Aetna Finance Co.—Net Up 17%—

For the period Oct. 1 to Dec. 31, 1960, Aetna Finance Co. reports an increase of over $6,000,000 in outstanding loans to a total of more than $67,000,000. Net income for the quarter amounted to $524,000 which is more than 17% greater than the earnings for the corresponding quarter of the previous fiscal year.

David R. Corwin, Secretary and Treasurer, speaking before the St. Louis Society of Financial Analysts, estimated earnings for the full year, based upon first quarter results, at about $2,600,000 or approximately $1.41 per share on present capitalization. This would compare with $2,300,000 or $1.21 per share reported for the fiscal year ended Sept. 30, 1960, on a smaller number of shares.

Corwin stated that based upon the company's current borrowing potential, the company could almost double its Loan Receivables without resorting to equity financing. "Inasmuch as Loan Receivables are the source of our income," he said, "it is conceivable that we could double our income without the need to sell one additional share of common stock."

Aetna Finance Co., although formed in St. Louis in 1918, did not become publicly owned until one year ago. It now operates 151 offices in 129 cities in 26 states, with 13 additional offices projected for opening during the remainder of this fiscal year.

Corwin disclosed that the company also has under consideration the possible acquisition of two chains, one with 17 offices and the other with 12 offices, involving about $6,000,000 in outstanding loans.

The company has the distinction of having earned a profit each year in which it has been in business. As of Dec. 31, 1960, it had accumulated $6,738,000 in Deferred Income which will be applied to it in the future.

Directors have declared the regular quarterly cash dividend of 10 cents per share payable March 31 to holders of record March 15, 1961.—V. 191, p. 1213.

All-Tech Industries, Inc., Miami, Fla.—Files With SEC

The corporation on Feb. 23, 1961 filed a letter of notification with the SEC covering 70,000 shares of common stock (par 10 cents) to be ofered at $4 per share, through Robert L. Ferman & Co., Inc., Miami, Florida.

The proceeds are to be used to repay a bank loan, retire a chattel mortgage and for working capital.

Alside, Inc.—Gets $6,000,000 Loan—

Alside, Inc., world's largest manufacturer of aluminum siding, has received a $6 million loan from the John Hancock Mutual Life Insurance Co.

Officials of the two companies signed the loan agreement on March 9 at a meeting in John Hancock's Boston headquarters.

Jerome J. Kaufman, Alside's president, said the $6 million will be used to put into operation "immediately" a new subsidiary that will finance loans for retail purchases of Alside products. The subsidiary, Alside Acceptance Corp. will operate nationally through 6,000 dealers now handling the parent firm's siding, paneling and related aluminum accessories.

Capitalization for Acceptance also includes $3 million raised last year in a public sale of Alside stock. Moreover, terms of the agreement with John Hancock permit the subsidiary to incur enough additional indebtedness to furnish it with a total of $40 million for credit operations.

Mr. Kaufman pointed out that Alside will be the only manufacturer in the aluminum siding industry to operate its own finance subsidiary.

"Acceptance will begin immediately to purchase consumer paper from dealers," he added, explaining that the loans involved will be for periods ranging up to 10 years.

Mr. Kaufman said the subsidiary will "contribute substantially" to Alside's earnings.

Alside, with headquarters in Akron, Ohio, and factory depots in 20 cities, reported sales of $23,041,045 an dearnings of $1,602,537 for the fiscal year ended Sept. 30, 1960.—V. 192, p. 2321.

American Cryogenics, Inc.—Appointment—

The Chemical Bank New York Trust Co. has been appointed New York registrar for the common stock of the corporation.—V. 193, p. 373.

American Marinas, Inc.—Capital Stock Offered—Public offering of 100,000 shares of American Marinas, Inc. capital stock at a price of $3 per share was made on March 6. The offering was made by the company without the services of an underwriter.

PROCEEDS—Net proceeds from the financing will initially be added to the general funds of the company and subsequently used for the development and improvement of the company's Mid-Hudson Marina, Inc. to expand its summer docking and other facilities, including dredging, bulkheading, floats, landscaping and installation of dockside utilities, and to augment its inventory of boats, engines, supplies and accessories. The balance of the proceeds will be used for general corporate purposes, including the acquisition of additional marinas consistent with the company's long-term expansion program, and the promotion of the company's marina advisory and management services.

BUSINESS—American Marinas, Inc., with headquarters at 19 Rector Street, New York, is a marina operating and investment company, organized to own, build and operate marinas and to render marina advisory and management services on a fee basis. The company owns the Mid-Hudson Marina, situated at Connelly, N. Y., just south of Kingston. This 20-acre site, the former property of the C. Hiltebrant Dry Dock Company, which had been operated for 93 years by three generations of the Hiltebrant family for the building and repair of commercial barges, scows, tugs and ferries and naval craft, provides 12 feet of sheltered water at low tide and is located one mile upstream on Rondout Creek running west from the Hudson River. American Marinas was organized in October, 1959.

CAPITALIZATION—Authorized capitalization of the company is 500,000 shares of capital stock, $1 par value, and upon completion of the current financing, outstanding capitalization will consist of 193,395 shares of the stock.—V. 193, p. 597.

American Radiotelephone Corp., Natick, Mass.—Files With Securities and Exchange Commission—

The corporation on March 2, 1961 filed a letter of notification with the SEC covering $300,000 of five year 8% convertible debentures to be offered in denominations of $100, without underwriting.

The proceeds are to be used for a reserve for a possible exercise of options and to increase product facilities.

Aqua-Chem, Inc.—Offering and Secondary—

Aqua-Chem, Inc., 225 North Grand Avenue, Waukesha, Wis., filed a registration statement with the SEC on March 3, 1961 covering registration of 340,000 shares of common stock, of which 227,000 shares are to be offered for public sale by the company and 113,000 shares, being outstanding stock, by Cleaver-Brooks Co., its parent. The offering will be made on an all or none basis through underwriters headed by Carl M. Loeb, Rhoades & Co. and Loewi & Co., Inc. The public offering price and underwriting terms are to be supplied by amendment.

The company (formerly Cleaver-Brooks Special Products, Inc.) is engaged principally in the development, manufacture and sale of equipment of various types used for desalting and purifying sea and brackish water, converting it to a pure or potable state. This equipment has uses in the marine, municipal, military, off-shore drilling and pharmaceutical fields, and in the recovery of chemicals from industrial wastes. It is also engaged in research and development in the water conversion field. The net proceeds from the company's sale of additional stock will be added to general funds. About one-half thereof will be added to working capital and applied toward financing the company's business in the water conversion field, and the balance to increase research and development over the next several years.

The company has outstanding 800,000 shares of common stock, of which Cleaver-Brooks owns 779,346 shares (and proposes to sell 113,000 shares) and management officials as a group own 10,327 shares. John C. Cleaver is listed as board chairman of the company and board chairman and a majority stockholder of Cleaver-Brooks. Fred A. Loebel is listed as president.

Armstrong Paint & Varnish Works, Inc. — Registers Common—

A registration statement was filed with the Securities and Exchange Commission on March 9 by Armstrong Paint & Varnish Works, Inc. covering a proposed secondary offering of 207,315 shares of common stock, with Lee Higginson Corp. listed as the principal underwriter.

Proceeds from the offering will accrue to selling shareholders, including the estate of Russell G. Dahlberg, former President. The proposed offering will include 15,000 shares to be initially offered to employees.

At present, Armstrong Paint & Varnish Works, Inc. is a closely-held corporation, organized under Illinois laws in 1905 as the successor to a business established in 1854. It is engaged in the manufacture and sale of paint, varnish, lacquer and paint cans for industrial and consumer markets.

Assembly Products, Inc.—Annual Report—

For the 15th consecutive year since its founding, the Chesterland, Ohio, firm set new records for sales and earnings last year, according to the 1960 annual report.

Sales increased 17% in 1960 over the 1959 figure and net earnings were up 19%, President John D. Saint-Amour told the company's 2,150 shareholders on Feb. 27. The company manufactures meter-relays, panel meters and complete controls for commercial and military use.

Shipments in 1960 amounted to $3,409,446, compared with $2,926,412 the year before, Saint-Amour disclosed. Net income was $250,916, against $209,911 in 1959. Earnings per share in 1960 were 52 cents, compared with 46 cents in 1959.

"We fell somewhat short of our aspirations in certain respects, but our achievements as a whole measured up to what we regard as a growing API tradition," Saint-Amour commented.

Among the significant improvements last year was an increase in earnings as a percentage of shipments, Saint-Amour pointed out. He said the net earnings ratio of 7.4%, which had been 7.2% in 1958 and 1959, was "a reasonably satisfactory one."—V. 192, p. 493.

Automatic Retailers of America, Inc.—Sales Soar—

Vending operations of the company have increased from $3½ million to $5 million a month since the start of the current fiscal year, Oct. 1, 1960, Davre J. Davidson, company President, told shareholders on Feb. 23 at the annual meeting in Los Angeles.

"This rise to a $60,000,000 annual rate is the result of internal growth as well as several acquisitions," he declared.

Davidson told the shareholders that the trend toward institutionalization of vending; i. e., the joining of vending firms into national organizations, is continuing.

Since Oct. 1, A. R. A. has consummated mergers with four major companies.—V. 193, p. 197.

Bal-Tex Oil Co., Inc.—Offering Suspended—

The SEC has issued an order temporarily suspending a Regulation A exemption from registration under the Securities Act of 1933 with respect to a public offering of stock by Bal-Tex Oil Co., Inc., of 1150 First National Bank Building, Denver.

Regulation A provides a conditional exemption from registration with respect to public offerings of securities not exceeding $300,000 in amount. In a notification filed Dec. 22, 1960, Bal-Tex proposed the public offering of 300,000 class A common shares at $1 per share pursuant to such an exemption. The Commission's suspension order asserts that certain terms and conditions of Regulation A were not compiled with by Bal-Tex; that its offering circular is false and misleading by reason of its failure to disclose certain material facts; and that the stock offering would violate the anti-fraud provisions of the law. The order provides an opportunity for hearing, upon request, on the question whether the suspension should be vacated or made permanent.

The alleged misrepresentations relate to the failure of the Bal-Tex offering circular (1) to disclose the affiliation existing between Bal-Tex and its underwriter, Equity General Investment Corp. and the latter's attorney; (2) to itemize properly the purposes for which the net cash proceeds of the stock sale are to be used; (3) to include pertinent information showing the results of development work to date on or near the Bal-Tex property; and (4) to include appropriate financial statements of Bal-Tex. According to the Commission's order, the notification also failed to disclose (a) the affiliation of Bal-Tex with the underwriter and with Modern Furniture, Inc., and (b) required information concerning additional offerings of securities by Modern Furniture; and the notification also failed to provide appropriate and accurate response to or to comply with certain items of the form. Moreover, the order asserted, the stock offering exceeds the $300,000 limitation under Regulation A when computed in accordance therewith, and a Regulation A exemption is not available to Bal-Tex because of a prior suspension order involving a stock offering by Modern Furniture and because Equity

Corporate and Municipal Financing Ahead

By SIDNEY BROWN

Principal corporate activity this week will be in new equity shares and not in debt securities. Next week will mark a rise in the tempo of debt issues going before the public but, as it looks now, the last week of March will be devoid of any senior debt issues. The first week of April, which is the fourth week in the 28-day visible supply displays little financing demand strength at this time.

The opposite pattern is the case in municipals now being lined up to take advantage of today's price terms. Just beyond the four-week float an impressive body of corporate bonds are scheduled to appear. What they are waiting for can be anyone's guess. Most likely they hope that the disgorgement of municipals will have occurred leaving the field clear for what would then be a better period for price maneuverability. This assumes that municipals will taper off by the second week of April after the private placement of Massachusetts Turnpike Authority's $175 million on April 19. In the week before, on April 5, California will have sold its $190 million bond issue and the end of March should see Kentucky's $100 million issue off the docket.

The table immediately following provides an insight as to the probable demand for capital in the four weeks ahead in the form of municipal and corporate securities now in the announced docket. Municipals are responsible for pushing the float figure just over the billion dollar mark.

FOUR-WEEK FINANCING FLOAT

	Corporate Bonds	*Corporate Stocks*	*Total Corporates*	**Municipals*	*Total of Both Financings*
Mar. 13-Mar. 17	$2,500,000	$100,508,020	$103,008,020	$97,266,000	$200,274,020
Mar. 20-Mar. 24	114,625,000	131,778,120	246,403,120	111,967,000	358,370,120
Mar. 27-Mar. 31	------	22,400,000	22,400,000	149,657,000	172,057,000
Apr. 3-Apr. 7	34,800,000	42,920,000	77,720,000	257,915,000	335,635,000
Total	$151,925,000	$297,606,140	$449,531,140	$616,805,000	$1,066,336,140
Last Week's Data	122,560,000	267,198,350	389,758,350	411,792,000	801,550,350

! $1 million or more. Add $25,000,000 State of Michigan set for April 4.

TOTAL BACKLOG GAINS SLIGHTLY IN BONDS

The backlog table below comprises issues with serious financing intentions spelled out in sufficient degree to indicate they are definite contenders for capital funds. The data include those in the four-week table above as well as those issues with later offering dates in addition to those undated.

	Total Formal Backlog—This Week	*Last Week*
Corporate bonds with dates	$470,925,000 (25)	$376,337,300 (22)
Corporate bonds without dates	68,951,100 (34)	94,111,500 (37)
Total Bonds	$539,876,100 (59)	$470,448,800 (59)
Corporate stocks with dates	$337,234,140 (96)	$444,846,350 (93)
Corporate stocks without dates	228,908,210 (175)	199,658,590 (163)
Total Stocks	$566,142,350 (271)	$644,504,940 (256)
Total Corporates†	$1,106,018,450 (330)	$1,114,953,740 (315)
Total Municipals with dates‡	$862,860,000 (69)	$532,862,000 (63)

† Included here are seven preferreds amounting to $126,400,000 with offering dates and five preferreds totaling $3,731,000 without dates.
‡ Excluded from the municipal float is the Dillon Read & Co. supervised Florida State Turnpike Authority which still has not specified an amount and approximate date.

In the above backlog there are a tremendous number of "letters of notification." Eight of them are for debt issues of $300,000 and less and 117 are equity issues of $300,000 and less. Of the latter, 29 have dates posted. Some of the large newly announced issues *sans* dates in the above backlog are: Smith Kline & French Laboratories, 200,000 shares of stock as a secondary offering; 400,000 shares of Max Factor class A stock; and 140,000 shares of Majestic Specialties.

There are indications of a swelling of the backlog but nothing has been firmed as yet. Indicative issues in this category include the possible $100 million Montreal bond issue; and reports of: Hawaiian Electric Co., Inc. $12 million mortgage bonds, Hawaiian Telephone Co. $5 million stock rights, Mississippi River Transmission Corp.'s $6,500,000 debentures or bonds, Transcontinental Gas Pipe Line Corp. $35 million mortgage bonds, and still in the courts, awaiting approval, Mesabi Iron Co.'s 180,000 shares of capital stock. These issues are included with other indeterminate ones, still to be formally resolved or removed from the category of postponed, in the recapitulation which follows.

	Total Indeterminate Backlog—This Week	*Last Week*
Corporate Stocks and Bonds	$1,800,000,000	$1,600,000,000

The $200 million increase in the size of the still uncertain corporate backlog when added to the formal corporate backlog provides a gross figure of $2.9 billion compared to last week's figure of $2.7 billion.

CHANGES IN THE PAST WEEK

Corporate public offerings in the week ending March 8 came to $27,310,720. Principal demand for funds in that week was in municipals with sales adding up to $144,787,000.

Additions to the *Chronicle's* corporate calendar of March 9 amounted to $138,525,000. Tax-exempts with sales dates set in the week past and added to the *Chronicle's* calendar of larger municipal issues came to $446,983,000.

AMERICA KNOWS HOW TO LOSE FACE WHEN IT COMES TO DEVALUATION

No one could tell from Washington, D. C.'s reaction to Western Germany's upward revaluation last March 5 that our dollar was dealt a hard blow. Why most of the press did not inform its readers of this mystifies the writer. The fact that it was either ignored or declared to be a good thing for us by the Administration, its important officials, economic advisers, etc. is hard to understand—particularly for an Administration that flaunts its supposed candidness of the facts of economic life with the American public. For that matter, neither did the IMF explain in its short statement the significance of this when the dollar is supposed to be the pivotal, reserve currency of the world.

The reaction to the German upward revaluation could be summed up thusly:

(1) It will help the dollar;
(2) It will correct the fundamental imbalance in national trade and payments;
(3) It will stop and, perhaps, reverse the flow of speculative dollars to Germany;
(4) It will probably bolster the value of the dollar on a long term basis;
(5) And German officials said it will dampen threatening inflation which may arise because of the continuing boom there.

One, if the dollar is to be assisted by this move, sales by West Germany to us must decline by more than 5%. Should import demand fall off but by 5% it still would leave Germany earning as many dollars as heretofore. Should our imports decline by less than 5%, then Germany will actually be earning more dollars than prior to revaluation. In short, if the import of Volkswagen, etc., displays relative inelasticity of demand we will be providing Germany with more dollar balances to her credit than under the old exchange rate.

We are assuming here that the Volkswagon will go up by 5% which may not, of course, be the case. The higher cost here may successfully pressure lower costs elsewhere. When we imported a German item that cost 21 DM at the old ratio we paid $5, now we must come up with $5.20. By the same token, under the old rate of 4.2 DM to the $1 we paid but $200 for 40 of such items. Today the same number of items at 21 DM cost $210. If as a result imports were to fall from 40 items to 39, or a 2.5% decline, Germany will still have more ($4.75) dollars. This, in the long run, may not be too unlikely the case given the German capacity to keep costs down compared to us.

For Washington, D. C. to say that revaluation will mean less dollars will be available to Germany, it has to be certain our imports will fall off more than proportionately to the increase in the exchange rate cost involved.

Two, this move may well redound to Germany's advantage since its imports will cost less in proportion to the exchange rate change. It may be enough to offset the higher exchange rate foreigners have to pay and as a result leave the final net price where matters were before. For example, German imports going into the production of Volkswagen at the lowered exchange price may be enough to recoup the higher export rate. Moreover, this currency move does not mean imports from the U.S.A. will increase ANY MORE THAN we will import less from Germany. Trade competition means more than juggling exchange rates. A temporary disadvantage has often been overcome one way or another unless a country is not an important importer and the goods it sells has an inelastic demand. Germany buys a great deal from abroad and stands to gain; and its sales may not suffer from the 5% hike in the exchange rate. The net result, then, may increase Germany's surplus and again invite speculators' foreign funds.

Three, a decline in German exports may fortify private and public policy to thwart threatening inflation. Thus, making it easier for Germany to resist higher wage and other claims. Also, it may increase the incentive for greater productivity, lower cost, and defeat our hopes for the dollar.

OUR GOLD WILL SELL FOR LESS

There are two ways to compete internationally. One way is to cut our domestic costs. The other way is to devalue our currency. The German move precisely did the latter for us. Our currency did not stand still when the DM was revalued upwards. Relatively, it meant devaluation. If we have to depend on cutting the exchange rate to increase exports, then the dollar, in the long run, will go the way of the sterling and other former strong currencies.

Those who do not believe in relatively fixed exchange rates will shed no tears over this. Further, they will be unconcerned that the Germans need only pay 140 marks to obtain $35.00 in order to buy an ounce of our gold instead of the former amount of 147 marks. One ounce of gold leaves a paper profit of 7 marks. If 2,800 marks are spent this way there will remain 140 marks profit or enough to exchange for dollars for a profit of an ounce of gold. Under the old rate 2,940 marks were necessary and not 2,800 DM. Naturally, the German central bank may not take advantage of this. If we show we can compete not on the basis of money lent or granted to create exports, nor on the sale of surplus items at a loss, but on driving down our costs, then marks and other foreign currencies will not wind up converted into gold. Only when our dollar was suspect did foreigners exchange their credit balances for dollars and then turned the dollars into gold.

The outflow of gold signaled in layman's terms what was happening to our economy and started the pressure to cause money and credit to be spent efficiently. Governmental and monetary moves offset this up to a point when it was discovered easier credit accelerated the gold outflow. Now we have made a stab at slight devaluation. Tomorrow it may be the Triffin Plan, or the compulsory surrender of every country's surplus reserves to a new world bank. At the least, our refusal to translate productivity increases into lower prices may compel us to embargo gold after we have had enough of devaluation. Going off gold and refusing to face economic facts realistically will prove no more comforting than smashing the thermometer that tells us the state of our illness.

No, Germany's revaluation may not, in the long run, be good for the dollar, solve our imbalanced balance of payments, or stop the flow of speculative dollars. It may, however, help Germany's fight against inflation and pose a greater economic threat to us than before. We cannot cheapen the dollar at home, remain a second best competitor, and expect our currency to dominate the world's convertible currencies.

LARGER ISSUES IN THE OFFING

The following lists the larger corporate and municipal issues expected next week:

Week of March 13-17: $50 million Atlantic Fund for Investment in U. S. Brunswick Corp.—Record Highs—

Sales and earnings reached new peaks during 1960, marking the seventh successive year of improvement, B. E. Bensinger, President, announced on March 1.

Consolidated net sales for the year ended Dec. 31, 1960 rose 22% to $359,861,000, from $294,799,000 in 1959.

Net earnings after provision for income taxes amounted to $37,995,000, equal after preferred dividend requirements to $2.28 per share on 16,657,330 common shares outstanding on Dec. 31, 1960, following the two-for-one split in December. This represents an increase of 36% over 1959 net income of $27,910,000, which was equal to $1.70 per outstanding common share after adjusting for the 1960 split.

Operations of the A. S. Aloe Co. (acquired in 1959) and Owens Yacht Co. and Larson Boat Works (acquired in 1960) are included in the 1960 and 1959 figures on a "pooling of interests" basis. All other acquisitions are included only from the respective dates of acquisition.

Mr. Lensinger said the record results reflected increased business in almost all segments of the company's broadly diversified operations.

At the year end, Brunswick's backlogs of orders, including those for automatic pinsetters, were well ahead of a year ago. "Based on this continued high demand for our products, and barring a severe recession which does not appear likely, we anticipate that 1961 will be another year of progress for Brunswick Corp.," Mr. Bensinger stated.—V. 193, p. 907.

Buckeye Pipe Line Co.—Files Stock Plan—

The company, of 30 Broad Street, New York, filed a registration statement with the SEC on March 6, 1961, covering $375,000 of interests in its Thrift Plan for Employees, together with 6,250 shares of common stock which may be acquired pursuant thereto.—V. 191, p. 2411.

Buffalo Forge Co.—Annual Report—

Buffalo Forge's consolidated net sales were $28,608,026 for the fiscal year ended Nov. 30, 1960, vs. $26,666,755 the year before, according to the annual report released on Feb. 28 by Henry W. Wendt, Chairman of the Board, and William R. Heath, President.

Net income after taxes was $1,385,469 for the 1960 fiscal year, equal to $2.13 per share on 649,572 shares of common stock outstanding. For the year ended Nov. 30, 1959, net income totaled $1,379,033, or $2.12 per share on the same number of outstanding shares. Profit before provision for Federal taxes on income amounted to $2,664,973 for the latest fiscal year vs. $2,775,372 the year before.

Consolidated working capital increased $58,000 during the year to $10,493,561.

Messrs. Wendt and Heath stated that incoming orders for the year were up about 6% from the previous year and that the backlog of unfilled orders at Nov. 30, 1960 was up 12½% from a year earlier.

The company's programs of research and development on existing and new products were continued during the 1960 fiscal year and resulted in the introduction of improved lines in machine tools, air handling and conditioning equipment, and pumps. These improved products and intensified sales efforts, augmented by a continual survey of potential outlets, contributed to the increased rates of incoming orders, Messrs. Wendt and Heath said.

The Buffalo Forge executives indicated that both incoming orders and shipments for the current 1961 fiscal year were also running ahead of the same period of 1960.

The company for many years has manufactured industrial lines of air conditioning equipment; a diversified line of other air handling products including ventilating equipment and heavy-duty fans for industrial use; centrifugal pumps widely used in the chemical, food, paper and other industries; and special equipment for processing products of semi-tropical plantations. The company is also a major supplier of specially engineered and designed fans and pumps for Navy maritime service.

The company has plants at North Tonawanda, N. Y. and Kitchener, Ont., Canada in addition to the main plant at Buffalo.—V. 192, p. 1707.

Burnell & Co., Inc.—Acquires—

Burnell & Co., Inc., of Pelham, N. Y., an independent manufacturer of electronic filter networks and related devices, has announced acquisition of the fixed assets, inventory and name of Gray & Kuhn, Inc., Westbury, N. Y., manufacturer of delay lines, from IMC Magnetics Corporation.

In an announcement, Norman Burnell, President of Burnell & Co., and Charles Wohlstetter, Chairman of the Board of IMC Magnetics, said the sale was for cash. The price was not disclosed.

Gray & Kuhn's sales are running at an annual rate of about $400,000, Mr. Burnell said. He added that he expects substantial increases in sales in the foreseeable future as a result of a heightening demand for delay lines from the computer industry.

Gray & Kuhn will remain temporarily at its present location with present key management personnel, operating as a division of Burnell & Co. Gray & Kuhn was established by John E. Gray and John J. Kuhn who will have the titles of Chief Engineer and Operations Manager, respectivelly, in the new set-up.—V. 193, p. 4.

C. I. T. Financial Corp.—Annual Report—

C. I. T. reported on Feb. 27 record net income of $45,007,000 or $4.67 per common share, for the year 1960, compared with $43,537,000 or $4.57 per common share in 1959.

The report to stockholders disclosed that deferred income and unearned premiums, which are the backlog of future gross earnings, aggregated $219,384,000 at Dec. 31, 1960, compared with $208,211,000 a year earlier.

Arthur O. Dietz, Chairman, and L. Walter Lundell, President, stated that the favorable effect of deferred income "gives assurance the company will show satisfactory earning results in 1961." Noting that current business conditions were having an adverse impact on automobile financing and related insurance operations, the report said prospects for the coming year were encouraging in other divisions, particularly industrial financing. If the anticipated upturn in general business conditions develops by mid-year, it was predicted that consumer financing operations would improve and over-all volume for the year could be expected to reach a level comparable with that of 1960.—V. 193, p. 4.

Carrier Corp.—Net, Sales Up—

Stockholders attending the corporation's annual meeting on Feb. 28 were told by Cloud Wampler, Chairman of the Board, the first quarter net sales and earnings were slightly higher than in the corresponding period of last year and that new orders booked were up more than 14%.

For the three months ended Jan. 31, 1961 the figures were: orders booked, $66,916,000; net sales, $55,595,000; net profit, $562,000 or 17 cents per common share. The backlog of unfilled orders at the end of the quarter amounted to $88,631,000, with the increase during the year being $11 million.

The comparable figures for the first quarter of fiscal 1960 were: orders booked, $58,401,000; net sales, $54,544,000; net profit, $499,000 or 14 cents per common share. As of Jan. 31, 1960 the backlog stood at $87,565,000.

Commenting on the outlook for the remainder of the year, Mr. Wampler stated, "The operating budget of the corporation calls for a net profit substantially larger than that of last year. The over-all results for the first quarter, including the volume of new orders booked, were about as forecasted. And it is believed that earnings for the balance of the current year will be considerably better than for the same 1960 period.

"The extent of the expected profit improvement will, of course, be influenced by general business conditions which are presently less favorable than when the fiscal 1961 budget was prepared."—V. 192, p. 2608.

Central Cooperatives, Inc., Superior, Wis.—Files With Securities and Exchange Commission—

The corporation on Feb. 28, 1961 filed a letter of notification with the SEC covering $250,000 in promissory notes to be offered at $100 per unit, of which $25,000 of the notes pay 4% interest and mature in six years and $225,000 pay 5% interest and mature in nine years. No underwriting is involved.

The proceeds are to be used to retire notes maturing and for working capital.

Chock Full O' Nuts Corp.—Record Highs—

Despite the severe weather conditions which affected its restaurant business materially, the corporation achieved record earnings and sales for the six months ending Jan. 31, 1961.

Net income, after taxes, for the half year rose to $1,046,577, a gain of 11% over the $944,837 for the comparable 1960 period. Earnings per share came to 31 cents on 3,427,940 shares outstanding, against 28 cents a year earlier when 3,362,400 shares were outstanding (adjusted for a 4-for-1 stock split effective Nov. 10, 1960).

Sales amounted to $15,883,990, which was 9% above the $14,591,194 for the same 1960 period.

The company expanded into the instant coffee business shortly after Jan. 31, 1961, and sales from the new product are, therefore, not included in the first six months' report. Chock Full O'Nuts operates 34 restaurants, and roasts and markets its regular coffee for sales in 17 states.—V. 191, p. 1666.

Coastal Acceptance Corp., Manchester, N. H. — Files With Securities and Exchange Commission—

The corporation on March 1, 1961 filed a letter of notification with the SEC covering $175,000 of 10-year 7% registered series notes to be offered in varying denominations of $100 to $1,000 through Shontell & Varick, Manchester, N. H.

The proceeds are to be used for general coporate purposes.—V. 192, p. 1491.

Coastal Caribbean Oils, Inc.—Proposes Offering—

Coastal Caribbean Oils, Inc., Panama City, Republic of Panama, filed a registration statement with the SEC on March 2, 1961 covering 500,000 voting trust certificates for a like amount of common capital stock, to be offered for public sale at the market from time to time on the American Stock Exchange. No underwriting is involved.

The company has interests in undeveloped properties in Florida acquired upon its creation in 1953 as a party to a reorganization involving the transfer of the Florida assets of Pancoastal Oil Corp., C. A., to the company and of the Venezuelan assets of Pancoastal Petroleum Co., all being companies organized by the late William F. Buckley. It has no income-producing properties and substantial unrecovered costs and exploratory and administrative expenses. The Florida assets consist of the stock of Coastal Petroleum Co., a Florida corporation, together with certain advances made to that company and $450,000 in cash, which were transferred to Coastal Caribbean Oils with the Venezuelan properties in consideration of 5,790,210 shares of Coastal Caribbean Oils stock. The latter now has outstanding 7,049,495 shares. The net proceeds of this stock offering, estimated at $580,000, will be used largely by Coastal Petroleum for exploratory work and sustaining expenses of Florida properties.—V. 192, p. 2324.

Colorite Plastics, Inc.—Securities Offered—An underwriting group headed by P. W. Brooks & Co. Inc. offered on March 10, $900,000 first mortgage bonds 6½% series of Colorite Plastics, Inc., with common stock purchase warrants, at 100%, plus accrued interest, and 100,000 shares of Colorite common stock at $5 per share.

PRIVILEGE—Each $1,000 and $500 bond due 1976 will have detachable warrants for 80 shares and 40 shares, respectively, entitling holders to purchase common stock at $5 per share on or before March 1, 1965, and at $6 per share during the next four years.

REDEMPTION—The bonds are entitled to an annual sinking fund payment, commencing in 1962. The bonds are redeemable for the sinking fund at 103% on or before Feb. 1, 1970, and at the option of the company at 106% on or before Feb. 1, 1965, plus accrued interest, with successive reductions in the prices thereafter.

PROCEEDS—Net proceeds from the sale of bonds and stock will be used toward: the purchase of land, buildings and plant presently leased or occupied; retiring notes payable; the purchase of additional machinery and equipment; and for additional working capital. Proceeds from stock purchase warrants exercised will be added to working capital.

BUSINESS—Colorite Plastics makes a complete line of extruded vinyl plastic garden hose, and a wide range of custom plastic extrusions in the form of tubes, rods, strips, gaskets and specially designed shapes and sections. Located in Paterson, N. J., the company produces the polyvinyl chloride and polyethylene compounds, and certain other thermoplastic compounds, used in its own extrusion operations.—V. 193, p. 5.

Commonwealth Edison Co.—Annual Report—

The Chicago company had increased sales in 1960 despite the general business slowdown, according to the annual report issued on March 6.

The report, signed by Willis Gale, Chairman, and J. Harris Ward, President, showed that electricity sales exceeded 22 billion kilowatt-hours for the first time and were 4.0% above 1959. The three major classifications of sales—residential, commercial and industrial—all increased, showing a combined average gain of 4.6%. It was noted, however, that industrial sales in 1960 probably would not have shown an increase except for the prolonged steel strike in 1959.

Operating revenues totaled $469,429,697 in 1960 compared with $453,813,111 in 1959.

The utility's net income in 1960 was $77,926,695, equal after allowance of preferred dividends to $3.86 a share on 19,392,174 shares of common stock. This compared with $72,452,964, or $3.67 a share on 18,889,739 common shares in 1959.

"Our earnings improvement," the report stated, "should create no illusion of undue prosperity. Actually, the facts are that through rate increases, a good level of business and careful attention to efficiency, we have gradually been able to raise our earnings from a sub-standard level to a more reasonable one—but still below the full rate of return permitted by Illinois law.

"Further, we have not been hurt too much by the general business downtown of the past several months. We doubt, however, that this trend can continue indefinitely without adversely affecting our earnings. On the other hand, we are hopeful that business in general will turn up in the not too distant future, and that, for the full year 1961, we will show increases in our sales, revenues and per share earnings."

Provisions for Federal, state and local taxes in 1960 totaled a record $127,765,104, equal to 27 cents of each revenue dollar, $6.59 for each share of common stock, $9,300 for each employe, or $62 for each customer. They exceeded the total payroll for the year by almost $23,000,000.

Expenditures for new construction rose to $131,383,756 in 1960 from $100,994,936 in 1959 and gross utility plant crossed the $2 billion mark for the first time, amounting to $2,072,408,975 at the end of the year.

The utility's construction program has been extended through 1964 and for the next four years is now estimated at $640,000,000 with $160,000,000 planned in 1961; $135,000,000 in 1962; $165,000,000 in 1963; $180,000,000 in 1964. The program is subject to continuous review and modification.

Included in the construction program is a newly authorized 510,000-kilowatt generating unit to be built at the Joliet Station for service in 1964 or 1965. With the completion of this unit, and after allowance for retirement of 145,000 kilowatts of older equipment, the system's net generating capability will total 6,996,000 kilowatts compared with 5,206,000 at the end of 1960. Four other large units, one of the 510,000-kilowatt size and three of the 305,000-kilowatt size, are now in various stages of construction.

"To help finance our $640,000,000 construction program for the four years," said the report, "we expect to have to sell approximately $150,000,000 of additional securities.

"Although not now planned, provision for some part of this financing requirement may be made by a debenture or first mortgage bond issue in 1961. Otherwise, the additional financing schedule is now estimated at approximately $40,000,000 in 1962, $50,000,000 in 1963 and $60,000,000 in 1964.

"It is estimated that about $490,000,000 will be provided for our four-year program from cash internally generated during the period, cash on hand at the beginning of the period and other sources."—V. 192, p. 1812.

Congoleum-Nairn Inc.—Annual Report—

Net sales of Congoleum-Nairn Inc. were $41,066,000 in 1960, compared with $47,763,000 in 1959, according to the company's annual report released on Feb. 24. Operations for the year resulted in a net loss of $469,000. The comparative results for 1960 and 1959 are as follows:

	1960	1959
Net sales	$41,066,000	$47,763,000
Net profit (loss)	*$(469,000)	‡$556,000

*In 1960, $9,000,000 was charged to earned surplus in connection with provision for write-downs of plant and equipment for estimated expenses of consolidation of operations and changes in product lines.
ment for estimated expenses of consolidated of operations and cnanges in product lines.

‡No provision for Federal income taxes was required in 1959 because of a loss carry forward available for income tax purposes.

In the annual report, F. H. Cook, President, announced the adoption by the board of directors of a plan aimed at the specific targets of (a) consolidation and realignment of operations to increase efficiencies and reduce expenses and (b) more effective concentration on products affording greater volume and profit potential. Incident to the approval of the plan, the company's directors authorized provision for write-downs of plant and equipment that would be affected by the execution of the plan, as well as for estimated expenses of consolidation of operations and changes in product lines, as follows: plant and equipment—$5,330,000; and expenses of consolidation and changes in product lines—$3,670,000.

It was also announced in the annual report that, pursuant to an amendment to the Term Loan Agreement between the company and The Prudential Insurance Company of America, the restriction against the payment of dividends, in the amount of $2,465,000 at Dec. 31, 1960, had been eliminated. Under the revised provisions of the Term Loan Agreement, 70% of the consolidated net earnings of the company and its subsidiaries, from and after Dec. 31, 1961, will be available for dividends, subject to standard conditions.

In describing these moves as "a turning point in the affairs of the company," Mr. Cook added that, although the steps called for will take many months to complete and will impose interim burdens upon operations, they should, "significantly accelerate the attainment of profitable operations and make the company less vulnerable to economic downturns."—V. 188, p. 1716.

Consolidation Coal Co.—Acquires Mine—Files Investment Plan—

Consolidation Coal Co. announced on March 2 that it has acquired from the Pittston Co. the Crucible Mine, formerly owned by the Crucible Steel Co. The mine is located in the town of Crucible in Greene County, Pa.

An official of Consolidation Coal said that the property has been acquired to provide Consol with additional reserves of high quality, metallurigical coal located near Pittsburgh on the Monongahela River.

No plans are in prospect for immediate operation of the presently idle mine.

This company, of 436 Seventh Ave., Pittsburgh, Pa., filed a registration statement with the SEC on March 6, 1961, covering $3,000,000 of Participations in its Investment Plan for Salaried Employees, together with 100,000 shares of common stock which may be acquired pursuant thereto.—V. 193, p. 1013.

Contract Battery Manufacturing Co., Tampa, Florida—Files With Securities and Exchange Commission—

The company on Feb. 28, 1961 filed a letter of notification with the SEC covering 10,000 shares of common stock (par $10) to be offered at $15 per share, without underwriting.

The proceeds are to be used for manufacturing facilities.

Cook Coffee Co.—Sales, Net Up—

This Cleveland, Ohio company, which operates home service routes and Pick-N-Pay Super Markets, reported all-time record sales of $107,973,673 for 1960, up 15.4% from 1959's $93,527,499.

Net income per share for 1960 was $1.24 which compares with $1.17 per share plus a net after tax of 12 cents per share from the sale of the company's former headquarters or a total of $1.29 for 1959.—V. 193, p. 701.

Dayton Plastics, Inc.—Common Capital Stock Offered—Pursuant to a March 7 offering circular, this corporation publicly offered, without underwriting, for a period of 60 days, 100,000 shares of its $.3175 par common capital stock at $3 per share.

BUSINESS—Dayton Plastics, Inc. was incorporated June 15, 1950 under the laws of the State of Ohio. It is successor to the business formerly conducted by Carleton R. Elliott as a sole proprietorship under his own name.

At the time of incorporation the company occupied premises at 1517 East Third St., Dayton, Ohio. One year later it moved to larger quarters at 215 North St. Claire St., Dayton, Ohio. In December, 1953 the company moved to its present quarters at 1934 Stanley Ave., Dayton, Ohio. In November, 1956 the company opened a branch warehouse and sales office at 1037 McKinley Ave., Columbus, Ohio.

The company is engaged in the warehousing and distribution of plastic materials in standard shapes, such as sheets, rods, tubing and film. The company maintains a manufacturing department for the fabrication of almost any desired application out of standard shapes and forms.

Sales of the company's products are primarily made to the commercial industrial market.

PROCEEDS—The proceeds will be used for expansion, marketing, and debt reduction.

Diana Stores Corp.—Report—

Diana Stores, national women's and children's apparel chain, reported net income after taxes of $504,300 or 59 cents a share for the six months ended Jan. 31, 1961, compared with $688,109 or 81 thes ix months ended Jan. 31, 1961, compared with $688,109 or 31 cents a share for the first half of the previous fiscal year, according to Samuel D. May, President.

Half-year sales, previously reported, were $26,358,079 for the six months to Jan. 31, 1961, against $28,066,200 for the first half of the 1960 fiscal year, a decrease of 6.1%, reflecting the economic recession and reduced tourist traffic in normally profitable winter resort areas, such as Florida.

Number of stores currently in operation is 294, including three new discount units. Several new Diana Shops will be opened in suburban shopping centers by the end of 1961, with three additional self-service discount department stores scheduled for fall openings. The company is planning to expand further in this field by taking additional leases for 1962.—V. 193, p. 701.

Diversified Collateral Corp.—Hearing Request Granted

The Commission has granted a request of Diversified Collateral Corporation, 420 Lincoln Road, Miami Beach, Fla., for a hearing on the question whether to vacate or make permanent the Feb. 10, 1961, order of the Commission temporarily suspending a Regulation A exemption from Securities Act registration with respect to a public offering of 75,000 common shares of said corporation at $4 per share pursuant to a notification filed in February 1960. The suspension order asserted that the corporation's offering circular failed to disclose certain material facts, including the names of two underwriting firms which participated in the stock distribution and the relationship of the issuer to such firms, and that the offering through one of such firms operated as a fraud and deceit upon the purchaser by reason of its failure to deliver shares to purchasers and to remit the proceeds to the issuer.—V. 193, p. 805.

Emmer Glass Corp.—Offering and Secondary—

Emmer Glass Corp. of 6250 N. W. 25th Avenue, Miami, Fla., filed a registration statement with the SEC on March 8, 1961, covering 190,000 shares of class A common stock, of which 160,000 shares are to be offered for public sale by the company and 30,000 shares, being outstanding stock, by the present holder thereof. The shares are to be offered for sale at $4 per share through underwriters headed by Clayton Securities Corp., which will receive a 45 cents per share commission. The selling stockholder, Jack M. Emmer, President, has sold to the principal underwriter 10,000 shares of class B common stock, series I (convertible into 10,000 class A shares), at 10 cents per share. Of this stock, 5,000 shares are to be resold to Floyd D. Cerf, Jr. Co. Inc., which also will receive a fee of $15,200.

The company and its subsidiaries are primarily engaged in the sale of glass, metal, fiber, plastic and specially fabricated containers; caps and closures thereto; packaging, filling and capping equipment; and of housewares, garden supplies and patio accessories. Of the $524,230 net proceeds from the company's sale of additional stock, $86,000 will be applied to retire loans payable to banks; $130,400 to retire loans due to Emmer and companies of which he is the sole owner; $59,600 to pay sums due companies of which Emmer is the sole owner in payment of accrued rent for properties occupied by the company; and the balance will be added to general funds and may be applied to corporate purposes including the carrying of inventories, payment of operating expenses, and the carrying of accounts receivable.

In addition to certain indebtedness, the company has outstanding 70,000 class A and 170,000 class B shares. Emmer owns 100% of the class A and 94.12% of the class B shares, and proposes to sell 30,000 class A shares. After the public sale of the 190,000 class A shares, Emmer will own 17.39% of the outstanding class A shares and 94.12% of the class B shares, or a total of 50% of the voting securities of the company. Class B shares are convertible into class A shares on a share-for-share basis.

Equitable Investment Corp.—Debentures Offered—Equitable Investment Corp., Columbus, Ohio, engaged, with its subsidiaries, in all areas of real estate development and investment, has issued $1,500,000 of 12-year 6% sinking fund debentures.

FEATURES—The debentures, underwritten by The Ohio Company, Columbus, are offered solely to Ohioans, and are priced at par, plus accrued interest to yield 6%. They carry attached warrants permitting holders to buy 24 shares of class A common stock per $1,000 debenture (12 shares per $500 debenture) at $20, $22, and $24 per share during stipulated periods over the next three years.

PROCEEDS—Proceeds, along with proceeds from an issue of 50,000 shares of Equitable's class A common stock, offered and sold last month by The Ohio Co., will be used to finance expanding operations.

BUSINESS—Equitable is engaged in a $4 million urban renewal program in Cincinnati, and is the selected redeveloper for programs at Newport, Ky., and Kansas City, Mo., totaling $9 million in costs. The firm has a number of projects, including land development, and construction of apartment and commercial buildings, planned or under way.

HISTORY—Equitable was formed in 1956. Since then total income has increased more than 15 times, income after taxes has grown more than 11 times and assets have increased more than 22 times. Each debenture of this issue is backed by net tangible assets of more than $1,570.—V. 193, p. 1014.

Essex Fund, Inc.—Registers Capital Stock—

Essex Fund Inc., 35 Congress Street, Boston, Mass., filed a registration statement with the SEC on March 6, 1961, covering 1,000,000 shares of capital stock, to be offered to bona fide residents of Massachusetts, at $10 per share, for a period of three months, during which time no underwriting discounts or commissions will be paid. After termination of said three months the shares are to be offered for public sale at their net asset value plus a sales charge of 8¾%.

The Fund is a diversified open-end investment company which was organized under Massachusetts law in March 1961 by Fidelity Management & Research Co., its investment adviser. The Crosby Corp., a wholly owned subsidiary of the investment adviser, is the Fund's distributor. The stated purpose of the Fund is to seek possible growth of capital primarily through a portfolio of securities not listed on a national securities exchange but traded in the "over-the-counter" market. Edward C. Johnson 2d is listed as Board Chairman and President of the Fund, and as President and Vice-President, respectively, of the Fund's adviser and distributor.

Falstaff Brewing Corp.—To Acquire—

This St. Louis, Mo., corporation will purchase the malting and other physical properties of Albert Schwill & Co., according to an agreement announced on March 2 by Harvey Beffa, Executive Vice-President and General Manager of Falstaff, and Frederick E. Raraty, Schwill President.

The purchase, subject to the approval of Schwill's stockholders, is to become effective June 30 of this year. The price was not disclosed.

Malting operations at the Schwill plant in south Chicago, Ill., will continue, with no employee changes contemplated by the new owner. Capacity of the plant is in excess of 4,000,000 bushels annually.

Barley malt is a primary ingredient in the brewing process. Falstaff, which ranks third in the brewing industry with sales in 1960 of 4,915,000 barrels, will utilize production of the Schwill plant in its own operations. Falstaff has eight brewing plants located in St. Louis, Mo., Omaha, Neb., New Orleans, La., San Jose, Calif., Fort Wayne, Ind., and Galveston and El Paso, Texas.—V. 192, p. 701.

Farmbest, Inc.—Proposes Offering—

Farmbest, Inc., Denison, Iowa, filed a registration statement with the SEC on March 2, 1961 covering registration of 6,000 shares of common stock ($1 par—non-dividend bearing) and $200,000 of retain capital certificates (non-dividend bearing—15 years). It is proposed to offer the common stock at $1 per share and the certificates at $0.25 per unit. No underwriting is involved. The stock is to be sold only to producers of agricultural products and cooperative associations of such producers, so as to give them an ownership interest and membership in Farmbest, which is a cooperative marketing and purchasing association organized in June 1959 under the laws of Kansas by the Consumers Cooperative Association for the purpose of providing a cooperatively controlled marketing and processing program for farmers. In August 1959 Farmbest acquired Crawford County Packing Co., of Denison, Iowa, and after its merger into Farmbest the latter will begin to operate as a cooperative marketing and porcessing association in Iowa. Sale of stock will entitle purchasing swine producers to participate in election of directors and to share in any net margins refundable to patrons. The sale of retail capital certificates will be for the purpose of financing the addition of facilities for producing finished pork products for the retail market and other improvements.—V. 190, p. 1628.

Fashion Frocks, Inc.—Seeks Reporting Exemption—

Fashion Frocks, Inc., of Cincinnati, Ohio, has applied to the SEC pursuant to Rule 15d-20 under the Securities Exchange Act of 1934, for an order exempting it from the requirements of Section 15(d) of the Act for the filing of annual and other periodic reports; and the Commission has issued an order giving interested persons until March 27, 1961, to request a hearing thereon.

In connection with the registration of common shares in November 1946, Fashion Frocks made an undertaking to file annual and other periodic reports to keep the information therein current. The present exemption application states that the company now has outstanding 1,000 shares of second preferred stock held by one person and 444,491 shares of common stock held by 49 persons; and the application asserts that, in view of the limited number of shareholders, the filing of reports is not necessary in the public interest or for the protection of investors.

Fashion Originals, Inc., Seattle, Wash.—Registers—

The corporation on Feb. 18, 1961 filed a letter of notification with the SEC covering 500 shares of common stock to be offered at par ($50 per share), without underwriting.

The proceeds are to be used for business expenses and a reserve fund.

Federal Paper Board Co., Inc.—To Acquire—

This Bogota, N. J. company plans to acquire, through merger, the Worcester Paper Box Corp., of Medford, Mass.

The acquisition, which will be effected through an exchange of shares, has been ratified by the directors of both companies, and will be submitted for approval to stockholders of Federal at their annual meeting on April 18. Only stockholders of record on March 16 are entitled to vote. The Worcester stock is privately held.

Sales for Worcester's fiscal year ended Nov. 30, 1960, totaled $7,276,000 while Federal's 1960 sales amounted to $83,148,000.

The merger agreement provides for the exchange of 25,000 shares of Federal common stock and 69,820 shares of its 4.6% cumulative preferred stock for 800 shares of common stock of Worcester held by the principal stockholder and his wife. In addition, the remaining 200 common shares of Worcester, held by a college, will be converted into $600,000 aggregate amount of 4½% short-term notes of Federal.

Subject to stockholder approval of the merger agreement, Federal will create, for future use, 500,000 shares of a new class of cumulative second preferred stock without par value. The new stock, which will be subordinate to the 4.6% preferred, can be issued by the directors for public sale or in connection with future acquisitions. It will make possible prompt action on favorable acquisition opportunities.—V. 192, p. 304.

Federal Street Fund, Inc.—Seeks Order—

This Boston investment company has filed an application with the SEC under the Investment Company Act seeking an exemption order with respect to certain transactions with affiliates; and the SEC has issued an order giving interested persons until March 21, 1961, to request a hearing thereon. The Fund has solicited the deposit by investors of various securities in a tax-free exchange for the Fund's shares. Securities with a tax basis of $13,221,849 and a market value as of Feb. 23, 1961, of $168,530,689 have been deposited by 691 depositors. A report thereon has been sent to depositors, who may withdraw any or all of their deposited securities at any time prior to the close of business on March 21, 1961. Thereafter, the exchange of Fund shares for such securities will be consummated. Two of the depositors are directors of the Fund, namely, Henry Ford II who deposited 8,000 shares of Ford Motor Co. stock and Paul C. Cabot who deposited 235 shares of Superior Oil Co. stock; and a third director, Richard Saltonstall, is one of three trustees of a trust which has deposited 2,500 shares of Niaga-Mohawk Power Corp. stock. The present applicant seeks a Commission order exempting the issuance of Fund shares for these securities to the extent the transactions may be prohibited by the Act by reason of the affiliation of the directors with the Fund.—V. 192, p. 2325.

Filtra-Sonic Corp., Burbank, Calif.—Files With SEC—

The corporation on Feb. 27, 1961 filed a letter of notification with the SEC covering 51,250 shares of common stock (par 50 cents) to be offered at $4 per share, through Gregory-Massari, Inc., Beverly Hills, Calif.

Flintkote Co.—Registers Debentures—

Flintkote, of 30 Rockefeller Plaza, New York 20, N. Y. filed a registration statement on March 9 with the Securities and Exchange Commission covering a proposed public offering of $35,000,000 sinking fund debentures due April 1, 1981. The underwriting will be managed by Lehman Brothers. The offering is expected around the middle of April.

The proceeds from the sale of the debentures will initially be added to the general funds of the company. Approximately $28,000,000 will be used in connection with a proposed asbestos-cement pipe plant, a gypsum board product plant, gypsum rock conveying and dock facilities in Newfoundland, Canada and a cement plant now under construction at Reading, Calif. A portion will also be used for the payment of an outstanding obligation of approximately $2,000,000 and the balance will be added to working capital and used for general corporate purposes.

Flintkote is engaged directly or through subsidiaries in the manufacture, mining, distribution and sale of various products for construction, industrial and consumer uses. The company is one of the largest domestic producers of a diversified line of materials used in construction, renovation and repair of residential and industrial buildings and roads and is a producer of paper products and corrugated containers. The company has 12 principal sales offices in the United States and maintains district sales offices and warehouse facilities at 30 locations in the United States. There are four principal foreign sales offices located in Canada and one in London, Eng.—V. 193, p. 702.

Florida Capital Corp.—Loan Cleared—

The SEC has issued an exemption order under the Investment Company Act permitting Florida Capital Corp., West Palm Beach, to make a $200,000 debenture loan to North Palm Beach Utilities, Inc. The funds will be used by the latter to extend its water and sewer lines under agreements with various developers who own property in its franchised area.—V. 193, p. 806.

General Acceptance Corp.—Record Highs—

New highs in both volume and earnings were established by the corporation in the year ended Dec. 31, 1960, F. R. Wills, President, announced on Feb. 28. Volume showed a 22% gain over 1959 while net income rose 16%.

Total volume during 1960 amounted to $335,092,696, compared with $274,774,664 in the previous year.

After provision for taxes, net income was $3,036,027, equal after preferred dividends to $1.52 per share on the average of 1,601,652 common shares outstanding. This compares with $2,620,285, or $1.47 per share on the average of 1,455,481 common shares outstanding in 1959. Two acquisitions and the conversion of outstanding debentures into common stock accounted for the increase in the number of shares outstanding in 1960.

Mr. Wills said the record volume and earnings reflected improvements in both the financing and insurance segments of the company's business. The gain in volume was proportionately higher than income because certain non-recurring charges reduced net profits for the year by the equivalent of 15 cents per share.

On Dec. 31, 1960, General Acceptance had a network of 237 offices across the country, compared with 208 a year earlier. With the completion of the acquisition of S. W. Coe & Co., a personal loan company headquartered in Springfield, Ill., General Acceptance Corp. will have a total of 268 offices in operation in 32 states and Puerto Rico.

"This marked expansion in our office network should add significantly to our prospects for the current year," Mr. Wills said. "If the economy improves according to predictions, and with interest rates eased, 1961 should be another record year for General Acceptance."—V. 193, p. 493.

General Economics Corp.—Files for Offering—

This corporation, 130 West 42nd Street, New York, filed a registration statement with the SEC on March 8, 1961, covering 130,000 shares of common stock, to be offered for public sale at $5 per

share. The shares will be offered directly to the public by officers and directors of the company for which no commissions will be paid, and through brokers and dealers (including First Continental Planning, Inc., a wholly-owned subsidiary of the company) who are members of the National Association of Securities Dealers, Inc., for which a 40 cents per share selling commission will be paid.

The company was organized under Delaware law in January, 1961, and is successor to Axelrod-Lenel Agency Corp., formerly First Continental Agency, Inc., organized in 1960. The company, directly and through its subsidiaries, is active in the Over-the-Counter Market as both broker and principal, sells mutual funds securities and life insurance, and finances the payment of life insurance premiums. It may also act as an underwriter. According to the prospectus, the company has filed for registration as a broker-dealer with the Commission and the NASD. The net proceeds from the stock sale will be added to working capital.

The company has outstanding 260,000 shares of common stock, of which Leonard I. Axelrod, President, and Nelson Axelrod, Vice-President, own 50% each. They obtained such shares for their holdings of all of the outstanding stock of the predecessor company.

Georgia-Pacific Corp.—Record Highs—

The highest sales, earnings, and cash flow in the history of the corporation were reported on Feb. 27 in the company's 1960 annual report. This record was established despite what Owen R. Cheatham, Chairman, and Robert B. Pamplin, President, call a "difficult year."

Net sales of Georgia-Pacific for the year are reported at $221,997,000 compared with $210,555,000 in 1959. Net income is shown at $15,210,000 compared with $15,070,000 for the previous year. Net cash generated from operations was $40,030,000 compared with the 1959 figure of $40,003,000. Based on the average number of shares outstanding, net profit was $2.45 a share for 1960 compared with $2.51 in 1959. Cash flow was $6.56 compared with $6.71 for the previous year. Comparisons reflect inclusion of the operations of W. M. Ritter Lumber Company and Plywood Products Corp. in both years.

The record totals are attributed by the Georgia-Pacific officers to the company's building and modernization program plus the integration of Georgia-Pacific's plants and distribution facilities with its timber resources. "This program, started about five years ago, is nearly completed except as to the properties acquired in 1960," the letter to stockholders states.

Three major properties were acquired in 1960, according to the report: first, the Pilot Rock Lumber Co., located in eastern Oregon and including approximately 100,000 acres of timberland (principally Ponderosa Pine) and related logging and manufacturing facilities; second, pooling of the interests of Plywood Products Corp. with Georgia-Pacific which resulted in vesting in Georgia-Pacific all aspects of a joint operation for the manufacture of sheathing plywood; third, the merger into Georgia-Pacific of the former W. M. Ritter Lumber Company including approximately 300,000 acres of land, principally in West Virginia and Virginia, of which about 220,500 acres contain high-grade Appalachian and Southern hardwoods plus valuable reserves of metallurgical coal and natural gas.

During 1960 the capacity of the corporation's pulp and containerboard plant at Toledo, Ore. was doubled. A new plywood plant was constructed at Springfield, Ore.; five new sales branches were added to the nationwide distribution system; and construction was started on a Fiber-Ply plant a Springfield, Ore. and a kraft containerboard converting plant at Olympia, Wash., both to be completed in early 1961.

The growth of demand for Georgia-Pacific's principal products has been outstanding, Mr. Cheatham and Mr. Pamplin state, and the prospects are excellent for a continuation of this trend. The report contains a chart showing demand for fir plywood over the past 10 years has almost tripled, and demand for kraft paper, board, and pulp has been growing at a rapid rate. "We intend to maintain our position in both industries," say the officers, "and, with the anticipated pick-up in demand during 1961, we expect improvement in market conditions."

"We will continue to emphasize our research program which, in 1960, developed a number of new products expected to increase both sales and profits. We are continuing studies for a large pulp and paper plant at Samoa, Calif., for which plant site and water resources have already been provided. Our present plans look to the commencement of construction in 1962 or soon thereafter."

Georgia-Pacific is one of the largest integrated forest products companies and produces a wide range of products including plywood, paper, containerboard, redwood lumber and specialties, hardboard, lumber, chemicals, and a wide range of specialty products.—V. 193, p. 7.

Gould-National Batteries, Inc.—Jt. Research Program

Albert H. Dagget, Chairman of the Board of Gould-National, has announced the signing of a contract with the Pure Oil Co., for a joint research program on fuel cells and fuels.

In making the announcement, Mr. Daggett further stated that the program will be under the direction of Dr. Royce E. Biddick, a member of the Gould-National research staff since 1960.

"We initiated this program to develop a practical power generator that will compete on even terms with older forms of power production such as the internal combustion engine. Now, because of the widespread interest in these cells," Daggett said, "both by industry and the general public, our program has beeen accelerated. However, much experimental fork remains to be done before the fuel cell can be practically applied to any important extent."—V. 193, p. 1015.

Guaranty National Insurance Co., Denver, Colo.—Files With Securities and Exchange Commission—

The company on Feb. 27, 1961 filed a letter of notification with the SEC covering 120,000 shares of common stock (par 50 cents) to be offered at $2.50 per share, through Copley & Co., Colorado Springs, Colorado.

The proceeds are to be used to invest in assets and for company operations.—V. 186, p. 729.

Guild Musical Instrument Corp.—Common Stock Offered—Public offering of 110,000 shares of the common stock of Guild Musical Instrument Corp. was made on March 8 at $3 per share by an underwriting group headed by Michael G. Kletz & Co., Inc. The offering marked the first public sale of the company's common stock. The offering sold quickly at a premium.

PROCEEDS—Net proceeds from the sale of the common stock will be added initially to the company's general funds, and will subsequently be applied to a variety of corporate purposes including: retirement of short-term bank loan; purchase of new machinery and equipment; increase inventories; and development of new sales areas with a larger sales staff. Balance of the proceeds will provide additional working capital to permit an increase in the company's volume of business and an expansion of its product lines.

BUSINESS—Guild Musical Instrument Corp., incorporated in 1952, manufactures guitars, accordion and guitar amplifiers, and distributes accordions, organs and accessory units throughout the United States and Canada. Principal offices of the company are located in Hoboken, New Jersey.

CAPITALIZATION—Upon completion of the current financing, capitalization of the company will consist of 324,500 shares of common stock. For the three month period ended Dec. 31, 1960, the approximate consolidated sales of the company and its affiliated companies were $318,045. For the fiscal year ended Sept. 30, 1960, consolidated sales amounted to $918,010.

Associated in the offering group are: Rittmaster, Adelberg, Voisin & Co.; Godfrey, Hamilton, Magnus & Co. Inc.; Lieberbaum & Co.; Arthur B. Hogan Inc.—V. 192, p. 1710.

Gulf Guaranty Land & Title Co.—Securities Offered—Pursuant to a March 8 prospectus, an underwriting group headed by Street & Co., Inc., 44 Wall Street, New York City, publicly offered 7,500 units of this firm's securities. Each unit consisted of $100 principal amount of 7% convertible subordinated debentures, due 1968, and 20 shares of $1 par common stock. The units were priced at $200 each.

BUSINESS—Gulf was incorporated under the laws of the State of Florida in July, 1957. Since the beginning of sales operations in January, 1958, the company had sold as of Nov. 30, 1960 about 7,300 acres of land, principally under installment contracts. The company's principal business is the development of large tracts of unimproved land into a planned community in which it offers for sale homesites, multiple dwelling sites and commercial and industrial lots. The company is also engaged in the construction of houses at Cape Coral, and through its wholly-owned subsidiary, Fort Myers Construction Co., in the clearing and draining of land, the construction of roads and waterways, and through another wholly-owned subsidiary, Surety Acceptance Corp., in the operation of a motel and restaurant in the Cape Coral development. Another wholly-owned subsidiary, Cape Coral Realty, Inc., is engaged in local real estate brokerage operations at Cape Coral. In addition, the company has recently acquired, through a wholly-owned subsidiary, Collgerry Realty, Inc., approximately 26,250 acres of unimproved land near Naples, in Collier County, Fla.

The principal executive office of the company is at 557 N. E. 81st St., Miami.

PROCEEDS—The company expects to receive net proceeds of approximately $1,227,875 (after deduction of estimated expenses of $64,000) from the sale of the securities. Of these proceeds, the company presently contemplates using $132,500 in payment of an indebtedness which will be in that amount on March 31, 1961, held by Commercial Credit Acceptance Corp., which indebtedness was incurred in December, 1959 and July, 1960 to provide the company with additional working capital; $354,420 to pay an installment in that amount which is to fall due on April 1, 1961 under the purchase money mortgage on the company's property near Naples, Fla.; $150,000 to complete the first phase of construction of a Yacht Club and recreational facilities; $300,000 on the construction of interim water and sewerage systems to serve a section of property, subject to FHA approval of plans; $290,000 toward the construction of an 18-hole golf course which is estimated to have a total cost of $325,000; and the balance for general corporate purposes.

H & B American Corp.—Acquires—

David E. Bright, Chairman of the Board and President, announced on March 2 the conclusion of purchase agreements for the acquisition of three additional community antenna television systems.

The properties, to be acquired by H & B's recently organized subsidiary Transcontinent Communications Systems, Inc., are located in Missoula and White Fish, Mont. and in Prescott, Ariz. They deliver off the air television programs directly into the homes of local residents who are unable to enjoy good television reception due to the shielding effect of high mountains or are located at normal TV's extreme range. Subscribers to such community antenna television systems pay a monthly service charge plus an initial hook up fee. More than 900 similar systems operate in 44 states serving about 2.6 million TV viewers.

Mr. Bright stated that H & B is paying approximately $1,300,000 for the three properties plus an intercity common carrier microwave relay system that serves the same communities. He added that with these acquisitions the company will have about $6.5 million invested in the CATV industry making the firm the largest single entity in the field. H & B American stock is traded on the American Stock Exchange.

Mr. Bright also reported that H & B's operating income represents earnings of 11 cents per share before depreciation and taxes on sales of $2,569,291 compared to a loss of 8 cents per share on sales of $5,308,345 for the six months' period ending Jan. 30, 1960. He added that additional acquisitions will be announced as soon as pending negotiations are concluded. The company intends to energetically pursue investment opportunities in the CATV field which was described as a high "cash flow" service industry with unlimited opportunities for further development.—V. 192, p. 2121.

Hat Corp. of America — Sales, Net Down — Capital Changes—

At the annual meeting of stockholders held Feb. 23, Bernard L. Salesky, President, reported net sales of $5,898,331 for the first quarter ended Jan. 31, 1961, after deducting returns, discounts and allowances. Net income was $164,975 after provision of $179,025 for Federal income taxes.

In the first quarter of 1960, net sales were $6,975,034 and net income was $355,451 after provision of $347,925 for Federal income taxes. The net income in the current quarter, after provision for the regular dividend on the preferred stock, was $.16 per share. In the corresponding period of the preceding fiscal year, net income, computed on the number of shares of common stock presently outstanding, was equivalent to $.39 per share; on the number of shares then outstanding, net income was $.43 per share.

Mr. Salesky attributed the decline in sales and earnings to the current business recession and to the prolonged bad weather which retarded retail sales and caused retailers to reduce inventories. He stated that he saw in the results attained in the face of the e adverse conditions a favorable indication of the company's real business strength. Dealer hat inventories are now at a low ebb. The introduction of new colors, textures and finishes in the Fall styles, combined with a favorable turn in the weather, should lead to an upturn in wholesale sales in the near future.

Regarding Fashion Park, Inc., Mr. Salesky stated that deposits of stock were being received and that he anticipated sufficient deposits to consummate the acquisition by the March 15, 1961 expiration date. Plans for the development and revitalization of this ousiness are being formulated along the same lines that have proven successful in promoting the growth of Hat Corp.

The stockholders also authorized conversion of the outstanding 4½% cumulative preferred stock into a new preferred stock, 5% cumulative series, on a share-for-share basis, as well as an increase in the authorized preferred stock from 85,560 shares to 120,000 shares, and of the common stock from 1,250,000 shares to 2,000,000 shares.—V. 193, p. 807.

Hexcel Products Inc.—Forecast—

Roger C. Steele, President of Hexcel Products Inc., forecast a "gradual improvement in sales and profits" for 1961 at the annual shareholders meeting on Feb. 28.

Outlining Hexcel's long-term plans toward diversification, Steele said the company would continue to broaden product lines through research and acquisition. The company is the world's largest producer of honeycomb materials.

The shareholders were familiarized with Hexcel's contributions in a broad range of projects, from space vehicles to boat building. Steele said that the company has initiated accelerated programs in such related fields as luminous ceiling material, paper and stainless steel honeycomb and the marketing and development of high quality foams, coatings and allied products through the acquisiiton last year of Allied Plastics Co., of El Segundo, Calif., now a division of Hexcel. —V. 192, p. 114.

Howe Sound Co.—Acquires—

Howe Sound has acquired for cash the Electric Wire Co. Inc., manufacturers of fine wire, according to an announcement made on Feb. 27 by William M. Weaver, Jr., President.

Electric Wire's plant and office facilities are located in Northampton, Mass. The company is a producer of stainless steel wire, bronze, brass, silver and special alloy wire used in such end products as missiles, aircraft, electronic equipment, filters, springs, electric brushes and cable. Equipped with one of the most modern plants in the wire industry, the company is able to manufacture a wide variety of highly specialized wire products.

According to Mr. Weaver, the company has had a good growth record since its founding in 1947 and has an excellent product line. Mr. Weaver said the acquisition of the Electric Wire Co. is a further step in the integration of Howe Sound product lines. "This acquisition," added Mr. Weaver, "enables us to enter the specialty wire field. We will be able to utilize our present sales and raw materials facilities effectively in conjunction with the acquisition." He stated the specialty wire field is a growing industry and that sales from the new acquisition are expected to make an effective contribution to overall Howe Sound Co. volume in 1961. The company will operate under its present management as part of Howe Sound's Super Alloy Products Division.—V. 192, p. 1913.

Independent Telephone Corp.—Proposes Offering—

The corporation, 25-27 South Street, Dryden, N. Y., filed a registration statement with the SEC on March 8, 1961, covering 350,000 shares of common stock, to be offered for public sale through underwriters headed by Burnham & Co. The public offering price and underwriting terms are to be supplied by amendment.

The company is in the business of acquiring, owning and holding controlling interests in telephone operating companies and rendering financial, management and other services to such subsidiaries. It currently controls 11 telephone operating companies in New York, Michigan, New Jersey, New York and West Virginia. It also has options to acquire controlling interests in four other operating companies in New York State. Net proceeds of the sale of the additional stock will be used as follows: $189,500 to repay bank loans; $539,400 to make advances to and/or investments in subsidiaries, to be applied by them to reduction of short-term debt incurred for construction, to purchase common stocks or assets of operating companies, and for additional expenditures in connection with their acquisition or construction programs; and the balance for the general corporate purpose. The company intends to acquire controlling or minority interests in stocks of other telephone operating companies, either through an exchange of shares or for cash.

According to its prospectus, the company now has outstanding 378,567 shares of common stock in addition to 15,136 shares of $10 par preferred and certain indebtedness. Management officials own 33% of the preferred and 14% of the common. The prospectus lists William B. Harrison as President.—V. 193, p. 379.

The company on Feb. 17, 1961 filed a letter of notification with the SEC covering 2,331,348 shares of assessable common stock to be offered at par (10 cents per share), without underwriting.

The proceeds are to be used to pay taxes, licenses, etc., repayment of a note and the balance due on a mill and equipment and for working capital.

International Minerals & Chemical Corp.—Acquires—

Bioferm Corp. of Wasco, Calif., active in the field of microbiological fermentation, has been acquired by this corporation, of Skokie, Ill., by an exchange of 80,000 shares of IMC stock for all the outstanding shares of Bioferm stock.

Bioferm will operate under the Amino Division, which manufactures and markets the food-flavor enhancer, Ac'cent. IMC is the world's largest private producer of plant food ingredients and a major producer of the feed ingredient, dicalcium phosphate.

Bioferm is a producer of vitamin B-12, used both as a pharmaceutical and an agricultural feed ingredient. The company also has processes for antibiotics for the feed industry, and has recently developed a microbial insecticide.—V. 193, p. 494.

International Photocopy Corp., Chicago 6, Ill. — Files With Securities and Exchange Commission—

The corporation on Feb. 28, 1961 filed a letter of notification with the SEC covering 100,000 shares of common stock (par 20 cents) to be offered at $3 per share by J. J. Krieger & Co., Inc., New York, N. Y.

The proceeds are to be used for the purchase of component parts; research and development of photocopier; reduction of accounts payable; expenses of new distributorships; retirement of a bank loan; retirement of a short-term loan; and for general corporate purposes.

International Utilities Corp.—Files Exchange Offer—

This corporation, 200 University Avenue, Toronto, Ontario, Canada, filed a registration statement with the SEC on March 7, 1961 covering 184,211 shares of $2 convertible preferred stock, $25 par. The company proposes to offer such stock to shareholders of Northland Utilities Limited of record on April 4, 1961 on the following basis: 1 share for 2 Northland common shares; 2½ shares for 1 Northland 5½% cumulative redeemable preferred share; and 1¼ shares for 1 Northland 5% cumulative redeemable preferred share. The offer will expire about May 11.

International Utilities is a holding company whose principal business is the ownership of shares of public utilities operating in western Canada. It has outstanding 405,000 shares of the $2 convertible preferred stock and 2,464,931 shares of common stock. Organized in 1945 under the laws of the Province of Alberta, Northland Utilities supplies electric service to 36 communities in northern Alberta, the Northwest Territories and the Province of Saskatchewan. A subsidiary serves Uranium City in Saskatchewan; and, in addition, electric service is supplied through 30 rural electrification associations to more than 2,200 farms in the Peace River and Athabasca area of Alberta. In the event International Utilities acquires not less than 51% of its voting stock pursuant to this exchange offer, Northland Utilities will be operated as a subsidiary. International Utilities now owns 13,085 shares of its common stock.—V. 193, p. 201.

Interstate Power Co.—Annual Report—

The company's net income rose to a record high of $4,512,819 in 1960, an increase of $154,630 over 1959, according to the utility's Annual Report just released to the more than 21,500 stockholders.

A substantial increase in net income was necessary to provide a reasonable return on the company's total investment, which includes the $8,126,873 in net plant and property additions made during 1960, the report states.

The earnings on the 3,237,333 shares of common stock outstanding at the end of the year 1960, were $1.19 per share for the year, compared to $1.17 per share on the same number of shares outstanding at the end of 1959. Dividends paid quarterly on the common stock were increased from 22½ cents per share to 23¾ cents per share, beginning with dividend payments made Sept. 20. Total dividends paid during 1960 on the common stock amounted to 92½ cents per share.

The company's operating revenues also were at an all time record of $34,129,166 for the year compared with $32,656,269 in 1959. Electric revenues, which were 77% of total revenues, were up 4½% over those of 1959. Gas revenues increased about 5%.

Operating expenses for the year increased from $26,017,625 in 195. to $27,021,428. This increase in expenses resulted from the greater volume of business and increased cost in materials, wages and taxes.

The company borrowed $6,000,000 on short term bank loans during 1960 to carry out its construction program. It is anticipated that about $13,000,000 of permanent financing will be consummated in 1961 to pay these bank loans and to provide funds for the 1961 construction program. The types of securities to be sold, probably in May, will include $9,000,000 in first mortgage bnods and about 200,000 shares of common stock.—V. 191, p. 1567.

Invesco Collateral Corp.—Registers Debentures—

This corporation, of 511 Fifth Ave., New York, filed a registration statement with the SEC on March 6, 1961, covering three series of 6% registered subordinated debentures amounting to $300,000 each and due June 30, 1955, 1966 and 1967, respectively. The company proposes to offer the said securities for public sale in units of $5,000, and at an offering price of $4,315, $4,190 and $4,079, respectively. No underwriting is involved.

The company, a wholly owned subsidiary of Investors Funding Corporation of New York, was organized under New York law in June 1960. Its primary business is that of purchasing, investing in and selling real estate mortgages, although it may from time to time purchase, invest in and sell other types of securities. The net proceeds from the debenture sale will be used primarily for the purchase of mortgage notes and bonds, and from time to time, to purchase other types of securities.

The company has 200 common shares outstanding which are owned by its parent. Jerome Dansker, Norman Dansker and Dr. Raphael M. Dansker are listed as President, Executive Vice-President and Vice-President, respectively, of the company and of its parent. Management officials as a group own 43.56% of the outstanding common stock of Investors Funding Corp.—V. 192, p. 2508.

Investors Syndicate of America, Inc.—Files for Offer'g

This syndicate, located in the Investors Bldg., Minneapolis, filed a registration statement with the SEC on Feb. 27, 1961, covering three series of Fully Paid Face Amount Certificates aggregating $9,330,600 in amount, together with four series of Installment Face Amount Certificates aggregating $269,000,000 in amount.—V. 192, p. 899.

Jamesbury Corp.—Sales Up, Net Down—

Howard G. Freeman, President of Jamesbury Corp., Worcester, Mass., ball-valve manufacturer (over-the-counter), announced on Feb. 28 that sales of the company for the six months ended Dec. 31, 1960 amounted to $3,034,278, compared with $2,023,0.2 in the comparable period of the previous year.

Net earnings for the first half of the current fiscal year were $100,538, versus $113,217 in the six months ended Dec. 31, 1959 on the basis of the 514,550 shares of common stock presently outstanding. Per share earnings for the respective periods were 20 cents against 22 cents.—V. 189, p. 2891.

Joseph & Feiss Co.—Annual Report—

The Cleveland, Ohio manufacturer of J & F men's and Cricketeer young men's clothing reported on March 2 net sales of $23,271,227 for the fiscal year ended Nov. 27, 1960 which compares with $23,455,936 for the prior fiscal year.

Richard H. Adler, President, in his annual report to shareholders, stated that improvement in sales volume and earnings during the first nine months of the fiscal year was offset during the final three months by the force of the general business recession. As a result net income for 1960 was held to $305,151 or 66 cents per share, which compares with $383,438 or 80 cents per share in 1959, when the company benefited from a substantial tax carry forward.—V. 192, p. 703.

Leesona Corp.—Sales, Net Up—

An improvement in both sales and earnings of the corporation for the year ended Dec. 31, 1960 has been reported by Robert Leeson, President.

Consolidated net sales for 1960 amounted to $31,179,816, a 25% increase over $24,926,615 in the previous year.

After provision for taxes, net income totaled $2,557,111, or $3.11 per share on 821,220 shares outstanding at the year end. In 1959, the company earned $2,323,867, equal, after preferred dividends required during that year to $2.82 per share based on the same number of shares.

Mr. Leeson said the 25% sales gain was sharp enough to produce the higher earnings, in spite of increases in manufacturing costs and research and development outlays.—V. 193, p. 495.

Litton Industries—Sales, Net Rise—

Six-month sales of $108,202,000, a 40% increase over the same period a year ago, were announced on Feb. 27 for Litton Industries by Charles B. Thornton, President and Chairman of the Board. Sales for the same period last year were $77,431,000.

Before-tax earnings for the period totaled $8,559,000 with net earnings, after provision for federal and foreign taxes of $4,111,000, amounting to $4,448,000 or a 37% increase over last year's $3,248,000.

Earnings per share for the first half amounted to $1.03 for the 4,267,171 shares of common stock outstanding. After adjustment for the 2½% stock dividend in October, 1960, the comparable earnings for the first six months last year were 83 cents per share.

Litton's working capital amounted to $59,540,000 at the end of the first half as compared to $43,798,000 a year ago, and total assets were $139,542,000, up from $95,656,000.

At the end of the current six months, the company's employment reached 19,800 as compared to 15,100 a year ago.

In his report of the six months' activities, Thornton said that as the company's "overall growth continues and as increasing numbers of the developments of our research laboratories go into production, we continue to prepare for further expansion of our operations."—V. 193, pp. 704 and 495.

Lock Joint Pipe Co.—Capital Expenditures—

Lock Joint Pipe Co. East Orange, N. J., will spend $6 million in Oklahoma during the next two years for a temporary plant, labor, materials and other goods and services, Hendrick Van Rensselaer, Production Vice-President, has announced. The plant will supply 100 miles of 60-inch pre-stressed concrete pipe to be used in the largest continuous transmission pipeline ever built in this country. The pipe alone will cost $17,000,000.

The new pipeline will connect the recently completed Atoka reservoir in Southeastern Oklahoma with the new reservoir to be built on the outskirts of Oklahoma City. Eventually, this project will double the water supply of Oklahoma City.

In late February, construction will begin on a temporary plant on 60 acres outside Ada, Okla., which is on the route of the line. The plant will employ approximately 175 people who will make 78 pipes 20 feet in length per day. In addition, the plant will make such special pipes as bends, "Ts", outlets and air valves. These will be manufactured in advance and delivered "ditch-side" for installation. To meet construction schedules, contractors will have to install between 50 and 80 pipe sections daily.

In the next two years, the plant will use 1,500,000 bags of cement, 120,000 tons of stone, 140,000 tons of sand, 10,000 tons of high tensile steel wire, 3,000 tons of steel plate for joint rings and 11,000 tons of sheet steel for watertight cylinders within the pipe walls. In addition, Lock Joint Pipe plant will use huge amounts of concrete as footings to support pipe casting molds. Lock Joint (O. C.) has 28 permanent manufacturing plants throughout the U. S., plus associated companies abroad.—V. 193, p. 106.

share. The shares will be offered directly to the public by officers and directors of the company for which no commissions will be paid, and through brokers and dealers (including First Continental Planning, Inc., a wholly-owned subsidiary of the company) who are members of the National Association of Securities Dealers, Inc., for which a 40 cents per share selling commission will be paid.

The company was organized under Delaware law in January, 1961, and is successor to Axelrod-Lenel Agency Corp., formerly First Continental Agency, Inc., organized in 1960. The company, directly and through its subsidiaries, is active in the Over-the-Counter Market as both broker and principal, sells mutual funds securities and life insurance, and finances the payment of life insurance premiums. It may also act as an underwriter. According to the prospectus, the company has filed for registration as a broker-dealer with the Commission and the NASD. The net proceeds from the stock sale will be added to working capital.

The company has outstanding 260,000 shares of common stock, of which Leonard I. Axelrod, President, and Nelson Axelrod, Vice-President, own 50% each. They obtained such shares for their holdings of all of the outstanding stock of the predecessor company.

Georgia-Pacific Corp.—Record Highs—

The highest sales, earnings, and cash flow in the history of the corporation were reported on Feb. 27 in the company's 1960 annual report. This record was established despite what Owen R. Cheatham, Chairman, and Robert B. Pamplin, President, call a "difficult year."

Net sales of Georgia-Pacific for the year are reported at $221,997,000 compared with $210,555,000 in 1959. Net income is shown at $15,210,000 compared with $15,070,000 for the previous year. Net cash generated from operations was $40,030,000 compared with the 1959 figure of $40,003,000. Based on the average number of shares outstanding, net profit was $2.45 a share for 1960 compared with $2.51 in 1959. Cash flow was $6.66 compared with $5.71 for the previous year. Comparisons reflect inclusion of the operations of W. M. Ritter Lumber Company and Plywood Products Corp. in both years.

The record totals are attributed by the Georgia-Pacific officers to the company's building and modernization program plus the integration of Georgia-Pacific's plants and distribution facilities with its timber resources. "This program, started about five years ago, is nearly completed except as to the properties acquired in 1960," the letter to stockholders states.

Three major properties were acquired in 1960, according to the report: first, the Pilot Rock Lumber Co., located in eastern Oregon and including approximately 100,000 acres of timberland (principally Ponderosa Pine) and related logging and manufacturing facilities; second, pooling of the interests of Plywood Products Corp. with Georgia-Pacific which resulted in vesting in Georgia-Pacific all aspects of a joint operation for the manufacture of sheathing plywood; third, the merger into Georgia-Pacific of the former W. M. Ritter Lumber Company including approximately 300,000 acres of land, principally in West Virginia and Virginia, of which about 220,500 acres contain high-grade Appalachian and Southern hardwoods plus valuable reserves of metallurgical coal and natural gas.

During 1960 the capacity of the corporation's pulp and containerboard plant at Toledo, Ore. was doubled. A new plywood plant was constructed at Springfield, Ore.; five new sales branches were added to the nationwide distribution system; and construction was started on a Fiber-Ply plant a Springfield, Ore. and a kraft containerboard converting plant at Olympia, Wash., both to be completed in early 1961.

The growth of demand for Georgia-Pacific's principal products has been outstanding, Mr. Cheatham and Mr. Pamplin state, and the prospects are excellent for a continuation of this trend. The report contains a chart showing demand for fir plywood over the past 10 years has almost tripled, and demand for kraft paper, board, and pulp has been growing at a rapid rate. "We intend to maintain our position in both industries," say the officers, "and, with the anticipated pick-up in demand during 1961, we expect improvement in market conditions."

"We will continue to emphasize our research program which, in 1960, developed a number of new products expected to increase both sales and profits. We are continuing studies for a large pulp and paper plant at Samoa, Calif., for which plant site and water resources have already been provided. Our present plans look to the commencement of construction in 1962 or soon thereafter."

Georgia-Pacific is one of the largest integrated forest products companies and produces a wide range of products including plywood, paper, containerboard, redwood lumber and specialties, hardboard, lumber, chemicals, and a wide range of specialty products.—V. 193, p. 7.

Gould-National Batteries, Inc.—Jt. Research Program

Albert H. Dagget, Chairman of the Board of Gould-National, has announced the signing of a contract with the Pure Oil Co., for a joint research program on fuel cells and fuels.

In making the announcement, Mr. Daggett further stated that the program will be under the direction of Dr. Royce E. Biddick, a member of the Gould-National research staff since 1960.

"We initiated this program to develop a practical power generator that will compete on even terms with older forms of power production such as the internal combustion engine. Now, because of the widespread interest in these cells," Daggett said, "both by industry and the general public, our program has beeen accelerated. However, much experimental fork remains to be done before the fuel cell can be practically applied to any important extent."—V. 193, p. 1015.

The proceeds are to be used to invest in assets and for company operations.—V. 186, p. 729.

Guild Musical Instrument Corp.—Common Stock Offered—Public offering of 110,000 shares of the common stock of Guild Musical Instrument Corp. was made on March 8 at $3 per share by an underwriting group headed by Michael G. Kletz & Co., Inc. The offering marked the first public sale of the company's common stock. The offering sold quickly at a premium.

PROCEEDS—Net proceeds from the sale of the common stock will be added initially to the company's general funds, and will subsequently be applied to a variety of corporate purposes including: retirement of short-term bank loan; purchase of new machinery and equipment; increase inventories; and development of new sales areas with a larger sales staff. Balance of the proceeds will provide additional working capital to permit an increase in the company's volume of business and an expansion of its product lines.

BUSINESS—Guild Musical Instrument Corp., incorporated in 1952, manufactures guitars, accordion and guitar amplifiers, and distributes accordions, organs and accessory units throughout the United States and Canada. Principal offices of the company are located in Hoboken, New Jersey.

CAPITALIZATION—Upon completion of the current financing, capitalization of the company will consist of 324,500 shares of common stock. For the three month period ended Dec. 31, 1960, the approximate consolidated sales of the company and its affiliated companies were $318,045. For the fiscal year ended Sept. 30, 1960, consolidated sales amounted to $918,010.

Associated in the offering group are: Rittmaster, Adelberg, Voisin & Co.; Godfrey, Hamilton, Magnus & Co. Inc.; Lieberbaum & Co.; Arthur B. Hogan Inc.—V. 192, p. 1710.

Gulf Guaranty Land & Title Co.—Securities Offered—Pursuant to a March 8 prospectus, an underwriting group headed by Street & Co., Inc., 44 Wall Street, New York City, publicly offered 7,500 units of this firm's securities. Each unit consisted of $100 principal amount of 7% convertible subordinated debentures, due 1968, and 20 shares of $1 par common stock. The units were priced at $200 each.

BUSINESS—Gulf was incorporated under the laws of the State of Florida in July, 1957. Since the beginning of sales operations in January, 1958, the company had sold as of Nov. 30, 1960 about 7,300 acres of land, principally under installment contracts. The company's principal business is the development of large tracts of unimproved land into a planned community in which it offers for sale homesites, multiple dwelling sites and commercial and industrial lots. The company is also engaged in the construction of houses at Cape Coral, and through its wholly-owned subsidiary, Fort Myers Construction Co., in the clearing and draining of land, the construction of roads and waterways, and through another wholly-owned subsidiary, Surety Acceptance Corp., in the operation of a motel and restaurant in the Cape Coral development. Another wholly-owned subsidiary, Cape Coral Realty, Inc., is engaged in local real estate brokerage operations at Cape Coral. In addition, the company has recently acquired, through a wholly-owned subsidiary, Collgerry Realty, Inc., approximately 26,250 acres of unimproved land near Naples, in Collier County, Fla.

The principal executive office of the company is at 557 N. E. 81st St., Miami.

PROCEEDS—The company expects to receive net proceeds of approximately $1,227,875 (after deduction of estimated expenses of $64,000) from the sale of the securities. Of these proceeds, the company presently contemplates using $132,500 in payment of an indebtedness which will be in that amount on March 31, 1961, held by Commercial Credit Acceptance Corp., which indebtedness was incurred in December, 1959 and July, 1960 to provide the company with additional working capital; $354,420 to pay an installment in that amount which is to fall due on April 1, 1961 under the purchase money mortgage on the company's property near Naples, Fla.; $150,000 to complete the first phase of construction of a Yacht Club and recreational facilities; $300,000 on the construction of interim water and sewerage systems to serve a section of property, subject to FHA approval of plans; $290,000 toward the construction of an 18-hole golf course which is estimated to have a total cost of $325,000; and the balance for general corporate purposes.

H & B American Corp.—Acquires—

David E. Bright, Chairman of the Board and President, announced on March 2 the conclusion of purchase agreements for the acquisition of three additional community antenna television systems.

The properties, to be acquired by H & B's recently organized subsidiary Transcontinent Communications Systems, Inc., are located in Missoula and White Fish, Mont. and in Prescott, Ariz. They deliver off the air television programs directly into the homes of local residents who are unable to enjoy good television reception due to the shielding effect of high mountains or are located at normal TV's extreme range. Subscribers to such community antenna television systems pay a monthly service charge plus an initial hook up fee. More than 900 similar systems operate in 44 states serving about 2.6 million TV viewers.

Mr. Bright stated that H & B is paying approximately $1,300,000 for the three properties plus an intercity common carrier microwave relay system that serves the same communities. He added that with these acquisitions the company will have about $6.5 million invested in the CATV industry making the firm the largest single entity in the field. H & B American stock is traded on the American Stock Exchange.

Mr. Bright also reported that H & B's operating income represents earnings of 11 cents per share before depreciation and taxes on sales of $2,569,291 compared to a loss of 8 cents per share on sales of $5,308,345 for the six months period ending Jan. 30, 1960. He added that additional acquisitions will be announced as soon as pending negotiations are concluded. The company intends to energetically pursue investment opportunities in the CATV field which was described as a high "cash flow" service industry with unlimited opportunities for further development.—V. 192, p. 2121.

Hat Corp. of America — Sales, Net Down — Capital Changes—

At the annual meeting of stockholders held Feb. 23, Bernard L. Salesky, President, reported net sales of $5,898,331 for the first quarter ended Jan. 31, 1961, after deducting returns, discounts and allowances. Net income was $164,975 after provision of $179,025 for Federal income taxes.

In the first quarter of 1960, net sales were $6,975,034 and net income was $355,451 after provision of $347,925 for Federal income taxes. The net income in the current quarter, after provision for the regular dividend on the preferred stock, was $.16 per share. In the corresponding period of the preceding fiscal year, net income, computed on the number of shares of common stock presently outstanding, was equivalent to $.39 per share; on the number of shares then outstanding, net income was $.43 per share.

Mr. Salesky attributed the decline in sales and earnings to the current business recession and to the prolonged bad weather which retarded retail sales and caused retailers to reduce inventories. He stated that he saw in the results attained in the face of these adverse conditions a favorable indication of the company's real business strength. Dealer hat inventories are now at a low ebb. The introduction of new colors, textures and finishes in the Fall styles, combined with a favorable turn in the weather, should lead to an upturn in wholesale sales in the near future.

Regarding Fashion Park, Inc., Mr. Salesky stated that deposits of stock were being received and that he anticipated sufficient deposits to consummate the acquisition by the March 15, 1961 expiration date. Plans for the development and revitalization of this business are being formulated along the same lines that have proven successful in promoting the growth of Hat Corp.

The stockholders also authorized conversion of the outstanding 4½% cumulative preferred stock into a new preferred stock, 5% cumulative series, on a share-for-share basis, as well as an increase in the authorized preferred stock from 86,560 shares to 120,000 shares, and of the common stock from 1,250,000 shares to 2,000,000 shares.—V. 193, p. 807.

Hexcel Products Inc.—Forecast—

Roger C. Steele, President of Hexcel Products Inc., forecast a "gradual improvement in sales and profits" for 1961 at the annual shareholders meeting on Feb. 28.

Outlining Hexcel's long-term plans toward diversification, Steele said the company would continue to broaden product lines through research and acquisition. The company is the world's largest producer of honeycomb materials.

The shareholders were familiarized with Hexcel's contributions in a broad range of projects, from space vehicles to boat building. Steele said that the company has initiated accelerated programs in such related fields as luminous ceiling material, paper and stainless steel honeycomb and the marketing and development of high quality foams, coatings and allied products through the acquisiiton last year of Allied Plastics Co., of El Segundo, Calif., now a division of Hexcel. —V. 192, p. 114.

Holyoke Motor Lodge Associates—Registers—

The company on Feb. 28, 1961 filed a letter of notification with the SEC covering $270,000 of pre-form limited partnership interest to be offered in units of $5,000. No underwriting is involved.

The proceeds are to be used for payments of allowances of all charges and expenses incurred in the operation of the partnership and for working capital.

Hopewell Investment Corp., Petersburg, Va. — Files With Securities and Exchange Commission—

The corporation on Feb. 21, 1961 filed a letter of notification with the SEC covering 18,150 shares of common stock (par $1) to be offered at $3 per share for subscription by stockholders. No underwriting is involved.

The proceeds are to be used to pay off a note.

Howe Sound Co.—Acquires—

Howe Sound has acquired for cash the Electric Wire Co. Inc., manufacturers of fine wire, according to an announcement made on Feb. 27 by William M. Weaver, Jr., President.

Electric Wire's plant and office facilities are located in Northampton, Mass. The company is a producer of stainless steel wire, bronze, brass, silver and special alloy wire used in such end products as missiles, aircraft, electronic equipment, filters, springs, electric brushes and cable. Equipped with one of the most modern plants in the wire industry, the company is able to manufacture a wide variety of highly specialized wire products.

According to Mr. Weaver, the company has had a good growth record since its founding in 1947 and has an excellent product line. Mr. Weaver said the acquisition of the Electric Wire Co. is a further step in the integration of Howe Sound product lines. "This acquisition," added Mr. Weaver, "enables us to enter the specialty wire field. We will be able to utilize our present sales and raw materials facilities effectively in conjunction with the acquisition." He stated the specialty wire field is a growing industry and that sales from the new acquisition are expected to make an effective contribution to overall Howe Sound Co. volume in 1961. The company will operate under its present management as part of Howe Sound's Super Alloy Products Division.—V. 192, p. 1913.

Independent Telephone Corp.—Proposes Offering—

The corporation, 25-27 South Street, Dryden, N. Y., filed a registration statement with the SEC on March 8, 1961, covering 350,000 shares of common stock, to be offered for public sale through underwriters headed by Burnham & Co. The public offering price and underwriting terms are to be supplied by amendment.

The company is in the business of acquiring, owning and holding controlling interests in telephone operating companies and rendering financial, management and other services to such subsidiaries. It currently controls 11 telephone operating companies in New York, Michigan, New Jersey, New York and West Virginia. It also has options to acquire controlling interests in four other operating companies in New York State. Net proceeds of the sale of the additional stock will be used as follows: $189,500 to repay bank loans; $599,400 to make advances to and/or investments in subsidiaries, to be applied by them to reduction of short-term debt incurred for construction, to purchase common stocks or assets of operating companies, and for additional expenditures in connection with their acquisition or construction programs; and the balance for the general corporate purpose. The company intends to acquire controlling or minority interests in stocks of other telephone operating companies, either through an exchange of shares or for cash.

According to its prospectus, the company now has outstanding 378,567 shares of common stock in addition to 15,136 shares of $10 par preferred and certain indebtedness. Management officials own 33% of the preferred and 14% of the common. The prospectus lists William B. Harrison as President.—V. 193, p. 379.

The proceeds are to be used for the purchase of component parts; research and development of photocopier; reduction of accounts payable; expenses of new distributorships; retirement of a bank loan; retirement of a short-term loan; and for general corporate purposes.

International Utilities Corp.—Files Exchange Offer—

This corporation, 200 University Avenue, Toronto, Ontario, Canada, filed a registration statement with the SEC on March 7, 1961 covering 184,211 shares of $2 convertible preferred stock, $25 par. The company proposes to offer such stock to shareholders of Northland Utilities Limited of record on April 4, 1961 on the following basis: 1 share for 2 Northland common shares; 2½ shares for 1 Northland 5½% cumulative redeemable preferred share; and 1¼ shares for 1 Northland 5% cumulative redeemable preferred share. The offer will expire about May 11.

International Utilities is a holding company whose principal business is the ownership of shares of public utilities operating in western Canada. It has outstanding 405,000 shares of the $2 convertible preferred stock and 2,464,931 shares of common stock. Organized in 1945 under the laws of the Province of Alberta, Northland Utilities supplies electric service to 36 communities in northern Alberta, the Northwest Territories and the Province of Saskatchewan. A subsidiary serves Uranium City in Saskatchewan; and, in addition, electric service is supplied through 30 rural electrification associations to more than 2,200 farms in the Peace River and Athabasca area of Alberta. In the event International Utilities acquires not less than 51% of its voting stock pursuant to this exchange offer, Northland Utilities will be operated as a subsidiary. International Utilities now owns 13,085 shares of its common stock.—V. 193, p. 201.

Interstate Power Co.—Annual Report—

The company's net income rose to a record high of $4,512,819 in 1960, an increase of $154,630 over 1959, according to the utility's Annual Report just released to the more than 21,500 stockholders.

A substantial increase in net income was necessary to provide a reasonable return on the company's total investment, which includes the $8,125,873 in net plant and property additions made during 1960, the report states.

The earnings on the 3,237,333 shares of common stock outstanding at the end of the year 1960, were $1.19 per share for the year, compared to $1.17 per share on the same number of shares outstanding at the end of 1959. Dividends paid quarterly on the common stock were increased from 22½ cents per share to 23¾ cents per share, beginning with dividend payments made Sept. 20. Total dividends paid during 1960 on the common stock amounted to 92½ cents per share.

The company's operating revenues also were at an all time record of $34,129,166 for the year compared with $32,656,263 in 1959. Electric revenues, which were 77% of total revenues, were up 4½% over those of 1959. Gas revenues increased about 5%.

Operating expenses for the year increased from $26,017,625 in 1959 to $27,021,428. This increase in expenses resulted from the greater volume of business and increased cost in materials, wages and taxes.

The company borrowed $6,000,000 on short term bank loans during 1960 to carry out its construction program. It is anticipated that about $13,000,000 of permanent financing will be consummated in 1961 to pay these bank loans and to provide funds for the 1961 construction program. The types of securities to be sold, probably in May, will include $9,000,000 in first mortgage bnods and about 200,000 shares of common stock.—V. 191, p. 1567.

Invesco Collateral Corp.—Registers Debentures—

This corporation, of 511 Fifth Ave., New York, filed a registration statement with the SEC on March 6, 1961, covering three series of 6% registered subordinated debentures amounting to $300,000 each and due June 30, 1955, 1966 and 1967, respectively. The company proposes to offer the said securities for public sale in units of $5,000, and at an offering price of $4,315, $4,190 and $4,079, respectively. No underwriting is involved.

The company, a wholly owned subsidiary of Investors Funding Corporation of New York, was organized under New York law in June 1960. Its primary business is that of purchasing, investing in and selling real estate mortgages, although it may from time to time purchase, invest in and sell other types of securities. The net proceeds from the debenture sale will be used primarily for the purchase of mortgage notes and bonds, and from time to time, to purchase other types of securities.

The company has 200 common shares outstanding which are owned by its parent. Jerome Dansker, Norman Dansker and Dr. Raphael M. Dansker are listed as President, Executive Vice-President and Vice-President, respectively, of the company and of its parent. Management officials as a group own 43.56% of the outstanding common stock of Investors Funding Corp.—V. 192, p. 2508.

Investors Syndicate of America, Inc.—Files for Offer'g

This syndicate, located in the Investors Bldg., Minneapolis, filed a registration statement with the SEC on Feb. 27, 1961, covering three series of Fully Paid Face Amount Certificates aggregating $9,330,600 in amount, together with four series of Installment Face Amount Certificates aggregating $269,000,000 in amount.—V. 192, p. 899.

Jamesbury Corp.—Sales Up, Net Down—

Howard G. Freeman, President of Jamesbury Corp., Worcester, Mass., ball-valve manufacturer (over-the-counter), announced on Feb. 28 that sales of the company for the six months ended Dec. 31, 1960 amounted to $3,034,278, compared with $2,023,012 in the comparable period of the previous year.

Net earnings for the first half of the current fiscal year were $100,538, versus $113,217 in the six months ended Dec. 31, 1959 on the basis of the 514,550 shares of common stock presently outstanding. Per share earnings for the respective periods were 20 cents against 22 cents.—V. 189, p. 2891.

Joseph & Feiss Co.—Annual Report—

The Cleveland, Ohio manufacturer of J & F men's and Cricketeer young men's clothing reported on March 2 net sales of $23,271,227 for the fiscal year ended Nov. 27, 1960 which compares with $23,455,936 for the prior fiscal year.

Richard H. Adler, President, in his annual report to shareholders, stated that improvement in sales volume and earnings during the first nine months of the fiscal year was offset during the final three months by the force of the general business recession. As a result net income for 1960 was held to $305,151 or 66 cents per share, which compares with $383,438 or 80 cents per share in 1959, when the company benefited from a substantial tax carry forward.—V. 192, p. 703.

(S.) Klein Department Stores, Inc. — Common Stock Offered—Public offering of 85,000 shares of the common stock of S. Klein Department Stores, Inc., was made on March 10 at a price of $18.75 per share by a group headed by Emanuel, Deetjen & Co. A simultaneous offering of 35,000 shares at the same price was made by the company to four officers.

PROCEEDS—Net proceeds from the financing will initially be used to purchase the company's notes in the amount of $1,350,000 from The Prudential Insurance Co. of America. Net proceeds in excess of the $1,350,000 will be added to the company's working capital and will be used temporarily to purchase a site for a projected new Klein store in Philadelphia, Pa. or to defray part of the costs of other aspects of the company's expansion plans.

BUSINESS—S. Klein Department Stores, Inc. with headquarters in New York City, operates four stores featuring low overhead, self-service, rapid turnover retail merchandising, all located in principal shopping areas in the New York City metropolitan area. The oldest Klein store at Union Square in New York opened in 1906. Other stores are located in Newark, N. J.; Hempstead, Nassau County, N. Y. and Yonkers, Westchester County, N. Y. All units are large department stores carrying complete lines of merchandise. About 95% of the company's sales are made on a cash basis.

EARNINGS—For the fiscal year ended July 30, 1960, the company reported consolidated net sales of $114,175,087 and consolidated net income of $1,209,160, equal to $1.33 per common share.

CAPITALIZATION—Upon completion of the current financing, outstanding capitalization of the company will consist of $6,775,000 promissory note issued to the Prudential Insurance Co.; $462,351 sundry indebtedness; and 964,100 shares of common stock.—V. 193, p. 494.

Leesona Corp.—Sales, Net Up—

An improvement in both sales and earnings of the corporation for the year ended Dec. 31, 1960 has been reported by Robert Leeson, President.

Consolidated net sales for 1960 amounted to $31,179,816, a 25% increase over $24,926,615 in the previous year.

After provision for taxes, net income totaled $2,557,111, or $3.11 per share on 821,220 shares outstanding at the year end. In 1959, the company earned $2,323,867, equal, after preferred dividends required during that year to $2.82 per share based on the same number of shares.

Mr. Leeson said the 25% sales gain was sharp enough to produce the higher earnings, in spite of increases in manufacturing costs and research and development outlays.—V. 193, p. 495.

Litton Industries—Sales, Net Rise—

Six-month sales of $108,202,000, a 40% increase over the same period a year ago, were announced on Feb. 27 for Litton Industries by Charles B. Thornton, President and Chairman of the Board. Sales for the same period last year were $77,401,000.

Before-tax earnings for the period totaled $8,559,000 with net earnings, after provision for federal and foreign taxes of $4,111,000, amounting to $4,448,000 or a 37% increase over last year's $3,248,000.

Earnings per share for the first half amounted to $1.03 for the 4,267,171 shares of common stock outstanding. After adjustment for the 2½% stock dividend in October, 1960, the comparable earnings for the first six months last year were 83 cents per share.

Litton's working capital amounted to $59,540,000 at the end of the first half as compared to $43,798,000 a year ago, and total assets were $139,542,000, up from $95,656,000.

At the end of the current six months, the company's employment reached 19,800 as compared to 15,100 a year ago.

In his report of the six months' activities, Thornton said that as the company's "overall growth continues and as increasing numbers of the developments of our research laboratories go into production, we continue to prepare for further expansion of our operations."—V. 193, pp. 704 and 495.

Irving Trust Co. has been appointed registrar of the common stock of the corporation.—V. 192, p. 2611.

Lock Joint Pipe Co.—Capital Expenditures—

Lock Joint Pipe Co. East Orange, N. J., will spend $6 million in Oklahoma during the next two years for a temporary plant, labor, materials and other goods and services, Hendrick Van Rensselaer, Production Vice-President, has announced. The plant will supply 100 miles of 60-inch pre-stressed concrete pipe to be used in the largest continuous transmission pipeline ever built in this country. The pipe alone will cost $17,000,000.

The new pipeline will connect the recently completed Atoha reservoir in Southeastern Oklahoma with the new reservoir to be built on the outskirts of Oklahoma City. Eventually, this project will double the water supply of Oklahoma City.

In late February, construction will begin on a temporary plant on 60 acres outside Ada, Okla., which is on the route of the line. The plant will employ approximately 175 people who will make 78 pipes 20 feet in length per day. In addition, the plant will make such special pipes as bends, "Ts", outlets and air valves. These will be manufactured in advance and delivered "ditch-side" for installation. To meet construction schedules, contractors will have to install between 50 and 80 pipe sections daily.

In the next two years, the plant will use 1,500,000 bags of cement, 120,000 tons of stone, 140,000 tons of sand, 10,000 tons of high tensile steel wire, 3,000 tons of steel plate for joint rings and 11,000 tons of sheet steel for watertight cylinders within the pipe walls. In addition, Lock Joint Pipe plant will use huge amounts of concrete as footings to support pipe casting molds. Lock Joint (O. C.) has 28 permanent manufacturing plants throughout the U. S., plus associated companies abroad.—V. 193, p. 106.

BUSINESS—Headquarters of Marley Co., specialists in the field of heat dissipation, are located in Kansas City, Mo. Other plants are operated in Stockton, Cal.; Louisville, Ky.; and Houston, Texas. Principal business of the company is the manufacture and sale of a broad line of water cooling towers which make possible the re-use, by cooling and recirculation, of water used in steam generation of electric energy, industrial processing and air-conditioning. It also makes air cooled refrigerator condensers, and reconstructs, maintains and rehabilitates water-cooling towers installed by the company and others.

EARNINGS—For the fiscal year ended Oct. 31, 1960, the company had net sales of $19,303,719 and net income of $686,611.

CAPITALIZATION—At Dec. 31, 1960, outstanding capitalization of the company consisted of $1,201,000 of 6% subordinated debentures; $878,625 of a 4⅝% mortgage note, and 367,079 shares of common stock.—V. 193, p. 495.

Matthews Corp., Hawthorne, Calif.—Files With SEC—

The corporation on Feb. 28, 1961 filed a letter of notification with the SEC covering 200,000 shares of common stock (par $1) to be offered at $1.50 per share, through Holton, Henderson & Co., Los Angeles, Calif.

The proceeds are to be used to retire bank loans; acquire new equipment and for working capital.

Max Factor & Co.—Offering and Secondary—

Max Factor & Co., 1655 North McCadden Place, Hollywood, Calfi., filed a registration statement with the SEC on March 6, 1961, covering 400,000 shares of class A stock, of which 200,000 shares are to be offered for public sale by the company and 200,000 shares, being outstanding stock, by the present holders thereof. Blyth & Co. Inc. heads the list of underwriters. The public offering price will be related to the current market price of the class A stock on the American Stock Exchange immediately prior to the offering. The underwriting terms are to be supplied by amendment.

The company and its subsidiaries are engaged principally in the development, manufacture and sale of a general line of cosmetics. Of the net proceeds from the company's sale of additional stock, $2,000,000 will be used to purchase land and construct and equip a distribution center and warehouse in Chicago during the next nine months; $500,000 for the expansion of the company's executive office building in Hollywood; $275,000 to remodel another company owned building in Hollywood to provide additional office space; $200,000 for equipment for the principal manufacturing plant in Hawthorne, Calif., and the balance for additional working capital.

In addition to certain indebtedness, the company had outstanding on Dec. 31, 1960, 1,193,947 shares of common stock and 1,005,866 shares of class A stock. The common stock is convertible in class A stock on a share-for-share basis. A 4% stock dividend was paid in January 1961, and in March 1961 200,000 common shares will be converted into 200,000 class A shares, which are the subject of this secondary offering. Of such class A shares, Max Factor, Jr., President, owns 42,817 shares and proposes to sell 42,500 shares; Freda Factor Shore owns 55,117 shares and proposes to sell 42,500 shares; and Davis Factor, Board Chairman; Anna Factor, and Max Firestein, Executive Vice-President, own 44,502, 26,054 and 28,370 shares, respectively, and propose to sell 17,500 shares each. The prospectus lists five other selling stockholders, all of whom are members of the Factor family. Said family owns about 75.3% of the outstanding voting stock of the company and will own after this offering about 61.2% of such stock.—V. 192, p. 2327.

Mayfair Industries, Inc.—Shows Loss—

Operations of Mayfair Industries, Inc. in the fiscal year ended Nov. 30, 1960, resulted in a net loss of $573,017 in contrast with net income of $154,712 earned in the preceding fiscal year. Net sales last year were $5,445,006, compared with $6,495,687 the year before. As of Nov. 30, 1960, the company's loss carry-forward amounts to more than $330,000 which will be deductible from fiscal 1961 earnings.

W. H. Goff, President, ascribed the company's unsatisfactory operating result in fiscal 1960 to a sharply reduced level of activity in residential housing construction in major markets for the company's aluminum windows and other building supplies, as well as to increased overhead costs resulting from the company's major expansion the year before. Despite these conditions, the company expanded its research and product development program, as well as its sales promotion effort. New products developed during the year, plus drastic reductions being effected in operations, brighten the outlook for operating results in the period ahead.

The company currently is benefiting from its contract negotiated last September to furnish all of the aluminum window, storm sash and sliding door requirements of National Homes Corp., the country's largest producer of factory built homes.

"Mayfair took its licking in fiscal 1960," he said. "Deferred costs were fully amortized and cost of the greatly accelerated 1960 product development program was fully absorbed. These and other 1960 accomplishments should be reflected in Mayfair's fiscal 1961 sales and earnings following the seasonally lean operating quarter."

Mead Corp.—Registers Debentures—

The corporation of 118 West First Street, Dayton, Ohio, filed a registration statement with the SEC on March 8, 1961, covering $25,000,000 of debentures due April 15, 1986, to be offered for public sale through underwriters headed by Drexel & Co. and Harriman Ripley & Co. The interest rate, public offering price and underwriting terms are to be supplied by amendment.

The company and its subsidiaries manufacture and sell white paper, paperboard and converted paperboard products, and convert and sell kraft linerboard produced by 50%-owned corporations. Of the net proceeds from the debenture sale, $15,000,000 will be used to retire short-term bank loans incurred to make capital investments, and the balance of $10,000,000 will be available for capital improvements and other corporate purposes.

In addition to certain indebtedness and preferred stock, the company has outstanding 5,269,234 shares of common stock.—V. 193, p. 912.

Mead Johnson & Co.—Record Highs—

The Evansville, Ind., company's sales and earnings reached new all-time record levels in 1960, according to year-end figures released on Feb. 27.

Gross sales were $122,421,510 for the year as compared with $65,316,941 in 1959.

Net profit after taxes was $13,315,725 as compared with $5,501,174 in 1959. Per common share earnings were $7.25 in 1960 versus $3.02 in the previous year.

Company officials stated that the full annual report on 1960 performance will be mailed to stockholders approximately April 1.

On Feb. 24 Mead Johnson announced that its Board of Directors had voted a 50% increase in the company's common stock dividend. The annual dividend rate was raised from $1.20 per common share to $1.80. The new rate becomes effective with the next regular quarterly dividend, payable April 1 to stockholders of record March 15. —V. 191, p. 2640.

Melville Shoe Corp.—Sales Higher—

Retail sales of this corporation for the four weeks ended Feb. 25, 1961 were $8,261,374, compared with $8,211,927 for the like period a year earlier, an increase of 0.6%. For the eight weeks ended Feb. 25, sales aggregated $16,237,224, against $16,392,293, a decrease of 0.9%. —V. 193, p. 202.

Metro-Goldwin-Mayer, Inc.—Forecast—

Joseph R. Vogel, President, reported to the annual meeting of stockholders on Feb. 23 that earnings are currently running ahead of the 12-year record high rate set in 1960, and for the full fiscal 1961 year which ends Aug. 31, are expected to exceed the 1960 profits by 25%.

Pointing out that the 1960 net of $3.83 per share itself represented a 25% increase over the previous year, Mr. Vogel said:

"MGM is unquestionably on a strong upward trend. And we are convinced we have the product and the plans to keep it moving upward well into the foreseeable future.

"The projects we have initiated for future motion picture production, for the development of new material for television, for the expansion of our recording and music business and for the use of our overseas facilities lead us to believe that 1962 will show a further increase over the estimate for this year.

"Furthermore, we expect that there will be another profit rise in 1963."

He disclosed that MGM has begun arranging and classifying its extensive library of post-1948 features in anticipation of licensing them for television release.

"It is our intention to maintain a significant gap between the time a major feature is presented in theatres and the date when released for television," he said. "In brief, we will license the post-1948 features on an orderly and progressive basis."

Anticipating questions as to how realization of the company's prospects would affect the dividend policy, Mr. Vogel said:

"As a result of our 1960 earnings increase, the board raised the quarterly dividend from 30 to 40 cents per share. So far this year, two such increased dividends have been paid.

"This action gave assurance that the MGM board has the dividend policy under constant review and responds promptly and reasonably to developments."—V. 193, p. 380.

Midwestern Financial Corp.—New Subsidiary—

The Kansas City, Mo., corporation announced on Feb. 22 the expansion of its mortgage operations in the Middle West through the formation of a Michigan corporation subsidiary, Inglis Mortgage Co. of Detroit, Mich.

Other mortgage operations are carried on through Inglis Mortgage Co. offices in Kansas City, Denver, Colorado Springs and Albuquerque. —V. 191, p. 703.

Midwestern Instruments, Inc.—Notes Sold Privately—March 8, 1961, it was reported that this Tulsa, Okla., manufacturer of precision electronic equipment sold $1,800,000 of 6% subordinated convertible debenture notes with warrants to Midwest Technical Development Corp., Minneapolis, Minn.—V. 188, p. 1520.

Mill Factors Corp.—1960 Volume, Net Income—Record Highs—

Mill Factors, active in commercial finance and factoring, reported on Feb. 27 that earnings for the year ending Dec. 31, 1960 were 29% above those of 1959, and that volume and net income were the highest in the company's 50-year history.

Walter D. Yankauer, President, said that receivables factored and financed last year rose to a record $225,827,000, a gain of 15% over 1959's $197,120,000. Earnings per share were $1.01 compared with 78 cents, adjusted for 460,000 shares currently outstanding. Net income amounted to $465,428 against $361,046 the previous year.

A gain of 73% in Mill Factors' commercial finance division was reported by Mr. Yankauer. The volume of the five-year-old finance unit was $47,860,000 last year compared with $27,606,000 in 1959. Mr. Yankauer said the company's growth in commercial financing was continuing at an excellent pace.

The company stated that at the end of the year total accounts and notes receivable outstanding were $37,816,000, which was 16% above the $32,638,000 at Dec. 31, 1959.

The corporation, in its 1960 expansion, opened a regional office in Miami and reported that business from its Florida unit was highly satisfactory.—V. 191, p. 2640.

Minnesota Mining & Manufacturing Co.—Record Highs

Net 1960 earnings of $70,692,374, or $1.38 per share of common stock, on consolidated world-wide sales of $549,675,178 were reported on March 3 by Minnesota Mining and Manufacturingg Co.

The record figures represent approximate 10% increases over 1959 sales of $500,675,932 and earnings of $63,564,729, or $1.25 a share.

Dividends paid totaled $29,848,624, or 58⅓ cents per share, compared with $25,499,736, or 50 cents a share paid in 1959. The per-share figures have been restated to reflect the 3-for-1 stock split in May, 1960.

The number of 3M stockholders increased from 45,083 to 74,981 during 1960.

Continued expansion of foreign operations and the broad diversification of products and markets in the United States helped to sustain 3M growth, 3M President Herbert P. Buetow and Board Chairman W. L. McKnight said in their annual report to stockholders.

Foreign sales were $117 million, compared with about $95 million in 1959, they said. Profit performance was comparable to that of domestic operations.

Domestically, after an active first quarter, operations were influenced by lower trends in business activity. However, 3M divisions serving the graphic arts industry and the instrumentation and computing fields continued to register particularly important gains. Sales in each quarter were ahead of the previous year with fourth quarter sales higher than any previous quarter in company history.

The sales breakdown includes: tape and allied products 19%; coated abrasives and adhesives 13%; graphic products 22%; electrical products 17%; chemicals and plastics 5%; building products 5%; foreign 18%; miscellaneous 1%;

The company spent $21.8 million, equal to about 4% of sales, for research and development and related activities. Expenditures of $25 million are estimated for 1961.

The firm's plant and equipment expansion program reached a record level, with about $39 million invested in new and improved manufacturing, distribution, and research facilities in the United States. A balance of $33 million in authorized work remained at year's end. The company continues to finance its domestic expansion programs entirely out of retained earnings.

Overseas plant additions have been completed in Germany and France and started in Spain and Australia. New plants are being constructed in Italy and Japan. Capital expenditures overseas in 1961 are expected to be about $8 million, most of which will be financed within the countries involved.

The company's financial position continues strong, with net current assets totaling $146.5 million, compared with $139.7 million at the end of 1959. Shareowners' equity was $331.9 million, compared with $275.2 million a year earlier. The company's equity in foreign subsidiaries at year end was $46 million.

The 1960 figures include Mutual Broadcasting System, since its acquisition in April, and Revere Camera Co., since its acquisition in August.—V. 193, p. 912.

Mobilife Corp.—To Consider Spin-Off Proposal—

Mobilife stockholders will consider a proposal to distribute all of the stock of a subsidiary corporation owning utility properties, Sydney Adler, President, announced on Feb. 28.

The proposal will be submitted to stockholders at the annual meeting to be held March 15, 1961, in New York.

The utility properties would consist of the existing water and sewerage systems near Bradenton, Fla. with an asset value of $427,093.

Mr. Adler also said that adjacent utility franchise and other systems could also be acquired by that company.

Mobilife Corp. is active in the construction and management of retirement communities with existing developments in Sarasota, Fla., and Tucson, Ariz.—V. 191, p. 1775.

Modern Materials Corp. — Common Stock Offered — Pursuant to a March 1 prospectus, an underwriting group headed by Smith, Hague & Co., Detroit 26, Mich., publicly offered 150,000 shares of this firm's $1 par common stock at $6.75 per share.

PROCEEDS—The proceeds from the sale of 100,000 shares will go to Alice Joyce MacWilliam, selling stockholder. The proceeds from 50,000 shares will be used by the company to reduce indebtedness by $151,000, with the balance, estimated at $138,461.33, to be used for general corporate purposes.

APPOINTMENTS—National Bank of Detroit, transfer agent; The Detroit Bank and Trust Co., registrar.

BUSINESS—Modern Materials Corp. was incorporated under the laws of Michigan Jan. 13, 1956. It manufactures and distributes aluminum and asphalt siding and related accessories.

Monterey Oil Co.—Liquidating Dividend—

The board of directors of Monterey Oil Co., Feb. 23, declared a second liquidating distribution of $7 per share on the 1,952,115 shares of common stock outstanding, payable on or after March 13.

President Howard C. Pyle said the company expects to make a third and final liquidating distribution of approximately $1 per share later this year which will result in total distribution of about $42 per share of Monterey stock.

Following the sale of the company's principal assets to Humble Oil and Refining Co., Montrey made an initial distribution of $34 per share to stockholders Jan. 18, 1961.

://fraser.stlouisfed.org/

According to Mr. Pyle, Monterey recently sold all of its 950,000 shares of Transwestern Pipeline Co. stock to Northern Natural Gas Co. for $11,875,000 and disposed of the California offshore interests, which were withheld from the Humble transaction, to Texaco, Inc., for approximately $300,000 more than Humble was obligated to pay under the sale agreement.

Mr. Pyle said Monterey is calling in all of its outstanding stock certificates and is closing its transfer books as of the close of business March 10. No transfers of Monterey stock, he said, will be made on the books of the company after that date and the shares will cease to be traded on the New York Stock Exchange on the morning of March 13.

The President said the company will mail on March 10 to shareholders of record that day instructions regarding presentation of their stock certificates to Chase Manhattan Bank, the company's transfer agent, in order to receive this second and, later, the final liquidating distributions.—V. 192, p. 1494.

Mother's Cookie Co.—Common Stock Offered—An investment banking group headed by Drexel & Co. offered publicly on March 9 a new issue of 135,000 shares of no-par common stock of Mother's Cookie Co. at a price of $15 per share.

BUSINESS—The company, established in 1947, is engaged in the manufacture and sale of packaged cookies which are sold in 22 states, principally east of the Mississippi River. The company's plant and executive offices are located in Louisville, Ky.

PROCEEDS—The shares being offered were purchased from a selling stockholder and none of the proceeds will accrue to the company.

EARNINGS—For the year ended Dec. 31, 1960, net sales were $4,635,540 and net income $304,343. In the year ended Dec. 31, 1959, net sales were $3,778,055 and net income $201,371.

CAPITALIZATION—The company's capitalization consists of 500,000 shares of common stock of which 366,000 shares are currently outstanding.

UNDERWRITERS—The underwriters named below have severally agreed, on the terms and conditions set forth in the Purchase Contract to purchase from the selling stockholder the respective numbers of shares of common stock set forth below:

Nalco Chemical Co.—Annual Report—

Sales and earnings of this Chicago manufacturer of water conditioning, petroleum treating and other industrial chemicals, reached a 33-year high, according to the firm's Annual Report. Sales for 1960 were $48,338,839, an increase of about 2% over sales of $47,243,499 in 1959.

Net earnings for the year were $4,230,839, or $1.75 per share on 2,417,580 shares outstanding. This compares with earnings for the preceding year of $4,143,191, equivalent to $1.72 per share after adjustment for a two-for-one stock split in May, 1960.

Dividends for the year totaled $2,414,880, at the rate of $1 per share, compared with $1,649,065 on a 70 cents per share basis in 1959.

In summarizing the year, President Thomas C. Jones called attention to a further improvement in Nalco's financial position. Working capital at the year-end was up approximately $1,600,000 over 1959, to $12,832,069—with the ratio of current assets to current liabilities in excess of three-to-one.

Cited, also, was the company's increased emphasis on research and development. Total laboratory expenses for research projects and for service to customers topped $2,400,000 in 1960, an increase of about 20% over the year previous.

While pointing out that Nalco's sales and earnings were down during the fourth quarter of 1960 and in the beginning of 1961, Mr. Jones expressed belief that the situation is temporary—reflecting the lower level of business activity in many industries—and that he looked forward to a continuation of Nalco's growth and progress. "Our prospects for new products," he said, "look very encouraging."

The report outlined, also, the expansion of Nalco facilities during 1960. Additions to property, plant and equipment during the year totaled $2,280,092. Included was the purchase of two neighboring plants and accompanying land, next to Nalco's general office and manufacturing quarters in Chicago. The company's property holding at this site now approximates 25 acres which, the report states, will provide space needed for future expansion.—V. 191, p. 202.

National Bank of Commerce of San Antonio—Secondary Oversubscribed—A secondary distribution of 25,000 shares of the new $10 par stock of the National Bank of Commerce of San Antonio by a group of investment brokers headed by Frank, Hobbs, and Hart, Inc. was oversubscribed on the first day of the offering, Feb. 27, 1961.

Reports indicate that the shares were well distributed among a sizable representation of purchases in San Antonio and throughout the State of Texas.

This secondary offering was the largest local bank stock distribution to the public ever made in San Antonio. The National Bank of Commerce of San Antonio recently split its stock two-for-one, changing the par value from $20 to $10 per share, at the same time raising the dividend rate to $1 per share on the new stock or the equivalent of $2 per share on the old stock, which formerly paid $1.60 per share.

UNDERWRITERS—Other dealers who assisted in the distribution were Dittmar & Co., Rauscher, Pierce & Co., Inc., E. H. Austin & Co., Texas National Corp., all of San Antonio and the First Southwest Co., of Dallas.

National Equipment Rental, Ltd.—Stock Subscribed—

Under the offering of new shares of National Equipment Rental, Ltd. via rights to stockholders, a total of 108,199 shares of common stock were subscribed for under primary subscription privileges. Although a large number of shares were requested through over-subscription privileges none were so issued, according to Burnham & Co., head of the standby underwriting syndicate.—V. 193, p. 1058.

National Gypsum Co.—1960 Results—

The Buffalo company reported on Feb. 28 1960 earnings of $23,492,998 or $3.66 a share compared with $25,561,679 or $4.56 on the fewer number of shares outstanding in 1959.

Chairman Melvin H. Baker said 1960 sales were a record $227,169,246 compared with $226,277,806 for 1959. He said the record was "made possible by the acquisition last year of Allentown Portland Cement Co. and Union Gypsum Co."

He attributed the decline in earnings to "the drop last year in home building which adversely affected sales and brought on reduced plant operations and higher costs."

Chairman Baker explained that "if sales and earnings of Allentown and Union had been included in National Gypsum's 1959 report, net earnings for that year would have been $28,357,223 on sales of $242,120,495.

"On this basis," he added, "our sales in 1960 declined about 7% from 1959. But this was a rather creditable performance when we realize that our major market, home building, was off about 18% last year. The good showing was substantially aided by our diversification into Portland cement and other materials used in commercial, industrial and public construction as well as residential construction."

Mr. Baker noted that "while home building was off in 1960, other types of construction held steady or rose to new records." He singled out school, office building and highway construction which, he said, "have been particularly strong."

The National Gypsum founder declared that "there are good reasons to expect that 1961 will be a better year than 1960 but the pickup will probably not come before the middle of the year." He noted that "the construction trend for industrial and commercial buildings, highways and schools is upward." And he said he "expects that home building will later in the year respond to the stimulants of more available mortgage money and cheaper mortgage money."

Mr. Baker said that after 1961 "we look for volume at higher levels. The high birth rate since 1940 will bring in new family formations in unprecedented numbers and this must inevitably be followed with great demand for housing and, in fact, all types of construction."

National Gypsum's assets last year, Mr. Baker disclosed, climbed more than $27 million to a new record of $278,447,475. He said National Gypsum last year "invested about $19 million in new plants, plant additions and cost-reducing equipment. Production was started at our new Lorain, O., gypsum plant, completing our new Great Lakes gypsum network which also includes a new gypsum plant in Illinois and loading docks and quarry in Michigan. Each unit is now operating at a profit but not at full capacity.

"Major improvements were designed for our Huron Portland Cement Division properties and a new white gypsum operation was opened in Nova Scotia," he disclosed.

He added that "another new gypsum plant is being engineered to come into production at Tampa after the middle of 1962 to supply our fast-growing market in the State of Florida which is now being supplied from our Savannah plant at high freight costs."

The new Florida plant and plant improvements elsewhere call for capital expenditures of "about $18 million in 1961," Mr. Baker revealed and explained that "all this will be financed with cash from depreciation and retained earnings."

He also disclosed that National Gypsum's "reserves of gypsum, asbestos, cement rock, pyrophyllite and limestone are estimated to contain more than a billion tons." He emphasized that "these deposits are carried on our books at actual cost which amounts to only a fraction of their real value. But, more important, these vast mineral resources assure low cost raw materials and long life for our operations."

"National Gypsum has invested more than $8 million on research in the past seven years," Mr. Baker said. "This effort has been paying off in recent years. New products introduced recently are expected to help our customers find new markets in the coming year."

He concluded by saying that "in addition to creating new markets, the management will continue its aggressive efforts to utilize more automation to resist rising costs."—V. 192, p. 2612.

New England Nuclear Corp.—Sales Up—Sets Dividend

A five cents per share dividend and record sales for fiscal 1961 were announced on March 1 by this corporation, of Boston, Mass.

Company President Dr. Edward Shapiro stated that the dividend was paid on Feb. 28 to stockholders of record on Feb. 15, 1961. Approximately 200,000 shares of common stock are outstanding. This is the second dividend to be paid by the company; the first dividend, also five cents per share, was paid on Aug. 31, 1960.

Sales for the fiscal year which ended Feb. 28 exceeded $725,000. This record high is more than 20% above the $600,000 sales level of the preceding 12 month period.—V. 192, p. 1400.

Norris-Thermador Corp.—Sales, Net Down—

This corporation's sales for the first six months ended Jan. 31, were $19,481,961, compared with sales of $20,566,385 for the same six months last year, the company announced on Feb. 28.

Earnings were $853,638, equivalent to 60 cents per share, compared to $1.12 a share for the same half last year.

Heavy start-up expenses on military contracts, on which the backlog is now over $18,000,000 and the decline in sales and profits on commercial products caused the reduction in overall sales and profits, the announcement said.—V. 193, p. 604.

North Star Oil Co.—Reverse Stock Split—

Shareholders of North Star Oil Co., at a special meeting, have approved a proposal to reverse split the company's authorized 6,000,000 shares of $.01 par value common stock one-for-ten and have increased authorization of the new $.10 par value stock from 600,000 to 2,500,000 shares, President William Moss announced on Feb. 21. Effective Feb. 27, there were 400,000 shares of the new stock outstanding.

The recapitalization, Mr. Moss explained, will better enable North Star Oil to take advantage of merger opportunities, to acquire additional reserves and to expand its exploration program.

"We are continuing to actively and aggressively investigate favorable merger possibilities as well as new properties for acquisition and feel it prudent to be ready for opportunities as they arise," Mr. Moss said.

Just last month, North Star acquired additional interest in eight wells in Ector and Andrews Counties in West Texas, involving more than $200,000 in stock, cash and purchased oil payment, and announced plans for a new, five-well exploration program.—V. 193, p. 604.

Northern Illinois Gas Co.—Annual Report—

New records in most phases of the company's operations during 1960 are recounted in NI-Gas' annual report now being mailed to its 109,000 stockholders.

Gas revenues were $130,200,000, up 24% over 1959; earnings were $2.04 per common share, up 13% from the previous year; NI-Gas' annual dividend rate was increased from $1 to $1.20 per share last May.

Operational highlights included placing NI-Gas' Troy Grove underground natural gas storage reservoir (about 80 miles southwest of Chicago) in regular operation. This, plus a 19% increase in daily firm gas supply, enabled NI-Gas to remove all restrictions on the use of gas for space heating through 1961.

In president Marvin Chandler's letter to stockholders, he declared, "We are confident that our suppliers will be able to satisfy our needs for additional gas in the future. . . Our almost 15-year period of gas heat restrictions is thus behind us."

NI-Gas added 101 million cubic feet to its daily firm gas supply and has 70 million more on order for the 1961-62 heating season.

New customers added during 1960 totaled 43,559, according to the report—a new one-year record gain. From these and from old customers, NI-Gas showed a gain of 76,900 customers who use natural gas for heating. Now 437,700 (about 61%) of its 716,200 customers use gas for geating.

The new Troy Grove storage reservoir, the report noted, provided up to 100 million cubic feet of gas a day during the severe weather this winter. A recent successful 20-hour test showed gas could be withdrawn from the Troy Grove reservoir at a rate of 170 million cubic feet a day.

NI-Gas' share of withdrawal capacity of the Herscher underground storage field (near Kankakee) was increased 25 million to 210 million cubic feet a day this winter, which helped NI-Gas establish an all-time one-day record high of 886.3 million cubic feet for the 24 hours ending at noon on Dec. 23.

Construction outlays in 1960 were $50 million, including $9.4 million for the 75-mile pipeline between the Troy Grove reservoir and LaGrange. The total was $9.5 million higher than in 1959.

NI-Gas plans a $215 million construction program for the five-year period 1961-65. This includes $47 million for further development of underground storage facilities and for transporting stored natural gas to the distribution system. As much as $150 million of this may come from outside sources.

Included in the five-year construction estimates are plans for a new general office about five miles northeast of Aurora. This new bulding, located at Illinois Route 59 and the East-West Tollway, will house an electronic data processing system which has been ordered for 1963 delivery. A new division headquarters in Glenwood (about 10 miles south of Chicago) to house NI-Gas' south suburban activities was completed late last year.

NI-Gas' Supply, Inc., the utility's wholly-owned subsidiary, added 6 billion cubic feet of gas and more than 60,000 barrels of oil to its net reserves during 1960 drilling operations. Total net reserves are 16 billion cubic feet of gas and 320,000 barrels of oil. About $3 million has been expended by the subsidiary to date, including $1.4 million in 1960. The report indicated that the revenue from sales of gas, oil and related products from the successful drillings should ultimately return at least this amount.—V. 193, p. 706.

Northern Natural Gas Co.—Annual Report—

Northern Natural Gas in its 1960 Annual Report to stockholders issued on Feb. 27 announced that earnings in its thirtieth anniversary year had reached a new high of $22.3 million and told of plans to serve 165 more communities in Iowa, Minnesota, Nebraska, South Dakota and Illinois.

Earnings per share, according to the report, were $2.20, compared to $1.92 last year. Earnings for both periods include rate increase revenues collected under bond subject to final rate determination by the Federal Power Commission.

The firm's pipeline capacity was increased to 1.5 billion cubic feet per day. This resulted in record sales of 463 billion cubic feet and revenues of $188 million.

The future growth picture is encouraging, said John F. Merriam, Chairman, in the letter to stockholders. Northern added 58 new communities to its system during the year, and the company now serves 511 communities. Service to 165 new communities in 1961 will bring the total to 676, he said.

A further impact on Northern's future sales is reflected in a number of 1960 projects, stated the report. Northern has asked Federal Power Commission for authority to construct facilities to sell natural gas to Reserve Mining Co. of Silver Bay, Minn., for use in processing of taconite ore from the Mesabi Range. This would mark the first large scale use of natural gas for this purpose. A second application awaiting Commission decision covers Northern's sale of 75 million cubic feet daily in southern Wisconsin to Michigan Wisconsin Pipeline Co. This sale would give Northern's gas a market in the fast growing Milwaukee and Detroit arees, the third expansion into a large market area in as many years. In 1959 Northern began sales to the Duluth-Superior area and to another pipeline providing a market in the heavily populated area surrounding Chicago.

Interest in a completely new market area, southern California, was acquired with the purchase in January 1961 of 16% of the common stock of Transwestern Pipeline Co.

During the year the company entered the important propane market. Two wholly owned subsidiaries were formed. Northern Propane Gas Co. is developing retail propane markets in the Northern Plains area. Northern Gas Products Co. is building a $12 million propane extraction plant in central Kansas. The products will be made available to retail and wholesale distributors of liquefied petroleum gases, to chemical processors, gas utilities and industrial plants.

The company, according to the report, has submitted a proposal to the Interior Department for the sale of helium which would be extracted from Northern's gas supply.

Mr. Merriam pointed out that Northern's growth during its thirty years of existence has been steady with the greatest growth occurring in the last decade. In these 10 years net income has quadrupled, sales have tripled, pipeline capacity and communities served have doubled.

Northern is a natural gas transmission company with a 14,000-mile pipeline system serving 511 communities in the states of Iowa, Nebraska, Minnesota, Wisconsin, Kansas and the Dakotas.—V. 192, p. 2020.

Pacific Finance Corp.—Net Down—

The Los Angeles corporation had net income of $4,982,286 for 1960, compared with $7,020,642 for 1959, Maxwell C. King, President, announced on Feb. 23 in the company's anual report to stockholders.

Earnings for common stock were $3.40 per share on the 1,410,000 shares outstanding throughout 1960, compared with $4.77 per share on the same number of shares outstanding at the end of 1959, and $5.20 per share on the 1,294,274 average number of shares outstanding during 1959.

King told stockholders, "The decrease in earnings was the result of a combination of three factors: a substantial increase in credit losses, higher cost of borrowed funds despite the benefits of lower interest rates in the latter part of the year, and additional expense incident to the conversion of record-keeping activities to a centralized electronic data processing system."

He said, "The increase in credit losses has been concentrated principally in our automotive retail financing business. While the automotive sales financing business generally has experienced larger credit losses in 1960 than in 1959, we believe these losses have been more extensive in some of the territories in which we operate."

Provision for credit losses for 1960 was $10,543,346 compared with $6,672,587 for 1959. Of the increase, approximately $3,820,000 represents an increase in the rate of provision for credit losses in relation to finance charges earned, equal to $1.30 per share of common stock, after giving effect to Federal income taxes.

In commenting on the adverse credit pattern resulting from the recession in the national economy and deflated used car market, King said, "The combination of a weakening credit situation and the deteriorating used car market has resulted in higher repossession losses."

Although there was a downward trend in interest rates on the company's borrowed funds starting in the third quarter, the average rates for the full year were higher than for 1959. Total interest and debt expense for 1960 was $20,365,849 compared with $18,466,211 for 1959. Of the increase, approximately $376,000 was accounted for by higher interest rates which, after giving effect to Federal income taxes is equal to 13 cents per share of common stock.

Appreciable progress was made during the year in converting accounting and record keeping to a centralized electronic data processing system, according to King. The net direct costs of this activity for the year were $1,060,000 equal to 36 cents per share after giving effect to Federal income taxes.

"We expect improved earnings for the full year 1961, although earnings in the first two quarters may be considerably lower than the corresponding quarters in 1960. While credit losses may continue high in the first half of the year, the situation should improve materially in the last half with the expected improvement in the overall economy. Interest rates now in effect on the company's borrowed funds are about 14% lower than the average for 1960. In addition, some of the economies expected from the E.D.P. system should begin to be realized in 1961," according to King.

The volume of loans and discounts acquired during the year was $659,166,611 compared with $827,443,775 for 1959. Loans and discounts outstanding at the end of 1960 were $498,042,986, compared with $509,884,361 at the end of the preceding year.

Net earnings of the company's fire and casualty insurance subsidiaries were $659,673, compared with $741,071. Net income for the company's life insurance subsidiary was $1,506,747 against $2,129,739 for 1959.

Twenty new offices were added to the company's branch system during the year, bringing the total to 393 offices in 23 states and five provinces of Canada.—V. 192, p. 2123.

Pacific Gamble Robinson Co.—Sales Up, Net Down—

This Seattle, Wash., wholesale distributor of fresh fruits and vegetables reports sales of $196,301,440 for 1960, the highest in the company's 70 year history. This volume was 4.4% ahead of the previous peak of $188,103,994 reported for 1959. Net income for 1960 was off from the preceding year, amounting to $1,209,078, equal to $1.04 per share on the 1,162,380 shares outstanding at the year-end compared with $1,451,534 or $1.25 per share in 1959 based on the same number of shares.

J. G. Scott, President, explained in the report that the decrease in net income was due principally to these factors:

(1) The cost of opening 10 new supermarkets and doubling the size of three other markets.
(2) Crop shortages, particularly in apples, oranges, pears and other tree fruits, which cost the company both sales and net profits in its distributing division.

"Through the substantial expansion of its retail division in 1960, the company has made an investment which should be reflected in the future earnings of the business," Mr. Scott commented. He said it was expected that total sales in 1961 will be over $200,000,000.

Mr. Scott reported that the company expects to open four additional supermarkets in 1961, increasing its chain to 49 retail stores. "When these stores are completed and operating," said Mr. Scott, "their annual sales should approximate $60,000,000 or about 30% of total sales. It is the company's long-term plan to continue the expansion of its retail supermarket operations."—V. 191, p. 1264.

Peoples Gas Light & Coke Co.—Annual Report—

Both gas sales revenues and net income were higher in 1960 than in 1959, the Chicago company stated on Feb. 27 in its annual report to stockholders.

Consolidated net income for 1960 was $25,189,984, or $4.28 per share, compared with $23,394,079, or $3.98 per share, as restated, for 1959. These earnings are after reservations of net income made pending conclusion of current rate proceedings of Natural Gas Pipeline Company of America, a subsidiary.

Eskil I. Bjork, Chairman, and Remick McDowell, President, said in their Review of the Year, "The 1960 expansion of our pipeline and underground storage facilities was an important factor in effecting a balance between current gas supply and accumulated demand for gas in the area served by our system. This represents the attainment of an objective of many years' standing."

For the first time since June, 1946, gas space heating service was made available in Chicago to all applicants in all classifications who wished to avail themselves of this service, the report stated. The waiting list now reflects only those who have indicated a desire for this service but do not wish it at this time."—V. 193, p. 1059.

Pharmaceutical Vending Corp., Wilmington, Del.—Files With Securities and Exchange Commission—

Pierce & Stevens Chemical Corp.—1960 Results—

The Buffalo corporation reported on Feb. 24 preliminary results for the year ended Dec. 31, 1960, with consolidated net sales of $8,314,067, compared with $8,100,036 for the year 1959. Earnings before taxes on income totaled $1,311,884 and after estimated Federal income tax net earnings were $615,584, equivalent to 95 cents a share on the 651,000 common shares outstanding at the year-end. In 1959 earnings before taxes totaled $1,295,751, while after taxes the net earnings were $620,851, or 95 cents a share adjusted to the same number of shares.—V. 191, p. 1988.

(H. K.) Porter Co., Inc.—Sales Up, Net Down—

The Pittsburgh company has reported net sales during 1960 of $231,131,488, compared to $225,956,904 in 1959. Consolidated net income for 1960 was $4,093,525, or $2.57 per common share. In 1959, net income of $6,731,885 was equal to $5.09 per common share.

T. M. Evans, Chairman, said business uncertainties in many segments of the nation's economy in 1960 brought inventory reductions that depressed sales of Porter divisions. "With competitive pressures in many of our markets more intensified than ever, prices weakened. Moreover, Porter elected to push ahead with moves that should improve future earnings and bore the brunt of three major plant relocations during 1960. Expansion and modernization programs already under way were completed and new programs initiated despite the fall-off in earnings," Mr. Evans noted.—V. 191, p. 2418.

Red Lane Calcareous Sinter Co., Inc. — Suspension Vacated—

The Commission has vacated its order of April 1959 temporarily suspending a Regulation A exemption with respect to a public offering of 150,000 shares of common stock at 10c per share by Red Lane Calcareous Sinter Co., Inc., of Thermopolis, Wyo. The suspension order was based on the company's failure to comply with Regulation A by reason of the company's failure to file the required report of stock sales pursuant to the exemption. Subsequently, such a report was filed which complies with the requirements of the rule; and the Commission concluded that it was appropriate in the public interest to lift the suspension order.—V. 189, p. 1798.

Reinsurance Investment Corp.—Exemption Granted—

In a decision under the Investment Company Act announced March 6, 1961 the SEC granted an application of this corporation, of Jersey City, N. J., for exemption from all provisions of the Act for a period of one year. As of Sept. 30, 1960, the company had total assets valued at $5,596,722 and consisting of 1,152,000 shares of Loyal American Life Insurance Co. Inc. valued at $3,312,000 and 189,495 shares of American-Income Life Insurance Co. valued at $1,184,950, with the balance of its assets consisting mainly of government securities and cash. According to the decision, the company has majority voting control, although not majority ownership, of American; Loyal American until recently was a majority owned subsidiary and the company intends to acquire sufficient additional shares of Loyal American within one year to make it a majority owned subsidiary; and, in such latter event, the company may no longer fall within the definition of an investment company and may qualify for the requested exemption.—V. 193, p. 747.

Roulette Records, Inc.—Stock Offering Suspended—

The SEC has issued an order temporarily suspending a Regulation A exemption from registration under the Securities Act of 1933 with respect to a proposed public offering of stock by Roulette Records, Inc., of 1631 Broadway, N. Y.

Regulation A provides a conditional exemption from registration with respect to public offerings of securities not exceeding $300,000 in amount. In a notification filed on Aug. 29, 1960, Roulette Records proposed the public offering of 100,000 shares of common stock at $3 per share. The Commission's suspension order asserts that the company's notification and offering circular contain information which is false and misleading in respect of certain material facts and that the stock offering would violate the anti-fraud provisions of the law. The order provides an opportunity for hearing, upon request, on the question whether the suspension should be vacated or made permanent.

According to the Commission's order, it appears that the Roulette Records notification and offering circular (1) fail to disclose the existence of and subject matter involved in a pending proceeding before the Federal Trade Commission in which said Commission is alleging that Roulette Records, Inc. engaged in certain designated activities which constitute specified "unfair and deceptive acts and practices and unfair methods of competition in commerce within the intent and meaning of the Federal Trade Commission Act," and omit to disclose the sanctions which may be imposed upon Roulette Records, Inc. by the Federal Trade Commission; (2) fail to disclose material facts concerning the methods by which Roulette Records, Inc. has done and is now doing business, including: the acts, practices and methods by which it has promoted the sale of its products; the continued relationship of such acts, practices and methods to its sales and earnings; changes in such acts, practices and methods; and the effects on its sales and earnings of changes in such acts, practices and methods and (3) include financial statement of the company which are not in accordance with generally accepted accounting principles and practices, particularly with respect to (a) the amortization of the costs incurred by Roulette Records, Inc. in creating "master" records; (b) the write-off of goodwill to earned surplus; and (c) the treatment of amounts paid by Roulette Records, Inc. to certain artists as advance royalties.—V. 192, p. 1038.

San Diego Chargers, Inc., San Diego, Calif. — Files With Securities and Exchange Commission—

The corporation on Feb. 28, 1961, filed a letter of notification with the SEC covering 100,000 shares of capital stock (no par) to be offered at $3 per share, through Norman C. Roberts Co., San Diego, Calif.

The proceeds are to be used for working capital.

Sapphire Petroleums Ltd.—Debenture Conversion—

Sapphire Petroleums Limited of Toronto, Canada, proposes, subject to approval of its shareholders and debenture holders and the necessary increase in capital, to give to the holders of its convertible debentures the privilege, until May 26, 1961, of converting or exchanging their debentures into shares of the company on the basis of 2,000 shares for each $1,000 debenture. Notices calling meetings of shareholders and of the holders of the debentures due 1965 for March 22, 1961, and March 30, 1961, respectively were mailed and published on March 8.

The proposed changes will permit elimination of all or substantially all of the company's funded debt, presently in the neighborhood of $3,000,000, and consequent improvement of the company's operating position through reduction of the heavy charges occasioned by interest, principal and sinking fund payments on such debt.

The new conversion or exchange rate will become effective immediately following approval by shareholders and holders of debentures due 1965. Holders of debentures due 1962 will not be asked to approve a change in the conversion rate attaching to their debentures, as the trust indenture governing their issue does not provide for such a change. However, the company will offer, immediately following approval by the holders of debentures due 1965, to exchange shares for debentures upon the same basis as the new conversion rate.

At the present market price of approximately 50 cents per share, debenture holders converting or exchanging their debentures at the new rate will have an investment with a market value equal to the par value of the debentures previously held by them.

Schluderberg-Kurdle Co., Inc. — Common Stock Offered—An investment banking group consisting of Alex. Brown & Sons, Mackall & Co, and Scott & Stringfellow offered publicly on March 7 a new issue of 20,000 shares of non-voting common stock of Schluderberg-Kurdle Co., Inc., at $27 per share.

BUSINESS—The company, a Baltimore meat packer organized more than 100 years ago, is engaged in the buying, slaughtering and dressing of livestock and the processing and selling of meats and related products. Its products are sold principally under the Esskay label along the eastern seaboard from New York City to southern Virginia, and adjacent inland States.

PROCEEDS—Net proceeds from the offering will be used principally for capital expenditures to modernize hog slaughtering facilities at the Batlimore plant.

EARNINGS—For the fiscal year ended Oct. 30, 1960, net sales were $61,862,738 and net earnings $506,848. Net earnings per share of com-

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday and the Saturday figures are not available at time of going to press. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results of the previous week—the week ended March 4. For that week there was an increase of 19.4%, the aggregate clearings for the whole country having amounted to $30,958,197,959 against $25,924,793,255 in the same week in 1960. Outside of this city there was a gain of 11.5%, the bank clearings at this center showing an increase of 26.6%. We group the cities according to the Federal Reserve Districts in which they are located and from this we note that in the New York Reserve District the totals show an expansion of 26.4%, in the Boston Reserve District of 19.7% and in the Philadelphia Reserve District of 11.4%. In the Cleveland Reserve District the totals record an improvement of 5.7%, in the Richmond Reserve District of 22.8% and in the Atlanta Reserve District of 12.3%. The Chicago Reserve District has managed to enlarge its totals by 8.2%, the St. Louis Reserve District by 13.7% and the Minneapolis Reserve District by 6.7%. In the Kansas City Reserve District the totals register a gain of 11.1%, in the Dallas Reserve District of 13.1% and in the San Francisco Reserve District of 8.5%.

In the following we furnish a summary by Federal Reserve Districts:

Science Management Corp.—Formed—

A new Rocky Mountain area firm has been organized to lend financial and managerial assistance to small businesses in the electronic, aeronautical, chemical, nuclear and engineering fields.

Science Management Corporation is the name of the firm and it is headed by Frank R. Cook.

Mr. Cook is the founder and first President of the Frank R. Cook Co. of Colorado, a leading supplier of flight electrical power for guided missiles.

"A significant portion of scientific research and development in the electronic aeronautical, chemical and nuclear fields is being done by small firms," said Mr. Cook. "Such firms, specializing in sound technical development, have shown an immense rate of growth.

"However, a majority of them are of such size and character that they are denied long-term capital from banks, institutions and the public," he said.

"Science Management Corp. was founded to negotiate needed capital for such businesses and, additionally, to provide management service for them."

Associated with Mr. Cook will be Paul Dane, who established and developed the Department of Thermodynamics at the Air Force Academy in Colorado Springs. Mr. Dane, the new company's Vice-President, is a graduate of the California Institute of Technology and the Harvard Graduate School of Business Administration. He was senior military member of the advisory group for Aeronautical Research and Development at the North Atlantic Treaty Organization headquarters in Paris.

Mr. Cook, a graduate of Massachusetts Institute of Technology, was instrumental in perfecting the B-29 bomber in World War II. He was head of the Development Group for Research and Development on the War Department's General Staff. He came to Denver from the Minneapolis Honeywell Regulator Co., where he was director of aeronautical engineering, research and planning.

Mr. Cook said that the corporation's aim would be to stimulate the flow of equity capital and long-term funds to small firms in the scientific field. This effort would help the small firms "either to finance a new operation or to assist in growth, expansion or modernization of existing plant."

The new company has its offices at Suite 200 of the Hilton office building, 1515 Cleveland Place, in Denver.

Season-All Industries, Inc.—Registers Common—

Season-All Industries, Inc., Indiana, Pa., on March 8 filed a registration statement with the SEC covering 100,000 shares of common stock, to be offered for public sale on an all or none basis through underwriters headed by Moore, Leonard & Lynch. The public offering price and underwriting terms are to be supplied by amendment.

The company manufactures and distributes completely assembled aluminum combination storm-screen windows and doors, aluminum awnings, siding and accessories. Of the net proceeds from the stock sale $300,000 will be used to purchase new equipment and $200,000 to retire bank indebtedness. The balance will be added to working capital. Of said indebtedness, $75,000 was incurred in December 1960 to repay indebtedness to Frank Gorell, President, and Lillian Gorell, Treasurer, which had been incurred from time to time over the past several years for working capital purposes. The remaining indebtedness was incurred in 1957.

In addition to certain indebtedness, the company has outstanding 200,000 shares of common stock, all of which is owned by Frank and Lillion Gorell. Of such stock, 157,400 shares were issued to the Gorells in March 161 in exchange for the outstanding capital stock of six companies previously owned in major part by the Gorells.

Security Acceptance Corp.—Files Financing Plan—

Security Acceptance Corp., 724 9th Street, N. W., Washington, D. C., filed a registration statement with the SEC on March 7, 1961, covering 100,000 shares of class A common stock and $400,000 of 7½% ten-year debenture bonds. These securities are to be offered for public sale in units consisting of one $100 debenture bond and 25 class A shares, at $200 per unit. The offering will be made by company employees, and a $6.25 per unit selling commission will be paid. The registration statement also includes 180,000 additional class A shares which will be held in treasury for asset acquisition, and a further 100,000 class A shares which are to be issued to the promoters and management officials at $1 per share under options for services rendered and to be rendered.

The company was organized under District of Columbia law in 1959 by a group of Metropolitan Washington area business and professional people for the purpose of engaging in the finance business, principally purchasing conditional sales contracts on appliances and freezer food notes and the buying and selling and generally dealing in secured and unsecured notes, chattels, mortgages, deeds, trusts, accounts and bills receivable and loans and commercial paper and to conduct generally the business of commercial discounting of buying and selling such papers and chattels. It was organized principally to do business in the District of Columbia and Metropolitan Washington area. The net proceeds from the sale of the securities will be added to working capital and used to expand the company's business. According to the prospectus, such proceeds should provide the basis for increased or additional credit lines or may be used to discharge outstanding indebtedness.

The company has outstanding 20,000 shares of class B common stock purchased by officers, directors and promoters at the $1 par value per share, of which Philip Lendenbaum and Ann Lendenbaum, directors, own 5,600 shares each; each also owns options to purchase an additional 28,000 class A common shares. Manuel Auerbach is listed as presidenut.

with respect to public offerings of securities not exceeding $300,000 in amount. In a notification filed in September, 1958, Respondent proposed the public offering of 225,000 shares of 8% non-cumulative non-voting participating class A preference stock at $1 per share pursuant to such an exemption. The Commission asserts in its suspension order that certain terms and conditions of Regulation A were not compiled with by Respondent; that is offering circular was false and misleading by reason of its failure to disclose certain material facts; and that the stock offering has been and would be made in violation of the anti-fraud provisions of the law.

More particularly, the order asserts that Respondent's offering circular failed to disclose changes in the method by which its securities were to be offered, failed to disclose the name and address of the underwriter, and failed to provide financial statements prepared in accordance with generally accepted accounting practices. Regulation A was not complied with by reason of the offer and sale of securities by an underwriter not named in the offering circular and the continuance of the offer for more than nine months without revising the offering circular.—V. 188, p. 1316.

Stephenson Chemical Co., Inc., College Park, Ga.——

The corporation on Feb. 27, 1961 filed a letter of notification with the SEC covering 230 shares of class A common stock and 2,299½ shares of class B common stock to be offered at $110 per unit, in units of one share of class A common stock and 10 shares of class B common stock. No underwriting is involved.

The proceeds are to be used to purchase real estate, machinery and equipment, raw materials and for working capital.—V. 187, p. 2120.

Sterling Investment Fund, Inc.—Acquisition Cleared—

The SEC has issued an exemption order under the Investment Company Act permitting Sterling Investment Fund, Inc., Charlotte, N. C., to issue its shares at their net asset vaule for substantially all of the cash and securities of J. T. Beaty Co., valued at $87,981 as of Aug. 9, 1960.—V. 193, p. 749.

Stratton Corp.—Registers Debentures—

The corporation of South Londonderry, Vt., filed a registration statement with the SEC on March 3, 1961 covering $650,000 of 5% convertible subordinated debentures due Dec. 1, 1981, to be offered for public sale at 100% of principal amount. The offering will be made on a best efforts basis through Cooley & Co., which will receive a 2½% selling commission. The debentures are convertible into common stock at the conversion price of $20 per share.

The company was organized under Vermont law in July 1960 by a group of 34 individuals for the purpose of developing and operating a winter and summer recreational resort on Stratton Mountain in Southern Vermont. During the first two years, emphasis will be placed on the construction of winter facilities, particularly for skiing. The said 34 promoters, most of whom reside or have homes in the Stratton Mountain area, provided the company with land, capital and other assets with which to start the development of its business. Between August 1960 and January 1961 a total of 138,000 shares of common stock was issued to the members of this group and certain other individuals for $360,000 in cash (on the basis of $5 per share), for about 1,000 acres of land (and certain buildings thereon), and for promotional and other expenses. The net proceeds from the debenture sale will be used to defray expenditures incurred in carrying out that part of the company's development program designated as Phase II, which includes $839,500 of construction expenditures. Phase II includes $335,000 for the erection of three double chair lifts and $220,000 to complete the base lodge and for equipping and furnishing a cafeteria. The company will borrow the balance of funds needed to finance Phase II from a bank.

The company has outstanding 138,006 shares of common stock, of which Herbert O. Smith, board chairman, owns 20,001 shares and Frank V. Snyder, President, 25,001 shares.

Sunset Color Laboratories, Inc.—Common Stock Sold—Pursuant to a March 9 offering circular, an underwriting group headed by Jacey Securities Co., 82 Beaver Street, New York City, and including Professional & Executive Planning Corp. and Sunshine Securities, Inc., publicly offered and sold 80,000 shares of this firm's 1¢ par common stock at $2.25 per share.

BUSINESS—The company was organized and is engaged in the business of processing of color photographic film and the sale of film and photographic accessories and supplies. The company, one of the first processors other than Eastman Kodak Co. to enter the color field, commenced processing color film and making color prints from transparencies in 1945, when the business was conducted by its president, Lloyd B. Marshall, originally as a sole proprietorship prior to its incorporation in 1948. Mr. Marshall may be deemed to be a promoter. The company commenced processing Kodacolor in 1960.

PROCEEDS—It is anticipated that the aggregate proceeds to the company from the sale of all of the 80,000 shares of common stock offered will be $145,000, after deducting underwriters' commissions and expenses. The aggregate proceeds will be added to the general funds of the company and will be used for the following purposes, in the estimated sums, and in the order indicated:

(1) Expenses of offering to be borne by company	$7,000
(2) Promotion and advertising and increase of sales staff	15,000
(3) Inventory of film and supplies	50,000
(4) Additional equipment	5,000
(5) Repayment of notes payable to banks	14,000

Sunset Outdoor Advertising, Inc., Los Angeles, Calif.—Files With Securities and Exchange Commission—

The corporation on Feb. 20, 1961, filed a letter of notification with the SEC covering 90,000 shares of common stock (par 25 cents) to be offered at $2.50 per share, through Pacific Coast Securities Co., San Francisco, Calif.

The proceeds are to be used to acquire the assets of Crown Outdoor Advertising; for a down payment on the purchase of Ver Plank Outdoor; to pay off on structures under lease; bank loans; organizational take-over of Crown and Ver Plank; accounts payable; to construct five new billboards; construct 10 new structures and for working capital.

Synco Resins, Inc., Bethel, Conn.—Files With SEC—

The corporation on March 1, 1961 filed a letter of notification with the SEC covering 47,338 shares of common stock (par one cent) to be offered at $1 per share for subscription by stockholders of record on the basis of one share for each seven shares held. No underwriting is involved.

The proceeds are to be used for working capital.—V. 184, p. 263.

Telephone & Electronics Corp. — Rights Offering to Stockholders—Pursuant to a March 7 offering circular, Equity Securities Co., 39 Broadway, New York 6, N. Y., offered to this firm's stockholders of record March 6 rights to subscribe to 52,980 shares of the firm's 25¢ par common stock at $5 per share, on the basis of three such shares for each five shares then held. Rights expire March 21.

BUSINESS—The company was incorporated in the State of New Jersey on April 30, 1956. Its principal office is located at 7 East 42nd St., New York 17, N. Y., and its principal place of business is located on Route 10 at Franklin Road, Dover, N. J. The company was originally incorporated under the name of "A. L. T.", and the company's name was changed to "Telephone and Electronics Corp" by Certificate of Amendment filed March 22, 1960.

Up to the present time, the company has been engaged almost exclusively in the research, development and design of electronic communications equipment. The company has done substantial research in the field of automatic telephone and radio communications. Its research and development efforts have been directed at perfecting and rendering marketable two items, viz., an automatic loudspeaking telephone and a citizens' band radio telephone.

PROCEEDS—If all shares offered hereunder are sold, the net proceeds after underwriter's commissions and expenses and the company's estimated expenses have been deducted are expected to be a minimum of approximately $197,000 and a maximum of approximately $219,000. The company plans to use such proceeds for general corporate purposes, including repayment of $40,000 in loans, and for working capital.

Telescript-CSP Inc.—Common Stock Sold—Pursuant to a March 2 offering circular, Robert A. Martin Associates, Inc., 680 Fifth Avenue, New York City, publicly offered and sold 60,000 shares of this firm's 1¢ par common stock at $5 per share. This offering sold quickly at a premium.

Telescript-CSP Inc. was incorporated in New York on Nov. 21, 1957 and maintains its principal place of business at 155 West 72nd Street, New York, N. Y.

The company designs, assembles, leases and sells audio-visual communication equipment including speech prompting devices, rear and front screen projectors and an electronic television tape editing machine. The company also provides prompting services to television and motion picture studios and others.

PROCEEDS—It is anticipated that the net proceeds to the company from the sale of the stock will aggregate approximately $244,500 after deducting the underwriting commissions and expenses of the underwriter paid by the company and expenses of the company estimated at $7,500. The company contemplates that such proceeds will be devoted to the following purposes in the order of priority indicated:

Repayment of short-term bank loan	$18,000
Additional manufacturing facilities (machinery, equipment and estimated rental for one year for plant space)	25,000
Product development	15,000
Expansion of sales force (estimated salaries for one year)	25,000
Addition to working capital	86,500
Available for possible acquisition or investment to broaden product line	75,000
	$244,500

Holders of the common stock of the company are entitled to receive such dividends as are declared by the board of directors; upon liquidation to share ratably in any assets available for distribution; and to one vote per share on all matters voted upon by stockholders. Stockholders do not have preemptive rights. The shares offered hereby will be fully paid and nonassessable except that pursuant to the provisions of Section 71 of the Stock Corporation Law of the State of New York, stockholders of every stock corporation are jointly and severally liable for all wages and salaries due and owing to laborers, servants and employees, other than contractors, for services performed by them for such corporation.

The company duly effected a recapitalization by appropriate action and amendment of its Certificate of Incorporation on Nov. 16, 1960 to provide, among other things, for the increase of the number of authorized shares from 800 shares, par value $1 per share, to 250,000 shares, par value 1c per share.

APPOINTMENTS—The transfer agent for the stock is Chemical Bank New York Trust Co. The Meadow Brook National Bank is the registrar.

Tennessee Gas Transmission—Pipeline Hearing Scheduled—Annual Report—

Reopening of the Rock Springs natural gas pipeline proceedings, and their consolidation for comparative hearing and simultaneous decision with pending application to construct and operate the California section of the proposed $225,000,000 Texas-Mexico-California pipeline project, was asked of the California Public Utilities Commission in a motion filed on March 7.

It was filed by California Gas Transmission Co., Los Angeles-based subsidiary of Tennessee Gas Transmission Co. of Houston, Texas. Hearings will resume March 15 before the Commission on applications by California Gas to build and operate the 280-mile, $50,000,000 California section of the project, and of Southern California Edison Co. as the purchaser and user of the Texas and Mexican gas to be transported.

Under the proposal, Tennessee California Gas Transmission Co. of Houston, another Tennessee Gas subsidiary, would build and operate the 105 miles of the pipeline system in Texas. Pemex (Petroleos Mexicanos), the oil and gas agency of Mexico, would own and operate the 1,200-mile section across northern Mexico.

The Rock Springs project is a joint proposal of El Paso Natural Gas Co. and Colorado Interstate Gas Co., filed before both U. S. and California authorities, to deliver gas at the Nevada-California line near Los Vegas to Southern California Gas Co. and Southern Counties Gas Co., both of Los Angeles. In December, 1960, the Federal Power Commission in Washington approved the interstate phase of the project subject to P. U. C., approval of the California part.

The Public Utilities Commission, also in December, granted approval subject to certain conditions. In January, Southern California Gas and Southern Counties Gas filed a statement of compliance with the conditions. The P. U. C. began hearings in February to determine whether the conditions had been met.

Meantime, the Federal Power Commission in Washington on Feb. 21 granted a rehearing of the Rock Springs project in an order that said the attempted compliance with the P. U. C. conditions, if complied with, may alter the proposal materially.

In the March 7 motion, California Gas contended that Rock Springs as now proposed is a completely new and different project with different volumes of gas, prices and an economic feasibility based on obtaining additional gas from another concern, Transwestern Gas Pipeline Co., which has filed no application to provide it.

In urging consolidation of the proceedings, California Gas pointed out that both Rock Springs and Texas-Mexico-California projects rely on Southern California Edison Co. as a principal customer. Edison, however, strongly backs Texas-Mexico-California to supplant its present interruptible gas supply with a long-term, year-around supply to combat the smog problem and stabilize its electric rates to its customers.

California Gas said Rock Springs backers, under their new plan, would not begin construction of new facilities for two years.

"The inevitable conclusion is that the gas companies (Southern California Gas and Southern Counties Gas) now seek certification of a project to be constructed two years hence in an ill-disguised effort to block the CalGas-Edison project," the motion said.

"CalGas is preparing a study for submission at the March 15 hearings which will demonstrate the most reasonable and economical way of satisfying the needs for gas of the Southern California market. Such study will show the most reasonable and cheapest way to supply the market, involves a modification of the new Rock Springs project and a grant of the CalGas project."

The motion noted that a P. U. C. staff counsel has made an oral motion that the two projects be consolidated for comparative hearing.

Consolidated 1960 net income rose to $61,588,972, highest in its history, and new peaks also were reached in operating revenues, volumes of gas delivered to customers, and crude oil produced, refined and marketed.

This was shown in the firm's 1960 annual report to stockholders. The number of common stockholders was increased by over 26,000—largest annual gain yet experienced—to 127,517 at year-end.

Broad company growth was reported. Total assets exceeded $1.7 billion at year-end. Capital expenditures in 1960 amounted to $172,000,000.

"The new highs in earnings and sales demonstrated strength and vitality, based on diversification," Gardiner Symonds, company Chairman commented in an accompanying letter to stockholders. "This was noteworthy in view of regulatory problems and the reduced national level of business activity."

Net income was 18% more than in 1959. After provision for preferred dividends, earnings available for the common stock were $53,137,885 equal to $1.35 per share on 39,368,354 common shares outstanding at year-end. This compared with $1.14 per share for 1959, based on the same number of shares.

Operating revenues exceeded a half-billion dollars for the first time. They were $554,706,684, or 20% above 1959. Gas deliveries averaged 2.44 billion cubic feet per day versus 2.04 billion for the previous year.

Midwestern Gas Transmission company, a subsidiary, built and put in operation its second pipeline. Running 551 miles through Minnesota and Wisconsin, the line provides the upper Midwest with its first Canada-produced natural gas.

Net production of oil and condensate rose 16% to 40,385 barrels per day, plant products 25% to 6,200 barrels per day and natural gas 47% to 180 million cubic feet daily.

Reserves of oil and other liquids reached a new peak of more than 204 million barrels, a 45% increase. The company drilled 328 gross or 252 net wells in North and South America. About one-fourth of 74 net wildcats drilled were producers, as were 154 of the 178 net development wells drilled.

Tanker-loading facilities were completed at the Island of Tierra del Fuego and over 1,600,000 barrels of company oil were shipped in the last five months of the year to the Argentine Government. Exploration activities were extended to a third continent, Africa, when the government of Nigeria granted the company an oil prospecting license on 1,280,000 acres.

Added emphasis was given oil refining, marketing and product processing. Crude oil runs at company refineries rose 18% to an average for the year of 39,800 barrels per day.

A corporate realignment to more clearly separate the company's utility-type business from its other interest was authorized in late 1960 and completed in early 1961. A subsidiary, Tenneco Corp., holds ownership of the non-utility properties, with two new major subsidiaries of its own. One is Tenneco Oil Co., which operates all oil, gas and liquefied gas properties as an integrated oil company. The other is Tenneco Chemical Co., which will construct and operate a large petrochemical complex on the Houston Ship Channel.

The company made a 50% common stock distribution during the year to its holders of common stock and established a new dividend rate of $1.12 per share per year on the increased number of shares.

Registers Preferred—

March 8, 1961 this company filed with the SEC a proposed offering of 200,000 shares of cumulative preferred stock (par $100). Proceeds will be used to retire short-term notes issued in connection with property acquisitions. Stone & Webster Securities Corp., and White, Weld & Co., both of New York City will underwrite the issue which is scheduled to be publicly offered on or about April 5.—V. 193, p. 749.

Time Finance Corp.—Partial Redemption—

The corporation has called for redemption on April 1, next, through operation of the sinking fund, $28,000 of its 6½% convertible subordinated debentures, series A, due Oct. 1, 1969 at 103½%. Payment will be made at the Old Colony Trust Co., Boston, Mass.

The debentures are convertible into class A common stock to March 28, 1961, inclusive, at the rate of 67 shares per $500 of debentures, April 1, 1961.—V. 193, p. 148.

Tip Top Products Co.—Class A Common Offered—Pursuant to a Feb. 28 prospectus, an offering group headed by J. Cliff Rahel & Co. and The First Trust Co. of Lincoln, Nebr., publicly offered 60,000 shares of this firm's $1 par class A common stock at $33 per share.

BUSINESS—Tip Top Products Co. was incorporated under the laws of the State of Nebraska on Feb. 1, 1946. It was founded by Carl W. Renstrom as a sole proprietorship in 1932 and engaged in the packaging and merchandising of heatless liquid solder and adhesives. In 1937 it began to manufacture and merchandise hair curlers, and has subsequently added other hair accessory lines. Carl W. Renstrom is the owner of all the outstanding shares of the class B common stock of the company (60,000 shares of which will be converted, share for share, into class A common stock and are being offered) representing 61.06% of the voting stock as of Jan. 25, 1961. After such conversion and sale Mr. Renstrom will own

352,000 shares of class B common stock, representing 52.16% of the voting stock, thus making him the controlling stockholder of the company.

PROCEEDS—The 60,000 shares of stock offered are being purchased by the underwriters from Carl W. Renstrom (the selling shareholder) and the company will receive none of the proceeds from the sale of such shares. The company has agreed to pay the expenses in connection with this offering other than stock transfer taxes and underwriting commissions which will be paid by the selling shareholder.

Tool Research & Engineering Corp.—Contracts—

The Beverly Hills, Calif., corporation has received contracts totaling $1,750,000 President Leopold S. Wyler, Jr., announced on March 1.

The orders were for stainless steel honeycomb core for the B70 program placed by North American Aviation, titanium fabrication as well as components for the Hound Dog missile program. The contracts call for production to begin immediately.

Mr. Wyler stated that the orders raised the company's current backlog to a record $6,750,000. This compares with a backlog of $5,100,000 at Jan. 1, 1961 and $1,650,000 at Aug. 1, 1960, the start of the company's current fiscal year.

He said that February sales were approximately $1,200,000, the highest monthly total in the company's history. For the balance of the fiscal year a continuation of this sales rate is expected, he said. For the fiscal year ended July 31, 1960, Tool Research registered $8,747,000 in sales.

The company is the nation's largest producer of stainless steel honeycomb core and in addition is engaged in research, development and production of special and automated tooling; plastic components and assemblies for advanced aircraft and missiles; lock sets for commercial and residential construction; exotic metals for space and missile applications and conducts industrial, missile and space vehicle engineering services.—V. 193, p. 353.

Tronomatic Corp., Bronx, N. Y.—Files With SEC—

The corporation on Feb. 27, 1961 filed a letter of notification with the SEC covering 65,000 shares of common stock (par 10 cents) to be offered at $4 per share, through Plymouth Securities Corp., New York, N. Y.

The proceeds are to be used for general corporate purposes.

United States Envelope Co.—Sales, Net Down—

Net sales were $12,832,000 for the first three-month period ending Jan. 31, 1961, it was announced by Joseph S. Fairchild, President, in a letter to stockholders.

This was a decline of less than 3% below last year's level for the same period. Estimated profit was off about 25%, reflecting the impact of the cost-price squeeze and the severe competitive situation in the envelope business, according to Mr. Fairchild.—V. 191, p. 2140.

United Utilities, Inc.—Revenues, Net Up—

This Kansas City, Mo., company reported preliminary earnings available to the common stock were $6,154,000 in 1960, compared to $4,921,203 in 1959. On the basis of 2,545,364 average number of shares outstanding, the earnings were equal to $2.42 a share, compared with $2.09 a share on a smaller capitalization of 2,350,378 average shares in 1959.

Total operating revenues amounted to $45,157,000 in 1960 as against $42,442,240 in the preceding year.—V. 193, p. 52.

Universal Manufacturing Co., Winona, Minn. — Files With Securities and Exchange Commission—

The company on Feb. 23, 1961 filed a letter of notification with the SEC covering 150,000 shares of common stock (par 10 cents) of which 15,000 shares are to be offered to officers and key employees of the company, pursuant to a stock option plan, 35,000 shares to the public by the company, and 100,000 shares to the public by selling stockholders as follows: to officers and employees, at $1.90 per share; to the public by the company, at $2 per share, and to the company by the selling stockholders, at $2 per share. The offering will be underwritten by Naftalin & Co., Minneapolis, Minn.

The proceeds are to be used for working capital.

Value Engineering Co., Alexandria, Va. — Files With Securities and Exchange Commission—

The company on Feb. 28, 1961, filed a letter of notification with the SEC covering 20,000 shares of common stock (par 10 cents) to be offered at $2.50 per share, without underwriting.

The proceeds are to be used for improvement of electro facilities; research and development and working capital.

Varian Associates—Calls Debentures—

The Board of Directors of Varian Associates voted on March 3 to call for redemption on April 10, 1961 all of the company's outstanding 15-year 4½% convertible subordinated debentures, due July 15, 1974.

The redemption price is 104.5% of the principal amount, together with interest accrued to April 10, 1961. The price payable for each debenture will therefore be $1,045 plus accrued interest of $10.625.

The debentures are convertible into shares of the company's capital stock on the basis of one share of stock for each $40 principal amount of debentures held, if submitted to the company's agents on or before the close of business on April 5, 1961.

The company's agents for redemption or conversion of the debentures are Crocker-Anglo National Bank, One Montgomery Street, San Francisco 20, Calif.; and the First National City Bank of New York, 55 Wall Street, New York 15, New York.

The company presently has outstanding debentures in a total principal amount of $3,773,000. If all debentures are converted to capital stock, 94,325 shares of stock will be issued in exchange. These shares represent 2.8% of the 3,379,469 shares presently outstanding.—V. 193, p. 646.

Vector Engineering, Inc., Newark, N. J.—Files With Securities and Exchange Commission—

The corporation on March 3, 1961 filed a letter of notification with the SEC covering 50,000 shares of common stock (par 10 cents) to be offered at $6 per share, through Omega Securities Corp., New York, New York.

The proceeds are to be used for general corporate purposes.

Virginia Telephone & Telegraph Co.—Rights Offering to Stockholders—Pursuant to a Feb. 28 offering circular, this company, of 417 West Main St., Charlottesville, Va., offered to stockholders of record Feb. 24, 7,414 shares of its $10 par common stock at $19 per share on the basis of one such share for each 15 shares then held. Rights expire tomorrow (March 14). California residents are ineligible to participate. Unsubscribed shares will be publicly offered at $21.50 per share by the Lynchburg, Va. office of Francis I. Dupont & Co. and C. F. Cassell & Co., Inc., Charlottesville, Va.

PROCEEDS—The proceeds of the offering, together with the proceeds received by the company from the sale of $800,000 principal amount of its first mortgage sinking fund bonds to be delivered on or before May 31, 1961, will be available for and applied to the company's construction program for the year 1961 estimated at $2,380,000.

The company's construction program for 1961 provides for additions to facilities throughout the company's system, including the installation of an additional dial automatic exchange at Arvonia, Va., preliminary work involved in the conversion of the company's last remaining common battery exchange at Blackstone, Va., to dial automatic operation scheduled for completion in late 1962 and installation of seven digit number equipment at several other exchanges to prepare for installation of direct distance dialing equipment in such exchanges in 1962.

BUSINESS—The company was organized under the laws of Virginia on Feb. 10, 1931. It owns and operates 27 telephone exchanges in that State together with various connecting lines. There is no competing telephone service in the areas served by the company. The company owns no interstate toll lines but has interconnections with the toll lines of the Bell System and other unaffiliated companies through which toll service is provided to all points not connected by the company's own lines. The company's largest exchange is at Charlottesville, serving at Nov. 30, 1960, approximately 21,500 of the 49,775 company-owned stations at that date. These 49,775 stations represent an increase of more than 7% over the 46,401 company-owned stations at Nov. 30, 1959. This increase was achieved without any purchase or acquisition of telephone properties of others. It is estimated that the number of company-owned stations will increase to more than 53,300 by Nov. 30, 1961.—V. 193, p. 957.

Vitamix Pharmaceutical, Inc.—Registers Common—

This firm, of Philadelphia, Pa., filed a registration statement with the Securities and Exchange Commission on March 6 covering the proposed public offering of 100,000 shares of common stock. The shares to be offered by the company will be in addition to the presently outstanding 335,000 shares. The company compounds, manufactures, packages and sells ethical pharmaceuticals, proprietary drugs and vitamin products throughout the United States.

The stock offering will be underwritten by a group of investment dealers headed by Bache & Co.

White Motor Co.—Sales, Net Down—

The Cleveland company, despite an industry drop of approximately 35% in heavy-duty truck sales during the last six months of the year, reported sales and earnings for 1960 that made the year the second best in the company's 60-year history.

Sales of the company for 1960 totaled $282,695,718 and net income was $8,875,813 as compared to record sales of $333,101,125 and net income of $14,209,244 in the same 1959 period.

Net income for 1960 was equal to $3.87 per share of common stock based on a weighted average of outstanding shares, giving effect to issuance of 655,000 shares in connection with the acquisition of the farm equipment business and certain other assets of Oliver Corp. as of Oct. 31, 1960.

This compared with net income of $6.62 per share for 1959, based on the number of shares outstanding at the end of the year adjusted for the 5% stock dividend distributed on Jan. 10, 1960.

According to R. F. Black, Chairman of the Board of White, and J. N. Bauman, President, commercial sales of the company declined only 12½% during the year. The remainder of the loss in sales, they said, was accounted for by a decrease in sales to the United States Government.—V. 192, p. 1654.

(F. W.) Woolworth Co.—Sales Up, Net Down—

F. W. Woolworth Co. reported on Feb. 23 that consolidated sales for 1960 reached an all-time high of $1,035,292,793, an increase of $49,078,891—or 4.98%—over 1959. It was the first time in the company's 81-year history that sales passed the $1-billion mark.

Net profits for 1960 were $46,927,512 or $4.84 per common share, compared with $48,332,487 or $4.98 per common share in 1959—a drop of 2.9%. These profits include for the first time Woolworth's full share of income from German, Mexican and British subsidiaries. The consolidated figures for both years are on a comparative basis, the report noted.

The report stated that consolidated sales for December of last year were $174,042,742 or 0.63% less than December of 1959.

Robert C. Kirkwood, President, informed stockholders that the new method of consolidating financial information was adopted because of the growing importance of foreign operations. Canadian subsidiary results have always been consolidated, he pointed out, but not previously those of the German and Mexican companies.

With respect to F. W. Woolworth and Co., Limited, England, in which the parent company has a 52.7% interest, all of the company's equity in the British company's earnings—rather than only the dividends received—have been taken up in income, Mr. Kirkwood explained. In addition, the carrying value of the parent company's investment has been increased to an amount equivalent to its large equity in the British company's net assets.

Wyle Laboratories — Common Stock Sold — Kidder, Peabody & Co. and Mitchum, Jones & Templeton offered and sold jointly on March 7, 110,000 common shares of Wyle Laboratories at $19.50 per share. Of the shares offered, 100,000 were sold by the company and 10,000 shares by Frank S. Wyle, President. The offering sold quickly at a premium.

PROCEEDS—Proceeds of the shares sold by the company will be used to repay short-term borrowings incurred to finance an expansion program underway. The balance will be added to working capital.

BUSINESS—Wyle Laboratories believes it is the largest independent laboratory in the country providing testing services to the missile-space-aircraft industry. It tests the full-scale operation of components and systems under simulated extreme environmental conditions. The company also has a manufacturing division which has developed and produces several product lines. Significant among these are the modular walk-in environmental test chambers, the Hydrasheker—an extremely high-force electro-hydraulic vibration system—and liquid carbon dioxide storage and handling equipment.

EARNINGS—For the fiscal years ended Jan. 31, 1959 and Jan. 31, 1960, the company had net sales of $4,192,597 and $4,589,448, respectively, and net earnings per share of 30 and 41 cents, respectively. For the ten months' periods ended Nov. 30, 1959 and 1960 the company reported net sales of $3,650,290 and $5,429,113, respectively, and net earnings per share of 32 and 65 cents, respectively. Since its formation the company has retained its earnings and not paid cash dividends.

CAPITALIZATION—Giving effect to the offering, capitalization of the company as of Dec. 31, 1960 consists of $396,822 in debt and 540,000 shares of common stock, no par value.—V. 193, p. 425.

Wynnco Investment Co., Venice, Fla.—Files With SEC

The company on Feb. 27, 1961 filed a letter of notification with the SEC covering 2,500 shares of class B common stock to be offered for subscription by original stockholders at par ($100 per share), without underwriting.

The proceeds are to be used for business investments.

Yardney Electric Corp.—Defense Contracts—

The U. S. Air Force and the Navy's Bureau of Naval Weapons on Feb. 27 awarded the corporation new contracts totaling over $3,000,000.

Michel N. Yardney, President, announced that the Navy orders cover two contracts—one for $1,296,300; the other for $823,600—for extremely powerful and compact Silvercel silver-zinc batteries to be used in electric homing torpedoes.

Yardney Electric has been supplying the Silvercel batteries which have been an integral part of the Navy's torpedo and submarine programs for the past 12 years, including the Astor, Mark 37, Mark 39 and Mark 43 torpedoes, and the experimental Albacore submarine.

Mr. Yardney revealed that the Air Force orders are for $384,152 —for high-energy batteries to be used in the Bomarc missile—and for $17,090 for helicopter batteries.—V. 193, p. 52.

Pennsylvania (State of)

Progress Report — During the decade of the 1950's the Commonwealth of Pennsylvania, along with many of its individual municipalities, has been in the vanguard of all the states in meeting the needs and demands of its citizens for vastly expanded and improved municipal services.

More than 19,000 school classrooms have been built. Improved, expanded, or new water and/or sewer services have been provided for over 750 communities. In addition, some 100 cities and towns have built parking lots. Middle-income housing, recreation areas, hospitals highways, bridges, state and local office buildings and borough halls,, etc., have been built and financed.

The major portion of the cost of these projects have been financed through Pennsylvania's now famous "Authority" method.

A catalogue of Pennsylvania authorities prepared by Kidder, Peabody & Co., and the first and only one of its kind ever published, states that there are now over 1,700 individual authority bodies (35 of them state agencies and the balance local) which are paying for their projects by having issued some $3 billion of bonds. Kidder, Peabody & Co. has acted as either a major underwriter or financial advisor in almost 30% of this financing.

The Kidder, Peabody catalogue lists 1,765 issues amounting to $3,003,583,472 of which 1,730 were local issues totaling $1,671,607,472 and 35 were state issues involving $1,331,976,000.

NEW BRUNSWICK

New Brunswick Electric Power Commission, New Brunswick

Debenture Sale—The Commission has completed the private placement with institutional investors of $15,000,000 of 5¼%, 25-year sinking fund debentures. Principal and interest of the debentures are unconditionally guaranteed by the Province of New Brunswick.

The First Boston Corporation and Harris & Partners, Inc. acted as agents for the Power Commission. The financing is the first one in which the Commission has borrowed long-term funds directly in any market, the Province having formerly entered the long-term capital markets on behalf of the Commission.

The proceeds of the debentures are to be applied to the repayment of bank loans, to meet maturities on notes advanced by the Province and for construction. The Commission expects to complete in mid-1961 a new steam plant at East St. John, which will have a capacity of 50,000 kw., and has scheduled completion of a third 36,000 kw. unit for the Beechwood hydro-plant in early 1962.

The Commission is the principal supplier of electricity in the Province having 67% of the generating capacity available there. Most of the balance of generating capacity in the Province is owned by various pulp and paper companies for their own requirements. The Commission sells electricity directly to approximately 103,000 customers and indirectly through wholesale outlets to approximately 42,000 customers.

Shawinigan
REPORTS
HIGHLIGHTS FOR 1960

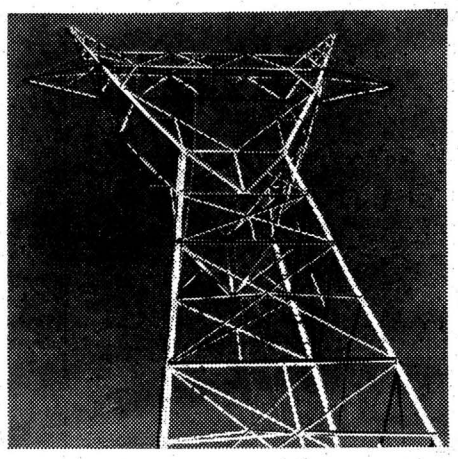

Revenue from sales of electricity, up 7.4% over 1959, was at a record high. Kilowatthour sales of primary power to major industries rose 8.6% and to residential commercial and other customers 7.9%. Number of customers increased 3.2% to 362,296.

Total operating expenses were up 9.1% due mainly to substantially larger power purchases and to increased provision for depreciation and for income taxes.

Water in storage at the year end was 21% above the long term average.

Capital expenditures amounted to $17,702,658 compared with $17,451,643 in 1959. These expenditures were mostly for the extension of transmission and distribution facilities and for construction of service buildings.

Financing: No new financing was undertaken in 1960. Funded debt was reduced to $160,012,000 through the retirement of $1,699,000 first mortgage bonds under sinking fund provisions.

SHAWINIGAN CHEMICALS LIMITED

Two new plants, one for the manufacture of sodium cyanide at Shawinigan East and one for fine-ground limestone at Bedford, were completed during the year. At Weston, Ontario, The McArthur Chemical Company Limited, a wholly-owned subsidiary, completed construction of an office building, warehouse, and tank farm. Consolidated net earnings of the Company and its wholly-owned subsidiaries in 1960 amounted to $1,845,896 compared with $1,938,122 in 1959. Dividends totalling $1,000,000 were paid to The Shawinigan Water and Power Company.
