REPUBLIC OF CHILE

An offer to holders of the following bonds is being made, by means of a Prospectus dated August 10, 1939, pursuant to Law No. 5580 of January 31, 1935 of the Republic of Chile and Decrees issued pursuant thereto:

CHILEAN CONSOLIDATED MUNICIPAL LOAN Thirty-one Year 7% External Sinking Fund Bonds, Series A, 1929 (dated September 1, 1929)

CITY OF SANTIAGO, CHILE, Twenty-one Year 7% External Sinking Fund Bonds (dated January 2, 1928)

CITY OF SANTIAGO 7% External Sinking Fund Bonds of 1930 (dated May 1, 1930)

As set forth in the Prospectus, the holders of the above bonds with all matured and unpaid coupons are entitled to receive in exchange therefor an equal principal amount of bonds, stamped under the aforesaid Law and Decrees, on which the Government of Chile will be sole debtor, together with stamped coupons against which subsequent payments in respect of interest will be made under said Law and Decrees, and, if the exchange is made on or before August 10, 1940, \$39.58½ in cash per \$1000 bond, being the aggregate of payments in respect of interest heretofore announced in the years 1936, 1937, 1938 and 1939.

Copies of the Prospectus and letter of transmittal may be obtained from the Correspondent of the undersigned in New York City, Schroder Trust Company, 46 William Street, New York, N. Y.

The **EXPANDIT** Binder

A Practical and Serviceable Binder for your Magazines and Periodicals.

The "Expandit" Binder is so constructed that it will always open flat, whether it be filled to its capacity of six-inch expansion, or whether it contains only one issue.

Its back is adjustable to the size of the number of issues it contains, thereby eliminating all waste space and adding greatly to its appearance. This is an exclusive feature. The magazines are held in place by means of a wire holder, and can be inserted in less time than it takes to tell about it, without punching holes, pulling strings, or mutitating the copies in any way.

Successive or intervening issues may be inserted without the necessity of disturbing other issues. You handle only the particular copy that you desire to insert or remove, the others remain in their proper position.

Whether an issue be thick or thin, the "Expandit" Binder is adjustable to its thickness. It embodies every feature that has proved of practical value and it avoids all that are objectionable.

In sizes up to 13x814 inches

Price \$2.00 each
Plus postage

How Much Do You Need?

All men know that life is uncertain. Most men believe that their families should be provided for. In this day and age many men believe that life insurance is the only sure way to do this, and accordingly have made suitable arrangements with a strong institution like the Massachusetts Mutual for some protection at least.

But the question arises in the minds of most men:—"Have I enough; have I made adequate provision?"

We are equipped to help you lay out a complete and workable program of life insurance that will fit your requirements and your pocketbook. This modern method of fitting life insurance to one's needs is meeting with universal favor.

The Financial Situation

THE PRESIDENT, who for six long years has been repeatedly giving hostages to fate, came forward under connubial promptings during the week with the charge that those members of Congress who would not permit his latest spending-lending bill to reach the statute book during the past session were in effect placing a wager that business would so improve prior to next winter

and spring that some millions who, according to the President, will under the laws now in force have to be dropped from relief and other Government payrolls will be able to find private employment. The wager, adds the Chief Executive, is not only a large one, but one which closely touches the welfare, even the economic existence, of many millions of people. He hopes that those groups which have placed this wager will win, and incidentally that business which has been asking for an opportunity to show what it can do will respond with full vigor, but it is evident that he expects no such thing, and he continues ominously that the public will know where to place the responsibility should the results he evidently expects actually eventuate.

Without the record of the past few years, all this would be incredible, but incredible or not it faces the public, particularly the business community, with a situation which must not pass unnoticed or neglected. The President is launching his campaign designed to procure passage of his \$3,860,000,000 spending-lending bill when Congress convenes next year. With the political foresight and shrewdness he has often revealed, he

is undertaking in advance to arouse his relief army of voters and marshal it against those who would endeavor even at this late date to place some limit upon profligacy. He is asking the impossible of business, and will without question be quite prepared to proclaim its failure to meet his specifications. His opponents in and outside of Congress have so far remained silent for the most part, or when they have spoken, have tried to avoid a direct trial of political arms. The time to get the truth before the public is at hand, and this task will not

be furthered by silence, or by "wincing and relenting and refraining" in political timidity.

It is another case where the truth plainly spoken is of all weapons the best. It is the President who has consistently almost from the very beginning "gambled" with the welfare not only of the needy but of the entire country. It is he who has come forward with, and persuaded the country to accept,

Motion and Progress

"It has been said," the President told the Young Democrats of America, "that a great many voters today want us as a nation to stop, look and listen. What they fail to understand is that nations cannot stand still, because by the very act of standing still the rest of the procession, moving forward, inevitably leaves them in the rear. Therefore, their desire to stand still actually means moving backward in relation to the rest of the world."

What the President appears not to understand, and always has appeared not to comprehend, is the fact that motion and progress are not necessarily one and the same thing. He, together with many of his New Deal followers, have always seemed to presuppose that anything foreign nations do is progress, and that should we not at once or even in advance do precisely the same thing, we should be "falling behind the procession."

He complains that what he calls reactionaries want to undo "what we have accomplished in these last few years," and leaves his hearers to take for granted that to retrace one's steps is to retrograde. Apparently it

He complains that what he calls reactionaries want to undo "what we have accomplished in these last few years," and leaves his hearers to take for granted that to retrace one's steps is to retrograde. Apparently it never occurs either to the President or any of his followers that neither they nor any other group of human beings is infallible, and that to undo what has been done in recent years, or a major part of it, as the "reactionaries" desire, would be much more nearly progress toward his own "objectives" than to continue along the course that we have been following.

The President in referring during the week to his court packing program of two years ago asserted that the means by which objectives are obtained are not of first rate importance. Does it never occur to him that there are methods other than his own of improving the condition of the "under-privileged third," of providing for the indigent aged, or of reaching all the humanitarian objectives of which

he is so fond of speaking?

The truth of the matter is that in this country at least great progress has been made in all these directions during the past century, even during the past quarter of a century—that is, long before the inauguration of the New Deal—and that this progress was achieved by methods which the President is now inclined to scorn as the "ancient habits" of the "reactionaries." He comes forward with a wholly different set of methods, but does not take the trouble to demonstrate how his procedures can be expected to prove more effective than the older policies.

It would not be difficult to show that many

It would not be difficult to show that many of those he labels "reactionaries" are in fact much more "liberal" than he himself is, even if his own definition of liberalism is accepted.

measures which had not the slightest support in experience as a mode of restoring business to normal or of permitting business to restore itself to normal. The wise physician is the one who when confronted with a condition applies those remedies and curative processes which experience has disclosed to be most effective. It is the ignorant member of the profession who does not know what these treatments are, and it is the charlatan who, knowing what they are, rejects then in favor of untried new ideas developed in his own brain or suggested to him by laymen without thorough grounding in knowledge and experience. These latter are the ones who wager the life of the patient "on the hunch" that they may be able to achieve a miracle.

The Record

The record speaks eloquently for itself. The President, who during his 1932 campaign had more than once spoken of the needs for economy in governmental operations, in his first inaugural in fine phrases denounced the "money-changers," who he said could think of no better remedy for a situation caused by over-indebtedness than further debt. He very promptly

called a special session of Congress to make possible, among other things, a reduction in the expenditures of the Federal Government. But it was not long before the spenders had his ear, and the inflationists had won his confidence. No greater length of time was required for certain other groups to convince him of some of the major tenets of the economic planners. The results were astounding. In the abandonment of the gold standard the New Deal quite definitely wagered a monetary system whose construction had required centuries that tinkering

with the currency would induce recovery. In repudiating the gold clauses in outstanding Government bonds, and in confiscating gold then the property of private citizens the honor of the country was thrown into the pot. The National Industrial Recovery Act was a gamble that methods never heretofore tried on any scale remotely approaching those of the NIRA would powerfully aid in the same cause.

The Administration likewise soon began to direct outlays of hitherto unprecedented (in peace times) proportions. Forgotten were the President's own earlier words to the effect that sound conditions were to be sought in precisely the opposite direction. During his campaign or during his first few weeks in office he might well have said if the occasion had arisen that he would add extensively to already staggering debt if the nation would place a wager involving the economic life-blood of the nation that recovery could be bought with the very coin which had produced the depression. But all this sound common sense, or what seemed to be such, was soon lost, and during the Administration's first full fiscal year expenditures of the Federal Government, which the year before had amounted to some \$3,864,000,000, reached the staggering total of over \$6,000,000,000, and the deficit, which during the previous year totaled about \$1,784,000,000, was recorded at \$2,895,000,000. Of course, these additional funds were requested and were expended in the name of both relief and recovery, but the notion that the two were closely intertwined if not almost identical by reason of additions to "purchasing power" thus provided ran like a scarlet thread through most of the public discussions of that time.

The President at the outset had stated quite frankly that much of this program was experimental, that if it did not have the results expected he would be the first to suggest a change of policy—an assertion almost the equivalent of admission that he was wagering on certain ideas or "hunches" that he had developed or which had been brought to him. And the results? Who won the wager? Of course the panicky conditions of March, 1933 passed in due course, and the banking system began to function again, indeed, superficially considered, it was restored to a fair degree of soundness before June 30, 1934, but the restoration was much more apparent than real as all careful students of banking well understand. As to the rate of activity in general, note that carloadings for the last week in the 1934 fiscal year were 283,765, against 281,747 a year earlier; the wholesale price index of the Department of Labor at the end of the year was practically unchanged from a year earlier; power output was running about 2% higher than a year earlier; crude oil production was for all practical purposes unchanged; June, 1934 production of steel ingots was slightly over 3,000,000 tons, against 2,564,000 a year earlier; weekly coal production had risen about half a million tons; department store sales were about 9% higher; lumber shipments were down 42%and orders 51%; the motor industry showed substantial improvement, and a few other branches were reporting an appreciably higher rate of activity than was the case a year earlier. It is impossible to present an accruate statistical picture of employment. Some improvement had occurred, but all agree that no really major change had taken place in the unemployment situation.

The Administration had lost its wager.

The Second Year of Wagers

The succeeding years were like unto the first. The fiscal year ended June 30, 1935, found still larger wagers being placed. Even ordinary expenditures which the President the year before had been at so much pains to hold within rigid limits began to rise substantially-and have been rising ever since and are still rising. The total expenditures for this period amounted to over \$7,000,000,000 and the deficit to \$3,210,000,000. Meanwhile it had grown quite customary for New Deal managers to iterate and reiterate that so-called reform measures, such for example as the securities Acts, far from restricting business activity would by increasing the confidence of the public in the securities markets substantially further recovery. The practice of adding individual liberty to the "pot" which had begun with confiscation of gold and the National Industrial Recovery Act was being continued and pushed to further extremes.

And the results of another year of these experiments? The record again discloses variations in the comparisons with the previous year. On the whole probably, activity and employment were greater at the end of the year than at its beginning, but no one, not even an ardent New Deal advocate, would seriously contend that a really fundamental or drastic change had occurred.

The President had lost another heavy wager.

The Third Year

But the New Deal managers were still in a gambling mood. Nothing in the experience obtained during the previous year or two with novel and extraordinarily expensive expedients in the least suggested that despite the teachings of history profligacy would point the way to plenty, but the total of Federal expenditures during the year ended June 30, 1936. (with the aid of the veterans' bonus for which the President was not directly responsible) was \$8,-666,000,000 and the deficit \$4,550,000,000. Ordinary expenditures (excluding the bonus) and relief outlays again rose. By mid-year 1936 there had been sufficient improvement to make the President quite confident that "we are on our way" back to prosperity, and for the reason that "we had planned it that way." But although there had been marked enlargement in business activity in many directions, unemployment was almost as much of a problem as it had ever been, and thoughtful elements in the population were not nearly so sanguine as was the President about the outlook. In less than a year events proved the business community right and the President wrong. The boom that seemed to be in the making was abortive. It had little real substance.

The President had lost another wager.

Although it was not until near the close of the period that evidence began to appear that another depression (then termed a "recession") was developing the wager on full business recovery, which had been arranged at an earlier date was again duly posted for the next year. Federal expenditures for the fiscal period ended June 30, 1937, totaled \$8,442,000,000, which if adjustment is made for the bonus payments was a new record even for the New Deal managers. The deficit for that year was \$3,148,000,000. By the end of the year it

appeared to the thoughtful that business was "on its way"—down grade.

The President had lost another wager.

He had, however, begun to talk about balancing the budget—but not so much by reducing expenditures as by increasing revenue. He succeeded in slightly reducing outlays for a time, but before the expiration of the fiscal year 1938, during which expenditures amounted to \$7,626,000,000, he appeared before Congress with an admission that another depression had developed and with a proposal to wager huge sums that profligacy despite all experience, recent and ancient, would bring a cure. His program was adopted by Congress, and during the year ended June 30 last expenditures reached another all-time high (except in war) at \$9,210,000,-000, and the deficit, \$3,542,000,000. This time the additional outlays were especially planned by New Deal managers, not so much to furnish relief as to induce recovery. At the end of this period of experiment business was better than the year previous, but was still far from normal. Unemployment has remained about as much in the public eye as it was when the New Deal began.

The President had lost another wager.

Then on June 21, 1939, despite the fact that the regular budget as originally submitted called for an expenditure of \$8,995,000,000 during the current fiscal year, and notwithstanding that at the time the suggestion was made, it was quite clear that Congress not only would not pare the budget total but add to it the President came forward with a proposal that another \$3,860,000,000 be wagered that profligacy would induce recovery. Congress wisely refused for the time being at least to be a party to any such plan. Now the President says that his opponents who succeeded in preventing him from laying the wager are themselves the gamblers!

It is perhaps any one's right to twist the truth to make a trap for fools, but it is also the right of the public not to step into the trap.

Federal Reserve Bank Statement

ANOTHER set of high records makes its appearance this week in the official banking statistics, but the records relate entirely to the over-full reservoir of idle funds. Member bank reserve balances increased \$96,120,000 in the week ended Aug. 9, principally because of gold imports, use by the Treasury of accumulated gold, and a sharp decline of \$61,943,000 in "other deposits" with the 12 Federal Reserve banks, the latter change probably reflecting the need for protecting foreign exchanges in the current European crisis. Currency in circulation moved up \$16,000,000, and the Federal Reserve banks continued their recent practice of lowering open market holdings of Treasury discount bills, but these items were only minor offsets to the factors making for an increase of idle funds. In these circumstances excess reserves of member banks over legal requirements moved up \$70,000,000 in the statement week to \$4,530,000,000, which is the highest level ever noted. But the member banks continue to find little outlet for their available resources. The statement of the weekly reporting member banks in New York City shows an increase of business loans by \$26,000,000 to \$1,464,000,000. The gain appears to result, however, from corporate borrowing on medium-term maturities, for the purpose of redeeming obligations outstanding in the

ordinary capital market. Brokers' loans on security collateral fell \$17,000,000 to \$484,000,000.

Federal Reserve authorities again permitted the open market portfolio of United States Government securities to recede through non-replacement of Treasury bills, the decine this week amounting to \$10,505,000. Since the program was started late in June, owing to technical conditions in the bill market, the holdings have fallen \$121,101,000. Total open market holdings of Treasury obligations now are \$2,442,914,000, while open market holdings of bankers' bills were unchanged this week at \$545,000. Monetary gold stocks of the country increased \$22,-000,000 in the week, to \$16,270,000,000. The Treasury, however, deposited \$44,998,000 gold certificates with the regional banks, raising their holdings of such instruments to \$13,914,220,000. With other cash little changed, total reserves of the regional banks increased \$43,905,000 to \$14,271,733,000. Federal Reserve notes in actual circulation moved up \$19,974,000 to \$4,550,689,000. Total deposits with the regional banks advanced \$11,145,000 to \$11,949,-806,000, with the account variations consisting of an increase of member bank reserve balances by \$96,120,000 to \$10,509,003,000; a decline of the Treasury general account by \$19,194,000 to \$844,-268,000; a drop of foreign bank deposits by \$3,838,000 to \$307,298,000, and a fall of other deposits by \$61,943,000 to \$289,237,000. The reserve ratio increased to 86.5% from 86.4%. Discounts by the regional banks were up \$258,000 to \$4,918,000. Industrial advances were off \$81,000 at \$11,665,000, while commitments to make such advances fell \$66,000 to \$11,337,000.

Government Cotton Report

HE first official estimate of cotton production in the United States coincides fairly closely with the earlier expressed views of private forecasters, and is not far removed from the amount that seemed in prospect on the basis of the incomplete data available a month earlier. The 11,412,000 bales output now forecast for this year will be produced from an exceedingly small planted area, as was indicated in the acreage statement issued last month, but the yield per acre this year will be considerably higher than average, although smaller than in the preceding two years. On the basis of present circumstances an average of 223.7 pounds of cotton are expected to be yielded by each seeded acre, compared with 235.8 pounds in 1938, and an average of 190.8 in the 10 years 1928-37. In 1938 11,943,000 bales of cotton were harvested, while in the 10-year period 13,800,000 bales were produced. The condition of the crop as of Aug. 1 was 74% of normal compared with 78% on that date in 1938 and a 10-year average of 70%.

Hopes were expressed in Washington of reducing the record surpluses of American cotton of around 14,250,000 bales. Such anticipation was based on the calculated expectancy that domestic consumption and foreign takings would exceed the current crop. While such prospects are not unreasonably founded, especially in view of the program for subsidizing exports, it is hardly to be expected that the possible million or so bales reduction in the carryover a year hence will be a substantial improvement in the statistical position of the staple.

The position of cotton would seem to substantiate the criticism of all the New Deal planned crop measures, for with all the official thought, money and persuasion, with all the elaborate schemes that have been concocted, cotton today, and in prospect, is in a position which even a New Dealer would have difficulty in proving is superior to what a "laissez faire" program would have produced. Yet we find officials of the Government pointing to the fact that a minor reduction in surplus is to be expected. All things considered, it is a fitting parallel to the mountain which labored and brought fourth a mouse.

The market received the report with a drop of about \$1 a bale in price, although the Government figure was somewhat lower than those given out earlier by private estimators.

The New York Stock Market

STOCK prices on the New York market drifted lower this week notwith the lower this week, notwithstanding the good impression created by the adjournment of Congress, last Saturday, at the height of a wave of New Deal antagonism. The principal cause of the downward trend plainly was the uncertainty about Europe's tug-of-war over the small Free City of Danzig. Fears that the war of "nerves" might break into an outright military struggle dominated all markets. In New York the worriment brought about a trickle of liquidation, which met little buying power, for all interests preferred to remain aloof until the course of European events becomes clearer. There is, moreover, a good deal of uncertainty regarding the future course of business within the United States. Although the rate of activity attained in the spring is being well maintained, fresh gains are lacking, as yet. The dulness of the market was accentuated also by the vacation period. Trading averaged only 500,000 shares on the New York Stock Exchange in the full sessions of the week now ending, which is a rate that impoverishes member firms. Indicative was a sale of a seat on the Big Board, Wednesday, at \$52,000, which is only \$1,000 over the recent low.

Tendencies toward lower levels were apparent from the start of trading, Monday. Prices were marked downward in that session, partly on a precautionaly basis, for the cables from Europe reflected the developing crisis over Danzig. After a hesitant session on Tuesday, the decline was resumed in the mid-week dealings. When it appeared that Chancellor Hitler is unlikely to force the Danzig issue to the breaking point at the present time, better demand developed for stocks. The rally occurred yesterday, but was tempered by the suspension of the large Amsterdam underwriting house of Mendelssohn & Co., an event which occurred only two days after the death in Paris of the managing director, Fritz Mannheimer. Although all reports indicated that the suspension is unlikely to occasion international repercussions, some nervousness prevailed and held the rally here to small proportions. Net changes for the week in leading stocks consisted of losses ranging from one to three points. Less active issues were off only a little.

In the listed bond market trading was at a low ebb, with small downward variations the rule in all groups. United States Treasury issues slowly receded, owing to the European reports and the belief that new money will be borrowed by the Treasury next month. Best rated corporate liens moved fractionally lower. New issues of the week were

sizable, but investment bankers found the reception good. Among speculative railroad, traction, utility and industrial bonds the losses were more pronounced than in investment bonds. Foreign dollar obligations were weak, at times, owing to the perils of the European situation. In the commodity markets the leading food staples were relatively steady, as against fluctuations of previous weeks. Base metals were well maintained. Foreign exchange dealings reflected the inevitable tendency of European crises to produce a flow of funds to the United States. The leading units were rigidly controlled by the various stabilization funds, and admitted gold movements were small, but there were various indications of a spurt in the flow of money across the Atlantic.

On the New York Stock Exchange 33 stocks touched new high levels for the year while 42 stocks touched new low levels. On the New York Curb Exchange 42 stocks touched new high levels and 23 stocks touched new low levels. Call loans on the New York Stock Exchange remained unchanged at 1%.

On the New York Stock Exchange the sales at the half-day session on Saturday last were 236,980 shares; on Monday they were 518,670 shares; on Tuesday, 448,760 shares; on Wednesday, 467,510 shares; on Thursday, 699,730 shares, and on Friday, 700,890 shares.

On the New York Curb Exchange the sales on Saturday last were 42,205 shares; on Monday, 92,955 shares; on Tuesday, 81,270 shares; on Wednesday, 90,210 shares; on Thursday, 122,260 shares, and on Friday, 89,705 shares.

Narrow trading characterized last Saturday's session on the Stock Exchange following a day of profit-taking on Friday. Prices at the start reflected further recessions, but steel and copper issues went against the trend. Other groups followed later on under their leadership to show gains at the close of the first hour. Trading in the second hour was slow and revealed no significant trend. Equities, though off a trifle from the day's peak, were fractionally higher at closing time. A better feeling on Monday lifted prices moderately higher in the initial session, but the movement was abruptly terminated by a spurt of liquidation which cut into stocks by fractions upwards of two points. The selling wave soon petered out, but recovery was slow in taking hold, and prices closed lower. Slightly better levels attended the opening on Tuesday, but within a short time the market turned irregular and trading volume diminished.

Late in the day modest recovery took form and the session ended with irregularly improved prices. No change of consequence occurred in the market tone on Wednesday, barring the presence of a greater spirit of caution among traders. This was followed by some slight downward revision in the scale of prices. On Thursday increased tension over the Danzig problem caused heavy liquidation here at home and stocks gave up almost three points before the situation was under control. Following the second hour, trading slackened and values, with some difficulty, recovered about one point of their former losses, ending the period steadier, although lower. After a higher opening on Friday, prices again receded, induced by foreign selling brought on by the failure of a large banking house in Amsterdam. The market tone hardened in late transactions, and while closing prices showed improvement, losses predominated.

As compared with the closing on Friday of last week, closing prices yesterday reflect a loss of ground for the week. General Electric closed yesterday at 361/8 against 371/4 on Friday of last week; Consolidated Edison Co. of N. Y. at 321/8 against 31; Columbia Gas & Electric at 71/4 against 75/8; Public Service of N. J. at 403/8 against 403/4; International Harvester at 51½ against 51½; Sears, Roebuck & Co. at 761/4 against 781/8; Montgomery Ward & Co. at 491/2 against 513/4; Woolworth at 47% against 481/2, and American Tel. & Tel. at 1631/2 against 1671/8. Western Union closed yesterday at 251/2 against 251/8 on Friday of last week; Allied Chemical & Dye at 161 against 1711/2; E. I. du Pont de Nemours at 1573/4 against 1603/4; National Cash Register at 171/2 against 181/2; National Dairy Products at 171/8 against 173/4; National Biscuit at 26 against 26; Texas Gulf Sulphur at 27% against 28%; Continental Can at 381/2 against 391/8; Eastman Kodak at 1701/8 against 172; Standard Brands at 63/8 against 63/8; Westinghouse Elec. & Mfg. at 103¼ against 108½; Lorillard at 23½ against 23½; Canada Dry at 18½ against 181/8; Schenley Distillers at 121/4 against 121/2, and National Distillers at 23% against 241/4. In the rubber group, Goodyear Tire & Rubber closed yesterday at 271/2 against 28 on Friday of last week; B. F. Goodrich at 195% against 177%, and United States Rubber at 43 against 431/2. The railroad shares tended lower this week. Pennsylvania RR. closed yesterday at 163/4 against 18 on Friday of last week; Atchison Topeka & Santa Fe at 261/4 against 27%; New York Central at 14 against 143/4; Union Pacific at 95 against 981/4; Southern Pacific at 13% against 14%; Southern Railway at 16 against 161/2, and Northern Pacific at 91/8 against 93/4. The steel stocks also touched lower levels the present week. United States Steel closed vesterday at 471/2 against 491/2 on Friday of last week; Crucible Steel at 30¾ against 31%; Bethlehem Steel at 581/2 against 60, and Youngstown Sheet & Tube at 391/2 against 403/4. In the motor group, Auburn Auto closed yesterday at 11/2 against 2 on Friday of last week; General Motors at 461/2 against 473/8; Chrysler at 79% against 80%; Packard at 31/2 against 35%, and Hupp Motors at 34 against 1. Among the oil stocks, Standard Oil of N. J. closed yesterday at 401/8 against 407/8 on Friday of last week; Shell Union Oil at 105% against 107%, and Atlantic Refining at 191/2 against 193/4. In the copper group, Anaconda Copper closed yesterday at 25% against 261/2 on Friday of last week; American Smelting & Refining at 431/4 against 451/2, and Phelps Dodge at 37 against 391/4.

Trade and industrial reports remain inconclusive as to future business trends. Steel operations for the week ending today were estimated by American Iron and Steel Institute at 60.1% of capacity against 59.3% last week, 49.7% a month ago, and 39.4% at this time last year. Production of electric power for the week to Aug. 5 was reported by Edison Electric Institute at 2,325,085,000 kwh., against 2,341,822,000 kwh. in the preceding week and 2,115,947,000 kwh. in the corresponding week of last year. Car loadings of revenue freight for the week to Aug. 5 are reported by the Association of American Railroads at 661,136 cars, a gain over

the previous week of 1,372 cars, and over the similar week of last year of 77,074 cars.

As indicating the course of the commodity markets, the September option for wheat in Chicago closed at 641/4c. against 64c. the close on Friday of last week. September corn at Chicago closed yesterday at 43c. against 421/8c. the close on Friday of last week. September oats at Chicago closed yesterday at 28%c. against 271/4c. the close on Friday of last week.

The spot price for cotton here in New York closed yesterday at 9.39c. against 9.55c. the close on Friday of last week. The spot price for rubber yesterday was 16.58c. against 16.70c. the close on Friday of last week. Domestic copper closed yesterday at 101/2c., the close on Friday of last week. In London the price of bar silver closed yesterday at 17 1/16 pence per ounce against 16 11/16 pence per ounce the close on Friday of last week, and spot silver in New York closed yesterday at 351/8c. against 34%c. the close on Friday of last week.

In the matter of foreign exchanges, cable transfers on London closed yesterday at \$4.681/8, the close on Friday of last week, and cable transfers on Paris closed yesterday at 2.65c., the close on Friday of last week.

European Stock Markets

H ARDLY any business was done this week on stock exchanges in the leading European financial centers, owing to the universal fears of warfare. Traders and investors at London, Paris and Berlin merely sat on the sidelines, as another crisis developed over the Free City of Danzig. It would seem, moreover, that the position is not likely to change for some weeks or months to come, since all of Europe is under arms and faces problems of demobilization, if war does not develop, which will be almost as difficult as those of war itself. The trend of prices in the European markets also reflects these overwhelming considerations of war or peace. Although industry is humming, much of the activity is due to armaments orders, and it is well realized that taxation will take back for national treasuries what war departments furnish in the way of orders and apparent profits. Net changes, in these circumstances, remain small and meaningless. The London market was rendered additionally lifeless by the August Bank Holiday, last Monday.

After the long week-end in London, trading was resumed on Tuesday in a quiet fashion, with changes mostly on the declining side. There was no disposition to enlarge commitments, but also no particular rush to liquidate holdings. Gilt-edged issues drifted fractionally downward, as the crisis developments were observed with traditional British calmness. Small losses were more numerous than the equally small gains among industrial stocks, and a similar irregularity prevailed in mining securities. The international group was neglected, save for modest advances in Anglo-American favorites. Another stagnant session was reported at London on Wednesday, with summer holidays and military duties depleting the attendance. Giltedged stocks were all but motionless, while industrial and mining shares resumed their slow downward drift. Foreign securities lost ground, save for the steady Anglo-American section. Changes on Thursday were inconsequential, gilt-edged issues hardly moving at all, while industrial stocks remained idle at former levels. Mining issues were somewhat unsettled by an increase of the African output quota. Foreign securities were neglected and almost motionless. Small gains were recorded yesterday in gilt-edged stocks, while industrial and international issues were steady.

Trading on the Paris Bourse was at a minimum, Monday, as war apprehensions combined with the holiday period and the closing of the London market to keep activities low. Rentes were firm in the idle market, while French equities and international securities were traded only occasionally and at unchanged levels. War apprehensions increased on Tuesday, and small losses then were noted in rentes. An easy tendency prevailed also in French bank, industrial and other stocks, while international issues found few buyers. The tone was uncertain on Wednesday, with rentes fairly active and not much changed. French stocks moved irregularly, while international issues rallied after a weak opening. On Thursday the Bank of France reported a transfer to itself of 5,000,000,000 francs gold from the French stabilization fund, this transaction occasioning some demand for rentes. French equities drifted lower, however, while international securities receded more swiftly. Fractional losses were the rule yesterday at Paris, with international issues weaker than others owing to the suspension of the Amsterdam firm of Mendelssohn & Co.

The Berlin Boerse was quiet and firm in the initial session of the week, gains of fractions to a point or more being reported in leading issues. Brisk business was done in the Reich tax anticipation certificates, which represent the latest expedient of the authorities for meeting the heavy financial burdens of Herr Hitler's arms program. A press campaign of vilification, directed against Poland, oppressed the Boerse on Tuesday. Prices receded in all departments of the market, with net losses running to two points in prominent stocks. The international tension continued to provoke liquidation on the German market, Wednesday, and losses in equities again ranged from fractions to two points. Small declines also occurred among fixedincome securities. After an uncertain opening, Thursday, prices rallied and changes for the session were modest. Shipping stocks showed the only important variations, which were toward lower levels. The Boerse was dull yesterday, with prices steady.

Cotton for Spain

FROM the tremendous stocks of American cotton, some 250,000 bales are to be made available to Spain through credits granted chiefly by the official Export-Import Bank of Washington, and in small part by shippers of the cotton. This was announced last Monday by Warren Lee Pierson, President of the Export-Import Bank, who added that the shipments to the Spanish mills will be at the rate of 25,000 bales monthly. The credits have been guaranteed by leading Spanish banks and assurances have been extended by the Spanish Government that dollar exchange will be made available to meet all payments. Payment by Spain is to be made in eight quarterly instalments commencing six months after delivery of the cotton, which must be moved in American bottoms. It appeared that previous tendencies in the extension of such official credits also are being observed in this case, as the

80% of the total to be made available by the Export-Import Bank represents nothing more than a guarantee, on the basis of which commercial banks in New York City actually will advance the funds. The portion of the credit risk to be assumed by the shippers is 20%, but there is no indication whether any loss will fall firstly on the official bank or on the cotton shippers. It is quite obvious, although not stated in the official report, that Spain will obtain the benefit of the 11/2c. a pound export subsidy on cotton announced last month by Secretary of Agriculture Henry A. Wallace.

There are some interesting aspects to this transaction, which involves credits to Spain of approximately \$13,750,000. In Washington dispatches it was made clear that the Catalan mills which now are resuming activities are equipped to operate on the American type of cotton. If the credits were not extended by the United States, then others might do so and insist upon changes in the mills which might cost this country the loss of the Spanish market, it was argued. This is, no doubt, a consideration of some importance, but it also is true that the present time seems rather a risky one for the extension of credits to Franco's Spain, as his regime is said to be encountering more than a little internal opposition and most certainly is flirting with the idea of an alignment with the Rome-Berlin axis. Moreover, the predecessor regime in Spain still owes the Export-Import Bank a sum of money which is overdue on a tobacco credit, and efforts to obtain the sum from the present regime are said to have been fruitless. The Washington decision to extend the credit despite many adverse considerations can only reflect the desperation felt in Administration circles with regard to the faulty agricultural policy pursued under Mr. Roosevelt. The incident appears to be merely another expedient, such as the Anglo-American agreement to exchange cotton for rubber on a "war reserve" basis, designed to mitigate the unfortunate results of the cotton program.

Trade Agreements

NOTHER small notation on the international trade program being pursued at Washington was furnished last Saturday, when the annual extension of the understanding between the United States and the Soviet Union was effected. Although there is no more "totalitarian" country than Russia, the Roosevelt Administration nevertheless finds it advisable to stimulate trade through steady extensions of the annual agreements. This is as it should be, for the kind of government which other people prefer is not a matter for the concern of the United States Government. An agreement with Soviet Russia on trade first was negotiated in 1935, for a single year, and as the arrangement clearly benefited all concerned it has been extended year after year. The Soviet Union, with its chronic shortages of goods, has exported to the United States a relatively stable quantity of merchandise, the figures for calendar years being \$21,000,000 in 1936; \$27,-000,000 in 1937, and \$23,500,000 in 1938. Our exports to Russia, however, have mounted from \$33,-400,000 in 1936 and \$42,900,000 in 1937 to \$69,700,-000 in 1938. In the new accord Russia agrees, as in the past two years, to take no less than \$40,000,-000 of American merchandise during the annual period of the agreement. The United States, in turn, extends most-favored-nation treatment to Rus-

All of this is especially interesting in the light of the apparent tendency in Washington to use trade agreements and countervailing duties as instru-ments of international policy. The recent denunciation of our trade treaty with Japan was clearly and entirely political, since the obvious intent is to bring home to the Japanese Government and people the aggregate sentiments of the American people. Although the move with respect to Japan unquestionably was popular in this country, there are distinct dangers in such methods of economic reprisals upon countries with which official relations are entirely correct and friendly. The circumstances relating to the countervailing duty increase of 25% on dutiable German goods, and of added imposts on Italian silks, are less clear, but probably have a distinctly political aspect. Such methods may have a certain political value, but in the more admirable diplomacy of earlier days the same effect always was obtained through direct means, and the peoples were not harmed through the imposition of needless trade barriers and difficulties. This point is worth laboring in the light of comments made last Tuesday by the newly appointed Assistant Secretary of State, Henry F. Grady, who saw little or no possibility of improved trade relations between the United States and the "totalitarian" countries, until and unless the latter abandon their present methods of operations. Mr. Grady forgot, as political appointees so readily do, that Russia is even more totalitarian than Japan, Germany or Italy, but nevertheless is an acceptable partner for the United States in a trade agreement of great value.

Europe's Endless Crisis

EUROPEAN Powers that are arrayed in the opposing camps of the pacific democracies and the warlike totalitarian regimes played to the hilt, this week, the game of thrust and cross which seems ever more inevitably to be leading to a test of armed strength. The small Free City of Danzig remained the apparent bone of contention, but there were worried surmises in London and Paris that the next aggressions of the Rome-Berlin axis may be effected in the Balkans. Tension increased everywhere, and the fears of conflict were not lessened by the extraordinary aggregations of troops lining all borders, and the naval and air maneuvers which accompanied the displays of armed might. The situation was made clear in a recent Washington tabulation, which showed that \$20,000,000,000 is being expended on arms in this year of 1939 by the nations of the world. Even more impressive were estimates that 8,000,000 to 11,000,000 men are under arms in the nations of Continental Europe at the present time, most of them engaged in the "war games" which often disguise real objectives and intentions in these days. Air forces are conducting mock warfare in a manner that is being brought home to European peoples almost daily, especially through "black-outs" of government and industrial centers. British preparedness is disclosed, additionally, by extensive maneuvers in the North Sea, in which the reserve fleet is participating. All of these activities make it clear, however, that there is a rather close balance between the opposing forces, and from the military point of view it would seem that no one will start a war in these days unless all indications point to a rapid and virtually certain victory. Possibly it is for this reason that attention lately has been diverted toward southeastern Europe, where the totalitarian regimes conceivably might find room for expansion.

With respect to Danzig the situation remains unchanged, although pressure politics of various sorts were attempted. Over the last week-end fears about Danzig diminished, for the Polish and Free City authorities appeared to be inclined toward compromises in problems involving the customs regulations of Danzig. The Polish dictator, Marshal Edward Smigly-Rydz, delivered an address at Cracow, last Sunday, in which he adopted a truculent attitude. Any force displayed with respect to Danzig must be resisted by Polish arms, he declared, and he added that Polish conduct will be adjusted to the conduct of the "other side." The speech was regarded as provocative in Germany, and the controlled German press immediately launched into a campaign of denunciation and vilification of Poland, the more violent Nazis threatening to wipe Poland off the map. There followed on Wednesday a long conference at Berchtesgaden, between Chancellor Adolf Hitler and the Nazi leader in Danzig, Albert Foerster, which ended with an order for a mass assemblage of the entire Danzig population, on Thursday evening, to hear Herr Foerster. This procedure occasioned fears of steps that might lead irrevocably to war, in view of the German stand for reincorporation of Danzig within the Reich, and the contrary stand of Poland, supported by Great Britain and France, for continuance of the current status of the admittedly German city. But Herr Foerster made a rather mild speech in Danzig on Thursday evening, as he merely reiterated that Danzig desires to return to Reich sovereignty and fully intends to do so when the time is propitious. If Poland launches any attack against Danzig, Germany will stand by the side of the Free City, Herr Foerster declared. Everything was left to Herr Hitler by the Danzig leader, who left with independent observers the impression that Nazi Germany is not prepared to make any direct move for the time being.

The European situation otherwise was clouded and obscure. Great Britain and France remained unwavering in their support of Poland and their antagonism to further aggressive moves by the Rome-Berlin combination. But the problem of Russian adherence to the Grand Alliance against aggression was unsolved, despite the departure last week of British and French military missions for Moscow discussions. This question was, if anything, rendered more troublesome by the return to London, this week, of William Strang, the British Foreign Office expert, who spent three months trying to persuade the Russians to join forces with Great Britain. But the axis Powers also seemed to experience the differences that vital decisions usually evoke. Rome dispatches indicated that Premier Mussolini was not prepared to grant to Chancellor Hitler a free hand in deciding the action to be taken with respect to Danzig. The two dictators were reported in constant communication, not only with respect to Danzig, but also in connection with reputed plans for encroachments in southeastern Europe. Highly significant were Yugoslavian reports, Wednesday, that Belgrade had refused axis proposals for "benevolent neutrality" in the event of warfare, such "neutrality" to consist of German-Italian use of Yugoslavian communications and the direction of Yugoslavian agriculture and industry in a manner favoring the axis. With the assurance of British and French support, Premier Dragisha Cvetkovitch visited Italy, Thursday, reputedly in order to inform Premier Mussolini of the Yugoslav decision. On Thursday the rumor spread that the Rome-Berlin axis was divided on the question of Hungary, with Germany allegedly anxious to bring that small country more decidedly under the sway of the Nazis, while Italy appeared to oppose any such move. In such Rome-Berlin differences the hope of European peace possibly will be realized, for it is now well understood that war will be made only if Herr Hitler makes war.

Netherlands Cabinet

NE of the few heartening and reassuring aspects of the European situation is the calmness of Holland and the persistence of the Netherlanders in finding a genuine solution for their internal troubles notwithstanding the raging winds of international strife which howl about their ears. A Cabinet crisis developed in Holland on June 30, and attempts to find a solution proved abortive until last Wednesday, when a regime was announced by Dirk Jan de Geer, leader of the Christion Historical Unior. Whether the coalition of minor parties formed by Premier de Geer will survive the parliamentary test remains to be seen, for there is a good deal of doubt on that point. It remains true, however, that the Netherlands have gone about their business in traditional fashion, unhurried and unvexed by the tremendous propaganda campaigns of their larger neighbors. The Cabinet crisis developed when Hendryk Colijn resigned as a matter of principle, in order to make clear his opposition to unbalanced budgets. The sum involved was only 17,000,000 florins, but the principle mattered far more than the sum. Dr. Dionysius Koolen, leader of the Catholic party, tried to form a successor regime, but could not muster sufficient votes. Former Premier Colijn then attempted to form another Government, but he was defeated on a vote of confidence, July 27, and resigned the following day. After further deliberation Dr. de Geer was selected to head a regime, which he announced on Wednesday. The new Premier, however, holds thoroughly orthodox financial views and possibly will be unable to attract enough votes for approval of his aims.

Far Eastern Crisis

AR EASTERN developments were overshadowed this week by the swift rush of events in Europe, but in some respects they were quite as threatening as the European difficulties, and in others they were linked to the struggle between the democratic and totalitarian States. It has finally become evident that the stand taken by the United States Government when it abrogated the 1911 trade treaty with Japan has created a turning point for the Tokio authorities. But the new direction that Japan is to take remains obscure, and possibly will not be decided unti the European issue is clarified. Throughout the week a debate is said to have raged in Japanese official circles as to the advisability of joining the Rome-Berlin axis in a full military alliance. Japanese army officers of the younger set are

reported exceedingly anxious to join the axis and thus demonstrate, at whatever risk, the displeasure of their country over the American and British The Japanese naval activities and pressures. spokesmen seem to be less than lukewarm, and the older advisers near the throne are reputedly opposed to any measure tending to occasion open breaks with Great Britain or America. Latest reports are that the "Inner Cabinet" of Emperor Hirohito's advisers favor an "independent" foreign policy, or avoidance of a full military tie with the Rome-Berlin axis. Controversies of this sort have a way of echoing in Japan and of producing unexpected results. It is obvious, in the meantime, that European events might easily turn the Japanese balance in one direction or the other.

The British Government is manifesting toward Japan in several ways a stiffer attitude than prevailed before the denunciation of the United States-Japanese trade pact. As the British Parliament was about to adjourn, late last week, Prime Minister Neville Chamberlain admitted to the House of Commons that his blood boiled as he read of the indignities to which Britons had been subjected by the Japanese. He warned the House that there may be even graver and nearer problems to be considered in the course of the next few months, making it necessary for Great Britain to conserve her forces. A sharp warning, nevertheless, was addressed to Japan in a comment about the superior home fleet of Great Britain. "In certain circumstances we may find it necessary to send that fleet out there," said Mr. Chamberlain. With respect to the preliminary declaration to the Tokio negotiations regarding the Tientsin incident, Mr. Chamberlain insisted that the formula means whatever the British Government wants it to mean. From Tokio came reports on Thursday that the British negotiators are showing little interest in further discussions regarding Tientsin and that general British attitude toward the Sino-Japanese war which the Japanese dearly wish to have clarified in their own favor. Through the Japanese press the warning was issued that if Great Britain fails to display sincerity she must prepare for further happenings of the type that made Mr. Chamberlain's blood boil.

It is possible, indeed, that a showdown will occur between Great Britain and Japan without much further delay, provided the European scene leaves Great Britain free to act in the Far East. The Japanese threat of further measures against British interests was implemented even before it was uttered. In a well-established international anchorage on the upper Yangtze, two British merchant vessels were bombed and damaged, last Sunday, by a raiding squadron of Japanese airplanes, the circumstances being such as to force the conclusion that an affront to Great Britain was intended. The British gunboat Gannet was one of the targets, but fortunately escaped harm. Japanese spokesmen politely called it all a "regrettable mistake," when the usual representations were made. In Japanese centers the anti-British propaganda campaign was renewed, and Americans also were made targets of reproach. While all this was going on the Japanese militarists found themselves unable to make progress with their war upon China. Important Japanese units are said to have been isolated in Shansi Province by floods, and the Chinese defenders easily regained control of some key

points. The Japanese air bombing activities were intensified, as they always are when the invading land forces find the going difficult. Only modest military activity was reported between Manchukuoan (Japanese) and Outer Mongolian (Russian) troops on the long border between the Japanese and Russian outposts in Eastern Asia.

Discount Rates of Foreign Central Banks

HERE have been no changes during the week in the discount rates of any of the foreign central banks. Present rates at the leading centers are shown in the table which follows:

Country	Rate in Effect Aug 11	Date Established	Pre- vious Rate	Country	Rate in Effect Aug 11	Date Established	Pre- vious Rate
Argentina	31/4	Mar. 1 1936		Holland	2	Dec. 2 1936	21/2
Batavia	4	July 1 1935		Hungary	4	Aug. 29 1935	41/2
Belgium	21/2	July 6 1939	3	India	3	Nov. 28 1935	314
Bulgaria	6	Aug. 15 1935	7	Italy	41/2	May 18 1936	5
Canada	216	Mar. 11 1935		Japan	3.29	Apr. 6 1936	3.65
Chile	3	Dec. 16 1936	4	Java	3	Jan. 14 1937	4
Colombia	4	July 18 1933	. 5	Lithuania	6	July 15 1939	7

Greece	6	Jan. 4 1937	7				

Foreign Money Rates

IN LONDON open market discount rates for short \blacksquare bills on Friday were $\frac{5}{8}\%$ as against $\frac{5}{8}\%$ on Friday of last week, and 11-16% for three-months' bills as against 11-16% on Friday of last week. Money on call at London on Friday was ½%. At Paris the open market rate was lowered on Monday to $2\frac{1}{4}\%$ from $2\frac{1}{2}\%$, while in Switzerland the rate remains at 1%.

Bank of England Statement

HE statement of the Bank for the week ended Aug. 9 again showed an expansion in note circulation, the current increase of £1,307,000 raising the total outstanding to a new record high of £521,-877,000, compared with £489,993,480 a year ago. As the currency rise was attended by an increase of £43,968 in gold holdings, reserves decreased £1,263,-000. Public deposits rose £8,567,000 while other deposits fell off £8,176,142. Other deposits comprise bankers accounts, and other accounts, which decreased £7,923,861 and £252,281, respectively. The reserve proportion dropped a little to 16.8% from 17.7% a week ago; last year the proportion was 23.4%. Government securities increased £2,220,000 while other securities declined £537,597. Of the latter amount, £902,122 was a loss in discounts and advances, and £364,525 an increase in securities. Below we furnish the different items with comparisons for back years:

Bank of France Statement

HE weekly statement of the Bank dated Aug. 3 again showed an expansion in note circulation, this time of 1,212,000,000 francs, which raised the

total outstanding to 124,451,000,000 francs. Notes in circulation a year ago aggregated 101,350,965,327 francs and the year before 89,603,755,435 francs. Due to the transfer of 5,000,000,000 francs gold from the French Equalization Fund on July 28, gold holdings now aggregate 97,266,039,154 francs. A year ago, when the valuation rate of the franc was 43mg. gold, 0.9 fine, gold holdings totaled 55,808,-328,520 francs. French commercial bills discounted declined 368,000,000 francs, while advances against securities and creditor current accounts expanded 178,000,000 francs and 3,713,000,000 francs respectively. The proportion of gold on hand to sight liabilities rose to 64.98%, compared with only 47.23% a year ago. Below we furnish the various items with comparisons for previous years:

Figures as of July 20, 1939.

a Includes bills purchased in France. b Includes bills discounted abroad. c In the process of revaluing the Bank's gold under the decree of Nov. 13, 1938, the three entries on the Bank's books representing temporary advances to the State were wiped out and t.e unsatisfied balance of such loans was transferred to a new entry of non-interest-bearing loans to the State.

Revaluation of the Bank's gold (at 27.5 mg. gold 0.9 fine per franc) under the decree of Nov. 13, 1938, was effected in the statement of Nov. 17, 1938; prior to that date and from June 20, 1937, valuation had been at the rate of 43 mg. gold 0.9 fine per franc; previous to that time and subsequent to Sept. 26, 1936, the value was 49 mg, per franc, and before Sept. 26, 1936, there were 65.5 mg. of gold to the franc.

Bank of Germany Statement

HE statement for the first quarter of August showed a decline in note circulation of 190,500,-000 marks, which brought the total outstanding down to 8,798,500,000 marks. Notes in circulation a year ago aggregated 6,429,400,000 marks and the year before 4,866,613,000 marks. The Bank's gold holdings, bills of exchange and checks, advances, and other assets also recorded decreases, namely 150,000 marks, 272,700,000 marks, 11,200,000 marks and 111,085,000 marks, respectively. Gold holdings now total 76,571,000 marks, compared with 70,773,000 marks a year ago. An increase appeared in silver and other coin of 3,459,000 marks and in other liabilities of 7,416,000 marks. The proportion of gold to note circulation is now 0.87%; last year it was 1.18%. Following we furnish the various items with comparisons for previous years:

New York Money Market

HANGES were lacking this week in the New York money market, rates being continued from previous weeks and months, while extreme dulness still was the rule. Bankers' bills and commercial paper were turned over idly. The Treasury sold on Monday a further issue of \$100,000,000 discount bills due in 91 days, and awards were at an average discount of 0.032%, computed on an annual bank discount basis. Call loans on the New York Stock Exchange held to 1% for all transactions, while time loans again were 1¼% for maturities to 90 days, and 1½% for four to six months' datings.

New York Money Rates

DEALING in detail with call loan rates on the Stock Exchange from day to day, 1% was the ruling quotation all through the week for both new loans and renewals. The market for time money continues quiet. Rates continued nominal at 1¼% up to 90 days and 1½% for four to six months' maturities. The market for prime commercial paper has shown a little improvement this week. The demand has been somewhat better but the supply of high class paper is scarce. Ruling rates are 5%@34% for all maturities.

Bankers' Acceptances

THE market for prime bankers' acceptances has remained unchanged this week. The market has been quiet, there having been few bills available and the demand has been small. There has been no change in rates. Dealers' rates as reported by the Federal Reserve Bank of New York for bills up to and including 90 days are ½% bid and 7-16% asked; for bills running for four months 9-16% bid and ½% asked; for five and six months, 5%% bid and 9-16% asked. The bill buying rate of the New York Reserve Bank is ½% for bills running from 1 to 90 days. The Federal Reserve Bank's holdings of acceptances remain unchanged at \$545,000.

Discount Rates of the Federal Reserve Banks

THERE have been no changes this week in the rediscount rates of the Federal Reserve banks. The following is the schedule of rates now in effect for the various classes of paper at the different Reserve banks:

DISCOUNT RATES OF FEDERAL RESERVE BANKS

Federal Reserve Bank	Rate in Effect on Aug. 11	Date Established	Previous Rate
Boston	1½ 1 1½	Sept. 2, 1937 Aug. 27, 1937 Sept. 4, 1937	2 1½
Philadelphia	11/2	May 11, 1935 Aug. 27, 1937	2 2
Atlanta Chicago St. Louis	1½ 1½ 1½	Aug. 21, 1937 Aug. 21, 1937 Sept. 2, 1937	2 2
Minneapolis	11/2 11/2 11/2	Aug. 24, 1937 Sept. 3, 1937 Aug. 31, 1937	2 2 2
San Francisco	11/6	Sept. 3, 1937	2

Course of Sterling Exchange

CTERLING exchange is under pressure, a contraseasonal trend. On Saturdays the New York market is closed in the summer and quotations are On Monday last, Aug. 7, the largely nominal. London financial district was closed in observance of the August bank holiday. Pressure on sterling became obvious on Tuesday and the British Exchange Equalization Fund had to intervene to keep the spot The range for sterling this rate close to $$4.68\frac{1}{8}$. week has been between \$4.67% and \$4.68% for bankers' sight, compared with a range of between $$4.67 15-16 \text{ and } $4.68\frac{1}{8} \text{ last week.}$ The range for cable transfers has been between \$4.68 1-16 and \$4.68 3-16, compared with a range of between \$4.68 1-16 and \$4.681/4 a week ago.

Under normal conditions the autumn pressure on sterling is not felt until the end of August. In the interim tourist vacation requirements, at their height in August, lend support to the pound. Therefore the period of seasonal pressure against sterling is still a few weeks off.

The present pressure against the pound, which became sharply apparent in Tuesday's market, is due entirely to fears and uncertainties induced by the European situation. This was the first time in recent weeks that the tension in Europe has adversely affected the exchange market. Beginning on Tuesday and lasting throughout the week, there was comparatively heavy commercial and speculative selling of spot sterling which forced the British exchange control to lend active support, while speculative selling in the forward market continued at widening discounts. Official support was provided with the object of keeping spot sterling at \$4.68½.

On Friday last at the beginning of the August vacation season Sir Thomas Inskip, Dominion Secretary, said before a Scotch audience: "War is unlikely and the British Government has very good reasons for saying that. The peace front is being built up and that is one of the reasons why war is not likely." The most pertinent comment on Sir Thomas Inskip's speech was made by Lord Halifax, Foreign Secretary, in the House of Lords. He said: "We are about to adjourn for a Parliamentary recess and I cannot encourage anyone who feels complacent about the world situation. Indeed, it may well be that the next weeks or months may prove critical." The selling of sterling which took place in the foreign exchange market this week would indicate that business and financial interests are more inclined to share the view of the general situation expressed by Lord Halifax than to follow the optimism of Sir Thomas Inskip.

The continued movement of gold and foreign funds from Europe to this side is outstanding evidence of widespread fears respecting the European outlook. In July, 1938 the United States gold stocks passed the \$13,000,000,000 mark. On Aug. 9, 1939 these stocks amounted to \$16,270,000,000. Gold earmarked for foreign account with the Federal Reserve Bank, mostly for the Bank of England and the British Fund, exceeds \$1,300,000,000, a record proportion.

The foreign gold on this side would doubtless have long since reached a much higher level were it not for the fact that gold here is nationalized, with the result that a strong movement of such gold to Canada has set in. More than \$500,000,000 of foreign gold is said to be under earmark in Canada. This represents an increase of more than \$370,000,000 since the beginning of 1939. The present Canadian total is nearly twice the combined gold earmarkings in South Africa and India, the other remote British gold storehouses. In Canada gold may be earmarked for private account as well as for official account. All privately owned gold sent here must be sold to the Treasury.

The foreign funds sent here and to Canada assume a more or less permanent investment character and unless a stable peace is assured on pre-war lines no great part of this capital can be expected to return. An outstanding evidence of the permanency of the capital lodgment on this side of the Atlantic is the establishment by foreign private banks of branches here. Such branches are also being opened in Montreal. It is reported that the old London private banking house of Erlangers, Ltd., founded in 1859,

will establish a branch on St. James Street, Montreal.

It is now the height of the vacation season in Great Britain, a fact which accounts for the extreme apathy of the financial markets in London.

The "Financial News" index of 30 industrial stocks, based on July 1, 1934 as 100, on Aug. 4 stood at 80.3, compared 81.2 a week earlier, with 77.2 a month ago, 85.8 a year before, and with a record low of 73.7 on Sept. 18, 1938, and the high of 124.9 on Nov. 18, 1936.

The bond index, based on 1928 as 100, stood at 117.9 on Aug. 4, compared with 129.3 a year earlier. The low record was 90.6 at the end of September, 1931 and the high was 141.6 at the end of January, 1935.

New capital issues in London in July at £2,800,000 were the smallest total for any July since the World War, comparing with £23,858,000 in the preceding month and with £15,188,000 in July last year. Offerings in the first seven months amounted to £59,945,000, against £89,239,000 last year and £117,721,000 in 1937.

Bank of England circulation is at a record high level, due largely to the demand for currency for the August vacation period and to the high degree of industrial activity. The holiday demand will soon terminate and the banknotes will return to the Bank. No further peak in circulation is expected prior to the Christmas holidays. However, it is thought probable that the circulation will be kept substantially above normal for some time because banks, private institutions and wealthy individuals are holding larger amounts of emergency currency than usual and there is much hoarding of currency, all manifestations of uneasiness over the European situation.

Open market money rates in Lombard Street continue extremely easy, due to the cooperation of the banks with the Treasury authorities. The following rates prevail: Two-months bills $\frac{5}{8}\%$, three-months bills $\frac{11-16}\%$, four-months bills $\frac{3}{4}\%$, and six-months bills $\frac{11}{8}\%$.

Gold on offer in the London open market this week was as usual reported as taken for unknown destination. On Saturday last there was on offer £324,000, on Monday there was no market, on Tuesday £377,000, on Wednesday £318,000, on Thursday £288,000, and on Friday £297,000.

At the Port of New York the gold movement for the week ended Aug. 9, as reported by the Federal Reserve Bank of New York, was as follows: GOLD MOVEMENT AT NEW YORK, AUG. 3-AUG. 9, INCLUSIVE

Imports \$5,767,000 from England 1,984,000 from India 1,747,000 from Canada 15,000 from Nicaragua 5,000 from Guatemala

None

Exports

\$9,518,000 total

Net Change in Gold Earmarked for Foreign Account Increase: \$28,366,439

Note—We have been notified that approximately \$11,019,000 of gold was received at San Francisco, of which \$5,512,000 came from Japan, \$4,818,000 from Australia, \$635,000 from China, and \$54,000 from New Zealand.

The above figures are for the week ended on Wednesday. On Thursday there were no imports or exports of the metal. On Friday \$17,748,000 of gold was received of which \$7,917,000 came from England, \$7,545,000 from Holland and \$2,286,000 from Canada. There were no exports of the metal.

Canadian exchange is firm. Montreal funds ranged during the week between par and a premium of 1-64%.

The following tables show the mean London check rate on Paris, the London open market gold price, and the price paid for gold by the United States:

Referring to day-to-day rates sterling exchange on Saturday last was nominal as New York City banks were closed. On Monday, August bank holiday, all London markets were closed. In New York bankers' sight was quoted \$4.67 15-16@\$4.68½; cable transfers \$4.68 1-16@\$4.68 3-16. On Tuesday sterling was under pressure. The range was \$4.67 15-16@ \$4.68 1-16 for bankers' sight and \$4.68 1-16@ \$4.68 3-16 for cable transfers. On Wednesday sterling was kept steady through the intervention of the British Exchange Equalization Fund. sight was \$4.67 15-16@\$4.68 1-16; cable transfers \$4.68 1-16@\$4.68 3-16. On Thursday the pound was steady. The range was $$4.67\% @ $4.68 \ 1-16$ for bankers' sight and \$4.68 1-16@\$4.68 3-16 for cable On Friday sterling was steady. transfers. range was \$4.67 15.16@\$4.68½ for bankers' sight and \$4.68 1-16@\$4.68 3-16 for cable transfers. Closing quotations on Friday were \$4.68 for demand and \$4.681/8 for cable transfers. Commercial sight bills finished at \$4.673/4; 60-day bills at \$4.667/8; 90-day bills at \$4.66½; documents for payment (60 days) at $$4.66\frac{7}{8}$, and seven-day grain bills at \$4.677-16. Cotton and grain for payment closed at \$4.673/4.

Continental and Other Foreign Exchange

FRENCH francs continue extremely steady with the rate in favor of Paris. During the past three weeks the London check rate on Paris hardly ever deviated from 176.71 francs to the pound, as against the legal minimum established by the Daladier Government of 179 francs.

The financial position of France appears to be steadily improving. As a result of the stability of the franc and the renewal of confidence French capitalists are again turning their attention to investments of from one to three years' maturity. This is greatly to the advantage of the Treasury, which will be in a position to meet larger armament expenditures by issuing loans which will be redeemable at more distant dates.

Because of the return of gold and capital to France the Finance Ministry decided on July 28 to return a further 5,000,000,000 francs of gold from the stabilization fund to the Bank of France, thus affording greater ease in the money market. Finance Minister Reynaud has sanctioned easier conditions by lowering the issuing price of 3-year national defense bonds from 4% to 3½%. This is the second sum returned by the stabilization fund to the Bank of France. At the beginning of April the Bank's gold reserves received the first transfer of 5,000,000,000 francs from the fund. The opinion prevails in Paris that despite the transfer of gold the fund still holds large reserves greatly in excess of the initial endowment of 10,000,000,000,000 francs.

Figures published a few days ago show that production indices in France rose from 83 last October

to 97 in May and that exports in May were 32% above those in May, 1938. The general upward trend has continued since May. For the first seven months of this year French imports amounted to 28,693,000,000 francs and exports to 20,924,000,000 francs, leaving an import balance of 7,769,000,000 francs, which compares with an import balance of 10,530,000,000 francs in the same period last year.

Figures just published show that the French internal and external public debt amounted to 444,082,000,000 francs as of June 30, an increase of 23,527,000,000 francs since the beginning of the year. The internal debt maturing in 1939-1940 was reduced by about 13,000,000,000 francs, but the debt maturing after Jan. 1, 1941 was increased by 17,000,000,000 francs and the debt redeemable by drawings was increased by 13,000,000,000 francs.

The Treasury's operations for the half-year were published, showing receipts of 297,331,000,000 francs and disbursements of 296,227,000,000 francs. The Treasury started the year with 8,020,000,000 francs cash and therefore had 9,120,000,000 francs on hand on June 30.

On Aug. 4 the governments of France and Belgium acted simultaneously to lower the bars on imports of foreign made industrial products. The two nations announced the abandonment of the import quota system on a number of industrial products in a move officially described as designed to lower international trade barriers. Brussels dispatches stated that the action was mainly intended to improve Franco-Belgian trade. The French Government's action was undoubtedly influenced in part by a desire to curb the rising domestic price level, widely held to be the greatest threat to continued business revival.

Belgian currency has been steady for several weeks, ruling above dollar parity. Owing to renewal of war fears evidence of hoarding of bank notes, which had been observed in France during recent months, is now reported in Belgium, with the result that the gold and circulation of the central bank have increased while private bank deposits have decreased. On Aug. 8 circulation of the Belgian bank stood at 23,162,000,000 Belgian francs, a gain of almost 2,000,000,000 francs in the last three months. The note issue is now the largest since the September war scare.

The following table shows the relation of the leading European currencies to the United States dollar:

	Old Dollar Parity	New Dollar Parity a	Range This Week
b c France (franc)	_ 3.92	6.63	2.64 % to 2.65
Belgium (belga)	_ 13.90	16.95	16.981/2 to 16.991/2
Italy (lira)	_ 5.26	8.91	5.26 1/8 to 5.26 1/2
Switzerland (franc)		32.67	22.57 to 22.591/2
Holland (guilder)	_ 40.20	68.06	53.21½ to 53.66½

a New dollar parity as before devaluation of the European currencies. b Franc cut from gold and allowed to "float" on June 20, 1937. c On May 5, 1938 the franc was devalued on a de facto basis of 179 francs to the pound, or 2.79 cents a franc.

The London check rate on Paris closed on Friday at 176.70, against 176.71 on Friday of last week. In New York sight bills on the French center finished on Friday at 2.65, against 2.65; cable transfers at 2.65, against 2.65. Antwerp belgas closed at 16.99 for bankers' sight bills and at 16.99 for cable transfers, against 16.99 and 16.99. Final quotations for Berlin marks were 40.13 for bankers' sight bills and 40.13½ for cable transfers, in comparison with 40.13 and 40.13½. Italian lire closed at 5.26⅓ for bankers' sight bills and at 5.26⅓ for cable transfers, against 5.26⅓ and 5.26⅓. Exchange on Czecho-

slovakia is nominally quoted but most banks refuse to make commitments in Czech currency. Exchange on Bucharest closed at 0.72, against 0.72; on Poland at 18.83, against 18.83; and on Finland at 2.06¾, against 2.07. Greek exchange closed at 0.85½, against 0.85½.

EXCHANGE on the countries neutral during the war is featured this week by a return of strength in the Holland guilder. The Swiss franc and the Scandinavian units moved as usual in close sympathy with sterling. The greater firmness in the guilder, which was especially noticeable in Wednesday's market, came in response to news from The Netherlands of the formation of a coalition cabinet under the leadership of Dr. Dirk Jan De Geer, head of the Christian Historic party.

Bankers' sight on Amsterdam finished on Friday at 53.56, against 53.31 on Friday of last week; cable transfers at 53.56, against 53.31; and commercial sight bills at 53.51, against 53.30. Swiss francs closed at 22.57½ for checks and at 22.57½ for cable transfers, against 22.57½ and 22.57½. Copenhagen checks finished at 20.90 and cable transfers at 20.90, against 20.90 and 20.90. Checks on Sweden closed at 24.13½ and cable transfers at 24.13½, against 24.12 and 24.12; while checks on Norway finished at 23.52 and

EXCHANGE on the South American countries is dull. Rates are held steady by the various exchange controls and the several units present no new features from those of recent weeks.

cable transfers at 23.52, against 23.52 and 23.52.

On Aug. 9 the Republic of Chile by means of a prospectus announced the extension to holders of Chilean consolidated municipal loan bonds and City of San Diego bonds of a plan of debt service heretofore made available to holders of the Government's direct and indirect debt.

Recent dispatches from La Paz, Bolivia, stated that the Foreign Minister, Sr. Alberto Gutierrez, has resigned as a result of a difference of opinion over certain administrative measures adopted by the Cabinet, chiefly hinging upon a decree nationalizing the central bank. The decree makes the Government the sole shareholder in the central bank.

Argentine paper pesos closed on Friday at 31.20 for bankers' sight bills, against 31.21 on Friday of last week; cable transfers at 31.20, against 31.21. The unofficial or free market rate was 23.20@23.25, against 23.20@23.25. Brazilian milreis are quoted at 5.08, against 5.08. Chilean exchange is quoted at 5.19 (official), against 5.19. Peru is nominally quoted at 19.00, against 19.00.

EXCHANGE on the Far Eastern countries presents no new features. The Shanghai dollar seems to be completely demoralized and is falling steadily. This week the yuan dropped from 8.85 cents to 7.00. The position of the yuan is causing extreme anxiety to the British authorities in both London and Shanghai. All other Far Eastern units are quiet and steady and move in close sympathy with sterling.

Closing quotations for yen checks yesterday were 27.30, against 27.31 on Friday of last week. Hongkong closed at 28 9-16@2834, against 28.70@28 13-16; Shanghai at 7.00 (nominal), against 9; Manila at 49.80, against 49.80; Singapore at 54.90, against 54.90; Bombay at 34.99, against 34.96; and Calcutta at 34.99, against 34.96.

Gold Bullion in European Banks

HE following table indicates the amounts of gold bullion (converted into pounds sterling at the British statutory rate, 84s. 11½d. per fine ounce) in the principal European banks as of respective dates of most recent statements, reported to us by special cable yesterday (Friday); comparisons are shown for the corresponding dates in the previous four years:

Banks of-	1939	1938	1937	1936	1935
days and	£	£	£	£	f
England	*141,367,896	327,548,942	327.627.813	244.011.248	193,370,117

* Pursuant to the Currency and Bank Notes Act, 1939, the Bank of England statements for March 1, 1939 and since have carried the gold holdings of the Bank at the market value current as of the statement date, instead of the statutory price, which was formerly the basis of value. On the market price basis (148s. 6d. per fine ounce), the Bank reported holdings of £247,103,472 equivalent, however, to only about £141,367,896 at the statutory rate (84s. 11½d. per fine ounce), according to our calculations. In order to make the current figure comparable with former periods as well as with the figures for other countries in the tabulation, we show English holdings in the above in statutory pounds.

a Amount held Dec. 31, 1938, latest figures available. b Gold holdings of the Bank of Germany includes "deposits held abroad" and "reserves in foreign currencies." c As of April 30, 1938, latest figures available. Also first report subsequent to Aug. 1, 1936.

The value of gold held by the Bank of France is presently calculated, in accordance with the decree of Nov. 13, 1938, at the rate 127.5 mg. gold, 0.9 fine, equals one franc; previously and subsequent to July 23, 1937, gold in the Bank was valued at 43 mg. gold, 0.9 fine, per franc; before then and after Sept. 26, 1936, there were 49 mg. to the franc; prior to Sept. 26, 1936, 65.5 mg. gold 0.9 fine equaled one franc. Taking the pound sterling at the rate at which the Bank of England values its gold holdings; of the Bank was very gold in the Bank was the rate at which the Bank of England values its gold holdings; of the franc; prior to Sept. 26, 1936, 65.5 mg. gold 0.9 fine equaled one franc Taking the pound sterling at the rate at which the Bank of England values its gold holdings; of the france fine of 296 francs gold in the Bank of France is now just about £1; when there were 43 mg. gold to the franc the rate was about 190 francs to the £1; when 49 mg., about 165 france per £1; when 65.5

The United States Is Not Finished

The ignorance and lack of vision among the most vehement advocates of the New Deal and other radicals is demonstrated by their very general acceptance of the notion that the growth of the United States, in population, industry and wealth, is over. President Roosevelt suggested the theory in his letter to Senator O'Mahoney on the current idleness of men, money, and capital goods-a palpable effort to shift the responsibility that the public now places upon his own shoulders for present conditions. It appears frequently in the statements of his closest associates and most fervid followers.

Senator Sheridan Downey, of California, who favors pensions for almost everybody, makes this theory the fundamental basis on which he rests his entire argument. He is so confident of his alleged facts and his stumbling logic that he even produces a small and amazing book to present his conclusions. He argues that because growth in the United States is over, which he asserts is the fact, and because wages and salaries are not sufficient to buy all the products of agriculture and industry, savings are no longer desirable, but that they continue because some of the recipients of income require no consumers' goods for which they could be expended and they become "stagnant savings" since, the United States being finished, there is no longer opportunity to invest them. There are no more railroads to be built, no more manufacturing plants to be erected or enlarged, no more efficient machinery to be installed, no prospective increment of population to be provided for; growth and advance are over. And to offset these conditions the California prophet desires to set up a system of Federal pensions substantially similar, in their amount, distribution, and financing, to those advocated by the redoubtable Dr. Townsend. He illustrates his argument by describing the fertile Valley of the Sacramento, in his own State, its period of growth, and its present condition. But it is all over, he asserts, "the plant is all built" are the words he uses; investment opportunities no longer exist; saving is henceforth undesirable, and must be prevented by a taxation-fed system of pensions conditioned upon the immediate spending of the amounts bestowed. It is the Townsend Plan, in its latest re-modelingthe "Ham and Eggs" plan which California rejected in 1938.

It is not true. The facts are not as asserted. The entire argument is false in its fundamentals and unsound in all its processes of reasoning. ramento Valley is not finished, California is not finished, the United States is not finished. This great Nation, endowed with unrivaled natural resources, where trade over a vast area is not interrupted by artificial impediments at hostile boundaries, will continue to grow long after these false doctrines of negation have been forgotten.

A comparison of certain basic statistics of the various States ought to destroy utterly such dangerous and defeatist arguments. Although necessarily, in such a presentation as this, very incomplete and in some respects imperfect, such data are illuminating.

State	Land Surface in Square Miles	Population, Census of 1930	Railroads, Length o Lines in Miles, 1933	Property Assessed for Taxation, Total Value
Connecticut New Jersey Massachusetts Mississippi New York Iowa California Texas United States	4,820 7,514 8,039 46,362 47,654 55,586 55,652 262,443 2,973,776	1,606,903 4,041,334 4,249,614 2,009,821 12,588,066 2,470,939 5,677,251 5,824,715 122,775,046	975 2,198 1,999 4,076 8,252 9,579 8,272 16,887 245,703	\$2,978,000,000 6,000,671,000 5,743,362,000 452,247,000 2,901,825,000 6,022,665,000 3,377,775,000 119,175,477,000

Other significant comparisons, on the basis of population, are enlightening.

State State	Population, Census of 1930	Products of Manufactures, 1935	Federal Income Taxes, Paid, 1938	Total Income, 1937
Connecticut	1,606,903	\$1,072,566,428	\$58,900,000	\$1,320,000,000
New Jersey	4,041,334	6,094,393,038	100,400,000	2,710,000,000
Massachusetts	4,249,614	2,095,389,595	99,900,000	2,710,000,000
Mississippi	2.009.821	121,931,115	3,700,000	410,000,000
New York	12,588,066	6,094,393,038	691,500,000	10,440,000,000
Iowa	2,470,939	586.014.322	12,900,000	1,090,000,000
California	5,677,251	2,159,434,292	156,300,000	4,420,000,000
Texas	5,824,715	1,072,566,428	70,000,000	2,510,000,000
United States	122,775,046	45,759,763,062	2,586,243,954	67,540,000,000

Note—All the figures except those for railroads are the latest available. In the case of the railroads, it was thought better to use data before the most recent abandonments. Since 1933 some 12,000 miles have gone out of use, principally east of the Missouri River. The estimates of income are those of the National Industrial Conference Board,

It would be most interesting to hear Senator Downey compare the character of California's population, for intelligence, initiative, and industry, with that of Connecticut, at the same time explaining the relative advantages or disadvantages, in fertility of soil, salubriety of climate, natural resources in minerals and oil. He may, of course, declare, if that is really his belief, that both Connecticut and California have attained their maximum of material development and are now at points from which additional progress is impossible. Yet it might be difficult to convince the competent citizenship of the Valley of the Sacramento that this is so. Would he, in fact, care or dare to make such an assertion before his entire State constituency? Courageous, indeed, he will be if he tells the people of California that they and their State are inferior in anything to any community or region anywhere on earth. Or compare Mississippi and Massachusetts. In terms of material progress it may be behind Massachusetts at present, but with its fertile soil, and smaller population, it is certainly not finished. There is no reason in nature, why every section should not excel its own present condition and leave behind the most highly industrialized nations or regions of Europe.

Bearishness regarding the United States, or any of its parts, has never been profitable, nor popular. It has never been practicable to make it the basis of a successful financial or political career. Optimism and faith in the greatness of the country have always been justified and always will be. Presidents are only temporary, Congresses come and go, depressions must be ephemeral even when recovery is retarded by follies and excesses of Government. The worst period of all periods is that in which any change must be for the better. And arrival of the change in this great country is never uncertain. The United States is not finished.

China

China, that huge amorphous entity, which, since the death of the Dowager Empress in 1908, has owed most of its semblance of unity to its name, has in the past claimed suzerainty over a vast area of Asia. To Westerners, the dates when China lost all ties with some of the territories concerned seem very remote. To the Chinese, however, with a history of some 4,000 years, none of these losses seem too long past to awaken aspirations of recovery. In the 19th century the British Empire acquired Burma, France obtained control of Anam, as well as Tonking, and the island of Formosa went to Japan. In the early years of the present century Japan's rights in Korea ripened from those of a "sphere of influence" to full sovereignty. Russia assumed virtually a proctorate over Outer Mongolia and the British took similar action with respect to Tibet. The British, French, Germans, Russians, and Jaspanese had, moreover, spheres of interest of various kinds and degrees in other great areas of Chinese territory. Chinese customs were administered by foreigners, and the custom duties were fixed at 5%. A number of foreign nations had or claimed the right to maintain armed forces in China.

In addition China had granted to foreign countries "concessions" in various Chinese cities, aggregating in number from 23 to 33 according to various counts, as well as two "settlements," the most important of all being the International Settlement at Shanghai. Also Germany, Great Britain, France, and Japan (the last through transfer from Russia) had obtained leasehold rights over Chinese areas. Finally by specific treaties, and the effect of "most-favored nation" treatment, 18 countries had received "extraterritorial rights" which exempted their nationals from the jurisdiction of the Chinese courts and subjected them to the judicial control of their own country. While the existing extraterritorial rights stem from the Nanking Treaty with Great Britain of 1842, actually the principle goes back to the treaty of 1620 between Russia and China.

Thus China by the second decade of this century had not only lost large portions of her territory, but had recognized in one form or another such restrictions on her sovereignty within the confines of her own borders as to deprive her of the standing of a free and independent State. Particularly is this true of "extraterritorial rights" since it is generally admitted that such standing cannot be effectively claimed by a country unable to subject all within its territory to the control of its courts.

The dominant factor in this situation is the condition of affairs long obtaining in China. While China has had an ancient body of law based on the writings of sages and upon custom, actually in his everyday life the Chinese has from time immemorial been extraordinarily free from the specific restrictions of the written law. His movements, his occupational activities and his use of his possessions have not been subject in normal times to anything similar to the many ordinances, municipal and otherwise, with which we are familiar and take largely for granted.

Likewise Chinese officials have not been bound in the performance of their duties by much legal prescription. The official coming into direct contact with the people is the district magistrate. His district may be a very large one, often extending over 6,000 square miles—an important factor in a country with very poor means of communication. In his district the magistrate is in charge of everything affecting the people, though, where the district is very large, some of his powers may be delegated to subordinates. In his court he is judge both on questions of law and fact. He is in charge of the police, education, public works, roads, &c., and supervises the collection of taxes. Being poorly paid it has been recognized by custom that he is to make his own arrangements. This he is permitted to do as long as he maintains order in his district, and remits promptly when due approximately the recognized amount of tax revenue for which his district is, unofficially but effectively, held responsible.

Ninety-seven percent of the people over whom these magistrates rule have, until recent times at least, been illiterate and incapable of exerting any effective influence in the form of public opinion on the acts of the officials. Of the remaining 3% only very few have shown an interest in public affairs. Thus China has become thoroughly accustomed to a personal form of the administration of justice and other branches of the government, not untainted by corruption. A classic example of the Chinese personal attitude towards justice is President Yuan Shik-Kai's reprimand of a judge for being "too subservient to the Law" because he acquitted for lack of evidence an official of whom the President disapproved.

The restrictions on the rights of foreigners to own real property and to trade in China, which directly led to the system of foreign "concessions" and "settlements," supplemented by the prejudice against foreigners always rife in that country, and the rule of person rather than law prevailing in its courts, made the establishment and continuation of the extraterritorial rights almost inevitable. China has naturally endeavored to release herself from all these encroachments on her sovereignty, including not only extraterritoriality but also the concessions and the leases. Accordingly, included in treaties made as far back as 1902 and 1903 by China with Great Britain, the United States, and Japan, respectively, were clauses stipulating that extraterritoriality was to cease when China had satisfied the others that she had reformed and modernized her laws and their application by her courts. In 1904, China appointed a commission to codify its laws, and by 1922, with the assistance of foreign experts, five codes had been prepared, based on modern legal principles. Their application was, however, very limited territorially and the only code actually put into force to any extent was the Criminal Code.

In 1921 took place the Washington Conference and the nations there assembled (United States, British Empire, Belgium, China, France, Italy, Japan, Netherlands, and Portugal) entered into the so-called Nine Power Treaty "Relating to the Principles and Policies to Be Followed in Matters Concerning China," dated Feb. 6, 1922. The basis of this treaty as stated in the recital was the desire "to stabilize conditions in the Far East, to safeguard the rights and interests of China and to promote intercourse between China and the other Powers upon the basis of equality of opportunity." By article I the contracting powers other than China agreed, among other undertakings "to respect the sovereignty, the independence and the territorial and administrative integrity of China"; and "to provide the fullest and most unembarrassed opportunity to China to develop and maintain for herself an effective znd stable government."

That the undertaking to respect the sovereignty of China involved some mental reservations on the part of the signatories of the Nine Power Treaty, appears from the resolution regarding extraterritoriality in China adopted earlier at the same conference. This resolution did not call for the surrender of the extraterritorial rights, which was in principle the most serious encroachment then existing on the sovereignty of China. Rather it referred to the treaties of 1902 and 1903 between China and Great Britain, the United States, and Japan, above mentioned, and declared that any action appropriate to the relinquishing of such rights must depend upon a complicated state of facts in regard to the laws, the judicial system, and the methods of judicial administration of China. The resolution then provided for the appointment of a commission to inquire into the subject and report with recommendations, to assist the Chinese Government in effecting such reforms as would warrant the powers concerned to relinquish, either progressively or otherwise, their respective rights of extraterritoriality. Significantly each Power was to be deemed free to accept or reject all or any portion of the recommendations of the Commission. Thus, the resolution squarely recognized the relinquishment of these rights to be dependent upon questions of fact, as well as upon the decision of each Power for itself.

Because of the civil war in China, the Commission did not begin its work until January, 1926. It held 21 meetings and sent a sub-committee to investigate conditions in the large cities and adjacent territories. The southern government, however, refused permission to visit its territory, taking the ground that the extraterritorial rights should be surrendered without investigation. Other restrictions were, also, placed on the commission in its effort to ascertain the facts.

The basic recommendation of the Commission in its report was that conditions in China did not justify the immediate abolition of extraterritoriality. The defects of that system were pointed out, including the inexperience and lack of training of some of the judges, the absence of provision for appeals and especially that the same facts would result in varying decisions, depending upon the nationality of those concerned. It made recommendations for improvements in the sytem, pending its abolition, especially the application of certain specified Chinese laws, and a degree of cooperation with the Chinese authorities. The report recognized the progress made by China in revising its judicial system but found that the current

codes had not been authoritatively adopted. It criticized severely the continued interference with justice by the military lords, and the inadequate number of courts as well as the insufficient training of their officials. As its final recommendation the Commission proposed the gradual abolition of the extraterritorial courts, province by province, as the necessary laws are constitutionally established.

Since the submission of the report neither China nor the foreign powers have completely complied with its recommendations, though both have made progress. China has revised, codified, and put into force three codes and numerous laws. New courts have been established, and new trained judges have been appointed. However, all this is but foundation work and little more can be said than that an appreciable start has been made ultimately to take the judicial power from the hands of the local magistrates and place it in the hands of those who are specially trained for performing judicial duties.

The principal progress made by the treaty powers in following the suggestions of the Commission has been in connection with the court in the International

Settlement at Shanghai.

Beginning with 1928 the Nationalist authorities have endeavored at various times to secure the abandonment of the extraterritorial rights. As the outcome of the war, confirmed in several cases by special treaties, Germany, Austria, Hungary and Russia lost these rights. This applies also to the new States derived from the peace treaties, such as Poland. Of the 15 States now entitled to these rights, Sweden, Switzerland, Belgium, Denmark, Italy, Portugal and Spain have agreed to give up extraterritorial rights when others do. The remaining eight include all the States with important interests in China—the United States, the British Empire, France and Japan, as well as Brazil, The Netherlands and Norway. While they —with the exception of Japan—have at the urgency of China, made concessions with respect to the International Settlement, and the French Concession at Shanghai, they and more particularly Britain and the United States, have taken the position that before these rights can be entirely surrendered the new laws must be understood by the people of China, and its courts must be independent of military and other kinds of coercion. When negotiations were interrupted in 1931 the United States had proposed that the surrender of the rights be in reference to certain kinds of cases, and apply to all but specified areas. It was then believed that the United States and Great Britain would in general accept surrender provided that criminal cases be excluded for a term of years; that the surrender be not made to apply to Shanghai, Canton, Hankow and Tientsin; that the right of appeal from Chinese to foreign courts be retained, and foreign judges sit in Chinese courts when cases involving foreigners are tried.

Similarly, China's position with regard to concessions and leases has improved since the European war. As the result of that war and voluntary action by Great Britain and Belgium the 23 concessions existing in 1914 were reduced to 13—Japan having 5, Great Britain, 3 (Canton, Tientsin and Newchwang) and France, 4. Great Britain, moreover, in 1928 was ready to negotiate the return of the Tientsin concession and its delegates, with those of China, even initialed a draft agreement, which, however, has not been signed in final form.

igitized for FRASER tp://fraser.stlouisfed.org/

Repeated efforts, on the part of the Chinese to secure a retrocession of the International Settlement at Shanghai to their sovereignty culminated in 1929 in the Municipal Council inviting a South African judge to explore the subject and develop its practical possibilities. After an 18 months' investigation at Shanghai he rendered a long report in 1931. His principal conclusion was that before the Settlement could be retroceded the existence of a strong national government and the establishment of the rule of law in China would be necessary.

The leasehold situation was also improved by the return to China, through Japan, of German leasehold rights at Kiao-chou. Similarly Great Britain returned her leasehold rights at Wei-hai-wei. The French announced at the Washington Conference that France would restore to China the leased territory at Kuang-chou if all other States would do like-However, Great Britain manifested no intention to return its leased territory known as the Kowloon Extension. Likewise, Japan indicated no desire to restore the lease of the Liaotung Peninsular area, now part of Manchukuo. Great Britain, of course, still retains Hongkong and the part of Kowloon immediately opposite it, which it obtained in full sovereignty in 1842 and 1860.

Although this record of the rights of other nations in China has to some extent been obscured by the overwhelming activities of Japan's uncompleted adventure, which for that reason we have not discussed, it illustrates the difficulty of dealing with China on any logical, consistent basis as a fully independent sovereign nation. The action taken at the Washington Conference was undoubtedly sincerely intended to assist China to attain the standing among nations she desires. Nevertheless, when the record is analyzed there seems, in spite of the many more or less voluntary surrenders of rights obtained in the past, a decided and well-founded reluctance on the part of all those involved, to jeopardize rights really regarded by each possessor as vitally important to its own interests. In that connection it must not be its own interests. In that connection it must not be forgotten that China is considered by many in position to know potentially the wealthiest country in the world.

Gross and Net Earnings of United States Railroads for the Month of June

Financial statistics of railroad operations in the United States currently present both favorable and unfavorable aspects. Gross and net earnings for the month of June, 1939, disclose improvement when contrasted with the same month aspects. Gross and net earnings for the month of June, 1939, disclose improvement when contrasted with the same month of last year. The advance, however, merely reflects the emergence of the country from the profoundly depressed state in which it moved late in 1937 and during much of 1938. The level of general business established early this year appears to represent a plateau which is far from adequate, but from which the business community so far has been unable to make a fresh advance. Depression conditions continue to prevail, as witness the huge numbers of unemployed, and the rail traffic and earnings reports are correspondingly under what might be regarded as normal. For this situation the inroads on rail traffic occasioned by competing methods of transportation also are in part responsible, of course, but the primary consideration necessarily remains that of the attitude toward business assumed by the Administration in Washington. Some encouragement may be gleaned from the Congressional revolt against New Deal aims and methods which developed in the closing weeks of the last session that ended a week ago. But much more is necessary than a halt on further extensions of New Dealism, and the ultimate outcome thus remains to be determined.

There were few exceptional circumstances to influence the determined.

determined.

There were few exceptional circumstances to influence the trend of railroad earnings in June. The carriers continued to operate under the high wage levels virtually decreed by New Deal attitudes. Freight carriage at the rates established early last year would be quite profitable, if sufficient business were available. The small modifications of passenger fares recently made in the East cannot affect earnings to any great degree. Drought conditions in the northeastern States began to occasion some concern late in June, but were not then acute and probably affected earnings little, if at all. In later months of this year the carriers may well find their operating results adversely affected by the drought. The 135 class I roads reported for June gross earnings of \$320, 991,913, against \$280,547,859 in the same month of 1938, a gain of \$40,444,054 or 14.41%. Although much of the increased revenue was absorbed in operating expenses, net earnings rose to \$79,770,820 in June, as against \$63,937,412 in that month of last year, a gain of \$15,833,408 or 24.76%. We present these results in tabular form:

Month of June	1939	1938	Inc. (+) or I)ec. (—)
Mileage of 135 roads	233,404			04
Gross earnings Operating expenses Ratio of expenses to earnings	320,991,913 241,221,093 (75.14)	280,547,859 216,610,447 (77.20)	+40,444,054 +24,610,646	+14.41 +11.36
Net earnings	79,770,820	63,937,412	+15,833,408	+24.76

turities extended, the process to be carried through under a special three-judge Federal Court, whose rulings will be subject to review by the Supreme Court. It is noteworthy that the Baltimore & Ohio RR. moved promptly for such a simplified method of adjusting its financial burdens, the procedure unquestionably being preferable to the long delays and heavy costs of ordinary bankruptcy under Section 77.

We turn now to the various business indicate that the

We turn now to the various business indices that are material to comprehension of the June financial statistics of the railroads. In order to indicate in a simplified form the of the railroads. In order to indicate in a simplified form the measure of trade activity in relation to its bearing on railroad revenues during the month under review, we have brought together in the table we give below the figures indicative of activity in the more important industries, together with those pertaining to grain, cotton, livestock receipts and revenue freight car loadings, for the month of June, 1939, as compared with the same month of 1938, 1937, 1932 and 1929. On examination, it will be readily seen that, with the exception of anthracite coal, the output of all the industries mentioned in the table was on a greatly increased scale. A substantial increase (resulting from the larger production of the various industries) is also shown in the number of cars loaded with revenue freight. Receipts of cotton at the southern outports, too, are very much larger, while receipts at the western primary markets of the various while receipts at the western primary markets of the various farm products (taking them collectively) are on a greatly increased scale. An exception to the increases, however, is the livestock receipts at the leading cattle markets, which fell below June a year ago, due to smaller receipts at Chicago and Kansas City.

All that has been said above applies exclusively to the railroads of the country as a whole. Turning our attention now to the separate roads and systems, we find the exhibits in consonance with the results shown in the general totals. In the month under review, 57 roads and systems are able to show gains in gross earnings in excess of \$100,000, while only three roads report decreases above that amount, and in the case of net earnings, 38 roads record increases of more than \$100,000 and but eight roads losses. Among the roads and systems which are able to report increases in both gross and net earnings alike are the Pennsylvania RR., which heads the list in the case of the gross, with a gain of \$4,834,740, and a gain in net earnings of \$422,878; the New York Central, reporting \$3,656,423 increase in gross and \$1,624,625 increase in net (these figures cover the operations of the New York Central and its leased lines; when, however, the Pittsburgh & Lake Erie is included, the result is an increase in gross of \$4,017,304 and a gain in net of \$1,680,339) the Chesapeake & Ohio, showing \$2,414,395 gain in gross and \$1,622,278 increase in net; the Great Northern, reporting \$2,367,154 gain in gross and \$1,039,032 increase in net, and the Norfolk & Western, showing an increase in gross of \$2,158,303, accompanied by a gain in net of \$1,573,504. Two roads, the New York Ontario & Western and the Texas Pacific, report losses in both gross and a 104 463 in net and the former \$138,379 in gross and \$104 463 in net and the former \$138,379 in gross and \$104 463 in net and the Two roads, the New York Ontario & Western and the Texas Pacific, report losses in both gross and net earnings alike, the former \$138,379 in gross and \$104,463 in net, and the latter, \$130,113 in gross and \$287,741 in net. The Atchison Topeka & Santa Fe, it will be seen, reports a loss in net of \$961,529, after showing a gain in gross of \$1,132,208. In the following table we show all changes for the separate roads and systems for amounts in excess of \$100,000, whether increases or decreases, and in both grees and not seen and references. increases or decreases, and in both gross and net:

PRINCIPAL CHANGES IN GROSS EARNINGS FOR THE MONTH OF JUNE

	7

When the roads are arranged in groups, or geographical divisions, according to their location, the very favorable character of the returns is most strongly brought out, in as much as all the three great districts—the New England, the Southern and the Western—together with all the various regions comprising these districts, without a single exception, report increases in both gross earnings and net earnings alike. It will be observed, too, that the percentage of increase reported by practically all the regions is very high in the case of the net earnings, reaching 40.58% in the New England region; 44.46% in the Northwestern region, and no less than 64.60% in the Pocahontas region. Our summary by groups is as below. As previously explained, we group the roads to conform with the classification of the Interstate

Commerce Commission. The boundaries of the different groups and regions are indicated in the footnote to the table:

SUMMARY BY GROUPS-MONTH OF JUNE Gross Earnings

District and Region	1939	1938	Inc. (+) or 1	Dec. (-)

Our grouping of the roads conforms to the classification of the Interstate Commissions, and the following indicates the confines of the different

EASTERN DISTRICT

New England Region—Comprises the New England States.

Great Lakes Region—Comprises the section on the Canadian boundary between New England and the westerly shore of Lake Michigan to Chicago, and north of a line from Chicago via Pittsburgh to New York.

Central Eastern Region—Comprises the section south of the Great Lakes Region east of a line from Chicago through Peorla to St. Louis and the Mississippi River to the mouth of the Ohlo River, and north of the Ohlo River to Parkersburg. W. Va., and a line thence to the southwestern corner of Maryland and by the Potomac River to its mouth.

SOUTHERN DISTRICT. SOUTHERN DISTRICT

Southern Region—Comprises the section east of the Mississippi River and south of the Ohio River to a point near Kenova, W. Va., and a line thence following the eastern boundary of Kentucky and the southern boundary of Virginia to the atlantic.

Pocahonias Region—Comprises the section north of the southern boundary of Virginia, east of Kentucky and the Ohio River north to Parkersburg, W. Va., and south of a line from Parkersburg to the southwestern corner of Maryland and thence by the Potomac River to its mouth

WESTERN DISTRICT

WESTERN DISTRICT

Northwestern Region—Comprises the section adjoining Canada lying west of the Great Lakes Region, north of a line from Chicago to Omaha and thence to Portland, and by the Columbia River to the Pacific.

Central Western Region—Comprises the section south of the Northwestern Region west of a line from Chicago to Peoria and thence to St. Louis, and north of a line from St. Louis to Kansas City and thence to El Paso and by the Mexican boundary to the Pacific.

Western roads (taking them collectively) in June the present year had the advantage of a very much larger grain movement as compared with the month a year ago. Not only were the receipts of wheat at the western primary markets on a greatly increased scale, but all the other cereals, with the single exception of corn, in greater or less degree, contributed to the increase. Altogether, the receipts of the five items, wheat, corn, oats, barley and rye, at the western primary markets, during the five weeks ended July 1, 1939, aggregated 86,725,000 bushels, as against 64,344,000 bushels in the same five weeks of 1938; 49,051,000 in 1937; 37,598,000 in 1932, and 67,726,000 bushels in the corresponding period of 1929. In the following table we give the details of the western grain traffic in our usual form:

WESTERN FLOUR AND GRAIN RECEIPTS Five Weeks Ended July 1

(000 Omitted)	Year	Flour (Bbls.)	Wheat (Bush.)	Corn (Bush.)	Oats (Bush.)	Rye (Bush.)	Barley (Bush.)

	1938	1,959	22,580				

As to the cotton traffic in the South, this, too, was on a greatly increased scale, both as regards the overland shipments of cotton and the port movement of the staple. Gross shipments overland in June 1939 reached 56,191 bales as against only 46,969 bales in June, 1938 and 47,466 bales in 1937. In June, 1932, total shipments fell to 14,575, and back in 1929 they were 22,761 bales. Details of the port receipts of cotton during June for the past six years are set out in the subjoined table:

RECIPTS OF COTTON AT SOUTHERN PORTS IN JUNE, 1939, 1938, 1937, 1938, 1935, AND 1934

	1939	1938	1937	1936	1935	1934

Total	108.541	95,338	74,833	137,946	57,218	183,553

In the table we now present, a summary is furnished of the June comparisons of the gross and net earnings of the railroads of the country for each year back to and including 1909:

Month	13.50	Gross Ea	nings	, 1 × 1	Mileage	
of	Year	Year	Inc. (+) or	Per	Year	Year
June	Given	Preceding	Dec. (-)	Cent	Given	Preced'g
1909	\$210,356,964	\$184,047,216	+\$26,309,748	+14.29	197,648	194,689
1910	237,988,124	210.182.484	+27.805.640	+13.22	204,596	200,901

New Capital Issues in Great Britain

The following statistics have been compiled by the Midland Bank, Ltd. These compilations of issues of new capital, which are subject to revision, exclude all borrowings by the British Government for purely financial purposes; shares issued to vendors; allotments arising from the capitalization of reserve funds and undivided profits; sales of already issued securities which add nothing to the capital resources of the company whose securities have been offered; issues for conversion or redemption of securities previously held in the United Kingdom; short-dated bills sold in anticipation of long-term borrowings; and loans of municipal and county authorities which are not specifically imited. In all cases the figures are based upon the prices of issue.

SUMMARY TABLE OF NEW CAPITAL ISSUES IN THE UNITED KINGDOM [Compiled by the Midland Bank, Limited]

	Month of July	7 Months to July 31	Year to July 31
1919	£28,277,000	£108,576,000	£156,577,000

The Course of the Bond Market

A certain amount of uneasiness has developed in the bond market, due in part to European war fears. Both high-grade and speculative corporate issues lost ground on Thursday, but declines have been of minor proportions. United States Governments have suffered fractional losses only.

High-grade railroad bonds managed to retain early gains during the week in spite of weakness toward the close. Chesapeake & Ohio 4½s, 1992, were up ¼ at 124¼, while Kansas City Terminal 4s, 1960, lost ¼ at 106½. Mediumgrade and speculative rails underwent price reactions, and in many instances wide losses have been sustained. Canada Southern 5s, 1962, at 89¾ were off 2¼ points, while Delaware & Hudson 4s, 1943, dropped 3⅓ points to 56. Defaulted rail bonds followed the pattern of stock prices, and losses have been registered.

An easing tendency has been apparent throughout the public utility bond list. High grades are only slightly lower

but declines in more speculative issues are naturally larger. Prominent among the latter are issues which were strong last week, including bonds of Western Union, Portland General Electric, Puget Sound Power & Light, Standard Gas, and Indiana Service. Small recessions have also been general among New York City rapid transit bonds. The large offering of Pennsylvania Power & Light bonds was well received, but the week's two other issues, which were of lower quality, did not go to premiums.

A narrow trading range, with fractional declines the rule, has been the keynote of the industrial bond market. Only in convertible and lower-grade issues can changes of a point or more be found. Otis Steel 41/2s, 1962, fell 11/8 to 76, and Studebaker 6s, 1945, declined 21/2 to 891/2.

Foreign bonds suffered a heavy break under the impact of disturbing news from Europe. While the decline affected virtually all groups, Japanese issues have been exposed to greatest pressure, and with losses up to three points, dropped to the lowest level of the year. Among European obligations, German and Italian issues have been weakest.

Moody's computed bond prices and bond yield averages are given in the following tables:

Indications of Business Activity

THE STATE OF TRADE—COMMERCIAL EPITOME

Friday Night, Aug. 11, 1939. Business activity showed little change the past week holding steady in most lines. The securities market did not hold up well, however, and at times showed decided weakness. This was largely a reflection of the extreme uneasiness over the European political situation. Tension eased, however, following the speech by Albert Forster, Nazi leader in Danzig, which was milder in tone than ananticipated. Observers state that the next six weeks will be a critical period for Europe and the rest of the world. The German press is using the same tactics it did prior be a critical period for Europe and the rest of the world. The German press is using the same tactics it did prior to the Munich crisis. Those watching the situation closely see evidence that Germany is moving cautiously, fully cognizant of the fact that the Danzig situation is fraught with the gravest danger, that the western European countries are not willing to witness another Munich incident. The European situation is naturally a major consideration among business leaders here, and is playing no little part in hampering the business up-trend. Nothing specticular in the way of labor trouble occurred the past week, though this is an ever-present threat, especially in view of the recent announcement that the Congress of Industrial Organizations would soon enter the building trades labor field.

cent announcement that the Congress of Industrial Organizations would soon enter the building trades labor field a stronghold of the American Federation of Labor. Outside of these disturbing factors, the domestic trade situation continues to present a promising outlook.

According to the "Journal of Commerce," business activity for the week of Aug. 5 showed only a fractional recession from the high point of the year. Their business index registered 88.7 and compared with a revised figure of 88.8, the 1939 high, reached the previous week, and 75.4 for the the 1939 high, reached the previous week, and 75.4 for the corresponding week of 1938. According to this source, car loadings, lumber output and automotive activity held steady. Electric power output, bituminous coal production and steel operations were lower.

A rise in the rate of steel ingot production to the high-A rise in the rate of steel ingot production to the highest point since November, 1938, and a further gain in scrap prices to the highest level since October, 1937, bear out expectations of a stronger trend for the steel industry during the late summer and early autumn, says the "Iron Age." "The adjournment of Congress, together with the defeat of the New Deal's spending-lending program, has had a good sentimental effect on business notwithstanding the fact that a good share of present steel buying flows directly. fact that a good share of present steel buying flows directly or indirectly from Government expenditures," the review says. "If private spending by such important steel-consuming industries as the public utilities, oil companies and the railroads were to assume somewhat nearer normal properties, the steel outlook for the remainder of this portions, the steel outlook for the remainder of this year would be well assured. The settlement of the General Motors strike has not yet had an important effect on steel motors strike has not yet had an important effect on steel releases by that company as preparation of dies for new models must precede the taking of steel in large tonnages, but specifications from General Motors in fairly large volume are expected before the end of this month. The outstanding significance of current steel business is the great diversification of orders, both as to products and the range of industries from which the orders come. As there is no indication of a cossistion of this flow of miscellaneses.

range of industries from which the orders come. As there is no indication of a cessation of this flow of miscellaneous business within the near future, the steel industry is hopeful of higher operating rates as soon as automobile tonnage is sufficient to make itself felt. Within a week or two the trend of automobile assemblies will be upward." Receding slightly from the previous week, production of electricity in the United States for the week ended Aug. 5 totaled 2,325,085,000 kwh., the Edison Electric Institute reports. This represents an increase of 9.9% over a year ago and compares with an output of 2,341,322,000 kwh. in the previous week, which was 11.8% above the 1938 period. The decline in the Aug. 5 period from the preceding week came to 16,737,000 kwh., or less than 1%, and reflected a moderate variation in weather.

moderate variation in weather.

The Association of American Railroads reported today 661,136 cars of revenue freight were loaded during the week ending last Saturday. This was an increase of 1,372 cars, or 0.2 of 1%, compared with the preceding week; an increase of 77,074 cars, or 13.2%, compared with a year ago, and a decrease of 105,046 cars, or 13.7%, compared with 1027 with 1937.

Engineering construction awards for the week total \$74. 434,000, the sixth highest weekly volume of the year, 57% above last week, and 3.5% above the corresponding week last year, "Engineering News-Record" announces. The current volume brings the 1939 cumulative total to \$1,860,605,000, an increase of 16% above the \$1,607,649,000 reported for the first 32 weeks last year. Public construction is 95% higher than a week ago, and 5% higher than a year ago. Private construction is 9% and 0.5% lower, respectively.

vely, than last week and last year. Bank clearings this week were down rather sharply from the aggregate recorded for the preceding period, but the comparison with the same 1938 week was again favorable, comparison with the same 1938 week was again favorable, marking the third consecutive year-to-year increase. Total clearings for 22 leading cities of the United States for the week ended Wednesday, Aug. 9, as reported to Dun & Bradstreet, Inc., amounted to \$4,667,292,000; this figure compared with \$4,149,056,000 for the corresponding 1938 week, an increase of 12.5%. Clearings for the latest period fell \$821,040,000 under the amount for the week preceding. Between the two similar weeks of 1938 the decline was \$692,324,000 \$692,324,000.

According to officials of the Federal Housing Administration, the volume of new construction, the type of activity

According to officials of the Federal Housing Administration, the volume of new construction, the type of activity which creates jobs and demand for building supplies, increased 10% during July over the same month last year in spite of the fact that total operations of the agency for these two comparable periods was down 13%. The drop, they said, was due to a 40% decline in the volume of mortgages on old homes financed.

Farmers had a cash income of \$2,967,000,000 from the sale of farm products during the first half of this year, the Agriculture Department reported today. The income was 4% smaller than in the corresponding period of last year, when total income was \$3,084,000,000. Income from crops in the first half of this year was 6% smaller and from live stock products 2% smaller.

The seasonal decline in automobile production continued this week. Ward's Automotive Reports, Inc., estimated production for the United States and Canada at 24,875 units, a decrease of 3,375 units from the previous week, but a rise of 11,085 units from the like week of last year. The report indicated that contrary to earlier expectations the downward trend may continue another week before the autumn advance begins.

Wholesale trade, on which the merchandising spotlight is focused at the present time, showed an average gain throughout the country this week of from 5% to 10%, with the rise in some sections as high as 35%, according to the Dun & Bradstreet, Inc., weekly review, released today. The hot spell is declared to have caused a spurt in orders for rush shipments of summer goods, particularly sports apparel, but the bulk of inquiries was for fall merchandise. Low stock and retailers expectations of a better fall selling season than in 1938 were tending to enlarge commitments in all lines. Although retail trade was handicapped by excessive heat, gains over last year averaged 6% to 12% for the whole country. The East made a good showing, with advances of 6% to 11%, according to Bradstreet, and

ments in all lines. Although retail trade was handicapped by excessive heat, gains over last year averaged 6% to 12% for the whole country. The East made a good showing, with advances of 6% to 11%, according to Bradstreet, and New England reported gains of 5% to 9%.

The week was characterized by near-normal temperatures throughout most of the country, and widespread showers from the Rocky Mountains eastward, Government advices state. Maximum temperatures were mostly moderate and not as high in the Midwest as during recent weeks. They reached 100 degrees in only limited areas, mostly in Oklahoma and the adjoining portions of surrounding States, locally in eastern Montana, and in the interior of the Far West. At the close of the week much cooler weather prevailed over the Northwestern States, with a minimum temperature of 35 degrees at Baker, Ore., and 34 degrees at Yellowstone Park, Wyo., on the morning of Aug. 8. Droughty conditions in much of the Southwestern drought area were relieved, at least temporarily, by widespread rainfall during the week. The eastern two-thirds of Kansas, much of Oklahoma and western Texas, most of New Mexico and Arizona, and much of Colorado received substantial rainfall which improved the situation materially. In New England there was widespread general rain, which somewhat further relieved conditions and partly restored the growth of crops. In New York State rainfall was mosetly light, but again heavy locally, with some areas still very dry. In the New York City area hot weather prevailed during the early part of the week, with considerable drop in humidity during latter half.

Clear and warm weather prevailed today, temperatures ranging from 68 degrees to 85 degrees. No perceptible change is predicted for this evening. Partly cloudy, warm and somewhat more humid temperatures are forecast for Saturday and probably Sunday.

Overnight at Boston it was 68 to 87 degrees; Baltimore, 65 to 94: Pittsburgh 60 to 82: Portland

Saturday and probably Sunday.

Overnight at Boston it was 68 to 87 degrees; Baltimore, 65 to 94; Pittsburgh, 60 to 82; Portland, Me., 65 to 84;

Chicago, 67 to 77; Cincinnati, 57 to 88; Cleveland, 58 to 82; Detroit, 64 to 78; Milwaukee, 67 to 74; Charleston, 63 to 80; Savannah, 70 to 94; Dallas, 78 to 98; Kansas City, 69 to 90; Springfield, Ill., 64 to 83; Oklahoma City, 70 to 90; Salt Lake City, 54 to 84; Seattle, 57 to 89; Montreal, 62 to 76, and Winnipeg, 57 to 67.

Revenue Freight Car Loadings Total 661,136 Cars In Week Ending Aug. 5 Loading of revenue freight for the week ended Aug. 5

totaled 661,136 cars, the Association of American Railroads announced on Aug. 10. This was an increase of 77,074 cars or 13.2% above the corresponding week in 1938 but a decrease of 105,046 cars or 13.7% below the same week in 1937. Loading of revenue freight for the week of Aug. 5 was an increase of 1,372 cars or two tenths of one per cent above the preceding week. The Association further reported:

preceding week. The Association further reported:

Miscellaneous freight loading totaled 253,952 cars a decrease of 1,321 cars below the preceding week, but an increase of 29,229 cars above the corresponding week in 1938.

Loading of merchandise less than carload lot freight totaled 154,657 cars, an increase of 2,333 cars above the preceding week, and an increase of 5,412 cars above the corresponding week in 1938.

Coal loading amounted to 115,551 cars, a decrease of 1,672 cars below the preceding week, but an increase of 24,624 cars above the corresponding week in 1938.

Grain and grain products loading totaled 48.376.

Grain and grain products loading totaled 42,270 cars an increase of 1,448 cars above the preceding week, but a decrease of 9,244 cars below the corresponding week in 1938. In the Western Districts alone, grain and grain products loading for the week of Aug. 5 totaled 27,736 cars, an increase of 2,870 cars above the preceding week, but a decrease of 9,400 cars below the corresponding week in 1938.

Live stock loading amounted to 11,158 cars, a decrease of 433 cars below the preceding week, and a decrease of 118 cars below below the preceding week, and a decrease of 118 cars below below the preceding week, and a decrease of 118 cars below the preceding week, and a decrease of 118 cars below below the preceding week, and a decrease of 118 cars below the preceding week, and a decrease of 118 cars below the preceding week, and a decrease of 118 cars below the preceding week and a decrease of 118 cars below the preceding week.

Live stock loading amounted to 11,158 cars, a decrease of 433 cars below the preceding week, and a decrease of 118 cars below the corresponding week in 1938. In the Western Districts alone, loading of live stock for the week of Aug. 5, totaled 8,335 cars a decrease of 104 cars below the preceding week, and a decrease of 162 cars below the corresponding week in 1938. Forest products loading totaled 31,933 cars, a decrease of 518 cars below the preceding week, but an increase of 3,041 cars above the corresponding week in 1938.

Ore loading amounted to 44,890 cars an increase of 1,326 cars above the preceding week, and an increase of 21,892 cars above the corresponding week in 1938.

Coke loading amounted to 6,725 cars, an increase of 209 cars above the receding week, and an increase of 2,238 cars above the corresponding week

All districts reported increases compared with the corresponding week in 1938 except the Centralwestern and Southwestern. All districts re-ported decreases compared with the corresponding week in 1937 except the Pocahontas.

Selected Income and Balance Sheet Items of Class I Steam Railways for May

The Bureau of Statistics of the Interstate Commerce Commission has issued a statement showing the aggregate totals of selected income and balance sheet items of class I steam railways in the United States for the month of May. These figures are subject to revision and were compiled from 135 reports representing 140 steam railways. The present statement excludes returns for class I switching and terminal companies. The report in full is as follows:

TOTALS FOR THE UNITED STATES (ALL REGIONS)

	For the Mo	mth of May	For the Fire Months of			
Income Items—	1939	1938	¥ 1939	1938

Other than United States Government taxes	148,890,192			

a Represents accruals, including the amount in default. b Includes payments which will become due on account of principal of long-term debt (other than funded debt matured unpaid) within six months after close of month of report. c Includes obligations which mature not more than two years after date of issue. d Deficit or other reverse items.

Moody's Commodity Index Declines Sharply

Moody's Daily Commodity Index declined sharply from 141.2 a week ago to 139.1 this Friday. The principal individual changes were the declines in cotton, hides and

hog prices.
The movement of the index is as follows:

Fri	Aug.	4	141.2	Two weeks ago, July 2	28141.6
Sat	Aug.	5	*	Month ago, July 11	141.7
Mon.	Aug.	7	141.0	Year ago, Aug. 1	142.0
Tue	Aug.	8	140.2	1938-High, Jan. 10	152.9
Wed.	Aug.	9	140.1	Low, June 1	130.1
Thurs	Aug.	10	139.4	1939-High, March 6.	
Fri.,	Aug.	11	139.1	Low, April 22	138.6

Wholesale Commodity Prices Reached Five-Year Low in Week Ended Aug. 5, According to "Annalist" Index

Index
Wholesale commodity prices established another five-year low during the week ended Aug. 5, with the "Annalist" index closing at 75.7% of the 1926 base on Aug. 5, the lowest since July 10, 1934. A week ago the index was 76.3, while a year ago it was 80.3, according to an announcement issued by the "Annalist" on Aug. 7, which went on to say:

Wheat and cotton prices declined last week, although losses were moderate in both cases. Corn rallied slightly, while other grains were firm. Hog quotations declined all week and closed near the bottom. Silk dropped about 8c. a pound as speculators unloaded. Rubber was an exception to the general trend and rose to the year's high.

Wholesale Commodity Prices Declined During Week Ended Aug. 5 Reaching Lowest Level Since July, 1934, According to National Fertilizer Association

A moderate decline was recorded by the commodity price index of the National Fertilizer Association during the week ended Aug. 5, taking it to the lowest point reached since July, 1934. Based on the 1926-28 average of 100%, last week the index stood at 70.9% as compared with 71.2% in the preceding week. A year ago it registered 74.0% and two years ago, 88.2%. The Association's announcement, dated Aug. 7, went on to say:

ment, dated Aug. 7, went on to say:

The principal decline was in the food group, with the group index declining to the lowest point reached in recent years. Lower prices for silk and wool were responsible for a drop in the textile price index. The building material average was also lower, reflecting declining quotations for lumber. A fractional rise was recorded by the farm product average, with higher prices for cotton, corn, and poultry more than offsetting declines in wheat and hogs. Continued strength in non-ferrous metals and steel scrap took the metal index to the highest point reached in the last three months. Small increases were also recorded by the indexes representing the prices of fertilizer materials and miscellaneous commodities. modities.

As a result of small increases in the prices of a number of less important commodities, advances in price series included in the index outnumbered declines 25 to 21; in the preceding week there were 31 advances and 20 declines; in the second preceding week there were 12 advances

Electric Output for Week Ended Aug. 5, 1939, 9.9% Above a Year Ago

Above a Year Ago

The Edison Electric Institute in its current weekly report estimated that production of electricity by the electric light and power industry of the United States for the week ended Aug. 5, 1939, was 2,325,085,000 kwh. The current week's output is 9.9% above the output of the corresponding week of 1938, when production totaled 2,115,847,000 kwh. The output for the week ended July 29, 1939, was estimated to be 2,341,822,000 kwh., an increase of 11.8% over the like week a year ago. week a year ago.

Bank Debits 14% Higher Than Last Year

Debits to individual accounts, as reported by banks in leading cities for the week ended Aug. 2 aggregated \$8,690,000,000, or 11% above the total reported for the preceding week and 14% above the total for the corresponding week of last year.

Aggregate debits for the 141 cities for which a separate separate total has been maintained since January, 1919, amounted to \$8,042,000,000, compared with \$7,273,000,000 the preceding week and \$6,983,000,000 the week ended Aug. 3 of last year. These figures are as reported on Aug. 7, 1939, by the Board of Governors of the Federal Reserve System:

SUMMARY BY FEDERAL RESERVE DISTRICTS

Rayon Yarn Shipments for Seven Months 48% Above 1938 Period—Second Quarter Output 37% Higher 1938 Period—See Than Year Ago

Than Year Ago
Shipments of rayon yarn to domestic consumers totaled 32,900,000 pounds in July, according to records compiled by the "Rayon Organon," published by the Textile Economics Bureau, Inc., New York. This compares with shipments of 33,000,000 pounds in June and with 31,900,000 pounds in July, 1938. For the seven months ended July 31, rayon yarn shipments aggregated 194,100,000 pounds, or 48% greater than the 131,300,000 pounds shipped in the corresponding period in 1938 and 4% above the total of 187,000,000 pounds in 1937. Further details, as reported by the Bureau on Aug. 9, follow:

As a result of the continued heavy shipments in July, producers' yarn

by the Bureau on Aug. 9, follow:

As a result of the continued heavy shipments in July, producers' yarn stocks were reduced to 25,000,000 pounds as of July 31, or about a three weeks' supply at the July rate of shipments. Stocks on hand totaled 32,600,000 pounds on June 30 and 53,600,000 pounds at the close of July, 1938.

Production of rayon filament yarn by domestic producers aggregated 73,600,000 pounds during the second quarter of 1939. This total represents a drop of 10% compared with the output of 81,700,000 pounds reported for the first quarter of 1939, but was 37% greater than the second quarter output of 53,700,000 pounds last year.

While second-quarter production totaled 73,600,000 pounds, shipments in the same period aggregated 81,900,000 pounds. The "deficiency" naturally was drawn from producers' yarn stocks. By adopting this conservative production policy, it is pointed out, producers were able not only to sharply reduce their stocks of yarn, but also to make the necessary

machine repairs and changeovers in preparation for the usually heavy

third-quarter production schedules.

Production of viscose and cuprammonium yarn for the second quarter totaled 51,600,000 pounds against 56,900,000 pounds in the first quarter of 1939. Second-quarter acetate yarn production totaled 22,000,000 pounds

or 1939. Second-quarter acetate yarn production totaled 22,000,000 pounds against 24,800,000 pounds in the first quarter and 16,000,000 pounds in the second quarter of 1938.

Domestic staple fiber production at 11,500,000 pounds in the second quarter was only slightly larger than the first-quarter total, but 72% greater than the second-quarter production last year. For the first half of 1939 domestic staple fiber production amounted to 22,500,000 pounds, or 91% greater than the 11,800,000-pound output of the first six months of 1938.

Secretary of Labor Perkins Reports Slight Gain in Total Building Permit Valuations from May to June—Total Construction Reported 42% Above June, 1938

There was a slight increase in total permit valuations reported to the Bureau of Labor Statistics from over 2,000 cities for the month of June as compared with May, Secretary of Labor Frances Perkins reported July 29. "New residential construction declined by 14% and new non-residential construction increased by 41%," Miss Perkins said. "The decline in new residential building was due to a decrease in the United States Housing Authority projects from the record level attained in May." Secretary Perkins also stated: also stated:

As compared with June, 1938, the increase in total construction for which permits were reported was 42%. New residential was 44% above last year's level, and new non-residential 57%. Additions, alterations and repairs were 12% higher than a year ago.

In making available the report the Department of Labor

also had the following to say:

The percentage change from May to June, 1939, in the permit valuation of the various classes of building construction is indicated in the following table for 2,006 cities having a population of 1,000 or over:

	Change from May to June, 1939			
Class of Construction	All Cities	Excl. New York		
New residential	-14.0% +40.7% -6.0%	-21.1% +44.8% -6.1%		
Total	+0.4%	-3.0%		

There were 26,552 family-dwelling units provided in new housekeping dwellings for which permits were issued during June in these 2,006 cities. Of these, 2,877 were in projects constructed under the jurisdiction of the United States Housing Authority. In May, 31,058 units were provided, of which 8,803 were in USHA projects.

The percentage change in the permit valuation from June, 1938, by class of construction, is given below for the same 2,006 cities.

Class of Construction	Change from June, 1938 to June, 1939			
	All Cities	Excl. New York		
New residential	+44.4% +57.0% +12.3%	+43.5% +76.2% +21.2%		
Total	+41.9%	+49.1%		

Compared with June, 1938, there was an increase of 48% in the number of family-dwelling units provided.

The value of permits issued, for which reports were received in the

Bureau, during the first six months of 1939 was 30% greater than for the corresponding period of 1938. The increase was greatest in new residential building. The changes, by class of construction, are indicated below:

Class of Construction	Change from First 6 Mos. of 1938 to First 6 Mos. of 1939			
Ciusa of Constitutions	All Cities	Ezcl. New York		
New residential	+46.9% +19.6% +8.3%	+65.1% +37.5% +13.8%		
Total	+30.4%	+44.9%		

In the 2,006 cities permits were issued for \$1,031,212,000 of construction during the first six months of 1939. Of this amount, \$558,253,000 was accounted for by new residential buildings, \$299,826,000 by new non-residential construction, and \$173,133,000 by additions, alterations, and

repairs.

The data collected by the Bureau of Labor Statistics include contracts awarded by the Federal and State governments, in addition to private and municipal construction. For June, 1939, Federal and State construction amounted to \$33,033,000; for May, 1939, to \$35,234,000; and for June, 1938, to \$8,032,000.

amounted to \$33,033,000; for May, 1939, to \$35,234,000; and for June, 1935, to \$8,032,000.

Permits were issued during June for the following important building projects: In Quincy, Mass., for a manufacturing plant building to cost \$550,000; in Elmira, N. Y., for a State Reformatory building to cost \$550,000; in White Plains, N. Y., for a USHA project to cost \$560,000; in New York City—in the Borough of Brooklyn, for one-family dwellings to cost \$1,300,000 and for apartment houses to cost \$760,000; in the Borough of Queens, for one-family dwellings to cost \$2,503,000 and for apartment houses to cost \$7,300,000; in Weehawken Township, N. J., for school buildings to cost \$1,000,000; in Cleveland, Ohio, for USHA "Woodhill Homes," to cost \$2,300,000; in Cleveland, Ohio, for Commercial buildings to cost \$710,000; in Philadelphia, Pa., for one-family dwellings to cost \$1,000,000; in Weshington, D. C., for one-family dwellings to cost \$1,000,000; in Washington, D. C., for one-family dwellings to cost \$1,000,000; for apartment houses to cost \$700,000, for an addition to St. Elizabeth's Hospital to cost \$600,000, for buildings for the Social Security and Railroad Retirement Boards to cost nearly \$12,000,000, for the superstructure for Thomas Jefferson Memorial to cost \$2,250,000, for the superstructure for the Gun Assembly Shop, United States Navy Yard, to cost \$500,000; in Chicago, Ill., for one-family dwellings to cost over \$1,600,000 and for commercial structures to cost nearly \$900,000; in

Detroit, Mich., for one-family dwellings to cost more than \$3,700,000; in Kansas City, Kans., for wholesale and farm market buildings to cost \$1,700,000; in Minneapolis, Minn., for one-family dwellings to cost \$500,000; in Baltimore, Md., for one-family dwellings to cost \$500,000; in Baltimore, Md., for one-family dwellings to cost \$600,000; in Richmond, Va., for a hospital for the Medical College of Virginia to cost \$1,500,000; in Columbia, S. C., for a State office building to cost \$750,000 and dormitories to cost \$600,000, both PWA projects; in Montgomery, Ala., for utility buildings, elevators, &c., for the Veterans' Administration Facility to cost over \$1,000,000; in Memphis, Tenn., the USHA "Vance Street" project to cost \$2,800,000; in Knoxville, Tenn., for the USHA "Western Heights" project to cost \$1,000,000; in Miami, Fla., for one-family dwellings to cost \$500,000 and additional contracts on the USHA "Liberty Square" project to cost about \$1,000,000; in Miami Beach, Fla., for hotels to cost \$750,000; in Natchitoches, La., for buildings for the State Normal School to cost \$800,000; in Houston, Tex., for one-family dwellings to cost \$1,000,000; in Alameda, Calif., for buildings for the United States Naval Air Service to cost \$1,400,000; in Long Beach, Calif., for one-family dwellings to cost \$600,000; in Long Beach, Calif., for one-family dwellings to cost \$600,000; in Los Angeles, Calif., for one-family dwellings to cost \$600,000; in Los Sangeles, Calif., for one-family dwellings to cost \$600,000; in Cost \$600,000; in Burbank, Calif., for one-family dwellings to cost \$600,000; and in Honolulu, T. H.; for school buildings to cost nearly \$800,000.

a Countries with which reciprocal trade agreements are in effect. b Reciprocal trade agreement became effective April 16, 1938. C Reciprocal trade agreement became effective April 16, 1938. C Reciprocal trade agreement became effective Jan. 1, 1939. d Reciprocal trade agreement replaced Jan. 1, 1939. e For statistical purposes, trade with Austria beginning May 6, 1938, and that with the Sudeten area, as far as ascertainable, beginning Nov. 10, 1938, are included with Germany, while trade with the other Czecho-Slovak provinces occupied by Germany, Hungary and Poland has been included with these countries since March 18 or 19, 1939. Trade with the Lithuanian territory of Memel has been included with Germany since March 25, 1939. f Except Unfederated Malay States. g Includes Tripolitania and Cirenalea (Libya), Eritrea on the Red Sea, and Italian Somaliland. h Northern Rhodesia and Somaliland. i Reciprocal trade agreement became effective May 5, 1939.

Summary of Business Conditions in Federal Reserve Districts

Indications of the trend of business in the various Federal Reserve districts are shown in the following extracts which we give from the "Monthly Reviews" of the Federal Reserve banks of Boston, New York, Philadelphia, Cleveland, Richmond, Atlanta, Chicago, St. Louis, Minneapolis, Kansas City, Dallas and San Francisco:

Kansas City, Dallas and San Francisco:

First (Boston) District

The Federal Reserve Bank of Boston, in its "Monthly Review" dated Aug. 1, states that "during June the level of general business activity in New England increased slightly over that which prevailed in May, after allowances had been made for customary seasonal changes." The Bank also had the following to say:

The improvement appeared to be general throughout most of the major lines of activity. Aggregate business activity in June was about 20% higher than in June last year, and during the four-week period ending July 8 total freight car loadings in New England were 6.9% larger than in the corresponding four-week period last year. Department store sales in this district during June were 2.2% higher than in June a year ago.

Boot and shoe production in New England during June is estimated to have been 10,123,000 pairs, which was about 13% under that of May, but was 19.6% higher than in June last year.

Wool consumption by mills in New England during June was about 18% larger than in May and for the first half of 1939 exceeded that of last year by about 85%. During June raw cotton consumption in New England mills was 72,095 bales, an amount slightly less than in May but considerably higher than in June last year. During the first six months of the current year cotton consumption in this district, at 443,633 bales, was 33.5% greater than during the corresponding period a year ago.

During June there was a decrease of 0.7% from May in the total number

ago.

During June there was a decrease of 0.7% from May in the total number of wage-earners employed in representative manufacturing establishments. in Massachusetts, but there was an increase of 0.8% in the amount of aggregate weekly payrolls, according to the Massachusetts Department of Lebor and Industries. During the 14-year period, 1925-1938, inclusive, there has been an average decline in employment of 1.8% and an average decrease of 2.6% in the amount paid in wages. This year the decrease in employment between May and June was less than the average and there was a small increase in payrolls rather than the usual decline.

Second (New York) District

"The general level of production and trade appears to have been well maintained in July," said the Federal Re-serve Bank of New York in its "Monthly Review" of Aug. 1 presenting its indexes of business activity. added:

Shutdowns of automobile plants for model changes, which formerly came near the year-end, but which have been concentrated in August and September since 1935, are coming somewhat earlier this year, and there has been a sharp reduction in automobile assemblies, in anticipation of changeovers to new models. It is reported that one independent manufacturer began to assemble 1940 cars during the latter part of July, although final runs on this year's models made up the bulk of the month's production. Steel mill operations, on the other hand, increased steadily after Independence Day shutdowns, and reached about 60% of capacity by the final week in July, the highest rate since the peak of 62% of capacity by the final week in July, the highest rate since the peak of 62% or capacity by the final week in July, the highest rate the new for the highest rate, with the exception of that temporary peak, since October, 1937. According to trade reports, automobile companies are not yet taking steel for new models in a substantial way, but steel has been in active demand for construction projects and miscellaneous steel consuming lines. Cotton textile mills operated at a relatively high rate for July, and bituminous coal mining rose further. Merchandise and miscellaneous freight car loadings were slightly lower than the June rate in the first three weeks of July, while shipments of bulk commodities advanced seasonally. Department store sales in this district for the first three weeks of July appear to have shown about the usual seasonal decline from the June level.

After taking seasonal factors into account, industrial production rose considerably between May and June and railyeay freight traffic also in Shutdowns of automobile plants for model changes, which formerly

from the June level.

After taking seasonal factors into account, industrial production rose considerably between May and June, and railway freight traffic also increased, while retail trade was maintained near the May level. Two developments during May—heavy orders received during a period of price reductions and the resumption of bituminous coal mining—appear to have stimulated steel mill operations, and ingot production increased between May and June, instead of declining as in most past years. Pig iron output also expanded, copper production increased moderately, and automobile assemblies, responding to a well-maintained volume of retail sales, were somewhat greater than in May, contrary to the usual experience. Cotton mill activity was reduced less than in many other years, and wool mills increased their operations. Declines were shown in meat packing and in lead production. lead production.

lead production.

During June department store sales throughout the United States showed approximately the usual seasonal decline from the May level, but in this district sales were higher than in May, whereas usually little change occurs. Sales of chain grocery stores for the country as a whole were about unchanged from May to June, and sales of other chain stores showed about the customary seasonal advance, while mail order house sales were somewhat lower than in May as in many recent years. Owing mainly to resumption of bituminous coal shipments, total freight car loadings rose considerably during June. considerably during June.

considerably during June.

Reflecting recovery of world trade, large-scale naval construction, and, most recently, inception of the Maritime Commission's 10-year program to rebuild and enlarge the United States merchant marine, American shipbuilding has displayed a marked expansion.

(Adjusted for seasonal variations, for estimated long term trend, and where nec for price changes)

Third (Philadelpiha) District

Business activity in the Philadelphia Federal Reserve District continues well maintained, it is stated in the Aug. 1 "Business Review" of the Federal Reserve Bank of Philadelphia. From the "Review" we also take the following:

Production and sales of commodities are substantially exceeding the levels prevailing in the first part of last year, and some further improvement is indicated by the July reports from several important lines of trade and industry.

ment is indicated by the July reports from several important lines of trade and industry.

Output of manufactures increased slightly from May to June, while pro-duction of anthracite and crude petroleum declined. Employment and payrolls in 12 branches of trade and industry increased considerably during

the month and as compared with a year ago. Early reports from manu-July were sustained close to or at higher than seasonal levels, and in the case of industries producing consumers' goods, including textiles, an im-

July were sustained close to or at higher tran seasonal levels, and in case of industries producing consumers' goods, including textiles, an improvement in activity is shown.

Residential building has been considerably above the level of last year. There apparently exists an active demand for houses selling at a moderate price. Rental demand for houses in the lower-priced range also seems to be relatively strong. With some exceptions, the volume of operations on non-residential buildings, on the other hand, has been smaller than a year ago. Contracts for public works and utilities show virtually no change from a year ago but were larger in the first half of this year than in the same period last year. Declines in contract awards for all types of construction from May to June were partly seasonal.

Dollar sales of merchandise by retail and wholesale establishments have been well maintained at levels higher than last year. Inventories have been reduced further and continue noticeably smaller than a year ago. Shipments of goods by rail and water show improvement and exceed the volume of last year.

Commodity prices generally show little change, although in several instances manufacturers report slight advances since early June. Industrial staples have been firm, while agricultural products, especially grains, declined in July.

declined in July.

Fourth (Cleveland) District

The Federal Reserve Bank of Cleveland, in its "Monthly Business Review" dated July 31, reports that "the slight improvement in business sentiment which was noted late in May gathered momentum in June and the first three weeks of July." The Bank further states:

weeks of July." The Bank further states:

Operating rates in most Fourth District industries have increased, and now approach or exceed the levels of last January. A spirit of caution still prevails, however, and except in a few cases, raw materials and supplies are being purchased only as needed. Employment figures now available for June, which in most cases relate to the middle of the month, show slight gains in the number of men working, but larger increases in employee-hours and payrolls. Ohio industrial employment increased 1½% in June over May, but payrolls rose nearly 5%.

Steel, machine tools, and consumers' goods lines continued to lead the way. After a let-down in the first week of July as a result of the Independence Day holiday and vacations, steel operations rose to the highest rate since last November. . . Machine tool buying remained at a high level during June, with some increase from domestic sources.

June was a very quiet month in the coal trade, but improvement in steel resulted in some pick-up in the demand for industrial grades during July. Shipping by way of the lakes was quite active, and in mid-July the number of boats in the coal and ore trade rose to more than 68% of the number available. This compares with 40% on the same rate last year.

year.

Year.

Producers of consumers' goods were generally quite active during June and early July. Clothing manufacturers were operating at, or close to, capacity in order to provide for early shipment of fall lines, and payrolls at Ohio men's clothing plants increased 6% in June over May. Orders for fall delivery were said to be well above last year, and in some cases approached 1937. Shoe factories reported similar conditions, with a gain in June payrolls of 15%. Sales of tires in the replacement market were larger in June than in any month since 1933, and rubber companies continued to operate about 50% ahead of last year. Other retail sales, as evidenced by department stores, decreased a little less than seasonally in June.

Fifth (Richmond) District

From the July 31 "Monthly Review" of the Federal Reserve Bank of Richmond we take the following regarding business conditions in the Fifth District:

All important indicators of trade and industry in the Fifth Reserve District showed improvement in June as compared with June, 1938, and practically all of them also compared favorably with May, 1939, figures, if seasonal trends be taken into account. The most outstanding improvement in June over June last year was in construction, which rose 70% in value of building permits issued and 54% in contracts actually awarded. Much of the large volume of construction, work is partly financed by

value of building permits issued and 54% in contracts actually awarded. Much of the large volume of construction work is partly financed by Federal grants or loans, and Federal insurance of loans through the Federal Housing Authority has also been an important factor in stimulating residential building.

Employment is better than in any other July in several years, not only in construction fields but also in textile plants, coal mines, tobacco factories, and many less important industries. Retail trade as reflected in department store sales, furniture sales and registrations of new passenger automobiles is running considerably above the levels of this time last year. Coal mines are unusually busy for this season, working to rebuild reserve stocks which were pulled down during the April and May shutdown in bituminous fields. Output of tobacco factories in June was very large, and production of cigarettes numbering 16,594,511,013 set a new record for a single month. record for a single month.

Sixth (Atlanta) District

The following regarding business conditions in the Sixth (Atlanta) Federal Reserve District is taken from the July 31 "Monthly Review" of the Federal Reserve Bank of Dallas:

Dallas:

Distribution of merchandise through reporting department stores and wholesale firms declined less in June than they usually do. Building permits at reporting cities, and contracts awarded for construction other than residential, increased further in June. Pig iron production increased, following a four-month decline, and steel mill activity has recently risen to the highest level of the year. Business failures dropped sharply in June.

Seventh (Chicago) District

The Chicago Federal Reserve Bank, in its "Business Conditions" report of July 26, states that "instead of showing the usual midsummer lull which appears in June, Seventh District business activity in the month this year was well maintained." The Bank also had the following to say:

maintained." The Bank also had the following to say:

Declines, where evident, were for the most part less than seasonal in nature, and several phases recorded contra-seasonal increases over May. An important reflection of these trends was a gain in industrial employment over a month earlier. Throughout the first half of 1939 the level of industry and trade in the district has been well above the low volumes of the corresponding 1938 period. Some hesitancy developed at times in production phases but, with employment and payrolls held at relatively steady levels and with farm income above a year ago, consumer buying has been good over the six months. Inventories still appear to be in esticatory position. The volume of building construction has been an especially favorable factor in the district this year, although the June amount showed a small decrease from the month last year. During the first half of 1939 business failures in the area were sharply lower in aggregate liability involved than in the 1938 period, while their number totaled only slightly less.

first half of 1939 business failures in the area were sharply lower in aggregate liability involved than in the 1938 period, while their number totaled only slightly less.

Sustained by miscellaneous sources of demand, operations of Chicago district steel mills were averaging 54% of capacity in the third week of July, or 4½ points higher than a month earlier. Aggregate production of automobiles in June showed a non-seasonal gain over May and the largest increase over a year ago so far in 1939; by the middle of July, 1939, model runs were being rapidly completed. Shipments from steel and malleable casting foundries of the Seventh District expanded over the preceding month, as did those from paper mills; incoming business in these industries declined in June. In contrast to the heavier output in most production phases, building construction diminished 8% from the May volume, mostly because of a decrease in residential building, and was 3% under a year ago. However, in the first half of 1939 total construction exceeded that of the same 1938 period by almost one-third, with residential building heavier by 80%.

The increases during June in industrial employment and payrolls of the Seventh District were counter to the usual trend for the month. Employment has been well maintained so far this year, and in midsummer remained much larger than in 1938.

In accordance with seasonal trend, most lines of retail trade in the Seventh District showed some decline in June from the preceding month, although the decrease in department store sales was only 1%, that of 19% in retail furniture trade was smaller than usual for the period, and sales of shoes at retail rose 6% in the total over May. There was a slight gain during June in the aggregate of wholesale trade in the area, and except in groceries it was well above a year earlier. Both the retail and wholesale distribution of commodities in the first half of 1939 exceeded the corresponding 1938 levels. Although margins of decline from a year ago have narrowed, inventories rem

Eighth (St. Louis) District

In the July 28 "Business Conditions" report of the Federal Reserve Bank of St. Louis, it is stated that "general business in the Eighth District through June and the first half of July carried forward at a slightly accelerated rate the improvement achieved during late April and May." monthly review also had the following to say:

monthly review also had the following to say:

The betterment in actual volumes of industry and trade was accompanied by noticeable improvement in sentiment in the business community, based largely on an expansion in orders received and some relaxation in the ultra conservatism in purchasing which has characterized recent months. Production in a majority of classifications of both durable and non-durable goods expanded, during June as compared with May, and volumes were substantially larger than a year ago. As reflected in traffic of railroads operating in the district, as well as statistics of merchants available to this bank, distribution of merchandise in June was also measurably greater than for that month in 1938.

Operations in the iron and steel industry in June showed strong resistance to the usual recessionary seasonal trend. Schedules at both mills and foundries averaged slightly highly than during May. June output of bituminous coal at district mines was 4.2% in excess of the same month a year ago. Production of lumber in June showed little change from May, and new orders and shipments continue to run measurably ahead of cur-

and new orders and shipments continue to run measurably ahead of current production. Consumption of electric power by industrial users in the principal centers was 6% greater than in May and 16.6% in excess of the June, 1938, load.

Gauged by department store sales in the principal centers, the volume of retail trade in the Eighth District in June was 12.5% smaller than in May, but 8.4% greater than in June, 1938; for the first six months this year cumulative total was larger by 5.4% than during the comparable provided in 1938.

Ninth (Minneapolis) District

According to the Minneapolis Federal Reserve Bank, busi-

According to the Minneapolis Federal Reserve Bank, business volume declined slightly in June after increasing in March, April and May. In its "Monthly Review" of July 28 the Bank also had the following to say:

Building permits issued in 53 cities in June were well above those issued in June last year in both number and amount, but the increase over the same month in the preceding year was far less marked in June than in preceding months. Permits for new construction accounted for about four-fifths of the total and showed a little larger increase over June, 1938, than permits for building modernization and repairs.

Department store sales in June were 3% larger than in June last year, with the increase at city stores slightly exceeding the gain at country stores.

Business failures in June were fewer in number but larger in amount an in May. Both number and amount were smaller than in 1938.

June, 1938.

The volume of production in our district in June, as indicated by several unadjusted indicators, was a little lower than in May but higher than in June last year. Electric power consumption in May was a little larger than in April, and the Minnesota employment index rose in May to 101.9 from 99.4 in the preceding month.

Flour production both at Minneapolis and at other Northwestern mills decreased during the month, but flour shipments were a little larger than in May.

Tenth (Kansas City) District

The following regarding business and agricultural conditions in the Tenth (Kansas City) Federal Reserve Dis-

trict is taken from the July 31 "Monthly Review" of the

rict is taken from the July 31 Monthly Review of the Federal Reserve Bank of Kansas City:

The wheat crop was better than earlier anticipated but an unusually good corn prospect has been hurt by dry and very hot weather. Near the end of July the corn crop remained highly uncertain. The price of both wheat and corn has tended downward since the first of June.

Hog prices have strengthened somewhat since early in June but are about three and a half cents under a year ago. The price of beef steers is lower than earlier in the year and more than two cents a pound under last very

Production figures are mixed. Building is less active, contracts awarded being 30% and lumber sales 13% lower.

Total retail sales in the district both in June and in the first six

Eleventh (Dallas) District

From the Aug. 1 "Monthly Business Review" of the Federal Reserve Bank of Dallas we take the following regarding business conditions in the Eleventh (Dallas) District:

ing business conditions in the Eleventh (Dallas) District:

The agricultural outlook was improved further by heavy rains that fell over the major portion of the Eleventh District during June and the first half of July. Although department store sales declined by more than the usual seasonal amount in June, they were about as large as in that month in 1938. Wholesale distribution was well sustained and the volume of sales was 5% in excess of that for the same month last year. The value of construction contracts awarded declined further by 15% from May to June, due chiefly to the smaller volume of residential building, but total awards for all classes of construction during June were 6% larger than in the corresponding month last year. Daily average production of crude oil declined moderately in June, and then increased somewhat during the first half of July; nevertheless, production during the six-week period was at a substantially higher level than in that period of 1938.

Twelfth (San Francisco) District

Twelfth (San Francisco) District

Twelfth (San Francisco) District

After declining slightly in the first four months of the year, business volumes in the Twelfth Federal Reserve District turned upward in May and were well maintained at the higher levels in June and July, said the Federal Reserve Bank of San Francisco in its "Business Conditions" of July 27. "Measures of industry and trade are generally higher than a year ago, but they are still somewhat lower than the best levels recorded late last fall." The Bank, in its further observations, stated, in part: its further observations, stated, in part:

its further observations, stated, in part:

Outputs of lumber, automobiles, furniture, copper, and flour were about
the same in June as in May, while activity at aircraft plants, motion picture studios, and petroleum refineries increased. Crude oil production
was reduced further in June, under the voluntary curtailment program,
but rose somewhat in the first half of July. Factory employment and
payrolls, which usually are about the same in June as in May in Pacific
Coast States, increased further in June this year. To a considerable extent
this increase was a reflection of continued expansion in activity at aircraft

New residential building undertaken in the district during June increased considerably, after allowance for seasonal influences, gains being reported in all the principal sections of the district. In July, however, a decline in the index to about the May level is indicated by preliminary figures covering the larger cities of the district.

Retail trade was maintained during June at about the level to which it had risen in May. Department store sales were unchanged, allowing for seasonal influences, while sales of apparel stores, of groceries, and of building materials resisted the decreases customary in those lines in the early summer. Seasonally adjusted furniture store sales, which had increased considerably in recent months, were lower in June than in May, but remained above the level of any other month since January. Sales of new automobiles increased further in June following a sharp advance in May, but the June increase was not as large as has been customary in that month. that month.

Seasonal Increases in Illinois Employment and Payrolls Reported During May-June Period

Employment and payrolls in Illinois industry increased seasonally during the May-June period, it was announced July 28 by the Division of Statistics and Research of the Illinois Department of Labor. Reports from 6,869 manufacturing and non-manufacturing establishments in Illinois showed increases of 0.2 of 1% in employment and 0.8 of 1%

showed increases of 0.2 of 1% in employment and 0.8 of 1% in payrolls, the Department explained, adding:

The current May-June increases are to be compared with the increase of 0.1 of 1% in employment and 0.6 of 1% in payrolls which are the average May-June changes for all reporting industries in Illinois during the 16-year period, 1923-38. Increases in both employment and payrolls have been reported in nine of the preceding 16 years, according to the records of the Division of Statistics and Research.

Indexes show that employment has increased 2.8% and total wave

Indexes show that employment has increased 2.3% and total wage payment 3.4% between January and June, 1939. As compared with a year ago, the current June indexes show that employment and payrolls have increased 6.4% and 12.1%, respectively. However, approximately 765 persons were employed in June, 1939, for every 1,000 persons employed during the 1925-27 period.

Practically no changes in wage rates were reported during June, 1939.

Practically no changes in wage rates were reported during June, 1939. Only 19 reports of wage rate increases, affecting 554 workers, were received by the Division. Two wage rate reductions, affecting 111 persons, were reported. Only 0.1 of 1% of the total number of workers reported were affected by wage rate changes. The weighted average rate of increase was 4.7% and that of decrease 7.1%.

Changes in Employment and Total Wages Paid to Men and Women

Reports from 4,720 manufacturing and non-manufacturing establishments which designated the sex of their work forces showed a decrease of 0.5 of 1% in the number of male workers employed but an increase of 0.8 of 1% in total wage payments to men. Increases of 0.8 of 1% in the number of women employed and 2.2% in the amount of wage payments to them. to them were reported.

In the manufacturing classification, 2,303 establishments which reported separately by sex increased employment of men 0.5 of 1% and that of

women 0.4 of 1%. Total wage payments to men increased 1.5%, and those to women increased 2.2% during the May-June period.

The employment of men dropped 4.2% while that of women increased 2.1% during the May-June period, according to reports from 2,417 non-manufacturing establishments which reported data separately by sex. In these establishments total wage payments to men declined 1.8% while those to women increased 2.3%. The decreases in employment and payrolls reported for men were largely confined to the coal mining industry.

Average Weekly Earnings During June

In all reporting industries average weekly earnings were \$26.47 for both sexes combined; \$29.10 for male and \$16.03 for female workers. Weekly earnings in the manufacturing industries averaged \$26.50 for male and female workers combined; \$29.31 for men and \$16.46 for women. In the non-manufacturing industries these earnings averaged \$26.41 for men and women; \$28.28 for men and \$14.67 for women.

Changes in Man-Hours During June in Comparison with May

In all reporting industries 4,627 enterprises reported man-hours for male and female workers combined. In these enterprises total man-hours worked increased 0.8 of 1% during June in comparison with May. Hours worked in 3,846 establishments reporting for male and female workers separately increased 0.1 of 1% and 2.1%, respectively.

Weekly Report of Lumber Movement—Week Ended July 29, 1939

The lumber industry during the week ended July 29, 1939, stood at 67% of the seasonal weekly average of production in 1929; 68% of the seasonal weekly average of production in 1929; and 77% of the seasonal weekly average of shipments in 1929, and 77% of the seasonal weekly average of new business in 1929, according to reports to the National Lumber Manufacturers Association from regional associations covering the operations of important softwood and hardwood mills. Reported now orders in the week of new business in 1929, according to reports to the National Lumber Manufacturers Association from regional associations covering the operations of important softwood and hardwood mills. Reported new orders in the week ended July 29, 1939, were 24% in excess of the seasonal weekly average of 1938 sorders. Reported production was 19% above the seasonal weekly average of 1938 production, and shipments were 13% in excess of 1938 seasonal weekly shipments. Compared with the preceding week, production of the week ended July 29, as reported by 6% fewer mills, was 3% below that week's output; shipments were 5% below shipments and new orders were 1% below the new business of that week. New business (hardwoods and softwoods) was 5% above production, and shipments were 3% below output in the week ended July 29. Reported production for the 30 weeks of the year to date was 23% above corresponding week of 1938; shipments were 16% above the shipments, and new orders were 14% above the orders of the 1938 period. New business for the 30 weeks of 1939 was 7% above output; shipments were 5% above output. The Association further reported:

During the week ended July 29, 1939, 496 mills produced 240,387,000 feet of softwoods and hardwoods combined; shipped 234,276,000 feet; booked orders of 252,490,000 feet. Revised figures for the preceding week were: Mills, 525; production, 248,901,000 feet; shipments, 245,384,000 feet, or 3% below production. Production was 232,412,000 feet, or 3% below production. Production was 232,412,000 feet, or 3% below production. Production was 232,412,000 feet, or 28% above production. Shipments as reported for the same week were 9,876,000 feet, or 24% above production. Production was 7,975,000 feet, or 28% above production. Shipments as reported for the same week were 9,876,000 feet and 218,655,000 feet, and orders received, 242,028,000 feet, and a year ago it was 199,730,000 feet; shipments were, respectively, 224,066,000 feet and 218,655,000 feet, and orders received, 242,028,000 feet, shipments, 7

Mexican Oil Production, Sales Lower—Standard
of California Wins Arabian Oil Concession
Headling of the week in the domestic netrology industry.

Headline of the week in the domestic petroleum industry was firnished by the Sinclair-Prairie Oil Marketing Co., subsidiary of Consolidated Oil Corp., which posted a surprise cut of 20 cents a barrel in crude oil prices in all areas where it purchases crude oil. The reduction carried Mid-Continent crude oil prices below \$1 a barrel for the first time since 1934. The company, which purchases approximately 100,000 barrels of crude oil daily in Kansas, Oklahoma, Texas, New Mexico, Arkansas and Louisiana, made only the bare annoucement of the cut in its statament, which was made public late Wednesday, when the offices of most of the other major

late Wednesday, when the offices of most of the other major oil units were closing.

Late Friday (August 11) The Humble Oil and Refining Co. made reductions of from 5 to 32 cents a barrel in crude oil prices in Texas, effective immediately. Other companies are expected to follow the lead of Humble, Texas' largest oil purchasing company, over the week-end

are expected to follow the lead of Humble, Texas' largest oil purchasing company, over the week-end.

Under the new schedule, prices were cut 20 cents in East Texas, the Panhandle and West Texas; 15 cents for the Texas Gulf Coast. Anahuac-Dickinson crude was cut 20 cents and Refugio and Mirando 15 cents. Cuts of 25 cents were effective in West Central Texas while East Central Texas was slashed 32 cents. Salt Flat, Pecos and Van crude were cut 20 cents; Talco, 5 cents; Flower Blum, 28 cents, and Conroe cut 20 cents.

Two small companies purchasing crude oil in the KMA pool in Southern Wichita county met the 20-cent reduction initiated by Sinclair, effective Aug. 10. Panhandle Refining and Producing and the La Salle Refining Co. were the companies involved in the cut which set a new price of 83

The American oil companies involved in the Mexican expropriation situation are standing firm on their original proposition for settlement of their claims, W. S. Farish, president of Standard Oil Co. (N. J.) announced in New York on Aug. 10 following meetings between the officials of all the companies involved and Donald R. Richberg, who had been representing the companies in the negotiations with the Cardens administration

Cardenas administration.

The announcement said that the outline of objectives to

The announcement said that the outline of objectives to be sought in Mr. Richberg's negotiations, as originally set forth, including a provision for operation under a long-term contract by the respective companies of the properties involved, still stands as the basis for negotiations, as far as the oil companies are concerned. This, the Mexican government apparently is not willing to grant, it was indicated.

Oil men were chary of comment on the price cut, which, it was generally felt, was the direct result of the collapse of the movement initiated by Sinclair Refining Co., an allied unit, to raise tankwagon prices of gasoline in the 42 States in which it operates. At the time of the raise, H. F. Sinclair, Chairman of the executive committee of the parent unit, Consolidated Oil, warned that the "price of products must go up or the price of raw materials must go down." At the time, many companies met the advance but the major markets were unable to sustain the increase due to competitive marketing tactics.

were unable to sustain the increase due to competitive marketing tactics.

Oddly enough, Standard of California also chose Wednesday to announce one of the infrequent price markups for West Coast crude. Effective Aug. 10, postings for crude oil in the Montebelle field of Los Angles were lifted 1 to 8 cents a barrel, according to the company's announcement. In commenting upon the increase, company officials indicated that it was due to the revaluation of the crude oil from the field as a result of the quality and higher gravity of the crude in the field's new production.

Daily average production of crude oil climbed to within striking distance of the 4,000,000-barrel mark, highest in the industry's history, during the week ended Aug. 5, according

striking distance of the 4,000,000-barrel mark, highest in the industry's history, during the week ended Aug. 5, according to the report of the American Petroleum Institute. Total daily production of crude was 3,909,400 barrels, up 370,300 barrels from the previous period. The total compared with the U. S. Bureau of Mines August market demand estimate of 3,521,900 barrels daily.

The bulk of the gain came from Texas where special conditions brought about an increase of 383,800 barrels in the daily average production to 1,743,500 barrels. Proration regulations in Texas provide for a shut-down on each of the normal four Saturday-Sunday periods in the month but July had a fifth Saturday and Sunday. Under the proration setup, producers in the Lone Star State were permitted to run their weels on this "extra" weekend with the above result. result

With the exception of Illinois, where production again mounted to a new high, the other major oil-producing States showed lower production totals for the initial August week. mounted to a new high, the other major on-producing states showed lower production totals for the initial August week. Sharpest reduction was shown in Oklahoma where production was off 7,500 barrels to a daily figure of 412,900 barrels. Kansas achieved a reduction of 3,400 barrels in its daily average production which was off to 176,000 barrels. California showed a loss of 1,200 barrels with its daily figure of 602,400 barrels. A nominal decline of 600 barrels in Louisiana pared the daily average total there to 275,000 barrels. Illinois kept firm hold on fourth place in the Nation's oilproducing States, output there rising 3,200 barrels to a daily figure of 279,500 barrels.

A moderate increase of holdings of domestic and foreign crude oil was shown during the final week of July, according to the U. S. Baureau of Mines. Stocks of 268,513,000 barrels represented a gain of 66,000 barrels. Domestic stocks were up 403,000 barrels which advance was offset to a large degree by a decline of 337,000 barrels in holdings of foregin crude oil. Heavy crude oil stocks in California, not included in "refinable" crude stocks, totaled 14,316,000 barrels, an increase of 225,000 barrels.

Reports from Fort Worth early in the week disclosed that

Reports from Fort Worth early in the week disclosed that the Interstate Oil Compact Commission has moved to bring within its province the formulation of minimum engineering standards for oil production in the United States. Its Committee on Economes—Joseph E. Pogue and Dr. Alexander Sachs of New York City, and E. DeGolyer of Dallas—recommended the appointment of two additional committees to carry on the research for the Commission's project. One committee would make a study of existing proration practices in each State while the second would devise standards, project and codify the work of the first group and present the finished report to the Commission.

The Committee on Oil Proration Practices would be comfof two members from each "Compact" State, one from the State geological survey and two members from each "non-Compact" oil-producing State, one from the State survey and the other from the State university. The Committee on Standards and standards a

pact" oil-producing State, one from the State survey and the other from the State university. The Committee on Standards would be composed of leading technicians to be selected by the Compact Commission Chairman E. O. Thompson,

with the aid of the American Petroleum Institute, Independent Petroleum Association of America, the petroleum division of the American Institute of Mining and Metallurgical Engineers, and the American Association of Petroleum Geologists. The first committee will be headed by Compact Geologists.

Chairman Thompson, the second will be headed by Compact Chairman Thompson, the second will pick its own chairman. A United Press dispatch from New Orleans, dated Aug. 7, report "Former Governor Richard W. Leche and three others high in political circles today were indicted on charges of conspiracy to violate the Connally hot oil act and with conspiracy to defraud the United States. . . . Indieted with him were Seymour Weiss, former Treasurer of the Huey Long organization, F. W. Burford, head of the East Texas Refining Co., at Dallas, Texas, and the East Texas Refining

Refining Co., at Dallas, Texas, and the East Texas Refining Co.

Figures disclosed in the Revista de Estradistica, statistical review made public by the Mexican Government Press Bureau in Mexico City on Aug. 8, showed that both production and exports of Mexican oil in January—latest available figures—were far behind the like period last year when the properties were still under the operation of the American and British oil companies. There are no official figures available on revenues from oil exports from Mexico in the period since the Cardenas Administration took over the oil properties. However, it is pretty generally believed that Mexico is selling oil at a price half that of the world market and in addition is receiving little cash.

Mexico is selling oil at a price half that of the world market and in addition is receiving little cash.

The Standard Oil Co. of California, in winning an oil concession covering the entire kingdom of Saudi Arabia from King Ibn Saud, inadvertently scored a political victory over both Italy and Germany which are reported to have been negotiating for the land involved in Standard's lease. In addition to receiving \$1,500,000 in gold for the lease, the King is to get \$750,000 annually while prospecting is going on. Royalties will be paid the King when oil production actually begins in any part of the concession.

Price changes follow:

Aug. 9—Sinclair-Prairie Oil Marketing Co.. Consolidated Oil subsidiary

Aug. 9-Sinclair-Prairie Oil Marketing Co., Consolidated Oil subsidiary,

Aug. 9—Sinclair-Prairie Oil Marketing Co., Consolitated Oil subsidiary, posted a cut of 20 cents a barrel in crude oil prices in Kansas, Oklahoma, Texas, New Mexico, Arkansas and Louisiana, effective the following day. Under the new price, crude is down to 82 cents, the lowest in five years. Aug. 9—Standard of California posted advances of from 1 to 8 cents a barrel in the prices of crude oil from the Montebelle fields of Los Angeles. Aug. 11—Humble Oil cut Texas prices of crude oil 5 cents to 32 cents a barrel.

REFINED PRODUCTS-EFFECT OF CRUDE CUT AWAITED-SHARP INVENTORY DRAIN IN GASOLINE CHEERING-OPERATIONS CONTINUE HIGH-FUEL OIL REFINERY PRICES ADVANCED

With other major oil companies reserving decision as to whether they will follow the sharp reduction in mid-continent crude oil prices posted late this week by Consolidated Oil's purchasing subsidiary-Sinclair-Prairie Oil Marketing Co. the future of the motor fuel price structure seems uncertain, most oil men feel.

If the reduction, which carried mid-continent crude oil prices below \$1 a barrel to the lowest level in five years, becomes general, there seems little doubt that the gasoline price structure, already wobbly because of the top-heavy supply situation, may well be adversely affected. Just how serious the effects of the crude oil price cut will be is not easy to determine accurately at this time, but it will no doubt exert some pressure upon the gasoline price structure.

An encouraging factor was the decline of approximately ,500,000 barrels in stocks of finished and unfinished motor fuel during the initial period of August, as shown in the midweek report of the American Petroleum Institute. Stocks were off to 76,431,000 barrels, and the "normal" decline was cheering in view of the fact that the previous week saw drainage of only 73,000 barrels upon inventories of gasoline.

The continued high rate of refinery operations and the failure of stocks to show "normal" declines during the heavy consumption season has been a worrisome threat to oil men for weeks. The peak of the demand for motor fuel is now being reached, and when the demand eases off after the middle of the current month, sharp curtailment of refinery

operations is necessary to prevent the industry entering the dull consuming season with top-heavy holdings of motor fuel. Already below the levels ruling at this time last year, gasoline prices have shown signs of weakness. Refinery operations for the Aug. 5 week were 84.6% of capacity, a decline of less than one-half point from the previous week. Daily average runs of crude oil to stills of 3,445,000 barrels represented a decline of 15,000 barrels from the previous period. period.

Standard Oil of New York, marketing subsidiary of Socony-Vacuum, on Aug. 9 posted increases of ½ to ½ cent

a gallon in tankcar, barge and tankwagon prices of No.72 fuel oil throughout its New York and New England marketing area, effective the following day. Under the new schedule, tankcar prices will be 4 cents a gallon while the new retail price of 6 cents is ¼ cent above the former price. Strengthening in the Gulf cargo market is behind the Standard advance.

Representative price changes follow:

Representative price changes follow:

Aug. 9—Standard of New York advanced tankcar, barge and tankwagon prices of No. 2 heating oil 1/8 to 1/4 cent a gallon throughout its New York and New England marketing territory, effective the following day.

Daily Average Crude Oil Production for Week Ended Aug. 5 Gains 370,300 Barrels

The American Petroleum Institute estimates that the daily average gross crude oil production for the week ended Aug. 5, 1939, was 3,909,400 barrels. This was a gain of 370,300 barrels from the output of the previous week, and the current week's figure was above the 3,513,200 barrels calculated by the United States Department of the Interior the current week's ligure was above the 3,013,200 barrels calculated by the United States Department of the Interior to be the total of the restrictions imposed by the various oil-producing States during July. Daily average production for the four weeks ended Aug. 5, 1939, is estimated at 3,640,500 barrels. The daily average output for the week ended Aug. 6, 1938, totaled 3,317,850 barrels. Further details, as reported by the Institute, follow:

Imports of petroleum for domestic use and receipts in bond at principal United States ports for the week ended Aug. 5 totaled 1,362,000 barrels, a daily average of 194,571 barrels, compared with a daily average of 158,571 barrels for the week ended July 29 and 189,250 barrels daily for the four weeks ended Aug. 5.

Receipts of California oil at Atlantic and Gulf Coast ports for the week ended Aug. 5 totaled 137,000 barrels, a daily average of 19,571 barrels compared with a daily average of 8,857 barrels for the week ended July 29 and 28,750 barrels daily for the four weeks ended Aug. 5.

Reports received from refining companies owning 85.8% of the 4,268,000-barrel estimated daily potential refining capacity of the United States indicate that the industry as a whole ran to stills, on a Bureau of Mines basis, 3,445,000 barrels of crude oil daily during the week, and that all companies had in storage at refineries, bulk terminals, in transit and in pipe lines as of the end of the week, 76,431,000 barrels of finished and unfinished gasoline. The total amount of gasoline produced by all companies is estimated to have been 11,708,000 barrels during the week.

Weekly Coal Production Statistics

The Bituminous Coal Division of the United States Department of the Interior in its current weekly coal statement showed that the total production of soft coal in the week ended July 29 is estimated at 7,460,000 net tons. This is an increase of 310,000 tons, or 4.3%, over the output in the preceding week, and is greater by 1,543,000 tons than that in the corresponding week of 1938.

Cumulative production of soft coal in 1939 to date indicates a gain of more than 16 million tons, or 9.4%, over the corresponding period of 1938. Anthracite production in

cares a gain of more than 10 million tons, or 9.4%, over the corresponding period of 1938. Anthracite production in 1939 to date shows a gain of 8.4%.

The United States Bureau of Mines reported that the total estimated production of Pennsylvania anthracite for the week of July 29, amounting to 748,000 tons, decreased 10,000 tons, or a little more than 1%, from output in the week of July 22, and was 25% less than production in the week of July 30, 1938.

Preliminary Estimates of Production of Coal for Month of July, 1939

According to preliminary estimates made by the Bureau of Mines and the Bituminous Coal Division of the U. S. Department of the Interior, bituminous coal output during the month of July, 1939, amounted to 29,490,000 net tons, compared with 23,367,000 net tons in the corresponding month last year and 27,900,000 tons in June, 1939. Anthracite production during July, 1939, totaled 2,913,000 net tons, as against 2,580,000 tons a year ago and 3,530,000 tons in June, 1939. The consolidated statement of the two aforementioned organizations follows:

	Total for Month (Net Tons)	Number of Working Days	Average per Working Day (Net Tons)	Cal. Year to End. of May (Net Tons)
July 1939 (preliminary)— Bituminous coal.aAnthracite.bBeehive cokeJune 1939 (revised)—	29,490,000 2,913,000 47,200	25 25 25 25	1,180,000 116,500 1,888	190,747,000 29,483,000 360,600
Bituminous coal_a	27,900,000	26	1,073,000	
Anthracite_b	3,530,000	26	135,800	
Beehive coke	51,800	26	1,992	
July 1938 (revised)— Bituminous coal_a Anthracite_b Beehive coke	23,367,000	25	935,000	174,001,000
	2,580,000	25	103,200	27,460,000
	42,000	25	1,680	533,100

a Includes for purposes of historical comparison and statistical convenience the production of lignite and of anthracite and semi-anthracite outside of Pennsylvania. b Total production, including colliery fuel, washery and dredge coal, and coa

shipped by truck from authorized operations.

Note-All current estimates will later be adjusted to agree with the results of the complete canvass of production made at the end of the calendar year.

Active Call for Non-Ferrous Metals-Copper, Lead, and

Zinc Again Higher
"Metal and Mineral Markets," in its issue of Aug. 10, reported that with the movement of major non-ferrous metals into consumption holding up remarkably well for the summer period, and London higher for the week, buying continued in good volume. At the outset of the week producers raised prices on both copper and lead. Zinc advanced on Aug. 7 to 4.75c., St. Louis, but a fair tonnage sold at lower levels before the uplift became effective. Cadmium was advanced 5c, a pound on Aug. 9. Quicksilver was lower. The publication further reported:

Copper

Higher prices for copper abroad forced producers here to advance the quotation \(\frac{1}{2}c. \) to 10\(\frac{1}{2}c. \) Valley, on Aug. 3. Sales at the 10\(\frac{1}{2}c. \) level reported on that day, however, were not in sufficient volume to influence our quotation, which remained at 10\(\frac{1}{2}c. \), Valley, on Aug. 3. On Aug. 4 the price became firmly established at the higher level. Sales for the week totaled 22,929 tons, bringing the total so far this month to 25,048 tons. Statistics for July are expected to show a decline in stocks of around 25,000 tons, producers believe. The price closed firm at 10\(\frac{1}{2}c. \), Valley.

Valley.

London was easier Aug. 9 on rumors that the Cartel is to take action soon on the question of stepping up production 5% to 10%.

Exports of refined copper from the United States during June (domestic and foreign copper combined) amounted to 35,355 tons, which compares with 32,029 tons in May. The exports for May and June, by countries,

To-	May	June	то—	Mau	June
Belgium	757	555	Poland and Danzig	2,371	2.920
Denmark	44		Sweden	981	409
France	2.977	2,374	China and Hongkong	7.85	
Germany	3,420	4,327	Japan	13.868	11.660
Great Britain	1,597	3.822	Other countries	1.314	5.949
Italy	4,632	3.087			-
Netherlands	112	252	Totals	32,029	35,355

Operators in London are looking for encouraging copper statistics for the months of July, August and September, but in many instances they are extremely cautious about taking a definite long-term view, owing to political uncertainties. Stocks of copper in London Metal Exchange official warehouses on July 29 amounted to 28,374 tons, consisting of 4,818 tons of refined and 24,056 tons of rough. A month previous stocks totaled 29,697 tons.

Heavy buying of Iead in the preceding week and the strength in London influenced producers to raise the price 10 points on Aug. 3 to the basis of 5.05c., New York. This is the highest price named since Nov. 28, 1938. Buying continued in good volume after the advance was announced on Aug. 3, and the sales for the week amounted to 7,523 tons, an excellent showing in view of the fact that the market has been active during the last 30 days. August requirements of consumers are about 85% covered, with September estimated at close to 45%.

Interest centered in the rise that has taken place in London, where the price has moved to £16 per ton. Spot actually commanded a premium over the forward position, reflecting good buying of prompt metal by British and Continental consumers.

The market closed at 5.05c., New York, which was the settling basis named by the American Smelting & Refining Co., and 4.90c., St. Louis.

Zinc

Continued activity in London, steady inquiry for zinc here, and improved July statistics moved sellers to raise the quotation for Prime Western from 4.60c. to 4.75c., St. Louis, on Aug. 7. The higher level was not firmly established until Aug. 8, as a fair volume of business was booked at 4.60c., 4.70c., and 4.75c. on Aug. 7. With the London market closed on Aug. 7 in observance of a bank holiday, few in the industry were prepared for the advance here on that day. The trade believes that consumption of zinc in this country will continue at a satisfactory level over the remainder of the year.

Late yesterday (Aug. 9) some sellers were a little nervous about the firmness of the new price, owing to some unsettlement abroad, but it was admitted that a tight domestic ore situation is a factor entering into the picture at this time. Sales of the common grades for the last week totaled 4,779 tons.

Tin

Though consumption of tin has held up well in recent weeks, the buying remains on the light side so far as the domestic trade is concerned. The Pool has been selling fair quantities daily in London on the basis of £230 per ton. Straits tin was offered here during the week, on spot, at prices ranging from 48.650c. to 48.850c. Chinese tin was available at a discount of 170 points. Tin-plate operations are unchanged at between 68% and 70% of capacity.

Chinese tin, 99%, was nominally as follows: Aug. 3, 47.000c.; Aug. 4, 47.150c.; Aug. 5, 47.150c.; Aug. 7, 47.100c.; Aug. 8, 47.000c.; Aug. 9, 47.000c.

Average prices for calendar week ended Aug. 5 are; Domestic copper f.o.b, refinery, 10.171c.; export copper, 10.167c.; Straits tin, 48.625c.; New York lead, 5.000c.; St. Louis lead, 4.850c.; St. Louis zinc, 4.600c.; and silver, 34.750c.

The above quotations are "M. & M. M.'s" appraisal of the major United States markets, based on sales reported by producers and agencies. They are reduced to the basis of cash, New York or St. Louis, as noted. All prices are in cents per pound.

per pound.

Copper, lead and zinc quotations are based on sales for both prompt and future deliveries; tin quotations are for prompt delivery only.

In the trade, domestic copper prices are quoted on a delivered basis; that is, delivered at consumers' plants. As delivery charges vary with the destination, the figures shown above are net prices at refineries on the Atlantic seaboard. Delivered prices in New England average 0.225c, per pound above the refinery basis.

Export quotations for copper are reduced to net at refineries on the Atlantic seaboard. On foreign business in copper sellers usually name a c.i.f. price—Hamburg, Havre, and Liverpool. The c.i.f. basis commands a premium of 0.325c, per pound above f.o.b. refinery quotation.

Daily London Prices

Prices for lead and zinc are the official buyers' prices for the first session of ondon Metal Exchange: prices for copper and tin are the official closing buy ices. All are in pounds sterling per long ton (2,240 lb.).

July Pig Iron Output Up 7.6%

The "Iron Age" in its issue of Aug. 10 reported production of coke pig iron in July totaled 2,356,270 gross tons, compared with 2,118,451 tons in June. On a daily basis July production showed a gain of 7.6% over that in June, from 70,615 tons a day to 76,009 tons in July, which was the highest since March this year, when daily production averaged 77,246 tons a day. The rate of operation last

the highest since March this year, when daily production averaged 77,246 tons a day. The rate of operation last month was at 55.8% of the industry's capacity, as compared with 51.7% in June. The publication further reported:

There were 129 furnaces in blast on Aug. 1 (revised), operating at the rate of 79,450 tons a day, compared with 118 furnaces on July 1, producing at the rate of 72,495 tons daily. Thirteen furnaces were put in operation and two were blown out or banked. The United States Steel Corp. put five in operation. Independent producers put seven in operation and took two off blast and merchant producers blew in one furnace. Furnaces blown in included: One Duquesne, Carnegie-Illinois Steel Corp.; one Monongahela and two Lorain, National Tube Co.; one Ensley, Tennessee Coal, Iron & Railroad Co.; one Lackawanna, Bethlehem Steel Co; Mary, Sharon Steel Corp.; Shenango, of the Shenango Furnace Co.; two River furnaces and Betty, Republic Steel Corp.; one Madeline, Inland Steel Co. and one Colorado, Colorado Fuel & Iron Corp.

Furnaces blown out or banked were one Bethlehem furnace of Bethlehem Steel Co., and No. 1 Hamilton furnace of American Rolling Mill Co., which was taken out of blast for relining.

United States Steel Corp. Shipments Lower in July Shipments of finished steel products by subsidiary companies of the United States Steel Corp. for the month of July, 1939, amounted to 676,309 tons. The July shipments compare with 733,433 tons in the preceding month, a decrease of 57,124 tons, and with 441,570 tons in the corresponding month in 1938 (July), an increase of 234,730 tons

For the year 1939 to date, shipments were 5,069,575 tons compared with 3,451,924 tons in the comparable period of 1938, an increase of 1,617,651 tons.

In the table below we list the figures by months since January, 1935:

TONNAGE OF SHIPMENTS OF STEEL PRODUCTS BY MONTHS FOR YEARS INDICATED

Month	Year 1935	Year 1936	Year 1937	Year 1938	Year 1939

Steel Production Higher in July

Tonnage of steel ingots produced in July was the second highest of the year, according to a report released Aug. 8 by the American Iron and Steel Institute.

The July total of 3,288,949 gross tons of open hearth and

Bessemer steel ingots compares with the revised figure of 3,125,288 gross tons for June, and was exceeded in 1939 only by the revised March tonnage of 3,405,370 gross tons. In July of last year production amounted to 1,974,317 gross tons.

Ingot operations during July represented 54.50% industry's capacity, as against 53.35% in June. I 1938, the industry operated at 33.29% of capacity. In July,

Steel ingot production in July averaged 744,106 gross tons per week, which compares with 728,505 gross tons per week in June, and with 446,678 gross tons per week in July a year ago.

MONTHLY PRODUCTION OF OPEN-HEARTH AND BESSEMER STEEL INGOTS—JANUARY, 1938, TO JULY, 1939 (Calculations based on reports of companies which in 1938 made 98.67% of the open-hearth and 99.90% of the Bessemer ingot production)

Note—The percentages of capacity operated in 1939 are calculated on weekly capacities of 1,365,401 gross tons based on annual capacities as of Dec. 31, 1938 as follows: Open hearth and Bessemer ingots, 71,191,994 gross tons and in 1938 are calculated on weekly capacities of 1,341,856 gross tons based on annual capacities as of Dec. 31, 1937, as follows: Open hearth and Bessemer ingots, 69,964,356 gross tons

Steel Ingot Production up at 61%—Scrap at Highest Since 1937

The Aug. 10 issue of the "Iron Age" showed that a rise in steel ingot production of one point to 61%, highest since November, 1938, and a further gain in scrap prices which raises the "Iron Age" scrap price composite to \$15.42, highest since October, 1937, bear out expectations of a stronger trend for steel business during the late summer and early autumn. The "Iron Age" further stated:

The settlement of the General Motors strike has not yet had an important effect on steel releases by that company as preparation of dies for new models must precede the taking of steel in large tonnages, but specifications from General Motors in fairly large volume are expected before the

cations from General Motors in fairly large volume are expected before the end of this month.

Menawhile, the adjournment of Congress, together with the defeat of the New Deal's spending-lending program, has had a good sentimental effect on business, nothwithstanding the fact that a good share of present steel buying flows directly or indirectly from Government expenditures. If private spending by such important steel-consuming industries as the public utilities, oil companies and the railroads were to assume somewhat nearer normal proportions, the steel outlook for the remainder of this year would be well assured.

Oil and gas companies have taken more pipe line tonnage this year than since 1937, though only a few of the orders have been of spectacular size, but there is much to be desired so far as the public utilities and the railroads are concerned. However, several thousand railroad cars may be inquired for within the near future. Two inquiries of fair size have appeared within the past week, one from the Virginian Railway for 500 hopper cars, and the other a renewal of a previous inquiry by the Chicago & North Western for 800 cars. A Philadelphia company has orders on hand for a large volume of light-weight passenger cars, for which about 1,250 tons of stainless steel has been purchased.

The outstanding significance of current steel business is the great diversi-

has been purchased.

The outstanding significance of current steel business is the great diversification of orders, both as to products and the range of industries from which the orders come. As there is no indication of a cessation of this flow of miscellaneous business within the near future, the steel industry is hopeful of higher operating rates as soon as automobile tonnage is sufficient to make itself felt. Within a week or two the trend of automobile assemblies will be upward as production of new models begins.

While ingot production of the past week or two represents to some extent an anticipation of automobile releases, there is said to be no abnormal stocking of ingots, slabs, &c. A few plants are building up moderate stocks in preparation for a shut down of steel making departments for all or part of Labor Day week.

In preparation for a shut down of steel making departments for all or part of Labor Day week.

At Cleveland there has been a seven-point rise to 77% this week, partly in preparation for automotive demand. The independent steel plant at Detroit will be operating at 87½%-by the end of the week, while the Ford plant, now operating six open-hearth furnaces, will have all 10 in service by Aug. 21. An operation of 100% at Detroit is expected as soon as motor car companies get into full production.

car companies get into full production.

Six blast furnaces have gone in since the first of the month, two Carnegie-Illinois and two Jones & Laughlin in the Pittsburgh district, and two Carnegie-Illinois in the Chicago district. These are in addition to a revised figure of 129 that were active on Aug. 1. Pig iron capacity was operated last month at 55.8% of capacity compared with 54.50% for steel ingot, suggesting the possibility of increased ratio of pig iron to scrap in openhearth melting because of high scrap prices.

Steel scrap is 25c. a ton higher at Pittsburgh to an average of \$16.125 and 50c. higher at Philadelphia, where it averages \$16.25, with no change at Chicago. Foreign business, particularly Japanese, is partly responsible for increased strength in the East.

Steel prices continue to strengthen, the latest move being an effort to

Steel prices continue to strengthen, the latest move being an effort to put reinforcing bars, long one of the weakest items, on a better price basis. Several makers have announced new quotations of 1.90c. a lb., basing point, for billet steel bars and 1.80c. for rail steel bars, which are lower than the prices officially announced for this quarter but well above the prices

that have become commonly quoted.

Despite some falling off in inquirites for fabricated structural steel, awards have been in fairly good volume at about 19,500 tons. About 25,000 tons of galvanized sheets will be required for corn cribs which the Government will have built for the corn belt.

"Steel" of Cleveland, in its summary of the iron and steel

"Steel" of Cleveland, in its summary of the iron and steel markets, on Aug. 7 stated:

Steel-making has leveled off at 60% after rising sharply for three weeks. Demand for finished products is sustained, however, and the outlook is encouraging.

One of the most favorable market developments is the prospect for a more rapid upturn shortly in automotive steel shipments, following the lull imposed by labor trouble. Since some steel already had been produced in anticipation of motor car requirements, prolongation of the tool and die workers' strike had possibilities of retarding future operations.

Miscellaneous steel users still account for more than their usual share of total business. This situation may be changed the next 30 days as automotive operations expand, although at the same time a declining trend is indicated in requirements of heavy products for building and engineering construction.

is indicated in requirements of heavy products for building and engineering construction.

Previous orders for structural shapes and concrete reinforcing bars will keep mills and fabricators fairly well engaged for a number of weeks, but inquiries and awards are slower. Temporarily offsetting the reduced activity in these products are heavier orders for pipe line and shipbuilding material. Recent line pipe bookings total 42,500 tons, while the Navy has bought 21,300 tons of plates and sheets for two battleships.

Daily average pig iron production in July was 7.6% ahead of June and 94.3% larger than a year ago. Total output the first seven months of 14,877,167 gross tons was nearly 63% greater than in the 1938 period. July showed a net gain of 12 in number of active blast furnaces.

Automobile assemblies are near the year's lowest level, but by the end of this month are scheduled to be headed upward. Last week saw a further drop of 12,000 units to 28,250. This outupt was nearly double the total a year ago. General Motors accounted for most of the decrease, retrenching from 15,030 units to 3,530. Chrysler declined from 2,540 to 2,130, Ford increased from 16,875 to 17,500, and all others receded from 6,150 to 5,090.

from 6,150 to 5,090.

Occasional small gains in railroad steel requirements still leave demand from that direction light. The fading of plans for Federal assistance in financing equipment purchases is not expected to affect freight car and locomotive buying materially, but indicated gains in traffic and earnings the remained of the year are counted on to stimulate equipment building rehabilitation.

Tin-plate production has spurted three points to 68%. The rise is regarded as only temporary, since specifications are declining seasonally. Current and prospective export business in tin-plate continues active.

Steel prices retain the stronger tone that gradually has replaced weakness of earlier months. Buyers of flat-rolled products attempting to increase contracts entered in May at concessions have been unsuccessful, and shading on plates and shapes is less prevalent. Cold-finished bar producers are introducing new quantity extras, following application of higher charges on small lots of hot-rolled bars. A change in prices and base quantities for concrete reinforcing bars also is planned.

Sheet and strip producers are attempting to clear books of cut-price tonnage as soon as possible, by Sept. 30 in the case of smaller consumers. Shipments to automotive interests and some other large users will extend through the remainder of the year.

Shipments to automotive interests and some other large users will extend through the remainder of the year.

Manufacturers of farm equipment are not looked to for any marked upturn in steel requirements before late summer or early fall. Sustained farm income is a factor in expectations for further expansion in merchant wire products demand later this quarter. Activity in wire and wire products currently is good.

Unusually steady schedules prevailed in the various steel-making districts last week to hold the national average unchanged at 60%. This compares with 40% a year ago. Gains of seven points to 58% at Buffalo and 28 points to 68% in New England were offset by a 14-point decline to 70% in Birmingham.

and 28 points to 68% in New England were offset by a 14-point decrine to 70% in Birmingham.

Unchanged districts included Pittsburgh at 50%, Chicago at 56%, eastern Pennsylvania at 41%, Wheeling at 79%, Cleveland at 73%, Cincinnati at 31%, Detroit at 64%, Youngstown at 54%, and St. Louis

Scrap markets continue bullish, with the price composite up 5c. to 4.96 on an increase in eastern Pennsylvania. The finished steel composite is unchanged at \$55.60.

Steel ingot production for the week ended Aug. 7 is placed at about 60% of capacity, according to the "Wall Street Journal" of Aug. 10. This compares with 61½% in the previous week and 58½% two weeks ago. The "Journal" further reported:

U. S. Steel is estimated at 55½%, against 55% in the week before and 53½% two weeks ago. Leading independents are credited with 63½%, compared with 66½% in the preceding week and 62½% two

The following table gives a comparison of the percentage of production with the nearest corresponding week of previous years, together with the approximate changes, in points, from the week immediately preceding:

	Industry	U. S. Steel	Independents		
1939	$\begin{array}{cccccccccccccccccccccccccccccccccccc$	55½ + ½ 32 + ½ 83 + ½ 67½ + ½ 40 - ½ 25 +1 13 34 +1 62½ -2	$\begin{array}{cccccccccccccccccccccccccccccccccccc$

Current Events and Discussions

The Week with the Federal Reserve Banks

During the week ended Aug. 9 member bank reserve balances increased \$96,000,000. Additions to member bank reserves arose from increases of \$22,000,000 in gold stock and \$2,000,000 in Treasury currency, and decreases of \$19,-000,000 in Treasury deposits with Federal Reserve banks, \$16,000,000 in Treasury cash and \$66,000,000 in nonmember deposits and other Federal Reserve accounts, offset in part by a decrease of \$14,000,000 in Reserve bank credit and an increase of \$16,000,000 in money in circulation. Excess reserves of member banks on Aug. 9 were estimated to be approximately \$4,530,000,000, an increase of \$70,000,000 for the week.

The principal change in holdings of bills and securities was a reduction of \$10,000,000 in United States Treasury bills. The statement in full for the week ended Aug. 9 will be found on pages 980 and 981.

Complete Returns of Member Banks of the Federal Reserve System for the Preceding Week

As explained above, the statements of the New York and Chicago member banks are given out on Thursday, simultaneously with the figures of the Reserve banks themselves and covering the same week, instead of being held until the following Monday, before which time the statistics covering the entire body of reporting member banks in 101 cities cannot be compiled.

In the following will be found the comments of the Board

of Governors of the Federal Reserve System respecting the returns of the entire body of reporting member banks of the Federal Reserve System for the week ended with the close of business Aug. 2:

The condition statement of weekly reporting member banks in 101 leading cities shows the following principal changes for the week ended Aug. 2: A net decrease of \$12,000,000 in commercial, industrial and agricultural loans and a decrease of \$26,000,000 in loans to brokers and dealers

Ang. 2: A net decrease of \$12,000,000 in commercial, industrial and agricultural loans and a decrease of \$26,000,000 in loans to brokers and dealers in securities; increases of \$73,000,000 in holdings of obligations guaranteed by the United States Government and of \$63,000,000 in holdings of "other securities"; a decrease of \$139,000,000 in demand deposits—adjusted and an increase of \$216,000,000 in deposits credited to domestic banks.

Commercial, industrial and agricultural loans increased \$24,000,000 in New York City and declined \$24,000,000 in the Chicago district, \$16,000,000 in the Atlanta district and \$12,000,000 at all reporting member banks. Decreases in commercial, industrial and agricultural loans during the week reflect purchases of commodity loans from banks by the Commodity Credit Corporation. Loans to brokers and dealers in securities declined \$22,000,000 in New York City and \$26,000,000 at all reporting member banks.

Holdings of United States Treasury bills increased \$47,000,000 in New York City and declined \$39,000,000. Holdings of United States Government bonds declined \$2,000,000. Holdings of United States Government bonds declined \$2,000,000. Holdings of obligations guaranteed by the United States Government increased \$21,000,000 in New York City, \$16,000,000 in the Chicago district, all reporting member banks.

Demand deposits—adjusted declined \$89,000,000 in New York City, \$16,000,000 in the Chicago district, and \$63,000,000 at all reporting member banks. Holdings of "other securities" increased \$57,000,000 at all reporting member banks. Holdings of "other securities" increased \$57,000,000 at all reporting member banks. Bornowings of weekly reporting member banks amounted to \$9,000,000 on New York City, \$67,000,000 in the Chicago district, \$13,000,000 each in the Atlanta and Kansus City districts and \$216,000,000 at all reporting member banks.

Borrowings of weekly reporting member banks amounted to \$9,000,000 on Aug. 2.

01 Aug. 2.

A summary of the principal assets and liabilities of reporting member banks, together with changes for the week and the year ended Aug. 2, 1939, follows:

Chile Extends Plan of Debt Service to Holders of Municipal Bonds—Protective Council Indicates Views as to Offer

The Republic of Chile by a prospectus dated Aug. 10, 1939 announces the extension to holders of Chilean Consoli-1939 announces the extension to holders of Chilean Consolidated municipal loan bonds and of City of Santiago bonds of the plan of debt service heretofore made available to holders of the Government's direct and indirect debt. Copies of the prospectus may be obtained from Schroder Trust Co., 46 William St., New York City. It is announced that holders of bonds of the municipalities who accept the offer of the Government on or before Aug. 10, 1940 will be entitled to receive the payments aggregating \$39.58½ per \$1,000 bond previously announced under the plan. The loans to which the extension of the offer applies are: the extension of the offer applies are:

Chilean consolidated municipal loan 31-year 7% external sinking fund bonds, series A, 1929, outstanding in the principal amount of \$10,132,500.

City of Santiago, Chile, 21-year 7% external sinking Fund bonds (dated Jan. 2, 1928), outstanding in the principal amount of \$2,094,000.

City of Santiago 7% external sinking fund bonds of 1930, outstanding in the principal amount of \$1,457,500.

The announcement in the matter further said:

The announcement in the matter further said:

In order to obtain the payments announced in the years 1936, 1937, 1938 and 1939, aggregating \$39.58½ per \$1,000 bond, holders of bonds of these loans are required to present their bonds with appurtenant coupons attached for stamping on or before Aug. 10, 1940, those assenting after that date having only the right to receive those annual interest payments which may be announced with respect to the year in which assent is given and subsequently. Upon such stamping, the Government of Chile becomes the sole debtor on the bonds on the terms set forth in the plan.

The service of Chile's external debt is carried out by the Autonomous Institute for the Amortization of the Public Debt. The resources of the Institute include the receipts of the Government from its participation in the profits of the Chilean Nitrate and Iodine Sales Corp. and receipts from certain income taxes on the copper industry. Total recipts of the Institute from these sources, as shown by the prospectus by which the Government's offer is made, amounted in 1936 to \$4,920,553, in 1937 to \$6,112,090 and in 1938 to \$14,136,998. Under the debt plan law 50% of the receipts of the Institute from the above mentioned sources is used for the payment of interest on the total external public debt, direct and indirect, of the Republic of Chile and of the municipalities. The balance of such receipts, after deduction of expenses incident to the application of the law, is employed by the Institute for the retirement of bonds of the external debt.

As of June 24, 1939, the outstanding principal amount of dollar bonds assented to the debt plan is stated as \$100,693,000 representing 55.2% of the total amount of dollar bonds outstanding.

The Foreign Bondholders Protective Council, Inc York, in a notice sent to bondholders, states that its attitude toward the Chilean plan remains unchanged. In our issue of Jan. 14, 1939, page 206, when the previous offer was made we referred to the statement of the Council presenting its views in the matter.

Comparative Figures of Condition of Canadian Banks

In the following we compare the condition of the Canadian banks for June 30, 1939, with the figures for May 31, 1939, and June 30, 1938.

Short Interest on New York Stock Exchange Decreased **During July**

The short interest existing as of the close of business on the July 31 settlement date, as compiled from information obtained by the New York Stock Exchange from its members obtained by the New York Stock Exchange from its members and member firms, was 481,599 shares, compared with 651,906 shares on June 30, both totals excluding short positions carried in the odd-lot accounts of all odd-lot dealers, it was announced Aug. 9. As of the July 31 settlement date, the total short interest in all odd-lot dealers' accounts was 38,855 shares. compared with 45,470 shares on June 30. The Exchange's announcement further said:

Of the 1,230 individual stock issues listed on the Exchange on July 31, there were 25 issues in which a short interest of more than 5,000 shares existed, or in which a change in the short position of more than 2,000 shares

occurred during the month.

The number of issues in which a short interest was reported as of July 31, 1939, exclusive of odd-lot dealers' short position, was 413, compared with 408 on June 30.

In the following tabulation is shown the short interest existing at the opening of the last business day of each month since June 30, 1937:

Odd-Lot Trading on New York Stock Exchange During Week Ended July 29

Week Ended July 29

The Securities and Exchange Commission on Aug. 4 made public a summary for the week ended July 29 of comprehensive figures showing the daily volume of stock transactions for the odd-lot account of all odd-lot dealers and specialists who handle odd lots on the New York Stock Exchange, continuing a series of current figures being published by the Commission. Figures for the previous week ended July 22 appeared in our Aug. 5 issue, page 804. The figures are based upon reports filed with the Commission by the odd-lot dealers and specialists.

Member Trading on New York Stock and New York Curb Exchanges—Figures for Weeks Ended July 15 and July 22

On Aug. 4 the Securities and Exchange Commission made public figures showing the volume of round-lot stock sales on the New York Stock Exchange and the New York Curb Exchange for the account of all members of these exchanges in the week ended July 15, continuing a series of current figures being published weekly by the Commission. Short sales are shown separately from other sales in the New York Stock Exchange figures.

The Stock Exchange members traded for their own account in amount of 1,464,245 shares, an amount which was 20.45% of total transactions of 3,580,180 shares on the Exchange during the week ended July 15. During the preceding week ended July 8 trading by the Stock Exchange members amounted to 626,690 shares, or 20.21% of total transactions of 1,550,200 shares.

On the New York Curb Exchange total round-lot transactions for account of all members during the week ended July 15 were 188,940 shares; as total transactions on the Exchange during the week amounted to 525,345 shares, the member trading for their own account was 17.98% of total transactions, which compares with a percentage of 15.74% in the preceding week ended July 8, when member trading amounted to 81,800 shares and total transactions 259,805 shares.

The SEC also made available on Aug. 11 the figures for

shares. The SEC also made available on Aug. 11 the figures for the week ended July 22. Round-lot transactions for the account of members of the Stock Exchange during that week amounted to 3,571,169 shares, or 21.71% of total trading amounted to 410,380 shares, or 20.73% of the total volume on that Exchange of 989,650 shares.

The figures for the week ended July 8 were given in these columns of July 29, page 653. The Commission, in making available the data for the weeks ended July 15 and July 22, said:

The data published are based upon weekly reports filed with the New York Stock Exchange and the New York Curb Exchange by their respective members. These reports are classified as follows:

 Total number of reports received 1. Reports showing transactions	New York Stock Exchange	July 15, '39 New York Curb Exchange 798	Week End New York Stock Exchange 1,074	
as specialists	193	101	197	102
actions initiated on the floor 3. Reports showing other trans-	218	36	271	67
actions initiated off the floor 4. Reports showing no trans-	233	78	316	90
actions	581	592	488	572

Note—On the New York Curb Exchange the round-lot transactions of specialists in stocks in which they are registered are not strictly comparable with data similarly designated for the New York Stock Exchange, since specialists on the New York Curb Exchange perform the functions of the New York Stock Exchange odd-lot dealer as well as those of the specialist.

The number of reports in the various classifications may total more than the number of reports received because, at times, a single report may carry entries in more than one classification.

* The term "members" includes all Exchange members, their firms and their partners, including special partners.

a Shares in members' transactions as per cent of twice total round-lot volume. In calculating these percentages, the total of members' transactions is compared with twice the total round-lot volume on the Exchange for the reason that the total of members' transactions includes both purchases and sales, while the Exchange volume includes only sales.

b Round-lot short sales which are exempted from restriction by the Commission's rules are included with "other sales."

New York Stock Exchange Institute to Offer Courses to General Public

The New York Stock Exchange Institute announced Aug. 8 that, for the first time, the full schedule of its courses will be made available to anyone interested in the study of subjects related to the securities business, Registration begins on Aug. 28, and the Fall term commences Sept. 11. Heretofore admission to the Institute's courses has been restricted to employees of stock exchanges and their member firms. The announcement by the Exchange added:

The courses of instruction offered by the Institute are designed to afford specialized educational opportunity in practically every phase of security brokerage and investment analysis. It is expected that with the inauguration of the new public registration, many employees of non-member financial institutions and also customers of member firms will enroll in one or more of the 40 different courses offered by the Institute. The school year is divided into two terms of 15 weeks each. Classes meet for two-hours each week.

Market Value of Bonds Listed on New York Stock Exchange July 31 Above June 30

On Aug. 7 the New York Stock Exchange issued the fol-

lowing announcement showing the total market value of bonds listed on the Exchange July 31:

As of the close of business on July 31, 1939, there were 1,384 bond issues aggregating \$52,610,197,427 par value listed on the New York Stock Exchange, with a total market value of \$49,007,131,070.

On June 30 there were 1,389 bond issues aggregating \$52, 751,311,452 par value listed on the Exchange with a total market value of \$48,570,781,615.

Report of New York Curb Exchange for First Six Months of 1939 Shows Actual Cash Loss of only \$8,175—Net Operating Loss of \$69,252 Reported— Deductions Included \$60,537 for Depreciation

Cash on hand of \$923,591 and an actual cash loss of only \$8,715 for the first six months of 1939 is revealed in a consolidated report made public Aug. 7 by the New York Curb Exchange and its affiliates, New York Curb Exchange Securities Clearing Corp. and New York Curb Exchange Realty Associates, Inc. The report, the Exchange indicates, showed a net operating loss of \$69,252 after deducting all charges, including \$60,537 for depreciation. Federal, State and city taxes amounted to \$73,547. Comparative figures for the first six months of 1938 are not available, as this is the first time that a consolidated report for the first Cash on hand of \$923,591 and an actual cash loss of only is the first time that a consolidated report for the first half-year has been issued. Further details were announced as follows by the Exchange:

Total assets and deferred charges amounted to \$5,943,275 as compared with total liabilities, deferred credits to surplus and reserve of \$997,409, which left an excess of assets over liabilities of \$4,945,866, representing the net equity of 550 regular members of the Exchange. Total current seeds were \$944.017

assets were \$944,017.

Income wholly from members amounting to \$474,914 included regular and associate membership dues of \$221,142; regular and associate membership dues of \$221,142; regular and associate members' fees of \$66,301; telephone quotation service charges of \$47,584; telephone booth rentals, \$30,592, and stock clearing corporation charges of \$108,014.

of \$108,014.

Other revenue totaling \$76,990 was derived from: Listing fees, \$18,217; Curb ticker service royalties, \$15,848; rents, \$24,860; profit on sale of investments (United States Government obligations), \$11,434.

In addition to taxes and depreciation, the principal items of expense for the period were: Salaries, \$306,859; legal expense, \$28,659; interest, \$26,279; light, heat and power, \$22,662; insurance premiums (including Employees' Group Life), \$10,182, and medical examinations of employees, \$5.822.

\$5,822.

The New York Curb Exchange Securities Clearing Corp. had \$2,022,500 (not included in this statement) on deposit as of June 30, 1939. This amount represents deposits made by clearing members to the Clearing Fund of the Corporation. The fund is not available for the general purposes

of the Corporation and the deposit of each member is repayable to him upon his retirement as such member.

Package Securities Distribution Plan Announced by Hirsch, Lilienthal & Co.—Includes Services of Investment Advisory Organization

Investment Advisory Organization

The first package securities distribution plan to embody as an integral part of the plan the services of an investment advisory organization, nationally known, both in the selection and continued supervision of the portfolios for at least a year, without cost to the client, was announced Aug. 7 by the New York Stock Exchange firm of Hirsch, Lilienthal & Co. Known as "Hirlico" portfolios, four groups have been selected to appeal to those widely varying requirements and financial resources and are identified as Low Priced Group, Income Group, Recovery Group and Aviation Stock Portfolio. Each portfolio comprises five shares of the common stocks of each of ten different companies, all listed on the New York Stock Exchange. The announcement went on to say: say:

Under the new plan as evolved by the firm, the counsel of Fitch Investors Service has been secured and prior to the selection of stocks, such factors as income, marketability, stability and prospect of appreciation in relation to price are considered by the Fitch staff. With each "Hirlico" portfolio, at the time of its purchase, there is furnished an independent Fitch statistical analysis of the securities contained therein. At the end of six months, and again at the end of a year, other Fitch analytical reports on the stocks are furnished the purchaser. Under the plan, there are no management fees or other extra costs charged the purchaser for this advisory service.

All orders for these portfolios will be executed on the New York Stock All orders for these portiolios will be executed on the New York Stock Exchange on a straight commission basis, amounting to \$30 which is the minimum chargeable under Stock Exchange rules, plus the regular odd lot differential of ½ point and taxes. In this connection, the firm points out that a larger number of shares of the individual stocks can be purchased by a client subject to the rules of the New York Stock Exchange for the same minimum commission. same minimum commission.

Marked Increase in Trading in Public Utility Stocks Shown by New York Curb Exchange Study

A marked increase in the volume of transactions in public Exchange covering stock volume on the Exchange over the past three weeks. The index, the Exchange said on Aug. 5, is offered for what it may be worth in gauging public confidence in the future of utilities. The Exchange also points out:

points out:

The percentage of utility stock issues traded in for the week ended Aug. 5 was 42.81%, compared with 30% for the week ended July 29 and 22.83% for the week ended July 22.

There was an increase of approximately 130,000 shares of utilities traded in in the week ended Aug. 5 over the total for the week ended July 29, and an increase of 25,895 in the week ended July 29 over the week ended July 22. This makes a total increase of 155,895 utility shares traded in the week ended Aug. 5 over the week ended July 22.

New York Curb Exchange to Put into Effect Aug. 21 New Bond Trading Rule Providing for "All or None" Deals

As a means of improving the facilities of its bond market the New York Curb Exchange will put into effect, beginning Aug. 21, an "all or none" rule providing that, by meeting certain conditions, the purchaser or seller of bonds may limit his transaction so that it will not apply to a smaller number of bonds than the amount specified, it was announced Aug. 10. These conditions are set forth in an amendment by the Board of Governors to Rule 122. This rule now reads:

"Bids or offers for more than one unit of trading shall be deemed to be

"Bids or offers for more than one unit of trading shall be deemed to be for the amount thereof or a smaller number of units."

The amendment adds the following:

except that bids or offers may be made and executed 'all or none' if all

of the following conditions are met:

1. The securities bid for or offered are bonds;

2. The amount bid for or offered equals or exceeds \$25,000 of par value;

3. The bid or offer is executed at a price higher than the best bid price and lower than the best offer price, 'regular way', at the time of execution."

Rule 124 us also amended to include the following:

"(e) 'All or none', i. e., that the bid or offer is for an amount of securities equal to the total amount of securities bid for or offered and no less; provided, however, that such conditions may be specified only in accordance with the provisions of Rule 122."

In its announcement the Curb Exchange also says:

The Committee on Bond Transactions has been instructed to designate symbol which will distinguish such "all or none" transactions when printed on the tape.

The Board of Governors of the Exchange also approved an amendment to Rule 127 authorizing the Committee on Stock Transactions to adjust the minimum fractional changes for dealings in stocks, and the Committee on Bond Transactions to adjust the minimum fractional changes for dealings in bonds when they consider it necessary.

SEC Issues Tabulations on Characteristics of Corporate Security Issues Proposed for Sale During Second Quarter

The Securities and Exchange Commission on Aug. The Securities and Exchange Commission on Aug. 3 made public the following tabulations on selected characteristics of corporate security issues proposed for sale by issuers and registered under the Securities Act of 1933 during the period April 1 to June 30, 1939.

These data, published quarterly, are part of the series which was initiated in February, 1939. The figures for

the Jan. 1 to March 31 period were given in our issue of April 29, page 2504. The tabulations issued Aug. 3 follow:

New York Curb Exchange Short Interest Increased in July

The total short position of stocks dealt in on the New York Curb Exchange for the month of July, reported as of July 31,

1939, amounted to 11,612 shares, compared with 9,650 shares on June 30. The Exchange's announcement of Aug. 10 also stated:

Stated:
Only four issues showed a short interest of 500 shares or more. They were Oklahoma Natural Gas Co., common with a short interest of 500 shares, against 28 at the end of June; Seversky Aircraft Corp., capital with 2,758 shares compared with 135 on June 30; Canadian Colonial Airways, Inc., with a short interest of 500 shares compared with none for the end of June; and Electric Bond & Share Co., common with a short interest of 725 shares, compared with 1,333 for the preceding month.

Following Death of Fritz Mannheimer, Its Director, Mendelssohn & Co. of Amsterdam Apply for Letter of License Equivalent, It Is Said, to Suspension of Payments

Cablegrams to the daily press from Amsterdam yesterday (Aug. 11) carried advices to the effect that Mendelssohn & Co. of Amsterdam, one of Europe's largest private banking houses, had applied for a letter of license, equivalent to suspending payments on its obligations. These advices followed the death, at ms villa near Paris, on Aug. 10, of Fritz Mannheimer, director of the bank. In the New York "World Telegram" of last night (Aug. 11) it was stated:

Enlightened only to the extent that private cables from correspondents abroad revealed conditions, financial interests here were of the opinion that several days would pass before any definite idea of the status of Mendelssohn & Co., private Dutch banking firm which asked to be permitted to suspend payments, would be available.

payments, would be available.

The banking house, one of Europe's oldest private institutions, formed in 1795 in Germany, was admittedly rather active in American securities, but since the bulk of this business was carried through on a cash basis, it was the assumption that any open commitment would prove entirely nominal. Over a period of years the firm has been active in foreign exchange dealings, operating chiefly, however, it is reported, through British and Dutch concerns rather than through New York banks.

The firm is reported to have financed its operations through the use of "call loans" and it is assumed that some of its creditors evidently called such loans for payment with the death of Dr. Mannheimer, at a time when Mendelssohn found it difficult to raise additional cash.

The point was made, however, that the proceeding is not a bankruptcy as it is known here, but rather in the nature of a move by the remaining partners in the firm for a moratorium on all payments until they learn exactly where they stand. xactly where they stand.

National City Bank of New York Sees Earlier Prospects of Better Business Borne out in Recent Develop-

"The month of July has borne out the promise of better business conditions contained in the reports for June," says the National City Bank of New York, in its August "Monthly Letter," which also says:

The action of the stock market in breaking out of the rut on the up side, The action of the stock market in breaking out of the rut on the up side, with greatly increased volume of trading, has been a cheering development, regarded by many as confirming the view that the spring recession had run its course, and that business is once more moving ahead. It is recognized, of course, that the hazards are still very great, and few business men are venturing to set their sight very far ahead; nevertheless, feeling is undoubtedly better, and this in itself is a change of importance.

Other Factors of Encouragement

Other Factors of Encouragement

Contributing also to the improvement in sentiment, and reflected in higher security prices, has been the showing of corporation profits for the second quarter and for the half year now coming to hand, and summarized in later pages of this letter. Many of these proved to be better than had been generally looked for, and bear witness in an impressive way to the high operating efficiency of American industry and to the ingenuity of management in reducing costs and translating modest gains in operating rates into more satisfactory results in profit and loss statements. Although the upturn that has taken place still leaves profits for most companies well below the level reached prior to the 1938 slump, nevertheless, the fact that business has been able to do as well as it has under the circumstances has been distinctly heartening to business men and investors, especially in wiew of the prospect of a more profitable rate of operations during coming months.

months.

Along with the improvement in business volume and profits, sentiment has been aided by a number of developments in Washington, including the enactment by Congress of the new Revenue Act, sponsored by the Treasury Department, which eliminated the undistributed profits tax, liberalized taxation of corporate capital gains and losses and improved the corporate tax system in other respects.

The Outlook

All in all, business appears to be moving forward in a gratifying manner, and, barring an upheaval in Europe, it is difficult to foresee any basis for serious setback for some months at least. From all accounts, inventories generally are in sound position, business is proceeding with caution, and industrial costs, while high, are not rising over any broad area. During the fall months the seasonal pickup in motor car manufacturing will be divised in the proport of the property of the proper giving important support to busine

Failure of Credit to Expand Due to Restrictions on Business, Says Guaranty Trust Co. of New York—Existing Private Credit Agencies Regarded as Adequate to Supply Legitimate Needs—Cites Danger in New Program of Government Spending

Danger in New Program of Government Spending
Discussing some aspects of the credit impasse, the Guar
anty Trust Co. of New York in "The Guaranty Survey," its
monthly review of business and financial conditions, published July 31, states that "all the available evidence indicates that existing private credit agencies are fully capable
of supplying all the legitimate needs of business. The
failure of credit to expand," says "The Survey," "is attributable not to the inadequacy of the present financial system
but to the burdens and restrictions on business concerns
and investors that have, in many cases, made the outlook
for profits too uncertain to attract capital into productive

investments." "The Survey" makes this statement in disposing of the contentions in some quarters that the failure of loans to expand is due to excessive caution on the part of the banks and that business recovery is being impeded by the refusal of the banks to meet the legitimate credit requirements of commerce and industry. "This view," it says, "seems to undelie the various proposals that have been made recently to extend the activities of the Federal Government in the lending field." "The Survey" continues, in part.

Business obviously will not borrow unless there is a good prospect of Business obviously will not borrow unless there is a good prospect of earning interest charges on the borrowed funds, with something left over. Banks cannot lend except to businesses whose credit standing and earnings prospects make it reasonably certain that the loans will be repaid. And investors will not risk their funds without some assurance that the debtor firms will be able to put the money to profitable use and that, once the profits are earned, the investors themselves will be left in possession of the bulk of the returns. These indispensable bases of investment have been seriously impaired by taxation and regulations of business in recent years.

been seriously impaired by taxation and regulations of business in recent years.

Government "investment" represents an attempt to force public funds over these artificial barriers. Notwithstanding the emphasis that has been placed on the "self-liquidating" character of the projects outlined in recent proposals, it is impossible to ignore the danger that directing public funds into such channels will lead to nothing more than a new program of lavish Government spending. If so, it will be the more dangerous by reason of the fact that the funds will be raised by governmental credit agencies through the issue of debentures that will be only contingent obligations of the Government. In this way the necessity of reporting further large increases in the national debt and of raising the statutory limitation on its amount will be avoided.

The inevitable tendency of this policy will be to extend burcaucratic control over the lives of the people, to enlarge the powers of the Federal Government at the expuse of those of States and municipalities, to threaten the soundness of public credit and the stability of the currency, and ultimately to substitute a form of State capitalism for the traditional American system of private business enterprise.

The alternative to this forbidding prospect is to restore to business and investors a fair opportunity to earn and retain such profits as they may be fortunate enough to make, free from unnecessary governmental restrictions and from excessive and punitive tax burdens.

Lewis E. Pierson of Irving Trust Co. of New York Holds Politicians Responsible for "Orgy of Public Spending"

Spending"

Lewis E. Pierson, Honorary Chairman of the Irving Trust Company of New York, in an address over radio station WABC on Aug. 9 placed responsibility for the "orgy of public spending" on the shoulders of "the politicians who spend the people's money with a lavish hand to entrench themselves." "Such politicians," he declared, "are not particularly concerned about from where the money comes so long as they can spend it for this or that public work or activity with little thought of whether the particular work is needed or the activity desirable."

Mr. Pierson declares that the example of Westchester County which, as a result of the efforts of the organized taxpayers, not only failed to increase its 1939 budget but actually effected a reduction of nearly a million dollars suggests that comparable economies could be made in other counties, cities, states and the nation. Referring to pressure groups, Mr. Pierson says:

I would call your attention also to the false philosophy of pressure groups

I would call your attention also to the false philosophy of pressure groups who eagerly reach out to get what they think is their "share" of government funds. Whether it is funds that are voted with reckless abandon in Washington—or elsewhere—billions that spell more taxes—these thoughtless and selfish groups advance in solid ranks on the Treasury to ask—yes, demand—a slice of this easy money for purposes all too often unsound and uneconomic—meaning an ever heavier tax load on the shoulders of business and the consumers in every household.

Mr. Pierson's speech was delivered as a part of the "What Helps Business Helps You" campaign, which is being conducted by The Merchants' Association of New York, the Chamber of Commerce of the State of New York, the New York Board of Trade, the Bronx Board of Trade, Brooklyn Chamber of Commerce, Chamber of Commerce of the Borough of Queens and the Staten Island Chamber of Commerce.

June Home Mortgage Recordings Reached Record High for Year in Value and Number, Reports FHLBB

June home mortgage recordings, other than farm proper-June home mortgage recordings, other than farm properties, reached a record high for the year in value and number, with \$360,868,000 and 128,005—a gain of \$11,414,000 and 3,401, respectively, over May, the previous record month, officials of the Federal Home Loan Bank Board announced on Aug. 5. It was further reported by the Board Residential construction in June, while far ahead of the comparable 1938 month, declined from May due to a seasonal trend and to about one-third fewer United States Housing Authority projects launched in June than in the previous month, according to a study by the Board's Division of Research and Statistics of building permits reported to the United States Department of Labor.

Research and Statistics of building permits reported to the United States Department of Labor.

Construction of 24,821 homes, having an estimated value of \$90,896,000, was started or projected in June, as compared with 30,084 costing \$109,566,000 in May, and 16,469 valued at \$61,464,600 in June, 1938. The figures apply to all cities of 10,000 or more population.

The June recordings brought the cumulative figures for the first six months to \$1,798,144,000 which had been advanced on 649,767 homes, each of which was valued at \$20,000 or less, Financing activity in the second quarter of the year, aggregating \$1,014,673,000, was almost a quarter billion dollars greater than that reported in the first three months.

Savings, building and loan associations again held first place in June as principal institutional lenders on homes, accounting for 82%, or \$113,-479,000 of the total value, compared with 31.4%, or \$109,652,000, in May. The value and percentage of the total for the other groups in June follow.

	Value	Percentage
Banks and trust companies Insurance companies	\$89,563,000	25
Mutual savings banks	30,017,000 12,048,000	8 3
IndividualsOthers	58,967,000 56,794,000	16.3 15.7

Savings and loan associations had top place in the six months' recordings with 30% of the total, followed by banks and trust companies with 25%.

Tenders of \$256,175,000 Received to Offering of \$100, 000,000 of 91-Day Treasury Bills—\$100,429,000 Accepted at Average Rate of 0.032% Bills-\$100,429,000

Accepted at Average Rate of 0.032%

A total of \$256,175,000 was tendered to the offering of \$100,000,000 or thereabouts of 91-day Treasury bills dated Aug. 9 and maturing Nov. 8, 1939, it was announced on Aug. 7 by the Treasury Department. Of this amount, \$100,429,000 was accepted at an average rate of 0.032%. The tenders to the offering of Treasury bills were received at the Federal Reserve banks and the branches thereof up to 2 p.m. (EST) Aug. 7. Reference to the offering appeared in our issue of Aug. 5, page 807. The following regarding the accepted bids to the offering is from the Treasury's announcement of Aug. 7:

Total applied for. \$256,175,000

Total accepted. \$100,429,000

Total applied for, \$256,175,000

Total accepted, \$100,429,000

Range of accepted bids: High, 100

Low, 99.991; equivalent rate approximately 0.036% Average price, 99.992; equivalent rate approximately 0.032% (48% of the amount bid for at the low price was accepted.)

New Offering of \$100,000,000 or Thereabouts of 91-Day Treasury Bills—To Be Dated Aug. 16, 1939

Tenders to a new offering of \$100,000,000 or thereabouts of 91-day Treasury bills were invited on Aug. 10 by the Treasury Department. The tenders will be received at the Federal Reserve banks or the branches thereof up to 2 p. m. (EST) Aug. 14, but will not be received at the Treasury Department, Washington. The bills, which will be sold on a discount basis to the highest bidders, will be dated Aug. 16 and will mature on Nov. 15, 1939; on the maturity date the face amount will be payable without interest. There is a maturity of a similar issue of bills on Aug. 16 in amount of \$100,241,000. In their announcement of the offering, the Treasury also said:

They [the bills] will be issued in bearer form only, and in amounts or

They [the bills] will be issued in bearer form only, and in amounts or denominations of \$1,000, \$10,000, \$100,000, \$500,000, and \$1,000,000

denominations of \$1,000, \$10,000, \$100,000, \$500,000, and \$1,000,000 (maturity value).

No tender for an amount less than \$1,000 will be considered. Each tender must be in multiples of \$1,000. The price offered must be expressed on the basis of 100, with not more than three decimal places, e.g., 99.125. Fractions must not be used.

Tenders will be accepted without cash deposit from incorporated banks and trust companies and from responsible and recognized dealers in investment securities. Tenders from others must be accompanied by a deposit of 10% of the face amount of Treasury bills applied for, unless the tenders 9re accompanied by an express guaranty of payment by an incorporated bank or trust company.

tenders 9re accompanied by an express guaranty of payment by an incorporated bank or trust company.

Immediately after the closing hour for receipt of tenders on Aug. 14, 1939, all tenders received at the Federal Reserve banks or branches thereof up to the closing hour will be opened and public announcement of the acceptable prices will follow as soon as possible thereafter, probably on the following morning. The Secretary of the Treasury expressly reserves the right to reject any or all tenders or parts of tenders, and to allot less than the amount applied for, and his action in any such respect shall be final. Those submitting tenders will be advised of the acceptance or rejection thereof. Payment at the price offered for Treasury bills allotted must be made at the Federal Reserve banks in cash or other immediately available funds on Aug. 16, 1939.

The Treasury bills will be exempt, as to principal and interest, and any gain from the sale or other disposition thereof will also be exempt, from

The Treasury bills will be exempt, as to principal and interest, and any gain from the sale or other disposition thereof will also be exempt, from all taxation, except estate and inheritance taxes. (Attention is invited to Treasury Decision 4550, ruling that Treasury bills are not exempt from the gift tax.) No loss from the sale or other disposition of the Treasury bills shall be allowed as a deduction, or otherwise recognized, for the purposes of any tax now or hereafter imposed by the United States or any of its possessions.

Treasury Department Circular No. 418, as amended, and this notice prescribe the terms of the Treasury bills and govern the conditions of their issue.

\$17,750,000 of 34% Consolidated Debentures Sold by Federal Intermediate Credit Banks-Issue Over-

A new issue of \$17,750,000 of 34% consolidated dobentures was sold on Aug. 4 by the Federal Intermediate Credit Bank System. The books to the offering were closed within Bank System. The books to the offering were closed within a short time following an over-subscription, it was announced by Charles R. Dunn, fiscal agent of the banks. The debentures, which are the joint and several obligations of the 12 banks, were sold at a slight premium over par value. They are dated Aug. 15 and will mature in 5½ and 11½ months: \$7,900,000 on Feb. 1, 1940, and \$9,850,000 on Aug. 1, 1940. There is a maturity of \$19,350,000 of 1% debentures on Aug. 15 which will be paid off from the proceeds of the sale and \$1,600,000 out of the cash account of the system. After the close of business there will be a total of \$196,050,000 debentures outstanding.

Officials of Treasury and Federal Open Market Committee to Discuss September Financing in Week of Aug. 28

Officials of the Treasury Department and members of the executive committee of the Open Market Committee of the Federal Reserve System will meet in a conference during the week of Aug. 28 to discuss the Treasury's financing program for September, it was disclosed Aug. 10 by Acting Secretary of the Treasury John W. Hanes. Regarding the plans Washington advices of Aug. 10 to the New York "Times" said: Officials of the Treasury Department and members of the

It was impossible now, Mr. Hanes said, to determine what amount of money would be required in the operations or whether new money would be needed to support the cash position of the Treasury. Before he left for a European vacation, Secretary Morgenthau said the Treasury had enough cash to continue through to September. The understanding here is that the world situation will be a determining afctor in estimating the require-

ments.

As a preliminary to the August conference, Daniel W. Bell, former acting budget director and now assistant to Mr. Morgenthau, is making a study of the financial markets and collecting data to aid the experts.

Officials of the Treasury are wary of discussing the future operations of that department, even with such a short time intervening. The possibility of another European crisis between now and Sept. 15 might make necessary the raising of a large amount of money so that this government might meet any national emergency.

No matter what the European situation, an offering for cash by the

Treasury appears likely. There seems also strong probability of refinancing of approximately \$526,000,000 of notes due in December.

Nearly \$1,000,000,000 in Public Revenue Bonds Issued in Last 10 Years, Says B. J. Van Ingen

in Last 10 Years, Says B. J. Van Ingen
Nearly \$1,000,000,000 of a new type of bonds—public revenue bonds—has been issued during the past 10 years, B. J. Van Ingen points out in the preface to a new book "Financing Public Improvements" published by the investment house of B. J. Van Ingen & Co., Inc., New York City. The material, edited and arranged by Byron W. Shimp, is a summary of a series of six lecture conferences which were held at the Bankers Club on Friday afternoons between March 31 and May 12, 1939. Each lecture was given by an authority on a particular phase of revenue bond financing and was followed by informal questions, and answers from the floor. Mr. Van Ingen has the following to say:

Most of the one billion dollars of this type of bonds now outstanding have been issued within a comparatively short period. The outstanding bonds are divided almost equally between those to finance domestic services

bonds are divided almost equally between those to finance domestic services (gas, water, electric light and power), and those for new enterprises or construction projects (bridges, tunnels and highways).

We felt impelled to arrange a series of lecture conferences because of a marked lack of information on the part of both purchasers and sellers regarding the factors of safety in public revenue bonds. It is not generally realized that public improvements financed by revenue bonds are owned and operated by a State or municipality or a political subdivision or specially created instrumentality thereof; that there is no element of private profit involved; that there are no dividends to pay on preferred or common stock: involved, that there are no dividends to pay on preferred or common stock; and that all net earnings are devoted to paying the principal and interest of the bonds issued to finance the enterprise.

While investors are generally aware of the enviable market behavior of While investors are generally aware of the enviable market behavior of this type of security, they do not realize the factors of safety which are built into the bonds in their setup. These factors represent a combination of legal security, scientific forecasts of traffic and revenues by reputable engineers, and engineering estimates of construction and operation costs. Each of these phases of public revenue bond security is dealt with in the record of the conferences.

We feel that it is possible to evaluate the investment qualities of a construction revenue bond through a careful analysis of the enabling legislation, the trust indentures, the traffic report, and the report on construction and operation costs.

The ever-growing need for public improvements and the necessity for financing them without adding to the general tax burden leads us to believe that the volume of new revenue bond financing during the next decade will be much greater than the amount of revenue bonds now outstanding.

President Roosevelt Felicitates Bolivia on Anniversary of Independence

President Roosevelt, on Aug. 7, cabled congratulations to President German Busch of Bolivia on the occasion of Bolivia's Independence Day. "I take pleasure in extending felicitations to your Excellency in the name of the Government and people of the United States on this anniversary," he wrote

President Roosevelt Plans Vacation—Will Cruise to Newfoundland, then Later Visit Pacific Coast

President Roosevelt late this week rested at his home in Hyde Park, N. Y., preparatory to leaving for a vacation cruise on the Atlantic Ocean that may take him as far north as Newfoundland. Later the President plans a western trip as far as San Francisco. Before leaving Washington on Aug. 6, the President held open house at the White House to say goodbye to Congressmen who were leaving for their homes. homes.

Mr. Roosevelt's vacation plans were described in the following Associated Press Washington dispatch of Aug. 5:

A sea trip that may touch as far north as Newfoundland, provided there is sufficient time, is on a tentative itinerary that eventually will take him southward and to the West Coast.

These, with half a dozen or more trips to his Hyde Park (N. Y.) home, will increase his travel mileage since entering the White House to well heavend the 150 000 mark.

will increase ins travel mileage since entering the White House to well beyond the 150,000 mark.

The Chief Executive, anxious to get away from Washington's sultry weather, kept open house at 1600 Pennsylvania Avenue for Congressional farewells today.

He intended to leave tomorrow night for Hyde Park and to spend four He intended to leave tomorrow night for Hyde Park and to spend four or five days there, taking with him for final action some of the several hundred bills passed in the final rush of the session.

Then he will board the new cruiser Tuscaloosa, probably at New York, for a leisurely cruise to Northeastern waters for some fishing. The destroyer

for a leisurely cruise to Northeastern waters for some fishing. The destroyer Lang, one of the escort ships, will carry three newspapermen and Secret Service men who cannot be accommodated on the Tuscaloosa.

The President does not intend to go ashore during the journey, except possibly to spend one day at his mother's summer home at Campobello, N. B., opposite Eastport, Maine. From there he will sail up the eastern coast of Nova Scotia, where he steered his own schooner three years ago as far as Shelburne, but will continue north of that port. Just how far has not heave decided. been decided.

been decided.

There may be a pause at Halifax to receive a party from shore.

After a week or ten days at sea he will return to Washington for a check on world happenings before returning to the Roosevelt estate on the Hudson.

About October 1 he will start his trip to the San Francisco Fair, stopping at the Great Smoky mountains National Park in North Carolina and Tennessee to dedicate the park with a speech. His only other scheduled address is at the fair. address is at the fair.

President Roosevelt Confers With Representative Buck on Taxes Incident to Study of Revision at Next Session of Congress

The tax situation was discussed at Washington by Presi The tax situation was discussed at Washington by President Roosevelt on Aug. 7 with Representative Frank H. Buck (Dem.) of Colorado, and it is reported that after the conference Mr. Buck indicated that the President would let the House tax subcommittee know by Nov. 1 whether he desires the Committee to find new sources of revenue. Advices from Washington on that day to the New York "Journal of Commerce" reporting this added:

The question of new taxes, he said, will depend not on Congressional appropriations but on the budget for the fiscal year 1941.

The Budget Bureau today estimated that Congress appropriated last session \$260,937,376 more for the current fiscal year than the President estimated in January would be necessary.

Study Is Outlined

Among the studies which will be undertaken this fall by the Committee,

Among the studies which will be undertaken this fall by the Committee, aided by the Treasury Department which already has begun a resurvey of the tax structure, will be proposals for broadening the personal income tax base, increasing rates in the middle income surtax brackets, and the whole scope of capital gains and losses. Mr. Buck stated.

He added that since Congress at the last session revised the corporate tax structure extensively, it was unlikely that the subcommittee would go over this question again, but emphasized that this is a matter that has not been definitely decided upon. It might be, he said, that pressure for further relief might be so great that the matter will have to be reviewed again.

To Let Liquor Taxes Alone

The Committee, he said, has agreed not to tinker with liquor taxes, but plans to go into the question of personal income taxes, excise taxes and the question of exemption of Federal, State and local securities from levies. The latter question was studied last session after passage of the tax bill, but no action was taken upon it.

but no action was taken upon it.

He said that the subcommittee undoubtedly will consider seriously proposals for reducing the exemption for single persons to \$800 instead of the present \$1,000 figure. The proposals also contemplate lowering the exemption for married persons from \$2,500 to \$2,000. All this would be coupled with a flat 1% increase in all income brackets and, according to Mr. Buck, would produce an additional Federal revenue of \$135,000,000 annually.

President Roosevelt Will Not Call Special Session of Congress Unless War Crisis Develops Abroad— Would Preserve Neutrality of United States

President Roosevelt said at his press conference yesterday (Aug. 11) that he would not call a special session of Congress in the Fall unless an actual war crisis developed in Europe or the Far East. He explained that he would do this in order to preserve the neutrality of the United States along the lines of international law. In reporting on the conference United Press, Hyde Park (N. Y.) advices of Aug. 11 said:

Said:

Choosing his words carefully, Mr. Roosevelt told a press conference that he knew of no reason at the present time, however, for calling Congress back before its regular session next January.

His program, he said, would follow the lines of his previous neutrality proposals which were rejected by Congress in one of the major struggles of the last session. He still stands firmly for the objectives of a cash-and-carry policy on exports of arms and war materials, he said. . . .

His program, he said, would be to go back to principles of international law.

He noted that the President had ample executive power to take many

He noted that the President had ample executive power to take many steps to help preserve neutrality.... Mr. Roosevelt was asked whether the neutrality program he envisaged would include recommendation for a cash-and-carry plan. This would permit United States industries to furnish materials and arms to nations which could pay for them in cash and transport them in their own ships or ships of third parties.

He replied that he still stood firmly for the objectives of a cash-and-carry plan, but that it was uncertain whether legislation would be needed on that point.

President Roosevelt Directs Department Heads to Institute Economies—Letter Says Substantial Sav-ings in Operation Are Possible

Heads of Government departments were directed on Aug. 7 by President Roosevelt to conduct a survey designed to effect improvements and economies in administration. Budget Director Harold B. Smith made public a letter in which the President said that economies now in operation could undoubtedly be put into effect in many Government units. Substantial savings, the President said, "can be effected in the cost of Government for this fiscal year and for succeeding fiscal years, and I wish to see such savings reflected in the apportionment of appropriations for the reflected in the apportionment of appropriations for the

current year and in the submission of estimates for the fiscal year 1941." We give herewith the letter made public fiscal year 1941." Aug. 9:

heads of departments, independent establishments and ot Government agencies:

I believe that substantial savings can be effected in the cost of Government for this fiscal year and for succeeding fiscal years, and I wish to see such savings reflected in the apportionment of appropriations for the current year and in the submission of estimates for the fiscal year

When your estimates for the fiscal year 1941 are presented on September 15 next, they will be accompanied by a statement of anticipated savings which you believe can be effected during the current fiscal year, and the methods through which such savings are expected to be accom-

Franklin D. Roosevelt.

In United Press accounts from Washington, Aug. 9, it was stated that the President's move was motivated in part by the fact that the first session of the 76th Congress ap-propriated more than \$13,000,000,000, which was nearly \$300,000,000 in excess of budget requests. Continuing this, accounts said:

accounts said:

This record peace-time spending was sharply criticized by Congressional Republican leaders who indicated that the New Deal's spend-to-recovery policy would be made an issue in the 1940 Presidential campaign. The minority sought without success to jam through a resolution which would have made a flat 10% cut in the total appropriated for Government services, exempting only social security, relief and national defense funds. At the time the measure was introduced, the President was asked to comment on the efficacy of such a project. In reply, he posed the question "where will you cut?" He reiterated his opposition to any economies which would bring hardships to the underprivileged or would contravene his policy that no one in the country shall be allowed to starve.

President Roosevelt Signs Bill Removing \$30,000,000,000 as Limit on Outstanding Government Bonds

President Roosevelt signed on July 20 the bill eliminating the \$30,000,000,000 limitation of oustanding Federal bonds. The measure, which amends the Second Liberty Bond Act, as amended, does not change the maximum restriction of \$45,000,000,000 on the total national indebtedness. Final second section on the bill come on July 14 when the \$45,000,000,000 on the total national indebtedness. Final congressional action on the bill came on July 14 when the Senate receded from its amendments which the House had disagreed to the same day. The bill was passed by the House May 23 and by the Senate June 1. The amendment which the Senate adopted on June 1, and which was finally dropped, was in the form of a rider authorizing the Tennessee Valley Authority to issue \$100,000,000 bonds. The Senate agreed to eliminate the amendment July 14, in as much as a conference report on an independent TVA bill was voted. A reference to the bill appeared in our issue of May 27, page 3146. May 27, page 3146.

Special Presidential Message to Congress Urges Aid for Residents of Cut-Over Timber Areas in Michigan, Minnesota and Wisconsin—Survey Proposes Re-habilitation, Loans and Relocation

President Roosevelt, in a special message to Congress on July 31, transmitted a recommendation of the National Resources Committee for a long-range program to rehabilitate sources Committee for a long-range program to rehabilitate residents of the cut-over timber regions of northern Michigan, Wisconsin and Minnesota. The Committee's report proposed long-time capital loans to settlers on land suited for agriculture, relocation of other residents, elimination of "uneconomic" units of Government, development of cooperative marketing, and a large scale public works program for forest restoration. The recommendations covered 57,000,000 acres in 86 counties, and were based on studies covering more than a year. The President's message folcovering more than a year. The President's message fol-

TO THE CONGRESS OF THE UNITED STATES:

TO THE CONGRESS OF THE UNITED STATES:

Exploitation of our resources has created many problems, but none more pressing than in those areas of the United States where a basic resource has been mismanaged and the principal industry has moved or waned, leaving the working population stranded.

The cut-over region in the northern part of the States of Michigan, Minnesota and Wisconsin was once the scene of a flourishing lumber industry. Today a large section of the population in that area depends for its very existence on public aids, work relief, and security payments. The large expenditures for these purposes in the area have enabled these people to survive, but could not provide a satisfactory permanent solution to their problem.

people to survive, our could not their problem.

Members of Congress representing the region appealed some time ago for aid in developing a program to assist the people in the area to find a way of life that would provide opportunity and reasonable security. The problem is now to make the best use of the natural and human resources of the area.

Over a year ago the National Resources Committee began a study of the region, establishing large local committees in order to insure accurate representation and true understanding of the local point of view. Individual reports were prepared by groups representing the cut-over areas in three States. From these individual reports a summarized version of what is thought to be a feasible program has been developed. This summary constitutes the most recent in the series of regional reports by the National Resources Committee and is entitled "Regional Planning, Part VIII—the Report of the Northern Lakes States Regional Committee."

I am asking that the National Resources Planning Board keep in touch with the regional committee, which sponsored this report, to assist the regional committee in promoting correlation of activities of Federal, State and local agencies concerned with bringing about the accomplishments desired. I commend the report to your careful study for whatever action may be appropriate.

action may be appropriate.

FRANKLIN D. ROOSEVELT

President Roosevelt Vetoes Glass Bill to Permit Continuation of Interlocking Bank Directorates for Five More Years—Federal Reserve Board Sets Deadline of Feb. 1, 1940

A bill which would have enabled banks to permit interlecking directorates to exist for another four years was vetoed on Aug. 5 by President Roosevelt, in a two-paragraph weten on Aug. 5 by President Roosevelt, in a two-paragraph message in which he intimated that Congress had "backed down." The President pointed out that the Banking Act of 1935 had given the institutions a four-year period of grace which, he contended, was sufficient. The bill which Mr. Roosevelt vetoed was sponsored by Senator Glass. It was referred to in the "Chronicle" of July 29, page 661. The Fresident's veto message follows:

To the Senate:

I return herewith, without my approval, Senate Bill 2150, "An Act to amend section 8 of the Act entitled 'An Act to supplement laws against unlawful restraints and monopolics, and for other purposes," particularly with reference to interlocking bank directorates, known as the Clayton Act." If it was in the public interest in 1935 for the Congress to decide to terminate these relationships, it is in the public interest to terminate them now. Affected banks and affected directorates have had over four years to make adjustments. That would seem to be a liberal time.

If the Congress wishes to reverse itself and allow interlocking directorships in the future, it can, of course, do so. But I do not think that the Congress should nullify its policy, declared in 1935, by extending interlocking directorships for another four years on top of the four years' extension which has already been given.

FRANKLIN D. ROOSEVELT

The White House, August 5, 1939.

Meanwhile the Federal Reserve Board, in a statement dated Aug. 1, announced that it has extended until Feb. 1, 1940 the time during which "certain persons who have been serving member banks may continue to serve a member bank and not more than one other bank." The ruling follows:

The Board of Governors of the Federal Reserve System has amended subsections 3(a) and 3(e) of its Regulation L, relating to interlocking bank directorates under the Clayton Act, effective immediately, so as to extend until February 1, 1940, the time during which certain persons who have been serving member banks may continue to serve a member bank and not more than one other bank and not more than one other bank.

and not more than one other bank.

In Washington advices Aug. 6 to the New York "Journal of Commerce" it was observed:

In the report which accompanied the bill, it was explained that it would not permit creation of any new interlocking relationships of the kinds prohibited by other provisions of the statute but, by postponing further the time when certain existing relationships would have to be terminated, it would make the accomplishment of the objectives of the statute a more gradual process and avoid the necessity of wholesale resignations and corresponding replacements among directors and officers of banks. As the bill passed the Senate, the extension ran to February 1, 1944. However, the committee recommended that the extension be limited to Feb. 1, 1941, and stated that it felt that "the additional amount of time allowed under this amendment should be sufficient for rearrangements of directorships to be made, and that the taking effect of the renounced policy of Congress should not be longer postponed."

Action on Amendments to Social Security Act Completed with Signing of Bill by President—A. J. Altmeyer, of Social Security Board, Says Changes Will Raise Old-Age Insurance Costs by \$60,000,000 in 1940—Provides Increased Benefits

congress completed its action on the amendments to the Social Security Act just prior to its adjournment on Aug. 5; the ending of the deadlock on the legislation was noted in our Aug. 5 issue, page 810, and the compromise measure as agreed on by Conferees of the Senate and House was approved by the House on Aug. 4 and by the Senate on Aug. 5. In signing the bill yesterday (Aug. 11) President Roosevelt said that "these amendments to the act represent another tremendous step forward in providing greater security for the people of this country." He added:

This is especially true in the case of the Federal old-age insurance system, which has now been converted into a system of old-age and survivors' insurance providing life-time family security instead of only individual old-age security to the workers in insured occupations.

In associated Press advices from Washington Aug. 4 it was

The deadlock over the amendments broke when the Senate conferees agreed to drop the Connally amendment, which would have required the Federal Government to contribute \$2 for every State dollar provided for old-age assistance, up to a total of \$15 monthly per beneficiary.

Elimination of the amendment by Senator Tom Connally, Dem., Tex., designed to help the poorer States, restored the House provision under which the Federal Government would match, dollar-for-dollar State contributions for the aged up to a total of \$40 a month per beneficiary. Present

law provides for dollar-for dollar matching up to a total of \$30. provisions for public assistance to the needy aged are distinct from the old age insurance system, under which workers contribute to pensions for

The House agreed to elimination of the amendment by Repres John W. McCormack, Dem., Mass., which would have permitted reduction of State unemployment compensation taxes below the present 2.7% minimum and still enabled employers to claim the full 90% credit on the Federal unemployment tax to which they are entitled by payment of the

Representative Allen T. Treadway, Rep., Mass., expressing regret at the failure of the conferee to reach a compromise on this amendment, told the House it could be revived at a later date.

House it could be revived at a later date.

Mr. Treadway said the most important change effected by the amendments was the freezing of the old-age insurance tax rate at its present level of 1% on both the worker and employer for the next three years. This tax was scheduled under existing law to increase to 1½% on both on Jan. 1, 1940. Savings to both the workers and employers under this amendment were estimated at \$825,000,000 in the next three years.

An amendment limiting the employer's unemployment compensation tax liability to the first \$3,000 he pays each worker would give the employers a saving which has been estimated at \$65,000,000 annually.

The only other important saving which would be effected would be about \$15,000,000 in the form of refunds and abatements to employers who paid their 1936-7-8 unemployment compensation contributions to the States too late to be eligible for the Federal credit.

Liberalization and extension of the Act's benefits would add about \$1,500,000,000 to the program's cost during the next five years, experts estimated.

estimated.

In a formal statement, Senator Pat Harrison, Dem., Miss., said that, while many of the proposed amendments were constructive, he did not sign the conference committee report "because I felt so strongly the necessity of a greater measure of Federal assistance to the poorer States of the Misses of the Charles and the poorer States of the Charles are produced in the Consulty amendment."

Union, as embodied in the Connally amendment."

He criticized the "tactiturn and unyielding dispositions of House members of the conference group, who, he said, refused to permit the House to vote on the Connally proposal. He added that a fight for the Connally proposal would go on at the next session.

An Associated Press Washington account Aug. 6 said that under the new amendments to the law, 200,000 additional aged will receive pension checks. It was added:

The provision, known as the LaFollette amendment, was only one of a number of revisions of the Social Security Act which were finally approved and sent to the White House in the closing hours of the session.

The present statute provides for payment of pensions only to insured workers who reach 65 on or after Jan. 1, 1940. The LaFollette amendment permits persons who are 65 before that date to become eligible for pensions of the provided they not below a salvies. sions on Jan. 1, 1940 provided they pay or have paid taxes on their salaries

for at least 18 months.

For example, if John Jones became 65 on Jan. 1, 1939, and had been paying old age insurance taxes since they were first levied, he would become eligible for a pension Jan. 1, 1940, when under the revised bill first pension

will be paid.

Suppose his average salary for the three years he had been paying into the old age pension fund was \$100. (Old-age taxes were first assessed in January, 1937.) Under the formula for computing benefits—40% for the first \$50 of average monthly salary and 10% for the remainder—Jones would be entitled to \$25 a month for the rest of his life. Yet during the three years he would have contributed, at the stipulated rate of 1% a month on his wages, only \$12 a year or a total of \$36 to the pension fund. His employer would have contributed a like amount.

Opponents of this change contended that it would cost \$695,000,000 in the next five years and that the bulk of this amount would have to be

the next five years and that the bulk of this amount would have to be provided by younger contributors.

The LaFollette amendment also provides that a person now past 65 can qualify for monthly pension payments even through he received a lump sum settlement under the original Social Security Act.

Congress also made these other major changes in the Social Security Act, subject, of course, to President Roosevelt's approval:

- 1. Advanced from Jan. 1, 1942, to Jan. 1, 1940, the date on which payment of old age pensions will begin.
- 2. Saved taxpayers approximately \$825,000,000 by "freezing" for three years the present old age insurance tax of 1% on employees' wages and 1% on employers' payrolls. The tax was scheduled to increase to $1\frac{1}{2}\%$ on both next Jan. 1.
- 3. Raised from \$15 to \$20 the maximum the Federal Government will contribute for old age assistance on a 50-50 matching basis with the States. Old age assistance is for persons now old and in need and is distinct from the old age insurance system, under which workers contribute to their own pensions.
- Increased Federal grants to States for maternal and child welfare,

- 4. Increased Federal grants to States for maternal and child wellare, vocational rehabilitation and public health work.

 5. Provided monthly benefits for aged wives, widows, children and aged dependent parents, under the old-age insurance program.

 6. Limited the unemployment insurance tax liability of employers to the first \$3,000 of each worker's salary. This would save approximately \$65,000,000, officials estimated.

 7. Decreased the size of the old age reserve fund and established a board
- 7. Decreased the size of the old age reserve fund and established a board of trustees to administer it. Some persons have contended—although others have disputed it—that under the present law the reserve fund would have reached \$47,000,000,000 by 1980. Under the revised bill the reserve is limited to three times the highest annual benefit payments expected
- during the succeeding five years.

 8. Extended old age insurance provisions to seamen and certain bank
- 9. Exempted from old age and unemployment insurance persons under
- 18 who deliver newspapers.
 10. Exempted insurance agents on commission from unemployment insurance program.

The Associated Press likewise said:

Other changes which the amendments would made in the present law

- 1. Persons under 18 years old, employed delivering newspapers or shopping news sheets, would be exempted from old age and unemployment
- 2. Insurance agents on commission would be exempted from the unemployment insurance program. Present law already exempts most insurance agents from the old-age insurance provision, depending on the type
- of contract they have with their employers.

 3. In addition to a general exemption of agricultural laborers from both old age and unemployment insurance, the amendments would specifically exempt workers on irrigation ditches and those engaged in re-

habilitation of farms after disasters. The latter provision will be applicable principally in New England, where farm property was damaged by a hur-

cane.
4. Fishermen on vessels of more than 10 tons and on all vessels engaged salmon and halibut fishing would be brought under all provisions of

5. The Federal Government's authority to make grants to States for maternal and child-health services would be increased from \$3,800,000 annually to \$5,820,000.

annually to \$5,820,000.
6. An increase of \$1,020,000 in Federal grants to States for crippled children also would be authorized, raising the total of \$3,870,000 annually.
7. Provision also would be made for a \$2,062,000 increase in the authorization for Federal grants to States for vocational rehabilitation work,

as The conferees agreed to increase the authorization for Federal grants to States for public health work from \$3,000.000 to a total of \$11,000.000.

With changes in the Social Security Act, as approved by Congress on Aug. 4, old age insurance costs will increase from \$46,000,000 to \$1,140,000,000 in 1940, and there will also be a \$60,000,000 increase in public assistance and other benefits, Arthur J. Altmeyer, Chairman of the Social Security Board, announced on Aug. 7. Mr. Altmeyer said that during the next 15 years costs under the law are expected to increase steadily from \$8,500,000,000 to \$15,500,000,000, which will be offset by decreases as expenditures "level off" following the 15-year period. In an abstract of Mr. Altmeyer's statement, a Washington dispatch of Aug. 7 to the New York "Times" said: With changes in the Social Security Act, as approved by

The effect of the changes made in the law will be the subject of statements now in preparation by board officials to meet as completely as possible the demand for information on the many points involved, he added. Some of the statements will be in the form of explanatory questions and

answers.

Mr. Altmeyer characterized the Act in its present form as "the most important piece of legislation" enacted by Congress in his tin e.

The principal change, from annulties to old age and survivors' insurance, would make the new law more difficult to administer, Mr. Altmeyer said, and more field officers than the 332 now on duty would be required to handle the claims which will have to be examined beginning Jan. 1, 1940.

So far as record-keeping is concerned, the situation is unchanged, and the present set-up for the handling of the 45,000,000 accounts now on file will be continued. The records are kept in Baltimore. Unemployment-benefit accounts, numbering between 26,000,000 and 27,000,000, are kept in the States

in the States

Mr. Altmeyer estimated that about 90% of the points raised and urged by Senator La Follette were taken care of in the Act as amended.

Merchants' Association of New York Urges Re-study of Wage Reports Under Social Security Act—Suggests Reports be Made on Annual Instead of Quarterly

The Merchants' Association of New York has written to Secretary of the Treasury, Henry Morgenthau, Jr., suggesting a re-study of the subject of wage reports under the Social Security Act with a view to determining if it would not be possible to change these reports by employers from a quarterly to an annual basis. The Association explained its action as follows:

In view of the burden which is thrown on employers by the increasing number of reports which they have been compelled to furnish in recent years, The Association informed the Secretary of the Treasury that it believed the change would be of much benefit to business generally. The Treasury Department recently made an announcement that although employers report the wages of their employees every three months, the prestive of the varie it was its dead for reasons of economy, until all

posting of the wage items is delayed for reasons of economy until all the reports for the year have been received.

Bill Designed to "Cushion" Philippine Independence in 1946 Signed by President Roosevelt—Provides Preferential Quotas—F. B. Sayre, New Commis-sioner, Says Philippine People Must Decide on

President Roosevelt on Aug. 7 signed a bill designed to ease the economic path to Philippine self-government when the Islands attain independence in 1946. The measure was the Islands attain independence in 1946. The measure was passed by the House under rules suspension on July 31. It provides for the gradual decrease in quotas of certain Philippine products exported to the United States after 1946. Meanwhile Assistant Secretary of State Francis B. Sayre, newly appointed High Commissioner to the Philippines, said on Aug. 1 that the question of independence was still a matter for the people of the Philippines to decide.

A Washington dispatch of Aug. 1 to the New York "Herald Tribune" reported Mr. Sayre's remarks as follows:

In his first press conference following the confirmation of his nomination.

In his first press conference following the confirmation of his nomination by the Senate, Mr. Sayre said that, although the conditions in the Orient had changed considerably since 1934, when the Tydings-McDuff Act promising the Islands independence in 1946 was passed by Congress, the

promising the Islands independence in 1946 was passed by Congress, the American promise still held good.

Mr. Sayre explained that the matter was no longer in American hands, and that it would not again be discussed by the United States unless the Philippine people asked that it be reconsidered.

In a statement to the press, Mr. Sayre praised the work of Paul V. McNutt, his predecessor as High Commissioner, who resigned recently to become Federal Security Administrator. He said that Mr. McNutt had done a real service to the peoples of both countries.

Discussing the economic problems facing the Philippines during the next few years, Mr. Sayre said that it would be necessary to modify the Tydings-McDuff Act, or five large Philippine industries would find them-

next few years, Mr. Sayre said that it would be necessary to modify the Tydings-McDuff Act, or five large Philippine industries would find themselves faced with disastrous economic conditions. The Act calls for the imposition of progressive export taxes to prepare the way for independence in 1946 by cutting off trade with the United States gradually, and not suddenly.

We also quote from a United Press Washington dispatch of Aug. 7 regarding the Philippine bill signed by President Roosevelt:

Although the measure is hailed by Filipinos and Americans as opening the way to complete independence on July 4, 1946, it carries a provision authorizing a Congressional study of post-independence relations, to be made not later than 1944

authorizing a Congressional study of post-independence relations, to be made not later than 1944.

The study is expected to afford an occasion for a "realistic re-examination" of independence before the archipelago is finally cut loose from the United States, which acquired it for \$20,000,000 in 1899 after the War with Spain.

Developments in the Far East during the next four years, especially in view of Japan's declaration of a "new order in Asia," may influence the future status of the Islands, it is believed.

The economic measure, which was pushed through an unwilling Congress, will grant tariff relief to several important Philippines industries in their adjustment to independence status.

Present when Mr. Roosevelt signed it were Francis B. Sayre, American High Commissioner; Vice-President Sergio Osmena of the Philippines, and Joaquin M. Elizalde, Resident Commissioner.

Mr. Osmena said that he was "happy to witness the signing of the bill, which means so much to the welfare of the Filipino people and to the success of their efforts to prepare for complete independence." Mr. Elizalde said the bill was a tribute to the Administration's determination to the Philippines in "their natural aspirations toward economic and political freedom."

The measure was a compromise of the original Administration program, which provided for a creative of the content of the provided for a creative of the original Administration program, which provided for a creative of the original Administration program, which provided for a creative of the original Administration program, which provided for a creative of the original Administration program, which provided for a creative of the original Administration program, which provided for a creative of the original Administration program.

The measure was a compromise of the original Administration program, which provided for extension of trade preferences to the Philippines on a gradually declining scale until 1961.

The preferences-until-1961 program was scrapped when it met unexpected

Senate opposition.

Senate opposition.

The new bill provides for the extension of trade preferences only until the islands are granted full independence in 1946. The 1934 Philippine Independence Act provides for a graduated export tax increasing by 5% annually on all Philippine exports to the United States.

The new program stipulates that a gradually decreasing duty-free quota shall be substituted for the export tax as it applies to cocoanut oil, pearl buttons and cigars. Economic relief also is granted to Philippine embroideries made with American textiles.

Philippine officials and Advinitestion expects and the textiles.

Philippine officials and Administration experts said that application of the export taxes to the commodities in question would constitute "economic murder." Some officials even had predicted "civil strife and economic chaos" if the bill were not enacted.

Mr. Sayre will sail for the Islands next month. He will be aided by Golden W. Bell, who resigned as Assistant Solicitor General to take the post.

Bill Amending Wage and Hour Law Failed of Con-gressional Action—President Roosevelt Signs Minor Measure Exempting From Provisions Operators of Telephone Exchange Serving Less than 500 Sub-

It is noted that despite months of Congressional agitation over proposed revisions in the wage-hour law, Congress sent President Roosevelt only one minor bill affecting the act. Reporting this from Hyde Park, N. Y. on Aug. 9 United Press advices said:

He signed the act which exempts from provisions of the law operators of telephone exchanges serving less than 500 subscribers. Other proposed amendments, which would have exempted white collar workers earning more than \$200 monthly and hundreds of thousands of workers in semi-agricultural processing industries, died in Congress.

Beyond what was indicated in our issue of July 29 (page 664) viz., the approval on July 27 by the House Rules Committee for consideration on the floor of the Administration's amendments to the Wage-Hour Act, no Congressional action was taken on the proposed changes.

President Roosevelt Vetoes Bill for Two-Cent First Class Postal Rate in Queens County, N. Y.

Class Postal Rate in Queens County, N. Y.

President Roosevelt on Aug. 10 vetoed a bill which would have provided a two-cent letter rate throughout Queens County, N. Y. The President in his message pointed out that he had vetoed a similar bill in June, 1938 and then expressed objections similar to those he now voices. He said that under existing law the local rate applies only to matter addressed for delivery within the postal district of the mailing office and this county is now served by four separate and independent postoffices. To apply the local rate under the proposed bill, the President went on, would be difficult "for it would be an almost hopeless task to educate the public with respect to the territory entitled to the local the public with respect to the territory entitled to the local

President Roosevelt, Signing Bill for Administrative Officer of Courts, Says Court Reorganization Aims Have Been Accomplished—"Liberal Ideas," He States, Now Prevail in Supreme Court—Senator Burke Disputes Statement

Shortly before leaving Washington for Hyde Park, N. Y on Aug. 7, following the adjournment of Congress on Aug. 5, President Roosevelt issued a statement in which he said that the objectives of his 1937 contest with the Senate over that the objectives of his 1937 contest with the Senate over his Supreme Court reorganization bill had been won despite the defeat of his program at that time. The President indicated that although his proposals for enlargement of the Supreme Court were rejected, the "liberal ideas" of the Administration prevail today. He said that the date of his statement deserved formal recognition because it was "the final objective of the comprehensive proposal for judicial reorganization" which he made to Congress on Feb. 5, 1937. The President's comments followed his signing of the Ashurst bill, which establishes a new agency to administer the Federal courts, creating within 90 days an administrative director of the courts, who will be appointed by the Supreme Court Justices and will be paid \$10,000 annually, and will have an assistant at a salary of \$7,500. The President's remarks were disputed on Aug. 8 by Senator Burke of Nebraska. one of the leaders in the oppoator Burke of Nebraska, one of the leaders in the opposition to the court reorganization bill, and further below we refer further to Senator Burke's contentions. President Roosevelt's statement of Aug. 7 follows:

President Roosevelt's statement of Aug. 7 follows:

It is worth recording that today, Aug. 7, 1939, deserves special recognition because it marks the final objective of the comprehensive proposal for judicial reorganization which I made to the Congress on Feb. 5, 1937. The country is naturally concerned with the attainment of proper objectives rather than any one of many possible methods proposed for the accomplishment of the end.

1. Two and a half years ago I proposed the extension to the Justices of the Supreme Court of retirement privileges then available to other Federal Judges. Such an Act was passed March 1, 1937.

2. I called attention to the unwarranted attitude of the Supreme Court with reference to its exercise of constitutional powers. Measures of social

the Supreme Court of retirement privileges then available to other Federal Judges. Such an Act was passed March 1, 1937.

2. I called attention to the unwarranted attitude of the Supreme Court with reference to its exercise of constitutional powers. Measures of social and economic reform were being impeded or defeated by narrow interpretations of the Constitution, and by the assumption on the part of the Supreme Court of legislative powers which properly belonged to the Congress. It is true that the precise method which I recommended was not adopted, but the objective, as every person in the United States knows today, was achieved. The results are not even open to dispute. Attacks recently made on the Supreme Court itself by ultra-conservative members of the Bar indicate how fully our liberal ideas have already prevailed.

3. I called attention to the congested dockets of the Federal Courts, delay in disposing of cases, the need of new blood in the judiciary branch of the Government, and the need of additional judges. Since then 25 additional judges have been provided for by the Congress, and a bill authorizing five more awaits my signature. The congested dockets and the delay have been already almost eliminated.

4. I called attention to the need for greater flexibility in the judicial system so that judges could be more readily assigned to areas where the courts were excessively in arrears. Under the Act of Aug. 24, 1937, a welcome improvement was made in this feature of our judicial system.

5. I called attention to the intolerable situation when constitutional questions involving Federal statutes were passed on in private litigation, and recommended that no decision, injunction or decree on constitutional grounds should be permitted without previous notice to the Attorney General and an opportunity for the United States to be heard. By the Act of Aug. 24, 1937, the Attorney General was given the right to intervene in litigation between private parties involving constitutionality of Federal statutes, such ca

In taking exception to the President's remarks, Senator Burke said, in part:

Burke said, in part:

The President would now have the country believe that in true copybook style he has used his crushing defeat on court reorganization as a 'stepping-stone' to victory." All his objectives have been won, he says.

That ill-fated proposal had a single purpose, with certain minor suggestions scarcely controversial. The plan was to enlarge the court in order to enable the appointing power to fill the new places with judges who would interpret the Constitution in accordance with the will of the executive and legislative branches. It was a proposal to "apply force to the judiciary."

It was repudiated by Congress and by the country.

Undoubtedly the new appointees have made a court different from any the country has known. Whether for better or for worse depends on the individual viewpoint. The important consideration is that the court itself, as an institution, remains intact.

The new members came on in the normal way to fill vacancies arising from death or retirement. It is a change in personnel that would have occurred if no enlargement proposal had ever been conceived. Whatever else may be said about the new justices they are not puppets filling places created for them contrary to the spirit of the Constitution.

There is to be an administrative officer of the courts. He has no kinship to the "procetor" that was proposed. He is a fiscal officer appointed by

There is to be an administrative officer of the courts. He has no kinship to the "proctor" that was proposed. He is a fiscal officer appointed by the judiciary, removable by it, responsible solely to it, performing important duties for it that heretofore have been exxercised by the executive department. This was a necessary step in making the judiciary truly independent.

independent.

Long before the 5th of February, 1937, Congress had begun consideration of the proper extension of the then existing judges' retirement provisions. The "genesis" of this movement was clearly in the legislative department, and not in the bill which the Executive thrust upon Congress.

Incident to the President's statement, a Washington dispatch, Aug. 7, to the New York "Journal of Commerce" said, in part:

said, in part:

The bill signed today by the President creates an administrative office of the United States Court, headed by a director at \$10,000 and assistant director at \$7,500 per annum, to be appointed by the Chief Justice. The director has charge, under supervision of the Conference of Senior Circuit Judges of administrative matters relating to the office of clerks; examining dockets and the quarterly transmission of reports thereon to the senior circuit judges; and disbursement of moneys for maintenance of the courts.

A reference to the bill appeared in our issue of May 27,

\$185,000,000 Third Deficiency Bill Approved By Congress—President Signs Measure Carrying \$119,-599-918 for Use of CCC in Maintaining Farm Prices

The third deficiency bill, carrying appropriations of \$185,000,000, including an appropriation of \$119,599,918 for the use of the Commodity Credit Corporation in supporting farm prices, was passed with amendments on Aug. 4 by the Senate, and on the following day (Aug. 5), just before adjournment, both the House and Senate conferees agreed to the changes incented in the massive by the Senate, in to the changes inserted in the measure by the Senate; in

conference, a total appropriation of \$185,000,000 (instead of \$189,000,000 previously) was agreed upon. As was indicated in our Aug. 5 issue, page 812, the House Appropriations Committee had dropped from the bill the item of \$119,599,918 to restore the impaired capital of the CCC, and the House on Aug. 2 approved the committee action and passed the bill shorn of that item, and as sent to the Senate by the House the bill called for a total appropriation of but \$54,248,000, as compared with the total of \$215,891,168 requested by the Budget Bureau. The elimination of the CCC item by the House, as heretofore noted, had been criticized by Secretary Wallace. It was announced on Aug. 10 that the President had signed the bill. Regarding Senate action on Aug. 4, Associated Press accounts from Washington, Aug. 4, said, in part:

After increasing this measure from \$54,000,000 to \$189,000,000, and then passing it, the chamber plunged into a long, spirited debate about the LaFollette Civil Liberties Committee and ended by giving the committee half of the \$100,000 it asked to investigate labor conditions on the Pacific Coast. The vote was 36 to 17.

Thereupon the chamber followed the example the House had set some hours earlier and recessed until tomorrow, when the seven months' session, which had been marked by revolts against Roosevelt policies, is expected to end.

The maneuvering over the deficiency bill was long and involved. a total appropriation of \$185,000,000 (instead

The maneuvering over the deficiency bill was long and involved.

Chief among the additions made by the Senate was an Administrationrequested appropriation of \$119,000,000 to make loans on surplus crops
and thereby keep them off the market. This item, turned down by the
House earlier in what was called a major victory for the economy coalition,
went through the other chamber on a sweeping 61 to 7 vote.

The deficiency bill is to go to a Senate-House conference tomorrow for
reconciliation of differences. The controversy is the only major one in
sight before adjournment.

After the farm loan vote the Senate continued its session into the night,
amid an excited swirl of parliamentary maneuvering. Various Senators

sight before adjournment.

After the farm loan vote the Senate continued its session into the night, amid an excited swirl of parliamentary maneuvering. Various Senators tried in vain to tack on to the deficiency bill amendments which would:

(1) Restore the "prevailing wage" for WPA workers.

(2) Soften the effects of a new rule of law which says that persons on the WPA rolls 18 months must give way to other relief applicants.

(3) Provide for Federal refinancing of farm mortgages.

On a voice vote the Senate approved an amendment by Senator Claude Pepper, Dem., Fla., to increase an item for expenses of the Wage-Hour Administration to \$2,000,000. The House voted \$1,000,000 and a Senate committee approved \$2,000,000, but by a clerical error the sum went into the printed bill as \$1,500,000. The Wage-Hour Division had requested the full \$2,000,000 to permit the hiring of additional investigators to check upon an accumulation of complaints of violations of the law.

Then an attempt by Senator Pepper to revive the Federal Theatre projects, killed by the 1939 Relief Act, was defeated.

At tonight's Senate session Senator Pat McCarran, Dem., Nev., proposed the prevailing wage amendment', and Senator James I. Murray, Dem., Mont., the amendment to change the Work Projects Administration rotation system. Senator Robert M. LaFollette, Prog., Wis., offered the farm mortgage refinancing plan.

tion system. Senator Robert M. LaFollette, Prog., Wis., offered the farm mortgage refinancing plan.

Since Senate rules prohibit attaching general legislation to appropriation bills, a suspension of the rules was necessary before the amendment could be offered. This required a two-third vote. A majority of the Senate—but not two-thirds—voted for the suspension in each case.

Some time ago all three proposals were approved by the Senate as amendments to the Administration lending bill (later killed by the House economy coalition). The earlier vote on the farm proposal was 74 in favor to 7 against. Today 38 Senators voted to suspend the rules for it and 32 voted against it.

After the Senate's action on the deficiency measure, it remained for a committee composed of both Senators and House members to strike a compromise on the farm loans and other increases approved by the Senate. Then, both branches had to approve or reject the compromise thus

both branches had to approve or reject the compromise thus

In reporting the passage of the bill by the Senate on ug. 4, Washington advices that date to the New York "Journal of Commerce" said, in part:

"Journal of Commerce" said, in part:

Republican members of the House made known the fact that they would not make any serious fight against the [CCC] fund because of the political implications involved. They said that since farm prices are now at a low level it would be bad politically to attempt to defeat the fund because it would probably mean a further decline in prices with the blame being placed upon them.

During the brief debate which preceded the Senate's approval of the CCC item, it appeared for a time that Administration forces might run into difficulty. Senator Vandenberg (Rep., Mich.) said he could not understand how the farm program would bog down by failure of Congress to provide the Corporation with the added funds since Congress already has approved \$1,500,000,000 for farm aid.

Senator LaFollette (Prog., Wis.) declared, however, that the farmers

\$1,500,000,000 for farm aid.

Senator LaFollette (Prog., Wis.) declared, however, that the farmers have joined in the acreage adjustment program on the assumption that loans would be made on their products in event of a decline in prices. The Secretary's position is, he added, that unless Congress restores the capital of the Corporation, it would by its negative vote be giving disapproval of the loan program and it would have to be terminated.

Earlier today, Secretary Wallace, in a letter to Senator Bankhead (Dem., Ala.) labeled as not true statements that the CCC had funds which would enable it to continue the commodity loan it is now making and also to take care of new loans in 1939.

This letter of Secretary Wallace is referred to elsewhere in these columns today.

First Session of 76th Congress Adjourns—Harmony Marks Closing Hours—Record of Major Accomplish-ments—Most Roosevelt Bills of Importance Defeated

The first session of the 76th Congress adjourned sine die Aug. 5, after seven months and two days of existence, the session having been brought under way on Jan. 3. The House adjourned at 6:32 p.m. and the Senate three minutes later, after Congress at the last minute had sent to the White House legislation designed to liberalize the tax burden

of the Social Security system. This measure is referred to elsewhere in the current issue of the "Chronicle." The Senate also approved the Third Deficiency Bill by a voice vote. Adjournment of the House was marked by speeches in which members indulged in mutual compliments, but the final moments of the Senate session were marked by a speech in which Senator Pepper of Florida, New Deal supporter, critized the "anti-Administration alliance" which had halted the Roosevelt program. Senator Bailey of North Carolina countered, taking exception to the remarks of Senator Pepper.

Senator Pepper.
Associated Press Washington advices Aug. 5 described the

closing of the session as follows:

The session ended in a burst of speech-making. The House was deserted by most of its members. Crowded Senate galleries enjoyed a torrid debate between Senator Claude Pepper, Florida Democrat, and anti-New Deal Democrate. Deal Democrats. Senators and representatives wandered in and out, mingling in the cloakrooms and exchanging goodbys, congratulations and

mingling in the cloakrooms and exchanging goodbys, congratulations and commiserations on various bills.

President Roosevelt sent to both the houses, which dealt such severe blow to his program in the last week, a little note wishing the Congressmen "a pleasant vacation."

Senator Alben W. Barkley, majority leader, presented the most popular measure of the whole \$13,000,000,000 session when he drew the sine die adjournment resolution from the inside pocket of his gray-blue coat.

Mr. Barkley started a little speech.

adjournment resolution from the inside pocket of his gray-nuc coat.

Mr. Barkley started a little speech.

"It has been a hard session," he began, and was much surprised when both Senators and galleryites guffawed.

He went on to say it had been a "hard working session," which had actually accomplished much more than the events of the last few weeks would indicate. When he had finished he moved adjournment. It carried on a shouted voice vote.

The vote on Social Security changes was 58 to 4, with Senators Tom Connally, of Texas; Allen J. Ellender, of Louisiana; Claude Pepper, of Florida, and Richard B. Russell, of Georgia, all Democrats, voting against

The measure, also a compromise of original House and Senate bills, went through the Senate in the closing hours after heated but brief discussion. It has been graveled through the House yesterday by Speaker William B. Bankhead.

William B. Bankhead.
The fact that the Deficiency Bill was trimmed only \$4,000,000 from the Senate figure by the conferees brought some discontent in the House.
Representative John Taber, New York Republican, said he and Representative J. William Ditter, Pennsylvania Democrat, refused to sign the conference report.

presentative J. William Ditter, Pennsylvania Democrat, refused to sign the conference report.

The conference slashed to \$1,200,000 a proposd \$2,000,000 appropriation for administrative expenses of the Wage-Hour Administration. They also agreed to make \$4,000,000 available for civilian pilot training, contrasted with the \$3,000,000 voted by the House and the \$5,675,000 figure approved by the Senate.

The brief note from President Roosevelt read to the Senate was addressed to Vice-President Garner and said:

My Dear Mr. Vice-President:

"At this time of the adjournment of the first session of the 76 Congress, will you express to the members of the Senate my good wishes for a pleasant vacation."

Associated Press Washington advices of Aug. 5 listed the main measures considered at the last session as follows:

Bills Enacted

-Authorized expenditure of more than \$13,000,000,000,

Appropriations—Authorized expenditure of more than \$13,000,000,000, a record peacetime total.

Relief—Appropriated \$1,775,000,000 for the current fiscal year; approved curtailment of WPA activities.

Defense—Voted to spend nearly \$2,000,000,000 to expand the army, navy and air forces in a record peacetime program.

Government Reorganization—Empowered President Roosevelt to regroup Federal agencies in the interest of efficiency and economy.

Monetary—Continued the President's dolar devaluation powers, the \$2,000,000,000 stabilization fund and the life of the RFC.

Taxes—Wiped out last vestige of undistributed profits tax on corporations and substituted flat 18% levy; permitted Federal and State governments to tax the income of employees of the other.

Politics—Passed Hatch bill to limit political activity by Federal office-holders.

holders. Social Security--Lightened the tax schedule and liberalized the benefits of the social security program.

Bills Defeated

Pensions—House defeated Townsend plan for old-age pensions. Lending—House refused to consider President's lending and housing program. Bills Deferred Until 1940

Neutrality—Senate Foreign Relations Committee refused to take up Administration bill to repeal arms embargo against warring nations.

Labor—Took no action on proposed amendments to Wagner Act or

Wages-Hours Law.

Tax Revision—House Ways and Means Committee to make recess study of general tax revision program.

Tansportation—House and Senate passed bills to help railroads, but no

Compromise was reached.

Health—Senate committee endorsed broad outlines of nationl health program, but withheld specific recommendations until next year.

The record of Administration measures during the session was summarized as follows in a Washington dispatch Aug. 5 to the New York "Times":

To the New York "Times":

President Roosevelt fared worse in his legislative program with this session of Congress than with any other in his Administrations. Of eight major items on the agenda he lost four altogether and won enactment of four, but two of the latter were enacted with qualifications changing them considerably from the form in which he desired them.

The scheduled legislation which failed included the following:

1. A Neutrality Act which would have removed the mandatory arms embargo.

embargo.

2. Legislation for a \$3,000,000,000 lending program.

3. Addition of \$800,000,000 to funds for the United States Housing Administration.

4. A requested \$50,000,000 for deficiencies in relief operations.

The major Acts won by the Administration were:

1. A reorganization law permitting reshuffling of government agencies, although amendments restricted this work considerably.

2. Authorization of all requests in a \$2,000,000,000 defense program.
3. Continuance unchanged of the President's monetary authority and the \$2,000,000,000 stabilization fund.
4. The full requested appropriation of \$1,755,600,000 for the new relief program, but qualified with many restrictions on operations.

Program, but qualified with many restrictions on operations.

While the Congress denied to President Roosevelt some legislation involving great expenditures, the fact remained that this session saw the appropriation of more money than at any other session in a peacetime, a total \$300,000,000 above budget estimates.

The appropriations generally reflected the Administration's will, and Mr. Roosevelt won a personal victory by enactment of a unique law authorizing establishment of a library for his archives at Hyde Park, to be donated privately but maintained perpetually by the government.

Acting on its own initiative, the Congress took an important step in passing the Hatch bill to regulate political activities by Federal employees. The House authorized a \$50,000 investigation of the National Labor Relations Board.

The House auth Relations Board.

The texts of some of the laws enacted at the session just concluded have already been given in these columns, and below we indicate the date on which they were signed and the issue of the Chronicle in which the texts appeared:

In the current issue of our paper under a separate head, we are noting the conclusion of Congressional action on the Third Deficiency Bill and the amendments to the Social Security Act; we are also giving the President's Message veoting the bill postponing the effective date of the provision in the 1035 Banking Act, to prohibit interlegking bank 1935 Banking Act to prohibit interlocking bank rates. Various other Congressional measures are redirectorates. erred to in this issue.

se Committee Appointed to Investigate NLRB— Representative Smith, Sponsor of Resolution, Is

Speaker of the House William B. Bankhead announced on Aug. 5 the Appointment of the five-man committee which will investigate the National Labor Relations Board, in acwill investigate the National Labor Relations Board, in accordance with the resolution calling for the inquiry, passed by the House on July 20. The group which will undertake the investigation will be headed by Representative Howard W. Smith, Democrat, of Virginia, author of the resolution. Other members include Representatives Arthur D. Healy of Massachusetts and Abe Murdock of Utah, Democrats, and Charles A. Halleck of Indiana, and Harry N. Routzhon, Ohio, both Republicans. The matters on which the Committee is to report, as outlined in the resolution, were indicated in our issue of July 22, page 496. On Aug. 1 the House appropriated \$50,000 to conduct the investigation, as was noted in these columns Aug. 5, page 810. It is stated that the Committee will hold its initial meeting on September 7.

Senate Passes Resolution Calling for Study of National Monetary and Banking Policy—Senator Wagner Explains Purpose

A study of National monetary and banking policy is authorized in a resolution passed by the Senate on Aug. 4. The study would be conducted by the Senate Committee on Banking and Currency, which, in accordance with the resolution would "hold hearings to consider and recommend a national monetary and banking policy by which the monetary and banking authorities of the Federal Government shall be guided and governed, and to consider and recommend the character of governmental machinery best calculated to carry out such policy." The resolution also says:

The committee shall report to the Senate as soon as practicable the results of its study, together with its recommendations for the enactment of any legislation it may deem necessary

A reference to the resolution, which was favorably reported by the Senate Committee on June 14, appeared in our issue of June 17, page 0000. It was offered by Senator Wagner (Democrat) of New York, who, during debate on the resolution on Aug. 4 said in part (we quote from the "Congressional Record":

I may say to the Senator [Senator Borah who had asked as to what the resolution is "intended to cover in the way of an investigation"], that it is not to be an investigation at all. The word "investigation" is not used anywhere in the resolution, so far as I recall. It is proposed to be a study. A number of proposals have been made with reference to the management of our monetary policy and there has been a demand among Senators and outside organizations that some action should be taken upon these proposals.

They are different ones. They are in conflict. The American Farm Bureau Federation, for instance, and one other large labor organization, have also urged that this study be made so if there is anything to the contention that our monetary policy is not properly alding our recovery program, at least we ought to study the question. A number of resolutions have been introduced by Members of this body who have also urged, rather than having immediate action upon their legislation, that the committee at least study the question, and receive the opinions of those who have specialized in the subject. In addition to that, some legislation has been introduced attempting to cure conflicts of jurisdiction in different agencies over the banks of our country with reference to the examination of their loans and other matters. One of the bankers who talked to me on this subject, the head of the American Bankers' Association, expressed their willingness to cooperate in this particular study. So if there is any conflicting jurisdiction by different agencies, that matter ought to be looked into and remedied; and that is the purpose of this particular resolution.

The Committee is authorized to spend not to exceed They are different ones. They are in conflict. The American Farm Bureau

The Committee is authorized to spend not to exceed \$25,000 in furtherance of its study.

Appropriations Authorized by Congress for Various Investigations by House and Senate

An appropriation of \$50,000 to conduct an investigation by the La Follette (Senate) Civil Liberties Committee on the Pacific Coast, was voted by the Senate on Aug. 4.

Elsewhere in these columns today we are referring to the study of National Sections of National Sections 18

study of National monetary and banking policy which is to be undertaken by the Senate Committee on Banking and Currency and also to the House Committee named to in-vestigate the National Relations Board for which latter \$50,-

vestigate the National Relations Board for which latter \$50,-000 was appropriated by Congress.

On Aug. 1 the House appropriated \$15,000 for an investigation of Alaskan fisheries by its Merchant Marine Committee, and \$5,000 for the between session study of tax problems by the House Ways and Means Committee.

Regarding other investigations advices from Washington Aug. 5 to the New York "Herald Tribune" said:

Other House investigations include the continuance of the Dies Committee

Other House investigations include the continuance of the Dies Committee investigation to begin next month.

The investigation of the WPA by the sub-committee of the Appropriations Committee which already is credited with many of the revisions written into the Relief Act of 1940.

Also, there is to be House investigation of the petroleum industry by a sub-committee of the House Interstate Commerce Committee.

Finally, tax sub-committee of the Ways and Means Committee will make a study of the entire tax structure with a view to its overhaul in the next session.

Senate investigations include an inquiry into immigration laws, \$10,000, and Indians law, \$10,000.

Joint committee investigations have been continued by additional appropriations for the Temporary National Economic Committee and the study of phosphate deposits and their exploitation.

A resolution authorizing an investigation of the oil industry, approved by the House on Aug. 3, was referred to in our issue of Aug. 5, page 870.

House Passes Resolution Authorizing \$8,000,000 for National Census of Housing

National Census of Housing

The House on Aug. 4 passed a resolution to provide for the taking of a National census of housing at a cost of \$8,000,000. Representative Nelson during debate on the resolution, stated that it "authorized an impartial, scientific gathering of facts. It does not commit the Congress or the Administration to any course of action. But it will provide essential knowledge upon which future action in the 77th and subsequent Congresses can be taken." He also said that the resolution was approved by the Department of Commerce, the Department of Agriculture and the Federal Home Bank Board, and he added that "the proposal for a housing census has been urged by National Association of Real Estate Boards, the American Federation of Labor, the United States Conference of Mayors, and many business United States Conference of Mayors, and many groups." business

In reporting that the votes on the resolution were distributed sharply along party lines, a Washington dispatch Aug. 4 to the Baltimore "Sun" said in part:

Aug. 4 to the Baltimore "Sun" said in part:

Democratic sponsors of the legislation maintained the checkup to be made next year in connection with the 16th decennial census of population, was desired and needed by Government and business alike.

The Republican minority pronounced it a "snooping expedition" designed for the assembling of "propaganda and agitation for further Government housing projects." It recalled what the House did to the Administration's housing program yesterday.

Causing greatest perturbancy to the Republican members was a clause in the measure which provided that the proposed census include not only houses but their "characteristics, including utilities and equipment." ... "If the decennial census of population lists a man by name and street address, argued Representative Tabor (Rep., N. Y.), "it might be assumed that he lives in a house. Why spend \$8,000,000 to send agents into that house to see what is in it?

The real aim, Democrats insisted, was to insure the most economical and

house to see what is in it?

The real aim, Democrats insisted, was to insure the most economical and intelligent development of residential construction.

By doing this, they said, there also would be developed great potentialities for the investment of idle capital, along with a stimulation of durable oods industries and relief of unemployment.

Congressional Action Completed on Resolution Giving Government Power to Effect Exchange of American Cotton for British Rubber

On Aug. 3 both the Senate and House adopted the conference report on legislation designed to facilitate the arrangements for the exchange of surplus stocks of American cotton for British rubber. The Senate had passed the measure on July 6 and the House approved it July 27 in slightly amended form. The resolution permits the Government, through the Commodity Credit Corporation, to take title to 600,000 bales of cotton it holds under loans to producers, and trade them for about 85,000 tons of British rubber under the terms of the barter agreement signed in London June 23, noted in these columns July 1, page 42. House passage of the law was reported in our issue of July 29, page 663.

Regarding the approval by Congress of the conference report, the New York "Journal of Commerce," in Washington advices Aug. 3, said:

As passed today the measure was substantially the same as when previously approved by the House last week. It would permit the removal of cotton from interior warehouses to maritime ports only in such quantities as would be necessary to fulfill the contract for delivery under the exchange agreement with Great Britain.

Congress Passes Bill for Sale of Surplus Agricultural Commodities—Covers Cotton Sale to France and Switzerland

Congressional action on a resolution authorizing the Commodity Credit Corporation to sell cotton and other agricultural commodities, acquired by its loan programs, to foreign nations at less than world market prices was completed on Aug. 5 when the House concurred in Senate amendments; on the same day in the Senate unanimous consent for the consideration of the House joint resolution was asked by Senater Parses, who said: ator Byrnes, who said:

The Senate bill was reported unanimously, but it would be useless to offer the Senate bill because of the near approach of adjournment. This joint resolution unanimously passed the House and is on the Senate calendar. It is a House measure. It provides for the sale by the Commodity Credit Corporation, for cash, of 175,000 bales of cotton.

The House joint resolution was accordingly passed by the

Senate on Aug. 5.

The following regarding House acceptance of a Senate amendment is from Washington Associated Press advices of

It accepted a Senate amendment limiting the amount of cotton to be disposed of to 500,000 bales and requiring that payment be made by the foreign governments within 60 days after delivery.

Senator Byrnes, South Carolina Democrat, said that the legislation would clear the way for disposal of 175,000 bales of surplus cotton to France and Switzerland for about \$6 a bale less than the world price.

The measure provides that buyers agree to keep the commodities in storage for a period of not less than five years, except in the case of a war emergency. Concessions below world prices for such CCC sales would be not more than the equivalent of 18 months carrying charges.

In our issue of Aug. 5, page 814, the proposed sale of cotton to France and Switzerland was reported.

to Receive New Proposals from Agencies for Performing Services in Cotton Exchange Agreement

The Commodity Credit Corporation announced on Aug. 5 The Commodity Credit Corporation announced on Aug. 5 that in view of necessary changes it would receive new proposals from qualified agencies to perform services in connection with the delivery of cotton under the exchange agreement with the British Government, and that a new form of agency agreement setting out the necessary services to be performed, will be furnished by the Washington office of the Commodity Credit Corporation upon request. In its announcement the CCC added:

The proposals recently received by the Corporation could not be considered because of certain necessary changes in the method of handling the cotton and such original proposals will be returned upon request. All new proposals must be received by the Corporation in Washington by noon, Aug. 14, 1939, and the Corporation reserves the right to reject any part or all of any proposals.

The signing of the agreement between the United States and Great Britain, for the exchange of cotton and rubber, was referred to in these columns July 1, page 42, and July 29, page 663.

ICC Overrules Idaho Board

The Interstate Commerce Commission has set aside an order of the Public Utilities Commission of Idaho and authorized seven railroads to increase intrastate freight rates. The Commission found that as a result of the Idaho authority's refusal to permit increased rates in line with the general increase authorized last year Idaho rates discriminated against interstate commerce.

The Commission was divided on the decision six to three

against interstate commerce.

The Commission was divided on the decision, six to three. Commissioners Caskie and Aitchison said they felt that the increases would turn traffic to other modes of transportation, while Commissioner Allredge supported present rates on railroad ties, brick, lime, coal, hay, apples, potatoes, onions and dried beans and peas.

Excepted from the ruling were rates on sugar beets, beetsugar, final molasses, limerock and several commodities on which the railroads desired present rates in order to compete with truck lines. It limited to 5% the freight increase on logs.

United States Appeals Court Reverses "Little Steel" Wage Ruling

The United States Circuit Court of Appeals upset on Aug. 4 a Labor Department determination under the Walsh-Healy Act which found 62½ cents an hour to be the prevailing wage of the steel industry in the Eastern district extending from the Atlantic seaboard to western Pennsylvania,

Ohio and Kentucky.

The Walsh-Healy Act requires firms which receive Government contracts to pay the prevailing wage in their localities and empowers the Secretary of Labor to determine the prevailing wage in each locality.

A number of "Little Steel" companies filed suit in District

Court here for a permanent injunction against the finding, but their complaint was dismissed. Then they obtained a temporary injunction from the Court of Appeals pending

temporary injunction from the Court of Appeals pending further proceedings.

The Court of Appeals, in a two-to-one decision, found on Aug. 4 that the lower court erred in the dismissal and remanded the case for further hearing there, meanwhile continuing its temporary restraining order. The memorandum decision did not state the grounds for the finding but said opinions would be filed later. See also V. 148, p. 2052.

United States-Soviet Trade Pact Extended Another Year-Russia Will Buy at Least \$40,000,000 of American Merchandise in Next 12 Months-Will Receive Tariff Reductions

The United States and the Soviet Union on Aug. 4 agreed to extend for another year the trade agreement which would have expired the following day, it was announced by the State Department. This marks the fifth which would have expired the following day, it was announced by the State Department. This marks the fifth consecutive year that a trade pact has been in effect between the two countries. The first became operative in 1935-36. The last previous extension was noted in the "Chronicle" of Aug. 13, 1938, page 966. The current agreement provides that Russia will purchase a minimum of \$40,000,000 in American goods during the next 12 months, while the United States will accord Russia the same tariff reductions as other countries with which it has trade agreereductions as other countries with which it has trade agreements.

ments.

Associated Press Washington advices of Aug. 4 added the following regarding the announcement of extension:

The State Department released the texts of notes between the People's Commissar for Foreign Trade of the Soviet Union, A. I. Mikoyan, and Stuart E. Grummon, American Charge d'Affaires at Moscow, which put the extension of the agreement into effect next Sunday.

With respect to Soviet coal shipments to the United States, Russia agreed to restrict its exports in the next 12 months to 400,000 tons. This was considered necessary because of the coal-tax provisions of the Revenue Act of 1932. During the 1937-'38 agreement year, imports of Soviet coal into the United States were 198,384 tons and in the first nine months of the 1938-'39 agreement year, 134,154 tons.

Although the pact sets \$40,000,000 as the minimum Soviet purchases here, officials forecast Soviet orders in excess of this sum. They base their predictions on performances of the last two years.

"The successive commercial agreements between the United States and the Union of Soviet Socialist Republics," said the State Department, "have provided a basis for the gratifying expansion of trade between the two countries which has taken place in response to a number of favorable factors."

two countries which has taken place in response to a number of favorable factors."

Soviet purchases here in the 1937-'38 treaty year were \$65,394,000. In the first 11 months of the 1938-'39 agreement year they were \$58,700,000. In 1933 Soviet purchases here had reached a low of \$10,674,000 from a high of \$136,162,000 in 1930.

"The Soviet Union has profited under the successive commercial agreements," the State Department also said. "The United States imports from the Soviet Union have increased steadily from the low of less than \$10,000,000 in 1932 to \$27,000,000 in the calendar year 1937."

Four-fifths of United States exports to Russia consist of machinery and vehicles used in Russia's industrialization and militarization program. America also sold in 1938 \$5,000,000 worth of non-metallic minerals and \$2,000,000 worth of high-grade gasoline for aircraft engines.

Furs form the largest item of Russian sales to the United States—\$13,000,000 in 1938. Other important imports from Russia are flax fabrics and non-metallic minerals such as anthracite and asbestos. Russia is the largest supplier of sausage casings to the United States, \$400,000 worth. Unusual items of import are crabmeat sauce and paste, \$522,000; caviar, \$181,000, and bristles for brushes, \$100,000.

United States Extends Credits on Cotton to Spain— Export-Import Bank to Finance 80% of Credit on Sale of 250,000 Bales

Sale of 250,000 Bales

The Export-Import Bank of Washington has agreed to participate with American shippers in financing the sale of 250,000 bales of raw cotton to Spanish mills, it was announced Aug. 7 by Warren Lee Pierson, President of the Government institution. Under the agreement the bank will provide 80% of the credit and individual shippers will furnish the balance. The credit will be made to apply to American shippers and will not be made available to Spanish importers. Though the price of the cotton, which is to be delivered at the rate of 25,000 bales a month, was not announced, it is estimated that the average price was \$55 a bale, the total amount involved being about \$13,750,000. Eight New York banks will advance the funds necessary to finance the shipments. The official announcement issued by Mr. Pierson follows: Pierson follows:

Arrangements have just been completed under which the Export-Import Bank agrees to participate with American cotton shippers in financing the sale of 250,000 bales of raw cotton to Spanish mills at the rate of 25,000 bales per month

The credits will be guaranteed by leading Spanish banks and assurances given by the Spanish Government that dollar exchange will be made available to meet all maturities.

Obligations incurred under the commitments are payable in eight quarterly installments commencing six months after the delivery of the cotton-The Export-Import Bank will provide 80% of the credit, the balance being carried by individual shippers.

Commercial banks in the United States will be authorized to handle the documents and to provide the necessary funds as agents of the Export-Import Bank.

Provision will be made for the transportation of the cotton in American

In reporting the arrangements Washington accounts Aug. 7 to the New York "Journal of Commerce" said: In

Aug. 7 to the New York "Journal of Commerce" said:

Officials here stated that the transaction was entirely a sales proposition and that no barter arrangements were made in the deal. State Department officials are understood to feel that the transaction will benefit American cotton producers because if Spanish cotton mills were changed to handle foreign types of the raw material the trade would be entirely lost to United States cotton farmers.

Under the transaction, it was learned, Spanish mills will receive the 1½ cents per pound export subsidy payment now being made by the Department of Agriculture.

ment of Agriculture.

Resources Board Formed to Advise on Economic Mobilization in Emergency—E. R. Stettinius Mobilization Named Head

The War and Navy Departments announced on Aug. 9 the creation of a War Resources Board to advise the Army and Navy Munitions Board on the economic mobilization of American resources in time of war. Edward R. Stettinius jr., Chairman of the Board of the United States Steel Corporation was named chairman. Announcement of the formation of the board was made by Louis Johnson, Acting Secretary of War, and Charles Edison, Acting Secretary of War, and Charles Edison, Acting Secretary of the Navy, with the approval of President Roosevelt.

Other members, who have agreed to serve with Mr.

Other members, who have agreed to serve with Mr. Stettinius, are:

Dr. Karl T. Compton, President of Massachusetts Institute of Tech-

Walter S. Gifford, President of the American Telegraph and Telephone Walter S. Ghioru, President of the Brookings Institution.
Harold G. Moulton, President of the Brookings Institution.
John Lee Pratt, a Director of General Motors Corp., and
Gen. Robert E. Wood, Chairman of the Board of Sears Roebuck & Co.

The statement of Mr. Johnson and Mr. Edison follows:

The two Assistant Secretaries, each of whom is the acting Secretary of his department, announced that the duties of the new committee would be those of advising with the Army and Navy Munitions Board on policies pertaining to the mobilization of the economic resources of the country in the event of a war emergency and in reviewing and perfecting the plans already under preparation by that agency.

It was explained that while the Army and Navy Munitions Board is an agency of long standing, it has recently been made responsible directly to the President instead of to the Secretaries of War and Navy as formerly. It was also pointed out, however, that in an emergency the War Resources Board would become an executive agency of the government with broad powers similar to those of the old War Industries Board. In this event the board would report directly to the President as a War Resources Adminis-

board would report directly to the President as a War Resources Adminis

It was announced that one of the first activities of the new committee would to be consult with the chairman of the old War Industries Board, Mr. Bernard Baruch, and other "elder statesmen" of the World War period to the end that the advice and counsel of those distinguished patriots would

to the end that the advice and counsel of those distinguished patriots would be utilized to the maximum.

The two Secretaries expressed themselves as deeply appreciative of the sacrifice of time and effort entailed on the part of the gentlemen who have accepted membership to the War Resources Board and indicated that they will be called upon to perform a service of the highest importance to the

national weirare.

The willingness with which this responsibility has been accepted pays high tribute to the quality of the men comprising the new board.

Net Value of All Goods and Services Produced Is Regarded as "National Income" by Department of Commerce—R. R. Nathan Discusses Methods of Computing Income Statistics

Computing Income Statistics

The Department of Commerce defines "national income," or what is sometimes called "income produced," as "the net value of all goods and services produced," Robert R. Nathan, Chief of the National Income Section of the Department, said in an address before the Special Libraries Association at Baltimore on May 26, and reprinted in the July-August edition of "Special Libraries." Reprints of the article may be obtained at the headquarters of the Association in New York City at 15 cents each. Mr. Nathan pointed out the many problems which may arise in estimating income, including that of price changes, "since the national income and other income measures are largely expressed in terms of current dollars." He expanded his definition of national income to encompass "the gross value of product less raw materials and capital equipment consumed in the process of production."

Mr. Nathan said in part:

Mr. Nathan said in part:

The Department of Commerce publishes annual estimates of "income paid out," which is defined as compensation paid to individuals or groups of individuals for services which they render in the form of labor, management, or the furnishing of capital and land. This compensation takes the form of wages, salaries, other labor income, dividends, interest, entrepreneurial income, and net rents and royalties. In some years business enterprises may pay out less than what they produce, thus retaining part of their net product in the form of undistributed earnings, or what we call "positive business savings." In other years, mostly years of depression, business enterprises pay out more than they produce and sustain deficits or what we term "negative business savings."

We have recently developed another measure which we term "income payments" and which attempts to approximate more closely than does income paid out the amount actually flowing to individuals. Income payments are given for each month back to January 1929, in a special article in the October 1938 issue of the "Survey of Current Business," and are published currently in the "Survey." Figures on income payments have very recently been released on an annual basis for each of the 48 States

published currently in the "Survey." Figures on income payments have very recently been released on an annual basis for each of the 48 States

and the District of Columbia for the years 1929 to 1937, inclusive.

and the District of Columbia for the years 1929 to 1937, inclusive. Direct relief, which is excluded from income paid out, is included in income payments. In income paid out, both employer and employee contributions under the Social Security programs are included, whereas both of these contributions are excluded in income payments and in their place benefits paid to individuals are substituted. Other less significant refinements have also been made in this series so that income payments more closely approximate the amounts currently flowing to individuals.

I might briefly review some of the more prominent publications in which the above type of data appear. Our own national income estimates of the Department of Commerce are now available for the 10 years, 1929 to 1938, inclusive, the latest figures appearing in the June 1939 issue of the "Survey of Current Business." Our larest bulletin, "Income in the United States, 1929-37," presents the nine-year figures in some detail. A similar bulletin giving the 10-year figures in the same detail will appear in the late summer. The most comprehensive publication of the Department dealing with concept, scope and sources and methods was the volume, "National Income in the United States 1929-35," copies of which are still available from the Government Printing Office and which is still in demand as a reference volume for technical purposes. For an excellent article on income concepts, I should like to refer you to Dr. Simon Kuznet's article on income in the Encyclopaedia of Social Sciences.

For statistics on the final product of the national income you will be interested in referrint to a whilestics of the Network Interest of the Network Inte

Encyclopaedia of Social Sciences.

For statistics on the final product of the national income you will be interested in referring to a publication of the National Bureau of Economic Research entitled, "Commodity Flow and Capital Formation," by Simon Kuznets, and perhaps more particularly in a paper prepared by Clark Warburton which will appear in Volume III of the Conference on Research in Income and Wealth, referred to above. In this paper Dr. Warburton compares his estimates with those of Dr. Kuznets and Dr. Lough and discusses the difference on the strength of the conference of cusses the differences.

cusses the differences.

I should like to conclude my discussion by commenting very briefly on some of the recent developments taking place in the field of income. Perhaps the most important development relates to the Conference on Research in Income and Wealth which was initiated about three years ago by the National Bureau of Economic Research and today has grown into an effective working and productive organization representing all of the outstanding research institutions and individuals in the country interested in the work in this field. Dr. Simon Kuznets of the National Bureau of Economic Research is Chairman of the Executive Committee of this Conference and to him we should attribute much of the success of the organization. Two volumes have already been published incorporating the papers presented at the fourth annual meeting held in April of this year at New York City will appear in another volume this fall. By the way, those of you interested in State breakdowns of income might wish to obtain a copy of the paper I presented at that meeting dealing with the theoretical aspects of allocating income by States and I shall be happy to send you a copy of this paper upon request.

Secretary of Agriculture Wallace Explains Status of CCC Funds—In Letters to Senators Emphasizes Importance of Corporation to Farm Program

While the item of \$119,599,918 in the Third Deficiency bill (to restore the capital of the Commodity Credit Corporation) was finally embodied in the measure as it passed Congress just before adjournment on Aug. 5, the Department of Agriculture on Aug. 3 made public a letter from Secretary of Agriculture Wallace to Senator La Follette in which he had the following to say regarding the Corporation's financial position poration's financial position.

poration's financial position.

The appropriation of \$119,000,000 requested to restore the capital of the Commodity Credit Corporation is vitally necessary to the success of the farm program. At present, only \$9,000,000 is available for new loans on agricultural commodities. This appropriation is neither for the purpose of embarking upon any new undertaking nor for financing any transactions other than those already authorized and directed by the Congress. Moreover, these funds would not be expended but would be used for making loans with farm commodities as collateral. In other words, the appropriation is merely to restore the capital of the Corporation in order that it may continue to carry out the program specifically assigned to it by existing legislation.

In part, the Secretary's letter to Senator La Follette was given in the item in our Aug. 5 issue, page 812.
Further action on this bill restoring the CCC fund is reported elsewhere in today's issue.
The Agriculture Department on Aug. 4 also made public a letter sent to Senator Bankhead by Secretary Wallace regarding the status of available funds of the CCC. This letter follows in part. letter follows, in part:

letter follows, in part:

Apparently there is some misunderstanding about the funds now available to the Commodity Credit Corporation. I am informed that statements have been made that the Corporation has funds which would enable it to continue the commodity loans it is now making and also to take care of new loans in 1939. These statements are not true.

The Commodity Credit Corporation has an available fund at present totaling \$131,000,000. The Corporation, however, already is making loans on the 1939 wheat crop and it is estimated that \$100,000,000 of the \$131,000,000 will be required to continue wheat loans. In addition, the cost of the corn resealing program is estimated at \$20,000,000 and in this connection it might be said the Corporation already has asked for bids for bins to use in storing corn. Legislation has been enacted to make possible the exchange of cotton for rubber with England and the expense of delivering this cotton to England is estimated at \$2,000,000. So for all practical purposes only \$9,000,000 is available for new loans. The following table sums up this situation:

\$9,000,000

atance available... \$9,000,000

It is clearly apparent that no money is now available for the corn loan program for 1939 or for any new loans which would require any substantial sums. Of course, it might be possible to take a part of the \$100,000,000 which has been tentatively committed for wheat and hold it in reserve for new loans. But this probably would mean discontinuance of the wheat loan in a very short time and would not provide sufficient funds to make the other loans which will be needed. As a practical proposition, we are faced with the alternative of impairing loan

programs already begun, or of dismissing any thought of loans on corn,

programs already begun, or of dismissing any thought of loans on corn, wool, and mohair, and a number of other commodities including cotton, dairy products, prunes, peanuts and raisins. Furthermore, I feel that \$119,000,000 is the minimum necessary to enable the Commodity Credit Corporation to meet its loan requirements for the remainder of 1939.

I am informed also that statements have been made that the Commodity Credit Corporation could continue lending even if Congress should refuse to appropriate the \$119,000,000. Some persons seem to think that because the Corporation is directed to make loans on commodities under certain circumstances it can continue these loans even if Congress refuses to restore the Corporation's capital. A moment's reflection, I believe, will show the fallacy of this thinking.

As of March 31, 1939, from a technical standpoint, the liabilities of the Commodity Credit Corporation exceeded its capital assets and collateral by \$119,000,000. It is true that the Corporation, if the banks would accept its paper, might continue to lend on commodities but Congress holds the purse strings of the Commodity Credit Corporation as it does the purse strings of all other Government agencies. Eventually money would have to be provided to protect these loans or to pay losses which might be incurred in connection with them. Therefore, if Congress refuses to appropriate money to replenish the Corporation's capital stock, it is a question whether many bankers would continue to have full confidence in the obligations of the Corporation.

Last year the Commodity Credit Corporation made an emergency arrangement with the Reconstruction Finance Corporation so that it could, in the case of need, make loans beyond its capital and authorized borrowing power. This arrangement, even though the funds were never used, was severely criticized by members of Congress. If the Congress refuses to provide additional funds for the Commodity Credit Corporation, it is doubtful whether the RFC or any other Government agency w

Sincerely yours,
H. A. WALLACE, Secretary

SEC Grants Over-the-Counter Organization Registration as a National Securities Association—Chairman Jerome N. Frank Commends Move—Finds Many Rules Designed to Protect Investors but Cites Need for Rules Concerning Solvency of Members

Need for Rules Concerning Solvency of Members
The Securities and Exchange Commission on Aug. 7
granted the application of the National Association of
Securities Dealers, Inc., for registration under the Maloney
amendment to the Securities Act as a National Securities
Association. At the same time the SEC made public a
letter from Jerome N. Frank, Commission Chairman, to
Wallace II. Fulton, Director of the Association, in which
Mr. Frank said that "this event marks the beginning of a
significant attempt by an important segment of a business significant attempt by an important segment of a business affected with a marked public interest in regulating its own affairs in cooperation with the Government." The letter from Mr. Frank follows:

Aug. 7, 1939.

Mr. Wallace H. Fulton,

Director National Association of Securities Dealers, Inc., 1010 Vermont Avenue, N. W., Washington, D. C.

Dear Mr. Fulton:

Dear Mr. Fulton:

As you know, the Commission has granted the application of the National Association of Securities Dealers, Inc., for registration as a national securities association under the Maloney Act. This event marks the beginning of a significant attempt by an important segment of a business affected with a marked public interest in regulating its own affairs in cooperation with the Government.

I think that I should also point out that this marks the culmination of four years of work by representatives of the securities business and of the Commission. This work was undertaken in a cooperative spirit and although, at times, there have been wide differences of opinion, and although there are even now slight differences of opinion, in the main the result is indicative of a desire on the part of a large and important part of the business and a group of sincere, representative leaders, to tackle with the Commission the very difficult job of regulating the vast and unorganized over-the-counter securities markets.

Although the plan and program, as embodied in the present organization,

unorganized over-the-counter securities markets.

Although the plan and program, as embodied in the present organization, are not perfect, the Commission looks forward to cooperating with the new association in the same spirit which has characterized its past relationship with the predecessor organizations.

Recognition for this accomplishment is due to the men in the business who have given much of their time and thought to this endeavor. I trust that their efforts will continue to the end that the new association will develop into a sound and vigorous organization. As such it should benefit both the investor and the honest dealer. It should be an aid in safeguarding our securities markets against those tendencies which destroy the investor confidence so vital to our economy.

With best wishes, I am

Sincerely yours.

Sincerely yours

JEROME N. FRANK, Chairman.

We also quote from the text of the SEC decision, although it is proper to state that many footnotes forming part of the decision are here omitted:

part of the decision are here omitted:

The National Association of Securities Dealers, Inc., on July 20, 1939, filed an application, pursuant to Rule X-15AA-1 and the provision of Form X-15AA-1, for registration as a national securities association under Section 15A of the Securities Exchange Act of 1934, as amended. After due notice a public hearing was held before the full Commission on Aug. 1, 1939, on said application. No one appeared except representatives of the applicant and counsel to the Commission. Subsection (e) of Section 15A requires the Commission to grant registration by order provided that the requirements of subsection (b) are satisfied. Hence it is our duty to examine the registration statement in the light of the provisions of said subsection (b).

of said subsection (b).

Subsection (b) (1) deals with the size of the association. Since the applicant has about 1,500 members, which include almost all of the

major investment bankers and over-the-counter brokers and dealers, distributed over 44 of the States of the Union, it appears to us that the association, as far as its size and the importance of the transactions of its members are concerned, will be able to comply with the relevant provisions of the Act and the rules and regulations promulgated thereunder. Subsection (b) (2) concerns itself with the internal organization and character of the association, and raises the question as to whether it is "so organized . . as to be able to . . carry out the purposes of this section." The broad purpose of Section 15A is cooperative regulation of the over-the-counter business in the public interest and for the protection of investors. The applicant's by-laws reveal that its affairs are to be managed by a national Board of Governors, 14 District Committees and a number of Business Conduct Committees, all consisting of members serving as unpaid volunteers; furthermore, the Board of Governors may appoint a compensated chief executive officer with assistants and each District Committee may, subject to the approval of the Board of Governors may appoint a district secretary and other employees, who are likewise to be compensated. It therefore is left to the discretion of the Board of Governors whether the affairs of the association are to be managed largely by a professional staff or by members serving without compensation. Should the Board of Governors elect the latter course it would appear doubtful whether effective enforcement of the association's Rules of Fair Practice could be secured. It is the opinion of the Commission that such enforcement will, in all probability, require a staff of paid employees to be expanded to a nation-wide scale in due course of time, headed up by a chief executive endowed with sufficient powers to render him effective. The Commission of the by-laws may well be availed of by the Board of Governors, finds that there is minimum compliance with the provisions of the paragraph under discussion. The

to those who carry on the various phases of this business as brokers of dealers; these two terms, again by definition, exclude banks; therefore, banks are not eligible for membership in the applicant association. This limitation presents no basis for denial of registration.

Subsection (b) (4) requires that the applicant's rules provide that, except with the approval of the Commission, no broker or dealer may be admitted to membership if laboring under certain specified disabilities.

except with the approval of the Commission, no broker or dealer may be admitted to membership if laboring under certain specified disabilities. Since the applicant's by-laws incorporate this subsection almost verbatim, the provisions of this paragraph have been satisfied.

Subsection (b) (5) requires that the rules of the association assure each member a fair representation in the various phases of the administration of its affairs. The applicant's rules provide that each member shall have one vote in the election of the Governor (or Governors) from the member's district, and in the election of members to the leoal District Committee; and that amendments to the by-laws and Rules of Fair Practice must be submitted to the whole membership for a vote and will become effective 30 days after such submission only if at least a majority has voted and a majority of those voting has signified its approval. The provision of this paragraph, therefore, appear to have been satisfied. Subsection (b) (6) requires that under the association's rules dues be equitably allocated to defray reasonable expenses of administration. Under the Schedule of Dues attached to the by-laws it seems to the Commission entirely arguable that firms with a large personnel will pay a disproportionately small share of the expenses of the association. Even though such schedule may not appear to the Commission to be ideal, the Commission is not of the opinion that it can be said to be sufficiently inequitable to fail to meet the statutory requirement. The Commission recognizes the difficulty of foretelling in advance the precise incidence of the proposed method of apportioning of dues and is mindful of the fact that the by-laws are sufficiently flexible to permit an alteration in the Schedule of Dues should such misgivings as the Commission entertains prove justified. It, therefore, concludes that there is minimum compliance with the provisions of this paragraph. The Commission entertainance with the provisions of this paragraph. The Commission to the amount which could be collected under the Schedule of Dues as presently adopted would not be sufficient to enable the association to perform the task of cooperative regulation, which naturally includes adequate self-policing, except to a limited extent. Accordingly, there may well be need for a larger measure of surveillance by the Commission of the members of the association than would have been necessary if the Schedule of Dues had called for substantially larger payments from members falling into the higher classes.

bers of the association than would have been necessary if the Schedule of Dues had called for substantially larger payments from members falling into the higher classes.

Subsection (b) (7) contains both positive and negative requirements which may be considered separately.

On the positive side it stipulates that the rules of the association must be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to provide safeguards against unreasonable profits and charges, and, in general, to protect investors and the public interest and a free and open market. Almost all of the association's Rules of Fair Practice are directed toward eliminating abuses which might well lead to the defrauding of investors; and Rule No. 18 specifically forbids the effecting of transactions in, or the inducement of a purchase or sale of, any security by means of any manipulative, deceptive or other fraudulent device or contrivance. Similarly, almost all of the association's rules are designed to promote just and equitable principles of trade. Rules No. 3 and No. 4 are directed against unreasonable profits and other charges. Many of the rules are designed to protect investors and the public interest, some quite specifically, such as Rule No. 19, which prohibits making improper use of a customer's funds or securities and regulates the lending or pledging of a customer's securities? Rule No. 20, which deals with sales on the instalment plan, and Rule No. 22, which requires a member to submit a balance sheet upon request to a bona fide regular customer with respect to whom a debtor-creditor or bailment relationship exists. There are, however, no rules whatsoever concerning the solvency of members or requiring any regular or periodic inspections on the part of the association of a member's books or the submission, on the part of the association of a member's books or the submission, on the part of a member, of his financial statement to the

association or to an independent firm of auditors acting for the association. The Commission regrets that the association has not seen fit, initially, to adopt any such rules for the protection of investors. The Commission feels that it must emphasize the lack of such rules, lest the public be misled into thinking that membership in the applicant association in any way connotes solvency; as far as the rules of the association are concerned an insolvent broker or dealer might join and continue in membership without ascertainment of his condition by the association through an investigation of his books, unless one of its Business Conduct Committees should conduct a special investigation. The Commission hopes that the applicant will undertake, within the not too distant future, the task of assuring itself of its members' solvency. Of course it must be borne in mind that the Commission may find it necessary to promulgatge its own rules as to the financial condition of all registered brokers and dealers, whether or not members of the association.

On the negative side, it is required that we find that the rules of the

On the negative side, it is required that we find that the rules of the association are not designed to permit unfair discrimination between customers and members, to fix minimum profits, to impose any schedule of prices or of fixed minimum rates of commissions, discount, allowances or prices or of fixed minimum rates of commissions, discount, allowances or other charges. The Commission finds that the rules observe these prohibitions. Rule No. 25, which denies trade preferences to non-member brokers and dealers, is patterned upon subsection (i), which expressly authorizes such discrimination, and Rules No. 23 and No. 24, which, respectively, prohibit and regulate the giving of concessions, discounts or other allowances under certain circumstances do not appear to violate any of the prohibitions listed in this paragraph.

The provisions of this paragraph, therefore, appear to have been satisfied.

Subsection (b) (8) requires that the rules provide for the appropriate sciplining of members. Section 3 of Article VII of the by-laws embodies disciplining of members. Section 3 of Article VII of the by-laws embodies this section of the statute.

Similarly, the procedural requirements laid down in subsection (b) (9) are embodied in the by-laws, Article I, Sections 4 (c, d), Article VII,

Section 4.

Finally, Article II of the by-laws, which deals with the admission of affiliated associations, is found to satisfy the requirements of subsection (c) which is incorporated by reference in subsection (b) (10).

The application for registration is therefore granted and an order will be issued in conformity with this opinion. The Commission feels that it should add, by way of caution, that members of the applicant association will, of course, continue to be subject to the laws administered by the Commission. Their agreement, however, to observe the by-laws and Rules of Fair Practice of the applicant should tend to facilitate their observance of such laws and of the rules and regulations now in force or hereafter to be promulgated thereunder.

SEC Issues Opinion on Exemption from Registration of Certain Refunding Securities

On Aug. 8 the Securities and Exchange Commission made public an opinion of its General Counsel, Chester T. Lane, on the question of whether the Securities Act of 1933 provides an exemption from registration for certain types of refunding issues. Regarding the opinion the Commission's anouncement said:

anouncement said:

Refunding offers often take the form of an exchange whereby new securities are offered to the existing security holders in exchange for the securities held. The unsubscribed portion of the new securities will then be sold for cash. While an exchange offer made to existing security holders exclusively may normally be exempt from registration under Section 3 (a) (9) of the Act, registration of many of these refunding offers is made necessary because of the public cash sale of the unsubscribed portion of the issue.

The case considered in Mr. Lane's opinion is that of a refunding offer of this character in which the unsubscribed portion of the issue is offered privately. The question raised is whether, since one part of the issue is offered in exchange to existing security holders and the second part is offered privately, the issue as a whole is exempt from registration.

In his opinion, Mr. Lane states that in the usual situation the sale of one portion of the issue for cash, even though privately, will defeat the exemption for the entire issue, but that if the new refunding security is divided into two different blocks, one of which is offered in exchange to the existing security holders and the other is sold privately for cash, and if the differentiation between the two blocks is sufficiently great to justify regarding them as different classes of securities, an exemption for both blocks may be available.

and if the differentiation between the two blocks is sufficiently great to justify regarding them as different classes of securities, an exemption for both blocks may be available.

The opinion makes it clear that superficial differences between the two blocks of securities will not make them separate classes, but that if there are substantial differences between the two blocks, they may be considered separately for the purposes of exemption even though they are issued as integral parts of a single financing program.

Excessive Cost of Distribution Decried by Twentieth Century Fund—Survey Adds, However, Fault Does Not Lie with Unusually High Profits

The costs of distribution of commodities in the United States are too expensive, but not because of generally high profits, the Twentieth Century Fund Committee on Disprofits, the Twentieth Century Fund Committee on Distribution said July 31 in a summary of a research report by Paul W. Stewart and J. Frederic Dewhurst. A special research staff aided the investigation, made over a period of three years. The report said that while the process of distribution costs too much, it is "impossible to say how much too much it costs." The survey revealed that most of the receipts of distributive agencies is represented by payments of wages and salaries. We quote, in part, from the committee's summary of its report:

"The research findings," the committee asserts, "show many features of the distribution process which reveal opportunities for savings:

"(a) Duplication of sales efforts, multiplicity of sales outlets, excessive services, multitudes of brands, and unnecessary advertising, all caused by competitive conditions.

"(b) Urreasonable demands and misinformed buying on the part of consumers.
"(c) Lack of a proper knowledge of costs among distributors themselves, too great zeal for volume, poor management and planning, and unwise price policies."

"Second," continues the committee, "the research findings show how newer distribution agencies, through economies of standardized and large-scale operation, have proved the inefficiency of those which they have

displaced; and how other distributors have improved methods and lowered costs through a better understanding of their problems."

While recognizing that the process of distribution as a whole costs too much, the committee declared that it was impossible to say "how much too much it costs." "In other words, we can say with confidence that there is waste in distribution, but we cannot reduce it to a percentage figure—as a whole, or in any of its parts. Nor can we say that distribution is more or less wasteful than production."

In further commenting upon the conclusions which it as deduced from the research report, the committee states:

States:

There is little evidence that general high profits are being made in the field of distribution considered as a whole. Some firms, it is true, and some of the newer branches of distribution have been conspicuously profitable. But for every outstandingly successful and profitable organization there are many that barely break even and some which operate at a loss, even in good years. In relatively prosperous 1936, for example, half of all the trading or distributing corporations in the United States showed a loss on the year's operations. Taking into account both the unprofitable and profitable, the net profits of the entire group of corporations engaged in trade amounted to little more than 2% on their sales. For every one of the 149,805 trading corporations reporting to the Treasury, the census shows there are perhaps 10 individuals and partnerships in the field of distribution. These are smaller on the average, and probably less successful than the corporations.

From the Committee's summary we also quote:

From the Committee's summary we also quote:

It must be remembered that distributors have little or no control over many of the ultimate real costs of distribution. Taxes paid by distributors—as well as by the general public—go to support government activities, such as those of the Federal Trade Commission, the Department of Commerce and various State and local agencies, which are concerned with the promotion or regulation of distributive agencies and operations. Consumers themselves bear part of the costs of distribution involved in the time and energy they spend in shopping for goods. So far as distributors are concerned, however, it is clear that if distribution costs are to be reduced, the largest economics will have to come from savings in expense, which means chiefly payments for services rendered to their customers directly or indirectly by persons employed by distributive agencies. Obviously reduction of distribution costs by drastic cutting of wages and salaries is not administratively possible, socially desirable, nor politically practicable. Hence if the cost of distribution is to be reduced economies must be gained either by eliminating functions and services now offered by distributors or by performing these functions more economically and efficiently. these functions more economically and efficiently.

A program of specific recommendations for increasing the efficiency of distribution are being formulated by the Committee, according to Evans Clark, Executive Director of the Fund. About four weeks hence, these recommendations, together with the complete research report, will be made public.

Besides the Chairman of the Distribution Committee, Willard T. Thorp, who is Director of Research for Dun and Bradstreet and was formerly Director of the Bureau of Foreign and Domestic Commerce, the following compose the Committee:

Stuart Chase, author, and former President of Consumer's Research.
Alvin Dodd, President, American Management Association.
John P. Frey, President, Metal Trades Department, American Federa-

John P. Frey, President, Metal Trades Department, American Federation of Labor.

Carl L. Hamilton, of Booz, Fry, Allen & Hamilton.

Helen Hall, head of the Henry Street Settlement.

Hector Lazo, Executive Vice-President, Cooperative Food Distributors.

Paul H. Nyestrom, President, Limited Price Variety Chain Stores Association and Prof. of Marketing, Columbia University.

Robert G. Stewart, formerly Director, Standard Oil Company of New Jersey

Taxes in United States Since 1933 Increased 6½ Times Compared to a 41-3 Rise in United Kingdom, According to National Association of Manufacturers

Taxes in the last generation in the United Kingdom rose 430%, while during the same period, those in the United States climbed 640%, or 210% more, according to an analysis made public Aug. 7 by the National Association of Manufacturers. This represents a rate of tax growth in the United States one and one-half times as great as in the United Kingdom, said the Association, which further stated:

Stated:

Taking 1913 as the basic year for both nations and with taxes then equal to 100, it was found that by 1924 both countries had increased their tax load in almost exactly the same ratio above the 1913 level. For the United States, the analysis included all taxes imposed by the Federal, State and local Governments. For the United Kingdom, the taxes compiled were those levied by the National Government and by localities in England, Scotland, Wales and Northern Ireland.

By 1929, the rate of the growth of the tax burden in this country had gone considerably ahead of that of the other nation. And 26 years after the pre-war year of 1913, taxes in this country had climbed almost 6½ times compared to a 4 1/3 rise in the United Kingdom.

The Association likewise said:

The Association likewise said:

In recent years, the British budget has been faced with a tremendous expansion of armament expenditures, which has been met in large degree by increased income and estate levies and by imposts on various commodities. English expenditures for defense service have increased sixfold during the past seven years. Recovery and relief expenditures in this country have been largely responsible for heavy government borrowing and growing demands upon the American taxpayer.

rowing and growing demands upon the American taxpayer.

It is important to point out in any fair comparison of the tax burden of the two countries that while the Uinted Kingdom has operated on a substantially balanced budget with government revenues practically equal to government outlay, this Nation has operated on a completely different policy. The national debt of England will rise slightly more than \$4,680,000,000 (at current rates of exchange) in the decade ending in the calendar

year 1939, while our Federal debt will rise some \$27,000,000,000 during the same period.

Survey Under Auspices of National Association of Manufacturers Finds Public Sentiment Increasing Against Compulsory Unionization—61% Vote "No" as Against 57% in 1937

as Against 57% in 1937

An increase in public sentiment "against the arbitrary forcing of workers to join unions" was found by the National Association of Manufacturers as the result of a survey made public July 31. The Association's report said that the survey did not "represent public opposition to unions or the right of workers to organize, but does show public emphasis on voluntary membership rather than the tactics used to make membership compulsory." The organization conducting the study on a nation-wide basis asked the following question: "Should every worker be forced to join a union?" In analyzing the results the Association said on July 31: to join a union?" said on July 31:

These were the results as compared with the responses to the same question two years ago:

1937	1939	1937	1939
No57%	61%	Sometimes9%	11%
Yes23%	20%	Don't know11%	8%

"Interesting is the fact that a break-down of the replies reveals that there has been a decided swing in the factory workers' opinion," the Association commented. "It has been in the factory that the greatest high-pressure efforts at unionization have been made."

Here is the way the factory workers answered the question of whether every worker should be forced to join the union:

1937	1939		1937	1939
No40.7%	50.7%	Sometimes	9.3%	14.2%
Yes42.9%	28.4%	Don't know	7.1%	6.7%

The following are the results of the answer to the question "Who has done most for the United States in the last 10 years?":

(Total aggregates over 100% because some persons cited more than group.)

Commenting on these results the Association said:

Commenting on these results the Association said:

"It is significant that the custodians of the private enterprise system, the manu facturers, industrialists, the merchants and the bankers gathered 59% of the entire vote, six times as many votes as the labor leader, over eight times as many as political men, and ten times as many as social reformers. Compared to a similar question in 1937, manufacturers have stayed in first place and have increased their lead slightly, political men have dropped from second to sixth, and bankers have come from last to fourth place."

The Alleuting represents the character is a large to the property of the content of the con

The following represents the changes in public opinion on this question today as compared with 1937: The favorable public attitude toward bankers increased 5.3% as compared with 1937; the attitude toward merchants and manufacturers increased 2% for each; for industrialists, 0.7%, while social reformers, labor leaders and politicians lost a total of 13.2% in the public's favor.

Strike in Packard Motor Car Company Averted National Labor Relations Board to Hold Elections

The United Automobile Workers (A. F. of L.) officials announced August 7, that the union had consented to the National Labor Relations Board holding elections in Packard Motor Car Company, and other car manufacturing plants. Its purpose is to determine which faction of the U. A. W. union (CIO) or the (A. F. of L.) would represent the workers as bargaining agent.

Dispatches to the Associated Press from Detroit August

7, said:

The announcement apparently averted the likelihood of a CIO-UAW strike in the Packard plant, authorized yesterday by a vote of the Packard

Frank H. Bowen, NLRB regional director, said that the Packard vote would be held on August 17. The Motor Products poll is scheduled for Aug. 15. Elections in the Briggs and Chrysler plants will be later

Fred Durrance, regional director of the A. F. of L. faction, in making his announcement said that the move was in line with a recently adopted policy of the union. Previously there were indications that the A. F. of L. would contest the NLRB orders.

"We will not try to block the elections in Chrysler, Briggs and Motor Products either," Durrance said in announcing that he had signed the stipulation consenting to the Packard election, "because we have cleared up an important point with the labor board.

"It is understood that the election will not affect the Circuit Court case now pending in Detroit regarding custody of the contracts, property and name of the UAW. The board vote will not have any effect on the contracts."

Curt Murdock, president of the Packard C10 local, in announcing that

a strike had been approved, said:

"We took the strike vote not because we want to strike, but to make sure that we don't get another double-cross on the election. There won't be a strike unless the A. F. of L. connives us out of the election or unless the Packard resource.

be a strike unless the A. F. of L. connives us out of the election or unless the Packard management refuses to consider our grievances."

Murdock referred to an election to determine whether the workers should be represented by the UAW-CIO or the UAW-A F of L. He said the NLRB has set the election tentatively for Aug. 17.

C. E. Weiss, Packard industrial relations director, said the company had received no grievances from the UAW-CIO. He added that the management would meet representatives of either union, but could grant neither exclusive rights until their claims were settled by the election. Murdock said about 9,000 employees were engaged in producing 1940 model cars.

model cars.

Chrysler, Hudson and Nash likewise are turning out new models and other producers are nearly ready for the change over. Ford is the only manufacturer still building 1939 cars.

General Motors called back the first of 7,500 skilled workers whose strike was settled last week and the remaider are to report tomorrow, permitting completion of tools and dies for manufacturing 1940 cars

When that work is completed 150,000 General Motors production workers will be recalled. They have been idle partly because of the strike and partly because of the normal slack season caused by the change over to new models.

A previous reference to the General Motor's strike appeared in our issue of August 5, page 817.

sident Roosevelt Says Congressional Majority "Gambled" in Defeating Neutrality, Lending and Housing Legislation—Declares They Risked World Peace and National Well-Being—Opponents Contend Congress Expressed Will of People

Congressional opponents of the Administration during the last session have played the parts of gamblers, willing to wager with the world peace and the economic well being of the United States, President Roosevelt said on Aug. 8 in a press conference at Hyde Park, N. Y. He declared that a solid Republican minority and about 25% of the Democrats in the House and Senate were wagering against the safety of a billion and a half human beings and the financial security of millions of Americans. The President referred specifically to the defeat of revised neutrality legislation and the Administration's lending and housing program. Mrs. Roosevelt attended the press conference and interjected, it is said, an accessional comment.

occasional comment.

In reporting the President's remarks, United Press advices of Aug. 8 from Hyde Park said in part:

Seated in the library of his home, Mr. Roosevelt calmly but critically reviewed at a press conference Congressional refusal to act on his neutrality program, his \$3,060,000,000 lending program and his \$800,000,000 housing bill.

He said in rejecting his proposals Congress simply was gambling. the conservative Democrat-Repblican coalition made two bets with the nation—on neutrality and the prospects of business being able to absorb the wage earners who lose their jobs next spring on relief and Public Works

wage earners who lose their jobs next spring on rener and Public Works Administration projects.

Enactment of his lending program, the President said, would have provided an even graded descent from the present situation in which about 3,000,000 persons have held relief jobs and approximately about 2,000,000 have found work on PWA projects.

Those 5,000,000 persons, he said, when considered in terms of families, actually represent some 20,000,000

Mr. Roosevelt said the theory of the coalition which wrecked his lending program has been that business would take up the slack next spring when PWA projects virtually halt, and some 1,000,000 wage earners are dropped

from relief.

He said he had hoped to provide a graded adjustment period by his lending program but instead opponents of his plan have created a precipice. It always is hard to get down a precipice without danger to life and limb, Mr. Roosevelt said, and the descent usually entails a general slowing up.

The theory of the lending bill was to provide a graduated descent from the level of high unemployment to let business pick up the slack as the country came down a nice, easy grade, he said. But the Congressional opponents of his plan chose, instead, to vote in favor of the precipice method, he declared. declared.

he declared.

Rejection of his plan to eliminate mandatory arms embargoes on belligerents, Mr. Roosevelt said, was the same kind of Congressional gambling. The Republican bloc and the minority of Democrats made a bet with the country that the President was wrong about the need for the legislation and have tied his hands so he has virutally no power to make an American effort to prevent outbreak of a great war, he said.

Mr. Roosevelt said he hopes that his opponents in Congress win both bets—that business is able to take up the slack next spring and that a grave international crisis does not develop before Congress reconvenes. But, he said, in the event Congress loses the wagers, the Republicans and the minority of Democrats must assume full responsibility for gambling on a war which, if it comes, may affect about a billion and a half human beings. The nation, he said, must and will hold this Congressional group sclely responsible. He said he hopes they win, but they are taking a terrific chance.

The conference was called a few hours after the President reached here from Washington.

Mrs. Rossevelt stood at his side, as he critically reviewed the actions of le Seventy-sixth Congress.

His first criticism was on its failure to act on neutrality. . . .

His first criticism was on its failure to act on neutrality...

Then he discussed the effects of the session on business, and drew the analogy of the precipice—an analogy which was suggested to him by Mrs. Roosevelt. This idea, he said, covers the entire situation, both rejection of the housing measure and the lending bill. Failure of Congress to act, he said, will affect even the jobs of the newspaper men who attended his press conference, because it will be felt by newspapers in advertising revenue, in circulation and in other avenues.

Mr. Roosevelt said the situation presents a distinct shallows to business.

in circulation and in other avenues.

Mr. Roosevelt said the situation presents a distinct challenge to business, because at the present time there are very few overstocked shelves. Only wheat, cotton and dairy products show surpluses, he said, and private enterprise now has been challenged by Congress to plunge ahead without Government cushioning and take up the slack which will be created next spring when PWA projects halt and 1,000,000 persons have been dropped from relief rolls.

Meanwhile the President, awaiting arrival of the final mass of bills enacted

in the Congressional adjournment rush, played host to Sidney Hillman of the Congress of Industrial Organizations.

Opponents of the Administration replied to the President's remarks on Aug. 9, as noted in the following Associated Press Washington dispatch of that date:

"The President really ought to look over the roll calls," said Senator Adams, Democrat, of Colorado, an economy advocate. "There was no coalition. Individual members merely voted their own convictions." Senator Adams declared that the groups which opposed Senate consideration of the neutrality bill and which shelved the lending bill in the House

were quite different

Representative Michener, Republican, of Michigan, said he thought independent Democrats in Congress had joined with independent Republicans to do an outstanding piece of work in blocking the lending program.

"The coalition, or whatever the President wants to call it, has stopped the American people just before they went over the financial precipices." Mr. Michener said. "Congress is merely carrying out the will of the people. Nobody is going to starve and Mr. Roosevelt needn't worry—Congress will be on the job again in January and there are ample WPA funds to carry on well that time." until that time

Somewhat similar sentiments were expressed by Senator King, Democrat. of Utah, who opposed the lending bill, He said:

"I don't see how any one can contend cons stently that when we appropriated nearly \$13,000,000,000 for next year, Congress was not doing everything within its power, provided spending is the answer."

Senator King asserted that while he agreed with the President that repeal of the arms embargo of the neutrality law was desirable, he knew of no coalition opposing that move.

The administration's neutrality program bogged down in the Senate Foreign Relations Committee, where five Republicans, five Democrats, a Progressive and a Farmer-Laborite voted to defer consideration, with eleven Democrats favoring immediate action.

Senator McCarran, Democrat, of Nevada, one of those opposed to repeal of the arms embargo, expressed a belief that Congress had announced to the world a real sort of neutrality—that it did not propose to "make more millionaires out of munitions manufacturers" by permitting the sale of arms to warring nations.

"Congress was not gambling on the future," he said, "when it announced that it really meant to have this country remain neutral by keeping aloof

that it really meant to have this country remain neutral by keeping aloof from foreign entanglements and by refusing to show favoritism in the foreign conflict by making one belligerent a preferred creditor over another.

President Roosevelt in Message to Young Democrats Says Democratic Party Will Fail if Conservatives Are Nominated in 1940—Declares Belief in "Liberal Democracy"

Stating that if we nominate in 1940 "conservative candidates, or lin-service candidates, on a straddlebug platform," President Roosevelt in a message this week to the Young Democrats of America added that "I personally, for my own self-respect and because of my long service to and belief in liberal democracy, will find it impossible to have any active part in such an unfortunate suicide of the old Democratic party."

The message, which featured the convention of the Young Democra's at Pittsburgh on Aug. 10, was read at the meeting by Pitt Tyson Maner, President of the Young Democrats, to whom it was addressed. President Roosevelt admonished the Young Democrats not to let "the reactionaries and the conservatives get away with fine phrases." He went on to say, "the Democratic Party will fail if it goes conservative next year, or if it is led by people who can offer naught but fine phrases." The President alluded in his remarks to what he had said in speaking at the Jackson Day dinner last January (mentioned in our issue of Jan. 14, page 213), in which he had referred to "the sad state the country would be in if it had to choose between a Democratic tweedledum and a Republican tweedledee," and said:

"I want to amend that simile, so let me put it this way: the Democratic

"I want to amend that simile, so let me put it this way: the Democratic party will not survive as an effective force in the Nation if the voters have to choose between a Republican Tweedle Dum and a Democratic Tweedle Dummer."

President Roosevelt's message follows in full:

Please convey my greetings to the convention.

Never was there a more timely gathering than that of you Young Democrate at Pittsburgh. Recent events have demonstrated the necessity of a restatement and a reaffirmation of democratic principles, and no group can undertake this mission as well as the young men and young women of our

undertake this mission as well as the young men and young women of our party.

From the beginning, democracy has meant progress, and its battle ever since Jefferson's time has been a steady conflict with the forces of reaction and special favors. Every time the policies involving greater opportunities for the common man have triumphed, our political enemies have sought to minimize those policies and to neutralize the decisions of the people. Today is no exception to that classical course of events.

Uniformly the party of Nicholas Biddle of Jackson's time, of Quay and Hanna of the Cleveland era and of the Theodore Roosevelt period has bowed to the progressive wing to the extent of pretending accord with the objectives of the progressive administrations but has found fault with the methods requisite for putting and keeping these principles at work. Uniformly have they appealed to such elements in our own party as dreaded the departure from ancient habits or were responsive to the powerful agencies that financed and controlled local politics.

Probably the hoariest story of corruption in American elections is the history of those moneyed magnates who contributed vastly to the campaigns of candidates of both parties with the idea that they could continue control regardless of the way which the political cat jumped.

Just as there are progressives in the Republican ranks, so there are reactionaries in our own party. Political affiliation is often the child of hereditary principles, begotten in the first instance of issues of terrific importance in the beginning, but which have no more significance at present than the inflamed controversy of a century and a half ago as to whether the capital of the United States should be at Washington or somewhere on the Susquehanna River.

Always has it been the aim of the enemics of liberalism to seek to attach

Susquehanna River.

Always has it been the aim of the enemies of liberalism to seek to attach

Always has it been the aim of the enemics of liberalism to seek to attach to themselves such members of our party. Sometimes they have succeeded; sometimes they have failed.

When they have succeeded they have not infrequently been successful in their efforts to supplant a Democratic Administration with a Republican Administration. Such happenings, though they have brought dismay for a period, have not sufficed to stop the general and inevitable movement to make our country a better country for all of us rather than to make it a lush pasture for the seekers and holders of privilege.

Every Democratic Administration has left a progressive mark on our own history and has influenced world progress as well. But when it has been succeeded by a typically Republican Administration progress has slipped backward—sometimes a few feet and often many miles. It has been said that a great many voters today want us as a nation to stop, look and listen.

What they fail to understand is that nations cannot stand still, because by the very act of standing still the rest of the procession, moving forward, inevitably leaves them in the rear. Therefore, their desire to stand still actually means moving backward in relation to the rest of the world.

Republican and Democratic Reactionaries and Conservatives

Republican and Democratic reactionaries want to undo what we have accomplished in these last few years and return to the unrestricted individualism of the previous cantury. Republican and Democratic conservaties admit that all of our recent policies are not wrong and that many of them should be retained—but their eyes are on the present; they give no thought for the future and thus, without meaning to, are failing to solve

even current social and economic problems by declining to consider the

Radicals of all kinds have some use to humanity because they have at least the imagination to think up many kinds of answers to problems even though their answers are wholly impracticable of fulfillment in the immediate future.

Defines Liberals

Defines Liberals

Liberals on the other hand are those who, unlike the radicals who want to tear up everything by the roots and plant new and untried seeds, desire to use the existing plants of civilization, to select the best of them, to water them and make them grow—not only for the present use of mankind, but also for the use of generations to come. That is why I call myself a liberal, and that is why, even if we go by the modern contraption of polls of public opinion, an overwhelming majority of younger men and women throughout the United States are on the liberal side of things.

In considering the present and future of American politics or policies, you have the right and the duty to say to those who want to stand still—"have you no program other than standing still? We are not satisfied if you tell us glibly that you believe in taking care of old people, that you want the young people to have jobs, that you want everybody to have a job, that you give us specifications of how you would do it if you were in power".

Do not let the reactonaries and the conservatives get away with fine phrases. Pin them down and make them tell you just how they would do it.

do it.

The Democratic party will fail if it goes conservative next year, or if it is led by people who can offer naught but fine phrases.

Last Winter, in speaking at the Jackson Day dinner, I referred to the sad state the country would be in if it had to choose between a Democratic tweedle dum and a Republican tweedle dee. I want to amend that simile, so let me put it this way; The Democratic party will not survive as an effective force in the nation if the voters have to choose between a Republican tweedle dum and a Democratic tweedle dummer.

If we nominate conservative candidiates, or lip-service candidates, on a straddlebug platform, I personally, for my own self-respect and because of my long service to, and belief in, liberal democracy, will find it impossible to have any active part in such an unfortunate suicide of the old Democratic party.

party.

I do not anticipate that any such event will take place, for I believe that the convention will see the political wisdom, as well as the national wisdom, of giving to the voters of the United States an opportunity to maintain the practice and the policy of moving forward with a liberal and humanitarian program. A large part of the responsibility for such a choice of fundamental policies lies in the hands and in the heads of the youger men and women of the nation. Be vigilant to keep tories from controlling your own ranks—just as viligant as you will be to keep tory Republicans from controlling your own nation.

We who have borne the heat and burden of the day salute you—you who are about to live;

Very sincerely yours

FRANKLIN D. ROOSEVELT.

A message from James A. Farley, Democratic National Committee Chairman, also read at the convention, said that "in approaching next year's Presidential election we must bring home to the general public the fact that the only constructive leadership of this generation has come from the Democratic Party." Democratic Party

In Survey of Effect of New York World's Fair on Hotels and Restaurants, State Chamber of Commerce Finds Prices Generally Same as Last Year

A survey of the effect of the World's Fair on hotel and restaurant prices in New York, made public by the New York State Chamber of Commerce Aug. 7, produced evidence, it is announced, to show that the metropolis is not exploiting visitors to the exposition, as has been charged in some sections of the country. The investigation made by the Chamber disclosed that:

In 75% of the hotels covered in the survey room rates were the same as last year. In 25% of the hotels slight advances in rates had been made due to higher labor costs and tax increases. The rate increases, as a rule, fell more heavily upon New Yorkers residing "permanently" at the hotels than upon guests from out of town.

Food prices in city restaurants were unchanged from last year except in a small percentage of places where they were lower. The Fair has hurt rather than helped city restaurants.

Prices at restaurants at the Fair compared favorably with similar establishments in New York and other large cities.

The Chamber's survey showed that hotel accommodations are available at prices to suit the most modest budget. Single rooms with bath could be obtained at some hotels for as little as \$2 a day, and double rooms with bath for as low as \$3.50. In order to secure minimum-priced accommodations, however, the Chamber advised that reservations should be made well in advance. Relative to the price situation in New York hotels, the survey said:

should be made well in advance. Itelative to the price situation in New York hotels, the survey said:

The Chamber's survey disclosed that approximately one hotel out of every four which filled out the questionnaires had made slight increases in room rates. The increases, for single rooms, ranged from 25c, to \$1. This was due, the proprietors said, entirely to advances in operating costs, of which higher wages, social insurance, payroll and other taxes were the chief items. The expectancy of increased patronage during the Fair was not considered in raising the rates, hotel officials said.

The survey had this to say about New York restaurants:

The Chamber's survey produced no evidence that the Fair has influenced the price policy of restaurants in the city.

The prices in the majority of restaurants in the city were found to be unchanged from last year, and in a small percentage of them were slightly lower,

Regarding prices at World's Fair restaurants, the survey

There are so many restaurants competing for the patronage of visitors to the Fair, in fact, that one might almost imagine people came to the exposition principally to eat and only incidentally to see the exhibits. There are eating places at the Fair to meet every purse, be one's budget small or large. Some visitors from rural communities may find prices

slightly higher than they are accustomed to paying at home, but the Chamber's survey shows that, on the whole, prices at the Fair restaurants, allowing for overhead differentials, do not vary much from those in comparable eating places in New York and other large cities.

Referring to the agitation for a reduction of the admis-

sion price to the Fair, the survey said:

The 75c. admission fee to the Fair has been criticized because other expositions have charged only 50c. The fact is, however, that there never has been another exposition which could even approach the New York World's Fair in size, magnificence, number of outstanding free exhibits, and variety of entertainment. Those who have visited the Fair are unanimous in saying "the best things at the Fair are free."

In conclusion, the survey declared that the financial success of the Fair was of secondary importance to its building up goodwill for New York in other parts of the country.

Death of Charles Steele, Partner in Banking Firm of J. P. Morgan & Co.—Had Joined Firm in 1900

J. P. Morgan & Co. announced on Aug. 5, with deepest regret, the death of their partner, Charles Steele, at 12:30 p. m. that day. Mr. Steele died at his home in Westbury, L. I.; he was in his 83rd year and had been in declining L. 1.; he was in his 83rd year and had been in declining health for some time. Funeral services were held on Monday, Aug. 7, in St. Thomas' Episcopal Church in New York. Members of the firm attending were Thomas W. Lamont, Junius S. Morgan, George Whitney, R. C. Leffingwell, Francis D. Bartow, Thomas S. Lamont, Henry P. Davison, Edward Hopkinson, Jr. and Charles D. Dickey. Mr. J. P. Morgan is at present abroad.

Morgan is at present abroad.

Mr. Steele had been a partner of J. P. Morgan & Co. since 1900. Previously he had been a distinguished member of the New York bar and a partner of the prominent law firm of Seward, Guthrie & Steele. In the 1890's he was retained by Charles H. Coster, a partner of J. P. Morgan & Co. and an expert in railroad reorganizations, in connection with the important work of the firm in railroad reorganizations. Further facts regarding his life follow:

Upon Mr. Coster's death in 1900, the late J. Pierpont Morgan, father of the present J. P. Morgan, invited Mr. Steele to join the banking firm, in which for the succeeding 35 years he played an important role. In 1934, owing to his advancing years, he gave up his more active participation in the affairs of the firm, although retaining his full interest. At the same time he also relinquished his corporate directorships.

Mr. Steele was born in Baltimore, Md., on May 5, 1857, the son of I. Nevett and Rose L. (Nelson) Steele. He attended the University of Virginia, where he received the degree of Master of Arts in 1878. He then studied law at Columbia University, and received his law degree in 1880, being admitted to the bar in the same year. In the practice of law he rose to a place of eminence in his profession as a partner of Seward, Guthrie & Steele. At various times he served on the boards of directors of many corporations, among which were United States Steel, the Southern Railroad, International Harvester, Cerro de Pasco, and the Atchison Topeka & Santa Fe Railroad.

Throughout his life Mr. Steele was keenly interested in the University of Virginia, his alma mater, and in the affairs of the Protestant Episcopal Church. He was senior warden both of St. Thomas's Protestant Episcopal Church of New York City, and the Church of the Advent in Westbury, L. I.

In 1885 Mr. Steele married Miss Nannie G. French of New York, who died on December 18, 1932. He is survived by three daughters, Mrs. H. Hall Clovis, Mrs. Devereux Milburn, and Mrs. F. Skiddy von Stade.

As to some of Mr. Steele's benefactions we quote the following from the Westbury, L. I. advices to the New York "Herald Tribune":

The lawyer-banker, who served as Treasurer and a Director of the Metropolitan Opera Company and the Metropolitan Real Estate Company, was a generous benefactor of St. Thomas Church Choir School since its inception in 1919. He purchased two buildings at 121-123 West 55th Street for the choir school in 1922 and increased the number of his scholarships in the institution from two to ten, each amounting to \$500 a year. The gift made T. Tertius Noble, organist and choirmaster of the church, exclaim at the time that he was the "happiest man living."

Easter Present of \$300,000

When Mr. Steele gave an Easter present of \$300,000 to endow the choir school in 1925, the Rev. Dr. Ernest M. Stires, then rector of the church, announced the gift just before he closed his Easter sermon and

"I cannot, in the presence of Mr. Steele (who was in the congregation),

"I cannot, in the presence of Mr. Steele (who was in the congregation), more than make the announcement of his generous gift and to mention what it means to the parish and to your rector that we have in our midst one of such great vision. We thank him and we thank God."

His benefactions were not confined to the Church. In 1906 he contributed \$50,000 to the University of Virginia for the completion of the university hospital. Other gifts on public record included donations of \$10,000 in 1937 and 1938 to the United Hospital Campaign.

Death of Royal C. Johnson, Representative from South Dakota from 1915 to 1933

Royal C. Johnson, former Republican Representative from South Dakota, died of heart disease on Aug. 2 at his home in Washington. He was 56 years old and a native of Iowa. The following is taken from a Washington dispatch of Aug. 2 to the New York "Times":

Mr Johnson, a Republican, served as the Representative of the Second South Dakota District from 1915 to 1933. He was not a candidate for reelection and on his retirement from Congress opened his own office for the practice of law in Washington.

As a member of Congress Mr. Johnson voted against the World War resolution, but on Jan. 5, 1918, he enlisted as a private in the regular army and served successively as sergeant, second lieutenant and first lieutenant with the A. E. F. Severely wounded at Montfaucon, he was discharged Dec. 20, 1918, and for distinguished service received the D. S. O. and Purple Heart (United States) and the French Croix de Guerre.

Death of Dr. A. J. Pearson, Former United States Minister to Poland and Finland

Minister to Poland and Finland

Dr. Alfred J. Pearson, Dean of the Drake University College of Liberal Arts and former United States Minister to Poland and Finland, died at his home in Des Moines, Iowa, on Aug. 10. He was 70 years old. Dr. Pearson was born in Landskrona, Sweden, and was brought to the United States as an infant. He was appointed Minister to Poland in 1924 by President Coolidge and the following year was transferred to Finland where he held the ministership until 1930. At that time he was made Dean of the College of Liberal Arts at Drake University.

Death of F. W. Mondell, Republican Majority Leader in House from 1920 to 1923—Served as Representa-tive from Wyoming for 26 Years

Frank W. Mondell, member of the House of Representatives from Wyoming for 26 years between 1895 and 1923, died on Aug. 6 at his home in Washington. He was 78 years Mr. Mondell was Representative for Wyoming from 1895 to 1897 and from 1899 to 1923. He served as Republican majority floor leader in the House during the Sixty-sixth and Sixty-seventh Congresses and in 1923 was made Director of the Was Finance Corporation, resigning this post two years and Sixty-seventh Congresses and in 1923 was made Director of the War Finance Corporation, resigning this post two years later to practice law in Washington. He was delegate to the Republican National Convention seven times between 1892 and 1924, being elected permanent chairman in that year, in which capacity he notified President Coolidge of his nomination for the 1925-29 term. After serving one term in the House he was defeated for re-election in 1896 and was appointed Assistant Commissioner of the General Land Office, serving until reelected to Congress in 1898.

Death of Urey Woodson, Former Custodian of Alien Property Bureau

Urey Woodson, who recently resigned as Custodian of the Alien Property Bureau, died of heart disease on Aug. 7 at his home in owensboro, Ky. He was in his 80th year. A native of Madisonville, Ky., Mr. Woodson was engaged in newspaper work in Kentucky for over 40 years. He resigned last July 24 as Alien Property Custodian after serving since 1933; this was noted in our issue of July 29, page 672. The following brief account of Mr. Woodson's career is from the New York "Sun" of Aug. 7:

He found time, in addition to his newspaper work, to engage actively in

He found time, in addition to his newspaper work, to engage actively in politics. He never missed a Democratic national convention after 1880, when he attended his first; he watched the running of close to fifty Kentucky

when he attended his first; he watched the running of close to fitty Renticely derbies. He was a Democratic national committeeman for many years, and for eight he was secretary of the committee.

His first newspaper was the Muhlenberg Echo, a weekly, which was printed on a hand press. He went from the Echo to the Owensboro Messenger and this was one of the papers he came to own. He was head of the stock company which owned the Paducah News-Democrat and was active in launching the Louisville Dispatch.

Commissioner Oscar B. Ryder Named Vice-Chairman of Tariff Commission

President Roosevelt has named Commissioner Oscar B. President Roosevelt has named Commissioner Oscar B. Ryder Vice-Chairman of the Tariff Commission to fill the vacancy left by Henry F. Grady, who resigned on Aug. 7 to accept the position of Assistant Secretary of State. Mr. Ryder is a Democrat from Virginia and was first appointed as Commissioner on the Tariff Commission in June, 1934. This past June he was renamed for a new term of six years, expiring June 16, 1945.

Prior to being named on the Commission, Mr. Ryder had had 15 years of service as economist on the staff of the Tariff

had 15 years of service as economist on the staff of the Tariff Commission and in 1933-34 was Chief of the Imports Division of the National Recovery Administration. In another item in today's issue we refer to the appointment of Mr. Grady.

H. F. Grady Succeeds F. B. Sayre as Assistant Secretary of State in Charge of Trade Agreements Program—In Press Interview He Decries Economic Policies of Totalitarian Nations

Policies of Totalitarian Nations

Henry F. Grady, Vice-Chairman of the United States
Tariff Commission, was nominated by President Roosevelt
on Aug. 2 to be Assistant Secretary of State. The Senate
confirmed the nomination on Aug. 4. Mr. Grady succeeds
Francis B. Sayre, new High Commissioner to the Philippines,
and will have charge of the Administration's reciprocal trade
agreement program. Senate confirmation of the nomination
of Mr. Sayre was reported in our issue of Aug. 5, page 819.
The following regarding the new appointee is from the Washington "Post" of Aug. 3:

In taking charge of the trade agreements program. Grady will be returned.

In taking charge of the trade agreements program, Grady will be return-

ing to a field with which he is thoroughly familiar.

As head of the trade agreements division of the State Department in 1934 and 1935, under Secretary Hull and Assistant Secretary Sayre, he had active charge of negotiating and drafting the first 11 trade pacts in the

For a time he served as an expert for the United States Shipping Board, and was trade commissioner to London and Europe in 1919 and 1920 when he made a study of post-war financial conditions. He served as acting commercial attache at London and in Holland, and later was acting chief of the division of research, Bureau of Foreign and Domestic Commerce. He was a lecturer at the Foreign Service School at Georgetown University in 1921.

He was professor of international trade and dean of the College of Commerce, University of California, from 1928 to 1937, and was given a leave of absence for his previous service in the State Department.

He has been a member of the economics committee and the raw materials committee of the League of Nations since 1937.

In his first press conference after he had assumed office, r. Grady asserted that the totalitarian nations cannot expand their trade with the United States unless they alter their fundamental economic policies, which "are based on aggression." He declared that there is "no common meeting ground between the United States and the totalitarian

powers on economic matters threatening world peace.
United Press advices of Aug. 8 from Washington added
the following regarding Mr. Grady's remarks:

The trade systems established by Germany, Italy and Japan cannot continue indefinitely, and the powers might be forced into a war out of sheer desperation, he said.

Mr. Grady, former vice-chairman of the United States Tariff Commission and a member of the raw materials and economic committees of the League of Nations, is recognized as an authority on international economics. He

of Nations, is recognized as an authority on international economics. He recently completed a tour of Europe.

He envisaged as an alternative to trade policies of the Fascist powers the possibility of a change of leadership which might bring a policy of reciprocal, unrestricted trade, but he said such a change could not take place over night and would required the cooperation of the rest of the world. The United States, he said, would be glad to join in such cooperations.

"At present," he continued, "I see little or no possibility of the United States reaching commercial or economic agreements with Germany or the other totalitarian powers. The policy of this government has always been to go at least halfway in such matters—and still is—but the systems under which they operate are so diametrically opposed to ours that there is no common meeting ground.

"I am convinced," he said, "that the trade methods which the totalitarian powers have adopted are self-defeating and cannot continue indefnitely.

"There is one thing of which I am certain. That is, the economic life of any nation which has dissipated its exchange on construction of armament is precarious, and its relations with other nations are proportionally hazardous.

tionally hazardous.

"It would be impossible for any of the totalitarian powers to change their established systems, which are now so deeply rooted in their philosophies, by an overnight operation. It would require a long, carefully studied and planned transitional period during which they would need the sympathetic cooperation of the rest of the world, in which the United States would be glad to join. Whether their political structures could stand up under such a change is questionable.

"The key to world peace is reciprocal, unrestrained trade with all nations on a most favored nations basis. So long as one powerful section of the world is conducting its trade on the exact opposite extreme, the road to peace will be studded with pitfalls."

C. E. Robinson Named to Committee of New York Curb Exchange—Personnel Committee

Charles E. Robinson, newly elected member of the Board of Governors of the New York Curb Exchange, was appointed a member of the Committee on Arbitration and a member of the Committee on Security Rulings on Aug. 10. His election to the Board was reported in our July 29 issue,

page 672.

The Board of Governors on Aug. 10 aproved the appointment of a Personnel Committee consisting of the President, Secretary, Treasurer, and a member of the Finance Committee.

Senate Confirms Nominations of Bert Fish and Ray Atherton as United States Ministers

The Senate on Aug. 3 confirmed the nomination of Bert Fish, of Florida, as Minister to Saudi Arabia. Mr. Fish, who is also Minister to Egypt, was nominated by the President on July 26; this was noted in our issue of July 29, page

On Aug. 4 the Senate confirmed the nomination of Ray Atherton as Minister to Denmark. President Roosevelt named Mr. Atherton on Aug. 3, as was reported in these columns of Aug. 5, page 819.

F. M. Murchison Appointed Manager of RFC Office in Chicago

Emil Schram, Chairman of the Reconstruction Finance Corporation, announced on Aug. 5 the appointment of Frank M. Murchison, Assistant Manager, Reconstruction Finance Corporation, Chicago, as Manager of that agency to succeed Fred D. Gallagher, effective August 5.

H. H. Egly Resigns as Chief of Securities Association Unit of SEC

The resignation of Henry H. Egly as Chief of the Securities Association Unit of the Securities and Exchange Commission was announced on Aug. 7. Mr. Egly stated in his letter of resignation to Chairman Jerome Frank that "with the registration under the Maloney Act of the National Association of Security Dealers, Inc., I feel that my work at the Commission is completed and that I should again take up my business." In accepting, Mr. Frank said the Commission was "greatly indebted" to Mr. Egly for his achievement in helping in the working out of a problem achievement in helping in the working out of a problem of national importance.

Three New Members of Federal Home Loan Bank of New York

The Federal Home Loan Bank of New York announced on Aug. 7 the admission to membership in the Federal Home Loan Bank System of the following thrift and homefinancing institutions in the Second Federal Home Loan Bank District:

Court South End Building and Loan Association, Newark, N. J. Freedom Building and Loan Association, New Brunswick, N. J. Schuyler Building and Loan Association, Kearny, N. J. It also announced that the following institutions, having

gone into liquidation, are no longer members of the System:
Home Lovers Building and Loan Association, Paterson, N. J.
Industrial Building and Loan Association of Hackensack, N. J.
The Orange Valley Building and Loan Association, Orange, N. J.
Passaic Valley Building and Loan Association, West Paterson, N. J.

The membership in the System in the Second Federal Home Loan Bank District now comprises 419 thrift and home-financing institutions in New Jersey and New York.

Committee Appointed to Arrange for 171st Annual Banquet of New York State Chamber of Commerce

Richard W. Lawrence, President of the Chamber of Commerce Richard W. Lawrence, President of the Chamber of Commerce of the State of New York, recently announced the appointment of a special committee made up of the following members to arrange for the 171st annual banquet of the Chamber, which will be held on Nov. 16:

Jeremiah Milbank, banker, Chairman. John M. Davis, President of the Delaware, Lackawanna & Western R. R. Co. Thomas W. Lamont, partner, J. P. Morgan & Co. Thomas H. McInnerney, President, National Dairy Products Corp. Nelson A. Rockefeller, President, Rockefeller Center.

Special Trains and Sight-Seeing Trips Arranged Incident to Annual Convention in Del Monte, Calif., Oct. 9-13 of Investment Bankers Association of America

The Investment Bankers Association of America recently issued a circular to its members respecting special train facilities incident to its 28th annual convention which will be held at Del Monte, Calif., Oct. 9-13. Fast trains direct to Del Monte will leave New York Oct. 5 and Chicago Oct. 6, and special cars to be attached en route or in Chicago are planned from Philadelphia, Boston, Washington, Cleveland, Pittsburgh, Detroit, St. Louis, Denver and other eities where the demand justifies. A special scenic tour train going by way of the Canadian Rockies and the Pacific Northwest is planned to leave New York on Oct. 1 and Chicago on Oct. 2. A mimimum of 100 passengers will be necessary if this train is to be operated, it is announced. As an alternative, special cars on one of the regular trains are planned. All trains will arrive at Del Monte Oct. 8, the day preceding the opening of the Convention. Regarding the tour via the Canadian Rockies and the Pacific Northwest the announcement says: The Investment Bankers Association of America recently

ment says:

This train will make special stops at Banff, Lake Louise and Field. There will be a short motor trip at Banff; then via train to Lake Louise. At this point large comfortable buses will be available for a morning drive through one of the most scenic sections of the Continent, rejoining the train at Field in time for luncheon. At Vancouver passengers will leave the train and proceed to Seattle via a Canadian Pacific "Princess" steamer. A stop of a little over 2½ hours will be made at Victoria, the capital of British Columbia and a city of unusual charm. Thursday night, Oct. 5, will be spent in Seattle, and for Friday an extensive program of entertainment is being planned by the Pacific Northwest Group. Several interesting sight-seeing trips are under consideration, including non-stop airplane flights circling Mt. Rainier to the Grand Coulee Dam and return. Passengers will reboard the special train Friday evening and proceed to Portland, where most of Saturday will be spent. A number of interesting sight-seeing trips are also being planned at that point, including an automobile drive over the Columbia River Highway to the Bonneville Dam. The visitors will be the guests of the Group on the air trip to Grand Coulee and the motor trip to Bonneville.

From the announcement we also quote:

From the announcement we also quote:

It is assumed that at the conclusion of the convention most of those in attendance will visit San Francisco and its Golden Gate Exposition. The San Francisco members of the Association have reserved ample hotel rooms

San Francisco members of the Association have reserved ample hotel rooms to accommodate all such visitors.

Immediately following the San Francisco visit the I. B. A. members in Los Angeles wil be "At Home" to all members of the Association who wish to visit that city. Headquarters will be established at the Ambassador Hotel to assist visitors in planning their entertainment.

In our issue of Aug. 5, page 819, we gave the list of nominees for the various offices to be elected at the convention.

Speakers Announced for Divisional Meetings at A. B. A. Convention in Seattle, Sept. 25-28—Preston Delano, R. E. Gormley and F. I. Kent to Address Delegates

R. E. Gormley and F. I. Kent to Address Delegates
Preston Delano, Comptroller of the Currency; R. E.
Gormley, Superintendent of Banks for Georgia, and Fred I.
Kent, Director, Bankers Trust Co., New York City, are
announced as speakers at divisional sessions of the 65th
annual convention of the American Bankers Association, to
be held at Seattle, Wash., Sept. 25-28, it was announced
Aug. 1 by Philip A. Benson, A. B. A. President. Comptroller
Delano and Dr. H. H. Preston, Dean of the School of
Economics and Business at the University of Washington,
will speak at the meeting of the National Bank Division of
the Association. Superintendent Gormley and Wood
Netherland, Vice-President of the Mercantile-Commerce
Bank & Trust Co., St. Louis, will speak at the meeting of the
State Bank Division. Mr. Kent will report at the Savings
Division session on the meeting of the International Chamber
of Commerce at Copenhagen, at which he is Chairman of the
A. B. A. delegation. P. R. Williams, President of the
Division, will speak at its meeting on potential competition
with banks in the savings business under proposed Federal
legislation.

Ten well known bankers and one State and one Federal Ten well known bankers and one State and one Federal Government official, it is stated, have accepted invitations to lead discussions at four round table conferences during the convention. The round table discussions, which are a new feature of A. B. A. convention programs, will be conducted on four general topics. These are "Investment and Mortgages," "Personnel and Operating Problems," "Control of Internal Operations and Earnings," and "Additional Bank Services." It is further announced:

At the investments and mortgages conference O. P. Decker, Vice-President of the American National Bank & Trust Co., Chicago, will speak on "Investment Problems Confronting Trust and Savings Departments"; Edward A. Wayne, Chief Bank Examiner of South Carolina, will discuss "A Basis for Analysis of Municipal Securities for Bank Investment"; and Stewart McDonald, Administrator of the Federal Housing Administration, will speak on "Modern Mortgage Standards." Raymond R. Frazier, Chairman of the Board of the Washington Mutual Savings Bank, Seattle, will preside

will speak on "Modern Mortgage Standards. Raymond R. Frazier, Chairman of the Board of the Washington Mutual Savings Bank, Seattle, will preside.

Ray A. Ilg, Vice-President of the National Shawmut Bank, Boston, Mass., will lead the discussion, "Selecting and Developing Personnel," at a round table conference on "Personnel and Operating Problems"; J. J. Gard, Cashier of the United States National Bank, Portland, Ore., will discuss "Work Simplification and Organization for Efficient Operation"; and Claude L. Stout, Executive Vice-President and Cashier of the Poudre Valley National Bank, Eort Collins, Colo., will discuss "AccountAnalysis as a Guide to Charges." Edwin V. Krick, Vice-President of the American Trust Co., San Francisco, will preside.

Three topics will be discussed at the round table on "Control of Internal Operations and Earnings." They are:

"Expense Control for Better Earnings," to be led by J. L. Dart, Vice-President, Florida National Bank, Jacksonville, Fla.;

"Assignment of Life Insurance Policies as Collateral Security," led by Robert C. Tait, Assistant Trust Officer, Genesee Valley Trust Co., Rochester, N Y.

"Loss Prevention First-Indemnity Always," led by Kenneth C. Bell, Chase National Bank, New York.

W. Laird Dean, President of the Merchants National Bank, Topeka, Kan., will preside.

Service to the public will feature the round table conference on "Additional Bank Services." Bert H. White, Vice-President of the Liberty Bank, Buffalo, N. Y., will speak on "Industrial Research as an Aid to Bank Customers"; Herbert V. Prochnow, Assistant Vice-President, First National Bank, Chicago, will discuss "Recent Credit Facilities for Business"; and W. B. Harrison, President of the Union National Bank, Wichita, Kan., will discuss "Meeting the Public Need for Personal Credit."

The speakers for the general sessions of the convention were given in our issue of July 15, page 355.

ITEMS ABOUT BANKS, TRUST COMPANIES &c.
Arrangements were made Aug. 9 for the transfer of a
New York Stock exchange membership at \$52,000. The
previous transaction was \$62,000 on June 16, 1939.

The Marine Midland Trust Company of New York announces the election of its Executive Vice President, Harral S. Tenney, as a Director of the Trust Company. Mr. Tenney has been with the bank since April, 1930, at which time it became affiliated with the Marine Midland Corporation. Prior to that time, he was for many years a Vice President of the New York Trust Company. Mr. Tenney is also a Director of American Reserve Insurance Company, Childs Company, Lincoln Fire Insurance Co. of New York, Marine Midland Trust Co. of Binghamton, Workers Trust Co. of Johnson City, N. Y., the Turbo-Mixer Corp., and PepsiCola Co.

John Insley Blair, retired banker, died on July 31 at his home in Tuxedo Park, N. Y., following a long illness. He was 62 years old. A native of New York City, Mr. Blair was graduated from Princeton University in 1898. On his graduation he became associated with the banking house of Blair & Co., which was founded by his grandfather, John I. Blair. He retired from business in 1905.

John P. Grier, a member of the New York Stock Exchange from 1903 to 1924, and a limited partner in the Exchange firm of Smith, Barney & Co., died on Aug. 9 at his home in New York City at the age of 71. Born in Peoria, Ill., Mr. Grier began his business career in St. Louis, later moving to Chicago to join the firm of Allen, Grier & Zeller. He later became a partner in the Chicago firm of Bartlett, Frazier & Carrington and when the firm moved its headquarters to New York Mr. Grier came with them. In 1908 he became a general partner of the former New York firm of Charles D. Barney & Co., retiring in 1924 and becoming a special partner. When the firm was merged with Edward B. Smith & Co. in 1938, to form the present firm of Smith, Barney & & Co. in 1938, to form the present firm of Smith, Barney & Co., Mr. Grier continued as a special partner.

Richard S. Storrs, retired investment broker and banker, died on Aug. 9 at his summer home near Blue Mountain Lake in the Adirondack Mountains, N. Y. He was 74 years old. A native of Cincinnati, Mr. Storrs had graduated from Yale University in 1885. He had helped found the New York investment firm of Bertron, Storrs & Griscom from which he retired over 20 years ago. The firm is now Bertron & Griscom. Mr. Storrs was a Director of the Orange First National Bank, and a member of the Board of Managers of the Orange Savings Bank, both of Orange, N. J.

Welles Bancroft Pullen, Treasurer of the Elizabeth Trust Co., Elizabeth, N. J., since 1936, died of a heart ailment on Aug. 7 at the Hospital for Joint Diseases in New York after a brief illness. Mr. Pullen, who was 42 years old, was born in St. Louis, Mo., and began his banking career in the Mississippi Valley Trust Co. of that city. He joined the Elizabeth Trust Co. eighteen years ago. The deceased banker

was also Secretary of the Stationary Engineers Building & Loan Association of Elizabeth.

Arrangements were completed August 7 for the sale of membership in the Chicago Stock Exchange at \$1,500, unchanged from the last previous sale on Aug. 4.

Today, Aug. 12, the Northern Trust Co. of Chicago is celebrating the 50th anniversary of its establishment. Its founder and first President was Byron Laflin Smith, who served the institution until his death in 1914, when he was succeeded by his son, Solomon Albert Smith, the present head of the trust company. Opening for business in 1889 in the old Rookery Building at La Salle and Adams Streets, with a paid-in capital of \$1,000,000, the Northern Trust Co. has grown steadily through the years without benefit of merger or consolidation with any other bank, until it ranks today as one of Chicago's leading banking institutions, showing in its June 30 statement a capital structure of more than today as one of Chicago's leading banking institutions, snowing in its June 30 statement a capital structure of more than \$13,200,000; deposit liabilities of \$344,261,615 and total assets of \$370,734,400. The company's present building, erected in 1906 and enlarged in 1930, is at the northwest corner of La Salle and Monroe Streets. The following are members of the Board of Directors:

A Watson Armour, Director, Armour & Co.; Sewell L. Avery. Chairman, U. S. Gypsum Co.; Chairman, Montgomery Ward & Co., Inc.; Albert B. Dick, Jr., President, A. B. Dick Cc.; John T. Pirie, President, Carson Pirie Scott & Co.; Edward L. Ryerson, Jr., Vice-Chairman, Inland Steel Co.; Chairman, Joseph T. Ryerson & Son, Inc.; Solomon Byron Smith, Vice-President, the Northern Trust Co.; Walter Byron Smith; John Stuart, President, the Quaker Cats Co.; Solomon A. Smith, President, the Northern Trust Co.

B. V. Moore, Vice-Chairman of the Trust Committee of the First National Bank & Trust Co. of Minneapolis, Minn., died on Aug. 6 after several weeks' illness. The deceased banker, who was 56 years old, was born in Tipton, Ind. After practising law in his native city and for a time holding office as Attorney for Tipton County, he located for a time in Seattle and from there went to Fargo, N. D., where for ten years he was associated with the Dakota Trust & Savings Bank. Later he moved to Minneapolis, as Deputy Governor of the Minneapolis Federal Reserve Bank. Subsequently, 1929, he joined the official staff of the old First Minneapolis Trust Co. and, upon the merger of that institution with the First National Bank in 1933, became a Vice-President of the consolidated bank, holding the office until January, 1938, when he was named Chairman of the Trust Committee, the office he held at his death. the office he held at his death.

Mills B. Lane, Jr., and John E. Wallace were elected Vice-Presidents of the Citizens & Southern National Bank (Savannah, Ga., office) at the regular meeting of the Board of Directors on Aug. 8, it is learned from the Savannah "News" of Aug. 9. Both officers had formerly held office as Assistant to the President of the institution, William Murphey. At the same meeting, two promotions were also made in the Augusta (Ga.), office of the bank ,W. J. Baird and S. W. Perry being both elected Assistant Cashiers. In regard to the new Vice-Presidents, the paper added:

Mills B. Lane, Jr., is a son of the Chairman of the Board, Mills B. Lane, who is also the founder of the bank as well as its active head. Like his father, Mr. Lane started his banking career early, and is not only a leader

who is also the founder of the bank as well as its active head. Like his father, Mr. Lane started his banking career early, and is not only a leader here but in other sections of the State. He took an important part in the recent meeting of the Georgia Bankers Association as chairman of the local committee, and as President of the Savannah Chamber of Commerce has done much fine work for the development of Savannah and the cosatal

Mr. Wallace . . . has been with the Citizens & Southern since 1919, having been previously with the National Bank of Atlanta. He continued with the Citizens & Southern after the merger and on moving to Savannah

W. A. Finlay, heretofore Assistant Manager at the Toronto (Canada) branch of the Canadian Bank of Commerce, has been appointed President of the Canadian Bank of Commerce (California) with head office in San Francisco, while N. J. McKinnon, formerly Inspector at the head office in Toronto of the Canadian Bank of Commerce, has been named Assistant Manager at the Toronto branch. The California institution is a State bank controlled by the Canadian Bank of Commerce. of Commerce.

CURRENT NOTICE

-Babcock, Rushton & Co. announce the opening of a branch office at —Babcock, Rushton & Co. announce the opening of a branch office at Room 401, Chamber of Commerce Building, Minneapolis, Minn., under the management of Darlington Davenport with Robert L. Howard as associate. Babcock, Rushton & Co., are members of the New York Stock Exchange, the Chicago Board of Trade and the Minneapolis Chamber of Commerce, and maintain offices in Chicago, New York City and Des Moines.

THE CURB EXCHANGE

Trading on the New York Curb Exchange has been rather quiet this week and the trend of prices was mixed and moved within a narrow range with the exception of Thursday and Friday when a reaction set in forcing the market downward. For the most part the market was dull and listless. Domestic ror the most part the market was dull and listless. Domestic news continued to be of a favorable character, but important buying was still missing, due in part to the tension and uncertainty in foreign affairs. The volume of transfers was exceedingly light throughout the week. After an irregularly lower opening on Saturday, many issues moved forward, though in most instances, gains were

fractional. Stocks closed irregular. Trading was extremely dull, volume declining to approximately 42,000 shares, against 46,000 in the previous short session. In the utility division, Pennsylvania Power & Light 86 pref. was up to a new 1939 high at 1064, Cities Service Power & Light 87 pref. gained 1½ points to 80, North. Indiana Public Service 7% pref. closed at 10634, a gain of 1½ points and United Light & Power pref. was up 1% to 32½, Midland Steel agained a point and closed at 17, a now 1939 peak, while Standard Oil of Nebraska duplicated its year's high at 16. United Shoe Machinery was up 1½ and closed 85½; Standard Steel Spring closed at 36% with a gain of 1 point, General Shareholders Pref. was up 1 point to 81 and Hormel & Coclimbed 1½ to 26, a new high for the year. Among the issues losing a point or more were Pittsburgh Plate Glass, Celanese Corp. of America 7% pref. Pepperell Mfg. Co., Newmont Minging and Buckeys Pipe Line.

Quiet trading and declining prices were the outstanding features of Curin market declings on Monday. The volume of transfers was approximately 93,000 shares, the smallest for a long session since mid-July, compare with 159,000 on Friday. Stocks closed lower. In the utility group, American Superpower pref. declined 1½ points to 20, General Public Service pref. was off by point and closed at 42½ and 78½ espectively. Cities Service Power & Light 87 pref. saged a point to 78. United Light & Power corv. pref. was off 2½ espectively. Cities Service Power & Light 87 pref. saged a point to 78. United Light & Power corv. pref. was off 2½ at 39¼ and Puget Sound Power & Light 87 pref. saged a point to 78. United Light & Power corv. pref. was off 2½ at 39¼ and Puget Sound Power & Light 87 pref. saged a point to 78. United Light & Power corv. pref. was off 2½ at 39¼ and Puget Sound Power & Light 87 pref. Saged a point to 78 pref. Bell Aireraft, Colt's Patent Fire Arms, Hygrade Sylvania and Aluminum Co. of America. The aviation group continued to the span and since the substitution of the pre

Mining & Mfg. closed at 56, a loss of 1 point. Additional issues losing a point or more included among others, Brown Co. pref., Cleanese Corp. of America 7% 1st pref., Lane Wells, Montgomery Ward A, Pittsburgh Plate Glass, South Penn Oil, Tubize Chatillon A and United Shoe Machinery.

Irregular price movements with a tendency toward lower levels characterized the trading during the greater part of the session on Friday. Trading continued quiet, the turnover being approximately 90,000 shares, against 122,000 on Thursday. Stocks closed lower. While the speech of Albert Foerster, Danzig Nazi leader, caused considerable concern, financial circles felt that it at least did not aggravate matters further. In the utility group dealings were more encouraging mancial circles left that it at least did not aggravate matters further. In the utility group dealings were more encouraging though in some instances moved downward, American Gas & Electric pref. declined ½ point to 112½; Cities Service pref. 1½ points to 53; Cities Service Power & Light \$7 pref. 4¼ points to 75 and North American Light & Power pref. 1½ points to 61½. Other issues which were a fraction to a 4½ points to 75 and North American Light & Power pref. 1½ points to 61½. Other issues which were a fraction to a point or more lower included General Outdoor Advertising pref., Godchaux Sugar A, Hazeltine Co., Humble Oil, Hygrade Sylvania, Minnesota Mining & Manufacturing, Pittsburgh Plate Glass, Rustless Iron & Steel pref., and United Shoe Machinery. As compared with Friday of last week prices were generally lower, Aluminum Co. of America closing last night at 113 against 119 on Friday a week ago;

Aluminium Ltd. at 120¾ against 127; American Gas & Electric at 37½ against 38½; Babcock & Wilcox at 16¾ against 18½; Bell Aircraft 18¾ against 20¾; Carrier Corp. at 12½ against 13; Fairchild Aviation at 10¾ against 11; Gulf Oil at 31 against 31½; Humble Oil at 54½ against 57; Newmount Mining at 71½ against 73½, and United Shoe Machinery at 81½ against 84½.

Curb stocks again slipped downward on Thursday, most of the active issues registering losses from fractions to a point or more, though all sections were affected by the liquidation. Some fractional recovery took place at times but it was not enough to offset the downward trend. In all probability the decline was due to the tension and uncertainty in connection with the Danzig problem. The volume increased somewhat, the turnover for the day being approximately 122,000 shares, compared with 90,000 on Wednesday. Outstanding among the recessions in the utility group were, American Superpower pref., 1½ points to 19; Carolina Power & Light \$6 pref., 1½ points to 74½; Consolidated Gas & Electric of Baltimore 3¾ points to 74½; Consolidated Gas & Electric of Baltimore 3¾ points to 74½; Consolidated Gas & Electric of Baltimore 3¾ points to 80; Florida Power & Light \$7 pref., 1½ points to 74; Puget Sound Power & Light \$6 pref., 1½ points to 6½; pref., 2½ points to 64½; Puget Sound Power & Light \$6 pref., 1½ points to 64½; Puget Sound Power & Light \$6 pref., 1½ points to 64½; Puget Sound Power & Light \$6 pref., 1½ points to 43¼; Lake Shore Mines, 1½ points to 41 and Minnesota Mining & Mfg., 1 point to 55. Other issues losing a point or more included Buckeye Pipe Line, 1½ points to 43¾; Celluloid Corp., 1st pref., 3 points to 55; Childs Co. pref., 5½ points to 36½; Cuneo Press, 1½ points to 47¾; Gulf Oil, 1½ points to 36½; Cuneo Press, 1½ points to 47¾; Gulf Oil, 1½ points to 50; Kandard Steel Spring, 1 point to 35 and United Shoe Machinery pref., 1 point to 46.

COURSE OF BANK CLEARINGS

Bank clearings this week will show a decrease compared with a year ago. Preliminary figures compiled by us based upon telegraphic advices from the chief cities of the country indicate that for the week ended today (Saturday, Aug. 12) clearings from all cities of the United States from which it is possible to obtain weekly clearings will be 1.8% below those for the corresponding week last year. Our preliminary total stands at \$4,668,719,518, against \$4,755,672,822 for the same week in 1938. At this center there is a gain for the week ended Friday of 13.3%. Our comparative summary for the week follows: Bank clearings this week will show a decrease compared

Clearings—Returns by Telegraph Week Ending Aug. 12	1939	1938	Per Cent
New York	\$2,410,650,291 206,514,268	\$2,126,788,294 202,790,274	+13.3

All cities, one day	376,344,871	888,288,798	-57.6
Total all cities for week	\$4,668,719,518	\$4,755,672,822	-1.8

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today inasmuch as the week ends today (Saturday) and the Saturday figures will not be available until noon today. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we have the total to the last day of the statement.

present further below, we are able to give final and complete results for the week previous—the week ended Aug. 5. For that week there was an increase of 24.8%, the aggregate

of clearings for the whole country having amounted to \$6,175,453,356, against \$4,949,093,592 in the same week in 1938. Outside of this city there was an increase of 11.9%, the bank clearings at this center having recorded a gain of 35.7%. We group the cities according to the Federal Reserve districts in which they are located, and from this it appears that in the New York Reserve District (including this city) totals record an expansion of 34.7%, in the Boston Reserve District of 13.3% and in the Philadelphia Reserve District of 27.2%. In the Cleveland Reserve District the totals are larger by 15.3%, in the Richmond Reserve District by 3.8% and in the Atlanta Reserve District by 6.3%. The Chicago Reserve District enjoys a gain of 12.1%, the St. Louis Reserve District of 8.8% and the Minneapolis Reserve District of 3.6%. In the Kansas City Reserve District the increase is 4.4%, in the Dallas Reserve District 8.2% and in the San Francisco Reserve District 2.8%. In the following table we furnish a summary by Federal Reserve districts:

THE ENGLISH GOLD AND SILVER MARKETS

We reprint the following from the weekly circular of Samuel Montagu & Co. of London, written under date of July 26, 1939:

GOLD

The Bank of England gold reserve against notes on July 19 was £246,—416,965 at 148s. 6d. per fine ounce showing no change as compared with the previous Wednesday.

In the open market the amount of gold disposed of at the daily fixing was about £1,800,000, most of which came from official quarters. Some purchases were made for shipment to New York, but buying on Continental account was the principal feature; today's level, however, proved too high for buyers in the market and, in the absence of demand, part of the offerings was taken by the authorities.

	Per Fine Ounce
July 20	148s. 61/2d.
July 21	148s. 61/2d.
July 22	148s. 6d.
July 24	148s. 51/4d.
July 25	148s. 6d.
July 26	148s. 61/2d.
Average	148s. 6.17d.

The following were the United Kingdom imports and exports of gold gistered from midday on the 17th inst. to midday on the 24th inst.:

Imports		Exports	1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1
Union of South Africa £2	.958.424	U. S. of America	£7.401.662

Other countries	10,257	Switzerland	50,680
		Other countries	7,765

£3,164,688

#3,164,688 £9,657,407

The SS. Rawalpindi which salled from Bombay on July 22 carries gold to the value of about £312,000.

SILVER

Until yesterday the market had shown a very steady tone, the cash quotation varying only between 16¾d, and 16 13-16d, and that for two months between 16¾d, and 16 5-16d,; offerings, which included speculative resales and selling for prompt shipment from America, were readily absorbed by purchases by the Indian Bazaars and to cover bear sales. Yesterday, following weak advices from Bombay, resales from that quarter replaced the buying which had been in evidence hitherto and prices declined to 16¾d, and 16¾d, for the respective deliveries; similar conditions prevailed today and there was a further fall of 3-16d, to 16 7-16d.

At the moment the market seems steady at the fall, but unless there is a revival of Indian demand, the present level may prove sufficiently high.

and 16 1-16d.

At the moment the market seems steady at the fall, but unless there is a revival of Indian demand, the present level may prove sufficiently high.

The following were the United Kingdom imports and exports of silver registered from midday on the 17th inst. to midday on the 24th inst.:

Imports	Exports
Hongkonga£67,885	British India£158.090
Iraq b2,884	Egypte20,393
Eire c4.450	Hungary 50.050
Belgium 18,592	France 8.880
France 4.742	Netherlands 3.125
Other countries 1,848	Other countries 4,172

a Including £42,233 in coin not of legal tender in the United Kingdom.
b Coin not of legal tender in the United Kingdom. c Coin of legal tender in the United Kingdom. d Including £19,633 in coin not of legal tender in the United Kingdom.

MONTHLY REPORT ON GOVERNMENTAL CORPORATIONS AND CREDIT AGENCIES AS OF JUNE 30, 1939

The monthly report of the Treasury Department, showing assets and liabilities as of June 30, 1939, of governmental corporations and credit agencies, financed wholly or in part by the United States, was contained in the Department's "Daily Statement" for July 31, 1939.

Since the statement of July 31, 1938, the report has been made up somewhat differently from previous reports in that agencies and corporations financed wholly from Government funds are not listed separately from those financed only partly from Government and partly from private funds. In the footnotes to the table below, an explanation is given of the simplification of calculation of proprietary interest. As now computed, the Federal Government's proprietary interest in these agencies and corporations, as of June 30, was \$3,668,238,499, and that privately owned was \$387,439,392.

SUMMARY OF COMBINED STATEMENT OF ASSETS AND LIABILITIES OF GOVERNMENTAL CORPORATIONS AND CREDIT AGENCIES OF THE UNITED STATES, COMPILED FROM LATEST REPORTS RECEIVED BY THE TREASURY—JUNE 30, 1939

a Non-stock (or includes non-stock proprietary interests).
b Excess inter-agency assets (deduct).

a Non-stock (or includes non-stock proprietary interests).

b Excess inter-agency assets (deduct),
c Deficit (deduct),
d Exclusive of inter-agency assets and liabilities (except bond investments and epocits with Reconstruction Finance Corporation).
e Excludes unexpended balances of appropriated funds,
f Also includes real estate and other property held for sale,
g Adjusted for inter-agency items and items in transit.
h Also includes deposits with the Reconstruction Finance Corporation and curued interest thereon.

1 Shares of State building and loan associations, \$43,425,010; shares of Federal avings and loan associations, \$173,033,800.

J Assets not classified. Includes only the amount of shares held by the United tates Treasury.
k Net after deducting reserve for estimated amount of uncollectible obligations eld by the Farm Credit Administration.

j Assets not classified. Includes only the amount of shares held by the United States Treasury.

k Net after deducting reserve for estimated amount of uncollectible obligations held by the Farm Credit Administration.

I includes \$2,476,705 due to Federal Land banks from the United States Treasury for subscriptions to pald-in surplus,

m Represents inter-agency assets and liabilities of the Treasury Department and of Government agencies, which agencies are not included in this statement.

n Represents inter-agency holdings of capital stock and pald-in surplus items which are not deducted from the capital stock and pald-in surplus of the corresponding organizations.

Note—Effective with the statement of July 31, 1938, the proprietary interest represented by the capital stock, pald-in surplus, and non-stock interest in governmental corporations and agencies which were offset by a corresponding item under "inter-agency proprietary interest" of the Treasury, have been omitted (except for such items as are included in the inter-agency assets and liabilities shown herein) for the purpose of simplification in form.

TREASURY CASH AND CURRENT LIABILITIES

The cash holdings of the Government as the items stood July 31, 1939, are set out in the following. The figures are taken entirely from the daily statement of the United States Treasury July 31, 1939.

GOVERNMENT RECEIPTS AND EXPENDITURES

Through the courtesy of the Secretary of the Treasury, we are enabled to place before our readers today the details of Government receipts and disbursements for July 1939 and 1939.

NOTICE—Effective July 1, 1939, the form of stating the receipts and expenditures of the Government on page 2 of the daily Treasury statement is revised so as to combine expenditures heretofore exhibited separately under "General" and "Recovery and Relief." This change is made in order to reflect the transfer of functions under the President's Reorganization Plans Nos. I and II. For the present, expenditures will continue to be published separately under the classifications "General" and "Recovery and Relief" in special tables in the monthly Treasury bulletin.

General and Special Accounts:

——Month of July———

General and Special Accounts:		of July-
Receipts—	1939	1938

DIVIDENDS

Dividends are grouped in two separate tables. In the first we bring together all the dividends announced the current week. Then we follow with a second table in which we show the dividends previously announced, but which have not yet been paid. Further details and record of past dividend payments in many cases are given under the company name in our "General Corporation and Investment News Department" in the week when declared.

The dividends announced this week are:

Name of Company	Per Share	When Payable	Holders of Record

Weekly Return for the Member Banks of the Federal Reserve System

Following is the weekly statement issued by the Board of Governors of the Federal Reserve System, giving the principa items of the resources and liabilities of the reporting member banks in 101 leading cities from which weekly returns are obtained. These figures are always a week behind those for the Reserve banks themselves. The comment of the Board of Governors of the Federal Reserve System upon the figures for the latest week appears in our department of "Current Events and Discussions," immediately preceding which we also give the figures of New York and Chicago reporting member banks for a week later.

Commencing with the statement of May 19, 1937, various changes were made in the breakdown of loans as reported in this statement, which were described in an announcement of the Federal Reserve Bank of New York of April 20, 1937, as follows:

The changes in the report form are confined to the classification of loans and discounts. This classification has been changed primarily to show the amounts of (1) commercial, industrial and agricultural loans, and (2) loans (other than to brokers and dealers) for the purpose of purchasing or carrying securities. The revised form also eliminates the distinction between loans to brokers and dealers in socurities located in New York City and those located outside New York City. Provision has been made also to include "acceptances of own bank purchased or discounted" with "acceptances and commercial paper bought in open market" under the revised caption "open market paper," instead of in "all other loans," as formerly.

A more detailed explanation of the revisions was published in the terms "commercial, industrial and agricultural loans" and "other loans" would each be segregated as "on securities" and "otherwise secured and unsecured."

A more detailed explanation of the revisions was published in the terms "commercial, industrial and agricultural loans" and "other loans of the revisions was published

x These are certificates given by the United States Treasury for the gold taken over from the Reserve banks when the dollar was, on Jan. 31, 1934, devalued from 100 cents to 59.06 cents, these certificates being worth less to the extent of the difference, the difference itself having been appropriated as profit by the 1 reasury under the provisions of the Gold Reserve Act of 1934.

Includes deposits in foreign branches as follows: a \$270,857,000; b \$95,946,000; c \$7,527,000; d \$98,776,000; e \$36,340,000.

Weekly Return of the Board of Governors of the Federal Reserve System

The following was issued by the Board of Governors of the Federal Reserve System on Thursday afternoon, Aug. 10, showing the condition of the 12 Reserve banks at the close of business on Wednesday. The first table presents the results for the System as a whole in comparison with the figures for the eight preceding weeks and with those of the corresponding week last year. The second table shows the resources and liabilities separately for each of the 12 banks. The Federal Reserve note statement (third table following) gives details regarding transactions in Federal Reserve notes between the Reserve Agents and the Federal Reserve banks. The comments of the Board of Governors of the Federal Reserve System upon the returns for the latest week appear in our department of "Current Events and Discussions."

^{* &}quot;Other cash" does not include Federal Reserve notes. † Revised figures.

These are certificates given by the United States Treasury for the gold taken over from the Reserve banks when the dollar was devalued from 100 cents to 59.06 pents on Jan. 31, 1934, these certificates being worth less to the extent of the difference, the difference itself having been appropriated as profit by the Treasury under provisions of the Gold Reserve Act of 1934.

y With the statement of Jan. 4, 1939 two new items appeared, "Other liabilities, including accrued dividends," and "Other capital accounts." The total of these two items corresponds exactly to the total of two items formerly in the statement but now excluded, viz.: "All other liabilities," and "Reserve for contingencies." The statement for Aug. 10, 1938 has been revised on the new basis and is shown accordingly.

Weekly Return of the Board of Governors of the Federal Reserve System (Concluded)

Stock and Bond Sales—New York Stock Exchange DAILY, WEEKLY AND YEARLY

Occupying Altogether Sixteen Pages-Page One

Cash and deferred delivery sales are disregarded in the day's range, unless they are the only transfer of such sales in computing the range for the year.

United States Government Securities on the New York Stock Exchange

Below we furnish a daily record of the transactions in Treasury, Home Owners' Loan and Federal Farm Mortgage Corporation bonds on the New York Stock Exchange during the current week.

Quotations after decimal point represent one or more 32ds of a point.

Bond Record—New York Stock Exchange

FRIDAY, WEEKLY AND YEARLY

NOTICE—Prices are "and interest"—except for income and defaulted bonds. Cash and deferred delivery sales are disregarded in the week's range, unless they are the only transactions of the week, and when selling outside of the regular weekly range are shown in a footnote in the week in which they occur. No account is taken of such sales in computing the range for the year.

The italic letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

Notice—Cash and deferred delivery sales are disregarded in the week's range unless they are the only transactions of the week in which they occur. No account is taken of such sales in computing

In the following extensive list we furnish a complete record of the transactions on the New York Curb Exchange for the week beginning on Saturday last (Aug. 5, 1939) and ending the present Friday (Aug. 11, 1939). It is compiled entirely from the daily reports of the Curb Exchange itself, and is intended to include every security, whether stock or bond, in which any dealings occurred during the week covered.

Mortgage Loans in New York Home Loan Bank District Increased 10.9% in Second Quarter over First Ouarter

Estimating at \$123,984,000 the aggregate amount Estimating at \$123,984,000 the aggregate amount of mortgage loans placed on homes and small business properties in the Second (New York) Federal Home Loan Bank District, embracing the States of New York and New Jersey, during the second quarter of 1939, the Federal Home Loan Bank of New York on Aug. 5 noted a gain in volume of 10.9% over the first quarter, and bringing to \$235,830,000 the six months' figure. Activity by months is revealed in the following table made available by the Bank:

	New Jersey	New York	Second Federal Home Loan Bank District
January February March April May June	\$18,469,000 14,368,000 14,338,000 13,116,000 13,895,000 15,556,000	\$22,303,000 19,226,000 23,142,000 25,414,000 27,071,000 28,932,000	\$40,772,000 33,594,000 37,480,000 38,530,000 40,966,000 44,488,000
Totals	\$89,742,000	\$146,088,000	\$235,830,000

The figures are part of a nation-wide monthly survey instituted at the beginning of the year by the Federal Home Loan Bank Board. They are based on recorded mortgages of \$20,000 or less, with farm properties excluded. The Bank's announcement went on to say:

In reviewing the detailed figures for the second quarter the Bank notes that individuals and miscellaneous lenders continued as the principal source of mortgage money, accounting for 35% of the total volume, the same proportion as in the first quarter. Savings and loan associations moved into second place and accounted for 24% of the total, as compared with 22% in the first quarter. The proportion attributed to commercial banks fell from 27% to 22%. The largest proportionate increase was reported by the mutual savings banks, which loaned \$14,642,000 to account for 12% of the second quarter's recordings, as compared with \$9,579,000 in the first quarter. Insurance companies accounted for the remaining 7% in each quarter. in each quarter.

The following table reveals the estimated source of all non-farm mort-gages of \$20,000 or less, for the two States comprising the Second Federal Home Loan Bank District, for the three months ending June 30:

	Number	Amount	% of Total
Individuals and others Savings and Loan Associations Commercial banks Savings banks Insurance companies	15,728 9,125 6,900 3,674 1,293	\$43,152,000 29,640,000 27,974,000 14,642,000 8,576,000	35 24 22 12 7
Total	36,720	\$123,984,000	100

Activity in the Second District compares with a 29.5% increase in the estimate of nation-wide mortgage recordings of similar character, with second-quarter volume totaling \$1,014,673,000 as compared with mortgage recordings of \$783,471,000 in the first quarter. In the analysis of the sources of mortgage funds for the country as a whole, savings and loan associations showed the largest proportionate gain, accounting for 31% of total volume, as compared with 29% in the first quarter. Mortgages placed by individuals and miscellaneous lenders dropped from 33% to 32% of the total, and the proportion accounted for by commercial banks dropped from 26% to 25%. Insurance companies provided 9% and savings banks 3% of the total in both quarters, in the figures for the country as a whole.

Stock Clearing Corporation's Amendment Permitting Settlement of Transactions Between Members in Unlisted Securities to Become Effective Aug. 16

Isaac R. Halliday, President of the Stock Clearing Corporation, informed members of the New York Stock Exchange on Aug. 10 that the recently adopted amendment to the corporation's rules, which makes provision for the delivery and settlement, through the Stock Clearing Corporation, of transactions between members in unlisted securities will become effective Aug. 16. In making this known, an become effective Aug. 16. In making tannouncement by the Stock Exchange said:

The effect of this additional operation is to extend to transactions between members the settlement facilities in unlisted securities which have hereto-fore been available, since 1928, to transactions between members and some 15 banks in the financial districts.

Previous reference to this amendment was given in these columns July 15, page 335.

Stock Clearing Corporation Makes Its Facilities Available to Members for Settlement of Transactions in Ten-Share Unit Stocks

The Stock Clearing Corporation, subsidiary of the New York Stock Exchange, announced on Aug. 4 that, as an added service to members, the facilities of the Corporation will be available to its members for the settlement of transactions in all ten-share unit stocks, beginning with transactions due Aug. 9.

Operations of Bureau of Internal Revenue in Fiscal Year Ended June 30 Incident to Investigation of Income-Tax Returns—10% Increase in Returns Ex-amined—Speeding up in Settlement of Contested Tax Cases

Secretary of the Treasury Henry Morgenthau, Jr., announced on July 31, results of the operations of the Bureau of Internal Revenue during the fiscal year ended June 30, 1939 in the investigation of income-tax returns and the settlement of cases contested by taxpayers. The number of income tax returns subjected to investigation during the year was 490,673, compared with 444,448 returns investigated in the fiscal year 1938, an increase of 46,225 returns, or 10%. The number of income tax cases closed during the fiscal year 1939 by the assessment of additional tax was or 10%. The number of income tax cases closed during the fiscal year 1939 by the assessment of additional tax was 241,042. This compares with 213,707 cases closed in the preceding year by the assessment of additional tax, an increase of 27,335 cases, or 13%. In announcing the results of operations the Treasury said:

The amount of deficiency income tax assessments on returns closed during the fiscal year 1939 was \$197,640,069, exclusive of penalties and interest. This compares with \$169,969,785 assessed as income tax deficiences in the fiscal year 1938, an increase of \$27,670,284, or 16%. The aggregate of income tax deficiencies assessed during the fiscal year 1939 was larger than in any year since 1931, when deficiency assessments amounted to \$197,798,731.

The number of cases closed during the fiscal year 1939 which involved

The number of cases closed during the fiscal year 1939 which involved refunds or credits to taxpayers was 64,533, by comparison with 58,707 such cases closed during the fiscal year 1938, an increase of 5,826 cases, or 10%. The amount of refunds and credits in the fiscal year 1939 was \$34. 616,121 by comparison with \$29,352,854 in 1938, an increase of \$5,263,267, or 18%.

Inventories of unassessed back taxes were materially reduced during the ear. The number of income tax returns for 1937 and prior years in process f examination and review on June 30, 1939 was 145,730. This compares

year. The number of income tax returns for 1937 and prior years in process of examination and review on June 30, 1939 was 145,730. This compares with 226,319 returns for 1936 and prior years in process of examination and review on June 30, 1938, a reduction of 80,589 returns, or 36%.

The number of examined income-tax returns involving adjustments not agreed to by the taxpayers and pending action by the Bureau and its field offices on June 30, 1939 was 43,984. This compares with 46,272 adjusted returns pending without taxpayers' agreement on June 30, 1938, a decrease of 2,288.

The number of income and estate tax cases pending before the Board of

The number of income and estate-tax cases pending before the Board of Tax Appeals on June 30, 1939 was 6,574 compared with 7,414 on June 30, 1938, a reduction of 840, or 11%. 4,854 cases were appealed to the Board during the fiscal year 1939, compared with 4,912 during the preceding fiscal

The results show a speeding up in the settlement of contested tax cases, the Treasury's announcement said. The settlement machinery of the Bureau was completely reorganized during the year under the direction of Commissioner Guy T. Helvering. Reference to the completion of this reorganization was made in our issue of May 20, page 2980.

Q. Forrest Walker, Economist of R. H. Macy & Co., Inc. Contends Fixed Retail Prices Mean Lower Profits on Standard Brands—Correction of Earlier Report of Address

Inasmuch as a recent address by Q. Forrest Walker, Economist of R. Macy & Co., Inc., delivered at the Fair Trade Luncheon Forum at the Hotel Park Central, New York was incorrectly reported in some particulars in our issue of July 29, page 716, we take occasion here to again refer to Mr. Walker's address, in view of the misinterpretation which might arise as to the purport of his remarks. Two errors were made in reporting Mr. Walker's address on page 716, where, as a result of a typographical error, it was made to appear that the speech was delivered on July 17 at the New York World's Fair, instead of at the Fair Trade Luncheon Forum. Likewise our item was in-correct in quoting from Mr. Walker's address to the effect

"to the progressive merchant who knows arithmetic fixed retail prices mean reduction of prices on standard brands."

What he actually said was that "fixed retail prices mean reduction of profits on standard brands."

The title of Mr. Walker's address was "Has Fair Trade Accomplished Its Purpose?" and as indicated in our item on page 716, in conclusion, he said:

"Fair trade" has not accomplished the statutory concepts of its purposes. There has been some success in achieving its real purpose of raising prices, but that success has been accompanied by evasion evils and unfair enforcement. As a means of improving the economic condition of merchants, these laws have been a complete failure. Sooner or later an aroused public opinion will demand their repeal.

Report on Four Industry Groups Issued by SEC—Based on Census of American Listed Corporations

On Aug. 4 the Securities and Exchange Commission made On Aug. 4 the Securities and Exchange Commission made public four more of a series of reports based on a Work Projects Administration study known as the Census of American Listed Corporation. The current reports contain a summary of selected data on the following four industry groups composed of corporations registered under the Securities Exchange Act of 1934: Bakers of Biscuits and Crackers; Bakers of Bread and Cake; Cereal Manufacturers and Millers; and Quarrying and Non-Metal Mining. Although these summaries contain essentially the same in-Although these summaries contain essentially the same information as the first 18 published reports of this series, they have not been printed and, therefore, are not available for free distribution. They are, however, open to public inspection and use at the offices of the Securities and Exchange Commission in Washington, D. C., New York, N. Y., and Chicago, Ill. and, if the demand justifies, copies will also be made available at other regional offices of the Commission

FILING OF REGISTRATION STATEMENTS UNDER SECURITIES ACT

The following additional registration statements (Nos. 4150

The following additional registration statements (Nos. 4150 to 4155, inclusive) have been filed with the Securities and Exchange Commission under the Securities Act of 1933. The amount involved is approximately \$54,640,600.

Northern Indiana Public Service Co. (2-4150, A-2) of Hammond, Ind. has filed a registration statement covering \$45,000,000 of 334% first mortgage bonds, series A, due Aug. 1, 1969. Filed Aug. 4, 1939. (See subsequent page for further details).

Atlas Pipeline Corp. (2-4151, Form D-1) bondholders protective committee, of Philadelphia, Pa. has filed a registration statement covering \$336,000 certificates of deposits for 6% first mortgage sinking fund convertible bonds due 1945. H. D. Beenning is Chairman of the committee. Filed Aug. 4, 1939.

Arrowhead Springs Corp. (2-4152, Form A-1) of Los Angeles, Calif.

vertible bonds due 1945. H. D. Boenning is Chairman of the committee. Filed Aug. 4, 1939.

Arrowhead Springs Corp. (2-4152, Form A-1) of Los Angeles, Calif. has filed a registration statement covering 20,000 shares of no par value common stock, which will be offered at \$25 per share first to certain stockholders and the unsubscribed portion will be offered to others. Proceeds of the issue will be used for property development, buildings, equipment and working capital. Jay Paley is president of the company. No underwriter named. Filed Aug. 5, 1939.

Colony Fund, Inc. (2-4153, Form A-1) of New York, N. Y. has filed a registration statement covering 100,000 shares of 10 cent par non-voting common stock, which will be offered at book value plus 5%. Aggregate amount of the issue is not to exceed \$250,000. Proceeds will be used for investment purposes. Joseph Stone is president of the company. No underwriter named. Filed Aug. 5, 1939.

Transair Corp. (2-4154, Form A-1) of San Francisco, Calif. has filed a registration statement covering 250,000 shares of no par value common stock, which will be offered at \$4 per share. Proceeds of the issue will be used for machinery, equipment, building and working capital. F. L. Hewitt is president of the company. Shaw Hooker & Co. has been named underwriter. Filed Aug. 5, 1939.

Pennsylvania Telephone Corp. (2-4155, Form A-2) of Eric, Pa. has filed a registration statement covering \$5,200,000 of 34% first mortgage bonds, due Aug. 1, 1969 and 46.292 shares of \$2.25 cumulative preferred stock, no par value. Filed Aug. 8, 1939. (See subsequent page for further details).

The last previous list of registration statements was given in our issue of Aug. 5, page 867.

Acadia Sugar Refining Co., Ltd.—To Be Sold—
The directors announced Aug. 1 they had accepted an offer from AngloDutch Refining Co., Ltd., for purchase of the company, subject to approval
of the shareholders.
The announcement said the proposed purchase price was "understood"
to be \$3,000,000, of which one-half would be payable in cash and one-half
in 6% 15-year redeemable debentures.—V. 148, p. 3209.

Alabama Water Service Co.—Acquisition of Securities—

Alabama Water Service Co.—Acquisition of Securities—
The Securities and Exchange Commission announced Aug. 4 that Alabama Water Service Co., (a subsidiary of Federal Water Service Corp. and of Utility Operators Co.,) had filed an application (File 46-163) under the Holding Company Act for approval of the acquisition of certain securities of Chattanooga Gas Co. for a total price of \$810,000. The securities of Chattanooga Gas Co. for a total price of \$810,000. The securities of Chattanooga Gas Co. to be acquired are: 7,500 shares of common stock (\$100 par); 5,000 shares of 6% preferred stock, (\$100 par); \$1,200,302 6% demand note dated April 23, 1932 (unsecured), and \$155,478 6% demand note dated May 27, 1932 (unsecured). In addition, the corporation will acquire an open account indebtedness due from Chattanooga Gas Co, to the United Light & Power Co. in the amount of \$156,141.

Combined applications were filed by Alabama Water Service Co. and Federal Water Service Corp. for approval of the following transactions:

(1) The conversion by Federal Water Service Corp. of \$500,000 non-interest bearing, non-negoriable debentures, without fixed maturity, of Alabama Water Service Co. into a like principal amount of 5% first mortgage gold bonds, series A, due Jan. 1, 1957, of Alabama and the donation to Alabama of such bonds issued upon the conversion.

(2) The acquisition by Alabama Water Service Co. of such bonds and the tender to the trustee under the indenture securing the bonds of a principal amount sufficient to exhaust the sum of \$300,000, and the surrender to the trustee of or cancellation of any balance of the \$500,000 principal amount of bonds.

(3) Alabama Water Service Co. will mortgage and pledge to the trustee under the indenture securing the bonds all of the securities of Chattanooga Gas Co.—V. 148, p 2731.

Aluminum Co. of America—Exempt Under Utility Hold-

Aluminum Co. of America—Exempt Under Utility Holding Company Act-

An order exempting the company from provisions of the Public Utility Holding Company Act was issued Aug. 9 by the Securities and Exchange

Commission. Also exempted were Aluminum Ore Co. and Messena Securities Corp., while St. Lawrence River Power Co., a subsidiary of the latter, was not found to be an electric utility company within the meaning of the Act.

The Commission exempted Aluminum Co. on the grounds that it was only incidentally a holding company, being primarily engaged in the production and sale of aluminum and aluminum products, that only a small part of its income came from its utilities subsidiaries and that these subsidiaries were 100% owned.

The Commission found St. Lawrence River Power Co. not to be on electric utility under the Act because it furnished only a small amount of electric energy to persons other than Aluminum Co. of America.—V. 148, p. 3524.

American Airlines, Inc.—Oerpations—
Revenue passengers carried by this company, in July totaled 51,546, an increase of 72.5% over the same month in 1938 and an all-time record for the month of July, Charles A. Rheinstrom, Vice-President in Charge of Sales, announced on Aug. 7.

Revenue passenger miles flown by American Airlines reached 19,301,587, an increase of 66.7% over July of 1938. The airline's load factor was 65.8%, as compared with a load factor of 50.8% in July, 1938.
Every route on American's coast-to-coast system recorded an increase in revenue passenger miles and revenue passengers carried in July in comparison to the same month in 1938.—V. 149, p. 253.

American Arch Co.—New Director—
Raymond Willey, has been elected a director of this company to fill the vacancy left by the death of J. E. Lewis.
George A. Price, Executive Vice-President has been elected to the Executive Committee to fill the place of the late Mr. Lewis.—V. 147, p. 903.

The actual value of these assets is not determinable at this date. y After reserve for depreciation since July 1, 1931, of \$12,185,014 in 1939 and \$13,028,158 in 1938. z Obligation of The Pocono Co., a wholly owned subsidiary. a Represented by 400,00 no par shares.—V. 148, p. 1309.

Anheuser-Busch, Inc.—Dividend Doubled—
Directors have declared a dividend of \$1 per share on the common stock, par \$20, payable Sept. 9 to holders of record Aug. 26. This compares with 50 cents paid on June 10 and on March 10, last, and regular quarterly dividends of 30 cents in preceding three months periods. In addition, an extra dividend of 40 cents was paid on Dec. 12, 1938.—V. 148, p. 1308.

Arkansas Power & Light Co.—Accumulated Dividend—Directors have declared a dividend of \$1.75 per share on account of accumulations on the 7% cumulative preferred stock and a dividend of \$1.50 per share on account of accumulations on the \$6 cumulative preferred stock, both payable Oct. 2 to holders of record \$ept. 15. Similar amounts were paid in each of the 16 preceding quarters.—V. 149, p. 718.

Arrowhead Springs Corp.—Registers with SEC—See list given on first page of this department.—V. 148, p. 2255.

Associated Gas & Electric Co.—Tenders—
The Public National Bank & Trust Co. of N. Y. will until 12 o'clock noon, Aug. 22 receive bids for the sale to it of sufficient sinking fund income debentures, due 1983, series A. B. C. and D. to exhaust the sum of \$2,805 at prices not exceeding redemption prices.

Weekly Output-

For the week ended Aug. 4, Associated Gas & Electric System reports net electric output of 97,940,522 units (kwh.). This is an increase of 10,-011,722 units or 11.4% above production of 87,928,800 units for a year ago. Gross output, including sales to other utilities, amounted to 108,138,276 units for the current week.—V. 149, p. 868.

units for the current week.—V. 149, p. 868.

Atlantic & East Carolina Ry.—Stock—

The Interstate Commerce Commission on Aug. 1 authorized the company to issue not exceeding \$100.00 of 6% non-cumulative preferred stock, (par \$100), and 1.000 shares of common stock (no par), having an assigned value of \$10 a share, in connection with the lease of the properties of the Atlantic & North Carolina RR.

The company was incorp. on June 19, 1939, under the laws of North Carolina for the purpose, among others. of leasing and operating the properties of the Atlantic & North Carolina RR. extending from Morchead City to Goldsboro, N. C., a distance of approximately 94 miles.

To provide the money necessary for a cash bond, \$25,000 for working pital. \$25,000 for cash payment for new equipment estimated to cos approximately \$50,000, consisting of one gasoline or Diesel electric motor car of about 500 horsepower and two 30-ton gasoline or Diesel switching locomotives, to compensate H. P. Edwards for procuring the lease, and for other lawful corporate purposes, the company proposes to issue \$100,000 of 6% non-cumulative preferred stock, and 1,000 shares of common stock. The preferred stock will be sold at not less than par, 500 shares of the common stock will be sold to the organizers at 310 a share, and the remaining 500 shares of the common stock will be issued to Edwards in payment for negotiating the lease.

Brown Fence & Wire Co. Sold:

British American Oil Co., Ltd.—Issue Sold—
Announcement was made Aug. 3 of the sale of \$4,000,000 debentures, proceeds of which will be used to reimburse company for expenditures in redeeming the present outstanding 10-year 4% debentures and for other corporate purposes.

The issue, it was stated, has been taken by A. E. Ames & Co., which firm, it is indicated, has privately placed the debentures with a limited number of Canadlan banks and institutions.

Dated Sept. 15, 1939, the new debentures will be issued in a series of nine \$250,000 lots, maturing from 1940 to 1948, and in one lot of \$1,750,000 maturing in 1949. The average yield for the issue will be 2.746%.—V. 147, p. 3605.

Brown Fence & Wire Co.—Sales—
Sales in July were \$218,240 against \$202,119 in July, 1938, an increase of \$16,121, or 8%. Company's fiscal year ends June 30.—V. 148, p. 3527.

central Ohio Light & Power Co.—Securities Offered—Financing aggregating approximately \$4,800,000 for the company was carried out Aug. 9 with the offering of \$4,100,000 lst mortgage 4% bonds, series C, due 1964; \$500,000 3½% serial notes, due Aug. 1, 1940-1944, and 2,200 shares of \$6 cumulative preferred stock. E. H. Rollins & Sons, Inc., was the principal underwriter for the offering. Other underwriters for the bonds include Halsey, Stuart & Co., Inc., Central Republic Co. and A. C. Allyn & Co., Inc. Woodcock, McLear & Co. was associated with E. H. Rollins & Sons, Inc., in the offering of the pref. stock, the latter being the sole underwriter for the serial notes. The bonds were priced at 103½; the serial notes at an average price of 101.02, and the \$6 preferred stock at \$90 per share.

Net proceeds from the sale of the new securities, together with funds

Net proceeds from the sale of the new securities, together with fun in the treasury, will be used to retire the company's 1st mtge. 5% bonds series A, due 1950: 1st mtge. 5% bonds, series B, due 1962: 3-year 41% convertible secured notes, due 1940. outstanding in an aggregate pricing

amount of \$4,350,000; to pay off miscellaneous indebtedness totaling \$217,375; and to reimburse the company's treasury to the extent of \$187,000 for capital expenditures.

The 1st mtge, series C, bonds will have the benefit of a sinking fund into which the company will pay annually sums ranging in amount from ¼ of 1% on Aug. 1, 1940; to 1½% on and after Aug. 1, 1945, of the greatest principal amount of the bonds at any time theretofore outstanding.

For the sinking fund, the 1st mige, series C bonds will be redeemable in part at 103½, if red, on or before Oct. 31, 1941, with successive reductions in the redemption price of ½ of 1% annually from Nov. 1, 1941 through Nov. 1, 1959, and at the principal amount thereafter. Other than for the sinking fund the series C bonds will be red, at any time as a whole, or from time to time in part, by lot, at 107½ on or prior to July 31, 1941, with successive reductions in the redemption price of ¼ of 1% annually from Aug. 1, 1941, through Aug. 1, 1959, and at the principal amount on and after Aug. 1, 1960.

The indenture provides that the company will appropriate from annual income, so long as any of the series C bonds remain outstanding, a sum equal to 15% of total operating revenue, after certain deductions, for maintenance of its property and to provide a reserve for renewals, replacements, &c. An exception to this requirement is made in certain cases.

The 3½% serial notes may be redeemed as a whole, or by series or from time to time, in part by lot, on and after Aug. 1, 1940, at the principal amount plus a premium of 1% if the redemption date is more than six months but less than 18 months prior to the specified maturity; or 2% if the redemption date is 18 months or more prior to the specified maturity.

In the event of liquidation, either voluntary or invountary, the \$6 pref. stock is entitled to \$110 per share. It is redeemable at any time as a whole, or from time to time in part. At \$110 per share.

History and Business—Company was incorporated in Ohio on Sept. 4, 19

Central States Edison, Inc.—Tenders—
Chase National Bank as trustee under indenture is inviting bids for the sale to it of 15-year collateral trust bonds due March 1, 1950 of the company, at prices not exceeding par and cumulative unpaid interest, in an amount sufficient to exhaust the sum of \$36,000. Bids will be received at the Corporate Trust Department of the bank, 11 Broad Street, until 12 o'clock noon, Aug. 25, 1939. The indenture provides that the trustee shall not accept any proposals unless at a price or prices approved by Central States Edison, Inc.—V. 149, p. 722.

Chain Belt Co.—Listing—

The Chicago Stock Exchange has approved the company's application to list 140,000 additional shares of no par value capital stock, which will be admitted to trading upon official notice of issuance.

Champion Paper & Fibre Co.—Stockholders Approve Financial Plans—Time, Inc., to Purchase \$1,000,000 Pref. Stock—\$6,000,000 in Bank Loans and Sale of \$7,000,000 Bonds

Stock—\$6,000,000 in Bank Loans and Sale of \$7,000,000 Inej.

Privately Approved—

At a special meeting the stockholders approved Aug. 8 an increase in the authorized number of shares of 6% cumulative preferred stock from 85,000 shares (the present authorized amount) to 115,000 shares.

The stockholders also approved an agreement negotiated with Time, Inc., (publisher of the nationally-known magazines "Time," "Life," and "Fortune"), providing for the manufacture by the company at its plant near Houston, Texas, of a substantial quantity of paper for Time, Inc., has agreed that it will purchase, for investment and not with a view to distribution, \$1,000,000 of company's 6% cumulative preferred stock at par plus accrued dividends.

The stockholders also approved other financial arrangements, viz.: (a) the sale of an issue of \$6,000,000 of serial notes which, it is expected, will carry interest at rates varying from approximately 1½% to 3½% per annum, and will mature serially in from one to seven years after their issue and (b) the sale to certain insurance companies of an issue of \$7,000,000 first mortgage bonds which, it is expected, will carry interest at approximately 4½% per annum and will mature serially from the 9th to the 15th year after their issue.

It is expected that the proceeds of these two issues will be used: to retire the \$10,07,000 of outstanding 4½% sinking fund debentures, 1935 and 1938 issues, which at present constitute the company's only funded debt; to supply the balance of funds necessary for the erection of the new paper mill at Houston in excess of the \$1,000,000 to be derived from the sale of 6% cumulative preferred stock to Time, Inc.; and to increase company's working capital for current operating purposes (see also V. 149, p. 408).

Listing of Additional Common and Preferred Stocks—

Working capital for current operating purposes (see also V. 149, p. 408).

Listing of Additional Common and Preferred Stocks—
The New York Stock Exchange has authorized the listing of 5,000 additional shares of common stock (no par), upon exercise of option held by Donald B. Bradner, making the total amount applied for 556,000s hares; and 10,000 additional shares of 6% cumulative preferred stock (par \$100). upon issue and sale to Time, Inc., for \$1,000,000 cash, making the total amount applied for 95,000 shares.

Company has entered into a contract dated June 20, 1938, with Donald B. Bradner, which provides for the employment of Bradner for a period of 10 years, beginning on the date of the contract, as the head of the company's Research Department, Hamilton Division. The contract provides that Bradner will devote his services exclusively to the company, and will assign to it any and all patents acquired by him during the life of the contract, in exchange for which Bradner receives a yearly salary and an option

to purchase 500 shares of the company's common stock in each year during the life of the contract. The contract provides that the price to be paid by Bradner per share at any time he exercises his option to purchase any of the stock covered by the option shall be computed by taking \$20 as the price per share as of the date of the contract, subtracting therefrom all cash dividends per share paid on such stock subsequent to the date of the contract dends per share paid on such stock subsequent to the date of the contract and adding as a carrying charge 5% per annum on the stock taken down by Bradner, compounded annually from the date of the contract. The contract further provides that all stock dividends shall be transferred to Bradner along with the stock to which they relate and that all other benefits and privileges with respect to such stock (other than voting power) shall be sold and the proceeds applied as a credit on the purchase price of such stock. Bradner's right to purchase 500 shares of the company's common stock in each year is cumulative, and aggregates over the 10-year period 5,000 shares.—V. 149, p. 408.

Charis Corp.—Official Promoted—
Joseph Leonard, has been elected Chairman of the Board. This is a newly created office and Mr. Leonard is the first incumbent. He has been Secretary and Treasurer.—V. 148, p. 3683.

newly created office and Mr. Leonard is the first incumbent. He has been secretary and Treasurer. V. 148, p. 3683.

Chemical Fund, Inc.—To Absorb Rochester Capital Corp. As the merger of Chemical Fund, Inc. and Rochester Capital Corp. has been approved by the board of directors of the two investment companies, under an agreement subject to raification by the stockholders of Rochester Capital Corp. at a special meeting being called in this connection. Under this merger agreement, the investments now held by Rochester Capital Corp. are to be replaced by shares of Chemical Fund, Inc., acquired at their net asset value. After completion, the shares of Chemical Fund are to be distributed to the Rochester Capital stockholders and the lature corporation eventually dissolved.

Raymond L. Thompson, Treas. of Rochester University, has been elected a director of Chemical Fund, Inc., the has heretofore served as an officer and director of Rochester Capital Corp., the President of which is E. G. Miner, Chairman of the Pfaudler Co., and the Vice-Pres., F. J. Little of Little & Hopkins, Inc. Among other directors of Rochester Capital Corp., are: M. B. Folsom, Treas., Eastman Kodak Co.; R. N. Capital Corp., are: M. B. Folsom, Treas., Eastman Kodak Co.; R. N. Ball, Pres., Lincoln Alliance Bank & Trust Co.; T. J. Hargrave, Vice-Pres., Eastman Kodak Co.; H. J. Winn, Pres., Taylor Instrument Cos. Pres., Eastman Kodak Co.; H. J. Winn, Pres., Taylor Instrument Cos. Co.; Simon N. Stein, Pres., Stein-Bloch Co.; W. Smith, Treas., Sherwood She Co.; Simon N. Stein, Pres., Stein-Bloch Co.; W. L. Todd, Pres., The Todd Co., Inc.; Richard Harris, Pres., Alling & Cory Co.

Rochester Capital Corp., incorporated in 1929 as a general investing company, showed net assets of Sp44,855 in its balance sheet of June 30, 1939. The net assets of Chemical Fund, Inc., organized as a mutual investment company in July a year ago, with privately subscribed capital of \$100,000, now approximate \$3,500,000, its investments being in the chemical and chemical pro

Chesapeake Corp.—Liquidation Receiver—
In a further step to bring about eventual liquidation of the corporation, the Circuit Court of Baltimore at the request of the trustees of the company in liquidation appointed E. Asbury Davis as receiver. All further liquidating dividends or moves to distribute assets of the corporation in the future rest with the receiver.

The petition of the trustees which resulted in the Circuit Court action referred to the plan of liquidation approved by stockholders Nov. 28, 1938, which provided that at any time after dissolution of the corporation the trustees might, according to Maryland laws, apply to the court for appointment of a receiver who should proceed to liquidate the remaining assets and wind up the company's affairs. The petition further stated that the trustees had determined that in their judgment it was now advisable that this procedure be adopted.

The receiver, Mr. Davis, is President of United States Fidelity & Guaranty Co, and senior partner of F. A. Davis & Sons of Baltimore.—V. 148, p. 3057.

Chesapeake & Potomac Telephone Co. (Baltimore)

Company had a net gain of 276 stations in July, against 473 in July, 1938 and 1.399 in July, 1937.

For seven months the net gain was 9.004 stations, against 6.066 in corresponding months of 1938 and 11,582 in like period of 1937.—V. 149, p. 408.

Chicago Corp.—Accumulated Dividend—
Directors have declared a dividend of 75 cents per share on account of accumulations on the preference stock, payable Sept. 1 to holders of record Aug. 15. Similar payments were made on June 1 and on March 1, last dividends of 50 cents were paid in the last three quarters of 1938 and previously regular quarterly dividends of 75 cents per share were distributed.—V. 149, p. 573.

Community Power & Light Co.—Reorganization—

The Securities and Exchange Commission announced Aug. 8 that company had filed a plan of recapitalization (File 54-15) under Section 11 (e) of the Holding Company Act. The plan replaces a plan of recapitalization previously filed by the company under section 11 (g) of the Act.

In brief, the new plan provides for the exchange of the presently outlanding 68-962 shares of \$6 first preferred stock, together with all accumulated and unpaid dividends (amounting to \$46-50 a share as of July 31, 1939) for shares of new common stock, (no par) but with a stated value of \$250 a shares of new common stock, (sil0 par), at the rate of 5 shares of new common stock, (no par) but with a stated value of \$250 a share so flew common for each share of preferred. The presently outstanding 10,000 shares of common stock on par) but with a stated value of \$250 a share so flew common for each share of the old. Upon the completion of the exchange, there will be 362,310 shares of new common stock outstanding, of which over 95% will be held by the present preferred stockholders and less than 5% by the present common stockholders.

The new plan also provides for the amendment of the assignments and agreements, now outstanding in the face amount of \$370,523 and bearing 6.24% interest, so as to permit their redemption at the rate of \$100 for each \$95 of face amount.

The plan further provides for writing-off the excess carrying value of investments in certain of the company's subsidiaries, the unamortized debt discount and expense, and the cost of preferred stock financing.

It is provided that the plan will be consummated either through use of the existing corporation or through the organization of a new corporation. Consummation of the plan is subject to the approval and ratification of the action of the board of directors by at least two-thirds of the outstanding first preferred stock and a majority of the outstanding company has requested the commission to make application to a Federal Court f

Commonwealth Edison Co.—Weekly Output—

The electricity output of the Commonwealth Edison Co. group (intercompany sales deducted) for the week ended Aug. 5, 1939 was 140,684,000 kilowatt hours compared with 128,848,000 kilowatt hours in the corresponding period last year, an increase of 9.2%.

The following are the output and percentage comparisons for the last four weeks and the corresponding period last year.

Klowatt Hour Output

Per Cent

	Kilowatt Hor	ir Output	Per Cent
Week Ended	1939	1938	Increase
Aug. 5	140.684.000	128.848.000	9.2

Distillers Corp.-Seagrams, Ltd.-Negotiates Bank Credit-

Company has entered into a bank credit agreement and a five-year loan agreement with about 23 banks whereby it may borrow up to about \$34,000,000. This is revealed in a report to the Securities and Exchange Commission.

The company entered the agreements with the banks on July 12. Under the bank credit agreement the company and its subsidiaries were given the right to borrow from the participating banks \$10,000,000 for one year from July 12, 1939, and for the next year the company could borrow up to \$9,000,000 under term loans at the rate of 1½% per annum. In addition the company may borrow up to an additional \$10,000,000 from Sept. 1, 1939, to April 1, 1940, and from Sept. 1, 1940 to April 1, 1941, with interest at the rate of 1½% per annum. Among the banks participating under this agreement were the Bankers Trust Co., Manufacturers Trust Co., First National Bank, Boston, Continental Illinois Bank & Trust Co., Bank of the Manhattan Co. and Marine Midland Trust Co.

The five-year loan agreement was between the company and the Bankers Trust Co. and the Manufacturers Trust Co. The terms provide that each bank will lend the company or its subsidiaries \$2,500,000 for five year loan the manufacturers Trust Co. The series and the Manufacturers Trust Co. The series and the Manufacturers Trust Co. The series with interest at the rate of 3% per annum, to refund notes due Nov. 1941; of the same amount.—V. 148, p. 3685.

	1941; of the same amount.—V. 148, p. 3685.

Follansbee Bros. Co.—To Request \$2,500,000 RFC Loan—Th' company, it is r' ported, will need only \$2 500,000 from the Reconstruction Finance Corporation, instead of \$4,000,000 as originally requested. The larger sum now is not deemed necessary as it is planned not to build a bot strip mill at Follansbee, W. Va. An arrangement is being worked out with Jones & Laughlin Steel Corp. to supply such products at a cost that will be satisfactory. Attorneys for the common stockholders stated that if a satisfactory reorganization plan is not submitted by Sept. 21 they will ask the Court to permit the Court to appoint its own trustees.

It is believed that the reorganization will be filed by that date and the court hearing on the plan will take place Oct. 2. Negotiations for the loan from RFC are now afoot.—V. 148, p. 3531.

Unfilled orders on hand (July 31, 1939) are approximately 45% ahead of the same date a year ago, according 10 W. M. Jarman, President, who reports production in the company's factories at a new peak. To take care of increased sales and deliveries against the backlog of orders on hand, further increases in production are planned and the company is negotiating for an additional factory building. The capacity of this additional plant, if obtained, is not expected to be available, however, until Jan. 1 next. One of the new developments of the business, which company officials regard as among the most important in the manufacture of men's shoes in recent years, is a process of treating leather with cedar oil, adding to its mellowness and wear, that has been enthusiastically received by merchants throughout the country.—V. 149, p. 577.

General Motors Corp.--July Car Sales--The company on Aug. 8 released the following statement:

Aug. 8 released the following statement:

July sales of General Motors cars and trucks from all sources of manufacture totaled 100,302, compared with 90,030 in July a year ago. Sales in June were 156,959. Sales for the first seven months of 1939 totaled 1,051,300 compared with 703,983 for the same seven months of 1938.

Sales to dealers in the United States totaled 71.803 in July, compared with 61,826 in July a year ago. Sales in June were 124,048. Sales for the first seven months of 1939 totaled 810,591, compared with 481,474 for the same seven months of 1938.

Sales to consumers in the United States totaled 102,031 in July, compared with 78,758 in July a year ago. Sales in June were 124,618. Sales for the first seven months of 1938. Total Sales of General Motors Cars and Trucks from All Sources of Manufacture.

Overseas Sales Sales of General Motors cars and trucks to dealers in the overseas markets during July totaled 28,663 units, representing a slight increase over sales in July of last year.

In the first seven months of 1939, sales of 223,171 units represented an increase of 1.4% over sales in the first seven months of 1938.

These figures include the products of the Corporation's American, Canadian, English, and German factories sold outside the United States and Canada.—V. 149, p. 727.

(Adolf) Gobel, Inc.—Company Seeks to Annul Investment

(Adolf) Gobel, Inc.—Company Seeks to Annul Investment in Merkel Inc.—

A stock rescission suit was filed Aug. 8 in the New York Supreme Court by the company under which it seeks to annul the contract entered into in 1928 involving an investment of \$625,000 in the purchase of common stock of Merkel, Inc. The plaintiff corporation contends it was induced through misrepresentation to agree to the contract.

The suit is for an accounting and an order to restore all parties concerned to their 1928 status. The plaintiff also asked the court to void a reorganization of Merkel, Inc. The defendants named in the action include Merkel, Inc. Frank M. Firor, Henry Merkel, William Merkel, A. H. Merkel, F. Howard Firor, the W & Y Corp., which has been dissolved, and eight individuals who have control of the assets of the former W & Y concern. The defendants in the action filed general denial. Attorneys for both sldes stipulated that the testimony before trial of Frank M. Firor, former President of Gobel's, was to be taken at his home at Bay Ridge, Annapolis, Md. on Aug. 14 where he is recuperating from an illness. It was also stipulated that Mr. Firor was to make available any records or accounts he may have in his possession.—V. 148, p. 1324.

Hupp Motor Car Corp. New President, &c .-

J. Walter Drake, director and one of the founders of this corporation has been elected President to succeed S. L. Davis, resigned, and Percy Louks, Assistant Secretary-Treasurer, has been elected Secretary to succeed Edward Rothbart, resigned. Mr. Davis, who is the company's Chicago distributor, and Mr. Rothbart remain as members of the Board.

Stockholder Files Suit Asking Accounting-

A suit against a number of officers and directors and former officers and directors of the company was filed in Federal District Court at Detroit, Aug. 8 by Jay E. Darlington, of Hammond, Ind. a stockholder. The suit asks for an account of the management of the company's affairs since 1935 and seeks an accounting of \$2,500,000 received from the sales of 1.000,000 shares of common stock in 1937.

The suit also asks an accounting of all fees paid by company since 1935 to the law firm of Beaumont, Smith & Harris for legal services.—V. 148, p. 3534.

Lehigh Valley Coal Co.—Delisting—
The Securities and Exchange Commission has announced that a hearing had been set for Aug. 29 in its New York Regional office, on the application of the New York Stock Exchange to strike from listing and registration the 1st & ref. mtge. sink. fund gold bonds. 5% series of 1924, due Feb. 1, 1944, of Lehigh Valley Coal Co. The application, among other things, states that in the opinion of the Committee on Stock List, the outstanding amount of this security has been so reduced as to make further dealings in the security on the Exchange inadvisable.—V. 149, p. 734.

Lehigh Valley RR.—Files Under Chandler Act—
Counsel for the road, and three of its subsidiaries, have filed a petition in the U. S. District Court of Philadelphia to adjust the capital structure of the company under the Chandler Act.

The Court set Sept. 29 for a hearing on the plan and entered an injunction restraining all suits and actions against the company during the proceedings.

Under the Chandler Act, a theoretical procedure for voluntary reorganization of railroads not in need of reorganization under Section 77 of the Bankruptcy Act is provided for, and made available to any road which files a revamping plan in Federal Court within one year of the date of enactment.

The petition filed by the Lehigh refers to the road's revamping plan dated Aug. 25, 1938, which extends and postpones part of certain interest and principal maturities. As of July 11, the road had received assents to ts voluntary capital readjustment plan from holders of 84% of the Lehigh Valley general consols, 89.3% of the Pennsylvania & New York Canal & R. bonds, 86% of Lehigh Valley Ry. and 91.6% of Lehigh Valley Tarminals.—V. 149, p. 734.

Lockheed Aircraft Corp.—Completes \$500,000 Canadian Plane Contract-

Completion of the last unit of a \$500,000 order for the Trans-Canada Air Lines was announced Aug. 8 by the corporation as Canadian pilots prepared to fly the new plane to the Vancounver, B. C. headquarters of the line. Delivery of the plane, a Lockheed 14 transport rated as one of the world's fastest commercial airliners, will bring to 15 the total of this type now in service over the Dominion-spanning air line.—V. 149, p. 734.

Loew's Inc. -Obtains \$15,000,000 Through Private Loans for Refinancing and Other Corporate Purposes—The company Aug. 8 announced that it has borrowed privately \$15,000,000 at an interest rate averaging 3.30% for the refunding of obligations of a subsidiary and for additional working capital, through a bank loan of \$3,750,000 and an issue of \$11,250,000 of bonds, which was purphosed by two life incurrences. of bonds which was purchased by two life insurance companies.

Danies.

Company states that the bank loan will bear interest at the annual rat® of 2½% and will be paid off in five years through semi.annual instalmentS of \$375,000. This loan was made to Loew's, Inc., by the First National Bank of Boston.

The new bond financing is represented by an issue of \$11,250,000 of first lien 3½% bonds of Loew's Theatre& Realty Corp., a wholly-owned subsidiary of Loew's, Inc. The issue has been purchased in its entirety by the Metropolitan Life Insurance Co. and the Equitable Life Assurance Society of U. S. A sinking fund will operate after five years to retire \$400,000 of the bonds semi-annually during the final 10 years of the term of the issue. Approximately \$7,000,000 of the proceeds of the new financing will be used to retire on Sept. 15, 1939, the outstanding first lien 6% gold bonds of Loew's Theatre & Realty Corp., due 1946. The balance of the proceeds will be additional capital, to be available to Loew's, Inc., for such future purposes as may arise. Interest costs on the entire \$15,000,000 of new financing will not materially exceed the current interest charges on the \$7,000,000 of Loew's Theatre & Realty Corp. 6% bonds which will be retired.—V. 149, p. 417.

Loew's Theatre & Realty Corp.—\$11,250,000 Bonds

Loew's Theatre & Realty Corp.—\$11,250,000 Bonds Sold Privately—See Loew's Inc. above.—V. 148, p. 480.

To Assume Liability

To Assume Liability—Company, a subsidiary in the Associated Gas & Electric Co. holding company system has filed with the Securities and Exchange Commission an application (File 32-166) under the Holding Company Act in connection with the assumption by it of the liability on certain securities of Northern Pennsylvania Power Co.

According to the application, liability will be assumed on the following securities: \$1.369,900 5% 1st & ref. mtge. gold bonds, series A, due June 1, 1956, and \$2,677,600 5% 1st & ref. mtge. gold bonds, due 1962, of Northern Pennsylvania Power Co.; and \$550,600 5% 1st mtge, gold bonds, due April 1, 1947, of Sayre Electric Co.

The assumption of liability on these securities is in connection with the proposed merger of Metropolitan Edison Co. and Northern Pennsylvania Power Co.—V. 149, p. 263.

Manila Electric Co.—Tenders—
The Chase National Bank, as successor trustee, is inviting tenders of first refunding mortgage gold bonds, 5% series due 1946, at prices not exceeding 105%, in an amount sufficient to exhaust the sum of \$3.860 which will be available in the sinking fund on Sept. 1, 1939. Tenders will be received until noon on Aug. 23. at the Corporate Trust Department of the bank, for sale of the bonds on Sept. 1, 1939.—V. 148, p. 3692.

Melville Shoe Corp.—Sales—Corporation on Aug. 8 reported sales of \$1,861,768 for the four weeks ended July 29, as compared with sales of \$1,630,283 for the same four weeks in 1938, an increase of 14.20%. Sales for the 32 weeks ended July 29 were \$22,915,011, as against sales of \$21,511,423 in the similar period last year, a gain of 6.52%.—V. 149, p. 880.

Missouri-Illinois RR.—Equipment Trust Certificates—
The Interstate Commerce Commission on July 31 authorized the company of assume obligation and liability in respect of not exceeding \$590,000 equipment trust certificates, series AA, to be issued by New York Trust Co., as trustee, and sold at 100.265 and accrued dividends in connection with the procurement of certain equipment.
The railroad trustee invited 42 firms to bid for the purchase of the certificates, the bidder to name a rate of dividends to be borne by the certificates in multiples of ½ of 1%. Four bids were received. The best bid, 100.265% of par and accrued dividends, based on a rate of 2½%, was made by the First National Bank in St. Louis, and has been accepted. On this basis the average annual cost of the proceeds to the railroad trustee will be approximately 2.44%.—V. 149, p. 737.

Missouri Pacific RR.—Abandonment—
The Interstate Commerce Commission on July 29 issued a certificate permitting abandonment by Guy A. Thompson, trustee of that portion of the so-called Belmort branch, extending from the point where the east line of Section 8, Township 26 N., Range 16 E., crosses such track, southeasterly, to the end of the line at Crosno, approximately 11.9 miles, all in Mississippl County, Mo.—V. 149, p. 881.

Montreal Light, Heat & Power Co., Consolidated-Output-

Output—
Electricity output for consumption in the Montreal area during July, according to a statement issued on Aug. 5 by this company amounted to 88,004,050 kwh., an increase of 5.48% over July, 1938. Output for the first seven months reached 673,340.470 kwh. as against 642,800,640 kwh., for the corresponding period of 1938, an increase of 30,539,830 kwh., or 4.75%.
Gas output in July amounted to 362,029,000 cubic feet as against 369,-299,000 cubic feet in 1939, as a decrease of 1.97%. Output for the first seven months in 1939 was 2,850,668,000 cubic feet as compared with 2,895,358,000 cubic feet in 1938, a decrease of 1.54%.—V. 148, p. 3231.

Morristown & Erie RR.—Tenders—
The National Iron Bank of Morristown, Morristown, N. J., will until p. m. Sept. 8 receive bids for the sale to it of sufficient 1st mtge. 6% 1-year coupon bonds to exhaust the sum of \$10,747, at prices not exceeding 15 and accrued interest.—V. 148, p. 1813.

National City Lines, Inc.—Sells Stock Privately—
Company, whose subsidiaries operate 30 motor bus transportation systems in municipalities throughout the United States, announced Aug. 8 that it had completed a financing program whereby four companies which supply the subsidiaries with various products such as gasoline, oil, tires, buses, &c., have purchased, or agreed to purchase, an aggregate of 35,000 shares of the \$3 convertible cumulative preference stock (\$50 par) at \$50 per share. The preference stockholders have already authorized the issuance and sale of 29,000 shares of the 35,000 shares contracted for It will be necessary to have such authority for the issuance and sale of the remaining 6,000 shares. The preference and common stock of National City Lines, Inc. are listed on the New York Curb Exchange and Chicago Board of Trade.

This program makes available \$1,750,000 in cash—\$550,000 being taken down at this time through the delivery of 11,000 shares of this stock.

This stock sold at private sale is part of 100,000 shares of \$3 convertible cumulative preference stock.

The remaining 24,000 shares to be sold under these agreements will be issued from time to time in the future as company requires use of these funds in its expansion program.—V. 149, p. 582.

Nevada-California Electric Corp. - Seeks Conversion of

Corporation has asked the Federal Power Commission to approve its plan to issue new shares in conversion of its preferred and common stock.

Each share of the present \$100 par cumulative \$7 preferred under the plan would be exchanged for two new shares of preferred, one of which would be \$2 cumulative and the other would be \$4 non-cumulative. The company told the FPC that the 7% cumulative dividend preferred stock is not justified by its earnings.

Holders of outstanding common shares would be given two new shares for each old share held. In addition, the aggregate par value of the outstanding common would be reduced from \$8,588,300 to \$858,830 by reducing the par value of each share from \$100 to \$5.

The purpose of the cut in the common shares' value, according to the company, is to create a capital surplus account against which items in its electric plant acquisition adjustment account may be written off. This was made necessary by a reclassification of the company s property to meet FPC orders on uniform accounting procedure.—V. 149, p. 882.

Northern Indiana Public Service Co.-Registers with SEC-

Company on Aug. 4 filed with the Securities and Exchange Commission a registration statement (No. 2-4150, Form A-2) under the Securities Act of 1933 covering \$45,000,000 3½% first mortgage bonds, series A, due Aug. 1, 1969.

The net proceeds from the sale of the bonds, together with not more than \$6,000,000 borrowed against a like principal amount of the company's serial notes under a bank loan agreement, will be used as follows:

(1) To redeem within 40 days after issuance and delivery of the series A bonds, all of the first and refunding mortgage gold bonds;

	\$1,965,600 of 51/2%, series B, due July 1, 1960, at 104%	\$2,044,224
1	\$661,400 of 5½%, series B, due July 1, 1960, at 104%	687.856
	\$11,320,000 of 5%, Series C, due Nov. 1, 1966, at 105%	11.886.000
	\$15,249,000 5%, series D, due Sept. 1, 1969, at 105%	16 011 450
	\$13,692,000 of 41/2%, series E, due Dec. 1, 1970, at 104%	14.239.680
	7,270	22,200,000

(2) To redeem on or before Nov. 1, 1939, all first lien & refunding mort-gage gold bonds: \$6,028,000 of 6%, series May, 1922, due May 1, 1952, at 105%_\$6,329,400

Total \$51,198,610

Halsey, Stuart & Co., Inc., Chicago, will be the principal underwriter.

The names of the other underwriters, the offering price, the underwriting discounts or commissions and the redemption rates will be filed by amendment.—V. 149, p. 740.

Northern Natural Gas Co.-\$16,000,000 Bonds to Be Sold Privately-

The Securities and Exchange Commission, Aug. 4, approved a declaration (File 43-229) filed by the company under the Holding Company Act in connection with the issuance and sale of \$16,000,000 of first mortgage and first lien bonds, series A, 3½%, due July 1, 1954, and \$6,000,000 of unsecured 2½% promissory notes.

The notes will mature serially on Jan. 1 and July 1, commencing on July 1, 1940, the last note maturing on Jan. 1, 1946. Six months later semi-annual sinking fund payments, designed to amortize the first mortgage bonds (with the exception or \$4,500,000 which fall due July 1, 1954), commence at the rate of \$500,000 semi-annually for the first full year and \$750,000 semi-annually thereafter through the next to the last sinking fund payments.

mence at the rate of \$500.000 semi-annually for the HISS AMILY YEAR AMILY \$750.000 semi-annually thereafter through the next to the last sinking fund payment.

The bonds are to be sold at private sale, at par, as follows: Metropolitan Life Insurance Co., \$5.400.000; the Equitable Life Assurance Society of the United States, \$3.600.000; the Prudential Insurance Co. of America, \$3.600.000; the Travelers Insurance Co., \$2.400.000; Sun Life Assurance Co. of Canada, \$1,000.000.

The notes, which are unsecured, will evidence bank loans by the Chase National Bank, New York, to the company of like principal amount. The bank has stated that it has no intention to extend participation in the loan, if consummated, to any other person, except a participation in the new consummated, to any other person, except a participation in the loan, if consummated, to any other person, except a participation in the new Losposition of Proceeds

Company is to receive from the sale of the securities cash proceeds amounting to \$220,000.000. The proceeds of the bonds, or \$16,000,000, are to be used for the retirement of all the company's presently outstanding funded debt. Of the proceeds of the notes, or \$6,000,000, \$3,600,000 will be used for the construction of approximately 240 miles of 16-inch transmission pipe line from near Sioux City, Iowa, to a point near Minneapolis extension; and the balance to defray the cost of additions and improvements to the company's present property, including distribution system property of subsidiaries and development cost, all directly incidental to the Sioux City-Minneapolis extension; and the balance to defray the cost of additions and improvements to the company's present property, including distribution system property of subsidiaries, gasoline manufacturing plant, telephone system, compressor station property, &c.—V. 149, p. 421.

(or its successor) trustee and registrar. Fixed sinking fund, payable on or before Dec. 10, 1939 and each June 10 and Dec. 10 thereafter, sufficient to redeem semi-annually, at the principal amount thereof, \$55,000 principal amount of debentures; sinking fund payments may be made in cash or debentures; all as provided in the indenture. Redeemable at principal amount thereof on any interest date by operation of the sinking fund and redeemable at any time as a whole, or at any time and from time to time in amounts of not less than \$10,000 at election of company on at least 30 days' published notice prior to Aug. 1, 1942 at 103%; thereafter and prior to Aug. 1, 1943 at 102¾; thereafter and prior

to Aug. 1, 1944 at 102 ½%; thereafter and prior to Aug. 1, 1945 at 102 ½%; thereafter and prior to Aug. 1, 1946 at 102 ½%; thereafter and prior to Aug. 1, 1946 at 101 ½%; thereafter and prior to Aug. 1, 1947 at 101 ½%; thereafter and prior to Aug. 1, 1948 at 101 ½%; and thereafter up to maturity at 100%; in every case with accrued interest, if any. History and Business—Company was organized in Delaware on Nov. 10, 1928. 67.35% of the outstanding capital stock of the company is owned by George F. Getty, Inc., 100% of the outstanding capital stock of which is in turn owned by J. Paul Getty, individually and as trustee. J. Paul Getty individually owns 43.17% of the outstanding capital stock of George F. Getty, Inc., and holds 56.83% of such stock as trustee under deed of trust dated Dec. 31, 1934 between Sarah C. Getty, trustor and J. Paul Getty, trustee.

Company is engaged in the business of acquiring through oil and gas leaseholds, fee properties, royalties, mineral rights, contracts or otherwise interests in prospective and proven oil lands for oil and gas, in the development of prospective and proven oil lands for oil and gas, in the production of oil and gas and the treatment of gas for the extraction of natural gasoline, and the disposal of all such products, and in operations incidental to the foregoing.

Company also owns substantial holdings in certain corporations engaged directly or indirectly in the petroleum business, including 641.80s shares (approximately 4%) of the outstanding common stock of Tide Water Associated Oil Co. (Del.).

Earnings—The consolidated net income before interest expense and provision for Federal income and undistributed profits taxes, and consolidated net income carried to earned surplus, of the company (and its wholly owned subsidiary, Pacific Western Oil Co., dissolved Aug. 27, 1936).

Packard Motor Car Co.—Prices Reduced for 1940 Models
Prices of the new Packard cars as revealed to dealers at the recent preview
of the 1940 line at the Packard proving grounds, showed reductions ranging
from \$120 on the Packard Six and \$140 on the Packard Eight or 120 line
to more than \$400 on the Super Eight as compared with a year ago.
Compared with the reduced prices announced May 1 the reduction for
1940 models runs around \$10 on the Sixes, aroung \$40 on the Eights and
around \$100 on the Super Eights.
Advance orders from dealers are the largest in company's history, according to M. M. Gilman, President, and production is in full swing on
two shifts a day for the first time in a year and a half. Used car stocks in
the hands of dealers are the lowest in Packard history and there are less
than 1,000 of the 1939 models in dealers hands, he states.
The company plans the largest newspaper advertising campaign it has
ever placed, said Mr. Gilman.
Prices of typical models compare as follows:

Pennsylvania Power & Light Co.—\$132,000,000 Financing—Financing which in total amount (\$132,000,000) is one of the largest operations of its kind in the history of the power and light industry, was announced formally Aug. 9 in the public offering of a new issue of \$95,000,000 first mortgage bonds 3½% series due 1969, and a new issue of \$28,500,000 of 4½% debentures due 1974. The two issues for public offering total \$123,500,000, in addition to which the company has arranged for a bank loan with four New York and Chicago banks of \$8,500,000. The first mortgage 3½s are priced at 105½ and accrued interest and the debenture 4½s at 104 and accrued interest and the debenture 4½s at 104 and accrued interest. The nationwide group of underwriters includes 125 investment firms headed by Smith, Barney & Co.; The First Boston Corp.; Bonbright & Co., Inc.; and Dillon, Read & Co. Other principal underwriters include Halsey, Stuart & Co., Inc.; Harriman Ripley & Co., Inc.; Mellon Securities Corp.; Blyth & Co., Inc.; Kidder, Peabody & Co.; W. C. Langley & Co.; Shields & Co.; Union Securities Corp.; White, Weld & Co.; E. W. Clark & Co.; Coffin & Burr, Inc.; Goldman, Sachs & Co.; Harris, Hall & Co. (Inc.); Lazard Freres & Co.; Lee Higginson Corp.; Lehman Brothers; Stone & Webster and Blodget, Inc., and Tucker, Anthony & Co. In addition to those of the underwriters who sell at retail, it is expected that more than 500 dealers across the country will have a part in the retail distribution of the securities. tribution of the securities.

Manuactured gas service is rendered in 21 communities. Water service is provided in the vilage of Harwood Mines and in the Borough of Hummelstown by two wholly-owned subsidiaries of the company. Hazle Township Water Co. and Hummelstown Water Supply Co., respectively.

Description of the Bonds

The 1969 series bonds dated Aug. 1, 1939, mature Aug. 1, 1969. Prin. of and int. (F. & A.) payable at the office or agency of the company in New York, in such coin or currency of the United States as at the time of payment shall be legal tender for public and private debts. Each of the 1969 series bonds contains a provision that the principal and interest are payable "without deduction from the principal or interest on account of any tax, not in excess of five millis per annum on each dollar of the principal amount of this bond, now or hereafter imposed by Pennsylvania upon this bond or upon the holder as a resident of such Commonwealth, which the company or the trustee under the mortgage may be authorized or required to pay thereon or to retain therefrom." Coupon form, registerable as to principal, in denom. of \$1,000, and in fully registered form in the denoms of \$1,000, \$10,000 and, at option of company, any multiple of \$10,000. Guaranty Trust Co., New York, trustee.

Issuance of Additional Bonds—Additional bonds of any series which will rank equally as to lien with the 1969 series bonds offered may be issued in principal amount equal to: (1) 70% of the cost or fair value, whichever is less, of property additions; (2) the principal amount of bonds or prior lien bonds retired or then to be retired; and (3) the amount of cash deposited with the trustee for the purpose; but in each case only if net earnings are at least twice the annual interest requirements of all outstanding indebtedness of the company secured by lien equal or prior to the mortgage, including the additional issue (except that no earnings test is required to issue bonds to refund prior lien bonds and such test is required to issue bonds to refund prior l

months prior to the Oct. 1 on which such cash payment would otherwise be due.

Redemption Provisions—The 1969 series bonds will be redeemable at the option of the company in whole at any time or in part from time to time by lot, prior to maturity, on at least 30 days' published notice at principal amount thereof and accrued interest thereon to such date of redemption, together with premiums as follows: 8½% of bonds red. before Aug. 1, 1942; 7½% of bonds red. on or after Aug. 1, 1942, and before Aug. 1, 1945; 6½% of bonds red. on or after Aug. 1, 1945, and before Aug. 1, 1945; ½% of bonds red. on or after Aug. 1, 1949, and before Aug. 1, 1943; ½% of bonds red. on or after Aug. 1, 1955, and before Aug. 1, 1955; 4% of bonds red. on or after Aug. 1, 1955, and before Aug. 1, 1959; 3% of bonds red. on or after Aug. 1, 1957, and before Aug. 1, 1959; 3% of bonds red. on or after Aug. 1, 1959, and before Aug. 1, 1969; 3% of bonds red. on or after Aug. 1, 1960, and before Aug. 1, 1961; 1967; and before Aug. 1, 1964; 14% of bonds red. on or after Aug. 1, 1964; and before Aug. 1, 1965; 1% of bonds red. on or after Aug. 1, 1964, and before Aug. 1, 1965; and before Aug. 1, 1966; and before Aug. 1, 1967; without premium if red. on or after Aug. 1, 1966, and before Aug. 1, 1967, and prior to maturity.

The 1969 series bonds will also be red. in whole at any time, or in part

1967; without premium if red. on or after Aug. 1, 1967, and prior to maturity.

The 1969 series bonds will also be red. in whole at any time, or in part from time to time by lot, prior to maturity, upon like notice, at the option of the company by application of cash deposited with the trustee under the provisions of Section 39 of the mortgage for the improvement fund requirements at the principal amount thereof and accrued interest thereon to such date of redemption, together with premiums as follows: 5½% of bonds red. before Aug. 1, 1943; 5% of bonds red. on or after Aug. 1, 1943, and before Aug. 1, 1947; 4½% of bonds red. on or after Aug. 1, 1947, and before Aug. 1, 1951; 4% of bonds red. on or after Aug. 1, 1951, and before Aug. 1, 1953; 3½% of bonds red. on or after Aug. 1, 1953, and before Aug. 1, 1955; 3% of bonds red. on or after Aug. 1, 1955, and before Aug. 1, 1958; 2½% of bonds red. on or after Aug. 1, 1958, and before Aug. 1, 1958; 2½% of bonds red. on or after Aug. 1, 1958, and before Aug. 1, 1958; 2½% of bonds red. on or after Aug. 1, 1958, and before Aug. 1, 1958; 2½% of bonds red. on or after Aug. 1, 1958, and before Aug. 1, 1958; 2½% of bonds red. on or after Aug. 1, 1958, and before Aug. 1, 1958; 2½% of bonds red. on or after Aug. 1, 1958, and before Aug. 1, 1958; 2½% of bonds red. on or after Aug. 1, 1958, and before Aug. 1, 1960; 2% of bonds

red. on or after Aug. 1, 1960, and before Aug. 1, 1962; 1½% of bonds red. on or after Aug. 1, 1962, and before Aug. 1, 1965; 1½% of bonds red. on or after Aug. 1, 1962, and before Aug. 1, 1965; 1½% of bonds red. on or after Aug. 1, 1965, and before Aug. 1, 1965; 1½% of bonds red. on or after Aug. 1, 1965, and before Aug. 1, 1965; 1½% of bonds red. on or after Aug. 1, 1965, and before Aug. 1, 1965; 1½% of bonds red. on or after Aug. 1, 1965, and before Aug. 1, 1965; 1½% of bonds red. on or after Aug. 1, 1965, and before Aug. 1, 1967; 1½% of bonds red. on or after Aug. 1, 1968, and before Aug. 1, 1967; 1½% Print, and Inc. (F. A.) payable at Office or segrency of the order of the Debentures. Dated Aug. 1, 1968; 1½% of the Debentures contains a provision that the principal and interests are payable most in excess of the military and the aug. 1, 1967; 1½% of the payable and private debts. Each of the debentures contains a provision that the principal and interests are payable most in excess of the military and and an aug. 1, 1967; 1½% of the payable and private debts. Radio-Keith-Orpheum Corp. - Atlas May Underwrite New R. K. O. Stock Plan-

New R. K. U. Stock Plan—

Floyd B. Odlum, President of Atlas Co., has expressed his willingness at any time within 60 days to underwrite new R-K-O stock to the extent necessary to secure the \$1,500,000 called for under the reorganization plan, Col. Hamilton C. Rickaby, representing Atlas, announced July 31. While no price has as yet been indicated for the stock, it is believed that \$4 a share will be close to the figure at which it will be sold.

Col. Rickaby s announcement was made at the hearing in reorganization of R-K-O creditors and their counsel in the Federal Bidg., at which they were advised by Col. Rickaby that a certificate of incorporation for the new R-K-O company has been filed at Wilmington, Del.—V. 149, p. 886.

Rapid City Black Hills & Western RR .- Financial Readjustment-

Readjustment—

The Interstate Commerce Commission on July 19 granted authority to the company in furtherance of a proposed financial readjustment.

(1) To modify not exceeding \$274,500 of outstanding 1st mtge. bonds, pursuant to the provisions of an extension agreement dated May 1, 1939, between the company and the owners and holders of all these bonds, by extending the maturity date for 30 years from May 1, 1939, and by reducing the interest rate for the extended period from 5 to 3½%; and

(2) To issue capital stock, pursuant to a contract and agreement dated May 3, 1939, between the company and the holders of certain securities, in the total amount of not exceeding \$397.871, consisting of 3.978 71-100 shares (par \$100), and necessary fractional scrip, of which \$109.800 is to be class A 1st pref., to be exchanged for unpaid interest coupons on 1st mtge. bonds on a dollar-for-dollar basis, \$205.765 is to be class B 2d pref. stock, to be exchanged for presently outstanding pref. stock on a dollar-for-dollar basis, and \$82,306 is to be common stock, to be issued to holders of presently outstanding pref. stock on share of common for each 2½ shares of pref., in exchange for the cancellation of the right to dividends accumulated and unpaid on such stock.—V. 124, p. 502.

Red Rock Bottlers, Inc.—New Issue Sold—Satterfield & Lohrke, members of the New York Stock Exchange, announce the sale of 20,000 shares of common stock (par \$1) at \$3.50 per share. This offering is in addition to 10,000 shares recently placed at the same price by another underwriting house writing house.

WILLING HOUSE.

The company has an authorized capital of \$500,000 represented by 250,000 shares of common stock (par \$1) and 2,500 shares of 6% cumulative preferred stock (par \$100). Upon completion of this financing there will be 210,000 shares of common stock and 800 shares of preferred stock outstanding. The common stock is traded in the over-the-counter market. Company, a Georgia corporation, is the distributor of Red Rock Cola and other Red Rock soft drink concentrates.

The company, under its franchise agreements, develops allotted sales territory through the granting of sub-franchises to bottlers for exclusive bottling rights of Red Rock labeled products in their respective territories.

Schenley Distillers Corp.—Retires Some Pref. Stock—Corporation announced that it had retired 2.900 shares of its outstanding 5½% cumulative preferred stock, pursuant to the requirements of subdivision 2 of article fourth of the certificate of incorporation.

The purchase price for the \$290,000 of par value stock was \$204,081, which resulted in an addition to surplus of \$85,919. The shares were purchased in the open market.

The sale leaves outstanding 173,350 shares of the firm's preferred stock.

Amendment to the certificate of incorporation was filed at the corporation office in Wilmington, Del., on Aug. 1, 1939.—V. 148, p. 2604.

Southern Colorado Power Co.—Accumulated Dividend—Directors have declared a dividend of \$1 per share on account of accumulations on the 7% cumulative preferred stock, par \$100, payable Sept. 15 to holders of record Aug. 31. Similar amount was paid in preceding quarters.—V. 149, p. 589.

to holders of record Aug. 31. Similar amount was paid in preceding quarters.—V. 149, p. 589.

Southern Ry.—To Issue Equip. Trust Certificates—
The company has asked authority of the Interstate Commerce Commission to issue \$400,000 of equipment-trust certificates, DD series.
None of the certificates authorized by the ICC's order of Oct. 27, 1938, have yet been issued or sold to the Reconstruction Finance Corporation. This was due to the fact that at the time of the order the company was only able to make a cash payment of \$36,000 from its treasury on the \$536,000 purchase price of the equipment to be secured by equipment trust certificates. Since that date the Southern's finances have improved so that it is now able to make a payment of \$100,000, thereby reducing to \$400,000 the principal amount of trust certificates necessary to be sold to finance the equipment, and the Southern has ascertained that it could sell the certificates through private channels on a substantially lower basis than 4%, which is the interest rate if sold to the RFC. The RFC has agreed to cancel its commitment and the Southern asked bids from 16 investment houses, to which five bids representing seven firms were subsmitted.

The highest bid was received from Blyth & Co., Inc., 100.0791 for certificates bearning 2%, or a basis of approximately 1.985%. The Southern has accepted this bid subject to ICC approval.

Other bids were from Salomon Brothers & Hutzler, Dick & Merle Smith, Stroud & Co., 100.002% for 2% certificates; Freeman & Co., 99.5378 for the 2%, Inc., 100.101 for 2½% certificates; Freeman & Co., 99.5378 for the 2%, Inc., 100.5378 for 2½% certificates; Freeman & Co., 99.5378 for the 2%, and 100.5378 for 2½% certificates; Freeman & Co., 99.5378 for the 2%, 100.0000 for 100.00

Arabian Oil Concession Extended-

New oil concenessions granted by Saudi Arabia to the company were reported this week.

To an original concession agreement made in May, 1933, and covering 165,000 square miles, the contracting parties added an additional 89,041 square miles on July 21 last, subject to the terms of the original agreement and good for 60 years. The California Arabian Standard Oil Co., which made the agreement, is owned jointly by Standard Oil Co. of Calif. and the Texas Co.

The company is paying the Government of Scalable Contractions.

and good for ou years, made the agreement, is owned jointly by Standard Oil Co, or Cant. and the Texas Co.

The company is paying the Government of Saudi Arabia \$1,156,400 and agrees to pay \$165,200 yearly rental until commercial discovery in the new areas or until surrender of rights, the statement read. The company also is obligated to "deliver substantial quantities of gasoline and kerosene to the Saudi Arabia Government during each year of the concession."

New areas involved include one in South Arabia adjoining the original concession on the west, one in North Saudi Arabia adjoining the North Saudi Arabia boundary and the original concession's west boundary. Also included are the Saudi Arab interest in the Saudi Arab-Koweit neutral zone and the Saudi Arab-Iraq neutral zone.—V. 148, p. 3084.

Standard Oil Co. of Kansas-Stricken from Listing and

The capital stock (\$10 par) has been stricken from listing and registra-on on the New York Stock Exchange. Application of the Exchange to rike the above issue from listing and registration has been granted by the Securities and Exchange Commission.—V. 149, p. 899.

Sunset-McKee Salesbook Co.—Extra Dividend—
Directors have declared an extra dividend of 50 cents per share in addition to the regular quarterly dividend of 25 cents per share on the class B shares. The extra dividend will be paid on Aug. 21 to holders of record Aug. 10 and the regular quarterly payment will be made on Sept. 15 to holders of record Sept. 4.—V. 147, p. 1355.

Swallow Airplane Co., Inc.—Stock Offered—Public offering was made recently by means of a prospectus of 48,000 shares (\$1 par) common stock by C. R. McCarthy & Co., Inc., of New York. The stock is offered as a speculation at \$1.25 per share.

Of the 48,000 shares, 32,000 are offered for the company's account, net proceeds from their sale to be used for purchase of raw materials, labor, advertising and demonstration expenses, and additional working capita

in the production of planes. The remaining shares are offered on behalf of an officer of the company. There is no other class of stock nor any bonds, mortgages or funded debt, according to the prospectus.

Company was incorp. in Delaware in August, 1938, to acquire a business originally founded shortly after the World War. Its predecessors have manufactured airplanes under the name of "Swallow" since 1924, more than 1,000 planes having been sold, of which some 500 are still in service. With all engineering, development and experimental work on a new improved model accomplished and specifications approved by the U. S. Department of Commerce, the company is ready to enter the fast growing field for small, lower priced, utility planes. The company owns a modern plant, complete production equipment and landing facilities at Wichita, Kan.—V. 127, p. 2975.

Winston-Salem Terminal Co.-Bonds Authorized-

The Interstate Commerce Commission on July 31 authorized—pany to issue not exceeding \$800,000 first mortgage 3½% bonds to be sold at 111.078 and accrued interest, and the proceeds used to redeem a like principal amount of outstanding first mortgage 5% gold bonds, and for other lawful corporate purposes.

Authority was also granted to the Southern Ry., the Norfolk & Western Ry. and the Winston-Salem Southbound Ry. to assume obligation and llability, jointly and severally, as guarantors in respect of the bonds. After negotiating with a number of investment houses, insurance companies and others, the company has agreed to sell the bonds to Dick & Merle-Smith, which firm submitted the best of four bids, at 111.078 and accrued interest. This would make the annual cost of the proceeds to the company approximately 2.95%.—V. 149, p. 128.

Winters & Crampton Corp.—Common Divs. Resumed-

Directors have declared a dividend of 10 cents per share on the common stock, payable Aug. 25 to holders of record Aug. 15. This will be the first dividend paid on the common shares since Aug. 20, 1937, when 27½ cents per share was distributed.—V. 148, p. 897.

PROVISIONS-RUBBER-HIDES-DRY GOODS-WOOL-ETC.

COMMERCIAL EPITOME

Friday Night, Aug. 11, 1939

Coffee-On the 7th inst. futures closed 1 to 3 points net lower for the Santos contract, with sales totaling only 19 lots. The Rio contracts closed nominally unchanged, with no business reported. Weather news, temporarily at least, ceased to be a market factor. On spot quotations generally and shipment asking prices Brazil was unchanged, and the demand from New York was light, which tended to restrict interest in the futures market. Spot Rio 7s were strong, however, at 13.600, a gain of 200 reis. Havre closed 1/4 to $1\frac{1}{4}$ francs higher. On the 8th inst. futures closed 1 to 4 points net higher for the Santos contract, with sales totaling 40 lots. No business was recorded in the Rio contracts. Brazilian weather continued favorable and apparently influenced some profit taking. Minimum temperatures ranged upward from 44 degrees. New demand from Brazil was in evidence, but these orders were limited and held around present levels. The Havre market closed ¾ franc lower. On the 9th inst. futures closed unchanged for the Santos contracts, compared with previous final quotations. actions totaled 55 lots, all in the Santos contract. Trading in coffee futures was listless with the market developing an easier undertone. During early afternoon Santos contracts stood 1 to 4 points lower on a turnover of about 4,000 bags. Rios were entirely neglected. Havre futures were ¾ to 1 franc higher. Brazilian cables reported that the weather was fine yesterday with minimum temperatures ranging from 50 to 59 degrees. Actuals were steady. Cost and freight quotations from Brazil were unchanged. Coffee destruction during the last half of July totaled 249,000 bags. It brought the total for the month to 494,000 bags or the best rate of incineration since the end of 1938. So far since 1931 Brazil has destroyed more than 61,000,000 bags.

On the 10th inst. futures closed 13 to 7 points net lower for the Santos contract, with sales totaling 43 lots. Only one contract was sold in the Rio (new A). Light liquidation in the Sept. Santos position was attended by further selling attributed to Europe. The result was losses of 5 to 10 points in the Santos contract up to early afternoon. In Havre futures were ½ franc lower. In Santos yesterday the official spot price of hard 4s was raised 100 points. Cables reported that fine weather continued in the coffee belt. Brazilian cost and freight offers held unchanged, but mild coffees were easier with Manizales quoted at 12 %c. a pound, off ½ of a cent. Roasters were on the side lines. Today futures closed unchanged to 1 point down on the Santos contract, with sales totaling 24 lots. There was no business recorded in the Rio contracts. The coffee futures market stood unchanged to 1 point higher during early afternoon in dull trading. July Santos then sold at 6.35c. Havre futures were ¾ to 1½ francs lower. Brazilian weather continued fine with temperatures ranging from 44 to 53 degrees. The milreis improved 10 reis to 19.8 to the dollar. That was the first change in the quotation since Aug. 1. It is believed the Government is supporting the rate. Brazilian cost and freight offers were generally unchanged, but mild coffees were easier with Manizales offered at 12 ½c. for Aug. shipment, off ½ of a cent. New crop coffees were reported available at 11 ½c.

Cocoa—On the 7th inst. futures closed 2 to 4 points net lower. Trading seemed largely centered in the September delivery. The market steadied after early liquidation on manufacturer buying, but again turned easier on further liquidation and the appearance of hedge selling in the forward months. Transactions totaled 363 lots or 4,864 tons. Switches accounted for 214 of the 363 contracts traded. Switching from the September delivery was the outstanding feature. For the most part dealers absorbed the September liquidation, some of which came from outside longs. The London Terminal Cocoa Market was closed today in observance of the August bank holiday. Local closing: September 4.09; Oct., 4.13; Dec., 4.21; Jan., 4.26; March, 4.33; May, 4.44; July, 4.54. On the 8th inst. futures closed 6 to 8

points net lower. Heavy liquidation of September contracts was largely responsible for the market's weakness today. September cocoa futures sold off to 4c. today, as the first heavy day of liquidation in advance of first notice day on Aug. 25 got under way. Transactions for the day totaled 648 lots or 8,863 tons. This included sales of 208 September contracts. There was also considerable switching from September to later deliveries. New low marks for all active months were registered during the session. September at 4c. was 7 points under the previous bottom level. Selling emanated chiefly from Wall Street houses. Manufacturers were heavy buyers on the scale down. The London Terminal Cocoa Market was also sharply lower today, closing quiet at 4½d. to 9d. lower. A total of 540 tons were sold. London actuals were 4½d. lower compared with Friday's finals. Local closing: Sept., 4.00; Oct., 4.05; Dec., 4.14; Jan., 4.18; March, 4.28; May, 4.38. On the 9th inst. futures closed 1 to 3 points net lower. Transactions totaled 404 lots. The liquidating movement in September cocoa futures continued, and put a damper on the market. The September position sold at 3.97c., off 4 points, and the lowest for that position since December, 1933. Manufacturers and trade interests as heretofore absorbed offerings on a scale down. It was reported in the trade that a good spot business was moving. Trading was active with 350 lots done to early afternoon. Warehouse stocks increased 900 bags. They now total 1,379,446 bags. A year ago stocks amounted to 680,231 bags. Local closing: Sept., 4.00; Dec., 4.13; Jan., 4.17; March, 4.26; May, 4.36; July, 4.45.

On the 10th inst. futures closed 1 to 2 points net higher.

4.00; Dec., 4.13; Jan., 4.17; March, 4.26; May, 4.36; July, 4.45.

On the 10th inst. futures closed 1 to 2 points net higher. Transactions totaled 310 lots. There was further liquidation by Sept. longs, but manufacturers and the trade absorbed offerings, with the result that the market held at unchanged prices, with Sept. quoted at 4c. even. Trading was fairly active, with a total of 300 lots to early afternoon. Warehouse stocks decreased 4,800 bags. They now total 1,374,251 bags compared with 685,070 bags a year ago. Local closing: Sept., 4.01; Oct., 4.05; Dec., 4.14; Mar., 4.27; May, 4.37; July, 4.47. Today futures closed 4 points net lower. Heavy further liquidation of Sept. contracts and switching out on that position into forward months caused cocoa futures to fall to lowest prices in six years. The sole support seemed to come from trade shorts and manufacturers who were buyers or a scale down. Sept. broke to 3.95c. and stood at 3.98 this afternoon, off 3 points net. Trading was fairly active with 275 lots done to early afternoon. First Sept. notice day falls on Aug. 25. Warehouse stocks decreased 900 bags. They now total 1,373,384 bags, compared with 701,202 bags a year ago. Local closing: Sept., 3.97; Dec., 4.10.

Sugar—On the 7th inst. futures closed 1 to 3 points net

Sugar—On the 7th inst. futures closed 1 to 3 points net lower. Liquidation of September holdings was the chief factor operating against market values today. Abandoning hope that sugar officials intend to revise their early estimates of consumption, many holders of future contracts, especially in the September delivery let go of their commitments. The September delivery, in which 159 lots of the total of 291 were traded, declined to 1.87c., off 3 points for the day and off 12 points from its recent high. With refiners withdrawn from the market as buyers, raw sugar was weak today. Sellers continued to ask 2.90c. for duty frees and 2c. for Cubas, but buyers were not interested above 2.85c. The world sugar contract was unchanged to 2 points higher. The London market was closed. Transactions in the world sugar contract totaled 63 lots. On the 8th inst. futures closed unchanged to 1 point off. Nearly half of the day's business was in the September delivery. Shorts were covering and longs were moving into forward positions. Trade houses were on both sides of the market again. Although no sales were effected in raws, the spot committee of the sugar exchange reduced the quotation to 1.93c. today. This is a decline of 8 points in 2 sessions, the quotation of the previous day having been reduced on the basis of a sale of 1,400 tons of Philippines, ex-store, to Arbuckle at 2.85c. The world sugar contract here closed ½ to 1 point higher, with sales of 51 lots. In the London market raws were unchanged at 6s. 10½d. Futures were ½d. lower to ½d. higher. On the 9th inst. futures closed 1 to 2 points net lower for the No.3 contract, with sales totaling 247 lots. The world sugar contract closed 2 to 2½ points net higher, with sales of 68 lots. September liquidation was the depressing factor in the domestic sugar futures market, causing prices to slip off to new seasonal lows. Trading was active, with transactions totaling about 8,000 tons to early afternoon. On the other hand July, 1940, contracts held unchanged at 1.98c. The Cub

1 to 1½ points higher during early afternoon on a turnover of 3,000 tons. London futures rose ½ to 1¾d., while raws there were unchanged. The Cuba Sugar Institute released for immediate shipment 25,176 tons representing Cuba's share of the extra quota surrendered by Russia.

On the 10th inst. futures closed unchanged to 2 points net higher for the domestic contract, with sales totaling 415 lots. The world sugar contract closed unchanged to 1½ points higher, with sales totaling 88 lots. After having declined steadily for about a week, the sugar futures market stiffened on evidences that liquidation of September contracts was drying up. During early afternoon the market was 1 to 2 points higher, with September 1.87 cents, up 2 points, after all offerings at 1.25 had been absorbed. The steady tone was believed to reflect a disposition of refiners to buy raws on a basis of 1.90 cents for Cubas, off 12 points from the recent top and equivalent to 2.80 cents for duty-free sugars. The American Sugar Refining Company yesterday obtained 3,000 tons of prompt Cubas at 1.90 cents. The sale established the spot price of sugar at 5 points down to the lowest level quoted since June 21st. London spot August was 3¼d. lower, but other positions were as much as ¾d. net higher. Raws there were 3d. lower. Today futures closed unchanged to 1 point net lower for the domestic contract, with sales totaling 119 lots. The world sugar contract closed 5 to 3½ points net lower, with sales totaling 300 lots. Heavy selling of world contracts featured the trading in sugar futures today. The peaceful tenor of the news from Europe is held responsible for the selling, some of which is believed to have been profit taking on the rise of near 10 points over the last two weeks. Demand on a scale down was good, with the result that losses were held to 2½ to 3½ points. During early afternoon the May option was selling at 1.18 cents, off 3½ points. London futures were ¼ to ¾ lower except on the spot month, August, which was off 2½d., reducing the premiu of raws were reported.

Statement of Sugar Statistics of Department of Agriculture for Six Months of 1939—Deliveries Above Year Ago

Year Ago
The Sugar Division of the U. S. Department of Agriculture on Aug. 2 issued its monthly statistical statement covering the first six months of 1939, consolidating reports obtained from cane sugar refiners, beet sugar processors, importers, and others. Total deliveries of sugar during the first six months of 1939 amounted to 2,936,914 short tons, raw value, compared with 2,900,562 tons during the corresponding period last year. Distribution of sugar in continental United States during the period January-June, 1939, in short tons, raw value, was as follows:

Raw sugar by refiners (Table 1).

Raw sugar by refiners (Table 1)	4.127
Raw sugar by retiners (Table 1)	2.042,366
Refined sugar by refiners (Table 2, less exports)	
Beet sugar processors (table 2)	566,613
Beet sugar processors (table 2)	260.898
Importers of direct consumption sugar (Table 3)	
Mainland cane mills for direct consumption (Table 4)	62,910
	-
	0 000 01

Total 2,936,914

The distribution of sugar for local consumption in the Territory of Hawaii for the first six months of 1939 was 12,010 tons, and in Puerto Rico it was 32,047 tons (Table 5).

Stocks of sugar on hand on June 30, in short tons, raw value, were as follows (not including raws for processing held by importers other than refiners, nor the stocks of sugar held by mainland cane factories shown in Table 4):

	1939	, 1938
Refiners' raws	449,153 477,378 187,191	414,484 425,949 185,044
Total	1,113,722	1,025,477

In addition to the above stocks, beet sugar factories had 867,258 short tons of sugar, raw value for marketing against a balance of the 1939 quota amounting to 1,000,106 tons, compared with stocks of 624,954 tons last

The data were obtained in the administration of the Sugar Act of 1937, The data were obtained in the administration of the Sugar Act of 1957, which requires the Secretary of Agriculture to determine consumption requirements, and to establish quotas for the various sugar-producing areas supplying the United States market. The statement of charges against the 1939 sugar quotas during January-June was made public on July 7. (This statement was given in the "Chronicle" of July 22, page 482).

State Department Denies Report of Reduction in Cuban Sugar Duties

Reports that the State Department was awaiting the adjournment of Congress to announce a reduction in tariff duties on Cuban sugar imports were denied in the Senate on Aug. 3. This denial was announced by Senator O'Mahoney of Wyoming who read a letter from Francis B. Sayre, former Assistant Secretary of State and now High Commissioner to the Philippines. It is said that a cut in the sugar tariff has been a subject of perotration in discussions between the to the Philippines. It is said that a cut in the sugar tariff has been a subject of negotiation in discussions between the Department and Cuban officials in drawing up a new reciprocal trade agreement with that country. Regarding this statement Washington advices of Aug. 4 to the New York "Journal of Commerce" said:

Members of the congressional sugar bloc received the "news" with grati-Members of the congressional sugar bloc received the "news" with gratification and interpreted the letter to mean that not only is the Department not awaiting congressional adjournment to cut the tariff but that it means that no action would be taken by the Department between adjournment and next January when Congress reconvenes.

The letter from Mr. Sayre to Senator O'Mahoney follows:

The letter from Mr. Sayre to Senator O'Mahoney follows: With reference to our telephone conversation of this afternoon regarding the statement which you stated recently appeared in the press to the effect that the State Department is only awaiting the adjounrment of Congress before cutting the tariff duties on Cuban sugar, I should like positively to deny the statement. As a matter of fact, negotiations with the Cuban Government have been in progress ever since last November. These negotiations have had their ups and downs. For a time it looked as though announcement would have to be made of the breakdown of the negotiations. At the present moment it is impossible to say whether the negotiations will be successful and an agreement can be reached or not. Many grave obstacles stand in the way of agreement. It can be positively asserted that no immediate action is in prospect.

International Sugar Council Re-allots Quotas for Cuba, Dominican Republic and Netherlands

following cablegram from London was received The following cablegram from London was received Aug. 8 by the New York Coffee and Sugar Exchange, Inc.:

An International Sugar Council communique referring to arrangements regarding additional supplies for the second quota year ending Aug. 31, 1939 states: "Information received from the Soviet Government is to the effect that it does not wish to avail itself of the additional quota alloted to it. Therefore the following re-allotment is made: Cuba 25,941 metric tons, Dominican Republic 11,039 metric tons and the Netherlands 28,976 metric tons." It has also been announced that the Netherlands Government renounces its right to supply the amount alloted to it, namely, 20,000 metric tons under the arrangement made during July for shipment to the United Kingdom during the second quota year and the International Sugar Council finds it unnecessary to re-allot the amount.

In our issue of Aug. 5, page 895, we gave the details of the establishment of the balance between export quotas and estimated requirements of the free market for the third quota year.

Javan Sugar Exports in June Decreased Below Year Ago

Exports of sugar from Java during the month of June, 1939 amounted to 118,438 long tons, according to B. W. Dyer and Co., New York, sugar economists and brokers, a decrease of 30,320 tons compared with the same month a year ago. During the first three months of their crop year (running from April, 1939 to March, 1940) exports were 294,196 tons compared with 277,756 tons during the corresponding period last year, an increase of 16,440 tons. The firm's announcement added:

According to advices received by the Dyer firm, production for the present crop is estimated at 1,519,000 long tons compared with 1,376,824 tons produced during the 1938-39 campaign. During the months of April to June, 1939, production amounted to 451,783 tons, an increase of 75,659 tons compared with the corresponding months of 1938.

Sugar stocks in Java on July 1, 1939 were 298,822 tons, the comparative figure for 1938 being 331,195 tons.

Sugar Consumption in 13 European Countries During Ten Months of Current Crop Year Increased 9.2% Above Last Year

Consumption of sugar in the 13 principal European countries during the first 10 months of the current crop year, September, 1938 through June, 1939, totaled 6,818,857 long tons, raw sugar value, as contrasted with 6,244,803 tons consumed during the similar period last season, an increase of 574,054 tons or approximately 9.2%, according to Lam-

of 574,054 tons or approximately 9.2%, according to Lamborn & Co., New York. The announcement went on to say:
Sugar stocks on hand for these countries on July 1, 1939 amounted to 2,419,200 tons as against 2,944,800 tons on the same date in 1938, a decrease of 525,600 tons or approximately 17.8%.

The estimated beet sowings for the current season for the 13 principal European countries, according to advices received from F. O. List, the European sugar authority, is placed at 4,069,700 acres, as compared with 3,911,600 acres in the previous season, an increase of 158,100 acres, or approximately 4%. These countries produced 5,540,000 long tons of sugar last season.

The 13 countries included in the survey are Belgium, Bulgaria, France, Germany, Holland, Hungary, Irish Free State, Italy, Poland, Roumania, Sweden, United Kingdom, and the Protectorate of Bohemia-Moravia.

Lard—On the 7th inst. futures closed unchanged to 2 points higher. The opening range was 2 to 5 points higher. Trading was light and without noteworthy feature. Export clearances of lard from the Port of New York today were reported as 69,000 pounds, destined for Southampton. Receipts of hogs at the principal Western markets today were below trade expectations and totaled 51,500 hood. Receipts of hogs at the principal Western markets today were below trade expectations and totaled 51,500 head against 57,500 for the same day last year. Hog prices at Chicago advanced 5c. to 10c. owing to the lighter receipts than forecast. Sales ranged from \$4.90 to \$6.70. On the 8th institutes closed 2 points lower to 2 points higher. Trading was quiet, with the undertone steady. There was nothing in the news to serve as an incentive for operations on either side of the market. Reports from Washington regarding the proposed barter deal with Germany are being watched very closely. Clearances of lard from the Port of New York were light and totaled 30,000 pounds today, destined for Hamburg. Liverpool prices were unchanged compared with previous Friday's finals. Hog prices at Chicago closed 10c. lower. Receipts of hogs at the leading markets in the West were 59,800 head, compared with 64,600 head. Sales at Chicago ranged from \$4.90 to \$6.60. The late top price was \$6.65. On the 9th inst. futures closed 15 points net lower on the ranged from \$4.90 to \$6.60. The late top price was \$6.65. On the 9th inst. futures closed 15 points net lower on the active deliveries. The market was fairly active, with the undertone heavy. Export clearances of lard from the Port of New York today were 250,140 pounds. Liverpool lard futures were unchanged from previous final quotations. Receipts of hogs at the western markets totaled 50,800 head against 51,700 for the same day a year ago. Hog prices at Chicago finished 10c. to 20c. lower. Sales ranged from \$4.85 to \$6.50. \$4.85 to \$6.50.

A.85 to \$6.50.

On the 10th inst. futures closed 12 to 15 points net lower. Liquidation of a rather substantial character depressed prices considerably below the previous finals. The downward movement was accelerated by short selling. From these low levels the market showed little tendency to rally. Export clearances of lard from the Port of New York totaled only 36,000 pounds, destined for Stockholm. Liverpool lard futures were 6d to 9d. lower. Receipts of hogs for the Western run today were larger than the same day a year ago and totaled 52,800 head against 41,800 head. Prices of hogs at Chicago were 10c. to 15c. lower, with sales ranging from \$4.60 to \$6.40. Today futures closed 10 to 12 points net lower. Fresh liquidation in the September delivery had a depressing effect, and this in turn induced some short selling.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri
September	5.55	5.57	5.55	5.40	5.25	5.15
October	5.60	5.62	5.60	5.45	5.32	5.22

Turpentine: 29½ to 31½. Rosins: \$5.30 to \$7.60.

September 5.42@ 5.43 | January 5.63@ n Pebruary 5.63@ n November 5.42@ n March 5.71@ 5.73 | Rubber—On the 7th inst. futures closed 1 to 2 points net higher. Transactions totaled only 340 tons. The market's dulness today was attributed largely to the absence of foreign interest, both London and Singapore markets being closed today. What activity there was in the local market consisted largely of trading in the September and December positions, the activity being confined almost entirely to trade houses. The outside market was of a holiday character. Spot standard No. 1 ribbed smoked sheets in the actual market remained unchanged at 16 11-16c. Local closing: Aug., 16.62; Sept., 16.66; Dec., 16.74; March, 16.75. On the 8th inst. futures closed 3 points net lower. Transactions totaled only 650 tons. Activity was confined largely to trade and commission house interests. The outside market continued quiet. Spot standard No. 1 ribbed smoked sheets in the actual market remained unchanged at 16 11-16c. Stocks of crude rubber in England for the week ended Aug. 5 were reported at 55,124 tons, a decrease of 1,709 tons from the week previous. Local closing: Aug., 16.59; Sept., 16.63; Dec., 16.71; Jan., 16.70; March, 16.72. On the 9th inst. futures closed 1 to 2 points net higher. Transactions totaled 115 lots. Crude rubber futures resisted the weakness in other markets. Reflecting a steady London market and firm primary markets, prices here opened 3 to 8 points higher. Later they eased off slightly, but in early afternoon were unchanged to 1 point higher, with September at 16.63c. Sales to that time totaled 890 tons, of which 30 tons were exchanged for physical rubber. London closed unchanged to 1-16d. higher. Singapore was unchanged to 1-32d. lower. Local closing: Sept., 16.64; Dec., 16.72; March, 16.74; May, 16.75.

On the 10th inst. futures closed 12 to 15 points net lower. Transactions totaled 157 lots. An easier trend was manifest in the rubber futures market although no special develop-

On the 10th inst. futures closed 12 to 15 points net lower. Transactions totaled 157 lots. An easier trend was manifest in the rubber futures market although no special developments were reported. Foreign markets were unchanged to a fraction lower. Trading in rubber was fairly active with commission houses selling September and London trade firms buying. This early afternoon September was 8 points lower at 16.56. Sales to that time totaled 1,330 tons of which 690 tons were exchanged for physicals. Local closing: Sept. 16.52; Dec. 16.58; Jan. 16.58; March 16.60. To-day futures closed unchanged to 4 points higher. Transactions totaled 164 lots. Mixed trading developed in the rubber futures market with small net result in quotations. By early afternoon the market was unchanged to 1 point higher with September unchanged at 16.52 cents. Sales to that time totaled only 450 tons, of which 290 tons were exchanged for physical rubber. The London market was steady, unchanged to 1-16 higher. It was estimated that United Kingdom rubber stocks had decreased 350 tons this week. Singapore closed steady. Local closing Sept. 16.52; Dec. 16.59; March 16.64.

Hides—On the 7th inst. futures closed 21 to 27 points net lower. The market ruled weak today largely as a result of liquidation of September contracts. The opening range was 3 points higher to 4 points lower. While a fair volume of buying developed from trade sources, the selling by commission houses forced the list steadily lower. Bearish influences were an easier tendency to the spot hide situation and a weaker stock market. Transactions in hide futures totaled 300 contracts or 12,000,000 pounds. Certificated stocks of hides in warehouses licensed by the exchange totaled 1,414,617 hides. Local closing: Sept., 10.87; Dec., 11.22; March, 11.52; June, 11.84. On the 8th inst. futures closed 15 to 20 points net lower. The opening range was 1 to 8 points net higher. The market ruled heavy during most of the session. Trading was quite active, with sales totaling 12,400,000 pounds, of which 1,800,000 pounds were exchanged for physical. Reports were current of trading in packers' hides, but details were lacking. Local closing: Sept., 10.71; Dec., 11.02; March, 11.37; June, 11.68. On the 9th inst. futures closed 14 to 15 points net lower. Transactions totaled 408 lots. There was heavy selling of the September position, believed to represent outright liquidation. Stop loss orders were caught on the way down. One of the factors in the September liquidation is the existence of large stocks of hides, including a substantial quantity of

old hides which may not be taken except at wide differences. During early afternoon futures were 23 points lower on September at 10.48c., while December was 20 points lower at 10.82c. The market was active, sales to that time having totaled 10,680,000 pounds, of which 720,000 were exchanged for physical hides. Local closing: New contracts: Sept., 10.57; Dec., 10.88; March, 11.22.

On the 10th inst. futures closed 12 to 8 points net lower for the new contracts. Transactions totaled 177 lots. Sharp further declines took place in the hides futures market. Further liquidation in the September position was reported, with September selling off 13 points to 10.39 cents a pound. Fear of delivery of aged hides now in storage was one reason for liquidation, while weakness of the stock market also was an adverse influence. Up to early afternoon sales totaled 4,480,000 pounds. Certificated stocks decreased 2,613 hides over night, but still total 1,413,875 hides. Local closing: New Contracts: Sept. 10.45; Dec. 10.80; March 11.11: June 11.42. To-day futures closed 9 to 7 points net higher. Transactions totaled 192 lots. Raw hide futures eased off after opening 8 to 15 points higher, standing 1 to 2 net higher during early afternoon on a turnover of 3,160,000 pounds. The market appeared to be an evening up affair. No further spot hide sales were reported. It was said that packers stood ready to sell at last prices but traders were offering 11 cents for light native cow hides without success. Certificated stocks of hides decreased 4,619 pieces. They now total 11,413,875 hides, while 83,619 hides pending certification total a potential stock of 1,497,494 hides. Local closing: Sept. 10.54; Dec. 10.88; March 11.19; June 11.49.

Ocean Freights—Although the demand for tonnage has been relatively light, owners centinue to hold out for firm

Ocean Freights—Although the demand for tonnage has been relatively light, owners continue to hold out for firm rates. Charters included: Grain: Gulf to United Kingdom-Continent, early September, 3s. 3d.; option St. Lawrence loading, 2s. 9d. St. Lawrence to United Kingdom-Continent, August, 2s. 9d. Grain Booked: Ten loads Albany to Antwerp, August, 12c. Three and one-half loads New York to Liverpool, August, 2s. 8d. Scrap: Gulf to United Kingdom, September, 20s. 6d., one port loading; 21s. 6d. for two ports loading. Los Angeles, Calif., to Balboa, August, 21½c. a barrel. Gulf to Japan, September, loading. Time; Round trip transatlantic trade, delivery United Kingdom-Continent, end August, 4s. 6d. Round trip north of Hatteras-River Plate trade, August-September, \$1. Delivery Korea, redelivery United Kingdom-Continent, via North Pacific, August, 6s. Reported fixed, two round voyages transatlantic trade, delivery Europe, August-September, at 4s. 9d. to 5s. Round trip transatlantic trade, delivery Copenhagen, August, \$1.45. Round trip West Indies trade, continuation August, \$1.40.

Coal—The coal situation, especially in the anthracite division, showed little change the past week. According to figures furnished by the Association of American Railroads, the shipments of anthracite into eastern New York and New England for the week ended July 22 have amounted to 1,236 England for the week ended July 22 have amounted to 1,236 cars as compared with 957 cars during the same week in 1938, showing an increase of 279 cars, or approximately 13,950 tons. Shipments of anthracite for the current calendar year up to and including the week ended July 22 have amounted to 50,852 cars as compared with 45,659 cars during the same period in 1938, showing an increase of close to 259,650 tons. Shipments of bituminous coal into this territory during the week ended July 22 amounted to 1,673 cars as compared with 1,150 cars during the corresponding week in 1938. Calendar year shipments of bituminous coal have amounted to 47,055 cars as compared with 43,762 cars during the same period in 1938, an increase of 164,650 tons.

during the same period in 1938, an increase of 164,650 tons.

Wool—Latest advices from Boston report something of a lull spreading over the wool district. Mill buyers appear to nave withdrawn temporarily from the market. It is said that manufacturers are well supplied with wool and are not likely to reach after additional quantities with the raw material in so strong a position. Dealers are reported satisfied with the situation, which allows them a breathing spell in which to catch up with their grading operations. On good wools in demand the price trend continues upward, while inactive descriptions remain steady. The best territory wool in original bags now at 68c. to 70c. has forced a rise of 1c. or more per scoured pound on graded fine territory, which at 73c to 75c. is at the high price for many weeks. At the low end, the quarter-blood has gained a full cent for the week and the fleece quarter-blood are now selling at par on a scoured basis of 57c. to 60c. It is said that until the opening of the Australian season in Sydney, Aug. 28, the real price position of fine wool overseas will remain undisclosed. There is no shortgage of merinos and prices at the recent London sales were erratic. were erratic.

Silk—On the 7th inst. futures closed ½c. lower to 4c. higher for the No. 1 contract, while the No. 2 contract closed 4c. off to 2c. net higher. The opening quotations ruled slightly weaker. Transactions totaled 440 bales in the No. 1 contract and 20 bales in the No. 2 contract. Most of the support the market received came from trade and dealer buying. Selling came principally from Japanese sources. Yokohama futures were 11 to 17 yen lower, while Kobe futures were 12 to 22 yen easier. Grade D declined 10 yen to 1,210 yen at Yokohama and dropped only 5 yen to 1,210 yen at Kobe. Spot sales in both Japanese markets totaled

725 bales, while futures transactions totaled 5,100 bales. Local closing: No. 1 contract: Aug., 2.49; Sept., 2.39; Oct., 2.30½; Nov., 2.28; Dec., 2.26; Jan., 2.22½. No. 2 Contract: Aug., 2.47; Oct., 2.25; Dec., 2.18; Feb., 2.15. On the 8th inst. futures closed unchanged to 5c. higher for the No. 1 contract, while the No. 2 contract closed in leaves to tract: Aug., 2.47; Oct., 2.25; Dec., 2.18; Feb., 2.15. On the 8th inst. futures closed unchanged to 5c. higher for the No. 1 contract, while the No. 2 contract closed 1c. lower to 5c. higher. Transactions totaled 510 bales. There were no transactions in the No. 2 contract. Most of the selling came from Japanese and importer interests, while demand came from trade and dealers. At Yokohama futures were 13 to 20 yen up, while at Kobe they were 7 to 15 yen higher. Grade D gained 5 yen to 1,215 yen in both markets. Spot sales at these Japanese centers totaled 800 bales, while futures transactions totaled 3,250 bales. Local closing: No. 1 contract: Aug., 2.52; Sept., 2.44; Oct., 2.34; Nov., 2.30½; Dec., 2.28½; Jan., 2.24. No. 2 contract: Aug., 2.46; Oct., 2.28½; Dec., 2.21; Jan., 2.19. On the 9th inst. futures closed 3 to 1½c. net higher for the No. 1 contracts, with sales totaling 21 lots. The No. 2 contracts closed 3½c. up to unchanged, with sales of only 4 contracts. Raw silk futures opened ½ to 2c. higher on the No. 1 contract and were firm in later trading with December selling at 2.31, up 3c. Sales to early afternoon were only 80 bales, all on the No. 1 contract. The firmness was in sympathy with Japanese strength. In Yokohama futures advanced 10 to 19 yen, while grade D silk was 10 yen higher at 1,225 yen a bale. In the New York spot market crack double extra silk was 3½c. higher at \$2.64 a pound. Local closing: No. 1 contracts: Aug., 2.55; Dec., 2.29½; Jan., 2.25½. No. 2 contracts: Aug., 2.55; Dec., 2.29½; Jan., 2.25½. No. 2 contracts: Aug., 2.55; Dec., 2.29½; Jan., 2.25½. No. 2 contracts: Aug., 2.55; Dec., 2.29½; Jan., 2.25½. No. 2 contracts: Aug., 2.50; Dec., 2.29½; Jan., 2.25½. No. 2 contracts: Aug., 2.50; Dec., 2.29½; Jan., 2.25½. No. 2 contracts: Aug., 2.49½; Nov., 2.27.

On the 10th inst. futures closed unchanged to 1c. net lower. Transactions totaled 62 lots. Commission houses were moderate buyers of silk futures on a further moderate dip in prices. During early afternoon the market was a fraction of a

In the spot market crack double extra silk was ½c. lower at \$2.63½. Yokohama Bourse prices were unchanged to 7 yen lower. Grade D silk advanced 15 yen to 1,230 yen a bale. Local closing: No. 1 contracts: Aug., 2.55; Oct., 2.34½: Nov., 2.29½; Dec., 2.28; Jan., 2.24½. Today futures closed 5½c. to 2c. net higher. Transcations totaled 86 lots. Japanese and trade interests were reported buying silk futures. Offerings were rather light, with the result that prices gained 3 to 4½c. with Sept. selling at \$2.48½ and Dec. at \$2.31. Sales to early afternoon totaled 440 bales, all on the No. 1 contract. The price of crack double extra silk in the uptown spot market advanced 3c. to \$2.66½ a pound. Yokohama Bourse prices closed 15 to 19 yen higher. Grade D silk advanced 10 yen to 1,240 yen a bale. Local closing: Aug., 2.57½; Sept., 2.49½; Oct., 2.37½; Dec., 2.30; Jan., 2.26½ Mar., 2.23½.

COTTON

Friday Night, Aug. 11, 1939.

The Movement of the Crop, as indicated by our telegrams from the South tonight, is given below. For the week ending this evening the total receipts have reached 72,192 bales, against 73,404 bales last week and 73,527 bales the previous week, making the total receipts since Aug. 1, 1939, 107,484 bales, against 79,433 bales for the same period of 1938, showing an increase since Aug. 1, 1939, of 28,051 bales.

The exports for the week ending this evening reach a total of 54,284 bales, of which 12,451 were to Great Britain, 6,257 to France, 14,160 to Germany, 3,970 to Italy, 5,048 to Japan, 620 to China, and 11,778 to other destinations. In the corresponding week last year total exports were 49,662 bales. For the season to date the aggregate exports have been 70,401 bales, against 78,804 bales in the same period of the previous season. Below are the exports for the week:

NOTE—Exports to Canada—It has never been our practice to include in the above table reports of cotton shipments to Canada, the reason being that virtually all the cotton destined to the Dominion comes overland, and it is impossible to give returns concerning the same from week to week, while reports from the customs districts on the Canadian border are always very slow in coming to hand. In view, however, of the numerous inquiries we are receiving regarding the matter, we will say that for the month of June the exports to the Dominion the present season have been 23,601 bales. In the corresponding month of the preceding season the exports were 16,632 bales. For the 11 months ended June 30, 1939, there were 235,335 bales exported, as against 228,366 bales for the 11 months of 1937-38.

In addition to above exports, our telegrams tonight also give us the following amounts of cotton on shipboard, not cleared, at the ports named:

		T

Speculation in cotton for future delivery during the past week was fairly active, with the price trend irregular. Reports from spot market centers spoke of a better export inquiry and the trade continued optimistic over the prospects for enlarged shipments abroad. Assurance that funds would be available for cotton crop loans, if needed, came with the announcement that President Roosevelt had signed the third deficiency bill at Hyde Park. This contains an item of \$119,000,000 for the Commodity Credit Corporation.

item of \$119,000,000 for the Commodity Credit Corporation. On the 5th inst. prices closed 1 point up to 1 point lower. There is so much uncertainty, especially as regards legislation at Washington in connection with the final action by Congress on the Commodity Credit Corporation appropriation of \$119,000,000, that traders showed little disposition to operate either way in the market. Another restraining influence was the fact that the first official crop estimate of the season will be published next Tuesday. There was little inclination to make fresh commitments and what transactions there were consisted largely of evening-up over the week-end. The market opened unchanged to 1 point lower in quiet trading. With Liverpool closed for the bank holiday today and Monday, only small foreign business was transacted here. Offerings came chiefly from spot houses in the nearby deliveries, and there was some scattered liquidation of forward months, which was attributed in part to recent

showers in the Western belt. Southern spot markets were unchanged. Middling quotations ranged from 8.68c. up to 9.95c. On the 7th inst. prices closed 2 to 5 points net higher. Trading was relatively quies, but the undertone ruled steady of the middle of the control o unchanged. Middling quotations ranged from 8.68c. up to 9.95c. On the 7th inst. prices closed 2 to 5 points net higher. Trading was relatively quiet, but the undertone ruled steady. The relative inactivity, of course, was attributed largely to the coming official estimate of this season's cotton crop, which will be published tomorrow. While demand was slow, the market was without perceptible selling pressure and prices were within a range of 2 to 5 points. Tomorrow's estimate by the crop reporting board of the Department of Agriculture will compare with a crop of 11,943,000 bales last year. Average ideas in the trade, based on regularly compiled private indications, were for 11,542,000 bales. Individual estimates ranged from 11,095,000 up to 11,988,000 bales. A crop of less than 11,500,000 bales, it was said, would point to the need for purchases of cotton from loan stocks to supplement the fresh production to meet the season's apparent consuming requirements. Southern spot markets generally were 4 to 5 points net higher, except Savannah which was 14 points lower. On the 8th inst. prices closed 13 to 17 points net lower. The opening range was unchanged to 3 points higher and during the morning prices worked up to net gains of 4 to 7 points on trade buying, while offerings were light. Liquidation became rather pronounced just before the market adjourned at midday to receive the first official crop estimate of the season, with the result that the list eased about 10 to 12 points from the highs of the day. The market eased approximately \$1 a bale from the early highs when buying failed to materialize on the slightly smaller crop figures than expected and selling pressure increased late in the session. Heavy general rains in previously dry areas of Oklahoma more than offset the somewhat bullish effects of a Government cotton crop estimate of 11,412,000 bales. While the official crop figures were about 100,000 bales under average expectations, the impression prevailed that conditions in the West had improved since t a moderate volume of transactions. A short time before the close of business active months registered gains of 3 to 7 points over the closing levels of the preceding day. Around midday prices were 3 to 8 points higher. The local futures market failed to follow the easier trend at Liverpool and opened steady, with prices 2 to 5 points higher in a moderately active trade. The feature of the opening was the active buying by Bombay and Liverpool accounts in the May and July positions and a good trade demand in the near months. Offerings came principally from scattered foreign liquidation, hedge sales and selling by locals and the South. Temperatures in the cotton belt were mostly moderate for the season, according to the weekly weather report from Washington. East of the Mississippi River there were widespread—but mostly light to moderate—showers.

On the 10th*inst. prices closed 2 points down to 2 points net higher. After holding fairly steady throughout the earlier part of the day, cotton prices developed an easier tone this afternoon in a moderate volume of business. Shortly before the end of the trading period the list was 3 to 6 points net lower. At noon the market was 1 point higher to 1 point lower. The local market responded to better than expected cables this morning and opened steady, with prices 3 to 5 points higher in a moderately active trade. Both brokers with Bombay and Liverpool connec-

better than expected cables this morning and opened steady, with prices 3 to 5 points higher in a moderately active trade. Both brokers with Bombay and Liverpool connections were buyers of October and December this morning at the present narrow differences and a little of this absorption also was noticeable in May. There was some trade support in October and December, while offerings in these months came principally through a leading spot interest, with some hedge sales and New Orleans selling in both these deliveries.

these deliveries.

these deliveries.

Today prices closed 6 to 11 points net lower. Prices for cotton futures again displayed an easier tone today in a moderate volume of sales. A short time before the close of business active positions showed no change to a decline of 6 points from the closing levels of the previous day. Around midday the market was unchanged to 4 points lower. Futures failed to decline as much as cables indicated this morning, and the market opened barely steady, with prices 1 point net lower in a moderate amount of trading. Foreign interests were the best sellers, with liquidation from Bombay, Liverpool and Continental interests well distributed throughout the most active months. A few well distributed throughout the most active months. well distributed throughout the most active months. A few-hedge sales also made their appearance, mostly in Decem-ber and May. Support came principally from trade inter-ests and Wall Street accounts, while New Orleans operators bought sparingly in October and March. The official quotation for middling upland cotton in the New York market each day for the past week has been:

Sat. Mon. Tues. Wed. Thurs. Middling upland...... 9.55 9.60 9.47 9.53 9.47

Premiums and Discounts for Grade and Staple—The table below gives the premiums and discounts for grade and staple in relation to the grade, Basis Middling ½, established for deliveries on contract on Aug. 17, 1939. Premiums and discounts for grades and staples are the average quotations of 10 markets, designated by the Secretary of Agriculture, and staple premiums represent 60% of the average premiums over ½-inch cotton at the 10 markets on Aug. 10:

^{*} Includes the combined total of 15 towns in Oklahoma

The above totals show that the interior stocks have decreased during the week 7,535 bales and are tonight

500,587 bales more than at the same period last year. The receipts at all the towns have been 25,324 bales more than the same week last year.

Market and Sales at New York

The total sales of cotton on the spot each day during the week at New York are indicated in the following statement. For the convenience of the reader, we also add columns which show at a glance how the market for spot and futures closed on same days.

	Spot Market	Futures Market		SALES	
	Closed	Closed	Spot	Contr'ct	Total
Tuesday Wednesday Thursday	Nominal	Steady Steady Steady Steady Barely steady	2,000 100 400		2,000 100 400
Total week. Since Aug. 1			3,100		3,100 4,470

Overland Movement for the Week and Since Aug. 1-We give below a statement showing the overland movement for the week and since Aug. 1, as made up from telegraphic reports Friday night. The results for the week and since Aug. 1 in the last two years are as follows:

·	939	1	938
Aug. 11— Shipped— Week	Since Aug. 1	Week	Since Aug. 1
Via St. Louis 3,774 Via Mounds, &c 3,675	5,614 5,150	2,608 2,300	5,338 4,471

New York Cotton Exchange Members Approve New Futures Contract—Members of the N. Y. Cotton Exchange on Aug. 7 approved by a vote of 202 to 11 the proposal for establishing a new contract for trading in the future delivery of cotton. After Aug. 15, the basis of the contract traded will be cotton of middling grade 15-16 of an inch in staple length instead of %-inch middling as at present. In those deliveries now on the board trading will be done simultaneously in old and new contracts until the expiration date of

the most distant delivery month on the board, it was stated in the New York "Journal of Commerce" of Aug. 8, which also pointed out the following list of approved changes:

also pointed out the following list of approved changes:

1. The new contract will be based on middling 15-16 inch cotton, instead of 1/8-inch.

2. Middling spotted is deliverable when and if the Secretary of Agriculture establishes a type for such grade. Under the old contract, middling spotted was not deliverable.

3. Those who receive a notice for delivery of cotton will have one hour's time to pass it on, instead of fifteen minutes as at present.

4. Two new staple lengths—29-32-inch and 31-32-inch—will be added under the new contract.

5. Standard and high density compressed cotton will be received on contract on the same basis whereas under old contracts, standard density was called for.

6. Staples over 15-16-inch to 1-inch, shall be deliverable at 75% of the commercial premium over 15-16-inch, whereas old contracts specified 60% of commercial premium for deliveries of 15-16-inch and 1-inch over 1/8-inch.

7. Staples under 15-16-inch shall be deliverable at full commercial discounts.

7. Staples under 15-16-inch shall be denverable as this counts.

8. Non-rain grown cotton is tenderable only in grades of middling[and above, and in staples 11-32-inch, or longer. Old contracts barred this cotton.

9. Cotton remaining under certification ten months shall be penalized 15c, per bale per month, beginning with the eleventh month.

First Bales of Cotton from Oklahoma—The "Oklahoman" of Aug. 8 reported the first bales from the 1939 crop to be ginned in Oklahoma as follows:

Five southern Oklahoma farmers laid claim Monday (Aug. 7) to producing the first bales of cotton from the 1939 crop to be ginned in the State. John Spoon of the Fleetwood community in southern Jefferson County brought one of the First bales to the Jones H. Barrett gin in Ryan.

Meanwhile two Negro farmers, Bonnie Rey, about 30 years old, and Ben Berlin, 66, raced to Idabel in McCurtain County for the honorlof bringing the other "first" bale.

Mr. Rey raised his cotton on a farm belonging to Mrs. Ben Denison of Idabel. The farm, located 10 miles southwest of there, is managed by G. W. Oakes.

Another "first" was a bale ginned in Waurika at 5:30 p. m. for Mrs. Rosa Green, who lives seven miles southwest of there. The cotton was brought to the Waurika gin.

The fifth was taken by Joe Szgasi to the Choctaw Cotton Oil Co. in Caddo, Bryan County, at 2:45 p. m. Szgasi lives three miles east of Caddo. Ben Ammonds, Manager of the gin, said they paid nine cents a pound for a 430-pound bale.

Two New Members of New York Cotton Exchange—At a meeting of the Board of Managers of the New York Cotton Exchange held Aug. 4 the following were elected to membership in the Exchange: Joseph W. Evans, of Evans & Co., Houston, Texas, who do a cotton exporting business, and James G. Boswell, President of J. G. Boswell & Co., Los Angeles, Calif., and affiliated organizations. Mr. Evans is a member of the Chicago Board of Trade, New Orleans Cotton Exchange, and Houston Cotton Exchange. He is the oldest cotton merchant in Houston. Mr. Boswell is a member of the Chamber of Commerce of Los Angeles.

Agricultural Department's Report on Cotton Acr Condition and Production—Full report on page 1052.

Returns by Telegraph—Telegraphic advices to us this evening indicate that during the last few days rains in portions of Texas and Oklahoma served to relieve droughty conditions but precipitation was insufficient to aid in other drier areas. In the rest of the belt damage remained light except locally in western portions of Texas.

Receipts from the Plantations-The following room the Plantations—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week	Receipts at Ports			Stocks (at Interior	Towns	Receipts from Plantations

11-	72,192	51.885	94 093	2434.971	1933,484			33.753	79.00	

The above statement shows: (1) That the total receipts from the plantations since Aug. 1, 1939, are 111,506 bales; in 1938 were 47,554 bales, and in 1937 were 111,562 bales. (2) That, although the receipts at the outports the past week were 72.192 bales, the actual movement from the plantations was 64,657 bales, stock at interior towns having decreased 7,535 bales during the week.

World's Supply and Takings of Cotton—The following brief but comprehensive statement indicates at a glance the world's supply of cotton for the week and since Aug. 1 for the last two seasons from all sources from which statistics are obtainable; also the takings or amounts gone out of sight for the like period:

Cotton Takings,	193	39	1938		
Week and Season	Week 1	Season	Week	Season	
Visible supply Aug. 4 Visible supply Aug. 1 American in sight to Aug. 11. Bombay receipts to Aug. 10. Other India ship'ts to Aug. 10. Alexandria receipts to Aug. 9. * Embraces receipts in Europe from Brazil, Smyrna, West Indies, &c. a This total embraces since Aug. 1 the total estimated consumption by Southern mills, 200,000 bales in 1939 and 160,000 bales in 1938—takings not being available—and the aggregate amount taken by Northern and foreign spinners, 307,212 bales in 1939 and 325,585 bales in 1938, of which 113,112 bales and 146,785 bales American. b Estimated.

India Cotton Movement from All Ports—The receipts of Indian cotton at Bombay and the shipments from all India ports for the week and for the season from Aug. 1, as cabled, for three years, have been as follows:

Aug. 10 Receipts—			1939		19	938	1937		
			Week Since Aug. 1		Week	Since Aug. 1	Week	Since Aug. 1	
Bombay			7,000	15,000	20.000	35,000	3,000	16,000	
		For th	e Week			Since A	lug. 1		
Exports from—	Great Conti- Jap'n& Britain nent China Total				Great Britain	Conti- nent	Japan & China	Total	
Bombay-		11. 14.						00.000	

		FOT the	W eek		Stage 1	100		
Exports from—			Jap'n & China			Conti- nent	Japan & China	Total
Bombay— 1939 1938 1937		2,000 4,000 5,000	31,000 21,000	2,000 35,000 26,000	1,000	2,000 6,000 12,000	23,000 41,000 61,000	26,000 47,000 73,000
Other India: 1939 1938 1937	5,000 4,000	4000 7,000 14,000	====	9,000 11,000 14,000	7,000 4,000	6,000 13,000 16,000		13,000 17,000 16,000
Total all— 1939 1938 1937	5,000 4,000	6,000 11,000 19,000	31,000 21,000	11.000 46.000 40.000	8,000 4,000	8,000 19,000 28,000		39,000 64,000 89,000

According to the foregoing, Bombay appears to show a decrease compared with last year in the week's receipts of 13,000 bales. Exports from all India ports record a decrease of 35,000 bales during the week, and since Aug. 1 show a decrease of 35,000 bales.

Alexanders Bostonia 1,000 1 28,000

Alexandria Receipts and Shipments—We now receive weekly a cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years:

Alexandria, Egypt, Aug. 9	1	939	1938		19	937
Receipts (cantars)— This Week Since Aug. 1		26,000 28,000		3,000 5,000		2,000 2,000
	This Week	Since Aug. 1	This Week	Since Aug. 1	This Week	Since Aug. 1
Export (bales)— To Liverpool To Manchester, &c To Continent & India To America	1,000 3,000 11,000 1,000	1,000 3,000 11,000 1,000	4,000 7,000	1,500 7,000 16,000	1,000 1,000 6,000	1,000 2,000 9,000
Total exports	16,000	16,000	11,000	24,500	8,000	12,000

Note—A cantar is 99 lbs. Egyptian bales weigh about 750 lbs. This statement shows that the receipts for the week ended Aug. 9 were 26,000 cantars and the foreign shipments 16,000 bales.

Manchester Market—Our report received by cable tonight from Manchester states that the market in both yarns and cloths is steady. Merchants are buying very sparingly. We give prices today below and leave those for previous weeks of this and last year for comparison:

BREADSTUFFS

Friday Night, Aug. 11, 1939.

Flour-There were no outstanding features to the local flour market the past week. Business was relatively quiet. The situation abroad is being watched closely, as an outbreak of hostilities would undoubtedly start violent activity in all markets, especially the grains. Mills in this section of the country reported that shipping instructions recently have been rather light. Export subsidy rates on flour have been holding very steady, it is reported.

Wheat—On the 5th inst. prices closed unchanged to 1/4c. off. In the early trading the market showed considerable improvement, advancing 5/8c. a bushel. At this level, however, some profit-taking developed which caused the market to sag, and virtually all the early gains were obliterated. The undertone was steady at the close. Trading was relatively light and affected by uncertainty over action by the House of Representatives on the \$119,000,000 appropriation for crop loans, restored to the final deficiency bill yesterday Light foreign demand for grain, due parby the Senate. tially to a holiday at Liverpool, also was a trade deterring The English market will be closed Monday also for a bank holiday. Aiding the early upturn here was strength at Winnipeg, where prices advanced about 3/4c., partly on continued reports of crop damage and unfavorable weather. The Winnipeg market, which also will be closed for a holiday Monday, finished 1/8 to 1/4c. higher. H. C. Donovan, crop expert, wired from Princeton, Ill., that hot, dry weather threatened crop prospects in northern Illinois. On the 7th inst. prices closed 1/8 to 1/2c. net lower. The market was more or less under the influence of bearish weather reports. Cooler, unsettled weather in the North American spring wheat belts dropped wheat prices as much as a cent a bushel. Offerings, however, lightened on the downturn and the market recovered some of the early losses. September contracts fell to 631/8c., down a cent from Saturday's close, before rallying moderately. Contributing to the early downturn was weakness at Minneapolis where September wheat fell 11/4c. A lower corn market also had a depressing influence. Showers fell over the week-end in many parts of the Canadian prairie provinces and more were forecast. Cooler weather and showers also were forecast for parts of the domestic northwest. Passage by Congress late Saturday of the deficiency bill providing funds for crop loans had little market influence. On the 8th inst. prices closed unchanged to ½c. lower. The market was anything but buoyant today, futures selling fractionally lower, prices moving within a range of less than a cent. Influencing moderate selling were reports of over-night rains in western Canada and a forecast for cooler weather in the North American spring wheat belts. Winnipeg wheat, reflecting favorable Canadian weather, led the decline, prices there falling as much as 15%c. and closing 11% to 11/2c. lower. The Liverpool market opened comparatively firm after its two-day holiday, but developed weakness in late trade, and finished 11/8 to 1½c. down, about reflecting the decline here since the English market closed Friday. Wheat on the Board of Trade finished unchanged to ½c. off after having registered losses of as much as ½c. Liverpool reported pressure to resell Australian and Argentine wheats. On the 9th inst. prices closed unchanged to 3/3c. lower. Wheat prices held within a narrow range today, with speculative and com-mercial traders displaying little interest. Early losses were partly recovered in purchasing inspired by the favorable tone at Winnipeg, where prices rallied despite improved weather conditions in the spring wheat region. Although yesterday's lower trend continued, enough demand came out of the downturn to confine the losses within a small range. Scattered buying was credited to commission houses. Influencing

traders to stay on the sidelines was the expectation that the Canadian Government would issue its report of the condition of field crops as of July 31, this afternoon. An American Government crop report is due tomorrow.

On the 10th inst. prices closed ½ to 1c. net higher. The wheat market scored its first advance of the week on the Chicago Board today, prices gaining as much as 1½c. a bushel. Best levels, however, were not maintained, and trade was light. September contracts reached 65c., up 1½c. to 65%c. from the previous close. December was up 1%c. at 65%c., and May was up as much as 66c. Liverpool, after opening about steady, developed firmness, due partly to short covering pending European developments. The Argentine, however, was reported to be continuing heavy shipments to the English market. Wheat futures at Rotterdam closed ¼ to %c. higher.

the English market. Wheat Iutures at 12 to 1%c. higher.

Today prices closed 1% to 1c. net lower. Wheat trade fluctuated unevently and rather nervously today, prices scoring net gains of as much as 1%c. after an early downturn, but sagging again in closing minutes of the session. December wheat dropped 1%c. and May 1c. under the previous close. September contracts held comparatively firm throughout most of the session, but at the close also dipped fractionally. Contributing to the downturn on the Chicago Board was weakness at Liverpool, where wheat prices opened about 1c. lower than expected on the basis of action here yesterday. The English market reflected the diminished concern over the Danzig situation and the bearish character of the United States Government crop report, which indicated an increase of 14,777,000 bushels in the 1939 wheat crop. Open interest in wheat tonight was 94,426,000 bushels.

DAILY CLOSING PRICES OF WHEAT IN NEW YORK

Sat. Mon. Tues.

Corn—On the 5th inst. prices closed 1/6c. to 5/6c. net higher. The corn market was firm, aided by fair buying that lifted May contracts to 45/2c., up 3/4c. from the previous close. Reports of high temperatures in the Southwest and other parts of the grain belt aided the market. Except for scattered showers, generally fair and warm weather was indicated in the weekly forecast. On the 7th inst. prices closed 1/6c. to 3/6c. off. Good overnight rains fell in the central section of the corn belt, especially in Iowa and Illinois. This induced scattered selling of corn contracts. On the 8th inst. prices closed unchanged to 5/6c. off. Good rains in important parts of the domestic corn belt induced some selling of corn contracts, but prices held up comrains in important parts of the domestic corn belt induced some selling of corn contracts, but prices held up comparatively well. Continued small Chicago arrivals and a constant reduction in corn stocks at Chicago made for steadiness in the nearby delivery at Chicago yesterday, which closed unchanged, but the more distant positions were dominated by the very favorable weather news and finished 1/4c. to 5/8c. off. There were no intimations of any export business in American corn. On the 9th inst. prices closed unchanged to 1/4c. off. There was additional rainfall in the corn belt and traders expecting more favorable crop comment, were not inclined to support the market. Prices were fractionally lower and early trading, as in wheat, was almost at a standstill. at a standstill.

On the 10th inst. prices closed 1/8 to 3/8c. net higher. corn market was very quiet, with prices steady to slight fractions higher. Crop news continued favorable over the fractions higher. Crop news continued favorable over the main belt, but deterioration was still reported in the West, and the Government report, therefore, was awaited with unusual interest. A month ago the crop promised to be the largest since 1932. The Department of Agriculture officials in Washington said the report today might indicate whether farmer referendum on marketing quotas would be necessary. The Department may wait until the September crop report before making a decision on calling an election. Today prices closed ¼ to %c. net higher. The effects of the bullish Government corn crop estimate were partly offset by overnight rains in parts of the belt. Federal farm officials announced in Washington that the prospective yield of 2,459,888,000 bushels made it unlikely that marketing quotas would be imposed on the 1939 crop. Open marketing quotas would be imposed on the 1939 crop. interest in corn aggregated 37,432,000 bushels.

DAILY CLOSING PRICES OF CORN IN NEW YORK

Sat. Mon. Tues. Wed. Thurs. Frt. 58 57 % 57 % 57 % 57 % 58 % No. 2 vellow ---- Oats—On the 5th inst. prices closed ½ to ½c. net lower. Trading in oats was dull, but there was some selling of December contracts by elevator and Northwestern interests. On the 7th inst. prices closed ½c. up to ½c. off. Trading was light, with price trend irregular. On the 8th inst. prices closed ½c. off to ½c. up. Trading was light and without feature. On the 9th inst. prices closed ½c. lower to ½c. higher. Trading was light and without feature.

On the 10th inst. prices closed ½ to ¾c. net higher. Oats displayed a moderate degree of strength, Northwest interests being credited with purchasing September contracts. Today prices closed ½ to ½c. higher. A better spot demand and some short covering appeared to be responsible for the firmness of wheat values.

for the firmness of wheat values.

Rye—On the 5th inst. prices closed ½c. up. Trading was light, with prices at one time showing a net gain of ½c. On the 7th inst. prices closed ¼c. to ¾c. net lower. With bearish weather news and a heavy wheat market, rye futures showed a sagging tendency, prices closing at about the lows of the day. On the 8th inst. prices closed unchanged to ¼c. off. In spite of the heavy tone of the wheat markets, rye held up comparatively well. Bearish weather reports failed to influence any real action on the part of the short element. On the 9th inst. prices closed unchanged. The market was decidedly sluggish. There was nothing in the news to serve as an incentive to operate on either side of the market. The little trading in evidence was of routine character.

On the 10th inst. prices closed ½c. off to ½c. up. Trad-

On the 10th inst. prices closed 1/2c. off to 1/2c. up. Trading was light, with price fluctuations irregular and within a narrow range. Today prices closed unchanged to %c. off. Trading was light and without noteworthy feature.

Little Change Noted in General Position of Canadian Business During July, Reports A. E. Arscott of Canadian Bank of Commerce

There was little change in the general position of Canadian industry during July, says A. E. Arscott, General Manager of the Canadian Bank of Commerce, Toronto, in his monthly review of business conditions. "At the beginning of the month, however," said Mr. Arscott, "total employment rose to a considerably greater extent over June than was the case a year ago, and slightly more than has happened on the average during the past two decades. Car loadings have shown in recent weeks gains both in Eastern and Western Canada. Trade continues fairly active, but many branches of business are awaiting more definite information about the crops to be harvested in the West." Mr. Arscott continued:

Mr. Arscott continued:

The total value of construction contracts awarded in Canada during July, although 12% below that for June, was higher than for any July since 1931. The value of contracts awarded during the first seven months of the current year was nearly 4% higher than a year ago, while the increase in the value of residential contracts was over 30%, represented by an added \$10,000,000. The value of all construction was higher than for any like period since 1931, with the exception of 1937, when highway construction was particularly active.

Manufacturing as a whole maintained during July the comparatively high level of the previous month, our index of industrial activity falling off only fractionally and registering 74% of capacity utilized and 91% of the general 1937 level. A moderate and partly seasonal decline in the manufacturing of clothing and textiles, non-ferrous metal products and a few miscellaneous industrial materials, combined with a sharp decline in the automotive trades, was largely offset by a moderate to substantial rise in the major categories.

Canning was seasonally active and meat-packing was steady. Women's

Canning was scasonally active and meat-packing was steady. Women's clothing and woolen goods declined, but cottons rose. The pulp and paper trades and lumber mills were considerably more active. Among the heavy industries, the automotive trades, including the manufacture of both cars and supplies, declined about 30%.

Primary iron and steel, structural steel, engines, machinery, hardware, sheet metal and wire products all rose to a moderate extent.

Dry Weather in Canadian Prairie Provinces Causes Further Damage to Crops, Says Bank of Montreal

The Bank of Montreal states in its Aug. 10 crop report that "prolonged hot, dry weather has caused further damage to crops in the Canadian Prairie Provinces, but light to heavy rains which have fallen in the past few days will be beneficial to late sown grains and pastures." The report goes on to say:

goes on to say:

Crop conditions remain fairly satisfactory over most of western and northern Saskatchewan and in the central and northern portions of Alberta and Manitoba, although reports indicate that yields will show wide variation In other areas severe damage has occurred, causing a sharp reduction in the yield and quality of the grain. Wheat cutting is well advanced in Manitoba. In Saskatchewan and Alberta harvesting has commenced in some districts but will not be general for about two weeks. In Quebec the outlook for the crops generally continues favorable. Warm weather with heavy rains has prevailed during the past week, and in some sections storms have caused damage to grain and corn, and yields will be effected. In Ontario continued warm weather and rains have been beneficial to field crops and prospects generally remain encouraging. An average crop of good quality fall wheat has been threshed. Cutting of spring grains is well advanced in most sections, with yields slightly below average, owing to shortage of moisture last month. In the Maritime Provinces good growing conditions have prevailed during the past week and crops generally are progressing satisfactorily. In some sections, principally in Nova Scotia are progressing satisfactorily. In some sections, principally in Nova Scotia and Prince Edward Island, rain is now needed. In British Columbia crop conditions generally continue satisfactorily, but, with continued warm weather during the past week, rain is needed in areas without irrigation

Agricultural Department's Report on Cotton Acreage Condition and Production-The Agricultural Department at Washington on Monday (Aug. 8) issued its report on cotton acreage, condition and production as of Aug. 1, None of the figures take any account of linters. Comments on the report will be found in the editorial pages. Below is the report in full:

is the report in full:

A United States cotton crop of 11,412,000 bales is forecast by the Crop Reporting Board of the United States Department of Agriculture, based on condition as of Aug. 1. If realized, this will be 531,000 bales less than the 1938 crop, and 2,388,000 bales less than the 10-year (1928-37) average. The average yield for the United States is forecast at 223.7 pounds per acre, which is 12.1 pounds less than the yield in 1938, but is 32.9 pounds more than the 10-year average (1928-37).

In the Carolinas and Georgia, the prospective yields per acre this year are higher than in 1938, and also above the 10-year average. In Alabama and the States adjoining the Mississippi River, this year's expected yields are less than the high yields of last year, but are still above the 10-year average. Yields in Oklahoma and Texas are indicated to be less than in 1938, and also less than average. In the irrigated areas of the Far Western States, relatively high yields are in prospect this season.

The cotton acreage of 24,424,000 acres used in this report is the estimated acreage in cultivation on July 1, less the 10-year average abandonment. The acreage for harvest is slightly more than in 1938, which was the smallest cotton acreage harvested since 1899.

In interpreting reported condition in terms of probable yield per acre, the Crop Reporting Board has made allowance, as in the past, for probable loss due to boll weevils on the basis of reports received through Aug. 1 concerning weevil presence and activity. These reports indicate that loss from this source will be about average for the United States, but somewhat more than average in the States east of the Mississippi, less than average loss from weevils is indicated.

COTTON REPORT AS OF AUG. 1, 1939

COTTON REPORT AS OF AUG. 1, 1939

The Crop Reporting Board of the Agricultural Marketing Service makes the following report from data furnished by crop correspondents, field statisticians, and cooperating State agencies. The final outturn of cotton will depend upon whether the various influences affecting the crop during the remainder of the season are more or less favorable than usual.

a Allowances made for interstate movement of seed cotton for ginning. b Indicated Aug. 1, on area in cultivation July 1, less 10-year average abandonment. c Included in State and United States totals. Grown principally in Georgia and Florida with small acreages in South Carolina, Alabama, Mississippil, Arkansas, Louisiana, and Texas. d Area less 10-year average abandonment of short cotton. e Included in Arizona and United States totals. f Not included in California figures, nor in United States total. g Short-time average.

Agricultural Department's Official Report on Cereals, &c.—The Crop Reporting Board of the U.S. Department of Agriculture made public late Thursday afternoon, Aug. 10, its forecasts and estimates of the grain crops of the United States as of Aug. 1, based on reports and data furnished by crop correspondents, field statisticians and cooperating State Boards (or Departments) of Agriculture. This report shows that the production of winter wheat is now placed at 550,-710,000 bushels, which compares with the Department's estimate of 537,767,000 bushels a month ago and with a harvest of 686,637,000 bushels in 1938, and a 10-year (1928-37) average production of 560,160,000 bushels. The production of spring wheat is estimated as of Aug. 1 to be 180,722,000 bushels, which compares with a production of 178,888,000 bushels in 1938 and a 10'year (1928'37) average production of 192,792,000 bushels. We give below the

178,888,000 bushels in 1938 and a 10'year (1928'37) average production of 192,792,000 bushels. We give below the report:

Shortage of rainfall during July dried out pastures and ranges and caused a drastic reduction in prospects for corn and other late crops in extensive Northeastern and Western areas. On the other hand conditions continued unusually favorable for growing crops in the central and eastern corn belt and the contral and sugar beets are now expected to the property of the whole he dealers are sugar to the contral and sugar beets are now expected to yield somewhat better than seemed probable a month ago and a good yield of cotton is now expected. Prospects for corn have been reduced by more than a hundred million bushels or 4%, prospects for rye, potatoes and sweet potatoes have declined slightly and grain sorghums are expected to give a rather low yield per acre.

Considering all crops and conditions as they were on Aug. 1, the outlook for an unusually good composite yield per acre on a relatively small total chose crops which usually have a high value per dry to the property of the prope

but crop losses have been heavy and many dairymen are faced with a critical shortage of hay.

On Aug. 1, pastures in the central and eastern corn belt and in the Southeast were good to excellent, but drought in July sharply reduced the condition of pastures in the Northeastern, western Great Lake, Great Plains and Rocky Mountain areas. In the country as a whole the condition of pastures on Aug. 1 was above the 1928-37 average for that date, but substantially below the corresponding average for pre-drought years.

Milk production in the United States on Aug. 1 was 1 to 2% less than a year earlier but still relatively high as compared with that date in other years. The decline during July was sharp in the Northeastern States where drought severely affected pastures, but production held up better than usual in the South Atlantic States. Elsewhere, there was only about the usual decline for the month.

Egg production on Aug. 1 was about 1% larger than a year ago and about 3% above the 10-year (1928-37) average for the date. August reports for individual farms compared with those for a year ago indicated the number of layers was about 3% larger and the number of pullets not yet of laying age was more than 6% larger.

Major fruit crop prospects declined slightly during July due to the dry weather. Losses were not serious, however, in the important producing areas. The production of cherries and apricots is the largest of record and a near-record grape crop is in prospect. Above average supplies of commercial apples are expected in all sections except the South Central and Western groups of States. Although the outlook for peaches and pears declined slightly during July, total supplies are expected in Canifornia. Pecan prospects are below average, but large crops of walnuts and almonds are expected. The Aug. 1 condition of oranges from the 1939 bloom is 6 points lower than on the same date last year, and the condition of grapefruit is 18 points lower than a year ago.

Due chiefly to unfavorable weather during July, wh

spinach and tomatoes. Larger tonnages of lima beans, cantaloups, celery, sweet corn, onions and watermelons will be available.

Corn—A 1939 corn crop of 2,459,888,000 bushels is indicated by Aug. 1 prospects. This is a decline of 110,907,000 bushels, or about 4%, from the July 1 estimate. Marked increases in the Eastern corn belt States, lowa and Minnesota, were more than offset by declines in other areas, particularly in the Dakotas, Nebraska and Kansas. The indicated 1939 production is 3% less than the 1938 crop of 2,542,238,000 bushels and 7% lower than the 10-year (1928-37) average production of 2,309,674,000 bushels. The 10-year average contains the three drought years of 1930, 1934 and 1936 when the production ranged from 1,461,123,000 bushels conditions of 1,461,123,000 bushels. The indicated production relates to the acreage grown for all purposes—g.air. silage, forage, hogging and graizing.

Ohio, Indiana, Illinois, lowa and Minnesota report excellent growing conditions during July and the crop throughout that area is about two weeks earlier than usual. Most of the hybrid corn is grown in these States The Dakotas, Kansas and Nebraska were hard hit by dry, hot weather and grasshoppers. In these four States production declined 49%, or 146,989,000 bushels, from July 1 to Aug. 1. Recentrains have temporarily checked deterioration over much of that section, but a large part of the acreage was beyond recovery from a grain yield standpoint. In the Northeastern States a July drought reduced yield prospects. Favorable conditions prevailed over most of the upper South Atlantic States. In the Southeastern States and the Eastern States of the South Central group, excessive rains lowered yield prospects. In the Western States of this group, yields were reduced by drought and high temperatures. Over most of the Mountain States drought, heat and grasshoppers combined to cause a decline. Increases are shown for the Pacific Coast States.

Wheat—A total 1939 wheat crop of 731,432,000 bushels is indicated by 14.77,000 bushels over the indicated production. This is an increase of 14.777,000 bushels over the indicated production on July 1. Both winter and spring wheat estimates are higher than a month earlier, with winter wheat accounting for most of the increase in total wheat production. The estimated production of all wheat in 1938 was 930,801,000 bushels and the 10-year (1928-37) average production is 752,952,000 bushels.

The preliminary estimate of winter wheat production is 550,710,000 bushels, compared with 686,637,000 bushels production in 1938 and 560,-160,000 bushels, the 10-year average. The estimate for Aug. 1 indicates an increase of about 13,000,000 bushels over the production indicated on July 1. Harvesting was largely combleted by Aug. 1, except in the extreme northern and northwestern areas.

The 1939 winter wheat yield per acre is 14.3 bushels, compared with 13.8 bushels in 1938 and the 10-year (1928-37) average of 14.5 tushels. On July 1 the indicated yield was 13.9 bushels.

Most of the increase since July 1 has occurred in Kansas, Missouri, Indiana, Illinois, Ohio, California and Oregon. The month was favorable for harvesting of wheat and yields have turned out generally better than earlier expected. Quality has been good except in the western Great Plains area where both yields and quality were substantially reduced by hot, dry weather. Harvesting of wheat was completed in Texas, Oklahoma and all except extreme western Kansas before the high July temperatures. Very little damage resulted from black stem rust this year. Threshing of shock wheat was delayed somewhat during July in parts of the soft wheat belt by frequent rains.

The total spring wheat crop of 180,722,000 bushels on the basis of Aug. 1 conditions is 1,834,000 bushels above the July 1 forecast and compares with the 1938 production of 244,164,000 bushels and the 10-year (1928-37) average of 192,792,000 bushels. Prospects for production of both durun and other spring varieties improved during July.

Production of other spring wheat is indicated to be 149,340,000 bushels, or 1,342,000 bushels greater than on July 1. This increase resulted principally from improved conditions in the Dakotas, Nebraska and the Pacific Northwest. Excessive heat in July resulted in yields lower than were anticipated earlier in Montana Colorado, Wyoming and Utah. Harvesting was completed earlier than usual over much of the hard spring wheat area, partly because farmers in many sections harvested early to prevent more serions losses from grasshoppers.

Improved prospects in South Dakota resulted in a durum wheat crop 492,000 bushels larger than was forecast on July 1. The estimated 1939 production now stands at 31,382,000 bushels, which is 10% lower than the 10-year (1928-37) average production and about 22% below the 1938 crop estimate. This crop was able to withstand high July temperatures better than most other crops, and in spite of grasshopper damage in some sections, yield prospects were maintained or improved during July.

Oats—The 1939 cats crop is estimated at 898.026,000 bushels. This is an increase of 25,203,000 bushels, or 3% over the July 1 estimate. The 1938 crop totaled 1,053,839,000 bushels and the 10-year (1928-37) average production was 1,049,300 bushels.

The increase in total production during July was due mostly to improvement in Minnesota, lowa and North and South Dakota. Although straw was short, heads filled well and quality and weight of grain per bushels were generally good in this area. Prospects also improved during July in California, Washington and Oregon. In the eastern corn belt, the yield per acre in Ohio was increased one bushel over July 1, the Illinois yield was reduced one bushel, and the Indiana, Michigan and Wisconsin yields were unchanged from a month ago.

There has been little damage to the crop from rust, lodging and sprouting in the shock. Due to shortness of straw more than the usual proportion of the acreage was cut with the combine. A comparatively large acrease was cut for hay in low yield areas.

The yield per acre is now estimated at 26.7 bushels. This comparss with the July 1 indicated yield of 26.0 bushels, the 1938 yield of 29.7 bushels and the 10-year (1928-37) average of 27.7 bushels.

Barley—Aug. 1 prospects indicate a 1939 barley crop of 257,008,000 bushels. This is an increase of 5%, or 11,122,000 bushels over the July setimata. The present outlook is for a crop about 2% larger than the 1938 crop of 252,139,000 bushels, and 10% above the 10-year (1928-37) production of 233,021,000 bushels, and 10% above the 10-year (1928-37) production of 233,021,000 bushels. The increase over last year, as well as the average, is due to increased acreage in the winter barley area and to both increased acreage and yield in the Pacific Coast States. Barley production in the North Central States, where approximately two-thirds of the crop is usually produced, is about 3% less than last year. The yield per acre is now indicated to be 20.5 bushels. The 1938 yield was 24.0 bushels and the 10-year. (1928-37) average is 20.7 bushels. Yields are highly variable this year. In Minnesota, the most important barley State, yields per acre are expected to be about 3.0 bushels above the average and the crop there is of good quality. In North Dakota, where a considerable acreage was seeded late, the crop greatly benefited by the favorable June weather, but this was about offset by the dry, hot weather in July, A poor fill is retorted. In South Dakota, maturity was hastened by the high temperatures and a considerable acreage was harvested early in order to check further grasshopper injury, but the crop was far enough advanced to escape severe damage. Yields in Wisconsin are spotted, but the quality is expected to be good. In Iowa and Illinois considerable rust and scab are reported. As a result of losses from heat, drought and grasshoppers barley yields were low in Nebraska, Kansas and in the dry land farming areas of Colorado, Wyoming and Montana. Barley prospecst improved during July in Washington and Oregon, also in California, where harvesting is practically completed, yields are above early expectations.

Rye—The Aug. 1 estimate of the 1939 rye crop was 40,834,000 bushels, a decrease of 652,000 bushels, or about 2% from the July 1 estimate. In 1938, the rye crop totaled 55,039,000 bushels and the 10-year (1928-37) average is 36,330,000 bushels. The reduction in the rye harvest this year in comparison with a year ago is due mostly to lower yields in Wisconsin, Minnesota, Iowa, North Dakota, South Dakota and Nebraska. The yield per acre this year of 10.0 bushels compares with 13.8 in 1938 and the 10-year (1928-37) average of 11.1 bushels.

Buckwheat—The indicated production of 5,776,000 bushels of buckwheat is the smallest crop on record. The production in 1938 was 6,682,000 bushels, and the 10-year (1928-37) average is 7,964,000 bushels. The smaller crop in prospect this year is due to continued decline in acreage, and to yields which, although equal to last year, are still below average. The acreage for harvest, estimated to be 390,000 acres, is 14% lower than the 453,000 acres harvested last year, and 22% below the 10-year (1928-37) average of 508,000 acres.

The further reduction in acreage this year is attributed to dry weather at planting time in the Northeastern States. In the other important buckwheat States spring weather was favorable for fully carrying out intentions for planting other spring crops, and it was unnecessary to resort to buckwheat sa an emergency crop on otherwise unused acreage.

wheat as an emergency crop on otherwise unused acreage.

Potatoes—Aug. 1 conditions indicate a total potato production of 356,834,000 bushels. This production is 4% smaller than the 1938 crop of 371,617,000 bushels, and 4% below the 10-year (1928-37) average of 372,258,000 bushels. The production indicated by Aug. 1 conditions is 9,240,000 bushels smaller than the July 1 forecast.

In Maine, July rainfall and temperatures have generally favored high potato yields. In some parts of southern New England, New York, New Jersey and Pennsylvania dry weather has damaged the crop, although recent rains have improved yield prospects somewhat.

The crop made good progress during July in most sections of the Middle West. In Michigan, however, stands are reported to be poor, and high temperatures during July caused some damage, especially to the early crop. crop. Stands are good in Wisconsin, but here also high temperatures bave been an adverse factor. In Minnesota, the crop got off to a good start, but rains are badly needed in the Red River Valley. The final outcome of both the Minnesota and North Dakota potato crops will hinge upon weather

conditions the next few weeks in this important producing section. Fairly good crops are reported in South Dakota and Nebraska. In Kansas, hot dry weather has reduced late crop yield prospects.

In Idaho, poor stands are reported in practically all of the late commercial areas. The crop has developed well during the month, however, and average yields are expected in some localities, despite the poor stands. Colorado growers report unusually poor prospects this year. Frost damage, poor stands, insufficient moisture and high temperatures are the principal low yield factors in this State. The Utah crop is in poorer condition than a year ago.

The crop in Washington is above average for this time of year, especially west of the Cascades. Yields in Oregon are expected to turn out lower than a year ago, but considerably better than average. In California, the indicated yield, which includes the large commercial early acreage already harvested, is higher than last year and considerably above average.

GENERAL CROP REPORT AS OF AUG. 1, 1939

The Crop Reporting Board of the Agricultural Marketing Service makes the following report from data furnished by crop correspondents, field statisticians, and cooperating State agencies.

Weather Report for the Week Ended Aug. 9—The general summary of the weather bulletin issued by the Department of Agriculture, indicating the influence of the weather for the week ended Aug. 9, follows:

The week was characterized by near-normal temperatures throughout most of the country and widespread showers from the Rocky Mountains eastward. The weekly mean temperatures were considerably above normal from the Red River Valley of the North eastward to the Northeastern States, and also in parts of the far West. Otherwise, temperatures were seasonable with the weekly averages ranging from 1 degree to 2 degrees below normal to 2 degrees or 3 degrees above normal rather generally.

Maximum temperatures were mostly moderate and not as high in the Midwest as during recent weeks. They reached 100 degrees in only limited areas, mostly in Oklahoma and the adjoining portions of surrounding States, locally in eastern Montana, and in the interior of the far West. At the close of the week much cooler weather prevailed over the Northwestern States, with a minimum temperature of 35 degrees at Baker, Ore, and 34 degrees at Yellowstone Park, Wyo., on the morning of Aug. 8.

The distribution of rainfall was quite irregular as to amount, but most sections east of the Rocky Mountains had some showers during the week. The falls were rather heavy in the lower Missouri and upper Mississippi Valleys and Southeastern States, while good local rains occurred in the Northeast. Also the far Southwest had some substantial rainfall. In general, the central Rocky Mountain States, the Great Basin and the Pacific area received little or no precipitation.

Droughty conditions in much of the southwestern drought area were relieved, at least temporarily, by widespread rainfall during the week. The eastern two-thirds of Kansas, much of Oklahoma and western Texas, most of New Mexico and Arizona, and much of Colorado received substantial rainfall which improved the situation materially. However, morarin is needed in this extensive area.

In the Plains States north of Kansas showers were scattered, mostly light, and droughty conditions were little modified. Also, in most of Montana they were too light to be of material benefit. Northern and eastern Wyoming had good rains, but elsewhere in that State moisture is entirely inadequate, with the winter range prospect in large areas very poor, while water is scarce over the Plains section.

Showers were helpful in Michigan, but they were inadequate in Wisconsin and most of Minnesota where additional moisture is still needed. In the Northeastern States additional local rains were decidedly helpful. In New York rainfall was mostly light, but again heavy locally, with some areas stil

New York rainfall was mostly light, but again heavy locally, with some areas still very dry; pastures are gaining in some sections, but much feeding of livestock is still necessary; most cultivated crops show some improvement.

In Pennsylvania moderate showers were rather general and there is considerable improvement in the outlook, although some localities are still very dry. In New Jersey there were only light, scattered showers and more rain is needed. In the States south of Pennsylvania, in the middle and east Gulf areas, and the Ohio and middle Mississippi Valleys the weather was generally favorable and crops continued to make satisfactory progress.

Small Grains—In the northwestern Great Plains late spring wheat deteriorated because of warmth and dryness. However, at the close of the week much cooler weather had overspread this area. In North Dakotaboth yield and quality of spring wheat are somewhat disappointing because of previous heat and dryness. Threshing is progressing in much of the Spring Wheat Belt. Some plowing was accomplished in the interior valleys and recent rains in Kansas will condition the soil for preparation for seeding in that State. North of Kansas the soil continues too dry. Rice made good progress in central and west Gulf districts.

Corn—East of the Great Plains States the corn crop continued to make satisfactory advance, with weekly progress mostly good to excellent. In Kentucky showers were helpful, but in the western portion of the State the condition of corn is irregular because of previous dryness. There is some local firing reported in Illinois, but in this State many stalks have 2 large ears. In Indiana and Ohio outlook continues favorable.

West of the Mississippi River conditions are more irregular. In Missouri the bulk of corn is in satisfactory condition. In Iowa, it is generally good to excellent, but there is enough firing to reduce yields in many widely scattered localities. In Wisconsin and much of Minnesota, rain is needed, but the outlook is still mostly good to ex

The Weather Bureau furnished the following resume of

The Weather Bureau furnished the following resume of conditions in the different States:

Virginia—Richmond: Temperatures near normal; precipitation mostly light. Favorable for crops and work. Late-hay harvest progressing. Corn continues good to excellent. Peanuts and cotton in tidewater sections recovering from excessive moisture. Tobacco good condition. Apples fair to good.

North Carolina—Raleigh: Favorable temperatures; adequate sunshine. Adequate rains, except too much locally. Condition of corn excellent and progress good. Progress of cotton only fair account high humidity and rather too much rain; condition fairly good. Conditions conductive to hornworm damage to late tobacco. Excellent progress generally of truck and gardens.

South Carolina—Columbia: Favorable temperatures and locally adquate rains. Favorable for good progress of all late crops and pastures, except locally. Progress and condition of cotton mostly vary good; bolls set well in south and about matured in some places; opening ratarded locally by too much rain; blooming rapidly and many bolls in north.

Georgia—Atlanta: Rainfall adequate or heavy in extreme west and south; elsewhere more needed, especially for truck and pastures. Cotton shows good boll development; weather favorable for checking weevil in most places; beginning to pick crop in south and east-central. Corn, sweet potatoes and peanuts maturing rapidly.

Florida—Jacksonville: Temperatures and precipitation were adequate. Progress of cotton fairly good and condition fair; bolls opening and picking fairly active. Tobacco being marketed; crop fair. Preparations for fall truck active. Celery plants doing well. Citrus trees good shape; new fruit holding and sizing nicely.

Alabama—Montgomery: Adequate rains first of week, followed by none of importance. Beneficial sunshine. Progress of cotton very good and condition now mostly good; bolls forming freely and beginning to open. Corn, cane, hay, sweet potatoes, and all other vegetation thriving. Cattle excellent.

condition now mostly good; boils forming freely and scale and condition of cattle excellent.

Mississippi—Vicksburg: Afternoon thundershowers. Cotton blooming rather poorly and weathr favored weevil activity, but numerous bolls nearing maturity on early planted. Progress of corn poor to fair, but locally good, with early planted nearing maturity. Gardens, pastures and truck fair progress.

Louisiana—New Orleans: Cotton made poor to only fair progress in south, except in extreme southwest, with some local damage and moderate shedding due to too much rair, progress good in north and extreme west; early planted opening and late planted in north fruiting rapidly. Corn made in most sections. Progress of rice generally good. Progress of other crops good.

Texas—Houston: Temperatures favorable generally. Adequate rains for time being in extreme south, southwest, Panhandle and some westcentral, but more needed elsewhere. Late corn deteriorated in most sections and condition poor; early continues generally in fair condition, although drying in most sections. Progress and condition of cotton continued good in extreme south and poor to locally good elsewhere, depending on local rains; much deteriorating and considerable blooming on top and some shedding reported in north-central and west-central; picking good advance in extreme south, following rains early in week, and first bales being marketed in north. Condition of truck mostly good in extreme south; fair elsewhere. Ranges and citrus improved by rains.

Oklahoma—Oklahoma City: Temperatures favorable. Rainfall adequate for present needs, except more needed in extreme northwest, southcentral and much of east. Progress of cotton poor, except badly deteriorating in extreme southwest and south-central where heavy shedding and much top bloom condition fair, except poor in southwest and southcentral. Progress of late corn poor with much firing; early mostly made. Pastures, gardens and grain sorghums mostly deteriorated, but should improve in most sections following todays' rain.

Arkansas—Little Rock: Progress of cotton good to excellent in east and most of central due to favorable temperatures and mostly adequate soil moisture; progress poor to fairly good elsewhere due to hot, dry weather; early is faring much better than late. Progress of late corn good to excellent in east; fair or deteriorated in west; early about matured. Weather unfavorable for meadows, pastures and truck, except in east.

Tennessee—Nashville: Rainfall adequate over most of State, but lack being felt over considerable areas, mainly east. Progress of corn good to excellent, except poor where dry condition of most good in central and east and rather poor in much of west. Progress of cotton good; condition fair to good; bolls developing satisfactorily. Tobacco improved generally.

THE DRY GOODS TRADE

New York, Friday Night Aug. 11, 1939.

New York, Friday Night Aug. 11, 1939.

Excessive temperatures prevailing during most of the week, cut down store attendance to some extent, although the volume of business held up fairly well. The response to August promotions continued largely satisfactory, notably for home furnishings and fur apparel lines. Summer goods, particularly sports and beach wear items, remained in active demand. Department store sales, the country over, for the week ended July 29, according to the Federal Reserve Board, were 1% below the corresponding week of 1938. For New York and Brooklyn stores the Federal Reserve Bank of New York reported a loss of 0.9%, while Newark establishments showed a decrease of 3.3%. For the entire month of July a gain in department store sales amounting to 3% was recorded, with the Atlanta district making the best showing, with an increase of 10%.

Trading in the wholesale dry goods markets continued

corded, with the Atlanta district making the best showing, with an increase of 10%.

Trading in the wholesale dry goods markets continued active as the number of buyers entering the market for Fall requirements increased sharply, Retail merchants, encouraged by the recent moderate improvement in sales, and also in view of the relatively low level of existing inventories, displayed increased willingness to cover nearby needs, as well as requirements for early Fall promotions. A feature of the week was the further advance on denims by ½c. a yard, which was believed to foreshadow a corresponding price increase on overalls. Prices for most other goods ruled firm, and the possibility of advances on some lines of colored yarn fabrics was freely discussed. Business in silk goods turned quiet, with the high cost of the raw material acting as a deterrent to the usual Spring demand. Trading in rayon yarns, on the other hand, continued active. Further shifting of the demand for silk goods into the rayon field was noted, and, with surplus yarn stocks in producers' hands quickly receding, a decidedly tight yarn situation for the near future was predicted. In the acetate field, in particular, the strike in the principal producing plant, threatened serious delivery difficulties.

Domestic Cotton Goods—Following last week's buying

Domestic Cotton Goods—Following last week's buying spurt, trading in the gray cloths markets quieted down considerably, although prices held steady, reflecting the continued determination of the mills to adhere to their curtailment measures, and refrain from pressing goods on the market. While the Government cotton crop estimates of 11,412,000 bales was slightly below expectations, the ensuing mild reaction in the raw cotton market, coupled with the new decline in security prices owing to recurrent nervousness over the European situation, served to put a damper on business. Late in the week some second hand offerings at slight price concessions appeared in the market, but were quickly absorbed by users. Business in fine goods continued quiet, and sales were confined to occasional spot lots. Prices, however, held steady, indicative of the better statistical and sales were confined to occasional spot lots. Prices, however, held steady, indicative of the better statistical position of the mills. Closing prices in print cloths were as follows: 39 inch 80's, 63/4 to 61/2c., 39 inch 72-76's, 6c., 39 inch 68-72's, 53/4 to 51/2c., 381/2 inch 64-60's, 43/4c., 381/2 inch 60-48's, 43/4c.

Woolen Goods—Trading in men's wear fabrics continued seasonally quiet. Further sampling of the new lines of tropical worsteds and gabardines was reported, but little further actual business developed. Some reorders on Fall suitings came into the market, whereas business in overcoatings and topcoatings remained slow. Mill operations, which had been maintained at high levels, gave indications of tapering off as the backlog of orders diminished progressively. Reports from retail clothing centers made a less satisfactory showing, which in some instances was attributed, however. showing, which in some instances was attributed, however, to inadequate offerings by stores. Business in women's wear goods receded somewhat as garment manufacturers held back with further purchases, pending clearer indications of the response of the consuming public to August promotion sales. Mills contained busy, in view of the recent substantial increase in the amount of unfilled orders.

Foreign Dry Goods—Trading in linens received an important stimulus through the Domestics and Linen Show, now taking place in New York. Active interest in the new importations from Ireland, Belgium and Holland was reported, and sales were said to have exceeded those of the Spring show by a considerable margin. Business in burlap expanded moderately as the recent decline in prices induced covering purchases by domestic bag manufacturers. A steadying influence was the material decline in burlap stocks at Calcutta during the month of July. Domestically lightweights were quoted at 4.10c., heavies at 5.40c.

Federal Government Supplied One-Fifth of State Revenues in 1938—One-fifth of the total revenues of the 48 States last year was supplied by the Federal Government in the form of grants-in-aid, an analysis by the Federation of Tax Administrators shows. This Federal aid, totaling \$622,500,000, amounted to 8.2% of total Federal expenditures of \$7,626,000,000 in 1938, and 19.7% of total State revenues of \$3,165,000,000, according to the analysis, based on a study of Federal grants-in-aid by Prof. V. O. Key Jr., of Johns Hopkins University.

The study defined grants-in-aid as Federal funds administered by a department of the State with some measure of Federal supervision. It pointed out that increased grants in recent years have been used to finance such new State activities as old-age assistance and unemployment compensation.

such new State activities as old-age assistance and unemployment compensation.

From 1920 to 1938, Federal grants-in-aid to States rose from \$37,600,000 to \$622,500,000, the analysis showed. There is little likeihood that the grants will drop below the 1938 figure, the Federation said, referring to recent estimates that old-age assistance grants alone will reach the \$500,-000,000 mark in a few years.

In addition to the fact that the States now depend on the Federal Government for one-fifth of their revenues, the local governments also have ceased to be self-contained financial units, the Federation said. They depend on State grants and shares taxes for about one-fifth of their revenues.

"Because of this," the Federation concluded, "it is no longer possible to draw a sharp line between the three traditional levels of American government so far as revenue raising is concerned."

Illinois—Governor Vetoes Increased Pension Payments—Governor Henry H. Horner, in a message accompanying a veto of the bill to increase old-age pensions from \$30, to \$40 asserted that funds for the proposed payment are not available. Action on the bill was delayed until near expiration of the 10-day deadline August 3.

When informed that the prospect for a Federal increase in pension payments was none too good, Governor Horner proceeded with the veto. To approve the \$40 pension without providing additional funds would be "nothing but a senseless and cruel gesture, holding out promises which the State would not fulfill," Governor Horner asserted in the veto message.

Governor to Seek Passage of Pension Bill at Special Session—Governor Henry Horner announced Aug. 6 he would call a special session of the Legislature to pass again an old-age pension bill previously vetoed.

The Governor vetoed the bill increasing maximum monthly pensions from \$30 to \$40 because at that time Congress had not approved amendments raising Federal contributions from \$15 to \$20 monthly. Two days later, Congress passed the pension increase amendments. The Governor was indefinite as to the time he would call the special session.

Townships May Fund Relief Debt-The Illinois Relief Commission has informed the township relief administrators of a new act of the State Legislature which permits townships to issue bonds to retire indebtedness, incurred in the adminis-tration of relief, up to April 1, 1939. It is reported that the bonds must be voted at a special meeting of electors to be held on or before Oct. 1.

New Jersey—Agreement Reached on \$33,000,000 Relief Program—A coalition of Republican and Democratic legislators agreed Aug. 10 on a program calculated to provide a total of \$33,000,000 for poor relief purposes. The problem of providing the funds to meet the 1938 relief deficit of \$6,000,000 and to cover the estimated \$13,500,000 of relief needs for 1939 and 1940 has engaged the attention of the lawmakers since last January. None of the proposals previously offered to meet the problem proved acceptable to leadership of both political parties. The plan now agreed upon, which was assured of immediate passage by both houses of the legislature, calls for a \$21,000,000 bond issue, diversion of \$2,000,000 in grade crossing elimination bonds previously authorized, diversion of \$5,000,000 from the sinking fund and the borrowing of \$2,000,000 from the State Teachers' Pension and Annuity Fund. The highway fund diversions would be \$3,000,000 this year and \$2,000,000 next year.

Senate Tax-Exempt Committee Continued—The Senate on Aug. 4 passed a resolution extending the life of the special Senate Committee to study reciprocal Federal and State taxation of Governmental securities, of which Senator Brown is Chairman. The life of the committee will be continued through the 76th session of the Congress and is expected to "keep step" with the forthcoming Ways and Means Committee study of the whole Federal tax machinery.

Bond Proposals and Negotiations ARIZONA

PIMA COUNTY SCHOOL DISTRICT NO. 55 (P. O. Tucson), Ariz.—BOND SALE DETAILS—In connection with the previous report in these columns of the sale of \$35,000 bonds to Dahlberg, Durand & Co. of Tucson —V. 149, p. 908, we are advised that the successful bid was par plus \$17,60 premium, equal to 100.05, for the first \$17,500, due from 1940 to 1944, incl., as 1½s and the last \$17,500, maturing from 1945 to 1949, incl., as 3s. The bonds are dated July 15, 1939, and mature \$3,500 annually on July 15. The Board of Supervisors furnished the printed bonds and the approving legal opinion of Pershing, Nye, Bosworth & Dick of Denver. Also bidding for the bonds were Refnes, Ely, Beck & Co. of Phoenix.

ARKANSAS

ARKANSAS (State of)—BOND SALE—The issue of \$250,000 revolving loan fund bonds offered Aug. 4—V. 149, p. 608—was awarded to Walton, Sullivan & Co. of Little Rock, which bid a premium of \$150, equal to 100.06 for the 1940 to 1952 maturities as 3 \(^3\)4s and the rest as 3 1-3s. Dated Aug. 1, 1939 and due on March 1 from 1940 to 1959 incl. The following bids were for the bonds to bear 4% interest:

Bidder—

REFUNDING LEGISLATION ENACTED—The Administration debt refunding bill (H. B. 2) received a favorable vote of 86 to 13 in the House on Aug. 3, in the same form that the measure was approved by the Senate several days previously. V. 149, p. 908. Steps will be taken immediately by the advisory board of finance and the State Refunding Board to carry out the proposed refunding of the State's \$140,000,000 of highway debt. The Supreme Court will convene on Aug. 14 to pass on validity of the legislation.

GOVERNOR SIGNS REFU NDING BILL—At approximately the same time the first of a series of test suits was filed in Chancery Court, Governor Carl E. Bailey affixed his signature Aug. 5 to the \$140,537,000 highway debt refunding bill and conferred with the Advisory Board of Finance and the State Refunding Board as to procedure. He also issued an executive order to make effective provisions of the bill passed at the recent legislative session.

Herman McKaskle, an attorney at Little Rock, filed the test case in the name of Ross Kennels. The petition that if the body of the Act is found to be valid, the emergency clause be declared null and void to permit circulation of referendum petitions. Governor Bailey, in several statements, has indicated that the time element is highly important since some of the outstanding bonds are callable Oct. 1 and Jan. 1, 1940. Removal of the emergence clause by a Supreme Court decision would delay the date indefinitely. It is further stated that the Senate's action in voting the bill was invalid in that Senator Paul Gutensohn, appointed by Governor Bailey to fill a vacancy, was permitted to vote. An additional contention is that the legislature has improperly delegated to Governor Bailey to fill a vacancy, was permitted to vote. An additional contention is that the legislature has improperly delegated to Governor Bailey to fill a vacancy, was permitted to vote. An additional contention is that the legislature has improperly delegated to Governor Bailey to

CALIFORNIA

LOS ANGELES COUNTY (P. O. Los Angeles), Calif.—ALHAMBRA CITY HIGH SCHOOL DISTRICT ISSUE OFFERED—L. E. Lampton, County Clerk, will receive sealed bids until 10 a. m. on Aug. 15 for the purchase of \$150,000 not to exceed 5% interest bonds of the above-mentioned school district. Dated July 1, 1938. Denom. \$1,000. Due July 1 as follows: \$6,000 from 1940 to 1943, incl., and \$7,000 from 1944 to 1961, incl. Principal and interest (J-J) payable at the County Treasurer's office or at the fiscal agency of the county in New York City, at holder's option. A certified check for 3% of the bonds bid for, payable to order of the Chalman of Board of Supervisors, is required.

Alhambra City High School District has been acting as a high school district under the laws of the State of California continuously since July 1, 1900. The assessed valuation of the taxable property in said school district for the year 1938 is \$42,791,770, and the amount of bonds previously issued and now outstanding is \$907,000. District includes an area of approximately 19.97 square miles, and the estimated population is 71,870.

SAN FRANCISCO (City and County), Calif.—BOND SALE—The

proximately 19.97 square miles, and the estimated population is 71,870. SAN FRANCISCO (City and County), Calif.—BOND SALE—The \$300,000 airport bonds offered Aug. 7—V. 149, p. 908—were awarded to a group composed of the District Bond Co. of Los Angeles, Farwell, Chapman & Co. of Chicago, and J. S. Strauss & Co. of San Francisco, at a price of 100.058, a net interest cost of about 1.689%, as follows: \$124,000 as 0.50s, due Jan. 1, 1940, and \$176,000 as 13/s, due Jan 1, as follows: \$19,000 from 1941 to 1944 incl. and \$20,000 from 1945 to 1949 incl. Second high bid of 100.05 for 13/s, or a net cost of about 1.735%, was made by Harriman Ripley & Co., Inc.

COLORADO

COLORADO

LA JUNTA, Colo.—BONDS PUBLICLY OFFERED.—Brown, Schlessman, Owen & Co. of Denver are making public offering of \$408,500 4% electric light and power revenue bonds. Dated July 1, 1938. Denoms, \$1,000 and \$500. Due \$16,000 July 1, 1941 and Jan 1 and July 1, 1942; \$16,000 Jan, 1, and \$16,500 July 1, 1943; \$17,000 Jan, 1, and \$17,500 July 1, 1944; \$17,500 Jan, 1, and July 1, 1943; \$17,000 Jan, 1, and July 1, 1945; \$20,500 Jan, 1, and July 1, 1947; \$20,500 Jan, 1, and July 1, 1947; \$20,500 Jan, 1, and July 1, 1949; \$21,500 Jan, 1, and July 1, 1949; \$21,500 Jan, 1, and \$22,500 July 1, 1950; \$22,500 Jan, 1, and \$23,500 July 1, 1949; \$21,500 Jan 1, 1952. Bonds are redeemable in inverse numerical order upon 30 days notice on any interest payment date up to and including July 1, 1943, at 106 and accrued interest, on Jan, 1, 1944, or any interest payment date thereafter, at 105 and accrued interest. Principal and interest payable at the United States National Bank of Denver. The bonds constitute legal and binding obligations of the city payable solely from and secured by a first and irrevocable pledge of the revenues derived from the Municipal Light & Power system, after providing only for all reasonable expenses of operation and maintenance. Pursuant to the ordinance expenses of operation and maintenance in Evasuation to the ordinance authorizing the bonds, the city is obligated to fix and maintain rates for electric service sufficient for operating expenses, principal and interest requirements on the bonds and depreciation. Legality approved by Pershing, Nye, Bosworth & Dick of Denver. These bonds are part of an authorized issue of \$497,000.

CONNECTICUT

BRIDGEPORT, Conn.—BOND OFFERING—Perry W. Rodman, City Comptroller, will receive sealed bids until noon (DST) on Aug. 15, for the purchase of \$750.000 not to exceed 2% interest coupon series D refunding bonds. Dated Aug. 15, 1939. Denom. \$1,000. Due Aug. 15, as follows:

\$84.000 from 1941 to 1943, incl. and \$83.000 from 1944 to 1949, incl. Bidder to name a single rate of interest, expressed in a multiple of ½ of 1%. Principal and interest (F-A) payable at the City Treasurer's office. The bonds are registerable as to principal only, and will be payable as to both principal and interest from ad valorem taxes which may be levied without limit as to rate or amount except as to certain classes of property such as classified timber lands taxable at a limited rate. The purchaser will be furnished with a certificate from the tax assessor certifying that there are no such classes of property within the city on the grand list of 1933. No bld will be accepted for less than par and accrued interest to date of delivery, The bonds are authorized by Special Act of the State Legslature and approved Feb. 28, 1939. The bonds will be ready for delivery on or about Aug. 21, with accrued interest to date of delivery, and will be prepared under the supervision of and certified as to genuineness by the Bridge-port City Trust Co. The approving opinion of Ropes, Gray, Boyden & Perkins, of Boston, will be furnished. Enclose a certified check for 2% of the face value of the bonds bid for, payable to the City Treasurer.

NEW HAVEN, Conn.—CONSIDER BOND ISSUE TO MEET WPA

of the face value of the bonds bid for, payable to the City Treasurer.

NEW HAVEN, Conn.—CONSIDER BOND ISSUE TO MEET WPA
DEFICIT—The Board of Finance in executive session recently discussed
the prospect that the city would have to float another deficit bond issue
to meet over-expenditures on Works Progress Administration projects.
Mayor John W. Murphy indicated that the same procedure which was
followed last year, when a special public improvement bond issue of \$600,
000 was floated, probably would be invoked to meet such WPA expenditures as may be legally paid for by a bond issue. The Mayor, however,
did not estimate the size of the probable issue in the absence of any definite
figures at this time and the uncertainty regarding the scope of the future
WPA program.

FLORIDA

MIAMI, Fla.—VALIDATION OF REFUNDING BONDS REFUSED—The Florida Supreme Court, by a vote of four to one, is reported to have recently refused to approve the proposed \$28,808,000 refunding bonds on the ground that the reissue would cause the city to exceed the charter limitation of bonded debt of 15% of the assessed valuation, until all of the original bonds had been exchanged or retired. Circuit Court Judge Paul D. Barns previously refused to validate the refundings, as reported in V. 148, p. 3264. The city has arranged for a large banking group to handle refinancing of its indebtedness, providing the refunding bonds are approved by the courts.

HAWAII

HAWAII (Territory of)—BOND OFFERING—W. C. McGonagle, territory Treasurer, announces that sealed bids will be received at the Bankers Trust Co., New York, until 10 a.m. (DST) on Sept. 6 for the purchase of \$1,500,000 not to exceed 3% interest coupon refunding bonds. Dated Oct. 12, 1939. Denom. \$1,000. Due Oct. 12 as follows: \$170,000 from 1941 to 1948 incl. and \$140,000 in 1949. Interest A-O 12. Proceeds of the issue will be used to call a like amount of territorial 4½% term bonds, 10 years prior to maturity. A sinking fund of \$796,419 has accumulated against the issue and this fund will be increased annually and used as required for the new serial maturities. Bidder to name one rate of interest, expressed in a multiple of ¼ of 1%. Prin. and int. payable in any coin or currency of the United States, which at the time of payment, is legal tender for public and private debts, at the office of the Bankers Trust Co. in New York City, or, at the office of the Territorial Treasurer in Honolulu, T. BUFFALO, N. Y.—REPORT CITES \$737,094.50 CUT IN OPERATING

order of the town, is required.

BUFFALO, N. Y.—REPORT CITES \$737,094.50 CUT IN OPERATING COSTS—Total expenditures of the city decreased \$737,094.50 for the fiscal year 1938-1939 as compared with the previous fiscal year, according to John J. Egan, Director of the Budget of the city, in a report just issued. Likewise a decided improvement was shown in the city's financial structure during the year, all departments having operated entirely within their respective budgets. During the fiscal year 1938-1939 salary adjustments ordered by the Common Council amounted to \$117,267.88 and the purchase of equipment and minor capital expenditures, which in recent years was largely handled by bond issues, amounted to \$278,618.34. The report shows further that no deficiency bonds were issued during this fiscal year, as gasinst a total of \$517,762.46 of such bonds issued during the preceding two fiscal years. The city's debt margin as of July 1, 1939, was \$7,333,-984.04, as compared with \$2,005,301.01 on July 1, 1938.

984.04, as compared with \$2,065,301.01 on July 1, 1938.

interest coupon or registered bonds, divided as follows:
\$1,200,000 series K. emergency relief bonds. Due Sept. 1 as follows:
\$100,000 from 1940 to 1945, incl., and \$150,000 from 1946 to
1949, incl.
1,500,000 series of 1939 refunding bonds. Due Sept. 1 as follows: \$120,000 from 1950 to 1954, incl., and \$180,000 from 1955 to 1959,
inclusive.

All of the bonds will be dated Sept. 1, 1939. Denom. \$1,000.
Rate or rates of interest to be in a multiple of ½ of 1-10th of 1%, and
sum to the same for all of the bonds of each issue, but need not be the
same for both issues. Principal and interest payable at the County Treasurer's office in lawful money. The refunding bonds are authorized to be
issued by Section 8 of the General Municipal Law for the refunding of
outstanding bonds maturing during 1940. The emergency relief bonds are
authorized to be issued by Section 49 of the Public Welfare Law for home

relief. The county is authorized and required by law to levy upon all taxable property such ad valorem taxes as may be necessary to pay the bonds and the interest thereon, without limitation as to rate or amount. Bidders in submitting their bids, must use the bidding forms which will be furnished by the County Treasurer upon request. The delivery of and payment for the bonds awarded will be made at the Nassau County Trust Co., Mineola, unless otherwise agreed. The purchaser will be furnished with the opinion of Reed, Hoyt, Washburn & Clay of New York, that the bonds are valid and binding obligations of the county. The bonds will be prepared under the supervision of the Nassau County Trust Co., Mineola, which will certify as to the genuineness of the signatures of the county officials and the seal impressed on the bonds. Enclose a certified check for \$54,000, payable to the County Treasurer.

the City Treasurer.

CRESTLINE EXEMPTED VILLAGE SCHOOL DISTRICT, Ohio—NOTE SALE—The Farmers & Citizens Bank of Crestline purchased on Aug. 7 an issue of \$10,887.75 refunding notes.

DAYTON, Ohio—SCHOOL AND RELIEF LEVIES VOTED—Unoffical returns from the vote on Board of Education's two mill levy and city's 1½ mill levy for relief, showed approval by substantial majorities at Aug. 9 primary election. School levy will provide approximately \$550,000 for one year. As soon as elections board certifies passage of the relief levy, the City Commission is expected to vote \$270,000 worth tax-anticipation notes against collections of the levy which runs two years. Relief levy will provide approximately \$900,000 during two-year period based on 100% collections. If the State matches \$270,000, to be obtained by notes, the total is expected to be sufficient for relief needs until next Jan. 1. Even with the levy the city estimates relief deficit of approximately \$200,000 this year.

DEERCREEK TOWNSHIP SCHOOL DISTRICT (P. O. Williamsport), Ohio—NOTE SALE DETAILS—The \$5,088.45 refunding notes sold to the Farmers National Bank of Williamsport—V. 149, p. 913—bear 3% interest.

liards), Ohio—NOTE SALE—The Merchants & Farmers Bank Co. of Hilliards purchased on Aug. 7 an issue zf \$15,921.24 refunding notes as 3s, at par.

OHIO BRIDGE COMMISSION (P. O. Columbus), Ohio—BOND OFFERING—Robert A. Schiffer, Secretary-Treasurer of State Bridge Commission, will receive sealed bids at Room No. 3140, A. I. U. Bldg., Columbus, until 10 a.m. (EST) on Aug. 29 for the purchase of \$1,375,000 not to exceed 2½% interest coupon Sandusky Bay Bridge revenue refunding bonds. Proceeds of sale, coupled with other moneys in the sinking fund available for such purpose, will be used to redeem all of the outstanding \$1,394,000 3½% Sandusky Bay Bridge revenue bonds, dated April 1, 1936, maturing April 1, 1951, and callable on Oct. 1, 1939 at par plus a premium of 2½%. The new bonds will be dated Sept. 1, 1939. Denom \$1,000. Due Oct. 1 as follows: \$125,000 from 1940 to 1945 incl. and \$625,000 in 1948. The bonds maturing in 1948 may be redeemed, when selected by lot, on any interest payment date from moneys in the sinking fund for the bonds of this issue not required for paying interest on such interest payment date and the next succeeding interest payment date and for paying the next maturing instalment of principal. And all of the bonds of this issue at any time outstanding, including the bonds maturing on Oct. 1, 1948, may be redeemed in whole on any interest payment date from the proceeds of new refunding bonds or other moneys made available for such purpose. Such redeemed in whole on any interest payment date from the proceeds of new refunding bonds or other moneys made available for such purpose. Such redeemed thereafter and on or prior to Oct. 1, 1945, and without premium if redeemed thereafter and on or prior to Oct. 1, 1945, and without premium if redeemed thereafter and on or prior to Oct. 1, 1945, and without premium if redeemed thereafter and on or prior to Oct. 1, 1945, and without premium if redeemed thereafter. Both principal and interest of the bonds will be payable at the office of the State Treasure

secured by a trust indenture to be executed by and between the State Bridge Commission of Ohio and the Commerce Guardian Bank, Toledo, Ohio, as trustee, and the trust indenture will contain substantially the same provisions and covenants as the trust indenture, securing the bonds to be refunded, insofar as such provisions and covenants shall be applicable. All bidders must agree to pay the expenses of printing the trust indenture, the publication of the notice of sale and the redemption notice, and the preparation of the bonds, the form and terms of which will be substantially the same as the outstanding bonds with such changes as may be necessary to conform with the provisions of the official call for bills, and the fees and expenses of Hugh Huntington, Esq. of Columbus, and of Masslich & Mitchell, New York City, for the preparation of the trust indenture and their legal opinions approving the validity of the bonds.

Each bid must be accompanied by a certified check for \$27,500, payable to order of the State Bridge Commission.

COLLINSVILLE, Okla.—ASKED TO PROVIDE SINKING FUND LEVY FOR DEBT REDUCTION—It is reported that the District Court was to have ruled on Aug. 8 as to whether or not the city would be compelled to have a sinking fund levy to absorb the bonded indebtedness. Mandamus action is said to have been brought by Hollis Scott, who asked that Collinsville as well as the county excise board approve a sinking fund levy to pay for the town's bonded indebtedness. J. A. Wright, City Clerk, told the court the valuation had shrunk from \$1,370,000 in 1917 to current figure of less than \$300,000.

OKMULGEE COUNTY UNION GRADED SCHOOL DISTRICT NO. 4 (P. O. Okmulgee), Okla.—BOND SALE—The \$3.800 building bonds offered Aug. 1—V. 149, p. 770—were awarded to Calvert & Canfield of Oklahoma City, as follows: \$2,000 as 4s and \$1,800 as 4½s.

The total amount of the issue is subject to final checkup of the exact amount of fundable permanent school fund indebtedness.

the issue is subject to final checkup of the exact amount of fundable permanent school fund indebtedness.

SOUTH DAKOTA (State of)—RURAL CREDIT BOARD SEEKS VOLUNTARY REFUNDING OF DEBT—Holders of bonds of the rural credit board will be asked to participate in a voluntary refunding plan in order to establish a debt service calendar in line with the board's demonstrated ability to meet annual principal and interest crarges without recourse to the sale of refunding instruments. The board, according to information contained in the annual report of Director Millard G. Scott is now negotiating with leading financial institutions throughout the country on an exchange program. Voluntary participation by bond-holders in any plan of debt reorganization is necessary as none of the outstanding debt is callable prior to maturity. Mr. Scott states that the department can no longer safely continue the refunding of maturities as repeated operations in the past has boosted the debt service requirements to a total of \$12,619,705 during the next two fiscal years. The director adds that the present period of extreme ease in money rates affords the board an excellent opportunity to refinance on a much lower interest cost asis than current requirements. Leading municipal attorneys throughout the country also have been contacted in connection with the proposal to effect a bond exchange plan. We quote from Mr. Scott's remarks in his annual report as follows:

"Preliminary studies indicate that such a program of rearranging the rural credit debt will level our debt requirements, and will result in cash savings, over the period necessary to pay our bonded debt, amounting to an estimated \$3,000,000 to \$5,000,000. It will give the obligations of the State including the Cement and Soldiers' Bonus bonds their proper and deserved rating, and will favorably effect the interest rates at which the bonds of all the subdivisions of the State are sold.

"To successfully complete such a program, we will have to have the fullest cooperation of all fi

fullest cooperation of all financial insurances, within and without our State, who have dealt in our bonds or may own them.

"Any acceptable program must be based on the following principles, namely: There must be substantial savings to the State; the holders of our bonds must receive fair treatment, that is, value for value; and the commissions paid to the cooperating financial institutions must be contingent on their rendering service, and must be no more than are customarily charged for similar services to other governmental and private institutions. These costs will have to be met no matter when we do our refunding and will probably be greater in times of poor markets than at present.

"We are making a most thorough canvass of the situation to ascertain what is fair and reasonable and, as soon as the costs of the proposed plan have been figured to the lowest point and the other details are arranged. I will submit the plan to the board for its consideration, at which time, I will give definite recommendations, including a suggestion that the plan to econsidered on its merits at an advertised, public hearing."

The report placed the total bonded debt of the rural credit board at \$36.869.000 on July 1, 1939, made up of 20 issues maturing from 1939 to 1950 incl. and bearing interest ranging from 2½% to 6%.

TENNESSEE

CHATTANOOGA, Tenn.—BOND SALE—A syndicate composed of Smith, Barney & Co., Harriman Ripley & Co., Inc., Lazard Freres & Co., the First Boston Corp., Kidder, Peabody & Co., Estabrook & Co., White, Weld & Co., all of New York Cumberland Securities Corp., Nashville; B. J. Van Ingen & Co., Inc., and R. H. Moulton & Co., Inc., both of New York; Webster & Gibson, of Nashville; The Wisconsin Co., Milwaukee; the First Cleveland Corp. and McDonald-Coolidge & Co., both of Cleveland; Hunter Jones & Co., Memphis, and Wheelock & Cummins, Inc. of Des Moines, was the successful bidder for the \$13,200,000 series A electric power revenue bonds offered Aug. 8—V. 149, p. 771. The successful bid was a price of 100.40 for \$12,510,000 234s, due annually from 1941 to 1968 incl., and \$690,000 2½s, due in 1969, or a net interest cost to the city

of about 2.7065%. The entire \$13.200.000 bonds bear date of June 1. 1939 and mature annually on June 1 as follows: \$250.000 in 1941 and 1942: \$260.000 in 1943; \$270.000 in 1944; \$280.000 in 1945; \$290.000 in 1946; \$360.000 in 1947; \$370.000 in 1948; \$380.000 in 1945; \$290.000 in 1946; \$360.000 in 1951; \$410.000 in 1955; \$420.000 in 1957; \$500.000 in 1955; \$450.000 in 1955; \$440.000 in 1956; \$480.000 in 1957; \$500.000 in 1954; \$350.000 in 1955; \$450.000 in 1957; \$500.000 in 1955; \$510.000 in 1955; \$450.000 in 1961; \$560.000 in 1962; \$570.000 in 1963; \$590.000 in 1964; \$610.000 in 1965; \$630.000 in 1966; \$650.000 in 1967; \$670.000 in 1968; \$610.000 in 1965; \$630.000 in 1966; \$650.000 in 1967; \$670.000 in 1968; \$610.000 in 1969. Bonds maturing in the years 1960 to 1969 both inclusive, will be redeemable at the option of the city, after 30 days published notice, at par and accrued interest, plus a premium of ¼ of 1% for each year or fraction thereof from the date of redemption to the date of maturity. Bonds maturing in the years 1941 to 1959, both inclusive, are not redeemable prior to maturity.

BONDS PUBLICLY OFFERED—Members of the successful banking group reoffered the \$12.510.000 23/s to yield from 0.60% to 2.70% for the 1941 to 1959 maturities, and priced the balance of the series, maturing from 1960 to 1968 incl., at par. The \$690.000 23/s, due in 1969, were offered to yield 2.70%. The bonds will constitute valid and legally binding obligations of the city, payable solely from revenues to be derived from the operation of the municipal electric power plant and distribution system and the city and its Electric Power Board have covenanted to fix and collect such rates and charges and to revise same from time to pay the principal and interest on the bonds, in addition to paying the necessary expenses of operating and maintain; the system and all other obligations and indebtedness payable from such revenues and to create and maintain certain reserves for renewals and replacements, and for debt service. In the

ties Corp. and others offered 100.529 for \$3,910,000 4½s and \$9,290,000 2½s, or a net interest cost of 2.95%.

CLEVELAND, Tenn.—BÔND SALE—Blyth & Co. of Chicago in account with the Equitable Securities Corp. of Nashville were successful bidders for the \$750,000 series A electric system revenue bonds offered Aug. 4, paying a price of 100.01, or a net interest cost of about 2.77%, for the bonds to bear interest as follows: For \$99,000 maturing June 1, \$32,000 in 1942, \$33,000 in 1943, \$34,000 in 1944, as 3½s, and \$651,000 maturing June 1, \$35,000 in 1943, \$34,000 in 1944, as 3½s, and \$651,000 maturing June 1, \$35,000 in 1943, \$34,000 in 1946, \$37,000 in 1947, \$38,000 in 1958, \$44,000 in 1953, \$46,000 in 1950, \$42,000 in 1951, \$43,000 in 1952, \$44,000 in 1953, \$46,000 in 1954, \$47,000 in 1955, \$49,000 in 1956, \$50,000 in 1957, \$51,000 in 1958, and \$53,000 in 1958, as 2¾s.

A group composed of the Nashville Securities Co., Booker & Davidson, Stern, Wampler & Co. and Ryan, Sutherland & Co. bid for 2¾s and 3s, or a net interest cost of about 2.7844%. This was the second best bid.

and \$7,000 from 1957 to 1959, inci. Second nigh one, based on an inecest of 3.41%, came from Booker & Davidson, Inc. of Knoxville.

TENNESSEE (State of)—REPORT CITES \$13,295,761 DEBT REDUCTION—That the State has retired bond principal during the fiscal year closed on June 30 to the amount of \$17,369/761, and by Dec. 31, of this year, will retire \$9,700,000 more, or a total of \$27,000,000 gross debt liquidation within 18 months, reducing annual interest requirements by \$681,000 a year, is recorded with very natural satisfaction by the Tennessee Taxpayers Association, in the sixth instalment of its report released Aug. 2. New bonds issued by the State during the second year of the biennium ended on June 30, according to the taxpayers' report, amounted to \$4,074,000. The report shows, however, that of these new issues, \$3,029,000 represented State bonds issued to pay a part of the State's high-way reimbursement debt to the counties (part of the State's indirect bonded debt). The issues that are truly new include \$500,000 in bonds issued for the new State office building on Sixth Avenue, North, at Cedar Street, now approaching completion; \$350,000 bonds issued for the State's portion of armories and \$195,000 for certain Grundy County highway reimbursement bonds finally approved for addition to the State's direct obligations. The net reduction for the fiscal year, or the difference between old bonds paid and new ones issued, \$13,295,761, brings the combined direct and indirect debt of the State down from \$132,218,936 on July 1, 1938, to be made in the next 12 years, under the plan enacted into law in 1937.

TEXAS

ANDREWS COUNTY (P. O. Andrews), Texas— $BOND\ SALE$ —An issue of \$110,000 216% courthouse construction bonds was sold to James, Stayart & Davis, Inc. of Dallas, at a price of 100.095. Bonds were approved at an election on May 6.

TEXAS, State of—ADDITIONAL INFORMATION ON ROAD BOND ASSUMPTION BILL—In connection with the report given in our issue of July 15 that the road bond assumption bill had been approved by

Governor O'Daniel—V. 149, p. 452—the following details on the scope of the measure are taken from the Dallas "Morning News" of July 9:

The road bond assumption measure, House Bill 688, was regarded by many as one of the major accomplishments of the session, particularly since it materially enlarged the benefits of the previous acts, which started in 1932. The approved bill grew out of the original Tarwater measure, sponsored by the County Judges, which was modified Ly a conference committee. It is estimated that the bill will lift some \$120,000,000 road bond indebtedness from the counties.

No Legislature can make appropriations beyond two years, which explains why 1c. of the 4c. gasoline tax must be reallocated every two years to pay interest and principal on road bonds. These biennial allocations present an opportunity for changing the State's policy, as was done in the approved measure. Until now, only county and road district bonds issued prior to Sept. 17, 1932, were assumed where the proceeds were used in constructing State-designated highways. This is continued with the following assumptions:

1. Bonds and warrants issued to build roads that have been taken into the system of State highways since Sept. 17, 1932, and up to Jan. 1, 1939.

2. Bonds and warrants which were used by counties and defined road districts in building lateral roads.

In every instance the State's obligation is to pay interest, principal and sinking fund requirements on such evidences of indebtedness only in the percentage that they so were used, minus the amount of sinking fund due, regardless of whether sinking funds are actually existent.

Obligations of bonds and warrants used in building roads that have become parts of the State system, and whether before or after Sept. 17, 1932, have a first claim. It is only after their claim has been satisfied that obligations incurred in building lateral road bonds, and since this will be annually for servicing eligible lateral road bonds, and since this will be annually for servicing elig

Use of Credits

The credit allocated to the counties from the lateral road fund, under the provisions of the conference bill, must be used first to discharge indebtedness incurred in acquiring rights of way. What is left after those obligations have been satisfied may be used at the election of the County Commissioners, either in retiring bonds and warrants used in constructing lateral roads or in the construction and improvement of such roads or in supplementing Public Works Administration grants for building farm-to-market roads.

menting Public Works Administration grants for building farm-to-market roads.

When there are several issues of outstanding lateral road bonds and the amount received from the State is not sufficient to serve all of them in full, the amount available is to be distributed among the several issues pro rata. There is a surplus in the county and road district indebtedness fund which, it is estimated, will amount to between \$6,000,000 and \$7,000,000 by Oct. 31. It is a provision of the bill that not more than \$3,000,000 of that surplus may be set aside for use as a revolving fund and that the rest shall be used in the retirement of bonds and warrants made eligible by the act of 1932. This is in pursuance of a provision of the bill which contemplates making up the deficiency of State payments on obligations made eligible by the act. These deficiencies aggregate \$9,273,957. What in addition to that which is to be taken from the existing surplus may be needed is to come from future surpluses, though they will not materialize apparently until one fourth of the proceeds of the gasoline tax, now amounting to about \$10,500,000 annually, shall be more than the annual need for servicing eligible bonds of both categories

**STATE ROARD ORDERS ASSUMED ROAD BOND PAYMENT—We

about \$10,500,000 annually, shall be more than the annual need for servicing eligible bonds of both categories

STATE BOARD ORDERS ASSUMED ROAD BOND PAYMENT—We quote in part as follows from a dispatch out of Austin on July 19:

"Payment of 100% of the State's part of principal and interest and interest on assumed road indebtedness in 1940 was ordered by the Board of County and District Road Indebtedness, W. H. Gordon, chief accountant, said . Wednesday.

"The payment of all requirements of principal and interest for the second time since the State assumption plan was adopted, will be both on bonds issued to 1932, as provided in the preceding act, and those issued for roads made a part of the State highway system from 1932 through last Jan. 2, as provided in the new Road-Bond Assumption Act passed at the last session

"Requirements on the bonds assumed previously will amount to \$5,123, as provided in principal and \$4,181,086.62 in interest next year, Mr. Gordon said. It is impossible to estimate the charges that will accrue from the new assumption, he said. Seeking to determine the amount, he has directed inquiries to county officials.

"To meet the known charge of \$9,305,069.42 on previously assumed bonds, Mr. Gordon said, the board has conservatively estimated income from its portion of the gasoline tax at \$10,500,000 next year. During the last 12 months the fund received \$10,727,975 from that source, while charges totaled \$9,300,000.

"Should the requirements arising from the additional assumption exceed the income, the fund now has a surplus from which payments can be made. By the end of August, Mr. Gordon calculated, the surplus will amount to \$8,140,000.

TYLER, Texas—BOND SALE—The Citizens National Bank of Tyler

TYLER, Texas—BOND SALE—The Citizens National Bank of Tyler and the Tyler State Bank, jointly, purchased an issue of \$30,000 street improvement bonds as 11/2s, at par. Due \$6,000 from 1940 to 1944 incl. The Peoples National Bank of Tyler, second high bidder, offered par for 2s.

UVALDE, Texas—BOND SALE—The \$60,000 bonds offered Aug. 3—V. 149, p. 772—were awarded to A. W. Snyder & Co. of Houston, as 21/88, at a price of 100.11, a basis of about 2.49%. Second high bid of 100.018 for 21/28 was made by R. K. Dunbar & Co. of Austin. Award consisted of:

District announced that preference may be given to a bid which permits
the redemption of outstanding bonds at an early date. Legal opinion of
Gibson & Gibson, of Austin, or Chapamn & Cutler of Chicago.

UTAH

PROVO, Utah—COURT ASKS FOR PARTICULARS ON BOND SALE INJUNCTION LITIGATION—The Fourth District Court of Utah on Aug. 1 ruled that citizens of Provo who sought to enjoin city officials from spending proceeds of an \$850,000 bond issue sold to John Nuveen Co. in June for a municipal electric plant and distribution system, must show that they or the community had been injured before an injunction could be granted. The plaintiffs were given additional time in which to amend heir court action.—V. 149, p. 618. In rendering decision on a demurrer

filed by the City of Provo, Judge Young said "For purposes of the demurrer the Court has to assume that the bonds were illegally issued," but pointed out that the plaintiffs must prove injury, adding "it may be that the plaintiffs can bring themselves within the provisions of the law so that they may be entitled to an injunction." The Court gave the citizens who filed the suit five days in which to amend their complaint.

On Aug. 2, Mayor Mark Anderson of Provo announced that funds received from the sale of the bonds had been transferred from the First National Bank of Chicago to a Provo bank. One of the allegations in the District Court action was that the deposit of funds in a Chicago bank was contrary to the laws of Utah. Meanwhile, the Provo City Commission repealed an ordinance passed on June 29 which provided that when Provo acquires a municipal power plant the City Commission will not grant or renews a franchise to any competing electric system. Provo citizens will vote on Nov. 7 on a renewal of Utah Power & Light Co. 's franchise. Repeal of the so-called "non-competing" ordinance followed vigorous opposition to it on the part of a citizens' committee. The writ of mandate issued by the Utah Supreme Court on July 11, requiring the city to show cause by the Utah Supreme Court on July 11, requiring the city to show cause by its agreement with John Nuveen Co. for sale of the bonds for the municipal plant should not be submitted to a referendum vote has not yet been heard.

VERMONT

SHAFTSBURY FIRE DISTRICT NO. 1; (P. O. South Shaftsbury), Vt.—BOND OFFERING—Jesse L. Strong, District Treasurer, will receive sealed bids until 2 p. m. (DST) on Aug. 15 for the purchase of \$15,000 coupon water bonds. Dated Aug. 1, 1939. Denom. \$1,000. Due \$1,000 annually on Aug. 1 from 1945 to 1959 inc. Bidder to name rate of interest in multiples of ¼ of 1%. Prin. and int. (F-A) payable at the National Shawmut Bank of Boston, which will supervise the engraving of the bonds and certify as to their genuineness. Legal opinion of Storey, Thorndike, Palmer & Dodge of Boston will be furnished the successful bidder.

VIRGINIA

NORFOLK, Va.—BOND OFFERING—Charles B. Borland, City Manager, will receive sealed bids until noon on Aug. 15 for the purchase of \$1,242,000 coupon or registered bonds, divided as follows: \$1,118,000 general improvement bonds. Due Sept. 1 as follows: \$30,000 from 1940 to 1947, incl.; \$40,000, 1948 to 1954, incl.; \$60,000 from 1955 to 1963, incl., and \$58,000 in 1964.

124,000 water bonds. Due Sept. 1 as follows: \$4,000 in 1940 and \$5,000 from 1941 to 1964, incl.

All of the bonds will be dated Sept. 1 1030. Deceme \$1,000. Bidders

124,000 water bonds. Due Sept. 1 as follows: \$4,000 in 1940 and \$5,000 from 1941 to 1964, incl.

All of the bonds will be dated Sept. 1, 1939. Denom. \$1,000. Bidders are requested to name the interest rate in multiples of ½ or 1-10th of 1%, all bonds of each issue to bear the same interest rate. Bidders are required to bid for all the bonds. No proposal will be considered which proposes to pay less than par and accrued interest for the bonds. Comparison of proposals will be made by ascertaining the amount of interest to be paid by the city throughout the life of both issues at the proposed rates, and deducting therefrom the amount of premium bid, thus determining the lowest net interest cost to the city for both issues. Principal and interest (M-S) payable either at the Bankers Trust Co., New York, or the Chase National Bank, New York, or the National Bank of Commerce, Norfolk, as the purchaser may specify. General obligations; unlimited tax. Delivery on or about Sept. 1, at place of purchasers' choice in New York City or Norfolk. These bonds are for general public improvements in the city, and additions to the city's water supply system. The approving opinion of Reed, Hoyt, Washburn & Clay of New York will be furnished. Enclose a certified check for \$10,000, payable to the City Treasurer.

SUFFOLK, Va.—BOND OFFERING—R. H. Brinkley, City Manager, will receive sealed bids until Aug. 31 for the purchase of \$80,000 not to exceed 3% interest public improvement bonds.
