RAILROAD - PUBLIC UTILITY - INDUSTRIAL - INSURANCE - MISCELLANEOUS

Abitibi Power & Paper Co., Ltd.—Expansion—

D. W. Ambridge, President and General Manager, on April 12 said in part:

The construction activities of our American subsidiary, Abitibi Corp., are making good progress and the contractor has begun to prepare the site. The work is on schedule and the expenditure involved is estimated to be $16,500,000.

The directors have recently approved a project to install in the Fort William division a new modern, very high-speed newsprint machine at an estimated cost of approximately $22,000,000. This machine will be capable of producing 100,000 tons of newsprint per annum.

The method of financing these projects has not yet been finally decided, but inasmuch as the bulk of these expenditures can be met from working capital and in view of the company's sound financial position there would not appear to be any difficulty in this connection.

After many months of negotiation and some unavoidable delays the Hydro-Electric Power Commission of Ontario has finally decided to proceed with the expropriation of our property at Mille Roches and formal notice has been filed. Normal expropriation procedures are now underway and we hope this matter may reach an early settlement.

The company has been carrying out the terms of an agreement with the Tasman Pulp & Paper Co. at Kawerau, New Zealand, and the major part of our undertaking has now been completed. A satisfactory profit from this operation will result.

It seems highly probable that the company will be operating all its mills at or near capacity.—V. 182, p. 505.

Alabama Gas Corp.—Partial Redemption—

The corporation has called for redemption on May 15, 1956, $108,000 of its first mortgage 3½% bonds, series C, due April 1, 1971, for account of the sinking fund. Payment will be made at 101.17% and accrued interest at the Chemical Corn Exchange Bank, 30 Broad St., New York 15, N. Y.—V. 183, p. 1749.

Alabama Power Co.—To Increase Capacity—

Electric power generating capacity of this company's three thermal power stations at Gorgas, Ala., will be increased to 711,250 kilowatts in 1957 upon installation of a recently ordered 165,000-kilowatt steam turbine-generator unit.

The ninth powermaker to be put in service in Gorgas will be manufactured by General Electric Co.'s Large Steam Turbine-Generator Department in Schenectady, N. Y.

A tandem-compound, double-flow, reheat type turbine will drive the generator. Steam will initially enter the turbine at 1,800 psig at 1,000 degrees F. The generator is rated at 224,000 kilovolt amperes and will operate at 3,600 rpm.—V. 183, p. 1749.

Alco Products, Inc.—Earnings Increase—Orders Up—

The shareholders on April 17 were informed that the company has earned about 40 cents per share for the first quarter of 1956. This compares with 31 cents for the same period of 1955.

In outlining the company's financial position, Perry T. Egbert, President, said that because of serious steel shortages, first quarter earnings were below original estimates and should be considerably higher for the balance of the year. He added that incoming orders are running ahead of estimated billings even though the company's goals for commercial products had been set 10% above those for 1955.

Discussing the company's recent redemption of 7% cumulative preferred stock, Mr. Egbert pointed out that 152,000 shares had been retired at a cost of $17,303,500 without impairing the working capital position of the company. He stated that the remaining 37,000 shares outstanding will be retired at as early a date as practicable.

Mr. Egbert said that the company has embarked upon a $1,000,000 expansion program at its Beaumont, Texas, plant. There, the company is constructing a new warehouse-office building which will be occupied by the middle of June. Through this expansion the company expects to more than double its capacity at Beaumont, and thus meet a serious need for more facilities to better serve its expanding markets in the Southwest.

The company also is making good progress on the expansion program at its Latrobe, Pa., facility, Mr. Egbert reported. He stated that the first half of the $7,000,000 expansion should be completed by early Fall, and added that management expects to review carefully its plans for the second half of the program at that time. The company is installing new facilities for steel ring and forge production, and is enlarging its steel-making capacity there.

Mr. Egbert went on to say that there have been no shipments to date under the $73,000,000 contract for fabrication of M48 medium combat tanks for the U. S. Army, but that considerable expense has been incurred in both filling the pipelines with materials, and in building up a combat tank organization. Following the original production schedule, the company expects to be producing tanks in volume by June of this year.—V. 183, p. 1361.

Algemene Kunstzijde Unie N. V. (A. K. U.-United Rayon Manufacturing Corp.)—Earnings—

Net income of $1,600,000 equivalent to 77c per American share was reported for the first quarter of 1956. This represented an increase of 13% over net income of $1,400,000, equal to 68c per American share earned in the same period last year.

While a 5% increase in sales to $14,000,000 in the first quarter of 1956 was offset by a somewhat larger rise in expenses, income from affiliates rose substantially to $450,000 to make possible the higher net income for the period.—V. 181, p. 105.

Allied Products Corp.—Sales and Earnings Rise—

Quarter Ended March 31—	1956	1955
Net sales	$6,027,260	$3,965,507
Income before Fed. income taxes (estimated)	954,241	259,428
Federal taxes on inc. (estimated) less $50,000 in 1955 provided in prior year, no longer required	492,885	87,163
Net income (estimated)	$461,356	$172,265
Earnings per share of com. stock, on 337,966 shares outstanding as at March 31, 1956	$1.37	$0.51

Frank H. Bishop, President, forecasts that, barring unforeseen conditions, sales and earnings for the calendar year 1956 will exceed those of 1955 by a substantial amount.

EARNINGS FOR YEARS ENDED DEC. 31	1955	1954
Net sales	$19,094,950	$19,877,341
Miscellaneous income	26,961	19,039
Total income	$19,121,911	$19,896,380
Income before estimated taxes on income	2,423,021	2,323,768
Estimated Federal taxes on income	1,210,000	1,120,000
Net income	$1,213,021	$1,203,768
Dividends paid	871,841	797,065
Shares outstanding	337,366	333,716
Earnings per share	$3.60	$3.61

—V. 183, p. 989.

Alsco, Inc., Akron, O.—To Expand—

A. J. Feldman, Executive Vice-President, in dicussing Alsco's extensive expansion plans, revealed that the ever-increasing demand for new aluminum products used in the building industry necessitated new plants and facilities. Based on an analysis of future consumer demands, Alsco will open several new manufacturing plants during the current year, incorporating the most advanced automatic machinery. As a result, the company's production capacity of doors, windows and lap siding will increase by 100%. Pilot automated-production lines will be evaluated with possibilities of a change to complete automation scheduled for the near future, Mr. Feldman stated. The company, however, expects to add more employees, despite acquisition of the new automatic equipment, he said.

When current expansion plans are completed, Mr. Feldman continued, Alsco will have the most fully integrated facilities in the business. The company will be able to control material quality from the alloying of raw metal to the finished product.

Unprecedented public acceptance of the company's new Starlighter line, just released, has caused initial sales forecasts to be revised upward, and Mr. Feldman believes that additional new products, still on the drawing boards, will bring almost phenomenal growth in sales for Alsco.

"We have already opened several new territories previously unserved by Alsco, and even with our proposed increase in production, sales by the end of 1956 will tax factory facilities," Mr. Feldman predicted. "However, further expansion next year will enable us to take on additional retail and wholesale outlets of all types for Alsco products," he added.

Alsco, one of the nation's largest producers of all-aluminum storm windows and doors, are also large manufacturers of aluminum lap siding, jalousie windows, primary windows, and other aluminum building products. The company has plants throughout the United States, Canada and Europe.

Alsco's Canadian affiliate is the largest supplier of aluminum building products in the Dominion of Canada. Alsco's new Italian affiliate, located in Naples, began production of aluminum extrusions only last year, and is already planning a large expansion program. This affiliate is the first of several such plants to be located in Europe and South America, Mr. Feldman concluded.

The company's office is located at 260 South Forge St., Akron, O.

Aluminum Specialty Co., Manitowoc, Wis.—Stock Offered—Emch & Co. and The Marshall Co., both of Milwaukee, Wis., on April 17 publicly offered 15,000 shares of $1.20 cumulative convertible preferred stock, series A, at par ($20 per share).

During the first five years the series A preferred can be exchanged for 1⅕ shares of common and during the second five years the exchange will be a preferred share for 1 1/10 shares of common. At the end of the 10-year period the exchange will be made on a share-for-share basis.

PROCEEDS—The net proceeds are to be used to pay for expansion costs and for working capital and other corporate purposes.

BUSINESS—A leader in the aluminum fabricating field, this company manufactures some 200,000,000 items annually. These include a broad line of cooking and baking utensils marketed under the Alumode label; a contract division dealing with such leading firms as Sunbeam, Norge, General Electric, Hotpoint and Kelvinator; and a division producing toys, especially miniature of adult pots, pans, kettles and tea sets.

The company has three plants at Manitowoc, Chilton, Wis., and Iron Mountain, Mich. General offices are at Manitowoc with sales offices in New York and Chicago.

Sales have increased 1,000% in the past 10 years and have advanced at the rate of $2,000,000 annually during the past three years. Sales in 1955 totaled $9,500,019, with a net profit of $345,000, after taxes.

John W. Torrison, President, on March 14 said: "We have underway an expansion program involving approximately $500,000 for additional machinery, equipment and buildings."

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

	Authorized	Outstanding
Series A conv. pfd. stock (par $20)	30,000 shs.	15,000 shs.
Common stock (par $10)	200,000 shs.	138,300 shs.

Acquires Plastic Laminates Firm—

This company announced on April 16 the acquisition of the business and assets of The Formica Co., a leader in the production of plastic laminates. Terms of the acquisition were approved earlier by the board of directors of Cyanamid and the shareholders and directors of Formica.

A new, wholly-owned Cyanamid subsidiary, Formica Corp., has been formed and will operate under present Formica management, with D. J. O'Conor, Jr., President of The Formica Co., as President of the new subsidiary.

Formal signing of the agreement and transfer of stock were held in the law offices of Dinsmore, Shohl, Sawyer & Dinsmore, Cincinnati attorneys for Cyanamid. S. C. Moody and G. R. Martin, Vice-Presidents, represented Cyanamid while D. J. O'Conor, Jr., President, acted for Formica.

D. J. O'Conor, Jr., stated "That the $2,500,000 Formica plant expansion program at Evendale, Ohio, is progressing on schedule. This expansion will increase sheet laminating facilities by 20% to meet the increased demand in the residential, commercial and industrial market." Mr. O'Conor also stated the new association with Cyanamid will mean even greater expansion.

Formica's office and main plants are located in the Cincinnati, Ohio, area. Last year total product sales were $36,471,588 with net earnings of $3,123,740. Best known products include plastic laminates in a variety of colors, patterns and wood grains, for use as countertops and kitchen work surfaces, furniture, cabinets, tables and wall surfaces in homes and commercial establishments, of major importance to industrial users are laminates for aircraft, automobiles, refrigeration equipment, electrical apparatus and similar machinery.

Announces Expansion of Louisiana Plant—

The company on April 17 announced an important expansion of its Fortier plant near New Orleans, La.

First phase of the expansion is a monomethyl styrene plant that has just been completed. Production of chemicals to be used in new thermoplastic molding compounds (for plastics with high heat resistance) will soon start in this plant.

Final planning is completed for the duplication of many existing facilities to double production of acrylonitrile, a vitally important chemical introduced by Cyanamid and used in the new synthetic fibers and in synthetic rubber. Completion date of these new facilities, incorporated new technology, will be in 1958.

Additional expansions of the plant are in the evaluation stage, with

gitized for FRASER
http://fraser.stlouisfed.org/

no final decisions made, for large scale production of acrylamide, an important new derivative of acrylonitrile, with potentially wide industrial uses, many of which are still being studied.

Cyanamid's new Engineering and Construction Division will have line responsibility for this construction project, which will be designed by Chemical Construction Corp. It is expected that numerous contractors and subcontractors in the New Orleans area will participate in the construction.—V. 183, p. 1469.

American Electronics, Inc.—Listing of Stock—

The Board of Governors of the American Stock Exchange on April 12 approved for original listing 605,709 shares of common stock (par $1).

The corporation, incorporated in 1945, designs, engineers and produces components of the electronics and aircraft industry, including: miniature high frequency drive motors and blowers, high frequency power supply units, missile and jet aircraft ground support equipment, electrical test equipment for flight simulation, rotary electrical instruments, electronic systems, magnetic tape recorder heads, tape recorders for telemetering and computer memory devices. In addition, the company provides technical and consulting services for the commercial use of atomic or nuclear energy.—V. 183, p. 765.

American Machine & Foundry Co.—Large Contract—

This company has been assigned a large Rochester, N. Y., plant of more than 200,000 square feet and an $11,000,000 initial production contract for the assembly and manufacture there of guided missile handling and launching systems, Morehead Patterson, Board Chairman and President, announced on April 10.

The $11,000,000 initial production contract is a sub-contract from the Radio Corp. of America, a missile launching and guidance system prime contractor to the Air Force. The handling and launching systems which AMF will make in Rochester are part of an Air Force missile launching and guidance system for which RCA is responsible.

The new contract boosts AMF's backlog of defense business to more than $58,000,000.

Located in the New Greece section of Rochester's outskirts, the plant was assigned to American Machine & Foundry Co. by the U. S. Air Force. It was formerly operated by the A. O. Smith Corp. with 1,200 employees for the production of B-52 components.

American Machine & Foundry Co. expects to take possession of the plant sometime next month. Hiring of new employees will be launched in early fall of this year and a sizable strength reached by early Spring.

According to Mr. Patterson, it will take several months to rearrange the facilities of the plant for the new work.—V. 183, p. 1470.

American Shopping Centers, Inc., Minneapolis, Minn. —Registers With Securities and Exchange Commission—

This corporation filed a registration statement with the SEC on April 16, 1956, covering 200,000 shares of class A common stock (10c par) and 100,000 shares of class B common stock (10c par) together with $2,000,000 of 5% convertible debentures, due May 1, 1968, to be offered for public sale through an underwriting group headed by Carl M. Loeb, Rhoades & Co. Public offering price and underwriting terms are to be supplied by amendment. The common shares are to be offered in units of one class A and one-half class B share.

A newly organized company, the prospectus reflects that in May, 1956, the company will acquire all of the businesses, assets and properties of the following corporations: Country Fair Shopping Center, Inc. (Wis.), Flamingo Center, Inc. (Fla.), Golden Hills Shopping Center, Inc. (Minn.), Guernsey Plaza, Inc. (Fla.), Knollwood Plaza, Inc. (Minn.), Madison Village, Inc. (Minn.), Northbrook Shopping Center, Inc. (Minn.), Oxboro Shopping Center, Inc. (Minn.), Partington Plaza, Inc. (Minn.), Park'N Shop, Inc. (Wis.), Richfield Plaza, Inc. (Minn.), Rockford Plaza, Inc. (Ill.), Snelling Hub, Inc. (Minn.), Southgate Plaza, Inc. (Ind.), Skyline Plaza, Inc. (Ind.), Westdale Shopping Center, Inc. (Ill.), Winnebago Shopping Center, Inc. (Wis.), Northdale Shopping Center, Inc. (Wis.), and Northland Shopping Plaza, Inc. (Ill.).

In consideration of such acquisition, American will assume certain of the respective liabilities of the several companies and issue to them an aggregate of 464,354 shares of its class A and 459,687 shares of its class B common. American is advised that all of said corporations, except Oxboro Shopping Center, Inc., have adopted plans of complete liquidation pursuant to which all of their respective assets (consisting in each case solely of class A and class B stock of American) will be distributed to their respective shareholders.

In addition, the company will acquire 55% of the outstanding shares of capital stock of Rogers Plaza, Inc. (Mich.) in exchange for 21,070 class A and 22,781 class B shares. An agreement also has ben entered into pursuant to which additional shares may be issued in exchange for stock of Light's Jefferson Plaza, Inc. (Ind.).

Donald H. Shanedling, President and largest stockholder of American and his wife, own directly or indirectly 374,322 class A shares (out of 485,424 shares to be outstanding) and 377,059 class B shares (out of 982,468 to be outstanding). After issuance and sale of the class A and class B shares the subject of this offering, they will own approximately 42.5% of the total shares then outstanding.

In addition to the sale of the $2,000,000 of debentures and 200,000 units to the underwriters, the company has entered into a standby commitment with Carl M. Loeb, Rhoades & Co. for the purchase by it for investment, of $2,000,000 of 5% 12-year senior debentures.

Net proceeds of the sale of the securities under the prospectus will approximate $3,690,000. Of this amount, some $1,774,146 is to be used to discharge certain liabilities of the predecessor companies, including $562,719 payable to Shanedling. A further sum of $173,500 is to be paid to Mr. Shanedling for repayment of certain advances by him. The company also will repay certain temporary construction obligations incident to construction programs of certain of the predecessor companies now in progress from first mortgage borrowings aggregating approximately $7,000,000. American also plans to construct other centers, for which it holds first mortgage commitments totaling $5,650,000 to cover a like portion of the $6,300,000 estimated cost thereof. Other construction plans involve expenditures estimated at $16,000,000. The balance of some $1,745,000 of the net proceeds of this financing will initially be added to general funds of the company.—V. 183, p. 553.

American Smelting & Refining Co.—Solder Facility—

Faster deliveries and better service for core solder users in the 11 Western States are assured with the establishment of a West Coast core solder manufacturing facility at the San Francisco plant of the company's Federated Metals Division. This addition of Federated Neatpak Flux Core Solders now makes available to Western industry West Coast production of the entire line of Federated solder products.

According to F. W. Farnow, General Manager of Federated's Pacific Coast Department, West Coast manufacture of core solder has been undertaken to insure an immediate and always available supply of acid and rosin solder in all grades and sizes for Western industries. Previously, Federated core solders were made at Newark, N. J., and Chicago plants and, although large inventories were carried at Federated West Coast plants, there was the chance of occasionally running short of special sizes or compositions. West Coast users will now have the same prompt and thorough service as Eastern and Midwestern industries.—V. 182, p. 2014.

American Stores Co.—Acquisition, Etc.—

See Market Basket below.—V. 183, p. 1226.

American Telephone & Telegraph Co.—Earnings—

Period End. Feb. 29—	1956—Month—1955		1956—2 Mos.—1955

—V. 183, p. 1853.

Ampal American Israel Corp.—Obituary—

Itzhak Barell, Chairman of the Board of Directors of the Workers Bank, Ltd., Tel Aviv, Israel, and co-founder and director of the AMPAL firm, passed away on April 13 in Tel Aviv.—V. 182, p. 1217.

Animation Equipment Corp.—New Stop-Motion Motors

A new line of stop-motion motors, designed by John Oxberry for fast, efficient operation of animation cameras, includes five-speed, two-speed, and single-speed units, according to an announcement by this corporation.

The five-speed motor has a frame counter and a dial for quick selection of forward speeds of 60, 120, 180, or 240 rpm which can be changed without stopping. Instant rewind speed is 720 rpm (one-half live-action speed) and this saves a great amount of time rewinding for double exposure and dissolves.

Armstrong Rubber Co.—Stock Split Proposed—Calls Debentures—

The directors on April 16 voted to split the present class A and class B common stock on the basis of 2½ shares of new stock for each share presently outstanding, it was announced by Frederick Machlin, President. The stock dividend will be paid June 8, 1956 to shareholders of record May 25, 1956.

At the same time, Mr. Machlin announced, it was the present intention of the board, if conditions permit, to pay a quarterly dividend of 25 cents on the new shares or $1 annually. The new dividend rate is equal to $2.50 per share annually on the present shares which currently pay dividends at the rate of $2 per share.

Mr. Machlin announced that the directors had voted to call for redemption on May 22, 1956, the presently outstanding 5½% subordinated convertible debentures.

The shareholders will hold a special meeting on June 11, 1956 to vote on a proposal to increase the presently authorized shares of class A and class B common stock, and to change both classes of stock from no par value to $1 par value shares.—V. 182, p. 714.

Atlas Consolidated Mining & Development Corp., Manila, P. I.—Listing of Stock on American Stock Exch.

The Board of Governors of the American Stock Exchange on April 5 approved for original listing 1,339,584 10 Philippine peso par capital shares.

The corporation, incorporated under Philippine law in 1935, is primarily engaged in the mining of copper ore and the production of copper concentrates in the Municipality of Toledo, Province of Cebu. In addition it has recently undertaken the mining of iron ore on properties located in the Municipality of Mati, Province of Davao. Total output of copper ore for the current calendar year is estimated at in excess of 2,000,000 short tons of ore averaging 8% copper, and total output of concentrates is estimated at 66,100 tons averaging 22% copper. The company anticipates that production from the Mati iron mine at the rate of 500 metric tons per day will commence this month. Japan is the principal market for the iron and copper produced by Atlas.—V. 181, p. 202.

Atomic, Chemical & Electronic Shares, Inc. — Name Again to Be Changed—Objections Withdrawn—

The SEC on April 12 announced that, following a change in the name of this newly organized investment company to Nucleonics, Chemistry and Electronics Shares, Inc., objectors to the name of the investment company had withdrawn their requests for a hearing with respect thereto and the hearing, scheduled for April 30, 1956, had been cancelled.

The Commission by order dated April 6, 1956 directed that a hearing be held on April 30, 1956, pursuant to Section 35 of the Investment Company Act of 1940, to determine whether the corporate name of the company is deceptive and misleading. Objections to the name, and requests for hearing thereon, had been filed by Atomic Development Mutual Fund, Inc., and Chemical Fund, Inc. These objections and requests for hearing were withdrawn when the company changed its name to Nucleonics, Chemistry and Electronics Shares, Inc. Accordingly, the April 30 hearing was cancelled.—V. 183, p. 1854.

Baltimore & Ohio RR.—To Sell Certificates—

The company will up to noon (EST) on April 25 receive bids or the purchase from it of $3,600,000 of equipment trust certificates to mature from Jan. 1, 1957 to 1971, inclusive.

This is the third installment of a total issue of $14,700,000 of equipment trust certificates, which are to be secured by new equipment costing approximately $18,467,000.—V. 183, p. 1854.

Basic Refractories, Inc.—Name Change Effective—

It is announced that the corporate name of this corporation was changed to Basic, Inc. as of March 27, 1956. See V. 183, p. 1751.

Beech Aircraft Corp.—Reports Higher Profits—

O. A. Beech, President, on April 14 reported that gross sales for the first six months of the company's 1956 fiscal year amounted to $36,843,749 with a profit, after taxes, of $1,223,102.

In comparing the company's activities during the last fiscal quarter of January-February-March with the first fiscal quarter ending Dec. 31, 1955, Mrs. Beech pointed out:

"Our net income for the first six months of this fiscal year is equal to $1.63 per share on the 749,289 shares outstanding. This results from increased earnings during the past quarterly period of better than 90 cents per share, as compared with approximately 72 cents per share in the previous fiscal quarter.

"Beechcraft's increased earnings are primarily the result of increased deliveries during the quarter ended March 31. More than $19,000,000 of gross sales for the past quarter compares quite favorably with the $17,000,000 of gross sales for the previous quarter.

"Beechcraft's backlog now totals $83,957,747. This represents an increase of $20,000,000, or more than 30% in the total backlog Beechcraft reported six months ago.

"Some of these contracts call for production work-schedules extending well into the company's 1958 fiscal year. Other contracts are currently under negotiation for additional multi-million dollar production programs, most of which also call for production schedules that extend many months ahead.

"For our 1956 fiscal year we expect to exceed last year's total of more than $27,000,000 of commercial aircraft by delivering new Beechcrafts for business flying in excess of $30,000,000."—V. 183, p. 1226.

Bell Finance Co., Red Bank, N. J.—Files—

The company on April 12 filed a letter of notification with the SEC covering $250,000 of 10-year 6% debenture bonds to be offered at par, without underwriting. The proceeds are to be used to reduce bank loans and for working capital.

Blue Ridge Mutual Fund, Inc.—Investment Adviser—

The shareholders have approved the appointment of Van Strum & Towne, Inc., investment counsel firm, as investment adviser to the Fund, effective May 1, 1956, according to Milan D. Popovic, President, who also confirmed that King Merritt & Co., Inc., specializing in the retail distribution of mutual funds, has been appointed a distributor for Blue Ridge.—V. 181, p. 1751.

(Charles) Bruning Co., Inc.—Sales & Earnings Rise—

Sales and earnings of this company continued at new record levels in the first quarter of 1956, Herbert F. Bruning, President, reported on April 12. He said that actual figures are not yet available but it is expected that they will be more than 20% higher than the first quarter of 1955.

Net income reported for last year's first quarter was $573,345 or 71c per common share based on shares now outstanding.

Mr. Bruning said that 1956 should be a good year but that, since the first quarter is normally one of the best for the company, earnings for the first quarter of 1956 should not be considered as indicative of income for the full year.

The stockholders elected the management-proposed slate of directors which included Edward McC. Blair of William Blair & Co. as a new member of the Board. Other directors are: Herbert F. Bruning, Paul J. Bruning, Russell B. Graves, Thomas J. Gilmour, Norman B. McKinnon and Roy Tuchbreiter.

The directors have declared a regular quarterly dividend of 25c per share of common stock, payable on June 1, 1956, to stockholders of record on May 11, 1956.—V. 183, p. 1471.

Buckeye Corp., Springfield, O.—Listing of Stock—

The Board of Governors of the American Stock Exchange on April 12 approved for original listing 360,000 shares of common stock (par $1).

The corporation, in business since 1930, manufactures and distributes nationally and in export trade commercial incubators; poultry raising equipment, including coal, oil, gas, electric and battery brooders; hand feeders; waterers and other items required in the raising of poultry. It also manufactures, distributes and sells mechanical feeders for the poultry industry and a line of curing and harvesting equipment for the tobacco industry.—V. 183, p. 1107.

Buell Die & Machine Co., Detroit, Mich.—Listing—

The Board of Governors of the American Stock Exchange on April 12 approved for original listing 540,000 shares of common stock (par $1).

The company, organized in 1922, produces automotive dies such as roof panel, quarter panel, fender and similar dies, upon special order for the automotive industry. While most of its sales are to the automobile industry, sales have been made to manufacturers of aircraft and household appliances. The company also engages in custom machining work for tool and die shops. Its plant and principal executive office are in Detroit, Mich.—V. 182, p. 2015.

Burroughs Corp.—New Hand Adding Machines—

A completely new line of hand operated adding machines, to be nown as the Thriftline, is under production by this corporation and shortly will be on sale at all Burroughs branches and by retail dealers throughout the United States and Canada, it has been announced by Noel L. Mudd, General Sales Manager.

The Thriftline will be comprised of many styles and will include several models with various listing and totalling capacities, with or without subtraction, Mr. Mudd said.

The Thriftline replaces Burroughs former line of hand operated machines, Mr. Mudd said, while it retains all of the advantageous features of the former line, and in addition it will have several new outstanding advantages

Featured on Thriftline machines will be the Burrough "short cut keyboard" which permits several keys to be depressed at one time, thus indexing entire amounts at one time. The keyboard incorporates the new shadow touch.

In Thriftline machines deposit slips and other narrow forms may be directly inserted for listing and totalling. The usual steps of entering figures by hand, then listing and totalling by machine, are reduced to one operation.—V. 183, p. 1471.

C.I.T. Financial Corp.—Hospitals Offered Financing Program—

Hospitals will be able to modernize old or inadequate facilities and spread the cost over a five-year period under a new financing program announced on April 17 by the American Sterilizer Co., world's largest designer and manufacturer of surgical sterilizers, operating tables, lights and related hospital equipment.

The financing program calls for a minimum downpayment of 10% and the remainder in from six to 60 equal monthly payments. It was developed by AMSCO with C.I.T. Corporation, industrial financing firm.

AMSCO sells through its own sales force working out of offices in Erie, Pa.; and in Atlanta, Boston, Chicago, Dallas, Detroit, Los Angeles, New York, Philadelphia, Pittsburgh, San Francisco, St. Louis, St. Paul and Seattle.—V. 183, p. 1611.

C. L. C. Auto Rental, Inc. (N. Y.)—Stock Offered—Philip Gordon & Co. Inc., New York City, on April 17 offered publicly 300,000 shares of common stock (par 10 cents) at $1 per share "as a speculation."

PROCEEDS—The net proceeds are to be used to acquire additional automobiles and may be used in part for the reduction of indebtedness previously incurred in the acquisition of automobiles, including the sum of $11,000 owed by the company to an officer.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

	Authorized	Outstanding
Common stock (par 10 cents)	5,000,000 shs.	735,000 shs.

BUSINESS—Corporation was incorporated in New York on Nov. 26, 1954. Its office is at 479 Hempstead Turnpike, Elmont, Long Island, New York.

Since the actual commencement of operations by the company on Jan. 8, 1955 the company has engaged in the business of renting and leasing automobiles and trucks, without drivers, in units or in fleets to various corporations and similar organizations. Most of the company's business has been done in the greater New York Metropolitan area but the company's operations are not confined to this area. On Feb. 15, 1956, the company owned approximately 122 passenger automobiles of various types and three trucks, substantially all of which were leased out.

The company generally leases its vehicles in units or in fleets to various commercial users under contracts of one or two years duration. —V. 183, p. 1855.

California Electric Power Co.—Unit to Borrow—

This company has filed an application with the Federal Power Commission requesting authorization to assume certain liabilities in connection with the issuance of $700,000 in notes to be issued by its wholly-owned Mexican subsidiary, Industrial Electrica Mexicana, S. A. de C. V., of Mexicali, Baja California.

The application says that in the past the Mexican company's growth has been wholly financed by internal funds of its parent. California Electric said that it now deems it advisable for Industrial to begin to establish its own credit to obtain a portion of the funds necessary for construction.

California Electric said that the Bank of America N. T. & S. A., is willing to lend $700,000 to Industrial with the loan to be evidenced by the Mexican company's 3¾% notes, provided the parent company agrees to purchase any defaulted notes at face amount plus accrued interest.

Industrial would use proceeds of the notes to provide a portion of the funds necessary for the construction, completion, extension or improvement of its electric transmission and distribution facilities, the application states.—V. 183, p. 666.

Capital Flotations in the United States in August And for the First Eight Months of 1955

Aggregate domestic corporate financing placed during August, 1955, totaled $1,011,231,184. This represented an increase over July, 1955, of $366,652,121. A comparison with the over-all total for August, 1954, of $401,557,054, reflects a sharp increase in the current month's total of $609,654,130.

New capital offerings in August, 1955, amounted to $622,211,465, or 61.53% of that month's total dollar volume, while refunding issues stood at $389,019,719, or 35.98%.

Long-term bonds and notes in August, 1955, added up to $797,277,000, or 78.84% of the grand total, while as far as it could be learned, no short-term bond and note financing was undertaken during the month in question.

A division of the long-term total for August, 1955, into new and refunding issues, reveals that the former amounted to $409,781,281, or 40.52%, while the latter totaled $387,495,719, or 38.32%.

Stock placements in August, 1955, added up to $213,954,184, or 21.16% of the month's gross dollar volume. New stock financing amounted to $212,430,184, or 21.01% in August, 1955, while refunding issues totaled the small sum of $1,524,000, or 0.15% of the month's gross dollar volume.

A breakdown of the stock total into common and preferred issues, brought to light the fact that common stock issues totaled 75 in number and added up to $206,490,284, or 20.42%, and preferred stock offerings reached only $7,463,900 in dollar volume, or 0.74% and comprised only 13 issues.

Looking into the various categories listed in our five-year table each month, we find that the railroad issues attained the highest dollar volume in August, 1955, by totaling $307,525,000, or 30.41%. Miscellaneous category followed by aggregating $259,748,496, or 25.69% of the month's grand total. Next in order was other industrial and manufacturing at $181,570,551, or 17.96%; public utilities, $126,258,426, or 12.48%; investment trusts, etc., $58,765,891, or 5.81%; rubber, $45,764,439, or 4.52%; Iron, steel, etc., $21,258,381, or 2.10%; oil, $6,940,000, or 0.69%; shipping, $3,000,000, or 0.30%; and land, buildings, etc., the minute sum of $400,000, or 0.04%.

Offerings of substantial proportions floated in August, 1955, included the $280,000,000 issue of Baltimore & Ohio RR. first mortgage bonds comprising $80,000,000 series A, 3⅞%, due Aug. 1, 1970; $80,000,000 series B, 4%, due Sept. 1, 1980, and $120,000,000 series C, 4¼% bonds, due Oct. 1, 1985. This was followed by the General Motors Acceptance Corp. emission of 3⅝% 20-year debentures, due Sept. 1, 1975, in the amount of $200,000,000; $80,000,000 Rayonier, Inc. 25-year 3¾% promissory notes, due Aug. 1, 1980; Pacific Telephone & Telegraph Co. 3⅝% 36-year debentures, due Aug. 15, 1991, in the aggregate sum of $67,000,000; Goodyear Tire & Rubber Co. common stock (par $5) consisting of 913,531 shares in the amount of $45,764,439; 736,856 shares of common stock (par $25) of the American Natural Gas Co. totaling $35,737,516; Household Finance Corp. 3⅜% serial debentures, due 1961, 1965 and 1974 in the sum of $30,000,000; Rheem Manufacturing Co. 3⅞% 20-year sinking fund debentures, due Aug. 1, 1975, totaling $25,000,000, and the Western Union Telegraph Co. offering of 1,056,052 shares of common stock (par $2.50) aggregating $20,721,040.

Private offerings in August, 1955, totaled 37 in number and amounted to $176,096,955, or 17.41% of the month's grand total. For July of last year a total of 28 issues were placed through the private route, aggregating $401,070,000, or 62.22% of that month's gross dollar volume. The current figure also compares with the August, 1954 total of $122,775,000 made up of 30 issues, equaling 30.57% of that month's over-all dollar volume.

Corporate issues placed privately in the first eight months of 1955 follow:

	No. of Issues	Total Amount	% of Total
January	39	$156,417,934	24.90
February	30	178,463,284	41.61
March	23	172,766,875	14.06
April	37	227,855,000	33.39
May	33	129,802,075	15.59
June	52	286,124,000	41.78
July	28	401,070,000	62.22
August	37	176,096,955	17.41

Municipal financing in August, 1955, aggregated $260,351,520, of which amount $239,075,614 represented new capital, while $21,275,906 constituted refunding. The total for August last was the smallest for any month thus far in 1955 and compared with the much larger figure of $470,186,565 for July, 1955. A comparison of the total for August, 1955, with that for the like period in the prior year shows the latter dollar volume to be somewhat larger at $296,405,040.

Total municipal financing for the first eight months of 1955 is set below:

	New	Refunding	Total
January	$532,774,905	$5,608,792	$538,383,697
February	312,567,902	10,708,640	323,276,542
March	516,792,480	9,416,575	526,209,055
April	419,236,792	5,608,274	424,845,066
May	336,490,735	3,104,260	339,594,995
June	663,798,486	2,164,722	665,963,208
July	468,037,910	2,148,655	470,186,565
August	239,075,614	21,275,906	260,351,520
Total	$3,488,774,824	$60,035,824	$3,548,810,648

Three offerings of fair proportions floated during August, 1955, included the $17,000,000 bond issue of the City of Mobile, Ala., the $12,500,000 emission of the Chicago, Ill., Board of Education, and the $12,000,000 placement on the part of the City of Los Angeles, Calif.

No financing by United States Possessions, or the Dominion of Canada, its provinces, or municipalities was undertaken during August, 1955.

Below we present a tabulation of figures since January, 1953, showing the different monthly amounts of corporate financing:

SUMMARY OF CORPORATE FINANCING BY MONTHS 1955, 1954, AND 1953

	1955			1954			†1953		
	New Capital $	Refunding $	Total $	New Capital $	Refunding $	Total $	New Capital $	Refunding $	Total $

† Revised.

Treasury Financing in August

The Treasury Department announced on July 29 the results of the offering of 2% Treasury Certificates of Indebtedness of Series B-1956, dated Aug. 1, 1955, and an additional amount of the 2% Treasury Notes of Series B-1956, dated May 17, 1955, open to the holders of $8,476,645,000 of 1⅛% Treasury Certificates of Indebtedness of Series D-1955, maturing Aug. 15. Subscriptions to the new issues amounted to $8,326,988,000, leaving $149,657,000 of the maturing issue for cash redemption.

The Treasury Department in August, outside of the above, confined its operations to the sale of Treasury Bills, Savings Bonds and Depositary Bonds.

Total for August				15,218,173,789		
Total for eight months				90,775,691,676		

*Average rate on a bank discount basis. a Comprised of three separate series, all of which were changed as follows:

SERIES E—Beginning May 1, 1952. Overall interest rate raised from 2.9% to 3% compounded semi-annually when held to maturity. Higher rate achieved by shortening the maturity of the Series E bond from 10 years to 9 years, 8 months. Interest starts accruing at the end of six months instead of one year. Also the yield is higher in each intermediate year. Individual limit on annual purchases has been doubled from $10,000 to $20,000 maturity value.

SERIES H (NEW)—New current income bond, Series H, available beginning June 1, 1952, bearing 3% interest, compounded semi-annually, when held to maturity. Issued at par, Series H will mature in 9 years and 8 months, with interest paid by check semi-annually. Redeemable at par any time after 6 months from issue date, on one month's notice. Series H has individual limit on annual purchase of $20,000.

SERIES J AND K—These replaced Series F and G Bonds, respectively, as of May 1, 1952. Series J and K yield a return of 2.76% when held to maturity, instead of the former rate of 2.53% for F Bonds and 2.50% for G Bonds. Intermediated yields of Series J and K will be higher than those of F and G. Annual purchase limit of Series J and K combined is increased to $200,000.

For previous data on Savings Bonds, see footnote on page 2637, June 30, 1952 "Chronicle."

c Sale of Treasury notes of Series A was terminated on May 14, 1953. Sales of Treasury notes of Series B began on May 15, 1953. Notes are sold at par and accrued interest to the 15th of the month and if held to maturity or two years interest approximates 2.47%. Sale of Treasury notes of Series "C" began on Oct. 1, 1953; the notes are sold at par and accrued interest to the 15th of the month and if held to maturity or two years, interest approximates $2.20 per month for each $1,000 note. The sale of Series C Treasury Savings notes was suspended on Oct. 23, 1953. For previous data on Treasury notes, see footnote on page 1470, Oct. 19, 1953, "Chronicle."

Earnings per common share	$0.61	$0.50

*Except for certain minor subsidiaries carried as investments. Subsidiaries whose net income is included above were acquired in 1955 subsequent to March 31.

No provision has been made for possible renegotiation of Government contracts in 1955 and 1956.

Barring unforeseen contingencies, Endicott R. Lovell, President, stated earnings for the remainder of the year should show definite improvement over 1955. The continued short supply of copper and the widely fluctuating prices paid for the metal make definite predictions for the rest of 1955 difficult.

Mr. Lovell indicated Calumet & Hecla is actively pursuing its program of diversification. "In planning our diversification program," he said, "we are making thorough studies of several industries. In 1955 we acquired the Goodman Lumber Co. and Canada Vulcanizer & Equipment Co., Ltd. Since that time we have considered several other companies which were available for sale or merger but to date, have not found another company meeting our requirements."

The modernization program announced last year for Wolverine Tube's Detroit plant is progressing as rapidly as possible without interferring with current production. When completed in 1957 at a cost of $4,012,000, the Detroit plant will be completely modernized and in position to compete favorably with other modern tube mills. —V. 182, p. 2126.

—V. 183, p. 1362.

Caterpillar Tractor Co.—To Retire Debentures—

The company's 10 year 2% debentures, now outstanding in the principal amount of $17,056,000, mature on May 1, 1956. Holders of said debentures may present them for payment on and after May 1, 1956 at the office of The Bank of California, 400 California St., San Francisco, Calif., or at The Chase Manhattan Bank, 43 Exchange Place, New York, N. Y.—V. 183, p. 1855.

Ceco Steel Products Corp. — Stock Sold — The public offering made on April 11 by Hornblower & Weeks and associates of 210,000 shares of capital stock at $22.25 per share was quickly completed. See details in V. 183, p. 1855.

Celanese Corp. of America—To Expand Plant—

This corporation on April 18 announced that construction is under way on a major expansion of its Bishop, Texas, chemical plant designed to increase by 25% that plant's production of formaldehyde, methanol, acetaldehyde and certain other organic chemicals.

R. W. KixMiller, Vice-President and General Manager of the Chemical Division, said the Bishop expansion program was made possible by an advance in fundamental technology perfected at the company's Clarkwood, Texas, laboratories.

"The new facilities at Bishop are expected to come on stream early in 1957, enabling us to boost our production to 125% of today's capacity," Mr. KixMiller said.

Additional loading and storage facilities will be provided at the Bishop plant to handle the increased productive capacity. The Bishop plant is one of three Celanese chemical plants which produce synthetic organic chemicals from petroleum raw materials. The others are located at Pampa, Texas, and Point Pleasant, West Virginia.—V. 183, p. 1611.

Central Hudson Gas & Electric Corp.—Earnings Up—

Twelve Months Ended March 31—	1956	1955
Operating revenues:		
From regular customers	$26,203,528	$23,577,603
From surplus power transactions	313,914	240,389
Total revenues	$26,517,442	$23,817,992
Operating income after Federal taxes	4,975,157	4,491,167
*Net income	3,477,488	3,319,504
Common shares outstanding	2,705,161	2,642,410
Earned per common share	$1.04	$1.02

*After interest and, until terminated at Dec. 31, 1955, income reservation; and before preferred dividend requirements of $168,096 quarterly and of $625,137 in the earlier 12 months' period and $672,384 in the 12 months' period ended March 31, 1956.

Net income for the first quarter of 1956 rose 10% over the same period a year ago. For the three months ended March 31, 1956, net earnings amounted to $1,210,335, equivalent to 38.5 cents per share on 2,705,161 common shares outstanding, compared with earnings of $1,098,024, or 35.2 cents on 2,642,410 common shares for the corresponding period of 1955.

The earnings are after interest reservation and before preferred dividend requirements of $168,096 for both quarterly periods. Total revenues rose 12% to $7,630,658 with revenues from regular customers rising from $6,709,099 to $7,494,214 and revenues from surplus power transactions from $99,756 to $136,444.

Operating income after Federal taxes was $1,552,715 for the three months ended March 31, 1956, compared with $1,454,354 for the same period a year ago.—V. 183, p. 1363.

Central Vermont Public Service Corp.—Merger—

The Federal Power Commission has authorized the merger with this System of all the electric facilities of Woodstock Electric Co., of Woodstock, Vt.

Under the merger agreement, holders of Woodstock's 2,000 outstanding shares of common sock $100 par value, will be entitled to receive 12 shares of Central Vermont's $6 par value common in exchange for each share of Woodstock common held. Central will continue as the surviving corporation upon the effective date of the merger.

The properties to be acquired by Central include a 500-kilowatt hydroelectric generating station and 218 miles of electric lines serving customers in seven localities in Windsor County, Vt. Woodstock's electric plant as of Sept. 30, 1955, amounted to $736,940, with a reserve for depreciation of $379,835, the companies' joint application said.—V. 183, p. 1107.

(A. B.) Chance Co.—Stock Sold—The public offering made on April 9 by Stifel, Nicolaus & Co. and associates of 50,000 shares of common stock at $20 per share was quickly oversubscribed. See details in V. 183, p. 1855.

Chemical Fund, Inc.—Reports Record Assets—

As of March 31—	1956	1955
Total net assets	$128,313,174	$81,751,690
Shares outstanding	7,278,675	*5,914,352
Net asset value per share	$17.62	*$13.82

*Adjusted for the two-for-one stock split on June 30, 1955.—V. 183, p. 1471.

Cincinnati Enquirer, Inc.—To Redeem Debentures—

The corporation has called for redemption on May 10, 1956, all of its 10-year 6% convertible junior debentures, due Aug. 1, 1962 at 104% and accrued interest. The debentures will remain convertible into common shares, at the option of the holder, at $10 per share. Payment will be made at The Provident Savings Bank & Trust Co., Seventh & Vine Sts., Cincinnati 2, Ohio.—V. 183, p. 1855.

Citizens Utilities Co. — 72% of Citizens Shares Exchanged for New Stock Dividend Series — Earnings at Higher Rate—

The shareholders by an unprecedented voluntary exchange of shares, have voiced an overwhelming preference for receiving future dividends in stock rather than cash payments, Richard L. Rosenthal, President, disclosed April 16.

Holders of 72% of the company's 962,444 outstanding shares have elected to exchange their cash-and-stock dividend shares for new series A shares which henceforth will pay only stock dividends, Mr. Rosenthal reported. Final date for exchange of shares was April 14. Original shares are now designated "series B" shares and will receive cash dividends only.

Total operating revenues of this company exceeded $6,000,000 for the first time in 1955, Mr. Rosenthal said.

Operations of the company's geographically diversified electric, gas, telephone and water facilities and services in seven states produced revenues of $6,375,123, a new high and a 12% increase over 1954 revenues of $5,682,537.

Net income of $1,025,062 for 1955 established the eleventh new high in history, as compared with $985,887 for 1954. Net income per share in 1955 was $1.07, as compared with $1.02 for 1954. Cash dividends paid by Citizens in 1955 were 48 cents, as compared with 47 cents for 1954; and 1955 stock dividends were 50 cents per share, as compared with 48 cents for 1954.

The company invested $2,198,919 in additions to property in 1955, increasing depreciated plant investment to $16,774,242, an increase of 17% in net facilities investment since Mr. Rosenthal assumed the presidency of CUC early in 1946.

The company's 1956 growth, in terms of facilities, will be even more extensive than last year, Mr. Rosenthal told shareholders. Citizens' planned construction budget for 1956 is approximately $3,300,000. This does not include acquisition possibilities now under study. The company acquired four new California water properties last year and extended gas service to two new areas in Colorado.

Construction for 1956 will be largely allocated to telephone properties in California, water properties in Vermont and California, with material expenditures also planned for the company's Nogales, Ariz., electric property, its Colorado gas property and its Kingman, Arizona, electric and telephone property.

At the end of 1955 Citizens was providing utility service to 58,499 consumers located in more than 200 communities from Maine to California and from the State of Washington to Arizona, an increase of 97% over 1945 and a substantial increase over 1954.—V. 183, p. 1855.

Clinton Foods Inc.—Assets Acquired—

See Standard Brands, Inc. below.—V. 183, p. 1363.

Colonial Stores, Inc.—Current Sales Up—

Period End. March 24—	1956—4 Wks.—1955	1956—12 Wks.—1955
Sales	$31,981,995 $28,004,065	$94,284,480 $83,512,374

—V. 183, p. 1471.

Commonwealth Oil Refining Co., Inc.—Secondary Offering—A secondary offering of 44,000 shares of common stock (par two cents) was made on April 11 by The First Boston Corp. at $12.50 per share, with a dealer's discount of 25 cents per share. It was quickly completed. —V. 183, p. 1612.

Consolidated Cement Corp.—Stock Offered—Offering of 150,000 shares of common stock (par $1) at a price of $27.25 per share was made on April 17 by an investment banking syndicate headed by Merrill Lynch, Pierce, Fenner & Beane.

PROCEEDS—Net proceeds from the financing will be applied by the company toward the reduction of bank loans, and the balance will be used in connection with its construction program. Now underway, is the erection of a new cement manufacturing plant near Paulding, Ohio. This new plant will have an estimated annual productive capacity of 1,250,000 barrels of regular Portland cement.

BUSINESS—Corporation is engaged in the manufacture and sale of the usual types of Portland cement and masonry cement. Cement manufactured by the company is sold largely to building materials dealers, contractors, ready-mix concrete plants, oil well cementing companies, railroads and Federal and State Government agencies, and is distributed in bulk and in paper bags. The company currently owns and operates two cement manufacturing plants, one located at Fredonia, Kan., and the other at Cement City, Mich. The third plant, now under construction at Paulding, Ohio, is expected to be in operation in July or August of 1956. Aggregate annual productive capacity of the company's present plant is an estimated 3,500,000 barrels of regular Portland cement. Upon completion of the new plant at Paulding, Ohio, such capacity will increase to an estimated 4,750,000 barrels.

EARNINGS—For the year 1955, the company had net sales of $6,717,937 and net profit of $1,217,518.

CAPITALIZATION GIVIING EFFECT TO PRESENT FINANCING

	Authorized	Outstanding
Revolving credit notes, 3½%	*$4,000,000	$1,500,000
Common stock ($1 par value)	1,200,000 shs.	837,500 shs.

* The revolving credit notes evidence borrowings under a loan agreement with two banks providing for a revolving credit to the company in the amount of $4,000,000 until Dec. 31, 1956, on which date the revolving credit is convertible in whole or in part at the option of the company into a term loan. The company will apply $2,500,000 of the net proceeds of the shares above offered to reduce the amount of such notes outstanding at April 10, 1956. The company may further reduce the amount of such notes or make further borrowings under the loan agreement over and above the amount to be outstanding after such application of proceeds, as may appear advisable from time to time.

UNDERWRITERS—The names of the underwriters and the number of shares to be purchased by each of them are as follows:

	Shares		Shares
Merrill Lynch, Pierce, Fenner & Beane	50,000	Hornblower & Weeks	7,500
Blair & Co. Inc.	16,700	Ingalls & Snyder	3,000
Bacon, Whipple & Co.	3,000	McCormick & Co.	3,000
A. G. Becker & Co. Inc.	7,500	Laurence M. Marks & Co.	4,700
William Blair & Co.	3,000	Merrill, Turben & Co., Inc.	3,000
Blunt Ellis & Simmons	3,000	The Milwaukee Co.	3,000
Central Republic Co. (Inc.)	7,500	The Ohio Company	3,000
Estabrook & Co.	4,700	Paine, Webber, Jackson & Curtis	7,500
Farwell, Chapman & Co.	3,000	Spencer Trask & Co.	4,700
Hallgarten & Co.	7,500	G. H. Walker & Co.	4,700

—V. 183, p. 1856.

Consolidated Freightways, Inc. — Secondary Offering —A secondary offering of 22,000 shares of common stock (par $5) was made on April 12 by Blyth & Co., Inc., at $20.50 per share, with a dealer's discount of 75 cents per share. It was completed.—V. 183, p. 1856.

(G. & W. H.) Corson, Inc.—Sets Records—

Net sales and net income for the year ended Dec. 31, 1955, were the highest in the company's 133-year history. For the year ended Dec. 31, 1955, the company reported net sales of $7,756,881, up nearly 22% from the $6,364,818 reported for the year 1954.

Net income after all charges and taxes for the year 1955 reached a new high at $780,314, equivalent to $1.84 per share on the 423,072 shares of capital stock outstanding. This was an increase of about 31% over the 1954 net income of $597,454, equivalent to $1.41 per share on the same number of shares.

Bolton L. Corson, President, and Philip L. Corson, Chairman of the Board, stated that during 1955 the company expended approximately $700,000 for new facilities.

At Dec. 31, 1955 total assets were $4,281,624 compared with $3,795,771 at the close of 1954. Total current assets at Dec. 31, 1955 amounted to $2,015,700 compared with total current liabilities of $542,366.—V. 181, p. 2127.

Cory Corp.—Sales Up—Net Income Off—

Year Ended Dec. 31—	1955	1954
Sales	$16,583,515	$15,010,430
Profit before taxes	1,095,050	1,067,326
Federal tax provision	585,000	545,000
Operating loss of subsidiaries not consolidated	125,000	------
Net profit	$385,050	$522,326
Number capital shares	646,250	646,250
Earned a share	$0.60	$0.80
Dividend payment	$0.20	$0.20

J. W. Alsdorf, President, on April 4 stated in part:

"The acquisition in November, 1955, of Mitchell Manufacturing Co., Chicago, Ill., a pioneer and a national leader in the packaged and room air conditioning business, was the most significant development in Cory's 1955 progress story.

"This purchase, coupled with the company's Fresh'nd-Aire air con-

gitized for FRASER
p://fraser.stlouisfed.org/

ditioning Division, marks Cory Corp. as one of the nation's largest manufacturers of packaged and room air conditioners.

"Mitchell, at the time it was acquired, was also engaged in two other fields, namely, the manufacture and sale of fluorescent lighting fixtures and radios, Hi-Fi systems, phonographs, and related products. Upon analysis, Cory's Management determined that it should concentrate on the significant portion of the business of Mitchell, namely, air conditioning, and not dilute its efforts by attention to unrelated fields. The Mitchell Lighting Division was profitably disposed of on March 19, 1956, and, similarly, the radio, Hi-Fi, phonograph and related products Division was sold on March 22, 1956.

"Despite expansion and increased sales, the company's current position remained satisfactory. Current assets at the close of 1955 amounted to $8,457,090 against current liabilities of $5,400,799, or a ratio of 1.57 to 1. Working capital at the close of 1955 was $3,056,291, compared to $3,988,825 at the end of 1954. The year-end inventory was $4,624,505, an increase over 1954 of $460,846. Expansion and necessary financing for production for private brand contracts necessitated an increase in the company's current bank obligations from $755,633 at the end of 1954 to $3,353,957 at the end of 1955. This was in addition to the company's long-term obligation of $1,700,000, which was increased some $300,000 more at the end of the year over that of 1954."—V. 183, p. 1612.

Cowles Chemical Co.—Stock Split Approved—

A two-for-one split for the common shares was approved by shareholders on April 10. The split took effect April 16 and applied to all shares outstanding on that date.

Also approved at the meeting was a reduction from $5 to $1 in par value per share, to take effect along with the stock split. To accommodate the split, shareholders approved an increase in authorized shares from 130,000 to 400,000 and also to make additional shares available for future expansion.

Net earnings per share for the first quarter of 1956 were reported at 66 cents, according to Robert F. Huntley, President. This compares with 65 cents per share for the first quarter last year—based on 51,724 shares now outstanding.—V. 182, p. 411.

Cozona Uranium Corp., Las Vegas, Nev.—Files—

The corporation on April 10 filed a letter of notification with the SEC covering 300,000 shares of capital stock to be offered at par ($1 per share), without underwriting. The proceeds are to be used for expenses incident to mining operations.—V. 183, p. 3.

Crompton & Knowles Corp.—New Name—

See Crompton & Knowles Loom Works below.

Crompton & Knowles Loom Works—Changes Name—

The stockholders on March 13 approved the following proposals: (1) To change the name of the corporation to Crompton & Knowles Corp.; (2) to increase the authorized capital stock from 471,768 shares to 700,000 shares; and (3) the proposed stock option incentive plan.—V. 182, p. 1565.

Dempster Investment Co.—New Name, Etc.—

See Sentinel Radio Corp. below.

Diamond Alkali Co.—Calls Preferred Stock—

The company has called for redemption on May 14, 1956, all of its outstanding shares of 4.40% cumulative preferred stock (par $100) at $103 per share plus accrued dividends of 72¼ cents per share. Payment will be made at the Mellon National Bank & Trust Co., Mellon Square, Pittsburgh 30, Pa. or at the Bankers Trust Co., 46 Wall St., New York 15, N. Y.

Each share of the preferred stock called for redemption is convertible up to but not after the close of business on May 11, 1956, into common stock of the company at the rate of 2.369 shares of such common stock for each share of such preferred stock (which is at the rate of $42.21 per share for the common stock based upon a par value of $100 per share for the preferred stock). Upon any such conversion, fractional shares will not be issued but in lieu thereof the company will pay cash in an amount equal to the same fraction of the market price per share of the common stock on the day of conversion.

CONSOLIDATED STATEMENT OF EARNINGS

Three Months Ended March 31—	1956	1955

Interest	284,250	201,344
Provision for Federal income taxes	3,102,184	‡1,960,899
Net income for the period	$2,833,471	$1,711,107
Earnings per common share on 2,465,924 shares	$1.12	$0.67

* Restated to reflect the average amount of certain non-recurring charges and year-end adjustments in 1955.

‡ The 1955 Federal income taxes are restated to pro rata share of annual provision. (Original provision to March 31, 1955 was $1,699,556).—V. 183, p. 1856.

Dixie Aluminum Corp.—Stock Offered—Scott, Horner & Mason, Inc., Lynchburg, Va., on April 9 offered 2,890 shares of common stock (par $1) at $3.50 per share. The proceeds are to go to a selling stockholder.—V. 183, p. 1753.

Dobeckmun Co.—Granted Vacuum Metallizing License

This company has been licensed to conduct operations under patents owned by National Research Corp. relating to continuous vacuum metallizing, it was announced on April 9 by Richard S. Morse, President of National Research Corp. The processes made available to Dobeckmun are the result of work by National Research, carried out over a period of many years, directed towards the development of techniques and equipment for the continuous metallizing of plastics, paper, textiles, and other materials with a variety of metals, including copper, zinc, and aluminum.

The equipment required by Dobeckmun to carry out the NRC continuous vacuum metallizing process has been built by the Equipment Division of National Research Corp. This division, whose products are sold through NRC Equipment Corp., is one of the country's leading suppliers of industrial high vacuum equipment. The Dobeckmun equipment, believed to be the largest and fastest metallizing equipment in the world, is now in full operation.

Under the terms of the license agreement Dobeckmun has full access to developments of National Research relating to continuous metallizing of plastics and the right to operate under both present and future patents. Royalties, payable by Dobeckmun, will be a substantial source of income to National Research Corporation.—V. 182, p. 913.

Dolores of Florida, Inc., Lakeland, Fla.—Stock Offering Suspended—

The Securities and Exchange Commission, it was announced on April 16, has issued orders temporarily suspending and denying, respectively, Regulation A exemptions from registration under the Securities Act of 1933 with respect to public offerings of securities by this company and the Navajo Uranium & Thorium Corp., Las Vegas, Nevada. Each of the orders provides an opportunity for hearing, upon request, on the question whether the respective suspension and denial orders should be vacated or made permanent.

In the case of Dolores of Florida, the Commission's action was based upon failure of the company to file semi-annual reports of stock sales, required as a condition to the availability of an exemption under the Regulation, despite requests of the Commission's Staff for such reports. Its Regulation A Notification, filed Jan. 24, 1955, proposed the public offering of 20,000 common shares at $5 per share. The company is engaged in the business of the manufacture of ladies' under garments, and proceeds of the sale of its stock were to be used to retire outstanding obligations and provide operating capital.

With respect to Navajo Uranium, the Commission asserts in its order that it has "reasonable cause" to believe that the terms and conditions of Regulation A have not been complied with in that (1) the Notification fails to reflect prior sales of securities by the issuer and its affiliates within the past year; (2) the aggregate amount of securities to be offered would exceed the $300,000 limitation prescribed by the Regulation; and (3) the Notification and offering circular included therein contain untrue statements of material facts in representing William U. January as an officer, director, and stockholder of the company and a salesman of its stock and in failing, to disclose that January has resigned as an officer, has not received stock which was to be issued to him, and has advised the company that he will not be connected with the company in any capacity.

Navajo Uranium filed its Regulation A notification on Nov. 10, 1955, proposing the public offering of 6,000,000 common shares at 5c per share. Proceeds were to be used for equipment and for exploration of properties in Colorado. Its president and promoter is Jules J. Satin of Los Angeles.—V. 181, p. 645.

Dow Chemical Co. (& Subs.)—Earnings Up—

Period End. Feb. 29—	1956—3 Mos.—	1955	1956—9 Mos.—	1955

—V. 183, p. 1108.

(C. M.) Downing & Co., Inc., New York, N. Y.—Files—

The corporation on April 10 filed a letter of notification with the SEC covering 100,000 shares of class B common stock (par $1) and 25,000 shares of common stock (par one cent) to be offered in units of four class B shares and one common share at $8 per unit, without underwriting. The proceeds are to be used for working capital.

Duke Power Co.—Bids for Bonds May 1—

The company will, up to 11 a.m. (EDT) on May 1, receive bids for the purchase from it of $30,000,000 first and refunding mortgage bonds due May 1, 1986. See also V. 183, p. 1753.

Eaton & Howard Stock Fund—Assets Rise—

As of—	Mar. 31, '56	Dec. 31, '55
Size of fund	$62,660,576	$55,956,995
Offering price per share	$22.28	$20.80

—V. 183, p. 1364.

Ekco Products Co.—Sales at High Level—

First quarter sales of $15,700,000 give the company an excellent start for the year, Arthur Keating, Chairman, said on April 13. For the first three months of last year the company reported sales of $15,488,000.

"We do not have final earnings figures for the first quarter," Mr. Keating said, "but we estimate that they will compare favorably to those of last year when we earned 95 cents per common share."

Consolidated sales in the year 1955—not including those of the British subsidiary—were over $64,500,000, more than 8% above 1954 sales. Earnings after taxes were over $5,000,000, or 12.4% higher than the previous record set in 1954, and common share earnings were $4.15 as against $3.69 in 1954.

In 1955 the company joined with the Aluminum Co. of America to form Ekco-Alcoa Containers, Inc. The new venture combines Ekco's and Alcoa's know-how in the manufacture and distribution of aluminum foil containers.

The stockholders approved the increase in the number of authorized common shares to 3,000,000 from 1,500,000. The company presently has issued and reserved for issuance a total of 1,381,892 common shares.—V. 183, p. 1473.

Emery Air Freight Corp.—Earnings Increase—

John C. Emery, President, on April 17 said that first quarter revenue and earnings this year are expected to show a considerable increase over the same period in 1955.

The stockholders on April 17 approved the pension and profit sharing plans which were established by the company last year.—V. 182, p. 2128.

Erie RR.—Bids for Equipments May 16—

The company will up to noon (EDT) on May 16 receive bids for the purchase from it of $6,225,000 equipment trust certificates to mature in 15 equal annual installments and to be secured by new railroad equipment costing not less than $7,987,000.—V. 183, p. 1753.

Faculty Club, Denver, Colo.—Files With SEC—

The club on April 9 filed a letter of notification with the SEC covering a maximum of $50,000 debentures maturing Dec. 31, 1970 to be issued in multiples of $50 each, without underwriting. The proceeds are to be used for expenses incurred in organizing a non-profit organization.

Federal Uranium Corp., Salt Lake City, Utah—To Distribute Stock of New Subsidiary to Its Shareholders—

This corporation has announced formation of a new subsidiary company known as Radorock Resources, Inc.

The new company will receive all of Federal's interests in the Radon mine and claims and Hot Rock claims, in exchange for all of the outstanding shares of the new company. This transaction took place on March 31.

Federal, in turn, plans to distribute to its shareholders half of the Radorock shares. Federal stockholders will receive one-half share of Radorock for each share owned in Federal. This distribution will be made April 25 to Federal stockholders of record April 20.

The new issue was expected to start trading in over-the-counter markets April 20. There will be 5,637,493 shares outstanding in Radorock, the same as Federal's presently outstanding shares.

Federal will also transfer $25,000 in cash to the new company, which will asume an outstanding loan of $300,000 due the Republic National Bank of Dallas, Texas.

In announcing the formation of the new subsidiary, W. D. Nebeker, Jr., President of Federal, said the action would have several advantages to Federal shareholders. One advantage, he said, would be to make possible payment of dividends sooner than otherwise could be done. He indicated dividend payments probably would be considered by Radorock directors early in 1957.

Federal officials said Federal and Radorock would have complementary functions. Principally, Radorock will seek to acquire major proven uranium properties. Federal mainly will use its capital and management to bring into profitable operation, promising claims that have advanced beyond the early prospecting stage.

Federal stockholders will be mailed their shares in the new company on April 25. Shareholders holding stock certificates not registered in their names were advised by Federal to send them for transfer to the Trust Department of Walker Bank & Trust Co., Salt Lake City, Utah.

Both Hot Rock and Radon groups of claims, totaling 46 claims and covering more than 800 acres, are operated for Federal by Hecla Mining Co., under a contract agreement. Hecla has financed development of these two groups, and will take all profits until the capital outlay has been recovered; thereafter, Hecla will receive 25% of profits from Radon and 50% of profits from Hot Rock. All profits are subject to royalties, of which Radorock will own half of the 15% outstanding against the Radon and a fourth of the 10% against the Hot Rock.

Melvin D. Rueckhaus of Albuquerque, N. M., is President of the new company. Lester S. Harrison of Kellogg, Idaho, is Vice-President, and C. Allen Elggren of Salt Lake City is Secretary-Treasurer. They will also serve as the initial board of directors. Later two other directors are expected to be appointed. Radorock will share offices with Federal at 248 South Main St., Salt Lake City.

After formation of the new company, Federal still will have more than 40,000 acres of holdings, including five producing properties and several others on which extensive exploration work is being done as a result of promising indications.

Mr. Nebeker said Federal will have more than $175,000 in cash assets after the formation of the new company, and that by May 31 it expects to receive an additional $3,350,000 from sale of its one-third interest in the Daniel-Ruddock group of claims. These claims are optioned to Moore and Schley of New York.

Federal was formed on April 28, 1955 by merger of 11 uranium companies.

Filtrol Corp.—Reports Gain in Earnings—

Three Months Ended March 31—	1956	1955
Net income after taxes	$1,463,000	$1,030,000
Earnings per share	$1.11	$0.78

—V. 182, p. 1698.

First Acceptance Corp., Minneapolis, Minn.—Files—

The corporation on April 2 filed a letter of notification with the SEC covering 2,464 shares of 5% cumulative preferred stock to be offered at par ($100 per share), without underwriting. The proceeds are to be used for working capital.—V. 182, p. 1910.

First Railroad & Banking Co. of Georgia—Registers With Securities and Exchange Commission—

The company on April 19 filed a registration statement with the SEC covering 225,000 shares of class A common stock (par $1) of which 159,561 shares are to be offered for subscription by common stockholders on the basis of one new share for each five shares held as of record May 18. The offering will be underwritten by Johnson, Lane, Space & Co., Savannah, Ga.—V. 180, p. 533.

Fleming Co., Inc., Topeka, Kan.—Files With SEC—

The corporation on April 10 filed a letter of notification with the SEC covering 5,700 shares of common stock (par $25) to be offered at $52.50 per share, without underwriting. The proceeds are to be used for the purchase of equipment and to increase inventories.

Food Fair Stores, Inc.—Reports Higher Earnings—

Net income for the fiscal year ending April 28, should be in the neighborhood of $3,500,000, Louis Stein, President, announced on April 12. This net income is approximately $2.70 per share on the 3,076,512 shares of common stock outstanding. It is 16% greater than the $7,300,000, or $2.28 per share, earned on the same share basis the year before. Sales this year should bt in excess of $475,000,000, Mr. Stein predicted. This is an increase of about 16% over last year's volume of $410,000,000.

Food Fair's current $55,000,000 expansion program, begun in January, 1955, is proceeding satisfactorily, Mr. Stein said. The company now operates 237 stores in seven states spanning the eastern region from Connecticut to Florida. Three new supermarkets will be opened this month and 20 other units are under construction. Thirty-six additional units will be started soon.

Food Fair's plans for the forthcoming fiscal year call for the opening of a minimum of 50 new supermarkets at a cost of about $30,000,000. Mr. Stein anticipated additional volume from these units at the rate of $125 million annually. He estimated that by the close of the fiscal year ending in April, 1957, the company would be operating at an annual sales rate of $650,000,000 and that the company's volume for the year would be in excess of $575,000,000.—V. 183, p. 4.

Food Machinery & Chemical Corp.—Granted Patent—

This company's Becco Chemical Division announced on April 11 that U. S. Patent No. 2,740,689 for a new type textile bleach process has been issued to B. K. Easton and W. H. Kibbel, Jr. and assigned to the company. Dated April 3, 1956, the patent describes a continuous hydrogen peroxide bleaching process employing a alkaline hydrogen perioxide solution containing a polyphosphate and a sequestering agent. Silicates, which are used in conventional bleaching, are not employed in the bleach bath composition. The new process, according to Becco, will be useful in certain continuous hydrogen peroxide bleaching operations where the presence of silicates is objectionable.—V. 183, p. 1613.

Ford Motor Co., Detroit, Mich.—Mercury Sales Up—

The company's Mercury Division started its second year as a separate division April 15 with a record of major accomplishments chalked up for its first 12 months of operation.

F. C. Reith, General Manager of the division and a Ford Vice-President, reports that sales in Mercury's first year were 30% higher than in the previous 12-month period.

On April 16 the 2,416,334th Mercury built since World War II rolled off the assembly line at Mercury's Wayne, Mich. plant.

To meet the greatly increased nation-wide demand for Mercury cars, the division during its first year started building: A new Los Angeles assembly plant with more than 30 acres of floor space to replace a post-war Mercury plant which the division had outgrown in eight years; the industry's first station wagon plant in Wayne, Mich.; and a 25% addition to the Mercury plant in St. Louis to provide increased production capacity.

Sales during the past 12 months totaled 373,270 Mercurys as compared with 286,735 sold during the previous 12 months.—V. 183, p. 992.

Formica Co.—Acquired—

See American Cyanamid Co. above.—V. 182, p. 2687.

Fruehauf Trailer Co.—Registers With SEC—

This company on April 17 filed a registration statement with the SEC covering 250,000 shares of its $1 par common stock, to be offered to certain employees pursuant to the Restricted Stock Option Plans approved by stockholders of the company.—V. 183, p. 1857.

Gamewell Co. (& Subs.)—Reports Increased Earnings

Nine Months Ended—	Feb. 29, '56	Feb. 28, '55
Net operating profit before provision for depreciation & U. S. & Canadian income taxes	$2,319,632	$1,987,873
Miscellaneous income	6,307	23,955
Total income	$2,325,939	$2,011,828
Depreciation	215,054	202,368
Provision for U. S. and Canadian income taxes and renegotiation	1,153,577	973,691
Net income	$957,308	$835,769
Earnings per share (on 357,912 shares outstanding)	$2.67	$2.34

—V. 182, p. 2789.

General Acceptance Corp.—To Redeem Preferred Stk.

The corporation has announced that the directors have voted to call for redemption on May 15, 1956 all shares of its $1.50 series preferred stock. There are 35,565 shares of this issue outstanding. The redemption price is $26.50 per share and the last quarterly dividend payment of 37½ cents per share will be made on May 15 to stockholders of record May 1.—V. 183, p. 1473.

General Motors Acceptance Corp.—Raises Rate—

Effective April 17, this corporation has raised the discount rate on its short term notes by ⅛ of 1% on the three maturities from 30 to 270 days.

The new rates are 2⅞% for 30 to 89 days; 3% for 90 to 179 days, and 3⅛% for 180 to 270 days.

The 3⅛% maturity is the highest rate this corporation has paid on its open market notes since May, 1932.—V. 182, p. 2687.

Net earnings applicable to common stock	54,962,000	52,516,000
Earnings per share	$0.63	$0.61
Net income per dollar of sales	5.8¢	6.3¢

Ralph J. Cordiner, President, said that it was expected that the high sales level reached during the first quarter would continue through the remainder of 1956.

He said that all of the company's broad product areas contributed to the company's sales upsurge except those engaged primarily in defense business, which declined as anticipated. General Electric defense business is leveling off to a point at which it will constitute about 20% of over-all company sales, Mr. Cordiner noted.

Mr. Cordiner announced that the company's program for outside financing will probably include additional short-term loans "from time to time" and that such borrowings have been approved by the board of directors. In its first outside financing in recent years, General Electric borrowed $100,000,000 last month on a short-term basis and earlier this month announced plans for a public offering of $300,000,000 in long-term, non-convertible debentures.

Mr. Cordiner said that General Electric's board of directors feels that "the announced borrowing program is currently preferable from the standpoint of the over-all best interests of the share owners to alternative methods of financing which would have involved reinvestment of a larger portion of the earnings in the business or issuance of additional stock."

Among the factors cited by Mr. Cordiner as contributing to the need for outside financing were "first, the continued need for modernization and expansion of facilities, which is expected to total approximately $500,000,000 over the next three years; second, our anticipated increased sales volume, requiring a growing investment in inventories and receivables; and third, the cumulative effect of the Government's program for acceleration of Federal tax payments which by 1959 will require payment of 50% of the current year's Federal taxes within the current year instead of paying all of the taxes the following year."—V. 183, p. 1857.

General Motors Corp.—Number of Stockholders Rise—

An unprecedented gain of 100,000 new General Motors shareholders in a 12-month period was announced on April 17 by Harlow H. Curtice, President.

He pointed out that GM added its 500,000th shareholder on March 7, 1955, and that on March 16, 1956 the 600,000 milestone was reached. Since that time the GM faimily of shareholders climbed to 605,353, as of April 12, 1956.

Sales Maintained at Record Level—

General Motors dollar sales in the first three months of 1956 were about equal to the record breaking first quarter of 1955 despite a substantial decline in defense deliveries, Harlow H. Curtice, President disclosed on April 17. According to preliminary figures, first quarter sales were $3,065,000,000.

Defense deliveries in the first quarter of 1956 dropped to 4% of total dollar sales from 9% a year ago, he reported.

Unit sales of cars and trucks from United States plants totaled 1,094,000 vehicles, or less than one-half of one per cent below the record 1955 first quarter, he said.

Sales in Canada were down because of a protracted strike which ended Feb. 13, Mr. Curtice pointed out, but overseas sales were above last year.

General Motors first quarter net earnings after taxes were $283 million, he announced, and equivalent to $1.01 per share of common stock.

Mr. Curtice said that General Motors world-wide employment averaged 639,000 workers in the first quarter.

Payrolls totaled $760 million, a drop of about 1% from a year ago due to decreased overtime, he added.

Expects Large Buick Sales—

Buick will build approximately 675,000 cars this year, which will be the second best year in its history Edward T. Ragsdale, General Manager of Buick and Vice-President of General Motors, predicted on April 13.

Mr. Ragsdale based his estimate of Buick production on the prediction by GM President Harlow H. Curtice that the domestic market would absorb 6,500,000 passenger cars this year.

"Our share of that market will be approximately 675,000 cars," Mr. Ragsdale said, "or about 100,000 fewer units than we built last year."

Buick built 781,000 cars in 1955, the third manufacturer ever to build that many cars in a single year, and its market penetration amounted to 10.3% of industry, highest in its history, Mr. Ragsdale said.

"In the first three months of this year Buick built 191,000 cars," he said. "Our dealers delivered 160,000 cars in the same period. So our first quarter performance just about bears out our estimate of 675,000 cars this year."

Announces New Automobile—

The XP-500, first automobile in the world powered by a new engine that burns almost any type of fuel, was announced on April 15 by Harlow H. Curtice, President.

It will be unveiled at the May 15-16 dedication of the new General Motors Technical Center, Detroit, Mich., where such engines have been under test the past three years.

Known as the free piston engine, designated GM-10-10, Mr. Curtice said the experimental power package represents an entirely new concept in automotive power.

The XP-500's engine has no crankshaft or connecting rods, no rotating parts in the manner of a conventional auto engine with its pistons spinning a crankshaft. Basically its pistons operate like a bicycle tire pump or oldfashioned fireplace bellows, blowing hot gases through a pipe to a turbine.

The spinning turbine powers the rear wheels of this revolutionary experimental motor car.

Heretofore this type of engine has been used primarily in Europe for such large size jobs as powering ships, locomotives, stationary power plants and portable air compressors. These units usually consist of a large single cylinder or banks of disconnected single cylinders each containing two pistons—V. 183, p. 1857.

General Portland Cement Co.—Earnings Up—

This company on April 17 reported a 42% gain in net earnings for the three months ended March 31, 1956, compared with the corresponding quarter a year ago.

Smith W. Storey, President, said earnings after taxes were $2,331,400, equal to $1.12 a share on 2,079,942 shares outstanding, compared with 1955 first quarter earnings of $1,640,200 or 79 cents a share on the same number of shares.—V. 183, p. 1473.

General Precision Equipment Corp.—New Laboratory

A building in Pleasantville, N. Y., will soon contain sand and dust storms, sale fog with relative humidity content of 95%, temperatures from 80 to 300 degrees Centrigrade, and altitude pressures up to the "threshold of space." It will all take place in a new environmental test laboratory under construction by General Precision Laboratory Inc., a subsidiary.

Ground for the lab was broken last week on GPL's 69-acre property. In the building wide variations of temperature, altitude, humidity, acceleration, and vibration and shock effects, will be simulated. The equipment is capable of duplicating the climates and weather conditions found anywhere on the face of the globe, according to J. W. Murray, Vice President and General Manager. Present plans call for completion of the laboratory late this year.

The new building will contain 23,200 square feet of floor space, and will substantially increase GPL's present facilities for the environmental testing of military electronic equipment, Mr. Murray said.—V. 183, p. 1613.

General Telephone Co. of Indiana, Inc.—Earnings—

Period End. Feb. 29—	1956—Month—1955		1956—2 Mos.—1955

Net after charges	184,970	160,842	372,010	313,617

—V. 183, p. 1613.

General Telephone Corp.—Convertible Debentures Offered—The corporation on April 20 offered to its common stockholders of record April 18, 1956, the right to subscribe on or before May 7, 1956, for $50,854,200 of 4% convertible debentures, due May 1, 1971, at 100% of principal amount on the basis of $100 of debentures for each 23 shares of common stock held. The principal underwriters of this offering are Paine, Webber, Jackson & Curtis; Stone & Webster Securities Corp. and Mitchum, Jones & Templeton.

For purposes of conversion, the corporation will value its common stock at $49 per share through April 30, 1961; at $52 thereafter through April 30, 1966, and at $55 thereafter until maturity of the debentures.

The net proceeds from the sale of the convertible debentures are to be used to purchase securities of subsidiaries who will use the money to pay for construction costs, repay bank loans and for other corporate purposes.—V. 183, p. 1754.

Gibbs & Hill, Inc., New York, N. Y.—Files—

The corporation on March 27 filed a letter of notification with the SEC covering 5,000 shares of common stock (par $5) to be offered for subscription by selected officers, employees and stockholders at $30.02 per share, without underwriting. The proceeds are to be used to repurchase or redeem 6% cumulative preferred stock.

Giddings & Lewis Machine Tool Co.—Earnings Off—

This company on April 11 reported net earnings after taxes of $902,083 in the year ended Dec. 31, 1955, equal to $2.13 per share based on 422,750 common shares outstanding.

Ralph J. Kraut, President, said this compares with net income the year before of $1,756,455, equal to $4.88 per share based on 360,000 shares outstanding at year end.

The reduction in earnings, he said, is due principally to three factors: (1) Reduced volume of orders during the latter part of 1954 and early 1955, reflected in 1955 shipments by reason of the long-lead time inherent in the company's operations; (2) substantial research and development expenditures on new products, including tooling; and (3) a substantial expenditure involved in the company's participation in the Machine Tool Show in Chicago.

"Nevertheless, compared with the pattern of the industry generally, 1955 was a very satisfactory year," Mr. Kraut said. "Our unfilled orders at the year's end were approximately three times those at the beginning of the year. New orders during the first quarter of 1956 are approximately double our shipments."

Shipments during 1955 totaled $20,924,941, compared with $26,779,370 in 1954. Mr. Kraut pointed out that the company on Sept. 1, 1955 acquired two well established machine tool manufacturing companies: The Cincinnati Bickford Tool Co., Cincinnati, Ohio; and the Kaukauna Machine Corp., Kaukauna, Wis. These acquisitions enlarged Giddings & Lewis 20% in capital, 60% in employment, and 125% in plant floor space.

The newly acquired companies were liquidated as of Dec. 31, 1955 and merged into Giddings & Lewis. Their earnings are included with those of Giddings & Lewis from date of acquisition on Sept. 1, 1955 to Dec. 31, 1955.

Total assets increased from $15,218,343 at the end of 1954 to $20,483,384 on Dec. 31, 1955; working capital increased from $7,006,471 to $10,123,128; and current ratio went from 2.5 to 1 to 3.3 to 1. Stockholders' equity at year's end was $12,069,279, or $28.55 per share, compared with $10,009,790, or $27.80 per share at the end of the preceding year.

Pointing to the company's substantial backlog of unfilled orders and the fact that new orders in the first quarter of 1956 are double shipments, Mr. Kraut said Giddings & Lewis looks forward to good business well into 1957.—V. 182, p. 914.

Globe Hill Mining Co., Colorado Springs, Colo.—Files

The company on April 9 filed a letter of notification with the SEC covering 5,000,000 shares of common stock (par one cent) to be offered at 1¾ cents per share, without underwriting. The proceeds are to be used for expenses incident to mining operations.—V. 180, p. 2293.

Golden State Mining Corp., Las Vegas, Nev.—Files—

The corporation on April 13 filed a letter of notification with the SEC covering 250,000 shares of common stock to be offered at par ($1 per share), without underwriting. The proceeds are to be used to pay expenses incident to mining activities.

Goldfield Consolidated Mines Co.—Joint Venture—

The Newmont Mining Corp. and Natomas Co. have joined the Goldfield company in a joint venture to explore for mining the areas covered by a prospecting license granted the Goldfield company by the Imperial Ethiopian Government during July, 1955.

Prospecting work is being started presently on the Mormora River where it is believed there may be opportunity to develop a gold placer deposit for operation by dredging methods. Work on other areas, all in southern Ethiopia, is scheduled to get under way in the next few months.

The Newmont corporation has world-wide mining interests including O'Okiep Copper Co., Ltd., Union of South Africa; Sherritt Gordon Mines Ltd. (nickel and copper), Canada; Southern Peru Copper Corp., Peru; Tsumeb Corp. Ltd., South West Africa; as well as various interests in the United States. The Natomas company has for many years been a successful placer gold mining company operating a group of deep digging dredges in California and other States. The Goldfield company has mine properties in California, Nevada, Washington and Montana.

(B. F.) Goodrich Co.—Quarterly Sales Increase—

Net sales for the first three months of 1956 amounted to $180,295,218, compared with $178,619,306 for the same period of 1955, an increase of approximately 1%, John L. Collyer, Chairman, and William S. Richardson, President, announced on April 16.

Direct and indirect sales to the Federal Government were 5.1% of total net sales in the first three months of 1956, compared with 6.8% in the first three months of 1955.

Estimated net income amounted to $10,082,972 after provision for all costs, including estimated taxes and depreciation. Estimated net income for the first three months of 1955, after provision for all costs, including estimated taxes and depreciation, was $9,840,528.

Estimated net income was $1.14 a common share on the 8,879,186 shares outstanding on March 31, 1956. Estimated net income a common share for the three months of 1955 amounted to $1.12 on 8,819,766 shares.

Estimated Federal and foreign income taxes for the first three months of 1956 were $10,120,000, as compared with $10,743,000 for the same period in 1955.

Dividends of 55 cents a share on common stock were paid in the first quarter of 1956 and 45 cents in the first quarter of 1955.—V. 183, p. 1754.

(W. R.) Grace & Co. (& Subs.)—1955 Highlights—

Year Ended Dec. 31—	1955	1954
	$	$
Sales and operating revenues	427,066,329	413,401,905
Net income after income taxes	18,780,394	14,794,326
Preferred dividends paid	960,000	960,000
Common dividends paid	8,473,117	6,473,299
Common dividends paid (per share)	$2.00	$1.75
*Earnings per share of common stock	$4.21	$3.50
Net working capital	129,845,130	112,206,211
Ratio of current assets to current liabilities	2.5 to 1	2.5 to 1
Fixed assets, less depreciation	138,568,405	130,776,657
Stockholders equity	195,224,376	179,960,386
Number of common shares outstanding	4,284,831	4,119,493
Number of common stockholders	16,623	13,697
Number of employees	44,505	41,352

*Based on average number of common shares outstanding.

Sales and profits of the chemical divisions reached an all-time high, with important contributions to a successful year by all the varied Grace enterprises, the annual report stated.

Chairman to Retire—

Charles E. Wilson is retiring as Chairman of the Board of Directors, according to an announcement made on April 16 by Mr. Wilson and J. Peter Grace, President.

The retirement will become effective on May 10, date of the annual meeting of the stockholders of the company at which Mr. Wilson will preside.—V. 183, p. 1474.

Greer Hydraulics, Inc.—Glass on Board—

Fred M. Glass, Senior Vice-President and Chief Executive Officer of the Empire State Building Corp., has been elected a member of the board of directors.—V. 183, pp. 406 and 993.

Griggs Equipment, Inc., Dallas, Tex.—Registers With Securities and Exchange Commission—

This company filed a registration statement with the SEC on April 12, 1956, covering 400,000 shares of its 50c per common stock, to be offered for public sale at $5.57 per share with a 69c per share commission to the underwriters, headed by Southwestern Securities Co.

Griggs is engaged in the manufacture of public seating equipment. It was organized under Delaware law on Feb. 27, 1956, for the purpose of acquiring from the holders thereof all of the presently outstanding capital stock of Griggs Equipment Co. at an aggregate price of $1,924,565. It is contemplated that Griggs Equipment will be dissolved and liquidated immediately following the acquisition of its stock by Griggs. That part of the net proceeds of the public stock offering in excess of the purchase price of the Griggs Equipment stock will be used as additional working capital.

The stock of Griggs Equipment is to be acquired from Clarence V. Griggs, President and director of both companies, his wife, and two other officials and their wives, all of Belton, Texas. Upon the contemplated liquidation of Griggs Equipment, Griggs will also assume the payment of the then unpaid balance of a deed of trust note payable in the amount of $220,846 on its Plant No. 2 at Belton. The company now has outstanding 59,770 shares of common stock, held by Hugh F. Dickson (18,391 shares), Walter L. McNeny (18,391) and Southwestern Securities Company (22,988). The purchase contract for acquisition of the Griggs Equipment stock was obtained by Dickson and assigned to Griggs.

Gulf Coast Leaseholds, Inc.—Had Record Output—

This corporation has announced the highest rate of oil and gas production and largest gross annual income in its history for the fiscal year ended Dec. 31, 1955, according to the annual report mailed to stockholders.

For the month of December, 1955, total gross production from all wells operated or participated in by the company was 195,140 barrels, the highest production figure ever reported by the company. Total gross production for December, 1954, was 8,582 barrels.

Gross income for December, 1955, was the highest monthly income in the company's history, amounting to $118,961 compared with $9,286 for the previous December.

Gross income from all operations in 1955 totaled $749,479 compared with $110,659 for 1954.

Reserves of oil and gas also reached record totals. Net oil reserves as of Dec. 31, 1955, amounted to 7,340,103 barrels and net gas reserves at this time were 21,013,963,000 cubic feet. One year ago, net oil reserves were 4,400,000 barrels and no gas reserves were reported in 1954.

Robert G. Behrman, Jr., President, said: "On Dec. 31, 1955, Gulf Coast Leaseholds held interests in 436 producing oil and gas wells, as compared with interests in a total of only six producing wells one year previously."

Gulf Coast Leaseholds during 1955 extended its properties and holdings across 14 states in the Mid-Continent and Gulf Coast areas. At the present time the company holds an interest in 252,264 acres of producing or potentially producing properties.

Mr. Behrman said: During 1955 the company drilled or participated in drilling 93 new wells. Of these, 73 were found to be commercially productive. This ratio is much more favorable than that shown by the entire oil industry during 1955."

The company during 1955 purchased the assets of three oil producing entities: Corpus Christi Exploration Co., William S. Thomson, and National Associated Petroleum Co. et al.—V. 183, p. 771.

Hanover Shoe, Inc.—Stock Offered—The first public offering of securities of this corporation was made on April 18 by an investment banking group headed by Drexel & Co. The offering consisted of 150,000 shares of $1 par value common stock which were offered publicly at $25 per share.

PROCEEDS—The shares represent a portion of the holdings of certain stockholders and none of the proceeds will accrue to the company.

BUSINESS—The corporation, located at Hanover, Pa., was incorporated in 1932 to continue a shoe manufacturing business acquired by H. D. Sheppard and C. N. Myers in 1900. The company's main

gitized for FRASER
http://fraser.stlouisfed.org/

plant at Hanover and a stitching plant at Middletown, Md., have a capacity of 7,000 pairs of shoes per 8-hour day.

Approximately 90% of the shoes produced are marketed under the trade name "Hanover Shoes" through a chain of 111 retail stores operated by a wholly-owned subsidiary.

EARNINGS—For the year ended Dec. 31, 1955, the corporation had consolidated net sales of $13,639,000 and net income of $1,385,000, equal after preferred dividends, to $2.09 per common share.

CAPITALIZATION AS OF MARCH 15, 1956

	Authorized	Outstanding
5% cumu. pfd. stock (par value $100)	25,000 shs.	25,000 shs.
*Common stock (par value $1)	1,000,000 shs.	603,430 shs.

* Effective March 5, 1956, each previously outstanding share of $5 par value common stock was split into five $1 par value shares.

UNDERWRITERS—The underwriters named below have severally agreed to purchase from each selling stockholder the respective percentages set forth below of the total number of shares of common stock being sold by such selling stockholder:

	%		%
Drexel & Co.	14.5	Janney, Dulles & Co., Inc.	2.6
Blair & Co. Inc.	4.0	Kidder, Peabody & Co.	6.7

		Yarnall, Biddle & Co.	2.6

—V. 183, p. 1614.

(Walter E.) Heller & Co.—Notes Sold Privately—An issue of $1,900,000 5% junior subordinated notes due April 1, 1971 has been placed privately with institutional investors through F. Eberstadt & Co., it was announced on April 20. The company will use the proceeds for general expansions of this business.—V. 183, p. 5.

Hercules Powder Co. Inc.—Reports Higher Earnings

This company on April 16 reported for the three months ended March 31, 1956, earnings on its common stock of 55 cents a share for the first quarter of 1956. This compares with 51 cents a share for the first quarter of 1955. Earnings per share are based on shares outstanding after the 3-for-1 split of stock.

Net sales and operating revenues for the quarter were $57,362,562, compared with $53,130,708 for the first quarter of 1955.—V. 183, p. 1755.

Hevi-Duty Electric Co.—Stock to Be Distributed—

(R.) Hoe & Co., Inc.—New Tool Line—

A new line of carbide-tipped tools is being introduced to the woodworking industry by the company's Saw Division, it was announced on April 11.

Known under the trade name of Kwik-Kut, the line is widely diversified for serving many segments of the industry, according to William A. Harloe, Vice-President of Hoe and General Manager of the Saw Division.

Included in the line are router bits, radius edgers and corner rounder router bits, double bevel shaper knives, bevel-edge trimmers, flush trim saws, "Helical" wing cutters, slotting cutters for arbor mountings and spur drills.

One feature offered in the promotion of the line is a tool resharpening service which is to be carried on by mail.—V. 183, p. 1858.

Holden Mining Co., Winterhaven, Calif.—Files With Securities and Exchange Commission—

The company on April 13 filed a letter of notification with the SEC covering 250,000 shares of capital stock to be offered at par ($1 per share), through Arthur B. Hogan, Inc., Hollywood, Calif.

The proceeds are to be used to pay expenses incident to mining operations.

Howard Stores Corp.—March Sales Up—

Period End. March 31—	1956—Month—1955		1956—3 Mos.—1955	
Sales	$3,404,631	$2,783,445	$7,240,965	$6,899,789

—V. 182, p. 2790.

Hycon Mfg. Co.—Trevor Gardner Named Chairman—

Trevor Gardner, former Pasadena, Calif., businessman, who recently resigned as Assistant Secretary of the Air Force, on April 18 was named Chairman of the Board of this company. He replaces Harry Oedekerk, who will continue on the board and remain active in company management.—V. 183, p. 1858.

Illinois Bell Telephone Co.—Earnings—

Period End. Feb. 29—	1956—Month—1955		1956—2 Mos.—1955	
Operating revenues	$32,720,373	$29,516,890	$66,432,129	$60,027,165

Other operating taoxes	3,466,321	2,515,024	6,970,923	5,916,218
Net operating income	$4,129,337	$3,930,373	$8,597,742	$7,709,176
Net after charges	3,728,474	3,499,428	7,788,938	6,840,593

—V. 183, p. 886.

Industrial Enterprises, Inc. (N. Y.)—Acquisition—

Benjamin E. Young, Chairman, on April 18 announced the acquisition by the company of the entire capital stock of Milwaukee Crane & Service Co., of Cudahy, Wis. Clarence Nissen, founder of the latter company, will continue as President and General Manager. It is anticipated that Mr. Nissen will become a Director of Industrial Enterprises.

The purchase of the stock was made by cash payment of $1,800,000.

Milwaukee Crane & Service Co., founded in 1932, manufactures overhead electric traveling cranes of five to 300 ton capacity. These cranes are used primarily by the steel, cement and automobile manufacturers. Unaudited figures indicate sales in 1955 approximated $6,000,000 and profit before tax of $840,000. Sales for the first quarter in 1956 approximate $2,400,000, profit before tax $352,000. Backlog of unfilled orders approximated $6,000,000 as of April 11, 1956.

It is the intention of Industrial Enterprises to acquire other businesses which may be acquired on a favorable basis. Negotiations for such acquisitions are continuing, Mr. Young said.—V. 182, p. 1802.

Installment Finance Co., Champaign, Ill.—Files With Securities and Exchange Commission—

The company on April 9 filed a letter of notification with the SEC covering $100,000 of 5½% senior subordinated debentures and $50,000 of 6½% junior subordinated debentures to be offered at par (in denominations of $1,000 each), through Hurd, Clegg & Co., Champaign, Ill. The proceeds are to be used for additional operating funds, expansion of business and to transfer short-term indebtedness to long-term.

Interchemical Corp.—Reports Higher Earnings—

Earnings for the first quarter ended March 31 are estimated to be $1,103,000 or $1.25 a common share, compared with $843,000, or 95 cents a common share, in the same period last year, Herbert B. Woodman, President, announced on April 16.

Sales for the first three months of 1956 were $27,190,000 against $23,770,000 a year ago.

At the same time, Mr. Woodman pointed out that sales and earnings in the latter part of 1955 were considerably higher than during the first portion of the year. Sales in the last quarter were $26,9 8,00).

Mr. Woodman stated that expenditures for plant and equipment in 1956 may exceed $5,000,000, compared to slightly over $3,000,000 last year. A sizeable sum will be spent for completion of a new printing ink factory in Cincinnati scheduled for operation in September, while other important items cover enlargement of Interchemical's flexographic and gravure ink plants in Chicago and Lodi, New Jersey. The enlargement of the industrial finishes plant in Cincinnati is also continuing.

A pilot unit is also being built near the Hawthorne, N. J., factory to be used by the company's central Research Laboratories for the development and commercialization of new colorants and other synthetic organic chemicals.

The shareholders on April 16 authorized an amendment to the articles of incorporation increasing the authorized number of common shares from 1,000,000 to 2,500,000.

Mr. Woodman pointed out that management had no present plans for issuance of any of these additional common shares, although it was possible that a relatively small number of the already authorized shares might be issued in connection with a contemplated acquisition.—V. 183, p. 994.

Inter-County Telephone & Telegraph Co., Fort Myers, Florida—Registers With SEC—

This company filed a registration statement with the SEC on April 16, 1956, covering 25,000 shares of its no par common stock, to be offered for public sale through an underwriting group headed by Central Republic Co., Inc. The public offering price and underwriting terms are to be supplied by amendment.

Net proceeds will be applied first to the repayment of $750,000 of short-term bank loans, incurred to meet temporarily the costs of the company's construction program, and the balance to the payment of a portion of current costs of the program. Construction expenditures for 1956 are estimated at $1,500,000.—V. 181, p. 2357.

International Paper Co.—Registers With SEC—

This company filed a registration statement with the SEC on April 13, 1956, covering 43,536 shares of its $7.50 par common stock to be offered for sale under its Incentive Stock Option Plan for Key Employees of International Paper Company.—V. 183, p. 1231.

Interstate Motor Lines, Inc.—Stock Sold—J. A. Hogle & Co., Salt Lake City, Utah, has completed the offering of 50,000 shares of common stock (par $1) at $10 per share, it was announced on April 10.

The net proceeds are to be used for general corporate purposes.

Ionics, Inc.—Reports Record Sales Volume—

"Deliveries made by this corporation during the first quarter of 1956 plus orders already received for shipment this year, exceed the company's sales volume for all of 1955," Dr. Edwin R. Gilliland, President, told stockholders at the annual meeting on April 5.

"While it is too early to make any sound forecast as to total 1956 business," Dr. Gilliland said, "the management believes sales for the year may as much as double the 1955 total, leading to a better financial picture by year's end."

Ionics' principal source of income is the sale of electric membrane demineralizers and the conduct of contract research. The demineralizers are used principally to convert ocean and brackish waters into potable water. The research services are based on the application of the firm's fundamental knowledge of ionic, organic and nuclear chemistry to the solution of problems in the metallurgical and chemical fields.

In reviewing last year's operations, Dr. Gilliland noted that the company "began its projected transition from what was primarily a research and development enterprise to one based largely on the manufacture and sale of capital equipment—its electric membrane demineralizers." He emphasized that while equipment sales produced only 5% of the company's sales volume in 1954, their shares of volume rose to 40% in 1955 and will probably reach 75% during 1956.

On the contract research side of the business, renewed and increased sales effort is being exerted, Dr. Gilliland said, and the management expects this activity to contribute a significant part of the increased volume for 1956.

"Operating income for 1955 totaled $319,484, slightly less than in 1954," Dr. Gilliland reported. "The decline resulted from the concentration of considerable company effort during the year on production planning and on the solution of technical problems encountered in operation of the first field units. The costs incurred in these activities, plus expenditures involved in the introduction of commercial units, increased sales effort, expanded research, and filing of numerous patent applications both here and abroad, resulted in a net loss for 1955 of $173,170." He added that several important patents were granted in January, 1956, which greatly improved the company's patent position.

Ionics is an affiliate of the American Research & Development Corp. An offering of 150,000 shares of common stock was made last July to provide capital for the commercialization of Ionics' technical developments. At year's end, 452,729 common shares were outstanding. —V. 182, p. 112.

J. E. Plastics Manufacturing Corp. — Offerings Completed—The recent public offering of $294,000 10-year 6% convertible debentures due April 1, 1966 and 29,400 shares of common stock (par 10 cents) through John R. Boland & Co. Inc., New York, it was announced on April 19, has been completed, all of said securities having been sold. See details in V. 183, p. 1231.

(F. L.) Jacobs Co.—To Expand Plant Operations—

The directors on April 16 approved a program of capital expenditures for plant expansion and equipment modernization.

Thomas J. Riggs, President, said that the first portion of the new program would include plant expansion at the Continental Die Casting Corp., a subsidiary located in Detroit. He added that in addition to the expansion of the Continental plant, a new automatic plating line would be installed.

"Although the automotive parts industry remains highly competitive ,our company is booking parts orders for 1957 models at satisfactory price levels and at a rate at least 15% ahead of last year's orders," Mr. Riggs asserted.

The company also announced that all assets of one of its subsidiaries, Selmix Dispensers Inc., have been sold. Selmix, which was acquired in 1954, manufactures soda fountain dispensing equipment. Company officials said that they decided to dispose of this subsidiary because it had proved to be an unprofitable operation.—V. 180, p. 1106.

Jamaica Water Supply Co.—Bids for Bonds—

The company will, up to 11 a.m. (EDT) on May 2, at the New York Trust Co., 100 Broadway, New York, N. Y., receive bids for the purchase from it of $3,000,000 first mortgage bonds, series F, due May 1, 1981. See also V. 183, p. 1755.

Kawecki Chemical Co., Boyertown, Pa.—Listing of Stk.

The Board of Governors of the American Stock Exchange on April 12 approved for original listing 415,038 shares of capital stock (par 25 cents).

The company, incorporated in 1950, produces less familiar metals such as: selenium, used in rectifiers which convert alternating current to direct current and also employed in the manufacture of radio and television sets; titanium and zirconium, used by the aluminum industry to give grain refinement and lower porosity; master alloys, used by the aluminum, magnesium and titanium industry to improve tensile strength and ductility; calcium tungstate, used in the manufacture of cutting tools and tantalum and columbium, used in the manufacture of electronic devices.—V. 182, p. 2688.

Kingston Products Corp.—Earnings Off—

Three Months Ended March 31—	1956	1955
Net sales	$1,801,642	$2,180,861
Cost of products sold	1,705,743	1,870,853
Selling, administrative and general expenses	156,184	167,065
Total	*$60,285	$142,943
Other income and deductions	808	4,731
Income before Federal taxes	*$59,477	$147,674
Provision for Federal taxes	Cr*31,000	79,400
Net income	*$28,477	$68,274

* Net loss.—V. 182, p. 2020.

Lane Bryant, Inc.—March Sales Increased—

Period End. March 31—	1956—Month	1955	1956—3 Mos.	1955
Sales	$6,384,113	$6,022,196	$15,419,302	$14,652,713

To Redeem Preferred Stock—

The corporation has called for redemption on May 1, 1956, all of its 4½% cumulative preferred stock at $51 per share plus accrued dividends of 56¼ cents per share. Payment will be made at The Chase Manhattan Bank, 43 Exchange Place, New York 15, N. Y. —V. 183, p. 1859.

Libbey-Owens-Ford Glass Co.—Secondary Offering—A secondary offering of 20,000 shares of common stock (par $10) was made on April 18 by Blyth & Co., Inc. at $92 per share. It was quickly completed.—V. 183, p. 1367.

Liberty Mutual Insurance Co.—Assets Increased—

Assets of $437,901,111 for 1955 as compared with $403,559,746 for 1954, an increase of $34,441,365, was reported by S. Bruce Black, Chairman of the Board, on April 11. After reserving $354,008,314 for all liabilities the surplus to policyholders totaled $83,892,792, an increase of $14,300,950 or 20.5%.

"This strengthened financial position gives Liberty Mutual the largest underwriting capacity in its history and the largest resources for policyholder protection it has ever had," Mr. Black stated. He said this is most significant in view of the use of new scientific processes now being used by industry, such as atomic energy, which can mean financial risks of unprecedented magnitude, yet risks that insurance must be prepared to meet.

Dividends declared to policyholders in 1955 totaled $29,061,065 compared with $30,269,183 last year. In its 44 year history, Liberty Mutual dividends have totaled $392,339,959.—V. 183, p. 1475.

Lucky Lake Uranium, Inc., Salt Lake City, Utah—Hearings Cancelled—

The SEC, it was announced on April 16, has cancelled hearings previously ordered on requests of this corporation and the Mineral Aggregates Corp., Denver, Colo., to determine whether orders temporarily suspending Regulation A exemptions from registration under the Securities Act of 1933 with respect to public offerings of stock by respective companies should be vacated or made permanent.

By orders dated March 20, 1956 and Feb. 17, 1956, respectively, the Regulation A exemptions from registration for these offerings had been temporarily suspended by the Commission for alleged non-compliance with the terms and conditions of the Regulation. Thereafter, on application of the issuing companies, the Commission by orders dated April 4, 1956, scheduled the matters for hearing on April 16, 1956, in the case of Lucky Lake Uranium and April 23, 1956, in the case of Mineral Aggregates. Subsequently the requests for hearing were withdrawn, without prejudice; and accordingly, the Commission cancelled the hearings.—V. 183, p. 1615.

M and M Wood Working Co.—Earnings Increased—

Substantial gains in both after tax earnings and sales were listed by Clay Brown, President, on April 16 in a pre-audit look at the big plywood, door, lumber and plastic concern's 1955-56 figures and those of its subsidiary, Eureka Redwood Lumber Co. As of Feb. 29, 1956, end of its fiscal period, M and M showed consolidated sales of $42,663,305 and after-tax earnings of $3,357,408, or 7.9% of sales. This compares with $38,194,983 in sales in the previous 12-months and after-tax earnings of $2,442,716 or 6.4% of sales.

Per share earnings during the period just ended reached $2.34 on the basis of 1,432,821 shares of common stock outstanding. In the previous period per share earnings were $1.71 on the basis of 1,430,821 shares. This is a gain of 63c a share.

Fourth quarter sales were reported as $10,687,685 with earnings, after taxes, of $723,021. This compares with sales of $11,263,213 and earnings of $1,016,274 in the third quarter. The comparable previous fourth quarter sales were $11,026,590 and earnings, $739,737.—V. 183, p. 407.

Mack Trucks, Inc.—New Truck Exhaust Brake—

A new exhaust brake announced by this corporation on April 12 increases engine retardation by more than 50% to add to diesel truck safety and to reduce wear on brakes.

By means of a simple butterfly valve in the exhaust line, according to Elliott G. Ewell, Vice President, back pressure is created to transform the engine to an air compressor, thus augmenting full engine braking which long has been a Mack feature.—V. 183, p. 1756.

Magna Theatre Corp.—Negotiates RKO Contract—

This corporation on April 16 announced the negotiation of a contract with RKO Pictures Co. which grants to RKO exclusive world distribution rights for the motion picture "Oklahoma!" except in the United States, Alaska, Hawaii, Canada, the Maritime Provinces of Canada, Newfoundland and the Bahama Islands. Under the contract Magna retains the right to exhibit "Oklahoma!" in the Todd-AO wide-screen process in a certain limited number of foreign cities. Expressing great enthusiasm for the foreign box office appeal of this classic example of Americana, RKO plans to spend $1,000,000 or more on promotion and distribution of the picture.

The contract, according to the announcement, "not only assures early distribution of 'Oklahoma!' abroad but also leaves Magna free to concentrate in the United States and Canada on the distribution of the picture in the Todd-AO process. Magna thus confidently expects to have more than $2,000,000 available for debt service by midsummer despite the continuance of its policy of confining domestic distribution to reserved-seat exhibition of the picture in the Todd-AO version."—V. 182, p. 2021.

Magnavox Co.—To Increase Warehouse Operations—

Because of the tremendous expansion in Magnavox business and to provide better service and faster deliveries to its dealers, Magnavox is increasing its warehouse operations throughout the country, according to Leonard F. Cramer, Vice-President and General Manager of the Television-Radio-Phonograph Division.

A 20,000 square foot warehouse and service building is now under construction in Los Angeles, Calif., as a part of this expansion program.

A new and larger warehouse in Teterboro, N. J., now replaces the former Magnavox warehouse at Passaic, N. J. An additional warehouse has been provided in Seattle, Wash., in addition to the previous warehouse facilities in Portland, Ore. Warehouses have also been established in Jacksonville and Miami, Fla.

Magnavox warehouse facilities are now located in the following

gitized for FRASER
http://fraser.stlouisfed.org/

cities: Kansas City, Mo.; Portland, Ore.; Oakland, Calif.; Los Angeles, Calif.; Chicago, Ill.; Dallas, Tex.; Denver, Colo.; Miami, Fla.; Louisville, Ky.; and Jacksonville, Fla.—V. 183, p. 1112.

Mansfield Tire & Rubber Co.—Listing of Stock—

The Board of Governors of the American Stock Exchange on April 12 approved for original listing 582,504 shares of common stock (par $5).

The company, incorporated in 1912, is principally engaged in the manufacture and sale of tires and tubes for passenger cars, buses, trucks and farm tractors. Tires and tubes accounted for more than 90% of consolidated sales in 1955, the balance being represented by tread rubber, miscellaneous tire and accessory items and mechanical rubber goods. Tire and tube sales are made under brand names which the company owns such as "Century," "Mansfield," "Inland," "Pharis" and "Pennsylvania." It also sells tires and tubes under private trade names owned by the purchasers. Among the largest of these purchasers were United States Rubber Co., Firestone Tire & Rubber Co. and General Tire & Rubber Co.—V. 181, p. 1879.

Market Basket—Acquired—Fractional Shares—

The stockholders have approved the sale of the assets of this company to American Stores Co. for 63,144 shares of common stock of the latter, which are to be issued in exchange for Market Basket stock on the following basis: Two shares in exchange for each second preferred share of Market Basket and 0.52 share for each Market Basket common share. The first preferred stock was called for redemption.

The Bankers Trust Co., New York, has been appointed agent of Market Basket to receive securities surrendered in exchange for common stock of American Stores Co. and to purchase and sell fractional interest resulting from exchanges.

Market Basket will subsequently be liquidated.—V. 182, p. 1700.

Marquardt Aircraft Co.—Engines for Bomarc Missile

This company and the Boeing Airplane Co. on April 9 confirmed earlier reports that the powerplant for the Bomarc IM-99 interceptor missile is manufactured by Marquardt.

It has previously been announced that the IM-99 missile designated "Bomarc" will be manufactured by Boeing in their Wichita, Kan. plant. The engines have been under development for several years at Marquardt's Van Nuys (Calif.) facility and have been ground-tested there at the Air Force-sponsored Marquardt Jet Laboratory. Future engine production information is not available at this time.—V. 183, p. 1368.

Max Factor & Co.—Earnings Rose in 1955—

This company experienced an exceptionally good year in 1955, with net income amounting to $2,418,324, compared with $1,901,894 in 1954, Max Factor, Jr., President, announced on April 16.

The 1955 earnings, exceeded only once in the company's history, were equal to $1.14 a share on the 2,115,500 shares of class A and common stock outstanding, compared with 89 cents in the preceding year on the 2,128,500 shares then outstanding.

Sales in 1955 rose to an all-time high approximately 21% above the 1954 volume, and gross profits from operations (sales less cost of goods sold) totaled $18,946,795, compared with $15,456,175. Net income before taxes was $5,124,961 in 1955 and $4,132,175 in the preceding year. For the past ten years the company has been amortizing goodwill at the rate of $150,000 a year. At the beginning of 1955, $200,000 remained on the books, all of which was written off during the year.

The company's working capital increased during the year from $9,072,809 to $9,355,562, despite an outlay of approximately $1,500,000 for a building and modernization program. Earned surplus also increased from $6,683,685 to $8,343,138.

The program for improvement of the company's physical facilities is continuing, Mr. Factor said, and projects planned for 1956 call for an investment of approximately $1,000,000. "When all the work now planned has been completed we will have the physical properties and equipment necessary to maintain the highest operating efficiency," he said. "The entire program is being financed without recourse to outside borrowing."—V. 183, p. 210.

Medicine Bow Uranium Co., Inc. — Stock Offered — Davis-Boyack Co., Salt Lake City, Utah, is offering publicly as a speculation 2,500,000 shares of capital stock at par (five cents per share).

The net proceeds are to be used to pay for exploration and development costs.—V. 183, p. 1615.

Mengel Co.—Reports Higher Earnings—

Three Months Ended March 31—	1956	1955
Net sales	$11,695,350	$10,515,719
Earnings before income taxes	946,473	701,092
Provision for Federal and State taxes on income	446,000	336,000
Net earnings	$500,473	$365,092
*Earnings per share of common stock	$0.75	$0.55

*Per share earnings for both periods are stated on basis of all shares of preferred stock being converted into common stock. All preferred shares will have been eliminated by April 18, 1956, mostly through conversion, as a result of all such shares having been called for redemption on that date.—V. 183, p. 1368.

Miami Copper Co.—Earns $8.74 per Share—

Profits in 1955 reached the highest level in four decades amounting to $6,496,927, which was equal to $8.74 per share on the common stock outstanding, according to the company's annual report released to stockholders today. The year's earnings represented an increase of about 200% over the 1954 net of $2,236,822 which was equal to $3.01 per share.

The company's sales of metals amounted to $37,021,072 compared with $18,169,913 in 1954, while refined copper production was 96,674,056 pounds against 1954's production of 58,269,459 pounds.

Income before taxes for 1955 was $11,076,927, equal to $14.90 per share compared with $2,261,822 or $3.04 per share in 1954. Estimated Federal and State taxes on income for 1955, amounting to $4,580,000, were equal to $6.16 per share compared with $25,000 or three cents per share in 1954.

E. H. Westlake, President, also reported that the company is engaged in extensive expansion and modernization of precipitation facilities which will require a considerable capital investment. The purpose of this program, he said, is to eliminate from the company's mining schedule certain tonnages of ore with a high oxide content and thus attain a lower production cost.—V. 182, p. 916.

Michigan Bell Telephone Co.—Earnings—

Period End. Feb. 29—	1956—Month—1955		1956—2 Mos.—1955	
Operating revenues	$19,961,453	$17,284,319	$40,129,816	$35,491,444
Operating expenses	14,176,183	12,039,843	28,203,160	24,024,079
Federal income taxes	2,051,749	1,981,821	4,341,151	4,461,126
Other operating taxes	1,506,963	1,076,606	2,817,961	2,173,128
Net operating income	$2,226,558	$2,186,049	$4,767,544	$4,833,111
Net after charges	2,001,763	1,913,120	4,302,101	4,295,952

To Issue Debentures—

The company on April 19 filed an application with the Michigan P. S. Commission for authority to issue and sell $30,000,000 of 40-year debentures later in the year at competitive bidding.

The net proceeds are to be used to help finance the company's expansion and improvement program through 1958.—V. 183, p. 1615.

Mineral Aggregates Corp., Denver, Colo. — Hearing Suspended—

See Lucky Lake Uranium, Inc. above.—V. 183, p. 995.

Minneapolis-Honeywell Regulator Co.—New Plant—

The company announced on April 13 plans for establishing its expanding Transistor Division in a new location in the Boston (Mass.) area.

The Division is a major producer of power-type transistors, both for the company's own use and for sale to industry and the military. Honeywell pioneered the development of the high-power units and was among the first to make them commercially available.

Since the Transistor Division was formed two years ago, it has occupied facilities on an interim basis in the company's main plant in Minneapolis, Minn.

Clyde A. Parton, Division Director, said new facilities will be leased in Boston to house the Division's various activities, including engineering, production and sales. The transfer to the new location will be made as soon as the facilities are available.—V. 183, p. 1368.

Minnesota Mining & Manufacturing Co.—Sales Higher

H. P. Buetow, President, on April 16 reported that sales in the first quarter of 1956 were about 20% greater than in the same period a year ago, and described the approach to research that has made this company one of the nation's fastest growing major companies.

First quarter sales exceeded $75,000,000, compared with $63,000,000 in the first three months of 1955, he said.—V. 183, p. 995.

Montrose Chemical Co.—Stock Offered—Public offering of 317,000 shares of common stock (par $1) at $9 per share was made on April 18 by Van Alstyne, Noel & Co. and associates.

PROCEEDS—The shares are being sold on behalf of certain stockholders, and none of the proceeds from the sale of the stock will accrue to the company.

BUSINESS—Company is engaged in the production of organic chemicals, chiefly plasticizers, and chemicals used in the precision casting of metals. The company's plant is located in Newark, N. J. It also manages and owns 50% of the capital stock of Montrose Chemical Corp. of California which is the largest producer in the United States of DDT, the well-known and widely used organic insecticide. This corporation has two plants, one located in Henderson, Nev., and the other in Torrance, Calif.

EARNINGS—For the fiscal year ended May 31, 1955, Montrose Chemical Co. of New Jersey had net sales of $3,824,459 and net income of $412,823, equal to 43 cents per common share. For the eight months ended Jan. 31, 1956, the company had net sales of $2,709,237 and net income of $669,444, or 70 cents per common share.

CAPITALIZATION—The company has outstanding 950,000 shares of common stock, out of an authorization of 2,500,000 shares, and no funded debt.

UNDERWRITERS—Each of the underwriters, for whom Van Alstyne, Noel & Co. is acting as representative, has severally agreed to purchase the aggregate number of shares of common stock set opposite his name below:

	Shares		Shares
Van Alstyne, Noel & Co.	30,000	Goodbody & Co.	28,000
A. C. Allyn & Co., Inc.	28,000	H. Hentz & Co.	5,000
Baker, Simonds & Co.	5,000	Hill Richards & Co.	5,000
Bioren & Co.	10,000	Hirsch & Co.	5,000
C. F. Cassell & Co., Inc.	5,000	Hooker & Fay	10,000
Clark, Landstreet & Kirkpatrick, Inc.	5,000	Johnson, Lane, Space & Co., Inc.	10,000
Courts & Co.	5,000	Johnston, Lemon & Co.	28,000
Dempsey-Tegeler & Co.	20,000	Nauman, McFawn & Co.	5,000
Francis I. duPont & Co.	10,000	Irving J. Rice & Co., Inc.	5,000
Fairman, Harris & Co., Inc.	10,000	Scott, Horner & Mason, Inc.	15,000
First Securities Co. of Chicago	10,000	Straus, Blosser & McDowell	20,000
Fusz-Schmelzle & Co., Inc.	15,000	Walston & Co., Inc.	28,000

—V. 183, p. 1475.

National Airlines, Inc.—Plans to Borrow—

The corporation expects to finance a projected $104,250,000 fleet expansion program over the next five years. This includes the purchase of 6 Convair 440's, 4 Douglas LC-7B's, 23 Lockheed Electra Turboprops and 6 Douglas DC-8 jets.

J. C. Brawner, Senior Vice-President and Treasurer, on April 19 emphasized that NAL does not contemplate the issuance of any new equity securities in its equipment and financing program.

National expects three-quarters of the cost to come from its current assets and profits over the next five years, including the sale of present equipment for $15,000,000. Profits of $15,000,000 from operations estimated over the coming five years are based, Mr. Brawner stated, on the achievement of the same passenger load factor achieved in NAL's last fiscal year ending June, 1955. This is an extremely conservative estimate, he said, since analyses by the manufacturers of the turbo-prop and jet planes have shown that they will operate at a considerably lower seat-mile cost.

The $30,000,000 in new funds NAL figures will be required to complete the financing of its equipment program will come from short-term bank loans. National has been assured by several of the larger New York banks that there will be no difficulty in obtaining these funds on that basis, Mr. Brawner disclosed, but the company has not considered it necessary to make such commitments as yet since it will not require any additional funds until May of 1958.

On the outlook for National for its current fiscal year ending June 30, 1956, Mr. Brawner estimated at the present time a net after taxes of approximately $4 per share.—V. 183, p. 1233.

National Aviation Corp. (N. Y.)—Registers With SEC

This corporation on April 17 filed a registration statement with the SEC covering 139,523 shares of its capital stock, which it proposes to offer for subscription by stockholders of record May 8, 1956, at the rate of one additional share for each four shares then held. The subscription price is to be supplied by amendment. No underwriting is involved.

Net proceeds are to be added to the general funds of the company, to be used in carrying out its investment policies. The company is engaged in business as an investment company.—V. 181, p. 1570.

National Design & Research Corp., Ann Arbor, Mich. —Files With Securities and Exchange Commission—

The corporation on April 3 filed a letter of notification with the SEC covering 10,000 shares of common stock (no par) to be offered at $20 per share, without underwriting. The proceeds are to be used for working capital and general corporate purposes.

National Fuel Gas Co.—Hearing on Financing—

This company and four of its subsidiaries have joined in the filing of financing proposals with the SEC; and the Commission has given interested persons until April 27, 1956, to request a hearing thereon.

Under the proposals, National will issue and sell an additional 447,797 shares of common stock and borrow $4,000,000 from The Chase Manhattan Bank. The common stock is to be offered for subscription by common stockholders of record May 8, 1956, at the rate of one new share for each 10 shares then held. The offering is not to be underwritten; and the subscription price will be filed by amendment.

The proposals also contemplated that the subsidiary companies will issue and sell additional securities, to be purchased by National, as follows: (a) Iroquois Gas Corp.—$2,300,00 of additional common capital stock and $2,000,000 of notes, proceeds to be used, with other funds to purchase additional gas for underground storage, to make needed additions to utility plant during 1956, estimated at $4,450,000, and to pay off $600,000 of short-term bank borrowings; (b) Republic Light, Heat & Power Co., Inc.—$3,300,000 of additional common capital stock, proceeds to be used, with other funds, to purchase additional gas for underground storage, to make needed additions to utility plant during 1956, estimated at $3,179,000; and to pay off $64,295 of short-term bank borrowings; (c) United Natural Gas Co.—$2,800,000 of notes, proceeds to be used, with other funds, to purchase additional gas for underground storage and to make needed additions to utility plant during 1956, estimated at $3,179,000; and (d) Pennsylvania Gas Co.—$3,400,000 of notes, proceeds to be used, with other funds, to purchase additional gas for underground storage and to make needed additions to utility plant during 1956, estimated at $3,484,000.—V. 183, p. 1646.

National Propane Corp.—Reports Profit for Quarter—

This corporation had gross income and operating revenues of $2,349,500 for the three months ended Feb. 29, 1956, the first quarter of the current fiscal year, Harry Forman, President, announced on April 16.

Net income, after taxes, interest and depreciation, amounted to $137,000 equal to 24 cents per share on the average of 413,322 common shares outstanding in the quarter. No comparisons are available.

The stockholders on April 13 authorized the issuance of 28,000 shares of new second preferred stock, series B, which is convertible into common stock at $15 per share.

The new preferred shares will be used as part payment for the acquisition by this corporation of Bupane Gas Co., of Cedar Rapids, Iowa. This acquisition was expected to be consummated on April 16, 1956.—V. 183, p. 1233.

National Research Corp.—Grants License—

See Dobeckmun Co. above.—V. 183, p. 1476.

National Shares Corp.—Asset Value at New High—

This corporation has reported net asset value on March 31, 1956 of $23.26 per share on the 1,080,000 shares of capital stock then outstanding, after deducting the 10 cents per share dividend payable April 14, 1956. This is the highest net asset value ever reported by the corporation since its founding in 1929. On Dec. 31, 1955 the net asset value was $21.09 on the same number of shares outstanding. —V. 182, p. 317.

Navajo Uranium & Thorium Corp., Las Vegas, Nev.— Stock Offering Suspended—

See Dolores of Florida Inc., above.—V. 182, p. 2251.

New England Electric System — Stock Offered—The company is offering to its common shareholders of record April 18, rights to subscribe to 834,976 additional shares of $1 par common stock at $16 per share, on the basis of one additional share for each 12 shares held. Subscription rights will expire on May 3, 1956. Certain employees have been offered a nontransferable privilege of subscribing for such of these shares as are not subscribed for, at $16 per share. This privilege expires on April 30, 1956. Any shares not subscribed for will be purchased by an underwriting group headed jointly by Carl M. Loeb, Rhoades & Co.; Ladenburg, Thalmann & Co., and Wertheim & Co., which won award of the issue on April 18 on its bid for a compensation of $109,499, or 13⅛ cents per share.

A syndicate headed by Merrill Lynch, Pierce, Fenner & Beane, Kidder, Peabody & Co. and White, Weld & Co. (jointly) asked a compensation of 15.9 cents per share and Blyth & Co., Inc., Lehman Brothers and Bear, Stearns & Co. (jointly) asked 15.56 cents.

PROCEEDS—Net proceeds from the sale of these additional shares will be added to the general funds of the company and applied in furtherance of the construction programs of its subsidiaries either through loans or purchases additional shares of their capital stocks.

BUSINESS—New England Electric System is a public utility holding company, which controls through ownership of voting securities, a number of utility subsidiaries. Seventeen subsidiaries are enaged in electric business and nine subsidiaries are engaged in gas business. The electric utility properties of the system are interconnected, and electric service at retail is provided in 194 municipalities of which 142 are in Massachusetts, 27 in Rhode Island, 21 in New Hampshire and four in Connecticut. The total area served electricity by the company is approximately 4,500 square miles, with a population of about 2,200,000. Gas operations are in general carried on in parts of the same territory as the retail electric operations, and service is provided in 44 municipalities, of which 40 are in Massachusetts, three in Rhode Island, and one in Connecticut. The total area served with gas by all subsidiaries is approximately 700 square miles and the total population of the area is about 520,000.

EARNINGS—For the year 1955, the New England Electric System had consolidated gross operating revenues of $130,303,603 and consolidated net income of $12,448,259.

UNDERWRITERS—Other members of the underwriting group include—Blair & Co., Incorporated; Francis I. du Pont & Co.; A. M. Kidder & Co.; L. F. Rothschild & Co.; Dick & Merle Smith; Ira Haupt & Co.; Putnam & Co., and Shearson, Hammill & Co.—V. 183, p. 1360.

New England Telephone & Telegraph Co.—Earnings—

Period End. Feb. 29—	1956—Month—1955		1956—2 Mos.—1955	
Operating revenues	$24,304,013	$22,017,396	$49,111,545	$44,180,922
Operating expenses	17,478,574	16,091,476	35,741,108	32,624,301
Federal income taxes	2,198,930	1,848,759	4,262,284	3,537,003
Other operating taxes	1,761,679	1,558,189	3,527,043	3,109,374
Net operating income	$2,864,830	$2,513,972	$5,531,110	$4,910,244
Net after charges	2,277,890	1,913,035	4,396,909	3,695,439

—V. 183, p. 1616.

New Jersey Natural Gas Co.—Earnings Rise—

Period End. March 31—	1956—3 Mos.—1955		1956—12 Mos.—1955	
Net income	$457,514	$315,177	$970,311	$729,892
Share earnings	$1.06	$0.82	$2.11	$1.74

—V. 182, p. 511.

Newhall Engineering, Inc., Phoenix, Ariz.—Files With Securities and Exchange Commission—

The corporation on April 9 filed a letter of notification with the SEC covering 300,000 shares of class A common stock to be offered at par ($1 per share), without underwriting. The proceeds are to be used for working capital and other corporate purposes.

Niagara Mohawk Power Corp.—Registers With SEC—

This corporation filed a registration statement with the SEC on April 16, 1956, covering $30,000,000 of general mortgage bonds, due May 1, 1986, to be offered for public sale at competitive bidding.

Net proceeds will be used to pay and discharge $30,000,000 in notes payable to banks due June 1, 1956, incurred to meet construction costs. The construction program of the company and its subsidiaries required $42,457,000 in 1955 and is expected to require about $64,000,000 in 1956.—V. 183, p. 1113.

Norris Dispensers, Inc., Minneapolis, Minn.—Files—

The corporation on March 26 filed a letter of notification with the SEC covering 28,900 shares of capital stock (par $1) to be offered at $8.75 per share, through Paine, Webber, Jackson & Curtis and Piper, Jaffray & Hopwood, both of Minneapolis, Minn.; and Kalman & Co., Inc. of St. Paul, Minn. The proceeds are for the purchase of a new plant in Arkansas.

Norris-Thermador Corp.—Awarded New Contract—

A $2,130,000 contract for the production of 90 mm. cartridge cases has been awarded to this corporation by the Los Angeles Ordnance District, it was announced on April 17 by Kenneth T. Norris, President.

It is the fifth primary military contract the corporation has been awarded since Jan. 1. The five total more than $6,000,000.

Production on the new contract will begin this month at the company's Vernon (Calif.) plant, Mr. Norris said.

Two of the five contracts, he added, are for steel cartridge cases for the Army, two are for aluminum cartridge containers for the Navy and one is for components of a Navy guided missile.—V. 183, p. 774.

North American Car Corp.—Earnings Continue to Rise —William M. Spencer, Chairman of the Board, on April 13, said in part:

The corporation's business is the owning, leasing, and maintaining of a fleet of 14,414 railway cars, consisting, as of Feb. 29, 1956, of 6,671 refrigerator cars, 4,573 tank cars, 554 covered hopper cars, 1,927 stock cars and 689 miscellaneous cars.

For the maintenance of this fleet of cars, North American owns and operates car shops in Blue Island and Chicago Ridge, Ill.; Coffeyville,

gitized for FRASER
p://fraser.stlouisfed.org/

Kan.; Texarkana, Ark.; Baraboo, Wis., with smaller shops and repair tracks at various other points in the Midwest.

Production of oil and gas is a side issue with us but, nevertheless, last year we were reasonably active and participated in the drilling of 29 wells, 18 of which were producers. Our gross annual income from oil and gas activities is at the rate of approximately one-half million dollars per year. Our oil and gas division finances its activities entirely from its own resources.

Next year is the 15th anniversary of the founding of North American Car Corp. The company was organized in 1907 by Henry H. Brigham of Chicago. It has grown and developed both through its own activities, the expansion of its customers, and by acquisition of other companies. In 1948 it acquired all the outstanding capital stock of North Western Refrigerator Line Co. which owned and operated a fleet of refrigerator cars under lease to the Chicago and North Western Railroad. In 1955, it acquired all of the outstanding capital stock of Mathers Humane Stock Transportation Co., which added immeasurably to the size and scope of its operations.

North American is owned by 1,811 common stockholders, as of March 9, 1956, scattered from coast to coast.

Last year, gross income was $12,442,634 and net income, after taxes, $2,191,352 or $3.45 per share of common stock—a big jump from the previous year, largely as a result of the acquisition of Mather. On a pro forma basis—the Mather company was not acquired until April 27, 1955—such gross income was $14,282,913 and net income, $2,618,928, or $4.01 per share of common stock. Earnings in 1955 were the largest in the company's history.

Common stock dividends are currently at the rate of $1.60 per share per annum. On March 15, 1956 a 5% stock dividend was paid on the common shares.

Net earnings for January and February of this year were $454,458 or 70 cents per share of common stock. This compares with $165,214 or 48 cents per share for the same period of 1955. The per share figures are based on the number of common shares outstanding at the time. On a pro forma basis, reflecting the Mather company earnings, such net earnings for the two companies for the first two months of 1955 were $363,639.

Our total assets, as of the end of February of this year, were approximately $41,000,000. Working capital was $4,241,490; cash and government securities about $5,000,000. At the present time, funded indebtedness amounts to $13,793,494; followed by 69,325 shares of preferred stock (par value $100) issued in part payment for the purchase of Mather and owned by 16 institutional holders. There are 586,293 shares of common stock (par value $10) outstanding, of which 120,000 shares were issued in connection with the Mather purchase. The book value of such common stock as of Feb. 29, 1956, was $26.06 per share. (It is currently selling on the Midwest Stock Exchange at approximately $40 per share.)

Our fleet of cars is in good condition. We have spent $29,840,000 during the past five years on the rebuilding of our car fleets and for the purchase of new cars. We have 350 new cars now on order or being built or rebuilt new in our own shops.

Secondary Offering—A secondary offering of 25,000 shares of common stock (par $10) was made on April 19 by Glore, Forgan & Co. at $40.75 per share, with a dealer's discount of $1 per share. It was completed.—V. 183, p. 1860.

North American Philips Co., Inc.—New Products—

At the 11th Annual Instruments-Automation Conference and Exhibit of the Instrument Society of America, New York Coliseum, Sept. 17-21, the company will show the new Norelco Portable X-ray Spectrograph for the first time. This instrument is designed for battery or A/C operation and is useful for field work and for sorting mixed metal stock by identifying the elements present.

Other new Norelco instruments to be displayed will include the Emission Microscope, Bulk Specimen and 3-Specimen Spectrograph Units, and Bearing Analyzer. Also in the booth will be the 24-element Autometer, Flame Photometer, X-ray Microradiograph, Ratemeter, and Scintillation and Proportional Counter Equipment.

The Norelco EM-100 and EM-75 Electron Microscopes will be shown as well as the complete line of X-ray Analysis units. The latter group includes the Wide-Range Diffractometer, 90-degree Diffractometer, the Spectrograph and Wide-Range Goniometer plus Powder Cameras and other accessories.

In addition, there will be a complete line of Norelco Radiographic units including the MG 60, MG 160, MG 260 and MG 150/300 instruments. There will also be the lightweight Portaflux equipment which is used for magnetic particle tests.—V. 183, p. 1369.

Northern Illinois Gas Co.—Registers With SEC—

This company on April 18 filed a registration statement with the SEC covering $15,000,000 of first mortgage bonds, due April 1, 1981, to be offered for public sale at competitive bidding.

Net proceeds will be added to the working capital of the company for ultimate application toward the cost of gross additions to its utility properties. The company's construction program for the four-year period 1956-1959, as now scheduled, calls for the expenditure of approximately $74,000,000 for such property additions.—V. 183, p. 1360.

Northern States Power Co.—Atomic Study—

Eighteen additional Minnesota firms have joined the Minnesota Nuclear Operations Group which was organized last year by Northern States Power Co., General Mills, Inc. and Minneapolis-Honeywell Regulator Co. to study developments in the atomic energy field with a view to benefiting Minnesota resources and industry.

An operating committee composed of representatives of the three founders of the Minnesota Nuclear Operations Group has been functioning since last June. The University of Minnesota was invited to join the group shortly after it was formed and University representatives have been active in it since that time.

The new members in the Minnesota Nuclear Operations Group include Northwestern National Bank, Land O'Lakes Creameries, Inc., E. J. Longyear Co., Western Oil & Fuel Co., Archer-Daniels-Midland Co., Cargill, Inc.; International Milling Co.; Thorshov and Cerny, Inc.; Crown Iron Works; Electric Machinery Manufacturing Co., and Pillsbury Mills, Inc., all of Minneapolis; St. Paul Fire & Marine Insurance Co., First National Bank of St. Paul, Remington Rand Univac, and the Minnesota Farm Bureau Service Co., all of St. Paul; Minnesota Power & Light Co., Duluth; Green Giant Co., Le Sueur; and Central Research Laboratories, Inc., Red Wing.—V. 183, p. 1617.

Northrop Aircraft, Inc.—Definitive Debentures Ready

Definitive 4% convertible subordinated debentures due Dec. 1, 1975, are available for delivery in exchange for temporary debentures at the Chase Manhattan Bank, 43 Exchange Place, New York City, and at the Security-First National Bank of Los Angeles, Calif.—V. 183, p. 1617.

Northwest Airlines, Inc.—Reports Record Operations—

Operating revenues reached a new high of $71,363,494 in 1955 for a gain of 12.2% over 1954, Donald W. Nyrop, President, disclosed in the annual report to shareholders.

Passenger revenue of $57,252,957 was up 12.1% compared with the previous year; mail revenue of $7,090,229 was up 4.5%; while revenue from express, freight and excess baggage of $6,123,606 was up 15.6%.

For the first time in its history, Northwest flew more than a billion passenger miles, the total being 1,017,400,443, an increase of 11.8% over the previous year. A record total of 1,343,337 revenue passengers were carried on the airline's domestic, Orient and Hawaii routes.

Net income for 1955 was only slightly less than that of 1954, despite the fact that this year's net income was developed without any subsidy payments from the United States government, whereas in 1954 subsidy payments totaled $3,035,000.

This total net income for 1955 was $2,116,180, while in the previous year it was $2,415,524. Preferred dividends during 1955 amounted to $387,031, leaving $1,729,149 or $1.80 per share for the 963,135½ outstanding shares of common stock. In 1954, preferred dividends amounted to $429,554, leaving $1,985,970 or $2.38 per share for each of the 834,933 shares of common stock then outstanding.

Net income from operations after taxes and before property disposals amounted in 1955 to $2,027,319, compared with $2,203,144 in 1954.

Net income from property disposals in 1955 was $88,861, after taxes, the lowest amount in several years. In 1954 such net income was $212,380, while in 1953 it totaled $605,190.

Operating expenses in 1955 rose 13.7% over 1954. Available ton miles flown increased 20.9%, thus operating cost per ton mile declined.

Net worth of the company at the end of 1955 was $28,228,484, of which $21.60 per share was applicable to the common stock. This compares with $26,829,107 at the end of 1954, of which $21.11 was applicable to common stock. Earned surplus was $7,453,305 at the end of 1955, compared with $6,275,889 at the end of 1954.

During 1955 the company negotiated a new bank credit agreement, dated as of June 30, 1955, and which became fully effective on July 15, 1955, to provide credits which may aggregate $29,500,000.

During the year 71,135 shares of 4.60% cumulative preference stock were converted into common stock at the conversion rate of 1½ common shares for each share of preference stock. All conversion rights of preference stock into common stock terminate as of Dec. 31, 1956.

During the year the company put into service two additional Douglas DC-6B aircraft, and has on order for delivery in 1956, 1957, and 1958 13 more Douglas DC-6B's and eight Douglas DC-7C's.

On March 5, 1956, the company entered into a long-term agreement with the Minneapolis-St. Paul Metropolitan Airports Commission to provide a complete overhaul, operations and general headquarters facility at Wold-Chamberlain Field.

The structure will contain completely modern engine and airframe overhaul facilities, line maintenance hangars and a general office building. It is estimated that the "base" will contain approximately 800,000 square feet of floor area, and will cost about $15,000,000.

Financing will be accomplished by the sale of Metropolitan Airports Commission bonds to be amortized by the rental payments to the Commission over a 30-year term, commencing upon completion of the building.—V. 182, p. 719.

Nuclear Corp. of America, Inc.—Acquisition—

Acquisition by this corporation of Isotope Specialties Co., of Burbank, Calif. in exchange for 47,991 shares of Nuclear's class A stock, was announced on April 18 by Sam Norris, President.

Isotope Specialties Co. and its staff of radiochemists have extensive experience in the field of industrial applications of radioactivity, Mr. Norris reported. The company has complete facilities for synthesis of a wide number of organis and inorganic radiochemicals and its line of tagged chemicals includes over 150 products used daily in a wide variety of industrial and investigative procedures, he added. —V. 183, p. 1757.

Nuclear Instrument & Chemical Corp.—Adds Product

Histamine (2-ring-C-14) dihydrochloride has been added to the list of radioactive carbon compounds available from this corporation, it was announced on April 12.

Available at an activity of one millicurie per millimole, this material will be found useful by biochemists, physiologists, and pharmocologists in the study of amino acid formation and metabolism, allergic, reactions and general body physiology.

This carbon-14 compound is available in four package sizes from one millicurie to 0.05 millicurie under regular Atomic Energy Commission licensing procedures.

A price list containing 150 carbon-14 compounds is available from the corporation on request.—V. 183, p. 1861.

Nucleonics, Chemistry & Electronics Shares, Inc., Englewood, N. J.—New Name—

See Atomic, Chemical & Electronic Shares, Inc. above.

—V. 183, p. 1370.

Ohio Power Co. — To Form Subsidiary to Operate New Plant—

This company, a subsidiary of American Gas & Electric Co., has applied to the SEC for an order authorizing it to acquire 1,000 shares of the $1 par capital stock proposed to be issued by a newly-organized company, Captina Operating Co.; and the Commission has given interested persons until April 30, 1956, to request a hearing thereon.

According to the application, Ohio has entered into an agreement with Olin Mathieson Chemical Corp., Pittsburgh Consolidation Coal Co. and Wheeling Electric Co. (Ohio's associate), providing generally for the construction by Ohio of what is, initially, to be a two-225,000 kilowatt unit power plant near Cresap, W. Va. One unit of this plant is to be owned by Olin Mathieson Generating Corp., a company organized by the Olin and Pittsburgh companies, and one unit is to be owned by Ohio. The Generating corporation is to use its unit to supply energy to Olin for reduction of aluminum and, in addition, it will make excess capacity of the unit available to Wheeling and Ohio. The agreement further provides for the formation of a subsidiary of Ohio (Captina) to operate the entire plant.—V. 182, p. 2252.

Old Nevada Mining Corp., Henderson, Nev.—Files—

The corporation on April 9 filed a letter of notification with the SEC covering 4,000,000 shares of common stock (par one cent) to be offered at 7½ cents per share, without underwriting. The proceeds are to be used for expenses incident to mining operations.

Opelika Manufacturing Corp.—Earnings Higher—

This corporation reports net profit of $520,675, or 90 cents per common share, on sales of $9,686,410 for the six months ended March 31, 1956. This compares with net profit of $288,317, or 52 cents per common share, on sales of $7,663,917 for the same period a year ago.—V. 183, p. 409.

Orangeburg Mfg. Co., Inc.—Stock Offered—Public offering of 80,000 shares of common stock (par $5) was made on April 19 by a group of underwriters headed by Smith, Barney & Co. at $25 per share.

PROCEEDS—Of the shares offered, 61,740 shares represent new financing by the company, proceeds from which will be applied principally to financing the cost of constructing new facilities and making additions and improvements to existing facilities at the company's plants at Orangeburg, N. Y., and Newark, Calif. The balance of 18,260 shares is already outstanding and is being sold by a stockholder.

BUSINESS—The corporation's principal products are bituminized fibre sewer and drain pipe and fittings, conduit and underfloor duct systems.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

	Authorized	Outstanding
4% note payable, due annually from May 1, 1956 to May 1, 1959	$600,000	$600,000
4⅞% note payable, due annually from May 1, 1960 to May 1, 1972	2,250,000	2,250,000
Common stock (par value $5 per share)	*750,000 shs.	427,540 shs.

*Includes 31,500 shares reserved for issuance pursuant to the Restricted Stock Option Plan for Key Employees and 54,435 shares reserved for issuance upon the exercise of stock purchase warrants which entitle the holder thereof to purchase such shares at $12.40 per share at any time prior to May 1, 1968. The Prudential Insurance Co. of America, holder of the stock purchase warrants, has agreed to sell to the company, upon issuance of the shares being sold by the company, 34,435 of such warrants which will thereupon be cancelled by the company. Thus, upon completion of this financing as contemplated, 20,000 authorized but unissued shares will remain reserved for issuance upon the exercise of outstanding stock purchase warrants, now held by The Prudential Insurance Co. of America, at a price per share of $12.40.

EARNINGS—Company reports record sales for 12 weeks ended March 25, 1956 of $2,377,950 against $2,162,698 for the comparable period last year, an increase of 9% Earnings for the period totaled $208,849, compared with $159,816 in the same 12 weeks in 1955, or 57 cents per common share compared with 43 cents per share in the first quarter of 1955, based on 365,800 shares currently outstanding, a new record and an increase of 30%.

UNDERWRITERS—The underwriters named below have severally agreed to purchase from the company and the selling stockholder 61,740 shares and 18,260 shares, respectively, of common stock of the company, each underwriter agreeing to purchase the percentage of all such shares set opposite its name below:

	%		%
Smith, Barney & Co.	26.0	Irving Lundborg & Co.	2.5
A. G. Becker & Co., Inc.	5.0	McCormick & Co.	4.0

Goldman, Sachs & Co.	6.5	Tucker, Anthony & Co.	5.0
Hooker & Fay	2.5	Dean Witter & Co.	6.5

—V. 183, p. 1757.

Oswego Falls Corp.—Debentures Offered—Holders of common stock are being offered rights to subscribe for $5,001,100 of 4¼% subordinate debentures, due April 15, 1976 (convertible to April 15, 1966), at a subscription price of $101.75 per $100 principal amount of debentures for each 13 shares of stock held of record April 11, 1956. The subscription offer, which expires April 30, 1956, is being underwritten by Hornblower & Weeks and associates.

At the option of the holders thereof, the debentures will be convertible into common stock of the corporation at any time up to and including April 15, 1966 (or, in the case of debentures called for previous redemption, up to and including the redemption date) at the initial conversion price of $40 per share.

The debentures are subject to redemption at the option of the corporation in whole or in part on not less than 30 days' notice at prices ranging from 104.75% to 100%, together with in each case interest accrued thereon to the date fixed for redemption.

The corporation agrees to pay to the trustee in each of the years 1961 through 1975 a sum sufficient to retire on April 15 of such year $312,000 principal amount of debentures. Cash paid into the sinking fund is to be applied to the redemption of debentures at the principal amount thereof, plus accrued interest to the date fixed for redemption.

BUSINESS—Corporation, through its Sealright division, is a leading manufacturer of plastic-coated and uncoated paper food containers and closures and a large supplier of dairy packaging machinery and equipment.

PROCEEDS—The company will apply the proceeds from the offering to the financing of expansion of production facilities, additional working capital and to the redemption of outstanding 4½% cumulative preferred stock.

Under its current expansion program, the company will install in its Kansas City, Kan., plant equipment for the plastic coating and converting of paper containers and milk cartons and will add new manufacturing facilities at its principal plant in Fulton, N. Y. A subsidiary company, Sealright Pacific, Ltd., converts and sells Sealright packaging throughout the far west. Although the food and dairy industries are the largest users of Sealright products, new applications are currently being developed in several nonfood fields.

Consolidated net sales of the corporation rose from $23,700,000 in 1946 to $42,000,000 in 1955.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

	Authorized	Outstanding
3½% secured note due May 15, 1969	$3,700,000	*$3,092,500

Common stock (par $5)	‡1,500,000 shs.	§650,148 shs.

*Excluding $269,000 due within one year. ‡Increased March 27, 1956 from 750,000 shares. §Including 2,550 shares issued pursuant to the exercise of options granted by the corporation under its Key Employees Stock Option Plan to certain of its officers and employees, but excluding 40,350 shares subject to further options granted under the Plan, which options may be exercised at any time within 7 years after the granting thereof. Under the plan an additional 7,100 shares are available for options.

The number of shares outstanding will be increased by 125,028 shares if all the debentures above offered are converted at the initial conversion price.

UNDERWRITERS—The underwriters are under firm commitment to purchase their respective percentages of the unsubscribed debentures as follows:

Hornblower & Weeks	18%	Paine, Webber, Jackson & Curtis	5%
Glore, Forgan & Co.	9	Granbery, Marache & Co.	4
Goldman, Sachs & Co.	9	W. H. Newbold's Son & Co.	4

Pacific Gas & Electric Co.—1955 Satisfactory Year—James B. Black, Chairman, and N. R. Sutherland, President, in the company's annual report, said:

The year 1955 was one of the most satisfactory in the company's long history.

The feature of the year's operations was the upsurge in the rate of growth, following only moderate gains in 1954. Sales of both gas and electricity were materially larger than those of the previous year. The gain in gross operating revenues exceeded that of any previous year, as did the number of new customers.

From an earnings standpoint the results of the year were likewise encouraging, although the improvement was due in part to favorable weather conditions. Net earnings for the common stock were equivalent to $3.32 a share on the 16,255,733 shares of common stock outstanding throughout the year. This compares with earnings of $2.89 a share on an average of 16,160,533 shares outstanding in the previous year, and $2.88 a share based on the 16,255,733 shares outstanding at the close of 1954.

Dividends on the common stock were continued at the quarterly rate of 55 cents a share, or $2.20 per year.

An outstanding feature of the year's operations was the large growth in revenues. Gross revenues increased $57,255,000, or 14.8%, to a new peak of $443,500,000. However, several factors contributed to the gain which were not associated with the normal growth in sales volume, particularly in the Gas Department.

The Electric and Gas Departments registered gains in gross revenues of 9.2% and 27.5%, respectively, while the corresponding gains in sales were 11.3% and 17.8%.

The reduced level of the company's construction expenditures, together with increasing amounts of cash from internal sources, resulted in a reduction in the amount of the company's new money require-

itized for FRASER
http://fraser.stlouisfed.org/

ments in 1955, as compared with its requirements over a number of preceding years. This situation is expected to continue at least through 1956.

For the second successive year the company was able to finance its requirements without resorting to the sale of common stock, and still maintain its capital structure in satisfactory balance.

The company closed the year 1954 with $38,000,000 of short-term bank loans outstanding. Approximately $20,000,000 of these loans had been obtained to retire the debt assumed following the mergers into this company of Pacific Public Service Co. and Coast Counties Gas & Electric Co. in the latter half of 1954.

In March 1955 the company sold at competitive bidding $50,000,000 of its first and refunding mortgage bonds, series Y, 3⅜%, due Dec. 1, 1987. The major portion of the proceeds was used to retire the $38,000,000 of bank loans referred to above.

In October public offering was made through a nationwide group of underwriters of 1,000,000 shares of the company's 4.36% redeemable first preferred stock. The issue was marketed at $25.50 a share and was very favorably received by both individual and institutional investors. With the proceeds, all the company's then outstanding bank loans, in the amount of $23,000,000, were retired.

In order to meet its requirements for the remaining portion of the year and for the early months of 1956, the company late in November borrowed $18,000,000 from banks and closed the year with that amount of short-term debt outstanding.

The pattern of the company's financing in 1955 was one of utilizing bank loans on a temporary basis, and later proceeding with permanent financing at times and in amounts as believed advantageous.

At the year-end the company's total capitalization amounted to $1,716 million, consisting of 46.9% bonds, all outstanding under the company's first and refunding mortgage, 20.3% preferred stock, and 32.8% common stock equity.

See also statement of earnings in V. 183, p. 1113.—V. 183, p. 1476.

Parke, Davis & Co.—Earnings Rise—

This company on April 16 reported net sales of $32,549,037 for the first three months of 1956, compared with $28,805,972 for the first quarter last year.

Net earnings in the first three months of 1956 amounted to $4,196,864, equal to 86 cents on each of the 4,904,541 shares of common stock outstanding. During the first quarter last year, net earnings totalled $2,832,063, or 58 cents a share.

On April 30, the company will pay a dividend of 40 cents a share to stockholders of record April 9. The payment will total more than $1,960,000.—V. 183, p. 1861.

Pennsylvania Electric Co.—Registers With SEC—

The company on April 18 filed a letter of notification with the SEC covering $25,000,000 of first mortgage bonds due 1986 and 50,000 shares of cumulative preferred stock, series G, par $100 per share, both to be offered at competitive bidding on or about May 15.

The net proceeds from the sale of the securities are to be used to reduce bank loans and pay for new construction.—V. 181, p. 2122.

(Chas.) Pfizer & Co., Inc.—Reports Record Earnings—

First quarter sales and earnings of this corporation were the highest for any similar period in its 107-year-old history, John E. McKeen, President, told shareholders at the annual meeting on April 16.

According to preliminary figures, Mr. McKeen said, net sales were $43,833,000, an increase of 6% over the $41,127,877 reported for the first quarter in 1955. Net earnings were $4,598,000 for the first three months compared with $3,877,061 in the same period in 1955, an increase of 18%. Earnings were equivalent to 88 cents a share on the common stock against 75 cents in 1955.

Within the next few weeks, Mr. McKeen revealed, Pfizer will enter the field of tension-relieving drugs with a product called Atarax which will be marketed by the Roerig Division. Its chief use, he indicated, is to provide peace of mind in cases of common, everyday anxiety.

Atarax, Mr. McKeen asserted, has been used effectively in Europe for two years and has undergone clinical trials in this country. These tests have shown that the drug causes a minimum of side effects, he added.

The shareholders were told that Pfizer planned to spend $4,000,000 on plant expansion during 1956. Among the projects, Mr. McKeen said, is an addition to the organic chemical production and refining facilities at Groton which will significantly increase the capacity for the company's drugs and chemicals. He indicated that the various construction proposals would be financed by internally-generated funds and that the company did not anticipate the need for additional financing.

Mr. McKeen said that research expenditures this year would approximate $7,000,000, about the same as in 1955.—V. 183, p. 1477.

Phelps Dodge Corp.—Reports Rise in Earnings—

Estimated earnings for this corporation are $25,000,000 before deduction for depletion of mines, or $2.46 per share, for the first quarter of 1956, compared with $15,600,000, or $1.54 per share, for the like period of 1955, it was reported on April 17 by Robert G. Page, President.

Mr. Page told the annual meeting of stockholders that the record net income was due to higher copper prices, averaging more than 44 cents per pound during the first quarter of this year compared with about 32 cents per pound in the same period of last year.

Mr. Page said he would not forecast earnings for 1956 as a whole, but pointed out that barring labor troubles and if demand for copper continues strong throughout 1956, Phelps Dodge mine production should be slightly higher than last year's. He pointed out that last year's earnings were realized with an average copper price of approximately 37½ cents per pound. Mr. Page said that the domestic producers' price to date this year has averaged more than 44 cents. "Accordingly," he added, "it is not impossible that the year 1956 should see earnings even better than our record earnings for 1955."—V. 182, p. 2134.

Philadelphia Electric Co.—Continues Expansion—

R. G. Rincliffe, President, on April 11 told stockholders that the utility's long-range expansion program is geared to continued growth for Greater Philadelphia area.

The utility's post-war construction program to serve growing needs passed $500,000,000 last year, and is expected to continue at an accelerated rate averaging more than $1,500,000 weekly, to aggregate nearly $900,000,000 by 1960.

A major item in the program is the new electric generating station at Eddystone, near Chester, Pa. The first unit, with a capacity of 325,000 kilowatts, is scheduled to be placed in operation in 1959. A second unit of like capacity will be installed subsequently. Together, these two giants will produce enough power to supply the electrical needs of a million homes. A new generator is also being installed at the company's Schuylkill station in Philadelphia, which will add 175,000 kilowatts to the area's power supply in 1958.—V. 183, p. 7.

Philip Morris Inc.—Reports Increased Earnings—

An increase in first quarter earnings was reported to stockholders at the company's annual meeting on April 10 by O. Parker McComas, President.

"We anticipate our first quarter sales will be approximately $72,000,000, and our earnings per share of common stock outstanding 77 cents, Mr. McComas said. The first quarter last year showed Philip Morris sales at $57,000,000, and earnings at 55 cents. With regard to the cigarette market in general, the company executive noted the continuing intensity of changes in consumer preferences and in distribution outlets. "The trend," he pointed out, "is in favor of the filter tip cigarette . . . sales of non-filtered king size cigarettes have levelled off. I anticipate that at the end of this year, regular non-filtered cigarettes may be selling at a rate of 45%, king size 25%, and filtered, 30% of the domestic market."

Mr. McComas reviewed the successful introduction, during 1955, of the company's Marlboro brand "in the unique flip-top box to the popular price filter tip field. In many major metropolitan markets," he said, "it is the leading filter tip cigarette."—V. 183, p. 112.

Piedmont Natural Gas Co., Inc., Charlotte, N. C.—Registers Stock With SEC—To Place Bonds and Preferred Stock Privately—

This company on April 12, filed a registration statement with the SEC covering 41,530 shares of its $1 par common stock. The company proposes to offer this stock or subscription by common stockholders at the rate of one new share for each 10 shares now held. The record date, subscription price and underwriting terms are to be supplied by amendment. White, Weld & Co. is named as the principal underwriter.

The company distributes natural gas in nine communities in the Piedmont area of North and South Carolina and propane air gas in two other communities. It is engaged in a construction program for 1955 and 1956 which will involve capital expenditures of approximately $2,500,000 and $2,000,000, respectively. The financing program to raise funds for this program consists of (1) the issuance and sale of $2,000,000 of first mortgage bonds, 4¾% series due May 1, 1981, to institutional investors; and (2) the issuance and sale of the 41,530 new common shares. Additional funds needed to complete the 1956 and 1957 construction program will come from cash generated from operations of the company and bank borrowings which are expected not to exceed $500,000.

In addition to the above-mentioned bond and new common stock financing, the company is negotiating for the issuance and sale to an institutional investor of 25,000 shares of $5.50 series cumulative preferred stock at $100 per share, the net proceeds from which are to be used to prepay $1,800,000 of 4½% bank loans and $400,000 temporary bank borrowings. Any balance remaining will be applied to the construction program.—V. 175, p. 920.

Pittsburgh Rys. Co.—Tenders—

Commonwealth Trust Co. of Pittsburgh, trustee, on April 11 invited written proposals to be received by it at 312 Fourth Ave., Pittsburgh 22, Pa., on or before 3 p.m. April 25, 1956 for the sale of 5% first mortgage sinking fund bonds due Jan. 1, 1970 to the trustee for the release fund. The prices at which any bonds are offered should not be in excess of 100% of the principal amount thereof, plus accrued interest to date of acceptance. On April 27, 1956 the trustee will mail notices of acceptance of any proposals to the offerers at the addresses stated in such proposals. At its option, the trustee shall have the right to reject all proposals if, in its opinion, such a course is advisable.

There will be available for the purchase of such bonds the sum of $550,000.—V. 183, p. 211.

Pittston Co. (& Subs.)—1955 Highlights—

Year Ended Dec. 31—	1955	1954
	$	$
Barrels of petroleum products sold	40,195,249	34,067,414
Net tons of coal sold	10,945,859	8,131,606
Total revenue	205,798,315	159,735,766
Net income after taxes	3,105,023	*1,979,416
Common shares outstanding	810,505	658,771
Earnings per common share	$3.60	$2.58
Total assets	121,458,752	103,665,084
Common stockholders' equity	34,184,392	29,225,911

*Includes profit on sale of capital assets.

J. P. Routh, Chairman and President, on March 26 said in part:

Sales and assets of Pittston and its subsidiaries reached new highs in 1955 while net earnings on common stock, after preferred dividends, amounted to $3.60 per share. In the prior year, excluding extraordinary items of profit on the sale of capital assets, and adjusting to a comparable 1955 basis with respect to preferred dividends and common shares outstanding, net earnings on the common stock amounted to $1.44 per share.

The resurgence in the demand for bituminous coal has resulted in greatly increased tonnage and earnings in Pittston's coal division. Other operations—petroleum products, natural gas, trucking and warehousing—are continuing at capacity levels, and all indications point to another year of continued growth and improved profits.

Seeks Control of Brink's—

Under a stipulation filed in Federal Court in New York City on April 17, this company, the largest single shareholder in Brink's, Inc., nationally known armored car service, announced that it will go forward with its original plan of seeking Interstate Commerce Commission approval of its acquisition of control of Brink's.

Under the stipulation, the Brink's management agrees to maintain the status quo pending Commission approval, the board of directors remaining intact without change.

The stipulation halts the litigation commenced March 13 against Pittston, and Brink's application for injunctive relief has been withdrawn. The annual meeting of stockholders originally scheduled to be held on March 27, and twice postponed at the suggestion of the Court, will now be adjourned until after the Commission's decision, except that special meetings may be called to fill any vacancies that may occur on the board of directors.—V. 183, p. 1758.

Poloron Products, Inc.—Listing of Stock—

The Board of Governors of the American Stock Exchange on April 12 approved for original listing 604,600 shares of class A stock (par $1).

The corporation, primarily manufactures insulated metal containers used to preserve food and beverages and keep them hot or cold for camping, motoring trips and outdoor cooking In addition it produces portable charcoal grills. The company has obtained a license from the United States Rubber Company to use a new process for the bonding of sheet metal to vinyl plastic in order to make the two into a single integrated material. Sales to retail chains and mail order houses accounted for 50% of commercial sales for 1955. In addition, its products are handled by independent retailers throughout the country.—V. 183, p. 997.

Portland Gas & Coke Co. — Bonds Offered—Halsey, Stuart & Co. Inc., as manager of an investment banking group on April 20 offered $3,350,000 of first mortgage bonds, 4⅜% series due April 1, 1976, at 101.67% and accrued interest, to yield 4.25%. The underwriters won award of the bonds at competitive sale on April 19 on a bid of 99.61%.

Kidder, Peabody & Co. bid 100.079 and Merrill Lynch, Pierce, Fenner & Beane bid 100.07, both for the 4½s.

The bonds are to be redeemable at regular redemption prices ranging from 105.67% to par, and at special redemption prices receding from 101.67% to par, plus accrued interest in each case.

PROCEEDS—Net proceeds from the financing will be used by the company for its 1956 construction program and for other corporate purposes. Expenditures in connection with the construction program for this year are estimated at approximately $5,644,000. Major items of construction include liquified petroleum gas facilities; distribution mains; customers services, and meters and regulators.

BUSINESS—Company operates in the states of Oregon and Washington and is presently engaged in producing, distributing and selling gas and by-products recovered in connection with the manufacture of gas from heavy residuum oil. The company serves 81 communities, including the cities of Portland, Oregon City, Hillsboro, Forest Grove, Newberg, Salem, Albany and Corvallis, Ore., and Vancouver, Wash. The service area of the company covers approximately 440 square miles, with an estimated population of 750,000.

EARNINGS—For the year 1955, the company had total operating revenues of $13,030,424 and net income of $1,226,234.

UNDERWRITERS—Other members of the underwriting group include—William Blair & Co.; Johnston, Lemon & Co.; Shearson, Hammill & Co.; Freeman & Co.; Mullaney, Wells & Company; Thomas & Co.; Clayton Securities Corp.; Mackall & Co., and Arthur L. Wright & Co., Inc.—V. 183, p. 1861.

Portsmouth Steel Corp.—Secondary Offering—A secondary offering of 5,000 shares of common stock (par $1) was made on April 12 by Blyth & Co., Inc., at $20.37½ per share, with a dealer's discount of 50 cents per share. A portion of this offering was sold and the balance later withdrawn.—V. 182, p. 2734.

Prairie Oil Royalties Co., Ltd., Regina, Saskatchewan, Canada—Listing of Stock on American Stock Exchange

The Board of Governors of the American Stock Exchange on April 5 approved for original listing the company's 1,700,820 shares of capital stock (par $1).

The corporation, incorporated in July, 1951, owns and holds royalty and mineral interests in Saskatchewan, Manitoba, Northwest Territories and British Columbia. In October, 1955, there were 257 productive oil wells on the acreage in which the company has an interest. Within the past year 33 wells were completed in the Cantaur field and nine in the Success pool, both in the Swift Current area, Saskatchewan.—V. 178, p. 572.

Progress Manufacturing Co., Inc.—Record Earnings—

Both sales and earnings of this company in 1955 shattered all previous records, according to the annual report being mailed to stockholders. Ruben P. Rosen, Chairman, and Maurice M. Rosen, President, report that for the tenth consecutive year, sales established a new high, rising 29% above the previous peak volume achieved in 1954. Net income was 57% above the previous top established a year earlier. Progress became publicly owned in May, 1955.

Sales of the foremost producer of fluorescent and incandescent fixtures for home use totaled $15,882,328 for 1955, compared with $12,308,449 in 1954. Net income after all charges and taxes amounted to $1,052,080, or $1.67 per share on 630,000 common shares outstanding at the year-end. In 1954, net income was $670,654, or $1.06 per share on the same share basis.

Among major developments last year was the addition of portable outdoor lighting units for garden use and exhaust and ventilating fans to the company's product line. To facilitate fan production, Progress leased a 45,000 square foot factory in Philadelphia and established Power Vent Corp. to manufacture and distribute fans.

To handle its growing volume of business, Progress in 1955 entered into an agreement for the leasing of a 225,000 square foot factory now under construction in Philadelphia. The leasing agreement provides for purchase at the end of 10 years at favorable terms to Progress. The new factory is expected to begin operations by July, 1956.

Current plans contemplate continued expansion in 1956. The company will embark upon the production of chimes for residential housing. In addition, opportunities to diversify and expand will be explored, the report states.—V. 183, p. 1477.

*Restated to reflect amounts transferred from Federal income taxes to provision for deferred Federal taxes on income as a result of computing depreciation for Federal income tax purposes on the sum of the years-digits method as provided in the Internal Revenue Code of 1954 instead of on the straight-line method.

The earnings of the company do not reflect the losses of its subsidiary, Public Service Coordinated Transport. The reductions in Federal income taxes resulting from the computation of such taxes on a consolidated return basis have been set aside in a reserve to provide for additional taxes, which would be payable by the company on a consolidated return basis, in the event of future taxable earnings of Public Service Coordinated Transport.

‡Based on the average number of shares on which dividends were paid.

PLANS LARGE EXPENDITURES—It is estimated that construction expenditures of this company will be about $100,000,000 in 1956, Lyle McDonald, Chairman, said, of which approximately $75,000,000 will be for electric facilities and $25,000,000 for gas facilities. Construction expenditures in 1955 totaled $89,400,000. During the last five years the company has spent $388,000,000 for additions to plant. The chairman reported that substantial progress is being made in the construction of a new electric generating station at Linden, N. J., which will have initially a capacity of 450,000 kilowatts and is expected to be placed in service in 1957. He reported that preliminary engineering for construction of a new generating station in Ridgefield, to be known as the Bergen generating station, was started in 1955. This latter station will have two generating units with a total capacity of 550,000 kilowatts and is expected to be placed in service in 1958.

To help finance the company's construction program, Mr. McDonald estimates that requirements for new capital this year will be approximately $80,000,000 to $85,000,000. The types and amounts of the new securities to be issued and the time of sale have not been determined.

The stockholders have voted in favor of an increase in the amount of the authorized preferred stock of the company from 750,058 to 1,500,000 shares.—V. 183, p. 211.

Purity Stores, Ltd.—Plans Expansion Earnings Incr.—

John R. Niven, Chief Executive Officer of this grocery chain, on April 13 disclosed the company intends to spend over $4,000,000 in 1956 for new stores and facilities. Recently the company acquired 20 acres in Millsdale Industrial Park for a new warehouse and headquarters office building.

Mr. Niven also reported that both sales and earnings are now running ahead of last year and that the outlook for 1956 is encouraging.—V. 182, p. 2471.

Purolator Products Inc.—Reports Record Earnings—

Record sales and an all-time high in earnings were established during 1955 by this manufacturer of automotive oil filters and other filtration equipment, William V. Griffin, Board Chairman, and James D. Abeles, President, reported in the annual report released to stockholders on April 6.

Net earnings for 1955 were $2,167,303, an increase of 57% over net earnings of $1,377,529 reported in the previous year. Net earnings for 1955 were equal to $4.68 per share on 463,197 shares which were outstanding prior to the payment of a 10% stock dividend on Dec. 31, 1955. Earnings per share, on the basis of 508,820 shares outstanding as of Dec. 31, 1955, were $4.26. These compared with net

THE COURSE OF BANK CLEARINGS

Bank clearings this week will show an increase compared with a year ago. Preliminary figures compiled by us based upon telegraphic advices from the chief cities of the country, indicate that for the week ended Saturday, April 21, clearings for all cities of the United States for which it is possible to obtain weekly clearings will be 9.2% above those of the corresponding week last year. Our preliminary totals stand at $22,127,122,331 against $20,269,522,599 for the same week in 1955. At this center there is a gain for the week ending Friday of 11.9%. Our comparative summary for the week follows:

CLEARINGS—RETURNS BY TELEGRAPH

Week Ended April 21—	1956	1955	%
New York	$10,752,700,213	$9,606,631,266	+11.9
Chicago	1,140,279,301	1,042,079,490	+ 9.4
Philadelphia	1,296,000,000	1,248,000,000	+ 3.8
Boston	662,038,742	658,473,121	+ 0.5
Kansas City	411,625,277	403,878,264	+ 1.9
St. Louis	425,000,000	371,400,000	+14.4
San Francisco	693,024,000	654,429,194	+ 5.9
Pittsburgh	480,612,617	390,185,414	+23.2
Cleveland	619,425,913	538,643,289	+15.0
Baltimore	391,721,492	352,274,841	+11.2
Ten cities, five days	$16,873,426,955	$15,265,994,879	+10.5
Other cities, five days	4,403,079,480	4,169,606,435	+ 5.6
Total all cities, five days	$21,276,506,435	$19,435,601,314	+ 9.5
All cities, one day	850,615,896	833,921,285	+ 2.0
Total all cities for week	$22,127,122,331	$20,269,522,599	+ 9.2

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday, and the Saturday figures are not available at time of going to press. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results of the previous week — week ended April 14. For that week there was an increase of 13.3%, the aggregate clearings for the whole country having amounted to $21,486,007,290 against $18,967,922,216 in the same week in 1955. Outside of this city there was a gain of 1.8%, the bank clearings at this center showing an increase of 26.7%. We group the cities according to the Federal Reserve Districts in which they are located and from this we note that in the New York Reserve District (including this city) the totals record an expansion of 25.5% and in the Boston Reserve District of 12.8%, but in the Philadelphia Reserve District the totals register a falling off of 8.2%. In the Cleveland Reserve District the totals are larger by 8.1% and in the Richmond Reserve District by 14.0% but in the Atlanta Reserve District the totals are smaller by 0.7%. In the Chicago Reserve District the totals suffer a loss of 6.8% but in the St. Louis Reserve District the totals enjoy a gain of 8.8% and in the Minneapolis Reserve District of 6.0%. In the Kansas City Reserve District there is a decrease of 2.7% and in the Dallas Reserve District of 1.6% but in the San Francisco Reserve District there is an increase of 7.9%.

In the following we furnish a summary by Federal Reserve Districts:

SUMMARY OF BANK CLEARINGS

Week Ended April 14—		1956 $	1955 $	Inc. or Dec. %	1954 $	1953 $
1st Boston	12 cities	785,982,029	696,830,368	+12.8	716,494,278	757,274,029

Condition Statement of Member Banks

The condition statement of weekly reporting member banks of the Federal Reserve System in leading cities shows the following principal changes for the week ended April 11: Decreases of $156 million in United States Government securities and $981 million in United States Government deposits, and an increase of $819 million in demand deposits adjusted.

Commercial and industrial loans increased $101 million at all reporting member banks; the principal changes were increases of $40 million in Chicago, $33 million in the San Francisco District, $25 million in the Cleveland District, and $15 million in the Boston District, and a decrease of $57 million in New York City. Changes according to industry appear in another press release. Real estate loans increased $34 million.

All categories of United States Government securities decreased with Treasury bills decreasing $51 million, Treasury certificates of indebtedness, Treasury notes, and holdings of United States Government bonds decreasing $18, $37, and $50 million, respectively. Holdings of "other" securities increased $43 million.

Demand deposits adjusted increased $233 million in Chicago, $199 million in the San Francisco District, $115 million in New York City, $68 million in the Chicago District outside of the City of Chicago, $65 million in the Philadelphia District, and $61 million in the Atlanta District.

Borrowings from Federal Reserve Banks increased $323 million and borrowings from others decreased $130 million. Loans to banks decreased $113 million.

A summary of assets and liabilities of reporting member banks follows:

ASSETS—	Apr. 11, 1956	Increase (+) or Decrease (—) Since Apr. 4, 1956	Apr. 13, 1955
	(In millions of dollars)		
Loans and investments adjusted*	85,447	— 7	+ 624

General Corporation and Investment News

(Continued from page 15)

earnings of $3.12 per share before stock dividend paid on Dec. 31, 1954, and $2.97 per share after stock dividend paid on Dec. 31, 1954.

The record net earnings for 1955 were made after providing $2,486,750 for United States and Canadian income taxes. Distribution of earnings to shareholders during the year consisted of cash dividends of $1,157,992, plus a 10% stock dividend. In 1954, cash dividends of $773,540 were paid plus a 5% stock dividend. These cash dividends were equal to $2.50 per share in 1955 and $1.75 per share in 1954.

The report also showed that net sales for 1955 hit an all-time high with a total of $27,550,163, or an increase of 17% over net sales for the previous year. Unfilled orders on hand Dec. 31, 1955, aggregated $4,591,999.

Net working capital was shown in the annual report as $7,980,375 as compared with $7,537,106 at the end of 1954. Stockholders' investment rose to $7,939,113 from $6,959,065 at the close of the previous year. Total assets were $14,762,048 at the close of 1955 as compared with $13,249,741 at the end of 1954.

It was further revealed that income from Purolator's foreign operations continued to show steady improvement. The wholly-owned subsidiary, Purolator Products (Canada) Ltd., reported 1955 earnings of $116,738 after taxes on sales of $1,622,449 (U. S. currency) as compared with earnings of $80,992 after taxes on sales of $1,345,976 in 1954. Royalties received from foreign licenses were $82,896 in 1955 compared with $65,125 received in 1954.

The report also announced that Purolator's research department is now actively engaged in separation problems as applied to nucleonics. —V. 182, p. 2793.

Radio Corp. of America—Announces Availability of Color Set Information—Price of Color Picture Tube Reduced—

Complete blueprints and detailed mass-production "know-how" developed by this corporation for color television receivers are being made available for immediate use by other television manufacturers, it was disclosed on April 16 by Frank M. Folsom, President.

At the same time, a reduction in the manufacturer's price of the RCA 255-square-inch color picture tube from $100 to $85 was announced.

RCA now is marketing through its dealers across the country a full line of color receivers, from table models to consoles, ranging in price from $635 to $995. The company's manufacturing facilities at Bloomington, Ind., have been completely converted for the mass production of color sets. Each of five assembly lines is geared to the output of 60 sets an hour—one-a-minute. Other color set production facilities are available at the RCA plant at Indianapolis, Indiana.

Stating that NBC's fall plans call for at least one major color program in prime evening viewing hours, every night of the week, in addition to "Spectaculars," Mr. Sarnoff said:

"That means color every evening on a regular basis. And it means that on the Saturday, Sunday or Monday when a 'Spectacular' is scheduled, we can have as much as 2½ solid hours of attraction programming in color. With our new color recording equipment in operation, these programs will be available in color to the West Coast markets as well as the rest of the country."

He pointed out that WNBQ, the NBC owned-and-operated outlet in Chicago, on April 15 dedicated new facilities which make it the world's first all-color station capable of originating all local programs in compatible color.

Tex Teleprinter service available to TWX customers—

RCA Communications, Inc. will make its TEX (Overseas Exchange Teleprinter Exchange) service available immediately to all customers of the TWX teletypewriter service in the United States, Thompson H. Mitchell, President, announced on April 10.

"This expanded TEX service," Mr. Mitchell said, "will enable TWX customers to engage in direct two-way written 'conversations' with their correspondents abroad in much the same manner as they now make teletypewriter calls between American cities.

"Heretofore, the overseas TEX service—first introduced by RCA in 1950—has been available in this country only to a private network of RCA teletypewriter subscribers in New York, San Francisco and Washington, D. C. From now on, every TWX customer in America can make use of this modern means of international communications."—V. 183, p. 1758.

Republic Steel Corp. (& Subs.)—Earnings Up—

Quarter Ended March 31—	1956 $	1955 $

*Restated to reflect 2-for-1 common stock split in 1955.

Operations for the second quarter are expected to equal those of the first quarter, C. N. White, President, told stockholders in a brief report on current business.

"Orders are being received in good volume and our backlog is increasing," he said. "For 1956 as a whole, in the absence of a steel strike or other circumstances not now foreseen, we look forward to steel production which will be slightly in excess of the record output of 1955."—V. 182, p. 1862.

Reynolds Metals Co.—Profit Up 58—

This company and its wholly owned subsidiaries made an all-time high net profit of $11,574,212 for the first quarter of 1956, a 58% increase over the same period last year. This profit, R. S. Reynolds, Jr., President, announced on April 18, was after provision for income taxes of $12,454,06.

The earnings in the first quarter were equal to $1.12 per share on the 10,055,065 shares of common stock outstanding at the end of the period, after allowing for dividend requirements of the new 4¾% cumulative series A $50 par preferred stock. This compares with a first quarter profit in 1955 of $7,116,259, or 71c a share on the same number of shares outstanding.

Net sales in the first quarter this year rose to a record level of $105,578,452 compared with $87,129,795 during the first quarter of 1955. This was an increase of 21%.—V. 183, p. 997.

RKO Pictures Co.—Granted "Oklahoma" Contract—

See Magna Theater Corp. above.—V. 182, p. 2735.

Rochester Gas & Electric Corp.—Secondary Offering—A secondary offering of 40,000 shares of common stock (no par) was made on April 11 by Kidder, Peabody & Co. at $45.50 per share, with a dealer's discount of 85 cents per share. It was completed.—V. 183, p. 1619.

Ronson Corp.—Markets New Shaver—

This corporation, which so successfully introduced the Ronson Electric Shaver for men last year, is now marketing a glamorous new "Lady Ronson" Electric Shaver for women. Initial distribution of the "Lady Ronson," which will retail for $14.95, commenced in April with nationwide distribution by the summer.—V. 182, p. 1018.

—V. 183, p. 776.

St. Regis Paper Co.—Reports Record Earnings—

This company on April 12 reported record sales and earnings for the first quarter of 1956. Roy K. Ferguson, President and Chairman of the Board, stated that preliminary figures showed net sales up 45% and net income up 49% over the like period of last year.

Net sales for the first quarter amounted to $81,464,000 and net income was $6,212,000, equal to approximately 95c a share on 6,380,873 shares of common stock outstanding at the end of the quarter. This compared with net sales of $55,049,575 and net income of $4,129,968, equal to 72c a share on 5,511,993 common shares outstanding in the comparable period of 1955. The increase, Mr. Ferguson indicated, was due partly to acquisition of other companies, and partly to increased customer demand.

Mr. Ferguson reported the acquisition of Pacific Waxed Paper Co. of Seattle, Wash., through the acceptance by over 90% of the stockholders of that company of an offer to exchange on the basis of 3.7 common shares of Pacific Waxed for one share of St. Regis common. Pacific Waxed, he pointed out, is engaged in the manufacture of paper, film, and foil protective packaging materials from paper stocks, cellophane, pliofilm, polyethylene, saran, acetate, and foil. Pacific had net sales of $5,492,101 in 1955 and net income of $108,030. Products manufactured by Pacific, he said, are marketed in 11 western States, Alaska, Hawaii, the Philippines, and Central and South America. This extends St. Regis' operations in this field, he added, to an area which is not served by its Pollock Paper Corp. subsidiary.

Stockholders were told by Mr. Ferguson of the offer of exchange of St. Regis common stock for Rhinelander Paper Co. common stock on a share-for-share basis. He indicated that the exchange would become effective upon the deposit of not less than 80% of the Rhinelander shares by April 16, 1956. St. Regis, he added, reserves the right to extend the date for deposit of the shares. Rhinelander manufactures greaseproof, glassine, and supercalendered sulphite papers used principally in the food industry. Mr. Ferguson said that Rhinelander had net sales of $21,643,880 in the last fiscal year and net income of $1,628,975 with earnings of $3.02 per common share on 540,000 shares outstanding. He stated that he had been informed Rhinelander's net sales for this year are estimated at $25,000,000 with net income over $2,000,000.

In addition to its mill at Rhinelander, Wis., with its 50,000 ton capacity, Mr. Ferguson in further discussion of the exchange offer, pointed out that Rhinelander has a half-interest in the R-W Paper Co. mill at Longview, Wash., which has a capacity of 10,000 tons of glassine and greaseproof papers. This mill is being built jointly by Rhinelander and Weyerhaeuser Timber Co. immediately adjacent to the latter's pulp mill and is expected to be in production in June of this year.

Mr. Ferguson commented upon the acquisition by St. Regis of 1,000,000 shares of capital stock, representing a 34% interest, in Growers Container Corp., at $2.50 per share, and he pointed out that St. Regis has an option to acquire an additional 800,000 shares at the same price on or before Dec. 31, 1957. Growers, he said, manufactures fibreboard containers for the packaging of fresh fruits and vegetables and industrial products, and converts flexible packaging materials including polyethylene film. He added that Growers, which operates a modern plant at Salinas, California, is constructing a new plant at Jacksonville, Florida, and expects to locate additional plants on the West Coast and elsewhere.

In commenting upon the acquisition of Chester Packaging Products Co., extruders of polyethylene and manufacturers of film, pipe, and laminated products, Mr. Ferguson pointed out that this is a natural adjunct to the company's flexible packaging operations.

Stockholders were told by Mr. Ferguson that the prospects are for another good year for 1956 and that on the present basis, without Rhinelander, sales for this year should reach $325,000,000 and net earnings should amount to $24,000,000-$25,000,000. He added that, in 1957, with the completion of the new machine at Jacksonville, Fla., and production from the new mill of North Western Pulp & Power Ltd. at Hinton, Alberta, Canada, in which St. Regis owns half-interest, sales and earnings should be increased substantially over these figures.

St. Regis is expanding its Jacksonville mill through the addition of a new kraft paperboard machine and additional pulping capacity which will add 1,000 tons a day to the present 300-ton-a-day capacity of the mill. Completion of the expansion program is expected in the first quarter of 1957. The expansion will give St. Regis overall annual capacity of better than 900,000 tons of bleached and unbleached kraft paper and board.

The design and construction of North Western Pulp & Power's bleached sulphate mill at Hinton is being directed by St. Regis. It is expected that this mill, which will be operated and managed by St. Regis, will come into production in the spring of 1957. It will have a capacity of 150,000 tons a year of bleached pulp. Pulpwood will be drawn from 2,000,000 acres of Crown lands. An additional 2,000,000 acre provisional reserve has been granted under the pulpwood lease by the Province of Alberta. The mill is designed to manufacture top quality bleached kraft pulp and with future expansion, production is expected to reach 350,000 tons annually.

With reference to oil activities in southern Alabama and western Florida, Mr. Ferguson reported that the development of deep wells at Citronelle, Alabama, may prove interesting in future developments with relation to the company's land holdings in that area.—V. 183, p. 1114.

Savannah Electric & Power Co.—Registers With SEC

This company, filed a registration statement with the SEC on April 12, 1956, covering $4,500,000 of first mortgage bonds, due 1986, to be offered for public sale at competitive bidding.

Net proceeds will be used to pay the company's outstanding short-term notes, aggregating $4,200,000, evidencing borrowings from banks for construction requirements, and, together with cash from operations and additional short-term bank loans, to complete the company's 1956 construction program. Construction expenditures for 1956 are estimated at $6,400,000.

Bids are expected to be received by the company, up to 11 a.m. (EDT) on May 9, at 90 Broad Street, New York, N. Y., for the purchase from it of the above mentioned $4,500,000 first mortgage bonds due May 1, 1986.—V. 183, p. 776.

Sayre & Fisher Brick Co.—Stock Offered—The company is offering to its stockholders of record April 13, 1956, the right to subscribe on or before May 7, 1956, for 234,641 additional shares of capital stock (par $1) at $5 per share on the basis of one new share for each two shares held (with an oversubscription privilege). This offering is not being underwritten. The Hanover Bank, 70 Broadway, New York 15, N. Y., is warrant agent.

PROCEEDS—Of the net proceeds to be received by the company from the sale of the shares, approximately $143,000 will be applied to the prepayment in full of the outstanding 4½% sinking fund bond due 1960. The balance will be available for general corporate purposes, including working capital and expenditures for additions and improvements to its facilities.

The principal additions and improvements now contemplated by the company are the acquisition of additional equipment for the sand division and the clay division at an estimated aggregate cost of $150,000, the construction of a plant for the manufacture of light weight aggregate at an estimated cost of $700,000 and the construction of a new tunnel kiln, for use in the manufacture of brick, at an estimated cost of $700,000.

The company anticipates that, after completion of the subscription offer, it will make a long term loan of approximately $500,000 to provide funds necessary to complete the program, but the company has not conducted any negotiations with prospective lenders and is therefore unable to state what the terms of such loan will be.

Digitized for FRASER
http://fraser.stlouisfed.org/

DIVIDENDS—The company has paid cash dividends on its capital stock for the last five years as follows: 1951, 9.5 cents per share; 1952, 11.8 cents per share; 1953, 17.5 cents per share; 1954, 20 cents per share, and 1955, 20 cents per share. A dividend of five cents per share was paid on March 1, 1956.

BUSINESS—The company, a New Jersey corporation, was organized in 1926 and is the continuation of a brick business founded in 1850 in Sayreville, N. J., where its plant is located.

The company is engaged primarily in the manufacture and sale of clay brick for building construction, and is one of the largest manufacturers of building brick in the northeastern part of the United States.

The company has conducted studies and tests which established that some of the clays on its property are suitable for the manufacture of light weight aggregate by a sintering process, and intends to construct and operate a plant for the purpose. The plant will be built on the company's property at Sayreville. The plant will have a capacity of approximately 1,500 cubic yards of aggregate per day, all of which will be manufactured of clay from the deposits on the property. The company expects that it will be in operation by October, 1956.

The company's property contains a very large supply of white sand of good quality for building purposes and other industrial uses, which it began to produce and sell in 1953. The capacity of the sand division is about 500 cubic yards per day. The company has in recent months purchased additional equipment at a cost of about $100,000, and intends to purchase further equipment at a cost of an additional $100,000, which will increase the capacity to about 1,000 cubic yards per day.—V. 183, p. 1862.

Scholz Homes, Inc. (Ohio)—Stock Offered—An underwriting group headed by Straus, Blosser & McDowell on April 18 offered for public sale 160,000 shares of common stock ($1 par value) at a price of $10.25 per share.

PROCEEDS—Net proceeds from the stock sale will be used to establish and equip plants at Wilmington, Del., and near Memphis, Tenn.; for investment in the company's wholly-owned acceptance corporation to provide interim financing to builders during the construction period of Scholz homes; and to finance the company's increased volume of business.

BUSINESS—The corporation, headquartered at Toledo, Ohio, is engaged principally in the business of designing, manufacturing and selling prefabricated homes through sales representatives to builder-dealers.

EARNINGS—The corporation had net earnings in the 11 months ended Jan. 31, 1956, of $328,801, compared with $117,618 in the comparable period the year before.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

Notes payable (current)—		
*Construction loans—secured		$931,434
Others		4,641
Notes payable (long-term)—		
Sundry		687,590
Common stock ($1 par value)	500,000 shs.	500,000 shs.

*Secured by mortgages on homes under construction. The notes bear interest at rates ranging from 4½% to 6% and mature at various dates from 1974 to 1976, except a note for $131,250 which matures in October, 1956. While substantially all such loans by their terms have a final maturity in excess of one year, they are included as current obligations, since when properties are sold, ordinarily within a period of one year, the loans are repaid.

UNDERWRITERS—The name of each underwriter and the respective number of shares which each has severally agreed to purchase from the company are as follows:

Seiberling Rubber Co.—Earnings—

Three Months Ended March 31—	1956	1955
Consolidated net sales	$10,716,356	$10,054,459
Income before taxes	326,533	266,108
U. S. and foreign income taxes	150,365	132,780
Net income	$176,168	$133,328
Common shares outstanding	414,916	391,430
*Earned per share of common stock	$0.30	$0.21

*After allowing for preferred dividends.

Sales in March were the largest single month's sale in the history of the company, offsetting January and February sales which were slightly below the 1955 rate.—V. 182, p. 2472.

Seismograph Service Corp.—Reports Increased Earns.

The corporation reports that for the year ended Dec. 31, 1955 the gross income, including its non-consolidated subsidiaries Seismograph Service Ltd. and Compagnie Francaise de Prospection Sismique, totaled $11,618,875, which is the highest since the founding of the company 25 years ago. The gross income of the company, excluding these subsidiaries, was $8,520,814 for the year.

Despite heavy domestic losses early in the year, the net profit, considerably helped by dividends and research and management fees from Seismograph Service Ltd., amounted to $743,308, or $2.12 per share, compared to $618,986, or $1.77 per share, in 1954.

The corporation paid four dividends totaling $1 per share in 1955. In addition the company contributed $82,308 to its Employees' Profit Sharing (Pension) Trust.—V. 182, p. 2253.

Sentinel Radio Corp.—Changes Name—

The American Stock Exchange on April 10 received notice that the name of this company has been changed to Dempster Investment Co. Transactions in the common stock (par $1) began on the Exchange on April 11.—V. 183, p. 1115.

Shattuck Denn Mining Corp.—Wins Lawsuit—

Thomas Bardon, President, on April 17 announced that this corporation "has been successful in the lawsuit brought against it in New Mexico. The suit was filed in 1953 by Peerless Oil & Gas Co., a corporation controlled by the Vernon F. Taylor interests of San Antonio, Texas, and included claims for damages of more than $1,000,000 in connection with fluorspar mining operations in which Peerless Oil and Gas had certain profit-sharing rights. The court decided all issues in favor of Shattuck Denn and its wholly-owned subsidiary, Zuni Milling Co."—V. 178, p. 953.

Sierra Pacific Power Co.—Registers With SEC—

The company filed a registration statement with the SEC on April 12, 1956, covering 80,500 shares of its preferred stock, series A, $50 par. The company proposes of offer this stock in exchange for the 35,000 shares of the company's outstanding 6% preferred stock, $100 par, on the basis of 2.3 shares of the new preferred for each share of the old preferred. The dividend rate, public offering price and underwriting terms in respect of the unexchanged shares, and the names of the underwriters are to be supplied by amendment.

The company has obtained temporary bank loans in an amount sufficient to redeem the old preferred stock. The proceeds from the sale to underwriters of the unexchanged shares of new preferred together with the unused portion of the money deposited to redeem the old preferred stock will be used to repay such bank loans.

Promptly after the redemption of the old preferred the company expects to offer 62,576 additional shares of its common stock to stockholders for subscription on the basis of one share for each 10 shares held. (This offering presumably will be covered by another registration statement).—V. 183, p. 1862.

Silvray Lighting, Inc.—Listing in New York—

The Board of Governors of the American Stock Exchange on April 5 approved for original listing the company's 625,000 shares of common stock (par 25 cents). They were admitted to dealings on April 16.

The corporation, incorporated in September, 1929, is engaged in the processing of incandescent lamps with a mirror silver coating and the manufacture of incandescent lighting fixtures for commercial, industrial and home use. The "Silvray Process" involves the application of silver, copper and aluminum upon the outside surface of an incandescent lamp with the result that the light produced is directed to any desired area.

Three wholly-owned subsidiaries include Silvray of New Jersey, Inc. which fabricates and finishes the company's products; Vision Aids, Inc., which markets residential and commercial lighting fixtures purchased from the company; and Skylike Lighting, Inc., which markets the "Skylike" line of fixtures.—V. 183, p. 1862.

Simplex Precast Industries, Inc.—Stock Offered—The corporation on April 7 publicly offered 300,000 shares of class A common stock (par one cent) at $1 per share as a speculation.

PROCEEDS—The net proceeds are to be used to erect plant and pay for land improvements; purchase and install machinery and equipment; repay note and advances by a director and an officer; and for working capital.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

	Authorized	Outstanding
Class A common stock (par one cent)	600,000 shs.	353,830 shs.
Class B common stock (par one cent)	500,000 shs.	‡227,000 shs.

As of Dec. 31, 1955 the authorized capital of the company consisted of 8,000 shares of 6% preferred stock ($100 par value) of which 110 shares were outstanding and 25,000 shares of common stock (without par value) of which 197.5 shares were outstanding. On Jan. 23, 1956, by amendment to the articles of incorporation, the authorized capital was changed to 600,000 shares of class A common stock (1 cent par value) and 500,000 shares of class B common stock (1 cent par value). Pursuant to said amendment each share of 6% preferred stock was exchanged for 200 shares of class A common stock and each share of common stock (without par value) was exchanged for 20 shares of class A common stock.

‡If all of the options for the purchase of class B common stock held by the officers, directors and initial stockholders of the company are exercised, there will be an additional 270,850 shares of class B common stock outstanding.

BUSINESS—Company was organized in Delaware on April 7, 1953 under the name of Simplex Roofing Tile Corp. On Jan. 23, 1956 the company's name was changed to Simplex Precast Industries, Inc. to more accurately reflect the wider variety of precast cement products which it intends to manufacture. The principal office of the company is located at 54 East Penn St., Norristown, Pa.

The company proposes to engage in the manufacture and sale of various precast cement products including roofing, floor and wall tile, flagstones and stepping stones. The company ultimately plans to enlarge its line to include such products as precast cement roof planks for industrial roofing, prefabricated sub floor and joist sections in single structural members and other standardized structural parts for commercial and industrial buildings.

The company has purchased a three acre tract of land in East Norriton Township, Montgomery County, Pa., for its plant site. The company plans to erect a cinder block and concrete building which will ultimately contain a total of 22,000 square feet on a single floor. Present plans call for erection of an initial plant unit containing 6,000 square feet sufficient to house the 30 ton press and related equipment for the production of floor and wall tile.

The company holds an option to purchase a tract of land containing 12½ acres immediately adjacent to the company's land for $20,000. The option is exercisable at any time on or before Aug. 4, 1956. The company does not presently intend to exercise said option and will do so only if future business exigencies make such action necessary.—V. 183, p. 1473.

Simpson Electric Co., Chicago, Ill.—Takes to Air—

This firm, long known as a producer of electronic testing instruments for the radio-television and refrigeration industries, on April 12 launched an Avionics Division. And, significantly, its first volume order is for an instrument to keep airplanes "on the beam."

The new division will produce aircraft-indicating instruments of all types.

First product of the Avionics Division is a variable omni-range indicator (VOR) of advanced design. A product of many months of research by Simpson Electric engineers, the VOR indicator is the only such instrument in the field which uses the D'Arsonval self-shielding core movement—a movement brought to a high degree of perfection by Simpson Electric through use in many of its other instruments.

The new VOR tells a pilot the position of his aircraft in relation to the nearest "beam" transmitter. By referring to a map which indicates these transmitter stations he can quickly determine his position even in zero visibility.

The self-shielding feature of the new Simpson aircraft range finder means that its core-movement magnet cannot be affected by outside magnetic influences. A prototype of the lightweight, self-contained core magnet movement has met all standard tests of the Armed Forces for ruggedness.

The new division already has orders for a number of other aircraft instrument prototypes, including glide path and roll-and-dive indicators, which are scheduled for production this spring and summer. Eventually, it was said, the Avionics line will be expanded to include all types of aircraft instruments for both private and commercial planes.

The company, founded in 1934 by Ray R. Simpson, has increasingly diversified its production lines. It is a large producer of panel meters for electrical measurements of all kinds including such fields as radar, X-ray, nuclear energy and radiation. Besides its widely known testing equipment, Simpson also is a leading manufacturer of meter relays, shunts, and laboratory standards.

Socony Mobil Oil Co., Inc.—Registers With SEC—

This company, filed a registration statement with the SEC on April 13, 1956, covering $17,500,000 of Interests in its Employees Savings Plan together with 250,000 shares of its $15 par capital stock which may be purchased under the Plan.—V. 182, p. 1224.

Sonoma Quicksilver Mines, Inc., San Francisco, Calif.—Files With Securities and Exchange Commission—

The corporation on April 9 filed a letter of notification with the SEC covering 640,000 shares of capital stock (par 10 cents) to be offered to its stockholders at 45 cents per share, without underwriting. The proceeds are to be used to pay expenses incident to mining operations.—V. 182, p. 1573.

Southern California Edison Co. — Bonds Offered — Headed jointly by The First Boston Corp. and Dean Witter & Co., a nation-wide underwriting group on April 18 offered publicly $40,000,000 of 3⅝% first and refunding mortgage bonds, series G, due April 15, 1981, at 99.106% and accrued interest, to yield 3.68% to maturity. The bonds were awarded to the group on April 17 at competitive sale on its bid of 98.2799.

Other bids were received for a 3¾% coupon as follows: Halsey, Stuart & Co. Inc., 99.08; Blyth & Co., Inc., 98.509, and Kuhn, Loeb & Co., 98.125.

The bonds will be redeemable, in whole or in part, at the option of the company, at prices ranging from 103% if redeemed prior to April 15, 1957, to 100% if redeemed after April 15, 1980.

PROCEEDS—Part of the net proceeds from the sale will be used to retire short-term bank loans, not to exceed $10,000,000, and the balance applied to the company's construction program which will cost an estimated $253,840,000 for the years 1956-1957. Southern California Edison anticipates additional financing of $105,000,000 from outside sources; the balance will be obtained from internal sources.

BUSINESS—The company sells electricity in portions of central and southern California, covering 84 incorporated cities and more than 300 unincorporated communities, with a total population of 3,800,000. The firm does not serve Los Angeles.

This company filed a zoning application with the Ventura County Planning Commission on April 10 for its new $68,000,000 steam-electric generating station at Mandalay Beach near Oxnard.

Construction payrolls for the new two-unit electric plant will total approximately $5,000,000 for the first unit, while the second unit will require an additional $4,000,000, it was estimated by the company. Additionally, the station will require a permanent payroll of approximately $288,000 annually.

With the completion of both units, the new station will provide more than $1,000,000 in taxes annually for Ventura County.

EARNINGS—Total operating revenue in 1955 for Southern California Edison was $176,580,381 contrasted with $153,686,399 in 1954. Net income in 1955 was $29,628,919 and in 1954 $27,170,579.

UNDERWRITERS—The underwriters named below have severally agreed to purchase from the company the following respective principal amounts of the new bonds set forth below:

The First Boston Corp.	$5,750,000	Goodbody & Co.	500,000
Dean Witter & Co.	2,500,000	Parrish & Co.	500,000
Morgan Stanley & Co.	3,000,000	Anderson & Strudwick	250,000
Drexel & Co.	2,000,000	J. Barth & Co.	250,000

H. M. Byllesby & Co.	500,000		

—V. 183, p. 1862.

Southern Colorado Power Co.—Earnings Up—

Operating revenue for the 12 months ended Feb. 29, 1956, amounted to $6,325,314 as compared with $5,787,681 for the 12 months ended Feb. 28, 1955. Net operating income, after operating expenses, maintenance, taxes and depreciation was $1,241,966 for the year ended Feb. 29, 1956, compared with $1,167,016 for the corresponding period ended Feb. 28, 1955. Net income, after deductions for all interest charges, etc., amounted to $985,986 compared with $904,314 for the corresponding periods indicated.

For the two months' period ended Feb. 29, 1956, electric operating revenue amounted to $1,082,122 compared with $972,948 for the corresponding period of the previous year. Net operating income for the first two months of 1956 amounted to $204,208 compared with $191,025 for the corresponding period of 1955, and net income was $158,743 for the first two months of 1956, compared with $152,910 for the corresponding period of 1955.—V. 182, p. 1741.

Southern New England Telephone Co.—Earnings—

Period End. Feb. 29—	1956—Month	1955	1956—2 Mos.	1955
Operating revenues	$7,696,672	$6,761,789	$15,460,476	$13,631,658

—V. 183, p. 930.

Southern Production Co., Inc.—New Wildcat Wells—

This company has announced the spudding in of a wildcat well in West Baton Rouge Parish, La., as a part of the Fort Worth firm's stepped-up exploratory activities in that area. Another wildcat is being drilled in Lafourche Parish.

The new well, No. 1 Slack Brothers, Inc., will test the multiple Frio and Vicksburg sands and will be drilled to a total depth of approximately 10,000 feet. The well is located on a block of 3,683 gross acres.

The company will acquire a net interest of 37½%, or 1,381 net acres, upon completion of the well. It will pay half of the drilling and completion costs.

Acquires Harris Engineering Firm—

This company on March 31 announced that it has acquired Frederic R. Harris, Inc., specialists in marine engineering, for a consideration of $281,250 in cash, plus 11,000 shares of Southern Production common stock.

The Harris company, with headquarters in New York City, possesses many years of experience in marine engineering and many other fields. It employs approximately 150 engineers, Harris has already opened an office in New Orleans, La., staffed with engineers with the experience in marine construction that is needed by The Offshore Co. They will furnish needed data on wind and wave action, soil conditions, structural strengths, design of new equipment and modification of present equipment.

The office in New Orleans will probably also engage in consultant engineering for companies other than Offshore at some future date.

The Offshore company, a 67.55%-owned subsidiary of Southern Production, operates three mobile drill barges which are now on location in the Gulf of Mexico under contract to major oil companies. One of the barges can operate in up to 100 feet of water. Two barges, both capable of operating in waters up to 100 feet in depth, are under construction and will be completed within the next two months. In addition, Offshore owns four land-based rigs and nine rigs mounted on barges for use on inland waters.

The Offshore company has an exclusive license to use Delong-type jacking mechanisms on drill barges in the Gulf of Mexico.—V. 183, p. 1619.

Southwestern Bell Telephone Co.—Earnings—

Period End. Feb. 29—	1956—Month	1955	1956—2 Mos.	1955
Operating revenues	$46,780,735	$42,882,869	$93,516,035	$86,018,176
Operating expenses	27,832,987	25,862,868	55,611,264	52,129,202
Federal income taxes	7,592,258	6,733,630	15,174,135	13,362,316
Other operating taxes	3,675,365	3,421,709	7,341,204	6,863,563
Net operating income	$7,680,125	$6,864,662	$15,389,432	$13,663,095
Net after charges	7,300,512	6,474,364	14,595,150	12,840,768

—V. 183, p. 1620.

Sovereign Investors, Inc.—Assets Again Rise—

As of March 31—	1956	1955
Total net assets	$1,712,236	$1,325,165
Net asset value per share	$13.28	$11.50

The corporation also reported record high figures in number of stockholders and shares outstanding.—V. 183, p. 1797.

Stix, Baer & Fuller, St. Louis, Mo.—Sales Up—Earnings Lower—

The highest sales in the company's history were achieved in the fiscal year ended Jan. 28, 1956, primarily because of the opening of the Westroad Shopping Center branch which was in operation for about five months of the year. Total sales were $55,843,096, compared with $50,005,179 for the previous year, which is an increase of 11.6%.

Net profit before income taxes was $3,336,637 for the year ended Jan. 28, 1956 and $3,549,010 for the year before. It should be pointed out that non-recurring expenses totaling $527,747 were paid out in con-

ed for FRASER
raser.stlouisfed.org/

nection with the opening of the company's Westroads Store, and which is the direct reason for the lower gross profit figure. Net profit after taxes for the year amounted to $1,606,637 compared with $1,694,010 a year ago. This is equivalent to $2.24 per share of common stock after deducting preferred dividend requirements, and the same figure for the preceding year was $2.37 per share of common stock.

Quarterly dividends of 30c per share or $1.20 per share annually were again paid to the common stockholders. The total dividend payments to common stockholders was $788,833 and dividends of $130,265 were paid to preferred stockholders or a total of $919,098.

For the first time this company's operations were reported unconsolidated. It has been decided as a matter of policy that the company's wholly owned real estate subsidiaries should be separated from the department store because of their fundamental differences in purpose and operations. The comparative figures are, of course, on the same basis, and for that reason there is a slight difference from the figures that were reported last year.—V. 182, p. 2361.

Swartwout Co., Cleveland, Ohio—Files With SEC—

The company on April 9 filed a letter of notification with the SEC covering a maximum of 2,000 shares of class A stock (par $1) to be offered at $14.23 per share under a stock purchase plan, without underwriting. The proceeds are to be added to working capital.—V. 181, p. 1780.

Standard Brands, Inc.—Acquires Clinton Foods Assets

The purchase by this company of the principal assets and business of Clinton Foods Inc. was closed on April 16, acocrding to an announcement by Joel S. Mitchell, President.

The transaction includes the Corn Processing and American Partition Divisions of Clinton Foods Inc. and $11,285,000 (face value) of 4% subordinated debentures of Minute Maid Corp. which were owned by Clinton. The businesses acquired will become separate divisions of Standard Brands Inc. with no proposed changes in their operating personnel.

The corn processing business, Mr. Mitchell stated, is a natural supplement to the company's product lines and production operations, and the acquisition is an important milestone in the company's progress. Since no additional shares of the company's common stock were issued in connection with the acquisition, increased earnings resulting therefrom will inure to the benefit of the present common stockholders.—V. 183, p. 1520.

Standard Oil Co. (New Jersey)—Had Record Year—

The year 1955 was one of record performance by this company and its affiliates, it was shown on April 10 in the annual report, mailed to more than 330,000 shareholders, a new high in number of owners of the business.

New marks were set in the volume of products supplied to consumers; in earnings, taxes paid to governments, capital investments made or planned for the future, dividends paid to shareholders, in research expenditures, and in payrolls.

Consolidated net income was $709,310,000, or $10.84 a share in 1955, compared with $584,793,000, or $9.56 a share, the preceding year. Operations outside the United States accounted for 75% of last year's consolidated net income with two-thirds of the foreign earnings from the Western Hemisphere and one-third from the Eastern Hemisphere.

Parent company earnings, from which dividends to shareholders are paid, amounted to $518,074,000, or $7.92 a share, compared with $440,338,000, or $7.20 a share in 1954. Cash dividends paid the stockholders totaled $342,807,000, or $5.25 a share, as against $280,476,000, or $4.55 a share, the year before. The report reminded shareholders that earnings and dividends stated on a per share basis were before a three-for-one stock split effective last Feb. 10.

The company reported that $838,700,000 was paid in wages, salaries and employee benefits, an increase of almost $35,000,000 over the previous year. Employees worldwide numbered 153,000 as compared with 155,000 in 1954.

Taxes charged to income in 1955 amounted to $544,400,000 compared with 432,900,000 in 1954, the previous record year. In addition the affiliates collected for government agencies consumer taxes amounting to $451,000,000 as against $430,100,000 the year before.

Eugene Holman, Chairman, and M. J. Rathbone, President, pointed out that "during 1955 some $860,000,000 was invested by the affiliates in searching for and developing new reserves of crude oil and in building the necessary refining, transportation, marketing, and research facilities."

Noting that in 1956 Jersey affiliates are planning such investments totaling $1,100,000,000 as well as $100,000,000 more represented by Jersey's share of investments by companies in which it has a one-half interest or less, they added:

Mr. Holman and Mr. Rathbone stated while use of all major products increased, the pattern of oil demand shifted slightly in 1955. Consumption of heavy fuel oil increased, particularly in Western Europe. In the United States, use of petroleum as a source for chemicals continued to grow, they said.

The report showed that revenues from all sources mounted to $6,414,885,000 in 1955, a 10½% increase. Worldwide sales of products were up 13% in volume, about 11% in the U. S. and 15% abroad.

Gross crude oil production by Jersey affiliates reached a new peak last year of 2,143,000 barrels a day. This compared with 1,893,000 in 1954. Refinery crude runs were 2,271,000 barrels a day compared with 1,997,000 in 1954 and product sales totaled 2,428,000 barrels a day as against 2,154,000 the previous pear.—V. 183, p. 712.

*Deficit.—V. 183, p. 1372.

Stauffer Chemical Co.—Plans Major Dock Facility—

This company, it was announced on April 13, has filed an application with the Army Corps of Engineers for permission to build a major addition to its dock facilities on the Ohio River at Louisville, Ky.

The company's plans call for the construction of a 700 foot dock at a cost of approximately $300,000. It would be equipped to handle the unloading of 175 foot chlorine barges—which provide raw material for the Stauffer petrochemical plant—and the loading of outgoing barges with such finished products as carbon tetrachloride, perchlorethylene, chloroform and methylene chloride.

Installation of the steel pilings and gravel-filled cells will be handled by the Dravo Corp., Pittsburgh. The balance of the construction work will be contracted for locally.—V. 183, p. 1236.

Superior Oil Co., Los Angeles, Calif.—Earnings Off—

Six Months Ended—	Feb. 29, '56	Feb. 28, '55
Gross operating income	$43,320,008	$38,728,495
Production, operating, geological, geophysical, taxes and general and administrative expenses	16,086,744	15,098,017
Operating income	$27,233,264	$23,630,468
Miscellaneous income	871,010	884,601
Total income	$28,104,274	$24,515,069
Intangible drilling costs of wells	16,304,893	12,746,090
Lease rentals and abandonments, interest on debentures, and provisions for depletion, depreciation, and losses of subsidiaries	9,618,391	8,154,724
Net income	$2,180,990	$3,614,255
Net income per share	$5.16	$8.56

NOTE:—Net production of crude oil increased 1,606,413 barrels during the current period principally accounting for larger operating revenue of $4,600,000 compared with the prior period. Intangible drilling costs of wells increased $3,600,000. Other costs of doing business are up $2,400,000 over last year. These various factors collectivcly caused the decrease of $1,400,000 in net income noted above. —V. 183, p. 448.

TelAutograph Corp. — New Lease Income and Sales Backlog for Equipment Show Sharp Increase—

Substantial first quarter increases in new lease income and in sales backlog for the communications equipment division of this corporation were announced on April 11.

Net new business, which represents new rentals less cancellations, increased five and one-half times during the first three months of 1956 over the like period last year, Louis R. Kurtin, Chairman of the Board, announced. The first quarter backlog of TelAutograph telescriber new rentals soared to an all-time high, more than doubling the total undelivered orders outstanding at the end of the first three months of 1955.

Mr. Kurtin also announced that TelAutograph telescriber leases in effect at the end of March, 1956, amounted to $2,846,000 annual rental, as compared with the total of $2,583,000 for the first three months of 1955.

The directors also declared the regular quarterly dividend of 37½ cents on presently outstanding common stock, payable May 7 to stockholders of record April 23. Announcement was made that the two for one split in common stock, approved by shareholders at the annual meeting held March 20, will become effective May 4, 1956.

Mr. Kurtin declared that it is the intention of the board to establish an annual cash dividend on the new stock of 80 cents per share. This would be equivalent to $1.60 per share on the presently outstanding common stock, in which TelAutograph currently pays an annual dividend of $1.50.—V. 183, p. 1798.

Texas Industries, Inc.—Continues to Expand—

This corporation, through a new subsidiary, Louisiana Industries, Inc., has acquired the 25-year-old Schwartz Supply Co., New Orleans ready-mix concrete producer and building materials distributor. Included in the acquisition are two associated companies, Washington Sand & Gravel Co., Inc. and East Louisiana Ry. Co. The price was not disclosed.

The acquisition brings to 32 the number of plants now operated by Texas Industries, Inc. in Texas, Louisiana, Oklahoma, Kansas and California.

The Schwartz purchase, one of the largest in recent years in the New Orleans building materials field, was negotiated through Howard, Weil, Labouisse, Freidrichs & Co.

Texas Industries, while primarily a producer of concrete building materials, has within recent months acquired interests in the production of oil and gas, mahogany lumber and veneer, glazed ceramic tile, and in the businesses of equipment leasing and financing of housing. Now controls assets totaling nearly $25,000,000.—V. 182, p. 1613.

Texas & New Orleans RR.—Earnings—

—V. 183, p. 1413.

Textron American, Inc.—Campbell, Wyant Acquired—

Royal Little, Chairman of the Board of this corporation and Carl E. Allen, President of Campbell, Wyant & Cannon Foundry Co. have jointly announced that the stockholders of Campbell, Wyant and Cannon at their annual meeting held on April 20, had approved the sale of the assets and business of the company to Textron. Campbell, Wyant & Canon will now be a division of Textron American Inc.

For almost half a century, the Campbell, Wyant and Cannon company has been engaged primarily in the production of alloy iron and steel castings, supplying a wide variety of grey iron castings, for the automotive, railroad, agricultural implement, refrigeration, marine, and many other industries.

The foundry property, consisting of six plants in the State of Michigan, and other assets, were transferred as of April 20. During 1955 the volume was $34,692,000 and net profit before taxes $3,646,910. The number of employees of Campbell, Wyant and Cannon is 3,900 and last year the payroll was over $13,000,000

Carl E. Allen will continue as President: R. L. Lindland as Vice-President and Secretary: H. A. Dean as Vice-President in charge of production and W. E. Busker as Treasurer.

Buys Liner—Enters Into Charter Agreement—

Royal Little, Chairman of the Board, on April 16 announced that the company has arranged to purchase the vessel, "S. S. LaGuardia." Approximately 25% of the cost is to be paid in cash prior to commissioning, and the balance is to be paid in long-term mortgage obligations on a non-recourse basis.

Textron will enter into an agreement for a long-term charter with Hawaiian Steamship Co., Ltd., which will operate the liner.

Upon completion of necessary reconditioning of this ship, it will be rechristened under a new name. Hawaiian Steamship Co. will inaugurate passenger service between the West Coast of the United States and the Hawaiian Islands, catering primarily to cabin and tourist class passengers, with accommodations for 700 persons.

It was further announced that Pacific Far East Lines, Inc. has been named as husbanding agent in connection with the operation of the liner.

Bankers Negotiate Acquisition of Benada—

The acquisition by this corporation of the business of Benada Aluminum Products Co. was negotiated for the sellers by F. Eberstadt & Co. and Shillinglaw, Bolger & Co., it was announced on April 19. See also V. 183, p. 1902.

Thermal Research & Engineering Corp.—Agreement—

Leonard C. Peskin, President, announced on April 9 that this company has signed a licensing agreement with Heurtey & Co., French manufacturer of heat equipment. Under the agreement the French corporation, upon payment of royalties, may manufacture and distribute Thermal products in the area it now serves, including the French Union and French protectorates, the Saar, the Benelux nations, the Belgian Congo, Italy, Spain, Portugal and Switzerland. The licensing agreement also calls for an exchange of technical information and an initial cash payment to Thermal covering, among other things, patent expenditures in the countries involved.

Mr. Peskin said that similar agreements are nearing completion with respect to three other companies associated with Heurtey & Co. These are OFU Ofenbau Union, serving Germany and Austria; Svenska Metallverben, serving the Scandinavian countries; and Gibbons & Heurtey Co., Ltd., serving Britain and the British Commonwealth except for Canada.—V. 183, p. 1798.

Thyer Manufacturing Corp., Toledo, O. — Registers With Securities and Exchange Commission—

The corporation filed a registration statement with the SEC on April 13, 1956, covering $600,000 of sinking fund debentures, 6% series due 1976 (with warrants attached) and 40,000 shares of $1 par capital stock. The debentures are to be offered for public sale at 100% of principal amount with a 9% commission to the underwriters, and the capital stock at $4.12½ per share with a commission of 62½ cents. P. W. Brooks & Co. is named as the principal underwriter. The warrants will authorize the purchase of 100 shares of stock for each $1,000 of debentures purchased, and will be exercisable at an initial price of $4.50 per share through May 1, 1960.

The corporation designs, manufactures and sells prefabricated homes.

Net proceeds of this financing will be added to the general funds of the company and used primarily for working capital in connection with its rising volume of business, according to the prospectus.

Tracerlab, Inc.—Changes in Personnel—Sales Up—

William E. Barbour, Jr., has been elected Chairman of the Board and William O. Faxon as President. Mr. Barbour was a principal founder of Tracerlab and has served as President since its inception. As Chairman of the Board Mr. Barbour will play a broad role in helping to advance the growth of the company and in seeking and stimulating new areas of activity.

Mr. Faxon has served as Executive Vice-President and will now be responsible for all of the operations of the newly integrated activities of the company.

At the annual stockholders meeting on April 11, shareholders were informed by Mr. Barbour of the bright prospects for the company as indicated by the sharp upward trend in new orders. A profit for 1955 of $45,834 after taxes was reported, which was better than was anticipated in view of the interim expenses of moving the X-ray division from Cincinnati to Boston and the divisional integration program. Sales totaled $12,819,951, which was an increase of approximately $700,000 over 1954. The stockholders were informed that Tracerlab's dependence on government business continued to decrease and that government contracts were now less than 15% of the company's business.

Mr. Barbour told of the substantial progress that has been made in carrying out the integration of the Keleket X-Ray Corp. Production of Keleket X-ray equipment in substantial quantities is now underway in Boston, after being transferred from Covington, Ky.

Mr. Faxon reported to the shareholders that the construction of Tracerlab's new $1,500,000 plant on Route 128 in Waltham, Mass., was proceeding in an orderly fashion and that the transfer of operations from downtown Boston will take place in the fall. The successful realignment of the nucleonic activities of the company into three divisions was described. It was pointed out that sales in the company's Industrial Division were forecasted at an increase of 70% for 1956 and in the Instrument Division at an increase of 30%. Sales of Keleket X-ray apparatus were reported as currently running at a rate substantially above previous years. Sales of Radioactive Cobalt therapy equipment by Keleket have been greater than that of all other manufacturers combined.—V. 182, p. 2736.

Toledo Peoria & Western RR.—Earnings—

February—	1956	1955	1954	1953

—V. 183, p. 1413.

Transcontinental Gas Pipe Line Corp.—Sets New Records—Sale of Bonds Negotiated—

Operations of this corporation in the first three months of this year resulted in new high records for gas deliveries, operating revenues and net income, Tom P. Walker, President, told stockholders at their annual meeting on April 17.

Earnings for the first quarter, he said, were equal to 31 cents per share on the common stock compared with 25 cents per share for the first quarter last year. These earnings are based on 7,060,000 outstanding shares after giving effect to a two-for-one split of the common stock in January of this year.

Mr. Walker announced that negotiations had been completed for the sale of $40,000,000 first mortgage pipe line bonds in May and $20,000,000 of debentures in November. Proceeds from the sale of these securities will be used to retire the presently outstanding $60,000,000 bank loan.—V. 183, p. 1279.

Twentieth Century-Fox Film Corp. (& Subs.)—

	53 Wks.End. Dec. 31, '55	52 Wks.End. Dec. 25, '54
Income	$120,807,208	$115,715,815
Consolidated earnings before taxes on income	11,564,713	18,249,685
Prov. for U. S. and foreign taxes on income	5,539,674	10,205,161
Earnings	$6,025,039	$8,044,524
*Earnings per common share	$2.28	$3.04

*Based on 2,644,486 shares now outstanding.

The consolidated earnings for the fourth quarter (14 weeks) of 1955 were $1,578,188 or 60 cents per share. Comparable earnings for the fourth quarter (13 weeks) of 1954 were $2,312,461 or 87 cents per share. —V. 182, p. 2516.

Union Bag & Paper Corp.—Earnings Increased—

Earnings for the first quarter of 1956 will approximate 85 cents a share, Alexander Calder, Chairman of the Board, told stockholders at the annual meeting on April 10. For 1955, first quarter earnings were 63 cents a share, as adjusted to reflect a three-for-one stock split in January, 1956.

Mr. Calder also said that both sales and earnings for 1956 would exceed the record highs set last year when sales were more than $123,000,000 and net earnings over $14,000,000.

He noted that Union Bag's backlog was very good and said that the company cannot supply the demand at the present time.

Mr. Calder "guessed" that within the next six months Union Bag may decide on whether to build a newsprint plant and where to build it. He indicated that a merger with some other company or the purchase of an existing newsprint company might be preferable to building a new mill. If a newsprint mill is built, he said, it will be located in the southern part of the country.—V. 183, p. 1116.

Union Electric Co. of Missouri—Hearing on Distribution of Hevi-Duty Electric Stock—

This company, it was announced on April 18, has filed a proposal with the SEC for distribution of its stock interest in Hevi-Duty Electric Co. to Union Electric stockholders; and the Commission has given interested persons until May 3, 1956, to request a hearing.

Hevi-Duty is engaged in the business of constructing electric furnaces and transformers in Milwaukee and Watertown, Wis. It has outstanding 2,500 shares of common stock, all of which is owned by Union Electric. These shares were acquired by Union Electric in February 1955 in connection with the dissolution of its parent, The North American Co.; and their disposition by Union Electric is proposed to effect compliance with a 1952 order of the Commission directing divestment of the Hevi-Duty stock by North American. Hevi-Duty also has outstanding 2,500 shares of 6% cumulative preferred stock, $100 par, held by six stockholders (not including Union Electric).

Under the proposal, the 2,500 shares of Hevi-Duty common are to be reclassified into 345,230 common shares, $5 par. Incident to such reclassification, Hevi-Duty proposes to increase its common stock capital account from $50,000 to $1,726,150 by the transfer of $1,000,000 from capital surplus and $676,150 from earned surplus. Union Electric will thereafter, on June 29, 1956, distribute the 345,230 shares of Hevi-Duty common to Union Electric stockholders of record May 31, 1956, on the basis of one share of Hevi-Duty common for each 30 shares of Union Electric common.

It is further proposed that, promptly after the distribution, the members of the board of directors of Hevi-Duty who are also directors of Union Electric will resign and the board of Hevi-Duty will elect new directors to serve for the unexpired terms of the resigning directors.—V. 183, p. 1413.

Union Oil Co. of California—New Producer—

Reese H. Taylor, President, on April 2 said in part:

"The company has completed its Callender 139, drilled in a recently proved fault block in the northwest part of the old Dominguez field in Los Angeles County. The well was completed flowing 800 barrels per day of 30.7 degree gravity crude oil from the Lower 7th and Upper 8th Zones, new producing zones in this area. The well had already penetrated productive sands in the 4th, 5th, 6th and Upper 7th Zones, which are now behind pipe and will be developed later. It is hoped that a number of additional locations will be productive on our leases.

"The company's fifth oil producer in the Farnsworth area, Ochiltree County, Texas, was completed for flowing production of 844 barrels per day of 38 degree gravity oil, our best well drilled there so far. Production is from an Upper Morrow sand, at aproximately 8,000 feet, and a continuous drilling program is being conducted in developing the area.

"The crude oil pipe line, operated by the Peace River Pipe Line Co., for transportation of crude oil from the Sturgeon Lake Fields in Alberta, Canada, was placed in operation early in March. Operation of this pipe line has increased the profitability of the company's

gitized for FRASER
http://fraser.stlouisfed.org/

production in the South Sturgeon Lake Field, now running about 1,500 barrels per day."

New Polyethylene Plant to Be Built—

Brea Chemicals, the company's wholly-owned subsidiary, has announced plans to construct a $20,000,000 chemical plant near Wilmington in Los Angeles County, Calif., for the manufacture of a new low-pressure type polyethylene plastic. The plant will be built and operated as a joint venture with Koppers Co., Inc. It is expected to be in operation by the middle of next year.

Two major units are planned—a plant which will manufacture ethylene from propane or ethane, which materials are found in refinery gas or natural gas, and a plant to process the ethylene into polyethylene. Brea will operate the plant with technical assistance by Koppers Chemical Division. Koppers will design, engineer and construct the polymerization units.—V. 183, p. 1903.

Union Pacific RR.—Earnings—

Period End. Feb. 29—	1956—Month—1955		1956—2 Mos.—1955	
Railway oper. revenue	$37,836,301	$35,254,761	$76,365,639	$72,301,453

Net rev. from ry. oper.	$8,290,095	$7,891,716	$16,077,972	$15,581,308
Net railway oper. inc.	2,260,714	2,161,427	4,167,224	3,978,248

—V. 183, p. 1413.

United Air Lines, Inc.—Breaks All Records—

March passenger, mail and cargo volumes of this company cracked all existing records for the month, according to estimates released by Robert E. Johnson, Vice-President and Assistant to the President.

In March, United flew 340,072,000 revenue passenger miles and 9,741,000 revenue airplane miles for increases of 17% and 11%, respectively, over a year ago. Mail shipments (including first class) totaled 2,662,000 ton miles, up 14%; freight, 3,760,000 ton miles, up 10%; and express, 1,023,000 ton miles, up 1%.—V. 183, p. 1903.

United Corp.—Income, Etc., Increased—

Three Months Ended March 31—	1956	*1955
Total investment income	$1,043,900	$970,596
Profit before Federal income tax	924,427	870,567
Provision for Federal income tax	71,000	67,000
Net investment income	$853,427	$803,567
Net realized gain on investments (including $542,559 in 1955 credited to capital surplus)	$1,382,845	$972,597
UNREALIZED APPRECIATION OF INVESTMENTS		
At beginning of period	$34,867,257	$31,204,838
At end of period	36,386,056	33,403,454
Increase during the period	$1,518,799	$2,198,616
†EARNINGS PER SHARE OF COMMON STOCK		
Net investment income	6.1c	5.7c
Net realized gain on investments (including 3.8c in 1955 credited to capital surplus)	9.8c	6.9c
Net asset value, based on indicated market value of investments held	$6.63	$6.19

*The 1955 figures are restated for comparative purposes so as to reflect changes in accounting procedures required under the Investment Company Act (see below). †Based on 14,072,149½ shares outstanding.

No provision is made for Federal income tax for net realized gain on and unrealized appreciation of investments inasmuch as the sales resulted in capital losses on a tax basis and the aggregate tax basis of the investments held is substantially in excess of the indicated market value.

In January, 1956, the Securities and Exchange Commission issued an order under the Public Utility Holding Company Act declaring that this corporation had ceased to be a holding company, whereupon United registered with the Commission as a closed-end non-diversified investment company under the Investment Company Act. Accordingly, accounting procedures which had been followed by United as a holding company were changed as of Jan. 1, 1956, to effect compliance with accounting procedures under the Investment Company Act. The principal difference resulting involves the segregation of accumulated net realized gain on investments and undistributed net investment income. Prior to Dec. 31, 1955, of proceeds realized by United in excess of the book values of securities sold, only that portion in excess of original cost had been credited to income as realized gain on investments, the balance being credited to capital surplus. Such credits to capital surplus restored a portion of the charge made at June 30, 1938, in connection with a quasi-reorganization approved by stockholders, with respect to securities restated at that date. The regulations under the Investment Company Act require that realized gains be determined on the basis of cost, and provide that, where investments have been adjusted as a result of a quasi-reorganization, "cost" means such adjusted amount. In accordance with such regulations, realized gains on United's investments from Jan. 1, 1956 have been determined for each security on the basis of the average of the restated values at June 30, 1938, and subsequent additions at cost. Thus, realized gains of $1,382,845 for the three months ended March 31, 1956 include $529,213 which would have been credited to capital surplus under the accounting procedures followed by United prior to Jan. 1, 1956. On a comparable basis realized gains on investments for the three months ended March 31, 1955 totaled $972,597, including $542,559 credited to capital surplus.—V. 183, p. 713.

United States & Foreign Securities Corp.—Assets Up—

As of—	Mar. 31, '56	Dec. 31, '55
	$	$
Total net assets	146,478,998	128,950,171
Net asset value per share	$44.24	*$38.95

*Adjusted for 3-for-1 split.—V. 183, p. 449.

U. S. Industries Inc.—Acquires Puerto Rican Firm—

This corporation has acquired all the assets of General Farm Equipment Co., one of the largest industrial and agricultural equipment and machinery dealers of Puerto Rico, it was announced on April 9 by John I. Snyder, Jr., Chairman of the Board and President.

The acquisition, which is a further implementation of U. S. Industries' plan for added expansion and diversification during 1956, was consummated on the basis of cash to the owners of General Farm Equipment, John D. Stubbe and Frederico Stubbe.

General Farm Equipment, which was formed in 1930 with an investment of $30,000, had net sales last year of almost $3,000,000, largely in agricultural, construction and industrial equipment and machinery. Its net worth since 1930 has grown to almost $1,000,000.

The company functions as a sales and service agency for many American and European manufacturers in Puerto Rico and in other Islands in the West Indies.

The warehouse and office of General Farm Equipment are located in San Juan, Puerto Rico, on a 90,000-square-foot plot adjoining what will be the new port area of that city. About 32,000 square feet is now under roof. Immediate doubling of the building area is now planned in order to more aggressively merchandise the company's lines.

Mr. Snyder pointed out that there was a similarity between this latest acquisition and U. S. Industries' wholly-owned subsidiary, Koppel (Philippines) Inc., whose main offices are in Manila. Koppel is sole agent in the Philippines for many well-known companies, including Vestinghouse Electric, John Deere, Caterpillar Tractor, Ingersoll-Rand, and many others.—V. 183, p. 1798.

Utah Gas Service Co.—Debentures Offered—The First Trust Co. of Lincoln, Neb., on April 9 publicly offered $300,000 of 5½% debentures, series A, due April 1, 1971, at 100% and accrued interest.

The debentures may be redeemed at 100% and accrued interest plus a premium of ½ of 1% for each year, or fraction, that the redemption precedes April 1, 1961. No premium will be paid if redemption is made on or after April 1, 1961. They may also be redeemed through the sinking fund at 100% and accrued interest.

PROCEEDS—The net proceeds from the sale of the bonds, together with proceeds from the private sale of approximately $465,000 of first mortgage debt, will be used to pay for new construction (including distribution systems, transmission lines, general plant and equipment); balance of approximately $13,500 to be used for working capital.

BUSINESS—Company, located at 1007 Walker Bank Building, Salt Lake City, Utah, was incorporated in Utah on Aug. 5, 1955, and is qualified to do business in the State of Utah. The company was organized to engage in the business of buying, selling and distributing Natural Gas in Utah. Such distribution of natural gas to residents of Utah will be made where authorized by the Utah P. U. Commission and under certain County and City franchises which have been granted to the company. The company is now in the process of building three distribution systems and will start serving these systems with natural gas on Aug. 1, 1956.

The company will construct the following facilities:

(1) Vernal, Utah—Natural gas distribution system for the City, nine mile transmission line, metering station and auxiliary equipment.

(2) Moab, Utah—Natural gas distribution system for the City, transmission line and metering station for the Uranium Reduction Co.'s mill, metering station and auxiliary equipment.

(3) Monticello, Utah—Natural gas distribution system for the City, 15 mile transmission line for the City and for the Atomic Energy Commission uranium mill, metering station and auxiliary equipment.

Plans and specifications for the facilities cutlined above have been approved by Stone and Webster Service Corp., independent consulting engineers for the company. The same firm will approve the construction contracts and supervise construction of these facilities.

Utah Gas Service Co. has a firm contract for the purchase of natural gas from the Pacific Northwest Pipeline Corp. This contract with Pacific Northwest Pipeline Company was signed Aug. 23, 1955, with the contract to extend for 20 years from the first date of gas delivery.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

	Authorized	Outstanding
5½% debentures, series A, due 1971	$300,000	$300,000
First mortgage debt (bonds or notes)	465,000	465,000
Common stock (par $10)	20,000 shs.	13,500 shs.

—V. 183, p. 1798.

Value Line Special Situations Fund, Inc.—Registers With Securities and Exchange Commission—

The corporation on April 18 filed a registration statement with the SEC covering 2,000,000 shares of capital stock (par 10 cents). The proposed offering price is $3 per share.

Van Norman Industries, Inc.—Note Placed Privately—

The corporation has placed privately, through Kidder, Peabody & Co., a $3,000,000 4¼% 15-year sinking fund note due 1971. See V. 183, p. 1903.

Variable Annuity Life Insurance Co. of America Inc., Washington, D. C.—President Resigns—

The board of directors has announced the acceptance of the resignation of George E. Johnson as President of the company.

At the same meeting, the board elected Page Hufty as Chairman of the company's finance committee.

Mr. Hufty is also Chairman of the finance committee of the Union Trust Co. of Washington. He is also director of the Bell Aircraft Corp., the Morris Plan Corp., the Industrial Bank of Commerce, the First National Bank of Palm Beach, and nearly 30 other financial and manufacturing organizations.

The successor to Mr. Johnson will be announced shortly.

Voss Oil Co.—New President, etc.—Acquisition—

This company on April 10 announced the reorganization of its management, the election of new officers and the acquisition of the properties of Rosebud Oils, Inc., in Utah, Wyoming, South Dakota and New Mexico.

Patrick H. Feeney of Pierre, S. D., has been elected President, replacing Warren G. Voss. Mr. Feeney is a member of the board of directors and was Vice-President and a director of Bonanza Oil Co. until its sale to General American Oil Co. of Texas in 1952 for $20,000,000.

Roy H. Bronson, senior partner of Bronson, Eronson & McKinnon, San Francisco, Calif., has been named to the board of directors to fill a vacancy caused by the resignation of Dr. L. W. Jamieson.

It is anticipated two new directors will be elected to the board at the annual stockholders meeting on May 7. They would fill the vacancies caused by the resignation of Warren G. Voss and Dale H. Voss, the former Chairman. A new Chairman also may be elected at the May meeting.

The board on April 10 also approved the acquisition of the assets of Rosebud Oils, Inc. for 900,000 shares of Voss Oil Co. treasury stock. The acquisition adds considerably to Voss Oil Company's oil and uranium properties. The Rosebud oil properties consists of leases on approximately 4,575 acres 840 acres of which are near the leases presently operated by Voss Oil Co. in Weston country, Wyo. There are 11 wells on the 840 acres which now are producing approximately 5,000 barrels a month.

Rosebud Oils, Inc. retained a 25% carried interest in 212 uranium claims assigned to General Minerals Corp. of Dallas, Texas, headed by A. H. Meadows as Chairman of the Board, and S. Y. Guthrie as President. This carried interest will give Voss Oil Co. 25% of the net profits from these properties without bearing any of the development costs. General Minerals Corp. has allocated approximately $500,000 for an exploratory program on these claims, some of which work already has been started.

The majority of the 212 claims are in South Dakota areas where the uranium content of lignites is relatively high. The Atomic Energy Commission is financing research aimed at a process to economically recover uranium from such lignites.

By the Rosebud acquisition, Voss Oil Co. also obtained outright ownership to eight uranium claims in Harding County, S. D. A 500-ton sample of ore from these claims recently was sold to the Atomic Energy Commission and assayed out at $50 per ton. Engineers' reports indicate 10,000 to 20,000 tons of ore in place on these claims. A recent report indicates a pilot plant will be constructed in the area this year.—V. 182, p. 1742.

Wabash RR.—March Earnings Increased—

Per. End. Mar. 31—	1956—Month—1955		1956—3 Mos.—1955	
Railway op. revenues	$10,317,717	$9,746,029	$28,914,782	$27,219,535
Railway op. expenses	7,493,006	7,221,122	22,034,036	20,613,704
Net railway op. income after Fed. inc. taxes	1,151,991	1,039,636	2,451,302	2,666,724
Net inc. after cap. fd. and sinking funds	957,893	765,054	2,017,623	1,904,394

—V. 183, p. 1661.

Walworth Co.—Plans No Immediate Financing—

Fred W. Belz, President on April 10, in answer to a question as to whether the company had any plans for financing or whether its cash flow would be sufficient for payment of debt and also for an increase in dividends on its common stock, replied that the company had no plans for financing in the immediate future, but that if the volume of sales continued at its present high rate, the company would require more working capital. He stated that the company will also need additional plant facilities and that there was a four-year loan of $3,000,000 from banks which will have to be refinanced. He thought the company would, therefore, at some time consider a refinancing program. He stated that he personally felt, considering the company's balance sheet, some form of debt financing was indicated, but that this was a decision for the board of directors. He also pointed out that any refinancing would require consideration of the outstanding convertible debentures because the indenture under which they were issued limits the company to the creation of $3,000,000 of additional long-term debt.

In response to an inquiry as to the size of the company's line of bank credit Mr. McDonald stated that the company itself, exclusive of subsidiaries, currently had a line of credit with banks in the amount of $5,500,000, not including the four-year loan of $3,000,000 from banks.

Asked about the number of stockholders of the company, Mr. Belz stated that there were approximately 8,400 holders of record, and he estimated that there were about 2,500 persons holding common stock in the names of their brokers, making the total number of beneficial owners close to 11,000.

In answer to a question as to whether the company had any present plan to dispose of any of its plants, Mr. Belz replied that the company was considering a plan to dispose of its plant in Boston and to build a new plant in one of the suburbs of Boston. He went on to state that the Company had under consideration three different locations. He further stated that such plan contemplated that certain operations of the company and its subsidiaries would be combined at the new location.

Secondary Offering Announced—A secondary offering of 62,000 shares of common stock (par $2.50) was made on April 11 by Paine, Webber, Jackson & Curtis; Butcher & Sherrerd and Townsend, Dabney & Tyson at $15.87½ per share, with a dealer's discount of 60 cents per share. It was quickly completed.—V. 183, p. 1661.

Western Electric Co., Inc. (N. Y.)—Files Stock Offer—

The corporation on April 13 filed a letter of notification with the SEC covering 2,555 shares of common stock (no par) to be offered for subscription by minority stockholders of record on April 10, 1956, at $45 per share, at the rate of one new share for each nine shares held; rights to expire on May 31, 1956. An additional 1,409,071 shares are to be sold to American Telephone & Telegraph Co., owner of 99.82% of the outstanding voting stock. The offering will not be underwritten. The proceeds are to be used for plant improvements and expansion.—V. 183, p. 449.

Western Utilities Corp.—Stock Offered—Central Republic Co., Inc., Chicago, Ill., last week offered publicly 15,171 shares of common stock (par $1) at $5.50 per share.

PROCEEDS—The net proceeds are to go to West Coast Telephone Co., who is the selling stockholder.

BUSINESS—Corporation was incorporated in Delaware on April 10, 1928. As of Dec. 31, 1955 it owned the following stocks: 180,919 shares common stock of California Water & Telephone Co.; 160,000 shares common stock of West Coast Telephone Co.; and 30,173 shares common stock of The Southwestern States Telephone Co. These shares of common stock are carried on the corporation's books at $6,837,449. The market value as of April 9, 1956 based on bid prices was approximately $6,964,075.—V. 183, p. 1661.

Westinghouse Air Brake Co.—Earnings Higher—

Earnings of 61c per share for the first quarter of 1956, an increase of 69% over the 36c per share earned in the first three months of 1955, were announced on April 16 by E. O. Boshell, Chairman and President.

Sales for the quarter ended March 31, 1956, amounted to $48,176,000, up 28% over the same period a year ago when sales were $37,550,000. Earnings before Federal income taxes in the first 1956 quarter amounted to $4,913,524 compared with $2,786,193 a year earlier.

Mr. Boshell indicated that business should remain at a fairly high level for the balance of the year in view of the activity taking place in the railroad and construction industries.—V. 183, p. 931.

Westport Properties Corp., Kansas City, Mo.—Earns.—

This corporation in its first year of operation, accomplished "modest growth, satisfactory earnings and the laying of a foundation for future progress." Kenneth A. Van Sickle, President, stated in the annual report to stockholders.

During 1955 the company acquired oil properties, real estate and a trucking line. Funds for the investments came from the sale of common stock and bank loans.

Gross income in 1955 was $1,740,223, of which $1,664,757 came from the Tri-State Warehousing & Distributing Co., a common carrier operating in 11 states. The largest single source of traffic was in the hauling of explosives, Mr. Van Sickle said.

Net earnings for the year were $171,800, equal to 32 cents a share on the outstanding 527,623 shares of common.

The company's subsidiary, C. A. & E. Properties, Inc., acquired property in the Chicago area, in Kansas City and in Joplin. Gain on real estate sold last year was $24,525.

"Westport Properties is in an advantageous tax position due to tax losses incurred in the sale of certain properties," Mr. Van Sickle said. "C. A. and E. Properties has recovered through sales a substantial part of its original investment of $169,065 in the Chicago area and it still retains the more valuable properties originally acquired."

The tax loss on the properties sold was sufficient to offset all income otherwise subject to Federal income taxes. Without this credit the company's tax liability in 1955 would have been about $90,000.

In the second quarter of 1955 the company acquired leases in Barton County, Kans., covering some 250 acres on which there were eight producing oil wells. Since that time four additional wells, all producers, have been brought in, three in the last quarter and one in January, 1956. Income from oil sales totaled $44,319, which figure reflected little income from the three wells brought in late in 1955, Mr. Van Sickle said.

The company purchased a warehouse in Kansas City, Mo., which has been leased to Sears Roebuck; this year it acquired the Windsor Hotel in Denver.

The company is consistently investigating the possibility of new investments in corporations and properties which will add to the earning power of Westport, Mr. Van Sickle said. Some of the investigations are at such a stage that they may soon be presented to the board of directors, he added.—V. 181, p. 1005.

Williams-McWilliams Industries, Inc.—Contract—

The cities of New Orleans, Baton Rouge and other areas of southeast Louisiana will soon have additional flood control protection from the treacherous waters of the Mississippi.

A $1,100,000 Whiskey Bay Pilot Channel enlargement contract has just been awarded to the corporation's McWilliams Dredging division, according to Alfred A. Strelsin, President.—V. 183, p. 1414.

Wisconsin Electric Power Co.—Bids April 24—

The company will up to 11 a.m. (EST) on April 24 receive bids at Room 1306, 48 Wall St., New York 5, N. Y., for the purchase from it of $30,000,000 first mortgage bonds due April 15, 1986.—V. 183, p. 1799.

(Alan) Wood Steel Co.—Reports New Highs—

Net sales and operating revenue of this company and its subsidiary for the first three months of 1956 were the highest for any quarter in the company's history, it was announced on April 9.

Net sales and operating revenue for the quarter ended March 31, 1956, reached a record $17,338,000 compared with $11,480,000 in the March 1955 quarter.

Net income, after all charges and taxes for the quarter, amounted to $689,000, equal, after preferred dividend requirements, to 91 cents per share on 675,735 common shares outstanding at the end of March. This compared with net income after all charges and taxes in the quarter ended March 31, 1955, of $269,000, equal, after preferred dividend requirements, to 29 cents per share on the 656,053 common shares then outstanding.—V. 183, p. 1799.

York Corp.—To Redeem 4½% Preferred Stock—

This corporation has called for redemption on May 10, 1956, all of its outstanding shares of 4½% cumulative preferred stock, ($50 par value) at the redemption price of $53.50 per share plus accrued dividends from April 1, 1956.

Stockholders, however, may convert their preferred shares into common stock on the basis of 2 2/9 shares of common stock for each share of preferred stock held. The right to convert the preferred into common will terminate at 3 p.m. (EDST) May 7, 1956.

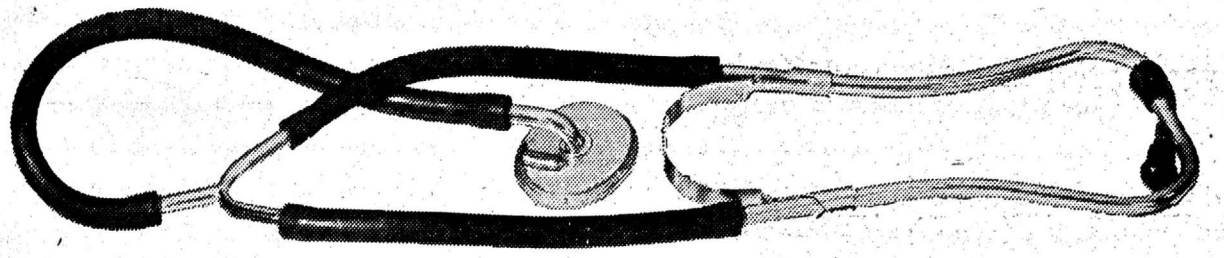

Stockholders electing to convert preferred into common can surrender their shares at the New York Trust Co., 100 Broadway, New York City, or Provident Trust Co. of Philadelphia, Pa.

Provident Trust Co. has also been designated as redemption agent for preferred shares surrendred for redemption.—V. 183, p. 1903.

PUERTO RICO

Puerto Rico (Commonwealth of)

To Fete 400th Plant at Turning Point of Economy May 6-13 — Governor Luis Munoz Marin announced April 12 that manufacturing will overtake farming within a month as Puerto Rico's chief source of income. He proclaimed a week of island-wide celebrations May 6 to 13, designated as "Bootstrap Week."

During the same week, Puerto Rico expects to inaugurate its 400th working plant under "Operation Bootstrap," and industrialization program designed to raise employment and living standards through private enterprise.

The proclamation described the week as "a turning point in our economy in that, about that time, manufacturing will have forged into first place as a primary source of economic well-being for the people of Puerto Rico."

Officials of Puerto Rico's Economic Development Administration, in charge of Operation Bootstrap, explained that the 400th factory will be one of 20 inaugurated that week enough to push manufacturing income over the top. Last full-year figures put Puerto Rico's net income at $151,400,000 from manufacturing and $159,600,000 from farming, for the 12 months ending in mid-1955, when factories under the program reached 314.

Governor Munoz' proclamation said the average family income in Puerto Rico rose from $660 in 1940 to $2,360 last year, while productivity per worker and school enrollment were both doubled.

In the same period, he cited increases in Puerto Rico's total net income from $230,000,000 to almost $1,000,000,000; in wages and salaries, from $120,000,000 to $581,000,000, and in net profits of businesses from $75,000,000 to $318,000,000. The Governor described Operation Bootstrap as "a key factor in this progress."

The announcement affirmed that "one of the prime objectives of the Commonwealth of Puerto Rico is to raise the standard of living of its people through a vigorous program of economic development." It said that the increased productivity per worker "has been translated into more and better schools, houses, roads, hospitals and consumer goods."

Reminding the Puerto Rican public that Operation Bootstrap is still under way, Governor Munoz concluded his declaration by saying there were "great tasks that still lie ahead of us."

The Economic Development Administration, which will celebrate its sixth anniversary during the same week, said it had been working on celebration plans since the Governor announced last December that the "turning point" would come this year. EDA officials said complete plans for the week will be announced shortly, including the names of the plants to be inaugurated and of prominent individuals who will be invited as observers.
