General Corporation and Investment News

RAILROAD · PUBLIC UTILITY · INDUSTRIAL · INSURANCE · MISCELLANEOUS

Air Metal Industries, Inc., Miami Beach, Fla.—Files With Securities and Exchange Commission—

The corporation on Jan. 27, 1961 filed a letter of notification with the SEC covering 75,000 shares of common stock (par 10 cents) to be offered at $4 per share, of which 12,500 shares are to be offered to stockholders, 12,500 shares to the underwriters, and the balance to the company. The offering will be underwritten by Vickers, Christy & Co., Inc., New York, N. Y.

The proceeds are to be used to increase inventory, for research and development, and working capital.

Alabama Power Co.—Files Financing Proposal—

This company, 600 North 18th Street, Birmingham, Ala., filed a registration statement with the SEC on Feb. 13, 1961, covering $13,000,000 of first mortgage bonds due 1991 and 80,000 shares of cumulative preferred stock, $100 par, to be offered for public sale at competitive bidding. The net proceeds of this financing and $4,500,000 of a total of $6,000,000 to be received from the sale to Southern Co. of additional common shares will be applied toward the construction or acquisition of permanent improvements, extensions and additions to the company's utility plant and to the payment of $12,000,000 of short-term bank loans expected to be outstanding March 29, 1961, made for such purposes. The company expects that additional short-term bank loans of $5,000,000 will have to be made in the fourth quarter of 1961 to complete the financing of the 1961 construction program, estimated at $51,300,000. The company's 1961-63 construction program is estimated at $163,057,000.—V. 192, p. 301.

Alberto-Culver Co.—Offering and Secondary—

This company, 2525 Armitage Avenue, Melrose Park, Ill., filed a registration statement with the SEC on Feb. 15, 1961, covering 155,000 shares of common stock, of which 25,000 shares are to be offered for public sale by the company and 130,000 shares, being outstanding stock, by the present holders thereof. Shields & Co. heads the list of underwriters. The public offering price and underwriting terms are to be supplied by amendment. The registration statement includes an additional 25,000 shares which the company sold to the principal underwriter at $6.70 per share.

The company was organized in January 1961 under Delaware law to succeed to the business then being conducted by three joint ventures operating under the trade names Alberto-Culver Co., Leonard H. Lavin & Co. and American Cosmetics Corp. The company and its subsidiaries are engaged in the business of manufacturing and selling throughout the United States cosmetic and toiletry preparations, particularly in the hair care field, including "Alberto VO-5" products. The net proceeds from the company's sale of additional stock will be added to working capital.

In addition to certain indebtedness, the company has outstanding 975,000 shares of common stock, of which Leonard H. Lavin, President, owns 427,500 shares and proposes to sell 43,500 shares. The prospectus lists nine other stockholders (including three officials) who propose to sell blocks ranging from 526 shares to 18,922 shares.

Allegheny Ludlum Steel Corp.—Net Down—

In a preliminary statement issued on Feb. 2, the corporation reported net earnings for the year 1960 of $8,750,000, equal to $2.25 per share on 3,883,470 shares outstanding at year-end, compared with net earnings in 1959 of $11,291,000, or $2.92 per share, based on a slightly lesser number of shares outstanding at Dec. 31, 1959.

Sales of the stainless and special steel producer for the year amounted to $238,773,000, about 3½% ahead of the $230,665,000 of sales in 1959, which was affected by the 116-day industry-wide strike.

E. J. Hanley, President, noted some improvement in sales and earnings in the fourth quarter over preceding quarters of the year. He added that the indicated earnings in the fourth quarter were affected by favorable year-end adjustments, including a dividend of $300,000 from Titanium Metals Corp. of America.

After the first quarter of 1960, Allegheny Ludlum experienced a sharp decline in sales and shipments, resulting primarily from drastic inventory liquidations by customers and, in part, from the downward trend in general business. The lower level of operations in the second and third quarters of 1960, combined with higher employment costs, caused a sharp decline in profits for those quarters. The increased labor costs, arising from the 1960 agreement with the United Steelworkers, were in the form of increased payments toward pensions, insurance and other employee benefits effective Jan. 1, 1960, and a general wage increase averaging about 3½% on Dec. 1, 1960.—V. 191, p. 1665.

Allied Petro-Products, Inc., Jacksonville, Fla.—Files With Securities and Exchange Commission—

The corporation on Feb. 3, 1961 filed a letter of notification with the SEC covering 150,000 shares of common stock (par 10 cents) to be offered at $2 per share, through Darius Inc., New York, N. Y.

The proceeds are to be used for increasing inventory, development of new products and working capital.

Alterman Foods Inc.—Sales Up—

Period End. Jan. 28—	1961—4 Wks.	1960	1961—39 Wks.	1960
Sales	$5,003,916	$4,487,362	$47,599,226	$40,867,495

—V. 192, p. 493.

American Business Systems Inc.—Sales Up, Net Down

Sales in 1960 were $3,705,363, an all-time high, 20% above the previous high record sales of $3,082,497 attained in 1959, Simon Gaynor, President, has reported. Net earnings of the manufacturer of business forms and tabulating cards were $66,655, or 17 cents a share on 400,050 shares of common stock. In 1959, $212,976, or 53 cents a share, was earned on the same share basis.

The reduction in 1960 earnings, Gaynor said, was due to unusual costs incurred in the company's accelerated expansion program. The Philadelphia plant was enlarged and considerable new manufacturing equipment was installed. To complement this expansion, a 25% increase was made in the work force in the factory and sales areas. Benefits of these steps did not accrue to the financial statements of 1960.

Incoming orders are continuing at a satisfactory level and earnings are benefiting from a 5% increase recently effected in business form prices, Gaynor reported. Current operating results, he observed, reflect the acquisition last October for cash of The Accounting Card Co., Inc., which manufactures in Farmingdale, N. Y., tabulating cards marketed in the New York-New Jersey-Connecticut area, one of the country's most important markets for tabulating cards. Additional presses are being installed in the newly acquired plant.—V. 192, p. 2117.

American Cement Corp.—To Issue "Depletion" Shares —Net Down—

Directors of American Cement Corp., at its meeting in Philadelphia on Feb. 8 approved the issuance of 60,990 shares of American common stock to former shareholders of Riverside Cement Co., subject to the issuance of the required permit and other action which may be required by the California Commissioner of Corporations.

The agreement and joint plan of merger under which Riverside joined with Hercules Cement Corp. and Peerless Cement Corp. to form American Cement, late in 1957, provided that additional shares of common stock would be issued to former shareholders of Riverside or Hercules if a tax saving should be realized from a favorable disposition of the question of percentage depletion for the years 1951 through 1957. Refunds were received by Riverside for 1951-52, which are final despite adverse developments affecting the later years.

In view of this, it has been decided to issue the 60,990 shares to the former Riverside shareholders in full satisfaction of their rights to "depletion" shares. There was no tax savings with respect to Hercules, and therefore no shares will be issued to former Hercules shareholders.

This corporation in a preliminary statement for the year ended Dec. 31, 1960, reports billings of $72,103,170 compared with billings of $76,263,829 for the year ended Dec. 31, 1959.

Net earnings for the year ended Dec. 31, 1960, after all charges and taxes, amounted to $3,944,560, equal, after preferred dividend requirements, to 79 cents per share based on 4,524,263 common shares presently outstanding. This compares with net earnings for the year ended Dec. 31, 1959, of $5,861,555, equal, after preferred dividends, to $1.22 per share, based on the number of common shares presently outstanding.

W. C. Russell, President, reported that on Nov. 14, 1960, the company filed with the U. S. Treasury Department an election to calculate its income taxes for 1960 and prior open years on the basis of "kiln feed" depletion. This method of calculation results in a lesser deduction for percentage depletion and a resultant increase in income taxes.

Accordingly, the company's financial records have been adjusted to reflect the change in income taxes for 1960 and prior, and the preliminary earnings for both 1960 and 1959 reflect taxes calculated on the "kiln feed" method, Mr. Russell stated.—V. 192, p. 2505.

American Electric Power Co., Inc.—Files Divestment Plan—

This New York holding company has filed a plan with the SEC under the Holding Company Act for the divestment of two non-utility properties; and the Commission has issued an order giving interested persons until Feb. 28, 1961, to request a hearing thereon. The properties consist of (1) the stone-quarrying properties owned and operated by Radford Limestone Co., Inc. ("Radford"), a non-utility subsidiary company of Appalachian Power Co. ("Appalachian"), which is an electric utility subsidiary company of American, and (2) two small parcels of limestone land, which are owned by Appalachian, are contiguous to the Radford properties, and are operated by Radford as part of its quarrying business. All of the shares of the common stock of Appalachian are owned by American, and Radford is a wholly-owned subsidiary company of Appalachian.

American has entered into an agreement with B. R. De Witt, of Pavilion, N. Y., for the divestment of the quarrying business. To carry out the divestment of Radford, it is proposed that Appalachian will transfer to America, by way of a dividend, all of the outstanding shares of capital stock of Radford, consisting of 1,250 shares of $100 par value common stock. The assets of Radford will then be transferred to American in complete liquidation of Radford; and immediately thereafter, American will sell to De Witt or to Radford Stone Corp., a new Virginia corporation organized by De Witt, the quarrying properties of Radford for $467,600 in cash in instalment payments and Appalachian will sell to De Witt or to Radford Stone Corp., the contiguous parcels owned by Appalachian for $2,400 in cash. Radford will then be dissolved.—V. 193, p. 101.

American Hospital Supply Corp.—Records Highs—

The Evanston, Ill. corporation's 1960 sales climbed 18.4% to exceed $100 million for the first time, and earnings were up 11.3% to a new high.

A preliminary report issued by Foster G. McGaw, chairman, and Thomas G. Murdough, President, showed 1960 net sales at $100,618,070 and net profit after taxes at $4,212,241. These compare with 1959 sales of $84,993,329 and net earnings of $3,784,290.

Figures for both years include sales and earnings of companies acquired in 1960.

Earnings per share rose from $1.56 to $1.60. There was a 9% rise in shares outstanding. The 1959 figure of $1.56 is after adjustment for the benefits derived from acquisitions, the actual reported earnings for 1959 having been $1.47 per share.

The $100-million-sales year capped a decade which saw American Hospital Supply more than triple its annual sales and profits.

The announcement noted that "health and research expenditures continue at record levels. We see no indication of slowdown, despite depressed segments of the general economy."

Despite larger contributions to sales and earnings by subsidiary companies, management attributed most of the growth in 1960 to increased sales of equipment and supplies to health institutions by the parent company's marketing components.

The announcement said these developments are expected to expand the company's activities in 1961.

Entry into two new areas of the health field through mergers now in progress with Midwest Dental Manufacturing Co., Melrose Park, Ill., and Eruck's Nurses Outfitting Co., Inc., of New York, N. Y., and their affiliated companies.

Intensification of market coverage by the addition of regional sales and distribution centers in four principal cities.

Penetration of new areas of the international health market with the acquisition of Canada's leading laboratory supplier and the establishment of small manufacturing subsidiaries in Mexico and West Germany.

Additional integration of manufacturing and marketing programs and greater emphasis on research and product development.—V. 193, p. 197.

American Natural Gas Co.—Proposes Stock-Split—

This New York holding company has filed a stock-split proposal with the SEC under the Holding Company Act; and the Commission has issued an order giving interested persons until March 2, 1961, to request a hearing thereon. The company proposes to amend its certificate of incorporation to change its authorized common stock from 6,000,000 shares of $25 par stock to 15,000,000 shares of $10 par stock, and to issue to its stockholders of record at the close of business May 8, 1961, three additional shares for each two shares held. The stockholders will not be required to surrender outstanding stock certificates. The proposed transactions will result in changing American Natural's presently outstanding 5,884,517 shares of $25 par value each into 14,711,292 shares of $10 par value each. The charter amendment will require the favorable vote of two-thirds in interest of stockholders present or represented and voting thereon.—V. 193, p. 373.

American Paper Specialty Co.—Sold—

This paper converter has been purchased from Rapid-American Corp. for $11,750,000 in cash and notes, it was announced by Robert P. Miller, who will be President and Chairman of the Board of the new organization.

Sales of the company for the fiscal year ended Jan. 31 are estimated at $16.5 million, compared with approximately $3 million in 1958. In addition to school supplies and stationery, the company's broadly comprehensive product mix includes binders, briefcases, Christmas greeting cards, valentines, gift wrappings and ribbons.

"With a major part of our production going into school supplies, we are in a splendid position to capitalize on the nation's great educational expansion," Mr. Miller said. "This is a growth organization, as its history shows, and we are preparing a large-scale product development program to accelerate our progress."

Besides Mr. Miller, the new company's officers include Daniel J. Manella, Executive Vice-President, and Bernard Corn, Secretary and Treasurer. Members of its board of directors are: Robert P. Miller, Chairman, formerly Vice-President of Rapid-American Corp.; Andre Hercz, President, Jo Ray Import Corp.; Reginald H. Johnson, Jr., Vice-President, Chemical Bank New York Trust Co.; Charles H. Klein, formerly President of Progress Lithograph Corp.; Daniel J. Manella, formerly Vice-President of American Paper Specialty Co., and Robert Westheimer, partner in Westheimer & Co., investment bankers.

With office headquarters at 310 Fifth Avenue, New York City, the company has five operating divisions: United Leather Goods Corp. of Brooklyn, N. Y.; American Paper Specialty Co., Chicago, Ill.; Eastern

Digitized for FRASER
http://fraser.stlouisfed.org/

Tablet Co., Albany, N. Y.; Osborn-Midwest Paper Co., Marion, Ind., and Smith-Stewart Paper Products Co., Brooklyn, N. Y.

Besides the production expansion, management plans to increase the sales force in a broadened sales and promotion program. With active sales operations in every state in the continental United States, the company supplies both chain and independent variety, drug and food stores.

American Telephone & Telegraph Co.—Sets Price on Rights Shares—

Company directors on Feb. 15 set $86 as the price at which share owners will be able to purchase additional stock under the offering announced last December.

AT&T share owners will be able to buy one share of stock for $86 for every 20 shares held on Feb. 3.

Rights to purchase the additional shares will be mailed to more than 1,900,000 share owners about March 10. The subscription period will end April 14.

Americana Properties, Inc.—Common Stock Sold—

Plymouth Securities Corp., 92 Liberty Street, New York, offered and sold 100,000 shares of common stock of Americana Properties, Inc. at $6 per share. The stock was offered pursuant to a Jan. 26 prospectus.

BUSINESS—The company owns and operates a large shipping plaza and a 40-lane bowling establishment at Oakdale, L. I., a shipping area and 40-lane establishment at Roosevelt, L. I., and a recently con-

Corporate and Municipal Financing Ahead

By SIDNEY BROWN

This week's estimated offerings total $144,980,770 for several sizable corporates and municipals. They are listed at the end of this column. By adding the February 23 A.T.&T. record high rights offering to stockholders of that date the week's financing tally skyrockets to about $1.1 billion. (Rights will be mailed to A.T.&T. partners on March 10 and will expire April 14.)

The entire subsequent three weeks in the 28-day visible supply promises, as seen now, at most but $300,000,000 in corporate and municipal public offerings and an additional $100,000,000 for the privately negotiated tax-exempt issue for the Niagara power project. Corporate bonds in the four-week float have declined drastically compared to last week's modest figure—from $224,862,300 to $47,362,300. State-local issues, however, are up by almost $100,000,000—thanks to Robert Moses' timing.

The following table delineates the announced docket of forthcoming issues in the period covered by the week scheduled and type of issue in dollar terms:

FOUR WEEKS' FINANCING TABLE

	Corporate Bonds	*Corporate Stocks*	*Total Corporates*	**Municipals*	*Total of Both Financings*
Feb. 20-Feb. 24	$28,850,000	†$1,034,265,770	$1,063,115,770	$43,775,000	$1,106,890,770
Feb. 27-Mar. 3	8,102,300	38,928,420	47,030,720	225,636,000	272,666,720
Mar. 6-Mar. 10	10,410,000	18,485,000	28,895,000	69,099,000	97,994,000
Mar. 13-Mar. 17	------	2,800,000	2,800,000	30,850,000	33,650,000
Total	$47,362,300	$1,094,479,190	$1,141,841,490	$369,360,000	$1,511,201,490
Last Week's Data	224,862,300	999,558,500	1,225,420,800	276,804,000	$1,502,224,800

* *$1 million or more. Swelling the total in the second week is privately negotiated N. Y. State Power Authority's $100,000,000 offering under aegis of Dillon, Read & Co., Inc.*

† *Includes A. T. & T's. rights to shareholders set for Feb. 23.*

NOTE: Too late for inclusion in the municipal tabulation is the announced Commonwealth of Puerto Rico's plan to sell $40 million of public improvement bonds on March 7.

If anything will change this picture—all other things remaining the same—it will be the maturation of $100 million in Federal National Mortgage Association 4⅞% one-year debentures on March 10. The F.N.M.A. announced its sale of mortgages are such that it possess ample liquidity and, therefore, will not have to engage in refinancing. Since there will not be a replacement issue, the promise of $100 million kicking around for alternative investment opportunity may not too surprisingly cause a rescheduling of issues to the latter part of the third week or the earlier part of the fourth week in the four-week float ahead. The last two weeks of that float are almost devoid of senior debt securities and relatively light in the total of municipals.

MUNICIPALS GAIN AND CORPORATES DROP IN TOTAL BACKLOG

The total backlog of probable corporate debt and equity issues dropped slightly compared to last week's data. The precipitous fall in bonds were not quite offset by stocks. Municipal issues with dates on the other hand, gained $185.3 million primarily due to the Commonwealth of Kentucky's veteran bonus issue for the end of March of $100 million—not including the $36 million it will issue after the end of March.

Among the new listings added to the backlog of probable issues without dates in the week past were: Atlantic City Electric Co. $10 million of first mortgage bonds; Automatic Canteen Co. of America's 127,725 shares of common; Economics Laboratory $4 million convertible debentures; Stelma, Inc. 90,000 shares of common; and Winter Park Telephone Co. 33,638 shares of common. Lister for the first time in this definite backlog, also, is the Southwestern Public Service Co.'s $15 million bonds and 120,000 shares of $25 par cumulative preferreds. Both this issue and Winter Park Telephone had been in the *Chronicle's* docket of possible issues. They had not, until now, been affirmatively groomed for the market.

Not included in the total backlog below of forthcoming issues are these reported but still unresolved ones: Consumer Power Co. may sell $20 million of preferreds and $30 million of bonds; LaSalle National Bank, Chicago, Ill., will ask its owners on March 2 to authorize 15,000 shares for stock dividends and 15,000 shares at $75 each as a rights offering; and United Aircraft reportedly will issue $50 million bonds to replace seven year bank term loans. The total of possible flotations is $1,609,834,000. Last week it was $204 million less.

The following summarizes the total probable backlog of corporates with and without dates offering serious prospects of appearing in the market for funds as well as the total of municipals with schedule financing dates. (Data in parentheses denote the number of issues.)

	Total Backlog			
	This Week		*Last Week*	
Corporate bonds with dates	$284,862,300	(23)	$448,362,300	(27)
Corporate bonds without dates	84,468,400	(25)	93,553,300	(24)
Total bonds	$369,330,700	(48)	$541,915,600	(51)
Corporate stocks with dates	$1,121,479,190	(81)	$1,023,458,500	(86)
Corporate stocks without dates	201,193,220	(144)	212,332,720	(155)
Total stocks	$1,322,672,410	(225)	$1,235,790,920	(241)
Total corporates	‡$1,692,003,110	(273)	$1,777,706,520	(292)
Total municipals with dates	$584,680,000	(60)	$399,304,000	(59)

‡ *Includes nine preferreds with dates $26,542,000 and two without dates $2,200,000. Also, three equipment trust certificates with dates $18,735,000.*

NOTE Add $40 million Commonwealth of Puerto Rico to municipals.

CHANGES IN THE PAST WEEK

Additions of corporate securities to the *Chronicle's* calendar of Feb. 16 added up to $56,697,750. Of this total $41,200,000 consisted of senior debt capital paper. Corporate sales in the week through Feb. 15 amounted to $259,820,000 and of this $203,300,000 alone were in capital debt issues. In addition there were $181,678,000 in private placements not including 70,000 shares of Cole National Corporation class A common.

State and local tax-exempt obligations added to the *Chronicle's* Feb. 16 calendar, including the $100 million privately negotiated Niagara Power issue for around March 1, tallied $315,239,000. Sales for the week ending Feb. 15 aggregated $99,120,000. This upsurge of municipals augurs well for the economy in the sense that we require this public spending and that it will help revitalize some segments of the economy.

Details regarding these calendar changes and public offerings are to be found in these accompanying pages and in the *Chronicle's* Thursday issue.

PRESIDENT KENNEDY'S BEARISHNESS AND STOCK MARKET'S BULLISHNESS

The firming of bond prices and the rebound of the stock market level these past weeks are hardly characteristic signals prognosticating an economic upturn. Their mixed, antithethical signals, at most, may be just what the Administration wants to hear. However, though the Administration favors the drop in bond yields which has been occurring, and finds satisfying the upward tilt of short term yields, it may discover that these two opposing trends will run headlong into each other.

The returning stock market may press hard on short term funds and act adversely on the upward trend in the effective return in this area. Loanable funds disenchanted with long-term yields or unwilling to be tied up in long-term investments may continue to be tugged by the still favorable short term rate abroad—particularly now that several more countries have firmed their intentions of keeping their currencies convertible—or may go into equities here counting on a favorable market price rise. Should the absence of funds for long terms occur, it may reverse the decline in the effective return now occasioned by shortage of senior debt issues. How would the economy be helped if loanable funds shift from the capital market of lowered yields to the money market of higher yields to such an extent that municipal and corporate bond issuers retrench on their financing plans because they believe that economic conditions do not warrant meeting this financing cost competition? In short, how far will efforts go in upping the supply of short-term securities on the market to depress their price and raise their yields? How expert are the monetary and fiscal managers in gauging their efforts and the economic outlook particularly at a time when the stock market sees things they do not see—such as higher corporate profits?

Further, if we are now undergoing an inventory recession and are now counting on a resumption of inventory buying, how helpful will a high short term rate be in financing inventory buying? A bank may find greater bargains in short term issues pumped out by the Federal Reserve and/or the Treasury and pass up commercial inventory loans unless they can match the ante. How bullish is the economic prospect to warrant matching hiked short term rates? Generally, recovery means that the interest rate on bonds goes up or price declines to match the yield of stocks. With recovery, stock yields may exceed bond yields; but would recovery be aided by short term money market yields staying higher than long term yields? Especially when this is not the determination of the free market but the manipulation of outside subjective forces which believe this is the way to stop the gold drain. The shifting of funds from the long term market to the short term market is the serious matter at stake if this involves undue proportions. It is one thing to consider the international economic situation but it must be tempered with a balanced consideration of what is wrong with the domestic economy. A country can have equilibrium in its balance of payments whether suffering a depression or not, whether rich or poor, and whether stagnating, retrogressing or progressing. Reduction of our cost-price structure is one way to redress our international disequilibrium. Imposing high short term rates and discouraging long term lenders may not be the helpful method to allow market forces to act on the inflation in the cost structure which must be squeezed out. What the Administration should be working on is our competitive position. President Kennedy referred to our obsolescence and rate of capital formation when he addressed the Industrial Conference Board last Feb. 13. Though he may produce a reasonable tax bill to encourage investors, he may defeat this by interfering with the free interest rate pricing system.

LARGER ISSUES IN THE NEXT FOUR WEEKS

Included in the following list of the larger corporate and municipal issues expected in the next four weeks are three equipment trust certificates:

Week of Feb. 20-24: $50 million Atlantic Fund for Investment in U. S. Government Securities, Inc., common; 155,000 shares of Mortgage Guaranty Insurance Corp., common; $5,850,000 Chicago, Milwaukee, St. Paul & Pacific RR., equipment trust certificates; $20 million in debentures of Tri-Continental Corp.; 11,225,000 shares of American Telephone & Telegraph Co., common; 360,000 shares of Berkey Photo Service, Inc., common; *and in Municipals*—$19 million Dallas, Texas; $4 million Illinois State Normal Univ., Ill.; $6,370,000 Erie County, N. Y.

Week of Feb. 27-March 3: 500,000 shares of Greenfield Real Estate Investment Trust, Ben. Int.; 50,000 units of Jonker Business Machines, Inc.; $612,500 Standard & Shell Homes Corp., units; $5 million Fund of America, Inc., common; $5,100,000 Great Northern Ry., equipment trust certificates; 263,000 shares of Storer Broadcasting Co., common; *and in Municipals*—$5,573,000 Natrona County School District, Wyoming; $30 million Alabama Education Authority, Ala.; $5 million Charlotte, N. C.; $11.4 million Prince Georges County, Md.; $11 million Shelby County, Tenn.; $5 million Tucson, Ariz.; $30 million Chicago, Ill.; $100 million N. Y. State Power Authority; $3.5 million San Antonio, Texas.

Week of March 6-10: $3.5 million in units of Jefferson Lake Asbestos Corp.; 121,870 shares of Random House, Inc., common; $7,785,000 equipment trust certificates of Louisville & Nashville RR.; *and in Municipals*—$15 million Denver, Colo.; $20,850,000 New Jersey; $12 million Los Angeles Dept. of Water & Power, Calif.; $10,634,000 St. Paul, Minn.; and $40 million Commonwealth of Puerto Rico.

Week of March 13-17: No large corporate issues are scheduled in this week as yet; *and in Municipals*—$15 million Duval County Board of Public Construction, Fla.; $10 million Washington Sub., San. Dist., Md.

February 16, 1961.

itized for FRASER

structed 64-lane bowling facility at Ozone Park, Queens, N. Y.—V. 193, p. 598.

Ampal American Israel Corp.—Appointment—

The Manufacturers Trust Co. has been appointed trustee for $5,000,000 P. A. seven year 6% sinking fund debentures series I, 1967 of the corporation.—V. 192, p. 1705.

Amphenol-Borg Electronics Corp.—Earnings Report—

The Broadview, Ill. corporation has announced earnings of $2,934,814 or $2.51 per share for 1960. These compare with earnings of $2,926,605 or $2.50 per share for 1959.

Net sales in 1960 were $60,358,468, up 6.9% over sales of $56,451,533 in 1959.

The corporation is a principal supplier of electronic components for the aircraft, missile, telephone, computer, radio and television industries. It also produces deep pile fabrics, electrically wound automobile clocks and other timing devices.—V. 193, p. 489.

Atlantic City Electric Co.—Proposes Bond Offering—

This company of 1600 Pacific Ave., Atlantic City, N. J., filed a registration statement with the SEC on Feb. 10, covering $10,000,000 of first mortgage bonds due 1991, to be offered for public sale at competitive bidding.

The net proceeds from the bond sale will be applied to the prepayment, of all outstanding notes payable to banks ($1,900,000 principal amount) issued for construction purposes and to pay for part of the cost of the 1961 construction program, estimated to be $22,770,000. It is estimated that to complete this program the company may need about $7,300,000 in addition to such proceeds and the company's present cash reserves and cash to be accumulated currently through provisions for depreciation and amortization and through retention of earnings. Additional financing may include short-term bank loans. —V. 193, p. 102.

Avon Products, Inc.—Record Highs in 1960—

Both sales and earnings established new records during 1960 according to the annual figures released on Feb. 9 by John A. Ewald, President. Avon is a leading manufacturer and distributor of cosmetics and toiletries.

Consolidated net sales of $168,187,500 showed an 18.5% increase over the $141,904,759 of 1959, the previous high.

Avon's consolidated net earnings, before special charges, in 1960 totaled $17,619,157, a 22.4% gain over the previous high of $14,394,963 in 1959.

On the basis of the 9,544,574 shares of common stock outstanding on Dec. 31, 1960, after giving effect to payments of preferred dividends, such net earnings were equal to $1.84 per share in 1960 as against $1.50 in 1959.

According to Mr. Ewald, the record performance in 1960 reflected the growing interest in good grooming, the increased acceptance of Avon products and the fine effort made by Avon's sales representatives.

The Avon President noted that the company would be celebrating its 75th anniversary in mid-1961 and "we expect our diamond jubilee year of 1961 to be another good year for Avon," he said.

Mr. Ewald noted that the growth of Avon's business in recent years had required additional facilities in order to keep pace with volume. "In 1960 we opened a new distribution center in Rye, N. Y.; in March, 1961 our new manufacturing laboratory near Montreal, Canada will be opened, and another new distribution facility at Newark, Delaware will go into operation later in 1961," he noted.

Avon Products has manufacturing laboratories in Suffern and Middletown, N. Y.; Pasadena, Calif. and Morton Grove, Ill. and Montreal, Canada, as well as in five countries abroad.—V. 192, p. 1811.

Beckman Instruments, Inc.—Rights—

Directors on Feb. 15 approved a resolution to offer shareholders rights to some 70,000 shares of the company's common stock at a ratio of one new share for each 20 held.

The company currently has 1,381,123 shares of common stock outstanding.

A registration statement covering the proposed issue will be filed with the Securities and Exchange Commission shortly, the company said.

The company stated that further details concerning the offering will be disclosed once the registration statement is filed.—V. 193, p. 599.

Bell Intercontinental Corp.—Acquires—

James F. Connaughton, President of Bell Intercontinental Corp., announced on Feb. 14 the acquisition of the 56-year-old Cincinnati Galvanizing Co., of Cincinnati, Ohio, producers of galvanized household and commercial products.

At a Feb. 14 meeting of Cincinnati Galvanizing Company stockholders, the sale for an undisclosed amount in cash was approved.

Mr. Connaughton stated that Bell Intercontinental will continue operations of Cincinnati Galvanizing as an autonomous division.

The Cincinnati Galvanizing Co. was founded in 1905 by five Schott brothers, of Cincinnati. Three surviving brothers have participated in the company's recent operations: Christian Schott, President; William C. Schott, Vice-President and General Manager; Louis Schott, who retired last July as Treasurer and as a director.

Sales of the newly-acquired division have averaged $3½ million annually over the past five years.

Bell Telephone Co. of Pennsylvania—Earnings—

Period End. Dec. 31—	1960—Month—1959		1960—12 Months—1959	
	$	$	$	$
Operating revenues	36,065,174	34,473,640	419,472,048	397,876,215
Operating expenses	23,710,543	22,865,490	269,053,584	257,673,018

—V. 193, p. 375.

Book-of-The-Month Club, Inc. (& Subs.)—Net Down

For the six months ended Dec. 31, 1960, Book-of-the-Month Club, Inc. reported a consolidated net income after taxes of $199,946 equal to approximately 22 cents per share on 917,990 outstanding shares of capital stock. The company's consolidated net income after taxes for the same period in 1959 was $510,148 or approximately 56 cents per share.

Gross revenue for the six-month period was $15,086,539 in 1960 and $15,073,294 in 1959.—V. 192, p. 1395.

Borden Co.—Acquisitions—

Borden is negotiating for the acquisition of the assets and business of the Columbus Coated Fabrics Corp., Columbus, Ohio, it was announced on Feb. 9. The Ohio firm, which has total assets in excess of $18,000,000, is a leading manufacturer and seller of such products as oil coated, nitrocellulose coated, polyvinyl chloride coated and acrylic coated fabrics used in the table covering, furniture, upholstery, automotive and luggage industries as well as for wall-covering applications. It also manufactures and sells unsupported polyvinyl chloride film.

In announcing the negotiations, A. R. Marusi, Borden Vice-President and President of the Borden Chemical Co., said that should the acquisition take place, the Columbus firm would operate as a separate division of the Borden Chemical Co. under its present management, and retaining its name and organization intact.

Columbus Coated Fabrics was incorporated in 1917. Its manufacturing plant is in Columbus. It has sales offices in several cities, and jobbers and distributors throughout the U. S. and in several foreign markets.

Puerto Rico Dairy, Inc., one of the Borden's international operations, has acquired Caribbean Dairy, Santurce, P. R. The acquisition was announced on Feb. 9 by R. L. McConnie, President of Puerto Rico Dairy. It involves the purchase of Caribbean's going business, machinery, equipment and rolling stock, but no real estate. Caribbean Dairy, however, will continue to operate temporarily from its present plant.

Caribbean Dairy was purchased from its owner, Ramon Rosado, who founded the firm in 1944. Puerto Rico Dairy, also located in Santurce, became a part of the Borden organization in 1959. It operates under the general supervision of the foreign operations department of the Borden Foods Co., a division of the Borden Co.—V. 192, p. 2323.

Borman Food Stores, Inc.—Files for Secondary—

This company, of 12300 Mark Twain Ave., Detroit, Mich., filed a registration statement with the SEC on Feb. 14, 1961, covering 52,000 outstanding shares of common stock, to be offered for public sale by the present holders thereof through Shields & Co. The public offering price will be related to the current market price of the shares on the New York Stock Exchange at the time of the offering; and underwriting terms are to be supplied by amendment.

The company operates a retail food chain of 58 super markets in southeastern Michigan under the trade name "Food Fair." In addition to certain indebtedness, the company has outstanding 1,205,553 shares of common stock, of which Abraham Borman, board chairman, and Molly Borman, his wife, own 136,567 and 101,380 shares, respectively; Tom Borman, President, and Sarah Borman, his wife, own 87,814 and 65,775 shares, respectively; and management officials as a group (including their families) own 686,026 shares. Tom Borman proposes to sell 20,000 shares, Sol Kanat, Morris Tulupman, Joseph Kron, officers and directors 10,000 shares each, and Ralph Berman, a director, 2,000 shares.—V. 191, p. 2515.

Bowling Corp. of America—Files for Secondary—

This corporation, of 120 Broadway, New York, filed a registration statement with the SEC on Feb. 15, 1961, covering 82,600 outstanding shares of common stock, to be offered for public sale from time to time by the present holders thereof in the over-the-counter market at prevailing prices at such time.

The company is engaged in the business of owning and operating ten-pin bowling centers. Of the outstanding shares to be offered for public sale, 81,500 were acquired by the holders thereof in connection with the company's acquisition in September 1960 of all the outstanding stock of Garden Party House, Inc., and Dewey Garden Lanes, Inc., the corporate owners of Terrace Garden Lanes and Dewey Garden Lanes, respectively. The remaining 1,100 shares are held by partners of the firm of Charles Plohn & Co.

In addition to certain indebtedness, the company has outstanding 1,239,489 shares of common stock, of which management officials as a group own 12.9%. Ruben A. Dankoff is listed as President. The prospectus lists 41 selling stockholders (including the two partners of Plohn) who propose to sell blocks ranging from 177 shares to 9,111 shares.—V. 193, p. 375.

Burroughs Corp.—Record Revenues—Net Up—

The corporation's worldwide revenue in 1960 was $389,210,550, compared with $359,778,068 in 1959. This is the 11th consecutive year that revenue has attained a new high.

Net earnings for 1960, after taxes, were $9,235,867, or $1.39 per share, based on the average number of shares outstanding. This compares with $7,109,567, or $1.07 per share, in 1959 after a nonrecurring writeoff.

Net income taxes amounted to $8,304,000 for 1960, compared with $5,061,000 in 1959.

Every product category and every operating division contributed to the revenue growth.

New incoming orders received in 1960 were $394,000,000 versus $361,000,000 in 1959. In contrast to the reported trend of the economy, the order pattern for commercial equipments in the fourth quarter was up substantially over 1959. December commercial orders were 33% higher than December, 1959.

Research and development programs were maintained throughout 1960 at the planned high levels, and a number of very significant new products will be released in 1961.—V. 192, p. 495.

Business Capital Corp. — Additional Financing Details—Our Feb. 13 issue reported the Feb. 9 offering of 500,000 shares of this firm's common stock. Additional financing details follow:

UNDERWRITERS—The underwriters named below severally agreed, subject to certain conditions, to purchase from the company the respective number of common shares set forth below:

	Shares		Shares
Blunt Ellis & Simmons	136,000	Martin Investment Co.	8,000
Hornblower & Weeks	85,500	Parker, Ford & Co. Inc.	8,000
Cruttenden, Podesta & Co.	60,500	Julien Collins & Co.	7,500
F. S. Moseley & Co.	17,000	Hickey & Co.	7,000
Reynolds & Co.	17,000	McMaster Hutchinson & Co.	7,000
Frecling, Meyerhoff & Co.	15,000	Smith, Hague & Co.	7,000
Bache & Co.	12,000	Alm, Kane, Rogers & Co.	5,000
Boettcher & Co.	12,000	Chapman, Howe & Co.	5,000
John W. Clarke & Co.	10,000	Dallas Rupe & Son, Inc.	5,000
Goodbody & Co.	10,000	Woodard-Elwood & Co.	5,000
T. C. Henderson & Co. Inc.	10,000	Alexander Kleine & Co.	4,000
The Illinois Co. Inc.	10,000	Charles H. Eldredge & Co.	3,000
McCormick & Co.	10,000	Mitchell, Hutchens & Co.	3,000
Rauscher, Pierce & Co. Inc.	10,000	Mullaney, Wells & Co.	3,000
		R. G. Dickinson & Co.	2,500
		Burton J. Vincent & Co.	2,500
		Walston & Co. Inc.	2,500

—V. 193, p. 700.

C. F. C. Funding, Inc.—Contract—

This New York, publicly-owned financing and management counsel company announced on Feb. 13 conclusion of contracts for its services with the Harvey Corp. in exchange for an option to purchase 2½% of Harvey's outstanding shares.

Harvey, currently diversifying into construction of shell-type homes, is a prominent builder of fiber-glass boats on the West Coast. The firm was formerly known as Harvey Boat Works, Inc.—V. 192, p. 2607.

CWS Waveguide Corp.—Merger Off—Forecast—

The board of directors of CWS Waveguide Corp. and Megadyne Electronics, Inc. have voted to terminate negotiations for a proposed merger of the companies. Changed conditions in both firms since the merger talks were initiated several months ago influenced the decisions of the respective boards of directors not to proceed with the planned combine.

CWS Waveguide Corp., whose plant is in Lindenhurst, Long Island, manufactures a broad range of microwave components for the radar and communications industries. Megadyne Electronics, Inc., of Danbury, Conn., is engaged in research and development of a variety of electronic products.

At the board meeting on Feb. 3, 1961, Mr. Oei Ing Bian, CWS President, projected sales for the calendar year 1961 at $1,000,000. CWS Waveguide Corp. began operations in February, 1959. Sales for the first 12 months totaled $180,000. For the quarter ended Dec. 31, 1960, sales were $112,000 against sales of $72,000 for the corresponding 1959 period. January, 1961 sales of $50,000 compared with volume of $33,000 for January, 1960.—V. 192, p. 2324.

Cannon Electric Co.—Acquires—

Cannon Electric Co., owning 25% of Cannon Electric, Great Britain Ltd., on Feb. 7 announced the purchase of the remaining 75% from the Donald Forrester interests in London as well as the machinery, equipment and inventories which previously were the property of Films & Equipment, Ltd.

Terms of the transaction were not disclosed.

Robert J. Cannon, President of Cannon Electric, said Cannon Electric of Great Britain will be operated as a wholly-owned subsidiary within the European Free Trade Association and will continue as the exclusive manufacturer and distributor of Cannon products in the United Kingdom.

Cannon indicated the acquisition, combined with the company's facility in Belgium, will enable the company to continue profitable operations in Western Europe, providing local engineering and faster delivery to assure improved customer service.

Cannon Electric manufactures more than 50,000 different connectors for a variety of applications including missiles, aircraft, communications and electronics.—V. 192, p. 2219.

Capitol Associated Products, Inc. — Common Stock Offered—Pursuant to a Feb. 9, 1961 offering circular, Thompson & Co., 258 Broadway, New York, N. Y., offered for public sale 100,000 shares of this company's common stock (par $1) at $3 per share.

BUSINESS—The company of 1465 South Main St., Waterbury, Conn., operates three retail stores which sell aluminum combination storm and screen windows, combination storm and screen doors and aluminum siding. The stores also carry a line of shower and tub enclosures, patio and porch enclosures, radiator covers and miscellaneous aluminum products. The purpose of aluminum combination storm and screen doors and windows is to insulate aaginst cold and to provide ventilation and insect protection in warm weather.

PROCEEDS—Assuming the sale of all of the 100,000 shares of common stock offered, the net proceeds to the company after deducting the underwriter's commissions and expense allowance and the company's expenses of the issue, will be $221,000.

The proceeds will be used as follows:

A. Retail Expansion—	
Establishment of four new retail outlets	$20,000
Retail advertising and sales program	40,000
B. Wholesale Expansion—	
Capital improvements to leased premises	5,000
Machinery	35,000
Trailer truck	22,000
Sales program	35,000
Bookkeeping and record machines	2,000
C. Working capital	62,000
	$221,000

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

The tabulation below sets forth the capitalization of the company as of Dec. 31, 1960 and as adusted to give effect to the sale and issuance of the 100,000 shares of common stock presently offered.

	Authorized	Outstanding
Common stock (par $1)	500,000	*223,600

*Assuming all the shares offered are sold and allowing for the 3,600 shares to be paid to the finder. The underwriter has an option to purchase 30,000 shares at any time during a period three years from the public offering date at $1.50 per share. In the event said options are exercised the total number of outstanding shares will be 253,600.

APPOINTMENT—Registrar and Transfer Co., Jersey City, N. J., has been named transier agent.—V. 193, p. 199.

Chemical Contour Corp.—Capital Stock Offered—Pursuant to a Feb. 15 offering circular, D. A. Lomasney & Co., 39 Broadway, New York 6, N. Y., publicly offered 100,000 shares of this firm's no par capital stock at $3 per share.

BUSINESS—Chemical Contour Corp. was incorporated under the laws of the State of California on April 5, 1956. The company is engaged in the process of chemical milling and related fabrication on a subcontract basis from the aircraft and missile industry. The company is acquiring all of the outstanding stock of Organo-Cerams, Inc., a California corporation engaged principally in the business of selling organic coatings and adhesives for industrial use and in particular masking materials used in chemical milling processes.

The general offices and plant facilities of the company are located at 16627 South Avalon Boulevard, Gardena, Calif.

PROCEEDS—Of the $261,500 net proceeds to be received by the company from the sale of the shares of common stock, approximately $30,000 will be expended for additional facilities for chemical milling of steel alloys, $20,000 for additional facilities for applying electroless nickel on magnesium, $100,000 for plant facilities to enable the company to enter into the production of etched circuit boards and $32,000 for completion of the acquisition of the outstanding stock of Organo-Cerams, Inc. The balance of such net proceeds will be added to the general working capital of the company.

DIVIDENDS—Since its formation the company has followed the policy of retaining all net earnings to finance the growth and development of its business. It is expected that this policy will be continued during the next few years in order to provide further funds for growth of the company.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

	Authorized	Outstanding
†Unsecured short-term bank loan	$70,000	$61,000
‡Sundry short-term promissory notes	18,715	None
*Capital stock (no par)	500,000 shs.	400,000 shs.

*20,000 shares of authorized but unissued common stock are reserved for issuance under the Stock Option Plan described under "Management" herein, and 15,000 shares are reserved for issuance upon exercise of the warrants to be issued to the underwriter as described under "Underwriting" herein.

†Represented by an unsecured note payable to Union Bank, Los Angeles, Calif., bearing interest at 6% per annum, payable in monthly installments of $3,000 plus interest until January 15, 1962, when the remaining balance becomes due.

‡Represented by promissory notes without interest due by June, 1961 and issued in connection with the acquisition of stock of Organo-Cerams. These notes will be discharged out of the proceeds of the common stock.—V. 193, p. 491.

Chesapeake & Ohio Railway Co.—Annual Report—

Chesapeake and Ohio Railway's 1960 Annual Report says that affiliation followed as promptly as possible by complete merger between C&O and Baltimore and Ohio will "begin for each of them another great era of growth."

The report was mailed on Feb. 14 to 92,000 C&O shareowners and the 11,000, or two-thirds, of all the B&O shareowners who have assented to the stock exchange plan between the two railroads.

"To the railroad industry in the East, a combined B&O-C&O would bring a vitality unknown for many years," the report says. "During affiliation, the C&O would assist its partner in restoring its strength and earning power, benefiting almost immediately that part of the public which relies directly on the B&O for its transportation requirements. Longer range, the combined system would produce improvements, innovations and expansions of service to the obvious advantage of the public at large.

"Benefits would begin accruing during affiliation, the first stage of the plan," the report points out. "Through cooperative efforts, B&O and C&O could greatly enhance their ability to compete with other transportation agencies, could exploit other opportunities for increasing revenues and could effect substantial savings. These good results could be greatly enlarged with complete merger."

The report notes that "The Interstate Commerce Commission will set hearings on C&O's application for approval of its exchange offer and for authorization to affiliate with B&O."

To show how the B&O-C&O systems are complementary, the Annual Report does it with a map of the B&O system on a transparent sheet which, applied over the C&O map, provides the opportunity to study the two systems together or separately.

In the Annual Report, C&O Board Chairman Cyrus Eaton and President Walter J. Tuohy besides covering the B&O-C&O situation tell the C&O story for 1960 to the shareowners. It was a year in which C&O net income was $42 million, equal to $5.15 a share of common stock. And it was the fourth consecutive year in which C&O has paid a $4 dividend.

Also reporting to the shareowners are each of C&O's Vice-Presidents

telling of his own department—J. E. Doyle, merchandise traffic; Gregory S. DeVine, coal traffic; M. I. Dunn, operations; John E. Kusik, finance; J. C. Kauffman, law and Owen Clarke, labor relations, purchasing and stores.

Reports are also included by E. Truman Wright, Vice-President and General Manager of The Greenbrier; Howard Skidmore, director of public relations and passenger traffic; John S. Marshall, Chairman, President's personnel conference; K. A. Browne, director of research and W. S. Jackson, advertising manager.

In a special six-page section in the 32-page report, C&O pays tribute to its employees as its "greatest asset." The special section contains pictures and stories taken from the columns of "Chessie News," C&O's own newspaper.

Other highlights of the report:

C&O's working capital of $63 million at the end of 1960 set a new record for the third straight year, in spite of investments of over $10 million of reserve cash in dividend-bearing securities and other investments. Lowest debt ratio in more than 30 years leaves the path to future progress free of financial obstacles. Total revenues of $344 million, while reflecting the year's unfavorable business conditions, prove that C&O can obtain its share of business available. Net income of $42 million, more than 12% of total revenues is evidence of C&O's ability to get the highest return possible under less than best conditions.

Nineteen-sixty was the second year in C&O's history that annual merchandise revenues exceeded those from the movement of coal and coke, emphasizing the healthy diversification of C&O's traffic . . . 66 new industries located on C&O in 1960.

C&O moved more than a million carloads of coal and coke in 1960, a shade under the 1959 total. Coal originated at mines located on the C&O represented nearly one-eighth of the 413 million tons produced in the nation.

C&O's trains are now operated by Centralized Traffic Control (CTC) over nearly 50% of the system's 5,100 route miles. C&O added to its fleet of 97,000 freight cars by building in its own shops several hundred special merchandise freight cars. C&O also equipped 117 flat cars with racks for transporting automobiles and rebuilt more than 1,000 coal cars. In 1961, C&O plans to rebuild 2,000 more coal cars.

The annual average wage on C&O was $6,882 at the end of 1960, highest in history. . . Subscriptions to the Employees' Stock Purchase Plan nearly doubled from $520,000 in 1959 to $910,000 in 1960. . . . C&O carried 877,000 passengers aboard its streamlined trains and Lake Michigan trainferries in 1960, which, with revenues from transporting mail, express and piggyback cars, brought in $14 million, equal to 1959 results.—V. 193, p. 600.

Chesapeake & Potomac Telephone Co. — Debentures Offered—Offering of $20,000,000 of the company's 37-year 4⅜% debentures due Feb. 1, 1998, was made Dec. 16 by a group managed by Halsey, Stuart & Co. Inc. The debentures are priced at 101.382% and accrued interest, to yield 4.30%. The group was awarded the issue at competitive sale on Feb. 15 on a bid of 100.589%, a net interest cost of 4.343% to Chesapeake & Potomac Telephone. The other three bids were: White, Weld & Co., 100.5299 for 4⅜s; First Boston Corp. and Merrill Lynch, Pierce, Fenner & Smith Inc., 100.26 for 4⅜s; and Morgan Stanley & Co., 101.97 for 4¼s.

PROCEEDS—Net proceeds from the offering will be applied by Chesapeake and Potomac toward repayment of advances from its parent, American Telephone & Telegraph Co., which owns all of the capital stock of the subsidiary company.

CAPITALIZATION—After the financing the company's outstanding capitalization will consist of the $20,000,000 debentures and 5,000,000 shares of capital stock with a par value of $20 a share.

BUSINESS—Chesapeake and Potomac on Oct. 31, 1960 had 639,266 telephones in service in the District of Columbia.

REDEMPTION—The debentures are redeemable at the option of the company at prices ranging from 106.382% thorugh Jan. 31, 1963 to 100% after Jan. 31, 1993.—V. 193, p. 491.

Chicago Aerial Industries, Inc.—1960 Results—

The Barrington, Ill. firm told its shareholders on Feb. 13 that the avionics company had a loss of $717,861 for the year ended Dec. 31, 1960.

In a preliminary financial report, Ernest G. Loeb, President, said sales fell from the 1959 record of $12,368,061 to $6,196,460 in 1960.

According to Mr. Loeb, primary reason for the loss was lack of procurement action on scheduled defense programs by government agencies during 1960. Additional factors included extensive research and development investment in proprietary products for military and industrial use, including application of rapid film processing techniques and the establishment of a facility for design and production of fiber optics. This resulted in first commercial sales of fiber optic elements.

Mr. Loeb pointed out that CAI's decision to maintain engineering and production capability appeared to be justified by growth of the backlog from the 1960 low of $2,007,344 in February to the Dec. 31 figure of $6,309,754.

	1960	1959
Net sales	$6,196,460	$12,368,061
Net income (loss)	(717,861)	724,354

—V. 190, p. 48.

Cole National Corp. — Private Placement — Eastman Dillon, Union Securities & Co. and C. E. Unterberg, Towbin Co. announced on Feb. 15 the private placement of 70,000 shares of class A common stock of Cole National Corp. with institutional investors. This is a secondary offering and none of the proceeds accrued to the company. Cole National (formerly the National Key Co.) is a leading maker of brass keys and related products, that has recently diversified into other fields.—V. 192, p. 2608.

Colonial Corp. of America—Record Net—New Activity

This corporation, largest U. S. manufacturer of low-priced men's sport shirts, has reported record sales and earnings for 1960. In a preliminary statement subject to final audit, President Sol Berger reported sales of $20,201,421 for the year ended Dec. 31, 1960, up 8.5% from the $18,615,463 reported for 1959.

Net earnings of $1,208,019, equivalent to $1.31 per share, were up 26% from the $961,432 reported in 1959, equivalent to $1.04 per share on the 924,960 shares currently outstanding.

Mr. Berger also revealed that Colonial Corp. would shortly enter the pajama field and planned to manufacture 10% of the country's men's and boys' pajama production by the end of the year. "In 1961," stated Mr. Berger, "we are budgeting $2,000,000 in pajama sales and in 1962 $5,000,000. Colonial next month will begin to manufacture men's pajamas to retail this Fall for $1.99 to $2.99 and boys' pajamas to retail from $1.49 to $1.99. These prices," he added, "are the lowest in the industry and are made possible by our low-cost production techniques perfected in our shirt operations." Colonial's 3,600 workers today produce better than one out of two sport shirts in the U. S. retailing from 99 cents to $1.69.

Colonial has headquarters in New York and plants in Tennessee and Jamaica, W. I. Its shares are listed on the American Stock Exchange.—V. 193, p. 376.

Columbia Broadcasting System, Inc.—Record Sales—

The highest net sales in the 33-year history of Columbia Broadcasting, 5% above 1959 levels, were reached in 1960; and net income for the year was the third highest in CBS history, having been exceeded only in 1958 and 1959, it was announced on Feb. 8 by William S. Paley, Chairman of the Board, and Frank Stanton, President.

Consolidated net income for the 1960 fiscal year ended Dec. 31, 1960 amounted to $23,235,074, compared with $25,267,187 earned in 1959.

Consolidated net sales for 1960 amounted to $464,598,318, compared with 1959 sales of $444,311,357.

Per share earnings for 1960 were $2.77, compared with $3.02 per share (adjusted for stock dividends) earned in the prior year.

Cash dividends of $1.40 per share were paid in 1960, compared with $1.25 in 1959. A stock dividend of 3% was paid on Dec. 19, 1960. (A stock dividend of 3% was also paid in December, 1959.)

At the Feb. 8 meeting, the Board of Directors declared a first quarter cash dividend of 35 cents per share on its common stock, payable March 10, 1961 to stockholders of record at the close of business on Feb. 24, 1961.—V. 192, p. 2120.

Columbus & Southern Ohio Electric Co.—Partial Red.

The company has called for redemption on March 1, next, through operation of the sinking fund, $100,000 of its first 2.80% bonds due March 1, 1980 at 100.40%. Payment will be made at the First National City Trust Co., 22 William St., New York, N. Y.—V. 193, p. 5.

Commercial Credit Co.—Annual Report—

The company's consolidated net income for the year 1960 amounted to $28,871,346 or $5.66 per share on 5,100,329 shares outstanding, compared with $27,860,866 or $5.48 per share for the year 1959, on 5,082,513 shares outstanding. Dividends paid on the common stock in 1960 and 1959 amounted to $2.80 per share (70 cents per quarter). The directors have increased the dividend for the quarter ending March, 1961, to 80 cents per share. In addition, the directors have voted a share-for-share distribution subject to approval by the stockholders at a special meeting to be held on March 30, 1961, immediately following the annual meeting of stockholders. Book value per share of the company's stock on Dec. 31, 1960, amounted to $50.19 compared with $47.43 at the end of 1959.

The 49th annual report of the company disclosed that earnings of the company's finance subsidiaries for 1960 amounted to $16,704,890, compared with $14,670,375. Earnings of the company's insurance subsidiaries for 1960 amounted to $9,788,774, compared with $9,763,635 for 1959. Earnings of the company's manufacturing subsidiaries for 1960 were $2,377,682, compared with $3,426,856 for 1959.

The chief factor accounting for the larger net income of the finance subsidiaries was an increase in the earning assets of the subsidiaries as a whole. Operating expenses expressed as a percentage of cash employed, decreased during the year. Receivables outstanding at Dec. 31, 1960, amounted to $1,907,060,283, an increase of 10.8% over the previous year-end. Motor retail volume for 1960 was down 12.7% as compared with 1959, but retail farm equipment financing, personal loans, factoring, business loans, fleet leasing and industrial equipment financing and leasing more than offset this decline with the result that the total volume of receivables acquired in 1960 amounted to $4,287,919,187, compared with $4,181,273,489 in 1959. Retail receivables outstanding on Dec. 31, 1960, amounted to $1,254,945,835, an increase of 5.7% over the previous year-end. Losses, particularly retail automobile losses increased in 1960 over 1959 due largely to lower prices received on the resale of repossessions. The decline in used car values during 1960 was substantial.

The company's insurance subsidiaries showed written premiums prior to reinsurance of $40,857,351 in 1960, compared to $33,952,737 in 1959. Each of the company's insurance subsidiaries has branched into new fields with a greater utilization of their specialized personnel during 1960 and all of these subsidiaries have contributed to this improved earnings picture. However, Cavalier Life Insurance Co., the wholly-owned life insurance subsidiary, showed a decrease in net income after taxes for 1960 as compared to 1959 due to the increased income tax on underwriting profits required by the Amendment to the Federal Income Tax law enacted in 1959.

Net sales of the company's manufacturing subsidiaries in 1960 amounted to $129,200,097, compared with $126,949,092. However the earnings of the manufacturing companies were off considerably. Two of the companies showed a net loss for the year; two showed smaller net income; while three companies showed an increase in net income which more than offset the companies which reported a loss. Fundamentally, the decline in home building and the severe competitive price situation were the principal reasons for the decline in earnings of these manufacturing companies.

On Dec. 31, 1960, there were reserves totaling $172,632,656 which were available for future operations, expenses, credit losses and earnings of the finance and insurance subsidiaries as compared with a similiar reserve at the end of 1959 of $162,577,316.

The company's total resources as of Dec. 31, 1960, totaled $2,075,898,511, an increase in assets of $183,860,641 over the same period of 1959. Indebtedness at Dec. 31, 1960, amounted to $1,635,318,500, an increase of $146,862,500 for the year. Interest and discount charges for the year 1960 totaled $71,868,626, an increase of $15,851,501 over 1959. The per annum interest rate paid by the company in 1960 was approximately 0.2% more than for the prior year. However, comparing December 1960 interest costs with the same month in 1959, there was a decrease of 0.7%.—V. 192, p. 2220.

Conrad-Carson Electronics, Inc.—Common Stock Offered—Pursuant to a Feb. 8, 1961 prospectus this company offered for public sale 150,000 shares of common stock (par $1) at $1 per share. No underwriting was involved.

BUSINESS—Initially the company, of 3110 Goddard Way, San Diego, Calif., will engage in the manufacturing and selling of the products of its predecessor, Conrad-Carson, Inc. These products are precision wirewound resistors, temperature sensing resistors, a new adjustable temperature sensing resistor known as the "Temp-A-Just" and a semiconductor described as a humistor. The corporation has acquired a going business from Conrad-Carson, Inc., and its predecessors, thus retaining an established market for its products as well as sales representation in strategic areas. The corporation presently has nine employees. This number has varied upward or downward, dependent on workload.

CAPITALIZATION—The corporation is authorized to issue 600,000 shares of common stock with a par value of $1 per share. As of Feb. 8 the issued and outstanding common stock is as follows:

Conrad-Carson, Inc. 18,950 shs.

This outstanding stock represents the proceeds of the stock issued to acquire the business of Conrad-Carson, Inc.

PROCEEDS—Of the $150,000 proceeds, the approximate amounts shown below will be expended progressively for the purposes indicated. Priority of use of the proceeds will be in the same order as set forth below although generally, partial expenditures will occur simultaneously. A definite amount of flexibility must be maintained to accommodate the rate of development progress and to be commensurate with the volume of sales.

1. Organization, printing, legal, registrar, transfer agent, etc.	$4,500
2. Plant relocation (to be leased—location not determined) and office equipment	5,000
3. Production facilities for the Temp-A-Just including tool design, tools and tooling	35,000
4. Research and development of products (eigineering)	30,000
5. Research and development equipment and materials	10,000
6. Development of and acquisition of humistor production facilities, including tool design, tools and tooling	20,000
7. Advertising and marketing	10,000
8. Working capital	35,500
Total	$150,000

APPOINTMENTS—The Bank of America N. T. & S. A. of San Diego has been designated transfer agent and the First National Trust & Savings Bank of San Diego has been designated registrar.—V. 193, p. 199.

Consolidated Natural Gas Co.—Appointments—

The Chase Manhattan Bank has been appointed trustee, paying agent and registrar for a new issue of $45,000,000 principal amount 4⅜% debentures due Feb. 1, 1986, of the company.—V. 193, p. 701.

Control Data Corp.—Sales, Net Up—

William C. Norris, President, on Feb. 2 sent to stockholders a report on the company's progress for the six months period ended Dec. 31, 1960, which was the first half of the company's fourth fiscal year.

The company's net sales for the six months were $8,543,126, and net income after state and Federal income taxes, and after deducting a provision of $100,000 for product warranties, was $403,722. This compares with net sales of $3,889,273 and net earnings of $249,518 in the same period of the previous year, when no warranty reserve provision was made.

Net earnings per share of common stock for the six months period, after deducting preferred dividends, amounted to 35c, based on 1,108,363 outstanding shares, as compared with 27c on 899,344 outstanding shares for the first half of the previous year. The sales and profit figures are subject to year-end audit.

The company's backlog of orders on hand at Dec. 31, 1960 was approximately $16,100,000, compared with a backlog of $11,860,000 at June 30, 1960 and about $7,700,000 on Dec. 31, 1959.

Early in the current fiscal year, on July 26, 1960, the company, through an underwriting syndicate managed by Dean Witter & Co., sold 125,000 shares of common stock. The $4,510,000 net proceeds to the company from this underwriting were used to repay outstanding bank loans, and the balance was added to the company's general funds and is being used as working capital and for other corporate purposes to finance the growing volume of business and to provide flexibility in operation.

Norris said that as of Dec. 31, 1960 nine of Control Data's large-scale 1604 Electronic Digital Computers had been installed, one of which is at the company's computing center in Minneapolis. Norris also said that 23 of Control Data's Model 160 Electronic Digital Computers had been delivered. The Model 160 is a desk-size computer which is used either with the 1604 or as an independent computer.

Norris cited that an agreement had been consummated with National Cash Register Co. whereby National Cash will sell the Control Data Model 160 under its own name, exclusively in the banking and retail store areas and non-exclusively in other markets.

Additional notes of interest relative to the establishment of the company's second large computing center in the San Francisco area, the development of new programming compilers, and new product developments are set forth in the Report to the Stockholders.—V. 192, p. 2016.

Copenhagen Telephone Co., Inc.—Private Placement—This company, the largest telephone company in Denmark, has sold $10,000,000 of 6¼% dollar notes due 1973 to a group of institutional investors in the United States. The private placement was arranged by Smith, Barney & Co. Inc., it was announced on Feb. 15.

The transaction represents the first sale of the company's dollar securities in the United States since 1929. The last previous dollar loan of Copenhagen Telephone was retired in 1938.

PROCEEDS—Net proceeds from issuance of the notes will be used by the company for capital expenditures to meet rapidly rising demand for telephone service.

HISTORY—Copenhagen Telephone is 51% owned by the Danish Government and was incorporated in 1894 as the successor to a business originally established in 1881 by International Bell Telephone Co.

Coral Aggregates Corp.—Common Stock Offered—Pursuant to a Feb. 8, 1961 prospectus, Peter Morgan & Co., New York City, offered for public sale, 100,000 shares of common stock (par 10¢) at $4 per share.

BUSINESS — The company, of 7200 Coral Way, Miami, Fla., was organized in Florida on Aug. 7, 1959 to acquire and undertake the development and commercial exploitation of an estimated 8,640,000-ton rock deposit located on a 160-acre tract in Dade County, Fla., four miles west of Miami. The company is not at present active and its only assets are the 160-acre tract and a requirements contract. Rock (or aggregate) of the type to be excavated from the 160-acre tract after being crushed, washed and graded according to size, is sold in its various forms and sizes for use in making ready-mix concrete and concrete blocks for all types of home and building construction, in road construction, and as "fill" for housing and other construction sites.

PROCEEDS—The net proceeds, estimated at $325,350, will be used to purchase equipment and working capital for the extraction of the rock from the 160-acre tract owned by the company.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

Crosby-Teletronics Corp.—Hikes Sales, Earnings—

Sales and earnings during fiscal 1960 by this corporation hit record highs, it was reported on Feb. 9 by Murray G. Crosby, President.

Sales for the parent company and its subsidiary, Crosby Electronics, during 1960 reached $1,683,010.18, representing more than a $1 million increase over the previous year when sales were $463,179.39.

"Even more significant," said Mr. Crosby, "is the sharp comeback on the profit side of the ledger where we experienced a heavy shift from nominally lower-profit military contract work to more profitable sales in proprietary products."

Crosby-Teletronics had net profit of $35,263.83 during the fiscal year just ended, as contrasted to a net loss during the previous year of $213,858.30. Earnings per share amounted to five cents.

Mr. Crosby underscored the "fine performance of the parent company" which produces electronic test equipment for both military and commercial applications, vacuum test devices, and communications products.

Sales for the parent company in fiscal 1960 hit $1,381,776.45, compared with $438,558.84 the previous year. Net profit before taxes was $101,227.01, a sharp reversal from fiscal 1959, when the company experienced a net loss of $216,586.43.—V. 192, p. 1911.

Crumpton Builders, Inc. — Securities Offered — Pursuant to a Feb. 10 prospectus, an underwriting group headed by Courts & Co., Atlanta 3, Ga., publicly offered 150,000 units of this firm's securities at $20 per unit. Each unit consisted of five shares of the 50¢ par common stock, one $10 par 9% convertible subordinated debenture, due Jan. 10, 1981, and one warrant. The warrant, which expires on Jan. 10, 1964, entitles the holder thereof to purchase for $14 a unit consisting of two shares of the common and one of the debentures.

BUSINESS—The principal office of the company, and of Surety Mortgage Investment Co., a subsidiary, is located at 2915 W. Hillsborough Avenue, Tampa, Fla. The principal business of the company is the construction of owner completed ("shell") homes. At the present time the company has thirty plans for such "shell" type homes ranging in size from one to four bedrooms, and in area from 520 to 1,056 square feet. Prices vary from $1,800 to $5,000. The company infrequently sells and builds residences on the basis of plans and specifications other than its "model" plans, but more than 97% of the residences sold by the company have been constructed from one of its standard "model" plans. Completed residences have occasionally been built in the past but this practice is presently discontinued.

PROCEEDS—The profitable operation of the company is dependent upon its ability to obtain mortgage financing for prospective customers desiring to purchase homes on an instalment payment basis. The net proceeds from the offering described in this prospectus will be utilized to retire $367,778 of short-term 12% notes and may be used to reduce short-term bank obligations. The balance of the net proceeds will be added to the working capital of the company to be used for general corporate purposes, and to increase mortgage notes receivable to be held by the subsidiary of the company, Surety Mortgage Investment Co.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

—V. 192, p. 2120.

Deere & Co. (& Subs.)—Sales, Net Off—

The Moline, Ill. company's consolidated sales dropped to $463.5 million and net income fell to $17.7 million in the 1960 fiscal year.

President William A. Hewitt, in a letter to stockholders in the firm's annual report, said a five-month shutdown of tractor plants to change over to a complete new line of John Deere farm and industrial tractors was largely responsible for the sales decrease. Sales dropped 14% from the all-time high of $542.5 million in 1959.

The lower sales volume, plus heavy nonrecurring change-over expenses for the new tractor program, reduced earnings by 63%, to $2.57 a share. Earnings a year ago were $48.4 million, or $7.02 per share.

Hewitt said anticipated demand for the new tractors, plus a generally favorable agricultural outlook, "lead us to believe that our sales will be substantially higher in 1961 than in 1960, and our initial production schedules have been established on that basis." He also stated that a considerable increase in the profit margin is expected in 1961.

In the new tractor line the company broke completely with its 42-year tradition of two-Cylinder engine design in order to achieve better adaptability to future farm and industrial power requirments. Hewitt said the new line is priced competitively horsepower for horsepower with other makes and incorporates features available only on John Deere tractors.

"The acceptance of the new tractors by dealers has been excellent. Retail customers also are enthusiastic about the performance of the new models," Hewitt said.

The company consolidates operations of all U. S. and Canadian subsidiaries except those of the John Deere Credit Co. This subsidiary, set up in 1958 to take over financing of the retail installment notes of farm and industrial customers which previously had been financed directly by Deere & Co., had earnings of $1,282,000.

Worldwide sales, including all foreign subsidiaries as well as U. S. and Canadian sales, declined to $510 million from $577 million in 1959, despite an encouraging increase in foreign sales.

During the year, John Deere Intercontinental, the subsidiary responsible for sales and manufacturing outside the U. S. and Canada, had sales totaling $36 million, more than double 1959 sales. Net income was approximately $2 million. A substantial part of the sales increase resulted from the new manufacturing operation in Argentina, which completed its first full year of tractor assembly with sales of $16 million.

John Deere Lanz, the West German farm equipment manufacturer in which Deere owns an 85% interest, had sales of $31 million, 7% less than in 1959. After breaking even in 1959, the German firm lost approximately $1.7 million in 1960. Its sales and earnings were affected by tooling and changeover costs to bring out a new line of tractors, which resulted from design engineering efforts started shortly after Deere acquired its majority interest in 1956. Hewitt said the new tractors "should help John Deere-Lanz increase its sales substantially and operate profitably."

Sales of industrial tractors and machinery dropped 17%, from $48.1 million in 1959 to $39.7 million in 1960. The changeover to new models affected sales in this field. In the new line the company has expanded the number of power sizes it offers industrial customers.

Sales of John Deere Chemical Co. were $7.7 million in 1960 compared to $8.3 million in 1959. The firm operated at capacity in both years, but sales declined in 1960 because the company had an unusually large inventory at the end of 1958 which was sold in 1959, whereas a smaller inventory was carried over from 1959 to 1960. Operations in both 1959 and 1960 were profitable, the company reported.—V. 191, p. 505.

Dekcraft Corp.—Files for Offering—

The corporation, of 15 Burke Lane, Syosset, New York, filed a registration statement with the SEC on Feb. 15, 1961, covering 92,000 shares of common stock, to be offered for public sale on an all or none basis through Carter, Berlind, Potoma & Weill. The public offering price and underwriting terms are to be supplied by amendment. The company recently sold 10,000 shares to the underwriter for $100 and 5,000 shares to Charles Snow, a finder, for $50.

The company (formerly Supreme Ribbon Corp.) manufactures, converts and/or packages decorative papers, foils, tissues, ribbons, tags, seals, cards and twines for use as gift wrappings. Its products are sold primarily to wholesalers, supermarkets, department stores and large retail store chains. The company has an option to purchase all the outstanding stock of Reed Tissues Corp., of New York, for an estimated $320,000. The net proceeds from the stock sale will be used to retire bank borrowings to be undertaken to enable the company to purchase the stock of Reed Tissues, and the balance will be used to supplement working capital and for other general corporate purposes.

The company has outstanding 85,000 shares of common stock, of which Edward E. Stelzer, President, owns 9,460 shares; Ruth Stelzer, his wife, 14,977 shares; Irving J. Miness, Secretary, 14,977 shares; Bernice B. Miness, his wife, 9,565 shares; and Irene Miness, 15,766 shares. Members and relative of the Miness and Stelzer families (who are related to each other), own an aggregate of 82.3% of the presently outstanding stock, and upon completion of this offering will own 39.6%.

Devonshire Street Fund, Inc.—Com. Stk. Offered—

Devonshire Street Fund, Inc., a diversified mutual fund with 4,000,000 authorized redeemable shares, is offering shares of its $1 par value common stock to investors in exchange for common stocks of the general nature of more than 325 listed in the prospectus, which is dated Feb. 14, or other securities acceptable to the Fund. Bache & Co. is the dealer manager for forming and managing a group of securities dealers to solicit deposits of securities to be exchanged for Fund shares. The public offering price of the Fund's shares will be their net asset value at the date of issue, which is $12.50 per share.

Investors wishing to exchange their securities for those of the fund are to deposit them under a letter of transmittal with State Street Bank and Trust Co., Boston, as escrow agent, pending consummation of the exchange. The minimum deposit acceptable will be securities having a market value of at least $15,000 at the time of receipt for deposit. The exchange will not be consummated unless the securities on deposit have at that time a market value of at least $10,000,000.

PURPOSE—Devonshire Street Fund was organized in Massachusetts last October for the purpose of providing investors who hold securities having relatively low tax bases with a method of diversifying their holdings without realizing gain or loss for Federal income tax purposes at the time of exchanging their securities for Fund shares. The Fund's investment objective is possible long-term capital growth and income.

ADVISOR—Trust Management Corp., wholly-owned subsidiary of Trust Securities Corp., Boston, is the investment adviser.

Devonshire Street Fund was organized to provide investors holding securities at relatively low tax bases with a means of exchanging such securities for shares of the Fund (without incurring any Federal capital gains tax liability upon such exchange), thereby obtaining diversification and continuous supervision by management experienced in investments.

The maximum fee payable to the dealer manager is 4% of the market value of deposited securities in single transactions of less than $100,000, and is reduced progressively for larger transactions.

REDEMPTION—Fund shares are redeemable at their net asset value. —V. 192, p. 2609.

Diversified Collateral Corp.—Offering Suspended—

The SEC has issued an order temporarily suspending a Regulation A exemption from registration under the Securities Act of 1933 with respect to a public offering of stock of this corporation ("DCC"), 420 Lincoln Road, Miami Beach, Fla.

Regulation A provides a conditional exemption from registration with respect to public offerings of securities not exceeding $300,000 in amount. In a notification filed in February 1960, DCC proposed the public offering of 75,000 common shares at $4 per share. The offering was commenced in April 1960 without an underwriter; but the filing later was amended to name The Tager Company of New York as principal underwriter and the offering was recommenced on Aug. 24, 1960.

The Commission's suspension order asserts that two unnamed firms, Neil James & Co., Inc., and Banner Securities, Inc., both of New York, became and in fact were underwriters of the DCC stock offering and that the offering through said firms was not entitled to a Regulation A exemption by reason of the fact that said firms had been temporarily restrained or permanently enjoined from engaging in or continuing business as a broker-dealer in violation of certain provisions of the Securities Exchange Act of 1934.

Moreover, according to the order, (a) failure to disclose that two underwriting firms violated a provision of Regulation A; (b) the DCC offering circular was false and misleading by reason of such failure to disclose and the omission of pertinent facts with respect to the terms of the underwriting agreement with and any material relationship between DCC and such underwriters; and (c) the sale of shares through Neil James & Co., Inc., operated as a fraud and deceit upon the purchasers. (This latter charge involves the failure to deliver shares to purchasers and the failure to remit the proceeds to the issuer.)

The order provides an opportunity for hearing, upon request, on the question whether the suspension should be vacated or made permanent—V. 192, p. 1091.

Dover Corp.—Acquires—

Stockholders approved on Feb. 14 a proposal to merge OPW Corp., Cincinnati, into Dover. The merger became effective immediately.

Under the plan, stockholders of OPW will receive 247,500 shares of Dover common stock and $1,087,625 in cash. OPW is a closely held company. Dover's stock is listed on the N.Y.S.E.

The OPW Division makes valves, quick connect-disconnect couplers, nozzles and specialty products for handling petroleum, chemicals and other liquids. One of its products best known to the general public is an automatic shutoff nozzle used by most service stations for filling the gasoline tanks of automobiles and trucks. The OPW-Jordan Division makes pressure and temperature regulating and control valves and related devices for handling liquids, steam and gases. Its patented variable orifice plate valves are marketed under the name Sliding Gate. The products are used extensively in the automatic regulating and control of heat and steam and by the liquids processing industries. OPW-Jordan also sells the products of the OPW Division to industrial users other than the petroleum industry.

Dover is a diversified manufacturer of industrial products with division and subsidiaries in Tulsa, Memphis, Louisville, Cincinnati, Madison, Indiana and Chatham, Ontario, Canada. Its products include oil field equipment, hydraulic and traction passenger and freight elevators, gas unit and space heaters and vent pipe, sealing devices for compressors and engines, auto lifts, hydraulic materials handling equipment, and fireplace fixtures.—V. 193, p. 377.

Drexel Equity Fund, Inc.—Common Stock Offered—

Drexel & Co. is offering publicly a new issue of 500,000 shares of Drexel Equity Fund, Inc. 10¢ par value common stock at an initial offering price of $10.20 per share.

BUSINESS—Drexel Equity Fund, Inc. was organized under the laws of Delaware in October 1960. The fund will become a diversified open-end management investment company upon completion of the initial public offering of shares. In the selection of investments, the fund will emphasize possible long-term capital appreciation.

OFFICER—Paul F. Miller, Jr., President of the new fund has been associated with Drexel & Co. since 1953 and has been a general partner since October 1953.

Duffy-Mott Co., Inc.—Sales, Net Up—

Net sales for the four-month period ending Dec. 31, 1960 were $22,325,741 as compared with $19,259,457 for the corresponding period in 1959, H. E. Meinhold, President, announced.

Net earnings after provision for Federal income taxes were $395,289, equivalent to 54 cents per common share on the 727,660 shares outstanding at Dec. 31. This compares with net earnings of $301,031 during the similar period in 1959, which were equivalent to 50 cents per share on the 603,000 shares outstanding at Dec. 31, 1959.

Duffy-Mott is the nation's leading producer and distributor of apple products sold at retail, the more important being apple sauce and apple juice under the "Mott's" label. It is also the sole processor and distributor of "Sunsweet" Prune Juice and Ready-to-Serve Prunes; "Clapp's" Baby Foods; and a complete line of California fruits and vegetables distributed nationally by its "Pratt-Low" Division.

Mr. Meinhold said that, because of the seasonal nature of the company's business, interim earnings have been consistently computed on a four-month basis.—V. 192, p. 2120.

Economics Laboratory, Inc.—Proposes Deb. Offering—

Economics Laboratory, Inc., 914 Guardian Building, St. Paul, Minn., filed a registration statement with the SEC on Feb. 10, 1961, covering registration of $4,000,000 of convertible debentures due April 1, 1976, to be offered for public sale on an all or none basis through underwriters headed by W. E. Hutton & Co. and Kalman & Company, Inc. The interest rate, public offering price and underwriting terms are to be supplied by amendment. The registration statement also includes 26,250 shares of common stock which are reserved for issuance upon exercise of options granted or to be granted under the company's Restricted Stock Option Plan.

The company and its domestic and foreign subsidiaries are engaged principally in the business of manufacturing and selling powdered and liquid detergents and cleaning agents for commercial dishwashing and household uses. Of the $3,800,000 net proceeds from the debenture sale, $1,580,625 will be used to retire outstanding 5¾% promissory notes; $1,200,000 for new facilities for the company as soon as plans are formulated and completed; and the balance for working capital purposes.

In addition to the notes and two series of preferred stock, the company has outstanding 483,371 shares of common stock, of which Edward B. Osborn, President, owns 13.4% and the estate of M. J. Osborn holds of record 11.8%.—V. 188, p. 1517.

Edwards Industries, Inc.—Common Stock Offered—

Pursuant to a Feb. 14 prospectus, an underwriting group headed by Joseph Nadler & Co., Inc., 41 East 42nd St., New York City, publicly offered 100,000 shares of this firm's 50¢ par common stock at $4.50 per share.

BUSINESS—The company is engaged in the manufacture and sale of prefabricated building components, including kitchen cabinets and specialty items; in the distribution and local processing of glass used in homes, buildings and automobiles; in the servicing of automobiles, trucks and construction equipment; in the sale of Rambler cars and Jeep vehicles; in the development of metropolitan and suburban land; and in the planning, construction, financing and sale of homes. The company is one of the major builders of homes in the Pacific Northwest.

PROCEEDS—The company intends to use the proceeds of this underwriting to provide:

(1) Working capital to finance home construction and land development in additional metropolitan areas, which will also provide increased demand for the products of the company's manufacturing subsidiaries.

(2) Funds to be combined with borrowings from banks and insurance companies for interim mortgage banking with regard to homes manufactured by the company and its franchise builders.

(3) Investment capital in additional franchise building companies.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

National Bank (Albany Community Branch), bearing 5½% interest and having various maturities, secured by inventory. $10,000 is payable to Holiday Homes, Inc.

‡Includes the recapitalization effected Sept. 9, 1960, and acquisitions dated Sept. 10, 1960.—V. 193, p. 701.

Electric Autolite Co. (& Subs.)—Sales Up, Net Down

The Toledo, Ohio, company, after giving effect to certain pooling of interests adjustments, reported consolidated net sales for 1960 of $221,812,216, as compared with $220,772,395 for the year 1959. Consolidated net earnings from operations for the year amounted to $5,605,191, equivalent to $4.05 per share on the 1,481,662 common shares outstanding on Dec. 31, 1960. Consolidated net earnings from operations in 1959 were $7,691,569, equivalent to $4.40 per share based on 1,745,744 common shares.

The 1960 net earnings from operations were reduced by a special provision for loss in value of equipment due to discontinuance of certain unprofitable product lines and loss on sale of buildings amounting to $431,618 (net of Federal income tax effect), equivalent to $.29 per share. In 1959 net operating earnings were increased by a special credit of $3,052,128 (net of Federal income tax effect), equivalent to $1.75 per share, principally from the gain on sale of the company's investment in Crane Co. common stock.

The combined total of operating earnings and special items amounted to $5,573,573 for 1960, equivalent to $3.76 per share as compared with $10,743,697, or $6.15 per share for 1959.

The foregoing sales and earnings figures for 1960 and 1959 include, on a pooling of interests basis, the operations of the Marshalltown Manufacturing Co. and the Hiller Aircraft Corp. acquired during the fourth quarter of 1960. Therefore, the reported figures are not comparable with prior published reports.—V. 192, p. 1491.

Electric Storage Battery Co. (& Subs.) — Sales Up, Net Down—

Consolidated net sales of $148,124,000 for the 12 months ended Dec. 31, 1960 were the highest in the history of the company, Edward J. Dwyer, President of the 72-year-old firm, said on Feb. 2.

This is an increase of 2.5% over 1959 sales of $144,578,000 which were the best since 1951, a war year. Net income was $6,640,000, equal to $3.58 per share on the 1,685,764 common shares outstanding Dec. 31, 1960. This is slightly less than the previous year's net income of $6,108,000 or $3.62 per share on the same number of shares.—V. 192, p. 2017.

Electronic Assistance Corp.—New Product—

Development of a revolutionary electronic recording system that enables race track patrons to place bets without leaving their sitting or standing area, was announced on Feb. 14 by this Red Bank, N. J. corporation.

Robert Edwards, EAC President, said the new type pari-mutuel system centers around automatic betting machines which can be located virtually at bettors' elbows throughout the grandstand area. The company said patents are pending.

Edwards predicted that the automatic betting system will usher in a new era of convenience for track patrons. He asserted also that the system will increase track income by its ability to handle a much larger volume of bets than possible under present procedures, and will advance the feasibility of legalized off-track betting.

Under the new system, a track patron purchases a supply of betting cards when he enters the track. When he wishes to make a bet, he walks to the machine nearest him, drops in his card and, with punch-buttons, indicates the horse of his choice and the position he wants to bet him—win, place or show. On the machine, within seconds, he can place as many bets in as many combinations as he could place if he had time between races to visit a window at a conventional track handling every category of bet acceptable.

Once the patron has indicated his desires, the machine automatically completes his bet. It does so by registering on a central magnetic drum memory the items that the patron punched as well as several other details that the machine provides. The result is a unique record for that bet. No other card exactly like it is registered for the day.

The race over, the holder of a winning ticket presents it to a cashier, who places it in a "read-out" machine. This action rapidly activates an electronic finder in the memory which locates the filed data on the bet, compares it to the data on the card, and if it finds both tally, validates the card by flashing back to an illuminated portion of the cashier's counter the sum due on the bet.—V. 192, p. 992.

(R. J.) Enstrom Corp., Menominee, Mich.—Files With Securities and Exchange Commission—

The corporation on Jan. 27, 1961 filed a letter of notification with the SEC covering 30,000 shares of common stock to be offered at par (10 per share), without underwriting.

The proceeds are to be used for outstanding loans and working capital.

(L. M.) Ericsson Telephone Co.—Brasilia Contract—

It was announced on Feb. 8 that L. M. Ericsson, parent company of the Ericsson Group, worldwide telecommunications organization with annual sales of more than $165,000,000, was in receipt of its fourth contract in two years to supply telephone equipment in Brasilia, the new capital of Brazil.

Ericsson contracts for Brasilia, covering equipment delivered and on order, now total approximately $5,800,000.

The latest contract calls for the extension of the city's first automatic telephone exchange from 5,000 to 10,000 lines, and for the establishment of a new 10,000-line automatic exchange. This will be situated in a centrally located building which will house the national telephone, radio and television administration. The automatic equipment will consist of Ericsson-designed crossbar switching systems.

The contract also includes the expansion of the Brasilia trunk exchange from 26 to 106 operators' positions.

Ericsson's initial Brasilia contract, for construction of the city's first exchange, was received in February, 1959. A second contract, in July, 1959, provided for radio telephone terminals for shortwave circuits linking Brasilia with Rio de Janeiro. The third contract, announced a year ago, involved transmission equipment for long distance

Digitized for FRASER
http://fraser.stlouisfed.org/

telephone circuits from Brasilia to Rio and other cities. Brasilia became the country's official capital in April, 1960.

The Ericsson Group comprises the parent firm and 57 other companies located in 28 countries. It has operated in Brazil for 40 years, and installed the country's first automatic exchange in Juiz de Fora in 1931.—V. 193, p. 492.

Espey Mfg. & Electronics Corp. — Sales, Net Up — New Orders—

Sales for the first half of the fiscal year ended Dec. 31, 1960, rose to $2,464,977 from $1,989,648 in the corresponding period the previous year, according to Nathan Pinsley, President.

Net earnings for the six months ended last Dec. 31 amounted to $96,689, equal to 41 cents per common share on the 235,721 shares outstanding at the end of the period. This compares with $93,613 and 40 cents per share in the similar period in 1959.

Extraordinary expenses of $85,000 were caused by preparatory costs of the semi-conductor division; after this deduction, reported income equalled $195,189 before taxes.

Shares of Espey are traded on the American Stock Exchange.

Espey, with manufacturing facilities at Saratoga Springs, N. Y., designs and makes electronic components and electromechanical devices. Major products include specialized electronic power supplies and various types of transformers and other iron-core components. —V. 193, p. 377.

This firm's Saratoga Industries Division, of Saratoga Springs, N. Y., has received initial orders from Martin Co. for 43 battery charger power supply units for use in connection with the Air Force Titan ICBM program, according to Nathan Pinsley, President of Espey.

With receipt of these orders, Espey's backlog is now more than $2,000,000.

Under the Martin contracts, Espey will provide the battery charger power supply units complete with nickel cadmium batteries for use in operating the underground missile launching systems in the event of electrical power failure.

The battery charger system features unique, automatic programming, according to Mr. Pinsley, which senses the state of discharge of the battery and puts back an amount of energy which is directly proportioned to the energy removed. The charging cycle operates over three basic modes.—V. 193, p. 377.

Fireman's Fund Insurance Co.—Net Up—News—

Further progress for this company and its subsidiaries was recorded in 1960. In a preliminary statement to shareholders, President James F. Crafts reported an increase in operating earnings to $3.79 per share, as compared with $3.31 for 1959.

While sales were up in 1960 and net premiums written increased to $260,595,844, as compared with $258,195,495 in the previous year, the increase in reserve for unearned premiums was not as substantial as that recorded in 1959. As a result, earnings based on 3,750,000 shares outstanding and adjusted to include a 35% equity in the unearned premium reserve, but excluding realized gain or loss on sales of investments, amounted to $4.12 per share as compared with $4.78 in 1959. Due to a tax loss carryforward, no Federal income taxes were incurred during 1960 or 1959.

Other highlights of 1960 were the reduction in net underwriting loss to $1,140,894, compared with $1,563,283 in 1959 and a 9.7% increase in net investment income to $15,339,014, from $13,987,267 in the previous year, or $4.09 per share in 1960 as compared with $3.73 in the previous year. In 1960, underwriting ratios showed losses and loss expenses incurred to premiums earned of 62.6%, as compared with 60% in the previous year. Underwriting expenses and taxes incurred to premiums written were reduced from 38.2% in 1959 to 37.3% in 1960.

Commenting on his complete report of the year's operations which will soon be released to shareholders, President Crafts said: "Were it not for Hurricane Donna and the 11,500 claims it brought to the company, an underwriting profit would have been recorded for the period. We are beginning to receive the benefits of increased rates on a numbr of classes of business and a leveling off in the inflationary trend has helped stabilize replacement costs which are a vital part of property claims." Mr. Crafts further stated that he was confident that 1961 would see further progress made in the company's continuing efforts to realize improved profit ratios from underwriting operations. —V. 192, p. 2610.

First Pelham Corp.—Exempted—

The SEC has issued an order under the Investment Company Act granting an application of The First Pelham Corp., Pelham, N. Y., for an order declaring that it has ceased to be an investment company and for exemption from the requirement to file a registration statement. —V. 193, p. 602.

Fischbach & Moore, Inc.—New Contract—

This electrical contracting firm has been awarded the contract for the installation of electrical wiring in the new $85,000,000 Pan Am Building, designed as the world's largest commercial office building, and now being constructed over the tracks leading to Grand Central Terminal at 42rd to 45th Streets, at Vanderbilt Avenue, New York City.

Fischbach & Moore will install more than 1,000,000 feet of electrical conduits, nearly 200 miles, and some 3,000,000 feet of electrical wiring, roughly 600 miles, to service the power for lighting, air conditioning, elevators, computers and many other office machines in the 59-story structure.—V. 193, p. 377.

Florida Capital Corp.—Seeks Order—

This corporation of West Palm Beach, Fla., has applied to the SEC for an exemption order under the Investment Company Act with respect to proposed debentures loan in the amount of $200,000 to North Palm Beach Utilities, Inc. ("Utilities"); and the Commission has issued an order giving interested persons until Feb. 24, 1961, to request a hearing thereon. According to the application, John A. Schweneke, a director and vice-president of Florida Capital owns 63,982 shares (17%) of the outstanding stock of Utilities; and in view of this intercompany affiliation the transaction is prohibited by the Investment Company Act unless the Commission grants the requested exemption from such prohibition. Utilities supplies water and sewer services in the North Palm Beach area; and it proposes to use the proceeds of the loan to extend its lines under agreements with various developers who own property in its franchised area, and for general corporate purposes.—V. 192, p. 2221.

Fotochrome, Inc.—Acquisitions—

Fotochrome has acquired the Paramount Photo Service Co., Inc., a New York photofinishing corporation, According to Frank Nadaline, Jr., Fotochrome's board chairman, the acquisition was made solely through a transfer of stock.

This represents the second major acquisition within two weeks for the photofinishing, film and equipment sales company whose stock is traded on the over-the-counter market. The previous acquisition was the General Photo Laboratories Corp.

Mr. Nadaline stated that the combined sales volume of General and Paramount for the past 12 months has been in excess of six million dollars.

Fotochrome, in its most recent statement of income, prior to going public this past November, had net earnings of $491,708, or $.33, for the six months ended Sept. 30, 1960 on 1,481,780 shares then outstanding. No comparative figures are available.—V. 193, p. 702.

General Exploration Co. of California—Receives Lics.

The Los Angeles company has received oil exploration licenses covering 10,000 square miles in the Irrawaddy Basin from the Government of the Union of Burma, C. G.. Willis, President of General Exploration, announced from Burma.

Of considerable significance is the fact that these are the first licenses issued to a foreign oil company other than the Burma Oil Co., which is 51% owned by the Burmese Government.

Mr. Willis, who went to Rangoon for the official ceremony of signing the documents, will remain in Burma temporarily to initiate the field geology work on the newly acquired holdings.

Other foreign holdings of General Exploration include a 50% interest with Santos Limited, in a 3,136,000-acre exploration license in South Australia on which the first exploratory well was spudded Feb. 1, 1961. The company also has some 2,000 square miles of petroleum licenses on the Sudan Red Sea coast.—V. 189, p. 2457.

General Motors Acceptance Corp.—Debentures Offered —Morgan Stanley & Co. heads a nationwide underwriting group which offered on Feb. 16 a new issue of $150,000,000 of the corporation's 22-year 4⅝% debentures due 1983, priced at 99⅜% and accrued interest to yield 4.67% to maturity. The underwriting group consists of 235 investment firms.

PROCEEDS—The net proceeds from the sale will be added to the general funds of the company and will be available for the purchase of receivables or for maturing debt. The proceeds initially may be applied to reduction of short-term borrowings or invested in short-term securities.

REDEMPTION—The new debentures are not redeemable before March 1, 1971, except that, under a special redemption provision applicable on and after March 1, 1966, under certain conditions of declining retail receivables, the debentures are redeemable at special redemption prices. In the 12 months period beginning March 1, 1971, the debentures may be redeemed at the option of the company at 102.40% and thereafter at prices decreasing to the principal amount; under certain conditions of declining retail receivables the debentures may be redeemed at lower redemption prices.

BUSINESS—GMAC finances the distribution of new products manufactured by General Motors Corp. to dealers for resale and finances such dealers' retail instalment sales of new products as well as used units of any make. Financing related to automotive vehicles comprised 98% of the dollar volume of receivables purchased by GMAC in 1960.

ACCOUNTS—Notes and bills receivable (after deducting unearned income and loss reserves) held by the company and its consolidated subsidiaries on Dec. 31, 1960, amounted to $4,949,192,000 compared with $3,963,262,000 on Dec. 31, 1959.

DEBT—As of Dec. 31, 1960, GMAC had outstanding senior debt amounting to $3,951,564,000 of which $1,768,600,000 was payable within one year and $2,182,964,000 was payable subsequent to one year. Subordinated indebtedness amounted to $500,000,000.

CAPITALIZATION—All of the outstanding capital stock of GMAC is owned by General Motors Corp. Total capital stock and surplus on Dec. 31, 1960, amounted to $394,561,000; consisting of $50,000,000 of $100 par value 4% cumulative preferred stock, $165,000,000 of $100 par value common stock and $179,561,093 of earned surplus.

UNDERWRITERS—Under the terms of and subject to the conditions contained in an underwriting agreement dated Feb. 15, 1961, the underwriters named below have severally agreed to purchase, and the company has agreed to sell to them severally, in the respective amounts set forth below, an aggregate of $150,000,000 principal amount of debentures:

	Amount		Amount
Morgan Stanley & Co.	$10,000,000	Clement A. Evans & Co. Inc.	$125,000
A. C. Allyn & Co. Inc.	900,000	Fahey, Clark & Co.	200,000
Almstedt Brothers	125,000	Faulkner, Dawkins & Sullivan	125,000
American Securities Corp.	750,000	Ferris & Co.	125,000
A. E. Ames & Co. Inc.	400,000	The First Boston Corp.	3,000,000
Anderson & Strudwick	125,000	First of Michigan Corp	750,000
Arnhold & S. Bleichroeder Inc.	300,000	First Securities Corp.	150,000
Auchincloss, Parker & Redpath	400,000	First Southwest Co.	125,000

General Portland Cement Co.—Net, Sales Down—

The Chicago company announced on Feb. 13 that its earnings were $9,950,600 after taxes in the year ended Dec. 31, 1960, compared with $12,057,300 for the previous year.

Earnings were equal to $1.87 per share as against $2.26 per share in 1959, based on 5,335,051 shares outstanding at the end of 1960. Net sales were $58,761,500 for the current year as against $67,191,700 in 1959.

General Portland operates ten cement plants in the South and Midwest, with an annual productive capacity of 25,550,000 barrels. —V. 192, p. 1705.

General Precision Equipment Corp.—Net, Sales Up—

James W. Murray, Chairman of the Board and Chief Executive Officer, stated on Feb. 9 that preliminary figures for 1960 showed a substantial increase in sales and earnings over 1959. Sales for 1960 were up more than 13% and earnings were up over 31% per common share.

Both sales and earnings are expected to show continued improvement for 1961. Backlog at the end of 1960 remained at a healthy $185,000,000, equal to 1959.

Earnings for the year ended Dec. 31, 1960, were over $5,300,000, or $3.46 per share of common stock, after deducting dividends for preferred and preference stocks. This compares with 1959 earnings of $4,198,200, or $2.63 per share.

Sales for 1960 reached a record high exceeding $244,000,000, compared with 1959 sales of $215,588,430.

Earnings for the fourth quarter increased to approximately $1,690,000, equal to $1.18 per common share, up from $1,154,572, or $.72 per common share reported for the corresponding period in 1959. Net sales for the fourth quarter exceeded $67,800,000, compared with $59,168,125 for the equivalent period in 1959.—V. 193, p. 105.

General Steel Castings Corp.—New Order—

The Ganite City, Ill., corporation has received an order amounting to approximately $1,300,000 for cast armor for M60 medium tanks from Chrysler Corp., Charles P. Whitehead, President, announced on Feb. 14.

Deliveries on the new contract will follow those now being made on the $5,000,000 order received in June, 1960. Receipt of the new order extends delivery schedules into August of 1961.—V. 192, p. 2508.

General Time Corp.—Shows Loss—

The corporation had record sales of $60,508,356 in 1960 but sustained a net loss of $721,238, after giving effect to tax credit.

The 1960 sales volume showed an increase of 2.2% compared with sales of $59,191,987 in 1959. Defense and foreign sales increased but sales of domestic consumer products were approximately the same as in 1959. The loss of $721,238 compared with a 1959 profit of $1,819,729, or 90 cents per share, on the 2,011,608 shares of common stock outstanding at Dec. 31, 1960.

D. J. Hawthorne, president, stated that operations in 1960 were adversely affected principally by the cost of developing and expanding its Transacter business and the decline in general business activity in the last nine months of 1960. Other factors included a cutback in production rates required to achieve an inventory reduction of consumer products, higher sales and advertising expenses and the increased cost of material and labor.—V. 192, p. 401.

Ginn & Co.—Record Sales—

Homer C. Lucas, President of Ginn & Co., reports sales for 1960 of $27,088,301 the highest in history. The corresponding figure for 1959 was $26,384,825. On the basis of preliminary figures net income after taxes for 1960 was $2,467,003 as compared with $2,298,905 for 1959. The net income for 1960 was also the highest in its history. This represents a net profit of 88 cents a share in 1960 as compared with 82 cents a share in 1959.

Mr. Lucas reports sales for January, 1961, as over 60% higher than those for January, 1960. A substantial portion of this increase represents shipments under its California State contract.

Ginn & Co. announced recently that on Jan. 30 its board of directors declared a dividend of 10 cents a share payable on March 1 to stockholders of record on Feb. 15.—V. 192, p. 2222.

Golden Crest Records, Inc.—Class A Common Offered —Pursuant to a Feb. 14 offering circular, an underwriting group consisting of Dean Samuas & Co. Inc. and

itized for FRASER
://fraser.stlouisfed.org/

Nassau Securities Service, both of New York City, and Valley Forge Securities Co., Inc., Philadelphia, publicly offered 85,000 shares of this firm's 10¢ par class A common stock at $3 per share.

BUSINESS—The Golden Crest operation is a completely integrated process encompassing every step in the manufacture of a phonograph record. Every operation, from the inception of the idea for a recording to the final shipment of the finished product can be performed on its premises. The record is recorded in its own studios, mastered on its mastering facilities, pressed on its own pressing equipment, and shipped from its modern, shipping department. Labels and album covers are printed in its own printing department, records are tested and packaged in its labeling and packing departments, and, finally, advertising material is sent out utilizing its own addressographing equipment to its mailing list.

PROCEEDS—In the event all the shares of common stock are sold, the estimated net proceeds to the company, after payment of the underwriter's commission and expenses, will aggregate $205,000. It is anticipated that the application of proceeds will conform to the approximate order of priority as set forth in the schedule below and in the approximate amounts shown:

(1) $15,000 for expense of offering.
(2) On Nov. 1, 1960 the company entered into an agreement with Isidore Lacher and Robert Posnick to redeem their respective 549 and 472 shares of the second preferred stock of Shelley Products, Ltd., par value $10 per share for $5,490 and $4,720, an aggregate of $10,210 out of the proceeds of the offering. The respective costs to Lacher and Posnick for the second preferred stock being released is $5,490 and $4,720.
(3) $60,000 reduce outstanding current liabilities.
(4) $45,000 sales promotion and advertising.
(5) $25,000 talent development and publicity.
(6) $20,000 research and development.
(7) $29,790 working capital.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

	Authorized	Outstdg.
Common stock, class A (par 10c)	500,000	*88.333
Common stock, class B (par 10c)	500,000	45 000
Common stock, pur. warrants on class A com.	40,000	40,000

*This figure does not include 40,000 shares of class A stock to be issued as and if the holders of warrants, accept their right to purchase the common stock.—V. 192, p. 1815.

(B. F.) Goodrich Co.—Secondary Offering—The completion of a secondary offering of 123,900 shares of this company's common stock through Dean Witter & Co., San Francisco, Calif., and associates was reported on Feb. 15, 1961. Proceeds from the sale went to the selling stockholders.—V. 193, p. 378.

Goodyear Tire & Rubber Co.—1960 Results—

The company had sales of $1,550,940,519 and earnings of $71,022,877 in 1960, the second highest year in the history of the company, E. J. Thomas, Chairman of the Board, announced on Feb. 14.

The 1960 performance of the world's largest rubber company was exceeded only by that of the record-breaking year 1959 when sales of $1,579,237,984 and earnings of $76,008,956 were reported.

Net income in 1960 was equal to $2.10 per share as compared with $2.24 per share in 1959, based on 33,884,545 common shares outstanding on Dec. 31, 1960. Before a non-recurrent income tax credit included in 1959, the per-share earnings for that year were equivalent to $2.11 on the same number of shares.

Although fourth quarter sales in 1960 for Goodyear totaled $366,413,971 as compared with $375,736,362 in the same quarter of 1959, earnings for the 1960 last quarter increased to $18,123,320, compared with $17,091,114 in 1959.

The company's assets at year-end totaled $1,011,201,115, the first time the assets of any rubber company have passed the billion-dollar mark, Mr. Thomas pointed out.

Foreign subsidiaries contributed $25,385,383 to Goodyear's consolidated net income in 1960, as compared to $23,116,732 in 1959.

After Aug. 31, 1950, operations of Goodyear's Cuban plant, which was seized by the Cuban Government, have been excluded from consolidated income. The expropriation resulted in a net charge, after taxes, of $2,411,145 to the company's reserve for foreign investments.

During 1960, capital expenditures for all purposes totaled $74,553,746, as compared with $55,640,633 during 1959.

Working capital was increased to $521,520,071 from $510,392,427 and the ratio of current assets to current liabilities was 5.1 to 1 at year's end.

Mr. Thomas said that 1960 was a very competitive year with a generally lower level of business activity throughout the industry. Commenting on 1961, he predicted there will be reduced shipments of tires and other products as original equipment for the automobile industry, but that the tire replacement market should prove to be a little larger. The market for rubber products abroad, he said, should continue to grow.

Mr. Thomas reported that work was begun during 1960 on a new $20,000,000 plant near Beaumont, Texas, to produce two new synthetic rubbers—"Natsyn," which duplicates natural rubber; and "Budene," an extender of either Natsyn or natural rubber. He said these new rubbers will help stabilize rubber prices and assist in making the United States independent of foreign sources of supply for natural rubber, if necessary. The Beaumont plant will go into production this year.

Highlight of the company's foreign expansion programs in 1960 included the opening of new tire plants at Amiens, France, and at Medicine Hat, Alberta, Canada. In mid-1961, a new tire plant near New Delhi, India, is scheduled for completion.—V. 192, p. 1815.

Grand Union Co.—Sales Gain 1.8%—

Thomas C. Butler, President of the company, announced that the Eastern food chain's sales for the four-week period ended Jan. 28, 1961 totaled $45,579,132, compared with sales of $44,765,705 in the corresponding period of 1960, an increase of 1.8%.

For the first 48 weeks of Grand Union's current fiscal year, through Jan. 28, sales were $556,820,937, compared with $560,070,138 in the corresponding period a year ago, a decrease of 0.6% (six-tenths of one per cent).—V. 193, p. 201.

Grayson-Robinson Stores, Inc.—Sales Up—

Maxwell H. Gluck, Chairman of this New York-based women's and children's apparel chain stated that sales for January were up 18.44% over sales of January, 1960. The January, 1961, sales totaled $4,400,579 as compared with $3,715,210 for January a year ago, he said.

For the first six months of the 1961 fiscal year, Aug. 1, 1960 to Jan. 31, 1961, sales totaled $38,[illegible] compared with $34,867,395 for the same period last year, Mr. Gluck noted.

Grayson-Robinson and its subsidiaries operate 249 stores in 197 cities in 36 states. In addition, Grayson-Robinson operates four photographic equipment stores, including Willoughby's in New York and Peerless in New York, Pittsburgh and Philadelphia.

Sales of Grayson-Robinson are expected to aggregate more than $100 million in 1961, Mr. Gluck said. The sales volume for the fiscal year ended July, 1960 was $94 million.—V. 193, p. 378.

(H. L.) Green Co., Inc.—Sales Lower—

Period End. Jan. 31—	1961—Month—1960		1961—12 Mos.—1960

Hammond Organ Co.—To Acquire—

The Chicago company will acquire Gibbs Manufacturing & Research Corp., a privately owned electronics manufacturing and research corporation of Janesville, Wis., about March 1, 1961, according to an agreement that has been signed by the two companies.

Stanley M. Sorensen, President of Hammond Organ, made the acquisition announcement on Feb. 14.

The official told stockholders the purchase will be made with presently authorized but unissued shares of Hammond Organ Co. stock in the amount of approximately $1,600,000.

Gibbs products include a variety of precision electronic and electrical items for military and commercial use. These include missile checkout systems, frequency regulated power supplies, and items of ground checkout equipment. Mechanical timing devices, produced comprise: clocks, timers and escapements, plus crystal and controlled frequency standards and tuning fork control timing devices. In addition, the company has engaged in a variety of developmental research work in electronic weapons, tactical television, precision timing, application of radio and solid state techniques and missile guidance. Gibbs also has engaged in basic organ research.—V. 193, p. 602.

Harvey Aluminum (Inc.)—Sales, Net Up—

Sales and earnings rose in the first quarter of the current fiscal year, Lawrence A. Harvey, Board Chairman, has reported.

For the three months ending Dec. 31, the aluminum producer reported sales of $18,643,233, with a net income of $1,189,079, equal to 25c a share. For the like period the previous year, net income was $971,401 or 20c a share on sales of $14,699,846 based on 4,750,000 shares outstanding. (The company has had public stockholders only since June 21, 1960.)

Increased production facilities, new marketing outlets, and broader variety of products enabled the company to build its sales and profits, Mr. Harvey said. The outlook for the remainder of the fiscal year appears promising, he added.—V. 192, p. 2222.

Harvey Boat Works, Inc.—Name Change—

See Harvey Corp., below.—V. 191, p. 1668.

Harvey Corp.—Grants Stock Option—New Name—

See C. F. C. Funding, Inc., above.

Hat Corp. of America—Stock Purchase Agreement—

Bernard L. Salesky, President of Hat Corporation of America, announced on Feb. 8 that a final agreement had been reached for the purchase of the stock of Fashion Park, Inc. with the holders of approximately two-thirds of the outstanding stock.

The purchase price is $50 per share. All minority shareholders are being given the opportunity to deposit their shares for sale at the same price. The total purchase price, if all shares are acquired, will be $2,968,350.

Hat Corporation's obligation to purchase the shares is contingent upon the holders of 90% or more of the total outstanding agreeing to sell.—V. 193, p. 201.

Helene Curtis Industries, Inc.—To Redeem Pfd. Stock

The corporation has called for redemption on March 7, 1961, all of its outstanding 50 cent cumulative preferred stock at $11 per share, plus accrued dividends.—V. 193, p. 376.

Hoffman Electronics Corp.—Shows Loss—

A net loss of $961,000 on record sales of $54,120,000 for 1960 was reported on Feb. 9 by this corporation in a letter to shareholders from H. Leslie Hoffman, President of the Los Angeles-based firm.

"The loss," Mr. Hoffman explained, "resulted from excessive costs on certain military contracts, inventory write-down on television due to chaotic marketing conditions, and certain reserves your management elected to establish."

Still subject to year-end audit adjustments, the preliminary analysis of 1960 showed that the $54,120,000 sales were 17% over the 1959 level of $46,359,000. The $961,000 loss, after provisions for Federal income tax refunds, represents 63 cents a share on the 1,529,054 common shares outstanding on Dec. 31, 1960, compared to a profit of $1.31 a share on 1,513,955 shares outstanding at the end of 1959.

In a more reassuring vein, Mr. Hoffman told the shareholders that the problems encountered during 1960 have been resolved. "It is now reasonable to look forward to a continued increase in sales volume and, more importantly, a profit level consistent with the company's results prior to 1960," he added.—V. 190, p. 1420.

Illinois Bell Telephone Co.—Earnings—

Period End. Dec. 31—	1960—Month—1959		1960—12 Months—1959	
	$	$	$	$
Operating revenues	46,692,488	44,248,908	541,252,298	507,745,695

—V. 192, p. 201.

Inland Container Corp.—Reports Earnings—

Preliminary sales for the year ended Jan. 1, 1961 were $93,300,000, which exceeded the prior year and previous high of $92,639,000. Inland is one of the nation's largest producers of corrugated paper board. Preliminary net earnings after taxes for the year were $6,500,000, an increase of approximately 4% over the $6,258,000 in 1959. The 1960 earnings include a nonrecurring capital gain from the sale of property of $202,000. After deduction of dividends on preferred stock which was outstanding for the full year, the 1960 earnings on common stock were $2.94 per share including $0.10 per share attributable to the capital gain. Earnings for 1959 were $2.94 per common share. In both years, earnings are stated on the basis of the 2,025,400 shares of common stock currently outstanding.—V. 192, p. 1711.

Interchemical Corp.—Sales Up, Net Down—

Net sales of this manufacturer of chemical coatings were up approximately 3% from 1959 and earnings were 13.5% lower than the previous year, according to preliminary figures released on Feb. 15 by H. B. Woodman, President.

Net sales for 1960 amounted to $125,791,000 compared with $122,282,000 in 1959. Net earnings last year were $5,698,000 compared with $6,591,000 for 1959 or $2.63 per share on 2,041,818 common shares, the average number outstanding during 1960 versus $3.10 per share on the 2,024,319 outstanding shares at the end of 1959.

While Interchemical's sales for 1960 exceeded those for 1959 by $3,200,000, the greater part of this increase occurred during the first quarter of the year. Sales for each of the last three quarters were about the same as those for the corresponding 1959 quarters, Mr. Woodman said. He added that during the latter part of 1960, earnings decreased from the preceding year's level as a result of narrowed margins between increased costs and selling prices.

Earnings before taxes were $11,524,000 for 1960 against $13,399,000 for 1959, while Federal income taxes were $5,826,000 and $6,808,000, respectively.—V. 191, p. 1669.

International Telephone & Telegraph Corp.—To Acq.

Agreement has been reached for the acquisition by International Telephone & Telegraph Corporation of Jennings Radio Manufacturing Corporation, San Jose, Calif., a firm active in the development and manufacture of high-power vacuum capacitors and switches.

Acquisition of the company will broaden ITT's position as a manufacturer for and supplier to the electrical and electronic industries, public utilities, the communications industry, the military services, space activities and the atomic energy field, according to management.

The agreement, approved on Feb. 8 by the boards of directors of both companies, was announced by H. S. Geneen, President of ITT, and Calvin K. Townsend, Chairman, and Jo-Emmet Jennings, President, controlling shareholders of the West Coast corporation.

The purchase price was not disclosed, but the agreement involves an exchange of ITT stock for the assets of Jennings.—V. 193, p. 494.

Irving Oil Co. Ltd.—To Redeem Debentures—

The corporation has called for redemption on March 1, 1961, all of its outstanding 5¼% sinking fund debentures, series A due May 31, 1967 at 102.20%. Payment will be made at any branch in Canada (Yukon Territory excepted) of the Bank of Nova Scotia.—V. 192, p. 1914.

Kleer-Vu Industries, Inc.—Common Stock Offered—Public offering of 115,000 shares of the common stock of Kleer-Vu Industries, Inc. was made on Feb. 14 at a price of $3.50 per share by Paul Eisenberg Co. and Godfrey, Hamilton, Magnus & Co. Inc.

BUSINESS—Kleer-Vu Industries, Inc., with headquarters in New York City, is primarily engaged in the manufacturing of acetate and polyester transparent accessories and other related items. The company's principal plants are located in Brownsville, Tenn.; Caguas, Puerto Rico; and Ardmore, Pa.

PROCEEDS—Net proceeds from the sale of the shares will be used by the company to retire a Small Business Administration loan. It also plans to purchase additional experimental and laboratory equipment; enlarge plant facilities and hire more engineers for the development of its present line of ultrasonic sealer machines; and to purchase additional machinery and equipment for the Brownsville and Puerto Rico plants. Balance of the funds will be added to working capital for possible expansion of product lines.

EARNINGS—For the nine months ended Sept. 30, 1960, the company reported sales of $1,848,066 and net income of $72,087 equal to 34 cents per common share.—V. 193, p. 8.

Knapp & Tubbs, Inc.—Files for Secondary—

Knapp & Tubbs, Inc., Merchandise Mart, Chicago, filed a registration statement with the SEC on Feb. 13, covering 150,000 outstanding shares of common stock, to be offered for public sale at $1 per share by the present holder thereof. The offering is to be made on an all or none basis through underwriters headed by Roman & Johnson, who will receive a 40 cent per share commission and $5,000 for expenses. The registration statement includes an additional 15,000 shares which were sold in January 1961 to U. Grant Roman, partner of the principal underwriter, by stockholders of the company at $1 per share. He has sold 5,000 of such shares to Peter B. Atwood at $1 per share as a finder's fee.

The company was formed in December 1960 under Delaware law for the purpose of facilitating the reincorporation of Knapp and Tubbs, an Illinois corporation, and the corporation name was changed to Knapp & Tubbs, Inc. The reincorporation was accomplished by a plan of merger with the company, and at the same time the 480 outstanding shares of the Illinois company were exchanged on the basis of 500 new shares of the company for one share of the Illinois company, so that effective Dec. 31, 1960 there were 240,000 common shares outstanding. The company has been engaged exclusively in the business of selling at wholesale "fine quality, distinctive home furniture" and interior decorative furnishings and art objects.

Of the outstanding 240,000 shares of common stock, First National Trust and Savings Bank of San Diego, as Trustee, holds 150,000 shares (69%) in the Byron H. Knapp Sr. Trust for the benefit of his four children, three of whom are shareholders of the company. The trustee proposes to sell the shares pursuant to the termination of such Trust by court action in December 1960. Byron H. Knapp, Jr., President, Ruth K. Weirick, and Helen K. Rockwell own 25,000 shares each, and management officials as a group 40,000 shares.

Knickerbocker Fund—Proposes Offering—

The Knickerbocker Fund, 20 Exchange Place, New York, filed a registration statement with the SEC on Feb. 9, 1961, covering 500,000 shares of beneficial interest in the Fund.

Kroger Co.—Annual Report—

Net income for 1960 was $23,478,029 after taxes, President Joseph E. Hall reported on Feb. 13, in the retail food company's annual report to shareowners. This compares with net income of $25,516,920 after taxes in 1959. Provisions for Federal income taxes totaled $24,740,000 for 1960.

Sales of $1,870,289,637 in 1960 (52 weeks) were about ½% lower than sales for the comparable weeks in 1959, and 2% lower than sales of $1,911,902,467 in the 1959 record year (53 weeks), Mr. Hall reported.

Earnings per share for 1960 were $1.87 on the 12,547,044 shares outstanding at the year-end. This compares with 1959's record net income of $2.06 per share and $1.76 per share in 1958. A LIFO inventory charge of five cents per share was made against 1960 earnings, as compared to one cent in 1959.

Several factors accounted for the decrease in earnings, Mr. Hall said. The extra week in 1959—a 53-week Kroger year—was quite profitable because many of the overhead charges are accrued on a 52-week basis. Sluggish business conditions, labor disturbances in several areas, and intensified competition adversely affected results, Mr. Hall reported.

The common shareowners' equity was $14.75 per share at year-end, compared to $13.97 for 1959. Capital expenditures in 1960 for all purposes totaled $37,619,555. This includes stores, distribution centers, manufacturing, transportation equipment and miscellaneous capital improvements. Capital expenditures in 1959 totaled $32,997,052.

Eighty large new stores were opened in 1960 and 52 stores were remodeled. In addition, Kroger acquired 10 Food Town stores in the Washington, D. C., area in 1960. During the year, 111 older small stores were closed. At year-end, there were 1,372 food stores in operation, as compared with 1,393 at the end of 1959. The average size of new stores opened was 18,100 sq. ft. Thirteen of these stores were Kroger-developed and financed.

Kroger entered a related retail field of business in the Fall of 1960 with the purchase of Sav-On Drugs, Inc., a seven-store firm operating primarily in New Jersey. Sav-On President James P. Herring joined Kroger as Vice-President in charge of the newly created Drug Division.

Modernization of Kroger's distribution centers is nearing completion. A new distribution center for the Wyatt Division in Dallas, Texas, was opened in 1960 and centers at Columbus, Ohio, and Charleston, West Virginia, were enlarged. With completion of a new distribution center at Chicago in 1961, Kroger will have modern one-floor warehouses in all but two of its retail divisions.

A highly efficient regional bakery was opened at Indianapolis in 1960 and another regional bakery was opened in Cleveland early this year. New flour-handling facilities were installed at the Columbus bakery. A modern egg-grading and packing plant is under construction at Coldwater, Michigan. A modern warehouse, the first unit of a manufacturing center, is being designed for construction on a company-owned site at Springdale, Ohio, just north of Cincinnati. Mr. Hall reported that the Kroger Employees' Savings and Profit Sharing Plan owned 300,627 shares of Kroger common stock at year-end, making employees collectively the largest single shareowner in the company. Of all eligible employees, 95.4% are participating in the plan.

Mr. Hall said Kroger's rebuilding program has been largely completed and the organization strengthened. "The company is ready to take full advantage of the improved economy ahead," he added.—V. 193, p. 380.

Landmark Corp., Fort Wayne, Ind.—Files With SEC—

The corporation on Jan. 27, 1961 filed a letter of notification with the SEC covering 30,000 shares of common stock (par $5) to be offered at $10 per share, through First Securities Corp., Fort Wayne, Indiana.

The proceeds are to be used for construction, cost of land, office and equipment and working capital.

Lee Filter Corp.—Record Sales—

This Edison, N. J., independent manufacturer of oil, air and gasoline filters reported sales for the fiscal year ended Nov. 30, 1960, of $2,353,110, an increase of more than 12% over the prior year's sales of $2,092,854. Lee Filter recently declared a dividend of 10 cents a share on the 470,141 shares of common stock outstanding.

Leo W. Weiss, President of Lee Filter, said the company incurred some $72,000 in non-recurring expenses in the process of consolidating manufacturing and administrative operations in a modern, new plant on a 28-acre site in Edison last February, in perfecting distribution, in developmental activity and in other one-time expenses. This held net income for the 1960 year to $95,186, compared to $132,127 in fiscal 1959, he said.

"Our production efficiency has been greatly increased by the move," Mr. Weiss said. "The rising trend of our sales forecasts a greatly improved profit picture for 1961."—V. 192, p. 703.

Lee Telephone Co.—Common Offered—Pursuant to a Feb. 9, 1961 offering circular, this company is offering stockholders the right to subscribe to 19,031 common shares (par $10) at $15.75 per share on the basis of one new share for each 11¼ shares held of record Dec. 20,

Digitized for FRASER
http://fraser.stlouisfed.org/

1960, with rights to expire Feb. 28, 1961. No underwriting is involved.

BUSINESS—The company, of 127 East Church Street, Martinsville, Va., is engaged in rendering general telephone service, consisting of both local and toll service, throughout its service areas in the Commonwealth of Virginia and in the State of North Carolina. Such service is rendered through 15 automatic dial exchanges, 10 of which are located in Virginia and 5 of which are located in North Carolina.

Among other facilities necessary to its telephone business, the company owns its toll lines from a point on the Roanoke County Line, on its Northern boundary, to a point near the City Limits of Winston-Salem, North Carolina on its Southern boundary, a distance of approximately 110 miles, and from a point on State Highway No. 58, approximately seven miles west of Danville, on its Eastern boundary, to a point some 25 miles West of Stuart, on its Western boundary, a distance of approximately 75 miles. Other toll lines interconnecting its various exchanges are also owned and interconnections are maintained at various points with the toll facilities of The Chesapeake and Potomac Telephone Company of Virginia and Southern Bell Telephone and Telegraph Company, two of the operating companies in the Bell System.

PROCEEDS—The public demand for expanded and extended telephone facilities has been such for a number of years, and continues to be such as to require substantial amounts of new capital from time to time. Over the past three and one-half years, the company has procured through long-term financing approximately $2,000,000 in new capital, all of which has been devoted to the expansion of telephone plant and/or to the refunding of outstanding securities, the proceeds of which had theretofore been devoted to construction purposes.

Since Dec. 1, 1959, the company has been financing its construction program through short-term bank loans which aggregated $750,000 at Oct. 31, and which are estimated to approximate $950,000 by Dec. 31, 1960. In order to make available a portion of the new capital currently needed and to effect a better balance in its capital structure, as between debt and equity capital, prior to negotiating for additional debt capital at a subsequent date, the company now proposes to offer 19,031 additional shares of its $10 par value common stock at a price of $15.75 per share, or an aggregate offering price to the public of $299,738.25.—V. 193, p. 202.

Lehigh Valley Coal Co.—Tenders for Bonds—

The Fidelity-Philadelphia Trust Co., Philadelphia, Pa., will until noon (EST) on Feb. 24, 1961 receive tenders for the sale to it of first and refunding sinking fund 5% bonds, due Feb. 1, 1964, to an amount sufficient to exhaust the sum of $277,033 at prices not to exceed 100¾% plus accrued interest.—V. 191, p. 2519.

Lifetime Pools Equipment Corp.—Common Stock Offered—Pursuant to a Dec. 27, 1960 prospectus, Pacific Coast Securities Co., San Francisco 4, Calif., and Grant, Fontaine & Co., Oakland 12, Calif., publicly offered 175,000 shares of this firm's 10¢ par common stock at $2.75 per share.

BUSINESS—Lifetime Pools Equipment Corp. was organized under the laws of the State of New York on Aug. 4, 1958 by persons unaffiliated with the present management which acquired control of the company on Jan. 26, 1959. The company produces and markets a complete line of swimming pool equipment. It also produces part of the requirements of another company for fiber glass swimming pools in a wide variety of sizes. A portion of the company's products are manufactured in its own plant while other products are manufactured for the company by independent contractors using the company's molds and designs. During 1959 the company moved its plant and principal offices from Mineola L. I., N. Y., to Renovo, Pa. The company continues to maintain sales offices in Mineola.

PROCEEDS—The net proceeds of approximately $412,259 (after deduction of estimated expenses) to be received by the company from the sale of stock will be applied approximately as follows: (1) $125,000 to the purchase of machinery and equipment (2) $200,000 to purchase of raw materials, parts and components; (3) $40,000 to sales and advertising promotion; (4) $30,000 to engineering and development; and the balance will be added to working capital.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

*The certificate of incorporation of the company was amended on June 6, 1960 to increase the authorized capital from 500,000 shares of common stock, par 10 cents, to 1,500,000 shares of common stock, par 10 cents.

†Includes aggregate of 17,500 shares reserved for issuance upon the exercise of warrants.—V. 192, p. 115.

Ling-Temco Electronics, Inc.—Acquires—

Ling-Temco Electronics, Inc., has acquired National Aeronautics & Space Engineering, Inc., a Los Angeles consulting firm specializing in missile base engineering.

The acquisition was for an undisclosed consideration.

Clyde Skeen, Ling-Temco Executive Vice-President and General Manager, said that NASE will add significant missile systems engineering knowledge to LTE participation in activation and management of missile bases.

Ling-Temco recently announced a contract to monitor and report construction progress of Titan I ballistic missile bases, and is active in on-base aircraft maintenance at McGuire Air Force Base, N. J.

NASE personnel were active in the development phases of ballistic missile systems such as Thor, Atlas and Titan and have been consultants to industry and government agencies. They provided technical supervision for contractors at the Warren and Lincoln Air Force Bases on the Atlas missile sites.—V. 193, p. 495.

MacArthur International Minerals Co.—Stock Offering Questioned—

The SEC on Feb. 16 issued a warning to United States investors against the purchase of stock of MacArthur International Minerals Co., Inc. being offered from the Philippine Islands and Guam by that company and by Morton F. Meads and T. Roney Williamson.

No filings have been made with the Commission for the MacArthur International Minerals stock involved in this promotion and no exemption from the registration requirement of the Securities Act of 1933 appears to be available. The requirement for registration of securities offered for public sale in the United States applies to foreign as well as domestic companies. Registration is designed to provide disclosure of financial and other information with respect to the issuing company and its securities so as to enable investors to make an informed and realistic evaluation of the worth of securities offered for public sale. Failure to comply with the registration requirements in the offering and sale of securities may deprive investors of much or all of such information, and it facilitates false claims concering such securities. Thus, investors are denied essential protections which the Securities Act was designed to provide.

Maremont Automotive Products, Inc.—Appointments

The Manufacturers Trust Co. has been appointed registrar for the new 6% 1960 series of preferred stock, and The Chase Manhattan Bank has been appointed transfer agent of the preferred 6% series of 1960 (par $100) stock of the corporation.—V. 192, p. 2509.

McNeil Machine & Engineering Co. —To Redeem Preferred Stock—

The company has called for redemption on April 1, 1961, all of its outstanding 5% cumulative convertible preferred stock at $45 per share, plus accrued dividends.

Preferred stock is convertible into common stock to March 27, 1961, inclusive, at the rate of two common shares per one preferred share.

Microdot Inc.—Record Highs—

Sales and profits for the first quarter of the current fiscal year were the highest for any three-month period since the company's inception, president Robert S. Dickerman announced on Feb. 3.

"Microdot," he said "is on the threshold of the largest growth year we have yet experienced. We anticipate accelerated growth throughout 1961."

For the three months ended Dec. 31, 1960, sales totaled $1,039,060, compared to $759,975 for the corresponding period a year earlier. Net income after taxes amounted to $72,755 as against $67,310 last year.

On a per share basis, earnings in the first quarter of fiscal 1961 were equal to 21 cents on 337,695 shares, the average number outstanding during the period. For the comparable quarter a year ago, earnings were equal to 28 cents a share based on 241,000 shares. The increase in common shares reflects the public sale of 60,000 shares in April, 1960 and the issuance of stock in acquiring two companies late in 1960.

Included in the first quarter figures are the operating results of Microtest, Inc. since Oct. 31, 1960 and those of Lerco Electronics, Inc. since Nov. 30, 1960. The figures do not reflect the operations of Nacimco Products and Spectralab Instruments Co. which were acquired effective Jan. 1, 1961.

Mr. Dickerman stated that the company's acquisition program is providing Microdot with compatible products within its existing line and new products and capabilities for its growth in the telemetry instrumentation and systems field. "We will now concentrate on the development and integration of these acquired companies," he said.

An outstanding development during the first quarter, Mr. Dickerman said, was the introduction in December of the company's new Multi-Pin Connector line—"a product which is forcing the industry to change its thinking about microminiature coaxial and power connectors."—V. 193, p. 381.

Microwave Corp. of America—Common Stock Offered—Pursuant to a Feb. 7 offering circular, E. T. Andrews, 75 Pearl St., Hartford, Conn., publicly offered 100,000 shares of this firm's 10¢ par common stock at $2.50 per share.

BUSINESS—Microwave was incorporated under the laws of the State of Delaware on April 27, 1960 for the purpose of engaging in research, development, production and sale of microwave components and hardware, waveguide equipment, and associated componentry for missiles, communications, and space exploration.

The corporation occupies a one story frame building of about 9,000 square feet located in the Old Colony Industrial Park, Stamford, Conn., about four blocks from the New Haven railroad station. It is leased for a term of two years at an annual rental of $6,000 with an option to renew for two years.

PROCEEDS—After deducting offering expenses, estimated at not more than $10,500, the corporation proposes to use such proceeds substantially, as follows, in the indicated order of priority:

(1) Approximately $22,000 for capital equipment consisting of laboratory equipment, jigs, and fixtures of a non-perishable nature.

(2) Approximately $11,000 for small tools, cutters, gauges, and other perishable tooling.

(3) Approximately $9,000 for deposits on equipment leases for equipment such as brazing furnaces, lathes, milling machinery and power supplies.

(4) Approximately $17,000 for selling and promotion consisting, in part, of traveling, advertising and promotional literature.

(5) Approximately $13,000 for inventory consisting, in part, of tubing, bar stock, flat stock and finished parts.

(6) The balance of $130,500 to be added to working capital.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

	Authorized	Outstanding
Common stock (par 10¢)	*1,000,000 shs.	215,300 shs.

*Includes 40,000 shares reserved for issuance under Restricted Stock Option Plan for Employees and 10,000 shares reserved for issuance upon exercise of warrants.—V. 192, p. 1914.

Milliken Lake Uranium Mines Ltd.—To Redeem Bds.

The corporation (formerly Rio Algom Mines Ltd.) has called for redemption on March 15, 1961, all of its outstanding 6% first mortgage sinking fund bonds due Dec. 15, 1952 at 101½% plus accrued interest. Payment will be made at any branch in Canada (Far North expected) of the Imperial Bank of Canada.—V. 188, p. 1046.

(Philip) Morris Inc.—Record Highs—

For the seventh successive year, Philip Morris Inc.'s sales and earnings increased over those of the previous year. In 1960 Philip Morris Inc's earnings per share were 7% over 1959 on a sales increase of 1.6%.

Joseph F. Cullman 3rd, president of Philip Morris Inc., announced on Feb. 2 that consolidated net income of the diversified cigarette company, which also has worldwide overseas operations, amounted to $26,984,000 which, after provision for preferred stock dividends, is equal to $5.44 a share on the 3,671,632 shares of common stock outstanding at the close of 1960. This compares with consolidated net income of $19,590,000, equal on the same basis to $5.08 a share on the 3,656,281 outstanding shares of common stock on Dec. 31, 1959.

Consolidated net sales of the cigarette and tobacco company which manufactures Marlboro, Parliament, Alpine, Benson & Hedges, Philip Morris regular and the new king size Philip Morris Commander cigaretttes, amounted to $506,412,000 for the year ended Dec. 31, 1960.

This set a new peak and marked an increase over the previous year when consolidated net sales were $498,456,000. Mr. Cullman also noted that this is the first time in Philip Morris' history that sales crossed the $500 million mark.

The Philip Morris President said "the marked improvement in cigarette sales and earnings more than offset the decline in sales and earnings of our non-tobacco subsidiaries. Marlboro and new Philip Morris Commander showed special strength, developing a sharp upward trend in the fourth quarter, and our Overseas Operation enjoyed another year of sales growth, market development and expansion."

Mr. Cullman noted that all figures are restated for the previous year to reflect the acquisition in 1960 of A.S.R. Products, a major producer of razors and blades in the U. S. and England under the trademarks of Gem, Pal, Personna and Ever-Ready as well as the previous acquisitions of Milprint, Inc., flexible packaging subsidiary, and Polymer Industries, Inc., the company's small packaging adhesives and textile chemicals subsidiary.—V. 192, p. 9.

National Distillers & Chemical Corp.—New Plant—

The corporation will begin construction this spring of a 60,000,000-pound-per-year linear polyethylene plant adjacent to the company's conventional polyethylene plant at Houston, Texas, according to an announcement by Dr. Robert E. Hulse, National's Executive Vice-President and General Manager of its U. S. Industrial Chemicals Co. division. The new plant, which will mark National's entry into the manufacture of linear polyethylene, is scheduled for completion in the fourth quarter of 1962.

Dr. Hulse stated, "Recently there has been considerable discussion about over-capacity in the linear polyethylene field. We would not be building this important new plant if we did not believe that over-capacity is a short-term problem and that linear polyethylene is growing in importance. Every market projection we have made indicates that this versatile plastic will be in short supply by early 1963. If we are going to be ready for that, we have to start now."—V. 193, p. 604.

Natural Gas Storage Co. of Illinois — Private Placement—Feb. 17, 1961, it was reported that Dillon, Read & Co. Inc., New York City, had sold privately $6,000,000 of this firm's first mortgage bonds due 1980.

The company, whose address is 122 So. Michigan Avenue, Chicago, Ill., is jointly owned by Peoples Gulf Coast Natural Gas Pipeline Co. and Natural Gas Pipeline Co. of America. Its main business is to store and deliver gas for utility customers of its parent companies. —V. 191, p. 2417.

Navajo Freight Lines, Inc.—Common Stock Offered—Pursuant to a Feb. 10, 1961 prospectus, Lowell, Murphy & Co., Denver, Colo., offered publicly 61,000 shares of common stock (par $1) of Navajo Freight Lines, Inc., at $12 per share.

BUSINESS—The company, of 1205 So. Plate River Drive, Denver, Colo., is in the transcontinental freight hauling business and will use the proceeds to repay bank loans.

New York State Electric & Gas Corp.—Partial Red.—

The corporation has called for redemption on March 31, next, 88 shares of its 4.50% cumulative preferred stock at the sinking fund price of $103.25 per share plus accrued dividends. Payment will be made at the Chemical Bank New York Trust Co., 30 Broad St., New York 15, N. Y.—V. 192, p. 1304.

Nopco Chemical Co.—Private Note Sale—Feb. 16, 1961, it was reported that White, Weld & Co., New York City, had placed privately $6,000,000 of this company's sinking fund notes due Jan. 1, 1981.—V. 182, p. 817.

Nortex Oil & Gas Corp.—Acquires—

Stockholders of Ebro Oil Co., Inc., Longview, Texas, voted on Feb. 6 to sell all of Abro's assets to Nortex Oil & Gas Corp. Principal assets being acquired by Nortex are 49 producing wells in the East Texas Oil Field, Gregg & Rusk Counties, Texas.

Oil and gas sales to the interests being acquired are currently $535,000 per year, indicating a 55% increase in sales for Nortex to an estimated $1,700,000 for the year 1961, as compared with sales of $1,065,000 for 1960. Production expense, taxes and interest payments on long term debt and oil payments being assumed are estimated at a total of $250,000 per year. Nortex's cash flow for 1961 should therefore exceed a total of $1,000,000, representing an increase of about 60% over 1960. Net profits, after all charges and expenses, should approximate $400,000 in 1961, as compared with about $150,000 in 1960.

For the acquisition and financing of the properties Nortex is issuing a total of 256,651 shares of common stock plus $750,000 in 6% convertible income debentures. The properties are being acquired subject to outstanding production loans and oil payments totalling $2,750,000. Based on independent engineering appraisals by Hudnall & Pirtle, Longview, Texas, net producing reserves to the interests being acquired by Nortex amount to 6,100,977 barrels of oil.—V. 193, p. 706.

Packard Instrument Co., Inc.—Registers Common—

This company of Lyons, Ill., filed a registration statement with the SEC on Feb. 13, covering 110,000 common shares, including 100,000 shares to be offered to the public and 10,000 shares to be offered to employees. The public offering will be made by an underwriting group managed by A. G. Becker & Co. Inc. of Chicago.

Proceeds from the sale of the shares will be used to repay approximately $325,000 notes payable to banks, to intensify research and for other corporate purposes.

Packard Instrument is engaged in the development, manufacture and sale of scientific instruments. Its principal products are electronic instruments for the detection and measurement of radioactivity which are used primarily in research laboratories doing tracer studies with radioactive isotopes.

The company was incorporated in 1957 as successor to a sole proprietorship founded in 1949 by Lyle E. Packard, now President. In 1960 it earned $231,563 on sales of $2,954,161. The corresponding figures for 1959 were, respectively, $83,497 and $1,980,359. The company will have 615,633 common shares outstanding after the financing.

Patrician Paper Co., Inc.—Common Stock Offered—Public offering of 190,000 shares of common stock of Patrician Paper Co. was made on Feb. 16 by a group headed by Hill, Darlington & Grimm and J. R. Williston & Beane. The stock was offered as a speculation at a price of $6.

PROCEEDS—Net proceeds from the sale, together with monies from the sale of other common stock and from borrowings, will be used substantially for the acquisition, remodeling and improvement of land and buildings; acquisition and installation of machinery and equipment; engineering fees; acquisition of pulp inventory; start up costs; repayment of loans; interest on indebtedness; and provision for engineering and installation contingencies. Balance of the proceeds will be added to the general funds of the company and used for other corporate purposes.

BUSINESS—Patrician Paper Co. was incorporated on Sept. 22, 1960 for the purpose of manufacturing and selling facial tissues and facial-type toilet tissues. The company has already contracted to acquire plant facilities in South Glen Falls, N. Y. Executive offices are located in New York City.

CAPITALIZATION—Upon completion of the present financing, outstanding capitalization, adjusted to reflect the sale of an additional 30,000 shares of common, acquisitions necessary to commence operations, and a bank loan, will consist of $200,000 mortgage; $850,000 equipment loan; $300,000 bank loan; and 336,666 common shares.

UNDERWRITERS—The underwriters named below for whom Hill, Darlington & Grimm and J. R. Williston & Beane are acting as representatives have severally agreed, subject to the terms of an

gitized for FRASER
p://fraser.stlouisfed.org/

underwriting agreement, to purchase from the company the number of shares of common stock set forth opposite their respective names:

	Shares		Shares

—V. 192, p. 1652.

(Chas.) Pfizer & Co., Inc.—Acquires Foreign Interest

The Pfizer organization has joined two leading European industrial organizations, Snia Viscosa S.p.A. and Ledoga S.p.A., in ownership of Laboratori Italiani di Ricerca Chimica S.p.A. (LIRC) of Milano, Italy.

Chas. Pfizer & Co., Inc. announced on Feb. 10 that its foreign subsidiary, Pfizer Corporation, has acquired a one-third interest in LIRC, which was established in 1956 to conduct research and exploit commercial applications of itaconic acid, a versatile chemical first made available in commercial volume by Pfizer in 1955.

LIRC will operate world-wide, with Pfizer handling the promotion and licensing of LIRC developments in the United States.

First LIRC products developed were two thermoplastic resins containing substantial amounts of dimethyl itaconate, the methyl ester of itaconic acid. Known as Dialux A and C, these molding compounds are being used in making plastic reflectors for automobiles and other vehicles. Because they have high weather resistance and high heat distortion temperatures, a Pfizer spokesman said, the Dialux resins are also expected to find use in such products as outdoor signs, fluorescent light diffusers and auto accessories.—V. 191, p. 1671.

Photo Service, Inc.—Common Stock Sold—Cruttenden, Podesta & Co. heads an underwriting group which offered on Feb. 15, 162,500 shares of Photo Service, Inc. common stock of $1 par value, at $8 per share. Concurrent with this offering, an additional 6,000 common shares of $1 par value is being offered directly by the company to employees. Of the 162,500 shares, 125,000 are being sold by the company and 37,500 shares by S. Lyall Briggs, President, Treasurer and Director. The offering sold quickly at a premium.

PROCEEDS—Proceeds from the sale will be used by the company as follows: $250,000 for purchase and installation of new equipment for finishing of Kodachrome Film; $125,000 for construction of a new plant addition; $85,000 for payment of short-term debt; $200,000 to be available for purchase of stock or assets of other photo finishing firms; and the balance for addition to the company's general funds.

CAPITALIZATION—Giving effect to the sale of the 131,000 company-offered shares, capitalization of the company will be $93,359 of 6% first mortgage notes; $96,666 of 4% notes payable to stockholders; $78,167 sundry indebtedness; and 440,666 shares common stock, $1 par value.

The principal business of the Illinois corporation is the processing and printing of black and white and color photographic film. It is also engaged in the wholesale distribution of photographic film, cameras, accessories and supplies.—V. 193, p. 108.

Pioneer Natural Gas Co.—Net Down—

The Amarillo, Texas, company and its subsidiaries reported on Feb. 7 that its net income for 1960 was $4,301,746, compared to $4,672,227 for the year 1959. This amounted to $1.25 per share on the common stock outstanding at the end of 1960 compared to $1.40 per share for 1959, adjusted for the two-for-one stock split in April, 1960. The company's annual report to the stockholders and proxy statements will be mailed about March 17, 1961.—V. 192, p. 1858.

Pittsburgh Plate Glass Co.—Sales, Net Up—

Net sales in 1960 were $627,965,000 or 3.4% higher than sales of $606,947,000 reported for 1959. Net earnings (after tax provisions) for 1960 were $47,631,000 or $4.62 per share of outstanding stock. In 1959, net earnings were $44,096,000 or $4.27 per share. The company's annual report will be mailed to shareholders on March 14. —V. 193, p. 108.

Plastics Corp. of America, Inc.—Shares in Registration

This corporation, of 1234 Baker Bldg., Minneapolis, Minn., filed a registration statement with the SEC on Feb. 9, 1961, covering 800,000 shares of common stock, of which 650,000 shares are to be first offered in exchange for outstanding 5% notes on the basis of one share for each $1 principal amount of 5% note. The remaining 150,000 shares, together with any of the 650,000 shares not issued in exchange, will be offered for public sale at $1 per share. No underwriting is involved.

The company was organized under Minnesota law in November 1960 by a group of Minneapolis businessmen for the purpose of providing a vehicle for the acquisition of companies engaged in business in the fields of plastics, rubber and related materials. To date, the only such acquisition has been the purchase of the capital stock of Moxness Products, Inc., of Racine, Wis. About 50.2% of the latter's stock has been pledged to secure payment of the company's notes outstanding in the principal amount of $650,000. The company proposes to retire the notes by the exchange offer of the 650,000 shares or through the use of the proceeds from the sale of shares. Any excess of proceeds will be used to open a plant in the Minneapolis-St. Paul area to manufacture plastic and rubber products, and to make funds available to provide working capital to other companies in which the company may acquire an equity interest.

In addiion to certain indebtedness, the company has outstanding 364,628 common shares, of which Sven K. Moxness, President, owns 32.3%, Eivind Moxness 25.4% and management officials as a group 43.6%.

Plymouth Rubber Co.—Sales, Net Down—

Consolidated net sales of $23,160,278 for the year ended Nov. 26, 1960, and net profit after taxes of $771,367 were reported on Feb. 15 by this manufacturer of plastic and rubber specialties.

President Joseph M. Hamilburg in his report to stockholders said sales decreased $685,452 from those of 1959. The net profit after taxes was equal to 94 cents a share, compared with $1.52 a share for the 1959 fiscal year.

Mr. Hamilburg noted the company had a large increase in expenses during 1960, including a substantial amount of a non-recurring nature caused by the moving of the company's Rockland plant to Canton. He estimated these expenditures were the equivalent of about 30 cents per share. Operational efficiencies as a result of the plant move are already in evidence, he said, and it is expected capital improvements recently completed will be of considerable future benefit to the company.—V. 192, p. 800.

Portland Terminal Co.—Bonds Offered—Coffin & Burr Inc., Boston, Mass., and associates offered publicly on Feb. 10 an issue of $9,850,000 Portland Terminal Co. 6¼% first mortgage bonds, due Feb. 1, 1986, and priced at 98¾%, to yield 6.35%. The bonds are guaranteed as to principal, interest and compliance with the sinking fund by the Maine Central Railroad Co., parent.

PROCEEDS—Net proceeds from the sale will be used to pay the principal and interest on the company's first mortgage bonds, due July 1, 1961, and for the purchase of 7.09 miles of railroad line now leased from the Maine Central Railroad Co.

REDEMPTION—The bonds are redeemable at the option of the company at redemption prices ranging from 105% for those redeemed prior to Feb. 1, 1967 to 100% for those redeemed on or after Feb. 1, 1985.

SINKING FUND—The sinking fund provides for the Portland Terminal Co. to pay annually $147,750 into the sinking fund, from Feb. 1, 1966 to and including Feb. 1, 1975, and $246,250 annually thereafter.

BUSINESS—Portland Terminal Co. is operated as a joint facility of the Maine Central, and the Boston and Maine Railroad in Portland, Me. The Terminal also owns and operates wharves over which is handled import traffic, and furnishes switching services for the two railroads to other wharves.—V. 184, p. 207.

Puget Sound Power & Light Co.—Securities Offered—Blyth & Co., Inc., and Merrill Lynch, Pierce, Fenner & Smith Inc. are joint managers of an underwriting group which offered for public sale on Feb. 16 a new issue of $15,000,000 of the company's first mortgage bonds, 4⅝% series due 1991. The bonds are priced at 99.59% and accrued interest to yield approximately 4.65% to maturity. In addition, Blyth & Co., Inc., and Merrill Lynch, Pierce, Fenner & Smith Inc. are heading a group which will underwrite the offer by the company of rights to subscribe at $33.75 per share for 326,682 shares of additional common stock at the rate of one share for each ten shares held of record on Feb. 15. Employees of the company may subscribe at the same price for any shares not taken by exercise of rights. The offer to common stockholders will expire at 3:30 p.m. (EST) on March 6.

PROCEEDS—Proceeds from the sale of the additional common stock and from the sale of $15,000,000 first mortgage bonds will be used to pay outstanding bank loans due June 31, 1961, incurred for construction, and to provide funds for the company's 1961 construction program. The company estimates 1961 construction expenditures at approximately $20,000,000.

REDEMPTION—Optional redemption prices for the bonds range from 105% to the principal amount. Special redemption prices under a sinking and improvement fund will be 100%.

DIVIDENDS—The company has paid cash dividends on the common stock each year since 1943 when it first became publicly held. In 1960, dividend payments amounted to $1.50 per share. A dividend of 39 cents per share was paid Feb. 15, 1961.

BUSINESS—The company's service area covers approximately 3,200 square miles principally in the Puget Sound region of western Washington and includes part of Kittitas County in the central portion of the state.

EARNINGS—For the 12 months ended Oct. 31, 1960, electric operating revenues were $36,188,570 and net income $7,444,628. In the 1959 calendar year, revenues were $32,385,103 and net income $7,267,213.

CAPITALIZATION—Capitalization to be outstanding on completion of the sale of new bonds and additional common stock will consist of $124,625,000 of long-term debt, 100,000 shares of 5½% preferred stock of $100 par and 3,593,501 shares of common stock of $10 par.

UNDERWRITERS—The underwriters named below severally have made a firm commitment, subject to certain conditions precedent, to purchase from the company the respective principal amounts of the New Bonds set opposite their names:

	Amount		Amount
Blyth & Co. Inc.	$2,300,000	Hayden, Stone & Co.	$450,000

—V. 193, p. 382.

R F Communications Associates, Inc., Rochester, N. Y. —Files With Securities and Exchange Commission—

The corporation on Feb. 6, 1961 filed a letter of notification with the SEC covering 150,000 shares of common stock (par five cents) to be offered at $1 per share, without underwriting.

The proceeds are to be used for a plant and fixtures, development of a transceiver, research and development, inventory and working capital.

Rapid-American Corp.—Sells Company—

See American Paper Specialty Co., above.—V. 193, p. 747.

Remco Industries, Inc.—Record Highs in 1960—

This Newark, N. J., manufacturer of toys and games reported on Feb. 9 an increase in earnings for the calendar year 1960, over last year's record highs.

The company reported net income increased to $821,000 on sales of $10,784,000, compared with net income of $805,000 on sales of $11,388,000 in 1959, equal to $2.05 per share in 1960 as compared with $2.01 per share last year.

Saul Robbins, Remco President, reported that current sales are running approximately 20% ahead of last year. Mr. Robbins projected a sales increase for 1961 of between 20-25% over 1960.—V. 191, p. 1438.

Richards Aircraft Supply Co., Inc. — Common Stock Offered—Pursuant to a Feb. 9, 1961 offering circular, Blaha & Co., Inc., Long Island City, N. Y., offered for public sale 200,000 shares of this company's common stock (par 10¢) at $1 per share.

BUSINESS—The company, of 111 S. W. 33rd Street, Fort Lauderdale, Fla., is engaged principally in purchasing, inventorying, and resale of fastening devices such as bolts, screws and nuts, as well as hydraulic fittings, hydraulic hose lines, caulking compounds, caulking guns, gas lines, fuel lines, air lines, various steam machine hoses, grommets and rubber rings and seals. In addition, the company operates a machine shop in which it fabricates custom-made machine parts which would otherwise be unavailable to the industries which it services except by direct orders to the manufacturer. The company supplies primarily the aircraft, missile and electronic industries with the various products which it distributes.

PROCEEDS—In the event that all the shares of common stock offered are sold, the estimated net proceeds to the company, after payment of underwriter's commission and expenses, will aggregate $160,000. It is anticipated that such proceeds will be utilized substantially as follows, in the order of priority as listed:

(a) Approximately $15,000 for expenses of the offering;
(b) $58,100 to retire bank loans and notes payable;
(c) $7,400 to retire automotive equipment loans;
(d) $15,000 for expanding warehousing facilities;
(e) $30,000 for increasing and diversifying inventory;
(f) $10,000 for selling, advertising, and sales promotions;
(g) $24,500 for additional working capital.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

	Authorized	Outstanding
Common stock (par 10 cents)	1,000,000 shs.	*350,000 shs.

*This figure does not include 106,000 shares of common stock to be issued as and if the holders of warrants exercise their rights to purchase common stock.—V. 193, p. 204.

Riverside Cement Co. — Former Holders to Receive Shares—

See American Cement Corp., above.—V. 187, p. 679.

Ruberoid Co.—Sales Down—

This producer of building materials and industrial specialty products, announced on Feb. 13 results of its 1960 operations. Net sales for the year were the second largest in the company's 74-year history totaling $120,077,391, which compares with 1959's record volume of $127,307,942. Net income for 1960 amounted to $4,667,852, equal to $2.45 per share on the 1,908,739 average number of shares of capital stock outstanding during the year. For the year 1959, the company reported net income of $6,630,077, equal to $3.49 per share on 1,901,276 average number of shares.

Mainly responsible for the sales decline, states E. J. O'Leary, chairman of the board and president of Ruberoid, was an 18% drop in new home construction which affected all of the company's major product lines. Strikes which caused loss of three to 20 working days at four of the company's plants were also contributing factors. Strength of the repair and modernization market partially offset depressed home building, he added.

"Lower net income," Mr. O'Leary continued, "resulted from the smaller volume of sales and increased costs of labor and raw materials without corresponding adjustments in selling prices for our chief products. As a result of competitive conditions, prices on asphalt roofing products throughout most of 1960 were at a lower level than in the previous year. More efficient use of manufacturing facilities, involving automation for more economical and improved production of dry felt, roofing, siding, floor tile and automotive products at several of the company's plants, together with strict cost controls and improved administrative procedures offset to some extent the impact on net income of these unsatisfactory conditions," he declared.

Ruberoid's performance in 1960 had several favorable aspects, according to Mr. O'Leary, who cited broader acceptance of newer building materials and increased use of the company's industrial and automotive products. Negotiations were concluded for the sale of processes and trade marks of the Mastic Tile division covering the manufacture of floor tile products in Italy, the second such arrangement now in effect in Western Europe, he announced.

Ruberoid's financial condition remained strong at the close of 1960 with working capital amounting to $33,573,339 compared with $32,508,854 at the end of 1959. Ratio of current assets to current liabilities on Dec. 31, 1960, was 5.4 to 1 compared with 6.0 to 1 a year earlier. The company's sole debt at the 1960 year-end consisted of $1,700,000 of 5% term bank loans.—V. 191, p. 1116.

Safticraft Corp.—Record Highs—

The Patterson, La. corporation announced on Feb. 7 record sales and earnings for the fiscal year ended Oct. 31, 1960, and even greater gains in the first quarter of the current fiscal year.

First quarter sales of fiscal 1961 are equal to one-half the entire 1960 sales volume and first quarter net for the current fiscal year totals the net achieved in fiscal 1960.

At the first annual stockholders meeting since become a publicly held company in October, 1960, H. E. Kirkpatrick, President, told stockholders that indications for 1961 point to record sales and earnings for the boating company.

For the fiscal year ended Oct. 31, 1960, the company reported sales of $825,500 and net of $40,100, equal to 11 cents per share on 370,000 shares outstanding, compared with sales of $947,000 and a net loss of $6,100 in fiscal 1959.

For the three months ended Jan. 31, 1961, the company reported sales of $364,016 and net of $39,045, equal to 11 cents per share on 370,000 shares outstanding, compared with sales of $161,700 and net, prior to taxes, of $18,500 for the like period in 1959.

"Two main factors account for the sharp increases in sales and earnings," Mr. Kirkpatrick said. "These factors are the rising sales of our new larger sized pleasure boats, including the 32, 35, 45 and 55 foot cruisers, and an increase in our industrial business which constituted one-third of first quarter sales. Both of these areas are expected to show continuing increases throughout 1961."

"The sharp increases in sales and earnings," Mr. Kirkpatrick said, "are attributed to rising sales of our new larger sized pleasure boats. These models include the 32, 35, 45 and 55 foot cruisers."

Mr. Kirkpatrick told stockholders that approximately 85% of the company's total sales during 1960 consisted of Safticraft pleasure cruisers.

"Because pleasure craft sales are highly seasonal in nature, a majority of the company's cruisers have been sold between April 1 and Oct. 31," Mr. Kirkpatrick said. "This market situation was encountered as expected in the past year."

Mr. Kirkpatrick told stockholders that a newly adopted marketing concept was taking form at Safticraft, designed to enable the company to purchase or operate a nationwide group of marinas. In 1960, the company acquired Donaldson's Marina at Portland, Ore. and Island Marina at Bethel Island, Calif. Negotiations are under way for the acquisition of a third West Coast marina.

"These marinas will yield a dollar profit and serve as a source of capital for expansion, and increase the company's base of operations in pleasure boat sales," Mr. Kirkpatrick said.

Safticraft Corp. manufactures steel-hulled pleasure yachts and industrial craft. "Safticraft" is the company's copyrighted name for its line of boats and yachts.—V. 192, p. 2372.

Savage Arms Corp.—Appointment—

The Chase Manhattan Bank has been appointed registrar of the common no par stock of the corporation.—V. 193, p. 748.

Schering Corp.—Sales Up, Net Down—

This Bloomfield, N. J. pharmaceutical company, reported consolidated net sales and other revenues of $87,105,000 for 1960 compared with $84,411,000 achieved last year. Net income of the company and its subsidiaries was $9,865,000 or $2.36 per common share for the year ended Dec. 31, 1960. In 1959 net income was $11,864,000 or $2.87 a share.

Francis C. Brown, President, stated that sales of products introduced during 1960 more than offset the decline in some of the older products. Sales of the Coricidin group, the company's cold product line, and Fulvicin, an oral antifungal antibiotic, showed substantial increases for the year. All of the company's sales divisions recorded increases over a year ago.—V. 190, p. 1018.

Screen Gems, Inc.—Additional Financing Details—Our issue of Feb. 13 reported the offering pursuant to a Feb. 9 prospectus of 288,400 shares of this Columbia Pictures Corp. subsidiary's common stock. Additional financing details follow:

UNDERWRITERS—The underwriters named below severally agreed

Digitized for FRASER

Appointment—

First National City Bank has been appointed transfer agent for 2,538,400 shares of the $1 par value common stock of the corporation. —V. 193, p. 748.

Servel, Inc.—Sales, Net Up—

Duncan C. Menzies, President, reported on Feb. 15 that at Jan. 31, 1961, for the first three months of the 1961 fiscal year, sales were up approximately 7% and profits were up approximately 5% over the like period of last year.

Earnings for the first quarter of the 1961 fiscal year were $597,660, after depreciation and amortization charges of $154,335. The earnings for the like three-month period of 1960 were $569,672, after depreciation and amortization charges of $151,203.

Sales and pre-tax profits of the Burgess Battery Divisions for the 1961 first quarter were the highest in Burgess' history for the comparable period.

The foregoing figures do not include any provision for Federal or Canadian income taxes, as the company has a substantial tax loss carry-forward which expires in part at various dates up to Oct. 31, 1963.

In January the Burgess Magnetic Tape Division released for national distribution, primarily through the Burgess Battery Divisions' distributor organization, magnetic tape for professional and amateur sound recording uses.—V. 192, p. 2656.

Sherburne Corp., Sherburne, Vt.—Files With SEC—

The corporation on Jan. 26, 1961 filed a letter of notification with the SEC covering 200 units each consisting of two shares of common stock (par 50 cents) and one 20-year 6% cumulative fully registered subordinated debenture, together with 200 rights, to be offered as follows: Of units, $1,000 per unit; of rights, $62.50 each. The offering will be underwritten by Kennedy-Peterson, Inc., Hartford, Conn.

The proceeds are to be used for working capital.—V. 191, p. 2029.

Shore Calnevar, Inc.—Appointment—

The Manufacturers Trust Co. has been appointed co-registrar for the common stock of the corporation.—V. 192, p. 2268.

Simplex Lock Corp., New York, N. Y. — Files With Securities and Exchange Commission—

The corporation on Feb. 8, 1961 filed a letter of notification with the SEC covering 100,000 shares of common stock (par $1) to be offered at $3 per share, through Charles Plohn & Co., and B. W. Pizzini & Co., Inc., New York, N. Y.

The proceeds are to be used for expenses of the offering and to pay Scovill Manufacturing Co. for initial costs of tooling up for production.

Sorrels-Johnson Corp.—Offering Suspended—

The SEC has issued an order temporarily suspending a Regulation A exemption from registration under the Securities Act of 1933 with respect to a public offering of stock by this corporation, of Woodland Park, Colo.

Regulation A provides a conditional exemption from registration with respect to public offerings of securities not exceeding $300,000 in amount. In a notification filed in April 1959, Sorrels-Johnson proposed the public offering of 188,000 common shares at $1 per share. The Commission's suspension order asserts that the company failed to comply with Regulation A by reason of its use of sales material which was not filed with the Commission; that its notification and offering circular were false and misleading, in that they failed to disclose (a) the acquisition of a license to manufacture and market a hypodermic needle and information with respect to the license and its acquisition and (b) the establishment of a plant in Beverly, Mass.; and that the stock offering was made in violation of Section 17(a) of the Act, in that the unfiled sales material represented that the stock was worth $4 per share, that the company would very shortly register 100,000 shares to be sold at $4 per share, and that the company could list its stock on an exchange by the end of 1960 and that such listing was in prospect.

The order provides an opportunity for hearing, upon request, on the question whether the suspension should be vacated or made permanent.—V. 189, p. 1799.

Southern New England Telephone Co.—Earnings—

Southern Co. — Common Stock Offered — An underwriting group headed by Eastman Dillon, Union Securities & Co.; Blyth & Co., Inc., and Equitable Securities Corp. offered for public sale on Feb. 15, 750,000 shares of the company's common stock priced at $50 per share. The group purchased the stock from the company on Feb. 14, bidding $49.31 per share. Other bids came from First Boston Corp. and Lehman Brothers, jointly, $49.252 a share, and Morgan Stanley & Co., Kidder, Peabody & Co. and Merrill Lynch, Pierce, Fenner & Smith Inc., jointly, $49.16 a share.

BUSINESS—Southern is a holding company whose operating subsidiaries are Alabama Power Co., Georgia Power Co., Gulf Power Co., Mississippi Power Co., and Southern Electric Generating Co.

PROCEEDS—The proceeds from this sale of additional common stock will be applied to the payment of $22,000,000 of bank loans and to construction or acquisition of property by the affiliated companies. Any remaining proceeds will be used for general corporate purposes including additional investments in operating affiliates.

PLANT OUTLAY—Total construction expenditures of the operating affiliates for 1961, 1962 and 1963 are estimated at $515,000,000. Of this aggregate an estimated $173,000,000 will be expended in 1961.

DIVIDENDS—Annual dividends on Southern's common stock have increased from 20 cents per share in 1954 to 35 cents per share in 1960. A dividend of 37½ cents per share is payable March 6, 1961 to holders of record Feb. 6, 1961. Shares purchased in this offering will not receive this dividend.

CAPITALIZATION—Giving effect to this sale Southern will have outstanding 23,302,250 shares of common stock of $5 par value.

UNDERWRITERS—The underwriters named below have severally made a firm commitment to purchase from Southern Co. the respective number of shares of stock offered hereunder set opposite their names:

Southwestern Electric Service Co.—Appointment—

Chemical Bank New York Trust Company has been appointed New York transfer agent for the common and 4.40% cumulative preferred stock of the Southwestern Electric Service Co.—V. 189, p. 1972.

Southwestern Public Service Co.—Registers—

This company, 720 Mercantile Dallas Bldg., Dallas, Texas, filed a registration statement with the SEC on Feb. 9, 1961, covering $15,000,000 of first mortgage bonds due 1991 and 120,000 shares of cumulative preferred stock, $25 par to be offered for public sale through underwriters headed by Dillon, Read & Co. Inc. The interest rate on the bonds, dividend rate on the preferred stock, and public offering price and underwriting terms for both issues are to be supplied by amendment.

The public offering is expected about March 22.

The net proceeds from the sale of bonds and preferred stock will be applied in part to the payment in full of bank loans (expected to be about $14,500,000) obtained for the construction of additions and improvements to properties, and the balance toward the payment of further costs of additions and improvements. The company's construction program contemplates the expenditure of about $21,952,000 for the 1961 fiscal year and about $17,105,000 for the 1962 fiscal year. —V. 191, p. 2461.

Space-Tone Electronics Corp.—Acquires—

This Washington, D. C. corporation, publicly-owned high fidelity equipment management firm, has announced acquisition of Product and Industrial Engineering Corporation (PIECO), electronics research and development organization. The acquisition becomes effective today (Feb. 20).

The action was announced jointly by General William L. Ritchie (U. S. A. F., ret.), PIECO Board Chairman, and Philip R. Connor, Jr., President of Space-Tone. Space-Tone will operate PIECO as a subsidiary.

PIECO is engaged in missiles and weapons systems work, having contracts with the Department of Defense and with other technical service projects for private industry. It is planning to expand into production of circuits, amplifiers and tuners. Mr. Connor will become Board Chairman of the company. Theodore C. Simon will remain as PIECO President; Steve Billie, Vice-President Engineering, and Daniel M. Winn, Secretary-Treasurer.

Space-Tone also operates the American Music Guild, a wholly-owned subsidiary. The Guild is a subscription club offering LP records, stereophonic phonographs, cabinets and musical instruments. —V. 192, p. 1916.

Speedee Mart, Inc. — Common Stock Offered — Pursuant to a Jan. 31 prospectus, J. A. Hogle & Co., 132 South Main St., Salt Lake City, Utah, publicly offered 90,000 shares of this firm's no par common stock at $6 per share.

PROCEEDS—The net proceeds to be received by the company from the sale of the common stock will be used as working capital, in order to expand the number of franchise-operated "Speedee Mart" retail food stores, and more specifically will be applied to the acquisition of additional retail outlets, equipping new outlets with the necessary fixtures and stocking them with initial inventories. It is estimated that the initial cash outlay by the company required to open the 55 additional stores for which the company is currently arranging will be approximately $400,000.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

	Authorized	Outstanding
Equipment purch. contracts payable*†	$959,854.12	$959,854.12
Common stock, without par value	$500,000 shs.	¶‡300,932 shs.

*Financing charges relating to equipment purchase contracts at rates ranging from 4% to 5.6% are added to the total contract price, resulting in an effective financing cost of approximately 8% to 11% of the unpaid balance. Most recent contracts carry the higher rates.

†In addition, after Oct. 2, 1960, the company assumed equipment purchase contract obligations in the total amount of $440,000 in connection with the acquisition of the assets of Handy Pantry, Inc.

‡Adjusted to give effect to increase in authorized capitalization and 4-to-1 stock split.

¶Does not include 9,000 shares issuable upon exercise of an option which the company has granted to the underwriter to purchase 9,000 shares of its common stock at a price of $6.60 per share, such option to be exercisable at any time during the 6 months beginning one year after the date hereof.

‡Does not include 21,000 shares issuable upon exercise of options. —V. 192, p. 2167.

Spring Street Capital Co.—Acquires—

Spring Street Capital Co. completed negotiations in early February resulting in the outright purchase of all of the outstanding stock of Chem-Therm Manufacturing Co.

Chem-Therm is a leading manufacturer of capital equipment for the automobile laundry industry and industrial steam cleaning equipment, in addition to serving as a distributor of chemical products employed by auto laundries.

In the current fiscal year (which ends Sept. 30, 1961), it is anticipated that Chem-Therm's sales will exceed $1,400,000 and net profits after taxes should approximate $68,000.

Losses have been reflected by the company during the past two years as a result of the disruptive effects of a fire at the Monrovia plant in 1958. It appears, however, that the company has made a substantial recovery and that sales and earnings in future years should show proportionate improvement.

The purchase price of Chem-Therm—which is subject to balance sheet adjustments—is expected to approximate $180,394. The amount of the purchase price also will be adjusted to reflect any after taxes profit or loss generated by the company from the beginning of the current fiscal year, Oct. 1 through Jan. 31, 1961, the effective date of the transfer of the stock. Spring Street Capital will pay the sellers in ten equal annual instalments.—V. 191, p. 1010.

Standard Beryllium Corp.—Buys Concession—

Philip L. Brandon, President, on Feb. 10, confirmed the fact that the company has purchased the Boa Vista concession in Brazil, and is now the sole owner and operator. This is in contrast to last year when Standard Beryllium purchased ore from several mining companies in the area, but did not participate in the actual mining. The concession was purchased from Icombra, S. A.

Boa Vista consists of over 1,700 acres approximately 200 miles north of Rio de Janeiro. The property is one-quarter mile from the Rio Doce River, approximately 1,000 feet from the main road from Vitoria to Governador Valladares, and 1½ miles from the railroad station at Barra Doquete in the state of Minas Gerais, Brazil.

Boa Vista's beryllium is in the form of beryl, a mineral which in its pure form contains a maximum of 14% beryllium oxide (BeO). The mineral is contained in shists, which is the geology of the entire area. These shists are much larger than any found in the United States. According to the geologists' reports, 12 definitely established shists, all located within an area approximately one-fifth of the total, ranged in size from 20 meters wide by 87 meters long by 35 meters high (the smallest), to 130 meters long by 48 meters wide by 50 meters high. In an area equal to 20% of the total, proven reserves amount to 2,100,000 tons, with an additional probable 864,000 tons.—V. 190, p. 1117.

Steel Crest Homes, Inc.—Securities Offered—An underwriting group headed jointly by Marron, Sloss & Co., Inc. and Harrison & Co. offered for public sale on Feb. 15, 45,000 units of Steel Crest Homes, Inc., at $18 per unit. Each unit consists of four shares of common stock, one $10 face amount of 8% subordinated sinking fund debentures due Sept. 1, 1981, and one warrant expiring Jan. 30, 1963, permitting the purchase of additional shares and debentures.

BUSINESS—The principal business of the company is the construction and sale of "buyer-completed" homes. Of the proceeds from the sale, $500,000 will be allocated by the company to its mortgage subsidiary for the purpose of financing the construction of homes sold by the company. The remaining $229,000 of the proceeds will be earmarked for working capital.

Steel Crest Homes, Inc. was incorporated in August 1954. "Buyer-completed" homes which the company constructs and sells are more complete than the so-called "shell" homes, in that the company supplies the buyer with practically all the materials necessary to complete the house. The basic price of the house includes all the materials and utilities necessary to finish the house. As of Jan. 16, 1961 the company had a total backlog of 96 contracts for the construction of homes with a gross contract price value of $1,006,667, compared with a backlog of 30 houses having a contract value of $315,000 for the same date in 1960.

EARNINGS—For the three months ended Nov. 30, 1960 the company reported net sales of $227,277 compared with $241,560 for the like period in 1959. For the fiscal year ended Aug. 31, 1960 the company reported sales of $873,475 and net of $110,035 compared with sales of $457,785 and net of $13,741 for the 1959 fiscal year.

CAPITALIZATION—After completion of the sale, the company will have $570,657 in debt, $450,000 in 8% subordinated sinking fund debentures due Sept. 1, 1981, 510,000 shares of common stock, no par value, and 82,500 warrants for the purchase of debentures and common stock.

UNDERWRITERS—Upon the terms and subject to the conditions contained in the underwriting agreement dated Feb. 10, 1961, the underwriters named below have severally made a firm commitment to purchase from the company the following number of units set forth below opposite their respective names:

	Units		Units
Marron, Sloss & Co. Inc.	18,000	McCarley & Co. Inc.	2,500
Harrison & Co.	12,000	Odess, Martin, Sellers, Doe & Bonham	2,500
Johnson, Lane, Space Corp.	3,500	Boenning & Co.	1,500
William T. Robbins & Co. Inc.	3,500	Hanrahan & Co. Inc.	1,500

—V. 192, p. 2167.

Stelma, Inc.—Files for Secondary—

This company, of 200 Henry St., Stamford, Conn., filed a registration statement with the SEC on Feb. 15, covering 200,000 outstanding shares of common stock, to be offered for public sale by the present holders thereof. The offering is to be made on a "best efforts all or none basis" through underwriters headed by Amos Treat & Co., Inc., who

American Stock Exchange

WEEKLY AND YEARLY RECORD

In the following extensive list we furnish a complete report of the transactions on the American Stock Exchange for the week beginning Monday, Feb. 13, and ending Friday, Feb. 17. It is compiled from the report of the American Stock Exchange itself and is intended to include every security whether stock or bond in which any dealings have occurred during the current year.

Range For Week Ending February 17.

NATIONAL LIST OF OVER-THE-COUNTER SECURITIES (Quotations for Friday, February 17)

The following bid and asked quotations are obtained from the National Association of Securities Dealers, Inc., and other selected sources. They do not represent actual transactions. They are intended as a guide to the range within which these securities could have been sold (indicated by the "bid") or bought (indicated by the "asked") at the time of compilation. Origin of any quotation furnished on request. The "National" list is composed of securities which have a wide national distribution.

THE COURSE OF BANK CLEARINGS

Bank clearings this week show a decrease compared with a year ago. Preliminary figures compiled by us, based upon telegraphic advices from the chief cities of the country, indicate that for the week ended Saturday, Feb. 18, clearings from all cities of the United States from which it is possible to obtain weekly clearings will be 7.7% below those of the corresponding week last year. Our preliminary totals stand at $27,161,293,276 against $29,442,440,240 for the same week in 1960. At this center there is a loss for the week ended Friday of 5.1%. Our comparative summary for the week follows:

CLEARINGS—RETURNS BY TELEGRAPH

Week Ending February 18—	1961	1960	%
New York	$14,877,944,972	$15,670,513,249	— 5.1
Chicago	1,371,729,394	1,613,761,089	—15.0
Philadelphia	1,072,000,000	1,330,000,000	—19.4
Boston	803,555,467	802,972,665	+ 0.1
Kansas City	498,717,851	501,470,316	— 0.6
St. Louis	431,900,000	461,900,000	— 6.5
San Francisco	809,243,000	798,197,211	+ 1.4
Pittsburgh	437,616,236	516,937,820	—15.3
Cleveland	637,484,735	728,888,147	—12.5
Baltimore	417,900,607	388,244,220	+ 7.6
Ten cities five days	$21,358,092,262	$22,812,884,717	— 6.4
Other cities, five days	4,836,000,845	5,524,629,605	—12.5
Total all cities, five days	$26,194,093,107	$28,337,514,322	— 7.6
All cities, one day	967,200,169	1,104,925,918	—12.5
Total all cities for week	$27,161,293,276	$29,442,440,240	— 7.7

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday and the Saturday figures are not available at time of going to press. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below we are able to give the final and complete results of the week previous — the week ended Feb. 18. For that week there was an increase of 23.7%, the aggregate of clearings for the whole country having amounted to $25,869,152,545 against $20,914,705,128, in the same week in 1960. Outside of this city there was an increase of 5.9%, the bank clearings at this center having recorded an increase of 42.6%. We group the cities according to the Federal Reserve Districts in which they are located and from this it appears that in the New York District (including this city) the totals show an expansion of 40.6%; in the Boston Reserve District of 4.2%, and in the Philadelphia Reserve District of 16.4%. In the Cleveland Reserve District the totals record a decrease of 1.2% and in the Richmond Reserve District of 4.1%, but in the Atlanta Reserve District the totals register an increase of 0.8%. The Chicago Reserve District has to its credit an improvement of 23.7%; in the St. Louis Reserve District of 3.1%, and in the Minneapolis Reserve District of 13.7%. In the Kansas City Reserve District the totals register a gain of 5.5%; in the Dallas Reserve District of 0.8%, and in the San Francisco Reserve District of 3.2%.

General Corporation and Investment News

Continued from page 10

will receive an 8% commission plus $6,000 for expenses. The selling stockholders have granted Amos S. Treat, president of the principal underwriter, options to buy an additional 20,000 shares at the public offering price. The registration statement also includes 50,000 shares reserved against the company's restricted stock option plan.

The company was organized under Delaware law in March 1960, for the purpose of acquiring 100% of the outstanding stock of Stelma, Inc., a Connecticut company. Until the Connecticut company was merged into it in December 1960, the company operated solely as a holding company; and since then, it has continued to operate the business of the enterprise, which is the manufacture of products relating to telephone, telegraph, radio and switching equipments in communications systems with heavy emphasis on data processing.

The company has 1,020,000 shares of capital stock outstanding, of which Alfred B. Reiss, President and board chairman, owns 328,832 shares and proposes to sell 100,000 shares; and Burton Bernard, Treasurer, and Lawrence Lewison, Vice-President, own 215,584 shares each and propose to sell 50,000 shares each.—V. 192, p. 1916.

Super Market Distributors, Inc.—Common Stock Offered—A public offering of 200,000 common shares of Super Market Distributors, Inc., was made on Feb. 15 at $5 a share by a syndicate managed by Clayton Securities Corp. All of the shares are being purchased by the underwriters from certain stockholders. No part of the proceeds will be received by the company.

BUSINESS—Super Market Distributors, Inc., was organized in Massachusetts on June 22, 1950. The company is a wholesale distributor to supermarkets of nonfood consumer items of merchandise consisting of housewares and hardwares, hair care preparations, and other specialty items for the home. It has just started in the toy field and is working on plans for installation of sewing notions and soft goods. The company currently services departments in approximately 1,650 stores, representing approximately 320 accounts, both chains and independents.

EARNINGS—For the year ended Sept. 30, 1960, Super Market Distributors, Inc., and affiliated companies reported combined sales of $9,194,012 and net income equal to 50 cents per share.

CAPITALIZATION—The company's outstanding capitalization consists solely of 520,000 shares of common stock.—V. 192, p. 2268.

UNDERWRITERS—The names and addresses of the underwriters and the number of the shares of common stock offered hereby which they have severally agreed to purchase, subject to the conditions set forth in the underwriting agreement are set forth below:

	Shares		Shares
Clayton Securities Corp.	80,500	Reich & Co.	9,000
Goodbody & Co.	25,000	Schirmer, Atherton & Co.	9,000
A. C. Allyn & Co. Inc.	20,000	A. T. Brod & Co.	5,000
J. R. Williston & Beane	17,500	Hill, Darlington & Grimm	5,000
Maltz, Greenwald & Co.	15,000	Parrish & Co.	5,000
Draper, Sears & Co.	9,000		

—V. 192, p. 2268.

Tassette, Inc.—Files for Offering—

Tassette, Inc., 170 Atlantic Street, Stamford, Conn., filed a registration statement with the SEC on Feb. 15, 1961, covering 200,000 shares of class A stock, to be offered for public sale through underwriters headed by Amos Treat & Co., Inc., on a best efforts all or none basis. The underwriters will receive a 10% commission and $6,000 for expenses. The public offering price is to be supplied by amendment. The principal underwriter will receive warrants for the purchase of an additional 20,000 shares at the public offering price. The registration statement includes an additional 35,000 class A shares issued to certain persons, including Amos S. Treat, in connection with a previous underwriting, and 19,000 class A and 21,000 class B shares reserved against options granted to certain persons in connection with services rendered.

The company was organized under Delaware law in 1959 to finance the exploitation and sale of "Tassette," a patented feminine hygiene aid. The company is presently in the development stage in the sense that most of its efforts and those of its predecessors have been confined to medical and market research relative to the product and its consumer acceptability. The company has engaged in an "intensive marketing program" in several local areas and, according to the prospectus, has concluded that it is prepared to launch a national program for the sale of its product. The net proceeds from the stock sale will be used to provide funds for this project, including advertising, market development programs, medical research and administrative overhead.

In addition to certain indebtedness, the company has outstanding 125,000 class A and 200,000 class B shares, of which Robert P. Oreck, President, owns 15,000 class A and 36,500 class B shares; and Daniel Karsch, Abe R. Oreck and David I. Oreck, directors, own 15,000 class B and 27,500 class A shares each. Management officials as a group own 94% and 40.9%, respectively, of the class B and class A shares. The class B shares are convertible, share for share, into class A share.—V. 190, p. 1777.

TelAutograph Corp.—Com. Stk. Offered—Pursuant to a Feb. 9, 1961 prospectus, Baird & Co., and Richard J. Buck & Co., both of New York City, and Chace, Whiteside & Winslow, Inc., Boston, Mass., offered to stockholders the right to subscribe to 187,595 shares of this firm's common stock (par $1) at $8.75 per share on the basis of 1 new share for each 3 shares held of record Feb. 9, with rights to expire on Feb. 23 at 5 p.m. (EST).

BUSINESS—The company was incorporated under the laws of Virginia on Nov. 26, 1915. It has operated continuously under its present name, having succeeded, when organized, to the business originally established in 1888 by the Gray National Telautograph Co., and in 1891 by Gray Electric Co. The company maintains its principal executive offices at 8700 Bellanca Ave., Los Angeles 45, Calif., and maintains sales offices in 19 principal cities of the United States. The company's primary business is the manufacture, sale and leasing of telewriter equipment called Telescribers. Telescribers are used to transmit handwritten communications over wire instantaneously. The company also sells and leases Olivetti Teleprinters and closed circuit television equipment.

PROCEEDS—The net proceeds from the sale of the common stock offered hereby will be used for the following purposes and in the following order of priority:

(1) The company will devote approximately $400,000 to the development, tooling, inventory and initial production expense relative to producing a new Telescriber compatible and usable with an American Telephone and Telegraph Co. analog subset.

(2) The company will devote approximately $400,000 to the tooling, inventory and other initial expenses of production of new facsimile equipment which a subsidiary is developing for manufacture and sale by the company.

(3) The balance of the net proceeds, estimated at $645,489.35, will be used to retire part of the company's outstanding loans from the California Bank and for other working capital purposes.

APPOINTMENTS—Transfer agent Chemical Bank New York Trust Co., New York, N. Y. and Registrar—The Maine Midland Trust Co., New York, N. Y.—V. 192, p. 2167.

Teltronics Inc., Nashua, N. H.—Files With SEC—

The corporation on Feb. 3, 1961 filed a letter of notification with the SEC covering 26,000 shares of class B common stock (par $1) to be offered at $3 per share, without underwriting.

The proceeds are to be used to purchase equipment, salaries, manufacture materials, rent, etc.

Temperature Engineering Corp.—To Acquire—

Directors of the Riverton, N. J. corporation voted on Feb. 8 to approve a contract for the purchase of Steiner-Ives Company, Union, N. J., one of the nation's oldest manufacturers of high temperature ovens for industry.

Sidney H. Perlman, President and director of Temperature Engineering, said that the transaction will be submitted for approval to his company's shareholders at their annual meeting April 12. The specific terms of the agreement, which calls for a transfer of stock, were not revealed.

"The acquisition of Steiner-Ives will mark the first step in a program of expansion aimed at enabling Temperature Engineering to provide industry and the military with a wide range of hitherto unavailable environmental equipment," Mr. Perlman said.

He observed that the purchase will put at Temperature Engineering's disposal the manufacturing and research facilities of a company which, since its establishment in 1889, has pioneered such advances as the development of the world's largest exhaust oven for the production of television picture tubes.

Temperature Engineering is a manufacturer of atmosphere enclosure systems for major producers of electronic equipment, missiles, pharmaceuticals, and other products. The enclosure systems make it possible to manufacture products under unusual conditions of pressure, temperature, humidity and cleanliness.—V. 192, p. 2373.

Texaco Inc.—Record Earnings—

Augustus C. Long, Chairman of the Board, announced on Jan. 31 estimated net income for 1960 amounted to $391,750,000, or $6.34 a share, compared with $354,346,323, or $5.85 a share, in 1959.

Based on these preliminary figures, 1960 earnings were 10.6% higher than in the record year of 1959, Mr. Long disclosed. The year's results reflect an improvement in earnings from operations of 14% as well as an increase in dividends from affiliates of almost 4%, Texaco's chief executive officer, reported.

"Operations were at an all-time high in 1960," Mr. Long stated. "New records were established in every phase of our operations including production, refining and marketing."

Texaco and its consolidated subsidiaries in 1960 had increases of 10,900,000 barrels, or 4.6% in net crude oil production, 20,341,000 barrels, or 5.9% in refinery runs, and 18,271,000 barrels, or 4.6% in product sales.

Capital and exploratory expenditures were approximately $520,000,000, up slightly over 1959. Mr. Long indicated that similar expenditures in 1961 will be at approximately the same high level.

The Texaco Board Chairman also predicted "another good year" in 1961. Consumer demand in the United States is expected to increase another 2 to 3%, he said, while the increase in the free foreign world outside the United States will be about 7%.

At Dec. 31, 1960, capital shares outstanding totaled 61,749,274, compared with 60,541,379 at the close of 1959.—V. 192, p. 2657.

Texas Eastern Transmission Corp.—Appointment—

The Manufacturers Trust Co. has been appointed trustee for $5,000,000 F. A. first mortgage pipe line bonds 5% series due Jan. 1, 1981 of the corporation.—V. 193, p. 749.

Thompson Ramo Wooldridge Inc.—Files Exch. Offer—

Thompson Ramo Wooldridge Inc., 23555 Euclid Avenue, Cleveland, Ohio, filed a registration statement with the SEC on Feb. 10, 1961, covering 206,433 shares of common stock, to be offered in exchange for common stock of Space Technology Laboratories, Inc. (STL) and class A convertible preferred stock of Pacific Semiconductors, Inc. (PSI). The company proposes to offer its shares for STL stock on a share for share basis and for PSI stock on a ten for one basis. Such STL and PSI shares have been or will be acquired, in most cases, upon the exercise of stock options held by employees of such companies. All of the other outstanding shares of these two subsidiaries are now owned by the company. No underwriting is involved.

The principal business of the company and its subsidiaries is the performance of research, consulting and advisory services and the manufacture and sale of products in the electronics, missile and space fields, and the manufacture and sale of aircraft component parts and auxiliary equipment, largely for aircraft engines, a wide range of engine and other parts for automobiles, trucks and tractors, and miscellaneous other products.

In addition to certain indebtedness and preferred stock, the company has outstanding 3,152,605 shares of common stock, of which management officials as a group own 255,974 shares. J. D. Wright is listed as Board Chairman, and D. E. Wooldridge as President. —V. 193, p. 645.

(Reed A.) Thursby & Co.—Common Stock Offered—Pursuant to a Feb. 10, 1961 offering circular, Dunne & Co., and R. James Foster & Co., Inc., both of New York City, offered for public sale 100,000 shares of this company's common stock (par 10¢) at $3 per share.

BUSINESS—The company, a Florida corporation having its office at 4030 Overlook Drive, N. E., St. Petersburg, Fla., was incorporated on March 26, 1956, for the initial purpose of clearing and developing as a residential section a substantial portion of the area known as Shore Acres in the northeast part of St. Petersburg.

PROCEEDS—If all the shares offered are sold, the net proceeds to the company, after its expenses of the offering amounting to approximately $15,000, the underwriting commissions amounting to $50,000, and the underwriting expense amounting to $10,000, or a total of $75,000, will be approximately $225,000.

The company intends to use these funds approximately in the following order of priority:

(a) Approximately $130,000 to be applied toward the acquisition of additional building sites in the Shore Acres lands.
(b) Approximately $60,000 to be applied toward the cost of installing sanitary sewers, storm sewers and paving in portions of the north central section of Shore Acres.
(c) The balance representing approximately $35,000 to be added to general working capital.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

—V. 193, p. 51.

Tool Research & Engineering Corp.—Acquires—

This Beverly Hills, Calif., corporation has acquired the assets of Utility Metal Products division of Young Spring & Wire Corp., Leopold S. Wyler, Jr., Tool Research President announced on Feb. 7. The acquisition was made for cash, the terms of which were not disclosed.

Mr. Wyler said that the new Pasadena facility of approximately 120,000 square feet will operate as the Exotic Metal Products division of Tool Research specializing in the machining and fabrication of titanium, beryllium, tantalum, zirconium and other exotic metals for supersonic aircraft, missiles and space vehicles.

Mr. Wyler said the new division has contracts and is now producing missile carrying vehicles for the U. S. Navy as well as structural components for commercial jet aircraft and missiles.

In addition to the new Exotic Metal Products division, Tool Research and Engineering Corporation operates four other research and development and production divisions—the Honeycomb Core division at Costa Mesa; Tooling and Engineering Services division at Compton; Wesleck division at Huntington Park, and Summit Plastics division at Gardena, Calif.—V. 193, p. 243.

Town Photolab, Inc.—Common Stock Offered—Public offering of 150,000 shares of the common stock of Town Photolab, Inc. was made on Feb. 17 at a price of $4 per share by a group headed by Michael Kletz & Co., Inc.

BUSINESS—Town Photolab, with headquarters in New York City, is engaged in the business of processing and printing of black and white and color photographic film. It also sells film, photographic equipment, accessories and supplies.

PROCEEDS—Net proceeds from the sale of the shares will be used by the company for additional advertising for direct mail processing; for expanding and training sales personnel for the school portrait field; for the purchase of Kodachrome processing facilities; and for the purchase of equipment to develop Ektachrome and Anscochrome transparencies. Balance of funds will be added to working capital and used for general corporate purposes.

EARNINGS—For the year ended Dec. 31, 1960, the company reported net sales of $1,492,430 and net income of $158,024, equal to 37 cents per common share.

CAPITALIZATION—Upon completion of the current financing, sole capitalization of the company will consist of 576,000 shares of common stock.—V. 192, p. 2269.

Transition Systems, Inc.—Appointment—

Irving Trust Co. has been appointed transfer agent of the common stock of the corporation.

Unexcelled Chemical Corp.—Record Earnings—

Earnings during 1960 amounted to $2.40 a share, President James M. Crosby reported to shareholders on Feb. 1. This represented an increase of $0.96 over the $1.44 per share reported in 1959. It is the highest in the company's 84-year history. Net income for 1960 amounted to $1,370,831 compared with $760,934 for 1959.

Crosby further reported that the net worth per share had increased 42% over 1959, and that the company had eliminated $1,200,000 deficit inherited from previous management.

Mr. Crosby pointed out that the firm's working capital position had been increased from $1,572,078 in 1959 to $3,111,685 in 1960, by weeding out unprofitable investments, finding new investment opportunities and streamlining the procedure of the company. "We have broadened our base to the point where we are now in the position to embark upon the acquisition of far larger and more integrated business, wherein high profits can be realized on a relatively small capitalization," he said.

In April, 1960, Unexcelled Chemical acquired 58.3% of the stock of Oneida Papers Products, Inc. In the 1960 consolidated income statement, only the dividend income from Oneida has been included in the company's financial statement, Crosby pointed out. Unexcelled's equity in Oneida's earnings is substantially greater than the dividends received. In addition, the consolidated financial statement did not reflect the $1,600,000 working capital position of Oneida.

Crosby announced that the International Division of Unexcelled Chemical has acquired a printing company in Switzerland and that new machinery, now being delivered, will establish the company in the plastics and color printing industry. It will be the first company in Europe capable of manufacturing such products on an integrated basis.

The Bennett & Clayton Division has been reorganized and is expected to show increased sales and income during 1961.

During 1960, Unexcelled sold its Consumer Products Division and its Jasco Division. The latter division manufactured extruded aluminum products.—V. 192, p. 542.

Union Bag-Camp Paper Corp.—Prelim. Annual Report

This corporation reported that net sales for 1960 were approximately $213,000,000, according to a preliminary annual report released Feb. 10. Net sales in 1959 totaled $203,912,533.

Net income for 1960, after tax provision, was about $18,600,000, or $2.39 per share on the 7,773,327 shares of capital stock outstanding at the end of the year. This would compare with 1959 net income of $19,706,022, or $2.54 per share based on the same number of outstanding shares.

The financial results of River Raisin Paper Co. acquired by merger in May, 1960, are included for the full year of 1960 and in 1959 for comparative purposes. All figures are subject to final year-end audit. —V. 192, p. 1654.

United-Greenfield Corp.—1960 Results—

This Chicago corporation on Feb. 9 reported sales of $47,712,000 for the year ended Dec. 31, 1960, compared with $48,173,000 the year before.

Edwin W. Zipse, President, said unaudited earnings after taxes amounted to $2,444,000 in 1960 as against $2,770,000 in 1959. Income per common share was $1.55 based on 1,575,953 common shares outstanding at Dec. 31, 1960, compared with $1.75 on 1,585,594 outstanding shares at the end of the preceding year.

"The decline in our sales which was apparent in the third quarter of 1960 became quite sharp through the fourth quarter," Zipse said. "This, in conjunction with steadily increasing costs, accounts for the fact that our net income was down 12% from the prior year whereas sales were down only 1%. The lower rate of both sales and earnings experienced in the last half of the year 1960 as yet shows no important sign of improvement.

"Our financial statements for the year ended Dec. 31, 1960 will contain charges to our retained earnings account of approximately (1) $700,000 to reduce the carrying value of our investment in our Dutch subsidiary to its net asset value, and (2) $162,000 for our loss on the sale in 1960 of the assets and business of our Horton Chuck division, net of reduction in United States income taxes due thereto. Continuing disappointing results of our Dutch subsidiary prompted the above treatment of our investment in it."—V. 190, p. 1881.

United Industrial Corp.—Suspension Continued—

The SEC has issued an order pursuant to Section 19(a) (4) of the Securities Exchange Act of 1934 temporarily suspending trading, for the further 10-day period of Feb. 15 to 24, 1961, inclusive, in the common and preferred stocks of this corporation, of Los Angeles, and in common stock purchase warrants. The suspension applies to trading in such of these securities as are listed or traded on the American, Detroit, New York and Pacific Coast Stock Exchanges, and pursuant to Rule 15c2-2, to trading therein in the over-the-counter market.

The original suspension, announced by the Commission on Jan. 16, followed an announcement of changes in the top management of the company and of write-downs and adjustments aggregating some $7,000,000 in its inventories, accounts receivables and other assets. These developments raised serious questions whether financial and other information previously filed by the company with the Commission is complete and accurate and whether such information could be relied upon by public investors in their evaluation of the company's securities. An independent accounting firm is making a detailed audit of the company's books and records, the report on which is expected to be available in March.—V. 193, p. 541.

U. S. Components, Inc., Bronx, N. Y.—Files With SEC

The corporation on Feb. 9, 1961 filed a letter of notification with the SEC covering 75,000 shares of common stock (par 10 cents) to be offered at $4 per share, probably in early April, through Arden Perin & Co., Inc., New York, N. Y.

The proceeds are to be used for repayment of loans payable, payment of accounts payable, additional machinery and equipment, tooling, advertising, research and development and working capital.

United States Rubber Co.—Proposes Retirem't of Pfd.

This company announced on Feb. 9 a proposal by the board of directors to purchase and retire its 8% first preferred stock over a period of years at prices not exceeding $160 a share. Stockholders will be asked to approve the proposal at the company's annual meeting on April 18.

The company has outstanding 651,091 shares of first preferred stock. It has a par value of $100 a share and is the company's only class of stock other than its common stock.

"For a number of years the management of the company has been considering the advisability of simplifying the company's capital structure by retiring all, or a substantial part, of these preferred shares, said H. E. Humphreys, Jr., Chairman. "The purchase and retirement program which has been recommended by the board of

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal

directors, is designed to serve the best interests of both the preferred and common stockholders.

"Under the program, sales by preferred stockholders would be entirely voluntary. No preferred stockholder would sell any of his stock unless he wished to do so.

"If the stockholders approve the proposal at the annual meeting, it is the present intention of the company to purchase preferred shares at such times over an extended period of years, in such amounts and at such prices, not exceeding $160 a share, as the management and its financial advisors may deem advisable." Over the past five years the market price range of the preferred stock has been from $135 to $170 a share. The range in 1960 was from $144 to $157.25.

"Purchases would be made only from funds constituting legally available surplus of the company," Mr. Humphreys said. "It is contemplated that purchases would be made in the open market such as on stock exchanges or from stockholders tendering shares in response to invitations by the company.

"Shares purchased would not be reissued and would be retired from time to time in accordance with the laws of New Jersey, the state of the company's incorporation.

"No reasonable estimate can be made as to the number of preferred shares which might be purchased over a period of years, or the number which might be purchased in individual years. It is considered unlikely, however, that more than five million to ten million dollars would be used to purchase preferred shares in any year and it is possible that in some years, no purchases would be made.

"The company has been aware for many years that the large preferred stock issue with its prior claim on company earnings, has served to depress and hold down the market value of the company's common stock. In consequence, it is believed the company has not had available to it the opportunity to issue new common stock and debentures convertible into common stock on terms as favorable as might otherwise have been obtainable for the purpose of raising additional funds for the company's business or making desirable corporate acquisitions.

"To the extent that the financial position of the company may be strengthened through the purchase and retirement of first preferred shares, both common and preferred stockholders would benefit."

Approval of the proposal requires a favorable vote of two-thirds in interest of each class of stockholders present at the meeting and voting.—V. 193, p. 750.

U. S. Rubber Reclaiming Co., Inc.—Joint Venture—

A joint venture agreement between U. S. Rubber Reclaiming Co., Inc., Buffalo, and Dunlop Rubber Co., Ltd., of England, to build a $2,100,000 rubber reclaiming plant near Liverpool, Eng., was announced on Feb. 15.

The plant, which will employ the patented Reclaimator process developed by U. S. Rubber Reclaiming Co., will be operated by a new company in which the American firm will have 35% of the equity ownership and Dunlop Rubber Co. 65%. The facility, to be patterned after U. S. Rubber Reclaiming Co.'s modern Vicksburg, Miss., plant which began operations last December, is expected to be in production by mid-1962.

This is the first such joint venture for U. S. Rubber Reclaiming; however, others are in process of negotiation, according to C. H. Peterson, President. "This method of investing in new companies overseas will enable us to realize more fully the international potential of the reclaimed rubber market," Mr. Peterson stated.

U. S. Rubber Reclaiming Co.'s previous international operations have consisted of licensing agreements with Fabrica Argentina de Alpargatas S.A.I.C. of Argentina, Pirelli S.p.A. of Italy and Gamid Rubber Products and Plastics Ltd. of Israel.—V. 192, p. 1861.

(P. W.) Voorhees, Inc.—Common Offered—Pursuant to a Feb. 1, 1961 offering circular, this company offered for public sale without underwriting, 100,000 shares of no par common stock at $3 per share.

BUSINESS—The company, of 941 North Highland Ave., Los Angeles, Calif., is engaged primarily in the publishing of or in the supplying of services for the publication of books dealing with the fields of electronics, missiles, space and other technical defense areas.

CAPITALIZATION—On Jan. 23, 1961 the company's original authorized $10 par value stock, of which there were authorized 20,000 shares and outstanding 7,850 shares, was reclassified into 800,000 authorized and 157,000 outstanding shares of common stock, no par value, by means of an exchange of 20 shares of the no par value stock for one share of the $10 par value stock outstanding on said date. Giving effect to the sale and issuance of the 100,000 shares offered hereunder, the outstanding stock will total 257,000 shares.

Westminster Fund, Inc.—Capital Stock Offered—Kidder, Peabody & Co. is dealer-manager of a group that is offering shares of Westminster Fund, Inc. capital stock in exchange for the shares of selected quality companies, particularly those with good growth potentials. The basis of the exchange will be one share of the fund for each $12.50 of market value of securities received.

The fund has been organized to provide to investors owning large blocks of securities an opportunity to diversify their holdings without incurring Federal capital gains tax liability on the exchange. By exchanging their securities for shares of the fund, investors will become participants in a securities portfolio which will have the benefits of diversification and experienced professional investment management.

REQUIREMENTS—The aggregate market value of one or more securities deposited by an investor must be at least $25,000. The exchange will not be consummated unless securities having a market value of at least $30,000,000 are deposited and accepted by the fund.

PURPOSE—The investment objective of the fund is to seek possible long-term growth of capital and income. It is expected that the assets of the fund will be largely invested in quality common stocks of companies which are believed by the management to have good growth potentials, but there is no requirement that the fund invest in common stocks exclusively. The fund's charter permits investment in preferred stocks, corporate bonds and obligations of any government or instrumentality or the holding of cash.

The fund will consider for inclusion in its initial portfolio the common stocks, or securities convertible into common stock, of any good quality company which the management of the fund believes has better than average growth potentials.

POLICY—It is the policy of the fund each year to distribute to shareholders substantially all of its investment income and thus to comply with special provisions of the Internal Revenue Code relating to investment companies. It is presently anticipated that these dividends will be in the form of additional shares at net asset value, or in cash, at the option of the shareholder. By following this policy, the fund expects to be relieved of the payment of Federal income taxes on net investment income and on any net realized long-term capital gains distributed to its shareholders.

REDEMPTION—The fund is required to redeem at net asset value, out of available assets, all shares of the fund delivered for redemption. It is anticipated that the fund will normally redeem shares for cash, although it reserves the right to redeem shares, wholly or partly, in portfolio securities.

OFFICERS—Howard C. Sheperd, formerly president and chairman of the board of The First National City Bank of New York, is chairman of the board of Westminster Fund, Inc., and Hugh W. Long, chairman of Hugh W. Long & Co., Inc., is president of the fund.

ADVISOR—Investors Management Co., Inc. is investment advisor to the fund. It has been active in the investment management field for 36 years and is investment advisor to Fundamental Investors, Inc., Diversified Investment Fund, Inc. and Diversified Growth Stock Fund, Inc., three mutual funds which are distributed nationally by Hugh W. Long & Co., Inc., and which have combined net assets in excess of $800,000,000.—V. 193, p. 52.

West Texas Utilities Co. — Bonds Offered — Kidder, Peabody & Co.; Eastman Dillon, Union Securities & Co.; White, Weld & Co., and Shields & Co. offered publicly on Feb. 16 an issue of $8,000,000 of the company's 4⅝% first mortgage bonds, series F, due Feb. 1, 1991, at 102.547% to yield 4.47%. The group was awarded the issue at competitive sale on Feb. 15 on a bid of 101.81% for the 4⅝% coupon. Competing bids, all for a 4⅝% coupon, included: Equitable Securities Corp., 101.3499; Merrill Lynch, 101.337; First Boston Corp., 101.297; and Halsey, Stuart, 101.26.

PROCEEDS—Net proceeds from the sale of the new first mortgage bonds will be used by the company to pay for a part of the cost of additions, extensions and improvements to its electric utility properties including the payment of $3,600,000 of short-term bank loans. The company's construction expenditures are presently estimated at $13,234,000 for 1961 and $10,929,000 for 1962.

REDEMPTION—The bonds are redeemable at the option of the company at general redemption prices ranging from 107.18% to par, and at debt retirement redemption prices ranging from 102.51% to par.

BUSINESS—A subsidiary of Central & South West Corp., the company is a public utility engaged in generating, purchasing, transmitting, distributing and selling electric energy in central and southwestern Texas. At Nov. 30, 1960, the company furnished electric service at retail to about 114,540 customers in 166 communities and adjacent rural areas, located in 50 counties in Texas, and supplied electric energy at wholesale to 15 rural electric cooperatives.

EARNINGS—For the 12 months ended Nov. 30, 1960, electric revenues of the company amounted to $25,538,071 and net income to $5,119,193 compared with electric revenues of $23,874,291 and net income of $5,076,265 in the calendar year 1959.

CAPITALIZATION—Giving effect to the sale of the new first mortgage bonds and the repayment of short-term bank loans, capitalization of the company at Nov. 30, 1960 was: $53,822,000 in first mortgage bonds; 60,000 shares of cumulative preferred stock, par $100; and 1,675,000 shares of common stock, par $10.—V. 193, p. 750.

Wilson Brothers—Completes Acquisition—

Wilson Brothers has acquired, in exchange for an undisclosed number of common shares, the remaining 50% of the stock of Parallite Manufacturing Co., Export, Pa., from Dr. Albert H. Lasday and other Pittsburgh businessmen. Parallite, formerly a 50% owned affiliate, will become a wholly-owned subsidiary of Wilson Brothers, according to a company announcement.

Maurice Parker, Chairman of Wilson Brothers, said that Parallite equipment and personnel will be moved to the 260,000 square foot facility of Houze Glass Corp., at Point Marion, Pa., to obtain the advantages of centralizing two fiberglass producing facilities.

Parallite is engaged in developing and producing extremely high strength glass fiber reinforced plastic with an undirectional flexural strength as high as 250,000 pounds per square inch. Wilson Brothers acquired all of the Houze Glass common stock from Thomas Mellon Evans, Pittsburgh industrialist, last December. Most recent of the Houze developments is a high strength fiber glass product known as "Hi-Mod" which is now available for commercial adaption and production. Its main uses rest in the missile and aircraft field where its weight to strength ratio, approximately 20 times that of steel, is finding many applications.

Houze also makes a variety of colored technical and art glass, including pressed glass, colored machine drawn glass, hand-blown colored flat glass and fiber glass.

Wilson Brothers, listed on the American Stock Exchange, manufactures an integrated line of industrial air compressors, kitchen equipment and gas and electric glass-lined water heaters for residential, commercial and industrial use. It is also engaged in the engineering and research, the design, fabrication and erection of highway bridges, and the manufacture of textiles, as well as high strength fiber reinforced plastics.—V. 192, p. 2556.

Wings & Wheels Express, Inc.—Common Stock Offered—Pursuant to a Feb. 13 prospectus, Globus, Inc., and Ross, Lyon & Co., Inc., both of New York City, publicly offered 85,000 shares of this firm's 1¢ par common stock at $3 per share.

The company is engaged principally in the business of freight forwarding by air. Although the company's principal offices are located in Chicago and New York, it also has facilities in the other cities to, and from which, it provides air freight forwarding service. According to the reports filed by air freight forwarders with the Civil Aeronautics Board for the calendar year 1959, the company ranked sixth among all domestic air freight forwarders in volume of gross revenues and fifth in tons of freight received from shippers for shipment by air. The company has been in the local cartage business since 1946, and the air freight forwarding business since 1951.

Common stock purchase warrants	34,000 shs.	34,000 shs.

* Exclusive of 34,000 shares reserved for issuance upon exercise of outstanding common stock purchase warrants and of 34,000 shares reserved for issuance pursuant to outstanding restricted stock options.

PROCEEDS—The company has tentatively allocated the net proceeds as follows:

Expansion and modernization of existing air freight facilities	$20,000
Office machines and equipment for existing facilities	4,400
New air freight facilities	20,000
Expansion of sales organization	50,000

The remaining net proceeds, approximately $100,000, will be added to the working capital of the company in order to finance accounts receivable and for general corporate purposes.

Winter Park Telephone Co.—Proposes Rights Offering

This company of 132 East New England Ave., Winter Park, Fla., filed a registration statement with the SEC on Feb. 13, 1961, covering 33,638 shares of common stock. The company proposes to offer such stock for subscription by stockholders of record on the basis of one new share for each three shares held. The subscription price and record date are to be supplied by amendment. Any stock not subscribed to by stockholders will be offered for public sale. No underwriting is involved.

The net proceeds from the stock sale will be applied as follows: $256,500 for central office equipment, $266,500 for new station equipment, $525,000 for cable and wire, and the balance for miscellaneous plant, equipment and financing expenses. The company expects to invest during 1961 about $1,500,000 in new telephone facilities. In addition to debt and preferred stock, it has outstanding 1,009,140 shares of common stock, of which Josey Key Galloway, President and board chairman and Braxton Allison Galloway and Carl Hill Galloway, Jr., Vice-Presidents, and their wives as joint tenants, own 11,986, 11,537 and 11,679 shares, respectively. According to the prospectus, the named stockholders have indicated their intention to exercise their rights to purchase the stock being offered.—V. 193, p. 52.

Young Spring & Wire Corp.—Sells Division—

See Tool Research & Engineering Corp., above.—V. 192, p. 2270.

Zero Manufacturing Co.—Sales Up, Net Down—

Sales for the nine months ended Dec. 31, 1960 increased over those of last year despite generally unsettled conditions throughout the electronics industry, president John B. Gilbert announced in an interim report to shareholders.

Sales amounted to $3,908,569 compared with sales of $3,598,197 for the like period of the previous year.

Mr. Gilbert stated that the fiscal year to date has been characterized by intermittent starts and stops on a number of defense, missile and electronic hardware programs which require housings, carrying cases and containers. This produced a lower than anticipated volume of sales which adversely affected earnings, he said.

Earnings amounted to $100,874 equal to 12 cents a share on the 856,655 common shares, the average number outstanding during the period. For the comparable year-ago period earnings were $197,523 or 29 cents a share based on 682,902 shares, the average number outstanding during that period. The increase in the average number of shares outstanding between the two periods stems from acquisitions made by the company and the public sale of 125,000 common shares in May, 1960.—V. 192, p. 1958.

TENNESSEE

Tennessee Valley Authority (P. O. Knoxville), Tenn.

Issues Quarterly Report — Net income from TVA's power operations during calendar year 1960 exceeded $52 million, up $2.6 million over 1959, according to the agency's report for the second quarter of its fiscal year 1961. The total of net power proceeds ("cash flow") for the year was nearly $102 million. TVA has paid a dividend of $20.7 million to the U. S. Treasury on the appropriations invested in the power system. This is half the total payable during fiscal 1961.

New records of loads and generation were established during the quarter. A peak hourly demand of 10,322,000 kilowatts occurred in January exceeding December's peak by 20,000 kilowatts and last winter's peak by 681,000 kilowatts. Despite the continued slump in industrial production, TVA's sales to industry rose a little during the first six months of the fiscal year. Sales to municipal and cooperative distributors were 9% higher than in the corresponding quarter a year ago.

In December TVA placed an order with the General Electric Company for two 800,000-kilowatt turbogenerators which will be the largest ever manufactured. The price per kilowatt is $21 for one unit, or as low as $19 for both if built on a favorable shop schedule, continuing a recent downward trend in turbine prices.

Construction progressed on 3 million kilowatts of other new generating capacity, most of it in five record-size steam generating units to be in service by the end of 1963. When the first of the 800,000-kilowatt units is in service the installed capacity of the TVA power system will exceed 15 million kilowatts.

TEXAS

Brownsville, Texas
