American Metallic Chemicals Corp., Portland, Ore.—Registers With SEC—

The corporation on Aug. 20 filed a registration statement with the SEC covering 450,000 shares of common stock, one cent par value, to be offered on a "best efforts" basis by underwriters at $3 per share, with a 60 cent per share selling commission to the underwriter. "The shares are speculative securities." Dobbs & Co. and M. S. Gerber, Inc., both of New York, are listed as the underwriters.

The company was incorporated in Delaware on July 24, 1951, "for the purpose of manufacture and sale of a number of metallic chemicals having a great variety of uses". The plant now leased by the company is located in Portland, Ore. The management determined "that electrolytic manganese dioxide for use in dry batteries and other chemical uses would be the company's initial product of manufacture." Manufacturing operations for the production of electrolytic manganese dioxide were begun in July, 1952, "and it is contemplated that finished product in commercial quantities will be available for the market during the fourth quarter of 1952." The company plans, upon the completion of its present financing, to lease an additional plant, adjoining its present plant, for the manufacture of sodium perborate tetrahydrate for commercial use in numerous industrial fields. Of the proceeds of the stock sale, $757,000 is to be used to alter and equip such additional plant, $75,000 for additional equipment in its present plant; and the balance for working capital.

According to the prospectus, the company shortly after incorporation issued 350,000 shares of common stock for one cent per share to its promoters, including Percy E. Landoit, White Plains, N. Y., Chairman, and James G. McCallum, of Portland, Ore., President. In November and December, 1951, it sold for cash at par $150,000 of convertible income debentures notes, the purchasers being the six promoters and 17 other persons. These 23 investors also purchased 150,000 common shares at one cent per share. There were 600,000 shares issued and outstanding on June 30, 1952. An additional 50,000 are reserved for issuance upon conversion of the notes and an additional 36,000 for issuance to the licensor under a license agreement relating to the sodium perborate process without additional cash consideration to the company.—V. 175, pp. 45, 138.

American Research & Development Corp.—Affiliate May Offer New Preferred Stock for Old—

This Boston investment company and Snyder Chemical Corp., Bethel, Conn., its affiliate, have applied to the SEC for an exemption order permitting certain intercompany transactions incident to an arrangement for the employment of William L. Abramowitz and his associates to assume management of Snyder. Snyder is said to have been successful in developing resin products of a high degree of technical acceptance; but high costs, material shortages and development expenditures have caused Snyder to be in a continually precarious financial position. Accordingly, it decided to add to its management persons experienced in the production and marketing of resin products; and its directors believe that participation by Abramowitz in the management is necessary and desirable for the success of the business.

Included in the arrangement for the employment of Abramowitz, under which the latter is to receive a block of stock equal to one-third of the then outstanding Snyder common stock for services rendered prior to Oct. 1, 1951, and options to acquire at 1 cent per share sufficient additional shares to bring his aggregate holdings up to 50% of the stock outstanding on Feb. 28, 1951, is a provision for the exchange of a new preferred stock, with sinking fund provisions, for the present preferred stock of Snyder. The repurchase by Snyder of the outstanding preferred held by American Research in connection with its exchange of the new shares is prohibited unless exempted by the Commission.

The Commission has given interested persons until Sept. 8, 1952 to request a hearing upon the application.—V. 173, p. 1473.

Earnings before taxes showed the same 21% increase in the three-month period, reversing the declines shown in this category in the three preceding quarters.

R. W. Moore, President, attributed the upswing to a combination of factors. Among these are increased sales of carbonated beverages resulting from extraordinary advertising and promotional activities in the first two quarters; increased sales in Canada following a reduction in the Canadian beverage tax; early advent of hot weather; a rise in sales of beverage syrups to licensed bottlers; and increased sales of Quinac quinine water, the gin and tonic mixer. —V. 175, p. 2686.

NOTES—Cash and securities at June 30, 1952 were $197,452,465, exclusive of government obligations held for payment of income taxes. Inventories amounted to $183,063,989 and net current assets were $248,610,268.

The corporation's program of plant improvement went forward with $26,217,096 spent for additions of land, buildings, machinery and equipment during the first six months of the year. Depreciation on buildings and equipment charged to cost of products sold and expense amounted to $15,986,431.

The defense output from Chrysler Corporation plants continues to rise at this time, as additional projects reach delivery stages. Added defense commitments this year have brought the present total to more than $2,000,000,000, of which approximately 85% is for military products, and the remainder for the required buildings, machinery and equipment.

The corporation has contracted to take over again the manufacturing program at the Detroit Tank Arsenal, the plant which Chrysler built for Ordnance before World War II and in which it had produced 22,235 wartime tanks. Transfer of the manufacturing sections of the plant took place July 20, 1952.—V. 176, p. 507.

Church of St. Charles Borromeo of Minneapolis, Minn. —Bond Offering—

The recent offering (in July) of 3¼% to 3¾% first refunding mortgage serial bonds, series A, dated July 1, 1952 and due semi-annually July 1, 1953 to July 1, 1967, inclusive, was in the amount of $350,000 (not $350,000,000 as previously reported). They were priced at par and accrued interest.—V. 176, p. 423.

Cincinnati Enquirer — Stock Being Offered — Westheimer & Co. Is Dealer-Manager—

The sale of 400,000 shares of common stock at $10 per share has begun by 800 reporters, printers, pressmen, stereotypers, circulation and advertising salesmen, clerks and accountants on the newspaper's staff, who have joined forces with the brokerage fraternity.

"Every employee of the 'Enquirer' will own stock in the company when the financing is completed," explained Roger H. Ferger, President and publisher of the newly-formed Enquirer Corp. "The remainder of the stock will be sold to outsiders."

It is estimated that to date slightly over 150,000 shares have been either sold or pledged for purchase by investors, a majority of whom are employees. Other stock buyers are described as readers of the paper and "friendly interests."

The employees are being given professional assistance in the sale of the stock by nearly every brokerage house in Cincinnati, Ohio, by Westheimer & Co. as dealer-manager.

The corporation wants as many stockholders as possible, declares Mr. Ferger. But employees will retain working control of the enterprise even though they may not own an absolute majority of the stock.

This "practical working control" will be exercised through a voting trust into which will be placed shares purchased by employees. These shares are to be voted as a unit. Exactly how much stock will be so deposited has not been determined.

Another feature that will add to the effectiveness of employee control: No stockholder, group or organization can own over $100,000 original value of the stock. Stock in the voting trust might run to 13 times that amount under present deposit plans, it was explained.

The underwriting of the debentures is to be done through Halsey, Stuart & Co. Inc., Chicago investment banking firm. But the agreement with Halsey Stuart & Co. Inc. provides that a minimum of 250,000 shares must be sold before the debentures are launched. The maximum goal of the stock sale is 400,000 shares. Proceeds from the debentures and stock not required for repayment to Portsmouth Steel Corp. of $7,600,000 will be used for working capital and other corporate purposes.

For the time being, the "Enquirer" shares are being sold only in Ohio, as they have qualified before the Securities Commission of that State. Application was made on Aug. 19 to qualify the shares for sale in Kentucky, according to Westheimer & Co.

Whether the shares will eventually be sold outside of these two states will depend entirely on how the issue is received locally, it was explained.

Because of the limitation on the selling area, Ohio security dealers who are members of the NASD and who also may be considered to be underwriters will receive a commission of 60 cents per share on orders for common stock procured by them. The same privilege will be extended to Kentucky dealers if the shares qualify in that State. (Wall Street "Journal.")—V. 176, p. 423.

Cincinnati Gas & Electric Co.—Bonds Placed Privately—The company as of July 1 placed privately $10,000,000 of first mortgage bonds, 3¼% series due 1982. This is in addition to the $10,000,000 of bonds of the same issue sold privately as of Jan. 1, 1952.—V. 175, p. 139.

Citizens Utilities Co.—Bonds Placed Privately—Richard L. Rosenthal, President, on Aug. 11 stated that through the company's investment bankers it has arranged for the sale to one of the large insurance companies of $1,000,000 30-year first mortgage bonds, carrying a 3⅞% interest rate, and $1,350,000 25-year 4½% debentures. The company anticipates completing the sale by Oct. 31.

Mr. Rosenthal added that the company is in the process of making requisite applications to the various Commissions for approval of this financing.

The sale of these securities will permanently fund an appropriate portion of the company's recent construction expenditures. The proceeds will enable the company to pay off bank loans incurred temporarily to assist in the financing of this construction.

To Retire Income Notes—

Richard L. Rosenthal, President, on Aug. 11 told stockholders the company will achieve a long desired aim in the first quarter of next year by being able to pay dividends quarterly instead of semi-annually. This will be made possible by the elimination of an income note issue, which totaled $1,937,000 in 1935 when Citizens was formed. Under the note indenture, Citizens could pay dividends only in February and August.

The company on July 11 instructed the trustee for the issue to call $427,000 of these notes for payment Aug. 15 leaving a balance of $184,000. Citizens, after arranging its multi-million, long-term financing, borrowed $185,000 from its banks and the remaining income notes will be called for payment on Sept. 11. By completely eliminating the issue, the company is freed from any dividend limitations and Mr. Rosenthal said he would recommend to directors that quarterly dividend payments be started with the first quarter of 1953.—V. 176, p. 230.

Delta Air Lines, Inc.—Arranges Bank Credit—

Headed by the Citizens & Southern National Bank of Georgia, negotiations for credit of $20,000,000 to this corporation were completed the week before last. A total of 25 banks in 12 States agreeing to take part in the loan oversubscribed the desired amount by 20%. Announcement of the new financing, believed to be the largest single credit deal ever handled by Southeastern banking, was made jointly by L. L. Gellerstedt, Executive Vice-President, The Citizens & Southern National Bank in Atlanta, and Jack Glenn, Assistant President of the bank. Mr. Gellerstedt and Mr. Glenn handled the loan negotiations.

In addition to the Citizens & Southern, Atlanta banks participating are the Fulton National Bank, First National Bank & Trust Co. of Georgia.

Each of these banks agreed to take part up to their full legal lending capacity, for a total of $4,500,000.

The credit, deferred over a two-year period, will be used by Delta for the purchase of new equipment and other expansions and improvements.

Besides this new financing, Delta has just marketed a new issue of 100,000 shares of common stock. Courts & Co. of Atlanta, headed an underwriting group of 45 firms which marketed this stock in a single day. The stock issue went for approximately $2,500,000.

Currently underway in Washington before a Civil Aeronautics Board is a hearing on the proposed merger of Delta Airlines and Chicago and Southern Airlines of Memphis.

If the merger goes through as is anticipated, part of the new Delta financing would go toward additional equipment that has been ordered by the C. & S. line.

Included in the new equipment for which Delta has placed orders are 10 new Convair, twin-engine airliners, which carry 40 passengers, and four new DC 7 ships which carry 59 passengers. Chicago and Southern also has 10 Convairs on order.

The following are the banks participating in the Delta credit: Wachovia Bank & Trust Co.; Union Planters National Bank; The Central Trust Co.; The First National Bank of Memphis; The Florida National Bank of Jacksonville; The National Bank of Commerce of Houston; The Fort Worth National Bank; Mercantile Trust Co.; Birmingham Trust National Bank; Manufacturers Trust Co.; Mercantile National Bank at Dallas; The National City Bank of New York; The

Fiduciary Management, Inc., Madison, N. J.—Proposed Acquisition—

This investment company on Aug. 18 filed an application with the SEC on behalf of R. Paul Weesner, of Miami Shores, Fla., for an exemption order under the Investment Company Act permitting Mr. Weesner to sell to Fiduciary Management all of the outstanding shares of the capital stock of Nationwide Air Transport Service, Inc., in consideration of 104,412 shares of the authorized but unissued common stock of Fiduciary Fund; and the SEC has given interested persons until Sept. 2, 1952, to request a hearing thereon.

The agreement of sale, dated June 2, 1952, provides that on the closing date the assets of Nationwide will consist solely of 1,953,000 shares of the common stock of Resort Airlines, Inc., and not less than $147,416.89 in cash plus any interim dividends or distributions to Nationwide on Resort stock, and that the total liabilities of Nationwide will not exceed $12,323.34. As security against any further liabilities of Nationwide, and any expenses in connection therewith, the agreement provides for the deposit with Fiduciary Management by Mr. Weesner for a period of three years of 20,000 shares of Fiduciary Management stock to be received by Mr. Weesner.

Fiduciary Management presently owns 5,553,866 (62%) of the outstanding 8,956,240 common shares of Resort; and following consummation of the proposed sale, it intends to liquidate Nationwide. Nationwide was organized by Mr. Weesner for the purpose of running a non-scheduled airline. On Jan. 15, 1951, it sold subsantially all of its assets to Resort for 2,000,000 shares of Resort stock. One of the conditions of that sale was that an agreement be entered into for the employment of Mr. Weesner as an officer of Resort.

There is no active market for the stock of either Nationwide or Resort; and Resort has had an insufficient earnings record upon which to base a valuation. It is urged in the application that the exchange is justified by management's appraisal of the net asset value of $4.10 per share for Fiduciary Management's stock as of May 26, 1952 (using 15 cents a share for the Resort stock owned by Fiduciary) and the book value of 15 cents a share for the Resort stock as shown by its balance sheet as of Dec. 31, 1951. Fiduciary Management acquired all of its shares of Resort stock at 10 cents per share.—V. 169, p. 1333.

First Methodist Church of Mason City, Iowa—Bonds Offered—B. C. Ziegler & Co., on Aug. 11 publicly offered an issue of $250,000 3¾%, 4% and 4¼% first mortgage serial bonds, dated May 1, 1952, and due semi-annually from Nov. 1, 1953 to and including Nov. 1, 1964, at 100 and accrued interest.

The net proceeds are to be used to aid in paying the cost of construction of a new church and education building, estimated to cost $797,125.

Food Fair Stores, Inc.—Increase in Indebtedness Approved—Employees to Buy Stock—Sales Set Record—

The stockholders on Aug. 19 voted to increase the authorized indebtedness of the company from $12,000,000 to $25,000,000 and to raise the authorized common shares from 2,500,000 to 5,000,000.

Samuel Friedland, Chairman, told shareholders that no immediate public issuance of either debt securities or of common stock was contemplated. The increase in authorized debt and stock, he said, is designed to pave the way for possible future financing incident to further business expansion.

The stockholders also approved a plan for the sale and issue to employees of authorized but unissued common stock. The plan provides for the sale of stock on an installment payment basis at $3 per share below the average market quotation for the month in which payment is completed, but in no event more than $20 per share or less than $16. It is estimated that a maximum of 100,000 shares will be issued under the plan if all eligible employees elect to participate.

Sales of this corporation now are at the highest in its history and a volume approaching $300,000 is expected for the fiscal year ending next May 2, Mr. Friedland said.

In the previous fiscal year sales were at a peak $259,590,810, a gain of 26% above the year before and well over 20 times the company's volume 15 years ago.

Profit margins throughout the retail food business still are being adversely influenced by rising operating costs, but the effect of this on company earnings is being offset by continuing growth in number of supermarkets, Mr. Friedland said.—V. 176, p. 328.

French National Mail Steamship Lines (Societe des Services Contractuels des Messageries Maritimes) — Bondholders' Committee Formed—

The organization of a committee to represent the gold clause claims of former holders fo the 6% Canadian gold dollar bonds due 1952, but called for redemption in 1946, was announced in New York on Aug. 18.

The original issue, totaling $11,000,000 principal amount and guaranteed by the French Government, was redeemed at par in Canadian paper currency despite earlier French and other court rulings holding the company liable for payment at the gold equivalent, equal to $1,693.12 (Canadian dollars) per $1,000 bond. Holders who still retain their bonds can now collect the higher amount abroad; however, the French Government, which controls the company, has hitherto refused to reimburse the differential of $693.12 to those former holders who followed the 1946 call notice.

The committee, which represents over $1,000,000 of such bonds, seeks to enforce the gold clause. Harry R. Amott, President of Amott Baker and Co., is Chairman of the committee. Other members are Lloyd E. Dewey, Professor of finance, New York University, and Adolphe J. Warner, financial consultant, 120 Broadway, who is serving as Secretary to the committee. The committee's counsel is Harold P. Seligson. Former holders of these bonds who wish further information may contact Mr. Warner prior to Sept. 10, 1952 at the above address.—V. 131, p. 1722.

"As of June 30, 1952, the consolidated backlog of unfilled orders of the corporation and its subsidiary, based on firm orders, contracts and letters of intent, was estimated at $330,000,000—substantially unchanged from Mar. 31.

In addition, seven submarines are being converted for the United States Navy.

"On Mar. 31, the Electric Boat Division delivered to the United States Navy, the "USS Trigger," the first of three high-speed, snorkel-equipped fleet-type submarines launched at Groton in 1951. More recently, the Division has delivered the "USS Trout" . . . its second Trigger-class undersea craft . . . and expects to deliver the third, the "Harder," in the near future.

Greyhound Corp.—Acquisitions—

The corporation on Aug. 20 announced its plans to assume "complete control" Oct. 1 of two bus lines linking Chicago and the Pacific Coast.

The lines involved are Union Pacific Stages and Interstate Transit Lines, intercity bus systems operating between Chicago, Los Angeles and Portland under the name of Overland Greyhound.

Greyhound Corp., which has owned 33⅓% of the stock in the two lines, announced it has purchased the stock interest in the two firms held by the Union Pacific RR. and the Chicago & North Western Ry.

Interstate Transit operates between Chicago and Los Angeles via Omaha and Salt Lake City, with connections to Denver, Kansas City, Mo.; Sioux Falls, S. D., and Fairmont, Minn. Union Pacific Stages run from Salt Lake City to Portland, Ore., and Spokane, Wash.

The combined operations cover 7,269 miles of routes, and grossed more than $13,500,000 in 1951, with almost 34,000,000 bus miles operated, the announcement said.

The Union Pacific Railroad owned 66⅔% of Union Pacific Stages and 51% of Interstate Transit, the announcement stated. Since 1943, when Overland Greyhound was adopted as the operating name for these lines, the Greyhound Corp. owned 33½% of the stock of both companies, it added. The balance of stock of Interstate Transit was held by the North Western Ry.—V. 174, p. 1989.

Haloid Co.—Registers With SEC—

The company on Aug. 14 filed a registration statement with the SEC covering 47,133 shares of convertible preferred stock, to be offered for subscription by common stockholders at the rate of one preferred share for each four common shares held on the record date. The dividend rate, conversion rate, subscription price and underwriting terms are to be supplied by amendment. Unsubscribed shares will be acquired by an underwriting group headed by The First Boston Corp.

Of the proceeds, $858,500 is to be applied to the payment of the redemption price of the 8,500 outstanding shares of 4% cumulative preferred stock, $100 par, to be redeemed at the time of delivery to the several underwriters of the unsubscribed shares of preferred. The balance of the proceeds will be added to the funds of the company available for its general corporate purposes.—V. 176, p. 600.

(The) Hecht Co.—Plans Stock Financing—

The company has mailed to preferred and common stockholders proxy material seeking certain admendments to its charter which would permit somewhat more long-term debt provided the company raises at least $3,500,000 of additional junior equity capital. The proxy statement declares, "The company has no present intention of creating any additional funded debt, but if in the future long-term financing in addition to the junior stock financing now under consideration should become desirable, the company believes it should be in a position to determine, under the conditions then existing, whether to issue additional stock or to increase its funded debt." Other changes would revise various requirements as to dividends and investments in subsidiaries.

Samuel M. Hecht, President, advised the stockholders that since Feb. 1, 1945, the company has established two large branch stores and two small home furnishing and appliance stores, acquired a junior department store and made extensive additions and improvements to its main stores, warehouses and parking facilities and that from Feb. 1, 1945 to Jan. 31, 1952, investments in accounts receivable increased by $17,500,000, inventories by $7,300,000, and fixed asets, over and above provisions for depreciation, by $7,700,000. During this same period more than $14,000,000 of earnings were retained for use in the business.

The company's net sales for the fiscal year ended Jan. 31, 1952 amounted to $92,088,382, or more than double the sales for the year ended Jan. 31, 1945, Mr. Hecht told stockholders.

The letter to stockholders states, "The present charter provisions applicable to the preferred stock restricts the company's ability to finance those requirements of the business, which in the judgment of the management, can be properly and safely financed by long-term indebtedness. Since a large part of the capital employed in the business is represented by accounts receivable and inventories, which fluctuate with business conditions, it would be inappropriate and costly to finance all of the company's requirements with equity capital."

The admendments will be acted upon at a special meeting of stockholders called for Sept. 18, 1952.—V. 175, p. 2178.

Construction on both projects has begun but the effect of these capital expenditures on earnings will, of course, not be felt until their completion. Northern Natural Gas Co.—Expansion Plans—

This company has filed an application with the Federal Power Commission in connection with the construction of additional natural gas pipeline facilities in the Southwest and Midwest as a part of the large expansion program authorized by the FPC on June 24.

Total estimated cost of the facilities covered by the new application is $11,692,547. The construction includes about 102 miles of pipeline; approximately 14,520 additional compressor horsepower; and town border and main line sales measuring stations.

The FPC on June 24 authorized Northern to build facilities to increase its system capacity from 600 million cubic feet daily to 825 million cubic feet. The facilities, to be located in Texas Oklahoma, Iowa, Kansas, Nebraska, and Minnesota, include a total of 213 miles of pipeline additions and an additional 100,160 horsepower in compressor capacity. Estimated cost is $38,690,000.

In addition, Northern proposed to build certain other facilities which it contended did not require FPC authorization. The FPC, however, found that Northern had erroneously classified part of these facilities, estimated to cost about $7,250,000, as "gathering facilities," and conditioned the June 24 authorization to require the company to file an application for their construction. Northern contended that another portion of these facilities, estimated to cost about $3,750,000, were exempt because they did not affect system capacity. In this instance, the FPC found that the facilities apparently will require a certificate, and directed Northern to file an application requesting appropriate authorization, or establishing that a certificate is not required.—V. 176, p. 602.

It will continue to operate the $3,000,000 truck body business of Herman Body Co. under the continued direction of Herman Plew, founder and President of the truck body company.

The purchase price was not disclosed, however, the sale included a cash payment and an exchange of stock.

The combined diner manufacturing facilities are expected to quadruple current capacities.

Pennsylvania Coal & Coke Corp.—New Developments

According to an announcement by L. D. Silberstein, President and Chairman of the Board, two additional cargo vessels have been acquired by the corporation through two of its wholly owned subsidiaries. They were purchased from States Cargo Carriers Corp. and each is of the 10,650 ton dry cargo steam C2 type and certified by the American Bureau of Shipping as being Class A-1. These vessels will continue their previous general cargo carrying operations including the transportation of coal, between West Coast United States ports and Pacific trade areas.

Earlier the corporation acquired sole ownership of Saxon Steamship Co., Inc., which owns and operates the S. S. Saxon, a United States flag 10,700 ton Liberty type vessel, which plies the European routes. In July, 1952, the corporation transferred to trustees all shares of stock owned by it in its steamship companies, namely, Saxon Steamship Co., Inc., Seaborne Steamship Corp. and Seasplendor Steamship Corp., to be held pending the qualification by Pennsylvania under the Shipping Act of 1916.

It is estimated that for a period of 5½ years these three ships should provide a net income of $1,450,000, after depreciation and before taxes. This income appears to be assured particularly because of guaranteed bare boat charters on the last two acquired vessels.

Coincident with the announcement of the expansion of Pennsylvania's shipping interests, Mr. Silberstein reported that negotiations were being entered into for the acquisition by the company of producing oil interests in Texas as part of the corporation's overall program looking toward an increased and diversified income.—V. 176, p. 602.

The corporation has borrowed $150,000 on a demand loan from The New York Trust Co. which loan carries 5% interest and is secured by approximately $250,000 of orders from a leading soft drink company. The loan contains no restrictions on dividend payments.

BUSINESS—The corporation was incorporated under the name Hampton Dispensers, Inc. in March, 1951, and shortly thereafter acquired by merger the assets and business of a predecessor corporation organized in 1942 to promote the manufacture and rental of a carbonating-cooling-dispensing system and to operate a wholesale syrup business. After the merger the corporation's name was changed to Dispensers, Inc. In December, 1951, the corporation acquired from The General Bronze Corp. by purchase the business and substantially all of the assets, including machinery for manufacturing beverage dispensing equipment, patents and trade names, of its wholly owned subsidiary Selmix Dispensers, Inc., a New Jersey corporation. The balance of the purchase price in the amount of $46,086.26 is still outstanding. After this acquisition the corporation's name was changed to Selmix Dispensers, Inc., and it organized a subsidiary now known as Dispensers, Inc. to handle its bar rental operations.

The corporation manufactures a line of manually-operated soft drink dispensing equipment, and component parts for use at soda fountains, bars, theatres, race tracks, baseball parks, offices, factories, etc.

The corporation's main manufacturing plant is located at 28-25 Borden Avenue, Long Island City, N. Y., and is leased for a term expiring in about five years. The plant contains approximately 15,000 square feet of manufacturing space and office and storage areas. In addition, the corporation through its subsidiary, Dispensers, Inc., leases a warehouse at 47-39 49th Stret, Woodside, Long Island, N. Y., which contains approximately 4,000 square fet.—V. 176, p. 603.

Servel, Inc.—Gets Loan from Banks—

This corporation has completed arrangements which will enable the company to borrow up to $25,000,000 for its rapidly expanding defense program, W. Paul Jones, President, announced on Aug. 21.

He said the financing, which is of the V-loan type, was arranged through the Hanover Bank of New York, the National City Bank of New York, and the Chase National Bank of the City of New York. The loan agreement, expiring on or before Dec. 31, 1953, carries 3¾% interest and is guaranteed by the U. S. Air Force.

Jones said that with two additional large defense contracts announced recently the company now has a backlog of defense work in excess of $100,000,000. The Air Force has described the company as the largest manufacturer in the free world of wings for fighter planes and predicted that the defense work program at Servel would continue at least through 1954.

"This financing, which will be used exclusively for the defense program, will enable us to increase the current program," Jones said. "Since last December, when we completed our new wings plant in record time, we have added 5,000 employees for defense work and purchased millions of dollars worth of tools and other manufacturing equipment. Employment at Servel now is in excess of 10,000 persons.

"The company is in excellent financial shape and has more than ample funds to carry on its civilian work. However, the greatly increased scope of our defense program required us to make these financial arrangements.

Unveils New Refrigerator—

The corporation on Aug. 18 unveiled its "second household refrigerator," the new Servel Electric Wonderbar, at a distributor meeting in Chicago, Ill., at which company officials predicted the new models would "revolutionize the entire industry."

While this silent, portable refrigerette has long been rumored because of repeated statements by Mr. Jones that such a product was needed if the household refrigerator industry is to survive the present market saturation and resultant buyer apathy, details of Electric Wonderbar's design were a well-kept secret until the public showing on Aug. 18.

The Wonderbar is priced at $149.50 for the mahogany finish. The removable legs and casters are $10 additional. Blond or white finish will be an additional $10.

W. Paul Jones, President, had previously announced the company's plans to go into the room air conditioner line and said these products would be introduced at the showing of the 1953 line this fall.—V. 176, p. 603.

Sherman Electric Co., Warren, O.—Files With SEC—

The company on Aug. 8 filed a letter of notification with the SEC covering 20,000 shares of common stock (no par) to be offered at $10 per share, without underwriting. The proceeds are to be used for working capital to produce and sell electrical equipment.

Sierra Pacific Power Co.—Granted Exemption—

The California Public Utilities Commission has granted this company an exemption from competitive bidding in respect to $1,500,000 of first mortgage bonds and 26,775 common shares, par value $6.66⅔ each.

The company will use the proceeds to pay $1,100,000 of unsecured notes and for additional construction.—V. 172, p. 1636.

Smith-Douglass Co., Inc., Norfolk, Va.—Proposed Acquisition—

Ralph B. Douglass, President, on Aug. 22 announced that the company had elected to proceed with its agreement to acquire a majority of the outstanding shares of Coronet Phosphate Company.

Smith-Douglass is mailing to the remaining stockholders of Coronet an offer to purchase their share at $250 per share, being the same price to be paid to the majority stockholders. Smith-Douglass' obligation to purchase the shares is subject to the condition that at least 85% of the Coronet stock is deposited pursuant to the terms of the offer. The offer expires on the morning of Sept. 12. Bankers Trust Co., New York, has been appointed agent for the purpose of receiving deposits of Coronet shares.

Smith-Douglass Co., Inc., is a leading manufacturer and distributor of mixed fertilizers along the Atlantic Seaboard and in the Midwest. Its fertilizer plants are located at Norfolk and Danville, Va.; Streator, Ill.; Albert Lea, Minn.; Shreveport, La.; Kinston and Wilmington, N. C. It operates nitrogenous tankage plants at Norfolk, Va.; East St. Louis, Ill., and Selbyville, Del.

Coronet Phosphate Co. has extensive reserves of high grade rock in Florida. Coronet supplies phosphate rock to various fertilizer companies and defluorinated phosphate to manufacturers of poultry and animal feed. No changes in Coronet's management or customer relations are contemplated.

F. Eberstadt & Co. Inc. represented Smith-Douglass, Inc., in this transaction.—V. 176, p. 58.

South Central Fire & Casualty Insurance Co., Starkville, Miss.—Files With SEC—

The company on Aug. 12 filed a letter of notification with the SEC covering 2,500 shares of common stock to be offered at $100 per share, without underwriting. The proceeds will be added to working capital.—V. 175, p. 1650.

Southeastern Fund, Columbia, S. C.—Registers With Securities and Exchange Commission—

This Fund on Aug. 14 filed a registration statement with the SEC covering $500,000 of ten-year 6% subordinated sinking fund debentures (with common stock purchase warrants attached) and 100,000 shares of common stock, $1 par.

The securities are to be offered for public sale in units consisting of $100 of debentures (with warrants) and 20 shares of common stock. The public offering price and underwriting terms are to be supplied by amendment. Barrett Herrick & Co., Inc., is named as the underwriter.

Organized on June 6, 1949, under South Carolina laws, the company is engaged primarily in the business of financing retail sales of mobile homes or house trailers on conditional sales contracts. Net proceeds of the financing will be devoted in part to the redemption of the company's presently outstanding 5¼% subordinated convertible debentures and 6½% cumulative preferred stock, and in part as additional working capital. The debentures, presently outstanding in the amount of $53,500, are redeemable at 101% plus interest, and the 10,000 outstanding preferred shares are redeemable at $11 per share plus dividends. The balance of the proceeds, estimated at $422,500, is expected to be used, largely, for the purchase of conditional sales contracts and floor plans covering house trailers. A part of the funds may be used to reduce outstanding bank and other loans, but such reduction, if made, will not be permanent. The financing, however, is expected to enable the company to borrow additional funds from its present and other credit sources.

The warrants will entitle the holders thereof to subscribe, on or prior to Sept. 1, 1957, to ten shares of common stock for each $100 face amount of debentures, the exercise price to be $2.50 through 1954 and $3.25 thereafter. The underwriters are to acquire an additional 50,000 warrants at 5 cents per warrant-share, exercisable at $2 per share through 1954 and at $2.50 thereafter and until September, 1957.—V. 174, p. 1200.

The company said that the proposed station, estimated to cost $1,021,500, is required because of declining wellhead pressures of wells in the Logansport field. Southern's application asks the FPC (1) to authorize construction and operation of the proposed compressor station, or in the alternative, (2) to disclaim jurisdiction with respect to the proposal.—V. 176, p. 512.

Tennessee Gas Transmission Co. — Seeks To Increase Rates by $16,750,000—

Faced with rising costs, this company has filed an application in Washington, D. C., to increase its rates approximately $16,750,000 per year effective Sept. 15, it was announced on Aug. 15.

Sharp increases in the field price of natural gas purchased by the company make up 85% of the company's cost increases, the application stated. The company has entered into new gas purchase contracts which already have increased 1952 gas costs substantially, but the major increase becomes effective Feb. 1, 1953, the application pointed out.

The company sells gas at wholesale for distribution principally in the Appalachian area including Tennessee, Kentucky, Ohio, West Virginia, Maryland and parts of Pennsylvania and New York, as well as in New England. It sells lesser amounts for distribution in Texas, Louisiana, Mississippi and Alabama.

Affiliate Reports Progress—

The results of a stepped-up oil and gas acquisition and development program by the Tennessee Production Co. were outlined in the company's first interim financial report mailed to stockholders on Aug. 17.

The company owned interests in 493 oil, gas and condensate wells on 56,275 acres of producing leaseholds as of July 1, the report, covering the first six months of 1952, showed. It also had interests in approximately 246,880 acres of undeveloped leases. Tennessee Production is an affiliate of Tennessee Gas Transmission Co. Gardner Symonds is Board Chairman and R. G. Rice is President.

In an accompanying letter to stockholders, they said that during the first six months of this year Tennessee Production drilled 19 wells of which 11 were completed as oil wells, four were gas-condensate wells and four were dry. Seismic operations were also conducted in Louisiana and Texas, and during the period the company obtained oil and gas leases on more than 9,000 acres.

In line with its program of acquiring new properties as well as developing existing holdings, the company has completed two separate transactions since the announcement in January of the purchase of the substantial holdings of York & Harper, Inc., the report showed.

In the first, Tennessee Production paid $185,000 for the remaining one-half interest in 20 oil wells in the Clark field in Sterling County, West Texas. On July 1, the company acquired for $500,000 all the working interest in the M & M Production Co., subject to an oil payment of $850,000 payable out of 80% of its presently producing properties.

M & M in the first half of 1952 produced 137,824 net barrels of oil. It owned 61 producing wells in five fields in West Texas and New Mexico on developed leases covering 2,031 acres. Undrilled leases and mineral interests acquired from M & M cover approximately 9,500 acres in West Texas, New Mexico and Montana.

Tennessee Production's gross sales during the half-year were 2,808,635 barrels of oil, condensate and plant products, and 18,568,480,000 cubic feet of gas. After providing for all payments due from production, net sales were 591,936 barrels of oil, condensate and plant products, and 7,430,832,000 cubic feet of gas. Net income for the six months was $123,599.—V. 176, p. 513.

Hearing on Application to Build Compressor Station—

The Federal Power Commission has scheduled a hearing to commence Sept. 2 on an application by this company for authority to construct and operate a 2,640-horsepower natural gas compressor station in the Carthage Field in Panola County, Texas.

The proposed compressor station, which initially would contain two 1,320 horsepower units, is estimated to cost approximately $880,000. The gas that the proposed station will compress is purchased from the Chicago Corporation in the Carthage Field. This gas is then transported by United Gas Pipe Line Co. to a connection with Tennessee's system in Louisiana. Tennessee said that the natural pressure of some of Chicago's wells has diminished to the extent that gas can no longer be delivered at the pressure required by United without compression. —V. 176, p. 513.

Texas City Chemicals, Inc.—Securities Offered — A banking group headed by Glore, Forgan & Co., on Aug. 20 publicly offered $3,000,000 of 5¼% subordinate sinking fund debentures, due Jan. 1, 1963, and 300,000 shares of no par value common stock in units of $100 principal amount of debentures and 10 shares of common stock priced at $107.75 per unit.

The debentures will be redeemable at the option of the company, as a whole or from time to time in part, after the senior indebtedness (bank loans) has been paid and prior to maturity, upon not less than 30 days' and not exceeding 60 days' notice, at the following redemption prices (expressed in percentages of principal amount): On or before Jan. 1, 1953 at 105%; thereafter and on or before Jan. 1, 1959 at 104%; thereafter and on or before Jan. 1, 1960 at 103%; thereafter and on or before Jan. 1, 1961 at 102%; thereafter and on or before Jan. 1, 1962 at 101%; and thereafter and prior to maturity at 100%, together, in each case, with interest accrued to the date fixed for redemption.

Commencing as soon as the credit agreement with banks has been discharged in full, but not later than July 1, 1959, the debentures will also be redeemed through the sinking fund at 100% and accrued interest.

PROCEEDS—Based upon present estimates, the net proceeds will be used as follows: Acquisition of land and construction of plant, $4,839,000; provisions for contingencies, $457,000; interest costs during construction period, $301,000; development costs, $35,000; working capital, $1,300,000; miscellaneous, $4,900; total, $6,966,900.

BUSINESS—The company was incorporated in Texas on Oct. 17, 1950. The plant and executive offices of the company will be located at Texas City, Texas. Since its inception the company has not conducted any business and it does not own any real property other than the site on which it has commenced construction of its chemical plant.

The company was formed for the purpose of constructing and operating a chemical plant to produce principally dicalcium phosphate used as an animal feed supplement and fertilizer conditioner, and a contact sulphuric acid plant.

A contract has been entered into with the Atomic Energy Commission whereby, in consideration of being granted priorities and allocations necessary to complete the entire chemical works, the company agrees to extract a certain classified material and sell it to the Commission.

The company has contracts for the required raw materials which it believes will assure it an adequate supply.

Chemical Construction Corp., a wholly-owned subsidiary of American Cyanamid Co., has entered into contracts with the company to design and construct its entire plant on a cost plus fixed fee basis. Exclusive of land and plant site facilities, estimated at $261,000, Chemico estimates that this construction will amount to approximately $5,035,000, including allowances for contingencies and based upon present day prices and conditions.

FINANCING PROGRAM—It is estimated that $6,966,900 will be sufficient to construct the Texas City, Texas, plant and place it in operation with adequate working capital. This amount is to be derived from the net proceeds of the following financing:

1. $939,437.50 from the sale to certain investors of 750,000 shares of common stock at $1.25 per share (including 125,000 shares previously sold) and 96,875 common stock purchase warrants at 2 cents per warrant (entitling them to buy 96,875 additional shares at $1.25 per share).

2. $2,989,000, estimated net proceeds to the company from the sale of 30,000 units (of debentures and common stock) now offered to the public, after deducting the company's estimated costs ($48,500) of the financing program.

3. $3,000,000 aggregate principal amount of loans to be made by First National Bank in Dallas and The City National Bank of Houston, to be secured under a trust deed constituting a first lien on all the mortgageable property of the company.

4. $38,462.50 from the sale of 30,000 shares of common stock at $1.25 per share and 48,125 warrants at 2 cents per warrant to Glore, Forgan & Co., as principal and agent for some of the underwriters.

In the event the net proceeds of the financing are insufficient to construct the plant and place it in operation with $1,300,000 initial working capital, certain stockholders of the company have undertaken to loan the company such additional funds as may be necessary to complete construction of the plant and place it in operation with that working capital, such loans to be evidenced by junior notes, payment of which is subordinate in all respects to payment of principal and interest on the debentures and the bank loans to be made pursuant to the credit agreement.

UNDERWRITERS—The underwriters named below have severally agreed to purchase from the company the respective number of units which include principal amounts of debentures and shares of common stock now offered as set forth below:

Inc. Of the total, $13,000,000 had been sold in February at 98.

The proceeds from the sale of the bonds will be used, in part, to pay the cost of building a 408-mile pipeline that will carry additional natural gas to homes and industries in an area from Louisiana to Ohio. The estimated cost of this project is $33,700,000 (see V. 176, p. 466).—V. 176, p. 603.

Texas Eastern Transmission Corp. — Preferred Stock Offered—Dillon, Read & Co. Inc. headed an investment banking group which offered publicly on Aug. 21 a new issue of 190,000 shares of 5.50% first preferred stock at par ($100 per share), plus accrued dividends. The books were closed the next day.

The new first preferred series ranks ahead of the presently outstanding convertible preferred stocks.

The first preferred series is redeemable, all or in part, at any time at $103 per share if redeemed on or before Dec. 1, 1957; $102 if redeemed thereafter and on or before Dec. 1, 1962; $101 if redeemed thereafter and on or before Dec. 1, 1967; and $100 if redeemed thereafter; in each case plus accrued and unpaid dividends. Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday and the Saturday figures are not available at time of going to press. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results of the previous week—the week ended Aug. 16. For that week there was an increase of 1.6%, the aggregate of clearings for the whole country having amounted to $16,329,249,035 against $16,067,586,288 in the same week in 1951. Outside of this city there was a loss of 1.5%, the bank clearings at this center showing an increase of 5.3%. We group the cities according to the Federal Reserve Districts in which they are located and from this we note that in the New York District (including this city) the totals record an improvement of 5.4%, but in the Boston Reserve District the totals register a decline of 0.7% and in the Philadelphia Reserve District of 7.1%. In the Cleveland Reserve District the totals are smaller by 7.1% and in the Richmond Reserve District by 0.2%, but in the Atlanta Reserve District the totals are larger by 3.3%. The Chicago Reserve District suffers a loss of 2.4%, the St. Louis Reserve District of 3.3% and the Minneapolis Reserve District of 0.2%. Texas-Ohio Gas Co.—Hearing on Application—

The Federal Power Commission hearing on proposals by this company to build a Texas-to-West Virginia pipeline and to import natural gas from Mexico, will reconvene Sept. 2.

The company proposes to construct a 1,406-mile pipeline originating on the U. S.-Mexican border in Hidalgo County, Texas, and extending to a terminus near Lancaster, Ohio. The staff counsel has contended that the company has failed to submit required data showing that it has a market for the gas it would transport through the line, and has asked that the application be dismissed without prejudice.—V. 174, p. 1764.

United Fruit Co.—To Convert Four Passenger Ships to Freight Ship Status—

Four of the company's large passenger ships, each with accommodations for 95 passengers, will be converted to express freighters carrying only 12 passengers, according to H. Harris Robson, Vice-President in charge of Steamship Operations, because of the greater need for such fast type vessels and lessened demands for de luxe passenger service to points served by these ships.

The company's Great White Fleet, however, will continue in the cruise service with the two remaining large passenger vessels, sailing fortnightly from New Orleans. The company will maintain the present flow of cargo to and from Middle American ports.

The first vessel to be called out of service will be the SS Quirigua from New Orleans Sept. 15. She will be followed by the SS Veragua from New York on Oct. 27, the SS Antigua New Orleans Dec. 1, and the SS Talamanca from New York Jan. 5, 1953.

The work will be done by the Newport News Shipbuilding & Drydock Co. and is expected to be completed by March 16, 1953.

The conversion program will not affect the present 17-day cruise service from New York by the SS Jamaica, SS Talamanca, and SS Veragua until Oct. 24. On that date and every third week thereafter there will be no passenger sailings. Effective with the Oct. 31 sailing of the SS Jamaica and Nov. 7 sailing of the SS Talamanca, these ships will continue their 17-day cruise service until Jan. 2, 1953, whereafter cruise service from New York will end.—V. 176, p. 148.

Common stockholders' equity increased as of June 30, 1952, to $53,284,502, equivalent to $19.06 per share. The extent to which earnings reinvested in the business have enhanced the common stock's book value is indicated by comparison with June 30, 1940, Ward M. Canaday, President noted. Over the 12-year period this equity for common shares has increased $15.43, an average of $1.28 a year.

Mr. Canaday said that about seven-eighths of the new passenger car engineering and tooling program has already been expended as of June 30, when working capital totaled $27,410,882, compared with $25,941,971 three months earlier and $27,265,330 on June 30, 1951.

New orders received by Willys-Overland from both civilian and military sources during the June quarter kept pace with the high rate of production, Mr. Canaday said, and the June 20 backlog of unfilled orders remained at the $275,000,000 level of three months earlier.

This corporation resumed full operations at its main plant at Toledo, Ohio, on Aug. 18 completing the recall of 13,500 production employees to their jobs following a partial shutdown enforced since July 11 due to material shortages created by the steel strike.

The corporation was able to maintain partial operations and employment throughout the steel dispute.

MISSOURI

Jackson and Clay Counties, Mo.

$16,000,000 Paseo Bridge Revenue Bonds to Reach Market—Despite the fact that public offering of $16,000,000 Jackson and Clay Counties, Mo., Paseo Bridge Revenue Bonds will not, in the opinion of Bear, Stearns & Co., New York City, financial advisers, reach the market until later this month, actual construction work is already under way on the project. Ordinarily, construction on such undertakings is not commenced until funds are in hand.

Rigs are already at work making test borings in the Missouri River and work on that phase will be completed the first week in September. Plans for foundation work are in process and bids for four river piers will actually be let in September.

Bear, Stearns & Co., who are acting jointly with Commerce Trust Company, St. Louis, described the advance activity before any money has been received, as most unusual for this type of project. Construction will be greatly accelerated when the financing is completed, the advisers said.

Proceeds of the offering will be used to construct a bridge over the Missouri River connecting Kansas City with North Kansas City. The 1,800 foot main river bridge includes a self-anchored suspension type structure with 616-foot center channel span and 308-foot side spans.
