Aerojet-General Corp.—Forms New Subsidiary—

The corporation has announced the formation of a major new subsidiary for the design and development of complete missile and space systems.

The new company will be known as Space-General Corp. and, as a first step, immediately combines the veteran staffs in missile/space technology of Aerojet's Spacecraft division and Space Electronics Corp. The latter has been an Aerojet subsidiary since late last year.

As part of a multi-million-dollar investment in facilities and capital expenditures, a new plant will be built for Space-General on a 73-acre site already selected in the Los Angeles area, Dan A. Kimball, Aerojet President reported in a press conference here.

"By combining Space Electronics with aspects of Aerojet capability, the new corporation represents the necessary blend of know-how in electronics, propulsion, structures, and systems concepts, as well as assembly and fabrication of missile/space systems," he said.

"In addition, all of Aerojet's broad engineering and production capabilities will be put behind the new organization for support or subcontracting purposes, and other elements of Aerojet may be merged into Space-Central in the future."—V. 193, p. 2429.

Airtronics International Corp. of Florida — Common Registered—

This corporation of 6900 West Road 84, Fort Lauderdale, Fla., filed a registration statement with the SEC on June 29, covering 199,000 shares of common stock, of which 110,000 shares are to be offered for public sale by the company and 89,000 shares, being outstanding stock, by the present holders thereof. The offering will be made on an all or none basis through underwriters headed by Stein Bros. & Boyce and Vickers, MacPherson & Warwick, Inc. The public offering price and underwriting terms are to be supplied by amendment. The registration statement also includes (1) 22,000 outstanding common shares which underlie two-year options granted to the principal underwriters by certain stockholders, exercisable at a price per share to be supplied by amendment, and (2) 10,000 outstanding common shares which underlie 90-day options granted the underwriters by another stockholder, exercisable at $6 per share.

The company is engaged primarily in the manufacture of electronic, mechanical and electro-mechanical rocket and missile system parts and components under subcontracts with United States Government contractors, and government contracts involving electrical and machine work. The company also manufactures communication and test equipment for telephone companies and for the military departments of the government. A portion of the net proceeds from the company's sale of additional stock will be used to repay advances from factors, which amounted to $94,010 in May 1961, to prepay 15% notes payable outstanding in the amount of $135,000 in May 1961; and the balance will be added to general funds and will be available to pay a portion of the cost of constructing, equipping and furnishing the proposed extension of the company's plant, the total cost of which is estimated at $350,000. Any remainder will be used as working capital.

In addition to certain indebtedness, the company has outstanding 818,075 shares of common stock, of which Robert G. Kramer, President, and Dorothy White, a Vice-President, own 21.9% and 26.6%, respectively, and management officials as a group own 56.4%. Of the 89,000 outstanding common shares to be offered by the holders thereof, 75,000 were issued upon conversion of 6% convertible debentures, and Frank B. Bateman, Ltd. proposes to sell the remaining 14,000 (of 48,000 shares held). The list of other selling stockholders is to be supplied by amendment.—V. 191, p. 2197.

All Weather Roll 'N' Ice, Inc., Copiague, N. Y.—Files With Securities and Exchange Commission—

The corporation on June 29, 1961 filed a "Reg. A" covering 40,000 class A shares (par 10 cents) to be offered at $3, without underwriting.

The proceeds are to be used for repayment of loans, working capital, and general corporate purposes.

Amerford International Corp., New York, N. Y.—Files With Securities and Exchange Commission—

The corporation on June 28, 1961 filed a "Reg. A" covering 75,000 common shares (par 10 cents) to be offered at $3.50, through V. S. Wickett & Co., Inc. and Thomas, Williams & Lee, Inc., New York.

The proceeds are to be used for expansion, advertising, and working capital.

American Electronics, Inc.—New Address—

The company has announced the relocation of its general office from 1725 West Sixth Street, Los Angeles, to 1594 East Ross Avenue, Fullerton, Calif. The move into the new $1,500,000 facilities became effective June 26, 1961.—V. 193, p. 373.

American Packing Co.—Common Registered—

This company of 303 N. E. Northlake Way, Seattle, Wash., filed a registration statement with the SEC on June 29 covering 150,000 shares of common stock, to be offered for public sale at $4.50 per share. The offering will be made through underwriters headed by Joseph Nadler & Co., Inc., which will receive a 45c per share commission and $15,000 for expenses. The registration statement also includes (1) 16,000 outstanding common shares which the holders thereof sold to Joseph Nadler at 50c per share (of which 4,000 were sold to Herman Goldberg, a finder); and (2) 25,000 common shares which underlie 5-year warrants sold to Karl V. Sjoblom, president, at 1c per warrant, exercisable at $4.50 per share (of which 15,000 warrants were subsequently re-sold to Joseph Nadler).

The company is engaged in the processing and sale of canned salmon, which is packed in its two plants located at Anacortes, Wash., and Naknek, Alaska. Of the net proceeds from the stock sale, up to $300,000 will be utilized to avoid certain future financing costs. The company has been factoring its pack, receiving 70% of the market value of the Puget Sound pack when the processed salmon is removed from the Anacortes plant and placed under bond for sale. The company has also received an advance of 50% of its Alaska pack upon completion of processing at its Naknek plant, and an additional 20% when this pack is put into bond in Seattle for resale. Such factoring may cost the company an over-ride of up to 2% of the gross proceeds from the sale of its 1961 pack. With additional equity provided by this offering, the company intends to obtain bank financing which, in conjunction with up to $300,000 of the proceeds, will replace funds otherwise to be provided by factoring and will avoid an over-ride on its gross sales. The balance of the proceeds will be used for general corporate purposes including additional capital requirements to handle any further volume of business arising from the increase in productive capacity of the Naknek plant accomplished during 1961.

In addition to certain indebtedness, the company has outstanding 188,000 shares of common stock, of which Sjoblom owns 87.1%.

American Sports Plan, Inc.—Common Registered—

This company of 473 Winter St., Waltham, Mass., filed a registration statement with the SEC on June 29 covering 200,000 shares of common stock, to be offered for public sale at $6 per share (without underwriting). Dealers who are instrumental in obtaining subscriptions will receive a commission of 50c per share.

The company was organized under Delaware law in June 1961 primarily to establish and operate through subsidiaries, ten pin bowling centers in various locations in eastern Massachusetts. It currently operates one 40-lane center in Waltham, Mass., and has entered into a lease for an additional 32-lane center now being constructed in Woburn, Mass. Of the estimated $1,075,000 net proceeds from the stock sale, $115,000 will be used at the proposed Woburn center and the balance to establish additional centers. The company anticipates that centers containing an aggregate of 216 bowling lanes could be established with such amount of capital.

In addition to certain indebtedness, the company has outstanding 290,000 shares of common stock, of which Joseph A. Gardillo, president, and Patsy Mobilia, Jr., Louis Salamone and Lina Barden, directors, own 35.2%, 14.9%, 14.6% and 10.3%, respectively, and management officials as a group own 81.9%. Such shares were issued in exchange for all the outstanding capital stock and certificates of beneficial interest of 128 Ten Pins, Inc. (the center at Waltham), Woburn Ten Pin, Inc. and Cardillo Associates Realty Trust. According to the prospectus, upon the sale of the 200,000 new shares the promoters of the company and their associates will own 59% of the then outstanding common for which they paid $199,000, as against a 41% interest held by the public for an investment of $1,200,000.

Caestecker, president, and Marie O. Caestecker, will own 142,705 and 17,877 class A shares, respectively, and propose to sell all such shares; and they own 346,270 and 43,379 class B shares, respectively.

Animal Insurance Co. of America—Com. Registered—

This company, 92 Liberty St., New York, filed a registration statement with the SEC on June 29 covering 40,000 shares of common stock, to be offered for public sale at $15.50 per share. The offering will be made on an all or none basis through underwriters headed by Bernard M. Kahn & Co., Inc., which will receive a $1.395 per share commission and $34,200 (the latter to be paid by the present stockholders). The registration statement also includes 3,300 outstanding common shares which the holders thereof will sell the underwriters at 10c per share.

The company is engaged in the animal insurance business in New York, principally the insuring of thoroughbred race horses and standardbred trotters and pacers. Since its organization in 1957, it has not paid any dividends and as of March 31, 1961, it had a deficit of $190,142. The estimated $558,000 net proceeds from the stock sale will be added to general funds and invested in securities as authorized by the New York Insurance Law. The company intends to use such proceeds to expand its business, including becoming licensed in such other states of the United States and Provinces of Canada as determined by management.

In addition to preferred stock, the company has outstanding 50,015 shares of common stock, with current book value of $1.91 per share, of which Milton M. Weiss, president, owns 26.77% and management officials as a group 74.88%. R. Harold Bach is listed as board chairman.

Architectural Plastics Corp.—Common Stock Offered —Pursuant to a June 13, 1961 offering circular, 103,191 shares of this firm's stock were offered to the public at $1.25 per share. Of the total, 26,326 shares were sold by the company without underwriting and 76,865 by the underwriter, Zilka, Smither & Co., Inc., Portland, Ore., for its own account. The company will use its portion of the proceeds for working capital.

EXPLANATION OF OFFER—Under an offering circular dated Oct. 29, 1959, the corporation offered for sale 240,000 shares of its $1 par common stock. Of the total shares offered, 136,570 shares were offered and were sold to the public at $1.25 per share through the underwriter, Zilka, Smither & Co., Inc., which retained 18¾ cents per share as its underwriting commission. The remaining 103,430 shares were reserved for sale at $1 per share under stock options and stock subscriptions offered by the corporation to its key employees. By August, 1960, 2,165 shares of the 103,430 shares had been sold to key employees, 1,138 additional shares had been purchased by shareholders through the exercise of their pre-emptive rights, and 100,127 shares of the total offering remained unsold. These shares are sometimes hereinafter referred to as "option stock."

After all stock subscriptions were satisfied and after all stock option rights had expired on Aug. 31, 1960, the 100,127 shares of option stock were offered at $1 per share by the corporation to Zilka, Smither & Co., Inc., for sale to the public in order to raise additional capital for the corporation. Under a mistaken impression that the option stock could be sold to the public at $1.25 per share and without revising the offering circular, which had become outdated on July 29, 1960, Zilka, Smither & Co., Inc., commenced in September, 1960, to purchase shares of option stock at $1 a share for its inventory and for resale to the public at $1.25 a share; and by Nov. 21, 1960, 67,000 shares had been purchased from the corporation.

In addition, Zilka, Smither & Co., Inc., agreed on Nov. 30, 1960, to purchase from the corporation the remaining 33,127 shares of option stock at $1 a share. All the 67,000 shares and 6,801 shares of the remaining 33,127 shares were sold by Zilka, Smither & Co., Inc., to the public at $1.25 a share prior to Dec. 8, 1960, on which date Zilka, Smither & Co., Inc. was advised by its counsel that the sale by it to the public of these shares was contrary to provision of the Securities Act of 1933, for the reasons that the offering circular was not current and had not been revised to state that the option stock was released and was being offered for sale to the public with an increased commission for the underwriter. Furthermore, counsel for Zilka, Smither & Co., Inc., advised that sales of a substantial number of these shares were contrary to the provisions of the security laws of Oregon and Washington for the reasons that shares were sold to residents of the states of Oregon and Washington after the Oregon and Washington securities permits had expired on Oct. 30, 1960, without being renewed and the 25 cents a share retained by Zilka, Smither & Co., Inc., for its own account was in excess of the commission of 18¾ cents a share allowed by these permits.

Upon receiving such advice, Zilka, Smither & Co., Inc., canceled its purchase order from the corporation for the remaining 26,326 shares of option stock, and on Dec. 13, 1960, Zilka, Smither & Co., Inc., and the corporation reported the foregoing facts to the Regional Office of the Securities and Exchange Commission at Seattle, Wash. Subsequently, similar reports were made to appropriate authorities of the states of Oregon and Washington.

Zilka, Smither & Co., Inc., has paid to the corporation the difference between 25 cents retained by it from sales to the public at $1.25 a share and its commission of 18¾ cents a share, to-wit, 6¼ cents a share, on 67,000 shares, and had paid the corporation $1.06¼ a share for the 6,801 shares of its last purchase of option stock.

Corporate and Municipal Financing Ahead

By SIDNEY BROWN

Last July 4th week's breather in public offerings, deservedly after a heavy-paced June and first half-year financing period, seems to be the prelude for a declining trend in the corporate backlog and a holding action in municipals. This should be good news for the Treasury which is engaged this week in discussions with the investment-banking and commercial-savings banking and insurance industries in an attempt to fathom the response of the market to its formidable financing needs. Both the four-week float and the total backlog of issues with determined offering indications in the corporate sector manifest the slow dollar volume decrease noted here last week. State and local securities, however, have registered slight gains in both the 28-day float and the aggregate slate of dated and undated issues set to appear.

THIS WEEK'S DEMAND FOR CAPITAL

Were it not for municipal issues being much in evidence this week, the demand for long-term funds (excluding the Treasury) for the July 10-15 period would not amount to much. The volume of municipals publicly sold last month, according to the *Bond Buyer's* tabulation, achieved a record total of $1,001,432,386. The first six months of this year came to $4,458,894,000—or almost 8% more than that for the 1960 comparable period. Assisting the successful financing, from the investor's point of view, was a creeping rise in yields. And yet, only a handful of issues were withdrawn during this period besides the Massachusetts Turnpike withdrawal.

Municipals scheduled for post-July 4th week, interestingly enough, have refused to follow the corporate's retrenchment. As the tables below show, there has been a slight increase, but nothing to indicate anything unusually big—so far—except for the PHA's set for August 2nd. There are some large issues lurking in the background expected for fall bidding and negotiation.

Today (July 10) Flint, Mich., will seek bids for $5.5 million, and tomorrow bids will be sought by Los Angeles, Calif. ($18.8 million); Memphis, Tenn ($13.5 million); City and County of Honolulu, Hawaii ($7 million); University of Texas ($6 million); and another school, Texas A & M ($5 million).

The same day (Tuesday) the Treasury will be in the market to exchange 365-day bills for $1.5 billion similar securities maturing July 15. It will also add $500 million to the weekly auction to raise new cash, according to last week's announcement.

On Wednesday, opened to competitive bidding, California Electric Power Co. will offer $8 million in first mortgage bonds due 1991. On that day, too, $51,868,000 in New York State Housing Finance Agency bonds will be negotiated by an underwriting group headed by Phelps, Fenn & Co., and co-managed by Lehman Bros., Smith, Barney & Co., and W. H. Morton & Co. Further, bids for $7 million will be sought on the same day by Sacramento-Yolo Port District, Calif.

Two corporate equity issues, one a preferred and the other a common stock, are tentatively set for Thursday. Brockton Edison Co. will solicit bids for its 40,000 shares of preferred. Kidder, Peabody & Co. will manage the 300,000 shares of Diamond Salt Co. common. Up for bidding, also, will be Milwaukee County, Wisc. ($11,429,000) and Washington State University ($8,354,000). The three university issues, alone, add up to $29,354,000.

There are three sleepers for the July 10 week, all underwritten, which are not as tentatively certain as to making their entry as the above-described ones. They are: Apache Realty Corp. $5 million units under the aegis of Blunt, Ellis & Simmons; Modern Homes Construction Co. 275,000 units via Harriman Ripley & Co., and the team of Eastman Dillon, Union Securities & Co., Hornblower & Weeks and Winslow, Cohu and Stetson for $7,138,400 Canada Dry Corp.'s debentures.

All in all, the week's financing total may reach $186 million in long-term debt and $54 million in equities.

RECAPITULATION OF RECORD HIGH SEC FILINGS

As it turned out, our estimate was off but by 43 filings in arriving at a six-month registration figure of 1,078 for this year. The actual figure released by the SEC was 1,121. There were 528 issues registered in the first quarter of this year and 593 in the second quarter ending June 30. The last week of the first quarter had 133 last minute filings and the last six working days of June, past. had 103.

The fiscal year's filings (July 1, 1960-June 30, 1961) in dollar amount came to $20.7 billion for the fiscal year's total of 1,830 filings. The June, 1961, filings were 72% above the previous high for June (in 1959). The following indicates the increasing work-load trend of the SEC.

Fiscal Year	*Number of Filings*	*Dollar Amount*
1958	913	17,000,000,000
1959	1,226	16,600,000,000
1960	1,628	15,800,000,000
1961	1,830	20,700,000,000

TREASURY FINANCING NEEDS

One of the most talked about subjects in investment financing outlook circles is: What unusual type and amount of financing will the Treasury engage in for the new fiscal year.? Looking ahead for the first six months, refinancing alone comes to $43.2 billion:

JULY-DECEMBER, 1961, MATURITIES

Treasury Bills	*Treasury Notes*	*Treasury Bonds*	*Total*
$3,282,000,000	$25,626,000,000	$10,687,000,000	$39,595,000,000

By adding an estimated need for new cash of $3.7 billion to this tremendous debt-refinancing-management problem of issues coming due, we arrive at an estimated volume of $43.2 billion

Some of the other problems the Treasury must cope with are: the persistent upward creep in long-term corporate and municipal yields—so highly competitive; and being able to gauge correctly new cash needs. Seldom has an administration guessed correctly its planned deficit or surplus, for that matter, and almost as difficult is knowing what its cash needs will be other than the expected deficit gap. Often receipts do not mesh with the issuance of U. S. Treasury checks.

If the Administration plans to keep the long-term interest rate—or effective yield—down, a lot will depend upon what it does; and upon the reaction of the Federal Reserve which must think in terms of the economy and not some campaign pledge about cheap money or low interest rate dogma. It will also depend upon corporate spending plans which may change suddenly from its present doldrum stage with the passage of a decent tax-incentive bill and/or a decided lift in optimism about the economy. The latter has yet to make an appearance. Irving Trust Company's latest study of electric and gas utility financing for the first six months of this year arrives at a total of $1,425,100,000 (59% electric)—up 10% over a similar period last year. Think of what this sum would have done if it were not in great part devoted to refinancing but to expansion and modernization. Financing revolving around refinancing is not apt to press interest rates as muchas the demand for new capital, whether by industry and/or the government.

Both Mississippi Power ($5 million 30-year bonds and $5 million preferred stock) and Texas Eastern Transmission Corp. ($30 million debentures and 200,000 shares of subordinated convertible preferred) have been temporarily postponed. The former had been tentatively scheduled for competitive bidding on Sept. 28 and the latter, managed by Dillon, Read & Co. for July 12.

The gross total for both the formal corporate backlog above and the indeterminate one below adds up to $2.6 billion. Last week's estimated total was $2.9 billion. Even this figure reflects the declining trend of the corporate backlog.

FED'S SURPRISING MOVE IN LAST WEEK'S CHANGES

Last week we complimentarily wrote that the Fed surprisingly had increased its open market purchases of governments by $555 million as of June 28 compared to last year's same day. This is a large amount of debt monetization but not as much as had been anticipated for the new nudging policy of lowering long-term yields. As it turned out, our surprise was premature, and therefore incorrect, by one week. In an amount beyond the July 4th need to compensate for an increase in money in circulation, the Fed as of last July 5 *vis-a-vis* July 6, 1960, increased its portfolio by $847 million, or $292 million more than last week's differential of $555 million for the year. The hike as of July 5, 1961 compared to June 28, 1961—one week's time—was a tremendous $609 million. The weekly average figures as of July 5 were up by $457 million compared to the weekly average ending June 28, 1961. The average was up $783 million as compared to the week ending July 6, 1960. Additions included these maturities: $189 million in 15 days, $228 million coming due in 16-90 days, $120 million due in 91 days to one year and $41 million in 1-5 years. Also, $13 million of bonds due 5-10 years, and $18 million in 10 years or more.

Despite this, Treasury bonds ended last week on the weaker side whereas corporates gained fractionally—stronger than a week ago. Federal funds last June 29 were 2½% high, 1½% low and 1½% final. On June 30 they dropped to 1%, ¾%, and ¾%, respectively. Last week, July 6, even though the net free reserves of member banks were $482 million (down $49 million from the week before) the Federal funds were quoted at 2% for high, low, and close.

Commencing with June 29, the week's public corporate sales were $154,167,000 and $129,608,500 consisting of long-term debt. Additions of corporates to the *Chronicle's* July 6 calendar came to $25,186,000. The deluge of SEC registrations will not enter the calendar for around three to four weeks.

Municipal sales for the week ending July 5 came to $21,560,000 and swelling the calendar's addition of $120,937,000 was the PHA's for August 2.

good faith in selling the option stock, civil liabilities under applicable laws were incurred by each in so doing. Therefore, Zilka, Smither & Co., Inc., is making an offer of restitution by this offering circular to all purchasers of the 73,801 shares of option stock of the corporation which were unintentionally sold in violation of United States, Oregon and Washington security laws. The offer of restitution is to refund to each purchaser the sales price of $1.25 a share, together with interest thereon at 6% per annum from date of purchase, in exchange for the purchaser's stock certificate properly assigned for transfer to Zilka, Smither & Co., Inc. Each purchaser entitled to the offer of restitution will be promptly advised by letter from Zilka, Smither & Co., Inc., and will be allowed 30 days from the date of mailing the letter within which to accept or reject the offer of restitution.

The same offer of restitution is being made to purchasers of 3,064 shares of stock, which consist of 1,564 shares in the inventory of Zilka, Smither & Co., Inc., on Sept. 6, 1960, and 1,500 shares thereafter purchased over the counter by Zilka, Smither & Co., Inc., from investors. The purchasers of these shares will likewise be promptly notified by letter of the offer of restitution. Although not legally required to do so, Zilka, Smither & Co., Inc., is extending its offer of restiution to such purchasers because it considers it unfair and impracticable to distinguish such purchasers from among the purchasers of 73,801 shares of option stock.

Any shares reacquired by Zilka, Smither & Co., Inc., as a result of its offer of restitution will then be reoffered to the public for purchase at $1.25 a share. Proceeds from the reoffering will be retained by Zilka, Smither & Co., Inc., as the corporation has already received $1.06¼ for each such share.

By reason of the cancellation by Zilka, Smither & Co., Inc., of its last order for option stock from the corporation, there are 26,326 shares remaining available for sale to the public. These shares will be sold either by the corporation or by Zilka, Smither & Co., Inc., as underwriter, at $1.25 a share. If sold by Zilka, Smither & Co., Inc., it will retain a commission of 18¾ cents a share and the corporation will receive $1.06¼ a share from the proceeds.

DESCRIPTION OF SECURITIES—The securities to be offered to the public hereunder comprise the shares reacquired by the underwriter as a result of its offer of restitution mentioned above, and the 26,326 shares of the corporation which are unissued. Each of these shares is of $1 par value and is voting common stock of the corporation. The corporation has only one class of stock and each share entitles the holder thereof to one vote on all matters to be decided by the shareholders. No dividends have been paid on the corporation stock, and it is not anticipated that dividends will be paid on this stock in the foreseeable future. The stock is nonassessable.

BUSINESS—The issuer of the securities offered is Architectural Plastics Corp., herein referred to as APC or the corporation. APC has its principal office at 1355 River Road, Eugene, Oregon. Its business consists of the design, engineering, manufacturing, and wholesale distribution of plastic building materials. The corporation was formed on Jan 17, 1955, and is the successor of a proprietorship doing business as Plasti-Products Co. This company was owned by the present president of the corporation and commenced business in 1952.

The first public issue of its securities was registered with the Oregon Corporation Commissioner on April 30, 1956, and exempted from registration under Regulation A of the Securities and Exchange Commission on May 25, 1956. On June 5, 1958, an increase in authorized capital stock from 10,000 shares of a par value of $10 each to 25,000 shares of a par value of $10 each was effected. The additional 15,000 shares authorized were registered for public sale with the Oregon Corporation Commissioner by an amendment to the original registration. However, only 5,000 of these shares were offered for sale. These 5,000 shares were offered pursuant to an exemption from registration under Regulation A of the Securities and Exchange Commission and sold to the public at par value. On Sept. 18, 1959, the capital structure of the corporation was amended to provide for 1,000,000 shares of $1 par value voting common stock. Existing shareholders of the corporation at the time of the amendment received a 9-for-1 stock split. On Oct. 29, 1959, the corporation commenced an offering of 240,000 shares of its stock. This offering is more particularly described under the heading "Explanation of Offer." Of this offering, a total of 213,674 shares were sold. This offering was registered for public sale with the Oregon and Washington corporation commissioners, and exempted from registration under Regulation A of the Securities and Exchange Commission. The following is the table of capitalization of the corporation: Each reference is to the corporation's $1.00 par value common stock:

Number of shares authorized	1,000,000
Number of shares outstanding on Dec. 31, 1960	356,873
Number of shares presently outstanding	363,674
Number of shares to be outstanding if all the shares being offered are sold	390,000

This stock is held by approximately 500 stockholders. As a result of the sales of shares made in violation of Federal and State securities laws, as is described above, the corporation has a contingent liability to refund the purchase price of 73,801 shares to the purchasers together with interest at 6% per annum from date of purchase. —V. 193, p. 2002.

Beryllium Corp.—Expansion—

The Beryllium industry now has "more than sufficient capacity for current demands in the nuclear and space fields," according to Lawrence F. Boland, executive vice-president of The Beryllium Corp. of Reading, Pa., one of the two U. S. producers of the metal.

With the completion in June of a $3.5 million expansion of its Hazleton, Pa., plant, Berylco has a beryllium metal production capacity of about 25,000-lb per month. This, together with the recently increased capacity of the other producer, Brush Beryllium Corp. of Cleveland, makes a U. S. industry total of around 55,000-lb. per month.

"There's no shortage of beryllium at the present time," Boland says. "Now that the industry has almost tripled its capacity, the demand for beryllium—from either government agencies or private industry—is not in excess of present capabilities.

"Before the expansion," Boland states, "It's true that there were demands for beryllium substantially in excess of capacity. But today that's no longer the case. In fact, at the present rate of consumption, with some projection into the future, the new capacity of 55,000 lb. per month appears to be adequate for the time being. However, in our own case at least, we have built a certain amount of 'reserve capacity' for the future.

"Being completely realistic about beryllium," Boland continues, "we see a steady growth over the coming years—A growth that will be governed to a large extent by what comes out of research and development."

Both producers are currently spending at the rate of about $1,000,000 annually on R&D, with the U. S. Air Force and Atomic Energy Commission adding another $2.5 million.

Berylco's expansion at Hazleton boosts the firm's beryllium-metal capacity by some 150% at a cost of about $3.5 million, including both billet plant and fabrication facilities. Additional funds were directed toward enlarged R&D facilities at Reading and Hazleton. The expansion program took about 14 months for completion, from initiation in the fall of 1959.—V. 193, p. 1223.

This company, of 3355 Poplar Ave., Memphis, Tenn., filed a registration statement with the SEC on June 29 covering 300,000 shares of class A common stock, to be offered for public sale at $5 per share through underwriters headed by Lieberbaum & Co. on an all or none basis. The underwriters will receive a commission of 50 cents per share plus $15,000 for expenses. The 16 corporations hold office buildings in Memphis, Nashville, Phoenix, Raleigh, San Juan, Tallahassee, Atlanta and Birmingham. Net proceeds to the company from its sale of class A stock, estimated at $1,300,000, will be used as follows: to supply additional working capital to its construction subsidiary; to supply funds for the construction of buildings on those of the company's properties on which construction has not as yet begun; and to finance the acquisition of additional land and the erection of buildings thereon. Broadcast International, Inc.—Stock Offering Susp'd

The SEC has issued orders temporarily suspending Regulation A exemptions from registration under the Securities Act of 1933 with respect to proposed public offerings of securities as follows:

(a) Broadcast International, Inc. ("Broadcast"), 3 West 57th St., New York. In a notification filed June 2, 1961, Broadcast proposed the public offering of 60,000 common shares at $5 per share;

(b) Great Divide Mining Corp. ("Great Divide"), 1333 E. 7th St., Los Angeles, Calif. Great Divide filed a notification in September, 1958, proposing the public offering of 300,000 common shares at $1 per share; and

(c) J. I. Magaril Company ("Magaril"), 3605 E. 10th Court, Hialeah, Fla. In a notification filed in March, 1961, Magaril proposed the public offering of 16,000 common shares of Spray-Bilt, Inc., at $6.25 per share.

Regulation A provides a conditional exemption from registration with respect to public offerings of securities not exceeding $300,000 in amount. The suspension order with respect to Great Divide asserts that that company failed to cooperate with the Commission by reason of its refusal to respond to written and telephone inquiries concerning amendments of the notification and accompanying offering circular. The orders with respect to Broadcast and Magaril assert that their offerings violated or would violate the provisions of Section 17 (the anti-fraud provision) of the Securities Act because of false and misleading information in their respective offering circulars. The alleged misrepresentations in the Broadcast circular relate to the failure to provide financial statements prepared in accordance with proper accounting principles, failure to disclose that customers listed as current active accounts had ceased to deal with Broadcast, an overstatement of the number of programs which could be produced with the proceeds of the offering, and a statement that Broadcast represented 150 television stations. In the case of Magaril, the alleged misrepresentations involved the failure to provide financial statements of Spray-Bilt prepared in accordance with proper accounting principles, in that Spray-Bilt failed to include expenses incurred in January 1961, as operating expenses for that month, and changed its accounting practice to record sales at the time the order was received rather than at the time goods were shipped, which had a materially misleading effect on the financial statements for January 1961; failed to disclose the change in accounting procedures, which affected the net income for January and comparability of financial statements with those of previous periods; and failed to include in a footnote to the financial statements the effect upon its profits to changes in accounting, and included therein a misleading explanation of the effects of an advertising campaign and convention. The order with report to Broadcast also asserts that its notification failed to disclose a material transaction with respect to the stock held by a controlling person and falsely named as an officer a person who was not an officer.

Each order provides an opportunity for hearing, upon request, on the question whether the suspension should be vacated or made permanent.—V. 193, p. 1115.

Central Foundry Co.—Enters Real Estate Field—

This company, one of the nation's leading manufacturers of cast iron soil pipe and fittings, has formed a new corporation which plans to build a 1,000-home community in the Washington, D. C., area.

According to William Maidman, Executive Vice-President of Central Foundry, the move not only represents a diversification of activity but the creation of a large customer for Central Foundry pipe.

Mr. Maidman said that Central Foundry's decision to enter the building field was made after 140 orders for dwellings were received within three weeks after two model units had been shown to the public early in May.

The homes, which will have FHA-insured mortgages, are three-bedroom ranch units on one-third of an acre plots. They sell for $11,990 and $12,990.

The development, which has been named Future Haven, is on Route 202, near Glen Arden in Prince George County, Md., less than 10 minutes northeast of the nation's capital.

"The demand for good modern homes from families earning $5,000 a year or less is so strong in the Washington area," Mr. Maidman declared, "that we believe we can sell 1,000 homes a year here for the next few years."

Mr. Maidman said that sufficient acreage had already been purchased or optioned to fill foreseeable needs.—V. 193, p. 4.

Century Natural Gas & Oil Corp.—Name Approved—

Shareholders voted to change the company's name to Century-Special Corp. at the annual meeting June 29.

Century's primary business changed from gas and oil production to the custom manufacture of mechanical and electro-mechanical components for computers, missiles, helicopters, etc., in October 1960 when it acquired The "Special" Corp., Silber Products Inc., and Special Machine Tool Engineering Works.

According to Victor Silber, president and board chairman, The "Special" Corp. is Century's major source of revenue and the change in the parent company's name reflects more accurately the current character of the business.—V. 192, p. 1812.

Copycat Corp., New York, N. Y.—Files With SEC—

The corporation on June 19, 1961 filed a "Reg. A" covering 100,000 common shares (par 10 cents) to be offered at $3, through Treves & Co. and Reich & Co., New York.

The proceeds are to be used for working capital, advertising, research and expansion.

Coral Ridge Properties, Inc.—Chairman's Report—

Net profit for the fiscal year 1961, after provision for Federal income taxes, was $1,023,000. This 1961 statement of earnings does not reflect the Coral Ridge Towers program. These operations will be included as they occur in the 1962 annual report.

In March of 1961, the company began the sale of 330 cooperative apartments, the 16-story Coral Ridge Towers—largest of its type in the State of Florida. Results to date have been most gratifying.

In 1961, the company prepaid $350,000, which resulted in reduction of $1,613,000 of mortgage indebtedness, and a savings of $653,000. This savings was made again this year because of the favorable terms of the Mortgage Prepayment Agreement, which makes possible a 40% discount on a substantial portion of the company's indebtedness. This advantage is frequently overlooked unless you read the footnotes of the financial report.

In 1961, we were able to effect increases in gross revenues for both land sales and hotel operating properties. At the same time, we reduced the company's operating costs.

We are optimistic for the future of Florida. However, management recognizes the continued necessity for intensifying its efforts to avoid land inventory which is not "in the line of development" and which results in excessive promotional costs and fixed interest and real estate tax charges.—V. 193, p. 2005.

Cott Bottling Co., Inc.—Common Registered—

H., filed a registration statement with the SEC on June 29 covering 335,000 shares of common stock, of which 170 000 shares are to be offered for public sale by the company and 165,000 shares, being outstanding stock, by the present holders thereof. The offering will be made on an all or none basis through underwriters headed by R. W. Pressprich & Co. The public offering price and underwriting terms are to be supplied by amendment.

The company is engaged in the manufacture and distribution in certain areas of bottled and canned carbonated beverages which are marketed under the "Cott" trade name. In addition, it also manufactures and distributes bottled carbonated beverages in New England under the name "American Dry." The net proceeds from the company's sale of additional stock will be applied to the reduction of short-term borrowings made to finance inventory and accounts receivable; and to finance, in part, expansion of and addition to plant.

In addition to certain indebtedness, the company has outstanding 585,000 shares of common stock, of which Morris Silver, President, and Henry R. Silver, Executive Vice-President, own 150,696 shares each and propose to sell 52,500 shares each; and One Seventy-Seven Granite Street, Inc. Keystone Fund of Canada, Ltd.—Name Change OK'd

Shareholders have voted to change the name of the Fund to Keystone International Fund, Ltd., and to permit foreign investment without geographical limitation, it was announced by Sidney L. Sholley, President. The change became effective July 3.

Earnings of $678,000 or $0.38 per common share on net sales of $25,772,000 were reported by the company and its consolidated subsidiaries for the six months ended May 31, 1961. In the corresponding period last year, earnings were $675,000 or $0.37 per common share on net sales of $31,620,000.

In a message to stockholders, Julien R. Steelman, Chairman and President, stated that during the second quarter domestic sales of construction machinery were slightly under 1960 and sales of industrial machinery, affected by both lower business levels and a strike, were substantially below a year ago. The result is that net sales for the second quarter were 20% below 1960 and 18% lower for the six-month period. Strikes at three Koehring plants this year had a significant effect on shipments and earnings, according to Steelman. He also pointed out that costs of moving Cast-Master production to the H-P-M Division plant in Mt. Science Investments, Inc.—New Company—

The formation of Science Investments, Inc., of 340 Main Street, Worcester, Mass., a regulated, closed-end, nondiversified investment company, was announced on June 28. Southern Nitrogen Co., Inc.—Expansion Program—

The company has announced a $5 million expansion program to meet the growing demand for its agricultural products in the Southeast. The principal additional facilities will be constructed at Savannah, Ga., to increase anhydrous ammonia production at the company's Savannah Works by 50%—from 100,000 to 150,000 tons a year.

John R. Riley, Southern Nitrogen's President, said:

"Nitrogen fertilizer consumption in our four primary states—Georgia, Florida, North and South Carolina—has increased significantly the past few years.

"We are now faced with the necessity of expanding our facilities immediately to meet the rising demand for our plant food materials in the near future.

"Within the next few months we expect to start receiving ammonia at Tampa, Fla., under our long-term purchase contract with the Tennessee Corporation. The company has announced that it is accelerating its 1961 program to acquire more than $51 million in new railroad and highway rolling equipment, to help stimulate the business upturn.

"The immediate answer to any temporary economic recession," declared D. J. Russell, President of the railroad, "is in terms of industry's willingness to make hard cash investments in equipment and facilities to improve efficiency and the products and services offered the public."

Southern Pacific, Russell said, has been speeding delivery of this new equipment in order to get these capital expenditures quickly into the economy.

This equipment includes 2,342 railroad freight and passenger cars, 34 diesel locomotives, 746 highway vehicles and 275 bi-level and tri-level auto rack units for the piggybacking of automobiles on railroad flatcars.

The $51 million figure, SP pointed out, does not include money budgeted by the railroad and its subsidiaries for investments in fixed facilities—such as line, terminal and communications installations and property being developed to attract new industries to communities served by SP.—V. 194, p. 51.
