Admiral Corp.—Plans Expansion—

A \$7,000,000 plant expansion program for this corporation, manufacturers of television, radios and appliances, was announced on Aug. 6 by John B. Huarisa, Executive Vice-President. It affects factory and distribution facilities in Chicago, Galesburg, New York and Boston.

Expansion plans, part of a long-range program, call for over 500,000 additional square feet of floor space at the Chicago and Galesburg factories and 240,000 square feet at distribution centers in Chicago, New York and Boston. The extension of factory facilities and parking space already is underway. Some of the building necessarily will be undertaken after the lifting of present restrictions.

The new program, said Mr. Huarisa, will include a \$2,000,000 multi-story building, with 300,000 square feet of floor space for defense work and a \$1,500,000 seven-story office building in Chicago; also a \$1,000,000 120,000 square foot expansion in Galesburg, Ill.

Additional distribution facilities in Chicago, New York and Boston will amount to \$2,500,000. These will be single-story distributing plants involving 100,000 square feet of floor space in Chicago, 100,000 square feet in New York and 40,000 in Boston. This entire program will be financed from existing working capital; no borrowing will be required.—V. 173, p. 2385.

American Communications Corp.—Shares Offered—
Empire National Corp., on Aug. 9 offered "as a speculation" 108,856 shares of 6 1/4% cumulative preferred stock (par \$2.40) and 108,856 shares of common stock (par 5 cents) in units of one share of preferred and one share of common stock at \$2.50 per unit.

The preferred stock may be called for redemption at \$2.50 per share. After Dec. 31, 1952, there shall be a sinking fund set up for redemption of preferred stock, which shall be equal to 15% of net earnings in excess of \$200,000 in each calendar year.

PROCEEDS—The net proceeds are to be added to working capital and used for general corporate purposes.

BUSINESS—Principal business of the corporation (incorporated in New York in November, 1936) is the manufacturing of "Centralized Radio Systems." It also produces equipment designed for military use. The company's plant is located in leased quarters at 306 Broadway, New York, N. Y.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

	Shares	Authorized	Outstdg.
6 1/4% cumulative preferred stock (par \$2.40)	150,000	150,000	116,556
Common stock (par 5 cents)	1,000,000	1,000,000	*636,070

*Also includes 27,214 shares available for sale to underwriters at five cents per share at the rate of one share for each four units sold.

FILES—The corporation on Aug. 1 filed a letter of notification with the SEC covering the above mentioned shares now offered.

American & Foreign Power Co., Inc.—Reorganization

According to Arthur Wiesenberger & Co., members of New York Stock Exchange, recent agreement among stockholder committees, Electric Bond & Share Co. and American & Foreign Power Co. on details of the reorganization plan of American & Foreign Power, promises a quick end to the proceedings before the SEC. The agreement eliminates the need for preparing, exchanging, filing of elaborate contesting briefs, considerably shortening the journey which major contested reorganizations have taken before the SEC, following close of hearings. Hearings on the American & Foreign Power plan ended before the Commission last month.

The Wiesenberger company revealed that sources close to the Commission anticipate clear and fast sailing for a decision on the plan. Oct. 26, 1951 would mark the ninth anniversary of proceedings which began with the filing of an earlier plan for reorganization of American & Foreign Power Co. in 1942.—V. 174, p. 101.

American Gas & Electric Co.—Stock Dividend—

The company has filed an application with the SEC for authorization to issue not to exceed 271,739 shares of its \$10 par common stock, to be paid as a stock dividend to its stockholders of record Aug. 10, 1951, at the rate of one share for each 20 shares then outstanding.

The SEC given interested persons until Aug. 16, 1951, to request a hearing upon the application.—V. 173, p. 2385.

American Power & Light Co.—Proposed Distribution

The company on Aug. 1 filed an application with the SEC for approval of a proposal for distribution of \$4,684,822 in cash to its stockholders at the rate of \$2.00 per share "in partial liquidation of American and as one of a series of distributions in complete liquidation of American and complete cancellation and redemption of the whole of the capital stock of American."

In addition to its holdings of the common stock of The Washington Water Power Co. and of Portland Gas & Coke Co. (in process of reorganization) and all the securities of Washington Irrigation & Development Co. (an inactive company) American had on hand at June 30, 1951, cash and cash items, including United States Government securities, aggregating approximately \$8,800,000. American's net current assets as shown by the balance sheet at that date were \$8,782,890. The cash and cash items now exceed American's foreseeable requirements and a portion thereof is therefore available for division among its stockholders as a liquidating distribution pursuant to the Commission's order for dissolution of American issued in 1942.

The distribution of cash at the rate of \$2 for each of the 2,342,411 shares of American's capital stock would be payable on the "Distribution Date," which shall be the date 30 days (excluding Saturdays, Sundays and holidays) after the date of the SEC order approving the plan, and the "Record Date" for the purposes of such distribution shall be the date ten days (excluding Saturdays, Sundays and holidays) after the date of said order.—V. 174, p. 449.

Taylor, President.—V. 173, p. 1886.

Detroit Edison Co.—Starts New Generator

The company on Aug. 1 started up a new steam turbine-generator at Conners Creek this year, and marks the completion of a 2½-year in the metropolitan Detroit area by 168,000 horsepower.

The new generator, including boilers and other equipment, cost \$15,000,000. It is the second of two identical units placed in operation at Conners Creek this year, and marks the completion of a 2½-year construction program at the Conners Creek station.

Starting up of the new unit also brings to completion the company's current program of additions to existing plants. Besides the two Conners Creek additions, two 168,000-horsepower generators have been put in service at Edison's Trenton Channel plant—one in October, 1949, and the second in February, 1950.

Detroit Edison's over-all expansion plans carry through 1954. A new three-unit plant now under construction between St. Clair and Marine City is scheduled to provide 600,000 horsepower by late 1953, and plans for another new plant at the mouth of the Rouge River are under way.—V. 174, p. 358.

Parkview Drugs, Inc., Kansas City, Mo.—Div. Deferred

The directors have deferred action upon the cumulative dividend on the preferential stock, which ordinarily would have been paid Aug. 15, 1951.

Phillip Small, President, stated it was impossible at this time to determine the full extent of the loss to the company due to the flood, but that the net loss probably exceeded operating profit from the beginning of the fiscal year, Oct. 1, 1950, to the date of the damage.

While the operations of the remaining 16 Kansas City, Mo., stores and the remaining four stores in Topeka, Kans., have regained normal sales volume, sales were off substantially in some of the

stores during the flood period and the emergency condition due to the flood.

Regular quarterly dividends have been paid on the issue ever since the original public offering, March 15, 1948.

Mr. Small further stated that directors are of the belief that the situation will have clarified itself near the end of the company's fiscal year, Sept. 30, 1951.—V. 167, p. 2034.

Construction costs of \$17,000,000 for 1951 include work on a \$12,-500,000 addition to the Front Street generating station in Erie, Pa., and the start of a \$38,000,000 generating station at Shawville, Pa.—V. 172, p. 1833.

Ryan Aeronautical Corp.—Plans Financing—

A proposal for an increase in the authorized capital stock from 500,000 shares of \$1.00 par value to 1,000,000 shares is being submitted for approval of stockholders by the board of directors.

Discussing the proposed increase in authorized capital stock, T. Claude Ryan, President, said that rapidly expanding production and the large backlog of orders makes it important that the corporation be in a position to do appropriate financing through issuance of some form of its own securities if and when advantageous to the company.

The Ryan management indicated that at this time it had not reached any conclusion as to any specific plan or type of security that might be issued. Any issuance, if and when made, might take the form of a general offering for sale to the public or granting of rights to stockholders; or the reservation for conversion of long-term debentures which could be issued with provision for convertibility into common stock, company officials said.

The company has 439,193 shares of stock outstanding. Of these, 45,350 are held by the wholly owned subsidiary, Ryan School of Aeronautics. The solicitation of consent is being sent to stockholders of record July 20. —V. 174, p. 277.
