The company intends to apply approximately \$170,000 to continuetts reseach and development program for new methods of manufacturing and refining metals in order to meet higher standards of purity. The company will allocate a portion of this money to chemicals for use in an effort to develop new alloys which may be needed to meet advances in the semiconductor industry, particularly in the field of thermo-electric materials.

Two hundred and fifty thousand dollars will be applied to repath company's bank loan from Empire Trust Co. Of the proceeds of this loan, \$60,000 was used to purchase the portion of the TAC debentures purchased to date and approximately \$0,000 was used to stablish the cladding operations of the company. Approximately

Any remaining balance of the proceeds will be added to working capital of the company.

BUSINESS—Alloys Unlimited, Inc. was incorporated under the laws of the State of New York on July 17, 1957. Its first shipments commenced in December, 1957. The company, located in Long Island City, New York, manufactures certain components for such semi-conductor devices as silicon and germanium transistors, diodes and rectifiers. The company believes that the range of its customers has included virtually every manufacturer of semiconductor devices in the United States. A subsidiary of the company, Alloys Unlimited Chemicals, Inc. has been organized to produce and has recently commenced shipment in small research quantities of certain intermetallic compounds, among which are materials for tunnel diodes and transistors; materials for solar cell applications; and materials for infra-red, thermoelectric and electro luminescence devices. The company also plans to engage in the manufacture and distribution of testing equipment for semiconductor devices and the sale of beaded leads and first seals for glass diodes through Electronic Glass & Ceramics Corp., a subsidiary of the company, and Transistor Automation Corp. the stock of which the company has agreed to purchase.

American Biltrite Rubber Co., Inc.-To Acquire-

American Biltrite Rubber Co., Inc., has entered into an agreement to acquire the stock of Bonafide Mills, Inc., a large manufacturer of vinyl asbestos and asphalt loor tile and linoleum, Maurice J. Bernstein, President of American Biltrite, announced on Dec. 1.

The purchase price was not disclosed. No American Biltrite stock as involved in the transaction.

was involved in the transaction.

It is expected that the purchase will add approximately \$10 million to American Biltrite's sales, which were \$70,393,714 in 1959, and add substantially to the company's earnings.

According to Robert G. Marcus, Vice-President and general manager of the Amtico Plooring Division of American Biltrite, the acquisition completely rounds out the company's full line of floor coverings. American Biltrite has not previously manufactured vinyl asbestos and asphalt floor tile and linoleum. The Amtico Plooring Division in Trenton, N. J., is presently one of the industry's leading producers of vinyl and rubber floorings.

Founded over 30 years ago, Bonafide Mills, with headquarters in New York City, operates plants in Trenton, N. J., and Lisbon and Winthrop, Maine. Their floor coverings are sold through flooring distributors, dealers, and contractors for both commercial and residential

use.

Effective Jan. 1, 1961, Bonafide Mills will be operated as a sut of American Biltrite. Samuel Spector will be President of the Division. Other officers in this division will be Abraham Samuel J. Logan and William Rowe. Marshall Spector, who has as Bonafide's Vice-President, will continue as sales manager Vinyl Asbestos and Asphalt Tile Division in Trenton.

Vinyl Asbestos and Asphalt Tile Division in Trenton.

American Biltrite, with headquarters in Chelsea, Mass., is the largest nontire rubber company in the world. The Biltrite Sole & Heel Division is the world's largest manufacturer of shoe soling materials, while the Boston Woven Hose & Rubber Division of American Biltrite in Cambridge, Mass., is a major manufacturer of industrial rubber products including hose, belting, v-belts, tape, packing, and matting. The company also operates a chemical division with plants in Wilmington, Mass., and Conway, N. C.—V. 191, p. 2513.

American Cement Corp.—Financing Plan Approved—

Stockholders of this corporation at a special meeting in Philadelphia on Dec. 14 approved an amendment to the corporation's certificate of moorporation clearing the way for long-range financing through private placement of senior securities by Blyth & Co., Inc.

The amendment reduces the number of shares of authorized \$25 par value cumulative preferred stock from 500,000 shares to 240,000 shares and creates a new class A cumulative preferred stock series of 150,000 shares, \$100 par value, of which the first series of 60,000 shares is designated as "class A cumulative preferred stock 6.25% series." The

amendment also grants directors full discretion to set terms for the remaining class A preferred shares. There is no present intention to issue these shares.

Under the long-range financing plan, Blyth & Co., Inc. will place privately \$6,000,000 of American's new class A cumulative preferred stock of 6.25% series and \$6,000,000 of new 5.25% sinking fund debentures.

W. C. Russell, President of American, told stockholders the new long-range financing will permit American to reduce operating costs through modernization, improvements and additional production capacity.

In the two years since Dec. 31, 1957, American spent over \$35,000,-000 on plants, additions and improvements. During 1960 the board appropriated approximately \$13,000,000 for completion of a new white cement plant at Crestmore, Calif., construction of a third kiln at Clarkdale, Ariz, and other plant modernization.

Mr. Russell stated that the need for funds was aggravated by the percentage depletion issue. The corporation has elected to settle the percentage depletion controversy for all open years prior to 1961 by payment of approximately \$6,850,000 to the Government.—V. 192,

American Home Products Corp.—Acquires—

Franklin Foods Inc., Ann Arbor, Mich., has been acquired by American Home Products Corp., Chairman Alvin G. Brush announced in New York on Dec. 1, through an exchange of American Home Products shares.

Franklin Foods is a roaster of specially processed peanuts and other varieties of nuts. "The present management, employees, and site of Franklin Foods will be retained intact and its operations will be integrated with the American Home Foods Division of American Home Products Corp.," according to L. J. Sauers, Executive Vice-President of American Home Foods.

Franklin Foods, a Michigan corporation, was incorporated Sept. 12, 1949, has authorized, issued and outstanding 100,000 shares of \$1 par value common stock.—V. 191, p. 1106.

American Sales Training Research Associates, Inc.-Enjoined-

Enjoined—
The Securities and Exchange Commission Chicago Regional Office announced on Dec. 5 the entry of a Federal court order (USDC ND III.) permanently restraining "ASTRA," of Chicago, together with William O. Gillentine and Waiter Herr, from further violating the Securities Act registration requirement in the sale of ASTRA of certain investment contracts, being arrangements designated as "inactive distributorships" relating to sales on behalf of investors of personal development and success programs made up of a photograph record by one Earl Nightingale entitled "The Strangest Secret" and a related manual.

Ampex Corp.—Stock Option Plan-

Ampex Corp., 934 Charter Street, Redwood City, Calif., filed a registration statement with the SEC on Dec. 8, 1960, covering 17,200 shares of common stock, to be offered from time to time by the company to one officer (Erwin Tomash, President) and 23 employees of the company.—V. 190, p. 2337.

Beatrice Foods Co.-New Diet Product-

"Weight Control—900," a high-protein, fully-balanced dietary food being introduced nationally in ready-to-drink form by the Meadow old Dairy Division of Beatrice Foods Co.

The result of more than a year of research and development, "Weight Control—900" is a fresh homogenized and pasteurized milk product rich in proteins, vitamins, minerals and other nutrients essential to health, but low in calories, according to Dr. G. C. North, director of new products and materials for Beatrice Foods.

The new beverage, which requires no mixing or stirring, will be available initially in quart cartons in two flavors, chocolate and vanilla. It will be distributed on Meadow Gold home milk delivery routes and at dairy cases of food stores. "Weight Control—900," which requires refrigeration, is expected to retail for 89 cents per quart, a one-day supply.—V. 192, p. 1607.

Bendix Corp.—Acquires—

The corporation has entered into a contract with the Micrometrical Manufacturing Co. to purchase its assets for eash, it was announced on Dec. 6 by Malcolm P. Ferguson, President of Bendix.

on Dec. 5 by Malcolm P. Ferguson, President of Bendix.

Micrometrical's land and building will be utilized by Bendix under a long-term lease, Mr. Ferguson said. The purchase of the company, a leading manufacturer of equipment used to measure the surface finish of various types of materials, "fits into the continued expansion of Bendix and its interest in the needs of modern industry for more efficient gaging and measurement control systems and for automation-type equipment," Mr. Ferguson said.

Best & Co.—Acquires—

Walter Strickland, President of Best & Co., announces the outright purchase in a straight cash transaction of The Grand Apparel Co. of Milwaukee, Wis.

Apparel operates three women's and children's apparel stores in the Milwaukee area. The main store is in Milwaukee and there are suburban branches in Wauwatosa and Whitefish Bay.

Grand has been in business in Milwaukee for 55 years, and Pierce

Rosenberg, its President and the son of its founder, will continue in direct management of this new division of the Best & Co. organization. No changes in personnel or in Grand's merchandising policies are planned and the business will continue to operate as Grand Apparel.

Grand's net sales volume for 1959, including leased departments, was approximately \$6,900,000. Sales of Grand for the first nine months of 1980 show an increase over 1959.—V. 190, p. 1291.

Brooks Instrument Co., Inc.—Forms European Sub.—

The Hatfield, Pa., manufacturer of rotameter-type flow instrumentation, level controls and primary-device components, Dec. 16, announced the formation of a European manufacturing subsidiary, Brooks Instrument Nederland, N. V., with headquarters and factory in Veenendaal, Netherlands.

Netherlands.

The new firm is a wholly-owned subsidiary of Brooks Instrument Co., S. A., a sales company previously formed by Brooks in Switzerland. The Netherlands company has purchased a site on which it is building a new plant which is scheduled to begin production about mid-January of 1961. Initially, production will be limited to only three of Brooks' major rotameter lines; purge meters, O-ring-type indicating meters and pneumatic and electric transmitting rotameters. Within two years the plant is expected to be producing all Brooks' product lines, including a new type of level controller.

Brooks Instrument Co., S. A., will represent the Netherlands corporation in all markets outside of the Western Hemisphere. The central European sales office is located in Freibourg, Switzerland. Other offices probably will be opened in Germany, France and England.

AN ACTIVE PAST WEEK

Corporate sales in the week of Dec. 8 through 14 reached the quite sizable figure of \$159,019,850 in public offerings. Making up this total were \$100,250,000 in senior debt securities including a \$7,750,000 equipment trust certificate and \$25 million par value preferred stock issue. The remainder consisted of equities. Private placements made known amounted to \$49,300,000 not including 108,720 shares of Mercantile National Bank. The \$177,000,000 short term debentures floated by the Federal Intermediate Credit Banks are not included in these capital market figures. Additions to the Chronicle's Dec. 15 calendar of registered new issues aggregated \$124,772,500. Of this, \$114,392,500 were fixed debt obligations and this, in turn, included two equipment trust certificates, and the \$45 million Consolidated Natural Gas (2/7) and the \$30 million Lake Superior District Power Co. (2/7).

An active week of municipal public offerings also occurred during the week ending Dec. 14. They totaled \$186,852,000 and \$97,615,000 of this consisted of PHA's. Additions to the Chronicle's calendar of larger municipal issues amounted to \$55,126,000. This, however, was unable to keep the municipal float from declining.

Prices paid for corporate bonds maintained the higher trend set in last week due

Prices paid for corporate bonds maintained the higher trend set in last week due either to the shortage of unsold issues or to doubts as to how soon the yields on stocks may turn around. At the week's end an announcement was made to the effect

that the government may go into the red slightly after all at the end of the year. This news may arrest the upward bond price trend. In the municipal market, prices paid took a somewhat different turn than for corporates. For example, the PHA's that went out paid a higher interest than their last issue last September.

WHERE LIES THE GREATER IMPORTANCE OF GOLD?

WHERE LIES THE GREATER IMPORTANCE OF GOLD?

A crucial debate is shaping up as to whether gold's most important place is to serve as a settler of international balance of payments and not be used domestically at all, or whether its foremost role among others is to keep tabs on domestic credit and currency supply, and automatically take care of its international function as a "natural by product. Germane to this is the fact that the dollar in a free market is subject to both domestic and international forces. Actually, the workings of the latter cannot be thwarted or circumscribed should it be such as to adversely affect the effectiveness of our dollar, or any other currency, to function as a medium of exchange and storehouse of value, domestically and internationally.

Last week another important figure endorsed the stand that our gold supply should be solely used to cover foreign claims on our dollar and should not be used as a reserve for Federal Reserve notes and deposits. Per Jacobsson, the distinguished Swedish financier and economist, formerly of the Bank for International Settlements and now Managing Director of the International Monetary Fund, concurred with Henry C. Alexander, Chairman of the Board of Morgan Guaranty Trust Co. (cf. p. 2, Dec. 12 and p. 20ff of Dec. 15 issues of the Chronicle) that our monetary gold stock should be used only for balance of payment purposes. Both of these gentlement, in turn, endorsed the same position taken last year by Dr. Roy L. Reierson, Vice-President and Senior Economist of the Bankers Trust Co. (cf. p. 1ff, Nov. 28, 1959 and p. 2, Dec. 12 issues of the Chronicle) who at that time detailed his reasons as to why we should completely depart from any domestic ties to gold and confine its use as a cover for foreign dollar claims.

Their position stresses gold's greater importance exists for international foreign exchange purposes and lesser need [in fact they say needless] for domestic requirements. They assume that expert human judgment will see to it that we do not ha

not be used to mirror or to focus attention on its performance. It is the writer's thesis that this completely reverses the paramount position of gold. In fact it opens the door entirely to what has occurred in the way of super peacetime credit, debt and deficit financing/spending expansion during prosperity since 1933 when we departed from gold redeemability and tried devaluation of the dollar. This would leave no check at all upon human management—a check (admittedly made inadequate since 1933) with which even now the Federal Reserve has to contend with and which, in turn, has helped check Congress' fiscal notions. The issue is whether a gold settlement fund can protect the dollar if in a free market the domestic human management of the dollar errs. Without the warning, or the check that gold can provide, our dollar could lose favor with foreigners, too late for remedial action. A gold reservoir that these gentlemen propose may not encourage foreign investments here or the desire to raise dollars here for investments abroad. But, a sound domestic currency would automatically win foreign acceptance and should encourage the free international flow of funds. To throw away the yardstick that measures human judgment is to throw away both the goose and the golden egg. Our primary need is to do all we can to keep our human managers on their toes with proper detection instruments that command attention. Gold is one of those instruments.

Grede predicts enthusiastic contractor acceptance for the new Crawler, particularly in those areas where operations vary, because of its superior power, maneuverability and ease of operation. "The Case 750 may well save the contractor the cost of maintaining a second tractor," Grede said.

The new big production Crawler features a 301 cubic inch Case built diesel engine; is equipped with the exclusive Terromatic transmission and a "load-sensing" torque converter that produces up to 23,000 pounds push-pull effort. Split second power shifting, effortless power steering and independent power control of each track are also featured in this new machine.

other features of the 750 Crawler include fingertip pressure hydraulic controls, self-lubricating lower track rollers, ease accessibility to oil and fuel filters and the electrical system, plus the introduction of a new concept of servicing with simple hand tools. Exclusive new hydraulic track adjustment was specifically designed for faster, easier daily maintenance plus top operating efficiency to give the customer more profit time on the job. Specifications on the new tractor are now available.—V. 192, p. 1490.

Crestliner, Inc.—Expansion-

A half-million dollar plant expansion program for Crestliner, wholly-owned boat-building subsidiary of Bigelow-Sanford, Inc., has been announced by Edson P. Williams, Crestliner's president.

wholy-owned boat-building subsidiary of Bigelow-Sanford, Inc., has been announced by Edson P. Williams, Crestliner's president.

Most important in the plan is the opening of a new 100,000 square-foot plant at Thompsonville, Conn., where the company began construction of fiber glass and thermoplastic outboard motor boats this month. This plant also will serve as a stocking point for the entire New England area, including Crestliner's line of aluminum-hulled models.

In addition, 10,000 square-foot warehouse additions are being made at existing plants in Little Falls, Minn., and Strasburg, Va. Fiber glass boats are made at both locations and aluminum boats and unifinished aluminum forms for assembly at Strasburg are manufactured at Little Falls, the original Crestliner plant, dating back to 1946 when the company was founded.

Almost half the program's funds will go toward equipping these three plants as well as that at Morrilton, Ark., with newly-designed boat manufacturing and handling equipment.

"This is a big step," said Mr. Williams, in announcing the program, "toward equipping us with the most modern facilities in the boat-building industry. The additions in space and facilities will enable us to operate on an efficient, year-round basis, producing boats with the highest possible quality standards at competitive prices."

As an example, of the new facilities being installed at all five Crest-

prices."
As an example of the new-facilities being installed at all five Crest-liner plants, Mr. Williams mentioned a radically different handling and loading truck, designed by the company's own engineering staff, that will insure undamaged, speeded-up loading of outboard motor boats for delivery to dealers.

"This is only the beginning," added Mr. Williams, "of our long-range expansion program that is aimed at putting a Crestliner factory within easy reach of any marine dealer and equipping all our plants with the most modern, integrated facilities to serve our dealers and, consequently, the buying public."—V. 192, p. 5.

Eldon Industries, Inc.—Acquires Subsidiary—

Eldon Industries, Inc.—Acquires Subsidiary—
The company has completed purchase of the fixed assets and inventory of Knickerbocker Plastics Division, North Hollywood, it was announced on Dec. 6 by Eldon President, Robert Silverstein.
The plastics company, pioneer manufacturer of predominantly spring and summer toys, was a division of Knickerbocker Toy Co., Inc., New York. A new corporation, Eldon/Knickerbocker, has been formed. It will operate as a wholly-owned subsidiary of Eldon Industries, Inc. The purchase involved 11,112 shares of Eldon Industries, Inc. common stock, plus approximately \$600,000 in equal annual payments over a five-year period. This spring Eldon, formerly privately held, sold its first public issue of common stock amounting to 150,000 shares at \$11 per share. Underwriting was headed by Shearson, Hammill & Co. and Stern, Frank, Meyer & Fox.—V. 191, p. 1433.

Electrada Corp.—Contract—

Two new contracts for titanium pressure vessels, amounting to more than \$850,000, have been awarded to the Airite Division of Electrada by the Convair Astronautics Division of the General Dynamics Corp., Henry C. Jones, president of Electrada announced on Dec. 8.

Deliveries of the vessels, to be used in the Atlas missile program, will begin immediately and the order will be completed by April 15, 1961.

1961.
The vessels are used to hold the engine propellants and the inert gases used for eifframe pressurization and activation of control mechanisms. The use of titanium and a closer evaluation of operational requirements has reduced the weight of each vessel to 79 pounds, from the 196 pounds of the original stainless steel tanks.

With this order, the Airite Division of Electrada has become the largest supplier of tianium pressure vessels for the missile industry, Mr. Jones declared.—V. 192, p. 1608.

Electric Bond & Share Co.-Stock Sale Cleared-

The Securities and Exchange Commission has issued an order under the Holding Company Act authorizing this New York holding company to offer and sell at competitive bidding 140,498 shares of common stock of United Gas Corp. Such sale is required by the Commission's order of Dec. 6, 1960, which directed the sale of the 140,498 shares of United Gas stock (thereby reducing its holding of such stock to 500,000 shares) es a condition precedent to Bond and Share's exemption from the Holding Company Act.—V. 192, p. 2325.

Loeb, Rhoades & Co. and Scherck, Richter Co. The public offering price and underwriting terms are to be supplied by amendment.

supplied by amendment.

The company is engaged in the commercial production of electric motors, lighting fixtures, fans, air conditioners, electric heat devices, bench saws and arc welders, and in military defense work including research engineering, and development and production of complex electronic systems, missiles and airframe structures. In addition to certain indebtedness, the company has outstanding 2,188,341 shares of common stock, of which Mills, Inc. owns 223,098 shares and management officials as a group own 64,868 shares. Klingbill Real Estate, which is in the process of dissolution and liquidation, owns 54,033 shares and proposes to sell all of such holdings. D. J. Biller and O. W. Klingsick own in equal shares the outstanding stock of Klingbill Real Estate, and they are officers of Day-Brite Lighting, Inc., a wholly-owned subsidiary of the company.—V. 192, p. 701.

Ericsson Group-Egyptian Phone Network-

The United Arab Republic will base its future telephone network in Egypt exclusively on telephone exchanges using modern crossbar witching systems developed by The Ericsson Group, one of the world's eading telecommunications organizations, it was announced in Stock-

(In November, 1959, Ericsson crossbar switching equipment was approved as the new standard telephone system throughout Australia.)

The announcement on Dec. 7/coincided with the statement that L. M. Ericsson Telephone Co. of Stockholm, Sweden, the parent company of the Group, has received a new \$11,000,000 contract from the Egyptian telephone administration for the delivery of automatic exchange coulpment.

pany of the Group, has received a new \$11,000,000 contract from the Egyptian telephone administration for the delivery of automatic exchange equipment.

The contract covers equipment for 102,000 lines, which include 60,000 in Cairo, 20,000 in Alexandria and 22,000 in 13 other cities. All of the telephone exchanges are expected to be ready for cut-over before the end of 1965.

Last year Ericsson was awarded an initial \$5,000,000 contract for the installation of similar equipment in Cairo and five other towns in the Nile Delta. Under the contract, equipment for 30,000 lines were to be provided in Cairo, among other provisions. Ericsson also agreed to provide engineering assistance in the construction of an Egyptian telephone factory, which will manufacture certain Ericsson products under a license agreement, and will train Egyptian technicians to operate the exchanges and the factory.

More recently, the telephone administration ordered 60,000 telephones set for delivery from Swden.

The Ericsson Group, with annual sales of more than \$165,000,000 is comprised of 58 companies operating in 29 countries. It has been supplying telephone equipment to Egypt (now the United Arab Republic) for more than 50 years.—V. 191, p. 2413.

Flintkote Co.—Acquires Licenses

I. J. Harvey, Jr., Chairman and Chief Executive Officer of the company announced on Nov. 29 an agreement with Rand Development Corp., Cleveland, Ohio, whereby Flintkote has acquired licenses under Rand Development Corp. and Canadian Ingersoll-Rand Co., Ltd.'s spray-up process patents.

Mr. Harvey stated that Flintkote will receive the benefit of the Rand Development Corp.'s pioneer work in the spray-up process of reinforced plastics which constituted a break-through in the low cost, high quality manufacture of products ranging from boats, trucks and trailers in the transportation industry, to the field of buildings, sidewalls, swinming pools and building materials in the construction industry.

This agreement permits Flintkote to combine its Sealzit Gun with

trailers in the transportation industry, to the field of buildings, side-walls, swinning pools and building materials in the construction industry.

This agreement permits Flintkote to combine its Sealzit Gun with the Rand know-how and the protection of the Rand patents and puts Flintkote in a position to expand its markets and to contribute to all phases of the reinforced plastics industry.

As part of the agreement, Flintkote has made arrangements for the present owners of Sealzit Guns to become licensees under the Rand patents at the usual royalty rates.

The continuing research of both companies should result in further developments in spray-up techniques in the plastics industry which will promote the more widespread use of reinforced plastics in manufacturing and the construction industry.

H. J. Rand, President of Rand, stated that Rand was most enthusiastic about its agreement with Flintkote. He said Flintkote will act as a distributor for Rand in most sections of the country. He further stated that the cooperative efforts of Flintkote and Rand would expedite the utilization of the Rand process in important areas of the construction and transportation fields.

Mr. Harvey said the new Monoform system for roof construction

Mr. Harvey said the new Monoform system for roof construction announced by Flintkote in May of this year has been enthusiastically received and that over 150 licensees are now utilizing Sealzit roofing guns for this purpose. He went on to say that the company is now in the process of developing other markets for the gun and products of the company in irrigation and other fields.—V. 192, p. 1492.

Florida Guaranty Title & Trust Co., Miami, Fla.—Files With Securities and Exchange Commission-

General Dynamics Corp.—Joint Atomic Project-

Seven investor-owned electric utility companies of New York State on Drc. 7 selected General Dynamics Corp. to carry out an \$8,700,000 development program over the next three years directed toward ultimate construction of a large-size atomic power plant capable of producing economic nuclear power.

l objective of the program is a nuclear plant of 300,000-to-kilowatts electrical capacity, larger than any yet undertaken United States, to be placed in operation in New York State.

Announcement of the joint project designed to demonstrate that nuclear energy can produce electricity in competition with modern, conventional-type plants using coal and other fossil fuels was made here by the Empire State Atomic Development Associates, Inc., (ESADA) composed of the seven companies whose service areas blanket the State of New York.

The Empire State companies' \$8,700,000 joint program with General Dynamics calls for advanced research and development based on General Dynamics' High Temperature, Gas-cooled Power Reactor system (HTGR).

The seven member companies of the New York State group are: Niagara Mohawk Corp., Syracuse; Long Island Lighting Co., Mineola; New York State Electric & Gas Corp., Binghamton; Consolidated Edison Co., New York; Rechester Gas & Electric Corp., Rochester; Central Hudson Gas & Electric Corp., Poughkeepsie; and Orange & Rockland Utilities, Inc., Nyack.

The ESADA announcement said its studies, carried out over the past year on behalf of the utility companies, showed the General Dynamics' high-temperature, helium gas-cooled, graphite-moderated nuclear power system to be one which "shows marked promise of achieving a break-through in the cost/of atomic power."

Continuing the cost of atomic power."

Of the \$8,700,000 cost of the program with General Dynamics, the ESADA companies are funding \$4,500,000 and General Dynamics \$4,200,000. The latter figure is in addition to the funds already expended by General Dynamics on the large-size HTGR concept.

The three-year program of research and development will begin Jan. 1 at General Atomic Division's John Jay Hopkins Laboratory for Pure and Applied Science in San Diego, with the purpose of establishing that such a large-size plant based on the HTGR principle can produce electricity, using modern steam conditions, at a cost in the range of power generated in fossil-fueled plants throughout New York State.—V. 191, p. 2202.

General Steel Castings Corp.-Sub. Order-

General Steel Castings Corp.—Sub. Order—
An additional order for 60 subway cars for the New York City Transit Authority, amounting to approximately \$7,300,000, has been received by St. Louis Car Co., a wholly owned subsidiary of General Steel Castings Corp., it was announced on Dec. 9 by Edwin B. Meissner, Jr., President of St. Louis Car.
This brings to 550 cars the total now on order at St. Louis Car from NYCTA, as part of the Transit System's equipment modernization program. The 60-foot long, high speed cars will be equipped with four sets of double doors on each side; fiberglass seats, asbestos tile floors and other improvements over old style cars.

The company plans to make deliveries of the cars on order at the rate of about 100 cars a quarter.

The present order will bring to a total of 1650 the number of cars that will have been supplied to the New York City Transit Authority by St. Louis Car Co.—V. 192, p. 1196.

International Rectifier Corp.-N. Y. S. E. Listing-

The corporation, which was founded in 1947 was admitted on Dec. 12 for trading on the New York Stock Exchange. Its symbol on the 'Big Board' is IRF.

The company is today the world's largest supplier of industrial metallic rectifiers (semiconductors). Semiconductor devices manufactured by the company perform many functions in electrical and electronic equipment. Their primary use is for the conversion of alternating current to direct current, and voltage regulation. They are important components of business machines and computers, welding equipment, industrial control systems, railway signaling, radio-TV and telephone systems, missiles and spacecraft.

important components of business machines and computers, welding-equipment, industrial control systems, railway signaling, radio-TV and telephone systems, missiles and spacecraft.

Incorporated under California laws in 1:47, the company first occupled a 3,000 square foot building. Today the company has extensive research and manufacturing facilities at El Segundo, Calif., and branch offices in New York City, Syracuse, Philadelphia, Boston, Chicago, Detroit and Los Angeles. The company, which began 13 years ago with 5 employees, now has 950 employees, occupies 11 buildings totaling 215,000 square feet in the El Segundo area alone. Originally established to produce selenium rectifiers exclusively, it now manufactures a variety of rectifiers, diodes, zeners and cells, accounting for about 15% of total rectifier industry sales in this country. These components are used in almost every major industry from photographic equipment ospace, as well as Tiros II, relied exclusively on International Rectifier Solar cells to power its communication with earth.

The company supplies the world market primarily through associated companies in England, France, Italy, Denmark and Japan. Its foreign business is up 65% over last year's gross. Other subsidiaries are Geer Machine Works Inc., acquired October, 1958 and Dallons, Laboratories, Inc., Los Angeles, acquired June, 1960.

Eric Lidow, President of International Rectifier, took part, in the trading ceremonies on the floor of the Exchange. With Mr. Lidow was G. Keith Funston, President of International Rectifier, took part, in the trading ceremonies on the floor of the Exchange. With Mr. Lidow was G. Keith Funston, President of the New York Stock Exchange.

Consolidated sales and earnings of the company for the fiscal year ended June 30, 1960, reached new record levels. Sales increased 21% over fiscal 1959 from \$10,870,038 to \$13,124,586; earnings after taxes advanced 37% during the same period, from \$877,371 to \$1,206,007, amounting to 52.2 cents, per share as compared with \$3

of shares.

The corporation became a publicly-owned corporation October, 1958 and has been traded over the counter since then. In May, 1960, the company split its stock two-for-one.—V. 192, p. 1913.

International Silver Co.-Acquires-

International Silver Co.—Acquires—

The Meriden, Conn., company has acquired the Drycor Felt Co., Inc., Staffordville, Conn., and Eastwood-Nealley Corp., Belleville, N. J., according to Craig D. Muson, President of the worlds' largest silveraware manufacturer.

Drycor, a Connecticut corporation with plants at Staffordville and Rockville, originally was incorporated in New Jersey in 1935. It manufactures industrial and paper makers' felts, being the pioneer in making felts by the use of a needling process.

"Purchase for cash of Drycor," explained Mr. Munson, "is another step in our continuous diversification program which is designed to broaden the base of our business. Up to now all of our diversification moves have put us into a variety of markets quite different in character from that of silverware.

"Drycor is our first venture outside of the metal working field. We acquired Drycor Felt because it is a supplier to the paper industry with which we became connected, through acquisition of Eastwood-Nealley Corp. Drycor as a supplier of felts also gives International Silver an entree as a supplier to asbestos cement, cement plpe, roofing, leatherboard and other miscellaneous industries, and as such Drycor has potential growth.

"It is our intention to operate Drycor Felt as a wholly-owned

subsidiary under its present management and personnel, and at its present site."

present site."

Drycor was organized in 1935 to produce a needled felt for industrial users—a novel idea at that time. Its operations were begun in leased quarters in Belleville. Following several years of research and development Drycor became the leading supplier of felts to the asbestos cement industry. During World War II the company turned its attention to supplying special felt products for use in the war effort, notably among such products were their innersoles for flyers; boots. After the war, the demand for Drycor's needled felts having grown appreciably, Drycor required more plant space and production capacity than was available at its quarters in Belleville. An idle textile mill was found in Staffordville, Conn., and, having been rebuilt from top to bottom, the company moved its operations to its own property in Staffordville in 1947. The increasing popularity of the needled felt—particularly for the asbestos cement industry—made it necessary to enlarge this mill a few years later and finally in 1956 a second plant location at Rockville, Conn., was acquired. Eastwood-Nealley, founded in 1877, is one of the largest manufac-

Eastwood-Nealley, founded in 1877, is one of the largest manufacturers of bronze and brass Fourdrinier wires, cylinder and filter wires in the United States, Fourdrinier wires are an essential supply of the paper industry and are an integral part of all Fourdrinier paper making machines which are the machines generally in use in the country's paper mills. This acquisition marks the entry of International Silver into a new field as a major supplier to the fifth largest industry in the nation.

largest industry in the nation.

"Purchase for cash of Eastwood-Nealley," explained Mr. Munson,
"is another step in our diversification program which is designed to
broaden the base of our business. All of our diversification moves to
date have put us into a variety of markets of quite different character
than that for silverware. Yet all the new products involved have a
common denominator of non-ferrous metal fabrication which is where
we have knowledge and experience dating back to 1847 and earlier.

"It is our intention to operate Eastwood-Nealley as a wholly-owned
subsidiary under its present management and in its present location
and as its own separate entity," continued Mr. Munson. "The management has operated the company very successfully in recent years.
Eales have nearly doubled since 1953 and profits have quadrupled,
At the current rate, Eastwood-Nealley earnings will add in excess of

Itek Corp.-Acquires-

Richard S. Leghorn, President of Itek, Waltham, Mass., announced on Dec. 7 that Itek has agreed to purchase from M. Steinthal & Co., parachute manufacturers, and CBS Laboratories, their joint venture company, Space Recovery Systems, Inc. (SRS), of Los Angeles, Calif.

Space Recovery Systems, Inc. was formed in April, 1959, to specialize in original research, engineering design, and manufacture of parachute and of or types of recovery systems and related hardware. Its technical staff includes some of the country's most experienced design and engineering talent in the field, Leghorn said.

SRS, whose products range from simple cargo type chutes to sophisticated space recovery systems, is currently under contract with the U. S. Air Force on the 609A rocket, and on crew escape capsules for the B-70 program. It is also at work on the design and manufacture for the Army of parachute recovery systems for unmanned drones.

Grones.

"SRS will add another dimension," Leghorn said, "to Itek's broad activities in building information handling systems for aero-space reconnaissance and exploration. SRS is joining Itek just at a time when techniques for the physical recovery of objects from space—which are concerned essentially with the rocovery of the information they contain — are assuming new importance in America's space programs.

"The SRS capability meshes admirably with projects underway at Itek's Palo Alto (Calif.) subsidiary, Vidya, Inc., in numerous areas related to space exploration and recovery." Vidya, an advanced research group specializing in aerodynamics and thermodynamics, has expanded rapidly, Leghorn said, in the aero-space market.

Present plans call for Space Recovery Systems to continue operation as a separate unit with Itek Corp., working in close cooperation with Vidya, Inc. "SRS, with its specialized technical knowledge, and an experienced design and fabrication capability, represents a logical extension of Vidya's efforts," the Itek president said. "In SRS, Vidya will gain a valuable outlet for hardware items stemming from its broader space studies. At the same time SRS, reinforced by Vidya, can look forward to a stronger position in the expanding space recovery market."

M. Steinthal & Co. and CBS Leboratories, actions.

M. Steinthal & Co. and CBS Laboratories, as joint owners of Space Recovery Systems, owned equal shares in the enterprise. The pur-chase was made for an undisclosed amount of cash.—V. 192, p. 1398.

Jerrold Electronics Corp.—Acquires—

Stockholders of Harman-Kardon, Inc., on Dec. 5 approved acquision of their company by Jerrold Electronics Corp.

Under the terms of the acquisition, Harmon-Kardon shareholders will receive one share of Jerrold stock for 1.8 shares of Harman-Kardon stock.

Harman-Kardon, one of the nation's largest manufacturers of high fidelity electronic components, will operate as a separate subsidiary of Jerrold, a leading manufacturer of electronic amplification equipment for closed circuit television distribution systems, electronic test instruments and electronic consumer products.—V. 192, p. 2122.

Kayser-Roth Corp.—Acquires—

Chester H. Roth, President, has announced that contracts have been entered into whereby Kayser-Roth would acquire the inventories, receivables, trademarks and several parcels of real estate of Mojud, Inc. The transaction, an all cash one, involving in excess of \$5,000,000 is scheduled for consummation on Jan. 9, 1961, after a Mojud stockholders meeting to be held on Jan. 6, 1961.

Kayser-Roth will continue the manufacture and distribution of hosiery under the Mojud name, of which it has been the exclusive licensee, and anticipates the likelihood that this valuable name will be used for the manufacture and distribution of several of its other apparel lines.

Mojud, Inc. will change its name. The several litigations that have been pending between the companies are being terminated.—V. 192,

Lease Plan International Corp.—Acquires—
Acquisition by Lease Plan International Corp. of Executive Car Leasing Co., Los Angeles, has been announced by H. L. Meckler, president of LPI, a major lessor of motor vehicle fleets and other equipment to industry.

Mr. Meckler said the acquisition will add approximately 2,200 automobiles to the LPI fleet, bringing its total to nearly 25,1000 cars and trucks, and added: "This acquisition contributes significantly and immediately to our earnings. Executive Car Leasing's 2,200 cars are all leased to business executives and professional persons on the West Coast on long-term arrangements."

Mr. Meckler said that under a "pooling of interest" concept approved after a review by the Securities & Exchange Commission, LPI's profits immediately reflect those of Executive Car Leasing, retroactive to Jan. 1, 1960, with the result that 1960 earnings are now expected to be \$1.12 per share on 615,000 shares, compared with 79 cents a share for 1959 on 550,000 shares of stock then outstanding.

The acquisition was accomplished through \$1 million in convertable debentures and an exchange of an undisclosed amount of stock.

Mr. Meckler said that he expects "further b-nefits to accrue as Executive Car Leasing's operations are integrated into those of Lease Plan International, with considerable increases in annual volume and future earnings."—V. 192, p. 2223.

Loral Electronics Corp.—Convertible Debentures Offered—An underwriting group managed jointly by Kidder, Peabody & Co.; Lehman Brothers, and Model, Roland & Stone offered publicly on Dec. 15 a new issue of \$5,000,000 Loral's 4½% convertible subordinated debentures due 1000 of \$5,000,000 Loral's debentures due 1980.

CONVERSION—The debentures are priced at 162.25% to yield 4.33% until maturity. Unless previously redeemed, the obligations are convertible into common stock at a price of \$37.50 per share.

REDEMPTION—The debentures are redeemable at the company's option at prices scaled from 106.75% in the 12 months ending Nov. 30, 1961, to 100% after Nov. 30, 1978. A mandatory sinking fund will operate in each of the years 1970-79 to redeem annually \$300,000 principle amount of the issue.

PROCEEDS—Loral will apply the net proceeds from the sale initially to its general funds, but expects to use about \$2,000,000 for costs of additions to its plant, equipment and other facilities, and \$750,000 to repay a short-term bank loan.

BUSINESS—The company is engaged primarily in the production of electronic equipment for military use. Currently, about \$3% of sales are attributable to manufacturing and the balance to research and development contracts for various government agencies. Among the company's major products are: early warning and anti-submarine warfare systems, navigation computers, display devices, and target position and data handling computers.

EARNINGS—The company's net sales in the five months ended Aug. 31, 1960 were \$15,054,000 and net income applicable to common stock was \$514,000, compared with \$5,384,000 and \$194,000 in the similar five months of 1959. For the fiscal year ended March 31, 1960, sales were \$17,440,000 and net income applicable to common stock was \$579,000.

CAPITALIZATION—Giving effect to completion on the current sale, Loral's capitalization of Nov. 1, 1960, as adjusted was \$5,000,000 of debentures; \$525,000 of 6% promissory notes; 1,740,444 shares of common stock; and 157,232 common stock purchase warrants.—V. 192, p. 1816.

Maremont Automotive Products, Inc.—Federal Court

Decree—

As a result of a Federal district court consent decree issued in Chicago on Dec. 9, Maremont Automotive Products, Inc., Chicago, will retain its majority stock ownership of Saco-Lowell Shops, major producer of textile machinery, ordnance and automotive products.

However, the order directs Maremont to cause Saco-Lowell to sell the machinery and equipment used by Saco-Lowell to manufacture automotive mufflers at its Saco, Maine, plant.

In an earlier anti-trust suit, dismissed by a Federal court in Portland, Maine, last August, the government had asked complete divestiture of all Saco-Lowell stock held by Maremont.

Completely unaffected by the decision in Maremont's ownership of stock, 23 well as Saco-Lowell's current production of textile machinery, military ordnance and automotive parts other than mufflers.

of stock, as well as saco-lowers machinery, military ordnance and automotive parts other than munifiers.

Auto mufflers produced by Saco-Lowell accounted for less than 3% of its sales of \$29,014,500 for the nine months ended last Aug. 31. Less than 20 employees are directly involved full time in the manufacture of mufflers at the Saco plant.

The consent decree provides that Maremont shall cause Saco-Lowell Shops to sell its assets to a court-approved buyer within 18 months from next Feb. 28.

The purchaser of the assets must agree to use the equipment to produce mufflers for the parts replacement market.

The sale will involve no plants or other real property of Saco-Lowell, which operates manufacturing facilities in North and South Carolina as well as in New England. Its headquarters is in Boston, Mass.—V. 192, p. 1612.

Marquette Cement Manufacturing Co.—Acquires—
Marquette Cement Manufacturing Co. and Pittsburgh Coke & Chemical Co. announced Dec. 13, an agreement whereby Marquette will acquire all outstanding stock of Green Bag Cement Co., a wholly-owned subsidiary of Pittsburgh Coke & Chemical. For the acquisition of Green Bag, Marquette will issue 150,000 of its common shares to Pittsburgh Coke & Chemical, which will retain the Marquette stock as an investment.

The acquisition will be accommended to the common shares of the common shares to Pittsburgh Coke & Chemical, which will retain the Marquette stock as

The acquisition will be consummated on Jan. 17, 1961.

The acquisition will be consummated on Jan. 17, 1961.

Marquette has cement producing plants at Oglesby, Ill.; Des Moines, Iowa; Cape Girardeau, Mo.; Nashville and Cowan, Tenn; B andon, Miss.; Superior, Ohio; Rockmart, Ga.; Milwaukee, Wis.—and has shipping plants at Chicago, St. Louis, Memphis and Vicksburg.

Green Bag Cement has a cement producing plant on Neville Island at Pittsburgh, and has shipping plants at Marietta, Ohio, and Fairmont, W. Va. Under Marquette it is contemplated Green Bag will continue to operate as before:

Pittsburgh Coke's interest in the cement industry has been limited to Green Bag's single plant operation. Spokesmen for Pittsburgh Coke announced the exchange will permit it to concentrate funds and management attention on other fields. The company has major expansions under way in chemicals and in the vitrified and concrete pipe fields.—V. 192, p. 1914.

This company, of Jackson, Miss., has filed a proposal with the SEC under the Holding Company Act regarding an exchange of certain utility essets with North Central Mississippi Electric Power Association; and the Commission has issued an order giving interested persons until Dec. 28, 1960, to request a hearing thereon.

Dec. 28, 1960, to request a hearing thereon.

According to the application Mississippi Power proposes to transfer to the Association all of its electric distribution facilities and two office buildings located in Marshall County and in about 105 square miles of an adjacent area in the eastern part of De Sota County, Miss. It includes 323 miles of distribution system having an estimated original cost of \$992,000 end serving 2,599 customers. In exchange, the Association will transfer to Mississippi Power 289 miles of distribution system having an estimated original cost of \$550,000 and serving about 950 customers, located in western De Sota County and Tate County, Miss., and an office building in Coldwater, Miss., and pay Mississippi Power about \$820,000 in cash.—V. 192, p. 2223.

Modine Manufacturing Co.—Acquires Land—

The Racine, Wis., company has announced the purchase of land in McHenry County, Ill., for anticipated future manufacturing expansion. Some preliminary grading is being done.

According to A. G. Dixon, Modine President, this land acquisition follows the established pattern of company growth in the midwest. He pointed out that Modine was founded in Wisconsin in 1916, added an Indiana plant in 1934 and a Kentucky plant in 1946.

added an Indiana plant in 1934 and a Kentucky plant in 1946.

Mr. Dixon said, "After careful study of various areas, the Illinois location was judged best suited to the supplementing and strengthening of the company's existing midwest plants while retaining good administrative geography."

Modine manufactures heating and air conditioning products, engine cooling radiators and oil coolers for the automotive industry and heat transfer equipment for highly specialized industrial, chemical, nuclear and electronic applications.—V. 189, p. 48.

Norfolk & Western Ry .- Proposed Merger-

Plans for extending the Norfolk & Western Railway by merger with the New York, Chicago & St. Louis RR. (Nickel Plate Road), purchase of the Sandusky Line of the Pennsylvania Railroad as the comnecting link, and the lease and eventual merger of the Wabash Railroad were announced on Dec. 1 by Stuart T. Saunders, President of the Norfolk & Western. The plans in principle have been agreed upon by the boards of directors of the companies involved.

Under the proposal, the Norfolk & Western would become a system with more than 7,400 miles of road and combined assets of about \$1.7 billion. N&W lines, now terminating at Cincinnati and Columbus, Ohio, would reach into such important cities as Chicago, Omaha, Detroit, Buffalo, Toledo, St. Louis, Kansas City, Des Moines, Cleveland, Indianapolis, Fort Wayne, Canton, Springrield and Peoria.

Mr. Saunders said that the N&W will pay \$27 million cash for the Sandusky Line, a 111-mile road between Columbus and Sandusky, Ohio, to provide connections with the Nickel Plate system. The purchase from the Pennsylvania includes the Sandusky. The Pennsylvania would be given trackage rights over the Sandusky. The Pennsylvania would be given trackage rights over the Sandusky Line between Columbus and Carrothers, a distance of about 78 miles, and would pay for them on a user basis.

The Wabash would be leased by the Norfolk & Western for 50 years, with an option to Wabash to exchange at any time after six years all of the Wabash's common stock, totaling 598, 186 shares, for 675,000 shares of N&W common stock totaling 598, 186 shares, for 675,000 shares of N&W common stock totaling 598, 186 shares, for 675,000 shares of N&W common stock is owned by the Pennsylvania Railroad System.

The N&W will pay a net annual rental of \$7,125,000 for the first

at the termination of the lease, if not done prior thereto. More than 99% of Wabash common stock is owned by the Pennsylvania Railroad System.

The N&W will pay a net annual rental of \$7,125,000 for the first six years, with an increase based upon any rise in dividends in excess of \$5 a share on N&W common From the seventh year on, the rental will become an amount equal to the annual dividends on 675,000 shares of N&W common stock.

The proposed arrangement includes all Wabash subsidiaries except the Ann Arbor Railroad, Wabash's stock interests in the Detroit, Toledo and Ironton Railroad and the Lehigh Valley Railroad also are excluded.

N&W-Nickel Plate merger terms involve exchange of each share of Nickel Plate common stock on a tax-free basis for 45 of a share of Norfolk and Western common stock.

Preliminary estimates of savings in combined operations, after full integration of the system, are in excess of \$25 million annually. In working out the plan, the roads were assisted by The First Boston Corp. as financial advisers on all aspects of the proposal and by Stone & Webster Service Corp. as engineering consultants on the Sandusky Line purchase.

In the first 10 months of this year, the Norfolk & Western had total operating revenues of \$204,973,467 and earnings of \$6.76 on each share of common stock. As of Aug. 31, 1960, the N&W had total assets of \$1,004,153,245 with 7,355,675 shares of common stock and 1,357,613 shares of voting preferred stock outstanding.

The Nickel Plate reported total operating revenues in the first 10 months of \$1050 exception makes and become a substance of the propose of working preferred stock outstanding.

The Nickel Plate reported total operating revenues in the first 10 months of 1960 amounting to \$127,470,339. Earnings per share were \$2.35 for this period. Nickel Plate has no preferred stock outstanding. Its total assets on Aug. 31, 1960, were \$467,684,851, with 4,164,349 shares of common stock outstanding.

shares of common stock outstanding.

Wabash through Oct. 31, 1960, reported total revenues of \$94,905,930, with earnings of \$3.53 per share of common stock for the 10 months. The road's assets on Aug. 31, 1960, totalled \$310,557,204, with 598,186 shares of common stock and 311,030 preferred s.ares outstanding. Preparations are being made for formal presentation of the plans at the earliest possible date to securities holders and the Interstate Commerce Commission for their approval.—V. 192, p. 2224.

Pacific Gas Transmission Co.-Rights Offering-

Pacific Gas Transmission Co.—Rights Offering—
This company, of 245 Market St., San Francisco, Calif., filed a registration statement with the SEC on Dec. 12, 1960, seeking registration of \$13,260,000 of convertible debentures due Feb. 1, 1981. It is proposed to offer the debentures at \$100 per \$100 of debentures for subscription by stockholders of record on Jan. 11, 1961 at the rate of \$100 principal amount of debentures for each 162/s shares of common stock then held. No underwriting is involved. According to the prospectus, Pacific Gas & Electric Co., owner of 50% of the company's outstanding common stock, intends to purchase the debentures to which it is entitled and any not subscribed for by other stockholders.

The company is constructing and proposes to operate a natural gas transmission pipeline extending from the international boundary between Canada and the United States southward through the States of Idaho, Washington and Oregon to the California border. The pipeline will be part of a project, known as the Alberta-California Project, which is designed to bring gas from the Province of Alberta in Canada to California. The gas will be distributed in California by Pacific Gas & Electric, which is the principal sponsor of the project. The proceeds from the sale of securities and from loans or advances will be used to meet the total capital requirements of the company estimated to be \$124,069,000, of which \$121,165,000 will be spiled to the pipeline. The company has outstanding 2,210,000 shares of common stock, of which Pacific Gas & Electric owns 50%. The prospectus lists James B. Black as Board Chairman and N. R. Sayre & Fisher Co.-Backlog-News-

Sayre & Fisher Co.—Backlog—News—
Sayre & Fisher Co., A. S. E.-listed manufacturer of brick and related building materials, will close 1960 with unfilled orders for rover 100,000 tons of its "Agitie" lightweight-concrete aggregate, according to David Fischman, chairman of the board.

"Effective on Jan. 1, 1961, the price of 'Agitie' has been set at \$7.50 per ton, compared with upwards to \$5 per ton from 1958 through 1966," Mr. Fischman announced last week. "At the lower prices, we were able to interest builders and contractors in the many advantages of our synthetic aggregate over sand, cinders, gravel and crushed stone. As a result we have developed an increasing demand for 'Agitie' in the greater N. Y. metropolitan area. "Our automated 'Agitie' plant is now operating five days a week on a two-shift basis, turning out about 1,000 tons every 24 hours, and we have been stock-piling this prime material for delivery after the first of the New Year. The 50% increase in price of our aggregate should be reflected in improved earnings for the first quarter of 1961, especially if the anticipated revival in new building expands the demand for brick," Mr. Fischman concluded.

It was understood by this newspaper that SAY is negotiating for the acquisition of two similarly engaged companies.—V. 189, p. 1799.

Schenley Industries, Inc.—Adds to Investment—

Schenley Industries, Inc., purchased 18,183 shares of stock of Radiation Applications, Inc., increasing its equity in RAI to approximately 36% of the outstanding shares, according to a joint announcement on Nov. 30 by Lewis S. Rosenstiel, Schenley Chairman and President, and Munroe F. Pofcher, RAI President, Mr. Pofcher said that Hayden, Stone & Co., both directly and through a private placement, also purchased 12,122 shares, and that Payson and Trask has an interest amounting to approximately 6% of RAI stock.

of RAI stock.
RAI has had a consistent growth since its organization in 1954, Mr. Potcher said. Its latest expansion of plant occurred in April, 1960, when the company moved into a modern, three-story building containing 33,000 square feet of space in Long Island City. The company specializes in the development of plastic and chemical materials for the electronics and missile industries and performs extensive research and development in the fields of atomic energy, extractive metallurgy, plastics and electrical insulation.

Mr. Fofcher said that "the next stage in the company's financing

program might be a public offering of its stock if the past rate of growth is continued as expected."

The company's present quarters, he said, contain chemical and diochemical laboratories and supporting snop facilities, as well as 1,000 curie cobalt-60 irradiator.

a 1,000 curie cobalt-60 irradiator.

"The RAI staff is engaged currently in two main areas of activity." Mr. Pofcher said. "We conduct research and development on a contract basis for industrial organizations and government agencies in chemistry, plastics, atomic energy and extractive metallurgy. We also develop, manufacture, sell and license products and processes directly and through affiliated and subsidiary companies."

Screen Gems, Inc.-Proposes Rights Offering-

Screen Gems, Inc.—Proposes Rights Offering—
Screen Gems, Inc., 711 Fifth Avenue, New York, filed a registration statement with the SEC on Dec. 3, 1960, covering 300,000 shares of common stock, to be offered (1) for subscription by the common stock-holders of Columbia Pictures Corporation (its parent) on the basis of one new share of Screen Gems for each five shares of Columbia Pictures Held, and (2) for subscription on the same basis by participating employees under the Columbia Pictures Corp. Employees' Stock Purchase Plan. Hemphill, Noyes & Co. and Hallgarten & Co. are listed as the principal underwriters. The record date, subscription price and underwriting terms are to be supplied by amendment.

The company's predecessor, Screen Gems, Inc. was organized in 1948 by Columbia Pictures which owned all of its capital stock. In September, 1956, that company was merged into SGS Corp., a California corporation, all of the capital stock of which also was owned by Columbia, the merged corporation continuing as a California corporation under the name of Screen Gems, Inc. The present company was organized by Columbia in Delaware on Oct. 24, 1960 and as of Nov. 28, 1960 succeeded by merger to the properties and business of the California corporation. It is principally engaged in the production and distribution of television film series, the television distribution of feature motion pictures and shorks originally produced for theatrical release and, through Elliot, Unger and Elliot division, in the production of commercials for television. The net proceedes from the stock sale will be utilized principally for the financing of television film programs produced by the company or by independent producers for distribution of Columbia which may be called for by the Operating Agreement between the company and Columbia on account of commercials for television distribution of Columbia's motion pictures.

Scrivner-Stevens Co.—Registers Common—
This Oklahoma City, Okla., company filed a registration statement with the Securities and Exchange Commission on Dec. 9 covering a proposed offering of 70,000 shares of common stock, \$10 par value.

Of the 70,000 shares of common stock to be offered, 7,160 shares will be sold for the account of selling stockholders and the remaining shares for the company.

Francis I. duPont & Co. heads an underwriting group that will make the public offering, which is expected about the middle of January. Scrivner-Stevens, organized in 1918, is a grocery distributor which provides "sponsored" independent supermarkets with groceries, meat, produce, frozen foods, health and beauty aids and also with advice, ideas, and specialized skills for the assistance of the independent grocer.

grocer.

The "sponsored" independent supermarkets use the company-owned name of "Red Bud Food Centers" and operate generally through the state of Oklahoma. The company also services, under contract, independent chains and supermarkets operating under their own name in Oklahoma, Texas and Southern Kansas.

Of the net proceeds, the company presently intends to use \$200,000 to reduce short-term bank borrowings, to apply \$56,000 to partial payment of the company's 6%% note due June 1, 1975, and to add the balance to working capital.

The company has paid one or more cash dividends on its common stock each year since 1926 except for 1958, when it paid a 100% stock dividend.

Southern California Gas Co.—Opposes Gas Import-Southern California gas utilities on Dec. 5 declared they would oppose a plan to import natural gas through Mexico for exclusive use in steam generating plants as being a private deal that is not in the public interest and that would force up prices of household gas.

"We will vigorously oppose the plan when it comes up for hearing before the California Public Utilities Commission," F. M. Banks, President, Southern California Gas Co., speaking for his company and Southern Counties Gas Companies, stated.

by large industrial gas users.

"Under our present public utility method of operation, the needs of all gas users, large and small, are pooled together on an equitable price and supply basis," Mr. Banks explained. "This pooling of supplies and facilities results in low rates to all. But if a few large industrial customers are allowed to engage in a private deal which reduces this volume, it will leave the small users to pay the entire costs of the expensive transmission and distribution systems from Texas and the mid-continent. The end result is higher gas rates," Mr. Banks charged. "In the public interest and in the name of our eight million household gas users we will oppose this in formal hearings before the California Public Utilities Commission, as well as the Federal Power Commission, should the proposal come under scrutiny of that body," Mr. Banks declared.—V. 192, p. 1496.

Studebaker-Packard Corp.—Deliveries Up—
Studebaker-Packard passenger car retail deliveries for the 10 day period ending Nov. 30 totaled 2,888 units, a more than 28% upturn over the previous 10 days, it was announced on Dec. 8 by L. E. Minkel, S-P Vice-President of marketing.

Lark and Hawk retail deliveries for the month of November increased 14% over the total for October, Mr. Minkel added.

"An upward trend in sales of models equipped with the Lark's new 112 horsepower, six-cylinder engine, and a growing customer interest in Studebaker's new 113 inch wheelbase Lark Cruiser sedan are evident in our sales expansion," Mr. Minkel explained. Sales of the 1961 Gran Turismo Hawk are also exceeding earlier expectations.—V. 192, p. 1754.

Sundstrand Corp.-To Supply Boeing-

Sundstrand Corp.—To Supply Boeing—
Sundstrand Aviation, division of Sundstrand Corp. has announced that they have been selected by the Boeing Airplane Co. as the supplier for the secondary power sub-system on the Boeing 727, a new model aircraft—the nation's first three-engine jetliner.

This major sub-system provides a combination of constant frequency A.C. power generation and electric starting for the engine in a single unit. This is a new design derivative of the Sundstrand constant speed drive now standard on the Boeing 707, 720, B-52, KC-135 and numerous other military and commercial aircraft.

The model 727 will be a short-to-medium range craft able to carry 70 to 114 passengers at a cruising speed of 560 to 600 miles per hour. Eastern Air Lines and United Air Lines have signed contracts with Boeing for the planes totaling more than \$350,000,000. Deliveries are to start in late 1963. Each plane will cost more than \$4,000,000. It is believed that these contracts represent the largest order for any commercial aircraft to date.—V. 192, p. 1860.

Supronics Corp.-Net Up-

Supronics Corp.—Net Up—

Supronics Corp., electrical construction specialists, equipment distributors, and engineers, released figures for the fiscal year ending Aug. 31, 1960 at a board meeting held Dec. 5, 1960.

Total net sales for the company reached a high of \$4,679,036 as compared to \$3,265,434 for fiscal 1959.

The total consolidated net profits for the company and is divisions; Superior Electric Construction Co., Inc. and O.K. Electric Supply Division, amounted to \$149,827 compared to \$125,662 for the previous year. This represents an increase of 19.2%, or 48 cents earned per share in 1960 compared to 40 cents in 1959 based on 315,000 shares outstanding on Aug. 31, 1960 after public financing.

It was announced by Lester Kaufman, President of the corporation, that a 5% stock dividend was declared Dec. 5, 1960 on the common stock. This stock dividend was declared Dec. 5, 1960 on the common stock. This stock dividend is payable Jan. 18, 1951 to stockholders of record on Dec. 30, 1960. However, of a total of 315,200 shares outstanding, dividend payment has been waived on 150,900 shares owned by management. In cases where fractions occur a cash payment will be made computed at the Dec. 5, 1960 market price.

Mr. Kaufman also announced that the \$1,800,000 contract for the electrical construction phase of the Titan I Inter-Continental Ballistics Missile (ICBM) program at Beale Air Force Base in California has been increased and that the company has been directed to proceed with this additional work which is estimated to be in excess of \$1,000,000.—V. 191, p. 1817.

Swift & Co.—Annual Report—

The company processed and sold more products in 1960 than in any ear in its history. Net earnings and dollar sales, however, were just not the 1959 totals, president Porter Jarvis declared in his annual sport to shareholders.

**Rot earnings for the 1960 fiscal year which ended Oct. 29 were \$18,412,767 compared with the 1959 net of \$19,067,844. Earnings per

share this year were \$3.09. In 1959 they were \$3.20. The 1960 net averaged 8/10ths of a cent for each Swift sales dollar—the same as last year.

last year.

Total dollar sales by all divisions were \$2,442,542,157 which represents a 1.3% decline from the 1959 total of \$2,475,494,013. This drop was due to lower prices in several basic product lines.

"Earnings in 1960 reflect the narrow margins which prevailed in the meat packing industry, particularly in the second half of the year," Mr. Jarvis reported.

Dairy and poultry operations reported gains in both earnings and les. New specialized products for industrial use have broadened profit portunities in the fields of adhesives, soaps, and detergents, and t-based chemicals. Farmings of the A. C. Lawrence. Leather Company vision and the company's insurance affiliates improved.

Swift's operations in edible fats and oils, soybeans, and agricultural nemicals were profitable, but contributed less in earnings than last

chemicals were profitable, but contributed less in earnings than last year.

"Swift's foreign business is progressing on a satisfactory basis, except for the loss in volume and earnings from Cuban operations," Mr. Jarvis declared. "During the year our Cuban business was intervened and later expropriated by the Castro government. This selzure included the physical properties, inventories, cash, and accounts which represent a net loss of \$2,782,857. This net loss has been charged to accumulated earnings. Earnings of Swift Canadian Co., Limited, were favorable, although somewhat below 1959.

"New processing plants and distribution units are being built. One of the current major projects is the new meat packing plant at Rochelle, Ill., to be completed late in 1961. Modernization of plant and department layouts and use of cost-reducing equipment are producing more efficient operations. We are making use of several cost-control tools and techniques. These include standardization of methods and costs, maintenance management, supply inventory controls, plus other equally effective procedures."

Several plants and distribution units which showed little hope of deviloping reasonable profits have been closed, Mr. Jarvis said. In most instances, operations of these plants have been consolidated with more modern facilities.

Added emphasis is peing given to the development and sale of more consumer-packaged processed food items.

ore modern facilities.
Added emphasis is being given to the development and sale of more onsumer-packaged, processed food items. Recent innovations in prodets and labor-saving methods and equipment show considerable romise, according to Mr. Jarvis.

promise, according to Mr. Jarvis.

"Finpointing major achievements in research in any single year, is sometimes difficult," the Swift President declared. But, every once in a while-there is a break-through that promises far-reaching results. Such may be the case of Profen Tendered beef. This patented process involves injection of a natural food enzyme into cattle just prior to processing. All beef contains enzymes which help produce tenderness when the meat is allowed to age. Swift's new process adds enough additional enzymes to produce the desired tenderness when the meat is heated.

heated.

"Processing is now carried on in five plants in the United States and one in Canada. Distribution of this new tendered beef will be expanded as soon as processing facilities can be installed in other

plants.
"In the nonfood lines a scuff-resistant leather and chemical specialty products, such as metallic soaps and resin plasticizers are some of the newest products of company research."
In discussing prospects for 1961, Mr. Jarvis said the trend of the national economy is difficult to discern. More clearly is the fact that production and marketing of basic agricultural products are at a high level. The demands of a growing population should provide Swift & Co. with favorable opportunities in the year ahead.—V. 191, p. 2249.

Universal American Corp.—AMF Contract—

This corporation announced on Dec. 12 that its engineering and instruction subsidiary, Paul Hardeman, Inc., of Stanton, Calif., has ceived a contract from American Machine & Foundry Co. to install-launching systems at four Titan missile bases.

This agreement brings to a total of \$20,000,000 the Hardeman Co. contracts with AMF for these systems, Francis S. Levien, UA President said. The Hardeman backlog of missile work contracts amounts to \$65,000,000.

to \$65,000,000.

Hardeman has been engaged in installing the Titan launching system at Lowry Air Force Base. Under the terms of the AMF contract it will now undertake similar projects at the following Air Force bases: Ellsworth. S. D.; Beale, Calif.; Larson, Wash., and Mountain. Home, Idaho. This brings to a total of 54 Titan launching systems the Stanton, Calif., firm is installing.

The company is engaged in various aspects of missile work at 11 missile bases in the United States and is the only firm so extensively involved.

missile bases in the United States and is the only firm so extensively involved.

Paul Hardeman, subsidiary President, stated that currently the company employs approximately 1,800 people and expects this total to reach 6,000 within 12 months. An extensive training program for supervisory personnel has been under way, and the transition will be relatively smooth, Hardeman said. By the middle of 1961, company personnel will be at work on 121 missile underground silos, or systems, in various parts of the nation.

Paul Hardeman, Inc., is basically an engineering and construction firm specializing in the design and erection of testing, launching and related facilities for guided missiles. A pioneer in this field, the company has helped build most of the important missile centers in the nation. It also has participated in the design and construction of facilities for such missiles as the Atlas, Jupiter, Titan, Vanguard, Bomarc, Navaho, Redstone, and Thor.

In addition to extensive work in the missile field, Hardeman also engages in a variety of industrial projects.—V. 192, p. 2065.

Wichita River Oil Corp.—Reorganization—

Wichita River Oil Corp.—Reorganization—
This corporation a producer of crude oil and natural gas in Texas and Oklahoma announced on Dec. 12 a Board reorganization which indicated a shift in control of the American Stock Exchange listed company. Elected president and chief executive officer was Stuart M. Berkman, a New York City tax attorney and a member of the firm of Nathan Berkman & Co.
Mr. Berkman heads a group of investors having extensive and diversified interests in the oil and gas industry. Included in these holdings is the Blue Dolphin Oil Corp., of which he is a director and stock-holder, which company has acquired for investment purposes a substantial amount of the common stock of Wichita River. Blue Dolphin's operations have been directed chiefly toward the development of oil production through waterflooding techniques in the Tri-State area of Illinois, Indiana and Kentucky.

Five new directors were appointed to the eight-man Board. The

Bank clearings this week will show a decrease compared with a year ago. Preliminary figures compiled by us, based on telegraphic advices from the chief cities of the country, indicate that for the week ended Saturday, Dec. 17, clearings from all cities of the United States from which it is possible to obtain weekly clearings will be 7.0% below those for the corresponding week last year. Our preliminary totals stand at \$28,272,976,572 against \$30,419,728,000 for the same week in 1959. At this center there is a loss for the week ending Friday of 4.3%. Our comparative summary for the week follows:

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday, and the Saturday figures are not available at time of going to press. Accordingly, in the above, the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below we are able to give the final and complete results of the week previous — the week ended Dec. 10. For that week there was an increase of 0.1%, the aggregate of clearings for the whole country having amounted to \$25,535,391,538 against \$25,522,716,905 in the same week in 1959. Outside this city there was an increase of 8.6%, the bank clearings at this center having registered a loss of 2.9%. We group the

cities according to the Federal Reserve Districts in which they are located and from this it appears that in the New York Reserve District (including this city) the totals record a decrease of 3.7% but in the Boston Reserve District the totals register an increase of 2.2% and in the Philadelphia Reserve District of 2.8%. In the Cleveland Reserve District the totals show an improvement of 6.5%, in the Richmond Reserve District of 9.3% and in the Atlanta Reserve District of 4.7%. The Chicago Reserve District has managed to enlarge its totals by 3.5%, the St. Louis Reserve District by 4.0% and the Minneapolis Reserve District by 9.4%. In the Kansas City Reserve District there is a gain of 6.8%, in the Dallas Reserve District of 4.0% and in the San Francisco Reserve District of 3.2%.

Commercial and industrial loans decreased a net of \$209,000.000.

Commercial and industrial loans decreased a net of \$209,000.000.

This lowered the total of such loans at these banks to \$31,540,000,000. This figure was \$1,506,000,000 higher than the total a year earlier. Since midyear, commercial and industrial loans have decreased by \$105,000,000, compared to an increase of \$1,552,000,000 in the corresponding portion of last year. Loans to non-bank financial institutions decreased \$89,000,000.

Holdings of Government securities increased \$95,000,000, largely reflecting an increase of \$96,000,000 in treasury certificates.

Time deposits other than interbank increased \$110,000,000, of which \$75,000,000 was in deposits of individuals, partnerships, and corporations.

Borrowings of weekly reporting member banks from Federal Reserve banks increased \$14,000,000 and borrowings from others increased \$840,000,000. Loans to domestic commercial banks increased \$615,000,000.

Manufacturing Co.; Paul Cohen, president and director of Technical Tape Corp.; Irwin Lubalin, director of British Industries Corp.; Stuart T. Parson of the Wall Street firm of J. R. Williston & Beane; and Miles L. Rubin, chairman of the board of Detroit Industrial Products Corp. and member of the law firm of Rubin and Rubin. Continuing in their positions as directors of Wichita River are Joseph F. Martin of Wichita Falls, Texas; Frank W. McCabe, president and director of the National Commercial Bank & Trust Co., Albany, New York, and Francis D. Wells, partner of Coudert Bros., New York, New York, Mr. B. L. Bryans, Jr., assistant secretary has been promoted to the office of treasurer.

Mr. Berkman indicated that he and his associates believe that there is a good growth potential in Wichita River through the full development and exploitation of its existing properties, as well as in the acquisition of additional oil and gas production and diversification of the present operations. He further indicated that consideration would be given to merger or consolidation with other oil and gas companies.

Wilson Brothers-Acquires-

Houze Glass Corp., Point Marion, Pa., 50-year-old glass manufacturing company, has been acquired by Wilson Brothers, it was announced on Dec. 13 by Maurice Parker, Chairman of the Board of Wilson. All of Houze's stock was acquired from Thomas Mellon Evans, Pittsburgh industrialist and head of H. K. Porter Co. and Crane Co., in exchange for an undisclosed number of shares of Wilson Brothers common stock.

Wilson Brothers common stock.

House will operate as a subsidiary with its present management, including R. M. Pattison, President. The company makes a variety of colored technical and art glass, including pressed glass, colored machine-drawn glass, handblown colored flat glass, and fiberglass. Most recent of its developments is a high-strength fiberglass product known as "Hi-Mod" developed for the United States Navy on a research and development contract and now available commercially. Its main uses rest in the missile and aircraft field, where its weight/strength ratio, approximately 20 times that of steel, is finding many applications.

Wilson Brothers is in the fiberglass business through its affiliate, Parallite Manufacturing Co., Export, Pa., which uses a technique of glass making and resin impregnating complementing the Houze operations. Mr. Parker said "an immediate expansion of the plastics and glass fiber activities will be undertaken utilizing the 260,000 square foot Houze facility."

Scaife Co., Oakmont, Pa., also a subsidiary of Wilson Brothers.

Scaffe Co., Oakmont, Pa., also a subsidiary of Wilson Brothers, is a producer of high-pressure deep-drawn missile booster cases, including those for the Falcon and Matador missiles. Scaffe has developed an exceptionally high-strength alloy steel, "MX-2." which can be employed for the deep drawing and fabricating of high-pressure steel vessels which are now being marketed. Fiberglass tanks may be used for many similar applications where strength/weight ratios are resistant to corrosion.

Mr. Evens has agreed to hold the Wilson Prethers took acquired

ratios are resistant to corrosion.

Mr. Evans has agreed to hold the Wilson Brothers stock acquired in the exchange as an investment.

Wilson Brothers, listed on the American Stock Exchange, manufactures an integrated line of industrial air compressors, kitchen equipment and gas and electric glass-lined water heaters for residential, commercial and industrial use. It is also engaged in engineering and research, the design, fabrication and erection of highway bridges, and the manufacture of textiles.—V. 192, p. 2374.
