American Investment Co. of Illinois—Notes Placed Privately—This company on Jan. 30 announced the sale of $10,000,000 of 25-year 4½% convertible capital notes on Jan. 27 to 31 leading life insurance companies, investment and pension trusts, educational and other institutions. Mr. Barnes stated that the notes would increase the company's capital fund base sufficiently to provide for its announced 1956 expansion program. This program calls for the opening of about 50 new subsidiary offices and a gain in outstanding loans receivable of approximately $25,000,000. The additional funds will come from current borrowings.—V. 183, p. 553.

Arkansas Louisiana Gas Co.—Hearing Feb. 20—

The SEC has issued an order scheduling for hearing on Feb. 20, 1956, the question whether to revoke or modify an order of the Commission issued Dec. 14, 1954, granting an application of W. R. Stephens Investment Co., Inc., from provisions of the Holding Company Act.

According to the order of the Commission, its Division of Corporate Regulation has informed the Commission that the circumstances which gave rise to the issuance of the 1954 order may no longer exist. In its application for exemption Stephens Investment Co. represented that, upon consummation of its then proposed acquisition of 1,958,180 (51.5%) of the outstanding shares of the common stock of Arkansas Louisiana Gas Co., Stephens Investment Co., proposed (a) to use its best efforts to cause Arkla to transfer ("spinoff") to a company to be newly organized all of Arkla's natural gas and oil production and extraction properties, together with related transmission lines, in exchange for all of the capital stock of the new company, and, in connection therewith, to have the new company assume a portion of the $35,000,000 principal amount of the outstanding first mortgage bonds of Arkla, (b) to use its best efforts to cause Arkla to distribute pro rata to its stockholders all of the stock of the new company, (c) to sell to Mississippi River Fuel Co., a non-affiliated interstate pipe line company, all of the stock of the new company received by Stephens Investment Co. as a stockholder of Arkla, and (d) to make a public distribution of the common stock of the reconstituted Arkla.

The Division of Corporate Regulation has informed the Commission that Stephens Investment Co., after thorough consideration of the matter, has decided that it was not feasible and it was inadvisable to carry out the proposals relating to the spin-off of the production-extraction properties, and the sale of the controlling stock of the new company to, and the acquisition thereof by, Mississippi, and that Mississippi and Stephens Investment Co. have canceled all agreements between them, and that there are no present plans for the separation of the properties of Arkla.

Under Section 3(c) of the Holding Company Act, "Whenever the Commission, on its own motion . . . finds that the circumstances which gave rise to the issuance of such [exemption] order no longer exist, the Commission shall by order revoke such order."—V. 181, p. 2353.

Associated Oil & Gas Co.—Refinancing Completed—

E. J. Mosser, President, on Jan. 23 in a newsletter to stockholders said in part:

"A refinancing program was completed in December. We borrowed $6,500,000 from banks and sold $2,500,000 of 13-year, 5½%, convertible, subordinated debentures. Half of the debentures are convertible to common stock at $5 per share on or before Dec. 31, 1963, and the other half are convertible to common stock at $6 per share anytime on or before Dec. 31, 1965. A part of the proceeds of this financing was used to retire various short-term obligations and the remainder will be used for expansion and development. Rearranging the debt to a longer term basis will result in reducing the annual debt service requirements by more than $600,000.

"Associated was fortunate to acquire an undivided one-half interest in 1,280 acres of leases in Gray County, Texas. We are now in the process of acquiring a like interest in an additional 1,920 acres in the same area.

"Associated recently obtained a farmout on 880 acres of leases located in the southeast corner of Garza County and the southwest corner of Kent County, Texas, with an obligation for a 7,750 foot test well. This well was drilled jointly with another operator who paid 60% of the costs in return for a half interest in Associated's acreage. Encouraging shows of oil in two formations prompted the company to acquire an additional 880 acres in the area and to start the drilling of a second well. The one-half working interest in the original 880 acres has also been reacquired. Now Associated owns the full working interest under 1,760 acres, subject to certain small overriding royalties.

"We have also completed a new gas well in the Trans-Tex Field, Wharton County, Texas, to extend production approximately 3,000 feet to the East."—V. 183, p. 554.

BUSINESS—The company furnishes electric service in the lower one-third of the State of New Jersey, and supplies hot water heating service in a limited area in Atlantic City and steam for heating and other purposes to two customers adjacent to the company's electric generating station in Atlantic City. Capital Flotations in the United States in June And for the First Six Months of 1955

Corporate financing in the domestic market during June, 1955 amounted to $684,800,651. This was a reduction of $147,546,602 under the total for May, last, of $832,347,253, and a greater decline of $302,557,849 when compared with June, 1954's total of $987,358,500.

New capital placements in June, 1955, stood at $592,-872,491 or 86.58% of the month's total dollar volume, while refunding issues aggregated only $91,928,160 or 13.42%.

Long-term bond and note offerings during June, 1955, totaled $455,341,500 or 66.49% of the month's over-all dollar volume. Broken down into new capital and refunding, the former amounted to $382,827,340 or 55.90% of the month's aggregate dollar volume, while refunding issues totaled only $72,514,160 or 10.59%.

Short-term bond and note financing added up to only $7,550,000 in June, 1955, and compared with none during May, last. A comparison with June, a year ago, however, reveals the fact that the single issue of General Motors Acceptance Corp. 2¾% five-year debentures, due June 15, 1959 in the amount of $100,000,000 constituted the total short-term financing for that month.

Stock offerings in June, 1955, added up to $221,909,151 or 32.40% of the month's over-all volume. They compared with the somewhat larger total of $250,198,253 or 30.06% in the month preceding, and the moderately higher sum of $298,655,500 or 30.25% of the aggregate volume for June, 1954.

Of the total stock issues placed in June, 1955, $208,545,-151 or 30.45% of the month's grand total represented new financing, while $13,364,000 or 1.95% fell in the refunding category.

Common stock placements in June of 1955 comprised 87 issues, totaling $172,365,691 or 25.17% of the month's grand total; preferred stocks added up to only 17 issues and totaled $49,543,460 or 7.23% of that month's gross dollar volume. In May of the previous month common stock offerings amounted to 70 and reached a total of $161,064,178 or 19.35% of that month's over-all dollar volume, while preferred stocks were represented by only 20 issues with a gross dollar volume of $89,134,075 or 10.71% of that month's gross dollar volume.

For June, 1954, a breakdown of the stock total into common and preferred issues revealed that the former comprised 63 issues and amounted to $144,328,700 or 14.62%, while the latter totaled 19 offerings and reached the sum of $154,326,800 or 15.63% of that month's gross volume.

Turning to the various categories presented each month in our five-year table on another page of this issue, we note that the public utility category headed the list insofar as dollar volume was concerned by totaling $316,-023,770 or 46.15% of the month's total financing. This was followed by other industrial and manufacturing which added up to $119,497,492 or 17.45%; miscellaneous, $104,337,578 or 15.24%; rubber, $50,000,000 or 7.30%; investment trusts, $47,158,452 or 6.89%; railroads, $20,-173,000 or 2.95%; iron, steel, coal, copper, etc., $13,719,-399 or 2.00%; oil, $7,647,000 or 1.12%, and land, buildings, etc., $6,243,760 or 0.91%.

Offerings of substantial proportions floated during June, 1955, included the $50,000,000 Goodyear Tire & Rubber Co. issue of 100-year 3¾% unsecured notes, due in 2055, followed by the Western Union Telegraph Co. emission of its 4⅛% debentures, series 1, due June 1, 1980, in the amount of $38,500,000; the Southern California Edison Co. offering of $37,737,500, 3¼% convertible debentures, due July 15, 1970; the $25,000,000 Merritt-Chapman & Scott Corp. 4½% convertible subordinated debentures, due July 1, 1975; Trans World Airlines, Inc., 3¾% equipment mortgage sinking fund bonds, due Dec. 1, 1969, and totaling $25,000,000, and a like sum of Virginia Electric & Power Co. 3¼% first and refunding mortgage bonds, series L, due June 1, 1985; $22,900,351 Consolidated Natural Gas Co. capital stock consisting of 738,721 shares of $10 par value a share; the $20,000,000 Southern New England Telephone Co. 3¼% 34-year debentures, due June 1, 1989, and the Tennessee Gas Transmission Co. 4.90% cumulative preferred stock comprising 200,000 shares of $100 par value a share and totaling $20,000,000.

Private offerings in June, 1955, totaled 52 in number and amounted to $286,124,000 or 41.78% of the month's grand total. For May of last year a total of 33 issues were placed through the private route, aggregating $129,-802,075 or 15.59% of that month's gross dollar volume. The current figure also compares with the June, 1954 total of $385,175,500 made up of 52 issues, equaling 39.01% of that month's over-all dollar volume.

*Average rate on a bank discount basis. a Comprised of three separate series, all of which were changed as follows:

SERIES E—Beginning May 1, 1952. Overall interest rate raised from 2.9% to 3% compounded semi-annually when held to maturity. Higher rate achieved by shortening the maturity of the Series E Bond from 10 years to 9 years, 8 months. Interest starts accruing at the end of six months instead of one year. Also the yield is higher in each intermediate year. Individual limit on annual purchases has been doubled from $10,000 to $20,000 maturity value.

SERIES H (NEW)—New current income bond, Series H, available beginning June 1, 1952, bearing 3% interest, compounded semi-annually, when held to maturity. Issued at par, Series H will mature in 9 years and 8 months, with interest paid by check semi-annually. Redeemable at par any time after 6 months from issue date, on one month's notice. Series H has individual limit on annual purchase of $20,000.

SERIES J AND K—These replaced Series F and G Bonds, respectively, as of May 1, 1952. Series J and K yield a return of 2.76% when held to maturity, instead of the former rate of 2.53% for F Bonds and 2.50% for G Bonds. Intermediated yields of Series J and K will be higher than those of F and G. Annual purchase limit of Series J and K combined is increased to $20,000.

For previous data on Savings Bonds, see footnote on page 2637, June 30, 1952 "Chronicle."

c Sale of Treasury notes of Series A was terminated on May 14, 1953. Sales of Treasury notes of Series B began on May 15, 1953. Notes are sold at par and accrued interest to the 15th of the month and if held to maturity or two years interest approximates 2.47%. Sale of Treasury notes of Series "C" began on Oct. 1, 1953; the notes are sold at par and accrued interest to the 15th of the month and if held to maturity or two years, interest approximates $2.20 per month for each $1,000 note. The sale of Series C Treasury Savings notes was suspended on Oct. 23, 1953. For previous data on Treasury notes, see footnote on page 1470, Oct. 19, 1953, "Chronicle."

General Corporation and Investment News

(Continued from page 2)

E. G. Grace, Chairman, in the preliminary report for 1955 said in part:

"The income account for the year 1955 reflects the profit ($6,630,042) on the sale by Bethlehem Steel Corp. in May, 1955, of 400,000 shares of common stock of Rheem Manufacturing Co. and the capital gains tax ($1,657,511) on such profit.

"The cash expenditures in 1955 for additions and improvements to properties and for acquisition of properties amounted to $98,527,263, as compared with $77,087,080, in 1954. The estimated cost of completing construction authorized as of Dec. 31, 1955, is $157,000,000. Since Dec. 31, 1955, additional expenditures of approximately $125,000,000 for further additions and improvements to properties have been authorized.

"It is estimated that the total expenditures for additions and improvements and acquisitions made or authorized since Dec. 31, 1949, in respect of which Necessity Certificates had been issued prior to Dec. 31, 1955, under the provisions of the Internal Revenue Code will be approximately $557,000,000, of which approximately $378,000,000, will be subject to amortization for tax purposes under the provisions of such Code. The total amount charged to income in 1955 on account of such amortization is $62,000,000.

"As stated in the annual report of the corporation for 1954, it owns 45% of the stock of Erie Mining Co. and has agreed to provide its share of the cost of financing the taconite project of the latter company. Prior to Dec. 31, 1955, Erie Mining Co. sold $114,000,000 of its first mortgage 4¼% bonds to a group of nine insurance companies. It is expected that Bethlehem Steel Corp. will be called upon to purchase in 1956, $93,000,000 of such bonds and, in addition, to provide in 1956, $9,000,000 for construction costs of the project. A substantial part of the expenditures for the project will become subject to amortization under the provisions of the Internal Revenue Code." —V. 182, p. 1798.

E. A. Morris, President, said the company's new manufacturing facilities, acquired during the past several years, were a major factor in making possible this record sales volume.—V. 182, p. 1334.

The company reported for December, 1955 operation, a net income deficit before Federal income tax adjustment of $147,640. This compares with a net income deficit before Federal income tax adjustments in December, 1954 of $299,993.

December also reflected the additional expense from increased wages effective Oct. 1 and Dec. 1, 1955 as a result of national mediation amounting to $305,000.—V. 183, p. 554.

Boston Woven Hose & Rubber Co.—$18.50 Offer—

An offer of $18.50 per share has been made to the company's common stockholders for their holdings by a concern which is seeking to purchase a controlling interest in this company. The offer is made through the Rockland-Atlas National Bank of Boston.

John M. Bierer, President, on Jan. 30 in a letter to Boston Woven stockholders, said in part:

"None of the officers or directors of our company had any connection with the making of this offer or knew that it was to be made until just before it was mailed. Since then I have met with the principals and am assured that if they are successful in obtaining control, it is their intention to continue the business and maintain it unchanged both as to organization and policies.

"The company's directors at a special meeting of the board held Jan. 30 have considered this offer and are unanimous in their feeling that the offered price of $18.50 per share is a fair value for our common stock at this time. The directors of the company have all agreed to deposit their stock.

"While I am very close to my normal retirement date, I have been requested to continue to serve as President through 1957. I have agreed to accept."—V. 182, p. 210.

figure to about 140,000 barrels a day. The program is expected to be completed in 1957-1958, and is additional to the installation announced last November of a 2,600 barrels a day aviation gasoline plant at Kent refinery to cost an estimated $18,000,000. The Kent refinery, which began operations in 1953, is one of 14 refineries which British Petroleum, either alone or with other interests, controls in Great Britain, Australia, Aden, France, Belgium, Italy, Germany and Israel.—V. 183, p. 206.

Burroughs Corp.—Installs New Electric Computer—

Something new in electronic computing—using a "small brain" to assist a "giant" in solving complex problems quickly—got underway recently at the United Aircraft Computation Laboratory, East Hartford, Conn.

United Aircraft engineers began using a Burroughs Corporation E101 electronic computer, which is the size of an office desk, to pilot the calculations of a giant robot, which fills a large room, in designing advanced jet engines.

Stuart L. Crossman, head of the Computation Laboratory, explained that the Burroughs "small brain" pilot operations are part of a process known in the electronic computer field as "debugging the program"—checking the accuracy of instructions fed into the "giant brain."

Frank W. Ladwig, Manager of Burroughs' Computation Section, said the installation of his company's desk-size "brain" at United Aircraft is an entirely new and significant development in electronic computing. The E101 was designed by Burroughs new Research Center in Paoli, Pa., and is now in volume production at Burroughs Detroit plant.

Mr. Ladwig said that Burroughs has already scheduled delivery of E101s to a large number of companies in 1956, and during the next few months the E101 will be installed in companies in many different lines of endeavor including optical, oil refining, chemical, aircraft manufacturing, research, engineering, banking and business.—V. 182, p. 2015.

(A. M.) Byers Co.—Management Directors Elected—

J. Frederick Byers, Jr., Vice-President of this company, and Frank L. Seamans, its General Counsel, were re-elected to the board of directors on Jan. 30. Both were management candidates in the company's current proxy fight.

A resolution introduced by the opposition to change the company's rotating method of electing directors was defeated 169,839 to 111,754.

At the company's board meeting following adjournment of the annual meeting, J. Frederick Byers, Jr. was elected to the new position of Executive Vice-President and A. R. Frame, who was General Manager of Operations, was elected to the new post of Vice-President in charge of Operations.

Among the officers re-elected by the board were: A. B. Drastrup, President; B. M. Byers, Vice-President in Charge of Sales; Frank G. Love, Secretary and Treasurer.

W. Denis Kendall, one of the two directors elected to the Byers board by the opposition at last year's annual meeting, had submitted his resignation to management.

Mr. Drastrup has stated that, following management's victory, he would immediately open negotiations with General Tire & Rubber Co., Akron, Ohio, concerning an affiliation of the two companies.—V. 183, p. 402.

Carolina Mines, Inc., Kings Mountain, N. C.—Stock Offering Suspended—

The SEC, it was announced on Jan. 27, has issued an order under the Securities Act of 1933 temporarily suspending a Regulation A exemption from registration with respect to a public offering of stock by this corporation. The order provides an opportunity for hearing, upon request, on the question whether the suspension order should be vacated or made permanent.

The company filed its Regulation A notification Aug. 8, 1955, and proposed the public offering of 217,395 shares of its common stock at the $1 par value thereof. In its order the Commission asserts that it has "reasonable cause to believe" (a) that the terms and conditions of Regulation A have not been complied with by Carolina Mines in that the notification and offering circular contain false and misleading statements of material fact, and (b) that the use of such offering circular in connection with the stock offering would and did operate as a fraud and deceit upon the purchasers." Among other things, the order asserts that the offering circular (1) fails to disclose the pendency of litigation with respect to the title of Carolina Mines to a major portion of its mining properties; (2) states that there are no "pending suits of any type, civil or criminal against the corporation," whereas it appears that Carolina Mines is defendant in a suit which seeks to nullify and set aside the mineral deed to such properties on which issuer's title is based, in part, and which contains an allegation that said mineral deed was procured by fraud; (3) fails to disclose material interests of officers, directors and others in the issuer and its assets, including options to purchase stock, an interest in a company which is to receive royalty payments on all kyanite processed, and agreements to receive part of the stock issued to two others for property and services; (4) fails to disclose information with respect to stock sold prior to commencement of the public offering, including the sale of at least $110,000 of stock for cash and the agreement of A. S. MacCulloch to retransfer to others 490,370 shares received by him for property and services; and (5) states that the stock to be issued to MacCulloch was "to be issued to him for investment only" whereas it appears that he intended to make a distribution of a substantial amount of said stock.

The Commission's order further asserts that the terms and conditions of Regulation A were not complied with, in that written offers of Carolina Mines stock were made without furnishing copies of the offering circular, that shares were sold to certain persons without delivering copies of the offering circular, that the offering of securities was commenced prior to [illegible] in the Regulation, and that the aggregate offering price exceeded the $300,000 limitations of the Regulation.—V. 182, p. 811.

Carolina Telephone & Telegraph Co.—Registers With Securities and Exchange Commission—

This company on Feb. 1 filed a registration statement with the SEC covering 66,640 shares of its $100 par common capital stock. No underwriting is involved.

Southern Bell Telephone & Telegraph Co., which owns 52,762 (31.67%) of the company's shares now outstanding, has advised the company that it intends to sell the 52,762 rights to subscribe for the new shares which it will receive; that it intends to sell, as a whole, at competitive bidding, 36,162 of these rights; and that it intends to offer the remaining 16,600 rights to selected institutional investors.

Present plans include starting construction at an early date of new plant facilities to cost approximately $7,000,000.

"While increased sales contributed additional earnings," Mr. Mansell said, "a substantial factor in the earnings growth was the extensive research, and plant modernization and improvement programs instituted within the past few years and now being carried on." —V. 182, p. 2678.

C. I. T. Financial Corp.—Obtains $100,000,000 on 20-Year Notes—This corporation announced on Jan. 31 that it had borrowed $100,000,000 for a term of 20 years from a large insurance company. The loan is equally divided as between senior subordinated and junior subordinated 4% notes. These additional funds will provide an enlarged base for future borrowings.

During 1955, the corporation borrowed $192,000,000 in term money, through the placement of its promissory notes with institutional investors and through the issuance of $100,000,000 in notes to the public. Only $38,500,000 of these combined borrowings were for the purpose of meeting maturing obligations, the remainder being new money for expanding operations.

Arthur O. Dietz, President, said the current borrowing of $100,000,000 on a subordinated basis, which provides a base for further large borrowings as they may be required, is C. I. T.'s vote of confidence in the economic outlook.

Mr. Dietz said that currently the corporation owes approximately $1,600,000,000 and is utilizing this, plus its invested capital of more than $200,000,000, at a rate of turnover which permits the company to handle more than $5,000,000,000 of financing a year. With the value of the gross national product running at a rate of $400,000,000,000, he added, C. I. T.'s financing operations are equal to 1¼% of the total.—V. 183, p. 555.

Fairbanks, Morse & Co.—New Interests Buy Stock—Robert H. Morse, Jr., President, in a letter dated Jan. 27 to stockholders, said, in part, in substance:

The morning newspapers of Jan. 27 carried a statement from Leopold D. Silberstein of New York, President of the Penn-Texas Corp., claiming that his company had acquired a block of more than 100,000 shares of stock in your company and that he intended to become a part of the management of Fairbanks, Morse & Co.

Mr. Silberstein refused at a conference to reveal how much stock he actually owned, or who were his associates who, he claimed, owned more than 200,000 shares of additional stock. At this conference, Mr. Silberstein said he wanted to appoint thre of the directors of Fairbanks, Morse.

He added that he wanted a job for himself in a responsible management role "as Chairman of the Executive Committee or Chairman of the Finance Committee" and wanted to play a prominent role in management.

Your company may well be considered an attractive target. Dividends, suspended briefly during the height of the depression, have been paid every year since 1936. A long-range diversification program has given your company a sound position in basic fields.

It will be regretted if management is forced into a contest by Mr. Silberstein and those unnamed sources who have joined in the accumulation of Fairbanks, Morse stock. Such a contest, while not of our choosing, will be waged with strength and determination.

The Reynolds firm also announced plans to construct a new reduction plant and the property which Ford intends to purchase is adjacent to the site on which Reynolds will build its new facility.

The metal will be used to produce automotive parts in permanent mold and die casting operations. A new issue of 100,000 shares of first preferred stock 4.8% series ($25 par value) was sold in November, 1955. The dividend requirements on the new stock amounting to $120,000 per year were cumulative from Dec. 1, 1955.

Dwight S. Brigham, Chairman of the Board, commented that the maintenance of stable competitive selling prices, combined with further increases in unit costs of labor and purchased materials had prevented the net profit from increasing proportionately with the increase in sales volume. He further noted that the sales promotion budget had been increased substantially and accelerated in the last quarter of 1955 with a view to full utilization of the additional manufacturing capacity in operation at Waterville and under construction at Hammond.—V. 182, p. 2250.

The company has made arrangements with a group of commercial banks for lines of credit providing for maximum borrowings of $30,000,000. It is expected that this credit will be used only in part in connection with the 1956 construction program.—V. 182, p. 2791.

Long Island Arena, Inc. (N. Y.)—Registers With SEC

This corporation filed a registration statement with the SEC on Jan. 25, 1956, covering 525,000 shares of its common stock (10c par), to be offered for public sale at $1.50 per share. The offering is to be made on a "best efforts" basis by Dunne & Co., of New York, for which it will receive a selling commission of 25c per share. The company has agreed to pay expenses of the underwriter up to $25 500; and it also has granted the underwriter warrants to purchase 75,000 shares of common stock at $1.50 per share, the warrants being exercisable after one year from the effective date of the registration statement and at any time during the succeeding two years.

Organized under New York law on March 25, 1954, the company intends to build and operate an indoor arena for sports events, entertainments, civic and commercial events and recreational activities in Commack, N. Y., in Smithtown Township, Suffolk County, Long Island. According to the prospectus, all necessary approvals of the plans for the arena have been obtained, work on the foundation was started in early December, 1955, and the company anticipates that the arena will be in operation by September, 1956.

Net proceeds of the present financing will be added to the company's general funds and will be available for its general corporate purposes, including the construction of the arena. National Press Building Corp.—To Sell Bonds—

This corporation filed an application with the SEC on Jan. 27, 1956, for qualification under the Trust Indenture Act of 1939 of an indenture pursuant to which $1,754,650 of income debenture bonds due Jan. 1, 1979, are to be sold. According to the application, a derivative declaratory judgment suit was brought in 1952 by certain preferred stockholders against the corporation in order to determine the rights of the preferred stockholders. The common stockholders intervened in said suit and a settlement was negotiated whereunder an exchange was to take place in which each holder of one share of $2.50 preferred stock of this corporation was to receive one $10 income debenture bond pursuant to the indenture herein filed. An exchange offer was made to the preferred stockholders with the provision that when an amount of preferred stock satisfactory to the board of directors of this corporation was deposited for exchange, the exchange offer could be accepted and the settlement consummated. The board of directors in December, 1955, did accept the exchange offer and on Jan. 4, 1956, the settlement negotiated by the parties to the suit was approved by the U. S. District Court for the District of Columbia and the suit was dismissed with prejudice. Applicant alleges that the debentures to be issued pursuant to the indenture herein filed are exempt from registration under the Securities Act of 1933, as amended, pursuant to Section 3(a)(9) since an exchange is to be made with the corporation's existing stockholdeers and no remuneration or commission or other consideration is to be made for the exchange.

Nevada Natural Gas Pipe Line Co., Las Vegas, Nev.—Registers Units With SEC—To Place Bonds Privately—

This company on Jan. 30 filed a registration statement with the SEC covering $1,000,000 of 5½% subordinated sinking fund debentures due March 1, 1976, and 160,000 shares of its $1 par common stock. The company proposes to offer these securities in units consisting of $25 of debentures and four shares of common stock. The offering is to be made at $50.50 per unit, with a $4.25 per unit commission to the underwriters, headed by First California Company.

The company operates a pipe line system completed in 1954 for transporting natural gas purchased from El Paso Natural Gas Company for sale to three retail gas distribution companies and to various industrial customers in the Las Vegas-Henderson area of southern Nevada.

Proceeds of the sale of the units of debentures and stock, together with the proceeds of the sale of $2,700,000 of 4½% series first mortgage bonds due 1976 to The Mutual Life Insurance Co. of New York, are to be used, in part, to repay short term bank loans incurred to finance the construction already in progress. The balance of the funds will be used primarily for the completion of the construction program. This consists of the proposal to install an additional transmission line and to construct several extensions from its transmission line to serve new loads.—V. 178, p. 1879.

Nuclear Development Corp. of America—Obtains New Capital to Finance Expansion—

This corporation has obtained privately additional corporate financing from a group composed of Laurance S. and David Rockefeller; J. H. Whitney & Co.; William A. M. and Shirley C. Burden; Smith, Barney & Co. and C. E. Unterberg, Towbin Co.

The financing consisted of the sale of stock in the company and the creation of a long term loan commitment.

John R. Menke, President, said the new capital would be used for further development of nuclear reactor testing and manufacturing facilities as a part of a planned expansion program for the year 1956. The corporation is the senior nuclear engineering firm in the country, and has gained a wide reputation in industrial and scientific circles in connection with its development of several advanced nuclear reactors.

Immediate projects, Mr. Menke said, include the development of NDA's Nuclear Experimental Station at Pawling, N. Y., and further additions to fabrication and laboratory facilities at its White Plains headquarters. The corporation also does considerable reactor development for its own account.

The first buildings at Pawling will be a critical facility for testing reactor cores and a "hot" laboratory where radioactive fuel elements may be examined and where radioactive chemicals may be analyzed. These two structures and their equipment will cost about $500,000.

NDA holds classified work contracts for reactor design and development with the U. S. Atomic Energy Commission, the U. S. Air Force, Army and Navy, Pratt and Whitney Aircraft, and General Electric, and is the nuclear engineer for the fast breeder reactor planned by Atomic Power Development Associates for construction in the Detroit Edison Co. service area. The corporation completed the first design for a medical research reactor following a study of neutron sources under contract with Brookhaven National Laboratory.

This corporation was established in New York City in 1948 by Mr. Menke, Gale Young, Executive Vice-President and Technical Director, and a small group of scientists and engineers. Its staff now numbers 200 scientists, engineers and supporting personnel.

We cannot furnish them today, inasmuch as the week ends Saturday, and the Saturday figures are not available at time of going to press. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results of the previous week — week ended Jan. 28. Ohio Match Co.—Seeks Hunt Foods Stock—

The directors on Jan. 27 announced that they had approved the making of an offer to exchange common and preferred stock of Ohio for at least 80% of the outstanding common and preference stock of Hunt Foods, Inc.

Under the terms of the offer, Ohio would offer one share of its $100 par value voting preferred stock for each ten shares of Hunt $10 par value preference stock, and two shares of Ohio common stock for each share of Hunt common stock. As an alternative, common stockholders of Hunt would have the option of receiving one share of Ohio common plus one-fifth of a share (the equivalent of $20 par value) of preferred stock of Ohio for each share of Hunt common stock. However, the amount of preferred stock available under this alternative for exchange for Hunt common would be limited to $1,830,230 par value in order that the amount of preferred stock that could be outstanding on completion of the exchange would in no event exceed $12,000,000. If preferred stock in excess of this limitation of $1,830,230 is requested by common stockholders of Hunt, then the available amount would be prorated. The offer to Hunt stockholders would provide that the exchange will be effected only if accepted by the holders of at least 80% of the common and preference stock of Hunt.

Submission of the offer to Hunt stockholders is contingent upon approval by Ohio stockholders at a meeting to be called for that purpose.

It is contemplated that upon the completion of the exchange, application for listing the Ohio common stock will be made to the New York Stock Exchange and perhaps other national exchanges, and for listing the Ohio preferred stock on at least one of the national exchanges.—V. 175, p. 1762.

The $2,730,000 represents the estimated maximum aggregate employee deposits and company contributions during the five-year period.—V. 180, p. 1107.

Olympic Radio & Television Inc.—Expansion—

Topping all previous records in its 109-year history, this company reported a total of $516,537,399 in new business in 1955, it was announced on Jan. 27 by Malcolm Adam, President. This represented an increase of $114,994,037 and a 28.6% gain over 1954, the company's previous top production year. This marked the fourth consecutive year of record-breaking new business totals.

The company's net operating income was $24,026,757—a gain of $2,725,602 over the comparable figure for 1954. The sum of $16,700,000 was set aside for 1956 dividend payments to policyowners.

Assets reached a new peak of $1,578,577,452—an increase of almost $59,000,000 over the 1954 total. The net rate of interest earned by the company on its investments, before Federal income taxes, was 3.48% compared with 3.40% in 1954 and 3.29% in 1953.

Penn-Texas Corp.—Interest in Fairbanks-Morse—

L. D. Silberstein, Chairman of the Board and President, on Jan. 26 issued a statement designed to clarify the corporation's position with regard to Fairbanks, Morse & Co.

He reiterated his Jan. 5 statement that as of that date neither Penn-Texas, its associated companies nor he himself owned any shares of Fairbanks, Morse.

"Now, however," he said, "Penn-Texas Corp. is the owner of record of 100,000 shares of Fairbanks, Morse common stock. These shares are held as an investment and we are naturally obligated to protect it."

In addition, Mr. Silberstein stated that negotiations have been concluded for the purchase of 15,000 shares from Charles H. Morse, his wife and a daughter. Mr. Morse had been director and past President of Fairbanks, Morse & Co. Penn-Texas further agreed to purchase an additional 27,220 shares from the same parties over a period of time, and the Morses have agreed not to sell their shares to anyone other than Penn-Texas.

Mr. Silberstein said "We will in due course seek proper and proportionate representation on the Fairbanks, Morse board of directors, under the cumulative voting laws of the State of Illinois. We expect to find ourselves associated in this effort with other substantial stockholders with views similar to ours."

Penn-Utah Uranium, Inc.—Stock Offered—The recent public offering of 2,000,000 shares of common stock (par three cents) at 15 cents per share, through Philip Gordon & Co., Inc., New York, was announced on Jan. 26. —V. 182, p. 818.

Pennroad Corp.—Earnings at All-Time High—

An all-time net asset high of $19.44 a share was reached by this corporation, a closed end investment company, on Dec. 31 last, and overall 1955 net income soared to another new record of $17,012,336, or $3.50 a share, Bradley Gaylord, President, announces.

Total net assets climbed to $94,903,159, or $19.44 a share, from $93,231,624, or $18.65 a share a year earlier, after payment of dividends of $9,965,244 or $2 a share.

The record 1955 net income consisted of net investment income of $4,392,673 and realized gain on investments of $12,619,853. This compares with net investment income in 1954 of $2,525,629 and net realized gain on investments of $6,214,833, a total of $8,740,462 or $1.75 a share.

Earnings of Pennroad in 1956, from present indications, should at least equal last year's record figures, Mr. Gaylord said in a statement issued in connection with the annual report. He pointed out that on the basis of the liquidation plan announced on Jan. 6 by Houston Oil, Pennroad's investment in 100,200 shares of the oil company's stock will show a profit of about $13,000,000. This one profit is expected to be more than the entire securities profit made in 1955—$12,619,000.

Mr. Gaylord also pointed out that the year-end net asset figures does not include two items totaling about $3,800,000, a sum of $2,069,050 which is the excess of the liquidation value of Houston over its Dec. 31 market price; and secondly, a tax refund of $1,147,444, plus interest of $596,000, or a total of $1,743,000.

Mr. Gaylord said that in order to carry out the company's policy of paying dividends under the most favorable tax conditions available, the board expects to give consideration to the payment of dividends during 1956 in a form believed to be the most advantageous from a tax point of view.—V. 182, p. 2690.

Mr. Smith, associated with Pepperell for more than 23 years, will relinquish the title he now holds as Assistant to the President. Mr. Strong will continue to serve as Controller. He has been with the firm nearly 10 years.—V. 182, p. 1572.

Rayonier, Inc.—Reports Higher Earnings—

Preliminary figures of this corporation and subsidiaries (including Alaska Pine & Cellulose Ltd.) for the year ended Dec. 31, 1955 showed the chemical cellulose firm increased earnings by 34%, while sales also reflected substantial gains over 1954 to establish again new company records, Clyde B. Morgan, President, reported on Jan. 19.

Net earnings after taxes were $15,900,000 as compared with $11,866,016 for 1954. Net sales reached $142,500,000, a substantial increase over sales of $86,938,652 the preceding year. Mr. Morgan observed that the sales and earnings of Alaska Pine & Cellulose Ltd., in which Rayonier acquired an 80% equity in December, 1954, were included for the first time. The company earned $2.86 per common share, compared with $2.05 a share in 1954. (Earnings per common share have been adjusted for a 2½-for-1 stock split effected in July, 1955.)

The company's preferred stock was called on Sept. 1, 1955, Mr. Morgan said. He also noted that 5,258,043 common shares were outstanding at the end of 1955, an increase from 5,179,105 shares (adjusted after the split) at the previous year-end.

Total tonnage sales were 737,000, including 143,000 tons of Alaska Pine's production, as compared with 505,955 tons for Rayonier alone in 1954. Rayonier's new plant at Jesup, Georgia, started operations in June, 1954, and sale of this production accounts for much of the increased tonnage sold from the company's domestic plants in 1955.

Mr. Morgan said that Rayonier's increase in tonnage sales could be attributed to increased production of rayon textiles, tire cord, acetate and cellophane, as well as rising world demand for the cellulosics.

Rayonier's Canadian subsidiary sold 247,000,000 board feet of lumber and 137,000 squares of red cedar shingles in 1955.

During the year there were no major shutdowns or lost time of consequence at any of the company's plants in the U. S. A. and Canada. High production levels were maintained throughout the year, and according to Mr. Morgan they are continuing into the first quarter of 1956.

Overseas sales accounted for about 35% of Rayonier's total chemical cellulose production. Currently overseas shipments are continuing at the same high rate and prospects are that this satisfactory rate will hold, Mr. Morgan said.

Reviewing 1955's fourth quarter, Mr. Morgan said all-time records were established for tonnage sales on a consolidated company-wide basis and for sales from production of U. S. A. plants.

Construction of a $25,000,000 chemical cellulose mill of 100,000 tons annual capacity got under way late in 1955 at Jesup, Ga. It is expected to be on stream in 1957. It is Rayonier's eighth chemical cellulose mill and the second to be built at Jesup. Together with expansion of production at other Rayonier plants, it will boost Rayonier's total production capacity beyond 900,000 tons annually by late 1957.—V. 183, p. 112.

Seaboard Finance Co.—Stock Split—Dividend Up—

The shareholders on Jan. 26 approved a two-for-one split of the common stock and the directors increased the annual dividend rate.

By declaring a regular quarterly dividend of 50 cents a share the board placed the old common stock on a $2 annual basis. This is equivalent to $1 a share after the split, which takes place Feb. 3. The common has paid dividends of 45 cents a quarter or $1.80 a year since 1949.

The stock split was accomplished by increasing the authorized number of common shares from 3,000,000 to 6,000,000, with the par value of $1 a share remaining unchanged. On Dec. 31, 1955 there were 2,138,739 shares issued.

Shareholders will retain their existing stock certificates and the company will issue new certificates giving them one additional share for each share held. The new certificates will be mailed Feb. 24 to holders of record Feb. 3.

Paul A. Appleby, President, informed the shareholders that the growth in Seaboard's business which set new high records in fiscal 1955 is continuing. He said that preliminary figures for the first quarter of the current year, the three months ended Dec. 31, 1955, showed earnings of approximately 69 cents a common share, compared with 59 cents in the first quarter of last year.—V. 182, p. 2794.

Shell Oil Co.—Reports Higher Earnings—

Net earnings of this company and its subsidiaries for 1955, after taxes, are estimated at $125,500,000 according to H. S. M. Burns, President. This includes $6,100,000 realized from the sale of mid-western Shellane bottled gas facilities.

The earnings figure represents $4.56 per share compared with $121,127,000 or $4.41 per share for 1954.—V. 182, p. 1806.

Sheraton Corp. of America—Debentures Offered—This corporation on Jan. 16 offered $15,000,000 of its 6½% cumulative income subordinated debentures due Jan. 1, 1981. Of this amount $1,500,000 is offered to employees of the company and its subsidiaries at 95% of par and accrued interest, and $12,600,000 is offered to the public generally at 100% of par and accrued interest; the remaining $900,000 principal amount of debentures will be sold to Southland Life Insurance Co., Dallas, Tex., at 96% of par, plus accrued interest.

The company is to pay into a sinking fund for the debentures on or before Dec. 31 of each year, an amount equal to 3% of the principal amount of the debentures outstanding on the previous Jan. 1 (on the previous Oct. 1 in the case of the sinking fund payment to be made Dec. 31, 1956). The company, at its option, may receive credit against its sinking fund obligation for the principal amount of debentures acquired by the company and surrendered for cancellation, and for the principal amount of debentures voluntarily redeemed during the year prior to the sinking fund payment date. The company may defer any sinking fund payment to the extent that it would exceed one-half of Consolidated Net Income (adjusted by eliminating net gains or losses from capital transactions and deducting required amortization payments on Senior Indebtedness of the company and indebtedness of subsidiaries) for the previous fiscal year, provided that no dividends or other distributions on its capital stock have been declared or paid on or after the previous March 1. Deferred sinking fund payments are cumulative. Sinking fund cash will be applied to the redemption on Jan. 1 of each year of debentures at 101% of par, through and including Jan. 1, 1973, and at a price declining annually thereafter at the rate of ⅛ of 1%, in each case with accrued interest.

The debentures are redeemable on at least 30 days' notice at the company's option (i.e. for other than sinking fund purposes) in their entirety or in part, at $103 to and including Jan. 1, 1957, and at a price declining annually thereafter at the rate of ⅛ of 1%, in each case plus accrued interest.

The debentures are to be issued under an indenture with the Old Colony Trust Co., as trustee, permitting the issuance of these debentures, subject to the limitations described below. The debentures now offered will be issued in coupon form in the denomination of $1,000, registerable as to principal, and in fully registered form in denominations of $100 up to $1,000, and multiples of $1,000. The amount initially authorized for issue is $15,000,000. Registered debentures may be exchanged for coupon debentures in authorized denominations, and *vice versa*, without cost to the holder.

GENERAL OFFERING—$12,600,000 principal amount of debentures are being offered by the company through Sheraton Securities Corp., its wholly owned subsidiary, as underwriter, at the prices shown below:

On each sale of $10,000 or more in a single transaction, the price to the public will be subject to the following discounts on the principal amount of debentures purchased (no discounts will be allowed on sales pursuant to the cumulative purchase plan); 1% in case of a sale of $10,000 or more but less than $20,000; 2% in case of a sale of $20,000 or more but less than $50,000; 2½% in case of a sale of $50,000 or more but less than $100,000; and 3% in case of a sale of $100,000 or more.

On sales at 100%, the underwriting discount to Sheraton Securities Corp. will be 6%. On sales at less than 100%, the underwriting discount will be the difference between 6% and the discount from 100% allowed to the investor. The underwriter may enter into sales arrangements with dealers and will allow dealers a commission or discount equal to two-thirds of the underwriting discount received by the underwriter. In connection with the cumulative purchase plan, underwriting discounts to the underwriter and concessions to dealers will be allowed and payable only on actual sales when made. The underwriter has agreed to use its best efforts to sell the debentures and has not undertaken any firm commitment to purchase any of the debentures from the company.

An arrangement (called the "Cumulative Purchase Plan") has been made with General Fiduciary Corp., a wholly owned subsidiary of the company, for the convenience of investors who desire to purchase debentures at regular intervals. Under this plan the investor will make an initial payment of $40 or more to General Fiduciary Corp. and will on an approved form indicate an intention to make periodic payments of $40 or more monthly, bimonthly, or quarterly for the purchase of debentures at the offering price of $100 for each $100 principal amount of debentures.

Whenever $500 or more has been accumulated by the investor in his account, a debenture will be issued to him in a principal amount equal to the amount in his account to the extent that it is a multiple of $100. At the time of the issue the investor will be credited with interest at the rate of 6½% on all payments made to General Fiduciary Corp., and applied to the payment of the debenture, and will be charged with any accrued interest on the debenture issued to him.

The investor may terminate his participation in the plan at any time and it may be terminated by the underwriter if no payment has been made by the investor during any period of three months or more. Upon such termination the amount standing to the credit of an investor to the extent of $100, or any multiple thereof, will be applied to the purchase for the investor of debentures at 100% of par, subject to adjustments of interest as set forth in the preceding paragraph. Any remaining portion of the amount standing to his credit will be repaid to him without interest and subject to the right of the underwriter to charge the investor 1% of such amount. This charge can not exceed $1. The investor will not be charged with any portion of the expenses of operating the plan.

Under the plan General Fiduciary Corp. will act as agent for the underwriter and will transmit to the company daily all funds received from investors under the plan. The company guarantees the performance by the underwriter and by General Fiduciary Corp. of all their obligations to investors and dealers under the plan.

OFFERING TO EMPLOYEES—Employees of the company and its subsidiaries are given the privilege of subscribing to an aggregate of $1,500,000 principal amount of the debentures. They may subscribe by delivery of an Employee's Subscription Form, appropriately filled out, to the General Fiduciary Corp., 470 Atlantic Ave., Boston 10, Mass. Subscriptions received on or prior to April 30, 1956 will be accepted, subject to the right of the company to refuse or reduce the amount of any subscription in any case where it deems it advisable, and subject to allotment on a pro rata basis, according to the amounts subscribed for. Subscriptions received thereafter will be accepted subject to prior subscriptions. The Employee's Subscription Form will permit the employee to pay for his subscription in cash or in accordance with the Employee's Time Payment Plan.

PROCEEDS—The net proceeds to be received from the sale of the debentures offered will be added to the general funds of the company and, together with funds received by the company from other sources, will be available for its general corporate purposes, including the financing of the cost of acquisition and new construction which the company is currently undertaking or which it may hereafter undertake. No portion of the proceeds of the sale of the debentures has been allocated for any particular purpose. In connection with projects which the company has agreed or plans to undertake, including principally the construction of the hotel in Philadelphia, the construction of an addition to the Sheraton-Belvedere Hotel in Baltimore, the acquisition of the Jefferson Hotel in St. Louis, the purchase of the Sheraton-Astor Hotel, and improvements to the Sheraton-McAlpin Hotel, both in New York City, it is estimated that the company and its subsidiaries during 1956 will incur expenditures aggregating approximately $34,000,000. Of this amount it is expected that approximately $27,000,000 will be represented or obtained by mortgages, including purchase money mortgages, on the specific properties involved, and that a balance of approximately $7,000,000 will be required. While the management also expects that it will be able to obtain these additional funds from current earnings and additional financing of specific properties and other sources, the proceeds from the sale of the debentures may be used in part for such purposes.

However, the company is making this offering primarily for the purpose of obtaining funds for projects which the company may here-

Siegler Corp.—Sales and Earnings Rise—

New record sales and earnings for the six months of its fiscal year, and for the second quarter ended Dec. 31, were reported on Jan. 31 by John G. Brooks, President.

Sales for the six months ended Dec. 31—first half of the fiscal year for Siegler—totaled $7,018,467, of which $3,923,511 was for the three months ended Dec. 31, 1955. This includes the Holly Manufacturing Co. division for the period from Nov. 29, when it was merged into Siegler. This compared with Siegler sales of $5,777,635 for the six months ended Dec. 31, 1954.

Net earnings for the six months were $613,855, equal to 88 cents a share on the 697,696 common shares outstanding Dec. 31. Net in the three months to Dec. 31 was $421,456 or 60 cents a share. Because of the interim period cash accounting basis used in the prior year, no profit comparison is available, Mr. Brooks stated.

Results for the six months including Holly for the entire period, would have shown sales of $9,036,916 for the first half of the Siegler fiscal year, and $4,793,462 for the second quarter to Dec. 31. Net earnings on this basis would be $1.05 a share, in the first half, and 70 cents a share for the second fiscal quarter, according to Mr. Brooks.

"Acquisition of Holly Manufacturing Co. (Pasadena, Calif.), one of the country's largest producers of wall-type heaters, was completed Nov. 29, and the business now operated as Holly Manufacturing Co. division is contributing substantially to Siegler's growth through more complete coverage of the market for heating equipment on a national scale," Mr. Brooks said.

Mr. Brooks also reported that "construction will start early in February for the Hallamore Electronics Division's new plant in Anaheim, Calif."—V. 183, p. 8.

Spokane Natural Gas Co.—Registers With SEC—

In anticipation of the availability of natural gas in its service area in August, 1956, this company (name changed from Spokane Gas & Fuel Co. in January, 1956) plans a $10,000,000 construction program to strengthen and improve its present distribution facilities and to construct new distribution facilities to serve additional areas in and near Spokane, Wash., it was announced on Feb. 2 by Nathan H. Gellert, Jr., President. The Pacific Northwest is the last major economic area in the United States to receive natural gas.

Coincident with the announcement by Mr. Gellert, a registration statement was filed with the Securities and Exchange Commission. The proposed financing calls for a six-year bank loan aggregating $6,275,000 by J. P. Morgan & Co. Incorporated and several other banks, and when the registration statement becomes effective, the public offering through an underwriting group headed by White, Weld & Co. of approximately $3,305,000 principal amount of Subordinate Interim Notes and 70,100 shares of $1 par value common stock. The offering will comprise 70,100 units, each consisting of a subordinate interim note, $50 principal amount and one share of common stock which will not be separately transferable until May 31, 1956. Industry in the area has indicated a demand for natural gas and the company has already entered into long-term contracts to supply natural gas to Kaiser Aluminum & Chemical Corp., Pacific Northwest Alloys Inc. and Ideal Cement Co. The Kaiser contract calls for the delivery of approximately three billion cubic feet of natural gas per year.

Standard Coil Products Co., Inc.—Defers Dividend—

The directors on Jan. 27 voted to change its dividend payment policy and defer action on the common dividend customarily declared around this time. The decision was taken, Glen E. Swanson, President, declared, in order to conserve the company's cash position in view of the abnormally large capital expenditures incurred in the development of a new low-cost television tuner and the necessary expansion of the company's facilities. Substantial orders have already been received for the new tuner from several important television set manufacturers, he pointed out, and a number of other large set makers which in the past have manufactured their own tuners, have indicated favorable interest in the device. According to Mr. Swanson, the company should be in full production of the "Neutrode" tuner by March 1 of this year.—V. 183, p. 8.

Standard Oil Co. (New Jersey)—Split Approved—

The stockholders on Jan. 30 voted to amend the company's certificate of incorporation which triples the number of shares of stock while changing their par value from $15 to $7 per share. As 80,000,000 shares were authorized, this increases the number to 240,000,000 and each stockholder would have three shares of stock for every one he presently holds.

The stockholders also approved a proposition to add 10,000,000 shares to Jersey's authorized capital stock and bring the new total to 250,000,000 shares. The company announces that at present it has "no specific plans in mind for these additional shares. But having an addition to the capital stock authorized will give your management a flexibility of means to take advantage of businesss opportunities as they arise."

M. J. Rathbone, President, announced that last year—1955—was the best in the company's history. Affiliated companies set new over-all records for the amounts of crude oil produced and products sold. Refining and transportation operations were also at new high levels. Petrochemical sales were at a level above that of any previous year, and represented approximately 6% of total domestic sales.

Mr. Rathbone said: "We are now estimating Jersey's consolidated net income for 1955 will be $717,000,000 which would come to $10.96 per share on the shares outstanding at the end of the year. Consolidated net income for 1954 was $585,000,000, or $9.56 per share based on the average number of shares outstanding in that year. These earnings figures should of course be considered in relation to the size of the investment from which they are produced, and the need for additional capital investments to meet increased demands. The consolidated net investment at the end of 1955 will probably be about $4,700,000,000. As to the needs for additional capital investment, we estimate Jersey and its affiliates have spent about $850,000,000 in 1955 for new plant and equipment and in the search for new oil reserves. The thirst of the world for oil requires these tremendous investments and a decrease in them would mean loss of position in the industry to competitors.

"Counting the investments to be made by non-consolidated affiliates, we anticipate that this year's investment program will total $1,200,000,000. We expect that about $950,000,000 of this amount will be put to work within the Western Hemisphere; with $475,000,000, being spent in the United States. Some $150,000,000, will be invested by consolidated affiliates chiefly in Western Europe, the United Kingdom and North Africa. It is in the Eastern Hemisphere that most of the capital investments by non-consolidated affiliates will be made.

"An expansion of transportation facilities to carry crude and products will also be necessary. Jersey affiliates, foreseeing this, are planning to increase their tanker fleet within the next few years by an additional 53 supertankers at a cost of $312,000,000. About half of these ships are now under construction or are on order. Additions to and modernization of pipeline and inland waterway facilities are also going forward in the United States and abroad."—V. 182, p. 2025.

Stauffer Chemical Co.—Earnings Up 33%—

Preliminary unaudited earnings of $12,305,000, or $4.04 per share for 1955 were announced on Feb. 1 by Hans Stauffer, President. This represents an increase of 33% over 1954 earnings of $9,210,000, or $3.02 per share. Sales for 1955 were reported at $145,490,000, up 24% from 1954 sales of $116,916,000. These figures include earnings and sales of Consolidated Chemical Industries which was merged with Stauffer in November last year.—V. 182, p. 2136.

(F. J.) Stokes Machine Co., Inc.—New Unit—

F. J. Stokes Co., of Canada, Ltd., a new subsidiary, has been established to carry on the steadily growing operations in Canada of the parent organization, it was announced on Jan. 27.

Francis Dougherty, Jr., President of the parent company, will also head the new Canadian subsidiary.

Stubnitz Greene Corp., Adrian, Mich.—Plans Debenture and Stock Financing—

This corporation plans to offer rights to purchase $1,000,000 of 5½% sinking fund subordinated debentures, 100,000 shares of 60-cent cumulative preferred stock, and warrants to purchase 60,000 shares of common stock at $8 per share, it was announced on Feb. 1 by Maurice Stubnitz, President. Golkin & Co., New York City, would be the underwriter of the contemplated offering.

The directors voted to submit the proposal to stockholders at a special meeting to be held on Feb. 15. In a letter to shareholders it was proposed that for each 100 shares of common stock presently owned, stockholders would receive rights entitling them to subscribe to a unit consisting of $250 principal amount of the 5½% subordinated debentures, 25 shares of the 60-cent cumulative preferred stock, and detachable warrants to purchase 15 shares of the company's common stock, good until March 31, 1961, at a price of $8 per share. The subscription price for this unit would be approximately $418.75.

R. B. Crowe, Secretary, stated:

"Not only is this corporation one of the country's largest manufacturers of automotive cushion seat springs, but the Reynolds Chemical Products Division is showing definite progress since its recent reorganization and the addition of several experienced sales and technical personnel, and this Division now offers and sells a broad group of vinyl coating products to industry. Other Divisions manufacture automotive motor valve springs and similar products, and electrical switches."—V. 182, p. 52.

Sunray Mid-Continent Oil Co.—Drilling Operations—

The combined over-all success ratio of this company's exploration and development drilling operations during 1955 was 68%, as compared to the industry average of 65%, it was announced on Jan. 31 by C. H. Wright, Chairman, and W. C. Whaley, President.

During 1955, the company drilled or participated in the drilling of 361 net exploratory and development wells, of which 233 were oil wells, 12 were gas wells, and 116 were dry holes. Of the 361 net wells completed, 109 were net exploratory or wildcat wells in 13 States, resulting in 29 discoveries. The discovery ratio was 23%, as compared to an industry average of 11% on new field wildcats and 17.7% on all exploratory wells.

During 1955, the company produced approximately 35-million net liquid equivalent barrels of oil and natural gas liquids. This figure is a slight gain over comparable 1954 production on a money basis.

It is contemplated that during 1956, barring unforeseen circumstances, Sunray Mid-Continent will drill or participate in the drilling of 459 net wells. Of these projected oil and gas wells, 138 are scheduled to be exploratory wells. The contemplated completions will be 27% greater than the 1955 program.

At 1955 year-end, Sunray Mid-Continent owned undeveloped oil and gas leases covering a total of approximately 4 million acres, and it is believed that during the last year the company improved its acreage position in areas of high potentialities, such as the Louisiana and Texas gulf coast, West Texas, eastern New Mexico, and western Oklahoma.—V. 183, pp. 448 and 561.

Technicolor, Inc.—Expands Plant Facilities—

Further progress toward Technicolor's entry into the mass consumer color field was indicated on Feb. 1, when Dr. Herbert T. That section of the Hollywood plant

which is presently being equipped for amateur Kodachrome processing will represent an investment of approximately $650,000. This sum does not include expenditures for new equipment now being installed or other pre-operating charges.

Dr. Kalmus also announced that additional funds in the amount of $1,200,000 have been appropriated by Technicolor for the increasing amount of research which the company will conduct during 1956 to improve the quality and service of its products for the motion picture industry. Plant facilities of the amateur color processing division are completely apart from present plant facilities of Technicolor and in no way affect the company's capacity to serve the motion picture industry, except as they may indirectly be of help.

In addition to completing the installation of equipment for 35mm Kodachrime processing to begin in May, the new division is considering processing 8mm and 16mm color movies later this year and eventually processing other color films and amateur color paper prints.

Dr. Kalmus late in January had announced the entry of Technicolor into the field of color lithography through the establishing of a Graphic Arts Division. The graphic arts plant, located in Burbank, Calif., will begin to accept commercial orders in July of this year. —V. 183, p. 561.

Third Avenue Transit Corp.—Commission Files New Reorganization Proposal—

The New York P. S. Commission on Jan. 9 rejected all six plans for reorganization of this company and filed a new plan of its own in U. S. District Court for the Southern District of New York, under which the reorganized company would be allowed to issue $8,528,000 first mortgage bonds and common stock with a stated or par value of $2,249,819. The new plan would prohibit dividends on the common shares until the bond issue has been reduced to about $5,000,000. Some time ago, the Court referred the plans to the Commission for advice as to a sound captial structure. The Commission stated that there is a general agreement only on the point that the speedy and sound reorganization of the Third Ave. System is in the public interest, giving opinion that the cash distribution provided under the trustee's plan may endanger successful continued operation of the reorganized company. Referring to estimates of the company value which range up to $35,000,000, the Commission expressed doubt that the figure could exceed $15,000,000. The report also suggested the merger of the Westchester Electric RR. Co. and Westchester St. Transportation Co., subsidiaries. For the new Westchester company, the Commission proposed as a capital structure not to exceed the net worth per books, such capitalization to be limited to equipment obligations and common stock. Noting that some witnesses at a hearing had estimated company earning capacity as high as $3,500,000 a year, the Commission pointed out that net income had reached $2,500,000 only twice in the last 20 years, and that average profits from 1946 through 1954 were only $315,000 annually, excluding the system's charges for "amortization of cost of conversion" to motorbus operations and also excluding income or losses of the former Yonkers subsidiary.

The Commission also stated, in part, as follows:

"We wish to make it abundantly clear that the par value or stated value of the common stock may have no real relationship to its market or earnings value, and its distribution on the latter basis between various classes of creditors is for the Court and not for us to decide. We would see no fundamental objection to the issuance of income notes in lieu of part of the mortgage bonds or of part of the common capital stock. Since, however, there seems to be no disposition on the part of the first mortgage bondholders to take income notes, and in view of the fact that mortgage bonds plus income notes would still further reduce the amount remaining for common stock equity, we do not regard this as a practical method unless it is necessary to provide some intermediate security to take care of certain classes of creditors.

"There is one other consideration we regard as being of fundamental importance, and that is that the reorganized company should start with sufficient current assets including cash to assure its proper operation.

"We have it strongly in mind that any plan of reorganization represents a compromise and an adjustment between conflicting interests; that we are faced with the fact that there are existing liens and existing rights; and that, unless the plan adopted can receive adequate support, there will be no reorganization and then the sole remaining recourse would be sale or liquidation of the company. That certainly would not be in the interest of the traveling public nor of some of the creditors and might not be in the interest of any of them."—V. 181, p. 2934.

Titanium Metals Corp. of America—Shipments—

The first of two carloads of titanium sheet was shipped last week from this company's Leechburg, Pa., plant to Douglas Aircraft Co., Santa Monica, Calif. This is the largest single shipment of titanium sheet in the five-year commercial history of the titanium industry. Whereas, in 1950, a piece of titanium weighing several pounds was a technical achievement, ingots weighing 6,000 pounds are now continuously rolled by TMCA to supply the rapidly mounting demands of the aircraft industry for this very strong, lightweight metal.

To keep pace with the exacting aircraft requirements for gauge uniformity, flatness and surface finish, the Titanium corporation, which is jointly owned by Allegheny Ludlum Steel Corp. and National Lead Co., two weeks ago announced the purchase of the first Sendzimir cluster mill specifically engineered to roll titanium. TMCA is also expanding other production facilities both at its eastern finishing plants and at its main facility at Henderson, Nevada, to better service capacity demands, which in 1956 are expected to more than double the record shipments of 1955.—V. 180, p. 821.

Trane Co.—Reveals 1956 Operating Plans—

Thomas Hancock, Executive Vice-President, on Jan. 30 defined the company's over-all operating plan for 1956. About the air conditioning phase of Trane's 1956 sales goals, he said, "It was geared to follow through on a December prediction by Mr. Minard, that the industry's 1956 air conditioning sales would rise as much as 15% to 20%." Mr. Hancock said that the sales rate of Trane is expected to be higher than the industry average and that the company's output in 1956 may result in one of the largest gains in a single year in its 42-year history.

The announcement also reported five new products which the company has ready for immediate distribution. Included are a completely redesigned line of Self-Contained air conditioners, a new class III centrifugal fan line, improved line of Type "C" Convectors, a new line of Induction UniTrane room air conditioners and an expanded line of larger-sized CenTraVac centrifugal water chilling units for big building air conditioning systems.—V. 182, p. 2837.

Net investment assets totaled $278,027,599 at the end of 1955 and were the largest the corporation has ever reported. The increase of $41,863,310 during the year resulted from appreciation in value of investments, in keeping with higher markets for stocks in general, and from the addition of $4,464,773 of net new funds received for common stock issued upon exercise of the corporation's warrants.

Investment income was higher in 1955 for the 13th consecutive year. The record $9,956,517 reported compared with $8,994,902 last year.

EXERCISE OF WARRANTS—During 1955, a total of 198,491 of the corporation's warrants were exercised by holders to acquire 252,083 shares of its common stock at an aggregate cost of $4,477,004. This reduced the number of warrants outstanding to 3,063,483 and increased the number of shares of common stock outstanding to 4,437,964.

Each warrant provides for the life of the corporation the right to purchase 1.27 shares of common stock at any time at $17.76 per share, with certain adjustment provisions for the protection of this right against dilution.

At Dec. 31, 1955, 3,890,623 shares of common stock were reserved for issuance upon exercise of the 3,063,483 warrants.—V. 183, p. 213.

Ultrasonic Corp.—Reports Improvements—

The condition of this corporation has improved materially in the first 90 days under new management and the company, which was close to bankruptcy last October, believes it can now see "daylight," according to William C. Miller, Chairman.

Mr. Miller also reported that stockholders had approved an increase in the authorized common stock from 2,000,000 to 5,000,000 shares which may be used "to raise additional funds and otherwise strengthen the company.

"After heavy losses for the fiscal years ended Sept. 30, 1954 and 1955," said Mr. Miller, "Ultrasonic's corporate life was saved by two cash transfusions—the investment of $680,000 by the new management group and the sale of certain air conditioning assets to the Rheem Manufacturing Co."

The company has about 60 electronics contracts and subcontracts with the Army, Navy and Air Force, he reported. The aggregate contract amounts were $12,500,000, of which $4,000,000 remains for performance and billing.

Amounts due suppliers have been reduced from $950,000 in October to about $350,000 on Jan. 1.

The bank loans existing Oct. 14 were paid off. In January a new line of bank credit was established.—V. 182, p. 2026.

This corporation filed a registration statement with the SEC on Jan. 25, 1956, covering 97,442 shares of its no par capital stock, to be offered for subscription under the company's Stock Purchase Plan for Employees.—V. 183, p. 253.

Union Securities Corp.—Earnings Up Over 100%—

This corporation had net income after taxes amounting to $2,990,822, in 1955, more than double the $1,209,626 in the previous year, it was announced on Jan. 25 by Francis F. Randolph, Chairman of the Board.

Mr. Randolph said 1955 results were among the best in the 17-year history of Union Securities, which is a wholly-owned subsidiary of Tri-Continental Corp., the nation's largest diversified closed-end investment company.

Union Securities acted as manager or joint manager for securities issues approximating $665,862,000 and had total underwriting participations aggregating about $185,431,000 in issues managed by Union Securities or others, the chairman disclosed.

Mr. Randolph stated that Tri-Continental's paid-in investment of $2,000,000 had been built up by Union Securities over the past 17 years to $20,127,301 at year end, represented by capital, surplus and net unrealized appreciation, and the subsidiary had paid the investment company $4,160,000 in dividends in the same period.—V. 161, p. 148.

United Corp.—Reports Increased Earnings—

Net income for the year 1955 was the highest available for the common stock in the past 23 years and amounted to $4,570,347, equal to 32.5c per common share. In the preceding year net income was $4,251,270 or 30.2c a share.

Wm. H. Hickey, President, stated in the report that of total 1955 net income, $3,316,681 or 23.6c a share was derived from ordinary income compared with $3,174,741 or 22.6c a share in 1954. The improvement in net income, he said, was due in part to increased dividend rates on a number of investment stocks owned by United and to the fact that the company was more fully invested during 1955.

In addition to earnings from dividends and interest, the company realized profits of $1,253,666 or 8.9c per share on sales of securities during 1955. In 1954 such profits were $1,076,529 or 7.6c a share. Mr. Hickey said that in addition to the realized profits on sales of

securities "there remained in the portfolio at the end of 1955 more than $6,000,000 of unrealized capital gains on new investments made in recent years."

Total net assets on Dec. 31, 1955, based on indicated market value of investments held, totaled to $89,534,719, equal to $6.36 a share. At the end of 1954 total net assets were $83,133,679 or $5.91 a share and on Dec. 31, 1953, they were $71,106,271 or $5.05 a share.

Dividends equal to 30c a share were paid by United in 1955 compared with 27c a share in 1954 and 24c a share in 1953. Dividends of $4,221,642 paid in 1955 were the largest cash dividends paid on the common stock since 1933.

The United Corporation became a registered investment company on Jan. 17, 1956, following an order of the SEC declaring it had ceased to be a public utility holding company under the restrictive Public Utility Holding Company Act of 1935.—V. 183, p. 561.

Western Auto Supply Co. (Mo.)—Management Opposes Offer Made by Denman to Purchase Shares—

P. E. Connor, President and Chairman of the Board, on Jan. 30, made the following statement in connection with an offer to purchase 300,000 shares of the company's stock:

"With regard to the public offer to purchase 300,000 shares of stock of our company by Denman Enterprises Ltd., of Hamilton, Ontario, the management of Western Auto Supply Co. must, at this time, oppose such acquisition for the following reasons:

(1) We have sought without success to ascertain who the business connections and associates of Denman Enterprises, Ltd. are and their purpose in acquiring approximately 20% of the outstanding stock of this company.

(2) Neither Denman Enterprises Ltd. nor its associates have advised this company or its officers or directors of their plan to acquire this stock, which is an unusual procedure in such a large acquisition. The management was unaware of the proposal until it appeared in the public press.

(3) The management must continue to oppose this proposed stock acquisition until it knows definitely that there is no association or connection between Denman Enterprises Ltd. and any of our competitors, as such connection would probably result in action by the Department of Justice under the Federal anti-trust laws.

"Until the management is fully advised as to the financial and business connections and associations of Denman Enterprises Ltd. and its purpose in acquiring the stock, it must oppose the proposal.

"Should investigation reveal any aspect of such ownership that would be detrimental to the interests of our stockholders at large, the management will take whatever action is appropriate to fully protect the rights of our 5,600 stockholders."

Robert A. Denman, President of Denman Enterprises Ltd. of Hamilton, Ont., Canada, who has deposited $12,000,000 in conjunction with an offer to purchase 300,000 shares of Western Auto Supply common stock at $38 per share, on Feb. 1 expressed surprise at the opposition voiced by Western's management. He said, "According to the most recent proxy statement of Western Auto all five directors combined hold considerably less than 2% of the outstanding common stock. Yet they refuse to permit us at our expense, to notify the holders of the other 98% of our liberal offer for their shares. In view of the fact that this is not a proxy fight and none has been contemplated, the refusal to mail our offer to the stockholders, while at the same time expending company funds on advertisements to oppose the offer, is most unusual.

"The amount of shares tendered during the first three days far exceeds our expectations. Incidentally, in response to the many communications from stockholders, brokers and reporters, we want to emphasize that we are purchasing stock for our own account, and our account alone." See also V. 183, p. 562.

(Rudolph) Wurlitzer Co.—Reports Higher Earnings—

Sales of this company for the third quarter (October, November and December) were $9,601,007 compared with $9,551,869 for the same quarter of last year. Sales of civilian products for the quarter were up 16% and defense products down 73% from the same period a year ago.

Net earnings for the quarter were $244,586 or 29c per share, compared with $212,242 or 25c per share in the same quarter of last year, an increase of 15%.

Notwithstanding the substantial reduction in sales of defense products, sales for the first nine months (April to December inclusive) were $25,782,776 as compared with $28,151,503 for last year.

Net earnings for the first nine months were $543,597 or 65c per share of common stock compared with $687,423 or 83c per share in the corresponding period of last year.

"Business continues to be good and we expect sales and earnings for the fourth quarter (January, February and March) to be satisfactory," said R. C. Rohing, President.—V. 181, p. 1005.

Wyoming-Gulf Sulphur Corp.—Offering Held Up—

The SEC on Jan. 27 disclosed it is considering issuance of a "stop order" blocking the sale of capital stock of this corporation.

A hearing is scheduled for Feb. 6, the Commission said, on whether it should suspend the effectiveness of a registration statement filed by the corporation on Oct. 10, covering the public offering of 971,000 shares of its capital stock.—V. 182, p. 1614.

Yale & Towne Manufacturing Co.—Stock Split—

The directors on Jan. 26 voted to split the company's stock at a ratio of 2½ shares for 1, with new shares having a par value of $10 each instead of $25 each, subject to the approval of the stockholders at their annual meeting scheduled for April 12, 1956, it was announced by Gilbert W. Chapman, President.

The company now has approximately 750,000 shares outstanding. After the proposed split, there will be approximately 1,875,000 shares outstanding.

New Developments Announced—

Highly decorative hardware trim for low cost houses is now being marketed by this company.

The new metallic embellishments for exterior doors are designed to be used in conjunction with the popular-priced line of Yale 5,200 series tubular locks.

For the first time, Yale & Towne also has added a 5-inch backset to its 5,200 tubular lock line, with or without a deadlocking feature. Use of such a backset permits a dramatic application of a large escutcheon as metallic door decor. The deadlocking feature adds a security factor that has been in much demand for locks of this kind and in this price range.

The new additions to the Yale lines of builders hardware have been supplemented by Yale home sales at popular prices.—V. 183, p. 562.

York-Hoover Corp., York, Pa.—Stock Offered—

The company on Jan. 20 offered publicly, through E. W. Clark & Co., York, Pa., an issue of 11,020 shares of common stock (par $10) at $12 per share. The price may be raised to $14 per share after 4,000 shares have been sold.

PROCEEDS—The net proceeds are to be used to help defray the cost of a building addition at the body plant, together with the machinery and equipment required therefor.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

Common stock (par $10)	150,000 shs.	150,000 shs.

The company has no long-term or funded debt outstanding, but was indebted to banks at Nov. 30, 1955, on $650,000 3½% notes, of which $300,000 were three-month notes and $350,000 were two-month notes.

BUSINESS—Corporation had its inception back in 1872, when the York Wagon Gear Co., Ltd., was organized as a limited partnership. This latter partnership was incorporated in 1907 in the Commonwealth of Pennsylvania under the name of the York Wagon Gear Co., and it subsequently changed its name to York Body Corp. In 1918, the plant of York Carriage Co. was acquired. In 1928, the York Body Corp. merged with the Hoover Body Co. and changed its name to the York-Hoover Body Corp.

In the late 1920's, a division was added for the manufacture of hardwood burial caskets, and in the middle 1930's, facilities were expanded to include the production of metal caskets. In 1943, the corporate name was changed to the York-Hoover Corp.

The company has two separate divisions for the manufacture of its products.

One division produces specialized steel truck bodies and mounts them on chassis furnished by the customers.

The other division of the company manufactures burial caskets, constructed of metal, hardwood, and cloth-covered wood.—V. 133, p. 253.

Bond Offering — Governor Abraham Ribicoff of Connecticut and State Treasurer John Ottaviano announced that they expect to offer $100,000,000 Connecticut Turnpike Bonds for sale on Feb. 28. Lehman Brothers, Financial Consultants to the State of Connecticut with respect to the Turnpike, have concurred in this decision. The bonds will mature serially beginning July 1, 1961 to and including July 1, 1995.

This sale will constitute the second series of the $398,000,000 bonds authorized for the Connecticut Turnpike, $100,000,000 having been previously sold in May, 1954.

In addition to the revenues of the Turnpike, the bonds are secured by the gasoline tax receipts of the State. The state has covenanted that the gasoline tax rate will not be reduced below four cents per gallon. The receipts of the four cents gasoline tax for the preceding fiscal year were in excess of $25,000,000.

The General Assembly in 1955 increased the rate of gasoline tax to six cents per gallon until July 1, 1958 which should produce additional receipts of approximately $12,000,000 per annum during the period.

$135,000,000 Power Plant to Be Financed By Salomon Bros. & Hutzler—Salomon Bros. & Hutzler has been designated by the governing bodies of the City to form a national syndicate of investment bankers for the purpose of underwriting and distributing bonds necessary to finance the city's proposed steam plant. The cost of the plant is estimated at approximately $135,000,000.

The City of Memphis is now awaiting the engineering and feasibility report which is being compiled by Burns and Roe and the financial report which is in process of preparation by Salomon Bros & Hutzler. The City Commission said that with this information in hand, the financial program can then be determined.

The following statement was issued by Mayor Edmond Orgil of Memphis:

"Due to the magnitude of the financing contemplated for the steam plant of the City of Memphis as compared with anything we have ever done in the past, the Board of the Light, Gas & Water Division have over an extended period made a careful study of this subject. The advice of investment bankers has been welcomed, and all who have evidenced interest in our proposed financing were invited to meet with the Board.

"After full consideration, it was determined that we needed professional assistance of the highest caliber, and the Board recommended to the City Commissioners that the firm of Salomon Bros. & Hutzler be selected, without cost to the City, who were found to have all of the requisite experience and financial strength necessary to be a guide to the City in the solution of its financial problem.

"In considering the selection of such financial assistance, it seemed desirable to the Board of the Light, Gas & Water Commission that the selection be made of a firm who had no banking affiliation which might provide a conflict of basic interest with our program.

"The Board found that Salomon Bros. & Hutzler is an old firm organized in 1910, and who have built up a reputation for handling large volumes of securities on a small margin of profit, and the Board felt that this firm would be in position to create a substantial and representative market for this bond issue when it was finally sold.

"Upon the Board's recommendation, the City Commission entered into an agreement with Salomon Bros. & Hutzler by which this firm would not only render financial assistance, but would also form a nationally representative syndicate including all Tennessee dealers who wished to join, for the purpose of underwriting and distributing the necessary bonds to finance the project.

"The City is now awaiting the engineering and feasibility report which is being compiled by Burns and Roe, and in addition, the financial report of Salomon Bros. & Hutzler. With this information in hand, the City Commission can then determine upon its final program."
