SEC Filings Consolidated

For the convenience of our readers, the Chronicle is publishing separately all security registrations, Regulation A filings, exchange offers etc., filed with the Securities and Exchange Commission during the preceding week. This new method was inaugurated with the issue of February 19.

Accurate Parts, Inc.—Common Registered—

The company of 1313 South Jay St., Kokomo, Indiana, filed a registration statement with the SEC on Mar. 30 covering 100,000 outstanding shares of common stock, to be offered for public sale by the holders thereof through underwriters headed by McDonnell & Co., 120 Broadway, New York, and Raffensperger, Hughes & Co., Inc., 20 North Meridian St., Indianapolis. The public offering price (max. $13 per share) and underwriting terms are to be supplied by amendment.

The company is engaged in the rebuilding and sale of starter drive devices for the automotive parts replacement market. Such devices can best be described as the geared linkage between an electric starting motor and an automobile engine. In addition to preferred stock, it has outstanding 300,000 shares of common stock (after giving effect to a recent 600-for-1 stock split), of which M. E. Hicks, Board Chairman, and Charles R. Hicks, President, own 144,000 and 108,600 shares, respectively, and propose to sell 48,000 and 36,200 shares, respectively. Three others propose to sell an aggregate of 15,800 of 47,400 shares owned.

Adelphi Research & Mfg. Co.—"Reg. A"—Filing—

The company on March 23, 1962 filed a "Reg. A" covering 53,000 common shares (par 10c) to be offered at $3.75, through Fred F. Sessler & Co., Inc., New York.

Proceeds are to be used for debt repayment, new products, equipment, leasehold improvements, inventories and working capital.

Adelphi of 3745 N. Second St., Philadelphia, is engaged in manufacture and distribution of papers used in copying processes.

Agricultural Insurance Co.—Exchange Offer—

See Exchequer Inc., this issue.

All-Star Insurance Corp.—Common Registered—

The corporation of 3882 N. Teutonia Ave., Milwaukee, filed a registration statement with the SEC on March 30 covering 1,000,000 shares of common stock, to be offered for public sale (without underwriting) at $3 per share. The prospectus states that such stock will be offered primarily to certain selected insurance agents and agencies, who will sell policies of the company. Its principal business is the insuring of owners of private residences and apartment buildings against loss by fire, lightning, and other perils. The net proceeds from the stock sale will be added to the working capital in order to meet the requirements of the states in which the company plans to apply for a license to do business. It is now licensed in Montana and Louisiana in addition to Wisconsin.

Organized in December 1960, the company has outstanding 1,213,030 common shares, of which management officials own 92,800 shares. Each purchaser of a share of stock was given a warrant to purchase one additional share, at prices ranging from $1.65 per share on the first 25% of the warrants to $2.10 on the last 30%. 1,150,000 shares were so sold, and during the latter part of 1961, 63,030 shares were purchased through the exercise of warrants, giving the total of 1,213,030 shares outstanding. In addition, the organizers hold options on 450,000 shares and persons other than the organizers 250,000 shares, the exercise price on the options being the same as on the warrants. The prospectus lists Morris F. Goldman as President and one of the organizers of the company.

Alsco Electronics, Inc.—"Reg. A"—Filing—

The corporation on March 28, 1962, filed a "Reg. A" covering 100,000 class A common shares (par $1) to be offered at $3, through Albert Teller & Co., Inc. and H. A. Riecke & Co., Inc., Philadelphia.

Proceeds are to be used for inventory and working capital.

Alsco of 2520 N. Broad St., Philadelphia, is engaged in the wholesaling, distributing and jobbing of electronic parts, kits, components and supplies.

Apache Corp.—Securities Registered—

The company of 523 Marquette Ave., Minneapolis, Minn., filed registration statements with the SEC on April 3, covering (1) $2,500,000 of participating units in Apache Gas and Oil Ventures 1963-A, to be offered for public sale in 500 units at $5,000 per unit, (2) $3,700,000 of participating units in Apache Gas and Oil Ventures 1963, to be offered for public sale in 250 units at $15,000 per unit, (3) $2,500,000 of program units in Apache Gas and Oil Program 1963-A, to be offered for public sale in 500 units at $5,000 per unit, and (4) $3,750,000 of program units in Apache Gas and Oil Program 1963, to be offered for public sale in 250 units at $15,000 per unit. Such securities are to be offered on a best efforts basis by the company's wholly-owned subsidiary, APA, Inc., and the company will absorb a $600 commission payable to APA for units sold at $15,000 each and a $350 commission for units sold at $5,000 each.

The net proceeds from the company's sale of the program units in the Gas and Oil Program 1963 and 1963-A will be used to acquire gas and oil leases, to do test drilling, to pay compensation to the company, and to do initial developmental drilling. It is estimated that capitalized leasehold and equipment costs will approximate 25% of expenditures, administrative expenses and company compensation 10% and all other costs, including costs of geological services, drilling, testing, intangible completions, delay rentals, dry-hole contributions and lease operating expenses, about 65%. The net proceeds from the sale of the participating units in the Gas and Oil Ventures 1963 and 1963-A will be used to pay all costs of evaluating, acquiring, holding, testing, developing and operating gas and oil leaseholds under the program, and to pay company compensation. Expenditures for this program, in the categories stated above, are estimated at 10%, 10% and 80%, respectively. As compensation for its services, the company will receive (a) 7% of all program funds spent other than for equipment rentals, (b) an overriding royalty interest which shall bear the same relationship to 1-16th of the total gas and oil produced and saved from each lease as the program's working interest bears to the total working interest, and (c) 25% of the program's net profit from each lease after the program has recovered its entire investment in the lease. Truman E. Anderson is Board Chairman and Raymond Plank is President.—V. 195, p. 1545.

Associate Underwriters, Inc.—"Reg. A"—Filing—

The corporation on March 29, 1962 filed a "Reg. A" covering 71,428 common shares (par $1) to be offered at $3.50, without underwriting.

Proceeds are to be used for expansion.

Associate of Lincoln, Neb., is engaged in the underwriting and the brokerage business.

Atlantic Mid-Continent Corp.—Common Registered—

The corporation of 8469 East Jefferson Ave., Detroit filed a registration with the SEC on March 30 covering 600,000 shares of common stock to be offered for public sale through underwriters headed by F. J. Winckler Co., 1966 Penobscot Building, Detroit. The public offering price (maximum $6 per share) and underwriting terms are to be supplied by amendment. The statement also includes (1) 53,242 common shares to be offered in exchange (on an 18½-for-1 basis) for the outstanding shares (not already under option to the company) of Atlantic Southern Insurance Co. of Puerto Rico, and (2) 263,765 shares to be offered in exchange (on a 1-for-1 basis) for the outstanding stock of Wayne National Life Insurance Co., a Michigan company.

Organized in December 1961, the principal business of the company will be that of seeking, acquiring and holding and controlling substantial interests of other companies, primarily those engaged in the fields of insurance. Of the net proceeds from the stock sale, $777,700 will be used to acquire about 68% of the outstanding stock of Atlantic Southern pursuant to an option owned by the company (416 shares of the balance to be acquired from certain organizers of the company in exchange for company stock and the remaining 2,904 shares by the exchange offer); $1,000,000 to acquire 200,000 unissued shares of Wayne National (the company will acquire 36,235 outstanding shares from organizers of the company and the balance pursuant to the exchange offer); and the balance of about $1,200,000 will be used for possible future acquisitions.

Eleven individuals have subscribed for a total of 43,859 shares of the company stock, but no shares had been issued up to March 30, 1962. Edward P. Strang, Jr., president and board chairman, Kenneth H. Robertson, a vice president, and Wayne S. Young, a director, have subscribed for 42.7%, 18.1% and 13.6%, respectively, of such shares.

Barogenics, Inc.—Common Registered—

The company of 51 East 42nd St., New York, filed a registration statement with the SEC on March 30 covering 100,000 shares of common stock, to be offered for public sale at $7.50 per share. The offering will be made through underwriters headed by Globus, Inc., 660 Madison Ave., New York, which will receive a 75 cents per share commission and $12,500 for expenses. The statement also includes 25,000 shares underlying 5-year warrants sold to the underwriter for $25, exercisable at $7.50 per share, and 5,000 shares underlying similar warrants sold to Robert Fulk, a finder, for $5.00.

The company (formerly Engineering Supervision Co.) is engaged in the research and development in ultra high pressure technology and the design and sale of ultra high pressure machinery and equipment. Of the pet proceeds from the stock sale, $500,000 will be used for inventories, $100,000 for research and development, and the balance for sales and promotion. In addition to certain indebtedness, the company has outstanding 200,000 shares of common stock (after giving effect to a recent 400-for-1 stock split), of which F. H. McGraw & Co., of New Jersey, owns 180,000 shares, and Milton F. Meissner, President, and Alexander Zeitlin, Vice-President, own 10,000 shares each. Clifford S. Strike is Board Chairman of the company and President of McGraw. Management officials of the company and their families, as a group, own about 9.4% of the outstanding stock of McGraw.

Bell & Howell Co.—Secondary Registered—

The company of 7100 McCormick Road, Chicago, filed a registration statement with the SEC on March 30 covering 109,122 outstanding shares of common stock which may be offered for public sale by the holders thereof on the New York, Midwest or Pacific Coast Stock Exchanges, at prices prevailing thereon. Such shares are to be issued by the company to certain former capital stockholders of Ditto, Inc. pursuant to an agreement of merger between Ditto and the company. As a result of the merger, the stockholders of Ditto will acquire an aggregate of 258,645 common and 86,215 4¼% cumulative convertible preferred shares of the company in exchange for their stock of Ditto.

The company is a diversified manufacturer of electronic instrumention, photographic products and high vacuum equipment. Ditto is engaged in the design, development, manufacture and sale of duplicating, copying and reproduction products, including machines, supplies and papers. In addition to certain indebtedness and preferred stock, the company has outstanding 4,030,935 common and 431,075 capital shares. Charles H. Percy is Board Chairman, and Peter G. Peterson is President. The prospectus lists 12 selling stockholders including Frances R. Boardman, Sanger P. Robinson and T. W. Robinson, Jr., who will receive and may sell 22,899, 33,897 and 32,397 shares, respectively. Others will receive and may sell amounts ranging from 60 to 5,562 shares.—V. 155, p. 973.

Big Mart Discount Stores—"Reg. A"—Filing—

The company on March 30, 1962 filed a "Reg. A" covering 60,000 common shares (par one cent) to be offered at $5, through Amber, Burstein & Co., Inc., New York.

Proceeds are to be used for expansion, inventories, working capital and general corporate purposes.

Big Mart of 249 W. 34th St., New York, is engaged in the operation of one discount merchandise center and four ladies' hosiery and lingerie stores.

Biologics International, Inc.—Common Registered—

The company of 7520 Bergenline Ave., North Bergen, N. J., filed a registration statement with the SEC on March 30 covering 125,000 shares of common stock, to be offered for public sale (without underwriting) at $3 per share. The company will pay a 37½ cents per share commission and an expense allowance of 15 cents per share on any shares sold by dealers whom the company may employ. The company's President has agreed to sell to such dealers at 1 cent per share up to 12,500 shares (at the rate of one share for each 10 shares sold), and the company will issue to such dealers 3-year warrants to purchase 25,000 shares at $3 per share (at the rate of one warrant for each 5 shares sold). Such 37,500 shares are also included in the registration statement.

Organized in September 1961, the company has not yet engaged in business. It proposes to engage in the breeding and supplying of animals for biological research purposes and the production of vaccines. It intends to devote its initial interest to moneys and baboons to be purchased from trappers and suppliers, primarily from India and Africa. Of the $284,375 estimated net proceeds from the stock sale, $102,750 will be used for the down payment on and improvements to facilities in New Jersey for breeding and other purposes, and the balance for a sales program, development of special cages for transportation of moneys, office equipment and furniture, purchase of breed stock, research and development and for general funds. The company has outstanding 125,000 shares of common stock, of which Richard O. Bertoli, Board Chairman and President, Nathaniel Leichter, Secretary-Treasurer, own an aggregate of 38.7% and management officials as a group 59.5%. Sale of new stock to the public at $3 per share will result in an increase in the book value of stock now outstanding from 10 cents to $1.19 per share and a corresponding dilution of $1.91 per share in the book equity of stock purchased by the public.

Buddy L Corp.—Common Registered—

The company of 200 Fifth Ave., New York, filed a registration statement with the SEC on April 2, covering 225,000 shares of common stock, to be offered for public sale through underwriters headed by Milton D. sole stockholder of Western Stamping Co., pursuant to the company's proposed acquisition of that company.

The company is engaged primarily in the design, manufacture, assembly and sale of a wide variety of toys under the popular trademark "Buddy L." These include a diversified line of scale model steel trucks and related toy vehicles and a line of plastic toys and accessory items. Of the net proceeds from the stock sale $1,500,000 will be used together with the common shares to acquire all of the outstanding stock of Western for an aggregate purchase price of $1,750,000, pursuant to the agreement between the company, Western and Arthur W. Poole. In addition, Western will acquire from Mr. Poole and his wife certain real property presently being leased by them to Western, and will sell to Mr. Poole certain real property and vehicles not required for Western's business. These transactions will result in a payment by Western of the net sum of $64,600. The balance will be used for working capital. Western designs, manufactures, assembles and sells toys, typewriters, cash registers, banks and bank vaults.

In addition to certain indebtedness, the company has outstanding 600,000 shares of common stock (after giving effect to a proposed recapitalization whereby such shares will be issued in exchange for the 65,000 class A and 100,000 class B shares now outstanding). Of such outstanding stock, Henry Katz, Board Chairman, owns 43.58% and Henry Katz Factory Lines, Inc. (owned by Katz and his family) own 56.42%. Richard L. Keats is President.

Calvert Electronics, Inc.—Common Registered—

The company of 220 East 23rd St., New York, filed a registration statement with the SEC on March 30, covering 80,000 shares of common stock, of which 40,000 shares are to be offered for public sale by the company and 40,000 shares, being outstanding stock, by the holders thereof. Philips, Rosen & Appel, 115 Broadway, New York, heads the list of underwriters. The public offering price (maximum $5 per share) and underwriting terms are to be supplied by amendment. The statement also includes 8,000 shares underlying five-year warrants to be sold to the underwriter for $80, exercisable at $4.50 per share.

The company is principally engaged in the sale and distribution of an extensive line of electronic tubes to industrial customers, governmental agencies, and to other distributors. The $155,000 estimated net proceeds from the company's sale of additional stock will be allocated to a subsidiary for acquisition of additional testing equipment for the expansion of inspection facilities; to acquire additional inventory in order to expand tube lines and for working capital purposes; to increase sales personnel and for advertising and promotion; and for general corporate purposes. In addition to certain indebted-

Corporate and Municipal Financing Ahead

By SIDNEY BROWN

This week's heavily paced financing is sparked by four corporate senior fixed interest rate debt issues totaling $145,925,000, three of which aggregate $105,925,000 in competitive bids, and four competitive municipal bonds amounting to $157 million. The total of senior corporate and tax-exempt securities in the April 16-20 period adds up to $393 million. The addition of $180 million refinancing Federal Land Banks bonds increases the total to $573 million.

In view of last week's $6.8 billion subscription for $1 billion Treasury 3¾% bond issue maturing Aug. 15, 1968, the sizable corporate and municipal float set for this week will not siphon off much of the pent-up demand for capital investments. Last January, the Treasury offered $1 billion of 4% bonds with a 14-month longer maturity (Oct. 1, 1969) than last week's and received $1.6 billion subscriptions—nowhere near last week's almost seven-fold response.

As of this writing, the market has not construed the rise in the cost of steel as a portent of inflation. Apparently the market thinking is much more concerned with the recent Organization for Economic Cooperation and Development's analysis wherein it ascribed our slowed growth in the past decade to "inadequate pressure of demand."

It is customary to refer to underconsumption as the cause of most business cycles but it is another thing to single out the cause of insufficiency of demand. Those who follow the Keynesian analysis pinpoint the blame on the lack of investments—the refusal of savings to flow back into the investment channel—but unfortunately they have been unable to make a case for growing propensity to save as national income has risen. In fact, Simon Kuznet's recent monumental study of the long run capital spending trend shows we are vulnerable on the score of savings—we have not been saving enough to take care of investment needs.

Today's economy is characterized by excess capacity; therefore, the Keynesian analysis would be hard put to blame the refusal of present savings to flow into the investment channel. Business can meet most of its current financing needs. The government's fiscal efforts in the past decade have been in the direction of stimulating demand without, as the OECD points out, contributing to a faster economic growth. When President Eisenhower's Secretaries of the Treasury stated that investments are the "golden eggs" that leverage the economy upwards, they were scoffed at and were not labeled Keynesians by the opposition's critics. The latter were not interested in encouraging investors to invest. Now that President Kennedy is seeking a tax-subsidy to encourage investing, the former critics are silent—except for the ambivalent labor—and the business groups are now critical of this method to encourage business spending. So long as the business cycle Gordian knot remains—and the OECD report made no new contribution in this area—and we still use the less than reliable cures to move the economy onwards and upwards, one can expect that the bond market will be favored by investors. Unfortunately, the short run plans for capital spending maintain our present pace but are not sufficient to move business spending into a suitable leverage position.

Channing Corp.—Exchange Offer—

See Exchequer Inc., this issue.—V. 195, p. 520.

Cine-Dyne, Inc.—Common Registered—

The company, of 40 East 49th Street, New York, filed a registration statement with the SEC on April 9 covering 100,000 shares of common stock, to be offered for public sale at $4 per share. The offering will be made on an agency best efforts basis by R. A. Holman & Co., Inc., 54 Wall Street, New York, which will receive a 48c per share selling commission and an expense allowance of 5% of the gross amount received for shares sold. The statement also includes (1) 5,000 shares to be sold to the underwriter and 500,000 shares to Shareholder Consultants, Inc., the finder all at 10 cents per share, and (2) 20,000 shares underlying 5-year warrants to be sold to the underwriter at one cent each, exercisable at $4 per share.

The company was organized under Delaware law in September, 1961 for the purpose of engaging in the production of feature length motion pictures for theatrical distribution in the United States and abroad; the production of industrial and educational films; and the production of filmed and video taped television programs and commercials. To date, the company's activities have been in the planning stage, except that it has acquired the rights necessary to the production of a feature length motion picture tentatively titled "Judo," and has leased out the services of its Executive Vice-President, Dennis Kane, to Time-Life, Inc. as the director for the television series, "The March of Time" and has agreed to lend the services of its President, Jac Hein, as the director of the network television program series, "Ted Mack Original Amateur Hour." Of the net proceeds from the stock sale, $250,000 will be used for the production of "Judo," and the balance to reimburse Kane and Hein for certain pre-production, promotional and other expenses, to acquire properties suitable for television and motion picture exploitation, and for general working capital and contingencies. Pursuant to the contract between the company and Allied Artists Pictures Corp. for distribution of "Judo," Allied will receive 30% of gross receipts in the United States and 32½% in Canada until the company has received $250,000, and thereafter Allied will receive 35% and 45% respectively. Laurence Savadove, the author of the screen play, is entitled to 5% of the net profits of the company from the picture.

The company has outstanding 33,800 shares of common stock, of which Hein, Kane and Irving Geist, a director, own 30.77%, 29.59% and 20.71%. The company has agreed to sell to them at 1c each, warrants to purchase an additional 12,500, 12,500 and 5,000 shares, respectively. Of the outstanding shares, 25,500 were acquired by Hein, Kane and Geist at 10c per share and the balance by nine persons (including Hein) at $2.50 per share. Sale of new stock to the public will result in an increase in the book value of stock now outstanding (including shares sold to the underwriter and finder) from 62c to $2.50 per share and a corresponding dilution of $1.50 per share in the book equity of stock purchased by the public.

Citizens Life Insurance Co. of New York—SEC Registration Withdrawn—

On April 10, 1962 the company withdrew its registration statement originally filed with the SEC on Sept. 8, 1961, which covered 147,000 common shares to have been offered publicly through A. G. Becker & Co., New York City.—V. 194, p. 1156.

Computer Control Co., Inc.—SEC Registration Withdrawn—

On April 10, 1962 the company withdrew its registration statement originally filed with the SEC on Jan. 24, 1962 which covered 157,500 common shares to have been offered publicly through Kidder, Peabody & Co., New York City.—V. 195, p. 521.

Computers Inc.—Common Registered—

The company of 5123 Glenmont Drive, Houston, filed a registration statement with the SEC on April 2 covering 10,000 shares of common stock, to be offered for public sale at $40 per share. The underwriters (whose names are to be supplied by amendment) will receive a $5 per share commission.

The company is engaged in designing, engineering, manufacturing and selling computing systems and process control equipment, generally designed for the purposes of performing certain specific tasks of measurement or control in industrial or commercial facilities utilizing control systems. The $325,000 estimated net proceeds from the stock sale will be used to acquire production equipment, to purchase certain inventory items, and for working capital to be applied towards financing increasing business and intensified sales efforts, and towards expanding and broadening research and development in the field of special purpose computers and particularly their application and use in the various industries using automatic control systems and facilities. The company now has outstanding 10,000 shares of common stock, of which Billy E. Davis, president, owns 34.95% and management officials as a group 52.25%.

Consolidated Vending Corp.—Common Registered—

The company, of 129 South State St., Dover, Del., filed a registration statement with the SEC on April 2 covering 70,000 shares of common stock, to be offered for public sale at $5.75 per share. The offering will be made on a best efforts all or none basis through underwriters headed by Dana Securities Co., Inc., 80 Wall St., New York, which will receive a 69c per share commission and $5,000 for expenses. The statement also includes (1) 1,500 shares sold to the underwriter at 1c each, (2) 17,000 shares underlying 5-year warrants sold to the underwriter at one mil each, exercisable at $5.75 per share, and (3) 6,000 shares underlying like warrants sold to officers and employees of the company.

The company, through its subsidiaries, is engaged in the operation of vending machines for the retail sale of various items including cigarettes, confectionery items and food, and operates coin-operated phonograph machines and amusement machines. The $320,000 estimated net proceeds from the stock sale will be advanced to subsidiaries and used to repay long-term bank loans and certain notes, to purchase new vending, photograph and amusement machines, for acquisitions, and for working capital and other corporate purposes. The company has outstanding, in addition to certain indebtedness, 130,000 shares of common stock, of which Jules H. Singer, president, and Sidney Mittleberg, vice president, own 33.55% and 19%, respectively, and management officials as a group 60.65%. Sale of new stock to the public will result in an increase in the book value of stock now outstanding from 10c to $2.29 per share and a corresponding dilution of $3.46 per share in the book equity of stock purchased by the public.—V. 194, p. 953.

Continental Telephone Co.—Common Registered—

The company of 111 South Bemiston, St. Louis, Mo., filed a registration statement with the SEC on Mar. 30 covering 475,000 shares of common stock, to be offered for public sale through underwriters headed by Allen & Co., 30 Broad St., and E. F. Hutton & Co., One Chase Manhattan Plaza, both of New York. The public offering price (maximum $15 per share) and underwriting terms are to be supplied by amendment.

Since the company was organized in 1960 it has acquired by merger, exchange of shares, or purchase, the controlling interest in 33 operating telephone properties serving an aggregate of approximately 71,000 telephones in California, Illinois and 10 other states, and has also acquired all of the stock of Central Western Co., a telephone service corporation, and of Medusa Equipment Corp., an equipment leasing company. Such acquisitions have been effected by the expenditure of approximately $8,083,000 in cash (of which approximately $2,057,000 was borrowed directly by subsidiaries on a long-term basis from others than the company), the issuance of 821,252 shares of the company's common stock and the issuance of 4,028 shares of the company's preferred stock, 5% Series. The net proceeds from the stock sale, together with borrowings of $1,500,000, will be used to the extent of $6,500,000 to repay bank loans incurred by the company for the purpose of acquiring its present subsidiaries and making additional investments in and advances to such subsidiaries.

In addition to certain indebtedness and preferred stock, the company has outstanding 1,188,752 shares of common stock, of which management officials as a group own 16%. Phillip J. Lucier is Fresident and Charles Wohlstetter is Board Chairman.—V. 184, p. 621.

Exchequer, Inc.—Proposed Acquisitions—

The company whose address is 100 W. 10th St., Wilmington, Del., filed a registration statement with the SEC on Mar. 30 covering 618,120 shares of 80 cents cumulative convertible preferred stock and 2,663,196 shares of common stock. This stock is to be offered in exchange for capital stock of (1) Agricultural Insurance Co. (N. Y.), which is engaged in writing fire, extended coverage, automobile, casualty, aircraft, and ocean and inland marine insurance; (2) Channing Corp (Del.), which owns a 36.61% interest in Agricultural and offers numerous financial services, including the managing and marketing of mutual funds and investment counselling; (3) Federal Life & Casualty Co. (Mich.), which is engaged in writing life, accident and sickness insurance and granting annuity contracts; (4) Secured Insurance Co. (Ind.), 59.37% of whose stock is owned by Wolverine Insurance Co. and which in 1961 reinsured all its premium writings with Wolverine and contemplates re-entry into the primary market offering lines not now available from Wolverine and Secured; and (5) Wolverine Insurance Co., which writes multiple lines of insurance in Michigan and eight other states.

Under the exchange plan, Exchequer will exchange shares of its stock as follows: (a) two preferred shares for each share of Agricultural capital stock (other than those owned by Channing); (b) 1.7 common shares for each share of Channing common (other than those owned by Agricultural); (c) 7.8 common shares for each share of Federal capital stock (other than shares owned by Channing); (d) 1.3 common shares for each share of Secured capital stock (other than those owned by Wolverine), and 3.7 common shares of Wolverine common (other than those owned by Channing). Thus, all of the 618,120 preferred shares would be issued in exchange for Agricultural stock; and 1,994,954 shares of common stock would be issued for Channing stock, 341,094 for Federal stock, 60,748 for Secured stock, and 266,400 for Wolverine stock. According to the prospectus, the proposed combination of Channing's financial service operations and insuring facilities of Agricultural, Federal, Secured and Wolverine "should permit the larger combined sales organization to offer full facilities for financial security and planning to both individual and corporate prospects. Having available Life, Health, Property and Casualty insurance and mutual funds permits representatives of the affiliated companies to offer one-stop merchandising of insurance and mutual funds tailored to the needs of the buyers thus serving the public better and more objectively."

Exchequer was organized under Delaware law on Mar. 21, 1962, following the approval of the directors, of Agricultural, Channing, Federal and Wolverine of the basis of the exchange offers. Channing purchased 50 common shares at $20 per share and agreed to lend up to $410,000 to pay expenses incurred in connection with its organization and this financing. Kenneth S. Van Strum, Board Chairman of Channing, will serve as President, Robert G. Horr and John H. Carton, Vice-President, were presidents, respectively, of Agricultural and Federal-Wolverine.

Good-Era Realty & Construction Corp.—Class A Registered—

The corporation, of 151 N. Dean Street, Englewood, N. J., filed a registration statement with the SEC on April 2 covering 550,000 shares of class A stock, to be offered for public sale at $10 per share. The offering will be made through underwriters headed by Lieberbaum & Co., 50 Broadway, and Morris Cohon & Co., 19 Rector Street, both of New York, which will receive a $1 per share commission and $30,000 for expenses. The statement also includes (1) 40,000 shares underlying 5-year warrants to be sold to the underwriters, exercisable initially at $11 per share, (2) 405,700 class A shares to be offered by the company in exchange for outstanding interests of partners in certain partnerships, for stock of one corporation and for certain management contracts, (3) $3,174,000 of convertible subordinated debentures due 1977, to be offered by the company in exchange for certain property interests and $1,568,500, and (4) 50,000 class B shares to be sold to Leo Goodman, Board Chairman, and 50,000 to John Guidera, President, at 10c per share and for other considerations.

The company was organized under Delaware law in January, 1962 by Goodman and Guidera to develop integrated ownership, operation, construction and management of real property, diversified as to use and occupancy. To commence participations in such activities, the company intends to acquire interests in three motor hotels, one shopping center, a bowling alley and five apartment developments, located in seven different communities in the United States. This will be accomplished through the exchange of up to 383,700 class A shares in exchange for the partnerships and the corporation. The company will also issue 11,000 shares to a partnership owned and operated by Goodman and Guidera in exchange for certain management contracts with respect to said properties (and one other). The company will acquire from Goodman, Guidera and certain associates in part in exchange for $3,174,000 of debentures and in part for the sale to Goodman and Guidera of 100,000 class B shares the fee to land in Paramus and Fort Lee, N. J.; leaseholds to land in Fort Lee and on West 57th Street, New York; and $1,568,500 in cash. The company intends to apply approximately $2,700,000 of the net proceeds of this offering to completion of the construction of a motor hotel on West 57th Street, New York City, and approximately $750,000 to the construction of a combination motor hotel and office building on the Fort Lee leasehold. The company also intends to construct two apartment houses on the Fort Lee property at an estimated cost of $5,500,000 and an industrial park at an estimated cost of $5,248,000 on the Paramus property and on property which it intends to purchase adjacent thereto from Goodman, Guidera and Ralph J. Solow, Secretary, at a cost of $200,000. It is intended that substantially all of the cost of the Fort Lee apartment houses and the Paramus industrial park, less such part thereof as may be allocated from working capital, will be financed by means of construction loans and other institutional borrowings. In addition, the company proposes to acquire Kings Shopping Center in Hackensack, N. J., for approximately $270,000, $200,000 of which will be paid from the proceeds of this offering and the remainder by the assumption of a mortgage. Any balance will be added to general funds.

Upon consummation of all the transactions, Goodman and Guidera will own $476,300 and $476,300 in debentures and 75,811 shares and 78,093 shares of class A stock and 50,000 shares each of class B stock which will have been acquired at an aggregate cost of $345,010 and $358,510, respectively. Assuming the acceptance of the exchange offer by 100% of the holders of capital units, Goodman's and Guidera's stock holdings will constitute 16.12% of the class A stock and 100% of the class B stock to be issued and outstanding.

Hallandale Rock & Sand Co.—Units Registered—

This company of Hallandale, Florida filed a registration statement with the SEC on March 30 covering $250,000 of 8% subordinated debentures due 1977, 200,000 shares of common stock and 6-year warrants to purchase 25,000 common shares at $1 per share. Such securities are to be offered for public sale in units consisting of a $10 debenture, 8 common shares and one warrant. The offering will be made at $18 per unit on an all or none basis by Mutch, Khanbegian, Flynn & Green, Inc., 115 Broadway, New York, which will receive a $2 per unit commission and $5,000 for expenses. The company will also pay a financial consultant's fee of $10,000 to Leonard A. Shair, and $8,500 to Reynolds, Richards, Ely & LaVenture, special counsel for the company and counsel for the underwriters. The statement also includes 25,000 outstanding shares sold to the underwriter by principal stockholders for an aggregate of $25.

The principal business of the company is the extraction, processing and sale of rock and sand. Of the $360,000 estimated net proceeds from the sale of the units, $100,000 will be used as a cash down payment for the purchase and construction of an additional crushing and processing plant and the balance for various other purposes, including the down payment for certain properties known as Highland Lakes East, in Dade County, Florida, and certain equipment.

In addition to certain indebtedness, the company has outstanding 250,000 shares of common stock (after giving effect to a recent recapitalization, whereby such shares were issued in exchange for the 120 shares then outstanding), of which T. E. Curcie, president, and John Curcie, treasurer, own 22.5% each, and Chaves Construction Co. of Miami 45%. All of the stock of Chaves Construction is owned in equal amounts by Benjamin and Leon Chaves, vice-president and secretary, respectively, of the company.

Halsey Drug Co., Inc.—Common Registered—

The company of 1827 Pacific St., Brooklyn, New York, filed a registration statement with the SEC on March 20, covering 79,500 shares of common stock, to be offered for public sale at $4 per share. The offering will be made on a best efforts all or none basis by Packer, Wilbur & Co., Inc., 165 Broadway, and Alessandrini & Co., Inc., 11 Broadway, both of New York, which will receive a 44 cent per share commission and $5,500 for expenses. The statement also includes (1) 7,000 shares to be sold to the Packer-Wilbur firm at 10 cents per share, and (2) 7,000 shares underlying three-year warrants to be sold to said firm for $70, exercisable at $4 per share.

The company is primarily engaged in the manufacture, packaging and sale of proprietary drug products, the majority of which are sold under its trademark "Blue Cross." The net proceeds from the stock sale, estimated at $253,000, will be used to pay a $40,000 note to a bank, for expansion of sales organization and program, for sales promotion and advertising, and for the purchase and installation of additional production and laboratory equipment and for expansion of laboratory facilities. In addition to certain indebtedness, the company has outstanding 167,500 shares of common stock (after giving effect to a recent recapitalization whereby such shares were issued in exchange for the 258 shares then outstanding), of which Alex Marcus, President, and Seymour Marcus, Secretary-Treasurer, own 38.06%; and each holds as trustee for his children an additional 11.94%.

Hunsaker Corp.—Debentures—Common Registered—

The company of 15855 Edna Place, Irwindale, Calif., filed a registration statement with the SEC on March 30 covering $1,600,000 of convertible subordinated debentures due 1977 and 250,000 shares of common stock, to be offered for public sale through underwriters headed by Bateman, Eichler Co., 453 South Spring St., Los Angeles. The interest rate on the debentures, public offering price for both issues (maximum $6 per common share) and underwriting terms are to be supplied by amendment. The statement also includes 25,000 common shares underlying 5-year warrants to be sold to the underwriter for $1,250, exercisable initially at 110% of the public offering price.

The company (formerly S. V. Hunsaker & Sons) was organized under California law in January 1962, to acquire the assets and consolidate the operations of 12 corporations and a partnership engaged in real estate development and a partnership engaged in wholesale and retail lumber sales. All of these companies were or will be acquired for 750,000 shares of common stock from S. V. Hunsaker, board chairman, and his two sons during April 1962. The company is a residential real estate development company operating in Southern California. Its principal activities include the construction of houses on land which it has acquired and developed, the sale of such houses at prices which currently range from $16,000 to $21,000 and the construction of apartments. Of the net proceeds from this financing, $550,000 will be used to repay loans from private investors secured by second thrust deeds, approximately $355,000 will be used to repay bank loans, approximately $660,000 will be used to meet current installments coming due on land purchased by the company, approximately $300,000 will be used in connection with the acquisition of additional land during 1962, and the remaining proceeds will be available for general corporate purposes.

In addition to various indebtedness, the company has outstanding the 750,000 common shares, of which S. V. Hunsaker, Richard C. Hunsaker, President, and S. V. Hunsaker, Jr., vice-president, own 51%, 34%, and 15%, respectively.

Hydro-Swarf, Inc.—Common Registered—

The company of 7050 Valley View St., Buena Park, Calif., filed a registration statement with the SEC on March 30 covering 97,000 shares of common stock, of which 80,000 shares are to be offered for public sale by the company and 17,000 shares, being outstanding stock, by the holders thereof. The offering will be made at $5 per share by Raymond Moore & Co., 501 South Fairfax, Los Angeles, which will receive a $.625 per share commission. Also being offered are 7,000 shares previously purchased by the president of the underwriter from a principal stockholder for $3,500 (evidenced by a note). The company was organized under Delaware law in January 1962, at which time it purchased substantially all of the assets and assumed certain liabilities of a California company of the same name. It is engaged in the manufacture, assembly and sale of aircraft and missile components on a sub-contract basis. Net proceeds from the company's sale of additional stock will be used to discharge notes payable to the predecessor, to discharge a note payable to Foster Funding Corp., to purchase certain production equipment, and for working capital and general corporate purposes. In addition to certain indebtedness, the company has outstanding 65,000 shares of common stock, of which William Semmel, presidend and board chairman, and Foster Funding Corp. own 25,750 and 14,250 shares, respectively, and propose to sell 5,000 shares each. Raymond Clark Moore proposes to sell all of his holdings of 7,000 shares. Gertrude Semmel, a director, owns 15,000 shares.

Independence Fire & Casualty Co.—"Reg. A" Filing—

The corporation on March 30, 1962 filed a "Reg. A" covering 100,000 common (par 10c) to be offered at $3, through Price Investing Co., New York.

Proceeds are to be used for acquisition of land and building, equipment, inventory, research and development and working capital.

Instromech of 4 Broadway Plaza, Huntington Station, N. Y., is a contract manufacturer of precision products.

International Systems Research Corp.—Units Registered—

The company of Engineer's Hill, Plainview, L. I., New York, filed a registration statement with the SEC on Mar. 30 covering 110,000 shares of class A common stock and nine-month warrants to purchase an additional 110,000 class A shares at $4 per share. The shares and warrants are to be offered for public sale in units, each consisting of one share and one warrant. The offering will be made at $4 per unit on an all or none basis (as to first 82,500 units) by International Services Corp., 1126 Clifton Ave., Clifton, N. J., which will receive a 50 cents per unit commission and $15,000 for expenses. The statement also includes (1) 10,000 additional units to be sold to the underwriter at one cent per unit, and (2) 30,000 class A shares underlying three-year warrants (series B) to be sold to the underwriter at one cent each, exercisable at $3.50 per share. The underwriter has allocated 5,000 of the units and 11,250 warrants to Marvin Hayutin, the finder, who will also be paid $5,000 by the company.

The company (formerly S. S. Hunter, Inc.) is engaged principally as a prime contractor in the design, development and manufacture of mechanical, electro-mechanical and electronic equipment for Government agencies and the military. The company also designs, develops and manufactures its own products ("proprietary products"). While the manufacture of proprietary products has not been significant to date, it is intended with part of the proceeds from this offering to enlarge the company's activities in this area. Of the $343,000 estimated net proceeds from the sale of the units, $100,000 will be used to purchase additional production facilities, $100,000 to purchase additional research facilities, $70,000 to repay bank obligations incurred for working capital, and the balance for working capital and general corporate purposes. In addition to certain indebtedness, the company has outstanding 62,000 shares of class B stock (after giving effect to a recent recapitalization whereby such shares were issued in exchange for the 20 common shares then outstanding), all of which are owned by William Shanhouse, President. The sale of new stock to the public will result in an increase in the book value of stock now outstanding from $1.22 to $2.29 per share and a corresponding dilution of about $1.71 per share in the book equity of stock purchased by the public.

Interstate Equity — Common Registered—Exchange Offer—

The company of 450 Seventh Ave., New York, filed a registration statement with the SEC on Mar. 30 covering 1,605,100 shares of beneficial interest in the Trust, to be offered for public sale through underwriters headed by Van Alstyne, Noel & Co., 40 Wall St., New York. The public offering price (maximum $10 per share) and underwriting terms are to be supplied by amendment. The statement also includes (1) 160,510 additional shares which the underwriters have a 30-day right to purchase at the public offering price, and (2) 121,000 shares to be offered for all, but not less than 70%, of the general partnership interests and all of the subordinated partnership interests in the partnerships known as 33 South Munn Co. and 67 South Munn Co. The partnerships own the properties at said addresses which are located in East Orange, New Jersey.

Interstate was organized under New York law in July 1961 as a business trust. It was formed, according to the prospectus, as a medium by which investors may, through the ownership of transferable shares, participate in large and diversified real estate investments which ordinarily would not be available to them individually. The net proceeds from the stock sale to the public will be used to make real estate investments, when and as available, in accordance with the investment policies of the Trust. In December 1961 the Trust acquired all of the partnership interests in Kaufman Investors Co., the then owner of the Shoppers Fair of Wilmington (Delaware) Discount Department Store, in exchange for 120,000 shares (representing all Trust shares now outstanding). George S. Kaufman, managing trustee of the Trust, received 94% of such stock. The Trust recently entered into an agreement with Diana Realty Corporation, a wholly owned subsidiary of Diana Stores Corporation, providing for the purchase by the Trust of 15 Diana Store properties and certain other interests. The agreement provides, among other things, that the seller will receive 153,900 trust shares. The Trust has employed Inter-

state Advisory Corporation, a newly organized New York firm, to act as its Investment Advisor. The advisor is 65% owned by Kaufman and 35% by Van Alstyne, Noel & Co., and Kaufman is its President.

Jamaica Public Service Ltd.—Common Registered—

The company of 507 Place d'Armes, Montreal, Canada, filed a registration statement with the SEC on March 30 covering 215,000 shares of common stock, of which 100,000 shares are to be offered for public sale by the company and 115,000 shares, being outstanding stock, by the holders thereof. Stone & Webster Securities Corp., 90 Broad St., and Greenshields & Co., Inc., 64 Wall St., both of New York, head the list of underwriters. The public offering price (maximum $25 per share) and underwriting terms are to be supplied by amendment. The prospectus states that the Stone & Webster firm, which is a wholly-owned subsidiary of one of the selling stockholders, will not participate in the sale of the outstanding stock.

The company is a holding company whose assets consist of all the ordinary shares and certain other securities of Jamaica Public Service Co., Ltd., an operating electric utility on the Island of Jamaica, West Indies. The net proceeds from the company's sale of additional stock will be used to acquire ordinary shares of the operating company, which will apply such funds towards its 1962 construction program (estimated at $4,480,000). In addition to various indebtedness and preferred stock, the company has outstanding 891,000 shares of common stock (after giving effect to a recent 2-for-1 stock split), of which Stone & Webster, Inc. and Stone & Webster Canada Ltd. own 336,446 (37.8%) and 14,092 shares, respectively. They propose to sell 100,908 and 14,092 shares, respectively. Robert H. Willis is President. —V. 195, p. 402.

Jays Creations, Inc.—Common Registered—

The company of 254 W. 35th St., New York, filed a registration statement with the SEC on March 30 covering 80,000 shares of common stock, to be offered for public sale at $4 per share. The offering will be made on an all or none basis by Seymour Blauner Co., 111 Broadway and Wm. Stix Wasserman & Co., Inc., 40 Wall St., both of New York, which will receive a 40 cents per share commission and 36,000 for expenses. The statement also includes 6,000 shares sold to the underwriters at one cent each, and 2,000 shares to Irving Edelman, a finder, at that price. A $7,500 finder's fee is payable to Blair & Co.

The company is engaged in the design, manufacture and sale of a low-priced line of blouses, coordinated blouse and skirt sets, coordinated blouse and pants sets, and dresses which are principally designed for casual wear by girls and young women in their teen and twenties. It sells its products primarily to women's variety chain stores and discount centers. The $255,000 estimated net proceeds from the stock sale will be added to working capital and may be used for acquisition of other businesses and/or plant facilities, expansion of staff and production facilities, or expansion of various product lines. The company has outstanding 128,000 shares of common stock, of which Sidney Zipper, President, owns 93.75%.

Jupiter Corp.—Preferred Stock Registered—

The company of One North La Salle St., Chicago, filed a registration statement with the SEC on March 30 covering 51,260 outstanding shares of no par $1.50 cumulative convertible preferred shares (and 51,260 common shares underlying such stock). Such stock may be offered for public sale by the holders thereof from time to time in the Over-the-Counter Market (or in the case of the common stock, over the American Stock Exchange) at the then prevailing prices. Such preferred shares were issued by the company in March 1962 to certain stockholders of Commonwealth Oil Co., of Florida, upon that company's merger with and into the company. A total of 539,899 preferred shares were issuable to Commonwealth stockholders under the merger plan, and 1,074,213 common shares to holders of Jupiter common.

The company was organized under Delaware law in July 1961 and in December succeeded to all the assets and assumed the liabilities of Jupiter Oils Ltd., of Alberta, Canada. The predecessor was organized to explore for, produce, and market oil, natural gas, and other minerals, and has diversified its holdings and expanded activities into the printing, commercial real estate, and gas gathering businesses. Commonwealth was engaged in the operation of a gas gathering system off the coast of Vermilion Parish, La., and also in oil and gas drilling and exploration in Louisiana and Texas. The prospectus states that the oil operations have not been consistently profitable and there is no assurance the expanded operations will prove commercially successful. Combined operations resulted in a net loss (pro forma combined net income of the printing division, plus oil operations, plus operations of several motels) of $426,395 for the year ended Dec. 31, 1960, and of $61,726 for the nine months ended Sept. 30, 1961. As of Sept. 30, 1961, $7,269,992 in assets of the company were pledges as security for aggregate indebtedness, in the amount of $4,227,181 arising principally from the acquisition of properties.

In addition to its indebtedness, the company has outstanding 4,501,621 shares of common stock, of which management officials as a group own about 10%. Jerrold Wexler, President, will own 649,043 shares after acquisitions by the company, of certain printing and real estate holdings in which he has interests. Pursuant to the plan of merger, the company's common stock will undergo a 1-for-5 reverse split. John H. Blaffer, a director of Commonwealth, G. Burton Liese, its President, and the Profit Sharing Plan & Trust of Commonwealth will receive 122,550, 133,090 and 11,260 preferred shares respectively, by virtue of their holdings in Commonwealth. They propose to sell 20,000 20,000 and 11,260 shares, respectively.

Keene Packaging Associates—Common Registered—

The company of 947 Newark Ave., Elizabeth, N. J., filed a registration statement with the SEC on April 2 covering 165,000 shares of common stock, of which 100,000 shares are to be offered for public sale by the company and 65,000 shares, being outstanding stock, by the holders thereof. The offering will be made at $4 per share through underwriters headed by Hardy & Co., 25 Broad St., New York, which will receive a 40 cents per share commission and $10,000 for expenses. The statement also includes (1) 13,500 shares underlying 5-year warrants to be sold to the underwriter at 1 cent each, exercisable at $4 per share, and (2) 6,500 outstanding shares underlying a 5-year option to be sold by one of the selling stockholders to Alvin A. Schwartz for $65, as a finder's fee, exercisable at $4 per share.

The company's business consists principally of the design and manufacture of semi-rigid vinyl plastic cases and containers for packaging such consumer products as small home appliances, electric shavers and cosmetics. Almost all of the products manufactured by the company are sold to other manufacturers or distributors for the packaging or display of their products. Of the net proceeds from the company's sale of additional stock, $100,000 will be used to repay a bank loan incurred to carry increased inventory and accounts receivable and the balance for plant expansion and purchase of equipment, for research and development, and for working capital and general corporate purposes. In July 1961 the company purchased 45% of its common stock from Nicholas M. Altman and members of his family and Rensal Packaging Associates, of New Jersey, purchased a like amount of its stock from the Altmans, for an aggregate purchase price of $105,966. In March 1962, the company acquired all of the stock of Keene Associates in exchange for 40,000 common shares. Robert Keene, company President, owned 50% of the stock of Keene Associates. In March, 1962, the stockholders of Rensal donated their stock to the company. Keene and two other officers owned all the stock of Rensal and the company. In addition to certain indebtedness, the company now has outstanding 275,000 shares of common stock (after giving effect to said acquisitions and a recent recapitalization), of which Keene owns 84.5% and management officials as a group 92.7%. Keene proposes to sell 60,000 shares; and Edgwin Polk, Vice-President, and Antonio LaGrassa, Secretary, propose to sell 3,000 and 2,000 shares, respectively, of 13,500 and 9,000 shares owned, respectively. As a result of the sale of new stock to the public, the selling stockholders will receive $234,000 in cash (before their expenses) for stock which then had a book value of $54,288 and the book value of their remaining stock will have been increased from 84 cents per share to approximately $1.55 per share and their equity will have been increased (before the company's share of the expenses of this issue) from $175,388 to approximately $330,000. The public will receive a 43% equity interest amounting to approximately $259,000 (before the company's share of the expenses of this issue) for an investment of $660,000.

The company is engaged in the construction and surfacing of roads, parking lots and driveways, the sale of liquid asphalt, and the production and sale of asphaltic concrete, ready-mixed concrete, sand, gravel and crushed stone. Of the net proceeds from the debenture sale, together with the proceeds from the sale to an insurance company of $1,000,000 of 6% promissory notes due 1974 and warrants to purchase 50,000 shares of common stock, $590,000 will be used to repay various long-term indebtedness (of which approximately $156,000 was incurred within one year to construct additional facilities and purchase equipment and $90,000 to provide additional working capital); $340,000 will be used to complete the purchase of an asphaltic concrete plant at Eyram, Conn. (presently leased by the company), and $50,000 will be used to repay a short-term bank loan incurred to provide funds for the down payment on said purchase and the balance will be added to working capital to be used for general corporate purposes. In addition to various indebtedness, the company has outstanding 409,893 shares of common stock, of which William H. Peckham, Board Chairman and President, owns 20.8% and Elizabeth S. Peckham, his wife, 18.9%. Management officials as a group own 41.9%.

Penn Square Corp.—Class A Common Registered—

The company of 6 Penn Center Plaza, Philadelphia, filed a registration statement with the SEC on Mar. 30 covering 60,000 shares of class A common stock, to be offered for public sale at $4 per share. The offering will be made on a best efforts basis (all or none as to first 30,000 shares) by Robert M. Harris & Co., Inc., of the Penn Center Plaza address, which will receive a 40 cents per share commission and $7,200 for expenses.

Organized in October 1961, the company intends to engage primarily in providing management and financial consulting services to businesses and in development and marketing ideas and products deemed by the company to have adequate profit potential. The prospectus states that by reason of competition and other factors no assurance can be given that the company's operations will be profitable or successful, and any investment therein may be deemed a speculation. Of the net proceeds from the stock sale, $41,000 will be used to equip and supply an office and for office rental, for salaries, advertising and promotion, and for legal and accounting services. The balance will be added to working capital. The company has outstanding 30,725 class A (acquired at $1.50 per share) and 25,000 class B shares (acquired for an aggregate of $2,500). Isadore Katz owns 22.78% of the class A and management officials as a group 34.17%. Of the outstanding class B stock, Robert M. Harris, President, and Allen S. Hendler, Vice-President, own 80% and 20%, respectively. The underwriter and company are both under common control, and the company's offices are presently located in the offices of the underwriter. Sale of new class A shares to the public at $4 per share will result in an increase in the book value of class A shares now outstanding from $1.50 to $2.59 per share, an increase in the book value of class B shares from 10c to $1.19 per share, and a dilution of $1.41 per share in the book equity of class A stock purchased by the public.

The $338,000 estimated net proceeds from the stock sale will be used to expand a California subsidiary, for research and product development, advertising and promotion, additional inventory and additional working capital. In addition to certain indebtedness, the company has outstanding 135,000 shares of common stock (after giving effect to a recent 300-for-1 stock split), of which David Zurit, President, and Rose Zurit own 59% and 38%, respectively. Sale of new stock to the public at $4 per share will result in an increase in the book value of stock now outstanding from $1.64 to $2.23 per share and a corresponding dilution of $2.77 per share in the book equity of stock purchased by the public.

Verlan Publications, Inc.—Common Registered—

The company of 915 Broadway, New York, filed a registration statement with the SEC on March 30 covering 89,500 shares of common stock, of which 80,000 shares are to be offered for public sale by the company and 9,500 shares, being outstanding stock, by Seymour D. Uslan, President and sole stockholder. Searight, Ahalt & O'Connor, Inc., 115 Broadway, New York, heads the list of underwriters. The public offering price (maximum $5.50 per share) and underwriting terms are to be supplied by amendment. The statement also includes 10,000 outstanding shares to be sold to the underwriter by the selling stockholder at $1.50 per share, and 2,000 shares at a like price to Steve Thomas, finder.

The company (formerly Verlan Books, Inc.) is engaged in the preparation and production, but not the publication, of books, catalogues and other printed material. A subsidiary publishes photography books. Of the net proceeds from the company's sale of additional stock, $150,000 will be used to extend activities to the publication of books and manuals in the electronic field and/or other technical and non-technical fields, and the balance to pay trade accounts payable and other current liabilities, to expand activities through possible acquisitions, and for general corporate purposes. The company has outstanding 194,750 shares of common stock (after giving effect to a recent recapitalization whereby such shares were issued in exchange for the 140 shares then outstanding), of which Uslan owns 100%. As indicated, he proposes to sell 9,500 shares (and 12,000 shares to the underwriter and finder). Book value of stock now outstanding is 52 cents per share.

Video Color Corp.—Common Registered—

The company, of 729 Centinela Boulevard, Inglewood, Calif., filed a registration statement with the SEC on April 6 covering 1,000,000 shares of common stock, to be offered for public sale at $1.15 per share. The offering will be made on a best efforts all or none basis by Naftalin & Co., Inc., 207 South Sixth Street, Minneapolis, which will receive a 15c per share commission.

The company was organized under Minnesota law in February, 1962, primarily to engage in development, manufacture and distribution of thin "black and white" and color picture tubes. It has not completed production of a prototype at the present time. Tubes will be designed for use in various display devices in the industrial and government fields as well as for the home television sets. The company does not plan to manufacture tubes for home TV sets but will attempt to license other manufacturers in the production of tubes for home color television sets, and will attempt to sub-contract the manufacture of black and white television tubes for the home market. Of the $974,000 estimated net proceeds from the stock sale, $230,000 will be used to purchase and install laboratory and production equipment, $210,000 to pay salaries, and the balance for general and administrative expenses and for general corporate purposes.

The company now has outstanding 280,000 shares of common stock, of which 205,000 shares were sold to 12 incorporators at $1 per share, and 75,000 shares were issued in equal amounts to Harold W. Berger, President, and C. William Geer, Vice-President, in exchange for an assignment to the company of certain patent rights owned jointly by them. The total development costs of such patent rights, according to the prospectus, is estimated at $300 and the expenses incurred in obtaining and protecting the patent rights is estimated at $23,600. If all shares offered hereby are sold, officers, directors and incorporators will own 280,000 shares, or 21.9% of the outstanding shares, for which they will have paid cash in the sum of $205,000, and the public will own 1,000,000 shares, or 78.1%, for which it will have paid cash in the sum of $1,150,000.

Welsh Panel Co.—Common Registered—

The company whose address is P. O. Box 329, Panel Way, Longview, Wash., filed a registration statement with the SEC on Mar. 30 covering 135,000 shares of common stock, to be offered for public sale through underwriters headed by Robert L. Ferman & Co., 1104 Ainsley Building, Miami, Florida. The public offering price (maximum $9 per share) and underwriting terms are to be supplied by amendment. The statement also includes 27,000 shares underlying five-year warrants sold to the underwriter at one cent each, exercisable at the public offering price.

The company is engaged primarily in the processing of plywood sheets into factory finished wall panelling for sale to distributors under the name "Welshtone" and "Century-21." The company also custom processes and finishes wall panels for plywood manufacturers for sale under their own name. Of the net proceeds from the stock sale, $225,000 will be used to purchase and install production machinery in an additional manufacturing plant to be leased at Longview, Washington, $150,000 for inventories for this plant, $100,000 to increase inventories of imported Lauan plywood for the present Longview plant, $150,000 to purchase machinery and equipment for a new plant to be leased in the New York area, $125,000 to purchase raw material inventories for this plant and the balance will be added to working capital for reduction of bank factoring of accounts receivable and for other purposes. In addition to certain indebtedness and preferred stock, the company has outstanding 200,000 common shares.

Western Lithographers, Inc.—"Reg. A" Filing—

The corporation on March 30, 1962 filed a "Reg. A" covering 120,000 common shares (par 50c) to be offered at $2.50, through Copley & Co., Colorado Springs, Colo.

Proceeds are to be used for equipment, debt repayment and inventory.

Western of 3407 N. El Paso Colorado Springs, Colo., is engaged in general printing and lithography.

Western Massachusetts Electric Co.—Bonds Registered

The company of 174 Brush Hill Ave., West Springfield, Mass., field a registration statement with the SEC on April 5, covering $3,000,000 of first mortgage bonds, series E, due 1992, to be offered for public sale at competitive bidding. The net proceeds from the bonds sale, together with some $650,000 of additional funds of the company, will be used to redeem $8,000,000 of the company's 5¾% first mortgage bonds now outstanding (series D, due 1989), the redemption price being 106.75% plus interest to date of redemption.—V. 195, p. 1708.

(Edwin L.) Wiegand Co.—Common Registered—

The company of 7500 Thomas Boulevard, Pittsburgh, Pa., filed a registration statement with the SEC on March 30 covering 606,450 outstanding shares of common stock, to be offered for public sale by the holders thereof through underwriters headed by Eastman Dillon, Union Securities & Co., 15 Broad St., New York, and two other firms. The public offering price (maximum $30 per share) and underwriting terms are to be supplied by amendment.

The company manufactures and distributes electric heating elements for industrial, commercial and domestic use, electric processing ovens and electric heat transfer systems for industry, and high temperature alloy tubing. Most of its products are marketed under the trade name of "Chromalox." Tubing is marketed under the trade name "Greenville". The company has outstanding 2,119,757 shares of common stock, of which Edwin L. Wiegand, board chairman, owns 27.3% and management officials as a group 48.6%. The prospectus lists 36 selling stockholders including Wiegand, who proposes to sell 172,610 shares. Ernest N. Calhoun, president, Albert P. Wiegand, senior vice-president, and Ann K. Wiegand own 200,000, 126,491 and 168,140 shares, respectively, and propose to sell 100,000, 100,024 and 50,000 shares, respectively; and others propose to sell amounts ranging from 40 to 50,000 shares.

Wiener Shoes, Inc.—Common Registered—

The company of 808 Dakin St., New Orleans, La., filed a registration statement with the SEC on April 2, covering 60,000 shares of common stock, to be offered for public sale through underwriters headed by Howard, Weil, Labouisse, Friedrichs & Co., 211 Carondelet St., New Orleans. The public offering price (maximum $11 per share) and underwriting terms are to be supplied by amendment. The statement also includes 10,000 shares underlying five-year warrants to be issued to the underwriter, exercisable initially at the public offering price.

The company was organized under Louisiana law in March, 1962, as the successor to the retail and wholesale operations previously conducted by Abe Wiener & Company, a family partnership organized in 1945, and ten corporations (now subsidiaries) all of the stock of which was owned by Abe Wiener, President, and his immediate family. The company (through the subsidiaries) presently operates 12 retail shoe outlets in New Orleans and Baton Rouge, of which five are self servicing operating under the name "Shoe Town," three are self-service leased departments in department stores and four are conventional retail shoe outlets. The company issued 160,000 common shares for the assets of said partnership and stock of said corporations. Of the net proceeds from the stock sale, $220,900 will be used to pay bank loans incurred by the predecessor partnership for working capital, and the balance will be used for a contemplated expansion program and working capital.

In addition to certain indebtedness, the company has outstanding the 160,000 common shares, of which Abe Wiener, N. Sidney Wiener, Vice-President, Sander N. Wiener and Merle Wiener Aronson own 26.6%, 25.6%, and 22.2%, respectively.

Abacus Mines, Ltd.—Merger—Name Change Apprvd.

Abacus Mines and Realty, Ltd., is the name under which the recently merged companies of Abacus Mines, and The First Naples Corp. will operate, President Clifford Anderson announced.

The merger of First Naples, a Florida real estate firm specializing in Collier County acreage, into Abacus, a Canadian company listed on the Toronto Stock Exchange, was approved by Abacus stockholders at their annual meeting in Toronto March 30.

The new company will deal primarily in Florida real estate, with planned future expansion into land development and community development.

Anderson, now majority stockholder, has been named President of Abacus Mines and Realty, Ltd., with Miami Attorney Robert H. Slatko as Secretary-Treasurer.

As principal owner of First Naples, Anderson, whose Miami realty office is located at 210 N. W. 42nd Avenue, received 4,846,000 shares of Abacus stock in the merger. These were in addition to 275,000 previously purchased shares.

Anderson said that initial activity of Abacus Mines and Realty, Ltd. will center around sales of 2,302 acres of Collier County property, which formed the largest part of the $2,900,000 in assets acquired by Abacus in the merger.

Almo Industrial Electronics, Inc.—Class A Stock Offered—An investment banking group headed by C. C. Collings & Co., Inc., and Harrison & Co., Philadelphia, offered publicly on April 12 a new issue of 155,000 shares of $1 par value class A stock of Almo Industrial Electronics at $5.00 per share.

BUSINESS—The company of 412 N. 6th St., Philadelphia, is a wholesaler and distributor of electronic parts, components and equipment which are manufactured by others and sold by the company primarily to industrial customers for the manufacture of products and for research and development.

PROCEEDS—Net proceeds from sale of the class A stock will go to the company and will be used for debt reduction, increased inventories and for working capital.

REVENUES—For the five months ended Jan. 31, 1962, net sales amounted to $1,020,803 compared with $759,978 in the comparable period a year ago. Net income for the five months to Jan. 31, 1962 was $36,963 compared with $25,001 a year ago. Figures for both periods are unaudited. For the fiscal year ended Aug. 31, 1961, net sales were $1,899,741 and net income $67,300.

CAPITALIZATION—Following completion of this financing, capitalization will consist of $250,000 5% note due Aug. 31, 1972; 170,000 shares of class A stock and 70,000 shares of class B stock.—V. 194, p. 2438.

American Bank Stationery Co.—Common Offered—On April 12, 1962, Robert Garrett & Sons, Baltimore, Md., offered publicly at $14.25 per share, 21,000 shares of this firm's common stock. Net proceeds will be used by the company to purchase new equipment and machinery.

BUSINESS—Since its founding in 1914 the company, presently located at 7501 Pulaski Hwy., Baltimore County, Md., has been in commercial production and has continually expanded both its sales and service coverage. In 1925 the company established one of the first branch plant operations in the industry for the individual production and imprinting of business checkbooks, the branch being located in Philadelphia. Presently, the company's products are sold extensively throughout the eastern United States. To service its accounts the company and its wholly owned subsidiaries operate six branch plants located in Mineola, N. Y.; Philadelphia and Pittsburgh, Pa.; Pennsauken, N. J.; Charlotte, N. C. and Jacksonville, Fla.

The company is primarily engaged in the design and manufacture of checks and other stationery for financial institutions. Its principal product is the imprinted check. In addition, the company also produces pass books, ledger cards, signature cards, letterheads, envelopes, financial statements, checkbook covers, payroll checks and voucher checks. These products are sold directly to banks, savings and loan associations and commercial companies.

PROCEEDS—Net proceeds to the company, estimated at $1,753,000, will be used for the repayment of debt, sales promotion, property improvements and working capital.

BUSINESS—The company was incorporated under the laws of Oklahoma on Dec. 27, 1955 as "Great Sweet Grass Oils Co.", and has operated oil and gas properties in Oklahoma since its organization. The principal executive offices of the company are at 16 West 61st Street, New York, N. Y. Prior to August 10, 1961, the company was a wholly owned subsidiary of Great Sweet Grass Oils Limited ("Limited"), an Ontario corporation. The company has no affiliation with Limited except that three of the company's present ten directors were designated by Limited, and Limited has certain rights concerning the designation of one additional director.

Prior to 1958 Limited was the subject of investigations and other proceedings initiated by the Securities and Exchange Commission, the Attorney General of the State of New York and certain other governmental bodies, which investigations and proceedings related to the issuance and sale of certain securities of Limited, by Limited and its then controlling persons. Subsequently new management of Limited (consisting of persons not affiliated with the Rainbow Companies) took office. During 1958 and for several years thereafter, Limited was subject to several proxy fights and various litigation, and substantial portions of the costs thereof were charged to the company, which was then a wholly-owned subsidiary of Limited. During 1961 the principal stockholders of the Rainbow Companies entered into arm's-length negotiations with the new management of Limited for the sale of the Rainbow Companies to the company, and as a result of such negotiations, the merger-acquisition was affectuated. Three of the present directors of the company are designees of limited. However, all three were part of the new management of Limited and were not officers or directors of Limited during the periods in which its difficulties arose. Each officer and director of the company has stated under oath that neither Samuel Ciglen nor Morris Elack (who allegedly participated, either as controlling persons of Limited or otherwise, in the improper issuance and sale of securities of Limited and were enjoined from engaging in the securities business in the State of New York) has any control or influence, directly or indirectly, over the management and affairs of the company.

On August 10, 1961, the name of the company was changed to American Realty & Petroleum Corp. At that time, fifteen Florida corporations (the "Rainbow Sales Companies") were merged into the company, and the company acquired all of the outstanding stock of fifteen other Florida corporations which own the Rainbow Lakes Estates (the "Rainbow Land Companies"), and all of the stock of Rainbow Lakes Estates Homes, Inc. (the "Construction Company"). The Rainbow Sales Companies, the Rainbow Land Companies and the Construction Company are collectively referred to herein as the "Rainbow Companies". Upon completion of the merger-acquisition, Limited owned 500,000 shares and the former stockholders of the Rainbow Companies owned an aggregate of 2,000,000 shares of the company's common stock, par value 10 cents per share. After the merger-acquisition in 1961, Limited distributed its 500,000 shares of such stock to its shareholders.

Botany Industries, Inc.—Debenture Issue Approved—

On April 10 stockholders approved a plan for long-term financing totaling $15 million.

The plan authorizes the issuance of convertible obligations by Botany upon terms and conditions approved by the board of directors and an amendment to the certificate of incorporation authorizing 1,000,000 additional shares of common stock.

Of the one million additional shares, raising the authorized total of common stock to five million shares, 650,000 to 750,000 are designed to be used upon conversion of the debentures.

The remaining 250,000 to 350,000 shares are not for immediate use and will be held for use as required in the best interest of the company, stated A. M. Sonnabend, Board Chairman.

In other action, the stockholders approved a change in date of the annual meeting to the last Tuesday in October at any place in New Jersey or New York City and extended the terms of office of the present directors until the election at the next annual meeting in October with the exception of Arnold A. Saltzman, who resigned.

Michael Daroff, Botany President, in a special report, told the stockholders that indications are that the sales volume of the January-March quarter will be approximately $27 million, a 35% increase over the comparable period ending March 31, 1961.—V. 195, p. 1207.

Brentwood Financial Corp.—Common Offered — On April 10 a group headed by Hayden, Stone & Co., Inc., New York City, offered for public sale 150,000 shares of this firm's common stock at $12 per share. Of the offering, 30,000 shares are being sold for the company and 120,000 for the account of certain stockholders.

PROCEEDS—The company proposes to use its proceeds to finance expansion of direct operations and through acquisitions of other companies in its field.

BUSINESS—The company, incorporated in November, 1961, has acquired all the outstanding guarantee stock of Brentwood Savings and Loan Association which has been engaged since 1924 in the savings and loan business in and around Monrovia, Calif., near Los Angeles. In 1961, Brentwood Savings and Loan Association merged with Monrovia Mutual Savings and Loan Association.

REVENUES—A pro forma statement of Brentwood Financial for the year ended Dec. 31, 1961, shows income of $2,892,405 and net earnings, before appropriations to general reserves, of $791,346 equal to 66 cents per share on 1,200,000 shares outstanding before the offering.

British American Oil Co. Ltd.—Earnings Higher—

The company's consolidated net earnings for 1961 amounted to $32,636,000, or $1.59 per share, compared with $30,803,000, or $1.51

per share in 1960, E. D. Loughney, President, states in the company's annual report. The improvement in earnings was attributable entirely to higher production earnings in Canada and the United States. Although the volume of refined product sales increased 5%, there was a further decline in earnings from this source.

In commenting on the industry's future, Mr. Loughney said that the outlook for natural gas is most encouraging. "It is estimated that 1962 sales will increase by at least 35%, exceeding 2.1 billion cubic feet per day, as existing domestic markets continue to expand and the authorized U. S. exports reach full-scale deliveries," he predicted. Production of crude oil and natural gas liquids in Canada should average some 720,000 barrels per day in 1962. In contrast with the pattern of 1961, it is expected that the greater part of this 75,000 barrels daily increase in 1962 will result from expansion in Canadian markets, reflecting the impact of a full year's operation of supply arrangements made in the Ontario refining area during 1961. Refining and marketing activities in 1962 will continue at a high level with volume increases estimated at slightly more than 5%.—V. 194, p. 973.

British Columbia Power Corp., Ltd.—Annual Report—

The corporation, until eight months ago owned a large scale multiple public utility operation. The British Columbia Electric Co., Ltd., in which it held all of the common shares, had more than 5,000 employees.

The "B. C. Power" organization, says A. Bruce Robertson, Q. C., Chairman, in submitting the annual report, dated as of 13 March 1962, now consists of a Board of Directors and a staff of 14 who have as their main objective the obtaining of fair compensation for the expropriation of the Electric Company on August 1, 1961 by the Province of British Columbia as well as carrying on the daily affairs of the corporation.

In submitting the report of directors, Mr. Robertson calls attention to the striking manner in which the financial statements bring out that $110,985,045, the amount tendered by the B. C. government for the B. C. E. common shares, an amount described in the act as "paid-up value", is shown as falling short by some $74,000,000 of the book equity of the shares. The Chairman stresses that book equity and fair value are different measures, and that fair value as shown by an appraisal by a firm of independent evaluators was not less than $225,000,000.

Fair value, as thus determined, exceeded book value by $40,000,440 and exceeded the amount tendered by not less than $114,000,000, Mr. Robertson emphasizes.

The report notes that the act of expropriation provided that B. C. Power might, upon making a "request or demand", be entitled to an amount of $68,612,873 for all its remaining assets.

Directors chose to seek better compensation based on fair value. Accepting the $110,985,045 without prejudice and armed with the independent valuation, B. C. Power sought to arrange a negotiated settlement. These efforts proving futile, action was taken to test validity of the expropriation act in the courts. The courts were asked that, should the act be found valid, fair value should be determined by the courts.

The now government-owned B. C. Electric Co. refused its former owner's (B. C. Power's) request for copies of B. C. Electric audited accounts for the seven months to July 31, 1961. As a result, except for dividends actually received from B. C. Electric while still a subsidiary, the earnings of B. C. Electric are not reflected in the B. C. Power statement.

The statement shows B. C. Power gross income at $5,313,632, of which $3,875,182 accrued in the seven months prior to B. C. Electric expropriation and $1,438,450 in the five months after the take-over. Net income for 12 months of 1961, after expenses, is shown at $4,260,551, made up of $3,728,148 earned in the first seven months and $532,403 in the balance of the year.

The consolidated balance sheet at Dec. 31, 1961 reflects the repayment to share owners on Dec. 30, 1961 of $89,236,606, being part of the paid-up capital. After this payment, current assets were $32,351,055, against which were current liabilities of $917,313. Total assets of $34,845,301 include also $1,228,176 of investments, $1,246,070 in property and $20,000 in mortgages and other deferred accounts receivable.

An amount of $44,456,009 representing the total of deferred taxes on income accumulated in years prior to 1961, shown previously as a deferred credit, had been transferred to consolidated earnings employed in the business.

For each of the first two quarters of 1961 dividends at 40 cents per share were declared.

In explaining the effect of the government take-over on returns to shareholders, Mr. Robertson points out that before the expropriation of B. C. Electric, the electric company had, to all intents and purposes, been the sole source of income of the Power Corp.—V. 194, p. 1380.

Brown Engineering Co., Inc.—Appointment—

The Chase Manhattan Bank has been appointed transfer agent for the common stock of the corporation.—V. 195, p. 1660.

Brunswig Drug Co.—Common Offered—On April 5, 1962, William R. Staats & Co., Los Angeles and associates offered publicly 85,000 shares of this firm's outstanding common stock at $16.75 per share. Proceeds from the sale will go to the selling stockholders.

BUSINESS—The company, incorporated in California on Nov. 14, 1902, has its general offices at 4701 South Santa Fe Ave., Vernon (Los Angeles 58) Calif. Serving California, Arizona, Nevada, Utah, Southern Idaho and Western Wyoming, the company is now the second largest wholesale drug distributor in the United States in terms of annual dollar sales volume.

Appointment—

Bankers Trust Co., New York City, has been appointed transfer agent for class A and class B common stock of the corporation.—V. 195, p. 1660.

Budget Finance Plan—Net Higher—

Budget Finance released its 1961 Annual Report to its stockholders. Chairman of the Board and President Charles S. Offer drew particular attention to the highlights of the company in 1961.

The earnings in 1961 were $1.13 per share on the common stock compared with $.67 per share for 1960, after exclusion of nonrecurring gains. This constituted a record performance for Budget Finance. For the first time in its history, Budget Finance Plan's operating profits exceeded $1,000,000.

Net operating profit for 1961 amounted to $1,004,427 as compared with $753,696 for 1960, after excluding $377,948 of nonrecurring profit from the sale of the company's Connecticut offices in the year 1960.—V. 195, p. 1423.

(H. M.) Byllesby & Co.—Net Up Almost 400%—

A fourfold increase in net income in 1961 was reported in the annual report of H. M. Byllesby, Chicago-based investment banking firm.

Net income after taxes and drilling and development costs of Byllesby's oil and gas properties were $909,720, almost four times the 1960 net income of $228,275.

Arthur S. Bowes, Chairman, and John C. Lobb, President, in a message to stockholders, pointed out that the company's net asset value applicable to common stock had increased 37% during the year to a total of $19,595,497. Since 1958, Byllesby common stock net asset value has climbed from $5,662,802, he reported.—V. 195, p. 1094.

Carmer Industries, Inc.—Appointment—

Irving Trust Co., New York City has been appointed registrar for the common stock of the corporation.—V. 195, p. 1551.

Certified Industries Inc.—Rights Offering to Stockholders—The company is offering its class A and B stockholders the right to subscribe in units to $400,000 of 6% convertible subordinated debentures due April 30, 1977 (with immediately exercisable warrants) on the basis of one unit for each 50 shares held of record April 6, with rights to expire April 27. Each unit, priced at par and accrued interest consists of a $250 debenture with warrants entitling the holder to purchase for cash, up to Sept. 1, 1962, five shares of class A stock at $6.25 a share.

Singer, Bean & Mackie, Inc., the underwriter, is also offering $350,000 of the debentures and warrants to the public at par and accrued interest from April 30, 1962.

PROCEEDS—Net proceeds will be used by the company to defray the expenses of the offering, complete a kiln for Northern Lightweight Aggregate, Inc., a subsidiary, repay loans, and purchase additional equipment.

BUSINESS—The company of 344 Duffy Ave., Hicksville, L. I., N. Y., is engaged in the business of producing and supplying concrete for use in diverse types of construction, including single and multiple family residential housing, commercial and industrial buildings, and governmental and institutional projects such as highways, bridges, sewers, airports, hospitals and defense installations. The company also mines and processes for its own use, as well as for sale, sand, gravel and grit, known as "aggregates"; the basic ingredients along with cement and water necessary to produce concrete. In addition the company has recently entered the field of quarrying, manufacture and sale of expanded shale, a light-weight aggregate sold by the company under the trade name "Norlite". The company also operates a retail discount business offering home owners an extensive line of lumber and building supply products, and sells a selected line of such products to the construction trades at wholesale. The company and its predecessors has been engaged in the distribution of building supplies since 1946 and in the production and sale of concrete and mining and processing of aggregates since 1947.

The company is the largest supplier of concrete on Long Island, New York. While no figures have been made public, the company believes that it does not less than 50% of the transit mix business on Long Island. The remaining 50% is divided among 12 competitors. The foregoing statements are based upon the number of company's transit mix trucks compared to the known number of such trucks of its competitors in use on Long Island.

In addition to sales in the local area, the company, by use of portable batch plant facilities, has been able to supply concrete for use in highway, airport and bridge construction projects in Florida, New Jersey, New York, Illinois and Pennsylvania. A batch plant is a compartmented steel structure used to store, weigh, and blend materials in correct proportions to produce concrete according to specifications. Currently, the company is suplying concrete for a section of the Long Island Expressway from an on-site plant. The company has recently executed two contracts to supply substantial amounts of concrete; one for approximately 12 miles of the New York State Northway near Saratoga, New York and the other for approximately 6 miles of the Hecksher State Parkway in Eastern Long Island. The company is also a joint venture with M. F. Hickey Co., a subsidiary of American Cement Corp., in supplying over 170,000 cubic yards of concrete for the Staten Island Anchorages of the Verrazano-Narrows Bridge, which, when completed, reputedly will be the longest suspension span in the world.

Clairtone Sound Corp., Ltd.—Acquisition—

This Toronto, Ont., stereo hi-fi firm has acquired its own furniture manufacturing facilities through purchase of the Middlesex Furniture Co., Ltd. of Strathroy, Ont., David Gilmour, Clairtone's executive vice-president, announced.

The Middlesex acquisition, coupled with the recent move of Clairtone's Toronto home office and assembly plant to a new 40,000 square foot building in Rexdale, Ontario, furnishes the firm with sufficient facilities to handle $10 million in annual sales on a single shift production basis. Clairtone's consolidated sales have at least doubled each year since incorporation in 1958 and, after reporting $3,523,000 total sales for 1961, is aiming this year for $7.5 million.

Middlesex, specializing in the manufacture of contemporary and traditional furniture, is a wholly-owned subsidiary of Strathroy Industries, Ltd., which has been purchased outright by Clairtone on a cash arrangement without involving Clairtone stock. The acquisition was made after a three-year study of furniture manufacturing in Canada satisfied Clairtone executives that the Strathroy firm could best provide the consistent handcrafted quality needed. The move is part of a planned program of vertical integration by Clairtone; as a result, the Canadian firm is one of the few stereo hi-fi manufacturers in North America with its own furniture production facilities. —V. 193, p. 2664.

Clark Cable Corp.—Sales Up 24%—

Sales of this Cleveland firm increased approximately 24% during the fiscal year ended Jan. 31, 1962, to a new record of over $5,200,000 on the basis of preliminary figures, W. S. Beckenbach, Vice-President, said in an interim report to shareholders.

Net profit for the Cleveland-based supplier of electronic, electrical and mechanical equipment for industry and the Department of Defense will approach $210,000, an increase of 26% over the previous record of $166,453.73 set during the 1960 fiscal year, Mr. Beckenbach said. Sales for fiscal 1960 totalled $4,205,084.—V. 193, p. 700.

Clopay Corp.—Earnings Up 29%—

Clopay in 1961 earned $609,397 before income taxes, or 29% in excess of the $472,498 pretax earnings of 1960. Net income of $295,583 was earned after all charges and taxes, or 40 cents a share on 731,496 common shares, compared with the $248,773, or 32 cents a share, earned a year earlier. Net sales were $10,133,374, or 4.8% above 1960's $9,665,227. The company's 1961 depreciation charges totalled $177,616, or 24 cents a share, and the year's expenditures for capital additions and replacements aggregated $228,963, or 70 cents a share. —V. 195, p. 1208.

Coca-Cola Co.—Additional Advertising Scheduled for Summer—

The company has just completed arrangements for $1,500,000 of additional advertising to be scheduled during the months of June, July and August. Added to commitments for bottler-company advertising already scheduled for these months, the total program represents the most extensive advertising campaign for Coca-Cola for a similar period in its history.

In making the announcement Lee Talley, chairman of the board and president of Coca-Cola commented that, ". . . in all probability, it represents the heaviest advertising expenditure ever placed against any product at any time during a comparable period."

Th additional summer expenditure will be divided approximately as follows: $900,000 in night-time network television on 11 shows, $250,000 in day-time television on eight shows and $350,000 in national magazines.—V. 195, p. 1208.

Cole National Corp.—Sales Up 24%—

Sales of Cole National climbed to a new high of $14,484,361 during 1961, an increase of 24% over the preceding year's total of $11,659,982, Joseph E. Cole, President, said in the annual report to shareholders.

Net profits, making a sharp recovery during the second half of the year, established a new record of $844,483, a gain of 16% over the previous peak of $725,121 in 1960.

Earnings per share were $1.15, based on an average of 734,580 shares outstanding during 1961. This compared with $1.06 for 1960, based on an average of 683,459 shares outstanding during that year. —V. 195, p. 863.

Colonial Stores Incorporated—Quarterly Sales Up 1.4%—

The company reported sales of $101,145,683 for the first quarter of 1962, an increase of 1.4% over the $99,728,857 recorded in the first quarter of 1961. Colonial had 445 supermarkets in operation at the end of the first quarter of 1962 compared with 447 at the same time a year ago. The 1962 quarter ended on March 24, the 1961 quarter ended on March 25.—V. 195, p. 1314.

Conductron Corp.—Class A Common Offered—McDonnell & Co. and Halle & Stieglitz, New York City, jointly headed an underwriting group which offered for public sale on April 11, 125,000 shares of this firm's class A common stock at $12 per share.

BUSINESS—The company of 343 S. Main St., Ann Arbor, Mich., was formed around a group of scientists and engineers, many of whom were associated with The University of Michigan. The company's primary activity consists of research and development of the general field of electromagnetic radiation either directly or indirectly for the U. S. Government. The company also engages in research and development and production for other corporations.

At the present time, virtually all the company's research and development efforts are being carried out under contracts with Chrysler Corporation's Missile Division, AVCO's Research and Advanced Development Division and General Dynamics.

PROCEEDS—Conductron proposes to apply proceeds from the sale to reduction of debt and acquisition of land for future building.

Continental Oil Co.—Annual Report—

Net income of Continental Oil and its consolidated subsidiaries was $64.5 million in 1961, 3.9% above the 1960 earnings of $62.1 million. Earnings per share were $3.02 in 1961, compared with earnings of $2.91 in 1960.

Factors chiefly responsible for the increase in net income in 1961 consisted of improved earnings of Hudson's Bay Oil & Gas Co., Ltd., a 67.8%-owned Canadian subsidiary, lower dry hole costs, and greater dividends from nonconsolidated affiliates. These were partially offset by reduced crude oil production and lower product selling prices in the United States.

All 1961 financial and operating data in this report reflect two significant changes in Continental's accounting policy. These changes represent adoption of (1) the policy of consolidating al majority-owned companies in the financial statements and operating statistics of the company and (2) the practice of capitalizing intangible development costs. Under the latter practice, the costs of drilling producing wells are capitalized and subsequently charged against income as the oil and gas reserves are produced. For comparative purposes, the financial and operating figures for prior years have been restated to reflect both changes in accounting policy.

Net crude oil production of Continental and its consolidated subsidiaries averaged 193,198 barrels a day in 1961. This represented a 1.9% decline from the record level of 196,858 barrels a day in 1960. Continental's refinery runs in 1961 averaged 200,264 barrels daily, slightly below the 1960 level of 200,682 barrels a day. Sales of refined products averaged 244,086 barrels a day in 1961, a slight increase from 243,117 barrels daily in 1960.—V. 194, p. 112.

Controls Co. of America—Sales Down, Net Up—

Sales and earnings of Controls Company in 1962 should be "importantly ahead" of last year, which ended in an upward trend that carried 1961 earnings 28% ahead of the preceding year despite a 5% decline in sales, according to the annual report to shareholders.

President Louis Putze reported that final figures for 1961 show net sales of $46,525,711 and net income of $2,025,275 or $1.48 per share, closely corresponding to preliminary estimates. In 1960 net sales were $49,139,467 and net earnings $1,581,102 or $1.16 per share.

The improvement in earnings last year was attributed to cost-reduction and plant-consolidation programs, expanded foreign operations, and the pickup in general business late in the year. The outlook for further improvement in 1962 is based on a growing backlog of orders in the first quarter and the relatively favorable economic picture.—V. 195, p. 1096.

Corrugated Container Co. — Common Offered — On April 9, 1962 The Ohio Co., Columbus, offered publicly to residents of the State of Ohio only, 40,000 shares of this firm's common stock at $16 per share. Net proceeds will be used by the company for the repayment of a bank loan, and additional working capital.

BUSINESS—The company of 1200 Corrugated Way, Columbus, was incorporated under the laws of Ohio on Dec. 30, 1920. It operates one of the larger corrugated fibreboard converting plants in the Midwest and is recognized as one of the larger independent fibreboard container manufacturers in the country.

The company designs and fabricates corrugated containers which provide both safe shipping protection and attractive display for its customers' products. The corrugated containers are made in a wide variety of styles, shapes and sizes from small, simple boxes to large, complex containers. Many of the company's containers have corrugated reinforcements and supports for the special protection of items such as electrical appliances and other fragile articles. The company's containers are produced in a variety of different colors of corrugated board and usually are printed with designs and illustrations in as many as four colors. Prices range from five cents to five dollars each, and a new product, "CorruVoids", which provides voids in large concrete construction projects, may cost up to 25 dollars. All of the company's containers are individually designed for its customers particular needs.

David & Dash, Inc.—Common Offered—On April 10, 1962, Stirling, Linder & Prigal, Inc., and Kordan & Co., Inc., New York City, offered publicly 108,000 shares of the company's common stock at $5 per share. The shares were all sold. Net proceeds, estimated at $431,000, will be used for debt repayment, increased sales representation, inventory, advertising and promotion, and working capital.

BUSINESS—The company, of 2445 N. Miami Ave., Miami, Fla., is engaged in the designing, converting, importing and distribution of decorative fabrics for use primarily in the draper, upholstery and curtain fields. These products are sold to decorators, interior designers, architects, department stores, hotels and other commercial institutions.

The company maintains its own designing staff to create exclusive and original designs for its products and to aid its customers on any specific decorative project where a new or modified design is required. Additionally, the company purchases exclusive designs from independent sources. At the present time, the company's line of patterns is in excess of 750 designs of which approximately 40% are exclusive. The company attempts to conform its line of products to the prevailing current trend in interior decorating.

Diana Stores Corp.—Six Months' Results—

Total sales of Diana Stores for the six months ended Jan. 31, 1962 amounted to $61,569,714. After deducting $22,636,705 of leased department sales, net sales amounted to $38,933,009, S. D. May, President, reported.

After allowing $484,337 for state and Federal income taxes, consolidated net income amounted to $791,192, equal to 66 cents per share on 1,196,856 shares of common stock outstanding.

Mr. May said that the results included the operations of the Great Eastern Mills discount stores and the Gulf Mart membership stores to reflect the pooling of interests of these organizations with Diana Stores which took place during the six montns period.

During the six months ended Jan. 31, 1961, total sales of the entire group amounted to $48,432,669, of which $14,189,259 represented sales of leased departments, and $34,243,410 were net sales. —V. 195, p. 975.

Diebold Inc.—Stock Split Approved—

On April 2, shareholders voted to increase the number of authorized common shares from the 900,000 now authorized to 2,000,000 shares and to issue the new shares in the form of a stock dividend on the basis of one new share for each three shares presently held. The stock dividend will be made payable to shareholders on May 8, 1962, to holders of record April 10, 1962.

At the Board of Directors meeting immediately following, a 1962 second quarter dividend of 15 cents per share was declared by the directors. The dividend will be made payable June 12, 1962 to shareholders of record as of May 18, 1962.—V. 195, p. 1096.

(Joseph) Dixon Crucible Co.—Earnings Up—

Helped by strong recovery following the first quarter business recession, the company in 1961 earned net income, exclusive of a $56,952 special credit, of $499,354 on sales of $17,429,206. These results are cited by Frank G. Atkinson, President and Chairman of the Board, in the annual report to stockholders.

The net income is equal to $1.68 a share on the 297,000 shares of common stock outstanding on Dec. 31, 1961. The special credit, arising from the sale of capital assets, respresents 19 cents a share. Combined net income and special credits in 1961 amounted to $556,306 or $1.87 a share.

In 1960, Mr. Dixon earned from operations net income of $441,186, or $1.49 a share, on sales of $17,680,463. This does not include a special credit of $74,955, or 25 cents a share, which brought the year's combined net income to $516,141, or $1.74 a share on the same share basis.—V. 194, p. 741.

Dominion Tar & Chemical Co., Ltd.—Partial Redem'tn

The corporation has called for redemption on May 1, 1962, through operation of the sinking fund, $675,000 of its 6¼% debentures series B due May 1, 1980 at 102⅛%. Payment will be made at any branch in Canada of the Royal Bank of Canada.—V. 195, p. 1427.

Donnkenny, Inc. — Common Offered — On April 11, 1962, 90,000 shares of this company's common stock were offered publicly at $9 per share through Brand, Grumet & Seigel, Inc. and Kesselman & Co., Inc., New York City, at $9 per share. Net proceeds will accrue to the selling stockholders.

BUSINESS—The company is engaged in the design, manufacture and sale of popularly priced misses coordinated sportswear and casual apparel made of cottons, synthetic fabrics and woolens which are designed to be worn in a variety of combinations. Substantially all the company's products are sold under the registered trade name "Donnkenny". The company's principal place of business, executive offices and designing facilities are located at 1407 Broadway, New York, N. Y., and it has its manufacturing facilities at three plants in Virginia, with a fourth under construction.

The company was incorporated in New York in 1934. On Dec. 29, 1961 the company acquired all the stock of six corporations from present stockholders of the company in exchange for 350,000 shares of common stock of the company.

Dover Corp.—Sales, Earnings Higher—

Net sales of the corporation established a new high in 1961, Fred D. Durham, Chairman of the Board, and Otto G. Schwenk, President, said in the annual report to stockholders.

Sales for the year amounted to $47,214,813, compared with $43,416,580 in 1960.

Net earnings after taxes totaled $2,687,572, exceeding the results of every previous year excepting 1956. Per share earnings were $2.12, without giving effect to the shares issued last Dec. 15 as a 2% stock dividend. In 1960, earnings were $1,912,953, equal to $1.51 per share.—V. 195, p. 975.

Dunhill International, Inc.—Annual Report—

Dunhill International, including The Pyramid Rubber Co., which were merged Feb. 15, 1962, reported combined net earnings of $1,861,895 on net sales of $22,087,031 for the year ended Dec. 31, 1961. The announcement was made by Reuben W. Askanase, Chairman of the Board and Ira Williams, President.

The net earnings were equivalent to 53 cents a share on the 3,529,509 shares now outstanding. Additional earnings of $290,046, realized from the sale of investments and real estate were equal to eight cents a share.

Comparable figures for the prior year were not included in the company's annual report, because of the difference in the operating years of Dunhill International and Pyramid Rubber. Dunhill is on a calendar year basis, and prior to the merger, Pyramid's year ended Sept. 30.—V. 195, p. 975.

Dynamics Corp. of America—Sales Down, Net Higher.

Sales of this diversified electronics company (one-third, aerospace equipment; one-third, sophisticated communications gear; one-third, industrial and consumer products) were $47,517,284 for 1961, compared with 1960's all-time high of $48,676,897.

Net earnings after taxes were $1,922,714 compared with $1,853,512 in 1960.

After deducting preferred dividend requirements, net earnings per common share increased to 52 cents, compared with 50 cents in 1960. —V. 194, p. 741.

Dynascan Corp. — Common Offered — Public offering of 190,000 shares of this firm's common stock was made April 10 by an underwriting group headed by H. M. Byllesby & Co., Chicago, at $10 a share.

All of the shares were offered by certain stockholders and none of the proceeds accrued to the company.

BUSINESS—Dynascan, of 1801 W. Belle Plaine Ave., Chicago, is a designer and manufacturer of electronic test equipment, transmission and receiving antennas, microwave equipment for private radio communications systems, and other electronic products. The present company represents a merger in 1961 of B & K Manufacturing Co., founded in 1950, and EFH Mark Microwave, Inc., founded in 1949.

The company's B & K Division manufactures test equipment used by electronic laboratories, industrial plants and television and radio servicemen. A principal product is a television analyst, for both color and black and white sets, which permits a serviceman to insert a simulated signal into any part of a defective set and isolate the source of trouble. Dynascan's Mark Division makes antennas and microwave equipment.

REVENUES—Combined sales of the constituent companies totaled $4,030,938 in 1961 and net earnings were $399,918, equal to 50 cents a share on the basis of 800,000 outstanding shares.—V. 195, p. 637.

Eastern Shopping Centers, Inc.—Earnings Up 10%—

For the year ended Dec. 31, 1961, Eastern Shopping Centers, had a record high income of $2,058,507, over 10% above the 1960 figure of $1,801,107, C. Van Ness Wood, President, reported in the annual statement to stockholders.

Net earnings for the year rose to $90,669 from $53,939 in 1960.

Mr. Wood noted that 1961 cash flow income of $474,795, equal to 11 cents a share, was the highest in the company's history. In 1960, cash flow income was $387,886, equal to nine cents a share. Depreciation in 1961 was $384,126 compared with $383,947 for the previous year.—V. 192, p. 1491.

Electronic Assistance Corp.—Reports Record Earnings.

This Red Bank, N. J. corporation has reported that earnings for the fiscal year ended Jan. 31, 1962, reached a record high of 21.5 cents per common share. This compares with 16 cents per share a year ago, after adjustments for the increase in shares outstanding in 1961.

Robert Edwards, EAC President, said in a letter to stockholders that "most of the year's earnings were realized during the second half. The net for the period from July 31, 1961 to Jan. 31, 1962 amounted to 17 cents per share, in contrast to earnings of 4⅜ cents a share for the first half.

"Shipments stepped up sharply during the last quarter, achieving a company record of some $991,880 in January, 1962," he continued.

Net income before taxes for the year ended Jan. 31, 1962 totaled $591,149 compared with $434,111 for the same period a year ago. Sales for the year amounted to $3,282,000 against $3,745,258 a year earlier. Net income after taxes for the year ending Jan. 31, 1962 was $281,149, as compared to $210,200 for the period the previous year. —V. 194, p. 6.

Electronic Controls, Inc.—Common Offered—On April 11, 1962, 100,000 shares of this firm's common stock were offered publicly at $3 per share through Seymour, Bernard & DuBoff, Inc., New York City, and Smith, Ramsey & Co., Inc., Bridgeport, Conn. The stock was all sold. Net proceeds, estimated at $239,475, will be used for debt repayment, sales promotion, equipment, and working capital. The stock was all sold.

BUSINESS—The company of 67 Southfield Ave., Stamford, Conn., is principally engaged in the design, development and manufacture of automatic electronic and computer controlled drives and systems, helicopter check-out, flight control and landing control systems and multi-contact relays and switches. For the ten months ended Feb. 28, 1962, 33% of the company's sales were represented by sales to industrial or commercial users and the balance to Government contractors or sub-contractors. However, as of Feb. 28, 1962, the company had a backlog of approximately $600,000, of which approximately $555,000 was with Government prime contractors. It is anticipated that deliveries under these contracts will be completed by the end of October, 1962. All contracts are cancellable for the convenience of the government, but in the event of such termination, the government is required to pay certain termination charges, including all costs incurred and 10% profit on such costs. To the extent that the company's business increases with respect to its government products, it will become more dependent on government defense appropriations and to changes in government policy.

Equity Capital Co.—Earnings Up 65% in Quarter—

This Minneapolis-headquartered real estate financing firm, has reported six-month earnings almost equal to twice its net profit for its entire first fiscal year.

Profits after taxes for the first six months of the current operating year were $95,585, Harry J. Klein, President, reported. More than $59,000 of that amount was earned in the second quarter.

A year ago, Mr. Klein said, total profits for the year were $51,637.

Per-share profits, on the 270,430 shares outstanding, rose more than 65% in the second quarter to 22.1 cents, bringing the six-month earnings to 35.3 cents per share, comparable to 19.1 cents per share at the end of Equity's first year of operation.

Gross income for the six months was $389,794, more than double the first quarter total of $164,257 and more than the total of $238,743 reported last year.—V. 195, p. 401.

Fairchild Stratos Corp.—Reports Profit for 1961—

This Hagerstown, Md., corporation completing its first year under new management reported a net profit of $3,129,038 or $1.03 per share for 1961, on 3,049,158 shares outstanding. This compares with a 1960 loss of $5,994,650 or $1.97 per share.

The 1961 profit was realized on sales of $75,959,862, down from $85,096,896 for 1960. Commenting on these figures James T. Dresher, Vice-President-Finance, said, "Significant reductions were made in operating costs and we intend to strive for further refinements and efficiencies. Additionally the company's bank loan was reduced from $11,000,000 to $2,400,000 during the year and the bank credit agreement was extended to February 1964 under favorable terms."—V. 193, p. 2777.

General Tire & Rubber Co.—Stock Split Approved—

On April 3 shareholders approved at their annual meeting a 3-for-1 common stock split-up and change from 83⅓c par value to 30c par value of the issued shares of the company.

A favorable vote of 99% was received from shareholders submitting their proxies on the issue to change the authorized common stock to 22,500,000 shares with the par value of 30c per share.

Also approved was the increase of voting power of the cumulative preference stock from ⅓ vote per share to 1 vote per share when voting jointly with the common stock.

The changes become effective on April 10, 1962 when the amendment to the Articles of Incorporation was filed in the office of the Secretary of State of Ohio. The additional stock certificates are expected to be mailed to shareholders on or about April 27, 1962.—V. 195, p. 1663.

Georgia-Pacific Corp.—Sales Set Record—

The corporation reported record sales and near record earnings for 1961 to its stockholders. The joint report of Chairman Owen R. Cheatham and President Robert B. Pamplin notes that the company's progress was "despite the recession in the general economy" and "the lower prices which prevailed most of the year."

Net sales of Georgia-Pacific were $238,301,000 compared with $221,997,000 in 1960. Net income was $13,838,000 ($2.08 per common share) compared with $15,210,000 ($2.35 per share) for the preceding year, which set an all time earnings record. Cash flow was $34,122,000 or $5.32 per share in 1961.—V. 195, p. 113.

Globe Rubber Products Corp.—Quarterly Sales Up 14%

Sales of Globe Rubber Products in the first quarter of 1962, the period ending March 31, are running approximately 14% ahead of the comparable period of 1961, Emanuel Meyer, President, told stockholders at the annual meeting.

Mr. Meyer estimated total sales for the March quarter this year will be in the neighborhood of $4,765,000, up from $4,169,000 in the like three months a year ago. There are no figures on profits for the first three months of 1962 available at this time, he said, but "we feel it is entirely safe to assume that our profit ratio will prove to be at least as favorable as last year." In the year ended Dec. 31, 1961, Globe Rubber had record sales of $14,502,440 on which it reported record earnings of $850,135.—V. 195, p. 1209.

Graniteville Co.—N. Y. S. E. Listing—

On April 11, 1962, the common stock of the company was listed on the New York Stock Exchange under the symbol GVL.—V. 195, p. 1097.

Great Lakes Homes, Inc.—Common Offered—

Pursuant to an April 9, 1962 prospectus, The Milwaukee Co., Milwaukee, Wis., offered publicly 93,000 shares of this firm's common stock at $6.50 per share. Net proceeds, estimated at $517,800, will be used for debt repayment and working capital.

BUSINESS—The company is a Wisconsin corporation organized in 1949, with its principal offices located in Sheboygan Falls, Wis. The company and its subsidiaries are engaged primarily in the manufacture of custom-designed, factory-built "house packages" consisting of the basic carpentry for houses including structural members, partitions, siding, roofing, hardwood floors, kitchen cabinets, millwork, windows and ready-hung doors in pre-assembled sections. These packages are sold to builders and other dealers who use them in the construction of finished houses for sale in the retail housing market. The company also makes similar packages for multi-family dwellings, motels, churches and cottages. The company has plants in Sheboygan Falls, Wis., Sheboygan, Wis., LeRoy, Ill. and Tallmadge, Ohio.

Great Northern Ry. — Equipment Trust Certificates Offered—

On April 6, 1962, Halsey, Stuart & Co. Inc. and McMaster Hutchinson & Co. purchased $1,395,000 of this Road's equipment trust certificates, due May 1, 1963 to 1977, inclusive. The group bid 99.1593 for the certificates which bear a 4% coupon, setting a 4.105% net interest cost. Salomon Brothers & Hutzler bid 99.124, also for a 4% coupon.

The certificates were reoffered publicly on April 9 to yield from 3.20% to 4.20%, according to maturity.

The issue will be secured by 50 hopper cars and 50 tank cars, estimated to cost $1,750,000.—V. 195, p. 865.

Hamilton Manufacturing Co.—Sales, Net Down—

Issuing its 81st annual report, the company reported 1961 net earnings of $1,445,678, or $1.30 per share on sales of $29,080,704. This compares with 1960 net earnings of $1,500,946, or $1.35 per share on sales of $30,406,839. 1961 earnings were 5.0% of net sales, as compared to 4.9% in 1960. Commenting on the report, E. P. Hamilton, President, stated that, after a slow start, renewed optimism on the part of the customer during the later part of the year created a stir of sales activity. This contributed considerably to the overall 1961 volume.—V. 193, p. 1450.

Harsco Corp.—Earnings at New High—

Net income, after taxes, of Harsco again reached a new high in 1961 despite the relatively low level of industrial activity which prevailed during the forepart of the year, J. T. Simpson, Chairman and President, stated. "Thus we maintained a record of growth which has been virtually uninterrupted for over a decade," he said, "during which period net earnings increased more than ten times on a four-fold gain in sales." Working capital and cash dividends, he added, rose during the period by about the same proportion as earnings.

Consolidated net sales of the corporation and its subsidiaries for the year ended Dec. 31, 1961 were $70,401,509 as compared with a 1960 volume of $72,133,604.

Profit before taxes amounted to $15,866,848 as against $16,152,585 a year earlier.

Consolidated net income, after Federal, State and foreign taxes on income, totaled $7,586,818 for 1961 and was equivalent to $2.50 per share on the 3,035,182 shares of common stock outstanding at the close of the year. For 1960, net earnings, after taxes, were $7,179,060, or $2.40 per share on the 2,996,254 shares outstanding at that year-end.—V. 195, p. 749.

Harvey's Stores, Inc.—Record Sales, Earnings—

The company has reported record sales and earnings for the fiscal year ended Jan. 31, 1962.

Sales for the fiscal period totaled $5,394,089 as compared to $5,206,208 for the previous year. Net income after taxes amounted to $259,661 as against $247,583 reported last year. Earnings per share totaled 52 cents on 500,000 shares of common stock outstanding on Jan. 31, 1962, as opposed to 50 cents on a comparable number of shares a year ago. The company has paid a 12½ cents quarterly dividend on its class A common stock since August 20, 1961.—V. 194, p. 2334.

High Voltage Engineering Corp. — Secondary Stock Offering—

On April 9, 1962 it was reported that 26,200 shares of this firm's common stock had been sold through C. E. Unterberg, Towbin & Co., New York City.—V. 195, p. 1317.

Hilton Hotels Corp.—Revenues, Net Up—

Consolidated earnings of Hilton Hotels for 1961 were substantially above 1960 as the result of extraordinary capital gains, Conrad N. Hilton, Chairman and President announced.

Total profits were $13,539,701, equal after preferred dividends to $3.43 per share on the 3,790,988 shares of common stock outstanding at Dec. 31, 1961. This compares with $9,792,010, equal after preferred dividends to $2.46 per share on the 3,731,228 shares outstanding a year earlier.

Gross revenues reached a new high of $235,177,977 compared with $231,502,403 in 1960.

Of the 1961 consolidated profits, sales of properties and investments accounted for $7,177,422, or $1.89 per share. Profits from property sales in 1960 were $2,247,028 or 60 cents a share.

Net income from operations was $6,362,279, or $1.54 a share compared with $7,544,982, or $1.86 a share for 1960. Mr. Hilton attributed the lower operating profits to reduced occupancy rates resulting from

increased competition in the cities where the firm now operates, together with inflationary trends which caused costs and expenses to increase relative to volume. In addition, the expansion in the number of units in operation has increased expenses such as rent, property taxes, interest and depreciation, he noted.—V. 195, p. 865.

Hooker Chemical Corp.—Appointment—

The Chase Manhattan Bank, New York City, has been appointed registrar for the cumulative second preferred stock, series C of the corporation.—V. 195, p. 1553.

House of Westmore, Inc.—Common Offered—On April 6, 1962, Brand, Grumet & Seigel, Inc., and Kesselman & Co. Inc., New York City, offered publicly 150,000 shares of this firm's common stock at $4 per share. Net proceeds from the sale will go to the selling stockholders and no portion thereof will be received by the company.

BUSINESS—The company was incorporated in New York in 1938. It was organized to engage in the sale and distribution of cosmetic products under the name of House of Westmore. In 1938 the company entered into a license agreement whereby it acquired the exclusive right to use the name House of Westmore in the sale of cosmetics; the agreement, including the company's options to renew, expires in 1968. If the agreement is not renewed, it is possible that litigation may ensue over the company's use of the name "House of Westmore" after 1968. The company does not believe that its business and its operations will be materially adversely affected by the expiration of the agreement.

To broaden its activities, the company acquired a 45% interest in The Kurlash Co., Inc. ("Kurlash") of Rochester, New York, in 1957. Kurlash manufactures and sells tweezersr, curlers and other products used by women for the care and beautification of their eyes, eyebrows and eyelashes. In 1961, the company made Kurlash a wholly owned subsidiary by acquiring the other 55% of the stock. The company also acquired all the stock of Orlin Laboratories, Inc. ("Orlin") in 1961. Orlin has manufactured cosmetics and beauty preparations for the company and other cosmetic firms since 1944.

Melvin Finkelstein, Nathan G. Finkelstein, Emanuel Finkelstein, Seymour Finkelstein and Zelda Scher own directly and indirectly through The Glemby Co., Inc. 94.4% of the stock of the company, and following this offering will own 77.3% of the stock of the company; and therefore they are and will continue to be parents of the company as defined in the Rules and Regulations of the Securities and Exchange Commission.

The company's offices are located at 120 East 16th St., New York, N.Y.

Indian Head Mills, Inc.—Quarterly Report—

Sales and operating revenues of Indian Head Mills rose 76% in the quarter ended March 3, 1962, to $34.6 million from $19.7 million in the first quarter a year ago. The increase resulted from three acquisitions completed since January of last year and higher volume in other divisions, James E. Robison, President, stated.

Pre-tax profits rose to $1,250,000, but the impact of Federal and foreign income taxes held net profits to $667,000, or 48 cents per common share after preferred stock dividends.

In the first quarter of fiscal 1961, when no provision for Federal or foreign income taxes were required, net profits totaled $642,000 or 45 cents a share, including $331,000 (28 cents a share) of non-operating income. Earnings in the first quarter this year were entirely from operations.—V. 195, p. 866.

Inland Homes Corp.—Earnings Hit New High—

The corporation's earnings reached a new high in the fiscal year ended Jan. 31, 1962, it was reported by E. E. Kurtz, President and Chairman.

Earnings of $346,774, equal to $1.16 a share, were $55,254 greater than the $291,520, or 98 cents a share, earned the year before. (Per share figures for both years are based on the 298,707 shares outstanding on Jan. 31, 1962.)

Total sales and other income rose to $5,813,051, an increase of $224,825 over total income of $5,588,226 in the previous fiscal year. —V. 190, p. 1629.

Iowa Beef Packers, Inc.—Debentures Offered—Pursuant to an April 2, 1962 prospectus, First Nebraska Securities Corp., Lincoln and associates offered publicly $1,850,000 of this firm's 6½% subordinaed sinking fund debentures, series A, due March 1, 1977 at par and accrued interest from March 1, 1962. Each debenture carried a non-detachable warrant entitling the holder to purchase 35 common shares of the company at $10 per share through March 1, 1964 and at increasing prices thereafter to March 1, 1972.

Net proceeds from the debenture sale will be used by the company to repay a mortgage loan, rebuild, remodel and equip its Fort Dodge plant, and increase working capital.

Japan Fund, Inc. — Common Offered — On April 12, Bache & Co., Paine, Webber, Jackson & Curtis and The Nikko Securities Co., Ltd., New York City, announced the initial public sale of 1,250,000 common shares of this firm's stock at $12.50 per share. The Fund has also granted to the underwriters an option to purchase, upon the same terms and conditions, a maximum of 125,000 additional shares to cover over-allotments, if any.

The fund, of 25 Broad Street, New York City, is a closed-end diversified investment company organized to provide a means for American investors to participate in an investment portfolio consisting primarily of Japanese equity securities. The Fund's principal objective will be the obtaining of capital appreciation through investments in equity securities of Japanese companies. It will be the general policy of the Fund to invest at least 80% of the assets in Japanese securities, primarily in common stocks. The balance of its assets may be invested in additional securities, Japanese or other, or held in cash.

Mr. Robert L. Garner, President of the Japan Fund, was formerly the President of the International Finance Corporation. The investment advisor to the Fund is The Nikko Securities Co., Ltd., one of the underwriters of the current offering and one of the leading securities houses in Japan.—V. 194, p. 1720.

Jones & Laughlin Steel Corp.—Chairman Announces Steel Price Increase—

The corporation raised its steel product prices by an average of approximately 30 cents per 100 pounds (the basis on which most steel products are sold) effective April 12, 1962, it was announced by Avery C. Adams, Chairman.

"Our customers have confirmed the announcement reported April 10 with respect to action taken by one of our major competitors," Mr. Adams said.

"Many articles have appeared, recently, in newspapers and trade journals which have conveyed opinions, quotes and possibly misquotes by reporters and people in high places with respect to this subject.

"We believe it's high time that we take a look at the economic facts of life insofar as they apply to the steel industry in general, and J&L, in particular.

"It has been nearly four years since there has been any price increase. In fact, in our Annual Report for 1961, we informed our stockholders that our sales were off $42 million by comparison with 1960, of which $5.4 million could be attributed to price reductions," Mr. Adams said.

The steel industry's return on net assets dropped from 15.2% in 1955 to 6.4% in 1961. The return on net assets for all manufacturing was 10.1% in 1961. This drop pushed the steel industry from 14th position in 1955 to 34th in 1961 when compared with 41 industrial groups as reported by the First National City Bank. "These facts certainly indicate that the steel industry has been a highly competitive one and that its recent profits have been inadequate," Mr. Adams said.

"The question, is not whether J&L can absorb the employment cost increase of about 11 cents an hour, which becomes effective July 1, 1962, by anticipated increases in productivity. The question is can we absorb a clearly inflationary employment cost increase of 50 cents an hour which is the total increase granted in the period from the middle of 1958 to and including the one which is in our new contract. The answer is clearly in the negative and accounts for what has been repeatedly referred to as a profit squeeze.

"Every student of the steel industry knows that each company must spend huge sums of money on new facilities and research if it is going to increase its productivity, reduce costs, improve job security, maintain its financial integrity and position itself so as to be more nearly competitive with foreign producers. J&L is planning to spend $265 million in the three years 1962-1964. This is a competitive necessity. To complete the program, we have made arrangements to sell bonds in the aggregate amount of $50 million and, if necessary, to borrow an additional $50 million under our Revolving Bank Credit Agreement. The money to repay this debt must come from adequate future earnings.

"The price increase which J&L is announcing will restore, in part, certain historical price-cost relationships."—V. 195, p. 1664.

Kaneb Pipe Line Co.—Appointment—

First National City Bank, New York City, has been appointed trustee, paying agent and registrar for the company's 6½% sinking fund subordinated debentures, due Dec. 1, 1976.—V. 189, p. 2677.

Net earnings after provision for Federal taxes held steady at three cents per share, on the basis of 320,000 shares outstanding, despite substantial non-recurring costs resulting from the recent introduction of two new major product lines, President Don Kendall reported.

Second quarter sales, sparked by $149,806 in January, a record for the month, are running more than 15% ahead of the like 1961 quarter. —V. 194, p. 2660.

Ketchum & Co. Inc.—Net Up 66%—

The company has reported net income for 1961 of $439,455, equal to 86 cents a common share. This was a 66% gain over the $264,310 or 51 cents a share earned in 1960.

The sharp increase in profits was achieved on sales of $38,568,549, compared with $39,132,628 in 1960. Per share earnings were calculated on 479,704 shares outstanding at the end of 1961, compared with 463,220 shares outstanding in 1960.—V. 189, p. 2785.

King Island Cosmetic Co. — Common Offered—On April 12, 1962 Birkenmayer & Co., Denver, Colo., offered publicly 100,000 shares of this firm's common stock at $2 per share. Net proceeds will be used by the company for debt repayment, clay development, advertising and working capital.

The company of 734 Seventeenth St., Denver, is engaged in developing markets for a therapeutic clay to be used in the manufacture of cosmetics.—V. 195, p. 971.

King's Department Stores, Inc.—Net Up 100%—

This Boston, Mass. chain of discount department stores in the East, Midwest, and South has reported record high sales and earnings for the fiscal year ended Jan. 31, 1962. The announcement was made by Chairman Aaron O. Cohen and President Murray A. Candib.

Net earnings showed an increase of approximately 100%, reaching $1,334,000, equal to $1.25 a share based on the 1,070,000 shares presently outstanding. This compares with net earnings last year of $676,000, equal to 63 cents a share on the same number of shares outstanding.

Operations for the fiscal year reflect a charge-off of $150,000, or approximately 7 cents per share after taxes, pertaining to the opening of new stores last year.

Sales, including leased departments, rose to $51,362,000, an increase of 25% over the previous year's sales of $41,854,000.—V. 194, p. 1160.

Koehring Co.—Quarterly Net Doubles—

First quarter earnings of $459,000 or 27 cents per common share on net sales of $11,511,000 compared with earnings of $244,000 or 13 cents per share on sales of $11,601,000 for the corresponding period a year ago were reported by the company and its consolidated subsidiaries in an interim report to stockholders. Koehring's fiscal quarter ended Feb. 28, 1962.

Backlog at the end of the 1962 first quarter was $9,583,000 compared to $5,812,000 a year ago.—V. 195, p. 866.

(S. R.) Langsam & Co.—Debentures Offered—Pursuant to March 30, 1962 offering circular, Bosworth, Sullivan & Co., Inc., Denver and associates offered publicly $300,000 of this firm's 6½% subordinated s. f. debentures due March 1, 1977 at $1,000 per unit, plus accrual.

Net proceeds to the company will be used for the retirement of bank loans, and for working capital.

BUSINESS—The company was incorporated under the laws of Colorado on September 9, 1958. Its executive offices are located at 1321 Bannock Street, Denver.

The company is engaged in the business of commercial financing and accounts receivable factoring. General commercial financing, which accounts for more than 85% of the company's business, consists of advancing funds on a revolving basis against the security of current trade accounts receivable and installment sales contracts, and making short-term collateral loans against inventories. Also included in this category would be loans secured by chattel mortgages on machinery, equipment or other fixed assets of a customer's business. Accounts receivable factoring, which acounts for less than 15% of the company's business, consists of the outright purchase of a customer's accounts or contracts receivable at a discount.

National and Eastern List of Over-The-Counter Securities (Quotations for Friday, April 13)

The following bid and asked quotations are obtained from the National Association of Securities Dealers, Inc., and other selected sources. They do not represent actual transactions. They are intended as a guide to the range within which these securities could have been sold (indicated by the "bid") or bought (indicated by the "asked") at the time of compilation. Origin of any quotation furnished on request. The "National" list is composed of securities which have a wide national distribution. The "Eastern" list comprises securities which have a wide distribution primarily in the Eastern region.

THE COURSE OF BANK CLEARINGS

Bank clearings this week will show an increase compared with a year ago. Preliminary figures compiled by us, based on telegraphic advices from the chief cities of the country, indicate that for the week ended Saturday, April 14, clearings from all cities of the United States from which it is possible to obtain weekly clearings will be 10.7% above those for the corresponding week last year. Our preliminary totals stand at $30,679,229,446 against $27,707,190,359 for the same week in 1961. At this center there is a gain for the week ending Friday of 14.9%. Our comparative summary for the week follows:

All cities, one day	1,139,903,207	1,050,309,753	+ 8.5
Total all cities for week	$30,679,229,446	$27,707,190,359	+10.7

Complete and exact details of the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday and the Saturday figures are not available at time of going to press. Accordingly, in the above, the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below we are able to give the final and complete results of the week previous — the week ended April 7. For that week there was an increase of 20.8%, the aggregate of clearings for the whole country having amounted to $31,373,123,886 against $25,972,296,900 in the same week in 1961. Outside this city, there was an increase of 8.6%, the bank clearings at this center having registered a gain of 32.4% We group the cities according to the Federal Reserve Districts in which they are located and from this it appears that in the New York Reserve District (including this city) the totals register an expansion of 31.4% and in the Boston Reserve District of 5.4%, but in the Philadelphia Reserve District the totals record a decline of 0.7%. In the Cleveland Reserve District the totals show an improvement of 15.9%, in the Richmond Reserve District of 4.5% and in the Atlanta Reserve District of 10.4%. The Chicago Reserve District suffers a loss of 0.7% but the St. Louis Reserve District has to its credit a gain of 14.5% and the Minneapolis Reserve District of 11.9%. In the Kansas City Reserve District there is an increase of 9.4%, in the Dallas Reserve District of 14.8% and in the San Francisco Reserve District of 17.8%.

Condition Statement of Member Banks

The condition statement of weekly reporting member banks of the Federal Reserve System in leading cities shows the following principal changes for the week ended April 4: Decreases of $162 million in loans adjusted and $291 million in holdings of U. S. Government securities; increases of $111 million in holdings of "other" securities, $255 million in reserve balances with Federal Reserve Banks, $1,183 million in demand deposits credited to domestic banks, and $177 million in time and savings deposits; and decreases of $156 million in demand deposits adjusted and $1,136 million in U. S. Government demand deposits.

Commercial and industrial loans increased in eight districts for a net gain of $50 million; during the comparable week a year ago, these loans decreased $147 million. Loans to brokers and dealers for purchasing or carrying U. S. Government securities decreased $256 million, but their loans for purchasing or carrying "other" securities increased $47 million. Loans to sales and personal financing institutions decreased $42 million and loans to "other" nonbank financial institutions decreased $16 million, as compared with an increase of $60 million and a decrease of $64 million, respectively, during the similar week in 1961.

Holdings of Treasury bills by weekly reporting member banks decreased $350 million, Treasury certificates decreased $26 million, and the combined total of Treasury notes and U. S. Government bonds increased $85 million.

Demand deposits adjusted decreased $128 million in the Dallas District and $124 million in the Chicago District, and by smaller amounts in six other districts, but they increased $228 million in the San Francisco District. Savings deposts increased $84 million and "other" time deposits of individuals, partnerships, and corporations increased $83 million.

Borrowings of weekly reporting member banks from Federal Reserve Banks decreased $83 million and borrowings from others decreased $79 million. Loans to domestic commercial banks decreased $71 million.

(E. F.) MacDonald Co.—Sales, Net Higher—

Elton F. MacDonald, Chairman, has announced the operating result of the company for its fiscal year ended Jan. 31, 1962. Sales increased slightly to $53,815,000. He reported net earnings for the year at $1,264,000 as compared with $1,140,700 for the preceding year. Net operating income per share based on an increased number of outstanding shares was $1.22. This is before taking an 8 cents per share non-recurring loss. Earnings for the preceding year were $1.07 per share. Mr. MacDonald stated that the above earnings for the year ended Jan. 31, 1962, will reflect no income or loss for the relatively new trading stamp operation. Mr. MacDonald went on to explain that the stamp operation was progressing excellently and the first quarter statement will reflect earnings from this operation. He further stated that the operating results were still subject to final audit, but he anticipated no material change.—V. 195, p. 1429.

Maric Design & Mfg. Corp.—Common Offered—Via March 30, 1962 offering circular, Terrio & Co., Inc., Washington, D. C., offered publicly 74,750 shares of this firm's common stock at $4 per share. Of the total, 55,000 shares were sold for the company and 19,750 for the underwriter and finder.

Net proceeds to the company, estimated at $161,000, will be used for the repayment of debt, purchase of additional equipment and inventories, advertising, remuneration of officers and directors, and working capital.

BUSINESS—The company, of 610 W. 18th Street, Hialeah, Fla., is presently engaged in the manufacture, sale and installation of filters, and associated products (reclaiming unit for dry-cleaning fluids; automatic car wash and drying unit; laundry water reclaiming system) for the purpose of disposal of waste and other impurifications.

The company manufactures part of their filter units from new material and part is purchased from others and assembled to make up the completed filter unit.

Raw sheet steel is purchased by the company and rolled into cylindrical form by a subcontractor. The company welds the cylindrical steel into the three tanks needed for the unit, sandblasts the steel and paints it with a primer coat.

All plumbing fixtures are assembled by the company and connected onto the unit. The small air compressor, gear motor and centrifugal pump are purchased and assembled to the machine. The timer, which is built by the company, is mounted into the control box together with other controls which are purchased by the company. The valve castings are made by a subcontractor and the three way valves are built from them by the company.

The filter elements which are the main part of the unit are made from raw material by the company. All packing and crating is done by the company.

Management estimates that the portion of the unit in dollar amount manufactured by the company is 85% while 15% of the cost is built outside and assembled by the company.

The other products manufactured by the company are made on a contract basis of cost plus a fixed percentage. This includes the car wash unit, the reclaiming unit for dry-cleaning fluids, and the laundry water reclaiming unit.

Max Factor & Co.—Record Sales, Earnings—

Final audited sales and earnings of Mar Factor for 1961 reached a record all-time high in its 52-year history, Board Chairman Davis Factor disclosed in the annual report to shareholders.

After tax operating earnings increased 20% to $4,810,505 from $4,023,643 earned the year before on the new high of net sales and royalties of $62,988,499, up 6% from the previous record of $59,238,061 set in 1960. Net operating earnings per share were $1.32 as compared with $1.17 the previous year, an increase of 13%, based on the average number of shares outstanding in each year as adjusted for all stock dividends and a three-for-two stock split.

In addition, unconsolidated net operating earnings per share (all attributable to earnings in Japan) were 49 cents, as compared with 37 cents for 1960, an increase of 32%.—V. 195, p. 1210.

McGowen Glass Fibers Corp.—First Quarter Results—

The corporation reported net earnings for the three month period ending Dec. 31, 1961, the first quarter of their new fiscal year, soared to a record high of $43,784.00, equal to 13 cents per share, on 336,910 shares outstanding more than triple the earnings for the entire 12 month period last year of $8,958.00 or 3 cents a share.

Net sales for the three months totaled $686,048.00 compared to $1,031,515 for fiscal year 1961.—V. 192, p. 8.

McGraw-Hill Publishing Co.—Annual Report—

The company, expects increased sales in all major revenue units in 1962, despite fierce competition for advertising and circulation dollars and increasing competition in the book field, President Donald C. McGraw announced in the company's annual report.

Although revenues in 1961 were higher than in 1960, the report reveals, expenses in 1961 were also higher, resulting in a consolidated net income somewhat lower in 1961 than in 1960. Effective cost controls, initiated in 1961, and continued management vigilance indicate that a satisfactory amount of the increased sales dollars anticipated in 1962 will be brought down to net income, the annual report continues.

Operating revenue for 1961 for McGraw-Hill Publishing and its subsidiaries, including F. W. Dodge Corp., amounted to $147,972,111, or slightly higher than 1960's revenue of $146,742,519.

Income before provision for Federal income taxes for 1961 aggregated $22,710,450. Net income amounted to $9,742,347 or $1.06 per share, based on 9,231,444 shares of common stock outstanding at Dec. 31, 1961. Assuming the same conditions existed in 1960, comparable figures for net income were $10,733,657 or $1.16 per share, based on 9,221,121 shares of common stock outstanding as of Dec. 31, 1960. —V. 194, p. 636.

Medex, Inc.—Common Offered—On April 12, 1962, Globus, Inc., New York City, offered publicly 110,000 shares of this firm's common stock at $1 per share. The stock was all sold. Net proceeds, estimated at $78,000,

BUSINESS—The company of 1483 Grandview Ave., Columbus, Ohio, is engaged in the business of assembling and selling a limited line of hospital and laboratory equipment and supplies. These are distributed through C. R. Bard, Inc., a distributor of medical supplies in the United States and abroad. The company's products are also sold directly to the government by the company for use in military hospitals.

The company does not at the present time, nor does it plan in the near future, to do its own molding of plastic component parts, but subcontracts such work to a custom injection molder located in Ohio. The company also contracts for the sterilizing of its products by the ethylene oxide method to Griffith Laboratories in Chicago, Ill.; Los Angeles, Calif.; and in Union, N. J. The company assembles and packages its products at its plant at Columbus, Ohio.

Net sales were $165,867,317 in 1961, compared with $161,594,237 a year earlier, an increase of 2.6%. Store sales also were at an all-time high of $161,940,035 and compare with $157,670,480 for the year 1960, an increase of 2.7%.

Net earnings in the latest year were $5,464,209, equal to $1.74 per share of common stock outstanding. For the year 1960 the company reported net earnings of $5,976,620 or $1.92 per share. Capital expenditures during the year amounted to $3,508,586, compared with $4,409,129 a year ago. Depreciation amounted to $3,813,566, as against $3,642,821 in 1960.—V. 194, p. 1161.

(G. & C.) Merriam Co.—Stock Split Approved—

On March 23 stockholders approved a ten for one split of the capital stock at a special meeting at Springfield, Mass.

The capital stock of the company was increased from 45,000 shares of $100 par value to 450,000 shares of $10 par value, effective to stock of record April 6, Gordon Gallan, President said.

Stockholders present in person or by proxy, at the Merriam meeting represented 93% of the stock; the vote was unanimously in favor of the stock split.

"Total dollar sales for Merriam in January and February were up substantially over the like period of 1961 which was the most successful year in the company's 131 year history," Mr. Gallan told stockholders.

(J.) Michaels, Inc.—Appointment—

Bankers Trust Co., New York City, has been appointed transfer agent for the common stock of the corporation.—V. 195, p. 1664.

Midland-Ross Corp.—Sales At New High, Net Up—

Net sales of Midland-Ross established a new high record of $137,633,446 in 1961, and results from operations in 1962 should be improved over last year, Wade N. Harris, President, said in the company's annual report. Volume in 1960 amounted to $118,076,502.

Net income and special credit for last year totaled $5,465,642 as contrasted to $3,925,037 in 1960. However, because of the substantially larger number of common shares outstanding at the close of 1961, amounting to 1,384,028, net income after dividend payments on the preferred stock was equivalent to $3.40 a share of common stock. This compared with $4.63 a share on 682,025 common shares outstanding in 1960.—V. 195, p. 641.

Miles Laboratories, Inc.—Sales, Earnings Higher—

Product diversification, expanded foreign markets, greater production efficiency and a strong market for Alka-Seltzer and vitamin products were cited as primary reasons for the previously reported record-breaking sales and earnings figures in the 1961 annual report of Miles Laboratories.

Walter R. Beardsley, Board Chairman, and Edward H. Beardsley, President, told shareholders that, barring unforeseen setbacks, 1962 should show a "continuation of the favorable trends experienced in recent years."

According to the 1961 report, sales and earnings were up over 1960 in each of the company's major marketing areas: consumer drug products, professional pharmaceuticals, chemicals and international. Consumer products accounted for 77% of the firm's total sales; professional pharmaceuticals, 17%—2% more than in 1960; and chemicals, 6%.

The executives announced that three new research laboratory buildings would be dedicated in May: a $4 million research building in Elkhart which will serve as headquarters for a vastly expanded international research network; and research centers in England and Mexico. They indicated that Miles is currently investing at the rate of $5,000,000 annually in research, in addition to $5,000,000 spent in 1961 for new research facilities.

"The company is in the midst of a favorable growth period. In addition to keeping pace with mounting sales requirements through more efficient operational improvements and marketing expansions, management is focusing its sights on long range plans, such as the international research program and product diversification. Much has been accomplished in these areas."

Miles' net sales for 1961 totalled $91,009,192, an increase of 10% from the previous year.

Earnings came to $5,480,307, up 30% from the $4,219,666 figure a year ago. This is the equivalent of $1.37 per share compared to $1.07 per share in 1960, adjusted to reflect the three-for-one stock split of Jan. 12, 1962.—V. 195, p. 910.

Mississippi Power Co.—Bonds Offered—Merrill Lynch, Pierce, Fenner & Smith Inc., New York City, was manager of an underwriting group which offered publicly on April 13, $6,000,000 of this company's first mortgage bonds, 4½% series due 1992 at $101.656% and accrued interest, to yield 4.40%. The group was awarded the bonds at competitive sale April 14 on a bid of 100.8079%.

Three other bids were entered, all for 4½s. They were: Halsey, Stuart & Co. Inc., 100.75; Kidder, Peabody & Co., 100.19; and Eastman Dillon, Union Securities & Co., 100.1399.

PROCEEDS—Net proceeds from this financing will be used for construction or acquisition of permanent improvements, extensions and additions to its Gulf Coast Steam Plant and for repayment of short-term bank loans already made in connection with this program.

REDEMPTION FEATURES—The bonds are redeemable at regular redemption prices ranging from 106.16% to 100.22%; and at special redemption prices receding from 101.656% to 100.19%, plus accrued interest.

BUSINESS—The company of 2500 14th St., Gulfport, Miss., supplies electricity at retail in 137 communities in southeastern Mississippi, including Biloxi, Gulfport, Hattiesburg, Laurel and Meridian, as well as in rural areas. It also sells electricity at wholesale to six rural electric cooperative associations.

REVENUE—Operating revenues for the year ended Dec. 31, 1961, were reported at $26,528,000 and net income at $3,895,000.—V. 195, p. 1424.

Montgomery Ward & Co.—Sales Up 6.2%, Earnings Higher—

In reporting an increase of earnings from $1.07 per common share to $1.13 per share for the fiscal year ended Jan. 31, 1962, the Chairman and President of Montgomery Ward told the company's 108,000 stockholders that they believe earnings will continue to improve over those of last year.

Record sales of $1,325,941,281, an increase of 6.2% over those of last year, were reported last month. Earnings of $15,859,096 also were reported as compared with $15,053,599 in the previous year.

In their letter being mailed to stockholders, John A. Barr, Chairman, and Robert E. Brooker, President, stated:

"We believe that our earnings will continue to improve over those of last year. The general economy is stronger, we are benefiting from the new store program of the past four years, and our organization has been strengthened to more effectively promote programs that offer better values and services to our increasing number of customers."

The letter also reviewed the company's expansion program and policies as follows:

"During fiscal 1961, 21 new retail stores were opened, of which 11 were additional stores in markets already served by one or more Ward stores and five were relocations of older stores. Five others were opened in markets new to Wards.

"In the past four years, 22 stores have been relocated, 24 have been established in market areas already served by one or more Ward stores, and 16 new stores were established in 12 metropolitan areas where Montgomery Ward had not previously been represented. As of Jan. 31, 1962 the company was operating 517 retail stores.—V. 194, p. 2227.

(E. R.) Moore Co.—Common Offered—On April 11, 1962 A. G. Becker & Co., Inc., Chicago, and associates offered publicly 150,000 shares of this firm's common stock at $11.50 per share.

Of the total, 60,000 shares were sold by the company and 90,000 by certain stockholders.

PROCEEDS—Net proceeds to the company will be used to repay debt and reimburse its treasury for the acquisition of a service facility in Los Angeles.

BUSINESS—The company is engaged principally in the manufacture and sale or rental of girls' gym suits, academic caps and gowns, and confirmation and choir robes. It serves primarily the school and religious market. Operations are national in scope with regional offices and service facilities in different sections of the country. The company's products are nationally advertised and are all sold or rented under the E. R. Moore name.

The business has operated profitably in each of the 55 years since its was established, and substantially all of its net worth, $2,858,682 at Dec. 31, 1961, represents reinvested earnings. For the year 1961, it reported net income of $386,000, equivalent to 70 cents per share outstanding, on sales and rental revenues of $7,985,000. Sales and rentals have increased in every year for the last 16 years.

The four product lines which the company handles are manufactured in its own factories. Caps and gowns are made primarily for rental, although some sales are made to holders of academic degrees. Rentals provide practically all the revenue from the confirmation robe line, also. Gym suits and choir robes, on the other hand, are manufactured for sale.

The business was founded in 1907 by the father of the present senior officer of the company, and was incorporated in Illinois in 1912. Four members of the family, directly or through trusts, now own all the outstanding stock and, after completion of the present offering, will continue to own approximately 75% of the total outstanding shares.

The company's executive offices are located at 932 Dakin Street, Chicago 13, Ill.

Morton Foods, Inc.—Sales, Net Hit New Highs—

Both sales and earnings of Morton Foods were at record highs in 1961 with net income 52% over the previous year and sales up 23%, G. C. Morton, President, said in a preliminary report.

Net income amounted to $908,303, equal to 45 cents a share on the 2,033,631 shares outstanding Dec. 31, 1961 as adjusted for the 3-for-1 split of the company's shares on Jan. 11, 1962. In 1960 Morton Foods earned $598,752, equal to 29 cents a share on the same number of shares.

The company, which makes and markets potato chips, chip-O'- corn chips, and other snack foods items as well as salad dressings, tea, honey and other products for home and institutional use, had 1961 sales of $18,747,957, compared with $15,260,617 in 1960.—V. 194, p. 637.

NAFI Corp.—Proposed Name Change—

Directors of NAFI Corp. have proposed a change in the corporate name to Chris-Craft Industries, Inc., John G. Bannister, President, announced in the annual report.

Stockholders will be asked to approve the name change at a special meeting to be held concurrently with the annual meeting on April 27.

No change in the business of the corporation or its operating subsidiaries is planned, Mr. Bannister stated.—V. 195, p. 1554.

National Biscuit Co.—Stock Split Approved—

On April 11, shareholders approved a two-for-one split of the company's common and voted to retire its 7% preferred stock.

The actions were taken at Nabisco's 64th Annual Meeting, held at Hotel Commodore. Both the split and the retirement will become effective at the opening of business April 12.

Well in excess of the required two-thirds vote of each class of stock approved retirement of the preferred shares.

Holders of the retired preferred stock, 248,045 shares of which are outstanding, will be entitled to $175 in cash or $175 principal amount of 4¾% 25-year debentures for each share. Instructions will be sent such holders immediately regarding the procedure to follow in obtaining cash or debentures.

Holders of common stock will be mailed the additional shares to which they are entitled on or about May 11. There are 6,745,961 common shares currently outstanding.

Quarterly Report—

President Lee S. Bickmore told shareholders that Nabisco had the best first quarter sales and profits in its history in 1962. Preliminary figures, he said, indicated net sales of $128.2 million, up 8.5% from the 1961 figure of $118.1 million. Earnings for the quarter also increased substantially, from $6,515,558, or 90 cents per common share in 1961, to $7,332,912, or $1.02 per share this year, a gain of 12.5%.

Nabisco's capital expenditures will be approximately $23 million in 1962. A new bakery now under construction in Chicago will have the first of its five ovens in production later this year.—V. 195, p. 1099.

National Cash Register Co.—Stock Subscriptions—On April 12, the company announced that in connection with its offering to common stockholders (which expired April 11) of 319,090 shares of common stock, 311,931 shares, or 97.8%, were subscribed for.

The unsubscribed portion of the offering to shareholders will be offered publicly by the underwriting group headed by Dillon, Read & Co., Inc., New York City.—

Appointment—

First National City Trust Co., New York City, has been appointed trustee and registrar for the company's 4⅜% sinking fund debentures, due April 1, 1987.—V. 195, p. 1554.

National Cleaning Contractors, Inc.—Record Sales, Earnings—

The company set records in sales and earnings in 1961, the most profitable year in its history and the sixth in succession in which the company's gross income and net earnings increased over that of the preceding year, according to the annual report just issued.

Gross income for the year ending Dec. 31, 1961, was $17,453,670, a gain of over 25% over the the previous year's revenue of $13,912,705. Net earnings after taxes last year were $571,703 or 86 cents per share, compared to net earnings of $411,231 in 1960, or 62 cents per share based on 666,667 shares of stock outstanding.—V. 194, p. 1949.

National Equipment Rental, Ltd.—Six Months' Results

The company reported record volume and earnings for the fiscal six month period ended Jan. 31, 1962.

Net income rose 50% to $379,300, amounting to 49 cents per share on the 770,007 shares outstanding.

For the comparable period last year per share earnings equaled 40 cents on net income of $252,700. Shares outstanding numbered 629,712.

Total leases outstanding now amount to $34,411,906 compared to $25,914,641 at the start of the fiscal year, Morris Silverman, President, disclosed in the semi-annual report to shareholders.—V. 194, p. 117.

Navajo Freight Lines, Inc.—Debentures Offered—Pursuant to a March 16, 1962 prospectus, Peters, Writer & Christensen, Inc., and Boettcher & Co., Denver and associates offered publicly $1,500,000 of this firm's 6¼% sinking fund debentures due Sept. 30, 1971 at par and accrued interest from Oct. 1, 1961.

Net proceeds to the company, estimated at $1,383,000, will be added to working capital.

BUSINESS—The company was incorporated in New Mexico on March 1, 1948, as sucessor by merger to Navajo Freight Lines, Inc., a California corporation organized on July 5, 1940. The principal executive offices of the company are located at 1205 S. Platte River Drive, Denver. Navajo Freight Lines, Inc. of Indiana, Brooks Truck Lines, Inc. and San Leandro Freight Lines are all wholly-owned subsidiaries.

Navajo Freight Lines is a common carrier of general commodities by motor vehicle, subject to the jurisdiction of the Interstate Commerce Commission and to the regulatory bodies of the various states in which the company operates. The company is authorized to operate over about 11,500 miles of certificated routes through 14 midwest and western states.

The company has greatly expanded its facilities and operating rights since 1955. As a result of acquisitions and an aggressive sales policy, the company's gross operating revenues have increased from approximately $11,000,000 in 1955 to $29,467,413 in 1961.

J. J. Newberry Co.—Sales Up, Earnings Down—

J. E. Nelson, President of J. J. Newberry which operates over 550 stores from coast to coast, reported results of operations for the fiscal year ended Dec. 31, 1961.

Sales totalled $291,237,091 compared to $265,818,306 the previous year, an increase of $25,418,785.

Total net earnings, including a non-recurring credit of $1,206,194, were $4,692,105, equivalent to $2.36 a share on 1,831,620 shares outstanding, compared to $4,778,893, or $2.42 a share in fiscal 1960.

Operating earnings in 1961 were $3,485,911 equivalent to $1.70 a share. Charged to these earnings—in accordance with Newberry's usual practice—was the cost of opening 27 new stores and remodeling or enlarging 23 other stores.—V. 194, p. 221.

New York, Chicago & St. Louis RR.—Annual Report—

Despite a decline in general business activity, Nickel Plate enjoyed a reasonably good year in 1961, Chairman of the Board L. L. White and President F. S. Hales reported to shareholders in the company's annual report. They said that they are confident the railroad will benefit from an increase in business activity in 1962.

In discussing the proposed merger of the Nickel Plate into the Norfolk & Western Railway Co., Messrs. White and Hales expressed hope that the Interstate Commerce Commission will approve the unification this year.

Nickel Plate's net income of $8,706,000 for 1961, equal to $2.10 per share, was 6.66% of operating revenues of $130,772,000. Four quarterly dividends of 50 cents each—a total of $2 per share—were paid during the year.

Net income of $8,706,000, plus depreciation and retirement charges of $7,017,000 and new capital and proceeds from sale of property of $5,004,000, produced a total of $20,727,000, the Chairman and President told Nickel Plate shareholders. Expenditures included $2,171,000 for improvements and new equipment, $8,345,000 for dividends and $8,672,000 for debt retirement. After giving effect to these expenditures and other transactions, net working capital at Dec. 31, 1961 amounted to $25,165,000, a decrease of $189,000 from a year earlier. Cash and temporary cash investments at the end of 1961 totaled $34,573,000, an increase of $463,000 over Dec. 31, 1960.—V. 195, p. 910.

Nuclear-Chicago Corp.—Earnings Higher—

This manufacturer of radioactivity measuring instruments, neutron generators, and nuclear gauges, reported net earnings of $205,696 compared with $190,749 for the same period of last year. The earnings figures for last year have been restated and the related tax provisions adjusted to include the results of operations of Texas Nuclear Corp. for the period so the figures are comparable with this year.

Earnings per share amounted to 17 cents compared with 16 cents based on 1,178,514 shares outstanding at Feb. 28, 1962. The gain in net profit resulted from an increase of 11% in shipments. During the same period new orders increased 25% above the level of the prior year.—V. 194, p. 1723.

Oxford Finance Companies, Inc.—Securities Offered—Blair & Co., Inc., N. Y. C., on April 11, 1962, announced the initial public sale of this firm's common stock through the offering of 200,000 shares, at $5 per share.

The Oxford Finance Co., Inc., is also offering $1,716,200 of its 7% capital notes with attached common stock purchase warrants, in exchange for certain long-term debt of the company's wholly-owned subsidiaries. In addition, $283,800 of 7% capital notes with warrants are being purchased by Blair & Co., Inc., as underwriter, for sale to the public.

PROCEEDS—Net proceeds from the financing will be used by the company to increase the amount of its outstanding loans to customers and to finance the acquisitions of additional small loan and sales finance concerns.

BUSINESS—The company of 6701 N. Broad St., Philadelphia, was incorporated in June 1961 to acquire, manage and operate, as wholly-owned subsidiaries, Oxford Industrial Corp., Oxford Loan Co. of East Falls, Inc. and Oxford Loan Co. and its subsidiaries. The company is engaged in the small loan business, and purchases installment sale paper from merchants arising from the retail sale of household goods, merchandise and other property and the rendering of services. At Dec. 31, 1961, the company had six operating units of its small loan business in Philadelphia and one office in that city for the conduct of its sales finance business. It also operates a small loan business in Souderton, Pa.

REVENUES—On a consildated basis, for the year 1961, operating revenues of the company and its subsidiaries amounted to $935,627 and net income was $178,224.

Pacific Power & Light Co.—Bonds Offered—Halsey, Stuart & Co. Inc., New York City, was manager of an underwriting group which offered for sale on April 12, $35,000,000 of this firm's first mortgage bonds, 4¾% series due April 1, 1992 at 101% and accrued interest, to yield approximately 4.69%. The group won award of the bonds at competitive sale April 11 on a bid of 100.02%.

Other bids for the bonds, all as 4¾s, came from Eastman Dillon, Union Securities & Co. and Kidder, Peabody & Co., jointly, 99.949; Lehman Brothers, Bear, Stearns & Co. and Salomon Bros. & Hutzler, jointly, 99.20, and Blyth & Co. and White, Weld & Co., jointly, 99.14.

PROCEEDS—Net proceeds from the sale of the bonds, together with other funds, will be applied to the company's construction program for 1962 and 1963, and to retire bank borrowings incurred in financing temporarily the company's construction program. Estimated construction expenditures in 1962 and 1963 will be $100,000,000.

Prior to April 1, 1967, the bonds will be redeemable at 107.75% scaled down thereafter to par in the last year; and at special redemption prices receding from 101% to par, plus accrued interest in each case.

BUSINESS—The company of 920 S. W. Sixth Ave., Portland, Ore., primarily supplies electric power in the states of Oregon, Wyoming, Washington, California, Montana and Idaho. Service is furnished in more than 240 communities; population of the service area is approximately 1,400,000. A small portion of the company's operating revenues is derived from its steam heating, telephone and water operations.

UNDERWRITERS—The purchasers named below severally have made a firm commitment, subject to certain conditions precedent, to purchase from the company the respective principal amounts of the new bonds set opposite their names.

Pepsi-Cola Co.—Sales, Earnings Higher—

The company in 1961 recorded the highest sales and earnings in its history, President Herbert L. Barnet revealed in the company's annual report.

Net sales for 1961 were a record $173,854,426 compared with $157,672,258 in 1960.

Net income for 1961, after taxes and adjustment for foreign activities, amounted to $14,368,035 compared with the previous high in 1960 of $14,180,705.

This is equal to $2.21 a share on 6,509,055 common shares outstanding at the end of 1961 as compared with $2.18 a share on 6,495,955 common shares outstanding at the end of 1960.—V. 194, p. 2337.

(Chas.) Pfizer & Co., Inc.—Record Sales, Net—

Record breaking sales and earnings and significant progress in world-wide product diversification marked the 1961 operations of Chas. Pfizer, shareowners are told in the pharmaceutical and chemical company's annual report.

John E. McKeen, Pfizer President, notes in the report that Pfizer's world-wide sales increased $43.1 million during the year, totaling $312,433,262 in 1961 against $269,376,092 in 1960. Established Pfizer pharmaceutical, chemical and agricultural products accounted for $19.1 million of the year's increase, as sales for these product lines increased for the 12th consecutive year.

Outstanding gains were recorded for the Pfizer antibiotics Terramycin and Tao and for Diabinese, the company's widely accepted oral antidiabetic drug. Organizations acquired during 1961 added $24.0 million to the year's total sales volume.

Earnings rose $5.3 million in 1961, totaling $31,442,905 against $26,183,317 in 1960. Per share earnings were equivalent to $1.74 for 1961 on an average 17,979,474 common shares outstanding. Per share earnings in 1960 were $1.58 on an average of 16,456,461 shares of common stock outstanding during that year. Dividends distributed to shareowners totaled $15.4 million. At the end of 1961, Pfizer was owned by over 75,000 common shareowners.—V. 195, p. 1100.

Phoenix Steel Corp.—Reports Net Loss For Year—

The corporation announced that net sales for the year ended Dec. 31, 1961, amounted to $39,010,000. This compares with $37,782,000 in the previous year.

After all charges and a tax carry-back credit of $1,374,000, operating results for the year showed a net loss of $5,014,000, equal to $4.63 per share on the 1,083,758 shares of common stock outstanding. Depreciation for the year amounted to $2,421,000. In 1960, the net loss amounted to $1.81 per share. A tax carry-forward loss in excess of $4,400,000 is available against future earnings.—V. 195, p. 911.

Pierce & Stevens Chemical Corp.—Sales, Net Down—

For the year to Dec. 31, 1961, Pierce & Stevens reported consolidated net sales of $8,050,654 and net earnings of $554,319 after tax, equivalent to 85 cents a share on 651,850 capital shares outstanding at the year-end. This compares with 1960 net sales of $8,314,067 and net earnings of $615,584 after tax, or 95 cents a share on 651,050 capital shares outstanding at the 1960 year-end.—V. 195, p. 52.

Polymer Corp.—Sales Up 6.5%, Net Down—

Record sales for the corporation in the fourth quarter of 1961 and for the year as a whole are reported by Louis L. Stott, President, in the annual statement to shareholders. Despite a general recession early in the year, sales for 1961 rose 6.5% to $8,555,000, from the previous record $8,029,000 attained in 1960, Mr. Stott reports. The encouraging business improvement in the closing quarter appears to be carrying over into 1962 operations, he adds.

Consolidated net earnings before taxes for the year ended Dec. 31, 1961, amounted to $362,800. Net income after all taxes and charges totaled $166,000 and is equal to 22 cents a common share, based on the 739,544 shares of stock outstanding at year-end. In 1960 net earnings before taxes were $937,600, with the net income after taxes amounting to $478,000, or 65 cents a share on the same share basis, adjusted for a 3% stock dividend paid in 1961.—V. 195, p. 1320.

(H. K.) Porter Co., Inc.—Net Down, Sales Higher—

Net income of the company for 1961 declined from that of 1960, the company announced in its annual report. Total net sales for 1961 were slightly higher than in 1960 as reported in the company's income statement, but the report noted that the increase was chiefly due to the consolidation for the first time of results of foreign subsidiaries.

Net income for 1961 was $3,458,311 or $2.04 a common share compared with 1960 earnings of $4,093,525 or $2.57 a common share. Net sales for 1961 totaled $242,157,668, compared with $231,131,488 for 1960. Cash flow, an important financial yardstick based on earnings plus depreciation, was $9.41 a common share in 1961 compared with $9.45 a share in 1960.—V. 195, p. 1597.

Appointment—

First National City Bank, New York City, has been appointed registrar for the corporation's common stock.—V. 195, p. 1707.

Producers Cotton Oil Co.—Common Offered—Kidder, Peabody & Co., Inc., New York City, and Dean Witter & Co., San Francisco, headed an underwriting group, which offered publicly on April 12, 200,000 shares of this firm's common stock at $14 per share.

BUSINESS—The company of 2907 S. Maple Ave., Fresno, Calif., is a grower, processor and seller of raw cotton and cottonseed products. It will use the proceeds of this financing to acquire additional cotton-producing lands.

Producers Cotton Oil and subsidiaries own 55,000 acres and lease 55,000 in the San Joaquin Valley. It operates 42 cotton gins in the valley and 16 more in central and southern Arizona. It has cottonseed processing mills at Fresno, Phoenix, Ariz., and Calipatria, Calif.

REVENUES—Total income in the eight months ended Feb. 28, 1962, was $24,986,000 compared with $23,192,000 in the eight months ended Feb. 28, 1961. Net earnings in the more recent period were $1,393,000, equal to $1.68 a common share, compared with $1,426,000, or $1.72 a year ago. For the year ended June 30, 1961, total income was $33,420,401 and net earnings were $1,208,840, or $1.46 a common share.

DIVIDENDS—The company has paid cash dividends on common stock since 1937, except for the year 1952. The last payment was 15 cents in March, 1962, for the third quarter of the fiscal year ending June 30, 1962. In addition, the company paid stock dividends of 2% in 1960 and 3% in 1961.—V. 195, p. 526.

Puerto Rico Capital Corp.—Appointment—

Schroder Trust, New York City, has been appointed registrar for the corporation's common stock.—V. 195, p. 1707.

Puerto Rico Telephone Co.—Revenues, Net Higher—

The company reported net income for 1961 of $2,422,188, a gain of $334,692 over 1960.

After increased preferred dividends and with a greater number of common shares outstanding, earnings per common share declined to $2.87 in 1961 compared with $3.31 in 1960, based on the number of shares outstanding at the end of the respective years.

Operating revenues for 1961 amounted to $12,959,531, an increase of $1,910,420 over the previous year, with 1961 operating expenses, including taxes, increasing by $1,690,929 over 1960 to total $10,342,507. The increase was attributed mainly to a rise in the number of employees, higher payroll costs resulting from wage increases and higher depreciation provision on more plant in service.

Sosthenes Behn II, President of the company, disclosed that the original $52,000,000, five-year program approved in 1959 has been stepped up and now is expected to involve more than $100,000,000 to be spent during the five years 1959-1963.—V. 194, p. 1427.

Puget Sound Power & Light Co.—Annual Report—

The company's residential customers enjoyed one of the highest standards of electric living in the nation during 1961, according to the annual report, just published.

Kilowatt-hour sales increased 6.85% and operating revenues climbed to a new record of $41,023,182, up 10.5% over the previous year. The greater use of electricity was aided by an expansion of electric home heating and the addition of 8,331 customers. The company's peak load rose from 693,000 kilowatts in 1960 to 801,400 kilowatts in 1961.

Puget's residential customers consumed nearly two billion kilowatt-hours of electricity in 1961—a record average of 9,288 kilowatt-hours per customer, or more than twice the national average. The report points out that 76% of these customers used an average of 11,376 kiowatt-hours during the year. An average increase of 306 kilowatt-hours per customer in 1961 ranked the company third nationally among 111 investor-owned utilities reporting to the Edison Electric Intsitute.

"It was a favorable year of progress for Puget in view of gradual business recovery and above-normal temperatures in our service area, which reduced output," reported J. H. Clawson, company President. "However, due to the issuance of additional shares of common stock in February and March 1961, per share earnings of $2.11 on average shares for 1961 were slightly below 1960 (when $2.12 per share was earned). Dividends paid, on the other hand, increased from $1.50 to $1.56 per share, up 4%—V. 194, p. 1616.

Pullman Inc.—Revenues, Net Down—

Consolidated revenues of the company for 1961 amounted to $346,719,307 compared with $425,167,735 in the previous year, it was reported in the company's annual report. Income before provision for income taxes amounted to $10,958,865 for 1961 and to $23,848,501 in the prior year. Net income after all charges and tax provisions was $6,091,865, equivalent to $1.33 a share, in contrast to 1960 net income of $12,065,501, or $2.63 a share.—V. 194, p. 428.

Purity Stores, Inc.—Sales Up 3%, Net Down—

Purity Stores reported an increase in sales of 3% to $105,217,358 for the fiscal year ended Dec. 30, 1961, it was announced by Mr. J. R. Niven, President of the large California food chain. Earnings for the 52 week period were $292,051, equal to 42 cents per share of common stock, as compared to $420,486 or 61 cents per share in 1960.

Included in 1961 earnings are capital gains of $246,631 or 37 cents per share which have resulted from the sale of real estate. During 1960 capital gains amounted to $165,681 or 24 cents per share.—V. 194, p. 892.

Quaker City Industries, Inc. — Common Offered—On April 12, 1962, M. J. Merritt & Co., Inc., New York City, Allen J. White & Co., Inc., East Providence, R. I., and Suburban Investors Corp., Uniondale, L. I., N. Y., offered publicly 87,500 shares of this firm's common stock at $4 per share. Net proceeds, estimated at $265,500, will be used for plant relocation, equipment, advertising, promotion and research, and working capital.

BUSINESS—The company of 234 Russell St., Brooklyn, N. Y. is a New York corporation organized on Nov. 9, 1945. The company has two wholly owned subsidiaries, both New York corporations, Quaker City Metal Products, Inc., formed on July 25, 1956 and Dana Metal Fabricators, Inc., formed on March 3, 1953.

The company is engaged in the manufacture, design and sale of various types of metal cabinets, boxes, housings, jackets, boiler and radiator enclosures, for use in heating, ventilating, construction and electrical industries, and specialty items such as metal lockers, filing systems, cabanas and pre-fabricated garages and storage houses.

This was a 3.4% increase over 1960 net income of $7,288,554 or $2.71 per share on the 2,680,745 shares of common stock then outstanding.

Nineteen sixty-one sales were up 2.8% to $217,893,488 from the 1960 figure of $211,975,708.—V. 194, p. 640.

Rheem Manufacturing Co.—Shows Loss For 1961—

Although domestic sales of Rheem Manufacturing increased in 1961 and international sales reached record high levels, drastic industry-wide price wars in important product lines were major factors in an operating loss of $3,941,943 for the year, according to the annual report.

The loss for 1961 was equivalent to $1.98 a common share, and compared with a loss of $2,730,908, or $1.38 a common share, in 1960.

"The company currently is operating at a profit as a result of a consolidation program that is improving our operating efficiencies," A. Lightfoot Walker, President, said in a statement.

Domestic sales of Rheem improved to $125,175,747 in 1961 from $122,556,002 the previous year.—V. 194, p. 2664.

Rochester Capital Leasing Corp.—Units Offered—Pursuant to a March 22, 1962 prospectus, Saunders, Stiver & Co., Cleveland, Ohio, and associates, offered publicly $625,000 of this firm's 6% convertible subordinated debentures, due March 1, 1972, and 100,000 shares of its class A stock. The offering was made in 12,500 units. Each unit, priced at $90, consisted of $50 principal amount of 6% debentures and 8 shares of class A stock. Net proceeds, estimated at $957,000, will be used for debt repayment, expansion and other corporate purposes.

BUSINESS—The company was incorporated under the laws of the State of New York on Oct. 25, 1961, and maintains executive offices at 8 Jay St., Rochester, N. Y. As of Oct 26, 1961, the company acquired all of the outstanding capital stock of Rochester Stationery Co. Inc., National Contract Supply Corp. and Hardwood House, Inc. from various individuals in exchange for 200,714 shares of class B stock and 10,000 shares of class A stock of the company.

The company is engaged in the sale to industrial companies, utilities, schools, hotels, bowling centers, hospitals, commercial enterprises and others of furnishings, furniture, equipment and supplies, systems and procedures, industrial shop equipment, school seating and library furniture, and engineering supplies and equipment, almost all of which is purchased from others. Approximately 6% of the company's gross sales for the year ended Dec. 31, 1961 were derived from the sale of a line of hotel and library furniture designed and manufactured by the company. The company maintains an interior design and space planning staff consisting of three employees to implement the sales activities in the various fields in which it operates.

The company has recently entered the leasing field wherein the company provides leases under two programs. Under the first program, the company, acting as a "single source," supplies a complete package of interior design, space planning, furnishings and any of its other products to its customers under leases ranging from two to ten years. Under the second program, which is not necessarily related to the leasing of any of the equipment manufactured or sold by the company, the company provides financing through leases of any equipment to credit-approved customers.

Schenley Industries, Inc.—First Half Net Down—

Schenley Industries reported net profit for the six months ended Feb. 28, 1962 of $5,530,984, including special credits amounting to $786,883.

This compared with net profit in the six months ended Feb. 28, 1961 of $6,343,160.

On the shares of common stock outstanding at Feb. 28, 1962, earnings for the current six months were approximately 89 cents a share after provision for preference stock dividends. Of this, 76 cents a share came from operations and 13 cents from special credits. This compares with $1.03 from operations in the same period the previous year.—V. 195, p. 53.

Slick Airways, Inc.—Proposed Name Change—

Stockholders of Slick Airways at the annual meeting to be held on April 16, 1962 in the company's San Francisco headquarters will be asked to approve a proposal to change the corporate name to The Slick Corp.

The name change was proposed because Slick now operates in two divisions—the airline division, which is composed of air operations and facilities of Slick Airways, and the industrial division, which presently consists of the manufacturing and distribution facilities of the Illinois Shade Cloth Co.—V. 195, p. 1143.

Southern Union Gas Co.—Partial Redemption—

The company has called for redemption on May 1, 1962, through operation of the sinking fund, $93,000 of its 4¼% debentures due May 1,1976 at 100.49%. Payment will be made at the Northern Trust Co., Chicago.—V. 195, p. 447.

Space Age Materials Corp. — Air Force Buys New Metal Sample—

The company has announced that the U. S. Air Force recently purchased 10 ounces of the new SAMCO 120 at $1,000 per ounce for evaluation tests. The company anticipates an order from the Army for a test quantity of SAMCO 6 for thermo-nuclear applications and the Navy has informed the company of promising test results on SAMCO 17.

Standard Oil Co. (New Jersey)—Annual Report—

In 1961, for the first time, the company had a gross production of crude oil and natural gas liquids totaling more than a billion barrels a year, the company said in an annual report mailed to its more than 715,000 shareholders.

M. J. Rathbone, President and Chief Executive Officer, and Leo D. Welch, Chairman of the Board, told shareholders that new records were also set in other major phases of Jersey's worldwide operations, including volumes of oil refined, petrochemicals manufactured, and sales of petroleum products and natural gas.

"The results of the year," they said, "were especially gratifying prevailing in the world oil industry. This competition has called for further improvements in our operational and organizational efficiency. That we have been successful is evidenced by our improved prospects.

As estimated earlier, Jersey's consolidated net earnings in 1961 were $3.50 per share, compared with $3.18 per share the year before. Net income for 1961 was $758,000,000, a 10% increase over that of 1960.

Primarily responsible for the gain in 1961 earnings, the report said, were the increased volume of products sold, an even greater increase in the production of crude oil and natural gas, and lower units operating costs.

Product sales again reached a new high, increasing 4% to 3,294,000 barrels a day. Refinery runs were up 9% to 3,129,000 barrels daily, with gains abroad more than offsetting decreased runs in the United States.—V. 194, p. 574.

(E. B.) Stone Finance Co., Inc.—Notes Sold Privately—On April 10, 1962 it was reported that $750,000 of this firm's senior notes due 1977 and $250,000 of its junior subordinated notes due 1977 had been sold privately through Michelman & Hanf, New York City.

Sunset House Distributing Corp.—Common Offered—On April 5, 1962, Crowell, Weedon & Co., Los Angeles, and associates offered publicly 120,000 shares of this firm's common stock at $16.25 per share.

Net proceeds from the offering went to the selling stockholders and no portion thereof was received by the company.

(James) Talcott, Inc.—Earnings Forecast—

The company has estimated net earnings for the first quarter of 1962 at $1,400,000, an increase of 19% over the $1,172,818 earned in the first quarter of 1961.

Herbert R. Silverman, Board Chairman and President of the major commercial finance company, in reporting to stockholders at Talcott's annual meeting, said he estimated earnings for the first quarter of 1962 at 49 cents per common share. This compares with 43 cents per common share for the first quarter of 1961 on a lesser number of shares after giving effect to the 2-for-1 stock split in April, 1961. He said the company's loss reserve had been increased $350,000 in the first quarter of 1962.

Receivables financed and factored by Talcott during the first quarter of 1962 totaled $385,000,000 as compared with $317,000,000 in the first quarter of last year, Mr. Silverman reported. He said current demand for the company's funds and financial services was excellent and expects this trend to continue during the remainder of the year.

Talcott and its subsidiaries provide commercial financing, factoring, industrial time sales, rediscounting and equipment leasing.—V. 195, p. 1255.

Tennessee Gas Transmission Co.—Debentures Offered—Stone & Webster Securities Corp.; White, Weld & Co., and Halsey, Stuart & Co. Inc., New York City, headed an underwriting group, which offered on April 10, 1962, $75,000,000 of this firm's 5% debentures, due April 1, 1982, at 101 to yield 4.92%. The issue was quickly sold.

The debentures are non-refundable at a lower rate of interest for a period of five years. Otherwise they are redeemable at the company's option at prices ranging from 106% to 100% and for the sinking fund at prices ranging from 101% to 100%.

BUSINESS—Headquartered in Houston, the company and two of its subsidiaries operate an extensive gas transmission system for the delivery of natural gas in certain northeastern and midwestern states. Another subsidiary, Tenneco Corp., is engaged directly and through subsidiaries in the production, refining and marketing of petroleum and petroleum products and in certain other non-utility businesses. Proceeds from this issue will be added to general funds, to be spent in connection with the expansion of both pipeline and other operations and for the repayment of $10,000,000 notes.

The main Tennessee Gas pipe line system begins in the natural gas producing areas of Texas and Louisiana and extends into or across Arkansas, Mississippi, Alabama, Tennessee, Kentucky, West Virginia, Ohio, Pennsylvania, New York, New Jersey, Massachusetts, Connecticut, Rhode Island and New Hampshire. On Dec. 31, 1961, it included 11,273 miles of pipe lines and had design delivery capacity of 2,617,000 MCF of gas per day.

A subsidiary, Midwestern Gas Transmission Co., operates two pipe lines systems—a total of 902 miles with total daily delivery capacity of 549,000 MCF, extending into certain of the North Central States. Another subsidiary, Tennessee Natural Gas Co., operates a 791-mile pipe line system in Tennessee.

REVENUES—Consolidated operating revenues in the year ended Dec. 31, 1961, were $619,392,000. Gross income was $101,748,000 and net income $54,007,000. In 1960, operating revenues were $554,707,000, gross income $95,977,000 and net income $61,570,000.

See Union Oil Co. of California, this issue.—V. 194, p. 681.

Trygon Electronics, Inc.—Common Offered—On April 5, 1962, William, David & Motti, Inc., New York City and associates offered publicly 100,000 shares of this firm's common stock at $6 per share. Of the total, 52,000 shares were sold for the company and 48,000 for certain stockholders.

Net proceeds to the company will be used for working capital and the purchase of additional equipment.

BUSINESS—The company was organized in April, 1959, under the laws of the State of New York, and Ira L. Kasindorf, Paul Todd and Peter J. Reuter, the principal executive officers of the company, may each be considered a "parent" and "promoter" of the company as that term is defined pursuant to the Securities Act of 1933. The company's offices and plant are located at 111 Pleasant Ave., Roosevelt, Long Island, New York.

The company designs, manufactures and sells power supplies used in a wide range of electronic equipment. The power supplies manufactured by the company convert and modify electrical energy to produce the characteristics required for the operation of other electronic equipment.

Among other applications, Trygon power supplies are employed in industrial test equipment, precision instrumentation, computers and other data processing equipment, communication systems, military training devices, radar and missile control systems, and industrial automation equipment.

Union Oil Co. of California—Proposed Acquisition—

The company and Texas National Peroleum Co., have reached agreement for Union to acuire all of the oil and gas producing properties, undeveloped acreage, and related assets of Texas National, according to a joint announcement by Reese H. Taylor, chairman of the board of Union, and Ralph A. Johnston, chairman of the board of Texas National. Texas National will receive approximately $54 million from this sale, of which $49 million will be from the sale of reserved production payments. Texas National is reserving current assets estimated to be in excess of $3 million.

The sale is subject to approval by Texas National's shareowners on May 29, 1962, to completion of financial arrangements, and receiving a favorable tax ruling from the Internal Revenue Service.

Texas National currently produces 4,700 barrels per day of crude oil and condensate and 40 million cubic feet per day of natural gas. Major oil production comes from the Rangely Field in Colorado, from Garland and other fields in Wyoming, and from several fields in West Texas. Most of the gas production is from the San Juan Basin in the Four Corners area. Primary and secondary net reserves are estimated at 35 million barrels of oil and condensate, and 660 billion cubic feet of gas.

As part of the transaction, Union will acquire 350,000 undeveloped acres, located mainly in Texas, Wyoming, Colorado, and New Mexico. In addition, Union will acquire Texas National's newly completed office building in Houston, Texas, and an interest in a natural gasoline plant in Colorado.

To Expand Drilling Operations—

The company plans an immediate expansion of its drilling operations to evaluate the 77,500 net acres it acquired in the recent sale of federal leases in the Gulf of Mexico, it was announced.

Union's offshore lease purchase was said to be the largest single investment in exploratory acreage the company has ever made.

Union was the successful bidder on 120,000 acres which, after deducting varying partnership interests, amounted to 77,500 net acres. These cover twenty-four 5,000-acre tracts located on 17 different

During the seven years Union has been active in the Louisiana offshore area, 16 of the 24 exploratory wells it has drilled (by itself or in partnerships) have resulted in oil or gas discoveries.

Thirty-six field wells have been drilled to develop these discoveries with 30 completed as successful producers.

Union's net production from its offshore properties in 1961 amounted to 29,801,369,000 cubic feet of gas, 416,614 barrels of crude oil and condensate and 92,589 barrels of gas liquids.—V. 195, p. 1598.

United States Steel Corp. — Announces Steel Price Increase—

On April 10, 1962 the company announced steel price increases averaging $6 a ton effective at midnight. The company termed the increase a "catch-up" adjustment amounting to about three-tenths of a cent a pound. It was the first rise by the company since 1958.

U. S. Steel said the increase would affect all its principal products, as well as those of its three operating divisions—American Steel & Wire, National Tube, and Tennessee Coal & Iron.

A company spokesman said semi-finished forging quality carbon steel would go up $6 a ton to $104. Semi-finished rerolling quality carbon would also be increased by that amount to $83.50, and carbon steel tube rounds to $127.50.

Last week the company became the first in basic steel to sign a new two-year contract with the United Steelworkers of America. The contract, backed by the Administration as non-inflationary, by-passed a wage increase the first year.

The other members of the "Big 11" quickly fell into line and signed.

Leslie B. Worthington, company President, said that since 1958 "the level of steel prices has not been increased, but if anything, has declined somewhat." He added:

"This situation, in the face of steadily mounting production costs, which have included four increases in steel worker wages and benefits prior to the end of last year, has been due to competitive pressures from domestic producers and from imports of foreign-made steel.

"Nevertheless, taking into account all the competitive factors affecting the market for steel, we have reluctantly concluded that a modest price adjustment can no longer be avoided in the light of the production cost increases that have made it necessary."

The labor contract includes a wage-opener clause in the second year. It is estimated that the contract will cost the industry 10 cents an hour a man.

"If the products of United States Steel are to compete successfully in the marketplace, then the plants and facilities which make those products must be as modern and efficient as the low-cost mills which abound abroad, and as the plants which turn out competing products here at home," Mr. Worthington said.

"Only by generating the funds necessary to keep these facilities fully competitive can our company continue to provide its customers with a dependable source of steel and to provide its employes with dependable jobs.

"But the profits of the company, squeezed as they have been between rising costs and declining prices, are inadequate today to perform this vital function."—V. 195, p. 1366.

Universal American Corp.—Proposed Acquisition—

The corporation has announced that it entered into a contract to acquire for investment approximately 130,000 of the presently outstanding shares of the common stock of Bohn Aluminum & Brass Corp. Both Universal American Corp. and Bohn Aluminum & Brass Corp. are listed on the New York Stock Exchange.—V. 195, p. 1366.

Vassar Corp.—On April 11, 1962, J. R. Williston & Beane, New York City, and associates offered publicly 124,900 shares of this firm's common stock at $10 per share. Of the total, 55,000 shares were sold for the company and 69,900 for three stockholders.

PROCEEDS—Net proceeds to the company will be used for plant expansion, additional equipment, repayment of debt and working capital.

BUSINESS—The company is engaged in the design, manufacture and distribution of aids for hair styling such as hair curlers and rollers, wave and pin curlers, clips, chignons, hair nets, combs, brushes, barrettes and allied lines. In addition, the company manufactures and markets a line of eyebrow pencils, eye liners and lip liners. The company's products are distributed on a nationwide basis directly and through wholesale distribution channels to drug chains, supermarkets, variety and general merchandise chains, and independent retail outlets for use by ultimate consumers. Manufacturing facilities and executive offices are maintained at 585 Gerard Ave., New York 51, N. Y., and showroom facilities at 38 East 30th St., New York, N. Y.

Vitro Corp. of America — Receives AEC Uranium Contract—

The Atomic Energy Commission has announced that it has signed a contract with Vitro Corp. for the purchase of uranium concentrate to be produced in Vitro Chemical Co.'s processing plant at Salt Lake City, Utah. The contract, which was executed by AEC's Grand Junction, Colorado office, provides for a maximum delivery rate of 920,000 pounds per year of U_3O_8 for the two calendar years ending Dec. 31, 1963, which at a price of $8 per pound amounts to $7.4 million annually for each of the two years.

The Salt Lake City mill is primarily a custom operation, producing concentrates from ores independently mined in the general geographic area. The contract provides that, if additional eligible ore is available in the area, the term can be extended until Dec. 31, 1966.

The AEC's first contract with Vitro for the purchase of uranium concentrate produced in this mill, was signed in October 1951 and has been extended several times. In addition to these processing operations, Vitro Minerals Corp., a partially-owned subsidiary, has separate uranium mining operations in Wyoming where it supplies 120,000 tons of uranium ore annually to Susquehanna-Western, Inc., under a contract extending to 1966.—V. 195, p. 1025.

Water Industries Capital Corp.—New Investment—

The company has announced the investment of $400,000 in debentures of Spenard Utilities Inc. of Anchorage, Alaska.

The ten-year, 6% subordinated debentures are convertible into 200,000 shares of the private water company's common stock, equal to 44% of its outstanding shares.

Spenard Utilities Inc. is an Alaskan corporation formed recently to install and operate a special year-round water system for the fast growing suburban areas about Anchorage.—V. 194, p. 2274.

Westinghouse Air Brake Co.—President Forecasts Higher Sales—

Sales of Westinghouse Air Brake in the first quarter of 1962 will exceed sales in the first quarter of last year, A. King McCord, WABCO President, told shareholders at the firm's annual meeting. Profits, he said, will approximate those of 1961's first quarter.

WABCO's consolidated backlog at the beginning of this year was $74 million, compared to $57 million at the end of 1960, Mr. McCord reported. Sales for 1962 are expected to run ahead of those of 1961, he said.

Improvements over the past five years in the company's financial strength and in cost reductions were noted. Bank loans and long-term debt were reduced from $62,879,000 to $33,673,000, a reduction of $29,206,000 in that period. At the same time, he said, the cash position increased from $13,625,000 to $20,481,000, an increase of $6,856,000.

On Dec. 31, 1961, ratio of current assets to current liabilities was 5.1 to 1, and shareholders equity was $28.52 per share, an increase of $4.72 since 1956. The company paid cash dividends in this period amounting to $25,183,000, a figure which represents 52% of total earnings during the period.

Mr. McCord in discussing cost control, pointed out that the comparison of 1961 net sales and percent of net profit to sales with average sales and rate of profit during the prior four years was revealing. This calculation, he said, shows that sales in 1961 were 19% less than the average of the prior four years, but the per-cent of net profit to sales in 1961 was slightly above the average percent of profit to sales in the prior four-year period.

The improvement in financial strength and confidence in the future earning power of the company led directors to increase the annual dividend rate from $1.20 to $1.40 per share, he said. The first payment at the new rate was mailed to shareholders on March 15.—V. 195, p. 1263.

(John) Wiley & Sons, Inc.—Common Offered—White, Weld & Co., Inc., New York City, as manager of an underwriting group, announced the offering on April 13, of 150,022 shares of this firm's common stock at $17.50 per share. The offering marked the initial public sale of the company's stock, and did not represent new financing, as the shares were sold by certain selling stockholders.

BUSINESS—The company, of 440 Park Avenue, New York City, was incorporated in 1904 as the successor to a general publishing business originally established by Charles Wiley in 1807. The company's principal business is the publication and distribution of texts for college, postgraduate and adult education courses, and professional books for the practicing engineer, scientist and social scientist, and research and reference books such as monographs, encyclopedias, dictionaries, handbooks and symposia. Its list of approximately 2,450 available titles covers a wide range of science, engineering and the social and behavioral sciences. The company also publishes and sells subscriptions to six scientific journals and four abstract services edited by qualified scientists.

REVENUES—For the year ended Dec. 31, 1961, the company and its subsidiaries had consolidated net sales of $13,178,878 and consolidated net earnings of $822,317, equal to 71 cents per capital share.—V. 195, p. 1255.

Worldwide Fund Ltd.—Common Offered—Pursuant to an April 9, 1962 prospectus, Burnham & Co., 15 Broad Street, New York City, offered publicly 100,000 shares of this Fund's common stock at an initial offering price of $100 per share. Subscriptions will be accepted only in minimum lots of 100 shares. When the Fund shall have invested any proceeds from the sale of its shares, the continuing offering price of its shares will be at net asset value.

The Fund is a non-diversified open-end management investment company and its shares are redeemable at 98% of net asset value in cash or portfolio securities.

BUSINESS—The Fund was incorporated under the laws of Bermuda on May 19, 1961, pursuant to an Act of the Bermuda legislature as an open-end nondiversified management investment company, and as of April 19 has not engaged in any business activities.

The Fund was formed to provide a convenient investment vehicle for financially capable investors to participate in foreign investment opportunities through a management informed on foreign conditions and investments. In the opinion of the Fund, direct access to foreign markets by American investors is, in certain instances, inhibited by lack of familiarity with foreign financial practices and the complexities in establishing overseas brokerage connections and arrangements for the transmission of funds; more important deterrents to American investors are, at times, the language barrier, the lack of familiarity with foreign accounting practices, and the lack of access to informational data concerning foreign enterprises. The Fund, in its opinion, will not be similarly disadvantaged.

It has long been the opinion of the incorporators of the Fund that there exist in foreign countries attractive investment opportunities that are relatively unnoticed or not fully appreciated by the American investor. Such investments may involve certain additional risk resulting among other things, from foreign currency regulations, political instability or local economic dislocation. The portfolio of the Fund will be chosen with these factors in mind and, among other things, an effort will be made to diversify the portfolio geographically so as to lessen their impact. No representation can be made, of course, that the adverse effect of one or more of these factors can be averted.

The Fund has been designed, among other things, to afford to its United States resident shareholders certain tax advantages, under existing United States tax laws, resulting from its incorporation under the laws of Bermuda. However, the House of Representatives passed on March 29, 1962, a tax bill which, if enacted in its present form, would eliminate these tax advantages and would make specific provisions for the taxation of United States resident shareholders in such a corporation as the Fund. So long as the present tax law governs, the Fund intends to accumulate and reinvest net earnings and realized capital gains from its investments rather than to distribute them to shareholders as dividends or capital distributions. The Fund will not be subject to United States income tax upon such earnings and realized capital gains derived from non-United States sources, either under the law as it presently exists or under the bill adverted to above. It will not be subject to any Bermuda tax, other than a nominal corporate tax. There can be no assurances, of course, of any net earnings or capital gains, or that Bermuda will not change its tax laws.

The present tax advantages will be eliminated if the proposed tax legislation as presently before the Congress is enacted, and a different policy in respect of the distribution of net income and realized capital gains will be required in order to avoid detrimental tax consequences to United States shareholders. Therefore, if these, or similar, legislative proposals are enacted, it will be the policy of the Fund to distribute as dividends not less than 90% of its net earnings in each year, and all of its realized capital gains.

Net proceeds to the company, estimated at $444,000, will be used for the repayment of debt, purchase of equipment, research and development, advertising and working capital.

BUSINESS—The company was incorporated on Feb. 23, 1956 under the laws of the State of New Jersey. The company is engaged in the development, manufacture, compounding, packaging distribution and sale of ethical pharmaceuticals, proprietary (nonprescription) drugs, vitamins, veterinary products and time disintegration capsules.
