Corporate and Municipal Financing Ahead

By SIDNEY BROWN

This week's estimated corporate financing (\$246 million) forges ahead of last week's principally due to the General Motors Acceptance Corporation's \$150 million debenture issue slated for Aug. 17th under the guidance of Morgan Stanley & Co. The following two weeks similarly receive a boost from a single debt issue in each of those two weeks. Thus, the week of Aug. 22-26 has scheduled approximately \$119 million but about half of that comprises the \$60 million Southern California Edison Co. bonds for bidding on Aug. 23rd. Set for the week of Aug. 29-Sept. 3 is the \$125 million Republic Steel Corp. debentures, introduced by First Boston Corp. and Merrill Lynch, Pierce, Fenner and Smith, Inc., scheduled for Aug. 30th, out of a total for that week of \$141.7 million. These three issues add up to \$335 million whereas the week float is \$531.6. The choice would indeed be slim were it not for these larger issues.

Sharing the doldrums with the lean corporate calendar is the bleaker picture of oncoming municipals. They show no increase to speak of compared to that estimated last week for the Aug. 8-Sept. 2 period.

The prospective demand for capital arising from corporate and municipal issues with announced offering dates is summarized as follows. (Data in parentheses are last week's projections).

	28-Day Visible Supply	Total From Aug. 15 On
Corporates	\$531,604,070 (\$606,926,000)	\$1,200,000,000 (\$1,413,876,000)
Municipals	173,772,000 (174,747,000)	381,077,000 (372,552,000)
Total	\$705,376,070 (\$781,673,000)	\$1,581,077,000 (\$1,786,428,000)

CHANGES IN THE PAST WEEK

Additions to the *Chronicle's* calendar of public offerings with scheduled dates came to the small total of \$28,378,150 in the past week. Of this amount stocks amounted to \$17,828,000 not including the Rocky Mountain Natural Gas Co., Inc., 35,000 shares of stock expected on Sept. 20th with a \$2,350,000 debenture issue. Corporate sales in the Aug. 4-Aug. 10 period totaled \$176,738,000 comprising \$38,608 in equities, \$71,330,000 in public bond offerings and \$66,800,000 in privately placed bonds. These figures do not include the following stock activity: Eli Lilly & Co., 48,000 shares, Pan American Co., 100,000 shares, and Hertz Corp., 40,000 shares.

Tax-exempts added to the *Chronicle's* calendar came to \$57 million for issues of \$1 million and larger. Sales in the past week approximated \$70 million. Note that in both corporate and municipal changes for the week that sales greatly exceeded additions to the calendars and are responsible for the decline in both flotations.

PENDING ISSUES

Lying in the background without assigned dates are \$265,150,000 corporates filed with the SEC. These, together with scheduled corporate offerings, present a gross corporate financing picture of close to \$1.5 billion that can be expected between now and the end of the year.

In addition to these rather firm indications of corporate offerings there are approximately \$775 million in other possible issues which have not been filed as yet with either the SEC or the ICC. The August-December, 1959, total financing of new issues came to about \$4.2 billion. So far, these seven months in 1960 have not shown the improvement in "going to the market" anticipated last year for this year. It looks as though 1960 will not significantly go ahead of last year's financing activity.

In municipals, the August calendar of issues with affixed dates is expected to be reinforced by about \$113,500,000; in September by about \$150 million, and tax-exempts without even a monthly calendar date hint add up to \$706.7 million. There are, in addition, groomed for 1961 about \$32 million. The \$1.3 billion of State-local issues, with and without dates, anticipated for the next five months provides a clue as to what the trend is for the remainder of the year. Last year's last five months

came to about \$2 billion in tax-exempt financing. Until now 1960's municipal financing has been unable to exceed the record high pace of last year. It looks as though the favorable yield turn of events for issuers now ought to prompt much of the authorized but unissued securities to come out into the market. The quiet August days show no overt sign of any recognition of the change. Much may be going on in the background. If one may speak for the economy, but not for the disciples of counter-cyclical governmental spending, this should be the time to finance public projects. Certainly the economy and its labor force would be grateful for such a stimulus. Until now it has been the Federal Government to make the only significant announcement along these public sector lines; i. e., the doubling proposed for highway spending and the effort to increase government spending and ease the barriers to obtaining mortgages.

PRE-DETERMINING EQUITY PRICES

Equity offerings without announced prices present to some a formidable problem in gauging what such issues may command from the market. When final amendments are filed with the SEC then the offering prices are given and there's no problem except the fact that if one waits for that, then there is no indication of what the total financing picture looks like ahead of time. But, is it so formidable to estimate conservatively the market value of equities before they are released? Particularly in a four-week period ahead? The following table includes just such estimates and three years of back checking show that the only problem has not been in overestimating market value but in taking an offering date at face value. The following information for the 28-day visible supply, including estimates of common stock market value, are obtained from helpful private and public sources and are, of course, sifted as carefully as possible.

Babcock & Wilcox Co.—Earnings—

The company attained net earnings of \$9,236,599 for the six months ended June 30, second highest in its history for a corresponding period, according to a report distributed to stockholders on July 23. This figure was exceeded only by first half income of \$10,185,921 for last year, which included business done in anticipation of the steel strike. Mr. Nielsen, President, stated in the report, "The 1960 first half net amounted to \$1.49 per share against \$1.65 for the like period of 1959, based on 6,183,313 shares outstanding.

Sales for the first half were \$154,983,846, compared with \$174,301,822 for the corresponding period of 1959. Orders received through June 30 totaled \$142,291,000. Since they were slightly less than shipments during this period, backlog at June 30 was \$288,250,000, compared with \$300,948,000 at the beginning of the year. Mr. Nielsen reported that a substantial part of the new orders represents large utility steam generating units not scheduled for shipment until 1961 or later.—V. 192, p. 111.

He stated that this action was taken in view of plans for future acquisitions.—V. 190, p. 2039.

Blackstone Valley Gas & Electric Co. — Property Transfer Approved—

In a decision announced on Aug. 10, the SEC approved the transfer of the gas properties of this Pawtucket, R. I., subsidiary of Eastern Utilities Associates, Boston holding company, to another EUA subsidiary, Valley Gas Co., in exchange for securities of the latter company, as the first in a two-step plan for ultimate divestment of the gas properties from the EUA system.

Upon request of the companies, the Commission shortly will apply to the United States District Court in Providence for approval and enforcement of this transaction, which is Step 1 of a plan for compliance by EUA with a 1959 order of the Commission directing severance of its relationship with the gas properties owned by Blackstone. Upon consummation of Step 1, Blackstone will seek Commission approval of Step 2, which contemplates the sale of Valley Gas stock to public common stockholders of Blackstone and the shareholders of EUA.

EUA now owns 99.19% of the outstanding shares of Blackstone common (along with over 97% of the outstanding common stock of Brockton Edison Co. and of Fall River Electric Light Co.). Blackstone now conducts a combined electric and gas operation in and around the cities of Pawtucket, Woonsocket and Central Falls, Rhode Island. At Dec. 31, 1959, it had 47,650 gas customers (as contrasted with 68,102 electric customers); and at April 30, 1960, it's net gas property, plant and equipment, stated at cost, amounted to \$7,940,000 of which \$7,363,000 is applicable to the mortgaged properties. For the 12 months ended April 30, 1960, Blackstone's gas revenues amounted to about \$4,966,000 (as contrasted with \$13,010,000 of electric operating revenues). Gross income (before Federal income taxes) applicable to the gas department was about \$553,000.

Valley Gas was organized in 1956 by a special Act of the Rhode Island Legislature for the purpose of acquiring and operating the gas properties of Blackstone, which owns its three outstanding common shares. Blackstone will deposit with the trustee under its mortgage indenture cash in an amount equivalent to the net book value of the gas properties subject to the lien of the mortgage indenture (amounting to \$7,363,000 as of April 30, 1960), plus \$61,000 representing the redemption premium and one month's duplicate interest on the Blackstone bonds required to be redeemed or otherwise retired, thus obtaining release of the properties from the lien of the indenture. These and the unmortgaged gas properties and other assets, including cash, will be transferred to Valley Gas, in exchange for which Valley Gas will issue to Blackstone \$4,500,000 principal amount of first mortgage bonds due 1985, \$1,500,000 of 15-year promissory notes, and \$3,999,970 par value (399,997 shares, \$10 par) of common stock.

Blackstone will make a private sale of the \$6,000,000 of Valley Gas bonds and notes and deposit the proceeds thereof, together with bank borrowings, with the indenture trustee to effect release of the properties from the lien of the mortgage. The funds so deposited will be used, to the extent necessary, to retire outstanding Blackstone bonds in a principal amount equal to the cash so deposited, including \$3,750,000 of bonds held by EUA.

The Commission ruled that Step 1 of the plan is a necessary step in effectuating compliance with the integration and simplification requirements of the Holding Company Act and the Commission's divestment order of 1950, and that it was fair and equitable to all security holders affected. Transfer of the properties to Valley Gas and the issuance of securities in exchange therefor have previously been approved by the Public Utility Administrator of the State of Rhode Island.—V. 192, p. 3 and V. 189, p. 1923.

Blaw-Knox Co.—Net Down—

The Pittsburgh, Pa., company in its pamphlet statement to stockholders reports sales of \$88,806,000 and net income of \$2,716,000 for the first six months of 1960. These first half-year results compare with sales of \$92 million and earnings of \$4,506,000 for the record six months in 1959.

W. Cordes Snyder, Jr., chairman and president, attributed lower results for the first half-year to a lesser volume of shipments of mill machinery than a year earlier, and to excessive costs encountered in connection with government contracts for construction of missile launching sites. These excess costs, he said, had the effect of lowering earnings for the period in the amount of \$900,000 after taxes.

The report to stockholders states that interest among steel producers for new rolling mills and steel finishing equipment continues active, resulting in an increase in the company's backlog of about 6% since last year-end.—V. 191, p. 898.

Boise Cascade Corp.—Sales Up, Net Down—

An increase of 9% in sales and a 10% decline in net earnings for the six months ended June 30, 1960 were reported on July 29 by R. V. Hansberger, President.

Consolidated net sales totaled \$63,066,701 in the first half of 1960 compared with \$57,911,212 for the 1959 first six months. Net income in the latest period equalled \$2,236,998, equal to 60 cents per share. This compares with net income of \$2,492,558, or 67 cents per share for the six months ended June 30, 1959. Per share figures in both periods have been calculated on the basis of \$3,702,694 common shares in the hands of stockholders on June 30, 1960.

Boise Cascade owns extensive timberlands in the northwest, operates a wholesale and retail lumber business, a pulp and paper mill, and manufactures paper bags and containers, as well as textile and concrete products.

The company's facilities are primarily located in Idaho, Washington, Oregon, Utah, Wyoming and Colorado. It also has plants in Nevada and California.

Provision for Federal and state income taxes in the latest six months amounted to \$850,030 as against \$1,633,772 for the six months ended June 30, 1959.—V. 183, p. 2454.

Broad Street Investing has entered into an agreement to purchase substantially all of its cash and securities, having a value about \$2,981,418 as of June

The company reports a net income of \$642,543, or 76 cents per common share, for the first six months of 1960. These results compare with \$538,576, or 68 cents a share, earned in the 1959 period.

Six months' revenues totaled \$6,351,734 in 1960, up from \$5,716,386 in 1959. The 1960 total was composed of \$5,765,826 in utility revenues and \$585,908 from non-utility sources, principally sales of tank gas and appliances. In the 1959 period, utility revenues amounted to \$5,155,543 and non-utility receipts were \$560,843.

Castleton's, Inc.—Common Stock Offered—Pursuant to an Aug. 4 offering circular, Potter Investment Co. and Whitney & Co., both of Salt Lake City, Utah, publicly offered 194,000 shares of this firm's no par value common stock at \$1.25 per share.

APPOINTMENT—Transfer Agent: Continental Bank & Trust Co., Salt Lake City, Utah.

BUSINESS—Castleton's, Inc., or its officers, have operated women's specialty shops in Cedar City, Utah, for 18 years and in Provo, Utah, for 11 years and a large specialty store in Salt Lake City for 3½ years. The Cedar City store was sold in 1955, and the Provo store is still operated as a branch of the Salt Lake store.

In establishing what was Salt Lake's first fine suburban fashion store in 1957 in the Foothill Village Shopping Center, the issuer entered for the first time men's and children's clothing and shoes in addition to women's wear. The officers and management had had previous experience in these fields, however.

The Foothill Village store has recently added 3,000 square feet of space to its original 8,300 square feet to satisfy increasing demand and volume. Net sales for the last three years were as follows:

Year	Net Sales
1957	\$502,000.00
1958	605,000.00
1959	830,000.00

In each of the stores the officers of the issuers have operated, which includes stores in Cedar City, Provo and Salt Lake City, sales have exceeded \$100.00 per square foot of selling space as compared with a national average of \$50.00 to \$70.00. In this type of specialty store operation, there is no assurance that the proposed new store will achieve the same results.

PROCEEDS—It is for the establishment of a branch store in the new Olympus Hills Shopping Center in Salt Lake that this stock issue is being made. The issuer has procured a 20-year lease from Skaggs Properties for the creation of a retail store and other facilities at a shopping center to be constructed at 39th South and Wasatch Boulevard, Salt Lake County, Utah. The developers have already commenced construction of the buildings and it is contemplated they will be completed in the fall of 1960. The lease provides for approximately 19,500 square feet of floor space, of which 13,000 feet will be used for the retail store and approximately 6,500 feet will be used for general offices and central receiving and warehousing for the combined operations of the issuer.

CAPITAL STRUCTURE—The issuing company is a consolidation of merger of two prior companies owned and operated primarily by W. L. Castleton. The company is engaged in the processing, distribution, warehousing and sale of steel and aluminum, coil, sheet and strip for the industrial trade. Its principal office is located at 3327 Elkton Ave., Dayton 3, Ohio. The company's principal source of revenue is derived from processing customer owned steel shipped from the mills to the company on the customer's orders. The company stores the customer's material and processes the material to the customer's daily production requirements, thereby eliminating the necessity for storage of day-to-day preliminary processing of material from wide coils to specific blank sizes needed by the customer.

The company also maintains its own inventory of steel coils for the general market as well as being distributor of aluminum coils for Fairmont Aluminum Co., a subsidiary of Cerro De Pasco.

PROCEEDS—The net proceeds from this sale of securities are estimated at \$250,750 before deduction of expenses in connection with the offering. The company intends to apply such proceeds to an expansion program with the following priorities: (a) purchase of new machinery and equipment, to expand the volume of steel and aluminum processing business at the company's plant location in the Dayton area, (b) acquisition of further production facilities in another location, similar in character to the present facilities of the company, (c) financing larger company-owned inventory for the expansion of sales from inventory, and (d) the balance will be retained as working capital. The company is unable to state the amount of such proceeds to be used for each of the items set forth in the preceding sentence.

General Controls Co.—Sales Up—Net Down—

This Glendale, Calif., company reported on Aug. 8 that in the first half of 1960 it achieved record sales. For the six months ended June 30, 1960, sales totaled \$20,755,669 compared with \$19,522,403 for the like period of last year.

President W. A. Ray stated that all divisions of the company contributed to the increase in sales with the exception of the Heating Controls division which remained suppressed by the low level of housing construction. A lower than anticipated level of sales, however, coupled with continued inventory adjustments in the construction

industries adversely affected earnings in the quarter past despite a pruning back of production schedules and an intensive tightening of cost controls.

Mr. Ray pointed out that an upturn in sales with improved earnings began in the latter part of June, a trend which is continuing as of this date. Accordingly, he said, an encouraging outlook is indicated for the balance of the year.

Net income after all charges amounted to \$666,263 equal after preferred dividends to 60 cents a share on the 957,208 shares of common stock outstanding at June 30, 1960. Net income for the first half of the previous year was \$903,598 equal after preferred dividend requirements to 85 cents a share on the 954,798 shares then outstanding after adjusting for the 10% stock dividend paid March 31, 1960.—V. 191, p. 1985.

Sales reached a new high record in the first six months of this year but earnings were lower than a year ago. E. J. Thomas, Chairman of the Board, announced after a meeting of the Board of Directors on Aug. 2.

Consolidated net sales for the half-year rose to \$815,808,995, an increase of \$3,058,485 over the previous record of \$812,750,506 set in the first half of last year.

Net income for the first six months amounted to \$37,694,223, a decrease of 7.2%, compared to \$40,646,386 earned in the record-breaking first half of 1959. Net income for the first six months this year was equal to \$1.13 per share of common stock compared to \$1.22 in the 1959 period, based on 33,192,228 shares now outstanding.

Profits of foreign subsidiaries included in the consolidated net income amounted to \$11,194,264 as compared with \$9,759,723 a year ago.

Goodyear's working capital at mid-year increased to \$520,428,947 compared with \$502,651,305 a year ago. The ratio of current assets to current liabilities was 4.5 to 1 compared with 4.7 to 1 a year ago.

Mr. Thomas said that the lower earnings in the first six months resulted from the increased cost of natural rubber, higher wages and improved fringe benefits, which have not been fully reflected in prices.—V. 191, p. 1111.

Hamilton Manufacturing Co.—Net Down—

Earnings for the six months ended July 2, 1960 amounted to 72 cents per share compared to 82 cents per share for the six months ended June 27, 1959. President E. F. Hamilton reported that shipments. Net sales for the period of \$13,689,243 were 4% lower than total in 1959 of \$14,300,043 and earnings of \$793,629 were 22% below the 1959 figure of \$1,021,406.

A 14% increase in the order backlog at July 2 from the previous record high three months ago was achieved even though 1960 shipments exceeded those of 1959 during the second quarter. It was stated. This was attributed to strength in non-appliance orders especially in the field of school equipment. Enlargement of sales and engineering departments to handle the increased orders was said to have had some effect on earnings during the company's traditionally slack first half-year.

Since the first of the year, Hamilton has started and completed the final expansion of its administration building, increasing office space by about 25%. A new warehouse building has been started which will have 43,000 square feet of floor space.

Dividends paid during the first six months of 1960 including a 10 cent extra, totalled 69 cents per share which was the same amount declared during the same 1959 period.—V. 191, p. 1322.

National Research Associates, Inc.—Common Stock Offered—

Pursuant to a July 27 offering circular, this firm publicly offered 200,000 shares of its no par value common stock at \$1.50 per share, without underwriting.

National Research Associates, Inc., a Maryland Corporation was organized under the laws of the State of Maryland on March 13, 1958. The company was organized by William H. Alper and Melville W. Beardsley in order to exploit inventions and patents of Melville W. Beardsley for new transportation devices, vehicles and methods with particular emphasis on air-cushion vehicles.

As a result of its work on air-cushion vehicles the company was able to generate interest in the Military Services and was subsequently awarded a Government contract in this field. Since, at that time the concept was so new that its operating principles had not yet been generally accepted, this Government contract was established to determine the feasibility of full-scale vehicles of this type.

Employing the "know-how" gained in its research and construction of man-carrying machines for the U. S. Army and U. S. Marine Corps, the company now intends to develop for the commercial market some new air-cushion vehicles.

The company, located in Laurel, Md., has no patents in the field of air-cushion vehicles, but through Melville W. Beardsley its co-founder, and other employees, has applied for patents to cover various operational features of air cushion vehicles, but the U. S. Patent Office has not acted finally on the applications and there is no assurance that any patents will be granted. The company relies primarily on its experience and skill in manufacturing, design and engineering of air cushion vehicles rather than on patent protection for the development of its business.

Olin Mathieson Ship Financing Corp.—Seeks Exemption

Olin Mathieson Ship Financing Corp. ("Financing"), New York City, has applied to the SEC for exemption from the Investment Company Act; and the Commission has issued an order giving interested persons until Aug. 19, 1960, to request a hearing thereon. Financing is a wholly-owned subsidiary of Olin Mathieson Shipping Corp. ("Shipping"), a Liberian corporation all of whose stock is owned by a Panamanian company, a wholly-owned subsidiary of Olin Mathieson Chemical Corp. ("Olin Mathieson"). The latter, which is engaged in manufacturing a wide range of products, has entered into an aluminum program whereby it will become an integrated producer and fabricator of aluminum and aluminum products. As part of this program, Olin Mathieson has participated in the formation of a Guinea corporation called Fria, *campagne internationale pour la production de l'Alumine ("Fria")* for the purpose of mining extensive bauxite deposits in Guinea. The bauxite will be refined into alumina for shipment to the founding shareholders of Fria, a group consisting of Olin Mathieson and French, Swiss and British aluminum companies.

It is stated that, in order to carry its share of the Fria alumina, Olin Mathieson has caused Shipping to enter into a construction contract with an Italian yard for the construction of a combination vessel. Shipping will borrow the funds to pay for the construction of the vessel from Financing, and will issue a demand note therefor. Financing will obtain the funds to be loaned to Shipping by the issuance of bonds to the Prudential Insurance Co. of America in an aggregate principal amount not exceeding \$9,500,000. The note issued by Shipping will be pledged by Financing with Bankers Trust Co. as Trustee under an Indenture with Financing. As additional security, all the issued and outstanding capital stock of Financing will be pledged by Shipping with the Trustee. The application also states that Financing will serve only as a debt financing vehicle to facilitate the financing of Shipping's vessel. Financing will not trade in the Shipping notes and will not own or hold the securities of any other company. It will be organized in such a way that it receives only enough money to pay its operating expenses. It will not operate at a profit and will pay no dividends. Financing's sole asset, the Shipping note, will be pledged with the trustee and will be discharged by direct payments by Shipping to the trustee with such payments simultaneously discharging Financing's obligations under its notes. Financing will not deal with the Shipping note after the initial act of pledging them with the trustee. None of the outstanding securities of Financing will be held by the public.

BUSINESS—The company since its inception has been engaged in the sale and distribution of portable electric chord organs with simplified playing systems (numbers and letters) which, with the use of instruction books sold by the company, can be played without music lessons or knowledge of music. At the present time there are nine models, five portable models and four console models ranging in price from \$79.95 to \$389.95 at retail. These organs are distributed under the tradenames "Concert" and "Orcoa Concert". Such organs are purchased by the company exclusively from the New York importer, Excelsior Accordions, Inc., under the above mentioned agency and distributorship agreement which includes any new models which shall be developed, produced, manufactured or imported by Excelsior Accordions, Inc. The company has secured the trademark, "Orcoa".

Outboard Marine Corp. (& Subs.)—Earnings—

Consolidated net sales for the three month period ending June 30, 1960, amounted to \$62,449,429 and earnings for the same period were \$7,317,225 or 93 cents per share.

The announcement was made by William C. Scott, President, and coincided with a report to stockholders covering the third quarter of the corporation's fiscal year.

During the same quarter last year, net sales amounted to \$62,697,579 and earnings were \$7,457,077 or 95 cents per share. For the nine months ended June 30, 1960 net earnings of \$10,535,403 were equivalent to \$1.34 per share, compared with \$1,503,115 or \$1.47 per share in 1959. Net sales for the first nine months of fiscal 1960 were \$134,292,806 compared to \$133,363,804 for the same period last year.

Earnings margins were improved during the third quarter. Sales of outboard motors were approximately the same as in the 1959 quarter; Pioneer chain saw and Lawn-Boy lawn mower sales were up while vehicle sales were down, President Scott said, reflecting the fact that the U. S. Post Office has not purchased any Cushman Mailster vehicle in 1960.

Expanded engineering and development programs, plus tooling costs and some increases in manufacturing costs over last year, contributed to the slight decline in profit margin from 1959, Mr. Scott pointed out.

He said that foreign sales continued to show substantial increases over prior years and prospects are excellent for continued growth.—V. 191, p. 2307.

Outing Club, Inc., New London, N. H.—Files With SEC

The corporation on July 27, 1960 filed a letter of notification with the SEC covering 1,750 shares of common stock to be offered at \$100 per share, without underwriting.

Oxford Paper Co. (& Subs.)—Net Up—

Earnings for the six months ended June 30, 1960, were 22% above those of a year earlier on a gain of 6.1% in sales, William H. Chisholm, President, said in his report to stockholders. The more than proportionate rise in earnings as against sales primarily reflected the continued progress achieved in perfecting the operations of new facilities and new products. Second quarter 1960 earnings also were significantly higher than for the previous year's corresponding period on a moderate rise in sales.

Consolidated net sales of the company and subsidiaries for the six months ended June 30, 1960 totaled \$38,764,966 as compared with \$36,520,990 for the corresponding period of 1959.

Profit before taxes was \$3,915,819 as against a pre-tax profit of \$2,763,974 a year earlier.

Consolidated net income, after U. S. and Canadian taxes on income, amounted to \$1,655,819 and was equivalent to \$1.39 per share on the 1,066,434 shares of common stock currently outstanding, after provision for dividends on the preference stock. This compares with 1959 first half net earnings of \$1,356,773, or \$1.10 per common share, calculated on the same basis.—V. 191, p. 2748.

Sales increased 7% above the 1959 first half, rising to \$9,705,836 in the first half of 1960 from the \$9,063,483 recorded in the same period last year.

Net earnings for 1960 increased 15% over the same period last year. Mr. Hughes continued. At the mid-year of 1960, net income amounted to \$555,663, equal after preferred dividends to 71 cents a share on the 773,835 shares of common stock outstanding at June 30, 1960. Net income for the first six months of 1959 was \$481,954, equal after preferred dividends to 52c a share on the same number of common shares outstanding adjusted for the 3% stock dividend paid Dec. 22, 1959.

Steps are underway to redeem the 4,000 outstanding shares of Pacific Hawaiian's \$25 par cumulative 6% preferred stock, according to Mr. Hughes. In addition, last year there was nonrecurring income of \$1,208,000, equal to \$2.49 per share which increased the 1959 net to \$7.54 per share.—V. 185, p. 722.

Pepsi-Cola Co. (& Subs.)—Record Highs—

Sales, earnings, and profits for the first six months ended June 30, 1960 exceed all previous records in the company's history, President Herbert L. Barnett reported on July 28.

Consolidated net earnings after reserve for Federal and foreign income taxes and after reserve for foreign activities amounted to \$6,670,000 or \$1.03 per share. This compares with \$5,970,000 or 97 cents per share for the same period in 1959. Before taxes and provision for foreign reserve, earnings amounted to \$14,465,000 compared with \$13,816,000 earned in the first half of 1959.

The 1960 six months net earnings figure represents a 12% increase over 1959. The figure is measured against 6,477,055 shares outstanding in 1960 compared with 6,154,755 shares in 1959.

Mr. Barnett pointed out that during the first six months of 1960 Pepsi-Cola International had opened 15 new plants, bringing the total of Pepsi-Cola operations outside the United States and Canada to 215 plants with the product now available in 83 foreign countries.—V. 191, p. 1882.

The company was originally organized under the name of Powertron, Inc. The two corporations were merged on May 6, 1960 and the name of the merged corporation was changed to Powertron Ultrasonics Corp. During the period from March 1, 1960 through May 31, 1960 the first significant sales of the company's product took place. To date the only products which have been commercially marketed consist of ultrasonic cleaning systems of several different sizes and powers which are primarily intended for heavy-duty industrial use.

Stanray Corp.—Net, Sales Rise—

The Chicago corporation's sales and earnings for the first half of this year were 39% and 45%, respectively, ahead of 1959. President R. Arthur Williams reports to shareholders. Consolidated sales of \$17,721,000 compared with \$12,727,000 in the first six months of 1959, while net income reached \$1,303,000, equal to \$1.07 per share, against \$891,754, or 74 cents per share, a year earlier.

Sales and earnings in the second quarter of \$9,412,000 and \$676,000, respectively, compared with sales of \$8,127,000 and the earnings of \$720,754 reported for the second quarter last year.

Consolidated backlog of unfilled orders as to June 30 amounted to \$12,577,000 compared with \$9,907,000 on the like 1959 date, Mr. Williams reported.

The company's Railway Equipment, Special Products and Traveler Boat divisions had sales and earnings for the six months ended June 30 in excess of the like 1959 period, said Mr. Williams. The boat division, which makes "Arkansas Traveler" fiber glass and aluminum outboard boats registered a sales gain of more than 30% over the similar 1959 period, he added. Two other subsidiaries, John Gillen Co. and P. I. Steel Corp., achieved approximately the same sales volume but slightly lower earnings than in the comparable 1959 period, Mr. Williams stated.

"Stanray continues to expect a good year, with some anticipated slowness in the third quarter being offset by increasing volume during the last three months of 1960," he told shareholders. The company, formerly Standard Railway Equipment Manufacturing Co., adopted its present name last May.

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday, and the Saturday figures are not available at time of going to press. Accordingly, in the above, the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below we are able to give the final and complete results of the week previous—the week ended Aug. 6. For that week there was an increase of 12.8%, the aggregate of clearings for the whole country having amounted to \$27,039,331,422 against \$23,963,493,677 in the same week in 1959. Outside this city there was an increase of 3.2%, the bank clearings at this center having registered a gain of 22.5%. We group the

approximately \$75,000 to be borrowed and secured by a mortgage, will be used to erect a building with approximately 25,000 square feet of manufacturing space; approximately \$50,000 to purchase metal-working and test equipment; \$25,000 for the preparation of a catalogue and advertising; \$25,000 for research into and, if successful, the development of products supplementary to those now produced; and the balance of \$215,250 will be added to working capital and used to purchase raw materials and components and to finance a finished goods inventory.

In addition to certain indebtedness, the company has outstanding 215,096 shares of common stock, of which Perlman owns 108,648 shares and Betty Lee Perlman, his wife and company treasurer, owns 77,280 shares.

Texas Eastern Transmission Corp.—Debtures Offered—Dillon, Read & Co. Inc. heads an underwriting group that has offered on Aug. 10 an issue of \$25,000,000 of this corporation's 5 3/8% debentures due 1980, priced at 100%. The offering was oversubscribed and the books closed.

REDEMPTION—The debentures are entitled to a sinking fund, beginning Feb. 1, 1963, which will retire approximately 95% of the issue prior to maturity. For a period of five years, the debentures are not refundable at an interest cost to the company of less than 5.375% but are otherwise redeemable at the option of the company at any time at 105.38% in 1961 and scaling downward thereafter to 100% in 1980.

PROCEEDS—Of the proceeds from the sale of the debentures, approximately \$16,000,000 will be used to retire outstanding revolving credit notes, and the balance will be used in connection with construction programs, which are expected to cost \$75,000,000 in 1960.

BUSINESS—The company's principal business is the transmission of natural gas. It is also engaged in the transportation of petroleum products and in the production and refining of oil and gas. The company owns and operates a pipeline system for the transportation and sale at wholesale of natural gas, extending from the Mexican border in southern Texas to New York. The system has an authorized delivery capacity in its principal sales area of approximately 2,186 million cubic feet per day, including deliveries from its gas storage facilities. The petroleum products transportation business is conducted by its Little Big Inch division through a system which at December 31, 1959, included approximately 2,063 miles of pipelines. The company is presently engaged in the exploration for and production of oil and gas in 11 states.

UNDERWRITERS—The names of the principal underwriters of the debentures, and the principal amount thereof which each has severally agreed to purchase from the company are as follows:
