Allis-Chalmers Manufacturing Co.—Year-End Statem't

The following is a statement by R. S. Stevenson, President, Allis-Chalmers Manufacturing Company.

"After analyzing the factors which will affect Allis-Chalmers' business in 1961, we are of the opinion that sales volume will be as good as 1960 and that profits should be better than last year's disappointing results.

"We base this judgment on the outlook in these three major sectors of the economy:

"(1) It appears that gross farm income will at least equal that for 1960. Granted reasonable weather conditions, farmers should return to normal farm equipment purchasing patterns and dealers will be bringing their inventories up to usual levels.

"(2) Actual highway construction should be substantially greater in 1961 than the work carried on in 1960. This should stimulate construction machinery buying and distributors will need larger floor stocks.

stocks.

"(3) Although there will be some shifts of emphasis among our various lines of electrical and industrial equipment, it seems probable that total 1961 orders for captal goods will come very close to 1960 levels. We are hopeful that prices in this area will be firmer."

—V. 191, p. 897.

American Electric Power Co. Inc.—1961 Budget—New

American Electric Power Co. Inc.—1961 Budget—New Generating Unit—

A 1961 construction budget of more than \$116 million—more than half of it slated for electric power plant construction—has been announced by American Electric Power Co.

This compares with 1960 expenditures of \$100 million.

According to Philip Sporn, president, this year's outlay will bring to more than \$1.5 billion the capital expenditures of AEP's six operating utilities since the end of World War II.

Close to \$35 million has been allocated for extension or improvement of American Electric Power System's transmission and distribution lines.

ment of American Electric Power System's transmission and distribution lines.

The bulk of the AEP System power-plant construction in 1961 will be carried on by Appalachian Power Co., Sporn said. The subsidiary is expected to spend close to \$62 million. Included in this is work on Appalachian's 440,000-kilowatt, two-dam hydro project at Smith Mountain on the Roanoke River in Virginia and the new 225,000-kilowatt generating unit at its Clinch River Plant at Carbo, Va.

Among the remaining AEP subsidiaries, Ohio Power Co. will invest an expected \$25 million—a drop in expenditures from the estimated \$39.4 million in 1960, made possible by virtual completion of its current major power plant work last year, Sporn noted.

Indiana & Michigan Electric Co. will spend \$18 million and Kentucky Power Co. will disburse the biggest budget in its history—\$8.5 million—largely for the Big Sandy Plant, its first major power station.

Wheeling Electric Co. plans to spend \$1.6 million and Kingsport (Tenn.) Utilities, Inc., over \$500,000, Sporn said.

The second of the world's largest steam-electric generating units is

The second of the world's largest steam-electric generating units is ow in commercial operation on the Ohio River, it was announced on

now in commercial operation on the Ohio River, it was announced on January 3.

The 500,000-kilowatt unit is located at the Philip Sporn Plant, owned jointly by Ohio Power Co. and Appalachian Power Co., operating subsidiaries of American Electric Power. The new \$65-million unit, however, is owned solely by Ohio Power.

Like its sister unit, in operation since July at the AEP System's Breed Plant on the Wabash River in Indiana, the new Sporn facility is larger than any other generating unit in commercial use today. It is capable of fulfilling the electric requirements of more than a million average American homes.

It boosts Sporn Plant's generating capability to 1,100,000 kilowatts, making that station:

The 2nd largest power plant in the world built by an investor-owned

It boosts Sporn Plant's generating capability to 1,100,000 kilowatts, making that station:

The 2nd largest power plant in the world built by an investor-owned public utility;

The 5th largest steam-electric generating plant in the U.S.; and The 7th largest generating plant of any type in the United States. In producing its half-million kilowatts, the new Sporn unit uses steam at a temperature of 1,050 degrees Fahrenheit and pressure of 3,500 pounds per square inch—well above the critical pressure level at which water is transformed into steam without boiling.

It employs the world's largest—and the country's second—water-cooled generator in a pioneering move designed to increase efficiency, capacity and compactness. The only other water-cooled generator operating in the United States is the 40,000-kw turbine-generator at the Logan Plant of Appalachian Power, installed in 1937. The Philip Sporn turbine-generator unit, designed and built by General Electric Company, consists of high-pressure and low-pressure sections located side by side in the turbine room. Each section weighs 875 tons and is 112 feet long, nearly 21 feet wide and 15½ feet above floor level.

The turbine receives its three-million pounds of steam an hour from a 23-story boiler that contains 220 miles of piping. The boiler was made by Babcock & Wilcox Co. Spent gases from the furnace exhaust through a concrete stack 550 feet tall.

The unit's design and equipment make it—along with its Breed Plant twin—among the most efficient units ever operated to convert fuel energy into electrical energy, according to Mr. Sporn.

Its heat rate—the number of British thermal units in its coal required to produce one kilowathour of electricity—is expected to be

close to 8,500 Btu per kilowatthour. This would be the lowest heatrate ever achieved in a unit operating on a commercial basis, Sporn said.

said.

Sporn Plant's total generating capacity—raised to 1.1-million kilowatts by the new unit—makes it the largest of 15 major plants on the AEP System. It also increases the capacity of the System to 6½-million kilowatts.

"This figure is almost triple the System's capacity 10 years ago," the public utility official said, noting that the new unit "makes the System's territory, particularly the Ohio Valley, more attractive to heavy energy-consuming industry than ever before."

In addition to the new facility, Sporn Plant has four identical 150,000-kilowatt units. The first of these went into operation in 1950 and the last in 1952.—V. 192, p. 2217.

American Machine & Foundry Co.-Financing News

The Board of Directors of American Machine & Foundry Co. proposed on Jan. 3 a two-for-one split of the comp. T's common stock subject to approval by the stockholders at the regular a nual meeting on April 18, it was announced by Morehead Patterson, AMF Board chairman

ing on Apri 18, it was announced by Morehead Patterson, AMF Board chairman

Under this proposal AMF stockholders will be asked to authorize an increase in the common stock from 10,000,000 shares of \$3.50 par value to 20,000,000 shares at \$1.75 par value. Mr. Patterson said that the effective date of the spit would be about April 20, 1961 and the new certificates would be issued about May 15, 1961.

Mr. Patterson said that if the proposed stock spilt is approved, he intends to recommend that the Board of Directors increase the common stock dividend from the present annual rate of \$1.60 per share to \$1.80 per share, effective with the June 1961 dividend. This would result in an annual rate of 90 cents per common share after the two-for-one stock spilt.

The Board of Directors also voted to issue approximately \$40,000,000 of convertible subordinated debentures for offering to stockholders to reduce short-term loans and furnish additional working capital to finance the company's expanding international and U. S. business. The interest rate, conversion price and amount of the debentures will be determined later; however, it is estimated by the company that the number of shares to be set aside for full conversion will not exceed 5% to 6% of the outstanding common stock.

Mr. Patterson also announced that the Board of Directors decided to call all the company's 5% convertible subordinated debentures due Feb. 1, 1977, for redemption on Feb. 23, 1961. The redemption price is 104% of the principal amount of the debentures being redeemed and the accrued interest from Feb. 1 to Feb. 23 will be \$3.06 per \$1,000 principal amount.

In announcing the call, Mr. Patterson emphasized that the debentures, convertible into common stock at \$19.125 per share, are selling at a high premium and that most debenture holders are expected to

announcing the call, Mr. Patterson emphasized that the deben-convertible into common stock at \$19.125 per share, are selling high premium and that most debenture holders are expected to advantage of the opportunity to convert their debentures into

common stock. Since Feb. 1 is a coupon date, debenture holders wanting to cash the coupon and convert must hold the debentures until that date before presenting them for conversion. Debenture holders wanting to convert prior to Feb. 1 must deliver debentures with the Feb. 1 coupon attached and they will not receive payment for the Feb. 1 coupon.

Mr. Patterson said debenture holders wishing to convert debentures into common stock must deliver them to Irving Trust Co., Corporate Trust Department, 1 Wall Street, New York 15, N. Y., by not later than the close of business on Feb. 23, 1961. He emphasized that debentures delivered after that date cannot be converted into common stock.

The AMF Board chairman pointed out that each \$1,000 debenture is convertible into 52 shares of common stock plus cash for the fraction and that at the current annual dividend rate of \$1.60 per share, the holder of a \$1,000 debenture would receive \$83.20 annually in dividends after conversion compared with interest of \$50 which he has been receiving. The total market price of the stock received on conversion should approximate the market price of the converted debentures.

Mr. Patterson said the principal reason for calling the 5% debentures was that the outstanding debentures had been reduced to only \$2,280,-700 and it was felt that these should be redeemed prior to the offer to stockholders of the proposed new issue.—V. 103, p. 3.

American Molded Fiberglass Co., Paterson, N. J.—Files With Securities and Exchange Commission—

The company on Dec. 27, 1960 filed a letter of notification with the SEC covering 37,043 shares of common stock (par 40 cents) to be offered at \$4 per share, through Vestal Securities Corp., New York. N. Y.

The proceeds are to be used for general corporate purposes.—V. 191, p. 2086.

American Seating Co.—New Contract—

American Seating Company has been awarded a contract to install 50,000 seats in the new District of Columbia Stadium, future home of the new Washington Senators baseball club, the Washington Redskins football club, and the George Washington University football team.

football club, and the George Washington University football team. The installation, one of the largest in the history of public seating, will be completed in time for the opening of the 1961 football season, replacing the 28,669 seat Griffith Park Stadium that had been used by the Washington Redskins and the old Washington Senators.

To be able to use the field efficiently for both baseball and football, an unusual feature has been designed into the D. C. Stadium. A section of the lower stands along the third base line is mounted on rollers. To convert the stadium for use as a football field, the section is swung out into left field at a 90 degree angle so that it faces the first base stands. The vacancy in the stands is filled with 4,339 additional seats. The stadium is designed through the combined architectural services of Dahl-Ewing-Osborn, architectural engineers. Builder is McCloskey & Company, Philadelphia.

Total cost of the new stadium will be approximately \$19,800,000. It will be owned and operated by the District of Columbia Armory Board.—V. 192, p. 2323.

Armco Steel Corp.—President's Remarks-

Logan T. Johnston, President, made the following observations on the steel industry and his company on Jan. 6:

"At Armco, we believe that steel production in the coming months will move considerably above its present level.

"At Armoo, we believe that steel production in the coming months will move considerably above its present level.

"Although the upturn will be gradual, the first quarter of 1961 should show a definite improvement over the last quarter of 1960.

"In general, 1961 is likely to be the reverse of 1960—a year in which there was strong demand for steel in the early months, followed by substantially reduced steel buying in the final quarters.

"Our measured optimism is based on the belief that total steel consumption in 1961 will be at about the same level as in 1960, but steel production will be more closely related to steel usage, resulting in a better balanced quarterly average.

"To support this level of steel usage, however, steel buying will move upward as steel-using industries reach their minimum inventory working levels. For nearly nine months they have been paring their inventories.

"This pattern of inventory cutting may continue for a brief period, but when it is completed steel users will need to buy as much steel as they require for current consumption. That in itself will increase steel demand. And any rise will be translated immediately into orders for the mills.

"In the year ahead, our industry will continue to plan and build for the future. Special emphasis will come on stepping up merchandising efforts and research on new products and the processes to make them, and on the broad continuing effort to increase efficiency.

"At Armoo we have great confidence in both the future of steel and our national economy. We spent \$60 million this year to further increase efficiency and to broadem our product lines. In 1961, we plan to continue our building program, and will raise our capital expenditures for the year to \$100 million. A number of new high-performance facilities will go into operation in 1961, and we will complete a 100% expansion of our Research Center.

"The traditional emphasis on producing sheer tons of steel is rapidly diminishing. In its place is a new accent on more sophisticated steels ta

Armour & Co.—Expansion—

Three New York construction concerns figured on Dec. 29 in a mass signing with Armour Agricultural Chemical Co. of nine contracts for construction and services to implement a \$60,000,000 expansion of Armour's plant food business.

William Wood Prince, President of Armour & Co., the parent company, said the contracts cover construction of a nitrogen plant in Colbert County near Cherokee, Ala., and a phosphate plant in Polk County, Fls. Upon completion in 1962 these plants will approximately

triple Armour's present production of nitrogen and concentrated phosphate plant food materials.

The three New York firms awarded contracts are the M. W. Kellogg Co., the Chemical Construction Corp. and Titlestad Corp.

"The significance of today is that upon the completion of the contracts awarded Dec. 29, Armour & Co.'s investments in the chemical business will equal those of its food business." Mr. Prince said.—

Atlantic City Electric Co .- Year-End Statement-

· Celebrating its 75th Anniversary this year, Atlantic City Electric Co. is looking forward to the continuation of its record-making growth.

James P. Hayward, President of the Southern New Jersey utility in a year-end report and forecast for the coming year, pointed out that while 1960 was a year in which the American economy as a whole followed a somewhat uncertain path, electric utilities in general—and Atlantic City Electric in particular—advanced substantially toward the level of power-producing capability expected by the end of the decode

decade.

Hayward said that new company construction projects including the new \$27 million B. L. England Generating Station at Beesley's Point, N. J. was a major item in construction plans that totaled \$116 million which had been budgeted by the company for the next five years. The Accounting and Data Processing Center, on the Black Horse Fike near Pleasantville, N. J. was completed last June and takes its place as one of the most advanced installations of its kind in the business world today. This Center has aroused the interest of business people throughout the United States and foreign countries. Large steel towers spanning the Delaware River support a new transmission line connecting Philadelphia Electric Co. and Atlantic City Electric Co. This interconnection, which went into service Dec. 5, provides an additional source of electricity to the rapidly growing western portion of the company's service area which has long had the benefits of a lower capacity interconnection.

By the end of 1965 the company will have well over one-quarter

billion dollars invested in facilities to serve Southern New Jersey. This will be over five times the company's plant investment of 1947. Hayward said that the total construction program during 1961 is \$22,-770,000. He reported that the new England Generating Station, the first power plant to be built in the coastal region since 1911 is scheduled for completion in 1962. The first generating unit installed in this new plant will have an expected capability of 144,000 kilowatts including 8,000 kw of Auxiliary Diesel Generators.

Use of electricity in Southern New Jersey increased 7% over the preceding year, while revenues were up 5% for the same period. The average use of electricity by residential customers was 107 kilowatt hours greater than in 1959. Peak net system demand was 349,600 kilowatts reached in August—an increase of 17,400 kilowatts over 1959.

Hayward reported there were 60 new industries and expansions of present industries added to the company's lines in 1960, averaging more than one each week of the year. A total of 5,900 new customers were added during the year bringing the total number of customers to 231,900.

Atlantic City Electric will continue several hard-hitting sales campaigns designed to promote the total electric home including electric heat and all-year electric air-conditioning. Hayward said that there are nearly a million electrically-heated homes in America today and

Corporate and Municipal Financing Ahead By SIDNEY BROWN

A lively week in corporate bonds and tax-exempt issues is promised commencing today, Jan. 9. The dollar volume anticipated amounts to \$289.8 million. However, new equity issues show a precipitous drop, leaving the week's estimated financing at about \$300 million.

The succeeding three weeks make up a four week float that weakly creeps ahead of last week's projection by about \$80 million with most of this attributable to corporate bonds and not to equity issues, or surprisingly, to municipal securities. Based on information obtained from public and *Chronicle's* private sources, the table just below should indicate the estimated future financing in corporate bonds, common and preferred stock and municipals for the next 28 days. If there are no changes in the dates assigned by the issuers, or their underwriters, and other things remain the same, then the demand for capital will be as follows:

FOUR WEEK FINANCING TABLE

	Corporate Bonds	Corporate Stocks	Total		Total of Both	
	the second second second	Stocks	Corporates	*Municipals	Financings	
Jan. 9-Jan. 13	3 \$112,504,000	\$14,447,500	\$126,951,500	\$177,314,000	\$304,265,500	
Jan. 16-Jan. 20	0 46,125,000	44,824,900	90,949,900	200,217,000	291,166,900	
Jan. 23-Jan. 2	7 20,100,000	20,413,300	40,513,300	113,473,000	158,986,300	
Jan. 30-Feb.	972,500	21,440,000	22,412,500	11,715,000	34,127,500	
Total	\$179,701,500	\$101,125,700	\$280,827,200	\$507,719,000	\$788,546,200	
	ata \$112,154,400		\$202,341,970	\$507,263,000	\$709,604,970	

^{* \$1} million or more.

CHANGES IN THE PAST WEEK

Public offerings of corporate securities in the shortened week following New Year's weekend through Jan. 4 were as follows: two secondaries amounting to \$17,845,790, one equipment trust certificate of \$8,500,000, and three relatively small stock issues totalling \$4,085,000. Privately placed corporates, other than the Trans World Airlines' financing, amounted to \$16,100,000. The negotiated T.W.A. issue of \$265 million was managed by Dillon, Read & Co., Lazard Freres & Co., and Lehman Bros.

Additions to the Chronicle's calendar of corporate offenings with officed sales determined.

Additions to the Chronicle's calendar of corporate offerings with affixed sales dates surfacely seem quite impressive. But actually the dollar volume of calendar issues comes primarily from the backlog of offerings without dates. As discussed below, the total backlog of issues with and without assigned dates did not significantly change from last week's figure. Added, then, to the Jan. 5 corporate calendar were \$135,951,290 in equities and \$148,775,000 in bonds.

It should be noted that many of the issues added to the corporate calendar are scheduled to appear in the weeks subsequent to the oncoming four-week float. Therefore, they are not reflected in the financing table above.

Therefore, they are not reflected in the financing table above. Municipal sales in the same shortened week, as described above, came to only \$11,105,000. And additions of State and local securities to the *Chronicle's* Municipal Calendar of Jan. 5 were in the sum of \$46,566,000. The rate of increase has slowed down considerably. In the non-federal public sector there is a tug of war going on which has nothing to do with problems of the business cycle directly. The population increase and accompanying need for public service and works continue to plague the tax-debt limit of most communities and states. A rising business cycle, of course, will help the tax-borrowing resources, but even in prosperity there will be a greater need for public facilities than the capacity to provide the necessary revenue. There's no problem in the capital market in providing funds, leastways, for this year; the problem mounts as debt limitations are reached and bond buyers become leary of borrowers' ability to repay. borrowers' ability to repay.

Last year's municipal financing was slightly below that of 1959 and, despite desires evidenced in bond elections-authorizations, it looks as though 1961 will about match

THE TOTAL BACKLOG DECLINES SLIGHTLY

Sizable shifting has occurred in the backlog which leaves, however, the total about the same as last week's. Thus, for example, bonds without dates declined as many issues entered the category of bonds with dates. The corporate bond float still manages to remain about \$80 million less than that for last week even though \$100 million of the T.W.A. financing went through last week (\$165 million was privately placed with banks and insurance companies). The backlog of equities is about the same and municipals came up by \$70 million. (Data in parentheses below denote number of issues.)

	To	tal Bac	cklog	1
	This Week		Last Week	
Corporate bonds with dates Corporate bonds without dates	\$361,703,800 98,716,200		\$253,454,200 257,491,300

The securities (new financing) market appears to be marking time waiting for the Eisenhower budget to be presented and an indication of what its ultimate fate will be. Moreover, it seems to be waiting for Kennedy's legislative program and the reaction

to it. And most importantly, the securities market is seeking signs of the sources which could halt and reverse today's business and industrial decline. In short, before financing decisions are made, answers will first be sought to such questions as: How much will the new Administration spend? Of that, how much, if any, will require deficit financing? And, in turn, of that amount what portion will be monetized through the banking system? Will there be, for example, a dynamic surge of public spending on roads and schools? Too, will there be a acceleration of depreciation allowances and a cut in personal income taxes?

The answers to these and other similar questions avoluted in the surgestions.

The answers to these and other similar questions, evaluated in the light of past experience with our Government's use of Keynesian policies, has made it possible for firms up until now to draw realistic conclusions upon which to act.

THE ECONOMIC PHILOSOPHY OF THE FUTURE

But the framework for policy making decisions in the private sector may change with the new Administration in a totally different direction. And this will inhibit or make impossible private business decisions. Past experience as a crutch to rely upon may well go out of the window if Secretary of Labor designee Arthur J. Goldberg convinces the President and Congress to set up a national tripartite council of labor, management and the public. Such a council, according to Mr. Goldberg, would in peacetime, as in the last war, chart economic solutions in the labor-management field. Further than that, Mr. Goldberg would have such a council outline economic growth programs (perhaps with the Council of Economic Advisers to render research assistance and technical advice) and implement the maximum employment and production goals contained in the Employment Act of 1946.

A small scale forerunner as to how such a group might function and what it might propose will soon be provided by two parties involved in the problems of one industry—the steel industry. This meeting of management and labor leaders in the steel industry cannot be compared to a national tripartite council. The latter supposedly, will confine itself to fact finding and recommendations and expect its recommendations to be accepted. Could any firm or industry, or labor group for that matter, stand up to such a council's recommendation?

Should the new President propose and Congress favorably dispose of this proposal

Should the new President propose and Congress favorably dispose of this proposal by Goldberg, we can anticipate the end of the Federal Reserve's independence, the destruction of a free money and capital market, and the directing of the amount, timing, and direction of private corporate financing plans.

timing, and direction of private corporate financing plans.

This welfare state will be totally different from anything we have had here up until now. It will transcend Federal intervention in the economy in the form of contra-cyclical fiscal and monetary policy to a new amalgamation of control over the economy. Our economy will, under such a national, voluntary council, coalesce individual and group action to a degree that would make the NRA's attempt at the corporate state as antiquated as the propeller compared to the jet airplane. It would not be collectivism envisioned by the marxist, nor the Quaker's way to obtain decisions. The framework will no longer permit market decisions, and will no longer leave the private sector free to disagree with governmental decisions. It will cartelize everyone to keep in line, or retire dissidents from economic life. Management, labor, banking and the financing industry will be leading an altogether different life—the free market system will have found its master.

A glimpse of the function, organization and goals of a national triportite council.

A glimpse of the function, organization and goals of a national tripartite council is provided by Mr. Goldberg in his recent address before the National Association of Manufacturers—reproduced in full in the Chronicle, pp 10 ff, Jan. 5, 1961. The direction is the European progression toward a new infrastructure, just below the level of the state, which provides for coordinated economic intervention in all major sectors of the economy and displaces market decisions with "human management" ones. What happens to the Judaic-Christian concept of individual responsibility and action in all phases of life is a moot question. When it disappears so does free, objective decision-making in the free market.

LARGER ISSUES IN NEXT FOUR WEEKS

LARGER ISSUES IN NEXT FOUR WEEKS

Listed below are the larger issues slated to appear in the period Jan. 9-Feb. 3. Included therein are one preferred and four equipment trust certificates.

Week of January 3: Bowl-Mor Co., Inc., common—78,955 shares, and debentures—\$2,000,000; Drexel Equity Fund, Inc., common—\$5,100,000; Restaurant Associates, Inc., common—245,000 shares; Westminster Fund, Inc., capital—4,000,000 shares; Missouri Pacific RR., equipment trust certificates—\$3,210,000; Brunswick Corp., debentures—\$25,634,400; Iowa Power & Light Co., bonds—\$10,000,000; Montgomery Ward Credit Corp., debentures—\$50,000,000; Pacific Gas Transmission Co., debentures—\$13,260,000; Southern Pacific Co., equipment trust certificates—\$8,400,000. In Municipals—Port of New Orleans, La., \$17,000,000; Los Angeles School District, Calif., \$30,000,000; Louisville, Ky., \$4,800,000; Mobile Board of Water & Sewer Commission, Ala., \$3,000,-000; California (State of), \$95,000,000; Davidson County, Tenn., \$4,200,000; Livonia School District, Mich., \$4,440,000.

Week of January 16: Mortgage Guaranty Insurance Corp., common—155,000 shares:

Week of January 16: Mortgage Guaranty Insurance Corp., common—155,000 shares; Gulf States Utilities Co., common—\$11,500,000; Kansas Gas & Electric Co., bonds—\$7,000,000; New York Central RR., equipment trust certificates—\$4,125,000; Texas Eastern Transmission Corp., bonds—\$30,000,000, and preferred—150,000 shares. In Municipals—Northern Illinois University, Ill., \$7,500,000; Seattle, Wash., \$7,500,000; Alhambra City High School District, Calif., \$4,569,000; Columbus City School District, Ohic, \$7,000,000; Montgomery County, Md., \$11,000,000; New York State, \$63,450,000; Oregon, \$30,000,000; Suffolk County Water Authority, N. Y., \$3,000,000; Contra Costa County Water District, Calif., \$12,840,000; Henrico County, Va., \$5,000,000; Pennsylvania State Public School Building Authority, Pa., \$23,000,000; Marion, Ind., \$4,000,000. Week of January 23: United Financial Corp. of California, common—600,000 shares; Otter Tail Power Co., bonds—\$7,000,000; Texas Power & Light Co., bonds—\$12,000,-000. In Municipals—Maryland, \$20,303,000; Milwaukee, Wis., \$8,495,000; New York City, \$76,500,000; San Diego, Calif., \$5,000,000.

Week of January 30-February 3: Midland Capital Corp., common—\$16,250,000. In Municipals—New Mexico, \$8,000,000.

January 5, 1961.

thousands more will be added in 1961. He estimated there will be four million such homes by 1968. During the past year A. C. E. added 501 electrically-heated homes to its lines and 600 additional total electric homes are expected to be added during the coming year. Hayward concluded that "as the company has grown with the areaduring the past 75 years, we look forward to an ever increasing expansion of our area and will do everything possible to bring more industry to Southern New Jersey. Looking ahead to the next 12 months, Atlantic City Electric is planning and working toward the establishment of new records in generating capability, production, sales and revenues.

establishment of new records in generating capability, production, sales and revenues:
"Electric service has done much for the American people in the past." Heyward said, "but the electric companies believe even greater possibilities lie ahead. The future holds promises of electrical appliances, equipment and machines, which will make the America of 1960 seem almost primitive. As use of electricity increases, the electric companies will be ready, as they have been in the past, to supply the abundance of electric power the nation will need. Financed in the free market, the nation's investor-owned electric companies—of which Adlantic City Electric is one—will be able to meet in full the power needs of all America."—V. 192, p. 698.

Atlas Credit Corp.—Record Highs-

Atlas Credit Corp.—Record Highs—

This Jenkintown, Pa. corporation in the fiscal year ended Sept. 30, 1960, set new records in the volume of business transacted and in earnings before and after taxes.

Jack L. Wolgin, President, reported that operating revenues for the year rose to \$1,579,773 from \$889,862 in the year ended Sept. 30, 1959, while net income after all taxes and charges, increased to \$447,043 from \$244,097 in the previous 12 months. The fiscal 1960 net earnings were equal to 30.5 cents on the 1,465,856 common shares outstanding, up from 17.6 cents per share on 1,383,215 common shares in the previous year.

The corporation reported a sharp increase in installment notes receivable to \$11,527,328 from \$5,839,374 at the close of the previous year. Mr. Wolgin stated that these "earning assets" will continue to produce income over the years ahead.

He reported that during the past year Atlas financing services were extended to four additional states—Missouri, Maryland, Colorado and Oklahoma, increasing the corporation's service area to 29 states and two Canadian provinces.

The Atlas Credit President stated that while new residential construction during the year was below 1959, there has been a marked increase in demand for property and home improvement financing. This increase has been estimated by trade sources in the range of 15% to 20%. "Our growth has greatly exceeded this industry estimate, and we ascribe this to expansion into new areas as well as more intensive development of existing markets for Atlas financing services."

Discussing the outlook for the current year, Mr. Wolgin said that with the current increased demands for property improvement, "we believe that our business will record further growth in the 1961 fiscal year. At present our business volume justifies this prediction."—V. 187, p. 570.

Avien. Inc .- New Contracts-

Avien, Inc.—New Contracts—
Contracts totalling approximately \$1,190,000 were announced on Jail. 3 by Avien, Inc., Woodside, Long Island, designer and manufacturer of sinstraments, controls, and other electronic products and major systems for aero-space, undersea and industrial use.

The largest of the contracts, approximately \$620,000, was received from North American Aviation for delivery of a group of limit detectors for the Hound Dog missile. The limit detector is a form of checkout equipment used prior to the launching of the missile.

A contract totalling approximately \$575,000 was received by Avien from the Air Force for a Time Temperature Recorder System. This unit is used to measure engine temperatures and other operating characteristics on the T-38 jet trainer aircraft.—V. 192, p. 1607.

Baldwin Enclosures, Inc., Maspeth, N. Y.—Files With Securities and Exchange Commission—

The corporation on Dec. 27, 1960 filed a letter of notification with the SEC covering 60,000 shares of common stock (par 10 cents) to be offered at \$5 per share, through Acme Securities Corp., New York, N. V.

The proceeds are to be used for general corporate purposes.

Bell & Howell Co.-Acquires-

Bell & Howell Co.—Acquires—

The company has purchased Russell Ernest Baum, Inc., Philadelphia manufacturer of folding machines and tits subsidiary. The Liberty Folder Co., Sidney, Ohio, it was announced on Jan. 3. Financial details of the transaction were not disclosed.

The Philadelphia firm is the country's leading manufacturer and distributer of automatic, precision-folding machines used by printers, publishers, bookbinders, mailing services and education institutions. The company also manufactures the folding machine used in the Post Office Department's pilot Speed Mail development.

Roberts said the Baumfolder line of more than 100 automatic folding machine models will supplement Bell & Howell's office equipment line, which now includes inserting and mailing machines manufactured by

Bell & Howell Phillipsburg Co., a New Jersey subsidiary, and microfilm and microfilm equipment manufactured by Bell & Howell and marketed by Burroughs Corp.—V. 192, p. 3.

Briggs Associates, Inc.—Acquired-

See Drexel Dynamics Corp., below.-V. 191, p. 2199.

British American Oil Co. Ltd.—New Terminal—

British American Oil's new \$1.5 million Burnaby marine terminal is nearing completion on the south shore of Burrard Inlet, approximately one mile north of the company's Port Moody refinery, J. T. Lockhart, B-A's Pacific Division Manager, announced on Dec. 29. It will be called Britamoco.

The new distribution center has been built on a five-acre site created by placing 3,700,000 cubic feet of rock and fill into Burrard Inlet. It will replace the original B-A west coast marine terminal at Port Moody, where facilities have become outdated.

Moody, where facilities have become outdated.

Main building of the new terminal is a modern 100 ft, by 200 ft. warehouse which includes a plant for blending lubricating oil base stocks into a number of specialized lubricants.

The terminal features two L-shaped docks. A new 160-ft, dock has been built to serve smaller vessels supplying B.C. coastal points. This dock, which is equipped for metered loading of ships and barges, also has drive-on facilities for trucks delivering package goods. The existing 400-ft, pipeline-type dock will be remodelled and will continue to load deep-sea ships with products for export.

Other terminal facilities include a unique firum-filling system for light oil products, with a separate conveyor for each type; loading racks capable of handling up to 20 railway tank cars at a time; and a highway trestle constructed over the double-track railway main line for safety reasons and to avoid delays in traffic to the terminal.

Vancouver contractors handled all work on the terminal project.

Vancouver contractors handled all work on the terminal project. Earthwork was by Campbell-Bennett Limited, dockwork by Fraser River Pile Driving Co. Ltd., bridge and trestle by Greenlees Pile Driving Ltd., warehouse and facilities by C. J. Oliver Ltd., and piping by the Bay Company, B. C. Ltd. Consultants for the project were Wright Engineers Limited and C. B. Archibald & Associates Ltd.

Above the Barnet highway, between the new terminal and the Port Moody refinery, B-A already has in operation a bulk loading depot with truck loading facilities and storage tanks with a total capacity of 350,000 barrels for gasoline, diesel oil, heating fuels, light oils, solvents and other B-A products. This bulk depot is scheduled for expansion and modernization during 1962.—V. 191, p. 1875.

California-Pacific Utilities Co. --Common Stock fered—Pursuant to a Dec. 27 prospectus, Eastman Dillon, Union Securities & Co. publicly offered 57,986 shares of this firm's \$5 par common stock at \$20.75 per share.

PROCEEDS—The proceeds will go to certain selling stockholders and no part of the proceeds will be received by the issuing company APPOINTMENT—Transfer Agent, Bank of America National Trust nd Savings Association, San Francisco, Calif. Registrar, First West-rn Bank and Trust Co., San Francisco, Calif.

EUSINESS—California-Pacific Utilities was incorporated under the laws of the State of California on May 7, 1928, under the name "Southern Oregon Gas Corp.," which was changed in 1938 to California-Pacific Utilities Co. Its principal executive offices are located at 550 California St., San Francisco 4, Calif. It has no parents and no subsidiaries

On June 19, 1958, Southern Utah Power Co. (Southern Utah) was merged into the company. This statutory merger was considered a pooling of interests for accounting purposes, and accordingly the information set forth herein reflects the combined operations of the company and Southern Utah for the periods covered, unless otherwise indicated.

CAPITAL SECURITIES—The capital securities of the company as of Sept. 30, 1960, and as adjusted to reflect as of Dec. 27 the issuance of 45,454 additional shares of common stock upon conversion of \$750,000 principal amount of convertible debentures, are as follows:

Canterbury Fund, Inc.—Proposes Offering—

Canterbury Fund, Inc.—Proposes Offering—
Canterbury Fund, Inc., 55 Green Village Road, Madison, N. J., filed a registration statement with the SEC on Dec. 29, 1960, covering 150,000 shares of capital stock. The Fund has been organized to serve principally investment clients of Fiduciary Counsel, Inc. and its subsidiary, The Estate Planning Corp. The prospectus lists Charles R. Hook as Board Chairman, Clinton Davidson as President, and Estate Planning as principal investment adviser. The latter's parent, Fiduciary Counsel, will furnish it with research reports and other analytical material. The said parent is a wholly-owned subsidiary of Townsend Management Corp., 59% of whose outstanding stock is held in a voting trust of which Davidson and Raymond E. Hartz, Vice-President of the Fund, are the voting trustees. The Estate Planning Corp. also will serve as the principal underwriter of the Fund's shares.

Cary Chemicals Inc.—Plans Expansion—

Cary Chemicals Inc.—Plans Expansion—

G. F. Blasius, president of Cary Chemicals Inc. has announced plans for the expansion of the company's vinyl polymer compounding and calendering facilities as part of a program calculated to make the company one of the largest fully integrated producers of vinyl products. The plans were disclosed in connection with the joint announcement by Cary and Tennessee Gas Transmission Co. of Houston, Texas, that the companies have entered into a long term production and marketing association. Mr. Blasius said that while his company will continue as an independent, publicly owned corporation, Tennessee Gas will have a substantial investment.

J. J. King, senior vice president in charge of the project for Tennessee Gas, stated that construction of the petrochemical complex will be started in 1961, with completion scheduled for 1962. The petrochemical facilities will be located at Tennessee's 794-acre site on the Houston Ship Channel. The first unit will consist of an acetylene plant with an initial annual capacity of 100,000,000 lbs.; acetylene is one of the principal petrochemical "building blocks." The second unit will convert a major portion of the acetylene into vinyl chloride monomer.

The monomer will be supplier to Cary Chemicals for conversion to

monomer.

The monomer will be supplier to Cary Chemicals for conversion to vinyl polymers and copolymers for use in its compounding, calendering and finishing divisions, as well as for sale to the growing vinyl resin markets.—V. 192, p. 495.

Cerro Corp.-New Name-

Cerro Corp.—New Name—

Cerro de Pasco Corp., a leading U. S. producer and fabricator of nonferrous metals, has changed its name to Cerro Corporation.

The change, effective Jan. 1, was in line with action approved by stockholders at the annual meeting last May.

Robert P. Koenig, Cerro's president, said the new name was adopted in the belief that a more general name, rather than one of local origin, would more readily suggest the scope of our present business and the future expansion of our activities."

The company, which was founded in 1902, was named for the site of its first copper mine at Cerro de Pasco (hill of Pasco) in the Peruvian Andes. The word "Copper," which at one time was part of the corporate name, was dropped in 1951, as the firm was expanding its activities to include production of other nonferrous metals.

Cerro's principal mining and refining subsidiary, which operates primarily in Peru, will retain the name Cerro de Pasco Corp., incorporated in Delaware.

Cerro's domestic fabricating units produce electrical wire and cable, copper and brass mill products and aluminum sheet.

Domestic subsidiaries and divisions include Circle Wire & Cable Corp., Maspeth and Hicksville, N. Y.; Fairmont Aluminum Co., Fairmont, W. Va.; Lewin-Mathes Company Division, Monsanto, Ill.; Rockbestos Wire & Cable Co. Division, New Haven, Conn.; and Titan Metal Manufacturing Co. Division, New Haven, Conn.; and Titan Metal Manufacturing Co. Division, Pane Change— Cerro de Pasco Corp.-Name Change

Chesapeake Instrument Corp.—ONR Contract—

Chesapeake Instrument Corp.—ONR Contract—
A contract for research and development of an improved Sonar system for use in the underwater detection of other vessels by surface ships and fast-running submarines, has been awarded to Chesapeake Instrument Corp. by the Office of Naval Research, as part of the Navy's anti-submarine warfare program. The new contract constitutes an extension of work under Project TOAD, originally initiated for ONR by CIC, and is concerned with the fabrication and assembly of improved designs of unique submarine detecting equipments.

Extensive preliminary trials and evaluation tests of these Sonar devices have been carried out jointly by the Navy and CIC in the deep waters of the Atlantic Ocean. The results generally confirm the theory of operation. Heretofore, the background noise generated by search ships, when underway, has imposed a serious limitation in the performance of Sonar systems. The CIC approach greatly reduces the system self-noise, resulting in considerable improvement in Sonar performance.

James W. Fitzgerald, company president, on his recent return from

system self-noise, resulting in considerable improvement in Solical formance.

James W. Fitzgerald, company president, on his recent return from the preliminary field tests of this system, reported that the work constitutes a major advance in the state of the art, and that Sonar systems being developed by CIC will result in a greatly improved antisubmarine warfare capability for the Navy.

The corporation's main plant is located on the shores of Chesapeake Bay at Shadyside, Md. The company is a leader in the underwater and electro-acoustic field, and is unique in the industry in that it devotes its entire operations to research, design, development and manufacture in the field of electro-acoustics. For this purpose it maintains facilities for Transducer Engineering, Electronics Engineering, Ultrasonics Research, Materials Research, Transducer Production and

Chesebrough-Pond's Inc .- Acquires-

Chesebrough-Pond's Inc.—Acquires—
Over the weekend, two venerable and respected families in the cosmetics, toiletries and proprietary fields were united through the acquisition, by 80-year-old Chesebrough-Pond's Inc., of the worldwide interests of 50-year-old Northam Warren organization. The announcement was made by Jerome A. Straka, President of Chesebrough-Pond's Inc. Outline Subsidiary. Chesebrough-Pond's Inc. purchased Northam Warren for an undisclosed amount of cash.

Northam Warren's major products include those sold under the brand names of Cutex, Odo-ro-no, and Peggy Sage. Chesebrough-Pond's principal lines consist of Vaseline brand products. Pond's creams and cosmetics, Prince Matchabelli perfumes, Pertussin cough and cold products, Aziza eye cosmetics, and Seaforth and Black Watch men's toiletries.

According to a statement by Mr. Straka. "the products sold by

principal ines consists of vascinie brand products. Points creams and comproducts. Ariza eye cosmetics, and Seaforth and Black Watch men's toiletries.

According to a statement by Mr. Straka, "the products sold by Northam Warren under the Cutex, Odo-ro-no and Peggy Sage brand names will serve to complement our already strong franchise in the cosmetic, toiletries, and proprietary products fields. This acquisition will very substantially increase both our sales and earnings,"

Chesebrough-Pond's in 1959 had sales of \$66.3 million, up 11% from the previous year, with earnings of \$4 million, an increase of more than 13% over 1958. Though sales and earnings for 1960 are not yet available. Mr. Straka expects satisfactory increases for the year "despite soft spots in some areas of the economy."

In 1955, the then 73-year-old Chesebrough Manufacturing Co. (Vaseline petreleum jelly, hair tonics) mg/fed with the 109-year-old Pond's Extract Co. (creams, cosmetics, pgwders) to form one of the largest concerns in the industry. Chesebrough had been controlled by Standard Oil of N. J. until 4he 1911 dissolution decree.

Chesebrough-Pond's acquired Seeck & Kade, Inc., makers of Pertussin cough syrup, in 1956. Two years later the cosmetic interests of Vick Chemical Co. (including Prince Matchabelli, Simonetta, Seaforth and Black Watch lines) were bough, for cash, and in 1959 Chesebrough-Pond's purchased Aziza eye cosmetics from Mauvel, Ltd.

Like Ches-brough-Pond's produc's, the Northam Warren line is sold, principally in drug, varie'y and focd outlets at popular prices. Cutex, Cdo-ro-n3 and Peggy Sags cosmetics are distributed in most of the countries of the world. Principal plants are in Stamford, Conn., Montreal, and Londen. Chesebrough-Pond's overseas business today accounts for approximately half of its net earnings and about 40% of sales. The company has its own overseas manufacturing facilities in Argentina, Australia, Erazil, Canada, Central African Federation, England, India, South Africa, Uruguay and Venezuela, licens

Chicago, Eurlington & Cuincy RR.—Equipment Trusts Offered—Salomon Bros. & Hutzler and associates tendered the high bid of 99.3207 on Jan. 4 for an issue of \$3,550,000 Chicago, Burlington & Quincy Railroad equipment trust certificates, naming a 44% coupon. A competing bid of 99.085 for the identical coupon came from a Halsey, Stuart & Co. Inc. group. They mature in 30 annual instalments of \$225,000 on each Feb. 1 and Aug. 1 (from Aug. 1, 1961 to Feb. 1, 1976) and are guaranteed as to principal and dividends by the railroad.

The certificates are being publicly reoffered, subject to approval of

The certificates are being publicly reoffered, subject to approval of the Interstate Commerce Commission, to yield from 3% for Aug. 1, 1961 maturity out to 4.35% for certificates due Feb. 1, 1976.

The certificates are to be secured by new equipment estimated to cost \$10,705,000.—V. 193, p. 5.

Citizens Acceptance Corp.—Registers Debentures

This corporation, of Georgetown, Del., filed a registration statement with the SEC on Dec. 29, 1960, covering \$500,000 of series G 6% five year subordinated debentures. The company proposes to offer said debentures for cush at 100% of principal amount, and to present five year subord debendares for

holders of outstanding subordinated debentures in exchange. The offering is to be made by company officials and employees, who will receive a 2% commission on cash sales and 1% on securities delivered in exchange for outstanding debentures. The net cash proceeds to be received from the sale of debentures (assuming no exchanges for maturing debentures) will amount to about \$488,000 and will be used to increase or maintain the company's working cepital (but will be initially applied to the reduction of short-term notes due within one year). Part of the proceeds may also be used to retire outstanding debentures as they mature, to the extent that the holders thereof do not exchange their present holdings for the new debentures.

1 The company conducts a general finance business. In addition to various indebtedness, it has outstanding 4,270 shares of \$100 par preferred and 1912 shares of common stock. James W. Tunnell, Jr., board chairman, owns 11.9% of the outstanding common, and Robert W. Tunnell, president, 13.1%; and Eolyne K. Tunnell and Mildred S. Tunnell own 26.5% and 27.9%, respectively.—V. 191, p. 100.

Cleaver-Brooks Co.-Forecast-

This Milwaukee, Wis. originator and manufacturer of packaged boilers, reports that boiler sales for 1961 appear promising and that activity levels are expected to surpass 1960 highs.

According to John C. Cleaver, President, Cleaver-Brooks had another ecord sales year, surpassing 1959 boiler volume (the previous high) by to 10%.

Cleaver attributed the 1960 gains to:

(1) An increase and more effective use of sales promotion

A strengthening of the company's agency network with more and informed salesmen.

(3) Full-time utilization of a Canadian plant, making it possible ship direct to Canadian outlets.

(4) Initiation of new boiler automation techniques which have resulted in improved product quality as well as expedited customer

In predicting continued growth for 1961, Cleaver noted that he was basing his judgment on the fact that private construction is expected to top 1960 and that interest rates for public construction are likely to be somewhat lower, with the resultant stimulating effect. Increased government spending in the public construction field is anticipated but will not be felt until the third or fourth quarter.

Cleaver added that prices in the market place will have a tendency to be "soft" with increasingly keen competition for each sale. Also, businesses generally will carry smaller proportionate inventories than in the past.

F. W. Hainer, Executive Vice-President of Cleaver-Brooks and President of the Springfield Boiler Co., noted that water tube boiler industry sales on a national basis had not met expectations. Water tube boilers are larger boilers used in the bigger industrial plants and utilities.

Despite the national "slowing," Hainer noted that Springfield had ttained its objectives in manufacturing, engineering, methods of opration and sales activity.

Cleaver-Brooks acquired the Springfield Boiler Co. about two years go and since then has established its sales, research and engineering inctions in Milwaukee.—V. 191, p. 504.

Collins & Aikman Corp.—Sales and Earnings-

Collins & Aikman Corp.—Sales and Earnings—

Net sales of this manufacturer of fabrics and yarns in the third quarter of the current fiscal year, the period ended Nov. 26, 1960, totaled \$19,683,541, compared with \$12,947,286 in the corresponding period of 1959, a gain of approximately 52%, Ellis Leach, President, announced on Jan. 3. The third quarter 1960 figures include sales of the Bangor Division which was acquired early in the fiscal year. Income from operations in the third quarter totaled \$906,100 and net income after taxes was \$424,100 equivalent to 80 cents per share on 528,400 shares of common stock outstanding. This is compared with \$841,818 income from operations in the corresponding period of 1959 and, after taxes, net income of \$298,818 or 57 cents per share on the same number of shares outstanding.

Net sales for the first nine months of the current fiscal year totaled \$50,383,143, compared with \$36,368,543 a year earlier. Income before taxes was \$1,857,004 against \$2,013,549. Net income after taxes for the nine months totaled \$876,004, compared with \$944,549 a year earlier, equivalent to \$1.66 per share against \$1.79 per share.

Mr. Leach reported that the company had sustained some losses during the third quarter of this year due to a flash flood in the Norwood, N. C. plant. Part of this loss is reflected in the nine months figures but due to insurance claims and salvage values, the complete extent of this loss has not yet been determined. He also pointed out that sales and earnings in the third quarter last year had been affected by the prolonged steel strike. Improvements in sales and earnings for the third quarter this year also partly resulted from completion of the company's modernization and expansion program.

"Judging by results to date in the fourth quarter, we look forward

gram. "Judging by results to date in the fourth quarter, we look forward to a satisfactory outcome for the full fiscal year." Mr. Leach said. —V. 192, p. 1608.

Commercial Discount Corp.—New Financing—This national business financing subsidiary of Automatic Canteen Company of America has added \$5,500,000 in new financing funds to expand its operations and increase diversification in financing businesses.

In making the announcement Thomas Lefforge, President, said, "The nation's economy during 1961 will depend largely on the availability of working capital to develop new products and new markets." The new financing includes \$2,500,000 in subordinated notes and \$3,000,000 in senior notes.—V. 192, p. 700.

Commercial Properties Development Corp. -Commercial Properties Development Corp. — Private Placement—In connection with construction plans for a department store for D. H. Holmes Co., Ltd. in the Bon Marche Shopping Center in Baton Rouge, La., Hurd & Co., Inc., according to its President, Richard M. Hurd, has placed privately with an institutional investor a \$1,-000,000 6% first mortgage maturing in 25 years. The loan was negotiated by Hurd & Co., Inc. for Commercial Properties Development Corp. which will build the new department store and lease it to the Holmes company. The projected store will have 100,000 square feet of floor space. - Private space.

Consolidated Natural Gas Co.-Files Financ'g Proposal

This New York holding company has joined four of its subsidiaries in the filing of a financing proposal with the SEC; and the Commission is issued an order giving interested persons until Jan. 26, 1961, to

has issued an order giving interested persons until Jan. 26, 1961, to request a hearing thereon.

According to the application, Consolidated proposes to issue and sell, at competitive bidding, \$45,000,000 of debentures due Feb. 1, 1986. Of the net proceeds, \$25,000,000 will be used to pay outstanding short-term notes in that amount and the balance will be used to finance in part the 1961 construction programs of the subsidiaries, estimated at \$70,000,000. Consolidated contemplates financing the balance of such capital requirements by means of an additional issue of \$25,000,000 of of beentures later in 1961. The four subsidiaries will issue \$25,000,000 of notes to Consolidated to finance their construction programs, as follows: The East Ohio Gas Co., \$1,500,000; Hope Natural Gas Co., \$4,500,000.—V. 192, p. 2608.

Custer Channel Wing Corp.—Offering Suspended—

Custer Channel Wing Corp.—Offering Suspended—
The SEC has issued an order temporarily suspending a Regulation A exemption from registration under the Securities Act of 1933 with respect to a proposed stock offering by Custer, of 1905 West Washington Street, Hagerstown, Md.
Regulation A provides a conditional exemption from registration for public offerings of securities not exceeding \$300,000 in amount. In a notification filed Aug. 8, 1960, the said company ("Custer") proposed the public offering of 561,700 shares of 5c par class B nonvoting common stock at 50c per share pursuant to such an exemption. The Commission's suspension order asserts, among other things, that certain conditions of Regulation A have not been compiled with, that Custer's offering circular is felse and misleading in respect of various material facts, and that the offering would violate Section (17a) (the anti-fraud provision) of the Act. The order provides an opportunity for hearing, upon request, on the question whether the suspension should be vacated or made permanent.

The misrepresentations alleged in the Commission's order relate to information in the Custer offering circular concerning the development, manufacture and marketing of aircraft embodying a "new" wing design when, in fact, the design has been proposed and under development in reasonable detail; the failure to indicate that during the 15-year period the proposed aircraft has been under development by Custer, its predecessors and subsidiaries, sums aggregating several hundred thousand dollars were raised through the sale of securities, to disclose how such sums were expended and the reasons why a salable aircraft has one been fully developed, or to disclose Custer's previous unsuccessful efforts to market the aircraft and the fact that the aircraft was demonstrated to the military and that no interest was shown or orders taken; the failure to describe the patents pertaining to the wing, to disclose that applications filed in 1853 and 1954 with the predecessor of the Federa

Diamond National Corp.—Forecast—

Diamond National Corp.—Forecast—

Domestic sales of Diamond National in 1961 should show an increase over 1960 sales, which amounted to \$230,000,000, according to a recent statement by Mr. William H. Walters, President. Earnings for 1960 should exceed those attained in 1959 by approximately 25%, said Mr. Walters in a year-end statement. Mr. Walters attributed the rise in profits to major reorganization of the operating divisions, reductions in overhead and heavier emphasis on sales and merchandising. Trade and government sources indicate an estimated total production of 37 million tons of paper and paperboard in 1961, which would represent a slight improvement over 1960. Prices are expected to be fairly steady, and competition vigorous.

Referring to the market for lumber and building materials, in which Diamond National is an important factor, Mr. Walters observed that industry statistics give hope for slight increases over today's low price levels. Estimates from reliable public and industry sources indicate a good possibility of more activity next year in private home building. These estimates put the increase at between 3% and 4% over 1960 levels.

A diversification program at Diamond National, long a key supplier of lumber, matches and woodenware, has made the company a major producer of packaging, containers, paperboard, printing and advertising materials. Five years ago lumber and matches made up two-thirds of the company's product mix; they accounted for only 28% of the 1960 volume.—V. 192, p. 1708.

Divco-Wayne Corp.—Net Down-

Divco-Wayne Corp.—Net Down—
Sales and earnings of this maker of school buses during the fiscal year ended Oct, 31, 1960, fell below the record highs established in 1959. Newton Glekel, President, reported at year-end.
Sales dropped to \$32,833,375 from the peak level of \$35,956,561 reported in fiscal 1959, while net earnings were off \$526,507 to \$1,146,028.
"Although both sales and earnings were lower in 1960, nevertheless, they were still the second highest in the history of the corporation."
Mr. Glekel said.
Net profit in the latest fiscal period amounted to \$1,146,028, equal to \$1.50 a share on 764,032 common shares outstanding on Oct. 31.
This compares with the record net of \$1,672,535 reported in fiscal 1959 and equal to \$2.18 a share on an adjusted basis.—V. 192, p. 5.

Dixie Aluminum Corp.—SEC in Proceeding-

The Securities and Exchange Commission has filed a notice of appearance in the proceedings for the reorganization of this corporation, of Rome, Ga., pending in the U. S. District Court in Rome, pursuant to Chapter X of the Bankruptcy Act. The business of the debtor is the manufacture of aluminum extrusions, fabricated parts and tubing. As at Aug. 31, 1960 the debtor reported its assets to be \$1.816,970 and its liabilities to be \$1,900,413. The debtor is reported to have outstanding 118,045 shares of \$4 par value preferred stock and 543,861 shares of \$1 par value common stock. There are approximately 410 preferred stockholders and 1,637 common stockholders. Robert A. Morgan has been named Trustee and Oscar M. Smith, Attorney for the Trustee.

Dow Chemical Co.—Acquires Allied Laboratories, Inc. Allied Laboratories, Inc., on Dec. 30 became a part of The Dow Chemical Co.

Chemical Co.

Stockholders of Allied voted to dissolve the firm as the final step in a plan under which Dow acquires Allied's assets in exchange for Dow stock.

The plan was approved on Nov., 30 by Allied stockholders, but actual closing was postponed until Déc. 30. The proposal previously had been approved by the boards of Allied and Dow on Aug. 30.

Under the plan, Dow common stock will be issued to Allied and the latter will distribute Dow stock to its stockholders on the basis of

two-thirds of a share of Dow stock for each share of Allied. A total of 799,674 shares of Allied common stock now owned by stockholders will be surrendered to Dow in exchange for Dow shares.

Allied will continue to operate under its present officers as a division of Dow.

Allied will continue to operate under its present officers as a division of Dow.

Allied, with headquarters in Kansas City, manufactures a diversified line of pharmaceutical and biological products used for the prevention and treatment of human and animal diseases, as well as certain proprietary and cosmetic products.

Fitman-Moore, located in Indianapolis and Zionsville, Ind., has been Allied's largest division. Other Allied plants are located at Sioux Falls, S. D. (Sioux Falls Laboratories, Inc.); and Batavia, Ill. (Campana Corp.). Allied also has some foreign operations. Allied employment totals approximatelye1,600. About 1,200 of these employees make up the Pitman-Moore division.—V. 192, p. 2324.

Dresser Industries, Inc.—Canadian Sales—

As part of a multi-million dollar expansion program to export natural gas to the United States, Trans-Canada Pipe Lines Limited has taken delivery of three Clark Gas Turbine-Centrifugal Compressor Sets which will pump approximately 700 million cubic feet of gas per day through the world's longest natural gas pipeline. Sold by Clark Compressor Sets, costing several million dollars, were manufactured at Olean, New York, by Clark Bros. Co., a division of Dresser Industries, Inc., Dallas, Texas.

The three Clark gas-turbine-driven centrifugal compressors will be located in new compressor stations which are being added to the western portion of the Trans-Canada line running through southern Saskatchewan. The stations—located near Cabri, Herbert and Regina—are spaced between existing compressor stations powered by nine Clark Model Tila-10, 3400 bhp reciprocating, gas-engine-driven compressors.

The new Clark Gas Turbine Constituted Compressors.

pressors.
The new Clark Gas Turbine-Centrifugal Compressor Sets recently delivered to Trans-Canada Pipe Lines have been equipped with specially designed control systems that will be easily adapted to fully automatic, completely unattended station operation.—V. 192, p. 1301.

Drexel Dynamics Corp.—Acquires—

Drexel Dynamics Corp.—Acquires—
Stockholders of this Philadelphia company, specializing in Advanced Electro-Mechanical System Engineering and Production, on Dec. 28 approved acquisition by their company of Briggs Associates, Inc. Stockholders of Briggs Associates, Inc. also approved the terms of the acquisition. Drexel is listed on the over-the-counter market.

In making the announcement, Warren V. Musser, Chairman of the board of Drexel, said that by combining Drexel's Research facilities with that of Briggs, Drexel "will have one of the countries outstanding Research groups, specializing in Mechanisms, Computers, Optics, and Data-Handling Devices."

Briggs has 34 full-time employees, of which 25 are either professionally-trained engineers or highly-skilled technicians.

Arthur E. Eilinsfeld, Drexel's president, announced at the same time that in conjunction with this expansion of Research capabilities, Drexel is planning to expand its manufacturing capabilities in the near future.

Drexel presently designs and manufactures Missile Handling Equip-

Drexel presently designs and manufactures Missile Handling Equip-ient, Special Weapon Handling Devices, and Electro-Optical Instru-

ment Assemblies.

Briggs specializes in Research, Development and Manufacture of sophisticated electronic equipment for Data Processing, Instrumentation, and Industrial Electronic Control Systems.

The company recently delivered to General Electric Co. an Ultra-ligh Speed Plotter and Printer for use in the missile program. This equipment converts coded information from tape into directly visible printed or graphic information at paper speeds up to 10 inches of information per second.

Briggs also is developing an electro-optical character reader instrument which directly translates printed alpha-numeric data into electrical signals. Thus, printed data can, by the use of this instrument, be transferred directly onto tapes or other storage media for further data processing.

During the fiscal year ended Dec. 31, 1959, Briggs did a volume of \$467,000.00. During the same period, Drexel's volume was approximately \$500,000.00. It is anticipated that for the fiscal year ended Dec. 31, 1960 the two companies will do a volume in excess of \$1,250,000.00

Drexel has 315,000 shares of common stock outstanding. An additional 25,000 shares will be issued, to be exchanged for approximately 91,000 shares of Briggs' common stock outstanding.—V. 192, p. 897.

Eastern Utilities Associates-Note Issuance Cleared-

The SEC has issued an order under the Holding Company Act Authorizing this Boston holding company to issue promissory notes to banks in payment of \$2,775,000 of outstanding notes. The order also authorizes the issuance of bank notes by EUA subsidiaries, Blackstone Valley Gas & Electric Co. and Montaup Electric Co., in the respective amounts of \$4,000,000 and \$2,500,000, respectively. The subsidiaries will use the funds to pay short-term notes and to meet 1961 cash requirements for construction purposes.—V. 192, p. 2324.

Edison Brothers Stores, Inc.—Chairman Edison's Re-

marks—

"Company sales climbed to a record high approximating \$133,000,000. This represents a sales increase of about 7½% above sales in 1959. Our company will not curtail its activities during 1961 and already has plans to add approximately 50 additional units. The company closed its year with 404 shoe units in operation, 47 of which were not in operation a full year.

"The moderate economic adjustments under way during the last half of 1960 and unseasonable weather which had an impact on business generally did not exempt the retail shoe business.

"The lag in business activity which has prevailed. I feel, is being over-emphasized, overpublicized and unduly magnified. All of which tends to undermine public confidence and creates fear psychology in the minds of our consumer public.

"To my mind, there do exist prospects for keeping the lag in general business moderate, and promoting an upturn in 1961 does appear favorable. Too often many of us are prone to find fault with our nation's economy and can only see the hole in the doughnut when in reality we possess the richest and soundest economy of any nation on earth.

"Here are my reasons for optimism and why I believe business will

"Here are my reasons for optimism and why I believe business will snap back into high gear at least during the last half of 1961.

(a) Our nation possesses unlimited natural resources.
(b) Capital expenditures, even if somewhat lower than last year, will continue on a high level.
(c) Expenditures for all types of construction will also be substantial.
(d) Government spending will certainly be high to protect our national sequents.

(d) Government spending will certainly be night to protect out the tional security.

(e) State and local governments will continue substantial outlays for highways, schools and civic improvements.

(f) Record savings are still being maintained and this is spendable morey in the pockets of our consumers.

(g) Even with the present upswing in unemployment, we will still have a high level of employment and at increased wages due to our ever increasing population.

(h) There are a multitude of factors far too numerous to enumerate here that centinue to present challenging opportunities, in our ever growing nation.

"Having reviewed a tentative projection on company operations for

"Having reviewed a tentative projection on company operations for 1960 which appeared rather favorable, our Board of Directors at a recent meeting declared a 5% stock dividend upon its common stock payable Jan. 25, 1961, to stockholders of record of the company's common stock Dec. 31, 1960. A similar stock dividend was declared the previous year.

"Estimates on shoe production for 1961 still remain above 600,000,000

pairs. Manufacturers' prices as well as retail shoe prices are pretty well stabilized and are at levels decidedly in favor of consumer buying. "No, I cannot foresee any gloom clouds besetting our business horizon during 1961."—V. 182, p. 1912.

FMA, Inc.—New Division—

FMA, Inc.—New Division—

FMA, Inc. announced on Jan. 3 the establishment of an ISR division to provide customer services in the general field of information handling, storage and retrieval.

At the same time, George Fenn, President of FMA, announced that Edward T. Freel, authority in microfilming and ousness automation, has joined the firm as General Manager of the new division.

According to Mr. Fenn, the new division will provide consulting services in the analysis of information handling problems and assist clients in the establishment of operating systems. In the latter, emphasis will be placed upon automatized equipments.

Mr. Freel, one-time field director of the Paper Work Management Task Force of the Hoover Commission, joins FMA from Datagraphic Systems, Inc. where he most recently served as director of marketing.

For some ten years, he was associated with Remington-Rand, including four years as Sales Manager for the microfilm division. He also has had three years in management consulting with Leany & Co. and with his own firm.

As General Manager for FMA's ISR division, Mr. Freel will operate out of the company's Washington, D. C. office (4925 Fairmont Ave.). The division, however, also will maintain personnel at the El Segundo headquarters of FMA.

FMA, Inc. is a two-year-old firm devoted to electro-optical techniques and equipments for information handling. It enjoys financial backing by Laurance S. Rockefeller and Associates and by Paine, Webber, Jackson and Curtis.

The firm is now active on several research and development projects for both commercial and military applications, and expects to begin delivery of products in early 1961, Mr. Fenn reported.

Fidelity Fund, Inc.—Acquisition Cleared-

The SEC has issued an order under the Investment Company Act authorizing this Boston investment company, to issue its shares at their net asset value for substantially all of the cash and securities of The Wescon Co.—V. 192, p. 2609.

Filmohm Corp., New York, N. Y .- Files With SEC-The corporation on Dec. 27, 1960 filed a letter of notification with the SEC covering 110,000 shares of common stock (par 10 cents) to be offered at a price to be supplied by amendment, through Kidder, Peabody & Co., New York, N. Y.

The proceeds are to be used for general corporate purposes.

Foote Bros. Gear & Machine Corp.—Net Down—

For the fiscal year ended Oct. 31, 1960, this corporation reports consolidated net earnings of \$865,919, equivalent after allowing for the maximum participation of 80 cents a share for the earnings of class A stock, to 81 cents a share on 612,495 outstanding shares of class B stock.

This compares with the prior year's net earnings of \$1,341,852, equivalent after the maximum participation of 80 cents a share for 449,856 class A shares, to \$1.62 a share on 599,586 shares of class B stock then outstanding.

Sales for the fiscal year totaled \$18,234,510 compared with \$18,523,-207 for the previous fiscal year.—V. 192, p. 113.

Garden Land Co. Ltd.-Record Highs-

Garden Land Co. Ltd.—Record Highs—
Garden Land Co. Ltd. experienced the best 12-month period in its history for the fiscal year ended Aug. 31, 1960 with net profits totalling \$290,540 or 20 cents a saare on the 1.447,130 shares of common stock outstanding, President Joseph W. Drown announced Jan. 5. This compared with proforma earnings or .50,30,70 or 4 cents a share on the same number of shares outstanding for fiscal 1959.

Gross income climbed to \$1,798,231 for fiscal 1959 from \$1,476,813 (proforma) in the preceding 12-month period.

Mr. Drown noted that net current assets of Garden Land as of Aug. 31 exceeded current liabilities by some \$1,930,000 and that the net asset position, when realized, would be more than enough to discharge the entire long-term debt of the company.

In a letter to shareholders, Mr. Drown levealed a wholly-owned subsidiary, Garden Land Investment Co., has been organized and that, under a proposed plan, all unimproved property would be transferred to this subsidiary by Garden Land Co. in exchange for all its issued capital stock. As Garden Land Investment may occasionally sell unimproved parcels of land, the proceeds, it is believed, would be treated as a capital gains.

Commenting on 1961 operations, Mr. Drown said Garden Land in to only moving into a more active phase of its development program, but it is stepping up its real estate brokerage activities. At the

as a capital gains.

Commenting on 1961 operations, Mr. Drown said Garden Land is not only moving into a more active phase of its development program, but it is stepping up its real estate brokerage activities. At the same time, fixed selling expenses are being substantially reduced.

What could prove of major importance, he added, is a method of financing improvement of its properties in the Brentwood and Pacific Palisades area through the sale of Federal and California tax-exempt bonds. Contingent on approval by the City of Los Angeles, it will avoid the necessity of heavy capital outlays by the company for improvement purposes and will have the effect of enabling Garden Land to sell lots on an installment basis and thereby snarply increase the ranks of potential purchasers.—V. 191, p. 2415.

General Precision Equipment Corp.—Contracts-

Three contracts totaling \$3,750,000 have been awarded to General Precision, Inc.'s Kearfott Division for detection, navigation and guidance equipment. General Precision, Inc. is the principal operating subsidiary of General Precision Equipment Corp., New York, N. Y. An initial contract for about \$350,000 has been received from the Air Force's Wright Air Development Division, ARDC to develop a feasibility model and provide engineering reports in connection with a Soild State Celestial Comparator. This device will be all soild state and consists primarily of electronic light scanning of a homogeneous photo conductor surface for use in the detection of stars.

The other two contracts are follow-on contracts for (1) \$2,200,000 for the production of the Air Force's AN/ANB Precise Heading and Vertical Reference Systems from Air Materiel Command for the latest version of SAC's B-52, and (2) \$1,200,000 contract from General

Electric for precision gyros and accelerometers for use in the Navy's Polaris missile.—V. 192, p. 1912.

Growth Capital, Inc.—Provides Equity Financing for Three Companies—Announced at the close of 1960 was the concluding of loan agreements totaling \$839,000 with Super Stores, Inc., Mobile Ala. variety chain store operations with 10

the concluding of loan agreements totaling \$839,000 with Super Stores, Inc., Mobile Ala, variety chain store operation with 10 stores in Alabama, Mississippi and Florida; Venice Homes, Inc., residential land developer of Youngstown, Ohio; and George H. Rutherford, Inc., 64-year-old Cleveland general contracting company.

The \$525,000 Super Stores financing consisted of 6½% 10-year sinking fund debentures with detachable warrants providing for purchase of common stock with \$210,000 advanced immediately and \$315,000 committed. According to James Howard, President of Growth Capital, Inc., the purpose of the financing is to provide Super Stores with the capital to expand their present 10-store operation. Six new stores are to be completed in 1961 with a total of 46 stores contemplated by 1965. All stores are of the newest self-service type with the majority of the stores in suburban shopping centers. Officers of Super Stores, Inc., are Morris Loeb, President, Alvin Loeb, Vice-President, and Richard Reiner, Secretary-Treasurer, all of Mobile, Ala.

Financing provided Venice Homes consists of \$224,000 7%, 5-year debentures with detachable warrants for 50% of the common stock. Venice Homes is a developer and builder of residential homes and commercial properties. It owns several hundred acres of land in Northeast Ohio which it plans to develop and sell. Officers in the company are Charles F. Schutrump II, President, John Paul Schutrump, Vice-President and Fred C. Schutrump, Treasurer. Doing business as the United Construction Co., these men have built over 1,500 homes and developed over 4,000 building sites, commercial buildings and shopping centers in the Youngstown, Ohio, area.

The Rutherford financing consisted of \$90,000 of 7%, 7-year sinking fund debentures with detachable warrants providing for the purchase of stock. The purpose of the loan is to provide funds for the present experienced management to purchase the stock of existing owners. The new officers and principal stockholders are Alred A. Hutton, Preside

Halliburton Co.-Announces Merger-

Halliburton Co.—Announces Merger—

The Duncan, Okla., company, has just announced the merger of Welex, Inc., of Fort Worth and Houston into Halliburton. The Welex organization thus acquires full status as an operating division of Halliburton and will now become known as Welex, a division of Halliburton Co.

Welex, Inc., was originally acquired by Halliburton in 1957 and until now has operated as a wholly owned but independently managed subsidiary corporation. Welex manufactures electronic logging, perforating and well surveying equipment and provides these struces to the oil industry throughout the Free World.

The merger follows closely the announcement in October of the transfer of ownership of Welex Electronics Corp., Washington, D. C., a former Welex, Inc., subsidiary, to direct Halliburton Co. control.

The announcement of the merger was made by L. D. Campbell, chairman of the company, and L. B. Meaders, president. In part, the announcement stated. "The move to merge Welex, Inc. was made in accordance with long range plans of the Board of Directors to expand Halliburton's services in the electronics Corp. are engaged in the field of electronic research and design, though the two companies serve two separate industrial markets, there are areas of design, product application and service exchange which are compatible and will prove beneficial to the entire Halliburton complex of operations. Interchange of management, research, new product development, customer service and communications within one company will facilitate and extend the scope of operations for all concerned. The result is expected to be particularly beneficial to customers of the three companies throughout the oil and electronics industries by extending to them a far broader range of services and by eliminating duplications or overlaps in production, sales, service and management functions."

Welex will continue manufacturing activities in its new modern facility in Houston, Texas. The principal office of the division will also be moved to Hou

Helene Curtis Industries, Inc.—Expansion-

Expansion of the Midwest facilities of Helene Curtis Industries, Inc. was announced on Jan. 6 by Willard Gidwitz, President.

A 50,000-square-foot addition will be constructed at the company's Chicago area shipping center and warehouse, located in Franklin Park, III. With the addition, the shipping center will have 216,000 square feet of space. The project is scheduled for completion by May 1,1661

Chicago area snipping center and control of the company's business has required this expansion, Gidwitz said. It will bring total space of the company's facilities in the Chicago area to more than 660,000 square feet. This includes the main manufacturing plant at 4401 West North Avenue, in which the corporate offices and research laboratories are also located, a metallic products plant, and another warenouse.

Other shipping centers, along with warehouse facilities, are located in Atlanta, Dallas, Jersey City, Vernon (Galif.), and Philadelpnia. Helene Curtis Industries is the world's largest supplier of beauty salon products for professional use and is a leading manufacturer of hair preparations, shampoos, perfumes, and other packaged toilet goods for the consumer market, variously under the Helene Curtis Lentheric and Kings Men labels. Studio Girl brand cosmetics and toiletries are marketed nationally through door-to-door sales by a wholly-owned susbidiary.—V. 191, p. 2746.

Jonathan Logan, Inc.—New Process-

Jonathan Logan, Inc.—New Process—

This NYSE listed manufacturer of women's dresses "will set a new precedent for the industry with the forthcoming installation of a complete spinning and dyeing process for the production of finished yarns for its knitted dresses." Announcement of the move was made by David Schwartz, President and Chairman of the board.

The move by Jonathan Logan will give the company the first vertical process for the production of knitted dresses in this country by adding spinning and dyeing to the already established knitting process. The addition, said Mr. Schwartz, involved an outlay by the company of \$1,200,000 in new equipment.

The new operation is expected to produce some 50% of yarns currently required by Jonathan Logan for its knitted dress output. If will be located in a 60,000-square-foot plant adjacent to the firm's 100,000-square-foot Butte Knitting Mills in Spartanburg, S. C. The plant will be in full production by the middle of January.—V. 192, p. 798.

Kaiser Aluminum & Chemical Corp.—Industry Forecast

plant will be in full production by the middle of January.—V. 192, p. 798.

Kaiser Aluminum & Chemical Corp.—Industry Forecast The aluminum industry in the United States, like others among the nation's basic materials industries, during 1960 has felt the impact of current business conditions. The industry has found it necessary to devote major effort this year to the maintenance of sales volume and earnings, levels under increasingly competitive conditions. While industry earnings, generally during, 1960 have been below those of 1959, the principal contributing factors are, we believe, temporary in nature. Price weaknesses in certain product areas have accompanied the year's severe competition for business. The aluminum industry's own market development efforts have also affecting the current earnings picture; prices for certain mill product designed for the mass production industries are necessarily with other available materials. This has the effect of reducing profit magniss on these products during the development and build-up period. However, as soon as satisfactory volume is attained, such products are expected to yield adequate margins.

Estimates made by the Kaiser Aluminum market research staff indicate that total industry shipments of aluminum and aluminum products for all of the competition of a such products for all of the competition of the such products for all of the competition of the such products of the such products are such products of the such products and overseas shipments.

Total shipments should approximate 4.6 to 4.7 billion pounds. All figures include both domestic and overseas shipments. The industry, however, ends the year with a substantial portion of primary production capacity by the unit of the competition of primary production capacity by the production used to the capacity which have been completed recently throughout the industry, and reduced activity in the domestic metalworking industries which therefore were slow to draw down their abnormally large inventories remaining fr

Kerr-McGee Oil Industries, Inc. - Acquisition Com-

Kerr-McGee Oil Industries, Inc. — Acquisition Completed—AEC Contract for Subsidiary—

The merger of Pacific Uranium Mines Co. of Los Angeles, Calif., into Kerr-McGee Oil Industries, Inc., of Oklahoma City, Okla., was completed in New York City on Dec. 30. The agreement of merger had received prior endorsement of stockholders of the two companies at special meetings held on Dec. 20.

The merger provides Kerr-McGee with an additional 20.8% of the stock of Kermac Nuclear Fuels Corp., a uranium mining and milling company which has extensive operations in New Mexico. The acquisition of this stock, together with Kerr-McGee's previous holdings and other stock acquisitions consummated recently, increases its interest to approximately 80.35% of the stock of Kermac Nuclear.

Through the merger, Kerr-McGee also acquires Pacific's interest in

certain uranium mining properties and royalties in the Ambrosia Lake area near Grants, N. M., plus 25% of the stock of Ambrosia Lake Uranium Corp., which owns substantial uranium reserves near the Kermac mill.

tranium Corp., which owns substantial uranium reserves near the Kermac mill.

Kerr-McGee has contracted with the owners for the acquisition of the remaining 878,000 shares of Kermac Nuclear stock in exchange for 200,000 shares of common stock of Kerr-McGee. These contracts were closed on Jan. 3, whereupon Kermac Nuclear Fuels Corp. became wholly-owned by Kerr-McGee.

Kermac Nuclear holds some 20% of all known U. S. uranium reserves and owns and operates the nation's largest uranium processing plant which is located in the Ambrosia Lake area.

A uranium concentrate purchase contract between the Atomic Energy Commission and Kermac Nuclear Fuels Corp. has been amended in accordance with the Commission's announcement of Nov. 24, 1958, providing for the purchase of appropriate quantities of U3-08 in the 1962-1966 period from ore reserves developed prior to that date.

The amended contract, signed on Dec. 28 at the Commission's Grand Junction, Colo., operations office, is effective as of Nov. 1, 1966, of approximately 31,027,000 pounds of U3-08 in concentrate having a total value of \$237,000,000 at an average price of \$7.63 per pound. The amended Kermac contract, in common with other milling contracts in the Grants area, provides for the treatment of ores from qualified independent producers as well as ores from company controlled mines and for increases in contract quantities for such independent ores as required. The mills in the Grants area have ample capacity available to treat such independent ores.—V. 193, p. 8.

Lehigh Coal & Navigation Co.-Lease-

Lehigh Coal & Navigation Co.—Lease—

The company announced on Jan. 5 that its wholly-owned subsidiary, Boone County Coal Corp., has leased its bituminous coal and surface lands to Utilities Coal Corp., effective Jan. 1, 1961. The lease is for a period of 40 years with an option to renew for an additional alloyears. The Econe properties are located in West Virginia. Mining operations there were discontinued on Nov. 4, 1960.

Boone also entered into a two-year option agreement with certain individuals associated with Utilities Coal Corp. to purchase the leased property for a sum of \$1,500,000. The company's buildings, mining structures, equipment, materials and supplies have been sold to Utilities Mining Corp. for \$865,000, payable periodically over a term of eight years or less.

Utilities Coal Corp., a newly formed corporation with operating offices in Sharples, W. Va., and main offices at Huntington, W. Va., intends to operate the newly acquired properties under the name of Boone County Coal Corp. The present Boone County Coal Corp. will change its name to Lehigh-Boone Land Co.—V. 192, p. 598.

Lock Joint Pipe Co.-New Contract-

This company of East Orange, N. J., has been awarded an \$18 million contract to supply 100 miles of 60-inch diameter prestressed concrete pipe to be used in the longest continuous water transmission pipeline ever built in this country.

The new pipeline will connect the recently completed Atoka Reservoir in southeastern Oklahoma with a new reservoir to be built on the outskirts of Oklahoma City. It is part of a project which will eventually double the water supply of Oklahoma City. In addition to the pipeling the project also calls for a new water treatment plant, pumping stations and distribution lines.

While Lock Jaint has 20 narrange of the property of th

While Lock Joint has 28 permanent manufacturing plants throughout most of the United States, it will construct a temporary manufacturing plant along the path of the new pipeline at Ada, Okla. Pipe manufactured at this plant will be delivered directly to the installation site. According to A. M. Hirsh, Jr., Lock Joint President, it will take about 2½ years to manufacture the pipe.

Lock Joint, leading producer of prestressed concrete pipe, has supplied pipe for major water projects all over the world. It has been a pioneer in the technique of setting up complete manufacturing facilities at the job site. Outside the United States, Lock Joint has associate companies in Mexico, Venezuela, Peru, Argentina, South Africa and Australia.—V. 192, p. 403.

Management Assistance Inc., New York, N. Y.—Files With Securities and Exchange Commission—

The corporation on Dec. 28, 1960, filed a letter of notification with the SEC covering 60,000 shares of common stock (par 10 cents) to be offered at \$5 per share, through Federman, Stonehill & Co., New York, New York.

ceeds are to be used for general corporate purposes

Maracaibo Oil Exploration Corp.—Partial Redemption

The corporation has called for redemption on Jan. 31, next, \$500,000 of its 6% subordinated debentures due 1972 at 100% plus accrued interest. Payment will be made at the Chemical Bank New York Trust Co., 30 Broad St., New York, N. Y.—V. 192, p. 2611.

Market Street Railway Co .- Fee Payments Cleared-

The Securities and Exchange Commission has issued an order under the Holding Company Act releasing jurisdiction over the payment of some \$1,700 of fees and expenses incident to the final cash distribution to holders of the prior preference 6% cumulative stock of Market Street under and pursuant to a previously-approved plan for its liquidation and dissolution. According to the application, funds totaling \$2,277,226 were received by the paying agent for distribution and that \$2,269,950 (99.68%) has been distributed to such holders.

Marwell Equipment Ltd.-To Redeem Bonds-

The corporation has called for redemption on Feb. 28, 1961, all of its outstanding 6% first sinking fund series A bonds dated Sept. 1, 1954, and 6½% series B bonds dated Dec. 1, 1957, at 101½%. Payment will be made at the Bank of Nova Scotia, Vancouver, Victoria, Calgary, Winnipeg, Toronto or Montreal, Canada.

Masonite Corp.—Net Down-

The corporation's net sales for the first quarter ended Nov. 30 totaled \$18,300,311, up \$63,621 from the \$18,236,630 for the same period a year ago. The net income totaled \$1,001,804 after all charges, or 63 cents a share on the 1,592,291 shares of common stock outstanding. For the same period a year ago the net income was \$1,551,476, or 97 cents a share.—V. 192, p. 8.

Mead Corp.—Affiliate Financing-

See Scott Paper Co., below.-V. 192, p. 2122.

Metal Box Co. Ltd.—New Field—

Metal Box Co. Ltd.—New Field—

The announcement of the new association between The Metal Box Co., Ltd. and John Waddington, Ltd. Indicates the increasing importance which Metal Box attaches to the development of its paper business and in particular to paper packaging for liquid products.

The Metal Box Co.—which already occupies a leading position as a supplier of paper containers and packaging systems such as Diotite for frozen foods, Sellex for eggs, and Embelux for glassware—will now be in a position to manufacture paper cartons for the rapidly developing market for packaged liquids.

The changes which have taken place in recent years in the pattern of retail distribution—notably the growth of self-service stores and supermarkets—favor the use of non-returnable throwaway paper packs for such items as milk, fruit juices and soft drinks. Demand for these packages is increasing at such a rate that it is in danger of outstripping supply.

Metal Box has for long recognized the importance of self-service trading to the packaging industry, and, as the recent announcement indicates, will continue to meet the requirements of these modern retail methods by providing the best and most appropriate containers available.

Moreover, the growing use of vending machines for the sale of milk is fast establishing the paper carton as the ideal pack for this

Moreover, the growing use of vending machines for the sale of milk is fast establishing the paper carton as the ideal pack for this purpose. A considerable expansion in this form of retail distribution is confidently forecast for the future.

In deciding to enter this field, Metal Box will bring to the British housewife the advantages of the research and technical development which has long been a feature of the company's activities in the food fields.

The announcement which has just been made offers further evidence of the company's policy of expansion and diversification in the field of packaging and follows closely upon its recent announcement of a large capital issue to cover its expansion programs. The company has already announced its intention to build a new factory at Scunthorpe for the manufacture of paper products and this will include the manufacture of cartons for liquids.

Minneapolis-Honeywell Regulator Co.-R & D Spending Forecast-

An increase of more than \$1 billion in Defense Department spending for research and development in 1961 is foreseen by a military electronics official of this company.

Stephen F. Keating, Honeywell vice-president and head of its Military Products Group, estimated total defense spending for research development in 1961 will be about \$4 billion, with a steady expansion to approximately \$7 billion by 1965.

He attributed a major portion of the expected increase to the complexities of missile and space systems and "the scientific challenge they have created for government and industry." Also, he said, many new technologies must be developed to satisfy national defense efforts. "These expected figures for 1961, and other factors, make it apparent," the executive said, "that companies with a strong record of accomplishment in research will be in a dominant position in the rapidly growing missile and space market. Depth of experience and proved capability in advanced technology will be utilized to the maximum."

The future position of companies in the military electronics field will depend on their ability to attract research and development funding, Keating said. He cited his own company's experience that approximately three-quarters of its present products in the military field are a direct outgrowth from a research or development program. The Honeywell executive said the growth in missiles and space that is bringing about stepped-up research spending will accelerate while defense spending for manned aircraft will continue its decline. He predicted that missile and space procurement for Department of Defense will overtake and surpass expenditures for aircraft some time in 1963.

in 1963.

In 1961, Keating estimated, aircraft will account for about \$6.3 In 1961, Keating estimated, aircraft will account for about \$4 billion. He predicted that these two categories would about equal one another at approximately \$5.5 billion in 1963.

By 1965 expenditures for missiles should reach nearly \$7 billion, with aircraft dropping to about \$4.5 billion, he said.

"Although the changing nature of the military market has been recognized for some time." Keating said, "the dominance of research and development over production is now a reality, and its many implications will be felt for some time."

The electronic data processing industry in 1961 and the immediate

and development over production is now a reality, and its many implications will be felt for some time."

The electronic data processing industry in 1961 and the immediate years to follow will experience its most rapid growth since the invention of electronic computers, according to Walter W. Finke, President of Minneapolis-Honeywell Electronic Data Processing Division. "The industry's growth, which may become almost explosive in nature as we move farther into the decade of the sixties, will be across the board—in business, industrial, scientific, engineering, governmental and milicary applications," he said. "The most substantial growth, however, will be in business and industrial data processing."

He said the "new generation" computers, now being delivered in volume, have the speed, versatility and economy of operation to efficiently handle practically all of the paper work, procedural and mathematical problems found in business, industry and science.

"The result is that the new computers today have the ability to serve as the work horses of EDP in business and industry for many years to come," he said. "This is a healthy situation in the current phase of the EDP industry's evolution."

Finke explained that the manufacture of EDP systems and related equipment in 1960 became America's newest billion-dollar-a-year industry. He predicted that by 1965 value of output will rise to \$3 to \$5 billion.

"The years immediately ahead will be highlighted by a ground swell

dustry. He predicted that by 1965 value of output will rise to \$3 to \$5 billion.

"The years immediately ahead will be highlighted by a ground swell of increasing understanding of EDP and the many things it can do better than unaided man," he said.

"EDP is a young industry. It is less than a generation old. In its short history it has experienced a major technological revolution in the change from vacuum tubes to transistors. Yet, in this short time electronic computation has progressed to a point where it is hard to see how we could get along without it."

He said that EDP's major role in business will be to increase the productivity of office workers, thereby making an indispensable contribution to handling the increasingly vast piles of paper work confronting present-day business and industry.

Finke said that Honeywell's EDP Division made delivery of the first commercial models of the Honeywell 800 general purpose electronic data processing systems in December.

The division is committed to manufacture and deliver \$51 million worth of Honeywell 800 and Honeywell 400 EDP systems during 1961, he said.

"The continuing growth of our large backlog of orders for the Honey-well systems will result in substantial expansion of the EDP Division's facilities and operation in the current year," he explained.

He said that "advanced research and development work will continue to be the hallmark of the EDP industry."

One of the greatest areas of advancement in the immediate future will be in the development of improved, higher-speed input equipment, he said.

ment, he said.

"The utlimate goal is development of devices that will directly handle the documents of commerce and trade without intermediate steps, such as the punching of cards or paper tapes," he explained. "Steps in this direction are the work now being done in the fields of magnetic ink character recognition and optical scanning."

"The speeds built into the central processors of the modern computers give them unprecedented power. These speeds in many instances are ahead of the ability of the peripheral equipment—such, as card punches and readers, paper tape units and printers, to get in formation in and out of the machines. A major part of the research

and development effort in the EDP industry in the immediate future will be to bring this situation into closer balance."

He said that important advances can also be expected in the fields of application and automatic programming to make EDP a still more efficient and more economical tool.—V. 192, p. 1817.

Mississippi Power & Light Co.—Asset Exch. Cleared-Mississippi Power & Light Co.—Asset Exch. Cleared—Phe SEC has issued an order under the Holding Company Act authorizing this company, Jackson, Miss., to transfer to North Central Mississippi Electric Power Association, all of the company's electric distribution facilities and two office buildings located in Marshall County and in about 105 sq. miles of an adjacent area in the eastern part of DeSota County, Miss., consisting of a distribution system and related properties. In exchange and as consideration for such property, the Association will transfer to the company 289 miles of distribution system in western DeSota County and in Tate County, Miss., an office building in Coldwater, Miss., and \$820,000 cash.—V. 192, p. 2611.

Mississippi Power Co.—Acquisition Cleared—

The SEC has issued an order under the Holding Company Act authorizing this company, of Gulfport, Miss., to purchase up to 5,500 shares of the \$10 par common stock of Mississippi Business & Industrial Development Corp. at \$10 per share.—V. 192, p. 2611.

Modern Materials Corp .- Offering and Secondary-

Modern Materials Corp.—Offering and Secondary—
This corporation, 7018 South Street, Detroit, Mich., filed a registration statement with the SEC on Jan. 4, 1961, covering 150,000 shares of common stock, of which 50,000 shares are to be offered for public sale by the company and 100,000 shares, being outstanding stock, by the present holder thereof. The public offering price and underwriting terms are to be supplied by amendment. Smith, Hague & Co. heads the list of underwriters.

The company manufactures and distributes aluminum and asphalt siding and related accessories. The net proceeds from the company's sale of additional stock will be applied toward the retirement of all the notes payable to Lucien Lamoureux President, Alice Joyce Mac-William, his niece, and Winston J. Fisher, Secretary, in the aggregate principal sum of \$151,000; and the balance will be added to general funds and used for general corporate purposes.

In addition to the notes payable, the company has outstanding 230,000 shares of common stock, of which Lamoureux and Alice Joyce MacWilliam own 100,000 shares each and Fisher owns 30,000 shares. Alice Joyce MacWilliam proposes to sell all of her holdings.

Murphy Corp.—Construction—Subsidiary Merged—

The El Dorado, Ark. corporation, has announced plans for a construction program at its refinery in Superior, Wis. The primary purpose of the program is to provide a more economical balance in product yields and further improvement in the quality of gasolines and fuel oils produced by the refinery although slight additional capacity will result, C. H. Murphy, Jr., President, said.

capacity will result, C. H. Murphy, Jr., President, said.

Additions will include a fluid catalytic cracking unit of 5,000-barrel-per-day capacity, a hydrofluoric acid alkylation unit of 1,200-barrel-per-day capacity to produce high octane gasoline for blending into motor fuels, a 400-barrel-per-day increase in distillate fuel desulfurizing capacity, and an increase in gasoline treating capacity from 1,500 barrels per day to 4,500 barrels per day. "These units will provide for increased production of highest quality gasolines and heating oils and a reduction in the output of residual fuels which are in low demand," Mr. Murphy said.

In addition to the new process units, construction will include 200,000 barrels of additional tankage, a tetraethyl lead blending plant to replace an existing unit, a new laboratory building, and a new railroad siding. Included also will be improvements in the waste disposal system and additions to existing electric, piping, and transfer pumping facilities.

Bids have been taken and it is expected that the matter to the support to the content of the conten

facilitie

Bids have been taken and it is expected that contracts will be awarded within a few days. Construction, which will require 9-11 months, will begin as soon as engineering is complete and materials are procured.

Announcement has also been made that as of Jan. 1 the company's refining subsidiary, Lake Superior Refining Co., was merged into Murphy Corp. In the future, the refinery will be identified as the Superior Refining of Murphy Corp. Mr. Murphy stated that the change was made for more efficient co-ordination with the company's crude oil supply and product marketing operations. John M. Brown, who has been Vice-President and general manager of Lake Superior Refining Co., continues as manager of the refinery.—V. 192, p. 900.

National Aeronautical Corp.—Common Stock Offered —White, Weld & Co. Inc., Yarnall, Biddle & Co. and Stroud & Co., Inc., on Jan. 5 made a public offering of 60,000 shares of this corporation's \$1 par value common stock of \$25 me.

stock at \$26 per share.

PROCEEDS—The net proceeds to the company, estimated at \$1,404,000, will be used to prepay all mortgages and bank loans; for an addition to the manufacturing plant of Air-Shields, Inc., the company wholly-owned subsidiary; and for additional working capital.

CAPITALIZATION—Upon completion of the present financing, capitalization will consist solely of 1,064,931 shares of common stock.

talization will consist solely of 1,064,931 shares of common stock.

BUSINESS—Since the company was organized in 1945, primary emphasis has been placed on the development, engineering and assembly of radio communication and navigation equipment for the "general aviation" market, which includes all types of aircraft except those normally operated by the Armed Forces and commercial airlines. National Aeronautical is one of the largest producers of communication and navigation equipment for this market. The subsidiary, Air-Shields, Inc., is engaged in the development, manufacture, and sale of specialized medical equipment. For the nine months ended Aug. 31, 1960, consolidated sales were \$6,085,000 and net income \$546,000.—V. 192, P. 1915.

National Reserve Association, Inc.—SEC Notice

The SEC has published notice of a proposal to declare that National Reserve Association, Inc., of Fremont, Mich., has ceased to be an investment company, the notice giving interested persons until Jan. 13, 1961, to request a hearing thereon. It appears that the company filed an application under the Investment Company Act in 1942, later withdrawn, and that it never issued any securities or began operation.

National Trust Life Insurance Co. of America—Common Stock Offered—Pursuant to a Jan. 3 offering circular, this company offered publicly, without underwriting, 100,000 shares of its \$1 par common stock at \$3 per share.

BUSINESS—The company was incorporated under the laws of the State of Florida on the 19th day of September, 1960. The home office of the company is located at 1943 Tyler Street, Hollywood, Fla. The company was organized for the purpose of writing regular forms of ordinary life, endowment and term insurance, group life, group and individual credit life, disability and double indemnity coverage. The company also plans to write a special Participating Contract. In addition, the company plans to write other special policies tailored to fit specific needs of the insurance buying public.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

Authorized Outstanding 5,000,000 shs. 203,433 shs. Common stock, (\$1 par) ____

PROCEEDS—If all the shares of common stock are sold, the aggreate net proceeds to the company will be \$255,000 after payment of he sales commissions and deduction of sales expense of the issue stimated but not to exceed \$45,000. This sum of \$255,000, the net proceeds of this offering, will be used to increase capital and surplus

of the company to the amount required to obtain a Certificate of Authority from the Florida Insurance Commissioner as more clearly defined under the heading of Certificate of Authority. While the company has no present plans or commitments for the purchase of the business of any other company, part of the proceeds may be used to finance such a purchase if a favorable opportunity arises in the future.—V. 192, p. 1711.

North American Exploration Co., Inc.—Hearing Canc'd

This company, of Spokane, Wash., has withdrawn its request for a hearing on the question whether to vacate or make permanent an April, 1959 order of the SEC temporarily suspending a "Reg. A" exemption from registration under the Securities Act of 1933 with respect to a proposed public offering of stock.

Accordingly, the suspension order has become permanent. The order asserted that the company's offering circular was false and misleading in respect of various material facts.—V. 189, p. 2569.

Northfield Precision Instrument Corp., Island Park, N. Y.—Files With Securities and Exchange Commission—

The corporation on Dec. 27, 1960, filed a letter of notification with the SEC covering 24,428 shares of common stock (par 10 cents) to be offered at-the-market (not more than \$2 per share), through Robert Edelstein Co., Inc., Bev York, N. Y.

The proceeds are to go to the underwriter.—V. 190, p. 567.

Pacific Gas & Electric Co.-Year-end Statement-

Pacific Gas & Electric Co.—Year-end Statement—

Vast new energy from Canadian natural gas and a major stride forward in atomic energy development will make 1961 a significant year for the progress of Northern and Central California, Norman R. Sutherland, president of Pacific Gas & Electric Co., said on Dec. 27. "The electric energy we supply is tremendous," Sutherland said. "Many people don't realize, however, that PG&E provides five times as much energy in the form of natural gas. The comparison makes it plain that natural gas is a vital factor in our area's growth."

Deliveries of Canadian gas, initially at a rate of 415 million cubic feet a day beginning next winter, will supplement PG&E's present supplies from fields in California, Texas and New Mexico, increasing peak-day supply by more than 20%.

The gas will be transported from fields in Alberta to the San Francisco Bay Area through a 1,400-mile, 36-inch diameter pipeline, construction of which was begun in October. At the peak of construction next summer more than 8,000 men will be at work along the route. The Alberta-California pipeline is part of a \$500 million program of construction in 15 morths for new gas and electric facilities to serve PG&E's more than 3,600 coloc oustomers, Sutherland said.

Altogether the line will require about 16,800 railroad carloads of pipe in 40-foot lengths, which is the law with the line will be the grown and the control of the paths which is the law with the law of the paths which is the law of the law of the paths which is the law of the law o

Altogether the line will require about 16,800 railroad carloads of pipe in 40-foot lengths, which is being rolled in mills at Napa, Calif., Provo, Utah, and in Canada. Acres of land have been covered with huge stockpiles of the pipe at welding and coating yards along the right of way. Some pipe already is in the ground. Clearing, grading, trenching and the preparation of river crossings is proceeding variously at locations in California, Oregon, Idaho, British Columbia and Alberta.

Another event of great significance to California's progress is the beginning of construction of PG&E's 60,000-kilowatt atomic electric generating plant near Eureka. It is scheduled for service in 1962.

"The growth of Pacific Gas & Electric Co. area summer peak electric load has averaged almost 350,000 kilowatts a year over the past four years," Sutherland said. "In 1960 PG&E became the first operating utility company in the United States to serve a simultaneous electric demand of more than 5 million kilowatts.

"Last summer the area electric peak for Northern and Central Cali-

"Last summer the area electric peak for Northern and Central California almost reached a level which four years ago we had projected for 1961. Looking ahead five years from now, we estimate that if the present rate of growth continues, as we think it will, the area electric load will grow 40% by 1965. We estimate that our gas load will increase annually at an average rate of almost 100 million cubic feet a day.

will increase annually at an average rate of almost 100 million cubic feet a day.

"This rapid rate of growth in energy requirements underlines the importance of our activity in developing atomic energy as an economically competitive source of power. The Humbold Bay atomic unit will be the first to employ pressure suppression reactor containment, a development PG&E is pioneering. This design will lower the cost of construction of this type-of plant."

To serve the rising electric power demand PG&E also will rely on additional giant steam-electric generating units burning conventional fuels. The second of two 330,000-kilowatt units at Pittsburg Power Plant is scheduled for completion in 1961 and work is beginning at Morro Bay Power Plant on the first of two more such units. These power units, largest in the West, cost about \$40 million each.
PG&E also will have three hydroelectric projects with a combined generating capacity of 142,500 kilowatts under construction in the Kings, Stanislaus and Feather River watersheds in 1961 for completion the following year.

"In addition to this large amount of construction, the company will be at work on dozens of smaller projects throughout Northern and Central California for the transmission and distribution of gas and electricity to our customers and we will be preparing for other construction to serve the demands of future years," Sutherland said. "We expect 1961 to be one of the company's busiest and most momentous years of progress."—V. 192, p. 1818.

Pall Corp.—Net, Sales Up-

This corporation of Glen Cove, L. S., reported on Dec. 29 substantial increases in earnings and sales for the 3 months ending Oct. 31, 1960, as compared to the same quarter last year.

Operating results were as follows:

The state of the s

Paribas Corp.—Seeks Exemption—

Paribas Corp. One York City, has applied to the SEC for exemption from the Investment Company Act of 1940; and the Commission has issued an order giving interested persons until 12:30 p.m., Jan. 13, 1961 to request a hearing thereon.

Paribas was organized in October, 1960 at the instance of Banque de Paris et des Pays Bas, S. A. ("Banque de Paris"), a French corporation. The authorized capital stock of Applicant consists of 1,060 shares of common stock without par value, all of which is proposed to be issued to Banque de Paris. Applicant does not contemplate that any securities will be issued to any person other than Banque de Paris in the future. The application states that Banque de Paris will acquire all the authorized stock of the Applicant for its own account as principal with no intention of distributing or otherwise disposing of such shares.

Applicant expects that its business will ultimately consist primarily

all the authorized stock of the Applicant for its own account as principal with no intention of distributing or otherwise disposing of such shares.

Applicant expects that its business will ultimately consist primarily of the underwriting and distribution of securities, the sale of securities to customers and brokerage transactions. Applicant may also be engaged in investing and trading in securities for its own account, and these activities may constitute its primary business for a period of years. Applicant is registered as a broker and dealer under the Securities Exchange Act of 1934 and is a member of the National Association of Securities Dealers, Inc.

Banque de Paris which, as noted above, will own all of the outstanding securities of Applicant, was organized in 1872. It does not do business in the United States. Banque de Paris' total assets as of Dec. 31, 1959, amounted to approximately \$468,000,000 and its net worth was approximately \$45,000,000.

Banque de Paris engages in underwriting securities, investing in securities for its own account and in the business of accepting deposits from and making loans to large corporations. It does not transact business with the general public. Of applicant's total income for 1959, approximately 68% was derived from lending operations; 19% from underwriting securities and 9% from profits on seles of securities.

On Dec. 31, 1959, Banque de Paris had outstanding 1,963,200 shares of capital stock. Such shares are traded on the Paris Bourse and on other European exchanges. The application states that most of such shares are in bearer form and that Banque de Paris, therefore, does not know the nationalities or residences of its stockholders. It is pointed out, however, that such shares have never been publicly offered in the United States and are not traded on any domestic exchange, and that within Applicant's knowledge only 1,500 shares are held by eight citizens or residents of the United States who acquired such stock during 1960 from a domestic broker-dealer who ha

Pathe Equipment Co., Inc.—Class A Stock Offered-Public offering of 115,000 class A shares of Pathe Equipment was made on Jan. 5 at a price of \$5 per share by Amos Treat & Co., Inc. and Wm. Stix Wasserman & Co., Inc.

PROCEEDS—Of the total number of shares being offered, 42,500 shares are being sold by the company and 72,500 shares for the account of selling stockholders.

Net proceeds from the sale of its 42,500 shares will be used by the company for the employment of additional engineers and experimental toolmakers for research and development work; promotion of a new hosiery machine; replacement and addition of machine tools; and general sales promotion. Balance of the proceeds will be added to working capital.

BUSINESS—Pathe Equipment is primarily engaged in the business.

BUSINESS—Pathe Equipment is primarily engaged in the business of developing and producing automatic multiple needle and specialized sewing equipment. The company and its predecessors date back to 1922. Plant and main offices of the company are located in East Paterson, N. J.

ÉARNINGS—For the nine months ended July 31, 1960 the corported net sales of \$505,577 and net income of \$51,467.

CAPITALIZATION—Upon completion of the current financing, capitalization of the company will consist of 125,000 shares of class A and 130,000 shares of class B capital stock.—V. 192, p. 1652.

Pearce-Simpson, Inc.—Securities in Registration-

Pearce-Simpson, Inc.—Securities in Registration—
The company, 2295 N. W. 14th St., Miami, Fla., filed a registration statement with the SEC on Dec. 30, 1960, covering \$1,800,000 of ten year 6% convertible debentures due April 1, 1370 (and 200,000 of ten year 6% convertible debentures due April 1, 1370 (and 200,000 common shares reserved for issuance upon conversion of the debentures); 145,938 shares of common stock; and warrants for the purchase of 72,500 common shares (as well as the 72,500 shares issuable upon exercise of the warrants.)
According to the prospectus, the company in June 1960 sold \$2,000,000 of debentures to 20 persons, and all but one have advised of their intention to resell the debentures. The largest blocks are held by Allen & Co., \$150,000 Herbert Allen, \$305,000; the Estate of Samuel Elgort, deceased, \$200,000; Bruce Forbes, W. C. McEride, Inc., Mrs. Gertrude H. Sloan and Dominick & Dominick as nominee for Societe International de Finance, \$100,000 each, and Werd Ryder & Co., \$130,000.

The prospectus lists nine sellers of the 145,938 common shares,

The prospectus lists nine sellers of the 145,938 common shares, including 66,500 shares by Foreign Power Securities Corporation, Ltd.,

21,500 by John Rinehart, a director, 21,000 by Canadian Power & Paper Securities, Ltd., and 10,000 by William S. Simpson, president, and Marion V. Simpson. The Simpsons will retain 23,290 shares and Rinehart 5,000.

Rinehart 5,000.

Allen & Co. and Vilas & Hickey own warrants for the purchase of 50,000 shares, exercisable at \$12.25 per share through Feb. 16, 1965; Gene Goble owns warrants for 10,000 shares, exercisable at \$15.625 per share through April 1, 1965; and George J. Langley owns warrants for 12.500 shares, exercisable at \$15 per share until April 19, 1965. In addition to the 72,500 warrants and \$2,000,000 of debentures, the company has outstanding 696,938 common shares.—V. 191, p. 2640. 2640

Pennsylvania Power Co.-Issue of Bonds Cleared-

The SEC has issued an order under the Holding Company Act authorizing the company of New Castle, Pa., to issue \$878,000 of its first mortgage bonds, 31/4% series due 1982, for sinking fund purposes.—V. 192, p. 2510.

Peoples Natural Gas Co.—Acquisition Approved-

The SEC has issued an order under the Holding Company Act authorizing the company, of Pittsburgh, Pa., to acquire all the assets of The Union Heat & Light Co., Grove City, Pa. To effectuate such acquisition, Peoples' parent, Consolidated Natural Gas Co., will issue to Union 23,000 shares of Consolidated Stock valued at \$45 per share, or an aggregate of \$1,035,000. Such shares will be distributed by Union to its stockholders and Union will dissolve. Peoples will assume all of Union's liabilities and issue to Consolidated 10,350 shares of its \$100 par capital stock.—V. 185, p. 2218.

Photo Service, Inc.—Files for Offering and Secondary

This company of 220 Graceland Avenue, Des Plaines, Ill., filed a registration statement with the SEC on Dec. 30, 1960, covering 162,500 shares of common stock, of which 125,000 shares are to be oftered for public sale by the company and 37,500 shares, being outstanding stock, by S. Lyall Briggs, President. The new shares are to be offered for public sale through a group of underwriters headed by Cruttenden, Podesta & Co. The public offering price and underwriting terms are to be supplied by amendment. The principal underwriter will receive a five-year non-transferable option to buy 10,000 additional common shares.

The company and its three wholly-owned subsidiaries, Photo Color, Inc., Pickwick Camera Shop, Inc. and B. & C. Photo Service Co., all Illinois corporations, are engaged in the processing and printing of black and white and color photographic film, the wholesale distribution of photographic equipment and supplies in the Chicago area, and the operation of three retail camera shops in the Chicago area. Prior October, 1960, Photo Service, Inc., Photo Color, Inc. and Pickwick Camera Shop, Inc. were jointly owned by Briggs and Robert Himel, Executive Vice-President of the company, and his wife. B. & C. Photo Service Co. was owned by Briggs. In December, 1960, the company received all of the outstanding stock of Photo Color, Inc. and Pickwick Camera Shop, Inc. as of October, 1960, as a contribution from the company's stockholders, Briggs, Himel and his wife. On the same day, the company issued 30,312 common shares to Briggs in exchange for all of the outstanding shares of B. & C. Photo Service. In December, 1960, the 250,312 common shares then outstanding were reclassified into 309,666 common shares which, in addition to certain indebtedness, are now outstanding. Briggs owns 173,583 shares and proposes to sell 37,500 shares and Himel and his wife own 136,083 shares.

The net proceeds from the company's sale of additional stock will

The net proceeds from the company's sale of additional stock will be used as follows: \$250,000 for the purchase and installation of new equipment for use in finishing Kodachrome film; \$125,000 for the construction of a new plant addition; \$85,000 for the payment of short-term debt; \$200,000 to purchase stock or assets of other firms engaged in the photo finishing business (no commitments made); and the balance will be added to general funds and used for general corporate purposes including working capital.

Pillsbury Co.-Net, Sales Up-

The Minneapolis, Minn. company on Jan. 5 reported increased sales and earnings at the mid-year point.

Earnings after taxes of \$3.732,000 represent a 14.4% increase, and not sales fo rhte six months ended Nov. 30, 1960 of \$183,023,000 are up \$1,223,000 over the same period a year ago.

Net earnings per share of common stock were \$1.72 compared with \$1.52 a year ago.

The advance in earnings, according to President Paul S. Gerot, resulted from a more favorable mix of sales, better utilization of resources through improved efficiencies in our plants, and new products, "Among these new products," he said, "five in the consumer area and 15 in the institutional and bakery mix divisions have been introduced since June 1. The Tidy House line of non-food produces has been coordinated into our operations as a separate division within our consumer area and we are expanding the distribution of some of these products.

"Because competition attribute."

oducts.

"Because competitive activities continue at a high pitch," Gerot id, "we have increased our advertising expenditures above the levels last year. Research expenditures have been increased to more adeately support both near-by and long-range programs for the development of new products."

quately support both near-by and long-range programs for the development of new products."

Gerot stated that, "Capital expenditures, including investments in certain foreign operations, are proceeding currently at an annual rate of \$10 million. The new flour mill at East Los Angeles is nearing completion, and the turbo-milling installation at the Ogden, Utah, flour mill is complete and in operation. Land has been purchased at Denison, Texas, where we expect to build a new refrigerated products plant.

"Although it is difficult to predict accurately conditions in the food industry during the second half of the fiscal year, present information would seem to indicate that our year-end results will show improvement over those of fiscal 1960."—V. 192, p. 800.

Pittsburgh Coke & Chemical Co.—Net Off-Review-

The company's earnings and sales during 1960 reflected theoretical to contribution being made by a new subsidiary. United States Concrete Pipe Co., acquired late in 1959, which substantially increased the company's role in the growing construction products field. The contribution of the new subsidiary helped to partially offset a decline coke, iron, and ferromanganese sales due to the continuing low operations in the steel industry.

United States Concrete Pipe Co. is constructing a new vitrified clay pipe plant at Ocala, Fla., and a new concrete pipe plant at Oakdale, Pa.

Despite adverse conditions in the general economy, the year wit-essed an expansion not only in the company's construction product lants, but also in its chemical facilities. Early in the year Pittsburgh Coke & Chemical Co. announced the ormation of Pittsburgh Chemical Co. The subsidiary was organized rom the parent company's Activated Carbon, Industrial Chemicals, and protective Coatings divisions and their supporting technical staff epartments.

departments.

At the time of the announcement, the company stated that the creation of an autonomous subsidiary will result in increased commercial impact in the chemical field.

Pittsburgh Chemical Co. subsequently announced an extensive \$7 million expansion program designed to improve its competitive position within the industry. Included in the expansion are the Industrial Chemicals Division's new sulfuric acid facilities, a modern maleix anhydride plant, and additional phthalic anhydride capacity—all at Neville Island, seven miles down the Ohio River from Pittsburgh.

Neville Island, seven miles down the Ohio River from Pittsburgh.

Meanwhile the Activated Carbon Division has built a new \$4 million plant to meet the increased market requirements for its coal-derived granular absorbents used in modern sugar refining, food processing and water purification. The new plant is located on the Big Sandy River in the Ohio Valley near Ashland, Ky.

The Protective Coatings Division has been reorganized to achieve more effective marketing results for all of its products, including the Insul-mastic line of coating.

Pittsburgh Coke & Chemical Co. recently announced that its cement subsidiary, Green Bag Cement Co., will be sold to Marquette Cement Manufacturing Co. This will permit Pittsburgh Coke to concentrate funds and management attention on the fields in which it has strong, well-established, and fully competitive positions. Pittsburgh Coke interest in the cement industry has been limited to Green Bag's single plant operation. For the acquisition, which is scheduled to be consumated on Jan. 17, 1961, Marquette will issue 150,000 shares of Marquette common stock to Pittsburgh Coke.

Although sales and earnings for the year are not yet available, Pittsburgh Coke & Chemical's latest interim report showed that for the first nine months of 1960, sales were \$49,738,000 and net income was \$1,423,000, compared with \$50,580,000 and \$2,012,000 in 1959.—

Pittsburgh Plate Glass Co.—Corporate Structure

Columbia-Southern Chemical Corp., a wholly-owned subsidiary, became a division of Pittsburgh Plate Glass Co. on Jan. 1, 1961.

The new division will operate under the name of Pittsburgh Plate Glass Co. Chemical Division. The principal officers of Columbia-Southern have been elected as officers of Pittsburgh Plate, effective Jan. 1, 1961. On that date, Joseph A. Neubauer became Vice-Presidenty and General Manager, Chemical Division, and Chris F. Bingham became Vice-President-Chemical Sales.

The change in corporate structure is made to consolidate the operations of Columbia-Southern Chemical Corp. with those of Pittsburgh Plate Glass Co. The general direction and management of the chemical operations will not be affected by this corporate change.

—V. 192, p. 996.

Pocket Books, Inc.—Common Stock Sold—An underwriting group headed by White, Weld & Co. Incorporated and Goldman, Sachs & Co. offered on Jan. 5, 600,000 shares of Pocket Books, Inc. common stock which were sold for certain stockholders. The company will not receive any proceeds of the sale. The underwriters are initially offering 20,000 between the test the contractions. tially offering 30,000 shares of the stock to employees at \$24.55 per share. The other 570,000 shares were offered to the public at \$26 per share. The public offering sold

duickly at a premium.

BUSINESS—Pocket Books, Inc. is believed to be the largest U. S. publisher of paperback reprint books, and its 50%-owned affiliate, Golden Press, is believed to be the country's largest publisher of children's books.

CAPITALIZATION—Outstanding capitalization of Pocket Books as of Nov. 10, 1960 comprised \$1,500,000 promissory serial notes, 32,500 shares of \$10 par value convertible preferred stock; 2,074 shares of \$100 par value class A preferred stock; and 3,000,000 shares of common stock.

mon stock.

Consolidated sales of Pocket Books, Inc. and subsidiaries in the year ended Sept. 30, 1960, exclusive of operations of Golden Press, were \$24,092,387 and net income applicable to the common stock was \$2,004,861, equal to 67 cents per share. Sales of Golden Press during the 12 months ended Sept. 30 were \$36,815,300 and net income was \$2,228,329, of which \$1,114,164, equal to 37 cents per share of Pocket Books common—stock, was applicable to the Golden Press shares owned by Pocket Books. All Sept. 30 figures are unaudited.

—V. 192, p. 2020.

Polychrome Corp.—Files for Offering—

This corporation, of 2 Ashburton Avenue, Yonkers, N. Y., filed a egistration statement with the SEC on Dec. 29, 1960, seeking registration of 125,000 shares of common stock, to be offered for public sale irough a group of underwriters headed by Westhelmer and Company, he public offering price and underwriting terms are to be supplied w amendment.

The public offering price and underwriting terms are to be supplied by amendment.

The company is engaged in the design and manufacture of (1) offset supplies, including pre-sensitized paper offset plates, pre-sensitized aluminum offset plates, direct image offset plates, offset printing inks, chemicals and accessories, and (2) mimeograph stencils, mimeograph inks and accessory supplies. The net proceeds from the stock sale will be used as follows; \$300,000 for establishing new facilities for the manufacture of aluminum plates and for the development of a new plate tentatively known as "Plykote"; \$150,000 to increase the sales staff and offices; \$250,000 to manufacture new chemical and allied products, including, but not limited to, photographic chemicals; and the balance will be added to general funds and used for general corporate purposes.

In addition to certain indebtedness, the company has outstanding 304,000 shares of common stock, of which Gregory Halpern, Board Chairman and President, owns 250,000 shares and management officials as a group 268,750 shares.

Ram Electronics, Inc., Paramus, N. J.—Files With SEC The corporation on Dec. 28, 1960 filed a letter of notification with a SEC covering 75,000 shares of common stock (par 10 cents) to e offered at \$4 per share, through Plymouth Securities Corp., New ork, N. Y. The proceeds are to be used for general corporate purposes.

Republic-Transcon Industries, Inc.-Industry Forecast. The healthy replacement market, available in the past to the water eater manufacturer as a cushion against adverse business conditions ffecting the general appliance industry, will expand considerably in

heater manufacturer as a cushion against adverse business conditions affecting the general appliance industry, will expand considerably in the next few years.

This prediction was made by Milton J. Stevens, board chairman of Republic-Transcon Industries, Inc., a major water heater manufacturer. "Millions of water heaters now operating are obsolete by today's standards," Mr. Stevens noted in a statement issued on the industry, its past year's performance and its future.

These ready-to-be-replaced units, which he termed the industry's "golden nest egg," will have added to their numbers a continuous flow of thousands of short warranty, low priced units now in housing projects and developments, already in need of replacement.

"Strange as it may seem," he stated, "this same type unit, normally a \$50, one-year warranty heater, is installed in hundreds of \$50,000 and \$75,000 homes."

and \$75,000 homes."

Conditions in 1960 which strengthened this replacement market and which will continue to do so in 1961, according to Mr. Stevens, are

the population explosion and the recent rise in home modernization

It is Mr. Stevens' opinion that these last two factors more than erase the bad effects of any decreases in new home building.

It is Mr. Stevens' opinion that these last two factors more than erase the bad effects of any decreases in new home building.

"Demands for hot water are increasing as the family grows and as many new hot-water consuming 'wife-savers' are being introduced into the kitchen and laundry room."

Commenting on the water heater industry's drop in unit sales in 1960 below the 1959 level, the Republic-Transcon chairman laid the blame squarely upon the shoulders of those manufacturers who did not take advantage of the industry's natural asset.

"It is my opinion that had the industry, as a whole, taken advantage of . . . this replacement market and the need for high quality units for the increased hot water load, it would have fared much better than it did," he said.

"Instead, many manufacturers turned to new home construction for their major area of sales and have suffered for it."

He pointed to the excellent performance of his own company in 1960 as an example of the opportunity which was available to those who utilized the industry's natural advantages.

In 1960, Republic-Transcon Industries will show sales in excess of \$18,000,000 and earnings of \$0.70 per share as compared with sales in 1959 of \$12,900,000 and earnings of \$0.70 per share as compared with sales in 1959 of \$12,900,000 and earnings of \$0.70 its sales. By concentrating on the available market, the dip in new housing starts which closed some water heater companies and plummeted others to record lows had no noticeable effect upon Republic-Transcon.

Also, by gearing up to meet the challenge of better equipment with higher performance to replace the old units, he believes his company is now in a most advantageous position to capture a larger portion of the future's available market.

Mr. Stevens predicts that the market will become more competitive this coming year with prices varying with the efficiency of the industry. He says that Republic-Transcon and the other large manufacturers will have a definite advantage over the small marginal producer. As a

Ritter Co., Inc. - Additional Financing Details Jan. 2 issue reported the offering on Dec. 29 of \$4,500,000 of this firm's debentures. Additional financing details follow

UNDERWRITERS—In the underwriting agreement, the several underwriters, represented by Lehman Brothers, agreed, subject to the terms and conditions therein set forth, to purchase all the debentures. The names of the several underwriters and the principal amount of debentures purchased by each of them are as follows:

|--|--|

Rixon Electronics, Inc.—Registers With SEC-

Rixon Electronics, Inc.—Registers With SEC—
Rixon, of 2414 Reedie Driver, Silver Spring, Md., filed a registration statement with the SEC on Dec. 20, 1960, seeking registration of 115,000 shares of capital stock, to be offered for public sale through Auchincloss, Parker & Redpath. The public offering price and underwriting terms are to be supplied by amendment. An additional 10,000 shares are to be sold to the underwriter by James L. Hollis, president and board chairman (the price to be supplied by amendment).

The company is a custom electronics engineering and development company engaged in the development and production of specialized electronic equipment for use in modern communications, instrumentations, data processing and other electronic systems. The net proceeds from the stock sale will be used to pay existing bank indebtedness of \$162,522 and existing demand notes to Hollis of \$45,000, with the balance to be added to working capital for use in connection with the company's expansion plans. It is expected that \$100,000 will be applied to further research and development relating to proprietary products, \$30,000 will be used to finance expansion of the marketing program, and \$50,000 will be applied to the purchase of shop, technical and other capital equipment needed in connection with the proposed new plant facilities; and the balance will be used to strengthen the company's financial position to permit it to accept new orders in connection with the expanded production and exploitation of certain proprietary products.

Pursuant to a recapitalization of Oct. 15, 1960, the company's 61,013 capital shares then outstanding were reclassified into 366,078 capital shares which, in addition to certain indebtedness, are now outstanding. Of such outstanding stock, Hollis owns 83% and management officials as a group own 89%.—V. 191, p. 2749.

Roblin-Seaway Industries, Inc.—Proposes Offering-

Roblin-Seaway Industries, Inc.—Proposes Offering—
This firm, of 1437 Bailey Avenue, Buffalo, N. Y., filed a registration statement with the SEC on Dec. 29, 1960, seeking registration of 30,000 shares of class A stock, to be offered for public sale at \$6 per share. The offering is to be made on an all or none basis through under-writers headed by Brand, Grumet & Seigel, Inc., who will receive a commission of 60 cents per share. The company also has agreed to sell 10,000 class A shares to the underwriters for 25 cents per share, and 2,000 at the same price to Gerland Berkman as a finder's fee.

The public offering is scheduled for late February or early March. Organized under New York law in December, 1960, the company will be consolidated with Roglin, Inc., and Seaway Steel Corp. in 1961 and will carry on the businesses of those companies. Roblin is engaged in the purchase and sale of scrap steel and other ferrous and nonferrous metals, while Seaway operates a rolling mill which produces bars, rods and other shapes of steel and nickel. The company also has or will have interests ranging from 50% to 76% in a demolition contractor, a lessor of demolition equipment, a stevedoring business, a metals broker and a manufacturer of rolled nickel anodes and other rolled nickel products. Net proceeds of the sale of stock by Roblin-Seaway will be added to its general funds and be available for its general corporate purposes, including increased working capital. From these funds the company will pay a \$173,280 bank loan; and it also intends to purchase additional annealing furnaces for the rolling mill operated by Seaway in order to increase its annealing capacity, at a cost estimated at \$50,000.

In addition to certain indebtedness, the company has outstanding 145,040 shares of common stock. The prospectus lists Raymond L. Morrison as Board Chairman and Daniel A. Roblin, Jr., as President. Medical stocked and the supplied by amend-ment.

Rockwell Manufacturing Co.-Forecast-

Because newly developing instrumentation and control systems are giving American processing plants ever greater reliability, a trend is emerging in which reserve capacity as a percentage of total productive capacity is declining, according to William F. Crawford, President of Edward Valves, Inc. (East Chicago) and of Republic Flow Meters Co. (Chicago). Both companies are subsidiaries of Rockwell Manufacturing Co.

Co.

This trend is occurring in such diverse industries as electric power generation, chemical processing, petroleum processing, paper-making, and steel-making, Mr. Crawford said.

The historical or traditional growth rate for new plant facilities is consequently a shrinking percentage of total installed capacity as sophisticated and more reliable equipment is made available. As a result, Mr. Crawford predicted, the 1961 market for many capital goods producers will show only a modest increase over 1960. Any increase will come largely in the latter part of the year.

The net result, Mr. Crawford added, is that fewer plants will be built although each processing unit is larger in capacity. In fact, many are establishing new records for productive capacity per unit.

*The averages for the 30 industrial stocks and for the 65-stock composite average give effect to the International Paper Company's distribution of two additional shares of common stock for each share held. This changed the divisor for the 30 industrials to 3.28 from 3.38 and that for the 65 stocks to 17.28 from 17.58.

THE COURSE OF BANK CLEARINGS

Bank Clearings this week will show an increase compared with a year ago. Preliminary figures compiled by us based upon telegraphic advices from the chief cities of the country, indicate that for the week ended Saturday, Jan. 7, clearings for all cities of the United States for which it is possible to obtain weekly clearings will be 0.7% above those of the corresponding week last year. Our preliminary totals stand at \$29,798,251,607 against \$29,584,876,313 for the same week in 1959. At this center there is a gain for the week ending Friday of 12.6%. Our comparative summary for the week follows:

CLEARINGS-RETURNS BY TELEGRAPH

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday and the Saturday figures are not available at time of going to press. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results of the previous week—the week ended Dec. 31. For that week there was an increase of 17.6%, the aggregate clearings for the whole country having amounted to \$26,362,651,757 against \$22,922,226,318 in the same week in 1959. Outside of this city there was a gain of 3.2%, the bank clearings at this center showing an increase of 25.9%. We group the cities according to the Federal Reserve Districts in which they are located and from this we note that in the New York Reserve District the totals record an improvement of 25.1%, in the Boston Reserve District of 4.3% and in the Philadelphia Reserve District of 0.1%. In the Cleveland Reserve District the totals are smaller by 8.3% but in the Richmond Reserve District the totals are larger by 11.8% and in the Atlanta Reserve District by 4.7%. The Chicago Reserve District registers an increase of 3.4%, the St. Louis Reserve District of 1.8% and the Minneapolis Reserve District of 11.4%. In the Kansas City Reserve District the totals show a gain of 12.0%, in the Dallas Reserve District of 6.7% and in the San Francisco Reserve District of 3.5%.

In the following we furnish a summary by Federal Reserve Districts:

SUMMARY OF BANK CLEARINGS

Week Ended Dec. 31-	. 1960 &	1959 \$	Inc. or Dec. %	1958 \$	1957

General Corporation and Investment News

Continued from page 8

From the capital goods manufacturers' standpoint, however, there are fewer projects being developed and authorized annually. Consequently, Mr. Crawford observed, the competition for the available orders is greatly intensified. In 1961, competition will be even greater, he predicted.

Average selling prices for many capital goods, Mr. Crawford said, are either stable or declining. This is happening, Mr. Crawford said, in spite of increasing costs for wages and benefits and for certain materials and services that capital goods manufacturers must buy. The squeeze on profits is resulting in less money being available for the research and development of new goods and processes. In the long run, this hurts the United States position in world markets and reduces the growth rate of domestic industry. As a result, income taxes paid by American industry to the government decline, he said.—V. 192, p. 2372.

Rohm & Haas Co.—Common Stock Sold—Drexel & Co. and Kidder, Peabody & Co. made a secondary public offering on Jan. 3 of 9,378 shares of \$20 par value common stock of this company at a price of \$615 per share. The offering was oversubscribed and the books closed.

PROCEEDS—A total of 9,000 of the shares being offered are a portion of the holding of the executors of the estate of Otto Haas, former president and chairman of the board, who died Jan. 2, 1960.

The remaining 378 shares being offered are a portion of the holdings of a charitable trust. Rohm & Haas Co. will receive none of the proceeds of the sale of the shares.

EUSINESS—Rohm & Haas, with headquarters in Philadelphia, manufactures a wide variety of chemicals and plastics, of which acrylics constitute the most important single group.

CAPITALIZATION—Outstanding capitalization of the company consists of \$2,400,000 of 3½% serial notes; 61,539 shares of \$100 par value 4% cumulative preferred stock, series A; and 1,139,330 shares of \$20 par value common stock.—V. 192, p. 2064.

Saber Boats, Inc.-Granted Hearing-

At the request of Saber Boats, Inc., formerly of Accokeek, Md., the Securities and Exchange Commission has scheduled a hearing for Jan. 16, 1961, on the question whether to vacate or make permanent the Nov. 25, 1960, order of the Commission which temporarily suspended a Regulation A exemption from registration under the Securities Act of 1953 with respect to a public oftering of stock by Saber Boats. The Commission's suspension order asserted that Saber Boats' offering circular and related material used in the offering and sale of its stock were false and misleading in respect of various material facts. The offering was underwritten by Batten & Co. of Washington, D. C.—V. 192, p. 2267.

Scott Paper Corp.—Affiliate Financing—

The first step in carrying out the financing program of Bruns-ick Pulp & Paper Co.'s \$35,000,000 expansion was completed or

wick Pulp & Paper Co.'s \$55,000,000 capa...

Jan. 5.

The company, located in Brunswick, Ga., will continue to be co-equally owned by Scott Paper Co., Chester, Pa., and The Mead Corp., Dayton, Ohio.

Brunswick's expansion is being financed by Mead and Scott each buying Jan. 5 100,000 additional shares of Brunswick capital stock win a par value of \$10,000,000; banks agreeing to lend \$29,778,000 to Brunswick, part of which will refinance an existing debt.

Mead paid \$10.000,000 cash for the additional Brunswick common

Mead paid \$10,000,000 cash for the additional Brunswick common stock it purchased.

stock it purchased.

Scott took up its subscription for the additional shares of Brunswick stock by selling to Brunswick 1,000,000 shares of capital stock of British Columbia Forest Products Limited in return for 100,000 shares of Brunswick common and \$5,530,000 in cash. British Columbia Forest Products owns and operates saw mills, a plywood mill and a veneer mill in British Columbia, and a bleached kraft pulp mill, with a daily rated capacity of 425 tons, located on Vancouver Island.

Brunswick's expansion program will increase its daily output of bleached sulphate pulp from 550 tons to 1,100 tons per day.

A new pulp-drying machine, which will be a part of the expanded facilities, will make it possible for Brunswick to manufacture bleached board for the first time in its history.—V. 192, p. 2372.

Seaboard Homes, Inc.-Common Stock Offered-Pursuant to a Dec. 29 offering circular, Richard Bruce & Co., Inc., of 80 Pine Street, New York 5, N. Y., publicly offered 100,000 shares of this firm's 10¢ par common stock

at \$3 per share.

BUSINESS—The company is engaged in the manufacture, assembly and sale of homes and home components which are marketed under the name "Seaboard Homes." Until recently the company's sales were made almost exclusively direct to individuals; however, recently it has commenced to concentrate its sales efforts on sales to home builders and real estate developers. The homes and home components are manufactured at the company's plant in Cold Spring, N. Y., where many of the components are assembled. The company offers 20 basic home models, the exteriors of which can be redesigned and the interiors rearranged to the fit the requirements of the purchaser. Models offered by the company include ranch, split-level, two story, and the basic one-level home and range from the conservative Colonial-type home to the advanced contemporary style. The retail prices of the homes depend upon the model and the location.

PRECEEDS—The estimated proceeds to the company will be approximately \$235,000, after payment of Underwriter's commissions and expense allowances and expenses of the company estimated not to exceed \$7,500. It is expected that such proceeds will be utilized substantially in the order of priority listed, as follows:

(a) Approximately \$45,000 for the purchase, construction and equipping of a new plant and executive offices at Fishkill, N. Y.:

(b) Approximately \$155,000 for the purchase of raw materials inventory; and

(c) Approximately \$35,000, representing the balance of the proceeds, or working capital, including promotional and advertising expenses. The foregoing uses, of necessity, represent the needs of the company as now contemplated by the board of directors, and the board reserves the right, in the event of unforeseen circumstances, to apply the proceeds to such altered purposes as circumstances may require.

Search Investments Corp.—Files for Offering—

Scarch Investments Corp., 1620 Rand Tower, Minneapolis, Minn., filed a registration statement with the SEC on Jan. 4, 1961, covering 1,006,000 shares of common stock, to be offered for public sale at \$1 per share. No underwriting is involved.

The company was organized under Minnesota law in November, 1960, and is registered under the Investment Company Act of 1940 as a non-diversified closed-end investment Company. The net proceeds from the stock sale together with \$100,000 which has already been paid into the company will be used as follows: \$20,000 for working

capital, to finance office space and salaries for one year; and \$1,074,-000 for investments.

The company has outstanding 100,000 shares of common stock.

Newell O. Gaasedeien is listed as President, the stock is owned primarily by incorporators and management officials. The stock will be sold through extorts of the company's officers and directors and the board will assume full responsibility for the entire management of the company and no outside investment counsel will be employed. The company, "will confine its investments principally to common stocks or similar vehicles of equity capital."

Security Title & Guaranty Co., New York, N. Y.—Files With Securities and Exchange Commission—

The company on Dec. 28, 1960 filed a letter of notification with the SEC covering 25,000 shares of common stock (par \$5) to be offered at \$5.50 per share, without underwriting.

The proceeds are to be used for general corporate purposes.—V. 189, p. 2831.

Shell Development Co.-New Product-

Research engineers have developed an instrument that draws an electronic profile" of the thickness of a well casing, indicating corsion spots that could lead to oil leaks. The cost of fixing a leak in me wells may be from \$30,000 to \$60,000.

Designed by Shell Development Co. engineers, the instrument sures the precise thickness of the steel walls that line a well top to bottom. Its gauge can spot a thinning in the wall 1/2 of an inch deep, so "it can detect the bite of corrosion in tim corrective treatment," according to Thomas R. Schmidt, one o designers of the tool.

Mr. Schmidt said the instrument is the first one capable of un-covering an attack of corrosion on the outside, or earth side, of the steel lining. Corrosion detectors now in use operate by "feel," conse-quently their probing is limited to the accessible inside walls of the

The new instrument gauges the thickness of a casing by measuring the time it takes electromagnetic waves to move through the casing walls. A wave passes more quickly through a thin piece of steel than through a thick piece.

The waves are transmitted from a round sending coil which is small enough to fit into a well. As the coil is lowered down the hole, the waves travel in a loop from the coil out to the casing and back to a pick-up coil beneath the transmitter. Thus, as the coils are lowered down the hole, the instrument reports changes in wall thickness in terms of the fluctuations in the waves' travel time.

ness in terms of the fluctuations in the waves travel time.

Electronic components send this information back to recording instruments on the surface. Here, a pen recorder follows the descent of the probe, drawing a profile of the casing's thickness from top to bottom. This record shows both the depth at which corrosion is occurring and the extent of its penetration.

Later, the instrument can be used to check the effectiveness of the treatments employed to stop the attack.

According to Mr. Schmidt, it will also help scientists understand more about the factors that cause corrosion in oil wells. "We need more knowledge about these factors, particularly on those that produce an attack from the earth surrounding the pipe," said the Shell scientist.

Standard Financial Corp. - Private Placement - This Standard Financial Corp. — Private Placement — This corporation, as a result of private financing through a group of insurance companies, on Jan. 4 reached \$100 million in resources. Theodore H. Silbert, President, announced. Mr. Silbert pointed out that the company started with only \$1,000 in 1932. The new financing was a private sale to five insurance companies of a 15-year, \$3.5 million issue of subordinated notes. Glore, Forgan & Co. assisted in the transaction. The insurance companies were headed by New York Life Insurance Co. and John Hancock Mutual Life Insurance Company.

Co. and John Hancock Mutual Life Insurance Company.

In June, 1960, the corporation privately placed a five-year issue of \$7 million in senior notes and \$3 million in subordinated notes with a group of life insurance companies. This transaction was also arranged by Glore, Forgan & Co.

Standard Financial Corp is one of the nation's leading finance, factoring and commercial installment banking companies with head-quarters in New York City and otinces in Los Angeles, Dallas, Philadelphia and Elmira, N. Y. The company's finance volume is currently at a rate of one-third billion dollars. The company's stock is listed on the New York Stock Exchange.—V. 192, p. 2268.

Statmaster Corp.—Securities Offered—Pursuant to Jan. 3 offering circular, Blaha & Co., Inc., 29-28 — 41st Ave., Long Island City 1, N. Y., publicly offered at \$100 per unit, 2,500 units of this firm's securities. Each unit consisted of 50 shares of 10¢ par common stock and \$50 of 6½% convertible subordinated debentures, due Jan. 12, 1966.

BUSINESS—Statmaster Corp. was incorporated under the laws of the State of New York on July 20, 1955, and on Nov. 24, 1958 was qualified to do business in the State of Florida. Since July 1, 1959 the company's main executive offices, sales office, warehousing and shop facilities have been located at 3552 East 10th Court, Hialeah, Fla.

The company is engaged in the designing, engineering, fabrication, sale and installation of a self-contained camera and darkroom combination which is marketed under the trade name "Statmaster" combines the functions of a photocopy machine, a reproduction process camera, and a photographic enlarger within a single unit.

single unit.

Principally, the company sells its products to advertising artists and agencies, typographers, lithographers, engravers, printers, publishers, designers, commercial photographers, utility companies, department stores and industrial firms with in-plant art departments. Sales thus far have been made in 21 states, and in Canada. The company also sells photographic paper and chemicals which are manufactured for the company, and packaged under the "Statmaster" label. The company provides instruction in all phases of commercial photography to the users of its units, and maintains a staff of trained photographers for this purpose.

photographers for this purpose.

PROCEEDS—In the event that all the units of debentures and common stock are sold, the estimated proceeds to the company will be approximately \$198,750 after payment of the underwriter's commission and expenses. It is anticipated that such proceeds will be utilized substantially as follows, in order of priority, as listed:

the third part of priority, as listed:

(a) Approximately \$15,000 for expenses of the offering;

(b) \$20,000 for increasing inventory of raw and fabricated materials;

(c) \$25,000 for increasing inventory of raw and fabricated materials;

(d) \$25,000 for increasing inventory of paper, film, and chemicals;

(e) \$40,000 to establish a leasing program;

(f) \$20,000 for establishing dealerships;

(g) \$33,000 for retiring bank loans and accrued expenses;

(h) \$20,750 for additional working capital.

Storer Broadcasting Co.-Files for Secondary

This company, of 1177 Kane Concourse, Miami Beach, Fla., filed a registration statement with the SEC on Dec. 30 covering 263,000 outstanding shares of common stock, to be offered for public sale by the present holders thereof through an underwriting group headed by Reynolds & Co., Inc. The public offering price and underwriting terms are to be supplied by amendment. The offering is scheduled for early February.

are to be suppned by amendment. The offering is scheduled for early February.

The company owns and operates directly or through subsidiaries five television broadcast stations, seven standard radio broadcast stations, and six frequency modulation radio broadcast stations; and it also publishes a daily newspaper in Miami Beach, Fla., through a subsidiary and owns a majority of the voting stock of The Standard Tube Co., manufacturer of steel tubing and other tubular products. The company now has outstanding 975,060 shares of common stock and 1,499,690 shares of class B common stock. George B. Storer, President and Board Chairman, owns 1,086,340 shares (72.38%) of the class B stock; and the Storer family, including the President's brother-in-law and sister (Mr. and Mrs. J. Harold Ryan), and certain trusts, own 99.67% of the class B stock outstanding. All of the 263,000 common shares being sold are shares into which a like number of class B shares will be converted. George B. Storer proposes to sell 160,000 shares; The Decroit Bank and Trust Co., as trustee under agreements with George B. Storer, 50,000; and the Ryans, 50,000. Ryan is Senior Vice-President of the company.—V. 190, p. 1228.

Swingline Inc. Appointment.

Swingline. Inc.—Appointment—

Eankers Trust Company has been appointed registrar for the class A and class B stocks of the corporation.—V. 192, p. 2657.

Swiss Chalet, Inc.—Files for Offering—

Swiss Chalet, Inc., of 105 De Diego Avenue, San Juan, Puerto Rico, filed a registration statement with the SEC on Jan. 4, 1961, covering 115,000 shares of 70c cumulative first preferred stock, 89 par, and 115,000 shares of common stock, to be offered for public sale in units at \$10 per unit. Each unit will consist of one share of preferred and one share of common. The offering is to be made through P. W. Brooks & Co., Inc. and Compania Financiera de Inversiones, Inc., of San Juan. The underwriters will receive a \$1 per unit commission and will purchase for \$450, five-year warrants to purchase 45,000 common shares at \$1.75 per share.

The company operates the Swiss Chalet Restaurant which occupies

shares at \$1.75 per share.

The company operates the Swiss Chalet Restaurant which occupies a modern air-conditioned building on De Diego Avenue in San Juan. According to the prospectus the current financing program is designed to provide primarily for the construction and furnishing of a seven-story hotel adjacent to the restaurant. The hotel, now under construction and to be known as the Hotel Pierre, will have 132 air-conditioned rooms, together with supporting facilities including lobby, cocktail

lounge, swimming pool, and tourist shops. It will cater to both the tourist and business trades. The net proceeds from the sale of this and a first mortgage loan of up to \$1,150,000 will be used as follows:

(a) \$470,570 to payment of interim financing loans from Rexach Construction Company, Inc. which has been applied to the redemption of the company's 10% preferred stock, payment of outstanding mortgages on its propercies, payment of architects' fees for design of the hotel and equisition of additional land for the hotel site, (b) \$1,406,000 to cost of construction, architects' fees for supervision during construction and furniture and equipment for the hotel, including payment of inverim financing loans to be obtained from The First National City Bank of New York for such purposes, (c)\$80,000 to cost of modifications to present restaurant facilities to adapt them to the requirements of the hotel, and (d) the balance to payment of pre-opening and other expenses incident to commencement of hotel operations and for working capital.

In addition to indebtedness, the company has outstanding 300,000 shares of common stock, of which Pierre U. Greber, President, John Lohner, Vice-President, Klaus Gygax, Vice-President, and Pierre F. Lohner, Treasurer, own 75,000 shares each.

Syntex Corp.—Files for Secondary-

Syntex Corp.—Files for Secondary—

The copporation, of Panama, Republic of Panama, filed a registration statement with the SEC on Jan. 3, 1961, covering 7,389 shares of sloo par preferred stock and 98,890 shares of common stock (of which latter 75,890 are reserved for issuance upon conversion of preferred stock). According to the prospectus, nine holders of 3,584 preferred shares will convert same into 35,480 common shares and o.fer the latter for public sale. One of such preferred holders is E. F. Hutton & Co., which owns 1,196 preferred shares (plus 3,040 common shares). An additional 25,000 common shares are to be sold by The Value Line Fund, Inc., and two affiliated companies (who will retain 6,550 common shares). This accounts for all the 60,840 common shares to be offered for public sale, the offering to be made from time to time on the American Stock Exchange at prices prevailing at the time of sale less brokerage commissions.

The company and its subsidiaries are engaged in the pharmaceutical business, principally in the production and sale of steroid hormone products and in research related to development of such products. It has outstanding 7,389 preferred shares and 1,398,840 common shares. George Rosenkranz is listed as President. The principal common stock Management officials own 47.4% of the outstanding preferred and 3.2% of the outstanding common.—V. 192, p. 1653?

Techni Electronics, Inc.—Appointment—

Irving Trust Company has been appointed registrar of the common stock of the corporation.—V. 192, p. 2372.

Tennessee Gas Transmission Co.-New Plant-

The Houston company will build a multimillion-dollar petrochemical plant on its Houston Ship Channel property.

This was disclosed on Jan. 2 as Tennessee Gas in Houston and Cary Chemicals, Inc., in East Brunswick, N. J., jointly announced a long-term production and marketing association.

At the same time Cary announced plans for the expansion of its vinyl polymer, compounding and calendering facilities, as part of a program to make it one of the largest fully-integrated producers of vinyl products.

a program to make it one of the largest fully-integrated producers of vinyl products.

J. J. King, Senior Vice-President in charge of the project for Tennessee Gas, and G. F. Blasius, President of Cary, outlined the arrangement between the firms. Cary will continue as an independent, publicly-owned corporation in which Tennessee Gas will have a substantial interest, they stated. This will greatly strengthen Cary's overall financial position.

The diversification of Tennessee Gas into petrochemicals, and Cary's expansion program, will be closely integrated. Tennessee Gas is one of the nation's principal handlers of natural gas and light hydrocarbons, while Cary is one of its largest manufacturers and marketers of polyvinyl chloride-based plassics and related materials. These products have a wide variety of uses in industry, business and the home.

the home.

The Tennessee Gas plant, in which Cary is expected to have an equity participation, will be started in 1961 with completion scheduled for 1962, Mr. King said. It will be the first development on the company's 794-acre site on the Houston Ship Channel west of the Sheil refinery, acquired in 1959 from Mrs. Audrey Jones Beck, niece of the late Jesse H. Jones.—V. 192, p. 2373.

Texas Gas Transmission Corp .- Proposes Offering-

Texas Gas Transmission Corp.—Proposes Offering—
This corporation, of 416 West Third Street, Owensboro, Ky., filed a registration statement with the SEC, on Dec. 30 covering 300,000 shares of common stock, to be offered for public sale through underwriters headed by Dillon, Read & Co., Inc. The initial public offering price will be related to the current market at the time of the offering; and the terms of the underwriting will be supplied by amendment.

The company owns and operates an interstate pipeline system in Louisiana, Arkansas, Mississippi, Tennessee, Kentucky, Illinois, Indiana and Ohio. A wholly-owned subsidiary is engaged in the exploration for and the production of natural gas and oil, primarily in the Louisiana and Texas Gulf Coast area, and has a 50% interest in an extraction plant near Eunice, La. Net proceeds of the sale of additionatock will be used by the company to defray, in part, the estimated cost (\$27,000,000 op of its 1961 expansion and construction program. Of such amount, \$17,000,000 represents the estimated cost of new facilities to meet the projected requirements of certain customers for the winter heating season of 1961-62; and the balance represents the estimated cost of the company's new general office building in Owensboro (\$4,500,000), of expenditures in expanding its underground storage facilities \$3,900,000), and for normal additions to pipeline system (\$1,600,000).

The public offering is scheduled for Feb 8

000).
The public offering is scheduled for Feb. 8.

In addition to various indebtedness, and preferred stock, the company now has outstanding 2,958,581 shares of common stock. The prospectus lists Henry L. Hillman as Board Chairman and W. M. Elmer as President. Of the outstanding common stock, 25.6% is owned by J. H. Hillman & Sons Company, of Pittsburgh, which is directly or indirectly Controlled by Henry L. Hillman and other members of the Hillman family.—V. 192, p. 1916.

Textron Inc.—Subsidiary Acquires—

Textron Pharmaceuticals, Inc., a five-months-old subsidiary of Textron Inc., announced on Jan. 5 the acquisition of Tilden Co., the oldest ethical drug manufacturing firm in America.

The 137-year-old firm was founded by Elam Tilden in 1824, four years before the first U. S. railroad and 23 years before the formation

of the American Medical Association. The Tilden Company perfected the fluid extract process, was the first to sugar coat pills, princed the first U.S. Materia Medica (a compilation and description of the best known remedies of the day), and developed the first gelatin-coated pill.

Robert E. Grant, President of Textron Pharmaceuticals, Inc., stated that Tilden, with its fine name and historic background, will provide an excellent base for future Textron growth in the ethical drug field. Textron Pharmaceuticals plans to make a substantial investment in Tilden directed towards the introduction of new products and the expansion of its distribution system, Mr. Grant said.

The company, located in New Lebanon, N. Y., produces a line of ethical drugs (sold by prescription only) including items for hypertension and upper respiratory disorders.

Textroa Pharmaceuticals, Inc. was formed in August to engage in the ethical and proprietary drug fields. At that time it was announced that the new company would follow a program of growth through acquisition and through development from within.

Mr. Grant stated that preliminary negotiations are currently underway, aimed towards the acquisition of additional companies and products in the drug field.

Textron Inc. is a multi-industry company with manufacturing divisions in five basic fields: automotive, with 18% of total sales; consumer, 22%; defense, 22%, industrial, 21% and textile, 17%.

-V. 192, p. 2269.

Thompson Ramo Wooldridge Inc .- To Acquire-

Thompson Ramo Wooldridge Inc.—To Acquire—
Thompson Ramo Wooldridge, Inc., moved on Dec. 30 to acquire Radio Condenser Co. of Camden, N. J.

A producer of variable condensers, Radio Condenser also provides radio tuning devices for the commercial and electronic fields, and special purpose precision-type capacitors used in military communications equipment. The company employs about 2,000 in plants and laboratories in Camden, Watseka and Hoopeston, Ill., and Thornwood, N. Y., and operates a Canadian subsidiary, Radio Condenser Co., Ltd., at East Toronto, Ontario.

TRW President Dean E. Wooldridge said the company has obtained an option to acquire more than 90% of Radio Condenser's common shares on the basis of .2374 of a TRW common share for each share of Radio Condenser.

The option agreement, signed by TRW and 11 principal shareholders

shares on the basis of .2374 of a TRW common share for each share of Radio Condenser.

The option agreement, signed by TRW and 11 principal shareholders of Radio Condenser, provides that, subject to a registration statement to be filed with the Securities and Exchange Commission becoming effective, TRW will make the exchange offer to all holders of Radio Condenser shares. The entire transaction would involve the acquisition by TRW of all of Radio Condenser's 435,815 ouistanding shares in exchange for an aggregate of 103,463 TRW shares.

Dr. Wooldridge said the acquisition would add a completely new product line to TRW's Electronic Components Group. Headed by TRW Vice President Warren B. Hayes, with headquarters at Canoga Park, Calif., the TRW Electronic Components Group is a producer of ceramic and mylar film capacitors and intermediate frequency transformers, and also supplies a variety of other electronic components.

Thompson Ramo Wooldridge Inc. has 27,000 employees engaged in research, development and production of precision parts and systems in the electronics, missiles, space, aircraft and automotive fields. Sales for 1960 are expected to be approximately \$420 million.—V. 192, p. 747.

Time Finance Corp.—Proposes Debenture Offering-

This corporation, of 42 West Broadway, Salt Lake City, Utah, filed a registration statement with the SEC on Dec. 30, 1960, covering of \$1,000,000 of 6% convertible subordinated debentures due Jan. 1, 1976 (and \$50,000 underlying common shares) to be offered for public sale at 100% of principal amount, on a best efforts basis, through a group of underwriters headed by Whitney & Co., who will receive a 12% selling commission. The debentures will be convertible at prices ranging from \$7.50 per share in January, 1970.

The company and its subsidiaries conduct with the convertible at prices ranging.

1970.

The company and its subsidiaries conduct an industrial loan, small loan, accounts receivable financing and retail sales financing business. The net proceeds from the debenture sale will be used as follows: \$36,530 to increase volume of accounts receivable financing; \$24,145 to increase volume of drect industrial loans and dealer contracts; \$24,145 to increase volume of small loans; and \$700,000 for the reduction of notes payable.

In addition to certain indebtedness and preferred stock, the company has outstanding 104,731 shares of common stock, of which Harold C. Kimball, President, and his wife, own \$1,495 shares, Whitney & Co. owns 10,740 shares, and maangement officials as a group own \$2,051 shares.—V. 192, p. 1039.

United Air Lines-Exchange Offer Extended-

United Air Lines—Exchange Offer Extended—
The offer of United Air Lines to exchange its common stock for Capital Airlines 4½% convertible subordinated debentures due July 1, 1976, as part of a merger proposal has been extended from Dec. 31, 1960, to Jan. 28, 1961, according to Curtis Barkes, United's senior Vice-President—finance and property.
United has offered 20 shares of its common stock for each \$1,000 debenture of Capital. As a result of a 3% stock dividend paid by United on Dec. 15, the offer becomes 20.6 shares of United for each \$1,000 Capital debenture. The offer also includes payment of interest to the effective date of the merger.
The merger agreement provdies that United may abandon the merger if at least \$5% of the debentures are not exchanged for stock. Currently 31% have been deposited with the First National City Trust Co., Exchange Agent, 22 William St., New York City.—V. 192, p. 2373.

United Boatbuilders, Inc.-Files for Offering-

United Boatbuilders, Inc., 9th and Harris, Bellingham, Wash, filed a registration statement with the SEC on Jan. 3 covering 100,000 shares of common stock, to be offered for public sale through a group of underwriters headed by Birr & Co., Inc. and Marron, Sloss & Co., Inc. The public offering price and underwriting terms are to be supplied by amendment. The company will sell to the principal underwriters for \$1,000, five-year options to purchase 10,000 common shares, exercisable at 110% of the public offering price.

The offering is expected in early March.

The company is engaged in the business of manufacturing and selling fiberglas boats, of both inboard and outboard motor types, under the trade name. "Unifilite." The \$400,000 net proceeds from the stock sale will be used primarily to improve its working capital position. Initially, \$168,000 will be applied to retire existing short-term indetedness and \$45,000 for expansion of the production area of the company's present plant. The balance will be added to the general funds and will be available for general corporate uses, including, particularly, working capital to carry inventories and accounts receivable, payment of expenses in expanding sales program into additional territories, and payment of research and development costs.

Pursuant to a recapitalization on Dec. 19, 1960, the company's

Pursuant to a recapitalization on Dec. 19, 1960, the company's 8,000 common shares then outstanding were reclassified and split on a 5-for-1 basis into 40,000 common shares. The company also has certain indebtedness outstanding. Of the outstanding stock, Arthur M. Nordvedt, president, owns 10,000 shares; John L. Thomas owns 5,000 shares and management officials as a group own 18,575 shares.

United States Shell Homes, Inc.—Appointment—

The First National City Bank of New York has been appointed transfer agent for 275,000 shares of the \$1 par value common stock of the corporation.—V. 192, p. 2658.

Vapor Heating Corp.-Shares in Exchange Offer-

This corporation, of 80 East Jackson Blvd., Chicago, filed a registration statement with the SEC on Dec. 29, 1960, covering 211,534 outstanding shares of common stock. This stock is owned by American Manufacturing Co., Inc., having been acquired upon the merger of

Safety Industries, Inc., into American on Jan. 22, 1960. American proposes to offer the Vapor shares in exchange for the issued and outstanding shares of common and class A stock of American, the rates of exchange to be supplied by amendment. Vapor now has outstanding 741,482 shares of common stock; and the 211,534 shares, the subject of this exchange offer, constitute all of American's holdings.

Vitro Corp. of America-Agreement-

Vitro has purchased all minority interest in its chemical subsidiary held by Pechiney, French industrial chemical leader. This was announced recently by William B. Hall, President of Vitro Chemical Co., now a fully owned subsidiary.

now a fully owned subsidiary.

In addition to purchasing all stock and notes held by Pechiney, Vitro has entered into a new royalty agreement. It will run until Dec. 31, 1974, and gives Vitro exclusive United States and Canadian rights to all present and future Pechiney process and product patents involving rare earth chemicals, metals, alloys, and related compounds. It also provides for a mutual exchange of "know-how" in the field between Vitro and Pechiney during the same period through 1974. Such products as thorium, scandium, yttrium, hafnium and zirconium compounds are also included.

Vitro Chemical Co. has manufacturing operations at Chatteroccae.

Vitro Chemical Co. has manufacturing operations at Chattanooga, Tenn., and Salt Lake City, Utah. It produces inorganic chemical products for industry and uranium concentrates for the Atomic Energy Commission. Industrial products include rare earth and other inorganic chemicals, metals and alloys with special emphasis on glass polishing, ceramic, missile/space, metal finishing and electronic outlets.

ceramic, missile/space, metal finishing and electronic outlets.

The company was formed in 1959 by the merger of Vitro Uranium Co., Salt Lake City, and Heavy Minerals Co., Chattanooga, While the Salt Lake City operations were wholly owned by Vitro Corp., its partial ownership of Heavy Minerals Co. dates back to 1956. Pechine originally owned 20% of Heavy Minerals Co. while the Crane Co. owned 80%. In 1956, Vitro purchased half the Crane interest and in 1959 purchased the remaining Crane 40% ownership, With the formation of Vitro Chemical Co., Vitro Corp.'s equity interest amounted to 91.6% with Pechiney owning the remaining 8.4%.—V. 193, p. 52.

(Jim) Walter Corp.—Capitalization—

Stockholders of the corporation took action in Tampa, Fla., on Jan. 3 to simplify the capitalization of the company. They approved the recommendation of the board of directors to call for surrender all A warrants, A warrant options, B warrants and FR B warrants presently outstanding. In addition, first founder's convertible 15-year 7% bonds presently outstanding were called for redemption.

The action of the stockholders means that under the terms of the respective securities, holders have until Feb. 24, 1961, to exercise the warrants and warrant options or to convert the bonds. Thereafter, the company will redeem A warrants at \$1.10 each, B warrants, FR B warrants and A warrant options at one cent each. The 7% bonds will be redeemable at face amount plus accrued interest.

The corporation, operating branches in 111 cities, is the nation's largest builder of shell homes.—V. 193, p. 52.

(Del E.) Webb Corp.—Appointments-

Bankers Trust Co. has been appointed co-registrar and co-paying agent for \$8,000,000. Principal amount 6½% convertible subordinated debentures due Dec. 1, 1975 of the corporation.—V. 192, p. 2658.

(Lee) Wilson Engineering Co., Inc.—Files for Second'y

This company, of 20005 Lake Road, Rocky River, Ohio, on Dec. 30 filed a registration statement with the SEC seeking registration of 67,500 outstanding common shares. These shares represent part of the 210,000 shares owned by Margaret S. Wilson, the wife of Lee Wilson, Board Chairman; and she proposes to offer the 67,500 shares for public sale through Prescott, Shepard & Co., Inc. The public offering price and underwriting terms are to be supplied by amendment.

price and underwriting terms are to be supplied by amendment. The company produces equipment for treating flat rolled steel and rod and wire in a variety of ways, including chemical change through gas alloying and physical change through thermal treating. Its newly developed open coil process is said to make commercially available for the first time a method of changing the chemical composition of flat rolled steel. Of the 450,000 outstanding shares, 30,000 are owned by Lee Wilson and 240,000 shares are held by him as voting trustee (including the 210,000 owned beneficially by Mrs. Wilson). An additional 210,000 shares are held by trustees for the benefit of Nancylee Wilson Malm.

Wometco Enterprises, Inc.—Files for Secondary—

Wometeo of 306 North Miami Ave., Miami, Fla., filed a registration statement with the SEC on Dec. 30, 1960, covering 18,591 shares of class A common stock; 19,155 shares each of class B, series E, C and D common; and 23,944 shares of class B, series E common. All five series of stock are now outstanding and are to be offered for sale by Lee Higginson Corp. and A. C. Allyn & Co., Inc., except that 15,000 shares of class B common, series E, are being reserved for sale to company employees. None of the proceeds of the stock sale will be payable to the company unless the average price per share received by the selling stockholders, less 7% thereof, exceeds \$10, in which case the company is to receive 75% of the excess.

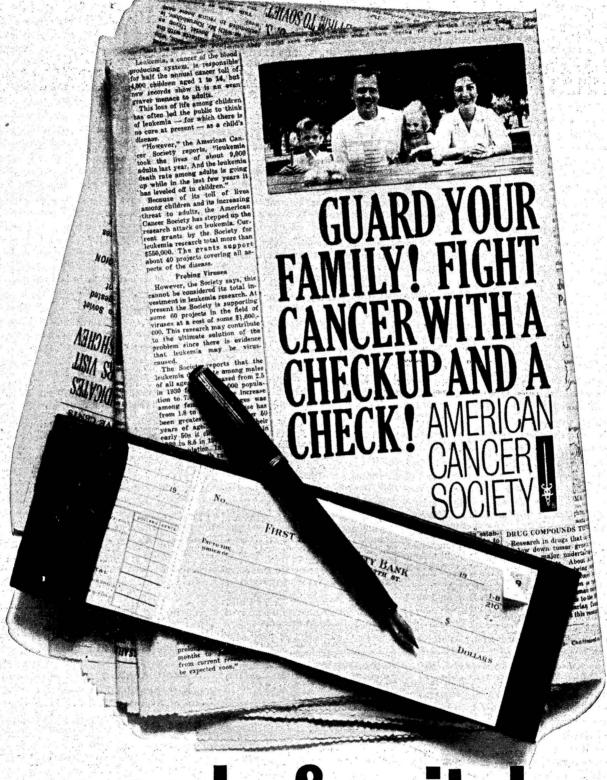

The offering is expected in early March.

The offering is expected in early March.

The company owns and operates television station WTVJ in Miami and television station WLOS-TV and FM and AM radio station WLOS in Asheville, N. C. It owns 47½% of the outstanding common and 60% of the outstanding preferred stock of the corporation which owns and operates television station WFGA in Jacksonville, Fla., and it recently signed a contract for the acquisition (subject to conditions) of Station KVOS-TV in Bellingham, Wash. It also operates a chain of 23 motion picture theaters, sells soft drinks, cigarettes and confectionery through the medium of vending machines in a variety of public locations, sells confectionery merchandise through its own and to other theatres, and now owns a 91% interest in and operates the Seaquarium in Miami. It also recently acquired a franchise to bottle and sell Pepsi-Cola in the Bahamas.

According to the prospectus, the company has outstanding, in addition to certain indebtedness, 399,848 shares of class A common and 607,909 shares of class B common (of five series). Mitchell Wolfson, president, and other members of the Wolfson family are listed as the principal holders of these securities. The shares being registered were issued in connection with an agreement made with the two underwriting firms as an incident to the company's acquisition of outstanding stock of Marine Exhibition Corp., the Seaquarium company. A portion of such shares were resold privately to Wolfson and others.

& Wehler, of Springfield.

Ohio Turnpike Commission (P. O. Berea), Ohio

Operations Reported-The Commission on Dec. 31, 1960, completed five calendar years of operation of the Ohio Turnpike with a record of continuing growth in traffic and revenue and improvement in safety, the Chairman of the Ohio Turnpike Commission, James W. Shocknessy, said in the annual year-end statement.

Traffic and revenue attained new peaks during 1960 when approximately 12,753,000 vehicles travelled the turnpike and revenue from all sources was an estimated \$25,000,000, thus exceeding by 691,634 vehicles and \$1,679,140, respectively, the traffic and revenue for 1959, the best previous year in the history of the Commission, Shocknessy said.

Reflecting the favorable revenue during 1960 there remains in the Reserve Account of the Sinking Fund \$17,659,080 at the end of the year, an increase of \$8,226,684 over the amount in the Reserve Account on Dec. 31, 1959, Shockbessy said. Interest cover-Shocknessy said. Interest coverage during 1960 attained a new high of 1.87 times the bond interest requirement for the year. In previous years the interest coverage was: 1.71 in 1959; 1.52 in 1958; 1.42 in 1957, and 1.06 in 1956.

For the five calendar years of operation the results in usage of the turnpike and income to the Commission have been as follows:

Revenue \$15,350,966 19,757,629 20 822 657 1960____ 12,753,000*

*Estimated.

"The accomplishments of 1960 were realized in the face of a downward trend in the national economy, and taken together with the traffic and revenue experi-ence of the five years beginning with 1956 with 1956 demonstrate con-clusively that the Ohio Turnpike has attained maturity as a rev-enue project," Shocknessy said. demonstrate
