Abbey Automation Systems, Inc.—Common Registered This company, of 37-05 48th Ave., Long Island City, N. Y., filed a registration statement with the SEC on June 6 covering 100,000 shares of common stock, to be offered for public sale at \$3 per share. The offering will be made on a best efforts basis through John Joshua & Co., Inc., which will receive a 45c per share selling commission and \$15,000 for expenses. The registration statement also includes 30,000 common shares which the company sold the underwriter at 1¢ each, and 20,000 common shares issued by the company for legal services.

The company was organized under Delaware law in April, 1961, to engage in the business of designing, manufacturing and selling automation equipment for industry, under patents obtained by Harold G. Abbey, President and principal stockholder, and assigned by him to the company. Initially such equipment will be for use in the field of metal plating and subsequently in the field of materials handling. The company is engaged in soliciting orders and intends initially to conduct the major part of its manufacturing and assembly business by subcontracting to other existing facilities. The estimated net proceeds of \$225,000 will be used for new facilities, a sales program, a demonstration laboratory, and for general funds.

The company has outstanding 210,000 shares of common stock, having a book value of 24c per share, of which Abbey owns 76.2% and management officials as a group 96.4%. The shares owned by Abbey were issued to him in consideration of his transfer to the company of the patents having a cost to him of \$50,227.83.

American Missiltronics Corp.—Class A Common Registered—

This corporation, of 136 Orange St., Newark, N. J., filed a registration statement with the SEC on June 6th covering 125,000 shares of class A common stock, to be offered for public sale at \$4 per share. The offering will be made on a "best-efforts all-or-nothing" basis through T. M. Kirsch Co. New York City, which will receive an 80c per share commission and \$20,000 for expenses. The registration statement also includes 25,000 class A shares which the company will sell to the underwriter for 10c per share if all the shares being registered are sold. The underwriter also will be entitled to purchase 10,000 class B shares at 10c per share.

The company (formerly Marsan Industries, Inc.) was organized under New Jersey law in December, 1960, as successor to Jersey Packing Co., American Missiltronics Corp. and United Packing Co. Through its American Missiltronics Division, the company proposes to engage in the development and manufacture of television camera tubes, equipment for closed circuit television systems and certain special purpose semi-conductor devices. It has also designed and proposes to engage in the further development of additional products such as miniaturized television cameras, semiconductor devices and an aircraft transponder. This division has been engaged principally in research and development, no sales of products having been made. Through its Jersey Packing Company Division, the company is engaged in the wholesale and retail distribution of meat, meat products and other food products. The estimated \$350,000 net proceeds from the stock sale will be used to repay notes payable, to purchase equipment and machinery for, and to expand the facilities of the Missiltronics Division, for product refinement and research and development and advertising of new products of said division, for purchasing raw materials in that division, and for general working capital.

In addition to certain indebtedness, the company has outstanding 160,000 shares of

American Telephone & Telegraph Co. Offered—A Morgan Stanley & Co. nationwide under-writing group comprised of 143 investment firms pub-licly offered on June 7 a new issue of \$250,000,000

American Telephone & Telegraph Co. 37-year 4¾% debentures. The debentures, due June 1, 1998, are priced at 101.225% and accrued interest to yield approximately 4.68% to maturity. The issue was awarded to the group at a competitive sale June 6 on its bid of 100.399% which named the 4¾% coupon. The debentures will not be redeemable prior to June 1, 1971. A competing offer by the First Boston Corp. and Halsey, Stuart & Co. Inc., stipulated a 4½% coupon and a 101.90 bid. 101.90 bid.

The offering ranks with the major underwritten corporate debt financing operations of recent years. In the last seven years, American Telephone has brought out six quarter-of-a-billion-dollar debenture issues, sold at competitive bidding, the most recent an issue of 4%s due 1992 marketed by a Morgan Stanley group in October, 1960.

Net proceeds of the issue estimated at \$250,531,000 will be used by the company for its general corporate purposes including advances to subsidiary and associated companies, the purchase of stock offered for subscription by such companies, and for extensions, additions and improvements to the company's own telephone plant.

for subscription by such companies, and to exceed the improvements to the company's own telephone plant.

The company intends to call for redemption on or about July 10, 1961, at 107.75% its \$250,000,000 outstanding 27-year 5%% debentures due Nov. 1, 1986. The redemption payment will be made from the company's general corporate funds.

Beginning with June 1, 1971 the optional redemption price for the new debentures will be 103.725% to and including May 31, 1972 and, after that date, they will be redeemable at prices decreasing from 103.58% to the principal amount on and after June 1, 1993.

Capitalization of American Telephone and its principal telephone subsidiaries at Dec. 31, 1986 consisted of \$7,232,239,000 of funded debt and \$13,180,747,000 capital stock and surplus.

Consolidated total operating revenues of the company and its 19 principal telephone subsidiaries for the year 1960 were \$7,920,454,000 and total income before interest deductions was \$1,508,226,000, compared with \$7.392.997.000 and \$1,370,410,000 in 1959.

Amphenol-Borg Electronics Corp.—West German Sub.
This corporation has established a wholly-owned subsidiary in eisenhofen/Munich, West Germany, it was announced on May 26 william H. Rous, vice-president, international and marketing the parent corporation.

Mr. Rous said the German affiliate, known as Amphenol-Borg Electronics GmbH, will serve all six of the member nations of the European Economic Community.

"The new company will tool and market Amphenol-Borg products

in the electronics field and will have an engineering capability geared to designing and manufacturing other products which may be unique to the European market and which are not now necessarily in the parent company's product line," Mr. Rous said

Corporate and Municipal Financing Ahead By SIDNEY BROWN

Last week's major financing confirmed the obvious trend of recent weeks toward higher money and capital market interest rates despite the fact that the central bank's action permitted the commercial banking system to have sufficient excess reserves at their disposal to make it possible during the A.T.&T.'s \$250 million competitive bond sale for Federal Funds to close last Tuesday at 1¾ bid compared to 3% rate two weeks ago. Federal fund's range through Thursday was 1¾%. The day after the A.T.&T. offering the Federal Land Banks submitted two new issues amounting to \$230 million of which \$154 million were to redeem bonds coming due June 20. This must have been just as discouraging a move to the Administration as FNMA's \$150 million secondary debenture sale on May 19 during another heavy flotation week. On Thursday the Treasury sought an extra \$1.8 billion cash in the novel form of "strips" of short-term securities with maturities ranging from 50 to 169 days. This borrowing will add \$100 million to each of the 18 of the 26 weekly bill issues already outstanding and will be the last cash borrowed during this fiscal year ending June 30. The competitive rise in short-term interest rate trend has not helped the Federal Reserve's efforts to keep the long-term yield down.

THIS WEEK'S SCHEDULED FINANCING

THIS WEEK'S SCHEDULED FINANCING

In view of the exciting events accompanying last week's offerings, the \$400 million in corporate and municipal debt capital needs set for this week should not expect much in the way of diminishment—if any at all—in the annual net interest cost. Moreover, if last week's offerings had ample verbal warning from the June 1 testimony of Federal Reserve Chairman Martin as to the direction of interest rate trend if business remains as it is, or improves, participants in this week's negotiations and competitive sales ought to have well digested the full meaning of his statement that in recent months the Fed had made "a bone fide effort to bring about a meaningful decline" in the long-term interest rates while preventing short-term rates from falling. He made these remarks before a Joint Economic Committee hearing on the outlook for interest rates.

Already set for next week is another considerable supply of fixed interest rate issues. In fact, the first three weeks of the June 12-July 7 float is quite heavy though the four-week visible supply runs into a steep attrition in the fourth week which is, of course, the holiday July 4 week.

CORPORATE BACKLOG DOWN, MUNICIPALS UNCHANGED

CORPORATE BACKLOG DOWN, MUNICIPALS UNCHANGED

The total formal backlog of definitive offerings with assigned and unassigned calendar dates reveals a decline of about \$300 million in corporate senior obligations and roughly the same amount for equities compared to last week's figures. The municipal supply remains quite large at over \$687 million for issues of \$1 million or larger with announced offering dates. Looking beyond this reasonable expectation of the demand for money, we find that the rumored and reported but not finalized offering intentions when quantified is unchanged from last week. Helping to keep up the total is the reported Caterpillar Tractor Co.'s \$50 million sinking fund negotiation to be underwritten by Blyth & Co., and the reported \$6 million first mortgage bonds and approximately \$2 million common stock of Northwest Natural Gas Co. Lehman Brothers negotiation. Both the definite and the indeterminate data follows:

By adding the confirmed corporate total immediately above to the expected definitive corporate backlog we can visualize a possible demand for capital from this source of \$3.1 billion compared to last week's gross total of \$3.7 billion.

LAST WEEK'S CHANGES

Strong Federal Reserve open market intervention last week saw bills, notes and bonds, for the third time since February 20, purchased in the amount of \$295 million (\$1 million repurchase) as June 7 compared to May 31. The weekly average increase was \$271 million.

Corporate sales in the week through June 7 were \$441,285,030 of which \$312,930,000 were capital debt issues. Corporates added to the *Chronicle's* calendar of June 8 came to \$69,518,000 and were mostly equities. Municipal sales added up to \$200,685,390 and calendar additions were \$179,993,000 in last Thursday's paper.

EXTENT OF CAPITAL GAINS

Income arising from capital gains is not included in national income accounts since it does not stem by definition from production. Capital gains do, and are enabled to, provide income, nevertheless, for various reasons. One of the principal reasons is public debt monetization which so extensively underlies our fractional reserve currency and pyramided bank deposit credit system.

public debt monetization which so extensively underlies our fractional reserve currency and pyramided bank deposit credit system.

During relatively stable or decreasing price level periods, capital gains frequently more than paid for itself. It was an earned reward for productive activity rendered by those with foresight who were able to see and to perform economically useful deeds ahead of their contemporaries, and they reaped society's thanks. This is what the Henry Georgians could not refute. In view of the postwar income increases arising not always from subsequent increases in output, an overdue glance should be taken of the extent of capital gains in today's income. Recipients include them in their income, making no distinction between that and current income arising out of current production. Moreover, those who are paid in certain types of kind and in stock options and are able to realize capital gains are understandably unable to make the distinction. Capital gains redeployed in the economy via consumption and investment in turn can generate further rounds of production and/or capital gains. Capital gains are to be praised when they perform, as they so often can, their useful economic function and should be encouraged instead of being penalized—providing production is furthered rather than successive rounds of price-credit inflation. One should determine whether the latter is our problem today.

The May, 1961 issue of the Survey of Current Business provides some clue as to the extent of capital gains in the economy. The writers, Maurice Liebenberg and Jeannette M. Fitzwilliams, define them as the "sale of capital assets which include stocks and securities and exclude assets held for sale in the ordinary course of business." They point out that capital gains and losses are an insignificant 2½% of personal income—though quite significant in the upper income level. Out of total income tax returns they amount to 6%. Their data shows:

Returns Reporting Capital Gains Included in

Returns Reporting Capital	l Gains Included in
Capital Gains Adjus	sted Gross Income
	5,000,000,000 7,000,000,000

NOTE: Actual gross capital gains were larger due to 50% of long term gains only need be included in adjusted gross income, and to statutory limits allowing net losses as offsets.

Their data also shows:

Adjusted Gross	Per Cent With	Capital Gains as
Income Classes	Capital Gains	% of Total Income
Nothing to \$1,000	21/2 %	2%
\$10,000 to \$15,000	10	11/3
\$1,000,000 and over	80	42

NOTE: Data are for 1958. Average adjusted gross income reporting capital gains was \$9,700 compared to \$4,800 for all returns and average capital gains was \$1,400. Two-thirds of the 3½ million returns received 12 times the average size gain.

RISE IN STOCK MARKET VALUE VERSUS NET WORTH

We submit another perspective of the extent of capital gains by taking stockholders' net worth or equity and comparing it with the stock markets' valuation of their ownership shares. The years selected for comparison registered declines in the ownership shares. stock market.

More than one commentator has commented on the fact that today's stockholder more and more is seeking or placing prospects for capital gain ahead of earnings or income. When that sort of a situation prevails, investments become a misnomer and should be called gambling. The two types of speculations are quite different. One presumably is designed to improve the standard of living and the other is not. Capital gains are to encourage production and productivity; its offset should be a rise in living standards and not in the cost of the same standard of living. At one time capital gains did come from lowered costs and prices to consumers. We suggest that economic policies contributing to the recent period's slowdown in real economic growth, the painful unemployment and excess capacity rate, and the upward price level creep constitute greater grounds for investigation, insofar as they paradoxically create capital gains, than some of the stock market abuses now being looked into.

here is a summary of the 1961 Standard Oil Company (Indiana) shareholders' meeting and a report on first quarter activities

First quarter consolidated net earnings for Standard Oil Company (Indiana) totaled \$43,820,000, an increase

Oil Company (Indiana) totaled \$43,820,000, an increase of 38% over 1960 first quarter earnings of \$31,689,000. That was the highlight of President John E. Swearingen's remarks to shareholders at the Company's annual meeting, held May 4 in Whiting, Indiana.

Mr. Swearingen told shareholders that earnings per share were \$1.23 for the first quarter of 1961, as against 89¢ last year, reflecting increased crude oil production, a larger volume of product sales, better average product prices and continued reductions in costs. He added a word of caution, however, about predicting the whole word of caution, however, about predicting the whole year of 1961 on first quarter results. He said, however, that it would be reasonable to anticipate better 1961 earnings than those for 1960 "unless there are major setbacks not now foreseen."

Production. Mr. Swearingen said that production of roduction. Mr. Swearingen said that production of crude oil and natural gas liquids in the first quarter of 1961 averaged 344,000 barrels a day, up nine per cent over a year ago. Production increases in Canada and Argentina more than offset decreases in the U. S., Argentina more than offset decreases in the U. S., resulting from prorationing. In Iran, some oil has been found in two wildcat wells in the Persian Gulf, but not in commercial quantities. Both wells are being abandoned, but the exploration program will be continued with the start of two new wildcats on our four-millionacre offshore tract.

During the first quarter of 1961 Pan American Petroleum Corporation, the Company's production subsidiary, made a joint bid with Tidewater Oil

Company to purchase the properties of Honolulu Oil Corporation. Purchase agreements, which are subject to approval by Honolulu stockholders and to the issuance of tax rulings, have been signed.

Mr. Swearingen added that more than half of the Company's capital expenditures, and over 60% of total capital and exploratory expenditures, would be devoted to exploration and production activities in 1961.

Natural gas sales in the first quarter were about even with a year ago, Mr. Swearingen said. Crude runs to refineries averaged 681,000 barrels a day in the first quarter, compared with 616,000 barrels a day in 1960.

quarter, compared with 616,000 barrels a day in 1960, when operations at the Company's Texas City and Sugar Creek refineries were affected by strikes.

Marketing. Refined product sales in the first quarter of this year averaged 718,000 barrels a day, an increase of 1.3% over 1960's first quarter. Mr. Swearingen also said that dollar volume of chemical sales increased 11%.

Mr. Swearingen briefly reviewed the accelerated development of the Company's nation-wide marketing subsidiary, American Oil Company, since its reorganization at the end of 1960. "The greatest advertising and sales promotion campaign in the history of our Company is now getting under way," he said. "This year American Oil will seek to top a record set last year for the highest volume of sales in our history."

Other Business. Stockholders of the Company re-

elected all twelve members of the Board of Directors.

Two proposals presented by stockholders were rejected by substantial margins. One requested that the post-meeting report contain a summary of the discussion of shareholder questions of importance and the vote on all proposals. A second proposed that stockholder balloting be reported by number of stockholders, as well as by number of shares. Management's position was that stockholders are, and will continue to be adaptately informed. to be, adequately informed.

In answer to questions, Company spokesmen

1—Both the parent company and its subsidiaries had adopted written policies, defining conflicts of interest. Members of management at all levels have reported that their personal interests are not in conflict with the Company's.

2—The Company had carefully investigated methods of protecting foreign investments. With regard to insurance with the International Cooperation Administration, offering protection against losses arising from expropriation, war and convertibility of currency in foreign countries, the Company has concluded that, in cases examined to date, the coverage did not justify

the cost.

In a concluding statement, Mr. Swearingen said, "We have reasons for optimism in our outlook for the year 1961. The business recession seems definitely to have ended, and we look for a decided improvement in the general economy in the second half. Domestic demand for petroleum products this year should be from 2 to 3 per cent higher than last year, and foreign demand should be some 6 to 7 per cent higher."

BUSINESS—The company is engaged in the distribution of electronic components, parts and equipment as well as high fidelity, radio and television components and equipment, all of which is manufactured by others. Its inventory, which is purchased primarily from manufacturers, consists of thousands of items, most of which fall into the following major categories: batteries, capacitors, communication equipment, connectors, diodes, electronic chemicals and supplies, electronic measuring and test equipment, electronic tools and hardware, electronic tubes, indicating lamp assemblies, meters — panel, precision rheostats and attenuators, relays and s lodds, resistors, transformers, chokes and reactors and transistors. The company purchases under large lot or contract buying arrangements, to fill specific orders and to refill inventory. It then sells to its customers in smaller quantities at correspondingly higher prices which are approximately the same as those its suppliers would charge for the same quantities. This pricing policy is designed to relieve the manufacturer of handling numerous orders, and to enable the purchasers to buy from one source a variety of items produced by different manufacturers. By purchases and receive prompt delivery from one central location of a broad line of products made by numerous manufacturers.

The company has about 75 employees who are not unionized. It maintains its executive offices at 525 Jericho Turnpike, Mineola, Long Island, N. Y.

Australia (Commonwealth of)—Bond Registration—
The Commonwealth filed a registration statement with the SEC on June 2 covering \$25,000,000 of twenty year bonds due July 1, 1981, to be offered for public sale through underwriters headed by Morgan Stanley & Co. The public offering price and underwriting terms are to be supplied by amendment.

The net proceeds from the bond sale will be added to the Commonwealth's international reserves. The Australian currency equivalent of these proceeds will be applied towards capital works expenditures being financed under the borrowing program for 1961-62 approved by the Australian Loan Council for the Governments of the Commonwealth and the States. Funds are required under this program to finance such public works projects as housing, the extension of electric power transmission facilities, the modernization of railroad equipment and the construction of additional water supply, irrigation and sewerage facilities.—V. 192, p. 1299.

Automatic Radio Mfg. Co., Inc.-Forms Company-

The formation of Multiplex Corp., to develop and produce radios capable of receiving multiplex, or stereo broadcasting on a single FM band, has been announced by Automatic Radio Mfg. Co. Inc., of Boston, a pioneer company in the radio industry.

David Housman, President of Automatic Radio, said the new corporation, a wholly owned subsidiary, will be headed by John J. Grady. The corporation headquarters will be at 122 Brookline Ave., Boston.

Grady. The corporation neadquarters will be at 122 Brookine Ave., Boston.

The multiplex system of broadcasting has been termed "the greatest thing in broadcasting since television. Approved by the Federal Communications Commission last month, it enables stereo-phonic programming to be transmitted on a single FM wave and received on a single FM radio receiver. Previously, to transmit and receives stereo broadcasts two wavelengths and two radio receivers were required.

The new corporation will assume research and development work on the new system previously carried on by Automatic Radio, according to Mr. Grady.

"Because of the work already done by the parent company," he said, "Multiplex Corp. will be among the first radio manufacturers to produce really efficient multiplex receivers. We anticipate that this new system will be extremely important to the broadcasting industry, and that Multiplex Corp. will benefit from its early entry into the field."—V. 193, p. 1686.

Carrier Corp.—Shows Profit—

The Syracuse, N. Y. corporation reported on May 26 earnings of \$1.24 per share of common stock for the three months ended April 30, 1961. The comparable 1960 figure was a loss of 86 cents and this was due largely to two strikes which resulted in major disruptions.

The second quarter figures for fiscal 1961 were: orders booked, \$67,-988,000; net sales, \$73,195,000; net profit, \$2,741,000.

During the three months ended April 30, 1960, orders booked totaled \$71,080,000 and net sales \$51,026,000. The loss incurred was \$1,530,000. In the first half of fiscal 1961, the corporation earned \$1.41 per common share as opposed to a loss of 72 cents in the same period a year earlier.

Key figures for the six months ended April 30, 1961 were: orders booked, \$134,904,000; net sales, \$128,790,000; net profit, \$3,303,000.

The comparable 1960 data were: orders booked, \$129,481,000; net sales, \$105,570,000; and a loss of \$1,031,000.

The backlog of unfilled orders as of April 30, 1961, totaled \$93,

City Center Parking Associates—Securities Registered This company, of 80 Wall Street, New York, filed a registration statement with the SEC on June 2, 1961, covering 103 limited partnership interests, to be offered for public sale at \$6,000 per interest. The offering is to be made on a best efforts basis through R & G Associates, Ltd., for which it will receive \$450 per unit (plus \$15,650 for expenses payable by the general partners).

Associates is a partnership organized in May, 1961 by Richard S. Merians, Bernard Goodman and Alexander A. Somers, who are its general partners and original limited partners. It was formed to acquire fee title to a site in the downtown business and retail section of Philadelphia upon which it will have constructed a 9-story automatic parking garage with commercial usage on the street level. Completion of the building is planned for March, 1962. The aggregate cost of the property to the partnership (including underwriter's commissions and expenses) will be \$1,048,000. Of this amount, \$30,000 has been contributed by the three partners. The partnership will not operate the property but will lease it to Philadelphia Penny-Park, Inc. A construction, contract, has, beep entered into with The Heyward-Robinson Company, Inc. Merians, Sommers and Goodman are the stockholders of Penny-Park, the lessee; and Sommers and Goodman re the stockholders of the contractor and its president and vice-president, respectively. The underwriter is not affiliated with the partnership. Net proceeds of the sale of limited partnership interests will aggregate \$618,000, which kiel be applied to the purchase of the site and the construction of the property and other related purposes.

Conolite, Inc.—Class A Registered—

This company of 52 Broadway, New York, filed a registration statement with the SEC on June 1 covering 170,000 shares of class A stock, to be offered for public sale at \$5 per share through underwriters headed by Amos Treat & Co., Inc., New York. The underwriters will receive a 60 cents per share commission and \$16,000 for expenses. The registration statement also includes 12,500 outstanding class B shares which the holders thereof sold to Amos S. Treat at 1 cent per share.

The company was organized under Delaware law in February 1961 for the purpose of purchasing for \$800,000, the assets (including machinery, inventory, patent rights and customers lists) used by the Continental Can Co., Inc. at its Milwaukee, Wis., plant, for the manufacture and sale of "Conolite," a laminate used for vertical and horizontal surfaces in the construction, furniture and aircraft industries and for insulation in the electrical and electronic industries. The individuals who organized the company are the persons who have been conducting the Conolite business of Continental since 1955 and will continue in the same capacities with Conolite after the company has taken it over. Of the estimated \$714,000 net proceeds from the stock sale, \$400,000 will be used to close the purchase of the Conolite business (\$100,000 having been paid upon execution of the purchase agreement in March 1961, and the remaining \$500,000 to be evidenced by a note; \$133,000 will be added to general funds and utilized as working capital; and the balance will be used to repay loans from stockholders, to move the business to a new plant and install equipment, and to, purchase and install new equipment.

In addition to certain indebtedness, the company has outstanding 195,100 class B shares, of which Raymond J. McLaughlin, president, owns 31.84%, and Robert E. Fitzgerald and Lewis Hague, vice-presidents, 15.92% each. The holders of the outstanding class B shares paid \$58,736 for such shares. The public will purchase 170,000 class

Continental Trust Co.—Common Stock Offered—In an offering circular, dated May 12, 1961, Preferred Securities, Inc., Phoenix, Ariz., publicly offered 300,000 shares of this Scottsdale, Ariz., company at \$1 per share. Net proceeds, estimated at \$240,000, will be used by the company for overhead, expenses and investment.

proceeds, estimated at \$240,000, will be used by the company for overhead, expenses and investment.

BUSINESS—The company has been formed primarily for the purpose of buying at a discount first and second mortgages and contracts on real estate. It is expected that this business will produce profits substantially in excess of the 6%, 7%, or 8% interest customarily earned on mortgages and real estate loans.

In rapidly growing communities, the need and desire for money and capital are more prevalent than in communities with little or no economic growth. In the southwest generally, and in Arizona in particular, there is a widely-recognized demand for a source of funds from which builders and other owners of real estate mortgages and contracts may realize immediate cash in exchange for such mortgages and contracts are often offered in Arizona and in other expanding communities at discounts which in many cases are quite substantial. When an investment of this kind is purchased at a discount, the company will be entitled to receive the interest payable on the face amount of the purchased contract plus the discount. The discount is the difference between (a) the face or principal amount of the unpaid balance to be paid on the mortgage or contract, and (b) the purchase price paid by the company:

CAPITALIZATION—The company's total authorized capital is represented by 60,000,000 common shares having no par value and 1,000,000 preferred shares having a par value of \$1 per share.

V. 193, p. 1335.

Creative Electronics. Inc.—Notes Sold Privately—June 7, 1961 it was reported that \$500,000 of this firm's notes and stock purchase warrants had been sold to Venture Capital Corp. of America, 26 Broadway, New York City, a small business investment company.

Cubic Corp.-New Contracts-

The San Diego corporation has received a major tracking-system contract from the National Aeronautics and Space Administration. Recently Cubic's AGAVE tracking system has been installed aboard ships for use on the Atlantic and Pacific missile ranges and was used very successfully in the Project Mercury launching of an astronaut in space. The self-tracking feature of AGAVE (Automatic Glimballed-Antenna Vectoring Equipment) is especially adaptable for shipboard as no stable platform is necessary. The system can acquire and track even when a ship is pitching or rolling.

Cubic officials also reported that recents tests of two trajectory.

Cubic officials also reported that recents tests of two trajectory systems and electronic surveying instruments at White Sands, N. M. and Fort Sill-resulted in better than expected performance and were more accurate than the most-optimistic predictions. As a result of these tests orders for the equipment are anticipated shortly.

The corporation has also been awarded its first contract to participate in the Samos reconnaissance-satellite program.—V. 193, p. 1449.

Deere & Co.—Sales, Net Up-

This Moline, Ill. company reported on May 25 that sales for the first six months which ended April 30 totaled \$273,765,855 compared to \$236,897,748 a year ago. This year's sales volume was just under the record volume of \$277,837,185 for the first six months of 1959. Net income for the first half of 1961 was \$16,902,534 compared to \$8,292,944 last year, when heavy extraordinary changeover expenses of the new tractor program affected income. The company introduced a complete new line of farm and industrial tractors late in the 1960 fiscal year. President William A. Hewitt said that "principally because of the high initial production costs of the new line of tractors, late in the 1960 fiscal year. The same of the high initial production costs of the new line of tractors." Learnings during the first six months this year were "considerably less" than the record \$25,144,255 in the first half of 1959.—V. 193, p. 1013.

Denver & Rio Grande Western RR. - Securities Offered—Halsey, Stuart & Co. Inc., and associates publicly offered on June 6 an issue of \$1,230,000 of this company's 4%% equipment trust certificates, due July 1, 1962 to 1976, inclusive.

The certificates were scaled to yield from 3.50% to 4.50%, according to maturity. They were won at competitive bidding. A rival bid naming a price of 99.057 for a 4%% coupon came from Salomon Brothers & Hutzler.

These certificates are to be secured by 150 70-ton all steel, covered, triple hopper cars, estimated to cost not less than \$1,640,000. Associates in the offering were: McMaster Hutchinson & Co., and Peters, Writer & Christensen, Inc.—V. 193, p. 2433.

repay debt, purchase inventory, and for general and administrative expenses, and reserves.

BUSINESS—The company's main plant and executive office; are located in New Haven, Conn., and have been operating at this site since early in 1912. This plant specializes in the design, manufacture and sale of pre-cast concrete aggregate facings and panels for commercial construction. The finished product is a textured masonry facade which is sold under the registered trademark "MO-SAI" and which is manufactured in accordance with specification of the Mo-Sai Institute, Inc. The Institute was formed in 1940 by Louis A. Falco in order to standardize, improve and promote architectural panels of a standard quality under one trade name. The "MO-SAI" pocess had been originated and developed by Louis A. Falco who had registered that trademark and developed the formulae for quality control of the manufacture of precast concrete products. In 1960 the company turned the trade-mark and process over to the Mo-Sai Institute but retained the right to use them. At the present time there are 18 companies located throughout the States and Canada specializing in the production of MO-SAI panels, who are members of the Institute. Louis L. Falco, the company's President, is Secretary and Treasurer of this organization.

Financial Federation, Inc.—President's Remarks-

Financial Federation, Inc.—President's Remarks—
The firm in the first four months of 1961 has continued its 1960
growth pattern of about 30%, Edward L. Johnson, President, told the
Denver Society of Security Analysts at a luncheon meeting on May 23.
Johnson said that operating results for April were excellent. Affiliated associations made new loans of approximately \$15 million. Loans
outstanding increased over \$9 million to a new high of \$313,791,501,
or about a 9.5% gain for the first four months or 1961. At the end
of April savings had increased to \$303,394,426, or a 10% gain over
the 1960 year end total, Interest rates on new loans "have been
running slightly ahead of the comparable period in 1960," the analysts
were told.

or about a 9.5% gain for the first four months or 1961. At the end of April savings had increased to \$303.394.426, or a 10% gain over the 1960 year end total. Interest rates on new loans, "have been running slightly ahead of the comparable period in 1960," the analysts were told.

"Although the growth of the publicly-owned California savings and loan associations has generally bettered the state-wide figures, the 1961 four-month growth of all insured savings and loan associations in California has been impressive. Total loan volume of all insured associations in April was approximately \$308.5 million, with total loans cutstanding aggregating \$9.69 billion at April 30. This is an increase of about 5.5% over the 1960 year end figure," Johnson said. Similar gains were recorded in savings and assets of the California associations.

Johnson told the Denver analysts that in the 1950-1960 period the insured savings and loan associations in California had shown an increase of 693% in savings accounts, compared with 385% for the remainder of the country, and that the California gain in mortgage loans outstanding for the comparable period was 4.5% as contrasted to the balance of the country's gain of 379%. He attributed this to the population growth, higher than average personal income per capita, higher than average return on savings, and advanced merchandising techniques and service.

Johnson forecast a continued growth and high level of carnings for Financial Federation in 1961, and told the analysts, "As to the belance of the year, we will let the first four months' performance speak for itself."

In discussing industry problems, Johnson proposed that the present restriction on the Federal statute limiting insured savings and loan associations to loans on property located within a 50-mile radius, be completely revised. "There has been some discussion in official quarters of amending this horse and buggy statute by extending the lending radius," Johnson pointed out that under the existing statute limiting the lending

Detailing advances in the past year, many of them not before reported, the annual report disclosed that:

The company's expansion in the past year, both through acquisition and internal growth, has given it "one of the largest semi-conductor operations in the country"; the Semiconductor Division now produces more than a quarter or a million semiconductor devices each working day at its three main plants (Newark, N. J., Hicksville, N. Y. and Woonsocket, R. I.) and has underway a continuous program of new product development in this vi.al electronic arcs.

The Defense and Engineering Products Group has facilitated a new 62,000 square foot plant at Hicksville, N. Y., for production of military equipment and systems and established a West Coast Division of its Advanced Development Laboratory, at Hawthorne, Calif., designed for "projects related to bellistic missile and space programs."

The General Instrument Thermoelectric Division has grown in the past year from a "corner workship" to a 10,000 square foot facility, which soon will require further enlargement, with a technical staff of more than 35 scientists and engineers; it is working on adva

Getz (William) Corp.—Common Registered—

This corporation, of 7512 South Greenwood Ave., Chicago, filed a registration statement with the SEC on June 6th covering 105,000 shares of common stock, of which 80,000 shares are to be offered for public sale by the company and 25,000 shares, being outstanding stock, by william Getz, President and principal stockholder. The offering will be made through bacon, Whipple & Co. The public offering price and underwriting terms are to be supplied by amendment.

The company compounds, formulates and manufactures consumable dental supplies for sale through dental supply retailers to dentists, densel schools and dental laboratories. In addition, it manufactures and, in some cases, wholesales minor items of dental equipment. According to the prospectus, a number of the products are manufactured under patents or exclusive formulas and are unique with the company, and certain are of the type which may also be sold to the public through retail drug outlets. In March, 1961, the company purchased for \$05,669 all of the outstanding capital stock of Hanau Engineering Company, Inc., a manufacturer of dental equipment and special dental insuments. Of the net proceeds from the company's sale of additional scock, \$550,000 will be applied to discharge in full a short-term bank loan incurred to finance the purchase of Hanau, and the balance will be added to general funds and will be available for any corporate purpose.

The company has outstanding 170,170 shares of common stock, of which William Getz owns 158,188 shares and proposes to sell the 25,000 shares. Management officials as a group own 100% of the outstanding stock.

Hazeltine Investment Corp.—Securities Registered—
This, corporation of 660 Grain Exchange, Minneapolis, Minn., filed a registration statement with the SEC on June 5 covering 13,000 5% preferred shares (\$100 par) non voting, and 13,000 shares of common stock, to be offered for public sale in units, each consisting of one preferred and one common share. The units are to be offered at \$101 each through company officers, and no underwriting discounts or commission will be paid.

The company was organized under Minnesota law in 1960 but took no other steps to organize as such until March 1961 when it was reorganized to engage in the business of acquiring and developing real estate. Subject to sale of a minimum of 9,001 of the units, the company intends to exercise options for the purchase from its promoters of about 1,045 acres of rural lands near Chaska in Carver County, Min., and to develop and resell the same primarily as residential property. The average purchase price to the company is \$1,500 per acre which, according to the prospectus, is more than the land is piesently worth for any present use. The company believes that such purchase price is not excessive in view of the proposed development of the lands for residential and related shopping center purposes upon completion of an 18-hote golf course which is being constructed on adjacent lands. Of the net proceeds from the sale of the units, \$925,000 will be used to make the cash payments to promoters upon exercise. Of land options, and to pay 1992 principal and interest installments on the purchase money mortgage and purchase contracts applicable to land. The balance will be added to general funds and will be available for use as working capital, for the deferred portion of the land. The balance will be added to general funds and will be available for the Partnership property, which consists of 670 acres of the land, The balance will be added to general funds and will be available for which Hazeltine Land Co. and F. Hazel Bishop, Inc.—Common Registration Suspended

Hazel Bishop, Inc.—Common Registration Suspended The SEC announced on June 8, 1961, a decision suspending the effectiveness of a registration satement included false and misleading financial information and in various other respects failed to comply with the Securities Act disclosure requirements.

Originally filed in June 1960 and amended in October 1960, the statement proposed a large secondary offering of Hazel Bishop common stock, consisting of 1,274,823 outstanding shares or about 60% of the total outstanding. The offering was to be made by 112 persons listed as present holders thereof, including management officials who listed substantial amounts representing most of their holdings. A large part of such stock had been sola initially by the company in violation of the Securities Act registration requirements. By slipulation and in further amendments to the registration statement filled in March and April 1961, Hazel Bishop conceded he registration violations and that the registration statement filled in March and April 1961, Hazel Bishop conceded he registration violations and that the registration statement as thus amended to become effective, preferably without issuance of a stop order. This request was rejected by the Commission because "... of the widespread public distribution of unregistered shares that has taken place, and the serious deficiencies found, which include financial statements showing a profit instead of a substantial loss for the most recent fiscal year and the failure to make proper disclosures with respect to other material aspects of registrant's business and the market prices of its common scock."

In its decision, the Commission ruled that the summary of earnings included in Hazel Bishop's prospectus, which shown resulted in part from treating as a reduction of advertising costs the release of a claim by Television Industries, Inc., totaling \$1,110,619, for "spot" advertising time purchased by Hazel Bishop total the transfer by Raymond Spector, then Hazel Bishop, that under proper

months ended Aug. 31, 1960, but the March amendment disclosed a loss of \$354,538 for the year ended Oct. 31, 1960.

Another deficiency found by the Commision related to a statement in the company's prospectus that television has been its principal advertising media and that it expended about \$30,000,000 for network television advertising during the past ten years. There was inadequate disclosure that since 1957 there had been a decided downward trend in expenditures for advertising and that planned advertising expenses were at a further reduced level.

In discussing the proposed stock offering, which was to be made "through brokers on the American Stock Exchange, in the open market, or otherwise," at prices current at time of sale, Hazel Bishop's prospectus stated that from January 1959 through Oct. 10, 1960, the closing price of the stock on the Exchange ranged from a high of \$10 per share to a low of \$3.50. Reference to the \$10 high was misleading, the Commission stated, without disclosure of the fact that this price was reached on only one day, June 14, 1960, following (1) publication on June 6 of a statement by a newspaper columnist that Hazel Bishop was about to introduce a new product which would increase the company's sales and earnings; (2) the company's release on June 3 of a financial report snowing a \$202.776 profit for the 6-month period ended April 1960 as compared with a loss of \$551,173 for the same period the preceding year, and (3) the company's announcements to the cosmetics trade that it would sponsor a number of well-known radio and television personalities. Nor did the statement disclose that after reaching \$10 on June 14, the market price declined during late June, July, August and September, the range in September being 6% n-7½.

The Commission also ruled that Hazel Bishop's claim to a "private offering" exemption from registration with respect to sales of 562,500 shares in 1959 and 1960 was invalid. In October 1959, when in urgent need of additional working capital, Hazel Bishop had ente

disclosed. The Commission also stated that the registration statement should have disclosed that by virtue of such transactions. Hazel Bishop became contingently liable to purchasers of the unregistered shares.

Although refusing to consider the amendments recently filed by Hazel Bishop, the Commission directed its staff to examine the amendments in light of its decision to determine whether the disclosures therein remedy the deficiencies and to report to the Commission on the question whether and when the stop order should be lifted. However, the Commission cautioned that, if the stock offering proceeds in the manner indicated by the prospectus, the issuer and selling stockholders "risk serious violations" of certain provisions of the Securities Exchange Act. and SEC rules thereunder, particularly in view of the fact that the offering is to be made "at the market without underwriters. By contrast, in a conventional distribution "the activities of underwriters and other participants in the distribution are governed by carefully drawn underwriting agreements and related contracts providing a controlled procedure designed to bring about an orderly marketing of the security free of practice prohibited by the statutes or rules as manipulative, deceptive or fraudulent, or otherwise unlawful." The Commission called specific attention to the prohibitions of its rules against bids or purchases by any person participating in a distribution; the prohibitions against stabilization transactions in connection with an offering "at the market"; and the restrictions of the Securities Act on written communications which constitute an offering of securities. The Commission also called attention to the fact that one of the selling stockholders, Gilligan, Will & Co., is the specialist responsible for maintaining a fair and orderly market in Hazel Bishop stock on the American Stock Exchange. "Since the firm is listed in the registration statement as a selling stockholder and is a member of a group whose interest lies in effecting a

Howe Sound Co.—Acquires—

Howe Sound, a metals manufacturer, has acquired for cash and other considerations, the assets and business of Labeled Metal Products Corp. of Chicago, a metal building products manufacturer for the building industry, according to an announcement made on May 24 by William M. Weaver, Jr., President of Howe Sound.

Labeled Metal Products Corp. is a major producer of aluminum and galvanized steel air-conditioning and warm air fittings and ducts. The firm also produces roof drainage products in aluminum, galvanized steel, and other metals. The company is reported to have one of the most modern plants in the residential metal building products industry.

According to Mr. Weaver, the acquisition of the Labeled Metal Products business will effectively augment Howe Sound's position as a major producer of metal building products for new residential building in the country.

Labeled Metal Products will become a part of the Rolling Mills Division of Howe Sound Co.—V. 193, p. 1689.

Illinois Bell Telephone Co.—Subscription Rights Offering—Pursuant to a May 31, 1961 prospectus, the company is offering common stockholders the right to subscribe to 4,190,652 additional shares at \$20 per share on the basis of one share for each eight shares held of record May 29, with rights to expire June 30. No underwriting is involved. Net proceeds, estimated at \$83,600,000, will be applied toward the repayment of advances from American Telephone & Telegraph Co., parent company. BUSINESS—The company of 212 W. Washington St., Chicago, is engaged in the business of turnishing communication services, mainly local and toll telephone service, in Illinois and in Lake and Porter Counties in Indiana. On March 31, 1961, the company had 4,117,437 telephones in service, of which 3,936,931 were in Illinois and 180,506 were in Indiana. About 47% of the company's telephones are located

in the City of Chicago where the company operates under a franchise (granted in 1931) which is terminable on six months' notice by either the City or the company and under which the company is required to make payments (approximately \$8,683,000 for 1960) based on gross revenues and to furnish certain facilities to the City without charge or at reduced rates. About 20% of the company's telephones are located in or adjacent to 16 other cities of over 50,000 population. The company estimates that on March 31, 1961 other companies had approximately 835,000 telephones in service in Illinois and served about four-fifths of the area of the State. The company does not furnish local service in the localities served by such companies.

Interstate Department Stores-Annual Meeting-

Sol W. Cantor, President, said at the company's annual meeting on May 24 that the company looked for sales of approximately \$160 million in fiscal 1962, which compares with \$115 million for the year that ended Jan. 31, 1961, and a significant increase in net carnings over the \$4.13 earned last year.

over the \$4.13 earned last year.

Mr. Cantor's statement was made in response to a stockholder's question concerning the company's outlook.

Reporting on Interstate's expansion program, he said that the company planned to open eight discount stores in the current fiscal year, and 20 stores in 1962. The company has already opened two discount centers on the outskirts of Chicago, under the Topps name, thus far this year. Plans for the balance of the year include two more in the Chicago area, and four Topps stores to be located in Baltimore, Md.; Kalamazoo, Mich.; and Hartford, Conn. Three new White Front stores are scheduled for 1962 in California.

Mr. Cantor said that a period of significant growth law sheed for

Mr. Cantor said that a period of significant growth lay ahead for the discount industry. "We foresee the day, five to ten years from now, when 30% of the public will be relying on discount centers for the bulk of their purchases," he stated. "There is no practical limit on the amount and kinds of goods that can be merchandised through discount centers, provided discount operators stick to their original and very basic philosophy, which is to keep markups low," he continued.

Mr. Cantor also reported that Interstate planned to spend better than \$500,000 this year modernizing key downtown stores, and that, in addition, the company planned to double the present size of its store in Utica, N. Y., which is one of the leading downtown stores in Interstate's chain.—V. 192, p. 1913.

DOWN—

Record sales for the fiscal year ending March 31, 1961 were reported on May 25 by Horace D. Gilbert, president.

Net sales for 1961 were \$10,429,025 against \$10,200,887 for 1960.

Net income was \$539,371 and \$787,135 respectively with earnings per share at 75 cents in 1961 compared with \$1.10 in 1960.

Gilbert attributed a major portion of the drop in income to expenditures for product line expansion and relocation of two divisions during the first half of fiscal 1961, enabling the company to handle a larger volume of business.

the first half of fiscal 1961, enabling the company to handle a larger volume of business.

He said that for the past six months the company had been operating at a rate of profit as high as any period in the company's history with an excellent backlog at present.

Gilbert reported heavy MPB efforts during the past year in foreign operations on the continent, in Canada, and the Far East, resulting in "a very sizable increase in our export sales which we expect will continue to grow at a rapid rate."

He further reported substantial initial orders for the company's recently announced low-cost MINA Bearing line; and said that sales of the "Alinabali" patented rod-end type bearings exceeded management expectations, adding the MPB anticipated an excellent future for this product.

BUSINESS—This company, of 6660 Santa Monica Elvd., Hollywood, Calif., was incorporated in the State of Delaware on June 10, 1957 for the purpose of engaging in the business of developing and printing color film for the motion picture and television industries and processing, distributing and otherwise disposing of film for photographic and other purposes. The company has not yet engaged in commercial production. It has developed the Panacolor Process and believes that production is justified. Satisfactory film has been produced in a pilot plant and the company is now constructing machines and ancillary equipment for commercial production of color film.

The company expects to develop and print 16mm, 35mm, and 70mm release color prints for theatrical motion picture, television, educational, religious, scientific, government and commercial use. Recently there has been increased public interest in the use of 8mm color movies and the company expects also to process 8mm color film for home, educational and commercial use. At the present time the company has no sales force developed for the marketing of its services. However, the company's President, Mr. Harry E. Eller, is well acquainted in the motion picture industry, having formerly organized, owned and managed the largest manufacturer of home and motion picture theatre projection screens, and will initially be in charge of the company's sales programs. The company makes no estimate as to what share of the market it will be able to capture.

Polytronic Research, Inc.—Common Registered—

This company of 7326 Westmore Road, Rockville, Md., filed a registration statement with the SEC on June 7, 1961, covering 150,000 common shares to be offered for public sale by the company, and 43,750 outstanding common shares to be offered by the present holders thereof. The offering of company shares will be made on an all or none basis through underwriters headed by Jones, Kreeger & Co. and Balogh & Co. The public offering price and underwriting terms are to be supplied by amendment. The registration statement also includes 18,000 common shares which underlie three-year warrants to be issued to the underwriters, exercisable at a price per share to be supplied by amendment.

to be issued to the underwriters, exercisable at a price per share to be supplied by amendment.

The company (formerly Acme Tool & Engineering Corp.) is engaged in research and development, engineering, production and sale of certain electronic and electro-mechanical devices and test equipment. Its products include equipmen and components for missiles and aircraft, ordnance equipment, osciloscopes, meter analyzers, portable test equipment, electronic vending machines, projection television for use in training programs and other uses, and language teaching machines. According to the prospectus, there is now pending before the Commission a proceeding relating to the suspension of the exemption under Regulation A of the Securities Act of 1933 of an offering of 100,000 common shares of the company sold at \$1 per share in May through July, 1957, as a result of which offering there may exist a liability on the part of the company to the purchasing share-holders. No present management official was then connected with the company. The prospectus further states that prior to April, 1958, several other stock issuances were made which were not registered under the Act and which, accordingly, may have been unlawful, in which event the company may have a further contingent liability. The net proceeds from the company's sale of additional stock will be used as follows: \$150,000 to expand manufacturing facilities and equip the building with additional necessary shop facilities; \$130,000 to expand sales and engineering force and to finance a research and development program; to pay a \$19,000 bank note, to retire \$37,000 of 6% convertible debentures due March 31, 1962, and to pay \$78,000 of balances due on certain other outstanding obligations; and the balance to make possible adequate financing of present contracts and to make it possible to negotiate future contracts by a showing of additional financial responsibility for the performance of such contracts.

In addition to certain indebtedness, the company has outstanding 377,

of such contracts.

In addition to certain indebtedness, the company has outstanding 377,950 shares of common stock, of which management officials as a group own 20.5%. Of the 43,750 outstanding shares, Thomas L. Thomas, Board Chairman and President, proposes to sell 25,000 shares and J. C. Herbert Bryant, 18,750 shares.—V. 189, p. 2893.

Pueblo Supermarkets, Inc.—Class A Stock Registered

Pueblo Supermarkets, Inc.—Class A Stock Régistered
The company, whose address is P. O. Box 10878, Caparra Heights,
San Juan, Puerto Rico, filed a registration statement with the SEC
on June 6 covering 100,000 outstanding shares of class A common
stock to be offered for public sale by the holders thereof through
underwriters headed by Merrill Lynch, Pierce, Fenner & Smith. The
public offering price and underwriting terms are to be supplied by
amendment.

The company is engaged in the operation of seven supermarkets,
six of which are located in Greater San Juan and one in Ponce,
Puerto Rico's second largest city. The company has outstanding
460.000 common and 260.000 class A shares, of which latter stock
Harold Toppel, president, George Toppel, executive vice-president, and
Milton Toppel, vice-president, own 161.000, 52.000 and 47.000 shares,
respectively, and propose to sell 60.000, 20.000 and 20.000 shares,
respectively. Of the outstanding common stock, Bryan Realty Corp.
wholly-owned by the Toppel brothers, holds of record 51.09%, and
management officials as a group own beneficially 56.83%. After
sale of the 100,000 shares, the selling stockholders will own 58.32%
of the total outstanding shares of the company. All outstanding
class A shares will be converted automatically into common shares
on April 1, 1962.—V. 191, p. 1325.

Public Service Electric & Gas Co. — Common Stock Offered—Pursuant to a June 6, 1961 prospectus, Merrill Lynch, Pierce, Fenner & Smith Inc., and associates, offered for public sale, 900,000 common shares of this firm's stock at \$52.25 per share. Proceeds will be used for the repayment of loans and for construction. The offering was oversubscribed and the books closed.

The company of 80 Park Place, Newark, N. J., supplies electricity and gas in areas of New Jersey in which over 4,800,000 persons or almost 80% of the state's population reside. In the 12 months ended Feb. 28, 1961, the company's operating revenues aggregated about \$405,000,000, of which about 64% was derived from electric operations and about 36% from gas operations. With minor exceptions in the case of electric operations, the company supplies electric and gas service without competition from other public utilities or from municipal electric or gas plants.

THE COURSE OF BANK CLEARINGS

Bank clearings this week will show an increase compared with a year ago. Preliminary figures compiled by us based upon telegraphic advices from the chief cities of the country, indicate that for the week ended Saturday, June 10, clearings for all cities of the United States for which it is possible to obtain weekly clearings will be 8.4% above those of the corresponding week last year. Our preliminary totals stand at \$27,230,710,099 against \$25,126,100,342 for the same week in 1960. At this center there is a gain of the week ending Friday of 9.2%. Our comparative summary for the week follows:

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday and the Saturday figures are not available at time of going to press. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results of the previous week—the week ended June 3. For that week there was an increase of 7.2%, the aggregate clearings for the whole country having amounted to \$25,105,132,994 against \$23,415,394,950 in the same week in 1960. Outside of this city there was a gain of 4.0%, the bank clearings at this center showing an increase of 9.9%. We group the cities according to the Federal Reserve Districts in which they are located and from this we note that in the New York Reserve District the totals register a gain of 9.7% and in the Boston Reserve District of 7.4% but in the Philadelphia Reserve District the totals record a loss of 2.3%. In the Cleveland Reserve District the totals are smaller by 0.6% and in the Atlanta Reserve District by 1.4% but in the Richmond Reserve District the totals are larger by 7.0%. The Chicago Reserve District has to its credit an increase of 7.8%, the St. Louis Reserve District of 1.4% and in the Minneapolis Reserve District of 5.9%. In the Kansas City Reserve District the totals also show an improvement of 3.4%, in the Dallas Reserve District of 12.9% and in the San Francisco Reserve District of 10.2%.

In the following we furnish a summary by Federal Reserve Districts:

Savage Arms Corp.—Shows Loss—News—
Despite higher sales for the first quarter of 1961, the corporation reported on May 24 an operating loss for the period due to non-recurrent costs of starting up new plants here and in Puerto Rico.

Net sales for the three months ended April 1 were \$3,720,796 against \$3,552,957 for the first quarter of 1960. A loss of \$204,160, equal to a deficit of 27 cents per share, compared with a net profit of \$20,309, or 3 cents earned per share, one year ago. There were 767,234 shares outstanding, the same number as a year ago.

In view of improved prospects for the remainder of the year, the board declared a dividend of 5 cents a share payable June 23 to stockholders of record on June 9.

A spokesman for the company stated that new orders for firearms are being received at a pace slightly ahead of a year ago, and the non-recurring expenses in connection with the transfer of operations to Westfield from Chicopee Falls, Mass., have now been largely eliminated. The Chicopee Falls properties were sold earlier in May.—V. 193, p. 809.

Yarbrough Petroleum Corp.—Offering Suspended—
The SEC has issued an order temporarily suspending a Regulation A exemption from registration under the Securities Act of 1933 with respect to a proposed public offering of stock by this Long Beach, Calif., company.

Regulation A provides a conditional exemption from registration with respect to public offerings of securities not exceeding \$300,000 in amount. In a notification filed April 18, 1961, Yarbrough proposed the public offering of 300,000 shares of stock at \$1 per share. The Commission's suspension order asserts that the company's offering circular and geological reports filed in connection with its notification are false and misleading in respect of certain material facts. The order provides an opportunity for hearing, upon request, on the question whether the suspension should be vacated or made permanent.

The Commission's suspension order challenges the accuracy and

question whether the suspension should be vacated or made permanent.

The Commission's suspension order challenges the accuracy and adequacy of information with respect to the following: (1) the estimate of gross oil reserves of the issuer's Towle lease at 1,204,640 barrels, before reduction for royalties; (2) the estimate of reserves in possible production formations on its Reedy lease and the basis used in arriving at such estimate; (3) the use of projections of estimated income in future years from such leases which cannot be justified on the basis of information now known; (4) the failure to disclose that the information on the map of the Towle lease and the well data accompanying same are not subject to correlation; (5) the failure to disclose that, based on information now known, the possibility of obtaining profitable commercial production from the Towle lease is very remote; (6) the failure to disclose with respect to the Reedy lease (a) the decline in pressure which normally occurs in any producing oil field with the passage of years and the adverse effect of such decline on production from the field, and (b) that the accumulated production set forth for the wells reasonably close to the Reedy lease has been estimated rather than being actual production data and, therefore, is subject to error; and (7) the statement concerning the Reedy lease that many wells near such lease had initial production rate of the largest well near such lease did not amount to thousands of barrels per day.—V. 193, p. 2155.
