Aeroquip Corp.—Registers With SEC—
The corporation on Sept. 24 filed a registration statement with the SEC covering 195,000 shares of common stock (par \$1), of which 150,000 shares will be sold by the company and 45,000 shares by a group of stockholders. The price will be supplied by amendment. The offering will be underwritten by White, Weld & Co., New York, and Watling, Lerchen & Co., Detroit, Mich.

The net proceeds are to be used to repay part of bank loans.

—V. 176, p. 597.

Alleghany Corp.—Plans Debenture Issue—
The corporation is planning an issue of up to \$10,000,000 in 10-year 5% debentures to be exchanged for outstanding 5½% Series A preferred stock. The action is subject to approval by stockholders and the Interstate Commerce Commission.

Current plans, which may be modified depending upon market and other conditions, are to offer \$100 of the debentures with detachable warrants good for purchase of 20 shares of common stock in exchange for each share of the series A preferred stock. A sinking fund is contemplated which would retire at least 5% of the debenture issue annually.

contemplated which would retire at least off or standard annually.

The initial price at which Alleghany common stock may be bought through exercise of the warrants will probably be not more than \$1 per share over the market price for the common at the time of the offer, it was announced.

The series A stockholders will meet Sept. 30 to consider the financing plan, which, on a long-term basis, would permit directors of the company to create or incur not more than \$24,000,000 capital indebtedness under any form up to Oct. 1, 1962.—V. 176, p. 949.

American Fuel & Power Co.—SEC Urges Modification

of Reorganization Plan-

of Reorganization Plan—

The SEC on Sept. 18 announced the filing of an advisory report with the U. S. District Court in Lexington, Ky., urging modifications of a plan for the reorganization of this company and its principal subsidiaries, Inland Gas Corp., and Kentucky Fuel Gas Corp., now pending before the Court under Chapter X of the Bankrupty Act.

The Commission report concluded that the plan was feasible, but urged that it did not meet the test of fairness in that "the valuation upon which it is based is excessive and results in an unfair allocation of the new common stock, discriminating in favor of the creditors of Kentucky Fuel. We further believe that the plan is unfair because it deprives the holders of the common stock of the reorganized company of voting rights through the establishment of a voting trust and does not accord them cumulative voting or preemptive rights." A prior plan, approved by the court in October, 1949, was reversed on appeal for failure to provide adequately for subordination of the claims of Columbia Gas & Electric Corp. (now Columbia Gas System) against Inland.

Columbia Gas & Electric Corp. (now Columbia Gas System) against Inland.

The plan covers the estates of Inland, Kentucky Fuel, and American Fuel, and minor subsidiaries of the latter. It: provides that the reorganized company is to be Inland, or a new corporation to be organized to acquire all the undistributed assets of Inland, which new company also is to acquire all of the capital stocks of American Fuel's five minor subsidiaries. The reorganized company's capital structure would consist of debt and common stock having a par value of \$5 a share (or, if ordered by the Court, common stock without par value). On the basis of the valuation assumed in the plan, 1,213,206 shares of new common would be issued initially. The amount of the outstanding debt would be equivalent to the balance remaining unpaid on a \$2,700.000 loan expected to be made on or about Sept. 30, 1952, to be represented by Inland-Trustees' Certificates of Indebtedness.

The plan contemplates that the proceeds of the loan and excess cash of Inland would be used for the retirement of publicly held 10-year 7% sinking fund debentures of Inland and the 6% gold notes of Inland, aggregating \$2,842,904, in principal amount and accrued interest, of which about \$2,030,000 is publicly held. Cash and new securities would be distributed among other claimants as follows:

and \$80.41 in cash; holders of Kentucky Fuel bonds would receive for each \$100 of bonds \$95 par value (19 shares) of new common stock and 16 cents in cash; and holders of Kentucky Fuel debentures would receive for each \$100 of debentures \$30 par value (6 shares) of new common stock and \$4.15 in cash. Since the American Fuel and Kentucky Fuel estates are insufficient to satisfy in full the aggregate claims of the creditors entitled to priority, no participation would be accorded to the subordinated claims of Columbia, to the general unsecured creditors of American Fuel and Kentucky Fuel, or to the publicly held outstanding stock of the debtors.

The Commission analysis of the assets of reorganized Inland and its associate companies showed a valuation of \$8,200,000, exclusive of certain net current assets as against the valuation of \$9,574,000 upon which the plan was based. Upon the basis of the lower valuation, the Commission concluded that the value of the equity represented by the new common stock is less than the plan assumes and, therefore, the allocation of new stock is unfair to the American Fuel creditors.

Revised allocations proposed by the Commission upon the basis of the lower valuation figure for the Inland estate would provide for the distribution (after payment of the \$2,842,904 of Inland debentures and notes) of \$62.68 in cash and \$214.30 of new company stock to holders of Kentucky Fuel bonds (total, \$1,120,333); and \$1.797 in stock to holders of Kentucky Fuel bonds (total, \$1,120,333); and \$1.797 in stock to holders of Kentucky Fuel debentures (total, \$9,74,20).—V. 149, p. 3544.

Angerman Co.-Omits Dividend-

The directors on Sept. 22 voted to omit the common dividend usually declared at this time. All but 18,000 shares, or 10% of this issue, was acquired recently by Diana Stores Corp.—V. 176, p. 1057.

Appalachian Electric Power Co.-Bonds Offered-A banking group headed by The First Boston Corp. on Sept. 25 offered \$17,000,000 of first mortgage bonds, 3½% series due Oct. 1, 1982, priced at 102.25 and accrued interest to yield approixmately 3.38%. Award of the bonds was made at competitive sale on Sept. 23 on the bid of 101.569.

Other bids for the bonds as 3½s were: Kuhn, Loeb & Co. and Union Securities Corp. (jointly), 101.42; Halsey, Stuart & Co. Inc., 101.311; and Harriman Ripley & Co., Inc., 101.009. Special redemption prices on the bonds range from 102.375 if redeemed during the 12 months beginning Oct. 1, 1952 to par on and after 1981. General redemption prices are scaled from 105.25 to par.

Notes Offered-Kuhn, Loeb & Co. and Union Securi-

Notes Offered—Kuhn, Loeb & Co. and Union Securities Corp. on Sept. 25 offered \$6,000,000 of 3½% serial notes due 1956-1967 at prices to yield from 3% to 3.475%, according to maturity. Award of the notes was made at competitive sale on Sept. 23 on the bid of 100.76%.

Other bids for the notes were: Halsey, Stuart & Co. Inc., 100.65; and The First Boston Corp., 100.3090; also for 3½s.

PROCEEDS—Proceeds from the sale of the notes and from the sale of \$17,000,000 of first mortgage bonds will be used to prepay \$11,000,000 principal amount of notes payable to banks, issued for construction purposes. The remainder, plus the balance of proceeds from the sale of the company's common stock in July, 1952, and other funds, will be used to finance extensions, additions and improvements to the corporation's properties.

It is estimated that the cost of the company's construction program for the three years ending 1954, will be \$102.775,000. In the first six months of 1952, \$21,193,000 was expended on the program, and it is expected that \$21,081,000 will be spent in the latter half of 1952, \$37,263,000 in 1953 and \$23,238,000 in 1954.

Floyd B. Odlum, President of Atlas Corp., and Charles H. Babb, President of the Babb Co., Inc., announced on Sept. 22 that Atlas had entered into arrangements for the purchase by Atlas or an associated company of all of the stock of the Babb Co.

The Babb Co., it was stated, is the world's largest dealer in new and used aircraft, aircraft engines, parts and accessories. It maintains warehouses and service and maintenance facilities at various points in the United States and Canada and has offices in many foreign countries.—V. 176, p. 1057.

Avco Manufacturing Corp.-Plans Expansion-

Avco Manufacturing Corp.—Plans Expansion—
The corporation has contracted to purchase the land and buildings occupied by the Horn Brothers Co. at Fort Dodge, Iowa, for development as a central distribution outlet for Avco's line of New Idea and Horn farm implements.

The acquisition is part of a New Idea and Horn expansion program totaling more than \$800,000 under way at the Sandwich, Ill., and Port Dodge plants.

The property, covering 11.6 acres and including four buildings with a total of 60,000 square feet of floor space, is adjacent to the Horn Manufacturing Co., Avco's present subsidiary at Fort Dodge. This subsidiary, which makes Horn hydraulic loaders and attachments, was purchased by Avco last year and the Horn products were added to New Idea's line of farm equipment.

Defense production has recently begun at the Crosley Division's new \$5,500,000 Evendale, Ohio, plant which is rapidly nearing completion. The new facility, located near Cincinnati, will provide nearly \$75,000 additional feet of floor space and will ultimately employ several thousand persons.—V. 175, p. 2070.

The net proceeds are to be used for additional plant facilities and equipment and for general corporate purposes.

The corporation was incorporated in New York in May 1945 and succeeded to the unincorporated business of Blando Rubber Co., organized and operated by Charles Blando, its President since 1943. The company was originally organized for the purpose of manufacturing camelback (rubber for retreading tires) but upon its incorporation in 1945, it added the manufacture of plastic preforms for phonograph records to its operations.

On July 16, 1952, the corporation acquired through merger the business, equipment, machinery and facilities, patents, trade marks, etc., of Lefferts Tire Service, having a net value of \$18,442, for which the two owners of Lefferts received 105,000 shares each of the common stock of the corporation. Lefferts was organized in March, 1951, for the purpose of processing and improving new rubber automobile tires.

The Blando company owns and controls exclusively the new Lefferts natural rubber colorwall automobile tire process (patent applied for), and now operates two plants, one of which is devoted exclusively to the Lefferts Colorwall process. The other plant presently manufactures blank preforms which are used to make phonograph records but the equipment is similar to that used in processing colored rubber dand this plant can be easily and inexpensively converted to the producted vacuum of the converse of the converse of the control of Lefferts Colorwalls are produced by curing specially processed colored and this plant can be easily and inexpensively converted to the productor of Lefferts Colorwalls are produced by curing specially processed colored and this plant can be easily and inexpensively converted to the productor of Lefferts Colorwalls are produced by curing specially processed colored and this plant can be easily and inexpensively converted to the productor of Lefferts Colorwalls are produced by curing specially processed colored and this plant can be cons

The offering appearing under this heading in our issue of Aug. 25, 1952 should have been published under "Century Food Markets Co." See V. 176, p. 682.

Chattahoochee Natural Gas Co.—New Pipeline-

Construction of a 70-mile system to supply natural gas to four communities in northwest Georgia has been proposed in an application filed with the Federal Power Commission by this company.

The application says that Southern Natural Gas Co., also of Birmingham, Ala., has agreed to supply Chattahoochee with 7.450,000 cubic feet of natural gas per day. Chattahoochee said that its proposed system would have capacity of 11,500,000 cubic feet daily, which is about 30% above the estimated 5th year peak day.

Chattahoochee's proposed system would connect with the Southern Natural's facilities at a point in Floyd County, Ga., and would serve Trion, Summerville, LaFayette and Dalton, Ga., and the areas around those towns. Estimated cost of the project is \$1,533,254.

Columbia Gas System, Inc.—Subsidiaries to Expand—

Four subsidiaries of this corporation have applied to the Federal Power Commission for authority to construct a total of about 279 miles of natural gas pipelines, and to retire about 173 miles of line together with certain compressor facilities, in Pennsylvania, West Virginia, Maryland and Ohio.

In a separate application, two of the rubridiaries asked the FPC to authorize a merger of their pipeline facilities.

The four companies are The Manufacturers Light & Heat Co., Natural Gas Co. of West Virginia, Cumberland & Allegheny Gas Co., and Home Gas Co., all of Pittburgh, Pa. In the other application, Manufacturers is proposing to acquire the facilities of Cumberland and Allegheny.

and Home Gas Co., all of Pittburgh, Pa. In the other application Manufacturers is proposing to acquire the facilities of Cumberland and Allegheny.

The proposed construction and retirement program involves a total estimated net construction cost of \$11,140,447, allowing a credit of \$652,900 for the abandoned facilities which would be salvaged. This project would improve service to existing customers and is said not to be designed to supply new markets.

Two other subsidiaries plan construction of additional compressor horsepower on pipeline sy tem in Wert Vrain'a and Vireinia.

The Atlantic Scabbard Corp. and Virginia Gas Transmission Corp., both subsidiaries of the Columbia Gas System, Inc., have asked the Federal Power Commission to authorize the construction of additional compressor station facilities on their main 26-inch natural gas transmission line which extends from Clendenin, W. Va., to Rockville, Md. The proposed new facilities would supply approximately 86,200,000 cubic feet of additional gas on a peak day to meet requirements of present customers, the application states. Estimated cost of the construction is \$6,885,600.

The companies propose to construct a new 5,000-horsepower compressor station in Braxton County, W. Va.; and a 5,000-horsepower station in Upshur County, V. Va. and a 5,000-horsepower station in Dhenandoah County, Va. In addition, the project would include the supercharging of three units now installed from 880 horsepower to 1,100 horsepower and installation of one additional 1,100 horsepower unit at an existing compressor station in Hardy County, W. Va. —V. 176, p. 852.

Columbus & Southern Ohio Electric Co.-Status

Columbus & Southern Ohio Electric Co.—Status—
Sale by this company of 90,000 new preferred and 300,000 common shares, consummated on Sept. 17, gives the company a capitalization comprising approximately 53% debt, 17% preferred stock and 30% common stock. Sale of the new stocks considerably increases the equity for the company's outstanding bonds and, in the opinion of the management, makes the bonds elipible for investment by savings banks in New York State. At the information meeting held in connection with the recently completed financing officials of the company estimated calendar year 1952 net earnings at between \$2.20 and \$2.30 a share on the 1,701,360 common shares oustanding prior to the financing. No change in this estimate will be required over the next 12 months because of the 300,000 new common shares recently issued, since any dilution in per share earnings because of expansion of the equity will be offset by benefits of the \$1,600,000 annual rate increase (\$790,000 after taxes) on industrial and large commercial electric busines which went into effect on Aug. 8, last.

The company's construction program from July 1, 1952, through Dec. 31, 1954, contemplates additions and improvements to electric properties estimated to cost approximately \$46,500,000, of which \$11,700,000 is allocated to the final six months of 1952, \$17,300,000 to 1953 and the remaining \$17,500,000 to 1954.

No additional financing is believed to be in early prospect, however, since proceeds from sale of the preferred and common stocks, plus the \$19,000,000 two year bank loan recently negotiated, are expected to provide the company with all the funds it will need for expansion until winter of 1953-1954, unless market conditions in the interim justify additional permanent financing. See also V. 176, p. 1058.

Cook Electric Co., Chicago, III.—Stock Offered—The company on Sept. 16 offered the holders of its outstanding common stock (par \$25) the right to subscribe on or before Sept. 27 for an additional 7,172 shares of common stock at \$40 per share. The offering was underwritten by Blunt Ellis & Simmons and Swift, Henke & Co., who agreed to purchase from principal shareholders subscription rights for an aggregate of 4,803 shares. These 4,803 shares, plus any unsubscribed shares, will be publicly offered by the underwriters at \$41.75 per share.

shares, plus any unsubscribed shares, will be publicly offered by the underwriters at \$41.75 per share.

PROCEEDS—The estimated proceeds to be received by the company from the sale of 7.172 common shares will amount to \$268.536. Of this amount, approximately \$226,000 will be used to be applied on the purchase price of the recently constructed research laboratory building, at \$100. Monticello Avenue, Skokie, Ill., and the balance will be used for general corporate purposes.

BUSINESS—Company was organized as an Illinois corporation in 1914 to continue the business originally established as a sole proprietorship by Frank B. Cook in 1897 to produce wire communication cumpment for the telephone industry. Its main plant, which contains 115,000 square feet of floor space, is located at 2700 Southport Avenue, Chicago 14, Ill. The present management, while continuing the manufacture of wire communication equipment, has expanded the operations of the company in varied fields and its major growth has taken place since 1940. The operations of the company are carried on by the following seven divisions:

(1) The Diaphlex Division manufactures an extensive line of aircraft components for the airframe and aircraft equipment manufacturers, consisting of pressure switches and a large variety of automatic sensing and control equipment comprising a line of approximately 420 items. Its principal classes of products include relays, time delays, pressure switches, aneroids, bellows and bellows devices, ice detection systems, electrical control assemblies and hermetically sealed control systems.

(2) The Magnilastic Division manufactures expansion joints, jet engine tail pipe components, roadable equipment and many other specialities of a large scale nature requiring stainless steel and alloy welding, and involving low leak

its excess capacity is utilized by other manufacturers in the Capo area.

(6) The Cook Research Laboratories Division is devoted to basic and applied research for the governmental service.

(7) Inland Testing Laboratories Division tests and qualifies the company's products, as well as those of other component manufacturers. In addition, it performs tests for the Air Corps and doss qualification testing of the United States Signal Corps components under the direction of the Signal Corps Engineering Laboratories, llocated at Fort Monmouth, New Jersey.

Detailed at Fort Monmouth, New Jersey.

The company has recently organized Canadian Diaphlex Ltd. as a subsidiary, located in Toronto, Canada. The expansion was undertaken in order to accommodate afrirance manufacturers in Canada. It is expected that a plant will be leared to manufacture Diaphlex Aircraft components for Canadian industry, as well as airframe manufacturers located in foreign countries. However, at the present time, the subsidiary is confined to a sales organization.

Eagle-Picher Co.—Private Placement—The company on Sept. 22 announced that it has entered into loan agreements with two insurance companies under which it has borrowed \$12,500,000 in principal amount on its 334% promissory notes due Sept. 1, 1972. Arrangements for the loan were made in conjunction with Goldman, achs & Co.

Sachs & Co.

Of the proceeds of the loan, \$7,500,000 will be used to prepay notes outstanding in that principal amount and the balance will be added to the company's working capital.

The company will start construction at an early date of a \$4,000,000 zinc roasting and sulphuric acid plant at Galena, Kansas, scheduled for completion during the early part of 1954, it was announced on Sept. 24. The company has been granted a certificate of necessity by the Defense Production Administration approving accelerated depreciation over a five-year period on a substantial part of the cost of the project.

About 240 tons per day of sulphuric acid will be produced at the new plant erected by this company. The major portion of the plant's output has been sold under long-term contract to the Missouri Farmers Association which will construct a phosporic acid and fertilizer plant near the Eagle-Picher plant.—V. 176, p. 239.

testing.

Delivery of the pilot model was made just 19 months and 10 days after Buick was awarded a contract to produce the powerful British-designed jet engine in quantity, Ivan L. Wiles, General Manager of Buick and Vice-President of General Motors, reported, Buick was awarded a contract to produce the Sapphire on Feb. 12, 1951, and since that time has built, with its own capital, two large plants, covering nearly 2,000,000 square feet of floor space, to house production facilities for the 165.

"While this engine delivered Sept. 22 is a pilot model for testing-purposes only, we expect to meet the scheduled delivery date for our first production unit," Mr. Wiles said.

Buick is producing the 365 under a license agreement with Wright Aeronautical Division of the Curtis-Wright Corp. Wright has assumed the design responsibility for the American model of the 165.

Goodyear Tire & Rubber Co.—To Operate Plant-

The Atomic Energy Commission has selected the Goodyear Atomic Corp., a subsidiary, to operate the new \$1,200,000,000 gaseous diffusion plant that is to be constructed near Portsmouth, Ohio.—V. 176, 685.

(W. R.) Grace & Co., N. Y .- Arranges Private Loan According to an announcement made early this month the company has arranged to place privately with four major insurance companies \$35,000,000 of 30-year 3%% notes due 1982.

notes due 1982.

According to J. Peter Grace, Jr., President, the proceeds will supplement company funds for financing an expansion program over a period of years.

Several months ago it was announced that a proposed subsidiary was planning construction of an ammonia-urea plant at a site which has not yet been disclosed. The plant, to cost approximately \$18,-000,000 will mark the entry of this company into the domestic petrochemical field. Plans are being actively developed for further expansion in petro-chemicals.

The Grace firm has industrial investments in North and South America. It wholly owns Grace Line, and its domestic interests include Naco Fertilizer Co., with offices and stores in the Carolinas, Florida, Ohio, and California; a financial interest in the Dewey & Almy Chemical Co., worldwide chemical, research, and manufacturing organization; and ownership of approximately 20% of the stock of the Davison Chemical Corp. W. R. Grace & Co. also is half owner of Panagra (Pan American-Grace Airways) and is majority stock-holder of the Grace National Bank.

Offer Made for Coast Concern—

Offer Made for Coast Concern-

W. R. Grace & Co. in August made an offer to purchase the common stock of Poster & Kleiser Co., one of the largest outdoor advertising concerns in the United States. Grace has an option to buy 449,589 shares, representing 73% of the common stock now owned by various members of the Foster and Kleiser families. One of the conditions of the purchase is that Grace is able, at the time of the closing on Oct. 10, to secure at least 95% of the presently outstanding common stock. The remaining 153,986 shares of common stock is publicly held.

The Grace concern and the Foster and Kleicer families have agreed on a price of \$12.85 per share, out of which the sellers must pay a broker's commission and finder's fee of 32 cents per share. The deal, handled by Schwabacher & Co. of San Francisco, would involve about \$8,000,000.

\$8,000,000. L. H. Odell, Vice-President of the Grace company, said that, should the purchase be completed, G. B. Haynes, President of Foster & Kleiser, would remain in that capacity, as would other key personnel of the advertising company.—V. 175, p. 710.

Gulf Interstate Gas Co.—Plans Pipeline

This new corporation has applied to the Federal Power Commission for authorization to construct an 860-mile pipeline extending from southern Louisiana to a point in northeastern Kentucky to transport natural gas for a subsidiary of The Columbia Gas System, Inc.

The proposed pipeline system, which has a total estimated cost of about \$127,887,000, would be used to transport 375 million cubic feet of gas per day for the account of United Fuel Gas Co. The gas would be delivered to United Fuel in Boyd County, Ky., and to Central Kentucky Natural Gas Co., an affiliate of United's, at a point in Montgomery County, Ky.

The company proposes to commence transporting gas by Nov. 1, 1954.

Gyrodyne Co. of America, Inc.—Files With SEC-

On Sept. 18. the company filed a letter of notification with the SEC covering 16.972 additional shares of class A common stock (par \$1) to be offered at \$5 per share, without underwriting. The proceeds are to be used for working capital.

On Sept. 16, 1952 the company withdraw from public offering 10,000 shares of its 6% cumulative convertible preferred stock, with an aggregate offering price of \$50,000. See V. 176, p. 1060.

Hilseweck Minerals Corp.—Registers With SEC-

Hilseweck Minerals Corp.—Registers With SEC—

This corporation with offices in Dallas and Oklahoma City, filed a registration statement with the SEC—on Sept. 18, 1952, covering 139,920 shares of its \$1 par value common capital stock and \$1,500,000 of 20-year non-negotiable debentures due due, 1, 1072.

The debentures are to be offered for sale "as a speculation" to the public at \$960 per \$1,000 debenture; and the purchaser will receive, for each \$1,000 debenture, common stock subscription warrants for the purchase of 50 shares of the common capital stock. The warrants are to be exercisable at \$1 per common share. The company will also issue to the person or persons it credits with making the debenture sale such warrants to subscribe to 20 shares of common—but such warrants shall not be issued to promoters in connection with the sale of the first \$336,000 of debentures.

No underwriters will be employed and "no commissions, as such, will be paid. The officers, directors and present stockholders of the company may receive credit for selling some debentures and by reason thereof, or by reason of the total sales of debentures aggregating less than \$336,000, may acquire more than 30% of the total outstanding stock of the company."

The company was organized under Delaware laws on July 11, 1952 "to engage generally in the oil and gas business and related activities," which the company charactrizes as "speculative and highly competitive." Officers and directors are listed as the promoters (W. J. Hilseweck of Dallas is President). They and members of their families own the 10,080 outstanding shares, acquired for cash at the par value thereof. Net proceeds of the financing "will be used (by the company) to further its regular corporate purposes."

Hudson Pulp & Paper Corp.—Private Placement-

The company has placed privately with the Equitable Life Assurance Society of the United States \$2,000,000 of 334% notes to mature 1955 through 1966.

The proceeds will be used for new construction.
The company had previously borrowed \$7,000,000 from Equitable under a 1950 loan agreement.—V. 173, p. 2496.

Hussman Refrigerator Co.-May Sell Pfd. Privately

The common stockholders will be asked at a special meeting Nov. 5 to approve an amendment that would free directors to sell the remaining 11,000 authorized shares of \$100 par preferred stock to a single institutional investor.

The proposed amendment to the certificate of incorporation would extend a denial of the pre-emptive rights of common stockholders to include the 11,000 preferred shares. Last year common shareholders decided to waive their pre-emptive rights to subscribe to 23,000 shares of \$100 par 4% preferred stock.

Provisions for the new preferred stock will be essentially the same as those for the preferred shares now outstanding except that the dividend rate will be 44%.

The record date for common shareholders entitled to vote at the meeting will be Oct. 6—V. 173, p. 2610.

Idaho Power Co .- Bids for Common Stock-

Idaho Power Co.—Bids for Common Stock—

The company will receive bids up to 11:30 a.m. (EST) on Sept. 30 for the purchase from it of 225,000 shares of common stock (par \$20). Such proposals will be received at the Bankers Trust Co., 46 Wall St., New York 15, N. Y.

The Federal Power Commission on Sept. 17 authorized this company to issue 225,000 shares of \$20 par value common stock, but has denied the company's request that the issuance be exempted from the Commission's competitive bidding requirements.

The company had proposed to sell the 225,000 shares of stock through negotiations with underwriters for the private placement of the isuance. The FPC however, found that the company had not made sufficient showing to warrant the requested exemption of the stock from the requirements of the competitive bidding rule.

The authorization will not become effective until the FPC by further order approves the company's proposed method of complying with the competitive bidding requirements. When and if the order does become effective, the issuance cannot be consummated until the company files the amendments required by the competitive bidding rules setting forth the bids received and the company's proposed action, and until the FPC by further order approves the price to be received for the common stock.—V. 176, p. 958.

H. B. Munsell, President, on Sept. 15, said in part:

"To provide funds for its construction program and to retire bank loans, the company plans to issue and sell \$12,000,000 of additional first mortgage bonds late in 1952.

"Work is progressing satisfactorily on the 100,000-kilowatt addition at Hawthorn Station although delays have been encountered in obtaining certain materials such as piping. The completion date is now estimated as May, 1953. Earlier tentative plans for the addition of a fourth generating unit at Hawthorn Station to be available for the summer of 1955 have now been made definite, and construction work will be started next year.

"During the first half of 1952, the company acquired approximately 77% of the outstanding stock of Eastern Kansas Utilities, Inc., a small

utility company operating electric properties adjoining those of the company, and Kansas Gas & Electric Co. in Kansas. On July 15, 1952, Eastern Kansas Utilities, Inc. sold its southern and western properties, constituting the major part of its system, to Kansas Gas & Electric Co. Following this sale Eastern Kansas Utilities, Inc. was liquidated and Kansas City Power & Light Co. acquired its remaining utility properties located in Miami, Linn, Anderson and Bourbon Counties in Kansas, which had an original cost of about \$975,000. Missouri Pacific RR.-ICC Weighs Hearings-

The ICC is weighing the holding of oral hearings on an examiners' report recommending that the plan of reorganization be re-examined. Hearings have been requested by the railroad company. Should the Commission decide to grant hearings on the matter and these are held by Oct. 15, it is likely that the Commission could reach a decision around Nov. 15 on whether the plan will be opened up. In any event, the ICC is expected to determine before the end of the year whether the plan will be reconsiderd.

Undr the present plan of reorganization, providing for a capitalzation of \$613,000,000 the common stock is wiped out. Alleghany Corp., which held \$418,000 shares of the common, as of Dec. 31, last, has been a leader in efforts to get the plan revised. Reconsideration is sought on the ground of changed conditions of the road since the plan was adopted by the Commission in 1943.—V. 176, p. 8551

Missouri Public Service Co.-Expansion-

This company has applied to the Federal Power Commission for authority to construct a 126-mile pipeline system in Missouri, and also has asked the Commission to order Penhandle Eastern Pipe Line Co., of Kansas City, Mo., to supply it with natural gas.

The proposed project, estimated to cost \$5.080.845, would include 109.3 miles of main 8 and 10-inch pipe and 27.1 miles of lateral lines. The system would connect with Panhandle's system near New Franklin, Mo., and extend northwesterly through Howard, Chariton, Linn, Livingston and Grundy Counties, all in Missouri.—V. 174, p. 2549.

Morningstar, Nicol, Inc.—Acquisition—

An important expansion move of this corporation was announced on Sept. 19 by Joseph Morningstar, Chairman of the Board. The nationwide distributor and processor of starches, dextrines and related food, adhesives and chemical industry raw materials acquired the Jersey C.ty (N. J.) factory and three departments of Innis, Speiden & Co. Other In.:is, Speiden plants and departments were not included in the transact.on. Innis, Speiden & Co. was founded in 1816 and Morningstar, Nicol, Inc., in 1851.

The Natural Gums and Absorption Base Departments includes the importation of a complete line of water-soluble gums. Gum Arabic, Karaya, Tragaca.th, Locust. Bean and Gum Ghatti will continue to be processed in the Jersey City plant.

Morningstar, Nicol has arranged for the transfer of the Wax Department to Frank B. Ross Co., Inc., of Jersey City, but for the time being they will continue to process the waxes formerly made by Innis, Speiden until such time as the Frank B. Ross Co. can absorb the manufacture in their own plant.

The purchass of the Innis, Speiden factory located in Jersey City gives the new owners a modern concrete building of 25,000 square feet equipped with the most up-to-date machinery for processing of their products.

The new acquisition will be reorganized as the "Natural Gum and Absorption Rase Department".

National Distillers Products Corp. - Plans Dividend Reduction-

At the conclusion of the regular monthly meeting of the board of directors held on Sept. 25, Seton Porter, Chairman, and John E. Bierwirth, Fresident, issued the following statement:

Bierwich, Fresident, issued the following statement:

"Three quarterly dividends of 50 cents each have been declared and paid on the common stock during the present calendar year. While action on the dividend for the fourth quarter will not be taken until the next board meeting on Oct. 23, 1952, the directors felt hat the stockholders should be advised at this time that it was their present intention to declare a dividend of 25 cents per share in October instead of the customary 50 cents. This will bring the total payments on the common stock to \$1.75 per share for the calendar year 1952.

payments on the common stock to \$1.75 per share for the calendar year 1952.

"Since the last increase in Federal excise taxes (of \$1.50 per gallon) was imposed on Nov. 1, 1951, the volume of sales of legal whiskey has declined about 20% from the previous years (U. S. Treasury Department figures for U. S. A. sales of whiskey for light months—November, 1951, to June, 1952, inclusive). During this same period costs have risen further and an increase in corporation income taxes has also been made. This has resulted in a substantial decline in net profits from the company's whiskey business.

"Manuacture of whiskey in all the company's distilleries was suspendend last spring because for the first time in many years the inventory was in proper balance. While some improvement in waiskey sales is expected later this year it is now evident that an astonishing amount of legal whiskey business has been taken over by the bootleg or illegal trade since the last tax increase and that no market improvement is likely until an adjustment is made in the present unrealistic tax.

"Net earnings from metallic sodium and chlorine sales continue to be very satisfactory. We have experienced a decline in profits from the U. S. Industrial Chemical Division compared with last year due chiefly to price reductions in industrial alcohol as well as bulk chemicals and resins. Construction work is substantially up to schedule on the building of the plants of National Petro-Chemical Corp. and it is anticipated that operations will commence during the early part of 1953 and 101 production will be reached in the last quarter of 1953."—V. 176, p. 601.

National Reserve Insurance Co., Phoenix, Ariz.

A letter of notification was filed with the SEC on Sept. 16 covering certificates of evidence of dividend contributions to be issued in accordance with the terms of a trust agreement in the face amount not exceeding \$300,000; the certificates; in turn, to evidence preorganization subscription to not exceeding 214,285 shares of capital stock (par \$1) of the Fire Insurance Company (to be incorporated) at \$1.40 per share, without underwriting. The proceeds are to be used for organizational expenses.

National Steel Corp.—Continues Expansion-

Two giant new blast furnaces were placed in operation on Sept. 22 at steel-making divisions of this corporation, it is announced by Ernest T. Weir, Chairman. They rank among the largest furnaces in the country and incorporate the most modern engineering developments, it was stated.

One furnace is located at the Zug Island plant of Great Lakes Steel Corp. at Detroit, Mich., and the other is at the Weirton, W. Va., plant of the Weirton Steel Co.

The two furnaces will add a total of approximately 1,000,000 tons per year to the pig iron capacity of National Steel Corp., which is the fifth largest steel company in the United States. National Steel now has a total of 12 blast furnaces, including the new facilities, with four each at the plants of Great Lakes Steel Corp., Welrton Steel Co., and the Hanna Furnace Corp. at Buffalo, New York.

The construction of the furnaces nas required the enlargement of by-product coke capacity, and also the increase of storage space and handling equipment for iron ore. Facilities installed at the new furnace plants, in addition to the furnaces and stoves, include: an ore dock and ore yards with cranes, steam generating plants, power and blower houses, water, steam and air service lines, pig casting machines and extensive railroad trackage.

The blast furnace facilities are major components of National's overall expansion program which was started at the end of World War II and will be completed next year. As a result of the program, National's annual steel capacity will be increased from 3,900,000 tons in 1945 to 6,000,000 tons in 1953, or more than 50%.

In addition to this lrage scale expansion and improvement of facilities in manufacturing operations, National Steel has been adding to its reserves of the important raw materials, coal, limestone and iron ore.

to its reserves of the important raw materials, coal, indicated iron ore.

Recently, the company acquired a large interest in two major coal mining operations in the Pittsburgh District and in a limestone operation in Michigan. National also is a large participant in the development of the new Labrador-Quebec iron ore field and will receive a substantial proportion of the ore from this source in addition to the ore from its present mines in the Lake Superior region.

The largest ore freighter ever built on the Great Lakes is now being constructed for National Steel and will join the Company's fleet next season to help transport the increased quantities of iron ore required by the enlarged blast furnace operations.

National Steel Corp.'s expansion program so far has involved the expenditure of more than \$240,000,000.—V. 176, p. 601.

Nesco, Inc.-To Add New Products-

Nesco; Inc.—To Add New Products—
This corporation, large housewares manufacturer, will soon add several traffic appliances to its line of consumer products, it was announced on Sept. 22 by Edward Altemeier, Vice.-President.
These traffic appliances will be manufactured in the company's newest plant at Jacksonville, Ill., following addition of a large warehouse there next spring, Mr. Altemeier said.
Another major new product is planned for production in the Baltimore plant. In addition, new lines of lithographed metal housewares, and galvanized ware, will be produced at the Granite City, Ill., plant. This 800,000 square-foot factory is being modernized in a \$1,000,000 program that is increasing efficiency of both civilian and military output. Granite City is the center of Nesco's production of ammunistion components.

Center of government contracts for powder loading and parachute-flares is the Jacksonville plant, which will continue this production even with increased manufacture of civilian goods, Mr. Altemeier stated.

Arthur Keating, President, said:

Arthur Keating, President, said:

Arthur Keating, President, sain:
"These advancements are part of the new goods and modernization programs that were begun more than two years ago. They will enable us to diversify our lines and to expand our sales within the areas where our sales forces can sell them with little additional cost, Although Nesco now has a backlog of about \$20,000,000 in defense contracts, the proportion of civilian output has been increasing during the past few months and we expect it to continue to increase from now on."—V. 175, p. 1481.

New England Electric System-Bank Loans-

New England Electric System—Bank Loans—
The following subsidiaries of this System have applied to the SEC for authorization to issue to banks their unsecured promissory notes in the amounts specified, the proceeds to be used to pay off presently outstanding notes maturing during Oct. 1 to Dec. 31, 1952, to pay for construction costs during such period, or to reimburse their treasuries for prior construction expenditures: Granite State Electric Co., \$450,000; Haverhill Electric Co., \$700,000; Malden Electric Co., \$1,550,000; Salem Electric Lighting Co., \$200,000; Suburban Gas and Electric Co., \$1,125,000; and Worcester County Electric Co., \$3,000,000. Of the notes now outstanding and to be retired through use of the proceeds of the new notes, \$2,525,000 are held by banks and \$1,400,000 by NEES. The balance of \$3,100,000 is to be used for construction or treasury reimbursement. The note agreement with banks provides that no more than \$7,275,000 of notes in the aggregate may be outstanding at any one time.—V. 176, p. 856.

New York, Ontario & Western Ry.—Court to Study Plan-

New York, Ontario & Western Ry.—Court to Study Plan—

As the result of a plan put forward by a committee of first and refunding bondholders of this company, the New York, New Haven & Hartford RR is interested in acquiring properties of the bankrupt N. Y. O. & W. Ry.

The plan provides for the setting up of a new company to take over the N. Y., O. & W. properties. It would have a total funded debt of \$8,000,000, consisting of \$2,500,000 of first mortgage 4% income bonds, \$2,500,000 of second mortgage 4% income bonds, \$2,500,000 of second mortgage 4% income bonds, \$2,500,000 of second mortgage 4% income bonds, and \$3,000,000 of present equipment trust obligations. The capital stock would be about 43,000 shares of \$10 par common.

Holders of the present \$20,000,000 refunding mortgage bonds would receive under the plan ten shares of the new common stock in exchange for each \$1,000 of the bonds. Holders of the present \$12,000,000 general mortgage bonds would receive a warrant to buy one share of new company stock at \$15, per share for each \$1,000 bond:

If the New Haven should enter the picture it would acquire the first mortgage income bonds plus 51% of the capital stock of the new company for \$2,500,000. The second mortgage income bonds would go to O. & W. trustees' creditors not carried in current liabilities or paid off in a cash compromise.

The new company would be authorized under the plan to discontinue and abandon nonprofitable portions of the bankrupt line.

George T. Carmichael, Vice-President of the New Haven, said that a great deal, of money must be spent on rehabilitation and stressed the need for traffic solicitation. He added that the New Haven, which owned almost 51% of the bankrupt road, purchased in 1904, would bid for the property at a sale.

Judge Conger adjourned the hearing until Oct. 15 to study the plan.—V. 176, p. 856.

New York State Electric & Gas Corp.—Expansion-

The Federal Power Commission has granted temporary authorization to this corporation for the construction of 9.5 miles of pipeline and the installation of 1,100 horsepower at an existing compressor station in the Auburn, N. Northern Natural Gas Co.-Plans Expansion-

Northern Natural Gas Co.—Plans Expansion—

The company has filed an application with the Federal Power Commission—requesting authority to construct pipeline facilities designed to increase its system sales capacity by 300 million cubic feet per day, to a total of 1,112,000,000 cubic feet of natural gas.

Total estimated cost of the construction program, which would be carried out over a two-year period, is \$69,826,000. The project would include a total of 3,600 horsepower in new and existing compressor stations, and numerous branch lines and branch-line additions; installation of a total of 73,600 horsepower in new and existing compressor stations, and numerous branch lines and branch-line additions. The additional system capacity would be used to transport 300 million cubic feet of gas, per day which Northern would receive from Fermian Basin Pipeline Co., the application states. Permian, a new corporation, of Chicago, Ill., has an application pending with the FPC to construct a 384-mile pipeline system in Texas and New Mexico, to transport gas from the Permian Basin for sale to Northern.

Northern said that the increased capacity would be used to supply additional contract demand volumes which Northern's customers have requested, and to provide about 17 million cubic feet of gas for service to about 30 communities in Iowa, Minnesota, Nebraska and South Dakota-which do not now have natural gas.

Northern proposes to complete construction of facilities required to transport 200 million cubic feet of the gas which it would receive from Permian by Jan. 1, 1954, and the facilities to transport the remaining 100 million cubic feet would be completed a year later.

The first year's construction program, to cost \$45,570,000, would include 22.55 miles of main pipeline additions and 42,800 horsepower in compressor capacity. The new facilities would be located in Texas, Oklahoma, Kansas, Nebraska, Iowa, Minnestona and South Dakota.—V. 176, p. 856.

Northern States Power Co. (Minn.) - Hearing-

The SEC on Sept. 23 announced that it had ordered a hearing to be held on Oct. 28, 1952, on the question whether certain of the gas, electric and nonutility properties of this company are retainable as a part of the Northern States system under the integration standards of Section 11 (b)(1) of the Holding Company Act. The properties in question consist of:

1.—The gas utility properties and facilities of the Minnesota company and two of its subsidiaries which furnish gas at retail in 24 communities in Minnesota, Wisconsin and North Dakota. Gas operating revenues for the year 1951 totaled \$8,221,181; and there were 135,628 gas customers at the year end.

The electric utility properties and facilities in North Dakota and orthwestern Minnesota, serving Minot, Grand Forks, Fargo and conguous communities.

tiguous communities.

3.—The heating, telephone and water-distribution properties and facilities. The Minnesota company and one of its subsidiaries serve hot water or steam for heating purposes in 2 communities in Minnesota, 2 in Wisconson and 3 in North Dakota. 1951 revenues therefrom amounted to \$1,010,687 and there were 1,295 steam heating customers at the year end. The Minnesota company supplies telephone service, in Minot, N. D., and vicinity, with 1951 revenues of \$376,655 and year-end subscribers or 7,979. It also supplies water service in Tracy, Minn. for which it received revenues of \$20,673 in 1951 and had \$58, water, customers at the year end.

According to the Commission, approximately 89% of the Northarn States System's total consolidated operating revenues of \$88,727,944 in 1951 were derived from the sale of electricity, 9% from the sale of geas, and 2% from heating, water and telephone service. Of the 478 comminities served with electricity by system companies, 372 (including Minneapolis and St. Paul) are located in Minnesota, 114 in Wisconsin, 21 in North Dakota and 44 in South Dakota. The major part of the electric territory is served through interconnected facilities extending through west-central Wisconsin and central and southern Minnesota into and including part of southeastern South Dakota. It also serves the Fargo-Grand Forks area of eastern North Dakota and northwest-ern Minnesota and the Minot (N. Dak.) area, which areas are not interconnected with each other nor with the facilities in west-central Wisconsin, central and southern Minnesota, and southeastern South Dakota. These additional areas accounted for approximately \$4,600,000 out of the system's total electric revenues of \$79,098,708 in 1951.—V. 175, p. 2696.

Extends Service-

This corporation on Sept. 17 announced that, commencing Sept. 27, will become the first airline ever to offer scheduled; all-cargo flights and from the United States and the Orient.

On that day, Northwest inaugurated reserved-space, weekly DC-4 all freight flights across the Pacific from Seattle-Tacoma to Tokyo, on the short, fast "Great Circle" route, via Alaska and the Aleutians.—V. 176, p. 770.

Northwestern Telegraph Co.—82% of Stock Favor Sale

The stockholders on Sept. 16 voted 82% of the stock in favor of the dissolution of Northwestern and sale of its property to the Western Union Telegraph Co. Under the plan, Northwestern's 99-year lease to Western Union would be terminated and \$40 of Western Union debentures would be distributed for each share of Northwestern stock.

Gladden W. Baker, President of Northwestern explained that the vote at the stockholders meeting falls short of the 90% required to obligate the two companies to carry out the plan. He noted that Northwestern Union would however, be willing, and believed that Western Union would be willing to accept the 82% vote as sufficient provided other conditions are met.—V. 176, p. 464.

Oliver Corp.—Acquisition—

The corporation on Sept. 17 announced the purchase of all re-purces and facilities used by Carter Industries in Cincinnati, Ohio, in he manufacture of "Black Velvet" gravity conveyors, which will be tegrated into Oliver's Farquhar division at York, Pa.—V. 175, p. 2490.

Pennsylvania Coal & Coke Corp.—25-Cent Dividend—
The directors have declared a dividend of 25 cents per share, payable Oct. 17 to stockholders of record Oct. 3, 1952.
This marks the second payment since dividends were resumed with a 50-cent payment in Pebruary of this year.
L. D. Silberstein, President and Chairman of the Board, stated that this payment indicates the progress that has been made in building up the company's earning power from other operations in times when demand for coal is slack. As operations of the corporation are expanded, further dividend declarations may be expected, Mr. Silberstein indicated.—V. 176, p. 687.

Philippine Ry.—Committee Files Plan-

Thisppine Ky.—Committee Files Plan—
The bondholders' committee has filed with the Supreme Court in Manila (P. I.) a plan for settlement of the company's 30-year 4% first mortgage sinking fund gold bonds which matured July 1, 1937. Negotiations also are proceeding with the Philippine Government, the committee said. Under the proposal, depositors would receive 25% of the face amount of the bonds, after payment of fees and expenses. A small contingent amount would also be paid out of any unclaimed funds pertaining to "lost" bonds. A total of \$8,549,000 of the issue is outstanding. Almost immediately after July 1, 1937 the company went into receivership.—V. 172, p. 1439.

Pittsburgh Steel Co.—Bonds Placed Privately—The company has sold its third \$5,000,000 of 3¾% first mortgage bonds, due 1971, to Metropolitan Life Insurance Co., according to a report to the Securities and Exchange Commission. The company said it would sell two more bond instalments of equal size by the end of the year, bringing the total to \$25,000,000. The proceeds will be used for expansion.—V. 174, p. 2096.

Potomac Light & Power Co.—Stock to Parent—
The SEC has issued an order authorizing this company to issue and sell to its parent, The Potomac Edison Co., 5,685 additional shares of its common stock, \$100 par, for \$568,500 cash. Proceeds are to be used by Potomac Light for construction purposes.—V. 175, p. 1649.

Professional Life Insurance Co.—Stock Offered— The company's offering of not in excess of 10,000 shares of capital stock (par \$10) at \$25 per share, without underwriting, is limited to a limited group of investors.—V.176, p. 960.

Puget Sound Power & Light Co.—Offer of P. U. D.s Approved—Initial Liquidating Dividend of About \$22 Per Common Share Expected—

Per Common Share Expected—

The directors voted Sept. 12 to accept an offer of \$89,490,000 from six Washington public utility districts for all the company's properties and facilities, except those in Whatcom County.

Frank McLaughlin, President, said the directors agreed that "under all the circumstances" the offer was fair. The directors will recommend its acceptance by stockholders at a meeting which will be held in late October, he said.

Making the joint purchase offer are public utility districts of Skagit, Jefferson, Thurston, Chelan, Snohomish and Kitsap counties. The six districts plan to issue revenue bonds totaling \$107,000,000 to finance the purchase and cover acquisition costs, current assets, working and construction cash and a proposed pension plan for employees.

In addition to the purchase price would be \$3,500,000 for accounts receivable, materials and supplies.

Mr Laughlin said it is contemplated than an initial liquidating distribution of about \$22 per share of common stock would be made available to stockholders within 30 days after consummation of the sale.

The company has 14,000 stockholders, each of whom is allowed one

available to stockholders within 30 days after consummation of the sale.

The company has 14,000 stockholders, each of whom is allowed one vote for each share he owns. There are 2,200,000 shares of stock outstanding. The proposed sale requires 66%% of the total number of votes to be approved by the stockholders.

The company would have, principally, its Whatcom County properties and the Diamond Ice and Storage Co. plant in Seattle still to liquidate after the over-all sale.

The sale to the six PUDs would include the company's generating system and all transmitting lines except those serving Whatcom County. The deal includes the company s distribution systems in King, Pierce and Kittitas Counties.

The Whatcom County PUD seeks to acquire Puget Sound Power and Light properties in Whatcom County through independent negotiations or condemnation proceedings.

About 14% (\$2,600,000) of the company's total electric revenue for the 12 months which ended July 31 came from the Whatcom County properties, Mr. McLaughlin said.

He explained that it cannot now be determined what will be the net amount for distribution to the company's stockholders when the company is completely liquidated, including the Whatcom properties. It is estimated, however, that, barring unioreseen costs or liab lities, the final liquidation may raise the total to as much as \$27 per share of common stock, he concluded.—V. 176, p. 257.

Radio Corp. of America—Probable Acquisition—
The Noma Electric Corp. and the Radio Corp. of America jointly announced on Sept. 22, that negotiations have been concluded for RCA's acquisition of the The Estate Stove Co. of Hamilton, Ohio, which is now a division of Noma. The agreement is subject to approval of Noma stockholders, whose next regular meeting is scheduled for Nov. 5.

The Estate Stove Co., it was pointed out, is one of the oldest and most highly regarded manufacturers of quality gas and electric ranges in the industry. Estate also produces gas and oil space heaters under the nationally known trademark "Heatrola." Its acquisition, the announcement stated, will provide RCA with manufacturing facilities and an organization of skilled workers and experienced management for its entrance into these fields.

It is planned that RCA will form a new subsidiary, the RCA-Estate Appliance Co., Inc. Cecil M. Dunn, President of the Estate Stove Co., will become President of the new subsidiary—V. 171, p. 1264.

Sapphire Petroleums Ltd.—Purchase Agreement

Sapphire Petroleums Ltd.—Purchase Agreement—
Watkins Samuel, President, announces that the Company has entered into a contract to purchase 65% of the Levelland Field properties from Stephens Petroleum Co. of Oklahoma City, Okla. These properties, located in Cochran County, Texas, comprise 784 acres of oil and gas leases, on which there are now located four producing oil wells. Sapphire Petroleums has also entered into a sublease agreement with Cities Service Oil Co. with respect to 1169 acres of oil and gas lands adjoining the above acreage. Thus, both properties make a solid block of 1953 acres of full proven and partly developed oil and gas reserves. The company intends to fully develop this acreage, which will take an estimated total of 40 wells, being a spacing of one well to each 40 acres. The four wells currently in operation are producing oil from the San Andres Lime at a depth of approximately 5,000 feet.

Sapphire's partner in this oil property is Kenwell Oils and Mines Ltd., a recently organized Canadian oil independent.

Purchase and development of these properties will be financed from proceeds of the recent sale of \$2,000,000 ten-year 5% convertible sinking fund debentures. The New York Curb Exchange has authorized the listing of these debentures which carry a sinking fund provision of \$50,000 annually and also a sum equivalent to 20c per barrel of the company's net crude oil production.—V. 176, p. 960.

Schenley Industries, Inc.—New Secretary—

Jule E. Stocker, a partner in the law firm of Chadbourne, Parke, Whiteside, Wolff and Brophy, has been elected Secretary to fill a vacancy left by the resignation of Ralph T. Heymsteld, who was elected President on Sept. 15. Mr. Stocker will continue as an active member of the law firm.

Leonard J. Rosenfeld, a member of the Schenley law department, has been elected Assistant Secretary of the company.—V. 176, p. 1062.

that warrants covering \$24,407,000 of 3% convertible debentures have been exercised. This represents 97.8% of the debentures offered under subscription rights which expired at 3 p.m. on Sept. 23.

The company had offered its shareholders rights to subscribe to \$24,952,800 of the debentures at par on the basis of \$100 principal amount of debentures for each 12 common shares held on Sept. 8. The unsubscribed portion of the issue amounting to \$545,800 has been taken up by an underwriting groups managed jointly by Drexel & Co., Smith, Barney & Co., and Merrill Lynch, Pierce, Fenner & Beane. From the proceeds of the offering Scott expects to use approximately \$16,600,000 for the construction of a new paper mill at Everett, Wash.; \$1,000,000 to increase the capacity of its Soundview Division pulpmill by an estimated 8%; \$1,220,000 to build a new converting plant at Marinette, Wisc.; with the remainer being added to the company's general funds.—V. 176, p. 1062.

Seaboard Air Line RR .- To Redeem Preferred-

The directors on Sept. 18 authorized the redemption on Oct. 20 of the outstanding 5% series A preferred stock at par (\$100 a share) plus unpaid dividends of \$5.28 a share. The dividend accumulations consist of \$1.25 a share previously declared, payable on Dec. 26, and \$4.03 a share to cover the current calendar year from Jan. 1 to the redemption date.

\$4.03 a share to cover the current calendar year from Jan. 1 to the redemption date.

John W. Smith, President, said that at the close of business on Sept. 17 there were 149,668 shares of the preferred stock outstanding. He said these may be converted share-for-share into the common stock of the company at any time prior to the close of business on Oct. 17. Stockholders may obtain the full redemption price, including dividend accruals, at any time at the New York Trust Co., New York.

After the redemption of the preferred stock, the capital stock of the company will consist only of common shares.—V. 176, p. 858.

Some of the company's products are sold in all 48 states, Alaska and practically every foreign country outside the iron curtain.

The company's domestic production is obtained principally from

practically every foreign country outside the from curtain. The company's domestic production is obtained principally from Texas, Oklahoma and California and its gross domestic production has increased from approximately 69,423,000 barrels in 1947 to 86,691,000 barrels in 1951. During the same period domestic gross reserves of crude oil and condensates increased from an estimated total of 1,22,000,000 barrels at the end of 1951. In addition, the company has important sources of production in the Middle East and Eastern Venezuela.

gross production from all foreign sources having totaled 67,356,000 barrels in 1951. Its foreign reserves of crude oil and concensates were estimated at about 2,858,000,000 barrels at the end o. 1951. Sales of all products in the United States in 1951 totaled 19,001,000 barrels, an average of 53,000 barrels a day. This compares with 181,000,000 barrels, an average of 495,000 barrels aday, in 1947. Foreign sales in 1951 totaled 53,000,000 barrels compared with 35,000,000 barrels in 1950 and 24,000,000 barrels in 1.47. Unusual world conditions were partly responsible for an exceptionally heavy demand in foreign markets in 1951. Foreign sales were made principally in Continental Europe, Middle East and North and West Africa.

Solar Aircraft Co.-Unfilled Orders \$80,562,000-

Afterburners and other "hot parts" for one of the world's most, powerful jet engines will be built by this company, Edmund T. Price, President and General Manager, announced on Sept. 22. Mr. Price said Solar will produce components of the new J40 jet engine for the Lincoin-Mercury Division of Ford Motor Co. Lincoin-Mercury will build the engines under license from Westinghouse Electric Corp., which in conjunction with the Navy recently announced the new engine.

engine.

Solar will be sole source to Lincoln-Mercury for the afterburners, afterburner diffusers, and combustion chambers for the J40, which will have a thrust of about 10,000.

Exact details of Solar's agreement were not announced, but the aggregate of facilities, tooling, and actual production will exceed several million dollars. Solar will produce the components in the company's new Wakonda plant in Des Moines, Iowa. The new orders bring Solar's unfilled order backlog to \$80,562,000.

Alexander Black, Vice-President and Manager of Des Moines plants, said deriveries on the Lincoln-Mercury order will start in early 1953.

In addition to manufacturing afterburners and other jet and piston

Standard Gas & Electric Co.—Hearing on Plan-

The SEC has scheduled a consolidated hearing for Oct. 28, 1952, upon (1) Step II of the plan for liquidation and dissolution of this company and (2) Step 5 of the plan for simplification of the Philadelphia Co. system, both advanced in further compliance with the provisions of Section 11 of the Holding Company Act.

Geiphia Co. system, both advanced in further compliance with the provisions of Section 11 of the Holding Company Act.

Step II of the Standard plan, as amended, provides for the retirement of the \$4 cumulative preferred stock and common stock of Standard through the distribution of common stock of Duquesne Light Co. (a subsidiary of Philadelphia) to the \$4 preferred stockholders and, in essence, the distribution of common stock of Philadelphia plan, as amended, provides for the retirement of its \$5 cumulative preferred stock through the distribution of common stock of Duquesne.

Steps I and I-A of the Standard plan, now pending before the Commission provide for the retirement of the prior preference stock of Standard and for the settlement of intercompany claims, respectively. Upon consummation thereof (assuming SEC and Court approval), the principal asset of Standard will consist of 5,024,790 shares or 96.8% of the outstanding common stock of Philadelphia. In addition it will own 46.834 shares of the common stock of Wisconsin Public Service Corp., 2,889 shares of the common stock of Oklahoma Gas & Electric Co., and 20,427 shares of the common stock of Duquesne, plus certain miscellancous minor assets. Standard's only outstanding securities will be its \$4 cumulative preferred stock and its common stock.

Under the amended Step II, (1) Standard will sell the Wisconsin and

Under the amended Step II. (1) Standard will sell the Wisconsin and Cklahoma stocks and liquidate or otherwise dispose of certain miscellancous assets; and (2) Philadelphia will distribute, as a partial liquidating dividend, 6/10 of a share of common stock of Duquesne for each share of common stock of Philadelphia presently outstanding—pursuant to which distribution Standard will receive 3,014,874 shares of Duquespie common.

Duquesne common.

The \$4 preferred of Standard will be retired by delivery in exchange for each share (including dividends accrued and in arrears thereon), of four shares of common stock of Duquesne. The effective date would be as soon as possible after March 1, 1953. As soon as practicable after the retrement of the \$4 preferred, Standard will discharge or provide for its liabilities; and, thereupon, it will retire its common stock by the delivery in exchange therefor of common stock of Philadelphia as follows: For each share of Standard common the holder will receive that number of shares of Philadelphia common held by Standard divided by the number of outstanding shares of Standard common. Following the retirement of its common stock Standard will be liquidated and dissolved or otherwise disposed of in such manner that it will cease to have any interest in or be otherwise connected with Philadelphia, Duquesne, Wisconsin or Oklahoma.

Upon consummation of Step 4 of the Philadelphia plan, providing for

quesne, Wisconsin or Oklahoma.

Thermoid Co.-New President-

George S. Fabel, formerly Vice-President, has been elected President to succeed Frederic E. Schulter, who will remain as a director after serving as President of the company since 1935. Mr. Schulter resigned the Presidency in order to devote more time to outside interests. He stated that he would retain and maintain his interest in the company. —V. 175, p. 2382.

Towmotor Corp.—Shutdowns Affect Output-

C. E. Smith, President, stated that production for the third quarter was substantially below that of the first two quarters. This was due primarily to a combination of vacation shutdowns, both at Towmotor and its suppliers, and the steel strike. It appears that performance for the balance of the year will continue to be hampered by interruptions in the supply of materials from vendors whose operations have been stopped by strikes. Mr. Smith pointed out that results of the third quarter bear out the prediction made in the midyear financial report to shareholders and employees that final earnings for the year will be less than those of 1951.

In contrast, it is encouraging to note that orders from civilian

In contrast, it is encouraging to note that orders from civilian sources are maintaining a good rate. Indications are that Towmotor is improving its relative position in the fork lift truck industry, the announcement added.—V. 175, p. 2596.

Trane Co.-Increase in Sales Forecast-

Potential sales of this company should increase 12 to 15 million dollars in the next three to four years, D. C. Minard, President, told the New York Society of Security Analysts on Sept. 18.

Factors contributing to a one-third increase in the potential available to the company, according to Mr. Minard, include new product developments in air conditioning, heating, heat exchange and refrigeration equipment, and increased penetration of markets the company has entered in the past two years. These new lines will give the company an opportunity to maintain its present volume even in the event of a substantial decline in new construction, Mr. Minard said.

Minard said.

New and recently developed products which will contribute to expanding potentials include a broad range of refrigeration machines, centrifugal fans, gas-fired unit heaters for industrial and commercial buildings, compette air conditioning systems for railway passenger cars, and mechanical refrigeration systems for shipping fresh and frozen foods by rail.

Consolidated net sales of The Trane Company and its Canadian subsidiary for the eight months ending Aug. 30 were estimated at \$27,941,000. Net earnings for the eight months were estimated at \$2.24 per share.—V. 176, p. 466.

Trans World Airlines, Inc.-To Borrow-

The corporation on Sept. 17 announced the sale of \$1,481,299 of promissory notes to a group of seven banks. The proceeds will used to help buy five Martin airplanes.

The notes come due over the next four years. The borrowings bring to over \$11,000,000 the total of notes sold by TWA to the banks in the last four months.

Interchange of Service-

A proposed interchange between this company and Chicago & Southern Airlines, Inc., providing for direct one-plane service from New York to Houston has been recommended by Examiner William F. Cusick of the Civil Aeronautics Board.

The interchange, as proposed by the two carriers would result in greatly improved air service between New York and Houston and also would establish the first one-plane service between Houston and Pitts-

The points of interchange would be Indianapolis on one segment and St. Louis on the other. These cities are both served by TWA and C&S at the present time.

Inauguration of the new service must now await final approval by the Civil Aeronautics Board.—V. 176, p. 728.

Transcontinental Bus System, Inc., Dallas, Tex .- Proposed Acquisition-

This company plans to acquire all the stock and interest of American uslines, Inc., Chicago.

Under the merger proposal, 1¼ shares of Transcontinental common stock would be exchanged for each share of American common and one share of Transcontinental preferred exchanged for each share of American preferred. Outstanding common stock of American totals

If the proposed acquisition is approved by American stockholders, immediate application will be made to the ICC for final approval.

Acquisition of American will give Transcontinental an additional 14.965 miles of routes, giving it a total 46.974-mile system. It and its sub-lidaries would serve 31 states from New York, Philadelphia and Washington through the Midwest and Southwest to the Pacific Coast. Acceptance of the acquisition offer has been recommended by American directors.—V. 173, p. 664.

Transcontinental Gas Pipé Line Corp.—Deliveries Up

This corporation, which supplies natural gas to New York, New Jersey and Philadelphia utilities, announced on Sept. 23, that completion of additional compressor units had increased its daily delivery capacity to the authorized maximum of 555,000,000 cubic feet.

All of the company's presently certificated 259,210 horsepower capacity became available in August when the third steam centrifugal unit at the Eunice, La. compressor station went into service.

Within the past month, five new customers in southern states began taking gas from Transcontinental's line, These include Duke Power Co. at Williamston, S. C.; Piedmont Natural Gas Co.' at Greenville, S. C.; Mid-Georgia Gas Co. at Conyers, Ga.; Frederick Gas Co. at Frederick, Md. and Laurens Glass Works, Laurens, S. C.

Beginning this month, Transcontinently, actual deliveries are expenditured.

Beginning this month, Transcontinental's actual deliveries are exected to average substantially above 500,000,000 cubic feet a day.

United Gas Improvement Co.—SEC Approves Merger

United Gas improvement Co.—SEC Approves Merger The SEC on Sept. 19 approved a plan of merger and consolidation of this company and its subsidiaries, pursuant to Section 11(e) of he Public Utility Holding Company Act. The company is a holding company registered under that statute, and through its subsidiaries conducts gas utility operations in various localities in eastern Pennylvania, including Philadelphia, Allentown, Bethlehem, Reading, Harisburg and Lancaster. One of its subsidiaries, Luzerne County Gas & Electric Corp., also furnishes electric as well as gas service.

The plan of consolidation and merger is the final step in a long program to bring The United Gas Improvement Co. into compilance with the Holding Company Act. UGI is one of the oldest holding company systems in the United Staees. At the time of its registration under the Act of 1938, it controlled 39 public utility subsidiaries, which operated electric facilities in 11 States and gas facilities in five States. In addition, it had approximately 41 non-utility subsidiaries and had investments in numerous other companies. At the time of its registration, UGI had total consolidated assets of about \$828,000,000. Since its registration, the company has, through numerous divestments and plans filed under Section 11(e) of the Act, reduced its system until at the present time it has only seven utility subsidiaries, two non-utility subsidiaries, and total consolidated assets of approximately \$77,000,000.

Under the present plan of merger and consolidation, UGI will merge into itself and consolidate with all of its operating utility subsidiaries. These various subsidiaries are Allentown-Bethlehem Gas Co., Consumers Gas Co., The Harrisburg Gas Co., Lacbanon Valley Gas Co., Luceanon Valley Gas Co., Luceanon Valley Gas Co., Luceanon 100% of the common stock of all of these companies except Consumers Gas Co. and The Harrisburg Gas Co., of which it owns 63.42% and 76.54%, respectively. UGI will acquire the assets and assume the liabilities of the subsidiary companies, and all inter-company holdings will be cancelled.

sidiary companies, and all inter-company holdings will be cancelled. The subsidiaries in this system now have outstanding first mortgage bonds aggregating \$15,758,000, of which \$5,119,000 are obligations of Allentown-Bethlehem Gas Co., \$4,020,000 of The Harrisburg Gas Co., and \$6,549,000 of Luzerne County Gas & Electric Corp. Holders of bonds of these three companies will receive new first mortgage bonds of the consolidated company, such bonds having the same interest rates, interest payment dates, maturity dates, redemption prices and sinking fund provisions as the presently outstanding bonds of the subsidiaries. Of the two issues of preferred stock of subsidiary companies now outstanding, that issued by The Harrisburg Gas Co., consisting of 4,838 shares of 4½% preferred stock (par \$100) will-be redeemed at its redemption price of \$110 per share. The remaining preferred stock issue, consisting of 25,000 shares of 4½% preferred stock of Luzerne County Gas & Electric Corp. (par \$100) will be exchanged for new proferred stock of The United Gas Improvement Co., having the same par value, dividend rate, and redemption price.

exchanged for new proferred stock of The United Gas Improvement Co., having the same par value, dividend rate, and redemption price.

The public common stockholders of Consumers Gas Co. and The Harrisburg Gas Co. will receive new common stock of the consolidated company in exchange for their present stock. Under the plan, each share of publicly-held common stock of Consumers Gas Co. will be allocated eight-tenths of a share of the common stock of the consolidated company, and each share of publicly-held common stock of The Harrisburg Gas Co. will be allocated four shares of the common stock of the consolidated company. Each holder of the outstanding common stock of the consolidated company for each share of new common stock of the consolidated company for each share of stock presently held. Of the new common stock to be issues by the consolidated company, 1,230,740 shares (91,56%) will be issued in exchange for the presently outstanding common stock of The United Gas Improvement Co., 64,630 shares (4.81%) will be issued in exchange for the publicly-held common stock of Consumers Gas Co., and 48,832 shares (3.63%) will be issued in exchange for the publicly-held common stock of Consumers Gas Co., and 48,832 shares (3.63%) will be issued in exchange for the publicly-held common stock of The Harrisburg Gas Co.

Under the plan, UGI proposes to dispose of its holdings of securities of Central-Illinois Light Co., Consumers Power Co., Delaware Power & Light Co., Niegara-Mohawk Power Corp., Philadelphia Electric Co., and Public Service Electric & Gas Co. within one year from the date of the merger. These holdings are minority interests ranging in amounts from 0.14% to 3.49% of the amounts outstanding in each case. Under a previous order of the Commission, the company is required to dispose of these miscellaneous investments and the Commission's order approving the plan has extended the period for such disposition until June 15, 1953. The Commission the company is reconsing some of the semiconic of the Commission, under

The company has applied to the Commission, under Section 5(d) of the Act, for an order declaring that after consummation of the plan the company shall have ceased to be a holding company, and that its registration under the Holding Company Act shall have ceased to be in effect. In approving the plan, the Commission reserved jurisdiction to consider the entry of such an order at such time as the plan may have been consummated, subject to such terms and conditions, if any, as the Commission might then find necessary.

The merger and consolidation provisions of the plan are by their terms subject to the approval of a United States District Court, pursuant to the provisions of Section 11(e) and 18(f) of the Holding Company Act. The Commission proposes to apply to such a court for an order approving the plan and enforcing and carrying out its provisions in accordance with the statute. Under its terms and under the terms of the Commission's order, the plan will not become effective, as to the merger and consolidation provisions until after such court approval.

Merger Approved by Board of Directors-

The directors on Sept. 23 approved the merger into this company all of its utility subsidiaries, namely: Allentown-Bethlehem Gas o.; Copsumers Gas Co. (Reading, Fa.); The Harrisburg Gas Co.; ancaster County Gas Co.; Lebanon Valley Gas Co.; Luzerne County as & Electric Corp.; and The Philadelphia Gas Works Co.

A special meeting of United's stockholders has been called for Nov. 10, 1952, to take action on the merger.

The SEC on Sept. 18, 1952, approved the merger, and on Sept. 22, 1952, the U.S. District Court for the Eastern District of Pennsylvania fixed Nov. 12, 1952, as the time for hearing on the application of the SEC to enforce and carry out the merger.

It is planned to have the merger become effective Dec. 31, 1952.

United Public Service Corp.—Plan Approved-

The SEC on Sept. 23 announced its approval of a plan filed by this corporation for its liquidation and dissolution and the distribution to its stockholders of all of its assets.

The SEC on Sept. 23 announced its approval of a plan filed by this corporation for its liquidation and dissolution and the distribution to its stockholders of all of its assets.

The plan is designed to effectuate compliance with Section 11 (b) of the Holding Company Act and provides, in substance, for (a) an initial cash distribution to the holders of the UPS's common stock, (b) a final cash distribution, if funds are available after payment of liabilities, after the expiration of five years from the effective date of the plan, and (c) the dissolution of UPS.

At the time of its registration in 1936, UPS, a subsidiary of Middle West Corp. (a registered holding company now in the process of liquidation), had investments in United Public Utilities Corp., also a registered holding company, Kentucky Power & Light Co., Southern United Ice Co., and Southern United Gas Co. At Dec. 31, 1936, its balance sheet showed consolidated assets of \$3,736,000. Since 1942 it has been engaged in a program of liquidation. In 1942, following the sale of Kentucky Power, it distributed \$1,223,976 or \$4 per share as a liquidating dividend on its 305,992 shares of outstanding common stock. Subsequently, it sold all of its remaining portfolio securities except its interest of approximately 40% of UPD, which is in the process of liquidation; and the proceeds from these sales, together with certain treasury cash, were distributed by UPS to its stockholders in 1943 as a liquidating dividend of 80 cents per share, or \$244,795. In 1948, a further liquidating dividend of \$1,331,055, or \$4.35 per share, was made, representing liquidating dividends from UPU. Thus, liquidating payments of \$2,799,836, or \$9.15 per share have been paid.

Consummation of the plan approved by the SEC is subject to approval by an appropriate U. S. District Court. The plan proposes that the District Court shall fix a date for the filling of verified proofs of claims against the company. On or after that date, the company are filed on or before the claim date, the dist

United States Plywood Corp.—New Product—

A new type of weather-resistant and maintenance-free modular panel of aluminum-covered plywood, known as "Armorply," has been used in the construction of the buildings at Thule Air Base, Greenland.

The 15.000,000 feet of Armorply used in this project was manufactured by this corporation and shipped within the required three months.

The Clements Panel Co., of Bethel, Conn., fabricated the Armorply construction units.—V. 176, p. 961.

United States Radiator Corp.—Plans Expansion—

The directors have under consideration "constructive plans for expansion into the manufacture and distribution of products allied with our present lines, and into other profitable fields," according to its semi-annual report to stockholders.

The report shows sales for the six months ended July 31, 1952, the first half of its fiscal year, amounted to \$10,487,000, which was "substantially ahead of the first half of the comany's all-time record year in sales, 1950. Sales in the first half of 1951 were \$12,055,000. The abnormally high first half last year and an abnormally low second half were due to credit restrictions on building imposed by Regulation X."

Net profits after taxes for the first six months of the 1952 fiscally year were \$12,283, compared with \$302,725 in the same period last year and \$40,359 in the like period of 1950. The report signed by W. C. McCord, President, and Roland P. Place, Chairman, said:

"The second half is traditionally the period of greatest volume and profits for the heating equipment industry. Now that Regulation X has been abolished, additional stimulation can be expected in the demand for our products for new homes. Barring unforeseen contingencies, and assuming an uninterrupted flow of steel and pig iren to our plants, earnings in the fiscal year ending Jan. 31, 1953, should prove to be satisfactory."—V. 175, p. 2698.

Upjohn Co., Kalamazoo, Mich.-New President. Etc.-

The resignation of Dr. L. N. Upjohn as Chairman of the Board was accepted on Sept. 23 by the board. Donald S. Gilmore, President, was elected Chairman of the Board and Managing Director to succeed him. Dr. E. G. Upjohn, an Executive Vice-President, was elected President. The Uris brothers are now constructing a 25-story fully air conditioned office building on this land which has an area of approximately 40,000 square feet.—V. 171, p. 1998.

Valentine Oil Co., Inc., Omaha, Neb.—Registers With Securities and Exchange Commission—

Securities and Exchange Commission—

The company filed a registration statement with the SEC on Sept. 23, 1952, covering 75,000 shares of its common stock, to be offered for public sale at \$2 per share. No underwriting is involved, the stock to be sold through company officials who will receive no-compensation for selling but will be reimbursed for actual expenses in connection therewith.

The company was organized in December, 1950. Its principal business is that of acquiring "potential oil and gas leases, the drilling of wells for gas and/or-oil and such other business as is called for by the articles of incorporation. ..." According to the prospectus, the company has acquired several thousand acres of "potential oil land." Two wells have been started, "neither of which have at the date of this registration statement been completed." The leased properties are in Sheridan County and Dawes County, Nebraska. Proceeds of the stock sale are to be used for the payment of drilling expenses, lease rentals, salaries, traveling expenses, field work, purchase of supplies and tools and for miscellaneous expenses, including the living expense of the President, Chauncey M. Valentine, of Chadron, Neb.

The company on Sept. 17 filed a registration statement with the SEC covering \$20,000,000 of first and refunding mortgage bonds, series J, due Oct. 1, 1982, to be offered for public sale at competitive bidding.

series J, due Oct. 1, 1982, to be offered for public sale at competitive bidding.

Net proceeds of the financing will be used to provide for construction expenditures or to reimburse the company's treasury therefor. Construction expenditures are estimated at \$50,000,000 (\$27,200,000 expended through July 31): and, although construction plans for 1953 are not yet complete, the present expectation is for expenditures in 1953 of \$42,000,000 or more. This estimate is apart from the proposed 91,000 kw. hydro plant on the Roanoke River near Roanoke Rapids, N. C. An FPC license to construct this plant has been appealed by the Secretary of the Interior and is now pending before the U. S. Supreme Court. In the event of a decision favorable to the company, 1953 construction expenditures may be increased by \$5,000,000. The total cost thereof is estimated at \$27,000,000. In addition, the company has applied to the FPC for a license permitting construction of an 37,000 kw. hydro plant on the Roanoke River at Gaston, N. C. (also estimated to cost \$27,000,000).—V. 176, p. 1064

(J.) Weingarten, Inc.-Preferred Exchange Offer-

The corporation on Sept. 19 announced a proposal to exchange new 5% preferred stock for its 4½% preferred stock, series of 1945, on a share-for-share basis.

The transaction is subject to approval of the stockholders and Texas State officials. It will cost the company \$11,000 in additional dividends to about 600 stockholders, Abe Weingarten, President, said. "We want to point out that no officer or major stockholder has any substantial part of this stock," Mr. Weingarten emphasized. "And we offer the exchange with no other purpose in mind than that of giving these stockholders a better return on their investment. It is not being done with any idea of attracting new stockholders, for we have nothing in mind at this time about issuing any other stock or class of stock."

ne 1945 series was issued for expansion and general corporate coses. There are 43,000 shares outstanding, with a par value of

\$50 per share. Stockholders are being given about 75 days to send their stock to the National Bank of Commerce, Houston, Tex., which will hold it, pending formal approval by state fiscal authorities.

The common stockholders authorized the board of directors to work out the plan at a meeting last month. Their approval will again be necessary at a later date.

Accruing from Nov. 16, the first quarterly dividend which would include the new amount is payable on Feb. 15, 1953.—V.170, p. 833; V. 173, p. 2542, and V. 174, p. 279.

Western Union Telegraph Co.-Pioneers in New Field

Western Union Telegraph Co.—Pioneers in New Field
The company announced on Sept. 22 it is pioneering in a new field
of communications by leasing private facsimile systems for use within
customers' organizations.
The new system, called Intrafax, speeds transmission of intra-company communications in picture form. It was publicly exhibited for
the first time on Sept. 28 at the opening of the American Bankers
Association in Atlantic City.
Letters, orders, requisitions, drawings—all kinds of documents—are
transmitted by Intrafax at lightning speed and reproduced in exact
facsimile at destination. It provides swift "picture" communication
between various floors or departments of a company, from one building
to another, or between headquarters and nearby branch offices.
Teledeltos, a dry, electro-sensitive recording paper developed by
Western Union engineers, is used by Intrafax." As a result, no processing of material either before or after transmission is necessary. This
steps up operating speed and permits immediate use of material.—

The company filed a registration statement with the SEC on Sept. 18, 1952, covering 100,000 shares of "1952 cumulative preferred stock (\$25 par value) convertible on or prior to Nov. 15, 1962—3% sinking fund thereafter)." The stock is to be offered for public sale through an underwriting group headed by Merrill Lynch, Pierce, Fenner & Beane. The public offering price and underwriting terms are to be supplied by amendment, as are the interest and conversion rates.

are to be supplied by all and the new preferred, the company will call for redemption at \$26.50 per share, all of the outstanding shares of its 5% convertible preferred stock. The total amount of such shares to be redeemed will depend upon the amount of conversions into common stock prior to their redemption. There were outstanding 30,907 shares on Dec. 31, 1951, and 26,472 shares on June 30, 1952.

The balance of the net proceeds from the sale of the new preferred will be added to the working capital cf the company. Approximately \$1,500,000 will be used to reduce in part short-term bank loans which aggregated \$3,000,000 on Aug. 31, 1952.—V. 176, p. 728.

Willys-Overland Motors, Inc.-Undertaking Big Aircraft Parts Program-

Willys-Overland Motors, Inc.—Undertaking Big Aircraft Parts Program—

With its automotive production already in high gear, this corporation has undertaken an airplane-parts program that is aimed at establishing Willys-Overland, as an important supplier to the aircraft industry. Ward M. Canaday, President, announced on Sept. 20.

In a detailed report, he said that several of the company's manufacturing divisions are now heavily engaged in aircraft work, with landing gears, jet engine components, electronic equipment and aluminum forgings among the precision-made products being turned out. He said that the Landing Gear Division, housed in a newly equipped \$10,000,000 plant in Toledo, is building landing gears for the Fairchild C-119 (the "Flying Boxcar") and the Beech T-36, while the company's Aluminum Forge Division at Erie, Pa. is now devoted almost entirely to aircraft forgings for Boeing, Glenn L. Martin, and General Motors. The Erie plant, said Mr. Canaday, is the third largest of its kind in the country.

At Anderson, Ind., Willy's aircraft engine division is in volume production on the principal component sasemblies for General Electric's J-47, described by Mr. Canaday as "the firsts all-weather axial-flow turbojet engine."

He said that the research, development and production of aircraft controls has become a major activity of the Electronics Division in Toledo, where the Drop Forge Division, in addition to its large-scale automotive work, is producing rim forgings for jet engines.

Mr. Canaday made it plain that the company's first interest remains the manufacture of motor vehicles, and he described the expansion along aircraft lines as a logical program to keep Willys-Overland's usefulness to the country in balance with the nation's expanding military requirements and to make constantly available to company's engineers the applications of advanced principles of aircraft design.—V. 176, p. 728.

Wilson Organic Chemicals, Inc. (N. J.)—Stock Offered—Graham, Ross & Co. Inc. on Sept. 24 offered publicly an issue of 150,000 shares of common stock (par \$1) at \$2 per share.

PROCEEDS—The net proceeds are to be used to purchase new quipment necessary for expansion, for research and development osts, and for working capital.

BUSINESS—The corporation, organized in New Jersey, is engaged primarily in the production of vat dyes and dye inermediates. It also produces agricultural chemicals, pharmaceutical intermediates and other chemical products. The company owns a plant at Sayreville, N. J., located on leased premises.—V. 176, p. 1064.

Wisconsin Central Airlines, Inc.—Expansion—

Arthur E. A. Mueller, Chairman of the Board, on Sept. 19 and nounced the execution of an agreement of the purchase by this corporation of the Weesner controlling interest in Lake Central Airlines. The agreement included the sale to Wisconsin Central Airlines of all of Nationwide Airlines rights in its application for service between Detroit, Lansing and the Upper Peninsula of Michigan. The price paid was not disclosed.

Mr. Mueller said that Lake Central Airlines owned and operated five DC-3 aircraft and one C-46 aircraft converted for use in military charter. The routes of Lake Central radiate out of Indianapolis, Ind., to Louisville, Ky.; Cincinnati, O.; Grand Rapids, Mich.; and Chicago, Ill.

Mr. Mueller commented that the addition of 2,500 daily scheduled miles of Lake Central to Wisconsin Central's 11,000 daily scheduled miles will give Wisconsin Central one of the largest local service airlines in America.

The purchase of Lake Central Airlines connects Wisconsin Central's system with Lafayette Ind., the home of Purdue University with whom Wisconsin Central recently entered a \$1,000,000 equipment purchase contract. The sale permits a close integration of the decal transportation system. In contiguous Midwest areas—which should result-in-savings to the government and better service to the public. The agreement is subject to the approval of the stockholders and board of directors of the company and the Civil Aeronautics Board — V. 176, p. 899.

THE COURSE OF BANK CLEARINGS

Bank clearings this week will show an increase compared with a year ago. Pre-Jiminary figures compiled by us based upon telegraphic advices from the chief cities of the country, indicate that for the week ended Saturday, Sept. 27, clearings for all cities of the United States for which it is possible to obtain weekly clearings will be 0.1% above those of the corresponding week last year. Our preliminary total stands at \$17,501,721,980 against \$17,483,202,314 for the same week in 1951. At this center there is a gain for the week ending Friday of 0.2%. Our comparative summary for the week follows:

Complete and exact details for the week covered by the foregoing will appear our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday and the Saturday figures are not available at time of going to press. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results of the previous week-the week ended Sept. 20. For that week there was an increase of 6.0%, the aggregate of clearings for the whole country having amounted to \$20,419,884,315 against \$19,271,486,670 in the same week in 1951. Outside of this city there was a gain of 3.6%, the bank clearings at this center showing an increase of 8.4%. We group the cities according to the Federal Reserve Districts in which they are located and from this we note that in the New York District (including this city) the totals record an improvement of 8.4%, in the Boston Reserve District of 2.1% and in the Philadelphia Reserve District of 5.5%. In the Richmond Reserve District the totals are smaller by 5.4%, but in the Cleveland Reserve District the totals are larger by 1.1% and in the Atlanta Reserve District by 10.5%. The Chicago Reserve District has to its credit an increase of 7.0%, the St. Louis Reserve District of 6.9%, and the Minneapolis Reserve District of 2.3%. In the Kansas City Reserve District the totals suffer a loss of 4.5%, but in the Dallas Reserve District the totals show a gain of 7.6% and in the San Francisco Reserve District of 1.8%.

In the following we furnish a summary by Federal Reserve Districts
