Aetna-Standard Engineering Co.—Earnings—

The company, for the fiscal year ended June 30, 1958, reports consolidated net income of \$1,236,795, equal to \$2.44 per share on 507,830 common shares outstanding. Net sales and other income in the fiscal year amounted to \$31,301,279.

Net income for the fiscal year ended June 30, 1957 amounted to \$1,418,741, equivalent to \$3.07 per share on 462,716 common shares outstanding on total sales and other income of \$43,411,427. The greater number of common shares outstanding at the end of the 1958 fiscal year resulted from a 10% stock dividend paid in August, 1957.

The outlook for the company, which produces a wide range of machinery for the steel, copper, brass, aluminum, rubber, plastic and chemical industries, looks favorable for the 1959 fiscal year, according to Ernest E. Swartzwelder, Chairman, and H. G. Coffey, President.

The company will add a new associate to its organization, the Officine Meccaniche E. Ponderio of the Navalmeccanica Group, to facilitate the manufacture of Aetna-Designed equipment in Italy.

The company also will install three new continuous electrolytic tinning lines abroad; two in France and one in Japan. A fourth new line, started during the past fiscal year, is being operated by Breedband N. V., of Holland.—V. 186, p. 2365.

Affiliated Fund, Inc.—Assets Increase \$85,000,000—

The corporation's quarterly report at July 31, covering the first nine months of its fiscal year, shows an increase of \$85,000,000 in its net assets. Of this increase, about three quarters resulted from market appreciation and the remainder from the issuance of shares of capital stock.

Net assets on July 31, 1958, were \$431,641,418, equivalent to \$6.43 a share. During the period there was a per-share increase of \$1.14, or 21% in the value of the company's capital stock after adjustment for a 20-cent capital gains distribution in December, 1957. Allowing for this distribution, value per share is equivalent to \$6.63, as compared with \$5.49 on Oct. 31, 1957, the end of the last fiscal year.—V. 187, p. 2545.

Air Reduction Co., Inc.—Expands Facilities of Plant—

Air Reduction Sales Co., a division of Air Reduction Co., Inc., has announced the completion of expansion of its gaseous and liquid oxygen producing facilities at Lorain, Ohio.

The expansion, which was started in July of 1957 and required a year to complete, boosts daily production capacity of the Ohio plant from 40 tons a day to about 100 tons per day. It was made necessary by the large increase in oxygen consumption by local industry for open hearth and Bessemer furnaces, heat treating, welding, flame cutting and various other industrial processes.

Plans New Oxygen Facility—

Announcement was made on Sept. 3 by Air Reduction Sales Co. of plans for the construction of a new plant for Armco Steel Corporation on Air Reduction property at Butler, Pa., to supply the Butler Works of Armco with pipeline oxygen.

The new plant, which will consist of an air separation unit with a production capacity of 120 tons per day of high purity oxygen, will be installed and operated by Air Reduction Sales Company, a division of Air Reduction Co., Inc. Up to 84,000,000 cubic feet of oxygen per month will be piped from the new unit to Armco's Butler Works for use in metallurgical applications in the manufacture of steel as well as for general steel mill purposes.

Already in operation at the Butler location is a large Air Reduction plant for the production of liquid oxygen, nitrogen and argon. The new unit to be built for Armco will be located adjacent to the existing Air Reduction plant.

According to Air Reduction, ground will be broken for the new unit immediately and it is anticipated that equipment and facilities will be installed and in operation within 18 months.—V. 188, p. 745.

Aluminum Co. of America—Starts New Facilities—

The company's Massena (N. Y.) smelting operations on Sept. 5 became the first industrial consumer of electricity from the long-envisioned St. Lawrence project of the Power Authority of the State of New York.

As Alcoa fed the energy into new facilities built especially to utilize Authority power, it gained the distinction of having the nation's newest and most modern aluminum smelting operation on the site of the country's oldest operating aluminum smelter.

Massena's works first became a source of aluminum on Aug. 27, 1903. Today, more than 55 years later, the first of two new potlines, which together have an initial capacity to produce 54,000 tons of aluminum annually, was put into operation. Schedules call for the second line to begin production Oct. 15.

The historic event will be followed shortly by the closing of the nearby Grasse River generating station of the St. Lawrence River Power Co., a wholly owned Alcoa subsidiary. This station, a major supplier of Massena energy since the plant started production, will be shut down as aluminum production is transferred to the new smelting facilities.

The Grasse River station, as announced previously by Alcoa, will become completely inoperable when the Power Authority system closes a diversion canal, feeding St. Lawrence water into the Grasse River. The water then will be used at the Power Authority's new Robert Moses Dam.

Start-up of the two new Massena potlines completes the first phase of a \$25,000,000 modernization and expansion program undertaken by Alcoa to utilize St. Lawrence power. Besides placing the new potlines in service, the company, later this year, will reactivate two lines which have been idle. They will provide an additional 36,000 tons of metal annually. As the new smelting capacity starts up, four small, obsolete potlines will be shut down as part of the modernization program.—V. 188, p. 345.

American Airlines, Inc.—Places Large Fuel Order—

The largest fuel order in the history of commercial aviation was disclosed on Aug. 29 with the announcement by this corporation that it has awarded contracts to nine leading U. S. oil firms which could provide as much as four billion gallons of jet fuel (kerosene) over the next 10 years.

Terms of the agreements call for delivery to begin this Fall when American receives the first of its jet-powered transports and to continue at an accelerated flow as more of the airplanes enter service.

The airline will introduce domestic jet service around the end of the year with the Boeing 707 nonstop between Los Angeles and New York. American has a total of 110 jet-powered aircraft on order, including 50 Boeings (long-range and medium-range), 25 Convair 600s and 35 Lockheed Electras, with delivery of all scheduled by mid-1962. It is anticipated that annual volume after the airline gets all 110 jet types in service will be about 450 million gallons. American said.

A substantial portion of the order went to Esso Standard Oil Co. (N. J.) and Shell Oil Co., which together will provide about 60% of the total fuel requirement. The other oil firms are: RICHFIELD, HUMBLE, GULF, STANDARD OIL OF OHIO, STANDARD OIL OF KENTUCKY, TEXAS and MAGNOLIA PETROLEUM.—V. 188, p. 145.

American Investors Corp.—Proposed Acquisition—

See Southeastern Fund below and in V. 188, p. 145.

American Machine & Foundry Co.—To Sell Unit—

This company is conducting negotiations to sell its Associated Missile Products Co. Division at Pomona, Calif., to the Marquardt Aircraft Co. of Van Nuys, Calif., according to an announcement made on Aug. 29 by Fred K. Powell, Jr., AMF Vice-President and Government Products Group executive.

The products of the Associated Missile Products Co. Division include a number of defense electronic items, such as missile check-out and test equipment and data display systems and also specialized ground handling equipment for drones and smaller missiles.—V. 188, p. 841.

American Oil Producers, Inc., Las Vegas, Nev.—Files With Securities and Exchange Commission—

The corporation on Aug. 20 filed a letter of notification with the SEC covering 300,000 shares of non-assessable common stock to be

offered at par (\$1 per share), without underwriting. The proceeds are to be used for expenses incidental to exploring and developing land under lease for oil and/or gas.—V. 172, p. 1029.

Arizona Public Finance Co., Phoenix, Ariz.—Registers With Securities and Exchange Commission—

This company filed a registration statement with the SEC on Sept. 2, 1958 covering 902,808 shares of its common stock. The company is now engaged in a public offering of debentures and common stock under an earlier registration statement; and it now seeks registration of the 902,808 common shares, which are issuable as underwriting commissions on the sale of the debentures and common stock. Under an underwriting agreement between the company and Public Development Corp., underwriter, the latter will be entitled to receive stock of Arizona Public Finance equal in par value to 10% of the par value of all stock sold pursuant to this offering and subsequent to June 30, 1958. Underwriter's shares will also be issued in an amount equal in par value to 5% of the purchase price of debentures sold subsequent to that date. The 902,808 underwriter's shares are now being registered.

On Nov. 5, 1957, \$981,700 of 5% 20-year convertible subordinated debentures, series A, and 9,805,603 shares of common stock (par 10 cents) were publicly offered through Public Life Insurance Co. The debentures are offered at par and the stock at 20 cents per share.

The finance company was incorporated on Dec. 28, 1951. It is engaged in financing purchase of chattels and making small loans. Capitalization consisted of \$10,400 series A convertible debentures, \$79,200 series C debentures due to 1960 and 90,000,000 shares of common stock authorized, of which 3,294,650 shares were outstanding June 30, 1957.—V. 182, p. 1218.

Artloom Carpet Co., Inc.—Exchange Issues Ruling—

In view of the conditions which exist in the market in the common stock of this company, the New York Stock Exchange on Sept. 2 ruled that until further notice no member, member firm or member corporation shall accept stop orders in this stock in round lots or in odd lots.

Floor Governors of the Exchange, in arriving at the decision to suspend stop orders, took such factors as the following into consideration: The total number of shares outstanding, the current volume compared with past volume, the reported short position and price action of the stock.—V. 182, p. 1.

Associates Investment Co.—Again Increases Rate—

The company on Aug. 29 announced an increase in the rate paid for its commercial paper notes to become effective Sept. 2, according to Robert L. Oare, Chairman of the Board.

The five to 29-day paper rate went up one-quarter of 1% and all other categories rose one-half of 1%, Mr. Oare said.

The new rate schedule is five to 29 days, 1 1/4%; 30 to 89 days, 2 1/4%; 90 to 179 days, 2 3/4%; 180 to 239 days, 2 1/2%; and 240 to 270 days, 2%.—V. 188, p. 746.

Basic, Inc.—Sells Securities to Institutional Investors—

This corporation has sold privately to institutional investors \$1,250,000 (12,500 shares) of \$6.25 cumulative preferred stock, \$1,800,000 (18,000 shares) of \$5.60 cumulative convertible preference stock, and \$3,750,000 of its 4.75% mortgage notes, due 1974. This financing was negotiated by The First Boston Corp.

The convertible preference stock, which is junior to the preferred stock, is convertible into common stock at \$14 per share from June 30, 1959 until June 30, 1968 and at \$15 per share thereafter.

After the refunding of all presently outstanding mortgage notes and preferred stock, net proceeds of new money in the approximate amount of \$3,325,000 will be applied principally to completion of the company's 1958 plant expansion program, the largest item of which is new ore dressing and dust collecting facilities at the Gabbs, Nev. plant.

Basic Inc., whose headquarters are in Cleveland, is a major producer of granular dolomite, magnesite and chrome refractory materials used principally by the steel and metallurgical industries. The company also conducts a business in refractory materials used principally in the glass, metallurgical and construction fields. See also V. 188, p. 842.

Bendix Aviation Corp.—Awarded BOMARC Contract

A \$1,750,000 contract for development and production of the warhead proximity fuse for the new BOMARC IM-99B guided missile has been awarded to the corporation's York Division, it was announced by Howard Walker, Divisional General Manager.

The IM-99B BOMARC is the advanced version of the Air Defense Command pilotless interceptor now being developed by Boeing Airplane Co.

Mr. Walker said Bendix-York also developed and is producing an instrumentation beacon used in testing the present series of BOMARC IM-99A's. In test flights from Cape Canaveral, Fla., the beacon extends the range and accuracy of ground instrumentation radar, enabling the missile range safety officer to detect the exact location of the BOMARC in flight, Mr. Walker said.

BOMARC is a long-range, supersonic pilotless missile designed to intercept enemy aircraft and missiles while they are still far away from their targets.

New Ultrasonic Machine Tool—

A compact bench-model ultrasonic machine tool designed especially for cramped quarters and small budgets was unveiled on Aug. 25 by The Sheffield Corp., a subsidiary.

Designated Sheffield-Cavinton Model No. 200-E2 ultrasonic machine tool, it sells for \$3,650 F.O.B., Dayton, Ohio, excluding toolholder and abrasive.

Typical ultrasonic machining operations performed on the machine include cutting, drilling, engraving, slicing, dicing, and the production of complex shapes and forms. On special applications, materials similar to soft steel can also be machined.

Seeks Holding Company Act Exemption—

The corporation has applied to the SEC for an order exempting it and its subsidiary from the Holding Company Act, and the Commission has given interested persons until Sept. 15, 1958, to request a hearing thereon.

The subsidiary is Hamilton and Rossville Hydraulic Co., all of whose stock is owned by Bendix. The subsidiary owns certain hydro-electric facilities on the Miami River at Hamilton, O., and the electric energy produced therefrom is normally used by the Hamilton Division of Bendix located contiguous to such facilities. However, at certain times of the year the energy produced exceeds the requirements of the Hamilton Division and such excess electricity is sold to Cincinnati Gas & Electric Co., from which the subsidiary, at times, also purchases electricity.—V. 188, p. 746.

Black & Decker Manufacturing Co.—New Warehouse

As part of a continuing program to better serve its customers throughout Southern Africa, this company has announced the opening of a new warehouse in Capetown, South Africa, on Sept. 2, 1958.

It is expected that this facility will greatly expedite shipments of the company's electric tool products to distributors, wholesalers, and their dealers throughout the Union of South Africa, South West Africa, and the Federation of Rhodesia and Nyasaland. Black & Decker maintains additional warehousing facilities in Australia, Belgium, Canada, England, and Mexico.

This company also announces the opening of a new sales warehouse in Mexico City. It is expected that this facility will greatly expedite shipments of the company's electric tool products to distributors, wholesalers and their dealers throughout Mexico. The company maintains additional warehousing facilities in Australia, Belgium, Canada, and England.

The new Mexico City warehouse and offices cover over 4,200 square feet of floor space.—V. 187, p. 2546.

British American Oil Co. Ltd.—Two New Plants—

This company will formally open two major plants costing a total of \$50,000,000, within 48 hours of each other in mid-October, according to an announcement made on Sept. 2.

A few miles south of the foothills town of Pincher Creek in southern Alberta, B-A's natural gas processing plant, now in its final stages of construction, will be officially dedicated on Oct. 15. Just outside Vancouver, B. C., the company's Port Moody refinery is being readied for testing and the public opening on Oct. 17.

The Pincher Creek plant is located on one of the largest wet gas fields ever discovered in Canada, and one of the major fields of its type in the world. Completion of this plant will make British American the largest single supplier of natural gas to the Trans-Canada Pipe Line. The plant will have a daily initial production of 25,000 gallons of propane, 40,000 gallons of butane and 450 long tons of sulphur.

The Port Moody plant on Burrard Inlet, scheduled for speedy completion within a 16-month construction period, will bring to six the number of B-A refineries operating in Canada. The plant, with a daily capacity of 20,000 barrels, will include B-A's and B. C.'s first alkylation unit which will be used for the production of high octane gasoline.—V. 188, p. 46.

Broderick & Bascom Rope Co.—Unit Expands—

The American Logging Tool Corp. of Evert, Mich., a wholly-owned subsidiary on Aug. 20 announced the purchase of the principal assets and manufacturing business of the Warren Axe & Tool Co. of Warren, Pa. All inventory and equipment is being moved to the Evert, Mich., plant.

The American Logging Tool Corp. manufactures a complete line of logging tools, axes, chain hooks, load binders and Yellow Strand wire rope clips at their Evert, Mich., plant, with branch stocks at New York, Chicago, St. Louis, Peoria, Atlanta, New Orleans, Houston, Los Angeles, San Francisco, Seattle and Portland, Ore.—V. 186, p. 1042.

(E. L.) Bruce Co.—Exchange Rescinds Ruling—

The following notice was transmitted over the American Stock Exchange ticker network on Sept. 2 and Sept. 4:

"The Committee on Floor Transactions has rescinded its ruling of Aug. 18, 1958, deferring the closing out of the exchange of contracts made on the exchange in the common stock of E. L. Bruce Co. The action of the Committee is effective as of 12 noon Sept. 10, 1958. No such closing may be completed before that time. Members are directed to report promptly to the exchange, in writing, the date, time and price of each such closing effected. This action in no way affects the continued suspension of the stock from trading on the Exchange. Attention of members is directed to Rule 796 of the rules of the exchange."

Edward T. McCormick, American Stock Exchange President, stated that this action was taken after giving consideration to the presently reduced short position in the E. L. Bruce common shares. McCormick stated further "our review indicates, at this time, a net short position of less than 4,000 shares in the E. L. Bruce common stock."—V. 188, p. 842.

Burroughs Corp.—"Brain" Shipped Overseas—

This corporation on Aug. 29 announced the first overseas shipment of its quarter-million-dollar 205 electronic computing system. The 13-ton "brain," packaged in four giant steel cases, is bound for Capetown, South Africa.

It will be installed by the South African National Life Assurance Co. (Sanlam), first such firm in South Africa to employ U. S.-style automation for insurance policy handling.

About 100 of the Burroughs 205 data processing systems have been installed in the U. S. and Canada.—V. 188, p. 746.

Clark Equipment Co.—Gets \$1,300,000 Army Order—

This company's Industrial Truck Division has received a \$1,300,000 order for 400 fork-lift trucks for delivery to the U. S. Army, according to Robert H. Davies, Division Vice-President. Delivery of the machines will begin Nov. 1.

All of the machines are gasoline powered and of 4000 lbs. lifting capacity.

Builds Plant in Brazil—

Construction has started on the first plant in Latin America for production of automotive transmissions, now being built by Clark-MAC, S.A., 45 miles northeast of Sao Paulo, Brazil, near Valinhos. The 100,000 square foot plant will be used for the manufacture of truck transmissions and drive components for South-American-built products of Clark Equipment Co., Ford trucks and other automotive equipment.

The new company represents a total investment of over \$3,000,000, 51% of which is owned by Clark Equipment Co., 34% by the House of Rothschild and 15% by MAC, S.A., a Brazilian gear manufacturing firm.—V. 187, p. 2904.

Clary Corp., San Gabriel, Calif.—Files With SEC—

The corporation on Aug. 27 filed a letter of notification with the SEC covering an undetermined number of shares of common stock (par \$1) to be offered to stockholders on a pro rata basis (with an oversubscription privilege) at the market (estimated at about \$3.87 1/2 per share). No underwriting is involved. The proceeds are to be used for working capital.

Reports Improvement in Sales—

Consolidated sales in the first half of 1958 were \$5,631,000, resulting in a loss of \$148,000, as compared to \$5,249,000 and a deficit of \$318,000 in the first six months of the previous year, Hugh L. Clary, President, reported Aug. 21.

A profit of \$25,000 was earned on June sales of \$1,250,000, the highest volume for this month in several years.

For the entire second quarter, Clary reported a loss of \$47,000 on sales of \$3,101,000 as against the loss in the second quarter last year of \$178,000 on sales of \$2,785,000. All earnings figures are before tax credits or charges. Due to the loss carry-forward from 1957, current earnings are not subject to tax.

Receives Martin Contract—

The company's Clark Dynamics Division has received a contract from The Martin Co., Denver Division, for development and production of propellant valves, Paul J. Meeks, Clark Dynamics President, reported on Aug. 25.

The propulsion-system valves are for use in the USAF Titan, the Martin-developed Air Force intercontinental ballistic missile. Deliveries to the Martin-Denver plant are scheduled to begin this fall.

Clark Dynamics is a major manufacturer and designer of valves, servo-actuators and gyroscopes for guided missiles and aircraft.—V. 188, p. 47.

Coastal Chemical Corp.—Proposed Stock Offering Registered With Securities and Exchange Commission—

The corporation filed a registration statement with the SEC on Sept. 2, 1958 covering 30,000 shares of its class C common stock (\$25 par). The registration statement also includes 111,763 shares of class A common, being the balance of 289,986-share offering of class A stock under prospectus dated May 7, 1956, as well as an additional 15,690 shares of class C stock, the amount remaining unsold of an original offering of 150,000 class C shares under a prospectus dated Aug. 1, 1957. The offering of the class A shares is to be continued at \$30 per share, and the offering of the class C shares at \$25 per share. The class A and class C shares are to be offered for sale principally to farmers and other users of fertilizer materials. The offering will be made on a "best efforts" basis by Mississippi Chemical Corp., of Yazoo City, Miss., promoter of Coastal, for which it will receive reimbursement of the salaries and expenses of salaried employees engaged in the stock sale.

Coastal was formed by Mississippi Chemical for the development of a high analysis fertilizer plant. Subsequently, the company arranged to include nitrogen facilities in its plans. Mississippi Chemical has voting control of Coastal by the ownership of 1,000,000 class B shares purchased at its par value of 25c per share, which stock has equal voting rights per share with the class A and class C stock. In addition to the 1,000,000 class B shares outstanding as of Aug. 15, 1958, there were outstanding 178,257 class A and 101,542 class C shares. Proceeds of the stock sale and of the company borrowings are to be used for construction of high analysis fertilizer facilities and related equipment and other purposes, costing in the aggregate \$6,556,144.—V. 186, p. 1042.

Colonial Fund, Inc.—Assets at Record High—

James H. Orr, President, on Aug. 29 stated that the Fund's total net assets were at an all-time high of \$53,499,000 at the quarter ended July 31, 1958, an increase of 33% over the \$39,973,000 at the Oct. 31, 1957 fiscal year end. Shareholders, he said, increased from 11,615 to 13,332.—V. 188, p. 146.

Columbia Broadcasting System, Inc.—Acquisition—

Ownership of Philadelphia stations WCAU-AM-FM-TV was officially transferred on Aug. 29 to this corporation from WCAU Incorporated, a subsidiary of Bulletin Company, it was announced by Arthur Hull Hayes, President, CBS Radio, Merle S. Jones, President, CBS Television Stations, and Donald W. Thornburgh, President, WCAU Incorporated. The transaction, was given Federal Communications Commission approval in July.

The WCAU Radio and Television Center, completed in May 1952,

provides completely modern studio, office and production facilities, and is one of the country's best equipped and attractive broadcasting plants.

Other CBS-owned radio stations are: WCBS, New York; WBBM, Chicago; WEEI, Boston; KNX, Los Angeles; KCBS, San Francisco, and KMOX, St. Louis.

Other CBS-owned television stations are: WCBS-TV, New York; WBBM-TV, Chicago; KNXT, Los Angeles; KMOX-TV, St. Louis; WXIX, Milwaukee, and WHCT, Hartford.—V. 187, p. 1204.

Columbia Gas System, Inc.—Realignment Step—

An application by The Manufacturers Light & Heat Co., seeking authority for another step in the realignment of Columbia Gas System properties, and a budget-type application by United Gas Pipe Line Co., have been accepted for filing, the Federal Power Commission announced on Aug. 19.

Manufacturers proposes to abandon its retail gas sales in Ohio and to deliver natural gas at wholesale to its affiliate, The Ohio Valley Gas Co., for resale to Manufacturers' present retail customers. The proposal is part of the Columbia System's plan to make each operating subsidiary subject to the regulation by only one regulatory agency.

Under the plan, Manufacturers' interstate operations would remain subject to FPC jurisdiction and the Ohio retail sales would be made by Ohio Valley subject to only the jurisdiction of the Ohio P. U. Commission. No new facilities are proposed.

United Gas proposes to construct facilities from time to time during 1959 to enable it to make direct industrial sales of natural gas from its main pipeline system. The proposed facilities would have a total cost not in excess of \$1,500,000, with a maximum of \$400,000 for each single connection. The total annual deliveries to direct industrial customers attached under this application would not exceed 25,794,000, 600 cubic feet.—V. 188, p. 851.

Commonwealth Edison Co.—New Dividend Policy—

This company on Sept. 2 announced plans for a new dividend policy under which it will distribute approximately the full amount of its earnings in a combination of cash and stock dividends.

Willis Gale, Chairman, in a letter to stockholders said the company's board of directors will meet Sept. 12 for formal action on the matter. In the meantime, he said, the board had authorized him to announce that it is the intention to declare a 2% stock dividend, payable later this year, in addition to continuing the present base quarterly cash dividend of 50 cents a share. Such action would bring the total distribution for 1958 to \$2 per share in cash plus 2% in stock.

Simultaneously with the mailing of the letter to stockholders, the utility on Sept. 2 filed a petition with the Illinois Commerce Commission asking authority to issue the stock for the 2% dividend.

Explaining the new policy, Mr. Gale said: "The company will pay a base quarterly cash dividend. For the time being, this will be the 50 cents per share now being paid."

"The company will also pay an annual supplementary stock dividend. Our objective will be to issue stock each year for approximately the full amount of the company's earnings on the common stock in excess of the base cash dividends. The number of shares to be distributed will be determined by dividing the amount of available earnings, as estimated at the time of the declaration of the stock dividend, by the market price at that time. A workable fraction will be selected, designed to leave some margin of undistributed earnings."—V. 188, p. 443.

Congregation of the Holy Name, Wilmet, Wis.—Bonds Offered—

Braun, Monroe & Co., Milwaukee, Wis., in July publicly offered an issue of \$265,000 4%, 4 1/4%, 4 1/2%, 4 3/4% and 5% first mortgage serial bonds, due serially from July 1, 1958-1968, inclusive. The bonds are being offered at 100% and accrued interest.

Bonds are callable on any interest payment date at 100% and accrued interest on 30 days' notice in inverse order of maturity, the \$500 denominations having preference to those of \$1,000.

The net proceeds are to be used for the purchase of a larger site and the construction of a combined church-school and convent building to be ready for occupancy in the fall of 1958.

Consolidated Electrodynamics Corp.—New Contract—

The company's Rochester Division has received a \$195,000 order from the Brookhaven National Laboratory for high-vacuum pumps that will be used to evacuate a 30-billion electron-volt synchrotron which is nearing completion at Brookhaven's nuclear research center, Upton, L. I., N. Y.

The giant atomic "gun" which will be used by Brookhaven scientists to seek new information concerning the nature of matter, will utilize 48 CEC "Evapor-ion" pumps and 12 mechanical booster pumps in a system which will create a vacuum in the synchrotron's half-mile-long, semi-circular vacuum chamber. CEC will supply an additional 20 Evapor-ion pumps for use in a linear accelerator which feeds 50-million-volt protons into a ring vacuum chamber.

The Evapor-ion pump, a revolutionary electronic device for producing high vacuum without the use of organic pump fluids, is manufactured by CEC's Rochester Division under license by the University of Wisconsin Alumni Research Foundation.—V. 188, p. 244.

Consolidated Foods Corp.—Sales and Earnings Rise—

Fiscal Year Ended June 30—	1958	1957
Net sales	\$352,429,286	\$332,381,095
Profit before Federal income taxes	11,623,676	8,302,642

Common shares outstanding	2,469,096	2,239,013
Earnings per common share outstanding at end of year	\$2.46	\$1.64

In addition to increasing its sales and earnings, the corporation has further strengthened its financial position. The ratio of current assets to current liabilities was 3.1 to 1 at the close of the year, compared with 2.8 to 1 a year ago. There were no short-term bank loans outstanding at June 30, 1958. This compares with short-term debt of \$3,000,000 at June 1957 and \$11,150,000 at June 30, 1956.

During the year, the long-term debt of the corporation was reduced from \$15,203,968 to \$13,499,896. Net worth of the corporation increased \$10,153,051 during the year and now stands at \$35,957,317.—V. 188, p. 647.

Consumers Power Co.—To Construct New Unit—

This company will start construction early next year on the first 265,000 kilowatt unit of a new steam-electric power plant scheduled for operation in the Fall of 1962, it was announced on Sept. 2 by Dan E. Karn, President.

The plant will be located on Lake Michigan at Port Sheldon, south of Grand Haven, Mich., and will be interconnected with the state-wide system network serving 61 Michigan counties.

Allis Chalmers Manufacturing Co. of Milwaukee, Wis., will produce the steam-turbine generator. The boiler, tall as a 13-story building, will be built by Combustion Engineering Inc. at Chattanooga, Tenn. Coal will be burned at the rate of 750,000 tons a year, or 2,300 a day. The building for the first unit will be large enough to accommodate a second similar unit.

The company now has two other 265,000 kilowatt units under construction at the new Dan E. Karn Plant on Saginaw Bay, near Bay City, Mich., scheduled for operation in 1959 and 1960. When the first Port Sheldon unit goes on the line, the system capacity will be 2,800,000 kilowatts, more than four times what it was at the close of World War II.

Registers Bond and Preferred Stock With SEC—

This company on Aug. 29 filed a registration statement with the SEC covering \$35,000,000 of first mortgage bonds, due 1988, to be offered for public sale at competitive bidding. In another registration statement the company seeks registration of 150,000 shares of preferred stock, to be offered for public sale through an underwriting

group headed by Morgan, Stanley & Co. The dividend rate, public offering price and underwriting terms of the preferred stock offering are to be supplied by amendment.

Net proceeds of these offerings will be used to repay short-term bank loans, to finance in part the company's construction program, and to reimburse the company's treasury for expenditures made for such purposes. Property additions during 1958 and 1959 are estimated at \$209,200,000.—V. 188, p. 747.

Continental Copper & Steel Industries, Inc.—To Manufacture New Plastic Fibre Glass Lifeboat—

The U. S. Coast Guard has given its official approval to a reinforced plastic fibre glass lifeboat originated and designed by this corporation's Welin Davit and Boat Division. It was announced by Mortimer S. Gordon, President. Welin is widely recognized as the outstanding producer of lifeboats and related safety-at-sea life-saving equipment in this country.

This lifeboat, the first of its kind to be approved in this country, will now be manufactured by the Welin Davit and Boat Division in addition to its present line of aluminum and steel lifeboats, Mr. Gordon said.—V. 188, p. 47.

Continental Insurance Co.—Semi-Annual Report—

In mid-year reports recently released to stockholders of The Continental and Fidelity-Phenix, parent companies, it was disclosed that the net premium income written by the America Fore Loyalty companies, on a consolidated basis, during the first six months of 1958 totaled \$293,964,752, an increase for the period of 11.4% over the first six months of 1957. As a result the unearned premium reserves increased \$34,912,510 during the period. Earned premiums at \$229,052,243 showed an increase of 8.3% over the same period of last year.

On a June 30 market value basis the consolidated assets for the America Fore Loyalty Group were \$1,370,131,766, an increase of \$91,480,360 over the Dec. 31, 1957 statement of assets. On June 30, 1958 the combined surplus for the protection of policyholders, on a consolidated basis, was \$680,011,714, an increase of \$53,736,622 over Dec. 31, 1957.

Net investment income for the Group, eliminating duplication of inter-corporate dividends, was \$19,086,036 for the first six months, an increase of 4.9% over the same period of 1957.

The ratio of losses incurred to premiums earned during the first half of 1958 was 68.6% as compared with 70.5% for the first half of 1957 on a pro forma basis. The ratio of expenses incurred to premiums written was 39.1% for the first six months of 1958 as compared with 39.7% for the same period of 1957.

The statutory underwriting results of the companies for the period were as follows: The Continental, \$3,126,771 loss; Fidelity-Phenix, \$3,420,900 loss; Loyalty Group (Firemen's Insurance Company of Newark, N. J., and its affiliated companies), \$11,798,339 loss; Niagara, \$1,720,062 loss; The Fidelity and Casualty Company, \$11,325,833 loss.—V. 188, p. 443.

Cornucopia Gold Mines—Stock Still Suspended—

The Securities and Exchange Commission announced on Sept. 2 the issuance of an order pursuant to the Securities Exchange Act of 1934 suspending trading on the American Stock Exchange in the \$0.5 par value common stock of Cornucopia Gold Mines, with offices formerly in Pittsburgh, Pa., for a further 10-day period, Sept. 3, 1958 to Sept. 12, 1958, inclusive.—V. 188, p. 851.

Curtiss-Wright Corp.—Sells Nuclear Reactor—

Purchase of a Curtiss-Wright designed and built sub-critical nuclear reactor and laboratory by Tulane University for use in the university's established physics training program was announced on Sept. 2 by Roy T. Hurley, Chairman and President of the Curtiss-Wright Corp., and Rufus C. Tarris, President of Tulane.

Designed and built by the Research Division of Curtiss-Wright, the reactor and associated equipment will be used to teach basic nuclear physics and the development of nuclear research techniques. Delivery of the unit is scheduled for October 1958.

Entering Field of Solar Energy—

The corporation and New York University on Aug. 28 announced joint and separate programs for research, development and practical application of solar energy to be carried out at the Princeton Division of Curtiss-Wright, Princeton, N. J.

Curtiss-Wright, Mr. Hurley said, is entering the field of solar energy with immediate emphasis on the development and production of commercially salable solar products, based upon existing patents, knowledge, and needs.

The complete Sun Court and Solar Laboratory is now under construction by Curtiss-Wright. The Sun Court includes a solar heated house and a solar heated swimming pool, solar furnaces, solar batteries, solar stills, solar driers, solar cooking equipment, solar radios and solar food processing equipment.—V. 188, p. 443.

Daystrom, Inc.—Acquisition—

This corporation has acquired for cash the business and assets of the Industrial Gauges Corp., West Englewood, N. J., and the related patents owned by Charles B. Zimmer, President. The announcement was made on Sept. 2 by Thomas Roy Jones, Daystrom President, and Mr. Zimmer.

Industrial Gauges is a pioneer and major manufacturer of "non-contact" gauges, advanced instruments which use infra-red, X-rays or visible light to determine thickness, density, width, diameter or other characteristics of materials. These sensing and analytical devices are used here and abroad in a wide range of industries including steel and non-ferrous metals, chemical, petroleum, electrical-electronic, rubber and food.

The newly-acquired company will become the Industrial Gauges Department of Daystrom-Weston Industrial Division. Operations of this division include the production of process instrumentation, recorders, controllers, industrial instruments and computers.—V. 188, p. 245.

Dow Chemical Co.—Forms a New Subsidiary—
Formation of a new subsidiary company, Dow Agrochemicals Limited, for the manufacture and sale of agricultural chemicals in Great Britain has been announced jointly by The Dow Chemical Co. and Dr. Walter E. Ripper, noted British agrochemist.

The new company, with headquarters in London, England, will function as a manufacturing and marketing facility for one of Dow's weed killers, Dowpon, and, eventually, for other agricultural chemicals. Dowpon is a selective and systemic grass and weed killer.

Dow controls the majority of the paid up capital of the new company and Dr. Ripper the rest. Dr. Ripper has been named the Managing Director of the subsidiary.

It is planned that the new company will import Dowpon from the United States prior to the Dow Agrochemicals manufacturing plant in Great Britain coming into operation.—V. 188, p. 746.

Eastern Corp.—To Distribute Rayonier Shares—
The directors on Aug. 29 declared a dividend of 105,690 shares of the common stock of Rayonier Inc. payable on Sept. 30, 1958 pro rata to the holders of record at the close of business on Sept. 10, 1958 of the common stock of Eastern Corp. No fractional shares will be issued, and in lieu thereof the requisite number of shares of Rayonier Inc. common stock will be sold by Bankers Trust Co. (of New York), agent, and the net proceeds therefrom distributed pro rata to the stockholders of record on Eastern Corp. who would otherwise be entitled to receive fractional shares of Rayonier Inc. common stock.

In the opinion of the board of directors and of counsel for the company and of the trustee, based on advice of its counsel, said dividend does not require an adjustment in the conversion price under the debentures.

The distribution is being made in accordance with merger terms of Eastern Corp. and the Standard Packaging Corp. The merger is scheduled for closing about Sept. 15.

Under terms of the merger, it was proposed that Standard Packaging would exchange eight-tenths of one common share and one share of a new \$1.20 cumulative convertible preferred for each Eastern common share. The new preferred would be callable at \$27.50 and convertible into one share of Standard Packaging common.

The proposal also calls for Eastern which would become a division of Standard Packaging, to distribute pro rata its holdings of 105,690 shares of Rayonier common to Eastern stockholders prior to the merger. Stockholders of Standard Packaging and Eastern already have approved the merger.

As of last March 31, Eastern had 395,427 shares outstanding. Harold Holden, President of Eastern Corp., said the exact number of Eastern shares outstanding was indeterminable because of the steady conversion of its 4½% debentures into common stock.—V. 188, p. 748.

Eastman Kodak Co.—Producing New Plastic—
The interest of this company in the polypropylene field was made known on Sept. 4 by the announcement that pilot plant production of this new plastic has been started at the company's Texas Eastman division in Longview, Texas.

The process being used was invented by scientists in the research laboratories of the Tennessee Eastman division at Kingsport, Tenn. The key to the process is the discovery of new catalysts, which the company has covered by U. S. and foreign patent applications.

Polypropylene from the pilot plant is being used for Eastman's own evaluation, and announcement of its availability for customer trial will be made at a later date, stated W. S. Vaughn, President of Eastman Chemical Products, Inc., the marketing unit for products made by the Tennessee Eastman and Texas Eastman divisions. He declined at this time to say when polypropylene would be available from Eastman on a commercial basis.

Mr. Vaughn said that Eastman has been doing increasingly more research and development work in polyolefin chemistry, since the production of polyethylene plastic was added to the operation of Texas Eastman in 1954.

Texas Eastman is already a producer of high purity propylene, the raw material for polypropylene plastic, and the manufacture of polypropylene fits naturally into Eastman's plans for the development of plastic materials, according to Mr. Vaughn. Eastman currently produces acetate, butyrate, propionate, and polyethylene plastics, which are sold under the trade name "Tenite."—V. 188, p. 648.

El Paso Natural Gas Co.—FPC Proceedings—
The Federal Power Commission has consolidated the reopened proceedings involving the gas reserves of this company with El Paso's application to acquire natural gas from the Aucta field in the Southwest. A hearing on the consolidated proceedings will commence Sept. 10 in Washington, D. C.

The FPC, on March 26, authorized El Paso only to construct its proposed field facilities needed to enable the company to connect new sources of gas supply. The proceeding, which also involved the construction of main line facilities, was remanded to the presiding examiner for decision to determine, among other things, El Paso's ability to supply natural gas for the service proposed in its application. The cost of the field facilities authorized by the Commission are estimated at about \$1,438,000, out of a total estimated project cost of approximately \$55,502,000.

On May 13, the FPC reopened the proceedings for further hearing to enable El Paso to present a complete and current showing of all of its gas reserves, gas deliverability and its gas requirements. The Commission said that it is in the public interest that El Paso make such a showing in every case in which it seeks to sell substantial additional volumes of natural gas.

In the other application, El Paso seeks authority to construct and operate facilities, at an estimated cost of about \$26,085,000, to enable it to acquire natural gas from the Aneth field area of Utah, Colorado, New Mexico and Arizona.—V. 188, p. 851.

Family Finance Corp.—To Redeem Preferred Stock—
The corporation has called for redemption on Jan. 2, 1959, all its shares of 4½% series A cumulative preferred stock and all its 5% series B cumulative preferred stock. The redemption price is \$55.56¼ per share on series A and \$51.62½ per share on series B. There are 3,762 series A shares and 7,712 series B shares outstanding. Redemption prices include accrued dividends from Oct. 1 to the redemption date. The company has declared the regular quarterly dividends of 56¼ cents on series A preferred and 62½ cents on series B preferred, both payable Oct. 1 to holders of record Sept. 9. The redemption agent is Irving Trust Co., 1 Wall St., New York. The company said that shareholders electing to convert series B preferred stock will be entitled, up to and including Dec. 31, 1958, to 2,777 shares of common stock for each series B preferred share held. Conversion rights on series A stock have expired, the company said.—V. 188, p. 348.

Food Fair Stores, Inc.—Dividend Rate Increased—
Sales and Earnings Higher—

The directors increased by 50% the effective dividend rate on the common stock. By declaring a regular quarterly dividend of 25 cents, the board continued the annual common dividend rate at \$1 per share on the increased common stock outstanding since the recent three-for-two stock split. The annual dividend rate had been increased to \$1 from 80 cents in 1955, and cash payments has been supplemented each year by stock dividends.

Both sales and earnings of the company in the first quarter of the current fiscal year reached the highest levels in the history of the company for such a period.

The company's sales for the 12 weeks ended July 1, 1958, amounted to \$145,196,298, or 10.4% above the sales of \$131,535,967 reported for the first quarter last year.

Net income after all charges and taxes reached \$2,417,092 which represents 72 cents per common share on 3,288,352 shares outstanding on July 1. This compares with net income of \$2,266,002, or 67 cents per common share earned on the same share basis in the initial quarter last year.

Present plans contemplate the construction of at least 50 new supermarkets to the chain which extends over an eight-state area from Connecticut to Florida. As many as 13 markets have been opened since April 26, 1958, bringing the total to 305. Currently there are 35 markets under construction and an additional 30 units are on the drawing boards.

The stockholders on Aug. 19 voted to remove limitations on authorized indebtedness which might hamper the company financially in its future expansion programs. It was stated that management has no present plans for additional financing.—V. 188, p. 749.

Ford Motor Co. (Mich.)—To Increase Production—
This company began its employment build-up for 1959 model production last week and by the end of November will add 11,000 hourly employees to permanent payroll across the nation, it was announced.

Ford Division's Ford Mahwah (N. J.) assembly plant started refitting its production system on Sept. 2, and expects to start production of the all-new 1959 Ford by mid-September.

Samuel L. Simmons, Mahwah Plant Manager, said all hourly employees currently on changeover lay-off status will be recalled for new model production.

John S. Bugas, Vice-President-industrial relations, announced that the company's manufacturing and product divisions have increased their hourly manpower requirements by 3,500 in the past several weeks and that total hourly employment will reach 106,000 by Nov. 30.

Of those recalled to the permanent rolls, about 4,000 will be in the Detroit (Mich.) area, Mr. Bugas said.

The company's hourly employment averaged about 95,000 during the summer prior to entering the model changeover schedule.

Model changeover layoffs reached a peak of 32,000 on the hourly rolls two weeks ago. Mr. Bugas said, however, that nearly all of those laid off for the production change will be back to work by mid-September.

More than 4,000 of those on changeover layoff were scheduled to return to their jobs on Sept. 2 at Ford's foundry and two engine plants at Cleveland, Ohio, where 2,100 employees have been on strike since Aug. 25 in a dispute over the discharge of a UAW committeeman for insubordination.—V. 188, p. 749.

Frontier Refining Co.—Registers With SEC—

The company on Aug. 29 filed a registration statement with the SEC covering \$2,000,000 of serial debentures, series of 1958, to be offered for public sale at \$1,000 per unit through an underwriting group headed by Peters, Writer & Christensen, Inc., and Garrett-Bromfield & Co., both of Denver, Colo. The underwriting commission is to be \$55 per unit.

Net proceeds will be used primarily for the purpose of replenishing and augmenting working capital. During the fiscal year ended May 31, 1958, the company's working capital was depleted by approximately \$930,000, principally due to expenditures at Cheyenne, Wyoming, which improvements to the company's refinery and capital expenditures of approximately \$1,200,000 made by the production department, these developments having been financed in part from other sources.—V. 188, p. 1846.

General Contract Corp.—To Redeem Preferred Stock—

The 5% cumulative convertible preferred stocks (par \$20 and \$100), which were recently called for redemption on Oct. 1, 1958, will be redeemed at the St. Louis Union Trust Co. or The Chase Manhattan Bank, 18 Pine St., New York, N. Y.

Both issues are convertible into common stock through Sept. 30, 1958.—V. 188, p. 651.

General Electric Co.—New Turboprop Test Facility—

Two new engine test cells, requiring an investment of more than \$1,000,000, have been constructed by General Electric's Small Aircraft Engine Department at Lynn, Mass.

Initial investment of company funds is over \$612,000 for test buildings and facilities. Instrumentation and related equipment has been furnished by the government and is valued at approximately \$390,000.

The new facilities consist of a dynamometer and a turboprop test cell for developing, qualifying and acceptance-testing the company's T64 "convertible" engine. This dual-purpose engine has a basic power section to which individual units can be added for making it either a turboprop engine for propeller-driven planes or a turboshaft engine for helicopters.

A \$58,500,000 contract for development of the two versions of the basic T64 engine was awarded General Electric last year by the U. S. Navy Bureau of Aeronautics.

Designed for testing the power output of T64 development engines, the dynamometer facility consists of a control room between two test cells. The turboprop facility which initially has only one cell and a control room has been built to evaluate the performance of T64 engines under actual propeller-driving conditions.—V. 188, pp. 648 and 545.

General Instrument Corp.—Awarded Production Contr.

To help the Armed Services ferret out secrets of the weather 15 or 25 miles above key ballistic missile launching sites, the Signal Corps has awarded to this corporation an initial 1,500 unit production contract for a new, "super-accurate" electronic weather detector which uses a liquid-filled miniature "vacuum bottle" to measure atmospheric pressure in the upper altitudes with "five to 10 times the accuracy possible with existing instruments." It was disclosed on Aug. 27, 1958, that the new device already has begun at General Instrument's Newark, N. J., plant.

Known as a "hypsonometer radiophone," the new meteorological instrument, to be sent aloft by weather balloon, was developed by the U. S. Army Signal Engineering Laboratories at Fort Monmouth, N. J., and is being produced by General Instrument under "Project Jupiter," for "basic weather research connected with ballistic missile programs," it was said. The hypsonometer radiophones also are to be used in the International Geophysical Year program, it was stated.—V. 188, p. 48.

General Time Corp.—Develops New Light-Weight Electronic Counting and Dividing Units—

New electronic counting and dividing units that represent a dramatic reduction in size and weight over models using older techniques have been developed by this corporation, according to an announcement made on Aug. 26 by Donald J. Hawthorne, President.

Named "Incremag," one of these new compact units can perform work that would otherwise require a battery of 10 or more binary-type units to do. This size and weight factor is of extreme importance, particularly when working in the missile field, he pointed out.

"This major improvement, however, is not due to miniaturization alone but to an advance in the art of counting techniques," according to Mr. Hawthorne. "It is a major breakthrough in the simplification of electronic circuitry for counting."

The use of Incremags, however, Mr. Hawthorne said, is not confined to the missile field, although they are of great importance to it. They have many scaling, computing, coding or control applications. In fact, these units, he said, are ideal for any systems applications requiring precise timing, counting or control in a limited space with limited power.

One particular advantage to the new units, it was pointed out, is the fact that there is no loss of prior count even with power failure, and negligible standby power is required.—V. 187, p. 1649.

General Tire & Rubber Co.—To Manufacture Flexible Magnetic Materials—

The company on Aug. 27 announced the addition of a new flexible permanent magnetic material to its growing list of industrial manufacturing products.

Under the terms of an exclusive license negotiated with the inventor, Max Baermann, of West Cologne, Germany, this company becomes the sole producer in the Western Hemisphere for a new and ingenious product with numerous applications in the industrial, commercial and household manufacturing fields.—V. 188, p. 749.

General Waterworks Corp.—Units Receive Rate Rise—

Four companies in the General Waterworks Corp. system have obtained rate increases to provide an estimated \$225,000 in additional gross revenues annually, Howard Butcher, III, President, announced on Aug. 29.

Close to \$200,000 of the additional revenues is expected to come as a result of a 40% rate increase effective in September by the Citizens Water-Supply Co. of Newtown, Long Island, N. Y. The other rate increases were obtained by three small subsidiaries in Pennsylvania.

Mr. Butcher said applications for rate increases now being processed by General in seven states total approximately \$400,000 in additional gross revenues.

For the 12 months ended June 30, 1958 net income amounted to \$1,478,113, equal after preferred dividends, to \$1.27 a share on an average of 930,105 common shares outstanding. This compares with \$1,215,151 in the 12 months ended June 30, 1957, equal after preferred dividends to \$1.16 a share on an average of 824,897 common shares then outstanding. The 12-month figures include profits on sale of property of \$246,619 and \$139,002 respectively.

Earnings throughout the first half of 1958 were adversely affected by the unusually wet weather that prevailed throughout most of the system's operating territory. Utility net income per share amounted to 24c versus 37c in the first half of 1957.—V. 188, p. 246.

(B. F.) Goodrich Co.—Unit Has New President—

Election of Ira G. Needles as Chairman of the Board of B. F. Goodrich Canada Ltd. was announced on Aug. 21.

Mr. Needles, with B. F. Goodrich Canada since 1925, has been President since July, 1951.

Concurrent with the announcement of his election as Chairman, Mr. Needles announced that the board of directors had elected Robert V. Yohe as President and Chief Executive Officer of B. F. Goodrich Canada, effective Oct. 1, 1958.

Mr. Yohe, now Sales Vice-President of B. F. Goodrich Industrial Products Co., a division, has been with the company since 1931.

To Build Plant in South America—

Organization of a new company to be known as B. F. Goodrich do Brasil, and plans to build a plant in Campinas, Brazil were announced on Aug. 26 by W. C. Gulick, President of International, B. F. Goodrich Co.

Construction of the plant, which will manufacture tires, tubes, plastics, and industrial rubber products for the automotive industry and for the replacement market, will be started immediately, with first production anticipated late in 1959, Mr. Gulick said.

B. F. Goodrich is now associated with Latin American rubber manufacturing and chemical companies in Colombia, Cuba, Brazil, Mexico, and Peru.

Survey of the site, a 135-acre tract in the state of Sao Paulo, was made by the Austin Co. of Cleveland, and preliminary engineering and designs are being prepared by Christiani-Nielsen Co.—V. 188, p. 649.

Grace Line, Inc.—Offering Expected Late September—

This corporation, a subsidiary of W. R. Grace & Co., which has been planning an \$18,000,000 public issue of government insured ship mortgage bonds still expects to go ahead with its offering, an official said on Aug. 29. It plans to offer \$9,000,000 of the bonds in late September.

The initial issue had been set for June but it has been delayed because of problems in working out technicalities, a spokesman said.—V. 188, p. 444.

Gregory Industries, Inc.—Shipments Up—Profits Off

This corporation on Sept. 3 reported net earnings for the three months ended July 31, 1958 of \$82,760, including net income of its recently acquired Chicago subsidiary, Poliss Manufacturing Co. This is equivalent to 20 cents per share on 312,016 shares presently outstanding and compares with earnings of \$63,193 during the same period last year, or 27 cents per share based on an equivalent number of shares.

While shipments for the first quarter, including Poliss sales, totaled \$1,500,773, as compared with \$1,469,963 during the same period last year, George E. Gregory, President, said profits were adversely affected by a temporary less favorable product mix and higher costs.—V. 188, p. 349.

Gulf Oil Corp.—Establishes Crude Oil Department—

Formation of a Crude Oil Department, effective Sept. 1, has been announced by this corporation. The new department will be responsible for all sales, purchases and exchanges of crude oil for the company outside of the United States.—V. 188, p. 445.

Gulf States Land & Industries, Inc.—To Redeem Bonds

The corporation has called for redemption on Oct. 1, 1958, all of its outstanding first mortgage sinking fund 6% bonds due Oct. 1, 1972 at par plus accrued interest. Payment will be made at The National Bank of Commerce, New Orleans, La.—V. 187, p. 45.

Gulf States Life Insurance Co., Birmingham, Ala.—Files With Securities and Exchange Commission—

The company on Aug. 20 filed a letter of notification with the SEC covering 38,909 shares of common stock (par \$1) to be offered at \$3.30 per share, through Gulf States Underwriters, Inc., Birmingham, Ala. The proceeds are to go to a selling stockholder.—V. 186, p. 2049.

Gulton Industries, Inc.—Publishes Technical Brochure

Publication of a technical brochure on gauge, absolute and differential pressure measurements, was announced by this corporation on Aug. 26.

Entitled "Glennite Strain-Gauge Pressure Transducers," the brochure describes the performance, application, mechanical and electrical specifications, compatibility in installations and instructions for ordering the

instruments. Also included are circuit diagrams, a typical installation and a basic explanation of the operation of the equipment.

Applications for the use of Glennite Pressure Transducers include aerodynamic loading, environmental pressure measurement and control systems, and the instruments can be used with galvanometer and tape recording systems, telemetry and analog-to-digital data handling systems.—V. 188, p. 649.

Haloid Xerox, Inc.—Plans Financing—

The stockholders at a special meeting on Oct. 2 will vote on the issuance of 50,000 shares of 5 1/4% cumulative preferred stock, \$100 par value, of which 20,000 shares would be sold immediately to institutional investors. The company also plans to sell to institutional investors \$2,000,000 of 4 1/4% sinking fund notes, due March 1, 1979.—V. 188, p. 445.

(E. F.) Hauserman Co.—Introduces "Packaged" Offices

Business management can now order ready-to-use "packaged" offices, completely equipped with both walls and furniture. This new development has been made possible by a cooperative merchandising agreement recently concluded by this company and the Remington Rand Division of Sperry Rand Corp.

Under this plan it will be possible to order furniture components from Remington Rand's new Aristocrat Modular furniture line, and movable partitions of precision steel and glass construction from Hauserman's new Divider Wall system.

The Aristocrat Modular furniture line can be assembled in a nearly unlimited variety of work units. The matched component line includes desks with end-panels, tables, credenzas, tops, file and storage cabinets.

The Hauserman Divider Wall system integrates perfectly with the new furniture line. It makes possible the creation of semi-private offices, while maintaining an open airy feeling throughout the entire office area. Changing office space requirements are easily accommodated by relocating the partitions, which may be done simply and efficiently in a matter of minutes.—V. 187, p. 2226.

Hecla Mining Co.—Proposed Merger—

See Polaris Mining Co. below.—V. 182, p. 2790.

Heyden Newport Chemical Corp.—Awarded Patent—

A patent for a new group of herbicidal compounds, expected to have world-wide significance in weed control, has been granted to this corporation, it was announced on Sept. 4.

Two-year tests, conducted in more than a dozen U. S. states show that the unique compounds, described in U. S. patent No. 2,848,470, offer a new approach to reclaiming certain land areas over-run with weeds previously uncontrollable.

The compounds are identified as trichlorobenzolic acid isomer mixtures, containing the 2, 3, 6-isomer of the acid. Their potency, the patent notes, can be attributed to a mechanism known as synergism: the total effect of the mixed isomers is greater than the sum effects of the 2, 3, 6-isomer, and the other isomers taken individually.

The particular significance of this, according to the patent, is that the other isomers in the mixtures do not individually have herbicidal activity comparable with the 2, 3, 6-isomer.—V. 187, p. 1314.

Hilo Electric Light Co., Ltd. (Hawaii)—Private Place-

ment—It was announced on Sept. 3 that the company has arranged to place privately, through Kidder, Peabody & Co. Inc., \$2,000,000 of 5% first mortgage bonds, series F, due July 1, 1988.—V. 185, p. 1387.

Hilton Hotels Corp. — To Seek to Adopt Worldwide

Credit Card—

This corporation is considering the adoption of a plan under which Hilton Hotels and other businesses catering to the travelers will combine forces to provide a new universal credit card service for millions of domestic and worldwide travelers, it was announced on Sept. 2 by Conrad N. Hilton, President.

If current research so indicates, the company will recommend to its directors the adoption of a worldwide credit card that will include many services outside those now available in the 33 Hilton Hotels.

The proposed plan would provide the one million Hilton travelers credit with transportation services, restaurants, stores, other leading hotels, car rental agencies, oil companies and other businesses serving travelers. It would have a worldwide scope. Hilton already operates seven hotels outside the continental limits of the United States, with another six to open during the next two years.

The plan would not require any fee from the one million Hilton card holders as long as they use it only for Hilton Hotel services. However, should they wish to utilize non-Hilton services a nominal annual fee would be charged.

Mr. Hilton estimates that the new card would represent \$100 million worth of credit charges during 1959 if the plan is adopted. He pointed out that a noteworthy feature of the new service would be the improved speed and accuracy with which charge accounts would be processed. This would mean better service to the credit card user and less cost to the co-operating associates. The actual cost or discount rate to associates honoring the card would be less than the rates of any of the present major credit systems, he stated.

In outlining some of the details of the plan, Mr. Hilton said, "The discount rate to associates would be just high enough to cover costs. We would not expect to make any profit from discounting charge sales. Not only would the discount rate be much lower than present systems, but retail and service companies connected with our plan would be able to get payment for their charge slips within ten days and possibly sooner than that." It is customary for retailers to wait 30 to 45 days for payment under most of today's plans.—V. 188, p. 445.

Hoffman Electronics Corp.—New Development—

Solar energy converters capable of delivering up to 2,000 watts are now feasible as power supply sources for space stations and satellites, it was announced on Aug. 22.

James D. McLean, President of Hoffman Laboratories Division, said such converters, utilizing silicon solar cells, offer man the best solution to date to the problem of generating continuous power in outer space.

The use of solar cells, the most practical means yet developed for converting light energy directly into electricity, was dramatically demonstrated in the Hoffman exhibit at the Western Electronic Show and Convention which closed at Los Angeles, Calif., on Aug. 22. The exhibit showed a model of a space satellite in which a bank of solar cells operated a miniature radio transmitter.

Already in use in the Navy's Vanguard satellite, the silicon solar cells are tiny wafers of highly purified silicon containing minute quantities of arsenic and diffused with boron. By means of these cells, Mr. McLean explained, it is possible to convert up to 10% of the light energy falling on a given area into usable electrical power.

To achieve the 2,000-watt output proposed it will be necessary to expose some 20 square yards of solar cell area to the sun. In their application in the 6.4-inch Vanguard, six clusters of 18 solar cells each are distributed over the satellite's skin to supply its radio voice with approximately 50 milliwatts (0.05 watt) of power.

Several years of research on solar energy converters at Hoffman Laboratories and at the Hoffman Semiconductor Division, in Evanston, Ill., where the cells are made, indicate that such a high-power converter can be developed, Mr. McLean said.

Simplified Approach to the Design of Digital Logic—

Development of a new, simple approach to the design of digital logic, called the "Magnalog System," has been announced by the corporation's Semiconductor Division.

The unique new logic system frees the designer from circuitry involvement and enables him to concentrate his attention on logic programming, Maurice E. Paradise, Executive Vice-President of the division, pointed out.—V. 188, p. 546.

Holt, Renfrew & Co., Ltd.—To Redeem Bonds—

The corporation has called for redemption on Oct. 1, 1958, all of its outstanding first mortgage 5% bonds due June 1, 1974 at 104% and accrued interest. Payment will be made at any branch in Canada of the Royal Bank of Canada.—V. 187, p. 2002.

Honolulu Construction & Draying Co.—Private Place-

ment—It was announced on Sept. 3 that this company has arranged to place privately, through Kidder, Peabody & Co. Inc., an issue of \$1,000,000 5 1/2% notes due May 15, 1973.

Hooker Chemical Corp.—New President of Unit—

The directors of Hooker Chemicals Ltd., North Vancouver, B. C., Canada, have elected Thomas E. Moffitt as its President; F. Leonard Bryant and Horace W. Hooker Jr., Vice-Presidents; Thomas F. Willers, Treasurer; and Ansley Wilcox, 2d, Secretary.

Hooker Chemicals Ltd. produces chlorine and caustic soda at a new \$12,000,000 plant in North Vancouver, the only such plant west of the Canadian Rockies.—V. 188, p. 49.

Hotel Corp. of America—Leases Virginia Hotel—

This corporation has signed a long-term lease on a 234-room motor hotel in Alexandria, Va., to be operated as one of its Charterhouse units, according to an announcement by Roger P. Sonnabend (Vice-President), Sheldon Magazine (Secretary of Bren Mar Motor Hotel Co., Inc., the owning company) and A. Sam Gittlin (Vice-President of the Republic Funding Corp.).

The \$3,500,000 motor hotel is located on the Shirley Highway approximately seven miles south of Washington, D. C., at the point where the Washington circumferential highway is planned to intersect the main north-south route. This latest addition to HCA's Charterhouse group presently is under construction and is planned to be ready for opening about Oct. 1. See also V. 188, p. 750.

House of the Good Shepherd (Detroit, Mich.)—Partial

Redemption—

There were recently called for redemption on Sept. 1, last, \$40,000 of its first mortgage serial bonds dated Feb. 1, 1949 at 100%. Payment is being made at the First National Bank, West Bend, Wis.—V. 169, p. 1114; V. 156, p. 342.

Total assets of the Fund on July 31, 1958 were \$26,903,772, an increase of 46% over the total assets of \$18,418,332 on July 31 a year ago.—V. 188, p. 546.

Indiana & Michigan Electric Co. — New Financing

It was announced by the company on Aug. 26 that it plans early registration of \$20,000,000 first mortgage bonds due 1988. Bids are expected to be received by the company up to 11 a.m. (EST) on Nov. 6.

The net proceeds are to be used to retire bank loans.—V. 188, p. 750.

Industrial Plywood Co., Inc.—Opens New Plant—

Bernard Hewitt, Chairman, on Aug. 27 announced the opening of this firm's new modern, fully-automated, only "non-captive" pre-finishing plant in the country.

The new plant, Plywood Finishing Co., a wholly owned subsidiary, Mr. Hewitt stated, was designed and built with a capacity far in excess of Industrial's needs and is available to all other plywood producers and distributors in the area from Maine to Virginia and as far west as Chicago.

Mr. Hewitt has received indications that competitors in this area, such as Georgia Pacific Corp., United States Plywood Corp. and General Plywood Corp., will make good use of this only "non-captive" pre-finishing plant in the country today. The previous non-captive plant, owned by the Welsh Plywood Corp., was acquired by E. I. Bruce Co., late in August.

The subsidiary's new specially-engineered fully automated finishing line which Industrial Plywood helped design, turns out pre-finished plywood wall panels at the rate of 5,000 a day.

Mr. Hewitt explained that wall panels are fed into the line in rough form and come out four minutes later—smoothed, grooved, coated and waxed, ready for use.

Industrial Plywood distributes and pre-finishes plywood products running the gamut from wall panels for dens and recreation rooms to concrete forms for the building industry. It imports plywood in the raw state from the Philippines, northern Europe, Canada and Japan.—V. 184, p. 1477.

International Harvester Co.—Plans to Spur New Trac-

tor Line Sales—

The company on Aug. 19 announced it will stage approximately 230 shortened versions of its "New World of Power" show, just presented to about 12,000 U. S., Canadian and foreign dealers, agricultural college educators and special guests at its experimental farm in Hinsdale, Ill.

Following these scheduled presentations, the company's 5,000 U. S. dealers plan to stage individual demonstrations for their respective customers in their local areas.

During the Hinsdale show, acclaimed by Mark V. Keeler, Vice-President in charge of the company's Farm Equipment Group, to be the largest farm equipment show ever held by any manufacturer in the history of the farm equipment industry, the company presented its 1959 lines of farm and commercial wheel tractors and 48 new farm implements to its dealer organization, including 7,200 U. S. and over 1,000 Canadian dealers, and representatives of company subsidiaries and their distributors from 25 foreign countries, in a private showing during a special three-week period.

The company had spent more than \$22,000,000 for capital investment—and at least that much more again for engineering—to put the new lines of tractors and implements into production, Mr. Keeler pointed out, adding that more than 180 people paraded and demonstrated 250 Farmall and International tractors and 275 farm and commercial machines for the show's visitors. A 65-acre tract was used to display the vast array of machinery.—V. 188, p. 649.

International Power Securities Corp.—Hearing Sept. 22

On July 2, 1958, John J. Murphy, Trustee, filed his Final Report and Account in the U. S. District Court for the District of New Jersey and said Final Report and Account may be inspected at the office of the clerk of the above named court in the Post Office Building, Newark, New Jersey.

A hearing will be held on Sept. 22, 1958 before Hon. William F. Smith for the approval of said final Report and Account and the discharge of the trustee.

At said hearing the court will consider the following matters:

1. Application of Milton E. Mandel for the sum of \$1,500 for services rendered as accountant to the trustee.
2. Application of Banca Mobiliare Piemontese, the purchaser of subordinated Liquidation Trust shares under the Amended Plan of Reorganization to modify the provisions of Article VI, Section 11 of the Plan, (1) to reduce from 10 to five years from the date of the final decree, the period within which holders of bonds, preferred stock or other claims or interests shall surrender or release said bonds, claims or other interests in order to receive distributions provided by the plan, and after which they will lose all right to participate in any distribu-

tion under the plan or prior orders of the court; and (2) providing for the circularization of holders of bonds or preferred stock who have not yet surrendered the same once on or before Jan. 1, 1961 and again on or before July 1, 1962.

The trustee will further request, in accordance with the provisions of the plan, that funds remaining in his hands be distributed pro rata to the preferred stockholders of the debtor. The trustee presently holds the sum of \$13,285.68 before payment of the allowance to the accountants and other expenses incidental to the closing of the estate estimated not to exceed \$2,000.

At said hearing the objections of any creditor, stockholder or other party in interest may be heard.

The aforesaid hearing may be adjourned from time to time without any notice other than an announcement at such hearing or any hearing or any adjournment thereof.—V. 174, p. 1893.

Israel-Negev Petroleum Corp., Dover, Del.—Registers Proposed Stock Offering With SEC—

This corporation on Aug. 29 filed a registration statement with the SEC covering 750,000 shares of its 20c par capital stock. The stock is to be offered for public sale at \$1 per share; but the company may grant to purchasers of 100,000 or more shares a discount of 37½% from the offering price. The offering is to be made by H. Kook & Co., Inc., of New York, who will be entitled to receive a commission of 1% of the price received by the company. The underwriter has a firm commitment to sell sufficient shares to net the company the sum of \$125,000; and the balance of the shares will be offered on a best efforts basis. Peter H. Bergson-Kook, Board Chairman, is the principal stockholder of the underwriter.

Israel-Negev was organized under Delaware law in November, 1957, "to engage primarily in the business of exploring for, acquiring interests in, developing and operating oil and gas properties" in Israel. The company's executive offices in Israel are in Tel-Aviv. It now owns the outstanding stock of Universal Petroleum Corp., a Delaware corporation, which is said to hold title to four petroleum licenses covering some 350,000 acres in the Negev and Gali areas of Israel, which were originally granted by the Petroleum Commissioner of Israel to Gershon Gurvitz and Abraham Friedman, of Tel-Aviv, in January, 1958 and assigned to Universal in April. Mr. Gurvitz is President and a director and Mr. Friedman is Vice-President, Assistant Treasurer and a director of Israel-Negev. For these properties, Universal issued 700,000 shares of stock, 265,000 to Mr. Gurvitz, 135,000 to Mr. Friedman, and 300,000 to Mr. Bergson-Kook. The three individuals are said to have spent more than two years of effort in investigating, negotiating for and obtaining the licenses, in the course of which they incurred expenditures of \$40,000. Israel-Negev acquired the 700,000 shares of Universal stock in exchange for a like amount of its stock. In addition, it issued 100,000 shares to H. Kook & Co., Inc., in consideration for expenditures of \$20,609 made on behalf of Israel-Negev.

In addition to the four petroleum licenses, Universal has acquired the right to earn a 25% interest in the Hula license in the coastal plain of Israel Petroleum District II, covering some 98,592 acres, in consideration of the payment of \$100,000 towards the cost of drilling a test well now being drilled thereon. The license is jointly owned by Israel-Mediterranean Petroleum, Inc., and Pan-Israel Oil Co., Inc. The company also intends to conduct geological work in the areas of the four petroleum licenses.

Of the net proceeds of this financing, a portion will be used for the payment of Universal's share of the cost of drilling the test well on the Hula license, for geological mapping, surveys and other exploratory activities, and for acquisition and exploration of petroleum interests in other properties.

Jamaica Public Service Ltd., Montreal, Canada—Plans Stock Split—Continued Expansion—Financing Planned

A three-for-one split was voted on Aug. 28 by the directors of this Canadian parent of Jamaica Public Service Co., Ltd., the operating company. The split is subject to approval of shareholders at a special meeting called for Sept. 30, 1958.

Construction of a fourth 15,000 kilowatt steam unit at Hunts Bay plant in Kingston was announced by George W. MacDuff, President of the operating company. The unit is scheduled for completion in 1960. The third 15,000 kilowatt unit at Hunts Bay will go into operation this year and a 6,000 kilowatt hydro station at Maggoty Falls will be completed in 1959.

The primary purpose of the stock split is to "broaden interest in the capital stock, and more readily enable shareholders to increase or round out their holdings on future offerings," said Richard N. Benjamin, President of the parent company, in a letter to shareholders.

"This move is part of the plan to prepare for a \$7,280,000 (\$19,600,000) growth and expansion program through 1963," he said. Financing of this program "will include the sale of equity securities and approximately \$4,000,000 (\$10,750,000) of debt or other senior securities by the subsidiary in the next five years," Mr. Benjamin told shareholders.

In the letter the President also predicted "that the expansion of the Island's economic growth through 1963 will result in a doubling of kilowatt-hour sales."

The directors at the same meeting voted to continue the 4½% cents quarterly dividend payable Oct. 1, 1958 to shareholders of record Sept. 4, 1958 prior to the stock split.

Jefferson Chemical Co., Inc.—Technical Bulletin—

A 40-page technical bulletin on mono-, di-, tri- and tetra-ethylene glycol has just been published by this company. It presents a comprehensive review of the physical and chemical properties, and industrial uses of, ethylene glycol, diethylene glycol, triethylene glycol and tetraethylene glycol. This technical manual, available for general distribution, also provides information on methods of shipments, specifications and analytical techniques required for determining product quality, and includes an extensive indexed bibliography.

The glycols described in this bulletin find extensive uses as intermediates in the production of organic and inorganic esters, ethers, acids, and aldehydes. Characterized by their water solubility, hygroscopicity, moderate viscosity, and freezing point depression on water, the glycols find applications in the dehydration of natural gas, antifreeze and explosive formulations, resins, plastics, and plasticizers.

(S. C.) Johnson & Son Inc.—Buys Porelon Rights—

The corporation on Sept. 3 announced that it had purchased patent rights of Porelon, a new synthetic material which the company said has "abundant product possibilities."

S. C. Johnson, Service Products Division Vice-President, said the patents were acquired when the corporation recently purchased the Perma Stamp Corp. as another step in its program of diversification. The Johnson Company manufactures wax and other household, commercial maintenance, industrial and agricultural products.

Mr. Johnson said the company is investigating the possibilities Porelon offers for new developments in the company's present lines, and also is offering to license other manufacturers who might use Porelon in the development of new products.—V. 188, p. 546.

Kaiser Industries Corp.—Division Awarded Contract—

A prime contract to provide the first airborne unit of the Kaiser Electronic Contact Analog Display has been awarded to the West Coast Electronics Laboratory of Kaiser Aircraft & Electronics, Palo Alto, Calif., by the Naval Air Development Center at Johnsville, Pa.

The system, developed at this laboratory as a proprietary item, furnishes pilots with a single integrated display of flight orientation information. The display is an analogy of the real world, and shows

the basic information needed for flight control—forward, vertical and lateral motion and the attitude of the aircraft in relation to the earth and sky—as well as other vital details.—V. 188, p. 650.

Kerr-McGee Oil Industries, Inc.—To Reduce Refinery Runs by 10%—

An immediate 10% cut in refinery runs—which already were below capacity—has been announced by this company. The move is being made in recognition of the current inventory situation in the industry. The company has been and will continue to maximize production of distillate fuels.—V. 188, p. 247.

Keystone Custodian Funds, Inc.—Statement Withdrawn

The registration statement filed with the SEC on Aug. 7 covering 1,250,000 shares of capital stock of Keystone Tax Exempt Bond Fund, has been withdrawn. See also.—V. 188, p. 650.

Kinsman Manufacturing Co., Inc., Laconia, N. H.—Files With Securities and Exchange Commission—

The corporation on Aug. 25 filed a letter of notification with the SEC covering 1,452 shares of common stock (no par) to be offered at \$100 per share, without underwriting. The proceeds are to be used to pay off short-term obligations and improve working capital.

(E. J.) Korvette, Inc.—Opens New Super-Market—

This corporation on Aug. 28 opened a supermarket in its Brooklyn, N. Y., store which is the largest department store supermarket in Brooklyn, William Willensky, President, announced.—V. 188, p. 650.

Laughlin Alloy Steel Co., Inc., Las Vegas, Nev.—Registers Financing Proposal With SEC—

This company filed a registration statement with the SEC on Aug. 28, 1958, covering \$500,000 of 6% subordinated callable debentures due June 30, 1968, and 180,000 shares of 10c par common stock. The company proposes to offer the debentures and 150,000 common shares for public sale in units, each unit to consist of a \$100 debenture and 30 common shares. The units will be offered for sale at \$100 per unit. The offering is to be made on a best efforts basis by Sam Watson Co., Inc., of Little Rock, Ark., for which it will receive a selling commission of 15% plus \$2,000 for expenses, together with a bonus of 30,000 common shares (pro rata as the units may be sold).

The company was organized in October, 1957 "primarily to set up a custom foundry and to engage in the production of a variety of iron, carbon steel, alloy steel and stainless steel cast products for sale principally in the West Coast area." It has a contract to purchase the South San Francisco foundry plant from the American Brake Shoe Company, together with all equipment, supplies and an inventory, for \$255,000—\$80,000 in cash (for which notes have been given) plus a \$175,000 first mortgage.

Net proceeds of this financing, together with the \$175,000 mortgage loan of the American Brake Shoe Co., will be used in acquiring the South San Francisco plant and augmenting its present facilities by the addition of an electric melting furnace and other equipment to expand and diversify plant output, for interim and starting-up expenses, and sales promotion, as well as working capital and general corporate purposes. The proposed plant expansion will include the installation of an electric melting and refining furnace and auxiliary equipment acquired in exchange for stock.

The promoters of the company include James N. Laughlin, of Blairdsen, Calif., who owns all of the 300,000 outstanding shares issued by the company in exchange for the electric furnace.—V. 188, p. 547.

LeTourneau Asbestos, Inc., Dover, Del. — Files With Securities and Exchange Commission—

The company on Aug. 25 filed a letter of notification with the SEC covering 100,000 shares of common stock (par \$1) to be offered at \$2.30 per share, without underwriting. The proceeds are to be used for expenses incidental to mining operations.

Lewyt Corp.—Introduces New Vacuum Cleaner—

Alex Lewyt, President, predicted on Aug. 25 that the company would enjoy the best sales record in its ten-year history with the introduction of its new electronic vacuum cleaner to consumers in September.

Mr. Lewyt said orders from distributors at regional meetings have shattered orders taken in 1954, a peak year when Lewyt produced the first vacuum cleaner on big wheels.

"We have orders for a little more than 100,000 units," Mr. Lewyt said. "This indicates that we will top every previous year in sales during the next 12 months."

He said the new cleaner is so far ahead in design and performance that it may take years for competition to catch up.—V. 187, p. 232A.

(Eli) Lilly & Co.—Forms Export Subsidiary—

This company has formed a new export subsidiary, Eli Lilly (Australia) Pty. Ltd., and has acquired a five-acre tract in Sydney as the site for a manufacturing plant.

The new plant will concentrate largely on the production of tablets and capsules.

Since 1924 Lilly products have been available in Australia through an Australian distributor. Lilly sales representatives have been located in the country since 1928.

A firm of Australian architects is drawing up plans for the 30,000-square-foot building, which is expected to cost approximately \$400,000. Construction will begin later this year, and manufacturing operations will start in 1959.—V. 188, p. 148.

Link-Belt Co.—Awarded Large Contract—

A contract for the longest permanent cross-country transport belt conveying system ever constructed, 5½ miles in length, was awarded to this company by Ideal Cement Co. of Denver, Colo., it was announced on Sept. 2.

This unique "rubber railroad," using 36-inch wide belts, will transport crushed limestone and shale, the raw materials for cement, at a rate of 1,000 tons per hour, from Ideal's Lawrence, Okla., quarry to its Ada, Okla., cement mill. Construction of the all-weather conveyor has begun and completion is scheduled for early 1959.

The entire multi-million dollar system comprises seven conveyors arranged consecutively to provide continuous flow of material. The length of the longest individual conveyor will be 11,920 feet, the longest in the world today, according to Link-Belt. This conveyor will require a single rubber belt more than 4½ miles long.

The belt conveyor is a part of Ideal's \$22,000,000 expansion program at its Ada plant which will have a capacity of more than 3,000,000 barrels of cement annually. The Ada, Okla., expansion is a part of Ideal's \$170,000,000 company-wide expansion program which is designed to increase Ideal's productive capacity to 40,000,000 barrels annually by 1965. Ideal Cement Company is the largest independent cement producer operating solely within the United States and has 15 plants in 12 states from the Gulf of Mexico to the Pacific Northwest.—V. 188, p. 650.

Little Harbor Club, Harbor Springs, Mich.—Files With Securities and Exchange Commission—

The Club on Aug. 25 filed a letter of notification with the SEC covering \$30,000 of 4% unsecured promissory notes, membership series, to be offered at par in denominations of \$100 or multiples thereof and to be repaid in five equal installments. No underwriting is involved. The proceeds are to be used for working capital.

Lockheed Aircraft Corp. — "Electra" Transport Certificated by Civil Aeronautics Administration—

The corporation announced on Aug. 26 that its new Electra transport—bringing seven-mile-a-minute jet-age flight to both the mainstreams

and tributaries of world trade and travel—stands fully certificated by the Civil Aeronautics Administration as ready to begin airline service.

Receipt of the CAA "ticket of approval" culminated a 3½-year, \$50,000,000 development project to prepare the prop-jet Electra for world-wide operation. Fifteen world airlines and one corporate customer have ordered 161 of the new transports.

Of all the new turbine-powered transports due soon to revolutionize public air transportation, the Electra is the first four-engine airliner of American design and construction to be certified by the CAA.

The Electra climaxed its certification program, completed Aug. 22, in a 150-hour marathon in the sky between July 31 and Aug. 15. The new plane flew as much as 19 hours and 21 minutes in a single day in passing its "function and reliability" tests.—V. 188, p. 750.

Lord Elgin Hotel Co. (N. Y.)—Offering—Tenney Associates, Inc., of New York City on Aug. 29 offered publicly \$1,655,000 limited partnership interests in units of \$5,000 each.

The company is a limited partnership organized in July 1958 in New York, with Louis S. Adler, Alexander M. Feld and Jonas Newman as its general partners and Charles N. Bernstein as a limited partner.

The partnership proposes to purchase from Lord Elgin Hotel Ltd. the 366 room hotel building known as the Lord Elgin Hotel, located in Ottawa, Canada, together with all furniture, furnishings and equipment therein, the ground lease granted by the Canadian Government covering the land on which the hotel is erected (this lease runs until 2039 at an annual ground rental of \$5,001—Canadian funds) and fee title to the land contiguous thereto, a portion of which is improved with a commercial structure known as the Copacabana Building and remaining portion of which is a parking area. In lieu of assignment of the existing ground lease, a new ground lease on the same terms may be granted.

All of the outstanding stock of Lord Elgin Hotel Ltd. has been deposited in escrow pursuant to an offer of purchase by Commonwealth Investments Inc. and upon consummation of the transactions contemplated hereby will have been acquired by Commonwealth. The stockholders of Commonwealth are Jerry M. Tenney, Ira J. Hechler and Robert K. Linton, who are also the stockholders of Tenney Associates, Inc., the underwriter, recently organized for the purpose of distributing the limited partnership interests now being offered. Although the underwriter has not previously been engaged in the securities business, it may hereafter continue such activities in other transactions.

The purchase price to be paid by the partnership to Lord Elgin Hotel Ltd. is \$4,735,000 in Canadian and U. S. funds as follows: \$720,000—Canadian funds, and \$1,570,000—U. S. funds in cash and the balance of \$2,445,000—Canadian funds being represented by existing mortgages on the hotel property of \$845,000 Canadian funds and a new 25 year purchase money second mortgage trust deed (hereinafter called "second mortgage") of \$1,600,000—Canadian funds. At the closing, the existing mortgages of \$845,000—Canadian funds will be replaced by a new 25-year self-liquidating first mortgage of \$1,600,000—Canadian funds. Of the income of \$755,000—Canadian funds resulting from this refinancing, \$720,000—Canadian funds will be used to cover the cash in Canadian funds payable as part of the purchase price and the remaining \$35,000—Canadian funds will be available for prepayment charges, brokerage commission and other expenses in connection with the refinancing of such existing mortgages. If at the time of closing the existing mortgages have been paid down to an amount smaller than that stated, the cash payment in Canadian funds for the purchase will be increased to that extent but the cash resulting from the refinancing will be correspondingly increased.

The partnership will have a total capitalization of \$1,720,000. Each of the three general partners of the partnership will contribute \$10,000 in cash to the capital of the partnership. They have already contributed to the partnership other property consisting of their undivided interest in the purchase contract (which they acquired for no cash consideration) under which the properties will be acquired by the partnership, for which they have received partnership interests aggregating \$30,000. The initial limited partner has contributed \$5,000 in cash. It is proposed that additional partner will contribute to the partnership, pursuant to this offering, who will contribute the aggregate amount of \$1,655,000. Thus, upon completion of the offering, the partnership capital will be \$1,690,000 which will be employed as follows: \$1,570,000 to the purchase price under the purchase contract; \$37,250 for expenses incidental to the formation of the partnership, to the acquisition of the property and to this offering, the underwriter having guaranteed to assume such expenses as may exceed the amount stated; and \$82,750 to pay the underwriting fee.

Title to the properties being acquired will be held by the partnership directly or in the name of a nominee, Lord Elgin Hotel Ltd. will take back a net lease on the property for 81 years. Should the ground lease be renewed by the Canadian Government, the lessee will be entitled to renew for a comparable period. At the election of Commonwealth, the net lease may be issued to such corporation rather than Lord Elgin Hotel Ltd. The property will be managed for the lessee by National Management Ltd. pursuant to a ten year contract. The principals of this company have managed the hotel property since its construction in 1941.

Such net lease provides that the lessee will pay a net annual rental to the partnership of \$225,000 in equal monthly installments commencing 30 days after title closing, as well as an amount sufficient to meet all interest and amortization payments on the first and second mortgages. It will also pay the ground rent to the Crown and all operating expenses and maintenance costs, including real estate taxes and insurance.—V. 188, p. 446.

Mack Trucks, Inc.—To Discontinue Electronics Equipment Line—

The corporation on Aug. 29 announced it will discontinue manufacturing electronics equipment, effective Aug. 31.

The company has operated small electronics units in Plainfield, N. J., and in Boston, Mass., for the past three years.—V. 188, p. 446.

Marquardt Aircraft Co.—To Develop Ion-Electrical Propulsion Systems—

This company on Aug. 28 announced formalization of an agreement with Applied Radiation Corp. ("ARCO"), Walnut Creek, Calif., for joint efforts in developing the field of ion and other electrical propulsion for space flight applications.

Marquardt's growing ASTRO division, which will work with ARCO on electrical propulsion systems, already has underway several programs on propulsion systems for satellite-boost and other hypersonic applications, and is a major contractor on Project Pluto, the Joint Air Force-Atomic Energy Commission program on nuclear ramjet engine development.

ARCO, founded in 1953, is recognized as one of the foremost developers and manufacturers of high-current, linear, positive ion and electron accelerators. Many of the design principles already successfully demonstrated in ARCO accelerators are directly applicable to the needs of space propulsion systems.

See American Machine & Foundry Co. above.—V. 188, p. 894.

Mastex Oil Corp., Holyoke, Mass.—Offering Suspended

The SEC, it was announced on Aug. 29, has issued an order temporarily suspending a Regulation A exemption from registration under the Securities Act with respect to a stock offering by this

corporation. The order provides an opportunity for hearing, upon request, on the question whether the suspension should be vacated or made permanent.

In its Regulation A notification, filed March 1, 1957, Mastex Oil proposed the public offering of 9,500 shares of its common capital stock at \$15 per share. According to the Commission's suspension order, by virtue of a specific provision of Regulation A the exemption from registration is not available for such offering for the reason that John J. Broderick, President, director and promoter of Mastex Oil, was permanently enjoined on June 24, 1956, by the Supreme Court, New York County, N. Y., from engaging in securities transactions within the State of New York.—V. 185, p. 1388.

Matachewan Consolidated Mines Ltd. (Canada)—New Developments — E. R. E. Carter, Vice-President, on August 12, said:

Since May the following transactions have been effected by this company:

(1) The plant, buildings and equipment at the company's Matachewan, Ontario property, which ceased operations in 1953, were sold. The mining leases, however, will be maintained in good standing and reviewed from time to time.

(2) Following the recent copper discovery of New Hosco Mines Ltd. in the Mattagami area of Quebec, where a major base metal deposit was discovered by the Mattagami Syndicate and is under option to Noranda Mines Ltd. and its associates, 59 mining claims located approximately two miles west of the New Hosco property were acquired by the Matachewan company.

To acquire these mining claims at the least expense to the company, certain principal shareholders, without compensation, delivered to the vendor 150,000 issued shares of the company owned by them. In addition, the company paid \$35,000 to the vendor and granted an option to purchase 175,000 treasury shares of the company at 27½ cents per share exercisable within six months.

(3) The company has acquired 11 Exploratory Licenses of Occupation in Lake Erie, Ontario, south of Dunwich, Aldborough, Howard and Oxford Townships. The directors are considering plans for the most practical exploration of these licenses and are considering other participations in the area.

Presently the company's liquid assets comprise approximately \$190,000, which is sufficient for the preliminary development work on the company's new holdings.—V. 170, p. 984.

May Department Stores Co.—Two New Stores—

In Cleveland, a new Taylor's department store was opened in the three-year-old Southgate Shopping Center on Aug. 1. The store, with three stories and 200,000 square feet, is constructed of steel with stone-work exterior.

The Southgate center now has 80 business establishments with a total of 1,000,000 square feet and a parking lot for about 6,000 cars. The new May-D&F department store in the Court House Square project in downtown Denver was opened on Aug. 4. It represents the merger of two leading downtown stores, the May Company and Daniels & Fisher Stores Co., both of which have served the Denver community for more than 80 years.

The new store, combining the two names, occupies 420,000 square feet in a unique downtown development under construction by Webb & Knapp, Inc. In addition to the department store, the project will include a 21-story hotel, underground parking, and a plaza area with an ice-skating rink.

In addition to the new downtown store, other stores in the Denver area that will bear the May-D&F name will be the branch in the University Hills Shopping Center, the store in Colorado Springs, and a planned suburban store in Denver's Westland Shopping Center.—V. 183, p. 50.

Maytag Co.—Enters Coin-Operated Equipment Field—

Gerald Ankeny, General Sales Manager, says Maytag will seek to penetrate the total market for coin-operated laundry equipment from three directions:

(1) The coin-operated laundry store; (2) The coin-route operation; and (3) coin-metered equipment installations in institutions, such as schools, motels, resorts, apartments, hospitals and trailer courts.

The largest market of the three, according to Maytag studies, is the coin-operated laundry store.

The Maytag "laundry store" package and other coin-operated commercial plans will be sold through independent distributors, according to marketing plans revealed by Mr. Ankeny. The distribution line-up is expected to be complete by early fall.

Maytag distributors will sell the "total concept of coin-operated stores." Besides Maytag washers, the package will include other necessary equipment, plus technical guidance on selecting best location, store layout design, lighting requirements, instructional signs and plans for opening day promotions.

The second major coin market Maytag will go after is the coin route operation, an entirely different retailing method which brings the laundry right to the customer.

Maytag's commercial distributor organization will offer the company's coin-operated commercial washers and dryers to this market.

The third market to be penetrated by Maytag is sales to owners of motels, trailer courts, fraternities and sororities, small apartment houses, and other such establishments.—V. 183, p. 894.

Meter Advertising Co., Yakima, Wash. — Files With Securities and Exchange Commission—

The company on Aug. 26 filed a letter of notification with the SEC covering 10,000 shares of common stock to be offered at par (\$5 per share), without underwriting. The proceeds are to be used for expenses incidental to the development of an advertising business.—V. 182, p. 415.

Mid-Columbia Development Corp., Dallas, Ore.—Files With Securities and Exchange Commission—

The corporation on Aug. 26 filed a letter of notification with the SEC covering 30,000 shares of common stock to be offered at par (\$10 per share), without underwriting. The proceeds are to be used to purchase and develop industrial and commercial sites.

Milwaukee Gas Light Co.—Bank Borrowings Cleared

The SEC on Aug. 29 announced the issuance of a decision authorizing this company to issue up to \$15,000,000 of unsecured notes to banks.

The company proposes to use \$3,000,000 of the borrowed funds to retire a like amount of outstanding bank notes and to apply the remainder to its construction program in 1958 and the first part of 1959. It is contemplated that the new bank notes will be paid in 1959 with the proceeds of permanent financing which would also provide additional funds for construction. The permanent financing would consist of the public offering of \$13,000,000 of bonds and the sale of an additional \$7,000,000 of common stock to American Natural Gas Co., parent. The company estimates it will require for its construction program \$9,116,200 in 1958 and \$11,375,000 in 1959. The permanent financing will be subject to the Commission's approval.

In approving the bank borrowings, the Commission called attention to its concern as to the ratio of total debt of the American Natural system to system capitalization which will arise in 1959 upon the issuance by Milwaukee Gas and other system companies of short-term debt as proposed, and stated that American Natural should plan to sell additional common stock as early in 1959 as practicable to improve this debt ratio.—V. 188, p. 149.

Minerals Consolidated, Inc., Salt Lake City, Utah—Registers With Securities and Exchange Commission—

The company filed a registration statement with the SEC on Aug. 29, 1958, covering 1,000,000 units, each consisting of one share of 10¢ par common stock and two warrants to purchase one common share. The units are to be offered for public sale at \$1 per unit. No underwriting is involved. The registration statement also covers an additional 100,000 common shares issued to certain of the promoters.

The company was organized in August, 1957. It intends to develop oil and gas properties which it has acquired and now owns and to acquire, explore and develop additional properties, both for oil and gas and for other minerals.

Net proceeds of the company's financing, estimated at \$800,000 assuming all units are sold, will be \$800,000. Of this, \$150,000 is to be allotted to the drilling of one well on the "Gusher Field" properties near Vernal, Utah; and the balance will be used for additional drilling, exploration, development, and other purposes, including general corporate purposes.

Promoters and officers of the company include Stanley G. Bendorf, President, Reid S. Melville, Vice-President, Robert L. Holt, Secretary-Treasurer, Rudger L. Barson, Vice-President, and Aaron V. Barson. The latter four hold 1,686,380 shares, or 56% of the 3,000,000 outstanding shares issued for properties. The 100,000 common shares above referred to were issued to Caldwell & Covington, a Vernal partnership, for their interest in certain properties.

Minnesota Mining & Manufacturing Co.—Patent Litigation—

This company has filed suit charging Polychrome Corp., Yonkers, N. Y., with infringing 3M's patent on presensitized metal lithographic plates.

The suit, filed in U. S. District Court of Chicago, also names as defendants the Manager of Polychrome's Chicago branch office and two of the firm's Chicago sales representatives.

Infringement suits based upon the same patent have also been filed in U. S. District Court at Wichita, Kans., against Bewal, Inc., Wichita, a Polychrome dealer, and in U. S. District Court at Cleveland, Ohio, against Carpenter Printing Co., Cleveland, a user of Polychrome lithographic plates.

3M seeks damages and an injunction prohibiting the defendants from further infringing the patent.

The first presensitized metal lithographic plates ever marketed were introduced commercially by 3M in 1950. They are covered by U. S. Patent No. 2,714,066.—V. 187, p. 1896.

Missile Oil Corp., Los Angeles, Calif.—Hearing Cancelled—Suspension Becomes Permanent—

The Securities and Exchange Commission announced on Aug. 29 that, following withdrawal by this corporation, of its request for a hearing, the Commission has cancelled the Sept. 4, 1958, hearing in its San Francisco Regional Office upon the question whether to vacate, or make permanent, an earlier order of the Commission temporarily suspending a Regulation A exemption from registration under the Securities Act of 1933 with respect to a public offering by Missile Oil of 300,000 shares of common stock at \$1 per share.

In its suspension order, the Commission asserted among other things that the company's offering circular contained false and misleading representations of material facts. Pursuant to the provisions of Rule 261(b) of Regulation A, the suspension of the exemption from registration now becomes permanent.—V. 188, p. 751.

In July, 1958, no accrual was made for Federal income taxes compared with \$1,100,000 accrued in July, 1957; for the seven months of 1958 there was a credit accrual of \$1,402,000 compared with a debit accrual of \$1,600,000 for the corresponding period of last year.—V. 183, p. 650.

Missouri Power & Light Co.—Bank Borrowings—

The company has applied to the SEC for authorization to make bank borrowings aggregating \$3,150,000 during the period October, 1958 through March, 1959; and the Commission has issued an order giving interested persons until Sept. 19, 1958, to request a hearing thereon. The funds will be used for construction purposes.—V. 187, p. 2118.

Mohawk Rubber Co., Akron, Ohio — Notes Sold Privately—It was announced on Sept. 3 that the company has placed privately with the Prudential Insurance Co. of America an issue of \$2,500,000 5¾% notes due July 1, 1973. The financing was arranged through Kidder, Peabody & Co. Inc.

The net proceeds are to be used to retire outstanding long-term debt and for expansion purposes.—V. 187, p. 2842.

Monsanto Chemical Co.—To Expand Refinery Ops.

Plans for a major expansion of the El Dorado, Ark., refinery of this company's Lion Oil Division have been announced by H. H. Bible, Lion General Manager.

The multi-million dollar program will increase the rated crude oil throughput capacity of the refinery from 29,000 to 33,000 barrels per day. The expansion will also include construction of new hydrodesulfurization, decarbonization and tetramer units, and enlargement of existing vapor recovery facilities.

The hydrodesulfurization unit, with capacity for 5,000 barrels daily, will substantially improve the quality of diesel fuels and burner oil made at the El Dorado installation.

The new decarbonization facilities, which will also have a 5,000 barrel-per-day capacity, will increase the yield of paving-grade asphalt through the upgrading of low-priced residuals. Mr. Bible stated that the operation of this unit will place the company in position to meet the greater demand for paving asphalt expected to result from the Federal highway program.

Propylene tetramer, to be produced in the new tetramer unit, is a raw material used by Monsanto's Inorganic Chemicals Division. The revamped vapor recovery facilities will handle a greater volume of gas and also provide the feed stock for the tetramer unit.

Engineering and purchasing work on the project has begun and completion of construction is expected early in 1960. Mr. Bible pointed out that this is the second expansion of the refinery facilities within recent months. The 5,000 barrel-per-day catalytic reformer, which was begun last April, is now nearing completion.

New Treasurer Elected—

The election of Patrick J. Dowd of St. Louis to the position of Treasurer was announced on Aug. 29 by Charles Allen Thomas, President.

Mr. Dowd, who assumed his new duties Sept. 1, has been Director of Administration for the company's Overseas Division. He succeeds Edward D. Toland Jr., also of St. Louis, who has resigned.—V. 188, p. 447.

Mountain States Telephone & Telegraph Co. — Registers Proposed Stock Offering With SEC—

The company on Sept. 3 filed a registration statement with the SEC covering 700,961 shares of its capital stock (common). The stock is to be offered for subscription at \$100 per share by stockholders of record Sept. 26, 1958 at the rate of one new share for each five shares then held. No underwriting is involved. Mountain States is a subsidiary of American Telephone & Telegraph Co., which owns 3,040,208 shares (86.74%) of its outstanding stock and which intends to subscribe for the 608,041 shares to which it is entitled. Net proceeds of the stock sale, estimated at \$69,989,000, are to be

applied in part to the repayment of advances from the parent, which are expected to amount to \$63,400,000 on Sept. 30, 1958. The balance of the proceeds will be used for general corporate purposes, including capital expenditures. Borrowings from the parent company are used for similar purposes.—V. 188, p. 650.

Murphy Corp.—Gross Revenues Increase—

Gross revenues of this corporation and its consolidated subsidiaries for the fiscal year ended May 31, 1958 amounted to \$28,585,000 compared with \$20,389,000 in the previous fiscal year.

Consolidated net income amounted to \$2,758,576, equivalent to \$1.17 per common share, about equal to the \$2,753,278, or \$1.17 per share reported in the 1957 fiscal year.

"Earnings for the year were augmented by a record fourth quarter, in which Murphy reported a net income of \$1,101,000 or 47 cents per share, on sales of \$6,886,000. This compares with a net of \$1,013,000, or 43 cents per share, on sales of \$6,946,000, in the final quarter of fiscal 1957.

Charles H. Murphy, Jr., President, said: "Consolidated capital expenditures were \$17,100,000 for the year, down slightly from fiscal 1957. Included were \$11,200,000 for exploration and development, \$785,000 for purchase of new timberlands and \$4,600,000 for offshore equipment."

Total completions for the year were down to 66 net wells from 93 in the previous year. Of these, 46 were producers and 20 were dry holes. Mr. Murphy pointed out that the fewer wells are reflected in the shift to offshore and foreign areas where wells are deeper and more expensive.

In June 1958 the company acquired a 13,500 barrel per day refinery at Superior, Wis., through the purchase of Lake Superior Refining Co. and Superior Refinery Owners, Inc. The strategically located refinery is serviced by the Interprovincial Pipeline system and is convenient to a small but choice inland market.

Marketing activities were also intensified with the purchase of 80% of the common stock of Webb Oil Co. of Duluth as part of the Lake Superior Refining acquisition. Webb operates service stations in northern Minnesota and northern Wisconsin and, coupled with retail outlets of Murphy's subsidiary, River States Oil Co., now provides Murphy with control of 90 good outlets, either owned outright or leased, in the upper midwest.—V. 188, p. 248.

(F. E.) Myers & Bro. Co.—New President of Unit—

Roy C. Hauck, formerly General Manager of the Ingersoll Conditioned Air division, of Borg-Warner Corp., has been named President and a director of The Southwest Manufacturing Co., Aurora, Mo., a wholly-owned subsidiary.

Curtiss Ginn, Jr., Myers President who served in dual capacity as Southwest President, becomes Chairman of the Board of Directors of the Aurora company.—V. 187, p. 885.

Narda Microwave Corp.—New Components Division

This corporation is now offering a custom-engineering service to design and produce the more intricate types of components, on a prototype and/or quantity production basis.

The corporation has established a new System Components Division expressly for this purpose, with its own manufacturing facilities separate from those devoted to the company's regular catalog items. The new division includes a staff of electronic engineers with many years of specialized experience in the design of microwave components. These engineers have made a number of outstanding contributions to the advancement of microwave techniques, and have obtained performance specifications not previously available.

Components designed by this group have been successfully operated over broad band-widths, from one to several octaves in frequency, and include adapters, attenuators, cavities, directional couplers, filters, hybrid junctions, stripline components, and terminations.

For airborne and missile-guidance systems, teflon dielectric strip-lines are used where the ultimate in small size is required. Magnesium construction is used when minimum weight is essential.—V. 187, p. 1896.

National Aviation Corp.—Proposed Stock Purchase—

This New York investment company has applied to the SEC for an order authorizing its acquisition of not to exceed 10,000 shares of the 113,500 shares of Thiokol Chemical Corp. stock which the latter proposes to offer for subscription by its stockholders (unsubscribed shares to be offered for public sale through underwriters); and the Commission has given interested persons until 1 p.m. on Sept. 12, 1958, to request a hearing upon the application.

According to National's application, the offering is to be underwritten by a group of underwriters which includes Paine, Webber, Jackson & Curtis and Hornblower & Weeks. A partner of each of these firms also serves as directors of National. Because of this affiliation, purchase by National of Thiokol stock during the existence of the underwriting syndicate is prohibited by the Investment Company Act unless the Commission grants an exemption from such prohibition.—V. 187, p. 1435.

National Research Corp.—Issues Semi-Annual Report

Research and development expenditures for a new tantalum metal program recently initiated by National Research Corp. were principally responsible for a net loss during the first six months of 1958, Richard S. Morse, President, reported to stockholders.

Gross revenues for the period were substantially lower than for the corresponding 1957 period, Mr. Morse said, due mainly to lower activity in the capital goods industry generally and to the transfer of certain research activities and personnel to an affiliated company. The company reported a net loss for the six months of \$197,875 on net sales of \$2,942,711. This compares with a net profit of \$154,373 for the like period in 1957, realized on net sales of \$4,604,444.

In July of this year National Research announced the development of tantalum metal products of higher purity than heretofore available and the completion of a tantalum production facility with an annual capacity of 25,000 pounds. Tantalum is used in the electronics industry for the manufacture of capacitors and has applications also in chemical and atomic energy fields.—V. 187, p. 2227.

National Telefilm Associates, Inc.—Control Sought—

See National Theatres, Inc. below.—V. 188, p. 651.

National Theatres, Inc. — Seeks NTA Stock — E. C. Rhoden, President, on Aug. 19 in a letter to stockholders, said:

For the past several months this company has been engaged in discussions with National Telefilm Associates, Inc. concerning the making of an offer to acquire National Telefilm Associates, Inc. common stock. National Telefilm Associates, Inc. is engaged primarily in the distribution of films for telecasting. It also owns and operates television station WNTA and radio stations WNTA-AM and FM in the New York metropolitan area and television station KMSP in the Minneapolis-St. Paul area. The shares of National Telefilm Associates, Inc. are listed on the American Stock Exchange.

As a result of these discussions National Theatres, Inc. proposes to make an offer to the holders of the common stock of National Telefilm Associates, Inc. to acquire their shares on the basis of an exchange of \$11 subordinated debenture principal amount and a warrant to purchase one-quarter share of National Theatres' stock for each share of the common stock of National Telefilm Associates, Inc. It is proposed to make an offer to all holders of the common stock of National Telefilm Associates, Inc. and to make an equivalent offer to all holders of warrants and options to purchase such stock. The proposed subordinated debentures to be issued by National Theatres, Inc. will carry an interest rate of 5½%, require sinking fund

payments, and mature at the end of 15 years. The 15-year warrants for the purchase of one-quarter share of National Theatres' stock will provide for an initial exercise price of \$1 below the market price of National Theatres' stock on the day prior to the making of the offer, except that if the market price is less than \$9.50 per share, the initial warrant exercise price will be \$8.50 or the market price, whichever is lower. The exercise price will increase \$1 per year during each of the first 10 years.

The making of the offer is subject to a number of conditions, including requisite approvals of Federal and State governmental agencies. The proposed offer is to be conditioned upon the obtaining of at least 51% control of National Theatres Associates, Inc. It is also subject to the approval of the stockholders of National Theatres, Inc. —V. 186, p. 2155.

New England Electric System—Plans to Acquire Minority Interests in Common Shares of Five Electric Subs.

The company proposes to offer a total of 460,761 shares of its common stock in exchange for the publicly-held common stocks of Merrimack-Essex Electric Co., Southern Berkshire Power & Electric Co., Suburban Electric Co., Weymouth Light & Power Co. and Worcester County Electric Co. at the following exchange ratios: For each share of Merrimack, 1.5 shares of NEES common stock; for each Southern Berkshire share, 3.4 shares; for each Suburban share, 5.5 shares; for each Weymouth share, 2.8 shares; and for each Worcester share, 4.2 shares.

The five subsidiaries had outstanding on Dec. 31, 1957 the following securities held by the public and by NEES, as indicated:

*Common stock includes fractional scrip representing 203 shares, such scrip to become void unless consolidated on or before July 30, 1958. The plan will be consummated on a date (called the "Consummation Date") which will be the earliest practicable date after the entry of an order by the Court approving and enforcing the Plan. The Plan will be made effective as of a date which will be not more than 60 days prior to the Consummation Date. See also V. 188, p. 548.

Niagara Share Corp.—Asset Value Increased—

As of Aug. 31—

Net assets	\$49,676,955	\$47,405,212
Capital shares	1,802,703	1,802,703
Net assets per share	\$27.56	\$26.30

Dividends declared from accumulated capital gains during 12 months ended Aug. 31, 1958 totaled 82c per share.—V. 188, p. 651.

North American Car Corp.—Expects Record Year—

General E. C. R. Lasher, President, on Sept. 4 told the New York Society of Security Analysts that he anticipates another record year for this car leasing firm.

General Lasher said that despite the recent recession and a decline in meat-rail shipments, net income from operations for the first six months of 1958 was five cents a share higher than the same period a year ago and the outlook for the remainder of this year is even more favorable.

He listed five reasons for the favorable outlook as follows: (1) the end of a decline in meat-rail shipments; (2) the continued maximum use of other types of cars which accounted for the high operating income of the first six months; (3) mileage rate increases for meat-rail cars and hoppers and prospective increases for other types of cars; (4) 256 new cars delivered or scheduled for delivery during 1958; (5) refinancing of the corporation's preferred stock issue with subordinate debenture notes, resulting in a tax saving of 30 cents a common share to net earnings in the first 12 months after issuance.

General Lasher said: "All of these factors cause us to look forward to a net income better than the \$3.96 earned from operations in 1957. "Until recent years North American Car maintained cash dividends at about 50% of net income. The directors are seriously considering returning to this policy. If they do, it is possible that our quarterly dividend will be increased in the near future from our present 45 cents a share."

The company's 62,475 shares of 5% cumulative preferred stock, are being retired as of Aug. 30, 1958. Funds for the redemption were provided by issuance of \$6,500,000 in 5% subordinate sinking fund debenture bonds, payable in approximately equal annual installments extending to July 15, 1973. The debentures were purchased by 10 institutional buyers. Tax savings for North American Car will initially amount to about 30 cents a common share in the first 12 months, of which some 10 cents per share will be realized in 1958.

For the first six months of 1958, net income from operations was \$1,333,717, or \$1.90 a share. In the first half of 1957, operating earnings totaled \$1,311,510, or \$1.85 per share; in addition, in that half there were non-recurring capital gains of \$46,236, bringing net income to \$1,357,746, or \$1.92 a share. There was no similar non-recurring income in 1958.—V. 188, p. 651.

North Carolina Natural Gas Corp.—Financing—

A "package" offering by this corporation of \$5,200,000 debentures and \$20,000 shares of common stock—originally scheduled for public offering Sept. 4 through a Kidder, Peabody & Co. underwriting group—has been rescheduled for Sept. 9, underwriters said on Sept. 3. See also V. 188, p. 548.

Northrop Aircraft, Inc.—Sales Hit \$63,000,000—

The corporation recorded sales of approximately \$63,000,000 in electronics and related equipment during the fiscal year ended July 31, 1958, making it one of the largest U. S. manufacturers of electronics control and navigation equipment for high speed aircraft and missiles, Whitley C. Collins, President, disclosed on Aug. 26.

The company's newly-established Nortronics Division achieved sales of \$55,000,000 during its first year of operation, while Radioplane Division's electronics operation contributed approximately \$8,000,000 to the total Mr. Collins added. Sales programmed for the Nortronics Division during the current fiscal year, ending July 31, 1959, are approximately \$65,000,000, it was indicated. Radioplane should contribute an additional \$10,000,000 for a total of \$75,000,000 during the current year, Mr. Collins predicted.

Among major programs at Nortronics are mass-production of guidance systems for the Snark SM-62 intercontinental guided missile and major subcontract work for Raytheon Manufacturing Co. on the Hawk ground-to-air missile. In addition to these and other current production projects the division is carrying on broad general development programs for advanced military systems and equipment as well as research toward commercial applications of electronics.

At present more than 60% of the company's total backlog of \$300,000,000 is in electronics and missiles.—V. 187, p. 2908.

Northwest Gas & Oil Exploration Co. (N. Y.)—Files—

The company on Aug. 22 filed a letter of notification with the SEC covering 300,000 shares of common stock (par 10 cents) to be offered at \$1 per share, through Greenfield & Co., Inc., New York, N. Y. The proceeds are to be used for acquisition of additional gas and oil interests and corporate administrative expenses.

Norton Portland Corp., Portland, Me.—Stock Offered—

The company on Sept. 4 publicly offered an issue of 29,265 shares of class B stock (par \$1) at \$10 per share. No underwriting is involved.

PROCEEDS—The net proceeds will be used: (1) To pay in full outstanding trade obligations; (2) to repay loans by stockholder and officer to the corporation; (3) for filing and recording patents and trademarks in the United States and foreign countries; (4) to finish construction in, supply, equip, insure and staff the research facility in order to continue the research and development of the machines and or devices owned by the corporation; (5) to further supply, equip and staff an administrative office in Portland, Maine, and to supply, equip and staff a head sales office in New York, N. Y.; and to provide additional working capital.

BUSINESS—The corporation, of 98 Exchange Street, Portland, Me., was organized on Jan. 27, 1955 in Maine. It has acquired by unconditional assignment without restriction certain letters patent already issued and all rights in and to certain patents pending and certain disclosures. The corporation is engaged in research and development of specialized machinery and equipment for the agricultural, automotive, fruit processing, mining, papermaking and roadbuilding industries.

—V. 188, p. 895.

Nuclear-Chicago Corp.—Reports Gain in Profits—

James M. Phelan, Chairman of the Board and President, stated that sales and profits of the company for the fiscal year ended Aug. 31, 1958 will show a good increase compared with the previous year.—V. 187, p. 1788.

Oneida Mining Corp., Tempe, Ariz.—Files With SEC—

The corporation on Aug. 19 filed a letter of notification with the SEC covering 150,000 shares of non-assessable common stock (par \$1) to be offered at \$2 per share, without underwriting. The proceeds are to be used for expenses incidental to mining operations.—V. 181, p. 2017.

Outboard Marine Corp.—Larger Power Mower Sales

Robert E. Schuler, Sales Manager of Lawn-Boy, Lamar, Mo., on Sept. 4 predicted that a greatly increased portion of the 3,000,000 power mowers expected to be sold next year will be the rider, or sit-down type mowing machine. Approximately 105,000 rider-mowers were sold in 1958. Mr. Schuler said, adding that he expects the figure to climb to 150,000 in 1959.

Mr. Schuler made the forecast at the 1959 public introduction in New York of Lawn-Boy's nine rotary power lawn mowers including the advanced new Quietfite rotary model, and the independently powered, all-purpose lawn vehicle, the Loafar.

The power mower industry, Mr. Schuler said, anticipates sales of some 3,000,000 units retailing for \$100 per unit during 1959. This figure corresponds closely to 1958 sales and will bring the total to 20,500,000 for power mowers estimated to have been sold in the U. S. since 1946.

About 2,000,000 of the anticipated 1959 sales, Mr. Schuler continued, are expected to represent replacement sales.

"Actually the 1959 power mower sales mark could go considerably higher in view of the 1,000,000 new home starts expected to materialize during the next year," he added.—V. 188, p. 588.

Owens-Corning Fiberglas Corp.—Producing Glass Felt for Built-up Roofing at Capacity Rate—

Roofing's newest material in half a century is being produced at a capacity rate of a new machine in the Kansas City, Kansas, plant of this corporation. A combination of Perma Ply glass felt (the new material) and asphalt provides roofers for the first time with a non-rotting, monolithic roof.

Nearly 19 miles of glass felt—in 180-foot rolls three feet wide—are being turned out daily to meet an ever-increasing demand from roofers for the new material. Stocks are being maintained in Barrington, N. J.; Santa Clara, Calif.; Newark, Ohio, and Kansas City.

The new Perma Ply-making machine was designed by Roofing Machinery Co., of Chicago, in conjunction with the Fiberglas engineering staff.

New Development—

A new insulated aluminum window, internally weather-sealed by means of a two-piece frame, has been introduced by Tecton Metals Co., Girard, Ohio. The construction minimizes condensation and frosting from the inside of the room. A tough, resilient Fiberglas screen gives permanent insect control.—V. 188, p. 448.

Palestine Economic Corp., New York—Notes Offered—

The company on June 13 offered publicly an issue of \$2,000,000 5% notes due Oct. 1, 1963 (series 1958). Two types of unsecured notes are offered: (a) Interest-bearing notes with interest payable semi-annually at the annual rate of 5% on April 1 and Oct. 1 and offered in denominations of \$1,000 or multiples thereof at par plus accrued interest from the last preceding interest date to date of delivery; and (b) discount notes dated on the date of issue and offered in denominations of \$1,000 or multiples thereof (denominated the maturity value) at a discount from maturity value so as to yield 5% compounded semi-annually from date of issue to Oct. 1, 1963. [The price of discount notes will be the maturity value less the above mentioned discount; if issued on Oct. 1, 1958, the price will be \$781.20 per \$1,000 maturity value and if issued on any other date the discount and therefore the price will be adjusted to such date.] The offering is not underwritten.

PROCEEDS—The net proceeds are to be used in making short and intermediate term investments and loans in enterprises in which the corporation is already financially interested or in enterprises engaged in activities basic to Israel's economy and within the established policies and general corporate purposes of the corporation.

BUSINESS—The corporation was incorporated in Maine on Jan. 18, 1956. It is an instrument through which Americans participate in the economic development of Israel on a business basis. It engages in enterprises in and outside Israel of the following nature through subsidiary and non-subsidiary corporations: banking; domestic and foreign credit; import and export; industry; agriculture; land development; construction; real estate ownership and management; insurance; investments; oil and mineral exploration and exploitation. The corporation extends loans and purchases securities, and does both in various corporations. It owns no physical property other than office furniture and equipment. It holds securities for safe-keeping and temporary investment in New York State, in London (England), and Israel.

Parker-Hannifin Corp.—Backlog Increased—

The corporation's backlog at June 30, 1958, was \$12,800,000 as compared with \$10,800,000 at Dec. 31, 1957.

Net earnings for the year (including only nine months of Hannifin operations) were \$2,054,996 on sales of \$34,947,153, equal to \$3.36 per share. Net earnings for the preceding fiscal year, when 123,642 fewer shares were outstanding, were \$1,622,526 on sales of \$28,349,060, equal to \$3.32 per share. Per share earnings for both years are based on the average number of shares outstanding.—V. 187, p. 1317.

Penobscot Chemical Fibre Co.—Partial Redemption—

The company has called for redemption on Oct. 1, next, through operation of the sinking fund, \$87,000 of its first mortgage 4 1/2% bonds due Oct. 1, 1974 at 100.9% and accrued interest. Payment will be made at the Old Colony Trust Co., Boston, Mass.—V. 186, p. 1094.

Peoples Credit Jewelers Ltd.—Private Placement—

The company has placed privately, through Brawley Cathers & Co., Toronto, Canada, an issue of \$3,000,000 5 1/2% 20-year debentures.

The net proceeds are to be used to retire outstanding funded debt of \$1,100,000 5 1/2% first mortgage participating sinking fund bonds, due in 1969, and for general corporate purposes.—V. 188, p. 588.

Pernian Basin Pipeline Co.—New Construction—

An application by this company, seeking authority for the construction and operation of facilities to enable it to acquire natural gas from the Emperor Field, Winkler County, Tex., has been accepted for filing, the Federal Power Commission announced on Aug. 22.

The company on Aug. 22 proposes to construct about 60.9 miles of 16-inch lateral supply pipeline, approximately 11.3 miles of various diameter field lines and 9 meter stations, at an estimated cost of about \$3,681,600, to purchase, receive, dehydrate and transport natural gas produced in the Emperor Field by Sun Oil Co., of Dallas, Texas, Phillips Petroleum Co., of Bartlesville, Okla., and Tidewater Oil Co., of Houston, Texas.

Tidewater was authorized by the FPC on Dec. 17, 1957 to make sales to Pernian from the Emperor Field. Applications by Sun and Phillips seeking Commission authority to sell to Pernian, have also been filed.—V. 187, p. 679.

Philco Corp.—Development of New Product—

This corporation and the Uptime Corp. of Rawlins, Wyo., have announced a joint program to develop and market a new high speed punched card reader.

This equipment, known as the "Speedreader 2000," was invented by Raymond B. Larsen, President of Uptime. A prototype model has been in full operation for more than six months at Rawlins where engineering evaluation has been completed on the equipment.

"Speedreader 2000" reads conventional punched cards, row by row, 80 columns wide, at the rate of 2,000 cards per minute. It also has a capacity in the feed and stacking hoppers for 4000 conventional punched cards.

Philco's Government and Industrial Division will provide product engineering, manufacturing, quality control and field testing for this high speed card reader.

The new punched card reader will be marketed by Uptime under their trade name, "Speedreader 2000," as a high speed punched card input for electronic data processing systems.

The Uptime Corp. was organized in February 1958 to conduct product research and development and to market high speed input-output equipment.—V. 188, p. 249.

Piasecki Aircraft Corp.—Sales 40% Higher—

The corporation has just released its annual report for fiscal year 1958 which indicates sales for the company advanced for the third consecutive year and were 40% above fiscal year 1957. Sales of \$1,673,193 were reported for 1958 against \$1,200,357 for 1957.

Company management pointed to important improvements in the company's financial operations, even in the face of a business recession and nation-wide cutbacks in defense spending. An operating loss of \$53,145 for the year represents a significant improvement over the \$508,437 operating loss sustained in fiscal 1957.—V. 187, p. 2005.

Pitney-Bowes, Inc.—Reports Increased Profits—

The company reported estimated net earnings for the quarter ended June 30, 1958, of \$1,004,807, equal to 73 cents a common share, compared with \$556,396, equal to 70 cents a share, for the comparable period of 1957, after adjusting the earlier period for the stock dividend issued this year.

For the first six months ended June 30, 1958, net earnings totaled \$1,968,303 compared with \$1,910,184 in the first half of last year. Per share earnings for the six months amounted to \$1.42, compared with \$1.39 last year.

W. H. Wheeler, Jr., President, said the improvement in net profit was primarily attributable to increased revenues in the second quarter, which were nearly 10% higher than in the second quarter of last year.

The directors on Aug. 18 voted for employee profit-sharing 25% of the second quarter's profit before profit-sharing and taxes. The total declaration amounted to \$704,603, of which \$419,476 is the quarterly payment into the trust fund of the employees' retirement income plan, and \$285,127 is the quarterly cash "wage-and-salary" dividend. The latter amounts to 5% of base pay for most employees.

Gross revenues for the first half of 1958 totaled \$23,826,466, an increase of 6% over the \$22,473,303 in the corresponding six months of 1957. Profit before taxes was \$4,144,303 as compared with \$4,015,184 reported in 1957.—V. 188, p. 90.

Pittsburgh Coke & Chemical Co.—Resumes Battery—

Coinciding with its 30th Anniversary on Aug. 28, this company resumed full production in its reconstructed No. 2 battery of 35 coke ovens at the Neville Island (Pa.) plant.

The first "push" from the newly charged ovens rounded out a total of 15,092,000 tons of coke produced by the company since its founding 30 years ago.

By employing the latest techniques and equipment in coke oven construction the company will achieve greater efficiency in its coke oven operation and in its effort to alleviate air pollution, according to C. T. Marshall, Vice-President in charge of the Coke and Iron Division. He noted that the new construction, costing about \$3,000,000, would "substantially reduce the amount of air and stream pollution" from the company's coke oven operations.

Battery No. 2, one of four coke oven batteries operated by the company, will have a coal carbonizing capacity of 355,000 tons a year, yielding approximately 255,000 tons of coke. In addition the operation recovers chemical-rich coke oven gas which yields important chemical by-products such as tar, benzol, toluol, xylol, ammonium sulphate, and naphthalene.

Reconstruction of Battery No. 2 brings to near completion the com-

THE COURSE OF BANK CLEARINGS

Bank clearings this week will show an increase compared with a year ago. Preliminary figures compiled by us based upon telegraphic advices from the chief cities of the country, indicate that for the week ended Saturday, Sept. 6, clearings for all cities of the United States for which it is possible to obtain weekly clearings will be 4.8% above those of the corresponding week last year. Our preliminary totals stand at \$18,608,590,097 against \$17,757,501,029 for the same week in 1957. At this center there is a gain for the week ending Friday, of 5.7%. Our comparative summary for the week follows:

*Estimated.

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday and the Saturday figures are not available at time of going to press. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results of the previous week—the week ended Aug. 30. For that week there was a decrease of 5.2%, the aggregate clearings for the whole country having amounted to \$20,285,621,301 against \$21,395,161,282 in the same week in 1957. Outside of this city there was a gain of 0.1%, the bank clearings at this center showing a decrease of 10.2%. We group the cities according to the Federal Reserve Districts in which they are located and from this we note that in the New York Reserve District the totals record a decline of 10.1%, in the Boston Reserve District of 1.3% and in the Philadelphia Reserve District of 2.4%. In the Cleveland Reserve District the totals are smaller by 6.6% and in the Atlanta Reserve District by 4.0%, but in the Richmond Reserve District the totals are larger by 2.8%. The Chicago Reserve District has to its credit a gain of 2.6% and the Minneapolis Reserve District of 8.6%, but the St. Louis Reserve District suffers a loss of 4.2%. In the Kansas City Reserve District the totals show an improvement of 11.8%, in the Dallas Reserve District of 4.8% and in the San Francisco Reserve District of 4.0%.

In the following we furnish a summary by Federal Reserve Districts:

pany's rebuilding program for its coke ovens. Consideration is now being given to reconstructing the final battery in the Fall.

Koppers Company, Inc., constructor of the new ovens was also contractor for the original No. 2 battery in 1929. The battery, in continuous service since that time, had been out of operation since Nov. 11, 1957.—V. 186, p. 2478.

Polaris Mining Co.—Proposed Merger—

Merger of this company into Hecla Mining Co. will be voted on Oct. 10 at special stockholder meetings. Polaris now is an affiliate of Hecla with Hecla holding 55.06% of the 2,296,620 shares of Polaris.—V. 177, p. 2572.

Preston House Sire Plan, Inc.—Securities Sold—

Announcing the taking of title to the Preston House apartment development at Great Neck, Long Island, N. Y., Albert Minter, founder and head of the small investors real estate plan widely known as the SIRE Plan, on Sept. 2, stated that this deal proved again the feasibility of the application to real estate of the negotiable corporate securities method of syndication under a format which minimizes impact of Federal corporate income taxes.

Following closely Sire Plan acquisition of the well-known LaGuardia (Airport) Hotel, this apartment house was purchased by Preston House Sire Plan, Inc., a New York corporation, as a result of the successful sale to about 250 investors of 2,800 investment units, in multiples of \$100. Each unit is composed of one \$50 share of 6% cumulative and non-callable participating preferred stock and one \$50 6% 10-year debenture. The common stock, held entirely by a sponsoring Sire Plan affiliate, is on deposit with the trustee as security for the payment of preferred stock dividends and debenture principal and interest. The offering was sold on an interstate basis after due qualification under state and Federal securities laws.

Protective features and benefits afforded the public under this Sire Plan offering were enumerated by Mr. Minter as follows:

(1) Title was acquired subject only to a first mortgage.
(2) The common stock, which is the sole voting stock, was pledged with the trustee as security for the benefit of investment unit purchasers.
(3) The preferred stock provides that if defaults occur in the payment of minimum dividends of 6%, the common stock loses its voting rights which are transferred to the preferred stock.
(4) Tax laws permit real estate investors to deduct depreciation from gross taxable income. Under the Sire Plan this depreciation tax benefit is passed on to the preferred stockholders in the form of non-taxable dividends.

(5) The preferred stock includes participation rights to further dividends above the minimum of 6% and to a pro-rata interest in 75% of the profits on a sale of the property. The preferred stock is non-callable; thus the investors can never be deprived of their preferred dividend and participation rights.

(6) The property is managed by The Sire Plan Management Corp., an affiliate of the purchaser, under a management agreement which could be terminated by the investors if the property does not produce a yield of at least 6%.

The Preston House was acquired from The Ken-Well Realty Corp., of which Mac Wilson and Edward Tobin are the officers. Arthur Kaplan was the broker in the transaction. The building is the only centrally air-conditioned apartment house in Great Neck, completed in July, 1955, and was purchased for all cash above the first mortgage, reduced to \$445,000, held by a savings bank.

This Great Neck apartment house is the 17th property acquired since 1951 by separate groups of small investors under the pioneer Sire Plan real estate investment method. Acquisitions now have a total value of about \$8,500,000. Nearly 4,000 investors all over America have purchased participations in one or more of these 17 Sire Plan offerings.

Mr. Minter pointed out that in addition to regular payments made in reduction of mortgage indebtedness on each property, quarterly distributions, varying upward from at least 6% a year, have been paid to investors in each property.—V. 187, p. 1789.

Procter & Gamble Co.—Secondary Offering—A secondary offering of 23,280 shares of common stock (par \$2) was made on Aug. 25 by W. E. Hutton & Co., at \$65.25 per share, with a dealer's concession of 90 cents per share. It was quickly oversubscribed.—V. 188, p. 895.

Psychological Corp. (N. Y.)—Capital Stock Offered—

The company on Aug. 11 offered publicly 6,000 shares of capital stock (no par) at \$41.50 per share. This offering is not underwritten.

Initially, the shares are being offered to the present stockholders of the corporation on a pro rata basis in accordance with a plan formulated by the directors of the company. Pursuant to such plan,

during the period commencing on Aug. 11, 1958 and ending on the 60th day thereafter or on Nov. 1, 1958, whichever day shall be later, each stockholder may purchase three shares of the stock being offered for each four shares of capital stock registered in his name on Aug. 11; stockholders owning three shares may purchase two shares; and stockholders owning two shares or one share may purchase one share. No fractional shares will be sold.

PROCEEDS—The net proceeds will be used to pay bank loans, increase inventory of testing materials, increase accounts receivable and for working capital.

BUSINESS—The company was organized in New York on May 3, 1921. Its office is located at 304 East 45th St., New York 17, N. Y. The company is organized in five divisions: The Test Division, the Industrial Division, the Division of Marketing and Social Research, the Professional Examination Division, and the Counseling Division. The Test Division is primarily engaged in the development and sale of psychological tests and measuring instruments. The Industrial Division provides industrial consulting services, evaluation of executives and candidates for executive positions, training of the staffs of industrial personnel departments and evaluation of personnel methods and industrial relations practices.

The Marketing and Social Research Division conducts marketing and opinion research with a view to measuring and improving the effectiveness of sales, advertising promotion, and educational efforts of business and industry.

The Professional Examinations Division conducts group testing programs for the selection of applicants to various professional schools and offers test scoring and analysis and related statistical services for educational institutions and professional associations. Public Service Co. of New Hampshire—Secondary Offering—A secondary offering of 3,000 shares of common stock (par \$5) was made on Aug. 26 by Blyth & Co., Inc., at \$18.50 per share, with a dealer's concession of 40¢ per share. The offering was completed on Aug. 28.—V. 187, p. 1546.

Quebec Natural Gas Corp.—Issues Initial Report—

A combination of organization, construction, and development projects said to be unlike any ever faced by a gas operating utility in the United States or Canada were received on Aug. 26 by Maurice Forget, President, in releasing the company's first annual report to stockholders. The report covers the 14-month period from the time the company began business in April 25, 1957 to the close of its fiscal year, June 30, 1958.

During this period, the company built a large-diameter steel pipeline 34 miles across Montreal Island to supply the gas system; acquired and equipped a general office building, service centers and a retail store; made 1,300,000 conversions on customers' appliances and organized a complete sales and dealer promotion program.

Natural gas from Alberta is expected to become available next November. An interim natural gas supply from the United States is now being received via. resources in Ontario.

The company serves 243,000 customers. The franchised service area has a population of 1,600,000.

Gas sales revenues (most manufactured gas) for the period covered were \$10,862,607 and sales of gas expressed on an equivalent 1,000 Btu natural gas basis totaled 5,049,227,000 cubic feet.

Roper Industries, Inc.—To Buy Own Stock—

The stockholders have been asked to vote Sept. 16 on a proposal by the company to invite tenders on a maximum of 119,000 common shares at \$25 per share. On Aug. 26, there were 211,695 common shares outstanding.

Royal McBee Corp.—Issues New Brochure—

A brochure (No. S-533) has just been issued by this corporation which describes its General Records Poster. The device is used where associated records can be simultaneously created with one writing. The brochure illustrates the General Records in use for Accounts Payable, Accounts Receivable, Payroll and General Ledger. Only the one Poster is needed to handle all applications.—V. 188, p. 896.

Ruberoid Co.—O'Leary Elected President—

The directors announced on Sept. 2 that E. J. O'Leary, Executive Vice-President, has been elected President and Chief Executive Officer of the company. Stanley Woodward, President, has become Vice Chairman of the board.

Frederick K. Sweeney, General Sales Manager, was made Vice-President in charge of sales, and Kenneth R. MacDonald, Director of Purchases, was elected Vice-President in charge of purchases. All four promotions are effective immediately.—V. 186, p. 2156.

Scandinavian Airlines System, Inc.—To Incr. Capacity

The corporation reports it will offer nearly a billion passenger seat-miles over its worldwide route system during the winter months. During the winter program period extending from Nov. 1, 1958 to March 31, 1959, SAS will offer a total of 932,000,000 available seat-miles. This represents an 11% increase over a comparable period last year.

SAS' total capacity increase, including freight, will be 12% higher than the 1957 winter program schedule. SAS, which serves 84 cities in 42 countries on five continents, begins accepting delivery early next year of its order of 12 medium-range Caravelle jet airliners. These will be assigned to SAS' European and Near and Middle Eastern routes. In early 1960, SAS will receive delivery of its fleet of seven intercontinental DC-8 jetliners.

SAS' present fleet of aircraft numbers 57, which includes the largest number of DC-7Cs owned by any airline outside the United States. SAS uses its DC-7C "Global Express" airliners exclusively on its Polar Route System linking all of Europe with the U. S. West Coast and the Far East.

In addition, the DC-7C is used exclusively on SAS' North Atlantic route between Scandinavia and New York, and on its South American and South Africa routes.—V. 188, p. 752.

St. Regis Paper Co.—Exchange Offer Extended—

This company on Sept. 2 announced that on Aug. 28 it declared effective its offer of exchange for the shares of outstanding capital stock of Growers Container Corp., Salinas, Calif., for shares of common stock of St. Regis Paper Co. on the basis of one share of St. Regis common stock for each 18 shares of Growers' outstanding capital stock. Approximately 60% of the Growers' stock has been deposited in accordance with the terms of the offer of exchange. This is apart from the approximately 31% held by St. Regis. Together this is a total of more than 90% of Growers' stock. At the same time St. Regis extended the termination date of its offer from Aug. 31 to Sept. 29.

It is planned to conduct Growers' business as a division of St. Regis. Growers manufactures corrugated shipping containers for fresh fruits, vegetables, beverages, canned goods, frozen foods, and industrial commodities. Its three plants are located at Salinas and Fullerton, Calif., and Jacksonville, Fla. The area served includes California, Oregon, Washington, Idaho, Nevada, Arizona, and the Gulf Coast and southeastern states. St. Regis supplies the linerboard for Growers' Jacksonville plant from its adjoining kraft pulp, paper and board mill. Growers had sales of \$12,926,553 in 1957.—V. 188, p. 652.

Salem-Brosius, Inc.—Reports Profit—

The corporation on Aug. 22 reported a \$31,950 profit, after taxes, for the first half of 1958.

This is in contrast to the \$515,539 deficit recorded for the same period last year. Total net earnings of \$227,460 were reported for 1957. It is anticipated that 1958 earnings will equal or possibly exceed 1957 earnings.

Ward A. Wickwire, Jr., President, also announced a backlog of approximately \$12,000,000 as of June 30, 1958.

Mr. Wickwire also reported that the English and Canadian subsidiaries now have a combined backlog of orders totaling \$8,700,000; and Alloy Manufacturing Corp., a new subsidiary, has a backlog of \$1,500,000.—V. 188, p. 250.

Sayre & Fisher Co., Sayreville, N. J.—New Product—

An exclusive new "Cube Jumbo" face brick which provides a 30% saving in cost and time and a 20% reduction in weight of brick masonry walls has been introduced by this company.

The new brick provides 50% more surface coverage than that of standard brick and 28% more than the present jumbo size, according to John H. Junker, President.

The "Cube Jumbo" weighs the same as jumbo brick but its greater surface coverage offers the substantial savings in cost, time and weight, Mr. Junker said. It also effects a 24% saving in mortar as compared to jumbo.—V. 187, p. 2910.

Schaffer Stores Co., Inc.—Sells Certain Assets—Kidd, Peabody & Co. Inc. acted as advisor to this company in the sale of certain of its assets to the Grand Union Co.—V. 159, p. 114.

Schenley Industries, Inc.—Completes Financing— Lewis S. Rosenstiel, President, on Sept. 2, announced the refinancing of \$28,750,000 of insurance company loans of early maturity now deferred to March, 1969, and a bank credit agreement of \$75,000,000 expiring Aug. 31, 1963.

Participating in the insurance agreements are: Prudential Insurance Co. of America, New York Life Insurance Co., John Hancock Mutual Life Insurance Co., New England Mutual Life Insurance Co., Mutual Life Insurance Co. of New York, Lincoln National Life Insurance Co. (Fl. Wayne), and Bankers Life Insurance Co. (Des Moines).

Participating in the bank credit are: Marine Midland Trust Co., Hanover Bank, Federal Bank and Trust Co., all of New York; Continental Illinois National Bank and Trust Co., First National Bank of Chicago, and Harris Trust and Savings Bank, all of Chicago; Bank of America National Trust and Savings Association, Calif.; American Trust Co. of San Francisco; Security First National Bank of Los Angeles; Philadelphia National Bank of Philadelphia; National Bank of Detroit; Peoples First National Bank and Trust Company, Pittsburgh; Fifth Third Union Trust Company, and Central Trust Co. of Cincinnati; Liberty National Bank and Trust Co. of Louisville.

W. Earle Blakeley, Vice-President in charge of finance, who negotiated the agreements, announced that all payments under Schenley's loan agreement dated November, 1950 were anticipated as follows: \$25,000,000, August, 1954; \$15,000,000, January, 1955; \$10,000,000, July, 1958, previous payments having been anticipated prior to 1954.

Borrowings will be for the development of the business and for the payment of short-term loans, Mr. Blakeley said.—V. 188, p. 652.

Seaboard & Western Airlines, Inc.—Freight Traffic Up

Transatlantic air freight traffic increased 86% in July, compared with the same month in 1957, this corporation reported on Aug. 26. Arthur V. Norden, Executive Vice-President, said the transatlantic all-cargo airline flew a record 1,683,000 ton miles during the month ended July 31, 1958.—V. 187, p. 2910.

Sealright-Oswego Falls Corp. — Develops First All-Plastic Milk Bottle Cap—

This producer of paper packaging and dairy equipment has developed and begun marketing the first all-plastic milk bottle cap, it was announced on Aug. 25.

The new Sealright closure, called the Plasti-cap, is designed for use on the narrow-necked milk bottles of 38 millimeter top rim diameter. Approximately 25% of the glass milk containers now used in the United States are of this type.

The new milk bottle closure is the first allplastic Sealright product to be released for general use. The company also has been experimenting at its Los Angeles plant, with other types of all-plastic packaging.—V. 188, p. 590.

Servomechanisms, Inc.—Additional Research Funds—

Additional funding in the amount of \$101,672 has been awarded the Research Laboratory of Servomechanisms, Inc., by Douglas Aircraft Co., it was announced on Sept. 1. The additional money is for SMI's continued research into the fields of solid state physics. The new materials which are being created at SMI's Research Laboratory can withstand extremely high temperatures. The major areas of work are in the fields of direct conversion of heat to electricity and the evaporation of functions for digital computers.

Receives New Orders—

New contracts in the amount of \$832,436 have been received for SMI's Barometric Altitude Controller from Hughes Aircraft Co. This precision instrument which is sensitive to minute variations in static pressure, helps maintain an aircraft at a constant barometric altitude.

The Controller, which is sensitive to within plus or minus 2½ feet at sea level, provides a shaft position output which is linearly proportional in rotation to altitude deviations from any given reference altitude within the range of from minus 1,000 feet to several miles above sea level.—V. 186, p. 652.

Sheraton Corp. of America — New Comprehensive Credit Card Plan Announced—

The Sheraton hotel system is entering the burgeoning commissionable credit card field. The move was announced on Sept. 2 by Ernest Henderson, President of the hotel system, which has 47 hotels from coast to coast and in Canada.

With nearly 1,000,000 active credit card holders, Sheraton's long-planned invasion could make the company "a major factor in the charge card field," according to Mr. Henderson.

A subsidiary of the Sheraton Corporation, Sheraton Central Credit Club, Inc. has been formed and is headed up by Sheraton executive, Lawrence Percival of Boston. The new company came about as a result of extensive research by the giant hotel chain. A substantial proportion of Sheraton credit card holders have indicated their willingness to pay Sheraton Central Credit Club's yearly \$5 fee for charging privileges and central billing in Sheraton hotels plus smart restaurants and hotels in cities throughout the United States.

Also to be added to the roster of services chargeable on the new Sheraton Central Credit Club Card are car rental services, fine hotels throughout the world, top motels, leading retail stores and specialty shops, jewelry and gift shops and automobile accessory stores. Negotiations are also now under way with leading air lines and oil companies to join the Sheraton Central Credit Club.

The new credit plan charges the member restaurants and institutions a percentage on business brought to them by Sheraton Central Credit Club holders to cover the cost of the central billing operation.

Mr. Henderson emphasized that Sheraton's present credit card holders can still continue to have free Sheraton credit cards instead of new Sheraton Central Credit cards if they desire.

The first Sheraton Central Credit Club card will cover the period from date of issue to year ending Dec. 31, 1959. Applications are now being placed in the mail.—V. 188, p. 151.

Siegler Corp.—50th Mobile Medical Clinic Shipped—

David Bogen Co., a division of The Siegler Corp., reports that the 50th self-contained medical coach departed last week for Ecuador. A major producer of quality sound systems, Bogen supplies the high fidelity and public address systems for these health caravans which are manufactured by Medical Coaches, Inc. of Oneonta, N. Y.

Like its predecessors, the new medical coach bound for Servicio Sanitario Nacional in Guayaquil, contains a complete Bogen public address unit; microphone, amplifier, phonograph, Cobrex speaker and driver unit. The \$13,000 coach, donated by a Pepsi-Cola distributor, will be utilized as a rural educational, health and disaster clinic by the Ecuadorian Government.—V. 188, p. 652.

Sisters of St. Dominic (Kenosha, Wis.)—Partial Red'n—

There were recently called for redemption on Sept. 1, last, \$25,000 of serial notes dated March 1, 1953 at 101%. Payment will be made at the First National Bank, West Bend, Wis.—V. 174, p. 1500.

South American Gold & Platinum Co. — Reports Decline in Sales and Earnings—

The company on Aug. 28 reported \$3,515,257 in proceeds from sales of metals, dividends and interest, and other income for the six months ended June 30, 1958, against \$7,927,238 in the corresponding 1957 period. Earnings for the six months totaled \$311,974, or 15 cents per share, on 2,039,100 common shares outstanding, compared with \$1,939,985 in the similar 1957 period, or 95 cents per common share on the same number of shares outstanding.

For the three months ended March 31, 1958, the company reported \$1,965,013 in proceeds from sales of metals, dividends and interest, and other income against \$3,376,737 in the corresponding 1957 period. Earnings for the three months totaled \$151,235 or 8 cents per share on 1,942,000 common shares outstanding compared with \$658,290, or 34 cents per common share on 1,942,000 shares outstanding.—V. 188, p. 250.

Southeastern Fidelity Fire Insurance Co., Atlanta, Ga. — Stock Offered—

The company on Aug. 22 offered to its stockholders of record Jan. 1, 1958, the right to subscribe on or before Sept. 1, 1958, for 2,000 shares of common stock (par \$10) at \$20 per share. Any unsubscribed shares, plus an additional 6,981 shares of common stock, were offered to the public at \$26 per share. No underwriting was involved.

PROCEEDS—The net proceeds are to be used to expand the operations of the company.

BUSINESS—The company was incorporated in Georgia on Aug. 4, 1949.

The company began operations in January of 1950 as a fire insurance company, and underwriters and assumes risks of fire, extended coverage and physical damage to automobiles. It operates entirely in the States of Alabama and Georgia, through independent agents, appointed as representatives of the company. It reinsures a portion of its risks under a treaty of reinsurance with the General Reinsurance Corp. of New York, N. Y. It also carries a catastrophe insurance through the same reinsurer.

The company's principal physical property is its main office, a two-story modern air-conditioned building at 197 Auburn Ave., N. E., Atlanta, Ga. This building was completed in February of 1957. The company itself occupies the first floor of this building and leases office space on short term basis to other tenants, which space the company eventually anticipates using as it expands its operations.

The cost valuation of the said property is approximately \$74,000. The property is fully paid for and was constructed out of the cash resources of the company.—V. 188, p. 793.

Southeastern Fund—To Transfer Assets—Dissolution

In a notice to holders of 6% convertible subordinated debentures due 1971 it is proposed:

(a) That the holders of common stock of record at noon on Sept. 13, 1958 will receive a dividend of one share of common stock for each ten shares of such stock then held by them;

(b) That on Sept. 15, 1958 Southeastern Fund will transfer all of its assets to American Investors Corp., a Tennessee corporation, in consideration of the assumption by American Investors Corp. of all of Southeastern Fund's obligations and the transfer to Southeastern Fund of shares of common stock of American Investors Corp. in an amount equal to the number of shares of common stock of Southeastern Fund outstanding on such date of transfer;

(c) That thereafter Southeastern Fund will voluntarily dissolve and distribute to its common stockholders of record at the close of business on Sept. 15, 1958 the shares of American Investors Corp. common stock then held by it on the basis of one share of common stock of American Investors Corp. for each share of common stock of Southeastern Fund so held of record; and

(d) That immediately after the close of business on Sept. 15, 1958 the 6% convertible subordinated debentures due 1971 of Southeastern Fund will be convertible into shares of common stock of American Investors Corp. equal in number to shares of common stock of Southeastern Fund issuable upon such conversion immediately prior to the close of business on Sept. 15, 1958.—V. 186, p. 424.

Southern California Edison Co.—Books Closed—Sub-

scription books were quickly closed on the public offering of \$50,000,000 4½% first and refunding mortgage bonds, series K, which were publicly offered on Aug. 26 by an underwriting group headed by Halsey, Stuart & Co. Inc. For details, see V. 183, p. 896.

Southwestern Bell Telephone Co.—Defers Offering—

The directors on Aug. 29 voted to defer issuance of \$110,000,000 in debentures originally planned to be sold at competitive bidding on or about Sept. 30, 1958.

The debentures which were to have been issued as of Oct. 1 have been deferred until such time as the board shall determine. The proceeds were to be used to redeem \$100,000,000 of the company's 4½% debentures due in 1952.—V. 188, p. 793.

Spokane International RR.—Merger Approved—

See Union Pacific RR. below.—V. 188, p. 652.

Standard Oil Co. of California—Large Debenture Issue Offered—

An issue of \$150,000,000 4½% sinking fund debentures due July 1, 1983, was placed on the market on Sept. 5 by an underwriting group headed by Blyth & Co., Inc. and Dean Witter & Co. at 99.62½% and accrued interest, to yield about 4.4% to maturity. At time of going to press, there was still some deb. available.

The debentures may not be refunded at lower interest cost before July 1, 1963. A sinking fund will become operative in 1968 with a view to retiring \$3,000,000 of the debt a year. The debentures are otherwise subject to call at prices scaled from 104.625 to 100.

PROCEEDS—The company plans to use \$50,000,000 of the proceeds to pay off bank loans. The rest will be available for capital and exploratory expenditures and for other corporate purposes. Outlays for capital and exploratory purposes in 1958 are estimated at \$375,000,000.

PROPOSED LISTING—The company intends to apply for listing of the debentures on the New York Stock Exchange.—V. 188, p. 896.

Standard Oil Co. (Indiana)—Licenses Process—

This company on Aug. 22 announced that it has licensed its new process for making aromatic acids to Imperial Chemical Industries Ltd. of England.

The process is the most economical known for the production of a number of aromatic acids, and uses readily available hydrocarbon raw materials, according to Standard Oil company officials. It will be used by ICI in a new plant at its giant Wilton Works near Middlesbrough, England, to make about 30 million pounds per year of terephthalic acid. Terephthalic acid is a chemical intermediate used in the manufacture of "Terylene" polyester fiber and "Melinex" polyester film. A similar polyester fiber is known in the United States as "Dacron."

The decision to use Standard's process followed an extended period of technical study, and license arrangements between the companies have just been concluded. ICI's plans to proceed with the construction of expanded terephthalic acid facilities were announced a year ago. Its new plant is to begin operation in 1960.

This is the fourth plant that has been announced which will use Standard's process for making aromatic acids. The first plant is nearing completion at Joliet, Ill., and is expected to be in operation within the next few months. It is being built and will be operated by Amoco Chemicals Corporation, a Standard affiliate, and will be used to produce a diversified line of chemicals.

The other two plants, both licensed by Standard, will be situated in Japan.

Obituary—

A. W. Peake, 68, who retired as President of this company in 1955, died on Aug. 28 at Dundee, Scotland. He had been President 10 years and a director for 25 of the 34 years he served the company. He was associated for nearly four decades with Frank O. Prior, present Chairman, and for a decade with Dr. Robert E. Wilson, who retired as Chairman early in 1958.

Mr. Peake had also been a director of The American Oil Co., a Standard subsidiary, and of Continental Illinois National Bank & Trust Co., Chicago, and the American Petroleum Institute.—V. 188, p. 896.

State Mutual Life Assurance Co. of America, Worcester, Mass.—Affiliation—

The first corporate affiliation between a mutual life insurance company and a mutual fire insurance company took place late last month when the directors of State Mutual and the Worcester Mutual, both of Worcester, Mass., announced an "affiliation" between their two firms.

A joint statement by the two company presidents, H. Ladd Plumley, State Mutual, and Minott M. Rowe, Worcester Mutual Fire, said that the affiliation was not a merger or acquisition and would take the form of shared management of unified "one-stop" selling. The benefits of the affiliation to the two historic insurance firms were described as follows: for Worcester Mutual Fire it means the sales advantage of State Mutual's nation-wide agency network (the fire company is presently licensed in 24 states, the District of Columbia, and Puerto Rico); for State Mutual it means that its 90-office sales force will have a fire and casualty outlet. Both companies could offer "one-stop insurance"—i.e. one agent underwriting the client's full insurance needs.

State Mutual is the 5th oldest, 25th largest (insurance in force) life insurance company in the nation. It was founded in 1844 and has \$2,572,893,876 of total life insurance in force (June 30, 1958) and writes, in addition, all forms of group insurance and non-cancelable sickness and accident insurance.

Worcester Mutual Fire is one of the oldest in the first insurance field having been incorporated in 1823. In 1950 it was authorized to sell multiple lines. It has more than \$10,000,000 in assets, and its present annual net premiums earned before Federal Taxes are approximately \$7,000,000. "A working management alliance" was established in 1956 with Guarantee Mutual Fire Insurance Co. of Springfield, Ohio.—V. 182, p. 417.

Studebaker-Packard Corp.—Refinancing Plan—

The stockholders on Oct. 15 will consider the proposed refinancing plan. For details, see V. 188, p. 896.

Television-Electronics Fund, Inc.—Assets Rise—

Net assets of the fund, pioneer and largest mutual fund concentrating investments in the field of electronics and nucleonics, totaled \$178,531,343 on July 31, a new record and at a level 32.1% above its resources of \$135,100,234 on Oct. 31, 1957, the end of the fund's last fiscal year. New highs were also recorded in the number of shares outstanding, which rose 18.5% from 13,038,227 on Oct. 31, 1957 to 15,444,896 on July 31; and in the number of shareholders, which grew from 65,312 to 75,171 during the same nine-month period.

Net asset value per share of the fund increased to \$11.56 from the Oct. 31 level of \$10.36 which, when adjusted for a capital gain distribution of 55.1 cents on Nov. 30, 1957, reflected a capital value gain of 16.9% during the period, Chester D. Tripp, President, said.—V. 187, p. 2952.

Thompson Products, Inc.—Acquisition—

The company on Aug. 21 announced the purchase of Federal Industries, Inc., of Detroit, Mich., a producer of transmission and power steering pumps for the transportation industry. Cost of the acquisition and sales and earnings figures of the Detroit firm were not disclosed.

Federal Industries, which employs about 120, will be operated as the Federal Works of Thompson's Michigan group. Drew C. Haneline, President of Federal, will continue to head the operation.—V. 188, p. 450.

Toledo Edison Co.—Partial Redemption—

The company has called for redemption on Oct. 1, next through operation of the sinking fund, \$25,000 of its first mortgage bonds, 3% series due 1979, at 101.55% plus accrued interest. Payment will be made at The Chase Manhattan Bank, 43 Exchange Place, New York 15, N. Y.—V. 187, p. 2953.

Trans Caribbean Airways, Inc.—Unit to Increase Fares

The D. C. Transit System, Inc. of Washington, D. C., a subsidiary, has been granted a fare increase by the Public Utilities Commission of the District of Columbia, effective Aug. 31, 1958. It is estimated that the new fare structure will mean an increase in excess of \$700,000 per annum in gross revenue to be received by the D. C. Transit System, Inc.—V. 188, p. 694.

Trinity Lutheran Church, Faribault, Minn.—Bonds Offered—Yates, Heitner & Woods, St. Louis, Mo., late in July offered publicly an issue of \$300,000 5% and 5½% first mortgage serial bonds due annually July 15, 1959-1968, inclusive. The bonds are being offered at 100% and accrued interest.

The church has the right to call all or any part of the bonds, on any interest date, in numerical order, upon 30 days' prior notice at 100% and accrued interest.

The net proceeds from the sale of the bonds will be used to pay in part the cost of building its gymnasium-auditorium and renovating the church basement.

Union Electric Co. (Mo.)—Proposed Acquisition—

The company has applied to the SEC for an order authorizing its acquisition of certain public-utility assets of R. W. Foss Electric Co., Inc.; and the Commission has given interested persons until Sept. 15, 1958, to request a hearing thereon.

Foss Electric is an electric utility company operating in Henry, Lee and Van Buren counties in Southeastern Iowa; and, among other communities, it serves the cities of Salem, Hillsboro, Stockport and Douds, and environs. The outstanding stock of Foss Electric is owned by members of the Foss family. Approximately 82% of the electric energy used by Foss Electric is purchased from Union; and the Foss Electric properties are adjacent to those of Union in Iowa.

Under a contract between Union Electric and the stockholders of Foss Electric, Union proposes to acquire substantially all the properties of Foss Electric in exchange for 9,133 shares of Union's \$10 par treasury common stock at an agreed value of \$30 per share, or an aggregate of \$273,990.—V. 187, p. 2273.

Union Oil Co. of California—New Well—

This company on Aug. 21 announced today completion of an exceptionally high volume flowing oil well with attendant high pressures on its 9,616 acre lease on the North Freshwater Bayou prospect, Vermilion Parish, La.

This well, Louisiana Furs 2, flowed 41 degree gravity crude oil at the rate of 50 barrels a day from the interval 13,972-13,982 feet. The well also penetrated the prolific gas condensate sands which are present in the company's discovery well 2,000 feet east of the Louisiana Furs 2.—V. 188, p. 590.

Union Pacific RR.—July Earnings Slightly Off—

With a net income from all sources of \$5,322,660 for July, this company reported its best month since March.

This figure was only \$57,060 less than the net income from all sources of \$5,379,720 for July, 1957. This was the smallest decrease for any month so far reported by Union Pacific in 1958 as compared to the same period last year.

Net income from oil and gas operations, excluding income taxes, for July was \$1,797,559 as compared to \$2,182,812 for the same 1957 month, a decrease of \$385,253. However, there were increases of \$75,227 and \$248,344 respectively in net income from transportation operations and income from investments and other sources.

For the first seven months of this year net income from all sources was \$35,070,876 as against \$39,199,706 for the same period last year, a decrease of \$4,128,830. Considered as per share earnings on common stock, this was \$1.47 as compared to \$1.66.

Adds 100 New Caboosees—

Addition of 100 new caboosees to this railroad's car fleet is scheduled to begin in November, it was announced on Aug. 27 by Arthur E. Stoddard, President.

Construction of the units, extending over a three-month period, will be done in the railroad's Omaha, Neb., shops. Cost figures will be about \$1,900,000.

Merger Approved—

The Interstate Commerce Commission on Aug. 28 approved a modified plan for acquisition of control by this company of the Spokane International RR.

The Commission also ordered that, except as modified, its original decision of Dec. 20, 1956, in which it authorized Union Pacific's control of Spokane International through stock ownership, shall become effective 40 days from Aug. 27.

The Commission originally authorized Union Pacific to issue 181,133 shares of \$10-par common stock in exchange for not less than 80% of the outstanding no-par common stock of Spokane International.

However, because of Court action and a stockholder controversy, the effective date of the Commission's order was postponed.

On June 20 the Union Pacific proposed a modification of the Commission's order. This modification would provide for the exchange of 1.04 shares of Union Pacific stock for each share of Spokane International instead of the exchange of one share of Union Pacific stock for 1.1 shares of Spokane International, as originally authorized. The Commission, in approving the modification, authorized Union Pacific to issue 207,218 shares of \$10-par common stock to be exchanged for not less than 80% of Spokane International's outstanding no-par common stock.—V. 188, p. 794.

United States Life Insurance Co. (New York)—Plans Stock Dividend—

The directors have called a stockholders' meeting for Oct. 9 to act on a recommendation by the board for an increase in capital that would permit a stock dividend.

In a letter to stockholders, Roy Tuchbrieter, Chairman, and R. H. Belknap, President, said the proposal calls for an increase in capital to \$2,750,000 from \$2,200,000. "In order that the board of directors, in its discretion, may declare a stock distribution at the rate of one share for each four shares held of record on a date to be determined later."

Continental Casualty Co., of which Mr. Tuchbrieter is also Chairman, now owns 149,100 of U. S. Life's 1,100,000 outstanding \$2 par shares. It has announced plans to distribute about 116,704 of those shares to its own stockholders Oct. 7, at the rate of one U. S. Life share for each 25 Continental Casualty shares held on Sept. 22. This will reduce its interest in U. S. Life to less than 3%.—V. 184, p. 51.

United States Rubber Co.—Introduces New Tire—

A new, "low profile" passenger tire designed to meet the increased need for tire safety brought about by today's faster, heavier cars and high-speed highways, was introduced on Aug. 28 by this company.

The tire embodies new concepts in structure and tread design and is made of specially refined forced rubber. It gives 60% more mileage than first-line tires now on the market and provides "built-in" stability at maximum turnpike speeds, according to company tire engineers.

The new tire, called the Low Profile U. S. Royal Master, is oval-shaped in cross section—wider than it is high—and has a low look. On a 15-inch wheel it lowers the height of the car as much as a conventional tire on a 14-inch wheel. The low profile tire flexes less as it rolls than conventional tires, making it smooth riding and cooler-running, especially at higher speeds.

The oval shape of the tire and its long, low-angled nylon cord construction give greater stability to the tire, much as a wide stance gives a man more resistance to a sideways push. This results in faster response to steering and safer travel around curves.

U. S. Rubber tire engineers said the new tire is capable of sustained operation at the maximum performance limits of any standard passenger car currently in production in America.—V. 188, p. 794.

Universal Marion Corp.—Earned \$1.11 Per Share—

James Mullaney, President, on Aug. 25 reported that the corporation showed a net income of \$1,925,866, equivalent to \$1.11 a share on 1,740,477 outstanding shares, in the first half of 1958. This income included nonrecurring items.

After eliminating these nonrecurring items for both 1958 and 1957 the corporation reported net income of \$1,853,780, or \$1.06 a share, compared with \$2,178,893, or \$1.25 a share, based on the number of shares currently outstanding, for the six months ended June 30, 1957.

The 1958 first half results included earnings from the beginning of 1958 of the Scullin Steel Co. Division, St. Louis, which was acquired in April of this year. Mr. Mullaney said.

Sales, including Scullin Steel's volume, amounted to \$22,242,780, as against \$22,932,808 in the corresponding 1957 period.

In the quarter ended June 30, 1958, the corporation had a net income including nonrecurring items of \$815,103, or 47 cents a share.

Excluding nonrecurring items of income, the second quarter net income was \$787,775, or 45 cents a share, against \$1,046,726, or 60 cents a share in the corresponding 1957 period.

Mr. Mullaney said that the corporation had decided to defer until after the beginning of 1959 its application to list the shares of the corporation on the New York Stock Exchange. The shares currently are traded on the American Stock Exchange and the Philadelphia-Baltimore Stock Exchange.

In addition to Scullin Steel, which manufactures railway car castings, Universal Marion's Divisions are Marion Power Shovel Co., Marion, Ohio, which manufactures excavating equipment, and Southern Pipe & Supply Co., which distributes flanges, weld fittings, irrigation pipe and mill supplies from various locations in Florida.—V. 188, p. 489.

Upper Peninsula Power Co.—Private Placement—It

was announced on Sept. 3 that the company has arranged to place privately, through Kidder, Peabody & Co. Inc., \$3,500,000 of 4¼% first mortgage bonds due Sept. 1, 1988; \$1,000,000 of 5¼% sinking fund debentures due May 1, 1978, and 24,375 shares of common stock (par \$9).

The proceeds are to be used in connection with the company's construction program.—V. 186, p. 2418.

Utah Power & Light Co.—Financing Postponed—

This company has put off for a second time a proposed sale of \$20,000,000 in first mortgage bonds.

It had originally been intended to offer the issue publicly early in August, but then put off the bidding deadline to Sept. 9 on account of disturbed bond market conditions. No new date has been set for the proposed sale, according to advices received in underwriting circles.

The company plans to use the proceeds from the sale of the new bonds principally to replace at lower cost an existing issue of 5¼% securities.—V. 188, p. 694.

Ventures Ltd.—Partial Redemption—

The corporation has called for redemption on Oct. 1, next, through operation of the sinking fund, \$500,000 of its 4½% debentures, due Oct. 1, 1969 at par plus accrued interest. Payment will be made at the Toronto branch in Canada of The Canadian Bank of Commerce or The Canadian Bank of Commerce Trust Co., 20 Exchange Place, New York, N. Y.—V. 185, p. 2854.

Vulcan Mold & Iron Co.—Expansion Completed—

This company has completed a two-year expansion which raises productive capacity by 40,000 tons to 185,000 tons yearly and improves operating efficiency, James M. Underwood, President, reported on Sept. 3. Cost was in excess of \$500,000.

Major part of the tonnage increase has been added to the firm's Chicago District plant at Lansing, Ill., now rated at 90,000 tons yearly. The additions at the Latrobe, Pa., plant (95,000 tons yearly) primarily improve efficiency and prepare for further growth projected in long-term plans.

Further new installations, to expand the manufacture of molds for consumable electrodes and so enable the company to keep pace with requirements of the recently developed vacuum melting process, will be made this autumn at Latrobe. Cost will be an additional \$65,000.—V. 181, p. 1359.

Warner Bros. Pictures, Inc.—Sells Film Lab.—

This corporation and Technicolor, Inc., on Sept. 3 jointly announced that on Aug. 29, 1958 the acquisition by Technicolor of the Warner film laboratories, building and equipment, located in Burbank, Calif., and Brooklyn, N. Y., had been completed. The purchase price was not disclosed.

For some time Technicolor has been handling a substantial part of Warner's film laboratory and processing requirements.

Dr. Herbert T. Kalmus, President and General Manager of the Technicolor companies, in commenting upon the completion of this transaction, said: "For more than 40 years Technicolor has provided the motion picture industry with its requirements in color including the widest variety of prints to meet its constantly changing demands.

These services and products have been confined to the field of color and now for the first time Technicolor is preparing to provide the motion picture industry with the requirements in black and white. Warner Bros. Pictures, Inc. is our first customer for black and white among the major Hollywood studios. Our English affiliate, Technicolor Ltd., has been doing black and white work and Technicolor Italiana in Rome will be prepared to offer these services in the very near future."

In addition to the announcement that Technicolor was starting operations in the black and white field, Dr. Kalmus stated that the expansion of the Technicolor West Coast amateur color film processing business would utilize the Burbank property acquired from Warner Bros. The erection of a new building has been planned for this purpose.—V. 188, p. 694.

Warner & Swasey Co.—Earnings—

Product income (net sales and income from leased products) for the first six months of 1958 was \$21,012,436, and net profit after taxes was \$507,780. This represents 51 cents per share and amounts to 2.4% margin on product income.

Walter K. Bailey, President, on Aug. 25 said: "The first half of 1958 has been a very difficult period in the capital goods industry, and it has been difficult for us. New orders and shipments have been at a low but quite consistent level during the first six months, and rather extreme measures have been necessary in order to maintain a profit position. As a result, there have been radical reductions in personnel, hours, salaries and expenses, but these have been made without any major curtailment in sales, engineering, development, and research effort."

"With the many indications of an improvement in the level of general business, it seems reasonable to assume that there will also be an improvement in the level of our new orders during the latter part of the year."—V. 187, p. 1254.

Wellington Equity Fund, Inc.—Registers With SEC—

This newly-organized investment company of Claymont, Del., filed a registration statement with the SEC on Aug. 29, 1958, covering 2,000,000 shares of its common stock, to be offered for public sale at \$12 per share. Kidder, Peabody & Co., Bache & Co., Reynolds & Co., Inc., and Dean Witter & Co. are listed as the principal underwriters.

The investments of the fund will be under the management of Wellington Co., Ltd., an affiliate of The Wellington Co., with substantially the same officers, directors and personnel. The prospectus lists Walter L. Morgan of Claymont as President.—V. 188, p. 393.

Western Minerals, Inc., Lakeview, Ore. — Files With Securities and Exchange Commission—

The corporation on Aug. 25 filed a letter of notification with the SEC covering 2,000 shares of common stock (no par) to be offered at \$10 per share, without underwriting. The proceeds are to be used for expenses incidental to mining operations.

Western Union Telegraph Co.—Signs CAA Contract—

Signing of a \$1,250,000 contract by the Civil Aeronautics Administration, U. S. Department of Commerce for the provision of a fully automatic, high speed telegraph communications system for the Pacific area international air traffic communications station at Honolulu was announced by this company on Sept. 2.

Western Union will design and build the center, supervise its installation in January 1960, and train CAA personnel in its operation and maintenance.

From the center will radiate many circuits linking it with the entire Pacific area from Alaska to the Philippines and San Francisco to Tokyo.—V. 188, p. 591.

Westminster Paper Co., Ltd.—Changes in Personnel—

Two new executive appointments have been announced by J. J. Herb, Chairman of the Board of Directors, viz.:

Arthur F. Armstrong was elected President and Managing Director of the company which has its headquarters in New Westminster, B. C., Canada. John Ashby, who was Vice-President in charge of manufacturing and a member of the board of directors, was elected to the position of Executive Vice-President. In addition to his new duties, he will continue in charge of manufacturing operations.

Prior to this appointment, Mr. Armstrong was serving as director of industrial relations at Scott Paper Co. Scott owns a substantial stock interest in Westminster Paper Co. Ltd. which is licensed to manufacture and market Scott's trademarked products in Canada.

The appointments were made following the death on Aug. 8 of Elmer M. Herb, who had been President and Managing Director of the company since 1945.—V. 181, p. 1359.

White Motor Co.—New Autocar Models—

The company's Autocar division is adding "axle-back" models to its new All-Lightweight Design highway trucks and tractors, incorporating the new Autocar concept of payload weight engineering in truck design.

The new lightweight models save up to 25% in tractor weight as compared to standard weight vehicles and up to 1,800 pounds under other present lightweight vehicles currently available.

K. A. Roesch, Autocar Division Vice-President, is announcing start of production on a full range of tractor and truck, four and six-wheel models, both "axle-forward" type for the bridge formula states and "axle-back" models for the non-formula states. They are available in diesel power ranging from 180 to 262 horsepower with a variety of transmissions.—V. 187, p. 2707.

Wisconsin Electric Power Co. — Registers Proposed Stock Offering With SEC—

This company on Sept. 3 filed a registration statement with the SEC covering 510,005 shares of its \$10 par common stock. The company proposes to offer the stock for subscription by holders of outstanding common at the rate of one new share for each ten shares then held. The record date and subscription price are to be supplied by amendment. No underwriting is involved.

The company expects to use the net proceeds of the stock sale for the purpose of reimbursing its treasury for capital expenditures heretofore made and for meeting in part the cost of further additions and improvements to its utility plant. In connection with its continuing construction program expenditures of approximately \$40,000,000 have been budgeted by the company for 1958 and an additional \$40,000,000 is expected to be spent for such purposes in 1959.—V. 188, p. 795.

Wizard Boats of Tennessee, Inc., Dickson, Tenn.—

Stock Offered—Clark, Landstreet & Kirkpatrick, Inc. and W. N. Estes & Co., Inc., both of Nashville, Tenn., on Aug. 28 offered publicly 150,000 shares of common (par one cent) and 75,000 common stock purchase warrants in units of one share of common stock and one-half common stock purchase warrant at \$2 per unit. These securities are offered as a speculation.

PROCEEDS—The net proceeds are to be used to pay for research and development of subsidiary, to repay open note, research and development costs, for purchase of raw materials and supplies and any balance will be used for working capital, etc.

BUSINESS—The company was incorporated in Tennessee on June 26, 1958, for the purpose of succeeding to that portion of the business of Wizard Boats, Inc., a California corporation carried on in 37 states east of the Rocky Mountains. The company's mailing address is P. O. Box 227, Dickson, Tenn.

New Stimulus for Industrialization Seen—President Eisenhower's approval of an amendment to the Fair Labor Standards Act was interpreted recently as a definite "encouragement" for Puerto Rico's decade-old industrialization program, "Operation Bootstrap."

The new FLSA amendment puts an end to time-consuming annual minimum wage hearings for industries in Puerto Rico involved in interstate commerce. Under the new legislation, reviews of Puerto Rican wage revisions are now with a few minor exceptions scheduled once every two years. The law is retroactive to July 1, 1958.

Affected are such fast growing U. S. affiliated industries as apparel, textiles, paper, electronics, chemicals, pharmaceuticals, leather products, plastics, rubber, metalworking, machinery, stone, glass, and foodstuffs. U. S. manufacturers, who account for 90% of Puerto Rico's recent industrialization under the Bootstrap program, to date have invested \$300,000,000 in more than 500 new factories in the Commonwealth. These employ some 38,000 workers.

In San Juan, Governor Luis Munoz Marin, commented:

"The now discarded annual wage review system worked an aggravating hardship upon employers and in the long run was disadvantageous to the workers of Puerto Rico, because it slowed down the process of creating better employment opportunities."

"The new law will certainly be an added encouragement to industry to take advantage of Puerto

Rico's unusual industrial facilities. In addition, it has the approval of the labor leadership in Puerto Rico as well as in the United States."

In New York, Rafael Durand, Executive Director of Puerto Rico's "Operation Bootstrap" agency, the Economic Development Administration, said:

"We already have received reports from our men in the field that a number of manufacturers are stepping up plans to expand to Puerto Rico, based on news of the change in minimum wage hearings."

Mr. Durand noted that the amendment "not only saves time but money as well." He estimated that eliminating annual wage reviews would save the U. S. Federal Government approximately \$120,000 a year.

In addition to ending annual wage reviews, the new act states that Puerto Rican industries now paying the statutory minimum of \$1 applicable in the U. S. will not be reviewed again until, and if, the U. S. minimum is increased.
