# STATE AND CITY DEPARTMENT

**BOND PROPOSALS AND NEGOTIATIONS** 

#### ARKANSAS

Arkansas (State of)
Bond Payment Program Can
Withstand Revenue Cut—State
Highway revenue could be reduced 50% without affecting annual debt service requirements,
Supervisor Frank A. Storey Jr.,
of the State Refunding Board said
recently.

But he expressed fear that a threatened drop in revenue as a result of the proposed tire rationing program may seriously affect other beneficiaries of the 1941 highway boad highway bond refunding act in the following order:

1. Municipal paving districts, \$185,000; municipal turnback, \$112,500, and additional county turnback, \$112,500.

2. Farm-to-market roads, \$140,

3. Bridge improvement districts \$200,000.

New highway construction \$2,500,000. 5. Quarter-cent turnback to

counties.

counties.

No allotments under the refunding act will be reduced for the bond year ending March 31, 1942. Mr. Storey said approximately \$17,000,000 of highway revenue will be collected during that year. After the cost of collection and one-half cent turnback to counties are paid the net is expected to be \$15,500,000.

The refunding act allocated the

The refunding act allocated the first \$10,250,000 of the net to debt service and maintenance of highservice and maintenance of highways. Seventy per cent of that amount was set aside to meet maturities, pay interest and call in \$1,000,000 worth of term bonds each year if desired. The 70% would be \$7,175,000.

Since the Refunding Board is not required to call in the \$1,000,000 of bonds annually, only \$6,-175,000 would be needed to meet debt service requirements. On

debt service requirements. On that basis, Mr. Storey explained highway revenue could drop to \$8,821,430 a year and still be sufficient to produce \$6,175,000 under the ratio of 70% for debt service.

"Of course," he added, "main-tenance funds would be reduced

because this account would receive only 30% of all net revenue below \$10,250,000."

Mr. Storey said there should be no particular concern over debt service during the next three years, at least. He pointed out that a "cushion" fund, created to protect bond holders in the event revenues fall below \$10,250,000 a year will be almost \$5,500,000 by next April 1.

next April 1.

St. Francis Levee District (P. O. West Memphis), Ark.

Railroad Pays Delinquent Tax
Bill—As directed by the Federal
District Court at St. Louis, to
terminate litigation instituted in
1929, the St. Louis-San Francisco
Railroad has paid \$336,367.50 to
the above district, in settlement
of taxes plus interest, penalties
and costs. The litigation began in
1929 when the railroad and also
the Missouri Pacific, St. Louis
Southwestern (Cotton Belt) and
Chicago, Rock Island & Pacific
enjoined the district from collection of taxes on a mileage basis.
When the first decree was returned, the plaintiffs, except the
St. Louis-San Francisco Railroad,
accepted it and made settlement.
This railroad, however, filed a This railroad, however, filed a new action to question the basis of assessments.

Detroit, Mich.

Market Conditions To Govern Proposed Financing — Municipal officials are undecided whether to attempt a refunding sale in January or postpone action until the future trend of municipal bond prices is better defined. Until war started they had been planning an approximately \$29. planning an approximately \$29,-000,000 refunding operation late this month.

. Detroit has been engaged for

the year's tax levy of \$67,759,692,

Outlook for the current fiscal year, in which city officials had expected to accomplish a further deficit reduction to between \$3,000,000 and \$4,000,000, is clouded now by demands of city employes for wage and salary increases. While these have not been pressed as vigorously since the war started as they were before, it is probable that some action will be necessary in the not distant future. tant future.

City officials regard a substantial increase in operating costs during the next fiscal year as inevitable, necessitating a higher tax burden after June 30.

Offerings Wanted—Charles G. Oakman, City Controller, will receive sealed offerings until 9 a.m. on Jan. 15, to remain firm until 3 p.m. the following day, of outstanding non-callable city bonds in the amount of approxibonds in the amount of approximately \$260,000 for investments for the city sinking fund, under the following conditions:

the following conditions:
All offerings shall be in writing and shall be sealed.
Offering shall show the purpose, the rate of interest, date of maturity, the dollar value and the yield.
Offerings will be accepted on the basis of the highest net yield to the city as computed from the dollar price as of Jan. 15, 1942.
No bonds maturing beyond 1959 No bonds maturing beyond 1959

ill be accepted.

The city reserves the right to

Erie County (P. O. Buffalo),
N. Y.
Temporary Financing — The county recently borrowed \$2,000,-000 at 0.50% interest from three Buffalo banks to finance municipal expertions, pending collection Buffalo banks to finance municipal operations pending collection of 1942 taxes. Latter begin Jan. 16 and the loan will be repaid on Feb. 28. The county obtained \$750,000 from both the Marine Trust Co. and the Manufacturers & Traders Trust Co., and \$500,000 from the Liberty Bank.

#### New York, N. Y.

Plans \$50,000,000 Bond Sale— The last major bond financing by the city for the duration of the war will take place soon when an issue of \$50,000,000 in long-term bonds will be offered to the public, Controller Joseph D. Mc-Goldrick announced Jan. 8. This flotation will finance outstanding contract liabilities and authoriza-tions which have already been charged against the city's debt

limit, he said.

Based on the previous time schedules followed by the city in schedules followed by the city in announcing its financing plans, it was believed by municipal bond men that Mr. McGoldrick will issue a call for bids to be considered on about Jan. 20. This would provide ample time for the necessary official notices and publications of the details of the necessary official notices and publications of the details of the

publications of the details of the offering.

The offering will consist of \$32,000,000 of serial bonds and \$18,000,000 of assessment bonds. The sale will not add to the present debt of the city. The serial bonds are to fund debt already incurred for rapid transit, docks, water supply, schools and various municipal purposes. The assessment bonds will fund expenditures for street improvements and street and park openings. Further details of the financing, in respect to interest rates and maturities, will be announced soon. nounced soon.

nounced soon.

"The forthcoming sale will not be an addition to the city's total debt," Mr. McGoldrick said. "It will merely finance the contract liabilities and authorizations which have already been charged against the city's debt limit. The sale represents our entire requirements for the 1942 calendar year and with the rigid policy the city is pursuing in capital excity is pursuing in capital ex-penditures it will be the last im-portant financing for the duration of the national emergency.

portant financing for the duration of the national emergency."

The city's last previous appearance in the long-term capital market occurred on March 18, 1941, when a total of \$21,215,000 1 to 15-year serial obligations were awarded to a syndicate headed by the National City Bank of New York, as 2¼s, at 101.51, a basis of about 2.048%. The group reoffered the securities from a yield of 0.40% for the earliest maturity to a price of 98.50 for the last maturing bonds. The issue was placed with investors in record time, all of the bonds having been sold and the books closed within one hour after the award. In addition to the public sale, Comptroller Mc-Goldrick placed \$18,785,000 of additional bonds with the municipal funds.—V. 152, p. 1957.

New York (State of)

faction, as Governor, to say that the credit of the State of New York is unexcelled by the credit of any political unit in the world. As another indication of the soundness of the State's credit, I am pleased to announce that in the liquidation of Canal Debt Sinking Fund No. 6, as of Jan. 1, 1942, a profit of over \$500,000 has been produced.

"This fund, amounting to \$5.

000 has been produced.

"This fund, amounting to \$5,-000,000, was originally set up in 1911 to help pay off indebtedness on the Barge Canal. The Department of Audit and Control prudently invested these funds. It must be a satisfaction to all of our citizens to note that Canal Debt Sinking Fund No. 6 in the past 30 years has earned a profit of over 10%."

Governor Lehman Opens 1942
Legislative Session — Governor
Lehman, delivering his tenth annual message to the opening session of the Legislature on Jan. 7, pledged economy and tax reduction as part of the State government. tion as part of the State govern-ment's program of wartime acts. In his message, personally de-livered before a joint session of the Senate and Assembly, the Governor gave the following gen-eral outline:

Budget and Taxation—Elimination of all "non-essential" spending so far as it will not affect the health, welfare or morale of the people; sharp reduction in capital expenditures, as well as reduction of State taxes. eduction of State taxes.

Civilian Defense — After expressing concern over the apathy of the man in the street, the Governor said, if necessary, he would ask for legislation establishing precise lines of command between the State Defense Countil cil and local defense councils whereby these bodies would be able "to command the police, or fire, or other municipal or volunteer agency into instant action." Although New York City is under a separate defense area from up-State New York, State defense legislation would be effective in the city also.

Inflation — As a protection a g a i n s t inequalities following possible inflation, the Governor recommended that the Legislature recommended that the Legislature stand ready to pass price-fixing and rent-restriction legislation, by constitutional amendment is necessary, should Congress fail to take adequate measures. The State program will include a compulsory savings law, applying increasingly to the higher income hypotests. higher income brackets.

Agriculture — The Governor recommended "a liberal appropriation" for farm and crop experimentation in order to make this country the granary of democracy as well as the arsenal of democracy. democracy.

Labor Legislation — The Governor recommended laws empowering the Industrial Commissioner, upon application of employers, to suspend control imitation. ployers, to suspend existing limitations on hours and working conditions for defense work without permanent abrogation rights and protection rights and protection afforded under present labor laws.

War - Time Unemployment — Anticipating unemployment as a result of conversion of industries from peace-time to war-time pur-poses, the Governor recommend-ed intensive training for defense occupations and extension of un-employment insurance benefits from the present 13 to 16 weeks.

Post-War Unemployment—The Governor urged the building up of a great post-war reserve of public works and private works to help mitigate inevitable unemployment as men are discharged from military service, but made no specific recommendations.

# Municipal Bond Sales In December And For The Year 1941

The municipal Bond Sales In December

And For The Year 1941

The municipal bond market during December was largely influenced by the reaction in the money and credit markets occasioned by the outbreak of hostilities between the United States and the Axis powers. The price structure turned sharply lower in the wake of Japan's treacherous attack on Hawaii on Dec. 7 and was immediately reflected in the bids submitted for the issues up for award about that time. Moreover, the general weakness prompted a number of prospective borrowers to withdraw their offerings from the market, pending more stable conditions. Still others proceeded as scheduled, but decided to reject the offers submitted, as they reflected the drastically lower price quotations then prevailing.

Some indication of the extent of the decline was evident in the experience of Scranton School District, Pa., which had been scheduled to dispose of an offering of \$519,000 bonds on Dec. 8. The highest bid received was an offer of 100.511 for 3s, which was rejected by the district and announcement made that new tenders would be considered on Dec. 29. On that occasion the district succeeded in disposing of the bonds to Halsey, Stuart & Co., Inc., New York, at a price of 100.54 for 2%s, the bid representing a reduction of approximately .35 of 1% in interest cost from the best offer obtainable at the first offering. Even at the second offering, however, the municipal market had by no means fully recovered the losses sustained coincident with our entrance in the war.

Getting back to the general operations in the recent month, we find that new issues were sold in the grand aggregate of \$60,287,387. This includes an award of \$15,000,000 by the State of New York, which, incidentally, was effected prior to the break in prices. The relatively small output in December was in keeping with the trend of State and municipal financing throughout the calendar year 1941. This is seen in the fact that the total borrowings for the entire year amounted to only \$957,754,499, t

its control over money rates and that no effort will be made to remove the tax-exempt feature from the obligations of States and municipalities, the outlook for maintenance of the present high level of municipal bond prices is favorable. This, at least, is the view held in municipal bond circles.

The issues of \$1,000,000 or more awarded in December, 1941, were as follows:

The issues of \$1,000,000 or more awarded in December, 1941, were as follows:

\$15,000,000 New York (State of) grade crossing elimination bonds sold to an account headed by the National City Bank of New York, as 1½s, at 101.109, a basis of about 1.44%. Due annually from 1942 to 1981, inclusive, and re-offered to yield from 0.30% to a price of 99.50, according to maturity.

4,440,000 Cincinnati, Ohio, refunding rapid transit bonds purchased by Lazard Freres & Co. of New York, and associates, as 1½s, at 101.219, a basis of about 1.15%. Due serially from 1943 to 1966, inclusive, and re-offered to yield from 0.40% to 1.20%, according to maturity.

3,940,000 Minneapolis, Minn., bonds were sold to a syndicate headed by Phelps. Fenn & Co., Inc., New York, as follows: \$2,555,000 refundings, due from 1943 to 1952; inclusive, were sold as 1.80s, at 100.159, a basis of about 1.77%; \$1,385,000 new capital obligations, maturing 1943-62, were sold as 1.90s, at 100.131, a basis of about 1.89%. The bulk of the entire offering was placed privately, the bankers having made public offering of only \$1,000,000 1.80s, maturing from 1948 to 1952, inclusive, to yield from 1.50% to 1.75%, according to maturity.

3,833,000. Tulsa, Okla., various new capital bonds sold to a syndicate headed by the Northern Trust Co. of Chicago, bearing interest rates of from 1½% to 2½%, at a net interest cost of about 1.90%. Due serially from 1945 to 1962, inclusive.

2,000,000 Corups Christi, Tex., new capital obligations sold to an account headed by Phelps, Fenn & Co., Inc., New York, as 2¾s and 3s, at par, a net interest cost of about 2.98%. Due serially from 1942 to 1966, inclusive, and re-offered from a yield of 1% to a price of 96.

2,000,000 Washington Suburban Sanitary District, Md., 2½% and 2.60% water and sewer bonds, due serially from 1943 to 1982, inclusive, purchased by Phelps, Fenn & Co., Inc., New York, and associates, at 100.657, a net interest cost of about 2.64%. A block of \$182,000 bonds mature in 1955 and the remainder in 1957. The 3s

callable serially at premiums not to exceed a price of 103.

The sale by the City of New York of an issue of \$30,000,000 revenue bills and interim borrowing in the amount of \$19,450,000 by local housing authorities, resulted in swelling the grand total of short-term municipal financing in December to a level of \$81,709,-357. The interest rate paid by the city, 0.50%, reflected the recent increase in short-term money rates.

Activity in the Canadian municipal field in December was limited to the sale of a number of small issues amounting in the aggregate to \$353,423. The Dominion government accounted for the \$90,000,000 of temporary borrowing.

No United States Possession financing was undertaken in December.

December.

Below we furnish a comparison of all various forms of obligations sold in December during the last five years:

	1941 \$	1940 \$	1939 \$	1938	1937

Pittsburgh School District, Pa.

High Court Upholds Tax On

School Bonds—The State Supreme Court ruled Jan. 5 that the
School District is liable for the
four-mill State tax on bonds issued by the Board. The securities contain a tax-free covenant
and are held by saving institutions having no capital stock and tions having no capital stock and also by resident corporate trus-tees under trusts for non-resident beneficiaries. In the suit brought by the Commonwealth, the Dauphin County Court ruled against the Pittsburgh school authorities who appealed to the higher Court. Chief Justice William A. Schaffer affirmed the lower Court decision.

Court decision.

Ross Township (P. O. Perrysville),
Pa.

Bond Offering—Wade W. Winner. Township Secretary, will receive sealed bids until 11 a.m. on Jan. 20 for the purchase of \$90,000 coupon sewer construction bonds. Dated Jan. 1, 1942. Denom. \$1.000.

v. 154, p. 1675—were awarded to Paine, Webber & Co. of Chicago, as 21/4s, paying a premium of "hopeful" that the September (1942) borrowing would not exof about 2.19%. Dated Jan. 20, 1942. Due \$5,000 from Jan. 20, 1943 to 1952 incl.

Milwaukee County (P. O. Milwaukee), Wis.

Big Bond Issue Urged—The Milwaukee "Journal" on Dec. 30 reported in part as follows:

County Auditor Frank Bittner Tuesday asked the County Board to issue \$11,000,000 in bonds early next year, the largest single financing item ever undertaken by the county.

Bittner recommended issuance of \$7,200,000 in relief bonds and \$3,800,000 in corporate purpose

Name of Company

of \$13,385,000 issued this year.

Bittner expressed himself as "hopeful" that the September (1942) borrowing would not exceed \$1,000,000.

The auditor recommended that the bonds be dated Feb. 20, about two months earlier than annual

bond issues of late years, because he expects taxpayers in 1942 to take advantage of the new installment plan. Heretofore county taxes were due Jan. 31. Under the installment plan effective next year the final payment will not year the final payment will not become due until July 31. Bittner therefore expects tax collections to be much later than in past

# **Redemption Galls and Sinking Fund** Notices

Below will be found a list of corporate bonds, notes, and preferred stocks called for redemption, including those called under sinking fund provisions. The date indicates the redemption or last date for making tenders, and the page number gives the location in which the details were given in the "Chronicle."

RAILROAD - PUBLIC UTILITY - INDUSTRIAL - INSURANCE - MISCELLANEOUS

#### Abbott Laboratories-Dividend Correction-

The directors have declared an initial dividend of 30 cents (not 39 cents as previously reported) on the 4% cumulative preferred stock, par \$100, payable Jan. 15 to holders of record Jan. 2.—V. 155, p. 45.

# Alabama Power Co.-Invites Public Bids for \$80,000,-

Alabama Power Co.—Invites Public Bids for \$80,000,-000 Bonds—

Company issued Jan. 9 a public invitation for proposals for the purchase of \$80,000,000 first mortgage bonds, series due 1972, with the stipulation that the coupon rate shall be specified by the bidders, in multiples of ½%, but not exceeding 3½%. All proposals must be presented to the company at the office of The Commonwealth & Southern Corp., 20 Pine St., N. Y. City, before 12 noon, Jan. 19, 1942. Prior to 3 P. M. on that date, the company will accept the proposal that provides the "lowest annual cost of money" for the bonds, unless it rejects all bids.

Each proposal must be for the purchase of all the bonds, and the price to be paid shall be not less than the principal amount of the bonds, with accrued interest from Jan. 1, 1942, until the delivery date to be paid by the purchaser.

No proposal will be considered unless the bidder (or, in the case of a group of bidders, each bidder) furnish to the company at the office of The Commonwealth & Southern Corp., 20 Pine St., New York, before 11 A. M., Jan. 17, 1942, a completed form of questionnaire, properly filled out and signed. After completing the questionnaire, properly filled out and signed. After completing the questionnaire any prospective bidder or group of prospective bidders may thereafter decide not to bid, or any of the several members of a group may withdraw therefrom and may thereafter decide not to bid or may determine to bid as a member of some other group. Bidders may not submit or participate in more than one bid.

If two or more bids result in identical "lowest annual cost of money" for the bonds, the company may accept any one of such bids.

Every proposal must be accompanied by a certified or bank cashier's check of \$4,000,000 which is 5% of the principal amount of the bonds to be sold. As soon as practicable after acceptance of a proposal, the premium payable upon prior redemption of the bonds will be determined in accordance with a formula in the prospectuse. Delivery of bonds

#### Allied Owners Corp .- Tenders-

The Manufacturers Trust Co., trustee, 55 Broad St., New York City, will until 3 p. m., Jan. 30, receive bids for the sale to it of sufficient first lien cumulative income bonds due July 1, 1958, to exhaust the sum of \$188,499 at prices not exceeding par and interest.—V. 152, p. 1121.

#### Allis-Chalmers Mfg. Co.—Elects New Board Chairman and President-

Max W. Babb, President, has been elected Chairman of the board of directors, and W. C. Buchanan, a director and member of the Executive Committee, has been elected to succeed him as President.—V. 154, p. 1257.

#### American Airlines, Inc.-Schedules Revised-

Revision of non-stop plane schedules between New York and Chicago to give the public a better spacing of departures and, therefore, a more convenient service was announced on Dec. 30 by American Airlines, Inc., Transcontinental & Western Air, Inc., and United Air Lines, the three companies which connect the nation's two largest cities.

Under the new schedules, effective Jan. 5, a total of six-non-stop flights in each direction will be provided by the three airlines supplemented by 31 other flights in each direction to serve many intermediate cities.—V. 155, p. 85.

#### American Car & Foundry Motors Co.—Orders—

The company announces receipt of orders for 11 motor coaches powered with the Hall-Scott horizontal engine, viz: six for Edwards Motor Transit Co., Williamsport, Pa.; three for Boston, Worcester & N. Y. Street Ry. Co., Framingham, Mass.; and two sir-conditioned motor coaches for Denver, Colorado Springs, Pueblo Motor Way, Inc., Denver, Colo.—V. 154, p. 1145.

American Maize-Products Co.-New President, etc.-Theodore Sander, Jr., Vice-President, has been elected President, succeeding Donald K. David, who becomes Chairman of the Executive Committee.—V. 154, p. 1299.

# American Republics Corp. - Simplifies Corporate

Structure—

Republic Production Co., with the exception of title to certain minerals other than oil and gas which will be held by a newly organized wholly-owned subsidiary formed under the laws of Texas, has been merged into the parent company.

The parent corporation has partly liquidated its wholly-owned subsidiary, the American Petroleum Co., a Texas corporation, acquiring all but pipe lines and appurtenances. American Petroleum Co., with commensurately reduced capital stock, will continue a separate existence as owner and operator of the pipe lines.

Petroleum Navigation Co. and the Intracoastal Towing & Transportation Co. have been dissolved, with American Republics Corp. acquiring all assets and liabilities.

The parent company hereafter will conduct, in its own name, functions of the companies merged.

The capitalization of Petroleum Iron Works Co. of Ohio and Petroleum Iron Works Co. of Texas have been reduced commensurately with their restricted activities as manufacturers of steel shipping containers.—V. 154, p. 1490.

#### American Telephone & Telegraph Co.—Gain in Phones

American Telephone & Telegraph Co.—Gain in Phones
The Bell System in 1941 experienced the largest telephone gain in
its history. The American Telephone & Telegraph Co. on Jan. 5
announced the system had a net increase of 1,361,000 telephones in
service. The largest previous annual gain was 950,000 instruments
in 1940. At the close of 1941, there were 18,840,000 telephones in
operation throughout the system.
The gain for December was 130,100—the largest December gain in
the history of the system.
The total number of telephones in the United States that can be
interconnected, including those of the Bell System and several thousand independent companies, was about 23,430,000 at the end of 1941.
—V. 155, p. 85.

# American Viscose Corp.—50-Cent Common Dividend-

The directors have declared a dividend of 50 cents per share on the common stock and the regular quarterly dividend of \$1.25 per share on the 5% cumulative preferred stock, both payable Feb. 2 to holders of record Jan. 15.

An initial dividend of 50 cents per share was paid on Aug. 1, last, which was followed by a payment of like amount on Nov. 1, 1941.

-V. 154, p. 1628.

### American Water Works & Electric Co., Inc.—Output

Output of electric energy of the electric properties of this company for the week ending Jan. 3, 1942, totaled 72,666,000 kwh., an increase of 20.71% over the output of 60,199,400 kwh. for the corresponding week of 1941.

Comparative table of weekly output of electric energy for the last

Comparative table of weekly output of electric energy for the last five years follows:

\*Christmas Day included. †New Year's Day included.—V. 155, p. 46.

### Associated Gas & Electric Co.—Weekly Output-

The Atlantic Utility Service Corp. reports that for the week ended Jan. 2, net electric output of the Associated Gas & Electric group was 118,672,603 units (kwh). This is an increase of 11,974,670 units or 11.2% above production of 106,697,933 units a year ago.—V. 155, p. 46.

## Atchison, Topeka & Santa Fe Ry.—System Loadings

Santa Fe System carloadings week ending Jan. 3, 1942, were 18,427 compared with 15,637 same week 1941. Received from connections 7,096 compared with 5,639 same week 1941. Total cars moved 25,523 compared with 21,330 same week 1941. Santa Fe handled total of 24,913 cars preceding week 1941.—V. 155, p. 46.

#### Atlantic Mutual Insurance Co.—New Trustee

Atlantic Mutual Insurance Co.—New Trustee—
William H. Coverdale, President and Chairman of the board of American Export Lines, Inc., and American Export Airlines, Inc., has been elected a Trustee of the Atlantic Mutual Insurance Co.

In addition to his connection with the American Export Lines and its affiliated airlines, Mr. Coverdale is President and director of Canada Steamship Lines, Ltd., Davie Shipbuilding & Repairing Co. and Midland Shipbuilding Co. He is also a director of the Commercial National Bank & Trust Co., Montreal Trust Co., Postal Telegraph Co. and Republic Steel Corp. Included in his many other affiliations are the American Arbitration Association, the Canadian American Arbitration Committee, Chamber of Commerce of the State of New York and the Downtown Hospital.—V. 152, p. 112.

#### Automatic Telephone Dialer, Inc.—Stop Order-

The SEC recently suspended the effectiveness of registration (No. 2-4752) for \$225,000 of common stock of company on grounds that the statement contained untrue statements and omitted to state material facts.—V. 152, p. 1582, 3014.

## Bendix Home Appliances, Inc.—Wins Patent Suit—Retains Exclusive Rights in Domestic Size Automatic Washing Machines-

Washing Machines—
On Dec. 24, 1941, Judge Charles G. Briggle, of the U. S. District Court, handed down his decision in the long contested suit of Bendix Home Appliances, Inc., against the Borg-Warner Corp. and John W. Chamberlin and Rex Earl Bassett. This decision sustains the Bendix company's claim to the exclusive patent right to make automatic laundry machines of a size suitable for domestic use.

The Bendix Home Laundry has been manufactured under some forty-odd patents owned outright by the Bendix company but also under two Bassett and Chamberlin patents.

In 1935, the Bendix company, or its predecessor Hydraulic Brake Co., acquired an exclusive license under the Bassett and Chamberlin patents to make domestic automatic laundry machines Bassett and Chamberlin retained the right under their two patents to make commercial washing machines. Presently, it became apparent that there was no sharp line of demarcation between domestic and commercial

machines; domestic machines might be put to commercial use in hotels or hospitals; commercial machines might be purchased by owners of large estates.

Accordingly, in 1936, the original license contract was modified to define domestic machines as those designed to handle eighteen or less pounds of dry material, and commercial machines as those designed to handle more than eighteen pounds.

In October, 1938, about a year after the Bendix Home Laundry appeared upon the market, Bassett and Chamberlin undertook to grant to the Norge Division of the Borg-Warner Corp., a license to make "commercial" machines, but to sell them for use only in residences, households, homes and apartments. The license from Bassett and Chamberlin to Borg-Warner specified that the machines must be designed to handle more than 18 pounds.

The contention of Bassett and Chamberlin and Borg-Warner was, that the Bendix Home Laundry was designed to handle 12 pounds and that Borg-Warner acquired the right, therefore, to make a machine only 50% larger than the Bendix.

But the decision of the court upheld the contention of the Bendix company that the Bendix Home Laundry was designed to handle nine pounds of dry. clothes, and that any "commercial" machines manufactured under any license from Bassett and Chamberlin to Borg-Warner must be at least twice as big as the Bendix machine, Judge Briggle's decision put the matter in the form of cylinder volume. He found the volume of the cylinder of the Bendix Mome Laundry to be 2.03 cubic feet. And he held that any machine which Borg-Warner might make, under any license which Bassett and Chamberlin were free to grant, must be equipped with a cylinder having a volume in excess of 4.06 cubic feet.

Judge Briggle held, further, that the supplemental license contracts of 1936 and 1937 made this matter of cylinder size the only distinction between the "domestic" machines, which Bendix had the exclusive license to make, and the "commercial" machines, which Borg-Warner had acquired a license to make.

Under this

to sell its present 2.05 cubic foot machines of purchaser for any and every use.

Borg-Warner is held to have the right to sell machines with cylinders of more than 4.06 cubic feet to anyone and for any use to which such large machines can be put.—V. 155, p. 47.

### Benson & Hedges—Transfer Agents—

Bank of the Manhattan Co. has been appointed as transfer agent for the convertible preference and common stocks of the company.

—V. 154, p. 1629.

#### Bethlehem Steel Corp.—Record Production in 1941-

Eugene G. Grace. President, on Jan. 7 announced that the company in 1941 produced 12,155,476 net tons of steel ingots, a new high record. This was an increase of 1,450,735 tons over the year 1940 when output amounted to 10,704,741 net tons.

In December, 1941, the company produced 1,067,499 net tons, a new high monthly record. The previous record was reached in October, 1941, when production totaled 1,054,261 net tons.—V. 155, p. 46.

# Boston & Maine RR .- Operation Under Trackage

The ICC on Dec. 23 authorized the operation, under trackage rights, by the road over a line of railroad of the Central Vermont Railway, Inc., between Norwottuck and Canai Junction, approximately 8.4 miles, in Hampshire County, Mass.

The ICC on Dec. 23 authorized the operation, under trackage rights, by the road over a portion of a branch line of railroad of the Boston & Albany RR. between Forest Lake and Creamery, approximately 10.5 miles, in Hampden, Hampshire and Worcester Counties, Mass.

#### Abandonment of Branch Line-

The ICC on Dec. 23 issued a certificate permitting abandonment the road of a portion of its Central Massachusetts branch extend-

ing from Norwottuck, in the town of Amherst, to Canal Junction, in the town of Belchertown, a distance of approximately 8.8 miles, all in Hampshire County, Mass.

#### Acquisition of Franklin & Tilton RR. Control-

The ICC on Dec. 23 approved the acquisition by the Boston & Maine RR. of control of the Franklin & Tilton RR., through ownership of its capital stock.—V. 155, p. 47.

#### Boston Consolidated Gas Co.—Dec. Output up 4.3%-

The company reports output for December, 1941, of 1,425,257,000 thic feet as compared with 1,365,934,000 cubic feet in December, 1940, n increase of 4.3%.

n increase of 4.3%. For the calendar year 1940 total production was 13,775,821,000 cubic et as compared with 13,631,782,000 cubic feet for 1940, an increase 1.1%.

Output compares as follows (in cubic feet):

	1941	1940	% Change
January	1,490,244,000	1,512,108,000	1.4
February	1,295,368,000	1,297,439,000	-0.2

Total for year.	13,775,821,000	13,631,782,000	+1.1
V. 154, p. 538.			

#### Brewster Aeronautical Corp.—By-Laws Amended-

The by-laws of company were amended at a meeting of the board directors held on Dec. 18, 1941, so as to provide for a vice-airman of the board of directors. Another amendment was adopted designate the officers of company who shall have power to sign others.

#### Chairman Work Reviews Company's Expansion-

James Work, Chairman, in a letter to stockholders dated Dec. 27 eviews the company's expansion under the National Defense proram to meet the demands of increased business received from the . S. Nays and the Royal Air Forces of Great Britain and the therlands East Indies.

Netherlands East Indies.

From an organization whose major function was that of a sub-contractor to other aircraft manufacturers, company has grown in the relatively short space of two years into a leading manufacturer of fighting and dive-bombing aircraft of its own. During this time the number of employees was increased from 1,000 to approximately 10,000 while floor space was expanded from 185,000 square feet in one plant to 1,350,000 square feet in four plants in three states. First, a plant was leased at the Newark, New Jersey Airport; then the facilities of the original plant in Long Island City were supplemented by the lease of an adjacent Building. Recently, a new 460,000 square foot assembly plant, constructed with government funds by the Defense Plant Corp. was placed in production at Johnsville, Fa.

This expansion program was not undertaken all at one time. It

This expansion program was not undertaken all at one time. It was a progressive expansion, each new unit being added to meet greater demands for production imposed by increased orders. To equip and place in operation each of these plants involved heavy capital expenditures. New machinery had to be purchased, inventories had to be built up to insure smooth production flow and men had to be trained for specialized tasks.

had to be trained for specialized tasks.

All of this expansion was achieved without resorting to bank loans. The additional working capital needed was obtained from substantial advances on contracts with foreign governments.

Now that this country is at war and to help in the winning of the war, company has been assigned an important role. It has been called upon to step up production far beyond the point previously demanded. A year ago, unfilled orders totalled approximately \$107,-000,000. Today directors, can report that, in the interim, additional orders aggregating approximately one-half of that amount have been received and that the allocation of still further orders has been indicated by the government as part of the war program.

received and that the allocation of still further orders has been indicated by the government as part of the war program.

To fill these orders within the time required, expansion must be continued. Accordingly, present production facilities are now being re-arranged to attain the practically continuous operation which the government demands in the interest of the Nation. At the same time, plans are being made for the further improvement of these facilities to meet the future schedules established for company. These plans necessitate the purchase of more equipment, the building up of higher inventories of raw materials, parts and work in precess, and the training of more men. Once again a burden is placed on working capital. Hence, all available funds must be conserved to carry out the latest program. In view of these facts, directors have deemed it inadvisable to approve the payment of a dividend at this time.

Directors believe that the future prospects of company indicated by its backlog plus the performance demonstrated by Brewster-built products both in service and during test flights should leave no doubt that stockholders' continued confidence is justified. Every Censolidated Catalina flying boat in operation or being delivered is furnished with Brewster-built outer wing panels, wing tip floats and braces. Brewster "Buffalo" fighters are actively engaged in warin the Far East—at Singapore with the British and in the Netherlands East Indies with the Royal Air Forces of those colonies—where they are daily distinguishing themselves in combat. Others are in service with the U. S. Fleet. Soon, the strength of all three of the above mentioned air forces will be supplemented by Brewster Buccaneer and Bermuda dive-bombers now in production.—V. 155, p. 47.

Trustee's Equipment Trust Certificates Authorized-

Trustee's Equipment Trust Certificates Authorized—
The ICC on Dec. 23 authorized the road to assume obligation and liability in respect of not exceeding \$3,800,000 first equipment trust of 1942, 2%% equipment trust certificates, to be issued by the Harriss Trust & Savings Bank, as trustee, and sold at 100.31 and accrued dividends in connection with the procurement of certain equipment. The report of the Commission says in part:
The applicant invited 140 banks, bankers, trust companies and life insurance companies to bid for the purchase of the certificates, the bidder to name a rate of dividends to be borne by the certificates in multiples of % of 1% per annum. In response thereto bids were received from four groups comprising 21 firms. The best bid, 100.31 and accrued dividends, based on a rate of 2½%, was made by a group headed by Harris, Hall & Co., and has been accepted. On this basis the average annual cost of the proceeds to the railway trustee will be approximately 2.31%

Federal District Court Judge John P. Barnes, at Chicago, has approved safe by the road of \$3,800,000 equipment trust certificates to a group headed by Harris Hall & Co., Inc., to cover 75% of the cost of 1,375 box cars and 250 iron ore cars.

The court also approved purchase of 20 Diesel switch engines at an approximate cost of \$1,345,000. Twelve 660 hp. engines will be built by Electro-Motive Corp. and eight 1,000 hp. engines will be built by American Locomotive Co.

#### Abandonment-

The ICC on Dec. 15 issued a certificate permitting abandonment by Charles M. Thomson, trustee, of a branch line of railroad, extending from Koepayick easterly to the end of the branch near Pearson, approximately 8.688 miles, in Langlade County, Wis.

The Commission on Dec. 20 issued a certificate permitting abandonment by the trustee of a line of railroad extending from Linwood southwest to Hastings, approximately 102.6 miles, all in Butler, Polk,

York, Hamilton, Clay, and Adams Counties, Nebr.

The abandonment is "upon condition that the line, or any portion thereof, be sold to any responsible person, firm or corporation offering within 40 days from the date of this certificate, to purchase the same for continued operation, and willing to pay therefor a price not less than its fair net salvage value. An apprepriate certificate will be issued, effective from and after 40 days from its date, in which suitable provision will be made for the cancellation of tariffs."—V. 155, p. 48,

#### Choctaw, Oklahoma & Gulf RR .- Abandonment-

The ICC on Dec. 24 issued a certificate permitting abandonment by Frank O. Lowden, James E. Gorman and Joseph B. Fleming, as trustees of the company, and abandonment of operation by them as trustees of the Chicago, Rock Island & Pacific Ry. of a branch line of railroad, extending from Tecumseh Junction in a southerly direction to Asher, approximately 25.2 miles, in Pottawatomic County, Oklahoma.—V. 146, p. 1393.

#### Cold Metal Process Co .- Pays Large Dividend-

This company owner of important steel rolling patents, on Dec. 30 distributed \$1,400,000 in dividends, chiefly to eight stockholders, states a Youngstown, Ohio dispatch, further adding:

A dividend of \$700 a share on the 2,000 shares of \$50 par value stock was declared recently. The company received large royalties from licensees in addition to profitable operations.

In 1940 the company paid dividends totaling \$1,325 a share, largely as a result of the settlement of an infringement suit against U. S. Steel Corp.

#### Collyer Insulated Wire Co. To Expand-

Early expansion of the company's Pawtucket, R. I., plant was indicated by action of the Pawtucket City Council in authorizing the sale of municipally-owned land adjacent to the company's property on Roosevelt Ave. The corporation is actively engaged in the production of war materials.

Robert C. Moeller, Treasurer and General Manager of the Collyer company, said plans for the proposed expansion are in the formative stage, and that it is possible the addition will cover the plant's present parking lot. Mr. Moeller indicated that construction may get underway within five or six weeks—V. 154, p. 1698.

### Colon Development Co., Ltd.—Earnings—

Commonwealth & Southern Corp.—Weekly Output-The weekly kilowat hour output of electric energy of subsidiaries of the corporation adjusted to show general business conditions of territory served for the week ended Jan. 1. 1942, amounted to 183, 408.077 as compared with 173,503,231 for the corresponding week in 1941, an increase of 9,904,846, or 5.71%.—V. 155, p. 49.

## Connecticut Light & Power Co .- Dividend Rates Ad-

Connecticut Light & Power Co.—Dividend Rates Advanced on New Preferred Issues—

An amendment has been filed with the Securities and Exchange Commission by the company advancing the dividend rates on the proposed offering of 200,000 shares of \$2 cumulative preferred stock without par value to \$2.20 and on the proposed 136,088 shares of \$2.25 cumulative preferred stock without par value to \$2.40.

The proposed new \$2.40 preferred stock will be issued only in exchange for shares of the 5½% preferred presently outstanding on the basis of two new shares for each old one now held The new \$2.20 stock will be offered by the company to the public to raise \$10,000,000 of cash for construction requirements over the next three years, and to provide for the retirement of such shares of the 5½% preferred stock as are not exchanged for the new \$2.40 preferred.—V. 154, p. 1698.

#### Consolidated Edison Co. of N. Y., Inc.—Weekly Output

The company announced production of the electric plants of it system for the week ending Jan. 4, 1942, amounting to 155,100,00 kwh. compared with 151,900,000 kwh. for the corresponding week o 1941, an increase of 2.2%.—V. 155, p. 87.

# Consolidated Electric & Gas Co.—Plans Integration—

Consolidated Electric & Gas Co.—Plans Integration—
The SEC will hold a hearing Jan. 20 on the proposal of the company to take certain steps toward creating a single integrated public utility system and for the divestment of control of its subsidiaries.

(1) Consolidated Electric & Gas Co. proposes to reclassify its outstanding preferred stock into such number of shares of new common stock as shall be convenient for distribution to the holders of the presently outstanding preferred stock.

(2) Consolidated will proceed to cancel and retire all of its presently outstanding class A stock and common stock without any consideration to the holders of such class A stock and common stock.

(3) The capitalization of Consolidated will then consist of presently outstanding and long term debt and one class of capital stock, the new common stock distributed to the holders of the presently outstanding preferred stock.

(4) Consolidated proposes to pursue a program of liquidation and actively to endeavor to sell or exchange the securities or assets of its subsidiaries at fair prices and, to the extent required, apply the proceeds received therefrom to the retirement of its debt securities and, upon the extinguishment of such debt securities, to distribute the remaining assets to the holders of the new common stock.

The Commission is requiring the Central Public Utility Corp. to simplify its structure under the Holding Company Act and Consolidated Electric & Gas is the only direct subsidiary operating as a public utility holding company within the meaning of the Act.—

V. 154, p. 1262.

## Consolidated Retail Stores, Inc.—December Sales—

### Continental Motors Corp.—Annual Report—

Clarence Reese, President, says in part:
Profit of corporation and its wholly-owned subsidiaries for the fiscal year ended Oct. 31, 1941, amounted to \$3,231,724 after provision for Federal income and excess profits taxes in the amount of

\$3,250,000 and after providing for a reserve in the amount of \$250,000, for post-war adjustments. This profit is equivalent to \$1.07 per share on the outstanding 3,000,000 shares of common stock.

During the year the corporation paid in full its indebtedness to Reconstruction Pinance Corp. which amounted to \$751,292 at the beginning of the year and also paid its loans from Greater Muskegon Industrial Foundation in the amount of \$26,666. Corporation also expended a total of \$640,872 for additions to its properties and equipment and incurred expenditures of approximately \$1,200,000 during the year in connection with preparatory and pre-operating costs of Government contracts. Despite these payments the working capital of the corporation was increased by nearly \$1,000,000 during the year. The proposed sale of 60,000 shares of convertible preferred stock announced in Feb., 1941, approved by stockholders, was postponed because of market conditions and other circumstances beyond the control of the corporation.

The backlog of unfilled orders at Dec. 15, 1941, was the largest in the history of the corporation.

The largest single achievement of the year has been the completion of the rehabilitation of the Detroit plant for manufacture of aircraft-type engines for use in tanks. In this project we have had the complete co-operation of the Detroit plant for manufacture of aircraft-type engines for use in tanks. In this project we have had the complete co-operation of the the machinery and equipment for this plant. Although some deliveries were made, capacity production had not yet been attained at the close of the fiscal year, production has increased to the full capacity of the facilities provided and will continue to expand as additional equipment is received. Since the close of the year. However, since the close of the fiscal year, a Government contract for 1,500 engines for aircraft use was cancelled and it is expected that a contract of comparable amount for another engine will be substituted.

The formation on May

Holders of certificates of deposit for first preferred stock, second preferred stock and common stock may present such certificates at the office of J. P. Morgan & Co. Incorporated, accompanied by a letter of transmittal, for exchange, in respect of each share represented by such certificates, for one-fifth of a share of new common stock of no par value, and a warrant to purchase 1½ shares of new common stock.—V. 155, p. 50.

### Eureka Pipe Line Co.—Regular Quarterly Dividend—

The directors have declared the regular quarterly dividend of 50 cents per share on the capital stock, payable Feb. 2 to holders of record Jan. 15.

On Feb. 1, last, an extra of \$3 was paid in addition to the usual quarterly distribution of 50 cents.—V. 152, p. 3651.

Excess Insurance Co. of America—Transfer Agent-

# The City Bank Farmers Trust Co. has been appointed transfer agent for 200,000 shares of capital stock .-- V. 152, p. 1750.

Federal Shipbuilding & Dry Dock Co., Kearny, N. J.

—Returned to Private Ownership by Navy Department
The following notice addressed to employees was posted on the bulletin boards of the company Jan. 6:
Pursuant to an executive order of President Roosevelt, signed on
Jan. 5, 1942, the plant of the Federal Shipbuilding and Dry Dock Co.
at Kearny, N. J., has been returned to the company by the Navy
Department, effective at midnight Jan. 6, 1942.
In announcing the return of the plant, the Secretary of the Navy
stated: "We confidently expect the management and the men to see
to it that this plant is operated at full speed to produce ships we must
have and have quickly."

We welcome the return of our shipyard and have in mind one great
and invincible purpose—to operate the yard, so far as lies within the
power of management and employees, so that together we may produce,
as the President today said-in his message to the Congress, "the utmost
limit" of ships for the nation's defense.

Negotiations for a new contract will be continued by the company
with Local 16 of the Industrial Union of Marine and Shipbuilding

Workers of America, heretofore elected as the exclusive bargaining agency of all of the employees.

In the meantime, the company will continue those changes in wage rates negotiated and established by the Navy Department during its operation of the plant, as well as changes resulting from reclassifications already agreed upon by the company with the Union.

The policy of the company will continue to be one of full coperation with the Union in the exercise of the Union's proper functions as such exclusive bargaining agency.

With your assistance, the company will bend all of its energies toward the winning of the war.—V. 152, p. 1281.

#### (M. H.) Fishman Co., Inc.—December Sales—

Period End. Dec. 31— 1941—Month—1940 1941—12 Mos.—1940 ales \_\_\_\_\_ \$917,623 \$819,699 \$5,316,158 \$4,738,243 Sales —V. 154, p. 1492.

#### Freeport Sulphur Co.-New Director, etc.-

Wilson T. Lundy, Vice-President, has been elected a director of the company, and D. T. McIver, Assistant General Manager, has been made General Manager of its sulphur operations.—V. 154, p. 796.

#### (George A.) Fuller Co.-New Chairman, Etc.-

E. J. Belnecke has been elected Chairman of the board of directors and J. H. Sullivan and John F. McPherson have been elected directors. Mr. Belnecke has been associated with the company since 1905 and is also President of the Sperry & Hutchinson Co. and a director of the Manufacturers Trust Co.

Mr. Sullivan has been a Vice-President for many years and has served as Manager of the Toronto and Boston offices before coming to New York in 1940. Mr. McPherson has been an office of the company since 1924 and was President of the Canadian affiliate until 1940.—V. 154, p. 1630.

Gary Electric & Gas Co.—Dissolution Plan Advanced See Northern Indiana Public Service Co.-V. 154, p. 1377.

#### General Mills, Inc.-W. H. Chase Named To New Post

General Mills, Inc.—W. H. Chase Named To New Post Mr. James F. Bell, Chairman of the Board, has announced the appointment of W. Howard Chase as director of the company's Department of Public Services. Formerly known as the Department of Relations with the Public, the new Public Services Department, according to Mr. Bell's statement, will assume broader responsibilities under the direction of Mr. Chase. One important function of the department will be to see that the widespread facilities and operations of General Mills are utilized, in every way possible, in order that the company may be of maximum service to the public and to the Government.

Mr. Chase comes to General Mills from Washington, D. C., where he was associate editor of the Whaley-Eaton News Service, handling foreign and domestic trends. He served previously, as assistant to the President of the American Retail Federation and also, for three years, as editorial writer on the Des Moines "Register and Tribune." He has served, also, on the staffs of Harvard and Drake Universities in the capacity of lecturer on international relations.—V. 154, p. 541.

General Motors Corp.—Stock Offered—Union Securities Corp., Lee Higginson Corp., and A. C. Allyn & Co., Inc., on Jan. 8 sold a block of 60,000 shares of common stock (par \$10) at 32%. Dealers discount 50 cents.

#### Forms War Emergency Committee—New Directors, Etc

The directors on Jan. 5 approved the formation of a new War Emergency Committee, composed of seven leading executives of the corporation, as a means of increasing General Motors contribution to the war effort through the further stimulation of the production of war materials.

The newly-created committee, which supersedes the Defense Material Relationships Committee set up in June, 1940, will have responsibility for all General Motors activities connected with the war emergency for its duration but will be automatically dissolved at the conclusion of the war.

The newly-created committee, which supersedes the Defense Material Relationships Committee set up in June, 1940, will have responsibility for all General Motors activities connected with the war emergency for its duration but will be automatically dissolved at the conclusion of the war.

Donaldson Brown, Vice-Chairman of the Board of Directors and Vice-President of the corporation, will be Chairman of the new War Emergency Committee. Other members will be: Alfred P. Sloan Jr., Chairman of the corporation; C. E. Wilson, President; John Thomas Smith, Vice-President and General Counsel, and Albert Bradley, Frederic G. Donner and O. E. Hunt, Vice-Presidents.

The directors announced with regret the resignation of James D. Mooney as a member of the board of directors, a member of the Administration Committee, and as a Vice-President of the corporation. Mr. Mooney, who is now in active service in the United States Navy, was in charge of Overseas Operations for a number of years, and more recently had been in charge of Defense Material Relationships.

Mr. Donner, Vice-President in charge of finance, has been elected a member of the board of directors.

Harry W. Anderson was elected Vice-President and a member of the Administration Committee. Mr. Anderson recently assumed charge of the Personnel Staff when B. D. Kunkle, Vice-President, became head of the Manufacturing Staff.

The board of directors also elected the following as Vice-Presidents of the corporation: George W. Codrington, general manager of the Cleveland Diesel Engine Division; Nicholas Dreystadt, general manager of the Electro-Motive Division; H. J. Klinger, general manager of the Pontiac Motor Division, and S. E. Skinner, general manager of the Oldsmobile Division, and S. E. Skinner, general manager of the Oldsmobile Division, and S. E. Skinner, general manager of the Oldsmobile Division, and S. E. Skinner, general manager of the Oldsmobile Division.

#### To Discontinue Monthly Sales Releases

To Discontinue Monthly Sales Releases—
The corporation on Jan. 7 issued the following statement:
"In view of the curtailment in automobile production, monthly publication of General Motors sales will be discontinued for the duration of the war.
"We regret having to interrupt nearly 20 years of continuous monthly reports but, obviously, there is no alternative.
"The first regular monthly reports of sales of General Motors cars appeared in March, 1923. Since July 8, 1931, the General Motors sales have been released regularly at 12 noon on the eighth day of each month."—V. 155, p. 88.

#### General Shoe Corp.-25-Cent Common Dividend-

The directors have declared a dividend of 25 cents per share on the common stock, payable Jan. 31 to holders of record Jan. 15. A similar distribution was made on this issue on July 31 and Oct. 31, last, as compared with 20 cents per share in preceding quarters.—V. 154, p. 1595.

Extra Distribution of 50-Cents on Common Stock-

The directors on Jan. 6 declared an extra dividend of 50 cents per share and the regular quarterly dividend of 50 cents per share on the common stock, par \$1, both payable Jan. 22 to holders of record Jan. 16. An extra of like amount was paid on Jan. 22, last year, and on Jan. 18, 1940.—V. 154, p. 1728.

#### Gulf & Inter-State Ry. of Texas-Abandonment-

The ICC on Dec. 12 issued a certificate permitting abandonment by the company of a part of its line of railroad, and abandonment of operation thereof by the Gulf, Colorado & Santa Fe Ry., extending from the ferry landing at Port Bolivar to High Island, approximately 26,7 miles. The abandonment of the ferry extending from the Ninth Street ferry landing in Galveston to the ferry landing in Port Bolivar, approximately 3.9 miles, was also authorized to be abandoned by the Gulf, Colorado & Santa Fe.—V. 124, p. 1816.

#### Hamilton Watch Co.—Registers With SEC-

Company on Dec. 30 filed with the Securities and Exchange Commission a registration statement (No. 2-4926 Form A & S 2) covering the proposed issuance of 39,382 shares of 4½% cumulative preferred shares (\$100 par) for the purpose of effecting dividend savings and reimbursing the company in part for the construction and equipment of new plant.

Holders of the company's common stock at a special meeting at Lancaster, Pa., on Jan. 8, 1942, approved the issuance and sale of the new preferred stock.

Company plans to offer 33 054 shares of the

new preferred stock.

Company plans to offer 33,054 shares of the new preferred to holders of the presently outstanding 6% cumulative preferred stock on a share for share exchange basis. The remaining 6,328 shares and any 4½% preferred shares not taken in exchange will be offered by an underwriting group headed by Harriman, Ripley & Co., Inc., according to the registration statement.

Expenditures in connection with the construction and equipment of additions to the company's manufacturing plants and buildings are estimated at \$1,300,000.

are estimated at \$1,300,000.

If the registration statement becomes effective on Jan. 19, as scheduled, present preferred stockholders will then have until 4p. m., Jan. 22, 1942, to accept the company's exchange offer. Present preferred holders who make the exchange will receive the full March 1, 1942, dividend of \$1.50 per share, and dividends on the new 4½% preferred will be cumulative from the date of issue, approximately Jan. 27, 1942, the company states. If the new preferred is publicly offered at less than \$105, holders of the old preferred who make the exchange will receive cash equal to the difference between \$105 and the offering price.

If the new preferred is sold as planned, 6% preferred shares not

If the new preferred is sold as planned, 6% preferred shares not schanged will be redeemed on March 1, 1942, at \$105 and accrued ividends.

dividends. Company has no funded debt and upon completion of the present financing, including redemption of unexchanged 6% preferred shares, the outstanding capitalization of the company will consist exclusively of 39,382 shares of 4½% cumulative preferred stock and 386,585 company share for any factors.

of 39,382 shares of 4½% cumulative preferred stock and 386,585 common shares (no par).

The balance sheet at Oct. 31, 1941, without adjustments to give effect to the proposed refinancing and plant additions, shows net current assets of \$4,867,688.

Net income of the company amounted to \$771,906 for the first 10 months of 1941. Over the three preceding calendar years, net income rose steadily, amounting to \$676,397 in 1938, \$824,487 in 1939 and \$899,228 in 1940. Annual dividends on the new preferred stock will require \$177,219.

Company has recently received from the War Department a contract for the manufacture of fuses, a substantial portion of the parts for which are expected to be made by subcontractors. The total contract price of the fuses is approximately \$5,700,000 excluding the cost of Government owned facilities to be used in the manufacture of the fuses.

Company, with its factory and principal office at Lancaster, Pa.,

the fuses.

Company, with its factory and principal office at Lancaster, Pa., makes and sells various models of high grade pocket and wrist watches, with 17 to 23 jewels. In recent years the company has gradually standardized its manufacturing processes so that now the respective parts of each of its models are interchangeable. Company was incorporated in 1892.—V. 154, p. 1492.

Hampton Water-Works Co.-To Reduce Int. Rate-The company, a subsidiary of Northeastern Water & Electric Corp., has been given permission by the SEC to reduce the interest rate on its first mortgage bonds due Jan. 1, 1964, from 4½% to 3½% a year. Adjustments also will be made in the redemption provisions.—V. 154, p. 1378.

#### Indemnity Insurance Co. of North America-Reduces Its World-wide Theft Rates-

Its World-Wide Theft Rates—

Effective Jan. 1, the company announced rate reductions in its World-Wide Theft policies. Only Indemnity issues this type of policy, which it originated and which is written in every State except New York, according to the announcement by the company.

The surcharge of 50%, which formerly applied to the full amount of insurance carried, is now charged only on the first \$1,000 of coverage. All policies in excess of \$1,000 will be written at the Residence Theft policy rates. For specific insurance, the charge is now twice the Residence Theft Policy rate, instead of the previous rate of three times.—V. 155, p. 89.

### International Shoe Co. (& Subs.)—Annual Report

See Missouri Pacific RR. below.—V. 155. p. 52.

International Shoe Co. (& Subs.)—Annual Report
Frank C. Rand, Chairman, and Byron A. Gray, President, state:
Results.—Net sales to customers for the fiscal year ended Nov. 30, 1941, were \$116,530,243 compared with \$89,257,329 last year.
Company's own supply plants (tanneries, cotton mill, rubber plant, &c.) produced during the year for its own use shoe materials and supplies to the value of \$59,011,631 which, combined with sales, made an aggregate of \$175,541,874 business transacted.
Our factories produced 56,609,462 pairs of shoes against 45,426,619 last year (canvas rubber-soled shoes excluded).
The company's current assets of \$69,015,831 are nine times its current liabilities of \$7,417,380, which include a reserve for income and excess profits taxes of \$2,785,000.
Production and Shipments—Early in the year the demand for certain types of shoes began to exceed our usual eight-hour day productive capacity, and by mid-year the increased demand had become so general that almost all of our manufacturing plants operated in excess of 40, hours per week for several months in an effort to fill our customers' orders as promptly and completely as possible.
The number of pairs of shoes produced was the greatest in the company's history, exceeding the year 1929 by a substantial amount, even though the present basic operating week is 40 hours in contrast to the 54-hour week in 1929.

Despite production limitations, net sales, in number of pairs of shoes exceeded any previous year, while in dollars they were greater than in any year since 1929.

An even flow of shoes for the U. S. Government has become part of our regular daily output. While our production of shoes for the Government is larger than that of any other company, Government business represents a relatively small part of our total volume—approximating only 7% of net sales in dollars for the year. The floresses in net sales of civilian shoes over last year accounted for \$23,400,000 of the total increase of \$27,272,9

for income and excess profit taxes was determined under the Federal Revenue Act of 1940 as amended. Under present law the company can earn approximately \$1.73 per share without being subject to excess profits tax in the fiscal year which will end Nov. 30, 1942. This is determined under the average earnings option. Company's invested capital as defined by the Revenue Act for excess profits tax purposes cannot be finally determined at this time, but our best information indicates it will approximate \$83,000,000.

The net earnings for the year as shown in the income account, except for minor adjustments, are the same as the amount of taxable income as determined under the Federal Revenue Act.

#### International Utilities Corp.—Obtains New Time Limit on Bond Purchases-

The SEC approved Jan. 2 the application of corporation to extend the period of time in which to acquire in the Over-the-Counter market \$1.442,500 of 61/2% bonds of its subsidiary, Dominion Gas & Electric Care

ket \$1,442,500 of 6½% Donus of its subsidiary, Donus of the Selectric Co.

The SEC had previously granted and extended the period in which International was to acquire its subsidiary's bonds. As of Dec. 15, 1941, the corporation had purchased \$503,000 principal amount of the Dominion company's bonds. Subsequently it applied for permission to continue these purchases.

Under the Commission's supplemental order International Utilities can continue these purchases to Dec. 31, 1942.—V. 154, p. 959.

Iowa-Illinois Gas & Electric Co.—New Operating Company—See United Light & Power Co.

#### Iowa Public Service Co.—Acquisition-

The SEC recently issued an order granting the application of the company regarding the acquisition of substantially all of the assets of LeMars Gas Co. and Independence Gas Co., subsidiaries of Great Lakes Utilities Co., including the gas plant and gas distribution system located at Independence, Iowa, and the natural gas distribution system located at LeMars, Iowa, for \$125,000 cash and the assumption of all of the liabilities of the vendor companies (except liabilities owing to affiliates of the vendors).

#### Sells Nebraska Public Service Stock-

The SEC on Dec. 30 issued an order permitting to become effective declaration regarding the sale by Iowa Public Service Co. to Nebraska Public Service Co. of 7,700 shares of the latter's \$50 par value common stock, which Nebraska Public Service Co. will retire, for \$325,000 cash.—V. 154, p. 1264.

# Kentucky Utilities Co.-SEC Approves Sale of Bonds

Kentucky Utilities Co.—SEC Approves Sale of Bonds along with other Transactions—

The SEC on Dec. 22 issued an order permitting to become effective applications and declarations filed by Kentucky Utilities Co., Kentucky Power & Light Co., The Middle West Corp. and United Public Service Corp. concerning the following:

Kentucky Utilities Co., a public utility subsidiary of The Middle West Corp., a registered holding company, proposes to purchase from United Public Service Corp., a registered holding company subsidiary of The Middle West Corp., a promissory note of Kentucky Power & Light Co., a public utility subsidiary of United Public Service Corp., said note being payable to United Public Service Corp. in the principal amount of \$1,200,000 due April 1, 1942. Kentucky Utilities Co. also proposes to purchase from United Public Service Corp. 16,000 shares of common stock (par \$50) of Kentucky Power & Light Co. held by United Public Service Corp. Kentucky Utilities Co. proposes

to pay for such acquisitions the sum of \$1,100,000, plus accrued interest on said note to the date of delivery and payment.

Upon consummation of such acquisitions Kentucky Utilities Co. will hold all of the outstanding securities of Kentucky Power & Light Co. except its first mortgage 5½% gold bonds, series A and series B, outstanding in the principal amount of \$1,207,400, and Kentucky Utilities Co. proposes to acquire all of the property and assets of Kentucky Power & Light Co. subject to the liabilities of such company, including said outstanding bonds, in exchange for the securities of Kentucky Power & Light Co. to be held by Kentucky Utilities Co. Kentucky Utilities Co. proposes to sell to The Middle West Corp. 31,429 shares of its common stock (no par) at their stated value of \$35 per share, or \$1,100,015 in the aggregate, the proceeds thereof to be used by Kentucky Utilities Co. in consummating the acquisition of the securities of Kentucky Power & Light Co. from United Public Service Corp.

Kentucky Utilities Co. proposes to sell to Equitable Life Assurance Society of the U. S. \$1,000,000 first mortgage bonds, series of 1970, 4% due Jan. 1, 1970, at 106½ and net, the proceeds of such sale to be used together with general funds of Kentucky Utilities Co. to the extent necessary to effect the retirement of the outstanding bonds of Kentucky Power & Light Co. by the payment at their maturity on April 1, 1942, of such bonds of series A outstanding in the principal amount of \$755,500 and the redemption on March 1, 1942, at 101% of such bonds of series B outstanding in the principal amount of \$755,500 and the redemption on March 1, 1942, at 101% of such bonds of series B outstanding in the principal amount of \$755,500 and the redemption on March 1, 1942, at 101% of such bonds of series B outstanding in the principal amount of \$755,500 and the redemption on March 1, 1942, at 101% of such bonds of series B outstanding in the principal amount of \$755,500 and the redemption on March 1, 1942, at 101% of such bonds of

Kentucky Power & Light Co.—Properties to be Purchased by Kentucky Utilities Co.—See latter company.—V. 154, p. 1493

## (S. S.) Kresge Co.—December Sales-

## Kroger Grocery & Baking Co.-Sales-

Period End, Dec. 27—1941—4 Wks.—1940

Sales \_\_\_\_\_\_\$7,283,282 \$21,417,534 \$302,582,086 \$258,115,025

The average number of stores in operation during the four weeks ended Dec. 27, 1941, was 3,488, as compared with an average of 3,734 stores in operation in the same period in 1940.—V. 154, p. 1493.

#### Laclede Gas Light Co.-Hearing Postponed-

The Missouri P. S. Commission has postponed until Feb. 17 the aring scheduled for Jan. 6 on the recapitalization plan proposed for the company.—V. 154, p. 1192.

# Lehigh Portland Cement Co.-Quarterly Dividend of

The directors have declared a quarterly dividend of 37½ cents per share on the common stock, payable Feb. 2 to holders of record Jan. 14. On Nov. 1, 1941, a distribution of 87½ cents per share was made on this issue, as against 37½ cents in preceding quarters.—V. 154, p. 1265.

#### Lerner Stores Corp.—December Sales—

Period End. Dec. 31— 1941—Month—1940 1941—11 Mos.—1940 88,259,223 \$6,741,612 \$46,963,529 \$40,061,254

#### Lexington Water Power Co.—Debentures Called-

A total of \$125,000 of 5½% convertible sinking fund gold debentures, due Jan. 1, 1953, have been called for redemption as of Feb. 20 at 103 and interest. Payment will be made at the Guaranty Trust Co., trustee, 140 Broadway, N. Y. City.

The right to convert the debentures called into \$6 cumulative preferred stock shall cease as of the close of business Feb. 5, 1942.—V. 154, p. 797.

#### Lionel Corp.—To Pay Extra Dividend-

The directors have declared an extra dividend of 35 cents per share and the regular quarterly dividend of 15 cents per share on the common stock, par \$10, both payable Feb. 28 to holders of record Feb. 11. An extra distribution of 35 cents per share was also made on Feb. 28 and Nov. 29, 1941.—V. 154, p. 1265.

## Lit Brothers, Philadelphia—Accumulated Dividend-

The directors have declared a dividend of \$2 per share on account of accumulations on the 6% cumulative preferred stock, par \$100, payable Jan. 16 to holders of record Jan. 6. This compares with \$3 per share paid on Oct. 8, last, \$2.50 per share on April 14, 1941, and \$2 each on April 12 and Oct. 1, 1940.—V. 154, p. 544.

#### Lehman Corp.—Asset Value at \$26.74-

Net asset value of approximately \$26.74 per share on the 1,988,277 shares of stock outstanding in the hands of the public is disclosed by the report of the corporation for the half-year ended Dec. 31, 1941. As of June 30, 1941, net asset value was \$28.77. Robert Lehman, President, in his letter to stockholders also reveals that the corporation resumed the purchase of its own shares in the open market during the past quarter, having re-acquired 15,100 shares at an average price of approximately \$19.72 per share.

Chief changes in the corporation's position during the past quarter, aside from a number of portfolio shifts, were increases in cash and receivables of \$684,807, and in U. S. Treasury bonds of \$682,000 face value.

Chief changes in the corporation's position during the past quarter, aside from a number of portfolio shifts, were increases in cash and receivables of \$684,807, and in U. S. Treasury bonds of \$682,000 face value.

Of the corporation's gross assets, 71.6% were invested in common stocks as of Dec. 31, 1941, as against 74% three months previous, Cash, receivables, and Government obligations accounted for 15.2%, other bonds for 7.1%, and preferred stocks for 5.8%. Assets as to which market quotations were available, together with cash and receivables, amounted to 98.7% of gross assets.

Although the portfolio on Dec. 31, 1941, shows only minor changes in the proportionate amounts invested in the major categories of assets from the position on Sept. 30, 1941, a number of new items, eliminations, increases and decreases appear among the corporation's holdings. Among the more important changes in the common stock holdings were decreases in the railroad and equipment groups. Sold were 1,400 shares Chesapeake Corp., 4,800 shares Chesapeake & Ohio. 8,100 shares Pennsylvania, 3,700 shares Union Pacific, 3,900 shares American Steel Foundries, 7,476 shares Pullman and 2,800 shares Superheater, while 3,600 shares Atchison, Topeka & Santa Fe were added.

Chief new items in the common stock list included 5,000 shares McKesson & Robbins and 5,000 shares American Tobacco B. Added to previous holdings were 2,100 shares International Harvester, 2,000 shares Chrysler, 1,300 shares Electric Auto-Lite, 2,900 shares Goodyear, 5,000 shares Marine Midland, 1,800 shares Congoleum-Nairn, 5,600 shares Superheader, 1,100 shares Superheader, 1,200 shares Superheader, 1,100 shares Texas. Other additions were Packing, In the oll group, additions were 4,000 shares Snyder Packing, In the oll group, additions were 4,000 shares Snyder Packing, In the oll group, additions were 4,000 shares Supons. In the foods and beverage group there were added 1,900 shares Sonitiental, 9,000 shares Paramount Pictures, 1,200 shares Warner Brothers, 8,200 shares A

# Lockheed Aircraft Corp.-Final Steps In Lockheed-

Vega Merger—

Transfer of all properties, assets and business of the Vega Airplane Co. to a wholly-owned Lockheed subsidiary, Vega Aircraft Corp., and a request to the War Department to recognize assumption of its contracts by the new company marked the final steps in the merger of Vega Airplane Co. and Lockheed Aircraft Corp.

As one step in the merger 460,000 shares of stock were issued for Vega Aircraft Corp. and were acquired entirely by Lockheed. The latter will now exchange a total of 75,960 shares for minority outstanding shares. Upon exchange the new holders of these Lockheed shares will receive 66% cents on each share of Vega which they turn in, thus participating in a sum equal to the \$2 dividend declared recently by Lockheed.

In spite of the merger Vega's identity will be maintained, according to Courtlandt S. Gross, President, who announced that officers and directors of the old company will continue in their respective positions in the new Vega corporation.

Vega Aircraft Corp. will carry on Government contracts of Vega Airplane Co. which has been in production on Ventura bombers for the British and which is tooling up for manufacture of flying fortresses for United States Army air force in its new Burbank plant.—V. 154, pp. 1493.

# Loew's, Inc.—Holders of Debentures Called for Redemption May Receive Payment Immediately—

In conjunction with the formal announcement that \$375,000 of its 3½% sinking fund debentures, due 1946, have been selected for redemption on Feb. 15, 1942, at par and accrued interest, the corporation states that holders of the designated bonds may receive immediate payment by surrendering them at the office of Dillon, Read & Co., New York, N. Y., at any time prior to the redemption date. See also V. 154, p. 1700.

### Louisville & Nashville RR .- Orders Freight Cars .-

This road, it is announced, has ordered 1,350 freight cars from the American Car & Foundry Co. and 1,475 freight cars from Pullman, Inc.—V. 155, p. 53.

### Lowell Bleachery, Inc.-75-Cent Dividend-

The directors have declared a dividend of 75 cents per share on the common stock, payable Jan. 12 to holders of record Jan. 6.
During 1941, distributions were made on this stock as follows:
Jan. 11 and April 14, 75 cents each; June 25, \$1; and Sept. 26, \$2.—
V. 154, p. 1700.

#### Lukens Steel Co .- To Vote on Bonus Plan-

Lukens Steel Co.—To Vote on Bonus Plan—
At the annual meeting to be held Jan. 13, the stockholders will vote on a proposal, approved by the board of directors, which calls for division of 7½% of the consolidated net profits of the company and its subsidiaries before certain taxes, charge-offs, allocations to reserves and special funds. The payment, if approved, would be madepartly in cash to employees who may be either or both officers and directors and partly to a trustee under deed of trust dated Dec. 9, 1941, which provides for creation and operation of a plan for contingent additional compensation for certain executives and supervisory em-

Stockholders will also be asked to authorize execution and of this deed of trust.

delivery of this deed of trust.
Under the proposed, new plan for division of consolidated net profits, a total of \$306,601 is distributable for the fiscal year ended Oct. 11, 1941, and of that amount \$121,662 is distributable to the trustee, the sum of \$184,940 having already been distributed to designated employees under the plan adopted by the board in 1940.—V. 155, p. 53.

### Mackay Radio & Telegraph Co .- New Circuit-

Mackay Radio & Telegraph Co.—New Circuit—
The company has been authorized by the Federal Communications Commission to open a radiotelegraph circuit between Honolulu, and Chungking, capital of the Chinese Nationalist Government. The new circuit will enable the company to transmit messages to Chiang Kai Shek's territory direct from Hawaii and by relay from New York and San Francisco via Honolulu to Chungking, regardless of conditions in the Philippines, according to Admiral Luke McNamee, President of the company. Heretofore, the company has transmitted messages to Chengtu in Nationalist China via Manila.—V. 154, p. 1631.

#### Market Street Railway-Interest-

Quarterly interest at the rate of 5% per annum was paid on Jan. on first mortgage 7% sinking fund gold bonds, series, A. due 1940 on presentation of bonds for stamping, Interest is payable at offic of Wells Fargo Bank & Usion Trust Co., San Francisco, Calif.-V. 154, p. 1149.

### Massachusetts Power & Light Associates.-Dividend-

The directors have declared a dividend of 40 cents per share on the \$2 cumulative preferred stock, no par value, payable Jan 15 to holders of record Jan. 8. A like amount was paid on this issue on July 15 and Oct. 15, last, as compared with 50 cents per share in preceding quarters.—V. 154, p. 658.

Melville Shoe Corp.—Regular Quarterly Dividend—
The directors on Jan. 5 declared the regular quarterly dividends of 50 cents per share on the common stock and of \$1,25 on the preferred stock, both payable Feb. 2 to holders of record Jan. 16. An extra of 25 cents per share was distributed on the common stock on Dec. 22, last,—V. 154, p. 1494.

#### Mengel Co.—Purchases Kitchen Cabinet Plant

Alvin A. Voit, President, has announced expansion into the kitch cabinet market by the purchase of the business of the Kemper Furn ture Co., Inc., Union City, Ind. Paul W. Kemper, former President Kemper Corporation, will continue as Manager and will retain h present staff, Mr. Voit said.—V. 154, p. 1597.

#### New York Fire Protection Co.-Bond Called-

A first mortgage 4% gold bond, due Sept. 1, 1954, No. 14, has been called for redemption Jan. 22 at par and interest. Psyment will be made at the Chase National Bank of the City of New York, successor trustee, 11 Broad St., N. Y. City.—V. 154, p. 1701.

#### New York Lake Erie & Western Docks & Improvement Co.-Interest-

The interest due Jan. 1, 1942, on the first mortgage bonds, extended at 5% to 1943, was paid on that date. Interest is payable at office of Eric RR., New York City.—V. 153, p. 106.

### New York & Long Branch RR .- To Issue Bonds-

Company on Jan. 2 asked authority of the Interstate Commerce Commission to issue \$2,932,000 of Series B consolidated 4% bonds naturing on Sept. 1, 1981.

The company's general mortgage bonds to the amount of \$2,500,000 matured on Sept. 1, last. As the road was without funds to meet them the Pennsylvania RR. and the Central RR. of N. J. advanced the amount. New bonds for that amount would be issued to them as compensation, and the additional \$432,000 of bonds would be used to reimburse them for other moneys advanced.—V. 153, p. 995.

New York Merchandise Co., Inc.—15-Cent Dividend— The directors have declared a dividend of 15 cents per share on the common stock, payable Feb. 2 to holders of record Jan. 20.

Distributions were made during 1941 as follows: Feb. 1, May 1 and Aug. 1, 15 cents each; Nov. 1, 25 cents; and Dec. 15, 15 cents.—V. 154, p. 1381.

New York, New Haven & Hartford RR.-Equip. Issue The company has called for bids Jan. 13 on \$2,940,000 trustees; certificates, due in one to 10 years. The road will have a 20% equity in the equipment to be covered by the new certificates.—V. 154, p. 1729.

#### New York Telephone Co.-Gain In Phones-

Company gained 12,990 stations in December, 1941, compared with 12,137 in December, 1940.

For the first 12 months of 1941, New York Telephone's cumulative increase was 107,034 instruments, against 92,205 in the preceding year.—V. 154, p. 1701.

North Boston Lighting Properties-50-Cent Dividend The directors have declared a dividend of 50 cents per shale but the common stock, payable Jan. 15 to holders of record Jan. 8. A similar distribution was made on this issue on July 15 and Oct. 15, last, as compared with 75 cents in preceding quarters.—V. 154, p. 660.

#### Northern Indiana Public Service Co. - SEC Issues Supplemental Findings and Opinion-

Supplemental Findings and Opinion—

The SEC on Jan. 5 issued supplemental findings and opinion on certain transactions before it.

The Commission by its order of Nov. 25, 1941, approved the sale by Gary Electric and Gas. Co. of its principal asset, the common stock of Gary Heat, Light & Water Co., to Northern Indiana Public Service Co. for a consideration amounting to \$10,066,000. However, the Commission reserved jurisdiction with respect to certain preliminary steps in the dissolution of Gary Electric and also the right of Clarence A. Southerland and Jay Samuel Hartt, trustees of the estate of Middland Utilities Co., to acquire common stock of Northern as a liquidating dividend on the dissolution of Gary Electric. The preliminary steps referred to relate to a proposal by Gary Electric to reduce its capital from \$5,000,000 to \$2,000,000 in order to create a surplus from which it proposes to offer to purchase its common stock held by the public at \$6.50 a share as a preliminary to its dissolution.

The Commission in reserving jurisdiction stated that it was unable to pass upon these matters since a definitive plan for the dissolution of Gary Electric had not as yet been filed with the Commission. By subsequent amendment the parties have submitted a plan of dissolution for Gary Electric.

Plan of Dissolution—Northern will pay Gary Electric for the Gary Heat common stock a consideration which the parties state to be \$10,066,000. This consideration is payable by Northern to Gary Electric.

\$10,066,000. This consideration is payable by Northern to Gary Electric as follows:

(A) \$7,042,000 in cash; (B) \$2,268,000 in common stock of Northern (278,025 shares at a stated value of \$8,1575 per share); (C) The balance (8756,000) at option of Gary Electric either in cash or in additional shares of Northern (maximum of 92,675 shares at a stated value of \$8,1575 per share).

Gary Electric proposes to use the \$7,042,000 which it receives in cash together with its own cash to retire outstanding bonded indebtedness of \$7,042,000.

Upon the retirement of Gary Electric's funded debt its capital structure will consist only of the 480,000 shares (no par) common stock having a stated value of \$5,000,000. 25% of this stock is owned by the public. Gary Electric proposes to reduce its capital from \$5,000,000 to \$2,000,000 in order to create a surplus out of which to reacquire its publicly held common stock at \$6,50 a share. The proposed manner of reacquisition is as follows:

Gary Electric will mail to its stockholders and warrant holders of recrd:

Cary Electric Will mail to its stockholders and warrant holders of recrd:

(1) A proposal inviting tenders of stock and warrants dated as of the date it is mailed stating that the tenders must be accepted on or before 20 days after the date of the tender and that payment for shares tendered will be made within 30 days after the expiration of the said 20 days;

(8) A letter of tender and transmittal for use of stockholders who may make the tenders; and

(3) A letter to each stockholder setting forth information with respect to Northern and its subsidiaries and Gary Electric and its subsidiary.

Within the 30 days allowed for the payment of the tenders Gary Electric will ascertain the amount of its stock to be acquired from the public and will notify Northern to what extent it will exercise its option to receive the belance of \$756,000 of the purchase price of Cary Heat common stock in each or in Northern common stock at \$8.1375.

Gary Heat common stock in cash of in Northern
\$8.1575.

After the sale to Northern of the Gary Heat stock the assets of Gary
Electric will consist of Northern common stock or Northern common
stock and cash and a claim in the amount of \$380.688 against the
estate of Utilities. This claim was allowed by the special master on
Dec. 17, 1935, but has not yet been approved by the court.

-It is proposed to dissolve Gary Electric and pays a partial liquidating
dividend which will consist of common stock of Northern plus any
available net assets. A final liquidating dividend will be paid to the
extent that Gary Electric realizes on its claims against the estate of
Utilities.

Utilities.

Procedure On The Plan—Gary Electric will determine how it will exercise the option referred to above and a closing date w'll be arranged. Concurrently: (1) Northern will deliver to Gary Electric the purchase price for the Gary Heat common stock and will receive the stock; (2) Gary Electric will deposit with the trustee under its indenture a sum sufficient to redeem and pay all of its 6ittstanding bonds, aggregating \$7.042,000 principal amount; (3) The certificate of dissolution of Gary Electric will be filed with the proper State authorities, and (4) the partial liquidating dividend referred to above will be declared.

declared.

Gary Electr's will not be finally liquidated until it realizes on its claim against the estate of Midland Utilities Co. It is not possible to estimate at this time when a recovery will be made or the extent of any such recovery.—V. 154, p. 1729.

# Northern States Power Co. (Del.) - Weekly Output-Electric output of the Northern States Power Co. system for the week ended Jan. 3, 1942, totaled 35,780,000 kwh. for the corresponding week last year, an increase of 9.9%.—V. 155, p. 90.

#### Pennsylvania RR.—Equipment Trust Certificates—

Pennsylvania RR.—Equipment Trust Certificates—
The ICC on Dec. 30 authorized the company to assume obligation and liability in respect of not exceeding \$18,465,000 equipment-trust certificates, series M, to be issued by the Fidelity-Philadelph.a Trust Co., as trustee, and sold at 100.18% of par and accrued dividends in connection with the procurement of certain equipment.

The report of the Commission says in part:
The applicant invited 86 banking firms, insurance companies, and savings funds to bid for the purchase of the certificates. In response thereto bids were received from three groups representing 39 firms. The highest bid, of 100.18 and accrued dividends, at the rate of 2%% per annum, was made by Salomon Brothers & Hutzler, of New York, and associates, and has been accepted. On this basis, the average annual cost of the proceeds to the applicant will be approximately 2.35%—V. 155, p. 55.

#### Pennsylvania Salt Mfg. Co.-New Vice-President-George B. Beitzel has been elected Vice-President in charge of sales. He was formerly Manager of Sales.—V. 154, p. 1495.

The money which is in the hands of the Central Hanover Ban. Trust Co. of New York, trustee of the refunding mortgage, came a liquidation of Reading Coal & Iron Co., a subsidiary of the company. Application for the distribution of the fund was n several weeks ago by the New York committee of refunding holder V. 154, p. 1730.

Philco Corp.—Stock Offered—Smith, Barney & Co. amounce the oversubscription of a block of 11,030 shares of common stock (par \$3), offered after the close of Stock Exchange trading Jan. 5. The shares were offered at a fixed price of 10% per share. Dealer discount was 50 cents a share.—V. 154, p. 1632.

#### Pittsburgh & Lake Erie RR .- Carloadings-See New York Central RR. above.-V. 155, p. 91.

#### Pittsburgh Steel Co.-New Chairman, Etc.-

Henry A. Roemer has been elected Chairman of the board of directors and will continue as Chief Executive Officer of the company. Joseph H. Carter, Operating Vice-President, succeeds Mr. Roemer as President, and Albion Bindley, Vice-President, has been named Executive Vice-President.—V. 154, p. 1383.

#### Portland Gas & Coke Co .- Preferred Dividends-

The directors have declared a dividend of 88 cents per share on the 7% preferred stock and 75 cents per share on the 6% preferred stock, both payable Feb. 2 to holders of record Jan. 20. Distributions of 87 cents on the 7% preferred and 75 cents on the 6% preferred stocks were made on March 15, last year; none since. Dividends are in arrears.—V. 155, p. 91.

### Public Ledger Inc.—Suspends Publication-

Tublic Ledger Inc.—Suspends Publication—
The "Evening Public Ledger," founded on Sept. 14, 1914, by the late Cyrus H. K. Curtis, was ordered Jan. 5 by the Federal District Court to suspend publication because no satisfactory plan of financial reorganization had been presented by its trustees.

The suspension came about an hour after completion of the run of the final edition. As a result of suspension, about 1,300 men and women lost their jobs.

Judge J. Cullen Ganey, with Judges Harry E. Kalodner and Guy K. Bard concurring, made the announcement that a petition asking acceptance of a last-minute plan for employee operation had been denied.

acceptance of a last-minute pain for employee operation had been denied.

Stating that nothing further could be done to save the paper, Judge Ganey said that the Court had no choice but to adjudge the estate bankrupt and to liquidate its assets.

An order was signed, however, authorizing the trustees to continue operation of the Ledger Syndicate for not more than 30 days, while a buyer was sought. The syndicate publishes 22 features.

The three trustees, who have been managing the affairs of the paper since a petition for leave to reorganize was filed in the court on Nov. 7, last, are David Drillnart, a Bethlehem publisher; J. Harris Warthman, a Philadelphia business man, and Robert Creswell, publisher of "The Evening Ledger."—V. 154, p. 1730.

# Public Service Corp. of New Jersey—Construction Program for 1942—An official statement says—

Program for 1942—An official statement says—
A construction budget for 1942 amounting approximately to \$15,000,000 has been authorized by the corporation for new equipment, extensions and replacements for its subsidiary operating companies. In addition to this sum \$5,244,400 was appropriated for the corporation's electric department in July of last year, in advance of the 1942 budget, and supplementing the 1941 budget of \$28,000,000 will be spent by the electric department to provide sufficient electrical energy to meet all requirements, especially those in connection with the national defense program. Since January, 1937, upwards of \$90,000,000 have been allocated to the electrical branch of the business. Under construction now are a 125,000 kilowatt unit at Burlington Generating Station, to be ready early in 1943 and a 50,000 kilowatt unit at Marion Generating Station, to be completed, it is expected, by autumn of this year.

When these units are placed in service, the total generating capacity of the company's system will be 1,133,650 kilowatts.

Aside from these generating projects, two important construction items included in this year's electric program are Bayway switching station, Elizabeth District, and reinforcement of supply of electricity to the Camden area, these two undertakings to cost approximately \$3,000,000.

The new Bayway switching station is hecessary largely because of

0,000. e new Bayway switching station is hecessary largely because of ual industrial development in this territory for national defense

unusual industrial development in this territory for national defense purposes.

To increase facilities in the Camden area, an additional high voltage transmission line will be built on the company's right-of-way from Burlington Generating Station to Camden Switching Station. This project also provides for additional low voltage transmission lines and the rebuilding of Chester Substation.

Also included in the 1942 electric program are a new substation in North Brunswick Township; additional substation transformer capacity and increased transmission facilities in various sections of the territory.

No major construction is included in the exceptions.

capacity and increased transmission facilities in various sections of the territory.

No major construction is included in the corporation's gas department's budget of more than \$3,000,000. At the West End Gas Works in Jersey City where a program of modernization, begun in 1940, is proceeding, a new boiler house and boilers will be erected. When the job of remodeling this plant is completed, West End will be on a par in efficiency with Harrison Gas Works, which ranks high among the gas works of the country. Ultimately the daily capacity of West End will be more than 30,000,000 cubic feet of gas.

A 24-inch pumping main will be laid from West End Works to the New Durham Holder Station to increase the supply of gas to Bergen County which is growing rapidly. At Harrison Gas Works, an employees general utility bulding will be built this year.

Public Service Coordinated Transport and Public Service Interstate Transportation Company will buy 210 buses this year to be placed on various lines in the territory of the two companies. Last year these companies bought 269 buses, all but 12 of which have been delivered, and 242 were added to the equipment in 1940.—V. 154, p. 1599.

#### Puget Sound Pulp & Timber Co.-50c. Common Div.

A dividend of 50 cents per share on the common stock was declared on Jan. 2 by the directors, payable Jan. 28 to stockholders of record Jan. 14. This payment continues the quarterly rate which was in effect during 1941, a total of 52 per share having been disbursed (n four quarterly payments last year, viz., 50 cents each on Jan. 25, April 29, July 26 and Oct. 27.

In 1940 dividends were pa'd on the common stock as follows: April 1, 50 cents; June 1, 75 cents, and Sept. \$3, \$1.—V. 155, p. 55.

#### Rand's, Pittsburgh-Sales at Record High-

Rand's, Pittsburgh—Sales at Record High—
December sales of Rand's, retail drug chain, totaled \$257,646.51, a gain of 18.87% over \$216,679.50 in the 1ke month last year, the company reported. December, 1941, sales were the highest for any month in the company's history.

For the year 1941, volume amounted to \$2,172,903.23, a gain of 25.66% over \$1,737,432.71 for 1940. Sales for 1941 were at a new record level in Rand's history.

Rand's operates a chain of retail drug stores in Pennsylvania, Ohio, West Virginia and Maryland, with a majority of stores located in the Pittsburgh area.—V. 154, p. 1416.

## Raymond Concrete Pile Co.-Extra Dividend-

The directors have declared an extra dividend of 25 cents per share and the regular quarterly dividend of 25 cents per share on the common stock, both payable Jan. 31 to holders of record Jan. 20. Like amounts were paid on May 1, Aug. 1 and Nov. 1, 1941. A special distribution of 25 cents per share was also made on Dec. 22, last—V. 154, p. 1383.

Railroad Employees' Corp. - Debentures Offered -E. H. Rollins & Sons, Inc., Coffin & Burr, Inc., Bioren & Co. and Bond & Goodwin, Inc. on Jan. 7 offered \$750,000 5% convertible sinking fund debentures at 98 and int.

5% convertible sinking fund debentures at 98 and int. Dated Dec. 1941; due Dec. 1, 1956.

Corporation—Incorporated in Delaware Oct. 20, 1930. Corporation is not an operating company. Its wholly owned subsidiaries, Employees Personal Loan Co. (N. Y.), and Employees Personal Loan Co. (N. Y.), are engaged as licensed lenders in the small loan business in the states of New York and New Jersey, respectively, under the "small loan laws" of such states. The New York subsidiary operates seven loan offices of which five are located in New York City and one each in Buffalo and Syracuse. The New Jersey Subsidiary operates three loan offices which are located in Jersey City, Rutherford and Summit. All of such loan offices as well as the executive offices of the corporation are leased, and neither the corporation nor its subsidiaries own any physical property other than office furniture and fixtures.

laries own any physical property other than office furniture and fixtures.

Corporation, out of its own capital or borrowings, lends to and charges its subsidiaries for the moneys necessary to permit them to conduct their business. Corporation generally follows the practice of providing the premises used as loan offices by its subsidiaries as well as the necessary furniture and equipment. Corporation charges its subsidiaries monthly an amount estimated to be sufficient to cover the rent of such premises and to fully amortize the cost of the furniture and equipment at or prior to the expiration of their useful lives. Corporation also furnishes its subsidaries with general supervisory, auditing and promotional services, for which the corporation charges the New York subsidiary and the New Jersey subsidiary 6 mills and 5 mills, respectively, for each \$1 of outstanding loans due to its subsidaries at the end of each month.

Loans are made by the subsidiaries to individuals mon promissory notes signed by the borrowers. Loans are made with and without security and with and without comakers. The security, when taken, usually consists of a chattel mortgage on household goods or a lien on an automobile, the realizable value of which would generally be less than the amount of the loan if the mortgage or lien were foreclosed. The number of loans outstanding as of Oct. 31, 1941 were classified approximately as follows: loans secured by chattel mortgages on household goods 30.7%; loans secured by liens on automobiles 10.5%; loans with comakers 12.3%; unsecured loans 46.5%.

Purpose—Net proceeds (estimated \$671,500), are to be placed in its meral funds. It is the present intention of the corporation to use portion of such funds to reduce outstanding bank loans and commercial paper

Capitalization to be outstanding upon completion of present financing Outstanding \$750,000 69,717 shs. 134,125 shs. 1,000 shs. Authorized \$750,000 70,000 shs. \*250,000 shs. 1,000 shs. 5% conv. sinking fund deb. \$750,000 \$75

Annual interest requirements on the \$750,000 debentures to be outstanding will be \$37,500.

Sinking Fund—Indenture provides a sinking fund for the debentures, calculated to retire the entire issue by maturity. Payments to the sinking fund are to be made semi-annually June and Dec. 1 in each year, beginning June 1, 1942, at \$16,000 and increasing to \$35,000 June 1, 1956, such payments leaving \$36,000 principal amount of debentures to be paid at maturity. The sinking fund redemption price of the debentures will be the principal amount thereof plus accrued int. to the date fixed for redemption.

Any sinking fund payments may be made at the option of the corporation either in cash or in debentures at the principal amount thereof and may be anticipated from time to time in whole or in part either by delivering debentures to the trustee or by redeeming debentures at the redemption prices, and to the extent anticipated the corporation shall be entitled at its option to credit on account of such sinking fund payments. Corporation shall not be entitled to any credit in respect of any sinking fund payments by reason of any debentures having been surrendered for conversion into Class A common stock.

Conversion—The holder of any debenture may at any time prior

mon stock.

Conversion—The holder of any debenture may at any time prior to maturity or until the close of business on the 10th day before the date, if any, fixed for redemption, whichever may be earlier, convert such debenture into full paid and non-assessable shares of Class A common stock at the rate of one share for each 87 principal amount of such debentures so converted upon surrender at the principal office of the trustee of the debenture to be converted with all unmatured coupons attached. The conversion price is protected against dilution and is subject to adjustment.

The directors have declared a dividend of 13 cents per share on the common stock, payable Feb. 2 to holders of record Jan. 15. A similar distribution was made on Nov. 1, last, as compared with 18 cents on Aug. 1, last, 17 cents on May 1, last, and 18 cents on Feb. 1, 1941.—V. 154, p. 1058.

#### Royal Typewriter Co., Inc.—Record Sales-

Production and sales of this company reached a new high last year, according to E. C. Faustman, President.

Sales in South America have reached an all-time high with prospects for new records in 1942 as United States collaboration for the defense of South America is stepped up, it was stated. Sales to the Far East, with the exception of China and Japan, also have been brisk.—V. 155, p. 91.

Ryan Aeronautical Co.-New Vice-President-

Eddie Molloy, Works Manager, has been elected Vice-President in charge of engineering.—V. 152, p. 1766.

-Trustees Propose Shawmut Bank Investment Trust-Extension of 4½% Debentures—Conditions not Favorable for Refunding—Liquidation only Alternative—

able for Refunding—Liquidation only Alternative—
In a letter to holders of the trust's 4½% senior debentures, due March 1, 1942, the trustees propose a plan for extension of the maturity of the debentures to March 1, 1952, at the same rate of interest. There are \$1,323,000 of the 4½% senior debentures outstanding and in addition there are \$1,711,000 5% senior debentures due March 1, 1952.

"The close approach of the maturity of the 15-year 4½% senior debentures due March 1, 1942, at a time when security markets are depressed due to the war and unsettled conditions throughout the world must have caused concern to the holders of debentures," the trustees state. "While in normal times some constructive action might be taken, such action cannot be taken advantageously under present conditions.

"However, economic history indicates that paying a department."

"However, economic history indicates that periods of depression have been followed by periods of prosperity and rising prices for securities. With this in mind, your trustees believe that an opportunity should present itself in the future to take some action which would be more advantageous to the debenture holders than any action that could be taken under present unfavorable conditions."

Pointing out that interest has been paid in full when due on both series of senior debentures since organization of the fund in 1927, the trustees note that liquidating value for each \$1,000 senior debenture on Dec. 31, 1941, was \$813. At the close of previous fiscal years, at the end of February, liquidating value has ranged from a maximum of \$1,728 in 1930 to a minimum of \$723 in 1933. At the end of February, 1939, and of February, 1940, liquidating value was over \$1,000.

\$1,000.

The letter observes that unless the asset value of the trust on March 1, 1942, amounts to or exceeds the principal and interest of all of the senior debentures, none of the 4½% series maturing on that date can be paid without creating a preference. Unless assent is practically unanimous, the trustees note that the only feasible alternative appears to be to terminate the trust prior to March 1, 1942, liquidate the assets and distribute the proceeds pro-rata among the holders of both series of senior debentures in accordance with provisions of the declaration of trust.

Denosit of the 4½% debentures with a letter of transmittal to the

Deposit of the 4½% debentures, with a letter of transmittal to the National Shawmut Bank, constitutes consent to the plan. Transmittal forms, together with a copy of the plan, are being mailed with the letter to holders of the debentures and additional copies are available at the bank. The trustees urge that all holders of the 4½% series deposit their debentures promptly in acceptance of the plan. "In compliance with the requirements of the Investment Company Act of 1940 and the regulations thereunder," the trustees state, "this letter and the plan have been filed with the SEC and an application for qualification of the trust indenture to be executed when and if the plan becomes operative is on file with the SEC and has become effective, but the SEC has in na way passed on the merits of the plan."

Corporate Structures—

In the interest of simplifying corporate structures, and for the betterment of fuel services during the present emergencies, this company is revising its organization with regard to its subsidiary companies as of Jan. 1, 1942.

The company has been perfoming a distribution service on bituminous coals along the Eastern seaboard since 1880 and during that time has added the following subsidiary companies: Seaconnet Coal Co. at Providence, R. I., the Penobscot Coal & Wharf Co. at Searsport, Maine, and Sprague Terminal, Inc., at New York City. These subsidiaries are all being liquidated as of the effective date of the transfer and being made inherently a part of the parent company organization and the assets and obligations are all to be taken over by C. H. Sprague & Son Co. as of Jan. 1, 1942. The operations of the subsidiaries will be carried on by divisions of the parent company at these various locations without any change in personnel Horace B. Holland has been elected Vice-President of parent company in charge of sales in the New York division as of the same date as the transfer of corporate titles. J. V. N. Hitch has become Manager of the Seaconnet division at Providence, R. I., and Charles C. Havener has been made Manager of the Penobscot division at Searsport, Maine. ("Boston News Bureau.")

#### Standard Brands, Inc.—Executive Retires

A. C. Monagle, Vice-President, retired from active business on Jan. 2, 1942, it was announced by James S. Adams, President.—V. 154, p. 1633.

#### Third Avenue Ry.-Interest-

The interest due Jan. 1, 1942, on The Third Avenue RR. first mortgage 5% 50-year gold bonds, due 1937 (principal waived to 1943), will be paid upon presentation of bonds for stamping. Interest is payable at office of City Bank Farmers Trust Co., New York City.

—V. 154, p. 1306.

#### Trement & Gulf Railway-Construction, Etc.

The ICC Dec. 20 issued a certificate authorizing the company (1) to construct a line of railroad extending from a point on its existing line, about 13.5 miles south of Tremont, in an easterly direction to a connection with the southern end of the line of railroad of the Brown Paper Mill Co., approximately 9.5 miles, and (2) to operate, under lease, part of the latter, 15.6 miles, and under trackage rights over the remainder, 1.5 miles, all in Jackson and Ouachita Parishes, La.—V. 122, p. 2796.

#### 261 Fifth Avenue Corp.-Trustee And V. T. Agent-

Sterling National Bank & Trust Co. of New York has been appointed trustee for an issue of \$2,908,700 20-year income bonds, due Jan. 1, 1962, and also as agent of the voting trustees with respect to 29,087 thares of the corporation's capital (\$1 par) stock, and as exchange agent with respect to Fifth Ave. and 23th St. Corp. first mortgage fee 6% sinking fund gold loan certificates.

### United Gas Improvement Co.-Weekly Output-

The electric output for the UGI system companies for the week just closed and the figures for the same week last year are as follows: week ending Jan. 3, 1942, 112,636,976 kwh.; same week last year, 98,703,972 kwh., an increase of 13,533,004 kwh., or 14.1%.—V. 155, p. 92.

# United Aircraft Corp.—Listing of Additional Common

United Aircraft Corp.—Listing of Additional Common Stock and 5% Cumulative Preferred Stock—

The New York Stock Exchange has authorized the listing of 265,669 shares (par \$100) of 5% cumulative preferred stock on official notice, and 664,173 additional shares (par \$5) of common stock on official notice of issue upon conversion of shares of the 5% cumulative preferred stock, making the total number of shares of such common stock applied for 3,320,884.

The corporation now has outstanding 2,656,691 shares (par \$5) of capital stock. At a special meeting held Dec. 30, 1941, stockholders approved a proposed amendment of the certificate of incorporation. The effect of the proposed amendment was to redesignate the shares of the presently authorized capital stock as shares (par \$5) of common stock; increased the authorized number of such shares from 3,000,000 to 3,600,000 shares and created an authorized issue of 265,669 shares (par \$100) of new cumulative preferred Stock Offered to Stock-

(par \$100) of new cumulative preferred stock.

5% Cumulative Preferred Stock Offered to Stockholders

The 265,669 shares of 5% cumulative preferred stock (par \$100) is offered to the holders of common stock, for subscription at \$100 per share, pro rata, at the rate of one share of preferred stock for each 10 shares of common stock held of record at the close of business on Jan. 2, 1942, and on the same basis to holders of certificates for shares of common stock of United Aircraft & Transport Corp. who, by exchange of their certificates after such date and prior to the expiration of the subscription warrants, shall have become stockholders of the corporation. The rights to so subscribe shall be evidenced by subscribition warrants in two forms; one form to evidence rights to subscribe to one or more full shares of preferred stock, and the other form to evidence rights to subscribe to evidence rights to subscribe to one or more full shares of preferred stock will be issued, but fractional share subscription warrants may be combined to permit subscription for one or more full shares. The subscription warrants will be transferable and will expire at 3 o'clock p.m. (E.S.T.) on Jan. 13. Underwriters—The names of the underwriters and the percentages

of unsubscribed stock to be purchased by each of them respectively are as follows:

# United Illuminating Co. of New Haven-Stock Split-

The company on Jan. 5 announced that pursuant to a recent vote of its stockholders the outstanding capital stock of no par value will be doubled on Jan. 24 or as soon as reasonably possible thereafter. Each stockholder will receive one additional share for each share held on Jan. 10.—V. 154, p. 192.

# United Light & Power Co.—Integration Program Furthered by SEC—Consolidation of Nine Subsidiaries

Several major steps in the program for integrating United Light & Power Co. system and for liquidating the top holding company were approved by the SEC Jan. 5.

The Commission approved transactions involving the consolidation of nine of the 10 directly owned subsidiaries of United Light & Phwer Co. with two additional affiliated companies to constitute a single operating public utility company. The transactions include:

(1) The issuance by Iowa-Illinois Gas and Electric Co. (a new operating company) of 80,000 shares of its common stock to, and the acquisition thereof by, The United Light and Railways Co. for \$13,375,000 in cash.

(2) The acquisition by Iowa-Illinois Gas and Electric Co. from. and

(2) The acquisition by Iowa-Illinois Gas and Electric Co. from, and the transfer by, The United Light and Railways Co. of all the securities and indebtedness of United Power Manufacturing Co. owned by The United Light and Railways Co. at Dec. 31, 1941, and the issuance therefor by Iowa-Illinois Gas and Electric Co. of 53,250 shares of its common stock to, and the acquisition thereof by, The United Light and Railways Co.

Railways Co.

(3) The acquisition by Iowa-Illinois Gas and Electric Co. from, and the transfer by, The United Light and Power Co. of all the securities and indebtedness of Cedar Rapids Gas Co., Fort Dodge Gas and Electric Co., Iowa City Light and Power Co., Ottumwa Gas Co., Moline-Rock Island Manufacturing Co., Peoples Light Co., Peoples Power Co., Tri City Railway Co. (Ill.) and Tri-City Railway Co. (Iowa), owned by The United Light and Power Co. at Dec. 31, 1941, for \$13,375,000 in cash and the assumption of the first lien and consolidated mortgage bonds.

cash and the assumption of the first lien and consolidated mortgage bonds.

(4) The execution by Iowa-Illinois Gas & Electric Co. of a supplemental indenture dated Dec. 31, 1941, supplemental to the first lien and consolidated mortgage of The United Light and Power Co., to evidence, among other things, the assumption by Iowa-Illinois Gas and Electric Co. of such mortgage and the due and punctual payment of the principal of, and interest on, \$10.578,000 of 6% bonds, due 1952 (non-callable until 1947) and \$6,678,600 of 5½% bonds, due 1959, all issued under such mortgage and outstanding in the hands of the public; provided, however, that at Dec. 31, 1941, the United Light and Power Co. shall have deposited irrevocably in trust with the corporate trustee of such mortgage, (a) an amount of cash sufficient to effect the redemption on Feb. 10, 1942, of \$1,256,600 of such 5½% bonds, and (b) an amount of cash sufficient to pay all interest accrued to Jan. 1, 1942, on \$10,578,000 of the 6% bonds and \$5,422,000 of 5½% bonds; such supplemental indenture to specifically subject to the direct lien of the mortgage the physical properties (with certain minor exceptions) to be acquired by Iowa-Illinois Gas and Electric Co. (5) The acquisition by Iowa-Illinois Gas and Electric Co., for the acquisition by Iowa-Illinois Gas and Electric Co., Iowa City Light and Power Co., Ottumwa Gas Co., Moline-Rock Island Manufacturing Co., Peoples Light Co., Peoples Power Co., Tri City Railway Co. (III), and Tri-City Railway Co. (III), and Tri-City Railway Co. (III), and Tri-City Railway Co. (III) and Railways Co. (III) and Railways Co. (III) and Railways Co.

. (6) The transfer by The United Light and Power Co. as a contribution to the paid-in surplus of The United Light and Railways Co., and the acquisition by The United Light & Railways Co. of the following described securities:

#### Western Public Service Co. (Md.)-Bonds Called-

All of the outstanding first mortgage and refunding 5½% gold bonds, series A, due Feb. 1, 1960, have been called for redemption as of Feb. 2 at 104 and interest. Payment will be made at the Chase National Bank of the City of New York, co-trustees, or at the New England Trust Co., 135 Devonshire St., Boston, Mass.

Arrangements have been made whereby any holder of the abovementioned bonds may, upon surrender of the same together with appurtenant coupons appertaining thereto to either of the above two banks, immediately receive the full redemption price and accrued interest to the redemption date. Holders of the Feb. 1, 1942, coupons may likewise receive payment in full at any time upon surrender of said coupons.—V. 154, p. 1602.

#### Western Public Service Co. (Ind.)—To Liquidate See Engineers Public Service Co.-V. 154, p. 1602:

Westvaco Chlorine Products Corp.—Pref. Stock Called A total of 1,470 shs. of \$4.50 cum. pref. stock have been called for redemption as of Feb. 1 at 100 and int. Payment will be made at she office of Brown Bros. Harriman & Co., 59 Wall St., N. Y. City. The called stock is redeemable at any time before date of redemption, and on surrender of certificates the holders will receive \$101.12½ per share.—V. 155, p. 92.

Wheeling & Lake Erie-Equipment Trust Certificates

Wheeling & Lake Erie—Equipment Trust Certificates
The ICC on Dec. 30 authorized the company to assume obligation
and labilty in respect of not exceeding \$1,050,000 equipment-trust
cert feates, series I, to be issued by the Union Trust Co. of Pittsburgh,
as tristee, and sold at 99.30% and accrued dividends in connection
with the procurement of certain equipment.
The report of the Commission says in part:
The certificates were offered for sale through competitive bidding
and invitations for bids were sent to about 125 investment bankers,
the bidders being required to name the rate of dividends to be borne
by each maturity of the certificates in multiples of either one-eighth
or, five-hundredths of 1% per annum. In response thereto, nine bids,
representing 20 parties, were received. The best bid, 99.30% and
dividends based on the rates hereinbefore mentioned, was made by a
group comprised of Salomon Brothers & Hutzler, Dick & Merle-Smith
and Stroud & Co., Inc., and has been accepted. On these bases the
average annual cost of the proceeds to the applicant will be approximately 1.86%.—V. 155, p. 57.

# Willys-Overland Motors, Inc. (& Subs.) - Annual

Report—

A brief review of the year presented in the annual report follows: Sales—Consolidated net sales for year ended Sept. 30, 1941, were \$21,781,445, an increase of 49.4% over sales of \$14,577,437 for the previous year. Total sales to dealers and distributors of automobiles and parts alone amounted to \$18,382,876, an increase of 30,2% Sales of reconnaissance cars or "Jeeps." shells, breach housing and other weapons amounted to \$2,798,569.

A new automobile, the Willys Americar, was introduced to the American public in October, 1940, after 18 months of research and study. Sales gained momentum so rapidly that orders were received at a rate greater than company's materials were available for production, due to the sudden expansion of the Government's defense program. Sales continued to expand, both in the passenger car and truck divisions, and dealers in all sections of the country enjoyed substantial increases in business to the close of the model year. An analysis of sales records, shows that the market for the Willys Americar is the lower and average-income groups to whom economy is important.

Domestic sales of passenger cars and trucks for the 1941 model year, which coincides with the company's fiscal year, were 30,484 units, or an increase of 19.6% over the 1940 model year.

Exports showed some decline from the previous year. Export-sales for the 1941 year totaled 3,551 units, compared with exports of 4 236 units in 1940. This was due in part to the restrictions on American, made automobiles by Canada, except those assembled in Canadan factories. Shipments of our cars to Africa, Australia and South American countries registered gains, in spite of the generally curtailed condition of international trade.

War Materials—Orders for proonaissance cars, artillery shells, gun parts, gun carriages and other munitions or their components totaling \$44, 337,241. Of this amount \$40,923 in defense contracts totaling \$1,773,612 were completed However, additional contracts with governmental agencies for machine tools

Taxes—Depreciation—Taxes paid by company during the past year, exclusive of excise taxes, amounted to \$354,281, or an increase of 31% over taxes of \$270,549 paid in 1940. Taxes were equivalent to \$82.53 for each employee as of Sept. 30. 1941.

Charges against operating income for the year included \$982,888 depreciation and tool and die amortization.

uepreciation and tool and die amortization.

Employment—The number of persons employed by Willys-Overland has greatly increased during the past year. At the present time there are approximately 6,500 employees on the payrolls. The total wages paid to employees, exclusive of the salaries of officers and administrative officials, amounted to \$5,382,529 during the fiscal year. This was approximately 25% of our total sales.

#### (Alan) Wood Steel Co .- Purchase Two Mines-

The company has announced that it has purchased the Replogle and Oxford from ore mines in New Jersey from the Warren Foundry & Pipe Corp. Negotiations were completed on Dec. 31. An official of the company stated that the price paid for the two mines was about \$1,250,000. The Alan Wood-Steel Co. hed been operating these mines under lease from Warren since Nov. 1, 1929.—Vi\*155, p. 92.

#### Wright-Hargreaves Mines, Ltd.—Strike Continues-

Wright-Hargreaves Mines, Ltd.—Strike Continues—Philip H. Gerhard, Secretary, in a letter accompanying current dividend checks, advises stockholders that the company has been faced with serious labor difficulties, culminating Nov. 18 in a general strike, with a consequent reduction in operations of approximately 00% throughout the Kirkland Lake area. At the time of writing, he states, the strike continues without any immediate indication of settlement and, as a result, it is apparent that the future dividend policy of the company will be adversely affected thereby.

The letter points out that there has been no change in the rate or dividend policy of the company other than the fact that for the past-year dividends have been paid in Canadian instead of United States funds.—V. 154, p. 1154.

# Non-Ferrous Metals – Larger Tonnages Needed – Higher Lead Price Probable - Quicksilver Up

"Metal and Mineral Markets" in its issue of Jan. 8 reported that President Roosevelt's message to Congress on Tuesday (Jan. 6) on the state of the Union left no doubt among producers of non-ferrous metals that larger tonnages of copper, lead, and zinc will be needed during 1942 to meet the program. With the country at war, the situation differs radically from that which obtained a year ago. Output will be increased wherever possible. The market situation changed little during the last week. Importers are struggling with General Imports Order M-63. It appears that Metals Reserve is not ready to purchase all offerings of the 13 strategic minerals named in that order. Allocation of scrap copper and brass is indicated in OPM's revision of a previous priority regulation. Lead producers

ority regulation. Lead producers ority regulation. Lead producers were hopeful that a higher price will be granted as a result of a hearing in Washington. Quick-silver again advance. The publication further reported:

#### Copper

Allocations of copper for January came through during the last week and the industry was busy getting the metal to consumers. The total quantity available for January will be somewhat below the average of recent months; but this reduction is viewed as temporary. The wire industry obtained The wire industry obtained smaller tonnages, but brass mills were well supplied.

Extension of the deal to acquire

Latin-American copper at a higher price than that paid previously is nearing completion. The price nearing completion. The price named for export copper, in the meantime, continues at 11.250c., f.a.s., or 11.200c. f.o.b. refinery. The domestic market was un-changed at 12c., Valley. Sales of copper in the domestic trade dur-ing the week ended In 6 totaled ing the week ended Jan. 6 totaled

Domestic producers sold 35,200 bothesic producers sold 35,200 tons of copper during December, against 70,833 tons (revised) in November. Sales during 1941 totaled 1,036,745 tons, against 1,109,749 tons in 1940. The sales figures for 1941 do not include copper released by Metals Reserve Co.

#### Lead

The hearing on lead prices held in Washington on Jan. 5 brought no action as yet on whether or not a general advance would be forthcoming to stimulate production in this country. However, sentiment in the industry improved noticeably after the meeting and it was felt that the chances were good that a higher price level would be sanctioned eventually. Canadian lead at present is not available in quantity and consumers can no longer count on relief in shipments from Australia. Domestic producers, it is claimed, will have to carry more of the load of supplying domestic needs, which conin excess of 80,000 tons a

Much of the business in lead booked during the last week was placed on an average price basis, reflecting uncertainty about the

Consumption of zinc in the automobile industry will drop sharply under the program now in force, but this development is not expected to relieve pressure on the zinc industry. Use of zinc in brass will increase this year as new brass mills come into production. The market situation was unchanged. The Prime Western division sold 10,377 tons during the last week, against 9,205 tons in the week previous. Shipments of the common grades for the week involved 6,073 tons. The backlog increased moderately to 78,494

#### Tin

The aim of the authorities The aim of the authoriues in Washington is to curtail use of tin immediately to less than 60,000 tons a year. The order restricting use of tin cans has not yet been issued, but the feeling prevails that this will come soon and will cut deeply into consumption of tin in that direction. The position of the market has not changed in cut deeply into consumption of tin in that direction. The position of the market has not changed in the last week. Tin was released 22.281d. for 1940.

on defense business at the ceiling price of 52c. Arrivals of tin have held up well, but nothing is now moving this way from the Far East. The trade hopes that tin East. The trade hopes that tin will continue to come here from

Africa to relieve the situation.
Straits tin for future arrival was as follows:

Control of the Control	Jan.	Feb.	March	April
Jan. 1		Hol		
Jan. 2	52,000	52,000	52,000	52,000
Jan. 3	52,000	52.000	52.000	52.000

Chinese tin, 99%, spot, was nominally as follows: Jan. 1, Holiday; 2, 51.125c.; 3, 51.125c.; 5, 51.125c.; 6, 51.125c.; 7, 51.125c.

London Market—Jan. 1 to Jan.

7, inclusive, no quotations. Last quotation on Dec. 8, per long ton, was £259 for spot and £262 for three months.

#### Quicksilver

The price paid on parcels of 25 flasks or more for nearby shipment from the Pacific Coast during the last week was the equivalent of \$202.60, New York, or \$2 per flask higher than in the week previous. Offerings of January metal have almost dried up. Proprevious duction is expected to decline over the winter period, but this usual development may be offset by larger arrivals of the metal from Mexico, the trade here believes.

#### Silver

During the past week the silver market in London has been quiet, with the price unchanged at 23½d.

The New York Official remained at 35½c. and the U. S. Treasury price is still 35c.

Average prices for calendar week ended Jan. 3 are: Domestic

Average prices for calendar week ended Jan. 3 are: Domestic copper f.o.b. refinery, 11.775c.; export copper, f.o.b. refinery, 11.200c.; Straits tin, 52.000c.; New York lead, 5.850c.; St. Louis lead, 5.700c.; St. Louis zinc, 8.250c., and silver, 35.125c.

The above quotations are "M. & M. M.'s" appraisal of the major United States markets, based on sales reported by producers and agencies. They are reduced to the basis of cash, New York or St. Louis, as noted. All prices are in cents per pound. Copper, lead and zinc quotations are based on sales for both prompt and future deliveries; tin quotations are for prompt delivery only.

In the trade, domestic copper prices are quoted on a delivered basis; that is, delivered at consumers plants. As delivery charges vary with the destination, the figures shown above are net prices at refineries on the Atlantic seaboard. Delivered prices in New England average 0.225c. per pound above the refinery basis.

Export quotations for copper are reduced to net at refineries on the Atlantic seaboard. On foreign business, owing to the European War, most sellers are restricting offerings to f.a.s. transactions, dollar basis. Quotations for the present reflect this change in method of doing business. A total of 05c. is deducted from f.a.s. basis dighterage, etc.) to arrive at the f.o.b. refinery quotation.

# Daily Average Crude Gil Production For Week **Ended Jan 3, 1942, Off 42,850 Barrels**

The American Petroleum Institute estimates that the daily average crude oil production for the week ended Jan. 3, 1942 was 4,038,000 barrels. This was a decrease of 42,850 barrels from the output of the preceding week and the current week's figure was below the 4,139,000 barrels calculated by the U.S. Department of the Interior to be the total of restrictions imposed by the various calculated by the various production. price situation. Sales for the week oil-producing States during December. Daily average production amounted to 6,732 tons. Domestic for the four weeks ended Jan. 3, 1942 is estimated at 4,135,650 quotations continued at 5.85c., barrels. The daily average output for the week ended Jan. 4, New York, which was also the 1941 totaled 3,367,200 barrels. Further details as reported by the contract settling basis of the Institute follow:

Reports received from refining companies owning 86.9% of the 4,647,000 barrel estimated daily potential refining capacity of the United States, indicate that the industry as a whole ran to stills, on a Bureau of Mines' basis, 3,961,000 barrels of crude oil daily during the week ended Jan. 3, 1942, and that all companies had in storage at refineries, bulk terminals, in transit and in pipe lines as of the end of that week, 92,987,000 barrels of finished and unfinished gasoline. The total amount of gasoline produced by all companies is estimated to have been 13,569,000 barrels during the week ended Jan. 3, 1942.

Beginning with this week's release the American Potrology.

Beginning with this week's release, the American Petroleum Institute inaugurated certain changes which have been under consideration for some time.

sideration for some time.

The changes in the refinery section were made in response to requests received from both the Office of Petroleum Coordinator and the Bureau of Mines, these requests specifically having urged the elimination of the "Estimated Unreported" section and its separation and addition to reported amounts, by districts, thus placing the district figures in the main body of the report on a so-called 100%, or Bureau of Mines basis, and therefore directly comparable with previously published Bureau summaries.

# Course of Sterling Exchange

The market for sterling exchange is limited and with-The market for sterling exchange is immiced and windout feature. The free pound is firm in dull trading. The range for sterling this week has been between \$4.03\%4 and \$4.03\%4 for bankers' sight, compared with a range of between \$4.03\%4 and \$4.03\%4 last week. The range for cable transfers has been between \$4.03\%2 and \$4.04, compared with a range of between \$4.03\%2 and \$4.04 a week ago.

Official rates quoted by the Bank of England continue unchanged: New York, \$4.02\%-\$4.03\%; Canada, 4.43-4.47 (Canadian official, 90.09c. 90.91c. per United States dollar); Australia, 3.2150-3.2280; New Zealand, 3.2280-

In London exchange is not quoted on Germany, Italy or any of the invaded European countries. Since July 26, exchange on China and Japan has been suspended by Government order. In New York, quotations on China and Japan were similarly suspended on July 26, but trading in the Shanghal yuan was resumed on Aug. 4 under special Treasury license. The \$59,000,000,000 war budget which President Roosevelt submitted to Congress on Jan. 7 for the fiscal year ending on June 30, 1943, to outfight and outproduce the Axis with a "crushing superiority of equipment," implements his call for 60,000 planes, 45,000 tanks, 20,000 anti-aircraft guns, and 8,000,000 tons of shipping in 1942, to be increased to 125,000 planes, 75,000 tanks, 35,000 anti-aircraft guns, and 10,000,000 tons of shiping in 1943, and involves, the President pointed out, the present expenditure of \$2,000,000,000 amonth with a probable increase to \$5,000,000,000 amonth by the end of the 1943 fiscal year. New taxes of \$9,000,000,000 were recommended to help meet this huge outlay, which will result in a deficit of about \$35,541,000,000. The program will necessitate borrowing about \$20,900,000,000 in 1942 and \$45,400,000,000 in 1943, and the public debt is expected to reach approximately \$110,421,000,000 by June 30, 1944. The \$59,000,000,000 war budget which President Roose-June 30, 1944.

The magnitude of the productive effort necessary to translate this vast program into planes, tanks, guns, and ships is indicated by comments of industrialists. The National Association of Manufacturers states that to

meet the requirements of the 1943 schedule a plane. meet the requirements of the 1943 schedule a plane-would have to be produced ever four minutes and a tank every seven minutes. Current tank production must be more than doubled, military aircraft floorspace tripled, and the labor force, which was 193,000 in 1940, would have to be six times as great in 1943. More than 2 ships a day must be completed in 1942 to provide 8,000,000 deadweight tons of shipping and 1,000,000 men would be needed to meet the two-year schedule of 18,000,000 deadweight tons. Colonel John H. Jouett, President of the Aeronautical Chamber of Commerce of America, said that the aircraft industry produced approximately 20,000 war planes last year, including trainers, and promised that the aircraft and automobile industries would produce the 185,000 planes called for under the President's two-year program. Henry Ford asserted that with uninterrupted supplies and the cooperation of labor, all categories of planes, tanks, and guns would be provided. The President of the American (Continued on page 164)

# **Course of Sterling Exchange**

(Continued from page 163)

Iron and Steel Institute, Walter S. Tower, declared that this country alone, with its present steel capacity of 88,000,000 tons, can produce 50% more than the combined output of the Axis powers and all the con-

quered European countries.

British expenditures are approaching \$450,000,000 a week, compared with \$90,000,000 before the war. Expenditures of £3,495,761,703 during the first nine months. the present fiscal year exceeded revenue by £1,221,-7,556. New capital issues in 1941 were restricted to those of the Government or of companies requiring funds for war work and aggregated only £2,326,000, compared with £4,096,000 in 1940, £66,294,000 in 1939, and £118,098,000 in 1938. The Government has maintained £118,098,000 in 1938. The Government has maintained its cheap money policy, and its expectation of obtaining long-term issues at 2½% interest, as in the case of the medium-term loans, is reflected in higher quota-

of the medium-term loans, is reflected in higher quotations for fixed-interest and industrial securities.

The per capita war cost is now £1 18s. a week, compared with £1 9s. 6d. a year ago. In a combined tax and forced loan plan the Government has extended the income tax to all earning 42s. a week, affecting about 4,000,000 new taxpayers including several hundred thousand boys and girls under 18. Taxes paid on incomes of less than 48s. a week will be returned after the war. Boys of 17 are being registered at Labor Ministry offices with a view to encouraging them to obtain training for nonmilitary service. On the recommendation of the Industrial Health Research Board the Government approved a 6-day work week of 60 hours

mendation of the Industrial Health Research Board the Government approved a 6-day work week of 60 hours for men and 55 hours for women.

Efficient coordination of the joint war effort will compel the anti-Axis nations to develop a method of stabilizing their currencies at least during the war, Senator Austin of Vermont stated recently, predicting that the present Congress will deal with the problem. The decline in gold imports during 1941, which amounted to less than \$1,000,000,000 and were about 1/2 of the record gold receipts in 1940, is believed to have been due largely to completion of transfers by individuals and governments in search of safety and also to fear of United States freezing control. Between 1935 and the end of 1940 gold earmarked for foreign account increased from approximately \$100,000,000 to about \$1,807,000,000 end of 1940 gold earmarked for foreign account increased from approximately \$100,000,000 to about \$1,807,000,000 and during the last 6 months there was a steady increase to about \$2,200,000,000. Sales for earmarking by foreign central banks even caused a slight reduction in the United States monetary gold stock, amounting to \$60,000,000 in the last 9 weeks of the year. While Europe has ceased to be a source of gold imports and African supplies are hampered by shipping hazards, the operation of lend-lease assistance and United States bank loans have tended to ease the need for dollar bal-ances. Several South American countries with favor-able trade balances are in a position to convert dollars into gold.

Inasmuch as all United States exports are now under Government control, the Board of Economic Warfare has been urged by exporters handling 90% of the overnas peen urged by exporters handling 90% of the over-seas automotive supply trade to arrange with the British-authorities to end their navicert and mailcert system and their censorship of American mail. The navi-certs were adopted to prevent shipments from falling into Axis hands, but are now regarded as unnecessary.

In connection with the pending Emergency Price Control Bill, H. R. 5990, the National Foreign Trade Council through its President, Eugene P. Thomas, on January 4 described the numerous additional costs inherent in the export business which justify a higher export than domestic price ceiling in order to enable the exporter to stay in business and perform his definite economic func-tion in the conduct of American foreign trade.

Visitors in Australia are now permitted to pay for goods and services with United States dollars, but the recipients of the dollars are required to resell them promptly to bankers. An Australian War Supplies Procurement Mission is to be set up in Washington to handle the purchase of supplies in the United States and Canada. The new office will be headed by L. R. Macgregor, who has acted as Australian Government Trade Commissioner in North America during the past 4 years, and will take over the functions of several existing will take over the functions of several existing official and private agencies.

official and private agencies.

The Canadian dollar recovered during the week from the effects of tax selling in a thin market during the two preceding weeks, reaching 88.62 in Thursday's trading. The rally was due to a report on Tuesday that the Canadian rate is to be placed at par with the United States dollar. The discount at which the Canadian dollar has ruled during the war has conserved foreign exchange for war production by deterring Canadians from importing American goods, by discouraging Canadian travel in the United States, and by favoring shipments by Canadian exporters to the United States, thus bringing American dollars into the country. The situation, has been altered by the price ceiling placed in han has been altered by the price ceiling placed in effect in Canada on Dec. 1 in an effort to prevent inflation and by the closer integration of United States and Canadian war production due to this country's entry into the conflict. To ensure a continued flow of necessary imported goods for sale in Canada under the retail price ceiling, the Wartime Prices and Trade Board has undertaken to subsidize importers of consumer goods for direct sale to domestic consumers or for conversion into such domestic consumer goods, where import prices rise to a degree which cannot be absorbed by trade or industry.

Under the revised foreign exchange control regulations published on Dec. 30 any resident may operate a

sterling bank account without permit and retain and use any sterling he receives for expenditures in the sterling area. Purchases and sales of sterling by residents must, however, still be made through the board. residents must, however, still be made through the board. Sterling may now be bought in any amount for remittance to any part of the sterling area for any purpose without the completion of permit forms. Residents may also, without permit, pay Canadian dollars to residents of the sterling area. No exchange control license is required to import goods of sterling area origin either directly or through other countries. Residents of the sterling area who have stayed in Canada for more than 30 days are required to obtain travel permits in the same manner as residents of Canada if they desire to leave Canada for countries outside the sterling area.

Montreal funds ranged during the week between a discount of 14% and a discount of 11%.

#### Continental and Other Foreign Exchange

The United States Treasury announced on Tuesday that on Jan. 2 it purchased another \$20,000,000 of gold from Russia, to be delivered within 180 days, to enable the Soviet to buy goods and services in this country in addition to materials being obtained under the lendlesse program. Two similar gold purchases of \$10,000,000 and \$30,000,000 were made on Aug. 16 and Oct. 10 000 and \$30,000,000 were made on Aug. 16 and Oct. 10 from the Soviet Union in order to provide Russia with from the Soviet Union in order to provide Russia with dollar exchange for war purchases. The allotment for lend-lease contained in the first United States war budget is increased from \$3,500,000,000 in the fiscal year 1942 to \$7,500,000,000 in 1943. Actual expenditures in this category during 1941 are placed at \$21,394,691.36. On Jan. 5 President Roosevelt formally ordered the extension of lend-lease aid to the forces of the exiled Government of Czechoslovakia.

German tax yields from increased income and corpora German tax yields from increased income and corporation taxes amounted to 27,200,000,000 marks in 1940-41. Tax collections for 1941-42 are expected to total 40,000,000,000,000 to 50,000,000,000 marks, including levies from occupied countries. Disappointing revenues from increased corporate and luxury taxes and from the tax credit bonds adopted in 1939 have made still further taxes inevitable. War costs have doubled with the Russian campaign and the public debt has increased nearly tenfold from 11,500,000,000 marks in 1933 to its current level of 107.500,000,000 marks. current level of 107,500,000,000 marks.

The costs of German occupation rose in 1941 by nearly 3,000,000,000 francs to 135,419,000,000 francs, according to the Bank of France Dec. 11 statement published on Jan. 6. As a result of the heavy payments to the German occupation army, the French Government has had to print so much money that currency in circulation nad to print so much money that currency in circulation increased 20% in 1941, following a 50% increase in 1940. The Bank of France disclosed last week that an unspecified part of its \$1,903,000,000 gold stock is being held at Dakar. It was reported recently that the French Government has extended a credit of 23,000,000,000 francs to the Italian Government. An important step toward eventual Balkan unity was seen in the disclosure on Jan. 8 that Yugoslavia and Greece have formed a customs union, with mixed commissions for foreign policy and military collaboration.

Exchange on the Latin Amarican countries is generally steady. Shipments of United States currency to Cuba for hoarding continued large. The \$4,900,000 sent there during December brought the total for the year to \$17,775,000. The aggregate of \$1,314,000 received by the United States from abroad included \$148,000 from Switzerland, the first Swiss shipment in many months. Argentina sent the largest amount, \$559,000. On the basis of the December figures the Federal Reserve Bank reported that shipments of United States currency abroad in 1941 amounted to \$23,631,000. Of the leading shipin 1941 amounted to \$23,631,000. Of the leading shipments, \$17,775,000 went to Cuba as noted, \$3,145,000 to the Dominican Republic, and \$1,194,000 to Canada. Receipts of United States currency from abroad in the year aggregated \$14,874,000, with Canada sending \$7,002,000, Argentina \$2,643,000, and the rest derived principally from Latin-American sources. The large Argentine shipments of United States currency are thought to indicate German conversion into pesos of currency solid in occupied countries because receipts currency seized in occupied countries, because receipts from Argentina have been expanding since German shipments to this country ceased early last year.

Venezuela put a modified exchange control system into effect during 1941, under which dollars for imports of necessities, such as foodstuffs, medicines, and machinery can be obtained at 3.35 bolivars, while non-essentials cost from 3.75 to 3.95 bolivars to the dollar.

An analysis by the Foreign Credit Interchange Bu-An analysis by the Foreign Credit Interchange Bureau of the foreign trade of various South American republics indicates that Argentina, Brazil and Colombia are in a favorable position. Aregntina had an export balance of 194,407,623 pesos for the first 11 months of 1941, based on the new method of computing total imports on "invoice values" instead of \*geal values." Brazilian exports totaled \$210,000,000 in the first 8 months of 1941, against \$169,000,000 in the 1940 period, while imports amounted to \$167,000,000 against \$179,000,000 in 1940. Brazil ended 1941 with a favorable trade balance of \$70,000,000. During the year 8% of Brazil's exports of \$70,000,000. During the year 8% of Brazil's exports and 85% of its imports were transacted with the Americas. Advices from Colombia state that in January the Stabilization Fund will sell dollars for the purpose of extending applications approved last month.

Exchange on the Far Eastern countries is quiet. It was reported on Jan. 6 that the Japanese cabinet has decided to establish a "Bank for the Development of Southern Countries" to finance industries, support national currencies and develop newly occupied regions. The bank will have an initial capital of 100,000,000 yen (\$23,000,000) and will be authorized to issue bonds up to not more than 10 times its original capital.

Following its policy with respect to all regions occupied by Axis forces, the United States Treasury on Jan. 1 issued an order blocking Philippine assets in the United States. The order affects about \$28,000,000 of long-term investments and \$39,000,000 in bank balances. United States investments in the Philippines include \$92,000,000 of direct investments, \$36,000,000 of Philippine dollar bonds and \$28,000,000 of bank balances.

The Hong Kong, Shanghai dollars are not quoted. Manila closed at 50, against 50; Singapore at 47.45, against 30.35; Bombay at 30.35, against 30.35; and Calcutta at 30.35, against 30.35.

## **Discount Rates of the Federal Reserve Banks**

There have been no changes this week in the rediscount rates of the Federal Reserve banks; recent advances on Government obligations are shown in the footnote to the table. The following is the schedule of rates now in effect for the various classes of paper the different Reserve banks:

Discount	Rates of Federal	Reserve Banks	Maria Salah
	Rate in Effect	Date	Previous

# The English Gold and Silver Markets

We reprint the following from the monthly circular of Samuel Montagu & Co. of London, written under date of

GOLD

The amount of gold held in the Issue Department of the Bank of agland during the month of November, 1941, was unaltered at

England during the month of November, 1941, was unlatered as £241,575.

The Bank of England's buying price for gold remained unchanged at 168s, per fine ounce, at which figure the above amount was calculated.

The Transvaal gold output for October 1941 was 1,235,784 fine ounces and this established yet another monthly high record; the previous record was 1,225,772 fine ounces produced in July 1941. The output for September 1941 was 1,203,353 fine ounces and for October 1940, 1,211,277 fine ounces.

Quietly steady conditions were maintained during November and the price of 23½d. for both cash and two months' delivery remained unchanged throughout the month.

There have been no new features; trade demand continued and was met mainly by supplies from the official quarter, although some offerings of production silver appeared towards the end of the month. News was received on Nov. 20th that the differences between the United States of America and Mexico, arising from the expropriation of American-owned oil and farm properties in Mexico, had been settled by the signing of agreements between the two countries. One agreement provides for the purchase of silver by the United States Treasury direct from the Mexican Treasury on a month to month basis; up to 6,000.000 ounces are to be purchased monthly at a price to be determined daily by the Secretary of the United States Treasury. It may be remembered that in August last, an expression of indifference as to the continuation of the present United States silver policy was made in official American cuarters. The news of the agreement with Mexico, although it could have no visible effect on the market in present circumstances, is considered at least to afford some reassurance of the maintenance in some form of foreign silver purchases by the United States Government.

Quotations during November, 1941:

IN LONDON
(Bar silver per ounce standard) ash delivery \_\_\_\_\_wo months' delivery\_\_\_\_ \_\_\_\_23 1/2 d. throughout

IN NEW YORK (per ounce .999 fine)

Market Price

The official dollar rates fixed by the Bank of England during November, 1941, were as follows:
Buying
\$4.03\frac{1}{2}\$

The current issue

The current issue of the letter states: Our next issue will be a review the London bullion market covering the year 1941 and will annear soon as practicable in 1942; thereafter, our bullion letter will be used quarterly instead of monthly.

# Foreign Exchange Rates

Pursuant to the requirements of Section 522 of the Tariff Act of 1930, the Federal Reserve Bank is now certifying daily to the Secretary of the Treasury the buying rate for cable transfers in the different countries of the world. We give below a record for the week just passed:

FOREIGN EXCHANGE RATES CERTIFIED BY FEDERAL RESERVE BANK TO TREASURY UNDER TARIFF ACT OF 1930 JAN. 2, 1942, TO JAN. 8, 1942, INCLUSIVE

# **New York Money Rates**

Dealing in detail with call loan rates on the Stock Exchange from day to day, 1% was the ruling quotation all through the week for both new loans and renewals. The market for time money continues quiet. Rates continued nominal at 14% up to 90 days and 1½% for four to six months maturities. The market for prime commercial paper continued very brisk this week. Prime paper has been available in large volume and transactions have been heavy. Rates are \% %-34% for all

# **Bankers' Acceptances**

The market for prime bankers' acceptances has had only a minor amount of activity this week. Few high class bills are coming out and the demand is largely in excess of the supply. Dealers' rates as reported by the Federal Reserve Bank of New York for bills up to and including 90 days are ½% bid and 7/16% asked; for bills running for four months, 9/16% bid and ½% asked; for five and six months, 5/% bid and 9/16% relead. The for five and six months, 5/8% bid and 9/16% asked. The bill buying rate of the New York Reserve Bank is 1/2 % for bills running from 1 to 90 days.

## **Member Bank Condition Statement**

In the following will be found the comments of the Board of Governors of the Federal Reserve System respecting the returns of the entire body of reporting member banks of the Federal Reserve System for the week ended with the close of business Dec. 31.

The condition statement of weekly reporting member banks in 101 leading cities shows the following principal changes for the week ended Dec. 31: Decreases of \$56,000,000 in commercial, industrial and agricultural loans, \$76,000,000 in holdings of United States Treasury bills, \$56,000,000 in holdings of United States Government bonds, and \$344,000,000 in demand deposits—delivated and an interest of \$72,000,000 in United States adjusted, and an increase of \$72,000,000 in United States Government deposits.

Commercial, industrial and agricultural loans declined

S32,000,000 in New York City and \$56,000,000 at all reporting member banks.

Holdings of Treasury bills declined \$26,000,000 in New York City, \$12,000,000 in the Chicago district, \$11,000,000 each in the Kansas City and Dallas districts, and \$76,000,000 at all reporting member banks. Holdings of United States Government bonds declined \$45,000,000 in New York City and \$76,000,000 to United States Government bonds declined \$45,000,000 in New York City and \$55,000,000 at all reporting member banks.

banks.

Demand deposits-adjusted declined \$150,000,000 in New York City, \$61,000,000 in the Chicago district, \$50,000,000 in the Philadelphia district, \$39,000,000 in the Kansas City district and \$344,000,000 at all reporting member banks. United States Government deposits increased \$54,000,000 in New York City and \$72,000,000 at all reporting member banks.

Deposits credited to domestic banks increased \$19,000,000 in the Philadelphia district and \$4,000,000 at all reporting member banks, and declined \$23,000,000 in the Chicago district.

A summary of the principal assets and liabilities of

# **Motor Fuel Inventories Show Sharp Expansion In Week**

A better than seasonal expansion in inventories of

A better than seasonal expansion in inventories of motor fuel developed during the week ended Jan. 3, holdings of finished, unfinished and aviation gasoline rising 1,854,000 barrels to 92,987,000 barrels, according to the January 7 report of the American Petroleum Institute. The inventory total was approximately 7,800,000 barrels above stocks on the comparable 1941 date.

The increase in stocks was all the more noteworthy in the face of the sharp contraction in refinery operations, which were off 6.8% at 85.2% of capacity. Daily average runs of crude oil to stills dipped 129,000 barrels to 3,961,000 barrels. Production of gasoline during the Jan. 3 week was off 290,000 barrels at 13,569,000 barrels. Gas, oil and distillate stocks were hit by the cold weather, dropping 820,000 barrels to 49,357,000 barrels. Residual fuel oil stocks were up 38,000 barrels to 95,857,-000 barrels. 000 barrels.

A net decline of 42,850 barrels in daily average crude A net decline of 42,850 barrels in daily average crude oil production in the country during the initial week of 1942 pared the total to 4,038,000 barrels, the report disclosed. California, acting in accord with the request of the Petroleum Coordinator's office to pare production because of war-disturbed transportation conditions, cut its output by 37,700 barrels to 579,000 barrels. Texas was the only major oil producing State to show a gain in crude output, production there rising 1,494,500 barrels.

# **Foreign Money Rates**

In London open market discount rates for short bills on Friday were 11/32%, as against 11/32% on Friday of last week, and 11/32-11/16% for three months' bills, as against 11/32-11/16% on Friday of last week. Money on call at London on Friday was 1%.

# **Bank of England Statement**

The statement of the Bank of England for the week ended Jan. 7 shows a seasonal contraction in currency circulation, but of only £1,897,000 in comparison with £5,402,653 in the same week of 1941. Notes remaining outstanding had an aggregate value of £749,829,000 in comparison with the all time peak recorded a week previous of £751,726,000 and with £610,453,000 as at Jan. 8, 1941. The Bank lost an additional £5,434,000 of its nominal holdings of gold and so the net gain in reserves amounted to £1,891,000. Public deposits fell off last week £1,608,000 and other deposits £63,346,662. The latter consists of bankers accounts which decreased £64,119,990 and other accounts which rose £773,328. Offsetting the deposit decline, government securities decreased £63,740,000 and other securities £3,145,776. The components of the latter item are discounts and advances which increased £41,803 and securities which fell off £3,187,579. The reserve proportion rose to 13.9% from 10.1% the week preceding and compares with 10.1% a year ago. Following we present a comparison of the different items for several years: The statement of the Bank of England for the week

ewn Federal Reserve bank notes.

These are certificates given by the United States Treasury for the gold taken over from the Reserve banks when the dollar was, on Jan 31, 1934, devalued from 100 cents to 59.06 cents, these certificates being worth less to the extent of the difference, the difference itself having been appropriated as profit by the Treasury under the provisions of the Gold Reserve Act of 1934.

# The Week with the Federal Reserve Banks

During the week ended Jan. 7 member bank reserve balances increased \$267,000,000. Additions to member bank reserves arose from decreases of \$204,000,000 in Treasury deposits with Federal Reserve Banks and \$52,000,000 in money in circulation, and increases of \$25,000,000 in Reserve Bank credit and \$6,000,000 in gold stock, offset in part by increases of \$5,000,000 in Treasury cash and \$16,000,000 in nonmember deposits and other Federal Reserve accounts. Excess reserves of member banks on Jan. 7 were estimated to be approximatly \$3,390,000,000, an increase of \$300,000,000 for the week.

Changes in member bank reserve balances and related items during the week and the year ended Jan. 7, 1942, were as follows:

"'Other cash" does not include Federal Reserve notes.
These are certificates given by the United States Treasury for the gold taken over from the Reserve banks when the dollar water devalued from 100 cents to 59.00 cents on Jan. 31, 1934; these certificates being worth less to the extent of the difference, the difference itself having been appropriated as profit by the Treasury under provisions of the Gold Reserve Act of 1934.

# THE COURSE OF BANK CLEARINGS

Bank clearings this week show an increase compared with a year ago. Preliminary figures compiled by us, based upon telegraphic advices from the chief cities of the country, indicate that for the week ended today, Saturday, Jan. 10, clearings from all cities of the United States from which it is possible to obtain weekly clearings will be 11.2% above those for the corresponding week last year. Our preliminary total stands at \$6,794,834,110 against \$6,110,890,165 for the same week in 1941. At this center there is an increase for the week ended Friday of 5,1%. Our comparative supmary for the week follows: parative summary for the week follows:

Clearings—Returns by Telegraph Week Ending Jan, 10	1942	1941	- %	130
New York	2,753,270,685	2,619,376,603 269,592,720	+ 5.1 + 18.5

Total all cities for week	6,794,834,110	6,110,890,165	10.3	

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends today (Saturday) and the Saturday figures will not be available until noon today. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results for the week previous—the week ended Jan. 3. For that week there was an increase of 16.5%, the aggregate of clearings for the whole country having amounted to \$8,268,444,309 against \$7,100,-198,779 in the same week of 1940. Outside of this city there was an increase of 26.7%, the bank clearings at this center having recorded an increase of 18.9%. We group the cities according to the Federal Reserve Districts in which they are located and from this it appears that the New York Reserve District (including this city), recorded an increase of 8.1%, the smallest in any District. At the top of the list Dallas had a 36.3% increase in volume of checks cleared over the same week last year; Cleveland was next with an improvement of 34.8%. Kansas City had a rise of 33.2% and both the St. Louis and the San Francisco Federal Reserve Districts had gains of 30.3%. Minneapolis registered a 28.0% increase, Philadelphia 27.6%, Richmond 24.9% and Chicago 21.6% while Boston registered only a 17.4% gain.

In the following we furnish a summary by Federal Reserve Districts.
