Adams Express Co. — Acquisitions of Royal Dutch Shares Approved by SEC

The SEC, it was announced on Jan. 30, has issued orders granting exemption applications under the Investment Company Act permitting purchases of ordinary shares of Royal Dutch Petroleum Co. as follows: The Adams Express Co., 15,000 shares; American International Corp., 10,000 shares; and Petroleum Corp. of America, 10,000 shares.—V. 185, p. 1629.

American Cement Corp.—Secondary Offering—A secondary offering of 10,000 shares of common stock (par \$5) was made on Jan. 28 by Blyth & Co., Inc., at \$19.75 per share, with a dealer's concession of 65 cents per share. It was completed.

Merger Effective—Declares Initial Common Dividend

The directors on Feb. 5 declared an initial dividend of 25 cents per share on the common stock, payable April 1, 1958, to holders of record March 14, 1958.

The directors also declared three dividends on the \$25 par value cumulative preferred stock: 45¢ cents per share, payable May 1, 1958, to holders of record April 15; 37½ cents, payable Aug. 1, 1958, to holders of record July 15; and 37½ cents, payable Nov. 1, 1958, to holders of record Oct. 15. The initial dividend of 31¼ cents per share on the preferred stock was paid on Feb. 1, 1958.

The preferred stock is entitled to an annual fixed cumulative dividend at the rate of \$1.25 per share, payable quarterly, plus a non-cumulative dividend of 25 cents per share in any calendar year in which a dividend is paid on the common stock. There are no unpaid arrears on the preferred shares.

This company was formed by the merger of Riverside Cement Co. (Los Angeles), Peerless Cement Corp. (Detroit) and Hercules Cement Corp. (Philadelphia), effective Dec. 31, 1957.

Reports on 1957 Operations—New Director Elected

D. S. MacBride, President of American Cement, stated that sales in 1957 were \$55,570,488 and net earnings \$8,527,075. In 1956 on a combined basis, sales were \$59,830,563 and net earnings \$10,138,945. Earnings in 1957 were equal to \$1.99 per share, against \$2.38 a year earlier. These are based on the 4,110,518 shares of common stock now outstanding, after provision for preferred dividend payments in both periods.

Net earnings for both years reflect income tax expense computed in accordance with recent court decisions and a Treasury Department announcement liberalizing percentage depletion allowances which result in lower tax expense and higher earnings.

Mr. MacBride pointed out that between June 27 and July 30, 1957, operations of Hercules Cement were adversely affected by a strike of hourly employees. During the year all three companies now comprising American Cement felt the effects of reduced construction caused by strikes, plus slackened demand resulting from inclement weather, he said.

Herbert E. Hall, an attorney of San Francisco, Calif., has been elected a director to fill a vacancy caused by the death of Allen L. Chickering.

American European Securities Co.—Stock Offered

The company on Feb. 4 offered to its common stockholders of record Feb. 3 the right to subscribe on or before Feb. 19 for 76,563 additional shares of common stock (no par) at \$26 per share at the rate of one new share for each six shares held. Warrants are exercisable only for full shares. The offering is not underwritten. The Guaranty Trust Co. of New York, 140 Broadway, New York 15, N. Y., is subscription agent.

The company has agreed with Pictet & Cie of Geneva, Switzerland, the record, but not beneficial, owner of 383,174 shares at Dec. 31, 1957, constituting 83.41% of the common stock of the company, that Pictet & Cie will use its best efforts, including advertising and distribution of a prospectus in the French language for use in Switzerland, so that the beneficial owners of such shares will subscribe to the offering, for which the company will pay Pictet & Cie 50 cents per share for each warrant exercised by Pictet & Cie. Pictet & Cie will purchase only shares subscribed to by beneficial owners of shares registered in the name of Pictet & Cie. If the beneficial owners of the shares registered in the name of Pictet & Cie purchase their entire quota of 63,862 shares, the company will pay \$31,931 to Pictet & Cie.

PROCEEDS—The net proceeds are to be used to increase investments in accordance with company's investment policy.

See Sunstrand Machine Tool Co. below.—V. 187, p. 570.

American-Marietta Co.—Earnings Break Record

The company established all-time highs for both sales and net income for the year ended Nov. 30, 1957.

The backlog of orders for precast concrete products on Jan. 31, 1958, was 62% greater than a year ago and is expected to rise further. Increased shipments of concrete pipe and bridge sections will come from recently expanded facilities.

For fiscal 1957, net sales of the company and its subsidiaries amounted to a record \$24,038,408—an increase of 15.7% above sales of \$202,310,815 in 1956.

Net income reached an all-time peak of \$17,182,701, which was 6% more than 1956's net income of \$16,204,547.

Earnings per share, on 7,258,021 common shares outstanding, equaled \$2.21 after preferred share dividend requirements and exclusive of restricted class B common shares. Earnings per share in 1956 were \$2.39 on a lesser number of shares adjusted for last October's 3-for-2 stock split.

Working capital increased from \$33,975,515 at the beginning of 1957 to \$44,766,863 at the close of the year. Total assets rose from \$144,787,333 to \$174,947,168.

For the third year in a row, American-Marietta announced plans for expansion of its Portland cement and lime capacity. Construction of additional facilities at Roberta, Ala., which have now been started, will further increase shipments of cement by 25% and lime by 53% when completed in 1959.

Previous cement expansions increased yearly production by 1.4 million barrels at Martinsburg, W. Va., in a program completed in 1956 and by 1,500,000 barrels at Roberta in 1957.

A new resin research center will be built in Seattle to coordinate research for the company's Adhesive, Resin and Chemical Division serving the plywood, hardboard and paper industries. Research facilities will also be enlarged during 1958 in Chicago, Detroit, Cleveland, Louisville and Ottawa, Ontario.—V. 186, p. 2753.

American Motors Corp.—Rambler Output Increased

A new all-time high Rambler production record was established in January when 16,311 cars were built, according to E. W. Bernitt, Vice-President of Automotive Operations. The previous record of 14,529 units was set in October, 1957.

Rambler production so far in the 1958 model year is more than double the output in the same period of the 1957 model year—67,643, compared with 33,532, Mr. Bernitt said.

"We expect to hold to a production schedule of approximately 3,700 Ramblers per week during February and March, on the basis of present sales forecasts," Bernitt added.

Employment in the company's Wisconsin plants continues at high levels, totaling 12,100, against 8,000 a year ago.—V. 187, p. 141.

American Optical Co.—Buys Brazilian Lens Plant

In line with this company's expansion in Latin America, it has purchased Companhia Brasileira de Lentes Oftalmicas, at Sao Paulo, Brazil, and will operate it, beginning immediately, as a subsidiary. It was announced on Feb. 7.

A Brazilian charter has been granted in the name of American Optical do Brasil (Produtos Oftalmicos) Ltd.

The plant produces ophthalmic lenses.

E. Weldon Schumacher, President, said the company plans to double the factory's production before the end of 1958.

The company also has plants in Canada, Great Britain and Mexico, and a sales organization covering 130 countries.—V. 186, pp. 2257 and 2365.

Upon the conversion of debentures and adjustment in respect of interest and dividends is to be made upon an equitable basis. The conversion price will be \$142, provided that, if adjustment of the conversion price is required pursuant to the provisions of the indenture outlined below, the conversion price will be such adjusted price.

PROCEEDS—The company intends to use the proceeds from the sale of the new debentures for advances to subsidiary and associated companies; for the purchase of stock offered for subscription by such companies; for extensions, additions and improvements to its own telephone plant; and for general corporate purposes. The company also intends to use for the same purposes additional proceeds received upon conversion of debentures into shares of capital stock (a maximum of \$301,691,460 before deducting expenses).

Subsidiaries of the company have about 82% of the total telephone in service in the United States. These telephones and substantially all of the telephones of about 4,200 other telephone companies and additional thousands of rural lines in the United States can be interconnected. The company estimates that over 90% of the toll messages originating in the United States are routed in whole or in part over its lines or those of its subsidiaries.

The Company operates a network of wire and radio circuits and related equipment for intercommunication between and through the territories of its telephone subsidiaries and of other telephone companies and for interconnection between telephone systems in the United States and two non-controlled telephone companies technical and other services. Certain of such services are performed directly by the company and other services are performed by Bell Telephone Laboratories, Inc., a subsidiary which conducts scientific research and development and engineering work. Bell Laboratories also performs a substantial amount of work for the company's subsidiary, Western Electric Co., and for the Government. At the present time nearly half of the work of Bell Laboratories is for the Government, principally in connection with defense activities.

The company owns 99.8% of the stock of Western Electric Co., Inc. The principal business of Western is manufacturing telephone apparatus, cable, switchboards, etc., chiefly for the company and its telephone subsidiaries, procuring and selling to such companies materials and supplies not of its own manufacture, and installing central office equipment for such companies. Central Hudson Gas & Electric Corp.—Financing, etc.

The company, on Dec. 5, received approval of the New York P. S. Commission to borrow \$7,500,000 on 20-year 5½% sinking fund notes from four insurance companies. On Dec. 20, the company received proceeds of \$4,500,000 on notes issued to the Aetna Life Insurance Co., The Travelers Insurance Co. and the Connecticut General Life Insurance Co. The \$3,000,000 balance of the borrowings was obtained from the fourth lender, the New York Life Insurance Co., on Jan. 20, 1958. All of the funds received by the company from these borrowings were used to pay off short-term bank loans incurred in connection with the company's current construction program.

The company's construction budget for 1958 provides for expenditures aggregating \$21,900,000, the largest amount required for any one year in the company's history. Approximately \$13,000,000 of this amount will be assigned to construction work on Unit No. 2 of the Danskammer Point Steam Station begun in 1957. This 128,000 kilowatt unit is scheduled to be placed in service late in 1959. The remainder of the 1958 construction budget will provide for normal expansion and reinforcement of the company's electric and gas systems to meet the increasing requirements of the company's customers.

The indicated earnings for the year 1957 are \$1.11 per share on 3,008,077 shares of common stock outstanding Dec. 31, 1957 as compared with \$1.10 per share on the 2,725,774 shares of common stock outstanding a year ago. The 10% increase in the number of shares resulted from the sale of 280,000 shares of new common stock in the Spring of 1957 and the issuance of 2,303 shares during 1957 in exchange for \$30,000 face amount of the company's 3% convertible debentures, of which only \$156,000 face amount remained outstanding at the end of the year. The improvement of earnings in the face of the substantial increase in the number of shares outstanding resulted principally from the growth in the company's business in both its electric and gas operations.

Total revenues of the company increased \$1,762,947, or 6% in 1957, more than offsetting the \$1,441,926 or 6% increase in operating revenue deductions. Such deductions increased principally due to increased electric production expenses reflecting the higher price of coal and the greater output of the company's steam electric generating units, and to increased purchased power costs relating to the greater usage of electricity by the company's customers and the reduced output of the company's hydro plants.—V. 187, p. 142.

Central Louisiana Electric Co., Inc.—Stock Sold—

The company's construction expenditures for the year 1957 aggregated \$14,366,000, exclusive of approximately \$551,000 covering property acquisitions. The estimated construction expenditures for 1958 aggregate approximately \$7,500,000.

During the month of December the company sold 9,375 shares of common stock locally to residents in the parishes in which the company's operations are located. The stock was sold at \$32 per share, and the gross proceeds amounted to \$300,000. This stock was subscribed for by 269 non-stockholder residents in the company's service area and 202 employees.—V. 186, p. 1952.

Central Power & Light Co.—Bonds Offered—Blyth & Co., Inc. and associates on Feb. 5 offered publicly an issue of \$12,000,000 4% first mortgage bonds, series H, due Feb. 1, 1983, at 101.759% and accrued interest, to yield 3.90% to maturity. The group was awarded the issue Feb. 4 at competitive sale on a bid of 100.96%.

Other bids for the bonds as 4s were received as follows: Lehman Brothers and Glor, Forgan & Co. (jointly) 100.111; and Kidder, Peabody & Co., 100.091. Allen & Co., Inc., and Bear, Stearns & Co. (jointly), 101.481, and Eastman Dillon, Union Securities & Co., 101.399.

The bonds are redeemable at the option of the company at regular redemption prices ranging from 105.76% for those redeemed prior to Feb. 1, 1959, to 100.20% for those redeemed on or after Feb. 1, 1987; debt retirement redemption prices range from 101.73% to 100.20%.

PROCEEDS—Net proceeds from the sale will be used to pay part of the cost of additions, extensions and improvements to the elec-

tricity plant and to prepay \$4,500,000 of bank loans made for that purpose. The company estimates that construction expenditures for 1958-59 will aggregate about \$50,000,000.

All of these wells average over 20 barrels of distillate per million cubic feet of gas. The block has now been almost completely proven.

Pipe has been set on a fourth well in this block in which there were two proven gas sands. Mr. Labunski was formerly Vice-President of programming of the American Broadcasting Co.

In 1956, while still publishing "Collier's" and "Woman's Home Companion" magazines, Crowell-Collier purchased radio station KFWB in Los Angeles, Calif., for \$2,225,000 and announced it would purchase four other radio-television stations in the Midwest for over \$16,000,000. Later in the year, these plans were scrapped for lack of capital, according to the publishing firm, and in December the magazines were discontinued for the same reason after incurring substantial losses. Radio KFWB, however, was retained.

Crowell-Collier today is primarily an encyclopedia producer, deriving income from P. F. Collier & Son Corp., a wholly-owned subsidiary. For the first nine months of 1957, it earned \$2,787,739, against a loss for the full year 1956 of \$1,421,943. ("Wall Street Journal").—V. 187, p. 44.

The issuing company proposes to offer 630,000 shares for public sale, "at market"; and the remaining 526,774 shares are to be offered by certain selling stockholders. The offering is to be made by Herrin Company, of Seattle, on a "best efforts" basis, for which it will receive a selling commission of 20%.

Daybreak Uranium was organized in March, 1955 for the purpose of acquiring, exploring and developing mining properties. Its properties are located in the Mt. Spokane, Wash., area, and on the Spokane Indian Reservation, 40 miles from Spokane. At Aug. 31, 1957, it had outstanding a total of 3,754,500 shares of common stock. Net proceeds to the company from its sale of the 630,000 shares will be used as follows: \$10,000 for further surface exploration on its Dahl leases; \$50,000 for exploratory drilling on the Dahl leases "to determine if the uranium deposits discovered to date extend for appreciable distances below the surface"; \$25,000 for exploratory drilling on the Lowley lease; \$7,500 to deepen the shaft on the Lowley lease; and any balance in further exploration, development or mining, as may be justified by the results of the above program, and for general corporate purposes.

The prospectus lists 15 selling stockholders of the 526,774 shares, who own 815,875 of the outstanding shares. Among these are certain promoters of Daybreak Uranium who received, for properties now owned by Daybreak Uranium, a total of 2,800,000 shares of Daybreak Uranium stock, \$3,000 in cash, and \$47,000 of notes which have since been paid. The cost to the promoters of leases so transferred are said to have amounted to \$40,000. The principal selling stockholders are Ray Harris, 101,134 shares; L. H. Jorgens, 75,000 shares; Harry Bienen, 75,000 shares; Roy R. Shaw, 56,910 shares; and J. Winston Genius, 50,000 shares.—V. 187, p. 454.

Diamond Gardner Corp.—Sales Up—Earnings Off—

Sales amounted to \$170,645,000 in 1957, compared with \$168,797,000 in the previous year, according to Robert G. Fairburn, President. Both periods include results of operations of The Gardner Board & Carton Co. which was merged with Diamond Match Co. on Oct. 31, 1957. Net earnings for the year amounted to \$8,129,000, equivalent to \$2.15 per common share after deduction of preferred dividends. This compares with earnings of \$10,806,000, or \$2.92 per common share, in 1956. Results for both periods are reported on the basis of 3,465,218 common shares outstanding on Dec. 31, 1957.

The reduction in earnings, Mr. Fairburn explained, was due primarily to the decline in profits of the lumber divisions which were adversely affected throughout the year by the industry-wide softness in prices. Also, expenditures on research and for product development and promotion were considerably higher.

Mr. Fairburn disclosed that the company's equity in undistributed earnings of nonconsolidated interests was equivalent to 29 cents per common share as against 25 cents per share in the previous year.—V. 186, p. 1953.

The securities are to be offered for public sale in units, in such manner that 40% and 60% of the aggregate purchase price will purchase common stock and debenture notes, respectively (with the stock carrying a \$2 per share price and the debenture notes being offered at \$1,000 per debenture note). The offering is to be made on a "best efforts" basis by Minor, Mee & Co., of Albuquerque, N. M., for which a selling commission of 10c per common share and \$50 per debenture note will be paid. The underwriter also will receive warrants to purchase 8,000 common shares at \$2.50 per share, the warrants being exercisable during a period ending two years after completion of the offering.

The corporation was organized under Colorado laws on Nov. 8, 1957. It proposes to produce "only a coated, expanded shale, lightweight aggregate for sale to the building construction industry in the vicinity of Denver, Colo." No securities are now outstanding. In exchange for property interests and other considerations, the company proposes to issue 12,500 common shares to its principal promoter, Resources International, Inc., of Denver, together with options to purchase additional common shares, so that Resources International, Inc., will have the opportunity to maintain at all times a 25% interest in the company's voting securities. He added that in addition to reconnaissance systems, the new division will continue its research and development in other product lines which have already produced such products as the Radar Target Simulator, Voice Data Link and the Ultrasonic Light Modulator.—V. 187, p. 327.

The Securities and Exchange Commission, it was announced on Jan. 31, has issued an order temporarily suspending a Regulation A exemption from registration under the Securities Act with respect to a stock offering by this corporation.

Fireball Uranium's Regulation A notification, filed Dec. 7, 1955, proposed the public offering of 250,000 shares of its common stock, 225,000 shares on behalf of the company for an aggregate of \$45,000 cash and 25,000 at an aggregate sales price not to exceed \$5,000. The Commission's order asserts that: (1) the company failed to file the required semi-annual reports of stock sales; and (2) the notification omitted to state material facts by reason of its failure to disclose (a) whether the required assessment work on the company's 55 unpatented mining claims has been performed and (b) the status of the company's right, title and interest to such claims. The order provides an opportunity for hearing, upon request, on the question whether the suspension should be vacated or made permanent.—V. 182, p. 2789.

Ford Motor Co. (Mich.)—Announces New Thunderbird

The new four-passenger Thunderbird, successor to the two-passenger classic, will be publicly unveiled in Ford dealerships for the first time on Feb. 13. J. O. Wright, Ford Motor Co. Vice-President and Ford Division General Manager, said on Feb. 2.

Compared to the 1957 two-passenger model, the 1958 Thunderbird is 24 inches longer and 4.2 inches wider than the former model and has 1½ times as much trunk space. The 1958 two-door hardtop model will be followed later this Spring by introduction of a convertible which employs a design never before used for soft-top convertibles.—V. 187, p. 573.

Foster Wheeler Corp.—Omits Dividend—

Earle W. Mills, President, on Jan. 31, said in part: "The directors on Jan. 27, 1958, did not declare any dividend on the stock of the company."

"For the first three quarters of 1957, the management released to stockholders and to the press quarterly figures of sales and earnings prepared in accordance with its normal procedures. However, a more intensive review as of the close of 1957 covering our contracts in progress revealed that profit performance was not measuring up to previous estimates, and in fact, losses were to be incurred on a number of contracts. The amount of these losses and profit reductions has not yet been fully ascertained, but will probably be such as to nullify most of the net earnings for 1957 previously reported and may result in a net loss for the year."

"Our backlog of business remains at more than \$300,000,000 and the cash and working capital positions of the company are adequate for present needs. We look forward to improving our earnings position in 1958."—V. 186, p. 455.

Friendly Persuasion Co. (N. Y.)—SEC Issues Order Vacating Order of Suspension—

The Securities and Exchange Commission on Feb. 3 announced that, on request of Charles D. Adams and Joseph H. Neebe, of New York, N. Y., it has vacated an order temporarily suspending a Regulation A exemption from registration under the Securities Act of 1933 with respect to a proposed public offering of securities by Adams and Neebe, as general partners in a proposed limited partnership to be formed under New York law to be called "The Friendly Persuasion Company," which proposed to produce a theatrical venture.

In its suspension order, issued June 28, 1956, the Commission asserted that the terms and conditions of Regulation A had not been complied with by Messrs. Adams and Neebe, in that they had failed to file the required semi-annual reports of sales of securities pursuant to the exemption. Upon the basis of affidavits filed by Messrs. Adams, Neebe and Philip B. Wattenberg to the effect that the proposed limited partnership had never been formed, that the proposed project had been abandoned, and that no public offer of securities had been made, the Commission determined to vacate its suspension order.

The proposed partnership had filed its Regulation A notification on Aug. 10, 1953, proposing the offering of pre-formation limited partnership agreements in an amount not to exceed \$75,000.

(W. R.) Grace & Co.—SS. Line Plans Financing—

Grace Line, Inc., a subsidiary, plans to sell a \$20,000,000 bond issue during the last half of 1958 to help finance its \$350,000,000 ship replacement program.

The steamship line has not yet decided whether the issue will be public or private "but the odds are very much in favor of a public issue," according to Charles H. Erhart, Assistant Treasurer of W. R. Grace & Co.

Grace Line has contracted with the Maritime Administration to spend \$350,000,000 to replace 34 vessels over the next 12 to 15 years. The company expects to raise some \$200,000,000 of that from earnings, depreciation, and sale of old ships. The \$150,000,000 balance probably will be raised with bonds, of which the \$20,000,000 issue would be the first, Mr. Erhart said.

The issue would consist of 20-year mortgage bonds of varying denominations, backed by 100% Federal ship mortgage insurance, Mr. Erhart said. Grace Lines, Inc. is "seriously considering" issuing the bonds in amounts as low as \$1,000 to improve marketability, he added. Recent changes in the Merchant Marine Act of 1936 make it possible for the Federal Government to provide 100% insurance on the mortgages of ships built under the ship replacement program.

Mr. Erhart said the bond issue may be made in September after the line's two new passenger ships, the Santa Rosa and Santa Paula, are delivered by Newport News Shipbuilding & Dry Dock Co. However, part of the offering could be made in June, he said, when the first ship goes into operation.—V. 187, p. 455.

Great American Industries, Inc.—Tax Claim—

During a recent meeting between the Internal Revenue Service and representatives of the company, it was agreed in principle to settle the government's claimed additional assessment of the company's tax liabilities for the years 1941 through 1949 for approximately \$200,000 plus interest of about \$140,000.—V. 187, p. 45.

Gulf Interstate Gas Co.—Plans New Construction—

The Federal Power Commission has granted this company temporary authorization to construct natural gas facilities, at an estimated cost of approximately \$51,000,000, in Louisiana, Mississippi, Tennessee and Kentucky.

The company proposes to construct about 351.7 miles of 30-inch main line loops and about 54 miles of 24-inch lateral line loops. In its application, this company said that at present its authorized design capacity is 575,000,000 cubic feet daily. Commencing in November, 1958, its present facilities will be inadequate to transport the volumes requested by its sole customer, United Fuel Gas Co., of Charleston, W. Va., the company said. In January, February and March, 1959, United Fuel desires to receive about 662,000,000 cubic feet per day, the application stated. The additional facilities, Gulf Interstate said, would increase its maximum winter delivery capacity to 666,100,000 cubic feet daily.

The temporary authorization was conditioned by the FPC to provide that construction of the proposed facilities shall not begin until Gulf Interstate's plan of financing is submitted to and approved by the Commission. The temporary certificate did not authorize the operation of any of the proposed facilities. The FPC said that the temporary authorization "is without prejudice to such final determination of the application for certificate as the record may require."—V. 187, p. 456.

Hardrock Mining Syndicate, Las Vegas, Nev.—Stock Offering Suspended by SEC—

The Securities and Exchange Commission, it was announced on Jan. 31, has issued orders temporarily suspending Regulation A exemptions from registration under the Securities Act of 1933 with respect to public stock offerings by the following:

(1) Hardrock Mining's Regulation A notification, filed June 16, 1955, proposed the public offering of 6,000,000 common shares at 5 cents per share.

(2) Urania, Inc., Las Vegas, Nev., in its Regulation A notification, filed Jan. 16, 1956, proposed the public offering of 50,000 common shares at \$1 per share.

Regulation A provides a conditional exemption from registration under the Securities Act with respect to public offerings of securities not exceeding \$300,000 in amount. In its suspension orders, the Commission asserts that Hardrock Mining and Urania (1) failed to comply with a requirement of Regulation A for the filing of semi-annual reports reflecting the sale of stock and the use to which the proceeds were applied; (2) that the notification and offering circular filed by Hardrock Mining were false and misleading in respect of material facts; and (3) that the notification filed by Urania omitted certain facts necessary to make the statements therein not misleading. The orders provide an opportunity for hearing, upon request, on the question whether the suspensions should be vacated or made permanent.

More particularly, the order with respect to Hardrock Mining alleges (1) a failure to disclose the resignations of Edgar P. Lyons as Secretary-Treasurer and director, John McClelland Abrams as President and director, Thomas P. Sidwell as Vice-President and director, and Willard W. Wallace as director, as well as the disposition of all of shares issued to them by the company; (2) a failure to reflect the uses of \$60,000 in cash advanced to the company; and (3) a failure to reflect the status of the company's options to purchase property. Use of the offering circular, the Commission stated, "would operate as a fraud and deceit upon purchasers" of Hardrock Mining stock. In the case of Urania, the Commission's order alleges that the notification failed to disclose (1) whether the \$10,000 due landowners by the issuer had been paid; (2) whether the required assessment work on the issuer's unpatented claims had been performed; and (3) whether required rent or royalty payments have been made on the issuer's claims, as well

as the status of the issuer's rights, title and interest in such claims. In addition, according to the Urania order, Lynne B. Fenner and Fenner Corporation were enjoined on April 29, 1957, by the New York Supreme Court, New York County, for engaging in or continuing certain conduct and practices in connection with the purchase and sale of securities. Urania's notification listed Fenner, Streitman & Co., a partnership of which Lynne B. Fenner was a partner, as the principal underwriter. Fenner, Streitman & Co. withdrew its registration as a broker-dealer with the Commission on Sept. 27, 1956, and was succeeded by Fenner Corporation.—V. 181, p. 2929.

Kawasaki Steel Corp. (Japan)—World Bank Loan—

The World Bank on Jan. 29 made a loan equivalent to \$8,000,000 to assist this corporation to increase pig iron production. Kawasaki is expanding blast furnace facilities at its Chiba plant near Tokyo to increase its capacity to produce pig iron from 324,000 to 684,000 tons a year. The works to be undertaken will improve the efficiency of steel production while considerably reducing the cost.

The First National City Bank of New York, Manufacturers Trust Co., and Grace National Bank of New York are participating in the loan, without the World Bank's guarantee, to the extent of \$734,000. This

amount represents the first three maturities of the loan which fall due between May 15, 1960 and May 15, 1961; the maturities are being divided equally among the three participating banks.

The loan was made to the Japan Development Bank, a government agency which supplies long-term credit for industrial development in Japan, and the one through which several private companies have borrowed from the World Bank on previous occasions. The Development Bank will re-lend the proceeds of the loan to the privately-owned Kawasaki corporation.

Kawasaki is one of Japan's leading steel manufacturers, with the larger part of its production concentrated on steel sheets and plates. It is at present engaged in constructing finishing facilities at its Chiba plant which will make it a fully integrated producer and one of the most modern and efficient in Japan. A bank loan of \$20,000,000 made in December, 1956 is being used by Kawasaki for this purpose and is financing the construction of hot and cold strip mills and related facilities, with an annual capacity of about 390,000 tons of hot strip, and about 300,000 tons of cold strip. These mills are expected to go into operation by August 1958, nearly eight months ahead of the original schedule.

The new construction being undertaken at Chiba with the help of the new loan consists of a second blast furnace with a capacity of 1,000 tons of pig iron a day, together with a battery of 60 coke ovens and related facilities. Most of these works will be finished by the end of 1958 and the rest early in 1959. The total cost is estimated at the equivalent of \$20,000,000; the Bank's loan will finance about 40% of this total.

The Bank's loan is for a term of 14 years and bears interest of 5% including the 1% commission which is allocated to the Bank's Special Reserve. Amortization payments will begin May 15, 1960 and end Nov. 15, 1971. The loan is guaranteed by the Government of Japan.

Kennecott Copper Corp.—Buys Nevada Properties—

Purchase by this corporation of Consolidated Coppermines Corp., mining properties in White Pine County (Nev.), was announced on Feb. 1 by J. C. Kinnear, Jr., General Manager of Kennecott's Nevada Mines Division.

The sale includes Consolidated Coppermines Tripp Pit, its contiguous holdings in Kennecott's adjacent Liberty and Veteran Pits, numerous mining claims, water rights, surface buildings, equipment, the company-owned community of Kimberly, and other real estate. Involved in the transaction were only the White Pine County properties, with Coppermines still retaining its other interests.

Mr. Kinnear said Kennecott, Coppermines and their predecessors have worked side by side at Ruth and Kimberly for 50 years. All of Coppermines' ore has been milled, concentrated and smelted by Kennecott's reduction plant at McGill.

Kennecott took possession of its new holdings on Feb. 1.

It is anticipated that Kennecott will continue to process 21,000 tons of ore per day after it takes possession of the former Coppermines property.

In January, Kennecott's Nevada Division, as did its Utah and New Mexico Divisions, curtailed production by operating six days per week instead of seven because of lack of consumer demand for copper.—V. 187, p. 574.

Latin-American Exploration Co., Havana, Cuba—**Fraud Order Issued—**

The Securities and Exchange Commission on Feb. 4 announced that, in order to protect investors against losses in a fraudulent Cuban oil promotion, it had furnished evidence to the U. S. Post Office Department upon the basis of which that Department issued a Foreign Fraud Order against several companies and individuals engaged in a fraudulent distribution, from Cuba into the United States, of Latin American Exploration Co. stock.

The Fraud Order named Anglo-American Investment Corp., Latin American Exploration Co., International Analysts, International Analyst Corp., P. Caplin, and Gladstone McCarthy, all with Havana, Cuba, addresses. Previously, the Commission had issued a warning that the Latin American Exploration Co. stock was being distributed in the United States in violation of the registration and disclosure requirements of the Securities Act of 1933. The Fraud Order was based upon evidence supplied by the Commission that the United States mails are being used by these companies and individuals in the conduct of a scheme to obtain money through the mails by means of false and fraudulent pretenses, representations and promises concerning the said stock.

The evidence furnished by the Commission, which included an affidavit of its Petroleum Engineer, Tell T. White, established that the scheme to defraud involved the advertisement and sale of stock of Latin American Exploration Co., an alleged oil promotion in Cuba, upon false and fraudulent pretenses, representations and promises concerning the geological nature of the area in which the company's property is located; the likelihood of bringing in profitable commercial oil production from wells to be drilled on such property, with resultant large returns to investors; anticipated increases in the value of the stock and the basis therefor; the alleged comparative favorable aspects of the company's property and stock in relation to that of established major oil companies and other oil producing countries of the world; the "almost" certainty of a "big strike" in oil on the property of the company; and other representations of a similar nature. The evidence established that various specific representations were without factual basis and false and that they were made for the sole purpose of inducing intended victims to invest in the fraudulent scheme.

Residents throughout the United States have received voluminous promotional letters, pamphlets and printed booklets concerning Latin American Exploration Co., and have been solicited extensively by long distance telephone calls from Havana to remit money and securities from the purchase of its stock. This literature contains numerous references to the value of the stocks of other oil companies, with the intended inference that Latin American Exploration Co. stock would increase in value to an amount approaching that of such other companies. In its affidavit, on the other hand, Mr. White states: "There is no scientific or reasonable basis for predicting an appreciable rise in the price of the shares of Latin American Exploration Co."

The evidence supplied by the Commission to the Post Office Department further indicated that International Analyst represents itself to be a weekly publication devoted to furnishing subscribers an "advisory service" concerning "fields where profitable investment opportunities are to be found." However, examination of a considerable number of issues of this publication makes it apparent that, while it pretends to discuss foreign investments generally and from a disinterested standpoint, this is merely a subterfuge to mislead intended victims of the scheme to invest their money in stock of Latin American Exploration Co.

The Fraud Order, which is directed to all postmasters authorized to dispatch mail to Cuba, instructs them to stamp "FRAUDULENT" on all letters, whether registered or not, directed to any of the companies or persons listed in the order, as well as any other mail matter similarly addressed, and to return same to the sender.—V. 186, p. 2312.

Minnesota Development Corp., Minneapolis, Minn.—Registers Proposed Stock Offering With SEC—

This corporation filed a registration statement with the SEC on Jan. 30, 1958 covering 20,000 shares of its no par capital stock. The company proposes to offer the stock for public sale at \$50 per share. No underwriting is involved.

The corporation was formed under the April 29, 1957, Act of the Minnesota State Legislature authorizing the establishment of business development corporations empowered to supply the capital needs of new or small business. It was formed, according to the prospectus, for the purpose of promoting the business prosperity of Minnesota, by providing a new source of financing which will be available to assist existing businesses and to encourage new industry in Minnesota. It will derive its funds from the sale of stock and from loans from financial institutions such as banks and insurance companies which, by becoming members of the corporation, thereby agree to lend money to it upon its call. The company is not established to compete with existing financial institutions, "but is designed to make loans and other investments of a nature not customarily undertaken by financial institutions, thereby spreading the risk among all the members and stockholders and establishing a source of credit not otherwise readily available." The company also is empowered to acquire, lease, and sell real estate and personal property, to construct industrial plants and to acquire stock, bonds and other securities.

The company intends to apply the proceeds obtained from the sale of its stock, together with funds derived from loans by its members, first, in payment of the expenses of its organization and of the issuance and sale of its stock; second, in payment of its current operating expenses; and, third, for carrying out its general corporate purposes. Its directors are said to have been selected from among the leaders in the economic life of Minnesota who took an active part in its organization. Walter M. Ringer, Sr., of Minneapolis, is listed as President.

National Cylinder Gas Co.—Girdler, Division to Build Hydrogen Plant for Boron Fuel—

A \$3,400,000 contract to design and build hydrogen, nitrogen and carbon dioxide producing and purifying units for the world's largest high-energy fuel plant has been awarded to The Girdler Construction Division, it was announced on Feb. 6.

Calhery Chemical Co. of Pittsburgh, prime contractor for the Navy's \$38,000,000 plant now under construction at Muskogee, Okla., said that Girdler Construction, Louisville, Ky., will furnish all engineering, apparatus, material and complete field construction and start-up services for the high-purity industrial gas plants.

The entire Muskogee plant is scheduled for completion at the end of 1958, producing tonnage quantities of the new exotic fuel developed from high-energy boron compounds to power jet aircraft and missiles to new peaks of performance and efficiency.

The subcontract includes a plant to produce hydrogen as raw material to be chemically processed for its end role in the high-energy fuel molecule. Additional Girdler plants on the Muskogee site will produce nitrogen, an inert gas to be used as a protective atmosphere in various processing steps, and carbon dioxide. Storage units for hydrogen and nitrogen are included in the contract. Completion of the Girdler units is scheduled for late summer, 1958. Specialty catalysts for the hydrogen plant operation will be produced by National Cylinder Gas Co.'s Girdler Catalyst plant in Louisville.

New York Water Service Corp.—To Seek Rehearing—

The management of this company on Feb. 3 said it will recommend to the board of directors that the company seek a rehearing on its proposed issuance of \$8,000,000 in notes in exchange for certain shares of its outstanding par \$10 common stock (par \$10). The New York P. S. Commission a few days before denied the original company petition to issue the notes.

A company statement said the Commission might look with favor upon an alternate recapitalization plan. Originally, the corporation had proposed to issue \$8,000,000 in promissory notes to retire a portion of its outstanding common stock. It also had proposed to split the remainder of the common five-for-one, which would reduce the par value to \$2 a share. In denying the petition, the Commission held that issuance of the notes was not in the public interest.

It was reported the Commission might, however, approve a plan where there is a segregation of the utility and nonutility functions of the company. The Commission added that under an alternate plan it felt that utility customers would have to be protected from the burden of a debt the company might acquire for nonutility purposes.—V. 186, p. 2155.

This company, it was announced on Feb. 5, has withdrawn its registration of 99,195 additional common shares with the Securities and Exchange Commission.

The offering, which was originally scheduled for Oct. 2, 1957, would have given stockholders the right to subscribe for one new share for each four shares held. No price was set.

No effort was made to offer the rights because of market conditions at that time.

Raymond E. Olsen, President, said the data furnished the SEC last Fall is now outdated and that market conditions are still not ripe for marketing the issue.

The proceeds would have been used to retire \$2,500,000 in bank loans and to add to working capital. The bank loans have been continued, Mr. Olsen said—V. 186, p. 1897.

The company proposes to construct facilities to increase daily delivery capacity of its system to 2,260,000 MCF in order to meet delivery requirements of present customers during 1958 and 1959. A subsidiary, Midwestern Gas Transmission Co., has an application pending before the Federal Power Commission for authority to construct and operate a natural gas pipeline system from the International Boundary between Minnesota and Manitoba to a connection with Tennessee's present system near Portland, Tenn. Texas Eastern Transmission Corp.—FPC Adopts Pre-emptive Examiner's Decision Authorizing Retirement of Portion of Little Inch Pipeline from Natural Gas Service

The Federal Power Commission on Jan. 22 adopted a decision by one of its presiding examiners authorizing this corporation to retire a portion of its "Little Inch" pipeline from natural gas service, subject to certain conditions proposed by intervening large operators.

Under the authorization Texas Eastern will retire the Little Inch line from Baytown, Tex., to Moundsville, W. Va., and use it for the transportation of petroleum products. The FPC authorized the retirement of the Little Inch facilities and the construction of substitute facilities in June of 1955, but in March of 1956 the case was remanded to the Commission by the U. S. Court of Appeals for further proceedings upon appeal by the City of Pittsburgh and the intervening large operators. After further hearings, the Commission last June 21 affirmed the June, 1955 action and for the second time authorized Texas Eastern's plan. This action was again appealed by the large operators, who objected, among other things, to the FPC's omission of the intermediate decision procedure. The court then on Nov. 1, 1957, remanded the case to the Commission for the second time and further hearings were held before Examiner Costello on Dec. 23, 1957. In the meantime, however, conversion of the line and construction of the substitute facilities had been substantially completed.

At the Dec. 23 hearings the large operators stated that if their proposed conditions were included in the authorization granted to Texas Eastern, they would not contest the matter further before the FPC or the courts. Texas Eastern agreed to the conditions, which provide (1) that Texas Eastern shall not include in its natural gas costs any of its accounts for investments, operating costs or revenues from its oil operations, and that any losses suffered in the oil business may not be charged against gas operations; (2) that no new laterals connecting the Little Inch line with river ports may be built within the next five years without Interstate Commerce Commission approval; and (3) that Texas Eastern will operate the Little Inch as a common carrier at "reasonable and non-discriminatory" rates under ICC jurisdiction based upon a valuation of \$110,000,000 for the line.

To Construct \$4,000,000 Natural Gas Facilities in 1958—

The Federal Power Commission has authorized Texas Eastern Transmission Corp. and its subsidiary, Wilcox Trend Gathering System, Inc., to construct natural gas facilities during 1958 at an estimated cost of approximately \$4,000,000.

Texas Eastern was authorized to construct facilities not to exceed \$3,000,000, with no single project exceeding \$500,000. Wilcox was authorized to construct facilities not to exceed \$1,000,000, with no single project exceeding \$150,000—V. 187, p. 578.

Texas Utilities Co.—Stock Offered—Eastman Dillon, Union Securities & Co. and associates offered publicly on Feb. 5 an issue of 340,000 shares of common stock (no par value) at \$48.875 per share. The group was awarded the stock at competitive sale on Feb. 4 on a bid of \$47.925 per share.

This compared with operating revenues of \$145,570,000 and net income of \$28,700,000, or \$2.35 per share, for the calendar year 1956.

This corporation on Feb. 3 filed a registration statement with the SEC covering \$30,000,000 of first mortgage and collateral trust bonds, due 1978, to be offered for public sale at competitive bidding.

Net proceeds are to be applied as follows: \$27,000,000 for purchase of a like amount of first mortgage bonds of United Gas Pipe Line Co. wholly-owned subsidiary; and the balance, together with \$12,000,000 to be received from United Gas Pipe Line Co. upon the latter's redemption of debentures in that amount held by United Gas Corp. will be added to the general funds of United Gas for use in connection with its 1958 construction program and to purchase during 1958 additional securities of Union Producing Co., another subsidiary, to finance in part that company's development program. The Pipe Line company will use the \$27,000,000 to redeem its \$12,000,000 debentures, as stated above; for property additions, in the amount of \$11,000,000; and for general corporate purposes.

Expenditures by United Gas Corp. for construction to serve new towns and for general property additions are estimated at \$6,624,000 for 1958. Expenditures by the Pipe Line company for gathering lines, re-pipe line facilities and compressor stations to serve increased requirements of present and new customers and to connect additional gas reserves are estimated at \$36,918,000 for 1958. Expenditures by Union Producing for oil and gas field development, exploratory drilling and acquisition of leases are estimated at \$19,130,000 for 1958.—V. 186, p. 1324.

This company has applied to the Federal Power Commission for authority to build approximately 203 miles of 30-inch natural gas pipeline paralleling an existing line between New Orleans, La., and Mobile, Alabama.

The application, which has been accepted for filing by the FPC, said that the construction is necessary to enable the company to continue to supply the gas requirements of its present customers in the Mobile (Ala.)-Pensacola (Fla.) area and along the route of the New Orleans-Mobile line. Estimated cost of the construction is \$33,770,619.

The project would be constructed in two phases, the first including 78.7 miles of line from a point near New Orleans to a point in Hancock County, Miss., and 38 miles from a point in Harrison County, Miss., to a point in Jackson County, Miss. The second phase would include a total of 86 miles of pipeline paralleling sections of the company's southeast Louisiana-Mobile line.

The proposed facilities would enable United to serve the increasing requirements of the Mobile-Pensacola area in large measure from its south Louisiana sources of supply, which would, in part, replace other declining sources of supply serving that area.—V. 187, p. 186.

M. Kinney, Vice-President and General Manager of Zenith's Hearing Aid Division.

Foreign distribution was inaugurated in nine countries (including Australia and France) where Bausch & Lomb are represented. Additional countries will be added every month during the present year until the full complement of 104 foreign markets has been reached.

The relationship between the two firms is not new. Bausch & Lomb has been manufacturing accessories for Zenith's hearing aids for many years, and more recently assisted in the designing of the new Zenith Eyeglass Hearings Aids, the Vogue and Executive, so favorably received in this country.

Whereas Bausch & Lomb will be handling the bulk of Zenith overseas sales operations, distribution in the United States, Alaska, Hawaii, and Canada, will still be handled by Zenith Radio Corp., or its subsidiaries.—V. 187, p. 498.

DIVIDENDS

Dividend announcements are grouped in two separate tables. In the first we indicate all the dividends announced during the current week. Then we follow with a second table in which we show the payments previously announced, but which have not yet reached their payment date.

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday and the Saturday figures are not available at time of going to press. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results of the previous week—the week ended Feb. 1. For that week there was a decrease of 3.5%, the aggregate clearings for the whole country having amounted to \$21,694,267,790 against \$22,490,675,176 in the same week in 1957. Outside of this city there was a loss of 3.1%, the bank clearings at this center showing a decrease of 3.9%. We group the cities according to the Federal Reserve Districts in which they are located and from this we note that in the New York Reserve District the totals record a falling off of 4.0%, in the Boston Reserve District of 2.6% and in the Philadelphia Reserve District of 21.0%. In the Cleveland Reserve District the totals are smaller by 9.6% and in the Richmond Reserve District by 2.2%, but in the Atlanta Reserve District the totals are larger by 4.1%. The Chicago Reserve District suffers a loss of 1.6% and the St. Louis Reserve District of 5.1%, but the Minneapolis Reserve District enjoys a gain of 6.5%.
