From these funds there will be returned to each subscriber 85% of the amount paid by him in the event that payments for all the shares and the organization of the company are not completed by Feb. 15, 1952.

The prospectus further states that, if all the shares are sold and the full $2,000,000 paid therefor, 10 cents per share will be paid to Kern and the sum of 20 cents per share for expenses in connection with the promotion and organization of the company and the sale of its shares; and the company will thus receive net proceeds of $1,700,000, of which $1,000,000 will be stated capital and $700,000 will be paid-in surplus. Under the subscription agreement, only 15% of the proceeds may be expended until and unless the certificate of authority to transact business is issued by the Director of Insurance. *On stock outstanding end of year. †An adjustment has been made in 1948 total income and net income as a result of the accounting change in order to provide a fair comparison with 1949's figures.

William Dewey Loucks, President, on March 1, stated in part, as follows:

In 1949 Barnsdall's net income was $14,852,469, or $7.96 per share. The company's stock outstanding was substantially reduced during the year. If the stock in the hands of the public on Dec. 31, 1948 had been the same as at the end of 1949, net income for 1948 would have been $7.65.

Earnings in 1949 were affected by the following factors: (1) increased production; (2) a generally lower price structure; (3) a substantial increased in operating charges and in depreciation due to the intensive development campaign carried on during the year; (4) a large increase in local taxes; (5) additional interest expense of approximately $450,000 on account of bank loans; (6) a substantial decrease in the provision required for Federal income taxes.

ACQUISITION OF WENTZ ACREAGE IN WEST TEXAS—At the end of 1949 Barnsdall and Seaboard Oil Co. of Delaware were negotiating for the purchase (consummated early in 1950) of 983 acres of Scurry County leases and 27,075 acres in Kent County, northeast of Barnsdall's Scurry County wells, at a cost to Barnsdall of $3,200,000 in cash and $2,300,000 in oil payments. The Scurry County leases are considered largely proven production. While the Kent County acreage is wildcat, recent drilling by other operators nearby has made this large block an attractive purchase.

STOCK PURCHASES—During 1949 and through February 1950, when purchases were discontinued, 518,407 shares of Barnsdall stock were reacquired at a total cost of $26,467,250, or an average cost of $51.05 per share. Included therein are the 75,000 shares obtained through exercise of a call mentioned in the last annual report. As of March 1, 1950, exclusive of treasury stock, there are 1,704,900 shares outstanding as compared with 1,865,800 shares on Dec. 31, 1949 and 2,223,307 shares the year previously.

FINANCING—The company borrowed $40,000,000 under agreements dated Sept. 15, 1949, from The Prudential Insurance Co. of America and from The First National Bank of the City of New York, The Chase National Bank of the City of New York, Manufacturers Trust Co., New York; The First National Bank of Chicago, Security-First National Bank of Los Angeles, First National Bank & Trust Co., Tulsa, and National Bank of Tulsa. The loan is repayable in semi-annual instalments of $1,500,000 each April 1 and Oct. 1 commencing in 1950. The first 10 maturities totaling $15,000,000 held by the banks carry a 2¾% interest rate; the balance of $25,000,000 held by the insurance company carries a 3⅜% interest rate. The loan agreements provide, among other things, that the amount of the loan outstanding shall not exceed a specified relationship to the company's proved developed crude oil reserves, that net working capital (excluding from current liabilities payments on the loan due within one year) shall be maintained at not less than $11,000,000, and that expenditures after June 30, 1949 for reacquiring the company's capital stock shall not exceed $25,000,000 plus an amount which, together with dividends paid, shall not exceed a specified portion of net income. (Since June 30, 1949, $20,311,756 has been expended for stock reacquisition.)

SUNRAY PURCHASE OF ATLAS STOCK—On Feb. 16, 1950 Atlas Corp., which owned more than 40% of Barnsdall's capital stock, sold its shares to the Sunray Oil Corp. Floyd B. Odlum at the same time resigned as Chairman of the Board and as a director and was succeeded by C. H. Wright, President of Sunray Oil Corp., in both capacities. O. L. Johnston, George H. Howard and L. Boyd Hatch of Atlas Corp. also resigned as directors and were succeeded by Glenn J. Smith, L. W. Bennett and Edward Howell, all of whom are officers or directors of Sunray.—V. 171, p. 847.

Boston Terminal Co.—Bondholder Objects to Plan—

M. C. Kessel, Manager of the Research and Investment Department of Carreau & Co. (members of the New York Stock Exchange) in a circular letter to holders of first mortgage bonds on Feb. 17 said in part:

"New Haven and New York Central Railroads are to file with the ICC the changes in the amended reorganization plan by March 9. The railroads have slightly improved their previous offer. In exchange for approximately $1,400 per bond representing claims of principal and accrued interest, they now propose to give $775 in cash; approximately 9¾ shares of common stock of New Haven; plus an additional small cash payment for rental to be paid by the New Haven. This offer is equivalent to between $850 to $860 per $1,000 bond based on current market prices for the New Haven stock. This compares with the previous offer represented by a package of securities which would have had a workout value of about $800.

"In my opinion, this new offer still fails to adequately compensate bondholders for the rights and claims they are asked to surrender. It represents only about 62% of their claim whereas I believe bondholders would be justified in demanding a minimum of 80% of the claim (about $1,120)."

Mr. Kessel has been permitted to intervene as an independent bondholder and in the interest of Carreau & Co. clients who own about $700,000 of bonds.—V. 171, p. 358.

Columbus & Southern Ohio Electric Co.—To Incr. Debt

The holders of 4¼% series cumulative preferred shares were to vote March 3 on a proposal to authorize the company to extend to March 31, 1953, enlarged unsecured indebtedness in excess of the limitation contained in the articles of incorporation.—V. 170, p. 660.

Commercial Credit Co., Baltimore, Md.—Registers With SEC—

The company on Feb. 24 filed a registration statement with the SEC covering 427,948 shares of common stock, $10 par.

The company has called for redemption in April, 1950, all of its 3.60% cumulative preferred stock (249,842 shares outstanding Dec. 31, 1949), each share of which is convertible into 1¾ shares of common stock prior to the close of business on an unspecified date in April. Underwriters headed by Kidder, Peabody & Co. and The First Boston Corp. have agreed to purchase from the company such of the shares of common stock reserved but not used for conversion. The public offering price and underwriting commissions on these shares are to be disclosed by amendment. After the expiration of the conversion right, the only right of such holders who do not convert "is to receive the redemption price of $105.50 for each share" of preferred stock held.

The directors have voted to authorize a new class of cumulative preferred stock (500,000 shares, $100 par) and to eliminate the presently authorized cumulative preferred stock. This proposed charter amendment, which will not be fully effective until completion of the conversion or redemption of all the outstanding shares of 3.60% cumulative preferred stock, is to be voted upon by stockholders at a special meeting to be held March 30, 1950. If the amendment is approved by the stockholders, the board intends, subject to favorable market conditions and satisfactory underwriting arrangements, to sell an initial series of $25,000,000 par value of the new preferred stock. It is now intended that the proceeds of such sale will be used to increase the working capital of the company, to be used for the purchase of receivables in the ordinary course of its financing activities or advanced to or invested in subsidiaries for such purposes or other purposes related to their businesses.

The stockholders on March 30 will consider authorizing the creation of 500,000 shares of a new cumulative preferred stock (par $100), and upon conversion or redemption and retirement of the presently outstanding 3.60% cumulative preferred stock to eliminate all references thereto from the certificate of incorporation and the authorized capital.—V. 171, p. 750.

White, Weld & Co. and associates on March 3 publicly offered on a unit basis $4,800,000 5.20% interim notes and 115,200 shares of common stock. Each unit consists of a $25 interim note, Series C, due April 1, 1951, and six-tenths of a share of common stock. The offering price per unit is $26.25 plus accrued interest on the notes. Bonds Placed Privately—Concurrently with this financing White, Weld & Co. and the above associates have placed privately with institutional investors $6,750,000 of the company's first mortgage pipe line bonds, 3½% series due 1969. Proceeds from the sale of the units and the bonds will be used to finance construction of the balance of the company's proposed natural gas pipe line system in Tennessee.

Additional Stock Offering—Another group, comprising 36 investment firms headed by Equitable Securities Corp. and Elder & Co., also on March 3 placed on the market 154,221 shares of common stock, priced at $9.25 per share. This offering is for the account of a group of selling security holders and no part of the proceeds will be received by the company.

COMPANY—Formed in April, 1947. Has already completed the construction of the Greenbrier-Oak Ridge portion of the proposed system, and is selling gas under a long-term contract to the Atomic Energy Commission at Oak Ridge. The projected system, authorized by the Federal Power Commission, will be 465 miles long, extending from Lobelville to Chattanooga and thence to Knoxville and will include a tie-line connecting with the Greenbrier-Oak Ridge line so as to form a loop system. The company will purchase natural gas under long-term contracts from the Tennessee Gas Transmission Co., and resell it to communities and industries in middle and east Tennessee. Upon completion the system will have an estimated delivery capacity of approximately 193,000,000 cubic feet of natural gas per day without compression.

In addition to its contract with the Atomic Energy Commission, the company has executed long-term sales contracts for supplying natural gas for distribution in Chattanooga, Knoxville, Maryville, Shelbyville and Columbia, Tenn., and with the Aluminum Co. of America for the latter's Alcoa plant.

CAPITALIZATION—Giving effect to the sale of the units and the bonds, and the sale of the 154,221 shares of common stock for the account of the selling security holders, the company will have outstanding 1,072,257 shares of common stock, the $4,800,000 of interim notes and $14,450,000 of first mortgage pipe line bonds due 1969.

FPC Approves Plan of Financing—

The Federal Power Commission has approved the company's proposed plan of financing its Lobelville-Chattanooga-Knoxville pipeline.

The plan which was filed Jan. 18, 1950, and later modified and supplemented, will provide funds required for a tie-line in the Knoxville area, authorized Nov. 15, 1949, as well as for the Lobelville-Chattanooga-Knoxville line.

Total cost of these facilities is estimated at $11,765,900. The company proposes to raise the funds through the issuance and sale of (1) $6,750,000 in first mortgage pipeline bonds, 3½% series, due May 1, 1969; and (2) $4,800,000 in 5.2% interim notes, series C, due April 1, 1951, and 115,200 shares of $1 per common stock. Any required balance will be obtained through cash derived from company operations of its completed facilities.

The company plans to sell the $6,750,000 in first mortgage bonds at 100% of the principal amount plus accrued interest to the date of delivery to the following institutional purchasers: Metropolitan Life Insurance Co., Mutual Life Insurance Co. of New York and New York Life Insurance Co.

The interim notes and common stock are to be offered in 192,000 units, each consisting of a 5.2% interim note and six-tenths of one share of common stock. Underwriters will be White, Weld & Co., 54,720 units; F. S. Moseley & Co., 54,640 units; Equitable Securities Corp., 54,640 units; and Elder & Co., 28,000 units. Illinois Bell Telephone Co.—Earnings, Etc.—G. K. McCorkle, President, on Feb. 15 said in part:

"Operating revenues in the year 1949 totaled $224,915,000, an increase of $16,336,000, or 8% over 1948. About half of this increase was the result of rate increases placed in effect during the year and the balance reflected growth, principally in the number of telephones in service.

"Operating expenses and taxes rose 5% to $206,670,000 from $196,188,000 in 1948. Operating taxes paid by the company accounted for three-fifths of this rise, increasing $6,466,000, or 29%, to a total of $28,700,000.

"Income available for interest and dividends was $18,346,000 as compared with $12,588,000 in 1948.

"Net earnings per share of stock amounted to $5.63 in 1949. This pares with $4.16 per share in 1948 and an average of $9.27 for the 20 prewar years. Dividends of $5.20 per share were paid during the year, and the income balance of $996,000 was transferred to surplus. This was the first time in five years that it had not been necessary to draw upon the "rainy day" fund to make dividend payments.

"Substantial amounts of new capital were required in 1949 to meet the costs of extensive additions to telephone plant. Increase in invested capital during the year was $55,886,000, including short-term loans, and brought the total growth of invested capital for the four postwar years to $225,193,000—nearly equal to the growth during the entire preceding 64-year history of the company.

"Initially, all of the new capital was obtained through short-term loans. In December, shareholders were offered 389,982 additional shares of stock for subscription at par in the proportion of one new share for each six shares held; total subscriptions amounted to $38,992,300.

"At year's end, equity capital amounted to $285,946,000, or 63% of total capital. The remaining 37% was debt capital, including short-term loans, and compares with a ratio of 22% in debt capital at the end of 1945."—V. 171, p. 752 and 557.

Illinois Power Co.—Plans $25,000,000 for New Construction in 1950—Arranges Bank Revolving Credit—

Allen Van Wyck, President, on Feb. 28, said in part:

"Total expenditures for construction in 1949 were over $42,000,000, which is by far the greatest in the history of the company, and is greater than for any future year we can ow foresee. These expenditures are estimated at about $25,000,000 for 1950, and substantially less for 1951 and 1952.

"Not only did the company successfully complete the biggest year of its construction program, but it also raised most of the new long-term capital necessary to do the work. During the year $42,434,711 was raised for construction, of which $33,165,213 net after expenses came from the sale of new bonds, preferred and common stock and from slight increase in bank debt, and $9,269,489 came from other cash resources of the company.

"As a result of the financing, the company ended 1949 with a strong common stock base and a lower debt to total capitalization than it had at the beginning of the year. The company thus finds itself in a postion to raise the estimated $25,000,000 necessary for completion of the 1950 program and the payment of the $6,000,000 of bank loans through the issue and sale of senior securities."

The company has arranged a revolving credit of $15,000,000 with five banks, running until Dec. 31, next, and calling for interest on borrowing at a rate of ¼ of 1% above the Federal Reserve rediscount rate for commercial bills in force at the date the notes are issued or renewed.

North Continent Utilities Corp.—Liquidation Approved

In a decision announced Feb. 23 by the SEC, the Commission approved a plan for the distribution among the security holders of this corporation of all its assets except its interest in a foreign corporation.

The Commission found that the provisions of the plan and the proposed allocation of assets among North Continent's security holders is fair and equitable to all interests affected.

The company now has outstanding 43,772 shares of $7 non-cumulative convertible preferred stock (no par) and 166,746 shares of common stock (no par). Under the plan, there will be distributed to holders of the preferred cash and all of North Continent's holdings of three subsidiaries as follows: 87,544 shares of common stock of Great Falls Gas Co., constituting all of the outstanding shares; 48,150 shares of common stock of North Shore Gas Co. being 35.38% of the outstanding shares; 43,772 shares of common stock of The Denver Ice & Cold Storage Co., constituting all of the outstanding shares; and all available cash (as of Oct. 31, 1948).

The preferred stockholders will also receive 67.74% of the new common stock of North Continent, which is to be recapitalized on a one stock basis with 64,616 shares outstanding pending disposition of its interests in its remaining subsidiary, Great Northern Gas Co., Ltd. (Saulte Ste. Marie, Ont., Canada).

The common stockholders of North Continent will receive the remaining 32.26% of North Continent's new common stock.

North Continent's interests in Great Northern are not now suitable for public distribution, and sale of such interests or of Great Northern's properties is considered most desirable for North Continent's security holders. The recapitalization of North Continent permits an immediate allocation of its interests in Great Northern. Upon effectuation of the sale, over which the Commission reserved jurisdiction, the cash proceeds will be distributed to the new common stockholders and North Continent will be dissolved. If a sale is effected prior to consummation of the plan, the proceeds will be distributed to present preferred and common stockholders of North Continent on the foregoing basis and North Continnent will be dissolved without recapitalizing.

Court Hearing—

The company plans to sell $50,000,000 in common stock and serial debentures during the first half of this year to finance its 1950 construction program, the company has disclosed. The first portion of the financing program calls for the sale in May of 304,500 additional common shares to common stockholders at the rate of one new share for each eight held. The offering price will depend on market conditions at the time. However, it is estimated that the stock sale will yield $10,000,000. As the second step in its program, the company will take bids in June on an offering of $40,000,000 in serial debentures, although the exact date has not yet been decided.

The proceeds from the two offerings will be used to finance the 1950 construction program, which calls for the expenditure of $51,800,000, John Merriam, Executive Vice-President, disclosed.—V. 171, p. 465.

Northwestern National Insurance Co.—60% Stock Div.

The stockholders will vote March 6 on a proposal to increase the authorized capital stock from $2,000,000 to $3,200,000. It is the intention of the directors to reduce the par value of the stock from $25 to $10 per share and declare a 60% stock dividend.—V. 152, p. 128.

Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below we are able to give final and complete results of the week previous — the week ending Feb. 25. For that week there was an increase of 8.0%, the aggregate of clearings for the whole country having amounted to $12,606,272,729 against $11,674,483,373 in the same week in 1949. Outside of this city there was a gain of 3.1% the bank clearings at this center having recorded a gain of 13.1%. We group the cities according to the Federal Reserve Districts in which they are located and from this it appears that in the New York District (including this city) the totals show a gain of 12.8%, in the Boston Reserve District of 7.7% and in the Philadelphia Reserve District of 4.2%. In the Cleveland Reserve District the totals are smaller by 4.3% but in the Richmond Reserve District the totals are larger by 6.3% and in the Atlanta Reserve District by 4.1%. Standard Gas & Electric Co.—Hearing on Plan—

This company, Philadelphia Co. and three subsidiaries of the latter have filed applications with the SEC proposing various translations generally designed to effectuate compliance with the Holding Company Act, it was announced on Feb. 28. The proposals have been scheduled for SEC hearing on March 13, 1950.

(1) One of such proposals involves the combination of the gas and oil properties in Philadelphia's system under the ownership of Equitable Gas Co. to be accompanied by certain changes in the capital structure of Equitable and another Philadelphia subsidiary, Kentucky-West Virginia Gas Co.

(2) Philadelphia proposes to sell all of its holdings of common stock of Equitable (subject to the contingency noted below) and to use the proceeds for the redemption and retirement of $33,709,000 of its 4-4¼% collateral trust sinking fund bonds, due July 1, 1961, at the redemption price of 103¾%, and $2,400,000 of its 2⅝% collateral trust serial notes, due serially to July 1, 1951, at their principal amount (plus accrued interest in each case). It is understood that Standard's plan for simplification of the corporate structure of Philadelphia Co. System, which provides, among other things, for the retirement of the noncallable preferred stocks of Philadelphia and The Consolidated Gas Co. of the City of Pittsburgh, is to be further amended to provide also for the retirement of the callable preferred stocks of Philadelphia and for the possible sale and divestiture of Philadelphia's interest in the common stock of Equitable, as such stock will exist upon consummation of the reorganization of Equitable (mentioned above), and for the redemption and retirement of the funded debt of Philadelphia with the proceeds of such sale.

(3) Philadelphia has requested that its proposed sale of the Equitable common stock be exempted from the competitive bidding requirements of the Commission's Rule U-50.

(4) Standard proposes, as a possible alternative to Philadelphia's sale of Equitable stock, that Standard sell at competitive bidding, its holdings of all of the 1,625,000 shares of outstanding $10 par common stock of Wisconsin Public Service Corp. Divestment of this stock was ordered by the SEC in August, 1941. Prior to the hearing, Standard and Philadelphia will notify the Commission as to which sale will be made (and will withdraw the application in respect of the proposed sale then abandoned).

(5) In the event of the sale by Standard of its holdings of Wisconsin common stock, Standard proposes to lend an amount equal to the proceeds thereof to Philadelphia, which would issue therefor its 18-month 4½% unsecured promissory note. Standard would be given the right to

convert such note into common stock of Philadelphia, at a price to be agreed upon between the two companies and approved by the Commission, provided at the time of such conversion the "Combined Plan for Reorganization of the Pittsburgh Railways System . . . and for Discharge . . . of Philadelphia Co.'s Guarantees Affecting Pittsburgh Railways System Securities" shall have been consummated or become binding. Otherwise, the note could be convertible into common stock of Equitable, if Philadelphia has not then sold same, or into common stock of Duquesne Light Co., a Philadelphia subsidiary.

Philadelphia proposes to use the proceeds of the sale by Standard of the Wisconsin common stock, together with bank borrowings, to redeem its funded debt as described above.

Philadelphia owns all of the outstanding common stock of Equitable, Kentucky, and Pittsburgh and West Virginia Gas Co., together with 51,250 shares of 7% cumulative second preferred stock of Kentucky. The 2,825 balance of such preferred shares is owned by Pittsburgh, which also owns all of the outstanding common stock of Philadelphia Oil Co. Under the proposal:

(a) Pittsburgh will declare a dividend in kind to Philadelphia of the 2,825 shares of Kentucky preferred;

(b) Philadelphia will tarnsfer to Equitable, in exchange for securities of Equitable (as set forth in "d" below), all its holdings of common stock of Pittsburgh and of common stock and preferred stock of Kentucky;

(c) Equitable will authorize the issuance of $17,500,000 20-year 3½% sinking fund debentures, dated March 1, 1950, and will amend its charter to increase its authorized common stock from $15,000,000 par value to $24,500,000 par value and to convert its presently authorized 750,000 shares of $20 par common (including the 563,000 outstanding shares held by Philadelphia) into an undetermined number of shares of common stock having a lower par value;

(d) Equitable will issue to Philadelphia, in exchange for the securities described in "b" above, the debentures to be authorized and approximately $4,771,860 additional par value of its reclassified common stock;

(e) Philadelphia will purchase for cash $1,000,000 par value of reclassified Equitable common stock, the proceeds to be used by the latter (with treasury funds) to retire Equitable's outstanding bank loans amounting to $1,200,000 at Dec. 31, 1949;

(f) Equitable will borrow $1,800,000 from The Farmers Deposit National Bank of Pittsburgh and $1,200,000 from Mellon National Bank & Trust Co.;

(g) Equitable will transfer to Kentucky all the latter's outstanding preferred stock in exchange for 149,059 additional shares of Kentucky common (the preferred to be retired);

(h) Equitable will purchase from Kentucky 82,695 additional shares of Kentucky common for $3,000,000 and Kentucky will use the proceeds to pay its outstanding bank loans aggregating $3,000,000.—V. 171, p. 397.

New Chemical Unit May Be Formed—

It is understood in financial circles that this company plans to set up a new chemical company subsidiary, in conjunction with Mathieson Chemical Corp., which may involve the issuance of stock purchase rights to its stockholders.

The new company is being set up to manufacture various chemicals to be derived from natural gas. It is indicated that the initial capitalization will approximate $25,000,000. Originally, it was expected that the new concern would be set up with a $20,000,000 capital structure.

Of the total, $17,000,000 would be represented by debt and the remainder, $8,000,000, common stock to be offered publicly. Under the proposal, the Tennessee Gas would have a half interest in the new organization and its stockholders would receive right for a proportionate interest in the stock to be issued, or $4,000,000.

Common stock capitalization of the Tennessee Gas consists of 5,000,000 $5 par value shares, of which 3,333,333 are outstanding. Other equities comprise 100,000 each of 4.10% and 4.25% preferred stocks, ("Chicago Journal of Commerce.")—V. 171, p. 886.

The stockholders will vote March 8 on a proposal to reduce the authorized capital stock from $850,000 to $750,000 by cancellation of authority to issue 4,000 shares of $25 par preferred stock, none of which is outstanding at present.

Union Carbide & Carbon Corp.—Pays $71,753,167 for Construction—

During 1949, expenditures for additional production facilities amounted to $71,753,167, as compared with $114,857,493 in 1948.

The additions to property by operating groups were approximately as follows: Alloys and metals, $21,734,928; cnemicals and plastics, $41,068,454; electrodes, carbons, and batterics, $3,545,311, and industrial gases and carbide, $5,404,474.

The chemicals and plastics groups continued the expansion of production facilities at plants located in Indiana, Texas, and West Virginia, and commenced the construction of a phenol plant in Ohio. A plastics fabricating plant was completed and placed in production in Canada. Production and power facilities were expanded for plants of the alloys and metals group in Ohio and West Virginia. Three large-tonnage, low-purity oxygen plants were completed by the industrial gases and carbide group during the year. The expenditures in the electrodes, carbons, and batteries group were for increased production facilities in a number of established plants.

It is anticipated that expenditures for construction during 1950 will be somewhat lower than in 1949.
