ACF Industries, Inc.—Earnings Estimate—

Earnings of ACF Industries, Inc. for its fiscal nine months ended Jan. 31, 1961 will be higher than in the corresponding period a year ago, but net income for the full fiscal year is expected to be slightly below that for the previous year, William T. Taylor, Chairman, told members of the Society of Investment Analysts at Washington, D. C., on Feb. 15.

A final quarter that "will not compare favorably with that of fiscal 1960," he explained, is expected to result in a figure of about $5,000,000 for combined net earnings from operations—or $3.52 per share of common stock—compared with $5,166,000, and $3.64 a share, the preceding year.

"Last February," Mr. Taylor said, "we recently had seen the end of a steel strike" and "with a pent-up backlog of new railroad car orders flowing in, we could look forward then to a high level of production for the remainder of the fiscal year." But at present, he said, ACF together with the rest of the industry, has a low backlog of railroad car orders. "Because of the long-lead nature of the railroad business," he added, "even if orders for cars should be forthcoming today, they could not in the main be converted to sales before the end of the fiscal year."

A brighter aspect, Mr. Taylor said, is the steady growth in car leasing business "the growth rate in numbers of cars in ACF's fleet has averaged about 5% compounded over the past ten years. It is estimated that the combined earnings of Shippers' Car Line Division and SHPX car leasing activities, which now totals 20,216 cars for the fiscal year ending April 30, 1961, will be approximately $4,258,000, or $3 per share."—V. 193, p. 1.

Adler Electronics, Inc.—Offering and Secondary—

Adler Electronics, Inc., 1 LeFevre Lane, New Rochelle, N. Y., filed a registration statement with the SEC on Feb. 20, 1961, covering 160,000 shares of common stock, of which 110,000 shares are to be offered for public sale by the company and 50,000 shares, being outstanding stock, by the present holders thereof. The offering is to be made on an all or none basis through underwriters headed by Carl M. Loeb, Rhoades & Co. The public offering price and underwriting terms are to be supplied by amendment.

The company is engaged in the design, development, production and sale of advanced electronic communications systems and equipment, including transportable communications systems and heterodyne repeater transmitting and receiving equipment for radio, television and microwave. The net proceeds from the company's sale of additional stock will be added to working capital. Initially the proceeds will be used to pay a $500,000 demand bank loan and the balance to reduce $1,584,647 of short-term bank loans which were incurred to defray expenses of production.

According to the prospectus, Richard C. Ernst, a director, is the holder of record of all of the 1,388 outstanding shares of $1 par preferred stock of the company, which have a redemption value of $250 per share, or a total of $347,000. This stock, as well as common stock registered in his name, is held on behalf of a group including members of his and his wife's families, certain corporations and others. The group has agreed to surrender upon redemption thereof the preferred shares and an outstanding $75,000 note and, with the $422,000 proceeds, to purchase 28,129 additional common shares at $15 per share.

In addition to the said loans, note and preferred stock, the company now has outstanding 524,000 shares of common stock, of which Benjamin Adler, President, owns 212,000 shares and proposes to sell 25,000 shares. Ernst holds of record (in addition to 15,625 shares beneficially owned) an aggregate of 248,375 common shares of which 100,500; 52,710 and 36,500 shares are owned beneficially by Lyman G. Realty Corp., B. Bros. Realty Corp. and Hercer Corp., respectively, and each proposes to sell 10,000 8,500 and 6,500 shares, respectively. After the foregoing transactions, the Ernst group will own an aggregate of 267,129 shares.

Aerosol Techniques, Inc. — Common Stock Offered—Michael G. Kletz & Co. Inc. is manager of an underwriting group which offered on Feb. 24, 130,000 shares of Aerosol Techniques, Inc. common stock at a price of $4 per share.

PROCEEDS—Net proceeds from the financing will be used by the company for various corporate purposes, including payment of a bank loan, and financing an increase in accounts receivable. The balance of the proceeds will be added to working capital.

BUSINESS—Aerosol Techniques, Inc., incorporated in August, 1955, manufactures cosmetic, household and pharmaceutical and medicinal aerosol products for other concerns for sale by them under their own brand name. Contents of the aerosol products are placed under pressure or compressed gas, so that when a valve is pressed the contents are dispensed automatically from the container as a spray, foam or stream, or in other form. Among the company's clients are John H. Breck, Inc., Max Factor & Co. and Gillette Safety Razor Co.

EARNINGS—For the fiscal year ended Sept. 30, 1960, net sales of the company were $7,052,371. Net income was $294,644, equal to 34 cents per common share, based on 300,000 shares outstanding. Sales for fiscal 1959 were $4,771,745 and net income was $193,166, equal to seven cents per share.

CAPITALIZATION—Upon completion of the current financing, outstanding capitalization of the company will consist of $194,000 of 6% bank notes; $107,998 in trade accounts payable; $21,895 in equipment accounts payable, and 430,000 shares of common stock.

Associates in the underwriting group are: Rittmaster, Adelberg, Voisin & Co.; Stanley Heller & Co.; Kesselman & Co., Inc., and Lieberbaum & Co.—V. 193, p. 1.

Alkon Industries, Inc.—Common Stock Sold—Pursuant to a Feb. 14 offering circular, Meade & Co., 27 William St., New York City, publicly offered and sold 50,000 shares of this firm's 10¢ par common stock at $5 per share.

BUSINESS—It is intended that a principal activity of the company will be the manufacture and sale of the Hassler Curing Unit, all rights to which are owned by the company. Purchasers of said curing unit will be enabled to use the Hassler System for Bulk Curing of Flue-Cured Tobacco, which system the company also owns exclusively.

The company's offices are situated at 400 Morris Avenue, Long Branch, New Jersey. Flue-cured tobacco is a type of tobacco so called because it is conventionally cured by stringing and hanging the tobacco leaves and drying (curing) same by means of flues. The predominant use for flue-cured tobacco is in the manufacture of cigarettes, and said type of tobacco accounted for approximately 61% of the total United States tobacco acreage in 1960, 60% thereof in 1959 and 59% thereof in 1958.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

	Authorized	Outstanding
Common stock (par 10c)	500,000 shs.	*128,500 shs.

*This does not include 6,000 shares reserved for issue in the event that the company issues to the underwriter options.

APPOINTMENT—Corporation Trust Co., 120 Broadway, New York, N. Y. is transfer agent for the company's common stock.

DIVIDEND—No dividends have been paid on the stock of the company, or of any of its predecessors.

PROCEEDS—The proceeds to the company will be $217,500 after payment of the finders' fee and underwriter's commission.

It is contemplated that these proceeds will be utilized for debt reduction, promotion, equipment, and working capital.—V. 193, p. 197.

All-State Credit Corp.—Files for Offering—

This corporation, of 71 West Merrick Road, Valley Stream, N. Y., filed a registration statement with the SEC on Feb. 21, 1961, covering 200,000 shares of class A stock, to be offered for public sale at $5 per share. The offering will be made on a "best efforts all-or-nothing" basis through Mortimer B. Burnside & Co., Inc., which will receive a 75 cents per share commission and $30,000 for expenses. The company has agreed to sell the underwriter an additional 30,000 class A shares at 10 cents per share, and the underwriter will sell 3,000 such shares to Ira W. Berman at the same price for his services in arranging the financing.

The company operates a sales finance company, specializing in the purchase of conditional sales contracts from furniture and appliance dealers throughout the metropolitan New York City area. It also engages in commercial financing on automobile and commercial equipment, as well as advancing funds to business concerns secured by liens against inventory and other collateral. The net proceeds from the stock sale will be used to reduce outstanding indebtedness to a leading institution in the amount of $732,211.96, and the balance will be added to working capital.

In addition to certain indebtedness, the company has outstanding 300,000 shares of class B stock, of which Joseph R. Sterling, President, Leo Vine, Vice-President, and Sidney M. Vine, Secretary-Treasurer, own 100,000 shares each. The class B stock will be convertible into class A stock on a share for share basis.

American Airlines, Inc.—Revenues Up, Sales Down—

This company has reported net earnings from operations of $10,039,000 for the year ended Dec. 31, 1960, against $13,330,000 for the year 1959.

In addition, there were profits on the disposal of property and equipment (net after tax) amounting to $1,744,000 for 1960, compared with $7,683,000 for the year 1959.

Based upon the average number of shares of common stock outstanding during the year, excluding profits on the disposal of property and equipment, the earnings for the year 1960 were $1.19 per share and $1.59 per share for 1959. Earnings, including profits on the disposal of property and equipment for the year ended Dec. 31, 1960 were $1.40 per share and $2.53 for the year 1959.

C. R. Smith, President, stated that 1960 revenues, a record $428,500,000, represented an increase of 13.4% over 1959 revenues of $377,700,000.

During 1960, American carried 8,614,000 passengers a total of 6,405,000,000 revenue passenger miles, an increase of 11.6% over the 5,737,000,000 revenue passenger miles for 1959.

American Airlines carried 115,185,000 ton miles of airfreight in 1960, an increase of 11.6% over 1959.—V. 191, p. 601.

American Brake Shoe Co.—Earns., Shipments Decline

Shipments in 1960 almost matched the 1959 level, but increased cost factors resulted in a 26% decline in net earnings, it was announced on Feb. 21 by Kempton Dunn, President of the company. Shipments in 1960 of $164,586,507 were only 2% lower than 1959 shipments of $168,028,632. However, net earnings declined from $7,681,383 in 1959 to $5,666,874 in 1960.

Net earnings per common share were $3.48 in 1960 and $4.72 in 1959.

Cost factors producing the earnings decline were strikes, the transcontinental transfer of one division's facilities, expenses of starting up new manufacturing operations in Europe, increases in wages, and improvements in employee benefit plans, Mr. Dunn said. Some of these costs are non-recurring in nature, he said, and earnings should rise when customer demand increases.

American Brake Shoe suffered ten strikes during the first quarter of 1960. Nine were settled quickly, but a strike of more than 500 employees at a large plant was not settled until September.

The company's Kellogg Division—a major manufacturer of airborne hydraulic pumps and system components—was transferred from Rochester, New York, to Oxnard, California, during 1960. The interruption in the Division's operations was an important extraordinary cost factor.—V. 193, p. 2.

American Cyanamid Co.—Earnings Down—

The company's net earnings in 1960 amounted to $46,821,000 or $2.20 a share, in comparison with $52,284,000 or $2.46 a share in 1959, it was announced on Feb. 13 by Wilbur G. Malcolm, President.

Net sales in 1960 totalled $578,390,000, slightly lower than 1959 sales of $583,575,000.

Mr. Malcolm commented that earnings in 1960 were affected by the general decline in business activity in the last half of the year, by increasing outlays for additional field personnel to make possible more effective marketing of Cyanamid products, and by lower sales prices. Other adverse factors, he said, were increasing expenditures for the development of markets for Creslan acrylic fiber, and a 12-week strike at the Fortier plant near New Orleans.

Sales in the fourth quarter of 1960 totalled $136,386,000 and net earnings were $9,851,000 or 46 cents a share compared to sales of $141,567,000 and earnings of $12,256,000 or 57 cents a share in the final quarter of 1959. Third quarter sales in 1960 were $136,850,000 and earnings of $8,533,000 or 40 cents a share.—V. 192, p. 1809.

American International Bowling Corp.—Revs. Soar—

Gross revenues for January, 1961 amounted to $555,000, a 122% increase over $250,000 in the same month in 1960, Lloyd R. Ludwig, President, reported on Feb. 20.—V. 192, p. 2013.

American Recreational Development Corp.—Class A Common Stock Offered—Pursuant to a Feb. 10 offering circular, Investment Securities Co. of Maryland, Inc., Baltimore 2, Md., publicly offered 100,000 shares of this firm's 10¢ par class A common stock at $3 per share.

BUSINESS—The corporation was incorporated under the laws of the State of Maryland on May 23, 1960. The corporation has its principal place of business at 210 E. Lexington Street, Baltimore 2, Md.

The corporation was organized for the primary purpose of developing and operating businesses in the leisure and recreational fields. To further this objective it will acquire, construct, finance and operate leisure time/recreation projects or centers, including club/recreation and community centers, as well as necessary or useful improvements, such as swimming pools, bowling alleys, ice-skating rinks and club houses.

PROCEEDS—The net proceeds to the corporation will be used for land, roads and equipment for a country club.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

	Authorized	Outstanding
*Class A common stock (par val. 10c)	350,000	110,000 shs.
Class B common stock (par val. 10c)	150,000	100,000 shs.

* 22,000 shares of class A common stock are reserved for the issuance of options.—V. 192, p. 1394.

Apex Smelting Co.—Net Up, Sales Down—

The Chicago company reported on Feb. 17 net earnings of $993,793 after taxes for the year ended Dec. 31, 1960, up from $654,220 the year before.

The 1960 earnings, which included $137,425 of non-recurring income from the sale of land, amounted to $4.87 per share based on 203,986 shares of common stock outstanding. Earnings in 1959, based on 204,386 shares outstanding, were equal to $3.20 per share.

William A. Singer, Chairman, and Louis Lippa, President, told shareholders that the 31% increase in earnings from operations was

gitized for FRASER
http://fraser.stlouisfed.org/

"due to increased efficiencies resulting from improved facilities and other factors."

Sales were $34,273,173, down from $40,245,942 the year before.

"In view of the adverse economic conditions which prevailed during most of the year, our operating results for 1960 were gratifying," the report to shareholders stated.—V. 190, p. 1830.

Arklahoma Corp.—Seeks Status Determination—

This corporation, of Little Rock, Ark., has applied to the SEC for an order under the Holding Company Act declaring that it is not a subsidiary of Southwestern Electric Co., Shreveport, La.; and the commission has scheduled the application for hearing on April 13, 1961. Southwestern and its parent, Central and South West Corp., have joined in the application.

Southwestern is an electric-utility company operated in Arkansas and Oklahoma. Arklahoma is an electric transmission company all of whose facilities are located in the same states. Southwestern owns 32% of the capital stock of Arklahoma; and the balance of the stock is owned in equal amounts by Arkansas Power & Light Co. and Oklahoma Gas and Electric Co., neither of which is affiliated with Southwestern or with each other.

Armour & Co.—Unlisted Trading Sought—

The Pacific Coast Stock Exchange has applied to the SEC for unlisted trading privileges in the common stock of Armour & Co. (Delaware); and the commission has issued an order giving interested persons until Mar. 3, 1961, to request a hearing thereon.—V. 193, page 101.

Armstrong Cork Co.—Sales Up, Net Down—

Record sales of $291,539,000 and earnings of $16,225,000—second highest in its history—were reported for 1960 by the Armstrong Cork Company.

In 1959 the company had sales of $290,620,000 and earnings of $19,207,000.

Armstrong manufactures resilient flooring, building products, industrial specialties, and packaging materials.

Earnings per share of common stock, after deducting preferred dividends, were $3.08 compared with $3.69 the previous year, based on the weighted average of shares outstanding during both years. Dividends paid on common stock totaled $1.60 per share, the same as in 1959.

Earnings before taxes were $32,825,000, compared with $39,707,000 in 1959. In 1960 earnings after taxes were 5.6% of sales as compared with 6.6% in the previous year.

Wages, salaries, and employee benefits in 1960 totaled $99,753,000.

C. J. Backstrand, Armstrong President, said that in achieving record sales in 1960, the company "had to contend with lagging demand and unusually keen competition.

"Dealing with these problems required increased outlays for advertising, selling, sales promotion, and new product development. Other operational expenses, including wage and salary payments, were at a higher level.

"In the case of most of the company's products, competitive conditions prevented advances in selling prices to offset these greater costs," he said.

"Markets for building products and resilient floors were notably mixed in 1960. New housing starts declined about 18% from the 1959 level, but the rate of commercial and institutional building held up well.

"Sales of packaging materials continued in steady volume while there was a lessened demand for insulating materials and industrial specialties, as industrial users of these products reduced their inventories and curtailed new purchases," Mr. Backstrand said.

Corporate and Municipal Financing Ahead

By SIDNEY BROWN

Public corporate and municipal offerings this week (Feb. 27-March 3) with tentatively assigned dates come to $255 million and about two-thirds of this consists of tax-exempts. By adding the to-be-negotiated $100 million New York State Power Authority to this total, the week's financing demand moves up to a more impressive $355 million.

The Federal Reserve announced on Feb. 20 that it has decided to try to lead the declining long term yield rate down faster and further and to strengthen further the rise in short term yields. Bond prices generally improve during business declines but the upward price rises in the stock market create an entirely new and confusing situation. A rise in short term interest rates usually accompanies recovery periods. Money becomes more expensive to borrow as competition for the available supply increases. The stock market's revival and the rising short term money market are congruous, but the capital market's different tune may provide an incongruous counterpoint instead of harmony. The Treasury and the Federal Reserve are hoping that the pursuit of contradictory interest rate aims will not be self defeating.

Bond issuers, of course, are happy about these moves while worried whether rising short term yields and stock prices will not shift funds to their disadvantage. The paucity of and need for bonds, and the increase in available savings, provide a good omen for favorable bond prices and financing. The Federal Reserve's radical entry here should reinforce this trend more strongly. The gambit will work if funds are not diverted from the long term market. While corporate financing prospects do not loom too large, municipals authorized but unissued are of significant size and can be expected to take advantage of lowered costing financing terms. The pace and extent of the latter may mount to such a size that it could affect the yield trend. What might develop is this: banks, insurance companies, pension funds, and large individual borrowers may avail themselves of as much short terms as possible and this marginal amount may offset Federal Reserve moves. Then, should there be a deluge of municpal offerings and an increase in corporate bonds, the result of the two moves may bring about a different picture than the one our money managers are trying to develop.

The recent creation by large New York banks of marketable time deposit interest-bearing certificates competitive with Treasury bills may bring about one of two things. One, it may increase the supply of short-term investment outlets and, hence, help depress price and raise yields in this area. This from the Treasury-Federal Reserve point of view would be a pleasurable development. But, two, it may do the opposite by tempting long-term funds into this market. If the marginal amount which may shift proves significant enough it could decrease a sufficient supply of long-term investment funds and, as a result, check, if not lower, the upward rise in bond prices. The extent of what has happened to the latter may be seen in the fact that highs on the New York Stock Exchange bond tradings are running about three-and-one-half times more than the lows. In the last two months of 1960 the highs and lows were running about neck and neck.

In the event Regulation Q is lifted for non-demand deposits, and there is good reason to believe that the banks are counting on this to back up their drive to increase time deposits in the competition for savings, and principal banks throughout the country emulate the New York banks, the interest rate "nudging" ability of the Federal Reserve will become rather difficult. The second possibility could, then, become more probable with a raise in allowable Regulation Q interest rates banks can pay on time deposits. The foreboding alternative is for the Fed to more than match the decrease in demand for long-term investments with greater open market purchases if it is going to nudge bond prices up during a bullish stock market period.

FEDERAL RESERVE HOLDINGS

As it is the Federal Reserve's holdings of U. S. Governments are approximately $27 billion. About $10.5 billion already is within the one to five year maturity range and it is doubtful if the Fed would find it wise to add much in this segment. As of Thursday, Feb. 23 this is what the Federal Reserve's Open Market Committee purchased: $7 million of one-to-five-year maturities (3¾s of 1964 and 4⅝s of 1965); and $6 million in five-to-ten-year range (3⅞s due in 1968). This is smaller than what the market believed would be the initial plunge into the new era of nonnormalizing long-term purchases.

Last February, 1960, the Fed's portfolio contained $25,253 million in government securities. Approximately a year later, the weekly average for the week ending this past February 22 was $26,740 million—which includes the venture into long terms. Member bank free reserves came to $659 million last week compared to negative (—$361 million) reserves for the month of February, 1960.

FOUR-WEEK FINANCING FLOAT

	Corporate Bonds	*Corporate Stocks*	*Total Corporates*	**Municipals*	*Total of Both Financings*
Feb. 27-Mar. 3	$56,750,000	$32,632,510	$89,382,510	†$266,082,000	$355,464,510
Mar. 6-Mar. 10	6,477,300	50,725,670	57,202,970	108,542,000	165,744,970
Mar. 13-Mar. 17	------	18,134,950	18,134,950	170,855,000	188,989,950
Mar. 20-Mar. 24	108,000,000	91,200,000	199,200,000	1,485,000	200,685,000
Total	$171,227,300	$192,693,130	$363,920,430	$546,964,000	$910,884,430
Last Week's Data	47,362,300	1,094,479,190	1,141,841,490	369,360,000	1,511,201,490

* *$1 million or more.*

† *Includes $100 million private negotiation of N.Y. State Power Authority.*

A still more important question than Federal Reserve purchases is the question of monetization. In short, will the Fed sell short terms to offset its long term purchases and, thus, supply the member bank reserve credit it normally intended to, or will the Federal Reserve expand credit beyond what it would believe to be the proper amount? Dr. Roy L. Reierson of Bankers Trust, for one, in favoring the change to long term buying, hopes that the Federal Reserve will merely substitute bonds for bills and certificates whenever it was going to provide more credit. [Cf. the *Chronicle*, Feb. 23, p. 12.] The coming weeks should tell us more.

The four-week backlog of issues with dates and the float of issues with firm offering intentions, with and without dates, from Feb. 27 on are summed up in the tables below. The securities recapitulated are the ones described in the latest *Chronicle* issues—today's and last Thursday's. Missing from the backlog, of course, is the record high A.T.&T. rights offering which took effect last Feb. 23. The float declined two-thirds with new additions amounting to about $300 million.

MUNICIPALS GAIN IN THE TOTAL BACKLOG

The total backlog below depicts issues with defined offering terms and can be classified as serious contenders for investment funds. Municipals have added about $80 million since last week, despite a week of active offerings. New corporate issues without calendar dates in this backlog are: North American Car Corp.'s 150,000 shares of common, Marine Capital Corp.'s 667,000 shares, Beckman Instruments, Inc.'s 70,000 shares, and New England Tel & Tel's stockholder's rights of 3,150,000 shares and $45 million of 38-year debentures for competitive bidding around April 11.

	Total Backlog			
	This Week		*Last Week*	
Corporate bonds with dates	$362,227,730	(25)	$284,862,300	(23)
Corporate bonds without dates	78,528,250	(27)	84,468,400	(25)
Total bonds	$440,755,980	(52)	$369,330,700	(48)
Corporate stocks with dates	$353,996,130	(83)	1,121,479,190	(81)
Corporate stocks without dates	268,275,960	(164)	201,193,220	(144)
Total stocks	$622,272,090	(247)	$1,322,672,410	(225)
Total corporates	†$1,063,028,070	(299)	$1,692,003,110	(273)
Total Municipals with dates	$667,284,000	(75)	$584,680,000	(60)

† *Includes six preferreds of $96,556,000 with dates and four preferreds of $3,036,000 without dates.*

OFFERINGS BEYOND THE FIRM BACKLOG

Looking beyond the announcements of securities with firm offering intentions to reports of financing which may materialize we find that they add up to a possible $2.6 billion This possible backlog added to the probable backlog above aggregate $3.6 billion. Added to the list of possible financing are: Central Louisiana Electric Co. is considering $6 million in bonds or debentures; Cincinnati Gas & Electric Co. may seek $45 million in stocks and bonds; Continental Industries, Inc. may negotiate sale of $5 million of convertible debentures; General Telephone Co. of California plans to sell 10 million preferreds—besides the announced $20 million bonds; General Telephone Co. of Florida may sell $10 million in preferreds—besides reported $15 million bonds. SONY Corp. reportedly will sell two million shares in the summer; and West Penn Power may seek $25 million in 1962.

CHANGES IN THE PAST WEEK

Additions to the *Chronicle's* Feb. 23 calendar amounted to the sizable sum of $293,942,810. The addition of state and local issues to the calendar of larger securities came to $129,379,000.

Corporate sales in the week through Feb. 22 were $32,768,320 of which $28,393,320 were senior debt securities. Private placements made known in the same period came to $6.7 million. In addition the A.T.&T. rights to stockholders became effective Feb. 23. Municipal sales in the same week amounted to $71,420,000.

LARGER ISSUES IN THE NEXT FOUR WEEKS

Included in the following list of the larger corporate and municipal issues expected in the next four weeks are two equipment trust certificates:

Week of Feb. 27-Mar. 3: 155,000 shares of Mortgage Guaranty Insurance Corp., common; 250,000 shares of Whippany Paper Board Co., Inc., common; $40.5 million in debentures of American Machine & Foundry Co.; 360,000 shares of Berkey Photo Service, Inc., common; $5.1 million of equipment trust certificates of Great Northern Ry.; 50,000 units of Jonker Business Machines, Inc.; $9.5 million in bonds of States Steamship Co.; *and in Municipals*—$5,573,000 of Natrona County School District, Wyo.; $30 million Alabama Education Authority, Ala.; $5 million Charlotte, N. C.; $11.4 million Prince Georges County, Md.; $11 million Shelby County, Tenn.; $5 million Tucson, Ariz.; $30 million Chicago, Ill.; $9 million Los Angeles Dept. of Water & Power, Calif. $100 million N. Y. State Power Authority; $8.1 million Illinois University, Ill.

Week of Mar. 6-Mar. 10: $5 million Fund of America, Inc., common; $20 million in units of Municipals Investment Trust Fund, Series A; 121,870 shares of Random House, Inc., common; 263,000 shares of Storer Broadcasting Co., common; $7,785,000 equipment trust certificates of Louisville & Nashville RR; *and in Municipals*—$15 million Denver, Colo.; $20,850,000 New Jersey; $40 million Puerto Rico; $10,634,000 St. Paul, Minn.

Week of Mar. 13-Mar. 17: 500,000 shares of Greenfield Real Estate Investment Trust, ben. int.; *and in Municipals*—$4 million Cincinnati City School District, Ohio; $15 million Duval County Board of Public Instruction, Fla.; $7,936,000 Hempstead, N. Y.; $25 million Pennsylvania General State Authority, Pa.; $10 million Washington Sub., San. Dist., Md.; $100 million Kentucky (State of).

Week of Mar. 20-Mar. 24: $10 million in bonds of Atlantic City Electric Co.; $70 million in debentures of Southwestern Public Service Co. and 120,000 shares of preferred; 800,000 shares of preferred and $13 million in bonds of Alabama Power Co.; 273,437 shares of Rochester Telephone Corp., common; $70 million Southwestern Bell Telephone & Telegraph Co., bonds; *and in Municipals*—There are no large municipal issues scheduled as yet for this week.

February 23, 1961.

tized for FRASER
://fraser.stlouisfed.org/

Earnings of Armstrong foreign subsidiaries, expressed in U. S. dollars, were $1,247,000 on combined sales of $29,575,000. This compares with earnings of $1,461,000 on sales of $26,259,000 last year.

Mr. Backstrand said that earnings of Armstrong foreign subsidiaries were down even though sales increased, primarily because of costs in connection with the construction of a new resilient floor tile plant in Germany and losses sustained in getting started in the heat insulation business in Canada by an affiliate of Armstrong Contracting & Supply Corp., an Armstrong subsidiary in the industrial insulation contracting field.

Capital expenditures for 1960 totaled $22,827,000, the largest for any year in the company's history. This compares with $20,394,000 in 1959. Among major projects completed during the year were a high-speed manufacturing operation for vinyl-rotogravure floor coverings and a highly automated production line for unusual new types of plastic floorings at the company's Floor Plant in Lancaster, Pa.

Working capital at the end of the year was $49,406,000 compared with $52,370,000 in 1959. Shareholder equity in the company rose from $159,984,000 to $168,191,000. Total assets at the end of the year were $200,175,000 as compared with $189,217,000 at the close of the previous year. The ratio of current assets to current liabilities was 2.8 to 1 as compared with 3.0 to 1 at the end of 1959.

Inventories were $36,731,000 as compared with $39,769,000 in 1959. The book value of common stock rose fom $28.37 to $29.79.

Commenting on the future, Mr. Backstrand said, "there are some indications that the downward drift of general business activity may come to a halt by spring and that, following a brief leveling out period, the economy will resume an upward course.

"The major stimulus for the economy during the coming months is expected to come from the ending of an extended period of industrial inventory liquidation and from a modest expansion of certain construction markets.

"Indications are that the anticipated rising trend of general business in 1961 will not result in any relaxation of competitive pressures. Accordingly, the company's program of cost reduction, quality improvement, new product development, and imaginative merchandising will continue to be vigorously pursued," he said.—V. 190, p. 897.

Associated Dry Goods Corp.—Forms Foreign Sub.—

This corporation has formed its first foreign subsidiary, Associated Dry Goods International, Lewis P. Seiler, President of Associated Dry Goods Corp., announced on Feb. 20.

"The formation of Associated Dry Goods International, the new wholly owned foreign subsidiary of Associated Dry Goods Corp., is designed to facilitate the foreign buying for the Associated stores and to administer any other activity which the corporation may undertake in foreign countries in the future," Mr. Seiler said.—V. 193, p. 3.

Associates Investment Co. (& Subs.)—Volume Up, Net Down—

The South Bend, Ind. company, announced on Feb. 21, a consolidated net income for 1960 of $15,001,152, equivalent to $4.46 per share of common stock after payment of preferred dividends. This compares with $16,982,319 and $5.05 per share earned in 1959.

The 1960 total volume of finance business amounted to $1,800,804,787, an increase of $43,961,732 over 1959.

Retail installment volume dropped from $687,703,029 in 1959 to $640,721,494 in 1960. This resulted in part from the lower time sales balances on compact and used cars.

Wholesale volume increased from $762,795,475 in 1959 to $827,028,978 in 1960. Direct and personal installment loan volume increased from $144,807,121 to $163,564,204, and commercial loan and other installment receivable volume increased from $161,537,430 to $169,490,111.

In a joint statement commenting on the past year's activities, O. C. Carmichael, Jr., Chairman of the Board, and E. D. Campbell, President, said that net income from finance operations was off slightly in 1960, while automobile casualty insurance operations produced a small increase in income. The life insurance operations in 1960 were not able to overcome the adverse effect of higher income tax rates, rising mortality costs, and continued reduction in premium rates with the result that the over-all decline in life insurance earnings substantially accounted for the entire decrease in consolidated income.

As in the previous year the largest increase in expense was in the interest paid on borrowed money—an increase of $8,517,590 over 1959.

Total outstanding receivables as of Dec. 31, 1960 reached an all-time high of $1,092,533,496, an increase of $100,802,345 over the same date in 1959. Each major category of Associates financing achieved increases in receivables.

Unearned income on outstanding receivables rose from $64,065,060 at Dec. 31, 1959 to $67,871,419 at the end of 1960.

Emmco Insurance Company, the automobile insurance subsidiary, had a net income of $2,408,497 compared with $2,287,455 for the previous year.

The combined net income of the life insurance subsidiaries was $3,089,723 in 1960, down $1,774,344 from 1959. Federal income tax rates for life insurance companies rose again in 1960 reflecting the last step in a graduated tax rate increase before taxes accrue on life insurance earnings at approximately the general corporate rate.

Over the past year the results of the operations of the company were satisfactory in view of the many problems arising from developments in the national economy, and the higher interest costs which prevailed. Again at year-end 1960 as in 1959 the company's assets exceed the one billion dollar mark.

"We are looking forward to an improvement in all segments of our company in 1961," Mr. Carmichael and Mr. Campbell said. —V. 193, p. 599.

Atlas Powder Co.—Merger—

The proposed merger of Atlas Powder Co., Wilmington, Del., and The Stuart Co., Pasadena, Calif., has been approved by the Boards of Directors of both firms. The merger, which now requires the approval of Atlas and Stuart share owners, would involve a 4-for-1 split of the Atlas stock.

Announcement of the Boards' approval was made jointly by Ralph K. Gottshall, Atlas President, and Arthur Hainsch, President of Stuart. Atlas share owners will vote on the proposed merger at the company's annual meeting in Wilmington on April 25, and Stuart shareowners at a special meeting on the same date at the company's offices in Pasadena.

Atlas manufactures industrial chemicals and explosives and sells them in both domestic and international markets; Stuart manufactures ethical pharmaceuticals, which it distributes throughout the United States. Under the proposed merger, Stuart would operate as The Stuart Division of Atlas.—V. 191, p. 897.

Atlas Steels Ltd.—To Redeem Debentures—

The corporation has called for redemption on March 21, 1961, all of its outstanding 5% convertible debentures due Dec. 1, 1967 at 101½%. Payment will be made at any branch in Canada (far north excepted) of the Bank of Montreal.

Debentures are convertible into common stock to March 20, 1961, inclusive, at $24.13 per share or 42 common shares per $1,000 debenture plus payment of $13.46.—V. 174, p. 2186.

Automobile Banking Corp.—Capital Debentures With Warrants Offered—An underwriting group managed jointly by Reynolds & Co., Inc., and Cruttenden, Podesta & Co. offered publicly on Feb. 21 a new issue of $2,000,000 of this corporation's 6¼% capital debentures due 1976.

PRIVILEGE—Each $1,000 debenture, with an attached warrant to purchase 50 shares of the company's class A common stock, is priced at 100% and accrued interest. The warrants are detachable April 1, 1961 and are exercisable at $12.50 per share on or before Feb. 1, 1965 and at rising prices thereafter until expiration in 1971.

BUSINESS—Founded in 1920, Automobile Banking operates a consumer loan and sales financing business with 24 offices in Pennsylvania, six in New Jersey, three in Maryland and one in Delaware.

PROCEEDS—Proceeds from the current offer of securities will be added to general funds and used to expand the personal loan division of the business.

EARNINGS—In the year ended Sept. 30, 1960, the company and subsidiaries had gross operating income of $3,680,000 and net income of $434,000, compared with $3,106,000 and $355,000, respectively, in the prior fiscal year.

DIVIDENDS—Dividends have been paid on the common and class A common stocks at the annual rate of 70 cents per share in the past three fiscal years.

CAPITALIZATION—As adjusted for the current offering, the company's Oct. 1, 1960 capitalization, consisted of $15,617,000 of short-term borrowings; $6,190,000 of funded debt; $778,000 par value of convertible preferred stock in three series; 353,889 shares of class A common stock; 62,750 shares of common stock; and stock purchase warrants for 100,000 class A shares.

UNDERWRITERS—The obligations of the underwriters to purchase the respective amounts of debentures set forth opposite their names below are subject to certain conditions set forth in the purchase agreement.

	Amount		Amount
Reynolds & Co. Inc.	$475,000	McCormick & Co.	$100,000
Cruttenden, Podesta & Co.	250,000	Straus, Blosser & McDowell	100,000
Bache & Co.	150,000	Bateman, Eichler & Co.	75,000
Hemphill, Noyes & Co.	150,000	Chace, Whiteside & Winslow Inc.	75,000
Bioren & Co.	100,000	Reed, Lear & Co.	75,000
Fusz-Schmelzle & Co. Inc.	100,000	Chas. W. Scranton & Co.	50,000
H. G. Kuch & Co.	100,000	Smith, Hague & Co.	50,000
Lester, Ryons & Co.	100,000	C. T. Williams & Co. Inc.	50,000

—V. 193, p. 3.

Avien, Inc.—New Antenna System—

This Woodside, N. Y., manufacturer of electronic products, announced that the development of an antenna system to be used for the first unmanned tracking station ever built will be erected later this year by Edwards Air Force Base, and will be designed for operation without human supervision within several hundred miles.

The new antenna is known as the Avien-Bogner 762A. Its primary function will be to track very high speed, low flying vehicles. The company reported that the 762A will perform its task completely automatically, including the seeking out of the target and its tracking. If for some reason, contact is broken, the 762A will automatically relocate and track the target.

A major advantage reported by Avien for the 762A is the unit's ability to rotate easily and rapidly in winds of up to 80 miles per hour, without sustaining damage. Wind damage has been a major problem in the operation of the parabaloid, or "dish" type antennas, used up to the present time for tracking purposes. The 762A, Avien noted can operate in 80 mile-per-hour winds at rotational speeds that would incapacitate comparable sized parabaloids unless they weighed more han three time the 762A.—V. 193, p. 103.

Avionics Investing Corp.—Exempted—

The SEC has issued an order under the Investment Company Act declaring that this corporation of Washington, D. C., has ceased to be an investment company as defined in that Act.—V. 193, p. 699.

Beckman Instruments, Inc.—Proposes Rights Offering

This company, of 2500 Harbor Blvd., Fullerton, Calif., filed a registration statement with the SEC on Feb. 21, 1961, covering 69,976 shares of common stock. The company proposes to offer such stock for subscription by stockholders on the basis of one new share for each 20 shares held. Lehman Brothers heads the list of underwriters. The record date, subscription price and underwriting terms are to be supplied by amendment.

The company and its subsidiaries are engaged in the business of designing, developing, manufacturing, and selling precision instruments for scientific, industry, medical, and laboratory use. Of the net proceeds from the stock sale, $3,500,000 will be used to repay short-term bank loans incurred since June 1960 to help defray the cost of plant expansion and new equipment, and the balance will be added to general funds available for corporate purposes.

In addition to certain indebtedness, the company has outstanding 1,381,123 shares of common stock, of which A. O. Beckman, President, owns 509,393 shares, and management officials as a group 520,697 shares.—V. 193, p. 803.

Bendix Corp.—Earnings Up—

This corporation on Feb. 16 reported net income after all charges of $7,632,537, including a non-recurring amount of $3,215,287, for the three months ended Dec. 31, 1960—first quarter of the company's fiscal year.

Net income was $1.42 cents per common share based on the 5,373,401 shares outstanding at the close of the period and included 60 cents a share of non-recurring income. The non-recurring amount represented profit on the sale of Elliott-Automation Ltd. shares and also included a provision for reserve for purchased patents.

Net income for the first quarter of the previous fiscal year, the three months ended Dec. 31, 1959, was $5,753,583, or $1.13 a share, based on 5,106,731 shares outstanding at the close of the period.

Net sales, royalties and other operating income for the quarter ended Dec. 31, 1960 totaled $181,661,340, compared with $197,490,837 in the corresponding quarter the year before, the report said.—V. 192, p. 2607.

Bigelow-Sanford, Inc.—Sales Up, Net Down—

Consolidated net sales of Bigelow-Sanford, Inc. for the year ended Dec. 31, 1960 were $74,214,000, an increase of 3.14% over sales of $71,954,000 for the preceding year. Figures for 1960 include Crestliner operations from April 1, the date on which this subsidiary was acquired. Net profit for 1960 was $1,444,000, equal to $1.28 per share of common stock outstanding, after deducting preferred dividends. For the year 1959, net profit was $1,907,000, equal to $1.73 per share of common stock.

Net sales for the fourth quarter of 1960 were $20,608,000, a decrease of 3.29% below sales of $21,308,000 for the same period of 1959. Net profit for the fourth quarter of 1960 was $181,000, or 14 cents per share of common stock. For the fourth quarter of 1959 net profit was $639,000, or 59 cents per common share.

L. P. Weicker, President, said that exclusive of the Hartford Fibres Division, operations of the balance of the company showed some improvement in 1960 over the prior year in both sales volume and net profit earned. With the unsatisfactory marketing conditions and lower selling prices existing throughout the rayon industry, Hartford Fibres suffered an operating loss for 1960.

One of Hartford's two production lines is now making the company's new Zantrel Polynosic fiber in limited quantities. Mr. Weicker said that the product characteristics, quality and marketability of Zantrel exceed the company's expectations and that the Zantrel marketing program now in progress is expected to develop a satisfactory sales volume in due time. He said, however, that development of this market to a volume that will place the Hartford Fibres operation on a profitable basis should not be expected until late 1961 or early 1962.

"The 1961 product lines of both the company's carpet and pleasure boat (Crestliner) divisions have been exceptionally well received by the trade," Mr. Weicker said, "and the company is continuing to improve its competitive position in these two industries. "Bigelow," he added, "is now in an excellent position, if the general economy strengthens during the second half of this year, to take full advantage of the good opportunities that should exist for additional sales volume."

Bigelow net working capital at Dec. 31, 1960 was $33,500,000, with current assets 5.60 times current liabilities.—V. 192, pp. 699 and 1910.

Borden Co.—Sales, Earnings Up—

The company has announced 1960 earnings of $26,856,250, up 5.1% from the 1959 figure of $25,548,693. Earnings per share were $2.71 on the 9,907,500 shares outstanding Dec. 31, 1960 against $2.61 a share in 1959 on 9,800,000 shares outstanding after adjustment for a two-for-one stock split Jan. 5, 1960.

Sales of $956,014,030 exceeded the previous $941,326,495 high of 1959 by about 1.6%.

Federal income taxes were $24,405,347 for 1960, compared with $23,728,749 the year before.—V. 193, p. 803.

Brigham's, Inc., Cambridge, Mass.—Files With SEC—

The corporation on Feb. 6, 1961 filed a letter of notification with the SEC covering not to exceed 3,000 shares of common stock (par $1) to be offered at $10 per share to officers, directors, executives and eligible employees. No underwriting is involved.

The proceeds are to be used for working capital.

British American Oil Co. Ltd. (& Subs.)—Net Up—

The Toronto firm reports consolidated net earnings for 1960 amounted to $30,803,000 or $1.51 per share, an increase of 20.3% over the $25,602,000 or $1.25 per share earned in 1959.

Company President E. D. Loughney said the improvement in earnings during the year was largely attributable to increased sales of natural gas and to approximately $2 million realized on the sale of long-term investments and the company's tank car fleet. He pointed out, however, that these non-recurring profits were offset in part by certain non-recurring expenses related to the establishment of data processing centers.

Earnings from the manufacture and sale of refined products in 1960 were at about the same level as in 1959 and continued to reflect the extremely competitive situation which prevailed throughout the year in this area of the company's operations.—V. 193, p. 103.

Broad Street Investing Corp.—Proposes Acquisition—

This New York investment company, has applied to the SEC for an exemption order with respect to its proposed acquisition of The Jessel Corp.; and the commission has issued an order giving interested persons until Mar. 3, 1961, to request a hearing thereon. Jessel is a Tennessee corporation whose stock is owned by six persons with a seventh having a beneficial interest in its stock. The Investing Corporation has agreed to purchase substantially all of its cash and securities, having a total value of $3,625,771 as of Dec. 31, 1960, in exchange for shares of Investing corporation stock based upon their net asset value. The shares will be distributed immediately to Jessel shareholders.—V. 193, p. 699.

Brooks Instrument Co., Inc.—Proposes Offering—

This company, of 407 West Vine Street, Hatfield, Pa., filed a registration statement with the SEC on Feb. 16, 1961, covering 150,000 shares of common stock, to be offered for public sale on an all or none basis by Andresen & Co. The public offering price and underwriting terms are to be supplied by amendment. The company also has agreed to sell to the underwriter, for $1,750, five-year warrants to purchase an additional 17,500 common shares and to reimburse it for expenses in the amount of $12,000. Warrants for an additional 2,500 shares were issued to Hallgarten & Co. for $250 in consideration of financial advice. The registration statement also includes 110,000 common shares owned by certain shareholders of the company, including certain individuals associated with the underwriter, which may be sold from time to time by the holders thereof.

Formerly known as Brooks Rotameter Co., the firm manufactures variable area flow meters, generally called "rotometers." Net proceeds of its sale of additional stock will be used as follows: $100,000 for European expansion, including the purchase of capital equipment for the company's plant in The Netherlands, and the opening of new sales offices in Germany, France and England; $100,000 for foreign operations to carry inventory and accounts receivable and for other working capital needs; and the balance for working capital purposes, research and development.

The company now has outstanding 505,003 shares of stock, of which about 25% each is held by Douglas N. Brooks, President, and Nelson S. Brooks, Senior Vice-President. The prospectus includes a long list of holders of the 110,000 shares, including 11,300 share blocks held by John A. Endresen, David S. Gottesman and Oscar Kimelman.—V. 192, p. 2506.

Brooks Labs Co., Inc.—Earnings—

Earnings of 54 cents per share for its 1961 fiscal year have been indicated by Brooks Labs. The firm is engaged in the design, manufacture and selling of component parts of gun fire control equipment, submarine firing cables, submarine heaters and other devices for ship board and landbased uses by various agencies and departments of the U. S. Government. In the three month period ended Dec. 31, 1960, Brooks Labs had net earnings after taxes of $27,157 on sales of $171,000. Earnings were equal to 13½ cents per share on the 200,000 shares outstanding.

Current assets as of the Dec. 31, 1960 date totaled $319,372 against current liabilities of $175,606. Net worth stood at $251,548.95.

Brunswick Corp.—To Acquire—

The corporation has signed an agreement to purchase the business and the assets of Massey Surgical Supply, Inc., Nashville, Tenn., and its subsidiaries, B. E. Bensinger, President of Brunswick, and Jack C. Massey, Board Chairman of the supply firm, announced.

The acquisition will involve an undisclosed number of shares of Brunswick stock.

Massey Surgical Supply Inc., with subsidiaries in Knoxville and Kingsport, Tenn., is an established supplier of hospital and laboratory equipment in the mid-South serving Tennessee, Kentucky, Northern Alabama and parts of North Carolina, Virginia and West Virginia.

The company will become part of Brunswick's Aloe Physicians, Hospital and Scientific Division and will continue to operate under its present management, with the exception of Mr. Massey who plans to retire from the business.

"This move is a part of Brunswick's planned growth in the field of health," Mr. Bensinger said, "and will broaden marketing capabilities of our Aloe Division in Southern United States."

In addition to its service in the field of health, Brunswick is in the field of recreation through its bowling, marine and sporting goods divisions. The company is also a leading manufacturer of school furniture and gymnasium equipment and component parts for commercial and military aircraft.—V. 193, p. 699.

Burroughs Corp.—Product News—

The corporation is producing and has made available for immediate sale to the electronic industry magnetic thin film memory planes which make possible the construction of faster memory systems, Ray R. Eppert, President, announced on Feb. 21.

Burroughs, first manufacturer to provide magnetic thin films on a production basis, will manufacture and market the new product through its Electronic Tube Division, Plainfield, N. J.

"The production of magnetic thin film memory planes by Burroughs Corporation," Eppert said, "marks the fruition of more than five years of basic research and development carried on at our laboratories in Paoli, Pa. It is a significant stride forward for the electronics industry."

"Our success in developing reliable and reproducibly uniform thin film planes is evidenced by the fact that we are the first manufacturer to make them commercially available to the industry. It is an equally significant stride forward for the entire electronics industry since it marks a definite step toward the ultimate goal of high speed, low cost, built in-place components."—V. 193, p. 803.

C-E-I-R, Inc.—Stock Split—Economic Merger—

The Board of Directors of C-E-I-R, Inc. announced on Feb. 15 it had adopted a resolution recommending a 2-for-1 stock split which

THE COMMERCIAL AND FINANCIAL CHRONICLE (Reg. U. S. Patent Office) William B. Dana Company, Publishers, 25 Park Place, New York 7, N. Y., REctor 2-9570. Claude D. Seibert, Publisher and President; William Dana Seibert, Treasurer; George J. Morrissey, Editor. Digitized for FRASER
http://fraser.stlouisfed.org/

will be considered at a special stockholder's meeting to be held in the near future.

The Board took this action in recognition of the major expansion of business and profits which C-E-I-R has made in the last year.

In recent months C-E-I-R has announced mergers with General Analysis Corp. of Los Angeles, Calif.; Engelman & Co., of Washington, D. C., and Data-Tech Corp. of Hartford, Conn.

C-E-I-R, Inc. now has centers in Arlington, New York, Los Angeles, Houston, Hartford and London and branch offices at Palo Alto, Calif.; Dugway, Utah, and Fort Huachuca, Ariz.

Last September C-E-I-R announced that it would rent a STRETCH-class Computer from IBM, beginning operations next year.

The research and computer services firm made a joint announcement on Feb. 17 of an economic merger with Computer Services Inc., a firm of Englewood, N. J., which manages a computer center in Cambridge, Mass.

The Board of Directors of C-E-I-R approved the terms of the transaction at a meeting at C-E-I-R's Arlington Center on Wednesday and the Board of Directors of CSI approved the merger Thursday, Feb. 16, and the latter will refer the proposal for approval to CSI stockholders meetings in the near future.—V. 193, p. 4.

California General, Inc., San Diego, Calif.—Files With Securities and Exchange Commission—

The corporation on Feb. 3, 1961 filed a letter of notification with the SEC covering 60,000 shares of capital stock (par $1) to be offered at $5 per share, through Dempsey-Tegeler & Co., St. Louis, Mo.

The proceeds are to be used to reduce the company's bank indebtedness.

Capital Cities Broadcasting Corp. — Stock Sold Privately—Feb. 24, 1961, it was reported that 50,000 outstanding shares of this company's common stock had been placed privately through Pistell, Crow, Inc., New York City.

Caterpillar Tractor Co.—Files Stock Plan—

This, Peoria, Ill., company filed a registration statement with the SEC on Feb. 20, 1961, covering 200,000 shares of common stock, to be offered to employees of the company and certain subsidiaries pursuant to its Employees' Investment Plan.—V. 193, p. 599.

Cencon, Inc.—Seeks Order—

Cencon, Inc., New York, has applied to the SEC for an exemption from all provisions of the Investment Company Act; and the Commission has issued an order giving interested persons until March 6, 1961, to request a hearing thereon. According to the application, Cencon is owned 50% by Continental Oil Co., a Delaware corporation, and 50% by Universe Tankships, Inc., a Liberia corporation. Continental Oil is a publicly held company, while Universe is a wholly-owned subsidiary of Oceanic Tankships, S. A., a Panama corporation, all of the capital stock of which is owned by two persons, Daniel K. Ludwig and W. W. Wagner. Continental owns all of the capital stock of Conoco, A.G., a Switzerland corporation, which in turn owns 50% of Refineria Panama, S. A., a Panama corporation. The remaining 50% is owned by Central Industries, Inc., a Liberia corporation all of whose capital stock is owned by Universe Tankships.

The application further states that Refineria Panama proposes to construct and operate in Panama an oil refinery and related facilities and other properties. It will finance part of the cost of construction of this project by borrowing $25,000,000, indirectly through Cencon, from two insurance companies. Cencon proposes to obtain these funds from the insurance companies by the issuance to them of $25,000,000 of notes; and Refineria Panama in turn will execute and deliver to Cencon notes secured by a mortgage on substantially all of its properties. The financing documents contemplate the possibility that Cencon, which will serve solely as a debt financing vehicle for Refineria Panama, may issue one or more additional series of its notes in aggregate principal amount of $50,000,000.

Chemical Contour Corp.—Common Stock Offered—D. A. Lomasney & Co. made an initial public offering on Feb. 24 of 100,000 shares of this corporation's common stock at $3 per share.

PROCEEDS—Proceeds from the sale will be used for expansion of various plant facilities, for the stock acquisition of Organo-Cerams, Inc. and the balance added to general working capital.

BUSINESS—Chemical Contour, located in Gardena, Calif., is primarily engaged in chemical milling and related fabrication on a subcontract basis from the aircraft and missile industries. Chemical milling is a process for producing structural shapes by controlled etching of metal alloys. The company recently announced the development of a proprietary process for applying electroless nickel plating on magnesium which management believes has superior properties as compared to other methods of plating now in use. Organo-Cerams, Inc., sells organic coatings, masking materials and adhesives for industrial uses.

EARNINGS—For the seven months ended Oct. 31, 1960, the company reported sales of $377,881 and net of $31,142. For the fiscal year ended March 31, 1960, sales were $632,000 and net $51,453, compared with sales of $355,896 and net of $24,018 for the comparable 1959 fiscal year.

CAPITALIZATION—Giving effect to the offering, capitalization will consist of $61,000 of debt and 400,000 shares of common stock, no par value.—V. 193, p. 803.

Chesapeake Utilities Corp.—Stock Split Approved—

This corporation has received approval of the Public Service Commission of the State of Delaware to split the corporation's common stock on a six-for-five basis. The stock split had previously been approved by stockholders at a special meeting on Jan. 10, 1961.

Each share of common stock will a par value of $2.10 a share now outstanding will be converted into 1.2 shares of common stock with a par value of $1.75 per share. The additional shares will be mailed to stockholders of record Feb. 27, 1961, on March 14, 1961.

Directors placed the new common stock on a quarterly basis with the declaration of a dividend of 10 cents per share, payable April 5, 1961, to stockholders of record March 20, 1961. In 1960 the corporation paid one dividend of 25 cents in December.—V. 187, p. 244.

Chicago, Milwaukee, St. Paul & Pacific RR.—Equipment Trusts Offered — Salomon Bros. & Hutzler and associates on Feb. 21 were awarded an issue of $5,850,000 Chicago, Milwaukee, St. Paul & Pacific Railroad Co. equipment trust certificates on a bid of 98.4207, naming a 4% coupon. A Halsey, Stuart & Co. Inc. group bid 98.178, also for a 4% coupon.

The certificates were reoffered for public sale, subject to Interstate Commerce Commission approval, at prices to yield from 3% for the Sept. 1, 1961 maturity to 4.25% for those due 1971-1976.

The certificates, which are non-callable, are rated A by Moody's and AA by Standard & Poor's.

They will mature in 30 equal instalments of $195,000 each on each March 1 and Sept. 1, from Sept. 1, 1961 to and including March 1, 1976. The certificates are secured by new equipment estimated to cost $7,385,000.—V. 193, p. 700.

Cincinnati Gas & Electric Co. (& Subs.)—Ann. Report

Net earnings of the company and its subsidiaries for the year 1960 were $17,279,266, or $2.23 per common share, after preferred dividends. Comparable net earnings for 1959 were $15,069,294, or $1.96 per common share, the annual report released Feb. 15 stated. Mr. Fields, President, pointed out that this and continued improvement in earnings for common stock is particularly desirable and necessary to facilitate the sale of additional common stock required to provide a portion of the funds to finance the $100,000,000 construction program planned for 1961 and 1962. Cash dividends of $1.50 per share were paid during 1960 which marked the 108th consecutive year in which the company has paid dividends on its common stock.

Electric revenues increased 7.0% and gas revenues increased 13.6% over 1959, Mr. Fields reported. Operating expenses increased $10,813,942, or 9.1%, resulting primarily from higher purchased gas volume and rates, wage rates, taxes and depreciation. There was a slight improvement in the inadequate rate of return on investment in property. During 1960, Federal, state and local taxes consumed 26 cents of each dollar of electric revenue and 11 cents of each dollar of gas revenue and, in total, were almost twice as much as earnings for the common stock.

During 1960, the company spent $40,527,155 for new plant. In November, a new 168,000 kilowatt electric generating unit was placed in service at the Miami Fort Generating Station. The total cost of this unit and related transmission facilities is about $25 million, stated Mr. Fields. During the past 10 years, over $295,000,000 has been spent for new plant. As a result of these expenditures, investment in utility plant at the end of 1960 was almost 2½ times as large as at the end of 1950, $456,000,000 compared to $189,000,000.

Estimated construction expenditures during each of the next two years are $50 million. To complete the construction program through 1962 will require approximately $45 million of additional capital. Present plans are to obtain 1961 requirements of around $20 million through the issuance of short-term notes. These notes would be repaid and 1962 requirements obtained from the sale in 1962 of both additional common shares and first mortgage bonds. The principal item of electric plant is the completion of a new 240,000 kilowatt generating unit at the Walter C. Beckjord Generating Station which, with related transmission facilities, will cost an estimated $47 million. In the gas department, the largest single item is another underground propane storage cavern and a related propane-air gas mixing plant similar to those already owned and very successfully operated by the company near Middletown, Ohio.—V. 192, p. 2220.

Clark Equipment Co.—Sales, Net Lower—

The Buchmanan, Mich. company sales for 1960 were second largest in the company's history, but earnings were somewhat below the record earnings of 1959, George Spatta, President, has reported in a preliminary report to shareowners.

Sales for the year were $196,768,926, less than 6% lower than 1959 sales of $208,183,997.

Earnings for the year were $6,741,703, equal to $1.41 per share. In 1959, earnings were $12,401,804, equal to $2.61 per share.

The company is a leading manufacturer of industrial materials handling equipment, construction and roadbuilding machinery, highway trailers and vans and heavy automotive power train components.

Clark's decrease in earnings was attributed by Mr. Spatta to "the general failure of the economy to reach levels forecast at the beginning of the year" and to "special problems resulting from the introduction of new products in two Clark divisions."

On the positive side, Mr. Spatta said operations of the company's Industrial Truck Division were at a high level throughout the year, while Clark's international activities continued to grow at a rapid rate. Overseas earnings, he reported amounted to $2.2 million.

The fourth quarter produced the year's low point. Sales were $41,648,433, compared with $48,627,486 for the fourth quarter of 1959. Earnings were $1,260,568 or 26 cents per share, compared with $2,018,355 or 42 cents for the comparable 1959 period.—V. 191, p. 2303.

Clevite Corp.—Sells Production Facilities—

See Gould-National Batteries, Inc., below.—V. 192, p. 399.

Clifton Precision Products Co., Inc.—Files for Second'y

This company, of Marple Ave. and Broadway, Clifton Heights, Pa., filed a registration statement with the SEC on Feb. 16, 1961, covering 60,000 outstanding shares of its common stock, to be offered for public sale by the holder thereof, John P. Glass, company president, through W. C. Langley & Co. The public offering price and underwriting terms are to be supplied by amendment.

The company is engaged in the design, development, production and sale of synchros, instrument servomotors and certain servomechanisms for use primarily in aircraft and missiles. In addition to certain indebtedness, it has outstanding 417,593 shares of common stock; and an additional 21,000 shares are reserved for issuance upon exercise of stock options under the company's stock option plan. Glass owns 283,500 shares (67.9%) of the outstanding stock, and the sale of the 60,000 shares will reduce his interest to 53.5%.—V. 193, p. 376.

Coastal States Gas Producing Co.—Net, Revs. Climb—

Oscar S. Wyatt, Jr., Chairman of the Board and President, reports that results for the six months ended Dec. 31, 1960 showed significant gains over the first half of the prior fiscal year. Increases of 36% in revenues, 45% in cash earnings and 44% in net income were registered.

Revenues amounted to $10,178,337 in the first half of fiscal 1961 as compared with $7,478,312 the year before. Gas gathering sales registered the largest dollar gain, and accounted for 69% of total revenues. All other aspects of the company's operations continued to record improvements as well.

Cash earnings in the first half (income before depreciation and depletion and provision for deferred Federal income taxes) totaled $2,592,615, equivalent to $1.32 per share on the 1,971,029 shares outstanding on Dec. 31, 1960. In the initial six months of the previous year, cash earnings were $1,791,621, which was equal to 93 cents per share on the 1,932,193 shares outstanding at the end of the period.

First half net income was $1,610,268 or 82 cents per share. This compares with $1,115,023 or 58 cents per share in the first half of last year.

In addition, a non-recurring net gain of $1,195,557 (61 cents per share) was realized in July 1960 on a stock transaction. This amount has been credited to fiscal 1961 capital surplus thereby increasing stockholders' investment.

Highlighting developments in the December quarter was a new agreement under which Coastal States will sell to El Paso Natural Gas an annual average of 130,000,000 cubic feet of natural gas daily as compared with 100,000,000 cubic feet agreed upon originally, an increase of 30%. El Paso Natural Gas has also agreed to advance the price escalation terms for the gas dedications obtained by Coastal States to fill the additional delivery requirements of 30,000,000 cubic feet daily.

A new contract with the Sun Oil Co., together with previous arrangements with Arnold O. Morgan, the Mokeen Oil Co. and others, has put Coastal States in the position of owning approximately 90% of the presently defined gas reserves in the Yeary Field and in excess of 50% of the reserves in the Rivera Beach Field, both of which are located adjacent to the company's Kleberg County System. It is Coastal States' opinion that these reserves materially improve the "dedicated reserves" position of the Kleberg County and South Texas Systems.

Commenting on the outlook, Mr. Wyatt stated, "Management expects second half operations to surpass substantially the initial six months period. We believe that fiscal 1961 will be a record year for Coastal States."—V. 193, p. 5.

Coburn Credit Co.—Appointment—

The Irving Trust Co. has been appointed transfer agent of the common stock (par $1) of the corporation.—V. 193, p. 700.

Colonial Stores Incorporated—Sales Off—

The corporation on Feb. 20 reported sales of $32,557,415 for the four week period ended Jan. 28, 1961, compared with $33,841,488 for the corresponding period of last year, a decrease of 3.8%.

The above sales reflect company operations in ten states in the Southeast and Midwest and indicate there were 447 stores in operation Jan. 28 compared to 460 stores a year ago.—V. 193, p. 491.

Columbian Carbon Co.—Sales Up, Earnings Down—

In an interim report dated Feb. 15, 1961, the company reported that unaudited figures indicated sales and other income for 1960 amounted to $81,241,000 compared with $76,838,000 in 1959. Sales rose to a new high in 1960 exceeding those of 1959 by 5.7%. Net earnings from operations for the year 1960 were $6,561,000 or $4.06 a share compared with $6,908,000 or $4.28 per share earned in 1959. Net earnings for 1960 were second highest in the company's history, although 5.0% less than those in 1959. Sales and net earnings for the fourth quarter of 1960 declined from those of the fourth quarter of 1959 by 6.0% and 27.6% respectively.—V. 192, p. 2016.

Commercial Acceptance Corp., Detroit, Mich. — Files With Securities and Exchange Commission—

The corporation on Feb. 1, 1961 filed a letter of notification with the SEC covering $225,000 of 8%, 9% and 10% renewable subordinated debentures due Jan. 31, 1964, 1965 and 1966 to be offered at face amount in denominations of $500, $1,000 and $5,000 each. No underwriting is involved.

The proceeds are to be used for additional loans.

Commonwealth Fund Growth, Inc.—Registers—

Commonwealth, of 155 Berkeley Street, Boston, Mass., filed a registration statement with the SEC on Feb. 20, 1961 covering 300,000 shares of common stock to be offered for public sale at net asset value plus a sales charge ranging from a maximum of 7½% downward. The offering will be made through Trusteed Funds, Inc., the Fund's sponsor.

The Fund was organized under Delaware law in January, 1960 and is an open-end diversified investment company whose investments are said not to be limited to any particular industry but are selected on the basis of the Fund's stated investment objective of long-term capital growth, and income as consistent with such objective. Studley, Shupert & Co., Inc., of Boston, is listed as the Fund's investment adviser, and R. Wallace Bowman as President of the Fund and Vice-President of the investment adviser. Leonard F. Hendricks is listed as Vice-President of the Fund and a Vice-President and stockholder of the sponsor. Everett M. Studley, a director of the Fund, is Treasurer and principal stockholder of the adviser and a director and stockholder of the sponsor.

Compression Industries Corp.—Common Stock Offered—Pursuant to a Feb. 10 offering circular, I. R. E. Investors Corp., 3000 Hempstead Turnpike, Levittown, N. Y., publicly offered 112,500 shares of this firm's 10¢ par common stock at $2.50 per share.

APPOINTMENT—Transfer Agent—Long Island Trust Co., 82 Seventh Street, Garden City, New York.

BUSINESS—The corporation was organized under the laws of the State of New York on April 11, 1956 to acquire the business of Louis Kudisch., doing business under the firm name of Paddock Pools of Long Island. The predecessor company had engaged in the business of designing, constructing and equipping swimming pools for residential and commercial use since April, 1954. The corporate name of the company was duly changed on Sept. 19, 1960 from Compressed Concrete Construction Corp. to its present name, Compression Industries Corp.

The company is engaged in the business of designing, constructing, equipping, servicing and repairing swimming pools for commercial and residential use. It has constructed pools ranging in size from 10 feet by 30 feet to 25 feet by 55 feet for residential use, and from 20 feet by 40 feet to 65 feet by 190 feet for commercial use (including country club, swimming club, private school and motel installations).

The company employs approximately 75 people. It operates in New York and New Jersey.

PROCEEDS—After deducting underwriting discounts, commissions and expenses, the net proceeds of this offering (if all of the shares offered are sold) are estimated at $197,500. The company intends to use the net proceeds from the sale of shares for the following purposes in the following order of priority:

(1) Additional machinery and equipment	$64,800
(2) Advertising and sales promotion	15,000
(3) New Jersey showroom and display pool	20,000
(4) Retirement of corporate debt: Loan payable to Franklin National Bank	6,000
(5) Westchester, New York, sales office	5,000
(6) Additional inventory of pool equipment	10,000
(7) Purchase of additional coping moulds	2,000
(8) Inventory of chemicals for packaging	5,000
(9) Working capital	69,700

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

	Authorized	Outstanding
Common (10 cents par)	450,000 shs.	*232,500 shs.
Long-term debt:		
First mortgage payable	$27,000	$24,612.54
Notes payable for purchase of equip.	8,633.23	3,783.19
Notes payable to others	3,440	1,660

*Assuming all 100,000 shares offered hereby are sold, although only 50,000 may be sold.—V. 192, p. 2608.

Consolidated Airborne Systems, Inc.—Appointment—

The Manufacturers Trust Co. has been appointed transfer agent for the class A and class B stock of the corporation.—V. 193, p. 701.

Consolidated Aluminum Corp.—Acquires—

The corporation, of Jackson, Tenn., has acquired the National Foil Co. Inc., of Elizabeth, N. J., it was announced on Feb. 20 by William D. Miller, Executive Vice President of Consolidated.

Mr. Miller said Conalco is meeting a growing demand for foil products by broadening its line through acquisition of National Foil Co., a concern well known by the printing industry throughout the United States for its quality foil laminations.

The announcement noted that National Foil Co. for the past 23 years has supplied plain, colored and embossed paper laminations to the graphic arts industry, and has enjoyed a reputation for high quality and workmanship throughout the trade. The former principal stockholders, Walter A. Hunt, President, and Robert E. Hunt, Secretary-Treasurer, plus the present operating personnel, will continue in their present capacities with the new subsidiary.

T. W. Allison, Vice-President—Marketing and Sales, of Consolidated Aluminum Corp., said: "National Foil Co. serves a type of market that Conalco, a producer of only plain foil, did not reach; this market is not served by Conalco's converter customers. Most of these limited laminations are supplied to the trade by other aluminum foil mills. This acquisition will not interfere with our past policy of not competing with our customers."

Through the national sales offices of Conalco, the products of National Foil will be sold with more complete coverage than heretofore possible. Consolidated Aluminum Corp. today is one of the major suppliers of plain foil in the United States. It is also a producer of coiled aluminum sheet, and the largest manufacturer of primary and other forms of high purity aluminum (99.99%) in this country.

Recently, the corporation also announced the acquisition of A. I. A. G. Metals, Inc., a company whose main products are transistor grade gallium and ultra-high purity aluminum for the electronics and other industries. Conalco also has under construction a 400% expansion of its coiled sheet production facilities which will be completed during the first quarter of 1962.

The general sales office of Conalco is located in New York City, with additional offices in Chicago, Cleveland, Los Angeles, Atlanta and Dallas.—V. 193, p. 492.

Continental Baking Co.—Sales Up, Net Down—

Sales during 1960 rose to a new high of $410,642,040, compared with net sales of $385,941,474 in 1959, but earnings per common share declined to $4.47 in 1960 from $4.60 in the earlier year, the company disclosed on Feb. 15 in its annual report.

In dollars, earnings of $9,311,146 almost exactly matched 1959's total of $9,323,019. Average number of shares outstanding increased by some 54,000 during the year, largely because of payment of 79,300 shares in May for Love's Biscuit and Bread Co., Ltd., of Honolulu.

R. Newton Laughlin, President of Continental, explained the failure of earnings to keep pace with sales as due to increased labor costs, the fact that while over-all sales rose there were sales declines in some of the company's more profitable markets, and continued losses in the Omar retail division, a home-delivery operation in the Midwest, purchased near the end of 1958.

About one-seventh of the total sales increase of 6.40% was attributable to acquisitions, Mr. Laughlin disclosed, with the rest due to increased sales by units operating prior to 1960. The year included 53 weeks, compared with 52 for the previous year, a gain of a little less than 2% in selling days.

"We are pleased to report," Mr. Loughlin wrote in his letter to shareholders, "that the company successfully defended and was aquitted in two Federal criminal cases alleging certain price-fixing violations of the Federal Anti-Trust Laws.

tized for FRASER
//fraser.stlouisfed.org/

"In May, 1960, the Federal Trade Commission filed a two-pronged complaint . . . alleging violations of the Clayton Act and the Federal Trade Commission Act.

"We are convinced that we have not violated the law as charged. We are currently defending ourselves before the Commission and will continue to do so through the courts if necessary."—V. 192, p. 1608.

Continental Bank—Capital Stock Offered—Pursuant to a Feb. 16 offering circular, Joseph, Mellen & Miller, Inc., and Ball, Burge & Kraus, both of Cleveland 14, O., publicly offered 16,000 shares of this Cleveland bank's $10 par capital stock at $27.50 per share.

PROCEEDS—The net proceeds of this sale of 16,000 shares will be added to the bank's capital and surplus. In recommending the sale of these additional shares, the Board of Directors acted to provide additional capital to handle larger requirements of customers, and to permit further expansion of services to the community.

BUSINESS—The Continental Bank is a commercial bank and trust company, chartered by the State of Ohio, and is a member of the Federal Deposit Insurance Corp.

It may conduct its business within Cuyahoga County, (principal city Cleveland), and establish as many branches as it determines, subject to approval of the Superintendent of Banks of the State of Ohio, and the Federal Deposit Insurance Corp.

The bank operates checking account, savings account, loan, investment and trust departments.

CAPITALIZATION—The sale of these 16,000 shares will increase the bank's capital stock by $160,000, and will increase the surplus account by $268,000.

After the sale of these shares and the transfer described below, capital will be $800,000 and surplus will be $800,000.

At the shareholders' meeting on Jan. 10, 1961, par value of outstanding 64,000 shares were increased from $7.50 to $10.00 each, resulting in $160,000 being transferred from surplus to capital. Shareholders also authorized transfer of an amount from undivided profits to surplus to cause surplus to equal $800,000 after the sale of 16,000 shares of $10 par value.

Continental Oil Co.—Exchange Offer—

This company, of Houston, has offered to purchase the assets and business of Douglas Oil Co. of California, it was announced jointly on Feb. 16 by W. G. Krieger, President of Douglas Oil, and L. F. McCollum, President of Continental.

Boards of Directors of the two companies on Feb. 15 approved the proposal which provides for the exchange of one share of Continental common stock for five shares of Douglas common stock. The purchase is subject to ratification by Douglas shareholders at a special meeting scheduled in the near future.

Douglas has 1,240,426 common shares currently outstanding, although should all conversions and options be exercised, the total could exceed 1,500,000 shares at the time of the acquisition. Continental has 24 million authorized shares of which 21,139,016 are outstanding.

"This step will enable Douglas Oil to capitalize fully on its substantial growth potential in the West Coast petroleum industry," Krieger declared. "The resources of Continental Oil will provide for a far greater and more rapid expansion of our refining and marketing operations than would have been possible had we continued our independent status."

McCollum pointed out that the acquisition of Douglas Oil would give Continental an important foothold in the fast-growing Pacific Coast market. Continental controls no marketing facilities west of the Rocky Mountains. Douglas operations will continue under the present management and the firm's marketing brand name, "Flying Heart," will be retained, the joint statement said.

Douglas, with annual sales of $31,000,000, is one of the leading independent refiners and marketers on the West Coast. It markets petroleum products under the "Flying Heart" brand through 270 service station outlets primarily in California. The company also manufactures and distributes asphaltic products. Douglas Oil refineries are located in Paramount, Santa Maria and Bakersfield, Calif.

Continental, one of the important crude producers, has annual sales of over $785,000,000. It is active in all phases of the petroleum business and holds acreage in most of the major producing areas of the United States. It also has exploration and drilling activities in several foreign areas.—V. 192, p. 700.

Coquille Valley Lumber Co., Alsea, Ore.—Files With Securities and Exchange Commission—

The company on Feb. 1, 1961 filed a letter of notification with the SEC covering 5,000 shares of common stock (par $25) to be offered at $50 per share, without underwriting.

The proceeds are to be used for working capital.

Crowell-Collier Publishing Co.—Acquires—

The Crowell-Collier Publishing Co. announced on Feb. 20 the purchase of The Free Press of Glencoe, Ill., publisher of professional books in the social sciences and college and graduate school text books. The purchase price was not disclosed.

The Free Press, founded in 1947, will operate as a wholly-owned subsidiary, retaining its own name. Jeremiah Kaplan, Free Press President, will continue in that post.

Offices of The Free Press, formerly located in Chicago, will be moved to the Crowell-Collier headquarters in New York.

The Free Press publishes theoretical and research reports for scholars around the world and books that interpret recent findings of the sciences to laymen as well as sociologists, economists, philosophers, psychologists, political scientists and members of other professions. The concern also publishes a number of university-sponsored series in business, economics, sociology and other fields for the University of Chicago, Columbia University, Massachusetts Institute of Technology and other educational institutions.—V. 192, p. 2669.

Custer Channel Wing Corp.—Hearing Set—

On request of this corporation, of Hagerstown, Md., the SEC has scheduled a hearing for April 25, 1961, in its Washington office on the question whether to vacate or make permanent the Commission's order of Dec. 29, 1960, temporarily suspending a Regulation A exemption from registration under the Securities Act of 1933 with respect to a proposed public offering of stock by the said company. The order asserted that certain terms and conditions of Regulation A were not compiled with and the company's offering circular was false and misleading in respect of certain material facts.—V. 193, p. 104.

D W G Cigar Corp.—Net, Sales Down—

D W G Cigar's net sales in the year ended Dec. 31, 1960 amounted to $21,124,958, compared with $22,263,992 in 1959, which was the best year in the company's history, Norman Schwartz, President, announced today.

Net income, after provision for Federal income taxes, totaled $823,324, or $1.73 per share on 476,162 common shares outstanding at the year end. In 1959, net income was a record $976,734, equal to $2.05 per common share outstanding.

Taxes placed on cigars in Michigan and Texas during 1960, and reduced industrial activity in the Midwest, the company's principal marketing area, were adverse factors in the year's results, Mr. Schwartz said.

Mr. Schwartz also reported that D W G has opened a new facility in Gurabo, Puerto Rico for the processing of cigar wrappers, to be operated by a wholly owned subsidiary. The Puerto Rican plant will centralize work formerly carried out at five locations, resulting in greater efficiencies and material savings in costs.

Assuming that the national economy holds steady or resumes its upward trend in the next few months, D W G is anticipating a good year in 1961, Mr. Schwartz said. "Plans call for the introduction of four new sizes of cigars this year, which combined with higher operating efficiencies and an aggressive promotion and advertising program, should yield favorable sales and earnings during the current year."—V. 192, p. 700.

Desilu Productions Inc.—Quarterly Report—

Desilu Productions Inc. on Feb. 23 reported gross income of $14,432,798 for the nine months ended Jan. 28, 1961, with net profits of $264,949, equal to 23 cents per share on the 1,155,940 shares of common stock outstanding. For the third quarter, gross income amounted to $5,970,303, with net income of $144,032, equivalent to 13 cents per share.

For the first nine months of fiscal 1960, Desilu recorded gross income of $17,553,899 and net income of $708,121, equal to 61 cents per share on the same number of shares outstanding. Gross income for the third quarter last year amounted to $9,091,404, with net income of $587,204, or 51 cents per share.

In the quarterly report to shareholders, President Desi Arnaz stated reduction in gross income and net income for the current period was due principally to two factors: Desilu experienced a late start in production due to the writers' strike earlier in the year, and the company currently is doing no TV shows for syndication.

Mr Arnaz said the syndicate market has become uneconomical to the point where Desilu would be obliged to invest money on a speculative basis, which the company is unwilling to do, and will wait until the market displays more economic stability. Mr. Arnaz commented, however, that the studio currently is negotiating for the sale or residual usage of its full inventory which will increase to 1,014 half-hours of entertainment by April 30.

Mr. Arnaz pointed out that Desilu recently realigned its total organization in a move to increase studio efficiency and provide key personnel and the facilities to accommodate peak production. This, he said will enable him to concentrate on sales and top programming. Three vice-presidents for operations in the new arrangement include the vice-president for programming who supervises the creative staff, program development and program production; the vice-president for production and studio operation; and the vice-president for administration and finance who also serves the company as secretary-treasurer

Mr. Arnaz said it is anticipated that Desilu's production facilities will be utilized to a much greater extent next fiscal year as the result of an increasing shortage of adequate motion picture and television studio facilities in Hollywood.—V. 193, p. 601.

Detroit Steel Corp.—1960 Results—

A summary of audited earnings data and major balance sheet items from Detroit Steel's financial report for 1960 has been released by M. J. Zivian, President. He stated that the company's Annual Report would be mailed to shareholders on or about March 15, 1961.

The current report is stated on a "pooling of interests" basis to reflect the acquisition during the year of susbtantially all of the outstanding capital stock of Portsmouth Corp. Accordingly, the accounts of Portsmouth Corp. have been combined with those of Detroit Steel for 1960 and the amounts shown for 1959 have been adjusted from those previously reported to include the accounts of Portsmouth Corp. for comparative purposes.

The summary shows that 1960 sales amounted to $88,211,227, a decline of 24% from the 1959 total of $116,712,200. Net earnings for 1960 before special net charges against income of $946,895 were $4,585,615 as compared with $11,500,274 in the preceding year when there were special net credits to income of $1,674,441. Per share earnings applicable to the common stock before special items were $1.15 in 1960 and $2.90 in 1959. Per share earnings after special items were $0.90 in 1960 and $3.33 in 1959. Per share earnings for 1960 are based upon the number of shares actually outstanding at Dec. 31, 1960 and per share earnings for the preceding year are stated on a like number of shares reduced by 4,854 shares sold on stock options during 1960.

Mr. Zivian indicated that operations continue at a moderate level and that conclusive evidence of any significant upturn in business has not developed as of this date. However, he did say that the consensus is that steel production in 1961 will approach the tonnage realized in 1960 with the production curve operating in reverse from its direction last year.—V. 193, p. 6.

Diversified Real Estate Investment Trust, Omaha, Neb.—Files With SEC—

The company on Feb. 9, 1961 filed a letter of notification with the SEC covering 30,000 shares of beneficial interests to be offered at par ($10 per share), without underwriting.

The proceeds are to be used for financing of investment properties.

Douglas Oil Co. of California—Receives Offer—

See Continental Oil Co., above.—V. 192, p. 304.

Dow Chemical Co.—Supply Agreement—

The Ohio Oil Co. and the Dow Chemical Co. announced on Feb. 15 a long-term agreement to provide the chemical firm with about 20 million gallons of benzene-toluene mixture annually, starting in mid-1962.

The key facility involved will be the Detroit refinery of Aurora Gasoline Co., a wholly owned subsidiary of Ohio Oil. Engineering work is now underway for a multi-million dollar expansion program at the refinery to begin late this year. The primary purpose of the expansion will be to provide benzene to Dow.

This marks the entrance of Ohio Oil as a supplier to the petrochemical industry. When the Aurora expansion is completed, the Detroit refinery will become Michigan's leading supplier of petroleum-derived benzene.

Dow is reputed to be the world's largest buyer of benzene, an important "building block" in the manufacture of such products as plastics, phenol and synthetic rubber.

Also involved in supplying Dow with the product will be the Ohio Oil refinery at Robinson, Ill., 400 miles southwest of Detroit. The supply of naphtha, used in making benzene, of the Detroit refinery will be supplemented from the Illinois plant by existing pipe line facilities.

Dow will build a processing unit at its petrochemicals plant at Bay City, Mich., to convert the benzene-toluene mixture to benzene for use as a raw material in its Bay City and Midland chemical plants.

To handle the transportation of the material from the Ohio Oil refinery in Detroit to Bay City, Buckeye Pipe Line Co. has announced it would add a 42-mile pipe line extension to its national pipe line network from Flint, Mich., to Bay City at a cost of about $1,700,000.

The high-purity benzene-toluene mixture produced at the Detroit refinery will be shipped by pipe line directly to Dow's Bay City plant for conversion to pure benzene.

Ohio Oil officials pointed out that since pure benzene will freeze solid at about 40 degrees Fahrenheit, the year-round pipe line delivery problem will be overcome by the benzene-toluene mixture, which stays liquid in temperatures as low as 50 degrees below zero.—V. 193, p. 377.

Draper Corp.—To Acquire—

Draper Corp. of Hopedale, Mass., has agreed to acquire from Willcox & Gibbs Sewing Machine Co. of New York, N. Y., its patent, manufacturing and marketing rights to the Treufus automatic doffing machine, for the United States, Canada and Mexico, it was announced jointly by Thomas H. West, President of Draper, and Sidney B. Becker, Chairman of Willcox & Gibbs.

Mr. West said that Draper's ample resources, large research and engineering staff and its long experience as a textile machinery builder will be used to expedite the development and marketing of this machine which, according to Mr. West, promises substantial labor savings to the textile industry by automating one of the most tedious and difficult operations. Mr. West also disclosed that research and engineering will be concentrated in Hopedale, Mass., and that when tooling up is completed the doffing machines will be produced at Draper's subsidiary plant in Norristown, Pa.

While the terms of the agreement were not disclosed, it was stated that they included a cash payment, as well as a share of the receipts from doffing machines, less certain costs for a period of years.

Mr. Becker also disclosed that subsidiaries of Willcox & Gibbs retain manufacturing and marketing rights for the automatic doffing machine in Great Britain, France, Germany and other European countries, as well as for Brazil, Argentina and other South American countries.—V. 192, p. 304.

Dravo Corp. (& Subs.)—Net, Sales Up—

Net earnings of Dravo and its subsidiaries in 1960 increased 22% over 1959 on 7% higher revenue from operations, it was reported on Feb. 15 by Carl B. Jansen, board chairman, and William E. Clark, president.

The construction, shipbuilding and manufacturing concern earned $2,211,000 in 1960 compared with $1,814,000 the previous year. The income was equivalent to $4.14 per share of common stock compared with $3.32 in 1959.

Mr. Jansen and Mr. Clark said that the 1960 profit, although better than the previous year's, did not come up to earlier expectations due to a lag in steel production and continued delays in roadbuilding programs, both of which held down the company's volume of industrial construction, river transportation, and sales of sand, gravel, concrete and contractors' equipment.

They pointed out, however, that Dravo's 1960 revenue from operations of $99.1 million was the third highest in the company's peacetime history and compares with $92.3 million in 1959. The 1960 revenue was exceeded only in 1957 and 1956, when new records were established.

Dividends on the common stock totaled $2.00 per share in 1960 and continued the company's record of quarterly dividend payments in every one of the past 20 years. Regular dividends of $2.000 per share were paid in 1960 on the company's 4% preferred stock, bringing total dividend payments for the year to $1,098,000. Mr. Jansen and Mr. Clark pointed out that Dravo operations have produced a profit every year since 1935.

Dravo entered 1961 with a high level of activity although the $70.5 million backlog of unbilled business at the end of 1960 was down $9.6 million from a year earlier. Billings on contracts in progress at year end amounted to $25.9 million. This sum, combined with the $70.5 million backlog, totals $96.4 million which will be reported as revenue when contracts on hand at the end of 1960 are completed. Revenue and net income from long-term contracts, a substantial part of Dravo's business, are reported generally in the year of physical completion.

Completion dates for some current contracts extend well into the year and some into the following year. First half profits for 1961, therefore, are expected to be low.

The outlook for new business in 1961, the executives said, will depend in large measure on whether government and industry spending plans materialize as forecast. The company is in good position to participate in this business as it becomes available.

Dravo's confidence in the future is indicated, they said, by the company's 1960 expenditures of $10.1 million for property, plant and equipment, the largest such outlay in the company's history and $6.2 million above that of 1959. Additional projects planned for 1961 represent substantial amounts of capital investment.

A major expenditure in 1960 was the purchase for cash of dredges, tugs, barges, distribution plants, sand and gravel deposits and dredging rights from The Smoot Sand & Gravel Corp., Washington, D. C. A new Dravo subsidiary, Potomac Sand & Gravel Co., was formed to conduct this river sand and gravel business in the metropolitan Washington area.

This acquisition gives Dravo a new geographical market for an activity in which the company has had nearly 60 years of background and experience through the operation of its Keystone Division, one of the largest sand, gravel and ready-mix concrete producers in Western Pennsylvania.

Dravo recently began construction of a new marine repair base along the Mississippi River near Baton Rouge, Louisiana, to provide drydocking and repair facilities for inland river vessels and shipside repair service for ocean-going vessels.

Both the Washington acquisition and the construction of the marine repair base are key projects in Dravo's long range program to improve overall profitability, Mr. Jansen and Mr. Clark said.

Another phase of this program during 1960 was completion of a licensing agreement with Linde AG of Munich, Germany, for Dravo to handle the design, sale and construction of tonnage oxygen plants in the U. S. and Canada. The increasing use of oxygen in many industrial processes opens a promising market for these plants. The volume of oxygen utilized for iron and steel production alone is expected to double within the next five years. Dravo's first contract for a Linde-Frankl tonnage oxygen plant was received from Ford Motor Co.'s Steel Division. Construction of this facility will begin by mid-1961.

Dravo also made progress last year in development of new design concepts for sinter plants and ore beneficiation, oxygen steelmaking and materials handling equipment. Since 1956 Dravo has built almost half of the sinter production capacity added by the steel industry in this country.

Working capital of the company decreased $6.4 million in 1960, due mainly to bank borrowings which were used to finance on a temporary basis new towboats being built for its subsidiary, Union Barge Line Corp., purchase of the assets of the Washington, D. C. sand and gravel firm, and addition of other floating and plant equipment. Dravo intends, however, to convert this temporary financing to long-term which will improve the ratio of current assets to current liabilities. In the past the company has paid for expansion and improvements principally with funds provided by depreciation and retained earnings.

The past year was described by Mr. Jansen and Mr. Clark as an important one for Dravo. They said that progress made in the areas of new products, expansion of activities and research and development give promise of better things to come for the company.—V. 192, p. 1708.

Eastern Gas & Fuel Associates—Earnings for 1960—

Eastern Gas reports for the year ended Dec. 31, 1960 total consolidated net sales and operating revenues of $139,055,302 compared with $157,458,552 for the calendar year of 1959.

Total consolidated income before taxes was $6,803,805 compared with $5,032,687 in 1959. Net income amounted to $6,527,283 in 1960 compared to $4,983,263 in the pervious year.

After deducting 4½% preferred dividends, the balance available for the common stock was $5,418,572 compared with $3,874,591 for 1959. Earnings per share of common stock amounted to $1.93 on 2,809,173 shares outstanding, compared to $1.38 on 2,803,315 shares outstanding at the end of 1959.

For the quarter ended Dec. 31, 1960, earnings amounted to 92 cents per share of common stock on 2,809,173 shares outstanding. Comparable earnings for the same quarter of 1959 were 59 cents per share based on 2,803,315 shares.—V. 192, p. 1813.

Eastern Lime Corp.—New Highs—

Net sales and earnings rose to new peaks during the year ended Dec. 31, 1961, F. R. Wills, President, announced on Feb. 14, 1961.

The record results were achieved in spite of unfavorable business conditions and reduced operating levels in the cement industry, the company's principal customer.

Net sales during 1960 amounted to $1,727,211, compared with $1,541,408 in 1959.

After provision for taxes, net income increased to $375,493, from $356,745 in 1959. Per share earnings, after preferred dividends, were $1.52 per share on 241,914 common shares outstanding on Dec. 31, 1960. This compares with $1.46 on 239,414 common shares outstanding a year earlier, after taking into account the two-for-one stock split in October, 1959.

Shipments of high calcium limestone during the year amounted to 391,594 tons, compared with 371,718 in 1959. Commercial stone shipments in 1960 were 307,243 tons, as compared with 323,637 tons the previous year.

Mr. Wills said it is expected that road building and home construction will increase substantially in 1961, under encouragement from the Federal Government. "This is a plus factor in our outlook," Mr. Wills said. "But with or without this stimulus, we are looking forward to further growth this year in the scope of our operations, as well as sales and earnings."—V. 191, p. 2201.

Eastman Kodak Co.—Sales, Net Up—

Total sales and earnings for 1960 were the highest to date, up moderately over 1959, the company's best previous year, Thomas J. Hargrave, Chairman, and William S. Vaughn, President, reported on Feb. 20.

Consolidated sales of the company's U. S. establishments last year totaled $944,761,249, about 3% above the $914,100,436 of 1959.

Net earnings were $127,062,103, about 2% above the 1959 total of $124,680,064. The earnings were equal to $3.30 per common share against $3.23 in 1959, based on the 38,382,246 shares now outstanding. Net earnings were 13.4% of sales in 1960, compared with 13.6% in 1959.

Pre-tax earnings were $259,562,103, about 1% more than the 1959 total of $257,180,064. The provision for income taxes was $132,500,000, the same as in 1959.—V. 192, p. 596.

Ekco Products Co.—Sales, Net Down—

The Chicago company reported on Feb. 16 that consolidated domestic and foreign sales were $85,159,895 for the year ended Dec. 31, 1960, slightly below the $86,376,983 reported for 1959.

Consolidated earnings for the year 1960 amounted to $4,831,531, equivalent to $3.42 per common share, compared with net earnings in 1959 of $5,932,685, or $4.17 per share.

In reporting year-end figures, Chairman Arthur Keating announced that sales and earnings of the company's foreign operations reached record high levels in 1960.

"The dip in sales and earnings of our domestic operations reflected cost increases, the country's 'soft' economy and general decline of business activity in 1960," Mr. Keating stated.—V. 191, p. 2637.

Electric Autolite Co.—New Plant—

A third wire and cable plant of the Electric Autolite Co., and its fourth West Coast facility, will be supplying the aircraft and electronics industries March 20, according to J. M. Gerber, General Manager of the Toledo, Ohio, firm's wire and cable operations.

The 26,000 square foot facility at El Segundo, Calif., is being readied for production now with the installation of special wire drawing and braiding and coating process equipment. It will have a capacity of 500,000 feet per day and will employ approximately 45, Mr. Gerber said.

The majority of production will be special wire and cable harnesses under contract to West Coast air frame and space vehicle builders and special assemblies for electronics manufacturers, Mr. Gerber stated. He said Autolite has a number of development contracts and assignments for high temperature resistant coatings and insulations needed in high altitude or space flights.

Autolite also has wire and cable plants at Hazleton, Pa., and Port Huron, Mich. The Los Angeles plant is its fourth facility in California. Its subsidiary, Hiller Aircraft Corp., has a helicopter and adhesives plant at Palo Alto, and an Autolite battery plant at Oakland, Calif., produces lead-acid storage batteries for automotive and aircraft use. —V. 193, p. 805.

Electro-Science Investors, Inc.—Acquires Interest—

For $250,000 in common stock, convertible debentures and notes, Electro-Science Investors of Dallas, Texas, has acquired a 36% interest in Pulse Engineering Inc., of Santa Clara, Calif., a five-year-old magnetics component manufacturer. The transaction was made public in a joint statement issued by Joseph F. McKinney, ESI President, and Hugh B. Fleming, President of Pulse Engineering.

BUSINESS—In 25,000 square feet of manufacturing space on the West Coast and in Puerto Rico, Pulse Engineering produces a patented pulse transformer trademarked STAT-TRAN for use in computers, radar, time-sharing transmission systems, missiles and test equipment. One of these devices, whose surface is no larger than that of a ten-cent piece, will sell for as much as $5. "For short intervals," explained Mr. Fleming, "one of these tiny components can handle several thousand watts of power."

"At present," Mr. McKinney said, "the specialty magnetics market is estimated at nearly $150 million annually. One-third of this can be considered the existing demand for pulse transformers. But over the next four years, due to broadening uses, both military and commercial, of computers, demand for pulse transformers should double to $100 million while the over all specialty magnetics market will increase about 80% to $260 million."

"The computer market itself," added Mr. Fleming, "is at about the $300 million level now and is expected to reach $1.1 billion by 1965."

Pulse Engineering has recently introduced Epoxy Transfer Molded components and a line of solid-state modulators. "Part of the new funds," according to Mr. Fleming, "will be used for marketing a newly designed group of test instruments, including ramp generators, inductance meters and pulse code modulators.—V. 192, p. 2325.

Electrosolids Corp.—Sales Soar—

This manufacturer of solid state electronic equipment, announced on Feb. 15, sales for the year ended Oct. 31, 1960 of $2,050,792, an increase of approximately 100% over the sales volume recorded for the preceding 12-month period.

President Gerald J. Widawsky said that earnings after provision for Federal income taxes were $154,342, or 15.4 cents a share on 1,000,000 shares of outstanding common stock. These figures include 2½ cents a share non-recurring profit.

Mr. Widawsky said that comparative earnings figures for 1959 are not available. As a result of a change in the company's fiscal year, audited figures for the 1959 fiscal year cover only an eight-month period.

Anticipated sales for 1961 are $3,500,000. Profits are projected at 25 cents a share. Projected sales for 1962 are $6,000,000 with profits projected at 50 cents a share, thus continuing the rapid increase in earnings and sales shown by Electrosolids Corporation in the past five years.

According to Mr. Widawsky, today nearly 90% of all United States aircraft and missiles are equipped with solid state products designed and manufactured by Electrosolids Corp. He added that management intends to diversify so that future production will be approximately 40% military, 30% industrial and 30% consumer.

As examples of product areas into which the company plans to expand, he cited industrial controls, home appliances, toys and educational devices.

Mr. Widawsky said that Electrosolids is taking steps to enlarge its plant capacity by 250% in 1961. The expanded facilities will allow more space for production and research activities.—V. 191, p. 2305.

Employees Mutual Fund, Inc.—Proposes Offering—

This Fund of 901 Washington Avenue, St. Louis, Mo., filed a registration statement with the SEC on Feb. 16, 1961, covering 200,000 shares of capital stock for public sale. The company was organized under Maryland law in August 1960. It is registered with the commission under the Investment Company Act as an open-end diversified management investment company. Its shares will be sold directly by the Fund at net asset value without any sales commissions or other distribution charges. Preston Estep is listed as President; and he is also President of Investment Management Inc., the investment adviser. Transit Casualty Co. purchased from the Fund at net asset value $200,000 of the Fund's stock; and it owned at Dec. 31, 1960, 89% of the 44,940,632 shares then outstanding. The Investment Securities Co. and Estep, through their ownership of Transit Casualty, indirectly and beneficially own the 89% interest in the Fund.

Fajardo Sugar Associates—To Redeem Pfd. Stock—

The company has called for redemption on March 20, 1961, all of its outstanding $2 cumulative preferred stock at $31 per share, plus accrued dividends of 61 cents per share. Payment will be made at The First National City Bank of New York, 55 Wall St., New York, N. Y. or San Juan, P. R.—V. 187, p. 2001.

Federal Shell Homes, Inc.—Files Financing Proposal

This company of 225 West Carolina St., Tallahassee, Fla., filed a registration statement with the SEC on Feb. 23 covering 675,000 shares of common stock, $1,350,000 of 9% convertible subordinated debentures, $10 par, and 135,000 1964 warrants. It is proposed to offer these securities in 135,000 units, each consisting of five common shares, one $10 debenture, and one 1964 warrant. The securities are to be offered for public sale on an all or none basis through underwriters headed by Pierce, Carrison, Wulbern, Inc.; and the public offering price and underwriting terms are to be supplied by amendment. As additional compensation, warrants for 56,850 common shares have been sold to the principal underwriter at one cent per warrant, being part of 113,700 warrants sold to Fred E. Deeb, principal stockholder, who also sold 5,000 warrants to officers, employees and an attorney of said underwriter. Also included in the registration statement are the securities underlying the 1964 warrants, which entitle the holders to purchase as a unit, two shares of common stock and one $10 debenture at a unit price of $14 (or a total of 270,000 common shares and $1,890,000 of debentures).

The company was organized under Florida law on Feb. 9, 1961; and on Feb. 23, 1961, Deeb Construction Co., a Mississippi corporation organized in 1957, and Deeb Construction Co., Inc., of Alabama, an Alabama corporation organized in 1958, were merged into the company. The two predecessors have been engaged in the business of constructing shell homes in Mississippi, Alabama, Georgia and Florida, and the principal business of the company is to be the construction of owner completed ("shell") homes. The Mississippi company has a Puerto Rican subsidiary organized in November 1960. The company also is acquiring, by an exchange of stock, Colonial Enterprises, Inc., a Florida corporation, a successor by merger of Colonial Enterprises, Inc., a Mississippi corporation organized in April 1960. The company will in the future sell to this subsidiary all real estate mortgages or other security instruments evidencing the unpaid installment sales balance of the purchase price on homes sold and constructed by the company. The profitable operation of the company is said to be dependent upon its ability to obtain mortgage financing for prospective customers desiring to purchase homes on an installment payment basis. The net proceeds from this financing will be added to working capital and be used for general corporate purposes, and to increase mortgage notes receivable to be held by Colonial Enterprises.

The company now has outstanding 462,000 shares of common stock and the 113,700 warrants issued to Deeb, who is listed as Board Chairman and President, and owns 273,161 shares (59.1%) of the outstanding common stock. Other officials own an additional 10%.

Filmways, Inc.—Files With SEC—

This company, of 18 East 50th Street, New York City, filed a registration statement with the SEC on Feb. 15, 1961, covering (1) 20,000 shares of common stock to be offered by the company from time to time until March 1962 in connection with the acquisition of literary properties, including photoplays from the authors or owners thereof and to compensate or induce present or prospective key employees to remain with or join the company; (2) 17,500 outstanding shares of common stock, to be offered for public sale from time to time by the present holders thereof on the American Stock Exchange at prevailing market prices; and (3) 16,000 common shares to be offered by the company to holders of a like amount of warrants which were acquired at one cent each in December 1958 by S. D. Fuller & Co. in connection with a prior stock offering, of which part was resold to another firm. Each warrant entitles the holder to purchase one share of common stock at $5.25 per share.

The company has engaged in producing television commercials since its formation and more recently has become engaged in producing filmed television programs. In addition to certain indebtedness, the company has outstanding 502,604 shares of common stock, of which Martin Ransohoff, Board Chairman, owns 22% and management officials as a group 29%. Rodney Erickson is listed as President. The prospectus lists nine sellers of the 17,500 shares, who propose to sell blocks ranging from 200 to 8,000 shares. Most of this stock was acquired in January 1960 for $4.50 per share cash.—V. 191, page 2413.

First Charter Financial Corp.—Record Highs—

Record 1960 gains were reported by this Beverly Hills, Calif., corporation according to S. Mark Taper, President.

Net earnings for the year, before appropriations to general reserves, amounted to $12,990,399, equal to $2.01 per share. This represents a 26% increase over the $10,299,200, or $1.59 per share, for the preceding year 1959 based on 6,457,500 shares now outstanding. In addition, $849,451 or 13 cents per share, was added to deferred earnings, bringing total deferred earnings at Dec. 31, 1960, to $13,926,657 or $2.16 per share, compared with $13,077,206 or $2.03 per share a year ago.

Assets of $769,054,235 at Dec. 31 were at an all-time high, reflecting a 23% increase over the $597,913,633 reported at the end of 1959.

Taper also stated that loans outstanding had risen sharply to $666,748,125, a 31% climb over the $509,706,729 of a year ago. Savings during the 12-month period increased 29% from $457,014,204 to $587,529,804.

He stated that the company's program of modernizing and expanding its physical facilities have resulted in 11 offices being enlarged or moved to completely new buildings, and is confident that this program will make significant contributions to the company's future growth.

First Charter owns five savings and loan associations, including American Savings and Loan of Whittier, Mutual Savings and Loan of Alhambra, Pioneer Investors Savings and Loan of San Jose, Home Mutual Savings and Loan of San Francisco, and Berkeley Savings and Loan of Berkeley. The company also owns 53% interest in a sixth association, Lancaster-Palmdale Savings and Loan of Lancaster, and owns 11 other subsidiaries.—V. 192, p. 1609.

Four Star Television—Net Up—

Four Star Television substantially increased both gross and net income during the first half of its current fiscal year while further enhancing its position as the nation's largest producer of network television program. Dick Powell, President and Thomas J. McDermott, Executive Vice-President, announced on Feb. 20 in an interim report to shareholders.

For the six months ended Dec. 31, 1960, a gross income totalled $11,087,250 which compared with gross income of $7,106,437 registered in the like period of the previous year.

Net income after taxes amounted to $317,203 equal to 52 cents a share based on 600,000 common shares outstanding at Dec. 31, 1960. For the comparable period a year ago, net income was $160,898 equal to 26 cents a share based on the same number of outstanding shares.

The executives attributed Four Star's growth to the talent, ability and experience of its creative and managerial personnel, who attract and work successfully with outstanding actors, directors and writers. This coupled with the company's strong financial position and aggressive sales organization enable it to produce and sell, to sponsors and networks, shows of the highest quality with wide appeal to the television viewing audience. A measure of the reputation that Four Star production enjoys is indicated by the fact that all shows of the company are scheduled during the evening prime viewing hours on the networks, they said.

The report disclosed that during the period under review Four Star produced 10 half-hour and two one-hour television series which were shown on the ABC, CBS and NBC networks. The company's library of completed films at Dec. 31, 1960 comprised 873 half-hours and 41 hours which represent a potential source of future income from their subsequent telecasting, it was stated. In addition, a wholly-owned subsidiary, Dayton Productions, has an indirect interest in 38 films of the "Alcoa-Goodyear Theatre" series.

"Currently, we are engaged not only in the production of films for the balance of the 1960-61 season but in the creation of pilot films for future network series. Two series have already been sold —an hour anthology starring Dick Powell to NBC and a new half-hour situation comedy starring Gertrude Berg to General Foods Corp. The sale of additional new shows for which pilot films are being produced as well as the renewal of a number of shows currently being telecast over the networks is anticipated," the executives said.

For the balance of the year, a continuation of the trend established in the first six months is expected which will make the current fiscal year a record one in both gross and net income, they concluded. —V. 192, p. 498.

Fulton Industries, Inc.—Files for Secondary—

Fulton Industries, Inc., 170 Boulevard, S. E., Atlanta, Ga., filed a registration statement with the SEC on Feb. 21 covering 233,955 outstanding shares of common stock, to be offered for public sale by the present holders thereof. The offering will be made on an all or none basis through underwriters headed by The Robinson-Humphrey Co., Inc. and Walston & Co., Inc. The public offering price and underwriting terms are to be supplied by amendment.

The company carries on diversified manufacturing operations through several divisions and subsidiaries. These include Fulton Cotton Mills, a producer of textiles, Continental Gin Co., a manufacturer of cotton ginning equipment, Ainsworth Manufacturing Co., a producer of automotive parts, Precision Castings Co., a producer of nonferrous metal castings, and American Buildings Co., a manufacturer of pre-engineered steel buildings.

In addition to certain indebtedness, the company has outstanding 1,491,166 shares of common stock, of which Jay Levine, Board Chairman, and David Berdon, Vice-Chairman, own 163,036 shares each and propose to sell 32,607 shares each. David Berdon & Co. owns 130,910 shares and proposes to sell 26,182 shares; Wright National, Inc. owns 158,002 shares and proposes to sell 31,600 shares; and Bernard A. Mitchell, President, owns 99,114 shares and proposes to sell 19,823 shares. The prospectus lists 15 other stockholders who propose to sell amounts ranging from 612 to 18,348 shares.

Gabriel Co.—Annual Report—

Five consecutive years of profitable operations were interrupted in 1960 despite an increase in sales, John H. Briggs, Fresident of the Cleveland company, said in the annual report mailed to shareholders on Feb. 15. However, several developments during the past year should lead to profitable operations in 1961, the Gabriel president said.

Mr. Briggs said that the recession in the national economy had some adverse effects in the operation of Gabriel in the latter half of 1960, particularly in the cost-price squeeze in the Automotive Division. The Gabriel president pointed out that the Automotive, Rocket Power/Talco, and International Divisions of the parent company operated at a profit but that substantial losses were sustained by the Bohanan and Electronics Divisions. The Bohanan Division has been consolidated into Rocket Power/Talco operations to eliminate future operating losses. The Electronics Division will be sold, Mr. Briggs told shareholders.

Gabriel finished the year with a loss of $436,556, or 66 cents per common share, compared to net earnings of $536,906 in 1959, or 77 cents per common share.

In the annual report the Gabriel president also pointed out that Gabriel of Canada began production in the fourth quarter and that the sales and profit picture in the Canadian market is very favorable.

According to the annual report, arrangements have been concluded to establish Gabriel India Private Ltd., and production is expected to begin by mid-1961.

Gabriel's Rocket Power/Talco Division has received important national defense contracts including devices and components for the F-106 supersonic interceptor, the X-15 experimental aircraft, and the B-70 supersonic bomber.

This Division's research laboratories at Pasadena, Calif. became self-supporting during 1960 with the receipt of important government contracts covering basic thermodynamics and advanced propulsion concepts in the ion field.—V. 192, p. 2610.

General Precision Equipment Corp.—Sues Martin Co.

General Precision Equipment Corp. of New York, filed an anti-trust suit on Feb. 17 in the Federal Court for the Southern District of New York, against the Martin Co. of Baltimore, Md., which is the largest shareholder in General Precision, owning about 15% of its outstanding voting stock.

Legal action follows receipt of a letter by General Precision from the Martin Co. demanding appointment of Martin's Board Chairman and General Counsel as Martin representatives on the Board and removal of six present directors. The demand was rejected by the General Precision Board.

In the action, General Precision charges Martin with violation of Section 7 of the Clayton Act and asks that Martin be ordered to divest itself of its present General Precision shares and enjoined from increasing its holdings in General Precision, voting its present holdings, or in any way interfering in the conduct of General Precision business. The complaint also asks for damages and other appropriate relief against Martin.

In announcing the action, James W. Murray, GPE Chairman, said: "The Martin Co. has been buying our stock for about two years. During this period that company has several times publicly announced that such acquisition was simply for investment, thereby implying no ulterior motive. The proposals and demands recently made by the Martin Co. are quite inconsistent with such statements and are evidence of an attempt to destroy the independence of General Precision and to take over control and direction of this corporation for the benefit of the Martin Co.

"In the opinion of the Management and Board of Directors of General Precision, such a result is certainly not in the interest of General Precision shareholders.

"General Precision products are identified with practically every missile program in the country as well as most space and aircraft projects. Over 50% of the total business of the General Precision companies is done with competitors of the Martin Co., compared with approximately 1% with Martin. The largest customers of General Precision, apart from the government, are direct competitors of the Martin Co.

"Any take-over of General Precision such as the Martin Co. is attempting can only have an adverse effect upon our business with its competitors.

"Accordingly, the Board of Directors of General Precision has instructed counsel to take all appropriate action to protect the company and the interests of its shareholders. The present action is the first step to be taken pursuant to that authorization."—V. 193, p. 806.

General Public Utilities Corp.—Files Financing Proposal—

This New York holding company has filed a financing proposal with the SEC under the Holding Company Act for itself and a subsidiary; and the Commission has issued an order giving interested persons until March 9, 1961, to request a hearing thereon.

Under the proposal, GPU proposes to make bank borrowings from time to time during 1961 in amounts not to exceed $12,000,000 outstanding at any one time. Its subsidiary, Pennsylvania Electric Co., of Johnstown, Pa., proposes to issue and sell to GPU during 1961 an additional 425,000 shares of its common stock at $20 per share, or an aggregate of $8,500,000. These funds will be used by the subsidiary for property additions and to reimburse its treasury for past expenditures for such purpose. The parent will use the balance of its borrowings to repay other borrowings.—V. 191, p. 2089.

General Telephone Co. of Florida—Files for Offering

This company, of 610 Morgan Street, Tampa, Fla., filed a registration statement with the SEC on Feb. 21, 1961, covering 400,000 shares of $25 par cumulative preferred stock, to be offered for public sale at $25 per share through underwriters headed by Paine, Webber, Jackson & Curtis. The dividend rate and underwriting terms are to be supplied by amendment. The underwriters are not committed to the purchase of any of the stock, but will receive 60-day options to purchase the 400,000 at $25 per share less a discount to be paid from general funds of the company (the amount of which is to be supplied by amendment).

The $10,000,000 net proceeds from the stock sale will be applied to the payment of bank loans incurred for 1960 and 1961 construction. As of Dec. 31, 1960, such loans amounted to $7,900,000, and an additional $3,600,000 will have been incurred through February 1961, so that $1,500,000 will remain outstanding after the proceeds have been so applied. Gross construction for 1960 totalled about $30,300,000 and capital requirements for construction during March-December 1961 are estimated at $19,000,000.—V. 192, p. 702.

Geochron Laboratories, Inc.—Stock Offered—Pursuant to a Feb. 21 offering circular, Globus Inc., and Ross, Lyon & Co. Inc., both of New York City, publicly offered at $1 per share, 150,000 shares of the 1¢ par common stock of Geochron Laboratories Inc.

BUSINESS—The company is in the process of establishing a geochronology laboratory in Cambridge, Mass. As its initial business, the company proposes to perform age determinations on rock and mineral samples for others on a commercial basis. The company will derive its income from charges made for performing such determinations. The method of determination will be potassium-argon isotope analysis.

PROCEEDS—The proceeds will be used to establish the laboratory, for advertising and promotion and for working capital.—V. 192, p. 2221.

Gillette Co.—Annual Report—

Gillette in 1960 enjoyed the most successful year in the history of the company, with net sales, dividends, gross profits and earnings, both before and after taxes, at record levels, Carl J. Gilbert, Chairman of the Board, and Boone Gross, President, announced in issuing the company's annual report on Feb. 16.

Net earnings in 1960 reached an all-time high at $37,123,000, equiva-

tized for FRASER
://fraser.stlouisfed.org/

lent to $3.98 per share, surpassing by 19% earnings in 1959 of $31,152,000, or $3.34 per share.

Net sales in 1960 rose to a record $224,737,000, an increase of 7% over 1959 sales of $209,277,000.

Dividends paid on the common stock during 1960 totaled $28,022,000, or $3 per share. This record distribution includes the new regular dividend rate of $2.50 per share established in 1959 plus an extra dividend of 50 cents per share. During 1960, 75% of the company's current earnings were paid out in dividends, extending the company's unbroken record of dividend payments to 55 consecutive years.

"The company's principal manufacturing divisions and subsidiaries continued to maintain strong market positions during 1960," stockholders were told in the report. "In the United States the successful introduction of the remarkable new Super Blue Blade by Gillette Safety Razor Co. was responsible in large part for that division's experiencing the most successful year in its history. The Toni Co. Division established an all-time record in earnings during 1960 and the operating profits of the Paper Mate Division improved significantly during the year. Foreign operations also continued to make a major contribution to consolidated net earnings."

Gillette's manufacturing divisions in the United States are the Gillette Safety Razor Co., maker of razors, blades, shaving creams and Right Guard spray deodorant; The Toni Co., maker of Toni home permanents and other hair and cosmetic products, and The Paper Mate Co., a leading producer of ball point pens and pen refills. Internationally Gillette products are sold in virtually every part of the world outside the Iron Curtain.—V. 191, p. 701.

Gould-National Batteries, Inc. — Buys Production Facilities—

A. H. Daggett, Chairman of the Board of Gould-National Batteries Inc., announced on Feb. 14 a purchase from the Cleveland Graphite Bronze Division of the Clevite Corp., Cleveland, Ohio.

"Involved in the purchase," said Mr. Daggett, "is the entire sintered battery plaque operation consisting of machinery, equipment, parts, molds and engineering operations. These sintered plaques are used by Gould-National in the construction of nickel cadmium open and sealed cell batteries.

"While Gould-National will still absorb the major portion of this sintered plaque production," Mr. Daggett stated, "other manufacturers who have been purchasing these elements from the Cleveland Graphite Bronze Division may continue to buy from Gould-National."

Mr. Daggett indicated that all phases of the production operation will be moved, about April 1, to St. Paul.—V. 192, p. 1156.

Greyhound Lines of Canada Ltd.—Partial Redemption

The corporation has called for redemption on March 15, next, through operation of the sinking fund, $125,000 of its 5½% secured convertible series A debentures, due March 15, 1978 at 102.50%. Payment will be made at any branch in Canada of the Bank of Montreal.

Debentures are convertible into common stock to March 14, 1961, inclusive.—V. 187, p. 1206.

Gulf & Western Industries, Inc.—Acquisitions—

Allen & Co. announced on Feb. 20 that it assisted in negotiations through which Gulf & Western Industries, Inc. acquired Scheuffler Supply Co., Inc., Great Bend, Kan.; Overseas, S. A., Mexico City, Mexico; and Patten Sales Co. of Jacksonville, Inc., Jacksonville, Fla. All of the companies are engaged in the distribution of automobile replacement parts.—V. 192, p. 2610.

Home Lab Supply, Inc., Mount Vernon, N. Y. — Files With Securities and Exchange Commission—

The corporation on Feb. 15, 1961 filed a letter of notification with the SEC covering 100,000 shares of common stock (par one cent) to be offered at $3 per share, through Fontana Securities Inc., New York, N. Y.

The proceeds are to be used for general corporate purposes.

Ilikon Corp.—Common Stock Sold—Ilikon Corp., of Natick, Mass., offered on Feb. 21, 75,000 shares of common stock (par value 10¢ per share) at $5 per share, through Myron A. Lomasney & Co., underwriters. The offering was quickly sold.

PROCEEDS—The net proceeds of this sale, together with funds possessed by Ilikon at the present time and such other funds as may be generated by contract research, will be used for six projects now in the laboratory stage and the remainder of such proceeds for general corporate purposes.

BUSINESS—Ilikon Corp. is undertaking research and development in the field of "material engineering and science." This field involves the development of new materials, new methods of materials fabrication and devices based on new materials developed. The requirements which advanced technology places on material to meet functional stresses, temperatures and operational demands is so severe that materials scientists cannot always satisfy today's requirements by improving upon existing conventional materials. New classes of materials, new methods of fabrication, new principles of alloying, etc., must be found to meet these requirements.—V. 193, p. 8.

Inland Credit Corp.—Net Up—Stock Dividend—

Directors at their meeting Feb. 15 declared a semi-annual stock dividend of 2½% on the class A and class B shares, payable May 19, 1961, to shareholders of record April 20, 1961, it was announced by Oscar Dane, President.

At the same time, Mr. Dane reported that consolidated earnings for the first quarter of the current fiscal year, ended Jan. 31, 1961, reached $151,000 or 26 cents a share on the 575,000 shares of class A and class B stock now outstanding. This represents a 51% increase over the $99,400 earned in the like period last year by Inland Credit and its wholly-owned subsidiary, Ardisco Financial Corp., previously an affiliated company whose business was acquired by Inland in April 1960. The 1959 figure was equivalent to 17 cents a share on the present capitalization.

Inland and Ardisco Financial provide commercial financing for more than 150 firms, engaged in 28 different industries. The company's class A shares have been publicly owned since April 1960, and are listed on the American Stock Exchange.

Since the public offering, quarterly dividends of 12½ cents a share in cash have been paid. The company polled its public shareholders in December, suggesting that a change to stock dividends would materially assist in financing the company's expanding business since each dollar of capital employed permits borrowings in excess of $6, under Inland's agreements with its lending institutions. More than 88% of those responding to the company's inquiry voted for the stock dividend. The amount of the next semi-annual stock dividend will be determined later this year, Mr. Dane said.

Fractional shares will not be issued. Shareholders will have the option of selling shares or purchasing the additional fraction to receive whole shares.—V. 193, p. 379.

Inter-Mountain Telephone Co.—Proposes Rights Off'g

This company of Bristol, Tenn., filed a registration statement with the SEC covering 465,000 shares of common stock. The company proposes to offer the stock for subscription by stockholders of record March 17, 1961, at the rate of one new share for each three shares then held. The subscription price is to be supplied by amendment. Of this offering, 209,602 shares issuable to the two principal stockholders will not be underwritten; but the balance (255,898 shares) will be underwritten by a group of eight firms headed by Courts & Co. The underwriting terms are to be supplied by amendment.

The company proposes to apply the net proceeds of the stock sale to the payment in full of amounts owed to banks and expected to amount to $3,050,000 on Feb. 28, 1961. Any balance will be used for general corporate purposes.

Of the 1,396,500 outstanding common shares, 458,434 shares (32.8%) are owned by Southern Bell Telephone and Telegraph Co. and 170,373 shares (12.2%) by The Chesapeake and Potomac Telephone Co. of Virginia. Southern Bell also owns 28,930 shares (82.7%) of outstanding preferred stock.—V. 189, pp. 1467 and 2891.

International Electronic Research Corp. — Common Stock Offered — Pursuant to a Feb. 13 prospectus, an underwriting group headed by Schwabacher & Co., 100 Montgomery St., San Francisco 4, Calif., publicly offered 220,000 shares of this firm's no par common stock at $9 per share.

APPOINTMENTS—Transfer agent: California Bank, Los Angeles, Calif. Registrar: Union Bank, Los Angeles, Calif.

BUSINESS—International Electronic Research Corp. was incorporated under the laws of the state of California on March 30, 1953. The executives offices of the company are located at 135 West Magnolia Boulevard, Burbank, Calif.

The company has developed and manufactures an accessory for use with electron tubes known as the heat dissipating tube shield. In addition, it operates a precision machining facility doing subcontract work in the aircraft and rocket engine industry, and manufactures certain precision A. C. instruments.

PROCEEDS—Of the net proceeds to be received by the company from the sale of the common stock being sold by it, estimated at approximately $874,800 after payment of expenses, $108,000 will be used to repay bank loans, $419,900 will be used to pay the balance due from the company in connection with the purchase of assets of Millrich Industries, Inc., and $5,243 will be used to pay the balance due under equipment purchase contracts. The balance of such proceeds will be added to the company's working capital and will be available for general corporate purposes, including the carrying of larger inventories and accounts receivable.

The company's outstanding bank loans were obtained in 1959 to pay a portion of the purchase price of the assets of Millrich Industries, Inc., and to provide working capital.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

	Authorized	Outstanding
Company:		
*Notes payable	--	None

International Life Insurance Co. of Buffalo—Files for Offering—

This company, of 310 Delaware Avenue, Buffalo, N. Y., filed a registration statement with the SEC on Feb. 21, 1961, covering 350,000 shares of capital stock, to be offered for public sale at $5 per share through officers and directors of the company.

The company (formerly Buffalo International Life Insurance Co.) was organized under New York law in March 1960. It has been licensed to transact an insurance business in New York but has not engaged in any such business to date. According to the prospectus, it has started to assemble its sales organization and expects to commence writing insurance policies as soon as it has received subscriptions for the sale of at least 150,000 shares being offered and its policy forms have been approved by the Superintendent of Insurance of New York. The $1,731,000 net proceeds (assuming the sale of all the stock) will be placed in the company's general funds to be available to finance the general conduct of business and to set up proper reserves against policies as written.

The company has outstanding 150,000 shares of capital stock, all of which was purchased at $5 per share by a group of 24 persons who organized the company. Harold D. Farber, President, Milton A. Schiff, Executive Vice-President, and David R. Schlossman, a Director, own 20,000 shares each, and management officials as a group own 109,000 shares.

International Rectifier Corp.—Sales Up—

This Los Angeles, Calif., corporation on Feb. 16 reported sales of $6,941,832 for the six months ended Dec. 31, 1960, a gain of 8.5% over $6,396,201 for the same period in 1959.

Net income after taxes for the six months ended Dec. 31, 1960 amounted to $602,204, or $0.25 per share on 2,405,713 shares, the average number outstanding for the period.

This compares with $602,915, or $0.25 per share for the corresponding period in 1959, based on the same number of shares.—V. 193, p. 379.

International Resistance Co.—Record Highs—

The Philadelphia, Pa. company, established new all-time sales and earnings records in 1960 for the second consecutive year, it was announced on Feb. 14 by Walter W. Slocum, President.

Net sales for the fiscal year ended Jan. 1, 1961, rose to $20,824,173, an increase of 5.1% from the $19,810,403 reported for the previous fiscal year ended Jan. 3, 1960.

Earnings after taxes totaled $1,943,450, an increase of 9% from the previous year's net of $1,783,859. Net per share was equal to $1.40 versus $1.29, based on 1,386,498 shares outstanding Jan. 1, 1961.

Mr. Slocum pointed out that the record sales and earnings were made "in the face of substantially increased expenditures" for research and new product development, and "despite the intensified business conditions during the last six months of 1960."—V. 193, p. 703.

Iowa Power & Light Co.—Record Highs—

Record revenues, earnings and taxes were reported to shareholders of this Des Moines-based electric and natural gas utility, serving the state capital city and central and southwest areas of Iowa.

Revenues topped $50 million for the first time as this largest of the Iowa utilities continued to show business expansion in keeping with industrial and population growth of its service area. Climbing revenues have marked the company's reports for many years. Revenues were $51,140,000, up 9.8% over 1959.

Net income advanced 10.1% over 1959 at $5,553,000 with per share earnings on common stock up to $2.20 from $2.06 the previous year.

The annual report issued over the signatures of N. Bernard Gussett, Chairman, and A. Paul Thompson, President, showed taxes paid out by the company at a record $9,631,060 or 19 cents for taxes on each revenue dollar.

The report noted continued gains in Iowa's industrial growth and improvement in the company's position with an overwhelming vote won during the year in a special municipal election in Des Moines granting the company new 25-year franchises for both electric and gas service.—V. 193, p. 379.

Irvington Steel & Iron Works, New Brunswick, N. J.—Files With Securities and Exchange Commission—

The company on Feb. 13, 1961 filed a letter of notification with the SEC covering 150,000 shares of common stock (par 50 cents) to be offered at $2 per share, through L. L. Fane & Co. Inc., Plainfield, N. J.

The proceeds are to be used for general corporate purposes.

Ivest Fund, Inc.—Files for Offering—

Ivest Fund, Inc., One State Street, Boston, Mass., filed a registration statement with the SEC on Feb. 20, 1961, covering 150,000 shares of common stock, to be offered for public sale at net asset value through Ivest, Inc., the Fund's underwriter and investment adviser. No sales commission or underwriting charges will be paid.

The Fund was organized under Massachusetts law on Feb. 16, 1961 and is a nondiversified, fully managed, open-end investment company, whose stated objective is capital appreciation. The Fund is the successor to Professional Investors, a private investment association previously managed by the operating officers of the Fund and its investment adviser. The assets of Professional Investors underlying its outstanding shares of beneficial interest will be transferred to the Fund by its shareholders, of whom not more than 25 of the 26 such shareholders will own such shares representing at least $100,000 in net value of the underlying assets.

William Nicholas Thorndike is listed as President of the Fund and of Ivest, Inc.; George Lewis as Treasurer and Vice-President of both companies; and Stephen Davies Paine and Robert Wren Doran as Vice-Presidents of both companies. Thorndike, Doran, Paine and Lewis are the sole stockholders of Ivest, Inc.

Jet-Aero Corp., Hialeah, Fla.—Files With SEC—

The corporation on Feb. 10, 1961 filed a letter of notification with the SEC covering 62,500 shares of common stock (par 10 cents) to be offered at $4 per share, through Netherlands Securities Co., Inc., New York, N. Y.

The proceeds are to be used to purchase new machinery and equipment, to increase inventory, research and development and working capital.

Kayser-Roth Corp.—Sales, Net Up—

Chester H. Roth, President, announced on Feb. 21 that net sales for the quarter ended Dec. 31, 1960 totaled $31,793,000 as compared to $31,564,000 for the three months ended Dec. 31, 1959.

For the quarter ended Dec. 31, 1960, profits before Federal income taxes amounted to $2,570,000 against $2,334,000 for the quarter ended Dec. 31, 1959. Net profits after Federal income taxes were $1,259,000, up from $1,232,000. Earnings, after preferred stock dividends and after adjusting for the 2% sotck dividend in October, 1960, amounted to 42 cents per share of common stock as compared to 41 cents per share for the prior period. These figures include the operation of A. Stein & Co. from the date of acquisition, Nov. 10, 1960.—V. 192, p. 2508.

Kukatush Mining Corp. (1960) Ltd.—Files for Offering and Secondary—

This corporation, of 160 Richmond Street, Charlottetown, Prince Edward Island, Canada, filed a registration statement with the SEC on Feb. 17, 1961, covering 500,000 shares of capital stock, of which 250,000 shares are to be offered for public sale by the company and 250,000 shares, being outstanding stock, by Sanwood, Inc., of Montreal, Canada. The offering price will be $6.50 per share. The offering of company stock will be made by management officials; but a 50c per share discount will be allowed members of the National Association of Securities Dealers, Inc. who purchase shares for customers.

The company was organized under Canadian law in November, 1960 for the purpose of acquiring all of the assets of Kukatash Mining Corp. and for the purpose of acquiring, exploring and developing the mining properties of the predecessor company, particularly those believed to have iron ore potential. The company is the recorded holder of a number of unsurveyed and unpatented mining claims in Keith, Penhorwood and Kenogaming Townships in the Sudbury Mining Division of the Province of Ontario. According to the prospectus, the company has no operating history. Since its organization, the predecessor company had engaged in the exploration of portions of its property with a view to the location of iron deposits, but the work done to date has not established a commercially minable orebody. The $1,450,000 net proceeds from the company's sale of additional stock will be applied as follows: $400,000 for pilot plant, mining, grinding, concentrating and shipping costs of samples for direct reduction tests; $120,000 for direct reduction tests costs; $82,000 for surveying and patenting; $40,000 for assessment work on claims for ensuing 24 months; and $808,000 for working capital.

The company has outstanding 3,500,105 shares of capital stock, of which Euro-Can Inc. Corp. Ltd. of Montreal, owns 2,000,000 shares and Sanwood, Inc., of Montreal, owns 1,498,000 shares, both of which are completely controlled by Robert Sherwood. Sanwood proposes to sell 250,000 shares of its holdings. E. Jacques Courtois, Esq., is listed as President.

Leaseway Transportaton Corp.—Appointment—

The Manufacturers Trust Co. has been appointed transfer agent for the common stock of the corporation.—V. 193, p. 202.

Long Island Plastics Corp.—Common Stock Sold—An offering of 300,000 shares of common stock of Long Island Plastics Corp. at $1 per share was offered through The James Co. and quickly sold.

The operations which the company proposes to exploit are believed to be novel and to the knowledge of the company are not now being conducted on a commercial basis by any other person or firm.

The company will use the proceeds for the retirement of outstanding indebtedness; the acquisition of additional equipment to permit commercial production including its installation and hook up with existing equipment; the purchase of initial stocks of raw material inventories consisting of chemicals, nylon, scrap, etc. The balance will be applied to working capital.—V. 192, p. 1399.

Lytton Financial Corp.—Net, Assets Up—

Net earnings for 1960, before appropriations to general reserves and after taxes, amounted to $1,398,200 or $1.35 per share including $96,076 or 9 cents per share added to deferred income, Bart Lytton, President, reported on Feb. 20.

This represented an increase of $373,425 or 36% over the $1,024,775 or $1.08 per share for 1959 including $93,239 or 9 cents per share added to deferred income. Calculations are based on the average number of shares outstanding during each year.

Deferred income at year-end totaled $226,618 as compared with $130,542 at the close of 1959.

Total assets as of Dec. 31, 1960, amounted to $113,475,201, compared with $72,068,335 on the same date a year ago. This represents a growth of more than 57% during the 12 month period.

Representing an important segment of this total increase, Lytton Savings and Loan Association, the corporation's Southern California subsidiary, grew from the 352nd largest association in the nation to 102nd largest. In moving up 250 places in size during 1960, Lytton Savings made the greatest upward movement of any savings and loan association in the nation, according to a tabulation by the "American Banker," national banking trade publication.

Net combined savings of the operating subsidiaries of Lytton Financial increased to $89,248,020, up more than 57% over the $56,663,421, reported a year ago.

Subsidiaries made $46,811,843 of mortgage loans to finance 3,300 residential and commercial real estate transactions in 14 counties throughout California, an increase of 64% over the $28,497,234 loaned in 1959.

This brought total mortgage loans outstanding at year-end to $93,763,762, as against $58,931,744 at the close of 1959, up 59%.

"The extent of Lytton Financial's growth and its increase in earnings exceeded management's best expectations," Mr. Lytton said. "They were achieved despite substantial non-recurring expenses involved in the opening of two new buildings for Lytton Savings. These facilities, however, are proving unusually productive as reflected by nationally recognized record savings growth since they were established."—V. 192, p. 1914.

(G. B.) Macke Corp.—Acquires—

The Washington, D. C., headquartered vending firm announced on Feb. 18 that it had successfully concluded negotiations to acquire the M-R Vending Co. of Chester, Pa. This new company will add in excess of $1 million to Macke's annual sales. The transaction will be based on an exchange of stock.

The firm, well known in the vending industry, will continue to operate under its present management with I. Rubenstein as President.

M-R Vending presently operates over 900 vending machines in the Chester, Pa.-Wilmington, Del. area. This acquisition will afford Macke new vending opportunities in a highly industrialized area.—V. 192, p 2611.

Maple Leaf Milling Co. Ltd.—Amalgamation Agreem't

Subject to shareholders' approval at meeting to be held March 7, 1961, the Directors of Maple Leaf Milling Co. Ltd., Toronto Elevators Ltd. and Purity Flour Mills Ltd., have approved an amalgamation agreement dated Feb. 13, 1961 whereby upon the issue of Supplementary Letters Patent, the amalgamated company of Maple Leaf Mills Ltd. will be formed. The amalgamation is based on Maple Leaf Milling 5% cumulative redeemable preferred and common shareholders receiving one fully paid 5½% cumulative redeemable class "B" preferred share and 1.4 common shares N. P. V. of the amalgamated company for each preferred and common share held respectively. The outstanding share capital of Maple Leaf Milling is 18,627.04 5% preferred and 534,984 common shares. Toronto Elevators common shareholders will receive one fully paid common share N. P. V. of the amalgamated company for each share held. There are 762,696 outstanding common shares of Toronto Elevators.

Holders of Purity Flour common shares (excepting 182,605 shares held by Maple Leaf Milling which will be cancelled) will receive 1.75 common shares N. P. V. for each share held. There are outstanding 183,000 common shares of Purity Flour. The present bond indebtedness of Maple Leaf Milling & Toronto Elevators will be assumed by the amalgamated company. The amalgamated company will have an authorized share capital of 75,000 preference shares class "A" par value $100 each, 18,628 5½% cumulative redeemable preference shares class "B" par value $100, and 4,000,000 common shares no par value.

Marine Capital Corp.—Proposes Offering—

This corporation, of 622 North Water Street, Milwaukee, Wis., filed a registration statement with the SEC on Feb. 16, 1961, covering 667,000 shares of common stock, to be offered for public sale at $15 per share. The offering is to be made by underwriters headed by Paine, Webber, Jackson & Curtis, which will receive a commission of $1.30 per share. The underwriters are committed to purchase 400,000 shares and have an option to purchase the remaining 267,000 shares.

The company was organized in December 1959 under Wisconsin law and under the name Marine Business Investment Corp. It was organized by The Marine Corp., a bank holding company, which owns all of its 13,525 outstanding common shares. The company is registered as a closed-end, non-diversified management investment company under the Investment Company Act of 1940 and is a Federal licensee under the Small Business Investment Act of 1958. Eliot G. Fitch, President of Marine National Exchange Bank of Milwaukee and The Marine Corp., is listed as Board Chairman and Sheldon B. Lubar as President. Net proceeds of this stock offering by the company will be added to its general funds and will be used to finance the company's small business investment company activities of providing equity and long-term loans to small business concerns. Part of the proceeds will be used to retire a $150,000 subordinated debenture held by the Small Business Administration.

Marine Structures Corp., Petaluma, Calif.—Files With Securities and Exchange Commission—

The corporation on Feb. 1, 1961 filed a letter of notification with the SEC covering 100,000 shares of common stock (par one cent) to be offered at $3 per share, through Grant, Fontaine & Co., Oakland, California.

The proceeds are to be used to purchase raw materials, for advertising, and for working capital.

Marquette Cement Mfg. Co.—Files for Secondary—

This company, of 20 North Wacker Drive, Chicago, Ill., filed a registration statement with the SEC on Feb. 20, 1961, covering 575,158 outstanding shares of common stock, to be offered for public sale from time to time by the present holders thereof on the New York or Midwest Stock Exchanges at the market price current at the time of offering.

The Company is engaged in the manufacture and sale of the principal types of Portland Cement in general use and of masonry cement and in various related activities, including the operation of a water transportation system. In January, 1961, the company acquired substantially all of the assets of North American Cement Corp. in consideration of the assumption by the company of substantially all liabilities of North American and the issuance to North American of 575,158 common shares. On Feb. 3, 1961 North American was dissolved and the Marquette shares, constituting 15.45% of the outstanding Marquette stock were distributed to North American shareholders on the basis of eight-tenths of a Marquette share for each share of North American.

In addition to certain indebtedness, the company has outstanding 375,000 shares of $8 par preferred stock and 3,350,158 shares of common stock, of which Bertha Evans Brown owns 74,631 and 391,617 shares, respectively, and as a co-trustee holds an additional 41,500 and 30,000 shares, respectively. Management officials as a group own 80,124 preferred and 533,538 common shares. W. A. Wecker is listed as President. The principal stockholders of North American who will receive Marquette shares and propose to sell such are The Andreas Corp. (all of whose stock is owned by Albert M. Andreas) 109 477 shares; Hemphill, Noyes & Co., 66,240 shares; and Mr. and Mrs. Noyes, an aggregate of 39,776 shares.—V. 192, p. 2509.

Martin Co.—Faces Anti-Trust Action—

See General Precision Equipment Corp., above.—V. 192, p. 210.

Mead Corp.—Acquires Control—

H. E. Whitaker, Chairman of the Board of Mead Corp., and W. H. Chatfield, President of The Chatfield & Woods Co., announced on Feb. 17 that Mead has acquired the controlling interest of Chatfield & Woods Co. and its subsidiaries. These subsidiaries include Chatfield Paper Corp., Cincinnati, Ohio, and Indianapolis and Hartford City, Ind., Chatfield & Woods Co. of Pittsburgh, Pa.; The Union Paper & Twine Co., Cleveland and Buffalo; The Union Paper & Twine Co. of Detroit, Mich.; Grand Rapids Paper Co., Grand Rapids, Mich.; Clements Paper Co., Nashville, Tenn.; and The Scioto Paper Co., Columbus, Ohio.

Mr. Chatfield stated that this step had been taken in order that ownership problems under our tax laws may not, by very reason of current growth and success, affect the future.

The alliance with Mead brings together two firms which have been closely associated for many years and will further strengthen the service upon which Chatfield & Woods and its subsidiaries have built their reputation during the past 129 years.—V. 193, p. 106.

Medco, Inc.—Class A Common Stock Offered—Pursuant to a Jan. 20 offering circular, Midland Securities Co., Inc., 15 W. 10th St., Kansas City, Mo., publicly offered 60,000 shares of this firm's 10¢ par class A common stock at $5 per share.

BUSINESS—The company was originally incorporated on July 16, 1958, by the Goldman Jewelry Co., a Missouri corporation. Goldman is controlled by Fred Goldman who is Chairman of the Board of the company and a substantial owner of the company's class B common stock.

On April 1, 1959, the Goldman Jewelry Co. sold out its interests in the company to Fred Goldman, Fred Goldman, Jr., and Richard A. Goldman.

The name of the company was originally Leased Departments, Inc., which was changed in July of 1960 to Jewelers, Inc., and then again changed to Medco, Inc., on Dec. 2, 1960.

The company has formed and owns all of the stock of ten subsidiary corporations, each of which operates a licensed department.

In recent years, different organizations have built or leased new single store buildings containing 80,000 to 100,000 square feet and granted shopping facilities therein to its "members" who purchase membership cards.

These stores maintain a broad line of consumer products in a series of departments which are generally owned and operated by independent licensees. Credit facilities are provided by the organization so that each licensee is on a cash basis and receives full payment for merchandise within from 24 hours to one week after purchase, without recourse, and with no credit risk assumed by the licensee.

PROCEEDS — The company estimates that the initial inventory, equipment and expenses in opening each new licensed department costs about $85,000 to $125,000. The proceeds from the sale of these securities will be used to open new licensed departments in 1961. It is hoped that the additional equity will permit additional credit so that six new licensed departments may be opened in 1961. The proceeds from the sale of these securities will be used in opening those new licensed departments.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

After the public sale of the class A common stock, and less estimated expenses of $40,000, the capitalization of the company as of Dec. 31, 1960, is as follows:

Class A common stock (par 10c) authorized 600,000 shares, issued 60,000 shares	$6,000
Class B common stock (par 10c) authorized 150,000 shares, issued 150,000 shares	15,000
Paid in surplus	254,000
	$275,000

—V. 193, p. 202.

Merck & Co., Inc. (& Subs.)—Sales Up, Net Down—

Sales of Merck & Co., Inc. and consolidated subsidiaries edged up to a record high in 1960, but earnings declined for the first time since 1954, it was announced on Feb. 15 by John T. Connor, President of the pharmaceutical and chemical firm.

Net sales in 1960 were $218,100,000, compared with $216,900,000 in 1959. Estimated net income after taxes was $27,800,000 in 1960, equal to $2.57 per share of common stock outstanding, compared with $30,000,000, or $2.79 per share in 1950. Net income for 1959 included $774,000 resulting from the favorable settlement of a tax claim applicable to prior years.

Mr. Connor said that continuing price declines in bulk vitamins and vaccines and increased competition from foreign producers were the main causes of the 7.3% decline in net income.

Net income before taxes was $49,200,000 in 1960, compared with $53,600,000 for 1959.

Fourth quarter sales amounted to $51,000,000 in 1960, compared with $50,000,000 for the corresponding period in 1959. Estimated net income after taxes for the fourth quarter of 1960 was $6,000,000, equal to 55 cents per share of common stock, compared with $6,100,000, or 56 cents per share for the fourth quarter of 1959. Net income before taxes for the fourth quarter was $8,900,000 in 1960, compared with $10,100,000 in 1959.—V. 193, p. 495.

Metal & Thermit Corp.—Sales, Net Steady—

Sales and earnings in the year ended Dec. 31, 1960 reached virtually the same levels as those achieved in 1959, H. E. Martin, President, announced on Feb. 20.

Consolidated net sales in 1960 amounted to $40,107,474, compared with $40,159,790 in the year ended Dec. 31, 1959.

After provision for Federal income taxes, net income totaled $1,707,631, as against $1,715,304 in 1959. The earnings, after preferred dividend requirements, were equal to $2.10 per share on 801,830 common shares outstanding, compared with $2.11 per share a year ago on the same number of shares.

Mr. Martin said the good earnings level had been maintained in spite of higher costs and intensified competition and reflected the effects of the company's divisionalization and cost control programs, as well as the improved operating efficiency. Benefits from these programs, which are being continued, are expected to accelerate in the future.

The upward trend in the company's chemical, coatings, minerals and plating operations continued during 1960, with sales increases of over $2,000,000 in these segments almost completely offsetting a downturn in markets served by the detinning and welding divisions.

"Metal & Thermit's greatest potential for the future lies in these four expanding markets, and it is here that our major research and development activities are being concentrated," Mr. Martin stated. —V. 193, p. 49.

Michigan Gas Utilities Co.—Registers Common—

This company, of 6 South Monroe Street, Monroe, Mich., has filed a registration statement with the Securities and Exchange Commission covering a proposed sale of 100,000 shares of common stock, par value $2.50 through a group headed by Kidder, Peabody & Co. Inc.

Proceeds from the sale of the new common stock, and from the private sale of $3,500,000 of first mortgage bonds, will be used to repay short-term bank loans of $4,800,000 made for construction and other corporate purposes. Application has been made to the Michigan Public Service Commission for approval of the proposed financing.

The company is engaged primarily in the business of distributing natural gas to customers in approximately 50 cities, towns and villages located in southern and western Michigan with a total population of approximately 287,500.

Operating revenues of the company in 1960 amounted to $8,080,664 and net income to $780,744 equal to 96 cents per common share compared with operating revenues of $6,993,097 and net income of $661,033 equal to 81 cents per common share for 1959.—V. 192, p. 1303.

Michigan Seamless Tube Co.—Net, Sales Down—

The South Lyon firm reported on Feb. 19 net earnings of $112,636, or 16 cents per share, for the quarter ended Jan. 31, 1961. This compared with $440,807, or 63 cents per share, in the like period a year ago. Net sales for the January quarter this year were $4,353,957 against $5,469,098 a year ago.

William A. McHattie, President, attributed the decline in earnings to lower sales and heavy expenses incident to starting the production of tubing on a new extrusion press in the plant of a Texas subsidiary, Gulf States Tube Corp. "The over-all rate of incoming orders has recently shown some improvement," he said, "and progress is being made toward more efficient operation of the Texas mill. As volume output is achieved, costs should fall into a more normal pattern."—V. 191, p. 507.

Midwest Technical Development Corp.—Investment—

This Minneapolis investment company has invested $500,000 in Electra Scientific Corp. of Fullerton, Calif. The investment in 6% debentures convertible to common stock is part of MTDC's program to supply capital to scientific companies which operate in advanced technological areas and also to provide professionally-selected investment opportunities of potential growth.

Electra will engage in the development, design and production of advanced type electronic materials and precision components used in scientific, industrial and military electronic systems.—V. 192, p. 500.

Miles Laboratories, Inc.—Sales Up, Net Down—

The Elkhart, Ind., firm reported on Feb. 15 that sales for the year 1960 were the highest in the history of the company, but profits declined.

Sales for the 12 months ending Dec. 31 were $82,384,000, compared to $72,189,000 for the year 1959, an increase of $10,195,000, or 14%. The sales for Dome Chemical Co., a newly acquired subsidiary, contributed substantially to this increase. Earnings for 1960 were $4,220,000, compared to $4,398,000 for the year 1959, a decrease of $178,000. The 1960 earnings represent $3.21 a share on 1,309,203 shares outstanding, compared to $3.62 for 1959 on 1,208,801 shares. The outstanding shares reflect conversions during 1960 of the 4⅝% convertible subordinated debentures.

While sales were favorable, many special factors depressed earnings. The cost of starting new plants in Argentina and France were high. Production in the new Citric Acid plant gave the firm trouble most of the year, but is now running on target and looks very promising. The introduction of "Chocks," the company's new, chewable multiple vitamin tablet, in the last quarter involved heavy promotion. The reception for this new consumer product has exceeded expectations. Finally, the firm had a substantial loss in Cuba of profitable volume and a charge-off of accounts receivable.—V. 192, p. 1400.

Minnesota Mining & Manufacturing Co.—Merger Off

See Warner-Lambert Pharmaceutical Co., below.—V. 192, p. 1494.

Mississippi River Transmission Corp.—Registers—

This corporation, of 9900 Clayton Road, St. Louis, filed a registration statement with the SEC on Feb. 17, 1961, covering 100,000 shares of common stock, to be offered for public sale, on an all or none basis, through underwriters headed by Eastman Dillon, Union Securities & Co. and Dempsey-Tegeler & Co. The public offering price and underwriting terms are to be supplied by amendment.

Organized in September, 1958, the company is constructing a natural gas pipe line which will extend from a point of supply in Clay County, Ill., to St. Louis County, Mo., a distance of about 94 miles. Construction costs are estimated at $8,270,000, including interest during construction and allowance for contingencies. Upon completion of construction, the company intends to engage in the purchase, transportation and sale of natural gas. The company is a wholly-owned subsidiary of Mississippi River Fuel Corp., which owns and operates a natural gas pipe line system extending from northern Louisiana and eastern Texas to the Greater St. Louis area. Upon its organization in 1958, the company sold 50,000 shares of its stock to the parent for $50,000; and in March, 1961 it proposes to sell an additional 100,000 shares to the parent for $925,000. It also has a $7,500,000 credit agreement with Irving Trust Co., New York City, under which it has borrowed $4,500,000 and expects to borrow an additional $2,000,000. Net proceeds of the stock sale, together with proceeds of the prior sale of stock to the parent and the bank borrowings, will be applied toward the cost of the construction of the pipe line facilities and for working capital. About $4,000,000 has been expended for construction to Feb. 10, 1961.

The prospectus lists Glenn W. Clark as Board Chairman and Elton P. Kramer as President, both from St. Louis.

Modine Manufacturing Co., Racine, Wis.—Files With Securities and Exchange Commission—

The company on Feb. 3, 1961 filed a letter of notification with the SEC covering 7,000 shares of common stock (no par) to be offered to certain salaried employees at $23.50 per share or 95% of the fair market value, which ever is higher. No underwriting is involved.

The proceeds are to be used for general corporate purposes.—V. 192, p. 2509.

Morton Foods, Inc.—Files for Offering and Secondary

This company, of 6333 Denton Drive, Dallas, Texas, filed a registration statement with the SEC on Feb. 17, covering 190,000 shares of common stock, of which 178,000 shares are to be offered for public sale by the company and 12,000 shares, being outstanding stock, by the present holders thereof. The public offering price and underwriting terms are to be supplied by amendment. Eppler, Guerin & Turner, Inc., is listed as the principal underwriter. The registration statement also includes an additional 30,000 shares reserved for issuance under the company's restricted stock option plan for officers and certain employees.

The company manufactures, processes, packages and sells many food items, its principal ones being potato chips, corn chips, salad dressing, pickles, waffle syrups, honey, tea and spices. It owns and operates manufacturing plants and warehouses in Dallas, Fort Worth, Lubbock and El Paso, Texas and sales warehouses in Amarillo and Houston, Texas. Its sales territory consists of most of Texas and Oklahoma, and portions of Arkansas, Louisiana, New Mexico, Kansas and Colorado. Of the net proceeds of its sale of additional stock, $1,250,000 will be used to build and equip two more manufacturing plants and warehouses and to enlarge and improve its Dallas and Fort Worth plants. One of the two net plants will be constructed in Texas and the other in Oklahoma. The remainder of the proceeds will be added to working capital.

According to the prospectus, the company now has outstanding 39,406 shares of common stock and 453,394 shares of class B common stock (convertible into common shares on a share for share basis). Granville C. Morton, President, owns 22.6% and 50.2%, respectively, of the common and class B stock; and Lou Morton Ellis, Vice-President, 22.5% and 44%, respectively. Each proposes to sell 6,000 shares each of their common stock holdings.

Mountain Fuel Supply Co.—To Buy Gas Production —To Construct—

The Salt Lake City company has contracted to purchase the natural gas production of DeKalb Agricultural Association, Inc., in Uintah County, Utah, and together with Utah Natural Gas Co. plans to construct a 94-mile pipeline to transport the new gas supply to its (Mountain Fuel's) primary market area in urban Utah.

As a part of this transaction, Mountain Fuel Supply Co. proposes to purchase a 50% interest in Utah Natural Gas Co. (a subsidiary of El Paso Natural Gas Co.) and then operate all the facilities the two firms would jointly own

W. T. Nightingale, President of Mountain Fuel Supply Co., in announcing the details of his company's plans Feb. 21, said the arrangements should assure present customers of the company of an additional supply of relatively low-cost gas for the foreseeable future.

He pointed out that the construction of the proposed pipeline and the plans Mountain Fuel has to purchase an interest in Utah Natural Gas Co. are subject to the approval of the Utah Public Service Commission. An application seeking this approval will soon be made, he said.

The proposed 94-mile pipeline would be 20-inches in diameter and capable of transporting 100,000,000 cubic feet of gas a day, Mr. Nightingale said. He estimated its cost and the cost of related production and transmission facilities at over $10,000,000.

Route of the pipeline would be from a point within the production area several miles east of the Green River westward through Duchesne County to a connection with the present Utah Natural Gas Co. pipeline at Clear Creek in northwestern Carbon County.

Since the pipeline would be in near proximity to some communities along its route, Mountain Fuel Supply Co. proposes to distribute gas to these communities to the extent that such service may be economically feasible.

The Utah Natural Gas Co. pipeline, which originates at the Clear Creek gas producing field, runs northward and connects with the Mountain Fuel Supply Co. distribution system east of Orem, Utah County.

Reserves from the Clear Creek field have been depleted more rapidly than was originally anticipated when Mountain Fuel Supply Co. began purchasing gas from this source in 1953, Mr. Nightingale pointed out. Thus the present pipeline from this field has the capacity to carry more gas and its useful life will be greatly extended because of the proposed new pipeline from Uintah County, he said.

Extent of the reserves in DeKalb's two gas acreage units, Ute Trail and Uintah, is not fully known but appears to be substantial. The two units comprise approximately 120,000 acres and are located adjacent to each other some 30 miles south of Vernal.

Immediately west of the DeKalb units, Mountain Fuel Supply Co. has its Island unit, comprising some 45,000 acres, where a successful wildcat gas well was recently drilled. The company has since filed location for the drilling of a second well.

"The need for new gas supplies is always present in a growing area such as we serve," Mr. Nightingale said. "We are particularly pleased in being able to acquire a new supply of gas in our own state, and to provide the means by which we can transport this supply to our market area.

"The arrangements we have made should assure our customers of a continued supply of relatively low-cost gas for the foreseeable future."—V. 193, p. 203.

Narragansett Capital Corp.—Buys Notes, Warrant—

See Providence Radio, Inc., below.—V. 192, p. 995.

National Bellas Hess, Inc.—Appointment—

The Chemical Bank New York Trust Co. has been appointed sole transfer agent for the common stock of the corporation.—V. 191, p. 606.

tized for FRASER
//fraser.stlouisfed.org/

National Biscuit Co.—Files Stock Plan—

This company, of 425 Park Avenue, New York City, filed a registration statement with the SEC on Feb. 17, 1961 covering 150,000 shares of common stock, to be offered to employees pursuant to the company's Employee Stock Purchase Plan.—V. 193, p. 705.

National Bowl-O-Mat Corp.—Files Exchange Proposal

This corporation, of 152 Market Street, Paterson, N. J., filed a registration statement with the SEC on Feb. 17, 1961, covering 450,500 shares of common stock, to be offered in exchange for the outstanding stock of several corporations which now own and operate 12 bowling establishments, and an additional 40,000 shares to be offered in repayment of $400,000 of indebtedness owned by such corporations on notes held by their stockholders or by nominees or transferees of such stockholders.

The company was organized under New Jersey law in January, 1961 for the purpose of owning and operating through subsidiaries a national chain of modern bowling centers. It will offer its shares in exchange for stock of nine companies owning 11 bowling centers, and for stock of three related companies owning the 12th center; and the 12 establishments, having a total of 354 bowling lanes, are located in Florida, Michigan, New Jersey, New York, Georgia, Indiana, Puerto Rico and Colorado. Under the exchange offer, 45,794 shares are issuable to Chandler Associates and 42,220 to Daniel Parke Lieblich, company President. Chandler Associates is a partnership owned by Raymond Kramer, Vice-President, and his wife and relatives. A total of 175,897 shares are issuable to the foregoing and other officials of the company, who would receive an additional 14,660 shares under the debt-repayment offer.

According to the prospectus, the constituent corporations have $1,049,578 of outstanding notes held by stockholders. The prospectus further indicates that the note repayment offer is conditioned upon the purchase by underwriters of 220,000 shares of additional common stock for initial public offering at a price of not less than $10 per share, for which a further registration statement is expected to be filed. The proceeds of the sale of stock for cash will be used in part to pay the $600,000 balance of stockholder notes, the balance of the proceeds to be used for expansion of existing bowling centers, for the addition of two new centers, and for general corporate purposes.

Nedick's Stores, Inc.—Files for Offering and Secondary

This company, of 513 West 166th Street, New York City, filed a registration statement with the SEC on Feb. 21, 1961, covering 185,000 shares of common stock, of which 60,000 shares are to be offered for public sale by the company and 125,000 shares, being outstanding stock, by the present holders thereof. The offering is to be made on an all or none basis through underwriters headed by Van Alstyne, Noel & Co. The public offering price and underwriting terms are to be supplied by amendment. The registration statement includes an additional 15,000 outstanding shares which were purchased by the principal underwriter from certain selling stockholders at 20 cents per share. Of such stock, 1,500 shares were sold to George Shapiro at the same price as a finder's fee.

The company operates a chain of 84 snack-bar type of luncheonettes serving a limited menu of "quality food at low prices." Of such luncheonettes, 78 are located in the New York City metropolitan area. The net proceeds from the company's sale of additional stock will be used as follows: $240,000 for the modernization of six of the existing luncheonettes; $140,000 for the construction of three new luncheonettes on sites to be leased in the metropolitan New York City area; and the balance will be used as working capital.

In addition to certain indebtedness, the company has outstanding 491,150 shares of common stock, of which Charles Haag, a Vice-President, owns 165,885 shares and proposes to sell 47,200 shares and Harry Genis, a Vice-President, owns 59,405 shares and proposes to sell 35,075 shares. Management officials as a group own 279,560 shares. The prospectus lists 12 other stockholders who propose to sell all of their holdings, ranging from 165 to 15,525 shares (except that 200 shares are to be retained by one).—V. 184, p. 8.

New England Telephone & Telegraph Co.—Proposed Financing—

This AT&T subsidiary announced on Feb. 21 that its Board of Directors has authorized, subject to required approvals by regulatory authorities, an offering of additional shares of its capital stock for subscription by share owners and an issue of $45 million 38-year debentures. The proceeds of the new issue of debentures, which will be offered for sale at competitive bidding about April 11, 1961, will be used to redeem on or about May 12, 1961, the company's 5¾% debentures due 1994, outstanding in the same amount.

It is expected that share owners would be entitled to buy one new share of stock for each seven shares held on April 25, 1961. "Rights" to purchase the additional shares would be mailed late in April. The purchase price for the shares, which would be fixed by the Board of Directors shortly before the offering, is expected to be somewhat below the market price of the shares when the offering price is determined. Based on the 22,047,305 shares outstanding on Dec. 31, 1960, the sale would involve about 3,150,000 common shares.

The proceeds from the sale of capital stock would be applied to pay at maturity on May 1, 1961, the company's 4½% first mortgage bonds, series B, in the amount of $40 million, and toward the discharge of outstanding temporary borrowings of the company. These borrowings have been incurred to provide funds for the construction of telephone plant necessary for the maintenance, improvement and extension of telephone service.—V. 193, p. 808.

Newnam & Lunson, Inc.—Class A Common Stock Offered—Pursuant to a Jan. 26 offering circular, this corporation, of 4800 Indian Head Highway, Oxon Hill, Md., publicly offered without underwriting, 286,900 shares of its common stock at par ($1 per share).

BUSINESS—Newnam & Lunson Inc. is a new corporation created on Nov. 4 for the purpose of introducing and developing initially in the Washington metropolitan area a dry cleaning and laundry business, an integral part of which would be coin-operated, self-service dry cleaning machines.

PROCEEDS—The funds of the corporation, including those obtained by virtue of this offering, will be used to finance the ownership and operation of retail dry cleaning and laundry plants, or "cleaning centers," in the Washington metropolitan area including the new coin-operated dry cleaning machines and coin-operated washing and drying machines as well as the regular over-the-counter type dry cleaning and laundry operations.

(M. B. C.) Nome Co. — Convertible Preferred Stock Offered—Pursuant to a Feb. 10 offering circular, C. R. Mong Associates, 1139 Chestnut St., Menlo Park, Calif., publicly offered 18,000 shares of this firm's 6½% convertible preferred stock at $5.75 per share.

BUSINESS—The company is a California corporation incorporated on July 22, 1953, and is engaged in the business of designing, manufacturing and marketing high quality toys throughout the United States. For the past three years the company's efforts have been concentrated on a series of "Dennis the Menace" toys based on the cartoon and television character created and copyrighted by Hank Ketcham. Produced and sold under license contract, these items are made principally of molded vinyl plastic.

PROCEEDS—The total of 18,000 shares offered hereby are for the account of the company. The net proceeds of approximately $89,975 to be received from the sale of these shares is to be used for debt reduction and expansion.

North American Car Corp.—Proposes Offering—

This corporation, 77 South Wacker Drive, Chicago, filed a registration statement with the SEC on Feb. 21 covering 150,000 shares of common stock, to be offered for public sale through Glore, Forgan & Co. and Merrill Lynch, Pierce, Fenner & Smith, Inc. The offering price will be related to the current market price of outstanding shares at the time of the offering; and the underwriting terms are to be supplied by amendment.

The company is primarily engaged in the business of operating, as owner or lessee, and leasing specialized types of railway cars on a rental and mileage basis to shippers and railroads through the United States, Canada and Mexico. It expects to use about $2,000,000 of the proceeds of its stock sale in connection with refinancing of equipment trust notes; and the balance will be added to the general funds of the company and will be available for use to expand its fleet and other facilities.

In addition to indebtedness, the company now has outstanding 1,370,594 common shares, of which management officials own about 5%. The prospectus lists E. C. R. Lasher as President.—V. 192, p. 2612.

Ohio Oil Co.—Long-Term Agreement—

See Dow Chemical Co., above.—V. 193, pp. 706 and 604.

Pacific Industries, Inc.—Appointment—

The Irving Trust Co. has been appointed registrar of the common stock of the corporation.—V. 193, p. 203.

Peerless Mortgage Co.—Common Stock Offered—Pursuant to a Jan. 9 offering circular, Copley & Co., 409 North Nevada, Colorado Springs, Colo., publicly offered 430,000 shares of this firm's 20¢ par common stock at 60¢ a share.

BUSINESS—The company since its organization has been engaged in the loan business and has received its license to lend moneys under the 1913 Money Lenders Act from the Bank Commissioner of the State of Colorado. The company has been operating under this license and has been engaged primarily in mortgage loans and buying second mortgages at a discount.

CAPITALIZATION—The total authorized capitalization of the company is composed of 2,450,000 shares of 20 cents par value common stock. All shares of stock when issued will be fully paid and non-assessable, and all shares of stock will be entitled to one vote at all stockholders meetings. All shares are equal to each other with respect to voting rights, liquidation rights and dividend rights, and cumulative voting is not permitted. The holders of stock presently issued and outstanding have pre-emptive rights to purchase an equivalent or proportionate amount of any new offering of securities by the company, and such pre-emptive rights will be made to the stockholders by the underwriter and the company.

As of Jan. 9 there were 594,800 shares of the company's 20 cents par value common stock issued and outstanding, which were purchased for a total of $148,700.

PROCEEDS—If all the shares offered are sold the net proceeds to the company after deducting underwriting commissions, discounts and expenses will be $219,300. All of the proceeds as set forth above will be placed in the company's general fund for loans and for use in the company's business.—V. 192, p. 2224.

Penn-Dixie Cement Corp.—1960 Results—

The corporation's net sales for the year ended Dec. 31, 1960 totaled $56,485,026, according to a preliminary report to shareholders by B. W. Druckenmiller, President. This compared with $60,640,040 for 1959.

Mr. Druckenmiller said that the year was marked by the final settlement of the "long-standing federal tax depletion controversy," which resulted in Penn-Dixie paying a $7,600,000 deficiency, covering the years 1951 to 1959. Mr. Druckenmiller noted that the company had sufficient cash reserves to pay this without recourse to borrowings.

Net income for the year was $6,313,110, equivalent to $2.26 a share on 2,788,191 common shares outstanding at the end of the period, as compared with $7,928,952, equivalent to $2.84 a share in 1959. The 1959 figures have been restated to reflect the income tax settlement.

For the fourth quarter of 1960 Penn-Dixie had net income of $1,383,217, equal to 49 cents a share. This compares with net income of $1,612,955, or 58 cents a share, in the December quarter of 1959.

Mr. Druckenmiller attributed the decline in sales partly to the "industry-wide dip in shipments of cement—a general reaction to lower levels of construction activity throughout the nation in 1960" and partly to "competitive pressures and steadily rising costs, without compensating price relief."—V. 192, p. 1915.

(Charles) Pfizer & Co., Inc.—To Redeem Pfd. Stks.—

The corporation has called for redemption on March 31, 1961, all of its outstanding 3½% cumulative preferred stock at $101 per share and its 4% cumulative second preferred stock at $102.50 per share. —V. 193, p. 809.

Photo Service, Inc.—Additional Financing Details—Our Feb. 27 issue reported the public offering, pursuant to a Feb. 14 prospectus, of 162,500 shares of common stock at $8 per share. Additional financing details follow:

UNDERWRITERS—The underwriters named below have made a firm commitment, subject to the terms and conditions of the underwriting agreement, to purchase severally and not jointly from the company and S. Lyall Briggs the total numbers of shares of common stock set forth below:

Physicians' Credit Corp.—Common Stock Offered—Pursuant to a Jan. 17 offering circular, this corporation, of 3939 Southport Drive, San Antonio, Texas, publicly offered without underwriting, 15,000 shares of its common stock at par ($10 per share).

BUSINESS—The company was organized last April 11 by three doctors to generally engage in the business of lending money. Although in the future the company may enter into all phases of the loan and finance business, at the present time it proposes to engage primarily in the business of making loans to medical students, interns, residents in the various specialty or general practice programs, and to physicians. A license from the Bank Commissioner of the State of Texas, under the present laws of the State of Texas, is not required. However, the company is subject to Article 1524a of Vernon's Civil Statures of Texas which places the company under the jurisdiction of the State Banking Department.

—V. 192, p. 745.

Pocket Books, Inc.—Net Up—

Leon Shimkin, President, announced that earnings of Pocket Books, Inc. increased by 16% and of Golden Press, Inc., its 50%-owned affiliate, by 64% for the quarter ended Dec. 31, 1960, compared with the corresponding quarter of 1959.

Net earnings of Pocket Books, Inc. for the quarter were $361,977, compared with $312,307 during the corresponding quarter of the prior year, equivalent per common share to 11.8 cents, compared with 10.1 cents.

During the same period, the company's share in the net earnings of Golden Press, Inc. amounted to $169,369 in 1960, compared with $103,206 in 1959, equivalent per share of common stock of Pocket Books, Inc. to 5.6 cents and 3.4 cents, respectively.—V. 193, p. 204.

Polaroid Corp.—Sales Up, Net Down—

The corporation reported on Feb. 14 sales for 1960 of $99,446,000 as compared with $89,919,000 in 1959. Earnings before taxes amounted to $19,232,000; earnings after taxes amounted to $8,813,000; and earnings per common share amounted to $2.26 as compared with 1959 per share earnings of $2.78 (which included nonrecurring income of 10 cents per share).

In reporting the year's results, Dr. Edwin H. Land, President, made the following statement: "Despite a general slackening in consumer buying late in the year, Polaroid's sales and other income rose in 1960 to the highest level in its history. Two new products were launched in the Fall, the new Polaroid Land Picture rolls which produce finished pictures in ten seconds instead of sixty, and the Polaroid Electric Eye Land Camera, the first mass-produced camera to set exposures automatically over the entire range of picture-taking, indoors or out, day or night.—V. 190, p. 674.

Polymer Corp.—Sales Up, Net Down—

The corporation during 1960 increased its sales to an all-time high of $8,029,000, or 12.6% above the previous peak of $7,130,000 achieved in 1959. Because of increased expenditures on research and development of new products and technology and expansion of the sales organization, earnings fell somewhat short of the record high attained in 1959.

In a preliminary report to shareholders, President Louis L. Stott revealed that 1960 net profit, after all charges and taxes, amounted to $478,000, or 67 cents a share on 709,340 shares of common stock outstanding on Dec. 31, 1960. In 1959, the net profit was $517,000, equal to 73 cents a share after adjustment for a 3% stock dividend paid in 1960. Ten years ago, the company's sales were $711,000 and net profit was $33,600.

Polymer in 1960 further strengthened its position in the industrial plastics industry and took a number of important steps to insure continued leadership in its field, Mr. Stott reported. Involved in these efforts were substantially increased expenditures on new plant and equipment and the establishment of new subsidiaries in West Germany and France.

Polymer is a pioneer in the development and manufacture of nylon and Teflon in semi-finished shapes for industrial uses and is the country's leading manufacturer of a broad line of industrial plastics in semi-finished forms. In recent years, the company has developed numerous new plastic formulations which it markets under proprietary brands in the industrial field, and is active in developing a revolutionary new process and powders for coating metals with plastic materials. —V. 193, p. 747.

Precision Transformer Corp.—New Product—

M. S. Adler, President of Precision Transformer Corp. of Chicago announced on Feb. 20 a significant new development which adds "bright" new horizons to his company's prospects. Precision Transformer has produced a transformer which can be embedded in concrete, and, by specially arranged circuitry sluices the juice through the concrete reinforcing rods or grids, creating a grid-iron of heat that can melt snow and ice or provide low cost floor heating.

This system can be used for snow and ice removal from highways, streets, parking areas, service stations, driveways and sidewalks, without need for auxiliary snow removal equipment.

The time and energy which this "remarkable" electric melting process saves could run into the hundred millions. For example, according to the Department of Commerce (Bureau of Public Roads), in 1957 $93 million was spent in snow removal from State administered highways alone. The bill for snowbound Northern cities would have run many times that total.

Management feels that electric power companies too, will view this new process eagerly. Depending on electric rates in each locality, fair sized installations should have an average operating cost of less than 1/20th of a cent per hour per square foot. The new power load stemming from this system, in parking lots, loading areas, gas stations and the front walks of commercial and public buildings is "bound to have great impact on electric utilities as well as on the earning power of Precision Transformer Corp."—V. 191, p. 1671.

Process Lithographers, Inc.—Appointment—

The Irving Trust Co. has been appointed registrar of the common stock of the corporation.—V. 193, p. 50.

Providence Radio, Inc.—Places Notes, Warrant With S. B. I. C. — Narragansett Capital Corp., a Federal licensee under the Small Business Investment Act of 1958 with headquarters in Providence, R. I., announced on Feb. 20 the signing of an agreement to purchase $200,000 ten-year notes from Providence Radio Inc., together with a warrant to purchase 292 common shares.

BUSINESS—Providence Radio, Inc., is the licensee of WICE AM-FM, 5000-watt, full-time, independent radio station serving Rhode Island and parts of Southern Massachusetts. The company was incorporated in 1956 to own and operate broadcasting facilities. Headquarters are in the Crown Hotel, Providence.

PROCEEDS—A portion of the $200,000 supplied by Narragansett Capital Corp. will be used to acquire radio station WLOW in Norfolk, Va. The balance will be available for general development in the broadcasting field.

Narragansett Capital Corp. was organized under the laws of the State of Rhode Island on Jan. 30, 1959, to operate as a small business investment company under the Small Business Investment Act of 1958. It has obtained a license from the Small Business Administration to operate throughout the United States. 500,000 of its shares were first offered to the public on Sept. 7, 1960, through an underwriting headed by G. H. Walker & Co. and Blair & Co. Inc.

Puerto Rican Airlines, Inc., San Juan, Puerto Rico—Files With Securities and Exchange Commission—

The corporation on Feb. 6, 1961 filed a leter of notification with the SEC covering 100,000 shares of class A common stock (par 10 cents) to be offered at $3 per share, through Investment Securities Co. of Maryland, Inc., Baltimore, Md.

The proceeds are to be used for accounts payable, to purchase equipment and for general corporate purposes.

Pulse Engineering Inc.—Sells Interest—

See Electro-Science Investors, Inc., above.

Rayette, Inc.—Sales, Net Up—

The company earned $682,906.56 net after income taxes, highest in its history as compared to $563,179.00 net after income taxes in 1959. Net sales were up 4.5% also, to a new high of $11,719,687.62. Rayette, Inc., a supplier of professional beauty products, had earnings of 41.8 cents per share on 1,634,768 currently outstanding in 1960, against 35.2 cents per share in 1959.

In making this announcement, Mr. George Barrie, Executive Vice-President, noted that the company expects another record year for sales and earnings in 1961.—V. 192, p. 600.

Realsite Inc.—Sells Interest—

Realisite Inc. announced on Feb. 17 that it has sold its 50% stock interest in Lauderdale Utilities Inc. to Messrs. Laurence A. Tisch and Preston R. Tisch.

Lauderdale Utilities is the company which is to provide water and

Digitized for FRASER
http://fraser.stlouisfed.org/

sewer services to Realsite's Fort Lauderdale, Fla. properties. Realsite, a publicly-owned corporation, is a major developer and builder of properties in Florida.

Harold M. Diamond, Realsite President, who made the announcement, said that for its investments in the utility company Realsite has been reimbursed, less $13,448.30, payment of $250,000 in cash. The balance of $112,906.83 will be paid in 11 annual installments without interest.

Realsite's investment in the utility company, up to the consummation of the sale, approximated $376,355.13, consisting of acquisition of stock, capital investment and loans. In addition, Realsite had advanced $230,000 to the utility company as contribution in aid of construction for extension of lines and service to Realsite's properties, with the company receiving credits against such advances up to the full amount thereof as its houses are connected up to the utility system.

Shareholders of Realsite have voted approval of the sale.

Mr. Diamond said that as a result of the transaction Realsite "will receive much needed cash." He added:

"In order to continue its building operations, which is Realsite's basic and fundamental business, it was necessary to promulgate this sale."

He said further that the company will now be relieved of the cash drain represented by its share of future contributions for the completion and maintenance of the utilities plant.

Realsite Inc. and its subsidiaries are engaged primarily in the development and construction of communities in Florida. Active on the Florida scene since 1958, this publicly-owned company is completing 470 homes in developments at Realsite Estates in the Carol City area, Florida and Ives Estates in the Northeast Dade area, Florida. Executive offices are located in Lauderdale Lakes, Fla., an area being developed by Realsite and other builders into a community of approximately 5,000 families.—V. 193, p. 747.

Recreation Associates, Inc., Falls Church, Va. — Files With Securities and Exchange Commission—

The corporation on Jan. 26, 1961 filed a letter of notification with the SEC covering 99,000 shares of class A common stock (par 50 cents) to be offered at $3 per share, without underwriting.

The proceeds are to be used for deposits on building leases, equipment, advertising and working capital.

Reliance Insurance Co.—Stock Increase—

The stockholders of Reliance Insurance Co., at a meeting on Feb. 9 at its head office in Philadelphia, approved by an overwhelming vote an increase in the authorized capital from $12,000,000 to $24,000,000. This is an increase from 1,200,000 shares of $10 par value to 2,400,000 of $10 par value.

Kenneth E. Hatch, President, stated that it was contemplated that nearly 500,000 of the shares would be offered to stockholders of the Standard Accident Insurance Co. in line with proposed exchange of stock which has been agreed upon by the directors of both the Standard Accident Insurance Co. and the Reliance Insurance Co.—V. 190, p. 1341.

Research Specialties Co.—Private Placement—Boston Capital Corp. announced on Feb. 21, 1961, that it had purchased $500,000 of 6% convertible subordinated notes due Feb. 1, 1968, and 40,000 shares of common stock (par $1) of Research Specialties Co., Richmond, Calif. Shearson, Hammill & Co., New York City, and Stone & Youngberg, San Francisco, assisted in the private sale of the securities.—V. 189, p. 1393.

Rochester Telephone Corp.—Proposes Rights Offering

Rochester Telephone Corp., 10 Franklin Street, Rochester, N. Y. filed a registration statement with the SEC on Feb. 21 covering 273,437 shares of common stock. The company proposes to offer such stock for subscription by stockholders of record on March 24, 1961 on the basis of one new share for each five shares held. The subscription price is to be supplied by amendment. A group of underwriters headed by First Boston Corp. have agreed to purchase at the subscription price such of the shares not issued pursuant to the rights offering, and to offer such shares for public sale on an all or none basis at prices related to the current price on the New York Stock Exchange at the time of offering. The underwriting terms are to be supplied by amendment. The net proceeds from the stock sale will be applied to the repayment of part of the company's demand borrowings from banks made in 1960 and 1961 for construction purposes, expected to aggregate $6,000,000. The company expended $15,219,080 for gross construction in 1960 and anticipates expenditures of about $14,600,000 for 1961. —V. 192, p. 1402.

Rockwell-Standard Corp.—Sales, Net Down—

Colonel Willard F. Rockwell, Chairman of the Board, released on Feb. 18, 1960 sales and earnings figures for his company.

Sales of $248.3 million were 12.6% below the $284.1 million recorded in the all-peacetime-high year of 1959.

At the same time earnings dropped from the all-time high of $3.61 per share reached in 1959 to a much more modest $2.41 per share in 1960.

In discussing the results for 1960, Colonel Rockwell commented that the year was one that "began with outstanding promise but one in which fulfillment failed to measure up to the advance appraisal that had been made by virtually all economists, forecasters, and businessmen —including many among our best customers."

Colonel Rockwell also pointed out that "although 1960 sales were somewhat below the peacetime-record year of 1959, they were only ¾ of 1% below the past five-year average—a period which also included a very good 1957."—V. 193, p. 382.

Rohr Aircraft Corp.—Follow-On Orders—

The corporation has received three follow-on orders for aircraft components totaling more than $9,000,000, it has been announced by Fred H. Rohr, Chairman of the Board and J. E. Rheim, President.

The orders, from Boeing, Lockheed and McDonnell were for five ship sets of jet power pods and other components for the 707-321B commercial transport; 51 ship sets of propjet power packages for the Hercules military cargo and personnel carrier, and 72 ship sets of brazed stainless steel honeycomb panels for stabilators on the F4H Phantom all weather fighter-interceptor.

These orders, Mr. Rohr said, bring the company's backlog to more than $175,000,000. All of the products listed currently are being manufactured and the new orders are extensions or production schedules.

Boeing has announced that the five 707-321Bs are for Pan-American World Airways, which has taken options on five additional airplanes. The 707-321B configuration adds versatility, operating economy and improved take-off characteristics to the 707-320 Intercontinental series. It will be powered by four Pratt & Whitney JT 3D-3 turbofan engines of 18,000 pound thrust.

Thirty of the Hercules airplanes are for the Navy, to be used for in-flight refueling and as assault transports. Sixteen are for the Air Force, on order for Military Air Transport service, and the remaining five are as yet undesignated.—V. 191, p. 2749.

Saint John Dry Dock Co. Ltd.—Partial Redemption—

The corporation has called for redemption on March 15, next, through operation of the sinking fund, $17,000 of its 5½% debentures due March 15, 1974 at 100%. Payment will be made at any branch in Canada (far north excepted) of the Bank of Nova Scotia.—V. 189, p. 919.

Samson Fund, Inc.—Files for Offering—

This Fund, of Briarcliffe Manor, N. Y., filed a registration statement with the SEC on Feb. 17, 1961, covering 461,360 shares of common stock, to be offered for public sale at net asset value plus a sales charge of from 8.5% to 2% depending on the size of purchase.

The company is a nondiversified mutual fund with the stated objective of long-term capital appreciation. It intends to concentrate its investments in securities of companies engaged in scientific and technological areas, especially companies which it believes most likely to benefit from recent scientific discoveries. Samson Associates, Inc. is listed as the Fund's investment adviser and general distributor; and Mirek J. Stevenson is President of the Fund and of Samson Associates. He, Lorraine C. Stevenson, Vice-President and Treasurer, and Gerald M. Grosof, Assistant Secretary, are majority holders of Samson Associates stock.

Saxon Paper Corp.—Files for Secondary—

This corporation, of 240 West 18th Street, New York, filed a registration statement with the SEC on Feb. 20, 1961, covering 193,660 shares of common stock, to be offered for public sale from time to time by the present holders thereof on the American Stock Exchange at prices current at the time of the offering. Of such stock, 82,910 shares are intended to be offered within the 90-day period following the effective date of the statement, and the balance may be offered after the expiration of said period.

The company is engaged in the wholesale distribution of fine printing papers and paper products to the graphic arts industry, as well as to retail stationers and similar outlets. In addition to certain indebtedness, the company has outstanding 557,500 shares of common stock, of which Myron P. Berman, Board Chairman and President owns 86,340 shares, Clarice Brager, his sister, 75,000 shares, and management officials as a group, 239,150 shares. In March, 1960, Berman and his associates acquired an aggregate of 205,000 outstanding common shares at $6.30 per share from Sidney W. Saks, formerly controlling shareholder, Chairman and President of the company. The prospectus lists 54 sellers of 193,660 shares of this stock (excluding Berman and his sister) their holdings ranging from 1,000 to 23,000 shares.—V. 187, p. 1210.

Seaboard Finance Co.—Quarterly Report—

Operating results for the first quarter of fiscal 1961 closely approximated those for the like period a year ago, Paul A. Appleby, President, announced on Feb. 20 in the quarterly report to shareholders.

Net income for the three months ended Dec. 31, 1960 rose to $2,091,641 from $1,926,559 for the corresponding period last year. However, due to a 6% increase in the number of common shares outstanding, earnings per share decreased slightly. On the 5,064,873 shares outstanding at Dec. 31, last, earnings after preferred dividends equalled 35 cents a share. This compares with earnings of 36 cents a share on the 4,759,233 shares outstanding a year earlier.

Volume written during the first quarter totaled $134,738,223 compared with $136,147,097 for the first quarter of fiscal 1960. Credit card volume was higher than the year earlier, the operation having just started in the fall of 1959. Loan and sales contract volume was off moderately from the level of a year ago.

Receivables outstanding at Dec. 31, 1960 amounted to $368,530,949, as compared with $321,892,967 a year earlier and $357,833,958 at Sept. 30, 1960. During the first quarter loan receivables increased $7,374,264, credit card receivables increased $5,719,376 and sales contracts decreased $2,396,649.

During the first fiscal quarter, Seaboard opened or purchased 12 additional loan offices and four credit card regional offices, bringing the total at Dec. 31 to 603 offices located in 480 cities in 45 states, the District of Columbia and four Canadian provinces.

In the initial quarter, the International Credit Card operation returned a profit of $49,400 after covering bad debt and interest expenses, Mr. Appleby said. This was the first quarter that the plan has operated in the black since its inception about 18 months ago. This profit was applied toward amortization of deferred development costs and thus has not been reflected in consolidated net income, the executive noted.

"The company has encountered many problems in the initial development of this operation. Daily progress is being made in improving its efficiency and increasing its profitability. Improved systems and procedures are placing the operations on a sound basis for substantial increases in business volume," he said.—V. 193, p. 50.

Seiberling Rubber Co.—Sales, Net Down—

This Akron, Ohio, company overcame a loss in its tire division with income from plastics, foreign business, and other diversified lines, and had a profit for 1960, President J. P. Seiberling reported.

Net sales for 1960 were $48,025,683, down 12½% from the $54,787,924 sales of 1959. Net income was $130,986, against $1,191,019 earned a year ago. The 1960 income provided no earnings for common stock after provisions for preferred stock dividend. Last year, the company earned $1.72 per share.

Seiberling's equity in undistributed earnings of Copolymer Rubber & Chemical Corp., Baton Rouge, La., increased 47 cents per Seiberling share. Last year's increase was 61 cents a share.

"Like most rubber manufacturers, Seiberling had a lower volume of sales from replacement tires in 1960 than in 1959," the company President said. "The severe cost-price squeeze caused us to lose money in this market, which accounts for a large part of our total business.

"However, income from other sources—plastics, shoe products, mats and foreign business plus dividends from our investments in synthetic rubber manufacturing—overcame the loss from tires and we ended the year with a small profit." All non-tire divisions of the company operated profitably, he added.—V. 192, p. 2656.

Seligman & Latz, Inc.—Seeks ASE Listing—

The directors of this company have voted to apply for listing of the company's common stock on the American Stock Exchange, Edwin K. Latz, President, told stockholders in the annual report. It is expected that this action will be effected in the near future.

Listing of the stock this year would coincide with the 50th Anniversary of the founding of the company, which now operates the nation's largest chain of beauty salons. Its salons are located throughout the continental United States, and in Hawaii, Canada and Mexico.—V. 192, p. 1753.

Shore-Calnevar, Inc.—Common Stock Offered—Pursuant to a Feb. 20 Prospectus, 200,000 shares of this firm's no par common stock were publicly offered at $9 per share by an underwriting group headed by H. Hentz & Co., 72 Wall St., and Federman, Stonehill & Co., 70 Pine St., both in New York City.

APPOINTMENTS—Transfer agents: Union Bank, Los Angeles, Calif; Morgan Guaranty Trust Co. of New York, New York, N. Y. Registrars: California Bank, Los Angeles, Calif.; Manufacturers Trust Co., New York, N. Y.

BUSINESS—Shore-Calnevar Inc., a California corporation, resulted from the merger of Shore Metal Products Co. and The Calnevar Co. in 1955. In two transactions occurring in 1959 and 1960, Shore-Calnevar acquired the outstanding stock of Sportsways Inc., a California corporation, and Sportsways is now a wholly owned subsidiary. Champion Exercisers Inc., a California corporation, was organized in 1960 as a wholly owned subsidiary of Sportsways.

Shore-Calnevar designs and manufactures automobile wheel discs (hub caps) and office and washroom dispensers, receptacles and other janitorial supplies. Sportsways manufactures skin diving equipment and accessories. Champion distributes physical exercise equipment. The principal executive offices and main plants of these companies are located at 7701 East Compton Boulevard, Paramount, Calif.

PROCEEDS—A total of 100,000 shares is being offered for the account of Shore-Calnevar, which will receive net proceeds of approximately $765,000 after deduction of estimated expenses. Of that amount, $525,000 will be used to repay outstanding short-term bank loans, all of which were made during the 12 months ended Nov. 30, 1960. Of the amount of such loans, $475,000 was used to increase raw materials and parts inventories for manufacturing Sportsways' line of skin diving equipment, and $50,000 was used to increase Shore-Calnevar's inventories. Of the balance of the proceeds to Shore-Calnevar, approximately $125,000 will be used in order to develop new products in Sportsways' line of skin diving equipment, and the remainder will be added to working capital and used for Shore-Calnevar's general corporate purposes, including development of new product lines. Shore-Calnevar intends, in order to increase Sportsways' capital, to exchange its outstanding loans to Sportsways for additional stock in Sportsways, so that the sum of loans so exchanged and additional stock purchased will equal about $650,000 in additional capital to Sportsways.

None of the proceeds from the sale of the 100,000 shares offered for the account of the selling stockholders will be received by Shore-Calnevar.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

	Authorized	Outstanding
Short-term bank loans	$525,000	None
Long-term debt	$466,706	$303,116
*Common stock (no par)	1,000,000 shs.	†§525,000 shs.
Warrants to purchase shares of common stock	25,000 shs.	25,000 shs.

* Adjusted to give effect to an increase in authorized capitalization and two and one-eighth-for-one stock split effective on Dec. 30, 1960.

† Does not include 25,000 shares reserved for issuance pursuant to a stock option plan for key employees, which was adopted by Shore-Calnevar's Board of Directors on Dec. 31, 1960.

§ Does not include 25,000 shares issuable upon exercise by Shore-Calnevar of an option to acquire 50% of the stock of Sutone Corp.

UNDERWRITERS—The underwriters named below, for whom H. Hentz & Co. and Federman, Stonehill & Co. are acting as co-representatives, have severally agreed to purchase from the company and the selling stockholders, subject to the terms and conditions set forth in the underwriting agreement the number of shares of stock set forth opposite their names, each amount representing the number of shares acquired from each source.

	Shares		Shares
H. Hentz & Co.	35,000	Norris & Hirshberg Inc.	3,750
Federman, Stonehill & Co.	17,500	Gerstley, Sunstein & Co.	2,500
Bache & Co.	12,500	Kalman & Co. Inc.	2,500
Bear, Stearns & Co.	12,500	Lerner & Co. Inc.	2,500
Ira Haupt & Co.	5,000	Mitchum, Jones & Templeton	2,500
First California Co. Inc.	3,750		

—V. 193, p. 810.

Sierra Pacific Power Co.—Financing—

The board of directors at a meeting held on Feb. 15, 1961 recommended that the stockholders of the company, at their Annual Meeting on March 27, 1961, amend the charter of the company so as to split the common stock on the basis of one additional share for each share held. It is presently expected that the split will be effective on March 29, 1961.

In addition to the stock split, the board authorized the sale of $6,500,000 of first mortgage bonds at competitive bidding and a common stock subscription offer to holders of the outstanding common stock on the basis of one share for each 12 shares held. It is expected that bond bids will be opened on or about May 11, 1961. The rights offering is expected to be made on or about May 4, 1961.

All the foregoing action was authorized subject to obtaining necessary regulatory approvals and compliance with the Securities Act of 1933. —V. 192, p. 156.

Signal Oil & Gas Co.—Sales, Earnings Up—

The company's sales in 1960 increased 57% to $304,000,000, compared to $194,000,000 in 1959, it was reported on Feb. 16 by Samuel B. Mosher, Chairman of the Board.

Net income for 1960 was $16,500,000, or $1.67 a share, compared with $16,250,000, or $1.64 a share in 1959, the company's preliminary report showed.

Earnings are based on 9,887,130 shares outstanding as of Dec. 31, 1960.

A full year's operation of the former Bankline and Eastern States companies, which merged with Signal in 1959, accounted for most of the sales increase, Mosher said.—V. 190, p. 1074.

Simonds Saw & Steel Co.—12 Months Report—

The Fitchburg, Mass., company reports consolidated net income of $3,248,138 for the 12 months ended Dec. 31, 1960, after provision for Federal and Canadian taxes on income. This amounts to $6.54 per share on the 497,000 shares of common stock outstanding. These results compare with consolidated net income of $4,949,462 for the corresponding period of 1959, equal to $9.96 per share on the same number of common shares then outstanding.

Net sales in 1960 were $54,666,437 compared with $61,432,510 for the 12 months of 1959. On Dec 31, 1960, current assets amounted to $23,791,894 and current liabilities were $2,931,014.—V. 192, p. 446.

Southern Gas & Water Co. (& Subs.)—Sales, Net Up

This distributor of propane gas in Georgia and Florida, and water in West Virginia, reports an increase of 11.8% in consolidated net income and 7.6% in consolidated sales for the year ended Dec. 31, 1960.

Albert L. Sylvester, President of the company, said sales reached $11,219,791, up from $10,429,883 in 1959, while net income was $1,196,038, compared with $1,069,510 for the previous year. Earnings per share during the year equaled $1.78, compared with $1.57 for the year ended Dec. 31, 1959.

For the final quarter of the 1960 year, the company showed sales of $3,075,428 as against $2,895,001 for the same period in 1959, and net income of $367,190 as compared with $336,822.

Propane gas is distributed by Southern Propane Co. and water operations are conducted by West Virginia Water Co. Both are wholly-owned subsidiaries of Southern Gas & Water Co.—V. 192, p. 2656.

Southern States Investment & Mortgage Corp., Atlanta, Georgia—Files With SEC—

The corporation on Feb. 8, filed a letter of notification with the SEC covering 100,000 shares of common stock (par $1) to be offered at $1.50 per share, through First Fidelity Securities Corp., Atlanta, Ga.

The proceeds are to be used for advances to subsidiaries and working capital.

Speedry Chemical Products, Inc.—Listing Approved—

The application of Speedry Chemical Products, Inc., of Richmond Hill, New York, for listing on the American Stock Exchange has been approved. The shares of Speedry, which became a publicly-owned company in September, 1959, have been traded over-the-counter.

Speedry manufactures and sells marking, stamping and stencilling inks and devices. In a diversification move last year it acquired a line of chemically-impregnated polishing and cleaning cloths which are marketed as Speedry Chemical Cloths.—V. 193, p. 748.

State Bond & Mortgage Co.—Proposes Offering—

This company, of 28 North Minnesota Street, New Ulm, Minn., filed a registration statement with the SEC on Feb. 17, 1961, covering $1,000,000 of Series 205 Investment Certificates and $1,000,000 of Series 305 Investment Certificates, each to be offered for public sale in units of $1,000 principal amount. The company is engaged in the business of issuing and selling face amount certificates. It is a registered investment company and for several years has confined its new investments almost entirely in F.H.A.-insured and V.A.-guaranteed mortgages. —V. 191, p. 745.

Stuart Co.—Merger Approved—

See Atlas Powder Co., above.—V. 177, p. 532.

Sundstrand Corp.—Sales, Net Down—

Sales in 1960 amounted to $73,176,174 and earnings were $1,985,374 after taxes, Bruce F. Olson, President, announced on Feb. 20 in disclosing preliminary performance figures for the year ended Dec. 31, 1960.

Sales in the preceding year totaled $81,627,386 and earnings were $3,753,172. Based on 1,619,760 shares of common stock presently outstanding, net earnings per shares were $1.23 in 1960 compared with $2.32 in 1959.

Earnings before taxes were $4,094,574 in 1960, as against $7,619,392 in 1959. Federal income tax provisions were $2,109,200 compared with $3,866,220.

The company's formal annual report will be issued in the latter part of March, Mr. Olson said.—V. 192, p. 2512.

Swiss Chalet, Inc.—Securities Offered—Pursuant to a Feb. 20 prospectus, an underwriting group headed by

American Stock Exchange

WEEKLY AND YEARLY RECORD

In the following extensive list we furnish a complete report of the transactions on the American Stock Exchange for the week beginning Monday, Feb. 20, and ending Friday, Feb. 24. It is compiled from the report of the American Stock Exchange itself and is intended to include every security whether stock or bond in which any dealings have occurred during the current year.

Range For Week Ending February 24.

NATIONAL LIST OF OVER-THE-COUNTER SECURITIES (Quotations for Friday, February 24)

The following bid and asked quotations are obtained from the National Association of Securities Dealers, Inc., and other selected sources. They do not represent actual transactions. They are intended as a guide to the range within which these securities could have been sold (indicated by the "bid") or bought (indicated by the "asked") at the time of compilation. Origin of any quotation furnished on request. The "National" list is composed of securities which have a wide national distribution.

THE COURSE OF BANK CLEARINGS

Bank Clearings this week will show an increase compared with a year ago. Preliminary figures compiled by us based upon telegraphic advices from the chief cities of the country, indicate that for the week ended Saturday, Feb. 25, clearings for all cities of the United States for which it is possible to obtain weekly clearings will be 11.3% above those of the corresponding week last year. Our preliminary totals stand at $25,244,278,541 against $22,682,969,436 for the same week in 1960. At this center there is a gain for the week ending Friday of 15.8%. Our comparative summary for the week follows:

CLEARINGS—RETURNS BY TELEGRAPH

Week Ended Feb. 25—	1961	1960	%
New York	$13,641,853,931	$11,780,061,866	+15.8
Chicago	1,131,956,104	1,065,750,767	+ 6.2
Philadelphia	1,001,000,000	984,000,000	+ 1.7
Boston	707,341,792	650,835,476	+ 8.7
Kansas City	457,527,835	417,659,153	+ 9.5
St. Louis	367,700,000	377,700,000	— 2.6
San Francisco	715,061,000	638,753,601	+11.9
Pittsburgh	380,160,328	426,279,502	—10.8
Cleveland	557,603,091	559,132,758	— 0.3
Baltimore	363,065,685	333,726,844	+ 8.8
Ten cities, five days	$19,323,269,766	$17,253,899,967	+12.0
Other cities, five days	4,756,807,020	4,343,255,576	+ 9.5
Total all cities, five days	$24,080,076,786	$21,597,155,543	+11.5
All cities, one day	1,164,201,755	1,085,813,893	+ 7.2
Total all cities for week	$25,244,278,541	$22,682,969,436	+11.3

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday and the Saturday figures are not available at time of going to press. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results of the previous week—the week ended Feb. 18. For that week there was a decrease of 5.1%, the aggregate clearings for the whole country having amounted to $27,929,101,810 against $29,442,440,240 in the same week in 1960. Outside of this city there was a loss of 5.2%, the bank clearings at this center showing a decrease of 5.1%. We group the cities according to the Federal Reserve Districts in which they are located and from this we note that in the New York Reserve District the totals register a decline of 5.1% and in the Philadelphia Reserve District of 18.7% but in the Boston Reserve District the totals record an improvement of 0.4%. In the Cleveland Reserve District the totals are smaller by 9.8% and in the Atlanta Reserve District by 5.0% but in the Richmond Reserve District the totals are larger by 4.7%. The Chicago Reserve District suffers a loss of 9.5% and the St. Louis Reserve District of 2.2% but Minneapolis Reserve District has to its credit a gain of 6.3%. In the Kansas City Reserve District there is an increase of 1.7% and in the Dallas Reserve District of 6.2% but in the San Francisco Reserve District the totals show a decrease of 1.3%.

In the following we furnish a summary by Federal Reserve Districts:

SUMMARY OF BANK CLEARINGS

Week Ended Feb. 18—	1961 $	1960 $	Inc. or Dec. %	1959 $	1958 $
1st Boston 12 cities	994,937,870	990,936,445	+ 0.4	986,875,259	768,387,902

Condition Statement of Member Banks

The condition statement of weekly reporting member banks of the Federal Reserve System in leading cities shows the following principal changes for the week ended Feb. 15: Increases of $541 million in loans adjusted, $487 million in holdings of U. S. Government securities, $1,387 million in U. S. Government demand deposits, and $607 million in demand deposits credited to domestic banks; and a decrease of $861 million in demand deposits adjusted.

Commercial and industrial loans increased a net of $244 million. Loans to brokers and dealers for purchasing or carrying U. S. Government and other securities increased $225 million. Loans to nonbank financial institutions increased $28 million.

Holdings of Treasury bills decreased $217 million, Treasury certificates decreased $422 million, and the combined total of Treasury notes and U. S. Government bonds increased $1,126 million. Other securities increased $128 million.

Borrowings of weekly reporting member banks from Federal Reserve Banks increased $23 million and borrowings from others increased $301 million. Loans to domestic commercial banks increased $283 million.

General Corporation and Investment News

Continued from page 10

P. W. Brooks & Co. Inc., New York 5, N. Y., and Compania Financeria de Inversiones, Inc., San Juan, Puerto Rico, publicly offered at $10 per unit, 115,000 units of this firm's securities. Each unit consisted of one share of no par common stock and one share of 70¢ cumulative first preferred stock ($9 par).

BUSINESS—Swiss Chalet Inc., a Puerto Rico corporation, was organized in 1952 to acquire and continue the business of the Swiss Chalet Restaurant which commenced operations in 1951. The restaurant has, since December 1955, occupied a modern air-conditioned building, decorated in authentic Swiss style, on De Diego Avenue in San Juan, Puerto Rico. The restaurant is considered comparable to first class city restaurants in the continental United States. In 1953 (when the restaurant occupied another location) the net sales and the net income from the operation of the restaurant were $152,945 and $8,072, respectively, and in 1960 were $1,188,580 and $53,825, respectively, with operations profitable each year since founding.

PROCEEDS—The current financing program is designed to provide primarily for the construction and furnishing of a seven-story hotel adjacent to the restaurant. The hotel, now under construction and to be known as the Hotel Pierre, will have 132 air-conditioned rooms, together with supporting facilities including lobby, cocktail lounge, swimming pool and tourist shops. It will cater to both the tourist and business trades. It is expected that the costs of construction of the hotel, including architects' fees and modification of the present facilities, will be $1,358,000, and that the cost of furniture and equipment for the hotel will be approximately $190,000. The land upon which the hotel is being constructed was purchased by the company in November 1960 for $224,615.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

	Authorized	Outstanding

		Glidden, Morris & Co.	1,000

—V. 193, p. 147.

Telescript-CSP Inc.—Appointment—

The Chemical Bank New York Trust Company has been appointed sole transfer agent for the common stock of the corporation.—V. 193, p. 51.

Temperature Engineering Corp.—Sales, Net Up—

Record sales of $1,049,607 were achieved by this Riverton, N. J., corporation last year, compared to $609,984 in 1959, it was announced on Feb. 17 by Sidney H. Perlman, company President.

Net earnings for 1960 totaled $72,291, compared to $44,344 in the previous year, Mr. Perlman said. He noted that this represents a 31.1 cent per share net profit for last year. The company first became publicly owned in October, 1960.

Temperature Engineering has experienced a 100% increase in sales during each year since its formation in 1956, Mr. Perlman said. He observed that last year's operations yielded a profit amounting to 13.85% of sales before taxes, or 7.08% after taxes.

Projected sales for 1961, he noted, are in the neighborhood of $2½ million.

Temperature Engineering develops and produces controlled temperature products and atmosphere enclosure systems for manufacturers of electronics, missiles and pharmaceuticals.—V. 193, p. 853.

Texas Gulf Sulphur Co.—Earnings—

Earnings in 1960 amounted to $13,718,081, equivalent to $1.37 per share on the 10,020,000 common shares outstanding, compared with $13,338,360, or $1.33 per share in the previous year, according to a preliminary report released.

Earnings in 1960 included extraordinary items amounting to $1,033,845, equal to 10 cents per share. The latter resulted from claims for refunds on prior years' income tax, offset in part by a loss sustained on the investment in the company's Mexican subsidiary which discontinued operations in early 1960.

Gross revenue from sales in 1960 amounted to $58,935,424, as against $63,596,936 a year earlier.—V. 193, p. 540.

Thrift Investment Corp.—Quarterly Report—

Net earnings per share for Thrift Investment Corp. for the first quarter of its fiscal 1961 year were up 33% over the same period a year ago.

In their quarterly message to stockholders, Thrift's President George A. Getty and Executive Vice-President Paul M. Hickox also reported that net earnings for the quarter, which ended Dec. 31, 1960, were $84,851, or 20 cents a share, compared to the $77,894, or 18 cents a share, earned in the preceding quarter which ended Sept. 30, 1960.

Volume of business for the quarter was reported up 5% to $4,757,000, compared to $4,502,000 for the same quarter of the preceding fiscal year.

Receivables outstanding for the quarter set a record high of $10,825,903, up $1,033,927, or slightly more than 10% over the $9,791,976, reached for the same quarter of fiscal 1960. Shares outstanding at the end of the quarter totalled 336,357, compared with the 335,517 outstanding for the same period of fiscal 1960.

The report includes the consolidated earnings of the M. F. Snyder Co., which was merged into Thrift Investment Corp. last August.

The company expects that the anticipated upturn in the national economy should relieve unemployment in some of the company's areas of operations, cutting down the delinquency rate and easing the company's collection problems in depressed areas.

Thrift Investment Corp., with headquarters at Two Gateway Center, Pittsburgh, Pa., operates a chain of 32 consumer finance offices in five states. In Pennsylvania, Maryland and South Carolina, these offices are managed under the name of Thrift Plan Finance Corp. In Virginia, the company operates under the name of Consumer Finance Corp., and, in Ohio, the subsidiary company is Signal Finance Corp.—V. 192, p. 2167.

Toro Manufacturing Corp.—Sales, Net Down—

This corporation, of Minneapolis, leader of the power mower industry, reported on Feb. 17 that sales for the first six months of the fiscal year beginning Aug. 1, 1960, were $6,319,363. The total for the same period last year was $7,903,429.

Earnings for the past six months were $79,206, or 33 cents a share, compared with the record high in the first half of fiscal 1959-60 when earnings were $310,311 or $1.35 a share. Current earnings were based on 225,847 shares outstanding on Jan. 31, 1961.

Despite the general reduction in demand for durable goods which began early last year, the six-months earnings report was the company's second best for the past four years, Toro's management pointed out. August-January statements for 1957-58 and 1958-59 both registered losses.

Toro normally makes the majority of its sales in the spring and summer President David M. Lilly reported that the firm's present order position is encouraging.—V. 192, p. 2373.

Town Photolab, Inc.—Additional Financing Details—

Our Feb. 20 issue reported the Feb. 17 offering of 150,000 shares of this firm's 5¢ par common stock at $4 per share. Additional financing details follow:

UNDERWRITERS—The underwriters have severally agreed to purchase, and the company has agreed to sell to them, severally, the respective number of shares of common stock set forth below:

	Shares
Michael G. Kletz & Co., Inc.	81,000
Rittmaster, Adelberg, Voisin & Co.	20,000
Stanley Heller & Co.	15,500
Amos Treat & Co., Inc.	13,500
Kesselman & Co., Inc.	12,500
Lieberbaum & Co.	7,500

—V. 193, p. 85.

Trak Electronics Co., Inc.—Acquires—

This Wilton, Conn., firm has acquired Tucor, Inc., South Norwalk, Conn. The announcement was made on Feb. 17 by Elton T. Barrett, President of Trak, and Roger E. White, President of Tucor.

Acquisition of Tucor was effected by an exchange of stock. Trak obtained more than 80% of Tucor stock in the transaction.

Reason for the merger, it is explained, is that Tucor's anticipated growth, both in production and developmental activities, will be facilitated by the opportunities offered by the extensive manufacturing capabilities and the financial resources of Trak Electronics.

The current management of Tucor will continue to operate the company under its present name. Mr. White will remain as President and Richard H. Geiger will retain his post as Vice-President.

Tucor specializes in the manufacture of microwave tubes, which have extensive military and industrial uses. Trak Electronics is a pioneer in the development and production of reconnaissance and communications equipment and magnetic components.

Tri-Continental Corp.—Debentures Offered—Eastman Dillon, Union Securities & Co. heads a group which offered publicly on Feb. 20, $20,000,000 of the corporation's 3⅞% debentures, series A, due March 1, 1966, priced at 99.50% plus accrued int. to yield about 3.98%.

PROCEEDS—Proceeds of the sale will be used primarily to pay at maturity $7,360,000 of the corporation's 2⅞% debentures due March 1, 1961; $6,900,000 of 2⅞% Selected Industries Inc. debentures due April 1, 1961; and a $3,800,000 3¾% promissory note of the corporation due March 31, 1961.

REDEMPTION—The debentures are not redeemable through refunding at a lower interest rate on or prior to Sept. 1, 1963. Otherwise, they are redeemable at the option of the corporation at redemption prices ranging from 102% to the principal amount.

BUSINESS—Tri-Continental Corp. is a closed-end diversified, management investment company. Based on market value at year end 1960, the corporation reported investment assets of $412,381,613.

At year end 1960, the corporation reported net investment income of $13,477,119 as compared with $12,496,278 at year end 1959.

CAPITALIZATION—Capitalization of the corporation at Dec. 31, 1960, adjusted to reflect the sale of the debentures, will consist of $20,000,000 in debt, 810,740 shares of $2.70 cumulative preferred stock, $50 par value, 7,197,936 shares of common stock, $1 par value, and 890,277 warrants to purchase 1.27 shares of common stock at any time at $17.76 per share.

UNDERWRITERS—Upon the terms and subject to the conditions contained in an underwriting agreement entered into between the corporation and Eastman Dillon, Union Securities & Co., as managing underwriter on behalf of itself and the underwriters named therein, the underwriters named below have severally agreed to purchase from the corporation the following respective principal amounts of series A debentures:

	Amount		Amount
Eastman Dillon, Union Securities & Co.	$6,600,000	Kuhn, Loeb & Co. Inc.	$1,250,000
A. C. Allyn & Co. Inc.	300,000	Lehman Brothers	750,000
Blyth & Co. Inc.	750,000	Carl M. Loeb, Rhoades & Co.	750,000
Clark, Dodge & Co. Inc.	300,000	Merrill Lynch, Pierce, Fenner & Smith Inc.	750,000
Dillon, Read & Co. Inc.	1,250,000	Morgan Stanley & Co.	1,250,000
The First Boston Corp.	1,250,000	Smith, Barney & Co. Inc.	750,000
Goldman, Sachs & Co.	750,000	Stone & Webster Securities Corp.	750,000
Harriman, Ripley & Co. Inc.	750,000	White, Weld & Co.	750,000
Johnston, Lemon & Co.	300,000		
Kidder, Peabody & Co.	750,000		

—V. 193, p. 646.

Twin Coach Co.—Earnings Up—

William H. Coleman, President of Twin Coach Co., announced on Feb. 14 that the company achieved pre-tax profits of $2,717,331 on sales of $31,527,190 during 1960. This compares favorably with pre-tax earnings of $2,416,138 on sales of $36,484,296 in 1959.

Earnings after taxes for 1960 were $1,357,331, or $2.23 per common share, after allowance for preferred dividends; comparable figures for 1959 were $1,941,138, or $3.30 per common share.

It was stated that during 1959 the company's normal income taxes were reduced by $864,000 because of operating losses sustained in prior years. The company's tax loss carry forward expired in 1959.

The 1960 earnings figure reflects a favorable adjustment resulting from certain litigation settlements, which resulted in a contribution to earnings after taxes of $240,064.—V. 193, p. 52.

United Artists Corp.—Private Placement—Arthur B. Krim, President of United Artists Corp., announced on Feb. 24 that arrangements have been concluded for the private placement by the company with a small group of institutional investors of $10,000,000 of 6% subordinated notes due Feb. 1, 1976, and ten-year warrants to

Digitized for FRASER
http://fraser.stlouisfed.org/

purchase 200,000 shares of common stock of the company at prices in excess of the present market.

PROCEEDS—Mr. Krim stated that the funds will be used for the repayment of certain shorter-term debt and for the continued expansion of the company's business.

The placement was arranged by F. Eberstadt & Co., and Lazard Freres & Co.—V. 192, p. 1243.

United Merchants & Manufacturers, Inc. — Private Placement—This firm has sold privately to an institutional investor $47,500,000 of 4¾% note due March 1, 1981, it was announced by J. W. Schwab, Chairman of the Board. Of the total proceeds, $32,000,000 constituted a refunding designed to extend maturities and modernize provisions of existing obligations. The balance of the proceeds was added to working capital. The transaction was arranged through Lehman Brothers. —V. 193, p. 750.

U. S. Rubber Reclaiming Co., Inc.—Net, Sales Down—

Net sales last year were down less than 1% and earnings declined 15%, C. H. Peterson, President, reported on Feb. 21.

Net income after taxes for 1960 was $474,625, or $1.06 per share, compared with $557,204, or $1.25 per share, in 1959. Earnings are based on 446,881 shares outstanding as of Dec. 31, 1960. Net sales were $6,998,916 last year as against $7,057,227 the previous year. Production fell to 65,980,000 pounds last year from 73,938,000 in 1959.

Mr. Peterson attributed the relatively high level of sales in 1960 to a price increase during the year which affected most grades of reclaimed rubber. The 15% decline in net earnings he ascribed to generally unfavorable business conditions during the last half of the year. Other factors contributing to the decline were start-up costs at the company's new plant in Vicksburg, Miss., and the accumulation by many rubber manufacturers of large inventories in the first half which were not liquidated at the rate anticipated.

The company's new process for recovering nylon molding resin from scrap tires, which was announced last year, is in the final stages of development, Mr. Peterson said, and field tests to date show promising results.

During last year, U. S. Rubber Reclaiming Co. continued to extend its international operations. Additional equipment for production of reclaim under the company's patented "Reclaimator" process was installed at the plants of licensee companies in Argentina and Italy. A new plant employing the process is under construction in Israel. A joint venture agreement with Dunlop Rubber Co., Ltd. of England to build a rubber reclaiming plant in Liverpool, England, was recently announced.—V. 193, p. 854.

Virginia Telephone & Telegraph Co., Charlottesville, Virginia—Files With SEC—

The company on Feb. 10, 1961 filed a letter of notification with the SEC covering 7,414 shares of common stock (par $1) to be offered at $19 per share, through Francis I. du Pont & Co., Lynchburg, Va. and C. F. Cassell & Co., Inc., Charlottesville, Va.

The proceeds are to be used for a construction plan for 1961.—V. 189, p. 1286.

Vitro Corp. of America—Net Up, Sales Down—

The corporation on Feb. 23 reported consolidated net income of $723,411, or $.60 a share for the year ended Dec. 31, 1960. This compares with consolidated net income of $565,252, or $.47 a share for the year 1959, before special charges of $1,476,663. There were no special charges in 1960. Income for both years includes tax credit and minority interest.

Sales for 1960 totaled $58,118,193, compared wtih $60,301,229 for 1959. Half of Vitro's 1960 sales came from the electronics, systems and development group. This group includes systems engineering for Polaris and other missile ships, antisubmarine warfare, telemetry receivers for missile and space programs and operations management of the Eglin Gulf Test Range, Florida.

In announcing the 1960 figures, Vitro President Frank B. Jewett, Jr. said that the operating results for January, 1961, were more favorable than had been anticipated and support the expectation that the year will be a good one for the company. Vitro Corporation of America, headquartered in New York City, operates major units at Silver Spring, Md.; West Orange, N. J.; Salt Lake City, Utah; Chattanooga, Tenn.; Eglin AFB, Fla., and Los Angeles, Calif.—V. 193, p. 148.

Wabash RR.—To Pay Interest, Dividend—

At a meeting of the Board of Directors held in New York, N. Y., on Feb. 16, 1961, the results of operation for the year 1960 were considered and the Board declared that the interest on the general mortgage 4% income bonds, series A, and the general mortgage 4¼% income bonds, series B, had been earned and authorized payment thereof in full on April 1, 1961.

At the same meeting, the Board determined that the full dividend of $4.50 a share on the preferred stock had also been earned and authorized payment of $4.50 a share on the preferred stock to shareholders of record at the close of business on March 31, 1961, payable on April 21, 1961.—V. 193, p. 646.

Warner-Lambert Pharmaceutical Co.—Merger Off—

William L. McKnight, Chairman of the Board of Minnesota Mining & Manufacturing Co., and Elmer H. Bobst, Chairman of the Board of Warner-Lambert Pharmaceutical Co., on Feb. 16 issued the following statement:

"The Department of Justice has made a searching investigation at the request of our companies extending over the past several months. It has not expressed an opinion on the legality of the proposed combination of 3M and Warner-Lambert under the anti-trust laws. The long time during which the merger has been held in abeyance has created many problems for each of the companies, as well as an air of uncertainty which makes it difficult for management to deal with these problems. Consequently, the boards of our respective companies have mutually agreed to terminate negotiations."—V. 192, p. 845.

Western Development Co. of Delaware—Revenues Up

This Denver, Colo., company had substantially improved revenues from oil and gas sales and royalties for the fiscal 1961 first half, ended Dec. 31, 1960, to a record $340,994, or 17 cents a share, according to W. B. Macey, President.

This contrasted with a net loss of $42,389 for the comparable fiscal 1960 period.

Sales and operating revenues for the six months just ended reached $1,000,217, a 61% increase over the $620,298 volume the year before.

Reflected in the peak profits for the fiscal 1961 first half were greatly accelerated drilling and land operations by the company in the Mid-Continent and Rocky Mountain areas, Mr. Macey said. Oil sales during the period totaled 283,043 barrels, against 177,220 barrels in the like fiscal 1960 six months, and gas sales amounted to 1,185,684 MCF, compared with 499,328 MCF. Royalties increased to $68,222 from $49,880 the year before.—V. 192, p. 2066.

Willcox & Gibbs Sewing Machine Co. — Disposes of Machine Rights—

See Draper Corp., above.—V. 191, p. 2168.

Wilshire Insurance Co.—Proposes Offering—

This company, of 5413 West Washington Blvd., Los Angeles, Calif., filed a registration statement with the SEC on Feb. 17 covering 313,000 shares of common stock. The company proposes to offer 187,000 shares for subscription by stockholders on a share for share basis and at $5 per share, the record date for subscriptions to be supplied by amendment. Concurrently with such offering to shareholders, the company proposes to make a public offering, at $5.50 per share, of the remaining 126,000 shares and such of the 187,000 shares as are not purchased by shareholders. The public offering will be made by company officers and through salesmen and security dealers, who will receive a commission of $.4125 per share sold.

The company was organized in 1956, began operations in June 1959 and began the writing of insurance policies on Aug. 1, 1959. It is engaged in writing liability, workmen's compensation, common carrier liability and automobile (physical damage) insurance, and in the investment of its assets. Net proceeds of the sale of its stock will provide the company with additional capital funds said to be necessary for increasing its capacity to write additional policies in all lines of its business and to expand its business into writing other classes of insurance (which will require permission of the California Insurance Commissioner).

The company now has outstanding 187,000 common shares. Lester R. Hill is listed as President. Management officials own 3.2% of the outstanding stock; and Parks & Co. and its principal shareholders, Harry Parks, Jr., and William Wheeler Parks, and their immediate families and another corporation they own, held 16,747 common shares, or 8.5% of the outstanding stock, on Dec. 31, 1960.

Wolf Corp.—Files Financing Plan—

This corporation, of 10 East 40th Street, New York City, filed a registration statement with the SEC on Feb. 15, 1961, covering (1) $2,822,000 of 15-year, 7.2%, subordinated debentures due Mar. 1, 1976 and 746,350 shares of class A common stock, which debentures and shares are to be offered by the company in exchange for outstanding interests in certain limited partnerships, (2) $775,000 of similar debentures which were issued to certain persons for their leasehold interests in two properties and fee to a third, and (3) 30,000 class A shares to be offered for public sale at $10 per share by the company through its officers and directors.

The company was organized under Delaware law in January 1961 and proposes to engage in the construction, investment and operation of real estate properties. The company proposes to acquire all, but not less than 80%, of the capital interests in seven certain properties and 25% and 50% interests, respectively, in two others in exchange for the $2,822,000 of debentures and 746,350 class A shares. The two properties in which the company will receive 25% and 50% interests respectively, are Korvette Building, East 44th and 45th Sts., and 635 Madison Ave., New York City. The seven properties are 10 East 40th St., New York City; Tidelands Motor Inn, Tuscon, Ariz.; Caravan Motor Inn, Phoenix, Ariz.; Glen Meadow Apartments, Cincinnati, Ohio; Gwynne Buildings, Cincinnati, Ohio; and the Mayflower Hotel and Mayflower Motel in Atlantic City, N. J. The leaseholds of the latter two properties, together with the fee of the Mayflower Hotel and Lake Trail Apartments in Palm Beach, Fla., were acquired by the company in exchange for the $775,000 of debentures. The net proceeds from the company's sale of the 30,000 class A shares will be used for future investment and general and working funds.

In addition to certain indebtedness, the company has outstanding 100 shares of class A and 305,000 shares of class B stock, of which Joseph Wolf, President and Board Chairman, owns 60 class A and 200,000 class B shares, and Joseph Eckhaus and Leon Spilky, directors, own 20 class A and 50,000 class B shares, respectively. The class B shares are convertible, share for share, into class A shares.

Wollard Aircraft Service Equipment, Inc. — Common Stock Offered—Public offering of 135,000 shares of Wollard Aircraft Service Equipment, Inc. common stock at a price of $4 per share was made on Feb. 24 by Amos Treat & Co., Inc., and Bruno-Lenchner, Inc. The offering marks the first public sale of the company's common stock.

PROCEEDS—Net proceeds from the financing will be used by the company for the construction and equipment of a new plant facility and for additional working capital.

BUSINESS—Wollard, with headquarters in Miami, Fla., is engaged in the manufacture of a wide variety of ground, field and hangar equipment used to service commercial and military aircraft. The company is the principal producer of the portable stairs used in the major airports throughout the United States for entering and leaving commercial planes. It also sells lavatory trucks, baggage carts, water trucks, service docks, platforms and stands, towbars, and mobile conveyors and loaders.

SALES—For the six months ended Sept. 30, 1960, the company had net sales of $740,843, compared with $445,596 at Sept. 30, 1959.

CAPITALIZATION—Upon completion of the current financing, outstanding capitalization of the company will consist of 327,500 shares of common stock.—V. 192, p. 2658.

Wonderbowl, Inc., Los Angeles, Calif. — Files With Securities and Exchange Commission—

The corporation on Feb. 6, 1961 filed a letter of notification with the SEC covering 150,000 shares of common stock to be offered at par ($2 per share), through Standard Securities Corp., Los Angeles, California.

The proceeds are to be used to discharge contract payable, accounts payable, and notes payable and for working capital.—V. 191, p. 1818.

UNION CARBIDE

reports for 1960

Sales of Union Carbide in 1960, although a record, increased only slightly over 1959 sales as a result of the generally low level of the economy during most of the year. Earnings, about 8 per cent below a year ago, were the second highest in the Corporation's history.

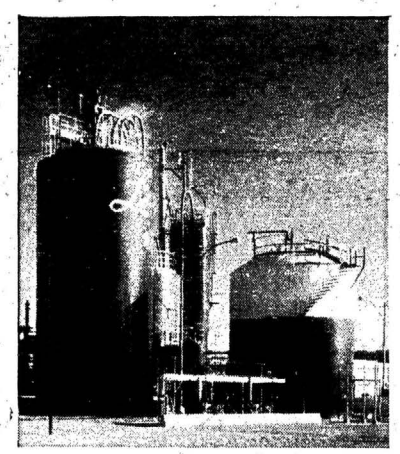
In view of the strong position of the Corporation's products and processes in the faster-growing areas of the nation's economy, outlays for new plants and for research and development are expected to be maintained at a high level in 1961.

BRIEF SUMMARY OF FINANCIAL RESULTS

	1960	1959
Sales	$1,548,168,000	$1,531,344,000
Net Income	$ 157,980,000	$ 171,637,000
Per Share	$5.25	$5.70
Dividends Paid	$ 108,360,000	$ 108,345,000
Per Share	$3.60	$3.60
Retained Earnings	$ 735,114,000	$ 685,494,000
Current Assets	$ 688,375,000	$ 714,667,000
Current Liabilities	$ 245,927,000	$ 257,204,000
Total Assets	$1,712,938,000	$1,632,250,000

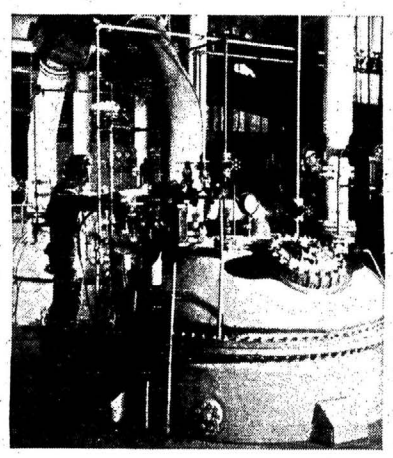
FOR COPIES of the 1960 annual report and an illustrated booklet, "The Exciting Universe of Union Carbide," write to Union Carbide Corporation, 270 Park Avenue, New York 17, N. Y.

YOU ARE INVITED to visit the atomic energy exhibit in the new Union Carbide Building. Schools and other groups who wish to arrange to see the exhibit, phone LL 1-3761.



$219 MILLION was spent by Union Carbide in 1960 for construction of new facilities. This new installation at Torrance, California, is the first privately owned and operated liquid hydrogen plant in the country.

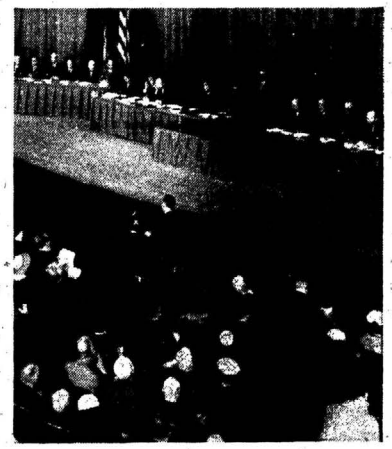
OUTLAYS FOR RESEARCH are being maintained at a high level to assure growth. In 1960, $86 million was spent for research and development, about $7 million more than a year ago.



52,000 INDUSTRIAL CUSTOMERS and distributors purchased Union Carbide products in 1960. Industrial products include chemicals, plastics, carbon products, gases, metals, and nuclear products.

"PRESTONE" ANTI-FREEZE SALES set a record in 1960. Other well-known Union Carbide consumer products are EVEREADY batteries and flashlights, PYROFAX bottled gas, and "6-12" insect repellent.

WAGES AND SALARIES rose to $403 million in 1960. This does not include compensation to those at nuclear installations operated by Union Carbide for the Government. Total employment at the end of the year was 73,000 people.



YEAR'S DIVIDENDS to stockholders amounted to $108 million, or $3.60 a share. A total of over $1.6 billion, or about 67 per cent of net income, has been paid during the 43 years of the Corporation's existence. There are now 128,000 stockholders.
