-----------	---------------	------------------	--------

Admiral Corp.—Markets Seven-Transistor Radio—
This corporation has announced a seven-transistor pocket radio carrying a national list price of \$29.95.

It is made possible, Admiral said, by recent reductions in transistor prices, greater automation of the company's etched circuit boards, increased production efficiency, and complete cooperation by suppliers who are concerned about losing a large share of their business to cheap foreign imports.

The Comet also is available in a deluxe series. In addition to the above features, the deluxe models have an exclusive Admiral-developed "battery miser" to extend battery life, piug-in jack for earphones, carrying handle and stand, and choice of three colors. This series retails for only \$34.95.

Admiral also is introducing a new seven-transistor personal radio that will retail for \$39.95.—V. 190, p. 965.

#### American Felt Co.-New Fibre Filter Cartridge-

American Felt Co.—New Fibre Filter Cartridge—
A new precise filter cartridge, effering precise filtration through the micron range for the first time, was introduced by this company on Sept. 1. William H. Lehmberg, President, said that this is the first time in its 60-year history that the company has fabricasted and marketed an end-use product.

"Herotofore," said Mr. Lehmberg, "we have manufactured felt components for a wide range of industrial applications and have grown to a position of leadership in our field."

The new filter cartridge, being marketed under the name AFCO "Feutron" Filter Cartridge, employs a new principle of filter media construction.

Although the new AFCO "Feutron" Filter Cartridge was designed for use by the paint industry, it is expected to find wide use in the petroleum, chemical and other industries where filtration of aqueous liquids is needed.

One of the chief advantages claimed for the new filter cartridge, in actual production use for more than a year, is that it has a life of up to six times that of conventional filter cartridges—V. 185, p. 2210.

#### Austin Co.-Division Changes Name-

Austin Co.—Division Changes Name—
A new Austin Electronics Division will succeed The Special Devices
Division, it was announced recently by Allan S. Austin, President.
The change in name for the automation and electronic research and
development firm becomes effective Sept. 15, 1959.
The change in name to Austin Electronics was made to reflect more
accurately the Division's work in the fields of automation engineering,
computer application, and advanced electronics research and development. The organization has pioneered the unusual applications of
analog and digital computers, automatic data recordings and process
systems, and various types of industrial process controls. Major
projects for industry and defense have involved radar equipment, data
recorders, and electronic systems for simulation, evaluation, and training. Typical of the work performed by this Division is a contract
recently awarded by the U.S. Army Signal Corps for development and
installation of an unusual type of automated battery test facility.

country's first solid-fueled intercontinental ballistic missile. The con-

tract definitizes an earlier letter contract which authorized the firm to commence work on this highest priority national defense project. On Aug. 5, the Air Force and Avco announced a contract in excess of \$73,000,000 for design and development of an advanced nose cone system for the Titan ICBM. The nose cone of a long range missile is the "business end" which alone travels the full programmed flight through space, successfully re-enters the earth's atmosphere, and in wartime carries a thermonuclear warhead to its target.—

#### Army Unveils "Flying Duck"-

Army Unveils "Flying Duck"—

The U. 3. Army, in quest of increased mobility, on Sept. 9 unveiled its latest concept, the "Flying Duck"—a truck that floats like a boat and "flies" like an airplane.

Developed by this corporation's Lycoming Division under a contract with the Army's Ordnanee Corps, it is a gas turbine powered, hydrofoil version of the famed World War II DUKW, an amphibious landing craft that became so familiar to GI's in both the Pacific and European theatres.

The "Flying Duck" uses its 360 horsepower Lycoming gas turbine engine, which normally powers helicopters and airplanes, in combination with aerodynamically shaped hydrofoil wings to attain water speeds up to 50 miles per hour. The World War II version had a maximum water speed of only six miles per hour.

The "Flying Duck" flew successfully for the first time early last month at the test site of Miami Shipbuilding Corp., a major participant in the development program.—V. 190, p. 967.

Reaches All-Time High—

A 50% increase in volume next year over this year's estimated \$8 million, was predicted in a letter to shareholders released on Aug. 27. In this interim report Walter S. Baird, Chairman, and Davis R. Dewey II, President, noted that capital requirements for the increase in volume will be covered by proceeds from an oversubscribed, recently-concluded offering of 180,000 shares of Baird-Atomic common stock. The offering, sold by an 18-member underwriting syndicate headed by White Weld & Co., netted just over \$2,000,000. Of this figure, \$1,100,000 has been used to retire existing loans, with the remainder held available for working capital and expansion of facilities as required.

mainder held available for working capital and expansion of facilities as required.

The company's backlog, it was reported, is at a record high—nearly \$7,000,000. New orders for the Baird-Atomic line of electronic and atomic instrumentation, spectrographic equipment and military infrared systems are running at the rate of \$12,000,000 a year. "While our commercial instrument lines show continued growth, the major part of this increase is for development and production of special systems and devices for government programs," the letter concluded.—V. 190, p. 254.

#### CORPORATE FINANCING IN NEXT FOUR WEEKS

The market for common and preferred stocks and bonds will be asked to furnish a slightly larger dollar volume in the four-week period commencing Sept. 14 than that predicted last week for the weeks of Sept. 8-Oct. 2—\$373 million compared to \$307 million.

The week of Sept\_14-18, as now scheduled, should develop about \$122 million, highlighted by the Southern New England Telephone offering of 689,000 shares of common stock to stockholders at \$35 per share on Sept. 14. Listed for the next day are \$25 million Hooker Chemical Corp. debentures underwritten by Smith, Barney & Co., and \$14.4 million American President Lines government insured Merchant Marine bonds with Lehman Bros. as the underwriter. McDonald & Co. and Kuhn, Loeb & Co. will underwrite \$6.5 million convertible subordinated debentures for Brush Beryllium Co. on Sept. 16, and Georgia Power Co. the next day will solicit bids for \$18 million in bonds. Not included in this projection of corporate public offerings is the Commonwealth of Australia 20-year bond issue, with Morgan Stanley & Co. as the underwriter, set for Sept. 17, which would increase our estimate of the demand for capital by \$25 million.

#### Many Dare, Few Risk

It is easy to dare, and many do as witnessed in the large backlog of issues without dates affixed, but it is another and more important matter to risk as indicated when registered securities are given an offering date. This, of course, does not mean that a date set is kept. In the past two weeks over 40 changes were made, some pushed back to a later date; some, including few large issues, were rescheduled for an earlier date; and some decided to move over into the dare category by removing a listed date. But those that risk provide a better clue than total scheduled and prospective offerings as to the direction and type of corporate financing.

The month of October alone already shows a sizable risk and presages a heavier financing month with scheduled public offerings already expected to tap the market for over \$280 million. Included therein are invitation for bids on Philadelphia Electric \$50,000 bonds, Southern Bell Telephone & Telegraph \$70,000,000 debentures and 1,200,000 shares of American Electric Power Co. common. On Nov. 17, A. T. & T. will solicit bids for \$250 million debenture issue and Consolidated Edison of N. Y. will invite bids for \$50,000,000 bonds.

#### Estimated Corporate Public Offerings

	Bonds	Stocks	Total
Sept. 14-Sept. 18	\$66,000,000	\$56,505,150	\$122,505,150
Sept. 21-Sept. 25	82,100,000	46,235,600	128,335,600

Bristol Laboratories, Inc.—Announces New Drug-

Bristol Laboratories, Inc.—Announces New Drug—
A new and more useful tetracycline—among the most effective of antibiotic drugs—was made available to physicians on Sept. 1 by this corporation. It is known as Syntetrin.

Bristol chemists working in Syracuse, N. Y., modified the basic molecular structure of tetracycline in order to create the new compound, which is 2,500 times more soluble in body fluids than the parent drug.

Syntetrin will be administered by injection and was specially developed for this purpose. The insolubility of previous forms of tetracycline has sharply limited their usefulness for patients unable to take oral medication either because of the severity of their illness or because special diets or the illness interfered with absorption of the antibiotic from the digestive tract.—V. 188, p. 2134.

#### Cornell-Dubilier Electric Corp.—Tantalum Research

Cornell-Dubilier Electric Corp.—Tantalum Research
This corporation will expand sharply its research and development
efforts in the tentalum capacitor field, Octave Blake, President,
stated on Sept. 10. The development is part of the recently announced
overall program of expansion and diversification of Cornell-Dubilier.
Mr. Blake said projected tanialum research at Cornell-Dubilier will
entail the substantial enlargement of the company's staff, of scientists
and engineers at the site of its present tantalum capacitor development laboratory in South Plainfield, N. J. Work at the research
facilities will also be directed toward anticipating other new requirements of the rapidly developing electronics industry.
Mr. Blake said tantalum capacitors offer longer life, greater reliability and improved electrical characteristics over common aluminum
capacitors. In addition, tantalum capacitors are readly adaptable to
miniaturization, of increasing importance in military applications such
as missiles. Because of the higher cost of tantalum capacitors most
present applications are military, although the commercial uses of
tantalum capacitors have substantial promise for the future, Mr. Blake
added.—V. 190, p. 869.

Diebold, Inc.—Court Denies Injunction—
On tept. 2, in the U. S. District Court in Cincinnati, Ohio, Judge John H. Druffel denied the motion made by the Anti-Trust Division of the Department of Justice for an injunction to restrain Diebold Incorporated of Canton, Ohio from acquiring the business and assets of Herring-Hail-Marvin Safe Co., of Hamilton, Ohio.
The Government had filed a complaint that the proposed transaction did violate the anti-trust laws. After receiving testimony and hearing arguments of counsel, Judge Druffel concluded that the facts did not warrant the injunctive release requested by the Government. Diebold, a manufacturer of office equipment, safe and vault equipment and Herring-Hall-Marvin, a manufacturer of vault equipment and insulated record files, had reached an agreement in July of this year for the purchase by Diebold of the business of Herring-Hall-Marvin, Pollowing Judge Druffel's decision, Raymond Koontz, President of Diebold and Warren Mosman, President of Herring-Hall-Marvin, announced that both companies will proceed immediately to consummate the transaction. Mr. Koontz emphasized that the business of Herring-Hall-Marvin would continue to be conducted as a separate and distinct division under its own trade name, and no changes will be made either in the operation or personnel of Herring-Hall-Marvin.—V. 190, p. 869.

#### Dr. Pepper Co.-August Sales Increase-

Wesby R. Parker, President, on Sept. 2 reported syrup sales con-inued to climb during the month of August gaining nearly 12% over he same period in 1958. He also reported sales in the company's nuntain syrup department established an all-time high during the ame period.

fountain syrup department established an all-time high during the same period.

Mr. Parker attributed the steady increase in sales during 1959 to stepped up marketing activity nationally and locally, and the continued expansion of Dr. Pepper into new markets.

In view of the continued increases through the month of August, Mr. Parker reiterated an earlier prediction that syrup sales in 1959 may establish an all-time-record for the 74-year old soft drink syrup manufacturing firm. Company-officials have set a goal of complete national distribution in 1960.—V. 190, p. 869.

The consideration will be common stock of ESB. Settlement is expected early in October.

Under the new ownership, Chemical Linings will be supervised by Atlas, but its present management will be retained.

Chemical Linings designs, fabricates and installs corrosion-resistant linings, tanks, towers, etc. for process industries, primarily pulp and paper. Atlas is a 67-year-old manufacturer of corrosion-resistant cements and fabricated plastic equipment. The joint operation will provide Chemical Linings with a more complete product line, plus the benefit of expanded technical facilities to enable it to give better service to its customers.

The company has also purchased the assets and business of Wisconsin Storage Battery Co., Racine, Wis., it was announced jointly on Sept. 4 by E. J. Dwyer, President of ESB, and Owen G. Duncan, President of WISCO. Financial details of the transaction were not disclosed.

The 20-year-old Wisconsin firm is a leading producer of batteries for motorcycles, sports and foreign cars, and specialty applications under the WISCO brand and private labels. It also manufactures batteries for automobiles, trucks, fractors, airplanes and motor boats.

ESB will operate WISCO as part of the Automotive Division, which has headquarters in Cleveland, Ohio. The division plans to consolidate its specialty battery manufacturing operations in the Racine facility.

# Empresa Minera de Mantos Blancos, S. A. (Chile). To Receive Additional Funds for Project—

Empresa Minera de Mantos Blancos, S. A. (Chile)—
To Receive Additional Funds for Project—
Robert L. Garner, President of the International Finance Corporation (IFC), announced on Sept. 10 that the Corporation has agreed to invest an additional \$900.000 in Empress Minera, which has under construction a copper mining and smelting project in the Antofagasta region of northern Chile. Mantos Blancos is controlled by Empresas Sudamericanas Consolidadas, S. A., a Panamanian corporation holding the mining, industrial and commercial interests of Dr. Maurico Hochschild and associates.

In August 1957, IFC agreed to invest \$2,200,000 in this new company which to opening up a new copper mine and introducing a new metallurgical process for refining copper. The original project was designed for processing 2,000 tons of ore a day. The additional IFC investment of \$900,000 is part of the financing required to increase the processing capacity to 3,000 tons a day. It is expected that this increased capacity will result in a substantial reduction in the company's cost of producing refined copper.

The total cost of the project is \$18,600,000, of which \$5,800,000 is related to the expansion. Of this latter amount, \$2,900,000 will be invested by the Hochschild group and the balance by IFC, together with Chemical International Finance Ltd., \$1,200,000; Bank of America, \$600,000; and \$200,000 will be in the form of U. S. dollar notes bearing interest at 7%, with amortization to be completed in 1968. In addition, IFC is to receive payments depending on the amount of dividends, and option rights to purchase at par Mantos Blancos's common stock.

The IFC investment is subject to completion of the necessary legal formalities.—V. 186, p. 1261.

The Ericsson Group, comprising the L. M. Ericsson Telephone Co. of Stockholm and subsidiaries, associated companies or sales agents in 80 countries, is also installing the signalling equipment for the new Lisbon subway, the first section of which is to be opened shortly.— V. 190, p. 460.

#### Eutectic Welding Alloys Corp.-Maps Expansion Prog.

Eutectic Welding Alloys Corp.—Maps Expansion Prog. A new metallurgical center adjacent to the company's affiliated European Welding Center in St. Sulpice, Switzerland, is already under construction and an additional building is planned for Flushing, N. Y., by the Eutectic corporation, it was announced on Sept. 2 by Rene D. Wasserman, President.

The metallurgical department of Eutectic's affiliate in St. Sulpice will include a complete foundry, wire drawing equipment, large receiving and shipping departments. As part of the expansion plans of Eutectic Welding Alloys Corporation, Mr. Wasserman also announced that its New York headquarters and manufacturing facilities will be expanded and new plants constructed. Mr. Wasserman would not disclose the exact costs of construction, but he said that the projects are sizable. This and next year the company is undertaking, in addition to new factories, a complete improvement of all existing plants in the United States and abroad. The expansion of facilities in the United States and the new foundry in Switzerland will increase the company's capacity by better than 50%, Mr. Wasserman stated.

To Improve service to its customers in the United States and Canada, a tremendous expansion in Eutectic's warehouse' network has taken place recently, Mr. Wasserman stated. New Ettectic warehouses have been opened in Boston, Seattle, Vancouver and Toronto, and others will follow shortly.

#### Faradyne Electronics Corp.—Registers With SEC-

This corporation, located at 744 Broad St., Newark, N. J., on Sept. 1 filed a registration statement with the SEC covering 230,000

shares of its common stock, of which 200,000 shares are to be offered for public sale at \$5 per share. The offering is to be made on an "all-or-nothing best efforts" basis by an underwriting group headed by Schrijver & Co. and four other firms, which will 'recu've a 'selling' commission of .75 cents per share, plus \$12,500 for expenses. In addition, the underwriters will receive three-year options to acquire 30,000 common shares at exercise price of \$5 per share.

The company was organized under New Jersey law on June 8, 1959, by Manny Brucker, President, Sol Feldman, Bernard P. Birnbaum, Board Chairman, and Saul I. Birnbaum. It proposes to engage in the business of serving the electronic equipment industry with electronic components such as dielectric and electrolytic capacitors and precision tungsten wire forms. It has outstanding 300,000 shares of class A common stock, issued to the four promoters in exchange for all the outstanding stock which was owned by them of Micro-Wire Corp. for an investment of \$20,000, Micro-Wire thus becoming a subsidiary. The company plans to design, test, develop, manufacture and sell a variety of electronic components, with special emphasis on the development and production of dielectric and electrolytic capacitors, and precision tungsten wire forms. It will be operated on a divisional basis consisting of the Capacitor Division and the Micro-Wire Division, the former plans to initiate its line of dielectric capacitors with the production of plastic dielectric capacitors and the latter to design, develop and manufacture precision tungsten wire forms. Of the net proceeds of the stock sale, \$250,500 will be applied to various purposes (equipment, etc.) related to the capacitor division, and \$75,000 for furnaces and winding equipment for the Micro-Wire Division. An additional expension and improvements is contemplated, the \$430,500 balance of the proceeds to be used for appropriate corporate purposes, including salaries.—

#### Financial General Corp.—Reports Higher Profits—

Financial General Corp.—Reports Higher Profits—
The corporation on Sept. 3 reported that its consolidated net income from operations (including equity in the earnings of non-consolidated subsidiaries) amounted to 52c per share of common stock for the first six months of 1959. The comparable per share amount in the 1958 period was 20c. In addition, gains, on sales of securities, net of Federal income taxes, were realized in the amount of 11c per share, compared to 5c a year ago.

The total of income from operations pius profits realized on the sale of securities therefore amounted to 63c a share in comparison to 25c per share in 1958.

At June 30, 1959, the net assets of the corporation aggregated \$33,454,724, equivalent to \$14.02 per share of common stock. At Dec. 31, 1958, net assets totaled \$36,825,576 or \$14.42 per share. The decrease in per share net asset value resulted mainly from the acquisition during the period of two majority-owned banks at prices in excess of their net underlying assets.—V. 189, p. 2565.

#### General Controls Co.-Acquisition-

The company on Sept. 1 announced that it had purchased Wire-ots, Ltd., a British manufacturer of precision potentiometers and

dials.

Terms of the transaction were not disclosed. The British concern will be operated as a subsidiary of the American company with the name of General Controls, Ltd.

The parent company will transfer its production of precision potentiometers—electronic devices that translate mechanical movement into electrical signals—to the British factory. General Controls makes automatic controls for military, industrial and consumer use.—V. 189, p. 2890.

General Dynamics Corp.—Sells Notes Privately corporation announced on Sept. 10 the sale of \$60,000,000 20-year promissory notes to the Prudential Insurance Co. of America at an interest rate of 5½% per annum.

The proceeds of the loan will be used by Dynamics to augment its working capital.

The proceeds of the loan will be used by Dynamics to augment its working capital.

A similar loan of \$75,000,000 was negotiated by General Dynamics with Prudential on Sept. 29 of last year.

Frank Pace, Jr., Chairman of the Board, said that the new loan would permit Dynamics to proceed with its plans for development and expansion with greater freedom.

"Opportunities for new business indicated by scientific research and development have become more easily realizable with the aid of this substantial new capital," Mr. Pace said.

He further stated that the combination of \$135,000,000 of long term notes sold to Prudential and available short term bank credit will satisfy Dynamics capital needs for the foreseeable future.

General Dynamics, which reported an order backlog of nearly \$2.5 billion as of June 30, is one of the nation's leading suppliers of defense goods. Its famous military products include the nuclear submarine Nautilus, the Polaris-firing nuclear submarines George Washington and Patrick Henry, the intercontinental ballistic missile Atlas and the Mach 2 B-58 bomber.—V. 190, p. 770.

#### General Electric Co.—Cross-License Agreement-

General Electric Co.—Cross-License Agreement—
A cross-license agreement under United States patent rights of each company in the field of polycarbonate polymers has been executed by this company with Farbenfabriken Bayer Aktiengesellschaft, Leverkusen, Germany, according to an announcement by Dr. E. A. Schubert, General Manager of General Electric's Chemical Materials Department, at Pittsfield, Mass.

Polycarbonates were developed independently by the two companies—in the United States by General Electric Co. and in Germany by Bayer. The materials represent an entirely new class of polymers which exhibit high impact strength, excellent dimensional stability, superior heat resistance, and good electrical properties. Discovery in the General Electric Research Laboratory stemmed from a program of basic polymer research seeking better high temperature organic materials for insulation and structural applications.

Such diversified fields as molding compound, film, extrusion materials, coatings, fluids, and elastomers, are expected to be served at an accelerated pace because of this license agreement.

Acquisition of a 160-acre site, near Mount Vernon, Ind., and plans for a multimillion-pound commercial plant for the production of Lexan, General Electric's trademark for its polycarbonate plastic materials, were recently announced by General Electric. Groundbreaking for the plant occurred on Aug. 20, 1959, an production is anticipated for mid-1960.

For the past year and a half, Lexan resin has been produced by General Electric's pilot plant and semi-works facilities in Pittsfield. This production will continue until the new plant goes on stream. More than 125 commercial applications for injection-molded plastics parts are now being supplied from the Pittsfield plant, and this number of applications is growing steadily.—V. 190, p. 770.

#### General Foods Corp.—To Build New Plant—

The corporation plans to construct a modern 140,000 sq. ft. carton manufacturing plant at Saratoga Springs, N. Y. The new industrial stee will occupy about 21 acres in the newly developed Cady Hill Industrial Park and it is expected that operation will employ about 100 persons. The plant is scheduled for completion in the summer of 1960.

The Saratoga Springs' facilities, a division of General Foods' main arton and container plant in Battle Creek, Mich., will manufacture types of printed folded cartons.—V. 189, p. 2457.

## General Mines Corp., Spokane, Wash.-Files With SEC The corporation on Aug. 27 filed a letter of notification with the SEC covering an assessment of one cent per share on 969,484 shares of class B assessable common stock for the period of Sept. 10, 1959 through Oct. 8, 1959.

The proceeds are to be used to pay for annual assessment work on 21 claims, which will consist of buildozing road, etc.

#### General Motors Corp.—New Frigidaire Wall Oven-

A unique French Door wall oven with convenient, space-saving twin toors, is announced by Herman F. Lehman, General Motors Vice-resident and General Manager of Frigidaire.

This trim new built-in is equipped with automatic cooking controls,

automatic interior light, electric time signal and temperature dial, all integrated into a fashionable eye-level panel, easy to read and up out of the reach of small children. An aluminum heat reflector shields the controls when the oven doors are open.

#### Cost-of-Living Allowance Revised Upward-

The corporation on Aug. 21 announced an upward revision of two cents per hour in its cost-of-living allowance to approximately 350,000 hourly rate employees resulting from an increase in the nation's cost-of-living index.

of-living index.

The revision became effective with the first pay period after Sept. 1. The GM hourly rate employees, therefore, will receive a total hourly cost-of-living allowance of 12 cents per hour for the months of September, October and November.

Approximately 36,000 eligible salaried employees will receive an equivalent increase of \$10 in their quarterly cost-of-living allowance. Thus their total cost-of-living allowance for the three-month period will be \$60.

#### August Car Production-

The corporation produced 110,613 passenger cars and trucks in the United States and Canada during August, as compared with 87,849 during August 1958, it was announced Sept. 1.

Of the total vehicles produced by GM during August 103,381 were passenger cars and 7,232 were trucks.

#### General Vacuum Corp.-New Pumping System Line-

The corporation has announced its line of Series 1400 Packaged High Vacuum Pumping Systems. Types 1402, 1404 and 1406, 2", 4", and 6" respectively are caster-mounted portable units. Types 1410, 1416 and 1432, 10", and 16", and 23", are complete skid-mounted assemblies. All are complete with manifolding, valves, air and water piping, wiring and controls ready to be coupled to the system to be evacuated. The Series 1400 Pumping Systems are for high-vacuum work, and use diffusion pumps with mechanically refrigerated or liquid-nitrogen cooled traps. Where outgassing is heavy at intermediate pressures, mechanical boosters are added for rapid pump-down.—V. 189, p. 2675.

#### General Waterworks Corp.—Proposed Acquisition-

The corporation plans to enter the industrial market through the proposed acquisition of the Frick Co., a Waynesboro, Pa., manufacturer of ice-making refrigeration, air-connditioning, farm and saw mill machinery.

The transaction was approved on Aug. 31 by directors of both companies and is subject to approval of shareholders.

Terms of the plan call for Frick common holders to receive General Waterworks voting \$2 convertible preferred, share-for-share, and holders of Frick 6% preferred stock to receive General's 6% voting preferred in a tax-free exchange, also on a share-for-share basis. Frick, whose earnings in recent years have averaged about \$1,000,000 a year, had 300,000 shares of common stock and 57,015 preferred shares outstanding at the close of 1958.

Howard Butcher 3rd, President, of General Waterworks, estimated the acquisition would give his company assets of about \$15,000,000; gross revenues of about \$35,000,000 and consolidated net income of about \$3,000,000.—V. 190, p. 50.

Gennaro Industries, Inc., Hazelton, Pa. — Files With Securities and Exchange Commission—

The corporation on Aug. 28 filed a letter of notification with the SEC covering 200,000 shares of common stock (par 10 cents) to be offered at \$1.50 per share, through Relly, Hoffman & Go., Inc., New York, N. Y.

The proceeds are to be used for additional plant, equipment, retirement of outstanding notes and payables and working capital.

#### Georgia Power Co.-Bids Sept. 17-

The company, at the office of Southern Services, Inc., Room 1600, 250 Park Avenue, New York 17, N. Y., will until 11 a.m. (EDT) on Sept. 17 receive bids for the purchase from it of \$18,000,000 first mortgage bonds. See also V. 190, p. 871.

#### Goebel Brewing Co.-Earnings Report-

This company reports for the six months ended June 30, 1959, sales of \$7,679,544, as compared with sales of \$7,653,568 in the comparable 1958 period, according to Leroy J. Wallace, President. On this sales volume an operating profit of \$50,885 was shown, and compared with an operating loss of \$264,877 a year earlier. No Federal tax liability was incurred in either period because of tax loss carry-forward credits. The company also reports a net loss of \$453,298 in the first half year, compared with a net loss of \$264,877 in the same period in 1958. The losses reported for the period were due primarily to the sale of the Muskegon plant which had been idle since September 1957, and replacement of machinery in modernizing Plant No. 1 in Detroit.— V. 187, p. 1542.

#### (B. F.) Goodrich Co .- Unveils New Long-Wear Tire-

(B. F.) Goodrich Co.—Unveils New Long-Wear Tire—A new tire that "when half worn out will still have traction equal to that of most conventional brand-new tires" was announced by the company on Aug. 24.

Guy Gundaker Jr., Sales Vice-President of the company's tire division, said that the new tire "ought to increase the mileage of the average motorist 22% over conventional tires of the type that come as standard equipment on new cars."

He said the new tire will be on sale in Houston (Texas) and throughout the South and Southwest in October, and that national distribution will follow later in the year.

The tire, called HT Silvertown, will be priced at 10% above standard equipment tires, but 25% to 50% below other "premium" tires.—

V. 190, p. 871.

#### Goodyear Tire & Rubber Co.-New Development-

Goodyear Tire & Rubber Co.—New Development—
A plastic bubble that won't burst under impact from a 45 calibre bullet, or temperatures up to 400 degrees, has been developed by Goodyear Aircraft Corp. (GAC) to protect pilots of supersonic aircraft. The bubble, made of an optically clear plastic laminate called Thermoshield, is a major breakthrough in development of aircraft capable of flying at speeds approaching Mach 3 (1,950 m.p.h.), according to R. W. Dunmire, Plastics Product Manager. For the first time a plastic aircraft canopy furnishing necessary heat resistance and high structural strength can be made with the optical clarity required for sharp-eyed fighter pilots.

Success of the laminate, which has a gauge of one and one-half inches, depended on the development of a new interlayer that is both flexible and heat resistant, retains its optical clarity throughout its service life is curable at relatively low temperatures, and sticks to glass, polyester and acrylic materials, Mr. Dunmire added.—V. 190, p. 711.

Kay & Co., Hartsdale, N. Y.—Acquires Levitt House—
In one of the year's major real estate transactions, Levitt House, the city's most glamorous post-war middle income apartment community, has been sold by its designer-builder Alfred Levitt to a group of New York investors headed by L. William Kay II and John E. Marqusee of Kay & Co., and Jeremiah J. Mahoney, it was disclosed on Sept. 2.

The purchase price was reported to be approximately \$15,000,000 with all cash above a first mortgage of \$11,700,000. Indicative of the scope of the undertaking, title will be guaranteed and insured not by a single company, but by a group headed by the Title Guarantee & Trust Co. and the Lawyers Mortgage & Title Co.

Consisting of 32 eight-story buildings in a 30-acre park-like setting on a point overlooking both the East River and Long Island Sound in Beechurst, Queens, N. Y., Levitt House comprises some 1,024 modern apartment units ranging in size from three and one-half to five and one-half rooms. Three swimming pools, a restaurant-club, a yacht basin and tennis courts are all included within the community. Acquisition of the property by the Kay & Co. group brings to more than 3,000 the number of apartment units now owned and operated by them in New York, Westchester and Pennsylvania.

In addition, they own or control substantial acreage in Westchester and adjacent counties which is expected shortly to be the basis for new projects by their fast-growing organization.

Levitt House constitutes their second multi-million-dollar apartment development purchase of the past 60 days. In mid-July they bought the famed Drexelbrook apartment complex just outside of Philadelphia, Pa., for \$11,000,000. This property, consisting of 90 two-story buildings containing 1,223 garden apartments, plus a shopping center with 11 stores and eight offices, a swimming pool and tennis club and a restaurant, covers an area of 137 acress.

The purchasing group, in addition to Kay, Marqusee and Mahoney, includes Fred J. Picker and Martin Seligson, both p

Leeds & Northrup Co.—To Dedicate New Center—
The nation's newest industrial research center, a \$2 million facility of this large manufacturer of precision electronic measuring and control apparatus and heat treating furnaces, will be dedicated on Sept. 18, at North Wales, Pa.

The center will concentrate the activities of a number of L & N research and development teams formerly scattered among the company's plants in the Philadelphia area. The site is about 22 miles from the center, of Philadelphia, adjacent to L & N's new instrument and automatic control manufacturing plant.

The company's broad line of instruments and controls have long been used by the steel, metalworking, cement, glass, electric power, chemical and petroleum industries and in the nation's research, testing and educational laboratories.

L & N designed and built the large Argonne National Laboratory operating exhibit that was displayed at the International Conference on Peaceful Uses of Atomic Energy at Geneva a year ago. The instrumentation virtually duplicated that previously supplied by L & N for an Argonne reactor.

More than 1,000 L & N "speedomax" data recording instruments have been supplied for the rocket and missile programs at Redstone Arsenal and Edwards Air Force Base.

The lab, a one-story structure covering 65,000 square feet, has been designed to permit expansion to triple its present size. Its

#### Lockheed Aircraft Corp.-Awarded Nuclear Contract

Lockheed Aircraft Corp.—Awarded Nuclear Contract
Lockheed's emphasis on basic research has earned it the first nuclear
research contract to be awarded an industrial laboratory by the
physics branch of the Atomic Energy Commission's Division of Research, it was announced on Sept. 8.
Heretofore, the AEC had restricted this type of research contract
to universities and non-profit laboratories.
Dr. Roland E. Meyerott, Manager of Lockheed Missiles and Space
Division's physics research activities, said the contract is for the
last half of the 1959 calendar year.
He said the AEC support, which will augment fundamental nuclear
physics research by Lockheed scientists, is for basic studies on the
properties of atomic nuclei through an experimental program using
the 3½-million-volt Van de Graaf positive ion accelerator at Lockheed's Scientific Research Laboratory at Palo Alto, Calif.
In addition, these studies may have useful application to the
general field of nuclear power and nuclear reactors.—V. 190, p. 772.

#### Loew's Inc.—Resumes Dividend—

The directors on Sept. 3 voted a quarterly dividend of 30 cents, payable on Oct. 14, to stockholders of record Sept. 22. This marks the resumption of dividend payments which were discontinued following the quarterly payment on June 30, 1957.

Joseph R. Vogel, President, said that the improvement in all divisions—and particularly in motion picture production-distribution—provided conditions which in the opinion of the board justified the resumption of the payment of dividends. He said that with the strong line-up of pictures currently in release and those ready and being prepared for release—including the spectacular production of "Ben-Hur"—it appears that the prospect for the continued profitable operation of the company is most encouraging.

The company ended its fiscal year on Aug. 31, operating in the black in all divisions—production-distribution and foreign theatres, television, records and music. The third quarter report for the 40 weeks ended June 4, showed earnings of \$2.31 per share on 2,668,388 shares cutstanding.—V. 189, p. 1796.

Harold A. Goldsmith, President, and Herbert Herz, Executive vicePresident.

Known as solid state static inverters, the new power supplies are
reputed to be more efficient and reliable, in addition to being lighter
and smaller than conventional devices performing the same function.

Containing no moving parts, capable of withstanding temperature
extremes, vibration and shock, they are said to outlast the equipment
with which they are used. Other applications for the power supplies
are in the field of industrial automation.

The corporation for the six months ended June 30, 1959, noted that
the firm had an 89% increase in profits for the period. Net profit
came to \$90,601 compared with \$47,936 for the same period in 1953.

Earnings per share rose to a new high of 21 cents, up 10 cents from
the 11 cent figure for the first half of 1958. Sales totalled \$1,455,803,
against \$966,812 for the same period a year ago. Backlog as of
June 30, 1959 amounted to approximately \$1,500,000.—V. 190, p. 773.

#### Motor Products Corp.-Plans Stock Split-

Motor Products Corp.—Plans Stock Split—

The directors on Aug. 28 voted a two-for-one split of the company's stock. Stockholder approval is required, according to Ray Nigro, President, who said that the proposal will be placed before the annual meeting, to be held in New York City on Nov. 4.

The company recently said that in the event of stockholder approval of the split the directors would also consider increasing the quarterly dividend rate to 25 cents on the new stock, equivalent to increasing the present dividend from 40 cents to 50 cents quarterly. In March the company made a distribution of one share of stock for each share held, also increasing the dividend rate at that time. Motor Products has since acquired four other companies: Braden Winch Co. and Arrow Gear Co. (Tulsa, Okla.), manufacturers of truck and tractor winches, power teke-offs, special transmissions and gear boxes; Bond Steel & Storage Co., which operates a specialized industrial warchousing service in the Detroit area; and an 80% interest in Trionics Corp. (Madison, Wis.), a research and development irm which specializes in design of advanced electronics components and new materials for electronics applications, and has also been reported to be developing commercial applications of basic processes for which it holds patents.

Other units of Motor Products Corp. are the Duncan parking meter division, largest factor in its industry, and the Aermotor Co. division, major manufacturer of farm and home water systems.

Mr. Nigro said that the year ended June 30 will show earnings approximating 84 a share from operations of the Duncan and Aermotor Co. divisions and the Bond division since its acquisition in the last month of the period. A non-recurring loss will also be reported as a result of the corporation's disposition of its investment in bonds, notes and debentures of Motor Products of Canada Ltd., which is in the process of ceasing manufacture of automotive parts. Mr. Nigro said that the loss will be less than \$1.25 a shere on a pre-tax ba

in cash.

For the fiscal year which began July 1, Motor Products has projected pre-tax earnings of \$7.25 a share. According to Mr. Nigro, the corporation's tax loss carry-forward would permit retention of most of these earnings and provide additional funds for expansion. He said that the earnings projection includes an estimated \$2.50 a share from the new Braden and Arrow divisions, based on their earnings over the past five years, and "75 cents to perhaps a little more than a dollar a share" to be added by the Bond division.

Mr. Nigro said that Motor Products is still in the market to acquire other businesses with good earnings records and growth potential.

#### National Distillers & Chemical Corp. - Expects Increased Sales and Profits-

Substantial sales increases by both the chemical and liquor divisions of this corporation are expected to increase net income in the second half of 1959 to approximately \$14,000,000, according to estimates presented by John E. Bierwirth, Chairman, in a speech before The Los Angeles Society of Security Analysts on Aug. 31. This would equal an estimated \$1.20 a common share, and compares with net income of \$10,096,000, or abore cents a common share in the second half of 1958.

The estimated second half results would bring net income for the full year 1959 to over \$25,000,000, or about \$2.25 a common share, according to Mr. Bierwirth. This compares with net income of \$20,103,000, or \$1.76 a common share, in 1958.

"The trend of progressively increasing earnings this year leads us to believe that net earnings in 1960 will reach approximately \$30,-000,000." Mr. Bierwirth said. "Of course this earnings trend was reflected in our recent 20% increase in the dividend.

"The rapid growth in just nine years of the corporation's U. S. Industrial Chemicals Co. division—now 12th largest chemical company in the country—is a major factor in National's improved outlook," Mr. Bierwirth stated. "Sales of this division are expected to reach \$109,000,000 in 1959 and show a net return after taxes of 1034% of sales, a percentage exceeded, on a comparable basis, by only two of 16 leading chemical companies in the first half of the year."—V. 189, p. 1970.

#### New York, Ontario & Western Ry. - Court Receives Plan for Creditors-

Settlement of claims against this railroad has been proposed to the U. S. District Court.

The plan calls for the railroad's creditors to accept a distribution of about \$8,200,000, received from sale of the company's property in 1958, as settlement for claims totaling about \$77 million. The carrier went into receivership in 1957 after attempts at a reorganization over a 20-year period had failed.

The settlement was proposed to the Court by S. Hazard Gillespie,

United States Attorney. It was worked out by Assistant U. S. orney Robert L. Tofel and the road's secured creditors, including dholders. Mr. Tofel said over 95% of the unsecured creditors also

bondholders. Mr. Tofel said over 95% of the unsecured creditors also approved the plan.
Under the proposed settlement, holders of the railroad's \$1.000 refunding bonds of 1992 would receive \$52.80 for each bond and unpaid interest. Holders of the road's general mortgage bonds of 1955 would receive \$22.66 per bond. This means bondholders would receive an aggregate of about \$1,400,000 as settlement of claims totaling \$53

About \$10 million was realized from sale of the road's property in 1958. Some \$8,200,000 of this is available for distribution to creditors and the balance went to provide partial payment on equipment trust certificates.

The 541-mile rail system ceased operations in 1957. The road handled passengers and freight between Oswego, N.Y., and Weehawken, N. J., and also served the Catskill Mountains region.

Mr. Torle said hearings on the proposed settlement are expected to begin in October. If the Court does not approve the plan, the said litigation involving the company probably will last two or three more years. ("Wall Street Journal").—V. 137, p. 2119.

#### Peoples Gas Light & Coke Co.—Proposed Acquisition

Peoples Gas Light & Coke Co.—Proposed Acquisition
The directors of this company and of Texas Illinois Natural Gas
Pipeline Co. have approved a plan, subject to certain conditions,
under which Texas Illinois in effect will become a wholly-owned
subsidiary of Peoples Gas, it was announced on Sept. 8, by Eskil I.
Bjork, Chairman of Peoples Gas and Chairman of the Board of
Directors of Texas Illinois. Peoples Gas now owns 70.56% of the outstanding common stock of Texas Illinois. Under the plan common
stockholders of Texas Illinois will receive one share of Peoples Gas
capital stock for each two shares of Texas Illinois common stock.
Under the plan the assets of Texas Illinois will be transferred to
a new wholly-owned subsidiary of Peoples Gas in exchange for capital stock of Peoples Gas. The plan also contemplates the redemption
of outstanding shares of Texas Illinois cumulative preferred stock,
S series, and the ultimate merger of the present assets and business
of Texas Illinois with those of Natural Gas Pipeline Co. of America,
another wholly-owned subsidiary of Peoples Gas.

Mr. Bjork stated that the directors made the consummation of the
plan contingent upon the receipt of a ruling from the Internal
Revenue Service that the exchange will be tax-free to the common
stockholders of Texas Illinois and to the companies in the Peoples
Gas System. It is also contingent upon approval of the plan by the
Texas Illinois stockholders at a special meeting to be called for that
purpose, and upon requisite approval of the plan by regulatory and
governmental bodies, including the Illinois Commerce Commission and
the Federal Power Commission. He added that the plan will not become effective in the event more than 5% of the common stock of
Texas Illinois is voted in opposition to the plan.—V. 190, p. 874.

#### Public Service Co. of Indiana, Inc.—Seeks Rate Incr.

This company on Sept. 2 filed a petition with the Indiana P. S. ommission seeking an increase in rates. According to the petition the impany at the present time is earning substantially less than a fair

return and is in fact earning less than 4½% on the value of its properties devoted to electric service.

The increase sought is in the schedules for residential and farm electric service. Rates presently in effect for such customers are low in relation to rates for other classes of customers.

The proposed rates will produce additional net operating income estimated at \$2,500,000. Federal and State income taxes on the additional gross revenues would amount to \$2,700,000, making the total proposed increase in gross revenues approximately \$5,200,000.

Commenting on the petition, R. A. Gallagher, Chairman, said that to meet the expanding needs of customers, the company during the 5½ years ended June 30, 1959 made additions of \$182,000,000 to its electric utility plant. During this same period the costs of obtaining additional capital funds has increased substantially and on an annual basis payroll costs increased \$3,600,000 or 37%; State and local taxes increased systems increased systems of return so that the continually growing costs and to improve rate of return so that the continually growing needs of our customers.

The company supplies electricity direct to approximately 370,000 customers in central, north central and southern Indiana, About 238,000 of those customers will be affected by the proposed rate changes.—V. 189, p. 919.

# Radiant Lamp & Electronics Corp. — Registers With Securities and Exchange Commission—

Securities and Exchange Commission—

This corporation, located at 40 Washington Place, Kearny, N. J., filed a registration statement with the SEC on Sept. 4, 1959 covering \$250,000 of 6% 10-year subordinated convertible sinking fund debentures, series II, due Oct. 15, 1969 and 120,000 shares of class A stock. The debentures are to be offered for public sale at 1,00% of principal amount, and the stock at \$5 per share. The offering is to be made on an "all or nothing" basis by an underwriting group headed by Amos Treat & Co., Inc., which will receive a commission of 7½% on the debentures and \$0.025 per share on the stock (plus \$5,000 for expenses). The company also will pay a finder's fee of \$5,000 in cash and 5,000 class A shares to Irving B. Coe.

The prospectus lists Amos Treat, President of the underwriter, as promoter of the company, which was organized July 24, 1959 for the purpose of acquiring the business and certain of the assets of Radiant Lamp Corp., a New Jersey corporation. Upon such acquisition, the permanent offices and main plant of the company will be located at 300 Jelliff Avenue, Newark, K. J., the present location of the New Jersey corporation. Treat entered into an agreement with the New Jersey corporation. Treat entered into an agreement with the New Jersey corporation to purchase certain of its assets, including its business and goodwill (but excluding the land and building used as its place of business, two automobiles and \$500,000 in cash or U. S. Treasury Bills). The purchase price is \$1,000,000 of which \$600,000 is payable in cash at the closing and \$400,000 is payable at the closing by delivery of \$400,000 of 5% debentures to be issued by the new company. The prospectus states that all the cash and treasury bills of the New Jersey corporation will be left in that corporation and the amount thereof in excess of \$500,000 will be applied in reduction of the purchase price, and that present indications are that over \$300,000 will be thus applied. The purchaser agrees to assume all liabilit

the purchase price, and that present indications are that over \$300,000 will be thus applied. The purchaser agrees to assume all liabilities of the seller.

The agreement provides that it shall be assigned to the successor company by Treat for 200,000 shares of class B stock and 15,000 shares of class A stock (of Radiant Lamp & Electronics). As part of the agreement, the new company will be permitted to occupy the premises now owned and occupied by the seller, pursuant to a 10-year lease at a rental of \$20,000 per year, plus certain expenses. The agreement has been assigned by Treat to the new company, and received therefor 194,000 snares of class B stock and 19,000 shares of class A stock and 19,000 shares of class B stock and 19,000 shares of class A stock should be shares were issued to the finder; and 6,000 class B shares were sold to four individuals (including three directors) for \$15,900 Jused to cover organization and other expenses. Treat has sold 30,500 shares of his class B stock to directors and company counsel at one mill per share.

Of the net proceeds of the proposed financing, \$35,000 will be used to cover the cost of acquiring the assets of the New Jersey corporation, including the \$5,000 finders fee; about \$300,000 will be paid on account of the purchase price (which assumes the \$300,000 will be paid on account of the purchase price (which assumes the \$300,000 will be added to the general funds of the corporation to be used as working capital. The predecessor company manufactures special purpose electric lamps. For the past 20 years it has been under the control and management was negotiated by Treat. The, prospectus lists David Foxman as President of the new company and Harry C. Cronan as Secretary-Treasurer.

#### Sabre-Pinon Corp.—Accelerates Uranium Operations

Sabre-Pinon Corp.—Accelerates Uranium Operations
Expansion of uranium operations and a substantial cash flow from
the Homestake-Sapin Partners milling operation during the last
quarter of the fiscal year ended June 30, 1959, were reported to shareholders of this corporation.
Richard D. Bokum II, President, noted in the corporation's annual
report that two uranium mines have been developed on McKinley
County, N. Mex., properties of Lance Corporation, wholly-owned subsidiary of Sabre. "There is an assured market in the existing mills
in the Ambrosia Lake area for the high-grade ore which will be
produced beginning in August, 1959." he said.

The Homestake-Sapin Partnership, of which Sabre owns 75%, operates a uranium processing mill at Grants, N. Mex., and mines in
Sections 15, 23 and 25, T14N, R10W, in McKinley County. Correction
of initial mining and metallurgical difficulties resulted in revenues
of \$4,504,443 for April, May and June of this year, with a net of
\$52,801.35 to the Partnership. The increased income reduced the
deficit accumulated since the commencement of operations in August,
1958, from \$890,744 to \$337,943.

The report showed that in those three months, income from the
Homestake-Sapin Partnership milling operations, before interest and
amortization, amounted to \$7.97 per ton of uranium ore, compared
with \$4.96 per ton for the Partnership's fiscal year ending March 31,
1959.

"The Partnership's milling profit before interest and amortization."

with \$4.96 per ton for the Partnership's listed year enough account 1959.
"The Partnership's milling profit before interest and amortization should increase to over \$10 per ton for the next few months," Mr.

should increase to over \$10 per ton for the next few months," Mr. Bokum said.

Projecting future income on the basis of present Atomic Energy Commission Contracts, and anticipated production from the Homestake-Sapin mill and mines and the Lance Corporation mines, Mr. Bokum said, "It is now estimated that Sabre should earn, during calendar 1960, approximately \$7.500,000, or nearly \$3.50 per share, after taxes and before depletion and amortization.

"Of this total, approximately \$5.207,500 will be derived from the Homestake-Sapin Partnership and must be used to pay off the indebtedness of the Partnership. It is projected that approximately \$2.225,000 will be derived from the mining profits of the Lance Corporation. These monies will be used to set up a regular dividend policy which will be established during 1960," Mr. Bokum told the shareholders.

# (W. A.) Sheaffer Pen Co.—Introduces New Pen for Men

A further step in its "genderizing" of quality writing instruments was made Sept. 10 when the company introduced the first fountain pen designed and engineered exclusively for men.

Called "PFM" (Pen For Men), it follows the pattern of the firm's entry into the women's fashion accessory market with the "Lady Sheaffer" collection of jewelry-turned writing instruments in March 1958.

"The PFM pen is as completely masculine in design as th Sheaffer pen is feminine in appearance," according to L. H. Executive Vice-President of the firm.

The PFM pen is larger in diameter than any Sheaffer pen since the first "White Dot" pens of the 1920's, and both cap and barrel, have trim, modern lines. It features an inlaid point of palladium silver or 14-karat gold—the first fountain pen to have such an inlaid nib, Mr. Black said.

Mr. Black said.

"Because it is molded into the gripping section rather than being mechanically attached, this new inland point improves writing per-

formance by providing both greater strength and more flexibility," he explained.

The new pen retains the famous Snorkel pen fitting action but has over 30% greater ink capacity than previous models, he said.

over 30% greater ink capacity that previous models, he said.

The exclusive new PFM pen design is a result of extensive testing with consumer panels." Mr. Black said. "We tested triangular shapes and other designs, and found that men like a sturry pen that's easy to hold; this pointed the way to the PFM pen, engineered to provide maximum writing comfort by properly combining size and balance," he added

There are five models of the PFM pen, ranging in price from \$10 to \$25 and offering eight different point styles determined on the basis of special consumer preference studies. Matching pencils are priced from \$4.95 to \$10.

priced from \$4.95 to \$10.

"Our market research convinced us that 'genderizing' is necessary to the realization of the sales potential for quality writing instruments," Mr. Black said. "Neuter gender fountain pens that manufacturers have featured for many years are not enough to develop the sales picture to its fullest extent.

"For some time our planning has been to provide a complete line of writing instruments with which retailers can meet the individual needs of customers of both sexes. The Lady Sheaffer collection gave us a start. Now with the introducing of this 'Pen For Men' we're ready to meet today's opportunity in the writing instrument market.

"We definitely don't believe in compromising quality to secure a price. We are convinced the way to gain a greater share of the market is to continue producing top quality products with sound consumer appeal."

Statistics show a ready market for a pen designed exclusively for men, Mr. Black pointed out. "There are about 87 million males in the U. S.," he said, "and almost 80% of them use a fountain pen, Now we're giving them a pen that's as exclusively masculine a product as the old mustache cup."—V. 189, p. 2831.

\*Bonds maturing 1981-85, Incl., subject to call at par, plus accrued interest, on and affer September 1, 1980, as described herein. 2,400,000

Dated September 1, 1959

Payment and Registration

Principal and semi-annual interest (March 1 and September 1) payable, at the option of the holder, at the office of the Treasurer of the State of California in Sacramento, California, or at the office of any duly authorized agent of the State Treasurer, including the agent of the State Treasurer in New York, N. Y. Coupon bonds in denomination of \$1,000 registrable only as to both principal and interest.

Redemption Provision

1980, (but not prior thereto) and on any interest payment date thereafter, at the principal amount thereof and accrued interest thereon to date of redemption. Publication of notice of redemption shall be once a week for two weeks, not less than 30 days nor more than 90 days prior to said date of redemption, in each of the Cities of San Francisco, Sacramento, and Los Angeles, California. If less than all the bonds should be redeemed, they shall be called in inverse numerical order, the part so called not less than all the bonds maturing in any one year. Bonds maturing on and after September 1, 1981, are subject to redemption at the option of the State, as a whole or in part, on September 1,

Tax Exemption

In the opinion of counsel, interest payable by the State upon its bonds is exempt from all present Federal and State of California personal income taxes under existing statutes, regulations and court decisions.

Legality for Investment

We believe these bonds will meet the requirements as legal investments for savings banks and trust funds in New York, California and certain other states and for savings banks in Massachusetts and Connecticut and will be eligible as security for deposits of public moneys in California.

Purpose and Security

opinion of counsel are valid and legally binding general obligations of the State of California payable in accordance with their 1958, Chapter 98) and Section 19 of Article XVI of the Constitution of the State of California for school purposes, in the These bonds, issued under provisions of State School Building Aid Bond Law of 1958 (Statutes First Extraordinary Session be required to pay principal and interest on the bonds as the same become due. The bonds were authorized by the electorate terms out of the General Fund of the State, and the full faith and credit of the State of California is pledged for the punctual payment of both principal and interest. Under the enabling statute the State is obligated to collect annually, in the same manner and at the same time as other state revenue is collected, such sum in addition to the ordinary revenue of the State as shall on November 4, 1958, for the purpose of providing aid for school construction in the State, the amounts thereof to be repaid, in whole or in part, by the districts receiving aid.

These bonds will be initially issued by the State of California at not less than their par value, and a taxable gain may accrive on bonds purchased at a discount. Investors are required under existing regulations to amortize any premium paid thereon. Tax Gain, Amortization of Premium

# THE COURSE OF BANK CLEARINGS

Bank learings this week will show a decrease compared with a year ago, due to the Labor Day holiday coming in this week this year while a year ago it fell in the previous week. Preliminary figures compiled by us based upon telegraphic advices from the chief cities of the country, indicate that for the week ended Saturday, Sept. 12, clearings for all cities of the United States for which it is possible to obtain weekly clearings will be 9.2% below those of the corresponding week last year. Our preliminary totals stand at \$19,370,404,616 against \$21,330,726,654 for the same week in 1958, at this center there is a loss for the week ending Friday of 4.4%. Our comparative summary for the week follows:

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday and the Saturday figures are not available at time of going to press. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results of the previous week—the week ended Sept. 5. For that week there was an increase of 28.2%, the aggregate clearings for the whole country having amounted to \$23,540,383,690 against \$18,368,084,457 in the same week in 1958. Outside of this city there was a gain of 25.8%, the bank clearings at this center showing an increase of 30.6%. We group the cities according to the Federal Reserve Districts in which they are located and from this we note that in the New York Reserve District the totals record an expansion of 30.4%, in the Boston Reserve District of 32.6% and in the Philadelphia Reserve District of 25.2%. In the Cleveland Reserve District there is an improvement of 26.1%, in the Richmond Reserve District of 21.2% and in the Atlanta Reserve District of 31.5%. The Chicago Reserve District has managed to enlarge its totals by 27.6%, the St. Louis Reserve District by 14.9% and the Minneapolis Reserve District by 21.7%. In the Kansas City Reserve District the totals register a gain of 16.7%, in the Dallas Reserve District of 29.7% and in the San Francisco Reserve District of 28.2%.

In the following we furnish a summary by Federal Reserve Districts:

### Standard Brands Inc .- Plans Stock Split-

Standard Brands Inc.—Plans Stock Split—

The directors have proposed and recommended for stockholders' approval an amendment to the certificate of incorperation which would effect a 2-for-1 split of the common stock and an increase in the number of authorized no par shares from 5,000,000 to 10,000,000. A special meeting of stockholders has been called for Oct. 6, 1953 to consider and vote upon the proposal.

The directors have expressed their intention, if stockholders approve the split, to increase the fourth-quarter dividend payable in December to 37½c on the split shares. This increased rate is equivalent to 31.50 per annum on the new shares, or \$2 per annum on the present shares, compared with the current quarterly rate of 65c per share or \$2.60 per annum.

If the proposed stock split is approved, the company will distribute early in November one additional share for each common share owned of record on Oct. 13, 1959, the date the certificate of amendment will be filed pursuant to Delaware law.—V. 190, p. 918.

### Superior Oil Co. (Calif.)-To Vote on Merger-

A special meeting of stockholders has been called for Sept. 25 to vote on a proposal to merge this company into Texaco, Inc. Under the plan, Superior holders would receive 24 shares of Texaco stock for each share of Superior held. Superior would be dissolved. Superior's board has recommended the adoption of the merger plan which requires approval of two-thirds of Superior's stock. See also Texaco, Inc. below.—V. 190, p. 403.

Superior Water, Light & Power Co.-Plans Financing The company has filed an application with the PFC seeking authority to issue up to a maximum of \$2,050,000 principal amount of short-term promissory notes, outstanding at any one time. The FPC, on June 3, authorized Superior to issue up to \$850,000 of short-term notes outstanding at any one time to banks before June 1, 1961.

The corporation on Sept. 3 filed a letter of notification with the SEC covering 150,000 shares of common stock (par one cent) to be offered at \$1.50 per share, through R. G. Williams & Co., Inc., New York, N. Y.

The proceeds are to be used for working capital and general corporate purposes.

### Standard Brands Inc.—Plans Stock Split-

Standard Brands Inc.—Plans Stock Split—

The directors have proposed and recommended for stockholders' approval an amendment to the certificate of incorporation which would effect a 2-for-1 split of the common stock and an increase in the number of authorized no par shares from 5,000,000 to 10,000,000. A special meeting of stockholders has been called for Oct. 6, 1953 to consider and vote upon the proposal.

The directors have expressed their intention, if stockholders approve the split, to increase the fourth-quarter dividend payable in December to 37½c on the split shares. This increased rate is equivalent to \$1.50 per annum on the new shares, or \$2 per annum on the present shares, compared with the current quarterly rate of 65c per share or \$2.60 per annum.

If the proposed stock split is approved, the company will distribute early in November one additional share for each common share owned of record on Oct. 13, 1959, the date the certificate of amendment will be filed pursuant to Delaware law.—V. 190, p. 918.

### Superior Oil Co. (Calif.)-To Vote on Merger-

A special meeting of stockholders has been called for Sept. 25 to vote on a proposal to merge this company into Texaco, Inc. Under the plan, Superior holders would receive 24 shares of Texaco stock for each share of Superior held. Superior would be dissolved. Superior's board has recommended the adoption of the merger plan which requires approval of two-thirds of Superior's stock. See also Texaco, Inc. below.—V. 190, p. 403.

Superior Water, Light & Power Co.-Plans Financing The company has filed an application with the FPC seeking authority to issue up to a maximum of \$2,050,000 principal amount of short-term promissory notes, outstanding at any one time. The FPC, on June 3, authorized Superior to issue up to \$850,000 of short-term notes outstanding at any one time to banks before June 1, 1961. The proposed additional notes would also be issued before that time. The company said the proceeds would be used to provide funds to meet its construction and conversion program.

he outcome of IBM's decision to exercise an option which was included in an erlier license.

Hubert L. Shortt, President, did not reveal the exact amount paid by IBM but indicated that it was substantially more than a quarter of a million dollars. He considers this significant because by the revised agreement, IBM acknowledges the validity of his company's patents without awaiting a court decision. A court decision is expected by the end of this year in one of the suits Technograph has pending against Farrington Corp., Budd Co., and Bendix Radio for infringement.

Mr. Shortt interprets IBM's action as an indication that its technical and legal staffs concluded that pending court actions will be decided in Technograph's favor, which event would put IBM in a very favorable position compared to others who are infringing.

Other companies who recognize the Technograph patents and who are already licensed include Baldwin-Lima, Burroughs, Eastman-Kodak, National Cash Register, RCA, Texas Instruments, etc.—V. 178, p. 391.

### Tenney Engineering, Inc.—Acquisition—

This corporation has acquired the copper and aluminum coil division business of The Kirsch Co., Sturgis, Mich., which is known as the largest maker of curtain rods and drapery hardware. Monroe Seligman, President, said the acquisition is expected to more than double the Tenney refrigeration component division's business in the first year. He estimated the division's sales will reach \$3,000,000 by the end of 1960.

The Kirsch transaction involved cash, stock and notes. The amount was not disclosed.

Texaco Inc.—Registers With SEC.—

This company filed a registration statement with the SEC on Sept. 2, 1959, covering 5,177,688 shares of capital stock. Under an agreement dated Aug. 10, 1959, all the assets, properties, business and goodwill of The Superior Oil Co. will be transferred to Texaco Inc. in exchange for 10,134,336 shares of the Texaco stock; Texaco will assume Superior's liabilities; Superior will be dissolved and liquidated; and there will be distribution upon such liquidation to the stockholders of Superor all such shares of Texaco stock at the rate of 24 such shares for each share of Superior stock.

The Texaco prospectus lists six Superior stockholders who "may have been in control of Superior" at the time Superior stockholders voted on the agreement. Although they have advised Texaco that they have no present intention of making a distribution of the Texaco stock to be acquired by them, they, nevertheless, are not prepared unqualifiedly to make commitments to the effect that all such shares will be held by them for investment. Accordingly, Texaco seeks to register the stock to be acquired by them, as follows: W. M. Keck, 2,488,464 shares; W. M. Keck, Jr., 330,240; Howard B. Keck, 566,136; Wilametta Keck Day, 332,856; Alice Keck Park, 359,736; and Union Bank, Los Angeles, as Trustee under various trusts, 1,100,256.—

# Texas Eastern Transmission Corp. — Underground Storage Caverns Completed—

Initial injection of propane into newly completed underground storage in the southern Ohio city have been started its corporation at its Todhunter Terminal, according to Millard eptune, Senior Vice-President in charge of Petroleum Prod peration. Operation.

Neptune, Senior vice-President in charge of Petroleum Froducts Operation.

These underground caverns at Todhunter Terminal provide economical storage in an area strategically located for the distribution of LPGas to Midwestern and Eastern markets, Mr. Neptune said. The LPGas will be used to supply the high wintertime demands of the constantly increasing bottled gas and "peak shaving" market as weil as provide an abundant supply year-round for customers, residential and commercial allice.

A total of five undergrund storage caverns are being constructed by Texas Eastern at Todhunter, he said. The first three caverns, with capacities of 6,300,000 gallons, 8,400,000 gallons and 5,250,000 gallons are now being filled with propane. The fourth cavern of 6,720,000 gallons capacity is slated for completion in November, and the fifth cavern of 8,400,000 gallons capacity will be ready for service by February 1960.

cavern of 8,400,000 gallons capacity will be ready for service by February 1960.

When all five caverns are completely filled, the Terminal will be storing more than 36 million gallons of LPGas, a capacity equivalent to 200 spherical aboveground tanks 35 feet in diameter with a capacity of 168,000 gallons each.

To augment its over-all LPGas operations, Texas Eastern is now constructing two giant underground salt dome storage wells or "jugs" at Mount Belvieu, Texas, about 20 miles east of Houston, that will have a capacity of more than 42 million gallons of LPGas. Washed out of deposit of solid salt, these "jugs" serve as accumulation storage for LPGas and the gas is shen pumped through the Little Big Inch Pipeline, winter or summer as needed, and delivered efficiently, dependably and economically into the mined storage cavern at Todhunter, Texas Eastern now has in service a capacity of service of the control of the contro

Division Sells Plant-

Division Sells Plant—

The Townsend Co, division of Textron, Inc. has announced sale of a major part of its plant in New Brighton, Pa., to Marcus-Paulson Co. of Fallston, Pa., for an undisclosed price.

The sale involves 14 buildings with 320,000 square feet of floor space. Most had been vacated when facilities of Townsend's Engineered Fastener division recently were moved to a new plant at Ellwood City, Pa., Townsend said. Townsend makes rivets and other fasteners, and was acquired by Textron last April.

The joint announcement said Marcus-Paulson will rent the buildings bought from Townsend to "small manufacturing enterprises."

### Thatcher Glass Manufacturing Co., Inc.—Expansion—

Construction was begun Sept. 10 by this company on a \$3,500,000 glass container manufacturing plant located on a 30-acre site in the Tampa Industrial Park, Tampa, Fla., Franklin B. Pollock, Chairman,

grass container manuacturing plant located on a 30-acre site in the Tampa Industrial Park, Tampa, Fla., Franklin B. Pollock, Chairman; ennounced.

It will give the company a total of eight plants located in strategic areas throughout the United States.

Earlier this year, Thatcher entered the cellulose band, plastic container and closure fields by the acquisition of The Celon Co., Muscatine, Iowa and Plastic Tube and Bottle, Inc., Nashua, New Hampshire. Scheduled for completion in the Spring of 1960, the 180,000 square foot Tampa plant will have an annual capacity of 100,000,000 glass bottles. It will employ a working force of 200, and will operate around the clock on a seven day basis.

Mr. Pollock stated that the new facility has been planned to serve the growing South Eastern market. Construction is being financed from a portion of the proceeds of a long-term \$11,000,000 lean recently negotiated with the Metropolitan Life Insurance Co. He estimated that when it is in full production, it will add approximately \$3,500,000 annually to the company's sales volume. In the six months ended June 30, 1959 net sales of the company amounted to \$23,210,082, compared with \$20,014,294 in the corresponding period of 1958.

Completion of the Tampa facility will give Thatcher a total of 2,500,000 square feet of plant space, Mr. Pollock said.—V. 190, p. 404.

### Truax-Traer Coal Co.—Sells Certain Properties

Truax-Traer Coal Co.—Sells Certain Properties—
Sale of this company's West Virginia mining properties will increase the company's cash by approximately \$10,000,000, according to the ploxy staement being mailed to stockholders in connection with the special stockholders' meeting to be held Sept. 28.

Approximately \$5,600,000 in cash will be received from the sale of the properties for an indicated loss of about \$5,500,000 of the book investment in these properties. This will result in an income tax reduction of approximately \$2,350,000. West Virginia coal accounts receivable, which are not being sold, will provide additional cash as these receivables are converted in the normal course of collection. Together these three items will total approximately \$10,000,000.

While specific plans are still in the formative stage, the company proposes to use the funds for the expansion of its more profitable illinois and North Dakota operations through the purchase of additional coal reserves and plant and equipment, both for established operations and for the development of mines to serve new or existing electric generating stations, located at or near mine sites.

Truax-Traer presently operates mines in Illinois and North Dakota. In the fiscal year ended April 30, 1959 these mines produced a total of 5,672,971 tons of which 90% was from strip or open-cut mines.

West Virginia coal production has represented a declining percentage of the company's total production as expensive to the processor.

is 5,672,971 tons of which 90% was from strip or open-cut mines. West Virginia coal production has represented a declining percentage f the company's total production, according to the proxy statement, nd for the year ended April 30, 1959 amounted to 1,831,370 tons or 4.2% of total production. The market for West Virginia coal, which principally metallurgical and industrial fuel, has been and continues to be unsatisfactory.

In the past three years the return on the company's investment its West Virginia properties has averaged seven-tenths of one percen whereas the company's combined Illinois and North Dakota properticave average 15.5% return on investment.

A pro forma summary of earnings for the fiscal year ended April 30, 1959 indicates that the exclusion of the West Virginia properties would have increased consolidated net income to \$2,925,742 and \$1.95 a share from the \$2,869,208 and \$1.91 a common share, actually reported. Working capital as a result of the sale would be increased to approximately \$20,000,000 from \$12,302,041 at the end of the last fiscal year. --V. 190, p. 1021.

### Zapata Petroleum Corp.—Expansion in Canada-

The corporation is starting an intensive exploration and development program on its spread of lease: in the Hussar and Rosebud gas producing areas of Southeast Alberta, Canada, J. Hugh Liedtke, President, announced last month. In addition to the leases already held in that region, Zapata plans to acquire considerable additional acreage in the Southeast Alberta region in the near future.

The gas is found in three separate pay zones above 5,000 feet, he revealed.

The gas is found in three separate pay zones above 5,000 feet, he revealed.

In order to handle those operations, Zapata is opening a district exploration and production office at Calgary.

Mr. Liedtke asserted hat the company's expansion into Canada will not curtail its operations in the Permian Basin.

The concern is to drill a 10,600 foot wildcat to test the Pennsylvenian reef in Northwest Gaines County. That project will start in the near future. It will be in the Southeast Quarter of the Southwest Quarter of Section 44, Block H, D&W Survey, and approximately 20 miles northeast of Seminole.

Zapata has a substantial interest in a 2,560-acre block of leases in Northeast Arizona adjacent to the tract on which E. B. LaRue and Texas Pacific Coal & Oil Co. are drilling a 7,800-foot wildcat.

Zapata also has an interest in a 5,600-acre block in Southwest Crockett County and Northwest Val Verde County in the region where Humble Oil & Refining Co. is drilling a 14,000-foot wildcat.

A waterflood project has been started on 46 wells in the West Jameson field of Northwest Coke County in West Texas, which are jointly owned by Zapata Petroleum and Perkins-Prothro Co. of Wichita Falls.

It is planned to extend the flood to the 85 other producing wells.

owned by Zapata and Perkins-Prothro in the same field in the near future.

Mr. Liedtke pointed out, however, that Zapata will also continue to acquire and/or develop as much crude oil production as possible in the Permian Basin area of West Texas and Southeast New Mexico.

The corporation has gone into the Canadian and Arizona areas since it completed withdrawal from the offshore drilling business.

That was effected by its disposing of all interests previously held in its former affiliate, Zapata Off-Shore Co.

Over the past several months, Zapata Petroleum has been building up its cash reserves in anticipation of its Canadian activities. As of Aug. 17, the company had approximately \$3,000,000 of available cash for reinvesting in the acquisition and development of new natural gas and crude oil reserves, Mr. Liedtke revealed.

After those funds are committed, exploratory operations will be limited to a budget which will not exceed net cash flow generated from operations, he asserted.—V. 190, p. 96.
