#### Allied Chemical Corp.—Common Registered-

This corporation, of 61 Broadway, New York, filed a registration statement with the SEC on Feb. 5 covering 2,789,578 outstanding shares of common stock, to be offered for public sale by the holders thereof from time to time on the New York, Midwest, or Pacific Coast Stock Exchanges, or otherwise, at prices current at the time of sale. Such shares are a portion of an aggregate of 6,352,795 shares to be issued by Allied to the holders of 4,841,569 class A and 2,418,769 class B shares of Union Texas Natural Gas Corp., upon Union's merger into Allied on Feb. 19, 1962.

of Union Texas Natural Gas Corp., upon Union's merger into Allied on Feb. 19, 1962.

Allied is a major producer of many types of chemical products, including petrochemicals, that is, chemicals for which natural gas, condensate and crude oil are the basic raw materials. Union explores for, develops and produces natural gas, condensate and crude oil and operates natural gas processing plants for the extraction of natural gasoline and liquefied petroleum gases. By the merger, Allied will acquire important supplies of basic raw materials for petrochemicals, and the knowledge and experience of the Union organization in developing and operating facilities to prouce those materials. According to the prospectus, the acquisition by Allied of substantial natural gas and oil properties is in keeping with the policy followed by it for many years of owning reserves of raw materials used in its operations, such as coal, salt, fluorspar, sulfur and chrome. The merger proposal is subject to vote of Allied's stockholders on February 16, 1962.

In addition to certain indebtedness, the company has outstanding 20,049,837 shares of common stock, of which Solvay et Cie (Brussels, Belgium) owns 2,261,424 shares (11.3%) and management officials as a group 222,137 shares. The prospectus lists 95 selling stockholders who propose to sell all of their holdings. Included are Florence V. Burden, Shirley C. Burden, William A. M. Burden (Board Chairman of Union), William A. M. Burden & Co. and Cemp Investment Ltd., who propose to sell 274,161, 205,705, 105,981, 152,699 and 286,735 shares, respectively. Others propose to sell allodings ranging from 27 to 169,868.—V. 195, p. 633.

in amount. In a notification filed on Sept. 11, 1961, Allied proposed the public offering of 100,000 class A shares (later reduced to 50,000) at \$1 per share. In its order, the Commission asserts that it has reasonable cause to believe that certain terms and conditions of the Regulation were not complied with by Allied; that such an exemption is not available to Allied because Clifford G. Taylor, President, is subject to a decree of permanent injunction; that Allied's offering circular is false and misleading with respect to various material facts; and that the offering if made would violate the anti-fraud provisions of the Act. The order provides an opportunity for hearing, upon request, on the question whether the suspension should be vacated or made permanent.

request, on the question whether the suspension should be vacated or made permanent.

The company was organized in March, 1961, "to do research and development on powdered metals and alloys and to endeavor to produce the metal called Ber-Al," a metal bar said to have been developed by Taylor and associates during the period 1937 to 1942 and to be composed of beryllium, magnesium and aluminum. According to the Commission's order, the alleged misrepresentations, concern the failure of Allied's offering circular to disclose accurately and adequately the stage of research and development of the product, to define the principal market for the product or to disclose whether there has been adequately controlled laboratory testing of the product to determine the practicalities of its use and whether it has been subject to patent search, as well as (1) the failure to disclose accurately and adequately the speculative and adverse features of the offering and risks attendant to the proposed business, the proposed use of the proceeds of the stock sale (particularly in connection with the remuneration of management officials), and the background of officers and directors, and (2) the failure to disclose the percentage of outstanding securities held by officials and promoters as a group and the course thereof in relation to shares being offered for public sale, the failure to discose certain limitations on the transferability of shares, and the failure to file appropriate financial statements. Moreover, according to the order, the company's notification fails to disclose certain affiliates and predecessors and falsely disclaims that any officer or director is subject to any order, judgment or decree.—V. 194, p. 1377.

#### American Can Co.—Sales, Earnings Up-

American Can Co.—Sales, Earnings Up—
Net earnings of the company, based on a preliminary report of 1961 operations, showed an increase of 27.2% over 1960, while sales increased 1.7%, it was announced on Jan. 24 by William C. Stolk, Chairman, and Roy J. Sund, President.
Net earnings for 1961 were \$45,013,000, or \$2.67 per share of common stock, compared with earnings of \$35,382,000, or \$2.06 per share, for 1960.
The company's sales totaled \$1,093,299,000, compared with \$1,074,-686,000 in 1960. It was the second highest sales volume in the company's 61 year history, exceeded only by the 1959 total of \$1,122,-717,000.

717,000.

Net earnings as a per cent of sales amounted to 4.1% in 1961, compared with 3.3% in 1960.

Provision for Federal and other taxes on income amounted to \$52,400,000 in 1961, compared with \$39,700,000 in 1960.

"The increased earnings resulted from continuing programs directed towards cost reduction and improved efficiency in all of the company's operations, Mr. Stolk said. "All major divisions—Bradley-Sun, Canco, Dixie Cup, Marathon and Milk Container—contributed to this result.—V. 194, p. 1609.

American Financial Corp.—Annual Report—
Mr. Carl H. Lindner, President, in the company's annual report released Jan. 31, announced that consolidated net income for the year ended Dec. 31, 1961 before appropriations to general reserves and after taxes, increased 62% to \$744,043, equivalent to \$1.43 per share based on 521,290 shares which represents the average number of shares outstanding during the year. American Financial operates three savings and loan associations in the greater Cincinnati area as well as vehicle and equipment leasing, and general contracting businesses.

For the year ended Dec. 31, 1960 earnings amounted to \$459,206, equal to \$1.04 per share based on 443,550 shares. American Financial during the year 1961 established new records in earnings, savings, mortgage loans and assets, Mr. Lindner stated.

As of Dec. 31, 1961 assets totaled \$40,962,730 compared with \$27,694,025 on Dec. 31, 1960 for an increase of 48%. Savings accounts of affiliated associations totaled \$34,168,108 or 49% over the total savings a year ago. Mortgage loans outstanding increased 41% to \$34,851,945.—V. 195, p. 397.

#### American Viscose Corp.—Earnings Up 44%-

American Viscose Corp.—Earnings Up 44%—

The corporation has reported higher sales and earnings for the year 1961. Not sales were \$219. million—6% greater than the \$207 million in the preceding year. Earnings increased, 44% to 5.9.8 million from \$6.8 million in 1960. The earnings per share were \$2.06 in 1961 including \$6.9 from Monsanto dividends—and \$1.45 in 1960 including \$4.9 from a Chemstrand dividend. The earnings per share are based on the number of shares outstanding, namely, \$7.38,005 at the end of 1961 and 4,716,712 at the end of 1960. In commenting on the operations for the year, Dr. Frank H. Reichel, Chairman of the Board and President, stated that in recent months there had been a remarkable improvement in the company's business. Shipments of viscose and acetate yarns and viscose staple were 86 million pounds in the third quarter and 116 million pounds in the fourth quarter. These shipments were respectively 27% and 53% greater than in the corresponding periods of 1960. These larger shipments increased the net earnings from operations for the last half of the year up to \$1.00 per share which compared with \$.17 in the same period of 1960.

The business of the company in 1961 was characterized by intense competition in the markets in which it sells its products—with prices generally lower than in the preceding year. Dr. Reichel remarked that during 1961 price reductions courred in a wide range of industrial products due to the growing competitive conditions in both domestic and world markets. In textiles these low prices pose a challenging problem for the Industry—especially if our expanding participation in world affairs requires a further reduction in tariffs.—V. 194, p. 1155.

Anoroc Products, Inc. — Common Offered — Pursuant to a Jan. 31, 1962 offering circular, 100,000 shares of this firm's common stock were publicly offered by G. Everett Parks & Co., Inc. and the Parker Co., both of New York City, at \$3 per share. Net proceeds, estimated at \$236,000, will be used for the retirement of loans, purchase of equipment and additional inventory, and working capital.

BUSINESS—This firm was incorporated under the laws of the State of New York on Auril 27, 1954. Its principal offices and plant are located at 181-14 Jamaica Ave., Jamaica, New York. From its inception, the company has been engaged in the fabrication, manufacture and assembly of enclosures for bathtubs constructed of glass and fabricated in metal frames. These enclosures permit a home owner to enjoy the advantages of a so-called "stall shower" by permitting the use of a standard bathtub and supplementing it with enclosure such as those manufactured by the company, osures permit the full spray of water from the shower utilized while pretecting the surrounding area from water exposure,

The company's products have a retail market price ranging from approximately \$50 to \$150.

The company also manufactures doors for stall shower, installations, which similarly are fabricated of glass and inserted into metal frames.

In 1961, the company entered into a new line of manufacture: the fabrication, assembly and manufature of glass patio doors. Construction of these patio doors is similar to that employed in the manufacture of shower doors and bathtub enclosures. In this instance, the metal framed glass door is used to cut off a patio or terrace space from the adjoining room while permitting easy ingress and egress therefrom by the means of the door.

#### INCONGRUOUS INTEREST RATE PATTERN PORTENDS WELL FOR A. T. & T. OFFERING FEB. 14

All eyes will be riveted on Wednesday's (Feb. 14) bidding for American Telephone & Telegraph's \$300 million debenture bonds (five-year non-callable) due Feb. 1, 1994. There's certainly no shortage of long-term funds if last week's offering prices serve as an indicator of what to expect—notwithstanding topsy-turvy interest rate trend for this expansionary period compared to the preceding recession. Even the mortgage market is reflecting the downward yield pressure, and more and more nominally growth mutual funds look ever so much like balanced funds.

growth mutual funds look ever so much like balanced funds.

These examples may help explain the market's direction: The \$79,550,000 PHA's were sold last week at an annual net interest rate cost [hereafter net cost] of 3.3273% compared to 3.4164% at its last previous sale of Nov. 1, 1961. New Jersey's \$42 million was awarded last week at a net cost of 3.0468% whereas last March 7, 1961—one month after the recession's turning point—it accepted 3.155% net cost in raising \$20,850,000. El Paso Electric Co.'s 30-year, double A, first mortgage bonds were priced last week at 101.22% with a 45% coupon, at a net cost of 4.59%, to yield 4.55%. This rate was the same as what Texas Power & Light Co. paid for its 45% \$10 million which it raised on Jan. 23 on a similarly rated sinking fund debenture due 1987. The \$155 million 4½% Federal Land Bank's consolidated Federal farm 12-year, non-callable loan bonds were priced last week at 100% for a yield of 4.47%, and F.N.M.A.'s \$200 million 15-year, non-callable secondary market operations debentures offered two weeks ago at 100¼% to yield 4.48% were selling last week at close to 100½. Incidentally, compared to U. S. Government's 3½s of November, 1998. yielding 4.08% on Feb. 6, and the I.B.R. & D.'s 3%s of May, 1975 yielding 4.20% on the same day, it appears that the Federal Agency bonds are obtaining a lower price than what the market is willing to pay for comparable issues.

St. Louis, Mo. provided a major exception of a higher yield for its bonds than that

St. Louis, Mo. provided a major exception of a higher yield for its bonds than that obtained during the recent past recession's low point. Its \$12,676,000 various purpose improvement bonds of Feb. 15, 1961 were auctioned at an annual net interest cost

In short, the A.T.&T. issue is heading into an incongruous period of rising to stable bond prices during a business expansion and, most surprisingly, can expect a lower cost in raising the new capital than it could have obtained durin the trough of the

#### POST-WORLD WAR II FLOTATION COST SPREAD TREND

Last December 26, 1961, the National Association of Securities Dealers issued a letter to its members entitled "Re: Issues of Unseasoned Companies—Underwriting Compensation—Withholding." The letter averred some compensation arrangements may have been "unfair and unreasonable." A special committee was appointed to review the flotation costs of new issues and, particularly, noncompensation costs.

Corporate securities issued for cash publicly offered and privately placed in 1957.

Corporate securities issued for cash, publicly offered and privately placed, in 1957 and 1961 raised about the same gross amount. However, despite large single issues, as the A.T.&T. stock rights offering of \$960 million, the number of issues was much larger and many more were equities in 1961 than in 1957. Further, 1961 hit a record high of companies going public for the first time—70% of the issuers had never filed

before. Flotation costs vary because of the type of issue, size of the offering, and size and the industry of the securities. Larger issues cost less, per dollar, to float than smaller ones, and debt and preferred stock cost less than common. Details of this were last probed by the SEC in its excellent study of June, 1957 for the years 1951-55. Until the NASD and the SEC complete their pending detailed, specific studies, it might be of some value to examine the overall flotation cost spread since WW II. The data show that the spread between price paid by the investor (gross proceeds) and the net amount received by the corporation (net proceeds), taken up by compensation, expenses, fees, etc., increased 24% in 1961 vis-a+vis 1957. True, though the dollar volume was about the same, the numerosity of issues and prevalence of small equity issues of companies going public for the first time constitute an important difference. Yet, the spread for new issues assumed proportions to arouse the NASD, the SEC and others. The studies should, when completed, indicate how much of the cost could be considered, in NASD terms, "unfair and unconscionable."

The data also reveal an upward trend in both the quantitative and the relative flotation costs. Unfortunately, they do not measure the noncompensation costs—a most difficult thing to evaluate.

Automatic Canteen Co. of America-Annual Report-

Automatic Canteen Co. of America—Annual Report—
Frederick L. Schuster, Chairman, in the company's 1961 Annual Report disclosed that "preliminary figures for the first quarter indicate a sales volume increase of approximately 8% over a year ago, and that this trend is expected to continue."

Writing in the "Chairman's Letter," Mr. Schuster said "the outlook for the coming year is excellent."

He added that "During the 1961 fiscal year, Automatic Canteen directed its efforts towards consolidating and digesting acquisitions made during the past six years. While these represent a diversity of fields in their individual make-up, all fit into one or more phases of our over-all planning for the broadest concept of food and vending service. Each was acquired for this purpose, and we have made great progress in fitting the various components into a smoothly operating Automatic Canteen complex."

Mr. Schuster continued: "Two major areas of development which give great promise of becoming increasingly profitable activities occurred during fiscal-1661. One was the establishment of Countervend Service, and the other, acquisition of music and vending distributors in key cities throughout the nation.

"Countervend service is the solution to a long-recognized problem in the industrial and institutional feeding field. As the name connotes, it is a service combining automatic vending of packaged hot and cold food items and drinks, and manual service for nonvendable dishes.

"The acquisition of distributors of music and vending equipment gives us a group of strategically located sales and service centers which will benefit all vending operators. These will provide parts and servicing for all machines we produce in our manufacturing subsidiaries.

Vending machines, Juke boxes, back-ground music systems, coin mechanisms and bill changers. In addition, these same service centers will make available to operators of coin equipment various supplies and products used in day-to-day operations," Mr. Schuster added.

The Annual Report pointed out that "although the profit on the sale of our interest in Commonwealth necessarily has to be reported as non-recurring income, it should be noted that no earnings from the operations of the savings and loan association were reflected in the current year's earnings. We elected to sell our interest in Commonwealth because it did not fit as part of our over-all pattern of a completely integrated vending organization."—V. 194, p. 1503.

#### Automatic Retailers of America, Inc.-Annual Report

Automatic Retailers of America, Inc.—Annual Report
Total income and net earnings of the company set new record levels
in the fiscal year ended September 30, 1961, President Davre J.
Davidson announced in the annual report to shareholders.
Sales and other operating income amounted to \$110,924,628. In the
fiscal year ended September 30, 1960, total income was \$37,440,105.
Increased service capabilities, internal growth, and acquisitions are
reflected in the sales gain, the report said.

Earnings before special amortization of location installations totaled
\$2,522,602, equal to \$1.00 per share. In fiscal 1960 earnings were
\$1,262,670 or 69 cents a share. After amortization, net income was
equal to 89 cents per share in fiscal 1961, against 63 cents in the
preceding year for a gain of better than 40%. Per share figures are
based on 2,530,872 shares in 1961 and 1,817,712 in 1960, the weighted
average number outstanding in each period and adjusted for the
2-for-1 stock split in January, 1961.

The report stated that the company made further gains during
the year in developing the nucleus of a nationwide vending and food
service organization. At present Automatic Retailers provides service
in 35 states to over 1,000 institutional clients, including over 175
schools and colleges; over 600 prominent industrial companies and
financial institutions; more than 100 government installations; and
over 125 hospitals. Thousands of public locations are also served.

Looking to the future Mr. Davidson said, "Prospects for the current
year are ravorable, and fiscal 1962 should again set new records in
sales and earnings. In a growing company such as ARA acquisitions
and many capital expenditures did not have time to be fully reflected in last year's operations. The current fiscal year and the
years ahead should reflect such beneute. September 30, 1961, sales
were at an annual rate in excess of \$140,000,000 and are now substantially higher."—V. 195, p. 399.

#### Avnet Electronics Corp.—Quarterly Report-

The corporation achieved record highs in sales and earnings for the quarter and first half of the current fiscal year ended Dec. 31, 1961, Lester Avnet, President, stated.

For the quarter ended Dec. 31, 1961.

Net earnings totalled \$511,272 or 24 cents a share on 2,128,446 shares outstanding on that date. This represents an increase of 26% over earnings for the comparable quarter of the previous year when they totalled \$404,431 or 19 cents a share on the same number of shares.

Sales totalled \$5,728,421, an increase of 13% over sales of \$5,064,211 r the quarter ended Dec. 31, 1960.

For the first half of the current fiscal year ended Dec. 31, 1961: Net earnings totalled \$841,232 or 40 cents a share on 2,128,446

shares, an increase of 21% over earnings for the comparable half of the previous year when they totalled \$695,132 or 33 cents a share on the same number of shares.

Sales totalled \$9,934,524 compared to sales of \$8,876,406 for the half ended Dec. 31, 1960.

Mr. Avnet stated that these results were the best for any quarter or half in the company's history.

"Because of the record highs," he added, "and increased business in January, 1962; from the space and missile fields, there is every likelihood that earnings for the fiscal year ending June 30, 1962, will total from between 80 cents a share and one dollar."—V. 195, p. 3.

#### Avon Products, Inc.—Record Sales, Earnings-

In 1961 the company completed the most successful year in its 75-ar history, according to figures released by John A. Ewald, Chairman, yon is a leading manufacturer and distributor of cosmetics and

Consolidated net sales of \$185,132,680, showed a 10% increase over the \$168,187,500 of 1960, the previous record year.

Net earnings also set a new high of \$20,845,692 in 1961, an 18% increase over the \$17,619,157 (before special charges of \$501,440) reported for the 1960 fiscal year. These earnings were equal to \$2.17 per share compared to \$1.83 in 1960. Per share figures in both years are after preferred dividends and are based on the 9,551,114 common shares outstanding Dec. 31, 1961.—V. 194, p. 2219.

#### Baker Oil Tools, Inc.-Quarterly Report-

Earnings of Baker Oil Tools for its first fiscal quarter rose 37% a 22% revenue gain over the like period a year earlier, T. Sutter, resident, announced.

on a 22% revenue gain over the like period a year earlier, T. Sutter, President, announced.

Net income for the three months ended Dec. 31, 1961 was \$796,599, equal to 23 cents a share on the 3,405,723 shares of common stock outstanding. This compares with \$578,050 or 17 cents a share based on the same number of shares for the initial quarter last year. Revenue was \$7,351,288 compared with \$6,025,528 for the year earlier period.

Revenue was \$7.351,288 compared with \$6,025,528 for the year earlier period.

"The strong showing in this year's first quarter reflects a continuation of the impetus of good domestic and foreign business conditions prevailing since last spring." Mr. Sutter observed, "whereas the year earlier quarter was unduly depressed due to a fall off at that time, particularly in foreign sales. Actually, foreign sales for the first quarter increased more than 30% over the same period last year." 'Although the winter quarter is traditionally the low period for Baker, sales have held up unusually well in January. February is something of a question mark, and the month of March is difficult to predict. However, we feel it is a reasonable expectation that revenues and earnings for the third and fourth quarters will be fairly consistent with the first quarter rate."

To keep pace with the increased demand for Baker products, the board of directors has authorized the immediate purchase of machine tools in the approximate amount of \$500,000 to be installed at the Los Angeles and Houston plants prior to the end of the fiscal year. This will give Baker additional production at lower unit costs, Mr. Sutter commented.—V. 194, p. 1610.

Basic Properties Ing.—Appointment

#### Basic Properties, Inc.—Appointment—

The Bank of New York has been appointed registrar for the class A stock of the corporation.—V. 194, p. 1503.

Proceeds are to be used for equipment, advertising, leasehold improvements, working capital and other corporate purposes.

Bebell of 108 W. 24th St., N. Y.; is engaged in the production of color photographic prints, slides, transparencies and photo animations.

#### Bell Color Lithographers, Inc.—Common Registered—

Bell Color Lithographers, Inc.—Common Registered—This company, of 225 Varick Street, New York, filed a registration statement with the SEC on Feb. 5 covering 130,000 shares of common stock, to be offered for public sale at \$4.50 per: share. The offering will be made on an agency best efforts basis by Market Values, Inc., which will receive a \$0.5625 per share selling commission and \$29,250 for expenses. The statement also includes (1) 7,500 outstanding shares sold to a controlling person of the underwriter by principal stockholders and 2,500 shares to Harvin Hayutin, the finder, for an aggregate of \$1,000, and (2) 25,000 shares underlying 3-year warrants sold by the company to said controlling person and 5,000 shares underlying like warrants sold to Hayutin, exercisable at \$4.50 per share. A \$5,000 finder's fee is also payable to Hayutin by the company.

The company (formerly Promotion Printing & Lithographing Corp.) is engaged in commercial offset lithography and owns and operates photo-composing equipment and printing presses which permit high speed multi-color reproduction of a variety of copy. The net proceeds from the stock sale will be applied primarily for the purpose of improving the company's current position so that it may maintain its current level of operations. At Nov. 30, 1961, its current assets amounted to \$293,617 and its current liabilities were \$499,714 resulting in a net working capital deficit of about \$206,097. Of such proceeds, \$365,000 will be used to repay trade notes payable and other indebtedness, and the balance for working capital or to reduce current accounts payable. In addition to certain indebtedness, the company has outstanding 181,000 shares of common stock (after giving effect to a recent 1,810-for-1 stock split), of which David Zucker, President, and Golder Zucker own 47.2% each.

Bradley Industries, Inc.—Sales, Net Up Sharply—
The company has announced that its net profits after taxes for the fiscal year ended Nov. 30, 1961, rose 132% eyer the previous 12-month period. Earnings per share climbed 66% in the comparable period.

After-taxes profits in the 1961 period were \$103,923, which compares with \$44,358 in 1960. Earnings per share on the 230,000 snares outstanding climbed to 45 cents in 1961 from 28 cents in 1960.

The company, which is the world's largest producer of molded plastic boxes and containers, also reported record high sales of \$14,664,474 for 1961, compared with \$1,230,082 in 1960, an increase of about 20%.

According to Morris Nozette, President, the unusually high increase of profits after taxes was due not only to substantial sales gains, but also to management economies that have reduced overhead and held the line on production costs.

Bradley expects to open its new 50,000 square foot plant in Franklin Park, Ill., about mid-1962. At that time, said Mr. Nozette, "Bradley will be a one-plant operation, with all facilities under one roof instead of being spread out in its present three plants. We expect 1962 to be a year of expansion and growth that will see substantial increases in sales and profits."—V. 194, p. 1611.

BUSINESS—The bank of 2028 Westwood Blvd., Los Angeles, was organized under the laws of the State of California on Jan. 30, 1961 and commenced doing business on June 27, 1961. It is a member of the Federal Deposit Thaurante Corporation.

The bank, while located for the convenience of its customers in a suburban area, was conceived as a businessman's bank with its services being geared to meet the needs of cusomers who are engaged in commerce, industry, finance, and the professions. The location of the bank allows it to render a combination of personal and business banking services. The bank provides collection, escrovices, and safe deposit facilities. The bank is placing emphasis on an accounts receivable financing program in addition to its other services. Correspondent bank relations are maintained with banks in other major financial centers. A trust department is now in the planning stages.

The present quarters of the bank have been designed to minimize fixed overhead expenses during the early stages of the operation, and are leased from Century Properties, the bank's principal shareholder. The bank contemplates removing its location to the southeast corner of Westwood Blvd. and Santa Monica Blvd. and leasing at such location its banking facilities in a multi-story office building construction of which is slated for commencement in 1963.

Columbian Bronze Corp.—Acquisition—

This Freeport, L. I., N. Y., manufacturer of marine propellers and electronic navigational equipment, has signed contracts for the purchase of the assets of the Ferguson Propeller & Reconditioning Co., Hoboken, N. J., it was jointly announced by Herman Timken, Ferguson President, and Bernard N. Ames, President of Columbian. The purchase was for cash in an undisclosed amount.

"The acquisition of Ferguson brings to Columbian distinct benefits in a number of respects," Mr. Ames explained. "The combined facilities of Columbian and Ferguson will open large new areas of activity to us, as well as greatly increase our production capabilities, in terms of both capacity and manufacturing techniques.

"In addition," he continued, "Ferguson's capacity to produce propelers for the large ships will complement Columbian's existing line of propellers and considerably broaden our market base."

Ferguson last year showed total sales of approximately \$1 million. The facilities will continue to be operated by the present Ferguson management as a wholly-owned subsidiary of Columbian Bronze.—V. 194, p. 2221.

the Trust to acquire a 75% interest in the ownership of two shopping centers to be constructed near Baltimore, Md., and for other realty investments.

BUSINESS—The company is an unincorporated business trust created by Declaration of Trust in Philadelphia, Pennsylvania, on May 22: 1961 through the efforts of George P. Scurria, Woodcock, Moyer, Fricke & French, Inc., and Gerstley, Sunstein and Co. The Trust will have perpetual existence, subject to termination as provided in the Declaration of Trust. The office of the Trust is located at 8201 Fenton Road, Philadelphia.

The purpose of the Trust is to conduct the business of a "real estate investment trust," as defined under the applicable provisions of the Internal Revenue Code. Investors in certificates of beneficial interest in the Trust (the "Shares") will have the opportunity to participate as holders of shares in the acquisition and ownership by the Trust of real estate interests as defined in the code. Furthermore, under the code a Trust which meets the statutory requiremnts and elect to be taxed as a real estate investment trust is not subject to Federal income tax upon any taxable income (generally speaking, income after depreciation and other allowable deductions) which it distributes to the holders of its shares. Distributions, if any, of ordinary income will be taxable to the investors as ordinary income and distributions, if any, of the excess of net long term capital gain over net short term capital losses will be taxable to the investors as long term capital gain; but such distributions will be free from the imposition of any Federal income tax upon the Trust itself, if the Trust qualifies as a real estate investment trust.

It is expected that the Trust will meet the requiremens of the code after an initial operating period which should end by April 30, 1963, and it may meet these requirements earlier. However, the Trustevian the early years of its existence will be sufficient, combined with its other deductions, to offset the Trust's gross income

# Consolidated Natural Gas Co.—Debentures Registered This company of 30 Rockefeller Plaza, New York, filed a registration statement with the SEC on Feb. 1 covering \$25,000,000 of debentures due 1987, to be offered for public sale at competitive bidding on Feb. 27. The net proceeds from the debenture sale will be added to treasury funds and will be used to finance in part the 1962 construction program of the company's system. The system expects to make plant expenditures in 1962 of about \$69,600,000.

#### To Form Service Company-

To Form Service Company—

Consolidated Natural, of 30 Rockfeller Plaza, N. Y., together with a recently-organized subsidiary, Con-Gas Service Corp., have joined in the filing of a proposal with the SEC under the Holding Company Act with respect to the organization and conduct of business of Con-Gas as a subsidiary service company in Consolidated's holding company system; and the Commission has issued an order giving interested persons until Peb. 28 to request a hearing thereon. According to the application, Con-Gas has been organized in order: (1) to centralize in a single service company the services presently being performed for system companies by Consolidated and four of its subsidiary companies; (2) to facilitate expansion of servicing activities in the holding-company system; and (3) to provide the means whereby the costs of services now being rendered by Consolidated, to associate companies without charge

may be allocated among such companies on an equitable basis. It will perform services at cost solely for associate companies in the Consolidated system. Consolidated owns all the outstanding stock of six subsidiary companies which are engaged in the purchase, production, storage, transmission, and distribution of natural gas in the States of Ohio, Pennsylvania, and West Virginia. As at Dec. 30, 1960, total consolidated assets of the holding-company system amounted to \$782,000,000, and consolidated gross operating revenues for the year ended that date amounted to \$363,000,000. Con-Gas was incorporated by Consolidated amounted to \$363,000,000. Con-Gas was incorporated by Consolidated on Oct. 27, 1961, under the laws of the State of Delaware. Most of the 10 officers and 31 employees who are now employed by Consolidated will be transferred to the payroll of Con-Gas (although the salaries of five officers being transferred will continue to be paid in part by Consolidated). In addition, the 13 System Services Departments maintained by four of Consolidated's subsidiary companies, which heretofore have performed services for associate companies at cost under the supervision and direction of officers of Consolidated, will transfer to Con-Gas all of their employees, totaling 87. In order to expand existing services, 16 other, employees, of the subsidiary companies will be transferred to Con-Gas, and 24 new employees will be hired. It is stated that the additional services would be required irrespective of the proposed organization of Con-Gas.—V. 195, p. 637.

#### Continental Aviation & Engineering Corp. - Annual

Sales of the corporation for the fiscal year ended Oct. 31, 1961, mounted to \$22,947,821 compared with \$37,028,778 in the fiscal year nded Oct. 31, 1960, Clarence Reese, President, stated in the annual eport to shareholders.

Reflecting the decline in sales plus an increase in company-sponsored research and development, net income declined to \$146,071, equal to 28 cents a shere on 530,000 common shares outstanding, from \$609,215, or \$1.15 per share in the previous fiscal year.

Mr. Reese attributed the decline in sales largely to reduced Air Force T37 jet trainer requirements, small orders for MA-1A air generators, supporting parts and conversion kits, reduced Air Force target missile requirements, and a slow start up of Navy target missile requirements.—V. 194, p. 1381.

#### Continental Can Co.-Annual Report-

Continental Can Co.—Annual Report—
The company set a new sales record of \$1,153,331,000, in 1961, up 3.3% over 1960, Thomas C. Fogarty, President, reported in a preliminary statement.

Net earnings were \$36,137,000 and were equivalent to \$2.87 per share on 12,409,705 shares outstanding on Dec. 31, 1961, compared to \$27,803,000, or \$2.21 per share in 1960 on 12,344,322 shares.

Net income before income taxes was \$76,937,000 in 1961, compared to \$58,803,000 in 1960, an increase of 30.8%.

"Continental's lower overhead costs and improved efficiencies in 1961 were largely responsible for the 30.8% gain in profit," said Mr. Fogarty. "Our metal can operations were assisted by larger food packs and a continued strong growth in beverage can sales. In our paper operations, sales were higher, but general price weakness in the industry reduced profit. However, with our new bleached sulphate paperboard mill in Augusta, Ga., in full operation, we expect improvement in 1962.—V. 194, p. 2222.

Coral Ridge Properties, Inc.—Debentures Reg'd—
This company, of 716 North Federal Highway, Fort Lauderdale, Fla., filed a registration statement with the SEC on Feb. 5-covering \$5,000,000, of, sinking fund subordinated debentures due 1977 (with attached 10-year warrants to purchase 1,100,000 shares of common stock at from \$3, to \$5 per. share), to be offered for public sale through underwriters headed by Cruttenden, Podesta, & Co., A. C. Allyn & Co. and J. R. Williston & Beane. The public offering price and underwriting terms are to be supplied by amendment. The statement also includes \$500,000 of like debentures (with warrants) underlying a 37-day option-granted to the underwriters to cover over-allotments.

A large portion of the company's business is the development and sale of land. It has various types of real estate, including unimproved land fronting on the Atlantic Ocean and Intracoastal Waterway available for residential, hotel and commercial development, and other unimproved land available for residential and commercial development, as well as improved real estate consisting of two hotels and a shopping center. Most of such properties are located in Fort Lauderdale and Broward County, a small amount in Boynton Beach, and a large tract of undeveloped land in Highlands County, south of Schring, all in south Florida. It also owns a small tract of land near Santa Rosa, Calif. Of the net proceeds from the debenture sale, \$2,250,000 will be used to develop during 1962 and 1963 a substantial part of the Broward County acreage including engineering and planning, dredging, grading, installation of lakes and canals, installation of roads; \$789,000 will be used to pay the balance needed to complete construction of and put in operation the Coral Ridge Hotel, Fort Lauderdale (the remaining \$90,000 to be financed by a construction of Coral Ridge Towers North (adjacent to the intracoastal Waterway) until the company starts receiving advances under an anticipated loan; and the balance will be used for payment of sale

#### Crown Zellerbach Corp.—Annual Report—

The corporation has announced 1961 earnings of \$36,700,000, down 8% from 1960. Sales volume for the year reached a record \$562,600,000, up 2% from the previous year.

Earnings per share came to \$2.33 as compared with \$2.56 in 1960, adjusted to reflect the corporation's 10% stock dividend declared in November.

adjusted to reflect the corporation's 10% stock dividend declared in November.

Commenting on the year's results, President R. O. Hunt said the company had experienced a rising trend in sales and earnings, especially during the last quarter of the year, but that abnormal factors had adversely affected net income for 1961 as a whole.

Mr. Hunt said that the company has absorbed substantial costs from the strike which began on August 27 at the company's pulp and paper mill in Bogalusa, La. In 1961 the company also had unusually high write-offs of outdated equipment to make way for important plant improvements.

A third significant element, Mr. Hunt pointed out, was the increase in the Canadian withholding tax on dividends, from 5% to 15%.

"While our Canadian subsidiary derived benefits from the favorable exchange rate of the Canadian dollar," Mr. Hunt said, "the higher tax on the dividends from Crown Zellerbach Canada was a material charge against our consolidated earnings."

Without these three special factors, Mr. Hunt said, 1961 earnings would have been approximately the same as 1960.—V. 194, p. 2222.

#### Cyprus Mines Corp.—Development Program-

The corporation will undertake a major program in the Republic of Cyprus to develop additional proven deposits of copper ore, Henry T. Mudd, President of the international resources firm, has announced. Capital expenditures aggregating several million dollars are contemplated to bring into production two new orebodies by open-cut mining operations.

Mr. Mudd stated that with the new properties in operation, combined annual shipments of copper concentrates and sulfur-bearing pyrites from the company's Cyprus mines will average 700,000 to

800,000 dry long tons over the next ten years. Shipments in 1961 approximated 703,000 tons.

Work on the two open-cut mines will begin immediately, Mr. Mudd said. Stripping of overburden is expected to begin by next July and the first ore production from these mines is scheduled for the end of this year. The Mavrovouni mine now being operated is expected to be commercially exhausted about 1965. The existing mill will be adapted to handle the new ores.

The company is also continuing intensive exploration in Cyprus for additional ore reserves.

Initiation of the development program follows recent enactment of legislation by the Republic of Cyprus which establishes tax schedules more comparable to those in effect in other countries having important mining, operations. In announcing his company's plans for Cyprus, Mr. Mudd said, "This action by the legislature of Cyprus is a constructive move which will assist in providing economic stability and the further development of the resources of this new nation. It enables us to go ahead aggressively with the plans which we have been formulating for many months to the benefit of the people of Cyprus, our Cypriot employees, and to our company."

# (E. I.) du Pont de Nemours & Co. — President Signs GM Divestiture Relief Bill—

(E. I.) du Pont de Nemours & Co. — President Signs GM Divestiture Relief Bill—

On February 3, 1962 President J. F. Kennedy signed into law H. R. 8847, the bill which will permit Du Pont to divest itself of 63 million shares. of General Motors stock without incurring the severe tax liabilities of previous laws. However, the President strongly emphasized that his action should not influence a Chleago court still considering the anti-trust aspects of the Du Pont-General Motors stock case.

The new law will ease the tax impact on Du Pont Co.'s stock-holders if the court orders Du Pont to distribute its 63 million of shares of General Motors Corp. stock to them. The Supreme Court ruled in 1957 that Du Pont's ownership of the large block of GM stock violates the antitrust laws, and in 1961 it ordered Du Pont to dispose of the stock within 10 years after a divestiture plan is approved. Federal District Judge Waster J. LaBuy of Chicago is currently weighing arguments by the Justice Department and Du Pont over exactly how the divestiture should be accomplished.

The Justice Department has requested the court to require Christiana Securities Corp., a holding company that owns about 29% of Dr Pont's common stock, to sell any GM stock it might receive from Dr Pont under the divestiture order. The antitrust lawyers argue that because Christiana is 80% owned by Dr Pont family members, such a "pass-through" from the Dr Pont'Co would keep a large block of General Motors stock in the hands of the Dr Pont family. The department is also trying to get Judge LaBuy to order Christiana to sell the 535,500 GM shares it already owns.

'This Legislation,' President Kennedy said in a statement issued as he signed, the tax relief bill, "clearly does not attempt to express a judgment upon the question that is now before the court." Mr Kernedy said the Senate Finance Committee report on the bill and the entire Senate debate showed an unanimity of ophilon that the divestiture and other antitrust issues still pending in the Chicago court sho

stockholders of Du Pont who may receive General Motors stock in the divestiture decree by the district judge will be affected. However, the court should not be influenced in its determination as to what relief is appropriate to carry out the decision of the Supreme Court, and the Department of Justice should not be prejudiced in any way in its effort to enforce the antitrust decision of the Supreme Court, by this legislation."

The President's strong statement, was almed at meeting the arguments of the Senate opponents of the bill, who had contended that the measure could be interpreted as an effort to influence the court and should be delayed until Judge LaBuy devided, the matter. As enacted, the bill applies only to the Du Pont case and not any other similar divestiture case. Also, it applies to Du Pont only if the court orders the distribution of the General Motors stock to be completed within three years or less from the date the court order becomes Itnal.

final.

Under previous law, stockholders would have had to pay taxes at regular income tax rates on any GM stock they receive under the divestiture order. Under the new law, an individual stockholder of Du Poht who receives GM shares would have the shares treated as a return of capital. Under this procedure, some Du Pont shareholders would pay no tax at the time of distribution and others would pay taxes only at the lower capital gains rates.—V. 195, p. 400.

#### Endevco Corp.—Acquisition—

Endevce Corp.—Acquisition—

Effective Jan. 3, 1962, the corporation announced the purchase of the assets of Video Instruments Co., Inc., Santa Monica, Calif., with 55,000 shares of Endevco's capital stock. Video Instruments becomes the Video Instruments Division of Endevco with principal offices at 161 East California Boulevard, Pasadena.

Video Instruments sales for 1961 were \$1,000,000. Endevco sales were approximately \$3,900,000 with estimated earnings of over 50 cents per share for the year ended Dec. 31, 1961. Based upon 1961 sales figures the acquisition of Video, which is the first acquisition step for Endevco since the initial public offering of its stock, should provide Endevco with approximately a 25% increase in sales volume for 1962. Endevco anticipates the consolidation of Video into Endevco operations in Pasadena should produce cost savings and greater efficiency in the operations formerly conducted by Video.

Video Instruments has been a leading supplier of DC Instrumentation to the major defense programs in the U.S. as well as to many commercial and industrial activities. The proven products of Video logically augment the well-known Endevco piezoelectric transducers and transistorized amplifier instrumentation for the measurement of vibration, shock, pressure and force signals.—V. 193, p. 1960.

#### Falconbridge Nickel Mines Ltd.-Merger Effective-

Falconbridge Nickel Mines Ltd.—Merger Effective—
On Feb. 1, H. J. Fraser, President, announced that shareholders of both Ventures and Falconbridge had confirmed the agreement dated as of Nov. 7, 1961 between Falconbridge, Ventures and Melntyre Porcupine Mines Limited providing for the merger of Falconbridge and Ventures and for the sale by Falconbridge of 280.600 of its treasury shares to McIntyre. In addition shareholders of Ventures duly sanctioned by-law 30 authorizing Ventures to make application to the Secretary of State of Canada for the surrender of its charter and for the distribution of its assets.

Of the issued shares of Falconbridge, 83% were represented at the general meeting of Falconbridge shareholders held Jan. 31, 1962. The 56.5% of the issued shares of Falconbridge owned by Ventures were represented at the Falconbridge meeting but were not voted, thus enabling the shareholders of Falconbridge other than Ventures to decide whether or not the merger agreement would be confirmed by Falconbridge shareholders. Of the shares which were voted, 97.7% were voted in favor of the confirmation of the merger agreement and 2.25% against.

On Jan. 31, after the Falconbridge meeting, the transactions continued by the merger agreement were completed.

Kerr-McGee Oil Industries, Inc.—Quarterly Report—
"Net income of the company for the second quarter ended Dec. 31, 1961, was \$4,617,000," D. A. McGee, President, told the Washington Society of Investment Analysts. He said this compares with net income for the same quarter a year ago of \$4,631,000, as adjusted to reflect the transactions, whereby the company acquired 100% of Kermac Nuclear Fuels Corp.

Mr. McGee said that net income for the first six months of the current fiscal year was \$7,132,000, despite a walkout of about two months duration at Kermac Nuclear Fuels Corp. and extremely low prices for refined products. Earnings for this period ended Dec. 31, 1961, were \$1.13 per share, of which 40 cents was earned in the first quarter and '73 cents in the second. He noted that the net income of \$17,000,000 for the last liscal year amounted to about a 20% return on stockholders' equity.

The speaker said that Kerr-McGee's total assets at Dec. 31, 1961, were about \$221,000,000, up from about \$18,000,000 at June 30, 1950, when the company decided to emphasize investments that would substantially increase cash flow. For the fiscal year 1961 cash flow was approximately \$42,000,000, or \$6.64 per share on outstanding shares at June 30, 1961. He noted that the company's annual cash flow was less than \$15,000,000 when he spoke before the Washington Society four years ago.—V. 194, p. 1948.

Maryland Shipbui.ding & Drydock Co.—Ann. Report.

The company reported a profit of 46 cents per share for the year 1961 as compared with \$2.84 a share in 1960. Wm. Purnell Hall, President, in his annual report stated that the company had sustained an operating loss of \$31,856, or 10 cents a share, on \$29,683,925 of sales during the year. However, because of a conrecurring gain of \$2,179,373 and a nonrecurring capital loss of \$1,740,000 experienced during the year; the company realized a net gain of \$207,304 which produced an over-all profit for the year. Regular dividends totaling \$1.25 per share of common stock were declared during the year.

Engineering work is well under way on the research vessel the company has contracted to build for the Woods Hole Oceanographic Institution. Delivery of this vessel is scheduled for December 1962. Four tanker conversion jobs also were under contract at the year end. Backlog of business amounts to \$10,984,209.

The report pointed out that largely as a result of high labor costs, the volume of work performed on foreign-flag ships here in the United States, has declined greatly during the past several years. Foreign wage costs are rising but there is still a very large gap between costs in the United States and elsewhere in the world.—

Modern Homes Construction Co.—Quarterly Report—
R. S. DeLoach, President, has reported that gross profits on sales for the three months ended Dec. 31, 1961 totaled \$1,369,443, compared to \$707,785 for the three months ended Dec. 31, 1960. Net earnings after taxes for the December quarter of this fiscal year were \$228,055, equal to 14 cents per share; compared to net earnings for the same quarter last year of \$45,633, equal to 3 cents per share.

He stated: "Historically, the business-of Modern-Homes, and of housing construction in general, has been scusonal to some extent, with higher sales and earnings in the spring and summer than in the fall and winter. Therefore, we do not believe the results of the December quarter of the current fiscal year, which compare very favorably with the same period last year, are indicative of the results we may reasonably expect for the full year.

"The growth of this company is proceeding along carefully planned lines. We are continually strengthening our organization in order to effectively control future expansion. Operations are constantly being studied and are being streamlined wherever possible. We have continued to achieve our objective of making each quarter better than the same quarter the previous year, and management is confident that we will have another successful year."—V. 194, p. 532.

#### National Biscuit Co.-Annual Report-

National Biscuit Co.—Annual Report—

The company has announced that its net sales reached record levels in 1961 but that earnings had dhyped slightly below those of the previous year. Nabisco's 1961 results were contained in a preliminary year-end report issued by President Lee S. Bickmore.

Net sales climbed to \$486.3 million, up nearly 5% over the 1960 figure of \$463.6 million. Earnings for 1961 totaled \$28.4 million, or \$3.96 per share of common stock, as compared with \$29.3 million, or \$4.09 per share in 1960. Figures for both years include results of the Cream of Wheat Corp., acquired Aug. 9, 1961.

Mr. Bickmore said the sales increase reflected general improvement on the part of Nabisco's several product lines. Earnings, while below 1960 results, were the second highest in the company's history. Mr. Bickmore attributed the decline to a general increase in costs but said that by the end of the year profits were running about even with the 1960 figures.

Nabisco's capital expenditures totaled \$16.8 million in 1961, up from

1960 figures.

Nabisco's capital expenditures totaled \$16.8 million in 1961, up from \$11.5 million the previous year. The major project in the 1961 program was the current construction of a new biscuit and cracker bakery in Chicago, scheduled to start production by the end of this year.—

BUSINESS—The company, a national banking association, was chartered under the laws of the United States on June 17, 1895. Its principal office, is located at 24 Park, Avenue, Rutherford, N. J.

All of its 10 banking offices are located in Bergen County, Based on deposits, the bank ranks 270.1 in size among the nation's some 14,000 commercial banks.

The bank's total loans and discounts which amounted to \$50.285,—665 on Dec. 31, 1961 as compared with \$47,966,324 at the end of the previous year, consisted of loans to commercial and industrial companies, consumer credit loans and mortgage loans on residences and other improved real estate. The most important category was real estate loans which constituted approximately 50% of total loans. Approximately \$1% of the real estate loans were secured by residential property of which 34% were insured by the Federal Housing Administration or guaranteed by the Veterans' Administration.

The bank's Consumer Credit Department has become an increasingly important part of the bank's business in recent years. Loans by this department for the purchase of automobiles, equipment, repair and modernization of homes and for other purposes constituted approximately 17% of total loans.

Commercial and industrial loans constituted about 12½% of total loans.

The average return on all loans for 1961 was 5.90% as compared

108ns.

The average return on all loans for 1961 was 5.90% as compared with 5.72% the year before.

In accordance with recent trends, the bank, effective Jan. 1, 1962, increased the interest rates payable by it on savings deposits from 3% to 3½% per annum.

New England Electric System-Proposed Rights Offer'g On Feb. 9, 1962 it was reported that directors had authorized the sale of 872,786 common shares to stockholders on a 1-for-15 basis. Any unsubscribed shares will be offered to employees. The offering price will be fixed at a later date but is expected to be in June.—V. 194, p. 637.

Newmont Mining Corp. — Stockholders to Vote on Magma Copper Exchange Offer —

Directors of Newmont Mining have called a special meeting of the stockholders to be held April 12, 1962 to act upon Newmont's proposed Exchange Offer to stockholders of Magma Copper Co. The notices and proxy material for the meeting are scheduled for mailing to the Newmont stockholders by March 13th, subject to necessary prior clearance with the Securities and Exchange Commission.

If approved by the Newmont stockholders the Exchange Offer is scheduled to be made April 13th to the Magma stockholders, subject to necessary prior registration of the Newmont stock under the Securities Act of 1933, listing of the stock on the New York Stock Exchange, and any further action which may be taken by the Newmont directors. This offer will be made only by means of a Prospectus as required by the Securities Act of 1933 affer such registration.

As previously announced, the proposed Exchange Offer will not result in a merger of the two companies. Newmont proposes by this transaction to increase its present 21.5% stock interest in Magma to 80%, and up to a maximum of 82½%. The offering period will be at least three weeks. All Magma shapes received for exchange in the first three weeks of the offering period will be treated equally, with any shares received after the first three weeks will be given priority in the order received. Terms and conditions of the Exchange Offer will be detailed in the Proxy Statement and Prospectus.

The proposed offer, also as previously announced, is to exchange 3 this of a share of a new 4% cum, preferred stock of Newmont, parvalue \$100, for each share of Magma stock outstanding (excluding Magma, shares owned by Newmont). The 4% cumulative preferred stock will be redeemable on or after July 1, 1965 at par plus a gradually declining premium, and will be convertible until April 30, 1977 at \$90 and thereafter until April 30, 1977 at \$100 per share of Common Stock, with appropriate antidilution provisions respecting the con

Nuveen Tax-Exempt Bond Fund, Series 2—Units Offered—On Jan. 29, 1962, John Nuveen & Co. (Inc.), 25 Broad St., New York City, and 135 So. La Salle St., Chicago, offered publicly, 150,000 units in this Fund at \$103.20 each to yield 4.0125%. The offering price there-

after, computed daily, will be determined by the offering price of the underlying Tax-Exempt Securities and includes a distribution charge equal to 4½% of the offering price. A minimum of 10 units has been fixed as the least number which may be purchased by a single investor.

the least number which may be purchased by a single investor.

TAX STATUS—Pursuant to a ruling of the Commissioner of Internal Revenue, dated as of July 3, 1961, "the Nuveen Tax-Exempt Bond Fund, Series 2; herein referred to as the 'Pund', will not constitute an association taxable as a corporation for Federal income tax purposes and interest on the underlying bonds which is exempt from Federal income tax under the Internal Revenue Code of 1954 when received by the Fund will retain its status as tax-exempt interest when distributed to a certificateholder."

Under this ruling each certificateholder will be considered the owner of a pro rata portion of the Fund and each certificateholder will have a taxable event when the Fund disposes of a bond (whether by sale, exchange, redemption or payment at maturity), or when the certificateholder redeems or sells his unit. The tax cost of a unit to the holder thereof will be the sum of his per unit tax cost for each of the bond issues held in the Trust Pund. Therefore, as a result of the tax cost reduction requirements of the Internal Revenue Code of 1954 relating to amortization of bond premium, under some circumstances a certificateholder may realize taxable gain when his units are sold or redeemed for an amount equal to his original cost.

Application has been made to the New York Stock Tax Commission for a ruling that the Fund is not taxable as an association and that the income of the Fund will be treated as the income of the certificateholders. However, the exemption of interest on Public Bonds for Federal income tax purposes does not result in exemption under the income tax laws or other laws of New York or any other State. The tax laws of the several states vary with respect to the taxation of such obligations.

DESCRIPTION OF FUND—The Fund has been created under the laws of the State of New York pursuant to a Trust Indenture and

Income tax laws or other laws of New York or any other State. The tax laws of the several states vary with respect to the taxation of such obligations.

DESCRIPTION OF FUND—The Fund has been created under the laws of the State of New York pursuant to a Trust Indenture and Agreement, dated as of Jan. 15, 1962, herein referred to as the "Indenture," between John Nuveen & Co. (Inc.) in its capacity as the Sponsor and United States Trust Co. of New York, herein referred to as the "Trustee."

Under Section 2.01 of the Indenture the Sponsor has deposited with the Trustee the public bonds acquired in the manner set forth below. These bonds initially constitute the underlying securities in the Fund. Simultaneously with such deposit the Trustee, pursuant to Section 2.03 of the Indenture, has delivered to or on the order of the underwriter certificates for 150,000 units representing the entire ownership of the Fund for distribution.

Each of the 150,000 units offered represents a fractional undivided interest in the Fund. The numerator of the fraction is 1 and the denominator is the number of units outstanding at any particular time. Initially each unit is to represent 1/150,000 fractional undivided interest in the Fund, Thereafter, the denominator of the fraction will be reduced (and the certificateholder's fractional undivided interest in the Fund increased) to the extent that any units are redeemed by the Trustee.

Each unit will remain outstanding until the termination of the Indenture or its earlier redemption. The Sponsor will initially, and from time to time thereafter, hold units in connection with their offering, and such units may be tendered to the Truscee at any time for redemption. While it is the intention of the Sponsor to purchase units tendered to the. Truscee by others, in accordance with the Indenture, the Sponsor is under no obligation to do so and accordingly, no assurance can be given that the Fund will retain its original size and composition.

At any particular time the Fund shall consist of such

imdistributed cash from the sale, redemption, liquidation or maturity thereof. Such amounts as may be deposited in the Reserve Account, hereinafter referred to, shall be excluded from the Fund.

ACQUISITION OF UNDERLYING PUBLIC BONDS—The Sponsor has acquired the certain public bonds in the principal amount of \$45,000,000 (including in certain cases contracts for the purchase of bonds on a "When-Issued", basis) for deposit, in the Fund. The Sponsor has selected and from time to time acquired the bonds best suited, in its experience and judgment, for initial deposit in the Fund, based upon, in addition to other factors, the following requirements: (1) that every bond so selected is the obligation of an issuer, which is not in default in the payment of the principal of and interest on any of its, obligations outstanding with the public; (2) that the cost price to the Fund of the bonds purchased was reasonable reletive to the cost of other tax-exempt Public Bonds of comparable quality and maturity available in like amount; and (3) that the bonds are well diversified as to purpose of issue and location of issuer.

Neither the Sponsor nor the Trustee shall be liable in any way for any default, failure or defect in any deposited security.

Trustee to the Interest Account. Moneys other than interest received by the Trustee are to be credited to the Liquidation Account. After certain deductions, including deductions to cover expenses of the Fund and to cover redemptions, of units by the Trustee, if any, the pro rata shares of the Interest Account and of the Liquidation Account.

The Trustee, shall furnish to registered certificateholders with each semi-annually as of the 15th day of January and July of each year or, if such day is not, a business day then the first business day prior thereto. Distributions to the registered certificateholders with each semi-annual distribution information with respect to the Interest Account setting forth (1) the amount of interest received on the bonds in the Fund and the percentage of

the Interest Account, expressed both as a total dollar amount and as a dollar amount representing the pro rata share of each unit outstanding.

The Trustee shall also furnish with each distribution from the Liquidation Account a statement setting forth (1) the issues of Public Bonds held in the Fund and the current evaluation of each of them, (2) issues, if any (including the date of their sale exchange, maturity or redemption) of the underlying public bonds eliminated from the Fund during the preceding semi-annual period, (3) the sale, exchange, maturity or redemption proceeds thereof, (4) the total amount distributed from the Liquidation Account for any redemption of units, (5) the deductions for payment of taxes and of fees and expenses of the Trustee and of bond counsel, if any, and (6) the net amount available for distribution from the Liquidation Account expressed both as a total dollar amount and as a dollar amount representing the pro rata share of each unit outstanding.

The Trustee shall also furnish with each semi-annual distribution a statement as to the value of each unit of the Fund based on the Semi-Annual Evaluation.

FVALUATION OF UNITS—The Indenture provides that the Trustee shall appraise the value of the Fund as of 10:00 a.m. New York time on the 15th day of the months of January and July or, if such day is not a business day then the first business day prior thereto. This Semi-Annual Evaluation will itemize: (1) cash on hand in the Fund, (2) the value of the bonds held in the Fund, which shall be the current bid price (or if no bid price is available with respect to any of the bonds, the appraised value determined by the Trustee on the date of evaluation; and 43) accrued but unpaid interest thereon. For each such evaluation there are to be deducted: (1) amounts representing any applicable taxes or governmental charges payable out of the Fund and for which no deduction shall have previously been made for Reserve Account purposes, and (2) amounts representing any explicable taxes or governmen

comparable bonds. It is the intention of the Trustee that this method of appraisal will be followed for all evaluations of the Fund, except for the initial determination of the offering price which will be made by the Trustee as set forth herein under "Acquisition of Underlying Public Bonds."

Public Bonds."

REDEMPTION OF CERTIFICATES—Any certificate may be tendered for redemption at the corporate trust office of the Trustee in New York City upon payment of any applicable taxes or governmental charges. On the seventh calendar day following such tender or, if the seventh calendar day is not a business day, on the first business day prior thereto, the certificateholder shall receive a cash amount per unit determined by the Trustee, as of 10:00 a.m. New York time on the date of tender, on the same basis as the Semi-Annual Evaluation.

per unit determined by the Trustee, as of 10:00 a.m. New York time on the date of tender, on the same basis as the Semi-Annual Evaluation.

Said cash amount per unit shall be multiplied by the number of units tendered for redemption. It is provided in the Indenture that if such unit or units shall be tendered for redemption during a period when the registration books of the Trustee shall be closed, then in such case the certificate evidencing such unit or units shall be accompanied by an assignment to the Trustee of any distribution to which such unit or units would be entitled. Any amounts paid on redemption representing interest shall be withdrawn from the Liquidation Account. The Trustee is empowered to sell underlying bonds in order to make funds available for such purpose. Any unit or units redeemed in the manner described in this and the preceding paragraphs shall be thereby terminated.

The unit value for purposes of redemption of certificates representing units in the Fund is determined on the basis of the current bid price of such certificates will have been determined on the basis of the current offering price of such bonds. The difference between the bid and offering price of public bonds may be expected to average one and one-half points. In the case of some actively traded bonds, however, the difference may be as little as one-half point, and in the case of inactively traded bonds such difference usually does not exceed three points. Consequently, the price at which units are redeemed may be less than the original amount invested.

The right of redemption, as set forth above, is subject to suspension for any period during which the New York Stock Exchange is closed, or trading on that exchange is restricted, or for any period during which an emergency exists as a result of which disposal of bonds beld in the Fund is not reasonably practicable or it is not reasonably practicable for the Trustee fairly to determine the value of such bonds, or for such other periods as the Securities and Exchange Comm

#### Sheller Manufacturing Corp.—Quarterly Report-

Sheller Manufacturing Corp.—Quarterly Report—
Earnings of the corporation for the three months ended Dec. 31, 1961—first quarter of the company's fiscal year—were roughly three times those for the corresponding period of 1960 and were significantly above those for the entire preceding nine months of that year, Januarius A. Mullen, President, stated in his report to stockholders. Sales for the period were approximately at the level of a year earlier. The marked rise in earnings, Mr. Mullen said, was due primarily to the growth and profit improvement program initiated early in 1961, and which has been carried forward aggressively since then.

Net sales of Sheller Manufacturing for the fiscal 1962 first quarter (ended Dec. 31, 1961) amounted to \$12,016,581 as against \$12,078,030 a year earlier. Profit before taxes was \$1,038,442 and compared with \$540,777 for the same months of a year ago.

Net income, after taxes, totaled \$498,042 and was equivalent to 52 cents per share on the 953,280 shares of common stock outstanding as of Dec. 31, 1961. For the corresponding period of a year earlier, net earnings amounted to \$162,677, or 17 cents per share, calculated on the same basis.—V. 193, p. 2262.

Southwest Factories, Inc.—Acquisition—
This Oklahoma City firm, which early in January announced the acquisition of Fletcher Manufacturing Co., Oklahoma City, (now Flinco, Inc.) has announced the acquisition of another 'company—a Kansas manufacturer of golfing equipment.

J. Oliver Boyle, President of Southwest Factories, reported that his company had contracted to buy BGM Industries, Inc., of Russell, Kan. Purchase price was approximately \$100,000, payable January, 1963, in the common stock of Southwest Factories at its rair market value at that time.

BGM is currently manufacturing and marketing four related items of golfing equipment under the trade name of "PK" products. These include the "PK Golf Bag" and the "PK Perfect Kart" which are sold separately or as a combination called the "PK Perfect Kaddy." The company has recently developed a motorized unit which attaches to the other components to form a golf, car called the "PK Perfect Kar."

This "Perfect Kar." is believed to be the standard to the "PK Perfect Kar."

Kar."
This "Perfect Kar." is believed to be the only motorized unit on the market that is portable enough so that it can be lifted into and carried in the trunk of a car.

In the transaction, Southwest acquired all rights and patents for

the manufacture of PK products as well as the 7,200-square-foot BGM plant in Russell and its facilities.—V. 195, p. 447.

Speed-O-Print Business Machines Corp.—Sales Double

Speed-O-Print Business Machines Corp.—Sales Double
Sales of the corporation rose more than 50% to hit an all-time
high in the fiscal year which ended Dec. 31, 1961, President Abe
Samuels announced.

Volume in 1961 for the Chicago-based maker of office copy-making
machines rose to \$5,768,822, an increase of \$1,945,239 or slightly more
than half again as much as the \$3,823,583 recorded in 1960.

Mr. Samuels credited the increase to "a substantial growth in
unit sales of photocopy machines as well as increased acceptance of
other products."

Earnings results of the company, whose stock is listed on the
American Stock Exchange, are not yet available, Samuels reported.
For the nine months which ended Sept. 30, 1961, Speed-O-Print reported net income of \$268,290 or 36 cents per share, up from \$80,764 or
11 cents per share for the first three quarters of 1960.

"We look forward to a continued increase in sales in 1962,"
Samuels said. He noted that the firm increased its billing price to
dealers on all major products by approximately 10% as of Jan. 1;
"which should contribute to increased earnings in the current year."

Spiegel, Inc.—Sales Up, Earnings Down—
Corporate net sale for Spiegel were \$277,279,186 in 1961 compared to \$268,834,427 in 1960, a gain of 3.1%. Net profit after tax was \$6,962,976 compared to \$11,753,305 in 1960. After preferred dividends of \$312,975, earnings were equal to \$2,07 on an average of 3,205,368 common shares outstanding as compared to \$3.89 in 1960, on an average of 2,938,622 shares outstanding.

M. J. Spiegel, Chairman, said "Although there was a modest sales increase, conditions were not favorable to normal credit sales growth. Throughout most of the year national retail sales larged behind recovery in general business and consumers repaid outstanding debt in excess of new credit extended, a condition especially unfavorable for Spiegel with its predominance in credit sales. Earnings were affected by increased promotional and research expenditures, by the costs incurred in converting manual tasks to automated routines, and by expanded facilities."—V. 194, p. 999.
