ACF Industries, Inc. (& Subs.)—Annual Report—

Combined net earnings of the corporation and its wholly owned SHPX group of companies were $5,166,000, equivalent to $3.64 per share of common stock, for the year ended April 30, 1960, William T. Taylor, Chairman of the Board, announced in the company's annual report mailed to stockholders on July 15.

In fiscal 1959 the combined earnings were $2,720,000 or $1.92 per share. Of fiscal 1960's earnings, ACF accounted for $3,933,000 or $2.77 per share, and SHPX $1,233,000 or 87 cents per share. Combined sales, rentals and services were $273,046,000—ACF $263,611,000 and SHPX $9,435,000. The previous year's total was $185,899,000.

"These increased sales and earnings, an improvement that began in the final quarter of the previous fiscal year, were obtained despite the lengthy steel strike that started in July, 1959," Mr. Taylor said.

He listed several of the year's developments as being significant in relation to future growth of the company. These included the rapid advance of the trailer-on-flatcar method of shipping freight which was reflected in the increased sale of ACF piggyback equipment, and the 613-car net addition to the fleet of tank and other special railroad cars leased to industrial users, an addition that brought the total to 17,037 cars. Income from leasing operations was the highest in the company's history, he said.

RA PURCHASE—Mr. Taylor also cited the purchase, at private sale for cash, of 214,500 shares of the common stock of Republic Aviation Corp. "This investment is, in effect, a further step in our continuing effort to diversify along lines complementary to those in which we are well established," the ACF chairman said. "Republic for many years has had an enviable reputation for its manufacture know-how and techniques and for its long experience in serving the government.

"The company's research and development activities have extended far beyond the dimension that gave it leadership in the development and manufacture of manned aircraft. Republic's imaginative programs will, we believe, produce an increasing volume of business in advanced areas of electronics and space technology," Mr. Taylor continued.

The report noted that during the year the ACF Electronics division was formed through the consolidation of the Avion and Nuclear Products-Erco division, "with the objective of emphasizing the company's position in electronics and with the purpose of reducing operating costs by the combining of similar talents and of administrative and sales organizations."

ACF chairman said that "the outlook for 1961 is for improved sales and earnings, accruing for the larger part in the third and fourth fiscal quarters."

BACKLOG—"American Car and Foundry division had a firm-order backlog at the fiscal year's end of $64,059,000. The dwindling national freight car fleet, now near an 18-year low, and dynamic new developments in transportation equipment geared to shippers' economic needs indicate a long-range growth situation," Mr. Taylor stated.

The company's leased car fleet was termed the greatest stabilizing influence on the company's earnings and will expand further in fiscal 1961, with a net gain of 750 cars anticipated. Steady increases in earnings are expected, with the fleet passing the 20,000-car mark by 1964.

Both the Avion and Erco elements of the newly formed ACF Electronics division have been consistently profitable enterprises, the report said, with new orders increasing the backlog in this area to about $20,434,000. At Carter Carburetor division a new management team "has introduced operating efficiencies that are overcoming manufacturing and inventory problems which seriously affected the division's earnings in the year just concluded, and substantial profits are expected from Carter in fiscal 1961," Mr. Taylor said. W-K-M, the valves and fittings division, is looking to product diversification to offset curtailed expenditures for new oil well drilling, he added.

"Our continuing objective is to level further the peaks and valleys in our total business which historically have reflected the fluctuations of its cyclical areas," Mr. Taylor said. "That progress has been made is evident in the fact that a profit was earned and dividends were paid in fiscal 1959 and 1960 despite the general business recession and the steel strike," he concluded.—V. 191, p. 2301.

Public Utility Financing Down

Financing by the nation's public uitlities declined 12.1% in the first half of 1960, totaling $1,637,792,000, against $1,863,628,000 in the first half of 1959, according to statistics compiled by the Financial Consulting Service of Ebasco Services Incorporated.

Electric utility financing decreased by $260 million and gas utility financing by $114 million, but telephone utility financing rose $160 million over the first half of last year.

By types of securities, utility debt financing increased $40 million over the first half of 1959, preferred stock declined $75 million, and common stock issued decreased $190 million.

Another significant point revealed by the Ebasco study is that virtually all the utility financing (99.5%) represented new money while refundings totaled only $8 million. This reflects the continued growth and construction in the public utility industry, and relatively stable interest rates during the period.

Advance Ross Electronics Corp.—Acquires—

The Chicago manufacturer of television receiver components, has acquired Magneco Corp. of Addison, Ill., producer of ferrite products for the electronics industry. Terms were not disclosed.

Henry C. Buckingham, Advance Ross president, said the move reflects both diversification and integration for the company, and that it will add significantly to the firm's sales and profit picture.

Air Shields, Inc.—Exchange Offer—

See National Aeronautical Corp., below.—V. 191, p. 601.

Alabama Power Co.—Dividend—

At a meeting held July 15, 1960, the board of directors declared the regular quarterly dividend of $1.05 per share on the 4.20% preferred stock of the company and the regular quarterly dividend of $1.15 per share on the 4.60% preferred stock of the company for the quarter ending Sept. 30, 1960, payable Oct. 1, 1960, to stockholders of record on Sept. 16, 1960.—V. 191, p. 2197.

Algemene Kunstzijde Unie N. V.—Net Up—

Net income of $4,200,000, equal to $1.65 per American share on 2,556,654 American share equivalents outstanding, was announced for the second quarter of 1960 by Algemene Kunstzijde Unie N. V. (A. K. U.-United Rayon Manufacturing Corp.), Arnhem, The Netherlands. This is three times larger than net income of $1,400,000 in the second quarter of 1959, which came to 61 cents per American share on 2,292,194 Amcrican share equivalents then outstanding, revised retroactively to consolidate N. V. Hollandsche Kunstzijde Industrie, Breda.

The first half of 1960 net income was $6,400,000, equal to $2.50 per American share, compared with net income of $2,200,000 in the 1959 half year, equal to 95 cents per American share on the smaller number of American share equivalents then outstanding.

Sales in the 1960 second quarter were $21,400,000 or 10% higher than the volume of $19,400,000 in the same period last year. However, as cost of sales and other operating expenses rose by only 4% to $18,400,000 in the 1960 quarter from $17,500,000, net operating income increased by 63% to $3,100,000 from $1,900,000. Results also were helped by a rise in dividends and interest received from affiliates from $300,000 last year to $2,400,000 in this year's second quarter period.

Each American share is equivalent to 1/20th of an ordinary share of Hfl. 1,000 par value each.—V. 188, p. 1609.

Allied Chemical Corp.—Record Sales, Net—New Plant

For the three months ended June 30, 1960, Allied Chemical recorded the highest quarterly sales and earnings in its history, Kerby H. Fisk, chairman of the board, announced on July 14. Per share earnings of 87 cents on sales of $216.9 million compare with earnings of 83 cents per share and sales of $203.4 million for the 1959 quarter.

Demand for nitrogen fertilizer products was strong, and sales of uranium hexafluoride, caprolactam and CAPROLAN nylon fibers, pigments and GENETRON aerosol propellants and refrigerants showed gains over the 1959 quarter. However, in contrast to the record output in the first quarter, steel operations at the end of June reached their lowest level so far in 1960 and the building materials season continued to be disappointing.

For the first six months of 1960 the company's sales were at the record level of $401.0 million, 8% ahead of the 1959 period; per share earnings of $1.55 were 10% above the $1.40 recorded in the first six months of 1959, the previous earnings record.

While industrial output in July 1960, is expected to be down somewhat from the recent peak level, other factors in the economy continue to show strength. With the expected upturn in the steel industry in late summer, Allied Chemical's earnings for the second half of 1960 "should show substantial gains over the 1959 period."

The corporation announced on July 18 plans to build a plant for the manufacture of polyethers, making the company a source for all the major urethane foam components.

Kerby H. Fisk, Chairman of the Board and Chief Executive Officer, said Solvay Process Division will begin construction of a new plant at Baton Rouge, La. where it currently produces soda ash, chlorine and caustic soda. Polyethers, which are used for both rigid and flexible foams, will be marketed by National Aniline Division, Mr. Fisk said.

According to W. H. Brumfield, President of Solvay Process Division, initial capacity will approximate 20 million pounds annually with a unique built-in provision for expanding production rapidly. The plant will utilize propylene oxide as the starting material. Initial production of polyethers is expected to begin by June 1961.—V. 192, p. 109.

Allied Products Corp.—Earnings—

American Electric Power Co. Inc.—Record First Half

The company had the best first half in its history. Net earnings for the first six months were $27,933,000, an increase of 14.6% over first-half earnings of $24,367,000 last year. June earnings of $4,064,000 were 10.9% above the June 1959 figure of $3,664,000.

For the 12 months ended June 30, the utility reported net earnings of $52,819,000, compared with $47,352,000 for the same period last year, an increase of 11.5%. This net resulted in earnings per share of $2.51, against $2.35 on the same date a year ago. The $2.51 figure is based on 21,069,000 average number of shares outstanding during the current year, or 900,000 more than the like period last year.—V. 191, p. 2633.

American Electronics, Inc.—Contracts—

Receipt of contracts totaling $4,313,349 during June was announced July 12 by Phillip W. Zonne, President.

Included in the total was approximately $1,650,000 in two contracts from the Air Force for engineering development and spares programs on American Electronics built MA-3, 7 and 8 type air conditioners used for ground cooling of electronic equipment in military aircraft such as the B-52, KC-135, F101A, F102A, F104 and F105. American Electronics is prime contractor on this program.

The largest single portion of the total was for slightly under $1,000,000, covered by a letter of intent from Convair, for a trailer-type ground support system for the removal, storage and reinstallation of the multi-purpose pods carried by the Convair Fort Worth built B-58s.

Contributing to the $4½ million bookings were contracts of approximately $250,000 from Convair Pomona for a digital servo system used in the Tartar missile; $100,000 from Emerson Electric Company for components used in the fire control system on B-58 bombers, and $50,000 from AC Spark Plug Company for a new type solid state power supply for the ground support system used by the Mace Missile. Included also was a contract for toll collection and related equipment for the new lower level of the New York Port Authority's George Washington Bridge across the Hudson River.—V. 191, p. 2633.

American Enka Corp.—Net, Sales Down—

This corporation reports sales for the first 24 weeks of 1960 (ended June 19) of $45,464,168 compared with $49,997,250 for the same period in 1959 (ended June 21), when sales were the highest for any similar period in the company's history.

Net income for the first 24 weeks of this year was $683,000, or 51 cents per share, compared with $3,484,000, or $2.64 a share for the same period in 1959.

Reduced shipments of TYREX tire yarn and rayon staple are the major factors accounting for the lower earnings in 1960, according to Philip B. Stull, President.—V. 191, p. 1981.

American Life Companies, Inc.—Exchange Plan—

American Life Companies, Inc., American Life Building, Fargo, N. D., filed a registration statement with the SEC, on July 15 covering 579,563 shares of common stock, to be offered in exchange for Amer-

gitized for FRASER
http://fraser.stlouisfed.org/

ican Life and Casualty Insurance Co. stock on the basis of 1¼ such shares for one share of Casualty Insurance common, and in exchange for securities of Old National Insurance Co., a Texas corporation, on the basis of 1¼ shares for one share of Old National common and 12½ shares for each $100 principal amount of Old National 6% convertible debentures due July, 1968.

The company was organized under Delaware law in March, 1959. Its principal business objective is the acquisition of controlling interests in life and other insurance companies and rendering services to them including advice and other assistance in all phases of insurance management, sales promotion, underwriting, investment of funds and accounting and financial procedures. In April, 1960, the company acquired 55%, 47% and 62%, respectively, of the outstanding common stock of Casualty Insurance, Old National and Old Southern Trust Company, a Texas corporation. In addition to certain indebtedness, the comapny has outstanding 50,000 shares of common stock owned by Lehman Brothers, a New York firm, and 50,000 shares of $1 par preferred stock, of which 14%, 10%, and 10% are owned, respectively, by General Industrial Enterprises, Sejak Corp., and Centro Corp. The prospectus lists Harold W. Bangert as Board Chairman and George A. Anderson as President.

American Manufacturing Co., Inc.—Seeks Exemption

This company, of New York, has applied to the SEC for an extension of its temporary exemption from the Investment Company Act pending Commission decision on its pending application for exemption; and the Commission has issued an order giving interested persons until 12:30 p.m. Aug. 2, 1960, to request a hearing thereon. American, together with Century Investors, Inc., and Webster Investors, Inc., previously filed an application for an exemption order with respect to certain transactions incident to a merger of the three companies, with American as the surviving corporation. American's earlier application seeks an order declaring that it is not now and will not be an investment company upon consummation of the merger.—V. 191, p. 1.

American Motors Corp.—Stock Option Plan—

This corporation, of 14250 Plymouth Road, Detroit, filed a registration statement with the SEC on July 18, 1960, covering 945,000 shares of capital stock to be offered to officers and key employees pursuant to its Stock Option Plan.—V. 191, p. 638.

American Potash & Chemical Corp.—Net Up—Plant—

Net income of the corporation for the six months ended June 30, 1960 totalled $2,621,306 compared with $2,539,748 for the corresponding period of 1959, President Peter Colefax announced on July 18.

After deducting preferred dividend requirements, earnings were $1.11 per share on the 2,274,713 shares of common stock outstanding, against $1.07 per share earned in the first six months of 1959 on the 2,271,495 shares then outstanding.

Sales for the six-month period were $26,423,822 in 1960, compared with a 1959 mid-year volume of $27,715,232.

For the second quarter of 1960, the three months ended June 30, 1960, sales were $13,198,291 compared with $15,047,319 for the like quarter a year ago. Net income was $1,342,987 or 57 cents per common share as against $1,427,715 or 60 cents per share last year.

Plans for the construction of a $5,000,000 electrolytic manganese metal manufacturing plant at Aberdeen, Miss., were announced on July 8 by Peter Colefax, President. The plant will have an initial capacity of 10 million pounds per year and will be laid out to provide for further expansions.

Final design and engineering is now in progress, and field construction is scheduled for fall at the company's 1,600-acre site on the Tombigbee River seven miles outside of Aberdeen, with completion planned for late 1961. The new facility will be located adjacent to the company's sodium chlorate plant, which was completed early in 1959 and is currently undergoing a 50% expansion.

The new project broadens American Potash's position in manganese chemicals, which includes a large facility for the production of electrolytic manganese dioxide at Henderson, Nev.

The Aberdeen location for this operation will permit ready access to the steel industry, which is the principal consumer of manganese metal.—V. 190, p. 767.

American Rubber & Plastics Corp.—Secondary Offering—An underwriting group managed by Hornblower & Weeks offered on July 21, 200,000 shares of this corporation's common stock, $1 par, at $21.75 per share. This marks the first public offering of the company's shares.

NEW NAME—The company, formerly known as American Rubber Products Corp., adopted the present name earlier this year. Headquarters and plant are at La Porte, Ind.

PROCEEDS—The stock was purchased by the underwriters from certain stockholders, and the company will not receive any of the proceeds from the sale.

BUSINESS—American Rubber processes synthetic and natural crude rubber into open-cell sponge rubber, and also makes closed-cell sponge rubber. Fastest-growing segment of the business is the production of urethane foam which has increased almost 10-fold over the past two years. Sponge rubber is fabricated into finished parts primarily for sealing, shock-absorbing and cushioning purposes in the automotive, appliance, carnet and construction industries.

EARNINGS—American Rubber's sales, including royalties and interest, totaled $6,949,462 for the year ended Feb. 29, 1960; net income for this period was $1,023,795, or $2.05 per share on 500,000 shares outstanding. Comparable figures for the year ended Feb. 28, 1959, were $4,379,759 and $491,407, or 98 cents per share, respectively.

DIVIDEND—American Rubber's board has declared an initial quarterly cash dividend of 22½ cents per share on the common stock, payable Aug. 15, 1960, to stockholders of record July 29, 1960.—V. 191, p. 2086.

American Telephone & Telegraph Co. — Debentures Authorized—

Directors on July 20 authorized a new debenture bond issue of $250,000,000 to be offered at competitive bidding.

It is expected that bids will be opened on Tuesday, Oct. 25, 1960. The trustees will be the Morgan Guaranty Trust Co. of New York.

The last debt issue of this kind offered by the company was on Nov. 17, 1959 when a $250,000,000 issue was sold. Proceeds of the new issue will be used for the improvement and expansion of Bell telephone services.—V. 192, p. 206.

Appalachian Power Co.—FPC Hearing—

On July 8 the Federal Power Commission has scheduled a hearing for Sept. 12 in Washington, D. C., to determine whether this company, of Roanoke, Va., has violated the Federal Power Act by failure to follow the Commission's reporting and accounting procedures.

At the hearing, Appalachian will be required to show cause why the Commission should not find that the company is accounting for and reporting deferred taxes on income otherwise than by use of the FPC prescribed accounts; that this action is a willful and knowing violation of the Federal Power Act; that the company be required to make, keep and preserve its accounts in the manner prescribed by the FPC in its Uniform System of Accounts Prescribed for Public Utilities and Licensees; and that the company be ordered to file such substitute pages of its annual reports to the FPC for 1958 and 1959 that are consistent with Commission requirements.

The FPC, on Oct. 29, 1959, ordered Appalachian to show cause why the Commission should not make the proposed findings. To date, the FPC said, Appalachian has not filed any substantive reply, on the merits, to the issues raised by the Commission's order.—V. 191, p. 2086.

Atlantic Coast Line RR. Co.—Equipment Trusts Offered—Halsey, Stuart & Co. Inc. and associates offered on July 21 an issue of $4,815,000 of the railroad's 4¼% equipment trust certificates, maturing annually from Aug. 15, 1961 to 1975, inclusive. The winning bid was

Corporate and Municipal Financing Ahead

By SIDNEY BROWN

A discernible upward lift in this week's (July 25-29) corporate financing-potential is registered in the *Chronicle's* corporate new issue calendar. A contrary—but smaller—trend is observed for municipals coming to the market this week. Last week's estimate of municipal offerings was $91 million for the week ending July 22 and the calendar for this week drops down to $66.5 million. Corporates' estimate made last week also for the week ending July 22nd was $57.8 million and that for this weeking ending July 29th is $360.9 million.

The four-week projection for corporate issues with announced dates hopefully expected to be kept shows a slight upward trend but the municipal float declines by about 50 million compared to last week's estimate. This, for corporates, is encouraging in view of the fact that such sizeable issues as Liberian Iron Ore, Ltd., has been temporarily postponed and has been dropped from the calendar of issues with affixed dates, and International Telephone and Telegraph Corp. Sud America has been shifted to the middle of August with no tentative day set as yet.

The following sums up the offerings with issues dates, in dollar terms, for both corporate and municipal securities:

	28-Day Visible Supply	*Total From July 25 On*
Corporates	$645,365,610	$1,239,544,000
Municipals	301,294,000	417,394,000
Total	$946,659,610	$1,656,938,000

Pending corporate issues in registration other than those recapitulated above and in the weekly breakdown table below without, however, announced dates ventured aggregated $180 million. In the realm of possible corporate financing there are indications of $817 million. As for municipal issues without given target dates expected between now and the end of the year, their total comes to $908,232,000. These totals added to those in the above table make a grand total of $2.2 billion in the corporate backlog and $1.3 billion in municipals for probable and possible offering of securities.

CHANGES IN THE PAST WEEK

Additions to the *Chronicle's* corporate calendar this week ending July 21st came to $404,592,750—sparked by the A. T. & T.'s $250 million debenture issue for bids on Oct. 25th. Corporate sales in the same week recorded a sum of $28.9 million in stocks, $36.1 million in bonds (including a $5 million privately placed long-term note) and $13.8 million in secondary sales of stock.

State and local government obligations added to the *Chronicle's* municipal calendar of issues of $1 million or larger were $103,935,050, and the sales tallied for the week ending July 20th were $106,760,000.

MUNICIPALS AUTHORIZED BUT NOT SOLD

In taking another look at municipal issues authorized but not yet sold, at the suggestion of Frank E. Morris of the Investment Bankers Association of America under whose capable direction those data are gathered and arrayed, the following computation shows an increase in the trend of bonds issued but not sold *but* the trend is not as decisive as may have originally and unintentionally been conveyed (Cf. *Chronicle*, July 11, p. 2) by this writer.

Unsold as of	*Per Tot. Issued in 1958 (%)*	*Unsold as of*	*Per Tot. Issued in 1957 (%)*
March, 1959	55.8	March, 1958	54.1
June, 1959	48.0	June, 1958	49.4
Sept., 1959	45.9	Sept., 1958	43.2
Dec., 1959	45.3	Dec., 1958	40.9

In three of the above quarters in 1959 the average percentage figures for the preceding year's unsold obligations show a higher ratio of issues not sold compared to what was the case in 1958 *vis a vis* 1957. And in the one quarter of the opposite trend the differential was quite slight. The amount of issues authorized in 1959 unsold at the end of the first quarter of 1960 (85.8%), however, looms drastically large compared to the ratios of 1957's first quarter (16.5%) and 1958's first quarter (44.7%) to unsold obligations in each preceding year, respectively.

The difference may be accounted for by the fact that 1958 was a recession year and municipals were in large demand despite record high rate of issue whereas in 1959, having left 1958's downturn, municipals had to compete against attractive yields in a revived economy.

Nineteen sixty may well show its disappointment in the economy's performance, compared to the optimistic projections made in 1959, by a drop in the trend of unsold authorized bonds which, of course, would be welcomed by an economy now operating below its capacity—as particularly evidenced by the steel industry. The fact that, despite the drop of short-term interest rates, our banking reserves are fully committed and banks are loaned up may mean our leveled-off economy at its high plateau may absorb municipal issues at a yield distasteful to issuers. Larger reserves, artificially created, may do the trick. But will the Fed lower bank reserves, or gold reserve ratio behind member bank deposits or, worse yet, ask for gold devaluation? With Treasury financing fairly well in hand and funds seeking outlets accumulating (first half of 1960's new issue financing was no larger than 1959, mortgages are not increasing but payments on mortgages continue, national income increased slightly and corporate flow of funds is larger than in 1959) there are bound to be more than ample funds to absorb the backlog of municipals in syndicates and authorized but unissued. First, however, there will have to be more give and take on price and yields.

The following indicates what could be the demand for funds in the next four weeks, classified by weeks and by the type of security offering, if announced calendar dates are kept. Between now and the time of the given tentative target dates a lot may occur, of course, which may alter the sequence of events and, therefore, the flotation picture. The data are obtained from private and public sources and the methodology used by the SEC in arriving at dollar value estimates is followed as much as possible.

CORPORATE AND MUNICIPAL OFFERING TABLE

	Corporate Bonds	*Corporate Stocks*	*Total Corporate*	**Municipals*	*Total of Both Financings*
July 25-July 29	$287,431,600	$73,496,810	$360,928,410	$66,569,000	$427,497,410
Aug. 1-Aug. 5	106,408,000	43,073,300	149,481,300	†218,125,000	367,606,300

Week of Aug. 8th: $11 million Narragansett Capital Corp. common; $7,530,000 Louisville & Nashville RR. equipment trust certificates; 400,000 shares of Trans-Coast Investment Co. common. In municipals: $11.2 million Los Angeles, Calif., County Hospital & Detention Facilities.

Week of Aug. 15th: $35 million Michigan Bell Telephone Co. debentures; 493,425 shares of Harcourt, Brace & Co. common; $25 million in bonds and 150,000 shares of cumulative preferreds offered by Natural Gas Pipeline Co. of America. In municipals: $3 million Tri-Cities municipal water district, Calif.

Details regarding this an all other financing news may be found in the Monday and Thursday issues of the *Chronicle* except for that material obtained on a confidential basis used in the above dollar volume projections.

July 21, 1960

Digitized for FRASER

98.13 for a 4¼% coupon. A group headed by Salomon Bros. & Hutzler bid 98.677 for a 4⅜% rate.

The certificates are scaled to yield from 3.65% to 4.50%, according to maturity. Issuance and sale of the certificates are subject to authorization of the Interstate Commerce Commission.

The issue is to be secured by 100 box cars and 450 hopper cars. estimated to cost $6,031,859.—V. 192, p. 207.

Automatic Retailers of America, Inc.—Merger—

Merger of Quick Cafeterias, Inc. and Kwik Kafe of Rochester, New York, with Automatic Retailers of America, Inc., of Los Angeles was announced on July 19 by Davre J. Davidson, President of A.R.A. and Fred W. Sarkis, head of the two Rochester vending firms.

The transaction was consummated for an undisclosed amount of cash and stock, the announcement stated.

The Rochester firms will be known as Quick Cafeteria Services Division of A.R.A., Mr. Davidson stated. Mr. Sarkis will continue to direct their operations and no changes in management or personnel are contemplated, he added.

Quick Cafeterias, Inc. and Kwik Kafe of Rochester, New York, employ 75 persons and have a combined gross volume of $2,000,000 annually. The merger extends A.R.A.'s operations into New York State.

Automatic Retailers of America, Inc., one of the leading automatic merchandising companies in the country, is currently operating in 13 states. Annual sales are running at a rate of $40,000,000 a year. —V. 191, p. 2515.

Avco Corp.—Military Contracts—

The corporation announced on July 14 that its Crosley Division has more than $21,500,000 in military contracts for highly classified ordnance items.

The contracts, received during the past 12 months, cover development and production of fuzes, specialized ammunition and warheads for the U. S. Army and arming and fuzing devices for the U. S. Navy's Polaris missile.

The bulk of Crosley's ordnance work for th Army is being done at the division's Richmond, Ind., plant. The facility has been specifically geared for this type of project and staffed with ordnance specialists. The division also maintains a test range for firing new types of ammunition at Connersville, Ind.

Production of arming and fuzing systems for the submarine-launched Polaris missile is located at Crosley's Evendale, Ohio, plant. Avco has been working on the Polaris arming and fuzing program since 1958 when it received a prime contract to design, develop and produce the system.

The Crosley Division has been ascociated with ordnance work for many years. During World War II and the Korean conflict, Crosley produced nearly ten million special fuzes for the Army.—V. 192, p. 110.

Basic Inc. — Secondary Offering — The First Boston Corporation and associates on July 21 offered as a secondary distribution 19,047 common shares of Basic Inc. priced at $15.62½ per share. These shares have been purchased by the underwriters from Morgan Guaranty Trust Co. of New York, as trustee of a trust, and are part of those that result from the conversion of convertible preference shares placed with institutions by The First Boston Corp., as agent, in 1958. No part of the proceeds from the sale will be received by the company.

BUSINESS—Basic Inc. is an integrated leading producer of basic grandular refractories, materials used primarily for the construction and repair of the interior linings of steel-making furnaces. The company's principal office is in Cleveland.

EARNINGS—For the year ended Dec. 31, 1959 the company reported net sales of $25.620,744 and net income of $2,118,399

APPOINTMENTS — Transfer Agents for the common shares are The Chase Manhattan Bank, New York, N. Y. and Central National Bank of Cleveland, Ohio. Registrars are The Hanover Bank, New York. N. Y. and Central National Bank of Cleveland.

UNDERWRITERS—The underwriters named belo whave severally agreed to purchase from the selling stockholder the following respective numbers of common shares:

	Shares		Shares
The First Boston Corp.	4,597	Curtiss, House & Co.	900
Hornblower & Weeks	2,200	Irving Lundborg & Co.	900
Fahey, Clark & Co.	1,550	Wm. J. Mericka & Co., Inc.	900
Fulton, Reid & Co., Inc.	1,550	Moore, Leonard & Lynch	900
Hayden, Miller & Co.	1,550	Singer, Deane & Scribner	900
Merrill, Turben & Co., Inc.	1,550		
Schwabacher & Co.	1,550		

—V. 191, p. 2303.

Bausch & Lomb Optical Co.—Appointments—

"First National City Trust Co. has been appointed trustee, paying agent, registrar and conversion agent for $7,038,600 principal amount of 4¾% convertible subordinated debentures due 1980 of the corporation issued under indenture dated as of July 1, 1960."—V. 192, p. 3.

Belkraft Home Products Co., Cincinnati, Ohio—Files With Securities and Exchange Commission—

The company on July 8, 1960 filed a letter of notification with the SEC covering 8,900 shares of common stock (no par) to be offered at $10 per share, without underwriting.

Booth Fisheries Corp.—Net Up—News—

This producer and distributor of fresh and frozen fish foods reports that earnings reached a new high for the fourth consecutive year for the fiscal year ending April 30, 1960. Sales were also up over last year.

Net earnings after taxes for the fiscal year were $945,671, equal to $2.67 per share of common stock, up 6.3% compared to $889,155, or $2.58 per share a year ago.

Sales and revenues were $48,319,000, up 4.4% over sales of $46,263,000 last year. This year's sales were less than 1% below the record set in 1958.

In the annual report to stockholders, Robert P. Fletcher, Jr., President, noted that the company caught, processed and sold more pounds of fish during the year than in any other year. Lower prices of some species of fish attributed to the slight decline in gross sales.—V. 190, p. 2446.

Boston Fund, Inc.—Acquisition Cleared—

The Securities and Exchange Commission has issued an exemption order under the Investment Company Act permitting this Boston investment company to issue its shares at their net asset value in the acquisition of substantially all the assets of The Groton Co., a personal holding company and affiliate.—V. 192, p. 207.

Buffalo Forge Co. (& Subs.)—Net Up—

The company and its subsidiaries report for the quarter ended May 31, 1960 a net profit of $312,369 after provision for U. S. Federal and Canadian income taxes, equal to 48 cents per share on the 649,572 shares of common stock currently outstanding. This compared with a net profit of $220,983 or 34 cents a share in the first quarter of the current year and with $247,719 or 38 cents per share in the second quarter of the 1959 fiscal year, both based on the same number of outstanding shares.

The company's fiscal year ends Nov. 30.

Profit before tax provision totaled $680,797 for the quarter ended May 31, 1960, as compared with $470,502 for the previous quarter and with $532,494 for the quarter ended May 31, 1959.

Henry W. Wendt, Chairman of the Board, stated that for the first seven months of the fiscal year 1960 incoming orders and shipments were 17½% and 12%, respectively, above the first seven months of the fiscal year 1959.

The 83-year-old company maintains plants at Buffalo and North Tonawanda, N. Y. and Kitchener, Ont., Canada. Products include industrial air conditioning equipment; a diversified line of other products such as ventilating equipment and heavy-duty fans for industrial use; centrifugal pumps for industrial and marine applications; machine tools; and special equipment for processing products of semi-tropical plantations.—V. 191, p. 1875.

Capital Investments, Inc.—Proposes Offering—

Capital Investments, Inc., 743 North Fourth Street, Milwaukee, Wis., filed a registration statement with the SEC on July 15 covering 60,000 snares of common stock, to be offered for public sale at $11 per share on an all or none basis by The Marshall Company (also of Milwaukee), which will receive a $1 per share commission.

Organized in March, 1959, under the name First Milwaukee Small Business Investment Corp., the company is a closed-end, non-diversified management investment company and a Federal licensee under the Small Business Investment Act of 1958. It is engaged in the business of providing equity capital to small business concerns, providing consulting and advisory services on a fee basis to such concerns in which it has invested, and cooperating with banks and financial institutions in meeting the credit needs of such concerns. Net proceeds of this financing will be applied generally to these purposes.

The company now has outstanding 26,320 common shares and certain indebtedness. The stock is held by 22 persons or corporations. The principal stockholder is Frank W. Norris, President, who owns 10,350 shares.

Casting Engineers—Acquires—

Casting Engineers, Chicago producers of investment castings and Minicast parts for industrial and commercial applications, announced on July 19 the purchase of Jelrus Precision Casting Corp. of New York.

Jelrus has long been known for its production of investment castings in a wide alloy range—particularly in the missile and electronics field.

In commenting on the acquisitions, Joseph H. Cadieux, Casting Engineers' president stated that "our new association with Jelrus gives us greatly increased sales coverage and production capacity and is in line with our planned program for diversification.

"Casting Engineers will continue to channel its efforts towards the higher volume commercial and industrial fields, with special emphasis on our Minicast process, while Jelrus' background in missile and electronic work will give us additional strength in this direction—particularly in non-ferrous capacity."

Central Charge Service, Inc.—Financing Proposal—

This company, of 620 11th Street, N. W. Washington, D. C., filed a registration statement with the SEC, on July 18 covering $2,000,000 of subordinated sinking fund debentures due Aug. 31, 1975 (with attached warrants to purchase 60,000 common shares), and an additional 60,000 common shares. The debentures (with warrants) and common shares are to be offered for public sale through a group of underwriters headed by Auchincloss, Parker & Redpath. The interest rate on the debentures terms of the warrants, and public offering price and underwriting terms for both issues are to be supplied by amendment.

The company, operating in the Washington, D. C. area, provides a retail charge account service for customers of Member Merchants, as well as credit facilities for these merchants by purchasing from them, at a discount, their customers' sales tickets. The net proceeds from the sale of debentures and stock will be used to call for redemption $300,000 outstanding 6% subordinated participating debentures at 110% of their principal amount, and to increase working capital to increase the base of borrowing from banks or other lending institutions. This increased working capital will initially be applied to the reduction of current bank borrowings.

In addition to various indebtedness, the company has outstanding 41,005 shares of 70 cents non-cumulative, no par preferred stock and 219,930 shares of common stock. The prospectus lists Harry Malasky, President, J. Albert Weinberg, Jr., Vice-President and Joseph A. Kaufmann as owners of 3.7%, 5.7% and 6.7% respectively, of the outstanding common stock. In addition, the company's officers and directors as a group own 28.8% of such stock.—V. 191, p. 2200.

Central Securities Corp.—Seeks Order—

This New York investment company has applied to the SEC for an exemption order under the Investment Company Act with respect to its proposed purchase of Super Food Services, Inc. preferred stock; and the Commission has issued an order giving interested persons until July 29, 1960, to request a hearing thereon.

According to the application, Super Food Services is making a public offering of 70,000 shares of convertible series preferred stock at $25 per share. Wm. H. Tegtmeyer & Co. is the underwriter. Central proposes to purchase 10,000 shares of the said preferred at $25 per share from Tegtmeyer & Co. Because of inter-company affiliations, such purchase is prohibited by the Investment Company Act unless the Commission grants an exemption.—V. 191, p. 1216.

Chemstrand Corp. (& Subs.)—Sales Up, Net Down—

Sales on a consolidated basis for the second quarter of 1960 amounted to $52,833,000, compared with sales of $52,060,000 for the second quarter of 1959, Edw. A. O'Neal, Jr., President, reported on July 14.

Consolidated net income for the second quarter was $7,068,000, compared with net income of $7,166,000 for the second quarter of 1959.

Consolidated sales and consolidated net earnings for the first six months of 1960 were $103,080,000 and $13,430,000 respectively. These compared with sales of $106,194,000 and consolidated net income of $14,828,000 for the first half of 1959, O'Neal said.—V. 190, p. 1732.

Citizens Utilities Co.—Three Acquisitions—

The Stamford, Conn., company announced on July 7 three additional acquisitions: Flowing Wells, Inc., supplying water service to a suburban area adjacent to Kokomo, Indiana; Spring Valley Water Co., serving suburban areas east of Tucson, Arizona; and Inverness Water Co., serving a community 30 miles northwest of San Francisco. Purchase prices were not disclosed.

These latest acquisitions are the fourth for Citizens in the current year. The Indiana acquisition marks Citizens' entry into a new State, Richard L. Rosenthal, Citizens' President, said, raising to nine the number of States in which Citizens operates utility properties. Kokomo, where commercial production of automobiles in the U. S. originated, is an industrial city undergoing rapid growth, principally because of the expansion of manufacturing facilities in suburban Kokomo by General Motors, Chrysler, Continental Steel and others. Mr. Rosenthal stated that Citizens intends to pursue the acquisition of other properties in Indiana.—V. 191, p. 2635.

City Products Corp.—Division Sales, Expansion—

William J. Sinek, Chairman of this corporation, reported on July 11 that sales of the Butler Brothers Division in the first half of 1960 were at an all-time high and that June was the 13th consecutive month of record sales performance.

Volume for the month of June was $18,079,384, an 11.2% increase from $16,254,407 in the same month of 1959, Sinek announced. Butler Brothers sales for six months ended June 30, 1960, amounted to $93,597,077, up 12.4% from $83,286,725 in the comparable period last year.

The corporation will double the capacity of its West Coast merchandise distribution operations when its Butler Brothers division opens a new 200,000 square foot warehouse in Los Angeles, Oct. 1.

Serving primarily 136 franchised Ben Franklin variety stores in 10 Western states, including 11 stores in Hawaii, and seven units in Alaska, the $1 million distribution center now under construction is part of City Products' long range plan to increase its West Coast retail store operations, Sinek related.

The additional warehouse capacity will accommodate an expansion of the Ben Franklin network of locally-owned stores and the opening of a group of company-owned T G & Y variety stores in the Los Angeles area. The company's T G & Y division, with headquarters in Oklahoma City, operates a chain of 200 stores in the South and Southwest and recently announced plans to open the first of a series of stores in the Los Angeles area in August.

The ground floor of the new warehouse will provide 180,000 square feet for the merchandise handing operations. A second story of 20,000 square feet will be used for administrative facilities for the West Coast headquarters of the Ben Franklin division, the Butler Brothers Deparement Stores division, and regional offices for the T G & Y division. To be constructed and leased by Lesser Industrial Properties, Ltd., the new warehouse will replace a 90,000 square foot facility which Butler Brothers has had in Los Angeles since 1957.

City Products' Butler Brothers division provides merchandise and specialized store operating assistance to more than 2,450 franchised Ben Franklin stores throughout the U. S. In addition to its T G & Y division, it operates 73 company-owned Scott variety stores, located principally in the Midwest, and seven Butler department stores in the Western states.—V. 191, p. 2743.

Colorado Caterers, Inc.—Common Stock Offered—On June 28, Alexandria Investments & Securities, Inc., of Washington, D. C., publicly offered 75,000 shares of common stock (no par), at $4 per share, on a "best efforts" basis.

PROCEEDS—In the event the company's entire offering of 75,000 shares of common stock is sold, the net proceeds to the company after payment of commissions and expenses of $25,000 will be $224,000, and will be applied in the following order of priority:

Approximately $100,000 to finance the purchase and installation of furnishings and fixtures to equip the company's new restaurant in the Westwood Shopping Center; and to purchase the necessary inventories and to finance other necessary expenses for the opening; the use of $30,000 for immediate working capital; the payment of $10,000 to H. J. Associates for financial consulting services; and the balance of the net proceeds amounting to $84,400 will be added to the company's working capital to finance among other things the purchase of additional inventories, the expansion of the company's catering business and the opening of additional restaurants or bake shops and/or concessions. In this connection it should be noted that the company is exploring the possibility of entering the in-plant feeding business—that is, the operation of cafeterias, etc., in such establishments as office buildings, factories, and institutional and public buildings, and a portion of the afore-mentioned net proceeds may be used in connection therewith.

BUSINESS—The company was organized under the laws of the State of Maryland on Sept. 15, 1958. It maintains its executive offices at 7626 Old Georgetown Road, Bethesda, Md. The company owns all the outstanding stock of two subsidiary companies, Bethesda Pastry Shops, Inc and Westwood Caterers, Inc., and operates the business of its subsidiaries.

Approximately 29% of the company's gross sales for 1959 was attributable to bakery sales, 28% to catering revenue, and 43% to Wildwood Shopping Center Restaurant facility, in contrast to 64%, 31% and 5%, respectively in 1958, and 33% bakery sales, 24% catering revenue and 43% to Wildwood for the first four months of 1960.

The company operates two retail bake shops under the name "Colorado Pastry Shops" located at 7626 Old Georgetown Road, Bethesda, Md., and 11437 Georgia Ave., Wheaton, Md., and a restaurant seating 210 persons, delicatessen, banquet rooms and a complete catering kitchen located in the Wildwood Shopping Center, 10257 Old Georgetown Road, Bethesda, Md. The bake shops were opened in 1947 and 1951, respectively, and the Wildwood Shopping Center restaurant and catering establishment in 1958.

APPOINTMENT—The National Savings and Trust Co., Washington, D. C., is the transfer agent for the company's common stock.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

The presently authorized and outstanding capital stock of the company as of the date of June 28 and after giving effect to the sale and issuance of the shares offered:

	Authorized	Outstanding
Common stock (no par)	1,000,000 shs.	*182,000 shs.

*Exclusive of 26,250 shares of common stock reserved for issuance to underwriter and financial consultant. The company has as of April 30, 1960, $24,339.09 in long-term liabilities representing amounts owed for various pieces of equipment.

On the basis of the net worth of the company shown in its balance sheet dated April 30, 1960, the book value of the outstanding common stock, presently owned by the founders, is approximately $0.20 per share. Assuming the sale at $4.00 per share of all of the 75,000 shares to be offered, the pro forma book value of the 182,000 shares to be outstanding would be approximately $1.34 per share on the basis of the net worth figures in the April 30, 1960 balance sheet. This will result in an increase of $1.14 per share in the book value of the shares held by the founders. The officers and directors as a group, assuming the sale of the 75,000 shares of stock will own 102,000 shares or 57.66% of the common stock outstanding. Their stock was not issued for cash but for the assets and liabilities of a predecessor corporation in September 1958 and for services. The public will own 75,000 shares or 42.34% of the stock outstanding for which they paid $300,000 in cash.—V. 191, p. 1771.

Colorado General Life Insurance Co., Denver, Colo.—Files With Securities and Exchange Commission—

The company on July 11, 1960 filed a letter of notification with the SEC covering 300,000 shares of common stock (par 30 cents) to be offered at $1 per share, without underwriting.

The proceeds are to be used for required surplus account and working capital.

Columbia Pictures Corp.—Files Stock Plan—

This corporation, of 711 Fifth Ave., New York, filed a registration statement with the SEC on July 18, 1960, covering 68,352 shares of common stock to be offered pursuant to its Employees' Stock Purchase Plan.—V. 190, p. 2447.

Commonwealth Oil Refining Co.—Shows Profit—News

The Ponce, Puerto Rico, company reported on July 21 that improved operations in the second quarter of 1960 produced sales and earnings for the half-year well above those of comparable period last year. Second quarter results far exceeded those of last year's second quarter or this year's first quarter, when production was adversely affected by operating difficulties and plant shutdowns.

For the six months ended June 30, 1960 Commonwealth's net income after special credit applicable to prior years was $1,048,235, as compared with a net loss of $127,153 in the 1959 period. Sales of refined products in the current first half were $33,919,665 as against $30,701,256 in the initial six months of 1959.

For the three months ended June 30, net income after special credit applicable to prior years was $1,384,754, compared with a net loss of $361,742 in the June quarter of 1959. Commonwealth's sales in the latest three months totaled $20,493,329 as against $15,051,277 in the 1959 quarter.

It was also reported that during the second quarter Commonwealth prepaid $1,000,000 and purchased $3,900,000 of its 5½% bank notes, due April 30, 1961, increasing the total amount of these notes prepaid or purchased as of June 30, 1960 to $8,900,000. The maturity date of this issue of notes has been extended from April 30, 1961 to Oct. 1, 1961.

On June 30, 1960, Commonwealth's current liabilities were $17,049,909 as against $14,723,349 a year earlier, while total funded debt on these dates declined to $49,475,600 from $59,602,400.

The company has its refinery at Guayanilla Bay, Puerto Rico, near Ponce.—V. 191, p. 1876.

Coral Ridge Properties, Inc.—Net Up—News—

In his first annual report to shareholders since Coral Ridge became publicly owned last August, James S. Hunt, Chairman of the Board, announced on July 6 that net profits for the year ended April 30, 1960, amounted to $1,406,000, or 25 cents on each of the 4,500,000

THE COMMERCIAL AND FINANCIAL CHRONICLE (Reg. U. S. Patent Office) William B. Dana Company, Publishers, 25 Park Place, New York 7, N. Y., REctor 2-9570. Claude D. Seibert, Publisher; William Dana Seibert, President; George J. Morrissey, Editor. Published twice a week [every Thursday (general news and advertising issue) with a statistical issue on Monday]. Other offices: 135 S. La Salle Street, Chicago 3, Illinois (Telephone STate 2-0613); Copyright 1960 by William B. Dana Company. Re entered as second class matter February 25, 1942, at the post office at New York, N. Y., under the Act of March 3, 1879. Subscriptions in United States, U. S. Possessions, Territories and Members of Pan-American Union, $65.00 per year; in Dominion of Canada, $68.00 per year. Other Countries, $72.00 per year.

NOTE: On account of the fluctuations in the rate of exchange, remittance for foreign subscriptions and advertisements must be made in New York funds.

Digitized for FRASER
http://fraser.stlouisfed.org/

shares outstanding. Sales were $3,074,607. The comparative figures for 1959 were: sales $2,007,669, net profit $75,045 and net per share approximately 1.6 cents.

Mr. Hunt noted that the increased gross and substantial increase in net earnings over last year were reflected in all phases of the company's operation—land development, hotels and commercial rental income. The increased earnings, he said, were obtained without deviating from the firm's 14-year sales policy of requiring either all cash, or 50% cash with the balance payable in two equal annual instalments at 6% interest.

The equity in the land and strict regulations which the company demands in its subdivisions has in the last 14 years resulted in the building of the largest concentration of homes in the $17,900 to $75,000 price range constructed in this country since World War II, Mr. Hunt said. Among the commercial and business properties in the company's inventory is the famous Galt Ocean Mile—a mile of private ocean frontage on which five multi-million dollar hotels and apartment buildings are located.

Simultaneously with the release of the first annual report, J. P. Taravella, Executive Vice-President, announced the acquisition of an additional 2,400 acres near Sebring, Florida, increasing the total acreage in that area to 6,000 acres. Mr. Taravella stated that the purchase price of the land will be spread over the next 12 years with no interest charges.—V. 190, p. 969.

Crosby-Teletronics Corp.—Sales Rise 384%—

The Westbury, New York, firm reported on July 19 that gross sales for the six-month period November, 1959 to April, 1960 rose 384% to a record-setting $765,000.

Although profits were marginal, the volume represents a sharp comeback for the company which for the same six-month period of 1959 had a gross sales figure of $199,000.

Murray G. Crosby, company president, attributed the rise to heavy orders for test equipment, facsimile devices, and long-range communications products. In addition, a heavy shift was registered in orders from competitive government contracts to proprietary items.

Mr. Crosby said that deliveries of facsimile terminal equipment to the Philco Corporation for the Air Com modernization program "Project Quick Fix," accounted for a large portion of the increase in sales.

A backlog of approximately $1.5 million in military and industrial orders was also reported by Mr. Crosby. It was felt, he added, that the company's gross sales would reach record proportions this year due to this backlog.—V. 190, p. 460.

Culligan, Inc.—Annual Meeting—

Stockholders of this international manufacturer of water conditioning equipment were told at their annual meeting on July 18 that company sales last year have broken all record for the third consecutive year.

Harold F. Werhane, President, said that consolidated net sales for the fiscal year, ending April 30, increased 12.4% over last year. He added that the company expected this picture of increased sales to continue during 1960-'61.

This is the first annual report issued by the company since its public offering of 135,000 shares of common stock on March 31, 1960. Earnings per share on the average number of shares outstanding during the year were 96 cents.

According to Werhane, the company's continued growth and progress is due to a number of factors. Most important of these are emphasis on research and the creation and development of a unique distribution system, consisting of more than 1,100 franchised dealers, most of whom are engaged solely in the business of water conditioning.

Culligan International S. A., a wholly-owned subsidiary organized in the previous year, has gained "real momentum" during the past fiscal year and shows promise of excellent growth in the distribution of Culligan products to potentially large foreign markets.—V. 191, p. 1004.

Development Corp. of America—Merger—

See Equity Corp., below.—V. 191, p. 2637.

Douglas Oil Co. of California—Forecast—

Pre-tax earnings for the three months ended June 30, 1960, are expected to be comparable to those for the same period a year ago, it was estimated on July 11 by George T. Goggin, Executive Vice-President at the firm's annual stockholders meeting held in Los Angeles.

While declining to be specific about prospects for the full fiscal year, Goggin told the annual meeting the company expects to substantially improve its performance in both sales and profits over the previous fiscal year. For the 12 months ended March 31, 1960, Douglas Oil Co. had sales of $31,412,034 and net earnings of $1,012,585.

The Douglas Oil Co. executive told the annual gathering of shareholders that the continuing improvement in profits included both gasoline and asphalt marketing operations.

Douglas Oil's vigorous expansion of its gasoline marketing effort continued during the first quarter of the current fiscal year, Goggin declared. Eleven new modern multiple pump gas stations were completed during this period and 35 more were placed under construction. For the current fiscal year which ends March 31, 1961, Douglas Oil expects to erect 60 new stations. Locations primarily will be in California, with some new sites planned in Southern Oregon.

As a result of this rapid growth in outlets, gasoline gallonage during the current three month period increased by 33% over that of the same period a year ago. The company currently is marketing approximately 18 million gallons per month through its nearly 250 outlets in the State of California.

Douglas Oil shareholders elected the following directors at the annual meeting: Dorman L. Commons, Roy P. Dolley, John B. Dunbar, George T. Goggin, John Hawkinson, Woodrow G. Krieger and James G. Stevens.—V. 191, p. 2744.

Dow Chemical Co.—New Groups—

A reorganization of the Midland, Mich. company's marketing and sales development activities for consumer products was announced on July 14 by Donald K. Ballman, Vice-President and director of sales.

A sales development group will be organized to assist existing product departments in the evaluation of potentials for new consumer products. The group's activities will be supervised by Parker Frisselle, who has been manager of Dow's Market Research Department.

In addition, a consumer products marketing group is being formed to provide a central marketing organization for the products of Dow's various product departments and manufacturing divisions.

The marketing group's activities will be directed by W. L. Nelson, Plastics Department staff member. The group is being created in order to consolidate experience and techniques gained in selling Dow products directly to retail outlets.

Both groups will report directly to the general sales management of the company, Ballman explained.

"We feel that the experience we have gained in the development and marketing of our established consumer products can best be applied to future consumer products by establishing groups to coordinate all such efforts," Ballman said.

It will be Frisselle's job, Ballman said, to supervise evaluation of consumer products Dow might logically introduce. If such products seem feasible, they would then be turned over to Nelson for planning and direction of the total marketing effort.

Nelson brings to the new job 24 years of experience with Dow, most of it in sales capacities.

Especially valuable to his new assignment is his experience as manager of Saran Wrap sales, from 1952 to 1957, and manager of fabricated products sales, from 1957 to 1959. He has been a Plastics Department staff member a little more than a year.

Frisselle has been with Dow since 1943. He spent the first five years in sales and technical service and development capacities.

In 1948, he was asked to form a Market Research Department and when the department was officially recognized in 1950, he became its manager and has held the job since.—V. 191, p. 2088.

Draper Corp.—Net Soars—

For the six months ending July 2, 1960, this textile machinery manufacture reported earnings of $1,801,435 or $1.61 per share on sales of $31,183,223 compared with earnings of $796,747 or 71 cents per share on sales of $24,279,499 in the corresponding period last year.

The company's directors, meeting in Hopedale, Mass., voted on July 20 to increase the quarterly dividend from 25 cents to 35 cents per share payable Oct. 1 to holders of record on Sept. 2, 1960. In the light of improved operating results, Thomas H. West, Draper President, stated, "It the current improvement continues, consideration will be given to supplementing this increase in the regular rate with an extra dividend at the end of the year."

Dynamics Corp. of America—Sub. Wins Contracts—

This corporation announced on July 14 receipt by its subsidiary Reeves Instrument Corp., Garden City, New York, of two military contracts totaling $1,393,878. One contract, awarded to Reeves by the U. S. Navy Bureau of Naval Weapons and valued at $1,320,000, is for the manufacture of radar bomb-scoring systems and associated equipment. The other, a $73,878 contract for replacement parts for tracking radars, is with the Rome Air Materiel Area, Griffiss Air Force Base, Rome, New York.—V. 191, p. 2201.

EDSCO Manufacturing Co., Inc., Vancouver, Wash.—Files With Securities and Exchange Commission—

The corporation on July 14, 1960 filed a letter of notification with the SEC covering 24,500 shares of common stock to be offered at par ($10 per share), without underwriting.

The proceeds are to be used to purchase machinery and equipment, real property and for operating capital.

E S C Electronics Corp.—Transfer Agent—

The Irving Trust Co. has been appointed transfer agent of the common stock of the corporation.—V. 191, p. 2305.

Ennis Business Forms, Inc.—Files for Secondary—

Ennis Business Forms, Inc., 214 West Knox Street, Ennis, Texas, filed a registration statement with the SEC on July 14, 1960, covering 74,546 outstanding shares of common stock, to be offered for public sale by the present holders thereof through a group of underwriters headed by Kidder, Peabody & Co. The public offering price and underwriting terms are to be supplied by amendment.

The company manufactures and sells a diversified line of business forms and other paper products, including salesbooks, restaurant checks, register forms, tabulating and other continuous forms, tags, carbon paper and a variety of other stationery supplies for retail, wholesale and manufacturing businesses. In addition to certain indebtedness, the company has outstanding 550,000 shares of common stock, of which an aggregate of 169,520 shares (30.8%) are owned by the lineal descendants and their spouses, the widow, and the Estate of G. G. Dunkerley, and 17.7% by the company's officers and directors as a group. Garner Dunkerley, Jr., President, and Jane D. Barrington own 33,358 and 24,342 shares respectively. The prospectus lists 10 selling stockholders, including Dunkerley and Mrs. Barrington who propose to sell 16,358 and 10,000 shares, respectively. Sale of the 74,546 shares will reduce the interest of this family group to 18.7%.—V. 190, p. 1833.

Equity Corp.—Merger—

In a decision announced July 15 the SEC granted an exemption under the Investment Company Act with respect to the merger of Development Corp. of America, of New York City, into Equity Corp., of New York, both investment companies.

Equity owns 2,399,503 shares (99.8%) of the outstanding stock of DCA. It previously was permitted to acquire this stock under a Commission order exempting such acquisition from the anti-pyramiding provisions of the Act, upon condition that unless by Dec. 15, 1959, DCA ceased to be an investment company, DCA would register under the Act and Equity would dispose of its stock interest therein. The time for compliance with this condition was later extended to March 16, 1960. On March 17, 1960, DCA filed its registration notification; and on April 21, 1960, the Commission filed a court action seeking compliance with the said condition. A May 11, 1960, order of the court, entered on consent of the parties, directed Equity, on or before July 15, 1960, to cause the merger of DCA into Equity, or to liquidate DCA.

The merger is to be effected July 15, 1960, DCA to be merged into Equity pursuant to the simplified merger provisions of Section 253 of the General Corporation Law of Delaware; and, in connection therewith, the common stockholders of DCA other than Equity will be paid in cash $7.91 as the value of each share they hold, unless they exercise their rights to demand an appraisal under such law.—V. 192, p. 6.

Espey Mfg. & Electronics Corp.—Common Stock Offered—Sutro Bros. & Co. offered on July 21, 80,000 shares of the common stock of Espey Mfg. & Electronics Corp. at $12.50 per share. Books were closed

BUSINESS—Espey Mfg. & Electronics, with its executive offices and plant at Saratoga Springs, N. Y., is engaged in the design and manufacture of electronic components and electromechanical devices. The company's major products are specialized electronic power supplies and various types of transformers and other iron-core components which are used in missiles, computers, radar, sonar, navigation equipment, and mobile and airborne communication equipment and systems.

PROCEEDS—Net proceeds from the sale of the shares will be used by the company to expand its operations into the semiconductor manufacturing field; to repay current bank loans and to discharge its outstanding 6% debentures in the principal amount of $25,200, plus accrued interest of about $9,000. Balance of the proceeds will be added to the working capital of the company.

CAPITALIZATION—Upon completion of the current financing, outstanding capitalization of the company will consist of 235,721 shares of common stock out of a total authorized issue of 750,000 shares.

EARNINGS—For the seven months ended Jan. 31, 1960, the company had net sales of $2,239,520 and net income of $104,082, equal to 67 cents per common share.—V. 191, p. 1985.

Executive Travel Club, Inc., Baltimore, Md. — Files With Securities and Exchange Commission—

The corporation on July 11, 1960 filed a letter of notification with the SEC covering 150,000 shares of common stock (par 50 cents) to be offered at $2 per share, without underwriting.

The proceeds are to be used for advertising and working capital.

Exploration Funds, Inc.—Files For Offering—

Exploration Funds, Inc., Third Floor, McFarlin Building, Tulsa, Okla., filed a registration statement with the SEC on July 18, 1960, covering 120 units of participation in its 1960 oil and gas program. Such units are to be offered for public sale at $5,000 per unit by Alex W. McCoy, III, President, director and sole stockholder of the company.

The company was organized in June, 1960, for the purpose of engaging in the business of evaluating, acquiring, testing, developing, equipping and operating oil and gas properties, in the United States or Canada. Alex W. McCoy Associates, Inc., a geological and engineering consulting firm, of which Mr. McCoy III is President and principal stockholder, will manage the 1960 program for the company, for which it will receive a 10% management fee. Associates will acquire ten units of participation in the program and Mr. McCoy, III, no less than seven and no more than ten units of participation, at $5,000 per unit. The net proceeds from the sale of participation units will be used to conduct the oil and gas program during 1960 of evaluating, acquiring, testing, developing, equipping and operating oil and gas properties. The cost of acquiring property interests is estimated to be 5% of the program expenditure, equipment costs 20%, management fee 10%, and all other costs, including costs of geological and engineering services, drilling, testing, completions, delay rentals, dry hole contributions and administrative overhead about 65%.

The company has outstanding 1,000 shares of common stock owned by Mr. McCoy III. The prospectus lists Carl A. Moritz, Vice-President and Leroy B. Kirkpatrick, Secretary and Treasurer.

Federal Paper Board Co., Inc.—Net Down—

Net income for the first 24 weeks of 1960 amounted to $1,842,000, equal to $1.30 a common share after preferred dividend requirements, John R. Kennedy, president, advised stockholders on July 18 in an interim report. Net income for the corresponding period a year ago totaled $2,467,000, or $1.81 a common share after preferred requirements.

Net sales for the 24-week period, which ended June 18, were $39,281,000 as against $39,578,000 in the comparable 1959 period. These figures include the operating results of Manchester Board & Paper Co. for the full period in both years, though Federal's merger with Manchester was not effective until March 2, 1960. Exclusive of Manchester, Federal Paper Board had net income of $1,468,000, equal to $1.21 per common share, on sales of $35,201,000 in the first 24 weeks of 1960.—V. 191, p. 1110.

Fidelity Electronics Corp., Riverside, N. J.—Files With Securities and Exchange Commission—

The corporation on July 11, 1960 filed a letter of notification with the SEC covering 150,000 shares of common stock (par 10 cents) to be offered at $2 per share, through Metropolitan Securities Corp., Philadelphia, Pa.

The proceeds are to be used for general corporate purposes.

First Investors Corp.—Files for Secondary—

This corporation of 120 Wall Street, New York, filed a registration statement with the SEC on July 19, 1960, covering 270,000 outstanding shares of class A common stock, to be offered for public sale by the present holders thereof through a group of underwriters headed by Bache & Co. The public offering price and underwriting terms are to be supplied by amendment.

The company is engaged in the distribution of shares of open-end mutual funds through the sale of "contractual plans," "single payment plans" and fund shares sold directly as such. The company is the exclusive distributor of "contractual plans" and of "single payment plans" for the purchase of shares of three separate and individually managed funds, Wellington Fund, Inc., Mutual Investment Fund, Inc., and Fundamental Investors, Inc. It has outstanding 900,000 shares of class A common stock and 10,000 shares of class B common. The prospectus lists Rowland A. Robbins, board chairman, and John D. Case, president and treasurer, as owners of 50% each of the outstanding class A and class B common shares. Each proposes to sell 135,000 shares of class A common.—V. 191, p. 2088.

Fleetcraft Marine Corp., Los Angeles, Calif. — Files With Securities and Exchange Commission—

The corporation on July 5, 1960 filed a letter of notification with the SEC covering 150,000 shares of capital stock, (no par) to be offered at $2 per share, of which 112,500 shares are to be offered by the company and the reminder for the account of the offeror. The offering will be underwritten by Garat & Polonitza, Inc., Los Angeles, Calif.

The proceeds are to be used to pay off debts and for working capital.

Florlanda Corp., Pensacola, Fla.—Files With SEC—

The corporation on July 12, 1960 filed a letter of notification with the SEC covering 12,500 shares of common stock (par $1) to be offered at $10 per share, without underwriting.

The proceeds are to be used for mortgage, operational expenses, and purchase of properties for investment.

Free Sewing Machine Co.—Sub. Acquired—

See Janome Sewing Machine Co., Ltd., below.—V. 182, p. 2789.

Futterman Corp.—Stock Offered—Van Alstyne, Noel & Co. is Manager of an underwriting syndicate which offered on July 20 660,000 shares of the corporation's class A stock at a price of $12 per share. This offering was oversubscribed and books were closed.

PROCEEDS—It is the company's intention to use $4,679,000 of the net proceeds from the sale of the common shares to acquire certain properties, including Grosvenor House, Seattle, Wash.; Glassmanor Apartments, Glassmanor, Maryland; Riverside Manor Motel, Lansing, Mich.; and a leasehold on the Marott Hotel, Indianapolis, Indiana. The uninvested portion of the proceeds will be available for future investment.

BUSINESS—Futterman, with headquarters in New York, is engaged in the real estate business, as investors, managers, brokers, and agents in the construction, sale, purchase and lease of properties of all kinds situated within and without the United States; in the acquisition of land at public or private sale or under the provision of such legislation as Title I of the Housing Act of 1949; in mortgaging, financing and refinancing.

The company owns 24 major real estate properties, including office buildings, apartment buildings, hotels and industrial buildings located in New York, Chicago, Washington, D. C., Kansas City, Cincinnati, Akron, Louisville, Tulsa, Stanford, Utica, Miami, Baton Rouge, Grand Rapids, Indianapolis, Sioux City, Arlington and Norfolk. It has contracted to purchase additional properties in Seattle, Lansing, Indianapolis and Washington, D. C.

CAPITALIZATION—Upon completion of the current financing, outstanding capitalization of the company will consst of $27,452,036 of mortgages and notes payable; $500,000 of a 10-year non-interest bearing convertible debentures due 1970; 2,254,394 shares of class A stock and 150,000 shares of class B stock.—

UNDERWRITERS—The obligations of the underwriters to purchase the respective number of shares of class A stock set opposite their names below are subject to certain conditions set forth in the Purchase Agreement. Subject to compliance by the company with the conditions set forth in the Purchase Agreement, the underwriters are firmly committed to purchase all of the shares, if any are purchased.

FXR, Inc.—Acquires—

FXR, Inc. of Woodside, N. Y., the nation's second largest producer of precision microwave test equipment, has acquired the Budd-Stanley Co., Inc., of Long Island City, N. Y., Henry Feldmann, President of FXR, Inc. announced. He said it was an all-cash transaction but did not disclose the amount.

Budd-Stanley is an established manufacturer of custom microwave components for systems application which can be integrated into FXR's extensive line, further strengthening FXR's position in the microwave industry, Mr. Feldmann said. Budd-Stanley Co., Inc., will operate as an affiliated corporation of FXR with no changes in personnel, under the direction of Stanley Gartman and Budd Meyers. Budd-Stanley employs about 130 persons and had sales last year in excess of $1½ million, Mr. Feldmann advised.

In addition to a complete line of precision microwave test equipment and microwave components for cross-country telephone and television communications and for military applications, FXR makes high-quality electronic instruments and high-power modulators and transmitters. It has just completed what is claimed to be the largest microwave transmitter in the world, a 50-million watt installation for locating missiles above the ionosphere and for studying cosmic dust, echoes and other phenomena.—V. 191, p. 1565.

Digitized for FRASER

Gas Service Co.—Net Up—News—

Increased demands for natural gas from a larger number of consumers and greater efficiency in operation from improved facilities gave the company larger earnings for the 12 months and six months ended June 30 as compared with a year earlier.

The company, which serves more than 250 communities in four states, reported a 12-month net income of $4,319,771, equal to $2.88 a common share, compared with $3,726,771, or $2.48 a share, a year before. For the six months ended June 30, net income was $5,360,455, equal to $3.57 a share, against $5,263,099, or $3.51 a share.

Income for the first six months is always greater than for the full calendar year inasmuch as expenses rise in the last six months as gas is purchased in preparation for the heavy consumption, according to R. M. Power, President.

Gross revenues for the 12 months reflected the increased cost arising from larger volumes of gas purchases and increases in the wholesale rates of the suppliers. Revenues of $86,026,494 compared with $70,405,149 a year before. Purchases of gas amounted to $50,747,464, up from $38,728,079. For the first six months, revenues were $56,461,352, compared with $47,578,833 a year ago. The cost of gas in the six months rose from $23,777,622 to $31,319,704.

"The higher rate posted by the wholesale supplier of gas accounted for most of the increase in the cost of gas this year," Power said. "The higher rates were passed on to Gas Service customers to absorb the wholesale cost and nearly 5½ billion more cubic feet of gas was sold this year to produce the record revenues."

Gas Service added 12,660 customers in the 12 months to June 30, compared with an increase of 11,756 in the same preceding period. The number of customers served was 578,032.

New construction expenditures this year totaled $2,677,000, slightly below a year ago. The additions for the balance of 1960 should approximate $5 million, Powers estimated. More than $8 million went into the plant account last year. The June 30 balance sheet showed investment in plant passed $100 million for the first time and amounted to $100,121,366, compared with $93,237,313 a year ago.

Directors have voted the usual quarterly dividend of 43 cents a share, payable Sept. 9 to holders of record Aug. 15.—V. 191, p. 2745.

General Box Co.—Appointments—

The company has named the Harris Trust & Savings Bank transfer agent and the Continental Illinois National Bank as registrar for its capital stock.—V. 180, p. 533.

General Foods Corp.—Record Quarter—

New highs in first quarter net earnings, net sales, earnings per share and physical volume of products sold for the period ended June 30 were reported by the White Plains, N. Y., corporation on July 18.

Net earnings for the first quarter were $16,150,000, equal to $1.31 per share of common stock outstanding, exceeding by 9.7% the similar period last year when net earnings were $14,722,000, equal to $1.20 a share.

Net sales for the current quarter totaled $274,565,000, an increase of 6.9% over sales of $256,874,000 for the corresponding three-month period a year ago.

Physical volume of products sold rose by 6.4% over the June 1959 quarter.—V. 190, p. 2518.

General Portland Cement Co.—Net, Sales Down—

This Chicago company reported earnings of $3,382,900 after taxes and sales of $17,303,100 in the three months ended June 30, 1960, compared with $3,851,600 and $19,328,200 respectively in the like period a year ago.

Earnings amounted to 63 cents per share in the latest quarter, as against 73 cents per share in the second quarter of 1959, both figures based on 5,320,552 shares of common stock outstanding at June 30, 1960. All figures for 1959 include the results of operations of Consolidated Cement Corp. which was merged into GPT on April 30, 1959.

Smith W. Storey, chairman of the board and president, said in his message to shareholders that "adverse weather conditions in major areas served by our plants curtailed shipments during the first half of this year and, in addition, it now appears that the construction industry's requirements for cement will not be as great this year as had earlier been expected."

Six months sales totaled $28,942,600 as against $33,479,100 in the first half a year ago. Net earnings after taxes were $4,861,300, equal to 91 cents a share, compared with $5,990,000 and $1.13 a share in the 1959 period.

General Portland operates 10 cement plants in the south and midwest, with an annual productive capacity of 25,550,000 barrels. Additional capacity of 3,000,000 barrels is under construction at the Tampa, Fla., plant.—V. 191, p. 1773.

Genesco, Inc.—Files Stock Plan—

This company, of 111 Seventh Avenue, North Nashville, Tenn, filed a registration statement with the SEC on July 15, 1960, covering 200,000 shares of common stock, of which 100,000 shares are to be offered to employees pursuant to the company's Employee Stock Purchase Plan, and the remainder pursuant to its Special Stock Purchase Plan.—V. 191, p. 1218.

Georgia Power Co.—New Customers—

Forty-eight new industries, representing a capital investment of $19,230,000, have located on the lines of the company during the first six months of 1960, Eugene A. Yates, Jr., Vice-President and manager of the company's industrial development division, announced last week. This compares with 75 new industries, representing an investment of $26,180,000, that located in the power company's service area during the same period of 1959.

Only industries representing more than $50,000 of capital outlay and employing more than 10 people are included in the power company's figures.

In addition to the new plants located in Georgia during the first half of the year, 18 existing industries expanded their operations. These new facilities represent an investment of $14,210,000. In the first half of last year, 39 manufacturing plants increased their productive capacity at a cost of $39,265,000.

The new and expanded units will give employment to 3,867 Georgians at annual wages of $13,410,500. Manufacturing plants and additions established during the first half of 1959 provided 4,954 jobs, totaling $15,786,000 in annual wages.—V. 191, p. 1773.

Glasspar Co.—Sales Up, Net Down—

Sales of this Santa Ana, Calif., company for the first half of the current year exceeded those of last year's comparable period. President L. J. Neiger announced on July 11 in an interim report to shareholders.

For the six months ended May 31, 1960, the nation's largest manufacturer of fiber glass outboard boats registered sales of $6,994,114 compared with $6,535, 908 for the same period a year ago.

Profits were not up to previous high levels because of non-recurring factors. Net profits after taxes totaled $185,827 equal to 16 cents a share on the 1,162,821 shares of common stock outstanding as of May 31, 1960. This compares with earnings of $472,639 or 40½ cents share based on the same number of shares outstanding which are adjusted for a 2-for-1 stock split effected Nov. 13, 1959 and a 3% stock dividend paid Feb. 19, 1960.

Mr. Neiger outlined the factors contributing to the decline in earnings. These included two walkouts at the company's Nashville division—the second walkout lasting almost the entire month of May. Both of these walkouts were preceded by slow-downs and inefficiencies throughout the plant. This resulted in a much smaller percentage of profit than is normally earned by this division which historically contributes the largest share of sales. A satisfactory contract running to June 1, 1962 has been signed, he said, as well as a new union contract at the company's Petersburg division which runs to June 15, 1961. There was also a higher unit cost of labor at the Petersburg division during the negotiation of this contract.

Both the Nashville and Petersburg divisions are now producing at the normal rate and no further setback or loss of profit from these plants due to labor disputes is anticipated, Mr. Neiger said.

Also in the period under review, a fire at the Santa Ana division destroyed a 6,000 square foot molding building, molds, tools and fixtures as well as boats in process. The company was fully covered by fire and use and occupancy insurance, and was able to immediately reduce the effect of the space loss by moving into a newly constructed 37,000 square foot building a week after the fire. Additional tooling was obtained from other divisions and by expending overtime at the company's tool building facility.

Mr. Neiger said, "We believe that the balance of this year will show an increase in sales over 1959, but we do not believe it will be possible to recapture the profits we did not achieve in the first six months. We are looking forward with the utmost confidence to the balance of the year, and indications are that operating profits were back to normal for the month of June."

Mr. Neiger reported that the company's 1961 models will be introduced to its dealer organization the latter part of September and that the line will be the most complete and extensive ever offerd embracing new lower-priced models as well as the regular deluxe line in lengths from ten to seventeen feet. In addition, he said, there will be other innovations in the new line.

Glasspar has manufacturing plants at Santa Ana, Calif.; Nashville, Tenn.; Petersburg, Va.; Sherman, Texas; Olympia, Wash.; and recently announced construction plans for a sixth manufacturing facility at Sturgis, Mich. to service the Ohio-Michigan-Indiana area.—V. 192, p. 113.

Great American Life Underwriters, Inc. — Granted Exemption—

In a decision announced July 15 the SEC granted an application of The Great American Life Underwriters, Inc. of Springfield, Ill., for an exemption from the Investment Company Act of 1940. The exemption is retroactive to Jan. 1, 1941, the effective date of the Act.

Applicant was organized in 1929 and immediately embarked upon a program of organizing and acquiring interests in various life insurance companies which it thereafter developed and financed. In that year it organized The Great American Life Insurance Co. and, in 1939, it purchased all the stock of Franklin Life Insurance Co., to which most of the assets of Great American were transferred in 1940, following consolidation of the two subsidiaries in 1945, Great American was dissolved. Since 1945, applicant has continued to control Franklin which, at the end of 1959, had approximately $3.6 billion of insurance in force and admitted assets of $526,733,000. Since 1953, applicant's investment in Franklin has represented in excess of 90% of the value of all of its investment securities.

During 1929-1940, applicant obtained funds for the acquisition and financing of its life insurance subsidiaries through the sale and issuance to the public of four types of installment securities, two of which were "face-amount certificates" of the installment type as defined in the Investment Company Act. Although the sale thereof was discontinued prior to the effective date of the Act, applicant has continued to receive payments on and to service outstanding securities; and, accordingly, it is an investment company within the definition of that Act.

In view of the discontinuance of the sale of such securities and the Commission's conclusion that applicant is primarily engaged in the insurance business through controlled subsidiaries, the Commission concluded that applicant should be granted an (exemption from) the Investment Company Act on the ground that it is not the type of company intended to be regulated thereunder. Among the other considerations leading to this conclusion were the facts that applicant has a very substantial part of its investments in, and derives a very substantial part of its income from its holdings of stock in its insurance subsidiary and that applicant's officers and directors have been active in the management and operation of the insurance subsidiary.

In determining that the exemption might be made retroactive, the Commission pointed out that the company would have been entitled to the exemption at any time, that it failed earlier to file an application for exemption because of the good faith though mistaken belief that it was not subject to the Act, that it is clearly not now an investment company and was at all times primarily engaged in the insurance business, and its outstanding face-amount certificates were at all times protected by reserves on deposit with a state agency and have been reduced to the point where they are insignificant in comparison to applicant's assets.—V. 186, p. 420.

Greyhound Corp.—Appointments—

The Crocker-Anglo National Bank became transfer agent and Wells Fargo Bank American Trust Co. became registrar for the corporation's common stock.—V. 190, p. 1006.

Health Machines & Equipment Corp.—Offering Suspended—

The SEC has issued an order temporarily suspending a Regulation A exemption from registration under the Securities Act of 1933 with respect to a public offering of stock by this corporation ("H. M. & E."), 206 South Federal Blvd., Denver.

Regulation A provides a conditional exemption from registration for public offerings of securities not exceeding $300,000 in amount. In a notification filed March 25, 1959, H. M. & E. proposed the public offering of 300,000 common shares at $1 per share. The Commission's suspension order asserts that certain terms and condition of the Regulation were not complied with by the company; that its offering circular is false and misleading in respect of certain material facts; and that the offering of stock on the basis thereof would violate Section 17 (the anti-fraud provision) of the Act. The order provides an opportunity for hearing, upon request, on the question whether the suspension should be vacated or made permanent.

With respect to the offering circular, the Commisson's order challenges its failure to reflect the fact that the proceeds of the sale of H. M. & E. stock had been and were being used for advances to an affiliate and the fact that the company is no longer in business at the address shown in the circular. It also is alleged that the company failed to file a report of stock sales and to revise its offering circular in accordance with requirements of the Regulation.—V. 189, p. 1676.

Hercules Powder Co. Inc.—Net Up—

The Wilmington, Del., company reported for the six months ended June 30, 1960, net income equal to $1.51 a share of common stock. Net income in the first six months of 1959 was equal to $1.36 a share of common stock.

For the second quarter of 1960, net income was equal to 87 cents a share of common stock. This compares with net income in the second quarter of 1959 equal to 79 cents a share.

Net sales and operating revenues for the six months' period were $160,496,882, compared with $137,200,312 for the corresponding 1959 period.—V. 191, p. 1878.

Home Builders Acceptance Corp.—Proposes Offering

This corporation of 409 N. Nevada, Colorado Springs, Colo., filed a registration statement with the SEC on July 15 covering 1,000,000 shares of common stock, to be offered for public sale at $1 per share by company officers and directors, who will receive a selling commission of 15c per share.

Organized in 1960, the company will engage in the business of loaning money and it expects to buy, sell and trade in mortgages, real estate and "trade-in" equities relating to residential and commercial properties. It also proposes to make home improvements loans, construction loans, subdivision loans, and assist in other community development loans. Net proceeds of the sale of stock will be applied to these and related purposes.

The company now has outstanding 215,000 common shares, of which 55,000 shares are owned by Richard D. Prigmore, President and one of the promoters, and 185,000 shares by officers, directors and promoters as a group. For the 185,000 shares the holders paid $42,500 and rendered certain services to and on behalf of the company.

Hudson Vitamin Products, Inc.—Transfer Agent—

The Chemical Bank New York Trust Co. has been appointed New York transfer agent for the common stock of the corporation.—V. 191, p. 2746.

IMC Magnetics Corp. — Private Placement — Finkle, Seskis & Wohlstetter have negotiated the private placement of $1,000,000 IMC Magnetics Corp. 5½% convertible debentures, due Dec. 31, 1970, it was announced July 18.

PROCEEDS—Net proceeds from the financing will be used by the company to retire bank loans and for working capital.

BUSINESS—IMC Magnetics Corp., Westbury, N. Y., and its subsidiaries design, develop and produce non-active components, such as instrument motors, synchros, solenoids, miniature pneumatic valves, time delay lines, step servo motors, pulse transformers, servo-tacnometers, and electro-Mechanical indicating devices. These products are used in instruments, computers, fire-control systems, navigational devices and ground support equipment in the aircraft, missile, electronics, instrumentation and recording industries.—V. 189, p. 2891.

I. R. E. Investors Corp., Levittown, N. Y.—Files With Securities and Exchange Commission—

The corporation on July 11, 1960 filed a letter of notification with the SEC covering 50,000 shares of common stock (par 25 cents) to be offered at $3 per share, without underwriting.

The proceeds are to be used for general corporate purposes.

Instruments For Industry, Inc.—R. & D. Contract—

Receipt of a Signal Corps research and development contract of approximately $500,000 for electronic countermeasures equipment was announced by Elston H. Swanson, President of the Hicksville, N. Y., independent manufacturer of electronic countermeasures systems and related components.—V. 192, p. 209.

International Resistance Co.—Record Net—

International Resistance Co. sales and earnings set new first half records in the 25 weeks ended June 26, for the second successive year.

In an interim report to stockholders, Mr. Slocum announced that sales for the period increased 10% over the corresponding 25 weeks a year ago. They totaled $10,354,000 as against $9,409,000.

Earnings were up 13%, reaching $1,046,000, or 75 cents per share, as compared to $928,000, or 67 cents per share, based on the number of shares outstanding June 26, 1960.

Mr. Slocum said that "heavy expansion, modernization and maintenance costs" charged to expenses in the 1960 period as well as a tax credit a year ago held down the net in the most recent period, as compared to 1959.

Incoming orders in the first 25 weeks "exceeded our forecast and the outlook for full-year sales and earnings continues to be favorable," he noted.

He reported that IRC has "increased considerably" its expenses for research, development and marketing and has, at the same time, "effected substantial improvements in operations at our various plants."

The board of directors has declared a regular quarterly dividend of 7½ cents per share, payable Sept. 1 to holders of record Aug. 15. The rate was raised from five cents effective with the June 1 payment.—V. 192, p. 210.

Investor Service Fund, Inc.—Files for Offering—

This Fund, of 1823 Jefferson Place, N. W., Washington, D. C., filed a registration statement with the SEC on July 14, 1960, covering 100,000 shares of common stock, to be offered for public sale on a best efforts basis at $10 per share (in units of 100 shares) through Investors Service Securities, Inc. and Riviere Marsh and Company.

The company was organized under Delaware law in May, 1960 and is expected to be qualified to do business in the District of Columbia area. Its primary purpose is to offer investors an opportunity to participate in diversified real estate ventures. According to the prospectus, the company has not commenced active business operations and has no earnings record. The net proceeds from the stock sale will be invested in real estate ventures, primarily in the Washington, D. C. metropolitan area. The initial venture of the company will be the purchase of all or a part interest in the Falls Plaza Shopping Center located in Falls Church, Va. The company has outstanding 4,600 shares of common stock, of which 3,000 shares are owned by Samuel J. Gorlitz, President and 250 shares each by Stanley Nehmer and Daniel M. Lyons, Vice-Presidents, and Jacques M. Heller, Terasurer.

Ironrite, Inc.—Subsidiary Contract—

The Warren Manufacturing Co., Inc., Littleton, Mass. ,a subsidiary of Ironite, Inc., Mount Clemens, Mich. since April 1, 1960, announced on July 18 the award of a $250,000 Government contract. The award was for a quantity of communications equipment comparable to their standard line.—V. 191, p. 506.

Janome Sewing Machine Co., Ltd.—Acquires—

Japan's largest manufacturer of sewing machines has bought out one of America's oldest sewing machine companies, and will distribute its own machines in this country.

The purchaser is the giant Janome Sewing Machine Co., Ltd., which has been selling to independents for distribution under their own trade names in the United States for years, and which last year accounted for over 40% of the 800,000 unit Japanese market.

Janome announced last week the acquisition of the 101-year old New Home Sewing Machine Co. along with plans for a five-year expansion program designed to capture 20 to 25% of the American sewing machine market.

T. Carroll Deamer, executive vice president and general manager of New Home, announced the sale from the company's home office in Los Angeles.

No purchase price was given, but it was learned authoritatively that Janome has set aside more than $4 million to invest in a bid for dominance of the vast American market, with an anticipation of $30 million annual sales volume in the United States at the end of the five-year period.

Mr. Deamer made the announcement jointly for Jay Kasler, president of Free Sewing Machine Co. of which New Home was a subsidiary, and Ninzo Yamada, president of Janome.

As part of the agreement, Free Sewing Machine Co. will cease to do business, Mr. Deamer will remain with New Home as executive vice president and general manager in charge of all operations.

Kaiser Steel Corp.—Net Down—

Operations in the second quarter of 1960 resulted in unaudited net earnings of $188,000 it was announced on July 18 by Jack L. Ashby, president.

For the first half of 1960 earnings were $6,875,000, or $1.60 per share of common stock, as compared with $10,198,000 or $2.61 per common share for the first half of 1959 when record production occurred as a result of advance buying by customers in anticipation of the steel strike.

Although there was a generally strong steel market in the first quarter of 1960 due to inventory rebuilding following the strike, sales and orders have been running at substantially lower rates since the beginning of the second quarter.—V. 191, p. 2639.

Lamtex Industries Inc.—Common Stock Offered—Pursuant to a prospectus dated July, 100,000 shares of common stock (10¢ par) were offered via Finkle, Seskis & Wohlstetter of New York City, at a price of $5 per share.

BUSINESS—The company was incorporated in New York on March 17, 1955, and on Feb. 29, 1960 acquired all the stock of P.M.L. Manufacturing Corp. Its principal plant and executive offices are located on Motor Ave. in Farmingdale, L. I. The company is engaged in the design, engineering, development and manufacture of glass fiber reinforced plastic components and assemblies which are principally used in missiles, rockets, airplanes, radar sets, sonar sets, torpedoes, electronic and heavy electrical equipment.

80% of the company's sales during the fiscal year ended Feb. 29, 1960, were Government sales under sub-contracts, which were largely military prototype. Contracts and sub-contracts for sales to the Government may be terminated at the convenience of the Government. In the event of such termination the company is entitled to receive payment for its costs and in general for a proportionate share of its profits on the work done prior to termination. Most of the company's military sales are for end use in a number of different aircraft, missile and rocket programs. Any reduction in military expenditures could have an adverse effect on the company's sales and earnings. The company's sales on contracts and sub-contracts for the Government have not to date been subject to renegotiation. Such contracts and sub-contracts to the Government are subject to renegotiation when the annual sales exceed $1,000,000.

PROCEEDS—The net proceeds of the sale of the 100,000 shares after deduction of expenses of approximately $37,000 will be approximately $413,000. The company propcses to apply approximately $60,000 to increase its sales effort by employing additional salesmen and advertising, approximately $40,000 for further research and development on

Digitized for FRASER
http://fraser.stlouisfed.org/

proprietary products of the company, which are now in the development stage, approximately $50,000 to purchase additional machinery and equipment, approximately $100,000 to repay to a bank existing short-term obligations which were incurred in order to provide necessary working capital and which are guaranteed by the principal stockholders of the company, $26,119.82 to repay loans from stockholders plus accrued interest thereon, and the balance of approximately $135,000 will be added to working capital to be used for general corporate purposes.

APPOINTMENTS—Transfer Agent—Chemical Bank New York Trust Co., 30 Broad St., New York 15, N. Y. Registrar—The Franklin National Bank of Long Island, 199 Second St., Mineola, N. Y.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

The capitalization of the company as of June 30, 1960, and as adjusted to reflect the sale of the shares offered hereunder, and the application of the proceeds are as follows:

	Authorized	Outstanding
Common stock (10c par)	*1,000,000 shs.	448,268 shs.
6% short-term notes due July 31, 1960 to the Franklin National Bank of Long Island	100,000	†
6% demand loans due officers, directors and stockholders	26,120	†

*Of this amount, 25,000 shares have been set aside in accordance with a restricted stock option plan and options have been granted pursuant to such plan to key employees covering an aggregate of 19,500 shares.

†These obligations are to be paid out of the proceeds of the offering. $45,000 of the $100,000 obligation existed on Feb. 29, 1960; an additional $55,000 was borrowed subsequent to that date.

Upon the sale of 100,000 shares of common stock, the public will have 22.3% of the company's outstanding common at an aggregate cost of $500,000. The stockholders of the company, other than the public but including the underwriter, will remain with 348,268 shares, for which they contributed the other net assets of the business presently being conducted. Based on the balance sheet on Feb. 29, 1960, the book value of the outstanding shares is approximately $.429 per share, and upon the completion of the offering will be $1.449 per share. The increase in book value is being contributed by and the immediate dilution from the $5.00 offering price is being absorbed by the public stockholders.—V. 191, p. 2203.

Liberty Records, Inc.—Common Stock Offered—Pursuant to a July 12 prospectus, Crowell, Weedon & Co., of Los Angeles, publicly offered 150,000 shares of this firm's 50¢ par common stock at $7.75 per share.

PROCEEDS—The net proceeds realized by Liberty from the sale of the common stock will be used for general corporate purposes, principally for use as working capital. Approximately $500,000 and $150,000, respectively, of such proceeds will be used to reduce current royalties payable and trade accounts payable. It is anticipated that during the six months' period following this offering, approximately $200,000 of said proceeds will be used to produce additional master tapes for future releases. Approximately $70,000 may be used as partial payment in acquiring two companies.

BUSINESS—Liberty was incorporated under the laws of the State of California on Feb. 11, 1955. Liberty's principal executive offices are located at 6820 Sunset Boulevard, Los Angeles, Calif., and it maintains sound studios and recording facilities at 1556 North La Brea Avenue, Los Angeles. Liberty records and distributes stereo and monaural albums, 45 R P.M. extended play albums, and single records, with emphasis on diversified stereo and monaural albums. In 1959, based on total dollar volume of retail sales in the United States, Liberty was rated tenth among the more than 1,500 recording companies in the field.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

	Authorized	Outstanding
Debt:		
Trust deed notes payable	$206,382	$206,382
Sundry indebtedness (long-term)	72,500	72,500
Capital stock:		
*Common stock (50 cents par value)	1,000,000 shs.	150,000 shs.
†Class B com. stock (50c par value)	500,000 shs.	454,500 shs.

*Of which 454,500 shares are reserved for issuance upon conversions of class B common stock, 15,000 shares are initially reserved for issuance upon exercise of Employee Restricted Stock Options which may be issued under the plan and 45,450 shares are initially reserved for issuance upon conversions of class B common stock which may be issued upon exercise of such options.

†Of which 45,450 shares are reserved for issuance upon exercise of such Employee Restricted Stock Options.

APPOINTMENTS—The transfer agent and co-transfer agent, and the registrar and co-registrar, for the common stock are as follows: Transfer Agent: California Bank, of Los Angeles, Calif.; Co-Transfer Agent: First National City Bank of New York, N. Y.; Registrar: Union Bank, of Los Angeles, Calif.; Co-Registrar: The Chase Manhattan Bank, of New York, N. Y.

UNDERWRITERS—The underwriters named below, acting severally through their representative Crowell, Weedon & Co. (the "representative") have entered into an underwriting contract with the company, wherein the company has agreed to sell and each underwriter has severally agreed to purchase the number of shares of common stock set forth below:

	Shares		Shares
Crowell, Weedon & Co.	74,000	Lester, Ryons & Co.	10,000
Hayden, Stone & Co.	14,000	Bingham, Walter & Hurry, Inc.	6,000
Paine, Webber, Jackson & Curtis	14,000	Evans MacCormack & Co.	6,000
Bateman, Eichler & Co.	10,000	Wagenseller & Durst, Inc.	6,000
Hill Richards & Co.	10,000		

The Chase Manhattan Bank has been appointed New York registrar of the common stock, 50 cents par value, of the corporation.—The First National City Bank of New York has been appointed transfer agent for 1,000,000 shares of common stock (par 50 cents) and The Chase Manhattan Bank has been appointed New York Registrar of the common stock of the corporation.—V. 191, p. 1567.

Lindly & Co., Inc.—Record Net—

The Mineola, New York, company announced on July 18 its six months' sales and profits as the highest for any half year period in the history of the Long Island electronics manufacturer.

Sales for the first six months of 1960 were $392,631. Net profits for the same period were $8,625.

For the entire year of 1959, Lindly sales were $460,000 and profits $5,800.

Howard C. Lindemann, President, said: "A number of improvements in manufacturing efficiency of the company has been reflected in an increase in the rate of gross profits. Last year gross profits were 35.8% of sales.

"During the first six months of 1960, the gross profit rate has been 40.4%, an increase of 4.6% over last year," he said.

Mr. Lindemann expects the upward trend in sales to continue to the end of 1960. Before the end of the year, the company plans to introduce a new electronic product for use in the textile and other industries.

He added: "Bank loans have been reduced 70% from January 1960. At that time, the company owed $74,000."—V. 191, p. 8.

Lite-Vent Industries, Inc.—Transfer Agent—

The Irving Trust Co. has been appointed transfer agent of the common stock of the corporation.—V. 191, p. 2519.

Los Angeles Drug Co.—Partial Redemption—

The company has called for redemption on Aug. 1, next, $11,500 of its 6% convertible subordinated debentures due Aug. 1, 1971 at 102%. Payment will be made at the Citizens National Bank, Los Angeles, Calif.—V. 188, p. 1519.

Lytle Corp.—Semi-Annual Report—

The first half of the fiscal year, which ended April 30, 1960, was the largest half-year in the company's history. Sales were $2,529,496. Earnings for this period after reserve for taxes were $107,545, or 41.4 cents per each share presently outstanding. During this second quarter, production of technical publications was greater than in any previous quarter, and manufacturing capability in the field of electronics equipment was greatly expanded.

Lytle Vision demonstrators were shipped to all divisions for customer reaction. As a result, several improvements have now been incorporated in the equipment.

A contract with the Army Ballistic Missile Agency calling for miniature size DigiStep motor prototypes has been completed. These units are now being tested by the U. S. Army for application in their missile program.

The Lytle facility for the production of etched circuitry is now in full operation and deliveries are being made.

The company has established an engineering services branch in San Diego, Calif. The San Antonio, Texas branch has been expanded by an addition of a completely integrated printing plant, which enables the corporation to offer a more complete publications package.

The corporation has entered into an agreement to purchase over a period of one year, all of the assets of Allied Research and Engineering Co., Los Angeles, formerly a division of Allied Record Manufacturing Co. The net cash outlay will be approximately $95,000 for this operating company, including work-in-process, products, contracts, backlog, experienced technical personnel, equipment, and inventories. This acquisition represents an actual or replacement value of approximately $144,000.

The corporation's Allied Research and Engineering Division has developed a method of electroforming, which is the process of building structural parts by electro-deposition. The process lends itself to the reproduction of shapes and internal surface details which would be difficult or impossible to duplicate by other means. Components manufactured by this process are used in microwave guidance and communication sciences, such as those utilized in the missile systems of Nike-Hercules, Titan, and Atlas, as well as other research and development industrial applications such as linear accelerators or highly complex electronic systems.—V. 189, p. 2459.

Mallinckrodt Chemical Works—Subs. Shipment—

Mallinckrodt Nuclear Corp., wholly-owned subsidiary of Mallinckrodt Chemical Works, has completed shipment to Argonne National Laboratory of 1290 kilograms of highly enriched uranium metals, valued at $20,640,000. The value of the contract, which in cases like this is usually a small percentage of the value of delivered product, was not revealed.

This was the largest single procurement of enriched solid uranium fuel ever obtained by Argonne from any source. Just prior to receiving this contract, Mallinkrodt put 'on stream' a new uranium conversion process, thus making the Argonne contract the first to utilize the new process completely on a rigid production schedule that even the old process had never been called upon to meet.

Charles Harrington, vice president of Mallinckrodt Nuclear, stated, "To meet the rather tight delivery schedule, we operated the Hematite plant around the clock and the uranium metal produced under normal operating conditions of the new process exceeded contract specifications."

The first delivery was made on April 28 and the final delivery just two months later. This extensive production run proved not only the reliability of the new process, but also established high performance characteristics that could help establish new standards for the industry.

For example, the contract specifications called for the delivered product to be 99.85% pure uranium. By actual analysis for 16 different elements such as iron, aluminum, copper, cobalt, magnesium, etc., which are considered as contaminants in uranium metal, the purity averaged 99.97% for the entire order. This compares very favorably with the old process which usually yielded uranium metal around 99.94 to 99.95% pure.

Another important factor of the new process is the high yield of delivered product as related to the raw material fed into the process. Both the old and new processes use uranium hexafluoride (UF_6) as raw material, but the new process converts UF_6 directly to UF_4 and thence to metal by conventional means. The new process yielded over 99% acceptable product in one pass, which compares favorably with th contract specified total yield of at least 98.5%.—V. 191, p. 1880.

Mayflower Finance Co.—Offering Suspended—

The SEC has issued an order temporarily suspending a Regulation A exemption from registration under the Securities Act of 1933 with respect to a public offering of securities by this company, Fountain Building, Las Vegas, Nev.

Regulation A provides a conditional exemption from registration with respect to public offering of securities not exceeding $300,000 in amount. In a notification filed in March 1958, Mayflower Finance proposed the public offering of 200,000 common shares at $1 per share. The Commission's suspension order asserts that the company did not comply with certain conditions of the Regulation, in that it failed to file semi-annual reports of stock sales pursuant to the exemption and failed to cooperate with the Commission in connection with the filing of a revised offering circular. The order provides an opportunity for hearing, upon request, on the question whether the suspension should be vacated or made permanent.—V. 187, p. 1651.

McCrory Corp.—Merger News—

At meetings held on July 15, requisite approval of stockholders was obtained for the merger of three corporations to form McCrory Corp. The companies to be merged are McCrory-McLellan Stores Corp., United Stores Corp. and B.T.L. Corp.

The net worth of McCrory Corp. is approximately $100 million, represented by approximately 59,600 shares of 3½% cumulative convertible preferred stock, 95,700 shares of $6 cumulative convertible preference stock and 5,400,000 shares of common stock. All three classes of stock of McCrory Corp. will be listed on the New York Stock Exchange.

The principal executive officers of McCrory Corp. are: M. Riklis, chairman and president; Roy F. Coppedge, vice-chairman; Leonard Spangenberg, chairman of executive committee; and Harry H. Wachtel, executive vice president. McCrory's variety stores operations will continue under the leadership of Roy F. Coppedge and F. W. Paul.—V. 191, p. 2416.

Mead Corp.—Earnings—Dividend—

Earnings for the 12 weeks ended June 12, 1960 amounted to $3,666,279 equal, after preferred dividends, to 71 cents per share on 5,088,392 common shares, the average outstanding during the period.

This compares with $3,541,064 for the 12 weeks ended June 14, 1959, equal to 70 cents on 4,937,363 common shares, the average outstanding during this comparable period.

Net sales for the 12 weeks ended June 12, 1960 were $79,968,960. For the corresponding period in 1959 the net sales were $75,164,081.

For the 24 weeks ended June 12, 1960, earnings amounted to $6,483,997, equal to $1.26 per share. This compares with $6,210,248 in the same period a year ago, equal to $1.24 per share.

Net sales for the 24 weeks ended June 12, 1960 amounted to $157,029,528, compared with $144,464,280 in the corresponding period of 1959.

The Board of Directors declared a quarterly dividend of 42½ cents per share on the common shares and the regular quarterly dividend of $1.06¼ per share on the 4¼% cumulative preferred shares. The dividends are payable Sept. 1, 1960 to shareholders of record Aug. 12, 1960. The transfer books will not be closed.—V. 191, p. 2747.

Mechanical Enterprises, Inc.—Common Stock Offered—Pursuant to a July 14 offering circular, this corporation publicly offered 7,000 shares of its 50¢ par common stock at $6 per share, without underwriting.

BUSINESS—Mechanical Enterprises, Inc., was incorporated under the laws of the State of Virginia on April 6, 1960. The company was organized to engage in the development, improvement, manufacture, assembly and distribution of mechanical devices of all types.

Upon completion of the public offering, the public investors will own 7,000 shares of the outstanding common stock of the company (15.5%) for which they will have paid in cash a total of $42,000.00. The 16 private investors will own 3,060 shares (6.8%) for which they will have paid in cash a total of $15,300.00. The officers, directors, and promoters of the company and their nominees will own 35,000 shares of the stock (77.7%) for which they will have expended approximately $1,500.00 in cash, being the development costs of TYPIT. There are no options or warrants presently outstanding or proposed to be granted to purchase securities of the issuer.

PROCEEDS—The net proceeds to be received by the company from the sale of the common stock will be $42,000 before deducting offering expenses payable by the company in the estimated amount of $1,500.00.

There is no assurance that all of the stock offered hereby will be sold or that all such proceeds will be received by the company. There is no plan or arrangement to return any funds to investors in the event that all of the shares being offered are not sold.

It is estimated that the net proceeds to be received from this offering (after deducting the expenses of this offering), in the approximate amount of $40,500, will be expended in approximate amounts and priority as follows:

Current exps. (salaries, officers salaries, rent, office)	$8,000.00
Tooling	10,000.00
Plant, fixtures, and machinery	3,000.00
Working capital (production of parts)	19,500.00

In the event that less than the anticipated amount of the proceeds of the sale of this stock is received, the amount actually received will be applied to the above purposes in accordance with the above priority.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

	Authorized	Outstanding
Common stock (50c par value)	50,000 shs.	45,060 shs.

—V. 192, p. 115.

Medallion Pictures Corp.—Debentures Offered—Pursuant to a prospectus dated July 6, the company, via Hancock Securities Corp. of New York City publicly offered on a "best efforts" basis, $290,000 of 6½% convertible subordinated debentures, due March 30, 1968, at par plus accrued interest from March 30, 1960.

BUSINESS—The principal business of the company is the licensing of feature length motion pictures to television stations in the U. S., Canada, and other parts of the world. It derives 90% of its income from the licensing of such films in the U. S.

The company licenses the films to television stations either directly or through independent brokers, distributors and salesmen, to whom the company pays distribution commission of from 5% to 10%.

The company does not employ any salesmen on a salary basis. Advances by the company to independent salesmen are applied against their commissions.

Frequently the company licenses independent distributors to distribute certain of the films in unsold markets after they have already been sold in a majority of the television markets. In such instances, the company requires a substantial advance from the distributor against the license fees.

About 10% of the business of the company consists of the licensing of feature length motion pictures for exhibition in theatres throughout the U. S. The company licenses films for that purpose either directly, or through sub-distributors to whom the company pays a portion of the license fees. The sub-distributors through whom the company licenses films for theatrical exhibitors in the U. S. maintains sales offices in its principal cities.

The company also licenses films for theatrical distribution outside of the U. S. through sub-distributors, either on a fixed fee basis or on a minimum guarantee against division of the net income divided from the sub-licensing.

Pursuant to a vote of its stockholders, at their annual meeting, held on Dec. 23, 1957, the company acquired the remaining 43.11% interest in Wintree Productions, Inc. for 200,000 shares of its then 10c par value common stock.

The company's present subsidiaries, all wholly-owned, are MacDonald Enterprises, Ltd., Gina Productions, Inc., MacDonald Pictures Corp., Wintree Productions, Inc., Waverly Television Corp. and Medallion Films, Inc. The company office is located at 200 W. 57th St., New York City.

PROCEEDS—If all of the debentures are sold, the proceeds to the company will be $246,500 from which it will deduct $13,500 for expenses leaving a balance of $233,000. Of this latter amount, the company intends to use $108,000 to repay loans from a factor and a bank secured by a pldge of the company's accounts receivable and the balance for additional working capital and other general corporate purposes.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

The capitalization of the company, as at March 1, 1960, adjusted to give effect to the offering is as follows:

	Authorized	Out'stang.
Common stock	*1,000,000	†212,000
6½% conv. subord. debs., due Mar. 30, 1968	§$290,000	$290,000

*The company's stockholders, at a special meeting called for that purpose, on Aug. 25, 1958, approved an increase to 50c per share as the par value of the company's original 10c par value stock and an increase in the company's capitalization from $200,000, consisting of 2,000,000 shares, to $500,000, consisting of 1,000,000 shares.

†This figure includes 1,200 shares issued, but retained in the company's treasury.

§These debentures are convertible into common stock over an eight year period at a sliding conversion price.

APPOINTMENT—The transfer agent for the company is Colonial Trust Co., 79 Pine St., N. Y., New York.—V. 191, p. 2747.

Melpar, Inc.—Defense Contracts—

This subsidiary of Westinghouse Air Brake Co., has been awarded two contracts for detection devices and systems.

The Northern Virginia electronics firm will produce a number of target detecting devices under a $1.4 million Bureau of Naval Weapons contract assigned to project engineer Walter H. Rogers of Melpar's Columbia Pike production department.

Under the second contract, the Physical Sciences Laboratory will design warning and detection systems and subsystems for the U. S. Army Chemical Center. First phase is under the direction of Lab Section Head, Donald M. MacArthur.

Metro-Goldwyn-Mayer Inc.—May Up Dividend—News

Joseph R. Vogel, President of Metro-Goldwyn-Mayer Inc., reported on July 8 that the company, which operates diversified entertainment enterprises throughout the world, had earned $17,168,000 which after interest and U. S. and foreign taxes amounted to a consolidated net profit of $7,317,000 during the first three quarters of fiscal 1960—an increase of 18.8% over the results of the similar 1959 period.

The new profit amounts to $2.92 per share on 2,505,100 shares outstanding—a 12-year high.

Mr. Vogel forecast a long-range extension of the uptrend. He said that when final figures for the fiscal year ending Aug. 31 become available early in November, he would recommend to the Board of Directors that additional dividend action be taken.

"We expect earnings for the full fiscal year to exceed $3.75 per share—and we have sound reason to believe that fiscal 1961 will produce an even higher return," he said. "The strength of our assets and our concrete plans for the future give us every confidence in continued growth."

Pointing out that the 12-week third quarter which ended June 9 was the seventh consecutive profit period since present management assumed office, Mr. Vogel said: "MGM has come a long way since its 1957-58 crisis. The assets which were preserved for the stockholders have now appreciated considerably in value. More importantly, the assets are producing earnings—every single one of them."

Mr. Vogel noted that quarterly dividend checks representing 30 cents per share would be mailed to stockholders within a few days, together with the results of the first three quarters ending June 9.

"That dividend payment will be the fourth since the resumption of dividends in 1959," he said.

The $2.92 per share earned by MGM on 2,505,100 shares up to June 9 might be compared not only with the $2.31 per share earned during the first three-quarters of 1959 on 2,668,388 shares but also with the $2.91 earned for the full year of 1959 on 2,641,288 shares then outstanding.

"While there are fewer shares now outstanding as a result of company purchases, the fact remains that MGM earnings per share in the first 40 weeks of this year equalled those of all 52 weeks of 1959," Mr. Vogel said. "Therefore all earnings during the current 12-week period which ends Aug. 31 will provide additional profits over the full year of 1959."—V. 189, p. 1796.

Miles Laboratories, Inc.—Appointments—

The First National City Trust Co. has been appointed trustee, paying agent, registrar and conversion agent for $8,255,000 principal amount of 4¾% convertible subordinated debentures due 1980 of the corporation issued under indenture dated as of July 1, 1960.—V. 192, p. 210.

Minerals & Chemicals Corp. of America—Net Up—

The Menlo Park, N. J. corporation issued the following comparative tabulation of results of operation for the first six months of 1960:

Period End. June 30—	1960—6 Mos.—	1959
Sales and other revenues	$9,849,208	$9,080,222
Net income before taxes	1,914,343	1,770,513
Net income after taxes	1,357,843	1,241,913
Earnings per share	$0.60	*$0.60

*Adjusted to 2,070,631 shares outstanding as of June 30, 1960.

The President of the corporation, C. A. Specht, announced that the rising trend in product sales and profits recorded during the first quarter of 1960 continued through the second quarter with the result that volume and earnings for the first six months were the highest for any corresponding period in the company's history. While net operating revenues increased 8.5%, net income after taxes exceeded by 9% the previous record achieved during the first half of 1959.

Revenues for the second quarter of 1960 were greater than those reported for any three month period despite curtailed lime and limestone sales resulting from production cut-backs in the steel industry and reduced royalty income due to the expiration of certain patents during the latter part of 1959. Kaolin shipments to the paper industry continued to advance; attapulgite revenues rose as sales to the petroleum drilling fluid and industrial oil and grease absorbent markets continued strong; and sales of the company's petroleum cracking catalyst were made to additional commercial units during the period.—V. 191, p. 1114.

Minneapolis-Moline Co.—Capital Structure—

The threat of dilution of common shares was removed and the capital structure of the Hopkins, Minn., company was simplified and strengthened by calling $6,124,900 of 6% convertible debentures for redemption on July 6, 1960, J. Russell Duncan, president, announced on July 14.

The call for redemption maintained the equity of present common shareholders and eliminated possible dilution in the amount of approximately three million dollars in book value, or approximately $3 per share of common.

Moline redeemed $5,939,600 of these debentures for cash after issuance of only 8,056 shares of common at the rate of $23 per share on conversion of $185,300 of debentures. The total outstanding common was not increased, however, since the company's treasury stock of shares was increased to offset the conversions from debentures.

Redemption of the debentures, Mr. Duncan declared, marked another important step in the capital simplification program which by the end of 1960 will have eliminated close to $29,000,000 in debt and other obligations taking precedence over common stock, since present management instituted the program in November, 1957.

"The tremendous benefits of this program to common stockholders," he continued, "are reflected in the fact that net working capital per common share was $29.47 at the end of the 1960 second quarter, as contrasted with only $19.96 on Oct. 31, 1957, and book value per share amounted to $37.09 against $35.88 at the end of October 1957."

Moline's capitalization consists only of 964,055 shares of common stock as of April 29, 1960. The long-term debt is reduced to a note held by an institutional investor, currently outstanding in the amount of $7,500,000. The company has set up a line of short-term bank credit to provide funds for redemption of debentures and such borrowing under this arrangement should be repaid by the end of the current year.

When management assumed control of the company in 1957, Moline was overdue on short-term bank loans in excess of $17,000,000; the privately-placed long-term notes stood at $10,500,000; the 6% convertible debentures amounted to $6,433,000; and there was $3,189,000 in 1st and 2nd preferred shares, including dividend arrearages on both.—V. 191, p. 2416.

Missile-Tronics Corp., Passaic, N. J.—Files With SEC

The corporation on July 8, 1960 filed a letter of notification with the SEC covering 200,000 shares of common stock (par 10 cents) to be offered at $1.50 per share, through Edward H. Stearn & Co., Inc., New York, N. Y.

The proceeds are to be used for general corporate purposes.

Monterey Oil Co.—Net Down—

The company on July 20 reported gross income of $16,802,386 and net income of $1,445,087 for the nine months ended May 31, 1960. Cash income, which represents gross income less operating costs and interest paid, amounted to $7,078,916.

President Howard C. Pyle said the net income is equal to 74 cents per share on the 1,952,115 shares of common stock outstanding.

For the first nine months of the previous year, Monterey recorded gross income of $17,591,178, cash income of $8,746,739 and net income of $1,886,956, equal to $1.01 per share on the 1,860,654 shares then outstanding.

The number of shares outstanding at the present time, Pyle said, reflects the 4% stock dividend paid last January.—V. 191, p. 703.

Murphy Corp.—To Show Increase—

The corporation will report an increase of 20% in net income for the fiscal year ended May 31, 1960, according to preliminary figures announced by C. H. Murphy, Jr., President

The estimate, subject to final audit, indicates that net income for the year will be $3,500,000 as compared with $2,919,003 in the previous 12 months. This represents earnings of $1.36 per share as against $1.15 per share a year ago. Average shares outstanding in the periods were 2,572,460 this year and 2,546,659 last year after adjusting for the 4% stock dividend paid in September, 1959.

Mr. Murphy said that higher revenue from crude oil and natural gas production more than offset a loss in refining operations due to lower sales prices for gasolines and heating oils.

For the fourth quarter of the fiscal year, net income was about $765,000, a gain of 11% over $693,000 in the same period a year earlier.

Crude oil and natural gas liquids produced averages 13,960 barrels daily for the 12 months, 19% more than a year ago, and 14,063 barrels per day for the fourth quarter, up 10%. Natural gas production averaged 51,757mcf per day during the year and 50,989 mcf daily in the quarter, up 25% and 7% from like periods a year earlier.

Refinery runs to stills were at a daily average rate of 9,274 barrels in the 12 months and 10,929 barrels in the last quarter, up from averages of 8,211 barrels and 9,627 barrels, respectively. Finished product sales averaged 15,998 barrels daily during the fiscal year and 17,364 barrels per day during the fourth quarter. Comparable figures in the earlier periods were 13,107 and 11,596.—V. 191, p. 1008.

Mutual Employees Trademart, Inc.—Motions Denied—

In a decision announced July 15, the SEC denied a motion of Mutual Employees Trademart, Inc., Hialeah, Fla., to withdraw its Regulation A notification under the Securities Act of 1933 proposing the public offering of 200,000 common shares at $1.50 per share. In an earlier order, the Commission had temporarily suspended the exemption from registration; and a hearing is scheduled for July 19, 1960, on the question whether the suspension should be vacated or made permanent. The Commission also denied a motion for an opportunity to correct any deficiencies in the company's notification and offering circular and for a bill of particulars.—V. 191, p. 2640.

National Aeronautical Corp.—Exchange Offer—Pursuant to a July 13 prospectus, the National Aeronautical Corporation (a New Jersey Corporation, herein called "NARCO") offers shares of its common stock in exchange for issued and outstanding shares of common stock of Air-Shields, Inc. (a Delaware Corporation, herein called "Air-Shields") at the rate of 2.9 shares of NARCO stock for one share of Air-Shields stock, upon the terms and conditions herein set forth. On March 31, 1960, 48,494 shares of Air-Shields common stock were issued and outstanding, and restricted stock options covering 870 additional shares were outstanding. It is expected that these options will be exercised prior to the expiration of the offer of exchange.

CONDITIONS—This offer contains two special conditions:

(1) If the offer is accepted by the holders of less than 80% of the outstanding shares of Air-Shields, the offer will terminate automatically and the exchange will not take place;

(2) If the offer is accepted by holders of 80% or more of the outstanding shares of Air-Shields but is not accepted by holders of 100% of the outstanding shares of Air-Shields, then NARCO reserves the right to withdraw the offer by 5:00 p.m. on the day following the expiration date of the offer of exchange, and in such event the exchange will not take place.

In addition thereto, the consummation of the exchange will be subject to the following general conditions:

(1) The financial information previously furnished by NARCO and Air-Shields to each other reflect the current condition of the companies and no obligations, claims or liabilities exist against either company, other than those reflected in said financial information or incurred in the regular course of business.

(2) Prior to the consummation of the exchange, Air-Shields will pay no dividends exceeding in the aggregate those paid in the fiscal year ending July 31, 1959.

(3) Neither company will change its capital structure nor issue stock (except pursuant to outstanding options and, in the case of NARCO, in connection with this exchange) nor sell, mortgage, or lease its property nor engage in any activity other than its normal business, without written consent of the other company.

To the extent that they bind Air-Shields or its stockholders, any or all of these general conditions may be waived by NARCO.

ACCEPTANCE—The offer of exchange may be accepted, subject to the terms and conditions herein set forth, by stockholders of Air-Shields by depositing with the Exchange Agent, The First Pennsylvania Banking and Trust Company, 15th & Chestnut Sts., Philadelphia 1, Pa., their Air-Shields certificates, accompanied by duly executed stock powers, together with a properly executed Letter of Transmittal and Acceptance Form and any necessary supporting papers, and by complying with the instructions set forth on the reverse side of the Letter of Transmittal and Acceptance Form.

EXPIRATION DATE—The deposit of certificates of Air-Shields common stock and the acceptance of the offer of exchange will be irrevocable until 5 p.m. on the day following the expiration date.

The expiration date is Aug. 15, 1960 or such later date as NARCO may hereafter designate by written notice to the exchange agent.

If the exchange has not become effective on Sept. 15, 1960, the deposits and acceptances will on that day become subject to revocation by the depositing Air-Shields stockholders.

The offer of exchange shall terminate automatically if on the expiration date holders of less than 80% of the then outstanding Air-Shields stock have validly accepted the offer.

The exchange shall be declared effective at 5 p.m. on the day following the expiration date, provides:

(1) NARCO has not withdrawn the offer of exchange by written notice to the exchange agent in accordance with the right reserved to do so; and

(2) There is compliance with the general conditions set forth above (except to the extent waived by NARCO).

Thereupon the exchange agent will give prompt notice of the status of the exchange to each stockholder of Air-Shields who has accepted the offer.—V. 191, p. 1881.

National Starch & Chemical Corp. (& Subs.)—Statement—

Six Months Period Ended June 30—	1960	1959
Net sales	$27,483,585	$25,933,001
Income before taxes	3,371,548	3,193,669
Provision for taxes	1,780,333	1,642,905
Net income after taxes	1,591,215	1,550,764
*Earnings per common share	$0.78	$0.76
Common shares outstanding	2,022,877	2,002,407

* After preferred dividends. Computed for 1959 after adjusting shares for 2% stock dividend effective March 10, 1960.—V. 191, p. 2205.

Nationwide Leasing Co.—To Underwrite Lease Plan—

A new long-term lease plan covering all typewriter, adding-calculating machine, and systems products was introduced on July 20 by Remington Rand.

Announcement of the lease plan was made jointly by Kenneth R. Herman, President of the Remington Rand Division of Sperry Rand Corp., New York, and Robert Sheridan, president of Nationwide Leasing Co., Chicago. Nationwide will underwrite the program throughout the country.

"This new plan has been developed to meet the needs of both the smallest businesses and giant corporations," Mr. Herman said. "Management can now introduce cost-saving equipment into its offices without expenditure of working capital. For many firms, it will be possible to pay the monthly leasing charges out of money saved by the new equipment."

"Leases can range in size from as little as $175 for a single adding machine up to hundreds of thousands of dollars for complete office systems," Mr. Herman added. "Where additional equipment is included under a master lease, a single transaction could involve several million dollars."—V. 191, p.104.

Nestle-Le Mur Co.—Private Placement—The firm on July 19 announced the placement with institutional investors of $1,500,000 of promissory notes due 1975. The investors have also agreed to purchase certain additional notes at the option of the company. Hornblower & Weeks negotiated the placement.

PROCEEDS—Proceeds will be used by the company to refund short-term borrowings and to add to working capital.

BUSINESS—Nestle-le Mur Co. is principally engaged in the manufacture and sale of toiletries, cosmetics and ethical drugs.—V. 188, p. 1197.

New Jersey Natural Gas Co.—Net Up—

Net income for the 12 months ended June 30, 1960 amounted to $1,575,960, equal to $1.60 on each of the 908,924 common shares outstanding at the end of the period. This compares with net income of $1,355,413, or $1.43 per share on the 883,638 shares outstanding as of June 30, 1959.

The 1959 shares and earnings figures have been adjusted to reflect the two-for-one stock split, effective Dec. 4, 1959.—V. 192, p. 115.

New Jersey Power & Light Co.—Bonds Offered—Halsey, Stuart & Co. Inc. and associates offered on July 20 an issue of $5,000,000 of the company's first mortgage bonds, 4⅞% Series, due July 1, 1990, at 101.185% and accrued interest, to yield 4.80%. Award of the bonds was won by the underwriters at competitive sale on July 19 on a bid of 100.39%. All the other bids named a 5% coupon rate. They were: Equitable Securities Corp., 101.86; Merrill Lynch, Pierce, Fenner & Smith Inc., 101.691; Kuhn, Loeb & Co., 101.60; Eastman Dillon, Union Securities & Co., and White, Weld & Co., 101.579, and Kidder, Peabody & Co., 100.419.

PROCEEDS—Net proceeds from the financing will be applied by the company toward the cost of its 1960 construction program. It is estimated that construction expenditures for 1960 will approximate $7,750,000.

REDEMPTION—The 1990 series bonds will be redeemable at regular redemption prices ranging from 105.06% to par, and at special redemption prices receding from 101.19% to par, plus accrued interest in each case.

BUSINESS—The company provides retail electric service to all or portions of 105 municipalities in the western and northwestern parts of New Jersey comprising about 1,750 square miles, or about 23.1% of the total area of the state. The company has approximately 100,000 residential customers and serves an estimated population of 293,000.

REVENUES—For the 12 months ended March 31, 1960, the company had operating revenues of $19,813,944 and net income of $2,871,102.

PURCHASERS—The names of the several purchasers of the 1990 series bonds, and the principal amounts which they have agreed to purchase are as follows:

	Amount		Amount
Halsey, Stuart & Co. Inc.	$3,200,000	Wm. E. Pollock & Co., Inc.	$300,000
Burns Bros. & Denton, Inc.	600,000	Walter Stokes & Co.	100,000
Courts & Co.	300,000	Thomas & Co.	200,000
Freeman & Co.	200,000	Arthur L. Wright & Co., Inc.	100,000

—V. 192, p. 211.

Newmont Mining Corp.—Net Up—

Net income was up 28% for the first six months of 1960, increasing to $6,780,121 or $2.40 per share, from $5,284,178, or $1.88 per share, for the same period in 1959, P. Malozemoff, President, stated in a semi-annual report issued July 19. Cash dividends of $1.20 per share were paid during the first six months of 1960, up from $1.00 per share for the same period in 1959.

Mr. Malozemoff explained that the net asset value of $95.37 per share at June 30, 1960, declined from $103.48 at 1959 year-end, and reflects the decrease in market value of the copper and oil stocks held by the corporation.

He reported that the Atomic Energy Commission has agreed to extend from March 31, 1962 to Dec. 31, 1966, its commitment to purchase uranium concentrate produced from the properties of Dawn Mining Co. near Spokane, Wash. Dawn, 51% owned by Newmont, has recently supplemented its ore reserves by purchasing certain additional mining leases and properties tributary to the Dawn mill.—V. 191, p. 507.

New York Central RR.—Exchange Offer—Earnings—

The Board of Directors announced on July 14 that a special meeting of shareowners will be held in the Sheraton Ten Eyck Hotel, Albany, New York, on Oct. 4 to consider formally and act upon a proposal to exchange 1½ shares of the capital stock of the company plus $9 in cash for each share of common stock of Baltimore and Ohio Railroad Co. up to a maximum of 1,550,000 shares of Baltimore and Ohio common stock in the aggregate.

The Board has fixed the close of business on Aug. 29, 1960 as the record date for the determination of shareowners entitled to the notice of and to vote at such meeting.

The Board also announced that earnings of the company exceeded $1.00 per share for the first six months of 1960. Based on these earnings the Board declared a dividend of 25 cents per share upon the capital stock of the company, payable on Sept. 9, 1960, to shareowners of record at the close of business on Aug. 11, 1960. This represents 50 cents a share declared on 1960 earnings thus far this year.—V. 192, p. 10.

Norfolk Southern Ry.—Modernization—

The railway has taken another important step in a continuing program to modernize its physical plant and improve service to the shipping public. Following substantial additions to its fleet of freight cars in recent years, and its accounting mechanization program which is well under way, it now has inaugurated mechanization of roadway maintenance.

The first mechanized equipment for roadway maintenance, which is now in service, includes an Electromatic Tamper, manufactured by Tamper, Inc., of Plattsburgh, N. Y., and Nordberg Tamping Power Jack, Trak-Surfacer, Trakliner and Line Indicator, all products of Nordberg Manufacturing Co., of Milwaukee. The Electromatic Tamper employs the squeeze and high frequency vibratory method of tamping. It is designed primarily for the efficient consolidation of ballast in connection with surfacing lifts, but is adjustable to operate with comparative efficiency under any conditions of ballast with effective tamping in raises up to eight inches. The Nordberg Tamping Power Jack and Trak-Surfacer work ahead of the Electromatic Tamper and raise the track to the desired level, tamping cross ties at intervals in order to hold the track in place until the balance of the ties are tamped. The Trakliner and Line Indicator correct any misalignment of the track. The roadway maintenance machinery has been obtained under the lease arrangement, in order to conserve capital funds, and it is anticipated that substantial benefits will accrue to the company from the mechanization program.

Careful study of all factors involved has convinced Norfolk Southern's management that the adoption of modern mechanization concepts has become imperative in the highly competitive transportation field where the railroad industry has experienced increasing difficulty in meeting the challenge of increasing costs and declining traffic. It is believed that the program currently under way will materially assist efforts to provide better maintenance at lower cost and it is anticipated that additional equipment may be obtained as the program develops.

Added to the ballast regulator which the company already had in service, the new, modern roadway equipment will do faster and more efficiently the track work formerly done by section labor.

The company operates approximately 592 miles of road and last year reported revenues of $9,875,008. Roadway maintenance accounts for a significant portion of operating expenses, amounting to approximately 21.4% of total revenue last year. This, of course, included roadway items other than the track maintenance which is now being mechanized.—V. 192, p. 10.

Norris-Thermador Corp.—N. Y. S. E. Listing—News—

This California company which began trading on the New York Stock Exchange on July 13 is, according to its Board Chairman, "presently investigating several potential acquisitions in various parts of the country."

K. T. Norris, in New York for the listing ceremonies of Norris-Thermador Corporation, said:

"We are actively seeking well managed companies which may be purchased for cash, but we will consider an exchange of stock where the growth possibilities appear excellent."

The corporation is in "a favorable situation to make acquisitions," Mr. Norris said. He pointed out the company has approximately $5,000,000 in cash and securities, has no funded debt, and no outstanding preferred stock.

The company will be designated by the symbol NT on the trading floor. Previously trading was done on an over-the-counter basis.

Also representing the corporation in the listing ceremony today were W. E. Cranston, President; H. J. Shumaker, Vice-President-Finance; James L. Lewis, Vice-President and K. T. Norris, Jr., Assistant General Manager, Norris Division.

The company is listing a total of 1,415,776 common shares. Shareholders number 4,295. Norris-Thermador was incorporated under California laws in 1940, and had its first public offering in 1950.

It is the largest producer of pressed metal products on the West Coast, with diversified product lines. Its six manufacturing plants and a research and development facility cover a total of 1,275,000 square feet of floor space, all in the Los Angeles area.

The company, anticipating sales of approximately $40,000,000 for its fiscal year which ends July 31, 1960, is an important producer of automobile wheels, cylinders for compressed gases, stainless steel cookware, vitreous china and pressed steel plumbing fixtures, electric appliances for cooking, heating and refrigerating, and military products.

Mr. Norris said: "While continuing to be the largest producer of artillery cartridge cases for the Army and the Navy, the company for the past five years has also been establishing a firm position in the rocket and missile field. We are one of two suppliers of motor metal parts for the Sidewinder missile and one of the three principal suppliers of the first and second stage motor chambers for the Polaris missile.

Digitized for FRASER
http://fraser.stlouisfed.org/

"The company has been extremely active in connection with the development and testing of catalytic mufflers and after-burners for controlling smog-producing elements discharged by automobiles and trucks. Because of our location and facilities we have real hopes of being a producer of these units, either of our own design or under a license agreement."

Sales for the six-month period ended Jan. 31, 1960, were $20,566,385, an increase of 22% over the $16,788,352 reported for the corresponding period of the previous year.

During the same period net income amounted to $1,589,272, equivalent to $1.12 per common share, as compared with $830,573, or 59 cents per share, for the preceding year's first half.

The corporation increased its quarterly dividend on its common stock to 22½ cents per share in the quarter ended April 30, 1960, establishing a new annual rate of 90 cents, superseding the former annual rate of 75 cents.—V. 191, p. 10.

North American Properties Corp.—Offering Suspended

The SEC has issued an order temporarily suspending a Regulation A exemption from registration under the Securities Act of 1933 with respect to a public offering of stock by this corporation of Philadelphia.

Regulation A provides a conditional exemption from registration with respect to public offerings of securities not exceeding $300,000 in amount. In a notification filed in April, 1958, as amended, the said company ("issuer") proposed the public offering of 80,000 units at 51c per unit, each unit to consist of 5 class A and 1 class B shares (for a total offering of $40,800). The Commission's suspension order asserts that a Regulation A exemption is not available because an undisclosed affiliate and promoter of the issuer, John L. de Lyra, has been enjoined from violating provisions of the Securities Act; that certain terms and conditions of the Regulation were not complied with; that the issuer's notification and offering circular are false and misleading in respect of certain material facts; that a report of stock sales pursuant to the exemption is false and misleading; and that the stock offering was made in violation of Section 17 (the anti-fraud provision) of the Securities Act. A hearing will be held, upon request, on the question whether the suspension should be vacated or made permanent.

The alleged misrepresentations in the issuer's notification and offering circular relate, among other things, (a) to a failure to disclose a promoter who was in a controlling position, the interest of each officer, director and promoter, and that named officers and directors were mere fronts for the undisclosed promoter; and (b) to statements that the issuer's address is 1700 Walnut Street, Philadelphia, that its principal activities would be in Philadelphia and neighboring cities, and that the issuer had no properties under serious consideration at the time the offering circular was amended (April 30, 1958), that 10,000 class A and 20,000 class B shares were sold to officers and directors for $1,020 cash and the inclusion of a statement in the balance sheet that the said class A and class B shares had been sold for $1,020 and that such amount had been received, and a statement that the address of the alleged officers and directors, Theodore Kempinski and Joan Pierce, was 225 S. 17th Street or 2245 S. 17th Street, Philadelphia. —V. 187, p. 1787.

North American Van Lines, Inc.—Hikes Dividend—

An increase in the quarterly dividend rate from 6¼c to 10c per share was recently voted by directors of this world-wide moving organization, in declaring a dividend of 10c per share for the third quarter which is payable on Oct. 20 to shareholders of record on Oct. 6.

According to James D. Edgett, president, this increase, which is the first in the quarterly rate since 1954, is due to an anticipated rise in 1960 earnings and the substantial improvement in company's working capital situation which makes possible the distribution of a larger portion of earnings to shareholders.—V. 191, p. 2417.

Nylock Corp., Paramus, N. J.—Files With SEC—

The corporation on July 15, 1960 filed a letter of notification with the SEC covering 14,225 shares of common stock (no par) to be offered at $6.25 per share, without underwriting.

The proceeds are to be used for general corporate purposes. —V. 178, p. 1988.

Parke-Davis & Co.—Record Net, Sales—

Record world-wide sales and earnings for the first half of 1960 were reported on July 15 by this company.

Net sales for the first six months totaled $99,045,616, while net earnings for the period were $15,130,626, equal to $1.02 on each of the 14,842,735 shares of common stock outstanding.

Parke-Davis sales for the 1960 first half represented a 9.1% increase over the comparable 1959 period, when sales totaled $90,792,160. Earnings were up 10.1% from the like 1959 period, when they totaled $13,737,388, equal to 93 cents per share.

The pharmaceutical firm will pay an estimated income tax of $15,191,000 on first half operations this year, as compared with $14,141,000 for the same period in 1959.

The company had net sales of $45,628,447 and earnings of $5,579,094 during the second quarter of 1960, while sales and earnings during the second three months of 1959 totaled $45,942,090 and $6,835,400, respectively. Parke-Davis previously reported 1960 first quarter sales of $53,417,169 and earnings of $9,551,532.

Parke-Davis will pay its 291st consecutive dividend on July 29 to approximately 39,400 stockholders. The 25 cents per share payment will total more than $3,710,000.—V. 190, p. 674.

Pauley Petroleum Inc.—Debentures Offered—Pursuant to a July 12 prospectus, William R. Staats & Co., of Los Angeles, offered $10,000,000 of this firm's 5¾% subordinated debentures, due June 1, 1976, at par, plus accrued interest from June 1, 1960.

BUSINESS—The company was incorporated in Delaware on June 2, 1958. On Oct. 15, 1958 it acquired, as of Sept. 1, 1958, substantially all the assets of the oil and gas business which for many years had been conducted by Edwin W. Pauley as an individual operator. On Oct. 15, 1958 the company also acquired all the outstanding capital stock of Pauley Pan American Petroleum Co. The assets acquired from Edwin W. Pauley, apart from his shares in Pauley Pan American, consisted principally of domestic oil and gas properties and 1.27% of the outstanding capital stock of American Independent Oil Co. The principal assets of Pauley Pan American and its wholly-owned subsidiary, Mexofina, S.A. de C.V., a Mexican corporation, consisted of various interests under contracts with Petroleos Mexicanos ("Pemex"), an agency of the Mexican Government. The principal activities of the company are the acquisition, exploration and development of oil and gas properties, the production and sale of oil and gas, and the operation of a refinery.

The producing properties of the company are located in the states of California, Alabama, Texas, Louisiana and New Mexico. The company also has interests under contracts with Pemex in certain areas in northeastern Mexico along and near the Rio Grande River and on the Isthmus of Tehuantepec, in southern Mexico, along the shore of the Gulf of Mexico. In addition, the company has interests in undeveloped areas in the Kingdom of Jordan, Colombia, Guatemala and Turkey and has undeveloped leasehold interests in several states.

PROCEEDS—The net proceeds to the company from the sale of the securities after deducting underwriting commissions and estimated expenses, will be approximately $9,540,000. Of such net proceeds, approximately $7,000,000 will be applied to the payment of bank borrowings incurred in connection with the company's Mexican Tidelands operations. The balance of such net proceeds will be added to the general funds of the company and will be available for general corporate purposes. Substantial expenditures are expected to be made by the company during the balance of 1960 and in 1961 particularly in connection with its drilling program in Mexico and on the Tideland Leases in California. The company's cash requirements as a result of such proposed expenditures may exceed the amount of cash generated internally. In this event additional financing will be required which might include long- or short-term borrowing, sale of additional equity securities, or entering into agreements with others to provide a portion of the funds required for such expenditures in consideration of their participation in a portion of the proceeds from any resultant production of oil and gas.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

Hill Richards & Co.	200,000		

—V. 191, p. 2418.

Penn-Dixie Cement Corp.—Net Lower—

Sales and net income were moderately lower in the second quarter and six months ended June 30, 1960 than in the comparable periods of 1959, according to B. W. Druckenmiller, President, in his interim report to stockholders.

Net sales for the 1960 second quarter totaled $14,698,650, versus $15,119,739 a year ago, while net profit amounted to $2,700,263 and $3,118,706 respectively. The 1960 second quarter profit was equivalent to 97 cents a share on 2,788,191 shares of capital stock outstanding, against $1.12 a share for the second quarter of 1959.

Sales for the first half of 1960 totaled $19,973,961, compared with $21,374,859 in the first six months of 1959. Net profits totaled $2,810,188, or $1.01 a share, versus $3,684,733 or $1.32 a share, respectively.

Mr. Druckenmiller attributed the decline in shipments to bad weather in the first quarter and to a decline in housing starts. He pointed out that while April and May shipments were lower than those in the comparable months of 1959, shipments in June slightly exceeded those of June last year.

He also called attention in his report to two events in June relating to the percentage depletion controversy which involves claims of cement companies, including Penn-Dixie, for Federal income tax refunds.

The first, through an act of Congress, calls for a return in 1961 and thereafter to the basis of computing percentage depletion used by Penn-Dixie prior to 1956. This will increase the company's future income tax liability.

The second was the decision of the Supreme Court in the Cannelton Sewer Pipe Co. case which may open the way to a lower court decision on the refund claims of another cement company. Pending this decision, Penn-Dixie intends to adhere to present accounting procedures in 1960, according to Mr. Druckenmiller.—V. 190, p. 2243.

Permanent Filter Corp.—Annual Report—

This Los Angeles firm achieved record sales of $4,310,156 for the fiscal year ended Feb. 29, 1960, but sustained a loss of $604,290, board chairman Jan Oostermeyer disclosed on July 11 in the first annual report mailed to shareholders. Since Permanent Filter only became publicly held during the past year, no comparable figures are available for the previous year.

Mr. Oostermeyer also reported that, on the basis of unaudited figures, Permanent Filter would show a profit for the first three months of the current fiscal year.

In his report, the board chairman said earnings for the past year were adversely affected by heavy expenses incurred in anticipation of military contracts which did not materialize. Unusual and nonrecurring costs and a loss on the sale of land and a building at Oxnard, Calif., also contributed to the unfavorable results, he stated.

Permanent Filter had originally planned to relocate at Oxnard, but subsequently decided to remain in Los Angeles. A survey is currently being made to locate the site of a new plant in the Los Angeles area.

Mr. Oostermeyer said the company instituted a broad program of reconstruction in the fall of 1959.

"The results of these efforts are being reflected in reduced costs, tighter controls, increased efficiency and greater coordination between departments," he declared. "Special emphasis has been devoted to new product development and aggressive marketing."

The report stated that Permanent Filter is presently investigating the market for its products in Mexico with the view of establishing a joint venture in that country if the situation is favorable.—V. 191, p. 2640.

Phillips Petroleum Co.—Subsidiary Expands—

An increase of 5,000 long tons a year in production capacity of its new "Cis-4" polybutadiene rubber is announced by Phillips Chemical Co., wholly owned subsidiary of Phillips Petroleum.

This expansion of the company's Borger, Texas, synthetic rubber plants is an addition to the 20,000-ton a year Cis-4 plant now being constructed, and results from strong demand for the new Phillips-developed rubber.

Phillips has licensed its new cis-polybutadiene synthetic rubber process to two companies in the United States and one in Italy. Other companies are seeking licenses from Phillips.

Phillips expects to have this 25,000-ton per year Cis-4 plant in full operation in the fourth quarter of this year.—V. 191, p. 2093.

Pigeon Hole Parking, Inc., Spokane, Wash.—Files With Securities and Exchange Commission—

The corporation on July 11, 1960 filed a letter of notification with the SEC covering 20,000 shares of common stock to be offered at-the-market ($1 per share), without underwriting.

The proceeds are to be used to pay for legal services.—V. 183, p. 2901.

Piper Aircraft Corp.—Sales Up—News—

The corporation reported gross sales for nine months of the current fiscal year of $32,143,682, an increase of 18.9% over the corresponding 1959 period, it is announced by Charles W. Pool, Treasurer.

Net income after provision for taxes was $2,918,863, an increase of 33.2%. Earnings per share were $2.72, as compared to $2.04 (adjusted) for the corresponding 1959 period.

It is estimated that sales in the last quarter of the fiscal year ending Sept. 30, 1960, will follow the usual slightly downward trend with a plant-wide two-week vacation and the changeover to 1961 models.

Deliveries of the 200-mile-an-hour, twin-engine Piper Aztec to the Navy will begin with five in August, followed by seven in September and eight in October.

The new Piper production and office facilities at Vero Beach, Florida, are approximately 33% complete and should be finished in October. This will bring the production facilities at Vero Beach to over 100,000 square feet.

At Lock Haven, Pa., 20,000 square feet of additional office space has been completed to house the office services and data processing departments. In addition ground has just been broken for the new Engineering Building of 40,000 square feet, which should be completed by the end of the year.—V. 192, p. 10.

Polymer Corp.—Price Cuts—

The Reading, Pa., corporation effective July 15, cut prices on its various "Polypenco" nylon mill shapes by as much as 15%.

The reduction was made possible by recent reductions in molding powder prices by major producers of basic nylon resins. The price cuts affect the company's line of rod, strip, tubing, plate and other stock forms.

The corporation pioneered in the production of nylon stock shapes in 1946 and now distributes these products around the world from more than 75 stock locations.—V. 191, pp. 2308 and 607.

Power Cat Boat Corp., Los Angeles, Calif.—Files With Securities and Exchange Commission—

The corporation on July 5, 1960 filed a letter of notification with the SEC covering 300,000 shares of common stock (no par) to be offered at $1 per share, through Holton, Henderson & Co., Los Angeles, Calif.

The proceeds are to be used to discharge short-term debts, and for working capital, plant equipment, inventories, etc.

Rayonier, Inc.—Net Down—News—

Near-record tonnage and dollar sales highlighted the firm's performance for the first six months of this year. But continuing lower price levels resulting from competitive market conditions combined to soften the profit position, Russell F. Erickson, President, reported on July 18.

The company sold 364,658 tons of chemical cellulose, paper-making pulps and fine papers during the period, an increase of 12½% over the 324,075 tons sold in the same six-months period last year.

Sales in the second quarter amounted to 185,609 tons, highest since the record second quarter of 1956.

Net sales for the half-year were $69,598,331, in comparison with $65,717,106 in the identical period of 1959.

The company earned $5,860,028, equal to $1.03 per share on 5,672,181 outstanding shares of common stock. This compared with $6,592,117, or $1.20 per share, on 5,511,280 shares of common stock outstanding at the same time last year.

Mr. Erickson explained that reduced prices on a considerable portion of the firm's chemical cellulose business have been in effect since early this year, and some additional price adjustments were made in the second quarter to meet competition.

He said that the company's silvichemical sales continued to increase. Lumber sales of the Canadian subsidiary, Rayonier Canada Limited, advanced slightly above that of the like 1959 period. But, again, lower prices held back profit margins.

Mr. Erickson indicated that both foreign and domestic markets should hold reasonably firm for the remainder of the year, and that foreign business continued "good."

A dividend of 20 cents per share was declared, payable Aug. 15 to shareholders of record at July 29.—V. 191, p. 427.

Rayson Craft Boat Co., Gardena, Calif. — Files With Securities and Exchange Commission—

The company on July 11, 1960 filed a letter of notification with the SEC covering 100,000 shares of common stock (no par) to be offered at $3 per share, through California Investors, Los Angeles, Calif.

The proceeds are to be used to purchase additional equipment; for sales, purchase of inventory and working capital.

Red Lodge Grizzly Peak, Red Lodge, Mont. — Files With Securities and Exchange Commission—

The company on July 14, 1960 filed a letter of notification with the SEC covering 2,000 shares of common stock (par $100) to be offered at $125 per share, without underwriting.

The proceeds are to be used to develop land, advertising, new ski runs and for operating capital.

Resiflex Laboratory, Inc.—Offering and Secondary—

This firm, of 864 South Robertson Blvd., Los Angeles, filed a registration statement with the SEC, on July 18 covering 100,000 shares of common stock, of which 40,000 shares are to be offered for public sale by the issuing company and 60,000 shares, being outstanding stock, by the present holders thereof. The stock will be offered through Blunt Ellis & Simmons on an all or none basis, the public offering price and underwriting terms to be supplied by amendment. The underwriter has reserved 7,500 of the shares for sale to its partners and to its employees' profit sharing trust, and 30,000 shares for sale to certain personnel of C. R. Eard, Inc., a New Jersey corporation, and other purchasers of the company's products and to certain friends of the company's management.

The company is engaged in the manufacture and sale of a line of disposable plastic tubular products, principally for use by the medical profession in hospitals, clinics, sanatoriums, nursing homes, convalescent homes and physician's offices. It also assembles and markets blood donor sets. Of the net proceeds from the sale of the additional 40,000 shares by the company, approximately $50,000 will be used to increase production facilities, and $80,000 for plant expansion. The balance will be added to working capital.

In addition to certain indebtedness, the company has outstanding 243,500 shares of common stock, of which William A. Bushman, Jr., Board Chairman, owns 68,582 shares and is selling 16,469 shares; Melvin Simmonds, President and Treasurer, owns 54,676 shares and is selling 16,776 shares; and Harris L. Willits, Vice-President and Secretary, owns 44,600 shares and is selling 11,227 shares. These and the two other selling stockholders own an aggregate of 217,340 shares.

Reynolds Tobacco (R. J.), Co.—Record First Half—

Sales and earnings as well as cigarette shipments of the company during the first six months of 1960 were higher than in any previous six months period in the company's history, Alexander H. Galloway, President, reported on July 19. Results for the second quarter of the year were also higher than in any previous quarter.

In the first half of 1960, sales were $679,234,000, up $68,687,000 or 11.3% over the first six months of 1959. Net earnings for the first six months of 1960 were estimated at $19,023,000 compared with $42,570,000 for the first half of 1959, an increase of 15.2%. Estimated earnings on 20,000,000 shares of common stock were $2.42 per share compared with $2.10 for the 1959 first half.

Sales for the second quarter were $357,465,000, an increase of $33,786,000 or 10.4% over the same period of 1959. Estimated earnings were $25,703,000, an increase of 12.8% over earnings of $22,786,000 for the corresponding quarter in 1959. Second quarter earnings were equal to $1.27 per share compared with $1.13 for the June quarter last year.

Earnings are computed on the last in—first out (LIFO) inventory valuation method, adopted by the company in 1957.—V. 191, p. 1922.

Bond Record from the New York Stock Exchange

FRIDAY—WEEKLY—YEARLY

The *italic* letters in the column headed "Interest Period" indicate in each case the month when the bonds mature. Figures after decimal point represent one or more 32nds of a point.

NATIONAL LIST OF OVER-THE-COUNTER SECURITIES (Quotations for Friday, July 22)

The following bid and asked quotations are obtained from the National Association of Securities Dealers, Inc., and other selected sources. They do not represent actual transactions. They are intended as a guide to the range within which these securities could have been sold (indicated by the "bid") or bought (indicated by the "asked") at the time of compilation. Origin of any quotation furnished on request. The "National" list is composed of securities which have a wide national distribution.

THE COURSE OF BANK CLEARINGS

Bank clearings this week will show an increase compared with a year ago. Preliminary figures compiled by us based upon telegraphic advices from the chief cities of the country, indicate that for the week ended Saturday, July 23, clearings for all cities of the United States for which it is possible to obtain weekly clearings will be 10.2% above those of the corresponding week last year. Our preliminary totals stand at $28,206,864,224 against $25,595,119,329 for the same week in 1959. At this center there is a gain for the week ending Friday of 13.8%. Our comparative summary for the week follows:

CLEARINGS—RETURNS BY TELEGRAPH

Week Ended July 23—	1960	1959	%
New York	$14,744,783,403	$12,958,130,440	+13.8
Chicago	*1,440,000,000	1,270,187,850	+13.4
Philadelphia	1,164,000,000	1,087,000,000	+ 7.1
Boston	335,293,267	763,162,947	+ 9.5
Kansas City	*576,000,000	538,010,959	+ 7.1
St. Louis	461,700,000	415,700,000	+11.1
San Francisco	*890,000,000	810,914,880	+ 9.8
Pittsburgh	499,943,784	478,622,477	+ 4.5
Cleveland	*669,000,000	664,697,003	+ 0.6
Baltimore	424,011,400	412,454,417	+ 2.8
Ten cities, five days	$21,704,736,854	$19,398,880,973	+11.9
Other cities, five days	5,418,439,475	5,163,531,965	+ 4.9
Total all cities, five days	$27,123,176,329	$24,562,412,938	+10.4
All cities, one day	1,083,687,895	1,032,706,391	+ 4.9
Total all cities for week	$28,206,864,224	$25,595,119,329	+10.2

*Estimated.

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday and the Saturday figures are not available at time of going to press. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results of the previous week—the week ended July 16. For that week there was an increase of 2.8%, the aggregate clearings for the whole country, having amounted to $27,336,143,342 against $26,597,808,601 in the same week in 1959. Outside of this city there was a loss of 3.4%, the bank clearings at this center showing an increase of 9.1%. We group the cities according to the Federal Reserve Districts in which they are located and from this we note that in the New York Reserve District the totals register an improvement of 8.4% and in the Boston Reserve District of 1.9% but in the Philadelphia Reserve District the totals record a decline of 1.8%. In the Cleveland Reserve District the totals are smaller by 6.3%, and in the Richmond Reserve District by 1.0% but in the Atlanta Reserve District the totals are larger by 2.1%. The Chicago Reserve District suffers a loss of 6.1%, the St. Louis Reserve District of 7.9% and the Minneapolis Reserve District of 4.2%. In the Kansas City Reserve District the totals show a falling off of 5.8%, in the Dallas Reserve District of 3.3%, and in the San Francisco Reserve District of 1.4%.

In the following we furnish a summary by Federal Reserve Districts:

SUMMARY OF BANK CLEARINGS

Week Ended July 16—		1960 $	1959 $	Inc. or Dec. %	1958 $	1957 $

FOREIGN EXCHANGE RATES

Pursuant to the requirements of Section 522 of the Tariff Act of 1930, the Federal Reserve Bank certifies daily to the Secretary of the Treasury the buying rate for cable transfers on the different countries of the world. We give below a record for the week just passed.

FOREIGN EXCHANGE RATES CERTIFIED BY FEDERAL RESERVE BANK TO TREASURY UNDER TARIFF ACT OF 1930

JULY 15, 1960 TO JULY 21, 1960, INCLUSIVE

County and Monetary Unit — Noon Buying Rate for Cable Transfers in New York (Value in United States Money)

Condition Statement of Member Banks

The condition statement of weekly reporting member banks of the Federal Reserve System in leading cities shows the following principal changes for the week ended July 13: Increases of $2,187 million in holdings of U. S. Government securities, $794 million in demand deposits adjusted, and $1,379 million in U. S. Government demand deposits.

Commercial and industrial loans decreased in nine districts for a total decline of $76 million. Loans to brokers and dealers for purchasing or carrying U. S. Government securities increased $263 million. Loans to sales and personal finance institutions decreased $109 million. "Other" loans decreased $41 million.

Holdings of Treasury bills increased in all districts and a total of $2,217 million, largely reflecting purchases of the new issue of tax anticipation bills.

Borrowings of weekly reporting member banks from Federal Reserve Banks decreased $81 million and borrowings from others decreased $124 million. Loans to domestic commercial banks decreased $75 million.

Rheem Manufacturing Co.—To Form Subsidiary—

The company and an Italian associate announced on July 15 an agreement to establish a subsidiary company to make up to 100,000 tons of medium-diameter welded steel tubes in a new plant at Palermo, Sicily. It will be the 33rd plant making Rheem products in 16 nations abroad.

Production is scheduled to start in March 1961, according to a joint statement by A. Lightfoot Walker, Rheem President, and Commendatore Francesco Bonelli, president of a group of Italian steel and other manufacturing companies associated with Rheem.

"Establishment of this new industry is in keeping with the Italian Government program to speed industrial and economic growth to benefit the people of Southern Italy. It also will contribute to the progress of the European Common Market, and export to North Africa also is contemplated," Mr. Walker and Comm. Bonelli said.

Walter Stage, most recently of Jones & Laughlin Steel Corporation, Aliquippa, Pa. will be manager of the new plant.

The Rheem group also has under study for Southern Italy a plan for another plant to produce larger pipes, up to 90 inches in diameter, and large tanks.—V. 191, p. 2749.

Rocky Mountain Natural Gas Co., Inc. — Financing Proposal—

This company, of 1726 Champa Street, Denver, filed a registration statement with the SEC on July 15 covering $2,350,000 of sinking fund debentures due 1980 and 235,000 shares of common stock. It is proposed to offer these securities only in Units, each unit to consist of a $50 debenture and stock. The number of shares to be issued with each $50 debenture, and the public offering price of the units and underwriting terms, are to be supplied by amendment. Merrill Lynch, Pierce, Fenner & Smith, Inc., is listed as the principal underwriter.

The company is primarily a gas distributing utility supplying natural gas at retail in Colorado to the towns of Wellington, Walden, Dove Creek, Nunn and Ignacio. Several months ago it acquired all the common and 82% of the preferred stocks of Domestic Propane Co., Inc., a Colorado corporation. It plans the construction of a 29-mile natural gas transmission pipeline and related distribution facilities, extending from a gas field in the Mesa area some 200 miles west of Denver to a central collecting station near the town of Collbran, from which a transmission line will extend south about 67 miles across the Grand Mesa National Forest. The system will be constructed to serve the town of Collbran and in addition the towns of Cedaredge, Orchard City, Delta, Olathe and Montrose and will include distribution systems to serve all of these towns. Certain rural districts also will be served. Construction costs are estimated at $2,836,000. Net proceeds of this financing will be applied to construction expenditures, the retirement of $125,000 of bonds and the payment of $150,000 of bank loans.

In addition to indebtedness, the company now has outstanding 123,130 common shares. Ernest C. Porter is listed as Board Chairman and William A. Newton as President. Management officials as a group own 39,547 shares, including 14,668 shares held by Porter.

Sabre Craft Boat Co., Inc.—Common Stock Offered—Pursuant to an offering circular dated June 27, this company, located at 347 West Ewing St., Seattle 99, Wash., publicly offered 275,000 shares of its no par common stock at $1 per share, without underwriting.

BUSINESS—Since its incorporation on Dec. 31, 1956, the company has specialized in the design, manufacture and sale of a line of pleasure boats made of plywood and fibreglass.

Presently the company is manufacturing and selling 14 different models, measuring 15 to 24 feet in length, primarily for outboard power.

The company's principal raw materials, namely, fibreglass cloth, polyesters, iso-thalic liquids and various woods, are obtained from large chemical, fibreglass and wood producers. No difficulty has been experienced by the company in maintaining sufficient supplies of these materials.

PROCEEDS—The net proceeds to the company from the sale of these securities, of $247,500, will be applied towards relocation of plant and personnel to Tacoma, Wash., with the balance for working capital.—V. 191, p. 2522.

Scott Paper Co.—Record Sales, Net—

The Chester, Pa., company announced on July 15 the highest sales and earnings for any second quarter and first half-year period in company history.

Dollar sales for the second quarter ending July 2, 1960 were $77,650,700, up 4.6% over the $74,212,954 reported for the second quarter of 1959.

Net income for the second quarter amounted to $6,725,075, equal after preferred dividends, to 83 cents per common share on 7,951,266 shares. This compares with $6,026,582 for the second quarter of 1959 or 75 cents per share on 7,897,965 common shares then outstanding.

Dollar sales for the first six months of 1960 were $157,863,947 or 7.7% over the $146,613,271 reported for the first half of 1959. Net income before provision for preferred dividends in the first six months of 1960 amounted to $13,401,935 against $11,892,229 in the comparable period of 1959, an increase of 12.7%. Earnings per common share at the end of the 1960 half-year period were $1.66 versus $1.48 a year ago.

Thomas B. McCabe, President, said in his message to shareholders: "Earnings as a percent of sales increased from 8.1% in the second quarter of 1959 to 8.7% in the second quarter of this year. For the first six months the profit margin increased to 8.5% from 8.1% in the first half of 1959. These achievements are all the more significant in view of the intensely competitive market.

"The record to date makes us confident that 1960 will be the finest in Scott history."—V. 191, p. 548.

Sealed Air Corp., Hawthorne, N. J.—Files With SEC—

The corporation on July 15, 1960 filed a letter of notification with the SEC covering 100,000 shares of common stock (par one cent) to be offered at $1 per share, through Bertner Bros. and Earl Edden Co., New York, N. Y. The offering is expected about Aug. 17.

The proceeds are to be used for general corporate purposes.

Seaway Shopping Centers, Inc.—Securities Offered—Pursuant to a prospectus dated July 15, John R. Boland & Co., Inc. publicly offered 90,000 units, at a price of $10 per unit. Each unit consists of one share of cumulative convertible preferred stock (one cent par) at $7 per share, and one share of class A common stock (one cent par) at $3 per share.

PRIVILEGES—The preferred stock is convertible at a ratio of two shares of class A common for each share of preferred until June 30, 1965, one and a half shares of class A common for each share of preferred until June 30, 1968, and one share of class A common for each share of preferred until June 30, 1970.

BUSINESS—The company was incorporated under the laws of the State of Delaware on Jan. 28, 1960. The company owns and operates five shopping centers, four of which are located along the St. Lawrence Seaway valley in northern New York State and the fifth is located in central New York State. Each shopping center is of modern construction and located on major highways within the environs of Ogdensburg, Malone, Potsdam, Seneca Falls and Watertown, New York. Wholly owned subsidiaries of the company propose the construction of additional shopping centers at Bradford, Pa., and at Olean, Glens Falls, Hudson and Kingston, New York.

The company's first shopping center opened at Ogdensburg, N. Y. on Nov. 1, 1957. A second shopping center opened at Malone, N. Y. on Dec. 2, 1958, and three additional centers were opened during 1959 at Potsdam, Seneca Falls and Watertown, N. Y. The company's principal office is located at 619 Powers Building in Rochester, N. Y.

The company's five shopping centers were constructed at a gross cost of approximately $3,670,000, including cost of land all of which is owned by the company in fee. These centers contain paved parking areas sufficient to accommodate an aggregate of approximately 4,500 automobiles. The company's five shopping centers comprise approximately 325,000 square feet of store area under roof, exclusive of canopy, sidewalk and loading areas. Of the total store area, 93.9% is under long term lease to recognized retail chain store companies, insurance companies, banks and governmental agencies. All of the tenants pay minimum guaranteed annual rentals, with overage clauses for all but five which apply on a percentage basis against the gross annual dollar volume of each tenant's business in each store. Of the approximately 325,000 square feet of rentable space, 306,024 square feet are presently under lease at a gross minimum rental of $467,557, of which 301,024 square feet is leased by Class AAA rated tenants and 8,600 square feet are leased by regional chain and local tenants.

The aggregate amount of guaranteed rentals under leases having terms of 15 years is sufficient to pay all of the company's present operating expenses, income taxes, and the interest and amortization charges on its first mortgage notes. In addition to this rental income the company receives revenue from assessments levied annually upon each tenant for maintenance of parking space and from the sale of water at its shopping centers in Watertown and Seneca Falls. Gross revenue from this source as of March 31, 1960 was at the rate of $26,390 per year.

PROCEEDS—The company will receive net proceeds after payment of underwriting commissions of approximately $425,000. Expenses of issuance and distribution and underwriters' expenses, estimated to total approximately $70,000, must be paid out of the net proceeds from units sold in excess of 50,000. There is no assurance that any units over and above 50,000 will be sold. Therefore, the company will have additional indebtedness to the extent that net proceeds from units sold over and above 50,000 fail to meet the expenses of issuance and distribution. In order to meet such estimated expenses it will be necessary to sell a total of approximately 58,000 units.

The company and the underwriter have entered into an escrow agreement with the First National Bank of Jersey City which provides that all said proceeds are to be deposited with and held by that bank until said 50,000 units have been sold and that these proceeds, or so much thereof as may be required are to be paid by the escrow agent to the holders of the second mortgage notes outstanding against properties of the company in payment and satisfaction thereof.

If all preferred and common stock offered is sold the net proceeds will equal approximately $695,000. Of this amount, approximately $425,000 will be required to satisfy the second mortgage notes due Dec. 20, 1960, now outstanding. The balance of the proceeds will be used to the exent available to construct additional shopping centers.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

	Authorized	Outstanding
First mortgage notes	*$3,505,000	*$3,461,398
Second mortgage notes	†440,000	
Preferred stock ($.01 par)	100,000 shs.	90,000 shs.
Common stock, class A ($.01 par)	750,000 shs.	90,000 shs.
Common stock, class B ($.01 par)	400,000 shs.	381,500 shs.
Common stock, class B-1 ($.01) par	100,000 shs.	68,500 shs.

*The interest rate payable on those mortgage notes is 6% per annum.

†While the aggregate face amount of second mortgage notes is $440,000, this amount is to be reduced by $3,125 for each month between the date of payment and the maturity date, Dec. 20, 1960. If paid on May 20, 1960 the amount of this obligation on that date would have been $418,125. The company paid a mortgage discount in obtaining this mortgage which is equivalent to an effective interest rate of 18% per annum.—V. 191, p. 2352.

Securities-Intermountain, Inc., Portland, Ore. — Files With Securities and Exchange Commission—

The corporation on July 11, 1960 filed a letter of notification with the SEC covering 100,000 shares of common stock (par 75 cents) to be offered at $2.25 per share for subscription by stockholders on the basis of one new share for each 6.5 shares of class A and B common stock. No underwriting is involved.

The proceeds are to be used for working capital.

Service Instrument Corp.—Common Stock Offered—Pearson, Murphy & Co., Inc. offered on July 21, 150,000 shares of this corporation's common stock at a price of $2 per share.

PROCEEDS—Net proceeds from the sale of the common shares will be used by the company for the purchase of machinery and equipment; relocation of plant and equipment; research and development; sales promotion; inventory; materials; branch and service offices outside of New York; and working capital for general business.

BUSINESS—The corporation, with offices in New York City, is the successor to the business of Morris Cowan, its controlling stockholder, President and Director, carried on since 1951 under the name of Cowan Engineering Co. and was organized primarily for the purpose of acquiring, further developing and commercially exploiting the patent application, inventions, processes and devices of Cowan Engineering Co.

Service Instrument Corp. is engaged in the design, manufacture and distribution of special instruments in the electronics and medical fields and in the manufacture, as subcontractor, of jet engine and aircraft parts. One of the products now manufactured and distributed by the company is a recently developed closed circuit communication and alarm system known as "Silent Alarm System." Engineered to protect banking and other commercial institutions against robbery, the system does not involve the use of bells, photography or telephone communication to police but permits the immediate alerting of bank guards and officials by a silent coded signal. The system has been installed, tested and leased by 12 branch banks in the New York City area.

CAPITALIZATION—Upon completion of the current financing, outstanding capitalization of the company will consist of 339,545 shares of common stock.—V. 192, p. 212.

Singer Manufacturing Co.—N.Y.S.E. Listing—News—

The stock of The Singer Manufacturing Co., world's largest producer and distributor of sewing machines, was listed today on the New York Stock Exchange. A total of 4,650,000 shares was listed.

The company will be known on the Exchange trading floor by the symbol SMF. Previously, the stock enjoyed trading privileges on the American Stock Exchange where it was unlisted.

Founded in Boston, Mass. as I. M. Singer and Co. in 1851, and incorporated 12 years later as The Singer Manufacturing Co., the company has paid dividends every year since 1863. Today, it operates 23 factories in 14 countries and sells its products through some 20,000 retail outlets, comprised of company-owned stores, dealers and distributors in 155 countries.

In addition to the manufacture and sale of more than 400 different kinds of sewing machines for home and industrial use, Singer produces and sells commercial knitting machines, paper pulp, portable electric hand tools, special purpose analog computers, household appliances, electric motors, industrial fans, precision optical devices, servomechanisms, specialized electronic equipment and a broad range of military products.

For the three months ending March 31, 1960, Singer's net sales were $124,000,000, with net income after taxes of $5,800,000 or $1.30 per share as compared with sales of $118,000,000 and net income of $5,200,000 or $1.16 per share for the comparable period of 1959.

Singer has approximately 11,000 shareholders.—V. 192, p. 11.

Skelly Oil Co.—Files Thrift Plan—

This company, P. O. Box 1650, Tulsa, Okla., filed a registration statement with the SEC on July 18, 1960, covering 25,397 shares of common stock to be offered to employees pursuant to its Thrift Plan. —V. 191, p. 2095.

Southern California Edison Co.—Bond Offering—

This company, 601 West Fifth Street, Los Angeles, filed a registration statement with the SEC on July 20 covering $60,000,000 of first and refunding mortgage bonds, series M, due 1985, to be offered for public sale at competitive bidding, probably on Aug. 23. The net proceeds from the sale of bonds will be used to retire all short-term bank loans incurred in connection with the company's construction program, such loans not expected to exceed $26,000,000. The balance of such proceeds will become treasury funds. It is estimated that the gross plant additions for the years 1960-1961 will total approximately $257,772,000. For such construction requirements, a balance of approximately $7,022,000 was available to the company from the proceeds of securities sold early in 1960 after retiring short-term bank loans then outstanding, and the company expects to obtain approximately $53,500,000 in new money from outside sources in addition to the net proceeds from the new bonds. The remaining requirements are expected to be obtained from internal sources.—V. 191, p. 1368.

Southern Colorado Power Co.—Earnings—

Operating revenue for the 12 months ended May 31, 1960 amounted to $8,112,274 as compared with $7,628,663 for the 12 months ended May 31, 1959. Net operating income, after operating expenses, maintenance, taxes and depreciation was $1,615,213 for the year ended May 31, 1960, compared with $1,569,231 for the corresponding period ended May 31, 1959 Net Income, after deductions for all interest charges, etc., amounted to $1,101,209 compared with $1,291,430 for the corresponding periods indicated.

For the five months' period ended May 31, 1960, operating revenue amounted to $3,280,579 compared with $3,176,949 for the corresponding period of the previous year. Net operating income for the first five months of 1960 amounted to $637,137 compared with $626,545 for the corresponding period of 1959, and net income was $424,395 for the first five months of 1960 compared with $488,224 for the corresponding period of 1959.—V. 191, p. 608.

Southern Pacific Co.—Equipment Trusts Offered—On July 21 a group headed by Salomon Bros. & Hutzler offered $6,000,000 of this company's one- to 15-year equipment trust certificates, series 9. The issue is secured by $7,505,000 worth of equipment, consisting of 546 freight cars. The winning bid was 98.7207 for a 4¼% certificate, providing a 4.45% interest rate. A Halsey, Stuart & Co. Inc. group bid 98.54 for a similar coupon.—V. 192, p. 12.

Southwestern Bell Telephone Co.—Earnings—

Period End. May 31—	1960—Month	1959	1960—5 Mos.	1959
	$	$	$	$
Operating revenues	65,174,216	61,734,380	320,551,816	298,955,737
Operating expenses	36,459,941	34,310,313	177,599,809	165,090,121
Federal income taxes	11,461,133	11,093,486	56,988,758	54,107,086

Sperry Rand Corp.—Divisional Lease Plan—

See Nationwide Leasing Co., above.—191, p. 1672.

Standard Kollsman Industries Inc.—Net Soars—

James O. Burke, President, reported on July 20 that the company's net income and sales for the six months and second quarter ended June 30, 1960 showed gains over the comparable periods of 1959. For the six months, net income increased 115% and sales 29% over the comparable 1959 figures.

For the half-year, net income totaled $1,377,714, or 69 cents per share, as against $639,703, or 34 cents per share, in the six months ended June 30, 1959.

Consolidated net sales in the latest six months were $45,329,044, compared with $35,221,567 in the comparable 1959 period.

In the three months ended June 30, 1960, net income was $805,589, or 40 cents per share, versus $249,306, or 13 cents per share, in the June quarter of 1959.

Consolidated sales in the three months to June 30, 1959 totaled $23,457,224, as against $18,629,715 in the 1959 quarter.

Earnings before tax provision in the latest six months were $2,887,064 as against $1,155,103; for the three-month periods, respective figures were $1,759,939 and $520,706.

Per-share figures for 1960 periods are based on the 2,006,213 common shares outstanding June 30, 1960; per-share figures for 1959 are based on the 1,904,779 shares outstanding on June 30, 1959.

The above figures do not include operations of two wholly-owned subsidiaries—Richardson-Allen Corp. (acquired March 9, 1960) and Kollsman Luftfahrt Instrumente, G.m.b.H. (began operations Jan. 1, 1960)—and also exclude operations of The Casco Products Corporation, a majority interest in which was acquired on July 12, 1960.

Standard Kollsman (formerly Standard Coil Products Co. Inc.) makes tuners for the television industry at plants at Melrose Park and Aurora, Ill.; a research center is situated in Los Angeles and a new plant is being built in Oshkosh, Wis.

The company's principal subsidiary, Kollsman Instrument Corp., makes celestial navigation equipment and a wide range of instruments for military and commercial aviation at plants at Elmhurst and Syosset, N. Y. and Glendale, Calif.

Newly-acquired Richardson-Allen has its plant at college Point, N. Y. and Kollsman Luftfahrt Instrumente, G.m.b.H., operates at Munich, West Germany. Both are subsidiaries of Kollsman Instrument Corp.

Kollsman Motor Corp. is situated at Dublin, Pa. and Standard Coil Products (Canada) Limited is in Toronto.

The Casco Products Corp., in which Standard Kollsman owns a majority interest, has its headquarters and plant at Bridgeport, Conn. —V. 191, p. 2750.

State Loan & Finance Corp.—Debentures Offered—Johnston, Lemon & Co. and Eastman Dillon, Union Securities & Co. are joint managers of an underwriting syndicate which offered on July 20 $20,000,000 of this corporation's 5.40% sinking fund debentures, due July 15, 1980, at 100% and accrued interest from July 15, 1960, to yield 5.40%.

PROCEEDS—Net proceeds from the sale of the debentures will be added to the company's general funds and used to reduce outstanding short-term loans. Proceeds from these short-term loans were used primarily to provide subsidiaries of the company with funds to carry on their respective businesses.

REDEMPTION—The debentures will not be redeemable prior to July 15, 1970. They will have the benefit of an annual sinking fund, beginning July 15, 1966, sufficient to retire 70% of the debentures to maturity. The debentures will be redeemable through the sinking fund at 100%, and at the option of the company, at redemption prices ranging from 103% in 1970 to 100% in 1979, plus accrued interest in each case.

BUSINESS—The corporation is one of the five largest organizations engaged in the consumer finance (small loan) business. Its principal executive offices are in Washington, D. C. It is a holding company and, through its subsidiaries, is primarily engaged in the consumer finance business and to a small degree, in purchasing installment sales contracts originating with dealers in household furnishings and appliances. On April 1, 1961, the company operated 414 loan offices located in 28 states and the Province of Ontario. Two of its subsidiaries are life insurance companies engaged in writing credit life insurance and credit health and accident insurance.

EARNINGS—For the year 1959, the company and its subsidiaries had consolidated operating income of $34,382,862 and consolidated net income of $5,491,940; equal to $1.33 per common share.

UNDERWRITERS—The underwriters named below, represented by Johnston, Lemon & Co. and Eastman Dillon, Union Securities & Co., have severally agreed to purchase from the company debentures in the principal amounts set forth below:

	Amount		Amount
Johnston, Lemon & Co.	$2,500,000	Watling, Lerchen & Co.	250,000
Eastman Dillon, Union Securities & Co.	2,500,000	Arthurs, Lestrange & Co.	200,000
Glore Forgan & Co.	1,000,000	Courts & Co.	200,000
Goldman, Sachs & Co.	1,000,000	Ferris & Co.	200,000
Merrill Lynch, Pierce, Fenner & Smith, Inc.	1,000,000	Mason-Hagan, Inc.	200,000
Lehman Brothers	1,000,000	McCormick & Co.	200,000
White, Weld & Co.	1,000,000	Cruttenden, Podesta & Co.	150,000
A. C. Allyn & Co., Inc.	600,000	A. G. Edwards & Sons	150,000
Hornblower & Weeks	600,000	Clement A. Evans & Co., Inc.	150,000
F. S. Moseley & Co.	600,000	First Securities Corp.	150,000
R. W. Pressprich & Co.	600,000	Robinson-Humphrey Co., Inc.	150,000
Auchincloss, Parker & Redpath	500,000	Robinson and Lukens	150,000
Riter & Co.	500,000	C. F. Cassell & Co., Inc.	100,000
Blair & Co., Inc.	400,000	Chace, Whiteside & Winslow, Inc.	100,000
Francis I. duPont & Co.	400,000	Doolittle & Co.	100,000

G. H. Walker & Co.	400,000	Irving J. Rice & Co., Inc.	100,000
R. S. Dickson & Co., Inc.	300,000	Rouse, Brewer, Becker & Bryant	100,000
Piper, Jaffray & Hopwood	300,000	McDaniel Lewis & Co.	50,000
Van Alstyne, Noel & Co.	300,000	C. T. Williams & Co., Inc.	50,000
Ira Haupt & Co.	250,000		
Jones, Kreeger & Co.	250,000		
Loewi & Co., Inc.	250,000		

—V. 191, p. 2793.

Stokely-Van Camp, Inc.—Forecast—

This Indianapolis, Ind., processor of canned and frozen foods, announced that net earnings of the company during the fiscal year ended May 31, 1960 are estimated at $3,300,000, equal, after allowance for preferred dividends, to approximately $1.46 a share on 1,776,835 shares of common stock outstanding at the end of the fiscal year. Sales for the period, the company said, are estimated at $161,800,000.

Digitized for FRASER
http://fraser.stlouisfed.org/

For the preceding fiscal year, ended May 31, 1959, the company reported net earnings of $4,629,163, equal after preferred dividends, to $2.21 per common share, calculated on the basis of the 1,776,835 common shares outstanding on May 31, 1960. Sales during the 1959 fiscal year totalled $158,233,971.

The decline in earnings during the 1960 fiscal year was due to high crop yields which resulted in over-production and low prices on certain items, particularly frozen foods. The company said prices improved in the last half of the fiscal year and the management now considers present inventories as in better balance, both for the company and the industry as a whole.—V. 191, p. 205.

Strategic Materials Corp.—Joint Development—

The corporation announced on July 18 the signing of an agreement with Universal-Cyclops Steel Corp. for the joint development of the use of the Strategic-Udy processes in the production of materials for use in stainless steels and/or heat resisting alloys.

Under the agreement, Strategic Materials will build a $1,500,000 addition to its plant at Niagara Falls, Ontario, and it is expected to be in operation around the end of this year. This represents a large scale increase in the pilot plant facility that has been in operation for nearly three years exploring the use of low-grade ores previously considered unusable.

Frank W. Chambers, President, explained that the Strategic-Udy processes for the first time may permit the economical utilization of low-grade lateritic and chromite ores in the commercial production of high quality stainless steels and/or heat resisting alloys. Such low-grade ores are available in abundance in many areas of the world and this development would provide markets for such deposits.

Strategic will build the new plant addition and be responsible for its operation while Universal-Cyclops will furnish technical assistance arising from its more than 75 years experience in producing specialty steels. The plant addition will include an electric furnace and a kiln as well as auxiliary facilities, using the already available personnel and laboratories in Niagara Falls.—V. 190, p. 2388.

Strolee of California, Inc.—Files for Secondary—

This firm, of 8711 Mettler Street, Los Angeles, filed a registration statement with the SEC on July 19, 1960, covering 150,000 outstanding shares of common stock, to be offered for public sale at $5.00 per share by the present holders thereof. The prospectus lists Federman, Stonehill & Co., Mitchum, Jones & Templeton and Schweickart & Co. as the underwriters, and they are to receive a 50c per share commission. The underwriters have purchased an additional 25,000 shares at $3.00 per share from the selling shareholders, of which 1,250 shares were sold to Sylvan A. Seligman as a finder's fee.

The company is engaged in the manufacture and sale of a variety of strollers, high chairs, play pens, swings, toys and similar items for babies and children. It has outstanding 293,856 shares of common stock, of which Paul C. Smith, president and treasurer, and Leonore Goodman Smith, his wife and vice-president, own 177,878 shares and are selling 99,241 shares; Lillian Lewis, of Provo, Utah, owns 34,310 shares and is selling 19,142 shares; and six additional holders own an aggregate of 56,668 shares and are selling 31,617 shares. The company's officers and directors as a group own an aggregate of 215,196 shares.

Sunray Mid-Continent Oil Co.—Subsidiary Plant—

Plans to construct a styrene unit at the Suntide Refining Co. plant in Corpus Christi, Texas, were announced on July 14 by R. W. McDowell, Chairman of the Board for Sunray Mid-Continent Oil Co., of which Suntide is a wholly owned subsidiary. The new facility will produce 60-million pounds of styrene annually.

McDowell declared that the entire output of the styrene unit has been sold under favorable long-term contracts.

Styrene, one of the most versatile petrochemicals, is used primarily in the manufacture of synthetic rubber and plastics. Synthetic rubber from which about 70% of all automobile, truck, and other tires are now made contains about 30 to 35% styrene. It is a colorless liquid produced by combining benzene and ethylene to form ethyl benzene which is then dehydrogenated to form styrene.

At Suntide, ethylene is recovered from the gas residue from the catalytic cracking unit and, formerly burned as fuel, will be combined with benzene from the company's Udex unit and a new hydrodealkylation (Hydeal) benzene unit now being constructed.

The project is the third capital expenditure in the area of petrochemicals announced by the Sunray family of companies in recent months. These expenditures, totaling approximately $10 million over a two-year period, also include a benzene extraction unit at the DX Sunray refinery in Tulsa in addition to the Suntide petrochemical facilities.—V. 191, p. 1159.

Telecomputing Corp.—Quarterly Report—

Sales of $27,531,192, for its first six months ended May 1, 1960, amounted to an increase of 40% over the $19,634,532 shown last year for the comparable period, Wm. R. Whittaker, President, told shareholders in a quarterly report.

Sales for the current year's second three months of $12,722,201 also represented an increase over the $11,069,856 reported for the same quarter in 1959. The sales rise was due, according to Whittaker, to the company's recent mergers and acquisitions.

Whittaker stated earnings for the six months were affected by curtailed government programs in which Telecomputing is a substantial participant; losses experienced on a large system which one of company's subsidiaries was committed to produce more than two years ago, and which is just now being shipped; and an increase of over $1,000,000 for engineering and development as compared to the same period last year. Net income, therefore, for the six months was $624,796, or $0.18 per share on 3,410,322 average common shares outstanding, as compared to $898,836, in 1959 which was equal to $0.34 on 2,561,036 average shares outstanding. Quarterly earnings were $155,140 or $0.02 per share, down from $441,953, or $0.17 per share, reported for the second three months in 1959. Whittaker noted, however, that a special Federal tax credit of $274,000, equal to $0.10 per share was available for the same reported period last year.

Several advancements made by Telecomputing which Whittaker described as significant were outlined, including the appointment of Dr. Charles Critchfield as Vice-President—research. Dr. Critchfield is an internationally known nuclear and mathematical physicist who has previously been director of scientific research for the Convair division of General Dynamics Corp., where he continues to serve as a member of its board of scientific consultants. In addition, Whittaker stated that company-wide participation in the field of systems and other related missile and space activities was anticipated, and several important contract awards are imminent.

"Telecomputing has made definite strides in rapidly advancing space-age technology as a result of the company's enlarged research and development program," Whittaker said. "We are constantly gaining strength in the technical, sales and administrative areas, and are becoming more diversified and sufficiently flexible to meet the changing times. Looking ahead confidently to the long-range results of our present planned program, we anticipate improved earnings to be evident sometime during our fourth quarter."—V. 191, p. 2565.

Tennessee Gas Transmission Co.—To Construct Facils.

The Federal Power Commission has authorized this Houston, Texas, company to construct and operate approximately 11.6 miles of 12-inch pipeline at a cost of about $1,031,000.

The line extends from a point on Tennessee's existing 12-inch Grand Cheniere line in Cameron Parish, La., to a platform in Block 16 field, East Cameron Area, off shore Louisiana. The FPC on May 3, granted Tennessee temporary authority to construct and operate the proposed facilities.

The purpose of the construction is to attach to Tennessee's natural gas system reserves owned by it in the Block 17 Field underlying approximately 8,500 acres under lease to Tennesese in Blocks 16, 17 and 24 and to receive into the line such gas as may be purchased under contracts to be negotiated in the near future with independent producers presently operating in the Block 17 area. Tennessee is seeking to expand its general supply system. No new markets are involved.—V. 191, p. 2353.

Texas Capital Corp.—Common Stock Offered—Pursuant to a prospectus dated July 12, an underwriting group headed by Dempsey-Tegeler & Co. of St. Louis, Mo., publicly offered 475,000 shares of common stock (par $1) at a price of $6 per share.

PROCEEDS—The net proceeds from the sale of the securities will be used by the company to provide investment capital and management services to companies defined as small business concerns under the Small Business Investment Act of 1958, many of which firms have heretofore been unable to obtain such financing. In general, such a concern can be privately owned and operated and must not be dominant in its field of operation, and must have total assets not exceeding five million dollars and an average annual income after taxes for the preceeding three years not exceeding $150,000. These limitations may be waived, however, on application to the Small Business Administration.

BUSINESS—The company which was incorporated in Texas on Oct. 2, 1958, is a Federal Licensee under the Small Business Investment Act of 1958. The company is also registered with the SEC under the Investment Company Act of 1940 as a non-diversified closed-end management investment company, but has reserved freedom of action to change at any time from a non-diversified to a diversified investment company, as such companies are technically defined in the Investment Company Act. Neither the licensing nor registration of the company involves governmental supervision of the management of the company or of its investment practices or policies. The company is, however, subject to examination by the Small Business Administration, and it is required to furnish that agency with periodic reports concerning its activities and financial condition.

The company's office is located at 705 Lamar Blvd., Austin, Texas.

The company does not intend to concentrate its investments in any particular industry, but proposes to diversify its investments in small business concerns generally, which operate primarily in the State of Texas. Some of these concerns may occasionally be new and speculative companies, which in the judgment of management have growth potentials, but such growth cannot be assured. Funds which are not loaned to or invested in small business concerns and which are not reasonably needed for organizational expenses and current operations will be invested only in obligations of, or obligations guaranteed by, the U. S. Government.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

The capitalization of the company as of April 22, 1960, and as adjusted to give effect to the issuance and sale of the common stock offered is as follows:

	Authorized	Outstanding
Common stock ($1 par)	1,000,000 shs.	536,400 shs.

APPOINTMENT—The transfer agent and registrar for the common stock of the company is the Capital National Bank in Austin, Austin, Texas.

UNDERWRITERS—Subject to the terms and conditions set forth in the underwriting agreement, each of the underwriters named below and each of the underwriters, for whom Dempsey-Tegeler & Co., is acting as representative, has severally agreed to purchase the following number of shares:

	Shares		Shares
Dempsey-Tegeler & Co.	201,000	Lentz, Newton & Co.	10,000
Gregory & Sons	25,000	Parker, Ford & Co., Inc.	10,000
Russ & Co., Inc.	25,000	Sanders & Co.	10,000
Zuckerman, Smith & Co.	20,000	I. M. Simon & Co.	10,000
Wyatt, Neal & Waggoner	20,000	Quinn & Co.	10,000

Arnold & Crane	10,000	Rowles, Winston & Co.	5,000
Holland & Co.	10,000	Woods and Co., Inc.	4,000

—V. 191, p. 2029.

Texas Gas Transmission Corp.—To Construct—

The Federal Power Commission on July 7 authorized this corporation, of Owensboro, Ky., to construct and operate natural gas pipeline facilities at an estimated cost of approximately $7,936,200.

Texas Gas will build 23.72 miles of 30-inch loop lines on its main supply line between Eunice and Bastrop, La.; about 56 miles of 12¾-inch pipeline in Indiana; and 6,700 additional compressor horespower in three stations located in Tennessee, Kentucky, and Louisiana.

The construction of the pipeline loops in Louisiana will enable Texas Gas to take an additional 70,000,000 cubic feet per day, or a total of 464,200,000 cubic feet daily, from producers in south Louisiana, particularly in the Lake Arthur, E. Lake Palourde, Chacahoula, Thibodaux and Jeanerette fields. The additional compression units will be used as spares to permit overhaul of the present units.

The construction of the 12-inch line in Indiana will provide considerable flexibility to the northern portion of Texas Gas' system. No additional service to an existing or new customer will be made. No increase will be made in the daily delivery capacity of Texas Gas' system since, in order to take the additional 70,000,000 cubic feet daily from south Louisiana, supplies from sources in Texas and north Louisiana will be cut back.—V. 192, p. 12.

Trans World Airlines, Inc.—Transfer Agent—

The Irving Trust Co. has been appointed transfer agent of the common stock of the corporation.—V. 192, p. 254.

Trinity Small Business Investment Co.—Seeks Exemp.

This company of Greenville, S. C., has applied to the SEC for an order under the Investment Company Act declaring that it has ceased to be an investment company; and the Commission has issued an order giving interested persons until July 29, 1960, to request a hearing thereon. The company plans to dissolve and liquidate.—V. 189, p. 1972.

Triumph Storecrafters Corp. — Additional Financing Details—Our July 18 issue reported the offering on July 13 of 145,000 shares of this firm's $1 par common stock at $5 per share. Additional details follow:

UNDERWRITERS—The underwriters named below severally agreed to purchase from the company the respective number of common stock aggregating 145,000 shares set forth below. The Underwriting Agreement provides that the obligations of the underwriters are subject to approval of certain legal matters by counsel and to certain further conditions.

	Shares		Shares
Hardy & Hardy	40,000	J. H. Hilsman & Co., Inc.	5,000
First Southeastern Co.	40,000	Norris & Hirshberg, Inc.	5,000

The Johnson, Lane, Space Corp.	10,000		

—V. 192, p. 254.

Universal-Cyclops Steel Corp.—Joint Development—

See Strategic Materials Corp. above.—V. 191, p. 1713.

Van Dorn Iron Works Co.—Voting Trust Files—

Lawrence C. Jones, President, and three other Voting Trustees under a Voting Trust Agreement for shares of the common stock of the Cleveland company filed a registration statement with the SEC on July 15 covering voting trust certificate for a maximum of 99,696 shares of Van Dorn common stock.—V. 188, p. 2356.

Varian Associates—Rights Offering to Stockholders—The company, via a prospectus dated July 13, is offering to its shareholders of record July 14, the rights to subscribe for 216,645 shares of capital stock ($1 par) in the ratio of one share for each 15 shares of capital stock then held, with rights to expire on Aug. 1. The offering is being underwritten by a group headed by Dean Witter & Co.

BUSINESS—The company commenced operations in 1948 as a custom research organization in microwave and related electronics fields. The company still carries on a substantial custom research and engineering effort but in 1950, as a result of its research and development programs, the company began manufacturing operations. At the present time approximately 90% of the dollar volume of the business of the company and its subsidiaries is attributable to manufacturing and approximately 10% to research and development. Through its history the company's operations have been increased by internal expansion as well as by formation and acquisition of subsidiaries. In October, 1954, Varian Associates of Canada Ltd. was organized as a wholly-owned subsidiary to manufacture the company's products for Canadian requirements and to do development work for the Canadian Government. On March 24, 1959, Varian acquired a controlling interest in Bomac Laboratories, Inc. of Beverly, Mass. Bomac was incorporated in 1948 as a professional laboratory for the purpose of doing research and development in the field of gas tubes and is now principally engaged in the manufacture of microwave tubes and components. On May 15, 1959, S-F-D Laboratories, Inc. was incorporated in the State of New Jersey to engage in further microwave research. On June 6, 1960, the company acquired all of the stock of Semicon Associates, Inc., a manufacturer of dispenser cathodes with plants in Lexington, Ky., and Watsonville, Calif.

DIVIDENDS—The company has never paid dividends on its capital stock, except for a 20% stock dividend paid in 1951. The company since its inception has followed the policy of retaining earnings to finance in part the growth of the business. The company anticipates that this policy will be maintained as long as necessary to provide funds required for its operations.

PROCEEDS—The net proceeds from the sale of the capital stock, after deducting underwriting commissions and other expenses in connection with such offering, are estimated at $8,871,600. The company presently plans to use approximately $2,500,000 of these proceeds in its building construction program at Palo Alto, Calif., approximately $2,000,000 for the purchase of machinery and equipment required for fabrication and processing of high power klystron tubes, and approximately $1,200,000 for the purchase of other machinery and equipment to expand its productive capacity in other product areas, such as medium power klystron tubes, cross field microwave tubes, N-M-R and E-P-R spectrometers, magnetometers and vacuum systems and pumps. In addition, approximately $2,500,000 of these proceeds will be used to retire the presently outstanding balances of the current bank borrowings of the company and its subsidiary, Bomac Laboratories, Inc., which were incurred for working capital purposes. The balance has not been specifically allocated, but will be used to augment the company's working capital to carry higher inventories and accounts receivable.

APPOINTMENTS—The agents who will act in connection with the subscription offer are:

Crocker-Anglo National Bank, Corporate Trust Department, One Montgomery St., San Francisco 20, Calif. Morgan Guaranty Trust Co. of New York, Corporate Trust Department, 140 Broadway, New York 8, N. Y.

UNDERWRITERS—The underwriters named below, severally, have made a firm commitment, subject to certain conditions, to purchase the respective percentages set forth below of such of the 216,645 shares of capital stock offered to shareholders as are not subscribed for upon the exercise of subscription rights, at the subscription price. Dean Witter & Co. is the managing underwriter.

—V. 191, p. 2685.

Wheeler Fibre Glass Boat Corp.—Common Stock Offered—Public offering of 100,000 shares of this corporation's common stock at a price of $4 per share was made on July 21 by Morris Cohon & Co. and associates.

PROCEEDS—Net proceeds from the sale of the common shares will be used by the company for various corporate purposes, including the purchase of machinery and equipment, and office furniture and fixtures; working capital necessary to cover moving and setting up costs and estimated labor, material and overhead costs; and the balance of the proceeds to provide capital for expansion of production facilities of such expansion as warranted by the demand for the company's products, and for contingencies.

BUSINESS—The corporation was organized under the laws of the State of Delaware on March 31, 1960 for the principal purpose of manufacturing and selling fibre glass, inboard motor boats. The company has acquired from Wheeler Yacht Co., Inc. all of the designs, drawings, molds and other special tools, facilities, and equipment, of that company used in, or relating to, the manufacture and sale of pleasure boats constructed from fibre glass. The company has under negotiation a 10-year lease from July 1, 1960, of improved real estate located at 450 Zerega Avenue, Bronx, New York, a short distance from the present plant of Wheeler Yacht Co., Inc. The property is located on the water and includes one fully equipped building and about 14,500 square feet of open paved area.

CAPITALIZATION—Authorized capitalization of the company consists of 1,000,000 shares of common stock, and upon completion of the current financing there will be outstanding 250,000 shares of the stock.—V. 191, p. 2250.

Yuscaran Mining Co., Inc.—Offering Challenged—

The Securities and Exchange Commission has instituted proceedings under the Securities Act of 1933 challenging the accuracy and adequacy of various representations contained in a registration statement of Yuscaran, of 6815 Tordera Street, Coral Gables, Fla., which proposes a public offering of securities. A hearing is scheduled for July 27, 1960, in the Commission's Washington office for the purpose of taking evidence and to determine whether a stop order should be issued suspending the registration statement.

The Yuscaran Mining registration statement was filed on May 6, 1960, and proposed the public offering of 1,000,000 common shares at $1 per share through company officers and employees. Organized in August, 1959, it proposed to engage in the exploring for, mining and processing of ore containing gold, silver, lead, zinc and copper in Honduras, Central America. In exchange for a 99-year lease on such properties and two grants relative to certain properties in North Carolina (U. S. A.), the company issued 15,900,000 common shares and $28,000 of 8% 25-year debentures to a partnership composed of Joseph Bobak, company President, and others; and it was further agreed to pay the partnership throughout the term of the lease 5% of the annual net profits of the company before Honduran and U. S. income taxes. Of these and other securities issued by the company, Boback and Emanuel Davis, Vice-President received 10,200,000 and 1,600,000 shares respectively; Mrs. Gloria Raudales w. de Daft of Honduras, owner of the properties, received $28,000 of debentures and her children received 600,000 common shares. Net proceeds of the public sale of stock would be used to purchase and install a mill and acquire other equipment and for working capital.

The Commission's order for proceedings charges that the company's propspectus is false and misleading by reason of its failure, among other things, to include in the first part thereof, in summary form, the major speculative features of the company and its securities, including facts with respect to the developments at the property and the present status thereof, and the amounts required to service the outstanding 25-year 8% debentures and to pay outstanding current liabilities, taxes and other charges. The accuracy and adequacy of various other informational disclosures are challenged, including representations with respect to the mining history of the leased property in Yuscaran and the present state of development and condition thereof; representations with respect to ore bodies and ore reserves and the dollar value thereof, and concerning the qualifications as a mining expert of Walter R. Zeibell on whose reports they were based; the data included and statements made concerning shipments from the so-called Henry Daft Mine; and the failure to disclose prior sales of securities to the public by Yuscaran Mining and others in violation of the Securities Act registration requirements.—V. 191, p. 2141.

FLORIDA

Florida (State of)

Florida's population gain of 76.6% since 1950 was greater than that of any other state, according to official U. S. Census Bureau figures contained in the current issue of the Florida Growth Fund News.

The Sunshine State in the past decade jumped from 20th to 10th place in the population derby, it is reported by the Palm Beach-based mutual fund.

"Most significant has been the growth of Florida's big cities during the past ten years," the FGF News points out, adding that "today three out of five Florida residents live in the state's seven most highly urbanized counties."

This population explosion seems to ensure the continuing economic growth of the state. A leading national research firm, Arthur D. Little Co., states that "factories must provide about 25% of the new jobs created in Florida during the next 10 years to absorb the state's new residents." This means some 18,500 new manufacturing jobs each year, the publication adds.

And the biggest boom is yet to come. By 1970, Florida is expected to have over 8 million residents, the FGF News points out. Florida also will be the only state to show an increase in home building in the coming year, says the FGF News, citing a recent survey by the University of Miami Bureau of Business and Economic Research.

Florida Growth Fund, Inc. is a mutual fund which invests in companies doing business in Florida and the South. The Fund now owns securities in 71 companies in 20 different industries.

Principal and semi-annual interest (January 1 and July 1, first coupon payable January 1, 1961) payable at the principal office of the Seattle Trust and Savings Bank, in Seattle, Washington (the Trustee), or at the principal office of the fiscal agency of the State of Washington in the City of New York, N. Y. Coupon bonds in $1,000 denominations, registerable as to principal only or as to both principal and interest with rights of conversion at the expense of the holder.

Interest exempt, in the opinion of Bond Counsel, from Federal Income Taxes under the existing Statutes, and Court Decisions

The Washington Toll Bridge Authority, a legally constituted public agency of the State of Washington, is authorized by Chapter 266 of the 1957 Session Laws to design and construct an additional bridge, including approaches, to carry traffic across Lake Washington at a site in the vicinity of Union Bay and Evergreen Point. The proceeds from the sale of the Bonds will be applied to the necessary costs of constructing the Bridge and its approaches.

THESE BONDS will be, in the opinion of Counsel, valid and legally binding obligations of the Washington Toll Bridge Authority, secured by a first and direct charge and lien on all tolls, other revenues and income derived from the operation of the Second Lake Washington Toll Bridge after providing for the costs of operation, maintenance and repairs of said facility. They are further secured under an agreement between the Authority and King County wherein the County will make certain advances to the Authority, when necessary, to meet the payment of the interest on the Bonds, to redeem the Bonds in accordance with the minimum debt service requirements or to maintain the Bond Reserve Account in accordance with the Bond Resolution.

Price 100% and Accrued Interest

These Bonds are offered when, as and if issued and received by us, subject to prior sale and approval of legality by Messrs. Weter, Roberts & Shefelman of Seattle, Washington, Bond Counsel to the Authority. This is not an offer to sell these securities, said offering is made only by means of the official statement, copies of which may be obtained from such of the undersigned and other underwriters as may lawfully offer these securities in this State.
