Revenue Deemed Sufficient to Meet Highway Bond Debt Service—Arkansas highway officials reported from Little Rock recently that revenues for the second bond year, ending March 31, next, will be sufficient to provide the full \$7,175,000 necessary for debt service on highway bonds.

Revenues for the nine months ended Dec. 31, 1942, were about 10.5% less than for the same period in the preceding year, but on that date the fund lacked only on that date the fund lacked only \$227,997 of having the full amount for the current bond year. F. A. Storey, Jr., Supervisor, says that highway collections can fall off 36.24% from the April 1-Marh 31, 1942, period and still provide the \$7,175,000 required to pay interest on all obligations, maturing principal of the serial bonds and the call for redemption of \$1,000,000 par value of term bonds.

In addition the State of Arkansas has established a debt service

In addition the State of Arkansas has established a debt service "cushion fund" which now amounts to approximately \$5,400,000. This fund would be called upon to supplement current highway revenues only in the event they fall off more than 36.24% and then only in the amount required to call for redemption \$1,000,000 par value of term bonds.

Annual highway tax collections can fall off 50% from the 1941-1942 period, Mr. Storey states, and by supplementing current reve-

MARYLAND

Baltimore, Md.

Revenue Collections Exceed Estimates—Mayor Jackson has been advised by Herbert Fallin, Budget Director, that the city's operating statement as of Dec. 31, 1942, showed a surplus for the year of \$1,728,832.92, of which \$366,882.17 is from appropriation savings and \$1,361,950.75 from revenue collected in excess of estimates. At the end of 1941, Baltimore showed a surplus for that year of \$1,821,-301.17, which was made up of \$605,200.57 appropriation savings and \$1,216,100.60 revenue in excess of estimates.

Appropriations for the year 1942 Appropriations for the year 1942 totaled \$57,067,680.32 and expenditures \$56,700,798.15. The city's expenditure rate of 99.36% compares with 98.95% for 1941 and 99.01% for 1940.

Estimated revenue receipts were the same as appropriations, \$57,-067,680.32, and actual collections for the year were \$58,429,631.07, an excess collection of \$1,361,-950.75, or a collection rate of 102.39%, as compared with 102.11% in 1941 and 99.39% in 1940 1940.

During the year 1942 Baltimore collected in current taxes 97.24%. which, as far as Mr. Fallin can ascertain, is the highest collection rate the city has ever attained. Taxes billed for 1942 totaled \$34 731,384.47, of which \$33,773,607.69 was collected, leaving a balance of outstanding current taxes of \$957,776.78

During 1942, the city reduced its net funded debt \$6,409,659.22. This makes a total reduction in net funded debt since 1932, which was the peak debt year, of \$36,-611,727.97.

Douglas MacArthur Bridge from 15 to 25 cents was enacted by the Board of Aldermen here Jan. 29. Designed to bolster dwindling revenue as a result of gasoline rationing, the measure had been up for passage a week earlier but was laid over at that time after a heated discussion revolving around the possibility that an increase might cause someone to contest the legality of charging contest the legality of charging tolls on a bridge which originally was built as a free bridge.

Enactment was assured after Iderman William J. Warnick, Alderman who opposed the measure when first brought up, took the floor and declared: "As I understand and declared: "As I understand it, if we raise the rate the bonds and interest to which income from the bridge is applied can be retired in two years' time. Then we can reduce the rates and eventually make the bridge free. With this in mind, I vote yes."

Fleetwood Tolls Found Sufficient for Bond Requirements— Bondholders of Fleetwood Toll Bridge at the Mount Vernon-Yonkers line need not worry about their interest and amortization for the next few years, anyway, the Cross County Parkway Authority revealed recently, although the county's credit is not behind the \$3,000,000 bridge bond issue, such

\$3,000,000 bridge bond issue, such collateral being only the 10-cent tolls collected at the bridge.

Although revenue has dropped considerably because of gasoline and tire rationing and the ban on pleasure driving, it still covers maintenance and operation, the Authority said. There is, in addition, a sufficient reserve for amortization of bonds and interest for the next two and a half years at the next two and a half years, at

Bridge costs on an annual basis Bridge costs on an annual basis include \$35,000 maintenance and operation, \$100,000 for amortization, and \$53,000 in bond interest, a total of \$188,000. The reserve on Jan. 1, 1943, was \$489,341, said the Authority, and this may be increased whenever revenues exceed operating and maintenance costs.

By contrast, it is reported, several New York City bridges and tunnels must curtail operations to certain hours of the day, to save operating costs, and in some in-stances it is rumored authorities in the metropolitan area have considered closing such traffic routes because the collections are actu-ally lower than cost of operation.

Agricultural Insurance Co., Watertown, N. Y.—Changes in Personnel—Results for 1942—

Agricultural Insurance Co., Watertown, N. Y.—Changes in Personnel.—Results for 1942.—

Promotion of four officers of the Agricultural and Empire State Insurance Companies was made at the 90th annual meeting of the Agricultural in Watertown, N. Y., Feb. 3. Harold W. Tomlinson, Treasurer, was elected Vice-President and Treasurer. George G. Inglehart, Secretary, was elected Vice-President. A. L. Hollenbeed, and K. E. Chapman, Assistant Secretaries, were elected Secretaries.

A total premium volume in 1942 of \$11,253,620—a gain of 12%—over 1941, resulting from increased business for both the Agricultural and the Empire State Insurance Companies was reported.

A dividend of 75 cents a share was declared on Agricultural stock, payable Apr. 1. A dividend of 50 cents a share was declared on Empire State stock.

In his report to the stockholders, Pres. Harvey R. Waite explained that the merease in business came on Fire and Marine lines with Automobile premiums reduced considerably. And he stated that the increased over-all premium resulted in an expense ratio of less than 40%, the lowest it has been for many years. He pointed out that the assets of the Group had increased \$554,628 to a total of \$18,645,757. The Agricultural surplus to policyholders is \$6,664,767 and the Empire State's is \$2,264,778.

One of the most interesting developments during the year was the creation by the Federal Government of an agency known as War Damage Corporation to provide War Damage insurance for all classes of property. The mechanics are handled by individual companies and certain of their representatives as fiduciary agents—and all on a cost basis. The demand for this coverage has been heavy and, according to latest figures, some 3,800,000 policies have been issued with aggregate premiums of \$120,000,000. Premiums produced by Agricultural and Empire State agents amounted to over \$1,500,000. This figure, of course, is not included in the report on regular business.

Speaking of investments, Mr. Waite said, "Our assets are divided with 54

of \$40,768. "Our investment account was relatively inactive during 1942. bought no bonds except U. S. and Canadian Governments. Of bonds 62% are in U. S. Treasuries, and 7% in Canadian Government obligations. Preferred stocks gave us a yield of 5%. Our communications appreciated in value 14.6% during 1942 as compared with increase in Dow-Jones averages of leading stocks of 7.6%."—V. D. 735.

Atlas Corp.—Annual Report—Assets Up—Analysis of Inflation Possibilities in U. S. A. Discussed—
Indicated asset value of the common stock of the corporation was shown at \$12,56 per share in the annual report issued Feb. 9. This compares with a valuation of \$11.01 per share on June 30, 1942, and \$11.42 at Dec. 31, 1941.

The increase in asset value during the year 1942 was after deduction of dividends paid during the year, totaling \$2,298,202, of which \$1,079,331 was paid on the outstanding preferred stock and \$1.218,871. paid on the outstanding common stock.

In reporting to stockholders, Mr. Floyd B. Odlum, President, called attention to the policy of the company as often announced, to strive for maintenance and improvement of asset value, with results in the current income accounts considered secondary. The results of this policy, Mr. Odlum pointed out, can best be determined over a substantial period.

"Over the last five years," Mr. Odlum said, "during which general market levels for common stocks declined substantially, company was able to absorb all its expenses, including taxes, to, pay dividends amounting to more than \$13,500,000, and to have remaining at the end of the period more asset value per share of common'stock than it had at the beginning of the period. This same statement equally applies to the full life of the company and its direct predecessor by the same name." The data given in the report shows that during this inve-year period common stock prices generally declined by about 23'. Pentured in the report is an analysis of inflation. Mr. Odlum, in sending this analysis to stockholders, says: "The necessity of winning the military war. A stable price structure will determine the cost of the war and the soundness of our condition at the close of the war." The analysis points out that factors tending towards

stantial part of this excess purchasing power commonly known as an inflationary gap is with people who have incomes of less than \$10,000 per year.

Continued progress and improvement in the affairs of Radio-Keith-Orpheum Corp is discussed in the report. Mr. Odlum's statement says: "The problems which previously concerned its production branch for so long seem to have been satisfactorily cleared up by the Pall of 1942. With increased moving picture attendance quite general, the theatre branch of the business is doing exceptionally well. Your company now owns about 44' of the preferred sock and about 46's of the common stock of R-K-O."

Discussing the functions of an investment company in these days of war stress, Mr. Odlum's statement adds: "An investment company can, on occasion, help finance war production projects," it can help guide companies in which it is interested along lines thought best to obtain early victory, and the members of its organization can help personally in ways in which they are well versed through experience. These things your company has done besides cutting its organization to the minimum to release men for active service. But through it all the main function cannot be forgotten if these pools of investment capital known as investment companies and investment trustis are to remain strong and ready to take their helpful and necessary place in the post-war economy particularly in the field of 'venture capital."

The general portfolio holdings amounting to \$25,773.934. embrace

place in the post-war economy particularly in the field of venture capital."

The general portfolio holdings amounting to \$25,773,934, embrace bonds amounting at quotations to \$2,197,985, preferred stocks amounting to \$7,906,634 and common stock amounting to \$15,669,315. During the year purchases of securities, exclusive of Government securities, amounted to \$1,807,702 and sales to \$6,539,044.

With reference to post-war possibilities, Mr. Odium said: "This year we are going to produce more than twice as much as we at home in civilian life are going to consume. This excess of production over civilian consumption is being turned over as an expendable in the war effort. In other words, if we were at peace rather than at war and were to apply ourselves to the same degree, we could have more than twice as much civilian goods and services per capita as we are going to have this year. That is much more per capita than we have ever heretofore consumed. A higher standard of living than ever before is therefore possible following peace, providing we are able to maintain our momentum."

Atlas Powder Co.-Annual Report-

Atlas Powder Co.—Annual Report—

In his letter to stockholders accompanying the annual report, Leland Lyon, President, states:

"In this first year of our country's participation in the war, it has been company's policy to employ its organization and manufacturing facilities as fully as possible in the production of materials essential for war, either directly or indirectly. Most of the peacetime products manufactured by company are also essential for war. Such facilities were operated near maximum capacity during 1941, to meet the requirements of the national defense program. The demand for these products in 1942 was not substantially increased so that the amount of sales and other operating revenues for the year is not greatly in excess of the amount reported for the previous year.

"Industrial finishes and coated fabrics, marketed under Zapon, Keratol and Revolite trade names, have found many important war uses. The use of industrial finishes on steel shell cases, plywood planes, gliders and wood propeliors has helped to conserve the supply of critical metals. Production of coated fabrics, formerly used principally for handbags, luggage, upholstery and the like, has been largely converted to production of fabrics for raincoats, waterproof bags and other items for the armed forces. New resin coating processes have been developed for making these fabrics to conserve rubber as well as to provide the highest quality product.

To the extent permitted by war activities, attention will be directed to the post-war problems which will face industry. Studies have been undertaken in order to be prepared so far as possible to meet post-war conditions and to develop new and improved products to meet anticipated post-war demands. The possibilities for new industrial production are encouraging in many large volume fields. An expanded research program has been adopted, which will be carried out within the limitations of war restrictions. The amount expended in 1942 for research and development work was \$430,000."

Bendix Aviation Corp.—Annual Report-

The perfection of entirely new instruments and equipment if aircraft and aircraft engines, and for the war production of the marine and automotive industries, to "hasten the hour of victor and to save human lives" was the most challenging job undertake by the corporation during 1942, Ernest R. Breech, President, declare in the annual report to stockholders for the fiscal year ended Sep 30: 1942.

30, 1942. The volume of Bendix war production increased to 20 times the figure war levels, Mr. Breech said, adding that about one-third this increase was in new types of devices not even on the market 1938 and which were developed in the corporation's own laboratories

The complete story of the corporation's accomplishments can not now be revealed, Mr. Breech told stockholders, "for your corporation has been working in the closest cooperation with the armed services on many developments which must remain secret."

now be revealed, Mr. Breech told stockholders, "for your corporation has been working in the closest cooperation with the armed services on many developments which must remain secret."

While net sales increased to a record \$459,169,026, nearly three times sales of the previous year, the report stated, net income for the period, after all charges and provisions for taxes, reserves and contingencies, was \$12,464,196 or \$5.90 a share of capital stock. This compares with earnings of \$13,267,988 or \$6.30 a share for the previous fiscal year, on sales of \$156,596,198.

Commenting on this reduction in earnings, Mr. Breech said that the corporation recognized its obligation to do its war production job on a limited profit basis.

"We reduced our prices as soon, as we were able to determine our profits with a reasonable degree of accuracy," he said. "At the outset costs obviously could not be forecast due to the complications of manufacturing tunder radically, changing conditions involving the opening of new plants, the establishment of many sub-contractors and the finding of thousands of new sources of supply.

"The tremendous increase in volume, however, affording us the opportunity to reduce costs through increased efficiency by a wider application of mass production methods, made possible substantial price reductions, despite greatly increased wages, material and other costs. And for the same reason we thought it desirable to make substantial feductions in profit margins," stockholders were told.

"At Sept. 30, 1942," Mr. Breech said, "price reductions on products covered by contracts in effect at the beginning of the fiscal year and entered into during the year aggregated \$123,000,000.

"Despite these price reductions which began to take effect as early as last February," the report stated, "the results of the full year enabled Bendix to agree to refund to the Government an additional sociation method to the Government an additional said additional income and excess profits as required by law, by fire the greater

unreasonably from the war effort," Mr. Breech said, "It should be stated that there is a limit to the corporation's ability to reduce profit margins in view of the great financial risks inherent in such imprecedented expansion.

"The corporation can provide real protection against the risks involved in this tremendous expansion, particularly the risks of termination and conversion to peace-time conditions," the report continued, "only by retaining earnings and by creating reserves." This was recognized by a reduction of the dividend rate from \$1 to \$0.75 a share in the dividend paid on Dec. 30, 1942.

"Without being able to give any assurance as to the future dividend policy," Mr. Breech declared, "it is our conviction that the stockholders are entitled to a substantial return on their investment in view of the fact that through many years of development and pioncering of our highly scientific aircraft instruments and other devices, they had faith in the future of this corporation and had for many years prior to the war furnished the necessary capital for isearch and development of its products and acquisition of its properties." He explained that these products were the result of many millions of dollars invested in research and many years of pioncering effort.

Pointing to the pressing need for Bendix designed and developed products, Mr. Breech revealed that "to fully equip a modern bomber, alone, more than 180 devices manufactured by Bendix are needed."

The total of the reserve for post-war contingencies accumulated by Bendix, the report revealed, amounted, as of Sept. 30, 1942, to \$7,380,333, of which \$4,185,160 was brought forward from the previous year. The aggregate reserves, including sundry operating reserves, reserves, for possible losses on accounts receivable and reserves for post-war and other contingencies amounted to \$14,171,187 at the close of the fiscal year.

(Edward G.) Budd Mfg. Co.-Reduces Indebtedness

(Edward G.) Budd Mfg. Co.—Reduces Indebtedness—In December, 1942, the company made an advance payment of \$2,665,000 on account of its original \$3,000,000 first mortgage loan which brought the total down to \$2,000,000 at end of 1942, dispatches from Philadelphia state. The reduction, it was said, was made in order to obtain the benefit of debt credits in connection with excess profits taxes as provided by the Revenue Act of 1942, similar to programs followed by other corporations.

With this payment the company's loans outstanding at the end of 1942 from RFC, Federal Reserve Bank of Philadelphia and associated banks of Philadelphia were reduced to \$11,100,000, compared with about \$15,000,000 last May at the time the company obtained a loan of \$3,900,000 from the RFC and refunded an outstanding balance of \$5,400,000 from two loans previously made to Budd by RFC.—V. 156, p. 1949.

Canadian Pacific Ry.—No Action on Ordinary Div.—
The directors voted against a dividend on the ordinary shares at a meeting held on Feb. 8, and stated: "During the past three years the funded debt of the company has been substantially reduced, but fixed charges are still higher than they were when dividends were last paid and it is felt that these should be brought down to something like the former level before distribution to shareholders is renewed. The directors have in mind that after the war there will probably be a period of readjustment, with unpredictable reactions on the earnings and expenses of transportation companies and they feel that it is in the best interests of the shareholders to conserve the company's resources so that it may face the problems and difficulties of the post-war period in a strong financial position."

The last previous payment was 31½ cents on April 1, 1932.

Carnegie-Illinois Steel Corp.--Sets New Record-An

Carnegie-Illinois Steel Corp.—Sets New Record—An authorized statement released on Feb. 6 stated:

The huge Irvin Works of this corporation, near Pittsburgh, Pa., began its 1943 production offensive in January by setting a new world's record for monthly production and shipment of ship plates, enough for more than 75 large tank landing ships of the type being built in the Pittsburgh District.

This U. S. Steel plant in August, less than five months after its conversion to plate production, established the former world's record. In January, operating at better than 200% of its originally estimated capacity, the mill's tonnage exceeded the earlier mark by enough plates to supply the requirements of three modern Navy destroyers.

In addition to the heavy gauge product, this big Pittsburgh District.

destroyers.

In addition to the heavy gauge product, this big Pittsburgh District mill turned out large quantities of tin plate on the new electrolyic tinning line in operation there and also expanded its activity in the heat treating and finishing of cartridge cases, armor piercing shot and special deck plates.—V. 157, p. 7.

Citizens Utilities Co .- To Retire Entire Issue of 1st Mortgage Bonds-

Joseph Chapman, President, in a notice dated Feb. 2 to holders of first mortgage collateral 20-year 4-5½% (originally 6½%) convertible gold bonds, United States Territorial and Foreign Series of 1948, issued by Public Utilities Consolidated Corp., an Arizona corporation, and assumed by Citizens Utilities Co., a Delaware corporation, says:

1948, issued by Fudic Unified Company and assumed by Citizens Utilities Co., a Delaware corporation, says:

"On Jan. 8, 1943, we requested all known holders of the above bonds to submit offers for the sale of their bonds. Due to the fact that the amount of tenders received would not exhaust the money on hand with the trustee available for the retirement of these bonds, we have decided not to accept any offers but to call for payment the entire balance of the issue.

"Under the terms of the trust indenture securing these bonds, the next date upon which the company may call this issue is Apr. 1, 1943. The price provided in the indenture is \$102.50 per \$100 par value of bonds, plus accrued interest. The company is publishing notice of call and will deposit with the trustee, City National Bank & Trust Co. of Chicago, Ill., a sufficient amount to pay the call price with interest to Apr. 1, 1943, at the rate of 5½% per annum. Interest on all bonds of this issue will cease to accrue from and after Apr. 1, 1943.

"Payment will be made only by the City National Bank & Trust Co., of Chicago, 208 La Salle St., Chicago, Ill."—V. 157, p. 519.

The directors on Feb. 9 declared a cash dividend of 30 cents per share on the present class A and class B stock of \$2.50 par value, payable March 5 to holders of record Feb. 19. Payments during 1942 were as follows: March 6, June 5 and Sept. 4, 30 cents each; and Dec. 4, a year-end of 60 cents.

Preliminary Earnings for 1942-

Preliminary Earnings for 1942—
Preliminary figures, subject to the audit now being made by certified public accountants, indicate the consolidated net earnings for the year to be approximately \$4,100,000 (equivalent to \$2.39 per share) as compared with consolidated net earnings of \$4,804,700 (equivalent to \$2.80 per share) for the fiscal year ended Jan. 3, 1942 (53 weeks). Per share earnings for both years are calculated upon the 1,716,277 shares of \$2.50 par value stock presently outstanding.

The 1942 earnings, as shown above, are after providing \$4,350,000 for estimated Federal income and excess profits taxes, an increase of \$550,000 over the \$3,800,000 provided for such taxes during 1941. The \$4,350,000 tax provision for 1942 is after deducting from the taxes payable in respect of 1942 the ten per cent excess profits post-war credit (amounting to \$210,000) provided in the Revenue Act of 1942.—V. 156, p. 1771.

Community Gas & Power Co.—Files Simplification

Community Gas & Power Co.—Files Simplification Plan—

The company and its subsidiary, American Gas & Power Co., have filed with the Securities and Exchange Commission a voluntary plan of simplification to enable them to comply with the Public Utility Holding Company Act.

As of Nov. 30, 1942, Community's assets consisted of 34,250 shares of common stock of American and \$10,597 in cash. Its outstanding securities consist of 539,000 shares of class B (voting) common stock, both having a par value of 50 cents per share.

Upon authorization by its stockholders, Community will be dissolved and its common stockholdings of American sold for cash or distributed in kind to its stockholders.

American will endeaver to sell to non-affiliated interests, all its holdings in Birmingham (Ala.) Gas Co., Savannah (Ga.) Gas Co., St. Augustine (Fla.) Gas Co., Bangor (Me.) Gas Co. and Lowell (Mass.) Gas Light Co. The application states that it is expected such sales will produce not less, in the aggregate, than \$4,000,000.

Proceeds of the sales will be first applied to the payment of the indebtedness of American to the Minneapolis Gas Light Co. and the Jacksonville Gas Co. represented by certificates of indebtedness, After that step American debentures will be retired to the extent that funds will permit.—V. 156, p. 1235.

Connecticut General Life Insurance Co .- Annual Report-

Connecticut General Life Insurance Co.—Annual Report—
In making public its 78th annual statement the company reports gains in all departments of its business during the first year of wartime operation. In a message to policyholders and the general public Frazar B. Wilde, President, made the point that no one person—no one part of our economy—is essential to the exclusion of others in the winning of the war.

"This is a total war," said Mr. Wilde, "and the essence of a total war is that everyone is in it and must help. The contribution of the dindirect producer" whether it is a housewife conserving her food and gasoline, a banker raising war funds, or an insurance company buying Government bonds and building civilian morale is a vital part of the total effort. Collectively we are all essential to achieve complete victory and enduring peace."

During 1942 new business of the company reached an all time high of \$417,857,642 which includes an increase of \$223,357,746 of group business on old cases as a result of increased employment due to the war. In 1941 the total new business was \$222,357,492 which includes \$109,380,152 of group business from old cases. The previous high of \$275,487,372 was reached in 1929.

Payments to policyholders and beneficiaries since organization amount to \$408,442,632 of which \$208,451,270 was paid to living policyholders and \$199,991,362 was paid to beneficiaries. Payments to policyholders and beneficiaries during 1942 amounted to \$27,167,506 as compared to \$26,402,748 in 1941.

Assets rose nearly \$33,000,000 in 1942 to a total of \$352,781,250. Of these assets, \$169,428,805 or 48% is invested in first mortgage_liens on

real estate. Holdings of U. S. Government bonds and FHA Government guaranteed mortgage loans totaled \$96,516,476 (Government bonds, \$55,298,046; FHA mortgages, \$41,218,430). This represent an increase in these categories giving direct aid to the war of 60%. In addition to the high standing of investments which maintains the safety necessary for a life insurance company, the excess of assets over liabilities amounts to \$22,000,000 made up of surplus, contingency funds and capital stock.

Insurance in force increased \$176,599,696, compared to an insurance of \$89.568.291 in 1944 between the company of the company of

capital stock.

Insurance in force increased \$176,599,696, compared to an increase of \$89,568,221 in 1941 bringing the total insurance in force to \$1,477,-370,615.—V. 155, p. 1406.

Duquesne Light Co.—Dedicates Power Station-

The company has dedicated the first unit of the Frank R. Phillips Power Station on the Ohio River, less than 30 minutes away from Pittsburgh, Pa. The site is adequate to allow for considerable future expansion, the company announces.

The unit now completed is the first of an ultimate four-unit power station. It consists of a 60,000 kw., 80% power factor generator, a 6,000 kw. house generator on the same shaft, an 850-pound, 900-degree F. tandem compound turbine, and two boilers.

As is the case in all the company's production of electric energy, coal is the elemental source of electricity produced at the Phillips station.

The addition of the new generating unit brings the present rated capacity of the company up to 624,000 kilowatts.—V. 157, p. 440.

East Ohio Gas Co.-Gas Purchase Contract-

East Ohio Gas Co.—Gas Purchase Contract—
To alleviate a shortage in the supply of gas for the important war industry area of Cleveland-Akron-Canton-Youngstown, J. French Robinson, President of East Ohio Gas Co., a subsidiary of Standard Oil Co. of New Jersey, announced signing of a contract with the Panhandle Eastern Pipe Line Co. of Kansas City. It provides that Panhandle supply the East Ohio company with 50,000,000 cubic feet of gas daily from Kansas and Texas at a price of 27.75 cents delivered at terminus of the Panhandle line near Maumee, Ohio.

The East Ohio company, which provides gas for some 700 industrial concerns in its area, currently obtains 77% of its gas from Hope Natural Gas Co. of West Virginia and 23% from Ohio wells. Sales of East Ohio on warm summer days have been as low as 50,000,000 cubic feet, the same quantity provided by the new contract, and on cold days have been approximately 300,000,000 cubic feet daily.

The East Ohio company is also seeking W. P. B. approval for construction of a new pipe line needed to bring the Panhandle gas into the lines of East Ohio, Mr. Robinson disclosed. The proposed line would be a 120-mile line of 2-inch pipe running from Maumee, Ohio, the Panhandle terminus, to Brecksville, Ohio, near Cleveland. It would cost about \$3,250,000 and would consume about 22,500 tons of steel, Mr. Robinson estimated.

With Lodge Formal Complaint—

Whether the Interstate Commerce Commission orders a public hearing on the proposed \$14,000,000 financing by the Erie RR. apparently depends on the future attitude of the Chesapeake & Ohio Ry.

The C. & O., as a stockholder of Erie, has made informal protest to the ICC against the lack of competitive bidding for the \$14,000,000 Erie issue, but has not formally requested a hearing.

Under ICC rules of procedure, hearings usually are not held on financing proposals unless a party who has a direct interest in the matter requests hearings.

So far, C. & O., the only party who has a direct interest in Erie, has not asked for hearings. Commissioner Claude R. Porter, Chairman of the ICC's finance division, is understood to have sent a message to the C. & O. asking its position in this respect, but thus far as received no response.

received no response.

The fact that competitive bids were not sought by Erie in selling the \$14,000,000 of bonds, subject to ICC approval, has resulted in several complaints being made to the Commission from other banking sources.—V. 157, p. 520.

General Electric Co .- Independent Lamp Manufactures File Appeal

General Electric Co.—Independent Lamp Manufactures File Appeal—

Contending that the General Electric Co., Westinghouse Electric and others are still violating the Sherman anti-trust laws by conspiring to fix prices of incandescent lamps, eleven independent lamp manufacturers, members of the Incandescent Lamp Manufacturers' Association, have filed an appeal from the decision handed down on Jan. 20 by Federal Judge Philip Forman in the U. S. District Court, District of New Jersey. This decision denied their application for an injunction against the defendants and the privilege of intervening in a Government anti-trust suit now pending.

This appeal was filed Feb. 7 in the Circuit Court of Appeals for the third district at Philadelphia, Pa., by Darby and Darby, counsel for the eleven "independents".

According to Samuel E. Darby, Jr., of counsel, "All that independent manufacturers are seeking to do by this petition is to return and retain the status in the industry at the time the Government trial was interrupted and postponed. General Electric, the one who sought the adjournment, should not be allowed to alter the status during the adjournment in a manner that is of injury to its competitors under the guise of an alleged public benefit not recognized as such by the Government itself and shown to be merely a temporary subterfuge."

The members of the Incandescent Lamp Manufacturers' Association charged that the reduction in price of incandescent lamps established by General Electric and others last September constituted a further effort to establish a monopoly and drive independent lamp manufacturers out of business. Accordingly, they filed a petition to intervene in the Government's anti-trust suit against the defendants and for an injunction restraining the defendants from maintaining the new price structure and to restore prices effective prior to Sept. 1. The decision of Judge Forman voided this effort and the independents are pressing their rights in the higher court.

It is the claim of the independents th

Suit Adjourned Till After War—

The Justice Department announced Feb. 10 that the Federal District Court at Trenton, N. J., had issued an order adjourning the trial of an anti-trust suit against the company, Corning Glass Works and several other manufacturers of electric lamps for the duration of the war. The action was based upon a certification by the Secretaries of War and Navy to Attorney General Biddle that continuance of the trial, which has been in recess since Aug. 13, "would seriously impair the war production of two of the principal defendants."

The order, issued by Judge Philip Forman, provides that the trial may be resumed whenever the Secretaries of War and Navy agree that it no longer will interfere with war production. The order stipulates that the defendants must notify the court of any changes in their contractual arrangements in the lamp industry during the time of adjournment.—V. 157, p. 553.

provision for tax contingencies. §§Includes Federal excess profits taxes (less post-war refund of excess profits taxes of \$1,188,237), \$11,742,489.

There was provided for U. S. and Canadian income and excess profits taxes an amount of \$15,932,244, payable from 1942 income. Of this amount \$1,188,237 will be refunded by the U. S. and Canadian Governments after the termination of the war. Taxes provided for the year 1941 amounted to \$10,384,831. In both years the company's liability as stated in tax returns has been and will be stated as exactly as can be determined from available regulations, decisions, and interpretations. These sources, however, are not always so clear as to eliminate all doubt of interpretation. The tax provisions for 1942 contain an amount of \$885,000 as a reserve for such contingencies.

Total taxes (Federal, State, local and foreign in 1942, after post-war refunds of excess profits taxes, were \$16,704,633, an increase of \$4,-338,359 as compared to 1941. They were equivalent to \$19,65 per share of common stock, and to over \$1,098 per employee.

Johns-Manville Credit Corporation

On Nov. 30 Johns-Manville Credit Corp. sold the bulk of its instalment portfolio to the Commercial Credit Co., and on Dec. 28 the Credit Corp. ceased to function. After repayment of its loans, amounting to \$2,400,000, and declaration of a dividend in the amount of its surplus, it was merged with Johns-Manville Sales Corp.

Bond Record «» New York Stock Exchange FRIDAY - WEEKLY - YEARLY

NOTICE—Prices are "and interest"—except for income and defaulted bonds. Cash and deferred delivery sales are disregarded in the week's range, unless they are the only transactions of the week, and when outside of the regular weekly range are shown in a footnote in the week in which they occur. No account is taken of such sales in computing the range for the year.

The italic letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

NEW YORK CURB EXCHANGE

WEEKLY AND YEARLY RECORD

NOTICE—Cash and deferred delivery sales are disregarded in the week's range unless they are the only transactions of the week, and when selling outside the regular weekly range are shown in a footnote in the week in which they occur. No account is taken of such sales in computing the range for the year.

In the following extensive list we furnish a complete record of the transactions on the New York Curb Exchange for the week beginning on Saturday, Feb. 6, and ending the present Thursday (Feb. 11, 1943). It is compiled entirely from the daily reports of the Curb Exchange itself, and is intended to include every security, whether stock or bond, in which any dealings have occurred during the current year.

Listings On The New York Stock Exchange For The Year 1942

The aggregate of new and additional corporate securities listed on the New York Stock Exchange for the calendar year 1942 was the smallest for any year since 1934. The 1942 total footed up \$1,021,664,684 as compared with \$1,702,727,682 for 1941 and \$815,156,214 in 1934. The total volume of listings for 1942, more so than in 1941, was adversely affected by the World War with the entry of the United States into the conflict in December, 1941. The effects of the war were felt in the securities markets and tended to restrain the floating of new securities, which ultimately find their way to the Stock Exchange. Other influences which hindered the marketing of new securities were the sale of large blocks of gilt-edge bonds through private channels, financing of industries engaged in the war effort by Government agencies and through Regulation V loans. By Presidential decree on March 26, 1942, the Federal Reserve Banks were authorized to act as fiscal agents for Government war agencies in financing war-production loans on a guaranteed basis. These are classified as Regulation V loans and usually have a maturity up to five years and carry a low rate of interest. Several corporations availed themselves of this means to raise money for working capital and expansion instead of getting the necessary funds through the sale of bonds and stock issues to the public, which ultimately are listed on the Exchange.

In late years the great preponderance of new listings fell in the refunding column, the total in this classification being \$655,568,417 in 1942, as compared with \$1,-097,271,851 in 1941. Securities listed representing new capital added up \$360,851,579 in 1942 as compared with \$519,341,886 in 1941 and old issues just listed aggregated but \$5,244,688, as against \$86,113,945 in 1941. The 1942 total in the latter category is the lowest since 1914.

total in the latter category is the lowest since 1914.

Railroad securities listed during 1942 totaled \$387,-782,841, entirely due with the exception of one bond issue of \$14,737,000, to reorganizations, principally the Erie RR. and the Wabash Ry. The latter two roads issued a total of \$121,888,800 of stocks and \$237,584,941 in bonds in exchange for old securities.

Like 1941 there were no listings of securities of any foreign or Canadian companies during the year.

The following tables embrace the record of aggregate corporate listings for the last 10 years:

CLEARINGS THE COURSE OF BANK

Bank clearings this week will show an increase com-Bank clearings this week will show an increase compared with a year ago. Preliminary figures compiled by us, based upon telegraphic advices from the chief cities of the country, indicate that for the week ended Saturday, Feb. 13, clearings from all cities of the United States from which it is possible to obtain weekly clearings will be 9.8% above those for the corresponding week last year. Our preliminary total stands at \$6,529,374,440 against \$5,945,497,489 for the same week in 1942. At this center there is an increase for the week ended Friday of 20.4%. Our comparative summary for the week follows:

ends Saturday and the Saturday figures are not available at time of going to press. Accordingly, in the above the last day of the week in all cases has to be estimated. In the elaborate detailed statement, however, which we present further below we are able to give the final and complete results for the week previous—the week ended Feb. 6. For that week there was an increase of 32.8%, the aggregate of clearings for the whole country having amounted to \$9,252,647,944 against \$6,968,890,382 in the same week in 1942. Outside of this city there was an increase of 17.7%, the bank clearings at this centre having recorded an increase of 47.6%. We group the cities according to the Federal Reserve Districts in

which they are located, and from this it appears that in the New York District (including this city) the totals show an expansion of 46.2%, in the Boston Reserve District of 15.4% and in the Philadelphia Reserve District of 10.8%. In the Cleveland Reserve District the totals show an increase of 21.0%, in the Richmond Reserve District of 23.8% and in the Atlanta Reserve District of 23.2%. In the Chicago Reserve District the totals record a gain of 10.0%, in the St. Louis Reserve District of 18.6% and in the Minneapolis Reserve District of 18.4%. In the Kansas City Reserve District the increase is 33.9%, in the Dallas Reserve District of 6.5% and in the San Francisco Reserve District 26.9%. San Francisco Reserve District 26.9%.

In the following we furnish a summary by Federal Reserve Districts:

(P.) Lorillard Co.-Annual Report-

Gross sales of the company exceeded \$100 million in 1942, the first time in the company's history, Herbert A. Kent, President, said in a letter to stockholders. Sales of Old Gold eigarettes last year were the highest in the history of the brand, and the percentage increase was over five times the estimated percentage increase for the industry as a whole.

as a whole.

Increased volume required larger stocks of raw materials, and inventories on hand at the end of the year were approximately \$24 million more than on Dec. 31, 1941, Mr. Kent said. To acquire these larger inventories, it was necessary to borrow \$20 million from banks.

Lowell Bleachery, Inc .- Dividends Not Taxable in

Massachusetts—
C. W. Hubbard, Jr., Peb. 5, in a letter to the stockholders, said:
"The Commissioner of Corporations and Taxation of Massachusetts has issued a statement dated Jan. 15, 1943, ruling that dividends paid by this corporation in 1942 are exempt from Massachusetts income tax. All Massachusetts stockholders should therefore omit the 1942 distributions from their income tax returns to Massachusetts to be filed by March 1 this year for 1942 income.

"The ruling of the Commissioner is a consequence of a recent decision of the Supreme Court of Massachusetts holding that if a corporation has an impairment of its capital or capital surplus, until the impairment is made good, distributions are treated for purpose of the Massachusetts tax as distributions out of capital and not taxable.

purpose of the Massachusetts tax as distributions out of capital and not taxable.

"In 1542 the Commissioner ruled that distributions by this corporation made in the calendar year 1941 were taxable. However, distributions received by stockholders in 1941 stand on the same basis as those received in 1942. Stockholders who have paid a tax on the distributions of this company received in 1941 should before March 1, 1943, file an application for abatement of the tax if they desire a refund. Applications for abatement should be made on Porm 12, which may be obtained from the Massachusetts Income Tax Division, 40 Court St., Boston, Mass.

"For Federal income tax purposes, the distributions in 1941 and 1942 are fully taxable since in each year they were not in excess of current earnings.

current earnings.
"Distributions of \$4.50 per share were made in 1941 and of \$3.75 per share were made in 1942."—V. 157, p. 255.

In spite of reduced tonnage, contingent with the shortage of available labor, production for the quarter shows a satisfactory increase, due to improved grade of ore. An increase in filter capacity during the period resulted in an improvement in percentage of extraction.—V. 156, p. 1776.

McKesson & Robbins, Inc.—Semi-Annual Statement-

McKesson & Robbins, Inc.—Semi-Annual Statement—
The company reports consolidated net profit, for the six months ended Dec. 31, 1942, of \$2,172,099, after interest, and after provision of \$4,905,721 for Federal taxes, before applying \$395,285 post-war credit. After provision for preferred stock dividends and before post-war credit, these earnings were equivalent to \$1.20 per share on the common stock.

For the comparable six months of 1941, the company reported consolidated net profit of \$3,957,544, after interest, provision of \$750,000 for Federal taxes and a provision for contingencies of \$1,000,000. At that time, Mr. Murray explained that the provision for Federal taxes was considerably lower than would have been required had the company not been privileged to make substantial non-recurring deductions because of charges arising out of the reorganization.

Mr. Murray reported the company's net sales for the six months ended Dec. 31, 1942 as \$120,479,456, an increase of 17.60% over the \$102,451,571 for the comparable period last year.

Consolidated net profit for the three months ended Dec. 31, 1942 was \$1.478,535, after interest, and after provision of \$2,931,464 for Federal taxes, before applying \$395,285 post-war credit. The tax and post-war credit figures reflect credits due to excess tax provision for the previous quarter ended Sept. 30, 1942, when tax legislation was still pending and the company's tax provision was conservatively estimated. Had these credits not been taken in the December quarter, the provision for Federal taxes would have been \$2,981,988, before applying \$248,006 post-war credit. After provision for preferred stock dividends and before post-war credit, carnings for the three months' period were equivalent to 83 cents per share on the common stock.—V. 157, p. 166.

Marine Midland Corp.—Annual Report—

The annual report to stockholders reflects consolidated operating income of the corporation and its affiliates for the year ended Dec. 31, 1942, of \$3,967,833. This is equivalent to approximately 70 cents a share on the shares outstanding in the hands of the public at Dec. 31, 1942. Operating income for 1941 was \$3,857,443. equivalent to approximately 68 cents a share.

Operating earnings of the banks were materially lower during the first nine months of 1942 than during the comparable period of 1941. However, the earnings for the fourth quarter of 1942 were substantially greater than expected. Uncertainty, over the provisions of the Revenue Act of 1942 caused an over-accruel of taxes during the first three quarters, which was returned to earnings in the last quarter, and there was an unexpectedly large recovery of unneeded amortization of recurities in that quarter; these accounted for a substantial part of the increase in the fourth quarter earnings.

Included in operating earnings was \$462,146 of amortization previously deducted from gross earnings and later recovered from the sales of bonds, compared with \$354,570 included in the 1941 earnings. Taxes aggregated \$934,000, Federal deposit insurance \$445,000 and social security and unemployment insurance \$151,000.

From operating earnings of the banks there were transferred to valuation reserves net amounts aggregating \$1,515,135.

The net result of the operations for the year shows an increase of \$1,509,811 in the surplus account of the Marine Midland Corp. after the payment of dividends of \$906,324. The increase in the surplus and undivided profits of its constituent banks, affiliates, and Marine Midland Corp. itself.

The book value of the stock of Marine Midland Corp., as indicated by the report, is approximately \$9.45 a share, and it is stated that after providing reserves for all charge-offs and suggested reserves for all charge-offs and suggested

there were excess reserves more than sufficient to write all listed scurities to market values on Dec. 31, 1942, and unlisted securities to fair appraised values.

It is noted that in accordance with the announced intention by the directors in their last annual report, dividends were paid on a semi-annual basis. On July 1, 1942, and Jan. 2, 1943, dividends of 8 cents a share were paid.

At the year-end the deposits of the banks of the group were \$670,-000,000 as compared with \$569,000,000 on Dec. 31, 1941.

The U. S. Government securities, direct and guaranteed, increased \$144,000,000 during the year. The average maturity of U. S. Government securities is four years and nine months; figured to call dates the average is three years and five months.

Loans and discounts decreased \$25,800,000.

The aggregate of cash, call boans and U. S. Government securities is equal to 75.3% of total deposits.

Under the heading of war activities, it is reported that 219 officers and employees of the corporation and its affiliates are in the armed services.

Midland United Co.-Trustee Files Program with SEC Calling for Distribution of Assets

SEC Calling for Distribution of Assets—
Steps to complete reorganization of Midland United Co. and Midland Utilities Co. have been taken with the filing of the trustee's reorganization program with the Securities and Exchange Commission.
Under the terms of the plan the assets of both companies are to be iquidated, all of Utilities to be dissolved in distribution among creditors, while the remaining assets of Midland United, following distribution, are to be placed in a liquidating trust—the Midland Liquidating Trust, equities in which are to be covered by trust shares. The trustee plan requires the approval of the SEC and then the approval of the Federal District court.
No equity will be available for either the stockholders of Midland Utilities or the holders of common stock of Midland United, according to the plan.—V. 157, p. 256.

Minneapolis-Honeywell Regulator Co. - Develops "Pressure Transmitter

A new fire prevention device which weighs only 15 ounces is helping to protect the lives of American bomber and pursuit pilots in action on the battlefronts of the world, it was revealed on Feb. 4. Adopted by the Army Air Force as a further step in its constant endeavor to safeguard flying personnel, the "pressure transmitter," which reduces the fire hazard in airplane cockpits, was developed by the Aero Division of the above company. It eliminates the need for piping raw gasoline and lubricating oil to indicating meters in the

oit of the plan, it was explained, thus keeping beyond the prote fire wall the feed lines carrying these volatile liquids, which

tive fire wall the feed lines carrying these volatile inquids, which may become severed in combat.

According to W. J. McGoldrick, Vice-President in charge of the division, all aircraft in operation for the United States armed forces must be equipped with remote fuel and oil line pressure indicating devices. This is to insure that the highly volatile fuels used will not be run through fire walls and into the plane itself, where the danger from fire is amplified because no adequate means of fire control is available.—V. 156, p. 2134.

Noma Electric Corp.—Expansion, Etc.-

Henry Sadacca, President, on Jan. 26, stated in part as follows:

"In the first quarter of 1942, because of war regulations, we witnessed the end of production of Christmas lighting outfits as well as all illuminated decorations.

"The corporation has in the past six months spent considerable time and money in converting its plant in New York to the manufacture of articles needed for the war effort, and we are already producing and shipping, and our program is progressing very satisfactorily.

producing and shipping, and our program is program. In factorily.

"The financial statement rendered you as of Dec. 31, 1941, reflected substantial inventories, in the main consisting of raw materials carried over to 1942. Because of restrictions in the use of critical materials, it became necessary to convert as rapidly as possible all material into a finished product, which policy the corporation followed. In November and December, dim-out regulations emphasized in the Press substantially curtailed all sales resulting in large carry-over of inventory.

"The total sales of Christmas materials for the year aggregate approximately \$3,400,000 which figure does not include sales of war frems.

"The corporation shortly expects to market new products developed by us, the primary line of which will be new wooden toys which will not interfere with our war activities.

"During the early part of this year, the corporation purchased for warehousing purposes the building located at 214-218 Sullivan Street, New York City, for a consideration of \$80,000. A mortgage of \$40,000 was obtained. The building consists of six stories and basement and affords 67.000 square feet.

"In July of 1942, the corporation purchased all of the issued and outstanding stock of the Ansonia Electrical Co.

"During the first five months of operations of the Ansonia Electrical Co., considerable economies were effected in consolidating all plant-operations into our Main Street building, which comprises approximately 100.000 square feet, and we have sold the Division Street building, which comprises approximately 100.000 square feet, for a cash consideration of \$125,000.

"In November of this year, the corporation purchased a building located at 520-526 South Canal Street, Chicago, Ill., for a consideration of \$75,000, and has obtained a commitment for a mortgage of \$50,000. The building affords approximately 105,000 square feet and consists of 8 stories and basement. This property will be used exclusively by our corporation and its subsidiaries.

"This purchase was made primarily to relieve our subsidiary, the Glolite Corp., at Waukegan, of difficulties in obtaining labor in that war industry area. The lease for the unexpired term of the premises occupied by Gloite was assigned for a consideration of \$21,000 received, which amount will cover all of the expenses to be incurred in the moving of the plant."—V. 157, p. 477.

North American Co.—To Hold Union Electric Stock—
The Securities and Exchange Commission has granted the application of the North American Co. to withdraw its petition for the disposal by it of all its holdings of the common stock of Union Electric Co. of Missouri which was filed Jan. 21, 1942. The holdings consist of 2,695,000 shares of Union Electric common, being all the outstanding common of the latter company.

North American Co. filed a registration statement on Feb. 2, 1942, covering the sale of this block of stock to a syndicate headed by Dillon, Read & Co. of New York, for sale to the public, but unfavorable market conditions prevented the offering. Delaying amendments have since been filed by the company.

Subsequently, the Commission pursuant to proceedings instituted against the company in March, 1940, under "death sentence" provisions of the Holding Company Act issued a divestiture order against North American. Co. on April 14, 1942. This order would limit the North American Co. system to the electric operations of Union Electric Co. of Missouri and some of its subsidiaries. Retention of the gas business of Union Electric's subsidiaries was left for further consideration.

North American Co. sought a review of the Commission's order in the Circuit Court of Appeals at New York and last month the court in a unanimous opinion upheld the Commission.

North American Co. proposed to use the proceeds of the proposed sale in retirement of its outstanding debentures.—V. 157, p. 556.

North American Gas & Electric Co .- Ordered to Dis-

North American was a Electric Constitution of the Scourities and Exchange Commission on Feb. 5 ordered the company to liquidate and dissolve under "death sentence" provisions of the Public Utility Holding Company Act.

The Commission held that the company, which is the parent of Washington Gas & Electric Co. and eight other direct and indirect subsidiaries, "performs no essential functions and is incapable of rendering any financial assistance to its subsidiaries."

At the same time the Commission withdrew the exemption which permitted the company to re-acquire its own securities without specific SEC approval, and defined its application for orders directing the company to surrender its investment in the Washington company and declaring it no longer a holding company.—V. 156, p. 345.

North American Investment Corp.—Annual Report-

North American Light & Power Co .- Plea Denied-

The SEC on Feb. 5 denied the motion of company to dismiss the claims filed by Illinois Iowa Power Co. in liquidation proceedings or to stay further proceedings until the same claim has been adjudicated in the pending action brought by Illinois Iowa in U. S. District Court of Delaware.—V. 157, p. 477.

Northern Natural Gas Co .- 50-Cent Dividend-

A dividend of 50 cents per share has been declared on the common stock, par \$20, payable March 25 to holders of record Feb. 20. Distributions during 1942 were as follows: March 25 and June 25, 60 cents; Sept. 25, 50 cents, and Dec. 21, 60 cents.—V. 156, p. 699.

Northern RR. of New Jersey - Stockholders Lose Appeal-

Appeal—
The U. S. Circuit Court of Appeals at Philadelphia has dismissed an appeal by two stockholders of the company to upset the plan whereby Northern's properties are to be taken over by the Erie RR. in a "reorganization" in which Northern's stockholders would receive "at least \$9.50 a share" in cash and Erie stock.

The objectors to the plan were A. Hicks Lawrence and Cameron Blaikie, Jr., who claimed to own 21" of Northern's stock which consists of 10,000 shares of par value of \$1,000,000.

Northern owns 25 miles of railroad between Jersey City, N. J., and Nyack, N. Y., which was operated by Erie under a lease from 1868 to Nov. 18, 1939. Mr. Lawrence and Mr. Blaikie contended that Northern could be operated successfully as an "independent" line but its court trustess, defending the reorganization plan with Erie, asserted that no one was willing to put up the cash or to finance it otherwise as an independent road.—V. 156, p. 2227.

Ohio Confection Co.-Delisted-

The SEC on Feb. 2 announced the granting of an application by the company to withdraw its \$2.50 capital stock, class "A," from listing and registration on the Cleveland Stock Exchange. The application stated, among other things, that the market for the security on the Cleveland Stock Exchange is inactive and that economies may be effected by a termination of the listing. The order became effective at the close of the trading session on Feb. 8.—V. 156, p. 786.

Ohio Oil Co.-To Retire All Outstanding Pfd. Stock-

The directors on Feb. 4 voted to redeem as of March 15 the remaining 57,039 shares of \$100 par 6% preferred stock outstanding at \$110 a share.

The directors also declared the regular quarterly dividend of \$1.50 per share on the preferred stock, payable March 15 to holders of record Feb. 11.

Elimination of the preferred leaves the company with a single class of capital stock, no par common, of which 6.563,377 shares are outstanding of 7,000,000 authorized.—V. 156, p. 1956.

Omnibus Corp.-Listing of Additional Stock-

Omnibus Corp.—Listing of Additional Stock—
The NYSE has authorized the listing of 28,160 additional shares of common stock (\$6 par) upon official notice of issuance in exchange for shares of capital stock of Fifth Avenue Coach Co., making the total number of shares applied for, 340,772.
The directors of the corporation, at a regular meeting held Nov. 25, 1942, reserved for issuance and authorized the issuance of 28,160 shares of common stock in accordance with the terms and provisions of the Offer of Settlement embodied in the Stipulation dated Sept. 28, 1942, as filed in the Supreme Court, N. Y. County, in consolidated cause, said consolidated cause being a consolidation of suits pending in the New York Supreme Court in which persons owning in the aggregate approximately 2% of the capital stock of Fifth Avenue Coach Co. attached the validity of the Installment Sale Contract dated as of Cot. 21, 1936, as amended by agreement dated Feb. 8, 1937, between Omnibus Corp. and Fifth Avenue Coach Co.

The corporation now holds 221,227 shares of the capital stock of

Omnibus Corp. and Fifth Avenue Coach Co.

The corporation now holds 221,227 shares of the capital stock of Fifth Avenue Coach Co. out of a total of 240,000 shares issued and outstanding. Such holdings constitute 92.178% of the capital stock of Fifth Avenue Coach Co. An offer of settlement of the consolidated cause litigation has been made and agreed to by the parties and approved by the court. In said offer of settlement Omnibus Corp. offered to give to the holders of the 17,772 shares of capital stock of Fifth Avenue Coach Co. not held by Omnibus Corp. the following options:

Options:

Option A—The right and option in respect of each share of Fifth Avenue Coach Co. capital stock held by such holder of purchasing from Omnibus Corp. one share of New York City Omnibus Corp. capital stock at \$24.35 per share (being the price of \$30 per share payable by Omnibus Corp. under the installment sale contract, but deducting therefrom such portions of dividends received by Omnibus Corp. as heretofore have been deemed for tax purposes to have been a return of capital and therefore not taxable;

corp. as nerectore nave ocen deemed for tax purposes to have been a return of capital and therefore not taxable;

Option B—The right and option in respect of each share of Fifth Avenue Coach Co. capital stock held by such holder, of receiving from Omnibus Corp. for said share, upon surrender in negotiable form, accompanied by stock transfer tax stamps, stock certificates representing 1 share of capital stock of New York City Omnibus Corp., said options to be alternative, and any holder exercising either of said options thereby waives any and all rights to exercise the other option. The shares of capital stock of New York City Omnibus Corp., required for delivery upon the exercise of said options are to be made available by the corporation from shares of said stock registered in the name of Fifth Avenue Coach Co. now held as security by the depositary under said installment sale contract. The shares of capital stock of Fifth Avenue Coach Co. surrendered to Omnibus Corp. upon the exercise of Option B are to be delivered to the depositary under said installment sale contract to be held as additional security.

Notes—(1) Profits and losses from sales of securities are based upon cost to the company on the "first-in, iirst-out" method, except as to capital stock of The Investment Co. of America. The profit of \$38,990 from sales of 4,866 shares of stock of that company during the year has been computed on the basis of average book value thereof inasmuch as these securities are carried on the books at less than cost (profits on certain prior sales having been applied in reduction of the investment account).

cost (profits on certain prior sales having been applied of the investment account).

(2) At Dec. 31, 1942, the current value of the investments computed in the manner shown in Note (1) to the accompanying balance sheet was \$397,657 less than the ledger value; the difference has not been taken up in the accounts. This unrealized depreciation at Dec. 31, 1942, is \$971,095 less than the unrealized depreciation similarly computed on the investments owned at Jan. 1, 1942.

(3) During the year ended Dec. 31, 1942, purchases and sales of securities aggregated \$1,141,833 and \$1,132,100, respectively.

Philco Corp.—Arranges \$30,000,000 V Loan—
Corporation has arranged a \$30,000,000 three-year V-loan to provide additional working capital to finance its large and increasing production of electronic equipment for the Army and Navy, it was announced February 9 by Larry E. Gubb, Chairman of the board of directors, and James T. Buckley, President. This credit, the largest V-loan to date in the Third Federal Reserve District, is being extended by a group of 21 banks headed by the Pennsylvania Co. for Insurances on Lives and Granting Annuities, which handled the arrangements. The credit is guaranteed to the extent of 80% by the War Department of the United States and has been arranged in accordance with Regulation V of the Federal Reserve System based upon the President's Executive Order No. 9112 of March 26, 1942.

While in peacetime Philco is the largest producer of home and automobile radio receivers and a leading factor in the refrigeration and air conditioning industries, the company for some months past has been 100% converted to war work. It is a leading supplier of electronic equipment for planes, ships, and tanks, and is also producing shells, fuses and industrial storage batteries for the Government.

The Philco plants in Philadelphia were among the first in the country to be awarded the Army-Navy 'E' for their war production record, and similar recognition has been given to the company's plants in Trenton, N. J., Sandusky, Ohio, and Chicago, Ill.

Philco production of war goods is currently running at a higher level than ever achieved in peacetime, and further expansion is expected in coming months as inccreasing use is made of expanded facilities.

Acquitted in Trade Secret Case-

A Federal court jury in Boston Feb. 9 was ordered to acquit the company and two individuals after a three-week trial on conspiracy charges involving patent rights and use of the mails to defraud. Of four other individuals involved, three were fined and one given a six-month suspended jail sentence.

Federal Judge Sweeney directed verdicts of acquittal in the case of Procter & Gamble Co., the Procter & Gamble Manufacturing Co. and the Procter & Gamble Distributing Co., and Thomas M. Mulvaney of

Cincinnati, and Anthony Mersicano of Boston, alleged middlemen to whom correspondence allegedly was addressed.

Directed verdicts of guilty were returned against: Dr. D. Paul Smelser, Cincinnati, head of the market and research department of the company, who was fined \$5,000; Cleo W. Knappenberger, his assistant, fined \$1,000; Raymond J. Lamping, another employee, fined \$500. Frank J. Elms, another employee, was given a six-month suspended jail sentence and one year's probation. Judge Sweeney post-poned indefinitely disposition of four other defendants who changed their pleas to guilty at outset of the trial.

The defendants were charged with conspiracy to steal trade secrets of Lever Brothers Co., a Cambridge soap concern, and with using the mails to defraud. Judge Sweeney said in ordering acquittal after defense counsel charged that the Government had failed to establish grounds for prosecution: "There were probably breaches of business ethics in this case, but I am not at all satisfied that any of the officers or board of directors knew of any conspiracy or attempt to use the mails to defraud."—V. 157, p. 577.

St. Louis-San Francisco Ry.—Supreme Court Rules Trustee Claims in Rail Cases Come Under ICC—
Federal courts may not make allowances to indenture trustees for services rendered in connection with railroad reorganization proceedings without first referring the claim to the Interstate Commerce Commission, the Supreme Court ruled Feb. 8.

The Court acted in the case of a claim brought by the Bankers Trust Co., which was trustee under a mortgage of the Kansas City, Fort Scott & Memphis Ry., part of the St. Louis-San Francisco Ry., which is under reorganization.

The Trust company filed a petition with the District Court for compensation and services as indenture trustee, for counsel fees and expenses. It objected to ICC jurisdiction on the grounds that the services were not connected with the reorganization but were performed for the benefit of the trust estate as distinguished from the debtor railroad's estate.

The Court, overruling lower court decisions to the countrary, held that the claim is subject to ICC review under Section 77(c)(12) of the Bankruptcy Law.

"The subjection applies in terms to allowance of claims such as those here in issue," the Court said. "No legislative history is cited to the contrary."

As to the separation of powers of the Commission and the court, the Supreme Court, speaking through Chief Justice Stone, said: "Our conclusion is that the function committed by the law to the Commission is the ordinary one reposed in a fact-finding body and that its findings, supported by evidence, may not be disturbed by a court. This construction of the Act leaves the Court free to decide upon the basis of the Commission's report all questions of law."—V. 157, p. 558.

Scophony Corp. of America-Formed-

THE FOLDOW DISTRICT OF STREET

Television Productions, Inc. (a subsidiary of Paramount Pictures, Inc.) and General Precision Equipment Corp., together with Scophony, Ltd., of London, have formed the Scophony Corp. of America, which controls American rights and patents for the "supersonic" method of television developed in Great Britain.

Television and General together own all of the class B stock of the company, while the class A stock is held by Arthur Levey and Scophony, Ltd., of London.

company, while the class A stock is held by Arthur Levey and Scophony, Ltd., of London.

1. The Scophony method, which utilizes sonic waves above the frequency of audible sound, makes possible the projection of large-scale television images easily adaptable to color. It is considered as important an advance in reception of television as the Iconoscope (electric eye) is on the transmission end.

Many interesting and valuable patents covering such developments as the "Skiatron", a novel method of very substantially improving the television image and also "Beam Conversion" are the property of the new Corporation for use in the Western Hemisphere.

Arthur Levey is President of the new company. Directors are: Joseph E. Swan of E. F. Hutton & Co.; Franchin Fleid, uneccor of Piper Aircraft Co.; Paul Raibourn, President of Television Productions. Inc., a subsidiary of Paramount Pictures, Inc.; Earl G. Hines, President of General Precision Equipment Corp., and Mr. Levey.

Other officers are: Mr. Swan, Vice-President; Mr. Field, Treasurer; R. B. La Rue, Secretary; and Bernard Goodwin, Assistant Secretary. Offices are located at 527 Fifth Ave., New York, N. Y.

Southern Pacific Co.-Would Convert Equipments-

Company asked the Interstate Commerce Commission Feb. 8 for permission to substitute promissory notes for \$6,095,567 of its obligations to conform to the letter of the excess-profits tax law in obtaining

tions to conform to the letter of the excess-profits tax law in obtaining tax deductions.

The notes would be issued to holders of 23 conditional sales contracts or equipment lease agreements entered into between April, 1939, and June, 1942, for the purchase of Diesel locomotives, flat cars, gondolas, ballast cars and cabooses. The rate of interest and payment dates would be the same as under the agreements.

Conditional sales contracts and lease agreements are sometimes less expensive than other forms of financing, and the debt thus incurred is "borrowed capital" within the spirit of the excess-profits tax law, the company told the ICC. However, it added, "there is some question whether it is within the letter thereof," and substitution of notes should be allowed "to remove any possible doubt."—V. 157, p. 479.

Southern Pipe Line Co .- 30-Cent Dividend-

A dividend of 30 cents per share has been declared on the common stock, par \$10, payable March 1 to holders of record Feb. 13. Payments during 1942 were as follows: Feb. 23 and Sept. 1, 30 cents each, and Dec. 10, a year-end of 50 cents.—V. 156, p. 1781.

Standard Accident Insurance Co., Detroit - Annual

According to the report to stockholders presented by Charles C. Bowen, President, the company's premium volume in the year 1942 was \$21,716,158, a 22.4% increase in comparison with 1941 writings, the largest for any single year in the history of the company. The year's gain from investments \$402,100, from which was deducted \$1,250,500, or \$7.11 per share, for Federal income taxes, leaving net of \$1,469,522, or \$8.35 per share, an improvement over the 1941 figure and due to excellent underwriting results. Common stock dividends of \$439,854 were paid during 1942. The year's operations, after revaluations, provision for taxes, dividends paid of \$2.50 per share, and surplus adjustments, resulted in an increase in stockholders' equity of \$1,315,172, or \$7.47 a share on the 175,938 common shares outstanding. Surplus as regards policyholders amounted to \$10,390,752 at the year-end, an increase of \$1,017,712 over that of Dec. 31, 1941.

The company reported an improved and very liquid investment position. Out of total investments on a market basis of \$29,226,396 cash, U. S. Government bonds and short-term securities maturing within three years amounted at the year-end to \$25,273,351, or more than the total liabilities of the company excepting capital funds.

Assets at the end of 1942 totaled \$34,751,688, an increase of \$5.061,011, or 17% over the previous year-end.

The Standard ranks as one of the oldest and largest casualty and surety companies in the United States, and its totally-owned subsidiary, the Pilot Insurance Co. of Toronto, Canada, is a leading underwriter in the Dominion.—V. 157, p. 350. According to the report to stockholders presented by Charles C.

Sylvania Electric Products, Inc.—Reduces Com. Div. The directors on Feb. 5 set aside from 1942 earnings a reserve for post-war adjustments, and declared a quarterly dividend of 25 cents per share on the outstanding common stock, payable Apr. 1 to holders of record Mar. 19. During 1942 the company paid dividends totaling \$1.25 per share on common stock, consisting of four quarterly payments of 31% cents each.

The company also announced that owing to the rapid expansion of its business, particularly during the past year, and the further expansion which current war orders on the books will make necessary in 1943, possibly to double the 1942 volume, consideration is being given to various steps which may be deemed advisable in order to provide the larger working capital funds needed to finance this war production and to enable the company to set up ample reserves for post-war adjustments.

Providing such funds through the issuance and sale of a moderate

tion and to enable the company to set up ample reserves for post-war adjustments.

Providing such funds through the issuance and sale of a moderate amount of common stock is one of the steps being considered, it was stated, and the necessary proposal to authorize such stock may be submitted to stockholders at their annual meeting in March. Included in the proposal under consideration is, the calling for redemption of the 83,796 outstanding shares of convertible preferred stock, which has a present conversion ratio of 2.1 shares of common for each share of preferred, and is, callable at \$46.

Although final earnings figures for 1942 are not yet available, pre-liminary figures indicate the best net profits, prior to taxes, that the company has ever enjoyed, and a satisfactory balance after all estimated taxes, it was stated.

This company is one of the largest producers of radio tubes, fluorescent and incandescent lamps, and electronic apparatus, and now largely engaged in war production.—V. 157, p. 47.

During the year the company and its subsidiaries set aside out of income for payment to various tax authorities an aggregate of \$5,234,-664, an increase of \$2,624,238 or more than 99.7% as compared with \$2,630,426 tax provision in the year before. These taxes were equivalent to \$21.02 for every share of the company's outstanding stock and to \$1.77 for each dollar of het profile earned.

The company signed more sales contracts than in any previous year and domestic revenues, amounting to \$25,101,507, were more than the revenues from world-wide operations three years ago. Total income of \$39,177,488 represents an increase of \$8,893,965 for the year. Foreign business continues to increase, the gross revenues for the year just closed amounting to \$12,775,981 or 35.9% of total revenues. In the 1941 fiscal year they amounted to \$11,275,028 or 37.2% of revenues in that year.

Universal Corp.-May Merge Subsidiary-

A plan to merge the corporation and its principal subsidiary, Universal Pictures Co., Inc., is in preparation to simplify the corporate and financial structure of the motion-picture organization, J. Cheever Cowdin, Chairman of both companies, has announced. It is anticipated that a special meeting of stockholders will be called to approve the

that a special meeting of stockholders will be called a plan.

plan.

The plan would involve borrowing of \$6,000,000 from banks to retire 8,600 shares of 8% first preferred stock of Universal Pictures at \$110 a share, plus \$68 in accrued dividends, which will require \$1,530,800, and \$4,000,000 of 5% convertible debentures, due 1946, the indenture for which prevents payment of common dividends. The latter issue is redeemable at 102 and currently is convertible on the basis of \$22.50 a share for common stock.

Elimination of the \$2,000,000 debt owed by Universal Pictures to Universal Corp. and of the 20,000 second preferred 7% shares of Universal Pictures, all of which are owned by Universal Corp., also would be accomplished under the merger.—V. 156, p. 1247.
