Acme Steel Co.—Declares Extra Dividend— On Nov. 4: the directors declared an extra dividend of 25 cents per share, in addition to the regular quarterly dividend of \$1 per share, both payable Dec. 12 to stockholders of record Nov. 21. Like amounts were paid on Sept. 12, last. On June 12, a quarterly of \$1 was dis-bursed, while on March 12, the company paid 75 cents per share. The common stock received \$3.30 per share in the year 1946.—V. 166, p. 1781.

Aetna Industrial Corp.-Acquires Oscar Heineman-Actual industrial Corp.—Acquires Oscar Heineman— Walter W. Weismann, Chairman of the board, on Nov. 4 announced that final negotiations have been completed for the acquires for the Oscar Heineman Corp. of Chicago, one of the largest processors of yarn in the country. By the terms of sale, Actna acquires, for \$3,900,000 cash, 45,000 shares of class A common stock, 7,000 shares of \$100 par preferred stock and 5,000 shares of class B common stock, representing the entire outstanding capitalization of the Oscar Heine-man Corp. The latter has plant facilities totaling 226,000 sq. ft. of floor space and housing 116,000 spindles. Donald G. Brewster, who has been associated with that company since 1921, has been named Fresident and General Manager. He has headed the company as Vice-President since the death of Oscar Heineman, founder. No other personnel changes are being made, Mr. Weismann said.—V. 166, p. 1573.

Alden Wonderall Co., Minneapolis, Minn.-Files with

Altern Wolldesan Co., SEC.— The company on Oct. 31 filed a letter of notification with the SEC for 37,300 shares of common stock. The offering price is \$2 a share. Underwriter, Holley, Dayton & Gernon, Minneapolis. The proceeds will be used to pay liabilities and for working capital.—V. 166, p. 1250.

Allegheny Ludium Steel Corp.—Orders New Mill— This corporation has placed an order for a 40-inch electrically powered slabbing-blooming mill, it was announced on Nov. 4 by M. C. Harris, Vice-President in charge of operations. The new mill, ordered for late 1948 delivery from the Morgan Engineering Co., of Alliance, Ohio, will replace the blooming mill at the company's Brackenridge, Pa., plant. The mill, with a 60-ton heavy-duty crane, feeder and approach tables and electrical equip-ment, will cost about \$3,500,000, it was said.—V. 166, p. 1781.

Allied Chemical & Dye Corp.—To Merge Units.— The General Chemical Co., Semet-Solvay Co. and The Solvay Process Co., wholly-owned subsidiaries, will be merged with the parent com-pany on Nov. 1. The business of these subsidiaries will hereafter be conducted by their present organizations as divisions of Allied Chemical & Dye Corp.—V. 165, p. 3273.

American Coils Co.—Reorganization Trustees Appoint. The Lincoin National Bank of Newark, N. J., was ordered by Fed-eral Judge Smith on Oct. 30 to show cause Nov. 3 why it should not be compelled to turn over \$31,219 on deposit for the company to trustees reorganizing the business. "The trustees, Andrew B. Crummy, Newark, lawyer, and Thomas W. Binder, company President, were appointed Oct. 28 on petition of the companuy, which listed assets of \$947,989 and current liabilities of more than \$250,000. However, the concern said in its petition that it did not have sufficient eash to meet its obligations. The bark refused to surrender the deposit, the trustees charged. They want to use the money in the administration of the business. The bark was further accused of illegally applying the fund on a first morizage of \$83,000 it holds on a factory building owned by American Coils Co. The trustee also alleged that part of the deposit, \$11,593, belongs to American Business Credit Corp. The trustees said that the factory is under contract for sale for \$120,000, the buyer to assume the mortgage held by the bank. Judge Smith authorized the trustees to sell receiver certificates to get cash necessary to keep the company going. (Newark "News,")----W. 164, p. 1325. #### Borg-Warner Corp.-Continues Expansion Program-

Borg-Warner Corp.—Continues Expansion Program— Construction projects that will increase the manufacturing facilities of six different divisions of this corporation are under way or soon will start, C. S. Davis, President, announces. "We have not permitted rising costs of building to retard our physical expansion." Mr. Davis said. He added that the current con-struction work is part of an overall Borg-Warner expansion program begun in 1940. Since then about \$35,000,000 has been spent, or com-mitted, for improved or enlarged production facilities. The Mechanics Universal Joint Division, whose operations presently are conducted in Rockford, III, expects to have completed by Jan. 1 an additional 137,300-square-foot plant in Memphis, Tenn., which with complete equipment will cost nearly \$3,000,000. This plant will produce universal joints and propellor shafts for Ford passenger automobiles. The Norge Division is increasing the production facilities of its Effingham and Herrin, III., and Chattanooga, Tenn., plants at a cost

gitized for FRASER //fraser.stlouisfed.org/ of nearly \$500,000. Borg-Warner's Detroit Gear Division is completing an expansion program which will increase its capacity and provide it with a thoroughly modern and efficient automotive transmission plant. Formerly operating in two locations in Detroit, this division now has transferred all its manufacturing activities to one plant, which has been equipped with the latest machines to make straight-line output possible.

The Borg & Beck Division, a manufacturer of automotive clutches, will relieve congestion within its Chicago plant and permit future increased production schedules by starting immediate construction of s 5500,000, one-story, L-shaped, brick-and-steel building that will pro-vide 77,250 square feet of additional floor space. The new building will adjoin the present plant. The Pesco Products Division is starting construction of a \$120,000 Haboratory on a newly acquired 35-acre site. in suborban Cleveland. The Aboratory will be used for testing aircraft fuel systems. The Morse Chain Co, Division is nearing the completion of a \$2.000,-000, three-year program of rehabilitation and expansion in its Ithaca, N. Y. plant. At least 50% of the plant layout has been rearranged, with a large assemblage of new machinery. -V. 166, p. 1251.

--V. 166, p. 564. Davega Stores Corp .- Plans Recapitalization mon Holders to Receive Dividend on 5% Preferred Stock

mon Holders to Receive Dividend on 5% Preferred Stock At a meeting of the directors held on Oct, 30 it was unanimously voted to recommend to the stockholders the approval of a plan of recapitalization which includes the authorization of \$2,500,000 of \$20 par value preferred stock issuable in one or more series. The initial series consisting of 60,600 shares of 5% preferred stock would be distributable in accordance with the plan pro rata among the holders of the outstanding common stock in the ratio of one share of 5% preferred in respect of each four shares of common stock outstanding, the number of common shares outstanding remaining unchanged. The authorized but unissued preferred stock will be reserved to meet the future financial requirements of the business. It is intended that such initial series of 5% preferred stock be receenable at \$21 per share, be convertible for a period of ten years into common stock at 25, i.e., in the ratio of eight shares of common for ten shares of 5% preferred and have the benefit of a sinking or purchase fund out of current earnings, such restrictions on the issue of additional preferred stock, such voting rights on default of dividends and on special mat-ters, and such other protective provisions as will be set forth in full in the plan of recapitalization to be mailed to stockholders shortly,

gether with notice of the special stockholders' meeting to act on

the same. Subject to the requisite approval of stockholders and the receipt of a confirmatory tax ruling that the consummation of the plan does not result in a taxable gain to the corporation or to its stockholders, it is contemplated that the plan will be carried into effect on or about Jan. 2, 1343. Application will be made for the listing of the 5% pre-ferred stock on the New York Stock Exchange. Cash dividends will be acted upon at the regular meeting of the board on Dec. 3, 1947.—V. 165, p. 2663.

**Doman Frasier Helicopters, Inc.**—Stock Offered—John Nickerson & Co., Inc., New York on Oct. 27 offered 5,000 shares of common stock (par \$1) at \$1.50 per share. These Securities are offered as a speculation.

These Securities are offered as a speculation. —HISTORY AND BUSINESS—Company was incorporated in Delaware in August, 1945 and has established its principal place of business in Stratford, Conn. Company was organized for the purpose of carry-ing through the proper development of a rotor system for a helicopter, different in certain important essentials from the articulated or hinged type being used today. — A rotor system may be described as the blades which give the lifting power and forward motion to the chlocopters, the hut around which the blades revolve, and certain controls. The Doman Rotor System from all tests has been found to operate with a smoothness in flight not generally experienced in present day helicopters, and an eradication of extreme stress and strain, which before the introduction of this rotor system caused an unduly short blade life. The Doman Rotor Unit can be placed in helicopters being manufactured or in existence today. — Development testing conducted since the first flight on July 11, 1947, has provided substantiating data which has been submitted to the Air Materiel Command. The company is currently seeking contracts with the government. It is the opinion of the company that with government contracts in

hand, further working capital can be obtained either through the receipt of cash orders from private companies that have evidenced interest in the company's project, or from financial interests. In addition, at the request of the Air Materiel Command, the com-pany is studying the application of its designs to a helicopter of 8,000 pounds gross weight. This size is judged to be well suited to a broad commercial market.

#### Duplan Corp.-To Pay 4% Stock Dividend-

On Nov. 5, the directors declared a 4% stock dividend on the presently outstanding capital stock, payable Nov. 28 to holders of record Nov. 17. This is the first dividend since the 2-for-1 stock split-up effective on Oct. 9, 1947, and corresponds to the two 2% stock dividends declared during the first half of the preceding fiscal year on the lesser amount of stock then outstanding. Instead of issuing a fraction of a share to any stockholder, pay-ment will be made in cash of the market value on Nov. 17, 1947, of such first.

ment will be made in cash of the market value on Nov. 17, 1947, of such fraction. Previous payments this year, prior to the split-up, were as follows: On Jan. 31, 30 cents in cash; March 18 and May 28,  $2^{\prime}$ , each in stock; and Aug. 1, 50 cents in cash. Disbursements in 1946 were: Feb. 1, 30 cents in cash; May 28,  $2^{\prime}e$  in stock; Aug. 1, 30 cents in cash; and Oct. 18 and Dec. 27,  $2^{\prime}e$  each in stock.—V. 166, p. 1577.

#### Eastern Air Lines, Inc .- Dividend Omitted-

The directors at their meeting held on Nov. 1 took no action on the dividend which ordinarily is payable in December. Semi-annual dis-tributions of 25 cents each were made on June 16, 1947, and on June 28 and Dec. 16, 1946. On May 15, last year, three additional shares of stock were issued for each chare held. Capt. Eddie Rickenbacher, President and General Manager, said the board felt it wise to pass the payment rather than pay it out of borrowed funds.

Jacobs & Co., New York, are offering 100,000 shares of class A common stock (par \$1) at \$3 per share. These securities are offered as a speculation. Transfer agent, Registrar and Transfer Co., New York, and 15 Ex-change Place, Jersey City, N. J. Registrar, United States Corporation Co., New York, and 15 Exchange Place, Jersey City, N. J. COMPANY--Company was incorporated in Florida Sept. 13, 1944 under the name of Florida Fibres, Inc. for the purpose of acquiring and improving lands, planting, growing and harvesting ramle and processing ramie to produce commercial fiber, cattle and poultry feed and other products to be obtained from the ramie plant. On Nov. 14, 1944 the name was changed to present title. RAMIE-Ramie has been used as a textile and cordage fiber for centuries in the Orient, where it is prepared entirely by hand. The modern rami: industry as recently developed in Florida, however, processes ramie by mechanical means. The industry takes from the ramie stalks a long, white silky fiber of remarkable strength and usefulness and, at the same time, converts the leaves and stalk residues into a rich meal for cattle and poultry leeds. Florida Ramie Products makes use of the entire ramie plant, there is no waste. Ramie is the strength of the dry fiber ranges from 135,000 pounds to 240,000 pounds per square inch, greatly surpassing flax, cotton, hemp or silk in this respect. In addition to using the fiber of the ramie plant, the top of the plant and the leaves which are not suitable for making tiber, are used to produce an exceptionally good cattle and poultry leed by dehydra-tion. In some respects, ramie meal surpasses alfala meal. PLANT AND LAND-Company is the owner of an eight acre plant site located at Belle Glade, Plant Beach Coonty, Fla. This site is centrally located in the northern Everglades. The plant is built of heavy mill construction founded on creosoted piles driven through eight or nine feet of muck deep into the underlying mari rock. The buildings are all designed to witnstand a wind of hu

eight or nine feet of muck deep into the underlying marl rock. The buildings are all designed to winstand a wind of hurricane velocity of 165 miles per hour. One production line has been installed but the plant is designed to have three production lines, each having a rate! capacity of 500 pounds per hour of well decorticated, undegummed ramis liber, washed, dried, baled and warehoused, ready for shipment. Present installations also include complete mechanical equipment for chopping, dehydrating, grinding and bagging all of the green ramie coming from the fiber processing plant which is not suitable for fiber. The company holds approximately 4.471 acres of rich and deep muck land in the area along the West Palm Beach Canal, 23 miles west of West Palm Beach under a State land purchase contract. An additional tract of approximately 640 acres cwned in fee, has been improved by the company now purchases lis, ramie by contract from a number of growers who have planted about 1,000 acres of ramie for the purpose in the area served by the company in coarsing plant, Until such time as it will prove more economical for the company to use ramie from its own plantation the company intends to continue its present policy of purchasing ramie from these contract planters.

of purchasing ramie from these contract planters. OPERATIONS—Company is purchasing its green ramie from plan-tations operated by the State of Florida as well as private growers. The State is offering every encouragement to the company in order to establish ramie as a profitable Florida crop and also to provide a cheap feed of excellent quality for dairy and beef cattle, as well as poultry, thereby encouraging dairying and the raising of livestock and poultry throughout the State. By diversifying its sources of green ramie, the agricultural risks are thereby considerably reduced. Ramie roots are planted initially and continue to produce year after year without replanting. These roots, planted under conditions similar to those of the company's sources, have produced regularly ior a period of ten years and are still producing. Under the climatic and soil con-ditions of the Everglades, the yield per acre is three to four 10-ton cutongs per year.

of the years and are still producing. Under the climatic and soll con-ditions of the Everglades, the yield per acre is three to four 10-ton cuttings per year. The green ramie is harvested in the field by the company using its own special harvester-binders and is brought to the plant on special hauling equipment developed and owned by the company. The ramie is then unloaded by a power-driven crane and mechanically conveyed and decorticated, the resulting fiber being washed, dried, baled and placed in the warchouse for shipment in carload lots. At the same time, those parts of the plant which are not used for fiber are chopped, dehydrated, ground and bagged and are also placed in the warchouse for local sale as cattle and poultry feed. The company is now commencing commercial operation of its plant at Belle Glade, Fla., producing ramie fiber and ramic meal from green ramie as soon as the ramie erop is ready for harvesting. It is esti-mated that the ramie will be ready about November, 1947. However, it had not previously commenced commercial production as its activi-ties to date had been limited to making repeated test runs to determine details of proper processing as well as consumer reaction to the com-pany's products. PURPOSE-II the entire issue now offered is sold, the net proceeds

pany's products. PURPOSE-If the entire issue now offered is sold, the net proceeds to the company will be \$240,000, to increase and improve the com-pany's manufacturing facilities by the construction and installation of new and additional machines for the decortication of raw ramie; to provide new and additional harvesting and hauling equipment for green ramie; to install degumming equipment so as to enable the company to sell degummed fiber; and to pay off current liabilities and add to working capital.

add to working capital. CAPITALIZATION—Company originally had an authorized capital of \$400,000, consisting of 3,000 shares of preferred stock (\$100 par) and 10,000 shares of common stock (\$10 par). On April 16, 1945 capitali-zation was increased to \$450,000 by increasing the common stock from 10,000 to 15,000 shares. On March 11, 1946 the 3,000 shares of pre-ferred stock (\$100 par) were changed to 30,000 shares of class A common stock (\$100 par) and the common stock was changed to class B common stock (\$100 par) and the common stock was changed to class B common stock (\$100 par) and the common stock was changed to class B common stock (\$100 par) and the common stock (\$1 par) and 150,000 shares of class B common stock (\$1 par) and both classes of stock were thereupon exchanged on the basis of ten for one. There-after, a stock dividend of class A common stock for each share of either class of stock then held. As of the commencement of this financing, there were outstanding 486,820 shares of class A common stock and 150,000 shares of class B common stock. If all of the shares now

offered are issued, the capitalization of the company will consist 800,000 shares of class A common stock (par \$1) of which 586,8 shares will be issued and outstanding and 150,000 shares of class common stock (par \$1), all of which will be issued and outstandin -V. 166, p. 566.

### Hudson & Manhattan RR.-Bondholders' Protective

Hudson & Manhattan RR.—Bondholders' Protective Committee—
 A newly formed protective committee is soliciting authorizations to represent holders of the first lien and refunding mortgage 5% bonds. The committee plans to seek representation for these bonds on the board of directors and in the management of the company. It also wants the management to case the purchase of adjustment income mortgage 5% bonds. The committee dealers that in the directors are board of directors and in the directors according to the first lien and refunding mortgage. It is charged by the committee that, instead of improving properties, the company has expended large sums to buy in the junior bonds. The committee declares that if it fails to accomplish its objectives through conferences with the management, "other appropriate methods, at present undetermined, will be considered."
 Those composing the protective committee are William A. Campbell, Executive Vice-President of Cross & Brown Co. and President of the Forma Corp.: Charles G. Stachelberg, former investment banker, and, Marcel H. Stieglitz, Secretary and a director of Wilson & Marx Inc. Robert Roy Dann, of the law firm of Aranow, Brodsky, Einhorn & Dann, 50 Breadway, New York City, is Secretary of the committee.— v. 166, p. 1479.

In their proposal to underwrite the offering at \$22 a share, Blyth & Co., Inc., and associates specified a charge of \$1.87 a share as compensation to cover the risks of the undertaking. A proposal naming a similar offering price, but specifying a com-pensation of \$2.20 a share, was received from V. C. Langley & Co., Shields & Co., and White, Weld & Co. Indianapolis Power disallowed a bid received from Otis & Co., on the ground that it was less than the minimum specified in the bidding invitation. The proposal of the Otis & Co. group specified an offering price of \$19½ a share, less underwriting compensation of \$1½ a share. During the period of the subscription rights the underwriting group way offer shares of the common stock to the public at a price no lower than the subscription price and no higher than the last sale price on the Way Kock Exchange in the preceding 24-hour period. Proceeds from the sale of the 214,451 additional shares of common stock will be applied toward the cost of the company's construction program which is estimated to call for expenditures of \$35,200,000 over a four-year period beginning Jan. 1, 1947. The balance of funds necessary to finance the construction program involves the construc-ion of a new generating station to be located on White River, near Indianapolis, at an estimated cost of \$13,383,000. The first 40,000 kw, turbo-generator is scheduled to be completion by the latter part of 1950.—V. 166, p. 1768.

#### International Minerals & Chemical Corp.-Plans Addi-

International Minerals & Chemical Corp.—Plans Addi-tional Dryer Facilities for Phosphate Operations— An increase in the output of phosphate rock to meet the growing demands of the fertilizer industry and agriculture will be assured by be new dryer facilities to be added by this corporation at its Noralyn plant now under construction near Bartow, Florida. Franklyin Farley, Vice-President in charge of the phosphate division, stated that the new plant will be able to handle about one million tons of phosphate ore annually—the entire output of the Noralyn mine. The installation is being designed and constructed by the Rust Engin-eering Co. of Pittsburgh and is expected to be in operation in about one year. It is planned that the mine proper will begin production of phosphate rock in February, but its output will be dried at other company facilities until the new equipment is ready. In addition to meeting the increasing domestic demands, the new facilities are expected to make available some surplus of output for foreign shipment to both Europe and the western Pacific areas, Mr. Farley said.—V. 166, p. 1684.

## NOTE—For mechanical reasons it is not always possible to arrange companies in exact alphabetical order. However, they are always as near alphabetical position as possible.

International Nickel Co. of Canada, Ltd.-Extra Div.-The directors on Nov. 3 declared an extra dividend of 40 cents per share and the regular quarterly dividend of 40 cents per share on the common stock, both payable Dec. 20 to holders of record Nov. 20. With these payments, dividends on this issue will amount to \$2 per share for the year 1947, as against \$1.60 in 1946. The 40-cent per share quarterly rate has continued without change since the first quarter of 1944. As heretofore the dividends will be disbursed in United States currency in respect of certificates issued by the company's Toronto, Montreal and New York transfer agencies and at the equivalent in stering in respect of certificates issued by the company's London transfer agency.—V. 166, p. 1480.

### International Telephone & Telegraph Corp.—New Vice-President—

Edward D. Phinney has been elected Vice-President. In 1936 he became associated with this company and has served as its general patent attorney since 1941. Mr. Phinney will continue in the latter capacity.—V. 166, p. 1783.

#### Interstate Department Stores, Inc.-Registers Debentures-

The company on Oct. 30 filed with the SEC a registration statement covering s5 000,000, 15-year sinking fund debentures, due Nov. 15, 1962. The debentures are to be marketed some time in November by- an underwriting group headed by Lehman Brothers. The indenture under which the debentures are to be issued will provide for an annual sink-ing fund beginning in 1949 sufficient to redeem 60°, of the issue by maturity. The interest rate, public offering price and redemption prices will be set forth in an amendment to the registration statement. Of the net proceeds to be received by the company from the issue and sale of the debentures, approximately \$1,900,000 will be used to prepay the company's promissory bank notes. The balance of the pro-ceeds will be added to the company's general funds and will be avail-able for general corporate purposes, including expenditures for modern-ization and improvement of store properties and the opening of new stores, the financing of increased accounts receivable, and the carrying of inventories. After riving effect ot the issuance and sale of the debentures, the outstanding capitalization of the company will consist of 308,946 shares of common stock ino pari, and \$5,000,000 15-year sinking fund de-bentures, due Nov. 15, 1962. Lustron Corp., Chicago — Completes Financing With \$16,340,000—Schedules 30,000 Houses in First Year— Carl G. Strandlund, President, announced oct. 31 that the firm had completed its financing with a total capitalization of \$16,340,000. The company, it is said, is the nation's first company to produce low-cost, long-life housing on an "automobile assembly line basis." Mr. Strandlund explained that the company expects within nine months to be producing its five-room, all-steel houses at a rate of 30,000 units a year. The financing, handled by Hornblower & Weeks of Chicago, involved \$840,000 in eash equity money from purchasers of common stock and an additional sum of \$860,000 additional money ypent on development. Against this equity, he explained, the Recon-struction Finance Corporation will loan Lustron \$15,500,000 over seven years at 16 shares for each \$100 of the loan. The directors of the company were also announced by Mr. Strand-lund. They include: Joseph E. Nolan, partner, Bell, Boyd & Marshall; Raymond Hurley, Vice-Chairman, Thor Corp.; Louis Leverone, Presi-dent, Automat'c Canteen Co. of America. and Howard E. Buhse, part-ner, Hornblower & Weeks, all of Chicago; George Delp, President, New Holland Machine Co., New Holland, Pa.; Paul O. Buckley, director, Federal Machine & Weider Co., Warren, Ohio, and Raymond Haynes, partner, Weilington & Co., New York.

Predefal Machine & Weider Co., Watten, Onto, and Maphiota In-pres-partner, Weilington & Co., New York. Mr. Strandlund said that he has resigned his position as Vice-Presi-dent and General Manager of the Chicago Vitreous Enamel Co. to become President of the new housing concern. He explained that his former company has withdrawn from the Lustron enterprise and sold all its rights to the new corporation. The Lustron Corp., which originally tried to obtain a lease to the Dodge-Chicago plant now occupied by the Tucker Corp., has leased the glant Curtiss-Wright plant in Columbus, Ohlo, one of the few available plants of sufficient size to house its large-scale operations. Mr. Strandlund said that the sole objective of the Lustron house is to bring to the mass population at a price they can afford a lifetime home offering beauty and utility features previously unavailable to this group.

home one, this group.

this group. The corporation proposes to build porcelain enamel steel houses, consisting of five rooms, plus a utility room, at a cost of \$7,000. This house, 32 x 35 feet 6 inches cverall, contains many features which in-clude a built-in vanity with an eight foot mirror in one of the bed-rooms, a built-in bokecase in the living room, built-in China closet in the dining room and cabinets in the k:tchen.

Mr. Strandhund explained that the porcelain enamel used in con-structing the houses differs from raint or other enamels in that it is an inorganic material and is applied to steel at such high temperatures that the enamel fuses with the steel. As a result, the finish is im-pervious to weather conditions, salt air, sulphur fumes and other harmful airborne substances which obviates upkeep on the homes dur-ing a lifetime.—V. 165, p. 812.

(R. H.) Macy & Co., Inc.—Debentures Offered—Leh-man Brothers and Goldman, Sachs & Co. headed an un-derwriting group that publicly offered on Nov. 6 20, 000,000 25-year 2% % sinking fund debentures, due Nov. 1, 1972 at 99½% and accrued interest. The net proceeds will be applied in part to the payment of \$7,000.000 in bank loans currently outstanding, with the balance added to the company's general funds. The remainder of the proceeds, together with additional funds which may result from depreciation accruals and undistributed earnings, will be used for its improvement and expansion program and for the carrying of increased receivables and inventories which may be necessary in connection with expanded operations. It is estimated, based on present cost levels, that the corporation's con-templated improvement and expansion program will require approxi-mately \$25,000,000 during the next five years.—V. 160, p. 1790.

Raymond J. Morfa, Chairman of the board, in a letter dated Oct. 25 and addressed to holders of the company's adjustment mortgage of 5% bonds of 1967, explained why the directors, at their Sept. 15 meeting, determined to make no payment of Oct. 1 interest on those bonds. and

#### Mr. Morfa's letter follows in part:

Mr. Morfa's letter follows in part: In this determination the directors were influenced by the need to conserve cash because of a pending substantial Federal income and excess profits tax liability; the continuously mounting cost of doing business due to increases in the cost of fuel, materials, supplies, etc.; the recent arbitration award increasing the wages of non-operating employes 15½ cents per hour, effective Sept. 1, 1947; the prospective demand by operating employes for a similar increase in wages, and the uncertainty of the action of the Interstate Commerce Commission with respect to the application of the railroads for relief through increased freight rates. Since the board meeting referred to above, the operating employes demands are disposed of the cost thereof will be undetermined. On Oct. 6, 1947, the Interstate Commerce Commission which, if granted, would be most costly to the carriers. Until these demands are disposed of the cost thereof will be undetermined. On Oct. 6, 1947, the Interstate Commerce Commission authorized temporary interim increases in freight rates averaging slightly less than 10% (which were made effective Oct. 13), pending a final decision on the application of the railroads for an increase of 27%. These temporary interim increases would yield, on the basis of the current volume of business, very little more than enough to offset the

increase in wages awarded to the non-operating employes. They are wholy inadequate to compensate for other increased costs. Of concern to the directors and officers has been the study and final audit of income and excess profits tax returns for the years. 1942, 1943 and 1944, which study has been under way for many months past. The final audit, which was received in September of this year, disclosed tax deficiencies for the years in question aggregating \$3,724, -322, including accrued interest and after allowing credit for the 1946 carryback. The present treasury position will not admit of the payment of this large sum and near-term commitments for capital obligations, without reducing working capital below the level of current require-ments. Officers of the company are in negotiation with representatives of the Bureau of Internal Revenue in an effort to effect an arrange-ment by which the payment of the deficiency assessments may be spread over a period of time.

There are now 30,615 shares outstanding which have a redemption value of \$42 per share. At the same time, the dividend rate of this stock was increased from \$2 annually to \$2.30 per share annually and the dividend was made fully cumulative. Certain minor changes in the protective provisions were made and the stock was designated "Preferred Stock" as it is the only preferred issue outstanding.

To Sell Part of Property-

To Sell Part of Property— The company has launched a nation-wide real estate sales campaign to attract new and diversified industries to the Nashau, N. H., area, Royal Little, President, announced on Nov. 3. The cost of this cam-paign will be borne by this company. Local and state development agencies are being invited to participate in the program. The plan, broadly, envisages the closing of the six buildings of the Nashua Mill which border on the Nashua River. These buildings have a total floor space of about 825,000 square fet. All of the remaining buildings at the Nashua Mill, as well as the company's modern Jackson Mill, in Nashua, comprising in all 2,000,000 square feet, will be retained. A small amount of the machinery is being transferred to these mills from the buildings to be sold, and approximitely \$1,200,000 are being spent by the company for additional new machinery and equipment, Mr. Little announced. Mr. Little estimated that the excess machinery, most of which is still in operation, will be available for sale shortly after Feb. 1, 1948. The buildings will become available for occupancy as soon after that date as machinery now in place can be sold and removed.—V. 166, p. 762.

Otis Elevator Co .- Builds New "Escalator"-

Otis Elevator Co.—Builds New "Escalator"— It was announced on Nov. 7 that this company has begun manu-facture of a new model "escalator" engineered to bring moving stair ways to thousands of locations where they have not previously been considered economically feasible. With a handling capacity of 5,000 persons per hour, this escalator has a width of 32 inches between handrails and is especially designed for a maximum rise of 23 feet. Escalators available in the past have been heavily constructed for rises of only 23 feet. Because this new model is built for a maximum rise of only 23 feet, the company has found it possible to use a lighter weight structural and mechanical members and practice other econo-mies, putting the device within reach of smaller-volume business establishments. An unprecedented demand has been exilibited since peacetime pro-fuction was resumed and the company's "escalator" business volume has fun to approximately 10 times that of normal prewar days, the approximated and edded. "Commenting upon the recent acquisition of American Coating Mills by Owen-Illinois. W. E. Levis. Chairman, stated that a new paper "board machine will be ready for operation early in 1948. This new mill will more than double the division's present production of clay-recoated box board. The increased capacity will enable the American "Coating Mills Division to meet more adequately the unprecedented demand of users of fine cartons and clay-coated box board, Mr. Levis said.

The company's new "1-Way" glass beer and ale bottles are finding a growing popularity among consumers and the development of a handy "carry-home" package which holds the "1-Way" beer or ale bottles will result in a further increase of the company's sales of both bottles and cartons, Mr. Levis predicted.

This brings total payments in 1947 to 70 cents per share, as com-pared with 52½ cents in 1946. The usual quarterly dividend of 53½ cents per share on the 4½% convertible preferred stock, par \$50, payable Jan. 2, 1948 to holders of record Dec. 20, 1947. At the same meeting, the board voted the eighth consecutive quarterly "wage-and-salary dividend" for employees, a profit-sharing payment amounting to 7¾ of base pay for employees with three years of service and lesser payments to workers with shorter service. In addi-tion, they voted employees an "extra" year-end dividend of 14% on the same service basis, making a total quarterly payment of 12% of guarterly base pay. V. 166, p. 1522.

Schiff Co .- Votes Change in Name and Split-Up-

12 (1896)

The stockholders at a special meeting held on Nov. 3 authorized changing the name of the company to the Shoe Corp. of America, authorized a large increase in capitalization, an increase in the number of directors from seven to 12 and the creation of a new class of stock which will make it possible for the Schiff family to retain control of the corporation. The authorized increase in capitalization provides for a two-for-one split of the present stock, making a total of 445,500 shares out-standing, and gives the company authority to issue a total of 2,250,000 shares of new stock. The only definite expansion plans of the company at present are

The only definite expansion plans of the company at present are to purchase the business of the Waynesboro Shoe Manufacturing Co. at Waynesboro, Pa., whose entire stock is now owned by five Schiff officers.

The company said its authorized new capital might be used in acquiring other companies, in increasing its holdings in the A. S. Beck Shoc Corp., increasing the company's manufacturing capacity or engaging in the export business.—V. 166, p. 1724.

Silverore Mines. Inc., Wallace, Idaho-Files with SEC Silverore Mines, inc., Wallace, Idano.—Files with SEC The company on Oct. 28 filed a letter of notification with the SEC for 1.345,000 shares of common stock, of which the company is selling 1.000,000 shares and the balance is being sold by four stockholders at 15 cents a share. The company will offer the securities directly with the aid of L. E. Nicholls & Co. and W. T. Anderson, both of Spokane, Wash., as underwriters. The company will use its proceeds for mining operations.—V. 133, p. 2900.

#### Skilsaw, Inc.-200% Stock Dividend, etc.

Skilsaw, Inc.—200% Stock Dividend, etc.— The directors on Oct. 27 voted a stock dividend of two shares of common stock, par S2, for each share presently held. The dividehd is payable Dec. 12 to holders of record Dec: 1. Simultaneous with the stock distribution, the company will pay a quarterly eash dividend of 30 cents a share on the same dates. This is equivalent to 90 cents on the present stock which received 45 cents per share in each of the three preceding quarters. Boton Sullivan, President, also announced that the directors had authorized a \$300.000 expansion program. The company will con-struct a new building of 40,000 sq. ft of manufacturing space which will be connected to its present plant at 5033 Elston Ave., Chicago, III. Ground for the addition probably will be broken next Spring. Sales billed by the company for the year to date are 70% ahead of the comparable period of 1946, Mr, Sullivan said. Prices of the com-pany are 10% above prewar levels, he said. The company decided to make a \$400.000 contribution to its profit-sharing system for 1947. Last year, it paid \$220,000 into the fund. The payment for 1947 will bring to close to \$1,000,000 contributions paid into the fund in a four-year period. Approximately 75% of the 620 employees of the company are eligible for benefits from the fund, Mr. Sullivan said.—V. 161, p. 315.

South Porto Rico Sugar Co.-Splits Preferred-

The stockholders at a special meeting held on Nov. 3 approved a proposal to change the authorized 8% preferred stock from 50,000 shares of \$100 par value to 200,000 shares of \$25 par value, four new shares to be issued in exchange for each old share held.-V. 166, p. 309.

Southern California Edison Co. — To Issue \$40,000,000 Preferred—To Be Sold Through Competitive Bidding—

Preferred—To Be Sold Through Competitive Bidding— The company on Oct. 30 made application to the California P.U. Commission for permission to issue and sell at competitive bidding: a new issue of \$40,000.000 cumulative preferred stock. Banking groups will be asked to bid on both price and dividend early in December. Proceeds of the issue will be used by the company to pay off bor-rowings amounting to approximately \$30,000,000, drawn against its \$75,000.000 stand-by bank credit agreements entered into with a group of California and eastern banks last July. Even though all borrowings to date will be paid off with the proceeds from the sale of this stock, it is expected that the company will permit the stand-by credit arrangement to remain in effect until its expiration in August. 1949. Mulendore, President, announced that the company's construc-tion program for the first nine months of 1947 has totaled approxi-mately. \$35.140,122, the largest amount ever spent in a comparable period in the company's history. In addition, the company has spent an additional \$13,171,010 so far this year on the company's frequency change program.

#### Standard Gas & Electric Co.-Resignations-

Standard Gas & Electric Co.—Resignations— Leo T. Crowley, Chairman of the board, and William Froelich, a director, will not be proposed for re-election as directors, according to an announcement by the management of its filing with the Securi-ties and Exchange Commission of a new slate of directors to be elected bec. 3. Mr. Crowley, long Chairman and chief executive officer of the system, which is being recapitalized in compliance with the public tillty holding company act, has resigned. He will be succeeded by C. A. Johnson, now Executive Vice-President. Judge Robert P. Paterson, formerly Secretary of War, and George E. Allen, former director of the Reconstruction Finance Corp., are being nominated to replace Messrs. Crowley and Froelich. The company stated that, notwithstanding the hearings which had been ordered by the Securities and Exchange Commission, it was the intention of the management to hold the stockholders' meeting in accordance with the company's charter and by-laws. Proxies, how-ever, will not be solicited until the company's proxy material is effective under the Commission's regulations.—V. 166, p. 1725. (Continued on page 48)

### **Bond Record «» New York Stock Exchange** FRIDAY -WEEKLY - YEARLY

NOTICE-Prices are "and interest"-except for income and defaulted bonds. Cash and deferred delivery sales are disregarded in the week's range, unless they are the only transactions of week, and when outside of the regular weekly range are shown in a footnote in the week in which they occur. No account is taken of such sales in computing the range for the year. The *italic* letters in the column headed "Interest Period" indicate in each case the month when the bonds mature. the Figures after decimal point represent one or more 32d of a point.

# NEW YORK CURB EXCHANGE WEEKLY AND YEARLY RECORD

NOTICE—Cash and deferred delivery sales are disregarded in the week's range unless they are the only transactions of the week, and when selling outside the regular weekly range are shown in a footnote in the week in which they occur. No account is taken of such sales in computing the range for the year. In the following extensive list we furnish a complete record of the transactions on the New York Curb Exchange for the week beginning on Saturday, Nov. 1, and ending the present Friday, Nov. 7. It is compiled from the daily reports of the Curb Exchange itself, and is intended to include every security, whether stock or bond, in which any dealings have occurred during the current year.

# THE COURSE OF BANK CLEARINGS

Bank clearings this week will show an increase compared with a year ago. Preliminary figures compiled by us, based upon telegraphic advices from the chief cities of the country, indicate that for the week ended Saturday, Nov. 8, clearings for all cities of the United States from which it is possible to obtain weekly clearings will be 13.6% above those of the corresponding week last year. Our preliminary total stands at \$13,460,608,649 against \$11,853,055,520 for the same week in 1946. At this center there is a gain for the week ended Friday of 36.6%. Our comparative summary for the week follows:

Total all cities for week	\$13,460,608,649	\$11,853,055,520	+ 13.6

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday and the Saturday figures are not available at time of going to press.

Accordingly, in the above, the last day of the week in all cases has to be estimated. In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results for the week previous - the week ended Nov. 1. For that week there was an increase of 4.7%, the aggregate of clearings for the whole country having amounted to \$14,276,376,091 against \$13,636,-238,170 in the same week in 1946. Outside of this city there was a gain of 12.2%, the bank clearings at this center having recorded a loss of 1.4%. We group the cities according to the Federal Reserve Districts in which they are located and from this it appears that in the New York District (including this city) the totals record a loss of 1.2%, but in the Boston Reserve District the totals register a gain of 6.2% and in the Philadelphia Reserve Bank of 11.9%. The Cleveland Reserve District has to its credit a gain of 9.1%, the Richmond Reserve District of 6.5% and the Atlanta Reserve District of 3.6%. In the Chicago Reserve District the totals show an improvement of 11.1%, in the St. Louis Reserve District of 26.7% and in the Minneapolis Reserve District of 24.9%. In the Kansas City Reserve District the totals are larger by 11.2%, in the Dallas Reserve District by 25.2% and in the San Francisco Reserve District by 14.9%.

Standard Oil Co. (Ohio)—Common Stock Offered— As mentioned in our issue of Oct. 27 the company is offering to the holders of its outstanding common stock of record Oct. 21, the right to subscribe at \$23.75 a share for an aggregate of 584,117 shares of common stock at the rate of one share for each five shares then held. Rights expire at 3 p.m. on Nov. 5. The offering is being underwritten by an investment banking group headed by F. S. Moseley & Co.

Such subscription rights will be evidenced by subscription warrants which will be exercisable upon surrender thereof and payment of the subscription price at the office of Chase National Bank, New York, agent, or at Continental Illinois National Bank & Trust Co., Chicago, or at American Trust Co., San Francisco, or at National City Bank, Cleveland, sub-agents.

PURPOSE—The net proceeds will be added initially to the general unds of the company. It is expected that such net proceeds together ith other available funds may be applied to the payment of capital spenditures, and any balance thereof not so applied will be added fu

to working capital to enable the company to meet the increased cash requirements of its operations resulting from larger volume of business and higher cost inventories. requirements of its operations resulting from larger volume of business and higher cost inventories. CAPITAL EXPENDITURES—During the calendar year 1946, Sohio's' capital expenditures amounted to \$21,066,672, of which \$11,450,254, was for crude oil production, \$2,724,706 for transportation, \$1,517,225 for refining, \$5,051,020 for marketing and \$263,467 for miscellaneous expenditures. The budget for the calendar year 1947 contemplates capital expenditures of approximately \$27,000,000, of which approx-imately \$12,500,000 is for crude oil production, \$5,600,000 for trans-portation, \$3,000,000 for refining and \$5,600,000 for marketing. While the amounts which may be required for capital expenditures in future years will be dependent upon many factors, including general business and economic conditions, developments in the industry and Sohio's operating results, it is anticipated that capital expenditures will continue to be substantial in amount. The additional funds, if any, winca may be required for sources for general funds or from the proceeds of bank loans, long-term debt, sale of preferred or com-mon stock or some combination of these sources. to its amended articles, of incorporation, the company was authorized to issue a total of 5,000,000 shares of common stock (\$10 par). HISTORY AND BUSINESS—Company was incorporated in Ohio on Jan. 10, 1870. Sohio is engaged principally in the production, pur-chase, transportation, refuling, and marketing of crude petroleum and products derived therefrom. In connection with these activities, it is engaged, through lease or otherwise, in acquiring and developing prospective and proven oil and gas properties, in marketing automobile accessories through retail outlets, and in miscellaneous operations incidental to the foregoing. Based on total balance sheet assets as of Dec. 31, 1946, Sohio ranked 17th among the principal companies in the industry. Until 1935 Sohio's principal activities were refining and marketing, At that time, with the objective of achieving lower costs and a greater assurance of its crude oil supply, it began developing an organization with the necessary facilities for the purchasing and gathering of crude oil and refined products pipe lines. Sohio started aggressively to develop its crude oil production activ-ities in 1942. This program progressed rapidly during the war years. Textron Inc.-To Expand Tricot Unit-

A new quick-drying textile fabric and finish that eliminates the drudgery of ironing has been developed and its impact will revolution-ize the women's lingerie business, Royal Little, President, announced on Oct. 29

on Oct. 29. Textron-Tricot, the newest of Textron's operations, has been set up to turn out a specialized type of knitted women's wear. The term Tricot, meaning knitted, comes from the name of the highly complicated knitting machines which produce the special cloth from which high quality women's intimate wear is made. The corporation has equipped a plant at East Greenwich, R. I., with the latest Tricot knitting machines and further expansion is contemplated as soon as additional labor and machinery are available. Knitting, finishing, cutting, sewing and shipping operations are integrated within the East Greenwich plant.—V. 166, p. 850.

## Thompson-Starrett Co., Inc.-Replies to Group-

The management of the company on Oct. 29 replied to publicly an-mounced plans of a stockholders' committee to elect a controlling group of directors at the stockholders' meeting to be held on Nov. 24. The management declared that the original suggestion of a group of really men that they would be willing to invest "up to \$1,000,000" in this corporation developed later into a suggestion for the transfer of "certain real estate, some of which was subject to mortgage, and to acquire an 80% interest" in the company. The directors demurred on the ground that such a transaction would put the company in the real estate business and make its construction business of secondary importance —V. 166, p. 1725.

Thornton Lumber Co., Ravalli, Mont.—Files with SEC The company on Oct. 27 filed a letter of notification with the SEC for 1,152 shares (\$100 par) common and 1,848 shares (\$100 par) 6% cumulative preferred stock, to be sold at par. Underwriter, L. A. Donahue, Billings, Mont. The proceeds will be used for payment of Habilities and construction of mill.

inland waterways.-V. 166, p. 1828. United Air Lines, Inc.-Rise in Passenger Fares Sought A 10% increase in air fares, which still would leave them 5% lower than in 1941, is asked in a tariff filed by this corporation with the Civil Aeronautics Board for an effective date of Dec. 12. The proposed increase averages one-half cent a mile. Rising costs plus the need for maintaining a sound air transportation system now has dictated the increase from 5.1 cents a mile to 5.6 cents, according to W. A. Patterson, President, who added: "Since the last pre-war year, the construction price of planes has soared 61% while wages and salaries have gone up 61.8%. New construction needed to handle today's volume of business cost two to three times as much. All other costs have increased in about the same proportion. In 1941 United did \$19,363,119 worth of business to earn \$1,086,961. The first six months of this year we did \$30,179,300 worth of business and lost \$3,200,200." Before seeking the increase, Mr. Patterson said, United effected economies which this year will amount to \$5,250,000. Also, the com-pany has asked for an increased air mail rate. The company cur-rently receives 45 cents per ton-mile as contrasted with \$5.28 per ton-mile in 1932 and \$1.09 in 1941. Signs Agreement With Pan American Airways—

ton-mile in 1932 and \$1.09 in 1941. Signs Agreement With Pan American Airways— One of the most extensive interline air freight and express agree-ments ever entered into by scheduled carriers has been signed for United Air Lines and Pan American World Airways, it was announced jointly by Harold Crary, United's Vice-President in charge of traffic and sales, and Willis G. Lipscomb, Pan American's Vice-President in charge of traffic and sales. The agreement now permits through shipment of air cargo between 75 cities on United's nationwide and San Francisco-Honolulu routes and the hundreds of points on Pan American's round-the-world, Alaska and Latin American system. The agreement provides that a shipper need prepare only a United Airbill and a shipper's letter of instruction, together with necessary consular and customs documents. United and Pan American will handle transfers at international gateways. Douglas Contract Completed—

-Payment for Ships Authorized-On Oct. 22, the directors declared a quarterly dividend of 62½ cents per share on the common stock, payable Dec. 16 to holders of record Dec. 3. This compares with 50 cents each paid on June 12 and Sept 2, and 25 cents each on March 10 and April 30, 1947. A 10' stock dis-tribution was also made on Jan. 15, last. In 1946, a total of \$1 per share in cash was paid. The directors also have approved the payment, out of company's cash resources, of approximately \$7,000,000 in connection with the acquisition of the remaining vessels of the new fleet of 40 cargo ships previously contracted for with the Maritime Commission. These ships should be delivered in the course of the next few months and the pay-ment will increase the equity of the company in the fleet to that extent.

## United Light & Railways-Amended Plan Filed-

United Light & Kaliways—Amended Plan Filed— The company and its subsidiary, American Light & Traction Co. have filed an amendment to its prior plans filed with the SEC. The plan, as modified, proposes, in summary, as follows: (1) American Light shall continue as a registered holding company owning an integrated gas utility system, which will include the prop-crities owned by Michigan Consolidated, Milwaukee Gas Light Co, and Milwaukee Solvay Coke Co., the properties to be owned and operated by Michigan-Wisconsin Pipe Line Co, and by Austin Field Pipe Line Co., and such additional properties as may hereafter be acquired by American Light or its subsidiaries with the approval of such State and Federal regulatory bodies as may have jurisdiction over such acqui-sitions.

Federal regulatory bodies as may have jurisdiction over such acqui-sitions. (2) During 1948, American Light will discontinue the payment of cash dividends on its common stock and pay dividends on such stock in The Detroit Edison Co. stock dividends will be paid quarterly on the basis of one share of Detroit Edison stock for each 75 shares of American Light common stock. In such distributions, cash shall be paid in lieu of fractional shares or scrip. (3) To the extent which may be necessary, resources and credit of American Light will be utilized to assist in financing the new pipe line system. The common stock to be issued by the two pipe line com-panies will be retained in the integrated system and senior securities of those companies will be issued to others. Construction funds will be needed by the pipe line companies at various intervals and the funds to be invested by American Light in the pipe line enterprise will be provided (a) from cash now on hand, (b) from cash accumulated by virtue of the discontinuance of cash dividends on common stock and (c) from the sale of shares of Detroit Edison stock. To this end, and without making further application to the Commission:

(i) From time to time as funds are needed for the construction of its proposed pipe line, Michigan-Wisconsin shall have authority to issue and sell up to 250,000 shares of its common stock (par \$100) to American Light, which shall have authority to purchase such shares for cash at the par value thereof;
 (ii) Michigan Consolidated shall have authority to issue and sell 285,714 shares of its common stock (par \$14) to American Light, which shall have authority to purchase such shares for cash at the par value thereof;

<text><text><text><text><text><text><text>

Light shall be made by Railways to its common stockholders during the latter part of 1948 on the basis of one share of American Light common stock for each five shares of Railways' common stock out-standing. ## ALABAMA

Alabama (State of) Supreme Court Uphoids In-crease in Ad Valorem Tax Exemp-tion — The 1947 legislative act increasing State ad valorem tax exemptions is valid and will apply to this year's taxes according to to this year's taxes, according to a recent ruling by the Alabama Supreme Court. At the request of Governor Folsom, an advisory opinion was handed down, in which the high State tribunal held that the State constitution is not violated by the act, which was sponsored in the Legislature by Representative Paul Meeks and other members of the Jefferson

County House delegation. Although the State constitution sets up certain requirements con-cerning taxes, the lawmaking body still has the authority to determine which property is taxable and which is exempt, the court ruled

Effects of the new statute may Effects of the new statute may be far reaching, in the opinion of some county tax assessors. Tusca-loosa Tax Assessor F. M. Sham-blin estimated it would cost his county as much as \$1,000,000 in assessments each year and a rev-enue loss of at least 3%.

enue loss of at least 3%. J. T. Carlton, Chief of the State Revenue Department's Ad Valorem and Land Division, said the full effect of the measure will not be known for several months.

Under the new act, scores of miscellaneous items, including radios, mechanical and electric refrigerators, phonographs, pianos, paintings, sporting equipment, watches, clocks, jewelry and the like, will be exempt from ad valo-rem taxes when kept in homes for sonal use.

personal use. The act also increases personal property exemptions from a maxi-mum of \$2,000 to \$3,000 for deaf

Muth of \$2,000 to \$3,000 for deaf mutes, insane, or blind persons and incompetent veterans. Also, exemptions are raised from \$100 to \$500 on farm tools, \$100 to \$200 for tools used by mechanics, and \$250 to \$500 for household and kitchen equipment.
