Construction of a new \$1,000,000 headquarters was announced on March 21, by Herbert H. Horn, Inc., Admiral distributor for Southern California. Erection of the new television and appliance center will start in 30 days on a 10-acre site in Los Angeles, Calif. The headquarters building will be completed in October.

Founded as a small automotive supply jobber in 1924, the Horn concern did a gross business of \$18,000,000 in 1951. The new headquarters was designed to handle an annual volume of \$50,000,000. It will contain 120,000 feet of floor space, nearly double the present facilities. In addition to television sets, Horn handles Admiral refrigerators and ranges and a complete line of electrical home appliances.—V. 175, p. 317.

The company on March 21 filed its registration statement covering its proposed \$12,000,000 bond issue. As previously reported, Alabama proposes to issue and sell, at competitive bidding, \$12,000,000 of first mortgage bonds, due 1982, the proceeds of which are to provide a portion of the funds required for property additions and improvements and to reimburse its treasury for past capital expenditures. The construction program is estimated at \$102,500,000 for the years 1952-1954. The management estimates that additional financing through the issuance and sale of securities will be required, in the amounts of \$30,000,000 in 1953 and \$19,000,000 more in 1954.

The stockholders on March 26 defeated a proposal to increase the company's capital funds by \$5,000,000 through the sale of additional stock.

The plan had called for the sale of 500,000 shares (par \$4) at \$10 per share, increasing the outstanding capital stock to 1,000,000 shares. Subscription rights would have been offered to present stockholders on a share-for-share basis.—V. 170, p. 1797.

The relay resists all harmful atmospheric conditions, including salt spray, high humidity, sand, fungi and widely varying air pressures. According to GE engineers, the new device offers increased reliability and from two to six times longer life than existing equipments, based on tests in company laboratories.

To Spend More for Machinery and Parts—

The company expects to spend \$50,000,000 more for materials and parts for its major appliance manufacturing in 1960 than it did last year, Clarence H. Linder, General Manager of GE's major appliance division, said on March 20.

Mr. Linder said that production facilities and equipment at the multimillion dollar Appliance Park development now under construction would permit manufacture of many component parts now purchased. But he explained that the dollar value of materials and parts the company would have to buy would increase in total because the number of appliance units produced would increase substantially. Manufacture of the company's major appliances now produced at a number of widely scattered plants, eventually will be concentrated at Appliance Park.—V. 175, pp. 1021 and 1123.

General Tire & Rubber Co.—Brazilian Plant—

(B. F.) Goodrich Co.—To Increase Plant Capacity—

A major plant expansion program calling for the expenditure of more than \$2,000,000 on the company's tire and tube manufacturing plant at Los Angeles, Calif., was announced on March 23 by T. G. Graham, Vice-President.

The expansion program provides for new machinery and production facilities that will increase present tire and tube production by more than 20%, said Mr. Graham. Other changes will involve a new and more efficient curing room, relocation and modernization of the tube manufacturing department, machine shop, cafeteria and other units.

The new program, which Mr. Graham said received NPA approval the week before last, will add 175,000 square feet of floor space, giving the plant a total area of 903,748 square feet devoted to production and warehousing. The company completed a new warehouse last year which added 100,000 square feet of warehouse space for finished goods.

James F. Sweatt, Plant Manager, said construction on the new facilities is expected to start in the third quarter this year when final plans are completed and necessary building materials have been obtained. Contracts have not been awarded yet.—V. 175, p. 1223.

Gould-National Batteries, Inc.—New Product—

Longer battery life and more durable service will result from a new plastic separator being introduced by this corporation, Albert H. Daggett, President, announced.

The new separator, called "BIPLAK," is the first of its type to be used in a storage battery and will be featured in even the lowest-priced Gould-National batteries at no extra cost, Mr. Daggett said. Made by Dewey & Almy Chemical Co. from a newly-discovered, highly porous, chemically treated fibrous material, BIPLAK eliminates all battery failures due to separator deficiencies, he explained. The fibrous material is laminated for extra strength and impregnated with plastic reinforcement.

The new separator will be used in Gould-National auto-starting batteries for the present but the company hopes at a later date to adapt it for use on its other type of batteries.—V. 174, p. 899.

International Hydro-Electric System—Proposed Sale

Bartholomew A. Brickley, Trustee of the system on March 20 filed an application with the SEC for authorization to sell certain of the assets of IHES and Eastern New York Power Corp., as follows:

(a) Properties of ENYP on the Hudson River, N. Y., and on the Androscoggin River, Maine, leased to International Paper Co., for \$9,000,000 (less \$400,000 lien). Baker, Weeks & Harden, acting as agents for two principals, have made a written offer for the purchase of such properties.

(b) The properties of ENYP on the Raquette River, N. Y. leased to IP and the so-called Sols Island properties on the same river for \$250,000. Baker, Weeks and Harden, acting for the same principals, have made an offer in writing for the purchase of such properties.

(c) The electric utility and partially developed properties of ENYP on the Hudson and Black Rivers, New York, for \$8,000,000. Niagara Mohawk Power Corp. has made an offer to purchase these properties, located on the Hudson River on Sherman Island, South Glens Falls and Fort Edward, N. Y., and on the Black River above Watertown, N. Y.

(d) The electric utility properties of ENYP on the Saranac River, New York. The City of Plattsburg, N. Y. has made an offer in writing to purchase these properties for \$5,500,000, subject to the condition that the City obtain the consent of the Controller of the State of New York to the issuance of bonds to finance the purchase outside the City's debt limit. This offer also includes the purchase of the underdeveloped water-power properties at Redford and Teft Pond on the Saranac River.

The New York State Electric & Gas Corp. has made an offer to purchase the ENYP electric properties on the Saranac River included in the offer of the City of Plattsburg together with the partially developed property of ENYP on the Chateaugay River, New York, for \$4,500,000.

(e) The IHES interest in Corinth Electric Light & Power Co. and Moreau Manufacturing Corp. for \$500,000. Niagara Mohawk Power Corp. has offered to purchase such interest. IHES owns all the outstanding shares of Corinth and one-third of the outstanding shares of Moreau.

The application stipulates that none of the offers for the properties of ENYP be accepted unless it appears that all the properties included in the offers will be sold and the sales can be consummated within a reasonable period. Unless all the properties are sold, there will not be sufficient proceeds from the sales to pay all the outstanding bonds of ENYP, to retire the preferred stock of ENYP, and to permit the distribution to IHES of sufficient funds to pay the balance of the loan of The Chase National Bank of the City of New York to IHES. ENYP would continue to hold certain other assets.

The proposed transactions "are believed to be appropriate steps in the orderly liquidation and dissolution of IHES in compliance with the order of the Commission dated July 21, 1942, and will provide funds with which to pay the IHES bank loan." The loan now amounts to \$7,000,000. There is now pending before the Commission a plan filed by the Trustee which proposes an allocation of a single class of trustee certificates in exchange for the outstanding shares of preferred and class A stock of IHES. Another plan proposes the pro rata distribution of IHES assets to the holders of the trustee certificates after consummation of the allocation plan and after payment of the balance of the loan and all taxes and expenses.—V. 175, p. 422.

Monsanto Chemical Co.—Latest Developments—

In making a round-up report to stockholders on the latest developments of the company, Charles Allen Thomas, President, on March 25 revealed some of the manufacturing and marketing plans for Krillium soil conditioner.

He said: "We'll manufacture Krillium in presently available equipment at several plants rather than build a new plant for it at this time." Such a plan, he said, would allow the company to establish commercial production at the earliest possible date. "Substantial amounts" will be marketed in time for next spring's home garden needs, and for agricultural and erosion control purposes, he said.

Mr. Thomas also told the stockholders that The Chemstrand Corp., a company which Monsanto jointly owns with American Viscose Corp., would begin initial operations early next month, and that this fall limited amounts of products made from Acrilan fibers would be available in retail stores. Acrilan is a synthetic fiber made from acrylonitrile. The nylon plant which Chemstrand is building at Pensacola, Fla., will begin production late in 1953, Mr. Thomas said.

Other scheduled start-up dates for major Monsanto expansion projects also were reported by Mr. Thomas. These include the company's new acrylonitrile plant at Texas City, Tex., which he said will be in operation by the end of the year; a vinyl chloride monomer plant there, which will start partial operation in the latter part of the third quarter and will be in full operation by year's end, and a large addition to the styrene monomer plant, also at Texas City, which will be in operation early in the third quarter. A new phenol plant at Avon, Calif., will begin operations early in 1954, he said, and a 250-ton-a-day sulfuric acid plant, being constructed jointly by Monsanto and Tide Water Associated Oil Company at Avon, will be in operation by year's end.

A new government-owned chlorine and caustic soda plant at Muscle Shoals, Ala., also was reported on by Mr. Thomas. This plant, largest chlorine plant in the world under one roof, was designed and built by Monsanto and Leonard Construction Co., Chicago, for the Army's Chemical Corps. Mr. Thomas reported that Monsanto will operate the plant, half of which will be completed and in operation next month.

Edgar M. Queeny, Chairman of the Board of Directors, told the stockholders that money obtained in recent new financing has been appropriated by the board for expansion projects. This includes \$66,000,000 from the sale of income debentures and almost \$38,000,000 from the recent sale of common stock.—V. 175, p. 1125.

Nashua Gummed & Coated Paper Co. — Change in Name and Par of Stock Approved—

The stockholders on March 27 approved a proposal to change the company's name to "Nashua Corporation," and a proposal to change the authorized no par common stock into the same number of shares with a par value of \$5 each.—V. 169, p. 1116.

National Gypsum Co.—Capitalization Increased—

The stockholders at the annual meeting approved an increase in the company's capitalization from 2½ to 5 million shares of common stock. A restricted stock option plan for executives (involving 50,000 shares), was also approved.

Commenting on the moves, Melvin H. Baker, Chairman of the Board, stated, "While we have no specific plans for issuing any of this increased capitalization, it puts the company in a much more flexible position for expansion through acquiring other companies by means of an exchange of stock. Too, if cash is required for expansion, we will be in a position to sell shares in a favorable market." Mr. Baker discussed the acquisition of Wesco Waterpaints, Inc., which added eight plants and nearly a thousand employees to National's nationwide operations. "Wesco's plant locations—four on the Pacific Coast, three east of the Rockies, and one located in Canada—gives us production facilities best located to rapidly and economically manufacture and distribute quality paint products to the entire nation. National Gypsum, previously limited to one paint plant, is now in a position to serve the entire construction industry with water thinned, casein base and rubber base paints." National Gypsum now has 32 plants in 22 states and Canada.

Mr. Baker reported that sales for 1952 are equaling 1951's record-setting amount for the same period and are expected to top the 95½ million level reported for 1951.—V. 175, p. 919.

New England Electric System—Capital Contribution—

The SEC on March 21 issued an order authorizing this system to surrender to Connecticut River Power Co. 7,297 shares of that company's 6% cumulative preferred stock, \$100 par, as a capital contribution by NEES; and authorizing CRP to purchase and redeem the remaining 4,703 outstanding shares of such stock held by the public at \$110 per share plus accrued dividends to the date of call. Thereupon, CRP proposes to reduce its authorized capital stock by \$1,200,000, the aggregate amount of the outstanding preferred stock.

Two other subsidiaries of NEES have received SEC authorization to issue and sell their respective promissory notes, as follows:

(1) Suburban Gas & Electric Co.: \$375,000 of unsecured promissory notes to be issued to The First National Bank of Boston (in addition to \$1,075,000 of notes now held by First National), proceeds to be used to pay for construction work and costs of conversion to the use of natural gas. Notes to bear prime rate of interest (now 3%), and to mature in six months.

(2) Worcester County Electric Co.: \$1,000,000 unsecured promissory note to be issued to The First National Bank of Boston, to bear prime rate of interest (now 3%) and to mature in six months. Worcester now has outstanding \$3,600,000 of notes. It proposes to use proceeds of new note to pay off a \$1,000,000 outstanding note which matures March 25, 1952.—V. 175, p. 1125.

Niagara Mohawk Power Corp.—To Increase Stock—

The corporation has applied to the SEC for approval of a charter amendment to be voted on by stockholders at their May 6, 1952, meeting, which would increase the authorized shares of common stock from 11,094,662 shares to 12,594,662 shares, an increase of 1,500,000. It is stated that the proposed increase is for the purpose of placing the management in a flexible position with respect to the formulation of future financing programs. As of March 15, 1952, Niagara Mohawk had issued and outstanding 9,073,887 shares of common stock and 1,382,523 shares of class A stock.

The SEC has given interested persons until April 3, 1952, to request a hearing upon the proposal.

Proposed Expansion—

This corporation has offered to purchase a number of hydro-electric power sites and properties of the Eastern New York Power Corp. and the International Hydro Electric System for a total of \$3,500,000, it was announced on March 21 by Earle J. Machold, President. The various properties are located on the Hudson River in Eastern New York State and the Black and Grasse Rivers in Northern New York.

Properties in the Hudson River area include hydro-electric power plants at Sherman Island, South Glens Falls and Fort Edward, whose total output has been purchased by Niagara Mohawk for some years. Niagara Mohawk also has offered to purchase International Hydro Electric's interest in the Moreau Manufacturing Co., a power-producing plant. In addition, the company is offering to buy the electric distribution system in the Village of Corinth where Niagara Mohawk has been supplying power at wholesale.

The properties on the Black River included in the purchase offer are power sites at Glen Park and at Sewalls Island at Watertown. The Niagara Mohawk offer also includes purchase of the site for a power plant on the Grasse River at Fyrites.—V. 175, p. 1225.

North Central Texas Oil Co., Inc.—Files—

A letter of notification was filed with the SEC on March 13 covering 1,000 shares of common stock (par \$5) to be offered at the market (approximately \$23.50 per share) through H. N. Whitney, Goadby & Co., New York, for the account of Arthur R. Carmody.—V. 174, p. 8.

Northern Natural Gas Co.—To Dissolve Unit—

This company and its wholly-owned subsidiary, Peoples Natural Gas Co., have filed an application with the SEC regarding the proposed dissolution in complete liquidation of Peoples and a request by Northern that the Commission find that it has thus ceased to be a holding company. The Commission has scheduled the matter for hearing on April 8, 1952.

Northern owns and operates natural gas pipelines extending from Texas through Oklahoma, Kansas, Nebraska, and Iowa and into Minnesota and South Dakota, and transmits gas purchased and produced in Texas, Oklahoma and Kansas through these gas transmission lines to its principal markets in the States of Kansas, Nebraska, Iowa, Minnesota and South Dakota. Peoples is a gas utility company purchasing gas from its parent, Northern, at the city and town borders in 89 cities and towns in Kansas, Nebraska, Iowa, and Minnesota and distributing this gas, at retail, to customers in those areas.

Northern proposes to acquire from Peoples all of its assets and assume all of its liabilities. Thereafter, Northern is to transfer to Peoples all of the outstanding common stock of Peoples whereupon that stock is to be cancelled and Peoples will be completely liquidated and dissolved. The filing states that the management of Northern considers this program desirable to simplify further the corporate structure and operations of the Northern system. Northern has no other subsidiaries.—V. 175, p. 1225.

The remaining preferred shares will be redeemed at \$33.75 per share plus accrued dividends at City Bank Farmers Trust Co., New York.

Giving effect to the 49,604 preferred shares converted out of the original issue of 50,000 shares sold publicly in May, 1950, the number of shares of common stock now outstanding amounts to 899,608.—V. 175, p. 1024.

During the last five calendar years, when over 68,000 new customers were added, the company spent over \$67,000,000 on new properties including the 110,000 kw. Mustang station near Oklahoma City and an additional 29,000 kw. unit in Ponca City. During 1952 the company expects to spend about \$15,500,000 mainly to complete the 66,000 kw. Portable Electric Tools, Inc., Chicago, Ill.—Stock Offered—

A group of underwriters, headed by Dempsey & Co. and Frank E. McDonald & Co., on March 24 publicly offered 135,000 common shares (par \$1) at \$8 per share. Of these shares, 100,000 shares are being sold by company and 35,000 shares by certain selling stockholders.

PROCEEDS—The net proceeds of approximately \$683,936 to be received by the company from the sale of its 100,000 common shares now offered will be added to the working capital of the company. The increased sales of the company during recent years have resulted in substantial increases in inventories, accounts receivable, accounts payable and income and excess profits tax liabilities, which have increased the company's working capital requirements. Such net proceeds will serve to reimburse the treasury in the cash amount of \$147,060, recently paid in connection with the acquisition of certain real property, and to retire at least \$100,000 of short-term bank loans in the present aggregate principal amount of \$250,000. The loans, incurred for working capital purposes, are in addition to the installment note shown under "Capitalization."

The company will receive no part of the proceeds from the sale of the 35,000 common shares being sold by the selling shareholders.

DIVIDENDS—The company has paid no dividends on its common shares. It has declared a dividend of 17½¢ on each common share, payable May 30, 1952, to shareholders of record May 10, 1952. It is the present intention of the directors to declare future quarterly dividends to the extent that such a policy is consistent with the future earnings and financial position of the company.

BUSINESS—The company was organized in Illinois on June 28, 1946, to take over the business formerly carried on under the name Nashua Co., Ltd., a partnership in which A. W. Miller, Jr. was the principal partner.

The principal business of the company consists in the design, manufacture and sale of portable tools for home, shop and industrial use. For the most part, these tools consist of electric drills, sander-polishers, paint sprayers, grinders and saws, operated by built-in electric motors. The company is also engaged in the manufacture and sale of specialized electrical devices for use in the plumbing and laboratory supply fields. The main components of these are standard motors and motor parts used by the company in its own products.

The company also has two contracts for the manufacture of high priority electronically controlled rotary inverters required in the rearmament program. It is estimated that sales under these contracts for the fiscal year ending June 30, 1952, will amount to less than 10% of the sales of the company.

The company is also engaged in the research and development of electronic instruments known as transistors and magnetic amplifiers. The Navy proposes to use magnetic amplifiers to replace vacuum tubes for various purposes.

In July, 1950, the company participated in the organization of Admiral Die-Casting Corp., an Illinois corporation, which is engaged in the production of aluminum, zinc and magnesium die-castings. It owns a modern one-story manufacturing plant of recent construction with 25,000 square feet of floor space located about one block from the plant of the company and all of the equipment required for die-casting operations.

As at Feb. 1, 1952, Admiral had issued and outstanding 16,920 common and 1,160 preferred shares, all entitled to vote. On that date the Portable company owned 7500 common shares or 41.48% of the total shares outstanding.

In February, 1950, certain officers of the company, acting in its behalf, organized Portable Electrical Tools (Canada) Ltd. under the laws of the Province of Ontario, Canada. The company acquired all of the common stock (the only voting stock) of the Canadian company as at Dec. 31, 1951, for \$2,900, the price paid by the subscribers for this stock.

Southern Pacific Co.—Taxes Three Times Dividends

Taxes paid by this company last year totaled more than three times all the dividends paid to stockholders of the railroad, D. J. Russell, President, pointed out on March 24 in a letter addressed to stockholders. Of the tax bill, about 69% was Federal taxes, the figures showed.

"It is significant to note that 1951 taxes were equivalent to \$17.71 per share of the company's capital stock outstanding at the year's end," Mr. Russell said in his message. "This is much in excess of Southern Pacific's 1951 consolidated net income of \$11.62 per share."

He also explained that entirely separate are the taxes the railroad is required to collect on ticket purchases and freight charges and turn in directly to the Federal Government.

On basis of Mr. Russell's message to the stockholders, it was calculated that the railroad's 1951 tax bill of over \$76,000,000 was at the rate of \$2.41 per second, day and night.

Places Large Orders for Equipment

An important addition to this company's very large fleet of Diesel locomotives was announced on March 27 by D. J. Russell, President. Orders are being placed for 122 locomotives comprising 188 units. The new locomotives will give Southern Pacific 1,770,000 horsepower in its Diesel fleet, Mr. Russell said.

The current orders for new Diesels will bring Southern Pacific's investment in Diesels to \$180,000,000 since V-J Day, he added.

The orders are divided among the following companies: Electro-Motive, Baldwin-Lima-Hamilton, American Locomotive, and Fairbanks, Morse.—V. 175, p. 752.

Its principal gas production and reserves are located in the Pledger and Carthage Fields in Texas and in the Logansport Field on the Texas-Louisiana border, although it is active in other Louisiana, Mississippi and Texas fields. Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday and the Saturday figures are not available at time of going to press. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results of the previous week—the week ended March 22. For that week there was an increase of 7.7%, the aggregate of clearings for the whole country having amounted to \$19,939,752,181 against \$18,519,701,734 in the same week in 1951. Outside of this city there was a gain of 7.8%, the bank clearings at this center having recorded an increase of 7.5%. We group the cities according to the Federal Reserve Districts in which they are located and from this it appears that in the New York District (including this city) the totals record an improvement of 7.8% and in the Philadelphia Reserve District of 10.4%, but in the Boston Reserve District the totals register a falling off of 3.4%. In the Cleveland Reserve District the totals are larger by 8.7% and in the Atlanta Reserve District by 9.8%, but in the Richmond Reserve District the totals are smaller by 0.9%. The Chicago Reserve District has to its credit a gain of 19.5%, the St. Louis Reserve District of 1.1% and the Minneapolis Reserve District of 12.6%. In the Kansas City Reserve District the totals show an increase of 0.5%, in the Dallas Reserve District of 4.9% and in the San Francisco Reserve District of 12.0%.

The company on March 24 filed an application with the SEC for authorization to issue and sell, at competitive bidding, \$30,000,000 of a new series of first mortgage and collateral trust bonds, due May 1, 1982. Proceeds would be applied to the construction program of Union and its subsidiary, Union Electric Power Co. (which is expected to result in gross expenditures of approximately \$177,000,000 over the years 1952-1956), including the repayment of \$10,000,000 of temporary borrowings.—V. 175, p. 1227.

United Gas Corp.—To Add to Investments—

The corporation on March 20 applied to the SEC for authorization to acquire its pro rata share (25%, or \$875,000) of \$3,500,000 of first mortgage 4½% promissory notes to be issued by Atlas Processing Co.

Atlas was organized by United and certain other companies to conduct operations at the Carthage Field of United in connection with the upgrading of gasoline (United owning 25% of its outstanding securities). In its process of upgrading straight run motor fuel, according to the application, Atlas has found that benzene was present in the amount of 3.8% by volume. It now proposes to install a benzene extraction unit and a platform unit in its Shreveport plant. The extraction unit, which will take out approximately 400 barrels of benzene per day, is estimated to cost \$2,500,000. The platform unit will further process the remaining raw material to restore the loss in anti-knock rating incurred by the removal of the benzene and to control the boiling range of the finished motor gasoline. It is estimated that this will cost \$1,000,000. The \$3,500,000 of notes are to be issued to finance the construction of these units.

The SEC has given interested person until April 2, 1952 to request a hearing upon the application.—V. 175, p. 520.
