Dollar Tranche. The Trustees of the above-named Loan have received from the Bulgarian Government sufficient sums in foreign exchange to provide for the payment of 324% of the interest coupon due November 15, 1937. Bondholders may accordingly surrender their coupons for payment at this rate under the conditions described in the League Loans Committee's announcement of December 24, 1936. It will not be possible to provide any sums for S'Aking Fund purposes, and drawings will 'herefore not take place.

The renore not take place. The Trustees also announce for the nformation of bondholders that since the publication of their announcement of November 5. 1936, the Director General of the Bulgarian Debt Administration has asked for their consent to alterations in the rates of certain minor customs and statistical duties whose revenue is assigned to the service of the above-named Loan. In view of the Director General's assurance that the new rates should not have any unfavorable effect on the annual yield of the assigned revenues, the Trustees did not raise any objection to their adoption.

Referring to the above notice, the Undersigned will, as directed by the Trustees, be prepared to pay to the holders of the November 15, 1937, coupons of the Dollar Bonds on or after that date \$12.19 for each \$37.50 coupon and \$6.09 for each \$18.75 coupon. upon surrender of such coupons, with appropriate letter of transmittal, at the office of either of the Undersigned.

The Financial Situation

N A LITTLE more than a week Congress will again convene. The second session was called by the President, according to general understanding, against the advice of a number of his counsellors, and for purposes which few if any men of experience and wisdom approve or could approve. For several weeks past the President's aides have been hard at work in the preparation of a program of legislation which the President is expected to ask Congress to consider forthwith. Several members of Congress, acting either as individuals or as committees, have likewise

been active in the formulation of plans for the extra session and for the regular session which is due to follow immediately. When the national legislature is once more in formal session it will, whatever may be said to it by Administration officials and whether it would have it otherwise or not, be faced by a situation that threatens rather abruptly to develop into a collapse of New Deal ideas of promoting recovery and of giving succor to the so-called under-privileged third of the population.

What Next?

The Executive branch of the government always officially at Washington is, indeed, now officially face to face with this situation, although it must be said that, despite sundry reports more or less to the contrary, there has been no convincing evidence as yet that the Administration is aware of the fact, or, if aware of it, has an adequate understanding of how to cope with it. Certain steps have been taken manifestly in the hope that business would be stimulated. Some \$300,000,000

course of business sentiment. The question uppermost in the minds of thoughtful observers when each of these steps was announced has been: What next?

Just that question is ruling today. What course will the Administration follow in the face of the state of affairs by which it is confronted, and what will be the attitude of Congress when it assembles in Washington with a vivid awareness of the fact that next year is an election year? Answer this question, and much of the obscurity in which the business outlook is surrounded would vanish. Unfortunately, it is

Precisely

One of the speakers at the Annual Conven-One of the speakers at the Annual Conven-tion of the Investment Bankers Association just coming to a close, a former special assist-ant to the Secretary of the Treasury, in advancing a plea for a \$2,000,000 reduc-tion in Federal expenditures, explains the rationale of his position in these words: "Funds for paying government expenses are obtainable only from three sources; (1) taxation; (2) confiscation; (3) repudiation. Your government in the past has 'looked at all three'—and has resorted to all of them.

all three'—and has resorted to all of them. Those of us who now choose taxation, who prefer to place our government upon a pay-as-you-go basis, and who concurrently advocate a return to a sensible revenue system, are criticized. We are told that we have no interest in the welfare of the lower one-third of our population—the 'ill-housed, ill-clad, ill-nourished.'

"I am willing to meet this issue squarely. It is precisely because I am interested in the so-called lower one-third; interested in pro-viding opportunities for better homes, suit-able clothing and proper nourishment; inter-ested likewise in providing jobs for the unemployed and maintaining jobs for those now employed; interested in encouraging initiative, enterprise and skill, and in protecting their proper reward; interested in freeing the small business man from the financial restricsmall business man from the financial restric-tions with which his government now shackles him; interested in protecting the small investor from as many pitfalls as possi-ble; interested in bringing to our present generation a 'life of greater opportunity, of greater security, of greater happiness'; and because I refuse to pass on to your children and mine a staggering burden of debt which and mine a staggering burden of debt which they did not incur, which they cannot carry, and which will destroy their opportunities, deny them their security and deprive them of their happiness—that I have taken my pres-ent position."

Precisely.

The so-called underprivileged will sooner or later awake to the realization that their worst enemies are those who most loudly pro-claim undying interest in their welfare, but who proceed, as do the New Deal managers, to pursue courses that can do only irreparable injury to their cause.

in gold has been "de-sterilized," rediscount rates have been reduced, and the Board of Governors of the Federal Reserve System has let it be known that it stood ready to have the System buy government obligations in the open market if and to the extent considered necessary to provide a credit fillip, invited member banks to extend credit liberally by acquiring various types of paper that ought never to be found in the portfolios of commercial banks, and, more recently, reduced the margins required of long commitments in the stock market. All of these have either had an effect quite opposite to what was apparently expected, have accomplished nothing at all, or have produced but a brief pause in the downward

not possible to give a definitive and authoritative reply at present, although the general nature of plans being formulated is apparently becoming somewhat clear in broad outline. The course that is apparently being charted by the Administration is not particularly heartening, but it must not for that reason be ignored. On the contrary, it is of the utmost importance to impress the minds of members of Congress with the true inwardness of the existing situation, even if it appears impossible to convince the President that there is anything awry with his plans and his program.

Tax Reform?

For some time past word has been coming from Washington that important action on taxation would be taken by Congress either at the special session about to begin or at the regular session early next year. In particular, hope has been rather widely entertained that the undistributed profits tax would be substantially amended in a fashion to ameliorate the adverse effects of the present law,

and that similar action would be taken in the case of the capital gains tax. The Treasury has "reported" to a sub-committee of the House Ways and Means Committee the results of prolonged study of these and kindred subjects. The public has not been told, and may never be told, what conclusions the Treasury has reached. Indeed, it is not even known whether the Treasury has done more than hand the sub-committee a finding of facts. It must not be assumed, however, that the Administration has not, or will not have, rather definite wishes in the matter, and that it will not press its desires upon Congress in its own way at its own time. In any case, the program of the Administration, if it has

developed one, is at present unknown to the public. The President appears to be more or less determined not to consent to any change in existing tax laws that will reduce expected revenues, but beyond this little can be definitely said of his own policies on this subject.

Meanwhile, influential members of Congress seem to have been impressed with the need of drastic revision of these statutes. Senator Glass has let it be known that he favors repeal of the undistributed surplus tax and important modification of the capital gains tax. Others are more or less on record as favoring changes that they think will accomplish the results sought. What the outcome of all this will be it would at present be hazardous to guess. Nothing that is believed to have been under serious consideration in Washington as a means of checking the progressive depression that seems to be creeping upon us would be more effective than appropriate action touching these taxes.

Situation Not Simple

Yet we venture the opinion that the situation of which these two statutes are a vital part is not so simple as many appear to suppose. It would be well for the New Deal managers to recall the series of steps proposed, some of which were actually taken, during the latter half of the Hoover Administration; each of them was widely believed likely to turn the tide, but one by one each proved quite ineffective. Now the truth of the tax situation is this. Both the undistributed profits tax and the capital gains tax are peculiarly vicious forms of taxation which inevitably develop untoward effects peculiarly their own. They must be repealed or at the very least radically modified. But-and here is the heart of the matter-so long as expenditures are continued at even approximately their present level it is utterly impossible to avoid taxation much too heavy to be borne comfortably, so heavy indeed that it will be difficult if not impossible for business to proceed normally to full and sound recovery. A thorough overhauling of the whole system of Federal taxes could of course render this burden of taxation as nearly harmless as such a burden could be, but nothing but reduced expenditures can free business of the necessity of carrying a load which must in any event prove an old man of the sea about the neck of enterprise.

We have said that it is impossible to continue to spend madly and at the same time reduce taxation to reasonable proportions, and such is indeed the case. Of course it might prove possible to continue and even enlarge the excess of outgo over bona fide income for a period of time either by further borrowing or by utilization of some of the assets that the Federal Government has accumulated-such, for example, as its mountainous hoards of precious metals and its accumulations of securities, which in theory it could sell for a rather handsome sum. But such a course could be continued for only a relatively brief period and would, moreover, if the precious metals figured prominently in the program, cause derangements fully as unfortunate in the long run as any sort of taxation. Tax reform is possible and feasible forthwith; tax reduction, which is of equal importance if not of equal urgency, must await curtailed expenditures. Concentration of attention upon the former while utterly neglecting the latter, as now seems to be likely, can in the nature of the case only half solve the tax problem, and this is as true of State and local governmental policies as it is of Federal. We may as well face this situation realistically now as later.

It is for this reason as well as for several others that forward-looking business men are viewing plans for the coming session of Congress with deep misgivings. The agrarian program has not as yet been worked out in detail, but it is already quite evident that unless a halt is called it will require large expenditures of funds, not only much larger than can be afforded but substantially larger than those now being made, no matter what the nature of the soothing explanations forthcoming from time to time from public officials on the subject. Nor would the fundamental elements of the situation be materially altered should it be decided, as the President has intimated it will be, to have the Commodity Credit Corporation apply for its funds directly to the investing public with the guaranty of the Treasury placed upon the obligations it would offer for the purpose. Neither would a great deal be gained by spreading the cost of the foolish "ever-normal granary" system over a period of years. Pay day will inevitably come sooner or later, and if we meanwhile do not manage our financial affairs more carefully we shall be even less prepared to pay the bill than we are today.

Cost Rigidities

But the difficulties really responsible for the downward course of business today are by no means confined to those growing out of taxation. Rigidities that tend to freeze costs and prevent the normal adjustments of efficient business operation have been multiplying for more than four long years. They exist on every hand today-wage and hour contracts with labor unions, restrictions in such contracts about details of every-day operation, overhead expense resulting from onerous tax and other reports, inability to obtain marketing flexibility due to the Robinson-Patman Act, direct government regulation of many activities and several industries, and a dozen other broadly similar factors imposed by public policies of the past half a decade. To make matters worse the Administration is apparently still bent upon general wages and hours regulation by the Federal Government. Our whole economy is in danger of a governmentally imposed petrification. Let the fact not be overlooked that not only inability to raise capital but natural unwillingness to ask for capital is halting plant expansion at present, and that a profitless industry is not greatly handicapped by any form of tax upon profits.

Turning to Congress

This in brief is the situation that Congress must face. Neither politically nor otherwise can the members of the national legislature afford to falter or to attempt evasion of their responsibilities. It would avail them little next year, when election day arrives, if by that time we are in the throes of real distress, to plead acquiescence in programs devised by the Administration for the purpose of stimulating recovery. The proof of the pudding will be in the eating, or perhaps in the results obtained from the eating. Many distraught business men are today asking earnestly whether we are entering a "major depression" or whether recent sharp recessions are to be considered merely a relatively minor and probably

2898

temporary interruption of the upward course of business. The answer to such a question depends in large part upon what is done at Washington during the next few months. Of course, we cannot lift ourselves by our own boot straps. Nor can Congress lift us up. There is no panacea now for our ills, just as there was none when President Roosevelt took office in 1933. Deep-seated evils have developed in our economic structure as a result of New Deal nonsense. They can neither be removed nor remedied over night. The fact remains, however, that there is no good reason why business should continue indefinitely to recede, provided, first, that Congress acts promptly to relieve the more urgent situations such as those caused by the undistributed profits tax and the capital gains tax; second, that it resolutely refuses to be pushed farther into the quagmire of mad New Deal legislation; and, third, that convincing evidence is forthcoming that lessons have been duly learned at Washington and that henceforth a more constructive attitude will be taken.

It appears to be almost hopelessly difficult to convince the Administration of these elementary but vital facts. The country, or that part of it which understands what is really going on, is in consequence turning its eyes to Congress. Not for many years, possibly never, has Congress been presented with so great an opportunity to be of enduring service to the people. It can meet the test if it will. All that is needed is common sense and courage.

Federal Reserve Bank Statement

BANKING and foreign exchange developments this week suggest some important transfers of gold from our stabilization fund to European account, and there is a confirmation of this new trend in the current banking statistics. The Federal Reserve summary indicates an addition of only \$3,000,000 to the United States monetary stock of gold in the week to Wednesday night, although sizable receipts were reported at various ports of entry. This confirms the impression that some of the fugitive capital from European countries at long last is moving back and is occasioning a reversal of the gold flow. The modest addition to our gold stock brought the total holdings to a further record level of \$12,804,000,000. Currency in use now shows an upward trend, and this circumstance was chiefly responsible for a decline of member bank reserve balances of \$61,787,000. As in previous weeks, a loss of deposits by the member banks themselves lowered the requirements for reserve deposits with the Federal Reserve Banks, and excess reserves declined only \$20,000,000, to \$1,050,000,000. Deflation of bank credit again was reflected in the statement covering weekly reporting member banks here in New York City. The change was small, however, as declining business and brokers' loans were offset through additions to the portfolio holdings of United States Treasury securities.

The combined condition statement of the 12 Federal Reserve Banks reflects no changes of importance, other than those already indicated. Gold certificate holdings of the regional institutions receded \$1,495,000 to \$9,124,896,000, while the outflow of currency into circulation accentuated the trend toward lower reserves, with the indicated drop \$8,879,000 to \$9,442,422,000. Federal Reserve notes in actual circulation increased \$28,062,000 to \$4,284,-159,000. Total deposits with the regional banks fell \$47,853,000 to \$7,481,493,000, with the account

variations consisting of a decrease of member bank reserve balances by \$61,787,000 to \$6,888,943,000; an increase of the Treasury general account balance by \$16,780,000 to \$110,826,000; a drop of foreign bank deposits by \$11,955,000 to \$253,936,000, and an increase of other deposits by \$9,109,000 to \$227,-Discounts by the System were marked 788.000. \$893,000 higher to \$24,319,000, but industrial advances continued their slow decline with a drop of \$98,000 to \$19,352,000. Open market holdings of bankers bills increased \$2,000 to \$2,832,000, and holdings of United States Government securities were quite unchanged at \$2,526,190,000. The reserve ratio moved up to 80.3% from 80.2%.

The New York Stock Market

CTOCKS entered another period of dragging de-J cline in the week now ending. The New York market was dull and dispirited in almost all sessions of the week, with holiday influences apparent at the start. The interruption of trading for the election, Tuesday, kept commitments to small proportions, and even the effectiveness of the margin requirement change on Monday failed to stimulate the market. Business indices clearly reflected a rather sharp downturn, which appears to be spreading steadily throughout the economic fabric. It is still uncertain, however, whether the business recession is the chief reason for the recent collapse of stock values, or whether the stock drop occasioned a business caution that now is reflected in declining production. One obvious requirement of the situation is a change in the punitive policy of the Administration in Washington toward business, and on that question the keenest interest was manifested. It became known that the Treasury experts on taxation are considering alterations in the harmful and obstructive corporate surplus and capital gains taxes, and the hope exists that such changes will take precedence over the wages and hours legislation and other reform measures that the special session of Congress is to consider.

The stock market last Saturday was a sluggish affair, which occasioned few important changes. Most movements were toward lower figures. There was no change in the situation on Monday, and slow subsidence of quotations remained the rule. After the holiday on Tuesday the drift downward was accentuated, with sizable losses recorded both on Wednesday and Thursday. A modest rally developed yesterday, and the losses were curtailed to a degree. For the week as a whole, however, the market registered a substantial decline. Falling commodity markets contributed to the dulness and Almost all commodities slumped pessimism. sharply as demand dropped away. The foreign exchange markets reflected a growing outflow of funds from the United States to European countries, and some large transfers of gold from our stabilization fund to the accounts of European central banks resulted. This, of course, is more a matter of satisfaction than of concern, for the awkward accumulation of monetary gold in the United States stands in need of correction.

The listed bond market was a quiet affair, with high-grade investment issues and the more speculative bonds taking different directions. This is the normal course of the bond market, but the circumstances motivating the movements are unfortunately not normal. United States Treasury bonds and best-rated corporate issues slowly improved on a resumption of commercial bank buying, occasioned by the fall of business loans. The more speculative departments of the bond market moved lower along with stocks. Foreign dollar issues were irregular. In the bond market, as in the stock market, it was evident that Administration assurances of a more sensible attitude than has prevailed for the last five years are badly needed. The new capital market currently is moribund, and until business men see their way to profitable use of funds they can hardly be expected to borrow.

On the New York Stock Exchange three stocks touched new high levels for the year while 48 stocks touched new low levels. On the New York Curb Exchange four stocks touched new high levels and 39 stocks touched new low levels. Call loans on the N.Y. Stock Exchange remained unchanged at 1%.

On the New York Stock Exchange the sales at the half-day session on Saturday last were 713,910 shares; on Monday they were 1,029,110 shares; Tuesday was Election Day and a holiday on the Exchange; on Wednesday, 1,735,840 shares; on Thursday, 1,471,440 shares, and on Friday, 1,245,250 shares. On the New York Curb Exchange the sales last Saturday were 128,310 shares; on Monday, 159,030 shares; on Wednesday, 282,120 shares; on Thursday, 259,975 shares, and on Friday, 217,290 shares.

Narrow movements characterized trading on Saturday and stocks closed generally firm. On Monday selling pressure on a moderate scale appeared at the opening and prices receded from fractions to three points on the day. Estimated figures given out by the Steel Institute during the day again reported a decline for the week in steel production and resulted in a further depression of steel shares. Tuesday was Election Day and a holiday on the Stock Exchange, and the Chicago stock market was the only major exchange throughout the country that opened for business. Uncertainty continues to be a very dominant factor in the market, and with the situation thus, stocks closed on Wednesday at practically the day's lowest levels, with market leaders suffering losses of from one to six points. Weakness prevailed at the outset on Thursday and stocks were carried to further low levels. In late trading a mild rally ensued on the strength of guarded remarks of the Chairman of the House Ways and Means Subcommittee relative to a revision of the tax structure, which were favorably interpreted by the speculative fraternity. Yesterday a better tone prevailed, and stocks rallied in moderate fashion, thus checking the downward movement for the moment. As compared with Friday a week ago, equities are somewhat lower. General Electric closed yesterday at 397% against 43% on Friday of last week; Consolidated Edison Co. of N. Y. at 241/8 against 26; Columbia Gas & Elec. at 81/2 against 93/8; Public Service of N. J. at 35 against 3634; J. I. Case Threshing Machine at 971/2 against 105; International Harvester at 71 against 761/2; Sears, Roebuck & Co. at 64 against 711/4; Montgomery Ward & Co. at 39% against 44%; Woolworth at 39% against 41, and American Tel. & Tel. at 1501/2 against 156. Western Union closed yesterday at 301/2 against 333% on Friday of last week; Allied Chemical & Dye at 159 against 165; E. I. du Pont de Nemours at

133¹/₂ against 126; National Cash Register at 20¹/₈ against 21¹/₄; International Nickel at 43⁵/₈ against 47¹/₂; National Dairy Products at 15¹/₂ against 16¹/₈; National Biscuit at 20⁵/₈ against 22; Texas Gulf Sulphur at 30 against 32⁵/₈; Continental Can at 47³/₄ against 52; Eastman Kodak at 158 against 169; Standard Brands at 9 against 9; Westinghouse Elec. & Mfg. at 95¹/₂ against 105³/₄; Lorillard at 18¹/₄ against 18⁷/₈; U. S. Industrial Alcohol at 19³/₄ against 21¹/₂; Canada Dry at 14³/₄ against 15⁷/₈; Schenley Distillers at 29 against 30¹/₈, and National Distillers at 23 against 24³/₄.

The steel stocks closed yesterday with substantial declines for the week. United States Steel closed yesterday at 56% against 64 on Friday of last week : Inland Steel at 64 against 72; Bethlehem Steel at 49¾ against 54%, and Youngstown Sheet & Tube at 3934 against 453%. In the motor group, Auburn Auto closed yesterday at 101/4 against 111/2 on Friday of last week; General Motors at 393/4 against 435%; Chrysler at 691½ against 751¼, and Hupp Motors at 23% against 25%. In the rubber group, Goodyear Tire & Rubber closed yesterday at 227/8 against 251/4 on Friday of last week; United States Rubber at 271/2 against 301/2, and B. F. Goodrich at 19 against 221/4. The railroad shares followed the general trend of stock prices and closed lower for the week. Pennsylvania RR. closed yesterday at 221/4 against 241/2 on Friday of last week; Atchison Topeka & Santa Fe at 38% against 42; New York Central at 19 against 22; Union Pacific at 93 against 991/2; Southern Pacific at 21 against 23; Southern Railway at 13% against 15%, and Northern Pacific at 123/4 against 145%. Among the oil stocks, Standard Oil of N. J. closed yesterday at 5034 against 5314 on Friday of last week; Shell Union Oil at 18 against 201/4, and Atlantic Refining at 221/2 against 24. In the copper group severe price changes were the rule. Anaconda Copper closed yesterday at 27 against 321/4 on Friday of last week; American Smelting & Refining at 501/8 against 585/8, and Phelps Dodge at 221/2 against 271/2.

Trade and industrial indices suggest a continued slow decline of business. Steel operations for the week ending today were estimated by the American Iron and Steel Institute at 48.6% of capacity, or the lowest rate since the end of 1935. The comparison is with a steel rate of 52.1% last week, 66.1% a month ago, and 74.7% at this time last year. Production of electric energy for the week to Oct. 30 is reported by the Edison Electric Institute at 2,254,947,000 kilowatt hours against 2,281,636,000 kilowatt hours in the previous week and 2,166,-656,000 in the same week of 1936. Car loadings of revenue freight for the week to Oct. 30 amounted to 771,655 cars, according to the Association of American Railroads. This was a drop of 1,698 cars from the preceding week and 42,859 cars from the similar week of last year.

As indicating the course of the commodity markets, the December option for wheat in Chicago closed yesterday at 88½c. as against 96c. the close on Friday of last week. December corn at Chicago closed yesterday at 56%c. as against 59c. the close on Friday of last week. December oats at Chicago closed yesterday at 30½c. as against 30%c. the close on Friday of last week.

The spot price for cotton here in New York closed yesterday at 7.89c. as against 8.32c. the close on -3

Friday of last week. The spot price for rubber yesterday was 14.68c. as against 15.50c. the close on Friday of last week. Domestic copper closed yesterday with offerings by one custom smelter at 11c., while others held the price at 12c. as against the dual price of 11³/₄c. and 12c., respectively, the close on Friday of last week.

In London the price of bar silver yesterday was 19 11/16 pence per ounce as against 19 15/16 pence per ounce on Friday of last week, and spot silver in New York closed yesterday at 44% c., the close on Friday of last week.

In the matter of the foreign exchanges, cable transfers on London closed yesterday at \$4.99 13/16 as against \$4.961/2 the close on Friday of last week, and cable transfers on Paris closed yesterday at $3.40\frac{1}{8}$ c. as against $3.37\frac{3}{8}$ c. the close on Friday of last week.

European Stock Markets

ITTLE business was done this week on stock exchanges in the principal European financial markets, and price changes also were modest. The Paris Bourse was closed on Monday in observance of All Saints Day and on Tuesday in observance of All Souls Day. This suspension at Paris, coupled with the closing of American markets for the election on Tuesday, kept fresh commitments in European centers to small proportions. The tone was quiet and steady in London, and the exchanges in Paris and Berlin were content to follow the example set by the British market. Much concern again was expressed everywhere regarding the decline in New York and its ultimate significance, but European traders and investors did not attempt to solve that puzzle. An attitude of aloofness prevailed, and sentiments of that nature were aided by the natural apprehensions regarding the several important international conferences on Spain and China which now are in progress. In some of the European centers the idea gained ground that another severe depression may possibly impend, and gold mining stocks occasionally were in vigorous demand on the theory that fresh currency devaluations would be stimulated by a business slump. But trade and industrial reports in Europe remain fairly good, and the fears of unfortunate world business developments were confined to circles with American connections.

The London Stock Exchange was dull as trading was resumed for the week, last Monday. Gilt-edged issues reflected modest investment demand, as the American developments inclined London investors to the belief that an indefinite period of easy money rates impends. British industrial stocks moved lower, while international issues declined on the unfavorable week-end advices from New York. Business was at a minimum on Tuesday, owing to the closings at Paris and New York. British funds were in quiet demand, and the British industrial list received some support. The gold-mining stocks attracted attention, but copper, rubber and other commodity issues receded. Anglo-American trading favorites improved and some inquiry also was reported for other international issues. An air of quiet optimism prevailed Wednesday, on the London market. Gilt-edged issues and British industrial stocks attracted support. Some sizable advances were noted in South African and Australian gold mining

stocks, but base metal and agricultural commodity shares declined. Anglo-American industrial issues receded. The trend on Thursday was toward the safety afforded by gilt-edged issues, which advanced steadily. Industrial stocks were irregular and commodity issues were uncertain, although gold-mining shares remained in demand. Anglo-American favorites dipped in accordance with overnight advices from New York. Gilt-edged issues moved higher yesterday, while industrial stocks also improved. Major advances were recorded in gold mining shares.

Trading on the Paris Bourse was supended, Monday and Tuesday, in observance of religious holidays. When dealings were resumed on Wednesday, the trend was uncertain, with trading on a very modest basis. The initial tone was soft, but moderate gains followed and at the end small gains were more numerous than the equally small losses. Monthend settlements were effected at 3% against the 41/8% rate of mid-October, which aided sentiment to some degree. Rentes and French equities showed only minor variations, but gold-mining issues were in good demand. A cheerful session followed at Paris, Thursday, with rentes up by good fractions owing to strength in franc exchange. French equities were in modest demand, but larger gains were recorded in gold-mining and a few other commodity International issues were irregular. securities. Rentes and French equities were irregular in a quiet session yesterday, but international issues improved.

Dealings on the Berlin Boerse were modest during the initial session, Monday, with lower quotations the rule among almost all heavy industrial, chemical, electrical and other leading stocks. The potash shares were more resistant than other groups. Fixedinterest obligations showed little change. The session on Tuesday again was dull, and the tone remained heavy. Declines of fractions to a point or more appeared in almost all parts of the list. Bank stocks joined the downward procession, despite the relinquishment of control by the Reich Government of leading Berlin institutions. There was little change in the situation at Berlin, Wednesday, as the tendency toward weakness persisted. Potash stocks were firm, but almost all other groups were marked slightly lower on persistent but quiet liquidation. Still another movement toward lower levels developed Thursday, at Berlin, with losses of 1 to 2 points recorded in many issues. The subsidence was gradual, however, and in the final hour buying orders appeared in volume. The fixed-income section was neglected, throughout. In quiet trading yesterday small gains were registered on the Boerse.

Reciprocal Trade Treaties

Some additional light was thrown this week on the status of the reciprocal tariff treaty program, which Secretary of State Cordell Hull is pushing steadily. Preliminary hearings on the proposed treaty with Czechoslovakia recently were concluded in Washington, where great opposition to various phases of the plan was voiced by many American manufacturers who might find themselves at a competitive disadvantage in the event of drastic lowering of the tariff barrier. It seems unlikely that Mr. Hull will take steps of so drastic a nature that irremediable injury would be inflicted on any large American groups, and in the meanwhile it is fairly obvious that some decided measures toward reduction of barriers deserve to be taken. The hearings are in themselves an assurance that all claims will be taken into consideration. More than a dozen treaties already have been negotiated, and from any large point of view the contention seems justified that beneficial results have attended the endeavors of Secretary Hull. That he is not to be diverted from his purpose was indicated on Tuesday, when notice was pigen that a reciprocal trade treaty with Turkey is under contemplation. The usual request was made that interested persons submit suggestions as to products on which tariff changes might suitably be made.

London dispatches of Tuesday made it clear that the frequently discussed Anglo-American reciprocal trade treaty is considered a highly desirable consummation, at least by some divisions of the British Government. In the course of a debate in the House of Commons, Members of all parties urged the negotiation of such a pact as an aid in combating any unemployment that might arise from completion of the British rearmament program. Oliver Stanley, President of the Board of Trade, replied that there is nothing in public life which he takes so seriously or for which he strives so hard as this proposed treaty. It is the earnest desire of the government, he assured the Members, that preliminary explorations in London and Washington be concluded at the earliest practicable moment and "negotiations started with a view to arriving at a satisfactory agreement." The difficulties in the way of such a pact also were emphasized by Mr. Stanley, who indicated that the United States from the first had been informed that there is no idea of abandoning the system of Imperial preference. In the course of the broad discussion in the Commons, Mr. Stanley declared that there is no real reason to be apprehensive of a disastrous business slump, but he admitted that there is room for expansion of international trade. "For this reason," he added, "it has been the declared policy of the government to play its part in any concerted effort to reduce economic barriers which confront the world." The British Minister also remarked, however, that the worst obstacles to international trade are not tariffs, but currency restrictions and import quotas.

Japan and China

EW elements were injected into the Sino-Japanese situation, yesterday, through an offer of mediation by the German Government, which both disputants are reported willing to accept. This mediation offer seems far to overshadow the ineffectual Nine-Power Treaty conference, which started on Wednesday at Brussels, with 14 nations in attendance. The German Government made known briefly that Chancellor Hitler's mediation had been accepted by both parties, and it was indicated that efforts to arrange an armistice would be made promptly. Ever since the war started near Peiping, on July 7, the German authorities followed the correct diplomatic procedure of strict and rigid neutrality. They are, accordingly, in a position to proffer their good offices to both sides, with a likelihood of favorable consideration. The actual task of mediation, however, is apt to be exceedingly troublesome and difficult, for it is hardly likely that

Nov. 6, 1937

Japan will give up any of the vast territorial gains made in northern China over the last four months. China has gained much "face" by means of the determined defense at Shanghai, and the Nanking Nationalist officials could hardly cede the territory. If the German mediation efforts succeed, it may well be that a buffer-State arrangement to cover Inner Mongolia and some of the Provinces of China proper will be made. The actual administration of such a State doubtless would rest in Japanese hands.

After considerable preliminary skirmishing, representatives of 14 nations assembled at Brussels, Wednesday, for the hastily convened Nine-Power parley on the Sino-Japanese war. On the eve of the session it was made sufficiently plain that the great Powers responsible for the conference had no faith in its effectiveness, and the initial discussions fully warranted the pessimistic predictions heard everywhere as the arrangements were made. Japan did not change its attitude toward the gathering, and the absence of that country made the session somewhat awkward. The German Government rejected an invitation to attend, and followed this last Saturday by Foreign Office predictions that the conference must fail, since nations that previously assumed the attitude of "moral judges" could not be expected to arbitrate the Sino-Japanese difficulties. The British Foreign Secretary, Anthony Eden, discussed the problem last Monday before the House of Commons, and he placed the responsibility for the gathering squarely on the United States Government. Any action, he said, that can be taken in the dispute depends essentially upon the United States. He pledged the British Government to go as far as the United States, "not rushing in front, but not being left behind." In reply, Under Secretary of State Sumner Welles declared in Washington the next day that the American purpose is to share in the common task of finding, within the provisions of the Nine-Power Treaty, some solution of the current conflict in the Far East.

In view of this preliminary maneuvering, little was expected of the conference, and no surprise was occasioned by the mild tone of the opening addresses. The democratic countries, headed by the United States, Great Britain and France, suggested mediation and the restoration of peace on the basis of what Norman H. Davis, head of the American delegation, called an "equitable adjustment," acceptable to China and Japan alike. The war concerns the whole world, and an early solution of a constructive nature was urged. Mr. Davis added that the United States had no commitments, in entering the conference, other than those expressed in the treaty. With these sentiments Foreign Secretary Eden associated the British Government, while French views along similar lines were voiced by Foreign Minister Yvon Delbos. The Chinese delegate, Dr. Wellington Koo, protested that mediation was of no use to a nation subjected to aggression. He urged an effective check upon territorial ambitions like those of Japan in China. Maxim Litvinoff, speaking for Russia, also called for "the unity of all peace-loving nations" as a means of checking aggression. The Italian representative, Count Luigi Aldrovandi-Marescotti, obviously espoused the Japanese cause by declaring firmly against coercive measures of any kind. With obvious reference to President Roosevelt's "quarantine"

speech, the Italian delegate scoffed at "talk about a more or less moral quarantine directed against one or the other of the parties to the conflict." This inauspicious start of the gathering was followed by group discussions, in which means were sought whereby Japan could be induced to attend, or at least to submit suggestions for terms on which peace could be restored. Eight of the leading nations agreed, Thursday, to follow this procedure and hope for the best.

While these conversations were in progress fighting continued in the most desperate manner, both at Shanghai and in the northern Chinese provinces that Japan has marked out for addition to the puppet-State of Manchukuo. The gains made by the invaders at Shanghai last week were extended only a little, for new and prepared positions have modified the problems of defense. Only a small "death battalion" was left in the Chinese area of Chapei when the Chinese finally gave up the unequal task of defending the irregular line, and that group retreated into the International Settlement last Saturday, on direct orders from the Chinese Generalissimo, Chiang Kia-shek. Early this week the Japanese threw some men across Soochow Creek, near the Settlement, but the Chinese claimed that the invaders were again forced over that small waterway. In northern China, and especially in Shansi Province, the Japanese claimed extensive gains. The provincial capital, Taiyuan, was reached by the invaders Thursday, and the Japanese maintained that the Chinese armies were retreating rapidly. Almost all the Japanese objectives in northern China now have been gained, and on this basis it is assumed by informed observers that Tokio might not be averse to "mediation" from friendly sources, that had as its object a peace that would enable Japan to keep its new acquisitions. Wintry conditions, bitter in north China, now are settling over the area, and Japanese troops are not accustomed to such conditions. The menace of Soviet Russian involvement becomes more acute as time goes on, and the need for Japanese relief from the financial and economic strain of warfare also suggests that Tokio would be happy to find a means of terminating the struggle on its own terms.

Spanish Civil War

LL of Spain was tense this week as the start of A^{LL} of span was come deciding battle between a new and possibly deciding battle between the insurgents and loyalists was awaited. There were skirmishes here and there, especially in the Madrid sectors, but definite indications as to the next great area of conflict were lacking. General Francisco Franco clearly was assembling his troops for a fresh assault on the loyalist positions, for the fall of Gijon brought the entire Biscayan area into insurgent control and made possible the diversion of thousands of troops for fighting in Aragon or at Madrid. The loyalists assumed the offensive this week near Madrid, but no great progress was made. Near Saragossa the insurgents pressed the battle, with equally indecisive results. The available indications point, however, to the Aragon region near Saragossa as the choice of the insurgents for the next area of conflict. Insurgent bombing planes made an attack Tuesday on the town of Lerida, which is a key point in the loyalist defense of Aragon, while another squadron bombed nearby Barbas-

tro the next day. The toll of life was heavy in Lerida, where 50 children were among the 220 slain. The loyalists completed last Saturday the movement of their capital to Barcelona from Valencia, and the common front that now has been developed among the loyalist forces probably presages a stubborn defense against the insurgents.

The international aspects of the conflict also show little change, for the time being. The London Non-Intervention Committee, to which the entire problem of foreign interference was referred once again at Italian insistence, met several times. French officials talked vaguely over the last week-end of opening the border to assistance for the loyalists, if an agreement on the withdrawal of volunteers was long delayed. The British Government, undaunted by its stinging diplomatic defeat at the hands of Italy, made it known "unofficially" that last Tuesday would be the deadline for an agreement on non-intervention. When the committee met on Tuesday, however, it was merely decided that both sides in Spain would be requested to permit withdrawals of volunteers. By this means a new deadlock was postponed, the London correspondent of the New York "Times" remarked. Some concern was occasioned last Wednesday by rumors that the British Government was establishing diplomatic relations with the insurgent regime of General Franco, but Foreign Secretary Eden explained in the House of Commons, Thursday, that only commercial agents were being sent to insurgent Spain in order to protect British interests in the large area now under the control of the insurgents. The Cuban Government made an effort early in the week to enlist all the American republics in a mediation endeavor, but Washington declined with thanks on the ground that non-interference in the internal affairs of other countries is the established policy of the United States Government. A British merchant ship was sent to the bottom of the Mediterranean last Saturday by unidentified airplane marauders.

Diplomatic Developments

HERE were fresh indications this week of that alignment of the world Powers into dictatorial and democratic States which has been a commonplace of international affairs for several years. The diplomatic aggression of the fascist and other autocratic countries was evidenced by an announcement in Rome, Thursday, that a new and enlarged entente would be signed in that city today by representatives of Germany, Italy and Japan. Italy is the newest member of this entente, which ostensibly is directed against communism, but actually seems merely intended to cement under suitable banners and with suitable slogans the policies of countries that are willing to risk the chances of peace or war in order to make gains of doubtful value. The reluctance of the democracies to bring these matters down to a test of arms has encouraged the aggressive autocrats enormously, and each success made by Italy, Germany or Japan seems to lead only to fresh incursions on the rights and the independence of other peoples. The evidence this week again was to the effect that Italy having gained Ethiopia and its own way in Spain, and Japan having a virtually free hand in China, it is the turn of the German Reich to strike out boldly against weaker neighbors.

The German demand for colonies apparently is to be brought to a diplomatic show-down. Premier Mussolini espoused the German cause last week in a typical declaration to the effect that the Reich must be accorded a place in the "African sun." To this statement the British Cabinet made a bitter reply last Monday, in the form of a declaration by Foreign Secretary Anthony Eden, before the House of Commons, that Italy might well show the way in making concessions to Germany, since Italy herself benefited territorially from World War settlements. "I do not desire to say anything at this moment about this claim so far as it concerns Germany and ourselves," Captain Eden said, "but I must declare plainly that we do not admit the right of any government to call upon us for a contribution when there is no evidence to show that that government is prepared to make any contribution on its own account." The Italian Foreign Office struck back sharply at Great Britain on Tuesday, in statements to the effect that Italy merely obtained from Great Britain and France some sizable stretches of desert and not any part of the former German colonial domain.

With regard to its smaller European neighbors, the German Reich displayed an aggressiveness of the type that it has found useful in recent years. The Nazi party in Austria, which naturally is linked closely with the German parent group, took an increasingly aggressive attitude, with Vienna reports of last Monday reflecting the apprehensions felt by the authorities because of the obvious move to align Austria with the Reich. In the Free City of Danzig, where the Nazi party branch took over complete control last week, all the manifestations of German Nazi rule are appearing. Jews are being persecuted and their property confiscated, while opposition of any sort is sternly repressed. Berlin spokesmen stoutly maintained, however, that Danzig will remain a separate entity and will not fly the German flag. The German minority of Czechoslovakia was again encouraged to fight for freedom from Prague, and presumably for alignment with the Reich. The Deputies of the Sudeten German (Nazi) party walked out of the Parliament of Czechoslovakia late last week to emphasize their desires.

The democratic States of Europe for years have resorted to conferences whenever the aggression of the dictatorial regimes became too pressing, and they appear still to regard this as their best expedient. When the nations gathered at Brussels on Wednesday to discuss the flagrant Japanese violation of the Nine-Power Treaty, a second and less formal conference was started with respect to fascist diplomatic strokes. "The aim of this secret conference," a dispatch to the New York "Times" remarked, "is to discover just how closely the world's free democracies will stand together against the newly linked dictatorships and to what lengths they are prepared to go in resisting dictatorial aggression, now becoming bolder and more shameless." Belatedly, the conferees at Brussels were said to be coming around to the realization that a united front against dictators would go far toward keeping aggression within bounds. In the more ordinary course of diplomatic affairs, however, the democratic countries followed established traditions and conventions closely. At the request of Members of Parliament, Prime Minister Neville Cham-

berlain revealed on Wednesday the purport of the exchange of "love letters" with Premier Mussolini, last summer. All that these communications contained, apparently, were mutual assurances that friendly relations between Italy and England are desired. The Russian Government continues to steer a careful diplomatic course, but Moscow hinted strongly on Tuesday that economic reprisals against Japan might follow the inclusion of Italy in the German-Japanese pact against communism.

International Terrorism

ALTHOUGH the League of Nations is a moribund organization at the present time, occasional steps toward admirable aims still are taken at Geneva. The statistical compilations of the League and its extra-nationalistic expositions of economic information have brought that body far more respect in recent years than any of its excursions into political fields. Almost equally praiseworthy is a step toward simple international policing of terrorist gangs, now under consideration. An international conference to repress terrorism was started at Genevá on Monday, in furtherance of aims expressed by the League Council three years ago. Incensed and alarmed over the assassination at Marseilles of the Yugoslavian King, Alexander, by terrorists who allegedly plotted the murder in Hungary, the Council in 1934 called for an international agreement that would act to prevent incidents of this nature. After extensive consultations with almost all governments, the League drafted two conventions which were placed last Monday before the Conference for the Suppression of Terrorism. The first convention aims at the prevention and punishment of terroristic acts directed against heads of States, the manufacture of infernal machines with such aims, endangering of lives and damage to public property. The second convention provides machinery for the establishment of a world criminal court at The Hague, whereunder any signatory could apply for redress and punishment of citizens of other signatories. Adherence to the latter convention would not be mandatory, even for States that accepted the first convention. When discussion of these proposals was started, Monday, some delicate points were raised by the British delegate, who suggested that the fundamental question of freedom of speech might be involved in the proposed convention against terrorism.

Coffee Valorization Ends

BRAZILIAN authorities announced last Wednesday the termination of the long-continued efforts to keep the price of coffee in world markets above the level indicated by ordinary competitive standards. With this announcement another of the great efforts to control the price and production of agricultural products by governmental decree went into limbo. Such efforts are highly dubious where a commodity is confined to a single producing country. They are foredoomed to failure where, as in the case of coffee, production is widespread and impossible of control by a single government. As all the world is aware, the restrictions on coffee exports by Brazil and the burning of enormous quantities at the expense of Brazilian taxpayers in general merely resulted in a stimulation of coffee production elsewhere that was bound to affect Brazil adversely

in the long run. In belated recognition of this simple fact, the Brazilian Government announced on Wednesday that the price-control program would be abandoned and open competition once again restored. The immediate effect was, of course, a sharp break in coffee prices on world markets. Unfortunate as this may be from the viewpoint of the Brazilian producers, the effect on Brazilian finances is sure to be beneficial, since the vast outlays for coffee burning presumably will cease. Some destruction will continue, it is indicated, but only minor grades hereafter will be burned. Dispatches from Rio de Janeiro indicate that the latest development occasioned some apprehensions, but more relief, as it long has been apparent that the coffee valorization scheme was destined to go the way of all such artificial measures.

Bank of England Statement

"HE statement of the Bank for the week ended Nov. 3 shows a gain of £2,761,000 in note circulation and as this was attended by a loss of $\pounds 32,705$ in gold holdings, reserves declined $\pounds 2,793,000$. There are now in circulation £485,908,000 notes in comparison with £447,111,863 a year ago. Public deposits fell off £1,890,000 and other deposits rose £1,793,859. The latter consists of bankers' accounts and other accounts which increased respectively £1,756,415 and £37,444. The reserve proportion dropped to 26.9% from 28.6% a week earlier; a year ago it was 40.40%. Loans on government securities increased £3,175,000 and those on other securities decreased £447,026. Of the latter amount, £288,567 was from discounts and advances and £158,459 from securities. No change was made in the 2% discount rate. Below we have tabulated the items with comparisons for previous years:

	Nov. 3,	Nov. 4,	Nov. 6,	Nov. 7,	Nov. 8,
	1937	1936	1935	1934	1933

BANK OF ENGLAND'S COMPARATIVE STATEMENT

Bank of France Statement

THE statement for the week of Oct. 28 showed an expansion of 1,236,000,000 francs in note circulation, the total of which is now 91,336,516,120 francs, compared with 87,197,627,560 francs the corresponding period a year ago. An increase was also shown in credit balances abroad of 3,000,000 francs and in French commercial bills discounted of 662,-000,000 francs. The Bank's gold holdings again showed no change, the total remaining at 55,805,-022,187 francs. Gold last year aggregated 64,358,-742,140 francs and the previous year 71,989,792,417 francs. Advances against securities declined 4,000,-000,000 francs and creditor current accounts of 544,000,000 francs, while bills bought abroad and temporary advances to State remained unchanged. The reserve ratio is now 51.36%; a year ago it was 64.09% and the year before 74.36%. Below we furnish the various items with comparisons for previous years:

BANK OF FRANCE'S COMPARATIVE STATEMENT

	Changes for Week	Oct. 28, 1937	Oct. 30, 1936	Nov. 1, 1935

Since the statement of June 29, 1937, gold valuation has been at rate of 43 mg. gold, 0.9 fine, per franc; previous to that time and subsequent to Sept. 26, 1936, gold valuation was 49 mg, per franc; prior to Sept. 26, 1936, there were 65.5 mg. of gold to the franc.

Bank of Germany Statement

"HE statement for the last quarter of October showed a slight increase in gold and bullion of 27,000 marks, which raised the total to 70,081,000 marks. A year ago gold aggregated 64,514,000 marks, and two years ago, 87,785,000 marks. A decrease was recorded in reserves in foreign currency of 219,000 marks, in silver and other coin of 87,416,000 marks, in investments of 17,000 marks and in other assets of 23,858,000 marks. Notes in circulation rose 563,000,000 marks, the total of which is now 5,275,000,000 marks, compared with 4,713,382,000 marks last year and 4,158,594,000 marks the year before. Increases were shown in bills of exchange and checks, in advances, in other daily maturing obligations and in other liabilities. The Bank's reserve ratio stands now at 1.3%, as against 1.49% a year ago and 2.24% two years ago. A comparison of the different items for three years is furnished below:

Foreign Money Rates

IN LONDON open market discount rates for short bills on Friday were 9-16% as against 9-16% on Friday of last week, and 9-16% for three months' bills as against 9-16% on Friday of last week. Money on call at London on Friday was 1/2%. At Paris the open market rate remains at $3\frac{3}{4}\%$ and in Switzerland at 1%.

New York Money Market

"HE New York money market was a quiet and stable affair this week. Funds remained available in huge amounts, but repayments of loans were effected just the same. There was no demand for accommodation, and commercial banks continued to purchase United States Treasury securities in the market in order to build up earnings assets. Commercial paper and bankers' bill rates were unchanged in these circumstances, for there would be no point in reducing rates even lower for the benefit of borrowers who are conspicuous by their absence. The week's issue of Treasury discount bills, sold late last week, consisted of \$50,-000,000 133-day obligations, which were awarded at 0.226% average, calculated on a bank discount basis. Call loans held to 1% and time loans were 11/4% for maturies to 90 days, while four to six months' datings remained at $1\frac{1}{2}$ %. The drop in brokers' loans occasioned by the stock market collapse is again indicated by the monthly tabulation of the New York Stock Exchange. For October these loans fell \$313,497,644 to a total of \$725,622,872.

Foreign Money Rates

DEALING in detail with call loan rates on the Stock Exchange from day to day, 1% was the ruling quotation all through the week for both new loans and renewals. The market for time money continues quiet, no transactions having been reported this week. Rates continued nominal at 1¼% up to 90 days and 1½% for four to six months' maturities. The market for prime commercial paper has been somewhat quieter this week. The demand has been lighter and the supply of paper smaller. Rates are quoted at 1% for all maturities.

Bankers' Acceptances

'HE market for prime bankers' acceptances has shown little or no change this week. Trading has been quiet and the supply of prime bills limited. There has been no change in the rates. The official quotation as issued by the Federal Reserve Bank of New York for bills up to and including 90 days are $\frac{1}{2}$ % bid and 7-16% asked; for bills running for four months, 9-16% bid and $\frac{1}{2}$ % asked; for five and sixmonths, $\frac{5}{8}\%$ bid and 9-16% asked. The bill-buying rate of the New York Reserve Bank is 1/2% for bills running from 1 to 90 days; 3/4% for 91- to 120-day bills, and 1% for 121- to 180-day bills. The Federal Reserve Bank's holdings of acceptances increased from \$2,830,000 to \$2,832,000. Open market dealers are quoting the same rates as those reported by the Federal Reserve Bank of New York. The rates for open market acceptances are as follows:

SPOT DELIVERY

Prime eligible bills	Bid %	Days- Asked ⁹ 16		Days Asked ⁹ 16		Days- Asked	
Prime eligible bills	Bid	Days Asked	Bid	Days Asked 716	Bid 3	Days- Asked	
FOR DELIV Eligible member banks Eligible non-member banks				Y DAYS		%% bid	

Discount Rates of the Federal Reserve Banks

THERE have been no changes this week in the rediscount rates of the Federal Reserve banks. The following is the schedule of rates now in effect for the various classes of paper at the different Reserve banks: Nov. 6. 1937

Federal Reserve Bank	teral Reserve Bank Rate in Effect on Nov. 5		Previous Rate	
Boston New York Philadelphia	1%	Sept. 2 1937 Aug. 27 1937	2 15	
Cleveland	1%	Sept. 4 1937 May 11 1935	2	
Richmond	1%	Aug. 27 1937 Aug. 21 1937	22	
Chicago	11/2	Aug. 21 1937 Sept. 2 1937	22	
Ainneapolis Kansas City	11/2	Aug. 24 1937 Sept. 3 1937	22	
Dallas	1%	Aug. 31 1937 Sept. 3 1937	2	

Course of Sterling Exchange

S^{INCE} Friday, Oct. 29, sterling has shown a firmer undertone than in a number of weeks. The range this week has been between \$4.96 and \$4.993/4 for bankers' sight bills, compared with a range of between \$4.94 15-16 and \$4.965/8 last week. The range for cable transfers has been between \$4.96 1-16 and \$4.997/8, compared with a range of between \$4.95 and \$4.96 11-16 a week ago.

The price, \$4.997%, is a new high for the year. It is hard to find a satisfactory explanation of the firmer undertone of sterling at this time. On commercial account sterling is seasonally under pressure throughout the autumn and winter until about the middle of January, when under normal international trade conditions familiar prior to the outbreak of the World War the trend turned against New York and in favor of London. As frequently pointed out, commercial transactions have played only a minor part in the action of foreign exchange rates since the suspension of gold payments b Great Britain in 1931, although in the past year the volume of world international trade has increased appreciably.

Fluctuations in the rates have been held within narrow limits since the organization of the British and American exchange equalization funds, particularly since the conclusion of the tripartite currency agreements a year ago. Perhaps among the most important factors favoring sterling at this time are the sharp curtailment in the gold movement to New York, the increase in the London gold price to parity, and above parity with the official American price of \$35 an ounce. The higher prices for gold in the London open market have not only caused a decline in the flow of metal to New York but have stimulated direct shipment of gold to London, where for the most part it is taken by hoarding interests and left on deposit with the London banking houses.

Since the outbreak of the Chinese-Japanese War Japan has shipped approximately \$200,000,000 to New York. More is believed to be en route to San Francisco, but it is understood that Japan is also sending gold directly to London. For the past few weeks Japan has been selling its New York gold and buying sterling, contributing to the present firmness in the pound.

Imports of gold received in New York in October amounted to \$39,598,700, the smallest amount for any month since July, 1936, when only \$8,799,100 came in. The October total compared with \$67,-237,300 received in September and with \$182,284,800 received in October, 1936.

When during the summer gold in London sold at the dollar equivalent of around \$34.75 an ounce, it was profitable for private owners of gold to ship their metal to New York and receive \$35 an ounce. In the past few weeks the dollar equivalent in London was frequently around \$34.90 and on several occasions future gold was taken in London at the equivalent of \$35 an ounce and on Friday, Nov. 5, the over the counter price advanced to \$35.10 an ounce.

Another factor probably bearing on the strength of sterling is the heavy transactions in American issues in London and Amsterdam not only for foreign account but also for American account. It is understood by London observers that the volume of transactions in American stocks in London for American account frequently exceeds the volume of transactions on the New York Stock Exchange. While ultimately these transactions must set up a demand for dollars, the immediate effect is to increase the demand for sterling and thus give a firmer tone to the pound.

The gold reserves of the Bank of England are down to 26.9% from 42% in January, 43% last year, and the average of approximately 45% for several years previously. The decline in the ratio is not regarded in London as unduly large and is not causing concern. Last August the ratio touched 16.6% which was the lowest since January, 1926.

The maintenance of the ratio at a much lower level than has been customary is owing to the fact that the Bank of England has not considered it necessary to increase its gold holdings to correspond with the rate of rise in circulation. One reason for this is the view that a good deal of the increased circulation is attributable to foreign hoarding of British notes, which will return sooner or later and may be regarded as temporary additional circulation. The Bank is the less concerned by the disparity in the ratio because at any time gold is available in the exchange fund to correct any alarming decline in the reserve.

It should also be recalled that the Bank of England carries its gold at the old statutory price of around 84s. 11d. per ounce, while if the gold now held were to be valued at the current price the Bank's gold cover for circulation would be well over 100%.

Oliver Stanley, President of the British Board of Trade, said in answer to questions in the House of Commons Nov. 2: "With the information at my disposal I do not believe in the imminence of a disastrous slump in business. General statistics do not reveal the immence of a slump and more detailed analyses of prospects of individual industries do not either. In most industries there is no sign of any real check or abatement of activity."

Should there be any relaxation in the international tension, Mr. Stanley stated, he believed that England could look for a further sharp expansion in export trade. He confirmed that conversations are now being held between the British and American Governments with a view to effecting a trade agreement, although at present discussions are only informal and exploratory.

Money rates in London continue unchanged from recent weeks. Two- and three-months' bills are 9-16%, four-months' bills 19-32%, and six-months' bills 23-32%. All the gold on offer in the London open market during the week is reported to have been taken for unknown destination, but London observers report that practically the entire amount was taken for account of hoarders. On Saturday last there was available £295,000, on Monday £315,000, on Tuesday £334,000, on Wednesday £421,000, on Thursday £461,000, and on Friday £569,000.

At the Port of New York the gold movement for the week ended Nov. 3, as reported by the Federal Reserve Bank of New York, was as follows:

GOLD MOVEMENT AT NEW YORK, OCT. 28-NOV. 3, INCLUSIVE Imports Exports \$2,829,000 from Canada

1,402,000 from India

\$4,231,000 Total

Net Change in Gold Earmarked for Foreign Account No change

Note—We have been notified that approximately \$8,182,000 of gold was received at San Francisco, of which \$6,662,000 came from Japan and \$1,520,000 from Australia.

The above figures are for the week ended on Wednesday. On Thursday there were no imports or exports of the metal or change in gold held earmarked for foreign account. On Friday there were no imports or exports of the metal, but gold held earmarked for foreign account decreased \$1,125,300. It was reported on Friday that \$6,861,300 of gold was received at San Francisco, of which \$6,628,000 came from Japan and \$233,300 from Australia.

Gold held in the inactive fund, as indicated in the daily Treasury statements issued during the week ended last Wednesday, was as follows. The day-today changes are our own calculations:

GOLD HELD IN THE TREASURY'S INACTIVE FUND

Date-	Amount	Daily Change
Oct. 28	\$1,269,883,423	+\$343,449
Oct. 29	1,270,062,806	+179,383
Oct. 30	1,271,394,721	+1,331,915
Nov. 1	1,271,598,559	+203,838
Nov. 2	1,272,126,636	+528,077
Nov. 3	1,272,211,778	+85,142
방법 방법은 승규는 것 같은 것이 없다. 것 같은 것 같아요.		

Increase for Week Ended Wednesday \$2,671,804

Canadian exchange during the week was steady. Montreal funds ranged between a premium of 1-64% and a premium of 1-16%.

PRICE PAID FOR GOLD BY THE UNITED STATES

	SERVE BANK)
Saturday, Oct. 30\$35.00	Wednesday, Nov. 3\$35.00
Monday, Nov. 1 35.00	Thursday, Nov. 4 35.00
Tuesday, Nov. 2 35.00	Friday, Nov. 5 35.00

Referring to day-to-day rates sterling exchange on Saturday last was firm in limited trading, but off from previous close. Bankers' sight was \$4.96@\$4.963%; cable transfers \$4.96 1-16@\$4.96 7-16. On Monday sterling was slightly firmer in limited trading. The range was \$4.961/8@\$4.961/4 for bankers' sight and \$4.96 3-16@\$4.96 5-16 for cable transfers. On Tuesday quotations were largely nominal, with New York closed because of Election Day and Paris closed in observance of All Saints' Day. On Wednesday sterling was firm. Bankers' sight was \$4.963/8@\$4.97; cable transfers \$4.96 7-16@\$4.97 1-16. On Thursday sterling continued firm in more active trading. Bankers' sight was \$4.971/2@\$4.98 3-16; cable transfers \$4.975%@\$4.981/4. On Friday exchange was The range was \$4.99 1-16@\$4.9934 very firm. for bankers' sight and \$4.991/8@\$4.997/8 for cable transfers. Closing quotations on Friday were \$4.9934 for demand and \$4.99 13-16 for cable transfers. Commercial sight bills finished at \$4.995%, 60-day bills at \$4.987/8, 90-day bills at \$4.98 9-16, documents for payment (60 days) at \$4.981/8, and seven-day grain bills at \$4.991/4 Cotton and grain for payment closed at \$4.995%.

None

Continental and Other Foreign Exchange

RENCH francs have been ruling steadier and slightly firmer. The better tone is due to the urmness of sterling with respect to the dollar as Paris aims to hold franc variations as nearly as possible in alignment with the pound. The market has been extremely limited, however, as the holidays incident to All Saints' Day lasted in France from the close of business on Friday last to the opening on Wednesday.

Official reports from Paris indicate a more satisfactory outlook for the franc and assert that lenders are more ready to offer funds in the market. The public disposition, it is asserted in Paris, is much changed and the franc rate is easily maintained.

The market has clear evidence, however, of activity of gold hoarders in the London market and of acquisition of British bank notes by French nationals.

On Friday of last week Finance Minister Bonnet addressing the congress of the Radical SocialistParty at Lille asserted that gold would soon be shipped from New York to Paris. No sum was specified. but it was assumed that probably the amount would be several million dollars.

The announcement created enthusiasm in the party congress but the the shipments, financiers in London, Paris and on this side declared, would be without much significance. It is supposed that the French stabilization fund recently earmarked gold in New York when dollars were rather heavily offered in the Paris exchange market under the influence of the break in Wall Street.

Such shipments, and it is assumed that they have already been made, will be the first movement of gold from this country in response to the operation of the tripartite currency agreement. The American authorities have previously chosen to bring to this country whatever gold has been acquired through official exchange operations, but it would seem that the foreign exchange controls have been content to hold on this side whatever metal they may have bought. A shipment of gold to France will not affect the gold position of the United States because metal is deducted from the American gold reserves as soon as it is placed under earmark.

It is believed that the sole reason for the actual physical shipment of gold from New York to Paris is to give tangible evidence to the French people that the gold drain on the Bank of France has been checked and that France is once again obtaining metal.

A feature of M. Bonnet's speech at Lille was an attack upon advocates of exchange control. He declared that had exchange control been in effect since July the country would have lost at least 3,000,000,-000 francs of gold owing to the adverse trade balance, whereas in fact it gained several billion francs. He pointed out that control would block the return of capital from abroad and that the bulk of exportable funds has already been exported. He asserted that control would kill the tripartite currency agreement, which is bound up with the entire policy of the French Government, and would not solve the budget problem nor have any effect on the unfavorable trade deficit.

No change has occurred in the situation of the German mark. It will be recalled that Dr. Hjalmar Schacht made a surprise announcement to foreign journalists on Oct. 25 of his resignation as Minister

of Economics. It was assumed at the time that Dr. Schacht would be obliged by the Reich Government to remain as President of the Reichsbank after the expiration of his term on March 18. Berlin dispatches on Wednesday, Nov. 3, stated that the Berlin Government had finally and definitely declined to accept Dr. Shacht's resignation as Minister of Economics. Financial observers in all centers are nevertheless strongly of the opinion that Dr. Schacht's influence on German policy has diminished to the vanishing point. He has constantly opposed the Reich policy of spending large sums for armaments and public works.

Belgas are again showing some degree of firmness. The range this week has been between 16.91 and 17.031/2, 16.95 being dollar parity. However, future belga quotations continue at rather severe discounts. Thirty-day belgas are generally at a discount of 5 points under spot and 90-day belgas at a 15-point discount. Despite the political dispute as to management policies of the National Bank of Belgium which has been in progress for the past four or five years, the banking position of the country is entirely satisfactory and business conditions are favorable. On Oct. 28 the National Bank of Belgium had a gold stock of 3,377,300,000 belgas and balances abroad of 1,256,000,000 belgas. The bank's ratio of gold to notes stood at 77.65% and its ratio of gold to total liabilities was 68.88%. It is understood that in recent weeks the bank has lost some gold to The Netherlands and that some transfers of foreign funds have been made from Antwerp to France and Switzerland.

The following table shows the relation of the leading European currencies to the United States dollar:

	New Dollar Parity	Old Dollar Parity a	Range This Week
b France (franc)		6.63	3.37 to 3.40%
Belgium (belga)	13.90	16.95	16.91 to 17.031/2
Italy (lira)		8.91	5.261% to 5.2714
Switzerland (franc)		32.67	23.10 to 23.23
Holland (guilder)	40.20	68.06	55.2816 to 55.30

a New dollar parity as before devaluation of the European currencies etween Sept. 23 and Oct. 3, 1936. b The franc cut from gold and allowed to "float" on June 30. betw

The London check rate on Paris closed on Friday at 147.15, against 147.25 on Friday of last week. In New York sight bills on the French center finished at 3.39%, against 3.36% on Friday of last week: cable transfers at 3.401/8, against 3.373/8. Antwerp belgas closed at 17.03 for bankers' sight bills and at 17.03 for cable transfers, against 16.903/4 and 16.903/4. Final quotations for Berlin marks were 40.311/2 for bankers' sight bills and 40.331/2 for cable transfers, in comparison with $40.17\frac{1}{2}$ and $40.17\frac{1}{2}$. Italian lire closed at 5.27 for bankers' sight bills and at $5.27\frac{1}{4}$ for cable transfers, against $5.26\frac{1}{4}$ and $5.26\frac{1}{4}$. Austrian schillings closed at 18.85, against 18.85; exchange on Czechoslovakia at 3.501/4, against $3.50\frac{1}{4}$; on Bucharest at 0.74, against 0.74; on Poland at 18.95, against 18.93; and on Finland at 2.22, against 2.20. Greek exchange closed at 0.913/4, against 0.91.

E XCHANGE on the countries neutral during the war is firm. This is due in part to the movement of these currencies in sympathy with sterling, but an independent firmness is likewise apparent arising from business improvement and an inflow of funds from other centers. Swedish business is especially prosperous. Uneasy Continental funds customarily seek Switzerland for security. The gold

reserves of the Bank of The Netherlands have reached the highest point in the history of the institution as Dutch capital continues to return from abroad. The bank's statement for Nov. 1 shows gold stock of 1,354,600,000 guilders. Present Dutch reserves are 138% higher than the gold holdings of the bank at the low point in November, 1936. The rapid flow of gold into Holland during the past year has been one of the outstanding events of the international financial world. A year ago the gold holdings of the bank stood at 684,800,000 guilders. It is believed possible that a further large amount of the metal is held by the 300,000,000-guilder equalization fund, some of which may be held in the United States reflecting recent Dutch sales of dollars. For some weeks there has been a strong demand for guilders in many quarters. Operations of the guilder equalization fund alone prevent the unit from rising above its present range of 55.27-55.30.

Bankers' sight on Amsterdam finished on Friday at 55.27, against 55.291/2 on Friday of last week; cable transfers at 55.27, against 55.291/2; and commercial sight bills at 55.21, against 55.23. Swiss francs closed at 23.22 for checks and at 23.22 for cable transfers, against 23.11 and 23.11. Copenhagen checks finished at 22.33 and cable transfers at 22.33 against 22.161/2 and 22.161/2. Checks on Sweden closed at 25.77 and cable transfers at 25.77, against 25.591/2 and 25.591/2; while checks on Norway finished at 25.12 and cable transfers at 25.12, against 24.941/2 and 24.941/2. Spanish pesetas are not quoted in New York.

 $\mathbf{E}^{\mathrm{XCHANGE}}$ on the South American countries presents no new features of importance. These currencies move in close relation to sterling-dollar fluctuations. The exchange position of the South American countries continues to improve steadily because of the expansion of the export trade.

Argentine paper pesos closed on Friday, official quotations, at 33.30 for bankers' sight bills, against 33.07 on Friday of last week; cable transfers at 33.30, against 33.07. The unofficial or free market close was 29.65@29.80, against 29.70@29.75. Brazilian milreis, official rates, were 8.92, against 8.86. The unofficial or free market in milreis as 5.55@5.65, against 5.55@5.65. Chilean exchange is nominally quoted at 5.19, against 5.19. Peru is nominal at 251/8, against 251/4.

EXCHANGE on the Far Eastern countries is to some extent disturbed by the Chinese-Japanese conflict, but for the most part these units move in sympathy with sterling. Figures recently released by the Department of Commerce in Washington show that there has been a considerable retardation of both import and export trade of China and Japan as a result of the war. Since March Japan has shipped approximately \$200,000,000 of gold to the United States. It is reported that at least \$50,000,000 more will be shipped. A large part of these shipments have been converted into sterling, especially in recent weeks and have contributed to the firmness in sterling. Japanese authorities assert that the yen will be kept at its present peg to sterling at the rate of 1s. 2d. per yen.

Closing quotations for yen checks yesterday were 29.12, against 28.93 on Friday of last week. Hongkong closed at 31.24@311/4, against 31.09@311/8;

Shanghai at 291/2@29 23-32, against 291/2@29 11-16; Manila at 503-16, against 503-16; Singapore at 583¼, against 58.30; Bombay at 37.74, against 37.49; and Calcutta at 37.74, against 37.49.

Gold Bullion in European Banks

HE following table indicates the amounts of gold bullion (converted into pounds sterling at par of exchange) in the principal European banks as of respective dates of most recent statements, reported to us by special cable yesterday (Friday); comparisons are shown for the corresponding dates in the previous four years:

Banks of-	1937	1936	1935	1934	1933
1. 1. 1. 1. 1. 1. 1. 1. 1. 1. 1. 1. 1. 1	£	£	£	£	£

The gold of the Bank of France was revalued on July 23, 1937, at 43 milligrams of gold, 0.9 fine, equal to one franc; this was the second charge in the gold's values within less than a year, the previous revaluation took place on Sept. 26, 1936, when the gold was given a value of 49 milligrams to the franc as compared with 65.5 mgs, previously. On the basis of 65.5 mgs., approximately 125 france equaled 43 mgs., there are about 190 francs to £1.

What Next for Organized Labor?

The breakdown of the conference at Washington last week between committees of the American Federation of Labor and the Committee for Industrial Organization came as no surprise either to the public or to the labor representatives. The communications which were exchanged between the two bodies while a conference was being arranged were couched in such violent language, and the charges and counter-charges which they set out were so explicit and uncompromising, that a good deal would have had to be taken back, or smoothed over, or forgotten on both sides before even a semblance of good feeling could be restored. No attempt, however, appears to have been made to temper any of these asperities, and the opening debate on whether the committee of ten, representing the Committee for Industrial Organization, should consent to confer with a committee of three, representing the Federation Council, was not a happy augury for the sessions. At bottom, of course, the success of the conference depended upon its ability to effect a working agreement in which two sharply opposed theories of labor organization could be reconciled, but it was politics rather than theory on which the conference quickly split.

On the second day of the sessions the Committee submitted to the Federation a three-point program embodying the terms on which it was prepared to make peace. The Committee proposed, first, that the Federation "shall declare as one of its basic policies that the organization of the workers in the mass-production, marine, public utilities, service and basic fabricating industries be effectuated only on an industrial basis." Second, the Federation was to create within its organization a department to be known as the Committee for Industrial Organization, with which all national, international and local unions now affiliated with the Committee were to be affiliated. This department, it was proposed, "shall be completely autonomous, operating under its own departmental constitution, and shall be directed by its own properly designated officers." It was also to have "complete and sole jurisdiction" in regard to the workers described in the first point of the program, and also in "any matters affecting its affiliated organizations and their members." Third, there should be called, by agreement between the Committee and the Federation, a national convention "attended by all of the national and international unions and local industrial unions" affiliated with either body, "for the purpose of approving the foregoing agreement and for working out the necessary rules and regulations to effectuate the same and to guarantee the fulfillment of the program."

del

It was clear at once that this program, if it were accepted, would put an end to the "united front" which the Federation has championed and exerted itself to maintain. The Federation would be divided into two branches, one of which would not only bear a separate name but would also, by specific agreement, be given complete autonomy over its union affiliates and their members and sole jurisdiction over controversies to which they became parties. It would also involve the withdrawal by the Federation from some of the labor fields, among them various service occupations and public utilities, now represented in its membership, and it apparently left unsettled the controversey over craft versus industrial unionism in industries in which both types of workers are represented.

The reply of the American Federation was a fourpoint proposal of diametrically opposite tenor. All the national or international unions with Federation charters that are now members of the Committee for Industrial Organization were to return to the Federation, with the enjoyment of "all rights and privileges" which they had before the Committee was organized. The inclusion of other organizations affiliated with the Committee was to be effected through conferences representing the two bodies. "Organization and administrative policies not mutually agreed to" were to be referred "for final decision" to the next convention of the Federation, and "in the meantime an aggressive organizing campaign" was to be "continued and carried forward among the unorganized workers along both industrial and craft lines as conditions and circumstances may warrant." These proposals, it was declared, contemplated "the establishment of one united solidified labor movement in America and the termination of division and discord now existing within the ranks of labor." The Committee for Industrial Organization, accordingly, "shall be immediately dissolved."

The counter-proposal was promptly rejected by the Committee representatives. It "suggests abject surrender," their chairman declared. It would compel "millions of organized workers" to give up "membership in any kind of union" and create "the kind of situation that would render it impossible for any legitimate labor organization ever to reorganize them." It is "merely a reaffirmation of the Federation's former policy" and "certainly does not contemplate the organization of the unorganized into strong unions." It indicates that the Federation is "still determined to prevent" the organization of mass-production and other basic industries on industrial lines, "even though it may prevent the organization of the millions of unorganized workers in such industries." The Federation members, in reply, insisted that the proposal "affords a reasonable possibility of healing the breach in the organized labor movement" and that it "embraces a procedure for the adjustment of all points in dispute."

If such hopelessly divergent demands are to be insisted upon, the united labor front which the Federation desires will be only an idle dream. The only hope of unity lies in a reciprocal and substantial abatement of demands. There can be no unity, for example, if the Lewis Committee insists upon complete autonomy within the Federation. Not only would the Federation be split into two rival and probably hostile camps, but an unseemly struggle would be precipitated for control of the annual convention, where voting is on the basis of membership. Unity will be impossible, again, if the Committee for Industrial Organization continues to "raid" the industries in which unions have been organized by the Federation, and asserts jurisdiction over craft workers and mass production workers alike. The Federation, in turn, will have to show some real interest in organizing the mass production industries if it is to win the confidence of the Committee, and not content itself with voting a formal expression of interest which is not effectively followed up. The questions of jurisdiction which bulk so large in labor union politics do not seem, to an outsider, incapable of solution if the will to deal amicably and fairly with them exists.

It is possible that the conference, which resumed its sessions at Washington on Thursday, may find a way out of its dilemma. The outlook at the moment, however, is for a continuance of union warfare and an intensification of the "aggressive labor movements" which Dr. Harold G. Moulton, President of the Brookings Institution, in an address at Chicago on Oct. 25 before the annual convention of the Institute of American Meat Packers, declared to be "the primary cause of the current business recession." It is matter of common knowledge that, for these disturbances, the Committee for Industrial Organization bears far the larger share of responsibility. No more than ordinary intelligence is needed to show that if the demand for shorter hours and higher wages, irrespective of the efficiency of the worker or the state of demand for the product, is to go on as it has been and still is going on, if strike after strike is to be precipitated by union leaders responsible at the most only to their followers and in practice only remotely responsible even to them, and if agreements made are to be broken at the caprice of leaders or of radical elements of the rank and file, the industrial system, and law and order as well, will before long break down.

Fortunately, it is not yet clear that Mr. Lewis can reinforce his labor organization by aligning it with a national labor party movement. The municipal election in New York City, on Tuesday, was obviously a great victory for the American Labor Party and its Communist allies, and while that party is not directly the creation of Mr. Lewis, it has had his support and in turn has supported him. The American Federation, however, still holds aloof from party affiliations, and unless some compromise is reached at Washington it cannot be counted upon to support any labor party movement with which Mr. Lewis is identified. In the municipal election in Detroit, on the other hand, the attempt of the Committee for Industrial Organization to capture the city government was overwhelmingly defeated, an equally crushing defeat was suffered in Canton, Ohio, and a labor candidate for Mayor was defeated in Jackson, Mich. Each of these cities, it will be remembered, has seen the Committee in action during the past year, and has evidently decided that what it has seen is enough. There is intense opposition to the Committee in industrial centers in the South, and if the Western farmers intend to merge their interests with those of a labor party there are as yet no important indications of it.

There is much reason to expect, however, not only that attacks of the Lewis Committee upon industry and business as well as upon the craft unions of the American Federation will continue, but that strenuous efforts will also be made to develop the American Labor Party in preparation for the Congressional elections of 1938 and the elections of 1940. There is little that is cheering in the outlook for business or industry if the aggressive campaign for labor domination through the Lewis organization is to go on unchecked. It should not be necessary for the country to learn through hard experience that labor demands which reduce consumption and cut profits to a point where capital investment is discouraged, and a labor agitation which relies upon strikes and open lawlessness to attain its ends, are incompatible with any reasonable prosperity or economic security, but the lesson will have to be learned in that way if means are not devised to teach it in some other.

Boondoggling or Bulldozing?

President Roosevelt displayed rather less than his customary urbanity when he complained that the daily press had quite generally treated the designation of his oldest son, James Roosevelt, as "Coordinator," with functions involving the independent commissions and bureaus of the Federal Government, as "first page" news. His counter suggestion was that the relative unimportance of the designation should have relegated the item to the comparative obscurity of an inside page. Upon that question there may be divergent views. It is possible that the appointment of a "Coordinator" on this occasion is an event of unusual importance.

It is true that the title of "Coordinator," under the present Administration at Washington, has acquired something less than definiteness of meaning and its implications have become so uncertain and equivocal as to connote the bare minimum of The chaos of administration possible intention. under the New Deal, with its innumerable conflicts of ambition and authority, of purpose and policy, has had countless coordinators, but all of them have failed, and there has been in fact no real coordination. In the present instance there is little to supplement the name adopted other than the high and confidential position held by the President's son, and the fact that he has been directed to allocate two days in each week to the problems arising out of this enlargement of the sphere of Presidential prerogative. Within these two days it will be the peculiar duty of the Coordinator to convey Presidential commands, or recommendations, or views, to whatever

extent it is considered warrantable to issue them, to the Interstate Commerce Commission, the Federal Trade Commission, the Water Power Commission, the Communications Commission and, in short, to all the administrative and quasi-judicial agencies which hitherto have been supposed to apply the law without concern for persons or interests, with cold and judicial impartiality.

If and when such a body is created, the same relationship and supervision would undoubtedly extend to the exceedingly powerful board or commission which the President is attempting to have established to fix wages and hours of labor throughout the several States. Reciprocally, it is understood that these heretofore independent and uncontrolled bodies will be permitted, through their chairmen or other duly accredited representatives, to explain to the Chief Executive through the medium of the Coordinator their several attitudes upon controverted and pending questions as well as their aspirations for the future. One cannot doubt that, when the system shall be fully established (perhaps not until after some of the stronger and abler men now included in the membership of these boards and trained to value their integrity have passed from the scene), such representations would be made with becoming modesty and complete deference.

Probably one of the future tasks of coordination will relate itself to expense-creating agencies on the one hand, and revenue-controlling agencies upon the That such coordination, or harmony of other. method and purpose, has been woefully lacking throughout the whole history of regulation by law and by custom or public opinion is entirely beyond successful contradiction. For five decades, since the enactment of the Cullom law, the railroads of the United States have been ground between the millstones of public regulation-on the one side gross receipts fixed and limited by rate-making commissions, on the other, wages and hours of labor controlled and forced by combinations of public sentiment and emotional favor for the visible wageearner on the corporation payroll as against the invisible wage-earners, and others, who constitute the corporation. The consequences have had expression in the fact that, considering as a whole the railroad system of the United States or that of any great section of the United States, the railroads have not, throughout the whole period, prospered to the extent that public interest requires, or even held their own. In the most prosperous times they have, at the best, barely earned the minimum fair return essential to economic stability and the general welfare, of which the Constitution says that they shall not be deprived. In less active times they have invariably suffered great losses. Presidents before Franklin D. Roosevelt have jumped to the crude and illusory conclusion that all that was necessary to avoid this evil was to establish unity in regulation, either by consolidating effectively the two branches of control or by compelling their harmonious coordination. No statesman and no qualified student of government can accept that superficial view. Temporarily it might work. Momentarily it might relieve a condition in which convergence of the opposed pincers had produced bankruptcy for many and the imminent threat of bankruptcy for all. Nevertheless, to create a combination with nominal capacity to augment expenses for labor indefinitely

and at will, and to collect the bill from the transportation-purchasing public, would be no solution at all, not even from the selfish standpoint of the railroad employees who could be lured to lend interested support to the measure. There would be few revolutions of the vicious circle attempted before the failure of effective demand for services and the diversion of patronage would leave all parties in much worse condition than they were in before the attempt was made. This, however, is merely one illustration of a dangerous direction that executive interference might be constrained to take by partisan pressure and wishful and superficial thinking.

In truth, the concept of executive coordination in this field could be entertained only by one hopelessly blind to the true reasons for the existence of the quasi-judicial commissions and for the creation of agencies to exercise legislative powers by delegation and to execute the legislative purpose as disclosed by limiting standards duly prescribed in the grants of power. That the full legislative power cannot be delegated has become axiomatic in American jurisprudence. Broad matters of policy involve the highest quality of legislative discretion and must be determined, in national affairs, by the Congress, but the legislature may prescribe the general rule of policy and empower a subordinate administrative agency to apply that rule to the facts of particular cases, making, for such purposes, its own inquiries and determinations as to the facts. But each administrative agency exercising such powers must act, and can only act, upon notice to the parties in interest, upon a record in the making of which all parties are afforded opportunity to participate. If its action is arbitrary or lacking in good faith, its acts are void and may be set aside by judicial process. Moreover, every party in interest must be allowed to have his "day in court" regarding any claim that he may make of violation of any statutory or constitutional right, or of action not in fact authorized by the grant of authority or, to paraphrase the language of Chief Justice White, so arbitrary or lacking in good faith as to be obviously beyond and spirit if not the language of the grant. All these restrictions plainly exclude such administrative tribunals from any conception which could make them the agents of executive or partisan policy. They can know no policy except the legislative will; between them and the Congress there can be no intermediary; until admonished by the regularly constituted courts they must interpret the legislative purpose as disclosed by the legislation which it is their function to apply for themselves; they must act without fear or favor and always impartially as between all parties to the issue with which they have to deal. Upon this foundation of principle the entire structure of administrative law has been developed, and when that foundation fails the whole edifice must inevitably fall.

It may be that the President has not overlooked these conditions and does not intend to ignore them. If that is the case, it must be concluded that the creation of a Coordinator in this field is without real significance and that the functions to be attempted are so limited that the designation is little more than a gesture, or perhaps an effort to find occupation for an active mind and an ambitious and deserving youth. Upon that hypothesis the otherwise sig-

nificant departure from approved precedent is mere boondoggling.

Nov. 6, 1937

The alternative supposition is not less than sinister. It is not to be forgotten that, when Governor of New York, Mr. Roosevelt, in a manner never clearly disclosed to the public, brought about the retirement of a Chairman of the Public Service Commission of the State whose record was wholly creditable, and in appointing his successor explicitly declared that he did not intend that the Commission should function impartially between the public utilities and the public, but that it was his purpose to have it become the advocate of the users of the services supplied by those utilities. If such is the Presidential purpose at this time, the consequences may be grave and far-reaching. The purpose will, in the end, have to be abandoned or the administrative method of obtaining justice between the vendors and the vendees of quasi-public services will be destroyed.

If, in the present instance, the President has fallen into such an error, it is only another illustration of the superficial and hasty action to which he is frequently impelled by his implacable determination to override every obstacle which may intervene between the purpose which he has immediately in mind and its complete realization. He is lacking neither in patriotism nor in good and upright intentions, but he is apparently incapable of perceiving any sound reason for the existince of any impediment to the prompt and full attainment of whatever objective he may adopt, no matter how sudden such adoption may be. He may never have read the Commentaries of Sir William Blackstone, or, if he has, he may have forgotten the great saying of that oracle of jurisprudence that it is always dangerous to repeal a law without ascertaining the reason for its original adoption because, after such ill-considered repeal, unforeseen difficulties are likely to disclose the sound reason which supported the repudiated statute.

The Outlook for Japan and the Pacific

Whatever the outcome of the conference at Brussels-and reports at this writing do not forecast any very important action-there is no reason to expect that the advance of Japan in the Far East will or can be permanently halted. Even a failure of the operations at Shanghai or a check to the advance from the north would leave virtually untouched the influences which urge Japan forward. After all has been charged that can be charged to a desire for the glory that may come from a conquest at arms, there still remain forces to which Japan seems destined to respond. The natural desire of an island empire for territory on the mainland, pressure of population upon a deficient food supply, expanding industries needing markets for their products, a dearth of important raw materials, jealousy of Russia as an Asiat.c Power, a belief in the superiority of the Japanese nation in comparison with its Chinese neighbon, and resentment at the financial and business influence in the Far East which Europe and the United States have long wielded-all these things will continue to operate, as they have operated in the past and are operating now, to urge Japan along the path of territorial, economic and political expansion in the directions in which expansion is most naturally and easily to be accomplished. In such a movement war, however unavoidable, becomes an incident, and neither a temporary check, nor a patched-up peace in which China nominally acquiesced, nor a peace enforced by outside pressure would dispose of the inner forces that unite to drive Japan ahead.

Unless China develops powers of resistance and a capacity for internal economic and political stability and progress much greater than it has hitherto shown, the world must look forward to a time. perhaps not far distant, when Japan will be indisputably the dominant Power in the Far East. Neither a wholesale conquest of China nor a successful war with Russia is indispensable to that end. The firm establishment of Japanese authority in Manchukuo, the definitive occupation of northern China as far as the Yellow River, and control of the Chinese seaports would be sufficient not only for political domination but also for the economic penetration which Japan desires. If Japan can control access to the Pacific, it can control the economic life of the vast interior of China. The situation with regard to Russia is equally obvious. It would not be necessary to curb Russia by depriving it of the port of Vladivostok or some port that may be developed farther to the north if the only other access to the Pacific that Russia could have was through Chinese or Manchukuoan territory which Japan controlled.

It is along these general lines that Japanese expansion appears to be moving. The recognition of the trend goes far to explain the attitude of Great Britain in the present Sino-Japanese conflict. The primary interest of Great Britain in the Far East, and in the purpose of Japan to become the dominant Power in that part of the world, is economic, not political. Something of political prestige is, of course, involved in the maintenance of territorial and other rights which for many years have been enjoyed, and a determined effort would doubtless be made to hold Hongkong. The main interest, however, is financial and commercial. The investment of British capital in China is immense, and the volume of British trade with China and Japan is large and important. The interest of the United States, while less than that of Great Britain in the matter of capital investment, is greater commercially, for both China and Japan find in the United States their best customer.

The prospect of a Japanese hegemony in'the Far East, accordingly, raises the question how long the financial opportunities and commercial advantages which other countries, particularly the United States and Great Britain, have long enjoyed in that part of the world are likely to continue. The desire for economic self-sufficiency which dominates the economic policies of Italy and Germany and is spreading rapidly elsewhere in Europe is strong in Japan, and to the extent that teh aim was realized through the occupation of Chinese territory and the development of Chinese natural resources and industrial production, the volume of imports from Europe and the United States, and in varying degree from other countries as well, should be expected to decline. Already, in China, the policy of the "open door" has ceased to be of practical importance, and Japan has shown no disposition to accept the policy for itself.

The task of the Brussels conference, viewed from this angle, becomes both delicate and complicated, and the difficulties are not lessened by the fact that politics as well as economics are involved. It is easy to understand why Great Britain, which in its foreign policy is accustomed to take a long look ahead, should be strongly averse to doing anything that would irritate Japan or hasten the time when British capital may have to withdraw from the Far East and British trade suffer a serious decline. If it is the inevitable that has to be faced, it is better that the inevitable shall come gradually and time be used to prepare for it. The statement of Foreign Secretary Eden to the effect that Great Britain is ready to go as far as the United States will go at Brussels was doubtless intended in part to make clear where the responsibility for calling the conference lies, but since there is no indication, at least in Ambassador Davis's opening speech, that the United States is prepared to do more than urge the desirability of peace, Mr. Eden's assurance can hardly be called precise. There is a further impediment to considered action in the criticisms which have been voiced, especialy in Great Britain and this country, of Japan's ruthlessness in warfare, the sporadic attempts to boycott Japanese goods or prevent the sailing of vessels destined for Japan, and the desire of Chinese partisans to have Japan formally branded as an aggressor. Even the League of Nations, swayed as it was by the appeal of the Chinese delegation, refrained from pronouncing upon the issue of aggression, and the injection of that issue into the deliberations at Brussels would probably divide the conference again as the effort to array democracies against dictatorships is reported to have divided it already.

Japanese ambition, it is also to be remembered, goes farther than the establishment of Japanese supremacy over China and resistance to any political designs in the Far East that Russia may have. It contemplates also the attainment of an unassailable position throughout the Pacific. It has already gone a long way in that direction. Only a combination of naval forces such as, in the present state of Europe, is not a practical undertaking could successfully challenge the Japanese navy. The British possession of Hongkong could not be maintained against a massed Japanese naval attack, and the Singapore naval base, intended to insure beyond cavil the safety of British possessions in the Far East, has become isolated. Some American naval authorities are reported as believing that an American defense of the Philippines would be impracticable, and if that is the case the independence which has been promised to the islands will be held only upon Japanese sufferance. The denials by Japan of aggressive intentions must be given all the credence that such denials deserve, but few observers doubt that the natural result of Japanese expansion will

be to make the Japanese "Monroe Doctrine" for the Far East an accomplished fact as far as European or American interference is concerned.

It would be a great mistake to assume that Japan's ambitions are without at least tacit approval among other Powers. The action of the Italian delegate at Brussels, on Thursday, in opposing joint moral pressure upon Japan and urging that Japan and China be invited to settle their differences between themselves is entirely in line with Japan's opposition to outside intervention. The treaty of alliance between Germany and Japan, to which Italy was expected to adhere today, provides in terms only

for joint resistance to Communism, but there is no indication that the alliance is endangered by Japan's course in China; on the contrary, it seems to be working very well in view of the reported willingness of Japan to accept Chancellor Hitler as a mediator. The European countries whose commercial relations with the Far East are relatively minor have shown no disposition to entangle themselves in the Sino-Japanese controversy. Unless Great Britain and the United States agree to cooperate in something more than moral suasion, the United States will find itself isolated at Brus-(Continued on page 2918)

The New Capital Flotations in the United States During the Month of October and for the Ten Months Since the First of January

The record of new financing in this country during the month of October shows a grand total of \$195,818,620, comprising \$27,619,620 of State and municipal issues, \$129,-099,000 of corporate securities and two Farm Loan emissions amounting to \$34,300,000. The month's grand total compares with \$223,502,510 for September; with \$183,827,304 for August; with \$343,577,370 for July; with \$559,649,812 for June; with \$261,441,234 for May and with \$317,092,098 for April. In March the grand total was \$382,057,701; in February it was \$521,550,323, and in January it was \$617,-121,520. Refunding operations for the month of October comprised \$106,998,920 out of the grand total of \$195,818,-620, leaving the strictly new capital raised during the month at \$88,819,700.

United States Government issues appeared in the usual order during the month of October. The month's financing comprised four single Treasury bill issues sold on a discount basis.

Because of the importance of United States Treasury issues we furnish below a summary of the new securities sold during the first 10 months of the current year and give particulars of the different issues.

New Treasury Financing During the Month of October, 1937

Secretary of the Treasury Morgenthau on Sept. 30 announced a new offering of \$50,000,000 or thereabouts of 273-day Treasury bills. The bills were dated Oct. 6 and will mature July 6, 1938. Subscriptions to the offering totaled \$183,266,000, of which \$50,090,000 was accepted. The average price for the bills was 99.669, the average rate on a bank discount basis being 0.436%. Issued to replace maturing bills.

Mr. Morgenthau on Oct. 7 announced a new offering of \$50,000,000 or thereabouts of 273-day Treasury bills. The bills were dated Oct. 13 and will mature July 13, 1938. Subscriptions to the offering totaled \$134,079,000, of which \$50,103,000 was accepted. The average price for the bills was 99.675%, the average rate on a bank discount basis being 0.429%. Issued to replace maturing bills.

On Oct. 14 Mr. Morgenthau announced another offering of \$50,000,000 or thereabouts of 273-day Treasury bills. The bills were dated Oct. 20 and will mature July 20, 1938. Tenders to the offering totaled \$163,285,000, of which \$50,-025,000 was accepted. The average price for the bills was 99.725, the average rate on a bank discount basis being 0.362%. Issued to replace maturing bills.

Secretary of the Treasury Morgenthau on Oct. 21 an-nounced a further offering of \$50,000,000 or thereabouts of 140-day Treasury bills. The bills were dated Oct. 27 and will mature March 16, 1938. Subscriptions to the offering totaled \$142,108,000 of which \$50,005,000 percent. totaled \$143,108,000, of which \$50,065,000 was accepted. The average price for the bills was 99.899, the average rate on a bank discount basis being 0.261%. Issued to replace maturing bills.

In the following we show in tabular form the Treasury financing done during the first ten months of 1937. The results show that the Government disposed of \$5,416,303,000, of which \$3,711,611,700 went to take up existing issues and \$1,704,691,300 represented an addition to the public debt. For October by itself, the disposals aggregated \$200,283,000, all of which constituted refunding.

Features of October Corporate Financing

Making further reference to the new corporate offerings announced during October, we note that public utility issues accounted for \$81,864,000, which compares with but \$11,-500,000 for that group in September. Industrial and miscellaneous issues totaled \$25,929,000 in October, as against \$139,242,692 in September, while railroad financing in October amounted to \$21,306,000 as compared to only \$1,300,000 recorded for September.

The total corporate securities of all kinds put out during October was, as already stated, \$129,099,000, of which \$108,400,000 comprised long-term issues and \$20,699,000 represented stock flotations. The portion of the month's corporate flotations devoted to refunding operations was The portion of the month's \$69,652,500, or more than 53% of the total. In September the refunding portion was \$39,385,636, or more than 25%of the total. In August the refunding portion was \$56,-136,146, or more than 53% of the total. In July the refunding portion was \$56,780,528, or more than 40% of the total. In June the refunding portion was \$149,341,150, or more than 35% of the total. In May the refunding por-

tion was \$87,210,363, or more than 52% of the total; in April it was \$86,535,499, or more than 53% of the total; in March it was \$181,055,483, or more than 56% of the total; in February it was \$224,520,551, or more than 63% of the total. In January the refunding portion was \$203,516,962, or nearly 69% of the total. In October a year ago the amount for refunding was \$271,516,500, or more than 71%of that month's total.

Refunding issues worthy of mention sold during October of 1937 were as follows: \$48,364,000 Central New York Power Corp. gen. mtge. 334s, Oct. 1, 1962, of which \$36,-364,500 was used for refunding, and \$18,000,000 Idaho Power Co. 1st mtge. 334s, Oct. 1, 1967, of which \$13,650,000 comprised refunding.

The largest corporate offering during October was \$48,-364,000 Central New York Power Corp. gen. mtge. 33/4s, Oct. 1, 1962, priced at 99, to yield about 3.82%. Other issues of importance were: 200,000 shares of the Continental Can Co., Inc., \$4.50 cum. pref. stock, priced at 100; \$18,-000,000 Idaho Power Co. 1st mtge. 334s, Oct. 1, 1967, floated at 981/2, to yield about 3.80%, and \$13,000,000 North Boston Lighting Properties secured notes, 31/2% series, Oct. 1, 1947, issued at par.

Included in the financing done during the month of October was an offering of \$33,000,000 Federal Intermediate Credit banks 11/2% debentures, dated Oct. 15, and due in four and nine months, offered at a premium over par value. There was also an issue of \$1,300,000 Virginia Joint Stock Land Bank of Charleston, W. Va., 3% Farm Loan bonds, due Nov. 1, 1942, offered at par.

There were no new conspicuous corporate offerings made in October carrying warrants, or a convertible feature of one kind or another.

In the following we furnish a complete summary of the new financing—corporate, State and city, foreign govern-ment, as well as Farm Loan issues—brought out in the United States during October and the ten months ended with October:

In the tables on the two succeeding pages we compare the foregoing figures for 1937 with the corresponding figures for the four years preceding, thus affording a five-year comparison. We also furnish a detailed analysis for the five years of the corporate offerings, showing separately the amounts for all the different classes of corporations.

Following the full-page tables, we give complete details of the new flotations during October, including every issue of any kind brought out in that month.

DETAILS OF NEW CAPITAL FLOTATIONSIDURING OCTOBER, 1937

LONG-TERM BONDS AND NOTES (ISSUES MATURING LATER THAN FIVE YEARS) RAILROADS

- KAILKOADS
 \$3,650,000 Chicago Burlington & Quincy RR. equlp. trust 2½s, Oct. 1, 1938-47. New equipment. Priced to yield from 0.85% to 2.70%. Offered by Salomon Bros. & Hutzler; Dick & Merle-Smith and Stroud & Co., Inc.
 16,381,000 New York Chicago & St. Louis RR. Co. 1st M. 3½s, Oct. 1, 1947. Refunding. Offered to holders of company's 1st M. 4s, maturing Oct. 1, 1947. Unexchanged portion amounting to approximately \$5,200,000 was offered publicly at 99½ in October by selling group headed by Edward B. Smith & Co.
- 1,275,000 The Texas & Pacific Ry. equip. trust 2%s, Nov. 1, 1938-52. New equipment. Priced to yield from 0.85% to 3.00%. Offered by F. S. Moseley & Co.; Kean, Taylor & Co. and R. W. Pressprich & Co.

PUBLIC UTILITIES

- \$2,500,000 Central Hudson Gas & Electric Corp. 1st & ref. M. 31/s, 1967. Refunding and new construction. Price 102; to yield about 3.40%. Placed privately with Metropolitan Life In-surance Co. and Penn Mutual Life Insurance Co.
- about 3.40%. Placed privately with Metropolitan Life Insurance Co. and Penn Mutual Life Insurance Co.
 43,364,000 Central New York Power Corp. gen. M. 3¼s, Oct. 1, 1962. Refunding, new construction, extensions and improvements. Price, 99; to yield about 3.82%. Offered by Morgan Stanley & Co., Inc.; Mellon Securities Corp.; Brown Harriman & Co., Inc.; Mellon Securities Corp.; Brown Harriman & Co., Inc.; Cheward B. Smith & Co.; The First Boston Corp. and Lehman Brothers. Other underwriters were: Blyth & Co., Inc.; Ciffin & Burr, Inc.; Kidder, Peabody & Co.; Lazard Freres & Co., Inc.; Lee Higginson Corp.; E. H. Rollins & Sons, Inc., and Kuhn, Loeb & Co.
 18,000,000 Idaho Power Co. 1st M. 33¼s, Oct. 1, 1967. Refunding, reimburse parent company for advances used in constructing generating station and provide funds for other corporate purposes. Price, 98½; to yield about 3.80%. Offered by The First Boston Corp.; Coffin & Burr, Inc.; Harris, Hall & Co. (Inc.); Bonbright & Co., Inc.; Brown Harriman & Co., Inc.; Edward B. Smith & Co.; Halsey, Stuart & Co., Inc.; and J. & W. Seligman & Co. Other underwrites were: Blyth & Co., Inc.; Goldman, Sachs & Co.; Lee Higginson Corp.; Lehman Brothers; E. H. Rollins & Sons, Inc.; Midder, Peabody & Co.; M. C. Langley & Co.; Lazard Freres & Co., Inc.; Faward B. Smith & Co.; Thee Higginson Corp.; Lehman Brothers; E. H. Rollins & Sons, Inc.; Wite, Weld & Co.; Jackson & Curtis; Kidder, Peabody & Co.; W. C. Langley & Co.; Lazard Freres & Co., Inc.; F. S. Moseley & Co.; Stone & Webster and Blodget, Inc.; Hale, Waters & Co., Inc., and Mellon Securities Corp.
 13,000,000 North Boston Lighting Properties secured notes, 34%
- Mellon Securities Corp. 13,000,000 North Boston Lighting Properties secured notes. 3147 series, Oct. 1, 1947. Repay bank loans and finance additions and improvements to properties. Price. 100; to yield 3.50%. Offered by The First Boston Corp.; Lehman Brothers; F. S. Miseley & Co.; Lee Higginson Corp.; Harris, Hall & Co. (Inc.); Bodell & Co.; Halsey, Stuart & Co., Inc.; Chas. D. Barney & Co., and White, Weld & Co.

\$81,864,000

- OIL \$1,000,000 Kansas Pipe Line & Gas Co. 1st M. 5s, series A, 1952. Repayment of debt, new construction and working capital. Price on application. Offered by Harold E. Wood & Co., St. Paul, Minn.
 - LAND, BUILDINGS, &c. \$120,000 Concordia College Corp. (Moorhead, Minn.) 1st M. 4s and 4½s, July 1, 1938-47. Real estate mortgage. Price, 100; to yield from 4.00% to 4.50%. Offered by B. C. Zieglet & Co., West Bend, Wis.
 - a Co., west Bend, Wis.
 900,000 De Paul Hospital (St. Louis, Mo.) 1st & ref. M. 3s and 4s, Feb. 1, 1938-Nov. 1, 1947. Real estate mortgage. Price on application. Offered by Dempsey-Tegeler & Co., St. Louis, Mo.
 - 60.000 Evenezer Lutheran Church (Columbia, S. C.) 1st M. 4½s and 5s, Oct. 1, 1938-52. Refunding. Price, 100; to yield 4.50% to 5.00%. Offered by Eckhardt-Petersen & Co., Inc., St. Louis, Mo.
 - 150.10005, MO. 150,000 Immaculate Heart of the Blessed Virgin Mary Parish (Cleveland, Ohio) 1st M. 4s and 4½s, Oct. 1, 1938-49. Refunding. Price, 101-100; to yield from 3.00% to 4.50%. Offered by Festus J. Wade Jr. & Co.
- 3,000,000 Saks & Co. 4.40% mortgage loan due 1953. Refunding and other corporate purposes. Placed privately through Paul Hammond Co.

offering	tocks of a stated par value are taken at par, while preferred stock ar value and all classes of common stock are computed at their prices.)
0	THER INDUSTRIAL AND MANUFACTURING
	Continental Can Co., Inc., 200,000 shares \$4.50 cum. pref. stock. Repay bank indebtedness incurred primarily to carry increased inventories and receivables. Price, 100; to yield 4.50%. Offered by Goldman, Sachs & Co.; Chas. D. Barney & Co. Brown Harriman & Co., Inc.; The First Boston Corp.; Edward B. Smith & Co. and Kidder, Peabody & Co. Other underwriters were: Dominick & Dominick; Hayden, Stone & Co.; W. E. Hutton & Co.; Lazard Freres & Co., Other Higginson Corp.; Hemphill, Noyes & Co.; G MP. Murphy & Co.; Harris, Hall & Co. (Inc.); W. C. Langley & Co.; F. S. Moseley & Co.; Stone & Webster and Blodget, Inc.; Icee blower & Weeks; Bancamerica Blair Corp.; Kleinwort Sons & Co.; Hallgarten & Co.; Ladenburg, Thalmann & Co.; Ritter & Co.; Baker, Weeks & Harden; Bosworth, Chanute, Loughridge & Co.; First of Michigan Corp.; Piper, Jaffray & Hopwood Schwabacher & Co., and Klunh, Loeb & Co.
600,000	Lane-Wells Co. 40,000 shares capital stock. Discharge bank loans incurred in construction of new buildings, provide for new equipment and additional working capital. Price, 15. Offered by Hartley, Rogers & Co., Inc.
\$20,600,000	

INVESTMENT TRUSTS, TRADING, HOLDING, &c. \$99,000 First New England Corp. 9,000 units, each unit comprising 1 share of 5% cum, pref. stock and 1 share of common stock. General corporate purposes. Offered by E.H. Rollins & Sons, Inc., and Halsey, Stuart & Co., Inc.; Robinson & Co., Inc.; Nichols, Terry & Dickinson, Inc., and Ames, Emerich & Co., Inc. -

\$34,300,000

The Outlook for Japan and the Pacific (Concluded from page 2914)

sels, and Mr. Roosevelt's Chicago pronouncement will seem even more ill-considered than it did when it was made.

Mediation aside, the ultimate aims of Japan would also be furthered if it consented to enter another conference, as has been suggested at Brussels, in which the Nine-Power Treaty was not an issue, for it could then maintain, as it has already contended. that the Treaty is obsolete and no longer imposes obligations upon its signatories. Whatever happens, the course of events, as far as can now be seen, will play more or less satisfactorily into Japanese hands. The penetration of China, halting and imperfect, no doubt, but nevertheless persistent, will go on without forcible interference from any quarter, Japanese domination in the Far East and the Pacific will advance from stage to stage, and European and American influence and trade will decline as Japan progresses. The happiest outcome would be an agreement under which China, without sacrificing its political integrity or independence, could cooperate with Japan in the furtherance of common economic interests, but the intense hostility which is felt in China for Japan seems for the present to put an amicable settlement on such lines out of the question.

The Course of the Bond Market

This week has seen a generally declining bond market, with losses in almost all of the lower-grade groups. The averages for the Baa's, however, did not decline to the low point of Oct. 19. The Baa rails were closest to that low, while the Baa utilities remained well above it. High grades have revealed moderate strength this week. United States Governments have remained firm.

High-grade railroad bonds have shown fractional losses. New York Central 31/2s, 1997, at 94 lost 1/2 point, while Virginian 3%s, 1966, at 1041/4 were off 1/8 point. Mediumgrade and speculative railroad bonds have declined. Baltimore & Ohio 5s, 1995, fell 5¾ to 45¼, and Erie 5s, 1975, dropped 61/2 points to 45. Defaulted railroad bonds also ettled to lower prices. Chicago & Great Western 4s, 1959, t 19% were off 11%, while Missouri Pacific 5s, 1965, lost 1/4 at 201/4.

Highest-grade utility bonds have tended to advance. rooklyn Edison 31/4s, 1966, at 1015/8 were up 1/8; Conamers Power 3½s, 1970, gained ¼ at 103¼; Southwestern ell Telephone 31/2s, 1964, advanced 1/4 to 107%. Lower ades, however, have lost ground. New England Power ssociation 5s, 1948, declined 3¼ to 83½; Puget Sound ower & Light 5½s, 1949, at 72 were off 1; Standard Gas & lectric 6s, 1966, fell 31/4 to 563/4.

Creditable improvement has been registered by industrial nds in the high-grade classification. Medium-grade instrials have been soft and speculative issues weak. Oblotions of food processors have declined, National Dairy roducts 3% s, 1951 (w. w.), closing 1 lower at par. Most the non-ferrous metals have lost favor, General Cable 2s, 1947, moving down 2 points to 101, a new low for the year. Gains have been recorded among the oils, but Skelly Oil 4s, 1951, at 961/4 were off 1. In the steel section, Otis Steel 41/2s, 1962, stood out with a loss of 23% at 755%. The trend of packing company issues has been a downward one, Swift & Co. 3% s, 1950, closing at 104%, off 2.

The collapse of the coffee control plan brought liquidation into Brazilian bonds, while other South American issues reacted in sympathy. Italians have continued weak. German and Japanese bonds have remained firm, with little change in price.

Moody's computed bond prices and bond yield averages are given in the following tables:

• These prices are computed from average yields on the basis of one "typical bond (4% couple), intering in so years in the relative levels and the relative movement of level or the average movement of actual price quotations. They merely serve to illustrate in a more comprehensive way the relative levels and the relative movement of pield averages, the latter being the truer picture of the bond market.

Indications of Business Activity

THE STATE OF TRADE—COMMERCIAL EPITOME Friday Night, Nov. 5, 1937.

Business activity receded further the past week. This is the fifth consecutive weekly decline, according to the "Journal of Commerce." A rather severe drop was recorded in the business index of this authority, all the various components of the index showing declines, with steel operations and automobile activity showing the greatest reductions. The "Journal of Commerce" index figures showed a drop to 95.0 as compared with a revised figure of 97.1 the previous week and 101.3 for Oct. 31, 1936. A precipitous drop in steel sales for the month of October was reported by the "Iron Age." According to this authority, October steel sales were from 15% to 20% under those for September, with pig iron production declining sharply in line with the precipitous drop in ingot output, which is scheduled this week at 48% of capacity, and buying by all consumers, except automotive, is virtually at rock bottom. It is stated that the chief decline in sales has been in heavy products. The "Iron Age" states there are indications that the drop in buying has been checked, but the chances of marked improvement have been lessened by the hand-tomouth buying policy of the automobile companies, upon which much dependence had been placed for a business pick-up. It is stated that the outcome of the New York Automobile Show, results of which will be announced this week, is expected to have a pronounced effect on steel purchases of automobile companies from now on. "Building construction volume is waning, many projects having been shelved because of uncertainty as to Administration policies toward business, as shown by a recent statement of public utility interests." Production of electricity in the United States totaled 2,254,947,000 kilowatt hours when compared with the total of 2,281,636,600 last week and a gain of 88,291,000 over the total of 2,166,656,000 in the week ended Oct. 24 last year. Some public utility company officials doubt that power output will fall much below the 1936 level in the remaining weeks of the year, des

the latest week, according to Dun & Bradstreet. Sales for the period ranged from 2% to 6% higher than the week before, while the volume of retail distribution was 4% to 15% above the same week last year. Wholesale volume remained unchanged from the previous week at a level of 6% to 15% above 1936. Freight car loadings declined 1,698 cars to 771,655 in the week ended Oct. 30. This was a decrease of 0.2% from the previous week and 5.3% below the total for the corresponding period of last year. There was nothing extraordinary in the weather developments of the past week, according to the government report. The abnormal warmth, abundant sunshine, and but little rain made ideal conditions for seasonable farm work over much the greater portion of the country. However, large Western areas continue too dry for plowing, and heavy rains in the East were unfavorable for outside operations, though the latter part of the week was warm and sunny, permitting resumption of activities. Farm work in general is well advanced; crops have matured without extensive frost damage in any section. There was a disturbance attended by general rains in the Atlantic area, with heavy to excessive rainfalls in the Middle Atlantic States, causing moderate floods in a number of streams. Temperature changes were unimportant during the week. In the East freezing weather extended as far South as West Virginia in the Appalachian Mountains, but along the Atlantic coast temperatures were continuously above freezing as far North as southern Maine. In the interior valleys and Great Plains, only the northern portions had freezing weather, while in the Florida Peninsula and the West Gulf area minimum temperatures were above 50 degrees throughout the week. The lowest reported for the country was 12 degrees at Devils Lake, N. Dak., on Nov. 2. In the New York City area the weather generally was mild, with fair skies. Today it was cloudy and cold here, with temperatures ranging from 40 to 55 degrees. The forecast was for light rain and warmer tonig

Selected Income and Balance Sheet Items of Class I Steam Railways for August

The Bureau of Statistics of the Interstate Commerce Commission has issued a statement showing the aggregate totals of selected income and balance sheet items of Class I steam railways in the United States for the month of August

These figures are subject to revision and were compiled from 135 reports representing 141 steam railways. The present statement excludes returns for Class I switching and terminal companies. The report in full is as follows:

TOTALS FOR THE UNITED STATES (ALL REGIONS)

	For the Mon	nth of Augus'	For the Eight	ht Months of

Number of Air-Conditioned Passenger Cars in Operation on Oct. 1

Nearly 10,000 air-conditioned passenger cars owned by the Class I railroads and the Pullman Co. were in operation on Oct. 1, 1937, J. J. Pelley, President of the Association of American Railroads, announced on Nov. 5.

Class I railroads on Oct. 1 had 5,196, and the Pullman Co. had 4,666 air-conditioned passenger cars in operation. These figures include sleeping cars, lounge cars, and other passenger equipment.

In the first nine months of 1937, air-conditioned devices were installed on 1,784 passenger cars, of which 1,270 pas-senger cars were owned by the railroads and 514 by the Pullman Co.

Class I railroads on Oct. 1 this year had 256 new passen-ger cars on order compared with 177 on Jan. 1 this year, and 183 on Oct. 1, 1936. The Pullman Co. on Oct. 1 this year had 171 new passenger cars on order.

Railroads to Ask for 15% Freight Rate Increase

Because of rising costs of operation over which they have no control, the railroads of the United States, at a meeting held in Chicago, on Oct. 29, of the member roads, Association of American Railroads, decided to file with the Interstate Commerce Commission, without delay, a petition asking for an increase of 15% in the level of freight rates except as to coal and coke, lumber, fruits and vegetables, including citrus fruits, and sugar, for which certain maximums will be asked in each instance. J. J. Pelley, Presi-dent of the Association, in a statement released to the press, said:

Sauce: The petition will ask that coach rates for passengers traveling on rail-roads in the Eastern region be increased from 2c., the present rate, to 2½c. per mile. No change is contemplated in Pullman or commutation rates. Railroads in the South will increase their faces in coaches ½c. per mile so that the rate will be 2c. per mile. This is the same increase the Eastern lines are requesting. The Western lines are making various in-creases such as an increase in transcontinental coach fares between Chicago and Pacific Coast destinations of 55 with corresponding adjunctments and Pacific Coast destinations of \$5, with corresponding adjustments between intermediate points. Increases will also be made in the round-trip 30-day coach fares and the round-trip intermediate class for tourist car fares.

This action has been forced upon the railroads because the margin between income and operating expenses has been squeezed so thin that they face a real crisis. Because there is no other way to meet this crisis than to make a general increase in rates and fares, the railroads will ask the Commission to expedite consideration of this matter.

Revenue Freight Car Loadings Again Decline—Off 0.2% in Week Ended Oct. 30

in Week Ended Oct. 30 Loadings of revenue freight for the week ended Oct. 30 1937, totaled 771,655 cars. This is a decrease of 1,698 cars or 0.2%, from the preceding week; a decrease of 42,859 cars, or 5.2%, from the total for the like week of 1936, and an increase of 89,657 cars, or 13.1%, over the total loadings for the corresponding week of 1935. For the week ended Oct. 23, 1937, loadings were 5.4% below those for the like weeks of 1936 but 8.8% over those for the corresponding week of 1935. Loadings for the week ended Oct. 16, 1937, showed a loss of 2.0% when compared with 1936 but a rise of 10.6% when comparison is made with the same week of 1935. 1935

The first 18 major railroads to report for the week ended Oct. 30, 1937 loaded a total of 361,266 cars of revenue freight on their own lines, compared with 361,433 cars in the preced-ing week and 380,619 cars in the seven days ended Oct. 31, 1936. A comparative table follows:

INOt available at press time.

The Association of American Railroads, in reviewing the week ended Oct. 23, reported as follows:

Loading of revenue freight for the week ended Oct. 23 totaled 773,353 cars. This was a decrease of 42,899 cars or 5.3% below the corresponding week in 1936 and a decrease of 186,139 cars or 19.4% below the same week cars. Loading of revenue freight for the week of Oct. 23 was a dec

36,591 cars or 4.5% below the preceding week. Miscellaneous freight loading totaled 308,882 cars, a decrease of 17,468 cars below the preceding week, and 29,965 cars below the corresponding

cars below the preceding week, and 25,500 cmc 21,000 kmc 21,000 km the preceding week, but an increase of 1.673 cars above the corresponding week in 1936.

Grain and grain products loading totaled 36,958 cars, an increase of 1,035 cars above the preceding week, and 3,936 cars above the corresponding

2920

week in 1936. In the Western Districts alone, grain and grain products loading for the week of Oct. 23, totaled 24,259 cars, an increase of 929 cars above the preceding week, and 2,826 cars above the corresponding week in 1936.

in 1936. Live stock loading amounted to 22,395 cars, an increase of 555 cars above the preceding week, and 131 cars above the corresponding week in 1936. In the Western districts alone, loading of live stock for the week of Oct. 23 totaled 18,779 cars, an increase of 871 cars above the preceding week, and 488 cars above the corresponding week in 1936. Forest products loading totaled 32,883 cars a decrease of 4,344 cars below the preceding week, and 3,418 cars below the corresponding week in 1936.

below the preceding week, and 3,418 cars below the corresponding week in 1936. Ore loading amounted to 37,990 cars, a decrease of 12,113 cars below the preceding week, and 11,776 cars below the corresponding week in 1936. Coke loading amounted to 8,726 cars a decrease of 848 cars below the preceding week, and 1,608 cars below the corresponding week in 1936. 'All districts reported decreases except the Central Western compared with the corresponding week in 1936. All districts reported decreases compared with the corresponding week in 1930. Loading of revenue freight in 1937 compared with 1936 and 1930 follows:

A	1937	1936	1930
Five weeks in January	3,316,886	2,974,553	4,246,552

Moody's Commodity Index at New Low

The sharply declining trend in commodity prices continued The sharply declining trend in commodity prices continued this week. Moody's Index of Staple Commodity Prices, closed at 154.2 on Friday, as compared with 161.3 a week ago. A new low of 154.0 was established this Thursday. The principal declines were in wheat, cotton, wool, coffee, steel scrap and rubber. Prices of silk, cocca, hides, corn, copper and lead were also lower. There were advances for hogs and sugar, while silver remained unchanged. The movement of the Index during the week, with com-parisons, is as follows:

Sat., Mon., Tues., Wed.,	Oct. 29	.6.7.7.1
-----------------------------------	---------	----------

Wholesale Commodity Prices Declined Slightly During Week Ended Nov. 2 According to "Annalist" Index Reporting that commodities spent a dull week, the "Annalist" announced on Nov. 4 that its Weekly Index of Wholesale Commodity Prices declined to 89.6 on Nov. 2,

2921

as compared with 89.8 the previous week and 85.1 a year ago. The "Annalist" added: ago.

For the most part prices backed and filled with little speculative or con-sumer interest apparent. Several commodities established new lows for the season but the majority remained slightly above the old low points. Security prices did nothing to point out the way for commodities and traders were content to leave things as they were. Meats and certain dairy products moved into higher ground, but declines in fuels, textiles and other industrial commodities more than offset gains elsewhere.

in fuels, textiles and other industrial commodities has fallen to almost nothing in elsewhere. Speculative interest in the commodities has fallen to almost nothing in the past two weeks. For the latest period 174,517,000 bushels of wheat were traded, as compared with more than 200,000,000 two weeks ago. Transactions in oats were 5,831,000, against 8,936,000. Trading in Grade A coffee fell to 59 contracts last week, as contrasted with 195 con-tracts; Santos coffee to 379 options from 565; hides to 497 from 885 and domestic sugar from 729 to 392. Two important exceptions to the decline in speculative interest are rubber and "World" sugar. Both items have been losing steadily in recent weeks and trading in them has been active. Wholesale Commodity Prices Reached Lowest Point in Year During Week Ended Oct. 30, According to National Fertilizer Association

National Fertilizer Association Continuing the downward trend of the preceding five weeks, the wholesale commodity price index compiled by the National Fertilizer Association, in the week ended Oct. 30, dropped to the lowest point since the early part of December, 1936. Last week the index, based on the 1926-28 average of 100%, stood at 82.2% as against 83.3% in the preceding week. A month ago it registered 86.0%, and a year ago 80.0%. The highest point recorded by the index this year was 88.8% in July. The high point in 1936 was 83.1% in the last week of the year. The announcement by the Asso-ciation, under date of Nov. 1, went on to say: Declining prices during the week were common to most commodity

ciation, under date of Nov. 1, went on to say: Declining prices during the week were common to most commodity groups, with seven of the principal group indexes declining and none advancing. The sharpest drop occurred in the farm product group, with cotton, grains, and livestock moving downward. The farm product price index is now at the lowest level reached since June, 1936. Changes in foodstuff prices during the week were mainly downward, resulting in the sixth consecutive weekly decline in the food price average. Lower quotations for nonferrous metals and a continued decline in steel scrap caused a further recession in the index of metal prices, making the seventh week this index has moved downward. Declines during the week were also registered by the indexes representing the prices of textiles, building materials, and miscellaneous commodities.

the indexes represented in the index declined during the week Thirty-eight price series included in the index declined during the week while only 11 advanced; in the preceding week there were 37 declines and 22 advances; in the second preceding week there were 40 declines and 17

United States Department of Labor Reports Decline in Wholesale Commodity Prices During Week Ended Oct. 30

A general decline in wholesale commodity prices ac-centuated by sharp declines in farm products and foods caused the index of wholesale commodity prices of the Bureau of Labor Statistics, United States Department of Labor, to decrease 1.1% during the week ended Oct. 30, Commissioner Lubin announced on Nov. 4. He stated:

The recent decline is the fifth consecutive weekly decrease and it brought the all-commodity index to 84.0% of the 1926 average, the lowest point reached this year. Compared with the week ended Oct. 2, the all-com-modity index shows a decrease of 3.3%. It is 3.4% above the corresponding ek of last year.

Each of the 10 major commodity groups except chemicals and drugs decreased during the week. The chemicals and drugs group remained unchanged at last week's level.

Largely because of pronounced price declines in agricultural commodities, the raw materials group fell 2.2%. Raw material prices decreased 6.2%during the four-week period Oct. 2 to Oct. 30, and are 4.0% below the

level for the corresponding week of a year ago. Semi-manufactured com-modity prices decreased 0.5% to the lowest point reached this year. The current index—81.5—is 2.9% below the index for Oct. 2, and 6.4% above that of a year ago. Although the index for finished products declined steadily during the past month, it is substantially above the low point of the year. Compared with the index for the week ended Oct. 2, the current index—87.3—is down 2.0%. It is 6.9% above that for the week ended Oct. 21 1036 Oct. 31. 1936.

Non-agricultural commodity prices, "all commodities other than farm products," declined 0.6% during the week and are 2.1% below the Oct. 2 level. Prices of commodities other than farm products are 6.0% higher than they were a year ago. Wholesale prices of industrial commodities, measured by the index for "all commodities other than farm products and foods," fell 0.4% to 1.1% below the early October level. Compared with a year ago, industrial commodity prices are up 5.6%.

In reporting Mr. Lubin's remarks, an announcement issued by the Labor Department also said:

by the Labor Department also said: Declines of 7.7% in livestock and poultry prices and 1.4% in grains largely accounted for a 3.6% decrease in the farm products group index. Quotations were lower for corn, wheat, calves, steers, hogs, sheep, live poultry, cotton, lemons, oranges, seeds, dried beans, potatoes and wool. Higher prices were reported for barley, oats, rye, cows, eggs, apples, hops and onions. This week's farm products index—77.8—the lowest since June, 1936, is 8.9% below that of a month ago and 7.3% below a year ago. Wholesale food prices dropped 1.4% during the week largely because of decreases of 3.5% in meats, 1.5% in fruits and vegetables, 0.2% in dairy products, and 0.1% in cereal products. Individual food items for which lower prices were reported were butter, rye flour, macaroni, yellow corn meal, canned peaches, dried apples, raisins, canned corn, fresh beef, mutton, cured and fresh pork, veal, cocoa beans, cocoa, coffee, glucose, lard, pepper, corn starch and coconut oil. Quotations were higher for oatmeal and raw sugar. The current food index—83.8—is the lowest in nearly a year. It is 4.6% below the level of four weeks ago and 1.8% above a year ago. The hides and leather products group declined 0.5% as a result of sharp decreases in prices of skins. Chrome calf leather averaged slightly lower. Prices of shoes and other leather products such as harness, belting, gloves, and luggage remained steady. Weakening prices for Douglas fir lumber, red cedar shingles, chinawood oil, rosin, butts and gravel caused the building materials group index to it.

and luggage remained steady. Weakening prices for Douglas fir lumber, red cedar shingles, chinawood oil, rosin, butts and gravel caused the building materials group index to fall 0.4% during the week. No changes were reported in prices of brick and tile, cement and structural steel. Average wholesale prices of crude rubber fell 1.5%, paper and pulp dropped 0.6% and cattle feed declined 0.5%. Automobile tires and tubes remained unchanged at last week's level. Continued weakness in prices of cotton goods and woolen yarns largely accounted for a 0.3% decrease in the textle products group index. Whole-sale prices of clothing declined fractionally. Prices of print cloth, raw silk, burlap, and raw jute advanced. The fuel and lighting materials group index fell 0.3% as a result of weakening prices for gasoline. Kerosene prices rose sharply and anthracite averaged slightly higher. Bituminous coal and coke prices remained steady. Pronounced price decreases in nonferrous metals such as quicksilver, pig sinc, and copper and brass manufactures together with lower prices for scrap steel caused the metals and metal products group index to decline 0.3%. Pig tin advanced. Agricultural implements, motor vehicles, and plumbing and heating fixtures remained unchanged. Lower prices for cotton blankets accounted for a minor decrease—0.1%—in the index for the housefurnishing goods group. Average wholesale prices for furniture were stationary. In the chemicals and drugs group weakening prices for copper subhate and

the housefurnishing goods group. Average wholesale prices for furniture were stationary. In the chemicals and drugs group weakening prices for copper sulphate and fats and oils were counter balanced by rising prices for fertilizer materials and mixed fertilizers with the result that the chemicals and drugs group index remained unchanged at 80.6% of the 1926 average. The index of the Bureau of Labor Statistics includes 784 price series weighted according to their relative importance in the country's markets and is based on the average for the year 1926 as 100. The following table shows index numbers for the main groups of com-modities for the past five weeks and for Oct. 31, 1936, Nov. 2, 1935, Nov. 3, 1934, and Nov. 4, 1933: (1926=100)

September Sales of Wholesale Firms in New York Federal Reserve District 7% Above Year Ago

"September sales of reporting wholesale firms in the Second (New York) District, averaged 7% higher than last year," according to the Federal Reserve Bank of New York, "a more favorable year to year comparison than in the previous two months." The Bank also has the following to say in the "Monthly Review" of Nov. 1:

the "Monthly Review" of Nov. 1: The men's clothing and stationery concerns recorded the largest increases in sales since last May, the grocery and hardware firms showed the most favorable comparisons with sales of a year ago since June, and a sub-stantial gain in sales occurred in drugs and drug sundries. The advance shown in sales of the diamond concerns was larger than in August, and the decline in shoe sales was smaller than in the previous two months. The cotton goods firms, however, reported a smaller increase in sales than last month, and the paper concerns recorded the smallest gain in sales in almost a year. Sales of the jewlery firms were below the figure of a year previous

Volume 145

for the first month since January, 1936, and yardage sales of rayon and silk goods showed the largest decline since June, 1935. The grocery, drug, hardware, diamond and jewelry concerns continued to report larger stocks of merchandise on hand this year than last, but the increases were considerably less than those reported in the preceding few months. Collections in practically all reporting lines continued at a lower rate then a year equ rate than a year ago.

Increase of 5.8% in Department Store Sales During September as Compared with Year Ago Reported by New York Reserve Bank—Increase Over Year Ago Also Noted in Metropolitan Area of New York in First Half of October

The Federal Reserve Bank of New York reports in its "Monthly Review" of Nov. 1 that "September sales of the reporting department stores in this district were 5.8% higher than last year, a slightly larger increase than in August." The Bank also notes:

'I'he Bank also notes: The Rochester, Syracus, Bridgeport, Westchester and Stamford, and Central New York State department stores recorded the largest gains in sales over last year. Reporting stores in practically all the other localities also showed some increase in sales. The leading apparel stores in this dis-trict reported sales 2.3% higher than last year, following two months in which recessions from a year ago had been indicated. Department'store stocks of merchandise on hand at the end of September remained higher than a year ago, though by a smaller percentage than in any month this year; apparel store stocks continued to show a moderate increase over those of a year previous. Collections were slightly lower this year than last in the department stores, but were somewhat better in the apparel stores.

Mis The following, regarding sales in the Metropolitan area of New York during the first half of October, is also from the Review

During the first half of October, total sales of the reporting department stores in the Metropolitan area of New York were 3% higher than in the corresponding period of last year, and an advance over the September level was indicated, in keeping with the usual seasonal rendency.

Chain Store Sales in New York Federal Reserve District During September Reported 4.4% Above Sep-tember, 1936

According to the Nov. 1 "Monthly Review" of the New York Federal Reserve Bank, total September sales of the reporting chain store systems in the Second (New York)

District "were 4.4% higher than last year, following the small decrease reported for August." The "Review" further says:

uecrease reported for August." The "Review" further says: The 10-cent and variety and shoe chain stores recorded moderate increases in sales over last year, and the grocery chain systems reported practically no change in sales from last year, while the candy chain stores continued to show a smaller volume of sales. There was a slight decrease between September, 1936, and September, 1937, in the total number of stores in operation, due to reductions in the number of units operated by the grocery and candy chains, which exceeded a small increase in the 10-cent and variety chain stores. Consequently, the percentage increase in average sales per store of all chains combined was somewhat larger than for total sales. somewhat larger than for total sales.

Production of Electricity for Public Use During September Totals 9,984,986,000 Kwh. The Federal Power Commission in its monthly electrical report disclosed that the production of electricity for public use in the United States during the month of September, 1937, total 9,984,986,000 kwh. This compares with 9,722,000,000 kwh. produced in September, 1936. For the month of August, 1937, output totaled 10,378,281,000 kwh. Of the September, 1937, output a total of 3,145,718,000 kwh., was produced by water power and 6,839,268,000 kwh. by fuels. The Survey's statement follows: PRODUCTION OF ELECTRICITY FOR PUBLIC USE IN THE UNITED

Total.....1 '113602000,000' 114 136 x Special comparison between actual comparable data for respective periods. y Compensated for extra Saturday in February, 1936. Note-The output and fuel consumption shown in above tables for the year 1937 are not exactly comparable with similar data for corresponding monthe of previous years due to the following changes: Beginning with the report for January, 1937. the output and fuel consumption for street and interurban rallways, electrified steam rallroads, and miscellaneous Federal, State and other plants were grouped in separate tables. Also, all manufacturing plants, which formerly produced some electricity for public use but no longer produce any except for the entire United States are approximately 4.7% lower than they would be on the former basis. The percentage changes in output from corresponding months of the previous year have been diminated. The figures, therefore, in any State varies with transfers of energy from one State to another, with stream flow conditions and other factors, and is not necessarily an index of the consumption within the State. The total stocks of coal held by electric utility power plants on Oct. 1,

not necessarily an index of the consumption within the State. The total stocks of coal held by electric utility power plants on Oct. 1, 1937 amounted to 10,290,234 net tons. This was an increase of 4.5% over the stocks on Sept. 1, 1937 and an increase of 45.7% over Oct. 1, 1936. Bitumineus coal stocks increased 4.5% and anthracite stocks increased 4.5% when compared with Sept. 1, 1937. Electric utility power plants consumed 4,030,059 net tons of coal in September, 1937. Of this amount, 3,872,264 tons were bituminous coal and 157,795 tons were anthracite, decreases of 4.0% and 1.6%, respectively. When compared with consumption in the preceding month. In terms of days' supply, which is calculated at the current rate of con-sumption, there was enough bituminous coal on Oct. 1 to last 69 days and enough anthracite for 256 days' requirements.

Electric Production During Week Ended Oct. 30 Totals 2,254,947,000 Kwh.

The Edison Electric Institute, in its weekly statement, disclosed that the production of electricity by the electric light and power industry of the United States for the week ended Oct. 30, 1937, totaled 2,254,947,000 kwh., or 4.1%

Financial Chronicle

above the 2,166,656,000 kwh. produced in the corresponding week of 1936. The Institute's statement follows: PERCENTAGE INCREASE OVER PREVIOUS YEAR

Building Activity in United States During September Below August, But Slightly Above September Year Ago

"Building activity in September, measured by the value of permits issued, was below the level of the previous month, but slightly greater than in the corresponding month of last year," Secretary of Labor Frances Perkins announced on Oct. 30. "Reports received from 1,521 cities with a population of 2,500 or over indicate that the total value of permits issued during the month was 8.5% less than in August and 0.1% higher than in September, 1936," she said. "The increase over a year ago was due to substantial gains in the value of permits issued for new non-residential construction and for additions, alterations, and repairs to existing stru-tures." Miss Perkins added:

tures." Miss Perkins added: The value of new residential construction was 14% less than in September, 1936. However, private residential construction in September shows a decrease of only 4% in comparison with the same month of last year. In September, 1936, the value of contracts awarded for Public Works Ad-ministration housing projects amounted to more than \$6,600,000. During September, 1937, no contracts were awarded for PWA housing projects. Compared with August, the total value of buildings for which permits were issued in September showed a decrease of 9%. The value of residential buildings for which permits were issued during the month was only 1% below the August level. Considerably greater decreases are indicated by permits issued for new non-residential buildings and for additions, altera-tions, and repairs to existing structures. During the first nine months of 1937, the aggregate value of all classes of building construction for which permits were issued in the cities having a population of 2,500 or over which reported to the Bureau of Labor Statistics amounted to \$1,270,870,000, an increase of 14% over the corre-sponding period of 1936. All types of construction show gains comparing the first nine months of the current year with the corresponding period last year. During the first three quarters of 1937, dwelling units were provided in these cities for 140,557 families, a gain of 12% over the like period of 1936.

The foregoing is from an announcement issued by the United States Department of Labor, which also said:

The percentage change from August to September in the number and cost of various classes of construction is indicated in the following table for 1,521 identical cities having a population of 2,500 or over:

Class of Construction	Change from Aug., 1937 to Sept., 193		
· · · · · · · · · · · · · · · · · · ·	Number	Estimated Cost	
New residential New non-residential Additions, aiterations, repairs	-1.0 +11.8 +1.7	-1.4 -13.6 -12.3	
Total	10.1		

There were 13.218 dwelling units provided by the permits issued in these cities, a decrease of 2.3% as compared with August. The percentage change compared with September, 1936, by class of construction, is shown below for the same 1,521 cities:

inge from Sept., 1936 to Sept., 1937 Class of Construction Numbe Estimated Cost New residential -4.0+1.2 -0.8ntial New non-residential______Additions, alterations, repairs_____ +17.5 Total -1.0 +0.1

ase of 15% was shown in the

Compared with September, 1936, a decrease of 15% was shown in the number of family-dwelling units provided in these cities. The gains, comparing the first nine months of 1937 with the correspond-ing period of 1936, are indicated below:

Class of Construction	Change from First 9 Mos. in 193 to First 9 Mos. in 1937		
	Number	Estimated Cost	
New residential New non-residential Additions, alterations, repairs	$^{+21.8}_{+10.9}_{+8.1}$	+12.3 +11.0 +20.3	
Total	111.9	1.12.0	

to cost over \$500,000. Contracts were awarded by the Procurement Division of the Federal Government for a court house in Philadelphia to cost nearly \$3,500,000; for a marine hospital in Kirkwood, Mo., to cost over \$1,100,000; and for a "ost office in Mian." each, Fla., to cost nearly \$200,000.

Trend of Business in Hotels, According to Horwath & Horwath—Business Slow-Up Prominent in September

Horwath & Horwath, in their monthly survey of the trend of business in hotels, state that "the slow-up in hotel business that first became evident several months ago was quite marked in September." The firm said:

Quite marked in September." The firm Said: For the first time since the upward trend began in July, 1933, the occu-pancy was lower than in the corresponding month of the year before. Ever since July, the food and beverage sales have been indicating a turning point, and now the occupancy gives confirmation that the upward trend is broken, at least temporarily. New York City had a three-point decline in occupancy from a year ago despite the fact that during the American Legion Convention the occupancy approached the 100 mark for several days in many hotels. Average rates were up a little more than usual—10%. Philadelphia had some large conventions during the month which brought a substantial increase in sales and an occupancy of 53%, the highest for

a substantial increase in sales and an occupancy of 53%, the highest for September since 1929. Cleveland, which last September had the Legion Convention, benefited by no such boost this year, and accordingly recorded a drop in sales. The group "all others" had the smallest increase in sales since 1933, and a decline in occupancy for the first time since that many

decline in occupancy for the first time since that year. The decreases in room and restaurant sales from the corresponding months of 1929 are shown in the following:

		Roo	ms	S. 19	Restaurant

Analysis of Imports and Exports of the United States for September

The Department of Commerce at Washington on Nov. 2 The Department of Commerce at washington on 1907. 2 issued its analysis of the foreign trade of the United States in September, 1937 and 1936, and the nine months ended with September, 1937 and 1936. This statement indicates how much of the merchandise imports and exports consisted of crude or of partly or wholly manufactured products. The following is the report in full:

Lloyd's Shipbuilding Statistics for Third Quarter of 1937—World Production of Merchant Vessels Up Slightly

Slightly Another increase, but a small one, in the world pro-duction of merchant vessels of 100 gross tons each and upward, is shown in a statement issued Oct. 13 by Lloyd's Register of Shipping, covering returns for the quarter ended September last from all maritime countries except Russia, from which no records have been available for some time past. In comparison with an increase in the previous quarter of 430,000 gross tons, the quarter just ended showed a gain of only 19,000 tons, said the statement issued by Lloyd's, which continued in part: which continued in part:

Advances were reported by Japan, Holland, the United States, Denmark, Italy and France; while declines were shown in the output of Great Britain and Ireland, Germany, and Sweden. Holland showed the greatest gain, one of 36,000 tons; and Germany the largest decline, 33,000 tons. How Great Britain and Ireland, the United States, and the other maritime countries, taken as a group, have compared in ship production in the last two quarters is shown by Lloyd's Register in the following table of gross

and the second	Sept. 30, '37	June 30, '37
Great Britain and Ireland United States Other countries	1,184,635 216,028 1,501,682	$\substack{1,199,173\\198,654\\1,484,233}$
	2,902,345	2,882,860

2,902,345 2,882,860 About 40.8% of the current world production of merchant ships is being carried on in Great Britain and Ireland, compared with 41.5% in the June quarter. The proportion building in the United States is 7.5%, as against 7%; and 51.7% in the other maritime countries, as against 51.5%. Of all the merchant vessels now building throughout the world, an aggregate of 1,701,592 gross tons is being constructed under the supervision of Lloyd's Register and is intended for classification with that Society. Out of this total, an aggregate of 1,018,008 tons is being so built in Great Britain and Ireland, and 683,584 tons in other countries, so that about 86% of all construction in Great Britain and Ireland, and about 60% of the entire world output is being built to Lloyd's class. A slackening in the volume of production, however, is shown by the returns covering new work begun during the quarter just ended and tonnage launched during the same period, in comparison with the previous one, Lloyd's Register points out. While only about 47,000 gross tons less were launched in the last quarter than in the previous one, new work aggregated 310,000 tons less than in the June quarter. . . . Lloyd's Register shows the comparisons for the two quarters in the following tables of gross tonnage: gross tonnage:

	Sept. 30, '37	June 30, '37
New Work— Great Britain and Ireland Other countries	216,257 421,529	366,338 581,776
World total	637,786	948,114
Launchings— Great Britain and Ireland Other countries	263,933 396,186	251,992 455,016
		FOT 000

660,119 World total. A slight decline in the production of steam and motor tankers, of 1,000 gross tons each and upwarsds, (Russia excluded), was shown during the quarter just ended. . . . Comparative production of tankers during the past two quarters is shown by Lloyd's in the following table, the figures representing gross tons: senting gross tons:

	Sept. 30, '37	June 30, '37
United States	147,788	128,255 158,090
Germany Great Britain and Ireland	$141,720 \\ 140,581$	140,765
Japan	75,300 71,790	75,792 69,240
Holland Denmark	42,650 37,250	$53,350 \\ 28,250$
ItalySweden	36,200	46,100
Spain (information incomplete)	20,220 (None)	20,220 (None)
FranceOther countries	15,550	15,550
World total	729,049	735,612

World total729,049735,612About 67% of the tanker tonnage building is to be equipped with internal
combustion engines, as compared to 70% in the June quarter, the current
total of motorized tankers aggregating 557,399 gross tons, as against
512,202 tons in the June quarter. Germany is now building 131,720 tons;
Great Britain and Ireland, 117,951 tons; Japan, 75,300 (or 100%) of its total
tanker output); Holland, 68,790, and the United States, 31,668 tons.
Motor vessels, generally, showed an increase of 62,000 gross tons in the
September quarter over the June period figure; while all other types of
vessels declined 43,000 tons in the same period.
.
.
Motorships now represent over 56% of all tonnage building The contrast for the last
two quarters is shown by Lloyd's in the following tonnage table:

	Sept. 30, '37	June 30, '37
Motor vessels Other types	1,749,722 1,252,623	1,587,063 1,295,797
World total	2,902,345	2,882,860

	Sept. 30, '37	June 30, '37
Great Britain and Ireland	478.650	485,914
Great Britain and Ireland	307.821	302,683
Germany	187,576	141,614
Holland	183,810	160.032
Japan	114.020	138,380
Sweden	94.850	88.715
Denmark	83,150	77.550
Italy	39,173	42.084
United States	33,484	30,424

There was also an increase during the quarter just ended in the total indicated horse power of oil engines being built for marine use throughout the world, the aggregate rising from 1.852,014 I.H.P. to 1.896,537 Both in steam turbines and steam reciprocating engines, however, declines in totals were reported for the last quarter. The aggregate shaft horse power of steam turbines being constructed in all countries receded from 683,955 S.H.P. to 668,495. For steam reciprocating engines, the total indicated horse power for all countries reporting declined from 503,110 I.H.P. to 463,585.

Only one change occurred in the relative ranking of the various ship-building countries during the last quarter. The United States, which had stood fourth, followed by Holland, exchanged places with the latter country. Great Britain and Ireland hold first place, with a margin of 800,000 gross tons over their nearest contender, Germany; which, in turn, leads Japan by about 50,000 tons. The latter is about 110,000 tons ahead of Holland, which holds a margin of only 8,000 tons over the United States. Sweden is 102,000 tons behind the United States, and 10,000 tons ahead of Denmark. Italy is 20,000 tons behind Denmark; but about 13,000 tons ahead of last place France. Lloyd's gives the comparison in ship production of these various countries in the last two quarters in the following table of tonnage:

	Sept. 30, '37	June 30, '37
Great Britain and Ireland	1,184,635	1.199.973
Germany	383,468	416,881
Japan	334,530	318,277
Holland	224.726	188,464
United States	216,028	198.654
Sweden	114,020	138,720
Denmark	103,450	95,615
Italy	83,150	77,550
France	70,284	67.224

Twelve large merchant vessels, each of 20,000 gross tonnage or upward⁸ are now building throughout the world. Seven of these are being con structed in Great Britain and Ireland, one less than in the previous quarter Germany, with two such ships under way, shows a similar decrease. France, Italy and Holland are still building one of these large ships. In the June quarter the total for all countries was 14 large vessels.

Indexes of Business Activity of Federal Reserve Bank of New York—Usual Seasonal Advance in September

of New York—Usual Seasonal Advance in September The New York Federal Reserve Bank in presenting its monthly indexes of business activity in its "Monthly Review" of Nov. 1 states that "at least the usual seasonal advance appears to have taken place in the level of general business activity and the distribution of goods during September. Increases of the usual magnitude or greater," says the Bank, "occurred in department store, chain, and mail order house sales, in the volume of check transactions throughout the country, and in freight car loadings." The Bank continues:

During the first half of October, department store trade in the Metro-

During the first half of October, department store trade in the Metro-politan area of New York showed nearly as large an increase as usual over September, and continued above a year previous. The movement of freight over the railroads, however, showed a slight reduction from the September level, whereas ordinarily traffic tends to increase at this time of year. Registrations of new passenger cars are estimated at 230,000 units, a decrease of 70,000 cars from the relatively high August figure, which is larger than the decline last year but smaller than the decline in 1935. Lees than the usual seasonal advance was shown in the volume of advertising in September, and about the usual decline occurred in seles of new ordinary life insurance policies.

(Adjusted for seasonal variations for usual year to year growth, and where necessary for price changes)

Summary of Business Conditions in United States by Board of Governors of Federal Reserve System— September Declines in Industrial Production Re-duced Output to Level of Year Ago

According to the Board of Governors of the Federal Re-serve System, "declines in industries production in Septem-ber and the first part of October reduced output to the level ber and the first part of October reduced output to the level of a year ago, and commodity prices continued to decline. The volume of distribution to consumers was maintained at the level of previous months." In its monthly summary of general business and financial conditions in the United States, based upon statistics for September and the first three weeks of October, issued Oct. 29, the Board also had the following to say: the following to say:

Production and Employment

Production and Employment Volume of industrial production, as measured by the Board's seasonally adjusted index, declined in September to 111% of the 1923-25 average as compared with 114 in June and July and 117 in August. At steel mills, where output in August had been at a high level, partly on the basis of orders placed earlier in the year, activity was reduced to an average rate of 75% of capacity in September. This decline continued in October, as new orders were in limited volume, and the rate of steel output in the fourth week of the month is estimated at about 52% of capacity. There were also declines in September in activity at woolen mills, shoe factories and at sugar refineries, and activity at cotton mills showed little change, although an increase is usual at this season. In-

Output of crude petroleum declined somewhat, but continued production.

production. Output of crude petroleum decimes and the production. Output of crude petroleum decimes and the second by the F. W. Value of construction contracts awarded, as reported by the F. W. Dodge Corp., was smaller in September and the first half of October than in the preceding six weeks, with a moderate decline in private residential building and sharp declines in awards for other private work and for publicly-financed work. Currently the dollar volume of private work is about the same as a year ago, while awards for public work are in current to contend to contend the same as a year ago.

Factory employment showed little change from August to September, Factory employment showed little change from August to September, although an increase is usual at this season. There were declines in the number employed at textile mills, shoe factories, railroad repair shops, and lumber mills. At canning establishments employment increased sea-sonally. Factory payrolls, which usually expand in September, declined substantially, reflecting principally a reduction in the average number of hours worked by those employed. The levels of employment and payrolls continued to be considerably above last year.

Distribution

Distribution of commodities to consumers by department stores and mail order houses increased more than seasonally in September, and variety store sales showed about the usual seasonal expansion. Freight car load-ings increased by the usual seasonal amount from August to September.

Commodity Prices

Commodity Prices The general level of wholesale commodity prices, according to the Bureau of Labor Statistics index, declined from 87.5% of the 1926 average in the latter part of September to 85.2 in the middle of October. During that period price declines occurred in most commodities traded in on organized exchanges and in some manufactured products. In the 10 days ending Oct. 25 commodity markets were steadier. New models of auto-mobiles are currently being introduced at higher prices.

Bank Credit

Excess reserves of member banks, after increasing in September from \$750,000,000 to over \$1,000,000, showed little further change in October

October. Total loans and investments of reporting member banks in 101 leading cities declined somewhat in the four weeks ending Oct. 20, reflecting chiefly a steady reduction throughout the period in loans to security brokers and dealers. Commercial loans increased further.

Money Rates and Security Prices

Rates on nine-month Treasury bills in October declined to about % of 1%, the lowest since last January. Prices of high-grade bonds showed little change in September and October, while prices of lower-grade bonds and of common stocks declined sharply to the lowest levels since the widdle of 1005 middle of 1935.

Summary of Business Conditions in Various Federal **Reserve Districts**

We give below excerpts from the monthly reports on busi-We give below excerpts from the monthly reports on busi-ness of the various Federal Reserve banks. The following remarks are from the reports of the Reserve Banks of Boston, Philadelphia, Cleveland, Richmond, Atlanta, Chicago, St. Louis, Minneapolis, Kansas City, Dallas and San Francisco:

First (Boston) District

"The level of general business activity in New England during September was lower than in August, after allow-ances had been made for customary seasonal changes, and a declining rate of activity was prevalent in most lines of industry," it was stated by the Boston Federal Reserve Bank in its "Monthly Review" of Nov. 1. The Bank further reported further reported:

Sales of reporting department stores and apparel shops in New England during September were slightly less than in the corresponding month last

during September were Sugary two super-year. The total number of wage-earners employed in representative manu-facturing establishments in Massachusetts in September was 3.7% less than in August, and a decrease of 4.7% occurred in the amount of aggregate weekly payrolls, according to the Department of Labor and Industries. Both employment and payrolls usually increase between August and September, and the changes this year were therefore contra-seasonal and were due largely to curtailment of production in the shoe and textile industries.

industries. The amount of raw cotton consumed by mills in New England during September was 74,378 bales, as compared with 81,428 bales in August and 83,487 bales in September last year. Cotton consumption in this district during the first nine months of 1937 was about 21% larger than in the corresponding period of 1936. The amount of raw wool consumed by mills in this district in September was less than in August and also lower than in September last year. The sales volume of 761 retail establishments in Massachusetts during September was \$21,147,816, an amount 3.3% larger than the volume reported by these concerns in September, 1936. In four of the 11 major classifications the volume was smaller in September this year than in last year. Substantial increases were reported in the coal, automotive, and furniture groups.

furniture groups.

Third (Philadelphia) District

Industrial activity in the Third District has shown addi-tional declines, while retail trade sales have evidenced seasonal improvement since early September, it was noted by the Philadelphia Federal Reserve Bank in its "Business Review" of Nov. 1. "Inventories of finished goods generally have increased," the Bank said, and "commodity prices at wholesale have declined." It also had the following to say:

Industrial production during September continued downward, owing to a further recession in manufacturing activity. The index number prepared by this bank on the basis of the output of factory products, coal and crude oil decreased to 91% of the 1923-25 average as compared with 92 in August, 95 in July, 97 in June, 96 in May and a high of 101 in April. A year ago this index was 89.

The value of retail trade sales showed a marked improvement from August to September and there was a further seasonal increase in the early part of October. Business at wholesale in September, on the other hand, failed to show the usual rate of increase over August but continued well ahead of a year ago.

Current reports indicate a continued recession in manufacturing activity of this district. The demand for factory products generally is described as unsatisfactory and sales have declined sharply since the middle of last month and as compared with last year. The volume of unfilled orders has decreased and is smaller than a year ago in the majority of manufacturing lines.

The trend of factory production in this district has been almost steadily downward since April. The seasonally adjusted index prepared by this bank declined in September to 89% of the 1923-25 average as compared with 92 in August, 95 in June and July and a high of 98 in April. A year ago this index was 88.

Fourth (Cleveland) District

"A further contraction in industrial operations and con-struction activity occurred in the Fourth District in last September and October," reported the Federal Reserve Bank of Cleveland in its Oct. 30 "Monthly Review." It stated:

In some instances the decline from the peak of late summer has been so extensive that current levels are below last year. Fall buying in manu-facturing lines has been deferred, and backlogs have been worked down

Retail trade increased more than seasonally in September. Department store sales were 15% larger than a year ago and the gain for the first nine months was 16%.

In the industrial field the contraction that has occurred has affected employment chiefly through a reduction in the number of hours worked and consequently payrolls. Some actual laying-off is evident in scattered lines, but it has not been general. September figures are the latest avail-

traction in steel mill operations in a period when an expansion has occurred in previous years probably has contributed more to the depressed local feeling than any other single business factor.

Fifth (Richmond) District

The Oct. 31 "Monthly Review" of the Richmond Federal Reserve Bank said that "trade in September normally shows a marked increase over the volume of business done in August, and this year developments appear to have been up to seasonal yields." The following is also from the review:

There was not much net change in employment during the past month, some employers who are especially active in the Fall taking on workers while orders who are adversely affected by inclement weather reduced the number of persons on their payrolls or cut down hours of work.

Textile mills in the district did not share in last month's upturn, although cotton consumption in Virginia and the Carolinas increased slightly. Mills are not receiving many forward orders at present, in the face of very weak cotton prices, and a considerable part of last month's upturn went into storage. Cotton prices declined between the middle of September and the middle of October, and the Department of Agriculture's forecast of 17,573,-000 bales for this year's crop, released Oct. 8, was the second largest on record. Prospects for the cotton crop in the Fifth District improved some-what last month, but much less than the improvement for the Nation. Tobacco production in the district is considerably larger this year than last, and prices are slightly better also. The tobacco growers, therefore, occupy a very favorable economic position this Fall, but unless and until cotton farmers secure subsidy payments from the government they are in a weaker position than a year ago. Tobacco manufacturing continued in September at a level higher than a year ago. Retail trade as reflected in department store sales increased seasonally in September over sales in August, and ran approximately 10% ahead of sales in September, 1936, while wholesale trade in four of five reporting lines was also in larger volume last month than a year earlier. Favorable weather for harvesting increased prospects for 1937 agricultural yields last month. Textile mills in the district did not share in last month's upturn, although the state of the st

Sixth (Atlanta) District

While the volume of retail and wholesale trade in the Sixth District increased in September, and there were also small increases in contracts awarded for residential consmall increases in contracts awarded for residential con-struction and in the daily average of cotton consumption, according to the Federal Reserve Bank of Atlanta, total contracts warded, however, and building permits issued at 20 cities, declined sharply, and pig iron production in Alabama was smaller. The following was also noted by the Bank in Oct. 31 "Monthly Review:"

Bank in Oct. 31 Monthly Review. September sales by 49 reporting retail firms increased 18.1% over August and were 7.8% larger than in September, 1936. On a daily average basis the gain over August was 22.9%. However, the index of daily average sales by 28 of these firms which have reported over a long period of years rose only 16.8% from August to September, an increase smaller than seasonal, and the seasonally adjusted index declined 3.0% from August, when it was the highest on record.

When it was the highest to record. Wholesale trade, reported by 70 firms, increased further in September by 11.1% and was 9.3% larger than in September last year. The index number of sales at wholesale, which is not adjusted for seasonal variation, was 97.9% of the 1923-25 average, and higher than for any other month there October 1923. since October, 1929.

since October, 1929. Employment and payrolls at more than 6,000 f rms in the six States of this District reporting to the United States Bureau of Labor Statistics in-creased 0.9%, and 1.7%, respectively, from July 1 to August, and con-tinued higher than at the corresponding time of other recent years. The increase in August was smaller than that recorded in August last year. . . The Oct. 1 estimates of the cotton crop in the six States of the Sixth District combined increased about 13% from September to October, and are 28% greater than production last year. The total of 6,875.000 bales for the six States, and the estimate of 2,400,000 bales in Mississippi, are the largest figures in available statistics back to 1903, and in this period the estimates for Louisiana and Tennessee have been exceeded only once.

Seventh (Chicago) District

"Recessions predominated in the statistics covering the Seventh District industrial activity during September, and preliminary data for the first half of October indicates a further decline in several phases," said the Federal Reserve Bank of Chicago in its "Business Conditions Report" of Oct. 28. "A majority of reporting groups, however, had larger output this September than last." Continuing, the Bank stated. stated:

The merchandising of commodities expanded more than seasonally during September in most lines, with gains over a year ago larger than in the corresponding comparison for August. Stocks of wholesalers and of most retail groups showed some reduction in September of the margin of excess over last year. Estimates for Seventh District crops changed little between Sept. 1 and Oct. 1, and the outlook remains good.

Sept. 1 and Oct. 1, and the outlook remains good. There was a reduction in output of steel mills through September and well into October, the rate of production in the middle of the latter month averaging about 30 points lower than a year ago, and automobile production reached the seasonal low point for the year in September. Output from steel casting foundries declined in the period; building construction, as re-flected by contracts awarded, fell off further; and the movement of building materials continued to slow up seasonally. Shipments of malleable castings, of stoves, from furniture factories, and from paper mills increased in Sep-tember over a month earlier. Among the gains to be recorded over last September were those in automobile production, in output of malleable castings, in shipments of furniture and of stoves, in building construction, in movement of certain building materials, and in dollar value of paper shipments. A negligible decrease was shown in industrial employment between mid-August and Sept. 15, while payrolls were reduced to a some-what greater extent.

Eighth (St. Louis) District

Commerce and industry in the Eighth District during September and the first half of October "developed further moderate recessionary trends," according to the Federal Reserve Bank of St. Louis, which, in its Oct. 30 "Monthly Review," also said:

Review," also said: The contraction, however, was not by any means universal, a number of important distributive and manufacturing lines maintaining, or slightly bettering their favorable records of recent months. Retail trade as a whole was in larger volume in September than either a month or a year earlier and the aggregate for the first three-quarters of 1937 was measurably above that for the comparable period last year. Combined September sales of the wholesaling and manufacturing lines investigated by this Bank, while below the volume for that month a year ago, were somewhal larger than in August, and for the first nine months of the year the total was con-siderably in excess of that for the similar interval in 1936. In the case of non-durable goods, notably dry goods, boots and shoes, wearing apparel, certain drugs and chemicals, &c., distribution was much curtailed by unseasonably low temperatures during the early fall.

In the durable goods industries conditions were mixed, and as a whole the trend was downward.

the trend was downward. Crop prospects in this District underwent no outstanding changes during September and early October. As indicated by the Oct. 1 report of the U. S. Department of Agriculture the major crops held their own or im-proved slightly during September, the only marked increase being in cotton.

Ninth (Minneapolis) District

The Federal Reserve Bank of Minneapolis, in its "Monthly Review" of Oct. 28, stated that "the majority of business indicators were higher in September than in the correspond-ing month last year." It further noted:

Mining activity in the District continued to be larger than a year ago. Ore carloadings were 28% above the total for September a year ago and copper output was 7% ahead of September a year ago.

copper output was 7% ahead of September a year ago. Sales at department stores and general stores in the District were larger in September than a year ago. City department stores reported an 8% increase and 408 rural stores reported an increase of 7%. The influence of the crop outturn was clearly apparent in retail trade reports from the different subdivisions of the District. . . . The seasonally corrected indexes of retail trade recovered in September from their August slump. The department store sales index rose from 86 in August to 95 in September.

Tenth (Kansas City) District

Tenth (Kansas City) District According to the Oct. 29 "Monthly Review" of the Kansas City Federal Reserve Bank, many lines of activity in the Tenth District have been slower in recent weeks. "While the year to date is still appreciably about the same period last year," the Bank pointed out, "the advantage of the current month over a year ago is less marked." The Bank also said:

Despite the slowness of the fall buying season in getting under way, dollar volume of sales at reporting department stores in this District showed about the usual seasonal increase in September. However, sales were only 4% larger than a year ago while prices are about 8% higher.

The value of wholesale sales in this District rose about 11% in September, sales of drugs increasing 16, furniture 20, groceries 11, hardware 13, and paper about 4%. Sales have recently begun to show a rather marked improvement over last year, September sales showing an increase of better than 15%.

Crop production in the District this year, while varying considerably from State to State, is substantially heavier than in 1936 and the production of wheat, rye, grain sorghums, cotton, and all fruits compares favorably with the average amounts harvested from 1928 to 1932. The corn crop, however, was less than half of normal. .

Employment was virtually unchanged and payrolls declined slightly from the middle of August to the middle of September. Employment was about 3% and payrolls 8% larger than in September of last year. Employment was about Noting that trade and industrial activity in the Eleventh District continued active during September, the Federal Reserve Bank of Dallas, in its "Monthly Business Review" of Nov. 1, had the following further to say:

The business of department stores in leading cities increased 41% from

and central Texas.

Twelfth (San Francisco) District

In the Twelfth District business activity "declined in September and, with further contraction indicated during October, is moderately below the post-depression peak reached last spring," it was reported in the Nov. 1 "Monthly Review" of the Federal Reserve Bank of San Francisco. "At that time," it was noted, "considerable advance buying had been stimulated by price increases and industrial and trade activity had risen to unusually high levels." The review also said: trade activity h review also said:

In recent months orders have tapered off and output of important manu-factured commodities, particularly building materials, has been adjusted downward in conformity with declines in sales. Reflecting these changes, the number of factory employees in California, which was the highest on record last spring, has decreased since June and in mid-September was lower than at any time since February, after allowance for seasonal changes. Crop production estimates were increased again on Oct. 1 and, despite recent declines in prices of farm products, agricultural income continues to exceed that of last season.

exceed that of last season. Output of lumber receded slightly further in September but continues to exceed new orders. . . . During October operating schedules were reduced by several large copper mining and smelting concerns which have been unusually active since last fall. Production of crude petroleum and refined oils was maintained through September at a high rate, and the aircraft manufacturing industry continued to operate at capacity. In the motion picture industry, activity was maintained at near capacity levels in September, with employment running about 25% higher than a year ago. After allowance for seasonal influences, the value of sales of department and furniture stores declined in September. The substantial year period gains in wholesale sales reported earlier in the year have narrowed in recent months and sales during September were 8% higher than a year ago, compared with an increase of 13% during the first eight months.

National Industrial Conference Board Reports Con-tinued Declines During September in Wages, Hours and Employment in Manufacturing In-Condustries

Continued declines characterize the employment con-ditions covered by the regular monthly survey of the Na-tional Industrial Conference Board relating to wages, hours and employment in 25 manufacturing industries. The Board's survey showed:

Board's survey showed: Number of workers employed declined 1.5% from August to September. Total man-hours worked fell off 3.1%. Payroll disbursements dropped 2.6% during the same period. Average hourly earnings were three-tenths of a cent higher in September than in August. This rise in the average, however, probably reflects a decline in employment rather than an increase in wage rates. The average work-week was reduced from 38.9 hours in August to 38.3 hours in September. Actual weekly earnings fell from \$27.76 to \$27.43 The purchasing power of weekly earnings or "real" earnings declined 1.6% as a result of an increase in the cost of living during the month interval.

National Industrial Conference Board Reports Number of Unemployed Workers in September Decreased 134,000 from August

Unemployment in the United States in September declined 134,000 under the August level to an estimated total of 6,066,000, reversing the upward swing from July to August after a succession of monthly declines since January, ac-cording to the latest report of the National Industrial Conference Board. The Board's announcement continued:

Conference Board. The Board's announcement continued: Total employment in all fields of private enterprise and in permanent Government agencies, aggregating 47,075,000 persons in September, showed an increase of 183,000 over the total for August. The number of persons employed in non-agricultural activities aggregated 35,312,000 persons during the month and was 72,000 over the total in August. Increases in employment of 200,000 in trade, distribution and finance, 111,000 in agriculture, 81,000 in the service industries and 20,000 in ex-traction of minerals, more than offset decreases in employment of 183,000 in construction, 29,000 in transportation, 21,000 in manufacturing, and a few thousand in forestry and fishing. The unemployment total in September was 1,349,000 less than in the same month last year. During the 12 months, the Conference Board estimates a reabsorption of 1,942,000 persons into the Nation's employed labor force. The total labor force is estimated to have increased 593,000 persons since September, 1936, and 4,853,000 since 1929.

UNEMPLOYMENT AND EMPLOYMENT (IN THOUSANDS)

Industrial Employment in Illinois Increased More Than Seasonal During September-sonal Decline Noted in Payrolls. -Contra-Sea-

Industrial employment and total wage payments in Illinois during September, as compared with August, according to a statistical analysis of the data contained in reports ing to a statistical analysis of the data contained in reports from 6,301 manufacturing and non-manufacturing enter-prises in Illinois "shows an increase of 1.3% in the number of persons employed and a decrease of 0.1 of 1% in total wage payments," according to an announcement made Oct. 27 by the Division of Statistics and Research of the Illinois Department of Labor, which went on to say: The current August-September change in total wage and arease while the change in total wages

The current August-September change in employment represents a greater than seasonal increase while the change in total wages paid represents a contra-seasonal decline. For the 14-year period, 1923-36, inclusive, the records of the Division of Statistics and Research show that the average August-September changes were increases of 1.0% in the number of per-sons employed and 0.1 of 1% in total wages paid. As compared with September, 1936, the September, 1937, indexes show increases of 10.7% in employment and 23.1% in total wages paid. The records of employment for all reporting industries rose from 83.0 in Septem-ber, 1936, to 91.9 in September, 1937, while the index of payrolls rose from 68.4 to 84.2 during the same period. One hundred and twenty-four reports of wage increases were received by the Division of Statistics and Research during the month of September. Wage increases affected the pay envelopes of 17,750 workers in manufac-turing and non-manufacturing industries, or 2.6% of the total number of workers reported as employed. The weighted average rate of increase was 7.3% as compared with a weighted average of 6.6% in August and 6.0% in July. was 7.3% as 6.0% in July.

Changes in Employment and Total Wages Paid, According to Sex

Changes in Employment and Total Wages Paid, According to Sex Reports from 4,214 enterprises which designated the sex of their work-ing forces, showed increases of 0.7 of 1% in the number of male and 4.3% in the number of female workers employed during September in comparison with August. Total wage payments to male workers decreased 1.0%, while total wages paid to female workers increased 1.9%. Within the manufacturing classification of industry, 2,297 reporting establishments, the number of male and female workers increased 0.9 of 1% and 4.4%, respectively. Total wage payments to male workers de-creased 1.5%, while total wages paid to women increased 4.4%. In the non-manufacturing classification of industrial enterprises, 1,917 establishments reported a decrease of 0.1 of 1% in the number of male workers but an increase of 4.1% in the number of female workers. Total wage payments to male workers increased 1.1%, while total wages paid to female workers increased 3.5% during the August-September period. Average Weekly Earnings-September

Average Weekly Earnings-September

Weekly earnings for both sexes combined in all reporting industries aver-aged \$26.92; \$29.46 for men and \$15.71 for women. In the manufacturing industries average weekly earnings were \$26.73 for male and female workers combined; \$29.26 for men and \$16.02 for women. In the non-manufacturing industries weekly earnings averaged \$27.37 for both sexes combined; \$30.50 for male and \$14.38 for female workers.

Changes in Man-Hours During September as Compared with August

Changes in Man-Hours Luring September as Compared with August For male and female workers combined, in all reporting industries, the total number of man-hours decreased 0.9 of 1%. Total hours worked by male workers during September decreased 1.7%, while total hours worked by female workers increased 3.2%. In the manufacturing classification of industries, 2,163 enterprises reported man-hours for male and female workers combined, and in these enterprises the total hours worked were 2.0% less in September than in Automat.

August. Hours worked in 2,136 manufacturing establishments reporting man-hours for male and female workers separately decreased 2.1% for male workers and increased 3.3% for female workers. In the non-manufacturing group, 1,678 firms reported an increase of 2.8% in total man-hours worked by male and female workers combined. Within this classification of industries, 1,276 concerns showed an increase of 0.8 of 1% and an increase of 2.7% in the total man-hours worked by male and female employees, respectively. Average actual hours worked in September by 543,124 workers in the 3,841 enterprises reporting man-hours were 39.0 as compared with 39.7 in August, or a decrease of 1.8%.

August, or a decrease of 1.8%. In the manufacturing establishments the average hours worked in September were 38.4 as compared with 39.7 in August, or a decrease of 3.3%.

In the non-manufacturing classification, the average number of hours orked per week during September was 40.8, or 2.8% more than in worked per August.

Argentine Sugar Production for 1937 Reported to Be 15% Below Last Year

Although the sugar milling season in Argentina closed as of the end of September, with the exception of 12 mills in the Province of Tucuman, most milling in that country was closed at the end of August, according to the Foodstuffs Division, Bureau of Foreign and Domestic Commerce, United States Department of Commerce. As a consequence of the early termination of milling activities, it is now esti-

mated that the total 1937 production of Argentine sugar amounted to 369,907 metric tons, which was a decrease of 64,454 metric tons, or 15% less than produced during the season last year In noting this, an announcement by the Department, Oct. 27, also said:

Volume 145

Department, Uct. 21, also said: The major part of the loss occurred in the Province of Tucuman, where production fell considerably. At the end of July, the Argentine Ministry of Agriculture estimated that stocks of sugar on hand throughout Argentina totaled 312,921 metric tons. Prices have taken a very definite turn for the better, and can now be considered normal there, according to the report.

Secretary of Labor Perkins Reports Increase in In-dustrial Employment During September to Highest Level This Year—Payrolls Declined from August

Employment in the combined manufacturing and nonmanufacturing industries surveyed each month by the Bureau of Labor Statistics, United States Department of Labor, showed a gain in September and was higher than in any month of this year, Secretary of Labor Frances Perkins announced on Oct. 26. Weekly payrolls, however, showed a "More decrease over the month interval, she reported. uecrease over the month interval, she reported. "More than 190,000 additional workers found employment in these combined industries between August and September, primarily because of seasonal increases in wholesale and retail trade," Secretary Perkins said. "Aggregate weekly payrolls were approximately \$6,300,000 less than in the preceding month due primarily to the decrease in factory payrolls, which were reduced to some extent by shut-downs for Labor Day." She further stated:

<text><text><text><text><text><text><text><text>

Chronicle 2929

In furtherance of the remarks of Secretary Perkins, the United States Department of Labor (Office of the Secretary) made available the following:

Manufacturing Industries

made available the following:
Manufacturing Industries
Factory employment declined 0.2% from August to September, and payrolls fell 3.6%. The decrease in employment is contrary to the usual seasonal movement, gains in factory employment having been shown in 16 of the preceding 18 years for which data are available. The current decline in payrolls was due to some extent to shut-downs for the Labor Day holiday and other holidays which occurred during the Sept. 15 pay period. The index of factory employment in September, 1937 (102.1) was 6.9% above the September, 1936, level (95.5) and a similar comparison of the September, 1937, payroll index (100.1) with the September, 1936, index (83.6) shows a gain of 19.7% over the year interval.
Gains in employment from August to September were shown in 52 of the 59 manufacturing industries surveyed, and increased payrolls were reported in 38 industries. Increased activity reflecting seasonal expansion resulted in pronounced employment gains in cottonseed, oil, cake and meal (120.2%), beet sugar (28.5%), confectionery (16.5%), fertilizer (15.6%), canning and preserving (11.9%), and millinery (7.1%). In the last four industries gains from August to September have generally been somewhat greater than they were this year. Other industries in which substantial seasonal gains in employment were shown were lighting equipment (7.0%), jewelry (5.2%), women's clothing (4.3%), silverware and plated ware (4.2%), clocks, watches, and time-recording devices (3.4%), and hardware (3.1%). The gains in jewelry and women's clothing were less than seasonal. Employment in this industry since the latter months of 1932. The september, 1937, employment level (147.2) stands above the level of all months from 1923 to date, with the exception of the first serven months of 1929. In shipbuilding, there was a gain of 3.5% in employment. Among the industries of major importance in which less pronounced as were workny, not ony because the industry may be considered a ba

ing those of all months from 1923 to date, with the exception of 11 months of 1929. Seasonal slackening of operations accounted in large measure for the decreases in employment in woolen and worsted goods (10.1%), ice cream (8.5%), boots and shose (4.6%), beverages (3.2%), and butter (2.9%). Temporary shut-downs for change-over in models resulted in a decrease of 5.3% in the automobile industry. Other industries showing large declines were sugar refining (12.7%), tine cans and other tinware (3.9%), fur-felt hats (3.6%), electric- and steam-car building (5.7%), and cast-iron pipe (3.1%). The decreases in the two last-named industries resulted primarily from labor disputes. Other industries which employ large numbers of workers and in which employment decreased over the month interval were blast furnaces, steel works, and rolling mills (0.1%), foundry and machine shops (0.5%), steam railroad repair shops (2.9%), sawmills (2.4%), furni-ture (0.2%), cotton goods (2.5%), and silk and rayon goods (0.4%), and men's clothing (2.2%. The indexes of factory employment and payrolls are computed from returns supplied by representative establishments in 89 manufacturing industries. The base used in computing these indexes is the three-year average, 1923-25 taken as 100. They have not been adjusted for seasonal variation. Reports were received in September, 1937, from 24 870 manu-facturing establishments employing 4.943,235 wage earners, whose weekly earnings during the pay-period ending nearest Sept. 15 were \$123,189,418. The following tabulation shows the percentages of change in the Bureau's general indexes of factory employment and payrolls from August to Septem-ber in each of the 19 years, 1919 to 1937 inclusive:

		Emplo	yment			Payrolls

Non-manufacturing Industries

Non-manufacturing industries The 16 non-manufacturing industries surveyed with indexes of employ-ment and payrolls for September, 1937, were available, and percentage changes from August, 1937 and September, 1936, are shown below. The 12-month average for 1929 is used as the index base, or 100, in computing the index numbers for the non-manufacturing industries. Information for earlier years is not available from the Bureau's records. INDEXES OF EMPLOYMENT AND PAYROLL TOTALS IN NON-MANU-FACTURING INDUSTRIES SEPTEMBER, 1937, AND COMPARISON WITH AUGUST, 1937, AND SEPTEMBER, 1936

Weekly Report of Lumber Movement, Week Ended Oct. 23, 1937

<text><text><text><text><text><text><text>

Identical Mill Reports

Last week's production of 464 identical softwood mills was 218,626,000 feet, and a year ago it was 262,372,000 feet; shipments were, respectively, 190,383,000 feet and 238,061,000 feet, and orders received, 164,594,000 feet and 260,261,000 feet.

Egyptian Government to Buy Surplus Wheat to Ease Situation Caused by Large Crop and Fall in Prices In order to ease the present situation on the Egyptian wheat marks t caused by an unusually large crop and the consequent fall in prices, the Egyptian Government will buy a portion of the surplus of this commodity, according to a report to the Department of Commerce by the American Commercial Attache, Cairo, and made known by the Com-merce Department Oct. 27. The Department said: Under the present plan the Agricultural Credit Bank will purchase up

Under the present plan the Agricultural Credit Bank will purchase up to about 1,500,000.000 bushels pending the finding of an effective method of disposing of the surplus stocks, according to the report.

Current Beet-Sugar Crop in Czechoslovakia Estimated 3.5% Above Year Ago Czechoslovakia's 1937-38 beet sugai crop, harvesting of which is in full swing, is estimated at 740,000 long tons, raw sugar, according to advices received by Lamborn & Co., New York. This compares with 715,000 tons produced last sea-

R

son, an increase of 25,000 tons, equivalent to 3.5%. The Lamborn firm further announced:

The current season's crop, should the output approximate the forecast,

The current season's crop, should the output approximate the forecast, will be the largest since 1931-32 when 801,000 tons were produced. Czechoslovakia consumes a little over 400,000 tons of sugar annually. The balance of its production is marketed in the world market. Under the International Sugar Agreement which was executed at London, on May 6, 1937, Czechoslovakia was allotted for the year beginning Sept. 1, 1937 an export quota of 334,628 long tons for the world market.

Some Curtailment of Rayon Production During Au-tumn Forecast by "Rayon Organon"—Producers Stocks Increased During September—Production in Japan Shows Gain

Some curtailment in production of rayon yarn is expected during the remainder of 1937, according to the "Rayon Organon," published by the Textile Economics Bureau, Inc., New York. The anticipated increase in autumn demand is expected to be of less-than-normal seasonal proportions, re-sulting in some further accumulation of stocks in the hands of producers. No change in prices is expected. The follow-ing is also from an announcement by the Textile Economics Burgan heaving on its publication.

ing is also from an announcement by the Textile Economics Bureau bearing on its publication: This period of slackened demand, states the paper, is one "in which producers can balance out their stocks as between various deniers and sizes for the first time in over a year." Deliveries of rayon to domestic mills by producers in September, as measured by the "Organon's" index of 560, represents a decline from the August index of 691. The paper points out that "the inherent charac-teristics of the demand for rayon must be considered in evaluating this decline. Unlike cotton and wool, rayon reacts quickly to changes in demand and consequently its deliveries are subject to rapid fluctuations within short periods of time."

short periods of time." Stocks of yarn held by producers showed a corresponding increase, amounting to an 0.5 month's supply at the end of September against 0.2 month's supply at the end of August. "The demand for rayon woven goods continues to be spotty, with stocks of goods adequate," it is stated. "A series of discussions by weavers took place during September on the advisability of cutting out third-shift operations and running on a two-shift basis. According to the press, there had been no agreement reached on the subject by the end of September, although it was brought out that many weaving mills formerly on a three-shift basis already had dropped to the two-shift basis or less. Retail buying showed more activity in late September, but was only on an as-needed basis."

Production of rayon yarn and rayon staple fiber in Japan continues to be stepped up sharply, according to the "Rayon Organon." Plans are now being made indicating a produc-tion of 750,000,000 pounds (yarn plus staple) for 1938, against an estimated production of 500,000,000 pounds for 1937, of which rayon yarn output will approximate 325,-000,000 pounds and rayon staple fiber the balance, said the announcement of the Textile Economics Bureau, which added added:

added: A recent report from Japan states that the government has asked the Japan Woolen Manufacturers Association to substitute rayon staple fiber for wool to the extent of 40% of their annual consumption. The purpose of this request is to reduce the yen exchange requirements for imported wool. Rayon staple today is being produced in Japan at the rate of about 175,000,000 pounds per year, and the substitution mentioned should increase this figure by 55,000,000 pounds. Japanese production of rayon yarn in the first seven months of 1937 totaled 189,563,000 pounds, an increase of 32% over the same 1936 period. July, 1937, production alone totaled 29,468,000 pounds, and the average for the first seven months was 27,000,000 pounds per month.

Petroleum and its Products—West Coast Oil Industry Being Probed—Texas Lifts November Allowable— California Sets Month's Quota—Crude Oil Stocks Show Slump—Oil Production Sags

Show Slump—Oil Production Sags Books of major oil companies operating on the West Coast will be examined by three attorneys sent from Washington by Attorney-General Homer S. Cummings. An investigation of the oil situation there by the Department of Justice's anti-trust division has been in progress for the past six months along with a similar probe on the East Coast. In announcing this in Washington early this week, At-torney-General Cummings pointed out that the Department of Justice obtained a consent decree against the Standard Oil

of Justice obtained a consent decree against the Depat and Oil and other major petroleum companies operating on the Pacific Coast in 1930 and said that the present study is being made with a view toward determining whether there have been violations of the decree or whether more stringent control is needed.

been violations of the decree or whether more stringent control is needed. In a surprise move, the Texas Railroad Commission on Oct 30 issued new proration orders for November lifting the allowable 35,272 barrels above the original daily quota of 1,351,677 barrels set less than two weeks earlier. The revised figure of 1,386,949 barrels is still 26,351 barrels below the Bureau of Mines' November market estimate of 1,413,300 barrels daily for Texas. The original total was 61,625 barrels less than the Federal figure. It also was disclosed that oil operators in the tri-state Rodessa field have proposed a joint conference to be attended by proration regulation bodies of Texas, Louisiana and Arkansas to settle upon a uniform allowable for the wells in the respective State's areas. This followed the news that Governor Bailey of Arkansas had made known his intention of asking the State Board of Conservation to suspend its recent order settling the Miller County allowable of Rodessa at 10,000 barrels daily for November which was accepted as an indication of open-well production in that field.

Somewhat belatedly, the Central Committee of California Oil Producers on Nov. 2 announced that it had fixed a November quota for the State at 674,600 barrels daily, the same figure as recommended by the United States Bureau of Mines. The new allowable is 2.21%, or 14,600 barrels, above the October allowable of 660,000 barrels daily. Pro-duction for October was reported to have averaged approxi-mately 700,000 barrels, or 40,000 barrels daily above the suggested allowable which was due to flush production in the Wilmington and El Segundo fields. Stocks of domestic and foreign crude oil held in the United States for the second consecutive week showed a sharp contra-seasonal contraction during the Oct. 23 week, the U. S. Bureau of Mines reported on Nov. 3. The total was off 1,341,000 barrels from the previous week to 306,556,000 barrels. The decline was comprised of a loss of 1,313,000 barrels in domestic crude inventories and 23,000 barrels in foreign stocks. In the Oct. 16 week, stocks were off 1,112,000 barrels following a dip of 26,000 barrels in the previous week.

foreign stocks. In the Oct. 16 week, stocks were off 1,112,000 barrels following a dip of 26,000 barrels in the previous week. Despite a broad gain in Texas production, daily average crude oil output for the Nation as a whole showed a decline of 10,350 barrels during the final week of October to 3,602,-950 barrels, the American Petroleum Institute reported. The total compared with the October recommendation of 3,568,100 barrels set by the Bureau of Mines, and actual production during the comparable period a year earlier of 3,043,500 barrels. Oklahoma followed California into lower production levels with Kansas and Louisiana producers also paring their output.

production levels with Kansas and Louisiana producers also paring their output. An increase of 4,350 barrels lifted daily average production for the Lone Star State to 1,470,800 barrels compared with the Railroad Commission allowable of 1,427,767 and the Bureau's recommended figure of 1,430,300 barrels daily. California slumped 7,300 barrels to a daily average of 697,000 barrels in contrast to the joint State-Federal allowable of 660,000 barrels ruling for October. Oklahoma dipped 3,050 barrels to 586,750 barrels, which contrasted with the State quota of 600,000 barrels and the Federal figure of 629,200 barrels. Kansas was off 250 barrels to 185,600 barrels, against 193,800 set by the State control agency and 199,900 barrels as recommended by the Bureau of Mines. Louisiana was off 700 barrels to 244,000 barrels, against 266,700 barrels and 254,600, respectively. Feature of the current week's session of the gigantic anti-trust law suits going on before a special Federal jury in Madison, Wis., was the testimony of employees of "Platt's Oilgram," which along with the Chicago "Journal of Com-merce" and the "National Petroleum News" was charged with "knowingly" publishing false prices for gasoline, that the daily gasoline quotations were based upon informa-tion and prices furnished by refiners and brokers rather than by the major companies themselves as charged by prosecution attorneys. Federal Judge Patrick Stone ruled late in the week that sessions hereafter will last only five hours a day. There were no changes in the crude oil price structure this week.

There were no changes in the crude oil price structure this week.

FINED PRODUCTS—GASOLINE PRICES BREAK ALONG WIDE FRONT—NEW YORK-NEW ENGLAND AND MID-WEST AREAS HIT—BUNKER FUEL OIL PRICES LOWERED— REFINED MOTOR FUEL STOCKS SHOW GAIN-REFINERY OPERA-TIONS DECLINE

TIONS DECLINE Seasonal declines in gasoline consumption weakened the price structure to the point where wide-spread reductions averaging ½ cent a gallon were posted throughout the New York-New England and mid-west marketing territories with the advent of November. Socony-Vacuum Oil Co. on Nov. 3 reduced the tank-car and tank-wagon prices of all grades of gasoline ½ cent a gallon throughout New York and New England. Exceptions to the blanket increase included Boston and Springfield, Mass., Bridgeport, Conn., several Maine cities and Buffalo and Syracuse, New York, where tank-wagon prices were not affected.

affected. A reduction of 0.3 cents a gallon in normal wholesale prices of all grades of motor gasoline to dealers and in tank-wagon prices to consumers was posted by Standard Oil Co. of Indiana on the same date, also to meet competitive con-ditions intensified by declining gallonage totals. The Standard of Indiana reduction affected Michigan; Indiana, Illinois, Minnesota, Iowa, Missouri. Kansas, the Dakotas and Wisconsin. Where present posted prices are subnormal by an amount

and Wisconsin. Where present posted prices are subnormal by an amount more than the current reduction, there will be no change in the postings, it was pointed out. Under the new schedule, Chicago prices for third-grade gasoline to dealers will be 12 cents a gallon, for regular 13.2 cents and for premium 14.7 cents, all taxes included. A reduction of 14 cent a callon in the State-wide price

A reduction of ½ cent a gallon in the State-wide price structure was made immediately by Standard Oil Co. of Ohio with all three grades of gasoline affected. The new

schedule puts third-grade at 16 cents, regular at 16.5 and premium at 18.5 cents a gallon respectively. Standard Oil of Kentucky cut prices of all three grades of gasoline by $\frac{1}{2}$ cent a gallon.

Standard Oil Co. of New Jersey on Nov. 3 announced a reduction of 10 cents a barrel for Grade C bunker fuel oil at all North Atlantic ports. This makes the New York price

at all North Atlantic ports. This makes the New York price \$1.25 a barrel f.o.b., terminal, which establishes the same price level as fixed in steamship contracts for 1938 contracts. Stocks of finished and unfinished gasoline mounted during the final week of October despite a fractional decline in refinery operations, the American Petroleum Institute's weekly survey disclosed. A gain of 282,000 barrels lifted the total to 66,836,000 barrels. Refinery and bulk terminal holdings were up, the latter nearly 250,000 barrels, but stocks of unfinished motor fuel slumped around 60,000 barrels. Refinery operations eased fractionally to 82.1% of capacity against 83% a week earlier, with daily average runs of crude oil to stills dipping 35,000 barrels to 3,345,000 barrels. Stocks of gas and fuel oil climbed 1,436,000 barrels to 121,-070,000 barrels.

070,000 barrels.

Representative price changes follow:

Nov. 3-Socony-Vacuum Oil posted a ^{1/2}-cent a gallon reduction in prices of all grades of gasoline (tank car and tank wagon) throughout its New York and New England marketing area.

Nov. 3—Standard of Indiana posted a cut of 0.3 cents a gallon in normal wholesale prices of all grades of gasoline to dealers and tank wagon prices to consumers throughout its Mid-West marketing area.

Nov. 3-Standard Oil of Ohio and Standard of Kentucky posted State-wide reductions of ½ cent a gallon on all grades of gasoline.

Nov. 3-Standard of New Jersey reduced Grade C bunker fuel oil 10 cents barrel at all North Atlantic ports, making New York \$1.25 a barrel, f.o.b., terminal.

Weekly Coal Production Statistics

The weekly coal report of the National Bituminous Coal Commission stated that the total production of soft coal for the country as a whole in the week ended Oct. 23, is estimated at 9,465,000 net tons. Compared with the output in the preceding week, this shows a slight decrease-115,000 tons, or 1.2%. Production in the corresponding week of 1936 amounted to 9,802,000 tons.

The cumulative production of soft coal for the year 1937 to date stands 7.5% ahead of 1936 the cumulative production of all coal during the year to date, is 5.7% ahead of 1936.

The United States Bureau of Mines in its weekly coal statement said that production of anthracite in Pennsylvania continued to increase during the week ended Oct. 23. Total output is estimated at 1,172,000 tons, a gain of 1.9% over production in the preceding week, and an increase of 31.7% when compared with production in the like week of 1936. 'The consolidated report of both the above-mentioned organizations follow:

Average Crude Oil Production During Ended Oct. 30 Placed at 3,602,950 Barrels Daily During Week

Ended Oct. 30 Placed at 5,002,500 Darrels The American Petroleum Institute estimates that the daily average gross crude oil production for the week ended Oct. 30, 1937, was 3,602,950 barrels. This was a loss of 10,350 barrels from the output of the previous week, and the current week's figures remained above the 3,568,100 barrels calculated by the United States Department of the Interior to be the total of the restirctions imposed by the Various oil-producing States during October. Daily avervarious oil-producing States during October. Daily aver-age production for the four weeks ended Oct. 30, 1937, is estimated at 3,599,350 barrels. The daily average output for the week ended Oct. 31, 1936, totaled 3,043,500 barrels. Further details, as reported by the Institute, follow:

Imports of petroleum for domestic use and receipts in bond at principal United States ports for the week ended Oct. 30 totaled 1,241,000 barrels, a daily average of 177,286 barrels, compared with a daily average of 118,000 barrels for the week ended Oct. 23 and 142,214 barrels daily for the four weeks ended Oct. 30. Receipts of California oil at Atlantic and Gulf Coast ports for the week mided Oct. 300 barrels a daily average of 20,000 barrels

Receipts of California oil at Atlantic and Gulf Coast ports for the week ended Oct. 30 totaled 140,000 barrels, a daily average of 20,000 barrels compared with a daily average of 37,000 barrels for the week ended Oct. 23 and 22,143 barrels for the four weeks ended Oct. 30. Reports received from refining companies owning 89% of the 4,159,000 barrel estimated daily potential refining capacity of the United States, indicate that the industry as a whole ran to stills, on a Bureau of Mines' basis, 3,345,000 barrels of crude oil daily during the week, and that all companies had in storage at refineries, bulk terminals, in transit and in pipe lines as of the end of the week, 66,836,000 barrels of finished and unfinished gasoline production by companies owning 94.8% of the potential charging capacity of all cracking units indicates that the industry as a whole, on a Bureau of Mines' basis, produced an average of 780,000 barrels daily during the week. on-Ferrous Metals—Copper and Lead Prices Reduced in Domestic Trade—London Sharply Lower "Metal & Mineral Markets" in its issue of Nov. 4 reported Non-Ferrous Metals-

"Metal & Mineral Markets" in its issue of Nov. 4 reported that industrial and financial news again was disappointing, and consumers of non-ferrous metals showed so little buying interest in the last week that the question of prices was rarely discussed by sellers. London quotations broke sharply, this time not so much on news from this side as on the un-favorable trend in Continental politics. The open-market quotation for domestic copper was established during the week at 11% c., Valley, a decline of one-quarter cent on Nov. 3, the price of lead was lowered one-quarter cent. Zine was nominally unchanged. Tin made a new low for the movement. Domestic antimony was reduced one-half movement. Domestic antimony was reduced cent a pound. The publication further reported: one-half

Copper

Sales of copper in the domestic market as reported by the Copper Asso Sales of copper in the domestic market as reported by the Copper Asso-ciation were larger in the last week than in the preceding week, amounting to 7,271 tons, but, in view of the fact that a fair quantity is usually booked at the end of each month on contract, the figures do not reflect the actual state of the market. New business booked in the open market in the last seven days was in small volume, especially after the price situation again became unsettled. On Oct. 28 business was booked in the morning and early afternoon at 12c., Valley, but before the close of the day a custom smelter announced that copper could be had at $11\frac{3}{4}$ c., and actually sold at the lower level. Over the remainder of the week copper was available at $11\frac{3}{4}$ c. The large mine operators maintained their nominal quotations at 12c. all week.

11%c. The large mine operators maintained their nominal quotations at 12c. all week. Domestic sales of copper for October came to only 23,238 tons, which compares with 28,936 tons in September. Sales outside of the United States by producers reporting to the Cartel amounted to 97,000 tons in October, which is Southermarker.

against 72,000 tons in September. The foreign market weakened last week chiefly on discouragement over the political developments on the Continent. Buying abroad in the last days has been dull.

few days has been dull. The committee representing the foreign group is keeping the position of copper continually under review, according to Sir Auckland Geddes, who addressed stockholders of Rhokana Copper in London during the last week. Heinolds that the increase in stocks of copper so far accomplished is by no means dangerous and a further increase in the supply on hand might be advisable in order to take care of positions should a sudden buying wave come. However, he added, with production running at a high rate, the control committee thought it best to give stability to the market by the interview. reduction in output announced recently.

Lead

Lead Declining prices in London and little business in the domestic lead market during the week brought another decline in the price. On the afternoon of Nov. 3, the quotation was lowered one-quarter of a cent, from 5.50c., New York, to 5.25c. Sales for the week were small, totaling 1,515 tons, against 7,901 tons in the preceding week. Demand was mostly for prompt metal, owing to continued apprehension over the business outlook. Ship-ments to consumers during October may amount to less than 40,000 tons, according to some estimates. An increase in stocks is expected. The price closed the week at 5.25c., New York, which was also the con-tract settling basis of the American Smelting & Refining Co., and at 5.10c., St. Louis.

St. Louis.

Total lead stocks at United States smelters and refiners (including lead for the bullion, &c.) on Oct. 1 amounted to 171,146 tons, against 179,396 tons a month previous and 293,506 tons a year ago, according to the American Bureau of Metal Statistics.

Zinc

ZINC F Sales of zinc were few and far between in the last week. The moderate tonnage sold brought 5.75c., St. Louis, with most sellers not disposed to force business under prevailing dull marketing conditions. Zinc concentrate was reduced in price in the Tri-State district, bringing the quotation in line with the current market for the metal. Official figures on imports of slab zinc into the United States for September show that 14,741 tons arrived in that month. This compares with 3,960 tons in August.

Tin

Business in tin continued dull both here and abroad during the last week, with quotations making new lows for the movement. Straits tin, New York, declined to 46c. Nov. 3. Favorable statistics for October showing a decline in stocks and the recent announcement of probable curtailment in first-quarter production by the International Tin Committee failed to bolster confidence in a thin market.

United States deliveries during October were 8,210 tons, against 8,245 tons in September. Total deliveries for the 10-month period amounted to 73,450 tons, compared with 61,730 tons in the same period last year. The world's visible supply at the end of October including the Straits and Arnhem carry-overs was 22,863 tons, against 24,014 tons in September. Chinese tin, 99%, was nominally as follows: Oct. 28, 47.000c.; 29th, 46.750c.; 30th, 46.250c.; Nov. 1, 45.875c.; 2d, Holiday; 3d, 44.250c.

Pig Iron Output Drops Sharply: October Daily Rate Down 17.9%

Down 17.9% The "Iron Age," in its issue of Nov. 4, reported that production of coke pig iron in October dropped to 2,892,629 gross tons from 3,410,371 in September. The loss in the daily rate amounted to 17.9%, or from 113,679 in September to 93,311 in October. The daily rate last month was the lowest since September, 1936, which was 91,010 tons. The "Iron Age" further stated:

The "Iron Age" further stated: The "Iron Age" further stated: There was a net loss of 30 furnaces making iron on Nov. 1, the 151 operating at \$3,850 tons daily, against 181 on Oct. 1, producing 110,260 tons daily. Thirty-two furnaces were blown out or banked and two fur-naces were put in blast. The United States Steel Corp. took 15 furnaces off blast. Independent producers took 14 off blast and put two in oper-ation, and merchant producers took 14 off blast and put two in oper-ation, and merchant producers blew out or banked three units. Among the furnaces blown out or banked three units. Among the furnaces blown out or banked three units. Carrie, one Duquesne, two Edgar Thomson, one Ohio, one Mingo, two South Chicago (old), two South Chicago (new), and three Gary, of the Carnegie-Illinois Steel Corp.; one Central, American Steel & Wire Cor; one Harriet, Wickwire-Spencer Steel Co.; one Bethlehem and one Sparrows Point, Bethlehem Steel Co.; two Aliquippa and two Eliza, Jones & Laughiin Steel Corp.; one Midland, Pittsburgh Crucible Steel Co.; one Haselton and the United Furnace, Republic Steel Corp.; one Campbell, one Hubbard and one Indiana Harbor furnace, Youngstown Sheet & Tube Co.; one Martins Ferry, Wheeling Steel Corp.; Hamilton No. 2, American Rolling Mill Co.; one Federal, Interlake Iron Co., and the Sharpsville furnace, Pittsburgh Coke & Iron Co. The two furnaces put in blast were a Monessen unit, Pittsburgh Steel Co., and a Weirton Steel Co. furnace. DAILY AVERAGE PRODUCTION OF COKE PIG IRON IN THE UNITED

Steel Production Continues Decline-Now at 48% of

Capacity The "Iron Age" in its issue of Nov. 4 reported that steel ingot production has declined this week to 48% of the country's capacity in a further adjustment to the small volume of new business. Of the major producing districts, only at Pittsburgh has the rate been maintained at last week's level of 42%. The Chicago district has dropped 2 points to 42%, the Wheeling-Weirton district 4 points to 72%, the Cleveland-Lorain district 6 points to 54%, the Youngstown area 5 points to 44%. In the Buffalo district a sharp drop of 18 points to 341/2% was caused partly by the shutting down of the Republic plant this week for repairs. Only in one district, southern Ohio, has a rise in output occurred, from 48% to 55%, occasioned by the better operations of the leading producer in that district, brought about partly by increased automotive buying. The "Age" further reported:

Curtailment of Lake Superior ore shipments because of lessened requirements will prevent the fulfillment of the expected water movement of 66,-000,000 tons this year. Water shipments for the season up to Nov. 1 were 61,171,157 tons, but only about a million tons will be brought down this month. However, the movement will be by far the largest since 1929.

Note: However, the movement will be by far the largest since 1929. October sales of steel were from 15 to 30% below those of September de-pending upon the company and the product, the chief declines being suffered by the heavy steels. It appears, however, that the drop in buying has been checked, but the chances of marked improvement have been lessened by the hand-to-mouth buying of the automobile companies, upon which much dependence has been placed for a business pickup. The outcome of the New York Automobile Show, results of which will be announced this week, is expected to have a processories of the new former of the new former of the start of the new former of the is expected to have a pronounced effect on steel purchases of automobile companies from now on. Railroad buying is at rock-bottom minimum as the carriers prepare their

Railroad buying is at rock-bottom minimum as the carriers prepare their case a 15% rate rise application and an increase in passenger fares. While some rail buying is expected this winter, it is believed now that important equipment purchases will be deferred pending a decision by the Interstate Commerce Commission on further rate increases, which probably will not be announced for at least three months. Meanwhile export orders are alding rail mills to some extent. The Ensley mill, idle since Aug. 27, has stated rolling 13,000 tons of rails for the Manchurian Railways and Bethle-hem has booked 17,000 tons of rails for Chilean railways. Export, buying generally does not bear out the promise of the large volume of inquiries that has been quoted on, the prices offered by foreign buyers in many instances being too low for ready acceptance here. Three American fabricators will share a Japanese order for tanks that will require 13,950 tons of plates. tons of plates.

tons of plates. Building construction volume is waning, many projects having been shelved because of uncertainty as to Administration policies toward business, as shown by the recent statement of public utility interests. The Bureau of Reclamation will take bids Dec. 10 on completion of the Grand Coulee Dam and power plant, which will require 79,000 tons of steel, including 25,000 tons of reinforcing bars. The battelship program will call for about 20,000 tons of steel and an airport in California requires 10,000 tons of milling.

20,000 tons of stort and the angle of the stort and the store of the store and the store of the store and the store of the

The American Iron and Steel Institute on Nov. 1 announced that telegraphic reports which it has received indicated that the operating rate of steel companies having 98%of the steel capacity of the industry will be 48.6% of capacity for the week beginning Nov. 1 compared with 52.1% one week ago, 66.1% one month ago and 74.7% one year ago. This represents a decrease of 3.5 points, or 6.7% from the estimate for the week ended Oct. 25, 1937. Weekly indicated rates of steel operations since Oct. 5, 1936, follow:

1936-	1937-	1 1937-	1937-	
Oct. 575.3%	Jan. 1178.8%	Apr. 2692.3%	Aug. 984.6%

"Steel" of Cleveland, in its summary of the iron and steel markets on Nov. 1, stated:

markets on Nov. 1, stated:
Conditions in the steel market appear to have reached a fairly balanced level, consumers buying only to fill in their stocks as current needs dictate, meanwhile operating largely from inventory.
Some hopeful factors appear, as resumption of buying for agricultural implement needs is expected as stocktaking season for that industry ends, and automobile builders' needs should become larger when new models are out and fall selling starts. Delay in demand from the latter source has had its effect on various steel products and also on pig iron demand by foundries allied to industry.
All indications seem to point to a quiet period over fourth quarter, with production keyed closely to consumption and volume of business depending on the situation in general business and the degree of confidence felt in the future.

An induction keyed closely to consumption and volume of business depending production keyed closely to consumption and volume of business depending on the situation in general business and the degree of confidence feit in the future. It is too early to expect response by railroads to the higher rates granted by the ICC and efforts to obtain a further increase may have some dampen-ing effect on buying from that source. The unequal financial returns from the new rates, giving highest gains to roads largely interested in coal handling results in some carriers receiving relatively little benefit. Downward movement of the steel production rate last week was markedly less precipitate than in the previous period, indicating approach to the low point of the decline. Adjustment of production to demand appears to have been achieved in great measure. The national rate last week was 51% of capacity, a drop of 2 points from the preceding week. Pittsburgh declined 8 points to 41%, Chicago 2 points to 44, Eastern Pennsylvania 4 points to 59, Buffaio 7 points to 51, New England 40 points to 25, and 0 beroit 5 points to 90. Clicinanti advanced its rate 4 points to 70%, and st. Louis and Birmingham were unchanted at 64 and 51.6%, respectively. It is apparent that the rapid fall in steelworks operations is not an index of current or future consumption of steel. Large inventories remaining from the heavy buying of first half, certainty of no price increase and general unsettlement of the business outlook conspired to cause consumers to reply on their steel stocks and delay further buying. Steel has been going into consumption at a much better rate than shipments of recent weeks would indicate. How soon depletion of stocks will force buying depends on con-tinuance of demand for manufactured products. Deepest cuts in production have been made by mills whose output is largely in heavier steel, structurals, rails, plates and similar products, while those with large capacity for sheets, strip and light steel are in better posi-tion

tion and are able to continue at a higher rate. This division is caused by absence of railroad buying and restricted demand for building purposes on the one hand and more active business in automobiles and consumer goods, such as refrigerators, air conditioning and radios, on the other. About 77,000 tons of plates, shapes, reinforcing bars and pipe will be required for an extension of Grand Coulee dam on which Dec. 10 has been set as tentative date for opening bids. Japanese interests are expected to award with n a few days about 14,000 tons of plates for 45 tanks of 82,000 barrels capacity, to be fabricated in Japan Automobile production last week was practically even with the preceding, with 91,905 units, compared with 90,155 the week before. General Motors produced 45,225 cars, compared with 44,970, Chrysler 27,775 against 27,-675, Ford 1,375, compared wity 765 and other builders a total of 15,780, compared with 18,495 the previous week. Because of drastic adjustment of scrap quotations, especially severe in Eastern Pennsylvania, "Steel's" composite of steelmaking scrap dclined last week by 91 cents, to \$14.46, the level prevailing at the middle,of August. The iron and steel composite was lowered 14 cents, to \$39.33 by the weakness in scrap. Finished steel composite is unchanged at \$61.70. Steel ingot production for the week ended Nov. 1, is placed at 52% of capacity, according to the "Wall Street Journal" of Nov. 4. This compares with 55%, a revised figure, for the previous week, and with 61% two weeks ago. The "Journal" further reported: United States Steel is estimated at 43%, against a revised figure of 45% in the week before and 49% two weeks ago. Leading independents are credited with 60%, compared with a revised figure of 64% in the preceding week, and 71% two weeks ago.

Power of New York State Department of Agriculture to Restrict Sale of Milk Upheld by Appellate Division of New York Supreme Court-Ruling in Case Brought by Sheffield Farms Co., Inc.

On Oct. 27 the Appellate Division of the New York Supreme Court upheld as constitutional the power of the State Department of Agriculture to restrict the sale of milk by distributors to limited areas. According to an Albany (N. Y.) account to the New York "Times" from which this is learned, the Court in a test case brought by the Sheffield Farms Co., Inc., unanimously rejected the company's con-tention that the restrictions constituted "an unauthorized delegation of legislative powers." The advices further said:

The Sheffield Company called "unreasonable and discriminatory" the practice of limiting milk sales to areas in which the company distributed milk in March, 1934, except when permission for expansion of territory was granted by the Agriculture Commissioner. Contending that the limitations constituted an effort to "freeze business," the Sheffield company asked the Court to eliminate the license restrictions

Volume 145

which it said, "prevented the company from expanding a fraction of its normal growth." The State Department of Agriculture denied that restriction of a license

to a particular market was unconstitutional and argued that the Sheffield company could not attack the constitutionality of the provision because it had accepted the licensing limitations without objection for six months.

The Week with the Federal Reserve Banks

The Week with the Federal Reserve Banks During the week ended Nov. 3 member bank reserve balances decreased \$62,000,000. Reductions in member bank reserves arose from increases of \$46,000,000 in money in circulation and \$17,000,000 in Treasury deposits with Federal Reserve banks and a decrease of \$11,000,000 in Reserve bank credit, offset in part by decreases of \$6,000,000 in Treasury cash other than inactive gold and \$4,000,000 in non-member deposits and other Federal Reserve accounts in Treasury cash other than inactive gold and \$4,000,000 in non-member deposits and other Federal Reserve accounts. Excess reserves of member banks on Nov. 3 were estimated to be approximately \$1,050,000,000, a decrease of \$20,-000,000 for the week. Inactive gold included in the gold stock and Treasury cash amounted to \$1,272,000,000 on Nov. 3, an increase of \$2,000,000 for the week. The statement in full for the week ended Nov. 3, in com-parison with the proceeding week and with the corresponding

The statement in run fun the week end with the corresponding date last year, will be found on pages 2962 and 2963. Changes in the amount of Reserve bank credit outstanding and related items during the week and the year ended Nov. 3, 1937, were as follows: Increase (+) or Decrease (--)

Complete Returns of Member Banks of the Federal Reserve System for the Preceding Week

Reserve System for the Preceding Week As explained above, the statements of the New York and Chicago member banks are given out on Thursday, simul-taneously with the figures for the Reserve banks themselves, and covering the same week, instead of being held until the following Monday, before which time the statistics cover-ing the entire body of reporting member banks in 101 cities cannot be compiled.

In the following will be found the comments of the Board of Governors of the Federal Reserve System respecting the returns of the entire body of reporting member banks of

the Federal Reserve System for the week ended with the close of business Oct. 27:

The condition statement of weekly reporting member banks in 101 leading The condition statement of weekly reporting memoer panks in 101 reasons cities shows the following principal changes for the week ended Oct. 27: Decreases of \$57,000,000 in commercial, industrial and agricultural loans and \$163,000,000 in loans to brokers and dealers in securities; an increase of \$37,000,000 in holdings of United States Government direct obligations; and decreases of \$142,000,000 in deposits credited to domestic banks, \$25,-000,000 in deposits credited to foreign banks, and \$37,000,000 in Govern-ment domestic

and decreases of \$142,000,000 in deposits credited to domestic banks, \$25,-000,000 in deposits credited to foreign banks, and \$37,000,000 in Govern-ment deposits. Commercial, industrial and agricultural loans declined \$38,000,000 in New York City, \$19,000,000 in the Chicago district and \$57,000,000 at all reporting member banks. Loans to brokers and dealers in securities declined \$150,000,000 in New York City and \$163,000,000 at all reporting member banks. Loans to banks declined \$11,000,000 in New York City. Holdings of United States Government direct obligations increased \$50,-000,000 in New York City and \$12,000,000 in the Richmond district, and declined \$9,000,000 in the San Francisco district and \$8,000,000 in the Chicago district, all reporting member banks showing a net increase of \$37,000,000 for the week. Holdings of "Other securities" declined \$10,-000,000 in New York City and \$3,000,000 at all reporting member banks. Demand deposits-adjusted increased \$22,000,000 in the Chicago district and \$10,000,000 in the Cleveland district, and declined \$8,000,000 each in the Kansas City and San Francisco districts, all reporting member banks showing a net increase of \$15,000,000 for the week. Time deposits de-clined \$11,000,000. Government deposits declined \$22,000,000 in New York City and \$37,000,000 at all reporting member banks. Deposits credited to domestic banks declined in all districts, the principal decreases being \$55,000,000 in New York City, \$14,000,000 each in the Philadelphia and San Francisco districts and \$12,000,000 each in the Philadelphia and San Francisco districts and \$22,000,000 in New York City and \$37,000,000 in New York City, \$14,000,000 each in the Philadelphia and San Francisco districts and \$12,000,000 each in the Philadelphia and San Francisco districts and \$12,000,000 each in the Philadelphia and San Francisco districts and \$12,000,000 each in the Philadelphia and San Francisco districts and \$12,000,000 each in the Philadelphia and San Francisco districts and \$12,000,000 each i

Opening in Brussels of Nine-Power Conference to Seek Solution of Far East Situation—Norman H. Davis, United States Delegate, Says Effort Will Be Made to Urge upon Japan and China Peaceful Processes—Committee Proposed to Seek Peace Between Japan and China

Between Japan and China At the opening session in Brussels, Belgium, on Nov. 3 of the Conference held to discuss the alleged violation of the Nine-Power Treaty, incident to the Japanese invasion of China, Norman H. Davis, the United States delegate, delivered the opening speech. In his concluding remarks he said "we come to this Conference with no commitments except those to treaty provisions and to principles which the Government of the United States has repeatedly and em-phatically affirmed." He added: The Government of the United States is prenared to share in the common

The Government of the United States is prepared to share in the common efforts to devise, within the scope of these treaty provisions and principles, a means of finding a pacific solution which will provide for terminating hostilities in the Far East and for restoring peace in that area.

On Nov. 4 Great Britain, France and the United States joined in a new attempt to bring Japan into peace negotia-tions, according to United Press accounts from Brussels, which also said in part:

Led by the three democracies, eight principal Powers agreed at a private two-hour conference that a small committee, probably comprising the three nations, should be appointed to approach Tokio and try to find a basis for peace between China and Japan. The proposal was adopted later by the main body of the Conference.

The three Powers also decided that Germany should be asked to join the

The three Fowers also decided that certificity should be asset to join the peace efforts. . . . Besides the three Powers, nations represented at the private meeting were Italy, the Netherlands, Belgium, Portugal and Russia. All except Russia are signatories of the Nine-Power Treaty. Leaving the meeting, the delegates tried to evade questions about the decisions reached. However, it was learned that Paul Spaak, Belgium Foreign Minister, proposed on behalf of the three Powers that the small committee approach China and Japan and offer its "good offices." Count Luigi Aldrovandi-Marescotti of Italy objected, maintaining that the Conference should merely invite China and Japan to settle their dif-ferences between themselves. This corresponds with Japan's contention that the other Powers should keep their hands off and let Japan settle her own account with China.

own account with China. Norman H. Davis, Foreign Secretary Anthony Eden, and Foreign Minister Yvon Delbos, representing the three Powers, rejected the Italian viewpoint, holding that it would mean abandonment of the Nine-Power Treaty

Treaty. Count Aldrovandi-Marcscotti was forced to give way and the eight Powers adopted the proposal. The idea that the Conference should send a new invitation to Japan to attend was abandoned. Italian sources, how-ever, said the small committee might send a message to Tokio pointing out that Japan would not be treated as a criminal if she sends a delegate. When at the meeting of the full Conference this afternoon the decisions of the eight Powers were presented, Mr. Davis proposed establishment of the small committee to approach Lange supervising that the areal accurate

the small committee to approach Japan, suggesting that the small com-mittee draft a reply to the Japanese note refusing to attend the Conference. M. Delbos proposed that the committee also offer its "good offices" to China and Japan.

The Conference adopted the proposals despite Italy's objections. Count Aldrovandi-Marescotti declared that the Conference should go no further than to try to encourage direct negotiations between China and Japan. The Eight-Power meeting was decided upon by Mr. Davis, Capt. Eden and M. Delbos.

While Mr. Devis, Capt. Eden and M. Delbos were conferring it was learned that Sir Robert H. Clive, British Ambassador to Belgium, who recently had been transferred from Tokio, conferred with Caburo Kurusu, the Japanese Ambassador to Belgium. Sir Robert was understood to have asked Ambassador Kurusu whether Japan would be willing to attend an-other conference to consider a general Far Eastern settlement if the present one succeeds in arranging an armistice in the present fighting.

On the opening day, Nov. 3, Dr. Wellington Koo, the Chinese delegate, declared that China will continue to fight until Japan halts her aggression. He was further quoted as saving:

If the rampant forces of Japanese aggression in the Far East are not effectively checked and faith in the pledged word is not restored, there is every danger these forces will over-run the boundaries of China and throw the world into a general war from which no important power will be able to keep aloof for long.

From United Press advices from Brussels we also quote:

From United Fress advices from Brussels we also quote: China, the delegate said, will only accept peace which conforms with the stipulations of the Nine-Power Treaty, guaranteeing China's independence and territorial integrity. Dr. Koo spoke after Norman H. Davis, American delegate, had appealed for an "equitable adjustment" of the war. Mr. Davis was fully supported by Anthony Eden, British Foreign Secretary, Yvon Delbos, of France, and Maxim Litvinoff of Russia. Italy alone sounded a note of opposition. "The delegates of several Powers represented at this Conference, have expressed a sincere desire to bring about a cessation of hostilities now raging between my country and Japan and to work for the restoration of peace by agreement," Dr. Koo said.

between my country and Japan and to WORE for the restoration and agreement," Dr. Koo said. "China, whose love of peace is traditional, appreciates this gesture of good will. We desire peace, but know that we cannot obtain it in the presence of Japanese aggression. "As long as that aggression persists we are determined to continue our resistance. It is not peace at any price that will either render justice to China or do credit to civilization," he said. Capt. Eden held a brief conference with Mr. Davis after the American delegate had had luncheon with French Foreign Minister Delbos. Capt. Eden also saw Ambassador Saburo Kurusu, Japanese Ambassador, and it was understood they discussed whether the Ambassador would be willing to act as a channel for the Conference to keep in touch with the Japanese Government.

Government. The Conference can merely invite China and Japan to enter direct nego-tiation, said Count Luigi Aldrovandi-Marescotti, Premier Mussolini's representative here, in his speech. Obviously referring to the recent speech of President Roosevelt in Chicago

ich he suggested a "quarantine" of aggressor nations, Count Aldro vandi-Marescotti said:

There can be no question of any direct or indirect coercive measures being taken. Nor can we speak more or less of a moral quarantine. It is only the parties directly concerned who are in a position to eliminate underlying causes.

M. Delbos paid high tribute to President Roosevelt, who he said had put United States in the "forefront of the countries working for peace." uccess at the Conference, he said, would be the "signal of hope for the the United S

entire world. entire world." Count Aldrovandi-Marescotti said, however, that without Japan at the Oonference, any discussion would be useless. Therefore, he added, the Italian Government makes the fullest reservation regarding any effort by the Powers to adopt a resolution which merely would show that the countries

It would be useless, he concluded, to send a commission to the Far East to study the situation because previous commissions had never accomplished anything.

to study the situation because previous commissions had never accomplished anything.
Mr. Davis said that in the Far East important changes in the thought and activities of a vast people were taking place. All the world has been impressed with achievements effected by Japan and China.
When the Nine-Power Treaty was signed, he said, the signatories believed that the Chinese had the capacity to establish a "new order."
"During the years which have elapsed, especially the more recent years," he added, "the Chinese have made rapid progress along a course which tends to confirm the faith on which the Nine-Power Treaty was founded.
"We believe that cooperation between Japan and China is essential to the best interests of those two countries and to peace throughout the world. We believe that such cooperation must be developed by friendship, fair play and reciprocal confidence. If Japan and China are to cooperate it must be as friends and as equals and not as enemies.
"The problems underlying Sino-Japanese relations must be solved on a basis that is fair to each and acceptable to both."
Paul Spaak, Belgian Foreign Minister, who was elected President of the Conference, welcomed the delegates on behalf of Belgium. He said that

Japan's refusal to attend made the task of the Conference difficult. He emphasized, however, that the meeting would not be a tribunal before which Japan could be taken as a "culprt." "Our aim is to hait the war, if possible," he said. "What we want to do is to reestablish peace and law."

Under date of Nov. 1 Associated Press advices from Brussels said:

A high Japanese authority told the Associated Press tonight that Japan's ficial recommendation to the Brussels Conference on the Far Eastern inflict would be to end the Conference as quicky as possible and get Japan official

On Nov. 4 it was reported in a wireless message from Berlin to the New York "Times" that Germany has offered her services for mediation of the Sino-Japanese conflict, and that the offer has been accepted by both powers.

Sino-Japanese Conflict—Both Sides Claim Advances— Invasion of Part of International Settlement Brings Apology to United States by Japan

Reporting on Nov. 5 that Shanghai had endured another day of constant shaking from a duel of heavy artillery beyond the International Settlement's western borders, wireless advices from Shanghai to the New York "Times" stated that again both Chinese and Japanese official statements con-cerning the outcome of the bitter fighting were contradictory. In part the message to the "Times" went on to say:

The Chinese admit that about 2,000 Japanese soldiers attained the south bank of Soochow Creek Wednesday, Nov. 3, but they claim most of them were slain or driven back during that night's counter offensive, leaving only three isolated posts on the south bank, which is being surrounded and threatened with annihilation

The Japanese counter these claims by declaring that they have hurled a large force southward of the creek and now hold a continuous front about six miles long, and they say their south bank foothold is of varying depths from two-thirds of a mile to more than a mile. Apparently another of those periods of deadlock has arrived. The Chinese are strengthening their entrenchments and bringing up reinforce-ments, while the Japanese are straining every effort to repair roads and bring heavy artillery within striking range of the Chinese positions. Japan at present has 42 warships between Shanghai and Woosung and nearly 40 more just outside the river mouth—including six airplane car-riers. Two or three transports are daily landing replacements for the killed and wounded. Many supply and munitions ships arrive daily, most of them unloading at Woosung.

Earlier in the week (Nov. 2) a Chinese spokesman (ac-cording to associated Press advices from Shanghai declared that China's Army had driven Japanese forces back from the south bank of Sochow Creek despite a relentless Japanese artillery and aerial bombardment in the attempted encircle-ment of Shanghai. From the same advices we quote:

Japanese units late yesterday crossed Soochow Creek in the drive to ize the western suburbs, an operation which during the day produced an merican protest and a Japanese apology. The fighting along the International Settlement's northern and western seize

fringes, which already had plunged the Japanese into a series of incidents of friction with the British defense force, led to a dispute with United States rines.

Iarines. Japanese bluejackets, trying to cross Soochow Creek by using junks as enping stones, seized a rice-laden junk on the International Settlement side

Japanese bluejackets, trying to cross Soochow Creek by using junks as stepping stones, seized a rice-laden junk on the International Settlement side of the stream at a point where marines were on guard. The junk's Chinese crew was scared away when the Japanese fired a blank volley. The junk was seized, and, with several others, eventually became part of an improvised bridge by which the Japanese passed over the creek. The vigorous protest of the marine commander, Brigadier General John C. Beaumont, brought an apology from Admiral Kiyoshi Hasegawa, com-manding the Japanese navel forces here, and a received to the the indicent manding the Japanese naval forces here, and a promise that the incident would not recur

would not recur. On Nov. 3 Japanese troops were said to have gotten through the hitherto impregnable lines of the Chinese 8th Route Army (former Red Army), north of Taiyuan and it was further said that they were closing in on the Shansi Province capital, according to spokesman for Lieutenant General Juichi Terauchi, supreme Japanese commander in North China. The United Press accounts from Peiping on that day likewise said that he estimated the Chinese had lost 30,000 men in a battle raging north of Taiyuan for a week. He described the battle as one of the bloodiest and most dramatic of the war.

most dramatic of the war. From Peiping on Nov. 4 Douglas Robertson, in a cable-gram to the "Times" stated in part:

Encountering the strongest resistance offered in any sector of North China since the warfare started, Japanese troops have captured the Chinese defenses of Sinhsien 40 miles north of Taiyuan, the capital of Shansi Province.

ince: Describing the fighting as the most severe of the entire campaign, in which hand-grenade duels and bayonet fighting was common, the Japanese spokesman said Japanese troops had captured Sinhsien at midnight Tuesday and were pursuing the Chinese, who were retreating seuthward toward Taiyuan. Japanese motorized columns have been active in the Shansi fighting. They are assisted by airplanes that continue attacking the retreating troops.

The Japanese spokesman declared that winter was already well advarced in Shansi, where the troops faced snow and bitter winds, even finding several streams and rivers frozen. in Shans

Big Chinese Losses Listed

In the Sinhsien fighting the Japanese say the Chinese losses totaled about 30,000 killed and wounded, the original strength being 15 divisions. The

Japanese also assert the Chinese troops abandoned immense supplies of

Japanese also assert the Chinese troops abandoned immedies applies of arms, ammunition and military supplies during their retreat. Other Japanese, advancing westward from Niangtzekwan, are reported to be about 35 miles from Taiyuan after a severe encounter with the Chinese forces in this area. Although unwilling to discuss the possible time of the fall of Taiyuan, Japanese authorities here are confident the capital will be cantured . on

In the Peiping-Hankow Railway sector Chinese troops counter-attacked but were said to have been repulsed after several hours of severe fighting. The Japanese declare the Chinese are now retreating southward although they admit this was not the first time the Chinese counter attacked in this

Under date of Oct. 30 the Associated Press in Peiping advices reported that Japan and Russia were rapidly in-creasing their forces along the boundary between Japan's It was protectorate of Manchukuo and Soviet Siberia. added:

It was authoritatively estimated that 40,000 Japanese troops who had taken part in the conquest of North China had been sent into North Man-chukuo. Foreign sources had reported the movement of Japanese troop trains northeastward through Tientsin.

Gen. Franco's Forces Reported Gaining on Aragon Front-Spanish Loyalists Said to Be Concentrating Troops in Madrid Sector-Air Raids by Franco Troops-Sinking of British Freighter Jean Weems -Barcelona Becomes Capital of Spain

Advices (Associated Press) under date of Nov. 4 from Hendaye, France (at the Spanish frontier) quoted military dispatches from Insurgent headquarters at Salamanca as reporting the retreat of government troops from several positions on the Aragon front. These advices said:

Three of Generalissimo Francisco Franco's crack commanders—Generals Aranda, Solchaga and Moscardo—are directing activities in Southern Aragon. Today they moved up advance posts and concentrated positions in the Teruel sector. Thousands of reinforcements were massed for the offensive in Eastern Spain, and continual pressure on the government lines as expected. Both sides described the Madrid front as quiet.

According to advices Nov. 1 from Hendaye (Associated Press) Spanish Insurgent military dispatches from Salamanca said the Government was concentrating troops and equip-ment in the Madrid sector for a general offensive to break the year-old siege of the city. The Associated Press added: The dispatches said that Government troops had already started attacking that dispatches add that Government troops had already started attacking

The dispatches said that Government troops had already started attacking Insurgent advance posts and that Government soldiers who had passed into the Insurgent line told of intensive preparations for the drive. Tanks were siad to have aided the preparatory Government assaults on Insurgent positions in the University City suburb; on the Cuesta de la Reina sector, 20 miles to the south, and on Aranjuez, to the southeast.

An Insurgent air raid on Leride, 75 miles west of Barce-lona, was reported on Nov. 2 in a Spanish Government communique, it is learned from Associated Press account from Madrid, which on Nov. 4 stated:

An official announcement today placed the toll of Tuesday's (Nov. 2) air raid on the Catalan city of Lerida at 225 dead and more than 700 injured. Nine bombers appeared over Lerida yesterday afternnoon, but dropped no bombs

bombs. The bombing of Lerida and a similar attack yesterday on Barbastro, another city in Catalonia, which reported about 80 persons killed, were ranked by Madrid newspapers as among the worst attacks on government territory since the beginning of the civil war in July, 1936. It was estimated about 70 children perished in a primary school at Lerida when a bomb shattered it.

From Valencia, Spain, Oct. 30, the Associated Press said that the northern coastal defense notified the Spanish Ministry of Defense that the British freighter Jean Weems had been sunk that day in the Mediterranean Sea by insur-gent airplanes which dropped 15 bombs. The account stated:

The vessel was 16 miles off the port of Gerona, Catalonia, en route from Marseilles, France to Barcelona with a cargo of wheat and condensed milk when the bombing occurred, the English captain said: The crew of 26 included two observers for the London non-intervention committee. Their names were given as Gustav U. Chesom, of Sweden, and Arnold Cliff, of Lithuania. All on bard were saved

All on board were saved. (The Jean Weems, a 2.349-ton vessel, appears in Lloyd's Register as American-owned and registered at Baltimore, but Lloyd's disclosed at London that the freighter had been changed to British registry during July. The British Admiralty said it had not heard of the attack.)

Later advices (Associated Press) from Valencia (Oct. 31) said:

Sald: A seaman who survived the sinking of the British freighter Jean Weems declared today that an Italian-made seaplane machine-gunned the British vessel and then sank it with bombs. William Bemeorough, a Scottish sailor, telephoned an account of the disaster from a Catalonian coastal village where the crew was cared for. He said a plane appeared from the direction of Majorca, Insurgent-held Balearic Island, and, after warning the crew to take to life-boats, dropped 16 bombs

16 bombs.

A wireless message Oct. 29 from Cordoba Spain to the New York "Times" had the following to say in part:

New YORK "11mes" had the following to say in part. Rich deposits of lead, copper, iron and coal situated in and around Penarroya, 40 miles northwest of Cordoba, is the prize for which the Rebels and Loyalists have struggled for the last three months. General Gonzalo Quelpo de Llano, Commander-in-Chief of the southern army, has finally gained the day and has assured this important mineral area for General Francisco Franco. The whole mining area has now been liberated from the threat of Loyalist pressure. The Rebels occupy the whole Sierra Grana, also Sierra Peru and for the first time General Franco's

gitized for FRASER p://fraser.stlouisfed.org/

scarlet and yellow flag is flying over Sierra Noria, important key position six miles northwest of Penarroya. In the last few days the Loyalists have withdrawn their artillery, and General Queipo de Llano's reconnaissance planes report that the nearest Loyalist batteries are emplaced behind Sierra Trapera, 12 miles northwest of Penarroya, thus enabling the Insurgents to open up the mines. Barcelona became the capital of Spain on Oct. 30, when, it is stated, Premier Juan Negrin flew to that city from Valencia to set up new headquarters of the government. An item bearing on the Spanish civil war appeared in these columns a week ago, page 2766.

Comparative Figures of Condition of Canadian Banks In the following we compare the condition of the Canadian banks for Sept. 30, 1937, with the figures for Aug. 31, 1937, and Sept. 30, 1936:

Henry Schroder Banking Corp., New York, as American Fiscal Agents for the Kingdom of Bulgaria $7\frac{1}{2}\%$ Stabilization Loan 1928, announced Nov. 3 that Nov. 15, 1937 coupons off dollar bonds of this loan, presented with an appropriate letter of transmittal, will be paid on or after that date at the rate of \$12.19 per \$37.50 coupon and \$6.09 per \$18.75 coupon in full settlement for and against surrender of the coupons. This payment represents $32\frac{1}{2}\%$ of the in-terest then due. terest then due.

Optional Offer of Exchange Made on German Bonds— Applies to Several Matured Issues Announcement was made on Nov. 1 by the Conversion Office for German Foreign Debts of an optional offer of ex-change to holders of matured bonds of the following issues: City of Frankford-on-Main 7% serial bonds of 1925, matured Oct. 1, 1937. City of Duisburg-Hamborn (City of Duisburg

external gold 7% serial bonds), matured Nov. 1, 1937. Municipal Bank of the Sate of Hessen 7% serial bonds, ma-tured Nov. 1, 1937; Free State of Oldenburg (State of Olden-burg external 7% serial gold loan of 1925), matured Nov. 1, 1937; and Free State of Wuerttemberg (consolidated munici-pal external serial 7% gold loan of 1925), matured Nov. 1, 1937. As to the offer it was announced:

1937. As to the oller it was announced: Holders of these bonds may exchange their matured bonds for a like amount of bonds of an unmatured series of the above issues, such series to be selected by the conversion office, with interest coupons maturing on and after April 1, 1933 or May 1, 1938, respectively attached. Or, as an alternative, they may accept payment, against surrender of their matured bonds, of the reischsmark equivalent of the principal thereof deposited by the debtor with the conversion office, into an "amortization blocked reichs-mark account." in the name of the holder with a German bank authorized to transact foreign exchange operations. The use and disposal of amounts deposited are subject to German Governmental regulation, according to the announcement. Bondholders desiring to accept this offer should deliver their bonds to the

Bondholders desiring to accept this offer should deliver their bonds to the Bondholders desiring to accept this offer should deliver their bonds to the proper agent, such agents being as follows: Frankfort-On-Main issue, Speyer & Co. Duisburg-Hamborn issue, Chase National Bank; Hessen Municipal Bank issue, Dillon, Read & Co.; Free State of Oldenburg issue, Irving Trust Co.; Free State of Wuerttemberg issue, both Chase National Bank and City Bank Farmers Trust Co. No interest accuring after the respective maturity dates will be paid on bonds not surrendered under this exchange offer.

Two Alternative Offers Made by Commerz-und Privat-Bank Aktiengesellschaft on 5½% Gold Notes due Nov. 1

Commerz-und Privat-Bank Aktiengesellschaft is making two alternative offers of settlement to holders, residing out-side of Germany, of the certificates of participation of The Chase National Bank of the City of New York, representing participations in its 10-year 5½% gold note, due Nov. 1, 1937. The foreign exchange restrictions existing in Germany the notice outlining these offers points out, do not permit the transfer of funds out of Germany to pay this note in ac-cordance with its terms. An announcement issued in the matter Nov. 1 also said: Commerz-und Privat-Bank Aktiengesellschaft is making matter Nov. 1 also said:

Cordance with its terms. An announcement issued in the matter Nov. 1 also said:
Coincident with the announcement of these offers, The Chase National Bank of the City of New York as trustee states that it is prepared to furnish holders of the certificates with all information in its possession concerning the trust under which the note is held and the certificates were issued and advises that they obtain this information before taking any action in connection with their certificates.
The first alternative offer by Commerz-und Privat-Bank Aktiengesell-schaft provides for the payment in "blocked" Reichsmarks, for the account of the certificate holder to any bank in Germany authorized to deal in foreign exchange of the Reichsmarks equivalent of the certificates at the official middle rate for American dollars prevailing in Berlin on the date of tender in New York City.
Under the second method of settlement, the Commerz-bank will credit the secret flicate holder on its books with an amount in dollars equal to the aggregate principal amount of certificates presented, crediting interest from Nov. 1, 1937 in dollars at 4% per annum unless the holder requests that such interest be paid in Reichsmarks to the Conversion Office for German foreign Debts for his account. The dollar amounts credited under this alternative may be converted at any time into "blocked" Reichsmarks, witch will constitute originally owned "blocked" Reichsmarks, if the holder can prove continuous ownership of the certificate since Oct. 31, 1936.
Both "blocked" Reichsmarks or dollar balances resulting from the acceptance of either offer will be subject to existing and future German foreign exchange regulations.
Holders of certificates desiring to accept either of the alternative offers are required to present their certificates to Schroder Trust Co., New York, not later than 3 p. m., Dec. 1.

Nov. 1 Coupons on State of Rio Grande do Sul, Brazil, 7% Gold Bonds External Loan of 1926 to Be Paid at 35% of Face Amount—Rulings on Bonds by New York Stock Exchange

Ladenburg, Thalmann & Co. as special agent, is notifying holders of State of Rio Grande do Sul (United States of Brazil) 40-year 7% sinking fund gold bonds, external loan of 1926, that funds have been deposited with them, suffi-cient to make a payment, in lawful currency of the United States of America, of 35% of the face amount of the coupons due Nov. 1, 1937, amounting to \$12.25 for each \$35 coupon and \$612½ for each \$17.50 coupon. An announcement in the matter continued: the matter continued:

The matter continued: Pursuant to the Decree of the Chief of the Provisional Government of the United States of Brazil, such payment, if accepted by the holders of the bonds and coupons, must be accepted in full payment of such coupons and of the claims for interest represented thereby. No present provision, the notice states, has been made for the coupons due Nov. 1, 1931 to Nov. 1, 1933 inclusive, but they should be retained for future adjustment.

The following rulings on the bonds by its Committee on Securities were announced on Nov. 3 by the New York Stock Exchange:

NEW YORK STOCK EXCHANGE

Committee on Securities

Member Trading on New York Stock and New York Curb Exchanges During Week Ended Oct. 9

A decrease during the week ended Oct. 9 in trading in stocks on the New York Stock Exchange for the account of all members, except odd-lot dealers, in relation to total trading, was made known by the Securities and Exchange Commission yesterday (Nov. 5). During the same week, however, the percentage of trading by members of the New York Curb Exchange for their own account to total trade

however, the percentage of trading by members of the New York Curb Exchange for their own account to total trans-actions was above the previous week ended Oct. 2. During the week ended Oct. 9, according to the Securities and Exchange Commission, the total round-lot volume of trading for the account of members of the Stock Exchange was 3,318,375 shares, which was 22.06% of total trans-actions on the Exchange of 7,522,490 shares. In the pre-ceding week ended Oct. 2 the Stock Exchange members' transactions of 3,364,112 shares was 22.70% of total trad-ing of 7,408,900 shares. On the Curb Exchange, member trading for their own account during the week ended Oct. 9 was 577,540 shares, or 20.44% of total trading of 1,413,200 shares; this compares with a percentage during the previous week of 19.94%, member trading during that week having amounted to 587,440 shares and total volume to 1,473,035 shares.

shares. The data issued by the SEC is in the series of current figures being published weekly in accordance with its pro-gram embodied in its report to Congress in June, 1936, on the "Feasibility and Advisability of the Complete Segrega-tion of the Functions of Broker and Dealer." The figures for the week ended Oct. 2 were given in the "Chronicle" of Oct. 30, page 2768. The Commission, in making available the data for the week ended Oct. 9, said: The figures given for total roundlet volume for the New York Stock

the data for the week ended Oct. 9, said: The figures given for total round-lot volume for the New York Stock Exchange and the New York Curb Exchange represent the volume of all round-lot sales of stock effected on those exchanges as distinguished from the volume reported by the ticker. The total round-lot volume for the week ended Oct. 9 on the New York Stock Exchange, 7,522,490 shares, was 8.5% larger than the volume reported on the ticker. On the New York Curb Exchange, total round-lot volume in the same week, 1,413,200 shares exceeded by 6.8% the ticker volume (exclusive of rights and warrants) The data published are based upon reports filed with the New York Stock Exchange and the New York Curb Exchange by their respective members. These reports are classified as follows: New York New York

St	
Number of separate masters i	hange Exchange
Number of reports received	867
Other than as specialists	107
Initiated on floor	87 66
Initiated off floor	26 130
	69 589

*Note—On the New York Curb Exchange the round-lot transactions of specialists n stocks in which registered" are not strictly comparable with data similarly signated for the New York Stock Exchange, since specialists on the New York urb Exchange perform the functions of the New York Stock Exchange odd-lot ealer, as well as those of the specialist.

The number of reports in the various classifications may total more the number of reports received because, at times, a single report may carry entries in more than one classification.

a The term "members" includes all Exchange members, their firms and their partners, including special partners. b Percentage of members' transactions to total Exchange transactions. In cal-culating these percentages the total of members' transactions is compared with twice the total exchange volume for the reason that the total of members' trans-actions includes both purchases and sales while the total exchange volume includes only sales

York Stock Exchange Reports Outstanding Brokers' Loans at \$725,622,872 Oct. 30—Decrease of \$313,497,644 from Sept. 30 and \$249,305,146 from New Oct. 31, 1936

Oct. 31, 1936 Outstanding brokers' loans on the New York Stock Ex-change decreased during October to \$725,622,872 at the end of the month, the Exchange made known on Nov. 3 in issuing its monthly compilation. This figure is \$313,497,644 below the total for Sept. 30 of \$1,039,120,516, and \$249,-305,146 below the Oct. 31, 1936 figure of \$974,928,018. During October demand loans and time loans were both below a month and a year ago. Demand loans on Oct. 30 were reported by the Stock Exchange at \$493,340,168 against \$732,505,016 Sept. 30 and \$661,285,603 Oct. 31, 1936; time loans at the latest date amounted to \$232,282,704, as compared with \$306,615,500 and \$313,642,415 respec-tively, a month and a year ago.

tively, a month and a year ago. The following is the compilation made available by the Exchange on Nov. 3:

Market Value of Listed Stocks on New York Stock Exchange Nov. 1 \$44,833,215,320 Compared with \$49,034,032,639 Oct. 1—Classification of Listed Stocks

As of Nov. 1, 1937, there were 1,255 stock issues aggregating 1,407,888,750 shares listed on the New York Stock Exchange with a total market value of \$44,833,215,320, the Exchange stated on Nov. 4. This compares with 1,253 stock issues, aggregating 1,398,144,806 shares listed on the Exchange Oct. 1, with a total market value of \$49,034,032,-639, and with 1,196 stock issues aggregating 1,349,322,382 shares with a total market value of \$58,507,236,527 on Nov. 1, 1936. The Exchange, in making public the figure for Nov. 1, 1937, said:

for Nov. 1, 1937, Said: As of Nov. 1, 1937, New York Stock Exchange member total net borrow-ings in New York City on collateral amounted to \$725,622,872. The ratio of these member total borrowings to the market value of all listed stocks, on this date, was therefore 1.62%. Member borrowings are not broken down to separate those only on listed share collateral from those on other collateral; thus these ratios usually will exceed the true relationship between borrowings on all listed shares and their market values.

As of Oct. 1, 1937, New York Stock Exchange member total net borrowings in New York City on collateral amounted to \$1,039,120,516. The ratio of these member total borrow-ings to the market value of all listed stocks, on this date, was therefore 2.12%. In the following table listed stocks are classified by leading industrial groups with the aggregate market value and

New York Stock Exchange Inaugurates New Ticker Service—"Flash" Quotations Given on 16 Repre-sentative Stocks When Ticker Runs Behind Market

With a view to facilitating observation of the market whenever the stock ticker falls behind, the New York Stock Exchange on Nov. 1 inaugurated a new system of reporting prices whenever the tape is five or more minutes late. Under this new plan, called "flash" printing, the Exchange will use 16 representative stocks, printing the last sale price of each at regular intervals and continuing the process until of each at regular intervals and continuing the process until the ticker is again less than five minutes behind the market. In announcing the new plan, on Oct. 27, the Committee of Arrangement of the Exchange sent the following notice to members:

Arrangement of the Exchange sent the following notice to members: During periods of unusual activity the ticker may be unable to keep pace with transactions as they occur on the floor. To facilitate observa-tion of the market under such conditions, the committee has decided to print, at regular intervals on the stock tape the last sale prices of a selected group of 16 stocks. These prices will be printed as promptly after the execution as possible and will appear well in advance of their normal position on the tape. The new plan, called "flash" printing, will be in operation on and after Nov. 1, 1937, and will function as follows: When the tape becomes five or more minutes late the last sale price of the first stock on this list will be ascertained on the floor and sent by special high speed equipment to the ticker transmitting room. On arrival it will be immediately placed on the tape, preceded by the word "flash," ahead of all other sales then waiting to be transmitted. About 80 seconds later the second stock will be similarly transmitted, and so on until at the end of approximately eight minutes the prices of the whole list of 16 will have been printed. This cycle will be immediately and continuously repeated until the tape is less than five minutes behind the market. the market.

the market. The word "flash" will apply only to the price immediately following. The next "flash" price, given 30 seconds later, will appear after approxi-mately two and one-half feet of tape has been printed. "Flash" prices are *prices only*. They are merely superimposed on the

"Flash" prices are prices only. They are merely superimposed on the normal tape. The stocks selected by the committee are printed below in the order in which they will appear on the tape Atchison Topeka & Santa Fe Ry. Co., common; American Telephone & Telegraph Co., capital; Anaconda Copper Mining Co., capital; Chrysler Corp., common; Sears, Roebuck & Co., capital; Great Northern Ry. Co., preferred; Consolidated Edison Co. of New York, common; Republic Steel Corp., common; General Motors Corp., common; Standard Oil Co. (New Jersey), capital; General Electric Co., common; New York Central Ry. Co., capital; Electric Power & Light Corp., common; United States Steel Corp., common; United States Rubber Co., common, and Douglas Aircraft Co., capital.

SEC Issues Statistics on Cost of Issuing Securities— Based on Statements Filed Under Securities Act from July 1, 1936, to Sept. 30, 1937—Commission Cautions on Use of Data

Cautions on Use of Data The Securities and Exchange Commission announced on Nov. 1 the publication of some new statistical compilations on the costs of issuing securities which were prepared from registration statements filed under the Securities Act of 1933, covering the five quarter-years from July 1, 1936, to Sept. 30, 1937. The Commission warned that the data, contained in four tables, "should be used cautiously as indi-cations of trends of underwriting spreads, interest rates, &c., since the changes in the averages from one period to another may represent a shift in the relative importance of one type of company or issue as contrasted with another." In issuing the tables the Commission explained: the tables the Commission explained:

the tables the Commission explained: The first table shows gross underwriting spreads on bond issues of \$5,000,-000 or over, preferred stocks of \$1,000,000 or over, and common stocks of \$1,000,000 or over in each of the fire quarters. The second table discloses the proportions of the gross spread paid to dealers distributing bond issues. The third table shows expenses of registration and flotation of bond, pre-ferred stock and common stock issues, exclusive of gross underwriting spreads. This analysis of expenses is approximate, being based on esti-mates, and it should be regarded only as an indication of the actual dis-tribution of expenses. The fourth table shows, by quarters, the number and average size of the selected bond issues, their average coupon rate, the average number of years to maturity, and the average yield to maturity. All the tabulations are based on registered issues which have been selected on these bases: Their size measured by gross proceeds was \$1,000,000 or over; there was a record of public offering; and they were offered through investment bankers. The following are the tabulations:

The following are the tabulations:

TABLE I Gross Underwriting Spreads on Selected Issues Registered under the Securities Act of 1933 and Publicly Offered—July 1, 1936-Sept. 30, 1937 (a)

Period	Number	Average Spread (% of Public Offering Price)

Registration of 52 New Issues Totaling \$156,395,000 Under Securities Act Became Effective During During September

The Securities and Exchange Commission announced on Oct. 31 that analysis of statements registered under the Securities Act of 1933 indicates that new securities totaling \$156,395,000 were declared fully effective during September. The comparable figures for the preceding month and for the same month of 1936 are \$302,343,000 and \$260,080,000, respectively. The Commission said that the total of securities registered during September, after deduction of issues registered for reserve against conversion, was the lowest for any single month since February, 1935. It explained that included in the amounts for September and August this year and September, 1936, are securities which have been registered but are intended for purposes other than cash

ale for the account of the registrants, approximately as follows:

	September, 1937	August, 1937	September, 1936
Reserved for conversion of issues with convertible features. Reserved for the exercise of options. Registreed for the "account of others". To be issued in exchange for other securities To be issued against claims, other assets, &c.	\$47,879,000 1,759,000 417,000 17,570,000 951,000 1,333,000	3,655,000 1,328,000 24,741,000 11,624,000	\$22,882,000 2,989,000 22,906,000 14,702,000 113,000
Total	\$69,909,000	\$120,712,000	\$63,592.000

In its announcement of Oct. 31 the SEC further stated:

The largest registration covering new securities becoming effective during the month was for the \$48,000 000 issue of Bethlehem Steel convertible debentures, and largely as a result, fixed-interest bearing securities repre-sented 57.0% of the total securities registered for purposes other than for conversion of other issues. Common stock issues accounted for 32.0% of this total, preferred stock issues for 9.5% and certificates of participation, beneficial interest and warrants for 1.5%.

The manufacturing companies were the largest group of registrants dur-ing September, accounting for 76.1% of total securities registered for pur-poses other than for reserve against conversion. Next in size were the electric, gas and water utility companies, with 11.5% of these registrations, and the financial and investment companies with 7.7% of the total.

and the financial and investment companies with 7.7% of the total. After deduction of securities which were reserved for conversion, options, &c., securities registered for the "account of others" and securities to be offered for other than cash considerations, \$86,486,000 of securities (of which all but \$1,511,000 were for already-established enterprises) were intended to be offered for sale for cash for the account of the registrants. Again reflecting the application of the proceeds of the Bethlehem Steel issue, 65.1% of the proceeds, after payment of commissions, discounts and other expenses of flotation and issuance, was to be used as additional work-ing capital. About 22.7% of the net proceeds was proposed to be expended for plant and equipment; 9.6% for the purchase of securities for investment, and 2.6% for all other purposes. No refunding operations were contem-plated in any of the issues registered during September, and only \$1,235,000 of the proceeds were intended to be used for the regarment of indebtedness, almost wholly for the payment of non-current liabilities. Among the large issues of new securities for which registration statements

almost wholly for the payment of non-current liabilities. Among the large issues of new securities for which registration statements became fully effective during the month were: Bethlehem Steel Corp., $$48,000,000\ 15$ year s. f. convertible 31%% debentures, due 1952; the Gaylord Container Corp. issues of 100,000 shares of 51%% cumulative con-vertible preferred stock and 750,000 shares of 5 sommon stock; Ohio Edison Co., $$8,500,000\ 1st$ mtge. bonds, 4% series of 1937, due 1967; and the First Investment Counsel Corp. issue of 55,000 shares of class A stock.

Types of New Securities Included in 48 Registration Statements that Became Fully Effective During September, 1937

runy Effective During September, 1937 Largely because of the registration of \$48,000,000 of Bethlehem Steel convertible debentures, the aggregate of fixed-interest-bearing securities represented 57.0% of the total securities (other than issues registered for reserve against conversion), which became effective during the month. Common stock issues amounted to 32.0% of this total, preferred stock issues to 9.5% and certificates of participation, beneficial interest and warrants to 1.5%.

SEC Adopts Form for Use by Public Utility Holding Companies in Making Annual Reports of Financial Condition and Operating Results

Companies in Making Annual Reports of Financial Condition and Operating Results Adoption of Form U-14-3 under the Public Utility Holding Company Act of 1935 for the use of registered public utility holding companies in their annual reports to the Securities and Exchange Commission of financial condition and results of operation, was announced by the Commission on Oct. 27. An accompanying rule has also been adopted. The informa-tion required in the report, the Commission explained, is based upon the provisions of the "Uniform System of Ac-counts for Public Utility Holding Companies" adopted a year ago and made effective as of Jan. 1, 1937; reference to the uniform system of accounts was made in our issue of Sept. 12, 1936, page 1640. In its announcement of Oct. 27 the SEC also had the following to say: The first report to be filed will cover the calendar year 1937 as to com-panies registered at Jan. 1; as to companies registered after that date the first report will cover the portion of the year during which the Uniform System of Accounts was effective as to such companies. The report form relates to the holding company as a legan entity separate from the holding company system of which it is a part, and therefore does not provide for consolidated or consolidating statements of the holding company and its subsidiaries. The requirements of the form include: Certain questions designed to give historical data companyes the com-

not provide for consolidated or consolidating statements of the holding company and its subsidiaries. The requirements of the form include: Certain questions designed to give historical data concerning the com-pany, including date and state of incorporation or organizations and in-formation concerning consolidations, mergers, or reorganizations to which the company has been a party; a list of the directors and of the managing officers as of the close of the year; financial statements, including a comparative balance sheet showing the financial condition of the company as of the beginning of the year (or period) and as of the close of the year, an income account showing the results of operation during the period between balance sheet dates and a statement of surplus showing the changes therein during the same period of time. The foregoing financial statements provide for classifying and reporting the various items in accordance with the prescribed system of accounts. Numerous schedules are provided calling for additional information con-cerning items included in the principal balance sheet, income, expense and surplus accounts. Among these are a schedule calling for a detailed analysis of investments at the close of the year, together with information with respect to investments acquired or disposed of during the year, and a schedule for reporting dividend and interest revenues in detail. Instruc-tions precede each schedule which are intended to secure uniform reporting of th information to be shown.

of th information to be shown.

The new rule adopted by the Commission follows:

Rule 14-3-Annual Reports by Public Utility Holding Companies

Rule 14-3—Annual Reports by Public Utility Holding Companies On or before the first day of May in each calendar year, every regis-tered holding company shall file a report with the Commission for the prior calendar year, or for any portion thereof during which there was effective as to such company any uniform system of accounts prescribed by any rules of the Commission. Every such report shall be submitted on Form U-14-3 and shall be prepared in accordance with the instructions incorporated in such form. For appropriate cause shown, the Commission may extend the time within which any such report is to be filed. If any company, after filing such a report, shall submit changes or amend-ments thereto by letter, pursuant to instruction 6 of such form, such company shall be deemed thereby to have agreed that the Commission's staff may indicate the changes or amendments such company desires to make in its report by causing notations of the changes set forth in such letter to be made on the copies of such report so filed and by substituting in such copies any new pages or schedules that may be thus submitted by the reporting company.

National City Bank of New York in Discussing Business Recession Says Greatest Need Is "To Get Private Investment Going"

Observing that "the business news has continued unfavorable during October," the National City Bank of New York, in its November "Monthly Letter," undertakes to summarize "the causes of the recession and the policies that will keep it within bounds and get the recovery going again." Ac-cording to the bank, "there is no evidence that business cording to the bank, "there is no evidence that business sentiment is demoralized; that business men are conducting their affairs with less energy and application; or that any significant number fear a return to 1932 conditions." "On the contrary," it adds, "the most common sentiment is that the stock market, perhaps for technical reasons within itself, has overdone its decline and has spread an unjusti-fied pessimism." The bank continues:

fied pessimism." The bank continues: The reaction of most business men has been to shorten up inventories and wait until the situation is clearer, but this policy is adopted out of common prudence and recognition of the slackening now occurring, rather than any belief that a major depression has begun. In due course the abstention from buying will correct the inventory situation, and the correc-tion has started at a rapid pace, both in the markets and in industrial production. production.

production. Reductions in costs are needed, especially in building, and the decline in construction has already put pressure on building costs. The pinching of the profit margin that all business is under as the result of increased wages and taxes, now coupled with a decline in volume, is one of the unfavorable features, and this itself will stimulate the search for lower

costs. If the recession is due chiefly to overstocking and special instances where costs and prices are out of line, it will be of an intermediate char-acter, and past precedents suggest strongly that it is of that type. There is no great body of debt that will be liquidated, no credit stringency, and no overexpansion of fixed investments. Real estate is already deflated, and agriculture is in shape to give industry support. All these are argu-ments that the slackening will run itself out in due course, and perhaps is nearer a leveling out, at least, than the markets now appear to believe.

The Need of Private Investment

On the other hand, no realistic person would wish to minimize the uncertainties in the situation, for they are of a character that can be

averted by facing them squarely. Incomparably the greatest need now, as it has been throughout the recovery, is to get private investment going. To sustain business in this country the accumulation of savings and the flow of capital into productive use have always been necessary, and there is no evidence that it is any less necessary than heretofore. Many studies have indicated that almost half of American business is normally in the capital goods industries, including housing, and these industries depend upon savings and investment. They are not overexpanded, they will keep going if the necessary conditions are fulfilled, and if they do the business recession will not be prolonged. The rate of saving and investment is greatly influenced by government

The rate of saving and investment is greatly influenced by government policies, notably by taxation, and unquestionably there is ground for reviewing the tax system for the purpose of determining how capital accumulation may be encouraged through tax revision. Other government policies also are restrictive of profit, hence of investment, and discouraging to enterprise. Any policies which are working against the reopening of the capital markets, whether they affect the lender or the borrower, and whether they operate directly or through the general business situation, are working against recovery. To say that reduction of government spending is a factor in the reces-sion is not an argument for its resumption. Renewed spending would merely put off the inevitable. Sconer or later business will have to become self-supporting, and the longer the deficit spending is continued the worse the situation will ultimately be. The choice as between the two alterna-tives should be clear.

Effect on Business Confidence of Labor Disputes Discussed by Guaranty Trust Co. of New York— Also Comments on Tendency of Government to Sponsor Doctrine of "Economy of Scarcity"—Wage and Hour Bill

The number and scope of labor disputes since the beginning of economic revival and their growing intensity in the last several months have focused the attention of business last several months have focused the attention of business and labor alike on the current effects of these unsettling influences, as well as on their implications regarding the long-term outlook for economic progress, it was observed by the Guaranty Trust Co. of New York in its issue of the "Guaranty Survey," its monthly review of business and financial conditions, published Oct. 25. "Moreover," said the "Survey," "a new element of substantial significance was injected into the present labor situation by the calling of an extra session of Congress, which will convene on of an extra session of Congress, which will convene on Nov. 15. The President has stated that this step has been taken for the quick enactment of certain legislation, includ-ing measures relating to hours and wages." From the "Sur-vey" we also quote, in part:

Wey" we also quote, in part: The material harm inflicted directly on general business and industry by the recent labor disputes in the larger industries, while important, is small when compared with the indirect adverse effects of the weakened confidence that they have occasioned in many business quarters. While labor unsettlement is typical of periods of business expansion, the indus-trial strife in the last few years has been unique in many ways. For one thing, the labor unsettlement has been considerably more intense and broader in scope than is usually the case. The American labor problem as a whole can hardly be considered as one of deliberate oppression on the part of business, on the one hand, or of reckless greed on the part of labor on the other. It is only natural that workers desire to obtain the greatest possible rewards for their labor, just as industry ordinarily makes every effort to protect the investment of its stockholders and to maintain solvency. Disputes arise in many instances because of the failure of one party to understand the position and viewpoint of the other. Misunderstandings Cause Differences

Misunderstandings Cause Differences

and viewpoint of the other. Misunderstandings Cause Differences No mutual understanding among the various components of our economic offer will be possible until it is generally realized that American business is conducted primarily for profit and that no business enterprise will continue to operate over an extended period unless profit is forthcoming. There are, however, several disconcerting factors militating against the of differences between employers and employees. Chief among these is the tendency of the government to sponsor, and of some economic groups to accept, the doctrine of an "economy of scarrity." This principle holds that an artifically reduced supply of a given com-modity will lead to an increase in its price, bringing to the producer greater profit that will enable him to pay higher wages to his employees, to, in turn, will have more purchasing power to absorb a greater quantity of the products of industry. Workers perform their labor primarily for the money they receive, and hose who accept the doctrine of scarcity overlook the fact that money hose who accept the doctrine of a given commodity, the less propor-tional amount each individual may demand. Aggregate real purchasing power and wages can be increased only by raising the level of output; any other system that gives an economic group greater purchasing power outs to ward a stimulation of business activity on a sound basis. It is into take note of the proposed bill, which was passed by the distributes merely a transfer of that power, not an expansion that will winossible to increase real wages by granting higher monetary compensation that is passage would tend toward more rigid costs, thereby weaken is stat its passage would tend toward more rigid costs, thereby weaken projects keep firmly in mind that a regulation of wages and hours is the probably necessitate Federal control of production costs, which and using probably necessitate Federal control of production itself.

Analysis of Various Joint Stock Land Banks Being Distributed by Sincere & Co., Chicago The brokerage firm of Sincere & Co., Chicago, is distributing analysis of the various Joint Stock Land banks which are compiled individually for each bank in the System, showing the progress of liquidation over the period of one year. It is pointed out that the analysis permits the reader

to determine whether the liquidation emanated from the good or from the inferior assets, and whether the net worth of the bank enjoyed an increase or suffered a decrease as a consequence.

New Offering of \$50,000,000 or Thereabouts of 127-Day Treasury Bills—to be Dated Nov. 10, 1937

A new offering of 127 Day Treasury bills to the amount of \$50,000,000, or thereabouts, to which tenders will be re-ceived at the Federal Reserve banks, or the branches thereof, up to 2 p. m., Eastern Standard Time, Nov. 8, was announced on Nov. 4 by Secretary of the Treasury Henry Morgenthau Jr. The tenders will not be received at the Treasury De-partment, Washington.

partment, Washington. The Treasury bills will be sold on a discount basis to the highest bidders. They will be dated Nov. 10, 1937, and will mature on March 17, 1938, and on the maturity date the face amount will be payable without interest. There is a maturity of similar securities on Nov. 10 in amount of \$50,025,000. In his announcement of Nov. 4 Secretary Morgenthau had the following to say:

They (the bills) will be issued in bearer form only, and in amounts or denominations of \$1,000, \$10,000, \$100,000, \$500,000, and \$1,000,000 (maturity value). No tender for an amount less than \$1,000 will be considered. Each tender must be in multiples of \$1,000. The price offered must be expressed on the basis of 100, with not more than three decimal places, e.g., 99,125. Frac-tions must not be used.

Tenders will be accepted without cash deposit from incorporated banks and trust companies and from responsible and recognized dealers in invest-ment securities. Tenders from others must be accompanied by a deposit of 10% of the face amount of Treasury bills applied for, unless the tenders are accompanied by an express guaranty of payment by an incorporated bank or trust company.

are accompanied by an express guaranty of payment by an incorporated bank or trust company. Immediately after the closing hour for receipt of tenders on Nov. 8, 1937, all tenders received at the Federal Reserve banks or branches thereof up to the closing hour will be opened and public announcement of the ac-ceptable prices will follow as soon as possible thereafter, probably on the following morning. The Secretary of the Treasury expressly reserves the right to reject any or all tenders or parts of tenders, and to allot less than the amount applied for, and his action in any such respect shall be final. Those submitting tenders will be advised of the acceptance or rejection thereof. Payment at the price offered for Treasury bills allotted must be made at the Federal Reserve banks in cash or other immediately availble funds on Nov. 10, 1937.

Nov. 10, 1937. The Treasury bills will be exempt, as to principal and interest, and any gain from the sale or other disposition thereof will also be exempt, from all taxation, except estate and inheritance taxes. (Attention is invited to Treasury Decision 4550, ruling that Treasury bills are not exempt from the gift tax.) No loss from the sale or other disposition of the Treasury bills shall be allowed as a deduction, or otherwise recognized, for the purposes of any tax now or hereafter imposed by the United States or any of its pos-sessions.

Treasury Department Circular No. 418, as amended, and this notice rescribe the terms of the Treasury bills and govern the conditions of their

Tenders of \$173,632,000 Received to Offering of \$50,-000,000 of 133-Day Treasury Bills Dated Nov. 3-\$50,119,000 Accepted at Average Rate of 0.226%

A total of \$173,632,000 was tendered to the offering of \$50,000,000, or thereabouts, of 133-day Treasury bills, dated Nov. 3, 1937, and maturing March 16, 1938, it was announced on Oct. 29 by Acting Secretary of the Treasury Taylor. Of this amount, Mr. Taylor said, \$50,119,000 was Taylor. accepted.

\$8,900,000 of Government Securities Purchased by Treasury During September Net market purchases of Government securities for Trea-

Net market purchases of Government securities for Trea-sury investment accounts for the calendar month of Septem-ber, 1937, amounted to \$8,900,000, Secretary Morgenthau recently announced. This compares with \$12,510,000 of the securities purchased during August. The following tabulation shows the Treasury's transac-tions in Government securities, by months, since the begin-ning of 1935:

President Roosevelt Returns to Washington After 11-Day Stay at Estate in Hyde Park, N. Y. President Roosevelt returned to Washington on Nov. 4 following an 11-day stay at his estate in Hyde Park, N. Y., and a brief visit to his town house in New York City. The President left Hyde Park early Nov. 4 by motor and arrived in New York the same day. A conference with Mayor La Guardia on that day is referred to in another item in this issue. The President was accompanied from New York to Washington by Postmaster General James A Farley, who recently completed a tour of post offices in many of the States which the President visited on his tour to the Pacific north-west. west.

west. Previous reference to the President's stay at Hyde Park, during which he held conferences dealing with the budget and plans for the special session of Congress called for Nov. 15 was made in our issue of Oct. 30, page 2773. The budgetary problem was the chief topic of conversation on Nov. 1 at a conference in the President's study in his Hyde Park estate attended by Secretary of the Treasury Henry Morgenthau Jr., Acting Director of the Budget Daniel W. Bell, and Chair-man Marriner S. Eccles of the Board of Governors of the Federal Reserve System. As to this advices from Hyde Park, Nov. 1, by Coleman B. Jones, staff correspondent of the New York "Herald-Tribune," said: By bringing these officials into consultation, he had available first-hand

the New York "Herald-Tribune," said: By bringing these officials into consultation, he had available first-hand information on three phases of the budget making task—the revenue pro-spects, the spending program and the general business and financial outlook. Secretary Morgenthau declined to reveal any of the details of his con-versation with the President, beyond conceding that the corn loan pro-gram had been discussed. Mr. Bell, who, with Mr. Morgenthau and other officials and experts, has been working on the budget in Washington for weeks, had even less to say about his mission here. Mr. Eccles, just before leaving, did, however, disclose that his contribution had been an out-line of the general economic situation — conditions which necessarily must be appraised in determining how much can be spent and how much revenue may be expected.

may be expected. The Reserve system Chairman indicated that if taxes entered into his part of the discussion with the President, that was only one of a number of topics mentioned. Mr. Roosevelt has shown a coolness toward pub-lished speculation about prospects for adjustment of the capital gains and surplus profits taxes, which Mr. Eccles and other advisers have urged as a means of relieving business of some of its burdens in the hope of stimu-lating it to greater activity and thus increasing employment. Mr. Eccles said his discussion of the economic situation with the President covered "a rather broad field." Insisting that "nothing specific" was dealt with, he said, "We appraised the situation in many lights." He denied that the Reserve Board's recent action reducing margin requirements was discussed.

was discussed.

President Roosevelt Returns to Washington from Hyde Park, N. Y.—Confers in New York City With Mayor La Guardia Following Latter's Re-election— American Labor Party Re-affirms Loyalty to

American Labor Party Re-affirms Loyalty to President President Roosevelt left his Hyde Park (N. Y.) home for Washington on Nov. 4, and en route held a conference with Mayor La Guardia at the President's town house in East 65th Street, New York City. On Election night, Nov. 2, a telephone message had come from Hyde Park from the President congratulating Mr. La Guardia over his re-election as Mayor, defeating Jeremiah T. Mahoney, the Democratic candidate supported by Tammany Hall. Mayor La Guardia headed the Republican ticket, and that of the American Labor Party and of the City Fusion. It is to be noted that on Nov. 3 the American Labor party through Alex Rose, its State executive secretary, sent a telegram to President Roosevelt, reaffirming its loyalty to him and asserting that New York was the greatest New Deal stronghold in the nation and the American Labor party was still the stanchest adherent of the President's policies. The New York "Times", in which this was noted stated that the telegram was in-tended as a reply to the contention of William S. Murray, Republican State Chairman, who had said the election results in the President's home State constituted a "repudia-tion of the New Deal leadership." The President's conference with Mayor La Guardia in the early afternoon of Nov. 4 lasted about half an hour. Nothing of an official nature as to the conference was given out, and the "Times" had the following to say in part regarding it:

regarding it: The conference, which had been previously announced by the President, followed a telephone call by the President on election night congratulating the Mayor on his victory, and it was believed that the meeting was arranged at that time. All through the campaign the President had refrained from showing interest in the election of Jeremiah T. Mahoney, with the result that there was no lifting of the New Deal mantle from the shoulders of Mayor La Guardia, where the Mayor and the President had placed it during three and a half years of friendly cooperation. No definite word of what happened at the conference was available. The Mayor told newspaper men that he would see them at City Hall, and then called up City Hall and had Lester Stone, his secretary, convey to them his apologies. It was a social call and the details would have to come from Mr. Roosevelt, Mr. Stone told reporters. The President, meanwhile, had boarded a B. & O. train for Washington, where he arrived about 9 o'clock last night and he did not see the newspaper men traveling with him. Also present for a short time at the conference were James A. Farley, Democratic State and National Chairman, and Harry L. Hopkins, Federal Relief Administrator. However, the President and the Mayor were alone for 10 or 15 minutes of the 29 minutes the Mayor spent at the Roosevelt family home. Mr. Relev indicated afterward that the conference was generai.

family home. Mr. Farley indicated afterward that the conference was general. "Their conversation was like the one we all three had; there is nothing to say," Mr. Farley told reporters.

1936

1936. President Roosevelt has always been credited locally with a desire to accomplish the destruction of Tammany Hall, an organization he has opposed since his first term in the State Senate in 1910. In this he and the Mayor are entirely in accord and they probably men-tioned the defeat of the organization in their talk yesterday.

The telegram of the American Labor Party sent to President Roosevelt through Mr. Rose was given as follows in the 'Times'':

Franklin D. Roosevelt, President of the United States,

President of the United States, White House, Washington. In this hour of the emergence of the American Labor party as a prime political factor in New York State politics, let me assure you that the sup-port of New Deal policies is still one of the basic principles of our party-In the shifting picture of local events, we have in the campaign that is just over joined with the other progressive elements to insure the perpetuation of honest and efficient government in New York City. I resent the interpretations made by the reactionary elements in the Republican party that the people of the city have repudiated the New Deal. New York is the greatest New Deal stronghold in the Nation, and the American Labor party is still its stanchest adherent. ALEX ROSE,

ALEX ROSE,

State Executive Secretary American Labor Party. From the same paper we take the following:

The Labor party vote of 482,459 convinced politicians of both the old major parties that is now holds the balance of power not only in the city but in the State. Its natural alliance is with the Democratic party rather than with the Republicans.

President Roosevelt, in Talk with Flying Squadron of People's Mandate for Peace, Points to Beneficial Effect of Latin American Treaties on Other Parts of World—Dr. Mary E. Woolley, Head of Mandate

of World—Dr. Mary E. Woolley, Head of Mandate At Hyde Park, N. Y., on Oct. 30 President Roosevelt in talking with the flying squadron of the People's Mandate for Peace indicated that private reports to him revealed that the effect of the establishment of effective machinery for peace in the Western Hemisphere had been very great on other parts of the world, greater than might be realized from the belligerent attitude of some other countries. A staff correspondent of the New York "Times" in Hyde Park ad-vices in reporting this said that Mr. Roosevelt did not specify the warlike nations, but it seemed clear that he was thinking of Japan, Germany and Italy. From the same account we also quote the following: The four women of the squadron, starting an airplane tour of 17,000

account we also quote the following: The four women of the squadron, starting an airplane tour of 17,000 miles to persuade upon 19 Latin-American republics a speedy ratification of the treaties signed at the Buenos Aires conference last Winter, were accompanied by about 60 persons on their visit to the President.

Living Up to Treaties

He (the President) pictured people in other parts of the world regarding with admiration the relationships between the three Americas and noting that machinery could be set up for the peaceable settlement of all disputes. These people also had treaties, he said, but were not certain about their provisions being met, whereas in the Americas the Nations would live up to their treating.

to their treaties. Counseling the delegation to stress the latter point on the tour, the President declared that treaties were of no use if the whole world was ready to violate them on the spur of the moment for any immediate needs. In the informal remarks, Mr. Roosevelt expressed his pleasure over the trip which he made to South America last year and indicated displeasure at the present deficiency in means of communication between the United States and its neighbors to the south. Remarking that the trip of the Mandate representatives should be followed up by many other visits, commercial, educational and scientific. Mr. Roosevelt said that he was now working with the Maritime Com-mission on a plan to start within a year a line of shipping down the east coast of South America which would take people there faster and with more comfort. comfort

comfort. Pointing to the good service available to Chile on the west coast, he added that the service connecting the United States with other parts of the west coast was not too good. The aim of the People's Mandate organization is to impress upon all Governments its belief that the people of the world are against war. Speci-fically, it advocates cessation of armaments use of existing machinery to prevent wars and promotion of International trade to remove economic boording. barriers.

The delegates and other visitors were presented to Mr. Roosevelt by Dr. Mary E. Woolley, President emeritus of Mount Holyoke College and Chairman of the Mandate.

Four Making the Flight

Four Making the Flight The members of the delegation which will make the trip to South America are Mrs. Burton W. Musser of Salt Lake City; Mrs. Ana del Pulgar de Burke of Washington, D. C.; Mrs. Enoch Wesley Frost of Texarkana, Ark., and Mrs. Rebecca Hourwich Rayher of New York. The delegation, accompanied by 10 women fliers piloting their own planes came here from Washington. They will leave the Newark Airport tonight for Miami, whence they will fly to Havana.

President Roosevelt Declares Speculation in News Stories As Bad As Speculation on Stock Exchange

President Roosevelt's views on speculation in news were made known at his press conference in Washington yesterday

(Nov. 5), as is indicated in Associated Press dispatches from Washington which we quote in part as follows:

President Roosevelt, responding today to a question about his conference in New York yesterday with Mayor La Guardia, referred to news stories about the meeting and added: "Speculative news stories are just as bad as speculation on the stock exchange."

change." He permitted the direct quotation. Mr. Roosevelt minimized the importance of the meeting with Mr.

The President is also reported to have said that the more dangerous stock speculation becomes, the less people ought to go in for it. The Associated Press further reports:

to go in for it. The Associated fress full their reports. The President made his comment on stock market activities when he was asked at a press conference if he planned to take any steps to make stock speculation less dangerous. He said that there were two ways of looking at that—the more dangerous it is, the less people ought to indulge in speculation. He added that if it were not dangerous, everybody would make money.

President Roosevelt Authorizes Advance of \$85,000,000 by RFC for Loans—\$75,000,000 Made Available to CCC for Loans on Corn—To Be Made at Maximum Rate of 50 Cents a Bushel—President to Ask for Legislation Permitting CCC to Sell Own Obligations

Legislation Permitting CCC to Sell Own Obliga-tions The Reconstruction Finance Corporation has advanced \$75,000,000 to the Commodity Credit Corporation for mak-ing loans to producers of the 1937 corn corp, it was announced on Nov. 3 by Jesse H. Jones, Chairman of the RFC, who said that the loans will be at the rate of 50 cents per bushel of 2½ cubic feet for corn with moisture content not in excess of 14½%, and slightly less per bushel for corn with a greater moisture content. President Roosevelt, in a telegram to Mr. Jones under date of Oct. 31, authorized the RFC to make available \$85,000,000 to the CCC for corn and other loans. At the same time the President said that he had decided to recommend legislation to Congress "which will provide the CCC with ample capital and with authority to raise funds necessary for its operations through the sale of its own obligations. This legislation," the President pointed out, "should authorize annual appropriations to be made available to the Corporation to cover any impairment of its capital as shown by anappraisal of its assets from year to year. Under this plan each year's budget will reflect the losses, if any, sustained by the Corporation." The loans to be made on the 1937 corn crop will bear in-terest at 4% per annum, said Mr. Jones, and will be made on forms provided by the CCC containing terms and con-ditions prescribed by the Secretary of Agriculture. Mr. Jones added: Banks and other lending agencies may make the loans to the producers

added:

Balled: Banks and other lending agencies may make the loans to the producers, as in former years, with the definite understanding that CCC will take them up on demand, at any time prior to Sept. 30, 1938, at par and accrued interest at the rate of $2\frac{1}{2}$ % per annum. CCC will purchase such loans only from banks or lending agencies which have entered into an agreement to pay the Corporation $1\frac{1}{2}$ % per annum on the principal amount collected on said notes while held by the bank or lending agency.

Inding agency. Banks and lending agencies that wish to handle corn loans should com-municate with the loan agency of the RFC serving their district, or CCC at Washington, for information and loan forms and may rely upon the loans being taken up by CCC at any time prior to Sept. 30, 1938, but should tender the notes on or before Sept. 1, 1938.

The following is the telegram sent by President Roosevelt to Mr. Jones on Oct. 31 and made public by Mr. Jones on Nov. 1:

Hyde Park, N. Y., Oct. 31, 1937. Hon. Jesse H. Jones. Chairman.

Hyde Park, N. Y., Oct. 31, 1937. Hon. Jesse H. Jones, Chairman, Reconstruction Finance Corporation, Washington, D. C.: There has been under consideration, as you know, CCC loans, including corn loans, aggregating approximately \$\$5,000,000. I have decided to recommend to Congress as soon as it meets, legislation which will provide the CCC with ample capital and with authority to raise the funds necessary for its operations through the sale of its own obligation. This legislation should authorize annual appropriations to be made available to the Corpora-tion to cover any impairment of its capital as shown by an appraisal of its assets from year to year. Under this plan each year's budget will reflect the losses, if any, sustained by the Corporation. This year's budget, as revised by my summation of Oct. 18, contains an estimate of \$100,000,000 for the CCC, which should be adequate to cover the needed capital for the fiscal year 1938. Pending this legislation, it will be necessary for the RFC to provide for these loans in an aggregate of not to exceed \$\$5,000,000, the loans to be made by the CCC as in former years, with a definite commitment from the RFC to provide CCC with the necessary funds. These loans should only be made under regulations prescribed by the Secretary of Agriculture with my approval. When the legislation referred to has been enacted, the RFC will be relieved of this temporary commitment and reimbursed for any advances made thereunder.

FRANKLIN D. ROOSEVELT.

The President's budget summation of Oct. 18 was referred to in our issue of Oct. 23, page 2624

President Roosevelt Tells Press Conference He Favors Reunion of C. I. O. With A. F. of L.—President to See Matthew Woll In Near Future

At his press conference yesterday (Nov. 5) President Roosevelt when asked whether he favored a reunion of the Committee for Industrial Organization with the American

Federation of Labor replied that he always had favored such a reunion. Advices to this effect are fr accounts from Washington, which added: from United Press

accounts from Washington, which added: He (the President) declined to expand upon that statement. Mr. Roosevelt said that as far as he knew the administration had taken no part in effecting the negotiations for a labor peace. It was indicated in official quarters that this hands-off policy would be maintained. The President said he planned to see Matthew Woil, an A. F. of L. Vice-President, in the near future. Mr. Woll is a member of the three-man Federation Peace Committee. Mr. Roosevelt said he had been planning to see Mr. Woll for some time and that there was no particular reason for the appointment. The labor conferees meanwhile edged closer to an armistice than they have been since their dispute broke out two years ago. They expected to discuss a proposal this afternon which would bar raids on each other's membership pending the outcome of present negotiations. Both C. I. O. and A. F. of L. leaders strongly favored such a truce to prevent the internecine warfare from interfering with settlement discussions. The peace conference of representatives of the C. I. O. and A. F. of L. which as noted in our Oct. 30 issue, page 2778, ended in a deadlock on Oct. 27, reconvened in Wash-ington on Nov. 4. ington on Nov. 4.

nmittee Begins Hearings on Tax –Revision of Undistributed Corporate House Sub-committee Structure-Profits Tax Favored

The Sub-committee of the House Ways and Means Committee named at the last session of Congress to study the Committee named at the last session of Congress to study the Federal tax structure with a view to suggesting revisions and the elimination of any inequities which may exist, began hearings on Nov. 4. The initial session was confined to the undistributed corporate profits tax and following the hearing Representative Fred M. Vinson, Democrat, of Kentucky, Chairman of the Sub-committee, said that "I think it is the general sentiment of Sub-committee that it should look into the undistributed profits tax with a view of relieving hard-ships." Other taxes that will be studied are the capital gains and losses tax, estate and inheritance taxes, and the so-called "nuisance" taxes.

Appointment of the Sub-committee last August was noted in our issue of Aug. 28, page 1351. Appearing before the Committee on Nov. 4 were Roswell Magill, Under-Secretary of the Treasury, and Arthur H. Kent, Treasury Counsel. The following bearing on the session Nov. 4 is from Washing-ton advices, that day, to the New York "Herald-Tribune" of Nov 5. of Nov. 5:

Representative Vinson described the meeting today as "an informal dis-cussion of broad policies" with some talk of a tax on undistributed corporate surplus. Executive sessions of the group will continue, and decision on the date of public hearing will be postponed indefinitely, as the Committee hardly expects a bill ready before the regular session of Congress in January. "We have requested certain data from the Treasury Department," he said, "giving us the Treasury picture of the income from the undistributed profits tax. What we hope to do is to take up subject after subject and give each one fair consideration, arrive at tentative conclusions and then go to some other subject."

to some other subject.'

Asked whether President Roosevelt's budget-balancing plans entered into the tax study. Vinson said that the Committee had been informed that the yield from the existing laws would be sufficient for budget balancing.

From a Washington dispatch of Nov. 4, appearing in the ew York "Journal of Commerce," we also take the following regarding the hearing that day:

Treasury officials who met with the Vinson Sub-committee as it began its study were Under-Secretary Roswell Magill and Arthur H. Kent, as-sistant general counsel. Attending the meeting also were L. H. Parker and C. F. Stam, of the Joint Congressional Committee on Internal Revenue Taxation.

Taxation. Consideration of changes in the tax laws is being conducted by the Sub-committee in secret sessions with all members under an agreement that only. Chairman Vinson shall make announcements. Public hearings later will be held after the Sub-committee has prepared its recommendations or a bill has been durafted. been drafted

been drafted. Mr. Magill appeared before the group with a voluminous report of the eight months' survey of the tax structure conducted by the Treasury De-partment but did not offer any recommendations at this time for changes in the law. No hint was given as to what these recommendations will be. Mr. Magill read only a small portion of his report dealing only with the tax situation in the most general terms before a recess was taken by the Com-mittee until temorrow.

Situation in the most general terms before a recess was taken by the Com-mittee until tomorrow. According to Chairman Vinson it is the intention of the Committee to take up only one subject at a time and to arrive at a tentative conclusion on that subject before proceeding to the next. Today's discussion centered around the undistributed profits tax provisions and will be followed by study of the capital gains and losses, estate, gift and nuisance taxes and administrative provisions of the law. Mr. Vinson said that it was not the purpose of the Committee to seek any addition to the revenues but only to remove the inequities of the existing law. Where changes make for a reduction in yields, however, these losses will be picked up from other sources. He said that the Treasury Depart-ment is in agreement with the Committee on this. He added that it is not anticipated that the Sub-committee will complete its studies in time for consideration of a bill during the special session but that in all probability it will be March 15 before the bill is ready. At a hearing vesterday (Nov. 5) the Sub-committee dis-

At a hearing yesterday (Nov. 5) the Sub-committee dis-cussed the capital gains and losses tax, but reported it had reached no conclusions.

Conclusion of Hearings on Proposed Trade Treaty with Czechoslovakia—Glass Industries and Labor Interests Oppose Tariff Cuts—Other Industries Heard—Treaty Urged by President of American-Czechoslovakian Chamber of Commerce

With the conclusion at Washington, on Oct. 29, of the hearings on a proposed reciprocal trade treaty between the

United States and Czechoslovakia, government officials in-dicated that negotiations with the Prague Government would start in a few weeks, before completion of surveys ordered by Congress to determine shoe production costs in this country and in Czechoslovakia. As to this, Associated Press accounts, Oct. 30, from Washington said:

Inis country and in Czecnoslovakia. As to this, Associated Press accounts, Oct. 30, from Washington said:
The survey, to determine differences in labor and other costs in the two countries, was ordered in a Senate joint resolution introduced by Senators David I. Walsh and Henry Cabot Lodge Jr. of Massachusetts. Chairman Henry F. Grady of the Committee for Reciprocity Information, predicting negotiations would be started within two weeks, expressed belief the cost survey could not be completed before Jan. 1.
The resolution directed the Tariff Commission, of which Mr. Grady is a member, to undertake the study. Mr. Grady said it was difficult to complete such statistical studies in less than a year.
During hearings concluded yesterday on inclusion of industrial products in the proposed agreement with Czechoslovakia, every industry represented protested against any lowering of tariffs.
The Washington hearings were referred to in these columns Oct. 30, page 2775. On Oct. 28 Harry H. Cook of Toledo, Ohio, a labor leader, told the Committee on Reciprocity Information that "cheap foreign competition" was responsible for serious unemployment in the glassware industry. In part, the Associated Press added:
Mr. Cook, International Vice-President of the American Flint Glass Workers Union, said his organization considered appealing to Congress for adequate tariff protection. He said that about 50% of the workers in the hand-blown glass industry were either unemployed or working part time.

the hand-blown glass industry were either unemployed or working part time.
He "demanded" a 50% increase in duties on glassware in a proposed reciprocal trade agreement with Czechoslovakia.
Mr. Cook predicted that, if the cost of foreign products were equalized by a tariff with the cost of those produced in this country, American manufacturers would be encouraged to expand their operations.
"All you ask, then," said Henry F. Grady, Chairman of the committee, "is a modest 90% tariff on glassware."
Mr. Cook previously had said he understood the present duty was 60%.
"We may be selfish in asking for this increase, but we are speaking for the industry and our jobs."
Representing what he described as a "vanishing industry," Thomas Eames of Millville, N. J., of the Glass Bottle Blowers Association, said he saw no reason to include blown bottles in the proposed treaty. He said his industry already suffered strong competition from the machinemade bottle industry and that foreign goods also were hurting it.
Opposing any concession so far as perfume atomizers were concerned, William J. Pitt of the De Vilbiss Co. of Toledo, said that sales of this domestic industry had declined 50% since 1930, and attributed it largely to foreign competition.
D. K. Bancroft of the Catalin Corp. of New York City urged protection for the button industry feared Japanese competition more than that of Czechoslovakia.
At the hearing on Oct. 29, Howard L. Shuttleworth. Vice.

At the hearing on Oct. 29, Howard L. Shuttleworth, Vice-President of the Mohawk Carpet Mills, Amsterdam, N. Y., said that his mills paid an average wage of 67c. an hour, compared with 12½c. paid to Czech workers. If tariff bar-riers are lowered, he asserted, "we wil have to pay lower wages or our mills will stand idle and our workers unem-ployed." The Associated Press further reported:

Herbert Gutterson, President of the Institute of Carpet Manufacturers of America, Inc., told the committee that about three-quarters of the manufacturers of wool, carpets and rugs in Czechoslovakia was in the hands

of one company. "If this is true," he said, "it would seem to indicate there is a virtual

"If this is true," he said, "it would seem to indicate there is a virtual monopoly." In support of reduced tariff, H. V. Blanckensee of the I. Ginzkey-Maffersdorf, Inc., New York City, importer of wool chenille Axminster rugs, declared that imports in 1936 were less than 1% of domestic production. He said wages constituted the only difference in cost of production in the United States and Czechoslovakia, asserting manufacturers of both countries purchased raw materials on the world market at the same price. About 25% of Czech production costs, Mr. Blanckensee estimated, went to labor. Therefore, he said, a 25% to 30% duty would cover labor differences rather than the present 70% duty. "The present tariff is prohibitive," he said. Mr. Blanckensee said, that total domestic production in 1936 amounted to \$130,000,000, while imports from Czechoslovakia were only \$200,000. Maitland Griggs, Vice-President of Alexander Smith & Sons of Yonkers, said that lowering of present duties would curtail a large business in raw materials, which the carpet and rug industry now buys abroad. He estimated that \$50,000,000 would be spent by the industry this year for carpet wool, which, he said, was not obtainable in this country. Mr. Roucoules of Gloversville told the committee imports of foreign gloves threatened to break down the wage scale in the American industry. Mr. Roucoules, Chairman of the joint council of Fulton County, N. Y., said employment in the industry at the present time was the lowest of any fall season within the past 25 years. A Johnstown (N. Y.) glove manufacturer, Elmer Little Jr., protested any reduction, asserting that there should be a 300% duty against Czech imports to protect the domestic glove industry. A tariff reduction on gloves, he said, would eliminate domestic producers from the high-price range.

gioves, he said, would eliminate domestic products from the high pitte range. Mary Rehan of the Steinberger Glove Corp. of New York City asked that the committee recommend continuation of the present specific duties on imported gloves but elimination of ad valorem duties. She said American industry would not lose by this concession. Representatives of some pencil companies told the committee they favored tariff reductions. R. J. Urmston of the Pencil Importers Association, New York, said "our organization asks reductions even though the bulk of our membership imports German pencils." Irving P. Favor of the Koh-I-Noor Pencil Co., New York, said Czech pencil imports amounted to only about ½ of 1% of domestic production. He added all the cedar wood used in the manufacture of Czech pencils comes from the United States. On the other hand, W. A. McDermid of New York City, President of the Lead Pencil Association, Inc., said that pencil manufacturers feared

concessions to Czechoslovakia would result in a flood of imports from other nations through application of the most-favored-nation clause.

In support of the proposed treaty, George Boochever, President of the American-Czechoslovakian Chamber of Commerce, declared on Oct. 28 that if the United States did not enter into an agreement the result would be "a loss to American agriculture and business."

Mr. Boochever, according to the Associated Press, said the Czechs wanted to do business with this country and that a reciprocal trade agreement would increase business as soon as possible

United States Declines Proposal of Cuban Government That All American Nations Mediate in Spanish Conflict

Conflict Declination on the part of the United States, of a proposal by the Cuban Government made to all the American Governments to become a party for mediation of the Spanish conflict, was announced on Nov. 2. In its reply to the proposal, the United States, in a note delivered on Nov. 2 to the Foreign Office at Havana by J. Butler Wright, the United States Ambassador, and made public by the State Department at Washington while stating that "the people of the United States have followed the progress of the unfortunate conflict in Spain with deep sorrow, and the sufferings of the people of that country have profoundly distressed the Government and people of the United States" this Government "has adopted as a matter of principle, the policy of non-interference in the internal affairs of another country." It is pointed out that in observance of this policy the United States "was unable to accept the proposal toward mediation put forward by the Government of Uruguay in mediation put forward by the Government of Uruguay in August of last year. The reply of the United States to Cuba, as given in a Washington dispatch Nov. 2 to the New York "Times" follows:

"Times" follows: I have been directed by my Government to inform Your Excellency that thas received, and has studied with the greatest attention, Your Excel-lency's note of Oct. 21, inviting the Government of the United States to associate itself with all the countries of the American Continent in a joint offer of their good offices for the purpose of arranging an armistice, and subsequently terms of peace, between the contending forces in Spain. My Government fully appreciates the concern of the Cuban Government in contemplating the deplorable situation in Spain, and its natural desire to find some peaceful method of terminating the strife which for so long has ravaged that unfortunate country. My Government is furthermore aware of the humanitarian considerations which have always actuated the Cuban Government in its firm support of the efforts which have been made to find just and peaceful means for the settlement of international dis-putes. At the same time, my government recognizes that the heritage of the Cuban people, shared with the people of many other countries of Amer-ica, must lend a peculiar poignancy to the sufferings and misfortunes of the Spanish people. *Non-Interference Our Policy*

Non-Interference Our Policy

the Spanish people. Non-Interference Our Policy The people of the United States have followed the progress of the un-fortunate conflict in Spain with deep sorrow, and the sufferings of the people of that country have profoundly distressed the government and people of that country have profoundly distressed the government and people of that country have profoundly distressed the government and people of the United States. It is the very earnest hope of my Govern-ment, as it is of the American people, that a peaceful method of terminat-ing this strife may be found. The Government of the United States, however, has adopted, as a matter of principle, the policy of non-interference in the internal affairs of another country, and with respect to the unfortunate conflict in Spain, my Gov-ernment announced in August of 1986 that "in conformity with its well-established policy of non-interference with internal affairs in another coun-try, either in time of peace or in the event of civil strife, this Govern-ment will, of course, scrupulously refrain from any interference whatsoever in the unfortunate Spanish situation." In observance of this policy my government was unable to accept the proposal looking toward mediation put forward by the Government of Uruguay in August of last year, and it has subsequently been forced to decline participation in other proposals for joint intervention in that conflict. The Government of the United States feels confident that in the light of the foregoing the Government of Cuba will fully appreciate the consider-ations which preclude it from associating itself with the action proposed by that government.

by that government.

Eligibility of Justice Black to Serve on U. S. Supreme Court Questioned by Florida Oil Companies in Petitioning Court for Rehearing of Case Involving Right of SEC to Subpoena Telegrams
A petition seeking a review of the ruling of the United States Supreme Court on Oct. 18 in which it declined to interfere with efforts of the Securities and Exchange Com-mission to subpoena telegrams, was filed with the Supreme Court on Nov. 3 by Frank J. Ryan and the Ryan Florida Corp. of Tampa, the Florida Tex Oil Co. of St. Petersburg and the Income Royalties Co. of St. Petersburg, Fla. Ac-cording to a Washington dispatch Nov. 3 to the New York "Times" three points were raised in the request for a rehear-ing, viz: ing, viz:

New statements concerning the seizure of telegrams Justice Black's alleged constitutional ineligibility, claimed on the ground that Justice Van Devanter is still a court member; the contention that Justice Black increased the pay of a Justice while a Senator, and the assertion that Justice Black had a "personal interest" in the ruling affecting the subpoending of telegrams

The Supreme Court's decision of Oct. 18 was referred to in our issue of Oct. 23, page 2627. Justice Black, the petition filed this week contended, (said the Associated Press) had "settled views" with respect to obtaining telegrams and was "unable to disassociate his strong and fixed bent of mind toward said questions." Reference was made in the petition, to the fact that the Justice, while chairman of the Senate

Lobby Committee, had sought to use certain telegrams which had been obtained by the Communications Commission.

2946

Repeal Urged by Senator Glass of Undistributed Profits Tax and Modification of Capital Gains Levy

A recommendation that the undistributed profits tax be repealed and that the capital gains tax be modified was made on Nov. 2 by Senator Carter Glass (Democrat) of Virginia, as a means of aiding employment and business conditions. The Associated Press, in thus noting the views of Senator Glass, referred in advices from Washington on Nov. 2 to the proposed meeting Nov. 4 of a sub-committee of the House Ways and Means Committee to consider the revision of the tax laws. In part these advices said:

Representative Vinson (Democrat) of Kentucky, Chairman of the sub-committee, has favored changes in the tax on undistributed corporation earnings to ease the burden on companies with deficits and debts. Senti-ment has developed also for lowering the tax on earnings withheld to expand

or improve plants. Representative Treadway of Massachusetts, ranking Republican on the committee, told reporters that he saw "a little justification" for not allow-ing corporations to accumulate too large surpluses. But if surpluses are put to proper use, he added, they should be allowed to continue "rather than be taxed to death."

National Industrial Conference Board Surveys Opera-tion of Undistributed Profits Tax

The National Industrial Conference Board announced on The National Industrial Conference Board announced on Oct. 30 the results of a survey to ascertain the general atti-tude of business executives toward the undistributed profits tax. The Board said that of 360 representative business concerns replying to its inquiry, only two expressed opinions indicating that advantages of the tax outweighed disadvan-tages. In both cases amendments to the law were considered necessary, the Board pointed out. As to the advantages and disadvantages of the tax, the Conference Board's an-nouncement had the following to say:

Advantages mentioned and the number of companies reporting them

LOI		
	Number of	Companies
1	Advantages—	Reporting
1.	Prevents withholding of dividends when there is no reason	
~	for not declaring them	14
z.	Stops accumulation of unneeded cash	7
	One company cited the large amounts of cash used in	
	securities speculation in 1928 and 1929 as an illustration	
	of this advantage.	
3.	Blocks manipulation of earnings to suit the tax exigencies of	
1	large stockholders	4
4.	Checks unwarranted expansion	3
D.	Adds to consumer purchasing power	2
	Two companies declared that the tax increases consumer	
1	purchasing power.

	It was pointed out that this was particularly disadvan-	
	tageous in the case of corporations incurring a capital	
8	deficit or a deficit in the surplus account.	
0.	Induces payment of dividends in excess of sound financial	
~	policy	39

26 24

The practical effects of the tax were also covered by the onference Board's survey. The following results of the Conference Board's survey. tax were shown:

In the case of 196 corporations with net income that paid the tax, it amounted on the average to 3.6% of net income before Federal taxes A substantial number of corporations paid dividends equal to or in excess of earnings and were not subject to the tax.

earnings and were not subject to the tax. An increase in the proportion of earnings distributed as dividends was reported by 193 corporations. Those corporations furnishing information on the amount of increase because of the tax reported an increase of 51%. Dividends equal on the average of 76.8% of earnings after deduction of all taxes other than the undistributed profits tax were reported by 272 cor-porations. This compares with an average of 64.8% for all corporations other than finance reporting net income during the five-year period 1925-1929.

Study by Tri-Continental Corp. of "Balance of Payments and Flow of Gold"

The action of the Treasury in sterilizing gold, examined against the background of why gold has been coming to the United States, is described as "an ingenious and simple method of insulating the banking system against the shock of gold withdrawals from this country when and as foreign

balances are withdrawn," in a study entitled "The Balance of Payments and the Flow of Gold," issued by Tri-Conti-nental Corp., and made public Oct. 31. The tremendous movement of gold to this country, beginning in 1934 and continuing through the first nine months of 1937, the study indicates, represents almost entirely a net inflow of capital for the purchase of securities or the transfer of short-term funds, rather than for dolt negments for average of avorte for the purchase of securities or the transfer of short-term funds, rather than for debt payments, for excess of exports over imports or for other normal aspects of international trade. Monetary imports in 1934 were \$1,200,000,000, it is pointed out; in 1935 they were almost \$2,000,000,000, it 1936 they exceeded \$1,000,000,000, and in the first nine months of 1937 they have been nearly \$1,500,000,000 more. It is the gold imports of 1934-36, plus those of 1937, the study asserts, which have created the "gold problem" for the American Treasury and the banking system. It is stated that although the amount of "hot money" resulting from gold imports is open to question, the study indicates that a substantial part of the inflow of short-term funds in the first half of 1937 came here for temporary reasons and that obviously such money is, in a real sense, "hot," subject to early recall. The study also says:

early recall. The study also says: The short-term foreign money here is partly frightened money or money here only temporarily to take advantage of the unusual foreign exchange situation. So if confidence returns in Europe (and notably in France), or short-term interest rates tighten in London, a portion of these funds will probably be taken home, perhaps with promptness. American funds were quickly repatriated in 1934 when the gold price was finally fixed. But when and if heavy withdrawals of either short-term or long-term capital occur, the first outflow of gold to meet them can now come from the "inactive gold" fund. Not until the latter is exhausted by such demands (and the amount in the fund is now more than \$1,200,000,000 after \$300,000,000 had been withdrawn from the fund and placed in the banking system. Under these circumstances, and in a world of currency uncertainty, the low rate of interest paid by the Treasury for the funds to buy the gold for the "inactive fund" is perhaps a small price to pay for the real freedom of action which possession of that fund provides, both to the Treasury and to the Federal Reserve System.

Inadequate Earnings and Not Section 77 of Bankruptcy Act Responsible for Delay in Solving Railroad Re-organizations in Opinion of Fairman R. Dick

Act Responsible for belay in Solving Kallroad Re-organizations in Opinion of Fairman R. Dick The problem of restoring sound credit to American rail-roads undergoing reorganization will be solved as soon as it is realized that the trouble is inadequate earnings and not the burden of debt, Fairman R. Dick told members of the Cham-ber of Commerce of the State of New York at their monthly meeting on Nov. 4. Mr. Dick, who is Advisor on Finance and Credit to the Association of American Railroads Chair-man of the Railroad Securities Committee of the Invest-ment Bankers Association and Senior partner of the invest-ment firm of Dick & Merle-Smith, of New York, declared that in his opinion Section 77 of the Bankruptcy Act is not responsible for the delay in solving the problem. "It is my belief, not as a lawyer but as a layman, that the purpose of the Act is sound," Mr. Dick said, "and that, as time develops, amendments can be added which will bring about an effective and greatly improved method of re-organization as compared with former practice." In in-dicating that what he had to say was an expression of his own views, Mr. Dick stated: I wish to make it clear, that in stating my views to you today. I am giving

I wish to make it clear, that in stating my views to you today. I am giving you merely my personal opinion. I want to make this entirely clear be-cause the Association of American Railroads, by which I am retained as Financial Advisor, has taken no position in regard to many of the matters which I shall discuss in this address.

It was pointed out by Mr. Dick in his address that many security holders were criticized for an unwillingness to acknowledge their losses on the ground that the railroads con-not service fixed charges, that the demand for rail trans-portation has diminished and that the country is overbuilt Denying the soundness of these contentions, he with lines. asserted:

asserted: "My studies have convinced me that these assumptions are not based on fact but are in general completely untrue. The true facts are the direct opposite of these assumptions. "Railroad debt has not been increasing relative to the plant, it has been decreasing. Fixed charges have not been increasing relative to the plant or to the service performed, they have been decreasing. Capital structures have not outgrown the demand for service represented, let us say, by gross revenues, but the demand for transportation, measured by gross revenues, has far outstripped capitalization. "In 1894, the debt of the railroads was 54% of their road and equipment account, In 1901 it was 52% of their investment; in 1923 it was 50%; in 1929 it was 45%. In other words, the debt ratio has not been rising but continually declining. This is due to the conservative policy followed by the railroads as a whole of ploughing back earnings and financing in part by stock.

the railroads as a whole of ploughing back earnings and financing in part by stock. "If we examine fixed charges in relation to plant investment, we get very much the same picture. In the decade ending in 1910, fixed charges were 4.15 of the railroad plant account; in the next decade they were 3.56 of the plant account; in the following decade they were 3.25, and at the present time they are approximately 3.00. It is clear, therefore, that railroad debt and railroad fixed charges in relation to the investment in plant have not been increasing, but continually declining. "In the decade ending in 1900, fixed charges consumed approximately 30% of gross operating revenues; in the 7-year period from 1900 to 1907— the period of the greatest railroad prosperity— fixed charges consumed approximately 24% of gross operating revenues. In 1936, fixed charges required slightly less than 17% of gross operating revenues. "A sound comparison of fixed charges in relation to operating revenues" should be made by taking period of depression years and comparing it wita another period of depression years, or a period of prosperous years and

comparing it with another period of prosperous years. Comparing like with like, therefore, we find that in this major depression, the burden of charges is approximately 40% less than it was in the last major depression. that of the 90's. Furthermore, we find that the burden of charges in the prosperous years of the 20's was approximately 50% less than the prosperous years from 1900 to 1907."

Mr. Dick said that while most security holders fail to Mr. Dick said that while most security holders fail to realize that the troubles of the railroads are not increased charges but the declining net earnings available to pay them, they were beginning to sense a fallacy in proposals which cut as deeply into capital structures as many of them now do. Citing the cases of the St. Paul, Chicago & North Western, the Rock Island and the "Monon" as examples, he said: "Present reorganizations demand of the investor sacrifices in regard to bonds never in the past questioned, in an attempt to restore credit which the present selling price of the securities indicates cannot be restored in satisfactory or adequate degree.

satisfactory or adequate degree. "The purpose of reorganization, that of restoring sound credit conditions, is meeting serious difficulties today because it is attempting to treat a symptom of the disease and not the malady itself. It is my opinion that the problem of railroad credit not only can be solved but will be solved as soon as it is fully realized that the disease is inadequate earnings and not the burden of debt. "For the past 50 years, certain railroad burdens have been increasing:

the problem of rainoad dream the discase is inadequate earnings and not soon as it is fully realized that the discase is inadequate earnings and not the burden of debt. "For the past 50 years, certain railroad burdens have been increasing; taxes, for example, have gone up 10-fold and labor and other costs likewise have advanced very materially, and this increasing burden of costs, other than interest, has been somewhat obscured by the decreasing burden of interest. The increases in burdens other than interest have been such that out of \$1.00 of gross revenues received today, the railroads have left over for net but 15 cents, whereas during the period of sound railroad credit con-ditions in the past, double this amount, or 30 cents, was available. "The reason I do not feel pessimistic as to the ultimate outcome is because I do not believe there is any economic obstacle to an adjustment of rates and expenses which will permit the restoration of a sound relationship be-tween railroad revenues and expenses. This means, of course, that I do not regard truck or waterway transportation as a serious barrier to ac-complishing the desired results. The most important factor in accomplish-ing such a result, in my opinion, is a realization of the true nature of the problem by the public at large and Governmental bodies in particular."

Problem of Intergovernmental Tax Exemptions Discussed by Roswell Magill, Under Secretary of Treasury, at Tax Conference—Would Remove Tax Exemption Feature from Federal and State Bonds—Removal of Exemption as to Salaries of Government Employees "Hardly Worth the Candle." An address on "The Problem of Intergovernmental Tax Exemptions" by Roswell Magill, Under Secretary of the Treasury featured the Annual Conference on Taxation in

Treasury, featured the Annual Conference on Taxation in Baltimore, Md., on Oct. 28, held under the auspices of the National Tax Association. In his opening remarks Mr. Magill stated that "the history and scope of the intergovern-mental exemptions from taxation have been discussed and defined so often that it is quite impossible for me to give this gathering of experts any new light upon these topics." In part he want on to say." part he went on to say:

part he went on to say: Notwithstanding the unanimous recommendations of successive Presi-dents and Secretaries of the Treasury for 20 years, the exemptions remain unchanged, except for the judicial embroidery which has been added to the original design blocked out long previously. The persistence of the original design might lead an observer from another planet to either of two con-clusions: that the doctrine of intergovernmental exemptions is basically sound, and its modern development a logical necessity; or that whether sound or not, the doctrine, having been developed by the Supreme Court, and not the Congress or the State legislatures, upon the basis of the neces-sary, though unexpressed, implications of the Constitution, is practically incapable of modification or repeal under our constitutional system. The current agitation for change, which has led to many proposals for consti-tutional amendments and legislation, make a discussion of those two latter propositions appropriate. I intend to discuss only the intergovernmental exemptions of interest and employees' compensation, and not to touch upon such questions as the exemptions of sales of articles intended for essential governmental use, or of private lessees' incomes from Government-owned property.

governmental use, or of private lessees' incomes from Government-owned property.
In advocating the removal of the tax exemption features from all Federal and State bonds. Mr. Magill said, in part:
As of July 1, 1937, the net outstanding debt of the United States was \$35,000,000,000 upon which the angual interest charge is \$915,000,000.
The net outstanding issues of State's and local subdivisions was nearly \$17,000,000,000 upon which the angual interest charge is \$915,000,000.
The net outstanding issues of State's and local subdivisions was nearly \$17,000,000,000 upon which the angual interest charge is \$915,000,000.
The net outstanding issues of State's and local subdivisions was nearly \$17,000,000,000.
Outpendent of the second and the annual interest charge is estimated at \$718,000,000. Since many of these bonds are held by exempt corporations, such as educational and charitable institutions, and by taxpayers not subject to income tax; and since a large part of the interest on the Federal bonds is now subject to surtaxes though not normal taxes, the additional taxes which would be due if the tax exemption on these outstanding bonds could be presently destroyed are not as great as has been sometimes supposed. Although exact data as to the distribution of State and local bonds by types of investors are not available, the best information wich we have available leads us to estimate that if the Federal Government were authorized to collect Federal income taxes upon the interest on State and local bonds new outstanding, the additional revenue at current levels of income and under the provisions of the present revenue at would be approximately \$70,000,000 annually.
The existence of this large mass of exempt property and income, however, Frogressive surtaxes cannot be made to operate effectively so long as Governments themselves provide this easy mode of escape from them. The exemption is rightly regarded by the bulk of taxpayers as undesirable and sold to many pers

In part, Mr. Magill also stated: Altogether there have been over 300 published rulings and decisions on this general question, and new cases are being presented all the time. Moreover, the game is hardly worth the candle from the governmental point of view. There are about 2,500,000 State and local employees, but their average compensation is about \$1,430, over \$1,000 less than the exemption accorded a married person by the Federal law. Hence, if they were all subject to Federal income taxation, the increased revenue would be, it is estimated, less than \$15,000,000 at the 1936 rates. The litigation is all out of proportion to the revenue significance of the exemption.

From Mr. Magill's address we also quote the following:

were all subject to Federal income taxation, the infrased revenue would be it is estimated, less than \$15,000,00 ot the 1936 rates. The linkation is all out of proportion to the revenue significance of the exemption. For M.r. Magill's address we also quote the following: The newspapers recently quoted President Nicholas Murray Butler of formation at university as saying that for the Congress to propose an amendment to the following in the state and nucleical boards, since the Sitteenth Amendment clearly contains the authority already. Nevertheless, the Treasury in recent years had advocating to construct the laught of the void is since the Sitteenth Amendment clearly contains the state of the world, since the Sitteenth Amendment clearly contains the authority already. Nevertheless, the Treasury in recent years had advocating to charge, primarily to remove any doubt of the validity of the proposed tax, but the possible unsettlement of the bond market while the test exers were proceeding through the courst. The Congress might doubt interest from Fideral income taxation, at least doubt and the set form Fideral income taxation, at least with particular severity, of course, upon financial institutions with large by income including interest from all sources. Such a change would beer with particular severity, of course, upon financial institutions at the arthout approved in Maxuell v. Baybet, take all taxing a lassing eshould apply only to the interest on future issues of bonds; or to the interest on all issues court in determining the reserve the section of the surfax scale, and super-cline process. Place his tax scale in the surfax scale and thus his tax-exempt income in affect as excluded from taxation at the bottom of the surfax scale, and super-timpose his taxable income two scale income scales of the sourd. The fill were state in the surfax scale and thus the total maximistic bows scale in the surfax scale, and super-timpose his taxable income which is the serting the cowner. I subject to the law. Similar and t

careful consideration. Some of these alternatives are now pending in Congress, notably a series of constitutional amendments, differing in scope, which have been referred to the Judiciary Committee of the Senate. The present situation is difficult and confused, and presses for a prompt solution. Since the members of the National Tax Association are at once familiar with the problem, and con-cerned with its present effects, I venture to ask the application of your individual and collective intelligence upon it.

Sumner Welles, Acting Secretary of State, Indicates Purpose of Participation by United States in Nine-Power Conference on Far East Situation-Con-ference Not Called at Instance of United States

In the course of an informal oral statement at Washington on Nov. 2, Sumner Welles, Acting Secretary of State, indicated that the purpose of participation by the United States cated that the purpose of participation by the United States in the Nine-Power Conference on the Far East (which opened at Brussels on Nov. 3) is to share in the common task of finding, within the provisions of the treaty that guarantees the territorial integrity of China and the policy of the Open Door and in accordance with the principles of peace that have been repeatedly stated here, some pacific solution of the Sino-Japanese conflict. This explanation of Mr. Welles was, it was stated in special Washington advices Nov. 2 to the New York "Times," designed to clear up mis-understandings incident to early press reports from London on Nov. 1 that were in error in certain important particulars on the Far Eastern statement made in the House of Com-mons by Anthony Eden, the British Foreign Secretary. From the "Times" Washington dispatch Nov. 2 we quote further:

Mr. Welles expressed regret over the earlier reports, but pleasure that the accounts that appeared in the morning newspapers today had disposed of the misapprehensions that had arisen. It was reported, Mr. Welles pointed out, that Mr. Eden had said the United States Government had taken the initiative in convoking the con-ference. When the official text of his speech was received by the State Department last night it was discovered that what he had said was that the United States had taken the initiative in suggesting where the conference should be held. Mr. Welles outlined the facts substantially as follows:

should be held. Mr. Welles outlined the facts substantially as follows: The initiative as to the convocation of the conference came from the group of signatories of the Nine-Power treaty who were members of the League of Nations. After the decision had been reached by them to suggest the convoking of the conference, the United States Government, as one of the signatories, in accordance with treaty obligations expressed its willing-ness to attend such a conference for the purpose of consultation envisaged in the treaty.

The British Government on Oct. 6 advised the United States Government The British Government on taken with regard to the convoking of the of the initiative that had been taken with regard to the convoking of the conference and inquired of this Government what its views might be as to the place for holding the conference. This Government then suggested that it felt Brussels would be desirable,

and in that sense Mr. Eden's statement as finally reported was entirely

Black-Connery Wage and Hour Bill Criticized in Report of Committee of New York Chamber of Commerce—Holds Methods Whereby Proposals Are Planned to Be Accomplished Strike at Foundation of Nation's Economic Structure

of Nation's Economic Structure In a report bearing on the Federal Government's plan to establish maximum hours of labor and minimum wages, and based particularly on an analysis of the Black-Connery bill, a committee of the Chamber of Commerce of the State of New York states that "no fair-minded person can take issue with any sound proposal to end oppressively long hours of work or wage levels so low that decent standards of living cannot be maintained; but the methods by which it is planned to accomplish this in the Black-Connery bill, in the opinion of your committee, strike at the very founda-tion of the Nation's economic structure, endangering the it is planned to accomplish this in the Black-Connery bill, in the opinion of your committee, strike at the very founda-tion of the Nation's economic structure, endangering the welfare of industry and labor alike." This measure failed of enactment at the last session of Congress, but will be brought up at the special session called for Nov. 15. The conclusions of the Chamber group—the Committee on In-ternal 'Irade and Improvements, of which Frederick E. Hasler is Chairman—are embodied in a report acted upon at the monthly meeting of the organization on Nov. 4. According to the committee, "any legislation, no matter how worthy its objective, which has its foundation on the belief that a nation may solve its unemployment problem and raise the standard of living merely by decreasing the hours of labor to spread employment, is wrong in theory and foredopmed to failure." The committee also says: There can be little or no objection, in principle, to a maximum hour law designed solely to protect labor from exploitation, but this aim appears to be secondary in the Black-Connery bill to the real purpose of shortening the hours to spread the work and create additional employment. The fallacy of the theory that the people of any nation can be enriched by working less has been exposed too often to bear repetition. Neither is there anything wrong, as a humanitarian principle, with a minimum wage law. Its general application over a country as large as the United States, with radically different conditions and costs of living in various sections, however, makes it a dangerous weapon to wield, if economic dialocations, which would injure instead of help the very persons most deserving of higher wages, are to be avoided. In criticism of that feature of the Black-Connery bill which provides that two of the very persons

In criticism of that feature of the Black-Connery bill which provides that two of the five members of the proposed Labor Standards Board would constitute a quorum at all times, the committee said:

While the edicts and rulings of the Board are subject to review by the United States Circuit Court of Appeals, it would seem that to give two members of the Board authority to issue orders affecting the economic welfare of employers and industries and perhaps the very economic life of whole sections of the country, is a concentration of power too unlimited in its scope and too fraught with danger of possible misuse, through error of judgment or outside influence, to be attempted, except in the face of some great emergency. No such emergency exists at this time.

Besides Mr. Hasler, the Chairman, the following are members of the committee: William C. Dickerman, John W. Hiltman, Archie H. Loomis, George Nichols, Arthur M. Reis.

Employment in Manufacturing Companies Seriously Affected by Surplus Profits Tax, According to Survey by National Association of Manufacturers

A poll of a representative cross-section of manufacturing in the United States by the National Association of Manufacturers today indicated that employment in the manufac-turing companies of the country is being seriously affected by the surplus profits tax. In their replies to a question-naire, according to an announcement by the National Asso-ciation of Manufacturers, one-quarter of the manufacturers stated definitely that if the tax was lifted and they were thus allowed to devote taxes to plant expansions and pur-chase of new machinery, they were "positive" more em-ployees would be required. Another quarter indicated that if the tax was lifted their demands in the labor market would probably increase. Of the 405 replies received, the facturers today indicated that employment in the manufacfollowing is a summary issued by the N. A. M. of the effects of the surplus profits tax law on their business:

18.5% were handicapped by the tax on earnings used to pay off debts. 4.7% were handicapped by contracts and State laws which prevented the distribution of earnings in the form of dividends. 68.7% stated that they were paying out uneconomically large dividends. 25.4% stated definitely that they would employ more men if exemp-tions were allowed for plant expansion.

26.4% stated they probably would do the same if such capital expendi-ture was exempt from taxation.

"Thus it would appear," the Association said in a state-ment, "that there can be little real expectation of sound business expansion and further employment gains until the surplus profits tax is either repealed or drastically amended. Every approach which the National Association of Manu-factures has made in surraying and studying the effect of facturers has made in surveying and studying the effects of this tax had indicated that it is seriously handicapping and adversely affecting business and reemployment throughout the country."

Death of United States Representative R. P. Hill of Oklahoma—to Congress by two States

Oklahoma—to Congress by two States R. P. Hill, Democratic Representative from the Fifth Oklahoma District, died on Oct. 29 in a hospital in Oklahoma City, Okla., after suffering a heart attack. He was 63 years old. Mr. Hill was one of the few Representatives in Congress ever to be elected from two States. He was first elected to the House from the 25th Illinois Congressional District serving from 1913 to 1915. In November, 1936, he was elected to Congress from the Fifth Oklahoma District and also served as a member of the House Judiciary Com-mittee. In the New York "Times" of Oct. 30, Mr. Hill's career was summarized as follows:

Mr. Hill was born in Ewing, Ill., April 18, 1874, and studied at Ewing College. Admitted to the Illinois bar in 1904, he practiced at Marion in his native State. Mr. Hill was police magistrate at Marion in 1903 and 1904, City Attorney from 1907 to 1909 and a member of the State House_of Representatives from 1910 to 1912.

Death of Henry Mauris Robinson, California Banker and Financier—Adviser of Three Presidents— Member of Many Government Commissions

Henry Mauris Robinson, well-known California banker and economist, died in the Huntington Memorial Hospital', Pasadena, Calif., on Nov. 3, as the result of a spinal injury suffered last July. He was 69 years old. Mr. Robinson was born in Ravenna, Ohio, and was educated at Western Reserve Academy, Hudson, Ohio, and Cornell University, Later he read law in Youngstown, Ohio, where he practised from 1890 to 1900. He then went to New York, where he was successful ir financial and business contacts in the merger era from 1901 to 1905. During this period he was interested was successful ir financial and business contacts in the merger era from 1901 to 1905. During this period he was interested in banking, coal, steel and, for a time, newspapers in Boston and Kansas City. In 1906 he moved to California, where he engaged in the development of Western enterprises involving lumber, copper, the telephone industry, hydroelectric power and finance. At the time of his death he was Chairman of the Board and Vice-Chairman of the executive committee of the Security-First National Bank & Trust Co. of Los Angeles: Chairman of the Board of the Newport News (Va.) Shipbuilding & Drydock Co.: Chairman of the Pacific Southwest Realty Co., a Director and member of the execu-tive committee of the Pacific Mutual Life Insurance Co., **a** Director of the General Electric Co., Union Oil Co. of Cali-fornia, &c., &c. An outline of Mr. Robinson's career printed, in the New York "Times" of Nov. 4, further said in part:

Mr. Robinson was friend and adviser to Presidents Wilson, Coolidge and Hoover. He held a Commissionership on the United States Shipping Board, the nearest he ever permitted himself to approach being a regular Government official.

ment official. The least publicized member of the American committee to investigate Germany's finances, under the Reparation Commission, he served with Charles G. Dawes and Owen D. Young, His colleagues credited him with performing much of the work in evolving the Dawes plan. Mr. Robinson's career as a statesman began during the World War in 1917, when President Wilson called him to the Council of National Defense, on which he became a dominating figure. He served as a member of the Supreme Economic Council at the Peace Conference in Paris in 1919, where his friendship with another member, Herbert Hoover, grew. At Labor Conference

At Labor Conference

At Labor Conference In the same year Mr. Robinson was a member of the committee that took over German ships. He represented the United States at the First International Labor Conference, which created the labor burget of the League of Nations, and was a member of President Wilson's Second In-dustrial Conference. In 1920 he was Chairman of the Government's Bituminous Coal Commission to investigate whether the miners were en-titled to increased pay. After aiding in the drafting of the Dawes plan in 1924, he collaborated with Owen D. Young, Agent General for Reparation Payments, in the in-stallation of the Dawes plan. In 1927 Mr. Robinson, under appointment by President Coolidge, was Chairman of the American delegation to the International Economic Con-ference in Geneva. Mr. Robinson was a member of President Hoover's Economic Stabilization Conference in 1929. The following year be served as a member of the executive committee of the National Business Survey Conference of the United States Chamber of Commerce, as Chair-man of the Financial Division of the National Drought Relief Commission and as a member of the President's organization on unemployment relief. Urged Aid to Depositors

Urged Aid to Depositors

Mr. Robinson helped the President with the intricate financial problems which arose in connection with the first moratorium on war debt reparation payments.

He advocated creation of a fund under the Comptroller of Currency to assist depositors whose savings were tied up in defunct banks. He played an important part in framing President Hoover's proposal to create a system of home loan discount banks. On Aug. 26, 1932, Mr. Robinson became Chairman of a permanent Central Committee created by the National Business and Industrial Con-ference to coordinate Government and business efforts toward recovery. . . . Until the very eve of President Roosevelt's inauguration, Mr. Robinson, long-distance commuter between California and the capital, warding Mr. Heaven is heaving situation isted Mr. Hoover in handling the banking situation.

Among the numerous tributes to Mr. Robinson was one from former President Herbert Hoover, who was quoted in Associated Press advices as saying:

"Henry Robinson was one of the most useful citizens of our country. All his life his business occupation was an incident to constructive public We can ill afford to lose such men."

Senator Carter Glass Receives Degree of Doctor of Laws from Hamilton College—Latter Named After First Secretary of Treasury—Mr. Glass Expresses Need To-Day of Many Alexander Hamiltons in Capital

Capital The honary degree of Doctor of Laws was on Oct. 30 con-ferred on Carter Glass, Democratic Senator of Virginia, and a former Secretary of the Treasury by Hamilton College, of Clinton, N. Y. named after Alexander Hamilton, the first Secretary of the Treasury. In addressing the gathering, Senator Glass declared that "had we some Alexander Hamil-tons in the Congress of the United States, we would not have gained the reputation of being a lot of legislative spend-thrifts." A dispatch from Clinton, N. Y. to the New York "Herald Tribune" also quoted Mr. Glass as follows: "And I recall with some sentiment, too that Alexander Hamilton was

"Herald 'Iribune" also quoted Mr. Glass as follows: "And I recall with some sentiment, too that Alexander Hamilton was among the first and foremost of the soldiers of George Washington who shed his blood on Virginia soil at Yorktown." "Alexander Hamilton," he repeated, "I could fervently wish that there were may of them in the Nation's capital today and then the country would not be disturbed by the expenditure of more money than we receive. Hamilton was a great man and this college is worthy of him. "I am also glad to come to the place where Elihu Root was born. He was in a sense an associate of mine in the Congress of the United States, I being an humble member of the House, while he was the foremost member of the United States Senate. Of all these things I am glad.

Tells Conception of Senator

Tells Conception of Senator "It has been said in various citations of me that I have manifested an independence of disposition and a courage of my convictions. I think those are characteristics that belong to every upstanding man and in par-ticular to any one in public life. "My conception of a United States Senator is somewhat different from that of some others. I do not think and never have thought, never want to think, that that means observations to the will of the populace. Any United States Senator or public officer should be thankful if he finds himself in accord with the sentiment of his people, but he never should get in accord by a sacrifice of his intellectual integrity or of the enlightened con-science, and these I always undertake to observe in deciding public questions. "And let me say to you, young men, if any of you have aspirations for public service never go into it through motive of pecuniary gain or simply of the distinction that it may confer; but go in it because you want to serve your country and your respective people. Go in it from higher motives than selfishness."

than selfishness.

In the same advices it was stated:

The conferment took place at a special convocation in the presence of a capacity audience of undergraduates, notables and friends of the college. It had been deferred from last June's commencement.

Frank P. Corrigan Named by President Roosevelt to Rrepresent United States in Conference to Consider Boundary Dispute Between Honduras and Nica-ragua—Venezuela and Costa Rica Also to Participate

ticipate The tender by the United States, Venezuela and Costa Rica of their offices in seeking a solution of the long-standing boundary dispute between Honduras and Nica-ragua was formally accepted by both of the last-named nations in notes to the State Department at Washington on Oct. 22. On that date also it was announced that Presi-dent Roosevelt had named Frank P. Corrigan, Minister to Panama, as representative of the United States in the negotiations. Mr. Corrigan, who has been on leave of absence at his home in Cleveland, conferred in Washington on Oct. 22 with Sumner Welles, Acting Secretary of State. On Nov, 1 Mr. Corrigan boarded a train at Mexico City for San Jose, Costa Rica, where the initial conference on the San Jose, Costa Rica, where the initial conference on the

boundary dispute was scheduled to take place Nov. 2. A wireless message from Mexico City to the New York "Times," Nov. 1, quoted Mr. Corrigan as follows:

"Times," Nov. 1, quoted Mr. Corrigan as follows: Naturally we are optimistic about the outcome of the conference. The spirit that both Nicaragua and Honduras have displayed in their willingness to accept negotiations is gratifying. It was added that he refused to commit himself on how long it might take to settle the dispute, involving 10,000 square miles of territory. Advices from Washington, Oct. 22, to the "Times" said: Both Usedware and Nicaragua in telegrams from their Foreign Min-

Advices from Washington, Oct. 22, to the "Times" said: Both Honduras and Nicaragua, in telegrams from their Foreign Min-isters to Mr. Welles, accepted the tender of good offices with pleasure. The note from Julio Lozano, Foreign Minister of Honduras, after refer-ring to the terms of the offer, said: Being authorized by the Constitutional President of the Republic, I am glad to inform Your Excellency that my government accepts with pleasure the good offices of the governments of the United States, Costa Rica and Venezuela, and I take the liberty of expressing to your Excellency's enlightened government, as well as to the enlightened Governments of Costa Rica and Venezuela, the protound gratitude of the Government of Honduras for this noble and friendly step.
M. Cordero Revee, the Foreign Minister of Nicargung said in his

M. Cordero Reyes, the Foreign Minister of Nicaragua, said in his acceptance:

acceptance: I take pleasure in stating to Your Excellency that the Government of Nicaragua, faithful to lis traditional policy of sincere devotion to peace, of which it has given eloquent examples in the course of the discussion regarding boundaries with Hon-duras, accepts with pleasure the good offices which the Government of the United States has been good enough to offer to it, together with the Government of Vene-zueia and that of Costa Rica, for the ends indicated in Your Excellency's telegrams, which I have the honor to answer. In expressing to Your Excellency's enlightened government the profound gratitude of the Nicaraguan Government for its noble endewors directed to the maintenance, for Nicaragua and Honduras, of the blessings of peace which were on the point of being lost, as well as to assuring on the continent the success of the promises of Buenos Aires, I beg Your Excellency to accept the ever-renewed assurance of my highest consideration.

Under date of Oct. 28, a cablegram from Managua, Nica-ragua, to the "Times" had the following to say:

ragua, to the "lines had the following to say: President Anastasio Somoza called the leaders of all parties to the Presidential House today for a conference to discuss economic and political problems and specially the Honduras-Nicaraguan dispute. The President said that all party lines must be forgotten and the best international lawyers and engineers be sent to Costa Rica, seat of the mediation board, to represent Nicaragua. The request has heap made also that libraries send any further informa-

to represent Nicaragua. The request has been made also that libraries send any further informa-tion relative to the boundary since early colonial days. However, in this respect Nicaragua is somewhat handicapped, as many records were lost or burned in the disastrous earthquake of 1931.

Arrival in United States of Dr. Leon de Bayle, Newly Named Minister from Nicaragua

Named Minister from Nicaragua Dr. Leon de Bayle, who on Oct. 22 was appointed by President Anastasio Somoza as Minister of Nicaragua in Washington to replace Dr. Carlos Brenes Jarquin, resigned, arrived in New York on Nov. 2; he planned to leave for Washington in a few days. He was met, with his arrival in New York, by Luis Somoza, son of the President of Nicaragua, who is in school in the United States. Dr. de Bayle, in commenting on Nov. 2 on the proposed conference to be held in furtherance of the adjustment of the Hon-duras-Nicaraguan boundary dispute, to which we refer else-where, said: where, said:

WHERE, SHIG: The Nicaraguan Government has accepted with pleasure the good offices of the United States, Venezuela and Costa Rica, and we, of course, prefer to settle the dispute by diplomatic means. The mediation board is to meet with representatives of the two countries in San Jose, Costa Rica, and the two nations have agreed to abide by its decision. From the New York "Times" of Nov. 3 we quote: In do Rayle has here in the diplomatic service of his country for pine

From the New York "Times" of Nov. 3 we quote: Dr. de Bayle has been in the diplomatic service of his country for nine years, although his last post, as co^{*} bel for the National Bank of Nica-ragua, was of a non-diplomatic natwe. Before entering the service he studied diplomatic law for 10 years in France. He said this was his first visit to the United States, although two of his brothers are well known in this country. Luis Manuel de Bayle was formerly Foreign Minister in Nicaragua and Henri de Bayle was Charge d'Affaires of the legation in Washington. The Minister said that Anastasio Somoza, President of Nicaragua, was devoting a great deal of attention to improvement of the country's finan-cial structure and enhancement of economic conditions internally. A mission was sent to the United States several months ago to study finan-cial organization.

cial organization.

Ganson Purcell Named Acting Director of Trading and Exchange Division of SEC—Resignation of David Saperstein as Director Accepted, Effective Dec. 1

Saperstein as Director Accepted, Effective Dec. 1 Announcement was made on Oct. 30 by the Securities and Exchange Commission that Ganson Purcell had been named Acting Director of the Trading and Exchange Division, and that the resignation of David Saperstein as Director of the Division has been accepted, effective Dec. 1. Mr. Saper-stein tendered his resignation on Sept. 13, as noted in our issue of Sept. 18, page 1837. Mr. Purcell is at present Assistant Director of the Division in charge of investigation and enforcement activities under the Securities Exchange Act of 1934, the Commission explained. It added: He folged the Commission in Sentember. 1934, as attorney on the staff

Act of 1934, the Commission explained. It added: He joined the Commission in September, 1934, as attorney on the staff of the General Counsel, where he participated in the drafting of the trading rules for floor traders, specialists and odd-lot dealers on the exchanges. In 1935 he acted in an advisory capacity to the Regional Administrators in the San Francisco and Seattle Offices at the opening of those two offices of the Commission. Since 1936 he has served as counsel for the Com-mission in the conduct of the manipulation case involving Charles C. Wright, et al. He was appointed to his present position in October, 1936. Mr. Purcell is a native of San Gabriel, Calif., later lived in Pasadena, Calif. and in Buffaio, N. Y. He is a graduate of Williams College, class of 1927, and the Harvard Law School, class of 1930. In 1930 Mr. Purcell became associated with the Office of the Legislative Counsel to the United States Senate, first as law assistant and subsequently as Assistant Legislative Counsel. His work in that office was largely in

connection with the drafting of financial legislation. In his capacity as Assistant Legislative Counsel, he participated in the drafting of the Se-curities Exchange Act of 1934. Mr. Purcell is a member of the Bar of the Courts of the District of Columbia and the Supreme Court of the United States.

Charles E. McNabb Retires as General Counsel of United States Tariff Commission—Had Served 58 Years in Government Posts

Charles E. McNabb, General Counsel of the United States Tariff Commission, retired on Oct. 31, at his own request, from active duty after 58 years in the service of the United from active duty after 58 years in the service of the United States Government—30 years in junior grades, eight years as a trial attorney, and for the past 20 years chief law officer of the Tariff Commission. Mr. McNabb was born in Baltimore, Md., and was educated at schools, public and private, in the District of Columbia. His legal training he received at Columbian (now George Washington) Univer-sity. The Commission accepted Mr. McNabb's retirement with expressions of regret. His friends and associates in the Tariff Commission and elsewhere throughout the service will tender him a testimonial luncheon at the Willard Hotel on Nov. 3. An announcement issued by the Commission

will tender him a testimonial luncheon at the Willard Hotel on Nov. 3. An announcement issued by the Commission outlining Mr. McNabb's career said, in part: Outstanding in government ranks in the field of tariff and customs laws, he was asked to assist the Tariff Commission at the beginning of its organization in the spring of 1917. He thus became its first legal adviser and has so remained for the past 20 years. Previously he had been in the Treasury Department and the Department of Justice, where he acquired a broad knowledge of customs law and procedure, and of facts respecting commodities in litigation in which he took part as attorney. His knowledge and experience enabled the Commission soon to place before the Congress the first complete revision of the procedural laws embodied in the Tariff Acts and elsewhere since 1799. This report of the Commission became the basis of the revised administrative provisions enacted in the Tariff Act of 1922, and re-enacted with some changes in 1930.

in 1930.

enacted in the Tariff Act of 1922, and re-enacted with some changes in 1930. In the Treasury Department he suggested changes in methods of keeping accounts. In addition to other duties during the Spanish-American War, he was also confidential adviser in tariff matters affecting the new insular possessions and the complicated problems of the tariff in Cuba during military occupation. Later, he suggested the reorganization of the Cus-toms Division as a Bureau; the taking of passengers' declarations on ship-board before the docking of vessels; the abolishment of fees as emolu-ments of collectors of customs, thereby putting them solely on a salary basis; and the reorganization of customs collection districts, ports, and sub-ports of entry and delivery, with abolishment or consolidation of many. These changes were made some years afterwards, legislation being necessary for some of them. While in the Department of Justice, Mr. McNabb suggested the creation of an Appellate Court in customs litigation and a legal staff to represent the government in customs cases. Practice for seven years in the new court and in other courts preceded his work as General Counsel for the Tariff Commission, from which he is now retiring.

T. J. Watson Renominated as Class B Director of New York Federal Reserve Bank—W. C. Potter Named for Class A Post of G. W. Davison

for Class A Post of G. W. Davison Announcement was made on Oct. 30 by the Federal Reserve Bank of New York, through Owen D. Young, Deputy Chairman, of the renomination of Thomas J. Watson, President of the International Business Machines Corp., New York, as a class B director, and of the selection of William C. Potter, Chairman of the Guaranty Trust Co., New York, as candidate for the post of class A director, to succeed George W. Davisor Chairman of the Central Hanover Bank & Trust Co., New York, whose term expires Dec. 31. Both Mr. Potter and Mr. Watson, whose present term also expires at the end of this year, were recommended for nomination by the special committee appointed for the purpose by the Bankers Associations of New York State, New Jersey and Connecticut. If elected, they will serve from Jan. 1, 1938, to Dec. 31, 1940. Summaries of the careers of the two nominees appeared in our issue of Oct. 2, page 2163. The election of the directors is confined to member banks in Group 1 of the New York Federal District, this is, member banks with capital and surplus over \$1,999,000. The polls were opened by the Reserve Bank on Nov. 1 and will remain open until 12 o'clock noon Nov. 16.

Gurden Edwards Named Director of New Research Council of American Bankers Association

In announcing the creation of a new Research Council to coordinate and expand the research activities of the Amer-ican Bankers Association, Dr. Harold Stonier, Executive Manager of the Association, Stated on Oct. 31 that Gurden Edwards, Public Relations Director of the A. B. A. for the last 15 years, has been named Director of the Council. Mr. Edwards joined the American Bankers Association in 1922. In addition to being Public Relations Director, he has served as Secretary of its Economic Policy Commission since 1928. He is the author of a number of studies on banking subjects published by that Commission and has been a contributor of many articles to financial and general publications. His activities as Secretary of the Economic Policy Commission led naturally to his selection for the directorship of the new Research Council, according to Dr. Stonier. Mr. Edwards is a former newspaper man. He is a Californian and a graduate of the University of California. Coming to New York in 1909, he entered newspaper work as a night district man for the New York "American." Later he was engaged in general reporting for the New York "Tribune," now the In announcing the creation of a new Research Council to

New York "Herald Tribune"; did some special work for the New York "Post," and at the time of the war was with the New York office of the Associated Press. During the war he served with the press bureaus of the Liberty Loan organ-ization in both Washington and New York. In 1919 Mr. Edwards became associated with the National Bank of Commerce in New York as manager of its service depart-ment having charge of advorting a publicity and the press Commerce in New York as manager of its service depart-ment, having charge of advertising, publicity and the eco-nomic and statistical publications published by that bank. The announcement by the Association also states that studies by Mr. Edwards published by the Economic Policy Commission include such subjects as chain, group and branch banking, bank failures, guaranty of bany deposits, the history of bank chartering in the United States, the effects of the bank holiday on the banking structure and the changes in the earnings assets of banks and their rela-tion to business and government tion to business and government.

Chamber of Commerce of State of New York Semi-Annual Commercial Examinations—Scholarships Awarded Under Hepburn Fund

Announcement was recently made by the Chamber of Commerce of the State of New York regarding the com-mercial examinations, conducted under its supervision, and mercial examinations, conducted under its supervision, and under an endowment by the late A. Barton Hepburn, a former President of the Chamber. The examinations are given twice a year, in January and in May, and there are a limited number of scholarships available for candidates enrolled in an approved school of business of collegiate grade, who would find it difficult to continue without financial aid. The text of the Chamber's announcement follows:

The text of the Chamber's announcement rohows. Since 1919 the New York Chamber of Commerce has conducted semi-annual commercial examinations under an endowment presented by the late A. Barton Hepburn, at one time President of the Chamber. These examinations are designed to aid business workers and students in appraising their knowledge. By taking the Chamber's examinations in one or more subjects, such persons can test their potential abilities and the value of their experience and education. their experience and education.

Their experience and education. The examinations are given twice a year, in January and in May, and extend over a period of about two weeks. They are of two grades, junior and senior, covering respectively the work of high school and of college grade. If all the requirements are fulfilled a Commercial Credential is awarded by the Chamber with the consent of the Regents of the State of New York. A certificate of accomplishment is given to all those who have met less than the full requirement. All examinations need not be taken at one examination period, and failure to secure a passing grade does not pre-clude the taking of the same examination at later periods. Seventy-five per cent or better is the established grade. Under certain circumstances and in certain subjects, fully authenticated school or college grades will be allowed as credit in place of examination.

certain subjects, fully authenticated school or college grades will be allowed as credit in place of examination. From the Hepburn Fund there are a limited number of scholarships available each academic year for candidates enrolled in an approved school of business of collegiate grade, who would find it difficult to continue their studies without financial assistance. Scholarships are awarded in June of each year, and are paid in two installments, the first half in September of the current year, the second half in February of the following year, after plans for the coming semester have been submitted to and approved by the Director of Commercial Examinations. As a rule preference will be given to those candidates who take at least three of the Chamber's commercial examinations. Further information may be had from R. C. McCrea, 65 Liberty Street, New York City.

Government Expenditures to Be Discussed at Annual Meeting of Academy of Political Science in New York Nov. 10—Secretary Morgenthau and Senator Byrd of Virginia to Address Dinner Meeting— S. Parker Gilbert to Preside

The general topic of the annual meeting of the Academy of Political Science, to be held on Nov. 10 at the Hotel Astor in New York City, will be "Expenditures of the Federal Government." This will be the topic at the annual dinner meeting at which Secretary of the Treasury Henry Morgen-thau Jr. and United States Senator Harry F. Byrd of Vir-ginia will speak. S. Parker Gilbert, partner of J. P. Mor-gan & Co., will preside at the dinner meeting, which will be held at the Astor the evening of Nov. 10. It is announced that the dinner session and part of the afternoon session will be broadcast by the National Broadcasting Co. over a coast-to-coast network and stations associated therewith. The topic at the afternoon session, at which Dr. Wesley C. Mitchell, Professor of Economics at Columbia University, Director of the National Bureau of Economics Research and President of the Academy of Political Science, will preside, will be "The Future of the Federal Budget." The speakers were announced as follows: "The Consequences of Reducing Expenditures," Alvin H. Hansen, Pro-The general topic of the annual meeting of the Academy

were announced as follows:
"The Consequences of Reducing Expenditures," Alvin H. Hansen, Professor of Political Economy, Graduate School of Public Administration, Harvard University.
"Vested Interests in Government Spending," General Hugh S. Johnson, former Administration, National Recovery Act.
"The Consequences of Increasing Taxes," George O. May, partner of Price, Waterhouse & Co.
"Will Revenues Be Adequate to Balance the Present Scale of Expenditures and to Keep It Balanced?", Roy Blough, Professor of Economics, University of Cincinnati.
Discussion under the 10-minute rule: James Harvey Rogers, Professor of Political Economy, Yale University.

The scheduled speakers at the morning session, at which the topic will be "The National Budgets of Great Britain, France and the United States, 1928-37," are: Great Britain—Harley L. Lutz, Professor of Public Finance, Interna-tional Finance Section, Department of Economics and Social Institutions, Princeton University.

Princeton University.

France-Robert M. Haig, Professor of Political Economy, Columbia University. United States-Fred R. Fairchild, Professor of Political Economy, Yale

University.

Discussion under the 10-minute rule: John B. Hollister, ex-Congress-man from Ohio, partner of Taft, Stettinius and Hollister of Cincinnati, and D. Graham Hutton, Assistant Editor of the "London Economist"; former lecturer at the London School of Economics.

Committee Chairmen Appointed to Make Plans for 1938 Convention of Financial Advertisers Asso-ciation to Be Held in Fort Worth, Texas

Co., New Finance

Bank of Chicago. Association Contact Commission—A. R. Gruenwald, Director Public Rela-tions, Wisconsin Bankers Association, Milwaukee, Wis.

In addition to the committees appointed, heads of the various divisions of the Financial Advertisers Association, elected at the recent Syracuse (N. Y.) convention, will direct the functions of their respective divisions as follows:

Ine functions of their respective divisions as follows: Trust Development Division—Victor Cullin, Assistant Secretary Missis-sippi Valley Trust Co., St. Louis, Mo. Commercial Development Division—C. E. Brockway, President First National Bank, Sharon, Pa. Savings Division—John J. McCann Jr., Advertising Manager National Savings Bank, Albany, N. Y. Investment Division—J. J. Harris, Fenner & Beane, New York, N. Y.

The work of these divisions consists of the development of advertising, publicity, new business and every phase of public relations work in these specialized fields.

Annual Convention of Investment Bankers' Association of America—Government Regulation of Power Industry Criticized by Alex Dow of Detroit Edison Co. and Upheld by Frank R. McNinch—Co-operation With SEC Urged By G. C. Mathews – Remarks of President E. B. Hall Change in By-Laws Provides More Rigid Restriction on Members

Members Discussion of The Public Utilities featured the Nov. 4 session of the Annual Convention of the Investment Bankers' Association, which opened at White Sulphur Springs, W. Va., on Nov. 3. Criticism of the Public Utility Holding Com-pany Act came from Alex Dow, President of the Detroit Edison Co. who referred to the act as treating the "guilty and the guiltless" alike, and asserted that the cost account-ing setup of the Tennessee Valley Authority yardstick was such as none of the investment bankers would accept as justifying an issue of securities. Frank R. McNinch, who until recently was Chairman of the Federal Power Com-mission, (and is now head of the Federal Communications Commission) commented on the fears of Government com-petition through the yardstick projects, was quoted in the New York "Journal of Commerce" as saying: "I am not unmindful that there are some who feel that Federal projects

New York "Journal of Commerce" as saying: "I am not unmindful that there are some who feel that Federal projects either now authorized, in process of construction or completed and in operation, constitute some sort of threat to the private power industry. This is said to account in part for the timidity of certain leaders in the power industry to respond to the demand for construction of additional generating facilities to meet the rising requirements of consumers. "These ill-founded fears and forebodings find answer in the recital of factual history of a constantly rising tide of private power company revenue, gross and net, during the past few years. It sums up that the industry is experiencing unprecedented prosperity and there is ahead of it an imme-diate and ever-increasing demand for meeting the nation's requirements of electric power.

of electric power. This is a challenge to put aside skepticism now discredited by facts and go forward to the duty and great opportunity of responding to the demand of the consuming public."

Stating that Mr. Dow enumerated some of the "per-plexities" facing the industry, Associated Press advices from White Sulphur Springs further indicated as follows what he had to say:

Referring to the Public Utility Holding Company Act, he recalled that he had warned against wrongful holding company practices as early as 1925, and complained that the blanket requirements of the act failed to discriminate between "the guilty and the guiltless." He listed as "No. 1 perplexity" the demand that the electric power use" be served as cheaply as possible, while "I am required to collect a tax of

the Federal Government." His No. 2 puzzle, he said. was the operation of the Federal Government power yardstick. In criticism of TVA cost accounting practices, he asserted, "I surely am perplexed when the setup of the shining example which is set before me is such that no member of your Association would permit it to go past as justifying his approval of an offering of securities to investors." He mentioned as No. 3 perplexity the claim that the publicly owned Ontario power project provided cheaper power than his company in Detroit and asserted when difference in wages, taxes and preferences were taken into consideration the Ontario advantages was quickly explained. On Nov 3 those in attendance at the Convention heard

On Nov. 3 those in attendance at the Convention heard George C. Mathews, member of the Securities and Exchange Commission, urge co-operation with the Commission (we quote from the dispatch to the "Journal of Commerce") and an immediate program of study of methods by which to promote "an effective system of self-regulation" in the business. In part the advices to that paper from White Sulphur Springs also said:

The tenor of Commissioner Mathews' statements was conciliatory and in contrast to that of the address delivered by James M. Landis at the investment bankers' convention at Augusta last year, when the recent Chairman of the Commission provoked wide discussion by seeking to lay the burden of responsibility for healthy security and capital markets upon the shoulders of the investment bankers.

Refers to Stock Decline

Refers to Stock Decline Commissioner Mathews today made no reference to the Landis address of a year ago but did refer to the subsequent break in the securities markets. He admitted that his listeners might expect that he "would outline theories and state conclusions as to the causes of the market break and whether regulation of trading practices has a place among those causes." He re-fused, he said, to attempt any explanation. "We are too close to the times of market distress to feel certain that an ecessary for their ultimate listing and measuring were now available," he stated.

Mr. Mathews urged the bankers to co-operate with the SEC in self-regulation and in the formulation of workable and efficient rules which would not impair the flow of capital said the Associated Press which added:

capital said the Associated Fress which added: In an interview later Mr. Mathews said that the Commission was pre-paring for the big job in power company regulation which it faces when the part of the Public Utility Holding Act requiring the unscrambling of big holding companies becomes effective January 1 next. But he added that the Commission was awaiting in part for the court test of the con-stitutionality of the Act, and in the event it is upheld, the job would not be done so suddenly or drastically as to jeopardize sound investment.

be done so suddenly or drastically as to jeopardize sound investment. In an informal discussion of the new capital market on Nov. 3, Edward B. Hall, President of the Investment Bankers' Association said that not only had the recent break in security values delayed the public offering of new securi-ties, but that it had resulted also in complete abandonment of proposed financing by many corporations. This was noted in advices from the Convention to the New York "Times" Nov. 3 from which the following is also taken: This was particularly true in the case of proposed refunding operations, as the downward readjustment in values had eliminated any possible benefits from refunding, he said. In the case of new capital flotations, Mr. Hall expressed the opinion that there existed no real obstacle to that type of borrowing at the present time provided the issuer was willing to pay a higher coupon rate.

higher coupon rate. Francis E. Frothingham of Coffin & Burr, Inc., Boston, in commenting on the objectives of the convention, said the problems confronting investors as well as those faced by the investment bankers would be given careful consideration. He stressed the futility of a standstill policy on the part of investment bankers and expressed the opinion that much would be gained by cooperating with the regulatory bodies in their tremendous task of administering the provisions of the law. Mr. Frothingham is slated to be the next President of the Association.

In his annual report as President Mr. Hall urged Congr

In his annual report as President Mr. Hall urged Congress to revise the capital-gains and surplus-profits taxes, which he asserted were "seriously disrupting" business. Revision of the Association's constitution and by-laws, designed, it is said, to place rigid restrictions upon member-ship and permit more aggressive self-regulation of the investment business was announced by the Board of Gov-ernors yesterday (Nov. 5) according to the Associated Press, which said that the program, which was the work of a special committee appointed last May, was announced to the convention after receiving unanimous approval at a meeting of the Governing Board.

ITEMS ABOUT BANKS, TRUST COMPANIES, &c. Arrangements were made Nov. 4 for the transfer of a New York Stock Exchange membership at \$80,000. The previous transaction was at \$61,000, on October 19th.

Under the authorization granted it Oct. 18 by the New York State Banking Department, and noted in these columns of Oct. 30, page 2783, the Central Hanover Bank & Trust Co., New York, will open, according to plans made known this week, a branch office in London, England, at 7 Princes St., about March 1 next year. This new office will be the Central Hanover's first complete branch office abroad, and represents a definite expansion of its foreign service. At present, the bank maintains two offices in London in charge of representatives. One of these offices, at 144 Leadenhall St., will be disbanded with the opening of the new branch, while the other, at 27 Regent St., will be retained. The new branch office to open next March will be under the direction of Hubert B. Chappell, an Assistant Vice-President of the bank and who has been for several years associated with the foreign department in the main office in New York. W. A.

Nichols, now London representative of the institution, will be Manager and F. F. Beer, formerly representative in Berlin, will be stationed in the new branch and will act as general European representative. The Central Hanover also has a representative in Paris, but has no other foreign generated agencies.

Andrew J. Miller, a partner in the banking firm of Hall-garten & Co., New York, died of a heart attack on Oct. 31, aboard the Italian liner Conte di Savoia while on his way to Italy. He was 70 years old. Born in Washington, Mr. Miller graduated from Georgetown University in 1888. He engaged in the real estate business in Washington with Thomas E. Weggaman & Co., for a number of years before coming to New York in 1897 as a Vice-President of the Equitable Securities Company. In 1905 he left that firm and became senior member of the New York banking firm of Boissevain & Co., which represented Adolph Boissevain & Co. of Amsterdam. Boissevain & Co. was merged in January, 1926, with Hallgarten & Co. and Mr. Miller be-came a partner of the latter firm, continuing as partner-until his death. He was a Director of the Anaconda Copper Mining Co., Andes Copper Mining Co., Chile Exploration Co., Chile Copper Co., Atlantic, Gulf and West Indies Steamship Lines, Fisk Rubber Corp., National Railways of Mexico and the United States Leather Co.

Frederick Gore King, former Secretary and Treasurer of the now extinct Knickerbocker Trust Co. of New York and member of an old New York family, died on Nov. 1 at his home in New York City at the age of 85. He was a great-grandson of Rufus King, one of the first two United States Senators from New York and twice Minister to England. Mr. King, who was graduated from Harvard in 1875, entered the banking business with James G. King & Son, of which his father, Archibald G. King, was a member. The firm was founded by his grandfather, James Gore King. He later joined the Knickerbocker Trust Company with which he was associated until his retirement in 1907.

Edward J. Maguire, a Vice-President of the First National Bank of Mount Vernon, N. Y., died on Nov. 3 at the home of his brother in New Rochelle, N. Y., after a long illness. Mr. Maquire, who was 47 years old, was a Federal bank examiner for ten years and from 1926 to 1929 was President of the Fallkill National Bank of Poughkeepsie, N. Y., a position he left to become associated with the Mount Vernon institution. institution.

Directors of the South Hills Trust Co. of Pittsburgh, Pa. at a recent meeting, elected Nelson R. Black Secretary and Treasurer of the institution to succeed the late E. U. John-son, it is learned from "Money & Commerce" of Oct. 30, which added in part:

Which auded in part: His first banking position was in the Second National Bank then located at Ninth Street and Liberty Avenue. He also was with the Diamond and German National Banks in special capacities. For the past seventeen years, Mr. Black has been a Public Accountant and Auditor and has specialized in bank examinations and bank taxes. He was for many years Auditor of the bank of which he is now Secretary and Treasurer. and Treasurer.

From "Money & Commerce" of Oct. 30, it is learned that John M. La Porte is the new Secretary and Executive Man-ager of the Morris Plan Bank of Toledo, Toledo, Ohio. For the past 15 years, Mr. La Porte had been connected with the Buffalo Industrial Bank, Buffalo, N. Y. a Morris Plan affiliate, where he was Vice-President and Secretary. The directors of the Morris Plan Bank of Toledo have also named Byron W. Lenz, Assistant Secretary of the institu-tion. Mr. Lenz was formerly connected with the defunct Ohio Savings Bank & Trust Co. of Toledo and for the last few years has been associated with the consolidated bank liquidations of that city. liquidations of that city.

Taylor A. Worley, partner in the investment firm of Vieth, Duncan, Worley & Wood, Davenport, Iowa, died on Oct. 29 at his home in Urbana, Ill. He was 34 years old. Mr. Worley was a bond salesman and specialized in township highway bonds and had negotiated the greater part of the more than a million dollars worth of highway bonds in the rest 18 months. past 18 months.

Burlington, Iowa, advices on Oct. 20 to the Chicago "Tribune" reported that the First National Bank of Bur-lington had failed to open for business on that day, follow-ing the holding of its Assistant Cashier, William C. Kurrle, for the alleged embezzlement of approximately \$400,000 of the bank's funds. The institution, which is capitalized at \$100,000, was temporarily placed in charge of R. M. Mackey, Federal Conservator. Federal Conservator.

The First National Bank of Molalla, Ore., was placed in voluntary liquidation recently. The institution, which was capitalized at \$25,000, was absorbed by the First National Bank of Portland, Ore.

The 115th semi-annual statement of the Yokohama Specie Bank, Ltd. (head office Yokohama), covering the six months ended June 30, 1937, and presented to the share-holders at their half-yearly meeting on Sept. 10, has just come to hand. It shows net profits for the period, after providing for all bad and doubtful debts, rehate on bills, etc., of 17,495,727 yen, inclusive of 10,708,920 yen brought forward from last account. Out of this sum the directors propose to pay a dividend at the rate of 10% per annum, calling for 5,000,000 yen and to add 1,750,000 yen to the reserve fund, leaving a balance of 10,745,727 yen to be car-ried forward to the current half-year's profit and loss ac-count. Total assets of the institution are given in the state-ment as 1,798,238,478 yen (as compared with 1,538,032,807 yen on Dec. 31, 1936), of which cash in hand and at bankers amount to 72,474,702 yen (as against 66,174,571 yen on Dec. 31), while total deposits are shown at 656,174,781 yen (as compared with 599,001,304 yen on the earlier date). The bank's paid-up capital is 100,000,000 yen, and its reserve fund (including the 1,750,000 yen mentioned above) 134,-400,000 yen. Toshikata Okubo is Chairman of the Board of Directors and President of the institution. come to hand. It shows net profits for the period, after

THE CURB EXCHANGE

Unsettled price movements and quiet dealings were the dominating features of the trading on the New York Curb Exchange during the present week. The general tendency was toward lower levels, and while there were a few of the more active of the market leaders that resisted the trend, the gains were not particularly noteworthy. Public utilities the gains were not particularly noteworthy. Public utilities, especially the preferred group, were fairly steady but the changes were generally in minor fractions. Oil stocks were moderately active and the mining and metal issues attracted some speculative attention. Trading has been quiet through-out the weak out the week.

some speculative attention. Trading has been quiet through-out the week. Light trading and erratic price movements were the out-standing characteristics of the brief period of dealings on Saturday. Public utilities held a prominent place in the day's transactions and some of the more active stocks in the group registered modest gains during the first hour, but lost part of their advances before the market closed. Mining shares were slightly higher, but the industrial issues and specialties were comparatively quiet. Oil stocks held fairly steady but within a narrow range. The transfers for the day were down to 128,000 shares, against 273,000 on the previous Saturday. Prominent among the stocks showing moderate gains were American Potash & Chemical, 6 points to 36; American Superpower pref., 21/4 points to 201/4; Babcock & Wilcox, 3 points to 73; Childs Co. pref., 1 point to 50; Parker Pen, 31/2 points to 191/2; Pittsburgh Plate Glass, 11/2 points to 92; United Light & Power Pref., 1 point to 27/3, and National Power & Light (6) pref., 1 point to 27/4, and National Power & Light (6) pref., 1 point to 63. Lower prices were again the rule on Monday, and while there was no concerted selling movement, there was a long list of stocks that ended the session on the side of the decline. Except in a few scattered instances, the changes were small and without special significance. The transfers were down to 160,030 shares with 392 issues traded in. Outstanding in the list of declines were such market favorites as Aluminum Co. of America. 3 points to 94: Babcock & Wilcox, 31/2 points to

160,030 shares with 392 issues traded in. Outstanding in the list of declines were such market favorites as Aluminum Co. of America, 3 points to 94; Babcock & Wilcox, 3½ points to 69½; Cities Service pref., 2 points to 25½; Empire Gas 7 pref., 3 points to 50; Humble Oil, 3 points to 62; New-mont Mining, 2 points to 65; United Light & Power pref., 2½ points to 25¾, and Gulf Oil Corp., 1 point to 43. The New York Curb Exchange, the New York Stock Exchange and the commodity markets were closed on Election Day, Tuesday, Nov. 2. Reactionary price movements were again in evidence on Wednesday, and while the largest declines were apparent among the stocks in the higher brackets, there was a steady chipping away at prices in the general list. In the morning dealings trading was listless, but after mid-day offerings rapidly increased and prices tumbled sharply downward. There were occasional exceptions scattered through the list but these were, for the most part, among the regular specu-lative favorites. The transfers for the day totaled 280,620 shares, against 160,030 on Monday. The declines included among others Babcock & Wilcox, 4¼ points to 65¼; Carrier Corp., 3½ points to 30¼; Childs pref., 4 points to 46; Humble Oil, 3¾ points to 58¼; Jones & Laughlin Steel, 4 points to 34; Niagara Hudson 2d pref. (5), 6¾ points to 70; Sherwin-Williams, 3 points to 88, and United Gas pref., 4 points to 90. Curb market movements were toward lower levels during

4 points to 34; Niagara Hudson 20 pref. (5), 0% points to 70; Sherwin-Williams, 3 points to 88, and United Gas pref., 4 points to 90. Curb market movements were toward lower levels during the early trading on Thursday followed by a slight hardening of prices as the day progressed. The recessions ranged from fractions to 10 or more points, and a wide list of stocks declined as selling extended to many of the slow moving issues. Singer Manufacturing Co. tumbled downward 8 points to 239 and Derby Oil pref. dropped 10 points to 52 ½ on a small turnover. Other noteworthy recessions included Great Atlantic & Pacific Tea Co. n v stock 10½ points to 65; Babcock & Wilcox 3¾ points to 69; New Jersey 7inc 2 points to 64; Sherwin Williams 2 points to 86 and Pittsburgh Plate Glass 3½ points to 86. Stocks moved up and down without definite trend during the early trading on Friday, but considerable profit taking and general selling developed toward the end of the session, and as prices sagged, many shares that had registered mod-erite gains earlier in the day cancelled a goodly part of them before the market closed. There were a number of advances registered among the slower moving issues but with few

exceptions these were fractional. The transfers for the day were down to 217,000 shares against 260,000 on Thursday. As compared with Friday of last week prices were lower, Aluminum Co. of America closing last night at 90 against 98½ on Friday a week ago; American Cyanamid B at 25 against 25½; Carrier Corp. at 30 against 33½; Creole Petroleum at 24½ against 26; Electric Bond & Share at 10 against 11½; Fisk Rubber Corp. at 7¼ against 8½; Gulf Oil Corp. at 41¾ against 44; Hudson Bay Mining & Smelting at 19½ against 22; Humble Oil (New) at 58¼ against 65; and Sherwin Williams at 85½ against 108. Course of Bank Clearings

Course of Bank Clearings Bank clearings this week will show a decrease compared with a year ago. Preliminary figures compiled by us, based upon telegraphic advices from the chief cities of the country, indicate that for the week ended today (Saturday, Nov. 6) bank clearings from all cities of the United States from which it is possible to obtain weekly returns will be 4.6% below those for the corresponding week last year. Our preliminary total stands at \$5,704,967,779, against \$5,981,965,552 for the same week in 1936. At this center there is a loss for the week ended Friday of 3.3%. Our comparative summary for the week follows:

Clearings—Returns by Telegraph Week Ended Nov. 6	1937	1936	Per Cent.

Complete and exact details for the week covered by the

Total, all cities for week _______ \$5.704.967.779 \$5.981.965.552 | -4.6Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends today (Saturday) and the Saturday figures will not be available until noon today. Accordingly, in the above the last day of the week in all cases has to be estimated. In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results for the week previous—the week ended Oct. 30. For that week there was an increase of 1.2%, the aggregate of clearings for the whole country having amounted to \$6,006,595,475, against \$5,934,788,958 in the same week in 1936. Outside of this city there was an increase of 4.1%, the bank clearings at this center having recorded a loss of 0.9%. We group the cities according to the Federal Reserve districts in which they are located, and from this it appears that in the New York Reserve District (including this city) the totals record a decrease of 0.7% and in the Boston Re-serve district of 2.0%, but in the Philadelphia Reserve Dis-trict the totals register an increase of 5.9%. In the Cleve-land Reserve District the totals are larger by 6.3%, in the Richmond Reserve District by 9.4% and in the Atlanta Reserve District by 3.9%. The Chicago Reserve District shows a gain of 1.9% and the Minneapolis Reserve District shows a gain of 1.9% and the Minneapolis Reserve District there is an improvement of 2.3%, in the Dallas Reserve District of 5.5% and in the San Francisco Reserve District of 7.9%. In the following we furnish a summary by Federal Reserve districts: districts:

THE ENGLISH GOLD AND SILVER MARKETS

We reprint the following from the weekly circular of Samuel Montagu & Co. of London, written under date of Oct. 20, 1937:

GOLD

The Bank of England gold reserve against notes amounted to £326, 406,625 on Oct. 13, showing no change as compared with the previous

406,625 on Oct. 13, showing no change as compared when the protect Wednesday. In the open market about £2,300,000 of bar gold was disposed of at the daily fixing during the week. Lack of confidence due to general economic and political unrest has again been evidenced by a good demand from the Continent for gold for holding purposes and, as a result, prices ruled at a premium over dollar parity varying from $1\frac{1}{2}d$. to 3d.

SILVER

Conditions in the silver market continue to be quiet and the tone steady,

Conditions in the silver market continue to be quiet and the tone steady, the variation in prices during the past week having been only 1-16d. The Indian Bazars have bought and sold and yesterday's rise to 19 15-16d. for two months delivery brought in a little selling on China account. Buying has been chiefly in cover of bear commitments. There are no indications of any important change in the near future. The following were the United Kingdom imports and exports of silver, registered from mid-day on the 11th instant to mid-day on the 18th inst.: Imports Exports for the following the following the following for the following the following the following the following for the following the fol

The following information regarding National banks is from the office of the Comptroller of the Currency, Treasury Department:

VOLUNTARY LIQUIDATION

Oct. 22—The First National Bank of Molalla, Ore_____ Effective Sept. 30, 1937. Liq. Agent. J. H. Mackle, care of the liquidating bank Absorbed by The First National Bank of Portland, Ore., Charter No. 1553.

DIVIDENDS

Dividends are grouped in two separate tables. In the first we bring together all the dividends announced the current week. Then we follow with a second table in which we show the dividends previously announced, but which have not yet been paid. Further details and record of past dividend payments in many cases are given under the com-pany name in our "General Corporation and Investment News Department" in the week when declared.

Weekly Return for the Member Banks of the Federal Reserve System

55,000 111,115,000 37,654,710

Following is the weekly statement issued by the Board of Governors of the Federal Reserve System, giving the principal items of the resources and liabilities of the reporting member banks in 101 leading cities from which weekly returns are obtained. These figures are always a week behind those for the Reserve banks themselves. The comment of the Board of Governors of the Federal Reserve System upon the figures for the latest week appears in our department of "Current Events and Discussions," immediately preceding which we also give the figures of New York and Chicago reporting member banks for a week later. Commender with the statement of May 19, 1937, various changes were made in the breakdown of leave as reported in this statement, which were

immediately preceding which we also give the figures of New York and Chicago reporting member banks for a week later. Commencing with the statement of May 19, 1937, various changes were made in the breakdown of loans as reported in this statement, which were described in an announcement of the Federal Reserve Bank of New York of April 20, 1937, as follows: The changes in the report form are confined to the classification of loans and discounts. This classification has been changed primarily to show the amounts of (1) commercial, industrial and agricultural loans, and (2) loans (other than to brokers and dealers) for the purpose of purchasing or carrying securities. The revised form also eliminates the distinction between loans to brokers and dealers in securities located in New York City and those located outside New York City. Provision has been made also to include "acceptances of own bank purchased or discounted" with "acceptances and commercial paper bought in open market" under the revised caption "open market paper," instead of in "all other loans," as at present. Subsequent to the above announcement it was made known that the new items "commercial, industrial, and agricultural loans" and "other acceeded as "on securities" and "other wise secured and unsecured."

A more detailed explanation of the revisions was published in the May 29, 1937, issue of the "Chronicle," page 3590.

Weekly Return of the Board of Governors of the Federal Reserve System

The following was issued by the Board of Governors of the Federal Reserve System on Thursday afternoon, Nov. 4, showing the condition of the twelve Reserve banks at the close of business on Wednesday. The first table presents the results for the System as a whole in comparison with the figures for the eight preceding weeks and with those of the corresponding week last year. The second table shows the resources and liabilities separately for each of the twelve banks. The Federal Reserve note statement (third table following) gives details regarding transactions in Federal Reserve notes between the Reserve Agents and the Federal Reserve banks. The comments of the Board of Governors of the Federal Reserve System upon the returns for the latest week appear in our department of "Current Events and Discussions."

FILING OF REGISTRATION STATEMENTS UNDER SECURITIES ACT

The following additional registration statements (Nos. 3490 to 3499, inclusive) have been filed with the Securities and Exchange Commission under the Securities Act of 1933. The total involved is approximately \$19,028,940.

and Exchange Commission under the Securities Act of 1933. The total involved is approximately \$19,028,940. Payne Furnace & Supply Co., Inc. ((2-3490, Form A-1) of Beverly Hills, Calif., has filed a registration statement covering 25,000 shares of no par value 60 cent cumulative convertible preferred stock, series B, and 30.000 shares common stock, \$1 par. Of the common shares registered, 25,000 are reserved for conversion and 5 000 presently are to be offered. Offering prices will be filed by amend-ment. Hammons & Co., Inc., will be underwriter. Proceeds will be used to repay bank loans and for working capital. D. W. Payne is President of the company. Filed Oct. 29, 1937. Guardian Gold Mines, Ltd. (2-3491, Form AO-1) of Kirkland Lake, Ontario, has filed a registration statement covering 1,000,000 shares common stock, \$1 par. Of the shares registered, 300,000 will be offered at 30 cents each; 300,000 at 60 cents each, and 400,000 at \$1 each. Proceeds will be used for development, for plant and equipment. No underwriter is named. A. I. Wright is President of the company. Filed Oct. 29, 1937. Selected American Shares, Inc. (2-3492, Form E-1) of Topeka, Kansas, has filed a registration statement covering 750,000 shares common stock, \$2.50 par value. Shares will be offered at market. Proceeds will be used for investment. Selected Investments Co. will be underwriter. Max Adler is President of the company. Filed Oct. 29, 1937. Capper Publications, Inc. New Stock Issue Approved— Stockholders at a meeting held Nov. 4 approved the authorization of 50,000 shares of cum. conv. pref. stock. Of that amount 20,000 shares was approved for immediate issuance and sale bearing a 4%% dividend rate. Combined September and October business of the company was 20% higher than in the like 1936 months, according to S. De Witt Clough, President.—V. 145, p. 2536.

Abitibi Power & Paper Co., Ltd.-First Mortgage Bond Position Upheld by Court

Position Upheld by Court— Judgment has been handed down at Toronto by Justice Kingstone up-holding the contention of the Montreal Trust Co. that the holders of the bonds of the company, under the first mortgage are entitled to a first undertaking on the property and assets of the company. Justice Kingstone stated he did not find tenable the contention that the first draft or outline of the mortgage has been so altered or modified as to render it a different contract to that sanctioned by the board. In connection with the liquidator's contention that the National City Bank, as trustee of the bonds, is contrary to the statutes, Justice Kingstone did not find this to be so and stated that as Apitiblis a Dominion company, doing business, largely with peoples living in the United States, it would seem reasonable if not essential, that there should be some person or com-pany in the United States associated wita the plaintiff company for pro-tection of the bondholders resident there.—V. 145, p. 2684.

All America Cables, Inc.—New Vice-President— Ellery W. Stone, who is in charge of the radio telephone and telegraph operations of the International Telephone & Telegraph Corp. and its subsidiaries, has been elected a Vice-President of this company, it was announced on Oct. 27.—V. 133, p. 3251.

announced on Oct. 27.—V. 133, p. 3251. Alleghany Corp.—Collateral Appraised at 101%— Appraisal of the collateral securing the three bond issues by the trustee, Guaranty Trust Co., at the end of the quarter ended Nov. 1, shows that the total value is 101% of the principal amount of the issues. On Aug. 1, the last quarterly appraisal date, it was 139%. Moreover, because of the drop in the market price of Chesapeake Corp., the chief them of the collateral, all three issues are under the 150% required by the Indenture. Consequently, all cash and securities underlying those bonds are impounded under the indenture requirements. The value of the collateral behind the 5s, 1944, on Nov. 1 was placed at \$42,737.095, or 135.8% of the principal amount of the bonds outstanding. On Aug. 1, the collateral was 190.3%. The 5s of 1949 have collateral aggregating \$24,543.581 or 113.7% and compares with 160.8% three months ago and the 5s of 1950 have \$10,904,012 or 44.7% against 53.3% on Aug. 1 last. Six months ago the value of the collateral securing the 1944s was 294 off

ago and the so of 1950 have \$10,904,012 or 44.7% against 53.3% on Aug. 1 last. Six months ago the value of the collateral securing the 1944s was 224.9% and on Feb. 1 it was 227.5%. On May 1 the value of the collateral under the 1949s was 190.6% and on Feb. 1, 194.1%, and under the 1950, 59.6% and 57.8%, respectively. This appraisal includes Alleghany's holdings of Terminal Shares, Inc., valued at around 75, although the appraiser states, as in the past, that ultimately may result in a diminution of the value of the collateral, although no deduction is made in the appraisal because of this situation. This is in reference to the suit brought against Alleghany Corp. by the MOP trustee to recover funds paid in connection with the road's acquisition of certain terminal properties.

The main collateral under the 5s of 1950 in addition to some Chesapeake stock, is MOP common and preferred stock. Under the MOP plan of reorganization under Interstate Commerce Commission consideration, warrants to buy stock in the new company would be given to present holders of Alleghany common and preferred. —V. 145, p. 2216.

American Box Board Co.-Larger Dividend-

American Box Board Co.—Larger Dividend— The directors have declared a dividend of 35 cents per share on the common stock, payable Nov. 23 to holders of record Nov. 9. This com-pares with 25 cents paid on Oct. 1 and on July 1 last; 20 cents paid on June 1 last; dividends of 25 cents paid on April 1 and on Jan. 4, 1937; an extra divi-dend of 5 cents and a dividend of 20 cents paid on Dec. 7, 1936, and an initial dividend of 20 cents per share distributed on June 30, 1936.—V. 145, p 1890.

American Chicle Co.—Special Dividend — The directors have declared a special dividend of \$2 per share in addition to the regular quarterly dividend of \$1 per share on the common stock, no par value, both payable Dec. 15 to holders of record Dec. 1. A special dividend of \$1 was paid on June 15 last, and one of \$1.50 was paid on Dec. 15, 1936. See V. 143, p. 2664, for detailed dividend record. Extra dividends were paid as follows: 25 cents on April 1 and Jan. 2, 1936; 50 cents on July 1 and Jan. 2, 1935, and 25 cents per share paid each three months from Jan. 1, 1930 to and incl. Jan. 2, 1934.—V. 145, p. 2537.

American Cyanamid Co.—Registrar— The Guaranty Trust Co. of New York has been appointed registrar for 2,500,000 shares, \$10 par value each, 5% cumulative convertible preferred stock.—V. 145, p. 2833.

American Forging & Socket Co.—25-Cent Dividend— The directors have declared a dividend of 25 cents per share on the com-mon stock, payable Dec. 1 to ho,ders of record Nov. 15. This compares with 50 cents paid on Aug. 24 last; 25 cents paid on July 1 and on June 1 last and in previous quarters dividends of 20 cents per share were distributed. -V. 145, p. 930.

American Furniture Co.—Initial Dividend— The directors have declared an initial dividend of 25 cents per share on the mmon stock, payable Nov. 5 to holders of record Nov. 2.—V. 144, p. 64 comm 4164.

4164. **American Rolling Mill Co.**—Extra Common Dividend— The directors have declared an extra dividend of 40 cents per share on the common stock, par \$25, payable Dec. 15 to holders of record Nov. 15. A quarterly dividend of 50 cents was paid on Oct. 15 and on July 15 last, and a dividend of 30 cents was paid on April 15 last and each three months previously. In addition, an extra dividend of \$1 was paid on Dec. 15, 1936. Average Holdings of Stock— Charles R. Hook, President of the company, stated that an average ownership of 63 shares of stock is shown among the 37,136 holders of com-mon and preferred. Of 28,777 common holders, 25,454 own lots of 100 shares or less, and 3,323 own lots of more than 100 shares. Of 8,359 holders

of preferred, 7,791 own lots of 100 shares or less, and 568 hold more than 100 shares. He also disclosed that 15,820 holders of common and 5,226 holders of preferred own blocks of from 1 to 25 shares. The survey did not inclue stock in the name of brokers, the real ownership of which could not be idea-tified. The total number of stockholders, both preferred and common, and including brokers, was 37,896. The total number of shares, both common and preferred, was 3,318,533. "This analysis of the holdings of stockholders is, I believe, typical of the wide ownership of American commerce and industry." said Mr. Hook, 'for every employee on the 'Armco' payroll there are two stockholders. Many of these stockholders are our own employees; some are employees other industries. Some are farmers, doctors, storekeepers, bankers, busi-ness and professionai men and women, housewives—people in all walks of life and in all parts of the country."--V. 145, p. 2833.

The \$1 dividend which was recently declared to be paid on the common stock on Nov. 20 will be paid to holders of record Nov. 13 (not Sept. 13, as stated in last week's 'Chronicle,'' page 2834).--V. 145, p. 2834, 931.

Chronicle Nov. 6, 1937 Anchor Cap Corp.—Vote on Acquisition— A proposal for the acquisition by this corporation of the properties of of the board of directors of the former corporation. The directors called a special meeting of the Anchor Cap stockholders in Wilimington, Del.. Nov. 18 to vote on the proposal. The glass company's properties would be paid for with 441,852 shares of Anchor Cap. In this connection it is proposed to increase the authorized common stock of Anchor Cap to 1,000,000 shares. Of this number there would be 715,550 shares outstanding upon the issuance of the 441,852 shares in payment of Hocking Glass. The merger company would be known as the Anchor Hocking Glass Corp. In alter to Anchor Cap is to known as the Anchor Hocking Glass Corp. In alter to Anchor Cap's business and should result in operating economies. It was also argued that it should afford a better balance between the caps and closure and the glassware businesses. Another advantage claimed for the directors stated that the transaction should substantially enlarge the scope of Anchor Cap's business and should result in operating conomies. It was also argued that it should afford a better balance between the caps and closure and the glassware businesses. Another advantage claimed for the proposal was that it would place the corporation in a better competitive position, especially in the Middle Western market. Strengthening of the company's cash position and the supplying of additional working capital were also pointed out. The Contract provides that before the transfer of the properties and assets of the Hocking Glass Co. to your corporation, the Hocking Glass Corp. securing bonds in the principal amount of \$647,400, due Dec. 1. 1939, and callable at par on 30 days' notice, unless Hocking shall prior to closing time pay said conds) and shall receive \$2,250,000 in cash from the sale of the additional common stock. The contract also provides for an equaliza-tion of 1937 dividend payments which will perm

principal amount of \$3.964,700 were exchanged under this option for voting trust certificates for 317,176 shares of common stock. The amount of refunding mortgage bonds, 6% convertible series due 1950, issued or held for issuance, under the plan, is \$6,470,900. Consolidated unfilled orders of The Baldwin Locomotive Works and sub-sidiaries, including Midvale Co., amounted on Sept. 30, 1937, to \$29,622,017 as compared with \$13,781,459 on Sept. 30, 1936, and with \$29,805,293 on June 30, 1937 without intercompany eliminations. The nine months statement is in lieu of the usual 12 months statement issued at the end of each quarter in accordance with the company's estab-lished practices. This has been necessary in order to show the effect of the plan of reorganization. Hereafter the company plans to continue the quarterly publication of 12 months statements as heretofore.—V. 145, p. 2686.

Barlow & Seelig Mfg. Co.—Common Div. Increased-The directors have declared a dividend of 30 cents per share on common stock, payable Dec. 1 to holders of record Nov. 17. An in dividend of 20 cents was paid on Sept. 1 last.—V. 145, p. 1090. are on the An initial

-V. 145, p. 2382s Borden Co.—New President, &c. Theodore G. Montague, a Vice-President and director was elected Nov. 3 President of this company and Chairman of the Executive and Advisory Committees to succeed Arthur W. Milburn, who died in Germany on Oct. 11. The action was taken at a special meeting of directors. George M. Waugh Jr. was elected Executive Vice-President and a member of the Finance Committee and will serve in a general executive capacity. Stanley M. Ross, a director was elected to the Executive Com-nitee. Harold W. Comfort and Robelliff V. Jones were elected Vice-Presidents and members of the Advisory Committee.—V. 145, p. 2538.

Presidents and members of the Advisory Committee. -v.143, p. 2000. Border City Mfg. Co.—Dividend Passed— Directors took no action on the payment of the dividend on the common stock ordinarily due at this time. Dividends of 50 cents per share were paid on Aug. 14, last, in each of the two preceding quarters, and on Dec. 22, 1936, and a dividend of \$1 was paid on Nov. 14, 1936, this latter being the first distribution to be made on the issue since 1924.—V. 144, p. 924.

Borg Warner Corp. — Extra Dividend — The directors have declared an extra dividend of 50 cents per share in addition to the regular quarterly dividend of like amount on the common stock, par \$5, both payable Dec. 10 to holders of record Nov. 26.—V. 145, p. 934.

Boston Consolidated Gas Co.—Gas Output— The company reports output for October of 1.035.888,000 cubic feet, an increase of 0.2%, compared with October, 1936. September output was 902,211,000 cubic feet.—V. 145, p. 1734.

Bourne Mills, Fall River, Mass.—50-Cent Dividend— The directors have declared a dividend of 50 cents per share on the new capital stock, payable Nov. 1 to holders of record Oct. 28. An initial divi-dend of like amount had been paid on Aug. 2, last, and prior thereto the company's stock was split up, five new shares being issued for each old share held. A dividend of \$2.50 was paid on the old stock on May 1, last. For detailed record of previous dividend payments see V. 145, p. 599.

Bristol-Myers Co.-Earnings-

Extra Dividend-

The directors on Nov. 3 declared an extra dividend of 10 cents per share in addition to the regular quarterly dividend of 60 cents per share on the common stock, par \$5, both payable Dec. 1 to holders of record Nov. 15. Similar payments were made on June 1 last. See V. 143, p. 2991, for detailed dividend record.—V. 145, p. 934.

Brockton Gas Light Co.—V. 145, p. 934. **Brockton Gas Light Co.**—*Financing Approved*— The Massachusetts Department of Public Utilities has approved this company's petition for authority to issue coupon notes at par, in amount not exceeding \$\$50,000, to be dated Nov. 1, 1937, mature not later than Nov. 1, 1942, and to bear interest at rate of 4%. The commission for negotiating the loan is not to exceed 1% of the face amount of the issue. Proceeds are to be applied to the payment of \$350,000 p. 2688.

Brompton Pulp & Paper Co., Ltd.—Divs. Resumed— The directors have declared a dividend of \$1.10 per share on che com-mon stock, no par value, payable Nov. 15 to holders of record Nov. 1. This will be the first dividend paid on the common stock since April 15, 1931, when a dividend of 25 cents per share was distributed.—V. 143, p.1867.

Brooklyn Manhattan Transit Corp.—Collateral— The Brooklyn Trust Co. as custodian trustee under trust indenture securing the rapid transit coll. trust bonds has notified the New York Stock Exchange that it has received as additional collateral \$33,000 face amount of New York Rapid Transit Corp. demand note, and that in order to accomplish this it was necessary for the trustee to release \$33,000 cash from the deposited cash account.—V. 145, p. 2688.

Brown Fence & Wire Co. -5.140, p.2083. Bales for four months ended Oct. 31, 1937, were \$1,046,986 compared with \$1,037.977 in like period of 1936, an increase of \$8,109 or 0.8%. October sales were \$255,151 against \$282,273 in October, 1936, a decrease of \$27,122 or 9.6%. -V. 145, p.2383.

 Butler Brothers.—Changes in Personnel.—.
 At the regular meeting of the Board of Directors held on Oct. 26 at the executive headquarters in Chicago, the office of Executive Vice-President was created with such powers as may be degated by the Board or the President, and Cecil D. Southard was elected to fill the office. It is the intent that the Executive Vice-President will handle most of the dealings with the company's seven distributing houses (located in New York, Chicago, St. Louis, Baltimore, Minneapolis, Dallas and San Francisco) heretofore handled directly by the President. This change was made, said Frank S. Cunningham, President, in order that he as the Chief Executive may have more time to devote to the major policies of the busines.
 At this same meeting a Finance Committee was created, to handle matters of general financial and corporate nature. Six members of the Board of the Conpany, Chairman, Wesley M. Dixon, Vice-President of the Company, Chairman, Wesley M. Dixon, Vice-President of the Conpany, Chairman, Wesley M. Dixon, Vice-President of the Chicago house.
 The Executive Committee was increased from five to seven members.
 B. W. Cunningham, general manager of the St. Louis house and Leland K. Neeves, general counsel and member of the firm of Scott, MacLeish & Falk.
 The Executive Committee was increased from five to seven members.
 B. W. Cunningham, general manager of the Sc. Louis house and D. L. Peterson, director of sales for the company's seven houses, were elected to fill the vacancies trues created. Cecil D. Southard, Executive Vice-President, and T. B. Freeman, President of the Scott-Burr Stores Corp., a subsidiary of Butler Brothers, were also elected to fill the vacancies created to the Ease of the company's Scene house, America and Precipersident and Director of Jore Corp., a subisidiary of But

Cabot Mfg. Co.—*Dividend Passed*—*New Director*— Directors have decided to omit the dividend ordinarily due at this time on the capital stock. Dividends of \$1.50 per share were paid on Aug. 14, last, and each three months previously. See V. 143, p. 3140 for detailed record of previous dividend payments. William F. Staples, General Manager, was elected a director of this company.—V. 145, p. 1893.

 Chicago Burlington & Quincy RR.—Equip. Trust Ctfs. The Interstate Commerce Commission on Oct. 28 authorized the com-pany to assume onligation and liability in respect of not exceeding \$3,650,000 2½% equipment trust certificates, to be issued by the First National Bank of New York, as trustee, and sold at 100.277 and accrued dividends in connection with the procurement of certain equipment.
 The report of the Commission says in part: The applicant invited 73 bankers, banks, investment houses, and life insurance companies to bid for the purchase of the certificates at a specified price and accrued dividends from Oct. 1, 1937, to the date of delivery. In response thereto three bids were received. The highest bid, 100.277 and accrued dividends, was made by a group comprised of Salomon Brothers & Hutzler, Dick & Merle-Smith, and Stroud & Co., Inc., and has been accepted. On this basis the average annual cost of the proceeds to the appli-cant will be approximateig 2.445%, -V. 145, p. 2839.
 Chicago Milwaukee St. Paul & Pacific RR.—To Make Payment on Equipment Trust—

Chicago Milwaukee St. Paul & Pacific RR.—To Make Payment on Equipment Trust— The trustees have been authorized by the Federal court to make pay-ments of 20% of the principal amount on equipment trust certificates series K maturing Nov. 1. It will be the third such payment on certificates which matured in 1935 the second on those that matured in 1936 and the first on those due this year. Total payments will aggregate \$84,600. —V. 145, p. 2840.

Coca-Cola Co.--Extra Dividend-

Coca-Cola Co.—*Extra Dividend*— The directors have declared an extra dividend of \$2 per share in addition to the regular quarterly dividend of 75 cents per share on the common stock, no par value, both payable Dec. 15 to holders of record Nov. 26. A dividend of 75 cents was paid on Dec. 15, last, and previously regular quarterly dividends of 50 cents per share were distributed. In addition, an extra dividend of \$2 was paid on Dec. 15, 1936. Directors also authorized payment of an extra month's salary to all employees outside of the management group. Additional compensation in the amount of \$250,000 was also authorized to be distributed among the managerial personnel.—V. 145, p. 2386.

managerial personnel.—V. 145. p. 2386. Chrysler Corp.—To Pay \$3 Dividend— The directors on Oct. 29 declared a dividend of \$3 per share on the common stock, par \$5, payable Dec. 13 to holders of record Nov. 12. This compares with \$3.50 paid on Sept. 10, last; \$2 per share paid June 11; \$1.50 paid on March 13, last; \$5.50 paid on Dec. 14, 1936; \$4 paid on Sept. 15, 1936; \$1.50 paid on June 30, 1936; \$1 on March 31, 1936, 75 cents paid on lec. 31, 1935; 25 cents paid each quarter from March 31, 1934; to and incl. Sept. 30, 1935; 50 cents paid on Dec. 31 and Sept. 15, 1933; 25 cents paid each 3 months from Jan. 2, 1931 to Dec. 31, 1932; incl., and 75 cents paid per share quarterly from April 2, 1926 to and incl. Sept. 30, 1930. In addition, extra dividends of 25 cents per share were distributed on Sept. 30 and June 29, 1935, and on June 30, 1934. Report for Nine Months Ended Sept. 30—

Report for Nine Months Ended Sept. 30-

Report for Nine Months Ended Sept. 30— For the first nine months of 1937, passenger and commercial vehicle sales totaled 877,734 units, an increase of 109,231 units over the first three quarters of 1936. Latest information on retail sales of Chrysler Corp. passenger cars and commercial vehicles by its dealers in the United States show approximately 11% increase in the nine months of 1937, compared with the same period of last year. Export shipments show an increase of over 13%. The 1938 lines of Plymouth. Dodge, DeSoto and Chrysler passenger cars, also new Plymouth and Dodge commercial cars and Dodge trucks have been introduced to dealers and are now being shown to the public. While the effect of rising costs of material and labor throughout the in-dustry naturally has been reflected in higher prices, corporation products remain in the same competitive position as in former years. To Redeem Stock-

10 neacem Slock— As a further step in the financial plans of this company, applications were filed on Nov. 2 at Springfield with the Illinois Commerce Commission jointly by Commonwealth Edison Co. and Public Service Co. of Northern Illinois for authority to redeem at \$120 a share the preferred stock of Public Service Co. The redemption date has not been fixed. Of the Public Service preferred stock now outstanding. \$12,591,500 par amount is held by the public and the remainder, \$3,766,100, is held by Edison.

Service Co. The redemption date has not been fixed.
 Struce Co. The redemption date has not been fixed.
 Struce Co. The redemption date has not been fixed.
 Struce Co. The redemption date has not been fixed.
 Struce Co. The redemption date has not been fixed.
 Struce Co. The redemption date has not been fixed.
 Struce Co. The redemption date has not been fixed.
 Struce Co. Will supply from its own cash resources the necessary funds to pay the 20-point premium and authority is sought for amortizing such amount out of income over a period of not to exceed 25 years.
 Eaison company is asking Commission approval to lend to Public Service Co. the remaining funds necessary. The loan would be evidenced by a 5% promissory note to mature not more than two years after the issuance date. The intention is that this note would be retired by the issuance of Public Service co.
 Service Co., which it has helf for some time. Authority for such sales is also sought in a separate application by Edison. Hearings on the applications common stock of Public Service for the associations common stock of Public Service for the set and 3% of the common stock of Public Service for the sought in a separate application by Edison.
 Hearings on the applications commenced Nov. 2 in Springfield.
 Edison now holds more than 83% of the common stock of Public Service Co., and is acquiring additional shares daily under the exchange offer which expires Nov. 15, unless extended — V. 145, p. 2840.

Dividend Action

Dividend Action— The company, in a letter to stockholders, stated that directors intend to take action with respect to the declaration of a dividend soon after the final decision by the Supreme Court of Delaware in its appeal from the Sept. 15 ruling of the Chancellor of the State of Delaware permanently injoining the filing of a certificate of amendment incorporating the company's recapitalization plan. If the Court holds the recapitalization plan is valid

Nov. 6. 1937

the dividend declaration will be on the new preference stock and if the plan is invalid the declaration will be on the participating preferred stock. The company has been advised by counsel that it may expect a decision by the Supreme Court about Nov. 15.--V. 145, p. 755.

tion, depletion and any Federal taxes on income.-V. 145, p. 1098. Follansbee Brothers Co.-Reorganization Plan---Judge R. M. Gibson at Pittsburgh has entered an order extending the confirmation of the plan of reorganization of the company to Feb. 4, 1938. The purpose of the extension is to allow the company to make other financial arrangements. The Court also fixed Nov. 27 as a date for hearing on applications of the debtor and others for reimbursement of out of pocket expenses connected with the company's application for the extension of the confirmation, counsel for the trustees stated that sales during the period of trusteeship have exceeded \$21,700,000, of which \$21,200,000 has been collected. More than \$7,700,000 has been paid out in wages during the same period.--V. 145, p. 2545. Fonda Johnstown & Cloversville RR --Committee to

Fonda Johnstown & Gloversville RR.-Committee to Intervene-

The Interstate Commerce Commission on Oct. 29 permitted a committee representing holders of 52% of the outstanding first consolidated general refunding mortgage bonds to intervene in the proceeding pending for the reorganization of the railroad. Members of the committee are F. J. I isman, Lucius N. Littauer, Joseph H. Loeffler and William G. Edinburg.-V. 145, p. 2693.

Lucius N. Initiauer, Joseph R. Loenner and Winnam G. Edinburg. - v. 143, p. 2693.
 Ford Motor Co. - New Car Prices Higher - Prices of the 1938 standard and de luxe Ford V-8 cars were made public on Oct. 27. These prices represent increases of only \$11.50 to \$36 on the Tudor and Fordor sedans, which together make up more than 80% of Ford car volume. All sedan models for 1938 are of the touring sedan type, and the above price comparisons are made with similar 1937 models.
 The prices quoted are for complete cars. Standard cars are equipped with front and rear bumpers and guards, spare wheel and tire and tube, tire lock and band, one tail light, one windshield wiper, one sun visor.
 De luxe cars are equipped with twin tail lights, two windshield wipers, two sun vizors, twin electric horns, cigar lighter, de luxe steering wheel, flowe compartment, clock, glove compartment lock, chrome wheel bands, in addition to front and rear bumpers, spare wheel, tire and lock and headelight beam indicator.

 The prices are: 60-horsepower—Tudor sedan, \$640; Fordor sedan, \$70; coupe, \$625; de luxe Tudor sedan, \$725; de luxe Fordor sedan, \$716; use convertible coupe, \$770; de luxe convertible club coupe, \$702; de luxe convertible case at a Dearborn, Mich., plant, charges for transportation and all Federal and State taxes extra. --V. 145, p. 2693.

Fort Worth Stock Yards Co.—Extra Dividend— The directors have declared an extra dividend of 37½ cents per share in addition to the regular quarterly dividend of 37½ cents per share on the common stock, both payable Oct. 27 to holders of record Oct. 26. A special dividend of 75 cents was paid on Aug. 2, last.—V. 145, p. 941.

Fox Theatres Corp.--Dividend Authorized

Milton C. Wiseman, receiver for the corporation, has been authorized by Federal Judge Manton to pay a second ad interim dividend of 3% to creditors whose claims have been adjudicated and to set aside a reserve fund of \$80,000 pending adjudications of claims filed by William Fox and Hiram Steelman, receiver of the estate of Mr. Fox, totaling \$1,000,000. The Court set Nov, 15 as the final date for the filing of a verified statement of the Fox claims.—V. 145, p. 2546.

Fox Theatre and Office Bldg., Brooklyn, N. Y.-Reorganization-

For Theatre and Office Bldg., Brooklyn, N. Y.— Reorganization—
A report prepared by Ell T. Watson & Co. indicates that the recently completed reorganization of the finances of tae For Theatre & Office Build-in Brooklyn includes the following features:
— The first is that in connection with the reorganization, a payment of tax increases on the property totaling \$805,903 was made. The tax payment of the compromise providing for the \$805,903 was made. The tax payment is static in connection with the reorganization with the city and under the compromise providing for the \$805,903 payment, the city reduced the assessed valuation for 1937 from the original figure of \$5,965,000 to \$4, 000,000. On July 81 taxes and interest for the first half 1937 tax amounting to \$55,600 was paid before the end of October, funds for this payment aving been deposited by Brooklyn Fox Corp., the present owner of the one deposited by Brooklyn Fox Corp., the present owner of the to be seen and \$725,000 made to the new company by the R. F. Of.
— Another feature in the reorganization is that it was possible only because of a loyear loan of \$725,000 mode to the new company by the R. F. Of.
— Aratic scaling down of the funded debt was necessitated by the large and to a \$75,000 second mortgage taken by Simon H. Fabian. To com-pensate the bondholders for the principal reduction of their lien they re-ceived the entire common tock issue of Brooklyn Fox Corp. at the rate. The fox Corp. and Fabian Brooklyn Theatres, Inc., which will operate the hord bood second mortgage taken by \$10,01937, between the Brook-bard the enterce was signed as of July 30, 1937, between the Brook-theater for the next 20 years under the direction and supervision of Simon H. Fabian. A minimum rental of \$150,000 per annum is called for by the second mortgages has been guaranteed by Fabian Enterprises, Inc., for the fore of years ended Sept. 5, 1940. A \$25,000 security deposit has been there berges rease of sup as a additional rental 17½% of

companies.—V. 145, p. 1258.
 General Motors Corp.—To Pay \$1,50 Dividend— The directors on Nov. 1 declared a dividend of \$1.50 per share on the com-mon stock, par \$10, payable Dec. 13 to holders of record Nov. 12. This compares with \$1 paid on Sept. 13 and on June 12, last; 25 cents paid on March 12 last; a year-end dividend of \$1.50 paid on Dec. 12, 1936; regular quarterly dividends of 50 cents paid in each of the five preceding quarters, and dividends of 55 cents per share paid each three months previously. Previous extra distributions were as follows: 75 cents on Sept. 12 and June 12, 1936; 50 cents on Dec. 12, 1935; 25 cents on Sept. 12, 1935; 50 cents on Sept. 12, 1934; 25 cents on Dec. 12, 1933, and 30 cents per share on Jan. 3, 1930, and on July 2, 1929.—V. 145, p. 2845.

1930, and on July 2, 1929. -V. 145, p. 2845. **General Public Service Corp.** *Dividends Deferred* -Preferred stockholders are being advised that on Sept. 2, 1937, the directors declared dividends of \$1.50 per share on the \$6 dividend preferred stock and \$1.37½ per share on the \$5.50 dividend preferred stock, payable on Nov. 1 to holders of record on Oct. 15. At the recent low prices of securities, there was, under the Delaware law, an impairment of the capital represented by the preferred stock of that corporation. In view of this circumstance, the directors at a meeting held on Oct. 28, 1937, deemed it prudent to postpone the payment of those dividends. The resolution adopted by the directors provided that payment of such dividends be deferred until such time as, by resolution, the directors shall direct such payment, In which event said dividends shall be paid to holders of record at the close of business Oct. 15, 1937. -V. 145, p. 2547.

(Henry) Holt & Co. Inc.—Class A Dividend.— (Henry) Holt & Co. Inc.—Class A Dividend.— The directors have declared a dividend of 10 cents per share on account of accumulations on the \$1.80 cum. partic. class A stock, no par value, payable Dec. 1 to holders of record Nov. 10. A like payment was made on Sept. 1, June 1, and March I last, and compares with 30 cents paid on Dec. 1, 1936, and dividends of 10 cents per share paid on Sept. 1, June 1 and March 2, 1936, and on Dec. 2, 1935, this latter being the first payment made on the issue since June 1, 1933, when 15 cents was paid. 22% cents per share were distributed each three months from June 1, 1932 to March 1, 1933, inclusive. Prior to then regular quarterly dividends of 45 cents per share were distributed.—V. 145, p. 943.

Hiram Walker-Gooderham & Worts, Ltd .- Dividend Doubled-

The directors have declared a dividend of \$1 per share on the common stock, payable Dec. 15 to holders of record Nov. 26. Previously regular quarterly dividends of 50 cents per share were distributed.—V. 145, p. 2694.

Hooker Electrochemical Co.—Special Dividend— The directors have declared a special dividend of \$2 per share on the common stock, payable Oct. 20 to holders of record Oct. 15. Dividends of \$1.50 per share were paid on Sept. 30 and on Aug. 31 last and each three months previously.—V. 144, p. 454.

Hooven & Allison Co.—Pays \$4 Dividend— The company paid a dividend of \$4 per share on its common stock, par \$100, on Nov. 1 to holders of record Oct. 25. This compares with \$12 paid on Dec. 21, 1936; \$3 paid on May 1, 1936; \$4 on Nov. 1, 1935, May 1, 1935 and on Nov. 1, 1934; \$3 on May 1, 1934, and \$2 per share on Nov. 15, 1933. —V. 144, p. 3001.

-V. 144, p. 3001. Hotel Taft, N. Y. City-Reorganization-Reorganization of Hotel Taft 5½% guaranteed first mortgage bond certificates (Prudence Bonds Corp. first mortgage participating certificates, Hotel Taft issue) has been completed, it was announced Oct. 29. Holders of certificates with a total par value of 32,988,383 deposited their securities under the plan, equivalent to 97,55% of the total issue, which was \$4,088,300. As a result of the sale of Hotel Taft under foreclosure last June, the nondepositing bondholders received \$87.75 for each \$100 par value of old certificates. Depositing bondholders will receive new 5% first mortgage bonds of Hotel Taft Corp. due Aug. 1, 1947, in exchange for their old certificates on a par for par basis. The new bonds, which bear fixed interest, may be ex-

Hudson & Manhattan RR.—Fare Hearing Postponed— The Inter-State Commerce Commission further postponed from Nov. 10 to Jan. 18 a hearing on the proposal of this railroad to increase its passenger fare from 6 to 10 cents. Tariffs covering the proposed increase are under suspension by the Commission pending hearing and investigation. The further postponement was granted on request of the company. The hearing Jan. 18 will be held at the Hotel New Yorker before Commissioner Porter.—V. 145, p. 2849.

 Insull Utility Investments, Inc.—Settlement— Federal Judge James H. Wilkerson on Oct. 27 gave his approval to settle-ment agreements in the bankruptcy cases of Insull Utility Investments, Inc., and Corporation Securities Co.
 The Court ruled that the terms of settlement advanced by New York and Chicago banks, are fair and equitable and directed attorneys to present a formal order for his signature. He said debenture holders had been ad-vised of the agreements and that enough consents had been received to make the proposals operative.
 Under the agreements, holders of series A and series B debentures of Insull Utility Investments will get about \$5.09 per \$100 of their holdings plus \$2 to \$4 additional distributions. Holders of serial notes of Corpo-ration Securities Co. are to receive approximately \$6.20 per \$100 of notes. It was estimated holders of \$34,000,000 of a total of \$52,000,000 in deben-tures of Insull Utility have assented to the agreement and that of \$19,333,000 of Corporation Securities notes, individuals holding \$15,500,000 principal amount had given their assent.—V. 145, p. 2695.

International Harvester Co.—To Build Large Australian Plant-

Construction in Australia of a \$2,000,000 plant for the manufacture of farm implements was announced on Nov. 2. The new plant will be built and operated by International Harvester Co. of Australia, Ltd., the Austra-lian affiliate of International Harvester Co. Effective Nov. 1, George E. Rose will succeed Cassius F. Biggert as Vice-President in charge of company's iron and coal mines and Wisconsin Steel work.—V. 145, p. 2077.

International Nickel Co. of Canada, Ltd.—Extra Div. The director's have declared an extra dividend of 25 cents per share in addition to a quarterly dividend of 50 cents per share on the common stock, no par value, both payable Dec. 31 to holders of record Dec. 1. See V.144, p. 3177 for detailed record of previous dividend payments.—V. 145, p. 1101

International Paper Co.—*Tenders*— The Bankers Trust Co., as trustee for company's first and refunding 5% sinking fund mortgage bonds, Series A and B, announced that it will receive offers for the sale to it of these bonds, at prices not to exceed 102½ and ac-crued interest, in an amount sufficient to exhaust the sum of \$103,487 in the sinking fund. Offers will be received up to Nov. 15 at the corporate trust department of the bank's New York office.—V. 145, p. 1742.

a Includes 86,170 Federal income taxes, of which \$3,680 is Federal sur-tax on undistributed profits.—V. 145, p. 2551. (B. B. & R.) Knight Corp.—To Recapitalize— A new capital reorganization plan to replace one which failed to be ac-cepted by stockholders last year was offered to stockholders is considerably broader than that of a year ago and it is designed for the same purpose—that of eliminating a capital deficit so that dividends may be paid in accordance with terms of the Federal Undistributed Profits Tax Law. Because the corporation had this capital deficit last year it was necessary to pay to the Federal Government \$46,034.89, the letter stated. A special meeting to vote on the plan has been called for Nov. 16. Ap-proval by at least two-thirds of the holders of existing stock is necessary for fulfilment of the plan. The new plan proposes the organization of a new company, to be known as "Fruit of Loom, Inc.," or some similar name, with an authorized capital stock of \$1,598,998, represented by 74,637 shares of preferred stock \$20 par value and 106,258 shares of common stock of \$1 par value. For each share of the present company: stock, holders would receive the following shares in the new common. For Class B: One share of new common. This plan contrasts with last years in that under the schedule of a year ago the corporation planned a single class of common stock, into which stockholers would convert their holdings on the basis of two new common shares for each share of old preferred; yon enshares of 51/9 of old Class A: two shares for 55/ old Class B and two shares for seven old Class C. Under the new plan the present preferred stock holders, who have a prior right in distribution of assets to \$100 per share and the rights to cumulative preferred dividends in excess of the total assets of the com-pany, would own 92.6% of the new preferred stock and 65% of the com-pany, would own 92.6% of the new preferred stock would receive divi-dends equal to any earnings up to \$3 per share of oustanding preferred

directors may withhold up to one-time to state status to the state of the financial position of the company. The stock would be redeemable at \$50 per share. No dividends on the common stock would be paid until preferred dividends in the full amount of \$3 annually had been met. B. Bruce Smart, President of the corporation, said in his letter to stock-holders that while "it is evident that there will be no earnings available for dividends this year," it is the belief of the management that elimination of the capital deficit should be effected now, in order to take advantage of future earnings periods. "The last six months have been disappointing and trying ones in our branch of the textile industry," he stated. "The generally higher incomes and wage scales throughout the country this year as compared with last have not resulted in a corresponding increase in consumer demand. The result has been that the retailer, wholesaler and cutter, in the attempt to digest inventories and commitments accumulated in anticipation of greater consumer buying than has developed, have been forced to hold new pur-chases to a minimum, thus seriously checking the movement of goods out of the hands of producers and causing inventory stagnation in that quarter also. "The prices of most of the goods sold by your company are now lower than at any time since the middle of 1933 in spite of materially higher manufacturing costs."—V. 144, p. 1284. **Kreuger & Toll Co.**—*Chairman*—

Kreuger & Toll Co.—*Chairman*— Otis A. Glazebrook Jr., a partner in G. M.-P. Murphy & Co., has been elected a member and Chairman of the 5% secured debenture holders? protective committee, to succeed the late Grayson M.-P. Murphy, who had been Chairman of the committee since its formation on April 8, 1932.

Distribution to Be Made on Debentures-

Disa. Glazebrook Ir., Chairman of the Murphy protective committee for the 5% secured debentures, announced that a distribution at the rate of \$95 for each \$1,000 nominal amount of secured debentures deposited with the committee will be made by the committee to holders of its certifi-cates of deposit on Nov. 15. Checks will be mailed on that day to holders of record on Nov 9 of the committee's registered certificates of deposit. Holders of bearer certificates of deposit may obtain such distribution, beginning Nov. 15, 1937, by presenting bearer certificates to Guaranty Trust Co.

Holders of bearer certificates of deposit may obtain the formation of the segment

y Represented by 57,500 no par shares.—V. 143, p. 3151.
Lawyers Mortgage Co.—Reorganization Begins—Manager Seek Assents to Plan—Holders to Retain Possession of Mortgages Reorganization of the first of the large mortgage companies, the Lawyers Mortgage Co., which had guaranteed mortgage companies, the Lawyers and stack have over for rehabilitation by the Superintendent of Insurance in 1933, began last week when Reorganization Managers sent out letters to creditors and stockholders seeking their assent to a plan of reorganization of the company ways the third largest in the United States who obtained the approval of the plan from the Superintendent of Insurance, The Mortgage Commission and all of the attorneys who appeared the diverse company was the third largest in the United States who obtained the approval of the plan from the Superintendent of Insurance, The Mortgage Commission and all of the attorneys who appeared for creditors.
The reorganization managers, Charles G. Edwards, William E. Russell and P. Walker Mortson, boserve as creditors' manager, attorneys who appeared of their mortgage and complete control of their mortgage and certificates and that there will ce no assessment or liability.
Tasenting holders will retain possession and complete control of their mortgage and exclusion frage certificates of Lawyers Mortgage Co. since (1933) ander the jurisdiction of the Nave State Insurance Department. The letter of the reorganization manager state:
Tasenting holders will share of the assets of the company, payable in cash and stock, (voting trust certificates) of Lawyers Mortgage Co. since (1933) ander the jurisdiction of the Nave York State Insurance Department. The letter of the reorganization means a fair and orderly determination of all claims, conservation of the value of the assets of the company owned y lawyers Mortgage Co., as a going concern, in the ownership of which.
There of the reorganization is not assets for the company which will head beside for the val

Lehigh & New England RR.—Official Retires— J. H. Nuelle, President of this company announced that Rollin H. Wilbur, Vice-President and General Manager, has retired after 30 years of service. —V. 145, p. 2851.

-V. 145, p. 2851. Lehigh Valley RR.—To Pledge Bonds— The Interstate Commerce Commission has authorized the road to pledge and repledge from time to time \$3,600,000 of gen. consol. mtge. 5% bonds as may be required to maintain the pledging ratio as collateral security for two short-term notes amounting to \$1,400,000. At the same time the Commission authorized the road to pledge and repledge from time to time \$1,000,000 as required to maintain the pledging ratio of collateral security for a \$400,000 promissory note to the order of the Marine Midland Trust Co. of New York.—V. 145, p. 2851.

Leipzig Overland Power Cos.—Interest Payment— Brown Brothers Harriman & Co., as fiscal agents for the 20-year 615 % sinking fund mortgage bonds, due 1946, announced that the Nov. 1 coupons on these bonds will be paid at their dollar face amount, upon presentation at their New York office, out of a special deposit which may be used for this purpose. The regular payment for service of the interest has not been received.—V. 144, p. 3180.

(Thomas J.) Lipton, Inc.—Listing and Registration— The New York Curb Exchange has admitted to listing and registration the class A stock, \$1 par, and the 6% cum. pref. stock, \$25 par.—V. 145, p. 2229.

London Terrace Apartments—Earnings— The London Terrace Apartments reported net profit, before mortgage interest and depreciation, of \$146,150 for the six months ended June 30, 1937, as compared with \$125,752 for the first half of 1936, according to a new operating study released by Amott, Baker & Co., Inc. Earnings for the first six months of this year were at the annual rate of 5.31% on the \$5,500,000 outstanding first mortgage bonds, before interest and deprecia-tion, compared with 4.57% for the first half of 1936 and 4.22% for the year 1936.

\$5,500,000 outstanding first mortgage bonds, before interest and depreda-tion, compared with 4.57% for the first half of 1936 and 4.22% for the year 1936. Holders of the old bonds of the corporation will receive during November of this year, under a reorganization plan confirmed in February, 1937, a new \$1,000 15-year 3% fixed and income bond and 10 shares of voting trust certificate common stock aggregating 60% of the corporate ownership. The plan provides \$35,000 of working capital, a reserve fund of \$60,000 and monthly interest and tax instalments. With delivery of the new bonds, funds on hand are to be distributed amounting to about \$16.90 per bond. This payment is in addition to the regular interest on the new bonds, the first payment of which will be due Dec. 1. The property has a total 1937 assessed valuation of \$9,325,000. Real estate taxes have been paid to date.-V. 145, p. 1102.

The property has a total 1937 assessed valuation of \$9,325,000. Real estate taxes have been paid to date.--V. 145, p. 1102.

bearing interest at the rate of 5% per annum, will mature Dec. 1, 1940. In \$175,000, bearing interest at rate of 5% per annum, will mature Dec. 1, 1941. The bonds and notes cannot be sold under existing market conditions unless company is without other debt, except current indebtedness. Com-pany has, therefore, requested Standard Gas & Electric Co., as the holder of approximately \$6,916,000 of indebtedness, to accept in lieu of that indebtedness 69,160 shares, (no par) \$6 cumulative prior preference stock, which stock will have a preference over the present preferred stock and common stock as to both earnings and assets. While the proposed new \$6 cumulative prior preference stock would have a preference over the present preferred stock and common stock, its issuance for the purpose mentioned would not only be an action in furtherance of the necessary refunding of the first mortgage gold bonds now outstanding, but would remove an indebtedness of approximately \$6,916,000 which now has priority over the preferred stock and common stock and upon which it might be declared in default in the event of its inability to pay. Further, in the judgment of the directors it is advisable, in order to provide capital surplus against which may be charged losses on property heretofore sold, discount and expense on capital stock, and expired debt discount and expense now appearing on the balance sheet of company, and to provide additional retirement (depreclation) reserve, that the capital represented by the common stock be reduced from \$5,322,401 to \$142,500. It is also recommended that the certificate of incorporation be amended to provide specifically that the directors shall have the right to direct, from time to time, the use and disposition of any surplus, however created. The adoption of the foregoing will not reduce the number of shares of preferred stock or common stock.

The company has filed an application with the Federal Power Commis-sion for authority to issue \$8,000,000 6% first mortgage bonds, due 1942, \$700,000 4%-5% serial notes, and 69,160 shares \$6 cumulative prior pref-erence stock, no par value. Hearing on the application will be held before the FPC on Dec. 1.—V. 145, p. 947.

Brence scota, July Jar Vatt, 5, p. 947.
Mueller Brass Co.—Extra Dividend—
The directors have declared an extra dividend of 10 cents per share in addition to the regular quarterly dividend of 25 cents on the common stock, par \$1, both payable Nov. 22 to holders of record Nov. 8. Similar payments were made on Sept. 29, June 29 and March 29 last, and on Dec. 28, 1936, and dividends of 20 cents per share were distributed in each of the four preceding quarters, the Dec. 2, 1935, dividend being the initial distribution on this stock.
The company stated that the date of the current dividend anticipates by one month the first quarterly dividend for the fiscal year commencing Dec. 1, 1937, which would normally be payable in December. This will bring the payment within the company's fiscal year ending Nov. 30, 1937, thus effecting the saving of liability on undistributed profits. It is the incention of directors to consider the subsequent payment of dividends in conformance with the changed payment date.—V. 145, p. 2399.

New York New Haven & Hartford RR.—Bankers File Plan—Ask ICC to Reduce Proposed Capitalization to \$350,-525,120 for Reorganization—

525,120 for Reorganization— A capitalization of \$350,525,120 for the reorganized New Haven road, compared to a capitalization of \$454,932,870 proposed in the debtor's plan for reorganization, has been urged upon the Interstate Commerce Commission in modifications to the debtor's plan filed with the Commis-ion by the Mutual Savings Bank Group Committee. "The total capital structure proposed by the debtor," said the committee, "The total varings Bank Group Committee the unsound and undesirable in the public interest." The Mutual Savings Bank Group Committee represents 229 mutual savings banks with approximately \$40,000,000 of investment in the New Haven and its affiliates. Not only does the brief of the Savings Bank Commission to hold that "the proposed capitalization of the reorganized New Haven, but it flatly states that the railroad is insolvent and asks the Commission to hold that "the present common and preferred stock of the debtor is of no value." The depitalization of the reorganized new the committee's modifications and the debtor's plan were presented in the brief as follows:

Agree On Fixed Charges

obligation outstanding. Agree On Fixed Charges The committee agreed with the debtor on fixed charges and added that approximately \$3,000,000 of fixed charges can be carried safely through periods of depressed economic activity and that such amount of fixed charges will be earned during normal years with a margin sufficient to make the obligations a medium for future financing." The committee also proposed some modifications in the plan by the sub-sidiary debtor, Old Colony RR., for its reorganization, basing its recom-mendations on the view that "the integrity of the New Haven System should be preserved by the retention of the Old Colony as an essential operating unit." The committee said it was in agreement with the treatment of the secured are ecommended that the Old Colony plan of the principal debtor and recommended that the Old Colony stockholders should be entitled to participate in the reorganized company "only to the extent that there is equity in the value of all of the assets of the Old Colony, including the value of its claim against the New Haven, over and above the amount of the secured claims." The committee proposed that "the treatment to be accorded stockholders of the Old Colony be that of unsecured creditors and that the Old Colony plan be modified to provide for the exchange of one share of new common stock for each present share of Old Colony stock now outstanding in the hands of the public."

North Boston Lighting Properties--Bonds-

The Securities and Exchange Commission has declared effective decla-rations filed by six subsidiaries of North Boston Lighting Properties cover-ing an aggregate of \$3,309,375 of 3% notes to be issued to parent company The names of the companies and the amount of notes to be issued are: Haverhill Electric Co., \$1,014.375; Gloucester Electric Co., \$235,000; Beverly Gas & Electric Co., \$650,000; Malden Electric Co., \$200,000; Suburban Gas & Electric Co., \$785,000, and Salem Gas Light Co., \$425,000. --V. 145, p. 2858.

Northern Texas Electric Co.—Reorganization— A copy of the notice was mailed Oct. 29 to the various security holders relating to a hearing to be held on Dec. 6 at 12 noon in the Federal Building, Boston, Mass., for consideration of the plan of reorganization. Acceptances of the plan of reorganization of company received to Oct. 26

from nonders of its securities are as follows:
30-year collateral trust gold bonds 50%
Secured 7% gold notes
Preferred stock scrip dividend certificates68%
Preferred stock

While the requisite percentages of each class of creditors (other than bondholders) and stockholders have accepted the plan, it cannot be con-firmed and consummated until it has been accepted by the holders of two-thirds of the collateral trust bonds and certificates of deposit. The latter

are therefore urged to send in their written acceptances to Old Colony Trust Co., Depositary, 17 Court St., Boston, Mass., without delay. --V. 145, p. 2859.

Northern States Power Co. (Del.)—Weekly Output— Electric output of the Northern States Power Co. system for the week ended Oct. 30, 1937, totaled 26,092,316 kilowatt-hours, an increase of 5.4% compared with the corresponding week last year.—V. 145, p. 2859.

Royal Typewriter Co., Inc.-Earnings-Director

Earnings for Two Months Ended Sept. 30, 1937 Net inc. after all charges except surtax on undistributed profits._____\$449,304 A. E. Davis, Treasurer, has been elected a director, replacing Willis H. Bootn, retired.—V. 145, p. 2405.

Booth, retired.—V. 145, p. 2405. **Saco-Lowell Shops**—New Reorganization Plan— Directors are proposing a new plan of reorganization similar to the old, which has been abandoned, except that the new one contemplates no under-writing. In lieu of this, directors have agreed to take up new stock to an amount yielding the company \$180,000 and certain directors and large stockholders have agreed to take up new stock to an amount of \$792,000. In addition to the \$900,000 to be raised, First National Bank of Boston has agreed to lend the company \$1,500,000 funded debt. David F. Ed-wards, President, states 1937 earnings should equal if not exceed those of \$713,357 in 1936. Stockholders will vote on the new plan at special meet-ng on Nov. 17, --V. 145, p. 2243.

St. Joseph Ry. Light Heat & Power Co.-Gets Aid from Banks to Meet Obligations-

Banks to Meet Obligations— A group of New York banks made available on Nov. 1 funds to the company, a subsidiary of the Cities Service Co., to enable it to meet the payment of principal and interest on \$5,000,000 first mortgage 5% bonds, due Nov. 1. The company had intended placing new bonds on the market in order to obtain funds to pay off the maturing issue, but in view of existing market conditions, the incurring of bank loans was considered the better procedure. On Sept. 30, last, the company filed a registration statement covering \$8,000,000 of new securities, consisting of \$6,000,000 of first mortgage 4% bonds and \$2.000,000 of 3% and 4% notes. Part of the proceeds of this financing by the company was to be used to meet the Nov. 1 maturity. Offering of the securities to the public was scheduled for last week, but the emission was postponed because of unsettled market conditions. -V. 145, p. 2558.

Note-profits.-

Standard Dredging Co.—Initial Preferred Dividend-Special Common Dividend—

The directors have declared an initial quarterly dividend of 40 cents per share on the \$1.60 cumulative preferred stock, no par value, payable Dec. 1 to holders of record Nov. 20. The directors also declared a special dividend of 40 cents per share on the common stock, par \$1. likewise payable Dec. 1 to holders of record Nov. 20. The preferred stock is convertible into common at the rate of four common for each preferred share until Sept. 1, 1938, and at the rate of three for one for the four ensuing years after which the conversion privilege ceases.

Of three for one for the four ensuing years after which the conversion privilege ceases. "In declaring dividends on the common stock at this time," the company's statement says, "directors have kept in mind the progressively heavy surtaxes on undistributed profits. While no definite statement can be made at this time, it is possible that directors may find it advisable to declare and pay an additional 'year end' dividend on the common stock before the end of December, 1937. In determining the amount of such further payment, if any, consideration will be given to the surtax on undistributed profits, the corporation's requirements for working capital, the cash resources available for the payment of dividends, and any increase in the number of shares of common stock, which may be expected due to conversions before such dividend would be payable."-V. 145, p. 1116.

Standard Oil Co. of Indiana-Extra Dividend-

The directors on Oct. 29 declared an extra dividend of 75 cents per share in addition to the regular quarterly dividend of 25 cents per share on the common stock, par \$25, both payable Dec. 15 to holders of record Nov. 15. An extra of 25 cents was paid on Sept. 15, last; extra dividends of 15 cents were paid on June 15 and March 15, last; an extra dividend of \$1 was paid on Dec. 15, 1936; an extra of 25 cents was paid on Sept. 15, 1936, and one of 15 cents was paid on June 15, 1936.—V. 145, p. 1275.

To Pay 10-Cent Dividend— The directors have declared a dividend of 10 cents per share on the common stock, no par value, payable Dec. 23 to holders of record Nov. 19 An initial dividend of 5 cents per share was paid on Dec. 15, 1936.—V. 145' p. 1117.

Third Avenue Ry.—Comments on Reorganization Plea— Referring to an action filed in the Federal court on Oct. 30 requesting reorganization of the company under the National Bankruptcy Act, Alfred

T. Davidson, counsel for the company, said on Nov. 1 that after examining the petition he believed there was no basis for maintaining the suit. Those who brought the suit, three individuals holding a total of \$8,500 of the company's adjustment mortgage bonds, contended that the present cost of maintenance of the system was 22% of gross revenues. Moderniza-tion was held necessary to forestall foreclosure, but the change could not be accomplished, without reorganization that would produce new capital, it was alleged.—V. 145, p. 2866.

Timken Roller Bearing Co.—Extra Dividend— The directors have declared an extra dividend of \$1.75 per share in addition to the regular quarterly dividend of 75 cents per share on the common stock, no par value, both payable Dec. 4 to holders of record Nov. 17. An extra dividend of 25 cents was paid on Sept. 4 last and an extra of 75 cents was paid on Dec. 5, 1936. See also V. 143, p. 3014, for detailed record of previous dividend payments.—V. 145, p. 958.

balance for common dividends and surplus_____ \$19,965 \$65,242 a No provision has been made for the Federal surtax on undistributed profits since any liability for such tax cannot be determined until the end of the year. Note—The companies on Jan. 1, 1937 adopted the Federal Power Com-mission System of Accounts, hence previous year's figures are not exactly comparative.

Accumulated Dividend-

The directors have declared a dividend of 18¼ cents per share on account of accumulations on the \$1.50 series A pref. stock, no par value, payable Dec. 1 to holders of record Nov. 12. This compares with 37½ cents paid on Sept. 1 and on June 1 last; 56¼ cents paid on March 1 last; 75 cents paid on Dec. 1, 1936; 56¼ cents per share paid on Sept. 1, 1936, and 37½ cents paid on June 1, 1936.—V. 145, p. 2411.

THE FAJARDO SUGAR COMPANY OF PORTO RICO

ANNUAL REPORT TO THE STOCKHOLDERS FOR 1937

To the Stockholders of The Fajardo Sugar Company of Porto Rico.

The Fajardo Sugar Company of Porto Rico. Your Board of Directors hereby submits its nineteenth annual report of The Fajardo Sugar Company of Porto Rico. The grinding commenced January 19, 1937 and ended May 23, 1937 covering a period of 122 working days. The total cane ground amounted to 803,339 tons. The factory output was 98,035 tons of sugar. Included in said figures is the output of the Loiza Sugar Company. The following is a comparative statement showing the individual output of The Fajardo Sugar Company of Porto Rico and the Loiza Sugar Company:

Fajardo

Total cane ground into sugar, 521,547 tons. Factory output, 63,669 tons of sugar, or 410,765 bags of 310 lbs. each.

Loiza

Loiza Total cane ground, 281,792 tons. Factory output, 34,366 tons of sugar, or 197,101 bags of 310 lbs. each, 19,700 bags of 250 lbs. each and 27,063 bags of 100 lbs. each. The 1937 crop was adversely affected by drought, which primarily accounts for the shorter output. The 1938 crop looks fair. It has also been somewhat affected by the drought. drought.

As stated in our 1936 report, a quo warranto proceeding has been instituted by the Government against the Com-pany. The litigation is going along in due course. Attached will be found consolidated Balance Sheet and statement of Profit and Loss (including the Loiza Sugar Company), duly certified by public accountants.

For the Directors,

JOHN BASS, President.

THE FAJARDO SUGAR COMPANY OF PORTO RICO And Associated Organizations

Worthington Pump & Machinery Corp.--Initial Divs.

Worthington Pump & Machinery Corp.—Initial Divs. on New Prior Preferred Stocks— Directors on Nov. 3 declared initial dividends of \$4.31½ per share on both series of cumulative prior preferred stock, payable on Dec. 15. These dividends represent payments at the rate of 4½% per anum and cover the period from Jan. 1 to Dec. 15. They are the first to be paid on any of the company's stocks since 1932. The cumulative prior preferred stock is now being issued to holders exchange for the old class A and class B preferred stock of the corporation under a recapitalization plan recently declared effective. In announcing the dividend action, H. C. Beaver, President of the cor-poration, stated that net profit of \$1.402,076 for the first nine months of 1937 was equivalent to \$9.66 per share on the combined 145,062 shares of convertible and non-convertible series of prior preferred stock to be out-standing, assuming a full exchange of shares. Notices are being sent to all class A and class B preferred stock holders that their certificates should be surrendered to the transfer agent on or before Dec. 11, when the books will be closed, in order to receive the initial dividends on the new cumulative prior preferred stock. New Securities Ready—Director— The Guaranty Trust Co. of New York, as agent, will exchange stamped and unstamped certificates for class A and class B preferred stock of Worth-ington Pump & Machinery Corp. for the new securities as provided in the plan of recapitalization. F. Gladdon Searle has been elected a director of this company.—V. 145, p. 2710. (Rudolph) Wurlitzer Co.—Meeting Adiourned—

p. 2710. (Rudolph) Wurlitzer Co.—Meeting Adjourned— Due to an insufficient number of assents from preferred shareholders, the directors adjourned their special meeting held Nov. 1 without taking action on the proposed special dividend to clear up preferred arrears. The directors will meet again on or before Nov. 15, 1937, to take final action on the matter. On Nov. 1, 1937, the company had received assents from holders of 10.578 shares of 7% cumulative preferred or 79.52% of the outstanding issue. According to the plan presented to preferred stockholders in a letter dated Oct. 8, 1937, the company proposes to liquidate preferred arrears amounting to \$36.75 a shares by payment of \$6.75 in cash and 1½ shares of common stock. The letter stated that assents of virtually all preferred shareholders are necessary for the plan to be put into effect.—V. 145, p. 2871.

COMMERCIAL EPITOME

Friday Night, Nov. 5, 1937

Friday Night, Nov. 5, 1937 Coffee—On the 30th ulto. Santos futures closed 10 to 11 points net higher, with sales of 21 contracts. Opening prices in this contract were 1 point above the previous final quota-tions. The Rio contract opened 2 to 4 points up, and closed 4 to 7 points net higher, with sales totaling 13 lots. The Rio de Janeiro market was closed until Wednesday. Cost and freight markets held fairly steady for the week, following the softening tendency evident on both Brazils and mild grades during the preceding week. Quotations in the local spot market were unchanged for the period. On the 1st inst. futures closed 2 to 8 points off in the Santos contract, with sales of 8,000 bags. Scattered selling, mainly from outside and foreign sources, was reported in late trading, which made for an easy closing. The Rio contract did a little better, this contract showing gains of 3 to 4 points for the day on sales of but 2,000 bags. The free market Brazilian exchange rate was 10 reis improved, with the milreis at 17.4 to the dollar. Rumors of an impending external coffee loan for Brazil continued to circulate in the market Monday, with the amount variously reported at from \$1,500,000 to \$5,000,000. On the 3d inst. futures closed 100 points net lower, the per-missible limit for one day. This drastic decline was due to the report that Brazil had adopted a policy of open com-petition and would reduce its export tax on coffee of 45 milreis (\$3.06) per bag by 75%, equivalent to a cut of 13/4c. per pound. Futures at Havre showed losses of 19½ to 21½

francs per 50 kilos, while in Brazil the Rio, Santos and Vic

francs per 50 kilos, while in Brazil the Rio, Santos and Vic toria exchanges were temporarily suspended, the Govern-ment wishing to prevent speculation which might jeopardize the control objectives of that country. The local futures market lost little time in reflecting the weaker coffee position developed by Brazil's action in cutting her export levy. Santos contracts opened 93 to 100 points off, and shortly after all positions were offering at 100 points below Mon-day's close, without buyers. Sales for the day were 44,000 bags. Rio contracts were 60 to 94 points down at the close, and held above the trading limit until late in the session, but final prices were exactly 100 points under the previous close, with sales in this contract 18,750 bags. On the 4th inst. futures closed 12 to 75 points net lower, with sales totaling 101,500 bags for the day. The Rio con-tract closed 17 points lower to 13 points higher, with sales of 23,250 bags. With Brazilian markets remaining closed, little news from that country was in evidence. Weakness in exchange added to the easy position of coffee markets, with the milreis declining 280 reis against the dollar, being quoted at 17.8 milreis to the dollar, a new low for the current year. The Colombian peso was also reported weakening. Coffee futures at Havre were 20 frances per 50 kilos lower. On the local Exchange the Santos contract showed losses at the opening of 10 to 69 points. The decline was cushioned some-what by short covering and some new buying. Today futures closed 14 to 53 points down in the Santos contract, with sales totaling 226 contracts. The Rio contract closed

15 to 27 points down, with sales totaling 32 contracts. With trading slightly slower than yesterday but still far above the average, coffee futures opened generally higher and then again turned soft. In early afternoon Santos were 9 to 12 points lower, with March at 7.07c., off 9 points and but 11 points above the extreme low touched yesterday. Rio con-tracts were 1 to 7 points lower, with March at 4.52c., off 1 point. In Brazil the futures markets were still closed. The market in actual coffee continued nominal most reasters point. In Brazil the futures markets were still closed. The market in actual coffee continued nominal, most roasters deciding to await further developments. Santos 4s. were offered at 7.90 to 8.15c., cost and freight. Manizales were offered at 1¼c. A bright spot on the horizon was an im-provement in milreis exchange to 17.65. Havre futures were 12 to 15¼ francs lower, bringing losses there in three days to 50 frances, about 20% of values.

Jrazil Reverses Coffee Control Policy—Resolves to Lower Export Tax by 75%—Markets Temporarily Closed—Decision Affects Other Exchanges

The Brazilian Government on Nov. 2 announced its in-The Brazilian Government on Nov. 2 announced its in-tention to abandon its price-control program for coffee and adopt a policy of open competition, and at the same time resolved to lower the present export tax on coffee by 75%. The exchanges at Rio, Santos and Victoria were temporarily closed by Government decree to prevent any speculating which would possibly jeopardize the objectives of Brazil. The reversal of its policy by the Brazilian Government caused sharp breaks in coffee futures quotations at New York and Harve on Nov. 3. On the New York Coffee & Sugar Ex-change futures broke the permissible limit of 100 points or 1 cent a pound. The New Orleans Board of Trade was forced to suspend coffee futures trading on Nov. 3. It had been to suspend coffee futures trading on Nov. 3. It had been rumored that the New York Exchange would also close, which brought about the following statement from Chandler A. Mackey, President of the Exchange:

A. Mackey, Frestdent of the Exchange. There is no reason for closing our exchange. The very fact that the exchange remains open is prima facie evidence of its soundness as a com-modity market. The rules which limit the fluctuation in any one day to 100 points or 1c per pound are a protection to both the buyer and seller and the exchange in remaining open performs one of its most important functions, namely, the reflection of the true price of coffee.

The action of the Brazilian Government was outlined in the following cablegram received from Brazil by the New York Coffee & Sugar Exchange:

York Coffee & Sugar Exchange: Considering necessity conciliate Brazil's coffee situation with that of other competing countries, thus giving it just position in export trade and considering that such conciliation is impossible through the establishment of production quotas and price parities with other countries, the Federal Government resolved to base its external policy relative to coffee in the sense of open competition. To avoid prejudicing farmers' interests it has become indispensable to take adequate measures including the reduction of tratation. Brazil's position for that purpose is entirely satisfactory as the re-cent coffee convention which is now in full execution has reduced the amount present crop offerable to consuming markets to 30% only. Such a reduction taken together with the actual exchange position will assure remunerative prices internally while the reduction of taxation will likewise operate in the same sense aided by banking assistance which the Federal Government will adopt. Such measures while strengthening resistance in international com-petition will normalise the position of export trade making either direct or indirect intervention of the national coffee department unnecessary. The indispensable period between resolutions and full action would give rise to speculations which possibly would prejudice the Federal Government's objectives and therefore made it necessary to close the Rio, Santos and Victoria bolsas temporarily. The following is from the New York "Times" of Nov. 4:

The following is from the New York "Times" of Nov. 4: According to trade estimates yesterday, the proposed 75% reduction in the tax of 45 milreis to the bag on coffee would mean that the price of coffee would be reduced about \$3.05 a bag, or 1¼ cents a pound. The effective date of such a measure, however, depends upon legislation in the matter. Control of the price of coffee by Brazil through the limitation of exports, destruction of low grades, intervention in the local coffee markets and various means has continued, without substantial deviation, by the State of Sao Paulo since 1923 and by the Federal Government since 1930. Federal authority over coffee was vested in the National Coffee Department shortly after the revolution of 1930, and it resulted in the downfall of the Luis government and the ascendancy of the present Vargas group. Brazil's first valorization plan in 1906, aided by short crops, came to a financially successful conclusion. For the last ghirteen years, however, destruction of offee has mounted, but prices have continued downward. In the Autumn of 1920 the price of Santos coffee fell from above the 20-cent level to the 12-cent level, and a low of 7 cents a pound was touched in 1933. The highest price since that date was the 11½ cents touched early this year following the Bogota conference, which gave promise of help for Brazil from other producing nations. However, for some time Colombia and other Central and South American contrise have been making serious inroads into Brazil's share of the world coffee market, and increased production by British possessions in Africa has also added to her troubles. The following is from the New York "Times" of Nov. 4:

has also added to her troubles. **Cocoa**—On the 30th ulto. futures closed 2 to 6 points net lower. The opening range showed gains of 5 to 9 points. As a result of moderate profit-taking these gains were sub-sequently erased, and with no substantial support, prices closed below the previous finals. Transactions totaled only 139 lots, or 1,963 tons. London reflected our strength here Friday and early Saturday, outside prices closing 6d. to 9d. higher, while futures on the Terminal Cocoa Market ruled net 6d. to $10\frac{1}{2}$ d. better, with 940 tons trading. Local closing: Nov., 6.23; Dec., 6.23; Jan., 6.21; May, 6.29;

Chronicle Nov. 6, 1937 July, 6.38; Sept., 6.45. On the 1st inst. futures closed 5 to 9 points net lower. Opening sales were at gains of 2 to 6 points over the previous finals. Transactions totaled 246 lots or 3,296 tons. London came in 3d. to 6d. easier on the outside, while futures on the Terminal Cocoa Market ran net 4½d. to 6d. lower, with 1,030 tons trading. Local closing: Nov., 6.18; Dec., 6.18; Jan., 6.13; March, 6.13; May, 6.20; July, 6.29; Sept., 6.36. On the 3d inst. futures closed 30 to 31 points net lower. Influenced by the weakness of securities and other commodities, cocoa futures broke sharply under moderate liquidation. Opening sales had been at losses of 6 to 10 points. Transactions totaled 281 lots, or 3,765 tons. London came in 1s. 3d. to 1s. 9d. weaker on the outside and 1s. 7½d. to 2s. 1½d. lower on the Terminal Cocoa Market, with 230 tons trading. Local closing: Nov., 5.87; Dec., 5.87; Jan., 5.83; March, 5.82; May, 5.90; July, 5.98; Sept., 6.06. On the 4th inst. futures closed 6 points lower to 3 points higher. Opening sales were at no change to a loss of 10 points. Transactions totaled 382 lots or 5,119 tons. London came in unchanged to 3d. higher, while futures on the Terminal Cocoa Market, were an 11/2d. lower to 6d. higher while futures on the Terminal cocoa futures to 3d. higher while futures on the Terminal cocoa Market, and the down to 10 points lower to 3 points higher. Opening sales were at no change to a loss of 10 points. Transactions totaled 382 lots or 5,119 tons. London came in unchanged to 3d. higher while futures on the Terminal cocoa Market to 3d. higher to 6d biobar with

points. Transactions totaled 382 lots or 5,119 tons. London came in unchanged to 3d. higher, while futures on the Ter-minal Cocoa Market ran 1½d. lower to 6d. higher, with 1,170 tons trading. Local closing: Nov., 5.81; Dec., 5.81; Jan., 5.81; March, 5.81; May, 5.88; July, 5.98; Sept., 6.09. 'I'oday futures closed 2 to 5 points up. Sales totaled 183 con-tracts. 'Iraders short of cocoa covered today, while trade and foreign interests also were buyers. As a result the market advanced 10 to 12 points, with December going to 5.92c., up 11 points. Trading was fairly active, reaching 150 lots to early afternoon. There were virtually no West Atrica offerings nor sailings of cocoa cargoes. Reports from manufacturers state that the decline in the price of cocoa has stimulated sales of chocolate candies. Warehouse stocks decreased 7,300 bags. They now total about 1,299,000 bags. Local closing: Dec., 5.83; Jan., 5.83; March, 5.83; May, 5.93; Sept., 6.11. Sugar—On the 1st inst. futures closed unchanged to

decreased 7,300 bags. They now total about 1,299,000 bags. Local closing: Dec., 5.83; Jan., 5.83; March, 5.83; May, 5.93; Sept., 6.11. **Sugar**—On the 1st inst. futures closed unchanged to 1 voint up. Reflecting the higher prices vaid for spot raws, domestic sugar futures were firmer in Monday's market despite rather narrow trading. Transactions totaled 4,150 tons. The spot market moved up 5 points today (Monday) when it was announced that Arbuckle had bought at the week-end 23,000 tons of Cubas, prompt, at 2.32c. Sellers generally were asking 3.25c. for duty frees, with Cubas, Puerto Ricos and Philippines offering at that figure on Monday. It was reported that there was buying interest in the market at 3.22c. for the "right positions." The world sugar contract was without any particular feature outside of the fact that transactions were limited to the March posi-tion, with 250 tons traded at 1.12c. and 300 tons at 1.12c., these trades constituting the entire volume for the day on sales of only 1,000 tons. Raws were quoted in the London terminal market at 68. 3¾d. per cwt. On the 3d inst. futures closed unchanged to 2 points net lower. The market's opening was unchanged from the previous close. Transactions totaled only 1,000 tons. Notwithstanding in-creasing activity and signs of greater firmness in the market for actuals, domestic futures continue in the doldrums, very little interest being evident on the part of traders. The market for raws was a confusing affair today (Wednesday). McCahan during the day bought two lots of 1,000 tons each Philippines, due late November-early December at 3.22c. The same buyer on Monday picked up 10,500 bags of Puerto Ricos of next year's quota and 1,500 bags of this year's quota, both for second half November shipment, at same figure. Considerable surprise developed when it was re-ported late today that American had bought, late last week, a cargo of Puerto Ricos, for prompt shipment at 3.25c. The world sugar contract was off 1 to 3 points, with sales totaling 2,050 tons. L

totaling 2,050 tons. London futures were ½ to 1d. lower, while raws there were offered at 6s. 2¼d. per 100 pounds, a reduction of ¾d. On the 4th inst. futures closed 4 points up to unchanged. The 4 points gain was in the spot month. The market showed slight net gains after it had started upward in early trading on misinterpretation of an A.A.A. ruling that quota deficiencies of foreign countries other than Cuba might not be reallotted. Prices ran up 4 points on the initial report, but these gains were lost when a more complete report of the A.A.A. announcement made it evident that only a small amount of sugar was involved. The market rallied slightly near the close. Two transactions were reported in the market for raws, Rionda buying 35,000 bags Cubas, second half Nov. shipment at 2.35c., and McCahan buying 1,575 tons of Philippines, due to arrive Dec. 8th, at 3.22c. Offer-ings were in the market at 3.25c. and up at the close, with buying interest reported at 3.22c. for specified arrival positions. The world sugar contract closed unchanged to 1 point lower, with March selling most of the day at 1.09c. Transactions in this contract were 2,000 tons for the day. London futures were ¼d to 1d lower, with spot raws there offered at 6s 1½d. Today futures closed unchanged to 1 point up in the domestic contract, with sales totaling 26 1 point up in the domestic contract, with sales totaling 26 1 point up in the domestic contract, with sales totaling 26 1 point up in the domestic contract, with sales totaling 26 1 point up in the domestic contract. A start sales to a staling 26 1 point up in the domestic contract, with sales totaling 26 1 point up in the domestic contract, with sales totaling 26 1 point up in the domestic contract, with sales totaling 26 1 point up in the domestic contract, with sales totaling 26 1 point up in the domestic contract, with sales totaling 26 1 point up in the domestic contract, with sales totaling 26 1 point up in the domestic contract were 2.35 cents. A good deal of the buying was believe

American bought 4,300 tons of Cubas, now loading, at 2.35 cents, equivalent to 3.25 cents duty paid, a new high for the recovery. National purchased 3,928 tons of Puerto Ricos late Nov. delivery at 3.23 cents. Further offerings at 3.25 and up were available. World sugar contracts were 1 point higher with March at 1.10 cents. In London futures were upachanged to 1/d higher unchanged to 1/4d higher.

Closing Quotations were as	s follows:
July 2.3	91.January2.34
December 2.3	4 March2.34 4 May

Statement of Sugar Statistics of AAA Covering First Nine Months of 1937—Increase Shown in Deliveries as Compared with Year Ago

as Compared with Tear Ago The monthly sugar statistical statement covering the first nine months of 1937, consolidating reports obtained from cane refiners, beet sugar processors, importers and others, was issued on Nov. 2 by the Sugar Section of the Agri-cultural Adjustment Administration, which said:

cultural Adjustment Administration, which said: Total deliveries of sugar during the first nine months of 1937 amounted to 5,373,773 short tons, raw value. Deliveries during the same period last year, in terms of raw sugar value, totaled 5,039,183 short tons. (The total refiners' deliveries for domestic consumption during 1937 are con-verted to raw value by using the factor 1.0571, which is the ratio of refined sugar produced to meltings of raw sugar during the years 1935 and 1936.) Distribution of sugar, in form for consumption, during the period January-September, 1937, was as follows: By refiners, 3,552,385 short tons (deliveries shown in Table 2, less exports); by beet sugar factories, 910,708 short tons (Table 2); by importers, 521,476 short tons (Table 3); and by continental cane sugar mills, 80,477 short tons (Table 4). These deliveries, converted to raw value, total 5,373,773 short tons. Stocks of sugar on hand Sept. 30 were as follows: Raw sugar held by refiners, 146,734 short tons; refined sugar held by refiners, 298,967 short tons: These stocks, converted to raw value, equal 732,593 short tons as compared with 1,113,663 short tons on the same date last year. Such stocks do not include raws for processing held by importers other than refiners.

refiners. IThe data, which cover the first nine months of the year, were obtained in the administration of the Sugar Act of 1937, approved Sept. 1, 1937, which requires the Secretary of Agriculture to determine consumption require-ments and establish quotas for the various sugar producing areas. This Act replaces the Jones-Costigan Act and Public Resolution No. 109, approved June 19, 1936. The statement of charges against the 1937 sugar quotas during the first nine months of the year was released on Oct. 5. This statement given in our issue of Oct. 16, page 2469, Ed.

The statistical statement of the AAA Sugar Section follows:

Complied in the AAA Sugar Section from reports and information submitted on orms SS-15B and SS-3 by importers and distributors of direct-consumption sugar. a Includes sugar in bond and in customs' custody and control.

to 80,477 tons, in terms of refined sugar, during the first nine months of 1937. Lard—On the 30th ulto. futures closed unchanged to 2 points higher. The market ruled steady during most of the session, though trading was light. The hog market was quiet, but steady. Total receipts for the Western run were 9,900 head against 16,700 head for the same day last year. Liverpool lard futures closed for the same day last year. On the 1st inst. futures closed 7 to 15 points net higher. The opening price range was 17 to 20 points higher than the previous finals. There was a setback from these levels of 7 to 10 points as a result of profit-taking. The market rallied and alread with substantial part carins. Chicagea lard stacks On the 1st inst. futures closed 7 to 15 points net higher. The opening price range was 17 to 20 points higher than the previous finals. There was a setback from these levels of 7 to 10 points as a result of profit-taking. The market rallied and closed with substantial net gains. Chicago lard stocks decreased 29,471,000 pounds during October. Total lard stocks at Chicago on Nov. 1 were 20,265,000 pounds, against 49,736,000 pounds on Oct. 1 and 62,335,000 on Nov. 1, 1937. Lard supplies during the past three or four months have been decreasing rapidly, due to the heavier domestic consumption, lighter lard production, and recently the export demand has shown a little improvement. The hog market today (Monday) was quite firm and prices at Chicago closed 10c. higher, and on Tuesday further gains were recorded, with quotations ending 10c. to 15c. higher. The top price reported on Tuesday was \$9.65. Liverpool lard on Tuesday ended quiet, with prices unchanged to 6d. lower. On the 3d inst. futures closed 2 to 7 points and futures responded to this buying, advancing 7 to 10 points on the nearby deriveries, which proved to be the highs of the day. Moderately heavy export shipments of lard were reported from the Port of New York over the holiday. It was learned that 263,130 pounds cleared for London and Liverpool. Liverpool lard futures closed 6d. higher on all deliveries. Chicago hyperbol head, against 70,700 head for the same day last year. On the 4th inst. futures closed 10 to 20 points net higher. To the the set of 0.500 prices ranged higher throughout the session, and values at the close were 10 cto 20c. higher. The two price reported from \$9.15 to \$9.70. Total receipts for the Western run were 50.900 head, against 70,700 head for the same day last year. On the 4th inst. futures closed 10 to 20 points net higher. Heavy export shipments of lard were reported from the Port of New York to-day, 793,773 pounds of lard being recorded as the amount, this lard destined for the United Kingdom. Packers continued to

Rubber—On the 30th ulto. futures closed 16 to 35 points net higher. Futures continued to advance today (Saturday), while the outside market was quiet. Again market fluctua-tions were very wide. Prices started 16 to 40 points higher, sold off some 30 points from the higher in the active deliveries, but resumed the advance and closed substantially net higher

<text><text><text><text>

March, 14.90; May, 14.95; July, 15.04; Sept., 15.14.
Hides—On the 30th ulto. futures closed 17 to 22 points net lower. The opening range was unchanged to 15 points off from Friday's finals. Transactions totaled 1,720,000 pounds. No change was reported in the domestic spot hide market. Local closing: 1938, Dec., 11.98; March, 12.30; June, 12.56; Sept., 12.87. On the 1st inst. futures closed 31 to 38 points net lower. The market opened from 18 to 36 points off from the previous close. Transactions totaled 3,960,000 pounds. The domestic spot market continues dull and without developments of any kind. Local closing: Dec., 11.00; March, 11.95; June, 12.25; Sept., 12.56. On the 3d inst. futures closed 84 points net lower. The market broke sharply today in the heaviest turnover recorded in some time. Opening from 22 to 35 points lower, the list continued to fall off rather sharply under selling believed to have been encouraged by the break in securities. Transactions totaled 8,400,000 pounds. There was little or no change in the domestic spot hide situation. Local closing: Dec., 10.76; March, 11.11; June, 11.41; Sept., 11.72. On the 4th inst. futures closed 1 point decline to 3 points up. The market opened with declines of 2 to 36 points and the list ruled weak until the news of the Swift announcement worke.

On the 4th inst. futures closed 1 point decline to 3 points up. The market opened with declines of 2 to 36 points and the list ruled weak until the news of the Swift announcement broke. Then the active positions tightened considerably. Trading around the ring was highly active during the greater part of the day. Transactions totaled 5,760,000 pounds. All indications point to a break in the prolonged deadlock between the big four packers and large tanner manufacturers, it was learned on good authority today. Swift & Co., it is reported, has decided to offer only a week's take-off of hides at a time and will hold back the balance of their hides until the market can absorb them without unduly disturbing the situation. It was reported that Swift is now offering October hides at 16½c. a pound for light native steers, 16c. for butt brands; 15½c. for Colorados; 13c. for light native cow hides, the basis grade for trading in hide futures and 12¾c. a pound for branded cows. Local closing: Dec., 10.79; March, 11.12; June, 11.40; Sept., 11.71. Today futures closed 24 to 29 points net lower. Sales totaled 176 contracts. Raw hide futures were firmer on news that a large Chicago packer was offering 50,000 October hides at concessions from previously asked prices. By early after-noon the market was 33 to 39 points higher, with December at 11.18, up 39 points. Sales to that time totaled 1,840,000 pounds. Local closing: Dec., 10.50; March, 10.85; June, 11.16; Sept., 11.47. Ocean Freights—The demand for tonnage continues

Ocean Freights—The demand for tonnage continues moderately active at fairly steady rates. Charters in-cluded: Grain Booked: Two loads, Montreal to Rotterdam,

November, 25c. Two loads, Montreal to Antwerp, November, 25c. Four loads, New York to Glazgow, November, 4s. Three loads, New York to Liverpool, November, 4s. Ten loads, New York to Avonmouth, January, 4s 3d. Nine loads, New York to Mediterranean, November, 25c. Thirteen loads, Montreal to Antwerp, first half November, 25c. Scrap: Atlantic range to United Kingdom, November, 26s. Gulf to Gydnia, December-January, 31s on port, 32s two ports loading. Gulf to Gydnia, December, 31s 6d. Sugar: Cuba to United Kingdom-Continent, first half December, 26s. 26s.

Coal—The impending higher railway rates on bituminous, expected to become effective around November 10th, explain the current high rate of production, and the trade believes that it will continue up to that time in order to move as much tonnage at present rates as storage facilities will permit. After showing a tendency to fall off last week, anthracite sales at large have picked up again in the Eastern territory with more favorable weather, but it is evident that a spell of colder weather is greatly needed by the local trade to accelerate a more normal movement. Dealers are believed in most cases to be well stocked with shipments previously ordered from mines in anticipation of current needs. Anthracite production until recently has been main-tained at a rate substantially ahead of last year.

tained at a rate substantially ahead of last year. Wool—The wool situation has not changed very materially the past week. It is stated that manufacturers have plenty of wool to keep them going on current restricted manufac-turing operations, and no turn for the better in wool demand is expected until after the turn of the year. It is asserted that lower prices available here and there have not brought about any real expansion in mill purchasing. Wools have been declining steadily on small sales since August, and yet during this time the amount of wool actually sold is estimated to not exceed 1,000,000 pounds. Falling wool prices, rather sharply accentuated of late, have not yet seriously affected the attitude of large growing interests in the Far West, but in Texas dealers have found the situation there less positive regarding values, and have been able to pick up average wools at low prices. Wool growers, who in all sections of the country sold wool early are now realizing the wisdom of their action. A substantial volume of wool is still held on consignment, according to well informed sources, but there appears no disposition by those responsible for its marketing to meet the lower priced sales market now current despite the almost steady fall of markets generally and the seemingly bearish outlook that is presented. Silk—On the 1st inst. futures closed 1c. to 4c. net lower.

marketing to meet the lower priced sales market now current despite the almost steady fall of markets generally and the seemingly bearish outlook that is presented.
Silk—On the 1st inst. futures closed 1c. to 4c. net lower. The market started with losses of 1½c. to 3c. under Friday's close. Transactions totaled 940 bales. Japanese markets were reported relatively steady. No change marked grade D, this holding at 770 yen. Bourse quotations at Yokohama and Kobe ran respectively 3 yen higher to 4 yen lower and 2 to 6 yen easier. Cash sales totaled 1,475 bales. Local closing: Nov., 1.631½; Dec., 1.62; Jan., 1.50; March, 1.551½; May, 1.551½; June, 1.541½. On the 3d inst. futures closed 1/2c. to 2c. net lower. Transactions totaled only 420 bales. The decline in the securities markets together with the bearish sentiment that prevails generally, appeared to have a depressing effect on this market. Japanese markets were closed because of a holiday, but showed softness on Tuesday, which was a holiday here. On that day grade D moved down 71½ to 10 yen, going to 7621½ and 760 yen at Yokohama and Kobe. Futures on these markets ranged respectively 2 to 8 and 1 to 9 yen lower. Cash sales at these centers totaled 1,025 bales, while transactions in futures totaled 3,025 bales. Local closing: Nov., 1.63; Dec., 1.60; Jan., 1.57; March, 1.54; May, 1.54; June, 1.53.
On the 4th inst. futures closed unchange. Grade "D" at Yokohama showed a loss of 10 yen, while at Kobe Grade "D" was 12½ yen lower. Bourse prices at Yokohama were 13 to 16 yen lower and at Kobe 2 to 7 yen lower. Local closing: Nov., 1.63, Low 1.571½; March 1.551.
May 1.531½; June 1.53. To-day futures closed unchanged to 1 2/2 cents up. Sales totaled 16 contracts. Raw silk futures totaled 1,024 yen lower and at Kobe 2 to 7 yen lower. Jocal closing: Nov. 1.631½; Dec. 1.601½; Jan. 1.571½; March 1.551 May 1.531½; June 1.53.
May 1.531½; June 1.53. To-day futures closed unchanged to 1/2 cents up. Sales totaled 16 contracts. Raw silk futures tota

Speculation in cotton for future delivery during the past week was moderately active, with price trend distinctly downward. The situation presents little of encouragement to those friendly to the upward side. It is asserted that unless there is a change in price trend, farmers will have

week was moderately active, with price trend distinctly downward. The situation presents little of encouragement to those friendly to the upward side. It is asserted that unless there is a change in price trend, farmers will have placed around 5,000,000 bales of cotton in the government loan by the turn of the new year. On the 30th ulto, prices closed 7 to 8 points net lower. The volume of trading improved somewhat, but the increase was largely at the expense of prices. Values moved within a relatively narrow range, the market continuing in more or less of a rut. The selling was more active, with increased hedging from the South, where the spot basis was easier. It could not be determined whether this was due to any change of heart on the part of farmers in regard to placing their cotton in the Government loan, or whether it was the result of poor domestic and export demand for spot cotton. More contracts were available, and aside from increased differs from the South, there was more liquidation both through commission houses and from abroad. As a result of this pressure the market displayed considerable heaviness during most of the session. Prices were still well below the Government level. Proposed farm legislation was under discussion in Washington, but nothing of a definite character occurred to indicate what particular form the proposed farm bill will eventually take. Southern spot markets, as offi-cially reported, were 5 to 10 points lower. Average price of middling at the 10 designated spot markets was 8.03e. On the 1st inst. prices closed 9 to 17 points net lower. This closing range represented the lows of the day. Long liqui-dation, liquidation of December contracts, selling of distant months by Bombay interests undoing straddles, increased hedge offerings and reports of a weaker basis in the South were factors in the decline. The trade took contracts on the scale-down, and short covering created a steady undertone as the market price than their Government loan value. Lower spot values carried New Yo

and a further weakening of the spot basis. At any rate, December liquidation included exchanging from December to later months. December lost more than \$1 a bale, and differences experienced a further readjustment with the trend of the market more definitely toward a carrying-charge basis. A local trade paper in its November crop estimate indicated a probable yield of 18,109,000 bales, compared with its estimate last month of 17,250,000 bales, compared with its estimate last month of 17,250,000 bales. Southern spot markets, as officially reported, were 16 to 25 points lower. The average price of middling at the 10 designated spot markets was 7.66c. On the 4th inst. prices closed unchanged to 3 points lower. During the early session the market showed de-clines of 6 to 8 points, due to lower Liverpool and Bombay markets and pressure of domestic and foreign liquidation, with moderate hedge selling. A rally in the stock market seemed to stiffen the cotton market, causing considerable short covering. In this reaction to the up-side prices re-covered a good portion of the early losses. Volume of trad-ing, however, was comparatively small. Conditions in the market remained practically unchanged. The recent decline was said to have resulted in more active efforts of farmers to obtain government loans, and some insisted that unless

there is a change in price trend farmers will have placed around 5,000,000 bales of cotton in the loan by the turn of the new year. Spot demand continued quiet, and the recent decline in the spot basis made it evident that cotton offered for sale in the open market was not finding a ready demand. Average price of middling at the 10 designated spot markets was 7.65c.

Today prices closed 10 to 9 points up. Futures still showed improvement in the late afternoon in quiet dealings. showed improvement in the late afternoon in quiet dealings. The turnover was small and limited, and dealers appeared to be awaiting some further developments before entering into any new commitments. By the start of the last hour active positions were 7 to 9 points above the previous clos-ing levels, with December quoted at 7.73, up 9 points. Prices were steady in a quiet market at Liverpool. Some hedge selling, principally in the distant months, was attrib-uted to leading spot houses. On the other hand, there was buying by the trade, Liverpool and Wall Street. The gains made at the opening held fairly well throughout the morning, and there was scattered price-fixing in all active deliveries. There were reports of a marked increase in inquiries for spring delivery goods, although the volume of business was not large. of business was not large.

New York Quotations for 32 Years

The quotations for middling upland at New York on Nov. 5 for each of the past 32 years have been as follows:

Continental imports for past week have been 165,000 bales. The above figures for 1937 show an increase over last week of 215,529 bales, a gain of 454,000 over 1936, an increase of 953,342 bales over 1935, and a gain of 265,234 bales over 1934.

At the Interior Towns the movement—that is, the receipts for the week and since Aug. 1, the shipments for the week and the stocks tonight, and the same items for the corresponding period of the previous year—is set out in detail below:

India's 1937 Cotton Acreage Estimated at 20,715,000 Acres—The Bureau of Agricultural Economics. United States Department of Agriculture, recently received a cable-gram from the Director of Statistics at Calcutta reporting the revised estimate of India' 1937 cotton acreage at 20,715,-000 acres. This compares with a revised estimate of 20,-481,000 acres at this time last year and a final estimate for 1936 of 25,219,000 acres.

Record Cotton Crop in China of 4,000,000 Bales Anticipated, According to Report to Bureau of Agricultural Economics—In a report from Shanghai made public on Oct. 22 by the Bureau of Agricultural Economics, United States Department of Agriculture, it was reported that China will have a record cotton crop of 4,000,000 bales despite military operations and heavy rains, it is learned from Washington advices, Oct. 22, to the New York "Times" of Oct. 23, which added: The cron previously had been predicted at 4.200.000 bales. Because

"Times" of Oct. 25, which added. The crop previously had been predicted at 4,200,000 bales. Because of the interference with the normal movement of the crop to milling centers dealers at interior points are buying for local storage at low prices, this report said. It is reported that the Central Government is preparing to establish a Government-controlled holding organization to buy cotton from producers at fixed prices. Such purchases would be stored at interio points until normal conditions returned. Mills at spinning centers wer said to be virtually at a standstill. Because

Twenty-three Elected to Membership in New York Wool Top Exchange—At a meeting of the Board of Gov-ernors of the New York Wool Top Exchange held Nov. 1, the following were elected to membership:

Sidney Albert Eiseman, Treasurer of Eiseman, Inc., of Bostón, wool commission merchants; Philip Leff, President of the National Spinning Co., inc., Brooklyn, N. Y., manufacturers of worsted yarns; Herbert Garretson of Royer & Garretson of Philadelphia, wool merchants; Simon Waters of Boston, wool brokers and commission merchants; Walter Roy Somers, Treasurer of Akroyd Bros., Ltd., of Boston, wool merchants;

Richard M. Ott of Wm. G. Davisdon & Co. of Boston, wool merchants; Ralph J. Keltie, President and Treasurer of Keltie & Co., Inc., of Boston, dealers in wool noils and by-products; Charles K. Beatty, President of Beatty & Gorham, Inc., of Boston, wool dealers; Ralph H. Lindsay, President and Treasurer of R. H. Lindsay Co. of Boston, wool dealers; Freident and Treesenger & Nilsson of Boston, wool dealers; John R. Reilly of Boston, wool merchant; James A. Callard, President and Treasurer of James A. Callard Co. of Boston, wool dealers; Ralph Waldo Conant, President of Emery & Conant Co., Inc., of Boston, wool merchants; Thomas C. Thacher Jr. of Hallowell, Jones & Donald of Boston, wool merchants; Ronald W. Cordingly, associated with Cordingley & Co., Inc., of Boston, wool merchants; Harry J. Blake, President of Blake & Kendall Co., Boston, wool merchants; Robert B. Hackett, associated with Nichols & Co., Inc., Boston, wool merchants; Rames Stevens, Treasurer of the Ames Worsted Co. of Lowell, manufacturers of worsted yarns and cloths; Ranson E. Smith, President and Treasurer of Worsted Co. of Watertown, R. 1. manufacturers of worsted yarns; Harry N. Bloomfield, President of Harry M. Bloomfield & Co., Boston, wool mer-chants, and B. Wm. Richardson, Secretary and Treasurer of Colonia Wool Co., Boston, wool merchants.

Wool Co., Boston, wool merchants. Three Elected to Membership in New York Cotton Exchange—At a meeting of the Board of Managers of the New York Cotton Exchange held Nov. 4, Scully C. Pecot of Fenner & Beane, New York City, who do a stock and commodity business; Kanjibhai Vithaldas Parekh of Kal-yanji & Co. of Bombay, India, who do a commission business, and Ramdas Kilachand of Kilachand Devehand & Co., Ltd., of Bombay, India, cotton merchants, were elected to membership in the Exchange. Mr. Pecot is also a member of numerous other commodity exchanges. Mr. Parekh is a member of the East India Cotton Association, Ltd. Mr. Kilachand is also a member of the East India Cotton Association, Ltd.

Weather Reports by Telegraph—Reports to us by tele-graph this evening denote that nearly everywhere in the cotton belt the gins are now running only on stated days of each week. With no unfavorable change in the weather cotton is not grading so excessively low as expected.

Receipts from the Plantations—The following table indicates the actual movement each week from the planta-tions. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week	Receipts at Ports			Stocks	at Interior	Received from Plantations			
Ended-	1937	1936	1935	1937	1936	1935	1937	1936	1935

BREADSTUFFS

Friday Night, Nov. 5, 1937

Flour—Flour prices continued their downward trend, the standard bakery patents going to new seasonal lows again as 10c. was taken off the list. Advertised brands of family flour are also down another 10c. No change was made in semolina. Mill offices report a general lack of buying interest. The current trend of grain prices has so unsettled the trade that there is little disposition to book ahead.

Wheat—On the 30th ulto. prices closed ¼c. off to ½c. up. The news from the Argentine was the chief factor in the wheat market's improvement today (Saturday). Advancing prices in the Argentine, stimulated, apparently, by reports of frost there, together with a strong Winnipeg market, caused Chicago wheat values to snap back after their lower opening. The market throughout most of the session showed e steady undertone though prices did not fluctuate very caused Chicago wheat values to snap back after their lower opening. The market throughout most of the session showed a steady undertone, though prices did not fluctuate very widely. The Winnipeg market led the upturn, which ap-peared to be held in check on the Chicago Board by failure of real buying power to expand. Winnipeg closed $1\frac{1}{4}c$. to $1\frac{1}{2}c$. higher and Buenos Aires was $1\frac{3}{6}c$. to $1\frac{5}{6}c$. up. A cheering item of news to buyers was a report of overnight North American export sales of around 400,000 bushels, including 160,000 of soft white Pacific Coast wheat to the United Kingdom together with gossip that some domestic No. 3 mixed wheat had been sold to Spain. On the 1st inst. prices closed unchanged to $\frac{1}{2}c$. off. During the early session the market held fairly steady, influenced by stronger Liver-pool quotations and the report that Southern Hemisphere crop advices were not altogether favorable. However, a reaction followed the announcement of an increase of 1,598,-000 bushels in the amount of wheat afloat for importing countries. Besides, bearish traders laid stress on the big surplus of wheat being built up in this country. It was pointed out that domestic primary receipts of wheat last week totaled 5,398,000 bushels, or 500,000 larger than the week before and nearly 2,000,000 above the corresponding week a year ago. Another handicap to a wheat advance came from downturns of securities. Special notice was taken of reports that processing taxes on wheat and other com-modities were being deliberated upon. Large world shipcame from downturns of securities. Special notice was taken of reports that processing taxes on wheat and other com-modities were being deliberated upon. Large world ship-ments of wheat, with no evidence that North American wheat exports had broadened materially, acted also as an adverse influence, On the 2d inst. prices closed 1½c. to 2½c. net lower. Fluctuations in the wheat market on the Chicago Board closely approached the sensational. Wheat values tumbled at times more than 2½c. Proposed enactment of 20c. a bushel United States processing tax on wheat, together with disappointing smallness of North American wheat ex-20c. a bushel United States processing tax on wheat, together with disappointing smallness of North American wheat ex-port business, did much to pull wheat values down. European takings of wheat from North America today (Tuesday) were estimated at but 300,000 bushels, and no sales of domestic wheat to overseas received any mention. Almost the season's bottom price record for wheat was equaled today. Chicago July wheat sold at 88½c. and came within ½c. of the pre-vious low. December wheat, however, showed the greatest relative setback, falling 25%c. overnight to 93¾c., and recovering at the last to 94c. bid, offered at 94½c. On the 3d inst. prices closed 1¾c. to 2¼c. net lower. This sharp drop was due to the weakness of the stock market and the poor export demand for wheat from North America. Another item adding considerably to bearish sentiment was the report that well-informed observers estimate domestic winter wheat that well-informed observers estimate domestic winter wheat plantings about equal to last year's big aggregate. New export purchases of North American wheat totaled hardly 300,000 bushels, including a little domestic soft wheat from the Pacific Coast, but no hard winter grades. With stop-loss

selling orders flooding the market, rallies of wheat values were at no time more than fractional on the Chicago Board. Trade authorities said the price downturns reflected trade uncertainty as to future developments in all directions, including legislative. The collapse in prices today brought wheat to the lowest levels reached. in some cases, since 1935, today's maximum drop being 3c. a bushel.

today's maximum drop being 3c. a bushel. On the 4th inst. prices closed 1½ to 2%c. off. Bearish developments continued to dominate values. The persistent smashing of the season's low price records seemed to accentuate the bearish outlook, wheat tumbling again more than 2½c. on the Chicago Board today, sending the price down 42c. under the season's peak. Official suggestions of the likelihood that a surplus of more than a million bushels of domestic wheat crop are in prospect for 1938 did much to plunge values lower. Besides, scantiness of export demand for wheat from North America was emphasized more than ever. The persistent weakness of securities also served as an adverse influence. Figures showing large export wheat shipments out of Russia, about double those of a year ago, added to the downward momentum of prices here, with the market showing but little rallying power toward the close.

the close. Today prices closed 1¼ to %c. off. After a firm morning session, when prices rose on Argentine crop news, the market slipped gradually lower, finally ending substantially below the previous finals. Reports that frosts in Argentina appeared to have caused more crop damage than was supposed, gave a material lift to Chicago wheat prices early today. Liverpool wheat quotations, higher than due, counted also as a stimulus to the market here. However, pressure was too heavy for the market in the later trading. Open interest in wheat was 109,677,000 bushels.

Corn—On the 30th ulto. prices closed ¼ to ½c. down. A decline of as much as 1½c. a bushel in December corn was a reflection of big receipts in Chicago, and the deferred deliveries also reflected the influence of these heavy receipts. Officially inspected receipts totaled 319 cars, and in some quarters the heaviest arrivals of the season were looked for Monday, some traders anticipating around 1,000 cars. Cash corn declined 1 to 3c. today (Saturday). There were indications of a lighter export demand for corn, but it was understood that Germany purchased a cargo overnight. It was estimated that Germany has taken almost 3,000,000 bushels of United States corn. On the 1st inst. prices closed unchanged to ¼c. off. The heaviest primary arrivals of the season to date, together with liberal offerings of corn at the lowest basis yet, operated as a drag on the corn market. Today's corn receipts at Chicago (627 cars) were not as large as in some quarters had been expected, but large receipts tomorrow were anticipated. A countering influence, however, was the report that 400,000 bushels had been sold for Gulf of Mexico shipment to Rotterdam. On the 2d inst. prices closed unchanged to 1½c. higher. This grain received quite a stimulus today from assertions that Govern ment corn loans on a basis of 30 cents a bushel had been practically decided upon today (Tuesday). General expectation has been that Government loans on corn this season would be on a basis of around 45c., and trade authorities said that because of the proposed higher rate, 50c., many farmers would now be inclined to hold back their corn, so that corn receipts might likely be curtailed instead of increasing. On the 3d inst. prices closed 3‰c. off to 3‰c. up. The corn market displayed relative firmness owing to expectation of a 50c. a bushel Government loan value for corn. On the other hand, corn export demand was at least temporarily halted. The average of the November private crop estimates placed corn production at 2,636,000,000 bushels, an in

On the 4th inst. prices closed $\frac{1}{5}$ to 1c. net lower. Restrictions announced as to the government corn loan plan had a bearish influence, and so likewise did weather favorable for maturing of new corn. Today prices closed $\frac{7}{5}$ c. off to unchanged. This market was easier in sympathy with wheat. Open interest in corn was 45,714,000 bushels.

Weather Report for the Week Ended Nov. 2.—The general summary of the weather bulletin issued by the Department of Agriculture, indicating the influence of the weather for the week ended Nov. 2, follows:

<text><text><text><text><text><text><text><text><text>

in the field in the northeastern portion of the belt, but harvesting is now making progress rapidly. The Weather Bureau has furnished the following resume of conditions in the different States: *Virginia*—Richmond: Temperatures averaged slightly below normal; rainfall moderate to heavy. Unfavorable for plowing and sowing wheat in central and west; early plantings up. Late planted southeastern truck looking good. Most peanuts harvested. Meadows and pastures good. Picking apples continues. *North Carolina*—Raleigh: Picking cotton good advanc and about three-fourths gathering corn, except some bottoms too wet. Seeding small grains delayed in west by wet soil, but good progress in other parts. Fall truck needs more rain in southeast. *South Carolina*—Columbia: Temperatures averaged near normal; fair generally. Favorable for housing corn and minor crops; work about completed. Soil still too wet locally to complete digging sweet potatoes and ginning cotton fair advance in north, though considerable open bolls and ginning cotton fair advance in north. *Eavorable for housing corn* and growing well. Picking and ginning cotton fair advance in north. *Eavorable for housing corn* but advance and approaching completion of an eavon in south action fair advance in north. *Eavorable for housing corn* bold advance and approaching completion of a season over in south.

fields in some places. Georgia—Atlanta: Picking cotton good advance and approaching com-pletion in north; season over in south. Favorable for corn harvest. Ground too wet for sowing grain in northeast, but conditions favorable elsewhere; come oats coming up in south. Good progress in digging sweet potatoes. Cabbage, collards and turnips doing well. Sugar cane harvest and sirup making in progress.

Cabbage, collards and turnips doing well. Sugar cane harvest and strup making in progress. Alabama-Montgomery: Moderate temperatures and light rains. Cot-ton picking practically finished. Corn harvest beginning in north and well advanced elsewhere. Digging good crop of sweet potatoes and making sirup. Planting oats and cover crops, previously delayed by wet soil, made good progress during week. Mississippi-Vicksburg: Generally light to moderate rain; cool at be-ginning, with adequate sunshine; rising temperatures thereafter, ap-praching record maxima Sunday. Progress in picking cotton mostly good, with small upland producers about finished, but much damaged cotton unhoused on large delta plantations. Progress in housing corn mostly good. Progress of alfalfa and oats fair to good. Louisiana-New Orleans: Temperatures moderate; scattered light rains at beginning but fair thereafter. Excellent progress in harvesting late corn, cane and sweet potatoes, cutting and threshing rice, making hay, and plowing and planting cover crops. Cotton picking practically com-pleted. Corn harvest well advanced. Truck and minor crops good. Texas-Houston: Averaged unusulty warm throughout State; light showers in west. Picking cotton slow advance and practically completed, except for scrapping operations. Winter wheat sowing making rapid advance and early planted coming up well, but rain now needed in north-west. Truck, ranges and minor crops mostly good, but moisture will be needed soon. Rice harvest nearing completion.

Oklahoma—Oklahoma City: Warm and dry, except for light to mod-erate showers in limited area of central last night. Ideal week for har vesting fall crops. Picking cotton good to excellent progress and mosi of early crop picked; much snapping reported. Progress (or wheat mostly very good, but grubworms doing some damage in several northwester counties; crop needs rain over much of State. Corn harvest nearing completion.

completion. Arkansas—Little Rock: Growth of cotton practically ended by killing frosts and freezing temperatures on Oct. 23; crop opening very rapidly due to light rains, abundant sunshine, dry winds and high temperatures; picking progressed very rapidly and about completed, except on eastern lowlands, where much in fields. Very favorable for gathering corn, feed crops and fall truck. Winter grains, pastures and truck excellent. *Tennessee*—Nashville: Soil dried rapidly, although some areas too wet for harvesting. Picking cotton good to excellent advance and three-fourths harvested in some localities. Considerable progress in housing corn and potatoes, threshing lespedeza and baling hay. Sowing winter grains con-tinued where dry enough; much up to good stands. Favorable for handling tobacco.

THE DRY GOODS TRADE

New York, Friday Night, Nov. 5, 1937.

With favorable weather conditions counteracting the adverse influence of slackening industrial activities, retail trade during the past week made a fairly satisfactory showing. Although sales results were far from being uniform, some districts reporting gains up to 15% while others suffered slight declines-it was estimated that in the average a moderate gain was accomplished, owing, however, partly to the fact that an increasing number of special promotions, at the usual price concessions, is being resorted to. The attention of the buying public centered in women's and children's apparel lines, whereas consumer purchases of men-s wear items con-tinued to leave much to be desired. Early estimates of the volume of sales for October forecast average gains ranging

volume of sales for October forecast average gains ranging from 3 to 7% over October, 1936. Trading in the wholesale dry goods markets was a little more active, as accumulated needs called for numerous small purchases of merchandise for immediate delivery. Generally, however, buyers continued their previous waiting attitude, chiefly dictated by the desire to effect a further reduction in inventories before entering into new commitments. More interest was shown in wash goods for spring although rela-tively little actual business was transacted as sellers hesitated to meet huvers' demands of further price concessions. A tively little actual business was transacted as sellers hesitated to meet buyers' demands of further price concessions. A feature of the week was the increasing volume of buy-ing of holiday items. Business in silk goods continued inactive, with prices holding fairly steady. Trading in rayon yarns gave no indications of an early revival in activities. With curtailed operations in the weaving mills having re-sulted in a substantial decline of yarn shipments, a further appreciable increase of stocks in producers' hands was re-ported, and rumors gained currency according to which a slowing down of operations may be expected, unless an early improvement in the demand for yarn should materialize.

Domestic Cotton Goods—Trading in the gray cloths markets was listless, and total sales amounted to but a fraction of the current output. Bag manufacturers did some additional scattered buying, but converters maintained their previous cautious attitude reflecting the continued slow movement of finished goods in distributive channels. The further sharp decline in raw cotton values did much to depress sentiment, and no revival in activities is looked for until further sharp decline in raw cotton values did much to depress sentiment, and no revival in activities is looked for until after the release of the next official crop report due Monday, Nov. 8. Business in fine goods remained inactive. Buyers displayed more interest in fancy cotton weaves, but few transactions were consummated, bending an improvement in the demand for finished goods. A slightly better call prevailed for combed lawns. Closing prices in print cloths were as follows: 39-inch 80s, 65%c. to 63%c., 30-inch 72-76s, 61%c., 39-inch 68-72s, 51%c., 38%-inch 64-60s, 43%c. to 47%c., 38%-inch 60-48s, 41%s, to 43-16c. Wachen Goods-Trading in men's wear fabrics continued

Woolen Goods-Trading in men's wear fabrics continued **Woolen Goods**—Irading in men s wear labrics continued dull. Although previous scattered price reductions on Spring worsteds were met by the largest producer, thereby making the adjustment uniform, and removing previous uncer-tainties, sales were restricted to relatively small lots, as most cutters preferred to await the further course of retail demand before adding to their commitments. Overcoatings had a cutters preferred to await the further course of retail demand before adding to their commitments. Overcoatings had a fair call, and growing interest manifested itself in trovical worsteds and gabardines. Reports from retail clothing centers were somewhat disappointing, with lower tempera-tures failing to stimulate the consumer demand in the ex-pected measure. Business in women's wear goods remained inactive. While the Fall season has come to an end, the opening of the new spring lines is still being delayed, and activities are confined to scattered sales of winter resort and cruise wear material. Retail sales continued their satis-factory showing resulting in an increasing number of reorders for spot delivery. for spot delivery.

For spot delivery. Foreign Dry Goods—Trading in linens experienced a moderate revival, notably in the household goods division where numerous small orders for holiday items were received. A few reorders on dress goods and suitings came into the market, but the total volume of sales in these materials re-mained small. Business in burlap continued very quiet although spot merchandise met with slightly better demand than heretofore. The substantial drop in stocks at Calcutta was in line with seasonal expectations. Domestically light-weights were quoted at 3.85c., heavies at 5.25c.

MUNICIPAL BOND SALES IN OCTOBER

<section-header><section-header><text><text><text>

The issues of \$1,000,000 or more marketed during October were as follows:

- Were as follows:
 \$3,000,000 Massachusetts (State of) Metropolitan Additional Water Loan bonds, due serially from 1938 to 1967 incl., were awarded to Bank of the Manhattan Co. and Barr Bros. & Co., both of New York, as 2¼s, at 100.275, a basis of about 2.23%. Re-offered to yield from 0.40% to 2.50%, according to maturity.
 1,250,000 Louisville, Ky., sewer bonds, due Feb. 1, 1969, were sold to the Harris Trust & Savings Bank, Chicago, and associates, on a bid of 100.01 for \$260,000 2¾s and \$990,000 38. They were priced to yield 2.80% for the 2¾s and 2.90% for the 3s.
 1,242,000 Union County, N. J., general impt. bonds, due serially from 1938 to 1965 incl., were to the Bancenerica-Blair Corp., New York, and associates, as 2.80s, at 100.245, a basis of about 2.78%. Re-offered from 0.475% to 2.90%, according to maturity.
 1,050,000 Seattle, Wash., bonds were sold as follows: A syndicate headed \$750,000 light and power 4s, due from 1941 to 1969; the price paid not being made public. The group also took a 90-day option on a further block of \$750,000. The balance of financing by the city consisted of the sale of \$300,000 -2.30 year serial general obligation sewer bonds as 4s, at par, to the Employees' Retirement Fund, which was the only bidder.
 1,000,000 Maine (State of) 2% highway bonds, due from 1939 to 1948 incl., were sold to Barr Bros. & Co., Inc., New York, a basis of about 1.805%. Re-offered to yield from 1% to 1.30%, according to maturity.
- according to maturity. 1,000,000 West Virginia (State of) road bonds, due from 1938 to 1962 incl., purchased by Brown Harriman & Co., Inc., New York, at 100.107, a basis of about 2.55%. The bankers took the 1938 to 1943 bonds as 3½s, and the rest as 2½s. Re-offered to yield from 0.60% to 2.60%, according to rate and maturity. The bankers originally bid in a block of \$500,000 and quickly exer-cised their option on an additional \$500,000, the terms of sale being the same in each instance.

being the same in each instance. As was true in preceding months of the present year, the month of October proved a difficult period for quite a large number of municipalities with bond issues for sale. Our records show that 31 issues, having an aggregate par value of \$11,287,302, failed of sale in the recent period. A record of such abortive offerings is shown herewith, the page number of the "Chronicle" being given for reference purposes:

2894 Weston S. D. 2, S. Dak. 2894 Weston S. D. 2, S. Dak. Tenter State of interest was optional with the bidder. a Issue is being reoffered for sale Nov. 16-V. 145, D. 2886. b Local bank later purchased a block of \$20,000 as 4s. c New offering date is Nov. 10. d Bonds will be exchanged with holders of obligations originally issued. e Investment house accepted option on issue until Nov. 22. f Suit attacking district's taxing power caused rescindment of offering. Court ruled in favor of plaintiff. District to appeal decision to State Supreme Court -V. 145, D. 2894. ¢ A uthority of borough (dater sustained by court ruling) to contract debt caused cancellation of offering. h New sale date is Nov. 15. Insufficient period for advertising issue necessitated cancellation of offering. New offering date is Nov. 9-V. 145, D. 2732. Temporary financing by States and municipalities during October was also reduced to a minimum level, the amount involved being \$27,976,354, of which \$13,000,000 was accounted for by the City of New York. Another large contributor to the total was the State of California, which conducted several sales of warrants aggregating over \$10,-

conducted several sales of warrants aggregating over \$10,-000,000

Canadian long-term municipal bond awards during the month amounted to only \$265,048. Temporary financing was made up of the sale of \$50,000,000 Treasury bills for refunding purposes by the Dominion of Canada.

was made up of the sale of \$50,000,000 Treasury bills for refunding purposes by the Dominion of Canada. The first financing negotiated by any of the United States Possessions in the present year took place on Oct. 27, when the Territory of Hawaii sold \$4,800,000 bonds. Of this amount, \$1,500,000 refunding bonds, due from 1939 to 1947 incl., were taken by Lazard Freress & Co., Inc. of New York and associates, as 2.70s, at 100.089, a basis of about 2.68%. They were reoffered to yield from 1.40% to 2.75%, according to maturity. The remaining \$3,300,000, issued for public improvements, were sold to Laurence M. Marks & Co. of New York, as 3.10s, at par. These obli-gations, maturing from 1939 to 1956 incl., were not reoffered, it being reported that they had been placed privately. The Territory originally intended to conduct a sale of \$4,500,000 bonds on Sept. 14. In postponing the offering, the amount of the improvement issue was increased to \$3,300,000 and the length of the maturity reduced by 10 years. The following is a comparison of all the various forms of loans put out in October of the last five years: 1937 1936 1935 1934 1933

News Items

Detroit, Mich.—C. I. O. Loses Mayoralty Election—The Committee for Industrial Organization, striving to win political control of the eity in which it gained its first major industrial victory, suffered a reverse in the mayoralty election on Nov. 2, when its candidate, Patrick H. O'Brien, was defeated by Richard W. Reading, City Clerk, who had the support of the American Federation of Labor, according to news advices from Detroit. to news advices from Detroit.

Kentucky — Constitutional Amendments Defeated — The voters rejected the two proposed amendments to the State's Constitution at the general election on Nov. 2, according to an Associated Press dispatch from Louisville. One proposed to permit consolidation of municipal and county governments. The other sought approval of a ballot on more than one constitutional amendment at an election.

than one constitutional amendment at an election. New York City—Mayor La Guardia Re-elected—Mayor F. H. La Guardia was reelected on Nov. 2 over Jeremiah T. Mahoney, his Democratic opponent, by a sweeping majority. The Mayor carried with him not only his eity-wide running mates, Joseph D. McGoldrick, who defeated Comptroller Frank J. Taylor, Democrat, and Newbold Morris, for President of the Council, who defeated Max J. Schneider, Democrat, but also all the candidates for Borough President on his ticket, with the exception of James J. Lyons, Democrat, of the Bronx, who was reelected. Also victorious by a wide margin was Thomas E. Dewey, Republican can-didate for District Attorney of New York County, over Harold W. Hastings, Tammany candidate. Mayor La Guardia was reported to have emerged from the election with only one vote out of 16 in the Board of Estimate against his policies.

his policies. The counting of ballots for the election of candidates for the City Council was not begun until Nov. 3 and it is expected that some time will elapse before the complete list of elected councilmen is made known.

councilmen is made known.
New York, N. Y.—Increased Budge: Passed by Board of Estimate—The Democratic majority of the Board of Estimate outvoted Mayor La Guardia and his Fusion colleagues on Oct. 29 to adopt the proposed budget for 1938 of \$589, 980,576.64, more than \$828,000 higher than the executive budget originally submitted by the Mayor early in the month, by a count of 10 to 6.
The action followed the receipt of a legal opinion from Corporation Counsel Paul Windels that the recent \$12,000,000 reduction in water rates voted by the Board of Aldermen was void. This reduction was never really reflected in the budget, since Comptroller Taylor did not reduce his general fund estimate by that amount. Theoretically, the budget was \$12,000,000 out of balance because of the action of the Aldermen in overriding the Mayor's veto of the oridinance. It was pointed out that the Corporation Counsel's opinion will have to be confirmed by the courts before the budget is technically in balance.

New York State—\$40,000,000 Institutional Bond Issue Approved—At the general election the voters of the State ratified Proposition No. 1, calling for the issuance of \$40,-000,000 in bonds to be used for hospitals and correctional institutions building, by a margin of about two to one, according to incomplete but conclusive returns on Nov. 4.

according to incomplete but conclusive returns on Nov. 4. Constitutional Amendments Approved and Defeated—Of the six constitutional amendments submitted to the electorate, four were approved. They are: Providing a four-year term for Governor, and other elective State officials; providing a two-year term for Assemblymen; waiver of jury trials by defendants except where the punishment may be death, and lastly, making sheriffs eligible to succeed themselves. The two which were voted down are: Increasing juris-diction and powers of municipal courts, and increasing juris-diction of city courts.

diction of city courts.

diction of city courts. Republican Seats Added in Assembly—The largest number of Republican Assemblymen in recent years were voted into office on Nov. 2. In addition to five seats acquired in New York City, it appeared certain on incomplete returns that the Republicans would pick up five formerly Democratic places up-State. It seems that they will have the upper hand with a probable S3 votes, or seven more than an actual voting majority of 77 needed to pass legislation. Last year the Party had a bare majority of 76. The Senate remains Democratic. Democratic.

Vote on State Constitutional Convention—It appeared certain on late returns from the balloting throughout the State that the Republicans would occupy 91 of the 168 seats at the State Constitutional Convention to be held next April, assuring them of control. Among other things, the convention is to decide upon and submit to the electorate a new apportion-

ment of the districts into which the State is divided. Of the 168 delegates to the convention, 153 were selected by districts, three from each Senatorial district. Of these 83 are Re-publicans and 70 are Democrats. The other 15 delegates were chosen at large.

were chosen at large. United States—Results of Balloting on Bond Issues— According to returns currently available on the voting throughout the country on the approximately \$195,000,000 of new bond issues at the general election on Nov. 2, it was indicated that the electorate was decidedly reluctant to sanction such proposals. The voters had apparently ap-proved about \$53,000,000, while more than \$128,000,000 of bonds was rejected. The trend toward defeat was par-ticularly noticeable in the case of the more important com-munities, as can be seen from the following table showing the decisions (up to Nov. 5) accorded the major proposals which were up for consideration: Approved

given here as soon as possible.) **Pennsylvania**—Four Out of Five Constitutional Amend-ments Defeated—Four of the five amendments to the State Constitution proposed by the Democratic Administration were turned down by the voters on Nov. 2. The fifth, validating old-age and mothers' assistance grants, had the support of both Democrats and Republicans. An Associated Press dispatch from Harrisburg on Nov. 3 reported in part as follows on the result of the balloting: Heaviest sentiment against any one of the amendments was registered against the graduated income tax proposal. Returns from 6,496 of 8,061 precincts gave 577,684 for the tax and 792,462 against it. A proposed amendment that would permit submission of constitutional changes at any time, instead of adhering to the "time-lock" clause requiring five-year intervals, trailed, 589,131 to 75,661, in returns from 6,122 districts. The proposal to consolidate Philadelphia's city-county government ran behind, 614,207 to 720,812 in 6,498 districts. A \$42,000,000 bond issue for State building improvements was behind. 27,953 to 913,048-hopelessity beaten. The public assistance grants had 770,142 for, and 585,113 against. Two years ago the voters defeated by more than two to one the Demo-cratic attempt to call a convention to revise the constitution.

Bond Proposals and Negotiations

Montgomery, Alabama Bought - Sold - Quoted

ALABAMA

ALABAMA, State of *ADDITIONAL INFORMATION*—In connec-tion with the report given in our issue of Oct. 30, that sealed tenders will be received until Nov. 9, by W. W. Brooks, Financial Secretary to the Governor, of any part of \$250,000 State refunding bonds—V. 145, p. 2884— we are now advised as follows: Bonds which will show the highest net return on invested funds according to standard bond value tables will be accepted, provided the yield is satis-factory. Tenders should show the yield to maturity and the percentage of par value at which bonds are tendered. The right is reserved to reject any or all tenders and to accept tenders aggregating more than \$250,000. Tunds for the retirement of the bonds come from income tax collections which are pledged as a trust fund for the payment of these bonds. In the fiscal year ended \$250,000 were paid at ma-turity and \$550,000 bonds not due for an average of approximately 25 years were purchased for the sum of \$608,837,59 and canceled. The constitution provides that when all of the refunding bonds have been paid or provided for, the proceeds of the income tax shall be used to reduce ad valorem taxation. ALABAMA (State of)—SCHOOL WARRANTS DISCUSSED—The fol-

reduce ad valorem taxation. ALABAMA (State of)—SCHOOL WARRANTS DISCUSSED—The fol-lowing is taken from a leaflet prepared by W. Barrett Brown, State Fiscal Consultant: Alabama School Warrants merit the considered analysis of investors, financial institutions, and security dealers throughout the country. These warrants are issued under very carefully devised safeguards, both with regard to the issue and the issuing body. Nearly every conservative re-quirement is met by this type of obligation except a provision for payment from an unlimited tax and this obstacle is largely surmounted by a provision that these warrants are a first claim on the taxes dedicated to their use in the order of issuance. Irrespective of subsequent conditions, the warrants are

Amount

retirable serially out of the same tax that pays their interest. It is worthy of note that the State Superintendent of Education exercises a central control in this matter as he must approve each issue of warrants and must approve the budget of each Board of Education. Provision also is made for the sequestration of tax collections applicable to school warrants—there being only one minor default, and that of a technical nature—it is somewhat regrettable that they bear the name "Warrant." The investing public, particularly in the area contiguous to New York City, may associate "Warrant" with loosely issued obligations in certain states or unpaid vouchers of cities and counties. That he elements of Alabama School Warrants may be readily under-stood, Dr. R. L. Johns, Director of Administration and Finance, Alabama State Department of Education, has prepared a "Quiz," as follows: *Alabama School Warrants*

Alabama School Warrants

Alabama School warrants The term "School Warrants" in Alabama is synonymous with the term "School Bonds" in most of the other states of the Union. Act 94, approved April 6, 1936, contains the general provisions governing the issuance of Alabama School Warrants. The most important features of Alabama School Warrants are described under the following topic headings:

Issuing Authonities Sixty-seven county boards of eduction and 45 city boards of education have the power to issue school warrants under certain conditions.

Purpose of Issue

Purpose of Issue 1. Capital outlay purposes. 2. Refunding warrants for the purpose of refunding outstanding warrants at lower rates of interest and refunding warrants for the purpose of equaliz-ing the term of maturity of warrants previously issued when such maturities have been planned with a too burdensome debt service load in certain years. 3. Funding warrants for the purpose of funding floating indethedness incurred by the Board of Education. This authority expired on Oct. 1, 1937. After that date every board of education is required by law to operate on a balanced budget and long-time warrants can no longer be issued to fund current deficits. Maturity Schedule

current deficits. Maturity Schedule 1. All school warrants must be issued to mature serially with semi-annual interest payments in approximately equal total annual payments of interest and principal when taken together with the principal and interest of outstanding warrants previously issued. 2. No capital outlay warrants can be issued for a longer term than the probable usefulness of the buildings being erected from the proceeds of the issue.

Taxes Pledged for Payment

 Taxes Pledged for Payment

 1. The 67 county boards of education can pledge for payment of school warrants: (a) the proceeds of the three mill county-wide tax, which is voted under constitutional authority for such purposes or for school purposes generally, or (b) the proceeds of a three mill special district tax in the county which has been voted under the constitution for such purpose or for school purposes generally.

 2. The 45 city boards of education can pledge for payment of school warrants the proceeds of the three mill special district tax of the city school tax district when such tax has been voted under the constitution for such purposes or for school purposes generally.

 Although school warrants are payable from and secured by the proceeds of a valorem taxes, both county and city boards of education are empowered to use certain state funds and other local funds for the purpose of retiring school warrants.

powered to use certain state funds and other local funds for the purpose or retiring school warrants.
 Approval of Issuance and Governing Conditions
 Before a county or city board of education can issue school warrants of any kind, an application must be filed with the State Superintendent of Education containing such information as he may require. He must approve all school warrant issues.
 1. He cannot approve the issuance of additional warrants when such issuance would jeopardize the minimum state program of educations as prescribed by law and in accordance with the rules and regulations of the State Board of Education.
 2. He cannot approve a warrant issue when the debt service on such issue taken together with the debt service on previous issues pledged against the proceeds of the last year for which a tax has been voted.
 3. The State Superintendent has authority to disapprove a capital outay issue for the purpose of constructing unnecessary buildings when a survey shows such buildings to be superfluous.

Tenure of Taxes Pledged for Payment of Warrants For a maximum of 30 years from the beginning of the fiscal year following the election.

Methods of Sale

After a proposed school warrant issue has been properly approved, capital outlay warrants must be sold at public auction after proper advertisement. Refunding warrants may be sold at auction or exchanged for a like amount of outstanding warrants. Either callable or noncallable warrants can be sold, but no warrants can be sold bearing an interest rate in excess of 6%.

Preference of Payment

All warrants are preferred claims against the tax being pledged and each uccessive warrant issue against a given tax takes precedence in the order sued.

issued. County and School Bond Warrant Indebtedness
 County and School Bond Warrants pledged by county boards of education against the proceeds of the county three mill tax and the district three mill taxes amounted to \$7,273,055.
 On July 10, 1937, the total outstanding warrants pledged by city boards of education against the proceeds of the three mill district tax amounted to \$636,309.
 The grand total warrant indebtedness of county and city boards of education amounted to \$7,909,364.

Annual Income of Issues
 The estimated revenue receipts of county and city boards of education from all sources for the fiscal year 1937-38 total \$18,762,920.
 The total annual debt service of county and city boards of education amounts to less than \$2,000,000.

Amount of Unfunded Floating Indebtedness

Amount of Unfunded Floating Indebtedness Amount of Unfunded Floating Indebtedness Independent of the amount will be zero. Boards of education are no longer allowed to incur deficits for current operating expenses. Each board of education must submit its annual budget to the State Superintendent of Education for his approval. He cannot approve an unbalanced budget. All boards of education are required to set up debt service requirements for principal and interest payments on outstanding warrants as a first charge against school revenues each year. Status at Warrants as to Default

Status of Warrants as to Default

Status of Warrants as to Default 1. No warrants issued by the 67 county boards of education of Alabama are in default. 2. No warrants issued by the 45 city boards of education are in default, with the exception of one small issue in one small city which is partly in default. This record is remarkable in view of the financial difficulties experienced by county and city boards of education in the late depression. Additional Safeguards to Protect Purchaser of Alabama School Securities 1. Section 2 of Act No. 94, approved April 6, 1936, provides the follow-ing:

Section 2 of Act No. 94, approved April 6, 1936, provides the following:

 "In each fiscal year the proceeds of each special tax levied under the Constitution for such purpose or for school purposes generally shall be deposited as soon as received by the custodian of school funds or the city treasurer, as the case may be, in a bank or banks approved for that purpose by the State Superintendent of Education upon the advice of the State Superintendent of Education upon the advice of the State Superintendent of Education upon the advice of the State Superintendent of Education upon the advice of the State Superintendent of Education upon the advice of the State Superintendent of Education upon the advice of the State Superintendent of Education upon the advice of the State Superintendent of all claims secured by a valid pledge of the said tax made before the enactment hereof and due in that fiscal year and thereafter such proceeds shall be so deposited in another separate account to an amount sufficient for the payment of the principal and interest of all warrants issued hereunder due in that fiscal year and remaining unpaid, with 6% interest on such overdue payments."
 The State provides an annual sum of approximately \$846,517 for county school systems for the purpose of capital outlay and debt service and any remaining amount may then be used for capital outlay purposes. The state allotment for capital outlay and debt service is in addition to

funds available to school boards from local ad valorem taxes. It serve to further reinforce the security back of county school warrants. 3. The State Superintendent requires each board of education to set up in its budget sufficient funds for debt service before he will approve its budget. Conclusion

Conclusion When one considers the record of the county and city boards of education of Alabama in meeting their obligations, the conservative policy being followed in controlling the amount of warrants issued, the annual income of the boards of education in proportion to indebtedness, it is believed that Alabama School Warrants should be classed with the highest type of se-curity being issued by any unit of local government in the United States.

HALE COUNTY (P. O. Greensboro) Ala.—CONFIRMATION OF ELECTION—The County Clerk confirms the report given in these columns recently that an election will be held on Nov. 23 in order to vote on the issuance of the \$100,000 road bonds—V. 145, p. 2884—and he informs us that the rate of interest is not to exceed 5%. Due \$5,000 from 1940 to 1959 incl., without prior option.

MOBILE COUNTY (P. O. Mobile), Ala,—BOND SALE—The \$225,000 issue of general funding bonds offered for sale on Nov. 2—V. 145, p. 2884— was purchased by a syndicate composed of McAlister, Smith & Pate of Greenville; Watkins, Morrow & Co. of Birmingham; the First National Bank and the Merchants National Bank, both of Mobile, and Marx & Co. of Birmingham as 5½s at a price of 98.00, a basis of about 5.67%. Dated Dec. 1, 1937. Due from Dec. 1, 1942 to 1967.

ARKANSAS BONDS

Largest Retail Distributors

WALTON, SULLIVAN & CO. LITTLE ROCK, ARK.

ARKANSAS

ARKANSAS, State of-The following information is obtained from cent news advices out of Little Rock:

ARKANSAS, State of — The following information is obtained from recent news advices out of Little Rock: BOND REFINANCING TO BE DELAYED—The Advisory Finance Board will await more favorable conditions before offering new bonds to refinance the \$150,000,000 highway debt. The Board some time ago appointed Stifel, Nicolaus & Co., and A. C. Allyn & Co., managers of the syndicate to make the proposed offering. Legal obstacles to refinancing have been removed by failure of counsel in a taxpayer's suit to file a United States Supreme Court appeal within 90 days after the return of a decision by the Arkansas Supreme Court to hold the program valid. It was at-tacked because of an appropriation against the highway fund to meet expenses. Act 11 of 1934 pledges highway fund net revenue to payment of the debt.

expenses. Act 11 of 1934 pledges ngnway tune activity of the debt. Gov. Carl E. Bailey said the delay occasioned by litigation will require a revision of the original estimate of \$32,000,000 as the maximum saving possible by refinancing.

ARKANSAS STATE BOARD OF EDUCATION (P. O. Little Rock), Ark.—BOND SALE—The §240,000 issue of 4% coupon semi-ann, revolving fund school bonds offered for sale on Nov. 3—V. 145, p. 2885—was awarded to H. C. Speer & Sons Co., of Chicago, at a price of 100.533, a basis of about 3.90%. Dated Nov. 1, 1937. Due from Jan. 1, 1938, to 1949 incl. The second best bid was an offer of par, submitted by T. J. Raney & Sons, of Little Rock, according to W. E. Phipps, Secretary of the State Board of Education.

WATSON CHAPEL SCHOOL DISTRICT NO. 24, Jefferson County, Ark.—*TENDERS INVITED*—C. E. Garman, District Secretary, an-nounces that tenders for the sale of its bonds to the district will be received until Nov. 15. Offers are to be sent to the Simmons National Bank, Trustee, Pine Bluff.

CALIFORNIA

CHOWCHILLA, Calif.—BOND OFFERING—G. D. Zwinge, City Clerk, will receive bids until 2 p. m. Nov. 22 for the purchase, at not less than par, of \$60,000 sewer bonds. Bidders are to name rate of intrest, not to exceed 6%. Denoms, \$1.000 and \$500. Dated Jan. 15, 1938. Principal and semi-annual interest (Jan. 15 and July 15) payable at the City Treas-urer's office. Due \$1,500 yearly. Certified check for 10% of amount of bonds bid for, payable to the City Treasurer, required. Bonded debt, \$15,000: assessed valuation, \$563,268.

DUNSMUIR, Calif.—BOND TENDERS ACCEPTED—In connection with the call for tenders on Nov. 3, as noted here recently—V. 145, p. 2578— it is stated by G. E. Hawkins, City Clerk, that the Brown-Crummer Co. of Wichita, sold to the city a total of \$6,250 general improvement fund bonds of 1936, dated Jan. 1, 1936, at 84.00, plus accrued interest. He also states that a local investor sold a total of \$5,412.03 general improvement bonds of 1936, dated Jan. 1, 1936, at 85.00, plus accrued interest.

Interest.
 LOS ANGELES, Calif.—BOND OFFERING CONTEMPLATED— We quote in part as follows from the "Wall Street Journal" of Nov. 4: The City of Los Angeles, unless present plans are changed, expects to offer on Nov. 15 \$10,200,000 electric plant revenue bonds. Details of the offering, which has been under consideration for more than a month, are fast being whipped into shape and it is anticipated that they will be com-pleted wire the city's Department of Water and Power meets early next week. The offering date is expected to be set at next week's meeting and it is known that officials are considering Nov. 15 as the preferable date. The issue will consist of \$9,000,000 serial bonds with a maximum maturities of 12 years. Proceeds of the offering will be used for additions and betterments to the electric system of the Bureau of Power and Light, made necessary by increasing demands on the \$22,799,000 issue of 1935.
 LOS ANGELES COUNTY (P. O. Los Angeles), Calif.—ELECTION

Power Issued in 1957 and the \$22,193,000 issue of 1900. LOS ANGELES COUNTY (P. O. Los Angeles), Calif.—ELECTION IN SOUTH PASADENA SCHOOL DISTRICT.—An election will be held on Nov. 23 in South Pasadena School District for the purpose of voting on a proposition to issue \$225,000 school building bonds.

ORANGE COUNTY (P. O. Santa Ana), Calif.—FULLERTON SCHOOL NOTES SOLD—An issue of \$100,000 tax anticipation notes of the Fullerton Union High School District has been sold to the First National Bank of Santa Ana.

PACHECHO PASS WATER DISTRICT (P. O. Hollister), Calif. BOND SALE—The \$180,000 4% water supply bonds offered on Nov. 1— V. 145, p. 2885—were awarded to Donnelan & Co. of San Francisco and the William R. Staats Co. of Los Angeles at par plus a premium of \$1,198, equal to 100.665, a basis of about 3.95%. Dated July 1, 1937. Due on July 1 as follows: \$5,000, 1940 and 1941; 1943 to 1946; 1948 to 1953; \$10,000, 1954; \$5,000, 1955 to 1957; \$10,000, 1958; \$5,000, 1964 to 1968. **BEDDINC** Colif. WILTER DONG DAY UNIT (1957).

REDDING, Calif.—WATER BONDS IN LITIGATION—Hearing of the California Water Service Co.'s petition for a restraining order enjoin-

ing the City of Redding from spending the proceeds from the recent sale of \$200,000 water works bonds or levying taxes for payment of principal or interest on the bonds will be given by Judge Michael J. Roche in Redding. The bonds were sold privately on Oct. 21 to Stone & Youngberg of San Francisco at par for 34s and later resold to Banks, Huntley & Co. of Los Angeles, who in turn reoffered them on a 2% to 3.10% yield basis.

REDWOOD CITY, Calif.—BONDS DEFEATED—At the Nov 2 elec-tion—V. 145, p. 2262—the voters rejected the proposed issuance of the \$75,000 in power distribution system purchase bonds, reports B. E. Meyer, City Treasurer.

SACRAMENTO, Calif.—BONDS DEFEATED—J. H. Stephens, City Treasurer, states that the voters defeated the proposal to issue \$500,000 in art gallery bonos at the general election on Nov. 2—V. 145, p. 2578.

SAN BERNARDINO COUNTY (P. O. San Bernardino), Calif.— ETIWANDA SCHOOL BONDS VOTED—The voters of Etiwanda Ele-mentary School District have approved a proposition to issue \$75,000 school building bonds.

SAN FRANCISCO (City and County) Calif.—BONDS VOTED AND DEFEATED—It is tated by J. S. Dunnigan, Clerk of the Board of Super-visors, that the following bonds were approved by the voters at the election on Nov. 2: \$2,850,000 airport, and \$1,600,000 hospital building bonds. At the same time the two large propositions calling for the issuance of a total of \$54,250,000 in bonds, were turned down in the balloting. They were divided as follows: \$49,250,000 rapid transit, and \$5,000,000 sewer bonds.

SHASTA COUNTY (P. O. Redding), Calif.—SLATE CREEK SCHOOL BONDS SOLD—The \$3,000 5% coupon Slate Creek School District bonds offered on Nov. 1—V. 145, p. 2885—were awarded to Alice L. Seamans of Redding at par plus a premium of \$35.50, equal to 101.183. Denom. \$300. Dated Oct. 16, 1937. Interest payable annually on Oct. 16. Due \$300 yearly on Oct. 16 from 1938 to 1947.

COLORADO

BOULDER, Colo.—BOND OFFERING—Mayme Graham, City Clerk, will receive bids until 7:30 p. m. Nov. 16 on an issue of \$27,000 3% bridge refunding bonds. Dated Feb. 1, 1938. Due on Feb. 1 as follows: \$1,000, 1939; \$2,000, 1940 to 1949; and \$3,000, 1950 and 1951.

FLORIDA

CITRUS COUNTY (P. O. Inverness), Fla.—BOND TENDERS IN-VITED—F. E. Marlow, Chairman of the Board of County Commissioners, states that on Dec. 6 at 10 a. m. he will receive sealed offerings of bonds of county road and bridge refunding issues, dated Nov. 1, 1933. The amount of bonds of this issue to be purchased will be determined by the Chairman and offerings must be firm for at least 10 days in order to be con-sidered.

DADE COUNTY (P. O. Miami) Fla.—BOND TENDERS ACCEPTED— James T. Wilson, Superintendent of the Board of Public Instruction, states that he accepted 31 tenders of County Board refunding bonds, dated, May 1, 1934, as follows: Ed. C. Wright & Co. of St. Petersburg, four at 92.75; three at 91.00, and three at 92.00; all series D. From A. B. Morrison & Co. of Miami, five at 93; series A. From R. E. Crummer & Co. of Orlando, 14 at 94.00, series A, and two at 94.00, series D. All were tendered with accrued interest.

accrued interest. DE LAND SPECIAL TAX SCHOOL DISTRICT (P. O. De Land), Fla.—BOND ELECTION—It is stated that the election to vote on the is-suance of the \$150,000 in construction bonds, mentioned in these columns recently—V. 145, p. 2723—will be held on Nov. 23. HILLSBOROUGH COUNTY SPECIAL TAX SCHOOL DISTRICT NO. 9 (P. O. Tampa) Fla.—BOND SALE—The \$4,000 issue of 4% coupon semi-ann. school bonds offered for sale on Nov. 4—V. 145, p. 2723— was purchased by the Hillsboro State Bank of Plant City, at par. Dated Dec. 1, 1937. Due \$400 from Dec. 1, 1939 to 1948 incl.

Dec. 1, 1937. Due \$400 from Dec. 1, 1939 to 1948 incl. LEESBURG, Fla.—REFUNDING BONDS READY FOR DELIVERY— R. E. Crummer & Co., Chicago, II., who are acting as fiscal agent for the above city, issued a letter on Oct. 29, advising holders of funded securities of Leesburg that the refunding bonds have now been executed by the officials and are available for delivery through the trust department of the First National Bank of Chicago. It is stated that the refunding bonds wil carry the unqualified approving opinion of Caldwell & Raymond, of New York. An interest adjustment to Nov. 1, 1937, will be made. Holders who have not yet forwarded their bonds to Chicago, are urged to do so for this ex-change. change

change. **PALMETTO, Fla.**—*REFUNDING PLANNED*—A refunding plan at a greatly reduced rate of interest is being effected by George W. Simons, bond adjuster, of Jacksonville, for the City of Palmetto, a contract having been entered into between the city and Mr. Simons, it was announced. The city's total bond debt is approximately \$1,050,100, with \$712,000 of the total principal and approximately \$450,000 interest past due. The original issues are 5½ and 6% bonds and under the refunding agreement they are to be spread over a period of 40 years with interest as follows: 1% for five years; 1½% for two years; 2% for four years; 2½% for two years; 3% for five years; 3½% for seven years, and 4% for 15 years. ST AUGUSTINE ELS - BUILTURE DUSTIBUTION OF INTEREST.

ST. AUGUSTINE, Fla.—FURTHER DISTRIBUTION OF INTEREST FUNDS TO BE MADE—Bondholders' Protective Committee recently

advised depositors that it had sufficient collections on account of interest from the above city during the fiscal year ending Sept. 30, 1937, to make a further distribution of 1½% on account of interest to all holders of cer-tificates of deposit of record as of Sept. 30, 1937. This makes a total dis-tribution of 3% for the fiscal year ending Sept. 30, 1937. The Committee has not yet received a plan of refunding which it feels it could recommend to the depositors for their approval.

TURKEY CREEK SPECIAL TAX SCHOOL DISTRICT (P. O. Tampa), Fla.—BOND ELECTION—It is now reported by E. L. Robinson, Superintendent of the Board of Public Instruction, that the election to resubmit to the voters the \$37,000 of construction bonds, noted in these columns recently—V. 145, p. 2886—will be held on Nov. 16.

WALTON COUNTY (P. O. De Funiak Springs), Fla.—BOND ELECTION—It is said that an election will be held on Nov. 23 in order to vote on the issuance of \$303,000 in bridge construction bonds.

GEORGIA

IOWA

ALLERTON, Iowa—BONDS VOTED—At the election held on Oct. 28—V. 145, p. 2579—the voters approved the issuance of the \$26,000 water works bonds by a count of 347 to 167. No details as to the issuance of these bonds have been decided as yet.

or these bonds have been decided as yet. **CERRO GORDO COUNTY (P. O. Mason City)**, Iowa-BOND OFFER-ING DETAILS-In connection with the offering scheduled for Nov. 15 of the \$25,000 warrant funding bonds, notice of which appeared in our issue of Oct. 30-V. 145, p. 2887-it is now reported by Joy Ridgeway, County Treasurer, that the bonds are dated Sept. 1, 1937, and are due serially on and after May 1, 1943. The award will be made on the most favorable bid of not less than par and accrued interest, specifying the lowest rate of inter-est. Principal and interest payable at the office of the County Treasurer. The purchaser will furnish the approving legal opinion and the printed bonds without charge.

COUNCIL BLUFFS, Iowa—BRIDGE PURCHASE PROPOSAL DE-FEATED—At the election on Nov. 2—V. 145, p. 2426—the voters turned down the proposal to purchase the Douglas Street bridge from the hold-ing company for the sum of \$2,500,000, according to the City Clerk. This action invalidates the option given to Stranahan, Harris & Co. of Toledo to take the \$2,500,000 4½% revenue bonds, which were to be issued to finance the purchase.

DES MOINES, Iowa-BOND SALE-The \$254.500 bonds described below, which were offered on Nov. 4-V. 145, p. 2724-were awarded to the Carleton D. Beh Co. of Des Moines as 334s, at par plus a premium of \$75, equal to 100.225, a basis of about 3.72%;

5375, equal to 100.225, a basis of about 3.72%;

 DETROIT, Mich.—C. I. O. CANDIDATE DEFEATED IN MAYOR-ALTY CONTEST—Patrick H. O'Brien, the condidate of the Committee for Industrial Organization in the city election on Nov. 2, was decisively defeated by Richard W. Reading in the contest for the office of Mayor. Mr. Reading's cause was supported by so-called conservative elements in the community. In addition to the defeat of Mr. O'Brien, the C. I. O.'s five condidates for membership in the Common Council were also rejected by the electorate. The circumstances surrounding the election produced the largest number of votes ever cast in a referendum involving purely local issues. A considerable part of the rather poor showing of Detroit bonds in the municipal bond market in recent months was attributed in some quarters to fear of the consequences of a C. I. O. victory in the municipal election-**ECORSE TOWNSHIP (P. O. Ecorse), Mich.**—BOND SALE DETAILS -H. V. Sattley & Co. of Detroit, which purchased on June 16 an issue of paid a price of par plus a premium of \$124.44, equal to 100.19, a basis of about 4.443%. The bankers took \$40,000 4¼s, due \$10,000 on June 15, 1944.

WOODBINE, N. J.—BONDS APPROVED WITH HIGHER INTEREST RATE—The State Funding Commission has approved an ordinance of the borough providing for an issue of \$34,000 44% funding bonds of 1937. The Commission pointed out that the coupon was originally fixed at 4%, adding, however, that in view of the borough's financial status the higher rate was not excessive.

NEW MEXICO

LORDSBURG, N. M.-BONDS AUTHORIZED-An ordinance has been adopted which gives the village authority to issue \$50,000 gas dis-tribution system revenue bonds.

NEW YORK

NEW YORK ANCOLA, N. Y.-BOND OFFERING-J. Henry Dye, Village Clerk, will receive bids until 2 p. m. Nov. 9 for the purchase at not less than par of \$10,000 coupon, fully registerable, general obligation, unlimited tax, judgment bonds. Bidders are to name rate of interest in a multiple of 4% or 1-10%, but not to exceed 5%. Denom \$1,000. Dated Nov. 1, 1937. Principal and semi-annual interest (May 1 and Nov. 1) payable at the Evans National Bank, Angola, with New York Exchange. Due \$2,000 yearly on Nov. 1 from 1938 to 1942. Certified check for \$200, payable to the village, required. Approving opinion of Clay, Dillon & Vandewater of New York will be furnished by the village. **BUFFALO, N. Y.-FINANCIAL STATEMENT-In** giving below a detailed report on the financial status of the above municipality, we wish to point out that the last public financing by the city occurred on Sept. 28, when \$1,10,000 3.20% bonds were awarded to Phelps, Fenn & Co. of New York and associates, at a price of 100.031, a basis of about 3.19%-V. 145, p. 2268: *Financial Statement-City of Buffalo-Aug*, 31, 1937

SENECA FALLS, N. Y.—BONDS DEFEATED—At the Nov. 2 election the proposal to issue \$165,000 hospital bonds was defeated, the vote being 323 for and 1,261 against.

323 for and 1.261 against. **TRIBOROUGH BRIDCE AUTHORITY, N. Y.**—*TRAFFIC RESULTS* **EXCEED** *PREVIOUS ESTIMATES AS TO VOLUME*—Figures showing volume of traffic over the Triborough Bridge for the first nine months of 1937 show substantial gains both over preliminary estimates of the current year's volume and the extent of traffic for the comparable months of 1936. The original estimate was that service charges on the Authority's \$53.-000,000 of outstanding bonds could be covered on a 1937 traffic volume of \$7,300,000, and that the total volume for the period would be 9,919,000 vehicles. However, according to the "Wall Street Journal" of recent date, actual figures for the first nine months show traffic of 8,298.015, close to 1,000,000 vehicles more than estimated volume to cover annual charges. Traffic results for the first three quarters also ran about 1245% higher than estimates for the period. For August and September, the only two months in which comparisons can be made with 1936 months, the volume was more than 28% higher than a year ago. During August and September, traffic volume was 1,191,084 and 1,090,-699, respectively, comparing with 926,373 and 840,071 for the like months allophic backs.

699, respectively, comparing with 926,373 and 840,071 for the like months of 1936. Passenger traffic on the Triborough is 25 cents a vehicle and the rate is slightly higher for commercial vehicles. The estimated average toll is 25.7 scents, indicating gross revenues for the bridge during the first nine months of \$2,132.519. Operating expenses are approximately \$500,000, which would leave \$1,632.519 as the approximate net income if no more vehicles used the facility for the remainder of the year. If traffic for the remainder of the year does not exceed the preliminary estimates, the total will be approximately 10,834,015, which would produce gross revenues of \$2,784,271 and net income of approximately \$2,284,271. A continuation of the traffic gain recorded during the first nine months would bring total traffic nearer 11,200,000, which, in turn, would produce gross revenues of about \$2,578,400. A comparison of traffic volume for the first nine months with figures for the months of 1936 in which the bridge was operated and with estimated traffic for the coming year follows:

* TROY, N. Y.—BOND OFFERING—Lawrence J. Collins, City Comptroller, will receive sealed bids until 11 a.m. (Eastern Standard Time) on Nov. 12 for the purchase of \$290,000 not to exceed 5% interest coupon or registered bonds, divided as follows:
\$150,000 general city bonds, series of 1937, issued to finance the city's share of the cost of various projects being undertaken in cooperation with State and(or) Federal agencies and for home relief purposes. Due \$15,000 each Oct. 1 from 1938 to 1947 incl.
140,000 debt equalization bonds, series of 1937, issued to refund a like amount of outstanding bonds for the purpose of equalizing the city's debt burden pursuant to Chapter 295 of Laws of 1935, as amended and supplemented. Due Oct. 1 as follows: \$15,000.
1943; \$40,000 in 1944 and 1945, and \$45,000 in 1946.
All of the bonds are dated Oct. 1, 1937. Denom. \$1,000. Bidder to name a single rate of interest on all of the bonds, expressed in a multiple of ¼ or 1-10 of 1%. Principal and interest (A. & O.) payable at the City Treasurer's office. The bonds are general obligations of the city, payable

om unlimited taxes. A certified check for \$5,800, payable to the order the city, is required. Approving legal opinion of Clay, Dillon & Vande-ater of New York City will be furnished the successful bidder. from unlimited taxes, of the city, is required Financial Statement

Financial Statement The assessed valuation of the property subject to the taxing power of the city is \$74,071,817. The total bonded debt of the city, including the above-mentioned bonds, but excluding \$150,000 temporary obligations of said city to be paid from the proceeds of sale of said \$290,000 bonds, is \$7,840,170, of which \$636,825 is for water debt. The population of the city (1930 census) was 72,763. The bonded debt above stated does not include the debt of any other subdivision having power to levy taxes upon any or all of the property subject to the taxing power of the city. The fiscal year commences Jan. 1. The amount of taxes levied for the fiscal years commencing Jan. 1, 1934, Jan. 1, 1935, and Jan. 1, 1936, was re-spectively \$3,833,124.94, \$3,739,969.74, and \$3,782,875.78. The amount of such taxes uncollected at the end of each of said fiscal years was re-spectively \$207,257.67, \$234,022.85, and \$249,581.66. The amount of such taxes remaining uncollected as of Nov. 1, 1937, is respectively \$136,-376.03, \$154,123.68, and \$202.447.86. The taxes of the fiscal year com-mencing Jan. 1, 1937, amount to 3,740,949.08, of which \$3,367,699.65has been collected.

NORTH CAROLINA

Easterling, Secretary of the Local Government Commission, at his office in Raleigh, for the purchase of two issue of coupon bonds aggregating \$120,000, divided as follows: \$22,000 sanitary sewer bonds. Due on Dec. 1 as follows: \$2,000, 1942, and \$4,000, 1943 to 1946.
98,000 public improvement bonds. Due on Dec. 1 as follows: \$6,000, 1940 to 1942; \$3,000, 1943 and 1944; \$9,000, 1945; \$10,000, 1946, and \$15,000 in 1947 to 1949.
Therest rate is not to exceed 6%, payable J. & D. Dated Dec. 1, 1937.
Prin, and int, payable in legal tender in New York City. Bonds are registerable as to principal only. A separate bid for each separate issue (not less than par and accrued interest), is required. Interest rate for any issue, and each bid must specify the amount of bonds of each rate. Bid smust interest cots to be city will determine the award of the bonds. Bids must accompany the bid. These bonds were approved by the voters at the election held on Oct. 5, as already noted in these columns—V. 145, p. 2585.
HICKORY, N. C.—BONDS VOTED—At the election held on Nov. 1

HICKORY, N. C.—BONDS VOTED—At the lection held on Nov. 1 —V. 145, p. 2112—the voters approved the issuance of the \$175,000 in water and sewer bonds by a wide margin, according to R. L. Hefner, City Manager. He says that the bonds will probably be offered in the spring.

water and sewer bonds by a wide margin, according to R. L. Hefner, City Manager. He says that the bonds will probably be offered in the spring. IREDELL COUNTY (P. O. Statesville), N. C.—BOND OFFERING— Sealed bids will be received until 11 a. m. on Nov. 16, by W. E. Easterling, Secretary of the Local Government Commission, at his office in Raleigh, Secretary of the Local Government Commission, at his office in Raleigh, for the purchase of a \$419,000 issue of coupon refunding road and bridge bonds. Interest rate is not to exceed 6%, payable J. & D. Denom. \$1,000. Dated Dec. 1, 1937. Bids may be submitted on either or both of the fol-lowing: (1) for the entire issue of \$419,000 bonds, maturing on Dec. 1; \$20,000, 1949 to 1953; \$40,000, 1954 to 1960, and \$39,000 in 1961; \$99,000 of the proceeds of the bonds maturing on Dec. 1; \$10,000, 1949 to 1953; \$22,000, 1954 to 1957; \$22,000, 1958 to 1960, and \$23,000 in 1961; \$99,000 of the proceeds of the bonds will be used to pay a like amount of road and bridge bonds maturing in 1938, and the proceeds of the remaining bonds, will be used to pay a like amount of refunding road and bridge bonds, dated Jan. 1, 1934, to be called for redemption on Jan. 1, 1938. Bidders are requested to name the interest rate or rates in multiples of 4 to 1%. Each bid must specify the amount of bonds of each rate and all bonds of each interest rate must be for consecutive maturities. The Local Government Commission must be for consecutive maturities the bids received, whether the award will be made for the \$419,000 bonds or the \$219,000 bonds, and the award will be made to the bidder offering to purchase the bonds at the lowest interest cost to the county. No bid of less than par and accrued interest rate of purchaser's choice. The approving opinion of Massitch & Mitchell, of New York, will be furnished. A certified cheek for 2%, payable to the State Treasurer, must accompany the bid. MADISON COUNTY (P. O. Marshall), N. C.—BONDS AUTHORIZED — The Board of Cournisioner has passed an order author

In chart's choice. A certified check for 2%, payable to the State Treasurer, must accompany the bid.
 MADISON COUNTY (P. O. Marshall), N. C. —BONDS AUTHORIZED — The Board of Commissioners has passed an order authorizing the issuance of \$70,000 funding bonds.
 NORTH CAROLINA, State of —SURVEY ISSUED ON FINANCES OF COUNTIES—Measured by the decrease in tax delinquencies, the financial position of North Carolina counties improved more during the year ended June 30 than in any year on record, according to a special study year ended June 30 than in any year on record, according to a special study year ended June 30 than in any year on record, according to a special study year ended June 30 than in any year on study of the State, of which the special of tax collections of 54 counties is complete for the past four years. Only 21.01% of the 1936-37 tax levy of \$13.053.944 for the 54 counties with complete tax collection records, remain uncollected compared with 30.65% for the like period in 1934, the report shows. The percentage of delinquency was reduced 5.21% from 1936 to 1937 while the best previous improvement, from 1934 to 1935, was 4.27%. "Or even greater interset to the taxpayer," the study states, "is the fact that the levy of \$13.053.944 fort in 1936-37 that the levy of \$13.053.944 which he was called upon to pay in 1936-37 that the levy of \$13.053.944 which he was called upon to far was \$10.755.922, or from \$11.54 per capita in 1929 to \$1.945.704 in 1937. as decrease of 2.4%. While this decrease seems small, it is because a number of counties of 2.4%. While this decrease seems small, it is because an under of counties devention of the counties of the city of Railey and 1937 assumed the indebtedness of the various districts within the county. Fifty-one of the 77 counties marker of counties the period, all of the offsetting rise being accounted for by the remaining 26."

RALEIGH, N. C.-BONDS AUTHORIZED-The Board of Commis-sioners of the City of Raleigh have passed an ordinance authorizing the issuance of \$80,000 refunding bonds.

SOUTH CAROLINA

DARLINGTON, S. C.—BONDS SOLD—It is stated by Jerome F. Pate, City Attorney, that \$41,000 4% semi-ann. sewage disposal plant bonds were sold on Oct. 27, at par. Due on Oct. 15 as follows: \$3,000, 1942, and \$2,000, 1943 to 1961.

\$2,000, 1943 to 1961. SOUTH CAROLINA (State of)—SCHOOL NOTES' VALIDITY TESTED—A friendly suit to test the constitutionality of \$1,350,000 worth of State notes of indebtedness has been started in the State Supreme Court by Charles D. Arthur, as a taxpayer, against Governor Olin D. Johnston and State Treasurer E. P. Miller. The indebtedness notes would be sold to finance a program of construc-tion at various State educational institutions. The notes, which will be retired at the rate of \$100,000 a year, were authorized by the last session of the legislature for the construction program. Notes whose constitutionality has been tested would be more favorable to purchasers and it is believed that better rates of interest might be ob-tained.

Dated Nov. 1, 1937. Due \$1,000 yearly on Nov. 1 from 1940 to 1954.

JOHNSON CITY, Tenn.—BOND PAYMENT FUNDS AVAILABLE JOHNSON CITY, Tenn.—BOND PAYMENT FUNDS AVAILABLE and holders of coupons of any such bonds, are being advised that funds are now available for the immediate payment of the principal of the bonds and all unpaid coupons maturing on or before Dec. 1, 1937. From and after that date no interest will accrue or be payable in respect to any of the bonds of this issue and no amounts are payable or will become payable in respect of coupons bearing maturity dates later than Dec. 1, 1937. The said bonds and coupons bearing maturity dates later than Dec. 1, 1937. The said bonds and coupons should be presented for payment and cancellation to the cor-porate trust department, Chemical Bank & Trust Co., acting as trustee, 165 Broadway, New York.

MEMPHIS, Tenn.-BOND OFFERING-Sealed bids will be received until 2:30 p.m. on Nov. 23 by D. C. Miller, City Comptroller, for the purchase of two issues of coupon bonds aggregating \$1,239,000, divided as follows:
 1.085,000 sanitary intercepting sewer bonds. Due \$35,000 from Nov. 1, 1938 to 1968 incl.
 154,000 school building bonds. Due \$14,000 from Nov. 1, 1938 to 1948 incl.
 Interset rate is not to exceed 6%, payable M. & N. Denom. \$1,000.

154,000 school building bonds. Due \$14,000 from Nov. 1, 1938 to 1948 incl.
Interest rate is not to exceed 6%, payable M, & N. Denom, \$1,000.
Dated Nov. 1, 1937. It is reported by the said Comptroller that these bonds are all general liability bonds, payable from all general revenues. Principal and interest payable in lawful money at the City Hall in Memphis, or at the Chemical Bank & Trust Co. in New York, at the option of the holder. The bonds may be registered as to principal only or may be discharged from registration and again registered at will. The bidder will charged from registration and again registered at a par and all bonds will be are the same rate of interest. This is to be construed as prohibiting a split rate of any single issue, both issues, however, are not required to bear the same rate of interest. No bid will be considered unless it is a bid for all the bonds. The lowest net interest cost to the city will determine the award. The approving opinion of Thomson, Wood & Hoffman of New York will be furnished. Delivery will be furnished and bidders are required to submit bids in triplicate. The bonds will be sold for not less than par and accrued interest. No bid we furnished and bidders are required to submit bids in triplicate. The bonds will be sold for not less than par and accrued interest. No arrangement can be made for deposit of funds, commission, brokerage fees nor private sale. A certified check for 1% of the amount of bonds bid for, payable to the city, is required.
(This report supplements the offering notice given in these columns recently—V. 145, p. 2895.)

ALBERTA (Province of INTEREST REDUCTION ON GUARANTEED SECURITIES HELD INVALID—The Act reducing interest on Province of Alberta guaranteed securities by 50% has been ruled ultra vires by Justice Ewing in Alberta Supreme Court. A second measure requiring the Attorney General's consent for court action to collect full interest was also invalidated.

CANADA (Dominion of)—TO FLOAT LOAN—A new Dominion loan of \$100,000,000 for refunding in part outstanding \$122,799,800 uncon-verted $5\frac{1}{2}$ % victory loan bonds maturing on Dec. 1 next, will be opened for public subscription Nov. 3, the balance of \$22,799,800 will be paid in cash.

for public subscription Nov. 3, the balance of \$22,799,800 will be paid in cash.
 TREASURY BILLS SOLD—An issue of \$25,000,000 Treasury bills was sold on Oct. 29 at an average yield of 0.781%. Due Feb. 1, 1938.
 OCTOBER FINANCING—Including an issue of \$25,000,000 of Dominion Government Treasury bills on which tenders were received on Oct. 29, Canadian Government, provincial and municipal financing for the month of October will amount to \$50.627,048, compared with total financing of \$111,881,900 in the same month last year and \$60,586,900 during October 1935, according to figures compiled by Wood, Gundy & Co., Ltd. Aside from the two issues of \$25,000,000 each of Treasury bills issued for refunding purposes very little other financing has been done.
 Canadian financing for the first 10 months of this year amounted to \$859,808,635, of which \$810,040,250 was for refunding purposes and \$45,535 was for new money, and compares with \$942,601,265 in the first 10 months of tast year and \$686,139,875 in the same period of 1935.
 CANADA (Dominion of) — \$100,000,000 CONVERSION LOAN

was for new money. This total compares with \$214,453,724 in the same period of 1936 and \$33,342,000 in 1935.
CANADA (Dominion of) — \$100,000 CONVERSION LOAN HEAVILY OVERSUBSCRIBED—The Government's conversion loan bond issue of \$100,000,000, subscriptions to which were opened on Wednesday, Nov. 3, was heavily oversubscribed before the close of business on that day, according to Charles P. Dunning, Minister of Finance, who expressed him-sectived. Proceeds of the financing, together with available cash in the Treasury, will be used to redeem on Dec. 1, 1937, a total of \$122,799,800
5½% Victory bonds, these being the last of the tax-free bonds issued by the Government during the war. About \$113,500,000 of such obligations previously had been converted last May.
The current operation involved an offering of 1% bonds, due June 1, 1939, priced at 99,125 to yield about 1.59%; 7-year 2½% bonds priced at \$9,50 to yield about 2.74%, and 14-year 3½% spriced at 99 to yield about 2.74%. And the eacepted for subscriptions to the refunding bonds on the basis of par. In announcing closing of subscription books, Mr. Dunning stated that he had accepted the and so f \$4,500,000,000 of 7-year 2½%.
Commenting on the success of the offering, A. E. Ames & Co. of Toronto declared that the saving to the Government both in interest charges and through elimination of the tax-exemption feature which applied to the maturing debt will be in the neighborhood of \$4,500,000 annually.

Induct elimination of the tax-exemption feature which applied to the maturing debt will be in the neighborhood of \$4,500,000 annually.
 JOLIETTE, Que.—BOND OFFERING—Scaled bids addressed to Camille Bonin, Secretary-Treasurer, will be received until 8 p. m. on Nov. 8 for the purchase of \$45,000 3½% improvement bonds. Dated Nov. 2, 1937, and due serially in 30 years. Interest payable semi-annually.
 NIACARA FALLS, Ont.—REFUNDING PLAN ANNOUNCED—A plan for removing the city of Niagara Falls, Ont., from the list of defaulted municipalities has been announced by the Guaranty Trust Co. of Canada, fiscal agents for the city. Adoption of the plan is conditional upon ime debentures to raise a portion of the funds needed.
 Matured debentures totaling \$1,178.318 by the end of 1937, are to be paid in cash. Funds for this will be provided to the extent of \$678,318 from cash on deposit in the city's reserve account. It is expected that this will have been increased to slightly over \$600,000 by the end of 1937. Any cash necessary over the amount available will be provided by the Imperial Bank at 4½%.
 It is proposed to raise the balance, amounting to \$500,000, by an exchange by those holders of matured debentures serially within 15 order of matured debentures who are willing to do so for a new 4½% bond issue of the same amount, to mature serially within 15 order of maturies, the 15-year bonds being the first to be called.
 Mo change would be made in unmatured debentures which would be paid as they become due.

QUEBEC, Que.-BOND ISSUE REPORT-Eugene Barry, City Treas-urer, states that L. G. Beaubien & Co. of Montreal are underwriting the issue of \$4,500,000 bonds mentioned in these columns recently.

issue of \$4,500,000 bonds mentioned in these columns recently. **TADANAC DISTRICT, B.** C.—BOND ELECTION—The ratepayers will be asked to approve an issue of \$76,492 high school construction bonds. **THREE RIVERS, Que.**—BIDS REJECTED—BONDS OFFERED LOCALLY—J. U. Gregoire, Secretary-Treasurer of the Catholic School Commission, informs us that bids were rejected for the \$125,000 30-year serial bonds offered oct. 25. Tenders were asked for 314 % and 4 % bonds. The issue is now being offered over the counter at par, to bear 4 % interest, dated Nov. 1, 1937 and mature as follows: \$1,000, 1938 to 1942 incl.; \$2,000, 1943 to 1947 incl.; \$3,000 from 1948 to 1951 incl. and \$98,000 in 1952. WINDSOR Opt.—TAX COLLECTIONS—Marked improvement in

WINDSOR, Ont.—TAX COLLECTIONS—Marked improvement in tax collections so far this year is reported City Treasurer A. E. Cock. The amount of current taxes collected as of Sept. 30 wa \$3,003,029.
 Prom Oct. 1 to 9, an additional amount of \$77,509 was collected. In addition to this, the arrears collected to Sept. 30 were \$882,664, while be-tween Oct. 1 and 9 a total of \$19,818 was collected. The an ount collected on the current taxes, represents 77.3% of the total roll. The total tax levy in 1937 was \$3,987,196.
