Acme-Hamilton Manufacturing Co.—Files Secondary

This corporation, 22 West 34th Street, New York, filed a registration statement with the SEC on July 28, 1960 covering 400,000 outstanding shares of common stock, to be offered for public sale at the then prevailing market prices by the present holder thereof, the company's president and board chairman. No underwriting is involved. During the first ten days after the effective date of the prospectus, one-half of the said shares will be offered to certain employees and representatives of the company for investment at \$2.00 per share.

The company operates three retail furniture stores located in retail trade districts in the city of New York and manufactures rubber products for home and industry. The merchandise sold directly in these stores includes furniture, home furnishings and other related merchandise, principally in the low and medium priced lines. In addition to various indebtedness, the company has outstanding 3,683,471 shares of common stock, of which Albert M. Kahn, board chairman and president, owns 2,664,157 shares (72%) and proposes to sell 400,000 shares.

Adson Industries, Inc., Forest Hills, N. Y.—Files With Securities and Exchange Commission

The corporation on July 20, 1960 filed a letter of notification with the SEC covering 150,000 shares of common stock (par 10 cents) to be offered at \$2 per share, through Bennett & Co., Newark, N. J. The proceeds are to be used for general corporate purposes.

Alco Development, Inc.—Proposes Offering—

This firm, of 1420 Liberty Bank Bldg., Oklahoma City, Okla., filed a registration statement with the SEC on July 26, 1960 covering \$4,000,000 of participations in its development program 60-63 and exploration program 60-61. The participations are to be offered for public sale in 800 units, with a minimum of 4 units at \$5,000 each. The offering will be made on a best efforts basis by officers and affiliates of Alco and by certain selected investment firms, which latter will receive as compensation an amount equal to 2½% of the amounts raised by them and an undivided working interest equal to 10% of the amounts raised by them and expended in development program 60-63 (but only after certain prior payments to participants).

Alco was organized primarily to develop under a drilling program about 34,000 contiguous acres of oil and gas leases in Alfalfa County, Okla., and secondarily to acquire and explore oil and gas properties in search of new oil and gas fields. It will utilize the services and facilities of Western Oil & Gas Co., a partnership whose partners caused Alco to be organized. Under development program 60-63, Alco will commence the development of the Alfalfa County property and rework ten wells in this area, of which 7 are capped and 3 are temporarily abandoned; and under exploration program 60-61 it will undertake the acquisition and exploration of other prospects, principally in the Mid-Continent area. About \$3,000,000 of the proceeds of this offering will be used for the first and the balance for the second program. However, \$377,707 will be reimbursed to the original leasehold owners for six test wells and \$161,110 will be paid as the purchase price for three test wells drilled by Panhandle Eastern Pipeline Co.

The prospectus lists Louis J. Horwitz as President and Max H. Horwitz as Secretary-Treasurer.

Allstate Consolidated, Inc., Detroit, Mich.—Files With Securities and Exchange Commission

The corporation on July 20, 1960 filed a letter of notification with the SEC covering 100,000 shares of common stock (no par) to be offered at \$3 per share, without underwriting.

The proceeds are to be used to increase the equity position of the corporation.—V. 191, p. 2197.

Alterman Foods, Inc.—Files Secondary

Alterman Foods, Inc., 933 Lee Street, S. W., Atlanta, Ga., filed a registration statement with the SEC on July 27, 1960, covering 100,000 outstanding shares of common stock, to be offered for public sale by the present holders thereof through a group of underwriters headed by Kidder, Peabody & Co. and Wertheim & Co. The public offering price and underwriting terms are to be supplied by amendment.

The company operates a retail food chain, under the name "Big Apple," consisting of 43 super markets located in and within a 120 mile radius of Atlanta, Ga. In addition, it processes preserves, jellies, mayonnaise and salad dressing for sale in its own markets and to other food stores and chains, and conducts a wholesale and an institutional grocery business.

In addition to certain indebtedness, the company has outstanding 734,928 shares of common stock, of which Isidore Alterman, Board Chairman and Treasurer, owns 115,892 shares and is selling 30,000 shares, and Simon Moltack, President, owns 88,404 shares and is selling 20,000 shares. In addition, four other members of the Alterman family are selling a total of 50,000 shares of an aggregate 275,126 shares owned.—V. 191, p. 2633.

AMP Inc. (& Subs.)—Record First Half—

Operations of AMP, its domestic subsidiaries, and its affiliate, Pamcor, Inc. for the six months ended June 30, 1960, reached a new high. Combined sales amounted to \$24,917,155, a 22% increase over

the \$20,439,931 for the same period in 1959. Combined net income for the first half of 1960 was \$2,443,064, or \$1.21 per endorsed share of AMP common stock compared to \$2,240,866 and \$1.11 for the first six months of 1959. There were 2,017,496 shares of AMP common outstanding at the end of both periods.

The company stated that with a record first half already turned in, 1960 is well on the way toward exceeding 1959, the highest previous year. If current business levels continue, the second half of 1960 is expected to be better than the first half.

Orders totaling \$25,050,000 were received in the first half of 1960 compared to \$21,920,000 in the first half of 1959. The backlog of unfilled orders amounted to \$7,820,000 at June 30, 1960 compared to \$7,440,000 at year-end 1959, and \$7,720,000 at June 30, 1959.

Capital expenditures continued at a high level with over \$2,400,000 for the first six months of this year compared to \$1,100,000 in the first half of 1959. Total expenditures for 1960 are expected to approximate \$4,500,000. In 1959, the total was \$2,600,000.

The manufacturing plants recently completed at Greensboro, N. C. (42,000 sq. ft.) and at Landisville, Pa. (25,000 sq. ft.) are now in operation. The new plant at Raleigh, N. C. (10,000 sq. ft.) is scheduled to begin production within the next few weeks.

The operating results of foreign subsidiaries are not included in the combined figures. These subsidiaries had sales of \$4,309,115 and net income of \$448,497 for the first six months of this year. Their sales were \$2,275,659 and net income \$206,286 in the same period in 1959. All earnings are still required to help finance the rapid expansion and therefore, no dividends have been paid by these subsidiaries. The formation, in June, of AMP de Mexico, S. A., the eighth wholly-owned foreign subsidiary, further broadens the scope of the international operations.

AMP Incorporated produces solderless electric wire terminals, splices and connectors and the associated application tooling, patchcord programming systems, and capacitor products and other electronic components.—V. 191, p. 1105.

America Corp.—Net Up—Extends Tenders—

America Corp. (formerly Chesapeake Industries, Inc.) had sales of \$15,640,499 for the six months ended June 30, 1960 compared with \$13,742,185 for the first half of 1959, Gordon K. Greenfield, President, reported on July 25.

Net income for the period was \$673,711 equal, after preferred dividends, to 16 cents a share on 3,183,229 outstanding common shares. Since the company had a tax-loss carryforward of \$2,000,000 in 1959, there was no tax provision in this year's first half.

This compared with a loss of \$396,843 in the first six months of 1959 before a tax credit of \$193,000 produced a net loss of \$203,843.

Mr. Greenfield said the improvement this year stemmed from a reorganization in the company's subsidiaries which produced sharply higher earnings.

"Most of our problems have been solved," the executive said. "The

two operations which accounted for the bulk of last year's losses have been disposed of."

Pathecolor, Inc., an amateur color film processing company, lost \$267,719 in the first half of 1959. Its assets were disposed of last August. Stanley Greetings Inc., a greeting card subsidiary which lost \$51,000 in the first six months last year, was sold only two weeks ago.

Mr. Greenfield said cost reduction programs instituted at three other subsidiaries also helped results in the first half of 1960.

BUSINESS—The corporation is a diversified holding company with subsidiaries in the motion picture and TV film processing, metal products and gas utility fields. The companies are Pathe Laboratories, Inc., New York City and Los Angeles; Virginia Metal Products, Inc., Orange, Va., and Portsmouth Gas Company, Portsmouth, Ohio.

Indicative of its improved financial position was the recent payment by the company of all arrearages on its cumulative preferred stock. Since two issues were three quarterly payments in arrears, the disbursement including payment of the July 1 dividend, amounted to \$4 for each \$4 preferred share and \$6 for each \$6 preferred share. There are outstanding 41,118 shares of \$4 preferred and 24,387 shares of the \$6 preferred stock.

TENDERS—The corporation has extended its tenders to buy up to 10,000 shares of its \$4 preferred stock and up to 5,000 shares of its \$6 preferred stock until Aug. 15, 1960.

The prices offered are \$45 a share for the \$4 preferred stock and \$55 a share for the \$6 preferred. The corporation has outstanding 41,118 shares of the \$4 preferred and 24,387 shares of the \$6 preferred stock.—V. 190, p. 561.

American Machine & Foundry Co.—Record Net—News

Morehead Patterson, Chairman of the Board, reported that the first six months of 1960's operations established the highest net earnings, revenues and unfilled orders position for any first six months period in the company's 60-year history.

Mr. Patterson pointed out that the quarterly dividend has been revenues should continue through the second half of the year. He pointed out that the second and third quarters historically have been the two low quarters and the first and fourth quarters the two high ones for the year. In all probability this will be another record year for AMF.

Mr. Patterson pointed out that the quarterly dividends has been increased in December of each of the last four years and that it is his intention to recommend an additional increase at the November board meeting if the present trend of earnings and backlog continues.

AMF net earnings for the first half of 1960 were \$10,560,000 compared with \$8,506,000 for the same period in 1959, an increase of 24%. After preferred dividends, these earnings equalled \$1.39 per share on 7,509,408 shares of common stock outstanding at June 30. This compared with \$1.16 per share on 7,205,750 shares at June 30, 1959, adjusted to reflect the two-for-one stock split in October, 1959.

Mr. Patterson said that the company's \$250,446,000 backlog of unfilled orders on June 30 was the highest in the company's history, an increase of 84% over the \$135,963,000 backlog at that time last year. He pointed out that these figures do not include future income from AMF's leased industrial and recreation equipment. Projecting only the minimum rental income anticipated from present leases increases the AMF backlog by \$461,000,000 and brings the total sales and lease backlog to a record \$711,000,000. The AMF Board Chairman also pointed out that because of the company's practice of leasing rather than selling its Automatic Pinpointers and other leased equipment, the company's earnings reflect the profits only on current rentals in the year such rentals are actually received.

Rentals from AMF's leased industrial and recreation equipment were a record \$36,832,000 for the first six months of 1960 compared with \$29,234,000 for the same period in 1959, an increase of 26%.

Sales for the first six months of this year increased 13% over the like period in 1959, totaling \$105,403,000 compared with \$93,439,000 for the first half of 1959.—V. 192, p. 109.

American Manufacturing Co., Inc.—Exemption Ext'd

The SEC has issued an order under the Investment Company Act granting this company, of Brooklyn, an extension of its temporary exemption from registration under that Act pending the disposition by the Commission of American's pending application for exemption. Pending before the Commission is a joint application of American, Century Investors, Inc., and Webster Investors, Inc., with American as the surviving corporation; and American has applied for an order declaring that it is not now and will not be an investment company upon consummation of such merger.—V. 192, p. 302.

American Petrofina, Inc.—Acquires—

Acquisition of natural gas-producing properties in Texas, which will immediately increase both the company's natural gas sales and its proven gas reserves by approximately 16%, was announced by American Petrofina, Inc. According to Harry A. Jackson, President of the \$100 million integrated oil company—which is the U. S. affiliate of the worldwide Petrofina Group—the acquisition "is part of a continuing program of expansion by American Petrofina involving exploration, production, refining and marketing."

The properties purchased include 28 wells currently producing approximately 225 million cubic feet of natural gas per month. Production from the wells, Mr. Jackson stated, "will add substantially to American Petrofina's income from natural gas operations." In addition, he said, the acquisition will add approximately 32 billion cubic feet to the company's current natural gas reserves, estimated at 200 billion cubic feet.

The producing properties, located in Hidalgo and Willacy Counties, Texas, were purchased for cash from a group headed by John L. Loeb. The price was not announced.

American Petrofina, formed in 1956 and listed on the American Stock Exchange, currently owns interests in some 2,700 producing oil and gas wells in Texas and other states, owns and operates three oil refineries with total capacity of 50,000 barrels per day and markets its famous FINA brand gasoline and other products through more than 1,800 outlets in 13 mid-Continent and South-western states.

During 1959, it processed 14,298,000 barrels of crude oil at its refineries and produced and sold 15.4 billion cubic feet of natural gas. Acquisition of the new wells will add approximately 2.7 billion cubic feet annually to its natural gas sales.—V. 191, p. 2086.

American Title Insurance Co. — Files Exchange and Offering—

This company, 901 Northeast Second Avenue, Miami, Fla., filed a registration statement with the SEC on July 27, 1960, covering 301,884 shares of common stock, of which 150,000 shares are to be offered for public sale by the issuing company, A. C. Allen & Co. Inc., and Eache & Co. are listed as the principal underwriters; and the public offering price and underwriting terms are to be supplied by amendment.

An additional 61,004 shares are to be offered in exchange for stock of The Columbia Title Insurance Co. of the District of Columbia and of The Real Estate Title Insurance Co. of the District of Columbia, on the basis of 1½ shares of American stock for each share of stock of the respective companies. Berens Securities Corp. of Washington, D. C., will solicit acceptances of the exchange offer. American now owns 34,864 shares (58.1%) of the Columbia Title stock and 39,383 shares (65.6%) of the Real Estate Title stock, most of which was acquired in May 1960 from a limited number of stockholders of these companies. In exchange therefore, American issued 90,380 shares of its stock, of which 56,474 shares were received by Berens Securities in exchange for its holdings of stock in the two companies and are to be acquired by the underwriters for public sale. Berens Securities, as compensation for soliciting acceptances of the exchange offer and for services in connection with American's acquisition of stock of the two companies, will receive an amount equal to 50 cents per share of stock of the two companies acquired by American and each share deposited pursuant to the exchange offer. Of the stock of the two companies heretofore acquired, 375 shares of Real Estate Title stock were acquired from one stockholder in exchange for 500 shares of American stock, and 2,352 shares of Columbia Title stock and 3,735 shares of Real Estate Title stock were purchased for a cash consideration of \$12.50 per share. It is American's present intention to acquire all the outstanding shares of the two companies and that they shall retain their present corporate organization and operate as subsidiaries of American. American and its subsidiaries are primarily engaged in the business of insuring titles to real estate and performing related abstracting and escrow services. According to the prospectus, the net proceeds from the stock sale have not been allocated to any particular project or purpose and will be added to the company's general funds. Some of the funds may be used for possible future acquisitions.

American has outstanding 350,000 shares of \$1 par preferred stock (voting) and 643,190 shares of common stock. Joseph Weintraub, Board Chairman, owns all such preferred stock and 179,928 common shares, and George W. DeFranceaux, a director, owns 68,725 shares of common.—V. 191, p. 2086.

Anatol Co.—Proposes Offering—

The company, of 1545 Broadway, New York, filed a registration statement with the SEC on July 27, 1960 covering \$400,000 of limited partnership interests, to be offered for public sale, in \$8,000 units (subject to a 20% involuntary overall).

Anatol is a partnership of which Max Allentuck of 90 Riverside Drive, N. Y., is the general partner. The sole business of the partnership will be the production of the dramatic-musical play tentatively entitled "Anatol," all rights to which are to be assigned to the partnership by Allentuck and Kermit Bloomgarden Productions, Inc., the promoters and producers. The play will be an adaptation of a collection of playlets entitled "Affairs of Anatole" written in German by Arthur Schnitzler. Bloomgarden Productions has entered into a Dramatists Guild Dramatic-Musical Minimum Basic Production Contract with Fay and Michael Kanin (bookwriters), Arthur Schwartz (composer) and Howard Dietz (lyricist), engaging said persons to write the play.

The partnership will be formed when the \$400,000 initial aggregate limited partnership contributions have been received. Allentuck will receive 50% of the net profits of the partnership (without cash contribution), of which Bloomgarden Productions will receive the major portion.

Arkansas Louisiana Gas Co.—Purchase Agreement—

Arkansas Louisiana Gas Co., has entered a long term agreement to purchase all natural gas produced by Gulf Oil Corp., in the Arkansas Valley area of Western Arkansas.

The effect of the agreement, as entered into by A. L. G. and Gulf, is that present and potential natural gas production from more than 300,000 acres of leases in Western Arkansas will remain in the state, dedicated to use by Arkansas industries and homes.

Details of the transaction were announced on July 22 by W. R. Stephens, Little Rock, board chairman and President of Arkla.

Mr. Stephens said that consummation of the agreement will enable Gulf to immediately undertake extensive drilling and development of its acreage in the Arkansas Valley "since Gulf has been able to negotiate a contract price for its gas at the wellhead which will make development of this acreage profitable."

The 20-year contract between the two companies contains a specific intrastate clause which provides that all natural gas produced from wells and acreage covered by the contract must remain in Arkansas, where it will be available to serve present industries, and to help attract new industries to the state, as well as be continually available to home consumers in Arkansas.

Covered in the contract are presently developed gas reserves in the Knoxville field of Johnson and Pope counties, the Spadra and Paris fields of Logan county, the Washburn field of Sebastian county, and a portion of the Kibler field in Crawford County.

In excess of 300,000 acres of developed or undeveloped acreage in the upper Arkansas River Valley is under lease to Gulf, located in the following counties: White, Faulkner, Pope, Conway, Van Buren, Logan, Johnson, Franklin, Sebastian, Crawford, Yell and Cleburne.

Mr. Stephens commented that Gulf deserved considerable credit from Arkansas, for its willingness to dedicate its natural gas reserves for utilization in the state.—V. 191, p. 2087.

Arvin Industries, Inc.—Net Down—

Net sales of \$15,181,445 for the quarter ended July 3, 1960, were announced by Arvin Industries, Inc. This total compares with \$16,177,346 for the corresponding period one year earlier.

Per share earnings for the 1960 quarter were four cents on the 1,132,534 shares outstanding as compared with 51 cents per share in the second quarter of 1959, adjusted to the shares outstanding at present.

Sales and earnings for the second quarter were adversely affected by inventory reduction programs instituted by the company following a heavy build-up prior to and immediately after the steel strike, inventory reduction programs on the part of major Arvin customers, heavy expenses connected with the development and starting costs on new products, unfavorable weather during the early weeks of the quarter, and the pricing of certain products to meet foreign import competition, Eldo H. Stonecipher, President, said.

For the first half of 1960, sales increased by \$360,463 to a total of \$32,476,234 from the sales of \$32,115,771 during the same period in 1959. Mr. Stonecipher announced. Earnings per share were 52 cents for the 1960 period as compared with 97 cents for the first six months of 1960.—V. 137, p. 1646.

Assembly Products, Inc.—Shipments, Net Up—

First-half increases of 23% in shipments and 36% in profits, compared with the corresponding period last year, were reported by Assembly Products, Inc., manufacturer of meter-relays, indicating panel meters and complete controls.

In an interim report mailed to shareholders, President John D. Saint-Amour revealed shipments totaled \$1,721,471 for the first six months of 1960, against \$1,395,210 in 1959.

Net income for six months was \$145,634, compared with \$106,773 last year. Earnings thus far in 1960 were 30 cents per share, with 478,370 shares outstanding, against 24 cents last year when 434,235 shares were outstanding.

"In relation to our goals for 1960, shipments were about on schedule,

while earnings were somewhat better than expected," Saint-Amour commented. He pointed out that in the company's 1959 annual report, he said Assembly Products was aiming at increases of 24% this year in both shipments and profits.—V. 191, p. 98.

Associated Testing Laboratories, Inc.—Common Stock Offered—Drexel & Co. headed a group which offered publicly on Aug. 5 a new issue of 75,000 shares of this company's 10¢ par value common stock at \$10 per share.

PROCEEDS—A portion of the proceeds will be used initially to retire \$100,000 of short-term bank loans incurred for working capital purposes, and to provide additional testing facilities and equipment in new plants at Wayne, N. J. and Winter Park, Fla., estimated to cost approximately \$150,000. The remaining proceeds will be added to working capital and are expected to be used in part for further expansion of facilities including the possible establishment of new testing laboratories in the New England and West Coast areas.

BUSINESS—Incorporated in 1956, the company is engaged in the business of environmental testing of components for defense industry and also manufactures environmental test equipment for use in its own operations and for sale to others.—V. 191, p. 2303.

Atlas Corp.—Exchange Exempted—

The SEC has issued an exemption order under the Investment Company Act authorizing an exchange of securities by and between Atlas Corp., New York investment company, and Titeflex, Inc., a subsidiary. Atlas owns 1,380,379 shares (94.79%) of Titeflex common stock and \$5,563,531 of its notes. Titeflex proposes to issue preferred stock to Atlas in exchange for said notes on the basis of one share for every \$25 of notes plus accrued interest (or a total of 233,000 preferred shares).—V. 192, p. 207.

Automatic Canteen Co. of America—To Increase Common Stock—

The stockholders on Oct. 4, 1960 will consider increasing the authorized common stock.—V. 192, p. 207.

Corporate and Municipal Financing Ahead

By SIDNEY BROWN

Gains in the corporate float of public offerings and a decline in tax-exempts are in prospect not only for issues with scheduled dates for the four-week period ahead but also for all issues listed in the calendar from August 8 through December of this year.

The table below sums up the dollar value of the securities with tentative dates for the periods described above. The figures in parentheses are the projections made last week.

	28-Day Visible Supply	Total from Aug. 8 on
Corporates ———	\$606,926,000 (\$407,998,000)	\$1,413,876,000 (\$1,178,858,000)
Municipals ———	174,747,000 (346,865,000)	372,552,000 (559,887,000)
Total ———	\$781,673,000 (\$754,863,000)	\$1,786,428,000 (\$1,738,745,000)

CHANGES IN THE PAST WEEK

Additions to the current *Chronicle's* calendar of corporates add up to \$321,741,500 of which \$26,741,900 are in equities and the remainder in debt obligations. Of the latter there are \$125 million Republic Steel debentures and \$150 million General Motors Acceptance Corporation debentures set, respectively, for August 30th and August 17th.

Corporate issues sold in the past week (July 28 through August 3) comprised \$31,772,430 in equities, \$108,308,000 in bonds and \$18,516,870 between secondaries and private placements.

State and local government additions to the *Chronicle's* calendar in the week just ended came to but \$51,530,000. Sales in the July 28-Aug. 3 week, inclusive, amounted to \$252,898,000. This includes the \$200 million Chesapeake Bay Bridge and Tunnel District successfully negotiated by First Boston, Allen & Co., Merrill Lynch, Pierce, Fenner & Smith Inc. and Willis, Kenny & Ayres, Inc.

In addition to the corporates tabulated above there are also filed with the SEC, but without proposed offering dates, approximately \$211,855,400 which can be expected to materialize in the next few months. Based on reliable indications there are, further, \$802,500,000 possible corporate financing which may be filed with the SEC and/or ICC between now and the end of the year. This does not include such pending private placements as: \$63 million Venezuela 5½% bonds, \$65 million Alberta Gas Trunk Line, and \$190 million TWA private placement. (The TWA's \$100 million public debenture offering counted in the totals above of other possible financing without given dates.) Municipals without slated dates expected in August aggregate \$116,000,000 in September, \$115,130,000 and others anticipated for this year come to \$600 million.

REGISTRATIONS BEGIN TO INCREASE AGAIN

Last July 21st the SEC reported 23 registrations filed with 307 pending. The August 1st report listed 50 registrations filed and 318 pending.

The numerous small electronics firms seeking filings brings to mind a line in a pre-Broadway comedy witnessed in Princeton, N. J. which was never heard on Broadway—since the vehicle was, unfortunately, incapable of traversing the few miles involved. The line had a former matinee idol saying something to the effect "if only I could find a charitable drive which I could head to regain my fame." Somewhat similarly is the drive to find a firm in electronics to underwrite and, by the same

token, this is true also on the part of the tyros in the market looking for another lucky-break. When the statistics are compiled on the number of new, small businesses in the past few years it should prove to be no surprise that electronics showed the fastest rate of increase.

FOUR-WEEK VISIBLE SUPPLY

The table below is based on public and private information obtained by the *Chronicle* in order to determine the demand for funds in the capital market in the next 28 days. The tabulation is classified in terms of equity and debt corporates and municipals. The former takes in common as well as preferreds. Debt offerings and preferred stocks are taken at par value and common stock dollar valuation is based on offering information except in those cases when it is not supplied. In the event of the latter, conservative estimates are made as to what the market value will be at the time of the offering.

Avien, Inc.—Acquires—

Stockholders of Electrol, Inc., on July 29 approved the acquisition of Electrol by Avien, Inc. The acquisition has already been approved by the Boards of Directors of both companies.

Under the agreement Avien acquired Electrol's net assets in exchange for class "A" capital stock.

Avien is a manufacturer and designer of instruments, controls, and other electronic products and major systems for aero-space, undersea and industrial use. Electrol has been since 1936 a designer and manufacturer of hydraulic equipment specializing in landing gears for executive aircraft and a variety of military aircraft products.—192, p. 207.

Bangor & Aroostook Corp.—Exchange Offer—

The corporation, of 84 Harlow Street, Bangor, Maine, filed a registration statement with the SEC on July 29 covering 359,620 shares of common stock. The company proposes to offer this stock in exchange for all of the 179,810 common capital shares of Bangor & Aroostook Railroad Co., on the basis of two shares of the company for one share of the railroad. Georgeson & Co. will solicit exchanges from stockholders of the Railroad and will be paid a fee of \$2,500 plus "reasonable out-of-pocket expenses."

The company was organized under Maine law in April, 1960, by the railroad and its directors. The exchange offer is to be made in connection with a plan for corporate reorganization of the railroad which according to the prospectus is necessary because "it will be in the best interest of the railroad if the corporate enterprise can develop sources of income in addition to its regular business as a carrier. . . . Expansion of the business into non-carrier activities appears to offer the best possibilities for significant growth." Any such expansion of business activities is likely to create a necessity for issuing securities and incurring debt. The railroad itself is able to do these things so long as the purpose thereof relates to carrier activities. It has been advised by counsel that, under existing law and practice, neither stock nor debt securities having a maturity in excess of two years may be issued by a railroad for the purpose of engaging in non-carrier activities. It is for this reason that railroad's management is pursuing a plan for corporate reorganization. Under the plan, the new company will become the parent of the railroad. No determination has been made as to the type or types of enterprises in which the company will engage.

The only stockholders of the company are its directors, each of whom has subscribed for one qualifying share of its common stock. If the exchange offer is declared effective, these subscriptions will be canceled. Ernst B. van Loben Sels is listed as board chairman and W. Gordon Robertson as President.

BarChris Construction Corp.—Net Up 182%—

These New York City designers and builders of complete bowling centers piled up record sales and earnings for the first half of 1960. It was announced on Aug. 3 by Christie F. Vitolo, BarChris President. Consolidated net sales for the six months ended June 30, 1960, were \$3,209,106 compared with \$1,202,044 for the same period in 1959, an increase of 167%. Net earnings after taxes for the first half of this year were \$228,240, an increase of 182% over last year's figure of \$80,850. Per share earnings rose to 39 cents on 560,000 shares outstanding in 1960 from 27 cents on 300,000 shares outstanding in 1959.

With a backlog of \$7 million in orders, Mr. Vitolo expects the firm to end the year with total net sales in excess of \$8 million. Of the \$7 million current backlog, BarChris will have completed \$5 million worth of construction work before Jan. 1, 1961. The company is also negotiating another \$5 million in orders at the present time, Mr. Vitolo added.

Sales for the second half of 1960 will include the completion of a \$3 million string of 19 BarChris designed and built bowling centers in New York, New Jersey, Connecticut and Massachusetts. The ultra-modern sport palaces will feature restaurants, snack bars, nurseries and other conveniences.

BarChris is the only company in the field that builds a complete bowling center ready for operation. It has constructed more than 4,000 lanes in the metropolitan New York area and is extending its activities to the South and Midwest as well as New England.—V. 191, p. 898.

Berkshire Hathaway Inc.—News—

At their regular meeting on Aug. 2, the Board of Directors declared a dividend of 25 cents per share, payable Sept. 1 to stockholders of record Aug. 16, 1960.

Sales for the quarter ending July 2, 1960, were \$14,433,757 and the net profit was \$1,234,599 or 72 cents per share after depreciation of 423,079. This compares with a gain of \$448,380 after depreciation of \$445,689 for the quarter ending June 27, 1959.

Current gains are reported after payment of state and local taxes but before Federal income taxes which do not apply to present earnings as the company has a substantial Federal income tax carry forward credit as a result of the losses sustained in 1957 and 1958.

Working capital as of July 2, 1960, amounted to \$13.96 per share. During the last nine months, \$3,388,883 worth of machinery was acquired against the company's machinery improvement program.

The earnings shown for the quarter ending July 2, 1960, include the increased costs resulting from the wage increase of 5% granted to our employees effective as of April 18, 1960. This increase amounted to approximately \$220,000 for the quarter and will cost about \$1 million per year. The market for our products has remained quiet, but prices are still firm, inventories are low, and our unfilled order position is still substantial. As we are now between seasons, this would appear to indicate that the market is going through a digestive period but continues to be fundamentally sound. Sales for the nine months ended June 27, 1959, were \$52,349,362 compared to \$49,167,464 for the same period this year. Reduction of cloth inventories in 1959 accounted for substantially all of this difference.

Present sales reflect full time production, and it is anticipated that operations will remain at the present high level and continue to be profitable for the balance of the year.—V. 190, p. 867.

Black Hills Power & Light Co.—Stockholder Offering—

Dillon, Read & Co. Inc. heads an investment banking group which, pursuant to a July 28 prospectus, is underwriting an offering of 32,842 shares of common stock by this company to holders of its outstanding common stock. Dillon, Read & Co. Inc. will also act as dealer-manager of a group of securities dealers in soliciting the exercise of subscription warrants issued to stockholders. The subscription warrants evidence preemptive rights, expiring Aug. 11, 1960, to subscribe for the new stock at \$28.50 per share, at the rate of one share for each 12 shares held, and give holders the additional right to subscribe at the same price, subject to allotment, for shares not taken upon exercise of the preemptive rights.

PROCEEDS—The company, an electric utility serving an area located in western South Dakota and eastern Wyoming, plans to use the proceeds from the sale of the common stock, plus the proceeds of the private sale of \$1,000,000 first mortgage bonds, and \$1,200,000 in short-term promissory notes, together with available funds on hand and cash which will become available through operations, to cover the remaining cost of the fiscal 1960 construction program and the acquisition of certain properties from Central Electric & Gas Co. Expenditures for additions and improvements to the company's properties for the fiscal year ending Oct. 31, 1960 are estimated at approximately \$5,077,600.

UNDERWRITERS—The underwriters named below have severally agreed to purchase as nearly as practicable in the following percentages the shares of unsubscribed stock:

Dillon, Read & Co. Inc.	26	Merrill Lynch, Pierce, Fenner & Smith Inc.	12
Allison-Williams Co.	4	William R. Staats & Co.	6
A. C. Allyn & Co. Inc.	9	G. H. Walker & Co.	9
Boettcher & Co.	4	Harold E. Wood & Co.	9
Eastman Dillon, Union Securities & Co.	12	Woodard-Elwood & Co.	6
—V. 192, p. 207.			

Bobbie Brooks, Inc.—Net Up—

Net profits totaled \$1,651,800 for the fiscal year ended April 30, 1960, an increase of 61% over the \$1,028,900 earned in the preceding year, Maurice Saltzman, President, announced in the Annual Report to shareholders.

Net sales of Bobbie Brooks, which makes coordinated ensembles and separate items of apparel for young adult women from 15 through 24, totaled \$35,721,000. This was an increase of \$10,706,400 or 43% over the sales of \$25,014,600 in the preceding fiscal year.

Mr. Saltzman said that bookings and shipments for the current quarter continue to show a substantial increase over the same period a year ago, and that "present indications are that another year of expanding sales is under way." Sales have increased during each of the company's 21 years of existence, and during the fiscal year just ended were 2½ times as high as they were five years ago.

The company's manufacturing and distribution facilities were doubled during the past year to keep pace with a rate of growth expected to increase sales volume to \$50,000,000 a year by 1962, he said.

With adjustment for a 2 for 1 stock split last February, earnings per share on the average number of shares of stock outstanding during the fiscal year were \$1.35, compared with 96 cents for the preceding 12 months.—V. 191, p. 1319.

Border Steel Rolling Mills, Inc.—Financing Proposal

This firm, located in the Mart Bldg., El Paso, Texas, filed a registration statement with the SEC on July 25 covering \$1,300,000 of 6% subordinated convertible debentures due 1976 and 245,439 shares of common stock. The debentures are to be offered for public sale at 100% of principal amount through a group of underwriters headed by First Securities Co. and Harold S. Stewart & Co., the underwriting terms to be supplied by amendment. The stock is to be offered for subscription at \$5 per share by holders of outstanding common stock of record May 31, 1960, at a ratio of 53¼ shares for each share then held. No underwriting thereof is involved.

The company was organized in May 1959 and has no operating history. It proposes to construct and operate a merchant bar and rod mill at El Paso. Its financing program involves the issue and sale to institutional investors of \$1,800,000 of 6½% first mortgage and sinking fund bonds, including \$1,500,000 of series A bonds with 10-year warrants to purchase 70,000 common shares at \$5 per share and \$300,000 series B bonds with 10-year warrants to purchase 10,000 common shares at \$5 per share; the issue and sale of the \$1,300,000 of debentures to the underwriters; and the issue and sale of 245,439 common shares to present stockholders. Of the net proceeds, \$30,760 will be used for the purchase of land; \$3,152,000 for the construction of a steel mill and related facilities (including \$1,714,000 for rolling mill equipment); \$91,000 for interest expense during construction; and the balance for general funds. The mill is to be constructed about 16 miles north of downtown El Paso.

The company's prospectus lists Milton D. Feinberg as Board Chairman, William K. Ramsey, Jr., as President, and Edward J. Winter as General Manager. They and other organizers have acquired the 4,609 outstanding common shares at \$5 per share.—V. 190, p. 1175.

Boston Capital Corp.—Files Common—

This corporation, of 75 Federal St., Boston, Mass., filed a registration statement with the SEC on Aug. 3, 1960, covering 1,500,000 shares of common stock, to be offered for public sale at \$15 per share through an underwriting group headed by Shearson, Hammill & Co., which will receive a commission of \$1.45 per share.

The company was organized under Massachusetts law on July 26, 1960, as a closed-end, non-diversified management investment company and is (or will be) licensed as a small business investment company under the Small Business Investment Act of 1958. Its primary objective will be investment for capital appreciation, and its business will consist of furnishing equity capital or making loans to small-business concerns and of providing such concerns with advisory and management counseling services. The company intends to invest in small-business concerns located in any area of the U. S. Net proceeds of the stock sale will be used for the purposes indicated.

The prospectus lists John P. Chase as Board Chairman and Joseph W. Powell, Jr., as President. The company now has outstanding 25,000 common shares which were issued and sold at \$13.55 per share. Herman Galvin, member of the company's advisory board, and Meyer J. Garber, Mr. Galvin's business associate, each owns 5,500 shares; Shearson, Hammill & Co., of which Wendell B. Barnes, a director, is senior associate, owns 5,000 shares; and Brooks Walker, a member of the advisory board, owns 2,000 shares. Officers and directors of the company as a group own 4,800 shares.

Boston Fund, Inc.—Acquisition Exempted—

The SEC has issued an exemption order under the Investment Company Act permitting this Boston investment company to issue its shares at their net asset value for substantially all of the cash and securities (amounting to about \$6,200,000 as of March 31, 1960) of The Hartford Investment Co., a personal holding company.—V. 192, p. 303.

Bowling Corp. of America—Expansion—

The corporation will have 524 lanes in operation by Oct. 15th, grossing between \$9 and \$12 million annually, according to President Ruben Dankoff.

Dankoff announced that new giant BCA bowling centers will be opened in Louisville, Kentucky; Birmingham, Alabama; Cincinnati, Ohio; Hillsdale, New Jersey; Green Brook, New Jersey; and White Plains, New York. It is also announced that many of the existing BCA centers will be increased in size to accommodate the heavy demand of participants in this rapidly growing sport.

Total investment in BCA bowling centers so far this year amounts to \$12 million. Earlier this year, the corporation and American Machine & Foundry signed a contract which represents \$5 million in equipment purchases and automatic pinspotter rentals. The first BCA bowling center was opened in August of 1959. Each center contains, meeting rooms, restaurants, lounges, coffee shops and even baby-sitting facilities. They operate 24 hours a day. According to Dankoff the Fun Fair Bowl in Hillsdale, New Jersey will also boast a billiard club.

Dankoff also reported that the directors of BCA had declared its third quarterly dividend of six cents per share payable September 15th to stockholders of record September 1st.—V. 191, p. 1215.

Bullocks, Inc.—Registrar Appointed—

The Chase Manhattan Bank has been appointed registrar of the common stock, \$5 par value, of the corporation.—V. 190, p. 1067.

Burroughs Corp.—First Half Net Up—

The corporation on July 18 reported that both profits and revenues increased significantly for the first six months of 1960 as compared with the same period last year. Net income after taxes increased 57% to \$5,043,000 compared with \$3,208,000 in the same period last year. Based on the number of shares outstanding, earnings per share were 76 cents for the six months compared with 49 cents in the same 1959 period.

Provision for income taxes for the first six months of this year was \$5,200,000 against \$3,200,000 last year.

World-wide revenue for the first six months of this year increased 20% to \$261,501,000 over the \$167,800,000 realized in the same 1959 period.

For the quarter ended June 30, 1960, world-wide revenue amounted to \$102,814,000 compared with \$86,877,000 for the second quarter in 1959. Net income for the second quarter in 1960 was \$2,593,000, an

increase of 55% over the \$1,675,000 earned in the second quarter in 1959.

New incoming orders for commercial and military products for the first six months increased 32% and amounted to \$236,018,000 as compared with \$178,475,000 during the same period last year.—V. 190, p. 1176.

Carborundum Co.—Net, Sales Up—

The company in the first six months of this year made gains of 2.5% in sales, 16.6% in net income, and 14.6% in net income per share compared with results for the first six months last year, according to a report to stockholders by General Clinton F. Robinson, President of the company.

Sales for the first six months of this year were \$59,901,368 compared with \$58,434,197 for the same period last year. Net income was \$4,292,479 compared with \$3,680,794 for the same period last year. Net income per share was \$2.44 compared with \$2.13 for the same period last year. There were \$1,753,448 Carborundum shares of common stock outstanding June 1960.

Carborundum's board of directors declared a quarterly dividend of 40 cents a share, payable on Sept. 9, 1960 to stockholders of record at the close of business on Aug. 19, 1960.—V. 191, p. 1107.

Carinthia Ski Area, Inc., West Dover, Vt.—Files With Securities and Exchange Commission—

The corporation on July 25, 1960 filed a letter of notification with the SEC covering 140 shares of common stock (no par) to be offered at \$1,000 per share, without underwriting.

The proceeds are to be used to operate a ski resort.

Carrier Corp.—Navy Contract—

The U. S. Navy's first nuclear-powered destroyer, the U. S. S. Bainbridge, will be air conditioned by equipment capable of cooling a six-story office building, Carrier Corp. announced on July 31.

Four water chillers will provide the cooling needed to air condition living quarters, electronics control rooms and storage areas. Year-round comfort will be provided in all climates visited by the new destroyer. Air conditioning will contribute toward better personnel health, and stimulate increased efficiency.

The Bainbridge is being built at the Quincy, Mass., yard of Bethlehem Steel Co. Carrier also has provided refrigerating equipment for air conditioning and food storage aboard numerous other nuclear-powered Navy submarines and surface vessels either in service or under construction.—V. 191, p. 198.

Cary Chemicals Inc.—Trustee Appointed—

The Marine Midland Trust Company of New York was appointed successor corporate trustee effective July 18, 1960, for \$2,000,000 principal amount first lien bonds 6% series due 1976 of the corporation.—V. 190, p. 1067.

Casco Products Corp.—Annual Meeting—

At the annual meeting on July 12, a new four-man board of directors was elected, reflecting acquisition of more than 80% of Casco's stock by Standard Kollsman Industries Inc.

The new board consists of:

James O. Burke, President, Director, and Chief Executive Officer of Standard Kollsman. He will be Chairman of the new Casco board.

Arthur Richenthal, Director, Secretary and General Counsel of Standard Kollsman.

Perry Addleman, Director of Standard Kollsman and independent management consultant.

John P. Hoffman, Director of Standard Kollsman and Vice-President of The Continental Illinois National Bank and Trust Company.

Mr. Burke announced at the meeting that Standard Kollsman which had offered \$10.15 per share in cash for Casco's stock, now owned over 400,000 shares, or about 80% of Casco's 511,356 outstanding shares.

Standard Kollsman acquired about 58% of Casco's stock from Joseph H. Cone, former board chairman, at \$10.15 per share. With the actual receipt of Mr. Cone's stock, Mr. Burke said, Standard Kollsman's purchase offer, which expired yesterday, has been extended unconditionally until Aug. 1.

Mr. Burke announced that Mr. Cone, former Casco chairman, would continue to serve the company as honorary chairman of the board. Selection of a new Casco president, he added, has been made, but no announcement will be forthcoming until final arrangements are concluded in about 10 days.

The Standard Kollsman President noted that this was the company's "first direct venture into the consumer goods field and said that the acquisition is expected to be of great benefit to Standard Kollsman. With aggressive support and guidance from Standard Kollsman, and with benefits from the company's experience in engineering and production, we expect to further strengthen and expand Casco's product line."

Casco, with headquarters and plant at Bridgeport, manufactures automotive accessories including the country's leading brand of automobile cigarette lighters; under the "Casco" trade mark, the company makes appliances for home and personal use, including heating pads, steam and dry irons, electric blankets and thermal massagers. For the fiscal year ended Feb. 29, 1960, Casco reported sales of \$11,151,370 and net income after taxes of \$387,405.

Standard Kollsman and its wholly-owned subsidiaries manufacture a wide range of electronics products, principally television tuners; precision aircraft instruments and electronics components; automatic celestial navigation systems for aviation, guided missiles and space vehicles; electric motors and generators. In 1959, Standard Kollsman reported sales of \$73,765,428 and net income of \$1,523,379; for the March quarter of 1960 the respective figures were \$21,871,820 and \$572,125.—V. 191, p. 2411.

Caspers Tin Plate Co.—Net Lower—

The Chicago company has reported earnings of \$75,213 after taxes in the six months ended June 30, 1960, equal to 21 cents a share on the 364,541 outstanding common shares.

In the like period a year ago, earnings were \$160,908 or 44 cents a share based on the same number of shares.

B. W. Bennett, chairman, and Earl E. Gray, president, reported to shareholders that sales of the company's two steel warehousing subsidiaries were lower in the second quarter due principally to the high steel inventories accumulated by customers in the face of last year's strike. They also cited the current "buyer's market" and intense competition in the warehouse business as factors contributing to lower earnings.

Sales in the latest six months were \$4,815,863, compared with \$6,226,685 in the first half of 1959. The disposal of two Caspers companies accounted for approximately \$1,000,000 of reduced sales.

"Based on orders we now have on the books, we believe there is a good possibility that Caspers will show improved results in the second half of 1960," the report stated. "Traditionally, the final two quarters of the year are our best from the standpoint of sales and earnings."

Second quarter earnings were \$10,193, equal to three cents a share, compared with \$110,639 or 30 cents a share a year ago. Sales were \$2,366,160 as against \$3,286,756.

The company produces coating and lithographing for metal containers, closures, advertising displays, novelties and other uses. Through subsidiaries, the company is also engaged in the steel warehousing business and in the manufacture of lithographed cans for use in the packaging field.—V. 189, p. 2671.

Celanese Corp. of America—Affiliate News—

Columbia Cellulose Co., Ltd., reported on Aug. 1 net sales of \$14,842,848 and net profit of \$1,817,852 for the six months ended June 30, 1960. Columbia Cellulose Co. first became publicly owned in August, 1959, prior to which its reports were consolidated with those of Canadian Chemical & Cellulose Co., Ltd., since dissolved. Hence comparable 1959 first-half figures unavailable.

Shareholders of the company, an affiliate of Celanese Corp. of America, were told that construction of the 500 ton-a-day bleached kraft pulp mill at Castlegar, British Columbia, by the Columbia Cellulose wholly-owned subsidiary, Celgar Limited, is proceeding on schedule with production expected to be started by the year's end.—V. 191, p. 2303.

Central Hudson Gas & Electric Corp.—Net Rises—

Increased earnings for the three-month and 12-month periods ended June 30, 1960, were reported on Aug. 1 by this corporation, of Poughkeepsie, N. Y.

The company's net income was \$1,452,152 for the second quarter of 1960 and \$5,536,507 for the 12 months, as compared with corresponding totals of \$1,428,087 and \$5,192,180 as of June 30, 1959.

On a per-share basis, the 1960 earnings are equivalent to 38.4c for the quarter and \$1.44 for the 12 months on the 3,369,228 common shares outstanding, versus corresponding 1959 figures of 37.4c and \$1.34 on 3,366,152 shares.

The increase in earnings for the second quarter of 1960 resulted in part from continued growth in electric and gas revenues—both of which were 6% above their respective totals for the same quarter a year ago. Another important factor was the quarter's \$334,691 reduction in expenditures for purchased electricity, made possible by the 140,000-kilowatt addition which was completed last October at Central Hudson's Danskammer Point power plant.

In his quarterly report to the company's more than 13,000 common stockholders, President Ernest R. Acker, points out that electric sales should be increased still further by a rate reduction for residential customers which went into effect on July 26. The reduction amounts to 1/4c per kilowatt-hour for all usage over 400 kilowatt-hours per month, plus an additional 1/4c per kilowatt-hour for usage by electric water-heating customers in the zone between 600 and 1,000 kilowatt-hours per month.

"The new rates, together with an intensified sales program, are expected to result in greater acceptance of electricity for domestic water heating and, at the same time, help develop a market in the company's territory for the use of electricity for house-heating," Mr. Acker says.

He also reports that test boring operations now are underway at the 768-acre property on which Central Hudson recently acquired a six-month purchase option from The Community Service Society of New York, owners of the tract. The Hudson River site, including Cruger's Island, is being tested to determine its suitability for future construction of a large electric generating station.

Dividend checks accompanying the report continue the unbroken record of 57 years during which Central Hudson and its principal predecessors have paid dividends without interruption.—V. 191, p. 2087.

Central Louisiana Electric Co., Inc.—Capital Structure

At a meeting of the Board of Directors held on July 19, 1960, resolutions were adopted recommending to the shareholders for consideration and action at a special meeting to be held on Aug. 31, 1960, a Plan of Recapitalization covering certain changes in the capital structure of the company and a split of the common stock on a 2 for 1 basis.

The proposed changes involve (1) an increase in the authorized number of shares of common stock, (2) a transfer of capital surplus representing premium on common stock to the common stock account equal to the aggregate par value of shares to be issued in the stock split, and (3) the issuance of one share of common stock of the par value of \$5 per share for each share of such \$5 par value common stock outstanding.

In order to facilitate the distribution of the additional stock pursuant to the stock split, unless timely request is made to the contrary, one certificate will be issued to each shareholder for the total number of shares due. Such certificates may subsequently be split up in such denominations as each individual shareholder may require.

In the opinion of the directors, the increase in the common stock of the company resulting from the splitting of the common stock will broaden the market for the common stock and attract wider ownership and would be in the best interest of the company and its shareholders generally. The proposed plan will make no change in the proportionate interest of each shareholder in the company. In the opinion of counsel of the company, the proposed plan will not result in any gain or loss recognizable for Federal income tax purposes to the holders of common stock.

The above proposals are subject to approval by the Louisiana Public Service Commission and to approval at the special meeting of shareholders.—V. 189, p. 2135.

Cleveland-Cliffs Iron Co.—Transfer Agent—

The Chemical Bank New York Trust Company has been appointed New York transfer agent for the common stock of the company.—V. 189, p. 2780.

Columbia Gas System, Inc.—Proposes Surety Bond—

The New York holding company has applied to the SEC under the Holding Company Act for an order authorizing it to act as surety on a \$150,000 bond which may be required of its subsidiary, Cumberland & Allegheny Gas Co., in connection with the subsidiary's application to the Public Service Commission of West Virginia for an increase in gas rates; and the Commission has issued an order giving interested persons until Aug. 15, 1960, to request a hearing thereon.—V. 192, p. 208.

Cominol Industries, Inc.—Registers With SEC—

This firm, of 1500 Massachusetts Ave., N. W., Washington, D. C., filed a registration statement with the SEC on July 28, 1960, covering shares of its common stock as follows: (1) 97,333 shares underlying \$292,000 face amount of series "A" convertible debentures; (2) 250,000 shares for which an offer of rescission is to be made; (3) 2,867 shares for which an offer of rescission is to be made; and (4) 15,000 shares to be exchanged with certain holders of company notes.

According to the prospectus, the \$292,000 of debentures are part of \$300,000 of debentures offered in 1958 from the sale of which the company received \$270,000 net. In addition to \$30,000 in commissions, the company granted warrants to purchase 55,000 shares at \$3 per share through Dec. 16, 1963. The debentures are convertible at the rate of \$3 per share or 33 1/3 shares for each \$100 debenture. The company intends to call the debentures at their call price of \$104.50 for each \$100 debenture. Holders will have the option of converting into common for 30 days after the call date.

With respect to the 250,000 shares, as soon as the debentures are converted or redeemed the company plans to offer to all stockholders to rescind the sale of any shares made to them during the public offering of the company's stock in 1958 of the 250,000 shares at \$1 per share. According to the prospectus, the Commission on Jan. 2, 1960, suspended the Regulation A exemption from registration pursuant to which this offering was made, stating "that it has reason to believe" that some of this stock was distributed to the public at prices higher than was disclosed in the offering circular. . . . The rescission offering price will be \$1 per share.

The prospectus further indicates that \$8,000 of the debentures were converted into 2,667 common shares; and the company intends to make an offer of rescission of this stock at the rate of \$3 per share. The remaining 15,000 shares are to be issued to certain persons holding notes of the company totalling \$88,596 in consideration for the cancellation of these notes. These individuals had sold 15,000 shares of stock in 1959 at an average price of \$7 per share, the proceeds of the sale thereof (with one exception) having been turned over to the company in return for non-interest-bearing notes in an equal amount.—V. 191, p. 504.

Commercial Banking Corp., Philadelphia, Pa.—Files With Securities and Exchange Commission—

The corporation on July 18, 1960 filed a letter of notification with the SEC covering \$290,000 of 6% subordinated debenture bonds due April 1, 1969, with five year warrants to purchase common stock at \$965 per \$1,000 debenture. The offering will be underwritten by Supple, Yeatman, Mosley Co., Inc., Philadelphia, Pa.

The proceeds are to be used for working capital.

(C. G.) Conn, Ltd.—Annual Report—

Leland B. Greenleaf, President in the company's Annual Report to shareholders, reported:

Sales for the year ended April 30, 1960 were \$16,138,329 as compared with \$14,204,044 in the prior year. Net income for the year was \$453,878 or \$1.53 a share. This compares to net income of \$434,218 or \$1.46 a share in the preceding year.

Dividends amounting to \$28,197 were paid to preferred shareholders, and \$187,093 or 60 cents per share, plus 3% stock dividend to the common shareholders. Another 3% stock dividend was declared to common shareholders of record July 15, 1960.

Mr. Greenleaf in commenting on the substantial increase in sales levels for both band instruments and organs, which were at new record levels, pointed out that profits had not kept pace with the increased volume. He further stated that the primary reason for this was that the company had absorbed substantial nonrecurring starting costs in connection with the establishment of two new plants. One of these was a new organ plant at Madison, Ind., and the other was a new saxophone plant at Nogales, Ariz.

It was further indicated in the report that the addition of these two new plants, together with the addition of the exclusive distribution of Artley flutes and new merchandising programs, point to another record sales year and a steady improvement in the profit picture.

Mr. Greenleaf also pointed out that working capital had increased from \$6,414,177 to \$6,576,623, and that stockholder's equity in the company had increased from \$6,170,770 to \$6,429,356. Both of these were new highs in the company's history.—V. 189, p. 915.

Conquering Hero Co.—Files for Offering—

The company, of 165 West 46th St., New York, filed a registration statement with the SEC on July 21, 1960, covering \$300,000 of limited partnership interests "in a dramatico-musical play (the "Play") presently untitled," to be offered in units of \$6,000 (subject to 20% involuntary overcall).

According to the prospectus, the general partner, Robert Whitehead, of 29 Washington Square West, New York, has entered into an agreement with Producers Theatre, Inc., of the 165 West 46th St. address, whereby Producers Theatre will be entitled to receive the major portion of Whitehead's share, as general partner, of the net profits of the partnership. Whitehead and Producers Theatre are the promoters. The plan is to be based on and is suggested by the motion picture, "Hail The Conquering Hero." All rights in the basic material were acquired from Paramount Pictures, Inc. by Emka, Ltd., a subsidiary of MCA, Inc. Producers Theatre has entered into an agreement with Emka whereby it has acquired the rights to cause to be written and to produce a dramatico-musical adaptation of the basic material. It also has entered into a Dramatists Guild Dramatico-Musical Minimum Basic Production Contract with Robert Fosse, Larry Gelbart, Morris Chablap and Norman Gimble, engaging said persons to write the play.

Consolidated American Services, Inc.—New Contracts

This Los Angeles firm has received four new contracts for work on missile bases which will increase the company's sales volume by more than \$500,000 over the next 12-month period, President M. J. Ruland announced on July 27.

The contracts include building and operating a portable static test facility to be used at the missile complexes at Offutt Air Force Base, Omaha, Neb., and designing, engineering, managing and/or operating the missile cleaning facilities at Mountain Home Air Force Base, Boise, Idaho; Beale Air Force Base, Maryville, Calif.; and Fairchild Air Force Base, Spokane, Wash.

Ruland said these new contracts are the first of their type ever awarded Consolidated American Services. Until now, all such work has been conducted at their plants in Hawthorne, Calif. and Phoenix, Ariz.

Services offered to the aircraft, missile and electronics industries by Consolidated American include not only missile cleaning, impregnation and pressure testing but magnetic inspection, fluorescent penetration, anodizing, plating, spray painting and decal markings.—V. 186, p. 940.

Consolidated Foods Corp.—Acquires—

This Chicago processor and distributor of foods on July 22 announced the purchase of the business of Jules Weber, Inc., a long established distributor of food products to the institutional trade in and around New York City.

S. M. Kennedy, President of Consolidated Foods, in making the announcement stated that "during the past several years our wholesale distribution operations have put more and more emphasis on institutional sales. In keeping with this policy, we feel it is essential to have an outlet in the New York City market which previously has been served through a sub-branch of our Somerville, Mass., Monarch Foods unit."

L. G. Tepper, who has headed New York sales activities of the Somerville branch, will be in charge of the new operation which will be a part of Consolidated's Monarch Foods Division, headquartered in Chicago.

Jules Weber has distributed products under the "Connoisseur" and other labels. It is planned to continue these labels as well as broaden the line to include the "Monarch" brand.—V. 191, p. 199.

Consumers Power Co.—Partial Redemption—

The Board of Directors of the company has authorized the redemption by sinking fund operation on Oct. 1, 1960, of \$3,622,000 principal amount of the company's first mortgage bonds 4 1/4% series due 1987 at 100.61% of the principal amount and accrued interest to the date of redemption. The particular bonds, or parts thereof, to be redeemed will be selected by First National City Trust Co., trustee, and announced on or about Aug. 13, 1960.—V. 192, p. 399.

Continental Reserve Life Insurance Co., Fort Smith, Ark.—Files With Securities and Exchange Commission—

The company on July 22, 1960 filed a letter of notification with the SEC covering 60,000 shares of common stock (no par) to be offered at \$3 per share, without underwriting.

The proceeds are to be used for expenses incidental to operating an insurance company.

Detroit & Cleveland Navigation Co.—Proposes Merger

This Detroit investment company has applied to the SEC for an exemption order under the Investment Company Act with respect to its proposed merger with and into Denver Chicago Trucking Co., Inc., of Denver; and the Commission has issued an order giving interested persons until Aug. 15, 1960, to request a hearing thereon.

Navigation ceased its navigation operations in 1950 and registered as an investment company in 1954. It has outstanding 135,643 shares of common stock. Net assets of Navigation Co. as of Nov. 30, 1959, amounted to \$4,708,942. Among the assets are 152,416 shares (36.8% of) of Trucking Company common stock having a market value on that date of \$4,077,125. It also owns all the outstanding stock of Dominion Transportation Co., Limited, whose principal asset consists of all the outstanding stock of The Owen Sound Transportation Co. (both Canadian companies).

Trucking operates a motor carrier in interstate commerce. It and its wholly-owned subsidiaries had total assets of \$21,726,606 and total liabilities of \$13,021,376 as of Dec. 31, 1959, its assets including 17,200 shares (12.8% of) Navigation stock. Of the 413,400 outstanding common shares of Trucking Company, as indicated, 36.8% is owned by Navigation. The cross-ownership is contrary to Section 20 (c) of the Act and will be eliminated by the merger. The two merging companies have certain common directors and officers; and the officers and directors of the two companies as a group own about 29,000 shares (21%) of the outstanding Navigation stock.

Under the merger agreement, which is subject to approval by the affirmative vote of the holders of at least two-thirds of the outstanding common stock of each company, each share of Navigation common is to be exchanged for one and two-fifths shares of Trucking common. In lieu of fractional shares, holders of Navigation stock will receive payment at the rate of \$20 per full share. Trucking will continue in existence and operate with the same board of directors and officers as at present. The rate of exchange of 1.4 shares of Trucking stock for each share of Navigation stock is equivalent to a total of about 190,000 shares of Trucking stock for the 135,643 shares of Navigation stock outstanding. The net effect of the merger will be the issuance of an additional 13,404 shares of Trucking stock.

Diamond Alkali Co.—Thrift Plan—

This company, 300 Union Commerce Building, Cleveland, filed a registration statement with the SEC on July 28, 1960, covering 168,199 shares of common stock, to be offered pursuant to the company's 1960 Employee Thrift Plan.—V. 190, p. 256.

Diocese of Buffalo, N. Y.—Notes Offered—On Aug. 2, B. C. Ziegler & Co., West Bend, Wis., publicly offered \$8,000,000 of series A direct obligation serial notes of this New York corporation. About \$6,000,000 of the notes had been spoken for prior to the offering date.

Notes will be in coupon form, registrable as to principal and interchangeable as to denominations at the office of the trustee upon payment of expenses incident to such registration or interchange. Interest from July 1, 1960, is payable Nov. 1, 1960, and semi-annually thereafter on May 1 and Nov. 1 of each year.

The indenture under which the notes will be issued authorizes issuance thereunder from time to time notes of one or more series not to exceed, however, a total of \$16,000,000 principal amount including the notes of series A.

APPOINTMENTS—Manufacturers and Traders Trust Co., Buffalo, New York, trustee and paying agent, The Hanover Bank, New York, New York, Continental Illinois National Bank and Trust Co. of Chicago, Chicago, Ill., First Wisconsin Trust Co., Milwaukee, Wis., The First National Bank of West Bend, West Bend, Wis., paying agents.

REDEMPTION—At the option of the corporation and upon not less than fourteen (14) days' published notice, the notes may be redeemed in whole or in part on any Feb. 1, May 1, Aug. 1 or Nov. 1 by the payment of principal, accrued interest, and a premium as follows:

2% if the redemption date is on or prior to Nov. 1, 1962; 1% if the redemption date is after Nov. 1, 1962 and on or prior to Nov. 1, 1965; no premium after Nov. 1, 1965; provided that all notes maturing on or prior to May 1, 1970, shall be redeemed before any notes maturing thereafter may be redeemed; provided further that the corporation may not redeem any of the notes prior to Aug. 1, 1965, as a part of any refunding or anticipated refunding operation.

PROCEEDS—The proceeds of the notes of series A will be used for the following purposes:

(a) To pay in part the cost of constructing a new Seminary; (b) to pay in part the cost of constructing four new Diocesan High Schools; (c) to retire outstanding mortgages on properties of the corporation; (d) to pay in part the cost of making parish and diocesan improvements, establishment of new parishes, refunding of certain intradiocesan obligations, and for general diocesan purposes.

SECURITY—The direct obligation serial notes, when issued, and the indenture under which the notes are issued, in the opinion of counsel for the corporation, will be the valid and binding obligations of the corporation, The Diocese of Buffalo, N. Y.

Upon application of the proceeds of all notes authorized under the indenture there will be no mortgages on any of the properties of the corporation.

Drug Fair-Community Drug Co., Inc.—Securities Offered—

Pursuant to a July 27 prospectus, an underwriting group headed by Auchincloss, Parker & Redpath, Washington 6, D. C., offered \$500,000 of this firm's 5 1/2% subordinated sinking fund debentures, due Sept. 15, 1975, with warrants to purchase 25,000 shares of the issuer's common stock A, and 150,000 shares of the common stock A (\$1 par). The debentures and warrants were offered at 100% of principal amount of debentures in units consisting of a \$500 debenture with an attached warrant entitling the holder to purchase, for cash, 25 shares of common stock A at \$13 per share to and including Sept. 15, 1965, at \$15.50 per share to and including Sept. 15, 1970, and at \$18 per share until expiration.

tion on Sept. 15, 1975. The debentures and warrants will not be separately transferable, except for purpose of exercising the warrant, until after Jan. 1, 1963. The common stock A was offered at \$12 per share.

The purpose of this issue is to provide funds for further expansion of the company's operations.

PROCEEDS—The net proceeds to be received by the company from this financing are estimated at \$1,573,187, after deduction of expenses estimated at \$26,813. These funds, together with an estimated \$850,000 from additional long term institutional borrowing, will be added to the working capital of the company. This \$2,423,187, supplemented by funds generated by current operations, will be used to repay current bank indebtedness of \$800,000 and to provide funds for the opening of eight new Drug Fair stores in 1960 and seven stores in 1961. Management estimates that \$130,000 is required for each additional store, including inventory requirements. To the extent necessary, the funds provided by this financing, institutional borrowing, and retained earnings may be supplemented by short term bank loans.

Duncan Coffee Co.—Files Offering—

This company, of 1230 Carr Street, Houston, Texas, on Aug. 4 filed a registration statement with the SEC covering 260,000 shares of capital stock, to be offered for public sale through a group of underwriters headed by Bear, Stearns & Co. The public offering price and underwriting terms are to be supplied by amendment.

The company was organized in November 1959 as successor to Duncan Coffee Co. which has operated since 1918. It is engaged primarily in importing, processing, packaging and distributing its own blended coffees marketed principally under the trade names "Maryland Club" and "Admiral." It also engages in certain other marketing incidental to the coffee business and the processing and marketing of Duncan's tea. The net proceeds from the stock sale will be used in part to pay \$2,050,000 aggregate principal amount of senior subordinated debentures maturing on Dec. 31, 1960, and the balance, together with the proceeds from the sale of the company's Magnolia Division plant, will be used to reduce the amount of then current outstanding trade acceptances of the company. The Magnolia Division plant, in Houston, is to be sold to the State of Texas for \$325,000. Under the agreement with the State, the company is permitted to retain possession of the plant without payment of rentals until August 1961.

In addition to certain indebtedness, the company has outstanding 740,000 shares of capital stock, of which Charles W. Duncan, Jr., President, owns 356,000 shares, and John H. Duncan, a director, owns 160,000 shares. The company's officers and directors as a group own 697,000 shares.

Electric Autolite Co.—Merger Plans—

Stanley Hiller, Jr., President of Hiller Aircraft Corp. and R. H. Davies, President of Electric Autolite Co., have announced that they are negotiating to merge the two companies.

Hiller, a leading factor in the light helicopter field, is also prominent in Vertical Take-Off and Landing (VTOL) aircraft development and other military research projects. Mr. Hiller stated that he and his associates feel that the relationship with a company of Autolite's production, technical and financial strength would be highly beneficial in maintaining their position in the fast growing helicopter and VTOL aircraft fields.

Autolite, a major manufacturer of automotive and aircraft parts, believes, according to Mr. Davies, that Hiller offers a solid diversification that does not follow the automotive economic cycle and affords the company a better opportunity to participate in defense business.

Hiller will continue to operate as a separate unit although it is expected that Autolite's newly formed Aero/Space Division and Special Product and Research Division (SPARD) will cooperate on research and development activities particularly in the areas of ceramics, electro-hydraulics, electronics and other fields where Autolite offers capabilities to augment those of Hiller.

Under the proposed arrangement, the net assets of Hiller would be acquired by Autolite on a basis of one share of Autolite for each four and one-quarter shares of Hiller.

Subject to the conclusion of a definitive agreement, this action has been approved by the boards of directors of both companies for presentation to the stockholders of both companies, for final approval.—V. 191, p. 1433.

Electro Industries, Inc.—Files Common—

The corporation, of Washington, D. C., on July 19, filed a letter of notification with the SEC covering 75,000 shares of class A common stock (no par) to be offered publicly, and 20,000 shares of additional class A common stock to be offered to the underwriters. The class A common will be offered at \$2 per share, and the additional class A common will be offered at 2 1/2 cents per share, with Carleton Securities Corp. of Washington, D. C. as underwriter.

The proceeds of the offering will be used to expand the company's inventory, to enter into the packaging and exporting of electrical equipment, and for working capital.

Emerson Radio & Phonograph Corp.—To Buy Shares

Benjamin Abrams, President, announced on July 28 that an agreement had been reached with Granco Products, Inc. whereby Emerson will receive an option for purchase of approximately 540,000 out of the 1,000,000 shares of Granco Products, Inc. stock authorized. Under the terms of the agreement, which is subject to Granco's stockholder approval, Emerson will provide certain financial and sales assistance to Granco.

Granco manufactures FM radio sets, and produces a complete line of low-cost FM and FM-AM radio sets as well as Hi-Fidelity radio-phonograph consoles at its plant in Kew Gardens, New York. Granco recently announced the production of a line of low-cost FM radios for automobiles which are due on the market shortly.—V. 191, p. 1772.

Equitable Investment Corp.—Common Stock Offered

This Columbus, Ohio firm, scheduled to engage with Reynolds Metals Co. and others in a \$3,700,000 urban redevelopment program in Cincinnati, has issued 35,500 shares of class A common stock to finance its expansion in this and other areas of land and real estate development. The issue, priced at \$10 per share, has been underwritten by The Ohio Co., and is being offered solely to Ohio residents. The company will pay an annual dividend of 10¢ cash, plus 5% stock on the shares.

PROCEEDS—Part of the Cincinnati program will be Equitable's own development of the \$1,200,000 Laurel Linn shopping center. The firm has a number of residential land developments and multiple-unit housing projects underway in Ohio and elsewhere. It is also planning a 100-unit Howard Johnson Motor Lodge and Restaurant for 1961 completion.

EARNINGS—Both Equitable's total revenue and income after taxes for the first half of 1960 are 8 1/2 times greater than 1956, the first year of operation. Earnings per common share for the first half of 1960 are more than triple the full year 1959.—V. 190, p. 1733.

Fae Instrument Corp., Long Island City, N. Y.—Files With Securities and Exchange Commission—

The corporation on July 28, 1960 filed a letter of notification with the SEC covering 60,000 shares of common stock (par 10 cents) to be offered at \$5 per share, through Elmer K. Aagaard, Salt Lake City, Utah.

The proceeds are to be used for payment of current liabilities; and expansion program and operating capital.—V. 192, p. 401.

Fafnir Bearing Co.—Net Off—News—

The company has reported net income of \$4,470,612 or \$1.98 a share for the first six months of 1960. These results, termed "relatively satisfactory" by the company, were 7% below the record \$4,805,680 or \$2.13 a share earned in the first half of 1959.

The earnings figures were released following a directors' meeting at which the board declared a regular quarterly dividend of 50 cents a share payable Sept. 15 to stockholders of record Aug. 25.

The six months earnings report attributes the satisfactory results for the first half to the high level of shipments, particularly in the March quarter. It notes, however, that the second quarter this year compares less favorably with the same period last year. The decline in income was more pronounced during the second quarter since sales last year reached a peak in the comparable period. Wage increases effective last February and higher taxes also contributed to the downturn in earnings.

Income orders, the report informs stockholders, have been relatively stable for the last four months. This volume, however, is not sufficient, unless business improves, to permit the continuance of the present production rate.—V. 191, p. 1109.

Fairchild Camera & Instrument Corp. — Subsidiary Acquires Interest—

An agreement through which Fairchild Semiconductor Corp. has acquired a one-third interest in SGS, a Milan, Italy, semi-conductor producer, for the overseas manufacturing and marketing of Fairchild silicon semiconductor devices, was announced on July 28. Fairchild Semiconductor is a wholly-owned subsidiary of Fairchild Camera & Instrument Corp., Syosset, L. I., N. Y.

SGS (Societa Generale Semiconduttori, S.p.A.) was founded 2 1/2 years ago in Milan by two companies, Olivetti and Telettra, and has been producing germanium alloy junction transistors, silicon diodes, gold bonded diodes and silicon rectifiers for the past year and a half. Olivetti is one of the world's largest producers of business machines while Telettra is the largest microwave communications manufacturer in Italy. Ownership will now be held equally by the three companies.

Under the agreement, financial details of which were not revealed, SGS will commence production of the latest types of Fairchild silicon devices, including transistors, diodes and eventually micrologic elements. SGS will market the Fairchild devices, produced in Milan, in Europe and the Middle East.

John Carter, Fairchild Camera president, commented that his company had been exploring the European market for over a year to determine the best means for introducing Fairchild semiconductor devices there, and had concluded that the SGS relationship would accomplish maximum results. He stated that there is a tremendous interest in electronics in Italy and that Milan has become the electronics center of that country.

SGS is now operating in a modern 50,000 square foot plant, and has plans to double its size in order to accommodate its own product expansion as well as the introduction of the new Fairchild devices within the next 12 months. The Italian firm already has an established marketing organization throughout Europe.

Carter added that the rapidly increasing commercial demand for silicon devices in Europe as well as NATO requirements were important factors in the decision to seek an overseas production and marketing facility.

Fairchild already has a plant in Emmen, the Netherlands, and a marketing headquarters in Amsterdam for the production and sale of its graphic arts electronic products in the overseas market.—V. 191, p. 2744.

Falstaff Brewing Corp.—Net Up—

The St. Louis, Mo. corporation, has announced second quarter net sales of \$33,108,699, an advance of 4% over the 1959 second quarter net of \$31,778,229. After provision of \$2,231,500 for income taxes, unaudited net income for the second quarter was \$1,965,420, compared with last year's second quarter net of \$1,825,657. Second quarter earnings applicable to common stock equaled 97 cents per share, in comparison with last year's second quarter per share figure of 91 cents.

A mid-year review shows net sales for the first six months of 1960 as \$56,804,008, a 6% increase over the \$53,797,364 recorded for the same period last year. After provision of \$3,400,700 for income taxes, unaudited net earnings for the first half of 1960 were \$2,391,301 over last year's figure of \$2,606,477. Earnings applicable to common stock for the first half equaled \$1.46 per common share compared with the 1959 figure of \$1.27.—V. 189, p. 480.

Faradyne Electronics Corp.—Acquires—

The Belleville, N. J. corporation announced July 25, through President James W. Roy, the acquisition as a wholly-owned subsidiary of the Richland Glass Co. of Richland, N. J.

The company manufactures and processes precision glass products such as round, square, conical and fluted finished tubing for travel-

ing wave, camera, power and storage tubes. They are equipped for shrinking, grinding, polishing, tooling, pressing, cutting, and re-drawing of glass and allied products.

The facilities of Richland Glass added to those of the Mansol Ceramics Division of Faradyne now provide the company with facilities to manufacture and produce a complete line of glass-to-metal seal products.

Gaylord H. Evey, President of Richland Glass, reported that as a subsidiary of Faradyne they will continue operations at their present location, and will rapidly expand facilities to meet the growing needs of the electronics industries.—V. 190, p. 1069.

Federal Pacific Electric Co.—Offering and Secondary

This company, of 50 Paris Street, Newark, N. J., filed a registration statement with the SEC on Aug. 2, 1960, covering 377,000 shares of common stock and 45,000 outstanding shares of 5 1/2% convertible second preferred series A stock. Of the common stock, 250,000 shares are to be offered for public sale by the company through a group of underwriters headed by H. M. Bylesby & Co. The public offering price and underwriting terms are to be supplied by amendment.

The additional 127,000 common shares represent part of the consideration being paid by the company for all the outstanding common stock of Pioneer Electric Limited (a Canadian company) from its sole common stockholders, Trio Holdings, Limited, Rockwood Holdings, Limited, and Prairie Holdings, Limited. The purchase price of the Pioneer stock also will include \$1,243,100 in cash and \$560,593 in notes; and an additional \$39,407 is to be paid to Pioneer in settlement of amounts owing to Pioneer by certain stockholders of a subsidiary. The 127,000 common shares may be offered for sale from time to time by the recipients thereof on the New York Stock Exchange. The 45,000 preferred shares may be offered for sale from time to time over the said Exchange by Television-Electronics Fund, Inc., which recently acquired 30,000 such shares from Thomas M. Cole, President, and 15,000 shares from Louis W. Cole, Board Chairman, at \$23.50 per share, said shares having theretofore been acquired by Messrs. Cole in exchange for a like number of shares of common stock of Cornell-Dublier Electric Corp. tendered by them to the company pursuant to an exchange offer.

The company is engaged primarily in the business of manufacturing and selling devices for the distribution and control of electric energy, including standard low tension equipment such as circuit breakers, safety switches, panel boards, fuses and fuse boxes. It also owns about 96% of the outstanding common stock of Cornell-Dublier Electric, which it acquired through an exchange offer made in Feb., 1960. Net proceeds of the company's sale of the additional 250,000 common shares will be applied toward supplying the cash consideration for the purchase of the Pioneer stock and the balance to retire short term bank loans and for working capital.

In addition to various indebtedness and two series of preferred stock, the company now has outstanding 1,454,558 shares of common stock and 570,740 shares of class B common stock. Management officials own 12.4% of the preferred, 3.1% of the common and, 80.8% of the class B common, including 91,160 class B shares held by Louis W. Cole and 275,180 class B shares by Thomas M. Cole.—V. 191, pp. 1217 and 1005.

Fiber Glass Industries Corp. of America, Miami, Fla. Files With Securities and Exchange Commission—

The corporation on July 21, 1960 filed a letter of notification with the SEC covering 100,000 shares of common stock (par 10 cents) to be offered at \$3 per share, of which 80,000 shares are to be offered on behalf of the company and 20,000 shares on behalf of the underwriter. The offering will be underwritten by Nelson Securities, Inc., Hempstead, N. Y.

The proceeds are to be used to purchase material, repayment of a loan, for advertising and promotion and for working capital.

Flexible Tubing Corp.—Net, Sales Rise—

Sales for the quarter ended June 30, 1960 were \$1,205,372, compared with \$851,465 for the like quarter a year earlier, an increase of 41.5%. For the six months period ended June 30, sales aggregated \$2,128,254 as against \$1,691,296 for the first half of 1959, or an increase of approximately 26%.

Net income for the latest quarter, after taxes, was \$52,895, equal, after preferred dividends, to 27 cents per share on 187,683 average common shares outstanding during the period. For the comparable quarter of 1959, net income of \$13,557 was equal to 7 cents per common share on 164,785 shares. For the first half of 1960, net income was \$61,335, equal to 32 cents per share on 178,163 average shares and compares with \$4,790 or 4 1/2 cent per share on 164,683 shares for the first six month a year ago.

In his message to shareholders, Frederick K. Daggett, President, noted that the half-year period came up to company expectations and predicted that the second half of 1960 would be better than the first.—V. 191, p. 1321.

Florida Capital Corp.—Additional Financing Details—

Our Aug. 1 issue reported the offering on July 29 of 950,000 shares of this firm's common stock (\$1 par) at \$8 per share. Additional financing details follow:

Fischer & Porter Co.—Navy Contract—

The Warmminster, Pa., company has received a \$600,910 contract from the Navy for a data acquisition and computation facility at the Naval Air Turbine Test Station in West Trenton, New Jersey, it was announced on July 22. The order includes both hardware and engineering design of the system.

The new data acquisition and computation system will be installed in an existing jet testing facility. The system will reduce the time required to acquire and compute vast quantities of information associated with the testing of jet engines. This is accomplished by automatically acquiring raw data and converting it to meaningful information through the use of a digital computer. The system will contribute significantly to a more efficient and effective operation.

The Naval Air Turbine Test Station has six engines to steady-state turbojet, turboprop, ramjet, and pulsejet engines to steady-state flight conditions. The system will "read" 450 pressures, 150 temperatures, 150 millivolts that represent signals from strain gauges and other sensing elements, and 40 frequency signals from tachometers and flowmeters. These signals will be converted into digital form and recorded on magnetic tape. Calculations can be performed. Test data can immediately be checked before moving on to the next point.

Included in the contract is an elastic clause whereby Fischer & Porter will provide the latest engineering advances during the course of the contract. The Navy will make progressive payments to the company during design and construction of the system.—V. 191, p. 2745.

Four Star Television—Registers Common—

Four Star Television, 4030 Radford Ave., North Hollywood, Calif., filed a registration statement with the SEC on July 27, 1960, covering 120,000 shares of common stock, to be offered for public sale through an underwriting group headed by Dempsey-Tegeler & Co. The public offering price and underwriting terms are to be supplied by amendment.

The company was organized under California law in June 1959 by Richard E. ("Dick") Powell, David Niven, Charles Boyer and Thomas J. McDermott. In a pending reorganization, Four Star Films, Inc., an affiliated company organized in 1955, will be merged into it. In the same reorganization, Four Star Television will acquire all the outstanding shares of three other affiliated companies, Dayton Productions, Inc., BNP Music Publishing Co., and Trend Music Publishing Co., which will become its wholly-owned subsidiaries. The company and its subsidiaries will engage in the business of producing and marketing television film series and in related enterprises.

According to the prospectus, the company has outstanding 480,000 common shares (reflecting the merger and reorganizations above mentioned). Net proceeds of the sale of the additional stock will be added to its working capital for use in financing its production of television film series, including the development for future sale of new properties in which the company contemplates retaining larger ownership and profit interests than in the past. Additions to its working capital will also reduce the need for bank loans to finance current and future production activities. The prospectus lists Powell as President and McDermott as Executive Vice-President and Chief Executive Officer. Boyer, Niven and Charles G. Bole are Vice-Presidents. Of the outstanding stock, Powell owns 42.5%, McDermott 15%, and Boyer and Niven 21.25% each.

Futterman Corp.—Subsidiary Acquires—

The Futterman Corp. of Indiana, a wholly-owned subsidiary of The Futterman Corp., one of the nation's largest publicly owned real estate investment and operating companies, has completed the acquisition of title to the leasehold on the Marott Hotel in Indianapolis, Ind.

The price was not revealed, but it was representative of the Marott purchase is one of four now being completed at a total acquisition cost of approximately \$15,000,000. Recently the company also acquired at public auction the site on Fall Creek Parkway, formerly occupied by the Governor's Mansion, which adjoins the Marott Hotel.

A ten-story structure, the Marott property contains 500 rooms and extensive public facilities. It has recently undergone a modernization program including complete air-conditioning and modernized gourmet restaurant and is the largest hotel in Indiana.

Other Futterman hotels include the Golden Triangle, a motel-hotel and office building, and convention center now under construction, a joint venture on acres in downtown Norfolk, the ownership of the Dupont Plaza Hotel, Washington, D. C. and the operation of the Arva Motor Hotel, Arlington, Va. Riverside Manor Motel, Lansing, Mich. has just been acquired, and Glassmanor Apartments and Motel, in suburban Washington, is now under contract and will soon be acquired.

The acquisition of the Indianapolis property expands the Futterman holdings to 30 major income producing properties throughout the country. In addition to hotels and motels, the company's portfolio includes office buildings and apartment houses and developments located in 19 cities throughout the country. The Hume Mansur Building in Indianapolis was acquired and fully modernized by a Futterman group in 1958, before all groups exchanged their partnership interests for stock in the newly formed Futterman Corp. at the beginning of 1960.—V. 192, p. 304.

Gamble-Skogmo, Inc.—Acquires—

B. C. Gamble, president of Gamble-Skogmo, Inc., announced on Aug. 2 that Gamble-Skogmo has purchased for an undisclosed amount of cash more than 40% of the voting shares of Investors Syndicate of Canada, Limited, from Zeckendorf's Webb & Knapp (Canada) Ltd., and a large Canadian bank. "The purchase," Mr. Gamble said, "makes Gamble-Skogmo the largest single stockholder in Investors Syndicate, Canada's leading financial organization of its kind." It also marks, he stated, Gamble-Skogmo's initial step to diversify its activities and add to the growth potential of the firm following the sale of its holding in Western Auto Supply Co.

Investors Syndicate, directly and through affiliates and subsidiaries, is an issuer of guaranteed installment and single payment savings contracts, a distributor and investment manager of two mutual funds, and is engaged in all phases of the individual and corporate pension fund business in Canada. The company, together with its affiliates and subsidiaries, currently has assets totaling approximately \$400,000,000.

It is the largest Canadian company in the savings and annuity certificate field with the maturity value of certificates in force as of June 30, 1960 amounting to roughly \$519,000,000. An affiliate, Investors Mutual of Canada Ltd., is the largest mutual fund in Canada, while a second affiliate, Investors Growth Fund of Canada, Ltd., is the third largest unit in the field. With combined assets of the funds approximating \$245,000,000 as of June 30, 1960, the two constitute by a substantial margin the largest aggregate of equity-type funds subject to a single management in Canada. A subsidiary, Investors Trust Co., is a growing factor in the administration, trusteeship and management of individual and group pension funds.

"This purchase of Investors Syndicate of Canada stock not only places us in a strategic position both to contribute to and benefit from the expansion of the vigorous Canadian economy in which we already have a substantial stake," Mr. Gamble said, "but it also provides an ideal vehicle for the development of a world-wide financial organization by reason of the growing awareness of the advantages of mutual funds and related types of investment in many countries today."

Gamble-Skogmo's Canadian operations already include a subsidiary, Mac Leod's Ltd., which distributes hardware and general merchandise through 66 retail stores and 99 dealers, and a 93% interest in Marshall-Wells of Canada, a distributor, through more than 3,000 wholesale merchandise accounts and 267 retail outlets.

Gamble-Skogmo's purchase of the Investors Syndicate of Canada marks Mr. Gamble's second entrance into this field. In 1945, he purchased Investors Diversified Services, Inc., of Minneapolis, Minn., which he subsequently sold. Investors Syndicate of Canada was a wholly-owned subsidiary of the American firm until early 1957 when its control moved to Canadian interests. Since 1945, the assets of

Investors Diversified Services, Inc. have increased from roughly \$550,000 to over \$3,000,000,000.—V. 191, p. 901.

General Boats Corp., New York, N. Y. — Files With Securities and Exchange Commission—

The corporation on July 29, 1960 filed a letter of notification with the SEC covering 20,000 shares of common stock (par 20 cents) to be offered at \$5 per share, without underwriting.

The proceeds are to be used for inventory; engineering, development and molds for a new type craft and working capital.

General Mills, Inc.—Annual Report—

General Mills in its 32nd annual report to stockholders and employees reported for the fiscal year ended May 31 gross sales of \$537,818,000 and earnings of \$11,515,000.

These figures represent the second best sales record in the company's history, exceeded only by last year's all-time high of \$545,998,000. Earnings, however, dipped \$5,302,000 as compared to the record 1958-59 period.

Net earnings per share of common stock were \$1.46 as compared to \$2.26 last year after adjustment for a three-for-one split in common stock. However, dividends paid in fiscal 1959-60 totaled \$9,224,000, highest in history.

Federal, state, and local taxes paid by the company during the past year were \$16,706,000.

In a prefacing letter which introduced an annual report emphasizing the role of research in future plans, board chairman Gerald S. Kennedy and president Charles H. Bell interpreted the year as "only a pause in the company's progress."

"The dip in earnings for 1959-60 resulted mainly from intense competition in flour, feed, cake mix, pet food, and soybean operations, which significantly reduced profit margins," they said.

Despite this, they reported, all but one of the seven operating divisions of the company turned in a profit for the year. Only the Feed Division, suffering from the depressed economy in the poultry industry, showed a loss.

Accelerated research, a strengthening of management, and a broadening of product lines and overseas activities all bid well for the future, Kennedy and Bell said. "All of this, coupled with the fact that the men and women of General Mills are working with intensified effort, makes us confident that your company is entering a new era of growth," they said.

They also announced a revolutionary new method of milling flour, called the Bellera "Air Spun" process, a development which the annual report covers in some detail. The new simplified General Mills process produces flour with sparkling bright color and sheen as well as amazing uniformity, they said, and is the most important and revolutionary development in the flour milling industry in 50 years.

The annual report noted that the number of stockholders rose 31% during the 1959-60 year to a record 19,100 total.

Major developments during the past year at General Mills underscored the company's trend to wider diversification. These developments included acquisitions of the businesses of Latham and Co. Limited, English cake mix and corn flake manufacturing company; American Crab Meat Co., Boston, Mass., makers of the Three Little Kittens brand of cat food; Magnaflex Corp., Chicago, Ill., leader in the field of materials inspection and testing; and (effective June 1, 1960) The Daven Co. of Livingston, N. J., a supplier of high quality components and instruments to the electronics industry. The company also extended its overseas flour milling operations through an arrangement for production of Gold Medal Flour in Guatemala.—V. 192, p. 6.

Highway Trailer Industries, Inc.—Acquires—

Highway Trailer Industries, Inc., has acquired Weber Trailer & Manufacturing Co., Los Angeles, as a key step in expanded sales and service efforts and entry into manufacturing operations on the West Coast. David B. Charnay, Highway's chairman of the board, announced on July 27.

Mr. Charnay said that the firm, to be operated as a wholly-owned subsidiary known as Highway-Weber Trailer Co., would continue to make its present lines of special and standard truck-trailers, and also would be the manufacturing outlet for Highway's trailers and cargo-containers for customers west of the Rocky Mountains.

John T. Weber, secretary-treasurer and general manager of Weber, was named president of the new subsidiary. He is the son of the late Tobias Weber, founder of the firm and pioneer inventor and manufacturer of truck-trailers on the West Coast.

Weber Trailer has been managed by the Weber family continuously since 1911. The acquisition by Highway was a cash transaction. Terms were not disclosed.—V. 191, p. 1879.

Horizon Land Corp.—Sells School Land—

The purchase of 640 acres of land by the Society of Jesus was announced in New Orleans by the Very Rev. Laurence M. O'Neill, S. J., Provincial of the Jesuit's Southern Province. The land was acquired from the Horizon Land Corp., developers of a new metropolis being planned on a 167 square mile site just outside El Paso, Texas, and is to be used for a new university.

Father O'Neill noted that the Jesuit Order has maintained a keen interest in the southwest section of the country. "In 1959 we established a Jesuit High School in El Paso, and a natural development of this would be the establishment of a Jesuit College or University in Horizon City, as that area takes form."

Joseph Timan, President of Horizon Land Corp., developers of Horizon City, called the Jesuits' move "a major contribution to the educational resources of the South and Southwest."—V. 190, p. 165.

Hupp Corp.—Acquires—

Hupp has acquired for cash all outstanding stock of E. Roy Industries Limited, Montreal, Don H. Gearheart, Hupp President and Edouard Roy, President of the Canadian company, announced. Total amount and terms of the transaction were not disclosed. The Canadian concern, under present management and personnel, will be operated as a subsidiary of Hupp Corporation, Mr. Gearheart said.

E. Roy Industries Limited has annual sales of approximately \$6.5 million. The company manufactures household refrigerators, gas and oil warm air furnaces, gas and electric ranges under the brand name Roy. It also has an aircraft division which makes parts and assemblies for Canada's T-33, B-86 and CF-104 jet aircraft. Manufacturing facilities totaling 160,000 square feet are located in L'Assomption, Quebec. Hupp is engaged primarily in air conditioning, refrigeration and heating. It also manufactures aviation, automotive and hydraulic products, operating nine plants in six states. Sales in 1960's first half were \$41,929,000.—V. 192, p. 7.

Independent Telephone Corp.—Subsidiary Financing

New financing of \$1,100,000 for the Sanborn Telephone Co., a subsidiary of Independent Telephone Corp., was announced on Aug. 4 by William B. Harrison, President of the parent company.

The financing plan, approved by the New York Public Service Commission on July 21, includes the sale of \$500,000 of first mortgage bonds to the Metropolitan Life Insurance Co., \$228,000 in installment notes to the Kellogg Credit Corp. and the balance in common stock to the Independent Telephone Corp.

The program repays money borrowed for Sanborn's conversion to the dial system completed in 1957 and construction of its defense facilities.

Sanborn Telephone Co., Inc., provides service in a section of Niagara County, N. Y., which includes the municipalities of Sanborn, Pekin, Bergholtz and an adjacent area east of Niagara Falls, New York.—V. 191, p. 1112.

Industrial Development Bank of Israel Ltd.—Registers

Bank Leptuach Hataassiya B.M., Industrial Development Bank of Israel Limited, 113 Allenby Road, Tel-Aviv, Israel, filed a registration statement with the SEC on July 22, 1960, covering 10,000,000 shares of 6% preference C shares, to be offered for public sale at \$1 per share. The price is payable in cash or in State of Israel Independence Issue or Development Issue Bonds, other than the Development Issue of the Second Series. The offering is to be made on a best efforts basis by Harry E. Brager, who will receive a commission of \$0.055 per share.

The bank was organized in October 1957 to serve as a financing institution to encourage the establishment and expansion in Israel of efficient industrial undertakings needed in the development of the Israel economy. Net proceeds of this financing will be added to its working capital for use in the granting of loans. The bank now has outstanding three series of ordinary shares, as well as Series A and B preference shares and indebtedness. The prospectus lists Dr. Yeshayahu Foerder as Board Chairman and Yehuda Leviatov as Acting General Manager.

Industrial Rayon Corp.—Shows Loss—

The firm reported on July 25 a net loss of \$1,406,000, equal to 76 cents a share, for the first half of the year. Net income for the corresponding period of last year was \$556,000, equal to 30 cents a share. Sales in the first six months of 1960 were \$24,935,000 as compared to \$31,150,000 in the first half of 1959.

The company stated that operating results were adversely affected by lowered volume of its viscose fibers and startup expenses related to increased production of filament textured nylon yarns and polypropylene fibers.

The company added that "despite progress which has been made in reducing costs and expenses, a falling off in the demand for viscose fibers makes it unlikely that we will realize our earlier hopes for approaching a break even point in the third quarter and for profitable operations in the fourth quarter."—V. 191, p. 1773.

Industrial Timber Corp.—Stock Offering—

This corporation, 1407 McCarter Highway, Newark, N. J., filed a registration statement with the SEC on July 28 covering 75,000 shares of common stock, to be offered for public sale through an underwriting group headed by G. H. Walker & Co. and C. E. Unterberg, Towbin & Co. The public offering price and underwriting terms are to be supplied by amendment; 5,000 shares will be offered to employees.

The company was organized under Delaware law in July 1960 to combine the operations of three affiliated companies under common control, and will engage in the manufacture and sale of synchronous motor driven timing controls for use in various industrial applications, electro-magnetic relays for use in electrical circuits, photographic ("Time-O-Lite") darkroom equipment, and a recently developed programmer which, at the direction of coded punched cards or punched tape, functions as a master control to actuate various circuits in automated systems. Of the net proceeds of the stock sale, about \$300,000 will be used to pay for constructing and equipping a new addition to the company's Newark plant, \$155,000 to establish a New Product Engineering Division, and \$155,000 to prepay outstanding indebtedness incurred to carry inventory and accounts receivable. The balance will be added to working capital.

The company now has outstanding (or will have upon merger with the predecessors) 340,000 common shares and certain indebtedness. William H. Dunn is listed as President and Board Chairman. He and three other officers own all the outstanding shares of the predecessors (expect a 20% interest in one); and the five will own all the 340,000 to-be-outstanding shares.

Inland Container Corp.—Record Net, Sales—

This Indianapolis corporation, manufacturers of corrugated shipping containers, reports sales for the six months ended June 26, 1960, were \$45,301,000 compared with \$44,044,000 for the comparable six months of 1959, or an increase of 3%. Net earnings after taxes for the period rose 6% to \$3,316,000 from \$3,111,000 of a year ago. This was equivalent in both periods to \$1.50 a share based on the 2,025,400 shares of common stock currently outstanding inclusive of 175,000 shares issued April 7, 1960, and after deduction of dividends on the preferred stock issued in May, 1959.

Both the sales and net earnings for the 1960 period represented an all-time high for the company.—V. 191, p. 1773.

International Diode Corp.—Files for Offering—

The corporation of 90 Forrest Street, Jersey City, N. J., filed a registration statement with the SEC on July 29, 1960, covering 42,000 shares of 6% non-cumulative convertible preferred stock, to be offered for public sale at \$6.00 per share through Ernest Wells, Inc. on a best efforts basis. In addition to 66c commission per share sold, the underwriter will receive expenses in an amount not to exceed \$15,000.

The company was organized under New Jersey law in August, 1959. It is engaged in the business of manufacturing and selling diodes. In October 1959 it acquired from its president, Peter Toong, the assets and business of Quotronic Semi-Conductor Corp., by whom Toong had been employed in connection with the development and manufacture of diodes. Upon liquidation of Quotronic, Toong received the 100 shares of International all his interest in certain special processes for the manufacture of diodes and received an additional 100 shares therefor. Upon a subsequent recapitalization, these 200 shares were converted into 359,050 shares, held by Toong and members of his family. Thereafter, a group consisting of Marvin Hayutin and others, including the owner of the present underwriter, undertook to raise at least \$250,000 through a private and a public offering; and pursuant thereto 39,416 shares of stock were sold at \$3 per share to 16 persons for investment. In May 1960 Toong sold 56,471 shares to the group of 1/200 per share; and in June 1960 he sold an additional 56,475 shares on the same terms to the same group in anticipation of its undertaking to raise the balance of \$125,000 through a public offering. The net proceeds from the stock sale will be used to finance the establishment of a staff of production and sales engineers, to finance new product

development, to purchase additional equipment and to add to working capital.

The company has outstanding 400,766 shares of common stock, of which Peter Toong, president, owns 164,507 shares and, as trustee for members of his family, holds 75,134 shares. Five members of the Hayutin family, promoters of the company, own an aggregate of 40,089 shares; and the company's officers and directors as a group own 239,641 shares.

International Plastics & Packaging Machinery Co.—Formed—

A joint company is being formed by Shell International Chemical Co. Limited, London, and National Distillers & Chemical Corp., New York, to develop plans for the production and marketing of polyolefin film and packaging materials outside the U. S. A. and Canada.

The companies of the Royal Dutch-Shell group have substantial interests outside North America in the manufacture of polyolefins—basic plastic materials.

National Distillers is one of the world's largest producers of polyethylene and owns the Kordite Company, a leading manufacturer in the United States of plastic film for packaging. It has recently also set up a company in Switzerland to cover sales and development of polyethylene.

The new joint company, which will operate from London, will be headed by Dr. W. L. J. De Nie, currently a senior executive of Shell Development Co., New York. Dr. De Nie's deputy will be Werner T. Meyer who is currently in charge of Kordite's foreign operations.

Kaiser Industries Corp.—Common Stock Offered—The First Boston Corp., Dean Witter & Co., and Carl M. Loeb, Rhoades & Co. are co-managers of a syndicate which offered publicly on Aug. 2, 300,000 shares of the corporation's common stock, par \$4, priced at \$9.75 a share.

PROCEEDS—The shares are being sold for the account of certain selling stockholders and Kaiser Industries will receive none of the proceeds.

BUSINESS—Kaiser Industries is not primarily an operating company but has direct and indirect controlling interests in a number of affiliated companies, including Kaiser Steel Corp., Kaiser Aluminum & Chemical Corp. and Permanente Cement Co. The company through "Jeep" vehicles principally in the United States and South America, and Kaiser Engineers, a world-wide construction and engineering organization. Other affiliates are engaged in real estate development in California and Hawaii, the production of sand and gravel and the fabrication of metals.

CAPITALIZATION—The capitalization of Kaiser Industries and its wholly-owned subsidiaries on May 31, 1960, excluding indebtedness due within one year, was: \$69,020,000 in long term debt; and \$214,163,000 of book equity represented by 521,297 shares of \$50 par value cumulative convertible preferred stock, and 22,884,316 shares of \$4 par value common stock.

UNDERWRITERS—The underwriters named below have severally agreed, subject to certain conditions, to purchase from the selling stockholders the following respective numbers of shares of the common stock offered:

Kellogg Co.—Sales, Net Rise—

The company's sales for the first six months of 1960 were \$134,403,027 up 8% from \$124,513,133 in the same period of 1959. Net earnings for the period were \$11,189,169 or \$1.23 per share, up 9% from \$10,237,182 or \$1.13 per share.

In a letter to shareholders, Lyle C. Roll, President said, "Additional

equipment was installed at our Battle Creek plant during the early months of the year to accommodate the production of Kellogg's All-Stars and Kellogg's Request Pack. Both of these new products have passed beyond the test-market stage and are successfully being brought up to national distribution levels."

"Kellogg's Request Pack provides a special assortment of our most popular cereals. As its name implies, this convenient assortment contains the cereals most frequently requested in consumer polls and letters from our customers."

"The cereal most recently developed in our Product Research Laboratories is Kellogg's All-Stars. Shaped like a star with a hole in the middle, each delicious puff of this pre-sweetened oat cereal is flavored with sugar coating. This product is meeting with enthusiastic acceptance by consumers of all ages."—V. 188, p. 2508.

(D. S.) Kennedy & Co.—Backlog—

Orders for antennas and transmission towers totaling more than \$2,225,000 had been received by the company up to June 21, bringing the company's backlog up to more than \$5,000,000. Largest of the new orders was placed by Texas Electric Co. for transmission towers totaling \$1,033,000. They will be handled by the company's Anchor Metals Division in Hurst, Texas.

D. S. Kennedy & Co. designs and manufactures antennas and equipment for radar missile warning installations, satellite trackers, radio telescopes and of transmission towers for the utilities industry.—V. 191, p. 2639.

Kent Publishing Co., Inc., Greensboro, N. C. — Files With Securities and Exchange Commission—

The corporation on July 20, 1960 filed a letter of notification with the SEC covering 50,000 shares of common stock (par \$1) to be offered at \$1.10 per share, through McCarley & Co., Inc., Asheville, N. C. The proceeds are to be used to retire a short term note and for general corporate purposes.

Keyes Fibre Co.—Sales and Net Up—

This manufacturer of molded wood pulp products reported net sales on July 21 of \$10,008,322 for the first six months of 1960 as compared with \$9,316,662 in the corresponding six months of 1959.

Net profit for the period was \$1,103,809 after all charges including Federal income taxes. This compared with \$978,061 in the first six months of 1959.

After provision for dividends on the 4.8% first preferred stock, the net profit for the period was equal to 70 cents per share on the 1,506,372 shares of common stock outstanding June 30, 1960. On the same number of shares the net profit for the same period in 1959 was equal to 62 cents per share.—V. 191, p. 1879.

Kimberly-Clark Corp.—Expansion—

The corporation is stepping up the pace of its long term expansion and improvement program, with some \$40 million of capital expenditures projected for the current fiscal year ending next April 30. And the company is looking to continued high capital spending in the immediate ensuing years.

Kimberly-Clark's \$40 million program for 1960-61 is a sharp rise from the \$16 millions of capital outlay in 1959-60 and the \$25 million annual average through the last five years. The 1959-60 spending was exceptionally low because heavy market demands caused the company to defer about \$8 million of scheduled machine rebuilding in order to maintain uninterrupted tonnage production, Mr. Kimberly said.

A total of \$123 millions put into expansion and improvement in the last five years in now reflecting in improved earnings and efficiencies, he said. The heavy costs of introducing newer consumer products, such as table napkins and towels, are largely behind the company, and all major product lines are sharing an increased demand, he pointed out.

Sales have increased 35% and earnings 25% in the five-year period. Last year's sales totaled \$403.7 million and earnings were \$31.3 million, both all time records for the company. Earnings as a per cent of sales reversed a four-year downtrend by rising to 7.76% from 7.15% the year before.

Major projects in this year's capital program include a second creped wadding machine and further converting equipment at the company's Fullerton, Calif., plant—a new building and a 168-inch paper machine at the subsidiary American Envelope Company plant near Dayton, Ohio—a high speed coated paper machine at the Niagara, Wis., mill—a cigarette paper machine at Spotswood, N. J., and machine rebuilds and speedups at other U. S. and Canadian mills.

The company plans to make current year capital expenditures entirely from retained earnings and working capital, Mr. Kimberly said.—V. 191, p. 2747.

Koehring Co.—News—

The company's program of growth through acquisition and new product development was creating a base for improved profits and this should benefit stockholders substantially in the years ahead, Julien R. Steelman, President, told the New York Society of Security Analysts on July 7.

In the past six years, Koehring acquired ten companies, made four of them separate divisions and integrated the others with existing divisions, he said.

Since 1941 Koehring's sales rose from a ratio of \$10 per share of common stock to approximately \$39 per share in 1959. Earnings, though trending significantly upwards, did not rise as rapidly as sales. Mr. Steelman attributed this partly to the profit squeeze affecting the entire construction machinery industry and partly to the company's switch to LIFO accounting methods in 1957. On the other hand, the change to LIFO has resulted in the accumulation to date of a \$2.5 million reserve charged against earnings.

The profit squeeze on the industry in general developed from extreme optimism three years ago when the Interstate Highway Program and the accompanying Financing Trust Fund were set up by Congress, Mr. Steelman said. The optimism arose from the industry's awareness that any significant increase in construction spending is apt to require machinery purchases in the order of 40% of the value of the increase. "The fact that other heavy construction tailed off about as fast as the Highway Program developed and that the Highway Trust Fund was under-financed from the start resulted in the expected bulge in machinery not developing," Mr. Steelman said.

Most machinery makers increased their capacity in expectation of increased demand and most contractors bought machinery in excess of their current requirements but no actual increase in demand developed with the result that 1958 was a poor year for both producers and contractors. Supply and demand were getting into better balance early in 1959 when the steel strike in the third quarter "resulted in almost completely dislocating contractors' activity," Mr. Steelman said. "A rescheduling of road lettings to conform to the low level of money in the Highway Trust Fund completed the demoralization in the third and fourth quarters," he said.

In the half-year ended May 31, 1960, Koehring's sales were \$31,620,000 against \$30,155,000 in the first half of 1959. Earnings were \$675,000 against \$1,316,000 equal to 37 cents per common share against 78 cents on the basis of 1,582,255 shares outstanding.—V. 191, p. 1113.

Kollmorgen Corp.—Offering and Secondary—

This corporation of 347 King Street, Northampton, Mass., filed a registration statement with the SEC on July 29, 1960, covering 80,330 shares of common stock, of which 35,000 shares are to be offered for public sale for the account of the company and 45,330 shares, being outstanding stock, by the present holder thereof. The public offering price and underwriting terms are to be supplied by amendment. The underwriters, headed by Putnam & Co., will receive 5-year warrants to purchase 3,000 common shares at the public offering price.

The company's principal products include submarine periscopes and other optical equipment, torque motors and other electro-mechanical equipment, and electronic apparatus. The net proceeds from the stock sale, together with the proceeds from the private sale of \$750,000 in principal amount of long term notes, and general funds available primarily from retained earnings will be used (a) to redeem all of the company's outstanding shares of 7% cumulative preferred stock at an aggregate redemption price of \$41,580, plus accrued dividends, (b) to repay the presently outstanding first mortgage note in the unpaid principal amount of \$262,500 plus call premium and accrued interest, (c) to reduce the outstanding short term bank loans presently aggregating \$600,000, (d) to purchase approximately \$100,000 of new machinery and equipment for the production of torque motors,

(e) to pay a promissory note of \$65,000, and (f) for working capital and other corporate purposes.

In addition to indebtedness, the company has outstanding 211,893 shares of common stock, of which E. Louise Gaudet, the selling stockholder, owns 90,660 shares (and will sell 45,330 shares), Frederick L. G. Kollmorgen owns 78,840 shares, E. O. Kollmorgen, president, owns 22,620 shares, and the company's officers and directors as a group own 34,113 shares.—V. 191, p. 2415.

Kromex Corp.—To Redeem Debentures—

The corporation has called for redemption on Sept. 1, 1960, all of its outstanding 6% convertible debentures due Nov. 1, 1976 at 105% Payment will be made at The Bank of New York, 48 Wall St., New York 15, N. Y.

The debentures are convertible into capital stock to Sept. 1, 1960, inclusive.

Kysor Heater Co.—Files Stock Plan—

This company, of 1100 W. Wright St., Cadillac, Mich., filed a registration statement with the SEC on July 25, 1960, covering 24,200 shares of common stock, which shares are subject to the company's Stock Option and Bonus Plan.

Lake Ontario Portland Cement Co. Ltd.—Forecast—

The firm expects to go "into the black" in only its second full year of operation. In addition, steady progress in all areas of the company is reported by George H. Elliott, President and Chairman of the Executive Committee, to the shareholders in a semi-annual report dated July 25, 1960.

Cement sales during the first six months of the 1960 fiscal year, show an increase of 26% over the same period in 1959. The report says this was accomplished despite a number of adverse factors such as an unusually severe winter and continuous rain during April and May which played havoc with the construction industry.

The plant, situated at Picton, Ontario, has been running at capacity since May 1959, the only cement manufacturing plant in Ontario to do so, according to reports the company has received. There were no scheduled interruptions during the winter months which are traditionally slow in the cement manufacturing business even without the added factor of adverse weather as experienced in southern Ontario earlier this year.

The company manufactures five different types of cement and also commercial aggregate (crushed limestone) which is marketed in both Canada and the U. S. Rochester Portland Cement in Rochester, N. Y., is a wholly-owned subsidiary of Lake Ontario Portland Cement.—V. 190, p. 1939.

Leader-Durst Clekan Co.—Proposes Offering—

This company, of 41 East 42nd St., New York, filed a registration statement with the SEC on July 28, 1960 covering \$855,000 of Limited Partnership Interests, to be offered for public sale in units of \$5,000. The company is a limited partnership recently organized by I. Theodore Leader and Joseph Durst, as general partners, and Beatrice Leader, Harold Seth Leader and Stanley Weingast as limited partners. It proposes to acquire title to the land, building and personal property known as the C. A. C. Building, 1118-1148 Euclid Ave., Cleveland, and the office building located at 1016 Central Ave., Kansas City, Mo. Upon closing title to the Cleveland property the partnership will own the land together with the first five floors of said building (the 10 floors situated above the fifth floor are not subject to this acquisition and shall remain in possession of their present owner, the Cleveland Athletic Club Association). The partnership will become the owner and operator of the three story building in Kansas City.

The general partners have contracted to purchase the Cleveland property for a total purchase of \$500,000 in cash above the unpaid principal amount of mortgage debt thereon (at June 29th the first mortgage was \$765,955 and the second mortgage \$212,964); and they contracted to purchase the Kansas City property for a total purchase price of \$345,000, in cash. The general partners deposited \$35,000 on the Cleveland and \$10,000 on the Kansas City property and are committed to make an additional \$15,000 deposit on the Cleveland property if title is not closed by Oct. 1, 1960. The general partners have paid into the partnership \$10,000 in cash and have contributed the purchase contracts for which they received \$140,000 in subordinated limited partnership interests. They are to be reimbursed for their advances made pursuant to the purchase contracts, fees and other related expenses. The Cleveland property is to be leased back to the seller, C. A. C. Building Co., for a net rental of \$144,264 per annum. The partnership will acquire and operate the Kansas City property. The acquisitions will be financed through sale of the \$855,000 of limited partnership interests, the \$10,000 contributed by the general partners, and \$15,000 to be contributed by the three limited partners.

Long Island Lighting Co.—New Highs—

Gross revenues reached a new peak of \$142,009,000 for the 12 months ended June 30, 1960. This represents a 9% increase over the \$129,784,000 gross revenues reported for the like 1959 period. Electric sales accounted for two-thirds of the increase during this 1960 period. Gas revenues increased 13%, mostly due to a 28% growth in gas space heating revenue.

LILCO reported expansion in both gas and electric revenues occurred in spite of the more moderate weather this year.

New electric customers, they stated, are now being connected at a rate 13% higher than a year ago. In addition they have added 13,500 new gas customers in the last 12 months. LILCO also stated in their second quarterly report that there are over 10,000 houses currently under construction in LILCO territory, 9% more than a year ago.

Net income for the 12-month period 1960 was \$19,746,000 compared to \$17,948,000 for 1959, an increase of 10%. After preferred dividends, earnings available for the common stock were \$2.15 per share, establishing a new peak based on the 8,204,000 average number of shares outstanding in the 1960 period, an increase of 9% over the \$1.97 in 1959 on 7,882,000 average shares.

For the three month period ended June 30, gross revenues were \$34,482,000 in 1960 compared with \$32,249,000 in 1959 while net income amounted to \$4,850,000 in 1960 as against \$4,212,000 in 1959. Earnings on common stock in the 1960 quarter were \$4,339,000, equivalent to 52 cents per share based on 269,000 more average shares and 7 cents above the second quarter last year when earnings of 45 cents per share were reported.—V. 191, p. 2519.

Magellan Petroleum Corp.—Proposes Offering—

This corporation, Edificio Arcia, Avenidas Justo Arosemena y Ecuador, Panama City, Republic of Panama, and voting trustees for its shares, filed a registration statement with the SEC on July 29, 1960, seeking registration of 750,000 American voting trust certificates for a like amount of underlying shares of capital stock. The certificates will be offered for sale at prices related to the current price of outstanding certificates on the American Stock Exchange at the time of offering. No underwriting is involved, but brokers and dealers through whom sales were made will receive a commission (the amount of which will be supplied by amendment.) According to the prospectus, "it is contemplated that the bulk of the offering will be made in

Australia with a minor portion reserved for sales in the United States through the facilities of the American Stock Exchange.

The company holds directly or indirectly licenses or interests in licenses to explore for and produce oil and gas in Australia, Canada, Ecuador and Guatemala. It has interests solely in undeveloped properties acquired since its creation in 1957 principally in transactions with corporations in which the family of the late William F. Buckley have a significant interest. Of the net proceeds from the certificate sale, estimated at \$352,500, \$325,000 will be used for exploratory work and sustaining expenses of properties in Australia and \$27,500 for miscellaneous expenses in the U. S.

The company has outstanding 4,186,610 shares of capital stock. Benjamin W. Heath, president, owns 4,198 shares. Marion F. Brown, vice-president, owns certificates for 800 shares and William Shields, Jr., secretary, owns certificates for 2,060 shares.—V. 190, p. 2712.

Marko Mining & Milling Co., Inc.—SEC Hearing Set—

At the request of the following companies, the Securities and Exchange Commission has scheduled hearings in Las Vegas, Nevada, on the dates indicated, for the purpose of determining whether to vacate or make permanent earlier orders of the Commission temporarily suspending Regulation A exemptions from registration under the Securities Act of 1933 with respect to public stock offering proposals of the respective companies:

Company	Date of Hearing
Marko Mining & Milling Co., Inc.	8/22/60
116 South Fourth St., Las Vegas, Nev.	
Great Basin Consolidated Mines, Inc.	8/23/60
5306 Evergreen, Las Vegas, Nev.	

In Regulation A notifications filed with the Commission under dates of Dec. 15, 1959, and May 5, 1960, respectively, each company proposed the public offering of 300,000 common shares at \$1 per share. The Regulation A exemptions from registration for such offerings were suspended by Commission orders of June 7, 1960, which charged non-compliance with certain terms and conditions of the Regulation, including the failure to disclose in each company's offering circular the existence of the other, affiliated company organized by and having the same controlling persons and business purposes. The hearings for the purpose of taking evidence therein will be held in Room 305 of the U. S. Post Office Building in Las Vegas.—V. 191, p. 2639.

Marquardt Corp.—Army Missile Contract—

The Columbus Division of North American Aviation Inc. announced on July 13 that it has awarded an initial subcontract of approximately \$1.5 million to The Marquardt Corporation, Van Nuys, for the design and fabrication of a ramjet propulsion system for a supersonic Army target missile system.

Designed to operate the Army's new high- and low-level target missiles, the Marquardt ramjet will serve as the sustaining propulsion system for the targets. North American is prime contractor to the Army for the development of the target systems. Pending a satisfactory systems demonstration, a contract for production may be let at a later date.

The target missile is designed to operate at speed ranges from subsonic up to Mach 2 from ground level to over 50,000 feet. On a high-level mission, the missile is designed to fly with a small triangular wing attached. On a low-level mission, the wing will be removed. The missile is intended to have a capability of being reflown several times through the use of a parachute recovery system.—V. 191, p. 202.

Maytag Co.—Net Down—

First half sales and earnings declined from last year's record highs, but represent the second-highest sales results for the initial six months of any year.

This decline is entirely accounted for by the sharp reduction in demand during the second quarter, company officials said. A seasonal upturn usually occurs in the third quarter, they said, but there is no present evidence that it will reach the levels of the third quarter of 1959.

However, they continued, Maytag's sales decline in the first half was less severe than that experienced by the home laundry industry as a whole, which showed a 10% decrease for the first six months.

Consolidated net sales for the first half total \$58,961,750, a 6% decline from the record \$62,718,974 during the first six months of 1959. Second-quarter sales totaled \$26,597,842, compared with \$30,996,886 a year ago.

First-half earnings totaled \$5,652,661, compared with \$6,657,435 last year in the first six months. This is equal to \$1.73 per share of common stock on 3,274,694 shares outstanding, compared with \$2.02 a common share on 3,266,232 shares in the first half of last year. Income in the second quarter of 1960 was \$2,325,499, equal to 71 cents a share, compared with \$3.401,669, or \$1.04 a share in the second quarter of 1959.—V. 190, p. 873.

Melpar, Inc.—Registers Capital Stock—

This wholly-owned subsidiary of Westinghouse Air Brake Co., filed a registration statement with the Securities and Exchange Commission on July 29 covering 217,000 shares of capital stock. Melpar proposes to offer the holders of outstanding common stock of Westinghouse Air Brake rights to subscribe for the new stock at the rate of one new share of capital stock for each 20 common shares of Westinghouse Air Brake Co. It is expected that the subscription period will run from a record date of Sept. 9 to Sept. 26, 1960.

The First Boston Corp. will head a group to underwrite the subscription offering.

Until now all capital stock of Melpar has been held by its corporate parent and never has been traded on any market. After the offering, Westinghouse Air Brake will own approximately 91% of Melpar's outstanding stock.

The company, with headquarters at Falls Church, Va., is engaged primarily in research, development and production of military electronics. Sales in 1959 were \$65,108,000 with net income of \$1,529,000.

At June 30, 1960, Melpar had outstanding \$4,000,000 of short-term notes covering advances from Westinghouse Air Brake, \$7,683,000 in short-term bank loans and 2,250,000 shares of capital stock of \$1 par value.—V. 192, p. 306.

Missouri Public Service Co.—Rights Offering—

This company, of Kansas City, Mo., filed a registration statement with the SEC on Aug. 1, 1960, covering 258,558 shares of common stock, to be offered for subscription by holders of outstanding common stock in the ratio of one new share for each eight shares held. The record date, subscription price and underwriting terms are to be supplied by amendment. Merrill Lynch, Pierce, Fenner & Smith and Kidder, Peabody & Co. head the list of underwriters.

The net proceeds from the stock sale will be applied to the reduction of the company's outstanding short-term bank loans incurred in 1959 and 1960 for construction purposes. The company's total expenditures for the 1960 construction program are estimated at approximately \$9,742,000. It is expected that this sum will be made available from internal sources to the extent of \$3,400,000 and the balance from the proceeds of short-term bank loans. The company now has outstanding 2,058,167 shares of common stock in addition to various indebtedness and preferred stock.—V. 189, p. 2036.

Mobile Video Tapes, Inc.—Common Stock Offered—Pursuant to a July 28 offering circular, Dempsey-Tegeler & Co., of St. Louis, Mo., publicly offered 100,000 shares of this firm's \$1 par common stock at \$3 per share.

APPOINTMENTS—Transfer agent, California Bank, 629 South Spring Street, Los Angeles, Calif., Registrar, Union Bank, Eighth and Hill Streets, Los Angeles, Calif.

PROCEEDS—The net proceeds to the company from the sale of the stock, after deducting underwriting discounts and expenses, are estimated to be \$249,312. Of this amount, the company estimates that approximately \$50,000 will be spent for an additional video tape recorder, \$30,333 for the retirement of existing bank loans and advances from shareholders, \$14,000 for special effects amplifiers, \$10,000 for a Universal Zoomar lens and approximately \$10,000 for recently developed equipment for its cruisers and for air cooling apparatus for cooling the electronic equipment in the cruisers. The remainder of the proceeds will be added to working capital and it is anticipated that it will be used in the near future for the purchase of additional video and audio recording equipment.

BUSINESS—Mobile Video Tapes, Inc. was incorporated under the laws of the State of California on March 13, 1959. It is principally engaged in the business of owning and operating complete and self-contained television recording stations constructed on bus chassis for mobility and commonly referred to as "mobile video tape cruisers". The company presently owns two such cruisers which it leases to others or uses itself for making video tape recordings.

The company's executive officers are located at 1607 North El Centro, Hollywood, Calif.

Mohawk Business Machines Corp., Brooklyn, N. Y.—Files With Securities and Exchange Commission—

The corporation on July 28, 1960 filed a letter of notification with the SEC covering 2,500 shares of common stock (par 40 cents) to be offered at-the-market, without underwriting.

The proceeds are to be used for general corporate purposes.—V. 191, p. 1007.

Murray Co. of Texas, Inc. (& Subs.)—Sales Up—

Consolidated sales of company and its subsidiaries for the six months ended June 30, 1960, were \$19,516,222, up from \$17,988,536 for the same period a year ago, J. Kirby McDonough, President, announced on July 29.

Net income for the period totaled \$1,274,577, or \$1.24 per share, compared with \$1,196,806, or \$1.18 per share for the first six months of 1959, calculated on the basis of the 2-for-1 stock split effected March 25, 1960.

"The outlook continues favorable," Mr. McDonough told stockholders. "The two divisions serving the processing of cotton experienced materially improved sales and profits in the first six months of the year. Sales of cotton ginning machinery and allied products for the month of June, 1960, exceeded all but one other month in the company's history, June, 1961. Substantial improvements in sales and earnings were achieved by the Carver Cotton Gin Co. division, which manufactures cotton seed lint machines and other equipment for cotton seed oil mills. Sales of our Boston Gear division are continuing at a high level. A wage increase was put into effect at our Boston Gear Works division in August, 1959, with no opportunity to increase prices in a competitive market, thus affecting this division's profit margins."

Several new products were introduced during the period. "Our research departments are constantly expanding and strengthening our positions in all the industries we serve," Mr. McDonough said. "Against this background, your management anticipates a continued high level of operations for the remainder of the year."—V. 174, p. 2095.

National Cash Register Co.—Files Stock Plan—

The company, Main and K Streets, Dayton, O., filed a registration statement with the SEC on Aug. 1 covered 157,500 shares of common stock, to be issued to eligible employees under and pursuant to the company's Restricted Stock Option Plan.—V. 191, p. 2640.

Nucleonic Corp. of America, Brooklyn, N. Y. — Files With Securities and Exchange Commission—

The corporation on July 28, 1960 filed a letter of notification with the SEC covering 75,000 shares of common stock (par 10 cents) to be offered at \$4 per share, through Bernier Bros. and Earl Edden Co., N.Y., N.Y.

The proceeds are to be used for advertising and increased direct mail, moving to a modern one story plant and leasehold improvements, additional sales personnel, and the establishment of sales offices in Los Angeles, Boston, Washington, and Chicago, and for working capital.

Oil Recovery Corp.—Files Debentures—This corporation filed a registration statement on Aug. 4 with the SEC covering a proposed public offering of \$1,600,000 of convertible debentures, due Sept. 1, 1970. Lenman Brothers and Allen & Co. will manage the underwriting.

PROCEEDS—Of the proceeds, approximately \$700,000 will be used for the development and initial operation, employing the "Orco Process," of certain properties owned by the company and of one additional property which it may acquire with existing funds. The remaining proceeds will be added to the general funds of the company and be available for general corporate purposes and for expansion of the business of licensing the use of the "Orco Process" by others.

The company has developed the "Orco Process" as an improvement to waterflooding for the purpose of recovering substantially larger quantities of secondary oil and also to recover such larger quantities in a shorter period of time than is possible through waterflooding alone.—V. 192, p. 212.

Pennsalt Chemicals Corp.—Net Off—Dutch Interest—

The corporation reported to its stockholders on Aug. 1 that sales for the three months ending June 30, 1960, and for the first-half, were the highest of any similar period in the history of the company. Sales during the three months' period totaled \$25,166,400, up 3.3% from the 1959 figure. First six months' figures were \$47,110,800, an increase of 3.9% over the 1959 figure.

Earnings for the three months ending June 30, 1960 were \$1,382,600 or 35 cents per share, compared with \$1,534,800 or 40 cents for the 1959 second quarter. First six months' results were \$2,651,900 or 68 cents per share for 1960 compared with \$2,751,700 or 71 cents in 1959's first half.

A planned shutdown of Pennsalt's Wyandotte, Mich. chlor-caustic facilities, to permit completion of a \$6,000,000 modernization program, reduced second quarter earnings as anticipated. These new facilities were placed "on stream" on the scheduled date of June 30 and the plant is now operating at capacity. The effects of the completion of this modernization project should reflect an increase in earnings during the second half of 1960.

The corporation and N. V. Fabrik van Chemische Producten of Vondelingenplaat, Holland, announced on Aug. 1 a plan by which Pennsalt will acquire a substantial interest in the Dutch chemical firm, known in trade circles as, "Vondelingenplaat."

The Vondelingenplaat plant located on the Nieuwe Maas waterway near Rotterdam makes plastic films, dyestuffs, pesticides, rubber chemicals, formic and oxalic acids and their derivatives, and a host of organic chemical intermediates. Pennsalt, a leading producer of fluorine chemicals, including hydrofluoric acid, Isotron refrigerants and aerosol propellants and a recently announced high-performance fluorinated plastic—also makes chlorine and caustic soda, a complete line of alkyl amines and derivatives, organic sulfur compounds, rubber chemicals and a number of industrial organic and inorganic chemicals.

William P. Drake, President of Pennsalt, stated, "For some time we have been looking for an association with a well managed and highly regarded European chemical producer. Such an alliance would enable us to utilize our know-how in the local manufacture of Pennsalt products which have attractive sales potential in the Common Market area. The arrangement with Vondelingenplaat will not only permit us to do this but will, in addition, give us an opportunity to use Vondelingenplaat technology in the manufacture of their products in the U. S., Mexico, Canada and in other countries in which Pennsalt is operating."—V. 191, p. 2640.

THE COURSE OF BANK CLEARINGS

Bank clearings this week will show an increase compared with a year ago. Preliminary figures compiled by us based upon telegraphic advices from the chief cities of the country, indicate that for the week ended Saturday, August 6, clearings for all cities of the United States for which it is possible to obtain weekly clearings will be 13.1% above those of the corresponding week last year. Our preliminary totals stand at \$27,091,925,707 against \$23,963,493,677 for the same week in 1959. At this center there is a gain for the week ending Friday of 22.5%. Our comparative summary for the week follows:

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday and the Saturday figures are not available at time of going to press. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results of the previous week—the week ended July 30. For that week there was an increase of 8.3%, the aggregate clearings for the whole country, having amounted to \$25,790,276,926 against \$23,810,656,539 in the same week in 1959. Outside of this city there was a gain of 3.0%, the bank clearings at this center showing an increase of 13.3. We group the cities according to the Federal Reserve Districts in which they are located and from this we note that in the New York Reserve District the totals show an improvement of 13.0%, in the Boston Reserve District of 10.4% and in the Philadelphia Reserve District of 3.0%. In the Cleveland Reserve District the totals are smaller by 2.5%, in the Richmond Reserve District by 4.5% and in the Atlanta Reserve District by 5.9%. The Chicago Reserve District suffers a loss of 4.1%, but the St. Louis Reserve District has to its credit a gain of 6.2% and the Minneapolis Reserve District of 3.4%. In the Kansas City Reserve District the totals record an increase of 8.2%, in the Dallas Reserve District of 1.6% and in the San Francisco Reserve District of 0.1%.

In the following we furnish a summary by Federal Reserve Districts:

Pik-Quik, Inc.—Stock Offering—

Pik-Quik, Inc., Baker Building, Minneapolis, Minn., filed a registration statement with the SEC on July 27, 1960, covering 550,000 shares of common stock, to be offered for public sale through an underwriting group headed by A. C. Allen & Co., Inc. The public offering price and underwriting terms are to be supplied by amendment. Organized in November, 1958, the company's business has consisted of establishing, purchasing and operating so-called self-service "banquet markets" under the names "Pik-Quik" and "Tom Thum," which are located in Florida and now number 31. The company now intends to enter the meat processing and provision business by the purchase, with the proceeds of this offering and other funds, of substantially all the assets of Plymouth Rock Provision Co., Inc. It processes mainly pork products such as canned hams, bacon, and pork sausages, and wieners and cold cuts, and distributes its products largely in the New York trade area, although canned hams are distributed nationally. The purchase price will be the book net worth of Plymouth as of the date of closing plus an additional sum of \$671,950; and, in addition, the company is obligated under the contract to deposit on the closing date a sum equal to the total liabilities of Plymouth on that date. As of April 29, 1960, the book net worth of Plymouth amounted to \$3,614,862 and the amount of total liabilities was \$1,090,826. The purchase will be financed in part from the proceeds of this stock offering and from borrowings of \$1,900,000.

In addition to certain indebtedness, the company now has outstanding 794,125 common shares. The prospectus lists W. C. Metzger as President and one of the founders of the company. The founders on June 30 owned an aggregate of 223,505 common shares which, except for 25,000 shares issued for services, were acquired at prices ranging from \$1 to \$1.25 per share. Present officers and directors own 166,900 shares, or about 21% of the outstanding common. An additional 18% is owned of record by Smith, Barney & Co. —V. 190, p. 2142.

Pioneer Natural Gas Co.—Partial Redemption—

The company has called for redemption on Sept. 1, next, through operation of the sinking fund, \$675,000 of its 5 1/2% debentures due March 1, 1977 at 100.21% plus accrued interest. Payment will be made at the Manufacturers Trust Co., 67 Broad St., New York, N. Y. —V. 191, p. 2749.

Possis Machine Corp., Minneapolis, Minn.—Files With Securities and Exchange Commission—

The corporation on July 25, 1960 filed a letter of notification with the SEC covering 40,000 shares of common stock (par 25 cents) to be offered at \$7.50 per share, through Craig-Hallum, Inc., Minneapolis, Minn.

The proceeds are to be used to acquire new facilities, purchase additional equipment, reduce existing indebtedness and for working capital.

Prentice-Hall, Inc.—Acquires—

Prentice-Hall, of Englewood Cliffs, N. J., has bought control of the National Foremen's Institute of New London, Conn., a subsidiary of Vision, Inc. It was announced on Aug. 2. Prentice-Hall, which was founded in 1913 and has become one of the world's largest publishers of books and business services, will operate National Foremen's Institute as a separate division, according to Richard P. Ettinger, Chairman of the Board of Prentice-Hall. The acquisition was for cash, reportedly in the amount of \$2,000,000. The National Foremen's Institute, the nucleus of Vision, Inc., was founded in the Middle West by A. C. Croft, Sr. in 1917. It now publishes 36 periodicals devoted to the training and development of foremen and supervisory personnel in industry, salesmanship and management. Its business has expanded with the enormous growth in the nation's need for supervisory personnel. More than 10,000 corporations subscribe for its services.

Additional periodicals are under consideration for publication by the institute and concrete expansion plans are due to be announced within two weeks. The institute will remain at 100 Garfield Ave., New London, where it occupies 42,000 square feet of space.

Frank Marron, Editor-in-Chief, and other executives of the institute will be retained as will the 200 employees, according to Mr. Ettinger. He said the acquisition of the institute would greatly augment Prentice-Hall's services to business and industrial executives, bankers, lawyers, accountants, realty men and others.

William E. Barlow, President of Vision, Inc., said the sales of the controlling interest in the institute to Prentice-Hall should be mutually advantageous. He added that it would enable Vision to devote its attention to expanding the domestic and international magazine properties that offer the company its greatest opportunities. —V. 189, p. 1133.

Progress Manufacturing Co., Inc.—Registrar App'd—

The Chase Manhattan Bank has been appointed registrar of the \$1.25 cumulative convertible preferred stock, \$20 par value, of the corporation. —V. 192, p. 116.

Puritron Corp.—Offering and Secondary—

Puritron, of 15 Stiles Street, New Haven, Conn., filed a registration statement with the SEC covering 250,000 shares of common stock, of which 200,000 shares are to be offered for public sale for the account of the company and 50,000 shares, being outstanding stock, by the present holder thereof. The public offering price and underwriting terms are to be supplied by amendment. Bache & Co. is listed as the principal underwriter. It will purchase from Joseph Stein, President and selling stockholder, for \$2,500, 25,000 5-year warrants to purchase a like amount of common stock from Stein.

The company is engaged in the manufacture of electrical products, principally various types of air purifiers. The net proceeds from its stock sale will be used to pay short term notes which are secured by accounts receivable and/or personally guaranteed by Stein. The proceeds of such notes were used for operating requirements. The balance of the proceeds will be added to the general funds, to be available for various corporate purposes.

In addition to indebtedness, the company has outstanding 806,125 shares of common stock, of which Stein owns 800,875 shares and is selling 50,000 shares (not including the 25,000 shares subject to warrants).

Purolator Products, Inc.—Gov't Orders Rise—

The Rahway, N. J., firm, reported Department of Defense orders have increased by more than one million dollars in the past year to a total of more than \$3.3 million.

In reporting the increase, James D. Abeles, company President said, "filtration is becoming increasingly important to government as a

safeguard for vital equipment. Proper oil, air and fuel filtration adds 'life' to any type of equipment."

Purolator filters are now employed in practically every type of defense application ranging from missiles to nuclear submarines, and varying in size from a "thumbnail" missile filter to six-foot filter-separators used in ground re-fueling at Air Force bases throughout the world. —V. 191, p. 1816.

Republic Steel Corp.—Registers Debentures—

The Cleveland, Ohio, corporation on Aug. 1 filed a registration statement with the Securities and Exchange Commission covering a proposed offering of \$125,000,000 sinking fund debenture due Sept. 1, 1985. Underwriters headed by The First Boston Corp. and Merrill Lynch, Pierce, Fenner & Smith, Inc. are scheduled to market the issue, subject to SEC effectiveness, on Aug. 30.

The debentures will be entitled to a sinking fund beginning Sept. 1, 1965 sufficient to retire 93.6% of the issue prior to maturity.

Republic is the nation's third largest steel company and one of the steel industry's largest producers of stainless and alloy steels. Its principal facilities are located in the Great Lakes region.

Proceeds of the proposed issue, along with funds available to the corporation under a recently arranged bank credit agreement, will be used to finance a modernization and improvement program which the corporation estimates will require expenditures of \$375,000,000 from 1960 through 1964. —V. 191, p. 608.

Resort Airlines, Inc.—Capital Structure—

Shareholders of Resort Airlines, Inc. have voted to accept management's proposals to change the company's capital structure, and permit diversification of its operations, it was announced on July 27 by General Thomas B. Wilson, chairman.

The company's authorized shares were increased to 2,000,000 from 1,000,000. Of these, 100,000 will be in 5%, \$100 par, convertible preferred stock, and the balance of 1,900,000 will be common shares. Resort currently has outstanding 392,041 shares of common stock.

A callable, convertible 6% debenture issue totalling \$3,000,000 maturing in 10 years, also was authorized by the company's directors.

A charter amendment approved by the shareholders today permits Resort, cargo air carrier which has been specializing in government contract transport, to diversify its operations by engaging in other business fields. General Wilson stated that this action was taken with a view to obtaining stability of earnings. He said:

"The newly authorized securities will be issued to effect acquisitions wherever that can be done to the benefit of Resort and its shareholders."

It was understood that no public offering of these securities is presently contemplated. —V. 189, p. 2396.

Reva Enterprises, Inc.—Registers Common—

Reva Enterprises Inc., 525 Lincoln St., Worcester, Mass., filed a registration statement with the SEC on July 28, 1960, covering 200,000 shares of common stock, to be offered for public sale through an underwriting group headed by Blair & Co., Inc. and Chace, White-side & Winslow, Inc. The public offering price and underwriting terms are to be supplied by amendment. Certain of the underwriters will purchase, at 10c per share, options for 12,500 shares exercisable at \$7 per share.

The company was organized under Massachusetts law in December 1959 to establish and operate, directly or through subsidiaries, modern tenpin bowling centers in various locations. It has received \$500,000 from the promoters and certain others for 250,000 shares of common stock, which will equal 56% of the total outstanding stock upon sale of the 200,000 shares the subject of this offering. The company has constructed one 44-lane center on leased land ("Lincoln Lanes-Worcester"), and currently plans several additional tenpin bowling centers of which four in Massachusetts are either under construction or sites therefor are being negotiated. According to the prospectus, it is anticipated that construction will be generally financed in part by long-term loans and that the bowling equipment will be financed generally through conditional sales or other financing arrangements with the suppliers. Actual construction of additional centers will depend upon the company's ability to obtain the necessary financing. Of the net proceeds of the sale of stock to promoters and others and of the proceeds of the public stock offering, a portion has been expended for constructing and equipping the Lincoln Lanes-Worcester center and the balance will be available to cover the costs of obtaining sites, for the four planned additional centers, making initial payments for construction and bowling equipment, and acquiring other furnishings and equipment.

In addition to the 250,000 common shares, the company now has outstanding \$250,000 of mortgage notes. The prospectus lists Oscar E. Vaudreuil as president and Saul I. Reck as general manager. Reck owns 117,500 of the outstanding shares, Vaudreuil 25,000 shares, and two other officials 85,000 shares. An additional 12,500 shares are under option to the promoters and officials.

The corporation on July 21, 1960 filed a letter of notification with the SEC covering 100,000 shares of common stock (par \$1) to be offered at \$2 per share, without underwriting.

The proceeds are to be used to purchase machinery, equipment and supplies and for working capital.

Russell Stover Candies, Inc.—Proposes Offering—

Russell Stover Candies, Inc., 1206 Main St., Kansas City, Mo., filed a registration statement with the SEC on Aug. 3 covering 200,000 shares of common stock, to be offered for public sale through an underwriting group headed by Harriman Ripley & Co., Inc. and Stern Brothers & Co.

of "restricted common stock," \$1 par, and 900,000 shares of common stock, \$1 par, were authorized for issuance.

It is further contemplated that the company in August will sell to institution investors for \$5,500,000; (a) \$3,000,000 of senior notes with warrants for the purchase of 50,000 common shares and (b) \$2,500,000 of subordinated convertible notes. The proceeds thereof will be applied in part to the redemption at \$100 per share plus accrued dividends of 42,500 preferred shares held by the two underwriting firms. The balance thereof will be added to the general funds of the company to be used for working capital and other corporate purposes.

Net proceeds of the company's sale of the 200,000 common shares, together with other available funds of the company, will be applied to the redemption of 17,000 shares of preferred stock (at \$110 plus accrued dividends), the balance of 3,000 preferred shares to remain outstanding. (The company's prospectus lists Fred Murfin as Vice-Chairman, Clara Stover as Honorary Chairman and Lem T. Jones as President.

St. Lawrence Corp. Ltd. (& Subs.)—Net Up—

Net consolidated earnings of the corporation for the first six months of 1960, after provision for minority interests, amounted to \$2,832,608, equal after preferred dividends, to 56 cents per common share, an increase of 23.0% over earnings of \$2,302,548 or 44 cents per share for the first half of 1959 on the same basis. In these and other dollar results, the results of Hinde and Dauch Limited are included for the six months of 1960; and in 1959 are included from June 1, the date of acquisition.

For the second quarter of 1960 net earnings were \$1,483,279 or 30 cents per common share as compared with \$1,349,329 or 26 cents per share for the first quarter.

Shipments by the corporation's mills in the first six months of 1960 totalled 266,292 tons (excluding Hinde and Dauch Limited), an increase of 7.3% over shipments in the same period of 1959, reports P. M. Fox, President. This total consisted of 181,061 tons of newsprint, 82,810 tons of finished kraft products and 2,421 tons of surplus pulps.

Net sales before U. S. dollar discount amounted to \$50,548,720 for the first six months of 1960, including net sales of Hinde and Dauch Limited. For the first half of 1959 net sales were \$36,658,838. Loss from U. S. dollar discount totalled \$666,951 compared with \$669,400 in the same period of 1959.—V. 189, p. 2612.

St. Lawrence Industrial Development Corp. — SEC Warns Investors—

Investors in the United States are warned that an extensive mail and long-distance telephone sales campaign is occurring from the Province of Quebec, Canada, by St. Lawrence Industrial Development Corp., 1255 Phillips Square, Montreal, P. Q., Canada, selling a land investment contract.

The Commission is informed that known securities violators connected with this campaign are employing false and fraudulent representations, including representations that \$1.00 invested for one year will produce \$5.00, that this is a once-in-a-lifetime unprecedented opportunity for unusual profits, and that the economic prospects of the venture are being misrepresented.

There is reason to believe that persons formerly associated with Canam Investments, Ltd., whose registration was recently suspended by the Administrator of the New Brunswick Securities Act because of fraudulent practices, are now associated with the St. Lawrence Industrial Development Corporation and that very similar selling methods are being used. See Securities Act Release Nos. 4247 and 4257.

No registration has been filed under the Securities Act of 1933 covering these investment contracts or profit-sharing agreements.

Persons solicited by mail or telephone by any person representing the above, should immediately communicate with the Securities and Exchange Commission, Washington 25, D. C.

Sealright-Oswego Falls Corp.—Net Down—

The Fulton, N. Y. corporation, increased sales in the first six months of 1960, but net income declined, it was reported on July 25 by H. C. Estabrook, President.

Sales in the half-year were \$28,155,306 as against \$25,292,219 in the six months ended June 30, 1959.

Net income in the latest period was \$819,048, equal to \$1.22 per share on the 670,782 shares of common stock outstanding at the period's end. In the first six months last year, net income was \$1,163,162, or \$1.74 per share on the 667,677 shares then outstanding.

Income prior to tax provision was \$1,760,583 as against \$2,466,862. Mr. Estabrook attributed the decline in earnings to a continuation of the temporary abnormal expenses incurred by Sealright in connection with its major program of expansion of facilities at the Fulton and Kansas City plants together with increased costs of labor, material, and fixed charges without corresponding price increases.

The Sealright President noted, however, that the eventual production economies expected from the improved facilities should offset to a large degree the short-term adverse effects.

Sealright is a manufacturer of a diversified line of paper-plastic containers, cups, milk cartons, and closures for the dairy, ice cream, food, and other industries. Plants are situated in Kansas City, Kans., Los Angeles, Calif., and Peterborough, Ont., Canada in addition to the main plant at Fulton, N. Y.—V. 191, p. 1816.

Servel, Inc.—Registers Common—

Servel, Inc., 19 Rector St., New York (and Evansville, Ind.) filed a registration statement with the SEC on July 27, 1960, covering 239,100 shares of common stock. These shares have been sold or may be sold by Servel upon exercise of options which were heretofore granted or may hereafter be granted to certain selected officers and/or employees of the company, in part pursuant to the company's presently existing stock option plan.—V. 191, p. 2461.

Sheraton Corp. of America—Statement—

Gross income for the fiscal year ended April 30, 1960, showed an increase of more than \$33,400,000 to reach a record \$204,882,030, president Ernest Henderson reported on July 29.

Consolidated earnings from operations, after depreciation and income taxes, amounted to \$2,823,128 or \$.56 a share compared with last year's \$3,349,802 or \$.70 a share.

Capital gains were \$.05 compared with \$.42 per share last year. Earnings from all sources were \$3,093,381 or \$.61 a share this year compared with \$5,350,739 or \$1.12 a share previously.

Provision for depreciation, deducted in determining earnings from operations, for the current year, exceeded \$16,833,000 or \$3.32 per share compared with \$14,144,000 or \$2.97 per share a year ago. All per share comparisons are adjusted for stock dividends to the basis of 5,075,279 shares outstanding April 30, 1960.

"Cash flow," representing net earnings from operations with depreciation reserve added back, was \$19,656,353 compared with \$17,494,160 a year ago.

Mr. Henderson, president of the 55-hotel system added, "During the year ended April 30, 1960, Sheraton reported no substantial taxable capital gains through sales of property, therefore retaining any appreciation in the value of properties (as measured by company yardsticks) for the benefit of shareholders—undiminished by taxes payable where gains are realized."

Sheraton hotels, exclusive of resort hotels subject to seasonal variations, reported an increase of one point in average occupancy to 71.4% from 70.4% for the preceding year. Occupancy figures for the industry as compiled by Harris, Kerr, Forster & Co., showed a decline from 66.7 to 66.2%.

During the past fiscal year Sheraton opened the 300-room Sheraton-Portland Hotel in Portland, Ore., and completed the 120-room Royal Manor on the grounds adjoining the Royal Hawaiian Hotel in Honolulu, Hawaii.

Several other Sheraton hotels underway or planned include the Sheraton-Baltimore Inn (opening in October 1960) at Baltimore, Md.; the Sheraton-Tel Aviv (opening in early spring 1961) in Tel Aviv, Israel; the Sheraton-Lincoln; a luxury hotel opening in Houston, Tex. In 1962, to be followed by an ocean-side hotel at San Juan, Puerto Rico and another luxury hotel in Minneapolis, Minn.—V. 192, p. 446.

Southwestern Bell Telephone Co. — Debentures Offered—Halsey, Stuart & Co. Inc. is manager of an underwriting syndicate which offered on Aug. 3 an issue of \$100,000,000 of the company's 35-year 4% debentures, due Aug. 1, 1995, at 101.307% and accrued interest, to yield 4.55%. The group won award of the debentures at competitive sale on Aug. 3 on a bid of 100.51%. Morgan Stanley & Co. bid 101.1799%, also for a 4% coupon.

PROCEEDS—Net proceeds from the financing will be used by the company to reimburse its treasury for expenditures made for extensions, additions and improvements to its plant, and for the repayment of advances from the parent organization, American Telephone and Telegraph Company, which are expected to approximate \$85,000,000. The balance of the proceeds will be used for general corporate purposes.

REDEMPTION—The 1995 debentures are to be redeemable at optional redemption prices ranging from 106.807% to par, plus accrued interest.

BUSINESS—Southwestern Bell furnishes communication services, mainly local and toll telephone service, in Arkansas, Kansas, Missouri, Oklahoma, Texas and a small portion of Illinois in the vicinity of St. Louis. On March 31, 1960, the company had 6,061,847 telephones in service, of which about 35% were in the metropolitan areas of St. Louis, Houston, Kansas City and Dallas. Other communication services furnished include teletypewriter exchange service and services and facilities for private line teletypewriter use, for the transmission of radio and television programs and for other purposes.

FINANCES—For the three months ended March 31, 1960, the company had total operating revenues of \$190,576,289 and net income of \$32,472,623. At March 31, 1960, capital stock equity of the company was \$1,461,420,101; funded debt was \$275,000,000 and advances from the parent organization, \$60,500,000. At Dec. 31, 1954, capital stock equity was \$871,516,595; funded debt, \$175,000,000, and advances, \$19,000,000.

Sun Chemical Corp.—Net Up—News—

The corporation reported first half sales of \$28,978,913, an increase of 10% above the corresponding period a year ago, and net profits of 41 cents per share, up 11% above 1959's first six months.

Norman E. Alexander, President, said that the increase in net earnings per share reflects the rise in sales and further cost-control improvements.

"Sun anticipates that it will maintain present sales momentum through the third quarter," Mr. Alexander said. "Some further improvement is expected when the general economic activity turns upward and year-end results should be above those of 1959."

Mr. Alexander said that important developments in the second quarter, which will contribute to strengthening Sun's earnings power, included the formal opening of a new printing ink plant in Cincinnati and a modernized printing ink plant in Los Angeles; acquisition of a 26-acre site near Mexico City for construction of a new pigment manufacturing plant; formation of the new jointly owned A. C. Horn Company of Australia; creation of an international operations group to augment penetration of new markets abroad.—V. 192, p. 253.

Technical Measurement Corp.—Proposes Offering—

This corporation of 441 Washington Ave., North Haven, Conn., filed a registration statement with the SEC on July 29, 1960, covering 120,000 shares of common stock, to be offered for public sale at \$5 per share. The offering is to be made on an all or none basis by Pistell, Crow, Inc., which will receive a commission of 50c per share. As additional compensation, the company has granted the underwriter a three-year option to purchase an additional 30,000 shares at \$5 per share.

The company was organized pursuant to Delaware law on June 28, 1960, and in June 30th acquired all the outstanding stock of a Connecticut corporation of the same name from Robert M. Ghen, president, and Donald S. Davidson, Lincoln Henthorn, and Charles F. Hewitt, officers, which officials received all the outstanding 480,000 common and 1,876 preferred shares of the new company in exchange for their holdings of the predecessor's common and preferred shares. The companies, business involves the manufacture and sale of electronic equipment principally multi-channel digital computers. Net proceeds of the sale of the additional stock will be used to repay outstanding bank loans, to purchase about \$75,000 of equipment and fixtures for its engineering laboratory, its printed circuit department and machine shop to expand the company's research and development program at an estimated cost of \$80,000, and to supplement working capital. The bank loans were used to purchase new equipment and fixtures and for working capital purposes. Of the outstanding common stock, Ghen, Davidson and Hewitt own 141,176 shares each and Henthorn 56,472. Hewitt owns directly or indirectly all the 1,076 shares of \$10 par preferred.

Telecolor, Hollywood, Calif.—Files With SEC—

The company on July 25, 1960 filed a letter of notification with the SEC covering 150,000 shares of common capital stock (par 25 cents) to be offered at \$2 per share, of which 100,000 shares are to be offered by officers. The offering will be underwritten by Raymond Moore & Co., Los Angeles, Calif.

The proceeds are to be used to lease equipment and for working capital.

Tempromatic Corp.—Common Stock Offered—Pursuant to a July 18 prospectus, this corporation publicly offered on July 25, 16,000 shares of its common stock (par value \$10) at \$11.50 per share. The offering was underwritten by McCarley & Co., Inc., of 35 Page Ave., Asheville, N. C.

PROCEEDS—The proceeds of the sale of the shares offered, estimated to be approximately \$155,000 after payment of expenses in connection with the offering, will be used as follows, in the order of priority shown:

- \$20,000 for the purchase and installation of additional manufacturing equipment;
- \$50,000 for the purchase of additional inventories to be used in the manufacturing process;
- \$10,000 for the establishment of sales facilities;
- \$10,000 for promotion and product advertising;
- \$25,000 for

\$40,000 to be used to repay loans made to the company by Mr. A. D. Griffith, President.

There will be no return of funds to subscribers if the entire issue is not sold.

BUSINESS—The company, was organized under the laws of the State of Florida on Sept. 11, 1959, for the purpose of manufacturing, selling, and distributing refrigeration and air conditioning equipment and products, principally in the form of heat pumps, production of which started on a limited basis on April 18, 1960.

The principal offices and manufacturing facilities of the company are housed in a newly constructed building located on Highway 92, opposite the Deland, Florida, airport. This property is owned by the "Deland, West Volusia Committee of 100," an organization dedicated to the industrial growth of the area, and leased to the company.

A heat pump provides both summer cooling and winter heating, with automatic controls for both. Being completely electric, the unit produces no soot or smoke; there is no fire hazard or possibility of explosion. The cost of operation is competitive with conventional fuel heating air conditioning.

The heat pump has been the subject of considerable advertising and promotion by a few of the larger manufacturers, and has been and is the subject of intense promotion by a large number of electric utility companies. Some electric utility companies offer special rates on electricity to heat pump users, and in some cases offer a subsidy to partially defray the initial cost of electrical installation. For these reasons the company feels that the present time is an excellent one in which to enter the field of the manufacture of heat pumps.

Texas Eastern Transmission Corp.—Partial Redempt'n

The corporation has called for redemption on Sept. 1, next, through operation of the sinking fund, \$562,000 of its first mortgage pipe line bonds 5% series due Sept. 1, 1977 at 100% plus accrued interest. Payment will be made at the office of Dillon, Read & Co., 48 Wall St., New York 5, N. Y.—V. 191, p. 1923.

Textron Electronics, Inc.—To Acquire—

Spectrolab, Inc., which produced most of the solar energy converters supplying power to United States satellites now orbiting in space, is to become a division of Textron Electronics, Inc., the two companies announced on Aug. 1. The acquisition of Spectrolab will be made in exchange for Textron Electronics common stock.

Alfred E. Mann is President of Spectrolab, which he founded in 1956. The company's operations are located in North Hollywood, Calif. It is engaged in research and manufacturing in the electro-optical field.—V. 191, p. 2565.

Triangle Lumber Corp.—Registers Common—

Triangle Lumber Corp., 45 North Station Plaza, Great Neck, N. Y., on July 28 filed a registration statement with the SEC covering 140,000 shares of common stock, of which 118,000 shares are to be offered for public sale at \$8 per share through an underwriting group headed by Bear, Stearns & Co., which will receive a commission of 80 cents per share. The remaining 22,000 shares are to be offered to officers and employees at \$7.20 per share. The company has agreed to sell the underwriter at 10 cents per share, five-year options to acquire 14,000 common shares at \$8 per share.

The company is engaged in the business of buying, warehousing, milling and distributing lumber, plywood and millwork for use in residential and industrial construction. It now has outstanding, in addition to various indebtedness, 415,000 shares of class B common stock. Net proceeds of the sale of the 140,000 common shares will be added to the general funds of the company to provide additional working capital and may be used, in part, to retire short-term indebtedness.

The prospectus lists Ate Meltzer as President. He owns 68.5% of the outstanding class B common and his wife owns an additional 22.3 per cent.

Underwriters National Assurance Co.—Stock Offered Pursuant to a July 22 prospectus, this company offered 240,000 shares of its common capital stock (par \$2.50) at \$7.50 per share through David L. Johnson & Associates, Inc., 804 E. 38th St., Indianapolis 5, Ind.

BUSINESS—The company is in its organizational state and has no history of earnings and has operated at a loss since its inception. The company competes with others which have substantially greater financial resources and more highly developed marketing facilities. The company will also compete with others which have more diversified lines of insurance than that the company intends to sell. It is contemplated that the company will operate at a loss for a number of years.

There is no market for the shares of the company nor is there a market price and the offering price has been arbitrarily determined.

Since the Underwriter is on a "best efforts" basis and has not agreed to purchase the shares being offered, there is no assurance that any of the shares being offered will be sold and that the company will be able to carry out any of the purposes for which the offering is being made. Provisions have been made for the return to subscribers of only 85% of the amounts received for shares sold to them pursuant to this offering. In event the company does not receive a Certificate of Authority from the State of Indiana so that it can not engage in an insurance business, only 85% of the money subscribers have paid for shares sold them will be returned to them pursuant to this offering.

If all the securities offered are sold, the company will have 257,260 shares issued and outstanding, of which 240,000, or approximately 93%, will be held by the public as a result of this offering, for which 240,000 shares the company will have received net proceeds of \$6,375 per share, and the remaining 17,260 shares, or approximately 7%, will be held by persons who acquired such shares prior to this offering and for which the company received net cash proceeds of \$6.25 per share. In addition, these persons who have previously acquired shares have received options to purchase 51,780 additional shares of stock of the company at a cash price of \$7.50 per share. A minimum of 70,588.2 shares of stock offered must be sold in order to provide the minimum amount of paid-in capital and paid-in surplus required to permit the company to engage in insurance business under the laws of the State of Indiana.—V. 191, p. 2249.

Unexcelled Chemical Corp.—Sells Division—

James M. Crosby, President of Unexcelled announced on Aug. 2 the sale of the company's Jasco Aluminum Products Division of New Hyde Park, Long Island, to the Irving Air Chute Co., Inc. of Lexington, Ky. While the terms of the agreement were not disclosed, Crosby indicated that Unexcelled would receive a substantial profit on the sale. Crosby also indicated that proceeds of the sale would be used for the expansion of the firm's activities in its current projects as well as expansion into new fields.

Jasco is a principal extruder of aluminum storm doors, windows, and conduits. Irving Air Chute is said to be the world's oldest manufacturer of parachutes and aviation safety and survival equipment.—V. 191, p. 649.

Union Bag-Camp Paper Corp.—Net Up—

Earnings and sales of this corporation were higher in the quarter ended June 30, 1960 and in the first six months this year than a year ago, and sales for the first half established a record for any comparable period, the corporation reported on July 21.

Net income for the three months ended June 30 rose to \$5,234,947 from \$5,002,795 reported for the second quarter of 1959. Earnings

per share were 67 cents for the latest quarter, compared with 65 cents in the June 1959 quarter.

Net sales for the second quarter this year increased to \$57,815,853 from \$51,271,273 for the same period of 1959.

For six months ended June 30, 1960 the corporation reported net income of \$10,218,000 equal to \$1.31 a share, compared with \$10,100,035 or \$1.30 a share for the first half a year ago. All per-share figures are based on 7,773,327 shares of capital stock outstanding on June 30, 1960.

The record sales of \$111,165,608 for the six months ended June 30, 1960 were 12% higher than the \$99,552,750 for the same period a year ago.

In May, following stockholder approval, Union-Camp acquired River Raisin Paper Co. of Monroe, Mich., through an exchange of 386,012 shares of Union-Camp capital stock for all outstanding River Raisin shares. The sales and earnings totals for both 1960 and 1959 include operations of River Raisin.—V. 191, p. 2249.

Union Carbide Corp.—Record Sales, Net—

Sales during the first six months of 1960 were the highest for any first half in the corporation's history, according to Morse G. Dial, Chairman and Chief Executive Officer. Sales for the first half amounted to \$771,643,000, compared with sales of \$760,146,000 a year ago. Net income for the first six months amounted to \$81,192,000, or \$2.70 per share, compared with net income of \$80,443,000, or \$3 per share for the comparable period in 1959. Although net income was lower than the all-time record of a year ago, it still represented the second highest first half in the corporation's history.

Sales for the second quarter were \$376,341,000 as compared with \$395,301,000 in this year's first quarter and \$396,498,000 in the second quarter a year ago. Net income amounted to \$39,100,000, or \$1.30 per share, compared with net income of \$42,091,000, or \$1.40 per share in this year's first quarter and \$48,861,000, or \$1.62 per share for the second quarter in 1959. Last year's second quarter was an all-time record reflecting abnormally high steel operations in anticipation of the steel strike. The decrease in sales and earnings for the second quarter of 1960 resulted principally from the lower volume of sales of alloys and electrodes due to low operating rates in the steel industry.—V. 191, p. 2029.

United Sheet Metal Co., Inc.—Common Stock Offered

—R. W. Pressprich & Co. and associates offered on Aug. 4, 170,000 shares of United Sheet Metal Co., Inc. common stock at a price of \$8 per share. The offering marks the first public sale of the company's common stock.

PROCEEDS—Of the total number of shares offered, 85,000 shares are being sold on behalf of the company and a total of 85,000 shares for the accounts of Jack Wolman, chairman and director of the company, and James D. McGill, President and director.

Net proceeds from the sale of the company's stock will initially be added to working capital and used for general corporate purposes. It is contemplated that approximately \$200,000 of the proceeds will be used to acquire equipment for the company's Columbus, Ohio, plant, and about \$200,000 will be applied to the further development of a sales and warehousing system for more economical distribution of the company's products throughout the United States.

BUSINESS—United Sheet Metal Co., Inc., with headquarters in Columbus, Ohio, has two divisions. The contracting division is engaged in the engineering, fabrication and erection of special ovens, dust collecting, heating, ventilation and air conditioning systems and material handling devices for industrial and commercial uses. The other division manufactures spiral lockseam pipe, matched pipe fittings and sound absorbers for heating, ventilating and air conditioning systems.

CAPITALIZATION—Upon completion of the current financing, outstanding capitalization of the company will consist of 170,000 shares of common stock and 241,338 shares of restricted stock.

UNDERWRITERS—The underwriters named below, through their representative, R. W. Pressprich & Co., have severally agreed, subject to the terms and conditions stated in the Underwriting Agreement, to purchase the respective number of shares of common stock set opposite their names below:

	Shares		Shares
R. W. Pressprich & Co.	54,000	Courts & Co.	7,000

Universal Transistor Products Corp.—Reorganization

Reorganization of this Westbury, L. I. firm will be completed at a special meeting of stockholders at 4 p.m. Aug. 15 in the plant at 36 Sylvester St., Westbury. The company has been operating under Chapter X of the Federal Bankruptcy Law since June, 1959.

Universal now is a partly owned affiliate of Telechrome Manufacturing Corp., Amityville, N. Y., which bought into the bankrupt company and has operated it under a management contract since Sept., 1959.

David Z. Birnham, general manager of Universal, pointed out that the company has been in full operation during the entire period of reorganization. "Under the reorganization plan," he said, "all creditors are being paid 100 cents on the dollar and Universal's old stockholders retain an equity position in the company."

The stockholder meeting is for the purpose of electing a board of directors to take over the assets and active management of the company from the trustees, Eugene F. Keogh, appointed by the United States District Court for the Eastern District of New York. Telechrome, which will have the right to vote approximately 72% of Universal's common stock at the meeting, will nominate a seven-man board of directors who will immediately elect officers for the reorganized company.

Stockholders of record July 29, 1960, will be entitled to vote. Universal's outstanding common stock includes 400,000 shares of class A and 300,000 shares of class B, equal in all respects. Telechrome owns approximately 50% of the class A and 30% of the class B, and has a three-year option to purchase the remaining class B at \$3 per share. The B stock is held in a voting trust in behalf of Telechrome, but the voting trust certificates are marketable securities. Both class A stock and the voting trust certificates are traded over the counter.

Universal's principal products are power supplies and radiation detection devices. Under Telechrome management, the entire Universal line has been virtually redesigned and standardized. Universal presently boasts a backlog of \$300,000, according to the general manager, and has set up nationwide sales representation.

Birnham predicts a substantial increase in sales and a profitable year. "We expect increased orders from the regular customers for Universal products, as well as substantial subcontracts from Telechrome and Hammarlund Manufacturing Co., a wholly-owned subsidiary of Telechrome," he said.—V. 191, p. 1609.

Utah Power & Light Co.—Financing and Power Proposals—

This company, of 1407 West North Temple Street, Salt Lake City, filed a registration statement with the SEC covering \$16,000,000 of first mortgage bonds due 1990 and 400,000 shares of \$25 par cumulative preferred stock, series A, to be offered for public sale at competitive bidding. Bids are expected on Sept. 14. The net proceeds from the sale of the securities will be used to pay \$19,000,000 in notes incurred for construction purposes; and the remaining proceeds, together with cash generated in the business, will be used to carry forward the construction program of the company and its subsidiaries. This program will require an aggregate of \$65,000,000 for the years 1960-1962 inclusive, of which \$19,000,000 (\$7,600,000 already expended) will be used in 1960.

In addition, the company has joined with its subsidiary, Telluride Power Co., in the filing of an application with the SEC under the Holding Company Act proposing an inter-company transaction; and the Commission has issued an order giving interested persons until Aug. 19, 1960, to request a hearing thereon.

Utah Power supplies the major portion of the electric power re-

quirements of Telluride, whose load has grown to a level where a new major source of electric power is required. Utah Power, in connection with plans to connect its system to that of a non-affiliate, Arizona Public Service Co., has constructed a new transmission line in the service territory of Telluride. It is willing to grant Telluride a capacity right in the line sufficient for transporting electric power from Nephi to Sigurd, Utah, to relieve Telluride of the necessity of constructing its own line. Accordingly, Utah Power has agreed to grant Telluride the right to the use of 50,000 kw capacity in Utah Power's transmission line for the transmission and receipt of its power from the point of delivery at Nephi to Sigurd. Telluride will pay therefor an amount of money equivalent to the annual fixed charges and operating costs of the line that Telluride would have otherwise been required to build. Such annual charge is estimated at \$110,760.—V. 191, p. 2250.

Vendo Co.—Registers Debentures—

Vendo, of 7400 East 12th Street, Kansas City, Mo., filed a registration statement with the SEC on July 29, 1960, covering \$5,250,000 of convertible subordinated debentures due 1980. The company proposes to offer the debentures to holders of its outstanding common stock on the basis of \$100 principal amount of debentures for each 50 shares held. Kidder, Peabody & Co. is listed as the principal underwriter. The record date, interest rate, subscription price and underwriting terms are to be supplied by amendment.

The company produces and sells coin-operated vending machines, which are used for the sale of drinks, food and cigarettes. In addition, the company sells parts and does manufacturing and development work under contract for others. The net proceeds from the debenture sale will be used to provide additional working capital required to support the company's operations at present levels and at those anticipated for the near future. All or a portion of such proceeds, depending upon the financial position and needs of the company, will be applied to the reduction of short-term bank borrowings (amounting to \$8,500,000 on June 30, 1960), which were incurred to finance construction and equipping of new facilities and rearrangement of existing facilities.

In addition to indebtedness, the company has outstanding 7,930 shares of \$50 par preferred stock and 2,583,326 shares of common stock. E. F. Pierson, board chairman, owns 500,710 shares of common (and holds 132,378 shares in trust for members of the Pierson family); John T. Pierson, president, owns 331,684 common shares (and holds 57,130 shares in trust for members of the Pierson family); and the company's officers and directors as a group own, beneficially, 1,395,742 common shares.—V. 191, p. 1160.

Vitramon, Inc.—Offering and Secondary—

This firm of Bridgeport, Conn., filed a registration statement with the SEC on July 27, 1960, covering 103,512 shares of common stock, of which 25,650 shares are to be offered for public sale by the company and 77,862 shares being outstanding stock, by the present holders thereof. The public offering price and underwriting terms are to be supplied by amendment. G. H. Walker & Co. is listed as the principal underwriter.

The company was formed in 1960, is the successor by merger to Vitramon, Inc., and is engaged in the manufacture and sale of solid state porcelain dielectric capacitors and microminiature ceramic dielectric capacitors. It now has outstanding 600,438 shares of common stock in addition to 21,010 shares of \$1 par preferred stock and \$118,750 of long-term mortgage notes. Net proceeds to the company from its sale of the additional 25,650 shares will be used as follows: \$25,000 to redeem the outstanding preferred, \$112,500 to prepay the balance of the mortgage notes, and the balance for working capital. Proceeds of the notes were used to purchase new equipment and machinery and for research and development.

Of the outstanding stock, Barton L. Weller owns 313,272 shares, or 52.17%. Management officials as a group own 62.65% of the outstanding common and 27.57% of the preferred. The prospectus lists seven selling stockholders, whose holding aggregate 155,040 shares and one of whom is a director. Holder of the largest block among the selling stockholders is P. William Lee, who owns 62,814 shares and proposes to sell 28,500 shares. The other blocks being sold range in size from 1,710 to 27,702 shares, the latter being part of 50,502 shares held by an estate.

Wachusett Gas Co.—Stock Sale Approved—

The SEC has issued an order under the Holding Company Act authorizing New England Electric System, Boston holding company, to acquire an additional 3,000 shares of the capital stock of Wachusett Gas Co., a subsidiary, for \$300,000. The subsidiary will apply the funds to the payment of a like amount of bank notes incurred for property additions and improvements.—V. 192, p. 157.

Wallace Press, Inc.—Secondary Filed—

Wallace Press, Inc. of Chicago, Ill. has filed a registration statement with the Securities and Exchange Commission for a secondary offering of 184,435 common shares of the company presently held by one individual shareholder and two private trusts. This will be the first public offering of the company's stock and will be made by an underwriting group headed by Shearson, Hammill & Co. and Wm. H. Tegtmeyer & Co.

Wallace Press, Inc. has been engaged in the commercial printing business since 1908, and formerly was known as The Wallace Press. The company produces a variety of business forms at its two plants in Chicago and Clinton, Ill. Products include continuous forms used with business machines and high speed data processing equipment, carbon interleaved units sets, telegraph blanks and non-continuous forms. The firm's other major product line consists of catalogs and technical manuals.

Wells Industries Corp.—Securities Offered—Pursuant to a July 22 prospectus, this company publicly offered 300,000 shares of common stock (par value 50¢) at \$2.50 per share. Each such share carries one warrant entitling the holder to purchase one-third of a common share (exercisable for full shares only) at \$3 per share from Nov. 15, 1960, until Nov. 15, 1961, and at \$4 per share thereafter until Nov. 15, 1962. The warrant may not be detached from the common share until Nov. 15, 1960. The offering was underwritten by a group headed by Thomas Jay, Winston & Co., Inc., 9235 Wilshire Blvd., Beverly Hills, Calif.

RIGHTS OFFERING—The company is offering to the holders of its common stock the right to subscribe for additional shares of common stock with purchase warrants attached at the rate of one share for each two shares held of record at the close of business on June 20, 1960. The shareholders will have the privilege of subscribing for additional shares, subject to allotment out of the shares of such common stock, if any, not subscribed for through the exercise of such rights. The subscription offer will expire at 5:00 p.m. Pacific Daylight Saving Time, on Aug. 5, 1960.

PROCEEDS—The company intends to use the net proceeds to be received from the sale of the common stock with purchase warrants attached for the following purposes:

- (1) Approximately \$100,000 to retire bank loans with Bank of America National Trust & Savings Association.
- (2) Approximately \$50,000 for construction and extension of present facilities on the company owned land in order to house laboratory facilities for electronic and dehydration operations.
- (3) Approximately \$25,000 for laboratory and test equipment.
- (4) Approximately \$100,000 for the purchase of machine tools, metal working and production equipment.
- (5) Approximately \$150,000 for engineering and development costs.
- (6) Approximately \$10,000 for the purchase of all the outstanding stock of M-C Instrument Corp.
- (7) The balance of approximately \$165,000 of the proceeds has not been allocated for any particular purpose and will be added to the working capital along with the proceeds received upon exercise of the warrants. However, there is no assurance that any additional monies will be received inasmuch as there may be no exercise of the warrants.

BUSINESS—The company is engaged, primarily in the manufacture

of four separate categories of products of which a major portion is for the U. S. Defense Department.

(1) Medium size Ground Handling & Ground Support Equipment for aircraft and missiles. Products currently being produced are: tow bars for ground movement of commercial and military aircraft, aircraft and missile component dollies, servicing carts for hydraulic and pneumatic systems, aircraft and missile sub-assembly lifting slings.

(2) Dehydration Components & Systems, Electronic Components & Systems including a varied line of potentiometers, photo electric controls and dry air supply units both airborne and support equipment type. The products in this category are proprietary items and consist of the following types: Precision rotary potentiometers, trimming potentiometers, linear potentiometers, photo electric controls and systems, airborne dehydrators, dry air and gases components, cartridges and systems.

(3) Recreational Products manufactured by the company include such items as swimming pool diving boards, diving towers, pool ladders, filter tanks and filter systems. In addition, the company produces picnic tables, basketball backstops, bicycle racks and baseball backstops. The principal customers for the company's recreational equipment are swimming pool contractors, the City and County of Los Angeles, State of California and the Los Angeles Board of Education.

(4) Fabricated Structural & Miscellaneous Steel Products for commercial buildings and military installations. These products consist in part of such items as pipe and structural columns, gratings, handrails, blast and radiation doors, embedded steel products and other miscellaneous iron work. The principal customers for these products are general building contractors.

Weyerhaeuser Co.—Net Off—Acquires—

Sales and net income in the first six months of this year were down from the corresponding period of 1959, president Norton Clapp announced on July 29.

Sales totaled \$220,298,000.

Net income, \$28,108,000, equal to 94 cents a share, was down 8.4% from the corresponding 1959 period, when income was \$30,683,000, or \$1.01 per share.

In a report to Weyerhaeuser shareholders, Clapp said a lag in home building reduced demand for lumber, plywood and other construction products.

"Competitive pressures affecting nearly all of our products have prevented price adjustments sufficient to compensate for the cost increases which have occurred," he said.

Shareholders of Roddis Plywood Corporation voted at Marshfield, Wis., on July 28 to transfer assets of the 70-year-old firm to Weyerhaeuser.

Roddis is a producer of plywood, lumber, veneers, glues, flakeboard, doors and hardwood specialties. Manufacturing facilities, timber and cutting rights are located in Vermont, Wisconsin, California, Canada and Costa Rica.—V. 191, p. 2140.

Wheeler Fire Glass Boat Corp.—Transfer Agent—

The Chase Manhattan Bank has been appointed transfer agent of the common stock, 10c par value, of the corporation.—V. 192, p. 349.

Witco Chemical Co., Inc.—Acquires—

Witco has acquired 100% interest in privately owned Sonneborn Chemical & Refining Corp. and its subsidiaries in exchange for 300,000 shares of Witco stock, according to a joint announcement on Aug. 2 by Robert I. Wishnick, Witco board chairman, and Rudolf G. Sonneborn, President of Sonneborn.

Also reported in the announcement was the election to Witco's board of directors of three Sonneborn officials—namely, Mr. R. G. Sonneborn; Mr. Gustave Schindler, Vice-President; and Dr. Henry Sonneborn III, Vice-President and Secretary. In addition, Mr. Schindler and Dr. Sonneborn have joined Witco's executive committee.

Reflecting the issue of the 300,000 new shares for the transaction, Witco's outstanding stock at the close of the day of transfer, July 29, totaled 1,510,252 shares.

Chairman Wishnick described the move as "a significant step in the further diversification of Witco's operations."

Founded in 1903, the Sonneborn corporation had sales of \$37,478,000 for the fiscal year ended Jan. 31, 1960, with earnings after taxes of \$858,000. Among the products it manufactures and markets are white oils, solvents, lubricating oils, petroleum sulfonates, petrolatums, building-product specialties, micro-crystalline waxes and other petroleum specialties. Its line of Pennsylvania motor oils and lubricants is distributed under the trade name "Amalie." Refining facilities are located at Petrolia and Franklin, Pa., and a chemical specialty plant at Belleville, N. J.

Sonneborn's place in the Witco corporate structure is that of an

independently operated, wholly owned subsidiary. Its staff will continue without change.

Witco's net sales and other income for the first-half of 1960 came to \$30,766,300 with earnings of \$1,219,500. Its products, aside from the newly acquired Sonneborn line, include detergents and detergent chemicals, metallic soaps, paint chemicals, resins for urethane foam, asphalt, emulsifiers, tar chemicals, phthalic anhydride and carbon blacks.—V. 191, p. 2794.

Zero Manufacturing Co.—To Acquire—

This Burbank, Calif. firm has entered into an agreement to purchase Pli-O-Seal Manufacturing, Inc., Pasadena, Calif., it was announced on Aug. 3 by Zero President John B. Gilbert. The effective date is Sept. 1, 1960.

Pli-O-Seal specializes in manufacturing precision miniaturized plastic parts for the electronic industry.

The purchase was made for cash, the amount of which was not disclosed. Pli-O-Seal's sales are running at a current annual rate in excess of \$250,000. Mr. Gilbert stated that C. Wallace, President of Pli-O-Seal, and all other management personnel will continue in their present positions.

Pli-O-Seal will move to newly constructed facilities of approximately 6,000 square feet connected to Zero's manufacturing facilities in Burbank in September. The new facility will incorporate special dust and moisture control rooms, and in addition, new and advanced machinery will be added to the existing equipment of Pli-O-Seal.—V. 191, p. 2353.

VIRGINIA

Chesapeake Bay Bridge and Tunnel District (P. O. Norfolk), Va.

\$200 Million Bonds Marketed—The year's largest public offering of tax-exempt securities was made Aug. 2 with the sale of \$200,000,000 bonds, due July 1, 2000, by a group headed by The First Boston Corp.; Allen & Co.; Merrill Lynch, Pierce, Fenner & Smith Inc.; and Willis, Kenny & Ayres, Inc. The group purchased the bonds at a price of 96.65, a net interest cost of about 5.617%.

The offering consisted of \$70,000,000 of 4½% Series A First Pledge Revenue Bonds, \$30,000,000 of 5½% Series B Second Pledge Revenue Bonds, and \$100,000,000 of 5¾% Series C Third Pledge Revenue Bonds. The Series A Bonds have priority over the Series B Bonds, and the Series B Bonds over the Series C Bonds, with respect to the payment of interest and the retirement of the bonds, to the extent set forth in the Trust Indenture. The bonds will be payable solely from the tolls and other revenues to be received from the project and from the ferry service operated by the District until the project is opened for traffic.

The three series of bonds were marketed at 100% plus accrued interest.

The bonds are being issued to provide funds to finance construction of a bridge-tunnel vehicular crossing of lower Chesapeake Bay from the vicinity of Norfolk, Virginia, to the southern tip of the Eastern Shore of Virginia on the Delmarva Peninsula

and to retire all of the District's \$18,712,000 outstanding bonds.

The project will include a 17½ mile bridge-tunnel shore-to-shore crossing and about five miles of approach roads. The crossing will consist principally of a low level trestle, two tunnels, two bridges and an earthfill causeway. The construction period is estimated at three years. The project will replace the ferry service now operated by the District between Kiptopeke Beach on the Delmarva Peninsula and Little Creek near Norfolk.

The new facility will constitute a link in the Ocean Highway on one of the principal routes between New England and Mid-Atlantic States and the southeastern section of the United States. It will reduce average running time via the Ocean Highway by about 90 minutes and passenger vehicles traveling between Norfolk and New York City would have a distance advantage of more than 70 miles and a time saving of approximately 75 minutes through the use of the project as compared with the alternate inland routes. The project will facilitate overnight delivery from the Norfolk metropolitan area to the major markets of the New York metropolitan area.

The bonds dated July 1, 1960, may be redeemed in whole on any date not earlier than July 1, 1973, from any moneys available for the purpose, at 104% to July 1, 1978, and at gradually declining prices thereafter, or in part by lot through operation of the sinking fund, in the case of the Series A and Series B bonds on any interest payment date not earlier than July 1, 1970, at 100% and in the case of the Series C bonds on any interest date not earlier than July 1, 1963, at 110% to July 1, 1973, 108% thereafter to July 1, 1974, 106% thereafter to July 1, 1975 and 104% thereafter, plus accrued interest in each case to the date fixed for redemption. Legality approved by Mitchell, Pershing, Shetterly & Mitchell, of New York City.

In addition to the managers, the underwriting group includes: Kuhn, Loeb & Co.; White, Weld & Co.; A. C. Allyn & Co., Inc.; Bache & Co.; Bear, Stearns & Co.; J. C. Bradford & Co.; Ira Haupt & Co.; Hornblower & Weeks; Ladenburg, Thalmann & Co.; Carl M. Loeb, Rhoades & Co.; F. S. Moseley & Co.
