As previously reported, the loan agreement was dated Dec. 16, 1949, and provided for borrowings in the aggregate amount of \$15,000,000 from Bankers Trust Co., Mellon National Bank & Trust Co., and The National City Bank of New York. Of this amount, \$10,000,000 was borrowed on Dec. 30, 1949, leaving a balance of \$5,000,000 which, under the agreement, might be borrowed at any time on or before July 1, 1951.

Foreign Power states that, if the proposed \$5,000,000 borrowing is made, the proceeds will be used to aid its subsidiaries in financing extensive construction programs to be carried out over the next few years. Associated Telephone Co., Ltd. (Calif.)—Stock Offered
An issue of 350,000 shares of 5% cumulative preferred stock, 1947 series (par \$20) was publicly offered on July 3 at \$20 per share (flat) by Paine, Webber, Jackson & Curtis; Stone & Webster Securities Corp.; and Mitchum, Tully & Co.

This stock may be redeemed as a whole or in part at any time, at the option of the company, upon not less than 30 days' notice, at \$22 per share and accrued dividends if redeemed prior to Nov. 1, 1957; at \$21.75 per share and accrued dividends if redeemed on or after that date and prior to Nov. 1, 1962; at \$21.50 per share and accrued dividends if redeemed on or after that date and prior to Nov. 1, 1967; and at \$21.25 per share and accrued dividends if redeemed on or after that date.

PROCEEDS—The net proceeds from the sale of the preferred stock and from the sale of 175,000 shares of common stock to General Telephone Corp., the parent, will be used by the company for the construction, completion, extension and/or improvement of its facilities and/or to liquidate in part any short-term bank loans (used for said purposes).

CONSTRUCTION PROGRAM—The company estimates that gross property additions and betterments for the year ended Dec. 31, 1951, will amount to \$25,900,000, which amount includes approximately \$2,295,800 for buildings, \$5,085,900 for central office equipment, \$6,397,900 for station equipment and \$10,211,700 for outside plant.

Since the company is engaged in the largest construction program in its history, it is expected that additional capital funds will be required. The company's present plans for such future financing as may be required in order to carry out this program are not yet definite. It is expected, however, that the company will use for this program (a) treasury funds on hand, (b) funds from internal sources, the principal items of which are the provisions made for depreciation and amortization (estimated to be \$4,200,000 and \$70,000, respectively, during the year ending Dec. 31, 1951) and (c) funds from short-term bank loans and/or from the sale of additional securities when and as required. The company's present intention is to raise approximately \$11,500,000 of the required additional funds by selling, during the remainder of the current year, 175,000 additional shares of common stock and \$8,000,000 principal amount of first mortgage bonds.

The case is scheduled for hearing at 10 a.m., on July 18, 1951. The net proceeds from the sale of these securities will be applied to the purchase and retirement of \$2,721,500 of the company's outstanding notes. Dominion Steel & Coal Corp., Ltd.—Plans Split—

A special meeting of shareholders has been called for July 16 to consider a proposal to split the class B shares 2-for-1. At the same time, the meeting will be asked to cancel the authorized but unissued \$1,000,000 preference class A shares.

The company has 1,460,000 common class B shares of \$25 par value authorized, of which 1,039,083 shares have been issued. It is intended to subdivide them into two ordinary shares without nominal or par value and increase the company's share capital by the creation of an additional 2,080,000 ordinary shares without nominal or par value.

Lionel A. Forsyth, President, recently announced that the board had given approval to the capital expenditure involved in the third stage of the corporation's program of modernization, improvement and expansion. These expenditures were estimated at \$16,000,000.—V. 163, p. 191.

Dresser Industries, Inc.—Expansion Program—

The executive committee on July 5 voted to re-approve an over-all plant expansion program of approximately \$4,000,000 for machinery, plus additional sums for product development, it was announced by H. N. Mallon, President.

In addition, several important military projects have been awarded to this corporation, with government assistance in the form of certificates of necessity to cover plant additions and machine tools. One of these covers \$1,500,000 in new facilities for Roots-Connorsville Blower Corp., Connorsville, Ind., one of the Dresser companies. These will be used for the design and construction of the largest centrifugal blowers ever built.

Another certificate of necessity of approximately \$1,000,000 was issued to Dresser Manufacturing Division, Bradford, Pa., another Dresser Industries' operating subsidiary, for the manufacture of high-alloy stainless steel rings for jet engines. This facility will be completed shortly and is expected to operate continuously at full capacity on this project.

The increased activities of the gas, oil and chemical industries are reflected in the steep climb of Dresser's backlog of sales from \$30,400,000 in October, 1950 to more than \$60,000,000 at mid-year, 1951.

Other Dresser expansion projects to serve these ever-growing vital industries include development and manufacture by Clark Bros. Co., Inc., Olean, N. Y., of a new gas turbine for use on long-distance pipe line service at great economies to operators.

Another Dresser company, Pacific Pumps, Inc., Huntington Park, Calif., is manufacturing a new turbo-pump for marine and many other applications in the oil, gas and chemical industries.

Extended research and development of advanced petroleum hydraulic pumping methods and systems are being undertaken by the Kobe Division of Dresser at Huntington Park, Calif.

Further new plant expansions are contemplated by both Security Engineering Co., Whittier, Calif., drilling bit manufacturer, and Magnet Cove Barium Corp., Houston, Texas. The latter is now building added mining and plant facilities at Greylburg, Wyo., for the processing of Bentonite, used in its oil well drilling muds and foundry casting sands.

Also included in these plans is the program of Dresser's Ideco Division for development and manufacture of its full view portable drilling mast and rammer oilwell drilling rigs. Ideco is also figuring on the manufacture of new types of rocket launchers at its Torrance, Calif., plant for the National Defense.—V. 174, p. 4.

A large expansion program is now being planned in order to meet the demands of the Armed Forces. The present manufacturing buildings consist of 90,000 square feet and there are plans underway for the construction of an additional building of approximately 75,000 square feet.

Due to the existing shortage of yarn that will be needed for this operation, there are also plans afoot to purchase another cotton spinning plant in addition to the one presently operating.

Although the exact selling price was not given, it is rumored that over \$500,000 in cash was paid for the purchase of this company.

Michigan Consolidated Gas Co.—To Issue Bonds—

The company on July 6 filed a registration statement with the SEC covering \$15,000,000 of mortgage bonds to be sold at competitive bidding.

Present tentative plans call for advertising for bids on July 26 and for opening the bids at 10:30 a.m. (EST) Aug. 7 at offices of the company, 415 Clifford St., Detroit, Mich.

At or prior to the sale of the bonds, the company will sell 358,000 additional shares of its common stock to its parent, American Natural Gas Co., for \$5,012,000 in cash, an amount equal to the aggregate par value of the shares.

Proceeds of the sale of the bonds and common stock would be used to finance the company's expansion program and to repay and short-term bank borrowing incurred in the interim for that purpose.

The American Natural Gas Co. and its subsidiary, Michigan Consolidated Gas Co. on July 2 applied to the SEC for approval of a financing proposal involving the issuance and sale by Michigan Consolidated, at competitive bidding, of \$15,000,000 first mortgage bonds, due 1976, and the issuance and sale by Michigan Consolidated to American Natural of additional common stock in an amount of \$5,012,000.

The new bonds will be dated Aug. 1, 1951, and will mature Aug. 1, 1976. The interest rate on the bonds, as well as the price to be received by Michigan Consolidated, are to be determined by competitive bidding and, if the bonds are purchased for distribution by the successful bidder or bidders, the public offering price will be determined by such bidder or bidders.

At or prior to the issuance and sale of the new bonds, Michigan Consolidated will issue and sell to American Natural 358,000 shares of common stock for cash in an amount equal to the par value thereof, namely, \$14 per share, an aggregate of \$5,012,000. At present the authorized common stock of Michigan consists of 4,200,000 shares, of which 3,902,000 shares are outstanding. In order to make possible the contemplated purchase by American of common stock of Michigan, it is proposed to increase the authorized common stock of Michigan to 4,500,000 shares by appropriate amendment of its articles of incorporation.

The proceeds from the sale of the new bonds and additional common stock will be used to repay \$4,000,000 of interim short-term bank borrowing to be incurred prior to consummation of the proposed financing; to pay the expenses incident to the issuance and sale of the new bonds and additional common stock; and to provide funds for the expansion of facilities and to reimburse Michigan's treasury for expenditures made for this purpose.—V. 173, p. 2437.

Reynolds Metals Co.—\$85,000,000 of Bonds to Be Placed Privately—The company announced on July 2 it had entered into contracts for the private sale to 20 institutional investors of \$85,000,000 of first mortgage 4% bonds due July 1, 1962. The agreements provide for delivery of varying principal amounts thereof from time to time on or before July 1, 1952. The financing, the company's first since 1937 from private sources other than banks, was arranged by Dillon, Read & Co. Inc. and Reynolds & Co. A sinking fund will retire the entire issue by maturity.

The proceeds of the loan will cover the construction cost of the new 150,000,000 pounds a year aluminum reduction plant, together with a 175,000 kw gas diesel power plant being built near Corpus Christi, Texas, and also additions to its Jones Mills, Ark., and Troutdale, Ore., plants. The new plants will use alumina produced from bauxite obtained from Reynolds' reserves in Jamaica, B. W. I., which are presently being developed, and from Reynolds' reserves in Arkansas. Reynolds holdings in the Caribbean account for a substantial portion of total Caribbean deposits of bauxite, which constitute the world's largest known bauxite reserves and are estimated to contain 350,000,000 tons, 90% being in Jamaica.

The total increase in primary aluminum capacity of Reynolds Metals under the loan agreement will amount to 200,000,000 pounds a year, increasing the company's annual capacity by approximately 44% to a total of 650,000,000 pounds, representing approximately 27% of the total capacity of the industry in this country, including the 900,000,000 pounds of additional capacity required by the Government under the defense program.

Construction of the new facilities has already begun and is being pushed to completion. The additions to the existing plants, accounting for 25% of the new capacity, will be in operation by August of this year and the new Texas plant which will provide the remaining 75% is expected to be completed early in 1952. Certificates of necessity for 80% of the cost of the new facilities have been issued by the Government.—V. 173, p. 1796.

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday and the Saturday figures are not available at time of going to press. Accordingly, in the above, the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results of the previous week — the week ended June 30. For that week there was an increase of 11.2%, the aggregate of clearings for the whole country having amounted to \$16,946,131,323 against \$15,238,994,968 in the same week in 1950. Outside of this city there was a gain of 11.7%, the bank clearings at this center having recorded a gain of 10.7%. We group the cities according to the Federal Reserve Districts in which they are located and from this it appears that in the New York District (including this city) the totals show an increase of 9.5%, in the Boston Reserve District of 13.9% and in the Philadelphia Reserve District of 7.3%. The Cleveland Reserve District records a gain of 16.9%, the Richmond Reserve District of 20.0% and the Atlanta Reserve District of 19.1%. In the Chicago Reserve District the totals are larger by 12.2%, in the St. Louis Reserve District by 10.9% and in the Minneapolis Reserve District by 10.3%. In the Kansas City Reserve District the increase is 2.4%, in the Dallas Reserve District 1.6% and in the San Francisco Reserve District 23.5%.

UNITED STATES

\$171,319,000 Local Housing Authority Bonds Offered—Fifty-eight local housing authorities in various States will consider sealed bids at 3 p.m. (EDST) on July 17 for the purchase of \$171,319,000 of bonds, representing the initial offering of the approximately \$600,000,000 bonds scheduled to be issued pursuant to the 1949 amendment of the United States Housing Act of 1937. An important attribute of these "new" housing bonds as compared with obligations previously issued is that, under the 1949 law, the obligation of the Public Housing Administra-

tion with respect to the annual contributions payments to the issuer is unconditional. The 1937 law contained several provisions which required the PHA either to cancel the Annual Contributions Contracts or to reduce or withhold payment of the annual contributions. The language of the contract applicable to the issues now being offered and subsequent emissions, according to Marshall W. Amis, General Counsel of the PHA, "is very carefully drawn to obligate the Public Housing Administration at all events to see that the full amount of (the) level debt service is in the hands of the fiscal agent and available for the payment of the bonds, both principal and interest." Mr. Amis was one of the speakers at the National Conference on Public Housing Financing in New York City on June 13, under the auspices of the Municipal Forum of New York. A booklet containing Mr. Amis' speech and others made at the meeting, also questions and answers pertinent to the financing, may be obtained from the Municipal Forum of New York through Donald S. MacFadden, of Eastman, Dillon & Co., 15 Broad Street, New York City.

The issues making up the grand total of \$171,319,000 bonds to be awarded on July 17 are listed herewith. Unlike previous housing authority issues, the bidder must name a single rate of interest on each loan, expressed in a multiple of ¼ of 1%. The bonds are not subject to call until after 10 years from date of issue.
