing an increase of 524,376 tons, or over 28%.

According to the Bureau report, production in the United States in November of this year amounted to 74,933 tons and shipments to 79,187 tons, making a total United States and Canadian newsprint production of 315,802 tons and snipment of 341,393 tons. During November 28,713 tons of newsprint were made in Newfoundland and 1,756 tons in Mexico, so that total North American production for the month amounted to 346,271 tons. tons

tons. For the first 11 months of this year the output in the United States was 12,022 tons, or 1% more than for the first 11 months of 1933. In Newfoundland the increase was 46,921 tons, or 19%. Stocks of newsprint paper at Canadian mills were reported at 46,488 tons at the end of November and at United States mills 18,425 tons, making a combined total of 64,913 tons, compared with 90,504 tons on Oct.  $31\,1934$ . The following table shows monthly production of newsprint in Canada and the United States for each month since the beginning of 1933.

|                            | Canada  | U. S.  |           | Canada  | U. S.  |

### Ford and Chrysler Release Prices of 1935 Models

The Ford Motor Co. on Dec. 27 announced the new prices for its 1935 models:

In comparison with the 1934 prices set a year ago, which were reduced slightly in June, the three 1935 standard Ford models are from \$10 to \$25 less in price while the comparable deluxe models range from unchanged to \$10 higher. Since the start of the 1933 season, the three standard models have been increased by \$5 to \$15 or by 1% to 2.7%, while the three comparable de luxe models have been increased by \$20 to \$25 or 3.7% to 4.5%. American Ford prices are as follows:

|                            | 1935  | 1934  |
|----------------------------|-------|-------|
| Five-window coupe          | \$495 | \$505 |
| Tudor sedan                | 510   | 520   |
| Fordor sedan               | 575   | 575   |
| De luxe five-window coupe  | 560   | 545   |
| De luxe tudor sedan        | 575   |       |
| De luxe Fordor sedan       |       | 560   |
| - Towdow touring and an    | 635   | 615   |
| x Fordor touring sedan     | 655   |       |
| Cabriolet                  | 625   | 590   |
| x Tudor touring sedan      | 595   |       |
| De luxe three-window coupe | 570   | 545   |
| De luxe phaeton            | 580   | 550   |
| De luxe roadster           | 550   | 525   |
| Sedan delivery             | 585   | 565   |
| Station wagon              | 670   |       |
| x New type.                | 070   | 650   |

Canadian prices of the new Ford V 8 for 1935 show substantial reductions on body types of largest demand, with higher prices on some of the deluxe

prices.

Prices follow: De luxe phaeton \$725, up \$35; de luxe roadster \$715, up \$10; de luxe three-window coupe \$720, up \$5; five-window coupe \$625, off \$25; cabriolet \$815, up \$20; tudor sedan \$655, off \$25; de luxe tudor \$730, off \$5; Fordor sedan \$750, off \$15; de luxe Fordor sedan \$810, up \$5; station wagon \$870, up \$10; tudor touring sedan \$750, a new model; Fordor touring sedan \$830, also a new model.

Prices, f.o.b. Detroit, of the Chrysler lines of cars for 1935 were announced on Dec. 21 by J. E. Fields, President of the Chrysler Sales Corp.:

There will be two major lines, the Airflow and the Airstream models. The latter, an entirely new line introduced for the first time with next

The latter, an entirely new line introduced for the first time with next year's models, comprises cars of six and eight cylinders.

The list prices follow:
Airstream Six: Four-door sedan, \$830; four-door touring sedan \$860; touring brougham, \$820; rumble seat coupe \$810; business coupe \$745.
Airstream Eight: Four-door sedan, \$975; four-door touring sedan, \$995 touring brougham, \$960; rumble seat coupe, \$935.

Airflow Eight: All models, \$1,395.
Airflow Imperial: All models, \$1,675

Airflow Imperial: All models, \$1,675.

### New Sugar Contract Approved by New York Coffee & Sugar Exchange—Provides Delivery of "All" Raw Cane Sugar

A new sugar contract, designated Sugar Contract No. 3, was approved by the members of the New York Coffee & Sugar Exchange on Dec. 27. Trading in the new contract, which provides for the delivery of "all" raw cane sugar, will start Jan. 2 in the delivery month of March 1935 and thereafter. During the existence of any quota or allotment plan decreed by any United States authorities, deliverable sugars must be available for processing or consumption within such existing decrees, the Exchange stated. The present No. 1 contract, which will continue, provides only for the delivery of Cuban raw sugar, in bond.

The Board of Managers of the Exchange, on Dec. 11, adopted a resolution permitting the transfer of open contracts on the Exchange, made prior to Dec. 31 1934, in Sugar Contract No. 1, into Sugar Contract No. 3 without the charging of the usual commission, floor brokerage, Realty Tax, or United States Internal Revenue Tax (last if permitted by the Government). The resolution provides that the substitution must be for the same delivery month and that if other than the month specified is substituted, full charges

must be made.

### United States Consumption of Sugar Reported Higher in November

Sugar consumption in the United States showed an increase in November of 3.56% over that of November last year according to B. W. Dyer and Co., sugar economists and Consumption in November this year as shown by distribution amounted to 386,300 long tons, raw sugar value. Compared with this was a consumption of 373,027 long tons in November of 1933, a tonnage increase in favor of this year of 13,273 long tons.

For the 11 months ended Nov. 30, the firm reports consumption was 5,146,776 long tons, a decrease of 111,629 long tons or 2.12% from the consumption total of 5,258,405long tons during the first 11 months of last year.

### Automobile Sales in November Show Large Decrease as Compared with October

November factory sales of automobiles manufactured in the United States (including foreign assemblies from parts made in the United States and reported as complete units or vehicles), based on data reported to the Bureau of the Census, consisted of 78,415 vehicles, of which 45,489 were passenger cars, 32,920 trucks, and 6 taxicabs, as compared with 132,491

vehicles in October 1934, 60,683 vehicles in November 1933, and 59,557 vehicles in November 1932.

The table below is based on data received from 113 manufacturers in the United States, 29 making passenger cars and 84 making trucks (10 of the 29 passenger-car manufacturers also making trucks). Of the 119 manufacturers reporting prior to June 1934, 6 have gone out of business. Figures for taxicabs include only those built specifically for that purpose; figures for trucks include ambulances, funeral cars, fire apparatus, street sweepers, and buses. Canadian figures are supplied by the Dominion Bureau of Statistics.

Petroleum and Its Products—PAB Optimistic on 1935 Oil Outlook—Administrator Ickes Outlines Meth-ods of Establishing Crude Oil Allowables—Federal Tender Board Acclaimed "Success"—Petroleum Production Within Quotas

A year-end summary of the petroleum industry made by the Petroleum Administrative Board to Administrator Ickes reported that the statistical position of the industry is better than it has been for several years and forecast continued improvement in 1935.

Among the factors cited as responsible for the improvement were the effectiveness of the Federal Tender Board in curbing interstate movements of "hot oil" from the East Texas area, operations of the PAB in other fields and the strengthening in retail refined products prices along the Eastern seaboard in the past month as the gasoline "wars" ended.

"We enter 1935 with the statistical position of the whole industry vastly improved so that it is better than it has been for several years," the PAB report stated. "The successful work of the FTB, which began actual operations in accordance with your instructions at Kilgore, Texas, Oct. 24, has brought to a standstill the inter-State movement of illegally produced crude oil and its refined products, familiarly termed "hot oil" from the East Texas field.

"The record of tank car shipments, chiefly of gasoline and other products, since the Board began operations, shows that they have been reduced approximately 65 per cent, with the remaining 35 per cent obtaining approved clearance from the FTB. It is clearly recognized that most all illegal oil and gasoline has in the past moved in tank cars via the railroads.

"The beneficial effects of the FTB's operations have been widely felt. We have every reason to believe that progress will continue through the ensuing months. Although as yet there have been no final decisions on some legal problems upon which the present program is based, any change in this situation or in statutory authority should be one of improvement."

Administrator Ickes on Monday released an outline of the methods used by the Federal Oil Administration in determining the National crude oil allowable each month.

Four fundamental considerations in arriving at the total were cited by the Oil Administrator, as follows:

(1) Conserving the country's supply, (2) providing an equitable distribution among producing States of the necessary supply, (3) stability in the industry, and (4) careful statistical valuation and study of the demand.

The month's total of necessary crude oil production is estimated and divided among the States on the basis of the following six factors: (1) Gasoline demand by districts, (2) gasoline supply for each district sufficient to meet its demand, (3) refinery crude required for each district, (4) imports of crude by districts, (5) distribution among the producing States of crude for refining, and (6) exports, fuel and losses of crude by States.

The first step, the outline explained, involves estimating the likely total domestic and export demand for gasoline in the United States during the period in question. A forecast of the National domestic demand for gasoline can be made with a high degree of accuracy for short periods of time, it was stated, due to the absence of marked fluctuations in the number of motor vehicles used and the reliability of the trend of gasoline consumption per motor vehicles, it was pointed out.

"The number of automobiles in use in the near future can be forecast with an error of only ¼ of 1%," the outline continued, "and the trend of gasoline consumption per motor vehicle, when adjusted for business conditions, has proven itself to be very close to actual conditions. The non-automotive uses of gasoline comprise such a small and unvaried proportion of the total demand that they are included in the calculation of the gasoline demand per mo or vehicle.

"Estimated average gasoline consumption per motor vehicle multiplied by the total motor vehicles in use gives an estimate as to the total domestic demand for gasoline in the United States. This total is then broken down by refinery districts on the basis of the State gasoline tax figures. The summation of these domestic demand data by districts and estimates of probable gasoline exports by districts completes the first step and gives figures of total gasoline demand in each of the refining districts.

"Step number three, or the determination of the crude required by refineries in each district, involves simply the review of the district's record of operations to determine the estimated gasoline yield from crude oil and its application to the figures of gasoline production obtained in step No. 2. The next step covers the allowable for crude imports and involves the setting up of estimates for probable receipts of foreign crude for domestic consumption in those districts where foreign crude enters and the subtraction of these data from total crude oil requirements at refineries. This operation gives data for the required consumption of domestic crude by districts.

"Domestic crude requirements for refineries in each district is then broken down proportionately among the producing States which have supplied the refinery needs of that particular district in the past on the basis of establishing channels of movement between districts. The summation of these data gives a breakdown of total refinery demand for domestic crude by States of origin, the fifth step.

"The sixth and last step involves the estimation of probable exports, direct uses as fuel, and losses by States, and the addition of these estimates to the data of refinery shipments to give data corresponding to the total reasonable demand for crude from each State, or, in other words, allocations by States."

At his regular weekly press conference in Washington later in the week (Thursday) the Oil Administrator termed operations of the Federal Tender Board in East Texas "highly successful," and said that the "hot oil" situation in that area had been generally corrected.

When asked as to what action the Oil Administration might take to prevent the practice of diverting crude oil into creeks and rivers and recovering it as waste oil, Mr. Ickes said that he did not know how to meet this problem. Stating that it was leading to considerable marketing of "hot oil," the only way for the Oil Administration to control it, he held, was to use the Federal Tender Board to prevent it from moving in inter-State commerce.

Conflicting reports are heard in oil circles concerning daily average production of "hot oil" in the East Texas district, but all agree that the "hot oil" is moving in intra-State and not inter-State commerce.

Operations of the Texas Tender Board are termed "disappointing" due to "inadequate" enforcement of its orders, according to private advices from East Texas. Production of "hot oil" for the intra-State markets was set at approximately 30,000 barrels last week by these factors but other reports held that output of illegal crude was under the 20,000-barrel level.

A request from the bankers' advisory group aiding the Texas Railroad Commission in passing on tender permits that it be relieved of its duties Jan. 1 has aroused trade groups in Texas who feel that the group has done good work in holding down production and shipments of "hot oil" in the intra-State Texas markets. The committee, composed of Tucker Royall, Palestine banker, Chairman; W. P. Moore, Overton banker, and R. W. Fair, Henderson banker, asked to be relieved to devote more time to their persona business.

Despite a small rise in daily average production of crude oil in the United States last week, output held within the Federal quota in the first week of the increased allowables, reports to the American Petroleum Institute indicated.

Crude oil production rose 4,300 barrels to a daily average of 2,423,150 last week, 37,150 below the new allowable of 2,460,300 set by the Federal Oil Administrator for the period from Dec. 17 to Feb. 1. The allowable in the first half of the current month was 2,307,000 barrels.

Aided by the higher quotas, Texas and Oklahoma stayed within their allowables but California did not. Output in Texas was up 7,050 barrels to 954,650, against an allowable of 1,006,800. Oklahoma producers held their wells to 481,550 barrels, off 5,500 on the week and comparing with a quota of 489,300. Despite a decline of 8,100 barrels, California output was 487,100, against an allowable of 473,900.

There were no price changes posted during the week.

REFINED PRODUCTS—KEROSENE PRICES UP ALONG AT-LANTIC SEABOARD—ADVANCES EXTENDED INTO RETAIL FIELD—GASOLINE STOCKS RISE

Activity in the Eastern refined products market last week was featured by further strengthening of kerosene and fuel oil prices with the strengthening trend of the wholesale market, spurred by cold weather conditions.

Expansion of the advances into the retail price field developed late in the week when Standard Oil of New Jersey posted an advance of 1 cent a gallon in tank-wagon prices of kerosene at nearly all points in New Jersey, effective Dec. 28. The new price at Newark is  $9\frac{1}{2}$  cents a gallon.

The advances instituted late last week by several of the major companies were followed by practically all competitors, who posted corresponding advances in the affected area with the new price scale of 6 cents a gallon for kerosene, refinery, or higher, prevailing at nearly all points along the Eastern seaboard. No. 1 heating oil is generally posted at 6 cents, refinery, New York.

The shortage of kerosene has aided prices to advance

The shortage of kerosene has aided prices to advance quite sharply during the past month or so, and some trade circles anticipate further strengthening in both the wholesale and retail price structure. A temporary shortage of both gasoline and kerosene in the Gulf Coast market has intensified the shortage of stocks held by first hands and distributors in the Atlantic seaboard marketing area.

The Atlantic Refining Co., followed by other major distributors, posted a reduction of 1 cent a gallon in retail fuel oil prices within a radius of 15 miles of Philadelphia, west of the Delaware River, to meet a "temporary local situation."

The new prices, effective Dec. 22, were 7 cents for No. 1 and 6 cents on Nos. 2 and 3, with No. 4 posted at 5½ cents. At these levels, majors are ¼-cent above the independents on No. 1 and even with their prices on Nos. 2 and 3. Prices in Bristol and Norristown, Pa., were cut ½-cent a gallon.

Steady improvement in the tank-car gasoline price structure in Philadelphia was reflected in a 1/2-cent-a-gallon

advance posted by Gulf Oil, Friday. Other major companies are expected to swing into line.

Marketing conditions in the Houston, Texas, area improved to the point where price advances of 2 cents a gallon in all grades were posted last week-end. Initiated by independents and quickly followed by the major units, the new scale posts third-grade at 16 cents, regular at 18 cents and premium grade at 20 cents a gallon, effective Dec. 22.

A change in trade sentiment in the Chicago bulk gasoline market was reported as indications of early strengthening in prices gained circulation although as yet no actual advances have been made. Low octane material continued available

at 31/2 to 33/4 cents a gallon.

In the local market kerosene and other heating oils furnished most of the activity. While gasoline consumption over the week-end and on Christmas was aided by favorable weather conditions, the unfavorable weather later on in the week cut down demand and distributors were reported to be operating on more or less hand-to-mouth buying basis.

Gasoline stocks held in the United States rose 373,000 barrels during the week ended Dec. 22 to 42,133,000 barrels, reports to the American Petroleum Institute indicated. Refinery stocks were up 111,000 barrels and terminal stocks 262,000 barrels.

Price changes follow:

Dec. 22—Atlantic Refining Co. reduced fuel oil prices 1 cent a gallon within a radius of 15 miles of Philadelphia, west of the Delaware River. Other major units met the cut.

Dec. 22—All distributors lifted gasoline prices 2 cents a gallon in Houston, Texas. Third-grade is now 16 cents, regular 18 and premium 20 cents

a gallon.

Dec. 27—Standard Oil Co. of New Jersey advanced tank-wagon prices of kerosene 1 cent a gallon throughout nearly all of New Jersey. Newark is posted at 9½ cents under the new scale, effective Dec. 28.

Dec. 28—Gulf Oil Co. lifted tank-car prices of gasoline ½ cent a gallon

at Philadelphia.

A 1.4% in gain in refinery operations to 70.3% of capacity was disclosed by reporting units. Daily average runs of crude oil to stills mounted 45,000 barrels to 2,371,000 barrels during the week. Gas and fuel oil stocks dipped 581,000 barrels to 110,645,000 barrels.

"The Manchukuo oil monopoly brought leading oil men to Shanghai to-day to discuss the new State control as it affects their business," an Associated Press dispatch from Shanghai appearing in the New York "Herald-Tribune" of Dec. 27 stated.

"Representatives of the Socony-Vacuum Oil Co., of New York, and of Asiatic Petroleum, a British firm, met separately, but observers saw possibility of united action by the concerns.

"Those who sat in the conference of the American firm included Walden Parker, of New York, President; G. S. Walden, Chairman of the board; J. C. Gould, Japan manager, and F. J. Twogood, North China manager. Frederick Godber, director of Asiatic Petroleum, came here from London to confer with N. Leslie, China manager."

### Crude Oil Output Up 4,300 Barrels During Wee Ended Dec. 22—Fails to Exceed Federal Quota-Stocks of Gas and Fuel Oil Again Decline Week

The American Petroleum Institute estimates that the daily average gross crude oil production for the week ended Dec. 22 1934 was 2,423,150 barrels. This was a gain of 4,300 barrels from the output of the previous week, but was under the Federal allowable figure which became effective Dec. 1 by 37,150 barrels. Daily average production for the four weeks ended Dec. 22 1934 averaged 2,400,400 barrels. The daily average output for the week ended Dec. 23 1933

totaled 2,289,900 barrels. Further details as reported by the Institute follow:

Institute follow:

Imports of crude and refined oil at principal United States ports totaled 1,304,000 barrels for the week ended Dec. 22, a daily average of 186,286 1,304,000 barrels for the week ended Dec. 22, a daily average of 186,286 barrels, against a daily rate of 104,286 barrels in the preceding week and 135,607 barrels over the last four weeks.

Receipts of California oil at Atlantic and Gulf Coast ports totaled 752,000 barrels for the week ended Dec. 22, a daily average of 107,429 barrels, against 78,214 barrels over the last four weeks.

Reports received for the week ended Dec. 22 1934 from refining companies owning 89.7% of the 3.760,000 barrel estimated daily potential refining capacity of the United States, indicate that 2,371,000 barrels of crude dially were run to the stills operated by those companies and that they had in storage at refineries at the end of the week, 24,450,000 barrels of finished gasoline; 4,985,000 barrels of unfinished gasoline and 110,645,000 barrels of gas and fuel oil. Gasoline at Bulk Terminals, in transit and in pipe lines amounted to 17,683,000 barrels.

Cracked gasoline production by companies owning 95.6% of the potential charging capacity of all cracking units, averaged 453,000 barrels daily during the week.

during the week.

a Amount of unfinished gasoline contained in naphtha distillates. b Estimated, Includes unblended natural gasoline at refineries and plants; also blended motor tuel at plants. c Includes 24,450,000 barrels at refineries and 17,683,000 barrels at bulk terminals, in transit and pipe lines. d Includes 24,339,000 barrels at refineries and 17,421,000 barrels at bulk terminals, in transit and pipe lines.

World Tin Consumption in Industry Increased 3.2% During 12 Months Ended October According to International Tin Council—Apparent Consump-tion Reported 8.1% Below Previous Year

The world's consumption of tin in industry for the year ended October 1934 was 132,900 tons, compared with 128,800 tons in the preceding 12 months, an increase of 4,100 tons or 3.2%, over the previous comparative period, while apparent consumption during the year ended October 1934 was 115,000 tons compared to 125,100 tons, according to the December "Bulletin" of The Hague Statistical Office of the International Tin Research & Development Council. pletion of consumers' stocks is estimated as 17,900 tons for the 1934 period, compared with 3,700 tons in the previous year, with a decrease of about 2,000 tons in the month of October 1934. From an announcement issued Dec. 24 by the New York Office of the Council we also take the following:

The world's visible stocks at the end of November amounted to 18,598 tons or 16% of the current annual rate of consumption. This proportion of stocks to consumption is somewhat higher than the avergae for the period 1923 tf 1929 when stocjs ranged between 11 and 15% of annual

#### Trend of Consumption

The current trend of world consumption is shown to be downward, mainly on account of the seasonal decline in the United States, but also due partly to the falling tendency of consumption in France and Germany. In most other countries the trend is upwards.

Statistics of apparent consumption for the two comparative periods

are given as follows:

|  | Yera End | ed October | Increase    |
|--|----------|------------|-------------|
|  | 1934     | 1933       | or Decrease |
| United States United Kingdom Germany France U. S. R. Other countries | 42,769   | 57,950     | -26.2%      |
|  | 20,790   | 19,365     | +7.4%       |
|  | 9,774    | 10,022     | -2.5%       |
|  | 9,409    | 9,955      | -5.8%       |
|  | 5,040    | 4,259      | +18.3%      |
|  | 27,218   | 23,549     | +15.7%      |
| Total world  | 115,000  | 125,100    | -8.1%       |

Under "Other Countries" the following showed substantial increases; Netherlands, 67.7%; Canada, 40%; Belgoluxemburg, 38.4%; Sweden 20.3%; Denmark, 20%; Japan, 19.2%; Poland, 15.8%. Increases are recorded also for Italy, Spain, India, Norway and Switzerland, while Czechoslovakia alone shows a decrease of 9.3%.

World consumption of tin in industry for the month of October 1934 is given as 10,300 tons, compared with 9,700 tons in September and with 11,900 tons in October 1933. The United States apparent consumption was 2,204 tons in October 1934, against 6,168 tons in October 1933; the United Kingdom, 1,951 tons as compared to 1,907 tons, and in other countries, 3,910 tons against 3,738 tons.

#### Consumption in United States

While the apparent consumption of tin in the United States shows a decrease of 26.2%, the actual use of tin in manufacture for the year ended October 1934 was 57,370 tons, which approximately equalled the quantity used in the previous year. The actual consumption of tin for the United States for the year ended October 1934 exceeded the apparent consumption by 14,600 tons. The amount of tin used in bearing metals increased by 13½% to 3,280 tons and the amount used for solder increased by 36% to 8,710 tons

#### Consuming Industries

The world output of automobiles showed an increase of 33.8% with 3,608,000 vehicles in the year ended October 1934, compared with 2,698,000 vehicles in the previous year. Tinplate production was slightly greater at 3,002,000 tons as against 2,984,000 tons.

### World Production of Zinc During November Below Preceding Month, But Above Corresponding Month of 1933

According to figures released by the American Bureau of metal statistics, the world production of zinc during the month of November totaled 116,194 short tons. This compares with 116,382 tons produced in the preceding month and 102,031 tons produced during November 1933.

The average daily world production of the metal during November amounted to 3,873 short tons, as against 3,754 tons daily in October and 3,401 tons daily in November 1933.

Stocks of zinc in the hands of producers rose from 234,806 tons on Oct. 31

to 238,817 tons on hand Nov. 30 1934.

The following table gives in short tons world production of zinc, accord-

#### Non-Ferrous Metal Prices Steady Over Holiday Period Sales in Fair Volume

"Metal and Mineral Markets" in its issue of Dec. 27 stated that, in view of the fact that Christmas holidays restricted operations in non-ferrous metals both here and abroad, the total volume of business in major items for the week that ended yesterday Dec. 28 might well be described as fair. The undertone remained steady. Lead buying moderated, but this failed to shake the confidence of important producers in the immediate future of the metal. Forward sales of zinc have expanded to the impressive total of about 30,000 tons. Galvanizers have been purchasing the metal for first-quarter 1935 delivery, indicating that a broader market for their products is expected in the first half of 1935. Steel operations for the current week were estimated at 35.2% of capacity, against 34.6% a week previous and 31.6% a year ago. "Metal and Mineral Markets" further stated:

### Foreign Copper Steady

Prices for copper in the foreign market were fairly steady throughout e week, holding at about 7c., c.i.f. European ports. The date has not

yet been fixed for the international conference. Selling pressure abroad has been less in evidence of late, and those bearishly inclined feel that there is little to gain at this time in going short of copper—the producers may come to an agreement on output. Consumers abroad look for further expansion in the demand for copper next year.

The domestic market was about the same as in recent weeks. Sales for the week totaled about 3,500 tons, against 3,700 tons in the preceding seven day period. The price continued at 9, Valuey. Plus Parts sales so for

the week totaled about 3,500 tons, against 3,700 tons in the preceding sevenday period. The price continued at 9c. Valley. Blue Eagle sales so far this month total 14,600 tons.

Speaking on the subject of price and production policy of Rhokana Corp., Sir Auckland Geddes, Chairman, told stockholders at the annual meeting that England is consuming more copper to-day than it did in the boom years, because for the first time British manufacturers are able to buy copper more cheaply than their competitors in America. "But perhaps you (stockholders) will say. 'Don't you want to get a higher price for copper?' Of course we do. We want to see the price higher, but not too high, because we want the market to grow; we want to get the uses of copper to multiply. We are quite prepared to co-operate with other copper producers to prevent the accumulation of stocks; we are quite prepared to make some sacrifices to that end, but we shall not take a back seat and be thankful for small mercies."

#### Lead Buying Moderates

Demand for lead fell off sharply last week, total sales for the seven-day period declining to less than 2,000 tons. Prices continued unchanged at 3.70.., New York, the contract selling basis of the American Smelting & Refining Co., and 3.55c., St. Louis. Besides the low level of buying, statistics revealing an increase in refined metal stocks in November were also a disappointing development of the week. Little hope for a further improvement in the price of the metal before the end of the year was noticeable in the market yesterday [Dec. 26]. In one direction, however, the view was expressed that January requirements of consumers were only about 60% covered. Should active buying for January and February take place in the next few days, an additional advance in the price basis was held to be possible.

#### Zinc Price Unchanged

Prime Western zinc was maintained at 3.725c., St. Louis, for delivery over the next three months. During the last week some business was booked at a slight premium over this basis that involved March forward business. Figures circulated by the American Zinc Institute reveal that more than 6,000 tons of zinc were sold during the week ended Dec. 22.

The International Zinc Cartel will disband on Dec. 31 1934. A meeting was scheduled for Dec. 20, but producers could not come together for an eleventh-hour attempt to iron out the difficulties. The group will continue to gather statistics for the industry, it is believed, and the idea of reviving the Cartel at some later date when conditions in the industry become more settled has not been abandoned. The trend in the foreign field at present is toward increased production of electrolytic zinc with a general realignment of the flow of business. The British tariff and other trade restrictions have played havoc with the old system.

World production of zinc during November totaled 116,194 short tons,

World production of zinc during November totaled 116,194 short tons against 116,382 tons in October. The daily rate for November—3,873 tons—was the largest for any month since December, 1930. The daily rate in the January-November period for the current year was 3,491 tons.

#### Slow Demand for Tin

Slow Demand for Tin

Business in the domestic tin market was at a relatively low level throughout last week. Daily sales were said to have averaged less than 100 tons, which metal was almost entirely for the accounts of small consumers. Little or no change in the prevailing general conditions of the market is expected over the remainder of the year.

Chinese tin, 99%, was quoted nominally as follows. Dec. 20, 49.900c.; Dec. 21, 49.950c.; Dec. 22, 49.950c.; Dec. 24, 49.950c.; Dec. 26, 49.950c.

World's production of tin, on ore basis, amounted to 10,260 long tons during November, against 8,500 tons in October and 7,355 tons in November 1933, according to the American Bureau of Metal Statistics. The daily rate of operations for November was 342 tons, against 274 tons in the month previous, and a daily average for the first 11 months of the current year of 309 tons. year of 309 tons.

### Rising Steel Demand Holds Holiday Interruption to a Minimum—Ingot Output Reaches 36½%—mobile Industry Presses for Deliveries

The "Iron Age" in its issue of Dec. 27 stated that accumulating pressure for steel, particularly on the part of the automobile industry, has held the holiday interruption in steel works activity to a minimum. Plans to suspend mill operations for three days—from Saturday night through Tuesday -were generally revised and in most cases Christmas shutdowns have been limited to three or four turns. Ingot output has risen another point to 36½%, and will probably make further gains before the year end. The "Age" continued:

further gains before the year end. The "Age" continued:

Automobile makers have gotten into production in earnest. December output, now estimated at 145,000 cars, will exceed earlier estimates, and January production will be the largest for that month in five years, with the final total dependent on how quickly steel and automobile parts can be made and delivered.

Steel bookings from the motor car trade this month will be the largest since last June, when material was being stocked in anticipation of price advances. Recent purchases included heavy tonnages from Ford covering January needs, releases for 25,000 jobs from Oldsmobile and orders from Hupp for 2,000 cars. The machining departments in automotive plants and many parts manufacturers have gone on three eight-hour shifts to meet assembly line requirements, and steel mills, especially makers of sheets and strip, are bing pushed hard for deliveries. Industrial employment in Detroit has reached the highest level for this season since 1929.

Detroit steel ingot output has risen from 62 to 66% in its third consecutive weekly increase. Operations also have risen two points to 56% in the Cleveland-Lorain area, six points to 41% at Buffalo, one point to 26% in the Philadelphia district and one-half point to 37% at Chicago. Elsewhere production rates are substantially unchanged.

Iron and steel demand from farm equipment and tractor makers and from a wide range of miscellaneous sources—including shovel manufacturers road machinery builders, stove plants and electric refrigerator makers—continues to point upward. One electric refrigerator plant has raised output from 1,100 to 1,500 units a day.

Bolt and nut business has been stimulated by the recent announcement of price advances effective Jan. 1. With this exception, there is little inclination to build up stocks, contracting being at a minimum. Buyers are still keeping a close watch on Washington for changes in National Recovery Administration policy on code price control and for developments that may

grow out of the NRA and Federal Trade Commission reports on the steel basing point system.

sing point system. Fabricated structural steel awards of 11,200 tons compare with 10,650

Fabricated structural steel awards of 11,200 tons compare with 10,650 tons a week ago. Sheet piling contracts include 2,800 tons for a dam on the Mississippi River at Muscatine, Iowa.

Business in tubular products has succumbed temporarily to holiday influences, but bookings for the month will at least match those of November. The major oil companies' plans for 1935 augur well for drill pipe, casing and tubing. Increased drilling is contemplated in both California and the Gulf States, 10,000 new wells in the east Texas field being mentioned in some forecasts.

States, 10,000 new wells in the east Texas field being mentioned in some forecasts.

Prospects for railroad buying remain obscure. Heavy purchases are considered out of the question until the present freight rate case comes to a decision and the pressing financial problems of many of the carriers are brought nearer a solution. Pending railroad orders include two coal barges for the Pennsylvania, calling for a total of 500 tons, and a ferry boat for the Erie, also requiring 500 tons. The Ensley rail mill has shut down after a short run and the Chicago rail mills are idle.

Pig iron shipments have shown a further increase in the Great Lakes area. At Detroit they are running 25 to 30% ahead of November. Although many foundries, particularly jobbing plants, are down for the year-end inventory period, automotive plants in most cases will be idle Christmas day only. An Ohio sanitary ware manufacturer is now operating 24 hours a day.

Competition from foreign steel is again being felt along the Eastern seaboard. Not only are low base prices being quoted but extras are commonly being waived. An order for 800 tons of sheet piling, the largest private purchase in months, has been placed with a German mill.

Scrap prices, though still buoyant, have made no further advances, the "Iron Age" composite remaining at \$11.58 a ton. The pig iron and finished steel composites are unchanged at \$17.90 a ton and 2.124c. a pound, respectively.

The American Iron & Steel Institute on Dec. 24 announced that telegraphic reports which it had received indicated that the operating rate of steel companies having 98.7% of the steel capacity of the industry will be 35.2% of the capacity for the current week, compared with 34.6% last week, 28.1% one month ago, and 31.6% one year ago. This represents an increase of 0.6 points, or 1.7% from the estimate for the week of Dec. 17. Weekly indicated rates of steel operations since Oct. 23 1933 follow:

"Steel," of Cleveland, in its summary of the iron and steel markets on Dec. 24, stated:

Pressure for iron and steel is outweighing holiday influences, with the

Pressure for iron and steel is outweighing holiday influences, with the result steelworks operations last week continued strongly upward, advancing 4 points to  $37 \frac{1}{2} \%$ , states the magazine "Steel."

Comparatively little capacity will be taken off this week. For most producers Christmas and New Year will mean one-day holidays. They have already anticipated loss in production this week, to keep finished steel output abreast a vigorous demand from automobile, implement and tractor manufacturers.

This reversal of the customary year-end trend finds full-finished sheet output, mainly for automobile requirements, up to 48%. In northern Ohio sheet mills reached a new high for the year—75 to 85%. Operations in the tin plate industry, also running a contraseasonal course, are up 5 points to 50%.

points to 50%

points to 50%.

While the 34,000 automobiles made last week represented only a moderate gain, 10,000, over the preceding week, the industry is rapidly getting under way with new models. It sees no difficulty ahead in disposing of the first half million cars as rapidly as they can be turned out; hence manufacturers are accumulating material and parts, and establishing assembly lines for Chevrolet's schedule is reported to call for full production in January.

120,000 cars next month. Ford may be expected to equal or exceed this

One of the market's chief supports is demand, from agricultural implement manufacturers, who, having completed their best year since 1930, nevertheless are preparing for more substantial improvement. A better farm financial position has encouraged some leading makers to accumulate iron and steel stocks to carry them far into 1935. One shipment of 400 tractors has been made into the southern Indiana farm belt.

and steel stocks to carry them far into 1935. One shipment of 400 tractors has been made into the southern Indiana farm belt.

Steel buying undoubtedly has broadened to include many miscellaneous classifications long listless or dormant, but two of the dominant consumer groups—railroads and structural work—are lagging. The former's purchases in the week were negligible, it being an in-between season, while structural shape awards mounted moderately to 11,168 tons. For various navy yards 5,000 tons of plates and sheets were awarded.

Scrap prices are strong, with some further increases at Chicago, but in general the market is quieter, suggesting that the upward movement which began in October is leveling off. On the other hand, pig iron sales continue to rise. Scrap and pig iron shipments this month will be substantially above November, an unusual occurrence.

Mesabi iron ore producers have been denied by the Minnesota Tax Commission an 18% reduction in their \$200,000,000 tax assessment for 1934, notwithstanding a recent court ruling that valuations are too high. Imported chrome ore, of which 7,000 tons were received at Philadelphia last week, is up 50 cents a ton. November iron and steel imports by this country were 35,272 tons, 75% over October, and highest since March. Specifications for forging billets were driven by the new regulation becoming generally applicable putting billets under 4x4-inch on a steel bar base, raising the price of this material about \$10 a ton. Also, by reports that new cutting extras are to be announced soon. Two new specific price classifications have been set up in tin plate, for so-called waste-waste, and tin plate strips, comprising assortments heretofore sold through individual negotiation.

price classifications have been set up in tin plate, for so-called waste-waste, and tin plate strips, comprising assortments heretofore sold through individual negotiation.

Steelworks operations last week in the Cleveland district advanced 5 points to 64%; Wheeling, 10 to 80; Pittsburgh, 2 to 26; Chicago, 1 to 36½; eastern Pennsylvania, 2½ to 22; Buffalo, 13 to 37; New England, 3 to 50; and Youngstown, 2 to 41. Detroit held at 59%, and Birmingham dropped 2½ points to 30%.

"Steel's" iron and steel price composite rose 2 cents to \$32.46, due to gains in scrap. The scrap index itself was up 13 cents to \$11.25. The finished steel composite remained \$54.

Steel ingost production for the week anded Dec. 24 is placed.

Steel ingot production for the week ended Dec. 24 is placed at fraction over 37%, according to the "Wall Street Journal" of Dec. 27. This compares with a shade under 34% in the previous week and 31½% two weeks ago. The "Journal" further added:

U. S. Steel is estimated at 30%, against 28% in the week before and 27% two weeks ago. Leading independents are credited with a rate of about 42%, compared with 38% in the preceding week and a little under 35% two weeks ago. The following table gives the percentage rate of production for the nearest corresponding week of previous years, together with the approximate changes, in points, from the week immediately preceding:

| a limit thank within by                              | Industry.   | U. S. Steel.   | Independents.   |

### Production of Coal for Latest Week Increased Sharply

The weekly coal report of the United States Bureau of Mines, Department of the Interior, discloses that the production of soft coal for the week ended Dec. 15 totaled 7,870,000 net tons. This compares with 7,125,000 net tons produced in the preceding week and 7,360,000 net tons produced during the week ended Dec. 16 1933.

Anthracite production in Pennsylvania during the week ended Dec. 15 is estimated at 1,512,000 net tons, or more than double the output of the preceding week, when 707,000 net tons were produced. For the week ended Dec. 16 1933 output totaled 1,083,000 net tons.

During the month of November 1934 30,450,000 net tons of soft coal were produced. This compares with 32,573,000 tons produced during October and 30,582,000 net tons produced during November 1933. Output of hard coal in Pennsylvania during November totaled 4,261,000 net tons, as against 4,729,000 net tons during October and 4,811,000 net tons during November 1933.

During the calendar year to Dec. 15 1934 341,801,000 net tons of bituminous coal and 54,988,000 net tons of anthracite were produced. This compares with 314,317,000 tons of bituminous and 47,130,000 tons of anthracite produced in the corresponding period of 1933. The Bureau's statement follows:

ESTIMATED UNITED STATES PRODUCTION OF COAL AND BEEHIVE COKE (NET TONS)

#### n Metal Mining Association Being porated in Toronto—Directors Named Being Incor-

Representatives of the metal mining industry in Canada, following a recent meeting, are incorporating an association

to be known as the Canadian Metal Mining Association, we learn from the Toronto "Financial Post" of Dec. 22. objects of the association, which will have its head office in Toronto, are "to collect data of interest to the industry and to the public; to stimulate an exchange of operating information among the various mines, especially as regards health and safety measures, and to generally further the interests of the metal mining industry as a whole." C. G. Williams has been appointed Secretary of the new body. The board of directors, according to the "Financial Post," consists of the following:

J. P. Bickell, President, McIntyre Porcupine Mines.
R. T. Birks, President, Howey Gold Mines.
A. L. Blomfield, managing-director, Lake Shore Mines.
Charles Bocking, President, Granby Consolidated Mining, Smelting &

Ower Co.

R. H. Channing Jr., President, Hudson Bay Mining & Smelting Co.
J. G. Dickenson, General Manager, M. J. O'Brien, Ltd.
Alex. Fasken, Secretary, Dome Mines,
John Knox, General Manager, Hollinger Consolidated Gold Mines, Ltd.
D. MacAskill, General Manager, The International Nickel Co. of Canada.
E. L. Miller, President, Wright-Hargreaves Mines.
W. V. Moot, Managing-director, Sylvanite Gold Mines,
J. Y. Murdoch, President, Noranda Mines.
J. C. Nicholls, assistant to President, The International Nickel Co.
A. H. Paradis, President, San Antonio Gold Mines.
J. D. Perrin, President, San Antonio Gold Mines.
J. I. Rankin, director, N. A. Timmins,
Victor Spencer, President, Pioneer Gold Mines of British Columbia.
Austin C. Paylor, President, Bralorne Gold Mines, Ltd.

Austin C. Faylor, President, Bralorne Gold Mines, Ltd. J. J. Warren, President, The Consolidated Mining & Smelting Co. of

Canada.
 J. P. Watson, President, The Mining Corporation of Canada.
 A representative (to be appointed), Maritime metal mining industry.
 An executive committee has been appointed from the above directorate, comprising the following: J. Y. Murdoch, chairman; J. P. Bickell, Alex.
 Fasken, J. J. Warren and J. P. Watson.

### Current Events and Discussions

### The Week with the Federal Reserve Banks

The daily average volume of Federal Reserve bank credit outstanding during the week ended Dec. 26, as reported by the Federal Reserve banks, was \$2,493,000,000, an increase of \$22,000,000 compared with the preceding week and a decrease of \$205,000,000 compared with the corresponding week in 1933. After noting these facts, the Federal Reserve Board proceeds as follows:

On Dec. 26 total Reserve bank credit amounted to \$2,470,000,000 a decrease if \$7,000,000 for the week. This decrease corresponds with a decrease of \$40,000,000 in Treasury cash and deposits with Federal Reserve banks and an increase of \$30,000,000 in monetary gold stock, offset in part by increases of \$41,000,000 in money in circulation, \$18,000,000 in member bank reserve balances and \$4,000,000 in non-member deposits and other Federal Reserve accounts.

Federal Reserve accounts.

There were practically no changes in the System's holdings of bills discounted, bills bought in open market, and United States Government securities. Holdings of industrial advances increased \$2,000,000.

Beginning with the week ended Oct. 31 1934, the Secretary of the Treasury made payments to three Federal Reserve banks, in accordance with the provisions of Treasury regulations issued pursuant to subsection (e) of Section 13-B of the Federal Reserve Act, for the purpose of enabling such banks to make industrial advances. Similar payments have been made to other Federal Reserve banks upon receipt of their requests by the Secretary of the Treasury. The amount of the payments so made to the Federal Reserve banks is shown in the weekly statement against the caption "Surplus (Section 13-B)" to distinguish such surplus from surplus derived from earnings which is shown against the caption "Surplus (Section 7)."

The statement in full for the week ended Dec. 26, in comparison with the preceding week and with the corresponding date of last year, will be found on pages 4085 and 4086.

Changes in the amount of Reserve bank credit outstanding and in related items during the week and the year ended Dec. 26 1934, were as follows:

| - All and a second to the seco |              |                 |

### Returns of Member Banks in New York City and Chicago—Brokers' Loans

Below is the statement of the Federal Reserve Board for the New York City member banks and also for the Chicago member banks for the current week, issued in advance of the full statement of the member banks, which latter will not be available until the coming Monday. The New York City statement formerly included the brokers' loans of reporting member banks and showed not only the total of these loans but also classified them so as to show the amount loaned for their "own account" and the amount loaned for "account of out-of-town banks," as well as the amount loaned "for the account of others." On Oct. 24 1934, the statement was revised to show separately loans to brokers and dealers in New York and outside New York, loans on securities to others, acceptances and commercial paper, loans on real estate, and obligations fully guaranteed both as to principal and interest by the United States Govern-This new style, however, now shows only the loans to brokers and dealers for their own account in New York and outside of New York, it no longer being possible to get the amount loaned to brokers and dealers "for account of out-of-town banks" or "for the account of others," these last two items now being included in the loans on securities to others. The total of these brokers' loans made by the reporting member banks in New York City "for own account" including the amount loaned outside of New York City, stood at \$626,000,000 on Dec. 26 1934, a decrease of \$32,000,000 over the previous week.

### Complete Returns of the Member Banks of the Federal Reserve System for the Preceding Week

As explained above, the statements of the New York and Chicago member banks are now given out on Thursday, simultaneously with the figures for the Reserve banks themselves and covering the same week, instead of being held until the following Monday, before which time the statistics covering the entire body of reporting member banks in 91 cities cannot be compiled.

In the following will be found the comments of the Federal Reserve Board respecting the returns of the entire body of reporting member banks of the Federal Reserve System for the week ended with the close of business Dec. 19.

On Oct. 17 1934 the statement was revised to show separately, and by Federal Reserve districts, loans to brokers and dealers in New York and outside New York, loans on securities to others, acceptances and commercial paper, loans on real estate, and obligations fully guaranteed both as to principal and interest by the United States Government. In view of the new classification of loans the memorandum items heretofore appearing at the bottom of the statement of condition of reporting member banks in New York City, relating to loans on securities to brokers and dealers, have been eliminated from that statement. The figures as published in this statement do not include loans to brokers and dealers by New York banks for account of non-reporting banks and for account of others. Figures for such loans will be published monthly in the "Federal Reserve Bulletin.'

The Federal Reserve Board's condition statement of weekly reporting member banks in 91 leading cities on Dec. 19 shows increases for the week of \$367,000,000 in holdings of United States Government direct obligations, \$54,000,000 in other securities, \$572,000,000 in Government deposits and \$19,000,000 in time deposits, and decreases of \$213,000,000 in net demand deposits and \$107,000,000 in reserve balances with Federal Reserve banks. serve banks.

Loans on securities to brokers and dealers in New York City increased \$23,000,000 at reporting member banks in the New York district and \$25,-000,000 at all reporting banks; loans on securities to brokers and dealers outside of New York remained unchanged; and loans on securities to others declined \$8,000,000 in the New York district and \$9,000,000 at all reporting member banks. Holdings of acceptances and commercial peper and of real estate loans show no change for the week, while "other loans" declined \$4,000,000 in the New York district and \$10,000,000 at all reporting member banks. \$4,000,000 in the New York district and \$10,000,000 at all reporting mem-

ber banks.

Holdings of United States Government direct obligations incre

Holdings of United States Government direct obligations increased substantially in nearly all districts, the total increase being \$367,000,000; holdings of obligations fully guaranteed by the United States Government show little change for the week; and holdings of other securities increased \$44,000,000 in the New York district and \$52,000,000 at all reporting banks. Licensed member banks formerly included in the condition statement of member banks in 101 leading cities, but not now included in the weekly statement, had total loans and investments of \$1,230,000,000 and net demand, time and Government deposits of \$1,369,000,000 on Dec. 19 compared with \$1,179,000,000 and \$1,327,000,000, respectively, on Dec. 12. A summary of the principal assets and liabilities of the reporting member banks, in 91 leading cities, that are now included in the statement, together with changes for the week and the year ended Dec. 19 1934, follows:

\*\*Increase\*\* (+) or Decrease\*\* (--)

The foregoing figures do not include loans on foreign securities but only borrowings of members of the Montreal Stock Exchange on Canadian securities and not those of other exchanges in Canada. Nor do they include the borrowing of bond houses or bond affiliates of Stock Exchange members.

### Winnipeg Grain Exchange Temporarily Defers Trading in Wheat Futures Beyond July Option

Trading in wheat futures beyond the July option was temporarily deferred by the council of the Winnipeg Grain Exchange on Dec. 28, according to Associated Press advices from Winnipeg, which reported that a brief announcement was issued as follows:

As a result of instructions received from the Dominion Government, the Council has decided to defer for the present the providing of facilities for trading in any wheat future beyond the month of July.

The same advices stated:

The ruling kept off the trading board the October option, which usually goes into operation during the first week of January.

John I. McFarland, Chief of the Government stabilization agency, said the action amounted to a change in policy for the grain exchange. "Why should a future be open to trading when the new crop has not been sown," he asked. "The new ruling prevents speculation on something that is not in evistence"

The December option expires next Monday, leaving traders the future options of May and July.

In noting the action of the Winnipeg Market, the New York "Sun" of last night (Dec. 28) said:

While no authoritative interpretation of the ruling by the Winnipeg Grain Exchange was obtainable here, it was assumed in the grain trade to have political significance of a temporary nature rather than to represent

have political significance of a temporary nature rather than to represent a permanent change of trade policy.

The Winnipeg Exchange has pegged May wheat at 80 cents and July at 81 cents. With trading in October about to begin, now that December is on the way out, it would be necessary to peg October, unless it was to fall to world price levels.

It is believed the Canadian authorities are undesirous of fixing a minimum price on October until its grain market policy for next year is settled. The solution, therefore, seems to be to defer trading in October until a later data.

### Sir Josiah Stamp to Broadcast from London To-morrow (Dec. 30)—British Banker Will Discuss Economic Outlook for 1935—Richard H. Grant to Speak on Motor Industry Jan. 3

Sir Josiah Stamp, British economist and banker, will discuss the economic outlook for 1935 over a nation-wide WABC-Columbia broadcast to-morrow (Dec. 30) from 12.45 to 1.00 p. m., E.S.T., the Columbia Broadcasting System announced on Dec. 26. The address, entitled "An Economic Forecast for 1935," will originate in the studios of the British Broadcasting Corp. in London.

The Columbia System announced on Dec. 27 that Richard H. Grant, Vice-President and Sales Manager of General Motors Corp., will broadcast over the WABC-Columbia network on Jan. 3 from 8.30 to 9.00 p. m., E.S.T., and will discuss the problems of the automobile industry and their relation to the general recovery program.

# King George Broadcasts Christmas Greetings Through-out British Empire—Reminds Hearers They Are "Members of One Family"

Although the British Empire still has its "own anxieties to meet," those anxieties will be overcome if they are met "in the spirit of one family," King George declared on Dec. 25 in a Christmas message which was broadcast from

London throughout the Empire. The King said that the world is still restless and troubled, but that "the clouds are lifting." He reminded his hearers that "it is as members of one family that we shall to-day and always remember those other members of it who are suffering from sickness or from the lack of work, or both, and we shall endeavor to do our utmost to befriend them." The following is the complete text of his speech:

Complete text of his speech:

On this Christmas Day I send to all my people everywhere my Christmas greetings, the day with its hallowed memories in the festivity of the family. I would like to think with you who are listening to me now, in whatever part of the world you may be, that all the peoples of this Empire are bound to me and to one another by the spirit of one great family.

The Queen and I were deeply moved by the manner in which this spirit was manifested a month ago at the marriage of our dear son and daughter My desire and hope is that the same spirit may become stronger in its hold and wider in its range.

was manifested a month ago at the marriage of our dear son and daughter My desire and hope is that the same spirit may become stronger in its hold and wider in its range.

The world is still restless and troubled. The clouds are lifting, but we have still our own anxieties to meet. I am convinced that if we meet them in the spirit of one family we shall overcome them, for then private and party interests will be controlled by care for the whole community.

It is as members of one family that we shall to-day and always remember those other members of it who are suffering from sickness or from the lack of work, or both, and we shall endeavor to do our utmost to befriend them.

I send a special greeting to the peoples from my dominions overseas. Through them the family has become a fellowship of free nations and they have carried into their own homes the memories and traditions of the mother country. The burdens of the world know no barriers of space.

If my voice reaches any of the people of India, let it bring assurance of my constant care for them and of my desire that they, too, may evermore fully realize and value their own place in the unity of the one family.

May I add very simply and sincerely that if I may be regarded as in some true sense the head of this great and widespread family, sharing its life and sustained by its affection, this will be a full reward for the long and sometimes anxious labors of my reign of well-nigh five and twenty years.

As I sit in my own home, I am thinking of the great multitude who are listening to my voice, whether they be in British homes or in far-off regions of the world. For you all, and especially for your children I wish a happy Christmas. I commend you to the Father of Whom every family in Heaven and on earth is named. God blass you all!

The King's message, which was part of the world-wide Christmas celebration of the British Empire, was heard over the radio in the United States.

# Neville Chamberlain Says Britain Will Not Stabilize Currency Now—Chancellor of Exchequer Asserts Move Must Await Better Harmony Between Franc and the Dollar

International currency stabilization must await a change in price levels that will bring about greater harmony between the dollar and the French franc, Neville Chamberlain, British Chancellor of the Exchequer, declared Dec. 21 in a speech in the House of Commons. Great Britain, he said, has no intention at the present time of stabilizing the pound to the dollar, which is still on gold, The Chancellor stated that England cannot risk stabilization at present, but he expressed the hope that at some future date there will again be established a common international standard of currency. United Press advices of Dec. 21 from London quoted from his remarks as follows:

"The position we cannot control," he said, "is that the dollar and the franc are not in harmonious relation with each other. If, at present, there is a strain on the pound sterling, we have freedom to move in either direction, but if we have stabilization, we lose that freedom."

The Chancellor looked forward confidently to the day "when we will be able one again to embark on an international currency standard." Meantime clouds on the norizon need not cause pessimism.

time clouds on the norizon need not cause pessimism.

Hoping that Washington will achieve greater harmony between the franc and the dollar, Mr. Chamberlain said the only result of a British attempt to stabilize the pound while the dollar and the franc are not in harmony would be that England, after stabilization, might find herself in a position where she would "either have to go off gold or follow a policy of deflation."

Mr. Chamberlain's statement was made in an incidental discussion of financial policy during debate on a motion for Christmas recess. The House of Commons later adjourned until January 28 and the House of Lords to January 29.

Lords to January 29.

The Chancellor's remarks to-day spiked rumors of negotiations for worldwide stabilization of currencies.

### World Recovery Dependent upon Joint Stabilization of Sterling and Dollar, According to Premier Flandin of France—Finds No Benefits to Be Achieved by Devaluation

World business recovery must first await stabilization of the dollar and pound sterling in relation to each other, Premier Pierre-Etienne Flandin of France said on Dec. 22 in an interview with a correspondent of the New York "Times." As we note elsewhere in this issue, the view was expressed on Dec. 21 by Neville Chamberlain, the British Chancellor of the Exchequer, that sterling cannot be stabilized until the dollar and franc are brought into greater harmony. M. Flandin, while asserting that currency stabilization is the most important step toward world recovery, held that this is a matter to be discussed by Great Britain and the United States, and that "France can do nothing but await the outcome of the fiscal policy of the two great money powers.'

We quote below in part from the interview, as described in a Paris dispatch of Dec. 23 to the "Times":

"What of the position of the franc?" he was asked. "I have heard it said in Paris that if the Roosevelt monetary policy succeeds in raising prices to the desired level devaluing the franc will be unnecessary, but that if the effort fails or succeeds only partially devaluation cannot be avoided."

#### Interprets Action on Dollar

"In the first place," was the reply, "I do not believe the primary purpose of the dollar devaluation was either to raise world prices or to enable the United States to compete in the world market. These aims were secondary

United States to compete in the world market. These aims were secondary and have had small success.

"The main object as I see it was to correct a peculiarly American internal disorder by adjusting the enormous load of private debt. Until a balance between the debtor and the creditor is established near a point at which the debtor can pay probably the dollar will not stabilize in relation to world currencies."

"As to the franc," M. Flandin continued slowly, switching from English to Franch, which a prefers when he wishes to be especially explicit, "under

"As to the franc," M. Flandin continued slowly, switching from English to French, which he prefers when he wishes to be especially explicit, "under present conditions I see no benefit to be achieved by devaluation. For foreign trade? But international commerce has dwindled to a thin trickle, not to be expanded merely by cheap money. To reduce the living cost? Difficult as life is here real wages are not low compared with other countries. If we succeed in striking a balance between production and consumption—my Government's first aim—at most in two years we should approximate the domestic equilibrium essential to a country like this, which exports only luxuries and depends for trade on its customer's prosperity."

### French Wheat Trading Free of Restrictions

In United Press advices from Paris Dec. 27 it was stated that the French wheat market for both spot and future trading is free of restrictions under France's new wheat law, but remaining reserves of 1933 and 1934 wheat held by cooperatives under Government guarantee of a minimum price will be acquired by the Government July 1 1935 at the average price reached in the free market in Paris during the first six months of 1935. In the same advices it was also stated:

The Ministry of Agriculture announced to-night that the Government was buying and exporting 1,000,000 quintals of wheat in January, partly on the free market and partly from surplus stocks..

The Government started absorption of the co-operatives' surplus by buying 1934 wheat under the old contract price of 97 francs per quintal plus a bonus of 11 francs a quintal paid for one-half of the co-operatives' stocks.

stocks.

The wheat bill directed limitation of production and a gradual shift from a controlled to a free market rather than regulation of market transactions. However, it contains a clause providing punishment of speculators who provoke rise or fall of prices by launching false reports.

# Higher Dividend Declared by Bank of France—Semi-Annual Payment of 107 Francs Compares with 100 Francs

A semi-annual dividend of 107 francs was declared by the Bank of France on Dec. 27, compared with 100 francs for the five previous semesters, said a wireless dispatch from Paris Dec. 27, to the New York "Times" of Dec. 28. The dispatch continued:

The Bank is in a particularly strong situation at present, and rumors have been going the rounds of financial quarters here in the last week that the Flandin Government's program to lower French interest rates comprehends vigorous action by the Bank of France.

### Resignation of Dr. Gustav Krupp as President of Reich Estate of German Industry

Official announcement of Dr. Gustav Krupp as President of the so-called Reich Estate of German Industry (in effect for several months) was made on Dec. 17, according to a wireless message on that date from Berlin to the New York "Times" which added:

Announcement was made in a letter from Dr. Hjalmar Schacht, Reich Economics Minister, thanking Dr. Krupp for "unselfish labor and effort in the interest of the National Socialist State." He declared he regretted that "professional duties" would prevent Dr. Krupp from taking over the direction of the Reich Group of Industries which is the estate's new name under the new plan providing a certain amount of self-administration.

Ewald Hecker, director under Dr. Schacht of the Reich Economic Chamber, has been named head of the industrial organization as well.

# Announcement Respecting Bulgarian External Loans Issued Jointly by League Loans Committee (London) and Bondholders Organizations—Seeks Reduction in Service on External Debt

The proposal by the Bulgarian Government that a reduction be made in the current service of the country's external debt from  $32\frac{1}{2}\%$  to 20% of the interest and that the transferred portion of the interest be reduced from 321/2% to 10% is made known in the following announcement, (made public Dec. 28 by Speyer & Co.) issued jointly by The League Loans Committee (London), on which the American bondholders are represented, in respect of the two Bulgarian League of Nations Loans (7% 1926 and 7½% 1928); The Council of Foreign Bondholders; The Association Nationale des porteurs Français de Valeurs Mobilieres; The Committee of the Amsterdam Stock Exchange; The Association Belge pour la Defense des Detenteurs de Fonds Publics; The Swiss Bankers' Association in respect of the Bulgarian Pre-War

Loans (6%, 1892, 5% 1896, 5% 1902, 5% 1904, 4½% 1907 and 41/2% 1909):

and  $4\frac{1}{2}\%$  1909):

The above-named bondholders' organizations were informed on Oct. 30 that the Bulgarian Government proposed to ask the League of Nations to conduct an inquiry into the present economic and exchange position in Bulgaria, and that pending the result of this inquiry, the Bulgarian Government proposed to reduce the provision in effective levas for the current service of the external debt from  $32\frac{1}{2}\%$  to 20% of the interest and to reduce the transferred portion of the interest from  $32\frac{1}{2}\%$  to 10%. (It will be remembered that under arrangements of April 20 and May 17 last, the Bulgarian Government undertook to provide in transferable levas and to transfer  $32\frac{1}{2}\%$  of the interest service). As a result of telegraphic communications, the Bulgarian Government transferred a sum of about 6,000 levas, representing  $32\frac{1}{2}\%$  of the monthly installment due on Nov. 15 1934 for the service of the 1926 loan. This completed the provision in foreign exchange required to meet  $32\frac{1}{2}\%$  of the coupon of that loan due Jan. 1 1935, which will accordingly be paid at the rate of  $32\frac{1}{2}\%$ . The Bulgarian Government at the same time transferred an approximately equal amount representing  $32\frac{1}{2}\%$  of two bi-monthly installments for the service of the 1907 loan. On other payments which have fallen due in and after November, the Bulgarian Government remained in default. Immediately after the Bulgarian Government had made the above-mentioned transfer M. Todoroff, the Bulgarian Minister of Finance, assisted by M. Bojiloff, Vice-Governor of the National Bank, and M. Hadji Mischeff, the Bulgarian Minister in London, met representatives of the above-named bondholders' organizations in London in an endeavour to reach a temporary agreement as to the service of the external debt pending the results of the League inquiry which is now proceeding. Following upon the ensuing conversations M. Todoroff, on behalf of the Bulgarian Government, made the following declarations:

(1) The Bulgarian Governmen

ment, made the following declarations:

(1) The Bulgarian Government recognize that the arrangements of April 20 1934 (for the League loans) and May 17 1934 (for the Pre-War loans) remain in force; and they will maintain the full provision for the service of those loans in the budget, receiving back against Treasury Bills in the same way as hitherto 67½% of the interest and the whole of the amortization where this applies (excluding capital repayments made by refugees in respect of the 1926 loan).

(2) They will pay into appropriate deposit accounts at the Bulgarian National Bank in effective levas the full balance of 32½% of the interest as provided in the above arrangements.

(3) They undertake to transfer a minimum of 15% of that interest in foreign exchange at once for payments already due but not paid, and on the appropriate installment dates for subsequent payments, pending discussions with the bondholders' representatives after the Financial Committee of the League has made its report.

(4) If the Financial Committee assesses Bulgaria's capacity to transfer on these debts at a rate higher or lower than 15%, the amounts due for transfer as above after Nov. 1 1934 (excluding amounts which the Bulgarian Government have already transferred) will count towards whatever new percentage of transfer is agreed with the bondholders.

(5) Should it be necessary to pay any coupons at a rate lower than the 32½% stipulated in the arrangements of last April and May, such payment will not be taken as a complete discharge entitling the Bulgarian Government to cancel the balance of the coupons (as would be the case if the arrangements of last April and May were executed). In such case therefore, the coupons would be stamped with an indication of the amount paid and remain subject to further agreement with the bondholders.

For the Bulgarian Government,

(Signed) Todoroff, Minister of Finance.
The representatives of the above-named bondholders' organizations take note of the declaration of the Bulgarian Government and announce it for the information of the bondholders.

For the League Loans Committee (London), (Signed) Austen Chamberlain, Chairman.

For the Council of Foreign Bondholders, (Signed) C. Lubbock, President.

For the Association Nationale des Porteurs Francais de Valeurs Mobilieres, and on behalf of The Association Belge pour la Defense des Detenteurs de Fonds Publics and the Swiss Bankers' Association, (Signed) L. Martin.

For the Committee of the Amsterdam Stock Exchange, (Signed) W. Onoop Koopmans, Secretary.

### Dr. Guillermo Patterson Appointed Cuban Minister to United States

Dr. Guillermo Patterson, Cuban Minister to London, has been appointed as Ambassador to Washington, according to a statement by the Cuban Department of State Dec. 20, said Wireless advices from Havana, to the New York "Times" of Dec. 21. Dr. Patterson will replace Dr. Manuel Marquez Sterling, who died in Washington on Dec. 9. From the wireless advices we also take the following:

less advices we also take the following:

Dr. Patterson, who is 66 years old, began his diplomatic career in 1902 as consul in Liverpool. He was appointed Minister to London by former President Gerardo Machado in 1925 and has continued to hold that post under the succeeding administrations.

The United States has already signified its acceptance of Dr. Patterson as Ambassador, a spokesman of the State Department here said, and it is expected that the new envoy will proceed to Washington immediately.

The appointment of a new Minister to London has not yet been announced.

### Buenos Aires (Argentine) to Pay Jan. 1 Coupons on $6\frac{1}{2}\%$ Sinking Fund Bonds

Kidder, Peabody & Co., New York, fiscal agent for City of Buenos Aires (Argentine) external 311/2-year 61/2 % sinking fund bonds, Series 2-B, has announced that the Jan. 1 coupons on this issue will be paid in current funds at the dollar face amount upon presentation at the firm's office on and after Jan. 2.

#### Country's Foreign Trade in November-Imports and Exports

The Bureau of Statistics of the Department of Commerce at Washington on Dec. 27 issued its statement on the foreign trade of the United States for November and the

11 months ended with November, with comparisons by months back to 1930. The report is as follows:

11 months ended with November, with comparisons by months back to 1930. The report is as follows:

Imports from foreign countries increased sharply in November, while exports declined. The gain of 16% over the value of general imports in October compares with a usual seasonal decrease of about 2%. However, too much significance should not be attached to the large import gain over the previous month inasmuch as the statistics for October indicated imports to be about 10% below seasonal expectations. Taking the two months, October and November, together and allowing for seasonal changes it would appear that the increase in import trade since the third quarter has been moderate. The decline of 6% in the value of exports, including reexports, was approximately the usual seasonal amount. November was the fourth successive month in which the value of exports was greater than in the corresponding month of each of the three preceding years.

Total exports, including reexports, were valued at \$194,901,000 compared with \$206,492,000 in the previous month and \$184,256,000 in November 1933. For the first 11 months of 1934 the total value was \$1,962,731,000 compared with \$1,482,355,000 in the corresponding period of 1933. Prices of goods moving in export trade have advanced during the year and, therefore, although the gain in value of exports for the first 11 months was 32% greater than for the same months of 1933, the increase in quantity was only about 12%.

General imports, consisting of goods entering immediately into consumption upon arrival in the United States, plus goods entered for storage in bonded warehouses, were valued at \$150,919,000 compared with \$1,316,041,000 n the previous month and \$128,541,000 in November 1933. For the first 11 months of 1934 the value was \$1,522,807,000 compared with \$1,316,041,000 n the corresponding period of 1933. Practically all of the increase in the value of imports in 1934 is attributable to higher prices. The quantity of goods imported in the first 11 months of this year was app

The merchandise export balance declined from \$77,000,000 in October to \$44,000,000 in November, and was \$12,000,000 less than in November 1933. In the months January through November exports have exceeded imports by \$439,924,000, a large amount relative to the value of foreign trade in 1923.

Imports for consumption, which include goods entering consumption channels immediately upon arrival in the country, plus withdrawals from from bonded warehouses, increased from a value of \$137,864,000 in October to \$149,412,000 in November.

to \$149,412,000 in November.

The principal factor in the expansion in the volume of our exports during the first 11 months of 1934 was the increase in shipments of automobiles, including parts and accessories, machinery and heavy iron and steel products to foreign countries. The value of these three groups were, in the order mentioned, \$177,796,000, \$199,243,000 and \$80,557,000 during the period January-November, 1934, in comparison with \$81,325,000, \$116,710,000 and \$38,644,000 in the same period of 1933. Exports of rubber tires, copper, chemical products, advanced manufactures of iron and steel, advanced manufactures of wood, paints, and varnishes, and paper manufactures also showed substantial increases in value.

On the other hand, the value of raw cotton exports was less in the period

paper manufactures also showed substantial increases in value.

On the other hand, the value of raw cotton exports was less in the period January-November 1934 than in the same period of 1933. The quantity of unmanufactured cotton exports decreased 29% from 4,079,644,000 pounds in January-November 1934, while the value declined by 5%. Lard exports also fell off sharply, but other leading agricultural exports showed increases, in the last named period. Unmanufactured tobacco exports increased 10% in quantity and 77% in value. The value of fruits and nuts registered an advance of 12%, while wheat exports showed large gains in quantity and value but were still extremely small compared with exports in earlier years.

Among the import commodities, alcoholic beverages and grains and prep-

value but were still extremely small compared with exports in earlier years. Among the import commodities, alcoholic beverages and grains and preparations (the latter including barley malt), showed outstanding gains during 1934. Beverage imports were valued at \$42,568,000 for the period January-November 1934, as compared with \$3,906,000 in the same period of 1933, while grains and preparations totalled \$27,807,000 and \$12,212,000 in the two periods, respectively. Imports of newsprint, crude rubber, fertilizers, copper, nickel and diamonds also increased considerably in quantity but the quantities imported of raw silk, coffee, cocoa, sugar, hides and skins, unmanufactured wool, and tin were decidedly less than in the preceding year. the preceding year.

#### York Stock Exchange Rules on 7% and 71/29 Gold Bonds of Hungarian Consolidated Municipal Loan

Through its Secretary, Ashbel Green, the New York Stock Exchange issued the following announcements pertaining to rulings affecting two bonds issues of Hungarian Consolidated Municipal Loan:

#### NEW YORK STOCK EXCHANGE

Committee on Securities

Dec. 27 1934.

Referring to the offer to make payment in Pengoes in Hungary on surrender of the Jan. 1 1935, coupon on Hungarian Consolidated Municipal Loan 20-year 7½% Secured Sinking Fund Gold Bonds, due 1945:

The Committee on Securities rules that transactions made on and after Jan. 2 1935, shall be settled by delivery of bonds bearing only the July 1 1935 and subsequent coupons, unless otherwise agreed at the time of transaction; and transaction: and

That the bonds shall continue to be dealt in "flat."

Referring to the offer to make payment in Pengoes in Hungary on surrender of the Jan. 1 1935, coupon on Hungarian Consolidated Municipal Loan 20-year 7% Secured Sinking Fund Gold Bonds, External Loan of 1926, due 1946:

The Committee on Securities rules that transactions made on and after Jan. 2 1935, shall be settled by delivery of bonds bearing only the July 1 1935 and subsequent coupons, unless otherwise agreed at the time of transactions bearing only the security of the security o

That the bonds shall continue to be dealt in

ASHBEL GREEN, Secretary,

#### 6% External Sinking Fund Gold Bonds, Due 1961, Colombia Affected by Ruling of New York Stock Exchange

Ashbel Green, Secretary of the New York Stock Exchange, issued the following notice on Dec. 27:

NEW YORK STOCK EXCHANGE Committee on Securities

Dec. 27 1934.

Referring to the offer of the Republic to make payment in scrip on surrender of the Jan. 1 1935, coupon on Republic of Colombia 6% External Sinking Fund Gold Bonds, due 1961.

The Committee on Securities rules that transactions made on and after Jan. 2 1935, shall be settled by delivery of bonds bearing only the July 1 1935 and subsequent coupons, unless otherwise agreed at the time of transaction:

That scrip received in payment of coupons shall not be deliverable with

That the bonds shall continue to be dealt in "flat.

ASHBEL GREEN Secretary.

### Ruling by New York Stock Exchange on Bulgarian 7% Settlement Loan 1926 Dollar Bonds

The following announcement was issued on Dec. 27 by Ashbel Green, Secretary of the New York Stock Exchange:

NEW YORK STOCK EXCHANGE Committee on Securities

Committee on Securities

Dec. 27 1934.

Notice having been received that payment of \$11.37 per \$1,000 bond will be made on Jan. 2 1935, on surrender of the coupon then due on Kingdom of Bulgaria 7% Settlement Loan 1926 Dollar bonds, due 1967.

The Committee on Securities rules that transactions made on and after Jan. 2 1935, shall be settled by delivery of bonds bearing only the Jan. 1 1934 (\$17.50 paid), (ex July 1 1934 and Jan. 1 1935), July 1 1935 and subsequent coupons, unless otherwise agreed at the time of transaction; and That the bonds shall continue to be dealt in "flat."

ASHBEL GREEN, Secretary.

# Part Payment of Jan. 1 Coupons on Three Series of Bonds of El Salvador—92% of Bonds Deposited with Bondholders Protective Committee

Holders of bonds of the Republic of El Salvador who have deposited their bonds with the Bondholders Protective Committee of El Salvador, will receive the following payments on the Jan. 1 coupons, it was announced on Dec. 27 by F. J. Lisman, Chairman of the Committee:

On bonds of series A \$34.00 in payment of the maturing coupon for each \$1,000 bond; on bonds of series B £2 11s. in payment of the maturing coupon for each £100 bond; on bonds of series C \$23.35 in cash and \$7.50 in certificates of deferred interest, which the Republic has agreed to issue in payment of the maturing coupon for each \$1,000 bond.

These payments, Mr. Lisman said, are net to the bondholders after deduction of expenses amounting to approximately 15%. It was stated that the following bonds have been deposited to date, thus assenting to the plan and agreement:

| Series              | Total<br>Outstanding                   | Total<br>Deposited                     | % Deposited                |

### Cordoba (Argentine) to Pay Jan. 1 Coupon on 7% Sinking Fund Bonds of 1925

Kidder, Peabody & Co. and First of Boston International Corp., fiscal agents for Province of Cordoba, Argentine Republic, external 7% sinking fund bonds of 1925, have announced that the Jan. 1 coupons will be paid on and after Jan. 2 in current funds at the dollar face amount.

# Review of 1934 Bond Market by T. E. Hough of Halsey, Stuart & Co.—Year Notable for Improved Bond Prices—Outlook Is for Market of Large Proportions, Dependent on Greater Confidence and Stabiliza-tion of Dollar—Balancing of Budget and Modifi-cation of Securities Act also Essential

The year 1934 "will probably be recalled as more notable for improved bond prices than for markedly increased activity," says T. E. Hough, Vice-President of Halsey, Stuart & Co., in a review of the 1934 bond market, made available for publication to-day (Dec. 29). As to the general outlook, says Mr. Hough, two facts stand out sharply in any consideration of the probable trend of the bond market:

(1) That vast sums of idle money are available and anxious to find employment;
(2) That the accumulated capital demands of five years require very large sums for refunding operations, replacements, modernization, &c.

Mr. Hough goes on to say:

The stage would thus appear to be set for a bond market of large proportions. Two things are necessary, however, to bring this potential supply

and demand together: first of all, there must be greater confidence in the long-term outlook, which, in the opinion of most students means, first, there must be no more tinkering with the dollar, but, on the other hand, there must be assurance of stabilization at the earliest possible date. The recent removal of restrictions on foreign exchange was a reassuring factor in this direction, suggesting, as it does, that further dollar devaluation is not now contemplated and that de facto stabilization exists. Even so, positive and direct reassurance that legal stabilization is contemplated at the earliest possible date appears to be a necessary basis for a long-term money market.

Further, assurance is required that an honest effort will be made at balancing the budget at the earliest possible date. Business men are aware of the difficulty, if not the impossibility, of immediate balancing of the budget, in view of existing demands, yet they want evidence that an earnest and honest effort is being made to bring it into balance with all reasonable

and honest effort is being made to bring it into balance with all reasonable expedition.

Finally, for longer term confidence, there must be a clear definition of the respective fields of public and private endeavor so that the existing uncertainty on this point shall be removed.

In addition to these prerequisites to the development of a long-term money market, modification of the Federal Securities Act so as to permit of new financing without unnecessarily burdensome liabilities and expenses appears essential. With these obstacles removed, there is every reason to expect a vigorous and broad-scale bond market; without them, the existing impasse is likely to continue.

Surveying the 1934 bond market. Mr. Hough comments

Surveying the 1934 bond market, Mr. Hough comments

The year 1934 will probably be recorded as one of convalescence in the bond market. After four years of distress, numerous rallies and relapses and much disagreement among the attending experts as to the causes and cures of the market's continued ailments, there were rather definite and sustained indications of improvement during 1934.

Among the constructive factors during the year bearing directly on the bond market, three stand out as especially significant.

(1) The amendments to the Federal Securities Act.

(2) The amendments to the Federal Bankruptcy Act designed to facilitate

(2) The amendments to the Federal Bankruptcy Act designed to facilitate and expedite corporate reorganizations.

(3) The adoption of a Code of Fair Practice by the Investment Bankers. Space does not permit of a discussion of these but, suffice it to say, that the amendments to the Security Act are generally regarded as alleviative but not curative; that the amended Bankruptcy Act is a very positive forward step in the vast problem of corporate reorganization now confronting the nation; and that the Investment Bankers' code is an achievement of first rank—the good effects of which are not yet evident but will become so with the resumption of activity in the bond market.

Offsetting these forward steps, and accounting in large part for the unwillingness of capital to seek employment in anything but short or relatively riskless investments, are these adverse developments during the year:

(1) Mounting Government debt, further unbalancing the budget and continuing the spectre of possible monetary inflation that has so long haunted the buyer of fixed income securities.

- (2) Governmental competition with private industry, notably in the

public utility field.

(3) Radical legislation past and potential, of which the Frazier-Lemke

(3) Radical legislation past and potential, of which the Frazier-Lemke Bill is one of the most disturbing examples.

(4) The growing tax burden, which looms threateningly over all productive enterprise no less than on those individuals who derive their income either in wages or capital return from industry.

Summarizing, 1934 will probably be recalled as more notable for improved bond prices than for markedly increased activity. The fact is, of course, that in both the corporate and municipal fields the lack of large-scale new offerings is what has brought about the high level of prices; in other words, the concentration of huge sums of idle money in the relatively few available bonds has resulted in a scarcity value that has contributed markedly towards advancing prices. advancing prices.

#### As to Government borrowings, Mr. Hough's review says:

#### Government Bonds

Government Bonds

Aside from the mere size of the Government borrowings, the most significant developments related thereto during the year were:

(1) Substitution of 182-day bills for the 91-day bills previously used, thus reducing the frequency of new financing efforts.

(2) The lowering of the discount rates on such bills, as well as reduction in the coupon rates of longer term obligations.

(3) Further progress toward refunding outstanding long-term debt at lower interest rates and toward financing part of the Government's requirements with long-term rather than short-term obligations. Substantial savings in interest nave resulted from these operations.

As a result of the year's operations the total gross debt of the United States mounted to an all-time high of \$27.364,639,503 on Dec. 7 1934, surpassing the war-time peak of \$26,596,701,648 registered on Aug. 31 1919. The 1934 total, moreover, does not include the debt of other lending agencies, for which the Government is contingently liable for payment of principal and (or) interest, or both. Of these the HOLO and the FFMC alone have about \$3,000,000,000 of bonds outstanding.

The extent to which the Government must continue to dominate the

and the FFMC alone have about \$3,000,000,000 of bonds outstanding. The extent to which the Government must continue to dominate the financial markets is indicated by the fact that during the next five years short-term debt aggregating over \$11,500,000,000 is due for payment (including \$1,870,000,000 Fourth Liberty 4½s called for payment on April 15 1935). To the total given must, of course, be added any requirements to fund further deficits in current operations. The scarcity of competitive offerings and the glut of idle money have rendered the Government's financial operations relatively easy, despite their staggering size. Even so, the bonds have not been "popularly" placed. At present it is estimated that banks hold about 55% of the Government debt, such holdings constituting about 25% of the total assets of members of the Reserve System. So long as business remains stagnant, this probably presents no serious problem either to the Government or the banks, though it is obviously not a desirable situation nor an ultimate solution of the Government's financial problem. financial problem

Regarding State and municipal bonds, the review states in part:

In point of volume (\$821,163,656, to Dec. 1 1934) State and municipal bonds easily maintained their position of leadership, which has now extended over three years. This year's total compares with \$520,975,438 new State and municipal offerings in all of 1933, and \$850,480,079 in 1932. Relief, public works projects, and refunding operations, accounted for a majority of the new offerings during the year.

From the review we also quote:

#### Railroad Bonds

Operating revenues of the railroads declined from 6.280,000,000 in 1929 to 3.095,000,000 in 1933, a 51% decline. Class 1 railroads for the

first 10 months of 1934 had a net operating income of \$391,234,826, which is at the annual rate of 1.75% on their property investment. In 1934, 47,200 miles of line, or nearly 20% of the total, were reported in receivership or as applicants for reorganization under the amended Bankruptcy

The plight of the railroads is thus, obviously, a serious one and would, of course, have been much more so except for the financial assistance rendered during the year by the Government. Loans of about \$400,000,000 have been made to the railroads through the Reconstruction Finance Corpora-

#### Industrial Bonds

Industrial Bonds

Total industrial bond financing to Dec. 1 1934, aggregated \$26,666,000. Such financing, limited as it was, was confined to strongly situated companies and for the most part was necessitous in character, that is, to refund maturing issues, &c. This figure does not include financing of substantial amount in connection with bond retirements at low rates by large corporations out of working capital, by bank loans, or by issues privately placed. Incidentally, one of the unfortunate, and certainly one of the unintended, results of the Federal Securities Act, has been to deprive individual investors of the opportunity of buying some of the most desirable of current new offerings. Issues privately placed need not be registered under the Act, as a result of which a number of corporations of high credit standing have found it advantageous to so place their securities during the year. found it advantageous to so place their securities during the year.

#### Bond Sales on New York Curb Exchange During 1934 Reach Record—Surpass \$1,000,000,000 Mark for First Time

Yearly bond sales on the New York Curb Exchange reached \$1,000,000,000 on Dec. 26. This is the first time in the history of the institution, not excepting the boom years, that sales have attained that figure, and compares with \$25,510,000 in 1921, the year the Curb moved indoors. The previous high yearly record was \$981,297,000 made in 1931. The largest day's trading during 1934 was \$8,512,000 on Feb. 6. Sales by years compare as follows:

| 1921 | \$25,510,0001 | 1926 | \$525,810,000 | 1931 | \$981.297,000  |
|------|---------------|------|---------------|------|----------------|
| 1922 | 55,212,000    | 1927 | 575,472,000   | 1932 | 952,144,000    |
| 1923 | 90,793,000    | 1928 | 838,722,000   | 1933 | 944,374,000    |
| 1924 | 200,315,000   | 1929 | 513,551,000   | 1934 | *1,001,500,000 |
| 1925 | 500 533 000   | 1930 | 863.541.000   |      |                |

<sup>\*</sup> Up to Dec. 26.

#### Filing of Registration Statements Under Securities Act

On Dec. 17 the Securities and Exchange Commission announced the filing of nine additional registration statements under the Securities Act of 1933 during the period from Dec. 7 to Dec. 13, inclusive. The total involved was \$10,606,960, of which \$3,742.960 represented new issues. The securities are grouped as follows:

The list of registration statements (Nos. 1212-1220) was announced as follows on Dec. 17:

Garland Building Corp. (2-1212, Form D-1A) of Chicago, seeking to issue certificates of deposit for \$866,500 of first mortgage 6½% serial gold bonds in connection with a plan of readjustment.

Garland Building Corporation (2-1213, Form E-1) of Chicago, registering \$844,000 of first mortgage 6½% serial gold bonds in connection with a plan of readjustment which contemplates an extension of maturity dates and a modification of the provisions of the present issue without the issuance of new securities. new securities.

new securities.

Tampax Sales Corp. (2-1214, Form A-1) of Denver, seeking to issue 743 shares of 8% preferred stock at \$20 a share, 12,063 shares of class A common stock at \$10 a share and 247 shares of class B common stock at \$10 a share, less stock sold prior to the effective date of this statement under authority of Registration Statement 2-578, now in effect.

Oklahoma Carey Trust (2-1215, Form A-1) of Tulsa, seeking to issue 4,000 units of beneficial interest in ownership and income from certain Oklahoma chares with pade see with processes will be used to buy the

units of beneficial interest in ownership and income from certain Oklahoma oil and gas mining leases at \$100 each. Proceeds will be used to buy the leases. W. E. Brown of Tulsa is President.

Protective Committee for American Writing Paper Co., Inc., First Mortgage 6% Gold Bonds Due Jan. 1 1947 (2-1216, Form D-1), seeking to issue certificates of deposit for \$5,153,500 of the bonds having a market value on Dec. 3 of \$1,145,190. Edward A. McQuade, 22 East 40th Street, New York, City, is Secretary of the committee.

Pennsylvania Engineering Works (2-1217, Form A-1) of New Castle, Pa., seeking to issue \$500,000 of first mortgage 6% five-year bonds at \$95 per \$100 face value. The proceeds are to be used to liquidate current indebtedness, bank and trade notes and for working capital.

Pennsylvania Engineering Corp. (2-1218, Form A-1) of Pittsburgh, Pa., seeking to issue 100,000 shares of \$1 par stock under options attached to above bonds to convert the bonds at par value into stock at \$5 a share, and 5,000 shares of \$1 par stock under option attached to above bonds to buy

above bonds to convert the bonds at par value into stock at \$5 a share, and 5,000 shares of \$1 par stock under option attached to above bonds to buy one share of stock at \$2.50 a share for each \$100 par value of bonds.

Foresight Foundation, Inc. (2-1219, Form A-1) of Philadelphia, seeking to issue 20,000 units of stock fund contracts of \$100 face amount for investment in a limited list of securities. Initial sales price will be face amount plus 5%. After funds have been invested, the sales price will be liquidating value plus 5%, or \$5, whichever is greater.

Region Mines, Ltd. (2-1220, Form A-1) of Vancouver, B.C., seeking to issue 500,000 shares of \$1 par common stock at not above 30 cents a share for mining development, machinery and corporate expenses.

The Securities and Exchange Commission on Dec. 24

The Securities and Exchange Commission on Dec. 24 announced the filing of 17 additional registration statements under the Securities Act of 1933. The total involved is \$30,495,375, of which \$4,901,875 represented new issues. The securities involved are grouped as follows:

Commercial and industrial issues\_ Certificates of deposit and reorganizations ----25,311,900

The list of securities (announced Dec. 24) for which registration is pending covers the following (Nos. 589 and 1221-1236).

Blue Star Markets, Inc. (2-589, Form A-1, Refiling) of Phoenix, Ariz., seeking to issue 5,000 shares of \$10 par value common stock at \$10 a share for equipment and operating expenses of a chain of food markets.

Greenland Trust (2-1221, Form A-1), seeking to issue 25,000 units of beneficial interest in certain Oklahoma City Field oil and gas mining leases and interests at \$5.00 per unit. Alexander, McArthur & Co. of Kansas City, Mo., are principal underwriters.

La Luz Mining Corp. (2-1222, Form A-1) of Montreal, seeking to issue 100,000 shares of \$1 par class A stock at \$1.50 a share for mining plant and equipment.

equipment.

Bondholders' Protective Committee for Houston Medical Arts Building Co. Series "A" First Mortgage 5½% Bonds (2-1223, Form D-1), seeking to issue certificates of deposit for \$1,128,000 of the bonds. W. C. Collins of St.

Certificates of deposit for \$1,128,000 of the bonds. W. C. Collins of St. Louis is Chairman.

Caribbean Fisheries, Inc. (2-1224, Form A-1) of New York City, seeking to issue 62,500 shares of class A common stock at \$1.25 a share and 62,500 shares of class B common stock at \$1.25 to purchase equipment and provide working capital.

snares of class B common stock at \$1.25 to purchase equipment and provide working capital.

Unified Debenture Corp. (2-1225, Form D-1) of Newark, N. J., seeking to issue certificates of deposit for 11 mortgage company issues totaling \$11,-684,900 insured as to principal and interest by the Metropolitan Casualty Insurance Co. of New York as follows:

\$823,500 American Home Security Corp., coll trust gold bonds, series C. 225,300 Federal Home Mortgage Co., guar. 1st mtge. coll. gold bonds. 744,100 Fidelity Home Investment Co., guar. 1st mtge. coll gold bonds. 4,233,500 Home Mortgage Co., guar. 1st mtge. coll. gold bonds. 1,008,600 Illinois Standard Mortgage Co., guar. 1st mtge. coll. gold bonds. 287,900 Illinois Standard Mortgage Corp., guar. 1st mtge. coll. gold bonds. 471,000 Mortgage Assurance Corp., guar. 1st mtge. coll. gold bonds. 704,000 Southern Securities Corp., guar. 1st mtge. coll. gold bonds. 1,821,000 Union Mortgage Co., guar. 1st mtge. coll. gold bonds. 23,000 Union Mortgage Investment Co., guar. 1st mtge. coll. gold bonds. 1,343,000 Universal Mortgage Co., guar. 1st mtge. coll. gold bonds. The estimated market value of the issues as of Dec. 1 was \$4.440,262.

23,000 Union Mortgage Investment Co., guar. Ist mitge. coll. gold bds. 1,343,000 Universal Mortgage Co., guaranteed gold bonds.

The estimated market value of the issues as of Dec. 1 was \$4,440,262. Under the proposed plan of reorganization, depositing bondholders will be given for each \$1,000 bond, \$300 in cash and \$700 face amount of new 20-year unsecured debentures of the issuer bearing 2% for the first five years, 3% for the second five years, 4% for the third five years, and 5% for the last five years.

Interstate Debenture Corp (2-1226, D-1) of Newark, N. J., seeking to issue certificates of deposit for 15 mortgage bond issues of apartment houses and hotels totaling \$1,684,000 guaranteed by the Metropolitan Casualty Insurance Co. of N. Y., as follows:

\$194,000 Asheville-Blitmore Hotel Co. (Asheville-Blitmore Hotel, Asheville, N. C.)

78,000 J. F. Evans (Briarcliff Apartments, Atlanta, Ga.)

110,500 Campus Building Corp. (Campus Apartments, Chicago, Ill.)

233,000 Capitol Hotel Co., Inc. (Capitol Hotel, Amarillo, Tex.)

70,000 Leslie M. White (Church-White Building, Pocatello, Ida.).

45,500 A. W. Eaton (Sheridan Apartments, Denver, Colo.).

155,500 Passaic Arms, Inc. (Passaic Arms Apartments, Passaic, N. J.).

266,500 Carco Realty Co., Inc. (St. Albans Apartments, N. Y. City).

330,000 Shermave Realty Co., Inc. (Sherman Avenue Apartments, New York City).

197,000 Symel Realty Co., Inc. (1001-1011 University Ave., N. Y. City).

197,000 Symel Realty Co., Inc. (1021-1031 University Ave., N. Y. City).

158,500 Vestor Holding Corp. (Vestor Court Apartments, Jackson Heights, N. Y.).

The estimated market value of the issues as of Dec. 1 was \$1,107,320.

The estimated market value of the issues as of Dec. 1 was \$1,107,320. Under the proposed plan of reorganization, depositing bondholders will be given for each \$1,000 bond, \$300 in cash and \$700 face amount of new 20-year unsecured debentures of the issuer bearing 2% for the first five years, 3% for the second five years, 4% for the third five years, and 5% for the

year unsecured debentures of the issuer bearing 2% for the first five years, 3% for the second five years, 4% for the third five years, and 5% for the last five years.

Mitten Bank Securities Corp. (2-1228, Form E-1) of Philadelphia, Pa., seeking to register, as guarantor, \$1,220,400 (market value) guaranteed first mortgage 4% bonds to be issued in a reorganization. The reorganization involves a modification of the terms of the bonds. The bonds were an original issue of \$3,750,000 principal amount first mortgage 6% gold bonds, issued by Edward D. Cuthbert, of which \$3,051,000 are now outstanding. The guarantors propose to reduce the interest rate of the bonds from 6% to 4% and to extend the maturity dates falling between March 15 1934, and March 15 1939, to March 15 1940.

Bankers National Investing Corp. (2-1229, Form A-1) of Wilmington, Del., seeking to register 25,000 shares of preferred stock 60-cent dividend convertible series, to be offered at \$10 per share, and 25,000 shares of common stock, of which 225,000 shares are to be offered at \$4.625 per share, and 25,000 shares are reserved for the conversion privilege of the preferred stock at \$10 per share. The new funds are to be used for general investment purposes.

New England Capital Corp. (2-1230, Form A-1), of Cambridge, Mass., seeking to issue \$1,000,000 of 6% debentures at face value to be invested infpublic utility operating and holding companies. At present the issue is being offered to employees of the New England Gas & Electric Association and certain subsidiaries who are residents of Massachusetts without the use of the mails for solicitation or delivery. It is intended to offer the issue to other employees of the Associated Gas & Electric System. Employers are to contribute 33 1-3 cents for each dollar paid by subscribers. In addition, an issue of 500 shares of common stock was sold to Day & Co. of New York City at \$100 a share for account of the Utilities Employees Se-

curities C., Dover, Del. This makes total net proceeds to be raised of \$1,383,333.33. As of Oct. 1, the company's total investments costing \$242,136.50 were comprised solely of various debentures of the New England Gas & Electric Association.

Loomis-Sayles' Second Fund, Inc. (2-1231, Form A-1) of Boston, seeking to issue 100,000 shares of \$10 par common stock in a new general investment fund. Initial offering is to be made at \$25 a share.

Schotz Safety Razor Corp. (2-1232, Form A-1) of Detroit, Mich., seeking to issue 30,000 shares of \$1 par common stock at \$7.50 each, the proceeds to be used for general corporate purposes. D. B. Howe & Co., 32 Broadway, New York City, are principal underwriters.

Precious Metals, Inc. (2-1233, Form A-1) of Buffalo, seeking to issue 500,000 shares of \$1 par value common stock, 100,000 shares at \$1 each and each successive 100,000 shares at an increase of 25 cents a share up to \$2 a share for the last 100,000 shares at an increase of 25 cents a share up to \$2 a share for the last 100,000 shares. The proceeds are to be used for mine and mill development and working capital.

American Fidelity Corp., Ltd. (2-1234, Form G-1) of San Diego, Calif. seeking to issue oll and gas royalty interests in a one-eighth royalty interest in the "Harrell Davis Fish" lease in the Oklahoma City Field. The royalty owners are to receive payments from the Globe Oil & Refining Co. and the Phillips Petroleum Co.

Snowcrest, Inc. (2-1235, Form A-1) of Wilmington, Del., seeking to issue 40,000 shares of \$10 par value class A common stock at \$10 a share, the proceeds to be used to construct, equip and operate a hotel and apurtennances in California.

Protective Committee for First and Refunding Mortgage 6% Gold Bonds Series A, of Chicago, Aurora and Elain RR. Co. (2-1236, Form D-1) seeking

Protective Committee for First and Refunding Mortgage 6% Gold Bonds Series A, of Chicago, Aurora and Elgin RR. Co. (2-1236, Form D-1), seeking to issue certificates of deposit for \$4,850,000 of these bonds having a market value on Dec. 14 of \$266,750. John J. Slattery, 30 Pine Street, New York City, is Secretary.

In making public the above the Commission said:

These statements are now being examined by the Commission. In no case does the act of filing with the Commission give to any security its approval or indicate that the Commission has passed on the merits of the issue or that the registration statement itself is correct.

The last previous list of registration statements was given in our issue of Dec. 15, page 3729.

# G. Garcia Forms Committee for Protection of December Sugar Contracts on New York Coffee and Sugar Exchange

The formation of a Committee for the protection of December Sugar Contracts on the New York Coffee and Sugar Exchange was announced on Dec. 27 by Carlos G. Garcia, President of the Garcia Sugar Corporation. Mr. Garcia, Chairman of the Committee, and who is not a member of the Exchange, issued the following announcement on Dec. 27, regarding a meeting of the Committee scheduled for yesterday (Dec. 28):

Yesterday (Dec. 28):

The protective committee of holders of December, 1934, sugar contracts in the New York Coffee and Sugar Exchange will meet at 11 A. M., Friday, Dec. 28, at 99 Wall Street, twenty-third floor, to adopt all necessary measures to maintain rights under the contracts, engage counsel, formulate demand that the Exchange rules be observed and, if necessary, demand Agricultural Adjustment Administration or Congressional investigation of trading conditions on above mentioned Exchange. All persons having contract interest in the December position are invited to attend this meeting.

It was stated lsst night (Dec. 28) that as an outgrowth of the meeting the Committee instructed its Counsel to take the necessary steps to enforce the contracts. From the New York "Sun" of last night we quote:

New York "Sun" of last night we quote:
Counsel for the Committee of "longs" has filed a brief with the Chairman of the Adjudication Committee of the Exchange, and no statement will be issued until the Committee receives a reply.

The action of the Committee was generally acclaimed by the rank and file of "long" sugar interest who are not members of the Exchange.

The view was expressed that these "outsiders" were representative of the general public which has often gone "long" on sugar and who, having won for the first time in years against the shorts, are now unable to collect their profits.

It is understood that the matter may be aired before the AAA and Congress.

Referring to the action taken by the Exchange in the matter of the December contracts, the New York "Herald Tribune" of Dec. 22 noted that with trading in December, 1934, contracts in sugar suspended by order of the Board of Managers, William H. English, Jr., President of the New York Coffee and Sugar Exchange, appointed on Dec. 21 a committee of five, to be known as the committee for voluntary liquidation, to attempt to bring longs and shorts together in an amicable settlement in the sugar "squeeze" on that market.

In the same item it was stated:

The Sugar and Coffee Exchange apparently is seeking an amicable settlement on short interest, now estimated at 25,000 tons. If voluntary agreements are not made and settlements are forced under the exchange constitution, shorts unable to deliver are subject to a penalty of 25 points, 1/2 cent a pound, above the spot price on day of delivery. This spot price is set at 2 o'clock daily by the exchange.

#### Penalty Not Released

Another resolution of the managers decreed that the "rights of parties to contracts still open at 3 P. M. on Dec. 24 1934, as reported to the Board by the committee on voluntary liquidation, shall be reserved for determination in accordance with the by-laws and rules of the exchange, and that neither of the resolutions nor the action of said committee of voluntary resolutions shall predetermine the applicability of sugar trade rule 15 or the penalties therein provided for, or the applicability of other by-laws and rules of the exchange." Sugar rule 15 provides for the 25-point penalty. With the sugar market reported as totally stripped of Cuban sugar under the AAA restrictions until 1935, the only apparent solution to the impasse is financial settlement. All indications yesterday were that the Sugar and Coffee Exchange hoped for a friendly settlement, in view of the protests from shorts that the refiners agreement had "changed the rules of the game."

## Regulations of SEC Governing Application for Perma-nent Registration of Securities Under Securities Exchange Act of 1934—Form 10 for Corporations

As was noted in these columns Dec. 22, page 3879, the Securities and Exchange Commission issued on Dec. 20 the rules and form to be used by corporations for the permanent registration on stock exchanges of securities temporarily registered. This form (designated Form 10) is to be used by all corporations except the following classes of registrants and securities:

Carriers under jurisdiction of Inter-State Commerce Commission.
Companies under jurisdiction of Federal Communications Commission.
Certificates of deposit.
American certificates against foreign issues, either government or

Insurance companies. Banks and bank holding companies

Investment trusts, corporate or other.
Foreign corporate bonds.
Securities of corporations in process of reorganization pursuant to Section
77 or 77-B of the Bankruptcy Act.
Securities of corporations in bankruptcy or receivership.

It is stated that the requirements governing the above issuers and securities will be promulgated later.

The SEC announces as follows the general rules as to

1. Any application shall be deemed filed on the proper form unless objection to the form is made by the Commission prior to the becoming effective

1. Any application shall be deemed filed on the proper form unless objection to the form is made by the Commission prior to the becoming effective of the registration.

2. An original of the application, including exhibits, shall be filed with the exchange upon which registration is being sought. One duplicate original thereof, including exhibits, shall be filed with the Commission, and in addition two copies of the application proper and financial statements, but without exhibits. Reference is made to Rule JB-4 of the general rules and regulations of the Commission, permitting incorporation of exhibits by reference. If application is made for the registration of securities of the registrant on more than one exchange, the registrant may prepare one application covering all securities to be registered on any of the exchange and, in such case, shall file originals of such application with each exchange and a duplicate original and two copies, as above, of such application with the Commission. A registrant may, however, at its option prepare separate applications for each exchange upon which registration of any of its securities is being sought, and, in such case, shall file a duplicate original and two copies, as above, of each such application with the Commission.

3. Attention is called to Section 24(b) of the Act, which reads as follows.

"Section 24(b). Any person filing any such application, report, or document may make written objection to the public disclosure of information contained therein, stating the grounds for such objection, and the Commission is authorized to hear objections in any such case, where it deems it advisable. The Commission may, in such cases, make available to the public interest; and copies of information so made available may be furnished to any person at such reasonable charge and under such reasonable limitations as the Commission may prescribe."

Rule UB-2 of the general rules and regulations of the Commission further provides as follows:

able limitations as the Commission may prescribe."

Rule UB-2 of the general rules and regulations of the Commission further provides as follows:

"Objections to public disclosures of material filed with exchange and(or) Commission. (a) If any person filing an application, report, or document with the exchange and(or) the Commission under any provision of the Act wishes to object to the disclosure of the information contained therein, he shall file that portion of the application, report, or document which contains such information separately from the remainder and shall plainly mark it confidential, 'taking care that the other portions of the application, report, or document that is filed shall contain none of the information to the disclosure of which objection is made. He shall also, at the time of such filing, file with the Commission written objection to such disclosure which (1) shall identify that portion of the application, report, or document to the disclosure of which objection is made, (2) shall state the reasons why disclosure thereof is not in the public interest, and (3) may request a hearing on the question of disclosure.

"(b) Until and unless the Commission determines that such information shall be publicly disclosed, it will be kept confidential."

Any registrant which desires to avail itself of the foregoing provisions may enclose that part of its application, to public disclosure of which objection is made, in a separate envelope marked CONFIDENTIAL and addressed to Joseph P. Kennedy, Chairman, Securities and Exchange Commission, Washington, D. C.

4. All applications shall be typed or printed on good quality unglazed white paper 8½ inches by 13 inches in size. Tables and financial data, however, may be on larger paper if folded to such size. Typed or printed matter shall leave a margin of at least 1½ inches on the left. Applications shall be securely bound and on the left only. Riders may not be used. If the application is typed on a printed form, and the space provided in the form for an a

shall be continued. Such insert page shall bear the number of the item thus continued.

The registrant is not required to use the printed form; if it does not do so, however, it will be necessary to type or print a complete application, containing both the items in the form and the answers thereto.

5. Matters contained in the application proper or in the financial data may be incorporated by reference as answer or partial answer to any particular item in the application proper, provided the reference is specific and the matter incorporated is clearly designated in the reference. A reference to an exhibit will not suffice as an answer, subject, however, to the provisions of the next rule, and except as otherwise specifically provided.

to the provisions of the next rule, and except as otherwise specifically provided.

6. Where "brief" answers are required, brevity is essential. It is not intended, in such case, that a statement shall be made as to all of the provisions of any document, but only, in succinct and condensed form, as to the most important thereof. In addition, the answer may incorporate by reference particular items, sections or paragraphs of any exhibit, and may be qualified in its entirety by such reference.

7. All answers shall be so worded as to be intelligible without the necessity of referring to the instruction book.

8. The items require information only as to the registrant, unless the context clearly shows otherwise.

9. Information required must be given unless neither known nor available to the registrant without unreasonable effort or expense. In such case, however, an explicit statement to such effect shall be made.

10. All debits in credit categories and all credits in debit categories shall be set forth in such manner as to be clearly distinguishable both on the original and any photostat made thereof, such as by italics or asterisks. See Rule A-2 of general rules and regulations.

11. Except as specifically provided, if any item is inapplicable, or the answer is "none," a statement to such effect is to be made.

#### Definitions

Definitions

Unless the context clearly indicates the contrary, all terms used in these instructions and in the form have the same meaning as in the Securities Exchange Act of 1934 and in the general rules and regulations of the Commission thereunder. In addition, the following definitions apply, unless the context clearly indicates the contrary:

The term "registrant" means the issuer of the securities for which the application is filed.

The term "control" (including the terms "controlling," "controlled by" and "under common control with") as used herein, means the possession, directly or indirectly, of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting securities, by contract or otherwise. If in any instance the existence of control is open to reasonable doubt, the registrant may state the material facts pertinent to the possible existence of control, with a discialmer of any admission of the actual existence of effective control.

The term "affiliate" or "affiliated" refers to a person that directly, or indirectly through one or more intermediaries, controls or is controlled by, or is under common control with, the registrant.

The term "parent" refers to an affiliate controlling the registrant directly, or indirectly through one or more intermediaries.

The term "subsidiary" refers to an affiliate controlled by the registrant directly, or indirectly through one or more intermediaries.

The term "material," when used herein to qualify a requirement for the furnishing of information as to any subject, limits the information required to such matters as to which an average prudent investor ought reasonably to be informed.

The term "voting power" refers to the right, other than as affected by

to be informed.

The term "voting power" refers to the right, other than as affected by events of default, to vote or, by virtue of beneficial ownership of securities or otherwise, to direct votes, for the election of directors.

The term "funded debt" has reference only to indebtedness having a maturity, at the time of its creation of more than one year, independent of acceleration.

Whenever any fixed period of time in the past is indicated, such period shall be computed from the date of filling of the application.

whenever any fixed period of time in the past is indicated, such period shall be computed from the date of filing of the application.

Whenever words relating to the future are employed, the question relates solely to present intention.

The term "principal underwriter" means an underwriter in privity of contract with the issuer of the securities as to which he is underwriter.

The term "amount" used in regard to securities, means the principal amount if relating to evidence of indebtedness, the number of shares if relating to capital stock, and the number of units if relating to evidence of the securities.

amount it relating to evidence of indettedness, the number of snares it relating to capital stock, and the number of units if relating to any other kind of security.

Rule AT-2 of the general rules and regulations provides:

"Definition of officer. The term officer means a president, vice-president, treasurer, secretary, comptroller, and any other person who performs for an issuer, whether incorporated or unincorporated, functions corresponding to those performed by the foregoing officers."

When in any table required to be furnished the words "Title of Igene"

sponding to those performed by the foregoing officers."

When in any table required to be furnished the words "Title of Issue" are used, there shall be given:

(a) In the case of stock, the full designation of the class of stock, and, if not included therein, the rate of dividends, if fixed, and whether cumulative or non-cumulative;

(b) In the case of funded debt, the full designation of the issue, and, if not included therein, the rate of interest, and the date of maturity. If "Income" bonds, debentures or notes, the word "income" should be added to the designation. If due serially a brief indication should be given of the serial maturities, for example, "maturing serially from 1936 to 1940."

(c) In case of any other security, a similar designation.

Form 10 to which the above geomest rules apply, follow:

Form 10, to which the above general rules apply, follow: (Sample Form-Not for Filing)

Outstanding

17. If there is any class of securities of the registrant authorized, other than those called for by Items 13-A, 14, 15 and 16, set forth information concerning such securities similar to that required for the securities men-

#### DESCRIPTION OF SECURITIES

- 18. For each issue of Funded Debt set forth under Item 13-A which is to be registered hereunder:
- (a) Outline briefly the amortization, sinking fund, redemption and retirement provisions.
- (c) State whether secured by any lien, and briefly describe the property subjected to such lien.
- subjected to such lien.

  (d) If serial, give the plan of serial maturities.

  (e) If additional securities of the same issue may be issued under the respective indenture, state the amount thereof and outline briefly the conditions on which such issue can be made.

  (f) State the amount of other securities which may be issued, and, if issued, will as to security rank ahead of, or pari passu with, the issue described.
- (g) If substitution of any property securing the issue is permitted, outline briefly the principal provisions permitting such substitution, stating whether or not any notice is required in connection with any such substitution.
- (h) State the interest rate and interest dates if the obligation to pay Interest is made dependent upon earnings or other special conditions, outline briefly the provisions applicable thereto.
- line briefly the provisions applicable thereto.

  19. For each class of Stock set forth under Item 14, which is to be registered hereunder, or which, either as to dividends or on liquidation, ranks equal or prior to any stock to be registered hereunder:

  (a) Outline briefly: (i) dividend rights; (ii) limitations in any indentures or other agreements on the payment of dividends; (iii) voting rights; (iv) liquidation rights; (v) pre-emptive rights; (vi) subscription rights; (vii) conversion rights; (viii) redemption provisions applicable thereto, and (ix) liability to assessment.

  (b) Submit a schedule indicating for a period of three fiscal years: (i) the dividends paid per share; (ii) the methods of payment, i.e. whether in
- dividends paid per share; (ii) the methods of payment, i.e. whether in cash, stock or otherwise; (iii) if dividends were paid in stock, state the exact name of the account charged and the dollar amount per share at
- which such dividend stock was so charged.

  20. For each class of Securities of Other Issuers Guaranteed by the registrant, set forth under Item 15, outline briefly the contract of guarantee.

  21. For each class of securities of the registrant set forth under Item 17,
- 21. For each class of securities of the registrant set forth under Item 11, which is to be registered hereunder, furnish information similar to that required under Items 18 and 19.

  22. If any securities of the registrant which are to be registered hereunder are guaranteed, give the titles of the issues and state whether or not the guarantor has applied, or is applying, for permanent registration of any securities on any exchange upon which the registrant's securities which are guaranteed are to be registered hereunder.

#### RECENT SALES OF SECURITIES BY REGISTRANT

- 23. For all securities of the registrant sold by the registrant to any persons other than employees within three years, furnish the following information:
  - (a) Title of issue, including par or, if no par, stated value, if any, of stock.
  - (b) Amount sold.
- (c) Date of sale.
  (d) Aggregate net cash proceeds, or the nature and aggregate amount of any consideration other than cash, received by the registrant.
  (e) Names of principal underwriters, if any, indicating any such underwriters as are affiliates of the registrant.

#### MANAGEMENT AND CONTROL

24. Names and addresses of all directors and officers of the registrant. Indicate the office held.

Address 25. Give the information required below for all persons owning of record more than ten per cent of any class of equity security of the registrant.

As of:

| Name and | Title of | Amount | Percent of |  |  |  |  |  |
|----------|----------|--------|------------|--|--|--|--|--|
| Address  | Issue    | Owned  | the Class  |  |  |  |  |  |

- 26. Give the information required below in tabular form concerning the aggregate remuneration paid by the registrant and its subsidiaries, directly or indirectly, to the following persons in all of their capacities:
- (a) The name and aggregate remuneration of each director of the registrant.

- registrant.

  (b) The name and aggregate remuneration of each of the officers of the registrant receiving the three highest aggregate amounts of remuneration.

  (c) The aggregate remuneration of all other officers of the registrant, whatever the amount of the respective remuneration of each; indicate the number of such officers without naming them.

  (d) The aggregate remuneration of all employees of the registrant who, respectively, received remuneration from the registrant in excess of \$20,000 during the past fiscal year; indicate the number of such employees without naming them. naming them.

| Name<br>or Number<br>of Persons<br>Not Named | Capacities<br>in Which<br>Remuneration<br>Was Received | Aggregate Remuneration During Registrant's Past Fiscal Year |
|--|--|---|
|--|--|---|

27. Give the information required below in tabular form concerning the aggregate remuneration paid by the registrant, directly or indirectly, to any person, other than a director, officer or employee, whose aggregate remuneration from the registrant, in all capacities, exceeded \$20,000 during the past fiscal year.

| Name | Capacities in Which<br>Remuneration Was Re-<br>ceived from the Registrant | Aggregate Remuneration<br>During Registrant's<br>Past Fiscal Year |
|------|---|---|

28. The following information as to the registrant's securities owned of record or beneficially by each director and officer of the registrant, each underwriter named in answer to Item 23, and each security holder named in answer to Item 25.

|           | As of:    |                |        |
|-----------|-----------|----------------|--------|
| Name      | Position  | Securities (   | Dwned  |
| 14 (4//46 | T OSILION | Title of Issue | Amount |

- 29. General effect, briefly and concisely stated, of material bonus and profit-sharing arrangements now in effect; including the name of, and amount received by, each person who received as bonuses or shares in profits \$30,000, or more, from the registrant or its wholly-owned subsidiaries, during the past fiscal year.

  30. General effect briefly and concisely stated of all material management and general supervisory contracts now in effect providing for management of, or services to, the registrant or any of its subsidiaries.

  31. General effect briefly and concisely stated of all material advisory, construction and service contracts with affiliates now in effect providing for management of, or services to, the registrant or any of its subsidiaries.

32. Dates of, parties to, and general effect briefly and concisely stated of every material contract, except as provided by the Instructions, between the registrant and any director or officer of the registrant, any underwriter named in answer to Item 23, or any security holder named in answer to

#### OPTIONS

OPTIONS

33. As to any securities subject to options to purchase from the registrant;
(a) state the amount, with the title of the issue, called for by such options;
(b) state briefly the prices, expiration dates, and other material conditions on which such options may be exercised; (c) give the name and address of each person holding options from the registrant calling for more than five per cent of the total amount subject to option, and give the amount called for by the options of each such person; and (d) for each such class of options granted within three years state the consideration for the granting thereof. ing thereof.

#### SUPPLEMENTAL FINANCIAL INFORMATION

34. Furnish the information required below as to the respective captions on the registrant's balance sheet, the balance sheet of the registrant and its subsidiaries consolidated, and each individual or group balance sheet required to be furnished for unconsolidated subsidiaries:

required to be furnished for unconsolidated subsidiaries:

(a) If, since Jan. 1 1925, there have been any increases or decreases in Investments, in Property, Plant and Equipment, or in Intangible Assets, resulting from substantially revaluing such assets, state:

(i) In what year or years such revaluations were made.

(ii) The amounts of such write-ups or write-downs, and the accounts affected, including the contra entry or entries.

(iii) If in connection with such revaluations any adjustments were made in related reserve accounts, state the accounts and amounts, with explanations.

(b) If, since Jan. 1 1925, there have been restatements of Capital Stock,

(b) If, since Jan. 1 1925, there have been restatements of Capital Stock, state the amounts of such restatements, and the contra entries. If, since Jan. 1 1925, there has been an original issue of Capital Stock any part of the proceeds of which was credited to surplus, state such amount.
(c) If, since Jan. 1 1925, any substantial amount or amounts of Bond Discount and Expense, on issues still outstanding, have been written off earlier than as required under any periodic amortization plan, give the following information: (a) name and maturity date of issue; (b) date of such write-off; (c) amount written off; (d) to what account charged.
35. Give the names of any independent public or independent certified public accountants who have certified financial statements for the registrant since Jan. 1 1925.

since Jan. 1 1925.

#### FINANCIAL STATEMENTS

36. Submit financial statements in accordance with the Instructions and the Rules and Regulations of the Commission supplementary thereto.

#### EXHIBITS

The following exhibits shall be attached as a part of the application. The registrant may file such other exhibits as it may desire, marking them so as to indicate clearly the items to which they refer.

Exhibit "A"—A copy of the charter or the articles of incorporation of the registrant as amended, if amended and a copy of the existing by-laws or instruments corresponding thereto.

Exhibit "B"—Copies of all indentures and amendments thereof relating to the authorized funded debt of the registrant, set forth in answer to Item 13A.

Exhibit "C."—If the registrant has subsidiaries with funded debt set forth in answer to Item 13 B, an agreement by the registrant to furnish

forth in answer to Item 13 B, an agreement by the registrant to furnish, or cause to be furnished, to the Commission upon request copies of any indentures or amendments thereof relating to such funded debt of sub-

sidiaries. sidiaries. Exhibit "D"—Copies of any other constituent instruments defining rights of securities issued or guaranteed by the registrant and now outstanding, set forth in answer to Items 15, 16, 17 and 20.

Exhibit "E"—Copies (specimens, if available) of all securities registered

reunder.

Exhibit "F"—Copies of contracts described in answer to Items 29, 30,

31 and 32.

31 and 32. Exhibit "G"—Copies of any voting trust agreements with respect to any securities registered hereunder.

# Registration Not Required in Case of Securities Sold Over-the-Counter—SEC Says Corporations Not Listing Securities Need Not File Reports

The Securities and Exchange Commission issued the following statement on Dec. 22 designed to correct the mistaken impressions of a number of persons who had been led to believe that they were required to make reports under the Securities Exchange Act:

Where no securities of a corporation are listed or admitted to unlisted trading privileges on any national securities exchange, such a corporation is under no duty to file reports under Section 12 or 13 of the Securities Exchange Act, nor is such a corporation subject to the requirements of Section 14 as to the solicitation of proxies for the voting of its stock. Furthermore, Section 16 does not require reports from such a corporation or from its officers, directors or stockholders as to holdings of or transactions in its stock. Although Section 15 of the Act authorizes the Commission to require registration of securities sold on over-the-counter markets, no such requirements have as yet been promulgated.

In explaining the purpose of its statement, the SEC said:

An organization seeking to sell reference material on the Exchange Act distributed advertising literature dealing with the restrictions and requirements imposed by the Act. The advertisements reached a number of people who are not required to file reports, and led them to believe that the reporting provisions of the Act applied to them.

## SEC Amends Ruling Affecting Officers' Salaries— Companies Desiring to List New Issues Required to Give Additional Data

The Securities and Exchange Commission has amended the item in its Form A-1 for registration of new issues under the Securities Act regarding reports of the remuneration of officers, directors, &c., it was announced Dec. 24. As amended, the question now requires the name and total payment to those persons who received "any such remuneration from the issuer." The first paragraph of item 47 as now amended follows:

Give the information required below concerning the remuneration for services paid and to be paid by the issuer, its subsidiaries or its predecessors, directly or indirectly, to the following officials of the issuer and to other persons in all their capacities who receive any such remuneration from the

The first paragraph of item 47 as it stood following a previous amendment read:

Give the information required below concerning the remuneration paid and to be paid by the issuer, its subsidiaries or its precedessors, directly or indirectly, to the following officials of the issuer and to other persons in all of their capacities.

### Suspension of Trading in December 1934 Sugar Contracts by New York Coffee and Sugar Exchange—Further Resolution Suspends All Trading Dec. 20—Committee Named to Liquidate Open Sugar Contracts

The New York Coffee and Sugar Exchange on Dec. 20 adopted a resolution suspending all trading at the close of business that day in December 1934 sugar contracts. The Exchange had previously suspended trading in the December contracts on Dec. 15 except in the case of liquidation of contracts made prior to Dec. 15; reference to this was made in our issue of Dec. 22, page 3870. The resolution of Dec. 20, adopted by the Board of Managers, follows:

Whereas, an unusual situation in the December 1934 sugar position, arising through an exceptional contingency, has been found by this Board to exist and to be sucn a situation as is contemplated in Section 110 of the By-Laws,

Be it resolved, by an unanimous vote of this Board and by virtue of the power conferred on them by Section 110 of the By-Laws, that trading in December 1934 contracts in sugar, except as is hereinafter provided, shall be and hereby is suspended as of the close of trading on Dec. 20 1934, and that the President be requested to announce this action to the members from the rostrum and to cause such announcement to be made on the ticker and by mail to all members.

and by mail to all members.

Be it further resolved that a Committee for Voluntary Liquidation of not less than three be appointed by the President to facilitate the liquidation of open sugar contracts for delivery in December, 1934, and that such Committee for Voluntary Liquidation have power to require all members having open contracts for sugar for December, 1934, to appear before them and to disclose their position and indicate, at their option, whether they desire to deliver or receive sugar (as the case may be) or to have a settlement of their contracts; that the Committee have further power to suggest to such members a method of liquidating contracts by alloting deliveries of sugars available for delivery to those desiring to receive sugars, or to endeavor to arrange liquidation by a monetary settlement, and in the event of any private settlements being made, to require that such settlements be reported to the Committee for its information.

Resolved further that the rights of parties to contracts still open at 3 P. M.

Resolved further that the rights of parties to contracts still open at 3 P. M. on Dec. 24 1934, as reported to the Board by the Committee for Voluntary Liquidation, shall be reserved for determination in accordance with the By-Laws and Rules of the Exchange, and that neither these Resolutions nor the action of said Committee for Voluntary Liquidation shall predetermine the applicability of Sugar Trade Rule 15 or the penalties therein provided for, or the applicability of other By-Laws and Rules of the Exchange.

William H. English, Jr., President of the Exchange, on Dec. 21 appointed Walter Murphy, H. H. Pike, George Hintz, B. B. Peabody and Frank C. Russell as members of the Voluntary Liquidation Committee.

Following a 13-hour session on Dec. 26 of the Board of Managers of the Exchange, on the question of unliquidated contracts in December sugar, it was announced that the matter had been turned over to the Adjudication Committee of the Exchange for study and report. This action was taken, it was stated, because of the many technicalities involved and it is expected that the Committee, which has the power to summon and examine any Exchange member, will take several weeks to review the matter. The announcement by the Exchange added:

It was understood that the report of the Committee for Voluntary Liquidation to the Board of Managers revealed that several settlements had been effected at an unrevealed price.

It was announced that the protests of receivers of the 7,950 tons of sugar tendered for delivery on December contracts, would also be adjudicated. The protesting receivers claim that the deliveries are not valid due to the fact that the sugars tendered are in excess of the Cuban quota, which was announced filled on Dec. 18, and therefore cannot be withdrawn from store until after Jan. 1.

#### Reduction of Maximum Rate of Interest on Time an Savings Deposits—Amendments to Regulation Q of the Federal Reserve Board

In making available the text of the amendments to Regulation Q of the Federal Reserve Board limiting to 21/2% the rate of interest to be paid by member banks on time or savings deposits after Jan. 31, J. H. Case, Federal Reserve Agent, of the Federal Reserve Bank of New York in a notice to member banks in the New York Reserve District, dated Dec. 15, says:

The Federal Reserve Board has adopted, effective Feb. 1 1935, the amendments set forth below to its Regulation Q relating to payment of interest on deposits by member banks of the Federal Reserve System. Copies of Regulation Q of the Federal Reserve Board, series of 1933, were transmitted to member banks in this district with our Circular No. 1275, dated Sept. 1 1933.

Recycliction Q as so awended provides that no member bank shall pay

Regulation Q as so amended provides that no member bank shall pay Regulation Q as so amended provides that no member team shaft painterest, accruing after Jan. 31 1935, on any time deposit or savings deposit or any part thereof at a rate in excess of  $2\frac{1}{2}\%$  per annum, compounded quarterly, regardless of the basis upon which such interest may be computed, except as otherwise provided in the regulation; but makes exception as to rates of interest provided in contracts which were lawfully entered into in good faith prior to Dec. 18 1934 and in force on that date and which may not legally be terminated or modified by the bank at its option or without

not legally be terminated or mounted by the description of the States of the Iliability.

The Federal Reserve Board has requested me to advise member banks in this district which have branches located outside of the States of the United States and the District of Columbia that, in accordance with subsection (c) (5) of section III and subsection (c) (5) of section V of Regulation Q as amended, the Board will be glad to give consideration to requests for the prescribing of a higher maximum rate of interest which may be paid on time and savings deposits at such branches.

Copies of Regulation Q as amended by the amendments set forth on the following pages are being printed and will be available for distribution shortly. When available I shall transmit a copy of such amended regulation to each member bank in this district.

The following are the amendments:

AMENDMENTS TO REGULATION Q OF THE FEDERAL RESERVE BOARD RELATING TO PAYMENT OF INTEREST ON DEPOSITS

#### Effective Feb. 1 1935

Subsection(c) of section III, and footnote † of Regulation Q are amended to read as set forth below.

Section III. Interest on Time Deposits

Section III. Interest on Time Deposits

(c) Maximum Rate of Interest—1. No member bank shall pay interest accruing after Jan. 31 1935, on any time deposit or any part thereof at a rate in excess of 2½% per annum, compounded quarterly,†regardless of the basis upon which such interest may be computed, except as otherwise provided in this subsection.

2. A member bank may pay interest on time deposits in accordance with the terms of any certificate of deposit or other contract which was lawfully entered into in good faith prior to Dec. 18 1934, and in force on that date and which may not egally be terminated or modified by such bank at its option or without liability; but no such certificate of deposit or other ontract shall be renewed or extended unless it be modified to conform to the provisions of this regulation, and every member bank shall take such action as may be necessary, as soon as possible consistently with its contracts into conformity with the provisions of this regulation.

3. The rate of interest paid by a member bank upon a time deposit shall not in any case exceed (i) the maximum rate prescribed in paragraph 1 of this subsection, or (ii) the maximum rate authorized by law to be paid upon such deposits by State banks or trust companies organized under the laws of the State in which such member bank is located, whichever may be less.

4. A member bank may pay interest on a time deposit received during

4. A member bank may pay interest on a time deposit received during the first five days of any calendar month at the maximum rate prescribed in paragraph 1 of this subsection calculated from the first day of such calendar month until such deposit is withdrawn or ceases to constitute a time deposit under the provisions of this regulation, whichever shall first occur. be less

time deposit under the provisions of this regulation, which is payable only at an office of such bank located outside of the States of the United States and of the District of Columbia at a rate not exceeding the maximum rate prescribed in paragraph 1 of this subsection or such higher maximum rate as may be prescribed by the Federal Reserve Board from time to time for payment in the locality in which such office is located.

Subsection (c) of section V, and footnote †, of Regulation Q are amended to read as set forth below.

Section V. Interest on Savings Deposits

Section V. Interest on Savings Deposits

(c) Maximum Rate of Interest—1. No member bank shall pay interest, accruing after Jan. 31 1935, on any savings deposit or any part thereof at a rate in excess of 2½%per annum, compounded quarterly,† regardless of the basis upon which such interest may be computed, except as otherwise provided in this subsection.

2. A member bank may pay interest on savings deposits in accordance with the terms of any contract, which was lawfully entered into in good faith prior to Dec. 18 1934, and in force on that date and which may not legally be terminated or modified by such bank at its option or without liability; but no such contract shall be renewed or extended unless it be modified to conform to the provisions of this regulation, and every member bank shall take such action as shall be necessary, as soon as possible consistently with its contractual obligations, to bring all such contracts into conformity with the provisions of this regulation.

3. The rate of interest paid by a member bank upon a savings deposit shall not in any case exceed (i) the maximum rate prescribed in paragraph 1 of this subsection, or (ii) the maximum rate authorized by law to be paid upon such deposits by State banks or trust companies organized under the laws of the State in which such member bank is located, whichever may be less.

4. A member bank may pay interest on a savings deposit received during the first five days of any calendar month at the maximum rate prescribed in paragraph 1 of this subsection calculated from the first day of such calendar month until such deposit is withdrawn or ceases to constitute a savings deposit under the provisions of this regulation, whichever shall first occur.

5. A member bank may pay interest on a savings deposit which is payable only at an office of such bank located outside of the States of the United States and of the District of Columbia at a rate not exceeding the maximum rate prescribed in paragraph 1 of this subsection or such higher maximum rate as may be prescribed by the Federal Reserve Board from time to time for payment in the locality in which such office is located.

† This limitation is not to be interpreted as preventing the compounding of interest at other than quarterly intervals provided that the aggregate amount of such interest so compounded does not exceed the aggregate amount of interest at the rate above prescribed when compounded quarterly.

Reference to these amendments were made in the Reserve Board's announcement of a week ago incident to the reduction in interest rates, which appeared in our Dec. 22 issue, page 3882.

#### B. A. Takes Steps to Promote Co-operation by Bankers with FHA in Creating National Mortgage Associations

Under authorization of the American Bankers Association Administrative Committee, the executive officers of the Association have taken steps to promote co-operation by bankers generally with the Federal Housing Administration in making effective Titles II and III of the National Housing Act, setting up mutual mortgage insurance and creating national mortgage associations, it was announced on Dec. 23. In a letter addressed to members of the Association by President R. S. Hecht, urging them to become approved mortgagees under the Act, the opinion is expressed that these sections are "not only effective national recovery measures but will exert a beneficial economic effect in liquefying mortgages that now are or may become part of the investments of banks."

This action by the Association is in addition to its previous activity in co-operation with the FHA in regard to Title I, providing for the renovation and modernization of homes. Robert V. Fleming, First Vice-President of the Association, President of the Riggs National Bank, Washington, D. C., has been appointed by James A. Moffett, Federal Housing Administrator, as a member of the National Housing Advisory Council of 25, and designated on the Executive Committee of that body.

The letter which President Hecht addressed to members of the Association is as follows:

of the Association is as follows:

Your executive officers believe that, in addition to Title I of the National Housing Act, providing for renovation and modernization of homes, Title II, setting up mutual mortgage insurance, and Title III, creating national mortgage associations, are deserving of hearty support of banks generally. In our opinion they not only are effective national recovery measures, but will exert a beneficial economic effect in liquefying mortgages that now are or may become part of the investments of banks.

The lack of a mortgage market is one of the chief obstacles to home construction and thereby to the revival of the heavy goods and building activities. The FHA under Title III of the Act is authorized to provide for 100% insurance of the principal of mortgages on urban real estate upon which is situated a dwelling for not more than four families, such principal not to exceed \$16,000 in amount and not to exceed \$0% of the appraised value of the mortgaged property; also under Title III to provide for national mortgage associations to buy and sell first mortgages and to issue and sell debentures against insured mortgages.

In practice, mortgagees, whether original lenders or their successors or

In practice, mortgagees, whether original lenders or their successors or assigns, who are approved by the Housing Administrator, are entitled to insure their mortgage paper as above. Secondly, any mortgagee who later wants to turn his insured mortgages into cash should be able to find a market for them through the national mortgage associations which it is proposed to organize.

Through these arrangements, insured mortgages should become a desirable

investment for a part of the bank's funds and we believe that in this way we will help in promoting recovery by aiding strictly private enterprise to assume its normal functions which we believe is basic to the welfare of the Nation.

We urge, therefore, that each of our members consider the advisability of becoming an approved mortgagee in order to be in position if or when it is desirable, to avail itself of the insurance privileges as described, as well as to hold insured mortgages under pledge from correspondents, and we recommend the matter to your sympathetic consideration.

# J. Howard Ardrey of FHA to Address Annual Business Meeting of National Association of Real Estate Boards—Meeting to Be Held Jan. 21 to 25

J. Howard Ardrey of the Federal Housing Administration, Deputy Administrator for Title II, covering mutual mortgage insurance, will be a principal speaker at the annual business meeting of the National Association of Real Estate Boards, to be held in Houston, Tex., Jan. 21 to 25. The meeting will be to a high degree a meeting to determine policies and plans for the Association for the coming year. It is being planned as a business meeting, not as a program on general real estate topics.

Hugh Potter, Houston, as President of the Association, will have the chair at general sessions, and will open for discussion the current work of the Association. Walter F. Schmidt, Cincinanti, President-elect, as an important part of the general session program, will outline the work ahead for the Association for the coming year.

# Suits Against Stockholders of Central Republic Trust Co. of Chicago Brought by RFC—One Action Filed in New York

A civil suit to collect-approximately \$500,000 from 103 stockholders of the Central Republic Trust Co. of Chicago, formerly known as the Central Republic Bank & Trust Co., was filed on Dec. 22 in New York in the U.S. District Court by the Reconstruction Finance Corporation and the United States Government through Martin Conboy, United States

In reporting this, the New York "Herald Tri-Attorney. bune" of Dec. 23 added.

The suit is directed against stockholders in the Southern District of New York and grows out of two loans, which have come to be known as the "Dawes loans," made to the bank by the RFC the first on June 29 1932, of \$30,000,000 and the second Oct. 6 1932, of \$50,000,000. Both were payable Dec. 24 1932. The suit holds stockholders liable under the constitution of Illinois and the Illinois banking laws which stipulate liability to the amount of the stock.

Sued for \$100 on Each Share

Sued for \$100 on Each Share

Each stockholder is sued on the basis of \$100 for each share of stock owned by him. In addition to the notes, interest of \$600,959.68 is due on the \$30,000,000 note and \$2,754,169.32 on the \$50,000,000 loan. The loans were made after Charles G. Dawes, a stockholder in the bank, nad resigned in June 1932 as Chairman of the RFC.

On Nov. 19 1932, a month before the notes were due, the Central Republic Bank & Trust Co. changed its name. Payments on the loans were formally demanded Nov. 4 1933, but they were not forthcoming. The bank was capitalized at \$14,000,000 at the time of the reorganization with 140,000 shares at \$100. Similar civil suits already have been filed against stockholders in Connecticut and Illinois.

Last Nov. 21, the RFC contends, the Auditor of Public Accounts of Illinois took possession and control of the Central Republic Trust, determined that the bank be liquidated through receiversnip. William L. O'Connell, of Chicago, was appointed receiver. The action asks the court to appoint a receiver for any money collected from stockholders in the Southern District of New York.

The appointment of the receiver was noted in our issue of

The appointment of the receiver was noted in our issue of Nov. 24, page 3245.

A dispatch, Dec. 19, from New Haven to the Hartford "Courant" stated that 15 residents of Connecticut, as stockholders of the Central Republic Trust Co. of Chicago, are among the defendants in a suit brought by the United States and the RFC to recover \$60,476,438.25 allegedly due on two loans made by the RFC in 1932. The "Courant" adds that the connected Connecticut defendants, who are allegedly liable to the extent of their stock holdings, which are valued at \$100 a share, are named in a suit filed with the United States District Court at New Haven by United States Attorney Robert P. Butler and Assistant United States Attorney George H. Cohen, acting for the Government and by Harry Bergson of Boston, solicitor for the RFC.
The Boston "Herald" of Dec. 18 reported that the RFC

through United States Attorney Francis J. W. Ford and Assistant United States Attorney John A. Canavan filed on Dec. 17 a bill in equity against 20 Massachusetts stockholders of the Central Republic Trust Co. of Chicago, in receivership, to assess stock liability under the Illinois statute. The

"Herald" added:

The RFC alleges it lent the company \$80,000,000 in two loans and says \$7,722,268 is due on one loan and \$52,754,169 on the other, which originally was \$50,000,000.

## Stockholders of Closed Harriman National Bank & Trust Co. Required to Pay 100% Assessment—Payment of 18%.

Stockholders of the defunct Harriman National Bank & Trust Co. of New York City must pay a 100% assssment, according to a letter, Nov. 21, by Frederick V. Goess, receiver of the closed bank. The assessment, amounting to \$100 a share, was payable on Dec. 20. It amounts to \$2,000,000, equivalent to the stated capital of the bank when it was closed in March 1933. The letter from Mr. Goess contained a copy of a notice of assessment by the Comptroller of the Currency, stating that in order to pay the debts of the bank "it is necessary to enforce the individual liability of the stockholders," who are permitted to make the payments in four

You will please take notice that the Comptroller of the Currency has, on Nov. 13 1934, levied an assessment upon the shareholders of the Harriman National Bank & Trust Co. of the City of New York, New York, of the par value of each and every share, payable at the office of the receiver on or before Dec. 20 1934.

The receiver is, however, authorized by the Comptroller to grant an extension, without interest, to shareholders who pay 25% of the assessment on or before that date and who will give a written obligation, satisfactorily guaranteed, to pay 25% additional on or before Jan. 20 1935, 25% additional on or before Feb. 20 1935, and the remaining 25% on or before March 20 1935.

Deferred payments will bear interest after Dec. 20 at the legal rate in the State of New York, except that the interest may be abated in the case of any shareholder who pays one-fourth of his assessment on or before Dec. 20 1934, and who pays the remaining instalments on or before the dates at which they mature, under the terms of this extension.

The Comptroller of the Currency announced on Dec. 22 that shareholders of the bank had paid \$358,000 of the \$2,000,000 assessment. This includes 25% instalments and some 100% payments, and is equivalent to almost 18% of the total assessment. Mr. Goess said he was satisfied with the co-operation shown by stockholders.

The financial condition of the bank was described as

At the time of the closing of the bank there existed a deficiency estimated at about \$6,300,000 and which has since increased to about \$9,000,000. A part of this deficiency has been met by a special settlement of \$2,866,950 made by 10 banks, nine of them members of the New York Clearing House

Association and one the successor of a former Clearing House bank, in satisfaction of a suit brought by the Government against the Clearing House institution to enforce a pledge said to have been made by the Association to support the Harriman.

Association to support the Harriman.

Depositors and general creditors have received 50% of their approved claims out of funds made available through a Reconstruction Finance Corporation loan upon the assets of the closed bank. Those depositors who assented to the plan of settlement involving the 10 banks have received 16% additional.

An earlier reference to the affairs of the Harriman National Bank & Trust Co. appeared in these columns Oct. 20. page 2464.

#### Interest Rate Reduced from 3% to 2½% by Associated Mutual Savings Banks of Baltimore—Change Effective Jan. 1

James D. Garrett, President of the Associated Mutual Savings Banks of Baltimore, announced on Dec. 19 that the member banks of the association would reduce the rate of interest from 3% to 21/2%, effective Jan. 1. The members of the association are:

The Savings Bank of Baltimore. Eutaw Savings Bank. Provident Savings Bank. Central Savings Bank, Hopkins Place Savings Bank,

Metropolitan Savings Bank. St. James Savings Bank. Citizens Savings Bank. Broadway Savings Bank. City Savings Bank.

The Baltimore "Sun" of Dec. 20 had the following to say regarding the reduction:

regarding the reduction:

Interest to be paid next Jan. 1 will bear the rate of 3%, as the reduced rate does not become effective until the period beginning on that date. The new 2½% rate by the mutual banks had been expected and will be identical to the maximum rate paid since July 1 on savings deposits of Baltimore Clearing House banks. The mutual rate also will conform to the maximum specified for savings accounts of member banks of the Federal Reserve and Deposit Insurance Systems, effective Feb. 1.

The change by the local savings banks, however, was made independently, as the Federal ruling does not apply to these banks.

Commercial Banks of Cleveland Clearing House Association to Lower Interest on Savings Accounts Jan. 1 from  $2\frac{1}{2}\%$  to 2%

The rates paid on savings accounts will be lowered by the commercial banks of the Cleveland Clearing House Association from 21/2% to 2%, effective Jan. 1. The National City Bank of Cleveland, a member of the Association, has been paying the 2% rate since July.

# Railroad Credit Corporation to Pay Liquidating Dividend of \$735,993 on Dec. 31 E. G. Buckland, President of the Railroad Credit Cor-

poration, authorized the following statement on Dec. 24:

poration, authorized the following statement on Dec. 24:

The Railroad Credit Corporation announced to-day that it will make a liquidating distribution on Dec. 31 of \$735,993, or 1%, to participating carriers. Of this amount, \$354,932 will be in cash and \$381,061 in credits.

This will be the thirteenth liquidating distribution that has been made to participating carriers since liquidation began on June 1 1933 and will bring the total amount distributed to \$20,627,177. The authorized distributions aggregate 28% of the \$75,422,410 fund after deduction of the \$1,753,918 direct refunds in reimbursement of taxes paid on the revenues turned over to the pool. turned over to the pool.

### \$656,510 of Hoarded Gold Received During Week of Dec. 19—\$32,940 Coin and \$623,570 Certificates

The Federal Reserve banks and the Treasurer's office received \$656,510.44 of gold coin and gold certificates during the week of Dec. 19, it is shown in figures issued by the Treasury Department on Dec. 24. Total receipts since Dec. 28 1933, the date of the issuance of the order requiring all gold to be returned to the Treasury, and up to Dec. 19, amounted to \$111,438,860.76. Of the amount received during the week of Dec. 19, the figures show, \$32,940.44 was gold coin and \$623,570 gold certificates. The total

# Transfer of Silver to United States Under Nationaliza-tion Order—Receipts During Week of Dec. 21 Totaled 692,795 Fine Ounces

Silver in amount of 692,795 fine ounces was transferred to the United States during the week of Dec. 21 under the Executive Order of Aug. 9, nationalizing the metal. Receipts since the order was issued and up to Dec. 21 total 110,999,635 fine ounces, it was noted in a statement issued by the Treasury Department on Dec. 24. The order of Aug. 9 was given in our issue of Aug. 11, page 858. In the statement of the Treasury of Dec. 24 it is shown that the silver was received at the various mints and assay offices during the week of Dec. 21 as follows:

### Silver Purchased by Treasury in Amount of 797,206.31 Fine Ounces During Week of Dec. 21

During the week of Dec. 21, it is indicated in a statement issued by the Treasury Department on Dec. 24, silver amounting to 797,206.31 fine ounces was received by the various United States mints from purchases made by the Treasury in accordance with the President's proclamation of Dec. 21 1933. The proclamation, which was referred to in our issue of Dec. 23 1933, page 4441, authorized the Department to buy at least 24,421,410 fine ounces of silver annually. During the previous week of Dec. 14 the purchases amounted to 648,729.44 fine ounces. Of the amount purchased during the latest week, 247,779.47 fine ounces were received at the Philadelphia Mint, 460,518.84 fine ounces at the San Francisco Mint, and 88,908 fine ounces at The total weekly receipts since the the mint at Denver. issuance of the proclamation are as follows (we omit the fractional part of the ounce):

### Tenders of \$75,300,000 Accepted of \$229,299,000 Received to Offering of \$75,000,000 or Thereabouts of 182-Day Treasury Bills Dated Dec. 26 1934—Average Rate 0.12%

The bids received to the offering of \$75,000,000 or thereabouts of 182-day Treasury bills, dated Dec. 26 1934 and maturing June 26 1935, totaled \$229,299,000, Henry Morgenthau Jr., Secretary of the Treasury, announced Dec. 21. Of this amount \$75,300,000 was accepted. The tenders to the offerings were received, as noted in our issue of Dec. 22, page 3885. at the Federal Reserves banks and the branches thereof up to 2 p. m., Eastern standard time, Dec. 21. In his announcement of Dec. 21 Secretary Morgenthau stated:

The accepted bids ranged in price from 99.950, equivalent to a rate of about 0.10% per annum, to 99.937, equivalent to a rate of about 0.12% per annum, on a bank discount basis. The average price of Treasury bills to be issued is 99.942 and the average rate is about 0.12% per annum on a bank discount basis. bank discount basis.

The average rate of 0.12% compares with those at which recent issues of bills sold of 0.16% (bills dated Dec. 19), 0.20% (bills dated Dec. 12), 0.22% (bills dated Dec. 5), and 0.23% (bills dated Nov. 28).

### New Offerings of \$75,000,000 or Thereabouts of 182-Day Treasury Bills—To Be Dated Jan. 2 1935

Up to 2 p. m., Eastern standard time, yesterday (Dec. 28), tenders were received at the Federal Reserve banks and the branches thereof to a new offering of \$75,000,000 or thereabouts of 182-day Treasury bills. The bills bear date of Jan. 2 1935 and will mature on July 3 1935. On the maturity date the face amount will be payable without interest. An issue of similar securities in amount of \$75,167,000 matures on Jan. 2 and the bids to the new bills will be used to retire the

same. Secretary of the Treasury Morgenthau, in announcing the new offering on Dec. 25, said:

The bills will be sold on a discount basis to the highest bidders. They will be issued in bearer form only, and in amounts or denominations of \$1,000, \$10,000, \$100,000, \$500,000, and \$1,000,000 (maturity value). No tender for an amount less than \$1,000 will be considered. Each tender must be in multiples of \$1,000. The price offered must be expressed on the basis of 100, with not more than three decimal places, e. g., 99.125. Fractions must not be used.

Tenders will be accepted without cash deposit from incorporated banks and trust companies and from responsible and recognized dealers in investment securities. Tenders from others must be accompanied by a deposit of 10% of the face amount of Treasury bills applied for, unless the tenders

of 10% of the face amount of Treasury bills applied for, unless the tenders are accompanied by an express guaranty of payment by an incorporated bank or trust company.

Immediately after the closing hour for receipt of tenders on Dec. 28 1934, all tenders received at the Federal Reserve banks or branches thereof up to the closing hour will be opened and public announcement of the acceptable prices will follow as soon as possible thereafter, probably on the following morning. The Secretary of the Treasury expressly reserves the right to reject any or all tenders or parts of tenders, and to allot less than the amount applied for, and his action in any such respect shall be final. Those submitting tenders will be advised of the acceptance or rejection thereof. Payment at the price offered for Treasury bills allotted must be made at the Federal Reserve banks in cash or other immediately available funds on Jan. 2 1935.

Jan. 2 1935.

The Treasury bills will be exempt, as to principal and interest, and any gain from the sale or other disposition thereof will also be exempt, from all taxation, except estate and inheritance taxes. No loss from the sale or other disposition of the Treasury bills shall be allowed as a deduction, or otherwise recognized, for the purposes of any tax now or hereafter imposed by the United States or any of its possessions.

# United States Gold Clause Held Valid in Saar—Court Rules 1933 Law Does Not Apply to Loans Havas News Agency advices to the New York "Evening

Post" from Saarlouis, Saar Territory, Dec. 27, said:

The gold clause, contained in two American loans of \$3,000,000 each obtained in the United States by the municipality of Saarbruecken in 1925 and 1927, is valid despite the American law of April 19 1933, abolishing the gold standard, and must be faithfully carried out, the Superior Court ruled to-day in an appeal made by the municipality.

### Miss Edith Thomas, Accused of Hoarding Gold, Turns Over Metal to Government—Court Case Dropped, She Reiterates Her Belief She Was Right in Principle

Miss Edith M. Thomas of Denver, Colo., daughter of the late Senator Charles S. Thomas, has decided not to fight in the courts the Presidential gold-hoarding proclamation, and has surrendered to the Government \$3,000 in gold which she held, it was announced by officials on Dec. 4. As a result, representatives of the Department of Justice on Dec. 13 asked the Federal District Court in Denver to expunge the case of Miss Thomas from the records, and this request was granted. Miss Thomas later told newspaper men that although she had given up the legal battle, she still considered that she was right and that the Government has no such constitutional powers as that exercised. Miss Thomas was originally indicted Jan. 9 for failure to report gold hoardings to the Collector of Internal Revenue.

#### Return to Fixed Gold Standard Urged by Economists at Annual Meeting of American Economic Association

The return by the United States to a fixed gold standard was urged by 95 leading monetary economists gathered at Chicago on Dec. 27 for the annual meeting of the American Economic Association. Associated Press advices from Chicago Dec. 27 report that in answer to a questionnaire submitted by officers of the Economists' National Committee on Monetary Policy, the 95 members of the Committee gave the following replies:

94% held the Government immediately should declare whether it intends to return to the gold standard as important to economic recovery; 100% held imperative a speedy return to a fixed gold standard, 77% favored a gold bullion standard, 98% opposed any further purchases of silver, 97% believed there is a trend toward inflation by a "dangerous" expansion of bank credit and 88% believed it is unlikely that inflation will be controlled

The Associated Press further said:

The Committee opposed a managed currency, unanimously opposed frequent changes in the weight of gold units, and said that if there is to be currency management it should be in the hands of the Federal Reserve.

As to Government gold buying, the Committee believed it had little effect upon commodity prices, and 93% believed prices should be left to find their own level.

The President of the Committee making public the report was Ray B.

Westerfield, of Yale; Dr. Edwin W. Kemmerer of Princeton was Honorary Chairman, and Dr. Walter E. Spahr of New York University, was Secre-

#### President Roosevelt Calls for Spirit of Courage and Unity—Refers to Career of Andrew Jackson in Speech Preceding Illumination of Washington's Christmas Tree

A spirit of courage and unity will promote greater happiness and well-being in the United States, President Roosevelt declared on Dec. 24 in a speech marking the illumination of Washington's community Christmas tree in the park opposite the White House, where the statue of Andrew Jackson stands. The President's speech, which was broadcast, was devoted chiefly to the lessons to be learned from Andrew Jackson's life. The former Executive, he said, "will live forever as the embodiment of courage." His expression of the necessity for union, Mr. Roosevelt said, referred to a subject "which grows in importance with the years." The President's address follows in full:

Secretary Roper used an expression which I think was very appropriate, and I think I shall use it, also—"Friends of Christmas Everywhere."

This is the second year that I have joined with you on this happy occasion. Then, as now, with millions of others we celebrate the happy observance of Christmas.

observance of Christmas.

The year toward which we looked then with anticipation and hope has passed. We have seen fulfilled many things that a year ago were only hopes. Our human life thus goes on from anticipation and hope to fulfillment. This year again we are entitled to new hopes and new anticipations.

For all those who can hear but not see this gathering, let me explain that here before us in the park in front of the White House is the monument of a man who will live forever as the embodiment of courage—Andrew Jackson.

His was a long, long life in the public service, distinguished at all times

His was a long, long life in the public service, distinguished at all times by a chivalrous meeting of problems and difficulties that attended that service: a fast belief in people and a profound love for them.

His patriotism was unstained and unafraid. Carved into that monument is his expression of the necessity for union. That message grows in importance with the years.

In these days it means to me a union not only of the States but a union of the hearts and minds of the people in all the States and their many interests and purposes, devoted with unity to the human welfare of our country.

Just across the street is the house he occupied 100 years ago, the house the people of the country have built for their Presidents. From its windows I see this monument to this man of courage. It is an inspiration to me

And so let us make the spirit of the Christmas of 1934 that of courage and unity. It is the way to greater happiness and well-being. That is, I believe, an important part of what the Maker of Christmas would have it mean.

In this sense, the Scriptures admonish us to be strong and of good cour-

age, to fear not; to dwell together in unity.

I wish you one and all, here and everywhere, a very, very merry Christmas.

# President Roosevelt Reported Ready to Ask Additional Funds for Senate Munitions Investigation—Sena-tor Nye Confers with Executive at White House— Preliminary Report on Inquiry Likely Next Week

President Roosevelt will recommend to Congress that it appropriate whatever additional funds are necessary to complete the Senate investigation of the munitions industry, according to newspaper reports from Washington, Dec. 26. Senator Nye, Chairman of the investigating committee, made this announcement after he had conferred with the President at the White House. He said the inquiry would be resumed in January and that hearings might continue until spring. investigating committee is expected to file a preliminary report with the Senate next week, at the time that it seeks additional funds, which will probably amount to at least \$50,000. A Washington dispatch of Dec. 26 to the New York "Herald Tribune" discussed the proposed activities of the investigating committee, as a result of the conference between the President and Senator Nye, as

As a result of to-day's conference an additional appropriation of from \$50,000 to \$100,000 is expected to be granted to the Committee by Congress. With the President assuring Senator Nye of co-operation, the Democratic leaders in the Senate will not oppose the grant of more funds which Senator Nye and his Committee want. Once this appropriation is made, the Committee want is plans for a sweeping investigation into the relations of finance—especially international banking, steel and shipbuilding, as well as other interests—to the munitions business and shipment of war materials. of war materials.

One assurance received by Senator Nye from the President was that Administration bills to take the profits out of war would not be pressed by the White House until the Committee was willing to have such legislation considered. The Senator said he believed there would be no essential conflict between the Committee and the Administration over such legislation. He did not claim Administration support for a government monopoly of munitions manufacture, however.

As to the War Department's plan for a 6% profit to industry in war.

nopoly of munitions manufacture, however.

As to the War Department's plan for a 6% profit to industry in wartime, Senator Nye expects this to fall through and does not expect the Administration to back it. Up to to-day there had been controversy between the Administration and the Nye Committee over the munitions inquiry and the issue of taking the profits out of war. The President recently announced the selection of a group headed by Bernard M. Baruch and General Hugh S. Johnson to draft legislation on the subject. This action was resented by Senator Nye and some of those on his Committee, on the theory that it was a move to cut short the investigation.

To-day's conference is looked on as having cleared the air and as indicating that the Nye Committee and the Administration no longer will work at cross-purposes.

work at cross-purposes.

# Treasury Department Clarifies Policy with Regard to Imposing High Taxes on Companies Which Fail to Distribute Earnings for Purpose of Tax Evasion

The Treasury on Dec. 17 issued a statement clarifying its attitude regarding the application of Section 102 of the Revenue Act of 1934 and Section 104 of the Revenue Act of 1932 to business corporations, other than investment or holding companies, or personal holding corporations. The

two sections mentioned deal with corporations "improperly accumulating surpluses." and specify a high rate of tax whenever it is found that the corporation is "formed or availed of for the purpose of preventing the imposition of the surtax upon its shareholders or the shareholders of any other corporation, through the medium of permitting gains and profits to accumulate instead of being divided or dis-tributed." The statement of Treasury policy, as made by Robert H. Jackson, Assistant General Counsel of the Bureau of Internal Revenue, is given below:

Few executives will have trouble to know whether their situation indiates that withholding distribution of earnings is for business reasons or for tax reasons.

Executives are also inquiring what the Treasury will regard as "reasonable needs of the business" in measuring corporate surplus. Congress did not lay down in advance a definite rule applicable to all cases, and the Bureau of Internal Revenue is unable to do so. No corporation, however, will be assessed this tax until it is advised of the Bureau's intention and after a hearing of its case, at which time the Bureau will take into consideration every fact and prospect that a prudent business man would consider in determining what surplus was reasonably needed for that enterprise. Among other things, the Bureau will consider the hazards of that business, its normal rate of expansion, any contingencies against which reserves ought to be set up, any unemployment insurance or employee benefits that require reserves, whether the surplus is actively used in the which reserves ought to be set up, any unemployment insurance or employee benefits that require reserves, whether the surplus is actively used in the business of the corporation or is invested in lines of business foreign to its own, together with any other facts which the particular corporation desires the Bureau to consider. With the assurance that, while the Bureau intends to apply the Acts just as they were written, it has no purpose by interpretation to extend them beyond the intent of Congress, we believe that few executives will have difficulty in determining whether their surplus is a reasonable business surplus or whether it is withheld from stockholders for other reasons

surplus is a reasonable business surplus or whether it is withheld from stockholders for other reasons.

This tax is one upon corporations improperly accumulating surpluses, beyond the reasonable needs of the business, for the purpose of preventing surtax upon stockholders and will be strictly and impartially enforced against the corporations to which it is obviously intended to apply.

#### Federal Income Tax-Filing of Ownership Certificates

The following notice to owners of corporate bonds, regarding the filing of ownership certificates, has been issued by the New York Trust Co .:

We wish to direct your attention to the new requirements of the United States Treasury Department for filing ownership certificates on collection of bond interest.

of bond interest.

After Jan. 1 1935, ownership certificates (Form 1000) will be required with all interest coupons from obligations issued by a domestic corporation, a resident foreign corporation or a non-resident foreign corporation having a fiscal or paying agent in the United States, whether or not they contain a tax-free covenant and regardless of the amount of coupons or the net income of the owner.

Form 1001 is required of non-resident aliens, foreign corporations and

As heretofore, no certificates need be filed when the owner of the obli-

gation is a domestic corporation or resident foreign corporation.

Further information on this subject may be obtained, if desired, through

any of our officers.

Clients whose securities are lodged for safekeeping with our Custody Administration Department may disregard this notice, since attention to such details is a part of our service.

# State Income Tax Rates Considerably Higher in Past Two Years Along With Increases in Federal Taxes— Survey by James W. Martin, Research Director of Inter-State Commission on Conflicting Taxes.

State income tax rates have been raised considerably in the past two years, despite the increases in Federal personal and corporation income taxes, according to a survey made by James W. Mactin, Research Director of the Inter-State Commission on Conflicting Taxation. The report appears in the December issue of "The Tax Magazine." released Dec. 20.

Income tax rates have increased in three ways, the study shows:

The maximum rates have been raised.
 The exemptions have been lowered, so that the tax now frequently applies to incomes of lower-middle-class citizens.
 In many States the graduation has been made steeper.

It is pointed out that while in some cases corporation taxes have been increased by the same methods, more frequently corporate income has been subjected to a flat rate which has gradually been raised in States already having this tax. This rate on the whole has been higher in the new corporation tax statutes than in those enacted some years ago. Of the 30 income-taxing States, New York collected the most money for the fiscal year ending June 30 1934, according to Mr. Martin's findings. Regarding these findings, it is also stated:

In this State, revenue from the personal income tax and the franchise tax amounted to more than \$70,000,000. New Mexico, which derived the lowest aggregate yield, received less than \$85,000.

tax amounted to more than \$70,000,000. New Mexico, which derived the lowest aggregate yield, received less than \$85,000.

In terms of the average revenue per person, also, New York enjoyed the maximum yield, with \$5.60 per capita. Arkansas got only \$0.11 per capita for corporation and personal taxes combined.

From the revenue point of view, Mr. Martin finds, income taxation is much more feasible in States with high per capita wealth, such as most of the northeastern States, than it is in States which have comparatively low per capita wealth, such as most of those in the South and West.

The per capita yield of personal income taxes in Delaware, for example, is seven times as great as in Virginia, though the rate is approximately

The per capita yield in New York was about 73 times that of 20% lower. Arkansas in the fiscal year ending June 30 1934, although the rates in New York are only a trifle higher.

The extreme differences in yield are much greater in the case of income

taxes than in gasoline, to bacco, and other selective excises. It is, Mr. Martin comments, somewhat greater than in the case of general sales taxes. A tabulation of direct administrative costs shows that on the average the States pay out  $2 \frac{1}{2}$  to  $3 \frac{1}{2} \frac{1}{2}$  of the revenue to administer the personal income tax.

For corporation taxes the typical administrative cost is 1½ to 2%. The administrative costs are much lower than this among the States in which income taxation constitutes a significant part of the tax plan and has been

income taxation constitutes a significant part of the tax plan and has been effective long enough to be well under way.

Tax exemptions and credits for dependents provided in Acts of the last four years are lower, on an average, than they were before 1930. The lowest exemption is found in Iowa, where the head of a family with three dependents must pay the State \$12 tax on a \$2,000 income.

Some recent tax laws provide exemption in terms of tax, rather than in terms of income, so that the "relief" for the large taxpayer is no greater than that for the small taxpayer. Wisconsin, Arizona and Iowa follow this procedure. procedure.

#### Treasury Department Rules Holders of Mortgage Title Certificates Are Released from Additional Taxes When Title is Extended—New York Supreme Court Upholds Investment of Trust Funds in Participation Certificates Based on Group Mortgages

George S. Van Schaick, New York State Superintendent of Insurance, announced Dec. 22 that the Treasury Department has issued a ruling releasing guaranteed mortgage certificate holders from additional stamp tax payments when mortgages underlying their certificates are extended through reorganization under the State Schackno Act. This ruling will affect all title and mortgage companies in rehabilitation and is expected to result in a considerable saving for certif cate holders.

The legality of investment of trust funds in participation certificates based on group mortgages was upheld Dec. 20 in a decision handed down by Justice Alfred Frankenthaler of the New York Supreme Court. The decision will affect many trust funds administered by banks and individual trustees who have invested large amounts in guaranteed mortgage certificates based upon groups of mortgages, but does not apply to mortgage certificates based upon shares in a single mortgage, the legality of which has not been questioned. Justice Frankenthaler's decision was described in part as follows in the New York "Times" of Dec. 21:

Justice Frankenthaler admitted "serious doubt" as to the legality of trust investments in group mortgage certificates, but he said he was loath to hold that such certificates were not legal investments for trust funds.

#### Matter for the Legislature

'The wisdom of authorizing the investment of trust funds in such par-

"The wisdom of authorizing the investment of trust funds in such participation certificates is, however, a matter for the Legislature and not for the Court," he concluded.

The decision was in the case of the application of Harry J. Leffert, committee of the estate of Georgina Nix, an incompetent living in Ireland, for approval of his account before forwarding sums on hand to the incompetent. As the estate included a \$1,000 certificate in the F-1 issue of the New York Title & Mortgage Co., the question arose as to whether Mr. Leffert should be held accountable for the difference between the certificate's \$1,000 par value and the present market value.

His doubts as to the legality of the investment, Justice Frankenthaler said, were based on the language of the statute, which authorizes investment in "shares or parts of . . . bonds and mortgages," but does not mention shares or parts of group bonds and mortgages, as well as upon a Court of Appeals decision holding that owners of group certificates had not become owners of the underlying mortgages.

had not become owners of the underlying mortgages.

#### Opinion by Attorney-General

But in 1928, the Court continued, the State Attorney-General rendered an opinion that the laws authorize investment of trust funds in "participa-

an opinion that the laws authorize investment of trust funds in "participation certificates in groups of mortgages."

Justice Frankenthaler cited also that "for many years such participation certificates have been generally regarded as legal investments for trust funds," and "the Legislature apparently acquiesced in this construction." The investment of enormous sums in these certificates by trustees and fiduciaries, and the attitude of the community at large, he held, "amount to a practical construction of this statute."

The Court pointed out, however, that "recent events have demonstrated the inadvisability of permitting fiduciaries to invest trust funds in participation certificates."

We also give the freest the New Yeals "Horeld Tribune" of

We also quote from the New York "Herald Tribune" of Dec. 23 regarding the Treasury Department decision on stamp tax payments.

The ruling by Guy T. Helvering, Commissioner of Internal Revenue, decrees no additional tax shall be paid if the certificate is endorsed with a legend showing the extension of the underlying bond and mortgage, unless there is an extension of the certificate itself. Mr. Helvering holds that the legend does not constitute an extension of the certificate. There is, of course, a stamp tax on the extension of the underlying mortgage.

The ruling reads:

The ruling reads:

"Where a corporation calls the participation certificates issued by it and stamps a legend thereon showing that the certificate has been modified and for extended by certain agreement which provides for the payment of interest at a different rate, it is held that such modification or alteration of the certificate does not constitute a re-issue within the comprehensive terms of the law imposing the stamp tax on 'all bonds, debentures or certificates of indebtedness' issued by any corporation.

"The participation certificates are separate obligations of the issuing corporation and subject to stamp tax as corporate securities. Therefore, where the certificates of participation do not have a fixed date of payment, neither the agreement to extend the maturity date of the bond described in the participation certificates nor the stamping of the legend on the certificate is regarded as a renewal of such certificates."

#### United States Supreme Court to Rule on Rail Pensions Government's Plea for Quick Decision on Constitutionality Granted

Early settlement of the dispute between the Government and the railroads over the constitutionality of the Railroad Retirement Law to pension retired employees was assured when the United States Supreme Court, Dec. 17, granted the plea of the Department of Justice for a review of the case. Unopposed by the railroads, the Government had asked the high court to grant a writ of certiorari, and this request was agreed to. The issues involve 1,000,000 railway workers and their families. Railway officials say that the law, if upheld, would cost the carriers \$60,000,000 annually in pensions.

in pensions.

The Government, through J. Crawford Biggs, Solicitor-General of the United States, on Dec. 7 filed in the United States Supreme Court a petition for a writ of certiorari asking the court to take from the Court of Appeals of the District of Columbia for review the case in which Chief Justice Wheat of the District of Columbia Supreme Court found the Railroad Retirement Act unconstitutional. The Government had appealed from the decision but the Court of Appeals has taken no action in the case, and the Solicitor-General took the position that a prompt determination of the constitutionality of the law "is of vital concern to many thousands of employees, who by its terms will be entitled to annuity payments on and after Feb. 1 1935, and to the families of such employees."

Early decision is also a matter of great importance to the present employees, he said, because the carriers are now withholding 2% of the wages of their employees in order to be able to satisfy the requirements of the Act should it finally be held constitutional, and it is in the public interest that it be promptly determined whether the wage deductions already made should continue to be withheld and whether future wage payments should be subject to like deductions.

be subject to like deductions

The questions presented by the appeal, according to the petition, are:

(1) Whether the Railroad Retirement Act is unconstitutional because it applies to all employees of carriers subject to the Act, including employees not directly engaged in inter-State transportation.

(2) Whether the Act is unconstitutional because it provides for the payment of retirement annuities computed, in part, by reference to time spent in railroad service prior to the enactment of the statute.

(3) Whether the provision of the Act, which includes among the employees subject thereto those who were in the service of the carriers within one year prior to the enactment of the Act, is unconstitutional.

Counsel for the railroads filed a reply memorandum saying they did not oppose the application of the petitioners for writ of certiorari and that "the issuance of the writ as prayed would result in the speedy and final determination of the important questions involved in this case." However, they point out certain inaccuracies in the petition.

It is said on page 5 of the petition:

The Supreme Court of the District of Columbia concluded that Congress has power to enact a statute "providing for the compulsory retirement at a certain age of employees of railroads engaged in inter-State commerce. together with provisions for the pensioning of employees so retired."

#### To this the railroads reply:

The trial court did not hold that. It held the statute before it unconstitutional for the reasons set out in the memorandum opinion and in its conclusions of law. It simply refused to go further and utter a dictum as to whether Congress might have power to enact some other compulsory

as to whether Congress might have power to enact some other compulsory retirement and pension statute, saying:

"I am not prepared to say that the enactment of a statute providing for the compulsory retirement at a certain age of employees of railroads engaged in inter-State commerce together with provisions for the pensioning of employees so retired is beyond the power of Congress under the inter-State commerce clause of the Constitution."

Although not opposing the petition for certiorari, the railroad counsel "assert that in their opinion the holding of the court below, that the Railroad Retirement Act is unconstitutional, was and is correct. And these respondents do not agree that the questions involved herein are so narrow as stated on page 2 of the petition. Broader grounds of unconstitutionality of the statute than those adopted by the trial court were advanced by the bill of complaint, were pressed upon the trial court and will, if the writ issues, be pressed upon this court. It is clear from the authorities that in such situation the broader grounds to sustain the decree below will be properly before this court."

#### Compilation as of Oct. 31 by States and Commodities of Rental and Benefit Payments, Processing and Related Taxes Collected, and Tax Refunds

Processing tax collections under the Agricultural Adjustment Act total \$550,081,419 as of Nov. 1 1934, Chester C. Davis, Administrator, announced Dec. 13. Benefit payments financed by taxes and paid to farmers to compensate them for co-operation in making adjustments in their production, Mr. Davis said, totaled \$421,697,389 the same date.

These figures were also contained in the monthly report of the Comptroller of the Administration issued Dec. 3, reference to which was made in our issue of Dec. 8, page 3583. Mr. Davis draws attention to the figures in making public on Dec. 13 an explanatory statement regarding processing taxes and benefit payments, and also tables compiled by the AAA showing total processing tax collections by States from date of levy up to and including Oct. 31 1934, receipts from the different types of taxes by commodities, a tabulation

by States of tax refunds up to Oct. 31, benefit payments by States, and a tabulation of the percentages of total National population and of National income represented by each State, as approximate indicators of the extent to which taxes are borne by the various States.

The following with reference to tax refunds, is from the Administration's explanatory statement of processing taxes:

Taxes on floor stocks are to be refunded at the time the tax is to be discontinued, at a rate equivalent to the processing tax collected on the commodity from which processed. Refunds are also made of taxes on products delivered to any organization exclusively for charitable distribution or use, including public relief distribution, and on exported products.

Several of the tables contained in the Adjustment Administration's compilation follow:

TABLE A—PROCESSING AND RELATED TAXES COLLECTED )GROSS) TO OCT. 31 1934 AS REPORTED BY THE BUREAU OF INTERNAL REVENUE, CLASSIFIED BY STATES AND COMMODITY

| State              | Total all<br>Commodities | Wheat       | Cotton      | Tobacco    | Field<br>Corn |

#### United States Court in Denver Forbids Town in Kansas to Use PWA Funds to Construct Municipal Light Plant

The Tenth U. S. Circuit Court of Appeals at Denver issued a temporary injunction on Dec. 27 forbidding the city of Independence, Kan., to construct a municipal light plant with Federal funds. Associated Press accounts from Denver reported:

Denver reported:

The Kansas Gas & Electric Co. filed a complaint in the Oklahoma Federal Court against the city, seeking to prevent the use of funds provided by the Public Works Administration.

The case was dismissed and the electric company then sought the temporary injunction in the Court of Appeals.

"The injunction shall be in force and effect pending the final determination of the appeal of the gas company from an order of the Oklahoma District Court dismissing the action," the Circuit Court order said.

It was understood here that Independence sought \$60,000 from the PWA to help finance the plant. The case is of interest in a number of cities throughout the country where efforts are being made to construct similar plants.

# Senator Lewis Warns United States Against Sub-Scribing to Naval-Limitation Treaty—In Radio Address Declares Such Pacts Can Only Bring Danger of War

The United States should not conclude any treaty with another nation which would limit its naval defenses, Senator J. Hamilton Lewis of Illinois said on Dec. 24 in a radio broadcast. Such a treaty, he declared, could only bring a danger of war to this country. The recent meetings held in London by representatives of the United States, Great Britain and Japan were described by Senator Lewis as the "London navy construction meet." He added that if the three countries do not contemplate war it is unnecessary for them to limit the size of navies. He then added, in part:

Why should America go into this form of threatening compact against the United States? Plain it must be that should we enter the deal, and it is disobeyed by any of its parties, the United States will be called on by the nations involved to lend ourselves to enforce the compact. This means war upon the United States by the nations we threaten to force to obedience, or war from the nation we refuse aid in the enforcement.

We are as an island, centered bewteen Aisia and Europe. We seek no place to colonize among either, nor do we ask possession of foreign territory or property. Our only war danger is one to be put on us, not one we would put on another.

place to colonize among either, nor do we ask possession of foreign territory or property. Our only war danger is one to be put on us, not one we would put on another.

If war is to be put on us, then it is, as intimated, from among the very nations we are fraternizing with. Is it possible that we shall join in providing a limitation on our own defense against the sasaults of those who are combining to limit our measure of protection against their attacks?

Let the United States keep out of volunteer entrance or adherence with any foreign nation in the processes of revenge satisfying ancient and inherited grievances. Let us hold for ourselves the now sustained superior station of the one nation at peace with the world, and with vengeance threatened against none.

threatened against none.

Guided by the Christmas spirit of our national text "friendship with all, alliance with none," we stand as a mediator in all service required, but with no contracts to assume obligations or give support by human lives in any international or foreign complication in which for our defnese we are in no

#### Representative Tinkham Charges Administration Is Taking Steps Leading to United States Member ship in League Against Will of People—Inter-national Labor Office Called Part of League Organization

The United States is being "enticed" into the League of Nations, despite the expressed opposition of its people, Representative Tinkham of Massachusetts said in a statement made public on Dec. 25. Acceptance of membership in the International Labor Office, he said, will soon be followed by entrance into the World Court, both of which steps will be preliminary to full membership in the League. The independence of the United States will this be destroyed, he continued, the will of the American people will be thwarted and the United States will be inevitably involved in the next European war. He asserted that the joint resolution authorizing the United States to participate

in the International Labor Office was passed by the last Congress in its closing hours, without hearings and without a quorum. We quote in part from his statement as given Washington dispatch of Dec. 25 to the New York "Times":

The assurance of Miss Frances Perkins, Secretary of Labor, given to Congress, that membership in the International Labor Office does not involve this country in membership in the League, was called misleading by Mr. Tinkham. He quoyed as follows in support of his contention that the International Labor Office is an integral part of the larger organization. "Article 392 of the Treaty of Versailles states: "The International Labor Office shall be established at the seat of the League of Nations as part of the organization of the League."

"The International Labor Office is one of the two parts of the International Labor Organization. The other part is the International Labor Conference.

Article 427 of the Treaty of Versailles refers to the International I

"Article 427 of the Treaty of Versailles refers to the International Labor Office as 'permanent machinery . . . associated with that of the League of Nations.'

"Article 393 of the Treaty of Versailles provides that 'any question as to which are the members of the chief industrial importance shall be decided by the Council of the League of Nations.'

"Article 397 explicitly states that membership in the League of Nations shall 'carry with it membership in' the Labor Organization.

"Article 399 provides that the expenses of the International Labor Office and of the International Labor Conferences shall be met' out of the general funds of the League,' and that 'the director shall be responsible to the Secretary-General of the League for the proper expenditure of all moneys paid to him in pursuance of the International Labor Conferences."

Assistance From League Provided

"Article 398 provides that the International Labor Office 'shall be entitled

"Article 398 provides that the International Labor Office 'shall be entitled to the assistance of the Secretary-General of the League of Nations in any matter in which it can be given."

"Article 405 of the Treaty of Versailles provides that it is for the Secretary-General of the League of Nations to communicate to the members of the (Labor) Organization certified copies of recommendations and draft conventions adopted by the International Labor Conferences; members are to inform the Secretary-General of the League of Nations of action taken on such recommendations and draft conventions, and their ratifications of draft conventions are to be communicated to him.

"Article 406 provides that a convention (of the Labor Organization) which is rarified is to be registered by the Secretary-General of the League of Nations.

of Nations.

of Nations.

"Under Article 412, upon application of the governing body of the International Labor Office, the Secretary-General of the League of Nations is to nominate members of commissions of inquiry to consider complaints as to

the execution of conventions ratified.

"Other provisions of the treaty bearing upon the International Labor Organization involve us with the Permanent Court of International Justice of the League of Nations.'

### War Department Opposes Nationalization of Munitions Plants—Statement Read to Senate Munitions Committee Declares Private Interests Should Continue Control Over Arms Factories—Huge Cost is Cited

The War Department is categorically opposed to Government nationalization of the munitions industry, it was revealed in a statement from the Department which was read before the Senate Munitions Committee on Dec. 21. Asserting that if the Government should attempt to nationalize the industry it would involve a huge financial expenditure, the statement said that private industry should continue to control the manufacture of arms and munitions in this The Department estimated that in order to nationalize the industry it would cost between \$500,000,000 and \$1,000,000,000, according to the size of the army to be equipped, not including approximately \$80,000,000 for upkeep, or other huge items such as aviation, tanks and gas defense.

Some of the principal extracts from the War Department statement are quoted below:

The War Department is convinced that in the event of war American industry must produce the major portion of the required munitions. Assuming this premise, it follows that so far as practicable industry should be prepared to perform its war mission. Therefore, the War Department has consistently favored the participation of American industry in munitions manufacture and has encouraged the production of munitions not only for the United States Government but also for export where such export is not contrary to the policies of the State Department and does not divulge vital military secrets of design. This policy has been followed because it is believed that an organization or an industry that has produced munitions in peace will be better qualified thereafter to produce munitions war.

is believed that an organization or an industry that has produced munitions in peace will be better qualified thereafter to produce munitions in war. The War Department does not oppose in any the licensing of American industry in the manufacture of munitions, as it does not believe that control by licensing will in any way impair the efficiency of American industry for munitions manufacture in war.

The War Department does not favor the nationalization of munitions manufacture—that is, the full manufacture in government establishments. Such a policy would fail in war, and therefore does not appear logical in peace.

peace.

The War Department's policy in this matter agrees completely with the British policy regarding the same matter, as set forth by Sir John Simon in a statement before the British Parliament, as follows:

"Our system for the supply of munitions of war to the government combines a nucleus of State production with production by armament firms and private shipyards. A nucleus of State factories is useful not only for the weapons that they themselves produce but as a check on the prices and qualities of those produced by private companies. The private armament firm has its skilled staff, its organization, its machinery—some of it extremely heavy and important. The armaments side of its business could not be maintained without foreign orders. If we are plunged into war, these armament firms and private shipyards are able to switch over rapidly from their level of peace production to their maximum of war production."...

#### Small Arms and Small Arms Ammunition

Between August 1914, and April 1917, the small arms industry in the United States built up a large manufacturing capacity under the stimulus of orders from the Allies. As a result, after this country entered the war, requirements in small arms and small arms ammunition were more satisfactorily met them in all arms and small arms ammunition were more satisfactorily met them.

requirements in small arms and small arms ammunition were more satisfactorily met than in almost any type of military supplies and equipment. Generally speaking, the same firms are in business to-day, but are not engaged to any considerable extent in the production of military items. As has already been pointed out, the United States Government is not purchasing any standard small arms ammunition at the present time, and only a few small arms such as the patented Browning machine guns and automatic rifles. Except for a limited export business, these firms are engaged mostly in the manufacture of such commercial items as sporting arms and ammunition, washing machines, refrigerators, cutlery, &c. In the event of war, manufacturing experience in the production of sporting types of arms and ammunition will be valuable.

#### Plans for the Mobilization of Industry

Under the mandate of Congress expressed in Section 5a of the Act approved June 4 1920, the War Department, in co-operation with the Navy Department, has striven to improve the state of industrial preparedness of the United States. Generally speaking, this effort has taken the form of detailed plans for war procurement and the mobilization of industry.

In order to prevent confusion and delay in placing orders and to acquaint industry with what it will be called upon to do in war, tentative tasks have been assigned to particular facilities. In selecting plants for allocation, every effort has been made to secure the maximum utilization of existing facilities and manufacturing experience. .

#### Government Control and Operation of the Munitions Industry

1. Government control.

It does not appear that Government control of the munitions industry would adversely affect the state of industrial preparedness of the country. For instance, the licensing of manufacture or export should not reduce productive capacity.

2. Government monopoly in peace.

2. Government monopoly in peace.

The construction and operation of factories for the manufacture of military aircraft would present a difficult problem. However, with a comparably small increase in existing plants, Government arsenals could produce all other munitions required in peace. Even with such increase, the Government plants would be able to meet only a small part of the initial war load. A policy of exclusive Government manufacture would tend to deprive the country of commercial sources of supply. The curtailing of orders with industrial plants will greatly increase the importance of procurement planning. ment planning.

If, for reasons of policy, a decision is reached to manufacture all peace-time requirements in Government plants, action along the following lines should be taken to offset to some extent the additional time that will be

required to secure production from industry:

(a) Increase the war reserves of items that do not deteriorate and are not likely to become obsolete.

not likely to become obsolete.

(b) Increase the manufacturing capacity of the arsenals, especially for the production of all types of ammunition. Moreover, all facilities should be kept in readiness to go into production. By utilizing regular personnel in key positions, such an increase can be accomplished in a reasonable space of time. Any new construction should be located with due regard to security from hostile attack, distribution of products to any part of the country, raw materials, power, fuel and labor. The expansion program for artillery ammunition should contemplate the utilizing of private industry for those operations that may be performed with standard machinery and little added training.

(c) Increase the present war procurement planning activities, especially with regard to the preparation of factory plans, descriptions of manufacture and the furnishing of technical information to allocated facilities. . .

#### Government Plant Cost

All told, the initial cost of a complete system of Government manufac-

All told, the initial cost of a complete system of Government manufacturing plants capable of equipping and supplying a force of 4,000,000 men would be not less than \$1,000,000,000.

To the initial cost must be added the cost of upkeep. Plants start to depreciate as soon as they are built. New machinery and machine tools are necessary by improvement in types of military equipment. It is believed safe to assume that the annual charge necessary to cover upkeep, depreciation and additions would be not less than 5%, or for a billion dollar plant, \$50,000,000. If to this be added 3% to ocver interest on the original investment, it is apparent that the sum of \$80,000,000 would be added to the annual cost of national defense.

5. Relative efficiency of Government and private plants.

In time of peace, Government arsenals can manufacture at slightly less

5. Relative efficiency of Government and private plants.
In time of peace, Government arsenals can manufacture at slightly less cost than commercial facilities. It has been estimated that this saving will average 11%. The difference is due in large part to the following factors:
(a) Arsenals make no allowance for profits.
(b) Overhead expenses are slightly lower in the arsenals and there are no selling costs.
(c) Depreciation charges are less in the arsenals because there is no question of future business. Sporadic Government orders necessitate private

(c) Depreciation charges are less in the arsenals because there is no question of future business. Sporadic Government orders necessitate private plants entering a relatively high depreciation charge against each order. It does not follow, however, that because arsenals now manufacture more cheaply than private plants they could do so if operated as a war monopoly. During years of peace, the enormous carrying charges on reserve facilities would more than double present costs, i.e., instead of costing 11% less, current supplies would cost from 90% to 100% more than if procured commercially. In war the necessity of building up new organizations from untrained personnel would tend materially to increase unit costs. It takes more time and costs more money to acquire these organizations than any other element of manufacture. It is doubtful, therefore, whether Government plants could show any operating advantage in war to offset the deficits that would have accumulated in peace.

#### War Profits

Present procurement plans should go far in preventing contractors making excessive profits. Government departments will not compete with each other in the purchase of supplies. Forms for war contracts are being developed by which it is expected contractors' profits will be limited to a reasonable amount.

reasonable amount.

Should any manufacturer refuse to accept a Government contract at a reasonable price, the law authorizes the placing of a compulsory order and in the event of further refusal, the commandeering of his plant or factory. Attempts of the War and Navy Departments to prevent profiteering will no doubt be supplemented by Government regulatory measures and excess profits taxes. However, any control measures that may be adopted should the set binding as to pregent reasonably remont pregulations and agreed. profits taxes. However, any control measures that may be adopted should not be so binding as to prevent reasonably prompt negotiations and agree-ment with industry to produce materials required, since any failure to procure munititions when needed may have to be paid for, not in dollars and cents but in the consequences of possible defeat.

It should be remembered that war profits are not limited to munition makers. The exorbitant demands for food, farm products, raw materials, labor, power and fuel and the withdrawal of a substantial part of industry from the ordinary channels of trade tend to cause a sharp rise in the general price level. Under any control measures that may be instituted by the Government to prevent excessive prices, munition makers will fare no better than any one else.

A very pertinent paragraph of the Foreword to the Industrial Mobilization plan is here quoted:

"The tendency to overemphasize administrative efficiency and underemphasize national effectiveness has been guarded against. The objective of any warring nation is victory, immediate and complete. It is conceivable that a war might be conducted with such great regard for individual justice and administrative efficiency as to make impossible those evils whose existence in past wars is well known. It is also conceivable that the outcome of a war so conducted might be defeat. In all plans for preparedness and policies to be pursued in event of war it must never be overlooked that while efficiency in war is desirable, effectiveness is mandatory."

# Large United States Investment in Tin Advocated as Preparedness Measure by Bernard M. Baruch, in Testimony Before House Committee

The United States should accumulate huge supplies of tin as a preparation against war with "everybody, even our best friend," Bernard M. Baruch, Chairman of President Roosevelt's War Profits Committee, said on Dec. 21 in testifying before the House Foreign Affairs Committee which is inquiring into the tin resources of the country. Mr. Baruch said that if this Nation wishes to prepare itself from a strategic position, it should invest in tin and keep it in storage. United Press advices of Dec. 21 from Washington quoted further from this testimony as follows:

Chairman Samuel McReynolds (Dem., Tenn.), asked him if it might not be advisable to accept tin in partial payment of war debts. "We should certainly be glad to get it in that manner," Mr. Baruch

replied.
Another witness was William A. Irvin, President, United States Steel Corp., which operates tin plants producing about 40% of domestic capacity. His company buys tin cheaper abroad, most of it from the Straits Settlements and London dealers.
"Roughly speaking, costs of labor in the United States are 40% higher than in the United Kingdom," Mr. Irvin said, "and for that reason we cannot compete with them in the tin plate industry."

# Senator Glass Questions Legality of Order Requiring State Banks in Federal Reserve System to Reduce Interest Rates—Also Criticizes Viner-Hardy Report

The legal justification of the joint announcement of the Federal Reserve Board and the Federal Deposit Insurance Corporation in calling upon non-member State banks along with member banks of the Federal Reserve System to reduce interest payment on savings and time deposits from 3% to 21/2% has been questioned by Senator Carter Glass. In a letter dated Dec. 18 (and made public Dec. 24) which Senator Glass has addressed to C. S. Hamlin, of the Federal Reserve Board, the Senator indicates that he had sought information from the Board as to the legal authority for either the Reserve Board or the FDIC to exact any such requirement from non-member State banks. According to Senator Glass, the General Counsel of the Board, Walter Wyatt, "unhesitatingly" stated that the Board had no such legal authority, and the Chairman of the Corporation admitted "that he could cite no legal authority for such action." "Only Congress," says Senator Glass, in his letter to Mr. Hamlin, "has authority to legislate on the subject involved, and Congress did not authorize any such action by the Insurance of Deposits Corporation in respect to non-member State banks." Reference to the action of the Federal Reserve Board and FDIC in requiring the lowering of interest rates to 21/2% appeared in our issue of Dec. 22, page 3882. On the same page we referred to the Viner-Hardy report on the availability of bank credit in the Chicago Reserve District, to which Senator Glass also directs criticism in his letter to Mr. Hamlin, without, however, specifically mentioning it by name in his criticisms. Among the recommendations made in the report was one proposing that the Federal Reserve banks be relieved of responsibility of making direct loans to industry. The report also contained recommendations regarding bank loans and the modification of rules for eligibility of rediscount at Federal Reserve banks. In his comments on the report, Mr. Glass says:

I note hastily in the papers to-day proposals from one or two of these supremely wise men to strike from a certain Federal statute, which has had but a few months' test, a provision which the President urgently asked to have incorporated; also a provision drawn by former Governor Black, of the Reserve Board, and by him earnestly pressed upon the Banking and Currency Committees of Congress, together with a provision which you and other members of the Federal Reserve Board thought to be a major contribution to the code of regional banking legislation.

Apparently they think resort now to the unwise banking practices which helped to bring on disaster would facilitate recovery from the evil consequences of such practices. There is scarcely a phase of banking touched by this report which has not repeatedly been traversed by the Banking and Currency Committees of Congress without the assembling of a costly staff of employees to furnish data and make suggestions.

The letter follows, in full:

The letter follows, in full:

Lynchburg, Va., Dec. 18 1934.

Hon. C. S. Hamlin, Federal Reserve Board, Washington, D. C.

My dear Mr. Hamlin: Adverting to my inquiry over the phone yesterday as to the legal justification of the joint announcement of the Federal Reserve Board and the Insurance of Deposits Corporation that non-member State banks, along with member banks of the Federal Reserve System, will be required to reduce to 2½% interest payment on savings and time deposits, I had not time to pursue the subject with you before leaving Washington. I infer that you referred the inquiry to your General Counsel, since I was called on the phone by Mr. Wyatt and given the provision of law authorizing the Federal Reserve Board to establish a maximum rate of interest to be paid by member banks on a certain line of deposits.

However, what I desired to be told was the legal authority for either the Federal Reserve Board of the Insurance of Deposits Corporation, or both in conjunction, to exact any such requirement from non-member State banks.

Lack of Authority Indicated

Lack of Authority Indicated

Your General Counsel unhesitatingly stated, of course, that the Federal Reserve Board had no such legal authority, and, off the record, as it were, said he had been unable to find any legal justification of any such action by the Insurance of Deposits Corporation. The Chairman of that Corporation frankly admitted to me that he could cite no legal authority for such action and confessed that the Corporation, in so resolving, "was skating on thin ice." The Comptroller of the Currency, another member of the Corporation Board, could refer me to no provision of the law authorizing any such action by the Corporation, and I conjecture he had no part in the performance. the performance.

the performance.

The Corporation's General Counsel disclaimed responsibility for advising such action by the Corporation and frankly said the action was "subject to serious question." In my view there can be no possible question of the illegality of the action, which plainly constitutes assumption of legislative authority, and I venture to think the Federal Reserve Board made a grave mistake in lending the force of its prestige to such illicit action by making itself the medium of the public announcement.

Mr. Crowley distinctly disclaims any responsibility for the announcement, and thus the Federal Reserve Board may be held to account for a proceeding which may keep out of the System hundreds of desirable State banks which will not relish having an untried Corporation assume unlawful authority over their business practices.

Only Congress Has Authority

Only Congress Has Authority

Only Congress has authority to legislate on the subject involved, and Congress distinctly did not authorize any such action by the Insurance of Deposits Corporation in respect to non-member State banks. On the contrary, the statute expressly defines the eligibility of non-member State banks for participation in the insurance privileges of the Corporation; and neither in text nor by implication does the statute authorize the Corporation to make different requirements.

in text nor by implication does the statute authorize the Corporation to make different requirements.

Should hundreds of State non-member banks refuse to readjust their interest rates on deposits in compliance with this illegal order of the Insurance of Deposits Corporation, how will the Corporation enforce its order? Will it thrust such banks from the insurance deposit privileges of the Act, notwithstanding they were brought into the System in the total absence of any such requirement as to eligibility as that now sought to be applied? to be applied? Only by a f

by a further usurpation of authority could the Corporation assume to do this.

Only by a further usurpation of authority could the Corporation assume to do this.

Over a period of years there has been discussion in the Banking and Currency Committees of Congress of the desirability of prohibiting payments by banks of interest on deposits. I confess to a moderate sympathy with that view, but no action has ever been taken by Congress beyond the authority delegated to the Federal Reserve Board to fix a maximum rate on certain deposits in member banks of the System. It may be desirable to enact legislation affecting State non-member banks; but that is a point for the determination of Congress after hearing these banks, and not for decision by the Insurance of Deposits Corporation.

Mr. Crowley thinks, and bluntly says, the existing statute is "a fool law"; but unless and until Mr. Crowley can convince Cangress that his appraisal of the statute is accurate I am inclined to think that the Insurance of Deposits Corporation should obey the law enacted by Congress and not assume to alter it. The suggestion that this arbitrary disregard of existing law is "in the interest of recovery" is, in my judgment, simply convenient imagination, amply proved so by repeated experiments in the fixing of discount rates.

fixing of discount rates.

Proposals of Professors

fixing of discount rates.

Proposals of Professors

We seem, my dear sir, to have reached a stage in public affairs where every little sub-professor brought to Washington, however destitute of practical business acument, is supposed to know more in a fortnight about banking and financial problems than the President of the United States, the seasoned officials of the Federal Reserve System and members of Congress, who for many years have been keen observers of banking practices and intimately identified with financial measures. I note hastily in the papers to-day proposals from one or two of these supremely wise men to strike from a certain Federal statute, which has had but a few months' test, a provision which the President urgently asked to have incorporated; also a provision drawn by former Governor Black, of the Reserve Board, and by him earnestly pressed upon the Banking and Currency Commibtees of Congress, together with a provision which you and other members of the Federal Reserve Board thought to be a major contribution to the code of regional banking legislation. Possessing the merit of reasonable precaution, I assume these provisions of law are comprehended in the sneer at banking "righteousness" contained in this remarkable report.

Apparently the embryonic solons responsible for the report are cheerful believers in the wanton use of bank trust funds, the very vice that so recently plunged the country into an era of bank wreckage unprecedented in the history of America. Apparently, they think resort now to the unwise banking practices which helped to bring on disaster would facilitate recovery from the evil consequences of such practices. There is scarcely a phase of banking touched by this repart which has not repeatedly been traversed by the Banking and Currency Committees of Congress without the assembling of a costly staff of employees to furnish data and make suggestions.

Speaking as Chairman of the Senate committee directly in charge of the

Speaking as Chairman of the Senate committee directly in charge of the legislation condemned without adequate trial, I think the sooner Wash Speaking as Chairman of the Senate committee directly in charge of the legislation condemned without adequate trial, I think the sooner Washington is rid of impatient academicians whose threatening manifestos and decrees keep business and banks alike in suspense, if not in consternation, the sooner and more certain will we have a complete restoration of confidence and resumption of business in every line of endeavor. Terram coelo miscent; or as Cicero has it: "Damnant quod non intelligunt."

Sincerely yours, CARTER GLASS.

In another item we refer to a statement by Governor Eccles of the Federal Reserve Board defending the action of the Board, and the reply made thereto by Senator Glass.

Action of Federal Reserve Board in Reducing Interest on Deposits by Member Banks Defended by Gov-ernor Eccles as in Accord with Banking Act—Order as to Non-Member Banks by FDIC Applied in Case of Insured Banks—Reply of Senator Glass

A statement with reference to the authority of the Federal Reserve Board in calling upon member banks to reduce the rate of interest on deposits from 3% to 21/2% was issued on Dec. 26 by Marriner S. Eccles, Governor of the Reserve Board. According to Mr. Eccles, the action of the Board was taken in accordance with the provision in the Banking Act of 1933 requiring the Board from time to time to limit the rate paid by member banks on time deposits. Mr. Eccles states that a misunderstanding has arisen in the matter of the lowering of rates in the case of non-member banks, the requirement in that case having emanated from the Federal Deposit Insurance Corporation, and having affected the time deposit rate of insured non-member banks. Mr. Eccles points out that separate action was taken by the Reserve Board and FDIC. The question as to the authority for the action was brought up by Senator Carter Glass, in a letter addressed to C. S. Hamlin of the Reserve Board, which we give elsewhere in this issue under another head. The reduction in the interest rate was noted in these columns Dec. 22, page 3882. Mr. Eccles's statement follows:

A misapprehension has arisen with respect to the scope of and the authority for the action recently taken by the Federal Reserve Board limiting, after Feb. 1 1935, the maximum rate of interest that may be paid on time and savings deposits by member banks to 2½%.

The misunderstanding appears to have arisen because the statement announcing the Board's action also carried with it a reference to the action taken by the FDIC reducing the time deposit rate for insured non-member

taken by the FDIC reducing the time deposit rate for insured non-member banks and trust companies to 2½%.

The Board's statement carried this reference because there was abundant reason for believing that both member banks and their depositors would be vitally concerned by the rates of interest which might be paid by competing non-member banks.

The action taken by the Federal Reserve Board in limiting the rate of interest that banks might pay on deposits was taken in accordance with the provision of the Banking Act of 1933 requiring the Federal Reserve Board from time to time to "limit by regulation the rate of interest which may be paid by member banks on time deposits."

Its recent action, like similar action taken on Aug. 29 1933, related only to member banks.

The Federal Reserve Board has never assumed that it had authority

Its recent action, like similar action taken on Aug. 29 1933, related only to member banks.

The Federal Reserve Board has never assumed that it had authority to regulate the rate of interest paid by non-member banks. It clearly has no authority to do so. Such jurisdiction as the Federal Government exercises over the non-member insured banks rests with the FDIC.

On Dec. 15 the Federal Reserve Board was advised that the board of directors of the FDIC had reduced the maximum time deposit rate for insured non-member banks and trust companies to 2½%.

The action of the Federal Reserve Board in reducing interest rates for member banks and the action of the FDIC in reducing the interest rates for insured non-member banks were taken separately, not jointly.

The recent action of the FDIC was similar in character to the action it took on Jan. 1 1934 when it issued a regulation limiting to 3% the maximum rate of interest which might be paid by any non-member banks whose deposits were insured by that Corporation.

In the summer of 1934, in view of the fact that the trend of interest rates had been steadily downward, the Board undertook a further review of interest rates in accordance with the duty imposed upon it by the Banking Act of 1933.

Before taking action the Board communicated with all the Federal Reserve banks in order to have the benefit of their views as to the advisability of a further reduction of the deposit rate. The replies received from the Reserve banks were almost unanimous to the effect that a reduction of deposit rates to 2½% would be in the public interest.

In view of these replies and its own independent analysis and study of the situation, the Federal Reserve Board determined that a further reduction of ½ of 1% in the rate which might be paid by member banks on time deposits would be advisable.

It is worth noting in this connection that the maximum rate on time deposits in Canada at the present time is 2%, and in England it is ½ of 1% in London and 1½% in the country.

Following the issuance of

Following the issuance of the above statement by Mr. Eccles, Senator Glass on Dec. 27, gave out at Richmond what he said he hoped to be his "last newspaper word" on the matter. The following is the reply of Senator Glass:

The headline statements that Governor Eccles has "answered the attack of Senator Glass" are utterly inaccurate. He has done nothing of the of Senator Glass" are utterly inaccurate. He has done nothing of the kind nor has anybody else.

I distinctly did not charge the Federal Reserve Board with any usurpation

I distinctly did not charge the Federal Reserve Board with any usurpation of power or with any illegal action whatsoever; hence the uselessness of the repeated assertion, if directed at me, that the Board did not exceed its authority in fixing maximum interest rates which member banks of the system may pay on time and savings deposits. I am entirely familiar with the statutory provisions authorizing the Board to take action from time to time; but not "requiring" it, as the Governor of the Board now states. I may say, parenthetically, that Congress did not intend the interest payments to be uniform throughout the country. There is no more reason why the interest rate for deposits should be uniform than there is for a uniform discount rate at all the Banks, which, of course, does not prevail, and against which there are many conclusive reasons. So much for what I did not charge and what, therefore, needs no repeated contradiction.

What I did charge was that the action of the Insurance of Deposits Corporation was without authority of law and that the Federal Reserve Board should not have made itself the official medium of publicly announcing the illicit action of another corporation in a way that produced the impression

that the Board sanctioned, if it did not advise, such irregular action. No-body has assumed to assert that the action complained of by me was legal, or to controvert a single fact contained in my letter.

#### Chairman Crowley of FDIC Defends Latter in Ordering Cut in Interest by Insured Banks—Senator Van-denberg Believes Corporation Has Power to Act

Leo T. Crowley, Chairman of the Federal Deposit Insurance Corporation, on Dec. 25 defended the FDIC order for reduced interest rates. In United Press advices from Washington, Dec. 25, Mr. Crowley was quoted as follows:

ington, Dec. 25, Mr. Crowley was quoted as follows:

"Senator Glass always has been very friendly and helpful to the FDIC, and with Representative Henry Steagall, Chairman of the House Banking and Currency Committee, an important factor in FDIC efforts," he stid.

Mr. Crowley pointed out the original rate reduction action was taken a year ago, before he was a member of the Board.

"At that time 3% was fixed by the FDIC and the Federal Reserve as the maximum rate of interest to be paid on time and savings deposits by State banks and trust companies in the fund," he said. "This time the FDIC and the Federal Reserve simply passed a similar resolution limiting it to 2½%. This action of the Board was unanimous."

Mr. Crowley explained, however, that the Corporation's counsel a year ago rendered an opinion holding that non-member banks might enjoy the same privileges as banks which are members of the FDIC. This same opinion is relied upon in the action extending limitation of interest payments by non-member institutions, he said.

"The Federal Reserve has the power to do this, and it was placing our banks at a disadvantage," Mr. Crowley said.

On Dec. 27 Senator Vandenberg (Republican) of Michigan

On Dec. 27 Senator Vandenberg (Republican) of Michigan joined in the controversy by declaring it vital that the FDIC have the power to require uniform interest rates on deposits. From Associated Press advices from Washington Dec. 27 we quote:

We quote:

Senator Vandenberg, one of the authors of the deposit insurance legislation, said to-day he believed with Leo T. Crowley, Insurance Corporation Chairman, that the organization had the power to order its members to pay uniform interest rates.

But, if the authority is lacking, Mr. Vandenberg said, the act "should be immediately and adequately amended by Congress next week" to prevent a repetition of "rash competition for deposits. . ."

The Insurance Corporation's cut affected all of its member banks whether in or out of the Reserve system.

"My own view is that the need and the authority may be distinctly related," said Vandenberg.

He quoted from the law authorizing the Corporation "to exercise all powers specifically granted . . and such incidental powers as shall be necessary to carry out the powers as granted," but added:

"The FDIC lawyers will have to speak for themselves respecting the legal phase."

He said uniform rates were "absolutely vital" to the integrity of the

legal phase."

He said uniform rates were "absolutely vital" to the integrity of the insurance system because if one bank paid more interest than another the "former will drain off the deposits of the other," and cause an "unwholesome war" for deposits and another banking calamity.

Mr. Crowley conferred to-day with Vandenberg and later said his agency's action was based on "implied authority" to prevent discrimination between reserve members and non-members.

#### Senator Dickinson Assails New Deal Program—Advo-cates Increased Production, Lower Government Government Expenditures and Cut in Interest Rates

The New Deal is not bringing about the predicted results, and therefore the Republican party should oppose the extension of the National Industrial Recovery Act, Senator Dickinson of Iowa declared in a radio speech on Dec. 22. Senator Dickinson, who was the temporary Chairman of the Republican National Convention in 1932, advocated increased production, lower interest rates, and the curtailment of Government expenditures so that taxation cou d be reduced. The present program, he said, encourages monopoly, depresses private initiative, and eliminates the small business man. The rich, he continued, "are becoming richer

and the poor poorer, and the relief rolls are increasing."

Further extracts from the Senator's speech are given below, as contained in Associated Press Washington advices

of Dec. 22:

of Dec. 22;

Most of the regulation under the New Deal has been for the benefit of big business. Big business is always able to take care of itself. The benefits received by individuals have been in meagre amounts, either by way of wages, rental benefits or for service."

The Senator contended Congress should again "assume its legislative authority" and that "government by Executive orders" should be terminated. "Government interference in every line of private business should cease," he continued. "Private initiative will not assert itself under threat of government codification or competition."

Urging a definite monetary policy, and conferences with other nations on such a policy for the future, he maintained "a reformed dollar is rarely a dependable dollar."

He advocated a program to balance the budget and a "sane system of taxation that will protect all interests and punish none." The Recovery Act was "without merit at its inception, proceeded on a basis of ballyhoo and has ended in a complete collapse."

### Many Administration Laws of Doubtful Constitu-tionality, John W. Davis Declares—Says in Radio Address that Much Legislation Will Soon Be Tested in Court

Much of the New Deal legislation is of doubtful constitutionality, John W. Davis, Democratic candidate for President in 1924, said in a radio address on Dec. 22, under the auspices of the American Bar Association. Citizens should

"defend their rights," Mr. Davis said, adding that this is the only way in which American freedom can be maintained. The Constitution does not grant the Federal Government, he added, any right to pass legislation covering the entire field of special betterment, nor was the Government ever intended to be "a universal parent or a universal providence." We quote further in part from his speech, as reported on Dec. 23 in the New York "Herald Tribune":

Dec. 23 in the New York "Herald Tribune":

Mr. Davis said he wondered that so few cases had so far presented themselves to the courts for settlement, but found some answer in the spirit of the American people. "We are quick, we Americans, in quiet times to resent any restraints upon our personal action or any invasion of what we believe to be our personal rights. But in the presence of a national danger or a common misfortune we have reserves of patience fortitude and hopefulness that have carried us over many a hard place in the past, and if they are not abused will do as much for us in the future," he said.

Mr. Davis said he had never taken any stock in the idea the American people are ripe for revolution. "I do not hold their courage, intelligence or patriotism so lightly as that," he said. "There will be no revolution in this country unless demagogues incite it. That we were ready and willing to try experiments in 1933 there is no doubt; and ready and willing also to give experiments a chance before condemning them."

The New Deal experiments, Mr. Davis predicted, will be measured by several yardsticks. The first is that the Federal Government is a government of limited and enumerated powers.

"Justice" Under Codes Assailed

#### "Justice" Under Codes Assailed

The second consideration is that not one of the three great branches of Government may usurp the functions of another. The third, he said, is the distinction between intra-State and inter-State commerce. The fourth, he observed, is to be found in the Bill of Rights, and provides that

fourth, he observed, is to be found in the Bill of Rights, and provides that no man may be deprived of rights or property without due process of law.

"When one and the same officer, board, bureau, code authority or commission," he said, "undertakes to write the law, indict the violator and to try then to sentence him, fundamental justice demands that he must be given an appeal to the courts."

Finally, he said, there is a rule that what Congress has no power to do directly, it should not attempt to do indirectly by means of the taxing power. He objected to attempts to silence critics of the Administration on the ground they are "destructive."

"What in truth can be more constructive," he asked, "than to bring to the bar of public opinion or the courts things in themselves destructive of American traditions, private right and public good? It will be a sad day for America when men hesitate to speak the faith that is in them, or fear to defend their rights."

# Business Outlook for First Three Months of 1935 Regarded as Encouraging by H. H. Heimann of National Association of Credit Men—Later De-velopments Depends on Congressional Activity

The business outlook is encouraging for the first three months of 1935 because of the current improvement in holiday trade and the consequent replenishment of stocks resulting from this increased activity, Henry H. Heimann, Executive Manager of the National Association of Credit Men, declares in his review of business sent to the Association's 20,000 members Dec. 22.

But it is difficult to appraise what may be in store beyond March, Mr. Heimann points out, since a great deal depends upon Congressional activity. He adds:

If Congress has what may be termed a more normal session, it will help to build a firm foundation for further continued recovery. On the other hand, radical and confiscatory legislation or wild spending programs will act as an immediate brake upon recovery. Despite some inevitable form of further inflation I believe these measures will be held to compromise programs and that Congress will not get out of bounds. . . .

#### Business Reassured

The recent trend of developments in Washington has been reassuring and to-day there is a feeling among business men that some of the serious troubles that seemed to characterize the situation some six months ago may never really confront us.

This more confident feeling is due more to analytical deductions from

certain Washington pronouncements than to any specific, direct action on the part of the Administration. The more frequent reference to fundamental recovery measures gives rise to a belief that tested and proven methods will be more fully employed in the future and this, in turn, has

caused business buoyancy.

Illustrative of the present Administration thought, which has proven so reassuring to business, is:

so reassuring to business, is:

1. The emphasis of certain men high in administration affairs of the need of re-employment through increasing production, as against emphasis heretofore by strong Administration leaders on artificial measures and direct Government stimulation through large public works programs.

2. The attitude of the Administration of allowing business to refinance expansion through normal channels as against the previous emphasis on the continued use of Federal funds.

3. The recent differences in the Administration leadership over the program of housing, certain influences being decidedly for private capital and initiative to develop a building program as against other influences for direct Government ventures.

\*\*Rack to Fundamentals\*\*

#### Back to Fundamentals

All of these differences of opinion and pronouncements are weathervanes indicating a turn in thought in the direction of time-proven fundamentals. To state the matter more succintly, while the Administration has not swung to the right, it is now discussing the value of a shift in that direction.

# Secretary of War Dern Advocates Change in Method of Collecting Panama Canal Tolls—Annual Report Urges Legislation Which Failed to Pass Last Congress—Reviews Year's Canal Record

The only basis for levying tolls on vessels passing through the Panama Canal should be the Canal rules on ship measurements, Secretary of War Dern said in that portion of his annual report made public on Dec. 21. Mr. Dern advocated the passage of legislation to make this principle effective, and pointed out that although in the last session of Congress such a bill was passed by the House, it failed of approval in the Senate before adjournment.

Passages from Mr. Dern's report, analyzing the recent

Passages from Mr. Dern's report, analyzing the recent record of Panama Canal operations, are given below:

Commercial traffic through the Panama Canal during the year ending June 30 1934 was considerably higher than in either of the two preceding years. Comparisons with the fiscal year 1933 show that in 1934 there were increases of 23% in number of transits, 25% in net tonnage of vessels, 36% in tons of cargo carried through the canal, and about 23% in tolls collected. The increase in traffic was reflected in almost all of the leading trade routes, an outstanding exception being that between Europe and the west coast of North America. The specific trade routes over which moved the greater part of the cargo shipped through the Canal during the fiscal year 1934, were, in order of quantity of cargo: Between the Atlantic and Pacific coasts of the United States (intercoastal); between the United States and the Far East, including the Philippines; between Europe and South America; between Europe and Canada; between Europe and the United States; between the east coast of the United States and the west coast of South America; between Europe and Australasia; between the United States and the Hawaiian Islands; and between the United States and the Hawaiian Islands; and between the United States and

Vessels of the United States carried 46.8% of all the cargo passing through the Canal. The remaining 53.2% was carried by foreign ships, those of Great Britain carrying 21%, Norway 8.4%, Japan 6.1%, and the balance

Great Britain carrying 21%, Norway 8.4%, Japan 6.1%, and the balance scattered.

Panama Canal revenues from tolls, postal, and miscellaneous receipts amounted to \$24,161,731, expenses \$7,351,383; net \$16,810,348. Panama Canal revenues from other business operations amounted to \$15,858,897, expenses \$14,492,142; net \$1,366,755. The total net revenues amounted to \$18,177,103, an increase of about 50% or \$6,000,000 over 1933. This was due to the gain in tolls collected, coupled with a decrease in the expenses of operation brought about by temporary reduction in salary and wage scales under the Economy Act, and to a general retrenchment and curtailment of activities all along the line.

Panama Railroad Co. revenues from its Ibusiness operations amounted to \$11,555,763, expenses \$10,710,009; net \$825,754. To this must be added interest, exchange and miscellaneous profit and loss items amounting to \$454,430 resulting in a total net revenue of \$1,280,184.

The combined total net revenues of both the Panama Canal and the Panama Railroad Co. for the year from all sources amounted to \$19,457,287.

Work on the Madden Dam project is approaching completion and the reservoir is now being filled. It is anticipated that the contract work will be completed before the end of the calendar year 1934, and that the power plant will be ready for operation during February 1935.

### Provision in Home Owners' Loan Act Permitting State Building and Loan Companies to Federalize Held Ineffective in Wisconsin Under Decision of State Supreme Court

The Wisconsin Supreme Court, in a decision on Dec. 11, held that the provision in the Federal Home Owners' Loan Act permitting State building and loan associations to Federalize has no validity so far as Wisconsin is concerned, unless the State's consent to the conversion is first obtained. In the Milwaukee "Sentinel" of Dec. 12 it is also stated that the decision reversed a ruling of Circuit Judge Charles Aarons, Milwaukee, who held, among other things, that Congress had the power to authorize the conversion of State associations into Federal associations, without the State's consent. In the same account it is noted that the Supreme Court's ruling infers also that Congress was powerless to give an intra-State effect to the amendment of the Home Owners' Loan Act of April 27 1934, by provisions of which State building and loan associations which are members of a Federal Home Loan Bank may transmute themselves into Federal corporations. From the "Sentinel" we also quote:

#### Nation-Wide Scope

Three Milwaukee associations are affected by the decree, which attorneys declare is of nation-wide importance and will be finally decided by the United States Supreme Court on appeals by the Milwaukee associations. The companies involved are the Hopkins Federal Savings and Loan Association, and the Reliance and the Northern Building and Loan Associations. By the decision, the Hopkins's recent conversion of itself into a Federal concern is declared null and void and it is compelled to operate as a State association only.

association only.

The Reliance and Northern, which had not yet succeeded in Federalizing themselves, are restrained from doing so and compelled to remain State associations

The Hopkins case was brought to the Supreme Court by the Banking Commission as an original action, to test out the power of Congress. The State's brief asked that that section of the Federal Act permitting Federalization be declared unconstitutional and that the high court declare the State's rights of sovereignty over its associations superior to those of the Federal Government.

#### To United States High Court

To United States High Court
While the Court's opinion, which was written by Justice Edward T. Fairchild, did not directly pass on the constitutionality of the Federal section, it declared its lack of effect in this State in such uncertain terms that upon appeal, the associations must ask the United States Supreme Court to uphold it as constitutional.

B. F. Saltzstein, attorney for the Hopkins association, stated last night that an immediate appeal will be taken to the Federal High Court as soon as he has had an opportunity of reading the written opinion.

The three associations became parties to the actions after becoming members of the regional Federal Home Loan Bank, for the purpose of borrowing money to add to their capital structures. Membership is allowed by the State law, with the consent of the Banking Commission, and the three gained this permission.

gained this permission.

Seize Books, Assets

After the Federal Act amendment of April 1934, permitting State associations to convert themselves into Federal corporations, the three companies made application to the Federal Home Loan Bank for permission to convert. The applications were without the consent or authority of the Banking Commission, and upon learning of them, the Commission attempted to restrain the associations from accepting charters. It seized the books and assets of the Hopkins, which then secured a restraining order in the Circuit Court and accepted a Federal charter and after that time operated as a Federal corporation.

Federal corporation.

The Reliance and Northern then commenced restraining actions, and the Commission counter-claimed, also asking for injunctions. It appealed when Judge Aarons held in favor of the plaintiffs.

The Supreme Court decision ruled that associations could not divest themselves from the corporate charters conferred upon them by the laws of the State, because their only powers are those emanating from the State, and that they could not accept a charter from any other sovereign government, while operating under the power and authority of a State charter.

#### Lack of Power

"It is our conclusion," says the decision, "that respondents (Milwaukee associations) have no power to transmute and that any purported efforts in that direction are void for want of this power. It is assumed that if the Act of Congress is to be given the construction contended for by respondents, it results not in the creation of a new corporation, but in the transfer of its allegiance by the State corporation from the sovereignty of its creator, the Rederel Government.

its allegiance by the State corporation from the sovereignty of its creator, to the Federal Government.

"It has not been thought necessary to consider the possibility that Congress, by this Act, has created a new corporation, because in that event, there being no provision in the charter of the original corporation or in the laws of Wisconsin for a transfer of its property, the corporation would find itself a naked legal entity without any means of carrying out the purposes of the transfer."

In arguments before the Supreme Court, attorneys for the associations contended that the Congressional Act had created new corporations, and that there was no transmutation.

that there was no transmutation.

Improvement in Business Activity Cited by Secretary of Commerce D. C. Roper in Annual Report— Capital Goods Industry, However, Still Depressed —Reciprocal Trade Program—Commends Efforts of Business Advisory and Planning Council

According to the annual report of Secretary of Commerce Daniel C. Roper, made public Dec. 24, "the fiscal year just closed witnessed an improvement in business activity following four years of decline which had taken an unprecedented toll from our national income." The report cites the extent of the improvement in 10 economic series, as to which it says:

which it says:

Each of these series reveals an increase of substantial proportions compared with the preceding year, despite the fact that temporary interruptions of the upward movement occurred during the year. The smallest relative increase indicated in these 10 series was in electric power production, where the gain amounted to almost 10%, and the largest was in construction contracts awarded, which increased by about one-half from the extremely low level of the preceding year. Of especial significance is the gain of approximately 24% in industrial production, of 26% in factory employment, and of 43% in factory payrolls. There was, further, a considerable increase in agricultural income during the year, a decrease in the number of commercial failures and of the volume of liabilities involved, and gains in retail sales and in foreign trade.

July 1933 marked the culmination of a four-month increase in production without parallel in the history of the nation. The Federal Reserve Board index of industrial production, adjusted for the usual seasonal variation, advanced from the depression low of 59% of the 1923-1925 monthly average in March 1933 to 99% of that base in July, a gain of 68%. The manufacturing component of this index advanced during this period from 56% to 101% of the 1923-1925 monthly average.

As demand was not sufficient to sustain the initial pace that had been set, declines in industrial output ensued during the succeeding four months following July, the adjusted index falling about 27% by November. At that time the movement was reversed, and during the next six months the adjusted index of industrial production rose from 72% to 86% of the 1923-1925 monthly average, an increase of approximately one-fifth. During the final month of the fiscal year the index declined three points. Although production and distribution costs advanced during the year, the upward trend of activity was accompanied by an improvement in profits. A representative group of nearly 500 companies reported profits approximat

The report states that "while evidences of the progress which has been made are concrete and numerous, the fiscal year closed with the capital goods industry still greatly depressed, private construction very low, unemployment large, and relief demands making a steady and severe drain on the national budget." "Further," says the report, "the volume of bank loans outstanding, despite the plethora of bank credit available, remained at a very low level. Notwithstanding the lack of uniform improvement throughout the various aspects of our economic life, the year as a whole brought definite gains from the low point of the depression." The major employment problem, the report notes, "lies in the stimulation of the durable goods industries, and this," it says, "is receiving increasing attention." The report goes on to say: "On the basis of the average for the years 1923-1925 as 100, employment in the durable goods industries in June 1934 was 70.7, or about one-fourth less than in the base period, while the non-durable goods index stood at

92.9, or only 8% below that for the period indicated."

It is observed in the report that "although the value of construction contracts awarded increased by 50%, the construction industry continued in a depressed state throughout the fiscal year. During the calendar year 1933 the volume of construction dropped to about \$3,000,000,000, an aggregate not much more than one-fourth of the total for the years prior to 1930. While some improvement occurred during the fiscal year 1934, mainly by reason of the expenditures of the Public Works funds, the volume was still extremely low." In part, the report adds:

As the Public Works program was accelerated, construction contracts awarded showed a rapid rise from August through December. Subsequently public awards declined, and, with private contracts continuing in restricted volume, the index of contracts awarded receded from a high of 58% of the 1923-1925 average in December to 26% in the final month of the fiscal year. This latter figure compares with an index of 18 for the final month

year. This latter figure compares with an index of 18 for the final month of the preceding fiscal year. . . . Work privately financed was valued at \$282,360,000, an increase of less than 5% over the preceding year. . . .

The number employed on projects (Federal and non-Federal) financed by funds from the Public Works Administration increased steadily throughout the year to a total of 592,000 in the final week of June.

Of the total of \$3,700,000,000 made available for public works, all but \$35,000,000 had been allocated by the early part of the fiscal year 1934-1935. Exact data are not available as to the amount actually expended, but the PWA estimated that by Aug. 1 1934 about 300% of all allocates had PWA estimated that by Aug. 1 1934 about 30% of all allotments had been spent

been spent.

Recognizing the failure of private activity to absorb the unemployed normally attached to the building industry, the Federal Government launched a housing program in the final month of the fiscal year. This plan contemplated facilitating the flow of mortgage credit, upon which private construction is to a large degree dependent, and reducing the interest charges on construction loans.

"Outstanding among the activities of the Department undertaken last year," says the report, "was a series of studies in connection with the reciprocal trade agreement program initiated by the Trade Reciprocity Act signed June 12 1934 and authorizing the President to promote trade between the United States and other countries by means of reciprocal agreements. With regard to the reciprocal trade program the report adds:

the report adds:

The foreign trade of the United States, as well as international trade in general, had sharply declined during the last few years to the point where it became necessary that definite and aggressive measures be taken to arrest and reverse the tide, if the volume of our foreign commerce considered essential to the country's economic well-being was to be recovered and maintained. The method of procedure which seemed to give promise of most effective results, and the one most in harmony with the practices of other countries and with general world trends, was that of reducing tariffs and relaxing or abolishing trade restrictions of other types by means of reciprocal trade agreements.

A movement in this direction had already been started in the latter part of the preceding year, when exploratory studies were begun at the request of the Department of State, with a view to trade agreements with a selected number of foreign countries. However, the President felt it desirable that this procedure should be expedited as much as possible so that we should be able to cope adequately with the increasing number of restrictions which were being imposed by other countries on the products of American farms and factories, and as a result of this desire, which was reflected in Congress, the Trade Reciprocity Act was passed and signed in June.

in June. Immediately upon the passage of this Act an interdepartmental organization was set up at the direction of the President and under the auspices of the Department of State to carry out the purposes of the Act. The Bureau of Foreign and Domestic Commerce has had an important share in the work of this organization, especially in the task of preparing studies preliminary to the negotiation of trade agreements. The studies made by the Bureau are particularly from the standpoint of developing such proposals for the moderation of tariffs and other trade barriers of other countries as might be sought in the course of negotiations.

As the first fruit of the general program, a highly satisfactory agreement with Cuba was signed on Aug. 24 and put into effect on Sept. 3. Negotiations are now pending with several other countries and the program will be expedited.

be expedited.

Under the head "Foreign and Domestic Commerce" the report indicates that the Bureau of Foreign and Domestic Commerce "has kept fully abreast of the flood of new nationalistic ecenomic and commercial legislation in foreign countries during the past year and of the many new interpretations of older laws and regulations." It also says:

At increasingly frequent intervals, the Bureau has released information on the complex and rapidly multiplying foreign exchange regulations which are proving so embarrassing to commerce throughout the world and has made available many fundamental facts with respect to the financial position of governments or corporations abroad which have defaulted—wholly or in part—on their obligations to American lenders and investors. Particular attention has been given to the effort to increase the comprehensiveness and accuracy of the Bureau's highly valued study of the balance of international payments of the United States; at no time in the past have the data presented in this study been so urgently needed as during this last fiscal year, or so immediately applicable to the consideration of weighty problems of our national economy. Consequently, the Bureau hopes to effect still further improvements and expansion in this field of study. field of study.

The Bureau has made special studies of American branch factories abroad—a problem that has been appreciably complicated by the recent shifts in economic policy in major nations.

The experiences of foreign countries with cartels have been closely followed and scrutinized by the experts in the Bureau, with a view to enabling Americans to profit by exact knowledge of motives and results.

As to the merchant marine the report has the following to say, in part:

On Aug. 10 1933 the activities of the United States Shipping Board and Merchant Fleet Corporation were, by Executive order, transferred to the Department of Commerce, and the Shipping Board was abolished. The

Board's activities have since been carried on in the United States Shipping Board Bureau, under a director who reports to the Secretary of Commerce. By this reallocation of functions the Government's principal activities with respect to the American merchant marine were co-ordinated under one Federal department. Following this, the Shipping Board Bureau and Merchant Fleet Corporation were reorganized, with the result that on June 30 1934 the payrolls of the two units showed a reduction for the payrolls of the payrolls of the special payrolls and wares totaling of 128 employees, involving annual salaries and wages totaling

An outstanding development during the year was the decision to exercise more vigorously the Department's regulatory powers over the rates, fares, charges and practices of carriers by water engaged in inter-State and foreign commerce. This course of action, predicated upon the generally accepted principle that regulation affords the most effective means of stabilization, gave rise to two important investigations. The first of these, ordered by the Secretary of Commerce, on Feb. 5 1934, had to do with common carriers in the intercoastal trade. The second, ordered by the Secretary, on March 9 1934, sought to determine whether conditions unfavorable to shipping in the foreign trade exist as the result of competitive practices by operators or agents of foreign-flag vessels, and if so, what remedial action could be taken by the Department under existing statutes. At the close of the fiscal year both investigations were still in progress.

The Secretary of Commerce, on June 20 1934, designated an interdepartmental committee to make an intensive study of ship subsidies and related phases of the shipping industry, with special reference to our future policy in the development of a strong merchant marine.

Pending a determination of the future policy with respect to subsidies and related problems, no additional ocean-mail contracts were entered into during the fiscal year. As a result, the Bureau is still in possession of five foreign trade lines, which continue to be operated for Bureau account by managing agents who receive compensation on the basis of a stipulated sum per voyage. An outstanding development during the year was the decision to exercise

Reference is also made in the report to the Business Advisory and Planning Council, Secretary Roper's comments,

in part, being as follows:

in part, being as follows:

The anticipation of the Department of Commerce of obtaining valuable assistance and co-operation from the members of the Business Advisory and Planning Council, when that organization came into existence on June 26 1933, has been more than realized. This group, now numbering 52 of the nation's most representative and distinguished business leaders, has been unremitting in its efforts to make available to the Department of Commerce its seasoned judgment on matters vitally affecting the Department and business, and on questions of a broader nature, concerned with Government relationship to commerce and industry.

The recommendations of the council committees specifically concerned with the activities of the Department of Commerce have been of valuable assistance in the conduct of the Department's affairs throughout the year. Important phases of the departmental program have come up before these groups for review and suggestions. The Department has had the benefit of business men's advice on questions involving its services to business. Before the initiation of new services or changes in the existing program have been effected, counsel and advice was secured from this advisory group of representative business men, thus providing business with a direct voice in the affairs of the Federal department representing it.

It is the desire of the Department of Commerce to further co-operation between Government and business to the fullest extent.

# President Roosevelt Appoints Sigmund Solomon as Superintendent of United States Assay Office in New York

Announcemnt of the appointment by President Roosevelt of Sigmund Solomon as Superintendent of the United States Assay Office in New York City, was made at Washington on Dec. 22. Mr. Solomon succeeds Niles R. Becker, who had been Superintendent since June 1925.

### Dinner to Be Given in Honor of Joseph A. Broderick by New York State Bankers Association—Banquet to Conclude Seventh Annual Mid-Winter Meeting Jan. 21

As a conclusion to its seventh annual mid-winter meeting in New York City on Jan. 21, the New York State Bankers Association will tender a dinner in honor of Joseph A. Broderick, who will resign as Superintendent of Banks of New York State on Jan. 1. The dinner will be held in the evening of Jan. 21 at the Hotel Roosevelt. The resignation of Mr. Broderick, and the choice of George W. Egbert as his successor by Governor Lehman, was referred to in our issues

of Dec. 22, page 3900, and Dec. 15, page 3750.

In announcing the plans for the fortcoming meeting and dinner, William L. Gillespie, President of the Association, said that the business sessions will be held as previously in the auditorium of the New York Reserve Bank building. Prior to the business sessions, which will commence at 2 p. m., the directors and officers of the Reserve Bank will entertain the visiting bankers at the usual annual luncheon in the Bank's dining room.

#### Death of John E. Andrus

John E. Andrus, one of the wealthiest men in the United States, died on Dec. 26 of pneumonia at his home in Yonkers, N. Y. Mr. Andrus, who was 93 years old, had been ill only three days. He was often referred to by his friends as the "millionaire straphanger" because he preferred to ride to his office on the subway, despite his wealth. United Press advices from Yonkers on Dec. 26 outlined his career as follows:

The fortune of Mr. Andrus was estimated at \$300,000,000. The millionaire straphanger was a contemporary and friend of the senior Rockefeller, of Andrew Carnegie and of railroad giants like James J. Hill and Edward H. Harriman.

While the backbone of his fortune was solidly erected around a chain of chemical companies, his land holdings, from New York to New Mexico, and from Texas to Alaska, brought him more millions.

The actual beginning of the Andrus fortune was founded in an investment of \$650, part of which he borrowed, in Singer Sewing Machine stock. He had heard, he recounted, that the company was going to "cut a melon." He never sold the stock and in 1928 told friends that these shares by his reinvestment policy had increased to 7,200 shares with a value of about \$2,000,000.

Mr. Andrus was a prominent stockholder in National Fuel Gas Co., in which Standard Oil executives were interested. He was a director of the company up to a year ago.

the company up to a year ago.

#### Martin J. Insull Acquitted of Embezzlement Charges— Illinois Jury Finds Brother of Samuel Insull Not Guilty in Prosecution Based on Collapse of Utilities Empire

Martin J. Insull, brother of Samuel Insull, former utilities magnate, was declared not guilty of embezzlement on Dec. 21, when a jury in an Illinois criminal court in Chicago failed to find that evidence at his trial sustained charges that he had appropriated \$344,720, from the Middle West Utilities Co., which he headed, for personal stock market Samuel Insull and 16 co-defendants were operations. recently acquitted of charges growing out of the collapse of their utilities network. Prosecutions on both Federal and State charges are still to be carried out, but according to newspaper reports from Chicago the strongest cases have already been presented by the prosecution.

A dispatch from Chicago, Dec. 21 to the New York "Times" discussed the Insull cases as follows:

The State's Attorney's office was unable to say what would be done about the trial of Samuel Insull for embezzlement, set for Jan. 9, or the remaining embezzlement indictments against Martin Insull, one of which was scheduled

embezzlement indictments against Martin Insull, one of which was scheduled to be called up Jan. 15.

The jury reported in court at 3:28 this afternoon after they had been out since 12:50 in the morning. They had deliberated about 8 hours of this time and taken 11 ballots, the first having been 9 to 3 for acquittal. The jurors slept a while and, when they resumed balloting, a switch made the standing 10 to 2. After lunch, the two men changed to the acquittal side. The debate in the jury room was evidently acrimonious and was so loud that it could be heard outside. The two who held out so long for conviction were termed "stubborn" by the others and were said to have received threats of being "socked on the nose" and "thrown out."

What impelled the two toward conviction was the question of Martin Insull's legal right to buy stocks with funds of the Middle West company which had been withdrawn under pressure from his own brokerage account with Paul H. Davis & Co. in 1931.

with Paul H. Davis & Co. in 1931.

# Business Leaders Deny They Advocated Adoption of Dole—C. L. Bardo Says Recent Conference Dealt Sympathetically with Unemployment Problem

A denial that the business leaders who met last week at White Sulphur Springs, W. Va., had advocated the substitution of the dole for work relief was made on Dec. 21 by C. L. Bardo, President of the National Association of Manufacturers and one of the sponsors of the conference The principal recommendations approved at the meeting were outlined in our issue of Dec. 22, page 3906. In answering criticism of some of these proposals, Mr. Bardo suggested that the critics had not actually read the platform. He stressed the fact that the dole was not recommended, and said that the conference had dealt sympathetically with the problem of unemployment and did not urge the sudden termination of Federal relief.

President Roosevelt said at a press conference on Dec. 21 that he had not yet read the platform adopted by the conference, but that he intended to do so.

A Washington dispatch of Dec. 21 to the New York

A Washington dispatch of Dec. 21 to the New York "Times" gave Mr. Bardo's statement as follows:

Mr. Bardo, in his statement, denied that the "dole" was recommended by the business men in their plan and emphasized that "rewarded work" was recommended. The fundamental purpose of returning relief functions to local government "as soon as practicable," he said, has been set forth repeatedly as the attitude of the Administration.

"Obviously," Mr. Bardo said, "those who accuse business men of not recognizing the necessity of dealing sympathetically with the unemployed spoke without reading that which they criticized.

"It is unfortunate that hasty commentators would lead the public to believe that the conference favored cutting off Federal relief suddenly without regard to the distress it would cause. The facts are that during the transitional period of returning the relief load to the States as recommended by the conference, Federal relief expenses, excepting Civil Works Administration, which has been abandoned, could be continued at the rate of the fiscal year of 1934 and still balance the budget approximately in 1936 and fully balance it in June 1937."

#### Several Million Idle Entitled to Jobs, and Not Merely to Dole, Donald R. Richberg Tells Washington Board of Trade

Several million idle persons in the United States are entitled to jobs, and not merely to charity, Donald R. Richberg, Executive Director of the National Emergency Council, told the Washington Board of Trade on Dec. 17. Mr. Richberg said that private enterprise must provide for the re-employment of these persons rather than continuation of a dole if "our constitutional liberties and democratic institutions" are to be preserved. It is not "playing Santa Clause," Mr. Richberg said, for the Government to borrow or tax to feed the hungry, but it would be doing so to "fill empty stockings" without at the same time doing all possible to bring about permanent re-employment of idle workers in productive activities. United Press advices from Washington, Dec. 17, quoted from his address as follows:

"All the people of this country whose homes and livelihoods are reasonably secure owe to several million idle workers something more than charity," he said. "In a very real sense we, who are well-fed and well-housed, owe to our fellow citizens, who are in distress for no fault of their own, equal opportunity to earn their own living."

Five years of depression have brought the understanding of the weaknesses and evils of our economic system, Mr. Richberg declared, but an accompanying advance in constructive planning to improve conditions has not followed.

followed.

not followed.

Despite some faults, the National Recovery Administration has made the "great and undeniable contribution" of eliminating ruthless warfare in the field of trade practices and labor relations, he said.

"The fact that in recent years some form of State control of industry has been adopted by nation after nation as the result of a political revolution does not show the malevolent influence of a mere political theory," he said.

"It shows the inevitable product of an industrial anarchy which, when it finally brought economic chaos and collapse, destroyed the supports of political government and compelled a military dictatorship to rebuild the industrial foundations upon which the political structure of a modern nation rests.

'The lesson is clearly written that the political freedom and security of

The lesson is clearly written that the political freedom and security of the American people rest upon their economic freedom and security."

He decried attempts to liken the nation to Santa Claus and said some monetary proposals were comparable to the theory "that it is easier to produce an egg without a hen than to produce a hen without an egg."

#### Representative Snell Charges Administration with Giving "Christmas Present" to American People in Form of Relief

The principal "Christmas present" given by the Administration to the American people is a tremendous relief burden, Bertrand Snell, who will be minority leader in the next House, said in a statement made public on Dec. 25. He estimated that 26,000,000 Americans are either directly or indirectly dependent upon the Government for their livelihood, and that more people than ever before are now on the relief rolls. United Press Washington advices of Dec. 25

the relief rolls. United Press Washington advices of Dec. 25 gave other remarks by Mr. Snell as follows:

Mr. Snell made clear to-day that as leader of his party in the House he would pursue the same tactics as in the seventy-third session. He said, personally, he favored "meeting each issue on its respective merits."

"There will be no general program of co-operation or obstruction," he said. "We will take a stand on each major bill as it comes up."

Mr. Snell declined to comment on Democratic plans for depriving Republicans of their present strength on House committees. It was believed, however, that he would fight for retention of the present Republican membership of 10 on the important Ways and Means Committee, and might be agreeable to a change in representation on other committees.

# Mississippi Valley Committee Recommends Federal Unification and Control of All Nation's Electricity Production—Would Link Public and Private Systems—President Roosevelt Considers Extension of EHFA Activities—Federal Trade Commission to Recommend Legislation by Jan. 1—New York Maps Plans for Municipal Plants

Unification of all electricity resources in the United States under Federal control was recommended on Dec. 26 by President Roosevelt's Mississippi Valley Committee in a report to the Public Works Administration. The Committee, which was appointed to report on the problems of use and control of water in the Mississippi River drainage area, advocated the joining of all public and private electricity production in a system that would promote economy and stability, and said that "the production and distribution of electricity, more than most other factors, demands valleywide co-ordination as part of a unified national system."

The possibility of further extension of Government control over the utility industry was revealed in several other events at Washington this week.

Recent items describing controversies between private utility companies and Government agencies were contained in our issue of Dec. 22, pages 3289-92. President Roosevelt revealed at a press conference on Dec. 26 that he is considering proposals for expanding the activities of the Electric Home and Farm Authority throughout the country. This organization is a subsidiary of the Tennessee Valley Authority, and was created to aid in financing the purchase of electrical equipment by farmers and householders within the TVA power area. Possible plans for extension of its activities were discussed as follows in United Press, Washington

advices of Dec. 26:
In expanding the EHFA domain the President would offer co-operation with private utility companies which will reduce power rates to what the

Government considers a fair level. But behind the offer was an implied threat that utilities refusing to reduce rates would have to compete with municipal plants built with funds loaned by the Government.

So far the Administration has refused to fix an arbitrary percentage for rate reductions. Costs and accounting methods differ widely in various sections, Chairman Frank R. McNinch, of the Federal Power Commission, pointed out recently. The New York State Power Authority recently indicated that rates in that State might be reduced 50%.

Increased EHFA activity would bring electrical equipment within reach of thousands of persons now deprived of it, and would build up an important consumer power load.

President Roosevelt on Dec. 26 ordered the Federal Trade Commission to have its recommendations on utility legislation ready by Jan. 1. The Commission recently completed a six-year inquiry into public utilities, and upon this survey will submit its requests for new legislation.

Officials of New York City continued this week to formulate plans for construction of municipal power plants, aided by Federal loans, which would furnish electricity both to city and Federal projects, and which might ultimately compete with private companies in selling to domestic consumers. Secretary of the Interior Ickes has indicated that he might look favorably on an application for a PWA loan for this purpose.

We quote from a Washington dispatch of Dec. 26 to the New York "Times" regarding the recommendations made to the PWA by the Mississippi Valley Committee:

"There is nothing novel in the conception of a completely unified system for generation and transmission of electricity," said the report, which was made after a year's study. "Over wide areas such unification exists. It should not be difficult to reconcile the public and private interests involved in including in such a system power from dams which are built primarily for the proper use and control of the nation's water resources.

"The legal and operating problems appear relatively trivial in contrast to the great social purposes to be accomplished."

#### 5,000,000 Farms Have No Power

5,000,000 Farms Have No Power

More than 5,000,000 farms have no electric service, the report stated; only 800,000 farms were found electrified, and of these, only 650,000 had "high line" service. The individual plants serving the rest were said to be expensive to operate and limited as to use.

"Having recognized the advantages of rural electric service and reached the conclusion that only under Government leadership and control is any considerable electrification of 'dirt farms' possible, we face the obligation of getting it done," the committee said. "Perhaps the start should be through an allotment of \$25,000 or \$50,000 to survey specific localities.

"But an allotment of \$100,000,000 actually to build independent, self-liquidating rural projects would exert a mighty influence in various di-

liquidating rural projects would exert a mighty influence in various di-

rections. Electrical co-ordination would benefit not only the consumer but the private producers, the committee held, by eliminating duplications of plant and equipment, stabilizing service and making available new sources of

energy.

"The Federal Government should regulate transmission, regardless of the number of generating plants or transmission lines it may ultimately own," the report continued. "During the next 20 years, it could profitably spend a billion dollars on river works in the Mississippi Valley, half of which would be for self-liquidating power installations. With this nucleus, it could experiment as well as regulate."

The Mississippi Valley committee was made up of Morris L. Cooke, consulting enginerr, of Philadelphia, chairman; Harlan H. Barrows, chairman of the Department of Geography, University of Chicago; Herbert S. Crocker, consulting engineer, Denver; Lieut. Col. Glen E. Edgerton, Corps of Engineers; Henry S. Graves, dean, School of Forestry, Yale University; Major Gen. Edward S. Markham, chief of engineers; Charles H. Paul, consulting engineer, Dayton; Harlow S. Person, consulting economist, New York, and Sherman M. Woodward, Professor of Hydraulics, State University of Iowa.

#### Loans by Production Credit Associations This Year Exceed \$100,000,000 According to Governor Myers of FCA

Increasing Use of Production Credit Association Loans

Over \$100,000,000 has been loaned by the production credit associations this year representing loans to approximately 125,000 farmers, according to a statement made at Washington, D. C., to-day (Dec. 22) by W. I. Myers, Governor of the Farm Credit Administration. About half this credit has been extended since June, Governor Myers

said, continuing:

The volume of business of the associations has followed a general upward trend since Aug. 1. During the last two weeks of November over 3,600 loans for about \$4,000,000 during the preceding two weeks. The amount of new credit extended during November was larger than in any month since June; and the number of applications received was greater than in any month

June; and the number of applications received was greater than in any month since May.

The most noticeable development during the fall months has been the increase in business of the associations in the mid-western and Pacific States, especially in the livestock financing areas. The largest volume of loans closed in November was in the Spokane district, covering Washington, Oregon, Montana and Idaho, in which over \$3,200,000 was loaned. The second largest volume was in the Berkeley district including California, Nevada, Utah and Arizona, with loans of \$1,060,000. In the Wichita district covering Kansas, Colorado, Oklahoma and New Mexico loans totaled \$980,000; and in the Omaha district including Iowa, Nebraska, South Dakota and Wyoming, \$860,000.

#### United States to Import Hay Duty-Free from Canada —AAA Announces Formation of Agency to Dis-tribute to Drought-Stricken States

The Agricultural Adjustment Administration on Dec. 24 announced that until further notice duty-free Canadian hay could be imported to alleviate the feed shortage caused by the drought in Northwestern States. Secretary of Agriculture Wallace signed an agreement authorizing an "agency for deficiency distribution" to effect the importations. This agency is composed of the Farmers National Grain Corporation of Chicago and the Cargill Elevator Co. and F. H. Peavey & Co. of Minneapolis. F. Peavey Heffelfinger of the Monarch Elevators has been named manager of the enterprise and offices have been established in Minneapolis, Winnipeg and Saskatoon. Participating companies will finance the operation of the agency. Further details were given as follows in Washington advices of Dec. 24 to the New York "Herald Tribune":

It is anticipated that the project will make available to the farmers in the Northwestern States possibly 300,000 tons of roughages from Alberta, Saskatchewan and Manitoba. The hay will be distributed through local commercial dealers on a service charge basis in territory where freight costs make this practicable. It is expected that most of the movement will be into the Dakotas, Montana, Wyoming and Minnesota.

# Tentative Agreement on Cane Sugar Production for Hawaiian Islands Reached by AAA with Growers Announcement was made on Dec. 24 by Secretary of

Agriculture Wallace that a tentative agreement had been reached on a cane sugar program for the Hawaiian Islands at conferences between officials of the AAA and represenatives of the Hawaiian Sugar Planters Association. According to a dispatch Dec. 24 from Washington to the New York "Times" under the agreement the producers, would sign a contract to abide by quotas and allotments set up by Secretary Wallace, adjust production as the contract may provide, abide by labor provisions similar to those in domestic beet and cane adjustment contracts, accept the Secretary's adjudication of disputes and allow examination of their books and records by the AAA. From the same account we take the following:

account we take the following:

Public hearings will be opened in Hawaii within 45 days to develop details of the program, which is expected to result in a contract providing for benefit payments to growers agreeing to adjust their production as provided in the Jones-Costigan amendment.

On his part, Secretay Wallace agrees to re-examine the data on which were fixed the original quotas of the islands which caused the dispute, and to provide for benefit payments to growers to about 90% of the full amount of the processing taxes on Hawaiian sugar, less administrative expenses.

John Waterhouse, President of the Association, and John Russell represented the growers in the conferences.

About 15% of the United States sugar requirements is met by Hawaiian cane, AAA officials estimate. Benefit payments to Hawaiian growers are tentatively expected to be \$8,500,000 yearly.

The Hawaiian growers sued to enjoin the Secretary of Agriculture from enforcing the provisions of the Jones-Costigan Sugar Act, contending that

enforcing the provisions of the Jones-Costigan Sugar Act, contending that it was discriminatory. The suit was dismissed in the District of Columbia Supreme Court, but an appeal has been pending.

The agreement is expected to result in the withdrawal of the litigation.

## Plaintiffs File Brief in Suit to Halt Activities of Long-shoremen's Union—Charge Conspiracy to Prevent Free Movement of Commerce in New York City

Continuing the legal action brought by the Merchants Association of New York, the Brooklyn Chamber of Commerce and about 30 industrial concerns which charge that union longshoremen refused to handle freight at New York City piers when carried by trucks operated by non-union labor, the counsel for the plaintiffs on Dec. 24 filed a brief in Kings County Supreme Court. Walter G. Merritt, counsel for the plaintiffs, asserted that the defendants, including 150 labor organizations, union officials and steamship lines, conspired to prevent the free movement of commerce in the port. He added that the refusal of trucking concerns to employ men whose union views were inspired by the International Longshoremen's Union was used by the union to injure shippers. The New York "Times" of Dec. 25 added the following regarding the plaintiffs' contentions:

the following regarding the plaintiffs' contentions:

The case is held to be important as a test of Federal legislation and of the powers of the truckers and longshoremen's union. The trial of the case lasted 21 days, during which the plaintiffs called 123 witnesses. The defense failed to call witnesses, but argued that the suit should have been taken to the Shipping Board rather than to court, and that the actions of the union were legal under the terms of the Norris-LaGuardia Anti-Injunction Act. Mr. Merritt's brief says:

"The facts show conclusively that the purpose of these defendants is to prevent the plaintiff shippers from enjoying the services and facilities of common carriers. The union defendants, by stoppage of work, by ordering the employees of the common carriers not to perform the duties for which they are employed, and by strikes and threats to strike against the common carriers, are coercing the common carriers not to serve the plaintiffs who utilize non-union truckmen to approach the piers.

"The steamship companies are placed in a position where they have to tolerate these stoppages of work, and possibly suffer strikes unless they consent to the demands of the union defendants of committing a crime in violation of the Shipping Act."

Mr. Merritt urged that the ship lines were responsible for the proper handling of freight on their piers and should have discharged employees who refused to carry out their orders.

He also argued that the longshoremen were engaged in a public activity and should quit their work for labor of another type if unwilling to accept

the responsibilities of public service attending their work. The attitude of the men and their employees, he said, constituted a discrimination against certain shippers and was in violation of the National Recovery Act.

### NLRB Orders Los Angeles Transportation Companies to Recognize Union in Collective Bargaining— Finds Violation of Section 7-A of NIRA—San Francisco Dispute Settled by Arbitration

The National Labor Relations Board on Dec. 24 issued a ruling holding that the Los Angeles Railway Corp. and the Los Angeles Motor Coach Co. had violated Section 7-A of the National Industrial Recovery Act by interfering with the organization of employees and refusing to bargain collectively. The companies were ordered to announce within 10 days that they had recognized the Amalgamated Association of Street and Electric Railway Employees and were willing to bargain collectively. Otherwise, the Board said, the case would be referred for action to the Compliance Division of the National Recovery Administration.

Meanwhile, the employees of another California transportation company recorded a victory in a dispute with their employers when on Dec. 14 a special board of arbitration ordered that the employees of the San Francisco Market Street Railway should be granted shorter hours, increased wages and union recognition. This decision specified a 48hour week for platform men and a 40-hour week for workers in the shops, with wage increases averaging 25%.

United Press advices from Washington, Dec. 24, discuss the NLRB's order in the Los Angeles case as follows:

The board said its decision was in line with that made in the case of the Houde Engineering Corp., that "when an organization has been designated by the majority of employees in a plant or other appropriate unit for collective bargaining, it is the right of the representative so designated to be treated by the employer as the exclusive collective bargaining agency of all employees in the unit."

# Federal Court Holds News Is Public Property Immediately After Publication—Dismisses Suit by Associated Press Against Radio Station in News "Piracy" Charge

A ruling that news becomes public property immediately after newspaper publication and distribution was handed down on Dec. 18 by Federal Judge John C. Bowen, of Seattle, in dismissing a temporary restraining order against radio station KVOS, of Bellingham, Wash. A permanent injunction had been sought by the Associated Press, which charged that the radio station "pirated" local and telegraph news from three of its member newspapers, the Bellingham "Herald," the Seattle "Post-Intelligencer" and the Seattle "Times." The suit also charged "unfair competition." A dispatch from Seattle, Dec. 18, to the New York "Times" summarized the court's ruling as follows:

Judge Bowen, in a 24-page memorandum, dismissed both the restrainer and the suit brought by the complainant. The court held that the radio station was not a news-gathering agency and hence the suit did not involve "pirating" of news by one news-gathering agency from another.

"The court finds," Judge Bowen wrote, "that defendant has in its radio news broadcast taken and 'pirated' local and general news dispatches in some specific instances, as charged by the complainant, but not until after such news items were published and distributed to the public in the recular editions of the newspapers.

after such news items were published and distributed to the public in the regular editions of the newspapers.

"Such news reports from that moment belong to the public, including the defendant KVOS and all others who may desire to use them for all purposes except for sale by a rival news agency to its news publishing members, and the mere fact that defendant disseminates gratuitously those news reports as a part of its radio service to the public after they have been so received by defendant contemporaneously with other members of the public, does not prevent defendant from so receiving and using such news reports, since such practice by defendant does not involve the pirating by one news-gathering and distributing agency, as in the case of Associated Press versus International News Service."

After tracing the history of the development of communications from the time of Paul Revere, the court went on:

"The protection of private investments has had to yield to the convenience of the public.

"Newspaper facilities are not likely to pass into disuse as some news communication instrumentalities have in the past, but the service cannot be employed to hinder the use of more modern means, including those of defendant radio station, which in some respects surpass complainant's facilities to an extent comparable to the advantages of the airplane over those of a railroad train."

## Canadian Newsprint Producers Fail to Reach Price Agreement—Will Confer Again in Montreal Next Week

Canadian newsprint manufacturers and officials of the Dominion Government conferred in Quebec on Dec. 19, but failed to reach an agreement on newsprint prices. Representatives of the 18 newsprint companies planned to meet again in Montreal this week in order to seek a universal price agreement, and later to inform Premier L. A. Taschereau regarding the result of their meeting. Mr. Taschereau said on Dec. 19 that the conference was satisfactory and that the newsprint manufacturers were aware of the necessity of stabilizing prices. It was reported from Quebec,

however, that he indicated that the Government might make it difficult for recalcitrant companies to fulfil existing con-A dispatch from Quebec, Dec. 19, to the New York "Times" discussed the meeting on that date as follows

St. Lawrence paper mills were represented at to-day's meeting, but their representatives did not take an active part in the discussion.

Nothing was said about McLaren Mills, which are reported to have sold 30,000 tons of newsprint to New York at 1934 prices of \$40 a ton This report has not yet been confirmed.

report has not yet been confirmed.

Following the conference the following statement was issued by Mr. Taschereau:

Taschereau:

"Gentlemen of the newsprint industry have agreed to meet among themselves within the next few days, and to try and reach an agreement. They will come back and see us in another 10 days.

"Representatives of nearly all newsprint companies were present, and we discussed the situation in general.

"The representatives of the various companies readily understood the importance of reaching an agreement so as to stabilize newsprint prices in order that their industry might operate with a sufficiently profitable margin.

"In any case the delegates have promised to meet among themselves and "In any case, the delegates have promised to meet among themselves and to come back in 10 days."

## NRA to Hold Hearing on Newspaper Hours and Wages Jan. 17—NLRB Recommends Removal of Blue Eagle from San Francisco "Call-Bulletin"

The National Recovery Administration announced on Dec. 27 that on Jan. 17 the American Newspaper Guild will be given an opportunity to present data on wages, hours and working conditions in the newspaper publishing industry for use in connection with proposed wages and hours amendments to the code. The NRA has designated Dr. Gustav Peck, Assistant to the Administrative Officer on Employment Problems, to be present at the hearing.

The National Labor Relations Board announced Dec. 27 that it has referred to the NRA the case of the San Francisco "Call-Bulletin" with the recommendation that the Blue Eagle insignia be removed from the newspaper because of alleged violation of the collective bargaining provisions of the National Industrial Recovery Act.

#### Secretary of Commerce Roper Urges Organization Local Relief Agencies—Formulates 6-Point Pr Local Relief Agencies—Formulates 6-Point gram for Individuals Wishing to Aid Recovery

Every community in the United States should form local organizations to carry out its relief program, Secretary of Commerce Roper said in an address on Dec. 22 before the New England Society of Charleston, S. C. For the Federal Government, he said, "to care for local social conditions when and where the community can cope with them is to destroy local self-respect, to disinherit States' rights, and to endanger the foundations of our democratic form of government."

Mr. Roper discussed a six-point program as a guide to enable individuals to aid in economic recovery. His program, as given in outline form, was as follows:

First—Seek knowledge of economic facts and an understanding of economic principles.

Second—There can be no better way to discharge our obligations than by generous co-operation in local relief endeavors.

Third—Every citizen has the obligation which accompanies the privilege of democracy—namely, the certifiying of proper administration of his local, State and National Government. of honest relief administration, of proper and due course of laws. proper and due course of law.

A fourth positive duty of every one is the registering of his own well-considered opinion in an effective manner.

A fifth important method is through the conduct of the individual in his business or professional sphere.

As a sixth important factor we need a controlled social and economic structure.

# Sharp Upturn in Durable Goods Industry by Spring Looked For by Secretary of Commerce Roper— Finds Fall Season Best Since 1929—Remarks on Forthcoming Shipping Report

Predicting that the durable goods industry will show a upturn next spring, Secretary of Commerce "decided" Roper said on Dec. 26 that the business outlook for 1935 is "indeed very satisfactory." The fall season just closed, he said, was the best the country has experienced since 1929, while the mental attitude of the public is far more satisfactory now than it was five years ago. Mr. Roper announced that scattered reports to the Department of Commerce showed that the volume of Christmas buying this year would set a record since 1929, and that despite fears that have oppressed the people in recent months they now find. on reflection, "that the resources of this country haven't even been scratched." Other comments by Mr. Roper are given below, as contained in a Washington dispatch of

Dec. 26 to the New York "Times":

Mr. Roper said that "these times carry assets as well as liabilities."

The country, he held, was doing "more studying and understanding of "conditions at home and abroad than has been the case at any time in remembrance."

remembrance."
"The whole country is a study forum, which augurs well for 1935. We are better prepared and better ballasted to expedite the recovery program."

Speaking of a recent trip to South Carolina, when he had occasion to meet

speaking of a recent trip to South Carolina, when he had occasion to meet many people, he remarked:

"The faces and features of these people, their possession of themselves, showed that they were better off. We are on our way, better prepared to think things through soberly than ever before."

Reciprocal trade negotiations and merchant marine studies now under way will be this country's contribution to the restoration of world commerce, the Secretary said

Secretary said.

the Secretary said.

The shipping report, to be submitted to President Roosevelt by the time Congress convenes, was described by Mr. Roper as the most important study of the subject ever made by this Government.

Prepared by a committee of experts from almost all Government departments, it is intended as a guide to the administration in establishing a fixed merchant marine policy.

It will discuss outright subsidies to American shipping, as advocated in some administration quarters, as well as other questions.

Turning to the question of relief, Mr. Roper indicated that the Business and Advisory Planning Council, in forthcoming recommendations, would advocate work relief instead of direct cash. This position would agree with the opinion of Harry L. Hopkins, Relief Administrator, but would differ from the findings of the recent industrial conference held at White Sulphur Springs, W. Va.

### Code Price Fixing by NRA Held Unconstitutional by Kansas City (Mo.) Court Ruling Given in Case of Sutherland Lumber Co Says Congress Has No Power to Fix Prices

Code price fixing by the National Recovery Administration, even in transactions which are part of inter-State Commerce, was held unconstitutional on Dec. 27 by Judge Merrill E. Otis in the Federal District Court at Kansas City, Mo. It was indicated by NRA legal authorities in Washington that the decision would be appealed. Judge Otis denied an injunction sought by the Government to restrain the Sutherland Lumber Company from selling at prices below those fixed in the retail lumber code. In his decision Judge Otis held that the NIRA only expressly authorized the President to approve codes of fair competition. Price fixing under the code, he maintained, destroys fair competition. He added:

Fair competition must still be competition. The adjective does not destroy the noun. Competition is the effort of two or more parties, acting independently to secure the custom of a third party by the offer of the most favorable terms.

To prohibit one of two who are dealing in the same commodity to offer that commodity at a lower price than the other offers it is not to effect fair competition, but is to destroy competition in its very essence.

The decision also said:

Congress has no power to fix prices, even in transactions undoubtedly a part of inter-State commerce.

The people had suffered too recently from tyranny to be led into the voluntary creation of tyranny infinitely more dangerous. In the commerce clause, as written, they sought protection of individual liberty of trade and all its incidents from the then stifling and conflicting commercial regulations of the states.

all its incidents from the then stifling and conflicting commercial regulations of the states.

It is enough to say that the price at which an owner offers to sell his property and the price a prospective purchaser agrees to pay in no sense whatever are incidents of commerce among the states. The meeting of the minds of vendor and vendee in an agreement as to price precedes any movement of the property sold and bought. Since the contract is no part of that commerce which Congress is given power to regulate, Congress cannot regulate the terms of the contract directly.

Nor can it accomplish the same end indirectly by prohibiting the movement in commerce of things harmless in themselves unless they are sold at prices satisfactory to Congress.

at prices satisfactory to Congress.

Associated Press advices from Kansas City Dec. 27 also had the following to say:

The suit was based on the sale by the company's Oklahoma City yard of six squares of Oregon cedar shingles at \$4.20 a square against the code price of \$4.45

In holding that Congress did not have power to fix prices or to authorize

of \$4.45.

In holding that Congress did not have power to fix prices or to authorize the President to do so, Judge Otis said.

"The only suggested support for the asserted power is the constitutional provision (Article I, Section 8), that Congress shall have power to regulate commerce among the several States."

The court pointed out that in any case this power extends only to what either is inter-state commerce or directly affects inter-state commerce.

"The defendants who sell for cash out of their lumber stock at their yards, just as any merchant sells goods over the counter, are not engaged in inter-state commerce," the opinion continued.

After declaring that the fact the bunch of shingles involved was transported to Oklahoma from Oregon did not mean that the vendor was engaged in inter-state commerce, the most significant point in the opinion, that

ported to Orianoma from Oregon did not mean that the vendor was engaged in inter-state commerce, the most significant point in the opinion, that "Congress has no power to fix prices even in transactions a part of interstate commerce," was reached.

In case the commerce clause of the Constitution had been made to read that "the Congress shall have power to regulate commerce among the several States, including the power to fix prices at which persons may sell in such commerce," it undoubtedly would have been rejected, the judge declared. declared.

From Washington, Dec. 28, Associated Press accounts of Dec. 27 reported NRA legal authorities as saying that they would take no definite action in the matter of appeal until they had given the decision further study. These advices added:

NRA officials explained the retail code prices were not affected by last week's order suspending the price-fixing clause of the Lumber Code for manufacturers.

manufacturers.

They said several favorable decisions had been received on similar cases affecting retail lumber dealers.

There is no case now pending in the United States Court involving the validity of code price-fixing, but the Government is preparing to appeal a case recently decided in Birmingham, Ala., by Federal Judge W. I. Grubb, which held the NIRA and the Lumber and Timber Code invalid.

#### NRA Holds Employees in Coded Industry Must Be Compensated for "Work Interruption" Beyond Their Control

Employes in coded industries must be compensated for "work interruption beyond their control," according to the National Recovery Administration. A Washington dispatch, Dec. 27, to the New York "Times" indicates as follows the conclusions:

Causes of "interruption" over which the employes, in the opinion of the NRA authorities, presumably have no control, include breakdowns, delays, and time spent waiting for materials from the loading or unloading of rail-

and time spent waiting for materials from the loading or unloading of railroad cars and other vehicles of transportation.

The decision results from an investigation of complaints of alleged
practices of some employers, subject to various codes, of enforcing reductions in pay for interruptions beyond the control of the employes. The
complaints were that these reductions were based on circumstances in no
way involving the willingness of the employe to work.

The question the NRA was asked to answer was:

"Under the minimum hour and minimum wage provisions of codes, may
an employer properly require an employe to take time out for such interruptions and not compute such time in determining maximum hours of
labor and the wages of such employe?"

The NRA answer, which is the decision announced to-day, reads:

The NRA answer, which is the decision announced to-day, reads:

"Time during which an employe is inactive by reason of interruptions in his work beyond his control may not be construed as time not worked, nor excluded in computing his hours of labor and wages. The term 'interruptions' includes, but without limitation, the specific instances hereinabove set forth under 'facts' whenever the imminence of resumption of work requires the employes' presence at the place of employment. Such requirement is to be presumed in the absence of adequate prior police from the ment is to be presumed in the absence of adequate prior notice from the employer that the employe is free to leave his place of employment if he

"An employer may not, however, by notifying an employe that he is free to leave for an interval too brief reasonably to be considered a temporary lay-off thus avoid computing such period as time worked."

### Value of CCC Work Put at \$291,000,000 Up to Sept. 30 by Robert Fechner

The value of conservation work performed by the members of the Civilian Conservation Corps up to Sept. 30 totaled more than \$291,000,000, Robert Fechner, Director of the CCC, estimated in an article published on Dec. 26 in the "Forestry News Digest." "Work records for the first year and a half operation of the CCC," Mr. Fechner said, "make it clear that the CCC has been an outstanding eco-nomic success." Mr. Fechner had previously recommended to President Roosevelt that the CCC be continued, and that camps be maintained where unemployed youth assemble for forest and other conservation work. In the article mentioned above he said, in part:

tioned above he said, in part:

"The figures, as compiled by the Bureau of the Census from reports sent to Washington by camp superintendents disclose that CCC men completed more than 40,000 miles of truck trails through forest areas as a fire-prevention move, completed more than 25,000 miles of telephone lines, improved more than 1,000,000 acres of forest lands, protected milions of acres from the destructive attacks of fires, insects, tree diseases and other forest pests and developed recreational projects valued at millions of dollars.

"More than 700,000 small dams have been constructed to protect valuable agricultural lands from erosion and to minimize the danger of floods. More than 200,000,000 trees were planted and thousands of man-days spent in nursery work growing seedlings for future plantings."

### Reports to President Roosevelt on Radio and elegraph Investigations—President Orders Two Telegraph Investigations—President Orders Two Major Telegraph Companies to Adopt NRA Code or Offer Substitute Pact

Members of the Federal Communications Commission on Dec. 22 submitted to President Roosevelt a report outlining briefly the recommendations they are likely to make to Congress covering the radio, telegraph and telephone service. The Commission has already completed its investigations of the radio and telegraph industries, and will make a report to Congress Feb. 1. President Roosevelt on Dec. 20 was said to have advised the two major telegraph companies that they must accept the code for their industry, which has been pending for more than a year, or must submit a substitute of their own. This statement was made by the President at a White House conference with leaders of the indus-A Washington dispatch of Dec. 20 to the New York "Times" discussed the conference, in part, as follows:

"Times" discussed the conference, in part, as follows:

Those present at the conference were S. Clay Williams, Chairman of the National Industrial Recovery Board, and the whole membership of the Board; Judge Eugene R. Sykes, Chairman of the FCC; Newcomb Carlton, Board Chairman of the Western Union Telegraph Co.; Sosthenes Ben, Chairman of the Board of the International Telephone & Telegraph Co., of which the Postal Telegraph Co. is a unit, and L. H. Peebles, who is in charge of the proposed telegraph code.

At least a part of the Administration's insistence on a code for the telegraph industry was ascribed to the President's desire to have all major business interests operating under the National Recovery Administration when he presents to Congress new legislative proposals for perpetuating the major points of the recovery program.

The National Industrial Recovery Act will expire on June 15, but fair trade practices, stipulations regarding minimum wages and maximum hours of work and other high points of the Administration recovery program as it affects business will be recommended before that date as subjects for new legislation.

new legislation.

A code for the telegraph industry has been hanging fire since September 1933, when the industry submitted one which was unsatisfactory to the

At various times General Johnson threatened to impose a code on the industry.

NRA Drafted Own Code
Following months of effort by the NRA to obtain satisfactory revision of the proposed code, hearings were begun on April 2 1934. The proposed code provided for a 48-hour week to be averaged for every 13 weeks' period, and minimum wages of \$12 to \$15 a week, according to the area of population.

The minimum wage and maximum hour provisions would not, according to the proposed code, apply to those earning above \$35 a week.

We also quote from a Washington dispatch of Dec. 22 to the New York "Herald Tribune" regarding the FCC report to the President:

Although Chairman Sykes would not discuss the details of the conference with the President to-day, beyond saying that the present status of the report has been considered, plans and dates for two inquiries were announced by the Commission.

Jan. 21 has been set for hearings on interlocking directorates in the com-

Jan. 21 has been set for hearings on interlocking directorates in the communications field. Leading officials of the radio, telegraph, telephone and cable companies have been summoned to appear. More than 400 applications, it was learned, are now pending before the Commission for authority to hold positions of officer or director of more than one carrier.

A hearing has been called for Jan. 14 to inquire into the present operation of the "franking" privilege, particularly as it relates to the telegraph companies. The purpose of the Commission is to curtail the use of telegraph frank, now said to be unlimited, by officials of railroads, steam-ship lines, air services and bus transport companies.

The FCC has given a month or more to hearings on the proposals to allot 25% of radio time to educational broadcasts. Other hearings covered the proposed merger of the Western Union and the Postal Telegraph companies, and possible consolidation of all "record" forms of communication, both national and international. The inquiry into the telephone field, bicenses and purchase of equipment from the Western Electric Co., is under way.

The White House discussion to-day also turned more or less on the NRA code of fair competition, which the Administration has indicated it will impose on the telegraph companies. Members of the Commission were party recently to a White House conference with officers of the telegraph companies when the code question was considered.

### Brooklyn Fur Companies Declared Violators of NIRA for Moving Plants Outside New York City— NLRB Finds Them Ignoring Collective Bargaining

The National Labor Relations Board on Dec. 24 ruled that two Brooklyn fur dressing companies had violated Section 7-A of the National Industrial Recovery Act when they closed their plants and moved them outside New York City, meanwhile refusing to continue collective bargaining negotiations with their employees. The two concerns in question are the Globe Gabbe Corp. and the Shuster Gaio Corp. The Board ordered the companies to reinstate its Brooklyn employees who desire work at the new location, to establish a preferential list for old employees who cannot be re-employed at once, to recognize and bargain collectively with two unions as representing all employees, and to notify employees that it is not a condition of employment that they resign from unions.

A dispatch from Washington, Dec. 24, to the New York "Times" outlined the history of the case as follows:

Globe Gabbe moved its plant to South Norwalk, Conn., while the Shuster Gaio Corporation transferred its operations to Farmingdale, L. I. The complaining unions were the fur dressers and the fur floor workers organizations.

organizations.

Both companies had for years been operating under written closed shop agreements with the two unions and in February and March had reached an understanding with these and other companies in the same trade, pending the negotiation of new contracts.

The understanding as interpretated by the National Labor Board was that "there would be no strike or lockout and that wage scales and working conditions as provided for in the expired contracts would prevail until the new contracts were signed."

The two companies participated actively in the negotiations with the unions and then in May, without formal notice to their employes, moved their plants, at the same time refusing to bargain collectively as to the conditions upon which the New York workers might be transferred to the new plants, the board declared. the new plants, the board declared.

# Gulf Refining Co. Contends NIRA Is Unconstitutional —Asks Court for Dismissal of Indictments Charging Violation of Oil Code

The National Industrial Recovery Act is unconstitutional, the Gulf Refining Company contended Dec. 24 in a demurrer asking the United States District Court at Philadelphia to dismiss indictments charging the company with code violations on 72 counts. The company asserted that the President has no right to define what constitutes a criminal offense under the law, and said that the delegation of such power to the President by Congress was "unauthorized and unconstitutional." Associated Press Philadelphia advices of Dec. 24 described other arguments advanced by the company as follows:

Another argument given for dismissal of the indictments was that the NIRA did not apply to commerce within a State, the demurrer holding that the company's alleged violations concerned work done within Penn-

sylvania. The i The indictments accoused the Gulf firm of breaking maximum-hour regulations by working maintenance employes as long as forty-eight consecutive hours during strike trouble at its plant here last Summer. International Typographical Union Votes 40-Hour-Week Limitation—Authorizes Increased Tax for Unemployment Relief

The International Typographical Union on Dec. 20, by a vote of 21,914 to 21,857, decided that no subordinate union might enter into a contract for a work week of more than 40 hours. By the same vote it was made optional for local unions to levy up to 3% of salaries for the purpose of unemployment relief, as compared with the previous limit of 1%. The union voted by 31,874 to 11,350 against a proposition to increase the salaries of its First and Second Vice-Presidents, and by a vote of 24,277 to 14,540 approved an amendment to the constitution to include a form of charter to be granted to local unions.

Regarding the work week, Woodruff Randolph, Secretary of the International Typographical Union, explained at Indianapolis on Dec. 20, according to the Associated Press, that under the existing system local unions in newspaper offices were limited to a maximum of 48 hours a week, while those in commercial printing plants had the 40-hour maximum, but most newspaper unions had been operating on a 45-hour-week basis. The press advices from Indianapolis added:

apons added:

The proposition on the work week was as follows:

"To amend Article 11 of the General Laws to provide that no subordinate union shall make a contract for a work week in excess of 40 hours; prohibiting a member from holding a situation obligating him to work in excess of 40 hours; to provide that in offices where the regular daily shift exceeds six hours and 40 minutes, no member shall work more than five shifts in a financial week when a substitute is available; to permit special assessment for out-of-work relief by a vote of the local unions of not more than 3% on earnings."

### NRA Suspends Minimum Prices Under Lumber Code— Quotas Set for First Quarter of 1935

The National Industrial Recovery Board on Dec. 22 suspended its orders establishing minimum prices under the lumber code, although at the same time continuing the operation of all production control provisions of the pact. The Board stated that on Jan. 9 it will begin a series of open hearings on the general question of price regulation by codes. The Board states that the order suspending minimum prices follows a long agitation of the price question and a hearing by the Board on Dec. 11-13 1934, following an application of the West Coast Logging and Lumber Division and some other administrative units for the suspension of prices in their jurisdiction. The Board found that prices should be suspended in those divisions and that the inter-relation of the industry is such as to require suspension of all other prices under the code.

Major David T. Mason, Executive Officer of the Code Authority, authorized the following statement:

Prices are out of the Lumber Code but that does not mean that the Lumber Code is washed up. To-day the NIRB ordered the suspension of minimum prices under the Lumber code, effective immediately, but in the same order emphasized reliance on production control as a stabilizing factor, and in addition provided for the study of costs and prices, with the object of taking steps to deal with destructive price cutting if and to

factor, and in addition provided for the study of costs and prices, with the object of taking steps to deal with destructive price cutting if and to the extent that the practice develops in the industry.

Our code as originally approved by the President substantially shortened hours and greatly increased wages in our industries. To protect working capital in order to be able to pay the increased wages and to meet other increased expense due to shortened hours and the conservation features under our code, the President authorized two measures of prime importance. These measures were production control, to balance supply with demand, to prevent destructive overproduction, and price control at levels below full cost but sufficient to return out of pocket expense. Unfortunately fallure to include the wholesalers under the code, fallure to promptly prosecute code violators in the early stages of code operation, and later conflicting decisions in the lower Federal courts, led to serious impairment of the price structure in some divisions.

Testimony at a public hearing in Washington on Dec. 11, 12 and 13 showed a serious breakdown of prices in a few of the more important Divisions. While the maintenance of price control was advocated for most of the divisions at this public hearing, the NIRB on the basis of the evidence presented has by to-day's order determined that it is impracticable to maintain prices in some of the major divisions and that if prices are not maintained in these divisions, it is not practicable to maintain them in the other divisions of the industry. Therefore, the order eliminates prices in all divisions of the industry but indicates that production control must bear the brunt of stabilizing the industry. The order also provides for investigation of costs and prices with the object of observing destructive price cutting, if it develops, and of taking steps to prevent it in case it does develop.

The action of the Board eliminating prices is regarded as clearing up an

price cutting, if it develops, and of taking steps to prevent it in case it does develop.

The action of the Board eliminating prices is regarded as clearing up an impossible situation in some divisions and at the same time it brings a bitter disappointment to other divisions. While this action undoubtedly will create serious distrubance in the industry as a whole, every effort will be made by the leaders of the industry to minimize the difficulties and to restore order as promptly as practicable. NRA has already taken steps, for all codes, designed to bring vigorous prosecution of hour and wage violations; at the same time we expect vigorous support from NRA in maintaining production control.

The industry is in rough water but it will weather the storm.

The industry is in rough water but it will weather the storm.

The operative part of the NIRB order, after calling attention to the fact that Article VIII of the Lumber Code, which provides for the control of production, is still in full force and effect, concludes as follows:

1. That Administrative Orders Nos. 9-46 and 9-58, dated July 16 and July 25 1934, respectively, and all Administrative orders supplementary thereto be and they hereby are suspended;
2. That the Research and Planning Division be and hereby is directed to study the prices at which lumber and timber products are sold or offered for sale and to advise the NIRB whenever said division determines that destructive price-cutting exists as to any item of said products; and \$\pi 3\$. That, subject to the provisions of Article IX of said code, this order may be stayed as to said reasonable costs of any item or items of said products and the rules and regulations for their application, whevever the NIRB finds that destructive price-cutting exists with respect to said item or items.

The Lumber Code Authority at a meeting in Washington which adjourned on Dec. 15, fixed total allowable lumber production and regional production alllotments for the first three months of 1935. An announcement from the NRA gave the new lumber quotas as follows:

gave the new lumber quotas as follows:
Although expecting an appreciably increased demand for lumber in the spring and summer, the Authority, in fixing the total allowable lumber production for the first three months of 1935, also kept in mind the need for a better balance between stocks on hand at the mills and the movement of lumber to the trade. The Authority, therefore, settled upon a total first-quarter 1935 output for softwoods and hardwoods 10% and 26% respectively under the aggregates it allowed a year ago for the first quarter at 1934

The following is a comparison of total softwood production allowed for the first quarter of 1935 and that for the same period a year ago, together with the regional allotments established by the Authority:

| Region  | 1935 First-Quarter<br>(in Multions of Ft.)  | 1934 First-Quarter<br>(in Millions of Ft.)                  |
|---|---|---|
| Southern Pine. West Coast. Tillamook Burn. Western Pine. Redwood. Cypress. Northern Pine. Northern Hemlocks. Menominee Blowdown. Northeastern Softwood. Appalachian Softwoods Sustained Yield.* | 1,194.9<br>1,181.3<br>45.0<br>745.0<br>108.0<br>60.0<br>26.6<br>65.7<br>1.5<br>86.1<br>36.2 | 1,460.0<br>1,460.0<br>740.0<br>99.0<br>45.0<br>24.0<br>76.0 |
| Total softwoods   | 3,562.3   | 4,016.0   |

Total allowed hardwood production for the first quarter of 1935 and regional allotments compared with the same period a year ago as follows:

| Region  | 1935 First Quarter<br>(in Millions of Ft.) | 1934 First Quarter<br>(in Millions of Ft.) |
|---|--|--|
| Appaiachian & Southern  | 522.9<br>112.4                             | 705.0<br>147.8                             |
| Menominee Blowdown<br>North Central<br>Northcastern hardwoods | 1.6<br>30.4<br>52.3                        | 52.8<br>73.8                               |

### Supplementary NRA Code Approved for Gasket Manufacturing Industry

The National Industrial Recovery Board announced on Dec. 21 approval of a supplementary code for the gasket manufacturing industry, a product group of the automotive parts and equipment manufacturing industry. It will

parts and equipment manufacturing industry. It will become effective Dec. 30. The announcement added:

There are no wage and hour provisions in the supplementary code. Those of the basic automotive parts code will apply; they establish a maximum work week of 40 hours at minimum wages of 40 cents an hour for males and 30 cents an hour for females in processing operations, and \$15 a week for other employees.

The trade practice rules approved include the standard emergency price provisions, regulation of allowances for returned goods, maximum discounts, an open price association, customer classification, warehousing rules, as well as certain standard clauses.

The supplementary code will be administered by the Executive Committee of the Automotive Gasket Institute, and the National Industrial Recovery Board is empowered to add one member to represent members of the industry who are not members of the Institute.

# President Roosevelt Approves Code for Retail Meat Trade—Hours and Wages Similar to Those in Food and Grocery Pact

The National Industrial Recovery Board on Dec. 22 announced that President Roosevelt had approved a code

for the retail meat trade, to become effective Dec. 31 in the case of establishments in which sales of meat are equivalent to 50% or more of total sales. He also approved a separate schedule, amounting to a supplementary code, with minimum wages about twice those for other shops, for retailers of kosher meat. The labor provisions of the retail meat code are similar to those in the code for the food and grocery trade. Maximum working time is fixed at 48 hours weekly, with minimum wages of between \$10 and \$15 a week, according to population, with a \$1 differential in The maximum hours provisions do not apply to the South. managers if they receive certain minimum salaries. Allowance is made for overtime in holiday periods.

Other provisions of the code were given as follows in a Washington dispatch of Dec. 22 to the New York "Herald Tribune":

The schedule for the Kosher trade establishes minimum wages of \$25 in cities over 1,000,000 and \$20 elsewhere for employees engaged in cutting or preparing meats for sale or assisting in such work. Messenger boys and delivery boys in the South are not subject to the minimum wage provisions but must receive at least 20% more than the rate prevailing June 15

1933.

The code makes it an unfair trade practice to misrepresent meat as that for which a definition of identity has been prescribed by the Department of Agriculture and which simulates such a product or fails to conform to such definition, and to sell meats which have been kept in storage below freezing longer than 30 days except as cold-storage meat.

It also contains the standard destructive-price-cutting provisions and permission for the National Industrial Recovery Board to establish minimum prices during any emergency found to exist. These rules, however, were stayed by the President's order of approval until the same provisions can be incorporated in codes governing the retailing of meat not covered by this code.

The letter transmitting the code to the President said:

"Provisions governing the advertising and selling methods for the dealers who will be governed by this code should be incorporated in the code of fair competition for the retail food and grocery trade."

Other trade practice rules, which are not stayed, prohibit defamation of competitors, commercial bribery, inaccurate advertising, false invoicing, enticing employees and selling except by net weight of 16-ounce pounds.

The President's order approving the code prescribes the constitution of the Code Authority. It is to consist of 11 industry members, seven to be selected by the board of directors of the National Association of Retail Meat Dealers, Inc., one by the Federation of Kosher Butchers of Greater New York, Inc., one by the National Association of Meat, Poultry and Game Purveyors, and two by the NIRB to represent members of the trade not affiliated with those organizations. If any memberships remain unfilled after 30 days, the board may appoint representatives.

The schedule for the kosher trade is to be administered by an 11-member code authority, seven selected by the board of directors of the Federation of Kosher Butchers of Greater New York, Inc., and four by members of associations affiliated with the Federation.

### ion's 1,200 Newspapers to Consider Action of NLRB in San Francisco "Call-Bulletin" Case— Regarded as Attempt to Usurp Power Over Code For Newspaper Publishing Business

Announcement of an immediate convention of 1,200 of the Nation's newspapers to consider the National Labor Relations Board action in the San Francisco "Call-Bulletin" case "as it affects their continuance" under the Daily Newspaper Code, was made through the Associated Press on Dec. 27 by Howard Davis, Chairman of the Publishers' National Code Committee.

According to Mr. Davis, who is also President of the American Newspaper Publishers' Association, "the issue raised by the National Labor Relations Board has precipitated the gravest problem with which the press of this country has yet been confronted." He issued his statement after the Labor Board at Washington on Dec. 27 had asked the NRA Compliance Division to remove the "Call-Bulletin's" blue eagle for failing to heed the Board's order for the reinstatement of Dean S. Jennings, a re-write man.

Mr. Davis states that the action of the NLRB is regarded by the six associations of daily newspaper publishers as a violation of the code.

A letter addressed to the National Recovery Administration by the six associations points out that "the newspaper code contains complete, final and exclusive provisions for the adjustment of controversies arising from the application of its provisions" and adds that the NLRB has not only asserted a jurisdiction over a controversy which, by both the spirit and letter of a solemn compact between the President and the publishers, was exclusively vested in the Newspaper Industrial Board, but even has asserted a claim to superior jurisdiction." The letter concludes with the request that "you [the NRA] repel this usurpation of power on the part of the NLRB in order that the good faith of the Government may be maintained and the code preserved.' The statement issued by Mr. Davis, in which is embodied the letter of the publishers to the NRA follows:

The action of the National Relations Board in the San Francisco "Call-Bulletin" case constitutes, in my opinion, an attempt to usurp power over

the code for the daily newspaper publishing business, which is specifically prohibited by Articles VI and VII of the Newspaper Code.

This attempt was characterized by Donald R. Richberg, former General Counsel of the NRA and now Director of the President's Emergency Council, in his statement filed with the Board on Dec. 7, as a breach of faith by the Government.

It is regarded by the consolidation of All Regarded by the consolidation of the Regarded by th

faith by the Government.

It is regarded by the six associations of daily newspaper publishers which co-operated in the preparation and submission of the code as a violation of the code. Representatives of these associations met in New York on Dec. 17 and 18 to consider the issue raised by the NLRB. After a thorough discussion they submitted their views in writing to NRA.

Under instructions from these associations a convention of the 1,200 daily newspapers which have assented to the code will be called immediately to consider the situation as it affects their continuance under the code. The issue raised by the NLRB has precipitated the gravest problem with which the press of this country has yet been confronted. The nature of that problem is fully set forth in the communication of Dec. 19 to NRA from the six publisher associations as follows:

#### Letter to NRA

"The National Recovery Administration,

"The National Recovery Administration,
"Washington, D. C.
"Sirs.—The six associations of daily newspaper publishers, representing more than 1,200 newspapers which have assented to the code for the daily newspaper-publishing business, are compelled to call to your attention a situation now existing which, under certain conditions beyond the control of the signatory newspapers, may render the code invalid.
"The facts are simple. The Newspaper Code contains complete, final and exclusive provisions for the adjustment of controversies arising from the application of its provisions. The NLRB has not only asserted a jurisdiction over a controversy which, by both the spirit and letter of a solemn compact between the President and the publishers, was exclusively vested in the Newspaper Industrial Board but even has asserted a claim to superior jurisdiction. jurisdiction.

jurisdiction.

"It has directed a member of one of our associations to comply with its order prior to Dec. 22. Failing this, the case will be referred to the Compliance Division of the NRA and to the enforcement agencies of the Federal Government for appropriate action.

"We respectfully point out to you that the action of the NLRB is illegal and void and constitutes an attempt to destroy the agreement between the individual publishers and the President.

#### Drafting of Newspaper Code

"Our position is the simple one that the newspapers, at the request of the Government, drafted and signed the newspaper code; that this code was a carefully limited agreement between the individual newspapers assenting thereto and the Government, being so drawn in order to safeguard the freedom of the press; that the basic clause protecting these safeguards was the agreement by the Government not to alter the code save with the consent of each individual newspaper; and that the NLRB by its decision now denies the binding force of this limitation and thereby seeks to destroy the agreement thus entered into.

"As you may recall, the Newspaper Code was the result of a love of the consent of the code and the newspaper code was the result of a love of the code."

"As you may recall, the Newspaper Code was the result of a long effort on both sides. Because of the extraordinary powers granted the President under the Recovery Act, including especially the right to license, there were many publishers who from the start felt that the risks were too great to be born and the code system could not safely be applied to a

were many publishers who from the start felt that the risks were too great to be born and the code system could not safely be applied to a free press.

"The progress of newspapers toward freedom of utterance over the centuries had been one long effort to end the system of Government license. Whenever in recent years a dictatorial government in Europe had taken control of the press, it has been through the machinery of license. The publishers' hesitation was understandable. But the desire to co-operate with the recovery plans of the Government was strong and the Newspaper Code was finally drafted, approved by the President and assented to by all but a few newspapers of the country.

"In that process of negotiation, it was repeatedly made clear to the NRA that the newspapers could not accept a code that could be modified in any respect after it was agreed to save by the consent of the individual publishers affected thereby. This clause was fundamental; without it the other safeguards obviously were futile. The President agreed to accept the Newspaper Code with this clear and precise limitation upon the general right to modify granted by the Recovery Act.

"The newspapers of the country signed an agreement containing as its most essential clause this limitation on the right to modify. Upon this there can be no dispute. The executive director of the National Emergency Council was, as General Counsel of the NRA, at the centre of the negotiation and his testimony confirms the view of the newspapers. We quote from his memorandum read before the NLRB on the rehearing of this case:

"The merits or wisdom of the action of the publishers or the President are not involved in questions presented to the NLRB nor are they the appropriate subject of discussion. It is, however, an essential obligation of the Government and of any agency of the Government to maintain good faith.

"The agreement made and embodied in Article VII should certainly be maintained by any agency of the Government to evade its obligations by any legal ha

"We cannot allow the integrity of the instrument to be violated for any reason great or small.

"Even though the issue of the freedom of the press may not be involved in the question of whether an employee of a certain newspaper is dismissed, that is not the issue in this case. The issue of the freedom of the press is raised rather by the attempt of the NLRB to place a construction on Article VII of the code contrary to that understood by the parties to the compact, and thus, in effect, to modify the code in violation of the restrictions against modification. tions against modification.

#### Precedent Would Destroy Freedom of Press

"In the present case, a bureaucratic board is endeavoring to arrogate to itself power to modify the code. If conceded, this would undermine the Bill of Rights as preserved therein. The newspapers cannot safely wait until the process of destruction is started. The precedent set by this case would, if sustained, destroy at a stroke the essential safeguard of the freedom of the press contained in the Newspaper Code.

"If the newspapers now submitted to it, the threat for the future would be clear. The mischief would be done if the newspapers failed to protest the assumption by the NLRB that the code may be modified in derogation of the restriction contained in Article VII against the effect of such modification in the absence of consent by the publishers. The courts might regard such acquiescence as a waiver of the constitutional right itself. And it would lie in the mouth of no newspaper which sat silent to-day and remained under the code to assert its constitutional rights later in protest.

"These associations which, in behalf of their membership, participated in the negotiations leading up to the submission and approval of the code therefore feel their course to be clear. They cannot permit the future of the press of America to be compromised and endangered. Both for their

own protection and as trustees of a public right, they cannot sit idly by and see their charter of freedom, preserved as in the code, bearing the President's approval, become a scrap of paper.

"Therefore, these associations—American Newspaper Publishers Association, New England Daily Newspaper Association, Southern Newspaper Publishers Association, Del-Mar-Va Association, Inland Daily Press association and Pacific Northwest Newspaper Association—come to you as the agency set up by the President to administer the NIRA with the request that you repel this usurpation of power on the part of the NLRB in order that the good faith of the Government may be maintained and the code preserved. preserved.

"By direction of the above-named associations.

"Very truly yours,

"HOWARD DAVIS.

Laws to Check Communist Activities in United States Advocated by William Green—A. F. of L. Head Says They Will Reach Danger Point Unless Curbed Immediately

Enaction of laws designed to restrict Communist activities in the United States was advocated Dec. 17 by William Green, President of the American Federation of Labor, testifying before the House Committee on un-American Activities. Other witnesses before the Committee confirmed Mr. Green's opinion that although such activities are not now a menace to American institutions, they will inevitably develop to a dangerous extent unless immediately checked. Mr. Green said that New York is the source of more present and future trouble along such lines than is Chicago or any other city in the country, and supported his assertion by mentioning the allegedly Communist-controlled activities of needle trade workers in the fur industry. This testimony was described, in part, as follows, in a Washington dispatch of Dec. 17 to the New York "Times":

of Dec. 17 to the New York "Times":

Documentary evidence of the efforts of Communist organizations to undermine trade unionism and get control of the organized labor movement in this country was presented by Mr. Green in behalf of the American Federation of labor. Evidence of the violent and unlawful nature of the activities, specifically of the needle workers, complained of by Mr. Green, was presented by Representative McCormack, Chairman of the Committee.

Abstracts of testimony taken in executive session in New York City by the Committee on Nov. 20 to 24, and made public to-day by Mr. McCormack, included supporting evidence in the form of canceled checks, alleged forced payments in amount of 3% of their payroll exacted from employers by the Needle Trade Workers Industry Union.

#### Tells of "Assessments"

Tells of "Assessments"

Albert A. Williams, whose concern has been in business for 117 years, told in his New York testimony of making such "contributions" from February 1933 to March 1934, and of 2% assessments he said were exacted from his 150 employees. He said his company had agreed to make these payments to protect the employees, some of whom were forcibly removed from the premises to Communist headquarters, and further, because they had a large number of valuable skins on which work was only half finished and which would have been a total loss if they had not signed the agreement.

He submitted canceled checks showing that the money had been deposited to the credit of the Needle Trade Workers Industry Union of the United States of America and placed in a special fund known as "Rabbit Pressers Unemployment Fund."

John F. Mallon, actuary of the Fur Dressers and Dyers Association, Inc., testified that 15 concerns connected with his organization had suffered as a result of the Communist activities of the "left-wing" union having contracts with them, many employers paying the 3% demanded of them and others sustaining pecuniary damage in varying amounts for refusing to do so.

### Annual Banquet of American Acceptance Council to Be Held Jan. 28

The Sixteenth Annual Banquet of the American Acceptance Council will be held at the Waldorf-Astoria, Monday evening, Jan. 28 1935. The guests of honor and speakers will be William Phillips, Under-Secretary of State, Thomas J. Watson, President of the International Business Machines Corp. and Allan M. Pope, President, The First Boston Corp. and President of the Council. The general theme of the program will be the foreign trade of the United States. It is expected that about a thousand guests will attend, according to Robert H. Bean, Executive Secretary of the Council.

# Union Wages to Prevail on Public Works Projects— New York State Commissioner Brandt and Labor Officials Agree on Local Scale

An agreement on wages to be paid on State and Federal public works projects in the five counties of New York City has been reached by Captain Arthur L. Brandt, New York State Commissioner of Highways, and officers of the State Federation of Labor, it was announced on Dec. 26, according

to Albany advices on that date to the New York "Herald Tribune" which went on to say:

Under the agreement the prevailing wage, which is also the union scale of pay, will prevail on all contracts, both state and Federal, as Captain Brandt represents the Federal government in emergency public

Captain Brandt represents the Federal government in emergency public works projects.

Captain Brandt was criticized at a recent meeting of the Executive Council of the State Federation for alleged failure to insist upon prevailing rates of pay. At the meeting at which the agreement was reached the Federation was represented by George Meany, State President; John M. O'Hanlon, Secretary-Treasurer; Leonard J. Klink and Michael J. Finn, representing the Structural Steel and Metal Lath Workers; Charles A. Hanson, of the Carpenters' Union, and Thomas J. Curtis, of the New York City Building Trades Council.

#### Trust Division of American Bankers Association to Hold Mid-Winter Trust Conference in New York, Feb. 12, 13 and 14

The 16th annual mid-winter trust conference of the Trust Division, American Bankers Association, will be held Feb. 12 13 and 14, at the Hotel Waldorf-Astoria, New York City, it is announced by Leon M. Little, President of the division, and Vice-President New England Trust Co., Boston, Mass. The annual banquet which brings the conference to a close will be held the evening of Feb. 14. An announcement in the matter said:

This annual three-day meeting, which brings together representatives of the leading trust companies and banks in all parts of the country, is expected to be of unusual importance this year, according to Mr. Little. He pointed out that problems have arisen under present-day conditions that have an important bearing upon the operation policies of trust companies and banks with trust departments.

## Meeting of Municipal Bond Men to be Held in Chicago Jan. 14 and 15—Forum to be Conducted by Invest-ment Bankers Association

Municipal bond men from all parts of the United States will hold a two-day forum Jan. 14 and 15 at the Palmer House, Chicago, the municipal securities committee of the Investment Bankers Association of America announced Dec. 27. All members of the Association are invited to attend. The forum will consist of five sessions at which All members of the Association are invited to developments affecting State and municipal financing will be discussed. Foremost among the subjects of the forum will be State and local taxation and effective methods of meeting relief problems. The announcement of Dec. 27 further said:

further said:

Special reports covering state and municipal finances in practically every state of the Union will be presented at the forums. In preparing the forum program the country has been divided into 24 districts and one of the 24 members of the municipal securities committee has been assigned to each district to see that information on important situations in each district is available for the round table discussions of the forums. D. T. Richardson of Kelley, Richardson & Co., Chicago, Chairman of the municipal securities committee, will preside at the meetings. Among the speakers from civic organizations who will take part in the forum are Carl Chatters, Executive Secretary of the Municipal Finance Officers Association. A similar forum was held by the Investment Bankers Association two years ago, but covered only 14 states. The success of that effort led to organization of the forthcoming meeting on a national scope. Investment bankers from all principal cities of the country will attend the forum.

### Elon H. Hooker to Address New York Chamber of Commerce on Jan. 3 on "Government Utilities"

Elon H. Hooker, President of the Hooker Electrochemical Co., of Niagara Falls and Tacoma, Wash., will address the Chamber of Commerce of the State of New York at its first 1935 meeting on Jan. 3. Mr. Hooker, who is a large consumer of electric power, will discuss Government encroachment in the public utility industry and what it means to the taxpayer and investor.

#### Reopening of Closed Banks for Business and Lifting of Restrictions

Since the publication in our issue of Dec. 22 (page 3907) with regard to the banking situation in the various States, the following further action is recorded:

#### MASSACHUSETTS

Arthur Guy, State Bank Commissioner of Massachusetts, on Dec. 21 announced plans for the division of approximately \$8,000,000 to 100,000 depositors of eight closed banks, made possible, in part, by a \$5,000,000 loan from the Reconstruction Finance Corporation. The closed banks and the amount and percentage of their dividends, as given in Associated Press advices from Boston on Dec. 21 reporting the matter, follow:

The Exchange Trust Co. of Boston, a 10% dividend amounting to \$783,000; the Bancroft Trust Co. of Worcester, 10%, \$455,000; the Central Trust Co. of Cambridge, 32%, \$2,093,000; the Charlestown Trust Co. of Charlestown, 35%, \$689,000; the Highland Trust Co. of Somerville, 15%, \$608,000; the Inman Trust Co. of Cambridge, 10%, \$214,000; the Merchants Trust Co. of Lawrence, 10%, \$330,000; the Revere Trust Co. of Revere, 10%, \$91,000.

The dispatch continued:

In addition the commercial depositors of the Central Trust will receive \$300,000, or 15%, and those of the Inman Trust a 10% dividend of \$82,000.

Between \$45,000 and \$50,000 was paid out Dec. 22 by the Athol National Bank, Athol, Mass., in the third dividend paid since the bank closed a year and a half ago, according to a dispatch from that place on Dec. 23, printed in the Springfield "Republican," which added:

The dividend to-day was for  $12\frac{1}{2}\%$ . The other two were for 25% each. The dividend was paid at the First National Bank here.

#### MICHIGAN

Regarding the affairs of the defunct Berkley State Bank of Berkley, Mich., the "Michigan Investor" of Dec. 22 carried the following:

With the sale at public auction in Pontiac of the remaining assets of the Berkley State Bank, Berkley, the receivership was terminated. This sale will mean a dividend to depositors of from 3 to 4% to add to previous dividends of 27.5%. The bank closed March 17 1931.

The reorganized State Bank of Ortonville, Ortonville, Mich., opened for business on Dec. 18 and began payment of a 40% dividend totalling \$80,000 to the depositors. The new institution is capitalized at \$25,000 and has the following officers: Hugh Taylor, President; Herman Profrock, Vice. President; John Waltz, Secretary, and William Narrin, Cashier. The "Michigan Investor" of Dec. 22, authority for the above, continued:

The reorganization was accomplished under the direction of Conservator James R. Leece. The institution is able to release its 40% payment and reopen for business without borrowing any additional funds.

According to the "Michigan Investor" of Dec. 22, the Romeo Savings Bank of Romeo, Mich., was scheduled to reopen on Dec. 24 and release 40% of impounded deposits. The officers were named as John J. Brewer, President; Henry F. Rumsey, Vice-President, and Dwight F. Seamen, Cashier.

#### OREGON

An order was issued last week by A. A. Schramm, State Superintendent of Banks for Oregon, giving the Steiwer & Carpenter Bank of Fossil, Ore., until Jan. 31 to complete reorganization. Salem, Ore., advices to the Portland "Oregonian" of Dec. 20, from which this is learned, continuing, said:

This bank has been operating on a restricted basis. Thirty-five per cent of the restricted deposits of the bank previously were released, Schramm

#### PENNSYLVANIA

From the Philadelphia "Inquirer" of Dec. 23 it is learned that the Gosstonyl Savings & Trust Co. of Bethlehem, Pa., has been reorganized and was authorized to reopen on Dec. 24 under the title of the Gosstonyl Bank by Dr. William D. Gordon, the State Secretary of Banking for Pennsylvania. The paper went on to say:

The capital has been fixed at \$200,000. The surplus is \$100,000, undivided profits total \$10,000 and deposits \$517,523. The officers are: President Rosi Gosstonyl, Vice-President, Rudolph Gosstonyl, Cashier and Secretary, Charles A. Gosstonyl; Assistant Cashier, Joseph G. Tatoccka.

#### RHODE ISLAND

We learn from the Providence "Journal" of Dec. 19 that an additional dividend of 8% was authorized on Dec. 15 by Governor Green and Latimer W. Ballou, State Bank Commissioner for Rhode Island and was to be paid Dec. 19 to persons who had commercial or time deposits in the Columbus Exchange Trust Co. of Providence, R. I., according to an announcement by the Governor the previous day. The paper mentioned added:

This will be the second dividend paid on deposits of the bank, which has been in charge of Conservator Achille Vervena since 1933. The former dividend was 60%

Resumption of business by the Lorain Street Savings & Trust Co. of Clveland, Ohio, by Jan. 2, under its new setup as the Lorain Street Bank, where accounts up to \$100 would be available in full and 30% of larger accounts would be freed, with a minimum of \$100 available, was forecast last night, following Reconstruction Finance Corporation approval of a \$1,200,000 loan and purchase of \$200,000 in the new bank's debentures. The Cleveland "Plain Dealer" of Dec. 18, from which this is learned, continued:

of Dec. 18, from which this is learned, continued:

R. M. Huston, President-elect of the new bank and conservator-liquidator of the old institution, said last night that an extra force of employees was working day and night to speed the operations incidental to reorganization, in which remaining frozen assets would be segregated in the Fulton Mortgage Loan Co. for the benfit of depositors.

It was expected that the details of reorganization could be concluded within a few days and formal negotiation of the loan completed.

The RFC yesterday also approved the purchase of \$100,000 of debenture notes of the Bank of Cleveland, where Stanley Klonowski is President. It was said this would enable the bank to free all deposits under \$25 and to release 55% on all larger accounts, as well as to pay in full public fund deposits of \$150,000.

Both banks will reopen with Federal Deposit Insurance Corp. protection

Both banks will reopen with Federal Deposit Insurance Corp. protection for their depositors.

The Lorain Street reorganization plan contemplates that from the \$1,200,000 RFC loan will be deducted \$200,000 to repay an old RFC loan and \$662,000 to release public deposits.

Concerning the affairs of the closed Farmers' Banking Co. of Lakeview, Ohio, a dispatch from Bellefontaine, Ohio, appearing in the Toledo "Blade", had the following to say:
An application to reopen the Farmers Banking Co. at Lakeview early next year, with 50% of the general claims against the institution immediately payable in cash was filed in common pleas court here by I. J. Fulton, State Superintendent of Banks. The hearing will be Jan. 8.

ITEMS\_ABOUT BANKS, TRUST COMPANIES, &c.

The New York Cotton Exchange membership of John L. Burdett was sold Dec. 27 to Walter L. Johnson, for another, at \$15,000, off \$1,500 from last sale.

A petition of the members of the New York Stock Exchange, to close the Exchange on Monday, Dec. 31, was denied at a meeting of the Governing Committee on Dec. 26. The Commodity Exchange, Inc., will close at noon, Dec. 31, and the Montreal Stock Exchange and Montreal Curb Exchange at 12:30 p. m.

The fourteenth annual Wall Street community Christmas tree and carol singing was held at Wall and Broad Streets, in front of the New York Stock Exchange, on Dec. 24, at 12 noon. The celebration, around a large illuminated tree, lasted more than an hour. The glee club of the New York Stock Exchange led the singing, under the direction of Henderson E. Van Surdam, with Thomas J. Reynolds as accompanist, and assisted by the Harmony Trumpeters.

The New York Produce Exchange will hold its annual New Year's celebration to-day (Dec. 29), from 1 to 6 p. m. Dancing and entertaining will be featured. It is expected that approximately 2,000 will attend the party, including members of the Exchange, their guests and employees.

The Merchant's Bank of New York will open an additional office at 434 Broadway, corner of Howard Street, on January 2. This is said to be the first new banking office opened in this section of New York for five years and is reported as due to an increase in the textile business there.

W. C. Potter, Chairman of the Guaranty Trust Company of New York, announced that at a meeting of the Board of Directors on Dec. 19, Louis Edmund Zacher was elected a director of the company. Mr. Zacher is President of the Travelers Insurance Company; President and Treasurer of the Travelers Indemnity Company, and President and Treasurer of the Travelers Fire Insurance Company. Mr. Zacher began his business career in 1895, with the Charter Oak National Bank, later entering the employ of the Farmers Mechanics National Bank, both of Hartford. In 1904, he became Secretary to the President of the Travelers Insurance Company; was made Assistant Treasurer in 1910; Treasurer in 1912; Vice President in 1922, and President in 1929.

On Dec. 17 the New York State Banking Department approved a proposal to reduce the capital stock of the Rye Trust Co., Rye, N. Y., from \$200,000 at a par value of \$100 a share to \$100,000 at a par value of \$50 a share.

Plans to reduce the capital stock of the Lafayette Trust Co. of Suffern, N. Y., from \$150,000, consisting of 1,500 shares of the par value of \$100 each, to \$100,000 to consist of 2,000 shares of a par value of \$50 a share, were approved by the New York State Banking Department on Dec 17. The Banking Department also on the same day approved a change of name of the institution to the "Lafayette Bank & Trust Co. of Suffern."

The New York State Banking Department on Dec. 14 approved a proposed merger of the Lackawanna National Bank, Lackawanna, N. Y., into the Marine Trust Co. of Buffalo, N. Y., under the title of the Marine Trust Co. of Buffalo.

A 5% dividend, totaling \$207,083, was authorized to be paid to depositor creditors of the commercial department of the City Bank & Trust Co. of Hartford, Conn., by Howard W. Alcorn, receiver, in a decision handed down Dec. 14 by Judge P. B. O'Sullivan in Superior Court, we learn from the Hartford "Courant" of Dec. 15, which added:

This will bring the total disbursements to date to 60% to creditors of the commercial department. The savings department has paid 50%.

According to the Hartford "Courant" of Dec. 15, Judge O'Sullivan ordered Walter M. Bassford, receiver for the Commercial Trust Co. of New Britain, Conn., to pay a 10% dividend totaling \$176,374, bringing the total payments to 60%.

Paterson advices on Dec. 20 to the Newark "News" stated that Vice-Chancellor Vivian M. Lewis of New Jersey on Dec. 19 signed an order directing distribution of \$38,791 to depositors of the closed Guaranty State Bank in Passaic, N. J. Vincent C. Duffy, counsel to the State Commissioner of Banking and Insurance, said the funds would be available at the institution beginning Dec. 20. We quote further, in part, from the dispatch:

This dividend, which represents about 7%, is the third to be paid depositors since the institution closed Oct. 31 1931, and brings the amount distributed to date to approximately \$400,000, or 72% of the total deposits. The first dividend, of 60%, was paid in May 1932, and the second, for 5%, in December 1932.

Mr. Duffy was accompanied yesterday by John F. McGuire, Special Deputy Assistant Banking Commissioner, who is in charge of the bank.

Payment of dividends to the depositors of three Pennsylvania closed banks—the Commercial National Bank of Philadelphia, the Merion Title & Trust Co. of Ardmore, and the Jordan State Bank of Allentown-was announced on Dec. 22. Checks had already been distributed to the depositors of the two last named banks, and the other will make payment early in the new year. The Philadelphia "Inquirer" of Dec. 23, authority for the above, also supplied the following information:

information:

The Commercial National will pay 20% of deposits to about 35,000 depositors. The total amount will be about \$747,000.

The dividend of the Merion Title & Trust Co. will be 10%, and 29,932 depositors will benefit. A payment of 5% already has been made. The remaining deposit liability of the institution is \$5,258,415.

A 5% dividend paid by the Jordan State Bank, of Allentown, brings the total made available to depositors up to 65%. There are 1,765 depositors. The remaining deposit liability is \$52,124.

Announcement of the payment by the Commercial National Bank was made by Joseph K. Willing, the receiver. He stated that the checks have been made out and will be mailed immediately on their return from the Comptroller of the Currency in Washington.

Payment will be made to depositors who filed proof of claim before Nov. 30, and whose claims have been approved. It is understood that the committee of depositors which sought to reorganize the bank has abandoned its efforts.

committee of depositors which sought to the federal Reserve Bank of Philadelphia, and also \$600,000 to the Federal Reserve Bank of Philadelphia, and also \$600,000 to the local agency of the Reconstruction Finance Corporation. In return, the Reserve bank has released \$2,000,000 in assets and the RFC more than \$1,000,000 that had been pledged as collateral for loans. Substantial portions of these assets remain for liquidation, although a part has been used to provide for the payment soon to be made.

"Assessment on stockholders, under the double liability provisions of

"Assessment on stockholders, under the double liability provisions of the law, have yielded considerable revenue,"

The Economy National Bank of Ambridge, Pa., capitalized at \$100,000, was placed in voluntary liquidation on Apr. 14. This bank is succeeded by the Economy Bank of the same

C. Addison Harris Jr., former President of the closed Franklin Trust Co. of Philadelphia, Pa., convicted, it is reported, of misapplication of funds of the bank, was released in \$20,000 bail on Dec. 17 pending his appeal to the Superior Court. The higher court allowed a writ of supersedeas, staying his conviction and sentence and fixing bail. Mr. Harris was sentenced to from five to 10 years in jail by Judge Eugene V. Alessandroni, on Dec. 14. The Philadelphia "Record" of Dec. 18, authority for the above, also supplied the following information:

Bail was denied Mr. Harris's co-defendants, Arthur B. Dauphinee, former Vice-President of the bank, and Edward S. Conro, former Treasurer. The three were convicted and sentenced together.

After the Judge refused a motion for a new trial for the men, their counsel, Bryan A. Hermes, took an appeal to the higher court and also took a writ of supersedeas to have the three admitted to bail pending

appeal.

The Court ruled favorably in the case of Mr. Harris, but ruled Mr. Dauuhinee and Mr. Conro could not be admitted to bail because they were
convicted, among other counts, of issuing false reports to the State Banking
Department. Mr. Harris was not indicted on that charge.

The three former bankers were charged with misapplication of \$234,000.

W. E. Anderson, heretofore Assistant Trust Officer of the Central United National Bank of Cleveland, Ohio, has been appointed Trust Officer of the Central Trust Co. of Cincinnati, Ohio, according to the Cleveland "Plain Dealer" of Dec. 19. Mr. Anderson will succeed Edward A. Sisson, who is to retire Jan. 1, the paper said.

A fifth dividend of 10% has been ordered paid to depositors and creditors of the Farmers' Deposit Bank of Richwood, Ohio, which closed nearly three years ago, according

to Marysville advices on Dec. 15, which added:

This will make a total of 55% the bank has paid in all. Several thousand dollars will be distributed throughout the county within the next week.

Lawrence Wood, receiver of the Fortville State Bank, Fortville, Ind., has been authorized by the Hancock Circuit Court to pay a dividend of 5% to creditors of the institution, according to Greenville, Ind., advices, on Dec. 14, to the Indianapolis "News," which also said:

This is the second 5% payment. The bank has been in receivership since early in 1931.

A new banking institution, the Merchants National Bank in Chicago, Chicago, Ill., with capital of \$200,000, was chartered by the Comptroller of the Currency on Dec. 21. George R. Boyles is President and A. F. Whitehead, Cashier, of the new organization.

As of Dec. 15, The Macomb National Bank, Macomb, Ill., capitalized at \$100,000, went into voluntary liquidation. The institution was absorbed by The Union National Bank of Macomb.

The First National Bank in Staunton, Staunton, Ill., was chartered by the Comptroller of the Currency on Dec. 12. The new bank is capitalized at \$65,000, made up of \$25,000 preferred stock and \$40,000 common stock, and succeeds two Staunton banks. The Staunton National Bank and the First National Bank of Staunton. C. F. Hackman is President of the new organization, while C. W. Weis is

The Hudson State Savings Bank of Hudson, Mich., and the Waldron State Savings Bank of Waldron, Mich., have consolidated under the name of the former, we learn from Hudson advices on Dec. 14 appearing in the Toledo "Blade," which also stated:

The institutions have been under similar management and largely identical

ownership for 14 years.

There will be no change in management and the banks will operate in Hudson and Waldron as at present, it was stated. The bank has resources said to be in excess of \$1,000,000.

Byron J. Foster, President of the consolidated institution, has been here by years. A. C. Moine, Vice-President, will remain in charge of the Waldron office.

The Oakley National Bank of Buffalo, Buffalo, Minn., was chartered by the Comptroller of the Currency on Dec. The new institution, which represents a conversion of The Oakley State Bank of the same place, is capitalized at \$60,000. W. D. Oakley and John A. Berger are President and Cashier, respectively, of the new organization.

Effective Dec. 14, The First National Bank of Garretson, S. D., was placed in voluntary liquidation. The institution was absorbed by the First National Bank in Garretson (formerly The First National Bank of Sherman, S. D.).

We learn from the St. Louis "Globe-Democrat" of Dec. 19 that the Comptroller of the Currency has authorized the payment of a second dividend, amounting to 15%. to the creditors of the Grand National Bank of St. Louis, Mo .. according to an announcement on Dec. 18 by John W. Synder, receiver for the institution. We quote from the paper:

The cash distribution, according to Mr. Snyder, will amount to approximately \$250,000. This payment was made possible by a loan which was secured from the Reconstruction Finance Corporation, Synder explained.

The first dividend of 37½% was paid on June 2, for the approximate

A liquidating dividend of 3% was ordered paid to depositors and creditors of the Union-Easton Trust Co of St. Louis, Mo., by Circuit Judge Ryan, on Dec. 14, on application of George W. Clarkson, Special Deputy Finance Commissioner in charge of liquidation. In noting this, the St. Louis "Globe-Democrat" of Dec. 15 added:

The dividend allowed, amounting to \$14,198, will bring the total amount of dividends paid to 38%, which is \$175,647 of the total claims allowed, which were \$473,278.

Gurney P. Hood, State Commissioner of Banks for North Carolina, on Dec. 17 announced the completion of liquidation of the Bank of Lewiston, Lewiston, depositors of which received 100% in dividends and offsets. The Raleigh "News and Observer" of Dec. 18, from which this is learned, con-

Payments to depositors and other common claimants amounted to \$27,874.76 in dividends and offsets, Mr. Hood said. Preferred claims of \$2,803.13 and bills payable of \$25,660.43 also were paid in full, as was interest of \$1,020.71 on the bills payable. The bank also paid interest of \$2,102.38 on proved claims.

Closed Feb. 20 1933, liquidation of the bank was completed on Saturday (Dec. 15). Of listed assets of \$126,505.79, the bank collected \$63,434.02,

Liquidation of the bank was accomplished at a profit of \$688.88, Mr. Hood said. Expenses amounted to \$3,822.61, while income during liquidation was \$4,011.49.

Effective Dec. 6 1934, the First National Bank in Oakland, Calif., was placed in voluntary liquidation. The institution was absorbed by The Anglo California National Bank of San Francisco, Calif.

Nationalization of 61 branches of the Bank of America (California), the State bank associated with Bank of America National Trust & Savings Association (head office San Francisco), was announced Dec. 24 by L. M. Giannini, Senior Vice President. The 61 branches became a part of the Bank of America N. T. & S. A. effective at the close of business Dec. 22. As the two institutions are identical in ownership, management and accounting methods, the change is largely a formality. The announcement by the bank continued:

The absorption of the 61 branches of the State bank into the national system is in accordance with the management's advocacy of a unified system of branch banking under national regulation.

With the addition of the branches transferred from the State bank, the Bank of America N. T. & S. A. now has 414 branches, while nine branches remain in the Bank of America (California).

Payment of a seventh dividend of 5% in the savings department of the Marine Bank of Santa Monica, Calif., bringing the total liquidating dividends to 65%, has been authorized by Friend W. Richardson, Superintendent of Banks, Bruce M. McBirney, Special Deputy, announced on Dec. 14, according to the Los Angeles "Times" of Dec. 15, which also stated:

Mr. McBirney stated he expected to have the necessary approval of the Superior Court of Los Angeles County, under whose jurisdiction the liquidation is being made, in time to mail the checks to depositors on Dec. 18, the third anniversary of the closing of the bank.

Arrangements for the payment, on Dec. 20, of a dividend of 10% of the deposits to savings account depositors by the Bank of Woodburn, Ore., were indicated in a dispatch from that place on Dec. 14 to the "Oregonian," which added:

This will be the fourth dividend paid since liquidation of the bank began.

In indicating that a 5% dividend was to be paid Dec. 17 to depositors of the defunct American Bank of Spokane, Spokane, Wash., a dispatch by the Associated Press from that city on Dec. 15 said:

Harry S. Wilson, liquidator of the American Bank, today (Dec. 15) stained Court permission to begin disbursement Monday of \$115,000

obtained Court permission to begin disbursement Monday of \$115,000 to 400 depositors as a 5% dividend.

Permission was obtained following receipt of \$30,000 from New York from the sale of bonds. The bank closed Apr. 15 1932.

Monday's payment will bring the total to 27% more than \$700,000.

The Canadian Bank of Cmmerce (head offive Toronto) has recently published its annual report covering the fiscal year ended Nov. 30 1934. It shows net profits for the period, after making appropriation to contingent reserve fund, out of which full provision for bad and doubtful debts was made, of \$3,413,655, which when added to \$662,167, representing the balance to credit of profit and loss brought forward from the preceding year, made \$4,075,822 available for distribution, which was allocated as follows: \$2,-400,000 to take care of four quarterly dividends at the rate of 8% per annum; \$600,000 to pay Dominion and Provincial taxes; \$246,838 transferred to pension fund, and \$150,000 written off bank premises, leaving a balance of \$678,984 to be carried forward to the current fiscal year's profit and loss account.

Total resources of the institution are shown in the report \$575,314,009 (comparing with \$574,196,003 at the end of the preceding fiscal year) of which \$315,196,712 are liquid assets, or 60% of total liabilities to the public, while total deposits (including both public and Government deposits) are given at \$478,290,981, a gain of more than \$23,000 over the preceding year. It is stated-we quote from the Montreal "Gazette "of Dec. 22-that this large net increase in deposits was effected despite the repayment of quite large deposits when the bank closed two of its foreign branches. The Canadian Bank of Commerce is capitalized at \$30,000,-000 with a rest fund of \$20,000,000, and maintains 670 branches throughout Canada and other countries. Sir John Aird is President and S. H. Logan, General Manager. The New York Agency of the bank is at Exchange Place and Hanover Street.

The annual report of the Royal Bank of Canada (head office Montreal) was released this week and makes a very satisfactory showing. The statement, which covers the fiscal year ended Nov. 30 1934, shows net profits (after making appropriations to contingent reserves, out of which

reserves provision for all bad and doubtful debts have been made) of \$4,398,218, which, when added to \$1,383,604, the balance to credit of profit and loss brought forward from the preceding fiscal year, made \$5,781,822 available for distribution. Out of this sum appropriations were made as follows: \$2,800,000 to take care of four quarterly dividends at the rate of 8% per annum; \$200,000 contributed to officers' pension fund; \$200,000 set aside for bank premises, and \$1,075,017 reserved for Dominion and Provincial Government taxes, leaving a balance of \$1,506,805 to be carried forward to the present fiscal year's profit and loss account.

Total assets of the institution, the report shows, stand at \$758,423,905 (compared with \$729,260,476 on Nov. 30 1933), of which \$382,172,287 are liquid assets, or 56.16% of total liabilities to the public. On the debit side of the statement total deposits are shown at \$637,479,211, comparing with \$601,219,092 in the preceding year. The capital of the Royal Bank of Canada is \$35,000,000, and its reserve fund \$20,000,000. The annual general meeting of the shareholders will be held in Montreal on Jan. 10.

#### THE CURB EXCHANGE

Curb market dealings were without noteworthy feature during the present week. There has been considerable activity among the specialties, but the gains were generally in minor fractions. Public utilities have been under pressure from time to time, but the losses were small and without special significance. Merchandising shares were fairly steady and mining and metal stocks were moderately strong.

The general price trend was upward during the two-hour session on Saturday, though prices, on the whole, held within narrow limits and trading was quiet, due in a measure to the absence of many traders for the Christmas holiday. Merchandising stocks attracted the most attention and there were some modest advances recorded in the specialties group, but most of the mining and metal shares were lower. Public utilities were under pressure during the opening hour, but moderate support appeared as the day progressed and a steadier tone was apparent at the close. Prominent among the active stocks closing higher on the day were American Gas & Electric common, Ford Motor of Canada A, Glen Alden Coal, Humble Oil & Refining, International Petroleum, Newmont Mining, Niagara Hudson Power, Hiram Walker and Wright Hargreaves.

Moderate trading activity was in evidence on Monday, but the changes were small and the transactions were without noteworthy feature. The specialty issues were in fairly good demand, but with the exception of Cuneo Press and Colt Fire Arms, price fluctuations were within a comparatively narrow channel. Industrial issues were slightly higher, but there was little change in the oil shares. Alcohol issues, metal stocks and public utilities were easier. The turnover for the day was 187,000 shares as compared with 214,000 on the last full day. Among the issues closing higher were Consolidated Gas of Baltimore, Cities Service common, Commonwealth Edison, Ford Motor of Canada A, Humble Oil & Refining Co., Swift & Co., United Gas Corp., United Verde Extension Mining and Sunshine Mining Co.

The New York Curb Exchange, the New York Stock Exchange and all commodity markets were closed on Tuesday in observance of Christmas Day.

On Wednesday, the volume of trading was the largest in some time, but reactionary influences were apparent and the bulk of the active stocks recorded moderate declines as the session came to an end. Oil stocks and metal shares were fairly active, but public utilities were under selling pressure and gradually moved lower. In the specialties group, transactions were moderately active but the trend, as a rule, was toward lower levels. The declines included among others, American Cyanamid B, Pioneer Gold, Aluminum Co. of America, American Light & Traction, Atlas Corp., Cord Corp., Electric Bond & Share, Fisk Rubber, Ford Motor of Canada A, Glen Alden Coal, Newmont Mining, Standard Oil of Kentucky and Hiram Walker.

Selling for tax purposes greatly increased the volume of business on the Curb Exchange on Thursday, and while stocks generally closed at higher levels, price movements were somewhat erratic during the greater part of the session. The outstanding feature of the trading was the sharp decline in Singer Manufacturing Co. which slipped off 12 points on a small transaction. Substantial losses were also registered by Alabama Great Southern, Aluminum Co. of America, Celluloid Corp., and United Shoe Machinery. Stocks closing on the side of the advance included Aluminum Ltd.

cum. pref., Long Island Lighting pref. B, Swift International and Pittsburgh Plate Glass.

Prices on the Curb Exchange generally moved upward on Friday, and while a major part of the changes were fractional, there were a few of the more active of the trading favorites that registered gains of 2 or more points. Mining and metal stocks were in good demand at higher prices and there was some buying in the public utilities and specialties, but the changes were not especially noteworthy. As compared with Friday of last week, last night's prices were somewhat higher, Aluminum Co. of America closing at 46 against 45 on Friday of last week, American Cyanamid B at 153/4 against 151/4; American Gas & Electric at 193/4 against 193/8: American Light & Traction at 9½ against 8½; Associated Gas & Electric A at 7-16 against ½; Atlas Corp. at 9½ against 81/4; Cities Service at 11/2 against 13/8; Creole Petroleum at  $13\frac{1}{8}$  against 12; Electric Bond & Share at  $7\frac{1}{8}$  against 6¾; Ford of Canada A at 28½ against 27½; Greyhound Corp. at 241/8 against 213/4; Gulf Oil of Pennsylvania at 55 against 541/4; Hudson Bay Mining & Smelting at 121/8 against 117/8; Humble Oil (new) at 49 against 481/4; National Bellas Hess at 21/2 against 21/8; Niagara Hudson at 31/2 against 31/8; Swift & Co. at 187/8 against 171/8; United Gas Corp. at 15% against 11/2; United Light & Power A at 1 against 7/8, and Wright Hargreaves at 9 against 85/8.

#### COURSE OF BANK CLEARINGS

Total\_\_\_\_\_\_\$15,179,000 \$15,435,000 \$1,009,432,000 \$945,958,000

Bank clearings this week will again show a decrease as compared with a year ago. Preliminary figures compiled by us, based upon telegraphic advices from the chief cities of the country, indicate that for the week ended to-day (Saturday, Dec. 29) bank exchanges for all cities of the United States from which it is possible to obtain weekly returns will be 3.8% below those for the corresponding week last year. Our preliminary total stands at \$4,187,562,642, against \$4,351,694,485 for the same week in 1933. At this center there is a loss for the week ended Friday of 10.6%. Our comparative summary for the week follows:

| Clearings—Returns by Telegraph<br>Week Ending Dec. 29   | 1934   | 1933   | Per<br>Cent   |

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them to-day inasmuch as the week ends to-day (Saturday) and the Saturday figures will not be available until noon to-day. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results for the week previous—the week ended Dec. 22. For that week there is an increase of 35.5%, the aggregate of clearings for the whole country being \$6,413,166,265, against \$4,733,495,425 in the same week in 1933.

Outside of this city there is an increase of 23.9%, the bank clearings at this center having recorded a gain of 42.1%. We

group the cities according to the Federal Reserve districts in which they are located, and from this it appears that in the New York Reserve District, including this city, the totals show an expansion of 41.6%, in the Boston Reserve District of 16.6%, and in the Philadelphia Reserve District of 28.9%. In the Cleveland Reserve District there is an improvement of 21.3%, in the Richmond Reserve District of 19.4%, and in the Atlanta Reserve District of 26.0%. The Chicago Reserve District has managed to enlarge its totals by 27.5%, the St. Louis Reserve District by 24.8%, and the Minneapolis Reserve District by 10.7%. In the Kansas City Reserve District the increase is 27.8%, in the Dallas Reserve District 5.2%, and in the San Francisco Reserve District 32.3%.

32.3%.

In the following we furnish a summary of Federal Reserve districts:

#### THE ENGLISH GOLD AND SILVER MARKETS

We reprint the following from the weekly circular of Samuel Montagu & Co. of London, written under date of Dec. 12 1934.

The bank of England gold reserve against notes amounted to £192,182,804 on the 5th instant, as compared with £192,113,083 on the previous Wednessday.

Business in the open market has been on a moderate scale, about £1,-500,000 being disposed of during the week. The premium in the price tended to decrease and on occasion disappeared altogether, quotations being fixed at the dollar exchange parity. Shipments of gold have been made to New York made to New York.

The SS. Narkunda which sailed from Bombay on the 8th instant carries gold to the value of about £464,000 consigned to London.

The Transvaal gold output for November 1934 amounted to 878,847 fine ounces as compared with 885,627 fine ounces for October 1934 and 898,468 fine ounces for November 1933.

#### SILVER

Prices have shown slightly wider movements during the past week and at times the tendency appeared slightly easier; this, however, was due te a slackening of demand rather than any pressure to sell, as offerings were

a slackening of demand rather than any pressure to sell, as offerings were mostly limited as to price.

On selling by China and profit-taking, prices gradually eased until 24½d for cash and 24¾d. for two months delivery were touched on the 10 instant, a level at which demand improved. Purchases were made by America and there was also more speculative enquiry, followed by further demand from the Indian Bazaars; as a result, there was a slight recovery.

The undertone remains good as the market seems able to find resistance at any signs of a decline.

The following were the United Kingdom imports and exports of silver registered from mid-day on the 3d instant to mid-day on the 10th instant:

registered from mid-day on the 3d instant to mid-day on the 10th instant

\* "Other cash" does not include Federal Reserve notes or a bank's own Federal Reserve bank notes.

x These are certificates given by the U.S. Treasury for the gold taken over from the Reserve banks when the dollar was on Jan. 31 1934 devalued from 100 cents to 59.06 cents, these certificates being worth less to the extent of the difference, the difference itself having been appropriated as profit by the Treasury under the provisions of the Gold Reserve Act of 1934.

# Weekly Return of the Federal Reserve Board

The following is issued by the Federal Reserve Board on Thursday afternoon, Dec. 27, showing the condition of the twelve Reserve banks at the close of business on Wednesday. The first table presents the results for the System as a whole in comparison with the figures for the seven preceding weeks and with those of the corresponding week last year. The second table shows the resources and liabilities separately for each of the twelve banks. The Federal Reserve notes statement (third table following) gives details regarding transactions in Federal Reserve notes between the Reserve Agents and the Federal Reserve banks. The fourth table (Federal Reserve Bank Note Statement) shows the amount of these bank notes issued and the amount held by the Federal Reserve banks along with the collateral pledged against outstanding bank notes. The Reserve Board's comment upon the returns for the latest week appears in our department of "Current Events and Discussions."

<sup>&</sup>quot;Other cash" does not include Federal Reserve notes or a bank's own Federal Reserve bank notes.

<sup>\*</sup> These are certificates given by the U. S. Treasury for the gold taken over from the Reserve banks when the dollar was devalued from 100 cents to 59,06 cents, on Jan. 31, 1934, these certificates being worth less to the extent of the difference, the difference itself having been appropriated as profit by the Treasury under the provisions of the Gold Reserve Act of 1934.

a Caption changed from "Government" to "U. S Treasurer-General account" and \$100,000,000 included in Government deposits on May 2 1934 transferred to "Other deposits."

\* Does not include \$78,739,000 of Federal Reserve bank notes for the retirement of which Federal Reserve banks have deposited lawful money with the Treasurer of the United States.

Weekly Return for the Member Banks of the Federal Reserve System

Following is the weekly statement issued by the Federal Reserve Board, giving the principal items of the resources and liabilities of the reporting member banks in 91 leading cities from which weekly returns are obtained. These figures are always a week behind those for the Reserve banks themselves. The comment of the Reserve Board upon the figures for the latest week appears in our department of "Current Events and Discussions," immediately preceding which we also give the figures of New York and Chicago reporting member banks for a week later.

[PRINCIPAL ASSETS AND LIABILITIES OF WEEKLY REPORTING MEMBER BANKS IN LEADING CITIES, BY DISTRICTS, ON DEC. 19 1934 (In Millions of Dollars)

### CURRENT NOTICES

—The formation of the partnership of Adler, Blumenthal & Co., members of the New York Stock Exchange, as of Jan. 2 1935, is announced by Hamilton Adler, former partner of Cowen & Co. and previously of Adler, Cowen & Co., and A. Pam Blumenthal, a member of the New York Stock Exchange. The new firm which will conduct a general brokerage business in stocks, bonds and commodities, will have its main office at One Wall Street, with a branch office at 730 Fifth Ave., this city.

Street, with a branch office at 730 Fifth Ave., this city.

—Hartley Rogers & Co., Inc. are distributing a telegraphic code book on bonds and stocks to every security house and trading department in the country. The code was originated by them three years ago and they, and the houses most actively trading with them, found that its use was effecting a very large and consistent savings in their wire expenses. Besides a list of code names for some three hundred specific securities, a portion of the book is given over to prices, amounts, terms and trading phrases.

—Lober Bros. & Co., members of the New York Stock Exchange and other leading exchanges, announce that Alfred S. Klauber, who has been assodiated with them for the past seven years and who for the 24 years preceding was Treasurer of Klauber Bros. & Co., lace importers and cotton converters, will be admitted as a general partner in their firm on Jan. 1 1935.

—Eli T. Watson & Co., Inc., 60 Wall Street, New York, have prepared statistical reports on Greenwich Lodge, 1st 6 ¼s; Keith Albee Building, 1st 6s; The Pierrepont 1st 5¾s; 987 Memorial Drive, Inc., income 5s.

—Bristol & Willett announce that A. George Jensen and Thomas A.

—Bristol & Willett announce that A. George Jensen and Thomas A. Uber who have been associated with them a number of years will be admitted as general partners on Jan. 2 1935.

—A. J. MacNicholas is now with Amott, Baker & Co., Inc., in their trading department specializing in public utility, industrial, and personal finance company stocks and bonds.

—Hare's Ltd., affiliated with Bank & Insurance Shares, Inc., 19 Rectoreet, New York, has issued a comparative analysis of bank stocks and insurance stocks.

—Neal Weber, formerly with Swart, Brent & Co., Inc., is now associated with Amott, Baker & Co., Inc., in charge of advertising and sales promotion.

—Hoffman, Adams & Co., of this city, announce that Edward W. Place and Charles E. Weinmann Jr., have become associated with the firm.

—Allen & Co. have opened an office in Philadelphia with private telehpone connection to their New York office.

—James Talcott, Inc., has been appointed factor for Stone Silk Co., Childs, Pa., manufacturers of silks.

# Report of Stock Sales—New York Stock Exchange

DAILY, WEEKLY AND YEARLY

Occupying Altogether Nine Pages-Page One

NOTICE—Cash and deferred delivery sales are disregarded in the day's range, unless they are the only transactions of the day. No account is taken of such less in computing the range for the year.

New York Stock Exchange—Bond Record, Friday, Weekly and Yearly

On Jan. 1 1909 the Exchange method of quoting bonds was changed and prices are now "and interest"—except for income and defaulted bonds

NOTICE—Cash and deferred delivery sales are disregarded in the week's range, unless they are the only transactions of the week, and when selling outside of the regular weekly range are shown in a footnote in the week in which they occur. No account is taken of such sales in computing the range for the year.

|   | Week's   | July 1   | 00047. 110   | secount is taken of such sales in compu   |   |   |  |   |

NOTICE.—Cash and deferred delivery sales are disregarded in the week's range, unless they are the only transactions of the week! and when selling outside regular weekly range are shown in a footnote in the week in which they occur. No account is taken of such sales in computing the range for the year.

In the following extensive list we furnish a complete record of the transactions on the New York Curb Exchange for the week beginning on Saturday last (Dec. 22 1934) and ending the present Friday (Dec. 28 1934). It is compiled entirely from the daily reports of the Curb Exchange itself, and is intended to include every security, whether stock or bond, in which any dealings occurred during the week covered:

Alaska Juneau Gold Mining Co.—15-Cent Extra Div.—
The directors have declared an extra dividend of 15 cents per share, in addition to the usual quarterly dividend of like amount, on the common stock, par \$10, both payable Feb. 1 to holders of record Jan. 10. Similar distributions were made in each of the five preceding quarters.—V. 139, p. 3800.

Alleghany Corp.—Court Hearing—
A hearing on the plan of reorganization, which has been proposed under Section 77-B of the Bankruptcy Act, was held in the U. S. District Court, Baltimore (yesterday) Dec. 28. Under the plan of recapitalization certain bondholders have been asked to forego interest in return for shares in a new stock issue.—V. 139, p. 3634.

(A. S.) Aloe Co.—Preferred Dividend—Alculus Advidend of 1½ % has been declared on the 7% cum, pref, stock, par \$109, on account of accumulations, payable Jan. 2 to holders of record Dec. 20. A like amount was distributed on Oct. 1, July 2, April 2 and Jan. 1 last. The previous regular quarterly payment was made on Jan. 2 1933.

Arrearages after the Jan. 2 distribution will amount to 5½ %.—V. 139, p. 1699.

American Products Co., Cincinnati, Ohio-Plan Approved-

proved—
The stockholders on Dec. 10 last approved a plan of recapitalization. Briefly, the plan is as follows:
The present preference stockholders consenting to the plan will receive one share of the prior preferred 5% cumulative stock, having a par value of \$7, and one share of the no par value participating preferred stock for each share of the old preference stock now held and the accumulated dividend rights thereunder; that the participating preferred stock will bear annual dividend rate of \$1.50 per share cumulative and will share equally per share in dividends with the common stock after the common stock has received 50 cents per share per year and that there will be a compulsory sinking fund created for the redemption of both the prior preferred stock and the participating preferred stock. The redemption price or the amount to be received in liquidation of the company on the prior preferred stock is \$7 per share and that of the participating preferred stock is \$30 per share. To those stockholders who do not consent to the plan, a stock called "new preference" will be issued in lieu of the old preference stock they now hlod.

a Market value. b Represented by 35,630 (37,205 in 1933) shares \$2 pref. stock, and 80,000 shares common stock, both of no par value.—V. 139, p. 2356.

American Tobacco Co.—May Pay Off Leases—
The company may take up its \$2,500,000 annual payments on the leases of certain Tobacco Products Corp. brands by the payment of about \$35,000,000, it was reported in financial quarters, Dec. 26. According to the reports, the sum required would be borrowed from banks at a lower cost over a period of years than the cost of the present payments. The leases expire in the year 2022.—V. 138, p. 2398.

American Type Founders Co.—Trustees—
Thomas R. Jones, Frank C. Ferguson and Charles L. Carrick temporary ustees in bankruptcy for the company and Barnhart Brothers & Spindler ere appointed permanent trustees by the U. S. District Court in Newark, J. Jon Dec. 27, under Section 77b of the National Bankruptcy Act.—V. 19 n. 24.79.

American Water Works & Electric Co.—Weekly Output Output of electric energy for the week ended Dec. 22 1934 totaled 38,198,-000 kwh., an increase of 13% over the output of 33,687,000 kwh. for the corresponding period of 1933.

Comparative table of weekly output of electric energy for the last five years follows:

New Era Consolidated, Ltd. 29 10 .0.d.

x In Union of South Africa Currency. y Each of which is incorporated in the Union of South Africa.

The dividends are declared in the currency of the Union of South Africa and become due on Jan. 2 1935, but warrants in payment will be posted both from the head and London offices on or about Jan. 30 1935, this interval being necessary for the balancing of the books and preparation of the warrants. Dividends payable from the London office will be paid in British currency at par provided there is no material difference between South African and British currencies on Jan. 2 1935. Should there be any material difference between the two currencies the London office will pay on the basis of the equivalent British currency calculated at the rate of exchange ruling on that date. Amounts payable to persons presenting coupons will be on the same basis irrespective of the date of presentation of coupons.

Warrants dispatched from the London office to persons resident in Great Britain or Northern Ireland will be subject to a deduction of United Kingdom income tax.

The stock transfer registers will be closed from the 1st to Jan. 7 1935, both days inclusive.

Holders of stock warrants to bearer will receive payment of the above-mentioned dividends at Barclays Bank (Dominion, Colonial and Overseas), Circus Place, London Wall, E. C. 2, on presentation of coupons Nos. 10 and 11 on or after Jan. 31 1935, in accordance with a notice to be issued by the London office.

Coupons must be deposited four clear days before being paid and, unless accompanied by Inland Revenue Declarations, will be subject to a deductof United Kingdom income tax as above.—V. 139, p. 3801.

Change in Collateral-

The New York Stock Exchange has been notified by the Chase National Bank as trustee under the collateral trust mortgage dated Dec. 9 1908, that it had delivered to the company 78,000 shares of capital stock of New York & Porto Rico Steamship Co. (par \$50) and 172,358 shares of capital stock of Clyde-Mallory Lines (par \$20) held by them as trustee under the mortgage, in exchange for 147,153 shares of capital stock of Agwillines, Inc. (par \$50) pursuant to a certain agreement of consolidation and merger between New York & Porto Rico Steamship Co. and Clyde-Mallory Lines dated Nov. 15 1934.—V. 139, p. 3473.

Atlantic Ice & Coal Co.—Accumulated Dividend—The directors have declared a dividend of \$2.50 per share on account of accumulations on the 7½% cumulative preferred stock, par \$100, payable Jan. 1 to holders of record Dec. 20. On July 1, last, Jan. 2 1934 and Jan. 1 1933, \$2 per share was distributed; prior to which the company paid regular semi-annual dividends of \$3.75 per share.
Following the Jan. 1 payment accruals on this issue will amount to \$10.25 per share.—V. 139, p. 108.

Babcock & Wilcox Co.—Admitted to Unlisted Trading—The New York Curb Exchange has admitted to unlisted trading privileges the new capital stock, no par value, issuable share for share in lieu of old capital stock, \$100 par.

The Committee on Securities rules that transactions in the no par capital stock must be settled by delivery of certificates bearing a legend to indicate the change in capital stock from shares of \$100 par to shares without par value.—V. 139, p. 3958.

Balance for common stock dividends and surplus \$87,447 \$141,084
a These amounts have been appropriated to provide a reserve against
which property retirements will be charged as they occur. The amounts so
appropriated are less than the depreciation deductions claimed or to be
claimed on Federal income tax returns which are based on a straight-line
method.

During the last 27 years, the company has expended for maintenance a
total of 6.50% of the entire gross earnings over this period, and in addition
this period has set aside for reserves or retained as surplus a total of 13
of these gross earnings.—V. 139, p. 2987.

Berkey & Gay Furniture Co.—Settlement—
Under an order signed Dec. 13 by Federal Judge Fred M. Raymond at Grand Rapids, Mich., the Simmons Co. is to pay the Berkey & Gay Furniture Co. \$450,000 in cash, of which \$365,000 has been paid, and \$700,000 in 5% debentures dated Jan. 1 1935 and maturing at the rate of \$140,000 a year from Jan. 1 1936.

The Simmons Co. also agrees to withdraw its claim as a creditor of Berkey & Gay in the amount of \$1,543,939 and to surrender for cancellation the Berkey & Gay common stock, of which it was sole owner.—V. 139, p. 1546.

tion the Berkey & Gay common stock, of which it was sole owner.—
V. 139, p. 1546.

Bethlehem Steel Corp.—Wins Bonus Suit—
An accounting suit brought by two stockholders against Charles M. Schwab and other officers and directors of the company was dismissed Dec. 24 by a unanimous decision of the Appellate Division of the New York Supreme Court. The Court held that no violation of law was alleged in the complaint.

The suit was brought by Rose C. Laue and Arthur Sitzman, owners of \$3 shares of stock, for themselves and other stockholders. The plaintiffs asked that the defendants be required to account for the alleged depletion of the company's working capital by the purchase of \$20,383.614 worth of its stock between October and December 1929, and for \$23,000,000 paid as bonuses to Eugene G. Grace and other officers, directors and employees between 1917 and 1930.

The higher court overruled Justice Timothy A. Leary, who denied a motion to dismiss the complaint. In its opinion, written by Justice Alfred H. Townley, the Court said:

"No provision of the New Jersey statutes or of the certificate of incorporation or the by-laws of the corporation is alleged to have been violated.

"Certainly no claim can be predicated upon the repurchase by the corporate members at \$92.50 of a part of the stock which it had sold less than two months before at \$110 per share. There are no allegations of fact charging the individual defendants with any breach of any fluciary obligation or any bad faith in making the purchases referred to.

"There are no allegations in the complaint that the individual holders were involved in the purchase."

In regard to the bonuses, the Court said the complaint failed to allege that any demand had been made upon the corporation to sue for recovery of the bonuses paid, as the law required.

Besides Mr. Schwab and the company, the defendants were Mr. Grace, James H. Ward, William J. Brown, Alvin Untermyer, Grayson M.-P. Murphy, Oliver Jennings, and William C. Potter.—V. 139, p. 3635.

Biltmore Hats, Ltd.—Dividend No. 2—
The directors have declared a dividend of \$1 per share on the common stock, no par value, payable Jan. 15 to holders of record Dec. 31. This is the second distribution to be made on this issue, an initial dividend of 50 cents per share having been paid on Jan. 15 1934.—V. 139, p. 3959.

Bird & Son Inc.—Bonus to Employees—
Employees received their second and third bonuses of the year on Dec. 28—an average of \$150 for the two bonuses.

Last July the company gave a bonus of 4% of earnings for the first six months. It gave the same bonus for the last six months, and, in addition, a Chritsmas bonus of 5% of six months pay. Last year it gave just two semi-annual bonuses.—V. 139, p. 592.

Blaw-Knox Co.—New Vice-President and Director— Directors on Dec. 21 elected Robert F. McCloskey director and Vice-President in charge of operations of the plants located at Blawnox, Pa., to replace Wayne Rawley, deceased.—V. 139. p. 3320.

Boardwalk Securities Corp., Atlantic City, N. J. Receivers Retained-

Federal Judge John Boyd Avis, at Camden, N. J., on Dec. 14 continued in office the two temporary receivers for the corporation and postponed until Jan. 11 a hearing to determine why they should not be appointed permanently.—V. 134, p. 679.

Boss Manufacturing Co.—\$3 Extra Dividend Paid—An extra dividend of \$3 per share was paid on the common stock, par \$100, on Dec. 24 to holders of record Dec. 22. An extra of \$1.50 per share was paid on Dec. 22 1933.

The regular quarterly dividend of \$1 per share was distributed on Nov. 15 last, and similar distributions were made on Aug. 15, May 15 and Feb. 15 1934. On Nov. 15 1933 a dividend of \$1.75 per share was paid, as against 25 cents per share disbursed in each of the five preceding quarters. On May 15 and Feb. 15 1932, \$1 per share was paid on the above issue.—V. 138, p. 865.

Brooklyn-Manhattan Transit Corp.—Declares Result of Employee Elections Indicates Satisfaction with Representation Plan—Denies Jurisdiction of Regional Labor Board in Controversy with NRA.—See "Chronicle" Dec. 22, page 3904. troversy with NR V. 139, p. 3960.

Bruck Silk Mills, Ltd.—New Directors—
Two new directors were elected to the board at the annual meeting held Dec. 14, these being W. H. Miner, and Hartland Molson.—V. 139, p. 3636.

(Edward G.) Budd Mfg. Co.—New Director— Walter Colpitts has been elected a director and a member of the executive committee.—V. 139, p. 3960.

Buffalo (N. Y.) Insurance Co.—\$2 Extra Dividend—The directors have declared an extra dividend of \$2 per share in addition to the regular quarterly dividend of \$3 per share on the capital stock, both payable Dec. 31 to holders of record Dec. 18. An extra dividend of \$1 per share was paid on Sept. 29 last, \$2 per share was paid on Dec. 30 1933, and \$1 per share on Dec. 31 1931.—V. 139, p. 1862.

Bulolo Gold Dredging, Ltd .- Makes Final Payment to Placer Development-

At the annual meeting, Charles A. Banks, Managing Director, stated that the company had offered Placer Development, Ltd., 20,000 fully paid Bulolo shares as final payment for the Bulowat Burnside areas and that this offer had been accepted.

He also stated that, subject to the approval of shareholders of the two companies being obtained at general meetings to be held at an early date, Placer Development had agreed to transfer to the Bulolo company the whole of the Arnold property in consideration of an allotment of 5,000 fully paid Bulolo shares.—V. 139, p. 3960.

(F.) Burkhart Mfg. Co.—\$1.10 Preferred Dividend Color The directors have declared a dividend of \$1.10 per share on account of accumulations on the \$2.20 cum. preferred stock, no par value, payable Jan. 1 to holders of record Dec. 26. This compares with a similar distribution made on Oct. 1 last, 70 cents per share distributed on Aug. 1 and 40 cents per share paid on Jan. 9 1934, the first dividend paid since the regular quarterly payment was 55 cents per share paid Oct. 1 1931. Accumulations following the Jan. 1 payment will amount to \$3.85 per share.—V. 139, p. 2040.

(James) Butler Grocery Co.—Mortgage Approved—
The stockholders have approved a resolution of the directors to draw up a mortgage for \$300,000 on the company's Long Island City property, to be used as collateral for an industrial loan from the Federal Reserve bank.—V. 139, p. 3475.

Cady Lumber Corp.—Sale—
Arthur J. McQuatters, receiver, will sell at public auction at the Court House of Conconino County, Ariz., on Dec. 31 the entire property of the company, including \$600,000 20-year 1st mtge. 5% bonds, dated July 1 1918, \$455,000 6% 2d mtge. note, dated Jan. 1 1921; 5,995 shares (par \$100) of Apache Ry.—V. 136, p. 4273.

California Oregon Power Co.—Preferred Dividends / The directors have declared dividends of 87½ cents per share on the 7% cum. pref. stock, par \$100, 75 cents per share on the 6% cum. pref. stock, par \$100, and 75 cents per share on the 6% cum. pref. stock, series of 1927,

par \$100, all payable Jan. 15 to holders of record Dec. 31. Similar distributions were made on the respective issues in each of the five preceding quarters, prior to which payments were made at the regular quarterly rates.—V. 139, p. 3636.

Canadian Industrial Alcohol Co., Ltd.—New Director
Claude S. Richardson, Montreal, was recently elected a director to fill
the vacancy caused by the resignation of L. V. Wright, former Vice-President and General Manager.
The Canadian Press in dispatches from Montreal, Dec. 18, stated:
"The entire sales policy of Canadian Industrial Alcohol Co., Ltd., will have
to be reconsidered in January by directors if a payment due Jan. 1 by
National Distillers Products Corp., of New York, in connection with the
jointly owned American subsidiary, is not met, Gordon W. Scott, President,
told shareholders at the annual meeting."
National Distillers had made one payment of \$500.000, but had defaulted

National Distillers had made one payment of \$500,000, but had defaulted on a payment due last June. If the January payment also is defaulted, the matter will have to be considered by the board, Mr. Scott declared.

Describing the formation of the National Canadian Distillers, Inc., the American selling company jointly owned with National Distillers, Mr. Scott said the latter had agreed to put up \$1,000,000 in cash, with Canadian Industrial Alcohol providing the equivalent in whiskey. This, it was later learned, was taken at \$4.38 a gallon. Sales of the American company have been disappointing, Mr. Scott said. The sales organization, however, has been continually strengthened, but the future depends on whether the scheduled payment will be met in January.

The National Distillers Products Corp. issued the following.

The National Distillers Products Corp. issued the following statement:

National Canadian Distillers, Inc., is jointly owned by Canadian Industrial Alcohol Co., Ltd., and National Distillers Products Corp. and is the American sales agency for American-type Canadian whiskies previously produced by Canadian Industrial Alcohol Co., Ltd. National Distillers Products Corp., agreed to furnish \$1,000,000 cash to National Canadian Distillers Corp., which it has done, and National Distillers Products Corp. has no further contractual obligations.—V. 139, p. 3803.

Canadian Marconi Co.—To Amend Charter—
The company will apply to the Canadian Parliament at the next session for passage of an act amending its charter to provide for an increase in the number of its directors and extension of its powers in respect of manufacturing and the taking of shares in companies with similar objects.—V. 139, p. 1233.

Celotex Co.—Stockholders' Committee Supports Plan—
The stockholders' committee of which Charles G. Cushing is Chairman has announced its support of the reorganization plan proposed by the reorganization committee, and recently modified. The modified plan had previously been approved by the first mortgage bondholders' committee and the debenture holders' committee. With this action by the stockholders group, all classes of the company's security holders have now endorsed the plan.

The reasons advanced by the stockholders' committee for supporting the plan include:

The plan is expected to place the company in sound financial condition and provide a capitalization upon which it can be reasonably expected to show a satisfactory return.

The new capital, by receiving common stock instead of senior securities, does not place a prior lien burden on the company and the committee believes that the new money is being subscribed on a fair and reasonable basis.

The treatment accorded the preferred and common stock is more liberal than generally accorded in reorganizations. It is usually the rule that new money is given a senior position together with a large share of the equity as a bonus and in a large number of reorganizations common stockholders way back into the company.

Deposits and pledges with the reorganization committee in support of the plan now represent more than 98% of the general creditors' claims, 62% of the first mortgage bonds, 60% of the debentures and more than one-half of the amount of preferred stock, common stock and voting trust certificates necessary to make the plan operative.

Members of the stockholders' committee, in addition to Mr. Cushing, are George L. Eastman Marcellus Murdock, G. Hall Roosevelt and J. G. Wray.

Plan Opposed by Another Committee—

Plan Opposed by Another Committee—
Announcing that they will continue to oppose the present reorganization plan, a committee representing preferred and common stockholders has sent a letter to shareholders stating they hope by their opposition that "stockholders will fare substantially better than under the present plan." The letter is signed by Charles S. Hirsch of Hirsch, Lilienthal & Co.; Ferris Booth, 10 Exchange Place, Jersey City, and John G. Getz, General Motors Building, Detroit.—V. 139, p. 3803.

x Regular dividends on \$7 and \$6 preferred stocks were paid on Nov. 1
1934. After the payment of these dividends, there were no accumulated unpaid dividends at that date. y Before property retirement reserve appropriations and dividends.

Note—Income account includes full revenues without consideration of rate reduction in litigation.—V. 139, p. 3321.

Central Fire Insurance Co. of Baltimore—Larger Div.

A semi-annual dividend of 25 cents per share was paid on the capital
stock, par \$10, on Dec. 27 to holders of record Dec. 17. This compares
with semi-annual distributions of 10 cents per share made from Jan. 1 1932
up to and including July 2 last, and a dividend of 25 cents per share paid
on Jan. 2 1931.—V. 138, p. 2402.

on Jan. 2 1931.—V. 138, p. 2402.

Central Industrial Real Estate Trust—To Reorganize—
The company, owning warehouses and manufacturing plants in Detroit, Joliet, Ill.; Creskill, N. J.; West. St. Paul, Minn., and Chicago, filled a petition in Federal Court, Chicago, Dec. 22 to reorganize under Section 77-B of the Bankruptcy Act. Assets were shown as \$3,769,373 at book value, and liabilities as \$2,500,000—V. 138. p. 2997.

Central Properties, St. Louis, Mo.—Final Reports Filed Final reports filed in Federal Court, St. Louis, by Nelson Cunliff, special master who sold the Ambassador, New Grand Central and Missouri Theater buildings at foreclosure last July, showed holders of bonds on the three buildings received \$2,272,430 cash and credits on their bonds which had a face value of \$5,955,400. The properties were sold to bondholders' committees.

The reports show holders of Central Properties first mortgage bonds, of which \$4,040,500 were otustanding, received \$1,548,794, including \$245,660 cash to about 16% of the bondholders who did not deposit their securities with the committee, and \$1,303,125 credit on bonds deposited. Expenses in this sale totaled \$3,608, including a \$1,500 fee to Mr. Cunliff. Central Properties Corp. held the Ambassador and New Grand Central Buildings.

According to the reports, holders of Missouri Building first mortgage bonds received \$723,636 on \$1,914,900 bonds outstanding. Of this, \$99,783 cash went to about 13% non-depositing bondholders and \$623,853 credits to depositing bondholders. Expenses in this sale amounted to \$10,614, including \$750 to Mr. Cunliff., \$5,000 to David Levinson and Joseph H. Grand, attorneys, and \$2,000 fees to Melvin L. Strauss and William R. Orthwein, trustees.

Under a reorganization plan, approved by Federal Judge Davis, new bonds, maturing in 15 years and carrying 5% interest to be paid out of income, were distributed among depositing bondholders to replace defaulted 6% old bonds.—V. 138, p. 3265.

Central Public Service Corp. (Md.)—Reorganization Plan The Central Public Service Corp. and Central Gas & Electric Co. Southern Cities Public Utility Co. and Southern Cities Public Service Co. and Southern Cities Public Service Co. have filed petitions under Section 77-B of the Bankruptcy Act in the U. S. District Court for the District of Maryland. Those petitions, approved by that Court as properly filed under Section 77-B, stated that the above named corporations desired to effect a reorganization.

Pursuant thereto, a plan of reorganization was filed on Dec. 4 in these proceedings, called "Dec. 1 1934 plan of reorganization," which is a modification of "1934 modified plan of reorganization," proposed at a meeting of creditors held on Sept. 20 1934.

This proposed plan of reorganization is distinct and separate from the plan of readjustment of the affairs of Central Public Service Corp. and its subsidiaries, which was made effective on Aug. 1 1932 (V. 135, p. 1485). Under the 1932 readjustment plan approximately 92% of principal amount of the debt securities of the four companies affected by that plan made the exchanges offered.

of the debt securities of the four companies affected by that plan made the exchanges offered.

Digest of "Dec. 1 1934 Plan of Reorganization"

Tax Claims—The United States of America claims certain sums on account of income taxes and possibly may claim additional sums on account of income taxes and possibly may claim additional sums on account of transfer taxes resulting from exchanges of securities under the plan for readjustment of the affairs of Central Public Service Corp. and its subsidiaries, effective Aug. 1 1932. The tax claims filed in the bansruptcy proceedings are direct tax claims against company for years 1927, 1928 and 1929, and tax claims against company as alleged transferee of Southern Cities Utilities Co. for taxes for the years 1927 and 1928.

Upon confirmation of the plan of reorganization and transfer of the assets of company and other companies to Central Public Utility Corp., as provided in the plan, Central Public Utility Corp. will pay to the U. S. Government \$100,000 in cash in full settlement for all taxes of any kind and description claimed to be due to the U. S. Government from company and its subsidiaries.

Transfer of Assets to Central Public Utility Corp.—The trustee will retain sufficient cash to satisfy and pay the fees, commissions and expenses payable in the bankruptcy and receivership proceedings to date of transfer, and will transfer to Central Public Utility Corp. (Del.) all of the remaining assets and property.

Central Public Service Corp. Notes and Debentures—Central Public Utility Corp. bolds \$39,630.385 of notes and debentures of debtor, claims for \$39,622.385 principal amount of which have been filled in the bankruptcy proceedings. These notes and debentures were acquired by Central Public Utility Corp. holds \$39,630.385 of notes and of Debentures of the affairs of Central Public Service Corp. and its subsidiaries. representing shares of its common stock, pursuant to a plan for readjustment of the affairs of Central Public Service Corp. notes or debentures of cach \$

Corp.

Southern Cities Utilities Co. Debentures—The holder of each \$1,000 Southern Cities Utilities Co. 30-year 6% sinking fund gold debentures series A, due Feb. 1 1958, of which there is \$149,000 outstanding (as of July 6 1934), will receive \$1,000 Consolidated Electric & Gas Co. collateral trust bonds 3%-6% B series due 1962, with Aug. 1 1934 coupon and all subsequent coupons attached.

Southern Cities Public Service Co. Debentures—The holder of each \$1,000 Southern Cities Public Service Co. convertible 6% gold debentures due 1949, with all unmatured coupons attached, of which there is \$667,500 outstanding (as of July 6 1934), will receive \$1,000 Consolidated Electric & Gas Co. collateral trust gold bonds 3%-6% A series, due 1962, with all unmatured coupons attached.

These Consolidated Electric & Gas Co. bonds are on deposit with Baltimore Trust Co. as escrow agent under a certain agreement dated as of

Aug. 15 1932 between Central Public Service Corp., Southern Cities Public Service Co. and Baltimore Trust Co., under the terms of which agreement the exchange now proposed is permitted.

The indenture trustee will be authorized and directed pursuant to order of the Court out of funds now or hereafter held by it to settle and pay in cash, upon presentation and surrender on or before May 1 1949, all coupons, matured or as and when hereafter maturing on said debentures, at the same rate per annum as is provided in the Consolidated Electric & Gas Co. bonds for which the said debentures were exchangeable under the readjustment plan of 1932.

Central Gas & Electric Co. Nates. Who had the foundation of the consolidated of the consolidated of the consolidated of the consolidated con

matured or as and when hereafter maturing on said debentures, at the same rate per annum as is provided in the Consolidated Electric & Gas Co. bonds for which the said debentures were exchangeable under the readjustment plan of 1932.

Central Gas & Electric Co. Notes—The holder of each \$1,000 Central Gas & Electric Co. three-year 5½% gold notes which matured Feb. 1 1933, of which there is \$376,500 outstanding (as of July 6 1934). will receive \$1,000 Consolidated Electric & Gas Co. five-year 6% gold notes due Aug. 1 1937, with the Aug. 1 1934 coupon and all subsequent coupons attached.

Portland Electric Power Co. Claim—Portland Electric Power Co. owns a note of Central Gas & Electric Co. in principal amount of \$1,039,900, duly endorsed in blank by debtor, and has filed a claim in respect of this note both in the bankruptcy proceedings and also in the Central Gas & Electric Co. receivership proceedings. representing interest on the note. There will be delivered to Portland Electric Power Co. in full settlement of its claims as creditor of debtor and Central Gas & Electric & Gas Co. Central Gas & Electric Co. Creditor Claims—Creditors holding the remaining claims duly filed and allowed, including claims filed on account of coupons and tax rectumds on Central Gas & Electric & Gas Co. Central Gas & Electric & Gas Co. on the basis of 4½ shares for each \$100 of claims. No fractional shares will be issued to make adjustments, but the value of the fractional share required to settle will be paid in cash on the basis of \$5 per full share for each \$100 of claims. Chesapeake Corp.—Bonds Listed—
The New York Stock Exchange has authorized the listing of \$18,000,000
1-year 5% convertible collateral trust bonds dated Dec. 1 1934 and due
Dec. 1 1944, on official notice of issuance and distribution. Further
details regarding this issue were given in V. 139, p. 3961.

Chevrolet Motor Co.—Production on New Models Started
Production on 1935 model Chevrolets started Dec. 26 at the Film assembly plant and will be under way at eight other plants in a few days,
it is announced. Production at the new Baltimore plant now under construction is scheduled to start in first week of February. This plant is
the company's first major construction activity since 1929.
While making no prediction on 1935 production, M. E. Coyle, President,
said the domestic sale quota had been tentatively set higher than in 1934.
World production of Chevrolets, including cars built in the United States
and Canada but exclusive of units fabricated in Europe and the Far East,
will total approximately 870,000 passenger cars and trucks. The 1934
domestic sales quota was approximately 675,000 units, but domestic sales
total for the year will be substantially over 700,000 units.
The 1935 Master De Luxe Chevrolets are entirely new in appearance,
Mr. Coyle said. The new standard line does not differ radically in appearance from the 1934 car.—V. 139, p. 3804.

Chicago Daily News. Inc.—Exchange Offer—

Chicago Daily News, Inc.—Exchange Offer—
The debenture holders have been offered an opportunity for an exchange of their old debentures, which mature Jan. 1 1936, for a new issue of 10-year 5% debentures maturing Jan. 1 1945.
The original issue of debentures was for \$8,000,000. During the last nine years this issue has been reduced approximately \$4,000,000, or at the rate of \$434,000 a year.

The proposal contemplates the exchange for those debenture holders who desire to make an exchange, and the redemption of the balance of the issue in cash.—V. 139, p. 3962.

Reduced RFC Loan Asked by Road—

Reduced RFC Loan Asked by Road—
The management voted Dec. 21 to accept a loan of only \$3,500,000 out of a possible \$4,000,000 from the Reconstruction Finance Corporation. Originally the road had asked for a loan of \$9,000,000, but the Interstate Commerce Commission demanded the pledging of all the collateral offered for such a loan by the company in return for a loan of only \$4,000,000.

The Commission required that for a \$4,000,000 loan the road pledge \$6,000,000 of its 1st & ref. 6% bonds of 1943 and its equity in the Milwaukee Land Co. For a loan of \$3,500,000 the company was required to pledge only the bonds. See also V. 139, p. 3962.

Chicago Rock Island & Pacific RR .- Reorganization

Not Feasible Now—

The present revenues of the road are too low to permit formulation of any reorganization plan acceptable to security holders, the Interstate Commerce Commission, or the Court, the trustees have informed the ICC. The three trustees, Frank O. Lowden, James E. Gorman and Joseph B. Fleming, stated their position in a letter dated Dec. 19. It was in reply to a message from O. E. Sweet, director of the ICC Bureau of Finance, requesting information on any moves made towards reorganization of the road.

requesting information on any moves much the road. Since the general meeting of creditors in New York on Oct. 11, the trustees said, other meetings have been held with representatives of individual groups. No one has suggested that a reorganization would be advisable but the trustees are continuing to collect data to facilitate the preparation of a recapitalization plan at the "earliest possible time."—V. 139, p. 3804.

# Chicago St. Paul Minneapolis & Omaha Ry.—Aban-

The Inter-State Commerce Commission on Dec. 14 issued a certificate permitting the company to abandon that part of its Spring Valley branch line which extends from Elmwood to Weston, 8.91 miles, all in Pierce and Dunn Counties, Wis.—V. 139, p. 3638.

Chilean Nitrate & Iodine Sales Corp.—Int. Payments—
Accumulated interest due and payable for the six months' period ending
Dec. 31 1934, on the sinking fund 5% income debentures, due June 30 1968,
will be paid at the rate of 2½% on and after Dec. 31 1934, upon presentation
and surrender of Coupon No. 2 appurtenant to the debentures at Guaranty
Trust Co., 140 Broadway, New York City, or at any of the other paying
agencies stated on the coupon.

Cincinnati Street Ry. Co.—Wage Increase—
An arbitration board has awarded the employees of the company represented by the Amalgamated Association of Street Electric and Motor Coach Employees an increase of 5 cents an hour from next Jan. 1 to July 1, next, An increase of 4 cents was also awarded, effective from last July 1 to Jan. 1 1935, making the net increase next year 1 cent.

The union had asked for an increase of 13 cents. Other adjustments of working conditions and pay increases were awarded to minor groups of employees and for special work.—V. 139, p. 2517.

employees and for special work.—V. 139, p. 2517.

Cities Service Power & Light Co.—Write-Up Charged—Charges that the company, holding concern for the Henry L. Doherty electric power and street railway properties, "wrote up" their assets \$69,-000,000 between 1924 and 1930, were made before the Federal Trade Commission on Dec. 20.

Randolph K. Ogle, Commission examiner, testified that the principal write-up occurred in 1924, when Cities Service Power & Light Co. was organized to take over subsidiary properties held by the Cities Service Co. Robert Burns, Cities Service counsel, challenged the accuracy of the valuation, contending the examiner arrived at his "write-up statisties" by comparing original cost of the properties between 1910 and 1913 with values in 1924.

Mr. Ogle said Cities Service Power & Light Co. paid Cities Service Co. more than \$100,000,000 in cash, bonds, preferred and common stock, for its securities on these properties. He said this was \$59,000,000 more than Cities Service Co.'s original investment.

Cities Service Power & Light Co, he continued, then entered the acquired securities on its own books at \$109,187,645, a total writeup of \$69,129,793 or 173% more than Cities Service Co. (& Suhs.)—Eagninge—

Collingwood Terminals, Ltd.—Reorganization Approved
Shareholders have approved of a reorganization plan which wipes out
all arrears in dividends on the old preferred stock and allows the company

to make a fresh start. The scheme only remains to be approved by the Court but it is believed this approval will be forthcoming within a few weeks.

Under the proposal the authorized 5,000 preferred shares will be converted into 25,000 new non-cumulative preference shares on the basis of five-for-one. As only 2,669 of the present preferred shares are outstanding, there will be 13,345 of the new shares outstanding.

Except for the fact that the new preferred have prior rights of \$20 each in liquidation in all other respects they rank equally with the 25,000 outstanding shares of common. Both carry the same voting privileges and both will share alike in dividends.

The new scheme leaves the mortgage of \$717,000 held by the Town of Collingwood as the only prior charge on the company's books and is understood that this is in good shape, with no arrears of interest charges.

V. 139, p. 1080.

which was pledged with the Chemical Bank & Trust Co.—V. 139, p. 758.

Como Mines—Trading Suspended

The [New York Produce Exchange on Dec. 13 suspended from trading the capital stock, \$1 par, "because-it has been concluded on the basis of the facts established that part of the issue, not registered under Securities Act of 1933, should have been registered." The suspension is effective pending clarification of status of that part, the announcement said.

The Los Angeles Stock Exchange also suspended trading for the same reason.

The Los Angeles Stock Exchange also suspended trading for the same reason.

The company has stated that it will make immediate application for registration under the Securities Act of 1933 of the unregistered part of its stock. The company also has expressed intention to apply thereafter for permanent registration of its stock on a national securities exchange.

C. P. Franchot, President of the company, states that although not agreeing in principle with the technical interpretation of the Securities Exchange Act adopted by the Commission as applied to a certain portion of stock of Como Mines which was outstanding and listed prior to the passage of the Act, "nevertheless it is our desire to comply with their views and therefore we have already started preparation of the necessary Curb."

Connecticut Investment Management Corp. - Offer for

The Allied Distributors, Inc., recently addressed a letter to stockholders of the corporation amplifying a previous offer to exchange common shares of Equity Corp. for Connecticut Investment Management stock. In the latest letter it offers a basis for exchange of Equity \$3 conv. pref. for CIMC stock on a basis of one share of Equity pref. for 8.8 shares of CIMC. Harrison B. Freeman, President of CIMC, has advised against the exchange.—V. 138, p. 330.

Consolidated Gas Co. of New York-Common Dividend

The directors on Dec. 27 declared a dividend of 25 cents per share on the common stock, no par value, payable March 15 to holders of record Feb. 11. This compares with 50 cents per share distributed in each of the three preceding quarters, 75 cents per share paid on March 15 last, and Dec. 15 1933; 85 cents per share on Sept. 15 and June 15 1933, and \$1 per share paid each quarter from Dec. 16 1929 to and including March 15 1933.

George B. Cortelyou, President, issued the following statement:

Increases in taxes and operating costs, together with the effects of reductions in electric rates and revenues in 1931 and other subsequent reductions in lesser amounts aggregating \$11,000,000 a year have combined to produce conditions under which the quarterly dividend must prudently be cut in half. The responsibility of the company is not only to its customers and employees, but also to 120,000 stockholder investors, about 81,000 of whom own less than 50 shares each. The investors in our bonds and preferred stocks include insurance companies, savings banks, trust estates, and other fiduciaries.

fiduciaries.

Operating taxes have become more than \$1 per month per meter on the lines of the companies of the Consolidated system. The average electric bill in New York City for residential use is only \$2.41 per month, and the average gas bill for residential use only \$2.18 per month. Taxes for 1935 are indicated as amounting to more than \$4.50 a share of outstanding common stock of the Consolidated Gas Co. Existing volume of business and revenues are insufficient to meet such tax burdens.

Under all of the circumstances confronting the companies it seemed advisable to reduce further the amount of the quarterly dividend payment. Meanwhile, the trustees of the company will put forth every effort to protect the investors, employees and customers and to pursue such a course as will meet the present situation in a fair and constructive way.

This company has for more than fifty years lived in and grown with this community which it serves. It is plain common sense that ways

must be sought for working out present problems along lines consistent with good business, good citizenship, and fair treatment for all concerned.

New Trustee Elected—
Oscar H. Fogg, a Vice-President, was elected a member of the board of trustees.—V. 139, p. 3963.

Consolidated Publishers, Inc.—To Pay Interest—
The company has notified the New York Curb Exchange that the interest due Jan. 1 1935 on the 10-year collateral trust 6 \(^3\)4 % sinking fund gold notes due July 1 1936, stamped 7 \(^4\)5 due July 1 1939, in accordance with agreement dated May 28 1934 will be paid at the rate of \$32.63 per coupon on the reduced face value of \$900 per \$1,000 note.

Accordingly, the committee on securities of the N. Y. Curb has ruled that stamped notes be quoted "ex-interest" \$32.63 on Jan. 2 1935; that the notes shall continue to be dealt in "flat" and to be a delivery against transactions made on and after Jan. 2 1935, must carry the July 1 1935 and subsequent coupons.—V. 139, p. 2359.

Consumers Power Co.—Earnings

Balance \$213,252 \$188,803 \$3,519,863 \$2,572,256 Note—This statement reflects the usual accounting practices of the company on the basis of interim figures and is subject to audit and end-of-year adjustments.—V. 139, p. 3477.

Coronet Phosphate Co., N. Y.—Smaller Dividend
The directors have declared a dividend of \$1.50 per share on the common stock, par \$100, payable Jan. 2 to holders of record Dec. 27. This compares with \$2 per share paid on Oct. 1 last. \$1 per share distributed on July 2, April 2, and Jan. 20 1934, and \$1.50 per share paid on Jan. 2 and April 1 1931.—V. 139, p. 2043. -Smaller Dividend Declar

Cream of Wheat Corp.—Extra Dividend Color The directors have declared an extra dividend of 25 cents per share in addition to the regular quarterly payment of 50 cents per share on the capital stock, both payable Jan. 2 to holders of record Dec. 22. A similar extra payment was made on Jan. 3 1933 and 1932 and in January and July of 1931 and 1930.—V. 139, p. 3806, 2517.

Cudahy Packing Co.—Annual Report—E. A. Cudahy, Chairman of the Board, says in part:

Chairman of the Board, says in part:

The net earnings for the year, \$1,968,262, represent a profit for the common stock outstanding of 5.94%, or \$2.97, per share [after deducting special profit and loss debits, consisting of investments written down, \$266,767, and premium on bonds and debentures retired and called for retirement, \$7.794].

The total net sales increased from \$124,300,000 in 1933 to \$151,400,000 in 1934. This increase of over \$27,000,000 is mainly due to higher market prices. Volume was well sustained, however, our sales tonnage showing a substantial increase

The balance sheet is somewhat more detailed than it hitherto has been and shows some rearrangement and adjustments, particularly in the fixed assets.

The balance sheet is somewhat more detailed than it hitherto has been and shows some rearrangement and adjustments, particularly in the fixed assets.

The item "farm and mineral lands" does not represent properties acquired within the year but is simply the transfer to a new account of properties previously carried under the caption "packing and other manufacturing plants." The reduction in "reserve for depreciation" is due to the elimination from that account of depletion representing mineral removed and used in our own manufacturing processes. The same amount has been deducted from the fixed asset values, so that the net value of these assets as shown on the balance sheet has not been affected by this adjustment.

The charge of \$439,020 to surplus is the result of an adjustment in the value of certain or our properties to actual cost.

Not since the company purchased its first carload of live stock, over 47 years ago, has it been confronted with so many entirely new problems as during the past year.

The processing tax on the live weight of hogs slaughtered, commencing at ½c, per pound in November of last year, increasing to 2½c, per pound on March and still continuing at that rate, has cost us between nine and 10 million dollars for the year. This in part was our contribution to the \$101,945,334 which the Agricultural Adjustment Administration recently stated was paid to "Corn-Hog Farmers" up to Oct. 1. In view of the close association of our industry with agriculture, and the fact that the prosperity of the one in a great measure depends upon the prosperity of the other, it is especially gratifying that we could participate so substantially in assisting the farmer.

Our expenditures for wages and salaries in 1934 were \$4,000,000 in excess of 1933 and the number of our employees is greater to-day than at any time. In addition to the processing taxes and advancing labor rates, the higher prices of live stock and supplies also contributed to advance the cost of our products until in the case of pork there was

Consider Reorganizing-

The directors are scheduled to meet Jan. 12, at which time it is understood plans for the contemplated financial reorganization of the road will be further discussed. The plan is expected to be submitted to security holders of the road before the close of next month.

The Governing Committee of the New York Stock Exchange at a meeting held Dec. 26 adopted the recommendations of the Committee on Stock List to list the following securities: Rio Grande Western Railway \$2.501,000 additional 1st consol. mtge. 4% gold bonds, due April 1 1949, and Denver & Rio Grande RR. \$1,755,000 additional 1st consol. mtge. 4% gold bonds, due Jan. 1 1936.—V. 139, p. 3963.

additional 1st consol, mige, 4% gold bonds, due April 1 1949, and Denver & Rio Grande RR, \$1,753,000 additional 1st consol, mtge, 4% gold bonds, due Jan. 1 1936.—V. 139, p. 3963.

Denver & Salt Lake Ry.—RFC Takes Over Operation—To Safeguard Loans—Change in Personnel—
The Reconstruction Finance Corporation made its first move Dec. 21 to exercise its powers as the railroads' banker by naming Wilson McCarthy, a former directors of the government agency, as President of the Denver & Salt Lake Ry.

The appointment was made under the specific terms of a contract for a loan from the RFC to the Denver & Salt Lake Western Ry., controlling the D. & S. L. W. to finance the purchase of the minority interest in the D. & S. L. W. to finance the purchase of the minority interest in the D. & S. L. W. to finance the purchase of the minority interest in serve on the D. & S. L.

The step was taken in Denver, when RFC loan funds were turned over to the D. & S. L. W. As provided in the contract with the RFC, two voting trustees and directors of the D. & S. L., which leases the Moffatt tunnel, resigned.

While the Denver & Salt Lake owes no money to the RFC, the government Corporation controls it because all the D. & S. L.'s stock is pledged as collateral for the \$3,182,150 loan to the D. & S. L.'s stock is pledged as collateral for the \$3,182,150 loan to the D. & S. L. W. and for loans aggregating \$7,581,000 made to the Denver & Rio Grande Western.

W. R. Freeman, who resigned as President of the Denver & Salt Lake, will continue a director of the road and will represent the RFC on the board.

W. R. Freeman, who resigned as President of the Denver & Salt Lake, will continue a director of the road and will represent the RFC on the board.

The D. & R. G. W. exercised its option and Horace Stringtellow, the RFC control of the board.

The other four members are: L. W. Baldwin and Horace Stringtellow, the RFC control of the board.

The other four members are: L. W. Baldwin and Horace Stringtellow, Mason, representing the Western Pacific

terest obtained by early 1931. On Sept. 30 1932, under an Interstate Commerce Commission ruling, the Denver & Rio Grande Western was required to deposit 20.530 of the shares it owned as collateral for its obligation to purchase at \$155 a share an additional 20.530 shares of D. & S. L. It was for purchase of these additional shares that funds were advanced by the RFC Dec. 21.

The Denver & Salt Lake Western was organized by the D. & R. G. W. to build the Dotsero cut-off, 30 miles of road from Orestod to Dotsero, to link the D. & S. L. with the D. & R. G. W., to build the Dotsero cut-off coast by seven hours. With RFC funds, totaling \$3,631,000, the cut-off was built, and the D. & S. L. W. issued stock for the amount of the RFC's advances. This stock is owned by the D. & R. G. W., but is pledged with the RFC.

The D. & R. G. W. is controlled jointly by the Van Sweringen dominated Missouri Pacific and by the Western Pacific, controlled by the Arthur Curtiss James interests. The RFC, through loans has important interests in all three carriers.

In placing its representative on the D. & S. L., the RFC is in a strategic position. The line is an essential portion of a new trans-continental route, and controversies may arise between the D. & S. L. sade the D. & R. G. W. over contracts between the wo. The RFC was described as being "anxious to keep in touch with the whole situation," and felt it could not do so unless it had more direct contact than had existed previously.

From its inception, the plan of a transcontinental line, using the D. & S. L. and the Moffatt Tunnel, was beset with difficulties. Minor troubles finally developed into a major conflict between the Van Sweringens and the Arthur Curtiss James interests. Both were involved in the D. & R. G. W. Finally, with funds borrowed from the RFC, it was finished and opened last summer.—V. 139, p. 3639.

Discount Corp. of N. Y.—\$8 Extra Dividend—dealer.

The directors have declared an extra dividend of \$8 per share in addition to the regular quarterly dividend of \$3 per share on the capital stock, both payable Jan. 2 to holders of record Dec. 31. A similar extra was paid on Jan. 2 1934, while on Jan. 3 1933 an extra of \$2 per share was paid.—V. 139, p. 2360.

Douglas Aircraft Corp.—Government Order— The company has been awarded a contract for 71 observation type air-planes costing \$1,655,314, the War Department announced on Dec. 24. —V. 139, p. 3806.

(E. I.) du Pont de Nemours & Co.—Acquisition-

Arrangements were completed on Dec. 22 for the purchase on or before Dec. 31 of the Commercial Solvents Corp.'s 30% interest in the Krebs Pigment & Color Corp. for \$7,420,000. The pigment company is owned jointly by the Grasselli-Chemical Co., a du Pont subsidiary, which holds a 70% interest, and Commercial Solvents, whose principal outside investment is represented by its Krebs holdings.

The Krebs concern manufactures dry color, lithopone and paint pigments for the paint, lacquer, printing-ink, rubber and linoleum trades. In 1931 it acquired the dry color and lithopone business of the du Pont company and the titanium dioxide and ore buying business of two former subs. of Commercial Solvents. Operations of this affiliate were so profitable in

1933 that its dividends constituted the major item in Commercial Solvents' "other income" account for the year.

The Krebs company's plants are at Newport, Del.; Newark, N. J., and Baltimore, Md.—V. 139, p. 3806.

a These amounts have been accrued to provide a reserve against which property retirements will be charged as they occur. The amounts so accrued are less than the depreciation deductions claimed or to be claimed on Federal income tax returns which are based on a straight-line method.

The companies are now making provision for retirements by charging operating expenses each month. E. U. A. income from investments, previously accrued, is now taken into earnings when receivable. All previous year's figures affected, including retirement reserve and earned surplus for the previous year, have been adjusted to a directly comparable basis. Certain other changes in accounting have been reflected in the previous year's figures to bring them to a comparable basis.—V. 139, p. 2827.

Edgewater Beach Apartments, Chicago—Reorganiza'n. butter

Edgewater Beach Apartments, Chicago—Reorganiza'n.

A plan of reorganization for the Bryn Mawr Building Corp., known as the Edgewater Beach Apartments, has been mailed to bondholders by the bondholders' protective committee neaded by Holman D. Pettibone.

Under the reorganization proposals a liquidation trust would be set up with the First National Bank of Chicago as trustee. New securities consisting of \$3,000,000 registered income notes and \$3,000,000 preferred units of beneficial interest would be issued, each bondholder receiving a \$50 income note, and a \$50 unit of beneficial interest for each \$100 bond.

During the first three years net earnings equal to 2½% of the combined principal amount of outstanding income notes, but under no circumstances is such interest to exceed 5%.

The balance, if any is available, is to be distributed on the preferred units. During the next four years earnings equal to 4% of the principal amount of the notes and units outstanding would be applicable as interest on the notes but such payments are not to exceed 6% before distribution can be made on the preferred units.

After the sixth year earnings equal to 5% of the principal amount of the notes and preferred units additional earnings would be applicable to sinking fund.

The management of the property would continue identified with the Edgewater Beach Hotel, Howard C. Bull, Secretary of the committee, states, and common units would not be entitled to any income of the property so long as any of the income notes or preferred units issued to present holders remain outstanding.

During the 35 months in which the trustee has operated the property, profit available for depreciation and bond interest has been \$437,249, the committee reports. Cash balance on hand is \$315,595, while \$299,307 was paid on account of taxes.—V. 135, p. 4564.

Edison Electric Illuminating Co. of Boston—Div.—
The directors have declared a quarterly dividend of \$2 per share, payable Feb. 1 1935 to holders of record Jan. 10 1935. This continues the rate established for the previous quarter and brings the dividends for the fiscal year to \$9 per share.

Electric Public Service Co.—Plan Consummated—
The plan of reorganization dated April 24 1933, has been consummated.
Holders of 10-year 6% sinking fund gold debenture bonds, due Dec. 1

\$263,306

\$279,595

1936 and April 1 1937, and unsecured obligations, in order to participate in the plan, must surrender their holdings on or prior to Feb. 28 1935. Full information may be secured from C. D. Perry, Treasurer, Room 908, 1600 Arch St., Philadelphia. Pa.—V. 139, p. 2518.

Electrographic Corp.—Pays \$7 on Account of Accruals—A dividend of \$7 per share was paid on account of accumulations on the 7% cumulative preferred stock, par \$100, on Dec. 21 to holders of record Dec. 14. A dividend of \$5.25 per share was distributed on Oct. 31 last, while \$1.75 per share was paid on Sept. 1 last, this latter being the first distribution to be made on this issue since Dec. 1 1931 when a regular quarterly payment of \$1.75 per share was disbursed.

Accumulations after the above payment now amount to \$7 per share.—V. 139, p. 1707.

Ellis Park Apartments—Pays Feb. 1 1934 Interes—Coupon No. 18, due Feb. 1 1934 was paid on Dec. 20 1934, according to Stewart Stully Co., original underwriters of the issue. The 7% first mortgage bonds were originally issued in an amount of \$275,000, which has been reduced to \$260,600. Interest was defaulted, Feb. 1 1934.

Eppley Hotels Co., Omaha, Neb.—Court Approves Plan Federal Judge J. A. Donohoe on Dec. 8 approved a reorganization plan for the company, recommended by Herman Aye, special master in a receivership action. Petition for the reorganization under Section 77B of the Bankruptcy Act was filed by the company on June 20.

Under the reorganization agreement, the company will begin paying interest on \$1,800,000 bonds on Jan. 1 1936, at the rate of 3% instead of 6½%. This rate will continue for five years, after which it will be increased to 5% until maturity.

The maturity of the bonds is extended 10 years to 1951, and the amortization, also to be resumed Jan. 1 1936, is thereby modified.

The company, with headquarters in Omaha, operates 19 hotels in several States.—V. 138, p. 510.

Erie Railroad-Pledge of Bonds-

The Interstate Commerce Commission on Dec. 21 authorized the company to pledge as additional security for notes issued or to be issued, pursuant to contract of March 14 1934, (a) \$750,000 of refunding and improvement mortgage 6% bonds, series of 1932, and (b) equity in certain bonds and stock pledged or to be pledged with the Reconstruction Finance Corporation.—V. 139, p. 3964.

Fada Radio & Electric Corp.—Delisted—
The New York Produce Exchange has removed from dealing this corporation's capital, \$1 par.—V. 139, p. 2518.

rate reduction in litigation.—V. 139, p. 3324.

Fox Film Corp.—Court Upholds Deal and Dismisses Suit—Justice Samuel I. Rosenman of the N. Y. Supreme Court, on Dec. 20 dismissed a suit brought by James N. Cleary and two other shareholders of the corporation, seeking to force 21 individuals and 6 corporations to pay an unestimated amount of damages to the corporation and return \$4,000,000 profits from the issuance on April 17 1930, and partial sale of 1,600,000 class A shares of Fox Film stock

The "HeraldyTribune" of Dec. 21 stated:

Justice Rosenman found that the specific \$4,000,000 profits of a syndicate in the sale of the stock should have been paid to General Theaters Equipment, Inc., but that no claim against the profits could be made on behalf of Fox Film Corp.

William F. Ingold and Murray W. Dodge, as directors of General Theaters, defendants and the Chase Securities Corp., as a member of the syndicate, defendant, the Courtsaid, "are therefore liable so far as the plaintiff's case goes, for all the profits made by all the members of the syndicate of about \$4,000,000.

"In this connection as well as in connection with any similar statements elsewhere in this jopinion, it is to be noted that this motion to dismiss having been made at the close of the plaintiff's case, these defendants have not yet presented whatever evidence they may have on this subject."

— The Court dismissed the suit on motion of the defendants who were not required to present\_evidence of their defense which, had a defense been

presented, might have shown that Mr. Ingold, Mr. Dodge and Chase Securities could explain why the \$4.000,000 profits were not paid to General Theaters Equipment, the Court indicated.

Justice Rosenman said that issuance of the \$1,600,000 shares of Fox Film stock, increasing its stock by 200%, was a material part of a plan to pull Fox Film and Fox Theaters Corp. out of financial difficulties and forestall the threatening receiverships of both companies.

There has been nothing illegal or injurious to Fox Film in this transaction, nor was there in the sale of the new stock to Fox Theaters, the Court said. In addition to the stock, Fox Film transferred to Fox Theaters \$8,000,000 in cash and a release of a claim of about \$19,000,000 which Fox Film had against Fox Theaters.

In exchange, the Court pointed out, Fox Theaters transferred to Fox Film 660,900 shares of Loew's, Inc., whose value some time previously was fixed at \$75,000,000. Fox Theaters sold the 1,600,000 shares of Fox Film to General Theaters Equipment for \$48,000,000.

A syndicate among the defendants purchased 240,000 of General Theaters Equipment shares at \$30 a share, and on April 18 1930, the syndicate sold 120,000 shares in the open market at prices approximately \$42 a share, making a profit of \$12 a share. The remaining 120,000 shares were also sold, and the syndicate made a total profit of \$4,000,000.

The two additional plaintiffs were Fannie Lurie and Gustav Oppenheimer. They were represented by Olvany, Eisner & Donnelly.

The defendants were William Fox, Winfield Sheehan, Charles W. Higley, Oscar L. Gubelman, Charles B. Stuart, Saul E. Rogers, Harley L. Clark, Matthew C. Brush, Arthur F. Lafrentz, Samuel W. Fordyce, Robert C. Winmill, Walter R. Herrick, Otto E. Koegel, S. R. Burns, Murray W. Dodge, William F. Ingold, W. C. Michel, Ernest W. Niver, William W. Sodden, W. S. Hammons, W. E. Green, Halsey, Stuart & Co., Inc., Fox Film Corp., Fox Theaters Corp., General Theaters Equipment, Inc., Chase Securities Corp. and Chase National Bank.

General Alliance Corp.—Resumes Dividends—
The directors of this corporation (holding company which owns General Reinsurance Corp. and North Star Insurance Co., both of which are engaged in the reinsurance business) on Dec. 27 authorized the resumption of dividends with the declaration of a payment of 15 cents per share, payable Jan. 21 to holders of record Jan. 10.

Edgar H. Boles, President, stated that this was the first dividend declaration since the fall of 1931. This dividend will be only a small fractional part of net investment income, but the declaration represents the confidence of the company's officials in the restoration of normal earning power in the operating companies rather than a reflection of any marked change in business conditions. He attributed the improvement in earnings of the operating companies to working off and elimination of certain unprofitable accounts in the surety and accident and health reinsurance lines, which had been a drag on normal earnings for some years past; and in the fire reinsurance lines he attributed the underwriting profits to the exceptionally fine results which had been enjoyed this year by the direct writing companies.—V. 139, p. 1403.

General Aviation Corp.—Dissolution Approved—

General Aviation Corp.—Dissolution Approved—
The stockholders at special meeting held Dec. 21 approved the proposal to dissolve the corporation and distribute its assets, which include 1,485,922 shares of North American Aviation, Inc. See also V. 139, p. 3807.

General Development Co.—Smaller Dividend—Share on the common stock, par \$20, payable Dec. 31 to holders of record Dec. 26. A dividend of 50 cents per share was paid on Nov. 1 last, this being the first payment made on this issue since June 30 1930 when a semi-annual distribution of 25 cents per share was made.—V. 139, p. 3325.

General Electric Co.—To Polymer Co.—

first payment made on this issue since June 30 1930 when a semi-annual distribution of 25 cents per share was made.—V. 139, p. 3325.

General Electric Co.—To Redeem Special Stock—

The directors voted on Dec. 28 to redeem bonds and special stock of the par value of \$44.976,630, paying premiums that will require the distribution of close to \$50,000,000, mostly to private investors.

The company will call for redemption on April 15 at \$11 a share the entire issue of special stock, which was given to common stockholders a few years ago in the form of regular stock dividends, in addition to cash distribution. There are 4.292,933½ shares of this stock outstanding, with a par value of \$10 a share. The stock has been receiving dividends regularly since issuance at the rate of 60 cents a share per annum, making the rate 6%. Under the issuing agreement the stock was made callable at a premium of 10%.

In addition to the special stock the company will call for redemption on Aug. 1 1935, its only bonded debt, consisting of \$2,047,000 of 3½% bonds maturing in 1942. In the redemption of these bonds the company must pay a premium of 105.

In announcing its decision to retire these bonds and the stock, the company did not state what would be the source from which it would draw the funds. However, it is believed that the company's cash position is strong enough to warrant financing the whole operation without the aid of bank loans. On Dec. 31 1933, the date of the last published balance sheet, General Electric had \$60,901,644 cash and \$50,976,864 marketable securities. These quick assets are more than twice the amount necessary to retire the bonds and stock that have been called.—V. 139, p. 3965.

General Motors Acceptance Corp.—To Redeem Notes—The company announced on Dec. 27 it would redeem on March 1 1935, its 5% notes, Series J dated March 1 1926, and due on March 1 1936, of which \$4,561,000 are outstanding. They will be paid at the office of J. P. Morgan & Co. at 101 and interest.—V. 139, p. 1868.

General Investment Corp.—Interim Report for 6 Months

General Investment Corp.—Interim Report for 6 Months Ended Nov. 30 1934—

George E. Devendorf, President, says in part:

"Since May 31 1934 South American Railways and United States & Overseas Corp., whose accounts were previously consolidated, have been dissolved, and the proportion of their assets pertaining to this corporation are now owned outright. The accounting entries in connection with these dissolutions are reflected in the accompanying statements.

"The dissolution of South American Railways resulted in your corporation acquiring all of the notes of Buenos Aires Central Railroad & Terminal Co., which have been arbitrarily valued by your directors at 50% of their principal amounts. It is impossible to appraise accurately these notes under present conditions in the Argentine.

"The management of the Terminal company considers that the earnings of the subway and subsidiary companies are abnormally low. Earnings of the Terminal company before interest and depreciation reserve for the year ended June 30 1934, were 854,103 Argentine paper peoso, compared with 1,131,274 Argentine paper peoso for the previous year, or the approximate equivalent at present free exchange rates, of \$213,528 and \$282,818 respectively. The above earnings of the Terminal company, represent, in effect, earnings of the subway, which is directly owned by the Terminal company. Traffic figures of the subway from July 1 to Nov. 30 show a slightly more favorable trend, increasing over the same period last year by 4%.

"The Terminal company also owns all the common stock of Lacroze Light & Power Co. of Buenos Aires, Lacroze Tramways Co. of Buenos Aires and Buenos Aires Central RR. For several years the Terminal company has not received any dividends on the common stock of the subsidiaries. Since the three subsidiaries have not been able to pay the interest on their senior debt it is difficult to assign any substantial value to their common stock, all of which is owned by the Terminal company. There have been no further important developme

# Globe Automatic Sprinkler Co.-Unfair Practices

The company has been ordered by the Federal Trade Commission to cease and desist from unfair competitive methods in the sale and distribution of its automatic sprinkler apparatus and other equipment. Malicious interference with the contractual relationship between this company's competitors and their contractors or "licensees," is prohibited in the Commission order. According to findings, the company solicited business from licensees of its competitors at reduced prices, thus causing the licensees to violate their contracts with manufacturers, depriving the manufacturers of the principal market for their products and compelling them to reduce prices below the level that would yield a reasonable profit.—V. 139, p. 1084

Gorham Manufacturing Co.—50 Cent Dividend
The directors have declared a dividend of 50 cents per share on the com. stock, no par value, and voting trust certificates for common stock, payable Jan. 15 to holders of record Dec. 31. A dividend of 75 cents per share was paid on April 16, last, 50 cents per share on Dec. 28 1933, and \$1 per share on March 31 1933.

Quarterly payments of 25 cents per share were made on Sept. 1 and Dec. 1 1932, as against 40 cents per share on March 1 and on June 1 1932 and 50 cents per share in preceding quarters.—V. 139, p. 2046.

The company has applied to the Inter-State Commerce Commission for permission to borrow \$80,000 from the Public Works Administration to complete maintenance and repair work for which it has already received \$850,000 from the PWA.

The application also asks approval of the issuance of \$125,000 general mortgage 6% bonds, to be pledged with the PWA as collateral for the loan.

—V. 139, p. 34,80.

(B.) Greening Wire Co., Ltd.—\$1.75 Preferred Dividend
The directors have declared a dividend of \$1.75 per share on account
of accumulations on the 7% cumulative red. preferred stock, par \$100,
payable Jan. 1 to holders of record Dec. 15. The dividend is payable in
Canadian funds and in the case of non-residents subject to a 5% tax.
A similar payment was made on Oct. 1, last. This distribution being the
first made on this issue since Oct. 1 1932 when a regular quarterly distribution of like amount was made.
Accruals after the payment of the Jan. 1 dividend will amount to \$12.25
per share.—V. 139, p. 1710.

Guarantee Co. of North America—Extra Dividend—
The directors have declared an extra dividend of \$2.50 per share in addition to the usual quarterly dividend of \$1.50 per share on the common stock, par \$50, payable in Canadian funds on Jan. 15 to holders of record Dec. 31. Similar distributions have been made each quarter since and including Jan. 16 1933. Non-residents of Canada are subject to a 5% tax—V. 139, p. 2047.

Cuenther Publishing Corp.—\$4 Dividend
The directors have declared a dividend of \$4 per share on the capital stock, payable Jan. 2 to holders of record Dec. 26. On Jan. 4 1934 a dividend of \$5 per share was paid on this issue.
Louis Guenther, President, in announcing the dividend for 1934 said that it had been due in no small degree to the continuous advertising done by the "Financial World" in newspapers in New York and other cities throughout the year. He added that the circulation gains resulting in part from this advertising might also be considered as indicative of a reviving interest in the investment markets.

"It goes without saying that advertising is one of the most important methods of restoring business," Mr. Guenther said. "Year after year we have found this to be true, hence our confidence for 1935. If financial nouses would do more advertising of their services, their business would be correspondingly benefited for their service is still a very important one to the American public.—V. 138, p. 156.

operating expenses each month. All previous year's figures affected, including retirement reserve and earned surplus for the previous year, have been adjusted to a directly comparable basis.

During the last 24 years the company has expended the maintenance a total of 4.17% of the entire gross earnings over this period, and in addition during this period has set aside for reserves or retained as surplus a total of 10.45% of these gross earnings.—V. 139, p. 3966.

Hershey Chocolate Corp. -Extra Distribution Hershey Chocolate Corp.—Extra Distribution—The directors have declared an extra dividend of \$1 per share in addition to the usual quarterly dividend of like amount on the conv. preference stock, no par value, and the regular quarterly dividend of 75 cents per share on the common stock, no par value, all payable Feb. 15 to holders of record Jan. 25. Under the provisions of the articles of incorporation, before any dividends may be declared and paid on the common stock in any year, an extra dividend of \$1 per share must be declared, set aside and paid on the convertible preference stock.

An extra distribution of \$1 per share was made on the preference stock on Feb. 15 1930, 1931, 1932, 1933 and 1934.—V. 139, p. 3155.

Hotel St. Regis, N. Y. City—Foreclosure Suit Upheld—
The Appellate Division of the N. Y. Supreme Countrecently decided that Vincent Astor has a right to a judgment of foreclosure in his suit over \$5,000,000 in mortgages on the Hotel St. Regis property against the Hotel St. Regis, Inc., and the Durham Realty Corp. The Court reversed a decision of the lower Court denying judgment on the ground that a suit was pending between the parties over the contents of the hotel, alleged by the Duke interests, present owner of the St. Regis property, to be worth \$800,350.

The Appellate Division ruled that the controversy over the furnishings constituted no defense to the foreclosure of the mortgage affecting real estate. Raymond Moley has been receiver of rents of the hotel since the suit was started last May. Mr. Astor contends that under the terms of the mortgage he has the right to buy the contents of the hotel for \$100,000. The Duke interests assert that Mr. Astor is seeking through the foreclosure to acquire property worth \$10,000,000 for \$5,100,000.—V. 139, p. 1241.

Industrial Credit/Corp. of New England-61/2 Cents Extra Distribution

An extra dividend of 6½ cents per share has been declared on the common stock, in addition to the regular quarterly dividend of 32 cents per share, both payable Jan. 2, to holders of record Dec. 15. Like amounts were paid on Oct. 1, July 1, April 2 and Jan. 1 last.—V. 139, p. 1871.

Interborough Rapid Transit Co.—To Pay January Int.

The committee for the 1st & ref. 5% bonds of 1966 has been advised that the court has ordered payment by the receiver of interest and sinking fund payments due Jan. 1 1935, on these bonds. On receipt by the committee's depositary of requisite funds, checks will be mailed to holders of record of certificates of deposit at close of business Jan. 2.

The committee for I. R. T. secured convertible 7% notes due Sept. 1 1932, states there will be distributed to holders of the certificates of deposit of record Jan. 2 any funds received by the depositary from Bankers Trust Co.

Meeting Adjourned to Jan. 7—

The meeting of holders of voting trust certificates for stock of the company has been adjourned to Jan. 7. It was explained that 104,583 voting trust certificates were represented, or about 30% of those outstanding.

A special meeting of stockholders of Interborough which had been scheduled for Dec. 28 was also postponed.

Samuel Untermyer said that the failure to get sufficient proxies was not due to objections of holders, but to the existing law and regulations of the Stock Exchange in reference to the registration of names of holders of non-dividend-paying stock.

The meeting was to have been for the purpose of ratifying the set of resolutions adopted by directors of Interborough and Manhattan companies last month. The object of the resolutions was to compose differences between the two companies so that unification negotiations can be completed.

Mr. Untermyer said that he did not consider Judge Seabury's letter to the Board of Estimate last week as muching and harden and the summer of the seabury's letter to

pletted.

Mr. Untermyer said that he did not consider Judge Seabury's letter to the Board of Estimate last week as pushing stockholders out of the picture and that he differs with Judge Seabury in regard to the statement made by the latter that unification could be achieved by dealing with bondholders and the Court while ignoring stockholders.

Seabury-Berle Report to N. Y. City Board of Estimate Says ice Asked by System's Stockholders Has No Reasonable Foundation-

Foundation—

Samuel Seabury and A. A. Berle Jr. have reported to the N. Y. City Board of Estimate that the price asked by Interborough-Manhattan stockholders of \$60,000,000, which, taking into account par for bonds and notes outstanding, would bring total price for the system to \$264,000,000, has no reasonable foundation and cannot even be used as a basis of negotiation. "It is so far in excess of any amount the city would conceivably pay as to indicate a lack of appreciation of the realities of the situation," Judge Seabury and Mr. Berle report.

They explained also that negotiations with representatives of bondholders and noteholders are proceeding and will continue.

"So far as their views have been presented," the report says, "it seems to us that these interests could have exhibited a more realistic attitude." The report explains that representatives of the boards of directors of Interborough and Manhattan conferred with Judge Seabury and Mr. Berle, the city's representatives, and offered to recommend to the stockholders of the companies that they assent to a sale of the Interborough-Manhattan System at a gross price to yield to the common stock approximately \$60,000. The subject matter of the offer dealt with the common stock interest only. The offer was on condition that the city should relieve the companies from the claims of all creditors.

Not Willing to Modify Terms

Not Willing to Modify Terms

Judge Seabury and Mr. Berle stated that at a number of the interviews are was no evidence of willingness to make a substantial reduction in

Judge Seabury and Mr. Berle stated that at a number of the interviews there was no evidence of willingness to make a substantial reduction in terms.

In their report to the Board the New York City representatives stated "Among the considerations urged upon the city by the Interborough-Manhattan representatives was the acquisition of the Manhattan lines for the purpose of demolition, thereby increasing the taxable value of adjacent real estate and thus permitting the city to recover a portion of the price paid. Speculative and remote possibilities of this character cannot warrant a price so unrelated to earning power.

"For 1935 it is estimated that the city will receive from the Interborough-Manhattan System approximately \$6,000,000 in the form of higher rental and taxes, including the gross receipts tax. This sum constitutes a first charge on the revenues of the lines. Further, the city makes an annual gain through the gradual approach of the maturity of the lease of the subways in 1967. At that time the subways, the valued part of the system, become, except for certain equipments, the city's outright property without further payment.

"The city cannot sacrifice these advantages unless adequate benefits are received. A price of \$60,000,000 for the rights of the common stock taken in connection with the demand that would then be made by holders of the Interborough-Manhattan debt would deny the city any saving at all and would serve only to imperil what rights the city had.

"The Interborough-Manhattan representatives dissent from these views, but we are unable to change our conclusion.

Net Revenues Declining

but we are unable to change our conclusion.

Net Revenues Declining

The report went on to explain that net operating revenues of InterboroughManhattan have been declining steadily for several years, the figure in
1934 being less than the \$6,500,000 for the fiscal year 1929. It was argued
also that traffic has fallen, while taxes, wages and other costs are rising
and maintenance requirements are considerably higher. The system has
falled to earn fixed charges on its funded debt for some years, it was declared, and it is now so falling by \$500,000 annually.

The report said further "The financial distress of the Interborough and
Manhattan companies is due not so much to the city-owned subway lines
of the Interborough System, whose loss of traffic has amounted to only
13% in the last five years, as to the precipitous drop in traffic on the Manhattan line, over 36% in the same period. This traffic is now less than in
1902. The drop seems primarily accounted for by what appeared to be
permanent matters, loss of population and increased competition in Manhattan. The population in that borough is now smaller than in 1902.
Four subway lines now compete with the Manhattan lines, which in 1902
were the only rapid transit groups in Manhattan. Fares collected at Manhattan stations have decreased from \$358,000,000 in the 1921 fiscal year
to \$202,000,000 in 1934.

Needs Millions for Maintenance

to \$202,000,000 in 1934.

"Due to the great age of Manhattan cars and structure, proper maintenance on these lines would be most costly. Millions of dollars should be spent in the near future on these lines if they are to be operated adequately. On our estimate these lines will fail in the coming year by a substantial sum even to meet operating expenses and taxes, let alone charges on the Manhattan debt of over \$44,000,000.

"Sale of the properties to the city rests with the bondholders and note holders, subject to the supervision of the Court. A fair price may be accepted and approved without the consent of stockholders. Accordingly, unreasonable demands on behalf of the stockholders do not terminate the negotiations now under way."

In conclusion the report explains that the Interborough-Manhattan properties are in the hands of receivers and the mortgage on the Manhattan lines is now being foreclosed.

Manhattan Vice-President Says No Prices Mentioned—
Theodore S. Watson, Vice-President of Manhattan Ry. and director in both Interborough and Manhattan companies, in response to inquiries on Mr. Seabury's statement, said no prices as yet have been mentioned by Manhattan company and so far as the directors of Interborough know no prices have been mentioned by Interborough representatives. In 1931 the Transit Commission suggested a price of \$265,000,000 for the two properties.

Mr. Watson expressed surprise that there should have been any reference to conferences between Judge Seabury and the committees representing the carriers, because no such conferences have taken place.

Mr. Watson further said the Manhattan interests for over a year have offered, if the city felt that they were driving too hard a bargain, to arbitrate the price, the arbitrators to be any three reputable, well-informed business men who had no connection with the traction situation.

He stated confidently that the city could consummate unification with both Manhattan and Interborough any time it wanted to go about it

in a business-like way at a price which would enable the officers of both companies to go to their stockholders and conscientiously recommend it.

He denied there was any financial distress in either Interborough or Manhattan companies, said neither company owed any money except Manhattan taxes owed by Interborough, and that Interborough had cash and marketable securities to the extent of approximately \$15,000,000. He predicted an early permanent agreement between Interborough and Manhattan toward taking both of these companies out of the hands of receivers in event that unification is not consummated in the near future.

Report Called Unfair and Misleading—
Charles Franklin, counsel and director of Manhattan Ry., called the Seabury-Berle statement "unfair" and "misleading." He said he could not understand why the city's transit advisors had issued such a statement unless it was calculated to affect the sending in of proxies by I. R. T. and Manhattan stockholders.

Mr. Franklin, who also is a member of the company committee on unification, reiterated Mr. Watson's statement that no conference had been held with city officials and that there had been no mention of prices for the companies' securities. He said that no such steps could be taken until stockholders had given directors the authority to negotiate.—V. 139, p. 3966.

International Business Machines Corp. Wage Scale President Thomas J. Watson has announced a minimum wage scale of 55 cents per hour for qualified men and women employees. In announcing the new wage scale, Mr. Watson declared that instructions have already been given to develop a system of fixing pay which will provide "right, just, fair and liberal pay based on quality rather than quantity of production."

been given to develop a system of fixing pay which will provide "right, just, fair and liberal pay based on quality rather than quantity of production."

In stressing quality, he stated it was essential "because of the importance to our business of maintaining our high standards of efficiency in our machines for the benefit of our customers."

President Watson also announced that the group insurance plan recently adopted by the company for all employees has been changed and the amount increased so that all factory and clerical employees at Endicott will receive \$2,000 insurance instead of \$1,000 after two years of service without cost to themselves. In addition, their dependents will also receive two months' pay in the event of death.

New Directors

New Directors—
Abraham L. Kellogs of Oneonta, N. Y., has been elected a director to fill a vacancy caused by the death of Charles L. Andrus.
At a meeting of the directors of the International Business Machines Co., Ltd., the company's Canadian subsidiary, George F. Morris, Vice-President, was elected President.—V. 139, p. 3810.

International Telephone Building Corp.—Borrows on

The corporation has borrowed \$1,000,000 from the Metropolitan Life Insurance Co. on its 35-story building at 65 to 81 Broad St., 32 to 36 Beaver St., and 28 to 38 William St., due Feb. 1 1945. The mortgage is at 5%, instalments of \$25,000 and has been consolidated with other mortgages for \$2,225,000 to constitute one lien of \$3,225,000, which has been extended to 1945. The 1934 assessed valuation on the property is \$3,000,000 for the land and \$8,100,000 including the building. The new loan will be paid back in instalments of \$25,000 and \$50,000.

Investors Royalty Co., Inc.—Pays Extra Dividend—An extra dividend of 10 cents per share in addition to the regular quarterly dividend of like amount was paid on the common stock, par \$25, on Dec. 20 to holders of record Dec. 15.—V. 138, p. 872.

Island Warehouse Corp.—Bonds Called—
The company is notifying holders of its first mortgage gold bonds, series A, that there has been drawn by lot for redemption on and after March 1 1935 at 104½ and interest, \$124,000 of these bonds. The bonds so called for redemption will be paid at the office of Chase National Bank, 11 Broad St., New York.—V. 116, p. 829.

### Italo Petroleum Corp. of America-Earnings-

Earnings for the 8 Months Ended Oct. 31 1934

Net income after all expenses.

Earnings per share on 597,958 preferred shares.

-V. 139, p. 767.

Jamaica Public Service Co., Ltd.—Debenture Stock Offered—Offering was made in London, Dec. 17 of an issue of £420,000 30-year 4½% lst mtge. debenture stock, due Jan. 15 1956, at par by Kitcat & Aiken. The issue, according to cable advices, was oversubscribed.

The proceeds from the issue will be used to refund \$1.910,000 1st mtge. 5% bonds of 1950, called for payment Jan. 15 next at 103 and interest.

The main object of the refunding operation, it is said, is to make the company's indebtedness payable in the same currency as that of its income, the official currency on the Island of Jamaica being in pounds sterling.

The existing \$1.910,000 5% bonds are payable either in sterling or in Canadian dollars at the option of the holder, while the new issue of debenture stock will carry the same sinking fund as the old issue, namely 1½% per annum, and will be subject to the same terms as to security as the existing issue.

A statement points out that earnings of company have held up well throughout the depression, and monthly earnings so far this year have been running in excess of the same period last year. The official prospectus published in compliance with the regulations of the London Stock Exchange states that the company's earnings after operating expenses and taxes for the year ended Dec. 31 1933 were £67.782. Interest on the new issue will amount to £18,900 annually.—V. 139, p. 2833.

Liquid Carbonic Corp.—Meeting Adjourned—
The stockholders' meeting scheduled for Dec. 20, to consider amending the certificate of incorporation to establish a plan for paying extra compensation to officers and employees, has been adjourned.

"Business volume for the first three months of this new fiscal year is running about 20% above the like 1933 period," according to W. K. Mc-Intosh, Chairman of the board. He said it was too early to compute to what extent this advance in volume would reflect in net.

New Directors—
R. L. Chrysier has been elected a director and to the Presidency of the Canadian subsidiary, succeeding J. R. Colby, deceased.—V. 139, p. 3644.

Manville-Jenckes Co.—Abandoned Plant Sold—
The Pawtucket plant of the company, abandoned two years ago when machinery was moved to Manville to escape taxes, was sold on Dec. 19 at public auction to Ambrose P. McCoy, Chairman of the Pawtucket Finance Committee. He paid \$35,000 for the property.—V.137,p.4538.

Finance Committee. He paid \$35,000 for the property.—V. 137, p. 4538.

Marlin-Rockwell Corp.—Assets Transferred to New Co.—
The New York Stock Exchange has been advised that the stockholders at a special meeting held on Dec. 17, voted unanimously to provide the transfer of all property of Marlin-Rockwell Corp. and its two subsidiary companies to Marlin-Rockwell Corp. of Delaware.

Marlin-Rockwell of Delaware will have the same authorized amount of capital stock, namely 400,000 shares, of which 364,145 will be issued in exchange for the stock of the New York corporation at present outstanding. The exchange will be on a share for share basis, the only difference being that the present stock of the New York corporation is "no par" while the stock of the new Delaware corporation will be \$1 par value.

The Committee on Stock List of the N. Y. Stock Exchange has determined to continue the listing of the common stock without par value of Marlin-Rockwell Corp. of New York pending application for listing of the stock of the Marlin-Rockwell Corp. of Delaware.—V. 139, p. 3645.

Merck Corp.—Merger Ratified—

At a special meeting of the stockholders held Dec. 27 the agreement for the fonsolidation of the Merck Corp. and its subsidiary, Merck & Co., Inc. was ratified. Proxies voting in favor of the consolidation were received from 84% of the preferred stockholders and 93% of all share-holders. holders.

### George W. Merck, President, in a recent letter to the stockholders stated in part:

As a result of increased earnings of Merck & Co., Inc., during the past four years, directors feel the time is opportune for the merger of both companies. Such a merger will simplify the capital structure of the two companies, eliminating the holding company and permitting the stockholders of Merck Corp. to hold stock directly in the company which owns

the Merck properties and operates the Merck business. At the same time such a merger will make it possible to take care of the accumulated dividends on the preferred stock of the corporation.

It is proposed that upon the consolidation each preferred stockholder of Merck Corp. receive share for share 8% cumulative preferred stock of the consolidated corporation similar in terms to the stock now held, but with certain variations, and, in addition, in place of accrued dividends two shares of the common stock of the consolidated corporation in respect of each share of preferred stock now held.

On the basis of current earnings of Merck & Co. Inc., the common stock of the consolidated corporation would show earnings of substantially over \$2 per share per annum and if these earnings continue should be placed on a dividend basis during the year 1935.

The consolidation agreement provides for an issue of 51,395 shares of 8% cumulative preferred stock and 300,000 shares of common stock of the new consolidated corporation. This stock will be apportioned among the stockholders of Merck & Co., Inc., in the proportions in which its stock is now held, namely, 65,522% to Merck Corp. interests and 34,478% to the other stockholders. The stock attributable to the stockholders of Merck Corp. will be issued to its preferred stockholders as above provided and the balance, being 129,216 shares of common stock, to the common stockholders of Merck Corp.

The proposed consolidation will result in the formation of a new consolidated corporation, under the laws of New Jersey, to be known as Merck & Co., Inc. The preferred stock of the new corporation will be entitled to cumulative quarterly dividends at the rate of 8% per annum in priority to dividends upon its common stock. It will be redeemable at \$115 per share plus unpaid cumulative dividends. It will be entitled to \$100 per share plus unpaid cumulative dividends. It will be entitled to \$100 per share plus unpaid cumulative dividends. It will be entitled to \$100 per share plus unpai

-Preferred Dividends Alskary Michigan Gas & Electric Co.—Preferred Dividends
The directors have declared a dividend of 87½ cents per share on the
7% cum, prior lien stock, par \$100, and 75 cents per share on the \$6 cum
prior lien stock, no par value, both payable Feb. 1 to holders of record.
Jan. 15. Similar distributions were made on Nov. 1, Aug. 1 and May 1
last, this latter being the first since May 1 1933, prior to which regular
quarterly distributions of \$1.75 per share and \$1.50 per share, respectively,
were made.—V. 139, p. 2684.

Michigan Public Service Co.—Preferred Dividends—The directors have declared a dividend of 87½ cents per share on the 7% cum. pref. stock, par \$100, and 75 cents per share on the 6% cum. pref. stock, par \$100, both on account of accumulations, and payable Feb. 1 to holders of record Jan. 15. Similar distributions were made on Nov. 1, Aug. 1 and May 1 last, this latter being the first paid on those issues since Jan. 2 1933 when the regular quarterly dividends were disbursed.—V. 139, p. 2684.

-Martin Insull Acquitted-Middle West Utilities Co.—Martin Insull Acquitted— A Criminal Court jury late on Dec. 21 acquitted Martin J. Insull, former ecutive. of charges of embezzling \$344,720 from the Middle West Utilities

About a month ago Samuel Insull was acquitted with 16 co-defend-ts in Federal Court of charges of using the mails to defraud.

Preferred Stockholders Approve Plan—
The preferred stockholders' committee, in a statement to depositing stockholders, says that it has approved and adopted the plan of reorganization for the company dated Sept. 24 and filed Oct. 23 last.—V. 139, p. 3968.

Montgomery Ward & Co.-Lower Midwinter Prices

Montgomery Ward & Co.—Lower Midwinter Prices—
The company's midwinter flyer, now going out to customers, contains a number of innovations reflecting further the new merchandising ideas developed by the new management.

Instead of being labeled a midwinter flyer the book carries the title "Ward's Advance Spring Sale." and the duration of the sale is extended from the formerly usual 60 days during January and February to 75 days ending March 15.

An exception is made in the case of automobile tires whose "low sale prices" will last only until Feb. 15 "because of rising tire prices."

The company is making a strong bid for building material business in connection with the home modernization campaign. Customers are urged to use National Recovery Administration loans or the company's budget plan. Under the budget plan, announced several months ago, customers can buy anything listed in Ward catalogs on instalment payments. However, orders under the plan must total \$20 or more.

Company states that every price in the book is cut. Flyers normally show price reductions under preceding general catalogs, with the objective of stimulating sales during seasonally dull periods of the year.—V. 139, p. 3969.

(William R.) Moore Dry Goods Co. +\$10 Extra Dividend

The directors have declared an extra dividend of \$10 per share and a stock dividend of 10% on the common stock, par \$100, both payable Jan. 1 to holders of record Jan. 1. This extra dividend supersedes the \$2 extra payment previously declared.

Pays Bonus to Employees—
In addition to the above disbursements the directors have thrown in a bonus of \$27,000 as a Christmas present to employees.—V. 139, p. 3646.

James Bruce, has been elected a Vice-President, it was announced on Dec. 18.—V. 139, p. 771.

National Investors Corp.—Consolidation—

A plan for uniting National Investors Corp. and Second, Third and Fourth National Investors Corps. into a single investment trust of simple corporate structure has been proposed. Stockholders of all four companies will vote Jan. 25 on approving the plan.

One of the fundamental objectives of the plan is to improve the market ability of the shares and to reduce the disparity existing between asset value and market price for certain classes of stock. The boards of the four companies, which are composed of the same directors, recommend that security holders accept the plan.

The plan contemplates that a new corporation, to be called "National Investors Corp." will be formed under the laws of the State of Maryland, and that:

(1) The management contracts, which expire Dec. 31 1934, between the existing National Investors Corp. and the other three companies will not be expense of operating the four companies will be allocated among them on the basis of the value of their assets, excluding inter-company holdings.

(2) The new company will own the assets of the four existing companies and will assume their liabilities.

(3) The new company will have but one class of stock, which will be issued to stockholders and warrantholders of the existing companies will be dissolved.

(4) The new company will be an open-end type of investment trust. Accordingly its certificate of incorporation will provide that, stockholders of the new company to purchase their stock into cash will have the right to require the company to purchase their stock into cash will have the right to require the company to purchase their stock into cash will have the right to require the company to purchase their stock into cash will have the right to require the company to purchase their stock into cash will have the of the new company to purchase may be suspended from time to time by the board of directors, but it is not

(in terms of new company shares) allocated under the plan to all stock-holders and warrantholders of the existing companies:

warrants to purchase 685,000 shares of Fourth National Investors Corp. common stock in addition to those mentioned in (a) above.

Note—Warrants are outstanding to purchase 381,336 shares of common stock at \$2.331-3 per share until July 1 1935, and thereafter at \$.331-3 more per share per annum until July 1 1938 when the warrants expire.

[The balance sheets of the Second, Third and Fourth/Nationall/Investors Corps, were published in the "Chronicle" of Oct. 6 last]—V. 139, p. 2838.

National Distillers Products Corp.—Common Divs Resumed-

Resumed—
The directors have declared a dividend of 50 cents per share on the common stock, no par value, payable Feb. 1 to holders of record Jan. 15. This is the first cash distribution to be made on this issue since Aug. 1 1932 when a quarterly dividend of like amount was paid. This rate had been paid quarterly since and including Feb. 1 1930.

A dividend in warehouse receipts for whisky, on the basis of one 24-pint case for each five shares of common stock, held was paid on Oct. 16 1933. Holders of the receipts had to pay bottling and casing charges of \$4 a case, certain other charges, and Federal, State and locak taxes.—V, 139, p. 3331

Old Joe Distilling Co.-Clears Up Arrearages on Preferred Stock

The directors have declared a dividend of 20 cents per share on account of accruals and a regular quarterly dividend of 10 cents per share on the 8% cum. partic. preferred stock, par \$5, both payable Jan. 1 to holders of record Dec. 24. The above payment clears up all accumulations on this issue.—V. 139, p. 3970.

Ontario Silknit, Ltd.—Accumulated Dividend—Color The directors have declared a dividend of \$2 per share on account of accumulations on the 7% cum. pref. stock, par \$100, payable Jan. 10 to holders of record Dec. 28. This is the first distribution to be made on this issue since Sept. 15 1931, when a regular quarterly dividend of \$1.75 per share was paid.

Accumulations after the payment of the Jan. 10 dividend will amount to \$20.75 per share.—V. 139, p. 1096.

New York & Richmond Gas Co.—Preferred Dividend

The directors have declared a dividend of 1½% on account of accumulations on the 6% cum. pref. stock, par \$100, payable Jan. 2 to holders

Hearings on Plan Held by Court—
Hearings were held before Federal Judge Cox on the reorganization plan on Dec. 27 and 28. At the hearings it was brought out that the Paramount Theatre in New York is again on a profitable basis after having lost money since 1931.

The common stockholders committee has about 54% of the stock at the present time. It was stated that the reason for seeking new funds from stockholders is to protect the company until its earning power shall have been proven and new credit lines can be established.—V. 139, p. 3814.

Pennsylvania-Reading Seashore Lines—Acquisition—
The Interstate Commerce Commission on Dec. 6 approved the purchase by the company of the railroad properties of the Wildwood & Delaware Bay Short Line RR. of the Commission says in part:

The report of the Commission says in part:
The Wildwood's line extends southeast from a point called Wildwood Junction to Wildwood, 4.06 miles, serving as a connecting link between the applicant's leased line extending along the coast from Wildwood to Cold Spring Harbor.

In July 1930, we authorized the applicant (then the Atlantic City RR.) to acquire control of the Wildwood by purchase of capital stock. As shown in that report, the applicant had then arranged to purchase 3,804 shares (550 par), or slightly over 51% of the stock and \$422,600 of the Wildwood's first mortgage 5% bonds, for a total consideration of \$398,760 plus interest from May 20 1830, to the date of settlement. Eventually the applicant acquired 5,537 shares, or about 73%, of the stock and \$455,500, or all but \$5,100, of the bonds. The Wildwood failed to pay interest on these bonds after July 1 1929, and up to June 30 1934 the interest matured but unpaid amounted to over \$119,000. In January 1934, the trustee at the applicant's instance, instituted foreclosure proceedings, and on July 9 1934, the Wildwood's property was sold at sheriff's sale to the applicant, the sole bidder, for an amount equal to the costs of the sale, or \$1,442.

The sale was confirmed by the Court of Chancery of New Jersey on July 20 1934, but delivery of the deed has been withheld pending action in the premises by us and by the Board of Public Utility Commissioners of New Jersey. If approved, the applicant proposes to merge the Wildwood's railroad and franchises with its own under the provisions of Section 72 of the New Jersey Railroad Act, approved April 14 1903.—V. 139, p. 3971.

Philadelphia Rapid Transit Co.—Suit Dismissed—
The petition filed by taxpayers and car riders, at the suggestion of the Philadelphia "Record," to intervene in the reorganization case was denied by Federal Judge George A. Welsh, Dec. 21, but provision was made for the presentation of their viewpoint through their counsel action as amici curlae.—V. 139, p. 3971.

Radio Corp. of America-Readjustment of Capital Struc-

Following the meeting of the board of directors held Dec. 21, General James G. Harbord and David Sarnoff, Chairman of the Board and President respectively, issued the following statement:

"The committee of the board of directors, which was requested to study the subject of a readjustment of the capital structure of the corporation, as announced on Dec. 7, reported to the full board at its regular meeting held Dec. 21.

"The committee recommended against the adoption of any plan of recapitalization at this time and the officers and directors of the corporation unanimously concurred in this recommendation."

unanimously concurred in this recommendation."

Consolidates 2 Manufacturing Units—
David Sarnoff, President made the following announcement Dec. 26:
"The RCA Victor Co. and the RCA Radiotron Co., the two wholly owned manufacturing subsidiaries, have been consolidated into a single organization to be known as "RCA Manufacturing Co., Inc." The new company will begin operations as of Jan. 1 1935. The consolidation is being made primarily for convenience of operation. The present officers and management of the two subsidiary companies will continue in their respective positions, and the factories located at Camden, N. J. and Harrison, N. J. will continue their operations as at paresent.
"The present trade-marks on the products manufactured by these companies will be continued through the establishment in the RCA Manufacturing Co., Inc. of two divisions, which will be known as the 'RCA Victor Division' and 'RCA Radiotron Division." E. T. Cunningham will be the president and David Sarnoff the chairman of the board of directors of the RCA Manufacturing Co., Inc."—V. 139, p. 3816.

Republic Gas Corp.—Hearing Postponed—
Federal Judge Francis G. Caffey on Dec. 18 postponed hearing on the reorganization plan until Jan. 15. The adjournment was taken to allow Benjamin Matthews, special master, to complete his report on the company's rehabilitation.—V. 139, p. 2843.

Republic Steel Corp.—New Suit Filed to Block Plan—
Charging that assets of the corporation to the value of \$1,800,000 are being given to New York bankers for services held to be valueless, a stock-holders' suit nas been filed in Common Pleas Court, Cleveland, in an effort to block the proposed merger of Republic with Corrigan-McKinney Steel Co. Attorney Harry Payer, representing Mrs. Iva A. Jensen, complaining stockholder, said the suit arose from "numerous stockholders who found themselves in the same position as Mrs. Jensen."
Payer estimated that the New York banking firms named would receive an additional \$1,200,000 in commissions if the transaction goes through. Specifically the suit asks an order restraining Republic from acquiring stock of the Corrigan-McKinney firm, upon which the payment would be predicated, and seeks an account of expenses incurred by the bankers. New York bankers named in the suit were Kuhn, Loeb & Co. and Field, Glore & Co. They are to be paid 50,000 shares of Republic common, for the benefit of themselves and Henry Lockhart Jr., another New York banker, upon consummation of the deal, the suit charged.

The stock is held in the petition to have a value of \$1,800,000. Republic Steel Co. has refused to exhibit the contract, which will be presented to stockholders for ratification Feb. 4, for inspection, Mrs. Jensen charged.

Payer revealed that he had filled on Dec. 14 a complaint with the Security and the security of the sure of the payer revealed that he had filled on Dec. 14 a complaint with the Security and the security of the payer revealed that he had filled on Dec. 14 a complaint with the Security and the security of the payer revealed that he had filled on Dec. 14 a complaint with the Security and the security of the payer revealed that he had filled on Dec. 14 a complaint with the Security and the security of the payer revealed that he had filled on Dec. 14 a complaint with the Security and the security of the payer revealed that he had filled on Dec. 14 a complaint with the S

sented to stockholders for ratification Feb. 4, for inspection, Mrs. Jensen charged.

Payer revealed that he had filed on Dec. 14 a complaint with the Securities & Exchange Commission at Washington, protesting payment of the stock to the banking firms.

Norman C. Norman, who states he is the holder of stock in the corporation, on Dec. 10 started suit in the New York Supreme Court to restrain the company from paying bankers in stock for their services in placing an issue of \$24,000,000 in bonds to finance the acquisition of the Corrigan-McKinney Steel Co. and the Truscon Steel Co. Mr. Norman suggested that the bankers, Kuhn, Loeb & Co. and Field, Glore & Co., be paid \$500,000 instead of 50,000 shares of Republic stock for their services.

Stockholders of the steel company will meet next Monday to vote on the Corrigan-McKinney and Truscon acquisitions, as well as to pass on proposed changes in Republic's capital set-up.

Frederick H. Wood, of the law firm of Cravath, de Gersdorff, Swaine & Wood, attorneys for Kuhn, Loeb & Co., issued a statement in which they expressed the belief that "there is no merit in the (Norman) case." The proposed merger involves "the most important piece of constructive investment banking which has taken place since the beginning of the depression," Mr. Wood said in his statement.

Justice John L. Walsn of the N. Y. Supreme Court on Dec. 21 denied a motion brought by the Republic to dismiss the suit brought by Norman C. Norman.—V. 139, p. 3816.

Roanoke Water Works Co.—Note Extension in View—
V. F. West, President, has advised holders of 3-year 6% notes due on Feb. 1 1935, that it appears at present that the company will be unable to meet payment of the notes in cash at maturity, and that it appears they would be necessary to extend the maturity of the notes. Some plan will be presented before Feb. 1.

The letter points out that under the terms of the trust agreement each \$1,000 note might be exchanged for \$1,100 of first mortgage bonds due in 1950 so long as there might be any bonds deposited with the trustee as collateral for the notes. On Nov. 1 1934, there was outstanding \$252,000 of the notes and there was available for exchange only \$146,700 of first mortgage bonds. The New York Trust Co., as trustee, will accept notes for exchange against the available bonds in the order of their presentation.—V. 139, p. 127.

Russell Motor Car Co., Ltd.—Accumulated Dividend The directors have declared a dividend of \$1.25 per share on account of accumulations on the 7% cumulative preferred stock, par \$100, payable Feb. 1 to holders of record Dec. 31. A similar distribution was made on Nov. 1, last as against \$1 per share paid each quarter from May 1 1933 up to and including Aug. 1 last, prior to which the company paid regular quarterly dividends of \$1.75 per share. The current payment will be made in Canadian funds and in the case of non-residents a tax of 5% will be levied. Accumulations after the Feb. 1 payment will amount to \$5.50 per share.

It is announced that \$1,000,000 debentures due Nov. 15 last have been extended until Nov. 15 1936. The company will have an additional \$1,350,000 of debentures due on Nov. 15 1935.—V. 138, p. 3960.

### Selected American Shares, Inc .- Review of Recent Developments-

Developments—

In its report to stockholders just issued, the company, a restricted management company, announces that net assets have arisen approximately \$773,000 from Sept. 15 until Dec. 1. This enhancement was due primarily to appreciation in the market value of the securities held by the company. During this period the per share market value advanced 18%.

Because company has substantial investments in stocks that have recently raised their dividends or declared extras, it is expected that the next cash dividend to be paid by the company will be at least 20% greater than that paid on Sept. 15.

The stockholders are told that eight companies will be added to the approved investment list. They are: Conthental Oil, Hercules Powder Co., Homestake Mining Co., Johns-Manville Corp., Noranda Mines, Ltd., Republic Steel Corp., Servel, and United States Smelting.

Among the stocks sold out of the portfolio during the period from June 30 until Nov. 30 1934 were the following: United Corp., Public Service of New Jersey, United Drug and Sterling Products. Large decreases were also made in the following holdings: Borden, Corn Products, Refining, Standard Oil of New Jersey and F. W. Woolworth. New investments were made in Cerro de Pasco Copper, Goodyear Tire, Imperial Oil of Canada, Industrial Rayon, Kennecott Copper, Otis Elevator and Swift International. Other large purchases included Commercial Solvents, Commonwealth Edison, S. S. Kresse, Inland Steel, Standard Brands, and Pullman.—V. 139, p. 1879.

Seneca Copper Mining Co.—Delisting Asked

# Seneca Copper Mining Co.—Delisting Asked—A Commission to strike from its list and from temporary registration the capital stock of this company because of inability of the concern to furnish adequate stock certificates of the required denominations. Hearing on the application will be held by the SEC on Jan. 3. Trading in the stock was suspended by the Exchange last November.—V. 139, p. 3165.

N. 139, p. 3165.

Servel, Inc.—1935 Selling Plans—
Sales of Electrolux refrigerators for 1934 exceed those of 1933 by nearly 50% according to F. E. Sellman, Vice-President, in charge of distribution, in announcing the company's comprehensive plans for greater selling efforts in household refrigerator sales during 1935.

As an indication of the trend toward bigger business for Servel, Inc., next year, Mr. Sellman also announced that factory shipments of Electrolux refrigerators in the period from Nov. 12 to Dec. 12 1934, show an increase of more than 237% over shipments in the similar period a year ago.

"Servel, Inc., approaches 1935 with optimism and confidence in view of the high records gained during the last two years in the sale of the household refrigerators in which the company specializes," Mr. Sellman said.

"To meet the anticipated increasing demand for automatic refrigerators of both the gas-operated and kerosene-operated types, the company has prepared plans for the production, selling and advertising of its products on a scale hitherto unparallelled in its history.

"The company's plant at Evansville, Ind., has been recently completely modernized and now equals in equipment, personnel and efficiency, any household refrigerator factory in the country. Production of the 1935

models is already underway in preparation for shipments early in the

coming year.

"Newspaper advertising locally will be the backbone of the company's selling campaigns in 1935 augmented by advertising in leading nationally-read magazines, farm journals and trade periodicals.

Servel's merchandising program for 1935 is based on its sound economic position which has been steadily increased and solidified throughout its history, the company having been consistently on the up-grade despite some set-backs in the early years of the depression."—V. 139, p. 3490.

Shaffer Stores Co.—Dividends Resumed—
The directors have declared a dividend of 10 cents per share on the nopar common stock, payable Jan. 15. This is the first disbursement to be made on this issue since April 1 1932 when 25 cents per share was paid. Prior to this latter payment a distribution of 25 cents per share was also made on July 1 1931.—V. 135, p. 475.

Siemens & Halske (A. G.), Siemens-Schuckertwerke (A. G.)—Two Offers Made to Siemens Bondholders—

Because of the embargo on transfer of funds from Germany, Siemens & Halske, A. G., and Siemens-Schuckertwerke, A. G. are notifying holders of their 10-year 7% bonds residing outside of Germany that it will be impossible to make payment in dollars of these bonds when they mature on Jan. 1 1935. The companies are offering holders either:

(1) Extension to Jan. 1 1940 of the time for payment of principal and of the 2% premium thereon, plus a present cash bonus at the rate of \$20 per \$1,000 bond, or

(2) Payment of principal and premium at maturity in blocked" Reichsmarks—the only medium of payment at present available—at the rate of 2.550 "blocked" Reichsmarks for each \$1,000 bond.

The companies agree to redeem the extended bonds, as a whole, at the earliest interest date on which redemption in dollars will be permitted by the German authorities. Meanwhile, the German restrictions requiring deposit of the Reichsmarks equivalent of all interest payments with the Conversion Office for German Foreign Debts will continue to apply to the extended bonds.

The "blocked" Reichsmarks offered for each bond are equal to the amount which, on the basis of current exchange rates for "free" Reichsmarks; the companies would need in order to pay the principal and premium in dollars, if they were permitted to do so. The companies will place to the credit of holders who accept this offer the appropriate amounts of 'blocked' Reichsmarks with the Deutsche Bank und Disconto Gesellschaft, Berlin, or upon request with any other German bank authorized to accept such deposits.

The German foreign exchange authorities have granted permission to make the offers. The offers may be accepted also by holders of bonds called for redemption on and after July 1 1933, but not redeemed in view of foreign exchange restrictions.

Dillon, Read & Co. will act

a These amounts have been appropriated to provide a reserve against which property retirements will be charged as they occur. The amounts so appropriated are less than the depreciation deductions claimed or to be claimed on Federal income tax returns which are based on a straight-line method.

During the last 24 years the company has expended for maintenance a total of 7.32% of the entire gross earnings over this period, and in addition during this period has set aside for reserves or retained as surplus a total of 11.57% of these gross earnings.—V. 139, p. 2691.

Smythe Mfg. Co.—Larger Dividend

The directors have declared a dividend of \$2 per share on the common stock, par \$25, payable Jan. 2 to holders of record Dec. 14. This compares with 50 cents per share paid on Oct. 1 and July 2 last, quarterly distributions of 40 cents per share made from July 1 1933 to and including April 2 1934, 25 cents per share paid on April 1 1933 and 50 cents per share paid each quarter from April 1 1932 to and including Jan. 2 1933.—V.139, p. 129.

Sevens Products Corp. of America—Rederal Court Orders

### Sonora Products Corp. of America-Federal Court Orders Accounting-

Accounting—
The "Herald Tribune," Dec. 15, had the following:
Judge Robert P. Patterson, sitting (Dec. 14) in U. S. District Court, ordered Percy L. Deutsch, Harris Hammond, Anthony J. Drexel Biddle Jr. and Victor C. Bell to render an accounting as to the 200,000 shares of De Forest Radio stock which they acquired prior to 1931 and an accounting as to all profits received by them and others in connection with purchase and sale of the stock and damage sustained by Sonora Products Co., formerly the Acoustic Products Co. The defendants were directors or option on the stock in question.

Suit for an accounting was begun in 1931 by the Irving Trust Co. as trustee in bankruptcy. Federal Judge John M. Woolsey dismissed the complaint after a 25-day trial. The U. S. Circuit Court of Appeals recently reversed Judge Woolsey's findings as to Deutsch, Hammond, Drexel Bidle & Bell.

Samuel H. Kaufman was named Dec. 14 as referee for the accounting

Samuel H. Kaufman was named Dec. 14 as referee for the accounting and Judge Patterson directed that "execution and necessary processes' issue against the four, if necessary, after completion of the accounting and entry of judgment.—V. 135, p. 4229.

Simmons Co.—Settlement with Berkey & Gay-See Berkey & Gay Furniture Co. above.—V. 139, p. 612.

South American Rys.—Dissolved— See General Investment Corp. above.—V. 136, p. 3904; V. 138, p. 4312.

Southeastern Express Co.—Larger Semi-Annual Payment The directors have declared a semi-annual dividend of \$3.50 per share on the common stock, par \$100, payable Jan. 1 to holders of record Dec. 15. On July 2 1934 and July 1 1933 semi-annual dividends of \$2.50 per share were made, prior to which semi-annual disbursements of \$3.50 per share were made. In addition an extra dividend of 75 cents per share was paid on April 30 last.—V. 138, p. 3618.

Southern Bell Telephone & Telegraph Co.-Earnings Operating taxes\_\_\_\_\_ 556,677 465,921 5,541,660 5,336,374

Net operating income\_ \$923,545 \$825,884 \$9,034,676 \$8,933,815

Rates Ordered Reduced-

The Tennessee Railroad and Public Utilities Commission has ordered reductions in telephone rates charged by the company, which, it is said, will save Tennessee subscribers an estimated \$500,000 annually.—V. 139, p. 3973.

### Southern Berkshire Power & Electric Co.-Doubles Dividend-

The directors have declared a dividend of \$1 per share on the common stock, par \$25, payable Dec. 31 to holders of record Dec. 20. This compares with 50 cents per share distributed each three months from Sept. 29 1933 up to and including Sept. 29 last, and 75 cents per share paid on June 30 1933.—V. 137, p. 2637, 2464.

### Southern Fire Insurance Co., Durham, N. C .- Extra

Dividend—Louise of 25 cents per share in addition to the regular quarterly payment of 37½ cents per share was paid on the capital stock, par \$10, on Dec. 22 to holders of record Dec. 18.—V. 139, p. 1879.

Southern United Gas Co.—Reorganization Plan Amended The holders of the first lien 6% gold bonds series A, year 1927, and holders of certificates of deposit therefor are informed that the original plan of reorganization dated April 5 1933 and amended plan (V. 139, p. 2063) dated July 5 1934 (called the "Turner plan") has been further amended. A circular issued Dec. 15 further states:

Prior to this time a reorganization committee for this issue of bonds and other security issues of United Public Service Co. and United Public Utilities Co., of which Ralph A. Bard was chairman (called the "Bard committee"), had proposed a plan of reorganization for all these companies (called the "Bard plan"). However, in view of the fact that it became necessary to reorganize United Public Service Co. and United Public Utilities Co. separately, the Bard plan obviously cannot be carried out. The Turner committee and the Bard committee, in the interest of accommet in a number of conferences and an agreement has been reached between them that the Turner plan shall be modified in the following respects:

(a) Each holder of the new income bonds to be issued under the Turner plan shall be entitled to vote upon the election of directors for a period of five years on the basis of five votes for each \$100 principal amount of such bonds.

(b) The new income bonds will be registered bonds instead of coupon bonds.

five years on the basis of five votes for each \$100 principal amount of such bonds.

(b) The new income bonds will be registered bonds instead of coupon bonds.

(c) Preemptive rights will be given during the five-year period to both stockholders and bondholders in respect of additional issues of stock on the basis of the number of votes which bondholders and stockholders are respectively entitled to cast upon the election of directors.

(d) It has further been agreed between the Turner committee and the Bard committee that the Bard committee shall select one of the members of the first board of directors of the reorganized company.

The Bard committee's principal objection to the Turner plan having been the placing of substantial control of the reorganized company in the hands of the proposed underwriter, this objection has been definitely removed by giving the holders of the new income bonds such voting power that with the common stock which they receive with their bonds, they will control for a five-year period a very large majority of the votes which may be cast upon the election of directors.

Both committees accordingly urge the co-operation of bondholders by a prompt deposit of their bonds in order that the plan may be speedly consummated.

The Bard committee has adopted and approved the Turner plan as modified and gives notice to the holders of certificates of deposit issued by City National Bank & Trust Co. of Chicago, the depositary for the Bard committee, of such approval and adoption.

Holders of the above bonds who have not heretofore deposited their bonds are asked to deposit the same with the Pennsylvania Co. for insurances on Lives and Granting Annuities, depositary for the Turner committee.

V. 139, p. 2063.

Southland Royalty Co.—Extra Dividend Melared
The directors have declared an extra dividend of five cents per share in addition to the regular quarterly distribution of like amount on the common stock, par \$5 both payable Jan. 10 to holders of record Dec. 31.—V. 139, p. 3165.

Standard Gas & Electric Co.—Weekly Output—
Electric output for the week ended Dec. 22 1934, totaled 89,498,827 kilowatt hours, an increase of 8.2% compared with the corresponding week last year, and an increase of 2,252,038 kilowatt hours, or 2.6%, over the week ended Dec. 15 this year.—V. 139, p. 3973.

Standard Oil Co. of Indiana—Vice-President Resigns—Dr. Robert E. Wilson has resigned as a director and Vice-President in charge of research and development and has been appointed Vice-Chairman of the board of directors of the company's Eastern subsidiary, Pan American Petroleum & Transport Co. The change is effective Jan. 1.

Harry F. Glair has been elected a director.—V. 139, p. 1418.

Standard Screw Co.—Dividend Increased—
The directors have declared a dividend of \$1 per share on the common stock, payable Dec. 31 to holders of record Dec. 18. This compares with 50 cents per share paid each quarter from April 1 1932 to and including Oct. 1 last, inclusive.—V. 137, p. 2288.

Studebaker Corp.—Plan Formally Proposed—
The plan of reorganization of the corporation and Rockne Motors Corp., a subsidiary was formally proposed to Federal Court at Fort Wayne, Ind., Dec. 27, and was approved by 25% of all creditors as required under Section 77-B of the Federal Bankruptcy Act as amended. No date for confirmation has been set, but hearing will probably be held as soon as the required number of acceptances from all classes of creditors has been received.

The plan is essentially the same as that filed with the Court earlier. The Court ordered that a copy of this plan be sent to all stockholders and creditors.

received.

The plan is essentially the same as that filed with the Court earlier. The Court ordered that a copy of this plan be sent to all stockholders and creditors.

The plan of reorganization provides that the personnel of the board of the White Motor Co., which will be separated from Studebaker will include the following: A. G. Bean, now President of the company; David L. Johnson, R. M. Fisher and E. J. Quintal, of the Studebaker reorganization committee; Harold S. Vance and Paul G. Hoffman, of the Studebaker Corp.; F. H. Chapin, W. A. McAfee and W. King White.

Mr. Vance and Mr. Hoffman are now receivers of Studebaker and are operating the company. The reorganization plans call for Mr. Vance becoming Chairman of the Board of the reorganized Studebaker Corp. and Mr. Hoffman President of the corporation. It is understood that Mr. Yance will direct production and Mr. Hoffman sales of the new corporation.

Notwithstanding the inclusion of the two officials on the White board, it is thought that the plan of separation precludes any future direct relation between the two companies. The reorganization committee seeks to distribute Studebaker's 95% ownership of White to creditors in partial settlement for their claims.—V. 139, p. 3817.

Superheater Co.—Options Extended—
The New York Stock Exchange has been notified that options granted to employees for common stock to the extent of 220 shares, at \$10 a share, expiring Dec. 15 1934 have been extended for one year—to Dec. 15 1935.—V. 139, p. 3818.

Swift & Co.—Special Dividend—
The directors have declared a special dividend of 25 cents on the common stock, par \$25, payable Feb. 15 to holders of record Jan. 25. This action was taken at the regular monthly meeting of the board of directors in the light of the final audited figures on results for the year ended Oct. 27, last. The announcement of the directors explains the lateness of the disbursing date as being due to the fact that the transfer books of the company are closed from Dec. 23 to Jan. 17 for the purpose of the annual meeting.
The stock is on a regular 12½ cents quarterly basis, and the dividend for the present quarter, which was declared on Nov. 15, will be paid on Jan. 1.—V. 139, p. 3974.

Syracuse Lighting Co., Inc.—Bonds Called—
Holders of first and refunding mortgage gold bonds 5½% series due
1934 are being notified that there have been drawn by lot for redemption
through operation of the sinking fund, \$29,500 of these bonds. The bonds
so drawn will become payable at 105 and interest on Feb. 1 1935, at the
corporate trust department of the Chase National Bank, 11 Broad St.,
New York.—V. 139, p. 2846.

Thrift Stores, Ltd.—Vice-President Resigns—
The resignation of Joseph Schafran, Vice-President, General Manager and a director, was accepted on Dec. 18 by directors.—V. 139, p. 3337.

and a director, was accepted on Dec. 18 by directors.—V. 139, p. 3337.

Trans-Lux Daylight Picture Screen Corp.—Proxy Fight Ended—Management Retains Control—

The proxy contest for control of the company ended Dec. 21 in a victory for the present management, headed by Percy N. Furber, President. The management's slate of 15 directors was elected by a margin of 167,000 shares, in the case of Mr. Furber, and by slightly smaller or larger majorities in the case of other directors, according to the company's statement.

J. M. McGrath and C. N. Walton, opposition candidates, retired from the board. Ten directors, including Mr. Furber, were re-elected Five new directors were chosen. They are Leslie E. Thompson, Robert Atkins, L. A. Hall, Edward G. Lauder and Stewart Webb.

The stockholders approved a resolution postponing the next annual meeting of stockholders from April to December.—V. 139, p. 3818.

tor 1934 and \$199,702 for 1933.—V. 139, p. 3492.

United States Finishing Co.—Loan Approved—
The protective committee for the consolidated 5% gold bonds, due July 1 1939 states:
As a result of extended negotiations, the Reconstruction Finance Corporation has, by resolutions dated Nov. 19 1934 but only available to the committee on Dec. 10 1934, approved a loan to the company, through Textile Industry Credit Corp., in an amount not exceeding \$1,500,000, subject to terms and conditions which the committee believes will make possible a plan of reorganization equitably adjusting the interests of the holders of the various classes of securities outstanding in the hands of the public. This action supersedes the resolutions, terms and conditions originally adopted by the RFC.
In order to give time for the preparation and submission of a plan under the provisions of the above mentioned deposit agreement, the committee has extended the agreement to July 1 1935.—V. 139, p. 1255.

United States Guarantee Co.—Initial and Extra Dividend on New Stock

The directors have declared an initial dividend of 40 cents per share and an extra dividend of 10 cents per share on the new capital stock, par \$10, both payable Dec. 31 to holders of record Dec. 22. Previously, quarterly distributions of \$4 per share were made on the old \$100 par value capital stock.—V. 139, p. 2848.

Earn. per sh. of com.stk. \$7.96 \$5.57 \$0.51 \$1.01 x Includes \$712.581 quotational gain on gold and domestic silver. The company issued the following statement:

"It is estimated that in completing the profit and loss account for the year, the December earnings and miscellaneous annual adjustments will increase the earnings now reported, before property reserves, to approximately \$8,525,000. Property reserves for the year are estimated at \$2.485,000 and net earnings for the year, after deducting property reserves and all charges, are estimated at \$6,040,000. Preferred dividends for the year will be \$1,638,000. The estimated net earnings for the year exceed this amount by \$4,402,000, which is at the rate of \$8.32 per share on the common stock outstanding.

"As explained in previous quarterly reports, quotational gains on gold and domestic silver amounting to \$712,581 have been taken into earnings and are included in the profits for 11 months. As to other metals, including foreign silver, which remains subject to price fluctuations, the company has continued to take these into earnings at the market price at the time of production.

has continued to take these into earnings at the market price at the time of production.

"On this foreign silver and other metals, after providing for mark-downs made necessary by falling prices of lead, there has been a net realization of approximately \$530,000 over and above the prices at which such silver and other metals have been taken into earnings. According to the regular practices of the company, this quotational gain has been left out of earnings and added to quotational reserve which at the end of 1933 amounted to \$1,107,689. The addition of the \$530,000, above mentioned, increase this reserve to approximately \$1,637,000.

"Dividends on common stock previously declared in 1934 amount to \$5.25. Adding to this the present declaration of \$3.00, the total dividend declarations for 1934 on the common stock amount to \$8.25 per share. The present dividend declared and the other declarations which have been made during the year have been in view of current earnings and are not to be considered as establishing any regular dividend rate."—V. 139, p. 3976.

a Operations suspended. b The low production in May 1934 was due to the caving-in of the roof of one of the reverberatory furnaces which caused a shut-down of the smelter for part of the month.

Utah Power & Light Co.—Preferred Dividends
The directors have declared a dividend of \$1.16 2-3 per share on the \$6^\circ
cumulative preferred stock, and a dividend of \$1 per share on the \$6^\circ
cumulative preferred stock (both of no par value), both payable Feb. 1.
The above are the first distributions to be made on these issues since Jan. 2 1933 when regular quarterly dividends of \$1.75 and \$1.50 per share respectively were paid on the \$7^\circ and \$6 preferred stock.
This dividend is not to be considered as a resumption of the regular payments, the company announced, as full dividend requirements are not being earned.—V. 139, p. 3658.

Valspar Corp.—Assets Are Taken Over by Bondholders—
The debenture holders' protective committee, it was recently announced, has acquired the property and Lawrence Phillips, New York, the receiver, will become President of the reorganized company. The sale is subject to confirmation by the U. S. District Court of Delaware. An announcement by Mr. Phillips states:
"The new Valspar Corp. has acquired all of the capital stocks of the four paint manufacturing and distributing concerns in the Valspar combine. It will continue operation of all four companies. These are: Valentine & Co., with plants in Brooklyn and South Kearny, N. J.; the Detroit Graphite Co., Detroit; the Con-Ferro Paint & Varnish Co., St. Louis, and the Valspar Corp., Ltd., of Canada.
"Funding of the bank and debenture debts under the reorganization plan will place the current asset position of the new company at a rate of about 10 to 1. Consolidated fixed charges are reduced by \$180.000 annually through the conversion of a large part of the existing bank debt into five-year income debentures and of the outstanding \$2,500,000 debentures into preferred stock. The balance of the bank debt is funded through acceptance by the company's creditors of three-year notes.
"A new operating program is planned for 1935 which will eliminate substantial losses incurred by the old corporation during recent years. Economies already have been put into effect, and it is estimated that a profit will be shown for 1934 before depreciation and the financial charges which have been borne by the old corporation."

Mr. Phillips will serve both as President and Treasurer of the new company, with H. N. Plum Jr. as Secretary. The new board will consist of E. T. Herndon of the Petroleum Heat & Power Co.; Ferdinand Eberstadt of Eberstadt & Co.; Prentiss N. Gray, President of the J. Henry Schroeder Ebanking Corp.; Horace G. Reed of Sullivan & Cromwell B. Wallace receiver of the Northwestern State Bank, Detroit, and Mr. Phillips.—V. 138, p. 1583.

Receivers to Pay Interest-

Receivers to Pay Interest—
Federal Judge C. B. Davis at St. Louis on Dec. 24 authorized the receivers to pay the semi-annual interest due Jan. 1 1935 on the following underlying bonds:
\$49.475 on Detroit & Chicago extension 1st 5% bonds.
32,000 on Des Moines division 1st 4% bonds.
71,100 on first lien & terminal gold 4% bonds of Wabash RR.
5,970 on debenture B 6% bonds of the Wabash RR.
The order also authorized the receivers to purchase at public or private sale \$39,580 of Detroit & Chicago extension mortgage bonds for the purpose of meeting the sinking fund requirements of the mortgage due Dec. 31 1934.—V. 139, p. 3976.

pose of meeting the sinking fund requirements of the mortgage due Dec. 31 1934.—V. 139, p. 3976.

West Indies Sugar Corp.—Annual Report—

F. B. Adams, President, says in part:

During the year all legal proceedings in connection with the acquisition of the properties of Santa Ana Sugar Co. in Cuba have been completed, and these properties are now a part of those owned by your Cuban operating subsidiary, Compania Central Altagracia.

The plantations produced this season a total of 1,515.748 bags of sugar, the equivalent of 492.167.298 pounds at an average yield per ton of cane of 11.47%. This compares with last year's production of 1,402.229 bags at an average yield of 11.069%. Of this year's total production 548,310 bags were made in Cuba, and the remainder in the Dominican Republic.

Under regulations of the Cuban Government only 291.271 bags of the Cuban production could be exported to the United States. The remainder of the Cuban production and also, because of the recent laws governing the import of sugar, all the Dominican production, save for relatively small amounts consumed locally, had to be sold in foreign markets. These sugars were shipped principally to England, with lesser amounts to Scotland, Canada, France and Morocco. All this season's crop has been sold, and the proceeds have been realized or are in process of liquidation, save for 5.098 bags reserved for local consumption in the countries of origin and 63,937 bags held in Cuba by governmental decree which cannot be delivered to the purchasers until after March 1 next.

The consolidated profit and loss account shows a net operating profit for the year of \$77.743 after full provision for depreciation and interest charges. This compares with a net loss last year of \$700.798. Under the terms of the indenture securing company's first mortgage (collateral) 6% convertible gold bonds interest accruing thereon prior to 1936 must be paid currently if earned, and thereafter whether earned or not. Consequently on Jan. 1 next an entire year's interest will

| during next year on manufactured sugars pending  |                      |                                 |

in Indiana, proposes that the board of directors of the White Motor Co. after consummation of the plan shall consist of the following:

A. G. Bean, existing President of the company and one of the Studebaker receivers, David L. Johnson, R. M. Fisher, and E. J. Quintal of the Studebaker reorganization committee, Harold S. Vance and Paul G. Hoffman of the Studebaker Corp., F. H. Chapin, W. A. Afee, and W. King White.

The plan provides for the distribution of Studebaker's 95% stock interest in White Motor in partial settlement of the creditors claims against Studebaker.—V. 139, p. 3338.

earned surplus \$791,098; appraisal surplus \$5,864; and capital surplus \$11,009.

Wilson & Co., Inc.—Financial Statement—Edward F. Wilson says in part:

Wilson says in part:

Operations during 1934 fiscal year resulted in consolidated net income of \$3.833.461 after income taxes and all charges, as compared with \$2.935.564 for last year. The gross earnings, before deducting interest, depreciation and income taxes, amounting to \$6.802,446, compare with \$5.340.457 for the previous year, an improvement in operating results of \$1,461,990.

Sales aggregated \$180,000,000 as compared with \$140,000,000 for previous year, the increase being in part attributable to advancing prices, although tonnage sales also showed a healthy increase. While advancing prices were a factor in the results of the year's operations, it should be noted, however, that our cost of raw material, labor expense and prices of finished products have steadily advanced during the year to a level more nearly approaching prices of normal years; for livestock alone, including the processing tax, we paid out last year approximately 20 million dollars more than in the previous year and the cost of our live hogs, including the processing tax, was approximately 50% more per pound than the year before. These increased costs are reflected in the change in our cash position and in the substantial increase in our inventories. The total working capital of \$25,500,000 remained at approximately 20 the content of the change in our cash position and in the substantial increase in our inventories. The total working capital of \$25,500,000 remained at approximately 20 to stead working capital of \$25,000,000 remained at approximately the same figure as it was a year ago.

In line with the company's consistent policy to provide for contengencies,

working capital of \$25,500,000 remained at approximately the same figure as it was a year ago.

In line with the company's consistent policy to provide for contengencies, the assets of foreign subsidiaries have been included in the consolidated statement on a sound basis, having due regard to the unsettled conditions in foreign exchange and the currency restrictions effective in many countries. The matter of our past due dividends has had your management's attention for quite a while and we have finally developed a plan of recapitalization for submission to the stockholders which we believe will solve this problem in a fair and equitable way for all stockholders and for the company. [See V. 139, p. 3976.]

PETROLEUM-RUBBER-HIDES-METALS-DRY GOODS-WOOL-ETC.

### COMMERCIAL EPITOME

Friday Night, Dec. 28 1934

Coffee futures showed moderate gains on the 22d inst., ending 15 points higher on Dec. Santos and 1 to 3 higher on other months, while Rio contracts were 5 points higher. Trading was light, only 7 lots in Santos being sold and 4 in Rio. On the 24th inst., it was a pre-holiday affair with futures closing 3 points higher on Santos, while Rio contract prices were nominal; sales only 250 bags. On the 26th inst. futures ended 10 points higher on Dec. Santos and 1 to 3 points up on other deliveries. It was last notice day for December contracts and 14 Santos notices were issued. Rio contracts ended 1 to 3 points lower. Sales were 3,750 bags, and four notices were issued. Cost and freight offers from Brazil were 5 points lower to 5 points higher. Spot coffee was quiet and unchanged.

On the 27th inst. futures closed 3 to 6 points higher on Santos contracts with sales of 2,750 bags and 2 to 4 points lower on Rio contracts with sales of 2,750 bags. Cost and freight offers were light and unchanged. Spot coffee was in small demand but steady. To-day futures closed 3 to 4 points higher. Cost and freight offers were unchanged and

spot coffee was quiet.

 Rio coffee prices closed as follows:
 7.18 July
 7.43 May

 May
 7.32 September
 7.53

Cocoa futures closed 1 to 2 points higher on the 22d inst. with sales of 268 tons. It was a pre-holiday affair. Manufacturers bought a little. Dec. ended at 4.82c.; Jan. at 4.82c.; March at 4.99c.; May at 5.12c.; July at 5.25c.; Sept. at 5.38c.; Oct. at 5.41c., and Dec. at 5.57c. On the 24th inst. futures closed 1 to 3 points higher with sales of 549 tons. Dec. ended at 4.84c.; Jan. at 4.84c.; March at 5.00c.; May at 5.14 to 5.15c.; July at 5.28c.; Sept. at 5.41c.; Oct. at 5.47c., and Nov. at 5.60c. On the 26th inst. futures ended 2 points lower to 1 point higher with sales of 63 lots. Jan. ended at 4.83c.; March at 5.01c.; May at 5.13c.; July at 5.28c., and Sept. at 5.41c.

On the 27th inst. futures closed 3 points lower with sales of 216 lots. There was some belated hedge selling but this was offset by buying orders from Wall Street and manufacturers. Jan. ended at 4.82c., March at 4.98c, May at 5.13c., July at 5.27c., Sept. at 5.40c. and Dec. at 5.59c. To-day futures closed 3 to 5 points higher under good Wall Street buying. Jan. ended at 4.86c., March at 5.03c., May at 5.16c., July at 5.29c., Sept. at 5.42c. and Oct. at 5.60c.

Sugar futures ended 1 to 2 points higher on the 22d inst. after sales of 8,550 tons. Cuban interests were buying and the selling represented scattered liquidation and hedging. The December position was off the board and is now being liquidated voluntarily through a committee of five members. The Board of Managers have power of imposing a penalty on shorts for failure to deliver sugar. On the 24th inst. futures closed 1 point lower to 2 points higher in a quiet market. Sales totaled only 286 lots or 14,500 tons. The trade was buying the near months and selling the distant deliveries. Cuban interests were selling. On the 26th inst. futures closed 1 to 2 points higher under a good general demand. Raws were quiet. It was first notice day but no notices were issued.

On the 27th inst. futures closed 3 to 5 points higher with sales of 13,400 tons. The steadiness of raws and an absence of demand caused the advance in futures. To-day futures ended 1 to 3 points higher under a fair demand.

Prices were as follows:

Lard futures on Saturday advanced 20 points under speculative buying induced by a bullish pig report. Hogs were steady with the top price at \$6.40. Cash lard was firm. On the 24th inst. futures ended 30 to 45 points higher under general commission house buying. New highs for the current movement were established. Hogs were firm with the top, \$6.65c. Cash lard was firm. On the 26th inst.

futures advanced 32 to 45 points owing to a stronger hog market. The top price for hogs was \$7.10, the highest in three months.

On the 27th inst. futures declined 8 to 20 points under general liquidation. The Iowa State pig survey indicated the combined spring and fall hog crop this year at 33 1-3% less than in 1933. The number of fall pigs totaled 1,602,000 against 4,020,000 last year. Foreign demand was small. Hogs were 10c. lower with the top at Chicago \$7. Cash lard was easier; in tierces, 12.45c. nominal; refined to Continent, 10½c.; South America, 10½c. nominal. To-day futures closed 10 to 15 points higher owing to buying stimulated by the strength in hogs, which rose to the highest price since last September.

Pork was steady; mess, \$23; family, \$23 nominal; fat backs, \$17.25 to \$19.25. Beef firm; mess, nominal; packer, nominal; family, \$17 to \$18, nominal; extra India mess, nominal. Cut meats, steady; pickled hams, picnic loose, c. a. f., 4 to 10 lbs., 9½c; skinned loose, c. a. f., 14 to 16 lbs., 15¾c.; 18 to 20 lbs., 15c.; 22 to 24 lbs., 13¾c.; pickled bellies, clear, f. o. b. N. Y., 6 to 18 lbs., 17¾c.; 8 to 12 lbs., 18c.; bellies, clear, dry salted, boxed, N. Y., 14 to 25 lbs., 16¾c.; 25 to 30 lbs., 16¼c.; Butter, creamery, firsts to higher than extra, 26½ to 33¼c. Cheese, flats, 17 to 21c. Eggs, mixed colors, checks to special packs, 20 to 33c.

Oils—Lniseed was dull and unchanged at 8.1c. for tank cars. Cocoanut Manila coast tanks, 3½ to 3½c.; tanks, N. Y., Dec.-March, 3½c. China wood, N. Y. drums, delivered, 9½ to 9½c.; tanks, spot, 8.8c. Corn, crude, tanks, Western mills, 95%c. Olive, denatured, spot Spanish, 86 to 87c.; shipments, Spanish, 84 to 85c.; Greek, 78c. Soya bean, tanks, Western mills, spot forward, 7.5 to 7.7c.; C. L. drums, 8.6 to 8.8c.; L. C. L., 9.0 to 9.2c. Edible, cocoanut, 76 degrees, 10½c. Lard, prime, 9¾c.; extra strained winter, 9c. Cod, Newfoundland, 35 to 36c. Turpentine, 49½ to 53½c. Rosin, \$5.25 to \$6.50.

Cottonseed Oil sales, including switches, 212 contracts. Crude, S. E., 91/4c. Prices closed as follows:

Petroleum—The summary and tables of prices formerly appearing here regarding petroleum will be found on an earlier page in our department of "Business Indications," in the article entitled "Petroleum and Its Products."

Rubber was featured by a steadier tone on the 22d inst. The close was 3 points lower to 5 points higher. Trading, however, was light. London was closed and will not reopen until Thursday. Business was suspended on the exchange here on the 24th inst. On the 22d inst. Dec. ended at 12.85c.; Jan. at 12.85 to 12.86c.; March at 13.06 to 13.08c.; May at 13.26c.; July at 13.45c.; Sept. at 13.65c., and Oct. at 13.75c. Consumption in the United States was estimated at 440,000 tons, against 405,700 in 1933; in the United Kingdom 105,000 tons against 70,000 tons; Japan 70,000 against 67,000; Germany 55,000 against 54,000; Russia 52,000 against 31,000. On the 26th inst. futures closed 3 points lower to 2 points higher with sales of 830 tons. Spot ribbed smoked sheets were unchanged at 12.85c. London and Singapore were closed. Dec. ended at 12.83c.; Jan. at 12.87 to 12.88c.; March at 13.09c.; May at 13.27 to 13.29c.; July at 13.47c.; Sept. at 13.67c., and Oct. at 13.77c.

On the 27th inst. futures declined 4 to 7 points with sales of 2,190 tons. Spot ribbed smoked sheets fell to 12.81c. London and Singapore were unchanged and dull. Jan. ended at 12.81c. to 12.82c., March at 13.02c, May at 13.23c., July at 13.42c., Sept. at 13.60 to 13.62c. and Oct. at 13.70c. To-day futures ended 7 to 10 points lower with January at 12.76c.; March at 13.00c., May at 13.20c., July at 13.38c., Sept. at 13.61c. and Oct. at 13.71c. The market was a little more active.

Hides futures were quiet on the 22d inst. and closed unchanged to 10 points lower. The domestic spot hide market was somewhat more active at unchanged prices. Sales of futures amounted to 1,080,000 lbs. Sales of 13,000 hides were reported in the Chicago spot market at unchanged prices. In the Argentine spot market 3,000 frigorifico light steers were reported to have been sold at slightly lower prices. March ended at 9.10 to 9.20c., June at 9.50c., Sept. at 9.85c. and Dec. at 10.15 to 10.20c. Old contract ended 10 points lower and was inactive at 7.30c. for Dec. There was no trading in futures here on Monday. On the 26th inst. futures closed 17 to 20 points higher with sales of 2,480,000 lbs. March ended at 9.30 to 9.33c., June at 9.67 to 9.70c. and Sept. at 10.05 to 10.06c.

On the 27th inst. futures closed 17 to 20 points higher with sales of 8,720,000 lbs. Sales were the third largest in the history of the Exchange. March ended at 9.49 to 9.55c., June at 9.88 to 9.89c., Sept. at 10.22c. and Dec. at 10.55 to 10.60c. To-day futures closed unchanged to 1 point higher with sales of 30 lots. March ended 9.54c., June at 9.93c., Sept. at 10.32c. and Dec. at 10.65c.

Ocean Freights—There was a fair business done.

Ocean Freights-There was a fair business done.

Charters included: Booked—two loads barley, West St. John to Glasgow, 1s. 7½d. Trips—prompt, Gulf, re-delivery United Kingdom-Continent, about \$1.20: West Indies round, S0c.; two round trips via. Mediterranean, about \$0c.; West Indies round, \$1.10. Nitrates—Hopewell, January, to Spain, \$2.20; Chile to Bordeaux-Hamburg range, 19s. 6d., with full options, 7,600 tons, 10%; Jan. 10-20. Tankers—Gulf, January to north of Hatteras, 19c.; crude, Gulf to north of Hatteras, 19c.

Coal consumption was at a satisfactory rate and the cold weather stimulated some buying. Bituminous production last week gained 135,000. It was 8,025,000 tons and the total for three weeks was 23,040,000 and the weekly average 7,680,000 tons compared with 21,180,000 and 7,060,000 tons respectively a year ago. The output for the year will probably reach 358,000,000 tons, the largest since 1931 when it was 382,000,000. It will exceed the previous year's total by 37,000,000 tons by 37,000,000 tons.

Copper was in moderate demand at 9c. for Blue Eagle for domestic shipment, while the foreign level was 7 to 7.05c. London on the 27th inst. closed with spot off 5s. to £28 2s. 6d.; futures dropped 5s. to £28 11s. 3d.; sales, 650 tons of spot and 1,350 tons of futures; electrolytic advanced 2s. 6d. to £31 12s. 6d. for spot; futures off 5s. to £31 15s.

Tin was steady at 50.80c. for spot Straits. Sales during December are said to have been the best in many months. Large consumers, it is estimated, have covering 40 to 50% of their needs. In London on the 27th inst. spot standard was up 5s. to £228 2s. 6d.; futures unchanged at £228 5s.; sales, 76 tons of spot and 50 tons of futures; spot Straits unchanged at £230 2s. 6d.; Eastern c.i.f. London unchanged at £230 7s. 6d.; at the second London session prices on standard tin were unchanged with sales of 25 tons of futures.

Lead was in small demand at 3.70c. New York and 3.55c. St. Louis. In London on the 27th inst., spot fell 2s. 6d. to £10 10s.; futures off 2s. 6d. to £10 7s. 6d.; sales, 200 tons of spot and 650 tons of futures.

Zinc was quiet at 3.725c. East St. Louis. London on the 27th inst., 1s. 3d. to £11 12s. 6d. and 1s. 3d. on futures to £12; sales, 25 tons of spot and 525 tons of futures.

£12; sales, 25 tons of spot and 525 tons of futures.

Steel—There was a fair demand for the finished product in the East and increased orders are expected early next year. Railroads are not purchasing rails and rolling stocks but are taking fair quantities of steel for repairs and upkeep work. Automobile body concerns were buying more freely in the Philadelphia District. Steel scrap prices were firmer. Quotations: Semi-finished billets, rerolling, \$27; billets, forging, \$32; sheet bars, \$28; slabs, \$27; wire rods, \$38; skelp, 1.70c.; sheets, hot rolled annealed, 2.40c.; galvanized, 3.10c.; strips, hot rolled, 1.85c.; strips, cold rolled, 2.60c.; hoops, 1.85c.; bands, 1.85c.; tin plate, per box, \$5.25; hot rolled bars, 1.80c.; plates, 1.80c.; shapes, 1.80c.; rails, standard (gross ton), \$36.375; rails light, \$35.

Pig Iron sales in the Philadelphia district for December are estimated to have exceeded the previous month by 25%. This is greater than had been expected. Stocks of the larger foundries are believed to be larger than the smaller melters. In the East there was a rather sharp increase in business for castings, according to some foundries, but others report no improvement. The better tone of steel helped sentiment in iron. Quotations—Foundry No. 2 plain, eastern Pennsylvania, \$19.50; Buffalo, Chicago, Valley and Cleveland, \$18.50; Birmingham, \$14.50. Basic, Vlaley, \$18.; eastern Pennsylvania, \$19; maleable eastern Pennsylvania, \$20; Ruffalo, \$10 Buffalo, \$19.

Wool was in fair demand and steady. Boston wired a exernment report on Dec. 27th saying: "A scattered but Wool was in fair demand and steady. Boston wired a Government report on Dec. 27th saying: "A scattered but fair demand is being received on French combing 64s and finer territory wools. Average lines of graded French combing brings 68 to 70c., scoured basis. Original bag lines of similar grade bring 67 to 70c., scoured basis for bulk average to good French combing and 63 to 65c. for short French combing and clothing wools. Medium wools are slow Members of the trade are not anticipating much demand for these grades, until after the turn of the year because of the slack demand for knit goods requiring medium grade wools."

Silk—There was no trading in futures on Monday. On the 26th inst. futures closed ½ to 2½c. higher with sales

of 1,900 bales. Crack double extra in the spot market fell 1½c. to \$1.40. Jan. ended at \$1.31, Feb. at \$1.32, March at \$1.33, April at \$1.33½, May and June \$1.33 to \$1.33½, July \$1.33½ and Aug. at \$1.32 to \$1.33.

On the 27th inst. futures were 1 to 3½c. higher with sales of 1,760 bales. Crack double extra spot rose 1c to \$1.41. Jan. ended at \$1.32½ to \$1.34, Feb. at \$1.34, March at \$1.34 to \$1.34½, May and June at \$1.35½ to \$1.36, and July at \$1.36. To-day futures closed 3½ to 5½c. higher with sales of 2,000 bales. Jan. ended at \$1.37, Feb. at \$1.38, March at \$1.39, and April, May, June, July and Aug. at \$1.40.

### COTTON

Friday Night, Dec. 28 1934.

The Movement of the Crop, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 84,550 bales, against 105,029 bales last week and 109,945 bales the previous week, making the total receipts since Aug. 1 1934, 3,187,821 bales, against 5,386,875 bales for the same period of 1933, showing a decrease since Aug. 1 1934 of 2,199,054 bales.

\* Estimated.

Speculation in cotton for future delivery was very small. The market fluctuated over a narrow range. Traders were holding aloof awaiting Secretary of Agriculture Wallace's statement outlining the Government's cotton program for next year.

On the 22d inst. prices ended 3 to 9 points higher owing to a better demand from foreign and domestic mills. Closing prices were slightly under the highs for the day. Southern selling and long liquidation caused the recession. Spot houses were good sellers of October but foreign and speculative buying absorbed the offerings. In the early dealings Liverpool, Bombay and Far Eastern interests were buying while the South supplied the contracts. There was a fair volume of business transacted. An encouraging feature was the improvement in speculative buying. The world's visible supply of American cotton was 6,828,000 bales against 6,824,000 a week ago and 9,151,000 at this time last year. On the 24th inst. prices ended unchanged to 7 points lower. The market showed early strength under a persistent demand from spot interests but later turned easier when buying from this source fell off. The South sold and there was considerable liquidation of January in anticipation of first notice day. There was a fair foreign demand for the deferred deliveries but it was not enough to check the decline. The trade, Wall Street, Liverpool, and the Continent were early buyers. The Government was credited with selling July. On the 26th inst. prices closed 3 to 9 points lower or at about the low level of the day. Spot and commission house selling sent the market downward. Brokers who usually act for the Government were selling July. There was considerable liquidation of January against which 172 notices were issued. The distant deliveries showed more firmness, with some mills switching their holdings from March to July and October. There was nothing in the news to inspire trading either way. The spot basis at the South continued firm. The Far East

on the 27th inst., after an early show of firmness, due to more encouraging Liverpool cables, prices eased a little under light offerings and ended 1 to 2 points lower. The volume of business was very small. Interest was lacking. Brokers with Government connections were offering fair quantities, but the trade was buying on a scale down. Some 41 January notices were issued and stopped early in the trading. Spot houses bought March. There were reports that the German barter deal had been dropped completely, but they had little or no effect marketwise. Worth Street was quieter. The weather was clear to cloudy, with light scattered rains along the Atlantic and Gulf coasts. To-day prices advanced 8 to 14 points on a good demand from the trade. Liverpool, commission houses, the Continent and New Orleans also bought. There were no notices reported, and there was less liquidation of January. Some demand was also reported from foreign mills. The basis at the South was still firm, but the spot demand was slow.

Includes the combined totals of 15 towns in Oklahoma.

The above totals show that the interior stocks have decreased during the week 4,028 bales and are to-night 277,607 bales less than at the same period last year. The receipts of all the towns have been 43,809 bales less than the same week last year.

Overland Movement for the Week and Since Aug 1.— We give below a statement showing the overland movement for the week and since Aug. 1, as made up from telegraphic reports Friday night. The results for the week and since Aug. 1 in the last two years are as follows:

|   | 1934                                    | 1                   | 933                        |

Year Book of New York Cotton Exchange Issued—Shows Large World Consumption of Cotton—World consumption of all kinds of cotton has increased substantially in every season since 1930-31 and during the last season it was larger than the average of pre-depression years, according to statistics contained in the seventh Cotton Year Book of the New York Cotton Exchange. This book, just issued, was prepared by the New York Cotton Exchange Service Bureau under the direction of Alston H. Garside, Economist of the Exchange. With reference to world consumption of cotton, the book says in the introductory article:

The total of 25,261,000 bales in 1933-34 compared with only 22,329,000 bales in 1930-31, and with a pre-depression average of around 24,750,000 bales. However, due largely to the fact that foreign production increased while American production was reduced, total world production continued high and ran closely in line with world consumption. World production aggregated 25,327,000 bales last season, compared with 23,585,000 the season previous, and a pre-depression average of about 25,500,000 bales. The consequence is that the world all-cotton carryover has not been reduced to normal proportions. The carryover at the end of the 1933-34 season totaled 16,281,000 bales, compared with 16,255,000 bales the year before, and a pre-depression average of around 9,000,000 bales.

The book contains comprehensive statistics on world supply and distribution of American and foreign growths of cotton, prices of cotton, yarns and cloth, mill activity, and other data of interest from a cotton market standpoint.

Activity in the Cotton Spinning Industry for November 1934-The Bureau of the Census announced on Dec. 21 that, according to preliminary figures, 30,900,436 cotton-spinning spindles were in place in the United States on Nov. 30 1934, of which 25,050,778 were operated at some time during the month, compared with 25,095,480 for October, 22,112,888 for September, 24,153,998 for August, 24,417,778 for July, 24,621,334 for June, and 25,420,584 for November The Cotton Code limits the hours of employment and of productive machinery. However, in order that the statistics may be comparable with those for earlier months and years, the same method of computing the percentage of activity has been used. Computed on this basis the cotton spindles in the United States were operated during November 1934 at 94.0% capacity. This percentage compares with 97.1 for October, 54.3 for September, 76.8 for August, 74.3 for July, 72.6 for June and 96.3 for November 1933. The average number of active spindle hours per spindle in place for the month was 217. The total number of cotton-spinning spindles in place, the number active, the number of active spindle hours, and the average hours per spindle in place, by States, are shown in the following statement: and of productive machinery. However, in order that the

New Member of New York Cotton Exchange—Herman S. Kohlmeyer of New Orleans was elected to membership in the New York Cotton Exchange on Dec. 27. After the first of the year he will be a partner of the firm of Kohlmeyer, Dodge & Newberger, who do a cotton futures business. He is also a member of the New Orleans Cotton Exchange.

Estimate of New York Cotton Exchange Places World Cotton Production 2,736,000 Bales Below Last Season—World production of all kinds of cotton this season is estimated at 2,736,000 bales less than last season, according to a report issued Dec. 24 by the New York Cotton Exchange Service. The production estimate for American cotton has been raised somewhat during the past month, but the estimate for foreign production is unchanged since plus and minus revisions in rural foreign crop estimates have offset each other. In its report the Exchange Service stated:

World cotton production this season will total about 22.591,000 bales.

minus revisions in rural foreign crop estimates have offset each other. In its report the Exchange Service stated:

World cotton production this season will total about 22,591,000 bales, according to our revised estimate, based on the latest data obtainable. Last season world production aggregated 25,327,000 bales, two seasons ago 23,585,000, and on an average during the five seasons just prior to the beginning of the depression, that is, from 1924-25 through 1928-29, 25,494,000 bales. The indicated production of American cotton, in running bales and with city crop allowance, is now 9,666,000 bales as compared with 12,712,000 last season, 12,961,000 two seasons ago, and a predepression average of 15,172,000 bales. Recent revisions in the estimates of production indication from our earlier estimate of 12,925,000 bales. Last season the foreign crop total was 12,615,000 bales, and two seasons ago 10,624,000, while the pre-depression average was 10,322,000 bales.

The Egyptian crop is now estimated at 1,550,000 bales of 478 pounds not weight as compared with our earlier estimate of 16,000,000 bales, and 1,725,000 bales last season. Recent advices from India indicate that the crop in some districts is turning out to be somewhat smaller than originally expected, and we have, accordingly, reduced our earlier tentative Indian estimate by 200,000 bales against 2,051,000 last season. Advices from Brazil indicate that our original estimate of 950,000 bales, for the crop there was somewhat too low and that an world and that an auturn of about 1,100,000 bales is probable; last season Brazil raised 807,000 bales for the crop there was somewhat too low and that an world and a season of cotton for commercial use.

The size of the probable Russian production for this season is still in doubt, and we have raised our previous estimate of total production in minor, and we have raised our previous estimates of foreign countries, such as for the minor cotton-producing countries. In some foreign countries, such as for the minor cotto

Weather Reports by Telegraph—Reports to us by telegraph this evening indicate that in the eastern third of the cotton belt the soil is in exceptionally good shape for plowing and much work will be started immediately after the holidays. Texas and Oklahoma could use more moisture in most areas. The temperatures during December have

been low enough to induce normal winter mortality among

The above statement shows: (1) That the total receipts from the plantations since Aug. 1 1934 are 3,939,609 bales; in 1933 were 6,304,767 bales and in 1932 were 6,503,091 bales. (2) That, although the receipts at the outports the past week were 84,550 bales, the actual movement from plantations was 80,522 bales, stock at interior towns having decreased 4,028 bales during the week.

World's Supply and Takings of Cotton-The following brief but comprehensive statement indicates at a glance the world's supply of cotton for the week and since Aug. 1 for the last two seasons from all sources from which statistics are obtainable; also the takings or amounts gone out of sight for the like period:

| Cotton Takings<br>Week and Season                           | 19   | 34  | 1933                      |  |  |

### BREADSTUFFS

Friday Night, Dec. 28 1934.

Flour was in small demand, and prices followed those of grain.

Wheat prices advanced ¼ to ½c. owing to covering of shorts on the 22d inst. Many were evening up for over the week-end. Foreign markets were strong. On the 24th inst. prices ended ½c. lower to ½c. higher in very small trading. It was a pre-holiday market. The visible supply decreased 2,932,000 bushels to 86,086,000 bushels, the smallest since 1928. On the 26th inst. prices rose ½ to ½c. in sympathy with corn. The cold weather where there is no snow covering in the winter wheat belt is believed to have done much damage. The Canadian visible supply increased 140,000 bushels last week to a total of 120,923,000 bushels, as against 113,556,000 last year. Strength at Minneapolis inspired some buying. Eastern interests were early buyers but there were considerable resting orders to sell May above \$1.

On the 27th inst. prices ended % to %c. lower, owing to a lack of buying interest. It was a quiet and narrow market, with most traders disposed to await the President's message with most traders disposed to await the President's message to Congress before doing much either way. Disappointing foreign markets and selling by commission houses in the early trading made itself felt. Milling demand, on the other hand, showed some improvement. The winter wheat ber without snow covering, and it is feared that cold weather will result in considerable damage. Winnipeg was ½ to ½ to 1c. higher, in light trading. Rotterdam advanced ½ to 1c. To-day prices ended unchanged to 1c. higher, being influenced by the strength in corn. The open interest was 121,-658,000 bushels.

No. 2 red\_\_\_\_\_

to arrive. There was a good deal of covering in the Dec. delivery.

On the 27th inst. prices declined ¼ to %c., owing to easier hogs and lard, higher temperatures, and bearish Argentine news. Argentine corn, it is said, can be laid down at Pacific ports at 92½c. for old crop and 82c. for the new. To-day prices advanced ½ to 1½c., owing to the strength of hogs, which rose to the highest point since last September. At one time liquidation caused a setback. The open interest was 70,928,000 bushels.

DAILY CLOSING PRICES OF CORN IN NEW YORK

 was 70,928,000 bushels.

Rye too, showed little life, and prices for the most part were

Rye too, showed little life, and prices for the most part were a mere reflection of other grain. On the 22d inst. there was an advance of \(^3\)\end{c}e. and on the 24th inst. prices ended unchanged to \(^1\)\end{c}e. higher. On the 26th inst. prices took their cue from corn and advanced \(^1\)\end{c}e.

On the 27th inst. prices ended \(^5\)\end{c}e to 1\(^1\)\end{c}e. lower, owing more to a break in cash market of \(^1\)\end{c} to 1c. To-day prices ended unchanged to \(^5\)\end{c}e. higher, in response to the rise in other grain.

 Other grain.

Weather Report for the Week Ended Dec. 26—The general summary of the weather bulletin issued by the Department of Agriculture, indicating the influence of the weather for the week ended Dec. 26, follows:

general summary of the weather bulletin issued by the Department of Agriculture, indicating the influence of the weather for the week ended Dec. 26, follows:

Warm weather for the season persisted during the week over the western half of the country, while moderate is temperatures were the rule over the new control of the country, while moderate is the persistence of the rule over the season between a cold wave moved southward from the country, while moderate is the rule over the new covered by this summary ends at 8 a. m., December 25, but following this the cold wave pushed farther south, bringing sub-zero temperatures southward to central illinois, most of lowa, and eastern and northern Nebraska. The lowest temperature reported from a first-order station, the torting of the control of the country of the control of the country of th

### THE DRY GOODS TRADE

New York, Friday Night, Dec. 28 1934.

While retail sales in the metropolitan area immediately prior to the Christmas holiday were somewhat impeded by the recently imposed local sales tax, reports from most other sections of the country indicated a gain in volume exceeding expectations. Following the holiday, the reappearance of cold weather exerted a steadying influence on the movement

of heavy apparel lines, with cloth coats and fur garments sharing in the bulk of the business. Post-holiday exchanges and returns of gift merchandise were said to be below expectations. Opinions on the outlook for retail sales in the early part of the coming year lack uniformity, but most observers believe that the improvement witnessed during the last few months will continue in the first quarter unless unforeseeable political developments following the reconvening of Congress should prove a hindrance to trade. December sales in the New York area are expected to show a gain of about 7% to 10% over December 1933, while for the whole country an increase of from 15% to 20% is antici-

Trading in the wholesale dry goods markets was seascnally quiet, although many indications, including the arrival of a larger number of buyers, pointed to an early revival in this field. Inventories of retail establishments in general are said to have undergone substantial reductions, and an influx of replacement orders from this quarter may safely be anticipated. Scattered reorders were placed by wholesalers on spring wash goods, and fair-sized quantities of heavyweight underwear and blankets were sold to retail accounts. Wash fabrics met with active demand, and more orders have come forward on sheets and pillow cases. Silk greige goods showed a steady price trend, although the volume of business was seasonally quiet. Trading in finished silk goods continued fairly active, with popular weaves such as crepons again leading in sales, for nearby delivery. An increasing volume of forward business for early spring shipment was said to have been placed with silk manufacturers. Business in rayon yarns reflected to a growing extent the steady increase in the popularity of rayon merchandise, with the buying public, as instanced by the remarkable holiday sales of rayon underwear and the active call for rayon fabrics in primary markets. The January output of viscose yarns is reported to have been virtually absorbed by advance bookings. Appreciable orders for February shipment were taken by some producers, while others refused to accept such orders before the end of the current month, causing renewed rumors that another moderate advance in prices was under discussion. The acetate division continued somewhat upset, owing to the fact that one large producer sold quantities of this yarn for March shipment at the old list prices, despite the advance in quotations announced by other makers.

Domestic Cotton Goods.— Following another spurt of may safely be anticipated. Scattered reorders were placed

at the old list prices, despite the advance in quotations announced by other makers.

Domestic Cotton Goods.—Following another spurt of active buying earlier in the week, trading in print cloths quieted down, in consequence of the holiday season and pending preparation for year-end inventories. Prices, however, held very firm, reflecting the strong position of the mills acquired through the previous rush of buying which exceeded production by a substantial margin and resulted in a considerable backlog of orders for January delivery. The movement of finished goods has received a strong impetus through the fine record of retail sales, and news of advances in finishing rates on Jan. 1 caused converters to scour the market for spot goods. As buyers appear largely uncovered on their February needs, more active markets are anticipated immediately following the turn of the year. Carded broadcloths moved in good volume, and a sharp increase in sales of narrow sheetings at higher prices was a feature. While trading in fine goods was not as active as of late, prices held quite firm, and buyers' efforts to obtain concessions from mills met with scant success, owing to the strong position secured by sellers because of the active buying during the last few weeks. Closing prices in print cloths were as follows: 39-inch 80's, 9¼c.; 39-inch 68x72's, 7¾ to 7%c.; 38½-inch 64x60's, 6¾ to 6%c.; 38½-inch 60x48's, 5%c.

Woolen Goods.—Trading in men's wear fabrics continued at a lively page, although the markets were said to

Woolen Goods.—Trading in men's wear fabrics continued at a lively pace, although the markets were said to be virtually bare of spot goods and few mills appeared to be in a position to make deliveries against current orders before late March. Inventories of clothing manufacturers in many instances are reported to be greatly depleted, and with consumer purchases continuing brisk and retailers' stocks likewise greatly reduced, an active first quarter is generally anticipated in this branch of the textile industry, with the emphasis, in all probability, placed more on prompt deliveries than on prices. Although business in the women's wear division was not as active as in the men's field, the volume of orders has shown some slight expansion. Mean-Woolen Goods .- Trading in men's wear fabrics volume of orders has shown some slight expansion. Meanwhile, mills appear none too anxious to secure more business in these goods at this time, inasmuch as most of the available capacity is now taken up by rush orders on men's wear goods.

Foreign Dry Goods.—Spurred by the continued price advances in the primary centers abroad, users of dress linens and suitings entered the market on a large scale, and sales expanded considerably. Business in household linens and gift articles, on the other hand, following the holiday buying season, experienced a seasonal drop. Trading in burlap was a trifle more active when bag manufacturers showed increased interest in late shipments and the Calcutta market sent slightly firmer quotations. Domestically, lightweights were unchanged at 4.40c.; heavies at 6.00c.

# PUBLIC WORKS ADMINISTRATION MUNICIPAL ALLOTMENTS

ALLOTMENTS

The following is a list of the municipalities to whom the Public Works Administration has agreed to furnish loans and grants for various public works projects. These allotments were reported during the period from Dec. 21 to Dec. 28, inclusive. In the case of the type of bond to be used as security for the loan, this is indicated, whenever known, by (\*) for general obligations and (x) for revenue or special assessments. Announcement of an allotment does not necessarily imply that a given project is already under way or that arrangements have been fully completed. The PWA has already allotted millions of dollars to local government units, but has purchased a comparatively small portion of the bonds covered by the allotments.

# PUBLIC WORKS ADMINISTRATION MUNICIPAL ALLOTMENTS CHANGED

ALLOTMENTS CHANGED

During recent months many of the municipal subdivisions which had been awarded loans and grants by the Public Works Administration found that they could float their bonds more advantageously in the open market, or that the condition of their various sinking funds warranted their application for cancellations of the loan portion of their allotment, utilizing only the grant customarily given by the Federal Government. Recent press releases by the Administration have been laying greater stress on these changes than on announcements of new allotments and we therefore give below summaries of the latest changes we have received.

The following announcements were made public by the PWA this week:

PWA this week:

\*\*Release No. 1139\*\*

Changes in seven allotments from loans plus grants to grants only because the recipients have sold their bonds and will not need Public Works Administration loans were announed to-day by Public Works Administration loans were announed to-day by Public Works Administrator Harold L. Ickes. These changes released \$1,517,100 for reallotment to new projects. To date, a total of \$52,607,916 has been released by such changes and reallotted to expand the public works program.

The following allotments were changed to-day:

Buffalo, N. Y.—Docket 1284: Loan and grant of \$1,198,900 for a high school building changed to grant of \$334,500.

Lake County, III.—Docket 2859: Loan and grant of \$350,000 for a high school building changed to grant of \$147,300.

Nashville, Tenn.—Docket 5132: Loan and grant of \$300,000 for a water distribution system changed to grant of \$88,000.

Joplin, Mo.—Docket 5328: Loan and grant of \$34,200 for extensions and alterations to existing community market house changed to grant of \$9,700.

Plymouth, N. H.—Docket 7417-9254: Loan and grant of \$20,300 for a highway bridge changed to grant of \$8,900.

Topeka, Kan.—Docket 8917: Loan and grant of \$273,000 for sewage disposal improvements, changed to grant of \$78,000.

Holderness, N. H.—Docket 9254-7417: Loan and grant of \$12,700 for highway bridge, changed to grant of \$5,600.

highway bridge, changed to grant of \$5,600.

Release No. 1152

Increases totalling \$188,670 in 16 previously awarded non-Federal allotments were announced to-day by Public Works Administrator Harold L. Ickes. At the same time Administrator Ickes announced reductions in four allotments totalling \$104,000.

The following allotments have been increased;
Liberty, Ky.—Docket 1453: Loan and grant of \$44,000 for improving the water system increased to \$50,500 because bids received show the work will cost more than originally estimated.

Burlington, Vt.—Docket 2215: Grant of \$8,600 for construction of a building increased to \$13,700 because construction costs have been higher than originally estimated.

Des Moines, Iowa—Docket 2244: Grant of \$61,500 for an armory and memorial building increased to \$65,700 because contracts awarded show show building will cost more than estimated.

Humble, Tex.—Docket 2287: Loan and grant of \$80,000 for a water system increased to \$87,000 to cover the cost of service connections and meters, which were not provided for in the original plans.

Havre, Mont.—Docket 2294: Loan and grant of \$166,000 allotted to the State Board of Education of the State of Montana for the Northern Montana Agricultural and Manual Training School to construct a dornitory and recitation building at the Northern Montana Agricultural and Manual Training School in Havre increased to \$198,000 to permit revision of plans and to meet increased costs shown by bids received from contractors. The

building now planned will provide living quarters for 116 students, a guest room, matron's quarters, recreation and reception halls, dining room and kitchen. The class rooms and administrative offices provided for in the original plans have been eliminated.

Whatcom County, Wash,—Docket 2686: Grant of \$5,700 for improving the Guide Meridian Bridge increased to \$6,270 because of increased costs over the amount estimated to be sufficient.

Stanley, N. C.—Docket 3538: Loan and grant of \$100,000 for a sewer system and sewage treatment plant, and complete water system increased to \$11,800 because contracts awarded show that the work will cost more that the sum of the

### MUNICIPAL ALLOTMENTS RESCINDED

In line with the above changes, the Public Works Administration has been forced to rescind many loans and grants to municipal bodies for various causes, such as unsuccessful bond elections, cancellation of projects, &c. It has been our custom to publish these under their separate headings whenever reported, but for the sake of convenient reference we have gathered together the following latest reports issued from Washington

from Washington.

The following announcements were issued by the PWA

The following announcements were issued by the PWA this week:

\*\*Release No. 1140\*\*

Cancellation of 22 previously awarded loans and grants totaling \$3,679,400 for non-Federal projects was announced to-day by Public Works Administrator Harold L. Ickes. The money released by rescinding these allotments has been reallotted to other projects.

The following allotments were rescinded:
Richfield, Utah—Docket 304: Loan and grant of \$116,000 for improving the water system rescinded because the proposed bond issue was defeated.
La Crosse County, Wis.—Docket 1392: Grant of \$10,000 for improving the water system rescinded because the proposed bond issue was defeated.
La Crosse County, Wis.—Docket 1392: Grant of \$7,700 for improving the water system rescinded at the request of the county.
Hoquiam, Wash.—Docket 1840: Grant of \$7,700 for improving the water system rescinded at the request of the city.

West Milwaukee, Wis.—Docket 3223: Loan and grant of \$16,000 for storm sewer construction rescinded at the request of the village.
Bonneville County, Ida.—Docket 3527: Loan and grant of \$10,000 allotted to Independent School District No. 1 for renovizing a senior high high project.

Muncie, Ind.—Docket 3628: Loan and grant of \$1,060,000 for intercepting sewers and a sewage treatment plant rescinded because the city has not executed a bond contract and grant agreement sent out from Washington on April 5 1934.

Wilson County, Tex.—Docket 4136: Grant of \$48,000 for improving county roads rescinded because the county has not executed the grant agreement sent out on Sept. 25 and has refused to reply to inquiries concerning the reason for delay.

St. Louis, Mo.—Docket 5330: Grant of \$13,4000 to construct a grade separation over the Missouri Pacific tracks on Kings Highway Boulevard rescinded because the city has been unable to reach an agreement with the rallicoad company to bear part of the cost of the project.

St. Louis, Mo.—Docket 5498: Grant of \$15,000 for a grade crossing climination at the intersections of the Wabash RR, with

issue sufficient bonds to secure the entire loan proposed and efforts to obtain a revision of the project to reduce its cost have been unsuccessful. Two of the three county commissioners have advised PWA that they have withdrawn their approval of the application.

Wilmington, Del.—Docket 7569: Grant of \$43,000 for park improvements rescinded at the request of the city.

Steuben County, N. Y.—Docket \$125: Grant of \$21,200 for road and bridge construction rescinded because the county has not executed the grant agreement sent out from Washington on July 20.

Wilmington, Dela.—Docket 8435: Grant of \$11,000 for extending the water distribution system rescinded at the request of the city.

Wilmington, Del.—Docket 8462: Grant of \$17,500 for improvements at the Marine Terminal rescinded at the request of the city.

Brander, Ohio—Docket 8978: Loan and grant of \$48,000 for improving the water system rescinded because the proposed bond issue was defeated.

Weber County, Utah.—Docket 8985—X: Loan and grant of \$200,000 for construction of a new building in North Ogden and additions and alterations to buildings at Burch Creek, Huntsville, Hooper, Plain City, Riverdale, Wolson Lane and West Weber rescinded because the proposed bond issue was defeated.

Morrison, Ill.—Docket 9572: Loan and grant of \$4,000 allotted to School District No. 61 of Whitside County for a new building near Morrison rescinded at the request of the applicant.

### NEWS ITEMS.

California—Court Upholds Emergency Moratorium Act—An Associated Press dispatch from Sacramento on Dec. 17 reported as follows on a Superior Court decision upholding the validity of the mortgage foreclosure moratorium in this State:

A decision of State-wide importance involving the validity of the emergency moratorium Act which became effective in California August 1933, and the Act's particular application to foreclosures on deeds of trust was rendered to-day by Superior Judge Peter J. Shields.
Judge Shields, in his opinion, stated that clearly an emergency existed on California necessitating legislation to protect owners of encumbered property. He also held that the 1933 statute requiring a notice of one year if a mortgage holder intends to foreclose applies as well to deeds of trust executed prior to the enactment of the moratorium law.

The decision grew out of the suit brought by A. Q. Robison, Deputy State Superintendent of Banks, to foreclose on property of E. C. Kloss as the result of a deficiency claim for \$6,000 held by the defunct California Trust & Savings Bank.

the result of a deficiency claim for \$6,000 held by the defunct California Trust & Savings Bank.

Coeur d'Alene, Ida.—Federal Court Rules Against PWA Loan for Municipal Utility Project—Decision May Affect Other Plants—An opinion was entered on Dec. 13 by Judge C. C. Cavanah of the U. S. District Court for the District of Idaho, restraining Harold L. Ickes, Public Works Administrator, and officials of the above city, from proceeding further with a contemplated loan and grant of \$650,000 for the construction of an electric generating and distribution system and a water system. It was held by Judge Cavanah that Congress has no power to make appropriations for the construction of municipal electric systems which are strictly intra-State in character and allotments from the Public Works Administration for that purpose are therefore invalid. It is felt that this ruling may affect other projects of a similar nature around the country which have received or expect to receive allotments from the Federal Government, perhaps even to the extent of causing a postponement of definite action on the New York City proposal to construct its own light and power plant to complete with privately owned utility companies. The New York 'Journal of Commerce' of Dec. 24 commented on the effect of the decision, from which article we take the following remarks:

Plans for a municipal lighting plant in New York City, with the aid of a loan and grant from the Federal Public Works Administration, may be

Commerce" of Dec. 24 commented on the effect of the decision, from which article we take the following remarks:

Plans for a municipal lighting plant in New York City, with the aid of a loan and grant from the Federal Public Works Administration, may be affected by a recent decision by Judge C. C. Cavanah of the United States District Court for the District of Idaho, it was disclosed here Saturday. On Dec. 13 Judge Cavanah held that Congress has no power to make appropriations for the construction of such systems which are strictly intra-State and that PWA loans and grants for the purpose are invalid. He restrained Administrator Harold L. Ickes and officials of the City of Coeur d'Alene, Idaho, from proceeding further with a contemplated loan and grant for the construction of an electric generating and distribution system having a franchise in the incorporated municipality extending to 1953, and it was held by Judge Cavanah that the company was properly in court because it would suffer direct injury by reason of the construction of the municipal plant and because, as a taxpayer, it might be subject to illegal taxation if the loan and grant were made unauthorized.

He also held that the proposed loan and grant were invalid under the Constitution of the State of Idaho because the indebtedness of \$337,550. estimated cost of the system, proposed to be incurred by the electric plant exceeded the \$300,000 of municipal bonds voted for the purpose.

Judge Cavanah pointea out in his decision, however, that should the city desire to purchase or construct such a plant by the sale or pledging of its bonds in an amount not exceeding \$300,000 authorized by its ordinance and voters, it may do so in the manner provided for by the State laws.

Limits Congressional Power

As to the recent decision of United States District Judge Otis in a similar case involving a proposed municipal plant in California, Missouri, Judge Cavanah said that if the reasoning of the Otis decision were correct then any attempt regardless of the motive t

Massachusetts—Governor Opposes Mortgage Moratorium Plan—Stating that he considers a mortgage moratorium would yield only temporary relief and that the only logical plan for enduring benefit is to reduce the scale of local taxation, Governor Ely went on record as being against the proposal of State Treasurer Hurley to have the Legislature enact the moratorium on foreclosures. The Boston "Transcript" of Dec. 19 had the following to say regarding the proposal and the Governor's stand on the matter:

"Governor Ely believes that a voluntary agreement among banks and

proposal and the Governor's stand on the matter:

"Governor Ely believes that a voluntary agreement among banks and insurance companies for a moratorium on mortgages would prove of only temporary benefit and that a revival of real estate values through reduction in local taxation is the only method of obtaining permanent relief.

"The Governor made known these views in a letter to State Treasurer Charles F. Hurley, who had proposed that the Governor call a conference of representatives of banks and other financial institutions with the bank and insurance commissioners to discuss a moratorium on foreclosure of mortgages on homes and a reduction of interest rates to at least 5% on mortgages of dwellings for three years.

"I am by nature opposed to moratorium and would yield to the idea only as the last resort, the Governor said. On the other hand, that might well be done now which could not have been done at the time you first called this matter to my attention in 1931. Then it was essential in order to preserve the deposits in the various savings banks to take no action which would tend to decrease those deposits as a reduction of interest rates must have

tend to decrease above the decrease above the decrease and deposits, it was impossible "". Without such a reduction in interest rates on deposits, it was impossible for these banks to carry on unless they maintained the return on their mort-

gages. However, the savings banks have succeeded in holding deposits with their reduced return and have built up their reserves, and might now well consider a reduction of mortgage interest.

"The conference which you suggest is a possibility to that end. Furthermore, I think it entirely within the realm of reason that such a conference might produce a unified disposition upon the part of our savings institutions of various classifications to refrain from pressing, by foreclosure or other means, for payment upon principal. If these measures could be worked out by co-operation, they would forestall the present necessity for a legislative enactment in the nature of a moratorium.

"But these measures are temporary and do not reach the root of the difficulty. There are two things which we must strive to accomplish. First; a revival of industry generally. Second; a revival of real estate values.

"The Governor said a revival of real estate values might be obtained through a reduction of taxes on real estate and that if real estate were to be helped it could only be accomplished through new taxation. Again expressing himself in favor of private building as opposed to the Government housing program, the Governor said private industry would lessen taxation and public industry would increase it."

Municipal Bond Forum to Be Held—Announcement

Municipal Bond Forum to Be Held—Announcement of a municipal bond forum, to be held on Jan. 14 and 15 at the Palmer House in Chicago, was made on Dec. 27 by the Municipal Securities Committee of the Investment Bankers Association of America. All members of the association are invited to attend, and municipal bond men from all parts of the country are expected to gather and discuss developments relating to State and city financing. Taxation and relief problems will be the chief topics of interest, while special reports covering practically every State will be presented. D. T. Richardson, Chairman of the Committee, will preside at the forum.

will preside at the forum.

New Jersey—Legislature Urged to Enact Broad Relief Law—John Colt, Chairman of the Administrative Council of the Emergency Relief Organization, has issued a report in which he stresses the need for a broad relief law, which would embrace unemployment, sickness and accident insurance. He recommends that the Legislature pass a law at the 1935 session, covering these points. A dispatch from Trenton to the New York "Herald Tribune" of Dec. 25 reported on the recommendation as follows:

Enactment into law of a system of unemployment, sickness and accident insurance is recommended to the Legislature in a report by John Colt, Chairman of the Administrative Council of the Emergency Relief Organization. The report was made public to-day. The Act governing administration of relief expires Jan. 31 and a reorganization is being studied by a special legislative committee.

Mr. Colt warns that the present volume of Federal relief funds cannot be made available indefinitely and that soon the State and municipalities must take over more responsibility for this work. He advocates that the costs of old age pensions, women's and children's care, welfare homes and other agencies for general relief be shared equally by the State and counties and that whatever Federal funds are received be deducted from the amount the taxpayers are required to provide.

Other phases of the program would be a revision of the poor law and widening the scope of old age assistance and aid to dependent mothers and children. The poor law revision would best the powers now exercised by overseers of the poor in county welfare boards, which would be unsalaried bodies working through a salaried director and paid assistants.

If the income of the State and local governments in an extraordinary period, such as the present, did not permit the necessary relief appropriation. Mr. Colt said, there were three methods of meeting the emergency—reduction of other expenses, new taxes, or more bonds.

New York City—Mayor Selects Site for Municipal Power Plant—On Dec. 26 Mayor La Guardia picked a site near the Bronx Terminal Market for the first municipal plant to produce light and power. The initial cost of this plant was tentatively put at \$1,500,000. The Mayor said he believes the plans for erection of the plant can go right ahead and that the Board of Estimate can be asked to appropriate enough money by issuance of corporate stock to cover the initial cost.

that the Board of Estimate can be asked to appropriate enough money by issuance of corporate stock to cover the initial cost.

Maurice P. Davidson, Commissioner of Water Supply, Gas and Electricity, left on the 26th for Washington to confer with officials of the Federal Power Commission relative to a reciprocal arrangement by which the Federal Government can work with the City in its operation of its own plants for the Federal buildings and the City can aid the Federal Government when it is able to supply power from its own downtown power units.

Both of these new developments were discussed in part as follows in the New York "Times" of Dec. 27:

Plans have been tentatively agreed upon for co-operation between the City and the Federal Government in building power plants here and for an interchange of electric current, Maurice P. Davidson, Commissioner of Water Supply, Gas and Electricity, indicated yesterday.

The plans, he said, although far from being concrete, call for the building by the Federal Government of a power plant somewhere near the General Post Office at Eighth Avenue and Thirty-first Street to care for the light and power needs of all Federal and City buildings in the midtown area.

In return, he said, if the plans materialize, the City will construct a large power plant in lower Manhattan which will supply light and power for City and Federal buildings in that part of the island. Members of the Mayor's committee of engineers, which is working with Mr. Davidson in drawing up plans for a City-owned power plant system, are now considering means whereby excess steam from the new incinerator the City will soon build at Fifty-sixth Street and the Hudson River could be used by the proposed Federal power plant.

Another development was the announcement yesterday by Mayor La Guardia that the first City plant to be built would be at the Bronx Terminal Market, to supply the light and power needs of the market, the near-by Bronx County Outr House and other county buildings.

The Mayor and Market Commissione

Duncan MacInnes Appointed First Deputy Comptroller—Appointment of Duncan MacInnes to the position of First Deputy Comptroller of New York City was announced Dec. 20 by Frank J. Taylor, Comptroller-elect. Praise of the appointment was voiced by Walter A. Staub, President of the New York State Society of Certified Public Accountants, of which organization Mr. MacInnes has been a member for 31 years. "The selection of Mr. MacInnes establishes a good precedent," Mr. Staub said. "Men in public service need to be encouraged by the prospect of appointment to

high positions in government as a recognition of good work and not necessarily because of political connections," he concluded.

Mayor LaGuardia Signs Amendments to Sales Tax Law—After a brief public hearing on Dec. 28 Mayor LaGuardia signed the amendments to the sales tax law that were approved by the Board of Alderman on Dec. 20.—V. 139, p. 3996.

Ohio—New Tax Measures Expected to Yield \$60,000,000— The emergency revenue program that was recently enacted into law by the Legislature—V. 139, p. 3996—is expected to produce about \$60,000,000, which will be of considerable assistance in keeping schools of the State open and in allowassistance in Reeping schools of the State open and in anowing municipalities to carry on essential services and operate on a basis closer to normal. An article on the subject appeared in the New York "Herald Tribune" of Dec. 23, from which we quote as follows:

we quote as follows:

Ohio's new measures widening its tax base have been estimated conservatively to yield \$60,000,000. A constitutional provision making an over-all limit on the tax on general property of 1%, now taking effect, had lopped off \$40,000,000 of charges on real estate and forced replacement. Ohio tightened its over-all limitation to 1% after four year's experience with a 1½% limit.

The new replacement taxes are a sales tax and an increased tax on intangibles. A large part of the new revenue is allocated to schools.

Limitation as a forcing measure, widening of the tax base, and State assumption in greater part of school costs are parts of the six-point tax program suggested for State action in real estate tax relief by the National Association of Real Estate Boards.

Adams Schantz 3d, Dayton, Ohio, chairman of the association s National committee on real estate taxation, quotes an Ohio news story of the day the Governor signed the new tax measure

"Montgomery County to-day sold \$300,000 of refunding bonds at premium. The fact that real estate taxes will be considerably lower and that revenues will be enhanced by the distribution from the State sales tax have increased the county's credit rating. Lower real estate taxes lessen the probable delinquency, and make county bonds more attractive."

Texas—Bills to be Drawn on State Control of Local Bond

robable delinquency, and make county bonds more attractive."

Texas—Bills to be Drawn on State Control of Local Bond Issues—A news dispatch from Austin on the 26th reported that the Senate Tax Survey Committee had officially requested R. A. W. Barrat of Dallas, representing the Texas Investment Bankers Association, and James C. Tucker, of Austin, former chief accountant of the State Board of County and District Road Indebtedness, to draft three bills and file them with the Committee by Jan. 7, designed to give the State iron-clad control over local bond issues by counties, cities and districts, to prevent default by local public agencies on their bonds and to levy State taxes on interest-bearing notes and mortgages.

United States—Report on Improvement in Conduct of

United States—Report on Improvement in Conduct of Local Governments—Writing in the current issue of the "National Municipal Review" on the trend during recent years toward betterment of local government throughout the country, it is asserted by Murray Seasongood, retiring President of the National Municipal League, that: "The need is greater than it has ever been to safeguard and strengthen sound local government and to acquaint the people with its importance." The New York "Journal of Commerce" of Dec. 27 had the following to say regarding Mr. Seasongood's article: Mr. Seasongood's article:

Mr. Seasongood's article:

"The league has been an important agency for the improvement of local government in this country," Mr. Seasongood says. "Founded at a time (1894) when municipal and country government were at perhaps the lowest stage, it has witnessed extraordinary improvement. Since its birth practically all of the following have developed in local affairs in this country, and many since it attained its majority—some in the last few years; the growth of the merit system; initiative and referendum; the short ballot; the non-partisan ballot; the Massachusetts form of ballot; proportional representation; planning for cities, counties, States and regions; zoning, including experiments with set-backs and excess condemnation; the right of home rule in local affairs, city and county; the commission plan, succeeded by the council manager plan of government; bureaus of governmental research; permanent registration of voters."

Reviewing briefly the developments of the past three years, Mr. Seasongood cited the encouraging growth of the city manager plan. "Twenty-one cities have adopted this form of government in the last three years and reports from all of them indicate that better service is being rendered at lower cost."

### BOND PROPOSALS AND NEGOTIATIONS.

ADA VILLAGE SCHOOL DISTRICT (P. O. Ada), Hardin County, Ohio—BOND OFFERING—C. B. Moore, Clerk of the Board of Education, will receive sealed bids until 12 m. on Jan. 5 for the purchase of \$6,109.12 4% funding bonds. Dated Dec. 15 1934. Pocatello) Ida.—BOND SALE—In connection with the report that \$58,000 refunding bonds would be offered for sale on Dec. 21—V. 139, p. 3333—we are advised as follows by Lee A. Blackmer, District Treasurer. "In response to your inquiry with reference to the sale of refunding bonds of this School District, I wish to advise that last evening the issue of \$130,000 bearing interest at 3¾% per annum, dated Jan. 1 1935, was sold to the J. K. Mullen Investment Co. and the International Trust Co. of Denver, Colo., at a price of \$1,002 for each \$1,000 bond. The said bonds are issued in denomination of \$1,000 each, are optional on any interest due date and due and payable on Jan. 1 1940.

"The refunding issue in the amount of \$40,000 bearing interest at 4% per annum, in denomination of \$1,000 each, dated as of Jan. 1 1935, optional after July 1 1936, due and payable Jan. 1 1943, were sold to Edward I. Burton & Co. of Salt Lake City, Utah, at a price of \$1,006.85 for each \$1,000 bond.

"I am giving you the above detailed information for the reason that your inquiry refers to a

BARRON SCHOOL DISTRICT (P. O. Barron), Wis.—BOND ISSUANCE PROPOSED.—In connection with a report that the district intended to market \$70,000 in school bonds, we are advised as follows by the District Clerk:

"The erection of an addition to our high school is being contemplated, but as yet no steps have been taken other than drawing up a tentative plan of same. No meeting has been held as yet to secure voters assent and we will not know definitely, until such time as we can ascertain what Federal or State aid may be secured, after which, we will call special meeting of voters of the district."

BAY CITY SCHOOL DISTRICT, Bay County, Mich.—MATURING BOND INTEREST TO BE PAID—The Board of Education is reported to have authorized the payment of interest coupons due Jan. 1 1935. Of \$27,000 due, the Board will deduct \$6,450 to apply on bonds held by the sinking fund.

sinking fund.

BAYONNE, Hudson County, N. J.—PWA FUNDS RE-ALLOTTED—
The paving of Broadway between 10th and 55th Streets was assured recently when Public Works Administrator Harold L. Ickes announced that the City has been given permission to use \$475,000 for that purpose out of a loan and grant of \$600,000 previously awarded for improving the water supply system. The \$600,000 allotment originally was made for replacing approximately four miles of twin steel water supply mains. After receiving the allotment the City modified its plans and asked for permission to use \$475,000 for the improvements on Broadway.

BAYONNE, Hudson County, N. J.—PROPOSEDBOND FINANCING—The City Commissioners on Dec. 21 passed on first reading an ordinance providing for the issuance of \$2.574.000 general refunding bonds in accordance with Chapter 233, Laws of 1934. Proceeds would be used to take up outstanding tax revenue notes issued in anticipation of collection of delinquent taxes levied for the fiscal years 1930 and 1933 incl., and \$60.000 poor relief notes. It is expected that the measure will come up for final reading on Jan. 2. Bonds would be dated Dec. 15 1934. Denom. \$1.000 Those numbered from 1 to 2.255 incl. would bear 4¾ % interest and the remaining bonds 4¼ %. Due Dec. 15 as follows: \$205,000 from 1939 to 1950 incl. and \$114,000 in 1951.

BEALLSVILLE, Washington County, Pa.—BOND SALE—The \$12,-000 4½% coupon bonds offered on Dec. 24—V. 139, p. 3674—were awarded to the Citizens National Bank of Washington, at par plus a premium of \$205, equal to 101.70, a basis of about 3.95%. Dated Dec. 1 1934 and due \$1,000 on Dec. 1 from 1935 to 1946 incl. McLaughlin, MacAfee & Co. bid par plus a premium of \$112.80 for the issue.

BELMONT COUNTY (P. O. St. Clairsville), Ohio—BOND OFFER-ING—E. E. Taylor, Clerk of the Board of County Commissioners, will receive sealed bids until 12 m. on Jan. 7, for the purchase of 25,000 6% poor relief bonds. Dated Dec. 1 1934. Due \$3,700 March 1 and \$3,300 Sept. 1 1935; \$3,400 March 1 and \$3,500 Sept. 1 1936; \$3,600 March 1 and \$3,500 Sept. 1 1936; \$3,600 March 1 and \$3,800 March 1 938. Interest payable M. & S. Bids for the bonds to bear interest at a rate other than 6%, expressed in a multiple of ¼ of 1%, will also be considered. A certified check for 5% of the bonds bid for, payable to the order of the County Commissioners, must accompany each proposal.

BENTLEYVILLE. Washington, County, Page 2000 OFFERING—

BENTLEYVILLE, Washington County, Pa.—BOND OFFERING—L. E. Sands, District Secretary, will receive sealed bids until 8 p. m. on Jan. 15, for the purchase of \$5,000 4½% coupon school bonds. Dated Dec. 1 1934. Denom. \$1,000. Due \$1,000 on Dec. 1 from 1935 to 1939, incl. Interest payable J. & D. A certified check for \$500, payable to the order of the district, must accompany each proposal. The approving opinion of Burgwin, Scully & Burgwin of Pittsburgh will be furnished the successful bidder. Issue will be sold subject to approval of the Pennsylvania Department of Internal Affairs.

BENTON COUNTY SCHOOL DISTRICT NO. 16 (P. O. Prosser), Wash.—BOND OFFERING—Sealed bids will be received until noon on Jan. 5, by Harry Forsyth, County Treasurer, for the purchase of a \$15,000 issue of school bonds. Interest rate is not to exceed 6%, payable semi-annually. Denom. \$500 Dated Dec. 1 1934. A certified check for 5% is required.

BENTON HARBOR, Berrien County, Mich.—PROPOSED REFUND-NG—The City Commission has begun proceedings in connection with a plan to refund \$330,000 bonds, including \$278,500 in default and others maturing by July 1 1935, according to report. The new bonds would mature serially over a period of 10 years. The Commission previously received bond refunding suggestions.—V. 139, p. 2235. The city, it is said, at present has \$455,482 in delinquent taxes and \$126,000 in closed banks. Of \$145,302.92 in the sinking fund, \$38,587.44 is impounded in closed banks.

BERGENFIELD, Bergen County, N. J.—BONDS AUTHORIZED The Borough Council on Dec. 10 voted to refund \$75,000 assessme bonds at 4½% interest.

The Borough Council on Dec. 10 voted to refund \$75,000 assessment bonds at \$4\frac{1}{2}\% interest.

BILOXI, Harrison County, Miss.—BOND REFUNDING STEPS OUTLINED—The following report is taken from a Biloxi dispatch to the New Orleans "Times Picayune" of Dec. 19:

"Mayor R. Hart Chinn, in a statement to-night regarding the Biloxi bond refunding, declared that all major agencies holding bonds against the city have accepted the refunding plan except the Harrison County board of supervisors. Mayor Chinn stated that of a total of \$1,640,000 to be refunded, \$1,350,000 bonds have actually been transferred. There are also \$100,000 in transit with \$50,000 cash in bank for the refund through the city's fiscal agent. The total amount of bonds held by Harrison County is \$70,000. The mayor said that the county owes the City of Biloxi \$11,083.25 on its sea wall fund.

"Mayor Chinn said that Eustis McManus, clerk of the county board, refuses to accept the refunding plan upon a basis of a similar rate of interest and asks that all bonds maturing be paid for by the city in cash."

BIRMINGHAM, Jefferson County, Ala.—BONDS VOTED—At the election on Dec. 21—V. 139, p. 3506—the voters are stated to have approved the issuance of the \$750,000 in bonds to retire outstanding scrip and place the city on a cash basis.

BOND OFFERING—Sealed bids will be received until noon on Jan. 8, by C. E. Armstrong, City Comptroller, for the purchase of a \$750,000 issue of capital improvement funding bonds. Bidders are to specify the rate of interest which the bonds are to bear, not exceeding the legal rate of interest in the State of Alabama. The bonds may not be solid for less than 95% of par value, plus accrued interest to date of delivery of the bonds and payment therefor. Denom. \$1,000. Dated Jan. 1 1935. Due as follows: \$20,000 in 1965. Prin. and int. payable in lawful money at the Central Hanover Bank & Trust Co. in New York City.

The approving opinion of Thomson, Wood & Hoffman of New York, will be furnished. A certified check for 1% of the a

CAMDEN, Camden County, N. J.—SEEKS EARLY RULING ON PWA UTILITY LOAN—The "Journal of Commerce" of Dec. 27 stated as follows: "Efforts will be made next month to speed the transcribing of 10,000 pages of testimony taken before the State Supreme Court in hearings on the fight of the Public Service Corp. against the \$6,000,000 Public Works Administration allotment for a municipal power and light plant in Camden, N. J. Thus far only 3,000 pages of the testimony have been transcribed, and until the transcript is completed the Supreme Court cannot hand down a decision.

"E. G. C. Bleakly, City Solicitor, will go before the Court in January in an effort to obtain an early decision. Borrowing of funds for the municipal plant was authorized by a referendum in November 1933. The allotment was held up when the Public Service Corp. attacked the proposal, basing its case upon the validity of names on petitions on which the referendum was authorized."

CAMP HILL SCHOOL DISTRICT, Cumberland County, Pa.—

CAMP HILL SCHOOL DISTRICT, Cumberland County, Pa.—BOND OFFERING—U. G. Fry, Secretary of the School Board, will receive sealed bids until 7:30 p. m. on Jan. 11, for the purchase of \$52,000 3, 34, 3½, 3½ or 4% coupon school bonds. Dateo Feb. 1 1935. Denom. \$1,000. DELPHOS, Allen County, Ohio—PROPOSED BOND ISSUE—The ity Council is considering the issuance of \$5,000 street improvement bonds.

DELPHOS, Allen County, Ohio—PROPOSED BOND ISSUE—The City Council is considering the issuance of \$5,000 street improvement bonds. DENVILLE TOW NSHIP (P. O. Denville), Morris County, N. J.—BONDS NOT SOLD—No bids were submitted at the offering on Dec. 26 of \$104,500 5% coupon or registered funding bonds—V. 139, p. 3999. David B. Sofield, Township Clerk, stated that the offering would be continued until 8 p. m. on Dec. 29. The \$85,000 issue was to have been used in funding that amount of notes now neld by banks. The \$19,500 item was for new money. Should no bids be received by Saturday, the banks holding the notes will be asked either to extend them or to take the bonds.

DRAINAGE DISTRICT ASSOCIATION—PAMPHLET ISSUED ON RECENT FEDERAL COURT RULING—The following report is taken from the St. Louis "Globe Democrat" of Dec. 15.

"The National Association of Investors in Drainage and Levee Districts, Inc., issued a bulletin yesterday calling attention to the significance of the recent ruling of Federal Judge Kennerly at Harlingen, Tex., holding as unconstitutional the municipal bankruptcy act in applying to the plan of the Cameron County Water Improvement District No. 1.

"Judge Kennerly held that in so far as the Act would permit any district of the State government to settle debts on a basis different from that provided by laws under which the district was organized it is invalid. "The Association's letter stresses the fact that millions of drainage and levee district bonds are held in this area, and that if the ruling should be upheld by the higher courts (the decision is to be appealed) it will 'prove of far-reaching importance.'

"The municipal bankruptcy act was enacted last May by Congress as an emergency measure to provide for embarrassed political subdivisions to refinance their debts under a plan assented to by creditors holding at least two-thirds of the bonded debt, whereupon such settlement, if considered fair, may be enforced upon all bondholders alike."

DUMONT, Bergen County, N. J.—BONDS AUTHORIZED—The B

bumont, Bergen County, N. J.—Bondolders alike."

DUMONT, Bergen County, N. J.—Bondolders alike."

Borough Council on Dec. 5 passed on first reading an ordinance providing for the issuance of \$235,000 refunding bonds, as follows: \$187,000 5½% bonds. Denom. \$1,000. on such debts has occurred in over a year.

ELIZABETHTON, Carter County, Tenn.—BOND REFUNDING AGREEMENT—It is stated in the local newspapers that the above city has contracted with bondholders to refund its bonded indebtedness over a period of 30 years. The city has outstanding bonds of \$1,730,500 and owes accumulated interest of \$308,057,50. The contract provides that the past due interest shall be satisfied in full with the money which has been impounded by the court's commissioner in the Hugh L. McClung case. The amount so impounded is \$115,098.18.

The contract also provides for a cut in interest on the refunding bonds which will result in a saving to the city over the refunding period of over \$900,000. The refunding bonds call for 3% interest for the first three years, 3½% the next five years, 4% the next 10 years and 4½% the next 12 years, an average of 4.01%, or a reduction under the old bonds of approximately one-third.

ELK CITY, Beckham County, Okla.—BOND ELECTION CO TEMPLATED—It is reported that an election may be held in the ne future to vote on the proposed issuance of \$350,000 in water system bonds.

future to vote on the proposed issuance of \$350,000 in water system bonds.

FLATHEAD COUNTY (P. O. Kalispell), Mont.—HIGH SCHOOL BONDS HELD VALID—The following report on a decision of the State Supreme Court, upholding the validity of \$158,000 in bonds to repay the loan portion of a Public Works Administration allotment, is taken from a recent issue of the Helena, Mont., "Record":

"In a decision handed down by the Supreme Court it was held that the law authorizing the issuance of bonds in the sum of \$158,000 to repay the PWA Government loan to the Board of School Trustees and the County Commissioners of Flathead County to build a high school for Flathead County is valid.

Commissioners of Flathead County to build a high school for Flathead County is valid.

"Suit was brought against the Commissioners and Trustees by Harry H. Plerson, who sought to enjoin the issuance of the bonds.

"The decision was written by Associate Justice A. H. Angstman and concurred in by all the other judges.

"Associate Justice Angstman, after reviewing the Governors' proclamation, said, 'We see no reason, therefore, why it had not the authority to pass legislation accomplishing a consolidation for a limited purpose, as here, and particularly when that limited purpose aids in accomplishing to-operation with the Federal Government, under the National Recovery Act."

FLATHEAD COUNTY (P. O. Kalispell), Mont.—WARRANTS CALLED—The County Treasurer States that the following warrants were called for payment at his office on Dec. 18, on which date interest ceased: Poor fund, registered on or before Dec. 18 1934; road fund, registered on or before Dec. 19 1934; ocunty extension fund, registered on or before Dec. 19 1934; county extension fund, registered on or before Dec. 18 1934, and general fund, registered on or before Dec. 18 1934.

IOWA FALLS INDEPENDENT SCHOOL DISTRICT )P. O. Iowa Falls) Hardin County, Iowa—BOND OFFERING—It is reported that bids will be received by Gertrude Leach, Secretary of the Board of Directors, until 7:30 p. m. on Jan. 7, for the purchase of a \$40,000 issue of school building bonds.

building bonds.

JACKSON, Hinds County, Miss.—ADDITIONAL INFORMATION—In connection with the report that an election had been set tentatively for Jan. 19 on the issuance of \$1,500,000 in revenue bonds for a power distribution plant—V. 139, p. 4000—we quote in part as follows from the New York "Journal of Commerce" of Dec. 26:
"Harvey C. Couch, President of the Mississippi Power & Light Co., and mentioned as in line for a trusteeship in the Edison Electric Institute, whose company serves Jackson, Miss., offered a graduated rate scale similar to that drafted for the Tennessee Valley Authority and also offered to place rates on a basis that would give his company an even break, with no profit on its investment. Such offers were declined, and Mayor Walter Scott and the City Commission of Jackson called for a bond election in January to determine whether the city is to build a distribution system to to connect with the TVA."

JEFFERSON INDEPENDENT SCHOOL DISTRICT (P. O. Jefferson) Greene County, Iowa—BOND EXCHANGE—A \$34,000 issue of refunding bonds is said to have been exchanged as  $3\frac{1}{2}$ s, on a basis of par for par, with the Iowa-Des Moines National Bank & Trust Co. of Des Moines. (The original bonds were called for redemption as of Jan. 1—V. 139, p. 3677.)

JERSEY CITY, Hudson County, N. J.—\$3,122,000 PAID ON COUNTY TAXES—William Budd, Comptroller, recently stated that payment was made to the county on Dec. 21 of \$3,122,000 on account of taxes delinquent over a period of four years. A small amount is still unpaid. He declared that the aid given home owners by the Home Owners' Loan Corporation made possible the collection of taxes necessary to discharge the obligation to the county.

JEWELL, Hamilton County, Iowa—BOND SALE—A \$7,000 issue of refunding bonds is reported to have been purchased by Jackley & Co. of Des Moines, as 4½s at par.

Des Moines, as  $4\frac{1}{2}$ s at par.

from Federal income tax. Legality of bonds has been approved by Marbury, Gosnell & Williams of Baltimore. The successful bid was the only offer submitted for the bonds. Public re-offering is being made by the bankers at a price of 104.

at a price of 104.

MARYLAND (State of)—Possible Deficit Placed AT \$2,229,000

—A deficit of \$2,229,000 at the close of the current fiscal year on Sept. 30

1935 was officially predicted by Governor Ritchie in a statement issued
Dec. 20. Although the figure may be reduced by actual revenues, he stated
that the estimate should be accepted as the judgment of the States' principal
fiscal officer, Comptroller William S. Gordy. The Governor suggested the
following ways in which the deficiency might be avoided or lowered: Reduce
1935 expenditures; increase 1935 revenues, perhaps by imposition of a
general sales tax; sell the Northern Central Ry, annuity, and turn the proceeds into the general treasury.

MENA, Polk County, Ark.—BONDS VOTED—At a special election on Dec. 22, the voters are said to have approved the issuance of \$35,000 in hopsital bonds.

MERIDIAN, Lauderdale County, Miss.—BOND SALE DETAILS—In connection with the report of the sale of \$155,000 refunding bonds, given in V. 139, p. 4001, we give the following Meridian dispatch to the Mempnis "Appeal" of Dec. 18:

"The City Council Monday sold \$155,000 of its refunding bonds to George T. Carter, Inc., of Meridian, and Leland Speed Co. of Jackson. Of the bonds, \$105,000 bear 5½% interest and the successful bidders paid a premium of \$550. During the past four years the city has retired approximately \$860,000 of its bonds.

"Two other groups bid for the bonds, the Union Planters National Bank of Memphis and a syndicate composed of New Orleans and Memphis houses, among whom were Saunders & Thomas, Memphis; First National Bank, Memphis; Scharff & Jones, New Orleans; Whitney National Bank, New Orleans, and Leftwich & Ross."

MILTON, Norfolk County, Mass.—TEMPORARY LOAN—The New England Trust Co. was awarded on Dec. 27 a \$200,000 tax anticipation note issue at 0.33% discount basis, plus a premium of \$3. Dated Jan. 7 1935 and due Nov. 8 1935. Other bidders were Merchants National Bank, 0.335%; Whiting, Weeks & Knowles, 0.35%; National Shawmut Bank, 0.38%; Second National Bank, 0.389%; Newton, Abbe & Co., 0.41%; First National Bank, 0.41%; Faxon, Gade & Co., 0.46%.

MILWAUKEE COUNTY, (P. O. Milwaukee), Wis.—BOND SALE—The \$450,000 issue of 4% coupon semi-ann. Metropolitan Sewerage Area bonds offered for sale on Dec. 28—V. 139, p. 4001—was awarded to Halsey, Stuart & Co. of Chicago, and associates, at a price of 108.46, a basis of about 3.30%. Dated Oct. 1 1933. Due on Oct. 1 as follows: \$80,000, 1951, and \$185,000 in 1952 and 1953. The second highest bid was an offer of 107.176, tendered by the Northern Trust Co., and F. S. Moseley & Co.

MISSISSIPPI COUNTY DRAINAGE DISTRICT No. 9 (P. O. Blytheville), Ark.—REFINANCING PLAN NEARLY COMPLETE—The following report is taken from a Blytheville news dispatch of recent date:

Hythevine), All the control of the same and central portions of the sub-districts, 3 and 4, has been paid in by delinquent taxpayers.

"All but a few thousand dollars of the \$350,000 necessary to carry out the \$2,500,000 debt readjustment program of drainage district No. 9 and its sub-districts, 3 and 4, has been paid in by delinquent taxpayers.

"The success of the program, which will make possible a reduction of approximately 60% in drainage taxes in districts embracing much of the highly developed eastern and central portions of Mississippi County, is definitely assured, according to J. H. Crain of the Lee Wilson Co., at Wilson, one of the commissioners of the district."

"MONTECOMERY COUNTY (P. O. Dyaton), Ohio—BOND SALE—VOLUME OF THE COUNTY (P. O. Dyaton), Ohio—BOND SALE—VOLUME OF T

MONTGOMERY COUNTY (P. O. accompany each proposal.

MORGAN COUNTY SCHOOL DISTRICT NO. 3 (P. O. Fort Morgan), Colo.—PRE-ELECTION SALE—It is reported that a \$35,000 issue of 3½% school refunding bonds was purchased by Bosworth, Chanute, Loughridge & Co., of Denver, at a price of 102.119, subject to a pending election. Due as follows: \$500, 1940 to 1949; \$1,000, 1950 to 1954; \$4,000, 1955 to 1959, and \$5,000 in 1960.

MUSKEGON SCHOOL DISTRICT, Muskegon County, Mich.—BOND OFFERING—Sealed bids addressed to the Clerk of the Board of Education will be received until Jan. 15 for the purchase of \$25,000 refunding bonds.

NAKOMIS, III.—BONDS AUTHORIZED—The City Council has passed an ordinance providing for an issue of \$35,000 water revenue bonds. The Public Works Administration has allotted \$45,000 for the project.

NEWARK, Essex County, N. J.—BONDS AUTHORIZED—The City Commission on Dec. 26 passed on ordinance providing for the issuance of \$10,500,000 not to exceed 4½% funding bonds, for the purpose of taking up temporary bonds issued against delinquent taxes for the years 1931 to 1934. These taxes amount to \$19,400,000, according to report. Bonds are to be dated Feb. 1 1935 and mature serially on Feb. 1 from 1936 to 1950, inclusive.

NEW HAVEN COUNTY (P. O. New Haven), Conn.—NOTE SALE—Charles W. Scranton & Co. of New Haven were awarded on Dec. 18 an issue of \$35,000 notes, due June 23 1935 at 0.45% interest. Proceeds of the loan, together with \$10,000 cash on hand, served to make possible the payment of \$45,000 notes which came due on Dec. 23. Other bids for the current issue were R. L. Day & Co. of Boston 0.48% and Putnam & Co. of Hartford 0.70%.

NEWPORT NEWS, Warwick County, Va.—NOTE SALE—In connection with the report that the City Council had authorized the issuance of \$59,937 in bridge bonds—V. 139, p. 4002—we are advised as follows by A. M. Hamilton, City Clerk:
"The issue is \$60,000 of two-year notes and were sold to local banks, bearing 4% interest. The reason for this being: There is a question as to whether the city pays half the cost of reconstructing the bridge or only a much less portion based on an agreement between the city and the railroad company entered into in 1908. After this litigation the city will issue bonds in the amount necessary to cover its portion of the cost, provided it is in a substantial amount."

a substantial amount.

NEWTON, Middlesex County, Mass.—TEMPORARY LOAN—A
\$200,000 revenue anticipation loan, due Nov. 7 1935, was awarded on the
basis of \$100,000 each to the National Shawmut Bank of Boston and
G, M.-P. Murphy & Co., both having made identical offers of 0.37% discount for the issue. Other bidders were: Second National Bank, 0.375%;
West Newton Savings Bank, 0.375%; Merchants National Bank, 0.38%;
Newton, Abbe & Co., 0.38%; Faxon, Gade & Co., 0.39%; Whiting, Weeks
& Knowles, 0.40%; Bankers Trust Co. of New York, 0.43%.

NEWTON TOWNSHIP SCHOOL DISTRICT, Delaware County, Pa.—BOND CALL—The following numbered bonds of the \$75,000 414 %

school building issue, dated Jan. 7 1924, have been called for payment on or before Jan. 7 1935 at the Girard Trust Co., Philadelphia: 26, 30, 49, 53, 59, 60, 64, 67, 69 and 72.

NEW JERSEY (State of)—BOND OFFERING—The State Sinking Fund Commission has announced that sealed bids will be received until Jan. 9 for the purchase of the \$10,000,000 unemployment relief bonds which were lauthorized at the general election on Nov. 6. The bonds will mature from 1936 to 1943, incl. and bidder will be obliged to name the rate of interest. Issue will be amortized out of liquor tax receipts. The Commission recently had given consideration to the possibility of purchasing all or part of the issue for its own investment account.—V. 139, p. 4002.

\$500. Dated Nov. 1 1934. Due \$4,500 from Nov. 1 1939 to 1953. Frm. and int. (M. & N.) payable at the office of the City Treasurer.

NORTHEBERGEN TOWNSHIP, N. J.—REFINANCING PLAN OFFERED TO BONDHOLDERS—Commissioner Paul Cullum's plan for the financial rehabilitation of the Township was approved by the Commission on Dec. 26 as "the only possible way out of the Town's present difficulties." The proposal was embodied in an 18-page report, prefaced by a long resume of the municipality's financial history. It provided for the refunding of the estimated debt of \$19,713,104 into a single bond issue, to mature over a 30-year period. Interest at the rate of 2% would be paid from 1935 to 1940; 3% from 1941 to 1944 and 4½% from 1945 to 1965. The present rate is 6% on about \$13,000,000 of the indebtedness and 5½% on the remaining \$6,000,000. The plan would reduce the annual interest burden from \$1,100,000 to \$380,000 during the first five years. The plan also recommends that all of the funds of the Township, except specific amortization reserves and the sinking fund, be combined in one account. In order to place the Town on a cash basis, the report suggests that the money now on hand be used to offer payment of \$200,000 as full settlement for \$960,000 defaulted 1934 interest and that the \$330,000 of defaulted 1933 interest be paid in full. Payment of the entire amount due for last year is suggested because some bondholders have already received full payment. Following approval of the report, the Commissioners authorized Mr. Cullum to negotiate for acceptance of the plan by bondholders. Mayor Julius L. Reich previously had started a move on his own initiative in order to get bondholders to accept a reduction in interest rate on their holdings to 2½% and settlement of past-due interest charges on a 50% basis. Mr. Cullum's proposal represents the Township's answer to the several suits brought by bondholders to accept are duction in interest rate on their holdings to 2½% and settlement of past-due interest charges on a 50% basi

HEARING ON MOTION DELAYED—Pending submission of the refunding plan to bond creditors, Federal Judge Guy L. Fake has continued until Feb. 4 a motion brought by a bondholders' protective comittee asking for a receivership of the township's reserve fund and an accounting of other funds, according to report.

accounting of other funds, according to report.

NORWOOD, Hamilton County, Ohio—BOND OFFERING—A. M. Schoneberger, City Auditor, will receive sealed bids until 12 m. (Eastern Standard Time) on Jan. 14 for the purchase of \$18,625.12 6% hospitalization judgment bonds. Dated Dec. 1 1934. One bond for \$1,625.12. others for \$1,000. Due Dec. 1 as follows: \$3,625.12 in 1936 and \$3,000 from 1937 to 1941 incl. Principal and semi-annual interest payable at the First National Bank of Norwood. Bids for the bonds to bear interest at a rate other than 6%, expressed in a multiple of ¼ of 1%, will also be considered. A certified check for 5% of the bonds, payable to the order of the City Treasurer, must accompany each proposal. Approving opinion of Peck, Shaffer & Williams of Cincinnati will be furnished at expense of successful bidder.

OGDENSBURG, St. Lawrence County, N. Y.—OTHER BIDS—Other bids for the \$100,000 work and home relief bonds awarded on Dec. 20 to the Marine Trust Co. of Buffalo, as 2½s, at 100.274, a basis of about 2.46%—V. 139, p. 4003—were as follows:

OMAHA, Douglas County, Neb.—BOND SSUANCE NOT CONTEMPLATED—In regard to a report that the city recently sold \$172,000 of refunding bonds—we are informed by C. E. Stenicka, City Comptroller, that the city has sold no bonds since 1932 and does not plan to sell any during 1935. (In V. 139, p. 1437, we reported that the Public Works Administration agreed to purchase \$1,650,000 of 4% bridge revenue bonds. OSAGE CITY SCHOOL DISTRICT (P. O. Osage City), Osage County, Kan.—BONDS VOTED—At the election held on Dec. 21 (not Dec. 20)—V, 139, p. 3679—the voters approved the issuance of the \$64,000 in high school construction bonds, reports the Clerk of the Board of Education. Due in 20 years.

OSAWATOMIE, Miami County, Kan.—BOND ELECTION—An election is reported to be scheduled for Jan. 18 to vote on the issuance of \$15,000 in stadium bonds.

OWOSSO, Shiawassee County, Mich.—NOTE OFFERING—G. A. Van Epps, City Clerk, will receive sealed bids until 3 p. m. (Eastern Standard Time) on Jan. 2 for the purchase of \$40,000 not to exceed 6% interest general obligation delinquent tax notes. Dated Dec. 31 1934. Denom. \$5,000. Due \$20,000 April 30 in 1936 and 1937. Principal and interest J. & D. 30) payable at the City Treasurer's office. A certified check for

\$1,000 must accompany each proposal. City will furnish legal opinion and pay the cost of printing the notes.

PASADENA, Los Angeles County, Calif.—BONDS DEFEATED—At the general election on Nov. 6—V. 139, p. 2553—the voters rejected the proposal to issue \$185,000 in bonds for the purchase of Carmelita Park.

PASADENA CITY HIGH SCHOOL DISTRICT (P. O. Pasadena) Calif.—BOND OFFERING—Sealed bids will be received until 2 p. m. on Jan. 7, by L. E. Lampton, County Clerk, for the purchase of a \$375,000 issue of school building and repair bonds. Interest rate is not to exceed 5%, Dated Jan. 1 1935. Due from Jan. 1 1938 to 1955 incl. Prin. and semi-annual int. payable in lawful money of the United States at the County Treasury, or at the fiscal agency of the county, in New York City, at the option of the holders. The bonds will be sold for cash only and at not less than par and accrued interest. Bids will be received for all or any portion of said bonds. In the event that the bidder submits a proposal to purchase a portion of said bonds, the bid shall designate specifically the bonds bid for. All bonds sold to a bidder bidding for a portion of said bonds will be rejected. Payment for and delivery of bonds will be made in the office of the Board of Supervisors. A certified or cashier's check for a sum not less than 3% of the amount of the bonds bid for, payable to the order of the Chairman of the Board of Supervisors must accompany every bid. Pasadena City High School District has been acting as a High School District under the laws of the State of California continuously since July 1 1900. The assessed valuation of the taxable property in said school district for the year 1934 is \$108,714,145, and the amount of bonds previously issued and now outstanding is \$1,682,000. Pasadena City High School District includes an area of approximately 127.21 square miles, and the estimated population of said school district is 128,220.

PELHAM MANOR, Westchester County, N. Y.—BOND SALE—The \$14,000 coupon or registered refunding bonds offered on Dec. 22—V. 139, p. 4003—were awarded as 31/25 to Adams, McEntee & Co., Inc., of New York, at par plus a premium of \$58.80, equal to 100.42, a basis of about 3.44%. Dated Dec. 15 1934 and due \$1,000 on Dec. 15 from 1935 to 1948

| Int. Rate | Int. \$53.20 5.60 25.20

PENNSYLVANIA (State of)—\$1,024,000 OF VARIOUS MUNICIPAL BONDS OFFERED FOR SALE—The State Council of Education on Dec. 17 received bids for the purchase of various issues of municipal bonds aggregating \$1,024,000, representing \$863,500 of instruments of Pennsylvania municipal units and \$158,500 of bonds of taxing bodies of other States, High bidder was the School Employees Retirement Board, which offered a lump bid of \$1,326,223 for all the bonds and is expected to obtain the award. Halsey, Stuart & Co., submitted the only other lump sum bid of \$1,311,974.

PETERSBURG, Huntingdon County, Pa.—BONDS APPROVEI An issue of \$20,000 water plant construction bonds was approved by Pennsylvania Department of Internal Affairs on Dec. 17.

Pennsylvania Department of Internal Affairs on Dec. 17.

PHILADELPHIA, Pa.—ADDITIONAL LOAN—Mayor Moore on Dec. 19 authorized the borrowing of \$1,000,000 to meet Christmas payrolls of municipal employees, bringing to \$7,160,000 the total amount borrowed for various fiscal purposes during the last month. About \$700,000 of the new loan was obtained from the sinking fund at 1% interest, while the balance was made available by the Philadelphia National Bank at 2%. A further \$2,000,000 will be borrowed to meet police and fire department payrolls before Dec. 31.

CREDITORS OBTAIN JUDGMENTS—The following appeared in the Philadelphia "Inquirer" of Dec. 21: "The city's inability to meet payments on construction contracts was further illustrated yesterday when the Underpinning and Foundation Co., Inc., took three judgments against the city totaling \$265,534. Previous judgments of about \$225,000 have been taken recently by the Keystone State Corp. All judgments are for work around City Hall. The city's loan fund is virtually dry despite the borrowing of \$1,225,000 from the current fund earlier this year. The reason is that Mayor Moore has not issued sufficient bonds to cover contract claims, holding that the city's bonded indebtedness already exceeds the legal limit. He is disputed in this by the City Comptroller."

PLEASANT TOWNSHIP SCHOOL DISTRICT, Warren County, Page 2000 from the current than the county of the coun

PLEASANT TOWNSHIP SCHOOL DISTRICT, Warren County, Pa.—BONDS APPROVED—The Pennsylvania Department of Internal Affairs on Dec. 21 approved an issue of \$15,000 school building bonds.

POINTE COUPEE PARISH SCHOOL DISTRICT NO. 10 (P. O. New Roads), La.—BONDS NOT SOLD—The \$70,000 issue of school bonds offered for sale on Dec. 18—V. 139, p. 3680—was not sold, according to the Secretary of the Parish School Board.

PORTAGE COUNTY (P. O. Ravenna), Ohio—BOND SALE—The \$12,800 coupon poor relief bonds offered on Dec. 24—V. 139, p. 3511—were awarded as 2½s to Seasongood & Mayer of Cincinnati, at par plus a premium of \$26.85, equal to 100.20, a basis of about 2.36%. Date Dec. 1 1934 and due as follows: \$1.700 March 1 and Sept. 1 1935; \$1,800 March 1 and Sept. 1 1936; \$1,900 March 1 and Sept. 1 1937 and \$2,000 March 1 1938. The Second National Bank bid par for 3% bonds, although the tender was not accompanied by the required good faith deposit.

PORT JERVIS, Orange County, N. Y.—CERTIFICATE ISSUE SOLD—The \$60,000 home and work relief certificates of indebtedness offered on Dec. 26—V. 139, p. 4003—were awarded as  $4\frac{1}{2}$ s, at a price of par, jointly to the First National Bank and the National Bank & Trust Co., both of Port Jervis, the only bidders. Dated Dec. 28 1934 and due Feb. 1 1935.

able to the order of the County Treasurer, must accompany each proposal.

POWESHIEK COUNTY (P. O. Montezuma), Iowa—MATURITY—
The \$18,000 poor fund bonds that were purchased by the Carleton D. Beh
Co. of Des Moines as 2 %s at a price of 100.56—V. 139, p. 4003—are due
on Nov. 1 as follows: \$5,000 in 1937, \$3,000 1938, and \$10,000 in 1939,
giving a basis of about 2.59 %. This issue was sold primarily for the poor
fund, but it is thought that the same issue will also be applied on poor fund
warrants and court expense warrants.

PRICE COUNTY (P. O. Phillips), Wis.—BONDS AUTHORIZED—
It is reported that the County Board of Supervisors recently authorized the
ssuance of \$40,000 in tax anticipation bonds to meet current expenses.

PUEBLO PUBLIC WATER WORKS DISTRICT NO. 2 (P. O. Pueblo)
Colo.—BONDS CALLED—Nos. 1 to 35 of the water works bonds are said
to have been called for payment on Dec. 1, at the office of the City Treasurer

RECONSTRUCTION FINANCE CORPORATION—It was announced on Dec. 22 by Jesse H. Jones, Chairman of the above Corporation, that sealed bids will be received until noon on Jan. 9, at his office in Washington, for the purchase of \$3,033,500 in bonds that were taken over from the holdings of the Public Works Administration. RIO GRANDE COUNTY SCHOOL DISTRICT NO. 7 (P. O. Del Norte), Colo.—BOND SALE DETAILS—The \$95,000 4½% semi-ann. refunding bonds that were purchased by Amos C. Sudler & Co. of Denver—V. 139, D. 3880—are stated to have been sold at par. It is said that these bonds were issued to refund 5% bonds maturing on Jan. 1 1950, callable on Jan. 1 1935.

on Jan. 1 1935.

RICHFIELD TOWNSHIP (P. O. Richfield), Ohio—BOND OFFER-ING—Philip E. Waldo, Clerk of the Board of Trustees, will receive sealed bids until 12 m. on Jan. 4 for the purchase of \$6,000 5% fire equipment and building construction bonds. Dated Jan. 1 1935. Denom. \$300. Due \$300 April 1 and Oct. 1 from 1936 to 1945 incl. Bids for the bonds to bear interest at a rate other than 5%, expressed in a multiple of 44 of 1%, will also be considered. A certified check for \$60, payable to the order of the Board of Trustees, must accompany each proposal.

RHODE ISLAND (State of)—BONDS OFFERED FOR INVEST-MENT—The syndicate headed by Halsey, Stuart & Co. which obtained award last week of \$2,000,000 bonds—V. 139, p. 4004—is re-offering them for public investment as follows: \$1,000,000 1 \% \% relief issue, due serially from 1936 to 1941, incl., priced to yield from 0.40 \% to 1.65 \%, according to maturity, while the \$1,000,000 3 \% public works bonds, due from 1941 to 1951, incl., are being offered on a yield basis of from 1.90 \% to 2.40 \%.

They are declared to be legal investment for savings banks in New York, Massachusetts, Connecticut, Rhode Island and other States. In addition to Halsey, Stuart & Co., the group includes Bancamerica-Blair Corp., Hallgarten & Co., Darby & Co. and Arthur Perry & Co., Inc. They paid the State a price of 106.525 for the \$1,000,000 3% bonds and 100.105 for the \$1,000,000 11% % issue. An official tabulation of the bids submitted for the issues follows:

ROCHESTER, Monroe County, N. Y.—NOTE SALE—A group of local banks recently purchased an issue of \$1,200,000 tax revenue notes, due July 29 1935, at 1% interest. A year ago the City negotiated a similar loan at 1.20%.

ROOKS CREEK TOWNSHIP (P. O. Graymont), III.—ADDI-TIONAL INFORMATION—The \$12,000 5% road bonds purchased by the H. C. Speer & Sons Co. of Chicago—V. 139, p. 3840—are in registered form, with maturities from 1939 to 1942, incl. Interest payable A. & O. Issue was sold to the bankers on Aug. 31.

ROYAL OAK, Oakland County, Mich.—\$2,989,000 DRAIN DISTRICT BONDS AGAIN UPHELD AS TO VALIDITY—The "Michigan Investor" of Dec. 22 carried the following report: "Ruling that drain bonds valued at \$2,989,000, issued by the Royal Oak Drain District, are valid and legitimately issued, Federal Judge Edward J. Moinet, in Detroit, gave a decision in favor of holders who have been seeking to collect on the bonds for the last two years. The suit was brought by Kenneth Keet and Ernest Quandrel, on behalf of other bondholders. The decision affirmed a finding made nearly a year ago by William S. Sayres. Jr., Federal Master in Chancery, Judge Moinet directed drain officials place all money paid in assessments in the drain districts into a trust fund for retiring the bonds as they fall due. Nearly half a million dollars is already available, he said."

ROYAL OAK SCHOOL DISTRICT, Oakland County, Mich.—
REFUNDING PLAN OFFERED TO BONDHOLDERS—N. J. Quickstad
was authorized by the Board of Education to make overtures to the bond
holders' committee to accept a refunding agreement, which was informally
adopted. Provisions of the plan are: Approximately \$2,650,000 in bonds
would be refunded over a 30-year period; the interest rate to start at 1%
annually and gradually increase to 2½%; a sinking fund of \$106,000 a year
to be set up but no principal to be paid during the first five years. After
that tenders might be asked.

SAINT ANTHONY, Fremont County, Ida.—BOND SALE—It is reported that an issue of \$124,000 general refunding bonds was purchased by Fenton & Coffin, of Boise, on a basis of about 4½%.

ST. CLOUD, Stearns County, Minn.—BOND SALE—The \$67,000 issue of water works refunding bonds offered for sale on Dec. 26—V. 139, p. 3681—was purchased by three local banks at a price of 100.25, a basis of about 3.68%, on the bonds divided as follows: \$10,000, maturing on Jan. 1 1936 as 24s, and \$57,000 as 34s, maturing on Jan. 1 as follows: \$50,000 in 1942 and \$7,000 in 1944.

\$50,000 in 1942 and \$7,000 in 1944.

ST. JOHNS COUNTY (P. O. St. Augustine), Fla.—SECURITIES PURCHASE OFFER—It is announced by O. P. Goode, Clerk and Auditor of the Board of County Commissioners, that he has \$60,000 on hand to be used in the purchase of bonds, time warrants or certificates of indebtedness of the following issues:

Certificates of indebtedness of the issue of \$114,000 dated July 1 1923 and due on July 1 1934.

Certificates of Indebtedness of the issue of \$100,000 dated Nov. 15 1924 and due \$5,000 annually until 1944.

\$427,000 refunding bonds that are due on May 1 1944.

2,200,000 5% road bonds, due in 1936, 1946 and 1956.

No bonds will be purchased for more than 60 cents on the dollar.

ST. LAWRENCE COUNTY (P. O. Canton), N. Y.—ROND REFUND.

No bonds will be purchased for more than 60 cents on the dollar.

ST. LAWRENCE COUNTY (P. O. Canton), N. Y.—BOND REFUND-ING PLANNED—The Board of Supervisors on Dec. 11 adopted a resolution calling for the refunding of \$65,000 outstanding highway bonds.

ST. LOUIS, Mo.—BOND REFUNDING BILL APPROVED—An ordinance authorizing the city to refund \$2,533,000 of bonds which will mature within the next year was signed on Dec. 18 by Mayor Dickmann and immediately became effective. The measure had received the approval of the Board of Aldermen and was necessitated by an anticipated deficit of \$2,533,000 in the city's bond sinking fund.

of \$2,533,000 in the city's bond sinking fund.

SAN FRANCISCO (City and County), Calif.—BOND OFFERING—Sealed bids will be received until 3 p. m. on Jan. 7, by J. S. Dunnigan, Clerk of the Board of Supervisors, for the purchase of two issues of 4% coupon or registered bonds, aggregating \$1,050,000, as follows: \$670,000 water distribution bonds. Due on Dec. 1 as follows: \$40,000 in 1935, and \$35,000, 1936 to 1953.

380,000 sewer bonds. Due on Dec. 1 as follows: \$16,000, 1935 and \$13,000, 1936 to 1963.

Denom. \$1,000. Dated Dec. 1 1933. Prin. and int. (J. & D.) payable at the office of the Treasurer of the city and county or at the fiscal agency of the city in New York. The approving opinion of Thomson, Wood & Hoffman of New York, will be furnished. These bonds are part of the issues approved by the voters on Nov. 7 1933. A certified check for \$10,000, payable to the above named Clerk, is required.

SCARSDALE, Westchester County, N. Y.—BOND OFFERING—

payable to the above named Clerk, is required.

SCARSDALE, Westchester County, N. Y.—BOND OFFERING—Anson McLoud, Village Treasurer, sill receive sealed bids until 11 A. M. on Jan. 3 for the purchase of \$100,000 not to exceed 4% interest coupon or registered sewer bonds. Dated Jan. 1 1935. Denom. \$1,000. Due \$5,000 on Jan. 1 from 1936 to 1955 incl. Rate of interest to be expressed by the bidder in a multiple of ¼ or 1-10th of 1%. Interest payable J. & J. Bonds are stated to be unlimited tax, general obligations of the Village and are being issued to defray the cost of constructing sanitary and storm water sewers in Sewer Districts Nos. 1 and 2 in the Village. A certified check for 2% of the bonds bid for, payable to the order of the Village, must accompany each proposal. Legal opinion of Thomson, Wood & Hoffman of New York will be furnished the successful bidder. An excellent record of tax collections by the Village was reported by Mr. McLoud recently.—V. 139, p. 3512.
