ACF Industries, Inc.—To Make Radar Beacons—

A $600,000 contract to produce radar beacons for the U. S. Army's newest battlefield surveillance drone, the SD-1, has been awarded to the company's Avion division, it was announced on July 9 by Richard F. Wehrlin, President of the division.

The beacons will be used for precision tracking of the drone when it flies unmanned photo reconnaissance missions for tactical troops, according to Mr. Wehrlin. He said the beacons make this possible because they amplify the signals beamed from radar tracking units.

The contract was awarded by the Radio Receptor Co., producer of the beacon system for the Radioplane SD-1.—V. 190, p. 149.

Adams Express Co.—Asset Value Rises—

As of—	June 30,'59	Dec. 31, '58	June 30,'58

* After deducting $1.25 capital gain dividend paid in December 1958. —V. 189, p. 145.

Aero Mayflower Transit Co., Inc.—Correction—

The following is a corrected version of a news release published in our issue of July 6:

This company and The American Express Co. have forged another link in the establishment of all-commercial handling of military household shipments between the United States and Europe, as well as the Middle East, with the purchase of nearly 900 new Sea Van containers, it was announced by Maurice Cameron, Manager of Mayflower's International Division.

The huge metal boxes, into which are packed individual shipments of household goods, have a capacity of 348 cubic feet and weigh 1,600 pounds each. They replace the military Conex containers formerly used in the transport of household goods overseas.

A total of 792 containers were purchased from Highway Trailer Co., Edgerton, Wis., with an additional 100 placed on order with a German manufacturer. Total expenditure for the new containers was placed at $300,000.

Delivery of the containers purchased from Highway Trailer is being made by barge to Mayflower's port agent in New Orleans, Douglas Public Service Corp. Already two barge loads—approximately 300 containers—have been delivered with the balance expected some time this Summer.

Mayflower's trans-Atlantic moving operations currently extend into Germany, Italy, Great Britain, Norway, Denmark, Spain and Libya. The house-to-house moving service is handled jointly with The American Express Co. See V. 190, p. 45.

Alco Oil & Chemical Corp.—To Redeem Pfd. Stock—

The corporation announced on July 13 through F. D. Andruss, President, that it has called all of the remaining outstanding 6% convertible preferred no par stock for redemption as of July 31, 1959. —V. 189, p. 1673.

Allied Colorado Enterprises Co.—Registers With SEC

This company, Boulder, Colo., filed a registration statement with the SEC on July 13, 1959, covering 3,000,000 shares of 25 cent par class A common stock, to be offered for public sale at 90 cents per share. The offering is to be made on a best efforts basis by Allen Investment Co., for which it will receive a selling commission of 15 cents per share. Allen J. Lefferdink, Board Chairman, is an officer and director and sole stockholder of the underwriter.

The company also seeks registration of 5,899,618 shares of class A common stock and 551,140 shares of class A-1 common stock for issuance under outstanding subscription agreements at 75 cents per share and 6,576,200 shares of class A common stock for issuance under outstanding option agreements at 25 cents per share. In the event that these options and agreements are not exercised, the underlying stock will not be issued. If all the stock subject to the aforementioned subscription and option agreements is purchased the company will receive $3,496,537 as the unpaid balance of the purchase price of $6,468,831, less underwriting and salesmen's discounts or commissions of approximately $46,200, payable to Mountain States Securities Co. and Allen Investment Co.

Allied was organized in 1956 as a holding company to operate subsidiaries engaged primarily in the lending, insurance, and real estate development businesses. Its principal subsidiaries are Mountain Savings and Loan Association ("Mountain Savings") in Boulder, Colo.; Equity General Insurance Company ("Equity General") of Miami, Fla.; and Mid-Continent Development Company ("Mid-Continent") of Denver, Colo.

Net proceeds of the sale of securities by Allied are to be used for various purposes, including a $500,000 contribution to surplus of Mountain Savings and Loan Association, $500,000 for the purchase of unissued stock of Equity General Insurance Co., $500,000 as contribution to working capital of Mid-Continent Development Co., and similar purposes.

The company now has outstanding 12,911,752 shares of class A common and 601,889 shares of class A-1 common.

Allied Petro-Chemicals, Inc.—Registers With SEC—

Allied Petro-Chemicals, Inc., Overbrook Hills, Pa., filed a registration statement with the SEC on July 14 covering 100,000 shares of class A common stock, to be offered for public sale at $4 per share. The offering is to be made on a best efforts basis by Philadelphia Securities Co., Inc., for which it will receive a selling commission of 72c per share, plus $22,000 for expenses. The underwriter also has acquired 30,000 shares of class B common stock from two stockholders of the company, which are convertible into a like number of shares of class A common.

The company's business consists of re-refining and blending of various previously used and semi-refined petroleum products into automotive, aircraft and diesel lubricants, and the custom refining and re-refining of various petroleum and chemical products for the U. S. Air Force, railroads, truck lines, ship yards, air lines, chemical companies, road contractors and other industries. It now has outstanding 170,000 shares of class B common stock. Net proceeds of the sale of additional stock will be added to current funds of the company and will be used, to the extent of approximately 50%, for the payment of the cost of increased inventory, preliminary training of additional sales force, costs of research and development of new products, and property extensions and improvements; and the balance will be added to working capital, used for the payment of liabilities and, to the extent available, to reduce borrowing on accounts receivable, to enable the company to take discounts on accounts payable, and for similar purposes.

The prospectus lists Louis E. Cutler as President. His wife owns 70,000 shares of class B common stock. James T. Duffy, Jr., treasurer, owns 70,000 shares; and the underwriter owns 30,000 shares.

American Alloys Corp.—Reports Profit—

For the first nine months of the fiscal year which ended May 31, 1959, the unaudited net profit after provision for taxes on income was $25,297. This compares to a loss of $14,990 for the same period last year. For the third fiscal quarter the deficit in the retained earnings account was decreased from $24,828 to $20,675, reflecting a profit after a provision for taxes on income of $4,153 for the period. Because of the deficit in the retained earnings account, the directors were not able to declare the July 1, 1959 dividend on the 6% cumulative convertible preferred stock. Including the July 1, 1959 dividend, there are accrued unpaid dividends of 52½c per share on this preferred stock.

There are $972,431 current assets to $421,504 of current liabilities. Inventories are at a satisfactory level.

The results for the third fiscal quarter continue to reflect the close margins between the price of scrap and the sale price of ingot, Ernest H. Benson, President, also announced.—V. 189, p. 145.

American Express Co.—New Packaging Service—

The company on June 30 announced a new "packaging" system to streamline and expand travelers cheque transactions at banks.

The new package has been designed to improve efficiency in handling the growing volume of travelers cheques being issued during the greatest travel boom in U. S. history, according to the company. The firm said that its annual volume of travelers cheques has doubled in the past nine years, and that in the first quarter of 1959, sales were 11% higher than in the same period last year.

Basis of the new package system is the pre-packaging of cheques in wallets, with all record forms attached, and pre-printed record information. Virtually any transaction can be completed in less than 90 seconds. Under the existing system now being replaced, the bank teller selects, counts, records and binds the cheques in a packet, and calculates charges, all by hand. With the new packaging, he selects a self-contained unit from stock in the amount requested and only needs to date it.—V. 189, p. 2561.

American International Corp.—Asset Value Rises—

Capital stock outstanding	2,249,380	2,249,380	2,250,600

* After deducting 88 cents capital gain dividend paid in December 1958.—V. 189, p. 145.

American Machine & Foundry Co.—New Installations

The United Kingdom now has automated tenpin bowling for the first time with the beginning of play on four AMF Automatic Pinspotters at the U. S. Air Force's Woodbridge-Bentwaters Air Station in London, England.

Products of American Machine & Foundry Co., the machines which set the pins and return the ball automatically were the first of their kind to be installed in Europe at Lindsey Air Station, Wiesbaden, in late March, followed by other installations at Air Force bases in Hahn, Germany, and Chateauroux, France.

AMF also launched automated bowling on a commercial scale in Europe with the operational start-up of eight machines in a Stockholm recreation center on June 14.

Tenpin bowling will be introduced to the Belgians for the first time this Fall as the result of a contract awarded to American Machine & Foundry Co. for 28 AMF Automatic Pinspotters and related bowling equipment, Morehead Patterson, AMF Board Chairman announced on July 7.

Mr. Patterson said negotiations have been completed with S. A. Les Exploitations Crosly of Brussels, operator of a chain of motion picture theaters in Belgium, who will invest $800,000 in three bowling centers to be equipped with AMF's "Streamlane Decor" equipment and 28 AMF Automatic Pinspotters.—V. 190, p. 46.

Indenture Trusteeship Approved—

The SEC has issued an order granting the company's application for an order under the Trust Indenture Act declaring that trusteeship of Morgan Guaranty Trust Company of New York under three trust indentures is not likely to involve a material conflict of interest.—V. 189, p. 2886.

Amoco Chemicals Corp.—To Increase Facilities—

"Facilities for manufacture of high impact and conventional polystyrene will be built by this corporation at Joliet, Ill.," Jay H. Forrester, President, announced on July 10. "Ground will be broken next month," he continued.

"Construction of both large-scale commercial and product development plants will be started simultaneously on a company-owned tract South of the City. The commercial plant is scheduled to be completed by the third quarter of 1961," Mr. Forrester stated. "The product development facilities are expected to be in operation by the second quarter of 1960 and will produce a variety of polymers for full scale customer evaluation. Following commercial plant completion, the product development facilities will continue to be operated for further product improvement.

"This plant operation will be based on a process for the manufacture of polystyrene developed by the research laboratories of Standard Oil Co. (Indiana) at Whiting, Ind. Research will continue and a commercial technical service program will be established so that Amoco may make a contribution to the thermoplastic processors and the polystyrene industry.

"When these and other related projects are completed, the company envisions a total expenditure for this program of several million dollars," Mr. Forrester concluded.—V. 188, p. 2349.

Anchor Post Products, Inc.—Expects Rise in Net—

First half earnings will "undoubtedly be much better" than last year when the company earned $173,686, or 45 cents a share, in the first six months, C. W. Burton, Jr., President, said.

Mr. Burton said orders received for the first five months were running "better than 21%" ahead of 1958 with a backlog "at least 20% over last year." He said that "not more than 5%" of the sales gain has been traceable to hedge buying in anticipation of a steel strike.

A steel strike "would have some effect" on business, but the company "is well stocked right now," Mr. Burton said. Because of steel strike fears, the company "has more business than it can handle," he continued, adding that some wholesale customers were being told they could not expect shipments until July rather than a normal

maximum wait of 10 days to two weeks. "We've tried to inventory to keep going for several months after a strike starts," Mr. Burton said.

Speculating on the full year, Mr. Burton said he expected sales to be "better than 1958" and "no worse, I hope, than 1957."

Net sales in 1957 were $17,891,444. The all-time high was set in 1955, when net sales were $19,926,741.—V. 184, p. 2770.

Armco Steel Corp.—Takes Option on Acreage—

The company's Sheffield Division has taken options on acreage in Jackson and Lafayette Counties, Mo., for the purpose of core drilling and prospecting for iron ore, R. F. Kuhnlein, Vice-President—operations, announced on July 8.

Mr. Kuhnlein said the options extend for a period of several years. "We hope that during this time more can be learned about possible deposits of iron ore in this area," he said.

"The acreage under option has been selected for prospecting as a result of an airborne magnetometer survey," Mr. Kuhnlein stated. "Only by core drilling, however, can we determine if iron ore is present in quantity and quality to make mining economically feasible."

Mr. Kuhnlein said he hopes that a commercial iron ore deposit is present in the Jackson-Lafayette county area but he added that undue optimism is not justified at this state of prospecting.—V. 189, p. 2778.

Arnold Altex Aluminum Co.—Earnings Higher—

Six Months Ended April 30—	1959	1958
Net sales	$4,560,231	$3,660,407
Cost of goods sold	3,185,967	2,546,498
Gross profit	$1,374,264	$1,113,909
Expenses	1,047,987	811,095
Provision for income taxes	145,400	138,838
Net income	$180,877	$163,976

Sales gained additional momentum in May and June 1959—topping $2,100,000 for the two months with June showing the largest sales volume this year. We anticipate no difficulties in exceeding the goal of $11,000,000 set at the beginning of the year with our heaviest quarter for sales still in front of us.

The directors took a momentous step last month with the acquisition of seven Maryland real estate corporations in exchange for the issuance of shares of Arnold Altex common stock. Principal assets of these companies are improved real estate with a value close to $3,000,000. These acquisitions mark Altex company's first step into the real estate field. It is anticipated such activities will enhance future earnings, and are presently exploring the possibilities of further expansion into Florida real estate.—V. 189, p. 477.

Automation Instruments, Inc.—Backlog $1,750,000—

This corporation has tripled in size with the acquisition of Mid Continent Manufacturing, Inc., Corwin D. Denney, Chairman, and J. Randolph Richards, President, noted July 8 in the annual report to shareholders.

Figures for the fiscal year ended April 30, 1959 were reported on a pro forma basis, as if the companies now comprising Automation Instruments had existed as a combined organization for the entire year. The acquisition was completed May 29, 1959.

Consolidated net sales, with the exception of the Industrial Leasing Division, equalled $2,531,593. The largest source of revenues was in machine milling and chemical milling of complex missile and aircraft parts with electronics including ultrasonic nondestructive testing equipment in a close second. The Industrial Leasing Division wrote leasing contracts totalling $301,000 during the year. Sales for the fiscal year ended April 30, 1958, which was prior to the acquisition, amounted to $869,829.

Net profit after all charges was $94,734 or 10 cents a share on the 986,140 shares of common stock outstanding at April 30 on the pro forma basis. The year before, the company, as it was then constituted, earned $44,685 or 10 cents a share on the 436,989 shares then outstanding.

Backlog at the year end was $1,750,000. Prior to the acquisition, backlog was never of major significance.

"Our activities are well-balanced between those meeting sizable current demand and those advanced in concept and technique with high future potential," the executives said. "The acquisition should result in a number of economies, especially in sales and administrative expenses, leading to improved profit ratios.

"In recent months, sales and profits have increased after the early months of fiscal 1959 were affected by the recession and the aftermath of the defense austerity program. Thus we are very optimistic about the year ahead," they commented.

The company, with 1,848 stockholders of record located in 35 states is currently applying for listing on the American Stock Exchange.

The current ratio substantially improved to 1.7 to 1 at April 30, 1959 from 1.2 to 1 a year earlier. In its nine divisions in four states, Automation has under lease a total of 104,000 square feet of floor space. Employees total about 190 with a high percentage being scientifically and technically oriented.—V. 183, p. 2413.

Baird-Atomic, Inc.—Common Stock Offered—White, Weld & Co. and associates on July 15 offered 180,000 shares of common stock at a price of $12.50 per share. The offering was oversubscribed and the books closed.

PROCEEDS—Net proceeds from the sale of the common shares will be used by the company to pay off in full short-term borrowings incurred for working capital purposes. The balance of the proceeds will be used to finance increased inventories, accounts receivable and for other working capital purposes.

BUSINESS—Company is engaged in the design, development, manufacture and sale of optical equipment and atomic/electronic instruments, and is engaged on a contract basis in various research and engineering programs.

EARNINGS—For the seven months ended April 30, 1959 net sales of the company amounted to $4,513,792, compared with $3,843,196 in the like period last year.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

	Authorized	Outstanding
5% mtge. note ($2,375 due quarterly through May, 1967 and the balance, $97,375, due Aug. 30, '67)	$185,000	$173,375
5½% 10-year subordinated debentures due July 1, 1966	750,000	*638,000
Common stock ($1 par)	1,500,000 shs.	††714,190 shs.
¶Warrants for purchase of shares of common stock	75,000 shs.	*68,000 shs.

* The debentures are subordinated to all indebtedness for borrowed money. Debentures may be applied at par toward payment of the purchase price of shares of common stock upon exercise of the warrants by the holders thereof and accordingly the amount of debentures and shares subject to warrants to be outstanding may be reduced prior to the offering date from the amount shown.

† Does not include 60,460 shares and 68,000 shares reserved for issuance upon the exercise of outstanding restricted stock options and warrants, respectively, or 5,890 shares which may be issued upon exercise of additional options which may be granted under the company's restricted stock option plan.

‡ Of these shares 7,000 were issued on the exercise of warrants and 20,000 in a private sale. Of these 27,000 shares some may have been resold in transactions which would require registration under the Securities Act of 1933. If such is the case, it is possible that the company might have a contingent liability to repurchase the shares sold at the price paid by the purchasers thereof. Of these 27,000 shares, 7,000 shares were purchased at $6.375 a share and 20,000 shares were purchased at $7.50 a share.

¶ The warrants were issued concurrently with the company's 10-year subordinated debentures, no separate consideration being paid for the warrants. Each warrant entitles the warrant holder to purchase two shares of common stock, par value $1 per share, and may be exercised at $6.375 per share on or before July 1, 1961 and thereafter to July 1, 1966 at $7 per share. The bid price of the company's common stock on the date of issue of the warrants was approximately $5.50 per share and $14.00 on July 13, 1959.

UNDERWRITERS — The underwriters named below, through their representative, White, Weld & Co. have severally agreed to purchase from the company the following respective number of shares of common stock:

	Shares		Shares
White, Weld & Co.	40,000	J. A. Hogle & Co.	6,000
Blair & Co. Inc.	6,000	Kidder, Peabody & Co.	15,000
Burgess & Leith	3,000	Lehman Brothers	15,000
Chace, Whiteside & Winslow, Inc.	6,000	Mason-Hagan, Inc.	4,000
Coffin & Burr, Inc.	8,000	Reynolds & Co., Inc.	8,000
Francis I. duPont & Co.	8,000	F. S. Smithers & Co.	11,000
Granbery, Marache & Co.	6,000	William R. Staats & Co.	6,000
G. C. Haas & Co.	4,000	C. E. Unterberg Towbin Co.	4,000
Hemphill, Noyes & Co.	15,000	Dean Witter & Co.	15,000

—V. 189, pp. 2778 and 2887.

Baltimore Gas & Electric Co.—Tenders for Bonds—

The Bankers Trust Co., 16 Wall St., New York 15, N. Y., will until 3 p.m. (EDT) on Aug. 3, 1959, receive tenders for the sale to it of first refunding sinking fund bonds of any or more series to an amount sufficient to exhaust the sum of $2,002,570 at prices not to exceed 100% plus accrued interest.—V. 189, p. 2670.

Baxter Laboratories, Inc.—Expects Higher Earnings—

Sales for the six months ending June 30 should be about 10% higher than for the same period of last year and earnings for the entire year should be comfortably ahead of 1958 earnings of $2.50 per share, William B. Graham, President, said on June 30.

Mr. Graham said the growing sales volume is due mainly to diversification of the firm's product lines. Baxter is a medium-sized manufacturer of pharmaceutical specialties, intravenous solutions and enzymes, with 1958 sales of $25,100,000.

Mr. Graham predicted the company will make at least one acquisition during 1959. The $2,500,000 of preferred stock authorized at the recent annual meeting is available if needed for acquisitions, he said.

The company's major effort for growth, however, lies in its research and product development program, Mr. Graham said. He revealed for the first time the size of Baxter's research budget, saying that for 1959 it will be up 20% over last year to $1,500,000.

Last year Baxter's research investment was equal to about 90%

ESTIMATED CORPORATE FINANCING IN NEXT FOUR WEEKS

Looking strictly at corporate issues publicly offered for sale in the next four weeks, commencing July 20, total scheduled bond volume comes to $247 million, slightly up from last week's four-week projection, and common and preferred stock may tap the market for about $157 million, down $120 million compared to last week's four-week estimate.

The variables that can change the picture are, of course, changes in dates set, withdrawals and additions, and a different market picture from that seen at this writing.

The table below provides a weekly breakdown of estimated forthcoming equity issues and is compiled by the Corporate Financing Department of the *Commercial and Financial Chronicle*. The data come from government official and private sources. The figures exclude private placements.

Corporate Demand for Capital

	Bonds	*Stocks*	*Total*
July 20-24	$90,775,000	$61,835,480	$152,610,480
July 27-31	43,621,500	52,313,800	95,935,300
August 3- 7	29,996,000	30,034,300	60,030,300
August 10-14	82,462,100	12,725,000	95,187,100
Total	$246,854,600	$156,908,580	$403,763,180

Among larger issues to be marketed publicly in the oncoming period, July 20-August 14, are: $5.5 million Micronaire Electro Medical Products common and warrants on July 20; on July 21, $50 million Tennessee Gas Transmission Co. bonds, $10 million Northrop Corp. debentures and $5,135,000 Seeburg Corp. debentures; on July 22, 952,033 shares of Northern States Power Co. (Minn.) common, and $20 million bonds and $15 million preferred by Transcontinental Pipe Line Corp.; 396,000 shares of Public Service Co. of N. H. common on July 23; on July 27, 1 million shares of N. Y. Capital Fund of Canada, Ltd. common, 544,314 shares of common and $11,221,500 debentures by American-Saint Gobain Corp., and $15 million debentures by U. S. Plywood Corp.; $8 million Public Service Co. of N. H. bonds on July 29; on August 4, $15 million Pennsylvania Electric Co. bonds and $8,325,000 Georgia Int. Life Insurance Co. common; $10,996,000 Pacific Power & Light Co. debentures on August 5; on August 11, $30 million Michigan Bell Telephone Co. debentures and 191,703 shares of Controls Co. of America common; and $46,962,100 Pan American World Airways, Inc. debentures on August 12.

A detailed description of the above corporate financing may be obtained from the "Securities Now In Registration" Section of the July 16 Thursday issue of the *Chronicle*, and, of course, the extensive "General Corporation and Investment News" in the Monday issue.

July 16, 1959.

Digitized for FRASER

of net profit after taxes. Using the standard of how much of available profits management invests in research, Baxter's research effort is possibly the most intensive in the pharmaceutical industry, he said.

"About 80% of our research efforts are directed to short-term projects which should lead to a product at the marketing stage within two to three years," Mr. Graham said, "with the balance in long-term projects of a more specualtive nature."

Some new products from the company's research program mentioned by Mr. Graham are: (1) Urevert, a medical decompressant to reduce intracranial pressure resulting from head injuries, brain tumors and other disease; (2) Cube-Pac, a disposable plastic container for collecting blood; (3) Tona, a meat tenderizer now being test marketed for home use; (4) Mylase 100, an enzyme for use in pharmaceutical preparations as a digestive aid; (5) GG-Test, a simple and dependable test for determining the gamma globulin levels in human blood, and (6) CR-Test, a rapid silde test to determine the level of C-reactive protein in a patient's blood.

International sales, which are growing at a faster rate than domestic sales, are also contributing to the rising sales volume, Mr. Graham said. He revealed for the first time that International sales last year totalled $3,900,000 or 15% of the firm's volume.

Because of the growth potential in foreign countries, Baxter is consolidating the international operations of its divisions, so that eventually Baxter will have one International Division responsible for all of its products, Mr. Graham said.—V. 189, p. 1923.

Belmont Oil Corp.—Adjournment—

Paul Windels, Jr., Administrator of the New York Regional Office of the Securities and Exchange Commission, on July 14 announced that in the action now pending in the U. S. District Court for the Southern District of New York to enjoin this corporation, James B. Boren, Joel A. Fox, National Registrar and Transfer Company, Peerless-New York, Inc., Edward Cantor, Michael Cantor, Morris J. Reiter, d/b/a M. J. Reiter Co., Myron Rosenthal and Howard G. Stolle, d/b/a H. G. Stolle & Co., Carlton Securities, Inc., David Mendel, Harry Cohen and Abe Digelison from further violating the registration provisions of the Securities Act of 1933 in the offer and sale of common stock of Belmont Oil Corp., the Commission's motion for preliminary injunction was adjourned at the request of the defendants to Aug. 11, 1959.

In connection with the aforesaid adjournment, it was stipulated that James B. Boren, Peerless-New York, Inc., M. J. Reiter Co., Carlton Securities, Inc. and H. G. Stolle & Co., their agents, servants and employees shall not directly or indirectly sell or offer to sell shares of Belmont Oil Corp. in violation of the registration provisions of the Securities Act of 1933 or any other provision of the Federal securities laws, and United States District Court Judge Archie O. Dawson so ordered. See also V. 190, p. 151.

Beryllium Corp.—Forms New Affiliate—

Establishment of a new British company—Consolidated Beryllium, Ltd.—equally owned by The Beryllium Corp. of Reading, Pa., and Imperial Smelting Corp. Ltd., of London, a wholly-owned subsidiary of Consolidated Zinc Corp. Ltd., was announced on July 7 by Walter R. Lowry, President of The Beryllium Corp.

"The new firm, which Imperial Smelting will manage, will produce nuclear-grade beryllium metal and beryllium-copper master alloy as raw materials for sale to fabricators both in England and in Europe," Mr. Lowry explained. "It will be the first operation of its kind in the United Kingdom."

Imperial Smelting has been performing research and process development on beryllium production, including work done under contract for the U. K. Atomic Energy Authority, for the past six years. It recently announced an initial beryllium production facility at Avonmouth, England, which will now be operated by the new company when completed late this year.—V. 189, p. 1463.

Black-Clawson Co.—Italian Unit Established—

To handle its business in the Republic of Italy more efficiently, this company has established Black-Clawson Italia, it was announced on July 8 by Frank Peterson, President.

Black-Clawson Italia, an Italian corporation, is located at Via Meravigli 7 in Milano and is under the management of Dr. Virginio Zani. It provides sales and service in Italy for all of Black-Clawson's integrated line of pulp and paper mill equipment. Dr. Zani will receive close support from Black-Clawson engineers and technicians traveling to Italy periodically from European headquarters at Black-Clawson International, Ltd. in London.

Equipment supplied by Black-Clawson Italia includes pulp mill equipment, stock preparation units, paper and board machines, and paper and plastics converting machinery, produced either in the Black-Clawson International works in England or in the four plants of Black-Clawson in the United States. In addition, certain Hydrafiners, jordans and Hydrapulpers are manufactured under license in Italy by Figli di Carcano Gerolamo in Masilianico and sold by Black-Clawson Italia.—V. 189, p. 559.

(E. W.) Bliss Co.—To Sell Toledo Plants—

A decision to sell the company's inactive manufacturing facilities in Toledo was announced by Robert Potter, President. Formerly a metal-working press manufacturing plant, the facilities include a 165,000-square-foot Meehanite foundry capable of handling castings weighing up to 60 tons and a 230,000-square-foot heavy machine shop. The plants have been inactive for over a year.

In announcing the decision, Mr. Potter said that manufacture of Bliss machines formerly made at Toledo has been consolidated at the company's other plants. Service of Toledo built presses will continue to be handled from the company's other press building facilities at Canton, O., and Hastings, Mich.—V. 189, p. 1127.

Borman Food Stores, Inc.—Acquires New Markets—

Joseph Kron, Executive Vice-President, on July 11 announced the purchase by Borman of the American Stores Inc., operator of three supermarkets in Allen Park, St. Clair Shores and Riverview, Mich. Each of the units is a modern, 15,500-square-foot supermarket with parking facilities for more than 150 cars.

Borman operates a chain of supermarkets in the Detroit area under the name of Food Fair. They have no connection with other Food Fair stores outside metropolitan Detroit.

With this latest acquisition, Borman now has a total of 40 Food Fair markets serving metropolitan Detroit. Mr. Kron said he anticipates the additional stores will add $5,000,000 to the annual sales of the company.

In addition to this acquisition, Food Fair will open eight new markets during the last half of 1959, bringing the total of the chain to 48 stores.—V. 190, p. 152.

Boston & Maine RR.—Earnings—

Period End. May 31—	1959—Month—1958		1959—5 Mos.—1958

Boston Harbor Marina, Inc., North Quincy, Mass.—Files With Securities and Exchange Commission—

The corporation on June 29 filed a letter of notification with the SEC covering 756 shares of common stock (no par) and 1,512 shares of preferred stock (no par) to be offered for subscription by stockholders of record July 6, 1959 in units of one share of common and two shares of preferred as follows: to stockholders, $100 per unit; to the public, $125 per unit. No underwriting is involved.

The proceeds are to be used for expenses in operating a boat marina.

Bowater Power Co., Ltd.—Banker Elected to Board—

The appointment of G. Arnold Hart to the board of directors of this company has been announced by Sir Eric Vansittart Bowater, Chairman of the Bowater organization.

Mr. Hart is the President and Chief Executive Officer of the Bank of Montreal.

Bowater Paper Co. Ltd. is a subsidiary of the Bowater Corp. of North America Ltd.—V. 181, p. 2115.

Branson Instruments, Inc.—Registers With SEC—

This corporation, located at 37 Brown House Road, Stamford, Conn., filed a registration statement with the SEC on July 10, 1959 covering 40,000 shares of common stock. Of this stock, 10,000 shares are to be offered for public sale for the account of the issuing company; and the balance, representing outstanding stock, is to be offered for sale by the present holders thereof. The public offering price and underwriting terms are to be supplied by amendment. McDonnell & Co., Inc., is listed as the principal underwriter.

The company is engaged in the design, manufacture and sale of ultrasonic thickness testers and flaw detectors. It has outstanding 150,000 shares of common stock. Net proceeds of the company's sale of additional stock will be used in the amount of about $70,000 to finance additional inventory required in connection with the manufacture and marketing of its new pulse echo flaw detectors; and the balance will be added to general funds and be available for working capital purposes.

Broad St. Investing Corp.—Seeks Exemption Order—

This New York investment company has applied to the SEC for an exemption order permitting the issuance of its shares at net asset value for substantially all of the cash and securities of B. B. Geyer Company, Inc.; and the Commission has issued an order giving interested persons until July 24, 1959, to request a hearing thereon.

Under an agreement between Broad Street and Geyer, substantially all the cash and securities owned by Geyer with an adjusted total value of about $2,409,876 as of May 22, 1959, but giving effect to certain transactions completed after that date, will be transferred to Broad Street in exchange for shares of the latter's capital stock.—V. 189, p. 1791.

Canadian Pacific Lines in Maine—Earnings—

Period End. May 31—	1959—Month—1958		1959—5 Mos.—1958	
Railway oper. revenue	$590,660	$566,705	$4,586,830	$4,069,596
Railway oper. expenses	419,918	386,769	2,525,605	2,500,871
Net rev. from ry. op.	$170,742	$179,936	$2,061,225	$1,568,725
Net ry. oper. income	76,319	92,545	1,448,480	962,897

—V. 189, p. 2671.

Canadian Western Lumber Co., Ltd.—To Redeem Bds.

The corporation has called for redemption on Aug. 1, 1959, all of its outstanding first sinking fund 4% bonds, series A and B, due Aug. 1, 1962, at 101%. Payment will be made at the Canadian Bank of Commerce, Montreal, Toronto, Winnipeg or Vancouver, Can.—V. 178, p. 50.

Capital Reserve Corp.—Registration of Add'l Plans—

This Washington, D. C. investment company, filed an amendment on July 9, 1959, to its registration statement covering $1,000,000 Potomac Plans for the Systematic Accumulation of common stock of The Potomac Electric Power Co.—V. 188, p. 46.

Capitol Products Corp.—Leases Additional Space—

Read Standard, York, Pa., a division of this corporation in June announced the leasing of 25,000 sp ft. of additional manufacturing space from the York Division of Borg Warner Corp., according to A. G. Christensen, Readco General Manager.

"Increased sales at Readco have forced the company to seek additional manufacturing space to supplement the 270,000 sq. ft. now in use at Read Standard," Mr. Christensen stated. The acceptance of new products and especially the newly engineered bakery equipment utilizing aluminum for the first time, has been the prime reason for this necessary expansion.

Readco will use these aditional facilities for the manufacture of the Aluminum Patio Door which is part of the corporation's line of products for the prime building field. "Approximately 60 Read employees will be transfered to this new location which will be operated on a two shift basis," Mr. Christensen said.

The space vacated will be used to set up a production line to meet the increased demand for Readco vertical mixers used in the baking and chemical industries.—V. 189, p. 2564.

Carey Salt Co.—AEC Negotiating for Use of Louisiana Salt Mine—

The Atomic Energy Commission is negotiating with this company for use of the company's mine near Winnfield, La., for detonation of several non-nuclear high explosive charges, it was announced on July 10.

The purpose of the firings is to check the seismic effects resulting from these explosions. The activity is expected to involve about 10 detonations ranging up to five tons of high explosives.

Carolina & North Western Ry.—Earnings—

Period End. May 31—	1959—Month—1958		1959—5 Mos.—1958	
Railway oper. revenue	$265,324	$234,926	$1,398,586	$1,318,246
Railway oper. expenses	172,120	175,706	892,261	886,246

Net ry. oper. income	26,711	13,115	155,193	170,106

—V. 189, p. 2454.

Catalina Investment Co., Phoenix, Ariz.—Files With Securities and Exchange Commission—

The company on June 26 filed a letter of notification with the SEC covering pre-organization partnership interests in an aggregate amount of $149,150 to be offered in units of $17,457.50, through O'Malley Securities Co., Phoenix, Ariz.

The proceeds are to be used to purchase properties.

Celanese Corp. of America—Upgrades Division—

This corporation has organized three new companies to manufacture and market its fiber, chemical and plastics products. The activities formerly were conducted by divisions.

The new companies are the Celanese Fibers Co., Celanese Chemical Co. and Celanese Plastics Co. John W. Brooks was named President of Celanese Fibers. Richard W. KixMiller was appointed President of Celanese Chemical and of Celanese Plastics. Both will continue as Vice-President of the parent company. Mr. KixMiller is also a director of the corporation.

In announcing the changes, Harold Blancke, President of Celanese, said: "The new companies, having more distinct and autonomous identities, will provide more independent management and greater organizational flexibility in support of the parent company's long-range program to develop new and expanded markets for Celanese products."

Although both the chemical and plastics companies are headed by Mr. KixMiller, the two organizations will continue to function separately and independently, the announcement said.

Celanese had net sales of $223,708,844 last year. Fiber sales represented about two-thirds of the volume; the rest was about evenly divided between plastics and chemicals.

Mr. KixMiller joined Celanese in 1946. He was appointed Vice-President in charge of the chemical division in 1955 and was elected a director of the parent company in 1956. Mr. Brooks joined the company in 1955. He had been Vice-President in charge of the fiber division for the past three years.—V. 190, p. 152.

Cenco Instruments Corp.—Earnings 13% Higher—

Year Ended April 30—	1959	1958
Net sales	$15,032,904	$14,829,694

*Deficit.—V. 189, p. 2455.

Central Telephone Co.—Preferred Stock Offered—

Paine, Webber, Jackson & Curtis and Loewi & Co. Inc. on July 10 offered 80,000 shares of cumulative $1.35 dividend preferred stock at $25 per share, plus accrued dividends. Of the issue, 75,000 shares were quickly sold and the balance of 5,000 shares withdrawn.

BUSINESS—Central Telephone, a subsidiary of Central Electric & Gas Co., Lincoln, Neb., owns telephone properties servicing various communities in Minnesota, Iowa and North Carolina. Central Telephone subsidiaries provide telephone service in certain areas of Wisconsin, Illinois and Virginia.

PROCEEDS—Net proceeds from the offering of preferred stock, together with other funds, will be used to repay temporary advances from the parent Central Electric & Gas; for construction expenditures; for investments in stocks of subsidiaries; and for other corporate purposes, including the redemption of unconverted shares of 5.40% and 5.44% convertible preferred stock and the making of temporary advances to subsidiaries for construction purposes. Part of the funds for this program was obtained from the sale of 35,000 shares of common stock during April and May to Central Electric & Gas and the private placement in June of $1,000,000 principal amount of bonds. In addition, the company has a commitment from an institutional investor to purchase an additional $1,000,000 bonds prior to Nov. 1, 1959.

EARNINGS—Consolidated operating revenues of Central Telephone during the 12 months ended March 31, 1959 were $20,719,009 and net income after minority interest was $2,128,505.

CAPITALIZATION—Outstanding consolidated capitalization as of March 31, 1959, adjusted to reflect issuance of the shares offered today, the application of the proceeds and the sale of the $2,000,000 of additional bonds, comprised long-term debt of $16,444,000; 35,000 shares of $2.50 preferred stock (stated value $50), 12,158 shares of 5½% preferred stock ($100 stated value) and 80,000 shares of $1.35 preferred stock ($25 stated value); and 1,078,266 shares of common stock.—V. 189, p. 2671.

Chenango & Unadilla Telephone Co.—Places Bonds—The company has sold to the Mutual Life Insurance Co. of New York, $1,000,000 of 5¼% first mortgage bonds

The proceeds from the issue will be used to retire bank loans and for construction purposes.

The principal office of the telephone company is located in Norwich, N. Y. The company provides telephone service for most of Chenango County and for portions of 10 neighboring counties between Utica and Binghamton.

Purchase of this issue brings the insurance company's total investment "stake" in this telephone company to $3,500,000.—V. 187, p. 1203.

Columbia Broadcasting System, Inc.—Files Employee Stock Plan—

The company filed a registration statement with the SEC on July 9, 1959, seeking registration of 261,797 shares of common stock, which may be purchased pursuant to the company's Employees' Stock Option Plan.—V. 189, p. 2348.

Columbia Gas System, Inc.—Fees Approved—

The SEC has issued an order releasing jurisdiction with respect to underwriters' remuneration and certain other fees and expenses incident to the recently approved transactions proposed by The Columbia Gas System, Inc., and its subsidiary, Columbia Gulf Transmission Co.—V. 190, p. 153.

Consolidated Cigar Corp. — Secondary Offering — A secondary offering of 75,000 shares of common stock, priced at $59.50 per share, was made July 17 by Eastman Dillon, Union Securities & Co. and associated underwriters. At press time, on July 17, about 90% of the issue had been sold.

ORIGINAL HOLDERS—The selling stockholders are nine trusts, of which Samuel J. Silberman, Chairman of the company, and Marvin J. Silberman, President, are trustees and in which they have beneficial interests. The trusts will receive the proceeds of this offering. Marvin J. Silberman and Samuel J. Silberman owned at June 1, 1959, and will continue to own, in excess of 6% (each individually) of the outstanding common shares while all officers and directors as a group will own 13.57% of outstanding common shares.

BUSINESS—Company manufactures and sells cigars, including a number of widely-known brands sold within the popular price range. The corporation is believed to have the largest dollar sales in the industry.

EARNINGS—For the first three months of this year sales were $18,158,000, compared with $17,117,000 in the similar period of 1958, and net earnings for the three months were $580,000, compared with $512,000 for the 1958 period. For the calendar year 1958 sales were $82,188,000 and net earnings $3,648,000.

CAPITALIZATION—The corporation's outstanding capitalization consists of $18,393,000 of funded debt, 66,600 shares of preferred stock of no par value and 662,014 shares of common stock, $1 par. Quarterly dividends of 45 cents per share were paid on the common stock on April 1, and July 1, 1959.

Investment firms associated in the underwriting include: The First Boston Corp.; Goldman, Sachs & Co.; Kidder, Peabody & Co.; Lehman Brothers; Merrill Lynch, Pierce, Fenner & Smith, Inc.; Dean Witter & Co.; Bache & Co.; Bear, Stearns & Co.; Hemphill, Noyes & Co.; Wertheim & Co.—V. 189, p. 2888.

Consolidated Electrodynamics Corp.—Joint Venture

See Tenney Engineering, Inc. below.—V. 189, p. 2780.

Continental Commercial Corp.—Subsidiary Expands—

A. M. Pivirotto, President, on July 8 announced that a wholly-owned subsidiary, Keystone Thrift Corp., has just acquired for cash all of the assets of the Kittanning office of the Puritan Finance Co.

The office will now be known as the Keystone Thrift Corp. of Kittanning and it will continue business at its present location.

Continental Commercial Corp. now operates 19 loan offices in the State of Pennsylvania and this newest addition is another step in the planned program of expansion that the company now has underway.—V. 189, p. 2672.

Controls Co. of America—Registers Employee Stock Plan—

This company, located at 9555 West Soreng Ave., Schiller Park, Ill., filed a registration statement with the SEC on July 13, 1959, covering 160,000 shares of common stock. These shares have been or will be issued upon the exercise of options granted or to be granted employees and officers of the company or its subsidiaries under its 1959 Employees Stock Plan.—V. 190, p. 153.

Coral Ridge Properties, Inc.—Correction—

The SEC announced July 15 that its earlier report concerning the company's financing proposal, involving 450,000 shares of $0.60 cumulative convertible preferred stock (no par) and 450,000 shares of class A common stock (no par), incorrectly listed the conversion rights of the no par preferred stock and the $1 par preference stock. The no par preferred being offered for public sale is convertible into Class A common on a one for two basis, without additional payment. The $1 par preference stock is convertible into Class A common on a one-for-fifteen basis, upon payment of $3.33 per share of Class A common.

The offering is being underwritten by Cruttenden, Podesta & Co., Chicago, and J. R. Williston & Beane, New York City, and Associates, and is expected to reach the market on or about Aug. 12. Previous reference to the proposed financing appeared in our issue of July 13 on page 153.—V. 190, p. 153.

Coronado Investment Co., Phoenix, Ariz.—Files With Securities and Exchange Commission—

The company on June 26 filed a letter of notification with the SEC covering pre-organization partnership interests in an aggregate amount of $149,150 to be offered in units of $17,457.50, through O'Malley Securities Co., Phoenix, Ariz.

The proceeds are to be used to purchase properties.

Crosby-Teletronics Corp. — Common Stock Offered — Myron A. Lomasney & Co., New York City, on July 14 publicly offered 250,000 shares of common stock (par 25 cents) at a price $3.375 per share. Offered at the same time were 25,000 warrants, each of which entitles the holder thereof to purchase from the issuing corporation one share of common stock at a price of $3.375 a share at any time on or before June 30, 1964.

PROCEEDS—The net proceeds will be used for various purposes, as follows: $212,004.93 for repayment of a Regulation V Bank revolving credit loan obtained by Teletronics Laboratory, Inc., a subsidiary; $84,000 for repayment of bank loans obtained by Crosby Laboratories, Inc., another subsidiary; $125,000 to exercise options to purchase real property currently being leased by the subsidiary companies; $60,000 to discharge loans made by officers thereof to the respective subsidiaries; $50,000 as a loan, plus $10,000 as a capital contribution, to Crosby-Teletronics, Inc.; and the remainder for sundry other purposes and working capital.

BUSINESS—The corporation was incorporated under the laws of the State of New York on April 16, 1959. Its executive office is at 54 Kinkel Street, Westbury, L. I., N. Y. The company is for the present a holding company whose operating susbidiaries are: (1) Crosby Laboratories, Inc., located at 299 Robbins Lane, Syosset, N. Y., organized under the laws of the State of New York on April 1, 1950, and (2) Teletronics Laboratory, Inc., located at 54 Kinkel Street, Westbury, L. I., N. Y., organized under the laws of the State of New York on Oct. 14, 1948, both of which are wholly-owned subsidiaries. Crosby and Teletronics are principally engaged in the fields of radio communications and electronic test equipment. It is contemplated that the company will integrate as soon as practicable the operations of the company and the subsidiaries now operating as distinct enterprises, to effect more efficient operations.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

	Authorized	Outstanding
Teletronics loan secured by mortgage on real property payable to March 1, 1968 in monthly installments of $221.48 which include interest at the rate of 5% per annum	$28,000.00	$18,936.99
Amount payable by the company on account of salary accruals by Teletronics	140,019.24	140,019.24
Common stock (25c par value)	*2,000,000 shs.	†834,704 shs.
Warrants to purchase common stock at $3.375 per share expiring June 30, 1964	25,000 war.	‡25,000 war.

*This includes reservation of (a) 25,000 shares upon exercise of warrants and (b) 50,000 shares for issuance pursuant to the terms of a Stock Option Plan which has been proposed by the Board of Directors.

†Includes shares issued to the holders of all of the capital stock of Crosby and Teletronics in exchange for all of the outstanding shares of each such corporation. All of said holders including each of the officers and directors of the company executed a letter agreement with the company in which each such person represented that he was acquiring such securities for investment for his own account, with no present intention of dividing such participation with others or reselling or otherwise distributing the same. It does not include shares of common stock subject to warrants. If all warrants are exercised, this amount would be 859,704.

‡Aggregate of warrants originally issued, will be reduced when and if warrants are exercised.—V. 189, p. 2456.

Cross Co.—Enters Nuclear, Electronic Fields—

Acquisition by this company of Stephen F. Malaker Associates, radiation consultants in the nuclear and electronic fields, was announced on July 8 by Milton O. Cross, Jr., President.

The company also announced the establishment of Cross-Malaker Laboratories, Inc., with research laboratories and administrative facilities in Mountainside, N. J. The new company will operate as a wholly-owned subsidiary of The Cross Co. Terms of the transaction were not disclosed.

According to Mr. Cross, "our new research, development, and design facilities give the parent company access to technical talents which add a new dimension to automation." The Cross Company has been known for nearly 50 years as one of the leading developers and producers of automation machinery and techniques.

"One of the principal objectives of the Cross-Malaker Laboratories will be the practical combining of the atomic and electronic sciences as team-mates. The atomic science will supply the unique tools, transducers (energy sources), and techniques which will be fed into, read out, transmitted, converted, computed or controlled by their specially designed electronic counterparts. The combination of the two sciences into an overall, integrated, automation concept is not only practical, but will prove to be economical in advanced technology," Mr. Cross declared.

"In addition, Cross-Malaker Laboratories will provide a complete scientific staff for development of industrial and military systems. Specifically, the service will include design and construction of prototype equipment, research reports, testing and evaluation, design of advanced technological equipment and systems engineering.

"Solid state research, low temperature research and Cryogenic Engineering will also be carried on. A continuing program will be conducted in basic and applied research of both high and low temperature alloys and materials. Special emphasis in the development of new techniques and applications in the broad field of radiation will be accelerated. We plan the development of devices and instrumentation that will take full advantage of radiation in more widespread, practical industry applications," Mr. Cross concluded.

The speaker also announced the appointment of Dr. Stephen F. Malaker as President of the new company.

Prior to the establishment of Stephen F. Malaker Associates in 1957, Dr. Malaker achieved renown as an authority in the nuclear fields. He is especially known for development work in advanced electronics, transistorized instrumentation and atomic reactors.

Dr. Malaker has been active in the field of atomic energy for nearly 20 years, practically since its inception. The Brookhaven Medical Reactor was constructed under his supervision, and he has also developed nuclear equipment for atomic submarines and aircraft. A former Fellow and Consultant to the Oak Ridge National Laboratory, he has also held numerous important industrial and academic positions.—V. 185, p. 2017.

Darco Industries, Inc.—Acquired—

See United States Chemical Milling Corp. below.

Dayton Rubber Co.—Forms International Unit—

A new division has been formed to unite all overseas activities of this company, Clowes M. Christie, President, announced on July 8.

The new division will be known as Dayton Rubber International. Headquarters will be in Dayton, Ohio.

The new division will embrace Dayton Rubber's current Foreign Technical Service Program as well as the export operations involving product shipments to 45 countries. Responsibility for Dayton Rubber's two foreign operating subsidiaries, Dundee, Scotland, and Toronto, Canada, also lies with the new division, Mr. Christie said.

"One of the major purposes of this move is to implement and strengthen a program of licensing for manufacture of Dayton Rubber's patented and trade-marked items," Mr. Christie said. "This means that by combining Dayton Rubber's technical know-how with production facilities in other countries, our products will be made and sold in all parts of the world."

Earlier this year Dayton Rubber also formed Strato Safety Corporation in Torrance, Calif. This subsidiary was established to develop and manufacture passenger and pilot safety equipment for jet and space travel.—V. 189, p. 2781.

Delaware, Lackawanna & Western RR. — Proposed Merger—

The stockholders on Sept. 22 will vote on approving the merger of this company into the Erie RR. It had been approved by the directors of both roads on June 24. The proposed consolidated company is to be known as Erie-Delaware RR. Co., with headquarters in Cleveland, Ohio. It is hoped that the merger will be successfully consummated during the first half of 1960.

Detroit Hardware Mfg. Co.—Epstein Chairman—

Philip Revitz, President, on July 2 announced that Julius Epstein, Chicago financier, has been elected Chairman of the Board of Directors of this company, and that Harley V. McNamara, President of the National Tea Co., and George J. Fitzgerald, President of the Michigan Avenue National Bank, Chicago, have been elected to the board.

Detroit Hardware until recently was a component of Trans Continental Industries, Inc., Detroit. In April of this year its assets were segregated to form an independent company, Mr. Revitz explained. He said that by Sept. 30, 1959, stockholders of TransContinental will receive one share of common stock in Detroit Hardware for each share they own of Trans Continental.

Mr. Epstein's other business associations are many. He is chairman of the board of American Shopping Centers, Inc., which operates 22 shopping centers nationally; is Vice-President, financial consultant, and a director of Spector Freight System, Inc., Chicago, one of the nation's largest motor freight carriers; has an interest in several nationally known hotels and office buildings, including the Neil House in Columbus, the Henry Grady in Atlanta, the Marott in Indianapolis, the Park Shelton in Detroit, and the Milwaukee Inn in Milwaukee.—V. 184, p. 4.

Diamond Alkali Co.—Issues New Brochure—

"The Diamond Chlorination Cell" is the title of a comprehensive 12-page brochure just published by the company's Electro Chemicals Division.

The informative, factual booklet, prepared expressly for manufacturers in the pulp and paper industry, presents technical data on Diamond's new, rugged sensing element, designed for pulp chlorination applications.

Explained in the brochure are specific details about the cell; its three-fold advantage over other sensing elements, plus its varied applications.—V. 189, p. 2673.

Diketan Laboratories, Inc.—Profit 60% Higher—

Net profit after provision for taxes for the first nine months of the 1959 fiscal year ended May 31 amounted to $54,281, or 13 cents per share, according to Dr. Michael J. Walsh, President. This represented a 60% increase over the net profit for the entire 1958 fiscal year.

Net sales for the nine months were $831,519.

Dr. Walsh acknowledged recurrent rumors of merger negotiations had some basis in fact. "We are currently discussing acquisitions with several companies in related lines but none of these situations have as yet matured to a stage justifying an announcement. We are primarily interested in acquiring proprietary or 'patent medicine' companies to broaden and diversify our operations in the pharmaceutical field."—V. 189, p. 2240.

Dow Chemical Co.—Adds to Tanker Fleet—

Keel laying for a new liquid chemical tanker which will be added to this company's fleet took place July 1, at the Quincy (Mass.) Yard of the Bethlehem Steel Corp.'s Shipbuilding Division.

The vessel, as yet unnamed, is scheduled for launching about Mar 1, 1960. She is scheduled for delivery in June, 1960.

The vessel will join the Marine Chemist and Marine Dow-Chem in providing economical means of shipping Dow products to customers and interchanging chemicals among units of the Dow organization.

Marine Transport Lines, Inc., will own and operate the ship, which will be leased to Dow.—V. 190, p. 49.

Dreyfus Fund, Inc.—Registers With SEC—

Amendments were filed July 13, 1959, by the following companies to their respective registration statement seeking registration of additional securities, as indicated: (1) The Dreyfus Fund, Inc. of New York—3,000,000 shares of capital stock; (2) Haydock Fund, Inc. of Cincinnati—40,000 shares of capital stock; and (3) Investors Planning Corp. of America, of New York—$29,000,000 of Systematic Investment Plans and $1,000,000 of Single Payment Investment Plans.—V. 187, p. 1431.

Dunco Realty & Equipment Corp.—Securities Offered—On July 15, this Norwich, N. Y., corporation offered to New York State residents $300,000 of 6% registered convertible 20-year debentures, series 1959, at 100%. The proceeds will be used for the construction of four supermarkets and for working capital. The underwriter is William N. Pope, Inc., of Syracuse, N. Y.

Dunn Engineering Associates Inc. — Common Stock Offered—Schirmer, Atherton & Co., Boston, recently made public offering of 100,000 shares of class A common stock ($1 par) at a price of $3 per share.

BUSINESS—Company was incorporated under Massachusetts law on June 19, 1951 and originally was started as a part-time activity of a group of engineers then on the staff of Massachusetts Institute of Technology. Beginning in 1955, the principal members of the group devoted their full time to the operation and development of the company. Company is engaged in research, development and custom manufacturing in electronics. Its work is principally in the areas of missile guidance, radar, and specialized test and checkout equipment.

PROCEEDS—About two-thirds of the proceeds of the financing will be used primarily to expand the company's technical and sales staff and to conduct more extensive research activities; the balance will be applied toward the reduction of unsecured demand notes.

CAPITALIZATION—Authorized capitalization consists of the present issue of 100,000 shares of class A common ($1 par), and 100,000 shares of class B common, of which 31,953 shares are presently outstanding, including 183 shares held in the Treasury.

Eagle Plains Developments Ltd.—On Canadian Restricted List—

The SEC on July 8 announced the addition of the following Canadian companies to its Canadian Restricted List:

Eagle Plains Developments Limited; Inlet Mining Corp, Ltd.; Mack Lake Mining Corp. Ltd.; and Senvil Mines Limited.

The list comprises the names of Canadian companies whose securities, the Commission has reason to believe, recently have been or currently are being distributed in the United States in violation of the registration requirements of the Securities Act of 1933, thus depriving investors of the financial and other information essential to an informed and realistic evaluation of the worth of the securities which registration would provide.

The May 20, 1959, revision of the Canadian Restricted List contained the names of 191 Canadian companies. Since that date, 25 companies have been added to the list, including the five named above, and one has been dropped from the list, bringing the total to 215. As indicated in the May 20 release, deletions from the list may be made for various reasons, including discontinuance of the unlawful distribution and an undertaking to comply with the law in respect of any future distribution in the United States.

A cumulative listing of additions and deletions since the May 20 revision is set forth below:

ADDITIONS: Amador Highland Valley Coppers Limited; Americanadian Mining and Exploration Co., Ltd.; Augustus Exploration Limited; Ava Gold Mining Company Limited; Baranouri Minerals Limited; DuMaurier Mines Limited; Eagle Plains Developments Limited; Gasjet Corporation Limited.

Inlet Mining Corporation Limited; Jaylac Mines Limited; Kateri Mining Company Limited; Kelkirk Mines Limited; Kordol Explorations Limited; Mack Lake Mining Corporation Limited; Marpoint Gas and Oil Corporation Limited; Milmar-Island Mines Limited; New Surpass Petrochemicals Limited.

North Lake Mines Limited; North Tech Explorations Limited; Nu-Gord Mines Limited; Peace River Petroleums Limited; Queensland Explorations Limited; Senvil Mines Limited; Taiga Mines Limited; Upper Ungava Mining Corporation Limited.

DELETIONS: Alscope Explorations, Inc.

Edison Brothers Stores Inc.—Sales Higher—

* Deficit.—V. 189, p. 2457.

Emerson Radio & Phonograph Corp. — Expects 25% Increase in Sales During Next Twelve Months—

Benjamin Abrams, President, on July 3 predicted that sales of radios, television receivers, stereophonic high fidelity instruments and air conditioners, manufactured by Emerson, would increase by 25% during the next 12 months over the preceding period.

He also stated that sales of television receivers during the first six months showed an increase of 30% over the corresponding period last year.

Similarly, he said that sales of radios are currently running at a rate of 28% increase over the same period a year ago.

The company late in June announced its 1960 line of new models incorporating the most advanced developments in electronics for the home entertainment field at a distributor convention in New York.

Mr. Abrams further announced that orders booked were about 50% greater than those of last year. He attributed this increase to the improved outlook of economic conditions generally, and also to the considerably lower inventories in the hands of distributors and dealers as compared to the same period a year ago.

Another element, Mr. Abrams said, which accounts for the larger orders placed by distributors is the fact that the Emerson 1960 line incorporates a greater number and variety of models than was contained in the previous year's line.—V. 190, p. 154.

Emery Industries, Inc. — Rights Offering to Stockholders—The company is offering, without underwriters, to common stockholders the right to subscribe for $6,103,700, 4¾% convertible subordinated debentures, due July 1, 1979, at the rate of a $100 debenture for each eight shares of common stock held of record June 5, 1959. Rights expire at 3:30 p.m. (EDT) on July 31, 1959. Unexercised rights will be sold on the Cincinnati S. E.

PROCEEDS—Part of the proceeds from the sale of the debentures will be used to repay the company's outstanding current bank loans aggregating $5,000,000. This amount has been borrowed under a revolving loan agreement with four banks. The agreement provides that the company may borrow up to $8,000,000 on renewable 90 day notes until Sept. 30, 1959 at which time five year term loans may replace such revolving credit. The remainder of the proceeds will be added to the general funds of the company, and will be available for general corporate purposes.

The company expects to invest approximately $6,000,000 to $7,000,000 over the next several years in plant expansion, diversification, and additional working capital. While the company expects to pay some of the costs of this program from earnings, it may borrow substantial sums from the banks under the above loan agreement or an extension thereof.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

The capitalization of the company on Mar. 31, 1959, and as adjusted to give effect to the authorization, issue and sale of the debentures offered hereby, was as follows:

	Authorized	Outstanding
Subordinated long-term debt: convertible subordinated debentures due July 1, 1979	$6,103,700	$6,103,700
Common shares (no par)	*1,500,000 shs.	488,298 shs.

* Including 122,074 shares initially reserved for issuance upon conversion of the debentures currently being offered.

BUSINESS—Company was incorporated under the laws of the State of Ohio in 1935 pursuant to a consolidation agreement between Emery Industries, Inc., Emery Corp., The Twitchell Process Co., and Duratone, Inc. A predecessor company of Emery Industries, Inc., known as "Thomas Emery's Lard Oil Factory," originated in 1840. Emery Oils, Limited, a small wholly-owned subsidiary located in Glasgow, Scotland, was also organized in 1935 but was liquidated in 1957. The company owns and operates two manufacturing plants in the United States, has a one-half interest in another manufacturing plant in the United States and has a wholly-owned subsidiary, Emery Industries (Canada) Ltd., in Canada. The principal offices of the company are in Cincinnati, Ohio. It produces industrial organic chemicals principally derived from fats and oils. The products of the company are not sold directly to the consuming public and most are ingredients which are sold to manufacturers as raw materials which, in turn, are incorporated into finished products of a wide variety ranging from black rubber to fine cosmetics.

RECENT ACQUISITIONS — Emery Industries (Canada) Ltd., the company's wholly-owned subsidiary, was incorporated in 1957 and commenced operations in London, Ontario, Canada. In this year, Emery Industries, Inc. also entered into a long-term contractual arrangement with Monsanto Chemical Co. for the joint construction and operation of a tall oil fractionation plant at Nitro, W. Va. In 1958 Emery Industries, Inc. purchased the land, buildings, manufacturing facilities and inventories of the Vopcolene Division of Vegetable Oil Products Co., Inc. in Los Angeles County, Calif. Negotiations also are currently under way with a Dutch Company, Unilever N. V., for the establishment of a jointly-owned company in Rotterdam to manufacture organic acids.—V. 189, p. 2457.

Englehard Industries, Inc.—Concludes Agreements—

This corporation and Imperial Chemical Industries, Ltd., two of the largest international companies in their fields, have concluded agreements covering the production and sale of platinum-titanium electrodes, it was announced on July 14.

Following the established production of platinized titanium electrodes by the Metals Division of Imperial Chemical Industries, Ltd., Engelhard Industries will produce similar electrodes which will replace present materials in industrial use, such as graphite, silicon-iron and lead alloys.

Advantages of the new electrode for the production of chemicals, such as chlorine, will lead to increased operating efficiency and consequent lower costs, together with substantial savings in servicing and maintenance.

The electrodes are also used as anodes in the cathodic protection of the steel hulls of ships, from the largest tankers, freighters and naval vessels down to the smallest pleasure boats, a well as for bridges metal piers and industrial plants.

Considerable research is currently being conducted in the use of these electrodes in electro-dialysis, in the conversion of brackish water or sea water to drinking water, electro de-scaling, electro reduction and similar processes.

Engelhard Industries, Inc., and Imperial Chemical Industries, Ltd., who both possess large research and development facilities in the metallurgical field, will, under the terms of the agreement, cooperate in the exchange of information and institute a continuing joint research program.—V. 189, p. 2673.

Entron, Inc.—Registers With SEC—

This company, located at 4902 Lawrence St., Bladensburg, Md., filed a registration statement with the SEC covering 200,000 shares of common stock, to be offered for public sale at $5 per share. The offering is to be made on a "best efforts" basis by Alkow & Co., Inc., of New York, which will receive a selling commission of 75 cents per share. The underwriter also will receive an expense allowance of $22,500, plus a warrant for the purchase, within five years, of one share of stock at $5 per share for each ten shares sold to the public (or a maximum of 20,000 shares).

The company is engaged in supplying equipment and components for use in coaxial cable television transmission systems. It has outstanding 121,935 common shares. Net proceeds of the sale of additional stock are to be used as follows: $35,000 for additional machinery and equipment to produce items and components which go into the company's products and which presently are subcontracted to others; $767,688 for interim financing of coaxial cable television transmission systems, including principally community antenna systems, which account for approximately 80% of the company's volume of sales.—V. 182, pp. 2687 and 2356.

Erie-Delaware RR.—Proposed Merger—

* Deficit.—V. 189, p. 2673.

Executone, Inc.—Registers With SEC—

This corporation filed a registration statement with the SEC on July 15 covering 136,000 shares of common stock to be sold by the company. Net proceeds of the offering will be used for expansion and automation of present plant facilities, added sales and service training facilities, development and production of new products, additional working capital, and reduction of bank loans. The company has named Shearson, Hammill & Co. as the managing underwriter in connection with the public offering. Executone is a leading manufacturer of electronic communication systems for many applications including industrial plants, offices, hospitals, schools, and ships, as well as data gathering systems.

Federal Equipment Co.—Common Stock Offered—Winslow, Cohu & Stetson, Inc., New York City, on July 13 publicly offered, on a best-efforts basis, 100,000 shares of common stock (no par) at a price of $3 per share. The issue was quickly sold.

PROCEEDS—Of the net proceeds received by the company from the sale of the common stock offered (estimated at approximately $260,000 if all of the shares being offered are sold) the company proposes to use $117,726 to acquire all of the capital stock of Byers Lumber Co., Inc. and the balance will be added to working capital. The company reserves the right to change the application of proceeds to the extent that the Board of Directors determines to be in the best interest of the company.

BUSINESS—The company was incorporated in New York in 1907. In March, 1959, the company filed Articles of Domestication with the Department of State of the Commonwealth of Pennsylvania. The company is engaged primarily in the business of supplying metal and wood equipment for United States Post Offices. In the latter part of 1957 the company completed a $500,000 expansion program which included the modernization of plant and equipment, as well as the erection of a new metal working plant. New machinery was installed in both the woodworking and metal working plants. Cutler Mail Chute Co. since February, 1958 a wholly-owned subsidiary of the company, is engaged principally in the business of supplying mail chutes and collection boxes for large buildings.

NEW PRODUCTS—The company is presently engaged in an initial order and pilot run of 100 laundry locker units utilizing a special locking mechanism of patented design. An ordinary laundry locker, utilizing this special locking mechanism and procedure, will enable a laundry-dry cleaning business to place these units in apartment houses, office buildings, railway stations, industrial plants, etc., and provide for a quick laundry or dry cleaning service without having service personnel in attendance. The special locking mechanism provides security for the customer as well as for the laundry delivery men. Future production of such laundry lockers is subject, among other things, to the negotiation of an economically feasible patent license agreement with the owner of the patent covering the special locking mechanism.

A special suburban type mail box is in the prototype stage. Of modern design, it is contemporary in appearance and will blend with modern suburban architecture. Several innovations and signal devices have been incorporated to attract the market and are designed to capture the trade of the more discriminating buyer.

A new mail chute incorporating design changes and mechanical efficiencies in erection is in the course of manufacture by Cutler. Investigation is underway to determine the patent potential on several of the features of this new chute. In addition, hospital and institutional utilization of chutes is being promoted in order to expand the market area of both public and private chutes and mail boxes.

The development of new products is subject to many imponderables including consumer response. No representation is made as to earnings to be realized in the future from such products.

COMPETITION—The competition in the post office equipment field is intense. The company ranks among the top three companies in annual sales volume. The company is one of the leading producers of commercial lock boxes and mail handling equipment. There are a small number of companies in the mail chute field. The company estimates that approximately 80% of the new mail chute installations are made by Cutler Mail Chute Co., a wholly-owned subsidiary.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

	Authorized	Outstanding
Common stock (no par)	750,000 shs.	500,000 shs.

NOTE—Under a provision of the existing loan agreement with Girard Trust Corn Exchange Bank, relating to promissory notes of the company in the outstanding principal amount of $200,000 payable in installments to Dec. 31, 1963, the company is restricted as to the payment of cash dividends and/or making fixed asset expenditures in any fiscal year, without the consent of said Bank, in excess of the amount by which cash profits for the year (i.e., net profits after taxes but before depreciation) exceed $40,000. Such provision applies cumulatively commencing with the year 1958. Notwithstanding the foregoing, the company may in any year make fixed asset expenditures of not more than $20,000. Said agreement also prohibits the purchase or retirement by the company of its capital stock, without the consent of said bank.—V. 189, p. 2674.

Firestone Tire & Rubber Co.—New Development—

Most dams are built to control floods and store water, but this company has manufactured and installed in the Los Angeles River an unusual structure designed to be collapsed at the first indication of flood danger, according to an announcement made on July 8.

This unique dam—a giant nylon bag coated with neoprene—was developed to serve dual requirements of the Los Angeles Department of Water & Power in providing the city with water and the U. S. Army Engineers in protecting the city against floods.

Expands in Canada—

A multimillion dollar expansion program including a new tire manufacturing plant to be located in western Canada was announced by

Digitized for FRASER
http://fraser.stlouisfed.org/

T. M. Mayberry, President of Firestone Tire & Rubber Co. of Canada, Ltd.

Mr. Mayberry revealed his company's plans to build western Canada's first tire manufacturing plant simultaneously with a modernization and construction program for Firestone's present Hamilton, Ontario, installation.

"Firestone of Canada has taken an option on a 50-acre site in Calgary, Alberta," Mr. Mayberry announced.

Construction on the new plant will begin within a short time. It is expected that the new facility will go into production in late 1960.

"We are preparing for the opportunities ahead both in the east and the west," Mr. Mayberry said. "Expansion plans for our Hamilton plant call for the immediate installation of new tire building machinery and curing equipment. Additional warehouse space also will be erected this year."—V. 189, p. 2783.

First Charter Financial Corp. — Common Stock Offered—Public offering of 3,000,000 shares of common stock (without par value) was made July 15 by a nationwide group of 113 underwriters headed jointly by Eastman Dillon, Union Securities & Co. and William R. Staats & Co. The stock is priced at $17.50 per share, and the total of $52,500,000 represents one of the larger SEC registered secondary offerings to be made in recent years. This marks the first public distribution of the shares of the corporation, which was incorporated in California in March, 1955. The shares are being sold for the account of two selling stockholders and none of the proceeds of the sale will go to the company. All of the outstanding 6,000,000 shares of common stock of the corporation have been owned by S. Mark Taper, founder and President of the corporation, and the estate of his deceased wife. Each contributed 1,500,000 shares to this offering. Offering oversubscribed and the books closed.

BUSINESS—Operations of the company are in connection with its ownership of stocks of operating subsidiaries, including six California savings and loan associations, two California corporations which act as trustees under trust deeds, five California corporations which are licensed as insurance agencies and one other corporation licensed as a real estate broker. First Charter provides management services to the subsidiaries. The six savings and loan associations are licensed to operate 39 offices in the State of California.

EARNINGS—A pro forma consolidated statement of operations of the company and its subsidiaries covering the four months ended April 30, 1959 showed income of $10,396,842, the principal items being $7,536,780 interest on loans and $2,175,463 of loan fees. Net earnings before appropriations to general reserves were $2,781,765. For the first four months of 1958 income was $7,968,690 and net earnings before appropriations to general reserves were $2,346,698.

For the 1958 calendar year income was $26,341,774 and net income before appropriations to general reserves amounted to $8,128,091.

Five-year installment promissory note	1,000,000	$710,000

*After giving effect to an increase in the authorized common stock of the company and a three-for-one split of its outstanding common stock, effected June 9, 1959. 360,000 shares of authorized but unissued common stock of the company are reserved for issuance under its stock option plan.

†Consists of 5% demand notes of the company in favor of certain companies owned or controlled by Mr. Taper and the estate of Amelia Taper. Does not include 5% notes of the company owing to certain of its wholly-owned subsidiaries or $51,190 of 4% and 5% notes of subsidiaries to corporations controlled by Mr. Taper or to others.

‡Indirect limitation imposed by virtue of the reserve requirements of California law and as to payment of interest with respect to investment certificates and as to the current rate of interest paid thereon. The amount outstanding shown for investment certificates includes provision for interest to April 30, 1959.

§Presently limited, subject to certain restrictions, to 50% of the aggregate of outstanding investment certificates and capital stock.

¶At April 30, 1959, of the 5,000 shares of outstanding capital (guarantee) stock of Pioneer Investors, the company owned 4,955 9/15 shares, S. Mark Taper owned 12 shares and six other persons owned the balance.

**The five-year installment promissory note of Alliance Realty, Inc. to Bank of America National Trust and Savings Association is dated Dec. 19, 1958, is payable $200,000 per year each Dec. 31 through 1963 (the 1959 installment and $90,000 of the 1960 installment have been paid), is guaranteed by Mr. Taper and is secured by the pledge of all of the capital (guarantee) stock of Mutual of Alhambra and also by certain assets of Mr. Taper. This note bears interest at ½% above such bank's prime rate but not less than 4% nor more than 5% per annum.

NOTE—Each association issues to its borrowers "borrowers membership certificates," which entitle the holders to certain voting rights. The number of such certificates outstanding varies from time to time in relation to the number of loans outstanding.

UNDERWRITERS—The underwriters named below have severally agreed to purchase and the selling stockholders have agreed to sell to them severally at the public offering price, the number of shares of common stock set forth opposite their names as follows:

Fischer & Porter Co.—Awarded Government Contract

The company's Data Reduction & Automation Division has been awarded a $140,000 government contract for Analog-to-Digital Recorders (ADR). The new battery-operated F&P recorder, which converts and records analog values in digital punched tape form, is to be used by the U. S. Department of Interior Geological Survey for stream and river level measurement in remote locations throughout the United States. This is the second ADR contract awarded to F&P by the Geological Survey. Eventually, the new recorder is expected to replace conventional instrumentation in use at over 5,000 Survey Stations. Where conventional chart-style records are now interpreted and correlated manually, the ADR punched tape records will be automatically processed—entirely by machine. Processing will be correspondingly faster and more economical.

The ADR is one of several products introduced by F&P's Data Reduction & Automation Division during the past year. Other recently introduced Data Reduction products include: The Millisecond Operations Recorded (MOR) for recording power company operations; and the Digital Demand Recorder for traffic counting, production control, and electric utility customer demand billing.—V. 190, p. 50.

Florida East Coast Ry.—Earnings—

Period End. May 31—	1959—Month	1958	1959—5 Mos.	1958
Railway oper. revenue	$2,835,901	$3,251,922	$16,199,867	$16,365,738
Railway oper. expenses	2,308,276	2,450,546	12,862,432	12,393,970
Net revenue from railway operations	$527,625	$801,376	$3,337,435	$3,971,768
Net ry. oper. income	113,797	361,296	951,495	1,635,273

—V. 189, p. 2457.

Florida Growth Fund Inc.—Sales Show Gain—

Net assets on June 30 set a record high at $2,558,205, a rise of 58% from the Dec. 31 total of $1,614,174 and an advance of 141% from the $1,060,220 reported for June 30, 1958, according to Frank B. Bateman, President of the mutual fund.

Net asset value per share amounted to $5.96 on June 30 last, 9% ahead of the Dec. 31 figure of $5.48 per share and 30% more than the June 30, 1958 figure of $4.59.

June sales set a record for the month at $190,036, compared with $243,304 in May and $25,564 in June last year. For the first six months of this year sales aggregated $1,050,234, compared with $334,447 in the comparable period a year ago.

Mr. Bateman said the number of shareholders also set a new peak at 1,903 on June 30, compared with 1,222 on Dec. 31 and 925 a year ago.—V. 189, p. 1237.

Font Petroleums Ltd.—On Canadian Restricted List—

The SEC on July 10 announced the addition of the following Canadian companies to its Canadian Restricted List: Font Petroleums Ltd.; and Prudential Petroleums Ltd.

The list is comprised of the names of Canadian companies whose securities recently have been or currently are being distributed in the United States in violation of the registration requirements of the Securities Act of 1933, thus depriving investors of the financial and other information essential to an informed and realistic evaluation of the worth of the securities which registration would provide.

Foote Bros. Gear & Machine Corp.—To Redeem Preferred Stock—

The corporation has called for redemption on July 31, 1959, all of its outstanding 5¾% cumulative convertible preferred stock at $15.60 per share. Payment will be made at the First Nat'l Bank, Chicago, Ill.

The preferred stock is convertible at par into a unit consisting of 15/16th of a share each of class A and B stock at $16 a unit until July 31, 1959, inclusive.—V. 189, p. 2783.

Fort Worth & Denver Ry.—Earnings—

Period End. May 31—	1959—Month	1958	1959—5 Mos.	1958
Railway oper. revenue	$1,750,975	$1,643,422	$9,706,412	$8,348,258
Railway oper. expenses	1,699,561	1,653,045	8,410,968	7,567,571
Net revenue from railway operations	$51,414	*$9,623	$1,295,444	$780,687
Net ry. oper. deficit	88,608	98,034	42,080	70,535

*Deficit.—V. 189, p. 2457.

Foto-Video Laboratories, Inc.—Registers With SEC—

On July 15 this Cedar Grove, N. J., corporation filed a registration statement with the SEC covering 200,000 shares of common stock, to be publicly offered at $2 per share through Arnold Malkan & Co. of New York. The proceeds will be used for working capital, sales promotion, for research and development, and to repay outstanding indebtedness.

Franklin Stores Corp.—Sales Up—

Period End. June 30—	1959—Month	1958	1959—12 Mos.	1958
Sales	$3,422,983	$2,940,995	$43,402,407	$39,580,347

—V. 189, p. 2674.

G-L Electronics Co., Inc.—Reports Record Sales—

On June 30 the company's annual sales passed the $1,000,000 mark, with still one month to go in the current fiscal year. This means that sales of G-L's third fiscal year ending July 31, 1959 will be approximately double the sales volume of the second fiscal year. It is also reported that G-L Electronics is operating on an excellent profit basis.

Edward A. Gaugler, President, and Stephen Girard Lax, Board Chairman, on July 1 stated: "We have previously told you about the new product line of standard magnetic laminations. The work of tooling up for this product line is progressing right on schedule. Formal merchandising of the line will begin during the month of August and will continue with greater intensity in the Fall months. The accomplishments of the current fiscal year, ending July 31, will have been made without assistance from this new product line, the sales and earnings from which will be reflected for the first time in the next fiscal year beginning Aug. 1."—V. 188, p. 2141.

Garlock Packing Co. (& Subs.)—Earnings Higher—

Five Months Ended May 31—	1959	1958
Net sales	$13,561,248	$10,629,218
Operating costs and expenses	11,858,790	10,402,939
Miscellaneous charges (net)	252,935	17,148
Provision for all taxes on income	763,935	93,960
Net earnings	$685,588	$115,171
Earnings per share	$1.39	$0.23

NOTE—For 1958, the figures cover the period Jan. 1—May 31, 1959; for 1959, the 22 weeks ending May 31, 1959.

If the level of current industrial activity continues for the remainder of the year, net earnings are expected to approximate $3 per share, according to R. M. Waples, Chairman of the Board, and A. J. McMullen, President.—V. 189, p. 1021.

Gatineau Power Co.—Earnings Decline—

Quarter Ended March 31—	1959	1958
Operating revenue	$4,718,300	$4,772,400
Other income	73,400	51,500
Total revenue	$4,791,700	$4,823,900
Operating expenses and taxes	2,625,100	2,533,200
Interest, etc. deductions	956,100	933,600
Balance before dividends	$1,210,500	$1,357,100
Earned per common share (after deducting preferred dividends)	$0.61	$0.70

Under authority of recently enacted legislation, the New Brunswick Electric Power Commission took possession on May 1, 1959, of the company's property in New Brunswick consisting of the 80,000 h.p. hydro-electric generating station at Grand Falls on the Saint John River and the transmission line to Dalhousie, New Brunswick. The company is engaged in preparing its claim for the compensation to be paid for the property so taken.
—V. 189, p. 1021.

General Dynamics Corp.—Proposed Merger Terms—

Principal points of an agreement for the merger into this corporation of Material Service Corp. of Chicago were announced on July 7 by the two parties. The directors of General Dynamics and Material Service on June 25 unanimously approved the merger by which Material Service will become a division of General Dynamics. Frank Pace, Jr., Chairman of General Dynamics, and Henry Crown, Chairman of Material Service, said that following completion of negotiations the merger proposal would be put before the share owners of both corporations for final approval.

As now contemplated, the agreement basically will call for General Dynamics to acquire the majority fo the assets of Material Service in exchange for 2,064,516 shares of a new issue of General Dynamics no-par convertible preference stock on which cumulative dividends at the rate of 5% per annum (approximately $2.90 per share) will begin in 1964.

Under the agreement the preference stock would have a liquidating value of $58.125 a share. Each share would be convertible into 0.89423 shares of General Dynamics common, or a total of 1,846,152 shares of common. This would give the common an effective conversion price of $65 a share.

The new preference stock will become convertible as follows: 15% in each of the years 1961, 1962 and 1963; 20% in 1964; 20% in 1965 and 15% in 1966. The conversion privilege will expire in 1974.

The agreement calls for holders of the preference stock to elect a maximum of three members to the General Dynamics board of directors.

Henry Crown will become one of the three new directors and he will also become Chairman of the Material Service Division. The present management policies and personnel of Material Service will be continued and members of the Crown family will remain identified with the business. The profit sharing plan of Material Service will continue in effect.

Officials of the two corporations pointed out that changes in some details of the merger agreement as it now stands may be necessary, but added that the philosophy and basic principles of the transaction, as outlined, will not be altered.

Definite provisions of the agreement will be stated in detail in a proxy statement scheduled to be published at the conclusion of negotiations, probably within the next 30 years.

Material Service, one of the nation's largest producers of building materials, concrete products and coal, had earnings after taxes in 1953 of more than $10 million from the assets to be acquired by General Dynamics Corporation. General Dynamics produces a broad variety of scientific and technical products for commercial and military customers.

In the course of its examination of the desirability of the merger with Material Service Corp., the General Dynamics management retained the services of Lehman Brothers and Blyth & Co., Inc., investment bankers.—V. 189, p. 2242.

General Electric Co.—New Study Proposal—

A $2,700,000 study proposal by this company for increasing the efficiency of nuclear power plants by superheating steam has been selected by the Atomic Energy Commission for contract negotiations, it was announced on July 2.

The nuclear superheat program will be carried out by the General Electric Atomic Power Equipment Department (APED) at its San José, Calif., facilities and its Vallecitos Atomic Laboratory at nearby Pleasanton, Calif., George White, APED General Manager, said.—V. 190, p. 50.

General Motors Acceptance Corp. — Seeks Trust Indenture Order—

The corporation has applied to the SEC for an order under the Trust Indenture Act declaring that trusteeship of Morgan Guaranty Trust Company of New York under six existing trust indentures, and trusteeship under an indenture to be dated June 15, 1959, is not likely to involve a material conflict of interest; and the Commission has issued an order giving interested persons until July 27, 1959, to request a hearing thereon.

Frigidaire Division Adds New Products to Line—

Versatile new 1960 washers and dryers, which will launder anything from delicate, filmy lingerie to diapers or heavy work clothes automatically, are being introduced across the country by the corporation's Frigidaire division.

Announcement of the new automatic home laundry equipment was made by Herman F. Lehman, General Motors Vice-President, and Frigidaire's General Manager.

Mr. Lehman stressed that although completely automatic, the machines are so flexible that the homemaker can wash clothes anyway she chooses. Any phase of the operation can be stopped, shortened, lengthened or skipped at any time.

All new vented dryers in the line feature a new drying system with a full sweep of radiant heat which provides more efficient, faster and more uniform drying than ever before. A new handy lint trap, especially easy to remove and clean, fits inside the door of these dryers.

There are seven new washers and five new dryers in the new 1960 laundry product line. A wash-and-wear cycle is a convenience feature that has been incorporated into all new Frigidaire washers and dryers from budget to top line models.—V. 190, p. 155.

General Telephone Co. of Ohio—Earnings—

Period End. May 31—	1959—Month	1958	1959—5 Mos.	1958
Operating revenues	$1,509,869	$935,183	$7,391,706	$4,630,641

General Precision Corp.—Rights Offering Completed

Corporation announced July 14 that of the 105,928 shares of $2.98 cumulative convertible preference stock offered to shareholders, 103,256 shares were subscribed for. The First Boston Corp. and Tucker, Anthony & R. L. Day, as Managers of the group which underwrote the offering, purchased and have placed the remaining 2,672 shares.

General Time Corp.—Reports Profit—

This corporation, which operated at a loss in the first half of 1958, on July 13 reported net income of $695,956, equal to $1.41 per share for the 24 weeks ended June 13 of this year. This contrasts with a net loss of $351,513 for the comparable period ended June 14, 1958.

The recovery in earnings accompanied a 27% increase in sales to $24,541,104 compared with $19,314,429 reported for the first 24 weeks last year.

For the 12 weeks ended June 13, net sales amounted to $12,344,728 compared with $9,033,022 for the corresponding period last year. Net income for the second 12 weeks of 1959 amounted to $348,634, or 71 cents per share, compared with a net loss of $283,977 reported for the like period a year ago.—V. 190, p. 155.

Genesco, Inc. — Secondary Offering — Blyth & Co., Inc., announced July 17 the completion of a secondary offering of 22,500 shares of common stock ($1 par) at a price of $35.375, with a dealer's concession of 70 cents a share.—V. 189, p. 2675.

Glasspar Co.—Sales Up 89%—Profits 71%—

Sales for the first half of its current fiscal year rose 89% and profits increased 71% over the comparable period a year ago, L. J. Neiger, President, announced on June 23 in an interim report to shareholders.

For the six months ended May 31, 1959, sales totaled $6,535,908 compared with $3,443,515 for the same period a year ago.

Net profits after taxes totaled $472,639 equal to 83½ cents per share on the 564,476 shares of common stock outstanding as of May 31, 1959. This compares with earnings of $276,331 or 51 cents a share based on 537,596 common shares outstanding at the close of the first six months of 1958. The increase in shares outstanding is due to the payment of a 5% stock dividend on Feb. 20, 1959. Adjusted for this stock dividend, earnings for the first six months a year ago were equal to 49 cents per share.

Mr. Neiger noted that the first half of Glasspar's fiscal year has historically produced the larger portion of sales and earnings, however, in the second half of this year, a continuation of the favorable comparison with 1958 is anticipated. Management is therefore encouraged in its belief that a projected sales goal of $10,000,000 for fiscal 1959 will be exceeded and looks forward to continuing growth in a vigorously growing market.

He pointed out that sales for the first half of its current fiscal year exceeded the $8,514,420 total sales of the entire 1958 fiscal year. In addition, he said, the company attained the first million dollar sales month in its history in March and substantially exceeded this level in April and May.

The report stated that during the six months under review the company began a comprehensive expansion of its plant facilities in anticipation of higher production schedules in the future. Also, plans were completed for the production and marketing of the 1960 fleet which will be previewed by Glasspar's substantially enlarged dealer body at a series of sales meetings across the nation early in September.—V. 188, p. 48.

Grand Union Co.—Reports Record Quarterly Earns.—

Record first quarter net earnings of $1,845,980 after all taxes and depreciation during the 13-week period which ended May 30, 1959 were reported on July 13 by Lansing P. Shield, President.

This figure, equal to 44 cents per share on the 4,038,620 shares of common stock outstanding at the close of the period, adjusted for common stock split-up, after preferred requirements, represents an increase of 15.7% over net eanings during the comparable period a year ago. No direct comparisons with prior pericds are available because of the issuance of common stock during the year in connection with a stock split, stock dividend, conversions of debentures, acquisition of subsidiaries, and exercise of stock options.

Profit on the sale of the Canadian Division, sold on June 13, is not included in the above figures but will be reported in the second quarter.

Earnings for the first quarter of the 1959 fiscal year were based on record sales of $149,672,822 for the 13-week period ended May 30, 1959. This was an increase of 33.5% over sales of $112,077,888 during the comparable period in 1958.

As of the end of the first quarter of the company's 1959 fiscal year on May 30th, Grand Union was operating 472 supermarkets in 11 Eastern sttaes, the District of Columbia and Canada. On June 8, 1959 Grand Union began operating four newly acquired markets in Puerto Rico. On June 15, 1959 the 38 stores of the Canadian Division were sold to Steinberg's Ltd. of Canada.

The company on June 8 opened a new supermarket in Lowville, N. Y.

Opens New Supermarket—

The new 6,400 square foot Grand Union supermarket on South Main Street in Bainbridge, N. Y., opened on July 8.—V. 190, p. 50.

Gravity Science Foundation, Inc. — Securities Sales Enjoined—

The SEC Chicago Regional Office announced July 9 that Judge Julius H. Miner (USDC, ND Ill.) had entered a final judgment permanently enjoining Gravity Science Foundation, Inc., and Howard E. Baker from further violations of Section 5 and 17 of the Securities Act in the offer and sale of investment contracts or other securities. The defendants, without making any admissions, consented to entry of the injunction order.—V. 189, p. 1794.

Green Bay Mining & Exploration Ltd., Edmonton, Alberta, Canada—Raises Funds—Plans Recapitalization

—Geo. L. Jones, Secretary-Treasurer, on July 7, said:

Although at the time of the last annual general meeting liquidation of the company was a possibility if new finances could not be arranged, the directors are now pleased to announce that as a result of most strenuous efforts, sufficient funds have now been raised to enable the company to continue its activities.

In this connection, it has been thought desirable to make additions to the board of directors. The board has the pleasure to announce that the following new members have been elected: Dr. H. Weisbrod, Lawyer of Zurich, Switzerland; and Dr. E. S. Simon, Economic Adviser and Lawyer of Enschede, Holland.

After lengthy consideration and examination of the company's position and prospects, the directors have concluded that a reconstruction of the capital structure of the company is desirable and full details of their proposals in this regard will be sent out with the annual report. —V. 184, p. 1581.

Green Bay & Western RR. — Delisting on NYSE Approved—

The SEC has issued an order granting an application of the New York Stock Exchange to delist the capital stock and class A and B debentures of the railroad, effective at the close of trading on July 20, 1959. The Exchange's application states that the stock is no longer suitable for Exchange trading because of its limited distribution, and that the question of continued listing of the debentures was resolved in the negative.

—V. 190, p. 51.

Guild Films Co., Inc.—Ordered to File Reports—

The U. S. District Court in New York (Southern District) on June 8, 1959, ordered Guild Films Company, Inc., to correct deficiencies in its annual report for the fiscal year ended Nov. 30, 1957, and to make timely filings of future reports required by Section 13 of the Securities Exchange Act of 1934.

The court also ordered Interworld T. V. Films, Inc., to file its annual reports for the fiscal years ended July 31, 1957 and July 31, 1958, semi-annual reports for the periods ended Jan. 31, 1957, and Jan. 31, 1958, and current reports relating to certain specified occurrences.

The defendant companies and certain individuals named as defendants consented to the court orders. Through inadvertence, earlier announcement was not made, the SEC stated on July 14.—V. 189, p. 2034.

Gulf Life Insurance Co.—Stock Sold—

Murchison Brothers of Dallas bought $15,000,000 worth of Gulf Life Insurance Co. stock from a group of 50 stockholders on July 9.

John D. Murchison, one of three oil men in the Texas partnership, said the transaction involved 358,700 shares of Gulf stock.

Sumter Lowry and Charles Lykes, both of Tampa, and R. S. Dixon of Charlotte, N. C., represented the sellers.

The firm acquired 16% of Gulf stock, Mr. Murchison said. This gave the partnership working control of Florida's largest insurance company, he said.

He termed as purely speculation rumors that the Texas group planned to merge Gulf Life with other insurance companies and said there would be no changes in personnel because of the sale.

John D. Murchison, Clint W. Murchison Jr., and their father, C. W. Murchison Sr., own in partnership oil concerns and business enterprises in Central and South America as well as in this country. —V. 189, p. 481.

—V. 189, p. 2566.

Hamilton Cosco, Inc.—Common Stock Offered—The City Securities Corp., Indianapolis, as sole underwriter, on July 10 offered 50,000 shares of common stock (no par—stated par value $3 per share) at a price of $32 per share. The shares were previously held by selling stockholders, hence none of the proceeds of the sale will accrue to the company.

BUSINESS—The present Hamilton Cosco, Inc. began operating as a partnership in October, 1935, under the name of Columbus Specialty Co. The partnership included the late B. F. Hamilton, and his three sons, William S., Earl F. and Clarence O. Hamilton. B. F. Hamilton was an executive of Arvin Industries for 24 years through 1945.

The original plant was a small shop operation in Columbus, Ind. Products in the first six years of the company's existence included a unique and original match box container plus towel bars, soap powder containers and other small tinware items. Early in 1941 the company manufactured its first all-metal household stool. It is believed to be the first ever manufactured that was shipped and sold disassembled in a container smaller than a suit box.

During the war, the company made metal parts and sub-assemblies for prime contractors of military equipment.

Products made after the war except for the popular priced kitchen stool were a complete change from the early tinware items. The acceptance by the consumer of all-metal stools was assured during the brief period before the war. By November, 1945 stools with swing-away steps were being produced. These stools carried the trademark "Cosco," a contraction of Columbus Specialty Co. Effective Dec. 28, 1945, the company became a corporation under the laws of the State of Indiana and adopted the name "Hamilton Manufacturing Corporation."

On Jan. 1, 1959, the company's name was changed to Hamilton Cosco, Inc. This change was made to retain the Hamilton family name and still give recognition to the trade name "Cosco."

CAPITALIZATION AS OF APRIL 30, 1959

	Authorized	Outstanding
*3¾% notes due July 1, 1959-1962	$900,000	$462,500

Y., and the Irwin Union Bank and Trust Co., Columbus, Ind. $312,500 is due Chemical Corn Exchange Bank, payable $62,500 each six months from July 1, 1959 to July 1, 1961. $150,000 is due Irwin Union Bank and Trust Co., payable $75,000 on Jan. 1, 1962, and $75,000 on July 1, 1962.

Haratine Gas Co., Inc. — Offering Permanently Suspended—

In a decision announced July 15, the SEC made permanent a prior temporary suspension of a Regulation A exemption from Securities Act registration with respect to a public stock offering by this Euclid, Ohio, company.

The Commission's action was based upon Haratine's failure to file literature used in the sale of its stock, as required by Regulation A, and upon untrue and misleading statements in such literature. Haratine and Herbert Perry & Co., Inc., the underwriter, consented to the permanent suspension.

In a notification filed in June, 1958, Haratine proposed the public offering of 199,900 common shares at $1.50 per share. The offering by Perry as underwriter commenced about Aug. 5, 1958; and approximately 67,000 shares were sold to about 200 persons prior to Oct. 29, 1958, when the Commission's temporary suspension order was issued.

In addition to the use of sales material in connection with the offering which was not filed with the Commission prior to its use, the Commission ruled that certain of this material contained untrue statements of material fact or omitted to state material facts, particularly with respect to statements that the stock had a current market price of $1.50 per share, that Haratine had "substantial holdings near the largest oil strike in the last 40 years east of the Mississippi," that it has sizable holdings in the vicinity of "the greatest gas well" in a certain area, and that a new well alleged to be in the same area has original rock pressure over ten times greater than a previous big well and "promises a potential production of fabulous statistics."—V. 188, p. 2742.

Hardee Farms International Ltd.—Reports Profit—

Consolidated net profit after taxes of $90,511 (Canadian) was announced on June 30 by Bram Dees, President, in the company's first annual report covering a period of 19 days.

The international company, with more than 18,000 acres in Florida, was formed Feb. 2 this year and commenced operations March 9, with the acquisition of the 9,000-acre Tropical Farms, Lake Placid, Fla. (formerly the Durrance ranch); Holland River Gardens Ltd., Bradford, Ont.; Hardee Farms Ltd., Sherrington, Que.; and Ottawa River Farms Ltd., Alfred, Ontario.

Hardee Farms grows, processes, packages and markets fresh fruit and vegetables on a year-round basis. Its land holdings cover approximately 25,000 acres.

"The profits were obtained from the actual operations of the corporation in Canada for the period March 9, to March 28 of this year, together with accrued profits of the Canadian subsidiaries from Aug. 16, 1958, to March 28, 1959."

Since it was impossible to plant, grow, harvest and sell a crop in Florida in the 19 days of the first fiscal year, Mr. Dees pointed out, no field profits were realized from the Tropical Farms operations.

"Since the actual commencement of business," he reported, "excellent progress has been made in integrating the three Canadian operations and Tropical Farms into one organization."

Diversification, he said, will result from a continuation of the production of milk and dehydrated feed, as well as the raising of beef cattle on expanded basis by the Florida division.—V. 189, p. 1347.

Hartfield Stores Inc.—Sales Higher—

Period End. June 30—	1959—Month	1958	1959—6 Mos.	1958

—V. 189, p. 2676.

Haydock Fund, Inc.—Registers With SEC—

See Dreyfus Fund, Inc. above.—V. 188, p. 148.

Hausman Steel Co.—Additional Financing Details—Mention was made in our issue of July 13 of the public offering on June 30 by Howard, Weil, Labouisse, Friedrichs & Co. and The Ohio Company, and Associates, of 80,000 shares of common stock ($5 par) at a price of $9 per share, and the quick sale thereof. Additional details follow:

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

	Authorized	Outstanding
*Long term debt	$800,000	$800,000
Preferred shares ($25 par)	20,000 shs.	12,347 shs.
††Common shares ($5 par)	400,000 shs.	80,000 shs.
††¶Class B shares ($5 par)	200,000 shs.	92,160 shs.

*5¾% mortgage note payable to insurance company in semiannual installments of $27,500, beginning June 1, 1960, to Dec. 1, 1973, and $30,000 on June 1, 1974, with interest.

†On June 2, 1959 the 91,160 common shares then issued and outstanding were reclassified into 92,160 class B shares, $5 par, and 400,000 common shares, $5 par, were authorized to be issued.

‡Includes 200,000 common shares reserved for the conversion of class B shares after June 30, 1962.

¶Includes 8,750 shares reserved for issuance upon exercise of an option.

NOTE: At June 2, 1959, the company had short-term bank loans amounting to $925,000, of this amount, $300,000 was incurred in connection with the acquisition of Concrete Steel Corp. and is proposed to be repaid out of the proceeds of the sale of shares offered hereby. The balance represents borrowing incurred to meet seasonal inventory needs.

UNDERWRITERS—Upon the terms and subject to the conditions contained in the Purchase Agreement between the company and the underwriters named below (for whom Howard, Feil, Labouisse, Friedrichs and Co. and The Ohio Co. are acting as representatives), the underwriters have severally agreed to purchase from the company 80,000

Digitized for FRASER
http://fraser.stlouisfed.org/

common shares, each underwriter agreeing to purchase the number of such shares set opposite its name below:

	No. of Shares
Howard, Weil, Labouisse, Friedrichs and Co.	25,000
The Ohio Co.	25,000
Raffensperger, Hughes & Co. Inc.	7,050
Watling, Lerchen & Co.	7,500
Moore, Leonard & Lynch	7,500
Clark, Landstreet & Kirkpatrick, Inc.	7,500

—V. 190, p. 155.

Hiller Aircraft Corp.—To Redeem Debentures—

There have been called for redemption on Aug. 12, 1959, all of its outstanding 5% convertible income debentures due May 1, 1961 at 100% plus accrued interest. Payment will be made at the Bank of America N. T. & S. A., San Francisco, Calif.

Debentures are convertible into common stock at $14 per share to Aug. 12, 1959, inclusive.—V. 189, p. 2891.

Hoffman Electronics Corp., Los Angeles, Calif.—Acquisition—

A California corporation, of which H. Leslie Hoffman is Chairman of the board of directors, on July 2, signed a contract to purchase Western Mortgage Corp., Los Angeles real estate mortgage correspondent for the Metropolitan Life Insurance Co.

A joint statement issued by Hoffman and Jack Irvine, President of Western, said the transfer of title was scheduled for July 14.

The new corporation will acquire the assets and liabilities of Western Mortgage Corp. and will operate under the same name. Irvine, who will continue as President and Chief Executive officer, said no change in personnel, policies or procedures is contemplated.

Western Mortgage, which has actively represented Metropolitan Life Insurance Co. in the mortgage loan field throughout California, with the exception of San Bernardino and San Diego Counties, continuously since 1932, will continue to represent the company in the same area.

Mr. Hoffman, founder and President of Hoffman Electronics Corp., Los Angeles, will be the controlling shareholder.—V. 189, p. 1928.

Hoffman International Corp.—Expansion Planned—

A 50% increase in sales of dry cleaning machines in world markets during the first four months of 1959 was reported July 7 by Revis L. Stephenson, President, at the annual stockholders meeting. Mr. Stephenson also announced an expansion of the company's vending machine operations in Europe.

A gain of $250,000 in Hoffman International's sales from January through April reflected an increase in orders for dry cleaning machines, Mr. Stephenson said. The company's sales for the period totaled $827,880, compared with $578,000 in the similar period a year earlier, he said. "This trend is being maintained," he added.

Mr. Stephenson pointed out that early last year the company introduced a semi-automatic jacket pressing machine, called the SACCOMATIC, which is revolutionizing the garment pressing industry in Europe. He said the company is also expanding its operations in vending machines.

Since the company began production of vending machines at several of its European facilities two years ago, the output of this equipment has grown steadily, he said.

"Part of the new expansion plan is to create vending routes in Europe. This would put is in a rapidly expanding and profitable market," he said.—V. 190, p. 51.

(D. H.) Holmes Co., Ltd.—Rights Offering to Stockholders—Company is offering to shareholders the right to subscribe for 14,780 additional shares of capital stock ($20 par) on the basis of one share for each 14 held of record on July 10, 1959, at a price of $37.50 per share. Rights expire at 2 p.m. (CST) on July 28, 1959. The offering is being underwritten by a group composed of Arnold & Crane; Howard, Weil, Labouisse, Friedrichs & Co.; Nusloch, Baudean & Smith, and Scharff & Jones, Inc.

BUSINESS—The company sells various lines of moderate to better priced merchandise through three Louisiana department stores which it operates in New Orleans and Baton Rouge, La.

PROCEEDS—The proceeds to be received from the sale of the capital stock, together with funds committed to the company by a syndicate of four banks under a loan agreement (described in the next paragraph), will be used as follows: (a) Approximately $1,200,000 will be used to fixture and equip a new department store facility under construction at the Lakeside Shopping Center being built at the northwest corner of Causeway Boulevard and Veterans Highway in Jefferson Parish. This shopping center is approximately eight miles west of the company's main store on Canal Street in downtown New Orleans; (b) Approximately $600,000 will be used for additional construction and equipment to expand the present warehouse facility located at the rear and across the street from the company's main store at 819 Canal Street in New Orleans; (c) Approximately $300,000 will be used to fixture and equip a restaurant-cafeteria facility which will be located in a separate building adjacent to the company's department store facility under construction in the Lakeside Shopping Center; and (d) Any remaining proceeds will be added to the general funds of the company and used for additional inventory, working capital requirements and other corporate purposes as may be determined by the company's directors.

LOAN AGREEMENT—The company has entered into a loan agreement with four banks which are committed to lend it $2,000,000 at an interest rate of from 4% to 5%. The company is permitted to borrow in multiples of $500,000 up to the maximum of $2,000,000 when and as it deems necessary. The commitment expires Dec. 31, 1959. Repayment of principal amounts are set at 25% of the total funds borrowed on Dec. 31, 1962 and Dec. 31, 1963 and a final payment of 50% on Dec. 31, 1964.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

	Authorized	To Be Outstanding
3¾% unsecured note due from 1959 to 1970	$3,500,000	*$2,580,000
5¼% subordinated debenture due from 1959 to 1970	1,000,000	‡770,000
4% to 5% unsecured note due from 1962 to 1964	2,000,000	†2,000,000
Capital stock ($20 par)	227,700 shs.	227,700 shs.

*Includes $230,000 due within one year. ‡Includes $70,000 due within one year. †Provided the maximum amount of the loan commitment is taken down.

NOTE—The company from time to time has outstanding short-term unsecured loans in amounts dependent upon the season of the year and its financial needs. The maximum amount outstanding since Aug. 2, 1958 was $2,300,000 on Nov. 11, 1958. On July 9, 1959, $700,000 was outstanding.

Hooker Chemical Corp.—To Expand Facilities—

When this corporation was asked for additional details about its more important domestic construction projects scheduled for the next six months, company officials replied as follows:

At North Tonawanda, N. Y., the corporation's Durez Plastics Division is just beginning installation of equipment to expand the production of formalin, often called formaldehyde. Additional production will become available in stages and, upon completion at the end of the year, should provide an approximate 10% increase in formalin capacity with no increase in manpower. Durez, however, will continue to require formalin from other manufacturers to supplement its needs. Formalin and phenol, also made by Durez, are the two key chemicals needed to make phenol formaldehyde molding compounds of which Durez is the largest producer.

Manufacturing facilities for wood flour, made from wood chips and extensively used as a filler for molding compounds, are being expanded at the Durez Plastics Division's Kenton, Ohio, plant where phenolic molding compounds are made exclusively in a highly automated plant which began operations in 1955. The expansion will almost double the wood flour capacity there making it one of the larger installations in the United States. Nevertheless, the Division will continue to need additional wood flour from outside producers, assuming the continuation of good business.

At Jeffersonville, Ind., headquarters for Hooker's Phosphorous Division, nearly $1,000,000 will be spent over the balance of this year on two projects. Construction has begun on facilities to bring into production a new process for making phosphates directly from ferrophosphorus, another Hooker products. Details of the process are not disclosed. The principal end product will be a major raw material for synthetic detergents, sodium tripolyphosphate, of which Hooker is an important producer. The project should be in operation late this year.

The other undertaking, to begin shortly, is a new replacement phosphoric acid plant which will provide increased tonnage on a more efficient basis and supplement production of this product at Columbia, Tenn., and Dallas, Texas. Phosphoric acid is used in food, feed and fertilizers and an important part of this production will also be converted to sodium tripolyphosphate. The new plant should be completed in the late fall.

Both the Durez Plastics and the Phosphorus Divisions are operating at capacity. See also V. 190, p. 156.

Hotel Corp. of Israel—Registers With SEC—

This corporation, located at 11 South La Salle St., Chicago, on July 13 filed a registration statement with the SEC covering 39,000 shares of $5 par common stock and $1,560,000 of 6% subordinated debentures, due Aug. 1, 1974. The company proposes to offer these securities for public sale in units of 30 common shares at $10 per share and $1,200 of debentures at par. The price is to be $1,500 per unit. Commissions of not to exceed $60 per unit will be paid to brokers or dealers on each sale of units made by them. Of the purchase price up to $1,200 may be paid in certain State of Israel Bonds.

The company was organized for the purpose of acquiring, completing and furnishing an uncompleted hotel property in Tel-Aviv, Israel, to be named Hotel Tel-Aviv. Net proceeds of the financing will consist partly of cash and partly in State of Israel Bonds. The proceeds of $1,950,000, plus the amount of $625,000 originally subscribed for and the proposed loans from the State of Israel of 1,620,000 Israeli pounds, valued at $900,000 on the basis of 1.80 pounds for each dollar, will aggregate about $3,475,000. Net proceeds, estimated at $3,310,000, will be used as follows: $877,222 to purchase hotel property; $1,435,000 to complete and furnish main hotel building; $510,000 to complete and furnish adjoining structures; and $75,000 for miscellaneous expenses; and $412,778 for reserve for possible land acquisition, additional improvements and contingencies. The prospectus lists Martin N. Sandler as President.

Hugh Long & Co. Inc.—Files Secondary With SEC—

This company on July 15, 1959 filed a registration statement with the SEC seeking registration of 280,000 outstanding shares of class B common stock, to be offered for public sale by the present holders thereof through an underwriting group headed by Clark, Dodge & Co. The public offering price and underwriting terms are to be supplied by amendment.

The company acts as underwriter and its subsidiary, Investors Management Company, Inc., acts as investment advisor to open-end investment companies. The two companies serve as underwriter and investment advisor, respectively to three mutual funds: Fundamental Investors, Inc., Diversified Investment Fund, Inc., and Diversified Growth Stock Fund, Inc. In addition to certain indebtedness, the company has outstanding 96,000 shares of 50c par class A common stock; 882,200 shares of 50c par nonvoting class B common stock; and 11,600 shares of class C stock, $.125 par.

The prospectus lists 14 selling stockholders of the class B stock, who own an aggregate of 543,500 shares of such stock. The largest blocks are held by Ernest J. Lewis, 64,180 shares; Hugh W. Long, President, 180,720; Pudding Island Farms, Inc., 50,400; and George E. Roosevelt, Board Chairman of the underwriter, 50,400. All of the stock of Pudding Island Farms, Inc. is owned by Charles C. Parlin. The selling stockholders propose to sell 20,000, 80,720, 50,400, and 30,000 shares, respectively.

Hupp Corp.—Six Months' Earns. Top Entire '58 Year

Net earnings of the corporation in the first half of 1959 exceeded those for the entire year of 1958 and were the highest of any like six-month period in the company's modern history, Don H. Gearhart, President, announced July 16. Company's pretax earnings of $2,386,000 were triple that of the first half of 1958 on a sales increase of 23%, he said.

Net sales for the six months ended June 30, 1959 amounted to $37,697,000 compared with sales of $30,582,000 in the first half of 1958. Net income after taxes for the six months ended June 30, 1959 amounted to $1,027,000 which exceeded the $1,005,000 earned in the full year of 1958. Net income per share after dividends on preferred stock, for the first half of 1959 was 24 cents as compared with 20 cents earned during the full year of 1958.

SECOND QUARTER RESULTS—Net sales of $21,926,000 were reported in the three months ended June 30, 1959, as against $16,712,000 in the second quarter of 1958 and $15,771,000 in the first quarter of 1959. Income before Federal taxes on income totaled $1,673,000 in the second quarter of 1959, and net income after taxes was $706,000 or 17 cents per share.

Hupp Corporation is a diversified manufacturer, engaged primarily in air conditioning, refrigeration and heating. It also manufacures aviation, automotive, hydraulic and marine products, operating eight plants in six states.

COMMENT ON OPERATIONS—"Improved manufacturing and marketing operations, increased sales volume and firm air conditioning and appliance markets" were primary reasons for the 1959 record, according to Mr. Gearhart. He noted that each of the corporation's seven divisions is operating profitably.

Commenting on Hupp's acquisition earlier this year of assets of the valve operator division of Cutler-Hammer, Inc., Milwaukee, and of American Non-Gran Bronze Co., Berwyn, Pa., Mr. Gearheart pointed out that "the transition proceeded smoothly and we are now manufacturing in our Chicago plant. We also disposed of the Berwyn property on a favorable basis," he reported.

THIRD QUARTER OUTLOOK—"Although the third quarter is traditionally Hupp's lowest period of the year because of adverse effects of seasonal factors in the air conditioning and refrigeration fields and plant vacation shutdowns, we are forecasting continuing better comparative results," Mr. Gearheart predicted.

COMPARATIVE EARNINGS FIGURES

Period. End. June 30—	1959—6 Mos.	1958	1959—3 Mos.	1958
Net sales	$37,697,000	$30,582,000	$21,926,000	$16,712,000
Income before Fed. income taxes	2,386,000	733,000	1,673,000	502,000
Net income	1,027,000	*733,000	706,000	*502,000
†Net income per share	$0.24	$0.16	$0.17	$0.12
Working capital	15,608,000	13,960,000		
Book value per share of common stock	$5.48	$5.19		

*No provision for income taxes required in first six months of 1958 because of tax loss carried forward from 1957. †After allowing for dividends paid on preferred stock.—V. 189, p. 2458.

Hyak Skiing Corp.—Securities Offered—The Columbia Cascade Corp., Seattle, Wash., made public offering on June 30, primarily to residents of State of Washington of 8,000 shares of common stock at par ($10 per share) and 2,800 five-year 6% callable subordinated debentures ($5 per debenture) in units only, consisting of 20 shares of stock and seven debentures. The offering represented a total of 400 units involving an aggregate price of $220,000. No public market exists for either the stock or the debentures.

PROCEEDS—Net proceeds of the financing will be used in the redevelopment and operation of the "old Milwaukee Ski Bowl" at Hyak, Wash. The location of the project is approximately 48 miles from the floating bridge, Seattle, Wash., in the Snoqualmie Pass area at Hyak, Wash. The site is owned in large part by the Chicago, Milwaukee, St. Paul & Pacific Railroad, the balance being U. S. Forest land under lease to the Milwaukee Railroad. Negotiations have been substantially completed for a very favorable 30-year lease from the railroad.—V. 190, p. 51.

Ideal Precision Meter Co., Inc.—Common Stock Offered—Charles Plohn & Co., New York City, on July 15 publicly offered 137,500 shares of common stock (par 10 cents) at a price of $3.75 per share. Offering oversubscribed and the books closed.

PROCEEDS—Proceeds from the offering will be used to repay about $142,000 of various debt and the balance, as general funds, will be available to acquire about $100,000 of facilities and equipment and provide about $150,000 for working capital.

BUSINESS — Established in 1956, the company, at its plant in Brooklyn, N. Y., manufactures electrical indicating instruments (current meters) for use in other electrical and electronic equipment, including automotive and marine applications.

EARNINGS—Net sales in the fiscal year ended Mar. 31, 1959 were $794,000, compared with $421,000 in the 1958 period and $54,000 in 1957. Net income in the latest period was $36,000, contrasted with $10,000 in 1958 and a loss of $47,000 in the 1957 fiscal year.

CAPITALIZATION—Completion of this offering will increase outstanding stock to 337,500 shares, the company's only capitalization. Following the offering of common stock, which has not previously been publicly held, company officers and directors and the underwriter will own about 56% of the common stock.—V. 189, p. 2458.

Illinois Bell Telephone Co.—Earnings—

Period End. May 31—	1959—Month	1958	1959—5 Mos.	1958

Imperial Chemical Industries, Ltd.—Agreement—

See Engelhard Industries, Inc. above.—V. 189, p. 2891.

Indian Head Mills, Inc. (& Subs.)—Earnings Up—

Six Months Ended May 30—	1959	1958
Sales	$27,157,000	$19,855,000
Operating earnings	1,200,000	786,000
Preferred stock dividends	248,207	260,072
Operating earnings available for common stock	$951,793	$525,928
Common shares outstanding	493,400	*458,000
Operating earnings per common share	$1.93	$1.15

* Adjusted to reflect 2-for-1 stock split Feb. 20, 1959.

NOTES—No provision for Federal income taxes was required in either year due to the availability of loss carryovers.

The above sales and earnings figures for the six-month period ended May 30, 1959 include the sales and earnings of The Linen Thread Co., Inc., a wholly-owned subsidiary acquired on Feb. 3, 1959.

The 1958 figures do not include non-operating profit in the amount of $352,192 realized during the period.

Since the end of the company's last fiscal year, profitable operations and the acquisition of The Linen Thread Co., Inc. have substantially strengthed the company's financial position. Total assets have increased from $16 million to more than $24 million and net working capital has increased from $6.9 million at the year end to about $12 million at the present time. The Linen Thread acquisition was financed with short-term bank loans, which have since been paid off, and a long-term note for $5 million.—V. 189, p. 1022.

Inland Credit Corp.—Private Placement—This corporation has placed with institutional investors, via F. Eberstadt & Co., New York City, $1,000,000 of subordinated notes due 1971, it was announced July 13 by Oscar Dane, President.

The corporation is a commercial finance company engaged in financing business concerns by advancing funds on accounts receivable and other collateral.—V. 184, p. 919.

Inlet Mining Corp., Ltd.—On Canadian Restricted List

See Eagle Plains Developments Ltd., above.

International Business Machines Corp.—Earnings Rise

Six Months Ended June 30—	1959	1958
	$	$
Gross income from sales, service and rentals in United States	615,371,141	564,615,629
Cost of sales, service and rentals and expenses	496,754,453	467,651,611
Balance	118,616,688	96,964,018
Other income	6,990,121	3,713,237
Total	125,606,809	100,677,255
Dividends received from IBM World Trade Corp.	5,100,000	4,000,000
Net income before U. S. Federal income taxes	130,706,809	104,677,255
Provision for U. S. Federal income taxes (est.)	66,676,000	54,079,600
Net income	64,030,809	50,597,655
Net income per share	$3.51	*$2.78

* Adjusted for the 2½% stock dividend paid Jan. 28, 1959, and the 50% split-up effected May 5, 1959.

NOTE—The corporation derived $15,636,122 or 12.4% of its net income in 1958 from the outright sale to customers of machines previously under lease to them. Of this amount nearly all was realized in the third quarter of 1958. Since net income from this source is expected to be substantially less during 1959 than that for last year, it is presently anticipated that for the remainder of the year the percentage of increase of 1959 net income over that for 1958 will be less than the rate of increase for the first six months.—V. 189, p. 2785.

International Telephone & Telegraph Corp. — Air Force Contract—

One of the first units of airborne distance-measuring equipment for the nation's new VORTAC air navigation system has been installed in the Military Air Transport Service's new VC-137 jet transport plane.

Three jets have been purchased by the Air Force to replace older aircraft in the Special Air Mission Fleet and will be equipped with the navigation devices manufactured by International Telephone & Telegraph Corp.'s Federal division, Clifton, N. J.

The distance measuring equipment is also being installed by major commercial airlines such as American Airlines and Transworld Airlines in the new Boeing 707 jet liners. Its installation in the VC-137's marks the first Air Force use of this equipment.

Known as DMET (distance measuring equipment-TACAN), the equipment provides a pilot continuing information on his distance, in tenths of a mile, from selected ground stations. At an altitude of 40,000 feet, the pilot can read distances up to 200 miles. The airborne equipment has been miniaturized by ITT Laboratories and weighs only 31 pounds. Each unit is about the size of a shoebox.

The compact DMET combines with VOR direction-indicating equipment to comprise the airborne equipment of VORTAC, the common air navigation system being implemented by the Federal Aviation Agency. This system also was adopted by the ICAO member nations at a recent meeting in Montreal, PQ, Canada. The ITT division also is providing large amounts of ground equipment for the VORTAC system.—V. 190, p. 156.

Net earnings (subject to audit and year-end adjustments)	†$369,000	†$494,000	770,000	715,000
‡Earnings per share	------	------	$2.44	$2.28

† Deficit. * Carryback losses. ‡ Based on average number of shares outstanding.

NOTE—These figures do not include the acquisition during this quarter of White Front Stores, Inc., which had net earnings of $73,000 for the quarter ended April 30, 1959.—V. 189, p. 2676.

Interstate Department Stores Inc.—Sales Up—

Period End. June 30—	1959—Month—1958		1959—5 Mos.—1958	
Sales	$7,323,927	$4,993,250	$29,948,631	$23,772,743

—V. 189, p. 2676.

Interstate Electronics Corp.—Exchange Offer—

See Interstate Engineering Corp. below.

Interstate Engineering Corp.—Acquisition Approved—

The shareholders on June 30 overwhelmingly approved the management proposal to acquire not less than 80% of the outstanding capital stock of Interstate Electronics Corp.

Terms of the acquisition as announced in a letter to shareholders June 12, call for the exchange of 2½ shares of Interstate Electronics Corp. stock for one share of Interstate Engineering Corp. stock. In the event that Interstate Engineering Corp. should eventually acquire 100% of the electronics stock, it would involve issuance of a total of 120,000 shares of the parent.

The acquisition is subject to an appropriate permit from the Commissioner of Corporations, State of California, and a favorable tax opinion as to a tax-free exchange by the Internal Revenue Department.—V. 189, p. 347.

Interworld T. V. Films, Inc.—Ordered to File Reports

See Guild Films Co. Inc. above.

Investment Life & Trust Co. — Rights Offering to Stockholders—This company offered to stockholders of record June 29, 1959, the right to subscribe for an additional 56,185 shares of common stock ($1 par) on the basis of one new share for each ten shares then held at a price of $3.80 per share. The rights expired at 3:30 p.m. (EST) on July 14, 1959. The offer was underwritten by a syndicate headed by Frost, Read & Simons, Inc., and Silcox & Johnson, and the group announced that any unsubscribed shares would be offered to the public at $4 per share.

PROCEEDS—To be added to capital and surplus.

BUSINESS—Company was organized under the laws of the State of South Carolina on April 2, 1956 and currently is qualified to do business only in that state. It plans to conduct business in one or more Southeastern States in 1960. Company specializes in writing all forms of ordinary life insurance and at March 31, 1959 had 1,777 policies in force in the aggregate face amount of $9,857,368.

UNDERWRITERS—The underwriters named below have severally agreed, subject to the terms of their underwriting agreement with the company, to purchase at $3.60 per share any of the shares of common stock not subscribed for by the stockholders, in the percentages set opposite their respective names:

	Percentage
Frost, Read & Simons, Inc.	17%
Silcox & Johnson	17%
Joe McAlister Co.	8%
Huger, Barnwell & Company	8%
Frank S. Smith & Co., Inc.	8%
Edgar M. Norris	8%
Alester G. Furman & Co., Inc.	8%
Vivian M. Manning	8%
McCarley & Company, Inc.	8%
G. H. Crawford Co., Inc.	5%
Dargan & Company	5%

—V. 189, p. 2891.

Investors Planning Corp. of America—Registers With Securities and Exchange Commission—

See Dreyfus Fund, Inc. above.—V. 189, p. 2567.

Investors Variable Payment Fund, Inc.—Assets Up—

Total net assets of this Fund rose to $92,576,669 as of May 31, 1959 from $49,875,492 on Nov. 30, 1958, up 85.6% for the first half of the current fiscal year, Joseph M. Fitzsimmons, Chairman of the Board and President, announced in the semi-annual report.

Net asset value per share increased to $6.12 at the close of May from $5.41 at the end of November.

Shares outstanding increased during the period to 15,133,277 from 9,226,095. A year ago shares outstanding were 6,404,426.

Number of shareholders also increased to 52,898 compared with 34,622 six months previously, up 53% for the period.—V. 189, p. 1023.

Jewel Tea Co. Inc.—Sales Higher—

Period End. June 30—	1959—4 Wks.—	1958	1959—24 Wks.—	1958
	$	$	$	$
Retail sales	35,692,033	33,097,326	209,950,990	199,002,529

—V. 190, p. 52.

Jersey Central Power & Light Co.—Bonds Offered—Halsey, Stuart & Co. Inc. heads a group of underwriters which on July 15 offered an issue of $8,000,000 first mortgage bonds, 5¼% series, due July 1, 1989, at 102.291% and accrued interest, to yield 5.10%. Award of the bonds was won by the group at competitive sale July 14 on a bid of 101.579%. At press time, on July 17, the issue was 90% sold and books closed.

Other bids for the bonds, all naming a 5¼% coupon, came from: Eastman Dillon, Union Securities & Co., Salomon Bros. & Hutzler and Merrill Lynch, Pierce, Fenner & Smith, Inc., jointly, 101.511%; First Boston Corp., 101.509%; Kidder, Peabody & Co., 101.499%, and White, Weld & Co., 101.1499%.

The 1989 series bonds will be redeemable at regular redemption prices ranging from 107.55% to par, and at special redemption prices receding from 102.30% to par, plus accrued interest in each case.

PROCEEDS—Net proceeds from the financing will be applied to the cost of the company's 1959 construction program or to reimburse the company's treasury for expenditures already made in connection with the program. The company's 1959 construction program contemplates cash expenditures of about $16,158,600.

BUSINESS—Company provides retail electric service to all or portions of 131 municipalities in the north central and east central parts of New Jersey comprising about 1,528 square miles, or approximately 20.3% of the total area of the state. The company also sells electricity at wholesale to four municipalities.

EARNINGS—For the 12 months ended Mar. 31, 1959, the company had total operating revenues of $44,410,677 and net income of $7,439,338.—V 190, p. 52.

PURCHASERS—The names of the several purchasers of the 1989 series bonds, and the principal amounts which they have agreed to purchase are as follows:

Halsey, Stuart & Co. Inc.	$2,800,000	Freeman & Co.	$300,000
Auchincloss, Parker & Redpath	400,000	Wm. E. Pollock & Co., Inc.	500,000
Bache & Co.	500,000	Raffensperger, Hughes & Co., Inc.	200,000

—V. 189, p. 706.

Kern County Land Co.—Acquisition Completed—

This company's board of directors was, on July 2, increased to 14 members with the election of Rea I. Hahn and Gordon R. Walker, both of Racine, Wis.

Mr. Hahn is President and General Manager of Walker Manufacturing Co., newly acquired by Kern as a part of its expansion and diversification program. Walker is one of the nation's leading producers of automotive exhaust systems, jacks, and oil, air and fuel filters. Mr. Walker has had a long association with the Walker Manufacturing Co., both in active management and as a member of its board of directors.

In announcing the additions to Kern's board, Geo. G. Montgomery, Kern's Chairman, also reported that the final formalities in the acquisition of Walker had been completed on June 30 at Racine, Wis. —V. 189, p. 2458.

Kings County Lighting Co.—Partial Redemption—

The company has called for redemption on Aug. 1, next, through operation of the sinking fund, $41,000 of its first mortgage bonds, 3⅛% series due Aug. 1, 1975 at 102⅛%. Payment will be made at the First National City Bank of New York, 55 Wall St., New York 15, N. Y.—V. 188, p. 148.

Lazard Fund, Inc.—Net Asset Value Rises—

The net asset value per share of this Fund rose to $17.05 as of the quarter ending June 30, 1959, as compared to $16.35 on March 31, 1959. Net assets on the 8,588,192 shares outstanding increased to $146,430,041 compared to $138,973,667 on March 31, 1959. Unrealized portfolio appreciation amounted to $23,140,950 compared to $19,060,745 at March 31, 1959 and net realized gain on the sale of investments an additional $3,532,033 compared to $1,804,807 at March 31.

Following its purchase of equities of seven foreign companies in the European Common Market during the first quarter of the year, the Fund has acquired shares of The Steel Co. of Wales (British), Union Miniere du Haut-Katanga (leading producer of copper in the Belgian Congo), and Sidelor (one of the most important French steel mills). The total foreign securities held by the Fund at the end of the quarter, including Royal Dutch and International Nickel, amounted to approximately 10% of the total net assets.

In April, the Fund acquired substantially all of the cash and marketable securities aggregating $1,564,253 of Alton Summit Co., a personal holding company, in exchange for 91,102 shares of capital stock of the Fund.—V. 189, p. 2459.

Lease Plan International Corp.—Registers With SEC

This corporation, located at 7 Central Park West, New York, filed a registration statement with the SEC on July 10, 1959 covering 140,000 shares of common stock. Of this stock, 70,000 shares are to be offered for public sale for the account of the issuing company; and the balance, representing outstanding stock, is to be offered for sale by the present holders thereof. The public offering price and underwriting terms are to be supplied by amendment. Hayden, Stone & Co. is listed as the principal underwriter.

The company is engaged in the fleet leasing of trucks, cars and other equipment and operation of trucks. It serves only large corporate users. It now has outstanding 480,000 common shares. Net proceeds to the company of its proposed sale of additional stock will be added to general funds; and such increase in working capital is said to be advisable in view of expanding operations of the finance lease activities of the company, and would enable the company to acquire equipment as needed without the necessity of interim financing; and in addition the company contemplates expansion of its busines by acquisition of companies engaged in the same or similar lines of business, and a portion of its cash funds may be utilized for such acquisitions.

According to the company's prospectus, directors and officers of the company now own an aggregate of 137,674 shares of its stock, of which 178,493 shares are owned by H. L. Meckler, President. H. M. O'Neill and F. J. O'Neill, brothers of W. J. O'Neill, Board Chairman, own 54,888 and 82,646 shares, respectively; D. K. O'Neill, custodian for Timothy M. O'Neill, 53,837 shares; and trustees for the benefit of the minor children of H. L. Meckler, 52,320 shares. The 70,000 shares are to be sold by these and three other stockholders, including W. J. O'Neill, who owns 19,181 shares.

The selling stockholders have agreed to sell, for $850, to Hayden, Stone & Co., an option to purchase an aggregate of 8,500 shares of stock at the public offering price of the shares being offered for public sale.

Leeds & Northrup Co., Philadelphia, Pa.—Cary Chm.

C. Reed Cary, former Senior Vice-President, was named Board Chairman, filling the post left vacant by the death of Charles S. Redding last January. Daniel H. Schultz has assumed Mr. Cary's former post as Senior Vice-President. He is also a member of the board.

Former Assistant to the President George E. Beggs, Jr., has been elected Executive Vice-President and a director, increasing the number of Board members to six.—V. 190, p. 52.

Leone 48th St. Associates—Registers With SEC—

This company, located at 60 East 42nd St., New York, filed a registration statement with the SEC on July 10, 1959 covering $1,680,000 of Participations in Partnership Interests in Leone 48th St., Associates, to be offered in units of $10,000.

A partnership consisting of Lawrence A. Wien and Robert I. Weissman, Associates is the owner of the land, buildings, furnishings and equipment located at 227-249 West 48th St., New York. Known as "Leone's Restaurant," the property was acquired on June 30, 1959, for $1,500,000 represented by its 6% note payable Oct. 1, 1959. It is free and clear of any mortgages. Each of the two partners is offering participations of $840,000 in his partnership interest. Each also will have contributed $10,000 to the partnership. Of the proposed $1,700,000 partnership capital, $1,500,000 will be used to pay off the note; and the balance will be used to delray disbursements of $180,000 incident to the acquisition and to pay $20,000 of expenses in connection with this offering.

Associates will not operate the property. It has acquired subject to a ten-year lease extending to June 9, 1969, renewable for ten like terms. The lessee is Gene Leone's, Inc.

Lerner Stores Corp. — Reports Improvement —

Harold M. Lane, President, on June 25 disclosed that the company's volume this year was showing marked improvement over last year. He estimated that earnings for the six months ending July 31 would compare favorably with the like six months of 1957 when net earnings were equal to 60c per common share. In the comparable 1958 six months period the company reported a loss of 13c a share after tax credits.

Mr. Lane predicted that with a continuation of the present business trend, profits for the 1959 fiscal year should exceed the $2.15 per common share earned in the 1957 fiscal year. Earnings of $1.67 a common share for the second half of the 1958 fiscal year were greater than those of the comparable 1957 period and it is expected that earnings for the second six months of the 1959 fiscal year will exceed $1.67 per share.

The company has great expectations for the new Lane Store which will open in 1960 in the Green Acres Shopping Center, Valley Stream, L. I., N. Y., Mr. Lane said. This store which will have 173,000 square feet of floor space on three levels will be considerably larger than the two Lane stores now in operation—one at 5th Avenue and 14th Street, Manhattan, and the other at Lake Success Shopping Center, L. I.—

Sales Higher—

Period End. June 30—	1959—Month—1958		1959—5 Mos.—1958	
Sales	$15,003,347	$13,466,907	$72,390,475	$66,433,535

—V. 189, p. 2677.

Libbey-Owens-Ford Glass Co.—Expansion Project—

Many advantages of the use of glass in modern curtain wall construction have been demonstrated in the company's new Engineering Building and Rotunda entrance to the Technical Center now being put into operation in Toledo, Ohio.

The expansion project involved a total cost of $1,350,000. The Engineering building was occupied in May and the Rotunda entrance was put into operation June 15. Modernization of the Research-Development wing is scheduled to be completed about Aug. 1.

New structures add more than 38,000 square feet to the Technical Center. The original Technical building occupied in May, 1938, is 250 feet long with a north wing 120 feet and south wing of 100 feet. In 1941 a Research wing was added and in 1946 additional enlargement and excavation work was done. All the former area will be devoted to Research and Development work. The new Technical Center planning provides ample space for future expansion.—V. 190, p. 52.

Lifter Properties, Inc., Miami Beach, Fla.—Files With Securities and Exchange Commission—

The corporation on June 29 filed a letter of notification with the SEC covering 100,000 shares of common stock (par five cents) to be offered at $3 per share, without underwriting.

The proceeds are to be used for expenses incidental to acquisition and operation of motels and motel properties.

Lindly & Co., Inc.—Announces New Product—

This Mineola, N. Y., corporation has announced the development of a new micro-measurement gauge which is characterized by both exceptional sensitivity of response and accuracy of measurement. As a result, it has an exceptionally wide area of potential application encompassing industrial control techniques and instrumentation plus important defense uses, including the guided missiles field, and continuous process chemical application.

Broadly speaking, the principal areas of application can be related

Digitized for FRASER
http://fraser.stlouisfed.org/

to the exceptional response sensitivity which would run to about four millionths of an inch in standard production models with further refinement possible down to measurements of a tenth of a millionth of one inch. This capability can be translated into an infra-red gauge which could detect changes in temperature to a small fraction of a degree. Additionally, these measurements could be conducted over a wide ambient range running from approximately minus 139 degrees C. to quite high temperatures depending on materials used. This response sensitivity can also be utilized in gauges responding to light transmission, strain, deflection, etc. Applications inherent in these capabilities include:

(1) Infra-red gauges for various applications.
(2) Micrometer gauges for static or dynamic measurements.
(3) Wire measurement gauges.
(4) Out-of-round and concentricity measurement.
(5) Theodolite measurement to an estimated sensitivity of one in 36 million parts. This sensitivity could be utilized in such defense applications as the tracking of missiles.
(6) Highly accurate and continuous measurement of concentration of dye and chemical solutions where light transmission even varies slightly.
(7) Determination of the homogeneity of optical glass, such as for measuring areas, small hole sizes (as in spinnerets, etc.)
(8) Machine tool indexing.
(9) Strain gauge to measure elasticity, deflection, or compressibility.
(10) Seismograph indications of earth movements, underground H bomb explosions, etc.
(11) Scales designed to measure relative weight or mass in terms of millionths of grams or tons with either static or dynamic measurements.
(12) Dynamic measurements of freight car, truck, or trailer loads; check freight wheel conditions of moving railroad trains.
(13) Strain measurements on missiles.
(14) Airplane wing deflections—either end or interim sections.
(15) Gauges for checking roundness of fine wires.
(16) Alignment devices.
(17) Extrusion control.
(18) Comparators of various types.—V. 183, p. 2652.

Ling Electric, Inc.—Receives Contract—

T. A. O'Dwyer, President of this company announced that it has received a contract for in excess of $1,800,000 for the electrical installation of the second increment of the Titan Missile Facility at Lowry Air Force Base near Denver, Colo. Ling Electric is a subsidiary of Ling-Altec Electronics, Inc.

Construction is scheduled to begin within 30 days, Mr. O'Dwyer said, with the completion time estimated at 16 months. Morrison-Knudsen Co. & Associates is the general contractor on the project which will cost approximately $27,000,000.

Mr. O'Dwyer stated the Lowry project will, in effect, be pioneering a new era in missile launching facility construction since the entire installation will be underground. Ling Electric will perform its contract in conjunction with Howard Electric Company of Denver.—V. 182, p. 1339.

Lone Star Steel Co.—Sales and Earnings Rise—

Six Months Ended June 30—	1959	1958
Net sales	$51,725,840	$23,359,657
Net income for period	6,338,902	482,829
Steel operating rate	87%	54%
Earned per share	$1.78	$0.14

President E. B. Germany observed that sales volume for the six months ended June 30, 1959, was the best in company history, that shipments exceeded total tonnage shipped in all of 1958, and that net income for the period was up $5,856,000 over the corresponding period in 1958.

Other pertinent facts reflected by Lone Star's statement included an increase in working capital of about $10,000,000 to $44,117,413, a new all-time high, during the past 12 months. Current ratio amounted to 3.55 to 1, and gross profit ratio for the past six months amounted to 30%. Earnings per dollar of sales were 12 cents. As compared with the first quarter of 1959 when earnings per share on shares presently outstanding were 57 cents, the second quarter earnings were $1.21.

Mr. Germany pointed out that Lone Star's financial report was made particularly outstanding because of the fact the company operated at only 87% of rated ingot capacity during the first half of the year. Even so, he explained, Lone Star increased its inventory of goods by about $1,500,000.—V. 189, p. 1131.

Mack Lake Mining Corp., Ltd. — On Canadian Restricted List—

See Eagle Plains Developments Ltd., above.

Mack Trucks, Inc.—Proposed Merger—

This corporation and Northeast Capital Corp. on July 12 announced they have reached agreement in principle on the basis for a merger between the two companies.

In a joint statement, the companies said that Northeast Capital Corp. will merge into Mack Trucks, Inc. in September, 1959.

The statement said that prior to the merger, Northeast will convert into cash all of its assets other than its holdings in Mack common stock and Mack subordinated debentures.

The proposed merger will provide that the stockholders owning the 1,047,900 shares of Northeast common stock presently outstanding, will receive for each share of Northeast common, 7/10ths of a share of Mack common stock and approximately 11/50ths of a share of a new Mack 5¼% preferred stock, $50 par value, with a ten-year warrant (non-detachable for the first two years) to purchase one-half share of Mack common stock at not less than $60 per share. It is estimated that the amount of preferred stock to be issued will be approximately $12,000,000.

The merger will not result in any dilution in the presently outstanding Mack common stock, since the shares issued by Mack will be offset by the Mack shares received from Northeast as a result of the merger.

The directors of both companies have approved in principle the basis of the merger, subject to the execution of a formal merger agreement and the approval thereof by the stockholders of both companies at a special meeting to be called sometime in September, and subject to the approval of the banks and insurance companies participating in Mack loan agreements.

The consummation of the merger, it was stated, will not affect the management or control of Mack in any way. The stockholdings of the directors of Mack, directly and indirectly, will remain large and their interests in the company will continue.

The $12,000,000 made available through the merger will increase Mack's working capital and provide funds for the expansion made necessary by Mack's increasing volume of business. Initially, part of the funds will be used to exercise existing options to purchase the plant and branch facilities of the Brockway Motor Company Division, now leased by Mack, and to enlarge those facilities.

This merger will increase the net worth of Mack Trucks, Inc. to substantially in excess of $100,000,000.—V. 189, p. 2786.

Maine Central RR.—Earnings—

Period End. May 31—	1959—Month	1958	1959—5 Months	1958

—V. 190, p. 157.

Mallinckrodt Chemical Works—Debentures Offered—

Newhard, Cook & Co. and associates on July 14 publicly offered a new issue of $6,000,000 5% convertible subordinated debentures due 1974, priced at 100% and accrued interest. Offering oversubscribed and the books closed.

CONVERSION—The debentures are convertible during their life, unless previously redeemed, into 16 shares of class A common stock for each $1,000 principal amount (equivalent to a conversion price of $62.50 per share). The debentures are subject to redemption at prices ranging from 105% in the first five years, to the principal amount after July 31, 1968.

PROCEEDS—Proceeds of the sale will be used by the company to retire an outstanding 11,644 shares of series B preferred stock of $50 par. The balance will be used for plant additions and acquisitions and replacements and for other purposes related to expansion of operations.

BUSINESS—The company is one of the leading manufacturers in this country of fine chemicals and is also engaged in the processing, under contract with the Atomic Energy Commission, of uranium-containing materials into uranium metal and uranium compounds.

The company was formed in 1867 by three Mallinckrodt brothers. The son of one of the founders, Edward Mallinckrodt, serves as Chairman of the Board at the present time.

EARNINGS—For the four months ended April 30, 1959 net sales were $11,122,321 and net income was $331,429 equal, after preferred dividends, to 77 cents per share of common stock outstanding. This compared with $11,261,437 and $239,391, or 69 cents per share of common, for the corresponding period of 1958.

DIVIDENDS—The company has paid cash dividends on the common stock in each year since incorporation in 1882 except for 1921 when no payment was made and in 1922 when a stock dividend was paid.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

	Authorized	Outstanding
*Promissory note	$5,000,000	$3,625,000
5% convertible subordinated debentures	6,000,000	6,000,000
Pfd. stock ($50 par) issuable in series	100,000 shs.	
4¼% cumulative pfd. stock, series C		38,450 shs.
Common stock ($10 par):		
†Class A	720,000 shs.	‡258,128 shs.
Class B	240,000 shs.	120,000 shs.

*Issued to The Prudential Insurance Company of America pursuant to an agreement dated March 27, 1951. The note bears interest at 3⅜% per annum and matures April 1, 1971. The company is required to apply to the prepayment of the note without premium the sum of $250,000 on April 1 of each year prior to maturity and to pay the balance of the principal of the note on April 1, 1971.

†Of the authorized and unissued shares of class A common stock, at May 19, 1959, 23,685 were reserved for issuance pursuant to the restricted stock option plan, and 44,987 were reserved for the conversion of shares of the 4¼% cumulative preferred stock, series C, into shares of class A common stock. Each share of the 4¼% cumulative preferred stock, series C, is convertible into shares of class A common stock until April 30, 1960 at the rate of 1.17 shares of class A common stock, and thereafter and until April 30, 1965 at the rate of 1.03 shares of class A common stock, for each share of the series C preferred stock.

‡Pursuant to an Amendment of the Articles of Incorporation effective on June 11, 1959, the number of authorized shares of class A common stock was increased from 360,000 to 720,000. In addition to the shares reserved as stated above, 96,000 shares will be reserved for issuance upon conversion of the debentures offered hereby.

UNDERWRITERS—The company has agreed to sell to each of the underwriters named below, and each of the underwriters, for whom Newhard, Cook & Co. is acting as representative, has severally agreed to purchase the principal amount of debentures set opposite its name below:

	Principal Amount		Principal Amount
Newhard, Cook & Co.	$1,500,000	A. G. Edwards & Sons	$100,000
W. E. Hutton & Co.	600,000	Edward D. Jones & Co.	100,000
Clark, Dodge & Co.	350,000	Irving Lundborg & Co.	100,000
Reinholdt & Gardner	350,000	Pacific Northwest Co.	100,000
G. H. Walker & Co.	350,000	Rotan, Mosle & Co.	100,000
Dean Witter & Co.	350,000	I. M. Simon & Co.	100,000
A. G. Becker & Co.	300,000	Scherck, Richter Co.	75,000
Robert W. Baird & Co.	200,000	Smith, Moore & Co.	75,000
McDonald & Company	200,000	Branch, Cabell & Co.	50,000
Dempsey-Tegeler & Co.	150,000	First Southwest Co.	50,000
Stifel, Nicolaus & Co., Inc.	150,000	McCourtney-Breckenridge & Co.	50,000
Stix & Co.	150,000	W. H. Newbold's Son & Co.	50,000
Blewer, Glynn & Co.	100,000	Robinson, Humphrey & Co.	50,000
Blunt, Ellis & Simmons	100,000	Scott & Stringfellow	50,000
H. C. Brown & Co.	100,000		

—V. 189, p. 2677.

Mangel Stores Corp.—Sales Up—

Period End. July 4—	1959—5 Wks.	1958	1959—22 Wks.	1958
Sales	$4,777,271	$3,593,734	$18,732,263	$14,754,405

—V. 189, p. 2139.

Marine Midland Corp.—Earnings Show Gain—

For the first half of 1959 consolidated net operating income of this corporation, its constituent banks and affiliates, after preferred dividends, was $8,217,239 or 87 cents a share compared with $7,298,003 or 85 cents a share for the same period last year. On June 30, 1959, there were 9,488,565 common shares outstanding, an increase of 938,793 over June 30, 1958.

Common dividends declared for the first six months were $4,581,366 in 1959 and $4,252,102 in 1958 while preferred dividends for the same periods were $107,072 and $229,175 respectively. The provision for taxes in the first half was $8,294,400 in 1959 and $7,995,200 in 1958.

The consolidated net operating income for the second quarter of 1959, after preferred dividends, was $4,213,395 or 44 cents a share compared with $3,611,966 or 42 cents a share for the second quarter of 1958 while preferred dividends for the same period were $37,984 and $108,162 respectively. The tax provision for the second quarter was $4,270,100 in 1959 and $3,900,200 in 1958.—V. 189, p. 2677.

Marquardt Corp.—New Power Systems Divisions—

A Marketing Division and Administration Division have been established in the corporation's Power Systems Group, it was announced on June 25 by Don L. Walter, Vice-President, Power Systems Group.

"The new Divisions of the Power Systems Group are a part of the company's long-range organizational realignment which began last January," Mr. Walter said. "In keeping with the movement toward a corporate line-and-staff structure, many of the services now assigned to the Power Systems Group were formerly provided by corporate staff departments."

The Power Systems Group, which consists of approximately 3,000 of Marquardt's 5,000 employees, is now comprised of five major divisions at the Van Nuys plant: Propulsion, Controls and Accessories, Test, Marketing, and Administration.

Reporting to the new Marketing Division are the following functions: Customer Relations, Contract Administration, Marketing Planning, Proposals, and Publications.

Functions reporting to the Administration Division are: Management Services, Master Planning, Training and Professional Personnel, Industrial Relations, Plant Engineering, and Central Office Services. —V. 189, p. 1796.

Marshall Industries—Common Stock Offered—D. A. Lomasney & Co. offered on July 15 an issue of 100,000 shares of common stock at a price of $2.50 per share. The offering was oversubscribed and the books closed.

BUSINESS—Formed in 1954, company operates principally as a manufacturers representative, or sales agent, for companies producing electronic components and instruments. Headquarters of the company are at San Marino, Calif.

PROCEEDS—Proceeds from this sale, which will expand outstanding common stock to 500,000 shares, will be used for additional working capital.

EARNINGS—Total revenues in the three months ended Mar. 31, 1959 were $630,000 and net earnings $30,000. The figures were $1,933,000 and $54,000 in the year 1958 and $1,689,000 and $75,000, respectively, in 1957.—V. 190, p. 157.

Material Service Corp.—Proposed Merger—

See General Dynamics Corp. above.—V. 188, p. 2644.

May Department Stores—Unlisted Trading Granted—

The SEC has issued an order granting an application of the Philadelphia-Baltimore Stock Exchange for unlisted trading privileges in the common stock of the company which is listed and registered on the New York Stock Exchange.—V. 189, p. 53.

Maytag Co.—To Increase Employment—

Production increases scheduled for July 27 will add approximately 165 persons to employment rolls of this company, it was announced on July 2 by officials. The company has been advertising for production employees to help fill this need.

The company will double production of gas and electric clothes dryers in response to anticipated seasonal upturn in demand. Production also will be increased on Maytag's combination washer-dryer in preparation for expansion of market areas where the new appliance will be made available. The product is now obtainable in six market areas in the midwest.

Maytag production facilities will be closed for the annual two-week vacation shutdown beginning July 3 and the first of the added personnel will start work when the plants reopen July 20, with the bulk of them scheduled to begin work July 27.

(Arthur G.) McKee & Co.—Dividend Increased—Plans Stock Split—

The directors on July 8 declared a quarterly dividend of 75 cents per share on common stock, payable Aug. 1 to shareholders of record July 20. This represents an increase of 12½ cents a share over the 62½ cents paid in the previous quarter.

The board also authorized calling a special meeting of stockholders on Sept. 25 to vote on a proposal to increase the authorized stock of the company to 1,500,000 shares from the presently authorized 600,000 shares. Stockholders will also be asked at that time to approve a two-for-one stock split.

In announcing plans for a stock split, directors said that if stockholders approve, a dividend of 37½ cents will be declared on the new shares at the board's November meeting. The stock split will be implemented through the issuance of one additional share of the company's stock for each share held, the company said.

H. E. Widdell, President of the company, said the increase in the dividend "reflects continued good earnings."—V. 187, p. 2335.

Mercantile Stores Co., Inc. (& Subs.)—Earnings—

Three Months Ended April 30—	1959	1958
Net sales	$32,810,705	$30,696,216

—V. 189, p. 2786.

Mercast Corp.—Reports Profit for Quarter—

Ray O. Ryan, President, on June 17 reported to the stockholders that the consolidated operations loss in 1958 amounted to $775,687, due primarily to losses by the company's subsidiary foundry in Cleveland, O., Alloy Precision Castings Co. That plant was closed at the end of November, 1958. However, he pointed out that there are considerable grounds for optimism concerning the current year's operations.

By way of comparison, Mr. Ryan said Mercast had a loss of approximately $45,000 in the first quarter of 1958 and a profit of approximately $60,000 in the first quarter of operations this year; that losses in April last year amounted to $14,000 and the profit in April this year was $23,000. He reported that Gray & Huleguard, Inc., a wholly owned subsidiary, realized a net profit in 1958 of $95,236 on a sales volume amounting to $885,000 and estimated that net sales will exceed $1,000,000 with a corresponding rate of profit. —V. 186, p. 422.

Merritt-Chapman & Scott Corp.—Files Employee Plan

The corporation filed a registration statement with the SEC on July 10, 1959 covering 50,000 shares of common stock, to be offered to key employees of the company and its subsidiaries pursuant to its Key Employees' stock Purchase Plan.—V. 189, p. 1930.

Microsonics, Inc., Hingham, Mass.—Files With SEC—

The corporation on July 9 filed a letter of notification with the SEC covering 61,000 shares of common stock (no par) to be offered at $5 per share, through Lee Co., New York, N. Y.

The proceeds are to be used for additional test equipment, inventory and working capital.

Missouri Pacific Railroad—Equipment Trust Certificates Offered—Halsey, Stuart & Co. Inc., and McMaster, Hutchinson & Co., jointly, were successful bidders for the $2,850,000 equipment trust certificates offered July 16, paying a price of 98.837 for the issue as 4¾s. The successful bidders reoffered the certificates, due annually on Aug. 1 from 1960 to 1974 inclusive, at prices to yield from 4.65% to 4.85%, according to maturity. At press time, on July 17, the issue was about two-thirds sold.

Salomon Bros. & Hutzler also bid for the issue, offering a price of 98.258 for the certificates as 4¾s.

The certificates, issuance and sale of which is subject to authorization by the ICC, are to be secured by 300 box cars, 50 gondola cars, and 50 hopper cars, estimated to cost $3,629,250.—V. 190, p. 158.

Motorola, Inc.—Expects Large Sales Increase—

Edward R. Taylor, Executive Vice-President for Consumer Products, on July 6 told 700 distributors and retailers being introduced to the company's 1960 consumer products line at Monticello, N. Y.

This company has increased sales of portable radios by 42%, is the number one producer and seller of stereo, and has increased its television sales 40% over last year.

While there are no accurate industry statistics on car radios, Motorola's sales increase this year is 40% over last, and Mr. Taylor said the company may achieve a 50% increase by years' end.

At the convention Motorola introduced a new line of three channel stereophonic-high-fidelity sets that offer a new approach in the art. With the new system the listener need not sit between speakers in the so-called "stereo cone" to enjoy stereophonic sound, as the full dimensional sound is projected everywhere in the listening area. Furthermore, the new three channel sets are all self contained.

In television Motorola introduced 29 new models, including a 17-inch overall diagonal set with a plated circuit chassis that Mr. Taylor termed the most rugged and dependable receiver ever designed, developed or built. "During development this set was subjected to torture tests unheard of in television engineering," Mr. Taylor said, "and it proved itself beyond even our expectations."

In television and stereo both, Motorola expanded its Drexel line of furniture styled equipment with further pieces designed to co-ordinate with Drexel groupings of furniture.

Mr. Taylor pointed out that Motorola will continue its one year warranty on television. "Our belief in the quality of our product is such that we are unhesitantly continuing to warranty our sets for one full year, though industry practice remains 90 days."—V. 189, p. 2787.

Multi-Amp Electronic Corp.—Common Stock Offered—John R. Boland & Co., Inc., New York City, on July 14 announced that the offering of 99,500 shares of common stock (par 10 cents) at a price of $3 per share had been completed.

PROCEEDS—Net proceeds will be used by the company to purchase building presently occupied; for research and development; purchase of equipment; expansion of facilities and working capital.

BUSINESS—Company was established pursuant to New Jersey laws on May 28, 1951, is located at 465 Lehigh Ave., Union Township, N. J., and is engaged in designing, engineering, manufacturing, and selling portable and laboratory instruments for testing and calibrating current and voltage actuated devices. These instruments provide a complete testing facility, including initiation, timing, metering, calibration, and coordination in the smallest and lightest assembly possible for purposes of portability. All Multi-Amp instruments are an assembly of standard and specially designed electrical and electro-mechanical devices so arranged as to provide a source for testing a multitude of diverse electrical devices. Over 50 various types of Multi-Amp standard catalogue test sets are available to the corporation's customers, and 300 additional models may be built to customer's specifications.

Narda Ultrasonics Corp.—Common Stock Offered—Torpie & Saltzman, New York City, made public offering on July 9 of 40,000 shares of common stock (par 10¢) at a price of $9 per share. Offering oversubscribed and the books closed.

PROCEEDS—The net proceeds to be realized from the sale will be used to retire the outstanding bank loan of $160,000, and the balance, or approximately $137,500 will be used for general corporate purposes. The bank loan of $160,000 was used to augment the working capital position of the company.

PRIVATE PLACEMENT PLANNED—Pursuant to recent negotiations the company may execute in the next 60 days an agreement for the sale by private placement of approximately $300,000 of 5% subordinated 10 year notes with warrants attached. The warrants are to be exercisable at the then market price prevailing for the common stock at the date the notes are executed. If for reasons not now forseen the sales of such notes should not be carried through, the company would seek other arrangements for obtaining this sum. The net cash proceeds of such notes, estimated at $280,000, are to be used to repay $81,900 of accounts payable to The Narda Microwave Corp., the parent of the company, and the balance, or approximately $200,000, will be used to reduce trade accounts payable and other general corporate purposes.

BUSINESS—The company was incorporated Oct. 1, 1957 under the laws of the State of New York. It commenced to operate shortly thereafter, and in January, 1958, mass production of low cost ultrasonic cleaners was instituted. In dollar volume and unit sales, Narda Ultrasonics today, it is believed, is one of the largest manufacturers of ultrasonic cleaning equipment. The company's main office is located at 625 Main Street, Westbury, New York. The phenomenon of ultrasonic cavitation ("cold boiling") has been known since World War I, when crude sonar devices for underwater communication and detection first were developed. During the 'Twenties and 'Thirties, military and commercial need for high speed and high quality ultrasonic cleaning applications were not as yet manifest. However, with the onset of World War II, the relatively complex electronic equipment and weapons systems required rigid quality control during manufacture and assembly, and the application of ultrasonic cleaning had its origin. Following the close of hostilities, the impetus for developing commercial ultrasonic cleaning equipment was generated from the technical knowledge gained from the then recent experience relating to military sonar applications. Custom designed, ultrasonic equipment cleaners, produced at high cost, were presented into the commercial market.

SALES—The net sales of the company for the quarterly periods during 1958, were as follows: ending Mar. 31, 102,566; ending June 30, $197,091; ending Sept. 30, $301,175; and ending Dec. 31, 1958, $303,842. Sales for the four months ended May 31, 1959, totaled $346,388, or approximately $86,600 a month, as compared with sales for the seven months ended Jan. 31, 1959 of $670,205, or approximately $95,700 a month indicating that the average monthly net sales for the more recent period was lower.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

	*Authorized	Outstanding

National Aeronautical Corp.—Split-Up Voted—

The stockholders on July 9 overwhelmingly approved a proposal to split the common stock of the corporation on a two-for-one basis.

The stock split, which becomes effective Aug. 1, 1959, will increase the corporation's outstanding common to 825,498 shares. Authorized capitalization is 1,000,000 shares with a par value of $1 per share.

James M. Riddle, Jr., President, told stockholders that the record business volume which the corporation enjoyed during the first six months is continuing so far during the second half of the fiscal year which ends Nov. 30.

For the six months endad May 30, 1959, the corporation had record net sales of $3,350,000 and record net earnings of $370,000, equal to 90 cents per share on the 412,749 common shares outstanding.

Work on a new 30,000 square foot addition to the corporation's plant at Fort Washington, Pa., is making good progress and this facility, to cost approximately $400,000, is expected to be completed and in operation on schedule, Mr. Riddle stated.—V. 190, p. 157.

National Homes Corp.—Buys 55 More Trailers—

This corporation has ordered 55 more new tandem truck-trailers from Highway Trailer Co., it was announced on June 29.

National, which last year traveled six million miles in delivery of 24,000 homes, uses trailer-tractors in a double duty role, in that fully a quarter of the materials used by the company are brought to its four plants by tractor-trailers returning from home deliveries. This system, the company says, saves freight, storage space and capital tied up in inventory. Highway-made trailers now make up 143 units of National's trailer fleet.

Presently engaged in what it calls "the biggest promotion in home building history," National is out to surpass its record sales of last year with its "Viking" homes with their bake-finished, maintenance-free aluminum exterior walls and roofs. Sales for the first half of 1959 are already 46% ahead of the same period in 1958, with the company ascribing much of the credit for the gain to the "Viking," which it calls "a revolutionary advancement in home building technology."—V. 189, p. 348.

National Securities & Research Corp.—Assets Rise—

Combined net assets of the National Securities Series of mutual funds increased $62,157,324 during the first six months of 1959 to reach a record level of $476,479,592 on June 30. Henry J. Simonson, Jr., President, which sponsors and manages the funds, attributed the rise to both market appreciation and new purchases by investors.

During the period, investors' purchases of National Securities Series totalled $45,499,977, an all-time high and up 29% over first half sales last year.

Increases in net asset values per share were as follows:

Fund	Net Asset Value June 30,'59	Per Share Dec. 31,'58	% Increase
Growth stock series	*$9.05	$7.40	22.2
Dividend series	*4.50	4.06	10.8
Stock series	*9.47	8.62	9.8
Income series	*6.64	6.17	7.6
Preferred stock series	8.39	8.04	4.3
Balanced series	*11.22	10.98	2.1
Bond series	5.96	5.86	1.7

*Adjusted for capital gain distributions paid in April.—V. 189, p. 2678.

National Packaging Corp., Fort Wayne, Ind. — Files With Securities and Exchange Commission—

The corporation on July 10 filed a letter of notification with the SEC covering 32,800 shares of common stock (par $1) to be offered at $5 per share, through First Securities Corp., Fort Wayne, Ind.

The proceeds are to be used to purchase machinery and equipment, raw materials, inventory and for working capital.

National Shirt Shops of Delaware Inc.—Sales Up—

Period End. June 30—	1959—Month	1958	1959—6 Mos.	1958
Sales	$2,001,327	$1,772,254	$9,019,954	$8,377,627

—V. 189, p. 2787.

National Supply Co., Pittsburgh, Pa.—Shifts Opers.—

Plants of this company at Gainesville and Houston, Texas; Torrance, Calif., and Ambridge, Pa., will take on additional operations as a result of a decision to close the company's plant at Toledo, Ohio.

E. G. Unrath, Vice-President of manufacturing, said the changes will bring the operations closer to large numbers of oil field customers. Transfer of machinery from the Toledo plant will begin on Sept. 1, and will be completed by Sept. 30.

The Gainesville plant will be the biggest beneficiary by the change, taking on the manufacture of slush pumps and triplex pumps in addition to its present line of pumping units. A new building, with 48,000 square feet, will be erected at the north end of the present manufacturing building.

Railroad tracks on the Gainesville plant property will be relocated, one bay in the present manufacturing building closed in, and a new gantry crane provided as part of the improvements. Construction is scheduled to start July 6.

A production line for tool joints, a specialized form of coupling for use with drill pipe, will be transferred to the company's seamless tubular products mill at Ambridge, Pa., where the drill pipe is manufactured.

The company's Torrance, Calif., plant will take over the production of small and medium-sized drilling rigs, now being made in Toledo.—V. 189, p. 2140.

National Telefilm Associates, Inc.—Exchange Offer—

See National Theatres, Inc. below.—V. 189, p. 1469.

National Theatres Inc.—To Change Name—

This corporation announced on July 14 a proposed change in name to National Theatres & Television, Inc. (NT&T).

Announcement of the change, which is expected to be approved by stockholders on Aug. 25, was jointly made by B. Gerald Cantor and John B. Bertero, Chairman of the Board and President, respectively.—V. 189, p. 2892.

National Theatres, Inc.—Plans Reopening of Exchange Offer and Change in Name—

This corporation on July 15 announced that it planned to reopen an exchange offer to shareholders and warrant holders of National Telefilm Associates, Inc., under which NTA had become a subsidiary of National Theatres.

Announcement of the plan was made by B. Gerald Cantor and John B. Bertero, Chairman of the Board and President, respectively, of National Theatres.

Under the terms of the offer, which expired last April 6, accepting NTA stockholders received for each share of NTA common stock $11 principal amount 5½% sinking fund subordinated debentures due March 1, 1974 and a stock purchase warrant entitling them to purchase one-quarter share of National Theatres common stock. The exchange of NTA warrants was on a equivalent basis.

The offer was accepted by former holders of 68.65% of NTA common stock and 78.57% of NTA warrants.

National Telefilm Associates stockholders were informed by letter that the board of directors of National Theatres had authorized the development of a plan to make a further exchange offer to the remaining owners of NTA stock and warrants.

The plan would authorize holders of NTA stock and warrants to exchange for the same securities which National Theatres delivered to those who accepted its prior exchange offer.

The further exchange offer will be made by means of a prospectus which will be furnished to NTA security holders.

Earlier this month, National Theatres announced a proposed change in name to National Theatres and Television, Inc. The new name, reflecting the company's activities in all phases of television, is to be acted upon at a special stockholders meeting Aug. 25.—V. 189, p. 2892.

National Theatres & Television, Inc.—New Name—

See National Theatres, Inc. above.

National Truckers Service, Inc., Newport News, Va.—Files With Securities and Exchange Commission—

The corporation on July 2 filed a letter of notification with the SEC covering 10,755 shares of common stock to be offered at par ($5 per share) and 10,000 shares of preferred stock to be offered to members at par ($10 per share). No underwriting is involved.

The proceeds are to be used for working capital.

Natural Gas Pipeline Co. of America—FPC Hearing—

A Federal Power Commission hearing has been scheduled for July 28 in Washington, D. C., on an application by this company to construct and operate about 29 miles of 10-inch lateral supply pipeline, together with appurtenant facilities, at a cost of approximately $772,000.

The facilities would be used to enable Natural to take into its existing main transmission system up to an average of 30,000,000 cubic feet of natural gas per day from the Enville and Southwest Enville Fields, Love County, Okla. The gas would be purchased from Cimarron Transmission Co., of Tulsa, Okla., and would be used by Natural in meeting its existing general system requirements. No additional sales are proposed by Natural.

Consolidated with Natural's application, for the purpose of the hearing, were applications by Cimarron seeking authority to sell gas to Natural and by Texas Pacific Coal & Oil Co., Texaco Inc., Sinclair Oil & Gas Co., and Shell Oil Co., seeking authority to sell natural gas to Cimarron for resale to Natural.—V. 189, p. 1677.

New Jersey Natural Gas Co.—Tenders for Preferred

The Marine Midland Trust Co., 120 Broadway, New York 15, N. Y. will until 11 a.m. (EDT) on July 24, 1959, receive tenders for the sale to it of 6% cumulative preferred stock at a price not exceeding par ($20 per share) to an amount sufficient to exhaust the sum of $42,400, plus accrued dividends to Aug. 1, 1959.—V. 188, p. 150.

New York Central RR.—Dividend Outlook—

Faced with the continuing possibility of a damaging strike in the steel industry, the directors on July 9 decided it would be presently premature and imprudent to resume dividends payments. The board emphasized, however, that if the strike problem were satisfactorily resolved and traffic volume were sustained at an adequate level, foreseeably favorable consideration would be given to a dividend declaration in October.

Seeks to Discontinue West Shore Division—

The company on July 9 placed before the Interstate Commerce Commission its request to discontinue all River (West Shore) Division passenger trains.

The Central now is required to operate 23 daily trains for only 155 passengers, of whom only 55 commute from points in New Jersey.

The railroad's intent to file notice with the ICC was announced July 8 by Alfred E. Perlman, President, in testimony before the Surface Transportation Subcommittee of the U. S. Senate Committee on Interstate and Foreign Commerce. Accordingly, the road today placed this new case before the ICC by filing with the Commission notices of proposed discontinuance. Notices were posted also on all West Shore trains and stations along the 34-mile-line from Weehawken, N. J., to West Haverstraw, N. Y.

On March 30 of this year the Central petitioned the New Jersey Board for authority to discontinue these trains. The New York P. S. Commission received a similar request on the same date and granted permission within a few weeks.

After months of hearings the New Jersey Board still has not reached a decision and has indicated it will not be rendered until another case is disposed of, which is expected to take months. The Central's daily loss on this service is $3,100—or a total of $220,000 since the petition was filed with the New Jersey Board over three months ago. Operating costs of the West Shore trains are 14 times more than the total receipts, with revenues amounting to only 20 cents per train mile while expenses are $2.78 per train mile.

Under Section 13a of the Interstate Commerce Act, the ICC can order hearings and investigate the Central's discontinuance proposal. The Central's notice to the ICC requests permission to discontinue service effective Aug. 10.

New York, New Haven & Hartford RR. — President Asks Senate Sub-Committee to Sponsor Subsidy Bill—

George Alpert, President, on July 9 urged a Senate Sub-Committee to sponsor a bill to provide a Federal subsidy for continuance of essential rail commuter services. The bill, presented to the Sub-Committee on Surface Transportation of the Senate Committee on Interstate and Foreign Commerce, provides no return on investment or any other profits to the railroads. Mr. Alpert told the Committee, headed by Senator George Smathers of Florida, that the bill represents an offer to perform "a public service in the public interest, to operate the service on a break-even basis."

He asked for rejection of amendments to the Transportation Act of 1958, proposed by Senators Clifford Case and Harrison Williams of New Jersey, declaring that neither bill provided any solution or answer to the problem of conserving essential commuter services. "These bills," he stated, "merely postpone a long-range solution and fail to meet the true issues involved."

"The basic fundamental problem which the railroads face," he stated, "is their highly subsidized competition. When public funds are used to pay the expenses of one competitor, an unfair advantage results, which creates inequity, and this violates the basic principle of free enterprise." He charged that "the subsidies to the airline and highway users have contributed very substantially to the plight of the railroads. . . if the scores of thousands of commuters now carried by the railroads into the many large cities in the nation were to be thrown onto the highway by discontinuance of this service, congestion and chaos of highway and urban traffic would result which would strangle the cities and paralyze the outlying communities."

The suggested bill submitted to the Sub-Committee calls for the appropriation of Federal funds to reimburse railroads or in appropriate cases, states or communities or agencies, to provide funds in excess of revenues derived from rail commutation services needed to pay the full cost of performing such services. The Interstate Commerce Commission would authorize or contract for the operation of the services as required "by public convenience and necessity."—V. 189, p. 2678.

New York State Natural Gas Corp. — Authorized to Construct $1,649,300 Facilities, to Abandon Service to Penn-York Natural Gas Corp. and Sell Additional Gas To Iroquois Gas Corp.—

The Federal Power Commission has authorized New York State Natural Gas Corp. to construct 29.5 miles of 20-inch pipeline and two measuring and regulating stations at an estimated cost of about $1,649,300 in order to deliver additional volumes of gas to Iroquois Gas Corp. of Buffalo.

The FPC also authorized New York State Natural to abandon the sale of up to about 5,500,000,000 cubic feet of natural gas annually to Penn-York Natural Gas Corp., and about 11.7 miles of 10-inch line and metering station required to make the sale. Such volumes will be delivered to Iroquois Gas Corp.

Penn-York and Iroquois Gas are affiliates in the National Fuel Gas Corp. In their applications, the companies said that future plans of the National Fuel group make it advantageous that the gas currently being sold by New York Natural to Penn-York be sold to Iroquois Gas. Penn-York would transport this gas for Iroquois and would continue to sell some local production to Iroquois.

The Commission, in addition, authorized Iroquois Gas to build about 7.5 miles of 8-inch pipeline to enable it to transport to market a portion of the additional gas to be received from New York Natural.—V. 189, p. 707.

Newport Electric Corp.—Rights Offering—This corporation is offering to the holders of its common stock of record on July 7, 1959, an additional 13,101 shares of $10 par value common stock on the basis of one new share for each ten held. The subscription price is $20 per share. Stockholders, whose rights expire at 3:30 p.m. (EDT) July 23, 1959, will be entitled to an oversubscription privilege, subject to allotment. The offer is being underwritten by Stone & Webster Securities Corp.

PRIVATE PLACEMENT PLANNED—The corporation expects to sell $700,000 5½% first mortgage bonds, series of 1989, to certain institutional investors on or about Aug. 11, 1959, and that amount will be used to repay bank loans incurred in connection with construction costs in earlier years.

PROCEEDS—The proceeds of the sale of the additional common stock will be applied to the corporation's 1959 construction program which will involve the expenditure of about $500,000. Balance of the necessary funds will be obtained from operations or, to the extent necessary, from additional bank loans.

BUSINESS—The corporation, with offices at 159 Thames Street, Newport, R. I., is engaged in the generation, purchase, distribution and sale of electricity and the incidental sale of electric appliances. The business of the corporation is conducted entirely within the State of Rhode Island, the principal communities served being Newport, Jamestown, Middletown and Portsmouth. The territory served covers approximately 55 square miles and the population served varies from about 57,000 during a greater part of the year to 61,000 or more during the summer. There is no competition from other electric utilities within the territory served by the corporation.

(Charles F.) Noyes Co., Inc.—Earnings Up—

Increased earnings for this corporation in the 1958-59 fiscal year were reported by William B. Falconer, President, on June 23. In addition to an increase of approximately 23% in the net operating earnings, earned surplus of the company exceeded the one million mark for the first time in the 61 year history of the firm when it totalled $1,011,216 at the close of the fiscal year. Gross assets of $1,880,565 were reported.

Fulfilling a precedent established in 1913 when this company was among the first to extend profit sharing to its employees, complete mutualization of the firm in 1958-59 was announced at the recent annual meeting. During the year, Charles F. Noyes who founded the business in 1898 added to the donations that he had previously made to the company or its employees of stock he had in the corporation, retaining only a very small amount for the Jessie Smith Noyes Foundation which he organized 12 years ago. During this period William B. Falconer and Edward J. Crawford, Jr. together with Duncan M. Findlay, President of the Findlay Noyes Co., insurance affiliate of the Noyes Co., have been Trustees of the Foundation, and more recently William B. Falconer, Jr. was elected a director and is an important member of its main activity, the Scholarship Division. The stock retained for the Foundation is a very small amount and will always be controlled by the Noyes company.—V. 186, p. 2853.

Nuclear-Chicago Corp.—Issues New Bulletin—

The fifth in a series of Technical Bulletins describing uses of radioisotopes in industrial research is available from this corporation. The bulletin describes the uses of radioactivity in helping the chemist prove a new method of analysis or extend an established method to a new type of unknown mixture.

More than 100,000 copies of the first four technical bulletins have been made available to researchers in all scientific fields by Nuclear-Chicago.—V. 189, p. 1797.

Nucleonics, Chemistry & Electronics Shares, Inc.—Sales—

June sales of 10-year investment programs in this Fund were $1,900,000 in agreed payments, a record for the tri-science growth fund and more than six times the June sales a year earlier.

Net investment assets of the fund passed the $6 million mark and stood at $6,006,603 at June 30, an increase of 113% over the $2,819,075 at June 30, 1958. Shares outstanding increased 31% to 420,629 at the month's end and per share asset value was $14.23—up more than 61% from $8.81 at June 30 last year.—V. 189, p. 2353.

Pioneer Finance Co.—Registers With SEC—

This company, located at 1400 National Bank Building, Detroit, on July 13, filed a registration statement with the SEC covering $1,000,000 of subordinated capital debentures due Aug. 1, 1971 (with warrants). The securities are to be offered for public sale in units, each consisting of $1,000 principal amount of debentures and a warrant entitling the holder to purchase 75 shares of common stock. The interest rate and other terms, public offering price and underwriting terms are to be supplied by amendment. White, Weld & Co. and Watling, Lerchen & Co. are listed as the principal underwriters. Net proceeds will be added to the general funds of the company and will be available for general corporate purposes. Such increase is considered desirable to expand the over-all borrowing power of the company.—V. 188, p. 2786.

Pittsburgh Plate Glass Co.—Belgium Agreement—

The Belgian paint firm of J. G. de Coninck & Fils S. A. has concluded an agreement with Pittsburgh Plate Glass International S. A., a subsidiary of Pittsburgh Plate Glass Co., to establish a special division for manufacture of the world-famous line of Pittsburgh Paints and Ditzler Automotive Finishes in the Benelux countries, it was announced by C. Robert Fay, Vice-President of PPG's Paint Division and Dwight R. Means, President of PPG International. The de Coninck firm is located at Merxem, a suburb of Antwerp, Belgium, and is one of the leading Belgian paint companies.

Through this agreement PPGI also obtained a substantial stock interest in the de Coninck firm.—V. 189, p. 2788.

Net ry. oper. income	821,196	535,815	3,457,086	2,709,979

—V. 190, p. 93.

Reading Tube Corp. — Securities Offered — Emanuel, Deetjen & Co. and Bache & Co. are joint managers of an underwriting syndicate which on July 16 offered in units, $5,000,000 of 15-year 5¾% sinking fund debentures, due July 15, 1974, with attached warrants to purchase common stock. Priced at $1,000, each unit consists of a $1,000 temporary debenture with attached warrants entitling the holder on and after Dec. 1, 1959, to purchase for cash 35 shares of common stock at $11 per share to and including July 15, 1964. Offering oversubscribed and the books closed.

The debentures will be redeemable at optional redemption prices ranging from 106% to par, and commencing July 15, 1960, through the sinking fund, at a redemption price of par, plus accrued interest in each case.

PROCEEDS—Net proceeds from the sale of the debentures will be used by the company to pay in full long-term bank loans which on April 4, 1959 amounted to $3,050,000. The balance of the proceeds will be added to the company's general funds and will be available to meet increased cash requirements resulting from increased investment in inventories and for additions and improvements to properties and facilities.

BUSINESS—Corporation is engaged in the manufacture and sale of copper and brass tubes, for use in construction, plumbing, refrigeration, air conditioning, oil burner, radiant heating, industrial and allied trades. The company's general offices are located in the Empire State Building, New York City, and the main manufacturing facilities are in Reading, Pa. Reading Tube and its subsidiaries have about 800 employees.

CAPITALIZATION—Upon completion of the current financing, outstanding capitalization of the company will consist of $5,000,000 of sinking fund debentures, due July 15, 1974; $184,000 of sundry notes payable; $2,500,000 of bank loans; 108,182 shares of $1.25 cumulative convertible preferred stock, and 730,158 shares of common stock, $1 par value.—V. 189, p. 2880.

Red Owl Stores, Inc.—Sales Up—Earnings Off—

Sales and earnings for the first fiscal quarter ended May 30, 1959 were materially affected by a labor dispute which closed the company's Minneapolis supermarkets for four weeks, Ford Bell, Chairman of the Board, and Alf L. Bergerud, President, said in the quarterly report to shareholders.

Despite the stoppage, sales for the qquarter were up 6% to $50,553,903, compared with $47,702,470 in the corresponding period last year. Retail sales were up 5% while wholesale sales climbed 10%. However, the higher volume was not sufficient to offset the loss of profits in the Minneapolis stores and earnings declined, the report said. The labor dispute, which affected all major food chains in the city, was settled with the signing of a three-year contract.

Consolidated net earnings amounted to $386,982, or 59 cents per share of common stock based on 651,246 shares outstanding at May 30, 1959. Net earnings for the corresponding quarter last year were $471,911, equal to 77 cents per share on the 611,506 shares then outstanding. Shares have increased by 39,740 of which 35,820 were from conversions of subordinated debentures and 3,920 from the exercise of stock options. About one-third of the debentures have been converted by the holders since the date of issuance.

At the annual meeting of shareholders in May, the certificate of incorporation was amended increasing the authorized shares of common stock from 1,250,000 to 2,000,000 and changing the $3 par value to no par value.—V. 187, p. 2337.

Reynolds Metals Co.—Southern Ry. Contract—

This company will supply 18,700,000 pounds of aluminum plate and extrusions for the production of 1,205 aluminum railroad cars, it was announced on July 6 by David P. Reynolds, Executive Vice-President.

Mr Reynolds said that the railroad cars, to be built for the Southern Railway System, will represent the first large volume application of aluminum by the railroad industry.

He disclosed that 455 cars will be covered hopper cars built by Magor Car Corp. in Clifton, N. J., and 750 will be gondola cars manufactured by Pullman-Standard, a division of Pullman, Inc., in Bessemer, Ala.

"Southern Railway System, which has to its credit a long list of progressive achievements, has taken the pioneering step in introducing the many economies and advantages of aluminum to railroad transportation," Mr. Reynolds said.

"From the standpoint of the aluminum industry," he added, "this is a major breakthrough, opening a vast new market for the most versatile of metals."

The order involves 13,800,000 pounds of aluminum plate, 4,400,000 pounds of aluminum extrusions and 500,000 pounds of miscellaneous items. It is expected that the entire order will be delivered and fabricated over a four-month period.

He said that the special design of the cars, geared to utilize to the fullest aluminum's many unique advantages, is the result of close cooperation between all of the companies involved.

He pointed out that Reynolds research and development groups have been developing aluminum railroad applications for many years, and that 14 years ago Reynolds built a number of experimental aluminum box-cars to demonstrate the metal's advantages in this application.

Reynolds also was instrumental in the introduction recently of the first aluminum cross-members, box-car inner liners and extruded refrigerator car flooring.

Annual Primary Production Capacity Increased—

Reynolds Metals Co. on July 9 added approximately 33,000 tons to its annual primary production capacity with the start-up of the first of three potlines at its new St. Lawrence reduction plant in Massena, N. Y.

V. G. Kneeskern, Plant Manager, said current operations would bring Reynolds to an annual production level of 634,000 tons. The company will have an additional 67,000 tons available at Massena by the end of the year, the Plant Manager added

Indications are that about one-third of the St. Lawrence plant's annual production will be delivered as molten metal to a Chevrolet foundry nearing completion close to the Reynolds plant. The remainder of the metal will go through additional production steps for sale in pig or ingot form.

Chevrolet trucks will pick up the molten metal in crucibles. Entering the crucibles at about 1,780 degrees Fahrenheit, the aluminum can be retained in its molten form for several hours. A short roadway connects the two plants.

Reynolds has been supplying metal to the Chevrolet plant for preproduction tests for several weeks.—V. 189, p. 2723.

Richmond, Fredericksburg & Potomac RR.—Earnings

Rosarita Mexican Foods, Inc.—Common Stk. Offered—William R. Staats & Co., Los Angeles, on June 30 offered 42,857 shares of common stock ($1 par) at a price of $7 per share.

BUSINESS—The company was organized as an Arizona corporation on April 8, 1946, under the name of "Rosita Products Co." Present name was adopted May 27, 1959, and the company is engaged primarily in the manufacture and sale of Mexican-type food items.

PROCEEDS—Of the net proceeds, $153,500 will be used to repay loans and the balance will be added to working capital and for expansion purposes.

CAPITALIZATION—Giving effect to present financing, the company has outstanding 247,457 shares of common stock of an authorized total of 3,000,000 shares.

DIVIDEND—A dividend of nine cents per share will be paid on Aug. 1, 1959 to stockholders of record July 20, 1959.

Ryan Aeronautical Co.—Earnings Rise—

Net income for the first half of the 1959 fiscal year totaled $1,154,229, after taxes, compared with $853,299 for the same six months of the prior year, according to T. Claude Ryan, President and Chairman of the Board.

Net sales and other income totaled $37,248,777 for the six months ended April 20, 1959, up $1,871,942 over the $35,376,835 reported a year earlier.

Per share earnings for the six months was equal to 86 cents a share, compared with 63 cents a share the year before. Computation of the per share earnings was made on the basis of the average number of shares outstanding during each period, adjusted to give retroactive effect to the 20% stock dividend paid Jan. 30, 1959, as well as the 2½-for-1 stock split which was effective May 29, 1959, Mr. Ryan said. Distribution of the additional shares resulting from the stock split was made June 19, 1959.

On the basis of the shares outstanding on April 30, before the stock split, per share earnings were $2.14 for the first half of 1959 and $1.90 for the comparable period of fiscal 1958.

Stockholders' equity increased by $587,279 during the second quarter of fiscal 1959, bringing net worth of the company to a high of $15,789,382.

To Develop Firebee Ground-Lounch Systems—

This company will develop two systems for ground-launching its famed Firebee jet targets for the U. S. Army Rocket and Guided Missile Agency, Redstone Arsenal, Ala., it was announced on July 10. Rail and "zero-length" launching systems will be employed.

Firebees will be catapulted into the air by jet assist take-offs (JATO). The Firebee's jet engine will then take over as the speedy target is directed on its mission by a ground remote controller.

A rail launcher, about 80 feet long, will be used initially, and a "zero-iength" launch system will be developed during the project's second phase.

Ground-launching will increase the versatility of Ryan Firebees, supplementing the standard method of air launching from "mother planes," utilized by the U. S. Army, Air Force, Navy and Royal Canadian Air Force.

New Air Force Contract—

Award of an $8,667,000 definitive contract to this company by the Air Force has assured production of the company's most advanced version of its famed Firebee target missile—the Q-2C—well into 1960. Receipt of the definitive contract followed an earlier $2,400,000 letter of intent, under which the program was started.

It was also announced that negotiations will be undertaken for additional orders for Q-2C spares, ground support equipment and other related items, expected to total more than $2,250,000.

Flight testing of the experimental XQ-2C has been under way for several months at Holloman Air Force Base, New Mexico, where numerous refinements and improvements over earlier versions of the Firebee are also being evaluated.

More than $14,000,000 in orders have been awarded Ryan by the Air Force for work on this new model Q-2C Firebee including the amounts for the first group of experimental targets built for the testing program, and for the various product improvement phases.

The Q-2C's development is the result of many years of tested improvements on the Q-2A—now America's most widely used free-flying jet target, and the sole target for the Air Force's top interceptor teams at last fall's Project "William Tell" at Tyndall Air Force Base, Florida. The Q-2A is scheduled to perform a similar role at Project "William Tell II" next Oct. 14-23.—V. 189, p. 2894.

Sea View Industries, Inc.—Registers With SEC—

Sea View Industries, Inc., 3975 NW 25th Street, Miami, Fla., filed a registration statement with the SEC on July 14, 1959, covering $420,000 of 7% subordinated convertible debentures, due 1969, and 84,000 shares of 10c par common stock. These securities are to be offered for public sale in units, each consisting of $200 principal amount of debentures and 40 common shares at $3.50 per share (or $340 per unit). The principal underwriter is Michael G. Kletz & Co., Inc., and the underwriting commission is to be $41 per unit (plus $22,000 for expenses). Also included in the registration statement are an additional 15,000 shares purchased from controlling stockholders by Michael G. Kletz, controlling stockholder of the underwriter, at 25c per share.

The company and its subsidiaries are engaged primarily in the business of manufacturing aluminum awnings; and it also manufactures aluminum carports, patios and screen rooms. It now has outstanding 365,000 common shares (in addition to certain indebtedness). Of the net proceeds of this financing, $253,530 will be used to retire a $100,000 bank loan and a $153,530 Small Business Administration Loan; $94,000 will be used to acquire a strip roller coating paint machine from an affiliated company owned by the issuer's President; $75,000 will be allocated to the purchase of various units of factory machines and automotive equipment from a company also owned by the President; $38,900 to cancel a cash loan by the President; and the balance for general corporate purposes, including the financing of sales of subsidiaries.

The prospectus lists Paul Rimmeir as President and Board Chairman. He also is listed as the owner of 329,00 shares (90.13%) of the outstanding stock.

Seaboard Air Line RR.—Earnings—

Period End. May 31—	1959—Month—1958		1959—5 Mos.—1958

Societe Nationale Tunisienne de Cellulose — Esparto Pulp Mill to Be Built in Tunisia—

Building of the first large-scale esparto pulp mill in North Africa is being undertaken by this company. The global contract for construction of the $11,000,000 plant has been awarded to the Parsons & Whittemore-Lyddon organization. Parsons & Whittemore-Lyddon will direct the over-all planning, equipment supply, erection and start-up

Digitized for FRASER
http://fraser.stlouisfed.org/

of a mill to produce 80 metric tons per day of bleached esparto pulp for world markets. The mill will be built at Kasserine in the heart of Tunisia's esparto growing region. The engineering services of Stadler, Hurter International, Ltd., Montreal, have been retained.

The company is a Tunisian corporation with share capital subscribed half by the Government of Tunisia and half by private European and North American interests. Substantial aid in financing the project comes from a credit of $6,250,000 extended by the Development Loan Fund, Washington, D. C.

By granting these credit facilities the Development Loan Fund gives a strong boost to the economic growth of the new Tunisian Government. Esparto grass, an ideal source of pulp for fine papers, has long been a valuable export commodity in the Tunisian economy. By converting the esparto into pulp Tunisia will produce a more valuable commodity which will increase the country's export receipts substantially.

The esparto grass will be cooked continuously by the soda process in Pandia Chemipulper equipment and dried on a machine built by Black-Clawson International, London, England.

The pulp will be exported to world markets, especially to the fine printing and writing paper mills in Great Britain, which have imported esparto grass for many years for the manufacture of pulp.

Sonotone Corp.—Introduces New Batteries—

Miniature batteries which will "outlast the products in which they are used—and which are smaller versions of the powerful sintered plate, nickel-cadmium Sonotone batteries employed in more than a dozen guided missiles and in military and airline jet fleets—were introduced on June 18 by this corporation. Capable of being recharged "several thousand times," (thus eliminating the cost and nuisance of battery replacement), the new "sealed cell" units were a number of years in development, according to Irving I. Schachtel, President, and are now starting production. They include:

1. A unique flashlight battery cartridge, with a life expectancy of 15 to 20 years, which fully recharges itself overnight when plugged into a household electrical socket;
2. A rechargeable TV battery for use in new portable battery-operated sets now in development, which will make it possible to renew the set's power, after an outing at the beach or picnic, by connecting the set itself with a household outlet;
3. Ten other miniature rechargeable batteries (in various sizes, as small as ¼" in height and ¾" in diameter) designed for hundreds of military, industrial and consumer products, ranging from space satellites to office machines, cordless electric shavers, tape recorders, radios, clocks, battery-operated record players, and even children's toys.

In most products, Mr. Schachtel stated, the new sealed cell Sonotone batteries need never be removed for recharging, since a small inexpensive charger can be built into the product itself.—V. 189, p. 1394.

Standard Brands, Inc.—Sales Off—Earnings Up—

For the first quarter of 1959, sales in the United States and Canada were $131,935,752, compared with the record high quarterly sales of $132,705,558 reported for the first quarter of last year. Net income totaled $3,996,224, an increase of 4.6%. This was equivalent to $1.16 per common share, compared with $1.11 per share earned in the first quarter of 1958.

Lower selling prices more than accounted for the decrease in dollar sales, as overall physical volume increased. The continued decline in coffee selling prices, which began late in 1956, reflects the weakness in green coffee prices, which are at their lowest level in a decade. Since December 1956, the selling price of Chase & Sanborn "Pressure Packed" Coffee has been reduced a total of 32 cents per pound. —V. 188, p. 1190.

Standard Oil Co. (New Jersey)—Employee Suggestion Plan Is 40 Years Old—Pays Nearly $3 Million—

Forty years of employee suggestions have paid off in a substantial way for this company (New Jersey)—and for the members of the world-wide Jersey Standard organization—according to figures compiled in the 40th annual suggestion plan report recently completed by the company's employee relations department.

Statistics reaching back to 1918, the year the "Coin-Your-Ideas" plan was initiated by Jersey Standard, indicate that nearly $3,000,000 has been paid to employees in the 40-year span through 1958, and that total number of ideas accepted run to just over 104,000.

These employee-sparked suggestions have, in turn, saved the company many millions of dollars.

However, Jersey Standard people say, the direct savings have not been nearly as important to the company, nor the awards to the employees, as has been the heightened sense of personal participation in company progress engendered by the suggestion system.—V. 189, p. 2832.

Sterling Oil of Oklahoma, Inc.—Reports Profit—

The year 1958 reflected the best material progress made by Sterling Oil of Oklahoma, Inc., in several years, and resulted in substantial net earnings, it is reported by Jesse A. True, President, on July 7 in the annual report being distributed to stockholders.

Net income for the year ended Dec. 31, 1958, amounted to $251,520, representing an increase of $334,602 over the net loss of $83,082 in the preceding year. This helped to reduce accumulated deficit at the end of the year to $62,483 from $314,003 on Jan. 1, 1958.

Mr. True disclosed that "the months following this period under review have seen a continuation of such profitable operation and all accumulated deficit has since been removed. "Preliminary estimates of earnings for the first quarter of 1959 are at a record level."

Total income for the year was at $625,329, compared with $568,575 in 1957, although oil and gas sales declined to $281,873 from $374,450.

Mr. True pointed out that a continuation of profit making from the sale of securities and certain assets can also be expected as part of the company's program of acquiring and developing important oil properties.

Mr. True detailed extensively the company's 25% working interest to be equated to an overriding royalty interest in the Citronelle Oil Field of Alabama, recently acquired from Gulf Oil Corp. Engineering studies of Core Laboratories, Inc., of Dallas, Texas, he noted, estimate total primary and secondary recoverable reserves will result in a net income through 1979 of $72.6 million.

Sinclair Oil & Gas Co. recently purchased for $600,000 the Sterling gasoline plant at Garber, Okla., in which Sterling owned a 55% interest, he reported.

"As this is written," Mr. True announced, "Sterling has discharged virtually all of its current obligations, together with the bank loan on the plant, and, for the first time, is free of pressing current debt."

He discussed present interests in important holdings in Venezuela, Cuba, the Gulf of Mexico, Arizona, Alabama, Oklahoma and Canada. In addition, Sterling is now in the process of acquiring rights to a major property in Australia.—V. 189, p. 2246.

Studebaker-Packard Corp.—Car Output Up 444%—

The corporation's passenger car production for the first six months of 1959 was 444% greater than production during the comparable period last year, S. A. Skillman, Vice-President and General Sales Manager, announced on July 8.

Passenger car production totaled 89,068 units during the six month period. During the corresponding period in 1958, S-P produced 20,060 units.

During the second quarter of 1959, passenger car production totaled 38,992 units, an increase of 369% over production of 10,540 units during the second quarter of 1958.

June production totaled 11,727 units, an increase of 309% over June, 1958.—V. 190, p. 199.

Suburban Gas Service, Inc.—Buys Six Plants—

This corporation has strengthened and expanded its position in the Southwest by the purchase of six LP-Gas distributing plants in New Mexico and Colorado, W. R. Sidenfaden, President, announced on June 25.

Total price of the purchases, which were made for cash, was in excess of $700,000.

Located at Espanola, Chama, Gallup, Grants and Santa Fe, N. M., and Denver, Colo., the newly acquired plants have aggregate annual sales of approximately $1,125,000 distributing some 7,600,000 gallons of LP-Gas to 3,300 residential, commercial, agricultural and industrial customers.

Mr. Sidenfaden also announced that Suburban Gas Service has been selected to distribute Southern Union Gas Co.'s LP-Gas output, originating in the four-corners area of New Mexico, which is estimated at approximately 20,000,000 gallons annually. Production from Southern Union's Lybrook, N. M., refinery, currently under construction, is scheduled to begin in early 1960.—V. 188, p. 2511.

Sunray Mid-Continent Oil Co.—Files Stock Option Plan

This company filed a registration statement with the SEC on July 14, 1959, covering 521,132 shares of common stock, reserved for issuance upon the exercise of options granted or authorized under the company's 1952 and 1959 Stock Option Plans.—V. 190, p. 95.

Susquehanna Corp.—Earnings 700% Higher—

Earnings for the first six months of 1959 will be $1,084,338 or 94 cents per share, as compared with $147,714 or 13 cents per share for the same period last year, it was revealed on July 8 by J. Patrick Lannan, Board Chairman, in a preliminary semi-annual statement.

Mr. Lannan said the increase is due primarily to the earnings of a new uranium ore processing plant and a sulphuric acid plant at Riverton, Wyo. Six-month earnings from uranium concentrate sales were in excess of 300% greater than those for a like period in 1958. The sulphuric acid plant was not in operation at this time last year.

The company's new uranium plant at Riverton, and expanded facilities at Edgemont, So. Dak., have increased total uranium ore processing capacity almost three-fold. This increased capacity is expected to result in annual sales to the Atomic Energy Commission of more than 1,350,000 pounds of uranium concentrate.

Completion in late 1958 of the sulphuric acid plant at Riverton marked Susquehanna's entry into the chemical production field. The plant supplies sulphuric acid to mills, refineries, processing plants and power companies. Between 30 and 40% of its production serves the company's uranium processing facilities. This sulphuric acid plant has been operating at full capacity since May of this year and present demand insures production at full capacity for the remainder of 1959.

As part of its diversification program, Susquehanna has been investigating several "interesting" acquisitions. "An ambitious program of expansion into new and profitable business areas has been underway since the beginning of the year," Mr. Lannan stated. "We intend to buy profitable businesses in order to achieve a balanced diversification, as well as to develop to its full potential our very lucrative uranium and chemical divisions, by means of planned continued growth in this area."

"To this end," stated Mr. Lannan, "we are in the process of concluding several uranium mining acquisitions in the gas hills mining district of Wyoming. These acquisitions are part of a planned vertical development that will permit Susquehanna to enter the mining phase of the uranium field on the most favorable basis."

The North Shore Line railroad continued to operate at a loss during the first half year of 1959. A petition for abandonment by the North Shore was filed with the Interstate Commerce Commission last year. Hearings on this petition have been concluded and final briefs have been filed with the Commission. The examiner's recommended report is expected in early Fall.

Unit to Buy Uranium Ore—

See Vitro Corp. of America below.—V. 188, p. 1868.

(James) Talcott, Inc.—Reports Higher First Half Net

This corporation reported on July 15 that consolidated net income in the first six months of 1959 reached $1,516,051, up 51% from the $1,004,008 reported for the similar period last year. Provision for Federal taxes was $2,043,000, compared with $1,242,000 in 1958.

After provision for preferred dividends, earnings equaled $1.49 per share on the 950,507 shares of common stock outstanding, including the shares issued for a 10% stock dividend, paid at the end of 1958, and 150,000 shares sold to the public early in 1959.

In the first half of 1958, the company reported earnings equal to $1.28 per share on the 706,966 shares which were then outstanding. Adjusted to an equivalent basis with the current year, earnings in the first half of 1958 would have equaled $1.16 per share.

James Talcott, Chairman, and Herbert R. Silverman, President, said that the 105-year-old firm's volume of business in the first half of the year amounted to $495,717,000, compared to $384,835,000 in the same period a year ago, and that each of the company's three divisions, Commercial Financing, Factoring and Industrial Time Sales Financing, contributed to the rise.

Talcott, founded in 1854, is engaged in all phases of industrial finance—accounts receivable and inventory financing, mortgage, equipment and special loans, factoring, industrial time sales financing and rediscounting.

Banker or Board—

Curtis E. Neldner, a partner in the investment banking firm of White, Weld & Co., on July 15 was elected a director of James Talcott, Inc., one of the country's oldest and largest independent commercial financing and factoring organizations. Mr. Neldner is also a director of East Tennessee Natural Gas Co., Carolina Pipeline Co., and Beaunit Mills, Inc.—V. 189, p. 1839.

Talmage Wilcher, Inc., West Palm Beach, Fla.—Files With Securities and Exchange Commission—

The corporation on July 6 filed a letter of notification with the SEC covering 150,000 shares of class B common stock (par $1) to be offered at $2 per share, without underwriting.

The proceeds are to be used in high-yield mortgages and investment certificates, industrial building, leases and other investments.

Tennessee Central Ry.—Earnings—

Period End. May 31—	1959—Month—1958		1959—5 Mos.—1958	
Railway oper. revenue	$347,592	$328,190	$1,739,953	$1,639,436

Net revenue from railway operations	$86,850	$89,382	$447,649	$376,862
Net ry. oper. income	26,062	25,549	135,562	55,905

—V. 189, p. 2462.

Tennessee Gas Transmission Co. — Files $5,000,000 Budget-Type Application With FPC—

A budget-type application by this company has been accepted for filing, the Federal Power Commission announced on June 24.

The company proposes to construct the facilities needed to take into its transmission facilities natural gas which it purchases from independent producers in the general area of its system during 1959. The total cost of such facilities, the company said, would not exceed $5,000,000 with the total cost of any one connection not to exceed $500,000.

The company's main transmission system extends from its sources of supply in Texas and Louisiana through Arkansas, Mississippi, Tennessee, Kentucky, West Virginia, Ohio, Pennsylvania, New York, New Jersey, Massachusetts, New Hampshire, Rhode Island and Connecticut. —V. 190, p. 200.

Tenney Engineering, Inc.—Joint Venture to Pool Engineering to Simulate Space—

"To meet pressing needs for advanced test equipment to measure the performance and reaction of men and machines in space," this corporation and Consolidated Electrodynamics Corp., Rochester, N. Y., have made a joint venture agreement pooling engineering, technical and production facilities for research and development, design and construction of extreme-high altitude environmental simulation equipment, it was announced jointly on July 9 by Robert H. Brown, Vice-President of Tenney and Max Garber, Director of Marketing, Consolidated Electrodynamics Corp.'s Rochester Division.

Under the agreement, Consolidated Electrodynamics and Tenney will work together in bidding on environmental chambers, with Tenney in most instances the prime contractor and Consolidated Electrodynamics as a joint participant, Mr. Brown said.

The sales organizations of the two companies will also cooperate in a continuing exchange of information on bid requests for equipment produced by the two companies. Tenney designs and builds test equipment simulating high altitudes, extremes of heat, cold, humidity, sunshine, desert sand storms, and refrigeration systems for commercial and industrial purposes.

Consolidated Electrodynamics, through its Rochester Division designs and builds pumps and gages as well as vacuum furnaces, vacuum coaters, high altitude test chambers, and other equipment involving vacuum engineering of complete systems.

"The joint venture agreement will give the two companies outstanding resources in the test equipment field," according to Mr. Garber. "Both companies will continue to make all products available at standard prices in the open market. Only their specialized engineering capabilities will be combined to meet current and future requests for advanced testing facilities, which place unprecedented demands on existing design know-how, and experience in the construction of needed environmental test facilities."

Tenney is currently engaged in design and construction of a $500,000 high altitude test facility which will simulate space conditions at 150 miles (nearly 800,000 feet) above the earth's surface—highest so far attempted in such equipment. It is the oldest and largest company in the environmental test equipment industry.

Consolidated Electrodynamics, with general offices at Pasadena, Calif., has its vacuum equipment Division at Rochester, N. Y., with both engineering and production facilities. The company is a leading producer of electronic and other products involving advanced technology.

"The increasing need for environmental testing facilities that will simulate conditions in space poses engineering problems for which there is no previous background of knowledge or engineering experience," Mr. Brown pointed out in announcing the agreement.

"Test equipment to simulate space environments at altitudes above

NATIONAL LIST OF OVER-THE-COUNTER SECURITIES

Quotations for Friday, July 17

The following bid and asked quotations are obtained from the National Association of Securities Dealers, Inc., and other selected sources. They do not represent actual transactions. They are intended as a guide to the range within which these securities could have been sold (indicated by the "bid") or bought (indicated by the "asked") at the time of compilation. Origin of any quotation furnished on request. The "National" list is composed of securities which have a wide national distribution.

THE COURSE OF BANK CLEARINGS

Bank clearings this week show an increase compared with a year ago. Preliminary figures compiled by us, based on telegraphic advices from the chief cities of the country, indicate that for the week ended Saturday, July 18, clearings from all cities of the United States from which it is possible to obtain weekly clearings will be 1.1% above those for the corresponding week last year. Our preliminary totals stand at $24,787,451,384 against $24,516,055,137 for the same week in 1958. At this center theer is a gain for the week ended Friday of 3.8%. Our comparative summary for the week follows:

CLEARINGS—RETURNS BY TELEGRAPH

Week Ending July 18—	1959	1958	%
New York	$13,135,669,109	$12,626,798,356	— 4.1
Chicago	1,467,359,068	1,213,953,004	+ 2.1
Philadelphia	1,119,000,000	1,040,000,000	+ 7.6
Boston	765,706,063	709,277,793	+ 8.0
Kansas City	578,109,324	502,770,672	+ 1.5
St. Louis	*330,000,000	392,900,000	— 3.1
San Francisco	776,036,000	741,929,278	+ 4.6
Pittsburgh	516,685,426	444,200,602	+16.3
Cleveland	712,905,154	592,686,233	+20.3
Baltimore	422,139,152	393,349,853	+ 7.3
Ten cities, five days	$18,843,659,296	$18,656,965,791	— 0.9
Other cities, five days	4,936,493,400	4,882,574,445	+ 1.1
Total all cities, five days	$23,780,152,696	$23,539,540,246	+ 1.0
All cities, one day	1,007,298,688	976,514,891	+ 3.1
Total all cities for week	$24,787,451,384	$24,516,055,137	+ 1.1

*Estimated.

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday, and the Saturday figures are not available at time of going to press. Accordingly, in the above, the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below we are able to give the final and complete results of the week previous — the week ended July 11. For that week there was a decrease of 6.9%, the aggregate of clearings for the whole country having amounted to $21,746,572,466 against $23,369,179,432 in the same week in 1958. Outside of this city there was an increase of 0.5%, the bank clearings at this center having registered a loss of 13.5%. We group the cities according to the Federal Reserve Districts in which they are located and from this it appears that in the New York Reserve District (including this city) the totals show a falling off of 13.7% but in the Boston Reserve District the totals record an improvement of 2.6% and in the Philadelphia Reserve District of 0.1%. In the Cleveland Reserve District the totals are larger by 4.0%, in the Richmond Reserve District by 10.8% and in the Atlanta Reserve District by 1.0%. The Chicago Reserve District has to its credit an increase of 3.5%, the St. Louis Reserve District of 1.3% and the Minneapolis Reserve District of 0.8%. In the Kansas City Reserve District the totals suffer a decline of 3.1%, in the Dallas Reserve District of 1.0% and in the San Francisco Reserve District of 4.6%.

Industrial loan commitments	355	— 5	— 636

‡ Net change after elimination of Sec. 13b surplus of $27,543,000 on Sept. 2, 1958.

Condition Statement of Member Banks

Note: Beginning with this statement, this series is revised both in coverage and in format. The revised form includes several new items, the most important of which is loans to financial institutions, previously reported against other loan categories. The new report shows comparable week-ago figures, but year-ago figures are approximations or are not available for some items.

A summary of assets and liabilities of reporting member banks follows:

ASSETS—	July 8, 1959*	Increase (+) or decrease (—) since July 1, 1959	Increase (+) or decrease (—) since July 9, 1958
	(In millions of dollars)		
Total loans and investments	105,431	+ 436	+3,028
Loans and investments adjusted†	104,401	+ 525	‡
Loans adjusted†	63,259	— 92	‡
Commercial and industrial loans	28,483	— 45	‡
Agricultural loans	880	— 3	+ 122
Loans to brokers and dealers for purchasing or carrying—			
U. S. Government securities	422	+ 129	— 325
Other securities	1,778	— 116	
Other loans for purchasing or carrying			
U. S. Government securities	165	+ 8	— 43
Other securities	1,248	— 5	
Loans to non-bank financial institutions			
Sales finance, personal finance, etc.	3,727	— 86	‡
Other	1,452	— 2	‡
Loans to foreign banks	591	+ 2	— 1
Loans to domestic commercial banks	1,030	— 489	
Real estate loans	12,211	+ 13	+1,894

GENERAL CORPORATION AND INVESTMENT NEWS

(Continued from page 14)

150-200 miles is needed. Design and construction of such chambers involve engineering and technical problems of the first magnitude.

"Coupled with our own capabilities, the advanced technology available in the Consolidated Electrodynamics organization, particularly at its vacuum equipment division in Rochester, makes this pooling arrangement desirable for both companies—and for the aircraft, missile and other industries which require the extreme altitude or space test equipment that the two companies will be able to design and build under the agreement."—V. 189, p. 2937.

Texaco, Inc.—Acquisition—

This corporation has announced plans for another major expansion. The company said it would acquire the capital stock of the Paragon Oil Company, Inc., of Long Island City, N. Y., a major East Coast distributor of home and industrial fuel oils and other petroleum products. Paragon is said to be the largest independent oil company in the New York area.

Three weeks ago Texaco announced plans to acquire the Superior Oil Co. of California. That move, which would result in a substantial expansion of Texaco's crude oil production, would involve about $765,000,000.

Terms of the Paragon deal were not disclosed in the announcement by Augustus C. Long, Chairman of Texaco. Paragon is a privately held company. The amount of stock it has and other financial details were not available.

Acquisition of Paragon would enable Texaco to engage directly in the fuel oil business in the large East Coast market for the first time, Mr. Long said. The transaction is expected to be completed next week, he added.

Henry L. Schwartz, President of Paragon, and four brothers associated with him in the company will continue in the business as a part of the Texaco organization, Mr. Long said.

Paragon, which has its headquarters in Long Island City, operates storage facilities in Brooklyn, Newark, N. J., and Tiverton, R. I. It distributes petroleum products to some 50,000 customers in an area from Maine to Maryland. The company operates a small fleet of oil tankers, including the Kings Point, a supertanker. An affiliate, the Paragon Oil Burner Corp. of Mineola, L. I., manufactures oil burners and related heating equipment.—V. 189, p. 2832.

Texas American Oil Corp.—Operations—Financing—Nash J. Dowdle, President, on July 11, said:

"During the fiscal year ended June 30, 1959 the company participated in the drilling of 14 wells, 11 of which were commercial oil and/or gas producers, 2 were dry holes and one well was temporarily abandoned. The company also acquired three producing properties: 8 oil wells in Borden County (1/8 interest), 3 oil wells in Pecos County, Texas (8/8 interest) and 2 gas wells in Brown County, Texas (⅛ interest).

"The company's gross oil and gas sales were in excess of $250,000—up 300% over last year. On June 30, the company owned fractional interests in 88 producing oil and/or gas wells compared to 63 June 30, 1958.

"In May the company negotiated the sale by the private placement of 275,000 shares of authorized but then unissued common stock, this sale netting the company $269,000. With this additional working capital the company shall substantially increase its exploration and drilling program. All of the above stock was taken for investment purposes.

"The company's No. 1 Fitzgerald, Apache County, Arizona, wildcat has been temporarily abandoned at 480' due to mechanical difficulties. It is anticipated drilling operations will again commence, either re-entering the old hole or drilling a new hole by the end of July.

"The company is presently drilling two important wildcats in West Texas, one in Kent County and one in Howard County; both wildcat wells are Pennsylvanian Reef Pay prospects.

"In April the company filed an application for a Petroleum Prospecting Permit on 2,000,000 acres in Australia. The 2,000,000 acres offsets the Delhi-Santos-Standard acreage on which a 14,000' wildcat well is currently drilling.

"The company recently acquired approximately 4,000 acres of oil and gas leases in Calhoun and Jackson Counties, Mich. The vast majority of these leases are on the Scipio-Albion Trend along which prolific oil wells are being found. This area is now enjoying intense leasing and drilling activity."—V. 188, p. 1561.

Texas Gas Transmission Corp.—Proposed Expansion—

The Federal Power Commission has omitted the intermediate decision procedure on applications by this corporation and Texas Eastern Transmission Corp. which seek authority to build or reactivate natural gas pipeline facilities at an estimated cost of about $41,884,000.

The FPC scheduled an oral argument on the matters for July 21 in Washington, D. C. The Commission also directed that initial briefs be filed by July 16 and reply briefs by July 20.

The FPC said the omission of the presiding examiner's decision and the hearing of oral argument would be entirely consistent with the Commission's intent to expedite the handling and disposition of new applications seeking to serve expanding markets before the advent of the 1959-60 season.

Texas Gas proposes to construct approximately 164.63 miles of 30-inch loop line and about 80.92 miles of 26-inch loop line; about 103.64 miles of various diameter supply lines; 14,000 horsepower in additional compressor capacity; a new 1,760 horsepower compressor station; a 26-inch river crossing; meter stations; and appurtenant facilities. The cost of the facilities, to be built in Louisiana, Arkansas, Mississippi, Tennessee, Kentucky, Indiana, and Ohio, is estimated at about $39,600,000.

The facilities would enable Texas Gas to gather and transport up to 100,000,000 cubic feet of natural gas daily, on a firm basis, for the account of Hope Natural Gas Co., of Clarksburg, W. Va. The gas would be purchased or produced by Hope from fields in and offshore from Louisiana. Texas Gas would deliver the gas to Texas Eastern at their existing interconnection near Lebanon, Ohio.

Texas Eastern would transport the gas from Lebanon for delivery to Hope or its affiliates in the Consolidated Natural Gas System at existing connections. In order to render this service, Texas Eastern seeks authorization to place in gas service approximately 189 miles of existing 20-inch line from Middletown, Ohio to Moundsville, W. Va., and 12,500 horsepower in existing compressor capacity. Texas Eastern also proposes to construct about 3,100 additional horsepower at existing stations. The cost of this reactivation and construction is estimated at about $2,284,000.

The proceedings also involve applications by Hope, seeking to estab-

Digitized for FRASER
http://fraser.stlouisfed.org/

lish new delivery points to certain of its affiliated customers, and by 21 producers seeking authority to sell natural gas to Hope.—V. 189, p. 2725.

Tidewater Oil Co.—Proposed Merger—

Major management representatives of this company and Skelly Oil Co. have had several meetings to discuss the basis for a proposed merger, George F. Getty, Tidewater President, said on July 13.

The merger would bring together all phases of the two companies' operations, involving the widespread activities throughout the U. S. and foreign countries of the two major integrated oil companies, according to Mr. Getty.

No contract presently exists between Skelly and Tidewater for the merger. The only agreement, he said, is a set of ground rules for evaluating oil and gas reserves and other assets of the two companies to assist in arriving at a mutually acceptable ratio of exchange.

Skelly and Tidewater committees for manufacturing, marketing, land and reserves, transportation and accounting are working with technical experts and outside appraisers, to evaluate the assets falling within each field of operation, Mr. Getty added.

A number of operating and financial problems will have to be solved, according to Mr. Getty. A complete inventory of the companies' properties and assets must be taken, he said, which demands that the companies first arrive at a common basis for evaluation. Earnings for both companies for a number of years past must be restated on a common basis and agreement reached on forecast of future operations and earnings.

Tidewater's current use of computers in its accounting will help considerably, Mr. Getty indicated. The evaluation and comparison of thousands of leases and their oil reserves will be completed in a fraction of the time required without the use of computers.

Recommendations of the working committees will be reviewed and approved by a general committee of the presidents of the two companies and a representative of DeGolyer and MacNaughton, internationally known petroleum consultants, Mr. Getty said. Their recommendations, he added, will be considered in turn by the respective boards of directors of the two companies, prior to submitting a proposal to stockholders.

Excellent progress has been made towards this proposal, Mr. Getty said, but no definite date can as yet be set.—V. 190, p. 95.

Tool Research & Engineering Corp.—Registers With Securities and Exchange Commission—

This corporation, located at 1515 Santa Fe Avenue, Compton, Calif., filed a registration statement with the SEC on July 14, covering 250,000 shares of common stock, to be offered for public sale through an underwriting group headed by Shields & Company. The public offering price and underwriting terms are to be supplied by amendment. Three of the present stockholders have agreed to sell to Shields & Company, at a price, for the options, of 25c for each share covered, transferable options covering 50,000 shares of common stock, which options are exercisable over a period of five years at the offering price to the public.

Organized in June, 1959, the company is the sucessor, by stat tory merger in July, 1959, to three California corporations, two of which in turn succeeded in 1956, to the business of a partnership formed in 1946. Its principal business has consisted of the fabrication of production tooling and the development and construction of high precision special equipment and machinery for use in the aircraft and other industries. It has outstanding 300,000 common shares (in addition to certain indebtedness). Of the net proceeds of this financing, $400,000 will be used to provide working capital to finance the company's sales, particularly in the field of welded stainless steel honeycomb core; about $170,000 will be applied to the payment of a Small Business Administration loan; $130,000 will be used to repay outstanding bank loans; and some $150,000 will be used to purchase additional tooling and equipment.

The prospectus lists Noah Dietrich as Board Chairman and Leopold S. Wyler, Jr., as President. They are listed as the owners of 37,505 shares (12.5%) and 142,542 shares (47.5%), respectively, of the outstanding stock; and Donald L. Dempsey, Vice-President, is listed as the owner of 71,250 shares (23.7%).

Trans Central Petroleum Corp., New York, N. Y.—Files With Securities and Exchange Commission—

The corporation on July 6 filed a letter of notification with the SEC covering 1,000,000 shares of common stock (par one cent) to be offered at 10 cents per share, through Barnett & Co., New York, N. Y.

The proceeds are to be used for expenses incidental to the exploration and development of gas and oil.

Transamerica Corp.—Forms New Insurance Firms—

Establishment of two new subsidiary companies to expand the nation-wide insurance activities of Transamerica Corp., was announced on July 7 by F. N. Belgrano, Jr., President and Board Chairman.

The new firms bear the traditional and nationally prominent name of their parent company — Transamerica Life Insurance Co., and Transamerica Insurance Co. Incorporated in June 1959 under the laws of California, they received their certificates licensing them to do business in this State from the California Insurance Commissioner on July 2, 1959.

Mr. Belgrano said applications for licenses to do business in other States in the Union will be filed immediately. He stated the companies, in all probability, would not underwrite risks until they receive permission to do business in most of the other States.

The two new wholly-owned subsidiaries will be operated in addition to Transamerica's other insurance subsidiaries—Occidental Life Insurance Co. of California and the Pacific National group of fire and casualty companies.—V. 189, p. 2726.

Transcontinental Gas Pipe Line Corp.—Granted Temporary Authority to Construct and Operate $29,457,000 Facilities—

The Federal Power Commission has granted this corporation temporary authority to construct and operate natural gas facilities at an estimated cost of about $29,457,000. The facilities are to be operated temporarily only for existing authorized service pending final disposition of the application.

Transco was authorized to build four new compressor stations having a combined capacity of 37,280 horsepower; to add a total of 18,000 horsepower to eight existing compressor stations; to build 13 miles of 24-inch supply loop pipeline and 17.68 miles of 20-inch loop lateral sales line; and to construct three distribution meter stations for service to existing customers. The facilities are part of a larger proposal by Transco to build facilities during 1959 and 1960 at a cost of approximately $76,910,449 designed to provide 156,000,000 cubic feet daily of additional pipeline capacity to meet the increased requirements of existing customers and an additional 50,000,000 cubic feet of daily capacity for a transportation service for Consolidated Edison Co. of New York.

The FPC said the temporary authorization "is without prejudice to such final disposition of the application for certificate as the record may require."—V. 190, p. 95.

Transwestern Pipeline Co.—Proposed Construction—

Federal Power Commission Presiding Examiner Harry W. Frazee filed a decision on July 1, subject to review by the Commission, authorizing this company to construct a new pipeline system in the southwestern United States to supply 300 million cubic feet of natural gas per day to markets in Southern California.

The Transwestern project, estimated to cost $191,700,000, would include 1,609 miles of pipeline and 40,890 horsepower in compressor capacity. The system would have its origin in the Panhandle-Hugoton and West Texas-Permian Basin areas and would terminate at the Arizona-California state line near Topock, Arizona. Transwestern plans to sell initially 300 million cubic feet of gas daily to the Pacific Lighting Gas Supply Co., of Los Angeles, Calif., for resale through affiliated natural gas distribution companies in Southern California.

The decision also grants certificates to 14 independent producers and one pipeline company authorizing them to sell natural gas to Transwestern. The examiner did not condition any of the certificates to limit the initial prices for the gas to levels below those proposed, as had been urged by the California Public Utilities Commission. He held there was no substantial evidence to "rebut the presumption that the initial prices in the producer agreements are just and reasonable."

Th examiner did, however, condition Transwestern's certificate to prohibit the company from paying dividends on its common stock until it converts its 5% interim notes into preferred or common stock or until its total long term debt—including the 5% notes—has been reduced to 75% of the total capitalization. Presiding Examiner Frazee imposed this condition on the company's financing plans after noting that the debt total amounted to 85% of total capitalization, a ratio which exceeded the FPC's standard of not more than 75% debt.

The examiner did, however, condition Transwestern's certificate to Corp.; Pure Oil Co.; Monsanto Chemical Co.; Sun Oil Co.; Humble Oil and Refining Co.; Union Oil Co. of California; Warren Petroleum Co.; British American Oil Producing Co.; Curtis R. Inman; Richardson & Bass; G. H. Vaughn, Jr., et al.; Superior Oil Co.; Magnolia Petroleum Co.; and Hunt Oil Co.—V. 189, p. 2833.

Twentieth Century-Fox Film Corp.—New Subsidiary

Twentieth Century-Fox TV International Corp., a new subsidiary, has been organized, it was announced on July 1 by Spyros P. Skouras, President of Twentieth Century-Fox, and Murray Silverstone, head of the International and Inter-America organizations.

This program represents a major policy change. While heretofore the activities of Twentieth Century-Fox centered chiefly around its Studio produced films, the new foreign TV set-up will offer its complete services as agents to independent producers of quality programs, in addition to distributing the TV material produced by the company. Furthermore, the company will distribute TV series produced abroad and will be actively engaged in foreign co-production and TV investments as part of its diversified program.

Although the TV company will operate as a separate unit, Twentieth Century-Fox will put all facilities of its vast organization throughout the world at the disposal of the new subsidiary.

Twentieth Century-Fox TV International will be engaged in all aspects of television. It will offer independent TV film producers an exceptional opportunity to associate themselves with a major distribution organization.—V. 189, p. 2398.

Union Electric Co. (& Subs.)—Earnings Decreased—

Union Oil Co. of California—Acquisition—

Reese H. Taylor, Chairman of the Board on July 1 said in part:

"The company has acquired various leasehold, working interests, mineral and royalty interests in over 29,000 acres in 14 Counties in Texas and New Mexico of which 22,000 acres are producing and the remaining 7,000 have exploratory possibilities. Varying interests were acquired in 428 producing wells. Expressed in terms of daily production, the working interest amounts to approximately 750 net barrels per day, and the royalty and mineral interests to another 750 barrels per day, for a total of about 1,500 barrels per day.

"This transaction added over 12 million barrels to the company's crude oil reserves. It also included one-half of the unleased deep rights of 8,400 acres in the South Cowden and Harper Fields in Ector County, Texas. There are prospects of finding new production in the Devonian and Ellenburger formaticns.

"Active development drilling operations are continuing in the Gulf Division. During the past month four new wells were completed, three of which were dual completions in the Caillou Island, Big Bayou Pigeon, and offshore Block 76 Fields. The company is currently drilling the fifth well from the No. 2 platform in the Block 76 Field and upon its completion, the five dual wells on the platform will be turned into Transco's pipeline system. Gas production from the field will then be in the magnitude of 40,000 Mcf per day.

"A sizable program of drilling and construction has been started in two other offshore areas in the Gulf of Mexico and in one onshore field in Southern Louisiana in preparation for initial deliveries of gas under the new Trunkline contract before the end of the year. Four new wells will be drilled in these fields in the latter part of the year, and initial deliveries under the contract will be made from 10 producing wells at a rate of approximately 60,000 Mcf per day.

"In the Bridge Field, Ventura County, Calif., the company's Hill No. 2 well is being placed on production from three zones at a depth of 12,000 feet.

"In Alaska, Kenai Unit No. 1, the company's joint interest test with The Ohio Oil Co. on Kenai Peninsula, was spudded and is drilling below 8,400 feet, still above the Hemlock sand objective. This formation is productive in the Swanson River Unit to the north in which Union has a 5.25% interest.

"The company recently spudded two deep gas tests in Dewey County, Okla. Both wells are on a 16,000 acre lease block located along a potentially productive gas trend.

"Porvenir No. 1 in Limon Province, Costa Rica, has reached a depth of 6,750 feet, and the two partner operated wells in the Peten Province of Guatemala continue drilling ahead.

"The company will begin drilling its first exploratory well in Argentina with the arrival of a shipload of drillling equipment which is enroute to the tiny port of Puerto Deseado, 1,000 miles south of Buenos Aires."

COMPANY'S 1959 OPERATIONS AND PROGRESS

	Month of May 1959	5 Mos. Ending May 31 1959	1958
Controlled supply of crude oil (bbls.)	3,642,086	17,723,186	18,065,300
Raw materials processed (bbls.)	5,248,719	25,125,135	24,652,985
Sales of crude oil & products (bbls.)	6,200,185	32,504,581	28,391,686
Sales of natural gas (MCF)	9,983,682	53,854,328	48,993,757
Expenditures for property additions and replacement	$6,334,931	$34,997,917	$26,405,472

New Well—

A deep-test extension well flowing 33 gravity crude oil at the rate of 1,200 barrels a day has been completed in the Bridge Field south of Santa Paula, Calif., is was reported on July 2 by this company.

The well, Hill 2, is producing from three intervals between 10,659 and 12,100 feet with tubing pressure of 325 pounds and casing pressure of 1,350 pounds. The bottom interval is a completely new producing zone for the field and the well extends the producing limits of the pool in a westerly direction.—V. 189, p. 2833.

Union Pacific RR.—Earnings—

Period End. May 31—	1959—Month—1958		1959—5 Mos.—1958

To Replace Bridge Span—

Re-placement of a 247-foot span in the railroad's bridge near the American Falls Dam in Idaho has been scheduled for this Fall, company officials reported on July 2.

Preliminary planning calls for constructing the new span with only a couple hours of service interruption, but details are still being worked out by U. P. construction engineers.

The old section—part of a 962-foot bridge over the Snake River—was constructed in 1902 and is being replaced "to insure continued safe and smooth service," according to officials.

Cost estimates for the project have been given as $500,000, including the cost of 880 tons of steel being ordered.

Arrangements are being made for use of special crane equipment to offset difficulties of height. The present span is 111 feet above the stream bed.—V. 190, p. 200.

Union Tank Car Co.—Builds Large Dome—

A giant Union Dome, 10 stories high and comparable in area covered to a major league baseball diamond, is under construction for this company in Wood River, Ill., it was announced on July 9 by E. A. Locke, Jr., President.

The all-steel structure has a diameter of 380 feet and will rise to a height of 120 feet when completed. The Dome, located 25 miles north of St. Louis, will have no hindering internal supports whatever and will encompass a floor area of 110,000 square feet.

Design and construction of the Wood River Dome are under the supervision of Graver Tank & Mfg. Co., a division of Union Tank Car Co.—V. 189, p. 2937.

United Illuminating Co. of New Haven—Earnings Up

12 Months Ended May 31—	1959	1958
Gross operating revenues	$37,554,581	$35,572,859
Operating expenses and taxes	30,939,029	30,187,475
Operating income	$6,615,552	$5,385,384
Income deductions (net)	1,303,639	863,656
Net income	$5,311,913	$4,521,728
Dividends on preferred stock	217,500	217,500
Balance applicable to common stock	$5,094,413	$4,304,228

On May 29 the company issued to shareowners of record May 26, 1959 rights to subscribe to 350,501 additional shares of common stock at $26.50 per share. These rights expired on June 18, 1959 and at that date approximately 342,000 shares or more than 97% of the new issue had been subscribed. The directors of the company have authorized the sale of the remaining shares to brokers.—V. 189, p. 2614.

United States Chemical Milling Corp.—Acquisition—

This corporation has acquired Darco Industries, Inc., a prominent space age manufacturing company which operates plants in El Segundo and Glendale, Calif., Charles H. Lundquist, President, announced on July 9. Terms of the purchase were not announced.

This follows USCM's announcement of the acquisition of the Aircraft Division of H. & B. American Machine Co., Inc.

Darco will be operated as a subsidiary with all present personnel retained. Organized in 1951 and employing 200 engineers, technicians and other personnel, it operates Flotrusion, Gyro-Dynamics, Val-Aero and Pacific Gage divisions.

The Flotrusion Division is engaged in the manufacture of missile and commercial components utilizing its revolutionary and proprietary Flotrusion process for cold-flowing metals into tubular forms of all sizes and shapes.

By this process, parts can be produced to very close tolerances with especially fine finishes and high tensile strengths which previously were not feasible.

Gyro-Dynamics produces precision rate gyros, guidance systems and allied electronic components used in satellites, missiles and aircraft; the Val-Aero Division manufactures hydraulic and pneumatic valves and actuators for both missiles and aircraft; and Pacific Gage manufactures patented measuring devices with accuracies to one-ten thousandth of an inch.

"Acquisition of Darco will further enhance USCM's position as a major subcontractor and component supplier to the aircraft, missile and electronic industries and should add materially to the future sales and earnings potential of the corporation," Mr. Lundquist said. See also V. 190, p. 95.

United States Steel Corp.—New Development—

To evaluate a new king-size, close tolerance, high-strength, sandwich pack-rolled sheet steel, Lockheed's Georgia Division will build and test two rocket fuel cases from this material. The new-type steel will be produced by United States Steel Corp., which is developing a special sandwich-rolling technique.

The evaluation of large, close tolerance sheets for aircraft and missile applications is being sponsored by the U. S. Air Force's Air Materiel Command through the nation's leading air-frame manufacturers—on $1-a-year contracts.

Lockheed's evaluation of United States Steel's new material will include studies of handling techniques for king-size sheets, 10 feet by 12½ feet; fabrication of these sheets into two rocket fuel cases, and hydrostatic testing of these advance design rocket motor cases.

Lockheed's Production Engineering and Manufacturing Research Departments will conduct studies to evaluate the material's responses to heat treatment, its welding characteristics, and its ability to withstand high bi-axial tension loads and compression stresses.

Construction of the two prototype rocket fuel cases will follow establishment of optimum fabrication processes. In addition to rocket applications, the new high-strength alloy steel may be used for high-strength structural applications in airframes for high-mach aircraft such as the B-70 Valkyrie. Lockheed will build a major fuselage section of this supersonic bomber under contract with North American Aviation, the weapon system prime contractor.

Evaluation studies of the new high-strength, low strength-to-weight steel alloy will be completed this year and an engineering technical report from Lockheed and other airframe companies will be issued in early 1960, the Air Materiel Command said.—V. 189, p. 1840.

Venture Securities Fund, Inc.—Two New Directors—

The stockholders of this Fund, an open-end investment company of the management type, on July 9 elected Fletcher Godfrey and Robert E. Worden to the board of directors in the Philadelphia (Pa.) offices of Studley, Shupert & Co., Inc., Philadelphia and Boston investment counseling firm which serves the Fund as investment adviser.

Mr. Godfrey, President of Arrowhead Petroleum Corp., New York, also is Secretary-Treasurer of Pan American Fund, Inc., New York and a director of Palisades Builders, Los Angeles.

Mr. Worden is a partner in Worden & Risberg, Philadelphia and San Francisco management consultants. He also is a director of SKF Industries, Inc., Philadelphia, of The A. Bentley & Sons Co. and The Mather Spring Co., both of Toledo, and of Curtis Companies Inc., Clinton, Iowa.—V. 189, p. 1840.

Victoreen Instrument Co.—Issues New Bulletin—

A new bulletin on its line of electrometers is announced by this company. Units covered include linear, log, differential current, dual linear and dual log types.

The eight-page illustrated brochure outlines general features of the new electrometer line, and gives detailed specification data such as current ranges, stability and accuracy ratings, dimensions, etc. —V. 190, p. 201.

Victory Markets, Inc.—Common Stock Offered—

On July 15 this corporation offered, through William N. Pope Inc., of Syracuse, N. Y., 20,000 shares of class A common stock (par $2) at $14.25 per share.—V. 190, p. 201.

Vitro Corp. of America—Unit to Sell Uranium Ore—

According to a joint announcement made on July 15, Susquehanna-Western, Inc. has contracted to purchase uranium ore from the Gas Hills properties of Vitro Minerals Corp., for processing at its new mill at Riverton, Wyo. Total purchases under the contract may exceed $15,000,000.

The agreement, which was announced by Allen D. Gray, President of Susquehanna-Western, Inc., and Charles J. Potter, President of Vitro Minerals Corp., calls for the delivery of ore containing 480,000 pounds of uranium concentrate per year from Vitro's mines in the Gas Hills area of Wyoming, and provides for shipments to the end of 1966.

The contract will mean a mining rate for Vitro of more than 100,000 tons of ore per year at the estimated grade of the Wyoming deposits. Vitro is one of the largest ore shippers from the Wyoming area, where it was a pioneer in uranium mining. The ore will come from a large number of mining properties which include the John Group, the George Group, the Gunnell Group, the Ver Group, the Out West Group, the Myrna Lynn Mine, the Shoni Claims, the Cheyenne Group, the Gibson Group, and various other properties.

Mr. Gray said that the contract, which the two firms indicated was a "major one," was the largest single purchase of uranium ore which his firm has made. The Riverton mill, which has been in production since November, has a capacity of 550 tons of ore per day and plans for an increase of capacity in the near future.

Both firms involved in the contract are subsidiaries of larger well-known corporations. The parent company of Susquehanna-Western is The Susquehanna Corp. of Chicago, whose Chairman is J. Patrick Lannan, and Vitro Minerals Corp. is owned jointly by Vitro Corp. of America of New York, whose President is J. Carlton Ward, Jr., and Rochester & Pittsburgh Coal Co. of Indiana, Pa., whose President is Charles J. Potter.

Vitro Laboratories Awarded Air Force Contract—

Vitro Laboratories, a division of Vitro Corp. of America, has been awarded a $6,500,000 contract for the operation and maintenance of the Eglin Gulf Test Ranges for the Air Proving Ground Center at Eglin Air Force Base, Fla., according to an announcement by Andrew J. Erickson, General Manager, Vitro Weapons Services.

The contract, which will run to June 30, 1960, includes the operation of a 450-mile instrumented test range which stretches from Eglin Air Force Base in northwest Florida to Cudjoe Key, near Key West. It will be operational by the first of next year.

The instrumentation and tracking stations already completed or still under construction on EGTR are at Eglin Air Force Base, Cape San Blas, Anclote, Marco Island and Cudjoe Key. The range is presently being used by the Air Force on a limited basis for the launching of Bomarc and Quail missiles and will be used for firings of the Gam-77 Hound Dog missile. It is also being used for vertical space probes. —V. 189, p. 2615.

* During a 60-month period beginning with 1953 (and extending two months into 1958) provisions for Federal income taxes gave effect to accelerated amortization of 65% of depreciable cost of the Cabinet Gorge Hydroelectric Project. During the 60-months period, the resultant reduction in taxes was segregated from the net income and accumulated in earned surplus-restricted in accordance with an order of the Washington P. S. Commission, which order also provides that the amount so restricted be transferred to earned surplus-other over a 25-year period commencing with 1958. During this 25-year period, and continuing throughout the life of the property, Federal income tax is expected to be greater than it would have been if accelerated amortization had not been claimed. To reflect the availability of net income for dividends, the net transfers from earned surplus-restricted are shown separately on this statement. The balace of Federal income taxes accumulated in earned surplus-restricted is $12,783,207 at May 31, 1959.

‡ 123,757 shares of common stock were issued on June 2, 1958 to acquire, by merger, the net assets of Spokane Natural Gas Co. In addition, 200,000 shares of common stock were sold as a negotiated public offering by a group of underwriters. On Aug. 1, 1958 the company received the proceeds amounting to $7,885,000 or $39.425 per share.—V. 189, p. 193.

Westinghouse Air Brake Co. — Unit Develops New Micro-Miniature Circuits—

Melpar, Inc., a subsidiary, and a leader in the development of electronic equipment for the U. S. Government, recently announced that a special research program for the development of micro-miniature circuits which was begun last September has achieved success with the production of a new (15-in-1) micro-miniaturized electronic circuit.

This new micro-miniature circuit developed by Melpar, is so small that it can be hidden under a five cent coin, despite the fact that it contains 15 electronic components including: transistors, capacitors, diodes and resistors mounted on a ceramic base .625 inches square and .020 inches thick. It is considered potentially more reliable than its larger counterpart due to fewer connections, which reduce the possibility of failure.

The first Melpar micro-miniature circuit was built completely by hand with the aid of a microscope. Since then a micro-manipulator has been introduced to aid the precision positioning of the minute components which are part of these micro-miniature circuits—V. 190, p. 96.

Whirlpool Corp.—Awarded New Navy Contract—

A research contract for the development of thermoelectric temperature-controlled chambers for electronic components was awarded the Whirlpool Corporation's Research Laboratories by the U. S. Navy, Bureau of Ships, it was announced on June 30 by William D. Fowler, Director of Defense Contracts. This is the second government contract for thermoelectric research, to be awarded Whirlpool within the last 30 days.

Under the latest contract, a number of test chambers will be constructed and furnished to the Navy for test purposes. These chambers might be described as small refrigerators or ovens capable of maintaining their contents at constant temperature despite wide fluctuations in ouside atmospheric conditions.

The earlier contract called for the investigation of thermoelectric cooling methods and systems and their application to ship's stores refrigeration.—V. 189, p. 2398.

Wilson Jones Co. (& Subs.)—Shows Profit—

Xttrium Laboratories, Inc., Chicago, Ill. — Files With Securities and Exchange Commission—

The corporation on July 6 filed a letter of notification with the SEC covering 30,000 shares of class A common stock (par $7.50) to be offered at $10 per share, without underwriting.

The proceeds are to be used for research, purchase of equipment, advertising and working capital.—V. 186, p 777.

Yankee Atomic Electric Co.—Private Placement—An issue of $20,000,000 5% first mortgage sinking fund bonds, Series A, due Jan. 1, 1982, was placed privately for the company by The First Boston Corp., it was announced on July 17. The investment firm also acted as financial advisor to the issuer and assisted in the development of its overall financial structure.

BUSINESS—The company was established to construct and operate a uranium fueled steam electric generating plant of 134,000 kilowatt rated capacity at Rowe, Mass. The entire capital stock of the company is owned by the following New England utility companies: New England Power Co.; Connecticut Light & Power Co.; Boston Edison Co.; Central Maine Power Co.; Hartford Electric Light Co.; Western Massachusetts Electric Co.; Public Service Co. of New Hampshire; Montaup Electric Co.; New Bedford Gas & Edison Light Co.; Cambridge Electric Light Co. and Central Vermont Public Service Corp.—V. 189, p. 2835.

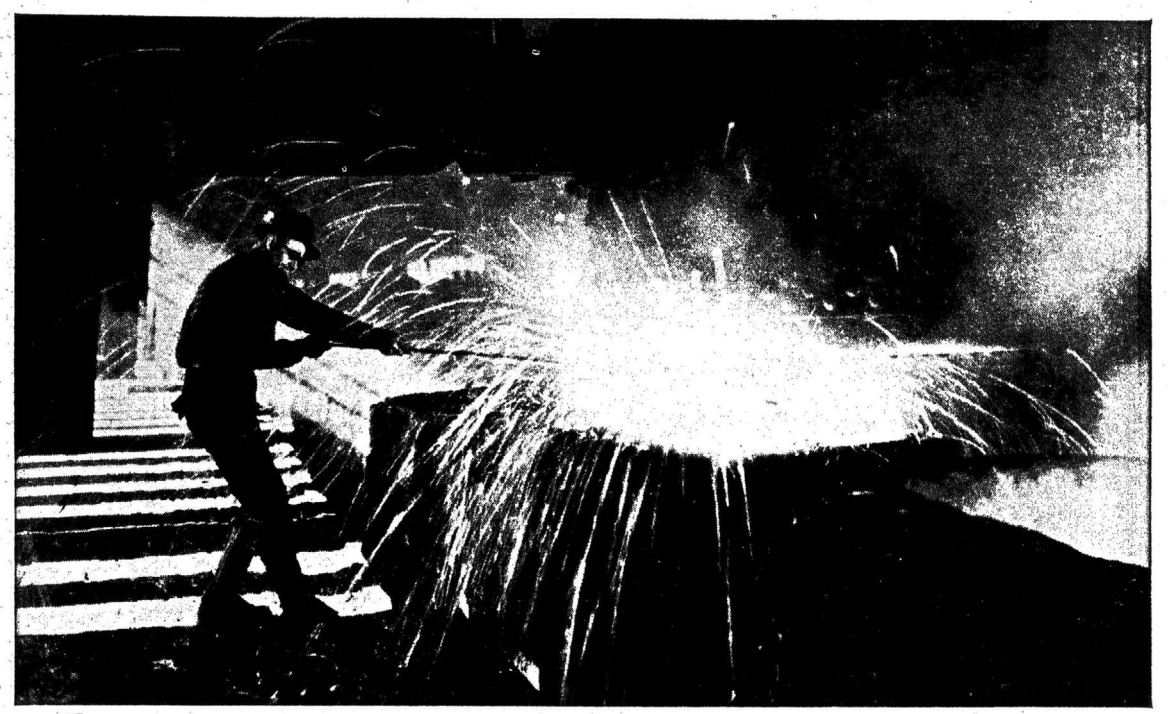

Zapata Off-Shore Co.—Registers With SEC—

This company, located at 2218 First City National Bank Building, Houston, Texas, on July 13 filed a registration statement with the SEC covering 229,585 outstanding shares of common stock, to be offered for public sale by the holder thereof through an underwriting group headed by G. H. Walker & Co. The public offering price and underwriting terms are to be supplied by amendment.

The company is engaged in drilling operations in the offshore area, principally the Gulf of Mexico off Louisiana and Texas. It has outstanding 1,003,837 common shares (in addition to certain indebtedness). The selling stockholder is Zapata Petroleum Corporation, which, with Wayne H. Dean, Executive Vice-President of the issuer, organized the company in 1954. The 229,585 shares represent all of the stock now held by Zapata Petroleum other than 10,000 shares under option to George H. W. Bush, company President.—V. 187, p. 1528.

THE U.S. TREASURY SALUTES THE PEOPLE IN THE STEEL INDUSTRY

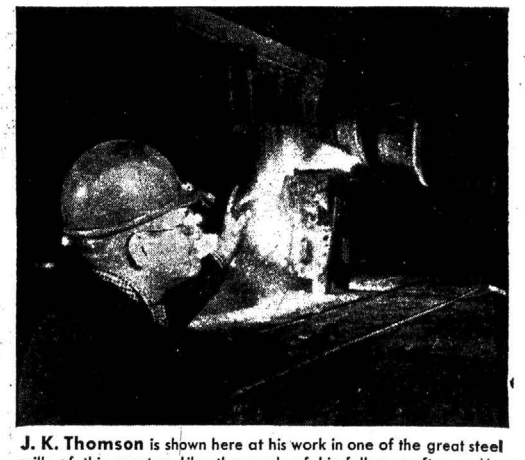

—who buy Savings Bonds and strengthen America's Peace Power

Men and women who earn their living in the steel industry can take great pride in knowing that their crafts and skills contribute, through raw material supplies, to nearly every other great industry in the United States. They can also be proud of the help thousands upon thousands of them are giving to America's Peace Power through the purchase of U.S. Savings Bonds.

Through regular purchase of Shares in America, these thrift-conscious people are reinforcing their own security after retirement, and establishing current reserves for such worthwhile family projects as new homes, education and travel.

• If your company has not put in a Payroll Savings Plan thus far, you can start immediately. Just telephone your State Savings Bonds Director and accept the help he wants to give you. Or write to Savings Bonds Division, U.S. Treasury Department, Washington, D.C.

J. K. Thomson is shown here at his work in one of the great steel mills of this country. Like thousands of his fellow craftsmen, Mr. Thomson is making regular use of his company Payroll Savings Plan to contribute to the Peace Power of his country.

THE COMMERCIAL AND FINANCIAL CHRONICLE

THE U. S. GOVERNMENT DOES NOT PAY FOR THIS ADVERTISEMENT. THE TREASURY DEPARTMENT THANKS, FOR THEIR PATRIOTISM, THE ADVERTISING COUNCIL AND THE DONOR ABOVE.

STATE AND CITY DEPARTMENT

BOND PROPOSALS AND NEGOTIATIONS

ALABAMA

Russell County School Board (P. O. Phoenix), Ala.

Bond Sale—An issue of $375,000 school building bonds was awarded to Thornton, Mohr & Farish, and Sterne, Agee & Leach, jointly, at a net interest cost of 4.54%.

Samson, Ala.

Warrant Sale—An issue of $50,000 general obligation warrants was awarded to Hugo Marx & Co., as 4½s and 4¾s. Dated June 1, 1959. Legality approved by Dumas, O'Neal & Hayes, of Birmingham.

ALASKA

Cordova, Alaska

Bond Sale—An issue of $100,000 telephone revenue bonds was awarded to Foster & Marshall, at a price of par, a net interest cost of 4.94%, as follows:

$45,000 4¾s, Due on July 1 from 1961 to 1969 inclusive.
55,000 5s, Due on July 1 from 1970 to 1979 inclusive.

Principal and interest payable at the Seattle Trust & Savings Bank in Seattle.

ARIZONA

Cochise County Buena High Sch. Dist. (P. O. Bisbee), Ariz.

Bond Sale—The $131,000 school bonds offered July 6—v. 189, p. 2727—were awarded to a group composed of William R. Staats & Co., E. F. Hutton & Co., and Kirchner, Ormsbee & Wiesner, Inc., at a price of par, a net interest cost of about 4.36%.

Additional Sale: An issue of $32,000 general obligation bonds was awarded to William R. Staats & Co. and Associates, at a price of par, a net interest cost of about 4.32%.

Pinal County School District No. 3 (P. O. Florence), Ariz.

Bond Sale—The $400,000 general obligation school bonds offered June 23—v. 189 p. 2616—were awarded to Refsnes, Ely, Beck & Co., and Blyth & Co., Inc., jointly, as 3⅞s, at a price of 100.0015, a net interest cost of abou 3.92%.

Pinal County Ray High Sch. Dist. (P. O. Florence), Ariz.

Bond Sale—The $700,000 general obligation school bonds offered June 23—v. 189, p. 2616—were awarded to Refsnes, Ely, Beck & Co. and Blyth & Co., Inc., as 3⅞s, at a price of 100.0039, a net interest cost of about 3.92%.

ARKANSAS

Altus, Ark.

Bond Sale — Water system bonds totaling $112,000 were sold to the Federal Housing and Home Finance Agency, at a price of par, as follows:

$100,000 revenue bonds, as 4⅜s.
12,000 improvement bonds, as 4s.

Sparkman, Ark.

Bond Sale—An issue of $144,000 bonds was awarded to the Federal Housing and Home Finance Agency, at a price of par, as follows:

$22,000 water system improvement bonds, as 4s.
122,000 water works system revenue bonds, as 4⅜s.

Weiner, Ark.

Bond Offering—Mayor Fred Dudley will receive sealed bids until 11 a.m. (CST) on August 1 for the purchase of $135,000 sewer and waterworks system revenue bonds. Dated June 1, 1959. Due on June 1 from 1962 to 1993 inclusive. Principal and interest (J-D) payable at the Mercantile Bank, of Jonesboro. Legality approved by Mehaffy, Smith & Williams, of Little Rock.

CALIFORNIA

Anaheim School District, Orange County, Calif.

Bond Offering—L. B. Wallace, County Clerk, will receive sealed bids at his office in Santa Ana until 11 a.m. (PDST) on July 21 for the purchase of $500,000 school bonds. Dated July 15, 1959. Due on July 15 from 1960 to 1984 inclusive. Principal and interest (J-J) payable at the County Treasurer's office. Legality approved by O'Melveny & Myers, of Los Angeles.

Coachella Valley Joint Union High School District, Riverside and Imperial Counties, Calif.

Bond Sale—The $650,000 Election 1956 Series C bonds offered July 6—v. 190, p. 97—were awarded to a group composed of John Nuveen & Co., Weeden & Co. and Frantz Hutchinson & Co., at a price of 100.032, a net interest cost of about 4.36%, as follows:

$175,000 4¾s. Due on Aug. 1 from 1960 to 1966 inclusive.
335,000 4¼s. Due on Aug. 1 from 1967 to 1980 inclusive.
120,000 4½s. Due on Aug. 1 from 1981 to 1984 inclusive.

Compton Junior College District, Los Angeles County, Calif.

Bond Offering—Harold J. Ostly, County Clerk, will receive sealed bids at his office in Los Angeles, until 9 a.m. (Calif. DST) on Aug. 11 for the purchase of $300,000 school building, Series B bonds. Dated Sept. 1, 1959. Due on Sept. 1 from 1960 to 1984 inclusive. Principal and interest (M-S) payable at the County Treasurer's office.

Dent Union School District, San Joaquin County, Calif.

Bond Offering—R. E. Graham, County Clerk, will receive sealed bids at his office in Stockton until 2 p.m. (PDST) on July 27 for the purchase of $40,000 school bonds. Dated Aug. 20, 1959. Due on Aug. 20 from 1960 to 1969 inclusive. Principal and interest payable at the County Treasurer's office. Legality approved by Orrick, Dahlquist, Herrington & Sutcliffe, of San Francisco.

Fallbrook Hospital District (P. O. Fallbrook), Calif.

Massachusetts State Office Building Association (P. O. Boston), Mass.

Plans $30 Million Bond Issue—William F. Callahan, President of the Association, July 16, announced the appointment of F. S. Moseley & Co. of Boston as financial adviser to assist in arranging the approximately $30,000,000 of bond financing to construct the new State Office Building.

It is planned that the bonds will be offered at competitive bidding on a date to be announced later, he said.

Mr. Callahan also announced the selection of the Old Colony Trust Co., which is allied with the First National Bank of Boston, to act as trustee under a trust agreement securing the bond issue.

The bonds of the association will be secured by a lease agreement with the Commonwealth of Masstchusetts and all monies received by the association will be held in trust by the trustee bank for the benefit of bondholders.

Massachusetts Turnpike Authority (P. O. Boston), Mass.

June Revenues Increase—Authority reports total revenues of $1,187,570 in June 1959, compared with $1,063,974 in the same month a year ago. Operating expenses and maintenance were $239,180 as against $255,434 in June 1958.

Balance available for interest charges amounted to $948,300, compared with $808,539 in the comparable month last year, an increase of 17.3%. Monthly interest charges are $657,250.

Commercial vehicle revenue last month increased 31.6% and passenger vehicle revenue was up 6.9% from a year ago, the report said.

For the first half of 1959, net earnings available for interest charges, were $3,424,473, an increase of $1,029,776, or 43% over the comparable period in 1958.

As a result of continuing month-to-month improvement in net revenues, operations are now equal to 103% of interest charges on the funded debt for the last 12 months, the authority reported.

Quebec Hydro-Electric Commission, Quebec

Debentures Sold in U. S. — An underwriting syndicate managed jointly by The First Boston Corporation and A. E. Ames & Co., Incorporated, on July 16 offered publicly $50,000,000 Quebec Hydro-Electric Commission 5% debentures, series X, due July 15, 1984.

The obligations, which are guaranteed unconditionally as to principal and interest by the Province of Quebec, are priced at 100% and accrued interest.

The debentures are not redeemable for 10 years. Thereafter, redemption prices range downward from 104% for those redeemed to and including July 14, 1972, to 100% for debentures called after July 14, 1981. As a sinking fund, the Commission will set aside from its general funds in the years 1960-64 an amount equal to 1% of debentures outstanding on July 15 in those years; in 1965-83, inclusive, the amount will be increased to 2%.

Net proceeds from the sale will be added to the general funds of the Commission and may, in part, be used to meet capital expenditures in connection with its construction program, and debenture maturities of $28,800,000 during the balance of 1959. The Commission's current expansion program, covering September 30, 1955 through 1961, provides for expenditures of $648,000,000. As of April 30, 1959, $212,000,000 remained to be spent. Between January 1, 1954 and April 30, 1959, the Commission made capital expenditures for electric properties of approximately $585,000,000. Net funded debt during the same period increased by $329,700,000.

The Commission is an agency of the Crown in right of the Province of Quebec. It generates, acquires, sells, transmits and distributes electricity throughout the Province. The Commission owns and operates four electric systems with a total installed hydro-electric generating capacity of 2,215,500 kws., which served 510,275 customers at the end of 1958 with an annual consumption of over 12.4 billion kwh.

Total operating revenues of the Commission for the first four months of 1959 amounted to $30,365,000 and net income to $7,767,000. In 1958, total operating revenues were $83,290,000 and net income $22,620,000.
