#### ACF Industries, Inc.—Sells Reactor to Sweden—

ACF Industries, Inc.—Sells Reactor to Sweden—
A 30,000-kilowatt light-water nuclear research and materials testing reactor—one of the largest such facilities yet proposed anywhere in the world—will be built in Sweden under terms of an agreement just signed between the Atomic Energy Company of Sweden and the Nuclear Energy Products division of ACF Industries, Inc., it was announced on Oct. 29.

The agreement marks ACF's fourth sale of a nuclear reactor within a year, Rudolph Furrer, President of Nuclear Energy Products Division, said work on the design would begin immediately.

ACF's order amounts to an estimated 10,000,000 Swedish sroner, or about \$2,000,000. Total cost of the reactor, buildings and auxiliary equipment is expected to run about 25 million, kroner, or about \$5 million.

million.

Mr. Furrer reported the sale is the third by his division to a foreign buyer. The company's first sales, late last year, was a 1,000-5,000-kilowatt heavy-water research reactor to Massachusetts Institute of Technology. Subsequently, ACF sold a 5,000-kw, heavy-water research reactor to the Italian Committee for Nuclear Research, and a 20,000-kw, light-water materials testing and research reactor to the Reactor Center of the Netherlands.—V. 184, p. 1473.

ACF-Wrigley Stores, Inc.—Notes Sold Privately—This corporation, through Allen & Co., has placed with institutional lenders \$5,000,000 of 434% promissory notes due November 1, 1971.

The proceeds will be used to repay certain outstanding short-term bank loans and for general corporate purposes.

The sale of the notes completes the \$9,000,000 refinancing program of ACF-Wrigley Stores, Inc., and supplements the sale of \$4,000,000 of 44%; convertible subordinated sinking fund debentures due in 1972, sold through an underwriting group headed by Allen & Co. on Nov. 2, 1956.—V. 184, p. 2009.

#### Admiral Corp.-Sales and Earnings Fall Off-

Admiral Corp.—Sales and Earnings Fall Off—
Consolidated net sales of this corporation in the first nine months were \$13,4204,938, while net profits were \$1,792,029 or 76 cents per share on 2,362,096 shares outstanding. John B. Huarisa, Excutive Vice-President and Treesurer, said on Nov. 10 that profits before taxes were \$3,381,570.

Total sales in the comparable period of 1955 were \$146,791,839.
Farnings after texes were \$3,381,576 or \$1.43 per share, while pretax earnings were \$5,347,656.

Profits were affected by high pre-production and tooling costs for the company's new 10, 14 and 17-inch portable TV receivers, by extremely severe competition in the electronics-appliance industries, and by a sharp slump in television sales in Canada.

Mr. Huarisa said that Canadian Admiral Corp.'s sales in the first nine months were \$15,281,365 compared with \$19,819,742 in 1955.

Before taxes this subsidiary incurred a \$116,788 loss compared with profits of \$1,508,437 a year ago. After taxes there was a loss of \$78,556 in the 1956 operations, compared with net earnings of \$789,59 in 1955.

#### TV Has True HI-FI Sound System-

A 21-inch television-phonograph combination featuring a true high fidelity audio system with a 20-watt amplifier was introduced on Nov. 10 by this corporation.

Three hi-fi speakers—a 12-inch woofer for extended bass response,

4-inch mid-range speaker and a 21/2-inch tweeter for high frequency tones-provide the same faithful sound reproduction for the phono-

The unit also contains an automation-built "deluxe 300" TV chassis

## American Cyanamid Co.-Affiliate to Expand Plant-

American Cyanamid Co.—Affiliate to Expand Plant—
A major expansion of its petrochemicals plant at Port Neches, Texas, has been started by Jefferson Chemical Co., it was announced on Nov.
14 by George R. Bryant, President. The program is by far the largest undertaken by the company since its formation in 1944.

It will increase production facilities for existing products, provide installations for the production facilities for existing products, provide installations for the production of various raw materials now being purchased, and lead to the manufacture of several new products.

The program will include installation of a direct oxidation unit to produce ethylene oxide, Mr. Bryant stated. Jefferson also plans to continue operation of its existing chlorohydrination equipment and will produce ethylene oxide by both processes.

In addition, Jefferson will construct a plant to produce chlorine which will be used in the manufacture of ethylene oxide and ethylene dichloride. Much of the caustic soda resulting from the process will be marketed, while the hydrogen will be used by the company.

Construction of dock facilities on the Neches River is already underway in anticipation of the forthcoming expansion. Separate storage facilities are being installed adjacent to the new docks.

Jefferson Chemical Co. is equally owned by American Cyanamid Co. and The Texas Co.—V. 184, p. 1118.

American Discount Co. of Georgia—Debentures Offered—Mention was made in our issue of Nov. 5 of the public offering of \$1,000,000 5.90% capital debentures, due Nov. 1, 1956, at 100% and accrued interest by a group of underwriters headed by Interstate Securities Corp.; Johnson, Lane, Space & Co., Inc., and A. American Motors Corp.-Imported Car Sales Rise-

American Motors Corp.—Imported Car Sales Rise—Sales of American Motors imported Metropolitan increased 74.8% in October, compared to the same period a year ago, according to J. W. Watson, Metropolitan Sales Manager.

"Nash and Hudson dealers across the country report that the demand for the smart Metropolitan is increasing steadily." Mr. Watson said. "In many areas, the demand for the Metropolitan '1500' is exceeding the current supply."

During October, American Motors dealers sold 745 Metropolitans, compared to 426 for the same period last year, he said.

The small car was recently taken out of the "market testing" stage, and the company announced it plans to increase production substantially. The company has a sales objective of 20,000 Metropolitans in 1957, Mr. Watson said.

The 85-inch wheelbase Metropolitan is produced by the Austin Motor Co., Ltd. in England to American Motors design and specifications.—V. 184, p. 914.

#### Atlas Corp.—Seeks SEC Exemption Order—

This corporation and its subsidiary, Petro-Atlas Corp., have applied to the SEC for an exemption order under the Investment Company Act of 1240 with respect to a proposed transaction by Petro; and the Commission has given interested persons until Nov. 23, 1956, to request a hearing on the application.

mission has given interested persons until Nov. 23, 1956, to request a hearing on the application.

Petro proposes to acquire from its President, Tom Bolack, certain oil and gas leasehold interests located in San Juan County, Utah, for an aggregate consideration of \$200,000. The application states that in April, 1953, Bolack acquired an oil and gas leasehold interest in 1,280 acres located west of the Aneth field in the Paradox Basin in San Juan County, Utah, from Albert W. Rice, the lessee thereof, under a lease from the United States acting through the Bureau of Land Management. In June, 1953, Bolack transferred one-half (640 acres) of said leasehold interest to Bolack Oil & Gas Co. Through successive mergers of Łolack Oil & Cas Co. with Albuquerque Associated Cil Co. with Atlas Corp. and through transfer by Atlas Corp., Petro acquired said one-half interest in such oil and gas leasehold. Lolack now proposes to seil and Petro proposes to acquire a 320-acre interest in the 640-acre leasehold interest retained by Bolack.

Because of the intercompany affiliation, the transaction is prohibited

Because of the intercompany affiliation, the transaction is prohibited by the Investment Company Act unless an exemption order is issued by the SEC.—V. 184, p. 915.

Granite City Steel Co.—Expansion—
The company on Nov. 12 announced plans for the construction of a sintering plant to enrich iron ore and of two new batteries of soaking pits in which steel ingots are heated to an even temperature throughout before going into the company's hot relling mills.
Construction of the sintering plant will begin next March and be completed in about one year. Construction of the soaking pits has begun and will be completed in about nine months. These and other projects are part of an expansion program which is designed to increase-Granite City Steel's annual ingot capacity to 1,584,000 tons within approximately two years. The company's annual capacity when the expansion program began a year ago was 1,080,000 tons.
John N. Marshall, Chairman of the Board and Chief Executive Officer, said that the company expects that use of a sintering plant will enable it to produce about 10% more molten iron from its two blast furnaces.

#### Great Sweet Grass Oils Ltd .- Hearing Postponed-

Chairma J. Sinclair Armstrong of the Securities and Exchange Commission on Nov. 8 announced that upon the request of counsel representing both this company and Kroy Oils Ltd., the two cases arising under Section 19(a)(2) of the Securities Exchange Act of 1934 have been continued for hearing to Nov. 26, 1956. Upon the basis of the hearing the Commission will determine whether to withdraw, or to suspend for not to exceed 12 months, the registration of the capital stock of either company on the American Stock Exchange for the reasons stated in the orders and notices of hearing heretofore issued. By consent of all parties, the two cases have been consolidated for hearing.

suspend for not to exceed 12 months, the registration of the Capanistock of either company on the American Stock Exchange for the reasons stated in the orders and notices of hearing heretofore issued. By consent of all parties, the two cases have been consolidated for hearing.

The proceedings involving Great Sweet Grass Oils Ltd. were initiated on Oct. 19, 1956, and those involving Kroy Oils Ltd. were commenced two weeks later. The Commission was informed on Nov. 8 by counsel for Great Sweet Grass Oils Ltd. that Samuel Ciglen. President and director, and Morris Black, Financial Manager and director, resigned their positions with that company on Oct. 24, 1956. These two officers, who the Commission is advised are not in the United States, through counsel have declined the Commission's telegraphic request of Oct. 31, 1756, to appear before the Commission staff on Nov. 2, 1956, to give information in regard to the questions raised by the Commission's orders and notices of hearing affecting trading in the company's stock on the American. Stock Exchange. The Commission believes that Mr. Ciglen and Mr. Black, despite their resignation as officers and directors of the company, could furnish useful information to the Commission relating to the acquisition by Great Sweet Crass capital stock. The Commission believes that they and other Canadian residents with knowledge of the facts concerning the consolidated cases should submit to the jurisdiction of the Commission under the U. S. Securities Exchange Act at the hearing now scheduled for Nov. 76, 1956.

The Securities and Exchange Commission on Nov. 14 announced the issuance of two orders under the Securities Exchange Act of 1934 summarily suspending trading in the capital stock of Great Sweet Grass Oils Ltd. and of Kroy Oils Ltd., respectively, on the American Stock Exchange for a period of ten days from Nov. 15, 1956 to Nov. 24, 1956, inclusive, and that such action is necessary and appropriate for the protection of investors and to prevent fraudulent, deceptive or ma

This corporation, through its wholly-owned subsidiary, Greyhound Rent-A-Car, Inc., has acquired the nation-wide physical assets of The R. A. Co., one of the pioneer automobile fleet-leasing organizations in the United States.

"This action marks a first major step by Greyhound Rent-A-Car, Inc., under a program designed to make it the largest operator in fleet car leasing within a very few years," Arthur S. Genet, President of The Greyhound Corp., stated in announcing the acquisition.

Richard J. Pencl, President of Greyhound Rent-A-Car, Inc. since its formation in March, 1956, revealed that the Greyhound subsidiary will buy more than 12,000 new automobiles in 1957 and during the year expects to have them all out on lease. "Within, a reasonable time, Greyhound Rent-A-Car, Inc. expects to double this figure, raising the total number of cars it will have out on lease to more than 20,000. As of Oct. 24, the company had negotiated fleet car leases with more than 50 business firms—in addition to 50-fleet-leasing contracts it acquired from The R. A. Company," Mr. Pencl sald.

"Greyhound Rent-A-Car, Inc. acquired the R. A. Co. on Nov. 1, 1956. Under the terms of the acquisition, Greyhound received the existing 50 R. A. Company fleet-leasing contracts with leading corporations throughout the United States, personnel and land and property housing R. A.'s former headquarters at Brookpart Village (West Cleveland) Ohio, according to Mr. Pencl.

Founded in 1932, the R. A. Company was one of the first companies to enter the automobile fleet-leasing busines.

With the acquisition of The R. A. Company, Greyhound Rent-A-Car, Inc. is prepared to offer automobile fleet leasing in any part of the country. Arrangements can be made at any Greyhound Termina throughout the Country or at Greyhound Rent-A-Car, Inc.'s headquarters' at Clark and Randolph Sts. in Chicago, Ill.

"Greyhound Rent-A-Car, Inc., cery. Cefinitely has plans to expand into U-Drive-It daily automobile freet-leasing busines in the near Tuture," Mr. Fencl added.—V. 181

Hidden Dome Exploration Co., Inc., Las Vegas, Nev.—Stock Offering Suspended—

The Securities and Exchange Commission, it was announced on Nov. 13, has issued an order temporarily suspending a Regulation A exemption from registration under the Securities Act of 1933 with respect to a public offering of stock by this corporation. The order provides an opportunity for hearing, upon request, on the question whether the suspension order should be vacated or made permanent. The corporation filed its Regulation A notification with the Commission on May 15, 1956. It proposed the public offering of 3,000,000 shares of common stock \*1 10 cents per share. In its suspension order, the Commission asserts that it has "reasonable cause to believe" that the terms and conditions of Regulation A have not been compiled with, in that the company (a) felled to state in its offering circular the contemplated order of expenditures and amounts proposed for each purpose of the proceeds of the offering; and (c) extended dailar amounts in its financial statement for noncash transactions involving the issue of stock for services, prohibited by the Regulation.

The order further asserted that the making or continuance of this offering 'would act as a fraud or deceit upon prospective purchasers" of the Hidden Dome Exploration stock, in that the offering circular is false and misleading in respect of the following: (1) failure to disclose the identity of the sole proprietor of the underwriter, O. A. Waldinger, and the family relationship existing between him and Greta Waldinger, and the family relationship existing between him and Greta Waldinger, and the family relationship existing between him and Greta Waldinger, and the family relationship existing between him and Greta Waldinger, to the background and experience of Greta L. Hofmann Industries, Inc.—Net Up 236%—
Increased demand for the wide variety of products manufactured by this corporation lifted both sales and earnings to new high records during the first six months of its fiscal year—the period ended Oct 21. 1956, it was announced on Nov. 14 by Henry A. Hofmann, President. Net income increased 236% on a sales gain of 160%, reflecting the benefits of constant supervision of cost control and increased operating efficiency.

For the six months ended Oct. 31, 1956, net sales amounted to \$2,992,743, as compared with \$1,159,452 in the corresponding period of 1955. Profits before taxes amounted to \$313,719, as compared with \$101,657 for the like period last year. Although the compary still had an unused tax carry-forward credit, allowance was made for Federal income taxes. Net income after taxes amounted to \$290,319, equal to 9c per share on the 3,272,500 shares of common stock outstanding, as against \$86,327, in the first six months of the last fiscal year.

constanting, as against 500,327. In the list six months of the last fiscal year.

Current assets at the half year mark total \$1,329,617, as compared with current liabilities of \$668,916, a current ratio of 2.73 to 1. Net working capital of Oct. 31, 1956 amounted to \$1,160,761.

The upsurge in both sales and earnings, which became accelerated during the last three months, should continue during the balance of Hofmann Industries' fiscal year, according to Mr. Hofmann. On the basis of current indications, end barring any major unforessen developments, he continued, fiscal 1937 should be the best year in Hofmann history, with both sales and earnings showing substantial gains.—V. 184, p. 1018.

#### Horizons Inc.-Seeks to Reinforce Plastics-

Horizons Inc.—Seeks to Reinforce Plastics—
This corporation has undertaken the preliminary steps under a contract with a synthetic resin producer to find a means of reinforcing certain rigid plastics to withstand higher temperatures, according to a recent announcement.

The plastic presently has a service temperature which is too low before it begins to sag under heat. The Horizons' research team is attempting to increase the rigifity of the structure so that thermal sag of the plastic is eliminated as far as possible.

Many crystalline structures will be screened. In the basic steps already taken, the service temperature has been raised somewhat, but, it was pointed out, no specific temperature goal has been set. However, through the various effects of molecule fixing, the highest pressible temperature will be sought.

Rigid plastics are used for corrosion resistant vessels, industrial and commercial ventilating systems where corrosive fumes and vapors

are present, piping and ducting for corrosive materials and many other anti-corrosion applications. General applications will be broadened greatly when the service temperature is raised sufficiently to withstand those temperatures necessary in many manufacturing processes.—V. 184, p. 1913.

### Merritt-Chapman & Scott Corp.—Earnings Rise—

Consolidated net earnings after taxes for the first nine months of the year rose to a new high of \$13,489,000, including \$3,696,000 in non-recurring income, Louis E. Wolfson, Fresident and Board Chairman, reported on Nov. 1.

Net operating income of \$9,793,000 for the first three querters also marked a new high, representing a 42% gain over the \$6,918,000 total carned in the same period last year.

Total net of \$13,489,000 equalled \$2.44 per share on the 5,536,794

shares outstanding. On the basis of shares outstanding at the end of each period, the company's net operating income was equal to \$1.77 per share, compared w.tn \$1.29 per share earned in the first three quarters in 1955. Consolidated gross revenues showed an 8% increase, totalling \$291,-773,000 against \$268,299,000 in the same period a year ago Backlog currently stands at \$511,000,000, compared with a total of \$374,000,000 in 1955.

currently stands at \$511,000,000, compared with a total of \$374,000,000 in 1955.

Net income before taxes for the first nine months of this year amounted to \$19,229,000, compared with \$16,218,000 for the first three quarters of 1955.

For the six months ended June 30, 1956, net earnings after taxes were \$6,492,000, equal to \$1.19 per snare, compared with \$3,611,000, equal to 74 cents per share for the same period the year before.

The \$3,696,000 in non-recurring income reported for the first nine months of this year represents the net gain over acquisition costs—after allowance for all subsequent capital expenditures—resulting from sale of the assets of Newport Steel Corp. and its subsidiary, Utah Radio Products Co., Inc. While final figures are not yet available, present estimates indicate that the cash return realized through disposal of the assets of the Nesco Division of New York Ship during toosts. Under terms of the sale of The Shoup Voting Machine Corp., effected last June, M-C&S will completely realize acquisition costs.

#### Metal & Thermit Corp.—To Build Chemical Plant-

Metal & Thermit Corp.—To Build Chemical Plant—
This corporation has purchased a 163-acre site near Carrollton, Ky., and will soon begin construction of a new chemical processing plant, it was announced on Nov. 16 by H. E. Martin, President.
The initial development will cover ten acres and will include production buildings, an office building, a warehouse and a steam plant, as well as other structures. It is expected that the plant will employ 30 to 35 persons at the start of operations.

The plant will produce organiotin chemicals for the plestics, textile, pharmaceulcal and other industries, Mr. Martin said. Products will include a complete line of color saalter for polyvinvi chloride resins and other plastic formulations. Other Metal & Thermit organic tin chemicals to be manufactured in the new plant will be used as catalysts and stabilizers in a wide variety of chemicals and plastics.

An ore processing plant will shortly be under construction in Virginia here Metal & Thermit plans to mine substantial deposits of titanium-paring ore.—V. 184, p. 625.

-1956 Earnings Estimated Middle South Utilities. Inc.at Higher Rate—Expansion and Financing Plans—Edgar H. Dixon, President, in an address before the Security Analysts of San Francisco, on Nov. 13, announced in part as follows:

(1) The Middle South System expects to spend \$70,000,000 on new construction in 1957 and \$64,000,000 in 1958.

(2) Middle South expects to require around \$15,000,000 of outside capital for equity investment in the System companies from 1956 into 1959.

(2) Middle South expects to require around \$15,000,000 of outside capital for equity investment in the System companies from 1956 into 1359.

(3) Present indications are that per share earnings will be higher in 1957 even if a modest amount of new common stock is marketed. The egree of improvement will depend largely on the outcome of the Arkansas rate problem.

(4) Electric revenues in 1956 are expected to be \$135,000,000 up 8% from 1955.

(5) Earnings for year are estimated at \$2.15 a share on 7,592,106 shares outstanding, up 20c a share over 1955.

FINANCING FLANS—This year's construction program will cost an estimated \$49,000,000 bringing total postwar system construction expend tures to \$560,000,000. Next year we expect to spend \$64,000,000 and in 1958 it is planned that \$73,000,000 will be spent for construction. In all, we expect to employ \$340,000,000 for our five-year construction program through 1960.

As these newly constructed projects have become productive, revenues and cash derived from operations have increased. It was not neessary to raise any new long-term money by public financing in 1955, and this year it was required by only two companies. New Orleans Fublic S-rvice Inc. sold \$6,000,000 dies we preferred stock in January, and Louisiana Power & Light Co. sold \$7,000,000 of new new preferred in March. More recently, Arkansas Power & Light Co. borrowed \$8,000,000 from the banks to use in refunding over \$9,000,000, including interest, from rates collected under bond during Etigation of a rate increase application. It is expected that thi loan will be repaid in 1957 and 1953 through tax adjustments and cash generated by the Arkansas company.

Louislana Fower & Light Co. expects to sell \$18,000,000 to \$20,000,000, including interest, from rates collected under bond during Etigation of a rate increase application. It is expected that thi loan will be repaid in 1957 and 1953 through tax adjustments and cash generated by the Arkansas and Miss sippi comp

National Shoes, Inc.—Quarterly Sales Up 12%—
A 12% increase in sales and "a very satisfactory increase in earnings" for this retail shoe chain were reported to stockho'ders for the 1957 fiscal year's first quarter ended Oct. 31 by Louis Fried, President, on Nov. 14.

"We expect that earnings for the current fiscal year will show an appreciable increase over the previous year." he said.

Sales of \$21,255,409 for the fiscal year ended July 28 last represented a rise of 834% over the preceding year's \$19,555,135, he reported, while not earnings of \$620,520 during the year were 20% above the \$516,340 earned in the preceding year. Earnings per share were \$1.09, as against 90 cents in the previous year.

Mr. Fried said that "our expansion program is running at an accelerated pace," forecasting that the chain would have approximately 140 stores in operation by the end of the current fiscal year, compared with 121 at the end of last July.—V. 183, p. \$96.

## National Tungsten Corp.—Chilean Mining Rights

National Tungsten Corp.—Chilean Mining Rights—Rights to one of the free words largest deposits of strategic minerals have been acquired by this corporation.

Involved are tungsten, mercury, and manganese deposits west of the Andes Mountains in Northern Chile, with an estimated value, at current market prices, of over \$1,500,000,000.

Engineering reports estimate the over-all size of the ore bodiest exceeds 75,000,000 tons.

Signing of an agreement giving the corporation a 50% interest in the property, as well as exclusive operating and management rights, was announced jointly on Nov. 15 ty Sol Posner, President of National Tungsten, and Harry B. Seelig, President of Kolombo International Corp., Los Angeles, Calif.

A Chilean subsidiary company, owned jointly by the two American firms, will be set up to own and operate the property, Mr. Posner said, He also announced simultaneously plans to organize the Commercial Bank of Chile, at Santiago, with a capitalization of \$10,000,000, to finance this and other operations in the area. Chilean Government banking officials already have issued a letter of intent to approve the charter to Kolombo International Crp.

Terms of the operating contract, according to Mr. Posner, call for an initial production minimum by National Tungsten of 2,500 tons of ore per day. Site selection work is already underway by the firm're engineers. Shipment of mills, machinery, and equipment from the United States is expected to begin in about four months.

Minimum production will be achieved within eight months, Mr. Posner predicted. He estimated an initial investment of approximately \$3,000,000 to \$5,000,000 will be required to-reach that point.

National Tungsten, with tungsten, titanium, uranium, and oil holdings in several western States, was organized in 1929. A group headed by Mr. Posner acquired control and recorganized the company last May. The firm operates two tungsten mills in California. Additional equipment, currently being installed, is expected to double present production.

# Northern States Power Co. (Minn.) — Earnings at Higher Rate—Plans Large Expenditures—

Northern States Power Co. (Minn.) — Earnings at Higher Rate—Plans Large Expenditures—
Earnings of approximately \$1.25 per share for 1957 were foreseen for this company by Allen S. King, President, in a speech before the New York Society of Security Analysts on Nov. 14. "Financial projections for the next four years indicate an accelerating rise in per share earnings after 1957." Mr. King added.
Earnings per share for the current year will be about \$1.20 on the basis of 14,089,328 shares outstanding which compares with \$1.16 per share last year on 5% fewer shares then outstanding.

Mr. King indicated that this company anticipates a 10% increase in operating revenues this year which would bring gross income to \$139,000,000. Net income for 1956 is estimated at \$20,400,000, about 9% greater than in 1955. Balance available for common, he said, is expected to reach \$16,900,000, an increase of 8.7% over last year. The company provides gas service to 30 communities. This accounted for 12.5% of the company's 1955 gross revenues and is expected to rise as more natural gas becomes available for the area. In anticipation of this growth in business, the company's present plans call for expenditures of \$30,900,000 on its gas properties in the five-year period from 1956 through 1960.

The company total expenditures between 1951 and 1955 amounted to \$194,200,000. In the period from 1956 to 1960 present estimates call for expenditures totaling \$221,600,000. Of this amount \$59,100,000 will be for generation, \$20,300,000 for transmission and \$142,200,000 for other expenditures including gas.

The company will be able to finance its construction program entirely with debt financing until 1960 with a \$10,000,000 issue of preferred stock somewhere along the way, without any sale of common stock, Mr. King reported.—V. 184, p. 1731.

& Stone and associates, was quickly oversubscribed.

Northspan Uranium Mines Limited on Nov 9 confirmed that it has made finacting arrangements covering up to \$78,000,000 in bonds and decentures.

The arrangement consists of \$25,000,000 with provision for a further \$2,000,000 in U.S. and Canadian Bank loans, \$15,000,000 from The Canadian Bank of Commerce on security of 5½% first mortgage bonds maturing Dec. 31, 1939), an issue of \$45,000,000 (U.S.) in \$5½% general mortgage bonds, series "A," through a U.S. group headed by Morgan, Stanley & Co. and Model, Roland and Stone to mature July 1, 1963, and a commitment from Rio Tinto Mining Co. of Canada Ltd. to purchase, on Northspan's call, \$6,000,000 (Canadian) 5¾% general mortgage bonds, series "B" due July 1, 1963.

Under temporary financing, pending completion of the above financing, Rio Tinto is to make available to Northspan's up to \$5,000,000 for which it will receive 5½% debentures carrying 40 warrants per \$1,000, debenture, these to be identical with warrants attached to the series "B" bonds.

The Rio Tinto Group had purchased 250,000 shares of Northspan in September and another 250,000 shares in October, at \$4 per share, providing 22,000,000.

Northspan was formed from a recent amalgamation of three Blind tiver companies—Lake Nordic Uranium Mines Ltd., Spanish American Mines Ltd. and Panel Consolidated Uranium Mines Ltd.

It holds a letter of intent from the crown-owned Eldorado Mining and Refining Limited for the purchase of \$275,000,000 worth of tranium oxide.

It is under the supervision of Rio Tinto Mining Co. of Canada Ltd. which now manages more than \$600,000,000 of uranium-purchase contracts. Rio Tinto of Canada is controlled by Rio Tinto Co. of England.

England.

Northspan is developing three uranium mines on its Lake Nordic,

Spanish American and Panel properties and plans three mills with an

aggregate capacity of 9,000 tons of uranium ore per day. Production

is expected to start before the end of 1957.

Aggregate to start before the end of 1957.

Aggregate cost of the program is estimated at about \$73,000,000.

The Board of Governors of the American Stock Exchange on Nov.
2 approved for original listing 9,975,364 \$1 par shares (of a total uthorized issue of 10,000,000 shares) and 2,250,000 series A warrants or the purchase of 2,250,000 common shares at the price of \$3 trading on Nov. 15.

Construction of a plant addition and the installation of a new Fourdrinier paper machine and auxiliary equipment, will be undertaken during 1957 by the paper division of Ecusta Paper Corp., according to plans announced by Philip C. Brownell, General Manager of the division. The expansion program will cost several million dollars. Negotiations will be started immediately for the purchase of the machine and other equipment and for the construction of buildings which will add approximately 70,000 square feet of factory floor space. It is hoped that production from the new machine will be available early in 1598.

which will add approximately 10,000 again.

It is hoped that production from the new machine will be available early in 1958.

The Ecusta Paper Division (which is one of 21 operating divisions of Olin Mathleson Chemical Corp. and its subsidiaries) presently has nine Fourdrinier paper machines devoted to the production of flax cigaret paper, other special papers for the cigaret industry, thin printing papers, base paper for the carbonizing paper industry and other specialty lightweight papers.

ALUMINUM EXPANSION—During the quarter ended Sept. 30, 1956, the corporation and Revere Copper & Brass, Inc. announced the formation of a jojintly-owned subsidiary to produce 180,000 tons of rluminum annually. Olin Mathieson has made a long-term contract with the new subsidiary for 120,000 tons of aluminum annually, and Revere for 60,000 tons, The revised program will provide Olin Mathieson with a greatly increased supply of aluminum at a significantly lower cost per ton, and will place the corporation in a more advantageous position to meet the expanding needs of its fabricating facilities.

tageous position to meet the expanding needs of its fabricating facilities.

The new affiliate, Olin Revere Metals Corp., will own the alumina plant to be built on the Gulf Coast, the enlarged reduction plant now under construction near Clarington, Ohio, and the major portion of the electric power generating facilities. Arrangements have been made for the increased bauxite ore requirements.

Olin Revere Metals will be financed by \$100 million of short-term bank loans and \$100 million of mortgage bonds to be purchased by insurance companies. An additional \$31 million of capital will be provided jointly by Olin Mathicson and Revere through equal purchases of common stock and subordinate debentures of the new subsidiary. Olin Mathieson's direct capital outlay will therefore be substantially less than required under the corporation's original plan for entering the primary aluminum industry.

SALE OF ERADLEY AND LENTHERIC—The corporation has sold its Bradley Container Division, manufacturers of plastic tubes and bottles, to Aemrican Can Co., and its Lentheric Division to Helene Curtis Industries, Inc.

## Pacific Northwest Pipeline Corp.—To Export Additional Natural Gas to Canada—

The Federal Power Commission has authorized this corporation to export an additional 20,000,000 cubic feet of natural gas per day to Canada, on an interruptible basis, for ultimate delivery to British Columbia Electric Co., Ltd.

The Commission on Nov. 25, 1955 authorized Profile Northwest, among other things, to export a maximum of 12,000,000 cubic feet of natural gas per day at a point on the U. S.-Canadian porder near Sumas, Wash., and Huntingdon, B. C. This authorization covered a temporary period pending completion of the facilities of Westcoast Transmission Co., Ltd., which, will supply Canadian gas to Pacific Northwest. The gas authorized for export is to be sold by Pacific to Westcoast for resale to the British Columbia Electric Co.

Pacific Northwest filed a petition Sept. 5 requesting the FPC to modify the earlier authorization to permit—in addition to the maximum daily exportation of 12,000,000 cubic feet—the export of an additional 20,000,000 cubic feet on an interruptible basis for the same interim period, or approximately one year from Nov. 1, 1956.

In authorizing the additional export, the FPC said that it was on the condition that it would not impair service to any consumers in the United States. Pacific Northwest new transports natural gas from the southwestern United States into the Pacific Northwestern states. The Commission's November, 1955, order authorized the company to build additional facilities to import natural gas from and export natural gas to Canada.—V. 183, p. 2766.

#### Pacific Power & Light Co.-Swift No. 1 Project-

Pacific Power & Light Co.—Swift No. 1 Project—
The Federal Power Commission has Issued a 50-year license to this company for its Swift No. 1 hydroelectric project on the Lewis River in Skamania County, Wash.
The proposed project, which is estimated to cost approximately \$44,-000,000, includes a 410-foot high dam forming a reservoir extending about 12 miles upstream and having a capacity of 740,000 acre-fect. A 1,580-foot power tunnel will branch into three penstock tunnels extending to a powerhouse immediately downstream from the dam. The powerhouse will contain three turbines, each rated at 87,000 horsepower and connected to a generator with a 63,000-kilowatt name-plate rating, for a total capacity of 189,000 kilowats.

In its original application in December of 1955, Pacific Power also proposed to build the Swift No. 2 development; downstream from Swift No. 1. However, the company filed an amendment last August to eliminate the proposed Swift No 2 project from its application. At the same time, Public Utility District No. 1 of Cowlitz County, Wash, of Longylew, Wash,, filed an amplication requesting a license for Swift No. 2. This application is still pending before the FPC.

The Public Utility District had originally protested Pacific Power's license application for the two developments. The company and the PUD subsequently entered into an agreement, following extensive negotiations, under which Pacific would proceed at once with the proposed Swift No. 1; development, and the PUD would file its license application. Pursuant to Pacific's request, the FPC last May advised the company that the Commission had no objection to its proceeding with construction of Swift No. 1, at its own risk.—V. 184, p. 1020.

## Phaostron Instrument & Electronic Co.—Suspends Div.

Phaostron Instrument & Electronic Co.—Suspends Div. Irwin W. Elsenberg, President and Chairman of the Board, in a letter to stockholders dated Nov. 1, said in part:

"The directors have heretofore not indicated a specific continuing policy with regard to dividend payments. Obviously a growth company requires substantial re-investment of capital funds for research and development. Three dividends have been paid. However, we believe that our shareholders will be interested to know that the two originators of your company, who still hold a substantial amount of stock, waived all rights and claims to the third dividend. Future dividends will depend upon earnings and the cash need of your company. In the best interest of the stockholders, dividends can only be paid when earnings justify. In view of the present earnings, your directors have elected to suspend dividend payments. Your directors regard the matter of future dividends as one for continuing study and it is their intention to reinstate these payments when justified by earnings. "In conclusion, orders for the first four months of 1956 increased 185% over the same period in 1955, which is directly attributed to our new policies for sales and engineering."—V. 182, p. 2134.

purchased the Bendix home laundry equipment business of Avco Manulacturing Corp. In the United States and throughout the world except in Canada.

James M. Skinner, Jr., President, said Philco has acquired the Bendix laundry trademarks, patents, tools, and dies, foreign licenses, and current inventories of Bendix laundry equipment and parts. The transfer will be effective Nov. 30.

Mr. Skinner added that Bendix washers and dryers will be marketed through Philco distributors and dealers. The purchase price was not disclosed.

At the same time, Mr. Skinner said a manufacturing agreement has been concluded with Avco under which Bendix laundry equipment and Fhilco electric ranges will be manufactured to Philco specifications in Avco's facilities at Nashville, Tenn. This arrangement will augment Philco's laundry equipment manufacturing operations at Philco's Dexter Division at Fairficld, Iowa.

The arrangement also provides that Philco will service existing Crosley Products and Bendix home appliances.

Philco also acquired all the foreign licenses of the Crosley and Bendix Home Appliances Divisions of Avco, together with patent and trademark rights related to such licenses.

With respect to Canada, Philco has entered into an agreement to furnish technical assistance to Moffats Ltd. of Canada, an Avco subsidiary, and to furnish products, parts and components to Moffats for the production of refrigerators, freezers, washers and dryers.

In the United States, with respect to laundry equipment, Philco has acquired the trademarks Bendix, Duomatic, Economat, Dialamatic and Gyromatic. Throughout the rest of the world, other than in Canada, Philco has acquired these trademarks plus the marks Crosley, and Shelvador for laundry equipment, radio, television, phonographs, refrigerators, freezers, air conditioners and ranges.

South American Gold & Platinum Co.—Holds It Is No Longer an Investment Company—

This company, it was announced on Nov. 9, has applied to the SEC for an order declaring the company not to be, or to have ceased to be, an investment company under the Investment Company Act of 1940 and declaring its registration as an investment company under the Act to be no longer in effect; and the Commission has given interested persons until Nov. 27, 1956, to request a hearing on the application. The company was organized in 1916 for the purpose of exploring and developing extractive natural resources, principally in South American countries, and, directly and indirectly, the company has since then been so engaged. The application states that at the present time the company is solely a holding company; that the company registered under the Investment Company Act on March 17, 1955, under the apprehension that its investment securities might be said to exceed 40% of its total assets under the provisions of Section 3(a)(3) of the Act; and that, at Dec. 31, 1955, the company's interest in investments in companies engaged in businesses other than the extraction and development of natural resources were valued at an aggregate of \$4,946,219, representing 27.2% of the value of the company's total assets, (exclusive of Government securities and cash) amounting to \$18,163,134 at Dec. 31, 1955. It is contended by the company that it is not an investment company within the meaning of Section 3(a)(3)

and that, in any event, it is primarily engaged in a business or businesses other than the investing, leavesting, owning, holding, or trading in securities.—v. 184, p. 900...

#### Square D Co.-Annual Sales to Reach \$100,000,000 -Bank Credit Agreement Arranged-

Mark—Bank Credit Agreement Arranged—

Annual sales of this company, which manufactures electrical distribution and control equipment, will reach the \$100,000,000 mark for the first time in 1256, Gordon Patterson, President, reported on Nov. 9.

In 1955, Square D attained sales of \$78,726,607, a new high, including results of Electric Controler & Manufacturing Co., a cquired at year-end in a merger and since operated as a division. The company recently reported nine-month sales of \$75,558,046, compared to \$54,829,-401, including Electric Controller, for the equivalent period last year.

Mr. Patterson said that in anticipation of further "substantial growth" and to insure adequate working capital "for all presently foresceable needs," a long-term bank credit agreement for \$10,000,000 has been arranged. He said that Square D will not require any of these funds this year.

The credit agreement, Mr. Patterson stated, does not preclude the possibility of a future offering of presently authorized but unissued common stock, "when and if conditions prove such a move to be in the best interests of the company's shareowners, customers and employees."

In the recent nine-month statement, Square D reported record earnings of \$8,225,939, or \$1.62 per share on 5,106,390 shares outstanding on Sept. 30, 1956, an increase over 1955's \$5,125,215, or \$1.01 per share on a comparable basis. The company presendly nas no outstanding bank loans or preferred stock.

Commenting on the company's future dividend policy at the last meeting, Mr. Patterson pointed out that the portion of earnings paid out over the past 10 years has ranged from 44% to 61%. "I would expect our dividend practice to continue to follow this pattern," he stated.

Mr. Patterson informed the analysts that enlargement of the com-

stated.

Mr. Patterson informed the analysts that enlargement of the company's two-year, \$3 million capital expansion program announced in February of this year, coupled with rising costs, has added \$3 million to the original estimate. Completion of the expansion program before the end of next year, including major new plants in Gendale, Wis., and Lexington, Ky., will, he stated, provide an additionar 400,000 square feet of automated, manufacturing capacity.—V. 184, p. 431.

Standard Oil Co. (Indiana)—Secondary Offering—A secondary offering of 100,000 shares of capital stock (par \$25) was made on Nov. 13 by The First Boston Corp. at \$59.75 per share, with a dealer's concession of \$1 per share. It was quickly completed.—V. 184, p. 1733.

Standard Pressed Steel Co.—Stock Subscriptions—Of Standard Pressed Steel Co.—Stock Subscriptions—Of the 25,800 shares of common stock recently offered to stockholders of record Oct. 16 at \$72 per share, 25,799 shares were subscribed for. During the stand-by, Kidder, Peabody & Co., the underwriter, laid off 12,959 shares at \$97.50 per share, with a dealer's discount of \$2.50 per share. For details of offering, see V. 184, p. 1800.

#### Standard-Thomson Corp., Vandalia, Ohio.-Files With Securities and Exchange Commission-

The corporation on Nov. 3 filed a letter of notification with the SEC covering 8.888.8 shares of common stock (par \$1) to be offered at market (estimated at \$5.62½ per share), through Carreau & Co. and W. C. Langley & Co., both of New York, N. Y. The proceeds are to go to Reginald N. Webster, who is the selling stockholder.—V. 181, p. 549.

this company by Stephen C. Dorman and August B. Lindquist, Jr. of that company's Agricultural Research Laboratories, Officers of Stauffer cite this patent (2,766,554) as the basic one relating to Stauffer's widely-known soil sterilant, Vapam. This is the first Vapam patent to issue but Stauffer has other patents pending which contain claims that the Patent Office has allowed.

The nine claims granted in the patent embrace various aspects of soil treatment and describe the efficacy of compounds and methods. It is pointed out, for instance, that materials previously available have been unsuited for some applications because they were ineffective, left harmful residues in the soil, or were hazardous to use.—V. 184, p. 2058.

### Technicolor, Inc.—Reports Lower Profits-

Consolidated net earnings of the Technicolor companies for the first nine months of 1956, after taxes, amounted \$1,026,000, or 5 cents a share on the 2,027,000 shares of stock of Technicolor, Incoutstanding, it was announced on Nov. 14. This compares with \$1,792,000. or 90 cents a share, for the corresponding period of 1955.

Dr. Herbert T. Kalmus, President and General Manager of the

Technicolor companies, said: "During the year 1956, Technicolor estimates to spend approximately \$750,000 for research, development, and running-in costs in connection with its entry into two new fields—emateur color film processing and graphic arts.

"It is believed that this represents expenditures for the future of the company which are not properly chargeable against the income which the company receives from motion picture operations in 1956. Consequently, it is proposed that these expenditures be capitalized, to be charged against tuture operations."

Dr. Kalmus added that "the company estimates its earnings for the year 1956 at 60 cents per share after provision for federal taxes on income. These estimated profits per share will not be affected by the tax treatment given the research, development and running-in costs of th new fields—amateur color film processing and graphic arts."—V. 184, p. 525.

Tectum Corp., Newark, Ohio — Stock Offered — The Ohio Company, Columbus, Ohio, on Nov. 15 publicly offered 80,000 shares of common stock at \$10.50 per share offered 80,000 shares of to Ohio investors only.

PROCEEDS—The net proceeds from the sale of the stock will be used to purchase automated equipment for a proposed new plant to be built in the Southwest. This expansion, which will take care of increased demand for the building material in that section of the country, will augment total production by 150%.

augment total production by 150%.

BUSINESS—Corporation manufactures "Tectum," a multi-purpose building board. It was pointed out that "Tectum" sales have nearly doubled each; year since 1951 when commercial production started. In 1944 a pilot plant was established for research in developing a successful formula for "Tectum" as a multi-purpose building board and for the continuous high speed automated equipment that was essential for fast and economical production. The resultant material, made of high grade, selected wood fibers, impregnated with a water-insoluble chemical binder, is resistant to fire; and controls noise and temperature, in addition to being termite-proof, and resistant to rot and fungus.

In the past the great demand for "Tectum" has been for roof decking material for shopping centers, schools, industrial plants and churches, Carl R. Frye, Vice-President and General Manager, adds, but there is also a great potential market for home building.

PERSONNEL—Officers and directors of Tectum Corp. are W. E. Stough, Chairman of the Board of Directors; Murray D. Lincoln, President and a director; George H. Dunlap, Vice-President and a director; Carl R. Frye. Vice-President and General Manager; B. M. Rainsburg, Secretary-Treasurer; T. L. Thornbury, General Counsel; J. E. Keltner, Controller; and Paul D. With Securities and Exchange Commission.

This corporation on Nov. 15 filed a registration statement with the SEC covering 1,320,000 shares of class A voting stock and 1,537,890 shares of class B non-voting stock, to be offered for public sale at six cents per share. The shares are to be offered for sale through william O'Connor, as underwriter. Mr. O'Connor is full-time Secretary of the company and will assume the duties as underwriter without extra compensation. Proceeds of the sale of stock will go to the company without any commission or discounts.

The company was organized under Delaware law on May 27, 1955. It proposes to explore for certain metals, on its properties in South Carolina, North Carolina and Tennessee. Primary interest is to be centered "on the flocation, of lithium-bearing ores, and secondary interest is held in the exploration of fluorspar, feldspar, molybdenters, assestos and uranium."

Proceeds of the financing are to be used for continuation of the drilling program and for plant and equipment for rendering ore marketable, with the remainder contingent upon the materialization of the drilling program, and secondarily upon the materialization of the processing plants.

The prospectus lists Malcolm W. Ater of Falls Church, Va., as Prejected, and Robert G. Baumann of Ritchie, Md., as Treasurer. Maccolling in the processing plants.

The prospectus lists Malcolm W. Ater of Falls Church, Va., as Prejecten issued to promoters, 792,500 for services and 552,500 for casis—V. 183, p. 449.

Upiohn Co.—Develops New Cough Symps.

#### Upjohn Co.-Develops New Cough Syrup-

A new cough syrup has been developed that's nonnarcotic, nonarco-holic and sugar-free. It is called T.H. & M. (for terpin hydrate and methorate).

The traditionally used narcotic, codeline, is replaced with a newly developed drug, methorate, that effectively dulls the cough reflex action according to medical reports. As T.H. & M. is a suspension rather than an elixir, it contains no alcohol and is soothing to the inflammed throat.

inflammed throat.

Produced by this company, one of the nation's leading manufacturers of pharmaceuticals, the remedy has one additional benefit—It can be considered a sugar-free preparation, containing slightly less than five calories per teaspoonful. Though no prescription is required, T.H. & Me. is an ethical drug, not advertised to the public.—V. 184, p. 2059.

Van Horn Butane Service, Fresno, Calif.—Preferred Stock Sold—An issue of 44,000 shares of \$1.50 cumulative convertible preferred stock, series A, was publicly offered on Nov. 14 at par (\$25 per share) and accrued dividends by Schwabacher & Co., Inc. and Barth & Co., both of San Francisco, Calif. It was quickly oversubscribed. scribed.

PROCEEDS—The net proceeds are to be used to acquire the stock of Liquid Gas & Appliance Co., Teton Gas & Appliance Co., General Equipment Co., The McHade L. P. Gas Co., Lincoln Gas & Appliance Co., and Sweetwater Gas & Equipment Co., 3300,000 for reduction of short-term indebtedness; and for working capital.—V. 184, p. 2059.

Walt Disney Productions — Atlas Corp. to Exercise Rights to Unsubscribed Part of Offering—

The Atlas Corp. on Nov. 15 stated it has egreed to exercise rights to buy any unsubscribed portion of Walt Disney's rights offering now under way, of 186,526 additional starce at \$20 eacl. Atlas, pilor to the offering, owned about 17% of 1,305,680 common outstanding.

rights to buy any unsubscribed portion of Walt Disney's rights offering now under way, of 186,526 additional shares at \$20 each. Atlas,
pilor to the offering, owned about 17% of 1,305,690 common outstanding.

At the same time the Disney family will not exercise its rights to
purchase any of the shares being offered, a spokesman said. The
Disney family owned, prior to the offering, about \$5\cdots\$ of the shares.
Should Atlas Corp., subscribe to all the shares offered, according to
a Disney official, it would own \$37\cdots^2\$ of the outstanding stock, while
the Disney family's percentage would decline to 46%.

A spokesman for Atlas Corp. said that Atlas is "not looking for
control" of Disney.

Holders of record Nov. 9 were offered primary lights to subscribe to
the new shares in the ratio of one new share for each seven held.
Also secondary rights entille those who fully exercise primary lights
a chance to buy any unsubscribed shares. Primary and secondary
rights expire Nov. 29.

In addition, those who subscribe in full through primary and secondary rights will also have the right until Oct. 31, 1957, to s. bscribe
at \$22 per share to one additional share for each share subscribed for.

The subscription price for the primary rights is above the currant
market price, quoted recently at 18½ bid, 20½ asket. A Disn.y
official said that when the subscription price was set the stock was
selling at about \$22 per share to or a little better. An official of Atlas
Corp., asked to comment on the price differential, said, "from the

\*Webb & Knapp, Inc.—Sells Fee Interest—
This corporation and the Moxon Corp. have sold the fee of 1452-60
Broadway, a 16-story office building on the northeast corner of 41st
St. and Broadway, New York City, to the Bankers Trust Co., as trustee
for the International Harvester Co. pension fund.
Webb & Knapp and Moxon each owned a 50% interest in the fee.
Maurice Iserman, Vice-Presisfent and general counsel of Webb & Knapp,
was the attorney for the sellers and White & Case represented Bankers
Trust Co.
The building is leased to J. B. Stevens & Co., Inc., which occupies
all but the street floor.
The assessed valuation of the property is \$3,600,000, of which
\$1,300,000 is on the land.
Webb & Knapp recently purchased its 50% of the fee from the

#### Welbilt Corp.-Reports Higher Earnings-

This corporation had net earnings of \$1,028,599 in the nine months ended Sept. 30, 1956, it was anounced on Nov. 5 by Alexander P. Hirsch, Chairman of the Board, Sales for the period totaled \$17,881,015.

For the comparable nine months of 1955 Welbilt showed an operating

net profit of \$364,811 on total sales of \$16,011,085. The 1955 figures exclude a nonrecurring profit of \$557,256 from the sale of a plant.

Mr. Hirsch noted that results for the third quarter were not as good as in the third quarter a year earlier, due, primarily, to rising costs of materials and labor. He added, however, that recently effected price increases on Welbilt products would tend to increase profit margins and therefore improve the company's earnings picture.—V. 184, p. 1521.

### Worcester Pressed Steel Co.-Sells Rolling Equipment

Worcester Pressed Steel Co.—Sells Rolling Equipment Increased demand for metal stampings has brought the "end of on era" to this company, it was announced by Carter C. Higgins, President and General Manager, on Nov. 13.

The company announced it would give up its 47-year-old steel rolling activities in order to make way for increased stamping business. All the company's rolling equipment has been sold to the Rome Strip Steel Company of Rome, N. Y. Mr. Higgins said. The building that housed the steel rolling machinery will now have new blanking presses required by the current increased demand for stampings.

Mr. Higgins also announced that his company had ordered a new bright anneal furrace. Delivery is expected next spring.—V. 184, p. 369.

#### Worthington Corp.—Review and Outlook-

Hobart C. Ramsey, Chairman, in an address made on Nov. 9 said that "this year our billings are substantially above any previous year in Worthington's history. We expect to produce and ship more than \$170 million worth of mechanical and electrical products and parts. This record high compares with \$140 million last year and it is

very far above our annual billings for the past ten years, which have averaged around \$110 million. The gain is coming presty much across the beard in all lines.

"Our bookings-new orders coming in—totaled \$100 million for the first six months of this year: They will exceed that figure in the second jax months—giving is an aggregae volume of new business booked in excess of \$200 million for the year.

"Our backlog of untilled orders is now \$91,500,000. We regard this as a satisfactory level. In fact, we can handle nicely any backlog up to about \$100 million. In fact, we can handle nicely any backlog up to about \$100 million. The company earned \$4.58 for the first nine months—considerably more than during the same period last year—despite higher cos. for labor, stell and other components. We expect to crash through the \$6 barrier in earnings this year, after a ning-year record of \$5 plus—to be exact, an average of \$5.59.

"Gur-quarterly dividend was increased this year from 50 cents a share to 52½ cents. It has been our policy to pay out acout 50%, of our earnings, but new factors in the station, including the tightness of money, make it in our judgment inadvisable to increase total casa dividends any more this year. The additional working capital needed when a business jumps from \$140 million to over \$170 million is considerable, and in addition, we have been tuilding up in-encores looking toward an output in 1957 of approximately \$200 million. A year-end extra dividend is a matter in the discretion of our directors, but my recommendation would be a modest stock dividend. Using badly needed cash for an extra dividend would not be to the advantage of stockholders themselves, in view of the need for ample working capital in our expanding operations.

"Three years age we negotiated a \$25 million loan from the Metropolitan Life Insurance Co., amortization of which is due to start in 1959. Currently, we have established lines of credit with several of the major New York banks, under which we have made short-term bor

Comptroller's Views on Capital Spending Program — New York City Comptroller, Lawrence E. Gerosa, on Nov. 14 informed the Board of Estimate and the City Council that \$3 billion could become available for capital improvements during the next 11
years if the city is willing to
schedule a program within its
means. This sum comprises the
1957 proposed capital budget 1957 proposed capital budget (\$690.297,411), the proposed capital program of 1958 through 1962 (\$1,172,434,436), and an additional billion for the five-year cycle from 1963 through 1967.

The city's chief fiscal officer, in The city's chief fiscal officer, in a statutory report on the capital budget, explained the increase would result largely from the city's new method of shorter term financing and its consequent rapid redemption of debt.

"Eleven years is hardly any waiting period in the life of our waiting period in the life of our city because most public improvements are built to last 50 years, some a hundred," Gerosa said. He blamed the city's huge debt on some of the financial mistakes of the past caused by many administrations that borrowed huge trations that borrowed huge sums for long term periods and gave no regard to the future. "As a result, the taxpayer has had to pay three times what the original

The Comptroller said he had The Comptroller said he had indicated in the Aug. 15 report that while there was only \$180, 300,000 for non-exempt capital improvements which the city might spend safely for 1957, and varying amounts for the next four years, he was certain that there would be \$200 million by 1962. There is no reason to doubt that at least another billion dollars will be available for the fivelars will be available for the five-year cycle through 1967," he said. The report pointed out the

year cycle through 1967," he said. The report pointed out the Comptroller's recent record payment of \$219,494,718.60 which retired 5½% of the city's gross funded debt, included municipal obligations dating back to 1906 and 1907. Among these were final payments on 50-year bonds on the four East River bridges: Brooklyn, Manhattan, Williamsburg and Queensboro. "Now that we have changed most of this old method of long term financing we will have much more money for principal and will pay a great deal less in interest," Gerosa said.

The Comptroller indicated he had an open mind regarding the purchase of transit power, and because of the interest shown by different public officials and civic groups, it would be wise for the city to "take another look." However, he could not concur on port development, and emphasized, "I can see no economy in a give-away of one of the city's most

can see no economy in a give-away of one of the city's most valuable assets—our waterfront." Gerosa said he doubted the wis-

Gerosa said he doubted the wisdom or legality of a transit tax, as suggested by the City Planning Commission, and stated further that another Constitutional change to increase the city's borrowing power would result in a higher real estate tax rate. "Bonds, like any other commodity, would not be absorbed if they were to become a glut on the market," the Comptroller said.

The report declared that there

Comptroller said.

The report declared that there would be other money available for capital budget purposes. For example, the Federal Road Program will release millions that would have had to be included in the future. It also pointed out that elected Federal officials are committed to a large scale Federally.

elected Federal officials are committed to a large scale Federally-aided school program. "If Congress adopts such a law it will also release capital funds for other purposes," Gerosa said.

The Comptroller credited the administration with having spent one-third as much for schools within three years as the assessed valuation of all schools built within fifty years or more. He said that all capital improvements undertaken in the same period of time prior to 1954 were equal to one-sixth of the assessed valuation of the total improvements of the last half century.

Gerosa was of the opinion that

the last half century.

Gerosa was of the opinion that the City Planning Commission had made the picture "worse than it was painted." He quoted figures to show that of the 1956 non-exempt capital budget of \$350 million, the sum of \$243,418,824 has been carried over to the proposed capital budget for 1957. "This would seem to indicate that we cannot progress capital improvements during the year to the extent programmed in the capital budget," Gerosa said.
