Acme Steel Co., Chicago-Extra Distribution-

The directors on Nov. 3 declared an extra dividend of 50 cents per share and the usual quarterly dividend of 75 cents per share on the capital stock, par \$25, both payable Dec. 11 to holders of record Nov. 16. In each of the three preceding quarters, regular distributions of 75 cents per share were made. Payments during 1942 were as follows: March 12 and June 12, \$1 each; and Sept. 12 and Dec. 12, 75 cents each.—V. 158, p. 1629.

Aircraft Accessories Corp.—Reports Record Sales-

Aircraft Accessories Corp.—Reports Record Sales—
Randolph C. Walker, President, at the annual stockholders' meeting held on Oct. 26, reported substantial increases in business for this corporation in the current fiscal year.

He said the company has shown substantial increases over the corresponding period of the previous year in spite of the fact that unit prices of most of the company products have been reduced well below last year's levels.

Sales for the five months ended Sept. 30, 1943, were well ahead of the like period in 1942. Sales for the month of September, Mr. Walker said, were the largest for any month in the history of the company.

The lower unit prices in effect this year reflect, in part, the result of renegoliation of Government contracts during the fiscal year ended April 36, 1943. The company's ability to reduce prices was based upon lower production costs arising from improved operating efficiency.

It was stated that the backlog of unfilled orders now on the company's books will permit a continuance of the present, or an even greater rate of production for many months provided, of course, that all current contracts remain in force.—V. 158, p. 1629.

American Forging & Socket Co .- 121/2-Cent Dividend

The directors on Oct. 28 declared a dividend of 12½ cents per share on the common stock, par \$1, payable Dec. 1 to holders of record Nov. 20. A similar payment was made on Sept. 1 last, the first since 1941, in which year 12½ cents each was paid on May 28, July 15, Sept. 1 and Dec. 1.—V. 158, p. 634.

Aluminum Co. of America-Stock Increased-

The stockholders on Oct. 28 approved an increase in the authorized common stock from 1,500,000 shares to 7,500,000 shares, preparatory to a three-for-one stock split-up.

A special meeting for final action on the split-up is scheduled for Nov. 12, at which time stockholders will vote on a plan to merge Aluminum Manufactures, Inc., into the Aluminum Co. of America.

Sells \$84,000,000 3% Debentures Privately-The com-

pany announced Nov. 4 that it had arranged to sell privately to 16 insurance companies a new issue of \$84,000,000 20-year 3% debentures. Most of the borrowed funds will be used for the payment of bank loans. Arrangements for the sale were made through Mellon Securities Corp.

Terms of the debenture issue now sold call for retirement of 75% of the issue by maturity through operation of a sinking fund. The sinking fund retirement schedule increases year by year. For sinking fund purposes the securities are callable at par.

Bank loans to be paid from the proceeds were incurred as a result of large-scale expansion of facilities occasioned by the war. The expansion program, now substantially completed, involved capital outlays of about \$300,000,000.—V. 158, p. 1629.

Certain-teed Products Corp.—Plans An Exchange of Stock and Refunding—Files \$6,737,300 Debentures, 134,-746 Common Shares and Certificates for Preferred With SEC-

The corporation has filed a registration statement with the Securities and Exchange Commission providing for a preferred stock exchange offer and a refunding program.

The company registered \$6,737,300 4% cumulative income debendences (subordinated) to be due Oct. 31, 1973; 134,746 shares of common stock (\$1 par) and certificates of deposit for 67,373 shares of 6% cumulative prior preferred stock.

The company offers to the holders of the outstanding 67,373 shares of its 6% cumulative prior preference stock, (\$100 par) the right to exchange such shares for the new income debentures and shares of common stock for each share of 6% cumulative prior preference stock.

The registration statement declares the company proposes under certain conditions, to issue to the holders of the 625,340 shares of common stock preferse arrants entitling the holders in the aggregate to purchase at a price to be announced later. 208,446 additional shares of common, and to issue and sell such shares of common stock not taken up by the warrant holders.

The company also proposes, under certain conditions, to issue and

and sell such shares of common stock not taken up by the warrant holders.

The company also proposes, under certain conditions, to issue and sell \$5,500,000 new senior debentures and to apply the proceeds of the sale of the new senior debentures, together with other funds, to the redemption of the outstanding debentures. There are \$7,100,000 20-year \$54.66 is shing fund gold debentures. There are \$7,100,000 20-year \$54.66 is shing fund gold debentures, series A, due March 1, 1948, now outstanding. The interest rate of the new senior debentures las not been finally determined, but will not exceed \$44.67 per annum. The income debentures will be subordinated to the new senior debentures and to other indebtedness of the company.

Paul H. Davis & Co., Chicago, is named principal underwriter or dealer manager, and company will pay to selected dealers the commission for the deposit of shares of preference stock pursuant to the offer of exchange.

The proposal to issue common stock purchase warrants and the procurement of a commitment for the purchase of any common stock not subscribed for by common stockholders and the issue and sale of the new senior debentures is contingent upon the exchange offer being declared effective by the company.

Chesapeake & Ohio Ry. - Stock Dividend Held Not Taxable Income-

Payment of the preference stock dividend declared Oct. 6 to holders of common stock of C. & O. Ry. will not constitute taxable income to stockholders, according to a ruling by Robert E. Hannegan, Commissioner of Internal Revenue. The ruling, as announced by the railroad on Nov, 1, is contained in a letter addressed to Walter S. Orr. tax counsel, and is in reply to a request made by Mr. Orr on behalf of the toad. In making his application for the ruling, Mr. Orr points out that when the dividend was declared by the board on Oct. 6, there was outstanding no class of stock other than the common stock, inasmuch as the preference stock, Series A, previously outstanding, had been redeemed on Oct. 1.

The proposed dividend of preference stock, Series of 1943, of the railroad is payable pro rata to all holders of C. & O. common, subject to approval by the Interstate Commerce Commission. Application for such approval is now pending before the Commission.

The Commissioner's ruling points out that the cost, or other basis, of the common stock will be apportioned between the common stock held and the preference stock received, in proportion to their respective values at the time of issuance of the preference stock.

Hearing Ended on Dividend Case—

Hearing Ended on Dividend Case-

Examiners of the Interstate Commerce Commission completed Nov. 4 hearings on the application of the C. & O. for authority to issue \$76,573,700 new preference stock as a dividend to its common stockholders. The session was devoted largely to valuation data of the C. & O. L. L. Powers, an accountant in the ICC valuation bureau, was the principal witness.—V. 158, p. 1728.

Cities Service Power & Light Co.-Seeks Court Review.

A petition "to review orders of the Securities and Exchange Comission" has been filed in Third U. S. District Court of Appeals Philadelphia.

Philadelphia.
Cities Service was ordered recently by SEC under integration protisions of Public Utility Holding Company Act of 1940 to divest itself
of more than 40 subsidiaries.
Officers of Cities Service Power & Light stated that in taking an
appeal it in no way affects pending proceedings for disposing of its
interests in Public Service Co. of Colorado and Durham Public Service
Co., but that appeal had been filed in order to preserve the company's
legal rights pending disposition of these and other utility interests
and holdings in an orderly manner and to the best advantage of all
security holders concerned.—V. 158, p. 1528.

Devoe & Raynolds Co., Inc.—Extra Dividend—

The directors on Nov. 3 decided to pay the same aggregate dividend on the class A and B common stocks this year as was paid last year and, therefore, declared an additional dividend of 25 cents per share beyond the regular quarterly payment of 25 cents per share, both payable Dec. 1 to holders of record Nov. 20. Quarterly distributions of 25 cents each were made on these issues on March 1, June 1 and Sept. 1, last. In 1942 the company paid dividends of 25 cents each on Jan. 2, March 2, June 1, Sept. 1 and Dec. 1.

The directors also deciared the usual quarterly dividend of \$1.25 per share on the preferred stock, payable Dec. 1 to holders of record Nov. 20.—V. 158, p. 1730.

(Jacob) Dold Packing Co .- Final Dividend-

The trustees have paid a fourth and final liquidating dividend of \$2.036 a share to holders of the participating certificates that were issued to preferred stockholders.

This latest distribution raises to \$51,036 the total amount of liquidating dividends paid on each preferred share, President Edwin C. Andrews, Chairman of the board of liquidating trustees, said. Previous liquidating disbursements on each preferred share were \$35, \$5 and \$9, There are about 35,500 shares of preferred stock outstanding.—V. 155, p. 262.

Dominion Coal Co., Ltd.—Pays Part of Arrearages-

The directors have declared a dividend of \$1.88 per share on account accumulations on the 6% cumulative preferred stock, par \$25, pay-ble Jan. 2 to holders of record Dec. 10. Quarterly distributions of 8 cents per share had been made up to and including July 2, 1941; par since.

The current declaration brings payments up to Sept. 30, 1942. -V. 158, p. 1033.

DIVIDENDS

Dividends are grouped in two separate tables. In the first we bring together all the dividends announced the current week. Then we follow with a second table in which we show the dividends previously announced, but which have not yet been paid. Further details and record of past dividend payments in many cases are given under the company name in our "General Corporation and Investment News Department" in the week when declared.

The dividends announced this week are:

Bond Record «» New York Stock Exchange FRIDAY - WEEKLY - YEARLY

NOTICE—Prices are "and interest"—except for income and defaulted bonds. Cash and deferred delivery sales are disregarded in the week's range, unless they are the only transactions of the week, and when outside of the regular weekly range are shown in a footnote in the week in which they occur. No account is taken of such sales in computing the range for the year.

The ttalic letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

NEW YORK CURB EXCHANGE

WEEKLY AND YEARLY RECORD

NOTICE—Cash and deferred delivery sales are disregarded in the week's range unless they are the only transactions of the week, and when selling outside the regular weekly range are shown in a footnote in the week in which they occur. No account is taken of such sales in computing the range for the year.

In the following extensive list we furnish a complete record of the transactions on the New York Curb Exchange for the week beginning on Saturday, Oct. 30 and ending the present Friday (Nov. 5, 1943). It is compiled entirely from the daily reports of the Curb Exchange itself, and is intended to include every security, whether stock or bond, in which any dealings have occurred during the current year.

THE COURSE OF BANK CLEARINGS

Bank clearings this week show an increase compared with a year ago. Preliminary figures compiled by us, based upon telegraphic advices from the chief cities of the country indicate that for the week ended Saturday, Nov. 6, clearings from all cities of the United States from which it is possible to obtain weekly clearings will be 16.6% above those for the corresponding week last year. Our preliminary total stands at \$8,945,746,286 against \$7,670,296,570 for the same week in 1942. At this center there is a gain for the week ended Friday of 16.1%. Our comparative summary for the week follows:

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday and the Saturday figures are not available at time of going to press. Accordingly, in the above the last day of the week in all cases has to be estimated.

Accordingly, in the above the last day of the week in all cases has to be estimated. In the elaborate detailed statement, however, which we present further below we are able to give the final and complete results for the week previous—the week ended Oct. 30. For that week there was an increase of 22.2%, the aggregate of clearings for the whole country having amounted to \$9,723,033,95 against \$7,972,-379,632 in the same week in 1942. Outside of this city there was an increase of 12.3%, the bank clearings at this center having recorded a gain of 31.3%. We group the cities according to the Federal Reserve Districts in which they are located and from this it appears that in the New York District (including this city) the totals show a gain of 32.0%, and in the Philadelphia Reserve District of 10.2%, but in the Boston Reserve District the totals show a loss of 1.5%. In the Cleveland Reserve District the totals record an increase of 10.2%, in the Richmond Reserve District of 2.7% and in the Atlanta Reserve District 17.3%. In the Chicago Reserve District the totals register an expansion of 10.9%, in the St. Louis Reserve District of 14.9% and in the Minneapolis Reserve District of 24.4%. In the Kansas City Reserve District the totals are larger by 24.0%; in the Dallas Reserve District by 11.5% and in the San Francisco Reserve District by 13.8%.

In the following we furnish a summary by Federal Reserve Districts:

General Electric Co .- Forms Credit Unit-

General Electric Co.—Forms Credit Unit—
The General Electric Credit Corp has been organized as a financing subsidiary of the General Electric Co. under the banking law of the State of New York, and will broaden the scope of activities carried on since 1933 by General Electric Contracts Corp. whose business will be assumed by the new concern.

Whereas the Contracts company is engaged principally in financing the sale of consumer goods, the new company will have an almost unlimited scope in the field of credit. Its immediate function will be to provide financing for war construction and production work in connection with contracts which involve use of products manufactured by General Electric Co. and affiliates, and of parts produced by others for incorporation in such products.

The management of the new company will be the same as that of the Contracts company of which George F. Mosher is President, and the main office will be at 570 Lexington Ave, New York, N. Y. Many of the smaller subcontractors of General Electric need more capital to handle war contracts and find some difficulty in obtaining credit, Mr. Mosher said. The new company will have the advantage of General Electric's intimate knowledge of the type of war work involved in the contracts and its close connections with many of the contractors.

After the war the new company not only will provide financing for

and its close connections with many of the contractors.

After the war the new company not only will provide financing for the purchase of consumer goods, but also will furnish increasing credit facilities to purchasers of other products made by General Electric Co. It is expected that the financing of sales of home appliances made by General Electric will assume even greater proportions then, Mr. Mosher said.

To Accept Post-War Equipment Options-

To Accept Post-War Equipment Options—

The General Electric Co. on Nov. 3 became one of the first industrial concerns to announce a definite program for easing the transition from wartime to peacetime production, when it disclosed a "reservation" plan for the purchase of post-war gadio broadcasting equipment. Under the plan, prospective purchasers would be required to deposit with the company United States war bonds in sums determined by the amount of equipment reserved for post-war delivery.

The "reservation" plan, it was explained, is not an order for equipment, nor does the broadcaster have to sign a contract to buy. Under the terms of the plan, the purchaser can place his order for equipment at any time up to 90 days following the date when production and sale of commercial transmitters are authorized. However, to maintain his "reserved" position, he must enter into a mutually satisfactory sales contract within this 90-day period.

The bonds deposited with G.E. under the plan would remain the property of the broadcasters as well as all income from them, and will be returned when a contract is signed or at any time the broadcaster wishes to withdraw from the plan. In the latter case, however, he would lose his priority position for equipment.

New G. E. Mycalex Booklet—

An 111-page publication describing properties, advantages and applications of G. E. mycalex has been published by the specialty division of this company's Electronics Department at Schenectady, N. Y. This booklet is available on request, the company announces. G. E. mycalex is a material, made from mineral ingredients to meet exacting high frequency insulation requirements. It is used extensively as an insulator in various types of electrical apparatus, particularly in redio, industrial control and heating equipment, and is produced in plates, rods, strips and disks from which parts are machined to finished shapes. It also can be compression-moded lino simple shapes with and without metal inserts.—V. 158, p. 1732.

General Foods Corp.-New Appointment-

Robert L. Garner, Vice-President and Treasurer, on Nov. 3 announced the appointment of F. Ernest Richter as his assistant. Mr. Pichter will be in charge of economic and financial analysis. He was formerly staff economist with General Motors Corp.—V. 158, p. 1531.

General Motors Corp .- Third Quarter Report-

Deliveries of war materials by General Motors in the third quarter of 1942 increased 11.4% over the second quarter, from \$832,275,349 to \$82,749,569, and for the first nine months of this year war material product deliveries amounted to \$2,525,289,753, or 2.1 times the volume for the first nine months of 1942, Alfred P. Sloan, Jr., Chairman, reveals in his third quarter report to stockholders. Currently, General Motors plants are producing war materials at a rate in excess of \$12,000,000 per day, or approximately \$3,700,000,000 per year, he reported.

Motors phants are producing war installed as A. (200,000,000 per day, or approximately \$3,700,000,000 per year, he reported.

Continuing the trend in previous quarters, Mr. Sloan pointed out the physical volume of war production during the third period of 1943 increased more rapidly than the dollar volume indicates, due to price reductions. "During the third quarter voluntary price reductions in addition to substantial reductions previously effected were made on individual, contracts, in line with the corporation's policy of reducing prices as soon as it becomes possible through the realization of cost savings. Reductions in contract prices apply to future shipments as well as to shipments already made. Price reductions effected in the current, quarter and applicable to shipments in that quarter amounted to approximately \$57,000,000."

Mr. Sloan, in referring to some of the difficulties encountered in establishing the 11.4% increase in dollar volume of war deliveries in the third quarter of this year, said:

"The changing demands of war still require a constant revision of production schedules. The production of certain types of war products has been reduced in recent months. As these adjustments take place total production is adversely affected, because a certain amount of specialized capacity which would otherwise be contributing to production totals is removed from effective use. The capacity available for the production of specific products is seldom suitable for the production

of other types of war material without a reorganization of production

"During the first nine months of 1943," Mr. Sloan reported, "deliveries of war materials accounted for 94% of all products sold. Everything the corporation is producing is either directly or indirectly essential to the support of the war program."

Net income available for dividends, after providing for taxes in the amount of \$63,587,000, for the third quarter amounted to \$40,129,260, the report shows. The latter compares with \$35,718,910 for the same quarter a year ago and with \$42,997,929 for the corresponding period of 1941, the last peacetime year. After paying the regular dividend of \$2,294,555 on the \$5 series preferred stock, there remained in the quarter under review net income of \$37,834,705 available for the common stock. This was equivalent to 87 cents per share on the average number of common shares outstanding during the period. For the third quarter of 1942 net income available for the common stock amounted to \$33,424,355, equivalent to 77 cents per common share.

For the third quarter of 1942 net income available for the common share.

"It frequently becomes necessary to make substantial charges against earnings of a particular quarter which have no direct relation to the operations of that quarter?" Mr. Sloan reported. "Thus, the earnings records of any single quarter should not be taken as indicative of a trend. Later adjustments may necessarily result in substantial modifications, and in either direction."

Net income available for dividends, after providing for taxes in the amount of \$171,273,000, for the first nine months of 1943 amounted to \$109,519,455. The latter compares with \$33,562,119 for the first nine months of 1942 and with \$161,175,834 for the corresponding period of the peacetime year of 1941. After paying regular dividends of \$6,883,665 on the preferred stock, net income available for the common stock for the first nine months of 1943 amounted to \$102,655,790, equivalent to \$2,36 per share on the average number of common shares outstanding during the period. This compares with \$76,678,454 for the first nine months of 1942, equivalent to \$1.76 per share of common stock.

For the third quarter of 1943 there was an average of 457,445 employees on the corporation's wartime pay rolls. This exceeded the previous record of 426,554 employeed during the second quarter of this year, and compares with an average of 332,973 during the third quarter of 1942. During the first nine months of 1943 the average number of employees was 430,043, compared with 292,256 for the corresponding period a year ago.

Pay rolls in the third quarter of 1942. For the first

quarter of 1942. During the first nine months of 1943 the average number of employees was 430,043, compared with 292,256 for the corresponding period a year ago.

Pay rolls in the third quarter of 1943 totaled \$341,535,382, compared with \$234,915,655 for the third quarter of 1942. For the first nine months of 1943 total pay rolls amounted to \$935,302,731, compared with \$253,719,794 for the corresponding period a year ago. Of the aggregate pay roll in the first nine months, \$65,081,245 represented premiums paid for overtime to hourly-rate employees. This overtime payment represents a premium of 50% for work in excess of eight hours per day or 40 hours per week and a 100% premium for the seventh consecutive day worked in the work week. "As such it is a direct inflation of the cost of production inasmuch as there is no corresponding increase in output," Mr. Sloan pointed out.

Average earnings per week for hourly-rate employees in the United States for the third quarter of 1943 were \$58.09, compared with \$55.45 in the third quarter of 1942. For the first nine months of 1943 average weekly earnings were \$56.42, compared with \$52.87 during the corresponding period a year ago.

The consolidated balance sheet at Sopt. 30, 1943, gives effect to the acquisition of the assets and the assumption of the liabilities of Yellow Truck & Coach Manufacturing Co. based on preliminary figures available. However, consolidated income for the first nine months of 1943 includes only that proportion of the Yellow Truck earnings for that period which were applicable to General Motors for the first nine months. (The business formerly conducted by Yellow Truck is being carried on by the new GMC Truck and Coach Division of General Motors.)

Net income for the third quarter and the first nine months of 1943 also gives recognition to the following:

First: There has been deducted in the third quarter a provision of \$2,274,796 for post-war contingencies and rehabilitation. This brought the total provision to \$25,252,808 for the first nine mon

period.

Third: Federal income and excess profits taxes have been accrued on the basis of the Revenue Act of 1942.

material contracts.

Corporation's profit for 1943 on war material contracts is subject to review and possible adjustment through renegotiation by the Government, as provided by section 400 of the Public Act 528 (77th Congress) as amended. While provision of \$63,402,000 has been made in the first nine months of 1943 for retroactive price and other adjustments which may arise in connection with the renegotiation of war material-contracts, it is not possible to determine the effect of such renegotiation on the above summary of consolidated income.

tion on the above summary of consolidated income.

§The provision for taxes in the first nine months of 1943 is based on
the Revenue Act of 1942 and includes \$92,402,000 (after deducting
post-war credit of \$10,267,000) for U. S. excess profits taxes.

[Amount earned per share of common stock in the third quarter
of 1942 before reflecting reduction in provision for Federal income
taxes applicable to the first six months of 1942 amounted to \$0.60
per share. Taxes in the first six months were based upon the Tax
Bill as passed by the House of Representatives on July 20, 1942. Taxes
in the first 9 months of 1942 were based on the Revenue Act of 1942.

New Aluminum Forge Plant Opened-

New Aluminum Forge Plant Opened—

With the start of production on Nov. 3 at its newly-opened aluminum forge plant at Anderson, Ind., the fourth such unit in the division's nation-wide manufacturing system, Chevrolet's, capacity for the production of aluminum aircraft forgings will attain a new peak, according to M. E. Coyle, Vice-President of the General Motors Corp. and General Manager of Chevrolet.

During the past year, Mr. Coyle said, millions of pounds of aluminum forgings a month have been delivered by Chevrolet to aircraft manufacturers and to its own plants producing Pratt & Whitney engines for bombers and cargo planes.

Formerly used as a wire mill, the Anderson property covers 21 acres. Out of use for a number of years, the buildings and site were acquired by the Defense Plant Corporation early this year and turned over to Chevrolet for conversion and operation. So complete was the remodeling program, Mr. Coyle said, that only the shells of the original buildings were retained.

He added that the new unit will be operated under the supervision of the Chevrolet forge plant at Muncie, Ind., first of the division's forging units to get into volume production in aluminum.

50-Cent Common Dividend Declared-

The directors on Nov. 1 declared a dividend of 50 cents per share on the outstanding common stock, par \$10, payable Dec. 13 td holders of record Nov. 12. Similar distribution was made on Mar. 12, June 12 and Sept. 13, this year, and in each quarter during 1942. The directors also declared the usual quarterly dividend of \$1.25 per share on the \$5 preferred stock, payable Feb. 1 to helders of record Jan. 10. A like amount was disbursed on this issue each quarter during the current year.

Ceneral Tire & Rubber Co.—Registers 65,000 Preferred Shares—

Company has filed a registration statement with the Securities and Exchange Commission for 65,000 shares of cumulative preferred stock (par \$100) and will use the proceeds to retire its present preferred stock and for the construction or acquisition of additional facilities. The dividend rate will be supplied by amendment. The authorization of the new preferred stock will be acted on at a special meeting of stockholders Nov. 19.

Kidder, Peabody & Co., Lehman Bros, and The First Boston Corp., and the First Cleveland Corp. are named principal underwriters. Others will be supplied by amendment.

The offering price to the public will be supplied to the redemption of 21.875 outstanding shares of the company's 6% cumulative preferred stock, series A, at \$105 per share. It is the present intention of the company to apply a portion of the proceeds toward the construction of a new plant for the manufacture of tires and tubes. The company has options for the purchase of a site at Waco, Texas, but no definite plans have been made as to the type of building to be constructed, or as to the equipment to be installed. Orders have been placed for a portion of the machinery approximately \$1,250,000. The cost of constructing and equipping the plant is estimated between \$2,500,000 and \$3,500,000. The company also proposes to erect an additional building at its Akron plant at an estimated cost of \$200,000 to \$250,000.—V. 158, p. 1637.

Great Falls Gas Co.—Simplification Approved—

Great Falls Gas Co.—Simplification Approved—

The SEC on Oct. 14 approved simplification of company's capital structure. The SEC findings state in part:

Company is a subsidiary of North Continent Utilities Corp. North Continent is solely a holding company controlling 16 subsidiary companies which operate gas, electric, water, and other properties in seven states and two provinces of Canada.

Great Falls is a public utility company selling and distributing natural gas in the communities of Great Falls and Black Eagle, Montana. Natural gas is purchased at the city gate of Great Falls from Montana-Dakota Utilities Co.; a non-affiliated company.

As of March 31, 1943, the company's asset accounts were inflated substantially by the inclusion therein of an expired franchise in the amount of \$200,010, abandoned property in the amount of \$83,127, and certain other intangibles totalling \$298,050, which the company admits no longer have any place in its accounts. In addition, the depreciation reserve, as of March 31, 1943, of 5.8% of utility plant account, is admittedly inadequate. If the company's accounts reflected the write-downs and the increase in the depreciation reserve, as proposed in the company would be approximately \$937,000 as of March 31, 1943, as company would be approximately \$937,000 as of March 31, 1943, as company deviated with the principal amount of the company debt of \$1,125,000.

Despite the fact that virtually mo provision for depreciation was made prior to 1930, the company's carfnings were not sufficient to cover its preferred dividend requirements from 1928 through 1934 and also in 1933, and the company did not earn its interest requirements from 1928 through 1934. No dividends have been paid on the preferred dividend requirements from 1928 through 1934. No dividends have been paid on the preferred dividend requirements from 1928 through 1934. No dividends have been paid on the common stock. All of the voting power is, however, concentrated in the common stock. All of the voting power is, howev

14). Great fails proposes to write down the gross book value of 25, 1943;

(5). Great Falls proposes to write down the gross book value of its plant account, which amounted to \$1,522,952, as of March 31, 1943, to original cost, which is estimated by the company to be \$1,038,936, as of March 31, 1943; to write off \$83,127 of abandoned property and \$14,044 of stock discount and expense, shown as deferred items on the balance sheet of March 31, 1943; and to add \$75,000 to its depreciation reserve.

The plan presented here, if effectuated, will result in the creation of a much better balanced capital structure: debt will aggregat \$5.1% of the net property account, as adjusted to eliminate known questionable items and to increase the depreciation reserve substantially; the preferred stock and preferred dividend arrears will be eliminated, and the company will have a single class of stock whose equity will equal 42.9% of the net property account, as adjusted. Since the plan brings about a reasonably sound corporate structure and an equitable distribution of voting power, we find that the plan is necessary to effectuate the provisions of Section 11 (b) —V. 107, p. 608.

International Nickel Co. of Canada, Ltd .- Usual Div.

International Nickel Co. of Canada, Ltd.—Usual Div. The directors on Nov. 1 declared a dividend on the common stock of 50 cents per share in United States currency, payable Dec. 31 to holders of record Dec. 1. This is the 105th dividend declared on this issue. Distributions of 50 cents per share were also made on March 31, June 30 and Sept. 30, 1943.

The Canadian Foreign Exchange Control Board has authorized the disbursement of the current dividend in United States dollars in respect of certificates issued by the company's Toronto, Montreal and New York transfer agencies and at the equivalent in pounds sterling in respect of certificates issued by the company's London transfer agency.

agency.

The company's interim financial report on results for the first nine months of 1943 will be released to shareholders Nov. 12 and will show net profit after all charges, depreciation, amortization, taxes, etc., for the period of \$23,205,451, according to a statement by Robert C. Stanley, Chairman and Pres'dent. [This would be equal after preferred dividend requirements to \$1.48 a share on the common stock, compared with \$24,377,124, or \$1.57 a common share in the first nine months of last year.]

"The directors are giving the most careful consideration to the common stock dividend policy and are of the opinion that the prospects, of reduced earnings may require a reduction of the dividend rate for 1944." Mr. Stanley added. "The directors have concluded that the present year should be completed without changing the 50-cent quarterly rate,"—V. 158, p. 985.

An application by the company for an order stating it was not a subsidiary of New Jersey Power & Light Co., NY PA NJ Utilities Co., Associated Gas & Electric Corn. or Associated Gas & Electric Corn. or Associated Gas & Electric Co. The SEC said the company failed to show that its management and policies are not subject to a controlling influence by Associated holding companies. It held that Associated admitted it purchased its interest in Jersey Central to acquire control and has participated in the affairs of the company. The Commission stated that directors of Associated have taken a working part in handling problems of Jersey Central's affairs and that Associated furnished its detailed monthly operating report.

McResson & Robbills, Inc.—Freierred Stock Issue Approved—Two New Directors Elected—

W. J. Murray, Jr., President, in a statement released on Oct. 29, announced completion of the corporation's program of recapitalization which was approved by vote of stockholders at a meeting in Baltimore, Md., and authorized by the board of directors.

Proxies totalling 78% of the common stock were received and voted in favor of authorizing 200,000 shares of new preferred stock. An unusually small negative vote of approximately ½ of 1% was cast, Mr. Murray said.

"The necessary approvals by stockholders and by the board of directors have been given to the terms and conditions of the public sale of 150,000 shares of 4% cumulative preferred stock on Oct. 25 by an underwriting syndicate headed by Goldman, Sachs & Co.," Mr. Murray said. "Thus our company's outstanding capitalization will shortly consist of these shares plus 1,682,726 shares of common stock; and the company will have no funded indebtedness.

"Proceeds from this sale, together with other company funds, will be used to finance retirement of the \$5,600,000 of 5½% cumulative preferred stock which has been called for payment Nov. 29 at 109½ plus accrued dividends, and of the \$12,131,000 of 3½% debentures called for payment on Dec. 14 at 107% plus accrued interest."

Mr. Murray also announced that the stockholders had elected S. D. Lediesdorf & Co., as auditors for the current fiscal year and that all directors had been relected, with the addition of Wilbur E. Dewell, Vice-President and General Manager of the company's manufacturing division, Bridgeport, Conn., and of James H. Parks, of San Francisco, Regional Vice-President for the company's Western District.

North American Co.—Common Dividend in Pacific Gas & Electric Co. Stock—Reduces Bank Loans—

Gas & Electric Co. Stock—Reduces Bank Loans—

The directors on Oct. 29 declared a dividend on the common stock, payable in the form of common shares of the Pacific Gas & Electric Co. at the rate of one share of Pacific Gas and Electric for every 100 shares of North American common stock held.

The dividend will be paid Jan. 3 to stockholders of record Dec. 3, subject to approval of the SEC. In lieu of fractional shares of Pacific Gas and Electric stock, cash will be paid at the rate of 29 cents per share of North American common, based on the current market price of approximately \$29 per share of Pacific Gas and Electric. A similar dividend was paid oct. 1, last (see V. 158, p. 581).

The directors also declared the regular quarterly dividends of 75 cents and 71% cents a share on the 6% and 54% \$50 par value preferred stocks, respectively, payable Jan. 3 to stockholders of record Dec. 10.

The directors further authorized the prepayment of \$544,075 principal amount of 2% bank loans currently outstanding in the amount of \$34,881,500.

Hearings Consolidated—

The Securities and Exchange Commission ordered Oct. 28 a condidated hearing for Nov. 9 on a number of matters affecting North merican Co, and North American Light and Power Co, and its subdiaries, particularly the claims of Illinois Iowa Power Co, against the latter.

solidated hearing for Nov. 9 on a number of matters affecting North American Co. and North American Light and Power Co. and its subsidiaries, particularly the claims of Illinois Iowa Power Co. against the latter.

The Commission in its order stated that this "limited consolidation" should not prevent the separate consideration and disposition of issues raised by North American's plan filed under Section 11 tet of the Holding Company Act last August, which are unrelated to the Issues arising on the Illinois Iowa claims.

These claims, according to the statement filed with the SEC, on Oct. 6, 1942, arose "on account of transactions between those two companies of an allegedly unfair and illegal character," Light and Power asked the Commission to dismiss the statement of claims on the ground of lack of jurisdiction. This the Commission denied.

Later, Illinois Iowa filed a complaint in the U. S. District Court of Del. on causes of action based upon the facts asserted in the statement of claim filed with the SEC, while the hearings before the Commission were in progress. On motion of counsel for the SEC, however, the court stayed the action pending completion of the hearings before the Commission are:

"Whether, as between North American Co. and North American Light & Power Co., the former is liable, and to what extent, for any just and proper claims of Illinois Iowa Power Co. against the latter company, and whether appropriate provision should be made therefor in any fair and equitable plan for distribution of the North American Co. assets;

"Whether in the event that any just and proper claims of Illinois Iowa Power Co. against. North American Light & Power Co. are not satisfied out of the assets of that company, appropriate provision should be made for the deficiency in any fair and equitable plan for distribution of North American Co., in relation to North American Co. in leation to North American Co. on account of its holdings of debentures theref, and in relation to other claimants, in any fair and equitable p

Philadelphia, Baltimore & Washington RR. — Bonds Sold Privately—The ICC on Oct. 29 authorized the company to issue \$12,929,000 of general-mortgage 3% bonds, series E, to be sold at par and accrued interest to the Equitable Life Assurance Society of the U. S. and the proceeds applied to the redemption on Dec. 1, 1943, of like amount of outstanding general-mortgage 41/2 % bonds, series D.

Authority has also been granted to the Pennsylvania RR to assume, lessee and guarantor, obligation and liability in respect of such

as lessee and guarantor, obligation and liability in respect of such bonds.

The report of the Commission states in part:

The properties of the Philadelphia, Baltimore & Washington are operated by the Pennsylvania under a lease dated Dec. 13, 1917, for a term of 999 years from Jan. 1, 1918, and substantially all its capital stock is owned by the Pennsylvania. Under the provisions of the lease the lessor is required to reimburse the lessee for expenditures made for additions and betterments to its property, such reimbursement to be made in money, or if money is not available, in bonds or stock, or both, of the lessor. As rental the lessee is required to pay among other things, a sum sufficient to enable the lessor to provide for and pay at the proper times all installments of interest and of sinking funds when and as they become due.

By previous orders we authorized the P., B. & W. to issue and deliver to the Pennsylvania a total of \$12,923,000 of general mortage bonds, series D, in reimbursement of advances made for improvements to its property, retirement of underlying bonds, or in exchange for bonds of another series. These bonds were sold and are now outstanding. The series D bonds bear interest at the rate of 4½% per annum payable semi-annually on June 1 and Dec. 1, and will mature on June 1, 1981. They are redeemable as a whole on June 1, 1941, and

thereafter on any interest-payment date to June 1, 1951, at 107½ and accrued interest, and at premiums decreasing periodically thereafter. It is proposed to call the series D bonds for redemption at 107½ on Dec. 1, 1943, and to provide part of the funds for that purpose by the issue and sale of \$12,929,000 of general mortages 3% bonds, series £. Funds for the payment of premium and expenses incident to the transaction will be advanced by the Pennsylvania and carried by it as open-account indebtedness to the lessee, without interest.

The proposed series £ bonds will be secured by the general mortgas' dated Jan. 1, 1918. These bonds will be issued in coupon form registerable as to principal in the denomination of \$1,000 or as registered bonds without coupons in the denomination of \$1,000 or any multiple of \$1,000, coupon bonds and registered bonds to be interchangeable. Coupon bonds are to be dated Oct. 1, 1943, and registered bonds so of the date of authentication. Pending the preparation of definitive bonds, temporary bonds of the denomination of \$1,000 or any multiple thereof may be issued substantially of the tenor of the coupon bonds, but without some or all of the coupons, or of the registered bonds without coupons. They are to bear interest at the rate of 3% per annum payable semi-annually on April 1 and October 1, and will mature on Oct. 1, 1978. The principal and interest are to be payable in such coin or currency of the United States of America as at the time of payment is legal tender for public and private debts. The bonds will be redeemable as a whole prior to maturity at the option of the P., B. & W., on any interest date on not less than 60 days' notice, at 105 if redeemed on or before Oct. 1, 1950; thereafter to and including Oct. 1, 1957, at 1014; thereafter to and including Oct. 1, 1977, at 100½; and thereafter at par, with accrued interest in all cases: The series £ bonds are also to be redeemable in part on Oct. 1 in any year from 1944 to and including 1977 through operation of the sinking fu

Prior Lien Bondholders' Committee Issues Report-

The prior lien bondholders' committee, John W. Stedman, Chairman, in a letter dated Oct. 30, to holders of certificates of deposit for, and holders of, prior lien mortgage bonds of the company states:

A broad program has been negotiated, with the active participation of your committee, for the recognition of the rights of prior lien bondholders and the advancement of the reorganization. This program includes three major topics, a substantial interest payment, a settlement of the controversial RFC-RCC claims and an agreement among the three bondholders committees as to allocations of securities in a new plan of reorganization. These matters are summarized below.

Interest Payment

Interest Payment

On and after Nov. 12, 1943, a further portion of the unpaid interest on prior lien bonds will be paid by the trustees, namely, the Jan, 1 and July 1, 1943, installments of interest, amounting to \$40 per \$1,000 bond of series A and \$50 per \$1,000 bond of series B. The prior lien mortgage contains an unlimited tax-free covenant, and in accordance with the court order and applicable regulations the debtor trustees will pay, for account of bondholders (other than domestic corporations) who file ownership certificates in appropriate form and state the amount of the payment, Federal income taxes equal to 2% of the amount of interest paid.

By the terms of the court order, acceptance of this interest payment will constitute a waiver of interest on the interest represented by such payment; but such acceptance will not constitute a waiver of any interest on principal or of interest on any other installments of interest on principal. These payments are apportioned among the several series in proportion to their respective interest rates. The order reserves jurisdiction to make any appropriate adjustments consequent upon these payments in the effectuation of a plan, the order not being intended as an adjudication of relative rigths. The order also directs, payment of interest of (1) \$160.60 per \$1,000 Port Scott bond and (2) \$48.91 per \$1,000 consolidated bond, series A, and \$65.21 per \$1,000 consolidated bond, series B, these being the amounts derived at the above, rates on their pledged collateral.

Previous Interest Payments

Five previous interest payments have been made on prior lien bo nce July 1, 1932, as follows:

Pa	id on	or after	•			rged against installments d	ne I	Series A		00 Bond
Oc	t. 23;	1939	- 144 /			1933		\$8.72		810.90

A substantial amount of said sums still remains uncalled for. Holders of certificates of deposit which have not been stamped to reflect the making of all the above payments should apply at once to the committee's depositary, Central Hanover Bank & Trust Co., 70 Broadway, New York City, for separate forms of transmittal letters to be used in requesting each of the above interest payments not already made and should then apply for such payment on the applicable form of transmittal letter in the manner required by the instructions.

Compromise of RFC-RCC Claims

of transmittal letter in the manner required by the instructions.

Compromise of RFC-RCC Claims

One of the most controversial issues in the reorganization, which threatened further delay by dispation, namely, the claims of Reconstruction Finance Corp. and the Railroad Credit Corp. for special treatment, is now to be settled. A fuller statement follows.

The special treatment claimed by RFC and RCC is the allowance to them of about \$7,000,000 in new first mortgage bonds, representing the total claim of two loans made by RCC, and the principal of one loan made by RFO, to the Frisco in 1932 to provide for payment of property taxes and interest on outstanding bonds and equipment trust obligations, in the hope of averting protracted receivership. RCC holds no substantial collateral; RFC holds \$7,500,000 of pledged system bonds; both have always claimed, however, that, in addition to the new securities issuable in respect of the RFC collateral, they were entitled, by virtue of all the circumstances under which the loans were made, to receive new first mortgage bonds in the above amount. The Commission, over the objection of the committee and others; sustained those contentions and allotted to RCC \$3,691,060 of new 4% fixed interest bonds dated Jan. 1, 1940, and to RFC \$3,390,000 of such bonds (in addition to the new securities issuable in respect of its pledged collateral). The District Court, however, sustaining the objections of the committee and others to the resulting plan of reorganization, held that these allotments could not be sustained and disapproved the Commission's plan because of that preference. From that decision RFC and RCC appealed to the U. S. Circuit Court of Appeals for the Eighth Circuit, where the case is presently set for hearing in Jan, 1944. In view of the importance of the issue the losing parties in that court could be expected to apply for review by the U. S. Supreme Court and if such review were granted, a further delay would ensue. Desirous of avoiding the delay of further litigation an

interest) of the bonds allowed as a special priority by the Commission Iequal also to 40.87% of the original principal of RCC's loans less all sums received in respect thereof. In addition RCC will retain all amounts hereafter distributable to the Frisco or its subsidiaries under the Marshaling and Distributing Plan of RCC, estimated at not exceeding \$120,000.] This settlement was recommended to the District Court by the three committees and by the debtor trustees, the latter characterizing the settlement as one which they:

"" o" in view of all the circumstances, including the saving of time in ultimate reorganization which should be accomplished thereby, believe to be reasonable and in the best interest of the estate and accordingly recommend."

On Oct. 14, 1943, the District Court, after notice by mail and publication and a hearing entered an order approving the settlement and authorizing the debtor trustees to purchase the claims of RFC and RCC at the above prices from funds of the estate. It is expected that such purchase will be consummated on or shout Nov. 23, 1943. Therepipon the appeals of RFC and RCC will be dismissed and the cause remanded to the Commission for further proceedings on a plan.

New Plan of Reorganization

New Plan of Reorganization

Upon remand to the Commission, the committee, in agreement with the Fort Scott committee and the consolidated committee, will urge that the new capitalization previously approved by the Commission be continued without any great change except an increase of about \$7,200,000 in the income bond issue, and that appropriate changes be made in the allocations of new securities to reflect the retirement of the Birmingham bends, the compromise purchase of the RFC-RCC claims and other developments, so as to produce the following results:

It must be recognized that these are increly recommendations that the Commisted that the commission, and, that the Commission may refuse to approve them and may approve a materially different plan. No plan can become effective until approved by the Commission and the District Court and submitted to the security holders. Those steps will in any event require a substantial time and it is too carly to estimate when they can be completed, but the committee intends to press for the fastest practicable progress.

General General

The committee will continue its active advocacy of the interests of the bondholders. Deposits and assents as of Oct. 15, 1943, aggregated \$45,542,850 (of which \$1.254,000 are expressed to be conditional), or 38.7% of all prior lien bonds outstanding in the hands of the public. The withdrawal charge currently in effect is \$3.44 per \$1,000 bond.

Earnings and Position

For the period from Jan. 1 through Aug. 31, 1943, the system gross revenues were reported as \$73.252,000, compared with \$53.816,000 in the corresponding period of 1942 (an increase of 36.1%); the balance available for interest was reported as \$16,390,000, compared with \$14,009,000 in the corresponding period of 1942 (an increase of 17.0%). These figures should, however, be considered in the light of war conditions; and their effect on business and transportation; they should not be viewed as any indication of the earnings to be expected in less extraordinary years. It should further be noted that the increase in reported net available for interest, while substantial for the period, was realized altogether in the first four months, a decrease being reported in the remainder of the period, due to a gradual decline in the increase shown by 1943 gross revenues over 1942 and to higher wages, costs, depreciation charges and taxes. Cash on hand after the disbursements mentioned above in "Interest Payment" and "Compromise of RFC-RCC Claims" will adequately protect operating requirements.

San Diego Gas & Electric Co.—Bonds Offered — The First Boston Corp. and Harriman, Ripley & Co., Inc., on Nov. 4 offered \$5,000,000 1st mortgage bonds, 3%% series, due July 1, 1970, at 112½ and accrued interest. The offering does not represent new financing by the company. The bonds are part of a \$16,000,000 issue, the company's sole funded debt, sold to an institutional investor in 1940, and were recently acquired privately by the bankers. the bankers.

the bankers.

Company is credited with having crowded a normal 25-year expansion program into about two years, with almost no increase in debt, between 1940 and 1942 when the population of San Dicgo, Calif., doubled and requirements for service from governmental, industrial, domestic, and other consumers of electric energy and gas were correspondingly increased. The population served by the company in San Dicgo and Orange counties, Calif., is estimated at approximately 500,000.

Expansion of operating revenues has been in keeping with the extraordinary growth of population in the territory served by the company, increasing from \$8,634,000 for 1939 to \$13,134,000 for 1942, and \$13,893,000 for the 12 months ended Aug. 31, 1943. In the better period income after depreciation and Federal income taxes amounted to \$2,189,000, or 4.06 times interest requirements.

Investment in utility plant was carried on the company's books at \$54,158,000 at the end of 1942, companyed with \$39,169,000 at the end of 1942, companyed with \$39,169,000 at the end of 1936, an increase of \$14,991,000. During that period funded debt, increased only \$500,000, while the remaining funds were provided partly from the sale of \$1,207,000 preferred stock and \$2,468,000 common stock, the balance having been taken out of earnings. The ratio of funded debt per dollar of operating revenues declined from \$1.89 in 1937 to \$1.15 in the 12 months to Aug. 31, 1943.—V. 156, p. 1675.

Southern Union Gas Co.—Plan Approved—

The Securities and Exchange Commission approved Oct. 16 a plan of reorganization filed by Southern Union Gas Co. and its subsidiary, Arkansas Western Gas Co. The proposed transactions follow:

1. The amendment by Arkansas of its corporate charter so as to provide for the existence of but one class of stock, namely, common stock of the par value of 85 per share, and the issuance and delivery of such reclassified stock in exchange for, and in retirement of, the presently

outstanding stock of Arkansas, consisting of 2,500 shares of 6% cumulative preferred stock (par \$50) and 11,270 shares of common stock (no par), such exchange to be made upon the basis of the issuance and delivery of 7,6545 shares of new stock for each share of stock presently outstanding (without distinction as between preferred and common stock), no fractional shares of such new stock to be issued or delivered but cash payments to be made in lieu thereof at the rate of \$5 per share.

2. The surrender to Arkansas by Southern Union of the preferred and common stock of Arkansas owned by Southern Union in exchange for new stock of Arkansas owned by Southern Union in exchange for new stock of Arkansas on the above basis and the disposition by Southern Union, such disposition to be effected by means of a dividend to be declared by Southern Union upon its own common stock and to be payable in shares of the reclassified stock of Arkansas, payment thereof to be effected by delivery by Arkansas of such new stock to the persons entitled to receive such dividend, cash to be paid by Arkansas in lieu of the issuance of fractional shares in the same manner as above described in connection with the recapitalization of Arkansas.

3. The acquisition by certain persons, namely, Murchison Oil Co.

Arkansas,

3. The acquisition by certain persons, namely, Murchison Oil Co.,
Wofford Cain, John Dabney Murchison, Clint W. Murchison, Jr., C. W.
Murchison and Lee Moor, owning 5% or more of the voting securities
of a public utility or holding company as defined in the Act of such
amount of new stock of Arkansas as they may be entitled to receive
by reason of the dividend to be declared by Southern Union, as above
discorbind.

by reason of the dividend to be declared by southern Union of such amount described.

4. The acquisition and retirement by Southern Union of such amount of its outstanding bonds and debentures as may be necessary or convenient in carrying out the following proposals:

(a) Upon, or concurrently with the consummation of the above transactions, Southern Union will retire \$200,000 25-year sinking fund 6% debentures either by purchasing such debentures in the open market and delivering the same to the trustee under the indenture securing such debentures for cancellation or by redeeming such debentures in accordance with the governing indenture provisions, or in part by each of such methods.

each of such methods.

(b) Southern Union will also set aside an additional amount of \$200,000 in cash and will thereafter apply such cash to the acquisition of
property constituting a capital expenditure or to the retirement of its
first mortgage bonds or its debentures or in part to each of such purposes, and, if such funds shall not have been exhausted by Feb. 1,
1944, Southern Union will, on that date, pay over the remaining portion
thereof to the trustee under the indenture securing its first mortgage
bonds or to the trustee under the indenture securing its debentures,
or in part to each of such trustees, for the redemption of such debtsecurities.

Stock Distribution-

A special dividend of one-tenth of a share of new (reclassified) common stock of Arkansas Western Gas Co. has been declared on each share of common stock of the Southern Union Gas Co., payable Nov. 15 to holders of record Nov. 1. No fractional shares of Arkansas Western common stock will be issued but instead Southern Union stockholders will receive cash at the rate of \$5 per share of Arkansas Western common stock. An initial cash distribution of 10 cents per share was made on the \$1 par common stock on May 15, last.—V. 158, p. 295. share p. 295.

Peabody & Co.; Harris, Hall & Co. (Inc.); Glore, Forgan & Co.; Clark, Dodge & Co.; and Eastman, Dillon & Co.

The Series B Preferred is subject to redemption, as a whole at any time or in part from time to time, upon not less than 30 days notice at \$110 per share before May 1, 1945 and at \$107.50 per share here-after, in each case including accrued dividends. Provision also has been made for an annual sinking fund to be applied toward the purchase or redemption of the issue.

History and Business—Company was incorp in New York in 1905 to acquire the properties and business of a corporation of the same name organized in New Jersey as the successor to the business established in 1858, by Dr. E. R. Squibb. Originating as manufacturing chemists to the medical profession, the company is now engaged in the manufacture, distribution and sale of pharmaceutical, medicinal chemical, biological, vitamin and household medicinal and tollet products. Approximately 92% of net sales are of products manufactured by the company, the balance being packaged and distributed by the company under its established standards of test and control. Company's products (approximately 570 items) include standard preparations and many of its own specialties and are sold throughout the United States and in a number of foreign countries to the medical, dental and veterinary professions, the consuming public, various institutions and governmental agencies. During the war, a substantial portion of the company's sales has been to the United States Government for use of the armed forces. Company understands that a considerable part of the purchases of its products by the U. S. Government is for 'lend-lease' putposes involving foreign governments, but the company does not know the extent of such purchases and Federal, State and local governmental agencies. Company sells to such customers both directly and through its factors, the latter being selected drug wholesalers who receive Squibb, products on consignment. In addition to its sales head-quarters

June 30, 1943. Sales of vitamin products, which have increased materially in the last five years, represented approximately 23% of such net sales for the last fixed year. Vitamin products include products such as cod liver oil, vitamin tablets and capsules, and professional specialties chiefly sold upon prescription.

The company ploneered in extensive research in and development of Penicillin, and at the request of the U. S. Government, is collaborating with certain other manufacturers of drugs and chemicals in research in and development of Penicillin under agreements involving Joint ownership and cross-licensing of patents and exchange of information. Company's research laboratories and others are actively engaged in efforts to discover a method for the synthesis of Penicillin, which discovery might render obsolete the present method of production through fermentation. Nevertheless, the company has undertaken, in view of the needs of the armed forces, to construct an extensive laboratory for the production of Penicillin by fermentation. For this purpose the War Production Board has issued a project rating certificate extending the necessary priorities for acquisition of materials and equipment in the sum of \$514,000. The total cost of the facilities for manufacture of Penicillin presently projected will approximate \$1,100,000. Company is applying for a certificate of necessity which, if granted, will permit it to amortize the cost of these facilities over the period of the war or of five years, whichever is shorter. Other companies are also engaged in the production of Penicillin by fermentation.

United Public Utilities Corp.—Sale Plan Approval—

United Public Utilities Corp.—Sale Plan Approval—
The Securities and Exchange Commission on Oct. 14 approved the plan of the corporation to sell all the outstanding securities of two of its non-utility subsidiaries, Cap F Bourland Ice Co. and Texas Ice & Refrigerating Co., to non-affiliates for cash, and to use the proceeds from such sales to redeem its outstanding bonds.
The Commission at the same time granted United an additional six months to March 4, 1942, which directed the holding company to divest itself of all its interest in six subsidiaries, including Bourland and Texas Ice. United has sold its Texas Ice holdings to John W. Harding, of S39,321; which will be retained by Texas Ice, which will pay United a partial liquidating dividend of \$120,000. This dividend will be charged to paid-in surplus to be created for the purpose of reducing the par value of the common stock of Texas Ice from \$100 to \$70 a share.

Cap F Bourland Ice Co. has been sold to Walter Mcomman and Ross Tankersley, of Fort Smith, Ark., for \$50,000 in cash, less net current assets of \$2,601 to be retaked by Bourland. The agreement of sale provides that prior to transfer of the stock Bourland will pay to United a partial liquidating dividend of \$23,912.

Pursuant to a Plan filed with the Securities and Exchange Commission by this corporation and its subsidiaries. Texas Ice & Refrigerating Co. and Cap M. Bourland Ice Co., and approved by the Commission by Order entered Oct. 14, 1943, the corporation has called for redemption as of Jan. 1, 1944 a total of \$714,000 of 6% collateral trust convertible bonds, series A, due Jan. 1, 1960. Payment will be made at the Provident Trust Co. of Philadelphia, trustee, 17th and Chestnut Sts., Philadelphia, Pa. C. McC. Peale, Treasurer, on Nov. 1 stated:

"Except for the accrued interest supplied by the corporation, this partial redemption will be made out of the proceeds of pledged securities."

partial redemption will be made out of the proceeds of pledged securities.

"As provided in the Plan and the approving Order of the Commission, the trustee will pay in redemption of called bonds the principal thereof, with accrued interest to Jan. 1, 1944, plus a premium of, 4% of the principal thereof. The Commission, upon request of the corporation, has filed proceedings in the U. S. District, Court for the District of Delaware for the enforcement of the Plan and if an additional premium of 1% on the called bonds should be found to be payable upon final determination in such proceedings and not otherwise such additional premium, will be paid to the holders of the bonds so redeemed out of funds entrusted with the trustee for such purpose. In accordance with Order of the Court entered Oct. 26, 1943, a hearing will be held on said application at Wilmington, Del. on Nov. 23, 1943. Surrender of bonds for redemption shall be without prejudice to the rights of the holders or owners thereof to receive the additional 1% premium if such premium shall have been found to be due as aforesaid and the holders of unregistered Bonds are urged to register their addresses with the Trustee for such purpose. "Attention is called to the provision in the bonds permitting their conversion into class A common stock of the corporation at any time prior to the redemption date."—V. 15d, p. 779.

Virginia Public Service Co.-Plan Approved by SEC

Virginia Public Service Co.—Plan Approved by SEC
The Securities and Exchange Commission on Nov. 2, amended plan of recapitalization for the company designed to distribute its voting power "fairly and equitably" among security holders.

Amendments approved covered the following transsactions:

1. The return to Virginia of the \$1,165,166 held in escrow under conditions described in Commission's previous findings and opinion.

2. Extinguishment of all Virginia's existing preferred stock (both the 7% and 6% series) and of all unpaid dividend accumulations thereon, and of all Virginia's existing common stock, and issuance by Virginia in, lieu thereof of 1,079,649 shares of new common stock (having a par value to be determined as set forth below) to be issued as follows:

(a) Eleven shares of new common stock for each share of existing preferred stock 7% series and its unpaid dividend accumulations, or a total of 444,840 shares of the new common representing 41.2% of the issue;

(b) Ten shares of new common stock for each share of existing preferred stock 6% series and its unpaid dividend accumulations, or a total of 537,640 shares of the new common representing 49.8% of the issue; and

(c) 97,169 shares of new common stock for the existing common of the issue; and

preferred stock 6.% Increase and the new common representing 49.8% of a total of 537,640 shares of the new common representing common at the issue; and

(e) 97,169 sheres of new common stock for the existing common stock all of which is held by General Gas & Electric Corp.), representing 9% of the new common.

The new common stock will have a par value per share equal to the quotient obtained by dividing the sum of the capital and surplus accounts of Virginia on the Dec. 31 next preceding the effective date of the plan (after giving effect to certain accounting entries herein-after mentioned) by 1,079,649, any excess in such quotient over the largest amount evenly divisible by 50 cents to be excluded from such par value, however, and to be credited to capital surplus. Upon the issuance of the new common stock the amount of capital represented by the presently outstanding preferred and common stocks will be climinated. Thereupon, Virginia's capital will be equal to the total par value, determined as above, of the 1,079,649 shares of new common stock.

par value, determined as above, of the 1,079,649 shares of new common stock.

To give effect pro forma to consummation of the plan as amended, further adjustments would be made to climinate the existing earned surplus deficit and preferred and common stock accounts, and set up new common stock and capital surplus accounts in accordance with the proposed formula. If the foregoing entries and formula were applied to the balance sheet as of Dec. 31, 1942, the new common stock would have a par value of \$7.50 per share, representing a total capital of \$8,097,368, and pro forma capital surplus would be approximately \$200,000.

The plan as amended is in conformity with Commission's findings and opinion entered Oct. 15, 1943, and the provision for giving the new common stock a par value, the proposed method of determining such par value, and the proposed accounting entries, meet the applicable standards of the Act and have its approval. On the basis of the foregoing and Commission's prior findings and opinion, the Commission finds that the plan as amended is necessary to effectuate the provisions of Section 11 (b) and is fair and equitable to the persons affected by such plan —V. 158, p. 899.

Court, which has been asked by the city to validate the refunding the city to validate the refunding ioan, it was reported in Florida press advices of Oct. 31. Mr. Milledge is reported to have advised the court that the refunding "is not necessary," that the city is not in dire financial condition and thus cannot consistently come under provisions of the 1931 general refunding act. He also is reported refunding act. He also is reported to have pointed out that the city has levied a millage of not more than 26.6 mills during the past five years and that the rate for the fiscal year beginning Nov. 1, 1943, is 24.5 mills. The city, he said, could provide for payment of the debt proposed to be refunded by increasing the tax rate by only 1.8 mills, which would leave the total levy still below the figure for the preceding five years. He further noted, according to report, that the city assesses property for tax purposes at 50% of full market value.

A syndicate headed by Halsey, Stuart & Co., Inc., Chicago, submitted the only other offer made for the bonds, naming a price of 101,4381 for the entire issue to bear 234 minterest. The bid provided for delivery of \$3,620,000 of the bonds, to be optional 1945-1960, on Dec. 1, with the remaining \$4,726,000, optional 1945-1961, to be delivered at a future date. Both parts of the issue were to be covered by separate resolutions of the County separate resolutions of the County Commissioners and it was speci-fied that delivery of bonds in each instance be accompanied with approving legal opinions of Chapman & Cutler of Chicago. In addition to this tender, the Halsey, Stuart group entered a separate proposal for the \$3,620,000 part of the issue, as 2s, at a price of 101.018. the issu 101.018.

101.018.

The fact that the county received only two bids for the issue was attributed, to the refusal of Chapman & Cutler of Chicago, the firm of municipal atorneys which normally passes on the legality of all new bond issues by the county and other Chicago governmental units, to submit an approving opinion on all of the bonds included in the current award. As previously reported in these columns—v. 158, p. 1776—the law firm agreed to furnish an approving opinion on that part of the law firm agreed to furnish an approving opinion on that part of the issue, amounting to \$3,620,-000, intended to be used to fund certain judgments against the county, the validity of which already has been established by the Illinois Supreme Court. The attorneys, however, declared that they could not submit an approving opinion on the remaining balance of \$4,726,000 bonds until the validity of the various unpaid bills of the county which are to be retired from this portion of the bond issue was established by the Illinois Supreme Court in a the Illinois Supreme Court in a test suit. Financing Power of Third Class Cities Reported — It was announced recently by William S. Livengood, Secretary of Internal Affairs, that 46 third class cities in Pennsylvania can borrow \$69,-342,685 to finance post-war public improvement projects.

improvement projects.

Livengood, who opined that communities can do the best job of local planning, said the cities had a total taxable valuation of \$1,565,383,413 in 1942 and the state constitution permits them to incur "an aggregate debt of \$109,576,845" by its 7% limitation. "Fortunately, ho we ver, the cities have kept their indebtedness far below this maximum limit, having actually created a net bonded and floating debt of slightly over \$50,000,000," he added.

slightly over \$50,000,000," he added.

"When cash, delinquent taxes collectible and other credits are taken into consideration, this leaves a remaining borrowing capacity of \$69,342,685. Of this amount, \$14,754,036 could be made available by councilmanic action alone, while an additional \$54,588,649 could be borrowed if and as approved by a vote of the electors."

Tax Ruling Saves \$700,000 For City — The following report appeared in the Philadelphia "Inquirer" of Oct. 22:

The city will save approximately \$700,000 as a result of a State

Supreme Court decision invalidat-ing the claim of a Philadelphia trust company that the 1943 Tax Abatement Act excuses interest and penalties on both delinquent and current taxes, Receiver of Taxes W. Frank Marshall declared yesterday.

The high court decision against the Land Title Bank and Trust

Co., trustee of a \$900,000 issue of mortgages for the Majestic Hotel, Broad St. and Girard Ave., upheld a Common Pleas Court ruling that the law did not excuse a 7% pen-alty which was imposed after realty taxes were marked "registered delinquent" by the Receiver

of Taxes.
"The Supreme Court decision,"
Marshall said, "if it had been against the city, would have resulted in a loss both to the city and the school district, so far as the high batels are concerned, of the big hotels are concerned, of about \$200,000 and an additional sum of \$500,000 based on an estimate of the delinquent taxes now being paid under the Abatement

Marshall explained that in addition to this, the city and school district would have had to make refunds of taxes already collected.

The Receiver estimated that the The Receiver estimated that the total amount of registered delinquent taxes being paid off under the Abatement Act was approximately \$10,000,000. This figure includes penalties added by city ordinances for non-payment durant the first time that the first time that the state of ing the first six months of the year in which the taxes were year in which the taxes assessed.

Report on Bond Default—It is reported that the above city defaulted on its Sept. 15, 1943, payment of interest due on its refunding bonds which were issued in 1933 bearing graduated interest rates from 1½% to 6%. Following this default, the city, through its attorney Orville I. Cox, filed suit in the District Court for the 93rd Judicial District, Hidalgo County, Tex., asking the court to adjust its rights and the rights of the bondholders in the sinking fund, and further to adjust the fund, and further to adjust the rate of interest to be paid to the bondholders and amounts to be applied to the refunding account. The suit is known as City of Mc-Allen, Texas, et al vs. The Dunne-Israel Company, et al and the plaintiff city's petition names about 50 bondholders who collectively own and hold substantially. about 30 bondholders who collectively own and hold substantially all of the city's \$1,000,000 of outstanding debt consisting of Series A and Series B bonds, dated Sept. 15, 1933 and maturing in the years
