Mr. Perelle also announced that the company has received approxi-mately \$910,000 net after expenses from the government as an adjust-ment on prior years' taxes. This sum, which has been added to working capital, was not included in the income which was based on operations only. Net sales for the six months totaled \$39,798,967, compared with \$40,159,253 for the 1954 first half-year period. The company's backlog of military business as of July 3, 1955 was estimated at \$30,000,000, virtually all of which was for the Arma Division, whose production is exclusively for the armed forces. Since orders for the American Bosch Division's civilian products are placed only in terms of current requirements, its prospective volume of non-military business has not been included in the backlog. Net income for the first quarter of 1955 amounted to \$493,545, equivalent to 15c per share on the 3,190,708 shares outstanding at March 31, 1955, as compared with \$364,417 or 12c a share on 3,077,362 shares outstanding a year earlier.—V. 178, p. 753.

 American Motors Corp.—Reports Increased Earnings— This corporation earned a net profit of \$1,592,307 in the quarter ended June 30, 1955, George Romney, President, reported on July 21. This compared with a net loss of \$3,848,667 for the corresponding beriod a year ago, when Hudson operations were reflected for only the two months May and June, after the merger took place.
 Both figures are after tax adjustments. Before such tax adjust-ments, profit for the 1955 quarter was \$3,213,307 compared with a loss of \$6,774,668 for the 1955 quarter was \$3,213,307 compared with a loss of \$6,6774,668 for the 1956 quarter.
 Sales for the June quarter this year were \$137,139,847 against \$104,220,995 in the corresponding period a year ago, when Hudson results were included for only two months.
 American Motors' net loss for the name months ended June 30, 1955, was \$4,522,171 after a tax recovery of \$4,723,000. Sales for the nine sponding period is not feasible because Hudson totals were included only for the two months after the merger.
 Mr. Rommey said the corporation has been operating profitable for the four months March, April, May and June. "Earnings for these months served to partly offset losses incurred in the first five months of the current fiscal year, when Nash and Hudson manufacturing programs were still being consolidated at heavy cost, with 1955 new models being introduced in Pebruary."
 Production of 56,036 Nash and Hudson cars in the June quarter the year compared with 23,476 Nash and Hudson cars in the like period a year ago, an increase of 139%. Dollar sales of appliances in the June quarter were 22% higher than a year ago.
 Mas and Hudson car production for the nine months ended June 30, 1955, totaled 125,829 units against 86,495 in the corresponding period last year, an increase of 45,5%. Dollar sales of Kelvinator and Leonard appliances were up 12.7% this year.—V. 181, p. 2009. American Motors Corp.—Reports Increased Earnings-

Unfilted orders amounted to \$21,000,000 at June 30, 1955, as com-pared to \$17,500,000 at March 31, 1955, \$12,500,000 at Dec. 31, 1954, and \$13,500,000 at Sept. 30, 1954. Orders received in the June 30 quarter amounted to \$26,500,000. This was the largest volume of incoming orders since the quarter ended March 31, 1953. Recent new freight car purchases contributed substantially to the larger volume of incoming orders. Charles C. Jarchow, President, stated that plant shut-downs for vacations would adversely affect the profit results for the last fiscal quarter, but it is expected that earnings for the entire year will be about \$3 per share, a considerable improvement over the last forecast. Prospects with respect to volume and earnings are good for the quarter ending Dec. 31, 1955, the first quarter of the next fiscal year. Shipments and earnings were more satisfactory in the quarter ended June 30, 1955, than in any quarter since the one ended Dec. 31, 1953. Net income increased from 17 cents per share in the quarter ended March 31, 1955, the first unarter ended June 30. The increase in earnings in the June 30 quarter was attributable to a more satisfactory volume of shipments in nearly all product lines. Volume in railroad products increased substantially.--V. 179, p. 1.

Atomic Instrument Co.-Reports Record Shipments, etc.

Atomic Instrument Co.—Reports Record Shipments, etc. This company has just reported the most successful six months of operation in its history. Leonard W. Cronkhite, President, disclosed in an interim bulletin that orders for the first six months of 1955 totaled more than 8622,000, an increase of 35% over the first six months of 1954. He also reported that total of shipments for the first half of 1955 was more than \$523,000, a gain of 21% over a comparable period last year. According to Mr. Cronkhite, these increases are due largely to wide acceptance of the company's newest instruments in nuclear and industrial fields. In a brief preview of the next six months, he velopment, would be introduced by the organization. The company is moving ahead in three basic fields: atomic energy instruments for application in research and medicine, industrial con-trols through low-heat counting techniques and data-processing at super speeds. The new plant will be built on land now owned by the company adjacent to the existing Skaneateles Falls plant. Plans for operation of the plant are being prepared by the company's engineering staff and construction is expected to be started shortly. The principal products of the new plant will be a group of organic actors to be manufactured under a foreign process and in accordance with certain patents; the company recently acquired domestic rights to manufacture under such process and such patents.

to manufacture under such process and such patents. BUSINESS—Company, originally formed in 1885 and named Electric Smelting & Aluminum Co., was incorporated in Ohio in 1919. The production of a "mineral soap" was one of the company's earlier developments. This development lead to a gradual conversion from metallurgical to chemical production. By the early 1920's, the company was well established in the chemical field, specializing in production and sales of detergents suitable for use in the laundry industry. While this industry remains one of its principal outlets, development of other types of industrial chemicals was begun in the 1930's, and the company now makes a diversified line for use in the metal, food, textile, paper, and chemical industries. The company's operations are located as follows: 1. General offices, 7015 Euclid Ave., Clevekand Ohio.—leased.

capital. Major purchasers of the bonds included Joseph Dempsey and Patrick Lannen of Chicago; Edward Eliott; Carl Chandler, Vice-President of the Union Bag & Paper Co.; and Samuel Goldwyn. The directorate of Crowell-Collier is to be reduced from 17 to nine members. Slated to become directors are Mr. Chandler; Francis Baer, Senior Vice-President of the Bankers Trust Co.; and Mr. Elliott. The stockholders on July 25 voted to increase the authorized number of common shares from 1,700,000 to 3,000,000. It was also announced Crowell-Collier showed a profit of \$138,405 for the first half of 1955, compared with a loss of \$1,734,510 for the first six months of 1954. The chief cause of the gain, Paul C. Smith, President, explained, was the improved position of Colliers Magazine, -V, 180, p. 2593.

Bonner, President, Simultaneously, the first of the new analog computers, built for the Farnsworth Electronics Co., was demonstrated on July 27 in Los Angeles to some 200 West Coast aircraft and electronics specialists. Designed and manufactured by Reeves Instrument Corp., a sub-sidiary, the new computer is known as the No. 400 REAC (Reeves Electronic Analog Computer). Because each computer installation can now be custom-built from the "building blocks" for its own special job—whether "pre-testing" guided missiles and planes of automatically controlling machiner—the REAC 400°s are materially less expensive and take up only half the space needed by previous models of com-parable capacity, it was stated. The computer shown at Los Angeles will be installed in Farnsworth Electronics' research and development laboratory at Fort Wayne, Ind., for advanced studies in guided missile, aircraft, radar and control systems.—V. 182, p. 8.

Four States Uranium Corp., Grand Junction, Colo.-SEC Order Vacated—

SEC Order Vacated— The SEC on July 25 announced the issuance of a decision vacating its order of Oct. 11, 1954, suspending the Regulation A exemption from registration under the Securities Act of 1933 for a stock offer-ing by this corporation, which had filed a notification pursuant to Regulation A on Aug. 16, 1954, with respect to a proposed public offering of 300,000 shares of its \$1 par common stock. In its sus-pension order, the Commission asserted that the terms and condi-tions of Regulation A had not been complied with in that (1) an offering circular was not being delivered to offeres and purchasers of stock, as required, and (2) the offering was commenced and se-curities sold prior to the time permitted under the regulation. These assertions were established by the record of the hearing subsequently held.

curities sold prior to the time permitted under the regulation. These assertions were established by the record of the hearing subsequently held. However, according to the Commission certain other events which occurred during the intervening months make it unnecessary to make the temporary suspension order permanent "and persuade us to vacate the order heretofore issued." The decision points out that, at the time of the issuance of the suspension ordrs, the financial policies of Four States Uranium were determined and largely executed by Joe Rosenthal, a director; and Clyde D. Moslander, Jr., Sco-retary-Treasurer and a director: On Feb. 15, 1955, a majority of its outstanding stock was acquired by Consolidated Virginia Mining Co, and Temple Mountain Uranium Co., neither of which has had any previous connection or affiliation with Four States Uranium, follow-ing which new management was installed. In addition, the assets of Four States Uranium have been sold to Consolidated and Temple in exchange for stock of those compa-nies. The underwriting contract with Mr. Rosenthal has been ter-ninated; he is no longer a director and has assigned and surrendered to Four States Uranium 85,000 of the 125,000 shares or signally issued to him. Mr. Sterns is no longer an differe or director and has transferred 70,000 shares of his holdings of 95,000 shares of Four States Uranium common to Consolidated for cash and stock in that company. Moslander is no longer an differe on director and has transferred in sholdings of 25,000 shares of that company. None of the three has had or now has any ma-terial interest in either Consolidated or remple. Four States Uranium sold 21,050 shares of the company as transferred his holdings of 25,000 shares of the public after the filing of its Regulation A notification; and these sales without compliance with the requirements of the regulation formed the basis for the issuance of the temporary suspension order. The new managemt undertook to rescind such sales and to refuud the full purchase p

plished. Under all the circumstances, including the fact that if the tem-porary suspension order is not vacated Consolidated and Temple as well as Four States Uranium and their affiliates would be barred from Regulation A exemptions for a period of five years, the Com-mission determined that it was appropriate to vacate such orders. -V. 180, p. 1536.

General Foods Corp.—Reports Sales and Earnings— Net sales of \$220,042,716 in the quarter ended June 30 were re-ported by this corporation on July 21. Comparable total in the same quarter a year ago was \$194,725,782. Earnings for the quarter, the first in the company's fiscal year, were \$10,260,436 after payment of preferred dividends, and were higher than in any quarter of the company's history except the same period a year ago, when the figure was \$10,992,635. The first quarter's earnings this year were equal to \$1.75 a share of common stock as compared with \$1.88 in the first quarter last year. Charles G. Mortimer, President, termed the results of the first fiscal quarter "particularly gratifying in view of the substantial investment foods, and also because there was an increase in toppage even great than the increase in dollar sales."—V. 181, p. 2800.

General Minerals Corp., Dallas, Tex.—Registers With Securities and Exchange Commission—

This corporation on July 21 filed a registration statement with the SEC covering 1,850,000 shares of its 31 par common stock, to be offered for public sale as "speculative" securities through an under-writing group headed by Sanders & Newson, Rauscher, Pierce & Co., Inc., and Laird & Co. The public offering price and underwriting terms are to be supplied by amendment. Each of the three under-writers named has purchased 60,000 shares for investment at \$1 pr share.

The opport of the second second scale of the three underwriters named has purchased 60,000 shares for investment at \$1 per share.
The orporation was organized under Maryland law on June 3, 1955, for the primary purpose of acquiring, exploring and developing uranium properties. It has outstanding 2,131,600 common shares, of which 600,000 shares (37.52%) are owned by General American 0.1 Co. of Texas and 432,500 shares by S. Y. Guthrie, President, both of Dallas. General American, A. H. Meadows, P. H. Feeney, Guthrie and Rosebud Olls, Inc., are promoters. Meadows, of Dallas, is Board Chairman; and Feeney, of Pierre, S. Dakota, is a director. General American received the 800,000 shares in consideration of its transfer of certain nil. properties to the company; while Guthrie received the 432,500 shares in consideration of the transfer to the company of its remaining uranium properties. All officers and directors hold 61,280 shares in consideration of the transfer to the company of its remaining uranium properties. All officers and directors hold 61,280 shares in the aggregate.
The company plans to use \$1,000,000 of the net proceeds from this public offering to purchase the production payments to which its oil properties are now subject; an additional \$36,016 is to be used to pay an obligation of additionel uranium properties and the exploration, development and mining of its present uranium properties. -V. 182, p. 213.

General Motors Acceptance Corp. — Plans Debenture Financing—This corporation has under consideration a public offering of \$200,000,000 of debentures to provide additional working capital to finance instalment sales of cars and trucks and other products, Charles G. Stra-della, President, announced on July 28. The corporation is carrying on discussions with Morgan Stanley & Co., regarding the underwriting of the proposed offering. This corporation purchased in the first half of 1955 a record yolume

Is call ying on discussions with motgan binney at Co., regarding the underwriting of the proposed offering. This cryporation purchased in the first half of 1955 a record volume of receivables totaling \$4,958,000,000, compared with \$3,531,000,000 in the first half of 1954, Charles G. Stradella, President, announced on July 27. Receivables outstanding at June 30, before deducting uncarned income and loss reserves, amounted to \$3,338,000,000, compared with \$2,681,000,000 a year ago and \$2,675,000,000 at the beginning of 1955. Although gross income increased as a result of higher receivables, consolidated net income, including the earnings of Motors Insurance Corp., for the first half of 1955 dropped to \$15,462,579 from \$18,269,002 in the corresponding period last year. The decrease was due largely to provisions customarily made during a rising volume of 1954. These provisions are largely related to the hevel of outstanding receivables. Actual losses were lower than in the first six months of 1954. Met earnings of Motors Insurance Corp. after taxes decreased from \$2,910,764 for the first six months of 1954 to \$15,696,525 for the first half of 1955. The reduction was due principally to the fact that certain acquisition expenses such as commissions and premium taxes are payable and ebsorbed when policies are written, whereas income is spread over the life of the polucy.-V. 181, p. 2692.

Capital at June 30 Demg \$149,009,000, compared with \$123,911,000 at the end of 1954. The corporation's long-term debt at June 30 was \$110,787,000 com-pared with \$113,972,000 at the end of 1954. Expenditures for plant and equipment for the six months ended June 30 were \$14,000,000 and will approximate \$45,000,000 for the

June year.

Noting a backlog of 1,067,000 tons at June 30, compared with 955,000 tons at the end of the March quarter, Admiral Ben Morcell, Chairman of the Board, stated that he is optimistic about the outlook for J&L and the steel industry for the remainder of the year.—V. 181, p. 1311.

Joy Manufacturing Co .-- Sales and Earnings Up-

Joy Manufacturing Co.—Sales and Earnings Up— This company on July 26 reported increased sales, bookings and earnings for the quarter ended June 30, 1955 and announced further capital spending plans for expansion. For the first nine months of the company's fiscal year, Joy earned \$3,760,197 or \$4.21 per share on sales of \$55,556,490. This compares with net profit of \$2,577,008 or \$2.88 per share on sales of \$48,846,689 in the comparable nine months of fiscal 1954. J. D. A. Morrow, President, announced new capital authorizations of \$1,469,500 for further improvements to U. S. plants, primarily for machinery to increase output and to extend the gains in efficiency. An additional \$415,000 will be raised and spent by two of the firm's foreign subsidiaries to improve facilities. The previously authorized project to expand and improve the facilities at Franklin, Pa., will be completed on schedule by the end of September.—V. 182, p. 112.

There was \$7,940,000 par value of this stock outstanding as of last May 31. The directors also voted to call a special stockholders' meeting for Aug. 31 to approve a proposal to increase the authorized number of shares of \$50 par value preferred stock from the present 700,000 shares to 1,500,000.

Subres of sou par value preferred stock from the present roution shares to 1,500,000. The present convertible preferred stock may be converted into com-mon stock at any time prior to the close of business on Aug. 9. The stipulated conversion price of the common is \$11.81, so each share of the cumulative preferred may be converted into 4.2337 shares of com-mon stock. The unconverted preferred stock is redeemable at the Bank of America N. T. & S. A., 550 Montgomery St., San Francisco 4, Calif., or at The Chase Manhattan Bank, 43 Exchange Place, New York 15, N. Y. The corporation is understood to be contemplating the public sale of \$335,000,000 of sinking fund preferred stock, \$50 par, some time this Fall, and private debt financing of about \$40,000,000. The rest of its new financing would consist of a rearrangment of the maturities of its present bank debt. See also V. 182, p. 214.

burg, Calif., to replace its Redwood City plant destroyed by ine last June 23, Claude E. Harper, Vice-President and General Manager, an-nounced on July 26. Acting to relieve the building industry's shortage of gypsum wall-board with all possible speed, the company expects to bring the new plant into production by December at the annual rate of 94,000,000 square feet of gypsum board products. The plant will be adjacent to a larger, \$5,000.000 gypsum products plant previously announced and due for comoletion next summer. At that time, the two plants will operate simultaneously, with a com-bined annual capacity of 274.000,000 square feet of gypsum board products and 20,000 fons of plaster. "We are not rebuilding the Redwood City plant, because we have a non-renewable lease on the land with less than four yrars to go." Mr. Harper said. "The cost of reconstruction there would not be justified for the short time remaining." "Temporarily, we are making every effort to fulfill commitments to Northern California builders with materials from the company's Seattle and Long Beach plants. However, the areas ordinarily served by these plants also have heavy demands, so we are faced with the urgency of restoring the lost gypsum production facilities in the Bay Area as quickly as possible."—V. 181, p. 2242.

Lockheed Aircraft Corp.—Backlog \$225,000,000— Bright sales prospects led this corporation to bring out its new Electra turboprop airliner ahead of a jet transport, but a Lockheed jet can be expected to be ready down the road "when the timing is right," a news-letter to stockholders said on July 18. Robert E. Gross, President, announced that orders for the Electra and new models of the piston engine Super Constellation gave Lockheed a record \$225,000,000 backlog of commercial transports at midyear. Mr. Gross said the new 414-m.p.h. Electra, using turbine engines turning propellers, would meet the need of "virtually all domestic and foreign airlines" for large numbers of an economical. short-to-medium-range airliner. American Airlines has placed a \$65,000,000 order for 35 Electras.

To Build New Yard-

To Build New Yard— This company on July 28 announced plans to invest almost \$5,750,000 for an enlarged and modernized switching yard at Eugene, Ore. Grading for the facility is expected to get under way this autumn according to D. J. Russell, President of the railroad. Construction will require two years, he estimated. It is estimated the new yard should be able to handle up to 3,500 cars in one day, as against 2,000 cars per day in the present facility. Construction will be done in four phases, and will be carried on so as not to interfere with service to shippers during the construction period, Mr. Russell said. First phase of the construction calls for expenditure of almost \$2,000,000. Renefits are expected to be realized even before the first phase is completed, about next summer if the work can begin before the fall rain arrives, it was stated—V. 182, p. 114.

THE COURSE OF BANK CLEARINGS

Bank clearings this week will show an increase compared with a year ago. Preliminary figures compiled by us based upon telegraphic advices from the chief cities of the country, indicate that for the week ended Saturday, July 30, clearings for all cities of the United States for which it is possible to obtain weekly clearings will be 11.4% above those of the corresponding week last year. Our preliminary total stands at \$20,677,633,629 against \$18,554,646,426 for the same week in 1954. At this center there is a gain for the week ending Friday of 5.3%. Our comparative summary for the week follows:

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday, and the Saturday figures are not available at time of going to press. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results of the previous week - week ended July 23. For that week there was an increase of 9.8%, the aggregate clearings for the whole country having amounted to \$21,342,152,270 against \$19,431,274,803 in the same week in 1954. Outside of this city there was a gain of 15.5%, the bank clearings at this center showing an increase of 4.4%. We group the cities according to the Federal Reserve Districts in which they are located and from this we note that in the New York Reserve District (including this city) the totals show an improvement of 4.8%, in the Boston Reserve District of 4.0% and in the Philadelphia Reserve District of 8.3%. In the Cleveland Reserve District there is an expansion of 15.3%, in the Richmond Reserve District of 15.2% and in the Atlanta Reserve District of 22.6%. The Chicago Reserve District has to its credit a gain of 17.2%, the St. Louis Reserve District of 12.0% and the Minneapolis Reserve District of 14.9%. In the Kansas City Reserve District the totals are larger by 8.5%, in the Dallas Reserve District by 42.4% and in the San Francisco Reserve District by 19.5%.

In the following we furnish a summary by Federal Reserve Districts:

(Continued from page 10) of stock owned, "at an appropriate price below that which the out-standing shares of common stock command in the market immediately preceding such offer." Holders of the first preferred stock will be asked to agree voluntarily to endorsement of their certificates limiting future dividend accumu-lations to 21% and providing a call price of \$140 per share. The stock is now non-callable and with out limitation as to dividend accruals. Any stockholder who doeg not agree to the endorsement will retain his stock without if. With elimination of the arreerage, the management letter said, "the way will be cleared for consideration of initiation of dividends on the scommon stock." It has been necessary to agree that no dividends will be paid on the common stock until the loan is repaid.—V. 182, p. 360.

New Jersey Turnpike Authority (P. O. New Brunswick), N. J.

Report to Bondholders — In-creases in traffic and toll revenues, and an outstanding safety record, were reported by the Commissioners of the New Jersey safety Turnpike Authority to bond holders for the first six months of this year. The report commented also that

construction work on the Newark Bay-Hudson County extension and the direct connection with Pennsylvania Turnpike. the as well as widening of the four lane sections of the 118-mile Turnpike north of Camden, is proceeding

Traffic on the 118-mile Turn-pike totaled 12,171,000 vehicles in the first six months of this year, an increase of 9.6% compared to the same period in 1954, Com-missioners Paul L. Troast, Chair-man; Maxwell Lester, Jr., Treasurer and Joseph Morecraft, Jr. reported. The average daily traf-fic for this year, they added, was 67,244 vehicles. This would comwith the preconstruction estimates of the independent en-gineers of 30,410 vehicles daily

r all of 1955. "New daily records for traffic were established over the recent Independence Day Holiday," the Commissioners reported. "On July 1 the Turnpike carried a peak of 111,947 revenue vehicles. The pre-vious record was 103,560 on July

31, 1954. Toll revenue of \$100,902 set a new record on July 1, 1955, and compared with the previous high of \$94,925 on Nov. 28, 1954. "While all classes of vehicles registered gains, the most signifi-cant occurred in bus and truck traffic, the former amounting to an increase of 16.9% over the same period in 1954, and the lat-ter of 16.1%." Toll revenues in the first -

Toll revenues in the first six months of 1955 amounted to \$9.-897,500, an increase of 5.8% compared to the similar period a year ago.

In spite of the record volumes of traffic using the Turnpike, the Commissioners commented that that the safety record continued out-standing in relation to the public highways in New Jersey and in the nation as a whole

There were 12 fatalities on the Turnpike in this year's first half, equaling a rate of 2.70 for each 100 million miles of vehicle travel. That rate compares with 4.0 on the State's highways and with the 6.4 for the nation's highways for all of 1954, the latest year for which comparable figures are available.

"Significantly, of the 12 fatali-ties this year in the first six months," commented the Commissioners, "six were caused in single car accidents where drivers lost control through fatigue or error; three were pedestrians, and three were caused in two acci-dents involving other vehicles."

There were 249 accidents on the Turnpike in the first six months equal to a rate of 56.9 per 100 million miles to travel. That rate would compare with 431 on the State's highways for each 100 million miles to travel in 1054 100 million miles to travel in 1954 the latest available figure, and and with 769 on the nation's highways in 1954

Widening of the Turnpike's four lane sections to six lanes between the George Washington Bridge and Camden-Philadelphia interand Camden-Philadelphia inter-changes is proceeding at a satis-factory rate, the Commissioners reported. This widening cover 61 miles of the 83.3 miles in that distance. The widening is nec-essary to accommodate the unusually large volumes of traffic being carried currently and to provide for the expected larger 2.80s, at 100.15, a basis of about volumes which will develop when 2.75%.

the two extensions, now under construction, are completed early in 1956.

More than 90% of the widen-ing is scheduled for completion ing is scheduled for complete late this year and the remainder shortly thereafter. The widening shortly thereafter. The widening construction has had very little adverse effect upon traffic on the Turnpike and a most thorough and extensive system for safe-guarding the public is in force. the

Construction work on Newark Bay-Hudson County extension is progressing satisfac-torily and it will be expedited with the objective of completion at the earliest date.

Steel erection of the Delaware River Turnpike Bridge super-structure, as part of the arect connection with the Pennsylania Turnpike, is more than 50% com-pleted. East of the bridge grading is actively under way and prep-arations are being made for an early start on paving in the area from the toll plaza to the bridge. Practically all of the contracts covering major construction of the two extensions, and for the dening, have been awarded dening, have lowest bidders,

Adequate Borrowing Power Stressed — The city's debt struc-ture will permit a large capital construction program in the next six years without recourse to spe-cial legislation of any kind to escape legal debt limitations, it was revealed in an analysis of the city's long-term debt made public by the Citizens Budget Commission on Aug. 1.

sion on Aug. 1. "The public must view with skepticism any claim that still more special debt exemptions must be granted," the Citizens Budget Commission stated in a rebeach bulletin sent to its mem-bership. "More funds are avail-able for a long-range construction program than was ever spent in the past." "The city now has larger debt

incurring power than ever before. To add to it the right to incur debt above and beyond that high level is to invite reckless mort-gaging of the future," said John M. Leavens, Executive Director of CBC. "It would be like going to the bank, borrowing ample money within what prudent bankers within what prudent bankers might think you can repay, and then finding some other way to get into still more debt over and above the approved limit."

The remainder has been incurred under various has been incurred under various constitutional exemptions for spe-cial purposes. The regular debt limit is an elastic one, tradition-ally 10% of the value of taxable real estate within the city. (Sink-ing fund assets are counted as an effect to the grade debt). This real estate within the city. (Sink-ing fund assets are counted as an offset to the gross debt). This yardstick is used because taxes for debt service are levied di rectly on real estate. No specific yardstick is used for special debt exemptions. Despite the 10% limit, the net debt (after subtraction of sinking fund assets of approxi-mately \$945,000,000) now amounts to \$2,640,000,000, or 13% of the current values. The gross New York City debt accounts for over

one-quarter of all municipal debt in the United States. "A year ago, the Comptroller estimated that approximately estimated that approximately \$200,000,000 of new debt could be incurred annually from 1955 incurred annually from 1955 through 1960, for projects within the debt limit. If the Comptroller makes a similar estimate as a basis for the 1956 capital budget and program, the city will be able to continue building at the high rate begun in the 1955 capital rate begun in the 1955 capital budget. Even during the past six years, when the city pursued a very active program of construc-tion, new debt within the limit was incurred at the rate of only cls2 00 000 appually At present
