RAILROAD - PUBLIC UTILITY - INDUSTRIAL - INSURANCE - MISCELLANEOUS

Admiral Corp.-Adds to 1955 Line-

Three new high fidelity Admiral phonographs featuring a turnover cartridge with separate jeweled LP and 78 RPM needles, and a three-speed portable phonograph that automatically sets itself for record size, highlight the company's 1955 line. Also featured are a five tube table model radio with a prewar price of \$14.95 and a new clock radio priced at \$24.95.

The world's largest 21-inch picture tube, which provides a 20% larger picture yet permits the use of a three-inch shorter cabinet than heretofore, highlights the 22 models in the 1955 Admiral television line. Also featured is the extensive use of printed circuits in a new TV chasis—the first ever built around printed circuits.—V. 179, p. 2469.

Air Express International Corp., N. Y .- Files With Securities and Exchange Commission-

The corporation on June 2 filed a letter of notification with the SEC covering 2,000 shares of common stock (par 50 cents) to be issued upon the exercise of warrants at 50 cents per share. The proceeds are to go to two selling stockholders.—V. 179, p. 1829.

Allegheny Ludlum Steel Corp.—Expands Plant-

This corporation has completed an expansion and improvement program at its Carmet Division plant in Ferndale, Mich., a Detroit suburb, according to C. B. Pollock, Vice-President in charge of production. The new facilities make the company an integrated prime producer of cemented carbides for tool and die applications.

Floor space at the plant has been increased by 100% and the company for the first time is now manufacturing all its carbide powder in its own modern plant. In addition to the construction of the powder plant, the total capacity of the division has been increased by 50%.—V. 179, pp. 1261 and 2137.

Allied Products Corp.—Expands—

This corporation is in process of building a new home for its Hercules Punch Division, it was announced on June 9.

The initial modern factory and office building comprising 32,000 square feet will be located on 14 acres of land a short distance northwest of the Detroit City limits. The Austin Company, builder, has set the early part of September as the date of completion.—V. 179,

- Debentures Offered-Aluminum Co. of America -Public offering of \$100,000,000 of 3% sinking fund debentures due June 1, 1979 was made on June 9 by a nationwide group of 177 investment banking firms headed by The First Boston Corp. at 100% and accrued interest. This offering was oversubscribed and the books

The debentures have a sinking fund, beginning in 1956, which will retire at least 95% of the issue prior to maturity. The debentures are redeemable for general purposes at prices ranging from 103 if redeemed on or prior to June 1, 1955 to par after June 1, 1976 and for sinking fund purposes at par.

on or prior to June 1, 1955 to par after June 1, 1976 and for sinking fund purposes at par.

In early 1952, Alcoa financed its prospective capital expenditures of \$410,000,000 through public sale of \$125,000,000 of 3% debentures due 1964 and issuance of \$100,000,000 of 3% serial bank loans due to 1956. The management subsequently deemed it advisable to add new projects totaling \$50,000,000 and to raise additional funds for working capital and other corporate purposes. To date the augmented program has been financed with \$75,000,000 of short-term bank loans, which will be repaid with part of the proceeds of the proposed sale of \$100,000,000 of debentures due 1979.

Chief items included in the expansion program begun in 1951 are new smelting plants at Wenatchee, Wash, and Rockdale, Tex; expansion of smelting facilities at the existing Point Comfort, Tex, plant; a new alumina plant at Bauxite, Ark; expansion of existing alumina facilities at Mobile, Ala; a new fabricating plant at Lancaster, Pa, for aluminum rivets, nails, fasteners and screw machine products; a new plant at Bauxite, Ark, for production of chemical products from alumina; and expansion of fabricating facilities at Vancouver, Wash.

Now in its final stages, this expansion program is currently scheduled

Now in its final stages, this expansion program is currently scheduled or completion in 1955.

Expansion of the company's facilities since 1950, a substantial portion of which has been done under contract with the government, has resulted in an increase in Alcoa's annual primary aluminum production from 353,500 tons in 1950 to 611,000 tons in 1953. During the same period, the company's consolidated sales rose from \$476,248,000 to \$707,538,000. Net income for the respective years increased from \$46,856,000 to \$48,848,000.

B46,856,000 to \$48,848,000.

BUSINESS—Alcoa, the largest of the three domestic producers accounted for nearly 49% of U. S. output of primary aluminum in 1953, including production from temporarily reactivated facilities using high cost power. Other than government business, sales of aluminum fabricated products used in such industries as transportation, construction, electrical, appliance and machinery, account for a major portion of the company's total volume.

American Can Co.-Sees Big Potential for 'Pop' Cans American Can Co.—Sees Big Potential for 'Pop' Cans A potential market for canned soft drinks possibly "double that of the current canned beer business," was foreseen on May 25 by William C. Stolk, President, in announcing this company now is commercially producing a specially designed flat-top can for carbonated beverages.

"It is still too early to make any firm predictions," Mr. Stolk said, "but if the consumer acceptance trends that have marked the success of the beer can are paralleled in the soft drink business then the volume of cans sold may eventually be twice that of the present beer can volume. This would mean between 12 and 13 billion soft drink cans a year."

Initial production of the new can now is under way at the company's

Initial production of the new can now is under way at the company's Hudson plant in Jersey City, N. J., Mr. Stolk said. He added that additional manufacturing lines are planned for installation at other

additional manufacturing lines are personal distributions.

Although cans have been developed for a number of types of soft drinks, initial use of the new container was made in a marketing test in Rochester and Syracuse conducted by the Hoffman Beverage Co. The Pabst Brewing Co. subsidiary has just recently introduced its new product, Tap-a-Cola, in the New York metropolitan market,

Baldwin-Lima-Hamilton Corp.—Reacquires Its Stock This corporation has arranged to reacquire 515,000 shares of its own common stock by purchase from Westinghouse Electric Corp. for \$4635,000, or \$9 per share, a joint announcement by the two companies said on May 27.

The Westinghouse holdings represented the largest block of Baldwin-Lima-Hamilton, or 1034% of all common stock.

Gwllym A. Price, President of Westinghouse Electric Corp., said the action was agreed to by the two companies after Westinghouse decided to withdraw from the manufacture of heavy electrical equipment for railroads. He stated that the company now can provide needed space for the manufacture of basic apparatus lines without extensive additional construction at the East Pittsburgh, Pa., plant. George A. Rentschler, Chairman of Baldwin-Lima-Hamilton, said the stock will revert to the corporation's treasury. As a result, he said, the shareholders' equity of each outstanding share will show an improvement of about \$1.80 per share.

Future needs of Baldwin-Lima-Hamilton in the field of heavy electrical equipment for transportation will be supplied by General Electric Co., Mr. Rentschler said.—V. 179, p. 1718.

Capital Flotations in the United States in February And for the Two Months of Calendar Year 1954

Total corporate financing in February totaled \$329,-997,217 as against the higher figure of \$486,689,232 in January, last, and the much greater sum of \$666,467,810 in February of 1953.

in February of 1953.

Of the total offerings placed during February of this year, \$314,624,478, or \$5.34%, represented funds to be used for new capital purposes, while \$15,372,739, or only 4.66%, was raised for refunding operations. This pattern is consistent with a trend that has obtained for a long

Long-term bond and note financing in February of this year amounted to \$260,549,200, or 78.95%, of the total dollar volume for that month, while short-term bond and note issues added up to the very small sum of \$500,-

and note issues added up to the very small sum of \$500,-000, or 0.16%.

Stock placements during February aggregated \$68,-948,017, or 20.89%, of the total dollar volume for that month. A breakdown of the stock total reveals that 43 common stock issues comprised \$44,778,679, or 13.57%, of the month's aggregate figure, while preferred offerings totaled 12 in number and amounted to \$24,169,338, or 7.32%.

or 7.32%.
Compared with February of 1953, the current period's total dollar volume for stocks was close to one-half that of the like month a year ago; the February total for 1953 standing at \$135,257,810.
Delving into the figures for the various categories given each month in our 5-year table, it is noted that

public utility issues, as is customary, led the list for February, last, amounting to \$223,141,695, or 67.62%, of the over-all dollar volume. Next came miscellaneous financing, which totaled \$36,552,500, or 11.08%; railroads, \$30,-225,000, or 9.16%; other industrial and manufacturing, \$26,425,030, or 8.01%; oil, \$10,663,702, or 3.23%; iron, steel, coal, copper, etc., \$1,406,600 or 0.43%; land, building, etc., \$1,109,466, or 0.34%, and shipping (\$173,224) and investment trusts (\$300,000), both together totaling \$473,224, or 0.14%, of February's grand total.

Private placements in February, last, comprised \$91,-87,500 made up of 23 issues and equalled 27.84% of the month's gross dollar volume. It compared with January's total of \$97,546,521, or 20.04%, of the over-all volume. For February of last year, private issues aggregated \$238,700,000, or 35.82%, of that month's total volume.

volume.

Offerings of substantial dollar volume placed in February were represented by the \$60,000,000 issue of the Pacific Gas & Electric Co.'s 31/8% first and refunding mortgage bonds, series W, due Dec. 1, 1984; the \$42,850,-200 emission of 31/4% 15-year convertible debentures, due Feb. 1, 1969 of the Detroit Edison Co. and the \$24,-000,000 offering of 41/8% first mortgage pipe line bonds, due Dec. 15, 1968 of the El Paso Natural Gas Co.

Municipal financing in February amounted to \$399,-836,510 and contrasted only slightly with that for January at \$397,556,630. The current month new capital placements totaled \$397,942,807, while refunding issues constituted the small sum of \$1,393,703. The latter figure fell short of January's total of \$4,139,700. A comparison of February's figures for one year ago with the current month reveals that the former was about \$33,000,000 under February, 1954's grand total and stood at only \$367,400,365.

There were three offerings by United States Possestions 194,200.

\$367,400,365.

There were three offerings by United States Possessions placed in February, all representing new capital and included the \$3,000,000 issue of Fairbanks, Alaska, 43% utility revenue bonds, the \$225,000 offering of Nome, Alaska, electric system revenue bonds, and the \$10,000,000 placement of the Commonwealth of Puerto Rico, 4%, 24%, 2.40% and 2½% public improvement bonds.

No Canadian issues were placed here in the domestic market insofar as we were able to determine.

General Corporation and Investment News

(Continued from page 2)

Chrysler Corp.—To Dedicate Proving Grounds—

The corporation's 4,000-acre proving grounds near Chelsea, Mich will be dedicated on June 16. This will be the automotive industry newest and largest car and truck testing facilities.—V. 179, p. 2470.

Cincinnati Gas & Electric Co.—Registers With SEC-

The company on June 7 filed a registration statement with the SEC covering 99,950 shares of its \$8.50 par common stock, to be offered for sale to officers and employees of the company and its subsidiaries at \$16.00 per share.—V. 179, p. 2246.

Clark Oil & Refining Corp.—Completes Offerings-

The initial public stock offering of this corporation has been sold out, I. H. Dawes, Vice-President and General Counsel, said on June 2. The company sold 50,000 shares of a new issue of \$20 par convertible. The company sold 50,000 shares of a new issue of \$20 par convertible. The company sold 50,000 shares of a new issue of \$20 par convertible. The company sold 50,000 shares of \$1 par common stock. The offering price on the common was \$3.25 a share. A group of investment bankers headed by Loewi & Co. of Milwaukee, Wis., underwrote both issues. See details in V. 179, p. 2367.

Cold Cash Credit Co., Phoenix, Ariz.-Files-

The company on June 1 filed a letter of notification with the SEC covering 150,000 shares of common stock (par \$1) to be offered at \$2 per share, without underwriting. The proceeds are to be used to pay expenses incident to small loan business.

Columbia Gas System, Inc.—Registers With SEC-

Columbia Gas System, Inc.—Registers With SEC—This corporation filed a registration statement with the SEC covering \$40,000,000 of debentures, series D due 1979, to be offered for public sale at competitive bidding. Net proceeds are to be added to the general funds of the company and, together with funds available at the beginning of 1954, cash to be generated from operations during 1954 and the net proceeds from the recent sale of \$50,000.000 of subordinated debentures, will be available for part of the 1954 construction program. In order to complete the 1954 construction program of the Columbia Gas System and provide funds to repay, on or before Sept. 30, 1954, its \$25,000,000 of presently outstanding construction bank loans, it will be necessary for the company to raise approximately \$40,000,000 through additional financing—and it is the present intention of the company to raise the necessary funds later in 1954 through the sale of additional debentures, bank borrowings, or some combination thereof.

In addition to the above-described financing, the company plans

In addition to the above-described financing, the company plans to borrow approximately \$35,090,000 from commercial banks during 1954 to finance the cost of gas purchased and stored for current inventory purposes, to be repaid early in 1955 as the gas is withdrawn from storage and sold. 1954 construction expenditures are estimated at \$105,000,000.

The corporation has also illed an application with the SEC under the Holding Company Act for authorization to issue the \$40,000,000 of debentures series D, due 1979, as set forth above; and the Commission has given interested persons until June 21, 1954, to request a hearing thereon.—V. 179, p. 2471.

Henry G. Riter, 3rd, President, said:

Henry G. Riter, 3rd. President, said:

"It is expected that earnings for the second quarter will be somewhat lower than those of the first. This is due in part to a ten-day general strike at the company's West Orange plant during early April, as well as to the general leveling off in business activity which most of the Divisions of the company have felt. In light of this situation, the management is placing emphasis on increasing sales efforts and streamlining internal operations in order to lower costs. Several new and improved products are being put on the market and are expected to benefit earnings later in the year. While the over-all economic picture is not clear for the immediate future, your management continues optimistic as to the longer term growth potential of the businesses of the company."—V. 179, p. 2471.

General Acceptance Corp.—Earnings to Improve-

The corporation's business in April and May has been "very satis-ctory," F. R. Wills, President, reported to the stockholders on

June 2.

"All three phases of our business—sales financing, instalment loans and insurance—show improvements over the same months of 1953, and this is being reflected in increased earnings. Should this trend continue during June, there is reason to believe that net income after taxes for the six months ending June 30, 1954 will show a pronounced gain over the first half of 1953."

Commenting on the outlook for the remainder of the year, Mr. Wills stated, "It appears very possible that General Acceptance will achieve a record high in 1954 with earnings exceeding \$1,000,000 for the third consecutive year."—V. 179, p. 2472.

General Public Utilities Corp.—Stock Subscriptions—
Of the 606,423 shares of common stock recently offered to common stockholders, approximately 495,000 shares were subscribed for, pursuant to the exercise of warrants, for an aggregate subscription price of approximately \$11,423 shares unsold at June 7. The approximate aggregate net amount paid by GPU for rights purchased during the subscription period, and in connection with adjustments with New York Stock Exchange member firms and others, and as cash equivalent payments to holders of less than 15 shares, was \$265,000. The amount of feep payable to participating dealers in connection with the obtaining of subscriptions had not been determined at the date of this Supplement.

The "rounding out" stage of the offering will begin about June 21, 1954 and end about July 6, 1954.—V. 179, p. 2472.

Glass Fibers, Inc.—Debentures Sold—The \$3,000,000 of 5½% convertible sinking fund subordinated debentures, due June 1, 1969, which were publicly offered on June 3 by McCormick & Co. and associates at 100% and accrued interest were quickly sold. See details in V. 179, p. 2472.

Glens Falls Insurance Co. (N. Y.)-Files With SEC-

The company on May 28 filed a letter of notification with the SEC covering an unspecified number of shares of capital stock (par \$5) to be offered to employees under the companys Stock Purchase Plan at the market (to an aggregate amount not exceeding \$300,000).—V. 167, p. 2361.

Glenview Metal Products Co.-To Test Helicopter-

The company on June 4 announced that it has commenced flight testing of its "Flyride" Helicopter for C.A.A. Certification.—V. 179, p. 924.

(B. F.) Goodrich Co.-New Development-

A revolutionary approach on the rapid forming of rigid vinyl plastic products by using conventional metal stamping equipment was demonstrated for the first time on June 7 by B. F. Goodrich Chemical Co. at the sixth National Plastics Exposition.

Metalworking companies will now be able to diversify their operations and move into the fabulous plastics field with little capital outlay. Heretofore, special, expensive injection modding machines and slow hand-operated draw-forming or blow-forming presses were needed to process the rigid vinyl plastic. By using the new BFG Chemical Co., method, a fast conveyor belt process takes the plastic sheet from a pre-heat oven through to the conventional metal stamping press which forms the finished shape, which depends on the type of die design. No additional finishing operations, such as painting, are necessary to complete the end-product.—V. 179, p. 2370.

Gould-National Batteries, Inc.—To Expand Canadian

Battery Plant—
This corporation has purchased the Fort Erie, Ontario, Canada, industrial battery property now occupied under lease, and soon will begin an expansion program which will double the plant's capacity.

Albert H. Daggett, President, said about five acres of land was acquired in the transaction.

The expansion provides for an addition to the present building as well as new machinery and equipment. The plant will continue to manufacture industrial batteries used for railroad car lighting, telephone equipment, aircraft, etc., for the growing Canadian market, Mr. Daggett said.

The company now has 22 plants producing automotive and industrial batteries and battery containers in the United States and Canada. Besides the one in Fort Erie, the company has two others in Canada. Exingston, Ontario, and Calgary, Alberta. Construction is now underway on an automotive battery plant at Houston, Texas, and a site has been acquired at Antioch, California, where a new production facility is under consideration.—V. 179, p. 2141.

Grand Mesa Uranium Co.-Stock Offered-Greenfield & Co., Inc., New York, on June 9 offered publicly 1,100,000 shares of common stock (par 10 cents) at 25 cents per share "as a speculation."

The net proceeds are to be used to pay for expenses incident to mining activities.

The company is engaged in the business of exploration and development of uranium properties which it now owns or may in the future acquire. The corporation has acquired 126 contiguous unpatented mining claim locations in Mesa County, Col., and 13 unpatented non-contiguous mining claims in Grand County, Utah. The company was organized in Nevada on March 29, 1954, with its principal office at Felt Building, Salt Lake City, Utah.

Great American Industries, Inc.-New Directors-

Great American Industries, Inc.—New Directors—
Robert T. Duniap, President, announced on June 4 the election of the following people to the board of directors Albert C. McMenimen, Financial Vice President and Treasurer of the Boston Edison Co.; Harry H. Kerr, former President of the Boston Gear Works, Inc., and of the National Metal Trades Association; and C. Charles Marrin, President of the Spencer Shoe Corp., all of Boston, Mass.

Each of the new directors was a candidate of the stockholders' protective committee, whose slate of directors was defeated by the management slate at the company's recent annual stockholders' meeting in Dover, Delaware, by a vote of 662,217 to 413,437.

The three new directors were elected following the settlement of all pending litigation growing out of the proxy contest, in order to achieve harmony and to secure broader stockholder representation on the board.

The directors have declared a dividend of 10 cents per share, payable 5 cents on July 15 to stockholders of record June 30, 1954, and 5 cents on Oct. 15 to stockholders of record Sept. 30, 1954.—V. 179, p. 1048.

Gulf Oil Corp.—Starts Production at New Iso-Octyl Alcohol Plant-

Alcohol Plant—

This corporation now is producing iso-octyl alcohol from a new plant at Port Arthur, Texas, and has begun shipping tank cars of the product, it was announced on June 9. This marks the company's initial move into the general organic chemical market.

The new plant has a capacity of about 9,000,000 pounds per year of iso-octyl alcohol and can be adapted to produce other alcohols. It makes available to the chemical industry a new source of iso-octyl alcohol, which is rapidly becoming an important industrial chemical in the U. S.—V. 179, p. 2370.

Gulf States Utilities Co.—Offerings Delayed-

The company on June 3 announced it has postponed its proposed sale of \$24,000,000 in bonds and \$16,000,000 of preierred stock, which had been tentatively set for June 15.

Roy S. Nelson, President, said this step was taken "because of market conditions."—V. 179, p. 2248.

(W. F.) Hall Printing Co.—Earnings Fall Off-

(W. F.) Hall Printing Co.—Earnings Fall Off—
The company and its subsidiaries for the year ended March 31, 1954 reported net income after all charges, of \$2,331,279, equivalent to \$2.33 per share of outstanding stock as compared with \$2.51 per share for the previous year. While production and sales for the year again increased to a new all-time high record in volume, wage rates, taxes and nearly all other operating costs and expenses continued to advance.

The consolidated balance sheet shows the company continues to be in sound financial condition. Total current assets as at March 31, 1954, were \$15,293,845, against total current and accrued liabilities of \$5,700,180, with a resultant ratio of 2.68 to 1. Total net current assets were \$9,593,665. The cash and marketable securities alone, exceeded the total current liabilities. Net worth was \$24,282,973 at March 31, 1954, and the book value of the commonstock based on the 1,000,000 shares outstanding, increased to \$24.28 per share.—V. 174, p. 365.

Haloid Co. — Private Placement — Joseph C. Wilson, President, on June 8 announced that the company had borrowed \$3,000,000 from Massachusetts Mutual Life Insurance Co. The 20-year loan, which will mature June 1, 1974, bears 35% interest and was arranged through The First Boston Corp., New York.

Mr. Wilson said the proceeds will be used to pay bank loans, to purchase land, buildings and equipment for making xerographic products and to increase working capital.—V. 176, p. 1265.

Harnischfeger Corp.—New Development—

An important new development in arc welders is announced by this corporation's welding division. The P&H model DA-200 in a single machine provides both AC and DC welding. A flip of the switch gives the desired welding current. It's possible to change from one current to the other while welding to take advantage of the characteristics best suited for the work.

Now in volume production, this new P&H Welder has an AC welding service range of from 7 to 275 amperes and 7 to 200 amperes DC. It operates on 220/440 volt, 50/60 cycle current, single phase. It is equipped with P&H Dial-lectric control which provides instantaneous heat selection. For remote control, the radio-type dial may be taken to the work. There are no moving parts in the machine.—V. 177, p. 2569.

Hoffman Radio Corp.—Negotiating Loan From Insur-

ance Firms—
This corporation is negotiating with Metropolitan Life Insurance Co. for a 15-year \$2,500,000 loan repayable in equal annual instalments at 4% historest, H. L. Hoffman, President, recently amounted. The more than \$4 million proceeds from this source and from the sale of 130,000 common shares about June 16 will be used for working capital and to retire about \$2,000,000 in current long-term loans and to construct a \$1,500,000 building on the firm's property in El Monte, Calif., that will be used for television set production. The insurance loan will be partially secured by real estate and mortgages on certain leaseholds, with permissive terms for short-term bank borrowings and loans for work on Government contracts approximately double in each instance the amounts heretofore used. See also V. 179, p. 2248.

Houston Oil Co. of Texas-To Pay Scrip-

The Mercantile-Safe Deposit & Trust Co., Baltimore 3, Md., as scrip agent has caused to be sold, on the open market, the shares of common stock issued for the scrip outstanding as of the close of business, June 1, 1954. The net proceeds of the sale of the shares of stock and the accrued dividends from June 30, 1952 through March 31, 1954 amount to \$17.70 per each 1/5th of a share and said funds are now available for distribution.

Scrip certificates should be surrendered to the trust company, to receive the redemption price before June 1, 1958, on which date they will become void and of no value.—V. 179, p. 925.

Husky Oil & Refining Ltd.-New Discovery

Husky Oil & Refining Ltd.—New Discovery—
This company on June 8 announced the discovery of oil at HuskyPhillips St. Florence No. 2 drilled on recently purchased crown
reserve land, a Calgary, Alberta, Canada, dispatch says. The well is
being drilled as a gas offset to the Phillips-Husky St. Florence No. 1
well one mile to the northeast. St. Florence No. 1 was previously
completed as a gas well in the St. Florence zone of the Blairmore
formation after establishing the presence of gas in the Viking zone
and extending the Coleville gas reservoir.

In the same area Phillips and Husky are drilling at their Ryerson
No. 1 well located 3½ miles to the southwest of St. Florence No. 2.
The Husky-Phillips team are presently drilling in the Banff sand
at their Alsask test near the Alberta-Saskatchewan border and south
of their recent Banf' sand gas discovery at Eastside. The Alsask
well obtained 478 MCF of gas on testing the Viking and 1750 MCF
from a sand near the top of the Blairmore, the dispatch concluded.

Indian Head Mills, Inc.—Offering Oversubscribed.—

James E. Robison, President, on June 8, announced the sale of 59,000 shares of common stock of this company at \$5 per share. The offering, which expired on June 7, 1954, consisted of 9,000 shares to employees and 50,000 shares to stockholders of record May 19, 1954. The employees subscribed for the full 9,000 shares. The remaining 50,000 shares were oversubscribed by the stockholders to the extent of about 16,000 shares. Stockholders had the right to subscribe to one new share for each four shares held, and had an oversubscription privilege in an equal amount. The allocation of new shares to oversubscriptions amounted to approximately 43%.

The offering was underwritten by Blair, Rollins & Co. Incorporated. Mr. Robison stated that the proceeds of the sale of common stock will be added to working capital.—V. 179, p. 2248.

Keeshin Freight Lines, Inc.—Control Acquired-

Keeshin Freight Lines, Inc.—Control Acquired—
The Interstate Commerce Commission has authorized C. & R. Transportation, Inc., to take over control of Keeshin Freight Lines, Inc., which operates trucking lines throughout the East and Midwest. The latter has been in reorganization under the Bankruptcy Act since 1946. C. & R.'s control, already approved by the courts, would complete this reorganization.

C. & R., formed last year to acquire this control, is owned by John Ruan, operator of a tank-truck system west of the Mississippi. Last year, C. & R. bought up the common stock of Keeshin for \$78,296. This common stock could not be voted while the company was in reorganization but would now come into power.

Under the plan of acquisition, Keeshin Freight Lines would issue \$700,000 of \$1 par 5% preferred stock. Of this 500,000 shares would go to Fruehauf Trailer Co., a major creditor, and the rest to Mr. Ruan. The company also would issue \$2,275,000 of promissory notes to satisfy creditors and provide cash for operating purposes.

In January, the Commission turned down a previous plan involving joint control by Mr. Ruan and M. H. Clarke of Chicago. Mr. Clarke is not involved in the currently approved plan of control. ("Wall Street Journal.")—V. 173, p. 477.

McDonnell Aircraft Corp.—Pays Additional Taxes-

J. S. McDonnell, President, on June 8 announced that the company has paid an additional Federal income tax of \$198,369 and an additional excess profits tax of \$996,888 for the three fiscal years ended June 30, 1951, 1952 and 1953. This came mainly from a reduction in the company's excess profits tax credit resulting from an audit by the U. S. Treasury, this being the first audit by the U. S. Treasury for the period beginning July 1, 1950, when the excess profits tax first went into effect for this company.

Mr. McDonnell stated that the earnings for those three years have been retroactively reduced to reflect the additional taxes applicable to each year.—V. 179, p. 717.

(F. H.) McGraw & Co.-Earnings, Etc.-

Clifford S. Strike, President, stated that the company's income for the first quarter of this year was \$72,553 and that current operations indicated mid-year earnings will be well in excess of last year's. He added that resumption of dividends on the common and class A stocks should await more definite assurance that the year-end position will warrant it. In 1953 the company had mid-year earnings of \$42,969.— V. 179, p. 2039,

Merritt-Chapman & Scott Corp.—Registers With SEC

A registration statement filed on June 4 by this corporation with the SEC schedules June 25, 1954, as the record date for shareholders who will be offered primary rights to subscribe to 286,027 additional authorized but unissued shares of the company's common stock on the basis of one for each five held.

The offer, which will be effective through July 19, 1954, grants shareholders the privilege of entering an additional subscription for any shares left unsubscribed by exercise of the primary rights.

Louis E. Wolfson, President and Board Chairman, said that pro-

ceeds realized through the offering to shareholders will be devoted, in part, to retirement of the \$4,050,000 balance now outstanding on the 10-year, 4½% unsecured \$4,500,000 loan obtained by Merritt-Chapman & Scott in March, 1953, from The Equitable Life Assurance Society of the United States. The remainder of the proceeds will serve for further expansion, he said.

Under terms of the offering to shareholders, full subscription would entail the issuance of 286,027 shares, raising to 1,716,160 the total outstanding of the company's authorized 3,000,000 shares

Awarded Bridge Contract.

Awarded Bridge Contracts—

Award to this corporation of a \$3,688,223 low bid contract for construction of the substructure of a new bridge across the Delaware River to connect the New Jersey and Pennsylvania Turnpikes between Burlington and Bucks Counties, was announced jointly on June 9 by the New Jersey Turnpike Authority and the Pennsylvania Turnpike Commission.

On another Delaware River crossing, Merritt-Chapman & Scott is currently building the two anchorage foundations for a new suspension bridge between Philadelphia and Gloucester City, N. J., a project for the Dalaware River Authority.

Award to the corporation of a \$4,495,477 low bid contract for construction of the sub-structure of the new bridge to be built across the Bridge Authority, was announced on June 2 by Robert Hoe, Chairman of the Authority.—V. 179, p. 2474.

Missouri Pacific RR.-Adoption of Plan Urged-

Missouri Pacific RR.—Adoption of Plan Urged—
The Interstate Commerce Commission on June 7 was urged to immediately issue an order adopting the proposed compromise plan for reorganization of this company filed with the Commission by Guy A. Thompson, trustee of the railroad, on May 12, 1954. Such action was recommended in a brief filed June 7 with the Commission by DeLancey C. Smith as Chairman of the Protective Committee for the railroad's 51/4% secured serial gold bonds.

"If the plan is not promptly approved," the brief said, "there is no assurance that there will be a reorganization accomplished for an uncertain period of years to come." Noting that the railroad has now been in bankruptcy for 21 years, Mr. Smith asserted that unless the plan is adopted it "is entirely probable that the entire bankruptcy mill may start grinding again."

The 51/4% committee itself does "not entirely agree with each and every feature" of the compromise plan "but we believe it is the best possible plan that can be developed to which almost unanimous agreement can be obtained," he said.

Further proceedings or hearings by the Commission before it issues an order approving the plan "are not necessary." the brief said. "The Commission is as well informed today about this case as it ever has been about any subject before it and no further hearing, argument or discussion will increase the knowledge of the Commission or aid it in deciding that the compromise plan should be adopted." The plan, the bref continued, "follows closely the principles and findings in turn, are based upon and modify the prior reports and orders of the Commission in this case."—V. 179, p. 2474.

New Britain Machine Co.—Increases Dividend—
The directors on June 4 announced a quarterly dividend of 50 cents per share and an extra dividend of 25 cents per share on the 418,702 common shares outstanding, payable June 30 to holders of record June 21. A dividend of \$1 per share on 209,351 shares outstanding in March has already been paid to stockholders on March 31 in the amount of \$209,351.

Herbert H. Pease, Chairman, and Ralph S. Howe, President, said that incoming orders for the quarter had not been equal to shipments and that, "while we are hopeful that these conditions will improve it is possible that earnings for the succeeding quarters may not equal those now reported."

The 50 cent quarterly dividend and the extra dividend of 25 cents are equivalent to \$1.50 per share on the 209,351 shares outstanding prior to the 100% stock dividend paid on April 15.

First quarter earnings to March 28, 1954 totaled \$835.431. Net sales amounted to \$8,671,267 and total deductions were \$7,867,404, of which \$5,740,500 was for manufacturing costs, administrative and selling expenses.

First quarter earnings to March 28, 1894 totaleu sologia and sales amounted to \$8,671,267 and total deductions were \$7,867,404, of which \$5,740,509 was for manufacturing costs, administrative and selling expenses.

The above earnings were released in connection with an offering to employees on June 5 to subscribe to 5,000 shares of stock, a part of the 50,000 shares authorized for that purpose at the annual meeting on March 30.

Mr. Pease and Mr. Howe stated that dividends for the remainder of the year will be determined by the company's earnings and outlook at the time. They stressed the necessity of a sound financial condition and ample working capital in order to keep the plant in prime condition and continue research leading to new product development and more efficient manufacturing processes.—V. 179, p. 2372.

Nuclear Instrument & Chemical Corp.—New Product

Nuclear Instrument & Chemical Corp.—New Product
The new Model 1619 "Labitron" is a monitor for use with a Geiger
counter for (1) routine surveying for alpha, beta, or gamma contamination in radioisotope laboratories, (2) detecting large fluctuations in cosmic ray and other laboratory "background," and (3)
routine measurements of radioactivity for mencal diagnosis and
treatment, tracer work, or process control in industry.

This precision integrating instrument provides four ranges to cover
any radiation intensity up to 20,000 counts per minute. Time constants of the rate circuit are chosen to provide the best compromise
between probable error in reading and speed of response. Absolutely
no zero drift and stable calibration assure high reliability. A built-in
loud speaker is provided for an additional indication of radioactivity.
A chart type recorder may be connected to the Labitron to provide
a written record of radiation intensity vs. time.—V. 179; p. 2040.

Petaca Mining Corp., Santa Fe, N. M.—Registers With Securities and Exchange Commission—

Securities and Exchange Commission—

The corporation on June 9 filed a registration statement with the SEC covering 600,000 shares sinking fund cumulative preference stock (50c par) and 300,000 shares common stock (10c par), to be offered for public sale "as a speculation" in units of two shares of preference and one share of common stock and at a price of \$3 per unit. Barrett Herrick & Co., Inc., has been named as the principal underwriting commission is to be 60c per share. The underwriter has agreed to purchase 25,000 units under certain stated circumstances and to use its best efforts to sell 275,000 units. A finder's fee of 1% of the public offering price of all units sold is to be paid by the company to Mechan & Poole, of New York. St. Michael's College Foundation, Inc., the principal and controlling stockholder of the company, has sold to Barrett Herrick & Co., Inc., 150,000 shares of common stock at a price of one cent per share.

Petaca was organized under Delaware law in May, 1953. It is the owner of certain mining claims located in the Petaca region of Rio Arriba County, New Mexico and of a nearby mill site upon which it has commenced construction of a separation mill capable of processing pegmatite ores. The primary objective in mining the Petaca claims will be for the recovery and milling of mica. The company also owns a 50% interest in certain mining claims in San Juan County, Utah, which it intends "to explore and develop... for uraninum-bearing ores and other rare minerals." Net proceeds of the

stock sale will be used for retirement of 40,526 shares of outstanding preferred stock, for installation of power line extensions and electrical transformers, for completion of the mill and the purchase and installation of equipment and machinery, for exploration of the Utah claims, and for working capital.

The prospectus names Manuel Lujan of Santa Fe as President, Treasurer and a director. The company now has outstanding 1,186,052 shares of common stock, of which 843,632 shares (71.1%) are owned by St. Michael's College Foundation, Inc. The company acquired tis mining claims in New Mexico by assignment from Petaca Minerals Corp., in exchange for 900,000 shares of common stock. St. Michael's College Foundation then owned substantially all of the stock of Petaca Minerals and, subsequently, acquired the balance of the stock and dissolved that company. St. Michael's College Foundation acquired the stock of Petaca Minerals from previous stockholders, without any cash payment, and in consideration of certificates of indebtedness, entitling the holders to participate to the extent of 25% in the income the Foundation might enjoy from its ownership of such stock, or from holdings into which such stock holdings might be converted. For the properties transferred to the company, the Foundation (and certain other persons, who purchased, stock from the Foundation will hold 1,165,000 shares of common stock, or approximately 744% of the company's outstanding stock, after giving effect to the redemption of the old preferred. Purchasers of the 300,000 units of preferred and common stocks (including 81,052 common shares previously sold) will have invested s981,052 and will own all of the company's outstanding preference stock and approximately 25.6% of its outstanding common.—V. 173, p. 390.

Only 15 were unproductive, an unusually low ratio. Operations in the rew Adena field in Morgan County. Colorado, have been up to expectations, Forty wells were completed through April. Of the 4,000 acres held in that field by the company, it is anticipated that 2,200 acres will be productive. Exploratory wells completed in Crockett and Hidalgo Counties, Tex.; Vermillion Parish, La., and Clark County, Kan., have opened four new fields. The company has substantial acreage surrounding each of these wells.

Additional drilling in five presently producing areas has further extended production. The sixth well was recently completed in the Eugene Island gas field located offshore in the Gulf of Mexico. Two additional drilling platforms are now being completed in this area, and one additional platform in the Rollover gas field. A new structure is being erected for an exploratory well in Block 89 offshore from Cameron Parish, La. A 50% interest has been acquired in a substantial block of acreage off the Texas coast near Galveston. An exploratory well will be started at this location later this year.—V. 178, p. 2309.

(George) Putnam Fund of Boston-Sales Increase

The Fund reports sales of new shares during May were more than \$1,000,000, 50% higher than in the same month last year. Total gross sales for the first five months of 1954 were in excess of \$6,500,000, an increase of 11% over the same period last year, which established a new record. Total net assets as of June 1 were \$82,119,000. Sales, less purchases, for May were 72% above May of last year, and for the first five months of 1954 were 5% above the same period of 1953.—V. 179, p. 1483.

Radio Corp. of America—New Plan to Finance Dealer Inventories of Consumer Products—

The corporation has completed plans with the Pennsylvania Company for Banking and Trusts, of Philadelphia, for an expanded program to assist RCA distributorships in financing dealer inventories of RCA consumer products, it was announced on June 9 by J. B. Eliott, RCA Executive Vice-President in charge of consumer products. The plan will cover inventories of television receivers, radios, "Victrole" phonographs, television-radio combinations, radio-phonograph combinations, tape recorders, RCA air-conditioners, and RCA Estate kitchen ranges.

trois." phonographs, television-radio combinations, tank RCA Estate combinations, tape recorders, RCA air-conditioners, and RCA Estate kitchen ranges.

RCA agreements with the Commercial Credit Corp. have provided instalment-plan financing arrangements for consumers as well as dealer inventory financing, on a national basis for several years, Mr. Elliott noted, and similar facilities are also in effect with the Bank of America covering the eleven Western states in which that organization operates.

"The plan with the Pennsylvania Company is, accordingly, designed to supplement rather than replace existing arrangements which either we or our distributors or dealers have with other financing institutions," said Mr. Elliott. "The plan will previde the means for financing dealers entitled to credit where local banks or other agencies do not render this service.

"The greatest part of RCA dealers' needs for inventory financing and consumer instalment credit is provided by the many local banks throughout the country which extend credit of this type."

As in the arrangements with the Commercial Credit Corp. and the Bank of America, the Pennsylvania Company will perform all the work in administering the plan and will furnish the credit with which to finance it. RCA representatives will cooperate with distributors in making financing arrangements available under specific terms reached under the agreement with the Pennsylvania Company which makes dealer inventory credit available up to a period of six months.

Republic Steel Corp.—Acquisition—

Republic Steel Corp.—Acquisition—

C. M. White, President, on June 7 announced an agreement for the purchase by this corporation of property and assets of Cleveland Chain & Manufacturing Co. and its affiliated companies.

Cleveland Chain and the affiliated companies are known as the "Round Chain Companies," a name arising from the Round family, founders of the business nearly 35 years ago. R. L. Round is President of Cleveland Chain and James W. Dickey is Executive Vice-President.

The agreement provides that Republic will purchase the inventory, fixed assets, and business of the chain companies for cash and common stock of Republic Steel and that the sale will be consummated sometime prior to July 15, after completion of necessary legal details.

In announcing this proposed acquisition, Mr. White pointed out that the various manufacturing plants of the Round organization constitute substantial consumers of steel.

Building floor space of the various manufacturing plants and warehouses approximates 450,000 sq. ft. Largest of the organization's manufacturing plants is that of Cleveland Chain and Manufacturing in Cleveland.

manuacturing plants is that to companies include the shipping and lumber industries, automobile and truck manufacturers and others. "In addition," Mr. White pointed out, "Republic itself is a large consumer of chain as are other companies in the steel industry."

Products of the Round Chain companies are sold in all 48 states and in over 28 foreign countries.—V. 179, p. 1935.

Russell Reinforced Plastics Corp.—New Development

Russell Reinforced Plastics Corp.—New Development
At the opening of the National Plastics Exposition on June 7 colorful laminated plastic panels developed primarily for use as a structural building material were introduced by this corporation. They are made from fibrous glass prodeed by the Ferro Corp. and Vibrin polyester resin made by the Naugatuck Chemical division of the United States Rubber Co.

Called Expanded Tropiglas, the new panels are made by conventional laminating methods. Then by a special fabricating technique, for which a patent has been applied, expanders are inserted into the panels. The expanders form a series of smooth curves—resembling air foi.s—on both sides of the panel, putting the plastic under tension so that it is rigid and has high torsional strength.

The new expanded panels will soon be on the market in several new products. Eeach and Terrace Products Inc., Miami, Fla., will use them in a line of cabana type shelters for beach or garden use.

Superior Windows, Miami, will soon be on the market with light control vents made from the panels.

Other products in the development stage include jalousies, shower stalls, doors, decorative screens, partitions and patio roofs.

The panels are now being made in Russell Reinforced's Linderhurst, N. J., plant, and will soon go into production in the firm's Boca Raton, Fla., plant.

The panels are now available from Russell Reinforced distributors. The company also pians to license other manufacturers to produce them. Their cost is approximately 15% higher than flat plastic panels.—V. 178, p. 390.

Southern California Edison Co.—Continues Expansion
—May Sell \$25,000,000 of Bonds or Preferred Stock—
The company's plant budget expenditures this year will total about \$73,000,000 compared with an annual average of about \$67,000,000 over the previous five years, Harold Quinton, President, announced on June 4.

The company has more than doubled its effective steam capacity during the post-war period to a present total of 969,500 kilowatts, he said, and presently under construction are two additional steam units which will add more than 300,000 kilowatts.

In addition, Mr. Quinton pointed out, plans are in process for the development of additions to hydro-electric generating facilities which at the present time account for slightly more than half of the optimum capacity of the company. Expansion of the company's facilities has been made necessary by the rapid growth of the area served in Southern California. Mr. Quinton said this company had added 319,000 customers over the past five years, more than any other electric company in the country, and that its growth was continuing. Since the end of World War II, investment in electric plant has increased \$418,000,000 or 113%.

New money requirements of the company for the balance of this year were estimated by Mr. Quinton at about \$25,000,000. This will probably take the form of a bond issue although the company would be willing to sell preferred stock if there was a market demand for it. If a pending rate increase is granted, Mr. Quinton said that it would yield about \$18,625,000 additional gross revenues, based on the 1954 sales level. If the rate increase is granted in full and it was in effect for a full 12 months time, he estimated that the company earnings per share on common stock outstanding at the end of 1954 would be in the neighborhood of \$3.75.

Over the last 25 years the company has strengthened its capital position through write-offs totalling over \$100,000,000, consisting of some \$52,000,000 of prior securities retired, \$33,000,000 of stock and bond d

results, Gen E. Swanson, President, announced on June 8.

"After a poor first quarter which adversely affected component and set manufacturers alike, the television industry has staged an encouraging recovery," Mr. Swanson stated. "While our sales in the three months ending June 30 next are not expected to attain the \$23,410,000 recorded in the comparable quarter last year, I am confident that the percentage decrease will be considerably less than that experienced in the first quarter of 1954.

"The realistic approach towards color television now taken by the industry and favorable developments in Standard Coil's research in this field as well as on other electronic components should enable the company to maintain its leading position as a television component parts manufacturer. Our subsidiary, Kollsman Instrument Corp., continues high production of precision aviation instruments and systems."—V. 179 p. 2374.

COURSE BANK **CLEARINGS**

Bank clearings this week show a decrease compared with a year ago. Preliminary figures compiled by us, based upon telegraphic advices from the chief cities of the country, indicate that for the week ended Saturday, June 12, clearings from all cities of the United States from which it is possible to obtain weekly clearings will be 1% below those for the corresponding week last year. Our preliminary totals stand at \$17,827,682,628 against \$18,016,760,707 for the same week in 1953. At this center there is a loss for the week ended Friday of 1.5%. Our comparative summary for the week follows:

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furish them today, inasmuch as the week ends Saturday, and the Saturday figures are not available at time of going to press. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below we are able to give the final and complete results for the week previous—the week ended June 5. For that week there was a decrease of 0.4%, the aggregate of clearings for the whole country having amounted to \$16,930,205,214 against \$17,001,613,547 in the same week in 1953. Outside of this city there was a decrease of 6.5%, the bank clearings at this cen-

ter having registered an increase of 5.5%. We group the cities according to the Federal Reserve Districts in cities according to the Federal Reserve Districts in which they are located and from this it appears that in the New York Reserve District (including this city) the totals record a gain of 5.3% but in the Boston Reserve District the totals register a loss of 2.9% and in the Philadelphia Reserve District of 3.8%. In the Cleveland Reserve District there is a decline of 7.7%, in the Richmond Reserve District of 4.8% and in the Atlanta Reserve District of 7.0%. The Chicago Reserve District falls behind by 7.9%, the St. Louis Reserve District by 1.9%. In the Kansas City Reserve District the totals show a decrease of 5.2%, in the Dallas Reserve District of 16.8% and in the San Francisco Reserve District of 13.3%.

Condition Statement of Member Banks

The condition statement of weekly reporting member banks of the Federal Reserve System in leading cities shows the following principal changes for the week ended June 2: A decrease of \$255 million in commercial, industrial, and agricultural loans; increases of \$155 million in holdings of United States Government securities and \$391 million in demand deposits credited to domestic banks; and decreases of \$428 million in demand deposits adjusted and \$167 million in United States Government deposits.

Commercial, industrial, and agricultural loans decreased in most districts; the principal changes were decreases of \$207 million in New York City and \$26 million each in the Cleveland and Chicago Districts, and increases of \$19 million in the San Francisco District and \$11 million in the Boston District. Changes according to industry appear in another press release.

Holdings of Treasury bills increased \$185 million in

Holdings of Treasury bills increased \$185 million in the New York District but they decreased in eight districts, resulting in a net increase of \$51 million at all reporting member banks. Holdings of Treasury notes and of United States Government bonds increased \$51 million and \$49 million, respectively. Holdings of "other" securities increased \$65 million.

Demand deposits adjusted decreased \$154 million in the Chicago District, \$89 million in New York City, \$48 million in the St. Louis District, \$46 million each in the Philadelphia and San Francisco Districts, and by smaller amounts in most of the other districts. Time deposits increased \$37 million.

Borrowings increased \$63 million at all reporting member banks.

The bonds will be redeemable at the option of the Local Author-ity on any interest payment date on and after ten years from the date to be borne by the bonds at a redemption price of par and accrued interest to the date of redemption plus a premium of 4% of their par value if redeemed a or before fifteen years from the Bond Date; or a premium of 3% of their par value if redeemed thereafter, but on or before twenty years from the Bond Date; or a premium of 2½% of their par value if redeemed thereafter, but on or before twenty-five years from the Bond Date, or a premium of 2% of their par value if redeemed thereafter, but on or before thirty years from the Bond Date, or a premium of 2% of their par value if redeemed thereafter, but on or before thirty years from the Bond date to be borne by the bonds at before thirty years from the Bond Date, or a premium of 1% of their par value if redeemed thereafter, but on or before thirty-five years from the Bond Date; and without premium if redeemed after thirty-five years from the Bond Date,

The contract between the Local Authority and the Public Housing Administration relating to the project or projects contains pro-visions which the Public Housing Administration, in said Contract, has determined are in accordance with Sec. 22 (a) of the United States Housing Act of 1937, as amended. The Annual Contributions Contract does not contain any conditions which the property designs and the states of the second s any conditions which, upon de-livery of the bonds, will affect the unconditional obligation of the Public Housing Administration to pay annual contributions there-under.

The bonds of each issue will be secured by a first pledge of annual contributions unconditionally payable by the PHA pursuant to the Annual Contributions Con-tract in an amount which, to-gether with other funds of the local authority actually available for such purpose, will be sufficient to pay the principal of and interest on each issue of bonds when due and, unless otherwise specifically stated in the official Notice of Sale, will be general obligations of the local authority. The annual contributions will be paid by the PHA direct to the fiscal agent of the issuer. Section 10 (e) of the United States Housing Act of 1937, as amended, provides that:

"The faith of the United States is solemnly pledged to the payment of all annual contributions contracted for pursuant to this section, and there is hereby authorized to be appropriated in each fiscal to the section of any money in the year, out of any money in the Treasury not otherwise appropriated, the amounts necessary to provide for such payments."

12,105,000 Nashville, Tenn., 3rd payment of all annual contributions contracted for pursuant to this section,' is identical with lan-guage used by R. S. 3693 (31 U. S. C. 731) with respect to the interest-bearing obligations of the United States. It would be appropriate to conclude therefrom that the Congress intended to place on a similar footing the obligation to pay annual contribu-tions contracted to be paid pur-suant to the terms of the Act.

"In summary, I am of the view that:

"(1) The United States Housing Act, as amended to this date, is valid and constitutional; and

valid and constitutional; and "(2) A contract to pay annual contributions entered into by the PHA in conformance with the provisions of the act is valid and binding upon the United States, and that the faith of the United States has been solemnly pledged to the payment of such contributions in the same terms its faith has been pledged to the payment of its interest-bearing obligations."
