Algonquin Gas Transmission Co. - Bids to Supply Natural Gas to New England-

Natural Gas to New England—

The company has put in its bid for permission to supply natural gas to the New England area, one of the last remaining sections of the country still without this premium fuel. The company announced that a formal application has been filed with the Federal Power Commission for authority to build a \$27,500,000 pipeline network with an initial capacity of 250 million cubic feet daily. At the same time, it said contracts have been signed with Texas Eastern Transmission Co., operators of the Big Inch and Little Big Inch pipelines, for an adequate supply of natural gas. Algonquin's application is expected to be considered by the FFC together with a previous application filed by a competing company, Northeastern Gas Transmission Co., which will be supplied by two other major pipelines, Tennessee Gas Transmission Co. and Transcontinental Gas Pipe Line Co. The Algonquin company was organized in September, 1949, by Eastern Gas & Fuel Associates, New England Gas & Electric Association and Providence Gas Co. Funds for Algonquin's proposed pipeline would be obtained through the sale of mortgage bonds and common stock, with the stock to be sold to New England gas distributing companies, it was stated.—V. 171, p. 101.

Allied Gas Co.—Exchange Privilege Expires March 28 See Great Lakes Utilities Co. below .- V. 170, p. 2125.

American Car & Foundry Co.—Receives Large Order

The company has received an order from the Lackawanna RR. for 200 covered hopper cars for use where bulk shipments such as cement must be kept absolutely dry. These cars will be 70-ton capacity, identical to 100 cars which were completed for that railroad in October, 1949.—V. 170, p. 2433.

vv. 5. ROBERTSON, PTESIGENT, Sald in part:

On Dec. 30, 1949, the company obtained a five-year loan of \$10,000,000 from a group of banks, with an additional standby credit of \$5,000,000 available to July 1, 1951, both at an annual interest rate of \$1½%. By the terms of the loan agreement, amortization will begin at the end of the second year. Borrowings by the company, other than stated above, are limited to \$10,000,000 at any one time, at maturities not exceeding one year. The agreement also provides that, if a dividend is paid by the company on any of its capital stocks while the loan is outstanding, an amount equal to at least 50% of the dividend shall be applied to repayment of the balance due on the loan.

the dividend shall be applied to repayment of the balance due on the loan.

Part of the proceeds of the loan will be used to repay a \$2,500,000 bank loan. The balance will be used to meet other current obligations and corporate requirements of the company and its subsidiaries, Authorization to consummate the bank loan and a new agreement with Electric Bond & Share Co., whereby that company would turn over to Foreign Power its holdings of \$19,500,000 of the 6% bonds of the Cuban Electric Co. In exchange for Foreign Power's note for the same amount, was requested in an application filed with the SEC on Dec. 16, 1949. This application was filed as an amendment to the previous application in connection with the proposed Cuban financing which was permitted by the SEC to become effective, subject to the requirement that commitments must first be obtained to sell at least \$10,000,000 principal amount of the proposed new mortgage bonds of the Cuban subsidiary. The Dec. 16 application eliminates this requirement. A hearing on this application was had on Dec. 27, and the necessary authorization was granted in an order handed down by the SEC on Dec. 30. The exchange of securities with Bond and Share was effected on the same date.

Capital Structu	re-					

Capital Structure—

The company on Jan, 30 requested SEC authority to increase its authorized cumulative preferred stock to 700,000 shares and to authorize 10,000,000 shares of a new class of common stock, no par.

The company now has outstanding 372,000 shares of preferred and 6,000,000 shares of common stock. Its parent, American Gas & Electric Co. owns all of the common which is to be surrendered by American in exchange for 600,000 shares of the new common. American also proposes to acquire an additional 6,500,000 shares of the new common for a cash consideration of \$3,000,000 shares of the new common for \$15,000,000 of open account advances made by American to Appalachian during 1949.

The Commission has given interested persons until Feb. 7 to request a hearing.—V. 171, p. 357.

Ashland Oil & Refining Co.—Debentures and Preferred Stock Offered—Public offering was made on Feb. 1 of \$15,000,000 3% debentures and 50,000 shares of \$5 cumuand interest to yield 2.90%, the preferred at 98 and dividends to yield 5.10%. Heading the large group of underwriters is A. B. Becker & Co., Inc. Of the preferred stock offering, 20,000 shares are being sold by three stockholders.

The new debentures will mature in 1970 and will have the benefit of a sinking fund beginning operation in 1955 and designed to retire 90% of the issue prior to maturity. The \$5 preferred will have a 3% annual sinking fund which begins operation next year, and a purchase fund, also beginning next year, calculated to retire annually an additional 2% of the issue to the extent that purchase may be made up to a price of \$100 per share.

additional 2% of the issue to the extent that purchase may be made up to a price of \$100 per share.

PURPOSE—Net proceeds to be received by the company from the sale of the debentures and 30,000 shares of \$5 cumulative preferred stock, after deduction of estimated expenses, are to be applied (1) to the extent of \$10,859,767 to the retirement of the following indebtedness: \$3,600,000 3½% sinking fund debentures due 1962; \$1,113,468 of 4% purchase money mortgage on refining facilities purchased from the RFC due to 1957; \$2,238,039 of 3% instalment loan of subsidiary Allied-Ashland Tankers, Inc., due to 1955; \$1,962,577 indebtedness of Acta Oil Co.; \$1,500,000 indebtedness of Freedom-Valvoline Oil Co.; and (2) the balance of such net proceeds, aggregating \$6,925,958, will be added to Ashland's working capital. Of the amount so added to working capital, \$1,883,747 will restore treasury cash in that amount paid for 45,53% of the capital stock of Acta Oil Co., which was acquired by purchase. Some of the funds added to working capital may be used to carry additional inventories and receivables and larger bank balances, to reduce or avoid the necessity for borrowing funds and to pay current liabilities. Although no definite plans have been developed, some of such funds may be used for the improvement or expansion of plant and terminal facilities, for the acquisition of additional refining equipment, oil producing properties, transportation equipment and for marketing facilities.

"Heretofore the Canadian market for stainless steel sheet has been limited because no stainless sheet was produced in the country. U. S. imports have comprised over 90% of the shipments in recent years. Canada has been importing from the U. S. about 2,500 tons of stainless sheet a year.

"The equipment which is about to be erected in the company's North Plant at Welland will permit the production of stainless steel sheets in hot rolled pickled and annealed condition and in addition two polishing machines are to be installed so that the fabricators can be supplied with polished sheet in widths up to 48 inches wide. Later, production plans call for cold rolled finishes.

"Today Atlas Steels Ltd. Is the largest company of its kind in the British Commonwealth devoted entirely to the production of tool and other specialty steels including stainless steels. Its plants at Welland cover more than 100 acres of ground.

"With markets, sales and distribution offices in 58 countries abroad, the corporation carries on a large business in other countries. It looks to Canada, with its rapidly increasing industrialization, as its future largest market. Florida Public Utilities Co.-FPC Affirms 1948 Orders

The Federal Power Commission has affirmed its orders of April 26 and May 12, 1948, which found this company to be "public utility" as that term is defined by the Federal Power Act and authorized issuance of \$500,000 in bonds and a \$50,600 bank note.

The FPC on Jan. 25, 1950 issued an opinion on the rehearing which was granted at the company's request after it had issued the bonds and note as authorized by the two 1948 orders. The company contended that it is not a "public utility" within the meaning of the Federal Power Act, and that the FPC therefore should have dismissed its application asking approval of the securities for want of jurisdiction.—V. 170, p. 1294.

Pacific Power & Light Co.-New Bid Made-

The American Power & Light Co. on Feb. 2 asked the SEC to approve sale of Pacific Power common stock to a group of investment firms headed by A. C. Allyn & Co. and Bear, Stearns & Co. for \$16,125,000

headed by A. C. Allyn & Co. and Bear, Stearns & Co. for \$16,125,000 cash,
Howard L. Aller, President of American Power, said the company favors this bid because it believes that an offer of Allen & Co. and Blyth & Co. would have to yield an ultimate \$19,000,000 to equal it. The latter group offered \$15,525,000 in cash plus two-thirds of the net, profit realized by the buyers over and above 10% of the purchase price.

American Power wants to dispose of the 500,000 Pacific Power common shares before Feb. 15 in order to gain certain tax advantages. Its counsel, in urging acceptance of the Allyn-Bear, Stearns offer, said that the previous sales contract with B. J. Van Ingen and associates will be canceled if the new offer is accepted.

However, it pointed out, that if the SEC turns down the \$16,125,000 cash offer, American asks reconsideration of the SEC order turning down the Van Ingen bid. The SEC at the time rejected the bid because competitive conditions were absent when it was drawn.—

Offers Rejected—

In an opinion announced on Jan. 27, the SEC rejected both offers for the purchase of American Power & Light Co.'s common stock holdings in Pacific Power & Light Co.

Shortly after the recent announcement of the contract with the Van-Ingen Group, the Allen Group came forward with an offer of \$15,000,000 in cash and thereafter the Van Ingen Group improved materially their original proposal of a minimum of \$10,000,000 to a minimum of \$14,500,000, and have indicated that such minimum might be raised to \$15,000,000.

Accordingly, the Commission construct that

\$15,000,000.

Accordingly, the Commission concluded that competitive conditions had not been maintained and that the requested exemption from competitive bidding could not be granted with respect to either of the proposals. "However," the Commission stated, "in the event that new negotiations are undertaken by American with any interested purchasers, including the Van Ingen and Allen Groups, and a clear showing is made that American has fully maintained competitive conditions in such negotiations, we will not require competitive bidding."—V. 171, p. 363.

THE COURSE OF BANK CLEARINGS

Bank clearings this week will show an increase compared with a year ago. Preliminary figures compiled by us based upon telegraphic advices from the chief cities of the country, indicate that for the week ended Saturday, Feb. 4, clearings for all cities of the United States for which it is possible to obtain weekly clearings will be 0.7% above those of the corresponding week last year. Our preliminary total stands at \$14,207,579,255 against \$14,106,240,515 for the same week in 1949. At this center there is a gain for the week ended Friday of 2.1%. Our comparative summary for the week follows:

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday and the Saturday figures are not available at time of going to press. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below we are able to give final and complete results of the week previous — the week ending Jan. 28. For that week there was a decrease of 0.6%, the aggregate of clearings for the whole country having amounted to \$13,936,046,628 against \$14,016,291,039 in the same week in 1949. Outside of this city there was a gain of 2.3%, the bank clearings at this center having recorded a loss of 3.2%. We group the cities according to the Federal Reserve Districts in which they are located and from this it appears that in the New York District (including this city) the totals register a decline of 2.9%, in the Boston Reserve District of 3.4% and in the Philadelphia Reserve District of 1.1%. In the Cleveland Reserve District the totals are smaller by 0.3% but in the Richmond Reserve District the totals are larger by 6.3% and in the Atlanta Reserve District by 12.7%. The Chicago Reserve District has to its credit a gain of 0.2% and the St. Louis Reserve District of 9.1%, but the Minneapolis Reserve District suffers a loss of 5.0%. In the Kansas City Reserve District the totals show an increase of 4.2% and in the Dallas Reserve District of 13.0%, but in the San Francisco Reserve District the totals record a decrease of 1.8%.

In the following we furnish a summary by Federal Reserve Districts:

Sheraton Corp. of America-Buys Cardy Chain-

Sheraton Corp. of America—Buys Cardy Chain—

The corporation has purchased the Cardy chain of six hotels in Canada, it was announced on Feb. 1. Five of the properties included in this acquisition are among Canada's largest and best known hotels. They are the 1,100-room Mount Royal in Montreal, the 1,000-room King Edward in Toronto, the General Brock in Niagara Falls, the Royal Connaught in Hamilton (Ontario) and the Prince Edward in Windsor (Ontario). With the exception of the King Edward Hotel, all are the largest in the cities in which they are located. This brings the total number of hotels now owned and operated by the Sheraton Corp. to 31.

The price paid for the Cardy Corp. Ltd., was not divulged. It was announced that this transaction gave Sheraton approximately "two-thirds of the securities of the selling company and full-operating control." Officers of Sheraton Corp. estimated that "replacement value of the properties is in excess of \$25,000,000."

Total assets of Cardy Corp., Ltd., as of Sept. 24, 1949, were \$15,-345,000. Sheraton Corp.'s report to stockholders dated Oct. 31, 1949, showed total assets of \$63,233,000. Both statements show the properties at book values which are substantially lower than replacement costs in today's market.

Today's transaction makes Sheraton one of the largest hotelowning companies in the world with total assets, conservatively estimated, of over \$80,000,000 and a total sales volume of approximately \$55,000,000.

On Aug. 16, 1949, Sheraton Corp. bought the Ford chain, also in Canada. In this \$3,000,000 transaction they acquired Canada's

\$55,000,000.

On Aug: 16, 1949, Sheraton Corp. bought the Ford chain, also in Canada. In this \$3,000,000 transaction they acquired Canada's newest hotel, the Laurentien-Sheraton in Montreal. Sheraton's Boston properties include the Copley Plaza, the Sheraton and the Beaconsfield hotels; also, the Park Square Building, the Sheraton Building and the Harbor Building.

Sheraton Corp. also recently announced the sale of several properties—the Sheraton hotels in Newark and Philadelphia and the Lord Eigin in Canada. Sheraton Corp. retains the Penn-Sheraton, a-500-room hotel in Philadelphia. It was stated that these sales were made to permit more strategic investments in other cities.—V. 170, p. 2067.

United States Steel Corp.—Declares 65-Cent Common Dividend—Quarterly Earnings Released—Reporting the earnings of this corporation for the fourth quarter of 1949, Irving S. Olds, Chairman, announced that the directors had on Jan. 31 declared the usual quarterly dividend of \$1.75 per share on the preferred stock, payable Feb. 20, 1950, to holders of record as of Feb. 6, 1950, and a dividend of 65 cents per share on the common stock, payable March 10, 1950, to holders of record as of Feb. 10, 1950. In each of the two last quarters of 1949, the common stock received 50 cents per share.

Income for the fourth quarter of 1949, before declaration of divi-

common stock received 50 cents per share.

Income for the fourth quarter of 1949, before declaration of dividends, is reported as \$32,735,397. Income for the year 1949 is reported as \$165,958,806, or a return of 7.2% on sales, as compared with income reported for the year 1948 of \$129,627,845, or a return of 5.2% on sales, all before declaration of dividends.

The income for the fourth quarter would have been \$6,700,000, but for certain adjustments in accounts which had to be made because of the steel strike which began Oct. 1 and ended Nov. 12, 1949. These adjustments, resulting from the effect of the strike on the 1949 operating rate and on inventory quantities as hereinfter explained, increased the income for the quarter by \$26,000,000.

It is estimated that the direct cost of the six-week strike was

increased the income for the quarter by \$26,000,000.

It is estimated that the direct cost of the six-week strike was \$30,000,000, after giving effect to the applicable Federal income taxes. This estimated cost does not take into consideration any loss of income resulting from U. S. Steel's inability to make steel shipments during the strike period. The out-of-pocket cost of the six-week steel strike was therefore approximately \$37,000,000_-\$30,000,000 direct cost and \$7,000,000 of taxes payable on the additional income resulting from such forced liquidation of low-cost inventories.

During the year 1949, U. S. Steel expended \$179,000,000 for additions to and replacements of its facilities, or \$59,000,000 more than its total wear and exhaustion. Expenditures during the fourth quarter of 1949 for additions to and replacements of facilities approximated \$44,000,000. At Dec. 31, 1949, \$167,000,000 was the estimated amount required to complete all authorized replacements and additions.

amount required to complete all authorized replacements and additions.

Of the reserve for estimated additional costs arising out of war, provided during the war years, \$5,400,000 was used in the fourth quarter of 1949 to cover the higher costs of replacing inventories depleted during the war. The balance remaining in this reserve at Dec. 31, 1949, was \$15,200,000.

Net current assets of the corporation and its subsidiaries at Dec. 31, 1949, after deducting the current dividend declaration, were \$488, 744.446 compared with \$469,505,437 at Dec. 31, 1949 and for the year reflect the influence of the six-week steel strike and the work stoppages and three-day work week in the coal mines.
