The Trust was organized under District of Columbia law in May 1961 for the general purpose of investing in commercial real estate such as shopping centers, apartment developments, office buildings, and in mortgages secured by real estate. It intends to qualify as a real estate investment trust under the Internal Revenue Code. As its initial investment, the Trust intends to acquire for $189,750 a 60% ownership interest in Prince George Towers, an apartment building to be constructed in Hyattsville, Md.; and the net proceeds from the sale of the first 40,000 shares is intended to be used principally for such purchase. Investor Service Inc., which is the Trust's investment manager and advisor, previously entered into a joint venture agreement with Sidney Poretsky, owner of the land on which the apartment is to be constructed, whereby the joint venture will acquire the land; and the Trust, which has the option to acquire the interest in the joint venture from Investor Service, will own a 60% interest for a contribution of $189,750, and Poretsky will own the remaining 40% for his contribution of the land. Investor Service will receive, in consideration for its assignment of the option to the Trust, reimbursement for its $10,000 initial cash payment to the joint venture. Poretsky is to construct the apartment building using mortgage funds ($735,000) available to the joint venture and the cash capital contributions by the Trust, including any additional contributions which he is obligated to make if needed to complete the building.

The Trust will be managed by its Trustees who will consult with its Advisory Board concerning Trust business. The Trustees (Henry J. Fox, Wales H. Jack and John R. Steelman) have each agreed to purchase 200 shares at $5 per share, and they and the five members of the Advisory Board will each receive warrants to purchase 2,000 shares at $5.50 per share until 1972. Assuming all class A shares are sold and certain outstanding notes, as well as class A shares, are converted into class B shares, present stockholders (and noteholders) will own 60% of the outstanding stock for cash and assets totaling $25,933 and the public will own 40% for an investment of $400,000. Sale of the new stock to the public at $10 per share will result in an increase in the book value of stock now outstanding (assuming said conversions) from 28 cents to $3.98 per share with a resulting dilution of $6.02 per share in the book equity of stock purchased by the public.

Corporate and Municipal Financing Ahead

By SIDNEY BROWN

A modestly paced calendar of public offerings due this week is highlighted by CONSOLIDATED EDISON CO. of New York's competitive $100 million first and refunding mortgage bonds. The total dollar volume of senior fixed interest rate capital sought this week amounts to $253,042,000 consisting of $73,747,000 in 26 larger municipals ($1 million or more); $198,747,000 in two competitive corporates; and the balance in underwritten corporates.

The plummeting downward trend in equities scheduled to appear, but subject to being scratched as have so many when coming up to bat, are few in number this week.

The 28-day visible float as well as the total definitive backlog of both corporate and and tax-exempts show a marked decline, and portend a quiet new-issue summer if additions to the backlog are not forthcoming. Two weeks remain in the corporate sector for SEC filings which may avoid the quarterly requirements of new financial statements. What may occur will depend greatly on the great unknown factor of the market's behavior. So long as it revalues itself lower and lower, equity financing plans will be shelved. Bonds, however, of good quality are rapidly falling off in the float, and conditions in and outside of the stock market augur well for top pricing of new debt capital issues.

The backlog tables below are inflated to the extent that they include equities which are held over but have not been identified as postponed. As soon as an issue is identified as postponed, it is taken out of the active backlog and placed in the indeterminate table. Some issuers or their underwriters go to great lengths to avoid any association of their offering with the term—whether temporarily or indefinitely postponed.

As has been our practice in the past, commencing weeks before the market break, and which is continued below, figures are provided as to the latest developments in postponed and withdrawn issues. Last week, however, there were 17 securities which had assigned tentative target dates of two weeks ago removed. This has been typical for some issues even when the market was reaching "for the sky," but not as many as had been the case before the DJIA collapse. Among the issues whose tentative target dates were removed are: COLUMBIA BANCORPORATION's $30 million conv. sub. debentures and 1,500,000 shares of common *via* Bear, Stearns & Co., and Allen & Co.; IDEAL TOY's 490,000 shares of common *via* White, Weld & Co.; ALL-STATE PROPERTIES' $5 million convertible sub. debentures; and COMPUTER CONTROL's 157,500 shares of common *via* Kidder, Peabody & Co.

Three issues that were removed from the postponed category and returned to the active backlog tables were: FINANCIAL FEDERATION's 75,000 capital shares *via* Kidder, Peabody, and McDonnell tentatively indicated for July; KAVENAU CORP.'s cumulative preferred and common stock purchase warrants *via* Hayden, Stone & Co. tentatively expected the first week of July; and TACTAIR FLUID CONTROL's 90,000 shares *via* Stroud & Co., and Penington, Colket & Co. for early July. NEW ENGLAND ELECTRIC SYSTEM made history last week when it rejected competitive bids and went ahead with its rights offering of 872,786 shares of stock to expire June 29. Previously it was in the postponed category.

$100 MILLION CONSOLIDATED EDISON AND $30 MILLION AUSTRALIAN BONDS ARE WEEK'S LARGEST ISSUES

The Treasury again invades the money market today with a deadly persistency of selling more bills than maturing ones in order to decrease the price and raise the yields. For the third time in three weeks running it will seek $200 million in new cash. This is the 18th time since the year began that the Treasury has raised new "bill cash" and it adds up to roughly $2.1 billion. Today's auction takes in $1.3 billion 91-day bills and $700 million 182-day bills in exchange for $1,802,246,000 coming due. The Federal Reserve reversed itself last week, as of Wednesday, and sold $321 million in bills and left the rest of its portfolio unchanged. Now, it is playing the nudging game except to the extent it did not buy government bonds—which, in today's bond market, do not require pegging.

The capital market contains no scheduled larger issues for today (June 18). Tuesday, however, will be dominated by the above mentioned CONSOLIDATED EDISON CO. of NEW YORK AA-rated $100 million first and refunding mortgage competitive bonds with five-year call protection; Bear, Stearns may go ahead and offer 262,500 shares of KINNEY SERVICE CORP. common in a combined offering for owners and the company.

Tomorrow's bigger tax-exempts are: $9 million city and county HONOLULU, HAWAII; and $4,350,000 HORNELL CITY SCHOOL DISTRICT, N. Y.

Scheduled for Wednesday (June 20) is the Morgan Stanley $30 million COMMONWEALTH OF AUSTRALIA bonds rated triple B by S&P's and A by Moody's with 10-years' protection against redemption. Either the same day or next, Kidder, Peabody, G. H. Walker, and Julien Collins & Co. are expected to bring out PET MILK CO. sinking fund debentures rated A and nonrefundable for five years in the amount of $20 million. The significant tax-exempts are: $6,929,000 STATE OF ALASKA, and $3,945,000 ALEXANDRIA, VA.

Thursday (June 21) has been designated by CINCINNATI GAS & ELECTRIC CO. for competitive bids on its $25 million first mortgage bonds rated triple A with no call protection. INDIANAPOLIS SANITARY DISTRICT, IND. will seek bids for its $8.1 million issue; and MACON, GA. $7.5 million.

During the week Dean Witter may put forth PAY'N SAVE CORP. $1.2 million convertible subordinated debentures and 40,576 shares of common, and 102,050 shares of MARIN COUNTY FINANCIAL CORP. capital. Also, Scherck, Richter may offer $2 million PARKVIEW DRUGS, INC. convertible subordinated debentures.

POSTPONED ISSUES CONTINUE TO MOUNT

Last week's tally of postponed issues rose to 92 from the prior week's 82. The dollar value of $403,500,000 of two week's ago, however, dropped last week to $395,701,000 because several large postponed issues, including MORTON SHOE STORES, and MARADEL PRODUCTS, subsequently were withdrawn. In addition, three others, noted above, went the other way into the active backlog. Recent significant postponements were: $25 million KINGDOM OF NORWAY, and WALLACE INVESTMENTS, both managed by Harriman Ripley; last week's tallied SCHLUMBERGER LTD. *via* Morgan Stanley; METROPOLITAN REALTY TRUST *via* Eisele & King, Libaire, Stout & Co.; KREEDMAN REALTY & CONSTRUCTION CORP. *via* Lee Higginson Corp.; HARDLINES DISTRIBUTORS *via* McDonnell & Co.; and DULANY INDUSTRIES *via* Blair & Co.

	June 14	June 7	May 24	May 17	May 10	Apr. 12	Yr. Ago
No. of postponements	92	82	62	45	37	6	2

Unlike this week's expected flotation of an Australian issue, the KINGDOM OF NORWAY bonds were postponed because of their lower rating and the poorer reception accorded some foreign bonds contrary to the bullishly avid response for better bonds generally. The following shows what has happened to some recent foreign securities floated here:

FIRST HALF YEAR WITHDRAWALS COMPARED

This and next week remain before the first half of this year ends. Within two months of the year's beginning, the stock market showed a fluctuating downward trend culminating in the unpredicted (no one is taking forecasting honors) and precipitous Black-Gray Monday-Tuesday of May 28-29. The SEC's excellent Division of Corporate Finance and its Statistics Department were kind enough to double check the following withdrawal tabulation. The dollar volume figures stem from the S.E.C.'s filing fees and, to the extent of the market's decline, they exaggerate what would be the 1962 market value figures. Also, there's no other way of knowing the value of equity filings by companies that had never gone public before. The following rough measure, nevertheless, should show one of the effects of the market's pursuit of realistic capitalization ratios. Note that in 1962 almost all the withdrawals occurred prior to the effective date whereas in 1961 11 out of 58 were taken out after the effective date. The combined total of 1962's equities withdrawn and postponed approximate $910 million which is larger than the current active stock float by $62 million.

The highest sales and earnings in the 65 year history of A. J. Industries (formerly Alaska Juneau Gold Mining Co.) have been reported for the 12-month period ended March 31, 1962.

Sales for the 1961-62 fiscal year totaled $29,545,193, compared with $22,530,793 for the fiscal year ended March 31, 1961, C. J. Ver Halen, Jr., President, announced.

Earnings before Federal and foreign income taxes for the annual period just completed totaled $2,473,693, or 77 cents a share (including a non-recurring gain of $809,712 or 25 cents a share), compared with $433,055, or 17 cents per share, recorded in the previous year, an increase of 471%.

The increase in stockholders' equity from operations of the 12 divisions and subsidiaries amounted to $1,809,638, or 56 cents a share.

This was composed of net income amounting to $799,026, or 25 cents a share, based on 3,220,862 shares outstanding at year end, a non-recurring gain of $268,112, or eight cents a share, and $742,500 or an additional 23 cents a share which, because of the comoany's claimed tax loss carry-forward, was credited to capital surplus in lieu of Federal income taxes.

For the preceding year ended March 31, 1961, net income was $235,055, or nine cents a share based on 2,535,338 shares then outstanding, and $235,000, or an additional nine cents a share, was credited to capital surplus because of the company's claimed tax loss carry-forward.

Operations of The Sargent Engineering Corp., were included in the financial results of the 1961-62 fiscal year from the October 1961 date of acquisition. The operations of B & N Mobile Home Door Co., Inc., acquired July 1960; Lansing Co. and Jessup Door Co., acquired August 1960, were included in the financial results for the fiscal period just completed, and from date of acquisition in the 1960 period. The operations of Roberts-Gordon Appliance Corp., acquired December 1960 in a pooling of interests, were included for both the current and the year earlier period.

The current outlook indicates the 1963 fiscal year will surpass the past fiscal period, said Ver Halen. He reported that sales are continuing to climb, and that unaudited reports for the first month showed a jump from $1,946,811 in April 1961 to slightly more than $3,000,000 in April 1962. Unaudited pre-tax profits during the first month were up from $103,635 during April 1961 to more than $200,000 in April 1962.

American Metal Climax, Inc.—Proposed Merger—

Plans for a three-way merger of American Metal Climax, Kawneer Co. and Apex Smelting Co. were announced by Frank Coolbaugh, Lawrence Plym, and William Bayer, Presidents of the three companies.

Terms of the merger have been negotiated by the officers of the companies, but conclusion of the transactions awaits further investigation by the three companies, approval of the board of directors of each and, also, approval by the shareholders of each. It was emphasized that conclusion of the negotiations and ratification by the directors and stockholders might take several months.

In the proposed merger the stockholders of Kawneer and Apex would be given shares of a new convertible preferred stock in Amax. Amax has no convertible stock issued at present. This new issue will consist of $100 preferred stock with a dividend of $4.25 per year and convertible into 2½ shares of Amax common stock. Kawneer stockholders would exchange three shares of Kawneer common stock for each share of this new Amax preferred stock. Kawneer has 1,019,065 shares issued and under option. Apex stockholders would exchange about 2.22 common shares for each share of the new Amax convertible preferred stock. Apex has issued and under option 212,092 common shares.

American Metal Climax, with its associate companies, is a major metal company which mines, refines and markets molybdenum, potash, copper, lead, zinc and other minerals throughout the world. Applied Capital Science Corp.—Investment—

This Denver small business investment corporation announced an investment of $60,000 in Maryland-manufactured "boats that fly."

The sporty passenger runabouts are manufactured by AquaGEM Corp., a subsidiary of National Research Associates Inc. of Laurel, Md.

The 32-foot, 40-mile-per-hour, 1,500-pound-payload vehicles, of sleek contemporary design, travel inches above the surface of the water and can be driven over a beach, thus eliminating dock facilities. They are basically designed for use on inland waterways.

AquaGEM has initiated production of the three types of boats—the Air Sport which sleeps four, the Air Liner which carries nine passengers and the Air Carrier, a two seater cargo boat.

Applied Science Capital Corp.'s investment agreement gives it a position of up to 47% equity in AquaGEM Corp., and 14% in National Research Associates, according to Frank R. Cook, ASCC President. The basic investment, he said, is in 8% capital notes.

ASCC was licensed in October 1961 under the Small Business Investment Act and has made six investments in the fields of fire and wear resistance coatings, missile components, fibre glass manufacture, chemical products markeitng and air-eushion vehicles. ASCC specializes in technical fields.

Arizona Public Service Co.—Appointment—

Bankers Trust Co., New York City, has been appointed co-registrar and co-paying agent for interest for the company's first mortgage bonds, 4.45% series due 1992.—V. 195, p. 2700.

Associates Investment Co.—Acquisition—

Motorola, Inc. has sold its wholly-owned subsidiary, Motorola Finance Corp., to Associates Financial Services Corp., a subsidiary of Associates Investment Co., South Bend, Indiana, which operates 540 offices throughout the country and has assets of $1¼ billion. Announcement was made jointly by Edwin P. Vanderwicken, Motorola Vice-President, and O. C. Carmichael, Jr., Associates board chairman.

"The move was made," Mr. Vanderwicken said, "to improve the financing service available to Motorola customers, with no change in rates or terms, and at the same time enable the parent corporation to devote itself exclusively to financing future expansion and diversification of its electronic product lines.

"Motorola's finance company has grown rapidly since its formation in 1956 and its assets exceeded $41,000,000 at the end of 1961," Mr. Vanderwicken said. "The rapid expansion of its present business and the additional financing that will probably be required suggest that it may reach the $100,000,000 mark in not too many years.

"At the same time we expect our sales and our product lines to expand and this will require substantial financing," Mr. Vanderwicken said. "We think it's better to stick to our electronics last and let companies in the finance business handle financing as their specialty. Their widespread coverage and their economies from large-scale operation add advantages for our customer and us.

"We have sensed a change in outlook of the national finance companies," Mr. Vanderwicken said. "Their interest in diversifying their business and reducing their dependence on automobile financing has resulted in a new interest in meeting the sales financing problems of otner manufacturers. In the past, many captive finance companies have been formed because the service available from national finance companies was inadequate. We believe Associates' Investment particularly has shown an enlightened interest in filling this vacuum and we are pleased to have their services available to our customers."

The principal activity of Motorola Finance Corp. has been the financing of leases and conditional sales contracts for Motorola's two-way mobile radio customers, according to the announcement. "This financing service will continue to be carried on by the same personnel as a subsidiary of Associates Investment Co.," according to Mr. O. C. Carmichael, Jr. "By virtue of the widespread and diversified financing activities of Associates, the servicing of Motorola customers will be improved."

A minor activity of Motorola Finance Corp. has been the wholesale financing of Motorola distributors and dealers who handle consumer products—television, phonographs, and radios. "This financing service can best be administered through widespread field personnel who are available in the 540 offices of The Associates," Mr. O. C. Carmichael, Jr. said.—V. 195, p. 2700.

Atico Financial Corp.—Appointment—

The Chase Manhattan Bank, New York City, has been appointed transfer agent for the common stock of the corporation.—V. 195, p. 2593.

Atlantic Coast Copper Corp. Ltd.—Partial Redemption

The corporation has called for redemption on July 4, 1962, through operation of the sinking fund, $150,000 of its 6¼% debentures due July 4, 1970 at 100%. Payment will be made at any branch in Canada of the Bank of Montreal.

Automatic Retailers of America, Inc.—First Half Net Up Sharply—

Sharply higher revenues and earnings were registered gy Automatic Retailers in the first half of the current fiscal year, President Davre J. Davidson announced June 8, 1962.

Total income rose to $91,632.725 in the six months ended March 31, 1962. In the like period last year total income amounted to $31,918,105.

Net income, after full reserve for Federal income taxes, increased to $2,041,951. For the first half of fiscal 1961, net income amounted to $953,262.

Per share earnings rose to 70 cents in the most recently completed period, compared with 40 cents in the like period a year earlier. Common shares outstanding at March 31, 1962, amounted to 2,929,332 compared with 2,383,157 at the same time last year.

"Since some of A.R.A.'s divisions are not consolidated in last year's operating totals, direct comparisons should not be made," Mr. Davidson noted. He pointed out, however, that per share results are directly comparable reflecting the actual number of shares outstanding at the end of each period.

Mr. Davidson stated that the company's record operating results reflected diversification into expanding institutional food service markets such as schools and hospitals. Also, he announced that the company in fiscal 1962 was again increasing its investment in new vending equipment by 40%.—V. 195, p. 2485.

Bacardi Corp.—Appointment—

First National City Bank, New York City, has been appointed transfer agent for the common stock of the corporation.—V. 195, p. 1309.

Barden Corp.—Six Months' Net Lower—

Earnings of this manufacturer of precision ball bearings, mechanisms and subassemblies were $465,829 for the six-month period ended April 30, 1962, compared to earnings of $532,411 for the first half of 1961, it was announced by J. Robert Tomlinson, President.

Net earnings for the six months, subject to year-end audit, were 59 cents per share on 796,018 shares outstanding.

In making the announcement Tomlinson said, "Sales volume showed strength and backlogs increased during the second quarter. Earnings were affected by lower bearing prices and by the move of the Lacey Co., a Barden owned subsidiary, to its new location in Bridgeport, Conn. Since early April bearing prices have stabilized at a higher level and it is expected that this combined with a stronger market will result in improved earnings in the last two quarters."—V. 195, p. 635.

Bargain Town, U. S. A. Inc.—Sales Up 63%; Net 43%

For the quarter ended April 30, 1962, the company reported sales of $4,303,058 compared to $2,638,455, or an increase of 63%. Net income for the same period climbed from $73,588 to $105,275, or 43%. The April quarter is traditionally the slowest of the year and is, therefore, not necessarily indicative of the full year's results.

At the company's annual meeting, Solomon S. Dobin, President, pointed out that Bargain Town was "looking forward to as good a report for the following quarters as the one presented now.

"In the immediate future," he added, "we plan to open one store this year and we have hopes that we will be able to open another. Two more outlets are also being planned for next year, and another two for 1964." He further commented that acquisitions were being considered and that several prospects have been investigated.

In its expansion plans, Bargain Town does not intend to depart far afield from its basic concept of discounting, Mr. Dobin emphasized.

For the fiscal year ended Jan. 31, 1962, net income of $858,549, or 70 cents a share, was reported on total volume of $21,558,097, exclusive of leased concessions.—V. 194, p. 1715.

Bayuk Cigars Inc.—Acquisition—

The company has purchased for cash the Walter Williams Candy Co. located in Oklahoma City, Okla. The new wholly owned subsidiary makers of the nationally known Bunte brand as well as the general line of Williams Candies will be operated under its present management.

E. Archie Michkin, President of Bayuk Cigars Inc., commented, "The Walter Williams Co. complements the acquisition of the Mason, Au and Magenheimer Confectionery Manufacturing Co., Inc. of one year ago. An interchange of ideas plus the technological and marketing know-how of the parent company will benefit all Bayuk subsidiaries." —V. 193, p. 2693.

Behlen Manufacturing Co.—Net Down Slightly—

The company has reported net earnings of $103,126, or 9.6 cents per share, after taxes on sales of $2,658,958, for its first quarterly period ended May 20, 1962. This compares with earnings of $109,092 or 10.1 cents per share on sales of $2,850,382 during the same period last year.

President Walter D. Behlen termed the sales and earnings as satisfactory in consideration of the inclement weather which delayed operations during the early part of the quarter. He noted that the sales pattern strengthened considerably toward the end of the quarter and is continuing strong in the second quarter. Recent rains across much of the sales area should further the sales potential for the farm products division, according to Behlen.

"Construction of commercial and industrial buildings began very late in the season," Behlen stated. "We expect to overcome the slight reduction recorded in the first quarter with the strong sales pattern now appearing for all products. A year ago the favorable weather allowed us to have a record first quarter.—V. 194, p. 1156.

(J. I.) Case Co.—Shows Profit for Quarter—

A second quarter net profit of $311,738 was announced in a report to shareholders by this manufacturer of agricultural and industrial tractors and equipment. This profit is in contrast to a loss of $700,805 for the corresponding period in 1961.

The profit, the first shown by Case in any fiscal quarter since 1959, is after adjustment for an exchange loss of $400,000 resulting from the recent devaluation of the Canadian dollar by the Canadian Government.

The loss for the first six months of the 1962 fiscal year was $2.6 million as compared to $1.8 million for 1961. Net wholesale sales to dealers for the initial six months in 1962 were $59.4 million as compared with $72.0 million in the same period last year.

Merritt D. Hill, President of Case, in his letter to the shareholders stated, "Retail volume by our dealers in the first half of the year indicates that we will make significant strides in the reduction of inventory at company and dealer levels in the remainder of the year, which augurs well for the future. Sales of industrial products in North America are ahead of last year by approximately 15%. Our current loss should be reduced by the end of this fiscal year."

Hill further stated that Case Credit Corp. borrowings were reduced by $3 million during the second quarter and currently such borrowings are $6.8 less than at the beginning of the fiscal year.

In his letter Hill reviewed the previously announced appointment of R. J. Miller as Vice-President of Engineering, Research and Testing and that of Henry Crossen, staff assistant in manufacturing and quality control functions. He also reported that J. C. Freeman, executive vice-president, is studying the company's export and foreign operations in an effort to improve its situation in the world markets.

"After 90 days on this assignment here in Racine," Hill concluded, "I am more optimistic and enthusiastic about the future of Case than when I agreed to take on this job. We are working deligently on plans and programs for fiscal 1963 which are designed to improve our operations in every area of company activity."—V. 195, p. 520.

Celotex Corp.—Six Months' Results—

Net sales of the Celotex for the six months ended April 30, 1962 were $25,546,287 resulting in a loss from operations of $1,232,032 after Federal income tax credit. For the comparable period a year ago, the company reported a net loss from operations of $197,411 on sales of $28,522,739 and a net non-recurring gain on the sale of fixed assets of $1,238,984 for a total net income of $1,041,573.

Developments in subsequent months of that year required a change in the treatment of the provision for taxes, principally that portion applicable to the non-recurring gain on the sale of fixed assets. After taking such adjustments into consideration, the total net income for that period amounted to $582,573 or 44 cents per share on the 1,028,651 shares of common stock then outstanding. These adjustments were reflected in the comparative statement of income for the nine months ended July 31, 1961, and in the annual report for the 1961 fiscal year.

Henry W. Collins, President, in his letter to stockholders, said, "While gypsum products and some of our other lines are registering improvements over the previous year, the demand for our principal line, insulating fiberboard products, has not shown comparable market strength. This relatively lower demand for fiberboard products has resulted in extremely depressed prices which began to decline early last year and which continued downward to the point where almost half of our volume of insulating fibreboard products is now being sold at prices lower than those existing during any of the past 10 years. Much of this condition has been brought about by over-capacity in the insulating fiberboard industry. Some strengthening in our prices for these products is anticipated as a result of the encouraging trend in housing starts reported for March and April.

"Another factor contributing to the lack of earnings thus far this year stems from certain labor difficulties at our largest plant, which is located at Marrero, La.

"In recognition of the losses incurred by the company during the early months of the year, the directors deemed it necessary to omit the dividend on the common stock which normally would have been declared at the March meeting of the board.

"Late in the second quarter of this year Celotex acquired 80% of the stock of Cweco Industries, Ltd., a manufacturer and distributor of accustical products in Canada. This newest subsidiary, located in Toronto and operating throughout the Canadian provinces, will henceforth be known as Canadian Celotex-Cweco Industries, Ltd. The previous management remains unchanged, and the company expects its Canadian operations to benefit materially as a result of this acquisition.—V. 195, p. 1314.

The corporation has called for redemption on July 6, 1962, $147,000 of $147,500 of its 6% 15-year sinking fund debentures dated July 1, 1957 at 102%. Payment will be made at the Ohio National Bank, Columbus, Ohio.—V. 186, p. 623.

Citizens Utilities Co.—Net Up 12%—Stock Incr. OK'd

Per share earnings in the first quarter of 1962 once again set a new high in the company's history, Richard L. Rosenthal, President of the nationwide, multi-service utility, told shareholders at the annual meeting. He noted that this was the 18th year in a row of record March quarter earnings.

Net income for the three months ended March 31, 1962 was $469,198, or 20 cents per share, on the 2,368,663 shares of common stock outstanding. This was a gain of 12% in per share earnings over the 1961 first quarter net of 18 cents per share. For the 12-month period ended March 31, 1962, net income and per share earnings also set a new record for the 18th consecutive year. Earnings were $2,114,934, or 91 cents per common share, a gain of 12% over earnings of 81 cents per share for the year-earlier 12-month period ended March 31, 1961. Citizens had earlier reported record calendar year 1961 per share earnings of 89 cents per share, 13% higher than 1960 and the 17th successive annual new high in the company's history.

Mr. Rosenthal also advised shareholders that earnings progress continues through the first five months. He further pointed out that the 68 cents per share present annual dividend rate—up 13% from 1961—established in the first quarter of this year, marked the company's 16th increase in annual dividend distributions in the past 17 years.

On June 8 shareholders approved an increase in the amount of total authorized common stock of the company from 6,600,000 shares —3,000,000 series A and 3,600,000 series B—of the par value of 16⅔ cents each, to 16,000,000 shares—7,000,000 series A and 9,000,000 series B—of the par value of $1 each. This action had been recommended by the Board of Directors, in order to provide additional authorized shares.

Mr. Rosenthal also advised shareholders that Citizens' acquisition program continues to move forward. Citizens increased its total of acquisitions to 62 through purchase of 17 more utility properties in 1961 and four in 1962 to date. On April 4, he advised, Spring Valley Water Co., a subsidiary of Citizens Utilities Co., secured the right exclusively to serve the entire proposed 27,000-acre development area of Corona de Tucson, adjacent to Tucson, Arizona. Part of the large Corona de Tucson development has been committed to a retirement settlement called the Baptist Golden Years Community, which will draw its residents from the 10 million-member Southern Baptist Church. The Baptist portion of the development will feature a retirement community similar to the Del Webb development near Phoenix, whose water and sewerage utilities were acquired by Citizens earlier in 1962. Other sections of the Corona de Tucson area will be developed as conventional residential housing areas to keep pace with the demand in the fast-growing Tucson area.

Mr. Rosenthal pointed out that other properties are constantly being brought to Citizens' attention, and that when these meet Citizens' criteria of growth and fit properly into the company's philosophy of progress for investors, Citizens will acquire them. It is anticipated that additional properties will be acquired during the balance of the year, he said.

Mr. Rosenthal also stated that in the period from 1956 to March 31, 1962, in which Citizens' per share earnings had more than doubled, the plant accounts of properties purchased aggregated $12,300,000 at dates of acquisition and that plant added to such acquired properties subsequent to acquisition totaled an additional $10,400,000, an aggregate of $22,700,000. He noted that properties acquired since 1946 are estimated to produce approximately 23% of Citizens' total anticipated revenues in 1962.

Mr. Rosenthal told the meeting there is every indication at this time that this year Citizens' growth and per share earnings progress will continue.

Citizens Utilities Co. now provides electric, natural and manufactured gas, water and telephone service to over 102,000 customers in more than 400 communities in Arizona, California, Colorado, Idaho, Illinois, Indiana, Maine, Ohio, Pennsylvania and Vermont.—V. 195, p. 1426.

Clarise Sportswear Co., Inc.—Annual Report—

Clarise Sportswear achieved a 260% gain in earnings on a 16% increase in sales for the year ended Dec. 31, 1961, Donald W. Jacobson, President, told shareholders in the annual report.

Net sales of Clarise were $5,539,030, up 16% from $4,760,593 in calendar 1960. At the same time, net earnings amounted to $187,808, a 260% gain from $52,242 in the previous year. Per share earnings, reported Mr. Jacobson, were 42 cents on 449,500 shares outstanding on Dec. 31, 1961. This compared with 12 cents per share for 1960, based on the same capitalization.

In addition, earnings from the company's 50% equity ownership in Clarise International Corp. amounted to 2 cents per common share. For the first seven months of operation ended Dec. 31, 1961, Clarise International showed net sales of $561,485 and net income of $20,957.

For the first quarter ended March 31, 1962, Clarise reported significant gains in sales and earnings over the comparable period a year ago. Net sales amounted to $1,597,059, up from $1,394,902 for the three months ended March 31, 1961. Net earnings were $54,460 or 12 cents a share on the 455,214 common shares outstanding. Although earnings figures for the first quarter of 1961 (when the company was still privately owned) are not available, Mr. Jacobson indicated that net earnings for the first quarter of 1962 were approximately 33% ahead of the comparable period last year.—V. 195, p. 974.

EBS Development Corp., a subsidiary, has purchased for cash the assets of the Lindsley Lumber Co., Miami, Florida, and its affiliates, George G. Walker, President of Bond and Share, announced. Amount of the purchase price was not disclosed.

Lindsley Lumber Co., founded and developed as a family enterprise by the Lindsleys, operates 29 "do-it-yourself household supermarkets" in southern and central Florida and sells a complete line of building materials to contractors in the same area. These outlets offer a full line of retail building materials, hardware, gardening and other "do-it-yourself" supplies. Sales in 1961 were in excess of $17,000,000.

Twenty-three of the retail stores are located on the east coast from Melbourne, just south of Cape Canaveral, down to Key West. The remaining six are on the west coast in Tampa, St. Petersburg and Clearwater. A central supply yard is located at Dania, just south of Fort Lauderdale, with subsidiary warehouses at Tampa and Hialeah.

To take over the assets of Lindsley Lumber Co. of Florida, a new Delaware corporation with the name of Lindsley Lumber Co. has been formed and all its stock has been purchased by EBS Development Corp., it was reported. Both the wholesale and retail businesses will continue to be known as Lindsley Lumber.

Kidder, Peabody & Co. Inc., New York City, assisted in completion of the Lindsley transaction.

Lindsley Lumber is the first acquisition made by EBS Development Corp. Electric Bond & Share established this subsidiary last year for the sole purpose of acquiring managing and developing businesses. In providing additional capital and augmenting managerial talent, Bond and Share believes it can make a constructive contribution to the growth of the companies which it acquires.—V. 195, p. 2379.

Epko Shoes, Inc.—Appointment—

Harris Trust & Savings Bank, Chicago, has been named transfer agent and the First National Bank of Chicago, registrar for the common stock of the corporation.—V. 195, p. 2490.

Fischer & Porter Co.—Net Up 63% for Year—

This Warminster, Pa., company reported record consolidated shipments and earnings for the fiscal year which ended April 30. Earnings for this world-wide manufacturer and designer of industrial process control systems showed a striking increase—up 63% on a 5% increase in shipments.

R. Henry Seelaus, Vice-President of Finance, said shipments of the company and consolidated subsidiaries in the United States and Canada rose from $19,089,000 in 1961 to $20,108,000. Incoming orders rose 13% from $19,353,000 to $21,800,000 while profits after taxes rose from $455,000 to $743,500. With 449,126 common shares outstanding, earnings per common share were $1.52 compared with 88 cents in 1961 on the same number of shares currently outstanding.

The increase in profits is largely attributable, according to the company, to a change in the company's marketing policy. This policy places added emphasis on complete process control system installations for complex industrial requirements, including packaged or built-to-order sensing devices to measure and control flow, temperature and pressure.

The company noted a particular increase in sales to the petroleum, chemical, paper and food industries. The greatest gains, however, have been made in sales to the water and waste treatment markets where Fischer & Porter is the only company able to offer both automatic control systems and chemical feeding equipment.

Final operating figures have not yet been received from the company's foreign subsidiaries in England, France, The Netherlands, Germany, Mexico and Australia. It is estimated that net shipments of foreign subsidiaries for the fiscal year ending April 30, 1962, will approximate $2,560,000 compared to $1,900,000 in the previous year. Net profits will probably be $128,000 against a 1961 net of $167,000. —V. 194, p. 317.

Obtains Mortgage Loan—

An additional $2,300,000 mortgage loan from The Penn Mutual Life Insurance Co. has been granted to this manufacturer and designer of industrial process control systems, it was announced by R. Henry Seelaus, Vice President of finance. The total mortgage loan now outstanding from Fenn Mutual is $3,000,000.

Payable in fifteen years at 5⅜% interest, the loan will be repaid in fourteen installments beginning June 1, 1964.

The loan, according to Mr. Seelaus, postpones for some time the need for any equity financing. At the company's 1961 annual meeting, the possibility of equity financing was mentioned as a way to carry out the company's continuous expansion needed to keep pace with Fisher & Porter's steady growth.

A total of 118,000 square feet of operating space has been built and added to Fischer & Porter's Warminster facilities in less than two years. Plant expansions are also being planned or are underway for the company's foreign subsidiaries in England, France, The Netherlands, Germany and Mexico.—V. 194, p. 317.

Flo-Tronics, Inc.—Sales at Record—

Record sales of $1,243,000 were reported here by Flo-Tronics, for its first quarter period ended April 30, 1962.

In the quarterly report released to some 2,000 stockholders of the company, William P. Edmunds, President, noted the continuing profitable second year trend for the first quarter of the firm's third year.

Net earnings for the period were $37,410 after taxes. The report showed a gross profit of $247,809 with an operating profit of $56,428. —V. 191, p. 1217.

Florida Capital Corp.—Makes Long-Term Loan—

This Palm Beach, Fla. corporation has extended $450,000 of long-term financing to Pulte-Strang, Inc., Detroit general contracting and development firm currently building the Waterway Estates community at Fort Myers in Southwest Florida.

The funds, extended as a six-year secured loan, will be used by Pulte-Strang's two wholly-owned subsidiaries, Pulte-Strang of Florida and Aqua Utilities Corp., to refinance short-term loans and complete the 1,000-acre community along the Caloosahatchee River directly opposite Fort Myers.

Under the agreement, Florida Capital, one of the nation's leading Small Business Investment Companies, will receive warrants to purchase 250,000 shares, equal to 25% equity in the Detroit parent corporation, a public company.

Smith noted the company now has about 16 thousand shareholders, an increase of some 3 thousand from the end of the fiscal year, Jan. 31. He said that on May 29, the day following the break in market prices, purchase orders for shares of the company totalled nearly $1 million, with one individual order amounting to $700 thousand. Until then, he said, the largest single individual investment in the company was the half-million dollar purchase made a few months earlier.

May Department Stores Co.—New Subsidiary OK'd—

On June 5, stockholders of May Department Stores approved a proposal to form a separately operated real estate company, The May Realty & Investment Co., with 5,068,178, or 72.8%, of the 6,958,005 outstanding shares being voted in favor of the proposal.

Morton D. May, President, told stockholders that the May company will proceed to organize May Realty and Investment. He said it will probably take until early next fall to complete the many legal documents, leases and other details involved in carrying out the proposal, which calls for May Realty and Investment to purchase shopping centers and certain other properties from the May company as the nucleus for expanding into real estate activities beyond those related directly to the May company's department store business.

"It will, therefore, be later in the fall," Mr. May said, "before our directors are able to act on the first of the two contemplated dividends in stock of May Realty and Investment to May company common stockholders—which two dividends will aggregate approximately 15% of the outstanding stock of May Realty and Investment. We expect to act on the second of these dividends early in 1963. These dividends will not have any effect on the payment of cash dividends on our common stock.

"May Realty and Investment will be a soundly financed company. If its activities expand as we anticipate, the May company and its stockholders will realize proportionate benefits that we would not be able to obtain by direct action on the part of May Department stores."

The May Department stores Co. operates 50 downtown and branch department stores and six regional shopping centers. May Realty and Investment, Mr. May explained, is to acquire ownership of all of the May company's shopping center interests as well as the buildings housing 10 of its stores, two of them downtown, and a downtown garage. In addition, he said, May Realty and Investment will acquire ownership of parts of the buildings occupied by three other downtown stores as well as certain service buildings and other store facilities.

"Six of our remaining stores are now owned by a wholly-owned subsidiary of the May company called the May Stores Realty Corp.," Mr. May said. "We will continue to own 100% of this subsidiary. The other stores—a large majority of the total—will continue to be owned by the May company, or leased from others."

Mr. May said that the results from the company's new "Store of the Future" program "have been encouraging." He said the company has converted substantial areas in a number of stores "to convenience or check-out selling of such merchandise as housewares, appliances, toys, drugs and economy lines of apparel and accessories. We are bringing more of our stores into the program this year.

"We are also moving ahead with strong fashion merchandising in line with that key part of 'Store of the Future' program. We plan to start construction of several branch department stores this year. Each will be designed to carry out the merchandising concept around which our 'Store of the Future' program is built. Each will allow customers optional methods of shopping for different kinds of merchandise."

Ohio Oil Co.—Acquisition—

This Findlay, Ohio company, marketer of Marathon petroleum products, has acquired substantialy all the assets of Fletcher Oil Co., Inc., Gary, Indiana, according to Eugene J. McGarvey, Manager of Ohio Oil's Branded Sales Department.

The transaction becomes effective June 5, 1962, converting Fletcher Oil's facilities into a direct marketing operation. Fletcher Oil has been associated with Ohio Oil as a distributer of Marathon products since early 1945. Its operations will be directed from Ohio Oil's Des Plaines, Illinois, District Office.

Reaffirming his company's faith in jobber-type marketing operations, Mr. McGarvey expressed pride in the long and pleasant relationship with Fletcher Oil but said conditions in the area had prompted the purchase agreement between the two companies.

Incorporated since 1946, Fletcher Oil has been distributing Marathon peroleum products through two bulk plants and nearly 20 retail stations to customers in portions of Lake County, Indiana, including the communities of Gary, East Gary, Hobart, and Fortage. Pan American Resources, Inc.—Stock Split Effective

A five-to-one split of the common stock of Pan American Resources, pioneer firm of the new waste conversion industry, became effective June 11. The split was authorized at the annual stockholders meeting on May 28 in Glendale, Calif.

Principal business of the firm is the development of Lantz Converters, self-contained unit systems for the conversion of organic waste, both urban and rural, into commercial products. The process converts waste matter of plant or animal origin into gases, liquids and solids which can be utilized for heat, power, refrigeration, wood preservatives, insecticides and carbon fuel. Unit capacities range from small batch type converters to models which can handle up to hundreds of tons per day. Tests show the Lantz Converter to be polution free in its discharge into the atmosphere.

Manufacturing and sales rights were granted under license to Lockheed Aircraft Corp. in 1960, with certain specific rights reserved by Pan American Resources.

"A survey of the requests of potential customers and related potential prospects indicates a current demand for Lantz Converters that runs well beyond half a billion dollars," reported Dae C. Lantz, Sr., Board Chairman.

He stated that "to the greatest extent possible, payment of dividends to stockholders will constitute a primary and unalterable policy of this company."

First public stock offering was made July 7, 1961, through underwriter Fred Marvin & Co., Norman Oklahoma, of 40,000 shares at $7 per share.

Under the current split the initial capitalization of 200,000 shares now becomes 1,000,000 with 827,500 shares outstanding.—V. 194, p.745.

(Chas.) Pfizer & Co., Inc.—Acquisition—

An agreement has been signed for the acquisition of the outstanding capital stock of C. K. Williams & Co. of East St. Louis, Ill., in exchange for an undisclosed number of common shares of Chas. Pfizer. The announcement was made by Morris R. Williams, Chairman, and Benz K. Ayres, President, of the Williams Company, and Edwin H. Smith, Vice-President of Pfizer.

The two top executives of the East St. Louis firm will continue to head the business, which will operate as a subsidiary of Pfizer. No changes in personnel or operations are contemplated in the Williams organization, Pfizer said.

The Williams company is recognized internationally for its technological achievements in the dry colors and extender pigments field. It processes iron ores, barite, copper oxides and chromium oxides into a broad line of inorganic products. These represent new product areas for Pfizer.

Williams products encompass a wide range of synthetic iron oxides, natural iron oxides, pure chromium greens, brown earth pigments, [illegible] extender pigments, lamp black, magnetic iron oxides and talc products. They are sold to manufacturers of building materials, ceramics, chemicals, electrical products, floor coverings, glass, leather, metals, paints, varnishes, paper, rubber products and textiles.

A rapidly expanding area of this company's business is the manufacture of high-purity iron oxides. Ferrites made with iron oxides find many applications in the electronics field and in audio, video and computer tapes. Among the newer markets for iron oxides are applications in telecommunications, where they are used as unscrambling filters, and in the field of catalysts, which fill many industrial needs.

Principal plants of the firm are located in California, Illinois, Pennsylvania, and Massachusetts.

The company was founded in 1878 in Easton, Pa., where it recently opened a new research facility. Williams and its subsidiaries employ approximately 1,000 persons.

Pickwick Organization, Inc.—Earnings Forecast—

This Huntington, L. I. realty and building company, held its first annual meeting June 13 right at the scene of one of its projects in Plainview, L. I., and stockholders received a graphic, progress report from Richard D. Shoenfeld, President.

He told stockholders, who came by automobile and train, that estimated earnings, before audit, for the year ending June 30, 1962, will reach in excess of 50 cents. During the six months ending Dec. 31, 1961, Pickwick's first six months as a publicly owned company, net income amounted to 23 cents per share.

He predicted 'a continuing marked increase' for the fiscal year ending June 30, 1963. Mr. Shoenfeld also estimated that on the basis of preliminary unaudited figures, total volume will reach about $2,700,000 for the present fiscal year. For the fiscal year beginning July 1st, 1962, "volume wil continue to rise," he said.

Following the meeting, ground breaking ceremonies were held for the new Pickwick Motor Inn, immediately adjacent to the Restaurant. The Inn and Restaurant are located at the new extension of the Long Island Expressway, scheduled for formal opening in July.

"During its first year as a publicly owned company," said Mr. Shoenfeld, "the Pickwick Organization has followed its basic objective of meaningful diversification and expansion, with excellent results. If negotiations, now under way, prove successful, Pickwick will expand into apartment house building in addition to its primary activities in the construction and land packaging business."

With headquarters in Huntington, L. I., Pickwick has specialized in the development of property in the North Shore section of Long Island. More than 175 homes in the $20,000-$25,000 price range are now under construction at two separate sites in Islip and Smithtown. The organization also has interests in land and housing and industrial development in Connecticut.—V. 195, p. 1597.

Plastics & Fibers, Inc.—Acquisition—

This Syosset, L. I., plastics and metals firm, announced it has completed negotiations for the acquisiton of Cal-Metal Corp., of Torrance, Calif., major designer and builder of pipe-making equipment. Sidney Horowitz, President of Plastics and Fibers, Inc. said the new acquisition will be maintained as a subsidiary, with no change in name, executive personnel or operating policies.

Negotiations for the merger were arranged by Corporate Services, Inc. of California and Simon Srybnik of the S&S Machinery Corporation of New York.

Founded in 1947, Cal-Metal originally manufactured pipe for the oil and gas industries and for water and irrigation uses. It has since become a designer and builder of pipe-making equipment as well, both here and abroad. The company has built pipe mills in Canada, Israel and Argentina and recently completed construction of the world's largest continuous pipe mill in Calgary, Canada.

The acquisition gives Plastics and Fibers, Inc. its second subsidiary. The company's other division, Horowitz Brothers, Inc., is a leading plumbing, heating and air conditioning, and engineering firm in Long Island.—V. 195, p. 1100.

Premier Albums, Inc.—Sales, Earnings Double—

Sales in the three-months period ending April 30, 1962, of Premier Albums, record manufacturers, were double those of the corresponding period in 1961, it was announced by Philip Landwehr, President. For the fiscal quarter ending April 30, 1962, sales were $1,047,708, compared with $530,113 for the same period in 1961, Mr. Landwehr reported. Net earnings after taxes for the fiscal quarter this year were $83,958, amounting to 32 cents per share on 260,000 shares outstanding. Net earnings after taxes for the corresponding quarter of 1961 were $38,937, or 15 cents per share.

Sales and earnings figures do not reflect possible savings which might result from use by Premier Albums of its new record pressing plant in Clifton, N. J., which was officially dedicated on April 24, Mr. Landwehr said.

Premier Albums markets seven different labels of music albums, most of them in budget-priced lines, for sale in chain and department stores, discount houses, supermarkets, drug stores and other outlets. —V. 195, p. 2383.

Producers Pipelines Ltd.—Partial Redemption—

The corporation has called for redemption on July 2, 1962, through operation of the sinking fund, $500,000 of its 5¾% first and collateral mortgage bonds, series B, due July 2, 1973 at 100%. Payment will be made at the Canada Trust Co. in Vancouver, Regina, Winnipeg, Toronto or Montreal.—V. 193, p. 2588.

Punta Alegre Sugar Corp.—Acquisition—

The company reports that, through its wholly-owned subsidiary, Punta Alegre Commodities Corp., it has purchased the assets and business of Pacific Metals Co., San Francisco, a major distributor of metals and industrial supplies.

Management considers the acquisition—the second in less than a year—to be another important step in their corporate resurgence following the Cuban confiscations of 1960. It puts the company in an excellent position to profit from the rapid industrial growth of the Far West.

Pacific Metals, with annual sales in excess of $25,000,000, is widely known and respected as a leading West Coast metals distributor. From its large warehouses in San Francisco and Los Angeles, as well as from a major facility in Salt Lake City and local service warehouses in San Diego and Phoenix, Pacific Metals supplies such metal products as aluminum, copper, brass, Monel, nickel, steel, stainless steel and clad materials in sheet, plate, tube, bar, rod and special shapes. In addition, it operates a highly successful industrial refrigeration department and is a foremost distributor of foundry alloys, fastenings, fittings and welding supplies.

The cost of the acquisition was in excess of $4 million. Funds for the new acquisition were provided by a long-term loan in which five banks participated.—V. 195, p. 116.

Redwing Carriers, Inc.—Acquisition—

The merging of two of Florida's largest trucking companies — Redwing Carriers, of Tampa, and Florida Tank Lines, Inc., Fort Lauderdale—was announced by C. E. Mendez, President of Redwing Carriers. Mr. Mendez said the acquisition of Florida Tank Lines would boost the combined operating revenues of his company to more than $8,000,000 annually, making it the state's largest bulk commodity common carrier.

The acquisition is subject to approval of the Florida Railroad and Public Utilities Commission.

Founded in 1948, Florida Tank Lines has terminals in Fort Lauderdale, Orlando and Leesburg. It is authorized to transport bulk cement throughout Florida and other commodities in certain areas of the state for which Redwing did not have the rights. Florida Tank Lines has an ICC application pending for cement rights into Georgia. Redwing Carriers does not have authority at present to transport cement in Florida, but, through a subsidiary, has cement rights throughout Alabama.—V. 194, p. 428.

Rohr Corp.—Net Up, Sales Down—

This Chula Vista, Calif. corporation, reported net earnings of $3,814,101, or $1.92 a share, for the nine-months period ended April 30, 1962. This compares with $3,738,823, or $1.88 a share for the same period last year. Sales for the period amounted to $120,785,504, compared with $121,299,841 a year earlier.

The company also reported that bank borrowings, which stood at $13,000,000 at the beginning of the fiscal year last Aug. 1, have been reduced to 3,000,000.

A new order for $3,000,000 for quick engine changes for Lockheed's P3V brings the backlog to $112,000,000 in firm orders, according to Fred H. Rohr, President, who added that proposals on several major projects are undergoing evaluation and are expected to result in a substantial volume of new contracts.

This is the company's first year in the large antenna field, the report said, and sales of these units will amount to $3,500,000, with a sizeable volume of production scheduled for next year.

Successful firing of Lockheed Propulsion's large solid fuel rocket engine recently, for which Mr. Rohr made the nozzle, has further increased the company's capabilities in the space industry. As a part of its program to expand its space age facilities the company has installed one of the largest hydroclaves in the industry, to be used in "curing" laminated nozzle cores.

As a further step in competing more aggressively for space vehicle contracts, the company has established a sales office at Huntsville, Ala., for closer liason with prime contractors and the National Aeronautic and Space Administration, the report said.

Work is scheduled to begin shortly on the company's new 60,000 square-foot plant at Winder, Ga., which will be occupied this fall.

Engineering and development work is nearing completion on two new projects—jet engine pods for Boeing's 727 airliner, and jet pods and landing gear pods and doors for the Lockheed C-141 Starlifter. Prototype pods will be delivered early in 1963 and production, which is expected to continue for several years, will follow shortly thereafter.

"Although we are moving rapidly into the missile and space field," Mr. Rohr said, "we are by no means neglecting conventional aircraft contracts. Some of our projects in this area include jet engine pods, fuselage sections, elevators and stabilizers for the Boeing 707 series, engine pods for the C-135, the Lockheed C-130 series, the P3V, the JetStar, brazed stainless steel honeycomb panels for the North American RS-70, and the McDonnell F4H."

The company's wholly-owned subsidiary, Modular Components Corp. has begun production and sale of unitized bathrooms in the San Diego area, and indications are that a steadily increasing rate of delivery will be necessary to meet the demand. The Modular prototype house is near completion and after tests will be open for inspection by builders and developers, sales and distribution plans will be announced, the report said.—V. 195, p. 1364.

Seaboard Finance Co.—Quarterly Net Higher—

Consolidated earnings of Seaboard Finance for the second quarter of fiscal 1962 were the best in five quarters, A. E. Weidman, President, announced in a report to shareholders.

"As a number of economic indicators point to a reasonably favorable outlook, we foresee a further earnings improvement during the remainder of the fiscal year," he commented.

Net income for the second fiscal quarter, the three months ended March 31, 1962, was $1,687,663, equal after preferred dividends to 26 cents a share on the 5,224,406 shares of common stock outstanding. This compared with $1,480,743 or 22 cents a share for the preceding quarter and $1,592,735 or 24 cents a share for the March quarter of last year.

For the six months ended March 31, 1962, net income was $3,168,406, or 48 cents a share compared with $3,684,376 or 58 cents a share for the like half of last year on the 5,210,434 shares then outstanding after adjusting for the 2% stock dividend paid in May, 1961.

"Our basic operations in personal loans and sales contracts are expanding," Mr. Weidman commented. "During the second fiscal quarter, Seaboard opened and purchased 17 branch offices, many in areas where the company had been relatively light in its coverage. This provides a better spread for advertising and supervision purposes."

At March 31, there were 666 offices in operation, located in 537 cities, in 45 states and five Canadian provinces. By April 30, fifteen more were added. The company's goal is 700 offices by the September 30 fiscal year end, Mr. Weidman said.

"Continuing our program of liquidating non-profitable credit card offices, the credit card operation is now limited to California where we believe it is on a sound basis," the executive commented.

Volume during the initial half of the fiscal year was $157,571,825, compared with $168,384,211 for the same period last year. While business written in loans and sales contracts was higher, a substantial reduction in credit card volume carried the total figure below last year.

Receivables outstanding at March 31, 1962 were $333,747,626 compared with $345,297,921 at December 31, 1961 and $352,833,126 at March 31, 1961. The major portion of the reduction in receivables outstanding during the March quarter was due to the curtailment in credit card operations.—V. 195, p. 1100.

Sears Roebuck Acceptance Corp.—Net Up 73.6%—

The company reported net income after taxes for the first quarter ended April 30, 1962 increased to $1,282,482 from $738,882 in the same period last year.

The increase of 73.6% was largely the result of an increased average investment in the installment contracts of Sears, Roebuck & Co.

Total investment in installment contracts and notes of Sears, Roebuck and Co., amounted to $521,244,087 on April 30, 1962 compared with $480,794,606 on April 30, 1961.—V. 194, p. 1280.

Net income for the six months ended April 30 was $805,574, or 41 cents per share, as compared with $518,528, or 26 cents per share, for the comparable 1961 period. Reported earnings include elimination of Federal income taxes of $150,000 (8 cents per share) in 1962, and $203,000 (10 cents per share) in 1961.

Seeburg also reported that sales for the second quarter just ended were $13,594,230, making it the biggest single quarter in the company's history. Earnings for the quarter were $433,044, or 22 cents per share, after full provision for Federal income taxes. In the corresponding quarter a year ago, earnings were $369,955, or 19 cents per share, including $163,000 (8 cents per share) elimination of Federal income taxes because of loss carry forwards.—V. 195, p. 1205.

Super Market Distributors, Inc.—Proposed Merger—

See Admiral Plastics Corp. this issue.

Superpack Vending Ltd.—Opens Los Angeles Plant—

Ted Richmond, President of Superpack Vending, announced the opening of the company's new 13,000 square foot manufacturing facility in Los Angeles. The company also has U. S. manufacturing facilities of 35,000 square feet in Elizabeth, N. J., besides its main plant in Toronto.

Superpack packages soaps, detergents, bleaches and starches under their own brand names and also on a contract basis for Lever Bros., Purex Corp., Colgate Palmolive and Staley Manufacturing Co. for distribution and sale in coin-operated laundries.

The new California plant, which will have an ultimate production capacity of 1,000 cases per day on a two-shift basis, was planned to produce solely brand name products, such as All and Beads o' Bleach. It will be the first such company on the West Coast to market other than a private brand product through coin-operated machines in automatic laundries.

Mr. Richmond said, "This area is completely virgin territory in the name-brand field of coin-operated laundry soaps. By bringing in and making available top advertised brands to the coin-op laundries, we feel certain that a substantial and permanent business will result. Though we have just recently opened this territory, sales have been substantial enough to merit our creating our own manufacturing facility there."

This national builder of bowling centers and discount houses, reported net income of $171,250, or 43 cents per share, on 397,000 shares outstanding. In 1960, net income was $219,830, or 55 cents per share, on the same number of shares.

Mr. Anthony F. Taddeo, President, stated in the Annual Report to Stockholders, "Last year was one in which an important change was made in our business. Prior to 1961, the company was in the general contracting business and its only source of income was the profits on the construction of bowling centers for the account of others. While such profits climbed steadily to a record level of $219,830 in 1960, it was management's opinion that steps should be taken to develop recurring income and thus create greater stability in the company's operations.

"Since this decision was reached, the company has completed and owns eight bowling centers leased to operators. Under construction are 12 additional bowling centers, of which only four remain to be leased. In addition, the company has commenced construction of a discount house leased to a retail chain store firm and is in the process of completing negotiations for two other houses."

It is estimated that these properties will produce annual rentals of more than $500,000 and cash flow earnings, after amortization of mortgages, of approximately $200,000. The current projects are scheduled for completion by Fall, and it is anticipated that this earnings rate will be reached before the end of 1962.

Mr. Taddeo commented, "We believe the shift in our business will be of material long-range benefit to our stockholders. Not only will it provide a sounder increasing earnings base, but also an increase in stockholders' equity. However, because we no longer receive the immediate lump-sum profits from general contracting, there has been a temporary decline in earnings.

"Our ambitious expansion program is being financed by mortgage money, rental income and retained earnings. To date, we have received mortgage commitments for three of the 12 bowling centers scheduled for completion this year, and are negotiating for mortgage commitments on the balance. In addition, we will attempt to raise

$500,000 through the placement of mortgages on three existing centers."

He further stated: "It is likely that net earnings for 1962 will be below last year's level because of the absence of construction for the account of others. However, it is significant to note that our anticipated cash flow will be up sharply and will be at an increasing rate throughout the year.

"We are building a higher earnings base and we are hopeful that the results of our efforts will justify your confidence in our prospects and the management of your company."—V. 194, p. 2598.

Tenax, Inc.—Six Months' Sales, Net Higher—

This New York City producer of coin-operated dry cleaning and laundry machines reported record volume and net income for the six months ending March 31, 1962.

Leon C. Hirsch, President, said that sales reached $6,436,663. Net income for the half year was $508,667, an historic high, producing earnings of 79 cents per share on 644,742 outstanding shares.

Figures for the comparable period are not applicable inasmuch as Tenax was then in a completely different business. Mr. Hirsch said "volume and profits are substantially higher than the same 1961 period when Tenax was in the freezer sales business, which we have dropped completely for the past half year."

He said that Tenax' entry into the coin-operated dry cleaning field has been very progressive, and that the company has more of its dry cleaning equipment in New York City locations than all other coin-operated dry cleaning manufacturers combined.—V. 195, p. 1143.

Thalhimer Brothers, Inc.—Notes Sold Privately—On June 13, 1962 it was reported that $1,750,000 of this firm's 5¼% sinking fund notes due May 1, 1982 had been sold privately through Kidder, Peabody & Co. Inc., New York City.

Texas Gas Transmission Corp.—Debentures Offered—Dillon, Read & Co. Inc., New York City, headed an underwriting group which offered on June 14, $40,000,000 of this firm's 5% debentures, due June 1, 1982.

The debentures, priced at 100%, are entitled to a semi-annual sinking fund beginning on Aug. 1, 1965, sufficient to retire the entire issue by maturity. The debentures are not refundable for a period of five years at an interest cost of less than 5% per annum, but are otherwise redeemable at the option of the corporation at any time at prices scaling downward from 105% for the 12-month period beginning June 1, 1962, to 100% for the 12-month period beginning June 1, 1981.

PROCEEDS—Net proceeds from the sale of the debentures will be added to the corporation's general funds and applied to defray the cost of new facilities to be constructed in 1962 and to retire short-term bank loans incurred primarily to pay for new facilities constructed in 1961. Texas Gas expects that the proposed new facilities will be put into operation on or before Nov. 1, 1962.

BUSINESS—Texas Gas of 3800 Frederica St., Owensboro, Ky., owns and operates a natural gas pipeline system extending from the Louisiana-Gulf Coast area to Ohio with a daily delivery capacity allocated to customers during the 1961-1962 heating season of approximately 1,515 million cubic feet. During the 12 months ended March 31, 1962, approximately 93% of the corporation's total sales were made for resale in interstate commerce, 52% being made to 68 public utility distributors serving communities in Louisiana, Arkansas, Mississippi, Tennessee, Kentucky, Illinois, Indiana and Ohio.

The company's wholly-owned subsidiary, Texas Gas Exploration Corp., is engaged in the exploration for and the production of natural gas and oil, primarily in the Louisiana and Texas Gulf Coast area. The subsidiary's net production for the 12 months ended March 31, 1962 was 16 billion cubic feet of gas and 478,000 barrels of oil and condensate.

Transcontinental Investing Corp.—Annual Report—

Gross income from properties and other earnings reached $14,241,000 for fiscal 1962, ended Feb. 28, it was reported by Transcontinental Investing.

In making his report, TIC President Robert K. Lifton noted that for a real estate company, "the traditional starting point for measuring performance is net income before depreciation and before deferred Federal income taxes." For fiscal 1962, this figure rose to $4,863,000, which was 56% above the pro-forma estimate presented in the first registration statement at the year's beginning, when TIC became a publicly held company. The $4,853,000 equalled $1.75 per share on class A shares outstanding. Of this amount, the company applied $880,000, or 32 cents per share of class A stock, toward reduction of mortgage debt, thereby increasing its equity in properties.

Transcontinental is one of the nation's largest publicly held real estate corporations, owning and managing apartment houses, office buildings, hotels, motor hotels ad retail centers in some 31 cities throughout the United States and Canada.

Distribution to shareholders for fiscal 1962 totaled $2,300,000, Mr. Lifton said, plus a two percent stock dividend. Because of depreciation available to the company, the distribution to shareholders were treated as returns of capital and were not taxable, he pointed out. TIC's regular quarterly dividend is now 21 cents per share.

The value of properties in TIC's portfolio was put at approximately $85 million by Mr. Lifton. He reported that the company purchased or contracted to purchase 13 properties during fiscal 1962 at an aggregate cost in excess of $30 million. "These acquisitions alone," he noted, "comprise a portfolio larger than those of most companies in our field."

Discussing the progress of TIC during the year, Mr. Lifton said that the company "had broadened its activities to include several aspects of the real estate field." TIC has intiated a program of constructing stores for long term lease to Triple A-1 tenants. To date, construction of some eight retail centers is in progress for several firms, including United Whelan Corp., King's Department Stores and Winn-Dixie Stores.

A wholly-owned TIC subsidiary, Dinkler Hotel Corp., now owns and operates hotel and motor hotel properties in a nationwide chain covering 24 cities in the United States and Canada. At the same time, another subsidiary, Dinkler Management Corp., is currently managing or has contracted to manage 15 hotel and motor hotel properties not owned by TIC.

A third TIC subsidiary, Trans Hotel Supply Corp. was formed late in the fiscal year to sell hotel furniture and supplies. In its first three months of operation, Trans Hotel recorded gross sales of $176,000 and had contracted for additional sales of $130,000. Mr. Lifton said that of the total $306,000, more than 60% represented sale to properties other than those of TIC.

Two subsidiaries have been formed by TIC for investing in companies with prospects for capital appreciation, Mr. Lifton reported. Venture Funding Corp. was established to invest in other real estate corporations, while a TIC small business investment corporation has thus far invested in six enterprises.—V. 194, p. 2382.

Union Oil Co. of California—Abandons Dry Well—

The company and its partners have reported that their exploratory well at Middle Creek, Queensland, Australia, was drilled to basement rock at 6,126 feet without encountering either oil or gas shows. The well has been abandoned.

This well is located 6½ miles northeast of Moonie 3 which flowed at the rate of 888 barrels a day of 45 gravity crude oil during a nine hour production test.

Drilling equipment will be moved to Moonie 4, a site 1.4 miles southwest of Moonie 2 which produced 49 gravity oil at rates of between 660 and 1,600 barrels a day, depending upon the size of the restricted choke.

Wandoan 1, a wildcat test located 115 miles northwest of the Moonie area, is drilling at 10,438 feet in shale.

Partners with Union in the venture are the Kern County Land Co. and the Australian Oil & Gas Corp.—V. 195, p. 2199.

U. S. Plywood Corp.—Earnings Up 63%—

The company reported record sales of $301,898,000 for the year ended April 30, 1962, compared with sales of $260,000,000 in the preceding year.

Earnings for the year, after taxes, were up 63% to $12,025,200, equal after preferred dividends to $3.92 per share on 2,978,240 shares of common stock outstanding at the end of the fiscal year. This compared with earnings of $7,393,900, equal to $2.46 per share on 2,864,965 common shares in the preceding year.

General Corporation and Investment News

Continued from page 8

Sales and earnings reported for both the above fiscal years include operations of Cascades Plywood Corp., which U. S. Plywood acquired in February, 1962.

Earnings in the quarter ended April 30 were $3,483,100, equal to $1.14 per share of common stock, compared with $1,827,000 or 61 cents per share in the same quarter last year. Sales were $76,884,000 and $65,892,000 in each of these respective quarters.

S. W. Antoville, Chairman of the Board, said the improved showing in the fiscal year just closed was attributed to an increase in sales, particularly in specialties and decorative plywood, which more than offset lower prices of fir plywood and lumber. He noted that the average price for fir plywood during the past fiscal year was the lowest since the end of World War II.

The company announced plans to spend a record $14,500,000 in the coming year for major additions and improvements in facilities in Canada and the United States.—V. 195, p. 2199.

Wilson Jones Co.—Six Months' Sales, Earns. Higher—

This Chicago maker of record-keeping forms and supplies, today reported increased sales and earnings for the six months ended April 30, 1962.

Net sales for the period increased to $9,502,000 from $8,461,000 a year earlier, a gain of more than 12%.

Net income was $398,000, equal to $1.16 per share, compared with $275,000, or 80 cents a share, based on 343,396 shares outstanding for both periods. The net operating earnings show an increase of 45%.

For the three months to April 30, 1962, sales of $4,647,000 were up 7% as compared with $4,331,000 in the corresponding 1961 quarter.

Net income of $154,000, or 45 cents per share, compared with $172,000, or 50 cents per share, for the same number of shares outstanding in the comparable quarter last year.

In the quarterly report to shareholders, President Jack Linsky commented on the earnings for the period. "The slight decrease in earnings in the most recent quarter, as compared with the increase in sales," he said, "is due in a large part to the decision to add to inventory of finished goods in order to provide better customer service." This policy required overtime wages. In addition, the training of new and inexperienced employees added materially to the manufacturing costs of this reported quarter.—V. 195, p. 793.
