Abby Vending Mfg. Corp.—Common Offered—Pursuant to a Nov. 22, 1961 offering circular, L. H. Wright Co., Inc., New York City, publicly offered 100,000 shares of this firm's common stock at \$3 per share. Net proceeds, estimated at \$230,000, will be used by the company for moving expenses, acquisition of a new type gumball machine, working capital and funds for financing vending machine sales.

BUSINESS—The company, of 79 Clifton Place, Brooklyn, N. Y., now manufactures and sells a variety of small, single coin vending machines which vend the following products:

Postage stamps, post cards, postal cards, newspapers, hobby cards, lipsticks, perfumes, wash and dry coffee.

In addition, it creates and sells a variety of hobby cards, printed for it by others, for distribution in its hobby card vender.

Acceptance Corp. of Florida—Notes Sold Privately—On Nov. 28, 1961, it was reported that this company had sold privately through Robert Fulton Maine Co., New York City, \$200,000 of its senior notes due 1973, and \$400,000 of its junior subordinated notes due 1971.

Adrian Steel Co.—Common Offered—Pursuant to a Nov. 29, 1961 offering circular, Morrison & Frumin, Inc., Detroit, offered publicly 100,000 shares of this firm's common stock at \$2.50 per share. Net proceeds, estimated at \$211,000, will be used by the company for the repayment of debt, purchase of additional equipment and inventory, and for working capital.

BUSINESS—The company was incorporated under the laws of the State of Michigan on Aug. 27, 1953, and has maintained its offices and manufacturing facilities in the City of Adrian, Michigan, since that time. By a Merger Agreement dated May 10, 1954, the company acquired all of the assets, consisting solely of cash, of The Adrian Corp., a Michigan corporation. The company's present offices and plant are at 906 James St., Adrian, Mich.

Since 1956, the company has engaged in production arc welding of sub-assemblies for a major vendor in the automotive industry and the manufacture of sheet metal cabinets, control boxes, curing and storage racks and base assemblies used in the automotive, machine tool, air conditioning and cement block industries. The company is also a manufacturer of small and medium metal stampings and assemblies for various customers. An average of approximately 65% of the company's sales during recent years have been in the assembly and production arc welding of automobile seat frames for Stubnitz-Greene Spring Corp., a major supplier of such items to General Motors Corp., Ford Motor Co. and Chrysler Corp. The remaining 35% of the company's sales is in the field of metal fabrication which comprises shearing, punching, forming and assembling, by arc and spot welding and other methods, of various metal products. These products include cement block curing racks for the cement block industry, material handling racks for the automotive industry, base assemblies, sump assemblies, blower cabinets and control boxes and cabinets for the air conditioning industry and electrical control boxes and cabinets for a manufacturer of paper milk container manufacturing machines. The company also fabricates special metal products on a job order basis. Customers of the company in the metal products field include Ex-Cell-O Corp., Stearns Manufacturing Co., Acme Industries, Inc. and Robinaire Manufacturing Division of Kent-Moore, Incorporated.

Although there are a large number of companies in the Detroit industrial complex engaged in metal fabrication, the company knows of no particular company with whom it is in direct competition for the work presently done by it; and as a result of an advantageous geographical location, a favorable employee relationship and a highly successful incentive program, the company has been able to maintain and increase its sales volume in every year except the recession year of 1958.

The company was advised in August, 1961, that all assembly and production arc welding of automobile seat frames for Stubnitz-Greene Spring Corp. would be performed in Stubnitz-Greene's own plant commencing Oct. 6, 1961, and about Nov. 1, 1961, Stubnitz-Greene began to do a portion of this work in its own plant. Since that date, the percentage of this work done by the company has continually decreased. The loss of this business will, of course, result in sharply diminished sales and earnings for the company unless this sales volume can be replaced with other customers or products.

For the purpose of diversifying the company's activities and making it less dependent upon the sub-contracting of business to it by other manufacturers, the company proposes to commence the manufacture and sale of a roof type air conditioning unit and combined air conditioning and heating unit, for use in one story industrial and commercial buildings such as super markets, bowling alleys and shopping centers and a through wall air conditioning and heating unit for commercial and municipal use in buildings, such as motels and schools. Construction and sale of these products will be as finished products of the company rather than the manufacture of component parts and assemblies for others, on a sub-contract basis, as in the past, although the company will continue to engage in its present business.

specializing in the design and manufacture of airborne FM radio telemetry components and radio frequency filters. The company's plant and offices are located at Two Commercial St., Hicksville, N. Y.

PROCEEDS—The estimated net proceeds to the company will be approximately \$227,500 after payment of the underwriter's commission, and deductions of the expenses of the issue. It is presently planned that the proceeds will be utilized in the following amounts and order of priority as much as possible: Repayment of loans to the Messrs. Mallawer, \$50,000; plant improvements, \$7,500; test equipment and machinery, \$25,000; research and development, \$50,000; advertising and sales promotion, \$25,000; reserve for accounts receivables, \$25,000; and working capital, \$45,000.

Airtechnology Corp.—Files With SEC

The corporation on Nov. 15, 1961 filed a "Reg. A" covering 60,000 common shares (no par) to be offered at \$5 through Schirmer, Atherton & Co., Boston. Proceeds are to be used for general corporate purposes. Airtechnology of 640 Memorial Dr., Cambridge, Mass., is engaged in the research and manufacture of electronic products under U. S. Government contract.

Allied Chemical Corp.—Proposed Merger

Agreement has been reached for the merger into Allied Chemical of Union Texas Natural Gas Corp., it was announced by Kerby H. Fisk, Allied Chemical's Board Chairman, and J. Howard Marshall, Union Texas President.

On Nov. 12, plans of the two companies to build a joint petrochemical complex near Baton Rouge, La., were made known. Further discussions by officers of both companies resulted in the proposed merger on the basis of seven-eighths of a share of Allied Chemical stock for each share of Union Texas. The merger is subject to the approval of the boards of directors and of the stockholders of both companies.

The complementary nature of the resources of Union Texas and the capabilities of Allied Chemical constitute a strong basis for further petrochemical development. Messrs. Fisk and Marshall said.—V. 194, p. 2217.

Almo Industrial Electronics, Inc.—Class A Registered

This company, of 412 N. 6th St., Philadelphia, filed a registration statement with the SEC on Nov. 27 covering 155,000 shares of class A stock, to be offered for public sale through underwriters headed by C. C. Collins & Co., Inc., and Harrison & Co. The public offering price and underwriting terms are to be supplied by amendment. The statement also includes 20,000 shares underlying 5-year warrants to

be sold to the underwriters for \$200, exercisable at the public offering price.

The company is a wholesaler and distributor of electronic parts, components and equipment which are manufactured by others and sold by the company primarily to industrial customers for the manufacture of products and for research and development. Net proceeds from the stock sale will be used to augment working capital. Prior to August, 1961, the company conducted a non-industrial operation consisting of the distribution of amateur radio equipment, home-recording equipment, replacement parts therefor, and radio and television replacement parts to amateur radio operators, retail high fidelity customers, and radio and television servicemen. In August, the company sold to Almo Radio Co. all of the assets attributable to such non-industrial operation including cash, inventory, fixtures, accounts receivable, and all outstanding stock of Almo Radio Co. of Trenton. Almo Radio Co. was organized in July, 1961, and is wholly owned by Morris Green, President and sole stockholder of the company. In consideration for said sale, Almo Radio Co. assumed substantially all of the liabilities of the company which liabilities exceed the book value of the assets acquired by \$613,995. The company issued an unsecured promissory note due 1972 payable to Almo Radio Co. in the amount of \$613,995.

In addition to certain indebtedness, the company has outstanding 15,000 class A and 70,000 class B shares, all owned by Morris Green. Holders of class A shares are entitled to one vote per share and holders of class B shares to two votes per share.

American Auto Stores, Inc.—Class A Common Stock Offered—Pursuant to a Nov. 29, 1961, offering circular, Scherck, Richter Co., St. Louis, Mo., publicly offered 60,000 shares of this firm's class A common stock at \$5. per share. Net proceeds will be added to the company's working capital and subsequently be used for expansion.

BUSINESS—The company, of 3333 Locust St., St. Louis, was incorporated under the laws of the State of Missouri on Oct. 1, 1958, under the name of St. Louis Gem Auto Supply, Inc. The name was changed to its present form on Sept. 5, 1961. American Auto Stores, Inc., and its subsidiaries, are engaged in the operation of 14 licensed departments in discount department stores and in the distribution and sale of automotive parts and accessories to jobbers and wholesalers. Of the 14 licensed departments, seven sell automotive parts, accessories, tires, batteries and service; three sell automotive parts, accessories and service; three sell tires, batteries, and service; and one operates a filling station.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

Class B common stock (par 10c)	400,000 shs.	400,000 shs.

—V. 194, p. 1609.

American Machine & Foundry Co.—Proposed Acquis.

The company and the New Rochelle Thermatool Corp. have signed an agreement for the acquisition by AMP of the assets of Thermatool in exchange for AMP common stock.

The agreement is subject to receiving certain tax rulings from the Internal Revenue Service and the fulfillment of other conditions.

New Rochelle Thermatool Corp. is engaged in the development and licensing throughout the world of electrical welding systems and other processes. AMP is a large producer of products for the consumer, industry and defense.—V. 194, p. 1273.

American Machine & Metals, Inc.—Name Change OK'd

On Nov. 22 stockholders of the company approved a change in name as part of the most complete corporate identity change in modern business history.

Meeting in Wilmington, Del., stockholders voted approval of the new name AMETEK, Inc., to replace American Machine & Metals, Inc. "The change to the new name of AMETEK, Inc., and the new design and corporate identity system which together comprise what we believe to be the most complete identity change any corporation has undertaken is expected to occur Dec. 1," Charles W. Anderson, President, said.

The new identity is being adopted to overcome industry's increasing difficulty of getting instant clear, unmistakable and memorable recognition for a company and its products, he said. "The solution is an identity of distinctive brevity."—V. 194, p. 1714.

American Modular Manufacturing Corp. — Common Registered

This corporation of 4950 71st Ave. North, Pinellas Park, Fla., filed a registration statement with the SEC on Nov. 27 covering 200,000 shares of common stock, to be offered for public sale at \$2.50 per share. The offering will be made on a best efforts basis through underwriters headed by Equity Securities Co., which will receive a \$375 per share selling commission and \$25,000 for expenses. The statement also includes 25,000 shares underlying 3-year warrants sold to the underwriters for \$300 each, exercisable at 15 cents per share.

The company's principal business, as a result of acquisition in December 1960 of two affiliates, will be the manufacture and sale of a type of component constructed home, the "Modular-Struct Home," which is a ready-to-live-in dwelling. The two affiliates have been in the subdivision home construction business for more than seven years, and are in the process of changing their business to produce and sell only Modular-Struct Homes. These companies have not built any homes since the spring of 1961 and have not had any operating income this year. Prior to acquiring its subsidiaries, the company did not operate any business but held certain speculative investments of undeterminable value; the company itself sustained what was principally a non-operating loss of \$11,039.23 for the six months ended Aug. 31, 1961. During the same period the subsidiaries lost \$35,289.10 which loss has increased since that date at about \$5,000 per month. The \$375,000 net proceeds from the stock sale will be used to pay \$138,000 in accounts and notes currently due and payable, for an initial sales and advertising program to purchase additional manufacturing equipment, and for working capital for manufacture and sale of the homes.

In addition to certain indebtedness, the company has outstanding 333,333 shares of common stock (after giving effect to a recent 1 for 15 reverse stock split), of which E. B. Garrington, President, William

Corporate and Municipal Financing Ahead

By **SIDNEY BROWN**

Debt securities amounting all told to \$182,616,000—28 major tax-exempts and one corporate fixed interest—are scheduled for this week's bidding block. In addition, there are three managed senior corporate debt public offerings, which add up to \$60,552,000 tentatively placed in this week's calendar. These include one 6% convertible subordinated debt offering to stockholders. Corporate equity issues of note number but three, and are expected to raise about \$16 million. Included therein is one stockholders' equity offering.

Last week the Investment Bankers Association of America ended their annual convention. It now remains to be seen whether in the few remaining weeks before Christmas-New Year's week they will resurgently register new issues with the SEC to start and end the New and Old Years auspiciously—perhaps like the first six months of this year.

The four-week float remains comparatively unchanged from last week's projection due, for the most part, to last week's relatively modest new issue financing and insignificant additions to the Dec. 4-30 float. Also, Kratter Corp.'s \$100 million subordinated debentures and warrants rights offering is set for Dec. 1 (Friday) and, thus, is taken out of the float as of this writing. The total formal backlog of issues shows a decline for both corporate equities and bonds. This float encompasses all issues with dates, including the four-week float tabulation and those issues with assigned dates for subsequent weeks, as well as firm offerings expected to appear but still without tentatively assigned offering dates. Even the indeterminate float of corporate securities which range from "stop-orders" to financing intentions awaiting stockholder approval—i.e., all proposals not firmed up for offering—has registered no gain. Incidentally, in the total backlog are still five tax-exempt investment funds, one of which is in the calendar for Dec. 18, amounting to \$59,425,000, which are classified as corporate filings because of the peculiarities of the investment company act.

BORDEN CO. AND OAKLAND COUNTY, MICH., ARE THIS WEEK'S LARGEST ISSUERS

The more important new issues scheduled to come out today (Dec. 4) are: DALLAS COUNTY, TEXAS, \$5 million; and 583,334 shares of HOUSTON CORP.'s common rights to stockholders of Dec. 4, set for signing tomorrow with rights to expire on Dec. 19; via Blyth & Co., Lehman Bros., and Allen & Co. (filed June 9).

BORDEN CO.'s \$50 million sinking fund debentures (filed November 16), managed by Morgan Stanley & Co. is expected to appear tomorrow (Dec. 5). Also, from San Francisco, \$6 million in SOUTHWESTERN RESEARCH & DEVELOPMENT CO. common (filed Aug. 28) may appear the same day through the managing hands of Wilson, Johnson & Higgins. Tax-exempts set for the same day of larger denominations are \$28.5 million BALTIMORE, MD.; \$25 million STATE OF CONNECTICUT; \$9,693,000 JERSEY CITY, N. J.; \$9.5 million GEORGIA PORTS AUTHORITY, GA.; and \$6.3 million TERRE HAUTE, IND.

Wednesday, Dec. 6, White, Weld & Co., and Dean Witter & Co., plan to unveil GIBRALTER FINANCIAL CORP. OF CALIFORNIA's \$5.5 million convertible co-ordinated debentures (filed Oct. 3).

From California, also, GENERAL TELEPHONE CO. OF CALIFORNIA will seek bids for \$25 million first mortgage bonds (filed Nov. 8); OAKLAND COUNTY, MICH. will solicit bids for tax-free \$33,675,000; and SALT LAKE COUNTY, UTAH, will also seek bidders for tax-exempt \$5.5 million.

In the course of the week another stockholder offering, underwritten by Hardy & Co. in the amount of \$5,052,700 may get off the ground. It will be the proposed stockholder rights to CONTINENTAL VENDING MACHINE CORP.'s convertible subordinated debentures (filed Aug. 11). Also, some time this week Dean Witter & Co. may issue 225,000 shares of SHAER CORP. common (filed Sept. 18).

DECEMBER'S VISIBLE FLOAT

	Corporate Bonds	Corporate Stocks	Total Corporates	Total Municipals*	Total of Both Financings
Dec. 4-Dec. 9	\$85,582,700	\$61,665,500	\$147,248,200	\$157,616,000	\$304,864,200

EXTERNAL CAPITAL FINANCING PROSPECTS FOR 1961 AND 1962

It looks as though the new issue capital market (sans investment funds and refinancing) in 1962 will get off the ground about as high as a dodo can fly.

The recently published fall, 1961, survey by the McGraw-Hill Department of Economics of business capital investment plans for 1962 shows anticipated plant and equipment expenditures of \$35.8 billion. This is 4% larger than the estimates for this year. And even if this happens to be a conservative estimate, it still would require \$1.2 billion liberalization to equal that achieved in 1957, and correspond-

ingly more if adjustments are made for plant and equipment price inflation costs in the interim.

As indicated in the table just below, estimates for 1961 reveal that 94% of plant-equipment spending came from internal funds. And, according to the McGraw-Hill study, 1962 should find private corporations generating more than sufficient retained earnings and depreciation for their capital investment expenditures.

MAY HOLD BACK ACCELERATED DEPRECIATION AND INVESTMENT CREDIT LEGISLATION

This comes at an inappropriate time insofar as accelerated depreciation and/or investment credit plans to encourage capital formation are concerned. How can those favoring the proposals say more capital is needed, and must be induced if more investing is to occur, when it looks as though private corporations are proving the opposite to be the case by their reticent investment spending plans. Their arguments are considerably weakened when internal funds supply most of the capital funds needed, as in 1961, and when it looks as though this is a short-sighted argument, neglecting the carryover for long-term investing, the data for 1962 offer a picture of more internal funds than that required. The opposition might deduce this will merely mean a better tax break and not more investing already provided from internal sources. This would support President Kennedy's liking for an investment credit plan.

PAST AND FUTURE FINANCING

	(billions of \$)						
	1956	1957	1958	1959	1960	1961*	1962†
1. Corporate after tax profits	\$23.5	\$22.3	\$18.8	\$23.7	\$22.7	\$23.3	\$28.3
2. Retained earnings	11.3	9.7	6.4	10.3	8.6	9.0	13.6
3. Depreciation	17.5	19.3	20.6	21.8	23.3	24.5	25.7
4. Cash flow (2+3)	28.8	29.0	27.0	32.1	31.9	33.5	39.3
5. Cash flow as a per cent of investment (4+6)	82%	80%	89%	99%	89%	96%	110%
6. Plant & equipment expenditures	35.1	37.0	30.5	32.5	35.7	34.6	35.8
7. New capital	9.7	11.8	9.9	8.6	8.7	11.0	---
8. Working capital (year end)	107.4	111.6	118.7	127.5	132.5	(137.9)‡	---
9. Yr.-to-yr. change in working cap.	4.4	4.2	7.1	8.8	5.0	(7.9)‡	---
10. External cap. fin. for work'g cap.	2.9	2.7	2.1	2.5	3.1	(2.3)§	---

* Estimated. † McGraw Hill estimates. ‡ As of June 30, 1961 and compared to June 30, 1960. § For January-September, 1961, period.

The November, 1961, Bond Market Review published by Salomon Brothers & Hutzler adds support to the estimates made here for 1961. Their analysis of sources and uses of funds provides the following data:

	1960	1961
	(Billions \$)	
Retained earnings and depletion	\$7.4	\$8.5
Depreciation	22.9	24.2
Federal tax liability	-1.5	1.4
Plant and equipment expenditures	\$30.8	\$30.0
	-\$2.0	\$4.1

This, the analysis pointed out, explains why the volume of corporate bond financing declined so sharply in the second half of this year. The Salomon Bros. Review went on to opine "there is ample room for a large increase in physical investments in 1962 without requiring an exceptionally large volume of external financing."

Private corporations have managed to keep themselves remarkably liquid in fighting the declining profit trend which fortunately is reversing itself this year. An examination of the data makes one pause and wonder why there was as much external financing as did in fact occur. Much of it seems to have gone into working capital, among other places. By adding the cash flow to the net new capital one can readily see the source of the mounting liquidity of corporations.

To what extent Walter W. Heller's (Chairman, Council of Economic Advisers) forecast of \$565 to \$570 billion GNP by the middle of 1962 and \$600 billion GNP during 1963 will change the capital financing projections is, of course, unknown. Investment spending plans may mount if the capital formation tax proposals currently aired are passed in January when Congress next convenes. But, it may not mean there will be more external financing than heretofore.

Those who predict increased interest rates for 1962 should temper their forecasts until they see better the lay of the land. Resurgently economic health may find a declining savings rate providing, nevertheless, sufficient aggregate of funds for investment purposes.

GREATEST SILVER SCANDAL SINCE SILVER SENATORS HELD UP WW II

If the Administration saw fit to cease buying silver, which we endorse, it should have in one fell swoop demonetized silver, which we advocate. It has itself to blame for the speculative spiraling rise in silver price. Just as it has in the past effectively released surplus stockpiled commodities it could have planned to do the same with silver and encouraged orderly market pricing conditions to prevail—instead of the windfall of unearned prices now prevailing. One wonders whether this is a sop to buy freer trade votes or to provide a devaluation technique to simulate the economy.

LARGER ISSUES AHEAD

The larger corporate and municipal issues are as follows:
 Week of Dec. 11-16: 210,000 shares of NALLEY'S, INC., common; 200,000 shares of SEL-REX CORP., common; 200,000 shares of DUFFY-MOTT CO., INC., common; 147,000 shares of CITIZENS LIFE INSURANCE CO. November 30, 1961.

all of the assets of Olin Oil and Gas Corporation in a tax-free exchange for common stock of Standard Oil Co. (N. J.), Humble's parent company.

On the basis of the closing price of Jersey stock on Nov. 13, 1961, the exchange would represent the equivalent of about \$24 per share of each share of Olin Oil & Gas common stock. The plan is subject to the approval of the Olin Oil & Gas shareholders, such clearance of governmental authorities as may be required, and the resolution of certain corporate problems. It is anticipated the transaction, if effective, will be completed early next year.—V. 192, p. 1610.

(M. A.) Hanna Co.—Common Offered—The First Boston Corp. and associates offered publicly on Nov. 30, 740,000 shares of this firm's common stock, at \$34 per share. The shares were sold by The Hanna Mining Co. which will receive the entire proceeds from the sale.

BUSINESS—The M. A. Hanna Co. recently registered under the Investment Company Act of 1940 as a closed-end, non-diversified investment company.

Application has been made to list the company's common stock on the New York Stock Exchange.

At Sept. 30, 1961, 70.8% of the net assets of the company were represented by investments in the common stocks of The Hanna Mining Co., National Steel Corp. and Consolidation Coal Co. The balance of the company's portfolio includes investments in the common stocks of nine other companies, and U. S. Government and other short-term securities.

The company intends in the main to continue a policy of concentrating its investments in long-term holdings in a few industries and in relatively few companies. This will be supplemented by carefully limited and selective diversification. The company intends to invest primarily in common stocks and other equity securities.

CAPITALIZATION AS OF NOV. 30, 1961

Common stock (par \$2.50) 14,000,000 shs. 12,349,760 shs.

Hunt Foods & Industries, Inc. — Seeks SEC Merger Permit

This company and Harbor Plywood Corp. of Aberdeen, Wash. have applied to the SEC for an exemption order under the Investment Company Act with respect to the exchange of securities incident to a proposed merger of the two companies; and the Commission has issued an order scheduling the application for hearing on Dec. 18, 1961, in its Washington office.

Harbor is a registered investment company. Hunt Foods is primarily engaged in the processing, packaging and distribution of food and grocery products. Hunt owns 749,088 shares (73.14%) of the 1,024,216 outstanding shares of Harbor common stock. Harbor, in turn, owns 22,906 shares (4.79%) of the 4,655,930 outstanding shares of Hunt Foods common stock.

Certain claims have been asserted on behalf of minority stockholders of Harbor against Hunt Foods and certain individuals in an action entitled Lauer vs. Hunt Foods & Industries, Inc., et al., filed in the Court of Chancery for the State of Delaware, New Castle County. The charges in this suit include allegations of Investment Company Act violations; and the plaintiffs seek the distribution of Harbor's assets and the appointment of a receiver. While the defendants consider the suit to be without merit, they recognize that such an action can involve protracted and expensive litigation and that the outcome cannot be accurately predicted.

Imperial Mining Inc.—Files With SEC

The corporation on Nov. 15, 1961 filed a "Reg. A" covering 3,000,000 common shares to be offered at par (10¢ per share), without underwriting. Proceeds are to be used for operating expenses. Imperial of 1443 Rock Glenn, Glendale, Calif. is engaged in mining.

International Bank for Reconstruction & Development — New Development Advisory Service

The World Bank has announced the establishment of a new Development Advisory Service to provide a corps of expert talent available to furnish economic and financial advice to the governments of the less developed member countries of the Bank, particularly in connection with the preparation and execution of development programs.

In announcing these developments, Mr. Eugene R. Black, President of the Bank stated: "Our experience continues to confirm that shortage of capital is not the only, and indeed not the principal, obstacle to more rapid economic progress in the less developed countries. Inexperience and lack of trained manpower at every level are even more serious handicaps."

"I believe that the lending activities of the Bank and its affiliate, the International Development Association, can be carried out successfully only if they are accompanied by a major program of technical assistance and training."

In recent years, continuously increasing demands have been made for the technical assistance facilities provided by the Bank. These take many forms. The Bank has organized over 20 general survey missions—five of them in the past two years—to review the economies of member countries or territories and to recommend future lines of development. Smaller missions are sent out regularly to examine sector or regional problems and to conduct feasibility studies.

From time to time the Bank has been able to provide resident advisers to assist member governments on major policy problems, such as the allocation of scarce resources by effective development programming and the integration of government policies to provide the best possible environment for economic progress. Requests for this kind of assistance have, however, greatly outstripped the possibilities that have, up to now, been available to the Bank from its own staff, and it has been difficult to recruit experts with the required qualifications from outside the Bank for sporadic one- or two-year assignments.

The new Service, the Economic Development Institute, and the existing technical assistance activities of the Bank will be integrated in a new Development Services Department. The Department will also have planning and liaison responsibilities.

International Stretch Products, Inc.—Common Reg'd

This company, of 148 Madison Ave., New York, filed a registration statement with the SEC on Nov. 27 covering 300,000 shares of common stock, to be offered for public sale on an all or none basis through underwriters headed by Burnham & Co. The public offering price and underwriting terms are to be supplied by amendment. The statement also includes 35,000 shares underlying five-year warrants to be sold to the underwriters for \$350, exercisable at a price to be supplied by amendment.

Organized in November, 1961, the company is engaged (through subsidiaries) in the production and sale of extruded rubber thread and braided elastics. Of the net proceeds from the stock sale, \$400,000 will be used to reduce bank debt, \$100,000 to pay debts incurred for acquisition of inventory, \$100,000 to pay promissory notes which represent the balance of the purchase price of machinery and equipment, \$100,000 to defray expenses of plant expansion including cost of expanded rubber producing facilities, and the balance will be added to general funds.

In addition to certain indebtedness, the company will have outstanding 600,000 class E shares (after giving effect to the proposed issuance of such shares to the Cohen family and two companies directly or indirectly owned by them in exchange for the stock of five companies to be operated as subsidiaries), of which Max Cohen, Board Chairman; Martin Cohen, President; Lester Cohen, Executive Vice-President; Art Infants Wear, Inc. (indirectly owned by members of the Cohen family), and Marlies, Inc. (owned by Max and Martin Cohen) own 32%, 9%, 3%, 35% and 31%, respectively.

Julyan Sportswear, Inc.—Class A Offered — Pursuant to a Nov. 21, 1961 prospectus, Mortimer B. Burnside & Co., Inc., New York City, and associates, publicly offered 125,000 shares of this firm's class A stock at \$5 per share.

The net proceeds will be used by the company to purchase additional inventories, finance increased accounts receivables, and supplement working capital.

BUSINESS—The company is engaged principally in the production and sale of medium priced maternity sportswear coordinates; two and three piece maternity suits, and popular priced regular sportswear coordinates. Its products emphasize color, fabric and design, and are intended to be worn as ensembles for girls and women wearing "misses" sizes.

The annual net sales volume has grown from \$1,831,856 in 1956 to \$5,154,444 in 1960. The company believes that it is one of the largest producers of popular priced maternity sportswear and suit coordinates. The company was incorporated in 1954 under the laws of the State of New York. Its principal executive offices are located at 237 West 35th St., New York City.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

Table showing 5 1/2% unsecured bank loan, Sundry indebtedness, Capital stock, Class A stock, Class B stock.

Kaiser Electronics, Inc.—Common Offered—Public offering of 50,000 shares of this firm's common stock at \$4.50 per share was made on Nov. 28 through Schirmer, Atherton & Co., Boston. Proceeds will be used by the company for the repayment of debt, development of new products, purchase of additional equipment and inventory, and working capital.

The company of Union, N. J., designs, manufactures and sells electronic power conversion equipment using either transistors or vacuum tubes. Its products are used in electronic assemblies which require a precise source of power and which are used in production of such items as missiles, aircraft, computers, etc.—V. 194, p. 1056.

(D.) Kaltman & Co., Inc.—Acquires Two Drug Firms

D. Kaltman & Co., Inc. has announced the acquisition of Nyal Co. Inc. and Forbes Pharmaceutical Co. Inc., drug manufacturing firms located in Yonkers, N. Y.

Nyal was originally established in 1907 as a manufacturer of pharmaceutical and drug specialty products. Nyal and Forbes will continue their present manufacturing business, and will be aided in the distribution of their products through Kaltman's distribution facilities.

This acquisition is a part of Kaltman's new merchandising program. On Nov. 1, D. Kaltman & Co., Inc. announced the opening of the first cash and carry warehouse in the wholesale drug industry. Faced with the general reduction of gross profit margins and increased costs of distribution in the wholesale drug industry, Kaltman has embarked upon a program which aims to reduce cost of distribution and which will enable it to participate in the higher profit margins generally attributed to a manufacturing operation.

Terms of the purchase are on a cash basis. The present management is being retained and both companies will operate as wholly owned subsidiaries of D. Kaltman & Co., Inc.—V. 191, p. 201.

Kent Dry Cleaners, Inc.—Common Offered—Pursuant to a Nov. 24, 1961 prospectus, Arnold Malkan & Co., Inc., New York City, publicly offered 165,000 shares of this firm's common stock at \$5 per share.

Of the total, 45,000 were sold for the company and 120,000 by certain stockholders. Net proceeds from the sale of the 45,000 shares will be used by the company for plant expansion, purchase of additional equipment and working capital.

BUSINESS—The company was incorporated in New York in 1952 to engage in the retail dry cleaning of men's, women's and children's clothing of all kinds. In September 1952, it purchased the assets of "Kent Stores, Inc." a corporation in the dry cleaning business since the early 1930s. From time to time over the years, additional services had been made available to customers and the company's operations include laundering and pressing, dyeing, shoe repairing, linen service, tailoring and fur and garment storage. The company operates 132 stores located in New York City and Westchester, Nassau and Suffolk Counties under the names "Kent", "Dean" and "Barrett Nephews" and conducts cleaning, laundering, pressing and other operations, and has its executive offices at 2120 Cantonville Street, Whitestone (Queens), New York.

Kine Camera Co., Inc.—Common Registered

This company of 889 Broadway, New York, filed a registration statement with the SEC on Nov. 21, covering 75,000 shares of common stock, to be offered for public sale at \$5 per share. The offering will be made on an agency "all-or-nothing" basis by Underhill Securities Corp., which will receive a 60 cents per share commission and \$10,000 for expenses. The statement also includes (1) 7,500 shares underlying a one-year option to be granted to the underwriter and 2,750 shares underlying a like option to be granted to Saul Kampf, the finder, both exercisable at 10 cents per share, (2) 7,500 shares underlying a four-year option granted to the underwriter and 2,500 shares underlying a like option to be granted to the finder, exercisable at from \$5.50 to \$7 per share (all such options subject to the sale of all the shares to the public), and (3) 9,000 shares underlying four-year restricted stock options granted to Julius Pfeiffer, President, exercisable at from \$5.50 to \$7 per share.

The company is engaged in importing 35 mm cameras, movie cameras, binoculars and photographic accessory equipment from Japan and distributing such items in the United States. In November, 1961, the company acquired all the outstanding shares of Petri Camera Co., Inc., Trans American Trading Corp. and Taron Camera Co., Inc.
