Admiral Corp.—Sales Up-

Admiral Corp.—Sales Up—

Sales in the first quarter are expected to be 7% higher than last year. Ross D. Siragusa, President of this Chicago corporation, told the annual shareowner's meeting on April-15.

While the company's television sales from distributors to dealers were 33% ahead of the first quarter in 1959, he said the industry's micrease was only 16%. Siragusa said Admiral's new wide angle, square cornered 19- and 23-inch TV sets were major factors in the strong increase.

The Admiral President said appliance sales throughout the industry had been below first quarter expectations because dealers overbought during the steel strike and were working off their inventories. He noted the beginning of a second quarter pickup which should continue during the rest of the year.

A new electronic room status control system for hotels was unveiled at the annual meeting by Admiral's commercial electronics division.

Designed and engineered by Admiral, the new system upgrades and accelerates communications between the three nerve centers of a modern hotel: the front desk, the cashier and the housekeeper. The first hotel to open with this exclusive room status system will be the new 250-room Hyatt House Hotel in Seattle scheduled for completion next month.

next month.

"If our operations continue to grow during the balance of the year as we believe they will, your board of directors will give serious consideration to the resumption of dividends by the year-end," Siragusa

aid.

Siragusa said more than half of the five million transistor radios old in the United States last year were made in Japan or had apanese components in them. "This constitutes a serious threat, not nly to American manufacturers but to labor, as well," he charged.

Admiral's incumbent board of directors was reelected.—V. 191,

Aeronca Manufacturing Corp.—Annual Report-

The Middletown, Ohio, corporation's sales jumped nearly a half mil-n dollars in 1959 to establish a new high in sales, the company has

reported.

Profits also moved upward in a year which saw the company's net worth increase more than \$980,000. Fixed assets moved up nearly 53% to \$3,054,708.

Profits also moved upward in a year which saw the company's net worth increase more than \$980,000. Fixed assets moved up nearly 53% to \$3,054,708.

In the annual report mailed to stockholders, the company listed profits of \$680,325.91 and sales of \$23,619,512.95. Sales in 1958, the previous high, were \$23,135,643.95 while net profits were \$648,214.50. In the report, John A. Lawler, Aeronca's President, said Aeronca's diversification program is making great strides. "As an example," Mr. Lawlor reported, "subcontracting of conventional aluminum aircraft structures amounted to 90% of Aeronca's total business in 1957. In 1960, 60% of our efforts will be with other products and 70% will be other than conventional aircraft structures in 1961."

The stockholders' report listed current assets at \$12,192,522 compared with \$9,050,566 in 1958. An increase of \$2,986,556. The net worth during 1959 increased \$982,974 to \$6,545,050 from 1958's figure of \$5,562,076. The net earnings per common share based on the average common shares outstanding in 1959 was 96 cents. This compared with \$1.04 in 1958 and 95 cents in 1957. Mr. Lawler said the decline is due to the larger number of common shares outstanding. He pointed out that 98,853 common shares were issued in the merger with Longren Aircraft Co. in April, 1959 and 30,188 shares were issued in July, 1959 in payment of a 5% stock dividend on the common stock. This brought the total shares of common stock outstanding at the end of 1959. Mr. Lawlor said anticipated sales during 1959 under defense subcontracts were reduced substantially due to the termination of North American's F-108 and the B-70. He said that Aeronca's entrance into new areas of defense products had held up well and that orders received for new products during 1959 were the result of research and development expended in 1958 and prior years. Many of these contracts will not have deliveries until 1960.

"Our diversification includes such new product lines as target missiles, radar antennas, communications equipment, shelters and contracts for electronic equipment and space studies," Mr. Lawlor stated. "In addition, Aeronca has acquired a substantial stake in the commercial air conditioning field through merger with Buensod-Stacey. The Metal Products Division, which manufactures stainless steel household sinks, is also progressing."

"Buensod-Stacey is providing Aeronca with a substantial foothold in commercial nondefense business," Mr. Lawlor continued. As a result of the merger, Aeronca's aggregate commercial sales report better than of its projected total in 1960 and 1961.—V. 191, p. 1429.

American Brake Shoe Co.—Annual Report—

American Brake Shoe Co.—Annual Report—

The company's operations during 1959 were marked by significant expansion in overseas activities and by higher shipments and earnings than in 1958, according to the company's 1959 annual report.

In his letter to shareholders, Kempton Dunn, President, notes that Brake Shoe broadened its foreign operations with the establishment of subsidiaries and affiliates in Europe and Brazil. Brakeshoe International, S.A., a wholly-owned subsidiary, was established in Switzerland to coordinate European activities for the company and has already established or acquired manufacturing and sales facilities for industrial hydraulics, aircraft hydraulics, and automotive brake lining. A steel forging company was established in Brazil in partnership with two other firms and is already in production of forgings for Brazil's growing automotive and construction industries.

In the United States, Brake Shoe acquired Raymond Atchley, Inc., a West Coast manufacturer of electro-hydraulic servovalves and automation components. The company also brought to near-completion a \$1-million facility for research in hydraulics.

Brake Shoe's shipments for 1959 rose to \$168,028,632, an increase of 22% above 1958. Net earnings were \$7,681,383, an increase of 61% above the 1958 figure of \$4,777,738.

Net earnings per share of common stock outstanding for 1959 were \$4.72, compared with \$2.97 for 1958.—V. 191, p. 501.

American Broadcasting-Paramount Theatres, Inc.—Net

Estimated net operating earnings of this corporation for the first quarter of 1960 were the highest in the history of the company and increased 44% over the like quarter of 1959.

First quarter earnings were \$3,336,000 or 80 cents a share compared with \$2,313,000 or 54 cents a share in the 1959 first quarter. In his report to stockholders, Mr. Goldenson said the increase in earnings reflected primarily the improvement for the ABC broadcasting division. Overall results of other operations, including theatres, were also ahead, he reported.—V. 191, p. 1429.

American Defense Line Inc.—Shows Loss

In its annual statement released on April 19 American Defense Line announced a loss of \$25,748 from operations for 1959. The loss was based on a total volume of business of \$987,066 and compares with the previous year's loss of \$74,473 on a volume of \$637,046. President J. C. Sklaire, in announcing the loss, pointed out that the company's volume was up more than 50% and that the loss had been reduced by an even greater percentage. American Defense Line started operations early in 1958 as a charter carrier between East Coast ports and the Caribbean. It now operates a regular service.

service.

President Sklaire predicted a better year in 1960, based on the line's experience and aggressiveness, its solidified position in the industry, and the inevitable economic expansion in the West Indies. The line had a total of 73 sailings in 1959 and utilized 13 different vessels. In the current year it plans to originate more sailings from New York and Miami, where it has principal offices. The line now has 44 agents in major U. S. cities and foreign ports.—V. 180, p. 2185.

American Petrofina, Inc.—Annual Report—

Record sales, reduced expenses and improved operating techniques accounted for a substantial increase in 1959 net income, Harry A. Jackson, President, stated in the company's annual report. Net income increased from \$126,000 in 1958 to \$1,016,000, or approximately 15 cents per share on 6,976,571 shares outstanding in 1959.

The report shows the integrated oil company's gross operating income at a new high of \$76,848,000 in 1959, compared with \$70,901, 000 in 1958, an 8.4% increase.

American Petrofina continued its marketing expansion program during the year by adding some 400 retail outlets including 160 newly constructed modern stations, which increased the total now marketing the Fina brand to more than 1,700 outlets, located in 13 Mid-Continent and Southwestern states. The company at year-end owned or held under long-term leases 380 stations, representing 21.5% of its total outlets. Motor fuel sales were up 16% over the previous year, compared with the over-all industry increase of 4.3%.

More than 90% of total gasoline sales were under the company's trademark, Fina, the report said.

Andros Utilities Corp., Ltd.-Land Project-

Plans for the "world's largest privately financed land development program" were announced by this corporation on April 20.

The company has an exclusive agreement with the British Crown for the development of 800,000 acres on Andros, the largest of the Bahama Islands. The area under agreement is larger than the State of Rhode Island.

of Rhode Island.

The development plans were outlined by L. Jackson Sheffield, President, which has spent a quarter of a million dollars for exploration and engineering surveys during the past two years. He said that this year the company will construct an airport and harbor facilities, a hotel and a model community of homes, as well as utilities.

By 1965, he stated, the company's investment in the development is expected to be more than \$30 million.

The planned development program, Mr. Sheffield said, presented builders, hotel operators and others "an unparalleled opportunity to capitalize on the still largely untapped vacation and home retirement potential of the Bahamas."

potential of the Banamas."

In addition to its investment in utilities and other services, he said that his company, to encourage others in the development of hotels, marinas, cooperative apartments and other facilities, is prepared to invest up to \$500,000 per project in certain cases.

Babcock & Wilcox Co.-Ships Reactor Vessel-

Babcock & Wilcox Co.—Ships Meactor vessel—
A 230-ton nuclear reactor vessel was shipped on April 24 from an ecompany's Barberton works to Buchanan, N. Y., where it will be erected as the key component in the New York City's area's first tomic-electric generating station.

Towering 35 feet and measuring more than 12 feet across, the lant steel vessel was made for the Consolidated Edison Co. of New York, which is building the 275,000 kilowatt atomic power plant in the Hudson River at Indian Point, 24 miles north of New York with.

City.

The vessel and the 36-ton "head" which will seal it at the top, occupy separate flatcars aboard a special Erie Railroad train. Traveling during daylight hours only, the train is expected to complete the first leg of its journey—500 miles to Jersey City, N. J.,—in about five days. The vessel's width prohibits the passage of rail traffic on adjacent tracks, and the train will be sidetracked when necessary to permit maintenance of regular Erie schedules.

At Jersey City, the vessel and its head will be placed aboard a river barge by the "Monarch," reputed to be the world's largest floating crane, for its journey upriver to Buchanan and the Indian Point site. There, the crane will be utilized again to swing the cargoes

Corporate and Municipal Financing Ahead

By SIDNEY BROWN

The corporate calendar of visible public offerings with set target dates in the next four weeks edged up slightly but municipals declined—compared to last week's four week estimate. This week's scheduled financing (May 2-6) of corporates shows a dollar volume for stocks a bit over twice as large as bonds, and the month's picture indicates stocks will seek more funds than bonds by the amount of about \$34 million.

FIRST QUARTER'S OFFERINGS

FIRST QUARTER'S OFFERINGS

The total of corporate offerings sold publicly and placed privately during the first quarter of 1960 came to \$2,255,000,000. This is \$56 million less than the first quarter's total in 1959. The monthly breakdown for 1960 (in millions) is: January, \$671.8; February, \$770.2; and March, \$813. From April 1-27 approximately \$151.5 million in stocks and \$351.6 million in bonds were sold—or a total of \$503.1 million. The comparable month last year for total corporates offered was \$868.8 million. At this date it looks as though April, 1960 may mark a downturn. This does not mean, however, that capital spending will follow suit. In fact, according to the latest McGraw-Hill check-up of their last Fall's survey, planned investment will be 16% higher than last year. Last Fall's findings had only indicated a 10% increase and the Department of Commerce-SEC mid-March survey predicted a 14% gain.

Commerce-SEC mid-March survey predicted a 14% gain.

No indication was given to change earlier estimates that resort to external funds will be any larger this year. In view of the sizable increase in corporate working capital which, according to the SEC, was \$119.7 billion Dec. 31, 1958 and \$128.8 billion at the end of 1959, it is doubtful much in the way of going to the market will be done to finance expenditures. The McGraw-Hill's Department of Economics, directed by Dexter M. Keezer, stresses that retained earnings will be the strong prop for planned capital investment. Dr. Keezer notes that manufacturing capacity may be increased 5% this year. He further notes that two-thirds of this year's expenditures by manufacturing firms will be for modernization.

The dip in municipal offerings suggests at most a moderately heavy calendar for this time of the year. There are some large proposals waiting around for a period of lower costs. Investors, of course, are not too happy with any upward change in price. The following data summarizes the amount of capital that corporate and municipal issues may tap the market for in the next four weeks. The figures are obtained from private and public sources, and details regarding these issues are contained in the Monday and Thursday issues of the *Chronicle*.

When the Con Edison nuclear electric generating station goes into operation in 1961, it will be capable of supplying the home electrical needs of a million people in the New York City-Westchester area. Of its total output of 275,000 kilowatts, 163,000 kilowatts will be provided by the atomic power plant, and 112,000 kilowatts by two oil-fired superheaters. Its Babcock & Wilcox pressurized water thorium converter reactor will be the first American reactor to make use of thorium as the fertile material for supplementing the base fuel, highly enriched U-235.

Con Edison was the first utility to announce it would build a nuclear electrical generating plant entirely with private funds. The company holds Power Reactor Construction Permit No. 1, the first one authorized by the AEC under the atomic Energy Act of 1954.—V. 191, p. 1002.

Dennis, et al, filed a registration statement with the SEC on April 27, 1960, seeking registration of voting trust certificates representing 823,604 shares of common stock of Baltimore Paint, & Chemical Corp., 2325 Annapolis Ave., Baltimore, Md. The Trustees under a Voting Trust Agreement, in addition to Mr. Dennis, are John A. Luetkeneyer, Richard B. Schneider, Albert A. Shuger and Julius O. Shuger. The latter two are Board Chairman and Vice-President, respectively, of the company.—V. 191, p. 502.

Barber-Greene Co.-Merger-

Barber-Greene Co.—Merger—

This company of Aurora, Ill., and Smith Engineering Works, Milwaukee, Wis., announced the approval of a proposed merger by the Boards of Directors of the two companies on April 19. The proposed merger is based on an exchange of common stock—six shares of Barber-Greene for each share of Smith Engineering Works.

Barber-Greene is a manufacturer of asphalt mixing, paving, ditching, and materials handling equipment. The Telsmith line of products, including crushing and screening equipment, manufactured by Smith Engineering Works, is known throughout the world in the aggregate producing, construction, mining, and industrial fields.

The two companies have been closely associated for many years. Their products are closely allied and are frequently found in the same installations.

Barber-Greene reported sales of \$31,487,417 and net earnings of \$1,142,793 for the year ended Aug. 31, 1959. Smith Engineering Works reported sales of \$6,541,322 and net earnings of \$321,138 for the year ended Sept. 30, 1959.

Under the proposed plan, the merged company will operate under the name of Barber-Greene Co., under its present officers, with the addition of Gerald L. Smith and Donald D. Barnes as Vice-Presidents and members of the Board of Directors. Smith Engineering Works will operate, under its present management, as a Division of Barber-Greene Executive Vice-President of the Smith Engineering Works Division.

Of its one million authorized shares, Barber-Greene currently has

will become Executive Vice-President of the Smith Engineering Works Division.

Of its one million authorized shares, Barber-Greene currently has 725,000 shares outstanding. Barber-Greene will issue 179,700 additional shares, which will be exchanged for the total 29,950 outstanding shares of Smith Engineering Works.

Special meetings of the shareholders of the two companies have been called to yofe on the proposed merger, which is planned to become effective May 31, 1960.

Barber-Greene products are manufactured in the United States at the main plant in Aurora and in the DeKalb, Ill., plant. Their products are also manufactured by Barber-Greene Canada Ltd., Ontario; Barber-Greene Olc'ing & Co. Ltd., Hatfield, England; Barber-Greene do Brasil, Sao Paulo and Barber-Greene Australia, Sydney, C & S Products, Detroit, Michigan, a Barber-Greene affiliate, manufactures and sells special machines to the foundry field.

Telsmith products are manufactured at the main plant of the Smith Engineering Works, Milwaukee, Wis., and also manufactured in England, France, South Africa and Australia.—V. 191, p. 98.

Bendix Aviation Corp.—Navy Contract—

A \$21-million contract for continued development and evaluation of the Eagle missile system has been awarded to the Detroit corporation, according to a Navy announcement.

Eagle will be a long-range, air-to-air, high performance guided missile "for destroying any enemy aircraft or aerodynamic guided missile expected in the foreseeable future," the Navy announcement said. It will be designed to attack enemy targets at all operating altitudes, at greatly increased ranges and under all tactical conditions.

attitudes, at greatly increased ranges and under all tactical conditions. In the Eagle system, high performance will be built into the missile rather than the launching aircraft. This philosophy permits design of a highly efficient launching aircraft with increased endurance, fire power and versatility, the Navy said. It also makes possible the development of an airborne weapon system that is complementary to and compatible with surface-to-air guided missiles.

The \$21-million contract is in addition to the research and development contract previously awarded Bendix. Principal subcontractors associated with Bendix in the Eagle program are Grumann Aircraft Engineering Corp., Bethpage, L. I., N. Y.; Sanders Associates, Nashus, N. H.; Litton Industries, Beverly Hills, Calif.; and the Air Arm division of the Westinghouse Corp., Baltimore, Md. In addition to Bendix Systems Division of Ann Arbor, Mich., as prime contractor, two other divisions of Bendix are working on the Eagle project. They are the Research Laboratories division, Detroit, which will develop electronic guidance equipment; and the Bendix Pacific Division, North Hollywood, Calif., which will design and produce subsystems and perform missile assembly and tests.—V. 191, p. 1002.

Bowser, Inc.—Earnings—

Bowser, Inc.—Earnings—

Bowser, Inc., on April 20 reported net income including special items of \$410,709 for the fiscal year ended Dec. 31, 1959.

In the annual report to shareholders, Paul E. Ganz, Executive Vice-President and Chief Executive Officer, said earnings had increased from \$224,766 in 1958, and the book value per common share had increased by 35 cents to \$7.28.

Mr. Ganz said Bowser's total sales were \$35,582,651, second highest in the irim's 75-year history, and up from the \$31,126,250 figure reported a year earlier.

He wrote in the report that non-recurring special items in 1959 included both positive and negative factors. Among these he-cited a profit on the sale by Johnson Fare Box Co., a subsidiary, of its Electrofile Division; and the write-off of \$228,000 in inventories made necessary by bringing out an advanced new product line. The report showed operating profits for 1959 to be \$376,141.

He specified that the Gudeman Co., a subsidiary, had closed its Chelsea, Mich., plant, and consolidated two California plants under one roof. In 1959, Bowser discontinued operations of its Incineration Division, and by April 30, 1960, will terminate its Airport Fueling Systems, Inc., operation.

Sale of another losing subsidiary now is in negotiation, he wrote, and arrangements are being made to sublet the company's executive offices in Chicago, where staff already has been reduced.

Mr. Ganz said, "All product lines and every manufacturing facility are being carefully analyzed by local plant managers. We will concentrate on making and selling those lines which promise sound, stable profits, and will produce them onny in our more economical manufacturing plants to make certain that our prices will be competitive."

He also said that the company is now current in income tax mat-

petitive."

He also said that the company is now current in income tax matters, as a result of a favorable court decision, and with "the outlook for continued improvement in earnings, Bowser now is in a position to consider the problem of arrearages on preferred shares" in accordance with a unanimous board of directors decision on March 14.

British American Oil Co.-1959 Net Up-

British American Oil Co.—1959 Net Up—

This company's consolidated net earnings for 1959 amounted to \$25,602,000, or \$1.25 per share, an improvement of 24.8% over the \$20,518,000, or \$1.95 per share, earned in 1958, E. D. Loughney stated in the company's annual report on March 26.

The company's 1959 net crude oil and condensate production in Canada and the U. S. totaled 22 million barrels, approximately the same as the 1958 volume. Net gas production rose sharply from 34 to 59 billion cubic feet, an increase of nearly 75%. The volume of crude oil processed by the company's refineries again set a record for an increase of over 18% from 38.3 million to 45.2 million barrels. B-A's sales of refined products rose to 1.5 billion gallons, an increase of 4% over 1958.

In Western Canada, E-A participated in the completion of 119 gross development wells during the year, of which 101 were oil wells, nine were gas wells and nine were dry holes; 41 gross exploratory wells resulted in 10 discoveries, five each of oil and gas. At the year-end Eritish American had 951 net wells capable of production in Western Canada, of which 882 were oil wells and 69 were gas wells. The company held 14.9 million acres of non-producing property under lease or reservation, compared to 14.1 million acres at the end of 1958.

A highlight of operations in the U. S. during 1959 was the successful completion of three wells in the Gulf of Mexico, which produced from multiple oil and gas zones. At the year-end, B-A owned 812 net wells in the U. S. capable of production and held leases or options on 2.6 million net non-producing acres.

A record high of 138 million barrels of crude oil and products were transported by the company during the year.—V. 191, p. 99.

British Industries Corp.—Earnings-

This Port Washington, N. Y., corporation, for the year ended Dec. 31, 1959, reported net sales of \$7,581,422 as compared with \$8,232,-313 during the previous year.

After provision for Federal income taxes, net income amounted to \$508,168, equal to \$1.40 per share.

This compares with net income of \$532,399 or \$1.46 per share adjusted to the shares outstanding at the close of 1959.—V. 190, p. 2239.

B. T. L. Corp.—Seeks Exemption—

B. T. L. Corp., New York, has applied to the SEC for an order under the Investment Company Act declaring it to be engaged primarily in a business other than that of an investment company; and the Commission has issued an order giving interested persons until May 6, 1960, to request a hearing thereon.

B. T. L., formerly known as Butler Brothers, was until recently engaged in the distribution of general merchandise. In February, 1960, it is sold to City Products Corp. all of its business, assets and properties as a going concern, including the right to use the name "Butler Brothers." The sales price consisted of about \$35,000,000 in cash and \$14,000,000 of subordinated installment notes of the purchaser.—V. 191, p. 1107.

Buckeye Steel Castings Co .- Annual Meeting-

Buckeye Steel Castings Co.—Annual Meeting—
The following action was taken at the annual shareholders meeting of the company held on March 22, 1960. The present board of directors was re-elected. The second amended articles of incorporation were adopted which provide that the company now has authorized but one class of stock, no par common, the total amount being 500,000 shares (215,973 shares are at present outstanding).

At the meeting of the board of directors held this same day, Mr. Frank H. Bonnet was elected chairman of the board. Mr. Russell C. O'Kane was elected president and general manager. Mr. William W. Heimberger was elected vice-president, and Mr. George T. Johnson, Jr. was elected vice-president. Mr. W. J. Bennett was elected secretary, and Mr. Lewis I. Day was elected Treasurer.

A dividend of 25 cents per share was declared on the common stock payable May 1, 1960, to shareholders of record at the close of business April 21, 1960.—V. 190, p. 1291.

Buffalo Forge Co .- Reports-

The company and its subsidiaries report for the quarter ended Feb. 29, 1960, a net profit of \$220,983 after provision for U. S. Federal and Canadian income taxes, equal to 34 cents per share on the 649,572 shares of common stock currently outstanding. This compared with a net profit of \$195,296 or 30 cents per share for the quarter ended Feb. 28, 1959, on the same number of outstanding shares.

Profit before tax provision totaled \$470,502 for the 1960 first quarter, as against \$424,182 for the comparable 1959 quarter. The company's fiscal year ends Nov. 30.

william R. Heath, President, stated that incoming orders for the first four months of the fiscal year ran 19% higher than the same period a year ago, and that current backlog is approximately 35% higher than a year ago. Mr. Heath indicated that this improvement is reflected in nearly all the company's lines and, although some delivery dates will extend beyond the current fiscal year, he anticipated continued improvement in shipments and earnings during 1960.

(J. C.) Carter Co.-Acquires-

Acquisition of all the outstanding capital stock of the W. M. Lanagan. Co., Inc., by the J. C. Carter Co., Costa Mesa, Calif., was announced by M. D. Kilmer, President of the new Carter subsidiary. The Lanagan firm, manufacturers' of missile and airframe components, solenoid and check valves, and hydraulic units, will be physically incorporated into the Carter facility effective May 1, 1960. An additional 10,000 square feet of administrative and engineering space to accommodate the purchase and other expansion requirements has recently been completed.

According to Kilmer, the acquisition will permit a broadening of the Lanagan product line by making Carter engineering, development, and production facilities available to Lanagan. Development is now under way to expand Lanagan's present line of solenoid and check valves which are presently being used for pneumatics, fuels and oxidizers (including cryogenics) to include those fluids being contemplated by the military, such as UDMH, Hydrazine, and Nitrogen Tetroxide.

Cerro de Pasco Corp.-Annual Report-

Cerro de Pasco Corp.—Annual Report—
During the decade 1949-59, the corporation increased sales from \$29 million a year to \$158 million a year, and raised total assets from \$58 million in 1949 to \$246 million in 1959. The figures were in a special section of Cerro's 1959 annual report. Cerro produces nonferrous metals in Peru and fabricates them into mill products in the United States.

The report also confirmed previously released but unaudited figures relating to 1959 operations. Last year Cerro's consolidated net income rose by 76% over 1958—from \$5,156,763 or \$2,28 a share before depletion to \$9,091,586 or \$3.65 a share.

Consolidated sales reached a record high of \$158,375,630 in 1959—approximately 53% over the 1958 total of \$103,600,034.

During the 1950's average annual profit before depletion for Cerro was three times greater than the average for the prior decade. Cerro's assets within the United States increased during the decade and now nearly equal those abroad. Working capital rose from \$22 million in 1949 to \$80 million at the end of 1959.

In the report Robert P. Koenig, President, stated: "The increase

in 1949 to \$80 million at the end of 1959.

In the report Robert P. Koenig, President, stated: "The increase in sales in 1959 reflected the new activities of the corporation for nime months of the year as well as the improvements in the price structure for nonferrous metals which began in the second half of 1958." Cerro's new activities included acquisition of the assets and business of Consolidated Coppermines Corp. and its subsidiaries Titan Metal Manufacturing Co. and Rockbestos Products Corp. The acquisition was financed by the exchange of 201,333 shares of Cerro common stock, \$26,311,700 of debentures, and a cash adjustment of \$50,333. In addition to the physical assets and business of Titan and Rockbestos, Cerro acquired approximately \$23,000,000 in cash and marketable securities.

Significant changes in the nature of Cerro's business duving the

marketable securities. Significant changes in the nature of Cerro's business during the 1950's are reflected in the comparative division of the sales dollar. In 1949, copper accounted for 26% of consolidated sales, lead 42% and silver and gold 19%. In 1959, by contrast, raw copper accounted for 10%, lead 8%, silver and gold 7%, while various fabricated products, principally copper and brass rod, tube, and copper wire and cable accounted for 61%.

cable accounted for 61%.

In his letter to Cerro de Pasco's 11,413 shareholders of record, Mr. Koenig reported that "the financial condition of your corporation at the end of 1959 was the strongest yet reported with net current assets amounting to \$80,086,074 an increase of \$27,950,492 during the year. The volume of production and sales of the five fabricating divisions and subsidiaries in the United States increased over the preceding year, though in copper water tube, brass rod and aluminum sheet the profit margins continued to be unsatisfactory."

Commonwealth Oil Refining Co. Inc.—Shows Loss—
This Ponce, Puerto Rico, company has announced that operating difficulties and shutdowns in the first quarter of 1960 produced lower sales than in 1959 and resulted in a net loss for the period. Sales in the March quarter, including proceeds from a business interruption claim, totaled \$13,426,336, as compared with sales of \$15,649,979 in the 1959 first quarter. A net loss of \$330,521 was sustained in the current three months as against a net profit of \$234,589 in the 1959 period. The 1959 first quarter net income figure was restated in the company's 1959 annual report to reflect receipt of insurance credits.

Roy J. Diwoky, President, noted that, as scheduled, plant number One was shut down on Jan. 15, 1960. The crude unit, he said, recommended operation on Feb. 25, 1960 and has since operated satisfactorily. However, Mr. Diwoky stated, numerous mechanical and operating difficulties delayed the start-up of this plant's catalytic cracking unit until April 11.—V. 191, p. 383.

Consolidated Paper Corp. Ltd.-Earnings-

During the first nine months of 1959, newsprint shipments lagged behind those of the previous year. However, under the impetus of a steady increase in North American newsprint consumption, total shipments of Consolidated Paper Corporation Ltd. for the year ended Dec. 31, 1959 amounted to 708,000 tons representing an increase of 24,000 tons over 1958.

24,000 tons over 1958.

Total sales before exchange loss amounted to \$100,082,282 compared with \$95,846,215 in 1956. Net earnings were \$13,086,774 or \$2.55 per share of capital stock as against \$12.574,534 or \$2.45 per share in 1958. Exchange loss in 1959 was \$3,026,536 compared with \$2,253,987 in 1958 and \$3,204,202 in 1957. Provision for depreciation and depletion was \$4,067,922 as compared with \$4,534,417 and provision for income taxes \$13,275,000 agains \$11,525,000. The 3% increase in the Federal income tax, effective for the year 1959, reduced earnings by \$782,000 which is equal to 15½ cents per share.

higher than in 1958.

The rising newsprint demand, which in the fourth quarter of 1959 brought consumption to record levels, is continuing with the wave of prosperity predicted in North America for 1960. The newsprint industry is meeting the increasing demand with the reserve capacity added since the last peak in 1956. Consolidated is in excellent position with ample capacity already installed and paid for to supply the increased demand of its customers and potential customers.

The outlook for kraft paper and pulp, cardboard, lumber and other products is equally promising.

controlled by Billy J. Huntley and Roger L. Murrel, officers of the company.

The company was organized in February, 1960 for the purpose of acquiring urban and rural real estate for development and investment. The business will involve the acquisition of large plantations, ranches and farms for the purpose of dividing them into two or more similar such operations, as well as other real property undertakings, including residential sub-division developments. Proceeds from the sale of the stock will be used to establish a \$250,000 revolving fund for initial and intermediate financing of the construction of custom or prefabricated type residential or commercial buildings and facilities upon properties to be acquired for sub-division, and shopping center developments. The balance of the proceeds will be added to working capital and used for future acquisition and development of real property.

The company now has outstanding 495,000 shares of common stock which were acquired by 19 stockholders at 10 cents per share. Management officials, including James E. Stevenson, Jr., President, own 350,000 shares.

Continental Copper & Steel Industries, Inc.—Net Up-

Continental Copper & Steel Industries, Inc.—Net Up—Net carnings of this corporation for the nine months ending on March 31 rose 21% while sales increased 13% over the same period a year ago. Net income was \$1,134,374 compared with \$937,257, equal to 55 cents per common share after preferred dividends, as against 45 cents in fiscal 1959. Sales rose to \$43,235,644 from \$38,313,850.

M. S. Gordon, President, said the gains were registered in spite of sharply reduced earnings of CCS' Hatfield Wire & Cable Division caused by the copper strike, unsatisfactory wire prices, adverse weather which has delayed building starts, and by reduced earnings of the Welin Davit and Beat Division caused by the continuing shipyard strike in the plants of some of Welin's most important customers.

On April 11, commercial production began at a new rubber insulated wire and cable plant at Linden, N. J. Test runs at the new rod mill will begin in September with full production anticipated by the end of the year.—V. 191, p. 900.

Continental Electric Co.-Name Change-

Stockholders of Continental Electric Co. have voted to change the ompany name to Cetron Electronic Corp., it was announced on

April 19, 1960.

H. A. McIlvaine, Chairman, said the new corporate name more closely identifies the company's business—the manufacture of electronic tubes for industrial, military and commercial use, many of which are sold under the "Cetron" brand name.

The Geneva, Ill. headquartered company is principally engaged in the engineering, development, manufacture and sale of industrial electronic tubes. Included among its products are photo electric tubes, lead sulphide tubes, vacuum gauges, power tubes, thyratrons and rectifiers.—V. 191, p. 795.

Controls Co. of America-Announces Merger

Controls Co. of America—Announces Merger—Controls Company of America on April 26 announced that its subsidiary, Solid State Electronic Controls, Inc., has been merged into the parent company and will operate as the Electron Division.

Louis Putze, Controls Company President, said the new Electron Division will continue the development and manufacture of semi-conductor devices—silicon solar converters, rectifiers and diodes—with particular emphasis on instrument and controls applications. The possible utilization of these devices in Controls Co. of America products prompted the closer organizational setup.

The Electron Division is located at Tempe, Ariz. (near Phoenix) in a newly completed plant with research and development facilities.

Dr. Friedrich W. Schwarz continues as general manager of the new division. Dr. Schwarz, an outstanding authority in the solid state physics field, has been a pioneer in the development and production of these devices for industry and in missile research both in Germany and the United States.

Controls Company manufactures controls systems for the aircraft, guided missile, computer, electronic, vending, air conditioning, automotive, refrigeration, heating and appliance industries.—V. 191, p. 100.

Cooperative Trading, Inc., Waukegan, Ill.-Files With Securities and Exchange Commission-

Cooper-Jarrett, Inc.—Purchases Terminal—

Cooper-Jarrett, Inc.—Purchases Terminal—
Acquisition by Cooper-Jarrett, Inc., motor common carriers, of a 20-dock terminal in Wallingford, Conn., was announced on April 22 by Robert E. Cooper, Jr., Chairman.
The terminal building covers 14,000 square feet and stands on five acres. It is located one mile away from Connecticut's new Route 91 Throughway which will join the Connecticut Turnpike. Other adjacent road building has been projected. The property was bought for \$185,000 from private interests. There is no mortgage on it. Since 1958, Cooper-Jarrett had leased a portion of the structure to service cities such as Hartford, New Haven, Norwalk, Meriden and Bridgeport.

1958, Cooper-Jarrett had leased a portion of the structure to service cities such as Hartford, New Haven, Norwalk, Meriden and Bridgeport.

Mr. Cooper also announced that gross income for March of \$1,454,134 was the second largest in the company's history. It showed an increase of 10%, or \$133,804 over March, 1959's \$1,320,000. Likewise, the gross for the quarter of \$4,050,467 set an all time record for this period. It was \$255,945, or 6½% over the \$3,794,522 registered in 1959's opening months.

But excessive storms during the period bit into net profits. The quarterly net income after taxes of \$80,652 amounted to approximately 14 cents per share on the 588,531 shares now outstanding since a 2% stock dividend paid March 30. Last year's per share earnings for the first three months were \$123,100, or 21 cents per share. Net income after taxes in the current March was \$39,757, as opposed to \$51,699 a year ago. Mr. Cooper said;

"We see no reason at this time to readjust our predictions of as 18 million year and \$1.60 per share earnings. The volume of business is excellent, with marked improvement in both tonnage and truck and tractor miles operated, over last year, which in itself showed almost five times the net of 1958.

"The heavy barrage of snow storms temporarily disrupted our estimates and burdened operating expenses, but if the general economy continues good, we will rapidly overcome this setback.

"Applications now pending before the I. C. C. for the acquisition of Atlantic Freight Lines, Inc. and of Nielson Bros. Cartage Co., the purchase of the Wallingford terminal, plus satisfactory cost-saving operations with double-bottoms between Chicago and Warren, Ohlo are bound to be reflected in future earnings."

Cooper-Jarrett's operating ratio for March was 93.4 and for the quarter, 95. Last year, the March ratio was 89.9 and the quarter, 92.4.

Gooper-Jarrett, first motor carrier to be listed on a national (American) stock exchange, has paid dividends continuously since 1947. It operates in 15 states, and by interchange, from coast to coast. Its terminals are in Kansas City, Chicago, Cleveland, Philadelphia, Trenton, Jersey City and Willingford, Conn.—V. 191, p. 700.

He also announced that an'application has been filed for listing the company's common stock on the American Stock Exchange.

Sales of General Gas reached an all-time high of 101,133,000 gallons during 1959, up more than 9% over the come any's 1958 record sales. Mr. Phillips said major improvements were achieved in the company's

distribution totalling 37,-

industrial LP-Gas market last year with distribution totalling 37,-378,000 gallons compared to 30,265,000 in 1958.

In a statement preliminary to distribution of the company's 1959 annual report, Mr. Phillips said that General Gas "completed the groundwork and made its initial move toward vertical integration" during the year. He explained:

groundwork and made its initial move toward vertical integration" during the year. He explained:

"This was accomplished through purchase of controlling interest in Texas Petro Gas Co. of Houston, a producer and marketeer of natural gas liquids. Through that acquisition, General Gas for the first time in its quarter-century of business actually is producing a part of its customers' LP-Gas requirements."

Mr. Phillips said that "present demand for the air-activated dry cargo transports designed and built by one division of Delta Tank Manufacturing Co., Inc., a wholly-owned General Gas substituty, is greatly increased over 1959."

Reporting that Delta Tank's Oilfield Equipment Division completed developmental work and began regular production of its "Dryex Gasoline Plant" during 1959, Mr. Phillips said that "petroleum industry interest in this patented equipment is presently at a high level and the outlook is favorable for an increased rate of sales of these units in the years immediately shead."

The "Dryex Gasoline Plant," an extension of the "Dryex" Unit developed by Delta Tank two years earlier, recovers both raw gasoline Plants" and "Dryex" Units were placed in field service during the year by leading oil companies.—V. 190, p. 358.

General Industrial Enterprises Inc. Order Legach

General Industrial Enterprises, Inc.—Order Issued-

The SEC has issued an exemption order under the Investment Company Act with respect to the relationship of Baldwin Securities Corp., New York investment company, with General Industrial Enterprises. Incorporated.

New York investment company, with General Industrial Enterprises. Incorporated.

Baldwin owns 67% of the stock of GIE and has owned a majority interest in that company since prior to 1932. GIE became an investment company after its assets were sold in December 1955. In a suit pending in the U. S. District Court in Wilmington it was claimed that Baldwin had acquired more than the permitted interest in said investment company. Since at this time it is claimed that it would be financially inadvisable to sever the relationship of the two companies due to certain considerations, a settlement of the suit has been agreed to by the parties which requires Baldwin to apply for an exemption order.

The period of the exemption granted by the Commission will depend upon the operation of the tax carry forward provisions of the Internal Revenue Code of 1954 as applied to both companies; and the exemption is conditioned upon an offer by GIE to all holders of its common stock other than Baldwin, to purchase such stock at \$20.50 per share, or at a price equal to 85% of the average net asset value of each shere, whichever shall be higher, but in no event at a price exceeding \$2.25 per share.—V. 190, p. 2240.

Hammond Organ Co.-Earnings-

Hammond Organ Company sales for the year ended March 31, 1960 were about 35% above the prior fiscal year and set an all-time high. John A. Volkober, Secretary, told the Cleveland Society of Security Analysts at a luncheon meeting held on April 14 in the Mid-Day Club.

Security Analysts at a luncheon meeting held on April 14 in the Mid-Day Club.

Billings totalled \$35,800,000, against \$26,497,000 in the previous year, Mr. Volkober said. The prior high was \$27,915,000, established in the year ended March 31, 1958.

Mr. Volkober told the analysts that earnings in the fourth quarter ended March 31 wil be better than had been anticipated. He said that, as a result, fiscal year earnings in excess of \$6,000,000 were now in dicated, as compared with the \$5,750,000 forecast in January.

This would be in excess of \$4 a share, as compared with \$2.85 in the prior year and \$3.26 in the year ended March 31, 1957, the best previous year, he stated.

The official declared that dealers not only have enjoyed excellent retail sales but have increased inventories to support the higher level of sales.

He said that factory sales continue excellent throughout the entire line of Hammond organs, with shipments of all models running well ahead of last year.

Details of a new credit program, first of its kind in the organ susiness, were revealed by Mr. Volkober. Under the plan Hammond dealers, through arrangement with Commercial Credit Corp., now can finance 100% of their purchases from the factory with no initial equity, he said.

The program also permits dealers to write retail contracts with as little as \$25 down for any model and to discount the contracts with Commercial Credit at the full face amount, he added.

can finance 100% of their purchases from the factory with no limits equity, he said.

The program also permits dealers to write retail contracts with as little as \$25 down for any model and to discount the contracts with Commercial Credit at the full face amount, he added. Hammond instruments range in price from \$895 to approximately \$4,000 retail.

"The new plan makes it much easier for dealers to maintain adequate inventories." Mr. Volkober said, "and at the retail level gives them an edge over competition. It is exclusive in the organ business."

Mr. Volkober told the society that the company is devoting increasing attention to European markets. He stated that a sales director for Europe, with headquarters in London, has been appointed and added that this is a new position. Also, the company has been advertising in Europe since last autumn, he disclosed.

Kroehler Manufacturing Co.-Annual Report-

This company, with headquarters in Naperville, Ill., had consolidated net sales of \$80,880,945, and income after taxes of \$1,815,044, or \$1.75 per share of common stock, for the calendar year ended Dec. 31, 1959. This compares with consolidated net sales of \$81,773,723 and income after taxes amounting to \$1,405,389, or \$1.35 per share of common stock for 1958.

During 1959, the wholly owned Kentucky subsidiary, Kroehler Mig. o of Kentucky, with its plant at Louisville, was liquidated into the arent company. The deficit accumulated by the Kentucky sub-

sidiary from the date of its incorporation in 1956 to the date of liquidation, reduced the parent company's income subject to taxes.

Lane Bryant, Inc.-Annual Report-

Lane Bryant, Inc. has issued its Annual Report to shareholders for ne 12 month period ending Jan. 31, 1960. In his message to share-olders Raphael B. Malsin, company President, reported that during nat period sales, profits, and financial souncness all surpassed previ-is achievements.

ous achievements.

"Our volume of sales last year was 5.5% higher than the priory year," Mr. Malsin said. "For the two years sales were respectively \$76,754,182 and \$72,780,693."

Profits per share rose 29 cents from \$2.71 to \$3.00. Total net profit was \$2,536,221 on \$44,059 snares presently outstanding as compared to last year's profit of \$2,285,790. Last year's profit had been reported as \$2.98 a share on the 767,966 shares then outstanding prior to the 10% stock dividend paid in May, 1959.

Mr. Malsin stated that about one-half of the increase in sales was developed by the company's new stores. Lane Bryant's long range policy, he indicated, will be to continue to seek to open new stores for its various divisions as locations become available.—V. 191, p. 1774,

Ling-Altec Electronics, Inc.—Expansion-

Ling-Altec Electronics, Inc.—Expansion—

This corporation on April 19 announced a \$500,000 plant expansion and remodeling program for one of its Dallas subsidiaries, Continental Electronics Manufacturing Co., which will start within 30 days. Additional plans also are now being prepared to increase by 70,000 to 100,000 square feet Continental's production lacilities at a cost of up to \$1,00,000.

James J. Ling, Chairman of the board of Ling-Altec, and James O. Weldon, Continental President, said that the completion of the \$1,000,000 program will coincide with the production requirements of developmental contracts now in progress for the defense program. The \$500,000 project is scheduled for Continental's principal Dallas facility (at 4212 South Buckner Boulevard). New construction will include approximately 17,000 square feet in a two-story structure for executive and general offices, and engineering facilities, increasing the total for these purposes to nearly 30,000 square feet.

Mr. Ling said the expansion at Continental is in line with the projected increase in Ling-Altec sales to approximately \$75 million in 1960. This reflects an increase of about 56% over sales of \$48 million for 1959.

Lock Joint Pipe Co.-Annual Report-

Lock Joint Pipe Co.—Annual Report—

This domestic producer of prestressed concrete pressure pipe on March 21 reported an increase of 9% in net income for 1959 and predicted increased sales and earnings in 1960.

Net income for the 12 months ended Dec. 31, 1959, totalled \$2,962,-400 or \$1.69 per share on 1,753,602 shares outstanding in 1959, compared with net income of \$2,726,359 or \$1.58 per share on 1,723,572 shares outstanding in 1958.

In the annual report, Allan M. Hirsh, Jr., Lock Joint's Fresident, ascribed the increased earnings to improved profit margins as a result of the company's \$24,003,000 capital improvement program undertaken during the last 10 years and to continual efforts to control costs.

Total revenues declined slightly to \$41,739,284 in 1959 from \$42,-607,518 in 1958 which Lock Joint attributed to a "combination of factors which prevented contractors from accepting scheduled deliveries of pipe." Reflecting these circumstances, backlog at year-end was 14% higher than in 1958.

Mr. Hirsh told stockholders, "Financially, your company has never

higher than in 1958.

Mr. Hirsh told stockholders, "Financially, your company has never been stronger" with working capital alone of more than \$21,003,000 representing a 5 to 1 ratio."

In 1960 Lock Joint anticipates increased sales and earnings, increasingly improved profit margins, some "attractive" foreign business, and a further expansion of research and development activities. A new "Research Center" at Wharton, N. J., is scheduled for completion in January 1961. new "Research Ce in January, 1961.

During the past year Lock Joint acquired two sewer and culvert pipe manufacturing plants in Florida and is now in the process of building a third plant there. Two important foreign projects were completed; one for a strategic water supply pipe line in Southern Peru, and the other for a new water transmission line for the city of Winnipeg, Canada.—V. 189, p. 1574.

Long Island Lighting Co.-Net-Forecast-

Long Island Lighting Co.—Net—Forecast—

Common stock dividends now at \$1.40 level and carnings at \$2.08, increased revenue, new construction in 1960 to meet greater demands for electricity and gas, and continued expansion in population, building and industry on Long Island, was the bright picture Errol W. Doebler, Chairman of the Board of the company, painted for LILCO's share-owners attending the electric and gas utility's annual meeting held in Hicksville, Long Island, on April 19.

Mr. Doebler stated, "Earnings have been good. The first quarter results show earnings of \$2.08 per share for the 12 months ended March 31, 1960. Based on these first quarter results and on our budget estimates for the remaining three quarters, income for the year 1960 should be around \$2.15 per share. At the March 1960 meeting the board of directors again increased the dividend by 10 cents per share to the present level of \$1.40. This is certainly a satisfactory advance from 60 cents per share paid in 1951, less than 10 years ago," he added.

"Earnings per share, on LILCO common stock for 1959, reached

advance from 60 cents per share paid in 1951, less than 10 years ago," he added.

"Earnings per share, on LIL-O common stock for 1959, reached \$2 04 a share. Electric revenue was \$102 million — \$10 million over 1958, and gas revenue at \$23,434,000, was more than \$4 million over the previous year.

"It is now hard to believe," he told the shareowners, "that in 1949, only 10 years ago, our electric revenue was only \$26 million. The increase in our gas revenue wes almost as dramatic, going from \$14 million in 1949 to \$33 million last year. With our total revenue above \$136 million, we have moved up in national standing and are now the 19th largest utility company in the United States."

Turning to LILCO's construction program the chairman told the shareowners, "Last year we spent \$46 million for construction. This just slightly above the amount we invested in 1958 for new property and equipment. It is riso higher than the average of the past 10 years. Expenditures in 1960," he estimated, "will be somewhat higher—about \$48 million. The largest single item, \$8 million, is for the completion of the fourth generating unit at our Port Jefferson Plant." He reported that the total cost of the generating unit would be about \$27½ million. "Big as it is," he continued, "it will supply our growth in power requirements only until 1962. Looking back to 1946 this one unit of 185,000 filowat capability would have comfortably provided power for our entire system. Now it represents about 15% of our total capability. Expenditures for transmission and distribution facilities in 1960 will be over \$18 million. \$11 million will be invested in LILCO's expanding gas business and \$4½ million in common plant facilities."—V. 191, p. 1324.

\$2,465,000 of limited partnership interests.

Associates is a limited partnership consisting of Herbert R. Weissberg, as General Partner and Nathan P. Baker and Herbert R. Weissberg as original limited partners. It was formed for the purpose of
acquiring, for investment, the fee title to the Lord Baltimore Hotel
in Baltimore, Md. The General Partner has contracted to purchase the
hotel property, land and fixtures for \$7,150,000, payable \$2,350,000 in
cash and the balance by delivery to the seller of a purchase money
first mortgage in the amount of \$4,800,000. The partnership does not
intend to operate the hotel but will lease the hotel to Lord Baltimore
Hotel, Inc., whose stock is owned by Weissberg, at an annual net rent
of \$700,000 plus additional rent of 50% of the lessee's net profits.

The General Partner has contributed \$75,000 in cash to the partnership and Baker \$10,000. The General Partner has deposited \$150,
000 on the purchase contract, of which \$75,000 has been assigned for
the \$75,000 partnership interest. The partnership has agreed to reimburse the General Partner for the remaining \$75,000. In addition,
the General Partner contributed the purchase contract for which he
received \$250,000 in partnership interests.

Mallinckrodt Nuclear Corp.-Plant Addition-

This commercial processor of uranium fuels is adding 3,200 square feet to its nuclear fuels research facility at the Hematite, Mo., plant and building a new atomic fuels warehouse to replace the space taken ever by the growing research and development activities.

This third expansion since the plant was built in 1956 brings total space to two and one-half times the original, or 40,000 square feet, devoted exclusively to commercial production of atomic fuels for research reactors, critical facilities, power reactors and process heat reactors.

reactors.

The Hematite plant, when commercial operation began in 1956, contained 15,000 square feet of area. 1957 saw 5,000 square feet added, and 1958 another 13,000 square feet. In 1959 plans for the present expansion were drawn end finalized, and as 1960 gets under way, so does the third expansion. Due to the nature of uranium and its specialized handling, processing and shipping problems, this plant is probably one of the mosi unusual to be found anywhere. For example, the new warehouse containing approximately 80,000 cubic feet utilizes only about 15% of this for actual uranium fuel storage. The remaining 85% is alsle and "air" space. Yet this is the first known commercial warehouse especially designed to permit multiple layer storage of uranium filled shipping containers and thereby utilize maximum possible space.—V. 191, p. 507.

Missile Components Corp.—Common Stock Offered—Mortimer B. Burnside & Co., Inc., of New York City, on April 12 publicly offered 60,000 shares of Missile Components Corp. common stock (par 10 cents) at \$3 per share. Of the shares offered, 48,000 shares were offered for the company's account and 12,000 shares for the underwriters account. the underwriters account.

BUSINESS—The company was organized under the laws of New York on Dec. 19, 1957 under the name Precision Boring Co., Inc. Shortly after its incorporation, it acquired all of the assets and assumed all of the liabilities of a partnership of the same name formed Nov. 19, 1956. Messrs. Frank C. Uri and Joseph Lanfranchi each received 10 shares of the common stock of the company in exchange for their partnership interests. Its present name was adopted in January, 1960.

standing capital stock.

The company's principal business consists of the precision machining of metal components, principally for the manufacturers of electronic and missile components and subcomponents, and the subsassembly of such components. These components are used for the most part in missile guidance and fuel pump systems and in tracking devices. Because most of its work is performed to customers' specifications on material furnished by customers, it does not need to maintain raw material inventories. Precision control is of the essence of its work, and tolerances of .0001 of an inch are not uncommon. Precision machining requires such special machinery and control of tolerances that many companies, lacking both the specialized equipment and the technical ability to perform it themselves, seek the services of the company.

Modern Die & Tool Corp.—Quarterly Report—

This firm, which was acquired by U. S. Systems, Inc. last Jan. 1, ported first quarter sales gains of 33%, according to Herschel C.

reported first quarter sales gains of 33%, according to Herschel C. Smith, President.

Smith, President.

Smith attributed Modern's substantial increase and impressive backlog to stepped-up efficiency controls, the addition of four engineering salesmen and expanded facilities including the addition of a new engineering department, headed by Walter Grey, which is adjacent to plant headquarters, 5901 Avalon Blvd., Los Angeles.

In addition, he said, Modern has completed "the only temperature-controlled room for precision gauge and tool construction in the Southwest." Total air-conditioned space is now 7,000 square feet.

As an important move in engineering personnel, Heinz Kleinke, former service manager and design engineer for Schwartzkopff-West Berlin, manufacturers of programming of jig boring tools, rolling mill and printing equipment, has been added to staff, Kleinke will head design and engineering instruction on program jig borers.

Among Principal customers of Modern Die & Tool Corp. are AiResearch, Aerojet, Convair, Consolidated Electrodynamics, Firestone, Gilfillan, General Electric, Lockheed, Librascope, Rohr and Rocketdyne.—V. 191, p. 202.

Monsanto Chemical Co. (& Subs.)—Sales Up, Net Down

Monsanto Chemical Co. (& Subs.)—Sales Up, Net Down
The St. Louis company's combined sales for the first quarter of
1960 amounted to \$212,114,000 compared to \$197,842,000 for the same
period in 1959. Combined sales include those of the parent company,
its domestic and foreign subsidiaries and one-half of the sales of the
50%-owned associated companies.

Net income from such sales was \$16,131,000, a decrease of 3%
from earnings of \$16,615,000 for the first quarter of 1959. The 1960
earnings were equivalent to 70 cents a common share on 23,170,315
shares outstanding. On the same basis, earnings for 1959's first
quarter amounted to 72 cents a share on 23,156,857 shares.

Beginning this year, Monsanto's certified reports to shareowners
will be on the combined basis in the belief that this method better
portrays the total interest of Monsanto shareowners. An additional
change involves the reserve for income taxes, which Monsanto formerly
provided in the statistical presentation, to cover taxes which would
have been payable had its full share of earnings of subsidiary and
50%-owned companies been received by the parent company as
dividends. Since the undistributed earnings of these companies have
been retained to finance growth, such a tax reserve will not be
required under normal circumstances. Henceforth, taxes will be
provided only for actual dividends received.

The income for 1959 has been restated accordingly to provide comparability with the current year. On the revised basis, net income
for 1959 was \$63,981,000, equivalent to \$2.76 a common share, instead
of \$61,654,000 and \$2.66 a share as previously reported.—V. 191, p. 903.

Moon Equipment Co.—Formed—

The Cincinnati Branch of Yale Materials Handling Division, Yale & Towne Manufacturing Co., has been purchased by the newly-formed Moon Equipment Co. according to a joint announcement by Harold E. Moon, President of the new company, and Louis W. Jander, Yale general sales manager.

Moon Equipment Co. will maintain headquarters at 9880 Springfield Pike as the franchised representative for Yale industrial lift trucks and tractor shovels in Southwestern Ohio and Northern Kentucky, Mr. Moon, former manager of the Cincinnati Branch, said.

Nafi Corp. - Capital Stock Offered -- Shields & Co headed an underwriting group which offered for public sale on April 26, 200,000 shares of the corporation's capital stock priced at \$37.125 per share. The issue was oversubscribed.

PROCEEDS—The company proposes to use the proceeds from the sale of the 200,000 shares to pay a short-term bank loan of \$6,000,000 incurred in connection with the acquisition of Chris Craft and add the balance to general funds.

BUSINESS—The company for many years has specialized in the production of special fibres and fabrics used in connection with interior upholstering of automobiles. More recently it has been engaged in a program of diversification which involved the acquisition of oil and gas properties, television and radio stations and Chris Craft Corp., world's largest builder of motor boats.

EARNINGS—Nafi and consolidated subsidiaries reported revenues of \$23,354,720 and net earnings of \$1,048,619, equal to \$1.06 per share on the outstanding capital stock in 1959. Chris Craft earnings for the six month period ended Feb. 29, 1960, amounted to \$1,209,207, compared with \$561,938 for the comparable period last year.

National Aeronautical Corp.—Exchange Offer—

National Aeronautical Corp.—Exchange Offer—
This corporation, located in Fort Washington Industrial Park, Fort Washington, Pa., filed a regiscration statement with the SEC on April 22 covering 143,225 shares of common stock, to be offered in exchange for outstanding shares of common stock of Air-Shields, Inc., at the rate of 2.9 shares of National for one share of Air-Shields. Inc., at the rate of 2.9 shares of National for one share of Air-Shields of the outstanding shares of Air-Shields accept the offer; and the company reserves the right to withdraw the offer if holders of less than 100% accept. If the acquisition of Air-Shields by National is not consummated by the exchange of shares, Air-Shields will seek stockholders' approval of a statutory merger.

According to the prospectus, National seeks to acquire the stock of Air-Shields in order to promote its own corporate growth and to diversify its operations. National expects to operate Air-Shields as a separate division, but to supply additional capital which Air-Shields needs to finance the development of new business. It is also expected that the application of National's "know-how" in certain areas of electronic engineering will solve several new product design problems and result in a material expansion of the business of Air-Shields.

A. Rufus Applegarth, Jr., Vice-President, owns 93,502 shares (11.10%). If all shares of Air-Shields are exchanged the two officers will own 14.61% and 9.49%, respectively, of the then outstanding shares. Management officials of National now own or control an aggregate of 48.72% of the outstanding National stock; and this will be increased to 50.73% if all shares of Air-Shields are exchanged.—V. 191, p. 606.

National Can Corp.—Sales Up—News

National Can Corp.—Sales Up—News—

The Chicago corporation reported sales for 1959 of \$101,817,786, a slight increase over 1958 sales of \$100,698,161. Net income declined to \$328,783 from \$53,754 in 1958. The competitive pricing policy of the industry, which reduced profit margins beginning in late 1958, carried through the entire year of 1959, according to the company.

"In order to reduce Federal income taxes," President Wharton said, "we adopted the LIFO (last-in, first-out) method of inventory valuation on the major portion of our inventories. Earnings were adversely affected by this change in accounting practice, as it resulted in a reduction of \$436,000 in the amount at which inventories are stated at Dec. 31, 1959, thereby reducing the provision for Federal income taxes \$227,000 and stated net earnings by \$209,000."

The financial position of the company shows continued improvement, Wharton said, with working capital at Dec. 31, 1959, of \$41,885,485, representing an increase of \$1,757,519 over the preceding year-end, year 1959 and depreciation amounted to \$3,024,770. There were no bank loans outstanding at the end of the year.

A 6% stock dividend was declared by the directors payable Dec. 21, 1959, to the shareholders of record on Nov. 30, 1959. This is the fifth consecutive year that a stock dividend was paid, it was said. The company began construction of three new plants during the year, all of which will be in operation for the 1960 canning season, Wharton said. These plants are located at Hanover, Pennsylvania; Vancouver, Washington; and Yakima, Washington. These new plants were established in conformity with the policy adopted in 1958, whereby plants will be located close to large existing and potential customers in areas of concentrated demand.

"A substantial increase in sales is anticipated in 1960," according to Wharton. "A portion of these increased sales will memante from our three new plants and the balance from existing facilities. We believe that expected improvement in plant operating ef

New York Water Service Corp.—Annual Report-

New York Water Service Corp.—Annual Report—
Consolidated net income of New York Water Service Corp. and subsidiaries (including non-utility income) amounted to \$773,301, or 42 cents per share in 1958, Richard L. Rosenthal, President, announced in the corporation's annual report. Shareholders were also advised that during 1959 the corporation's funds held for "qualifying reinvestments," acquisitions, reserve for contingencies, including taxes, and other corporate purposes were augmented by realized capital gains of \$719,797, or 28 cents per share after taxes.

Mr. Rosenthal stated the comparison of actual revenues for 1959 and 1958 was distorted by the fact the corporation's former Rochester property was owned and operated throughout the calendar year 1958, but revenues from this source were secured for only two months and four days in 1959. On a comparative basis, for the five utility properties now operated, water revenues for 1959 increased \$289,324, or 11.3%, over the revenues of the same properties for 1958.

The report noted that less than \$8,300 of these higher revenues were attributable to rate increases, since the New York Public Service Commission had approved effective Nov. 2, 1959 only \$53,500 of annual revenue increases out of the \$525,000 for which the corporation was being appealed to the Appellate Division of the Supreme Court of the State of New York.

Mr. Rosenthal reported that at March 1, 1960, the funds aggregated \$29,255,000 at cost and \$31,490,000 valued at market for those commitments for which ready markets existed. Of this total, approximately \$6,419,000 at cost was accounted for by shares of New York Water Service common stock owned by its subsidiaries and \$8,769,000 in other marketable investments. The unrealized capital gains in these two categories amounted to \$2,362,000 at that date. In addition, the funds included \$8,633,000 at cost in U. S. Government notes and municipal notes and bonds and \$5,434,000 in private commitments. From the inception of temporary employment of the bulk

Norwich Pharmacal Co.-Record Sales-Net-

The Norwich company had record sales—Net—
The Norwich company had record sales and earnings in the 1960 first quarter, setting a new high for the 13th consecutive year, George W. Bengert, President, told stockholders at the annual meeting on April 28.

Net sales reached \$10.804,710, an 18% increase over the \$9,193,721 reported for the first quarter of 1959.

Net Income for the first three months totaled \$1,286,953, a gain of 21% over the \$1,062,778, as adjusted in the comparable 1959 period. The latest quarter's earnings were equal to 34 cents per share on the common shares outstanding at the end of the period. In the first quarter of 1959 per share net income was equal to 28 cents per share on the shares then outstanding, as adjusted for a 2-for-1 stock split in December, 1959.—V. 191, p. 607.

Nu-Era Corp.—Stock Sold—Mortimer B. Burnside & Co., Inc., of New York City, on April 14 publicly offered 237,500 shares of Nu-Era Corp. common stock (no par) at \$3.75 per share. 37,500 shares of the total were offered for Mr. Burnside's account. PROCEEDS—Of the proceeds received, it is contemplated that the first \$175,000 will be used to pay the obligations to the company's former gear manufacturer, and the next \$150,000 for increased inventories of gears and mufflers. The terms of the SBA loan require that payment of the \$33,000 of debenture notes be deferred until after payment of the SBA loan, in full, and place limits on expenditures for machinery and equipment in any fiscal year of \$15,000. It is the company's intention to request permission under the SBA Loan Agreement to pay the \$33,000 of debenture notes at their stated maturity date. July 31, 1960. Any balance of the proceeds will be devoted to general corporate purposes, including working capital requirements occasioned by resumption of manufacture of gears, reduction of loans secured by accounts receivable and to the extent permitted under the SBA loan purchase of equipment for expansion of the company's product lines. No allocation thereof to particular purposes has, as yet, been made.

BUSINESS—Nu-Fra Corp, was incorporated under the laws of the State of Michigan on June 8, 1959. Its executive offices and principal place of business are located at 342 South Street, Rochester, Mich.

The company was formed by Phillip S, Chapnick and his wife, Sally Chapnick, to succeed to the business of Nu-Era Gear Cb. (a Michigan corporation formed June 7, 1956) in which they had the sole interest. The company is, and after the offering will be, controlled by Mr. and Mrs. Chapnick, who are both officers and directors of the company. The predecessors of the company had been conducting a business of "anter-market" since 1945, and had entered the business of selling automotive mufflers and tail pipes, also for the "after-market," in 1956.—

Nuclear Materials & Equipment Corp.—Common Stock Offered—Moore, Leenard & Lynch and Associates on April 20 publicly offered 40,820 shares of Nuclear Materials & Equipment Corp. common stock (no par) at a price of \$24,50 per share. The company is simultaneously offering 4,980 additional shares of common stock to its warrant holders at a price of \$22.78 per share (payable only by cancellation of an equivalent principal amount of the company's 5% subordinated debentures due June 15, 1974).

June 15, 1974).

PROCEEDS—The net cash proceeds to the company (approximately \$895,300) from the sale of the shares of company stock offered to the public will be used principally to pay for the equipment and production facilities necessary for the completion of the company's expansion program. The major items of such equipment and production facilities are of a unique nature, to be specially developed and engineered for the company's needs, and, accordingly, the cost thereof cannot be precisely determined in advance. However, the company estimates that not more than \$700,000 will be required for the completion of such equipment and facilities.

The balance, if any, of such proceeds will be added to the company's working capital and may be used to repay all or part of the \$109,457 aggregate principal amount of the company's 5%-6% notes due 1960-64 which were issued to finance the purchase of machinery and equipment.

OFFER TO WARRANT HOLDERS—The company has outstanding

which were issued to finance the purchase of machinery and equipment. OFFER TO WARRANT HOLDERS—The company has outstanding 4,980 warrants each of which entitles, the holder thereof until June 15, 1969 to purchase one share of common stock of the company at \$25 payable in cash or by cancellation of \$25 principal amount of the company's 5% subordinated debentures due June 15, 1974. The company hereby offers each warrant holder one share of common stock for each warrant held, at \$22.78 per share, payable only by surrender to the company, for cancellation, or an equal principal amount of debentures; provided, however, that a warrant holder accept this offer es to all (but not less than all) warrants registered in his name and deliver them, accompanied by debentures for cancellation or for notation thereon of partial prepayment, to the company's office, Warren Avenue, Apollo, Pa, before the close of business on April 30. Warrant holders who accept this offer will be paid interest accrued to and including April 20 on the principal amount of debentures prepaid. Warrants as to which this offer is accepted will not be reissued, and the company proposes not to issue any additional warrants.

BUSINESS—The company was formed at the end of 1956 by Dr. Zalman M. Shapiro, Dr. Frederick Forscher and Dr. Leonard P. Pepkowitz, all of whom had had substantial prior experience in the nuclear energy field, primarily in connection with the Atomic Energy Commission's Naval Reactors Program, During most of 1957 the

company's principal activities were establishing its plant in Apollo, Pa., obtaining necessary Atomic Energy Commission licenses, preparing initial sales proposals, and other non-revenue-producing activities. From September, 1957 to April, 1953 the company's business consisted primarily of furnishing analytical and consulting services and producing uranium compounds on a limited, pilot-plant scale. In the spring of 1958 the company began the production-scale conversion of enriched uranium hexafluoride gas, obtained from the Atomic Energy Commission, into uranium-bearing nuclear fuel materials. Also at that time the company began developing techniques for pressing and sintering uranium compounds. Quantity production employing such techniques began in the fourth quarter of 1958.

Certain licenses from the Atomic Energy Commission are required for the company's operations in the nuclear field. The company's sales have increased; in the last calendar quarter of 1959 sales were approximately \$280,000. The company's operations did not show a profit until 1959. As of April 1, 1960 the company's backlog of orders texclusive of the Atomic Energy Commission research and development contracts) was approximately \$750,000.—V. 191, p. 1009.

Olin Mathieson Chemical Corp.—Record Sales—
This corporation announced last week record first quarter sales and a 33½% increase in net earnings for the first quarter of 1960 compared with the same period in 1959.

In the report to shareholders, Thomas S. Nichols, Chairman, and Stanley de J. Osborne, President, announced that net earnings for the first three months of 1960 were \$8,567,000, or 64 cents per share. This compared with \$6,395,000, or 48 cents per share in the first quarter a year ago.

First quarter sales totaled \$163,132,000, a 2% increase over the first quarter record set in 1959 when sales totaled \$159,909,000.

Aluminum operations continued to improve, the report stated. Losses from aluminum, which were a substantial drain on profits throughout 1959, were reduced to four cents per share during the quarter despite the unsatisfactory market conditions which prevailed throughout the industry.

Demand for Squibb products substantially increased sales and profits for the division during the quarter.

Improved demand for kraft paper products and continued strong demand for the corporation's cellophane, fine printing papers and cigarette papers accounted for higher sales by the Packaging Division.

Sales of the Energy Division also improved substantially.

Principal new products introduced during the quarter were Squibb Chemipen (a new systhetic penicillin) and the Winchester Model 59 shotgun with a unique barrel made of glass. A product of Winchester-Western research, the new-barrel is made by fusing and bonding 500 miles of glass fiber around a thin steel tube, providing the shooter with a barrel of greater strength and lighter weight on a faster handling shotgun.

The report to shareholders also announced that the \$35,000,000 development program for the Chemicals Division was well underway.

with a barrel of greater steingth and natter weight on a baseline than ding shotgun.

The report to shareholders also announced that the \$35,000,000 development program for the Chemicals Division was well underway. Facilities were completed at the Doe Run, Ky., organic chemicals plant for production of ethylene dichloride, glycol ethers and several new surfactants. The propylene oxide-ethylene oxide unit is scheduled to come on stream at the end of April and the propylene glycol unit at the end of May.

The new \$8,000,000 synthetic urea plant constructed by SunOlin Chemical Co. at North Claymont, Del., began operations at the end of February. SunOlin is jointly owned by Olin Mathieson and Sun Oil Co. Olin Mathieson will market the plant's annual output of 73,000 tons.—V. 191, p. 1115.

Parker Petroleum Co. Inc.—SEC Opposes Plan-

Parker Petroleum Co. Inc.—SEC Opposes Plan—

The Securities and Exchange Commission on April 26 filed objections to certain amendments to the court-approved plan for reorganization of Parker Petroleum Co. Inc., Debtor in corporate reorganization proceedings pursuant to Chapter X of the Bankruptcy Act pending in the U. S. District Court, Oklahoma City, Okla. The Commission also moved to vacate the court order approving the amendments, which was entered on April 11, 1960, without prior notice to the parties.

The reorganization plan had been approved by the Court on Feb. 26, 1960, over the Commission's objections that it was unfair and inequitable in its treatment of preferred and common shareholders and that it was not feasible. The amendments approved on April 11 had been proposed by the trustee and a major creditor of the Debtor.

In its objections filed, the Commission urges that the amendments to the plan materially and adversely affect the interests of creditors and all stockholders. It is contended by the Commission that the amendments "raise serious questions as to the feasibility" of the reorganization plan, since the increase of the initial payment of cash to creditors would leave the reorganized company with a deficit with which to commence operations.

The Commission also urges that the amendments are detrimental to shareholders in that borrowing power of the reorganized company is severely limited and the events of default on the new debentures are made more stringent. In addition, it requests the Court to refer the amendments to the plan to the Commission for a further advisory report on the fairness and feasibility of the plan, as amended, and to submit the amendments to a vote of all creditors and stockholders, accompanied by the Commission's supplemental report.—V. 191, p. 1264.

competitive bidding, \$12,000,000 of first mortgage bonds, series due May 1, 1990. Proceeds of the sule of the bonds and stock will be used by the subsidiary to finance, in part, its 1960 construction program estimated to cost \$32,000,000.—V. 191, p. 1264.

Pepsi-Cola Co.-Annual Report-

Pepsi-Cola had the highest sales and earnings in its history in 59. Herbert L. Barnet, President, disclosed March 29 in the annual

report.
Earnings, after provision for taxes and foreign activities in 1959
were \$13,873,843, a 20% increase over \$11,547,954 after taxes, as

Earnings, after provision for taxes and foreign activities in 1959 were \$13,873,843, a 20% increase over \$11,547,954 after taxes, as reported in 1958.

The 1959 net income is equal to \$2.17 per share on 6,384,415 shares outstanding companed with \$1.88 per share on 6,138,755 shares in 1958. In addition, the company held in reserve and did not include as earnings for 1959 or 1958 certain income of foreign subsidiaries which in years prior to 1958 it had been the custom to report as earnings. Provision for this reserve in 1958 amounted to \$791,693 or 13 cents per share on stock outstanding at the end of 1958.

Provision for this reserve in 1959 amounted to \$1,490,517 or another 23 cents per share on stock outstanding at the end of 1959.

Had this amount for 1959 been reported as earnings, the earnings per share on capital stock in 1959 would therefore have been \$2.40 per share instead of the \$2.17 per share as reported under the present policy.

Net sales rose 15% to a record \$157,769,109 compared with the previous company high of \$136,819,847, as reported in 1958.

Mr. Barnet stated that 1959 marked the tenth consecutive year of "Fepsi's" uninterrupted growth. In those 10 years beginning with 1950 both at home and overseas reported case sales were the highest in history, growing at a rate which exceeded that of the industry as a whole. They were 182% ahead of 1950 when present management was instituted and 188% ahead of 1949.

"Pepsi's" growth has been such that case sales in December of 1959 were greater than those of the traditional peak sales months of July and August for 1954.

Though population growth is always important, over the past decade. United States population growth was only 15% in the face of the company's sales advances of 182%.

"It is clear therefore," said Mr. Barnet, "that our growth has been bighest per capitas in their history; 70 of them sold more than one million cases each, compared with 62 who did so in 1958, and 13 in 1950," the Pepsi-Cola executive declared.—V. 191, p. 46.

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday and the Saturday figures are not available at time of going to press. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete rsults of the previous week—the week ended April 23. For that week there was an incrase of 6.6%, the aggregate clearings for the whole country, having amounted to \$26,539,554,237 against \$24,892,878,684 in the same week in 1959. Outside of this city there was a gain of 7.3%, the bank clearings at this center showing an increase of 5.9%. We group the cities according to the Federal Reserve Districts in which they are located and from this we note that in the New York Reserve District the totals show an improvement of 6.0%, in the Boston Reserve District of 5.0% and in the Philadelphia Reserve District of 18.8%. In the Cleveland Reserve District the totals are larger by 0.6%, in the Richmond Reserve District by 9.5% and in the Atlanta Reserve District by 8.4%. The Chicago Reserve District has to its credit a gain of 20.1%, the St. Louis Reserve District of 5.0% and the Minneapolis Reserve District of 0.7%. In the Kansas City Reserve District the totals record a decrease of 3.9% and in the Dallas Reserve District of 4.8% but in the San Francisco Reserve District the totals register an increase of 5.2%.

In the following we furnish a summary by Federal Reserve Districts:

Condition Statement of Member Banks

The condition statement of weekly reporting member banks of the Federal Reserve System in leading cities shows the following principal changes for the week ended April 20, 1960: Increases of \$616 million in loans adjusted, \$1,683 million in holdings of U. S. Government securities, and \$1,483 million in U. S. Government deposits, and an increase of \$1,147 million in demand deposits adjusted.

Commercial and industrial loans increased in nine districts for a total increase of \$12 million. Loans to brokers and dealers and loans to others for purchasing or carrying U.S. Government and other securities increased \$436 million. Loans to nonbank financial institutions increased \$95 million. Other loans increased \$60 million.

Treasury bills increased \$521 million and the combined total of Treasury notes and U. S. Government bonds increased \$1,147 million, largely reflecting the new Treasury financing.

Borrowings of weekly reporting member banks from Federal Reserve Banks decreased \$46 million and borrowings from others decreased \$135 million. Loans to domestic commercial banks decreased \$160 million.

Reinsurance Investment Corp.—Acquires Control—
A substantial stock interest in American Income Life Insurance Co—
constituting working control—has been acquired by the A. S. E.—
listed Reinsurance Investment Corp.
The transaction was jointly announced in New York on April 27
by the Presidents of the two companies—Clement R. McCormack for
Reinsurance Investment and Bernard Rapoport for American Income.
They said the acquisition was enabled by the purchase of a susbtantial block of American Income stock, at an undisclosed price, from
Harold L. Goodman, outgoing Board Chairman of the Indianapolisbased life company.
Otto Marx, Jr., Chairman of R. I. C., is expected to replace Mr.
Goodman on American Income's Board of Directors, with Mr. Rapoport continuing as President and a Director.
Other board nominees are Mr. McCormack, Lionel I. Pincus, John
S. Jemison, Jr., and Mark T. McKee—all directors of Reinsurance Investment Corp.
The purchase raises to approximately \$87 million the total insurance
in force of R. I. C.—held life companies. The firm holds a 51%
interest in Loyal American Life Insurance Co. of Mobile, which in
turn owns all of the stock of Hamilton Life Insurance Co. of New
York.

quire, finance and develop new and established life insurance companies.

R. I. C.'s latest acquisition was formed in 1954 by Mr. Rapoport and Mr. Goodman, and is licensed in 16 states throughout the midwest and parts of the south and northeast.

American Income's 1959 new business production totalled over \$18 million. The company's insurance in force amounts to about \$52 million, with net assets in excess of \$3.4 million.

Mr. McCormack also said that Reinsurance Investment Corp. is currently "negotiating seriously" for the acquisition of at least one other life insurance company.

A long-time specialist in insurance company securities, Mr. McCormack was elected President of R. I. C. earlier this year. Mr. Marx is partner of the New York Stock Exchange firm of Ladenberg, Thalmann & Co., investment bankers.—V. 190, p. 2085.

Revere Copper & Brass Inc .- Net Up-

Revere Copper & Brass Inc.—Net Up—

Net income for 1959 totaled \$10,066,185, equal to \$3.77 per share on the 2,668,950 shares of common stock outstanding, as compared with net income in 1958 of \$2.481,655 or 94 cents per share on the 2,627,306 shares then outstanding, James M. Kennedy, Chairman of the Board, and Charles A. Macfie, President, declared in the letter to stockholders appearing in Revere's annual report on March 24.

However, it was pointed out that the company's 1958 earnings reflected the nonrecurring loss of \$10,395,942, before taxes, on aluminum purchased from Ormet, the primary aluminum facility owned jointly by Revere and Olin Mathleson Chemical Corp. Eliminating that item, 1958 earnings would have equaled \$2.84 per share.

Sales for 1959 amounted to \$245,786,790, as compared with \$181,731,689 in 1958, an increase of \$64,055,101 or 35,27

Messrs. Kennedy and Macfie said that "another factor contributing to the sales increase was the inclusion in 1959 sales of a full year's prime aluminum shipments."—V. 189, p. 1577.

(R. J.) Reynolds Tobacco Co.-Sales, Net Up-

Sales and estimated earnings of the company for the three months ended March 31, 1960, were higher than for any previous first quarter period, F. G. Carter, Fresident, reported.

Sales were \$321,789,000, an increase of 12.2% over the \$286,868,000 sales for the first quarter of 1959. Estimated net earnings were \$23,320,000 compared with \$19,784,000 for the 1959 period, an increase of 17.9%.

of 17.9%.

After dividends on preferred stock, the estimated net earnings on the 20,000,000 shares of the company's common stock were \$1.15 a share as against 97 cents a share for the same period a year ago.

Camel, Winston, and Salem cigarettes all had increased sales volume for the first quarter as compared with the same quarter of last year.

Sola-Basic Products Ltd.—New Name—News—

Effective April 15, the name of Sola Electric (Canada) Ltd., a subsidiary of Basic Products Corp., Milwaukee, Wis., has been changed to Sola-Basic Products Ltd.

According to J. R. McGovern, Vice-President "the new name is in keeping with the company's program for growth and diversification, which includes the manufacture and sale, in Canada, of product lines now made by other Basic Products organizations elsewhere." Sola-Basic Products Ltd.'s plant is located at 377 Evans Ave., Township of Etobicoke, Toronto.

Immediate plans provide for the production and marketing of dry-type transformers, constant-current regulators, regulated power supplies and laboratory furnaces—products of another Basic Products affiliate, Hevi-Duty Electric Co., Milwaukee, Wis. This will supplement the present Sola line of products which include constant voitage transformers and fluorescent lighting ballasts.

Other units of Basic Products Corp. are Sola Electric Co., Chicago; Sola Electrica de Mexico, S. A., Mexico City; Anchor Manufacturing Co., Manchester, N. H.; Como-Cast Corp., Milwaukee; Froedtert Malt. Corp., Milwaukee; and Bauer-Schweitzer Malting Co., Inc., San Francisco.

Southern Electric Generating Co .- Registers Bonds-

Southern Electric Generating Co.—Registers Bonds—
This company, of 600 North 18th Street, Birmingham, Ala., filed a registration statement with the SEC on April 25, 1960, covering \$40,000,000 of first mortgage bonds, series of 1960 due 1992, to be offered for public sale at competitive bidding.
The company was organized in May, 1956, for the purpose of constructing and operating a large, modern steam-electric generating plant near the Alabama coal fields, transmission lines between the generating plant and the Alabama-Georgia State line and coal mines to supply fuel for the plant. All the common stock of the company is owned equally by Alabama Power Co. and Georgia Power Co., whose stock is, in turn, owned by Southern Co. A basic reason for the creation of Southern Electric was to make available to Alabama Power and Georgia Power the benefit of low cost fuel in a major steam plant capable of serving both companies. Southern Electric's construction program, including a four-unit generating station, three transmission lines and two coal mines is estimated to cost \$164,000,000, of which \$69,019,075 had been incurred prior to January 1, 1960. The net proceeds from the sale of the bonds, together with other financing, will be used in connection with this program.—V. 191, p. 1817.

BUSINESS—Taylor Devices, Inc. designs, develops and manufactures under a license agreement with its closely related affiliate, Tayco Developments, Inc., liquid compressibility devices consisting principally of liquid springs, liquid shooks absorbers, combinations liquid springs shock absorbers, and time delay spring shocks.

The company was incorporated in the State of New York on July 22, 1955. Its plant and offices are located at 188 Webster Street, North Tonawanda, New York, in the Buffalo, N. Y., area.—V. 191, p. 47.

Tenax, Inc.—Common Stock Offered—Tenax, Inc., a New York corporation, offered 150,000 shares of common stock (\$.10 par value) at \$4 per share, through Myron A. Lomasney & Co., underwriters, on April 27. This issue was oversubscribed and the books closed.

TUSINESS—Thera and the Books Closed.

FUSINESS—Tenax, Inc. and its 10 wholly owned subsidiaries operate an integrated business that sells freezers to the consumer, arranges for freezer-owner to be supplied, at his request, with foods by independent contractors and finances time payments by the purchaser of the freezer. From a single operation concentrated primarily in the New York City area, the company has grown without the acquisition of other concerns to a multiple operation that services certain metropolitan areas of New York, New Jersey, Connecticut, Pennsylvania and Delaware.

PROCEEDS—The proceeds are to be used for working capital and the charge of indebtedness.—V. 191, p. 949.

Texas Eastern Transmission Corp.—Partial Redempt'n

The corporation has called for redemption on June 1, next, through operation of the sinking fund, \$281,000 of its 6% debentures due June 1, 1977 at 100% plus accrued interest. Payment will be made at the office of Dillon, Read & Co., 48 Wall Street, New York 5, N. Y.—V. 191, p. 1712.

Texas Gulf Sulphur Co.-Acquires-

Texas Gulf Sulphur Co.—Acquires—

This Houston, Texas, company and Delhi-Taylor Oil Corp. announced on April 28 that they have signed an agreement whereby Texas Gulf will acquire and commercially develop Delhi-Taylor's Utah potash properties. Delhi-Taylor will retain a 25% net profits interest in the properties and will receive guaranteed advance net profit payments of \$4,500,000 over a four-and-one-half year period. A first payment of \$500,000 has been received by Delhi-Taylor. Texas Gulf Sulphur will have until Jan. 1, 1961 to complete an examination of the technical aspects of the project and it is assumed that commercial developments will begin upon completion of this work.

developments will begin upon completion of this work.

Delhi-Taylor began the exploration of its extensive southeastern

Utah potash properties in 1953 and has maintained a continuous
evaluation program since that time. As a result of this program, two
large potash reserve areas have been discovered and demonstrated
through core drilling. In particular, the Cane Creek Anticline Area
indicates a long-term, high-grade potash reserve that promises to
become a new major domestic source of this vital material.—V. 191,

Tracerlab Inc .- Annual Report

Tracerlab's annual report for 1959 indicated that the company had sustained a \$482,537 loss.

In commenting on the loss, Tracerlab President, S. S. Auchincloss, emphasized the fact that Tracerlab's new development expenditures for 1959 were \$635,820 or \$153,000 more than the reported loss, and when compared to 1958's loss and development expenditures indicates significant operating improvements. Mr. Auchincloss indicated that it was management's opinion that these large development expenditures should not be considered as "just another operating expense," but as an investment vital to the future of the company.

Also contained in the annual report was information on the many new products which Tracerlab introduced during 1959. Total sales for 1959 were 10.7 million, slightly in excess of 1958's total of 10.3 million. A record high year-end backlog of \$3.3 million was reported. Mr. Auchincloss stated, "Only the mechanics associated with phasing out old products, while simultaneously introducing new ones prevented the attainment of a higher volume of sales.—V. 191, p. 549.

Transworld Equipment Corp.—Stock Offered—Michael Fieldman, of New York City, on April 22 commenced the public offering of 139,832 shares of the corporation's common stock (par 10 cents) at \$2 per share.

BUSINESS—The corporation was formed on Nov. 25, 1955 under New York State law by Nathan J. Weiss as Durkopp Sewing Corp., for the purpose of distributing industrial sewing machines and conveyors manufactured by Durkoppwerke AG of Bielefeld, Germany. In May 1936, upon obtaining an exclusive distributorship in the United States and its Territories of the Durkoppwerke line, the name was changed to Durkopp Corp.

In 1958 Arnold M. Wolf, who had previous experience in the vacuum cleaner and conveyor industries, became associated with the corporation as a stockholder, director and officer.

During 1959 the corporation obtained additional American distributorships from other foreign manufacturers and the name thereupon was changed to Transworld Equipment Corp.

PROCEEDS—The net proceeds will be used for the following pur-

was changed to Transworld Equipment Corp.

PROCEEDS—The net proceeds will be used for the following purposes: (1) \$40,000 for purchase of industrial sewing machines; (2) \$25.000 for purchase of home sewing machines; 315,000 for purchase of electric motors: (3) \$40,000 for purchase of automobiles; (4) \$13,000 for purchase and promotion of champagne and wines; (5) \$50,000 for promotion and advertising; (6) \$10,900 for repayment of a note; and (7) \$10,322.30 for general corporate purposes.—V.

Tri-State Petroleum Corp.—Offering Suspended-

Tri-State Petroleum Corp.—Offering Suspended—
Tri-State Petroleum Corp.—Offering Suspended—
The Securities and Exchange Commission has issued an order temporarily suspending a Regulation A exemption from registration under the Securities Act of 1933 with respect to a public offering of stock by this corporation, 1403 G. Daniel Baldwin Building, Erie, Pa.
Regulation A provides a conditional exemption from registration for public offerings of securities not exceeding \$300,000 in amount. In a notification filed with the Commission on Nov. 12, 1959, Tri-State Petroleum proposed the public offering of 199,900 common shares at \$1.50 per share pursuant to such an exemption. The Commission's suspension order asserts that certain terms and conditions of Regulation A were not complied with by the company; that its offering circular is false and misleading by reason of its failure to disclose certain material facts; and that the stock offering would be and is being made in violation of Section 17 (the anti-fraud provision) of the Act. The order provides an opportunity for hearing, upon request, on the question whether the suspension should be vacated or made permanent. According to the Commission's order (i) a Regulation A exemption is not available for Tri-State Petroleum's stock offering because the aggregate offering price of its shares exceeds the \$300,000 limitation prescribed in the Regulation; (ii) the notification fails to disclose that Springifield Gas and Oil Company is a predecessor of the issuer and the issuence and sale of unregistered securities by a predecessor; and it in the company's offering circular fails to disclose royalty interests in the issuer's property held by counsel for the issuer and are predecessor, falls to disclose material transactions between the issuer and its officers, directors and promoters, and fails to disclose the relationship between the issuer and its affiliates and predecessor.—

The debentures are convertible into common stock at \$10 per lare to April 21, 1960, inclusive,—V. 191, p. 1369.

United States Lines Co. (& Subs.)—Forecast—
John M. Pranklin, President, has reported that the estimated consolidated net earnings of the company and its subsidiaries for the first quarter of 1960 amount to \$515,494 after provision for Federal income tax. The corresponding net earnings for the first quarter of 1959 were \$430,440. These totals have not been adjusted for any subsidy recapture.

of 1959 were \$430,440. These totals have not been adjusted for any subsidy recapture.

Under its operating-differential subsidy agreement, the company is entitled to earn over a ten-year period an average of 10% per annum of its capital necessarily employed, after Federal income tax. Thereafter the government recaptures one-half of all additional net earnings. The net earnings in the first quarter of each of the years 1959 and 1960 were less than 10% of capital necessarily employed during those periods; but in 1959 net earnings for preceding years had exceeded an average of 10% per annum and there was an available subsidy recapture reserve to bring the earnings for the first quarter to that average. This adjustment increased net earnings for that period to \$971,325. A ten-year recapture period ended Dec. 31, 1959 and consequently for the first quarter of 1960 there are not any accrued earnings in excess of the 10% available for the adjustment of the earnings for that period.

It is expected, however, that results in later months of 1960 will

earnings for that period.

It is expected, however, that results in later months of 1960 will be at rates exceeding 10% of capital necessarily employed. Subsidy recapture adjustments for 1960, calculated on the basis used in 1959, added to the net earnings estimate of \$515.494 given above, show total estimated earnings of \$1,072,724 for the first quarter of 1960.

After pro-rata provision for dividends on preferred stock, the adjusted net earnings amount respectively to 56 cents and 62 cents per share of common stock for the first quarters of 1959 and 1960.

—V. 191, p. 428.

United States Rubber Co.-Forecast-

United States Rubber Co. expects to enter the select circle of companies with sales of a billion dollars or more during 1960, John W. McGovern, President, told the annual meeting of stockholders on April 19.

Calling the business pessimism of the last few months unwarranted, Mr. McGovern forecast new records in both sales and earnings for his company this year. Sales, he said, should total more than a billion dollars for the first time in the company's history while earnings should reach a new record of between \$5.50 and \$6.00 a common

Sales for the first quarter of 1960 were approximately \$254 million, he told stockholders, compared with \$249 million in 1959. Earnings for the same period were about \$1.50 a share compared with \$1.55 a share last year.—V. 191, p. 950.

Utah Power & Light Co .- To Increase Capital-

The stockholders on May 16 will, consider: (a) increasing the authorized issue of 2.000,000 shares of capital stock of the company; (b) creating a class of cumulative preferred stock (par \$25); (c) granting to common stockholders limited pre-emptive rights with respect to said preferred stock.—V. 191, p. 1818.

Waltham Precision Instrument Co., Inc.-Acquisition

The company has signed an agreement to purchase the Boesch Manufacturing Co. of Danbury, Conn. This was disclosed by Louis R. Ripley, President, of Waltham, at the annual meeting of stockholders held on April 20. The acquisition, when completed, will add more than \$1,000,000 in sales for Waltham in 1960, Mr. Ripley said.

Mr. Ripley also announced the acquisition in February of this year of Electro-Mec Laboratory, Inc. of Long Island City, N. Y., which custom designs and manufactures a variety of high precision

pstentiometers.

Sales of Waltham in 1959 were 30% higher than the previous year, Mr. Ripley told the stockholders. An extension of this favorable trend is indicated by the fact that shipments for the first two months of 1960 were approximately \$800,000, Mr. Ripley said. The company's net profit last year was \$132,917.—V. 191, p. 1818.

Westinghouse Air Brake Co.—Sales, Net Up-

At the annual meeting of shareholders of Westinghouse Air Brake Company held last month, A. King McCord, President, announced results of operations for the first quarter of 1960. Consolidated sales of the company and its subsidiaries for the three months ended March 31, 1960, were \$46,757,163. This compares with consolidated sales of \$41,988,902 for the same period in 1959, or an increase of 11%.

\$41,988,902 for the same period in 1959, or an increase of 11%.

Earnings before income taxes amounted to \$3,902,273 compared with \$3,615,216 for the same period in 1959, an increase of 8%. Net income after income taxes was \$2,008,417, compared with \$1,985,814 for the first quarter of 1959.

Net income for the first three months of 1960 equalled 48c per share compared with 47c per share for the first quarter of 1959.

The number of shares outstanding at March 31, 1960, was 4,206,761 compared with 4,196,211 as of March 31, 1959.

The backlog of orders as of March 31, 1960, was \$79,800,000 compared with \$77,700,000 recorded a year ago.—V. 190, p. 1230.

Win-Chek Industries, Inc.—Registers With SEC-

This Moonachie N. J., firm filed a registration statement with the SEC on April 26, 1960, seeking registration of 150,000 shares of class A stock, to be offered for public sale at \$3 per share through a group of underwiters headed by Michael G. Kletz & Co. The underwriting commission will be 33c per share. In addition, Michael G. Kletz has purchased 12,500 shares of company stock at 10c per share from certain stockholders. The registration statement also includes 15,000 shares to be issued pursuant to a restricted stock option plan and 21,500 shares which are being registered but not offered.

The company was incorporated in 1956 and is engaged in manual

21,500 shares which are being registered but not offered.

The company was incorporated in 1956 and is engaged in manufacturing and distributing aluminum combination storm and screen windows, aluminum combination storm and screen doors, aluminum islausie windows and doors and aluminum clapboard siding. Of the proceeds from the sale of the stock, \$75,000 will be used to purchase additional aluminum siding inventory; \$50,000 to expand and develop the company's sales territories; \$75,000 to purchase additional van trucks, tractors and trailers and the balance or approximately \$168,500, to improve the company's working capital position.

The company has outstanding, in addition to certain indebtedness, 175,000 shares of class A stock and 450,000 shares of class B stock. The three officers of the company, Sam Rapoport, Board Chairman and Treasurer; A. Jesse Ivanhoe, President, and Herman Ivanhoe, Executive Vice-President and Secretary, own, equally, all the class B stock, which is convertible into class A. They also own 13.06% each of the class A stock.

Tillamook People's Utility District

(P.O. Tillamook), Ore.
Seeks to Acquire Public Utility Facilities — The District anity Facilities — The District announces it will seek a special election in August or September to submit to the voters a revenue bond issue sufficient to acquire Pacific Power and Light Company distribution properties in the distribution properties in the county at a price of \$3,915,000. Both utilities have agreed that the duplication of two competing electric systems, as it has developed in Tillamook County, is wasteful and should be ended. Under the power of eminent domain, the PUD is enabled to acquire by con-demnation of PP&L properties within its boundaries.

In an exchange of letters between Carl Rawe, president of the Tillamook PUC Board of Directors, and D. R. McClung, president of PP&L, McClung said, "We have stated on many occasions that our stated on many occasions that our properties are not for sale, but in the circumstances we are willing to agree that if the proposed bond issue is approved by the voters and the district brings condemna-

tion proceedings against us, we will stipulate in such proceedings that \$3,915,000 would be the fair value of the properties you would acquire. "If the voters do not ap-prove the bond issue," McClung added, "we hope that they may then be given the opportunity of deciding whether our company should purchase your properties."
