SEC REGISTRATIONS

Aeroscience Electronics, Inc.—"Reg. A" Filing—

The corporation on June 18, 1962 filed a "Reg. A" covering 92,000 common shares (par 10c) to be offered at $3.25, without underwriting.

Proceeds are to be used for equipment, inventory and working capital.

Aeroscience of 3181 Roswell Rd., N. E., Atlanta, is engaged in designing and fabricating instrumentation and telemetry systems.—V. 195, p. 1545.

American & Foreign Power Co. Inc.—Reg. Secondary

The company of 100 Church St., New York, filed a registration statement with the SEC on June 25 covering 175,000 outstanding shares of common stock, to be offered for public sale by the company's parent, Electric Bond & Share Co., from time to time on the New York Stock Exchange at prices related to the market prices at the time of sale (maximum $8.875 per share).

The company is a holding company with utility subsidiaries operating in seven Latin American countries. In addition to certain indebtedness and preferred stock, the company has outstanding 7,312,526 shares of common stock, of which Bond & Share owns 3,877,200 shares. After the stock sale, it will own about 51% of the company's outstanding stock. Henry B. Sargent is President.—V. 195, p. 2376.

American Kosher Provisions, Inc.—Common Reg'd—

The company of 39 Norman Ave., Brooklyn, N. Y., filed a registration statement with the SEC on June 25 covering 130,000 shares of common stock, to be offered for public sale at $5 per share. The offering will be made on an all or none basis by Willard Securities, Inc., 111 Broadway, N. Y., which will receive a 55 cents per share commission and $7,500 for expenses. The statement also includes (1) 16,500 shares underlying five-year warrants to be sold to the underwriter at five cents each, exercisable at $5 per share, and (2) 5,000 shares to be sold to George Canter, the finder, at $1 per share.

The company and its subsidiaries manufacture and sell a variety of kosher and non-kosher meat and meat products to supermarket chains, hotels, restaurants, institutions and retail stores. Of the $538,500 estimated net proceeds from the stock sale, $100,000 will be used to discharge loans on accounts receivable; and the balance will be used to purchase land and a building for use as a meat packing house in Miami, Fla. area, to discharge a loan from the company's president incurred for working capital, to reduce a mortgage on machinery, and for general working capital ($279,500). In addition to certain indebtedness the company has outstanding 270,000 shares of common stock (after giving effect to a recent recapitalization and issuance of shares to principal stockholders for three subsidiaries), of which Hyman Kleinberg, President, and Isidore Silver, Secretary-Treasurer, own 67.6% and 14.8%, respectively, and management officials as a group, 100%. Sale of new stock to the public at $5 per share will result in an increase in the book value of stock now outstanding from 75 cents to $1.85 per share with a resulting dilution of $3.15 per share in the book equity of stock purchased by the public.

Aries Corp.—Common Registered—

The company of 7722 Morgan Ave. South, Minneapolis, Minn., filed a registration statement with the SEC on June 27 covering 200,000 shares of common stock, to be offered for public sale at $1.15 per share. The offering will be made on a best efforts basis by Bratter & Co., Inc., Soo Line Bldg., Minneapolis, which will receive a 15 cents per share selling commission. Three officers of Bratter now own 9,900 shares purchased at $1 per share.

The company was organized under Minnesota law in January 1962 and proposes to provide consulting services to industry and governmental agencies in the areas of programming services, applications engineering, operations analysis, and assistance in the marketing of affiliated products. The net proceeds from the stock sale will be added to working capital to be used for general corporate purposes, initially in connection with furnishing consulting services for data processing systems to equipment manufacturers, industry and government. In addition to certain indebtedness, the company has outstanding 100,000 shares of common stock (purchased at $1 per share), of which Frederick W. Lang, President, Richard P. Daly, Vice-President, and Erwin Tomash own 17%, 16.5%, and 15%, respectively.

Avis Inc.—Proposes Rights Offering—

The company, 18 Irvington St., Boston, Mass., filed a registration statement with the SEC on June 22 covering $1,497,300 of subordinated convertible debentures due 1972 and 499,101 shares of common stock. It is proposed to offer the securities for subscription by common stockholders at 100% of principal amount of the debentures and at $5 per common share and at the rate of $100 of debentures for each 100 shares held and one new share for each three shares held. The interest rate and record date are to be supplied by amendment. No underwriting is involved. Lazard Freres & Co. and certain other investors owning an aggregate of 40.07% of the outstanding stock of the company have agreed to purchase, at the subscription price, all shares and debentures not subscribed for by stockholders.

The company is primarily engaged in the business of renting and leasing automobiles and trucks (without drivers). Of the $4,000,000 estimated net proceeds from this financing, $1,500,000 will be used to pay advances by Amoskeag Co., a principal stockholder, $200,000 to pay long-term debt, $650,000 to construct new headquarters facilities and for costs of relocation, and the balance for additional working capital and general corporate purposes. In addition to various indebtedness, the company has outstanding 1,497,303 shares of common stock, of which Lazard Freres & Co. (on its own behalf and for other investors) and Amoskeag Co., own 40.07% and 25.53%, respectively. John T. Cahill is board chairman and Robert C. Townsend is president.—V. 195, p. 2377.

Baltimore Gas & Electric Co.—Proposes Bond Offer'g

The company, Lexington and Liberty Streets, Baltimore, Md., filed a registration statement with the SEC on June 22 covering $25,000,000 of first refunding mortgage sinking fund bonds due 1992, to be offered for public sale at competitive bidding. The net proceeds from the sale of bonds will be used for general corporate purposes, including construction expenditures, and to repay then existing short-term bank loans (estimated at $14,000,000). Construction expenditures for 1961 were $44,700,000 and are estimated at $41,000,000 for 1962.—V. 195, p. 2377.

Bayuk Cigars Inc.—Registers Secondary—

The company of Ninth St. and Columbia Ave., Philadelphia, Pa. filed a registration statement with the SEC on June 22 covering 48,000 outstanding shares of common stock, to be offered for public sale by the holders thereof from time to time on the New York Stock Exchange, regular way or by special offering or otherwise, at prevailing prices on the Exchange at the time of sale.

The company is engaged in the manufacture and sale of cigars in a wide variety of blends, sizes, shapes and prices, including Phillies, Webster and John Ruskin. In June 1961, the company acquired in exchange for 48,000 common shares, all of the outstanding stock of Mason, Au and Magenheimer Confy and, as a result, the company now also manufactures and sells candy. The 25 selling stockholders are the former stockholders of Mason and others connected with the acquisition. The list includes Charles F. and Herbert E. Haug, who propose to sell 6,599 and 6,012 shares, respectively, and others who propose to sell amounts ranging from 152 to 5,037 shares. In addition to certain indebtedness, the company has outstanding 800,720 shares of common stock, of which management officials as a group own 13.49%. Sidney Mishkin is board chairman and E. Archie Mishkin is president.—V. 195, p. 2819.

C-Thru Products, Inc.—"Reg. A" Filing—

The corporation on June 22, 1962 filed a "Reg. A" covering 90,000 common shares (par one cent) to be offered at $1.50 per share through Broadwall Securities, Brooklyn, N. Y.

Proceeds are to be used for debt repayment, sales promotion and advertising, equipment, research and development, and working capital.

C-Thru of 2401 Pacific St., Brooklyn, N. Y., is engaged in the design and manufacture of flexible, re-usable vinyl packages which it sells to manufacturers of retail merchandise.

Cable Carriers Inc.—Proposes Rights Offering—

The company, of Kirk Blvd., Greenville, S. C., filed a registration statement with the SEC on June 26 covering 1,015,564 shares of capital stock. It is proposed to offer such stock for subscription by stockholders at 25 cents per share and at the rate of four new shares for each share held on Feb. 14, 1962. No underwriting is involved.

The company manufactures and sells overhead trolley conveyors, vertical tray lift systems, in or on floor tow systems, overhead tow systems, bulk handling tube systems for flowable material and overhead transport systems. The $238,891 estimated net proceeds from the stock sale will be added to working capital and used for general corporate purposes. The company has outstanding 1,094,356 shares of capital stock, of which Southern Growth Industries, Inc. and Granite Capital Corp. own 39.73% and 10.96%, respectively, and management officials as a group 19.66%. In March 1962, the company exchanged $135,000 of convertible subordinated debentures for 540,000 shares with three small business investment companies for 25 cents per share; issued 100,000 shares to a fourth investment company at 25 cents per share; issued 140,000 shares to certain present and former management officials at 25 cents per share, and issued (at 25 cents per share) an aggregate of 60,465 shares for consulting fees, interest due on debentures, services rendered and in liquidation of certain debt.—V. 195, p. 1655.

Clyde Packing Co., Inc.—"Reg. A" Filing—

The corporation on June 15, 1962 filed a "Reg. A" covering 6,000 common shares (no par) to be offered at $25, without underwriting.

Proceeds are to be used for debt repayment, equipment and working capital.

Clyde, of Angola, Ind., is engaged in the care and slaughter of livestock and boning and processing of meat products.

Columbia Gas System Inc.—Proposes Deb. Offering—

The company of 120 E. 41st St., New York, filed a registration statement with the SEC on June 22 covering $20,000,000 of debentures due 1987, to be offered for public sale at competitive bidding. The net proceeds from the debenture sale will be used to redeem in Sept. 1962 $17,560,000 of outstanding 5½% debentures due 1982 (plus accrued interest and a premium), and the balance will be added to general funds and applied to the company's 1962 construction program (estimated at $100,000,000).—V. 195, p. 2929.

Crowell-Collier Publishing Co.—Secondary Registered

The company of 640 Fifth Ave., New York, filed a registration statement with the SEC on June 27 covering 17,685 outstanding shares of common stock, to be offered for public sale by the holders thereof from time to time on the New York and Midwest Stock Exchanges, or otherwise, at prices current at the time of sale (maximum $21.625 per share). Such shares are a portion of 36,517 shares issued by the company to the selling stockholders in connection with the acquisition by the company in May 1962 of all of the outstanding capital stock of Scientific Materials, Inc.

The company is engaged in the publication and sale of subscription books, elementary, high school and college text books and related educational material, trade and technical books and in the operation of a home study school and radio broadcasting station. In addition to certain indebtedness, the company has outstanding 3,134,518 shares of common stock, of which management officials as a group own 4.5%. W. D. Cole is Board Chairman and Raymond C. Hagel is President. The selling stockholders are Arthur J. Rosenthal, Herbert Nogourney and Narragansett Capital Corp., and they propose to sell 7,200, 1,000 and 9,485 shares, respectively.—V. 195, p. 2378.

Dynamic L. P. Industries, Inc.—Common Registered—

The company, of 900 Passaic Ave., East Newark, N. J., filed a registration statement with the SEC on June 21 covering 75,000 shares of common stock, to be offered for public sale at $4 per share. The offering will be made on a best efforts all or none basis by Mortimer B. Burnside & Co., Inc., 40 Wall St., New York, which will receive a 60 cents per share commission and $11,000 for expenses. The statement also includes 12,000 shares to be sold to the underwriter at $1.85 per share, of which 1,200 shares will be resold to Seymour Rowitt, the finder.

The company (formerly Sun Plastics, Inc.) is engaged in the business of manufacturing (pressing), labeling and packaging 78, 45 and 33⅓ RPM long playing stereophonic and monaural phonograph records for label record companies. The company recently acquired from its principal stockholders all of the outstanding stock of Sun Plastics, Inc., a New Jersey company (now operated as a subsidiary) in exchange for an aggregate of 31,250 shares. The $215,000 estimated net proceeds from the stock sale will be used to purchase machinery and equipment and for working capital. The company has outstanding 125,000 shares of common stock, of which Moe Silvers, President, and Jerry Salerno, Vice-President, own 24.9% each, and Sylvia Silvers and Philomina Salerno 25% each. Sale of new stock to the public at $4 per share will result in an increase in the book value of stock now outstanding from $1.85 to $2.38 per share with a resulting dilution of $1.62 per share in the book equity of stock purchased by the public.

Electrostatic Printing Corp. of America — "Reg. A" Filing—

The corporation on June 12, 1962 filed a "Reg. A" covering 40,000 common shares (no par) to be offered at $5, without underwriting.

Proceeds are to be used for debt repayment.

Electrostatic of 254 Sutter St., San Francisco, is engaged in developing and licensing electrostatic printing processes.

Falcon National Life Insurance Co.—Proposes Rights Offering—

The company, of 1330 Leyden St., Denver, Colo., filed a registration statement with the SEC on June 25 covering 300,000 shares of common stock. It is proposed to offer such stock for subscription by stockholders at $1.20 per share and at the rate of one new share for each three shares held. No underwriting is involved. According to the prospectus, no offer is to be made to company shareholders residing in California, New York and 17 other states (amounting to about 9% of the company's shareholders) because it is the opinion of the company that expense of qualifying the issue for sale in such states would be disproportionate to the proceeds which might be realized by the company from sale to such stockholders.

The company offers various types of life insurance, including the customary forms of ordinary life, endowment, term, and annuities, and certain so-called special policies, involving the right on the part of the policyholder to participation in the profits of the company through special dividends. The $348,964 estimated net proceeds from the stock sale will be invested solely in securities or other assets. The company has outstanding 1,015,000 shares of common stock, of which management officials as a group own about 3.5%.

First Potomac Realty Trust—"Reg. A" Filing—

The company on June 12, 1962 filed a "Reg. A" covering 28,200 common shares to be offered at $10, without underwriting.

Proceeds are to be used for real estate investments.

In This Issue

Stock and Bond Quotations

Miscellaneous Features

First Potomac of 2134 N. Upton St., Arlington, Va., is a general real estate company.

Florida Power & Light Co.—Proposes Bond Offering—

The company, of Ingraham Bldg., Miami, Fla., filed a registration statement with the SEC on June 26 covering $25,000,000 of first mortgage bonds due 1992, to be offered for public sale at competitive bidding. The net proceeds from the bond sale will be used to retire $20,000,000 of outstanding 5¼% first mortgage bonds due 1989 (plus premium and accrued interest) and for other corporate purposes, including payment of a portion of the company's 1962 construction program (estimated at $62,800,000). In addition to certain indebtedness and preferred stock, the company has outstanding 13,600,000 shares of common stock. McGregor Smith is Board Chairman and Robert H. Fite is President.—V. 191, p. 2415.

JKF Realty Co.—Limited Interests Registered—

The company, of 10 E. 40th Street, New York, filed a registration statement with the SEC on June 21 covering $2,715,000 of limited partnership interests, to be offered for public sale at $5,000 per interest. No underwriting is involved.

JKF Realty is a limited partnership organized under New York law in May 1962 with Benjamin Kaufman, Nathan P. Jacobs, Shabse Frankel and Gerald S. Kaufman as the general partners, and the general partners and 13 others as the original limited partners. The partnership was organized for the purpose of acquiring two tracts of land in Detroit and one in Cumberland, Md., on which there is or will be a discount department store. Each of the properties is leased or sub-leased to discount store chain operators (GEM International, Inc. and Miracle Mart, Inc.). The properties were purchased by the general partners in March and May 1962 for an aggregate of $2,725,000 and, in consideration for the conveyance of such properties to the partnership, they (and the original limited partners) will receive an aggregate of $10,000 in general partnership interests, $2,715,000 in cash from the proceeds of this offering, and an aggregate of $430,000 of original limited partnership interests. Cost of the properties to the partnership will be $3,155,000.

(D.) Kaltman & Co., Inc.—Proposes Deb. Rights Off'g

The company of 425 Park Ave., N. Y., filed a registration statement with the SEC on June 28 covering $1,650,000 of convertible subordinated debentures due 1977. It is proposed to offer such debentures for subscription by common stockholders at 100% of principal amount and at the rate of $100 of debentures for each 100 shares held. The record date is to be supplied by amendment. No underwriting is involved.

The company is principally engaged in the wholesale drug business, selling a full line of ethical and proprietary pharmaceuticals, chemicals, cosmetics, toiletries, personal health products, and drug sundries to customers located principally in New York, New Jersey, southeastern Pennsylvania and a portion of northern Delaware. The net proceeds from the debenture sale will be used to repay outstanding short-term indebtedness to banks (incurred for working capital purposes) and for general working capital. In addition to certain indebtedness, the company has outstanding 1,646,913 shares of common stock, of which management officials as a group own 3%. Claude A. Giroux is Board Chairman and President.—V. 194, p. 2442.

Corporate and Municipal Financing Ahead

By SIDNEY BROWN

A seasonal lull of new capital public offerings of absolutely negligible proportions is scheduled, but not appreciated, for this July 4 week. A week's respite would have been appreciated if it had succeeded a busy market of underwritings which, of course, has not been the case.

The entire visible 28-day float contains less than $400 million for both tax-exempt and corporate senior debt instruments. The total backlog of corporate debt capital with and without dates was, however, measurably increased over last week's backlog tally. Some of the larger additions were: $25 million BALTIMORE GAS & ELECTRIC CO.'s first refunding mortgage sinking fund bonds; $25 million FLORIDA POWER & LIGHT first mortgage bonds expected July 31; $60 million MASSACHUSETTS ELECTRIC CO.'s first mortgage bonds set for August bidding; and $50 million PACIFIC NORTHWEST 40-year debentures set for Sept. 11 bidding.

The backlog of postponed issues mounted to 105, as of this writing, compared to the previous week count of 97. In addition, 19 issues detached themselves from tentative date status with which they had been previously identified and are, now, tabulated in the "without date" category of the firm backlog of offerings. Last week, 33 issues had done the same thing. Technically, they are not presumed to be postponed unless official word is received to that effect. Among the larger issues that removed themselves last week from the sales date label were: AMERICAN MORTGAGE INVESTORS, *via* Hayden, Stone & Co.; KENNER PRODUCTS CO., *via* Kuhn, Loeb & Co.; KAVENEAU CORP., cumulative preferreds, *via* Hayden, Stone which have gone back and forth from a deferred to a firm offering status to the present one; and AMERICAN PLAN CORP., *via* Bear, Stearns & Co. Going the other way, MARADEL PRODUCTS INC., *via* Hornblower & Weeks, went from the postponed category into the active backlog of issues without dates.

SEC REGISTRATIONS HIT NEW HIGH DESPITE STOCK MARKET DECLINE

Were it not for the May 28 stock market tumble, registrations with the SEC would have been much higher than the record high posted in the fiscal year just ended. The market fall-off aborted registrations drastically and, thus, lowered this year's first six months' total. The table below compares the respective periods. With one more month to go—end of May and all of June—registrations and dollar volume in a market such as that preceding May 28 may well have followed the customary late rush, in heavy proportions, to avoid the 90-day cut off requirement for new financial statements. The decline is seen in the first half of the year comparisons.

	Total Registrations	Dollar Volume (billions)	Pending
Fiscal Year:			
July 1, 1960-June 28, 1962	2,272	$21.4	704
July 1, 1960-June 29, 1961	1,816	20.6	515
First Half Year:			
Jan. 1, 1962-June 28, 1962	1,048	13.2	--
Jan. 1, 1961-June 29, 1961	1,107	13.4	--

SOURCE: *SEC. Dollar volume based on filing fees.*

UNDERCURRENTS IN THE BOND MARKET

The bond market last week seemed to sense the possibility that the Canadian exchange rate problem, and the $1.1 and over billion cash and credit bailing-out provisions as well as a green light to hike the tariff on about half of her imports, might hurt our balance of payments. And in turn, it seemed to deduce that this might lead to a timid hike in credit tightening. Until the Canadian problem came out into the open, the market was under the impression that we might reverse our long standing easy long-term market rates so as to discourage flotation of foreign issues here. This was not an illogical conclusion in view of the strong cash flow position of American firms, their ability to finance modernization plans without reliance on the capital market (hence, no need for cheap credit to induce capital spending) and the stronger probability that Congress will accept the investment credit tax plan pushed hard by the Administration. The low long-term interest rate trend did not live up its business cycle revival expectations.

The Federal funds market last week was tighter than it had been for some time. Furthermore, the Federal Reserve weekly position statement showed that it did reduce its holdings of governments somewhat—quite a change even for such a short period in view of the Fed's credit-ease obsession since "nudging" began. (It was bad enough before then.) In the week ending June 27, the float's average declined $111 million from the previous week; the gold supply average loss was $1 million and the actual week-to-week change was a $5 million absolute gold loss; and the average decrease in the week's holdings of governments came to $123 without repurchases, or $113 million with repurchases included.

The June 27 end of the week summary of governments held in the Fed's portfolio reveals an interesting switch. True to the precepts of "nudging," the Fed sold $196 million in bills—continuing an uninterrupted policy for the past three weeks; and then proceeded to buy certificates in the amount of $10 million; notes in the amount of $22 million; and—a trifle—$2 million in bonds. As a result governments would have gone down by $196 million were it not for repurchases. Repurchases on June 20th were $177 million and $148 million on June 27. The total net shrinkage of governments, then, amounted to $191 million — or $162 million without the repurchase transactions. The average net free reserves dropped a bit more than seasonally to $306 million, and was the third successive decline in weekly reserves of less than $400 million.

TREASURY BILL AUCTION MARKET TODAY FOR THE FIFTH WEEK IN A ROW IS OUT TO RAISE $200 MILLION NEW CASH

The money market will again be approached by the Treasury with a supply of bills it wants to auction over and above refunding. For the fifth consecutive week the Treasury will auction in the bill market enough paper to raise $200 million in new cash. Today should add up to the 20th time new cash will have been raised this year in the short-term market by the government for a rough total amount of $2.5 billion. So far, the Treasury has not announced its debt-management and financing plans for the summer—which can be expected at one of the near weeks if not this one. Approximately $13 billion in 13-week bills and $700 million in 26-week bills will be sold to replace, respectively, $1.2 billion and $600 million coming due.

The capital market will be offered one tax-exempt of larger size this week. That is the $2.5 million CEDAR FALLS, IOWA, issue. Corporates which may appear are: AMERICAN GAS rights offering of 548,532 shares to stockholders either this week, or next, by Cruttenden, Podesta & Miller; PAY'N SAVE CORP. may again try to come out with its $1.2 million debentures and a secondary of 40,576 stock, *via* Dean Witter & Co.; and HAMPDEN FUND, INC. a closed-end investment trust may run the gauntlet, *via* Fulton, Reid & Co.

JULY'S UNDERWRITTEN AND COMPETITIVE FLOAT

Expressway and Sewage bonds; $12.4 million DALLAS, TEXAS; $4,250,000 ANCHORAGE IND. S. D., ALASKA; $20 million LOUISIANA (STATE OF).

June 28, 1962.

Kellermeyer Chemical Co.—"Reg. A" Filing—

The company on June 15, 1962 filed a "Reg. A" covering 2,000 common shares (no par) to be offered at $21.75, without underwriting.

Proceeds are to be used for a new plant and sales promotion.

Kellermeyer of 1025 Brown Ave., Toledo, is engaged in the sale and delivery of chemical and related products.

Mahnomen Pile Driving & Erection Co. — "Reg. A" Filing—

The company on June 18, 1962 filed a "Reg. A" covering 16 common shares to be offered at $500, without underwriting.

Proceeds are to be used for investments.

Mahnomen of Mahnomen, Minn., is engaged in general contracting specializing in land clearing, bulldozing and bridge building.

Manna Financial Planning Corp.—"Reg. A" Filing—

The corporation on June 13, 1962 filed a "Reg. A" covering 300,000 common shares (par 10c) to be offered at $1, without underwriting.

Proceeds are to be used for general corporate purposes.

Manna of 1500 Mass. Ave., N. W., Washington, D. C., is a broker and dealer and also performs personal estate planning services.

Minichrome, Inc.—"Reg. A" Filing—

The corporation on June 18, 1962 filed a "Reg. A" covering $50,000 of five year 7% subordinated convertible debentures to be offered at par, in denominations of $500 due Nov. 1, 1967. The offering will be underwritten by Continental Securities, Inc., Minneapolis.

Proceeds are to be used for working capital.

Minichrome of 980 W. 79th St., Minneapolis, processes kodachrome film.—V. 194, p. 1386.

Move Truck Rental System, Inc.—"Reg. A" Filing—

The corporation on June 19, 1962 filed a "Reg. A" covering 100,000 common shares (par 25c) to be offered at $3, without underwriting.

Proceeds are to be used for equipment, advertising and working capital.

Move Truck of 2503 W. Broadway, Sedalia, Mo., is engaged in renting trucks.

National Bank of Israel Ltd.—Shares Registered—

Bank Leumi Le-Israel, Beeravon Moogbal (National Bank of Israel Limited), of Tel-Aviv, Israel, filed a registration statement with the SEC on June 22 covering 1,050,000 ordinary shares and 3,190,000 "A" ordinary shares, to be offered for public sale at prices to be supplied by amendment (maximum 75c per share for each class). The plan of distribution is also to be supplied by amendment.

The Bank carries on a general commercial banking business in all its various aspects, domestic and international. It has 136 branch offices in Israel. The net proceeds from the sale of the shares will be added to general funds to be available for its general banking business. The Bank has outstanding 2,187,500 ordinary (voting) and 6,125,000 "A" ordinary shares, of which voting stock Otzar Hityashvuth Hayehudim B.M. owns 84.18%. Yeshayahu Foerder is board chairman and chief executive officer.

North Battleford Brewing Co., Ltd.—Common Reg'd—

The company, of North Battleford, Saskatchewan, Canada, filed a registration statement with the SEC on June 21 covering 443,565 shares of common stock, to be offered for public sale at $1 per share. The offering will be made through salesmen employed by the company who will receive a 16% selling commission.

Organized in January, 1961, the company proposes to erect, equip and operate a brewery in North Battleford having an annual capacity of 40,000 barrels. Of the $372,597 estimated net proceeds from the stock sale together with $14,069 from the sale of stock in March, 1962, the company intends to use $125,000 as a deposit (including architectural and engineering fees) on a building to house the brewery (estimated total cost of $275,000), $223,906 as a deposit on equipment (total cost $425,000 including installation), and the balance to pay current liabilities. The company intends to raise the balance of the funds needed for the above purposes (including $100,000 for bottles, cans, cartons and kegs) from the sale of additional stock to the public. The company has outstanding 265,975 common shares, of which North Battleford Development Co. Ltd. owns 146,000 shares. It received such shares in consideration of certain promotional and organizational services to the company. The directors and shareholders of North Battleford Development are also directors and shareholders of the company.

Richard Gray & Co., Inc.—"Reg. A" Filing—

The corporation on June 21, 1962 filed a "Reg. A" covering 60,000 common shares (par one cent) to be offered at $5 per share, without underwriting.

Proceeds are to be used for working capital and other corporate purposes.

Richard Gray of 237 W. 51st St., N. Y., is engaged as a securities broker-dealer.

(L. L.) Ridgway Enterprises, Inc.—Common Reg'd—

The company of 5711 Hillcroft Ave., Houston, Texas, filed a registration statement with the SEC on June 27 covering 155,000 shares of common stock, of which 130,000 shares are to be offered for public sale by the company and 25,000 shares, being outstanding stock, by Louis L. Ridgway, Board Chairman. Underwood, Neuhaus & Co., Inc., 724 Travis St., and Rotan, Mosle & Co., Bank of the Southwest Bldg., both of Houston, head the list of underwriters. The public offering price (maximum $10 per share) and underwriting terms are to be supplied by amendment.

The company, through its subsidiaries, is engaged in making commercial reproductions including blueprints, direct prints, photo copies, darkroom reproductions, and offset prints; the manufacture and sale of sensitized papers, cloths, and films for use in blueprinting and direct printing; and the sale of architectural, engineering, and commercial reproduction equipment and supplies. Of the net proceeds from the company's sale of additional stock, $300,000 will be applied to the expansion of the company's manufacturing plant in Irvington, N. J., $100,000 for the replacement and modernization elsewhere of existing equipment, and the balance for working capital and general corporate purposes including carrying of increased inventories and receivables. In addition to certain indebtedness, the company has outstanding 319,284 shares of common stock, of which Ridgway (individually and as trustee for his two children) owns 54.9% (and proposes to sell the 25,000 shares for his own account); and William S. Blaylock, President, and Dick Berry, Executive Vice-President, own 13.3% each.

Roving Eye Systems, Inc.—"Reg. A" Filing—

The corporation on June 11, 1962, filed a "Reg. A" covering 1,000 common shares to be offered at $100, without underwriting.

Proceeds are to be used for organizational expenses.

Roving of 1403 Wade Hampton Blvd., Greenville, S. C., plans to construct, manufacture and market a new device in the field of industrial television systems.

Shin Mitsubishi Heavy Industries—Registers Debs.—

Shin Mitsubishi Heavy Industries of Japan filed a registration statement with the SEC on June 29, 1962 covering $10,000,000 of convertible debentures, due Oct. 1, 1977, to be offered through a group headed by First Boston Corp. and Nomura Securities Co., Ltd., New York City.

The debentures will be convertible on or after Dec. 1, 1962 into American Depositary Shares each representing 100 shares of common stock of the company and will be entitled to an annual sinking fund beginning on Oct. 1, 1970, sufficient to retire the entire issue by maturity.

Net proceeds from the sales of the debentures will be added to general corporate funds and will be applied to the financing of its capital expenditures.

Shin Mitsubishi is an important member of the Mitsubishi group of companies and is one of the largest and most diversified industrial companies of Japan. Its net sales in the year ended March 31, 1962 amounted to $292 million of which the sales of power generating equipment, industrial machinery, motor vehicles, ship-building and repair, aircraft and rolling stock were the most important. Since 1950, the company's manufacturing operations have undergone a continuing process of diversification, and a large number of new products have been added to the company's product lines.

Tira-Mali Mining Co.—"Reg. A" Filing—

The company on June 20, 1962 filed a "Reg. A" covering 410,000 non-assessable common shares (par 10c) to be offered at 20 cents, without underwriting.

Proceeds are to be used for equipment, working capital and general corporate purposes.

Tira, of 202 S. 1st Ave., Sandpoint, Idaho, is engaged in the acquisition, exploration, development and operation of mineral properties.

Traid Corp.—SEC Registration Withdrawn—

On June 22, 1962 the company withdrew its registration statement originally filed with the SEC on Feb. 12, 1962 which covered 150,000 common shares to have been offered through J. A. Hogle & Co., Salt Lake City.—V. 195, p. 860.

Transit Investments, Inc.—Files Exchange Plan—

The company of 2631 West Superior St., Duluth, Minn., filed a registration statement with the SEC on June 22 covering 837,870 shares of common stock. It is proposed to offer such stock to the common stockholders of the company's parent, Duluth-Superior Transit Co. (DST), in exchange for the outstanding stock of DST, at the rate of 40 shares of the company for each share of DST. The 837,870 shares include 151,000 outstanding shares of the company now owned by DST (to be issued to the shareholders of DST in the exchange) and 686,870 shares to be issued to DST's shareholders in consideration of the transfer to the company of certain assets presently owned by DST said to have a fair and reasonable market value of $686,870 (including a stock certificate evidencing ownership of 7,500 capital shares of DST issued in the name of the company and apportioned from the treasury shares of DST). DST will also transfer to the company 1,271 capital shares of Flight Service, Inc. and deliver to the company $101,970 in cash. The purpose of the Exchange is to simplify the existing corporate structure of the companies which are parties to the exchange by having a substantially non-operating company (the company) as the parent and operating companies (DST and Flight Service) as subsidiaries.

The company is engaged generally in various investment activities, its primary investments being in improved and unimproved real estate and in the stock of companies owning real estate. DST (and a majority owned subsidiary) operates an urban mass-transit system in Duluth and Superior (Wisconsin) areas. After completion of the exchange, Rodaly Investment, Inc. (owned by Julius E. Davis, Treasurer, and two of his partners), Norman K. Winston, Board Chairman, and Herschel B. Fryberger, Jr., a Vice-President, will own 22.86%, 13.72%, and 10.28%, respectively, of the outstanding stock of the company. Stanton D. Sanson is President.

United Insurance Fund, Inc.—"Reg. A" Filing—

The corporation on June 19, 1962 filed a "Reg. A" covering 59,900 common shares (par $1) to be offered at $5, without underwriting.

Proceeds are to be used for general corporate purposes.

United, of 1817 Exchange Bldg., Seattle 4, Wash., is engaged in the operation of a life insurance stock company.

United Virginia Bankshares—Files Exchange Plan—

The firm, of 900 East Main St., Richmond, Va., filed a registration statement with the SEC on June 21 covering 1,480,432 shares of common stock. It is proposed to offer such stock in exchange for all the outstanding capital shares of Citizens Marine Jefferson Bank, Newport News (on a 2.85-for-1 basis); First & Citizens National Bank of Alexandria, Va. (1.9-for-1); First National Trust and Savings Bank of Lynchburg, Va. (1-for-1); Merchants and Farmers Bank of Franklin, Va. (5.14-for-1); State-Planters Bank of Commerce & Trusts, Richmond (2.795-for-1); and the Vienna Trust Co., Vienna (1.05-for-1). Solicitation of exchanges will be made by a group of dealers headed by Scott & Stringfellow, 115 Mutual Bldg. and J. C. Wheat & Co., 1001 East Main St., both of Richmond. The soliciting dealers will receive, with certain exceptions, commissions of from 25 cents to 30 cents per share of the company issued in the exchange, and the dealer managers will each receive from $10,000 to $20,000 fees, depending upon the amount of shares of the banks exchanged. The exchange offer will be declared effective as to the shareholders of a constituent bank when holders of more than 50% of the shares of such bank have accepted the exchange offer and when acceptances have been received from holders of more than 50% of the shares of each of two or more constituent banks having aggregate resources, as of Dec. 31, 1961, of at least $370,000,000. No combination of constituent banks will have such aggregate resources unless State-Planters and First & Citizens are included.

The company was organized under Virginia law in June 1962 for the purpose of becoming a bank holding company under the Bank Holding Company Act of 1956 by acquiring at least a majority of the capital stock of the said banks. Clarence J. Robinson is Board Chairman and J. Harvie Wilkinson, Jr. is President.

Vending of Alaska, Inc.—"Reg. A" Filing—

The corporation on June 18, 1962 filed a "Reg. A" covering 6,500 common shares (no par) to be offered at $10, without underwriting.

Proceeds are to be used for inventory and working capital.

Vending, of Kubley Bldg., Kechikan, Alaska, is engaged in the operation of a restaurant and arcade.

Virco Mfg. Corp.—SEC Registration Withdrawn—

On June 28, 1962 the company withdrew its registration statement originally filed with the SEC on April 20, 1962 which covered 250,000 common shares, 50,000 to have been offered by the company and 200,000 by stockholders. The offering was to have been made through Crowell, Weedon & Co., Los Angeles.—V. 195, p. 2027.

Virginia Electric & Power Co.—Cumulative Preferred Registered—

The company of 700 East Franklin St., Richmond, Va., filed a registration statement with the SEC on June 27 covering 300,000 shares of cumulative preferred stock ($100 par), to be offered for public sale through underwriters headed by Merrill Lynch, Pierce, Fenner & Smith Inc., and Stone & Webster Securities Corp., both of New York. The dividend rate, public offering price (maximum $105 per share) and underwriting terms are to be supplied by amendment. The net proceeds from the stock sale will be used to provide for construction expenditures (estimated at $82,500,000 for 1962) or to reimburse the treasury therefor. In addition to certain indebtedness and preferred stock, the company has outstanding 14,910,000 shares of common stock. Erwin H. Will is Board Chairman and Alfred H. McDowell, Jr., is President.—V. 195, p. 2255.

Wesreb Oil Co.—Stock Offering Suspended—

The SEC has issued an order temporarily suspending a Regulation A exemption from registration under the Securities Act of 1933 with respect to a stock offering by this company, 422 Washington Building, Washington, D. C.

Regulation A provides a conditional exemption from registration with respect to public offering of securities not exceeding $300,000 in amount. In a notification filed on March 20, 1962, Wesreb Oil proposed the public offering of 300,000 capital shares at $1 per share. The Commission asserts in its suspension order that it has reasonable cause to believe that certain terms and conditions of the Regulation were not complied with and that the company's offering circular was false and misleading in respect of certain material facts. The order provides an opportunity for hearing, upon request, on the question whether the suspension should be vacated or made permanent.

The alleged misrepresentations relate to the company's failure to disclose that Francis Taylor Canon, President and a Director of the company, is the subject of two decrees of the New York Supreme Court, entered on Nov. 30, 1937 and Nov. 27, 1939, permanently enjoining and restraining him from engaging in securities activities within and from the State of New York. According to the order, no exemption is available under Regulation A for an offering of stock by the company by reason of said injunctions.—V. 195, p. 1550.

News of Business and Finance

ACF Industries, Inc.—Earnings Up—

Consolidated net earnings of ACF for the fiscal year ended April 30, 1962 were $6,010,000, equivalent to $4.21 per share, on sales, rentals and services of $214,316,000, it was announced by William T. Taylor, Chairman.

Beginning this year, he said, the balance sheet and earnings statement of ACF Industries and all of its subsidiaries is presented on a consolidated basis. Heretofore the financial statements of the wholly-owned SHPX group of subsidiaries engaged in leasing special railroad cars to industrial users, were presented separately and were not included in the consolidation.

On the new basis, consolidated earnings for the previous fiscal year were $5,088,000, equal to $3.58 per share on sales, rentals and services of $221,009,000.

Consolidated earnings for the final quarter of fiscal 1962 (February, March, April) were $1,978,000, or $1.38 per share, on sales, rentals and services of $62,634,000, Mr. Taylor reported. For the same period last year net income was $804,000, or 56 cents per share, on sales, rentals and services of $42,716,000.

Mr. Taylor said that net income for the fiscal year excludes the profit on the 214,500 shares of Republic Aviation Corp. common stock that were sold to the public during August, 1961. The after-tax profit of $3,772,000 on this transaction was credited directly to earned surplus. It will be more than offset by year-end charges to earned surplus in connection with the announced closing scheduled for October, 1962, of the American Car and Foundry division plant in Berwick, Pa., he said. Neither of these transactions is related to the company's normal business operations and accordingly the results thereof were charged to earned surplus rather than to fiscal 1962 net income, he explained.

ACF Industries manufactures railroad cars and other transportation equipment; missile and aircraft components; electronic and electro-mechanical devices; automotive fuel system components; petroleum, gas transmission and industrial valves and fittings; ordnance, and classified nuclear products for the Atomic Energy Commission. It also leases a fleet of tank, covered hopper and other special railroad cars to industrial users.—V. 195, p. 1206.

Acme Markets, Inc.—Name Change—

See American Stores Co., this issue.

Acoustica Associates, Inc.—Sales Down, Net Loss—

The company reported sales of $7,042,384 for the fiscal year ended Feb. 28, 1962, and a net loss of $425,705 after a Federal income tax credit of $43,000, it was disclosed by Rollin M. Russell, President, in the annual report mailed to stockholders.

In the previous fiscal year, Acoustica had sales of $9,030,524 and a net loss of $510,379 after Federal income tax credit of $185,300, including a retroactive adjustment of $212,750.

Russell stated that operations for the first quarter in the current fiscal year were profitable and this trend is expected to continue throughout the year.

"A substantial program for reorganization of the management and operations of Acoustica has been concluded," he said. "While more problems continued to appear than had been anticipated, these have now been largely resolved and a marked improvement in performance in all divisions has been effected."

Acoustica with corporate headquarters in Los Angeles, manufactures electro-acoustic systems for the military and industry. It operates facilities in Los Angeles and Santa Barbara, Calif., and Garfield, N. J. —V. 194, p. 1713.

Ainsbrooke Corp.—Appointment—

Manufactuers Hanover Trust Co., New York City, has been appointed transfer agent for the stock of the corporation.—V. 195, p. 2819.

Allegheny Airlines, Inc.—Record Net—

The company reported net profits of $95,469 in May and $162,243 for the five months ending May 31, both records for their periods since passenger operations began in 1949.

May's profit is equal to 11 cents per share and the January through May profit equal to almost 19 cents.

Leslie O. Barnes, President, said last month's profit is an increase of $42,294 over the like period a year ago while the five-month profit compares to a loss of $349,336 in the same period last year.

Net income before taxes in May was $166,469. In May, 1961, Allegheny's net was $53,175 and no tax provision was made.

Operating revenues were up almost 11%—or $187,186 to $1,954,308—in May while operating expenses increased only 7%—or $122,828 to $1,804,069.

For the five months ending May 31 operating revenues raised 17% —or $1,320,712 to $9,045,162—compared to the like period a year ago while operating expenses increased only 6% — or $525,909 to $8,723,855.

For the 12 months ending May 31, Allegheny reported a net profit of $642,565—equal to 74 cents per share, a gain of five cents per share over the 12 months ending April 30.—V. 195, p. 2376.

Allegheny Pepsi-Cola Bottling Co. — Debentures Offered—On June 25, 1962, Suplee, Yeatman, Mosley & Co., Inc., Philadelphia, and associates, offered publicly, $3,750,000 of this company's 6¼% subordinated sinking fund debentures, due June 1, 1977, with ten-year detachable warrants to purchase 375,000 shares of common stock. The debentures are offered in denominations of $1,000 and $500, priced at par plus accrued interest. The $1,000 debentures carry two warrants to purchase 50 shares each and the $500 debentures one warrant to purchase 50 shares. Net proceeds, estimated at $3,385,000, will be used to acquire all of the issued and outstanding stock of Pepsi-Cola Bottling Co. of Norfolk, Inc., a Virginia corporation.

BUSINESS—The company was incorporated in Delaware on April 12, 1960. In September, 1960, it acquired the business and assets of The Cloverdale Spring Co., a Maryland corporation, which since 1934 had been engaged in the business of manufacturing and distributing Pepsi-Cola and Pepsi-Cola syrup in certain counties in Pennsylvania,

THE COMMERCIAL AND FINANCIAL CHRONICLE (Reg. U. S. Patent Office) William B. Dana Company, Publishers, 25 Park Place, New York 7, N. Y., REctor 2-9570. Claude D. Seibert, Publisher and President; William Dana Seibert, Treasurer; George J. Morrissey, Editor. Published twice a week [every Thursday (general news and advertising issue) with a statistical issue on Monday]. Other offices: 135 S. La Salle Street, Chicago 3, Illinois (Telephone STate 2-0613); Copyright 1962 by William B. Dana Company. Second class postage paid at New York, N. Y. Subscription in United States, U. S. Possessions and Members of Pan American Union, $65.00 per year; in Dominion of Canada, $68.00 per year. Other countries, $72.00 per year.

NOTE: On account of the fluctuations in the rate of exchange, remittance for foreign subscriptions and advertisements must be made in New York funds.

Maryland, Virginia and West Virginia. The Cloverdale Spring Co. had also been engaged in manufacturing and distributing a complete flavor line of soft drinks in the same area. Since the acquisition, Allegheny has continued to conduct the operations formerly conducted by the Cloverdale Spring Co.

On Jan. 12, 1952, Allegheny entered into an agreement to acquire all of the issued and outstanding stock of Pepsi-Cola Bottling Co. of Norfolk, Inc., and its affiliate, Melchor's, Inc., another Virginia corporation for $5,000,000. Pepsi-Cola Bottling Co. of Norfolk and its predecessor since 1913 have held the Pepsi-Cola franchise and conducted a business similar to that of Allegheny in Norfolk, Va., and the surrounding Tidewater area. Melchor's owns, among other things, and leases to Pepsi-Cola Bottling Co. of Norfolk, all of the real estate occupied by the latter, which will be the only assets of Melchor's at the time of settlement for the stock.

The Norfolk business was established in 1913 by Burton De Berry Melchor, Sr., who for some time before that had conducted a similar business in Winston-Salem, N. C. Successive generations of the Melchor family have managed Norfolk since its beginning and have gradually expanded it to its present three bottling plants and one warehouse. Norfolk employs approximately 250 persons.

Altamil Corp.—Sales, Earnings Up—

This company reported net income after Federal taxes of $273,882 on sales of $4,046,481 for its third quarter ending May 31. Both earnings and sales were up sharply over the previous quarter and also the comparable 1961 period, G. L. Canfield, Altamil President, pointed out.

Net earnings of $212,735 on sales of $3,219,666 were reported in the corporation's previous quarter and $105,056 net on $2,523,362 sales for the third quarter of 1961.

The increased earnings amount to 17.2 cents per share for the recent quarter against 13.3 cents in the second reporting period and 6.3 cents per share in the third quarter last year. Earnings per share for the first nine months of the current fiscal year total 43.8 cents compared to 9.1 cents for the same period last year.

Sales of the diversified manufacturing corporation for the three quarters just ended were $10,528,948 against $6,073,280 for the like period in 1961. Net earnings for the first three quarters this year were $700,846 against $162,209 for the 1961 period. Altamil earnings to-date this year are almost double those of the corporation's net of $396,001 reported for the entire last fiscal year, Mr. Canfield pointed out.

Not reflected in the current report, Mr. Canfield said, are sales and earnings of Altamil's recently acquired Texas-based Cummer-Graham Division which manufactures wire bound boxes and crates. Operations of the new division are being coordinated with those of the corporation's Indianapolis Wire Bound Box Division.

Other Altamil divisions manufacture specialized aircraft and missile components, coin-operated laundry and coin-operated drycleaning units and processing equipment for the animal feed and chemical industries. —V. 195, p. 2700.

Ambassador Oil Corp.—P. C. S. E. Listing—

This Fort Worth company was officially listed for trading on the Pacific Coast Stock Exchange on June 21.

The company listed 3,903,435 shares of common stock, of which 3,818,435 shares are outstanding. Ambassador is also listed on the American Stock Exchange.

On Jan. 1, 1962, Ambassador had an interest in 1,183 producing oil and gas wells throughout the United States and Canada, in addition to an approximate 6,080,000 net non-producing acres in the U. S., Canada and Ireland.

Earlier this week, Ambassador, Continental Oil Co. and the Ohio Oil Co. announced commencement of their joint exploratory drilling program in the Republic of Ireland. Ambassador Irish Oil Co., a wholly-owned subsidiary of Ambassador Oil Corp., is serving as operator for the Irish drilling program from its headquarters in Dublin. Envoy Oil Ltd., a wholly-owned subsidiary with headquarters in London, operates in the United Kingdom.

Announces New Well—

This fort Worth company has announced Basal Atoka sand gas well, Latimer County, Okla., which extended the Wilburton Field approximately two miles to the west. The well gauged 11,875,000 cubic feet of gas per day through ⅝-inch choke. Flowing tubing pressure was 3,475 pounds and shut-in tubing pressure was 3,800 pounds. The well has been shut-in for open-flow potential test.—V. 195, p. 2928.

American Airlines, Inc.—Reports Loss—

Earnings for the domestic airlines continue to be severely depressed this year with cumulative losses for the first four months amounting to $20 million before taxes, an airline economist said.

George P. Hitchings, Vice-President, said that preliminary indications were that trunkline operations were not profitable during May and that the year as a whole for the industry is likely to show a loss.

Speaking before a luncheon meeting of the Society of Security Analysts, Mr. Hitchings said that the continuation of the earnings trend makes clear that major changes in air transportation policies and operations are essential.

"In the 1955-61 period, passenger traffic increased by 52%, other traffic by 86% and passenger fares by about 25%," he said. "Despite this rapid traffic growth and sharply increased fares, it was assumed by many observers that failure to receive satisfactory financial results was temporary with the blame for low earnings placed primarily on the transition to jets and to a slow-down in growth during the 1961 recession.

"In 1962, however, the industry is in the final stages of the jet transition, traffic has increased at least 11.5% in each month over the 1961 levels, and in addition fares were raised 3% effective Feb. 1," he told the analysts, "yet earnings so far this year have shown no improvement over 1961 except for February, when operations last year were curtailed by a strike."—V. 195, p. 1659.

American Chrome Co.—Appointment—

The Irving Trust Company, New York City, has been appointed registrar for the common stock of the company.—V. 189, p. 477.

American Electronic Laboratories, Inc.—Record Sales—Earnings—

The company and subsidiary, recorded sales of $2,935,387 and net income of $89,819 for the six months ended May 31, 1962, as compared to sales of $1,557,311 and net income of $47,016 for the like period of 1961. Sales in the second quarter rose to $1,482,011 with net income of $37,214 as compared to sales of $868,270 and net income of $20,351 in the second quarter of 1961. Earnings per share climbed to 38 cents (on 238,190 shares outstanding) for the first six months of 1962 as compared to 22 cents (on 212,656 shares outstanding) in the like period of 1961. Included in the earning in 1962 is a loss of 22 cents per share incurred by a recently-formed subsidiary, Chemical Electronics, Inc. The anticipated loss resulted from expensing start up costs and initial marketing expenses; however, it is expected that the subsidiary will be profitable by the end of the current fiscal year.

During the first six months the company received more than $2,000,000 in new orders bringing their sales backlog at May 31, 1962 to $2,300,000 or 53% higher than at the same date in 1961. Subsequent to May 31, 1962 (through June 25, 1962) additional orders in excess of $1,000,000 have been received.

Construction of a new 30,000 square foot facility at the Lansdale site has started with completion expected by late fall. Marketing efforts have been stepped up for many new products including an extensive line of microwave diodes, parametric amplifiers, solid state switches, a broader line of antenna and microwave components, medical equipment, and electronic test equipment.—V. 195, p. 1206.

American Machine & Foundry Co. — $2.5 Million Contract—

Great Lakes Bowling Corp. of Detroit, Mich., has awarded a $2.5 million contract to American Machine & Foundry Co.'s Bowling Division to equip new centers totalling 200 lanes in the Detroit, Pontiac, and Flint areas, Frank P. Downey, AMF Vice-President in charge of bowling products, announced.

The contract includes purchase of AMF Automatic Pinspotters and allied AMF bowling equipment.

Of varying sizes, the new establishments will complement Great Lakes chain of Michigan bowling centers now totalling 400 lanes.

Among the new locations will be a 52-lane place in the Tech Plaza Shopping Center, Warren, Michigan, one of the first in the state to be equipped with the new AMF Sparemaker.—V. 195, p. 2028.

American Metal Climax, Inc.—Forms Subsidiary—

This company has formed a new subsidiary, Amax Petroleum Corp., to engage in oil and gas production and exploration throughout the United States and Canada.

Oil operations of the parent company and its subsidiaries, Blackwell Zinc Co., Inc., Southwest Potash Corp. and Canadian Amco Ltd., were previously handled by the Oil division of AMAX. All oil operations will now be consolidated in Amax Petroleum. The announcement was made by Paul R. Schultz, President of Amax Petroleum and Walter Long, Vice-President.

At present the new subsidiary will operate properties in 15 states and three Canadian provinces. Current production averages 5,200 barrels of oil and gas equivalent per day.

Until August the principal office of the new corporation will be in the office of the parent company, 1270 Avenue of the Americas, New York. At that time headquarters will be transferred to the Enterprise Building, Tulsa, Okla. Offices in Denver, Colorado and Calgary, Alberta, Canada, will continue as district offices.—V. 195, p. 2819.

American Safety Razor Co.—Introduces New Product

See Philip Morris Inc., this issue.—V. 186, p. 109.

American Stores Co.—Name Changed to Acme Markets—American Stores Co. stockholders approved the proposed change of corporate name to Acme Markets, Inc. The new name became effective June 28.

Purpose of the name change is to identify the company with the name by which its customers and the general public know it, President Paul J. Cupp said.

During the annual meeting, Mr. Cupp reported that sales thus far for the current fiscal year are running ahead of those for the same period last year. He added that 50 new stores are slated to be opened during this fiscal year. This should exceed the number of older stores scheduled to be closed.

All directors of the company were re-elected.

American Stores Co., the nation's fourth largest food-chain, operates 846 stores in New York, Pennsylvania, New Jersey, Delaware, Maryland, West Virginia, Virginia, Washington, D. C. and California. The company operates under the name of Alpha Beta Acme Markets in California.—V. 195, p. 2488.

Ampex Corp.—Sales, Earnings Up—

This Redwood City, Calif. company earned $3,203,000, after taxes and special items applicable to prior years, or 41 cents per share during the fiscal year ended April 30, 1962, compared with a loss of $3,930,000 in fiscal 1961, according to final figures released by William E. Roberts, President.

Mr. Roberts said the net earnings, which exceeded a previously announced estimate of $2,600,000, included $470,000 of gains on sales of fixed assets and equipment leases. Net earnings also included approximately $450,000 accrued during the year to provide for possible inventory obsolescence and other liabilities, which the year-end audit indicated was not needed. This amount accordingly was added to fourth quarter operating profit.

Sales for fiscal 1962 totaled $84,106,000, up 20% over the $70,105,000 recorded last year.

Sales in the fourth quarter totaled $25,298,000, up 48% from the $17,032,000 recorded in the fourth quarter of fiscal 1961. Net earnings for the quarter, including the approximately $450,000 recovered from reserves accrued from earnings during the year, totaled $1,891,000, or 24 cents per share.

While sales increased 20%, inventories were reduced during the year by $1,463,000 to $19,593,000. Working capital at year end amounted to $37,150,000, with a current ratio of 3.8 to 1.

Mr. Roberts said, "For fiscal 1963, we continue to expect at least a 10% increase in sales and substantially greater increase in net income."—V. 195, p. 2488.

Anchor Alloys, Inc.—Acquisition—

The company has acquired Roosevelt Metals Co., Inc. in a cash transaction, Anchor President Herbert Drapkin of Great Neck announced.

The Brooklyn, N. Y., firms are in the non-ferrous white metals business. Anchor fabricates and manufactures solders, type metals and electronic specialties including ultra-high-purity metals and semi-conductors. Roosevelt imports, exports, refines and wholesales lead, tin, zinc, type metal and Babbitt metal.

Mr. Drapkin reported that Roosevelt will be operated as a wholly-owned subsidiary and that its former owner and chief officer, Morris Kaufman of 85-33 Radnor Street, Jamaica Estates, L. I., N. Y., will continue as general manager.

The acquisition will double Anchor's annual sales volume and is expected to result in increased earnings estimated at 30 cents a share, Mr. Drapkin said.—V. 195, p. 972.

Astro-Science Corp.—Receives Navy Contract—

The U. S. Navy has just awarded to Astro-Science Corp. a contract amounting to $690,000 for shipboard radar range calibrators, according to George Otis, Chairman, and Peter Stanton, President.

This contract will be produced by the firm's American Avionics division in West Los Angeles. The new contract brings American Avionics backlog of these electronic systems to $1,400,000, and will extend current production into 1964, according to American Avionics' President, Harold Moss.—V. 195, p. 2488.

Australian Oil Corp.—Acquisition—

This Midland-based land trading, oil and exploration concern revealed that it had been granted a 9,400,000-acre oil and gas concession in the State of Queensland in its annual report to stockholders.

That acquisition brings the company's holdings in Australia to 48,144,766 net acres of which there are 22,086,400 acres of oil and gas rights and 26,128,366 acres of overriding royalties.

Applications covering additional concessions totaling 69,900,800 acres now are pending.

Also revealed in the annual report was the signing of an agreement with Beach Petroleum N.L., of Adelaide, Australia, under which the latter concern contracts to drill a 5,000-foot test well on a portion of a 23,000,000 acre concession in South Australia in which Australian Oil owns a 25% interest.

Under the terms of that contract the Midland Co. will have a one-sixteenth carried interest in the well and drilling block. Australian Oil Corp. will own all of its interest offsetting the drilling block.

Automatic Retailers of America, Inc.—Notes Sold Privately—On June 25, 1962, it was reported that $16,000,000 of this company's promissory notes, due May 1, 1977, were sold to a group of insurance companies through a private placement arranged by White, Weld & Co., New York.—V. 195, p. 2928.

Beatrice Foods Co.—Record First Quarter—

The highest first quarter sales and earnings in the company's history were reported by William G. Karnes, President.

Dollar sales for the three-month period, ended May 31, increased $5,018,104, or 3.7%, to $138,623,869 from $133,605,765 for the first quarter last year. Total unit sales also attained a new high for the period, he said.

Earnings for the first half of 1962 were $359,034, or $20,202 less for the comparable period in 1961. Net earnings were equal to 58 cents per share on 3,622,768 common shares outstanding at the end of the quarter compared to 56 cents per share on 3,407,729 shares in the same quarter last year.

Karnes also notified stockholders that the Federal Trade Commission complaint against the company (and eight other dairy firms) alleging unfair trade practices in the frozen dairy products industry has been dismissed. The company has been defending against the complaint since February 13, 1954.—V. 195, p. 2700.

Bell Telephone Co. of Pennsylvania—Earns. Statement

12 Months Ended May 31—	1962 $
Local service revenues	285,977,000
Toll service revenues	132,560,000
Miscellaneous revenues	27,296,000
Less: Provision for uncollectibles	1,530,000
Total operating revenues	444,303,000
Maintenance	81,277,000
Depreciation	57,049,000
Other operating expenses	150,198,000
Total operating expenses	288,524,000
Net operating revenues	155,779,000
Federal income taxes	62,740,000
State income taxes	7,190,000
Other operating taxes	14,761,000
Net operating income	71,088,000
Interest charged construction	1,330,000
Less: Miscellaneous income deductions-net	1,490,000

Interest on advances from American company	1,126,000
Other interest deductions	226,000
Less: Release of premium on funded debt-net	13,000
Total interest deductions	8,994,000
Net income	61,934,000

—V. 194, p. 1503.

Bobbie Brooks, Inc.—Stock Split Recommended—

A two-for-one stock split and a 33⅓% increase in the quarterly dividend rate were recommended by directors of the company following a forecast of a 25% increase in sales to $75,000,000 for the current fiscal year.

Maurice Saltzman, President, said a record expansion of employment and facilities would be started immediately to keep pace with volume expected to reach $100,000,000 within three years. Sales of the company's young adult apparel were approximately $60,000,000 during the fiscal year ended April 30, 1962.

Earnings on this year's anticipated volume of $75,000,000 are expected to be "well in excess of $2 a share" on the basis of present shares, compared with preliminary estimates of $1.70 to $1.80 for the year just ended.

The stock split, to be voted on by shareholders at the annual meeting on Aug. 23, would be the company's second two-for-one split since offering its shares to the public in 1959.

Directors announced their intention to pay 10 cents quarterly on the split shares, or the equivalent of 20 cents on present shares as compared to the current 15 cent rate. This would be the fourth increase in two-and-a-half years and the proposed rate would be 128% above the original dividend paid in May of 1959, as adjusted for the previous stock split.

"Bobbie Brooks is proposing a stock split and dividend increase at this time to highlight the unlimited confidence we have in the strength of this nation's economy and its potential for unlimited growth," Mr. Saltzman said.—V. 195, p. 2149.

Brown Co.—Sales Up, Net Down—

Higher net sales but slightly lower net earnings for the first six months of the 1962 fiscal year, as compared with results for a similar period last year, were reported by President Leonard A. Pierce, of Brown, northern New England pulp and paper firm.

Earnings for the first half of 1962 were $359,034, or $20,202 less than for the same period in 1961, the mid-year report to stockholders disclosed. On a per share basis, the company earned 14 cents during the current period as contrasted with 15 cents for 1961.

Net sales for the first half of fiscal 1962 were up 6% over last year, amounting to $27,972,819 as compared with $26,330,867 for 1961. Growth in sales of paper, paper towels and plywood from the company's diversified product line were reported by Pierce, who said that sales should continue at about the present level for the balance of the year.

In comparing 1962 results with those of the first half of 1961, Pierce said that profits from operations this year were slightly higher than in 1961 in spite of sales price reductions and higher labor costs, and start-up costs of the company's new tissue machine which is now in operation. However, 1961 first-half results were favorably affected by a non-recurring profit from the sale of the company's interest in a Canadian corporation.

Pierce also reported that the company's new fiber pipe plant at Mount Holly, N. J., was half completed and would be in operation late this fall.

Net current assets of the company amount to $18,145,671, with current ratio of 6.26. Debt has been reduced to $3,933,100, and cash items are $4,595,383, the report disclosed.—V. 191, p. 602.

Brown-Forman Distillers Corp.—Earnings Up 37%—

An increase of 37% in earnings over the previous fiscal year is reported by this Louisville, Ky., distiller in the company's annual report. The letter to stockholders, signed jointly by Board Chairman W. L. Lyons Brown and President Geo. Garvin Brown, stated, in part, "Progress was the keynote in the company's operations during the fiscal year just ended. Outstanding advances were made in nearly all areas."

The company reported net profits of $6,356,405, equal to $1.67 per share of common stock, for the fiscal year ended April 30, 1962. Profits for the prior year totaled $4,654,761 or $1.19 per share of common stock after adjustment for the distribution of a 3% common stock dividend July 10, 1961.

According to the report, Old Forester 86 Proof became the fastest growing Kentucky Straight Bourbon whisky in its price class during the past year. Sales of Early Times Kentucky Straight Bourbon also exceeded those of the previous year. The demand for Jack Daniel's Tennessee whiskies still surpasses the supply. As a result, consolidated net sales for the 1962 fiscal year set a new record of $108,782,538. Sales for the previous fiscal year were $101,768,453. The increase of $7,014,085 was 7% greater than sales for the previous fiscal year.

The company's net worth reached a new record high of $48,397,200 with working capital of $58,863,101; current assets of $72,430,382; and current liabilities of $13,567,281.

The report states that Brown-Forman has paid regular cash dividends to its stockholders for 17 consecutive years. On July 10, 1961, common stockholders received a 3% stock dividend. The company has also announced it will pay its sixth consecutive 3% stock dividend July 31, 1962, to stockholders of record June 29, 1962.

During the year, the rate of increase of Usher's "Green Stripe" Scotch was greater than the average of Scotch whiskies sold in the United States. Sales of BOLS domestic and imported liqueurs experienced substantial increases, and distribution of the company's imported Gancia Italian wines and vermouths was expanded.

The report also noted that during the year Brown-Forman reintroduced Bottoms Up, 86 proof Kentucky Straight Bourbon whisky, to meet an increasing demand for moderately priced quality whiskies. It is being distributed in selected marketing areas, where it was well accepted in the past.—V. 194, p. 2655.

Brunswick Corp.—Replies to Antitrust Charges—

J. N. Willman, Vice-President of Brunswick, stated that his company will vigorously defend itself against the Justice Department's Antitrust charges filed in New Haven, Conn.

Mr. Willman said, "The government's action is, we believe, directed at marketing policies in effect prior to the acquisition of Roehr Products Co., Inc. by Brunswick on April 1, 1961."

He said Roehr needles and syringes are available to all Roehr distributors on the same terms and conditions and are presently being distributed by Brunswick's many competitors in the hospital supply field who actively compete with Brunswick and each other.

Mr. Willman denied that Roehr or Brunswick fix distributors' resale prices on Roehr products. He added that the United States Government is one of Roehr's important customers.

According to Mr. Willman, the Roehr Monoject needle is the first widely accepted sterile hypodermic needle. He said that it provides doctors and hospitals with a disposable needle that is more economical than a conventional needle and its sterilization protects the patient against cross infection.

Through manufacturing efficiencies, Mr. Willman said, Roehr has consistently been able to improve the quality of its products and to absorb increased labor and material costs without a raise in the selling price of its needles and has actually reduced the price of syringes several times.

"Brunswick will vigorously defend its present distribution policy and believes it will be sustained by the court," Mr. Willman concluded.—V. 195, p. 2150.

Budd Co.—Awarded Contract—

Commissioner of Public Property Fred T. Corleto has announced the award of a $9,000,000 contract to the Railway Division of the Budd Co for 38 stainless steel, air-conditioned commuter cars to be leased to the Pennsylvania Railroad by the Passenger Service Improvement Corp.

The PSIC is a non-profit corporation set up by the city of Philadelphia to help subsidize and improve commuter services.

The new 125-seat commuter cars—known as Budd MU (multiple unit) Pioneers—are the lowest cost, lightest weight railway cars yet built that can be adapted to any kind of passenger service. Budd's Red Lion plant will start delivery in the first quarter of 1963.—V. 195, p. 2929.

Bulova Watch Co., Inc.—Profits Improved, Sales Down

The company reported consolidated net earnings for the fiscal year ended March 31, 1962 of $1,403,701, equal to 72 cents per share. Earnings for the previous year were $1,511,239, equal to 78 cents per share. Non-recurring income items, according to the company's annual report, accounted for five cents per share in fiscal 1962, and 10 cents in 1961.

Thus, earnings from operations amounted to 67 cents per share on consolidated sales of $62,805,592 compared with 68 cents per share on sales of $68,731,270 in fiscal 1961.

The slightly improved operating profit ratio, despite lower sales volume, the report stated, reflected increased sales of consumer products and services in the final quarter and higher volume in company-developed industrial and defense products. Increased efficiency and economies in the work of the Industrial/Defense Group also were cited.

Earnings were penalized, the company officials reported, by continued investment support for product diversification and world-wide market expansion. Recent product development and diversification will mean that "one-third of this year's sales will be in products the company has introduced within the past two years," they said.

The report indicated that the difference in sales between the two fiscal periods was largely due to the completion in fiscal 1961 of a major missile R&D program resulting in a return to a research volume more typical of previous years.

Company executives General Omar N. Bradley, Chairman, and Harry B. Henshel, President, also reported that as the year ended new orders in all areas of the business were "substantially ahead of 1961," and that both sales and earnings had shown an increase in the fiscal fourth quarter.

Watches and other consumer product sales for the fiscal year as a whole, the report said, were slow to recover from the recession experienced by the industry 18 months ago.

The company's international subsidiary completed its first full year of operation abroad. Growing sales were reported in important foreign markets including Australia, Hong Kong, Japan and Italy. The company's watches, bolstered by an "Intercontinental" line of 109 models especially developed for overseas requirements, are now available in 45 nations, and five new markets will be opened soon, the report said.—V. 195, p. 2377.

California-Pacific Utilities Co.—Sales, Net Up—

The company derived a net income of $1,190,513, equal to $1.23 a share for the common stock, from operations in the 12 months ended May 31, 1962. In the corresponding period ended in 1961 earnings amounted to $1,130,947, or $1.20 a share.

In the period ended in 1962 earnings are figured on the average of 885,238 shares of common stock outstanding, and after $103,307 for preferred dividends; in the 1961 period common shares outstanding averaged 841,716 and preferred dividends required $118,434.

Revenues from all sources totaled $13,594,772 in the 12 months ended May 31, 1962, consisting of $12,200,957 from utility services and $1,393,815 from such non-utility sources as sales of tank gas and appliances.

In the corresponding period ended in 1961, revenues totaled $12,410,354, composed of $11,274,220 from utility services and $1,136,134 from other sources.—V. 195, p. 2594.

Celanese Corp. of America—To Market in Japan—

Plans to make and market a diversified line of plastics in Japan were announced jointly by Celanese and Dainippon Celluloid Co. (Daicell).

Products to be produced and marketed will include the Celanese acetal co-polymer, known as Celcon in this country. This high performance plastic will be sold under the trademark Duracon in Japan. Other products will cover a wide range of cellulosic films and sheets.

Application will be made to the Japanese Government for the necessary approvals of the two companies' plans, which include formation of a manufacturing company and construction of plants in Japan. The plants will have an annual production capacity of more than 16 million pounds of acetal co-polymer and approximately 5 million pounds of cellulosic plastics.

Meanwhile, joint operations will begin in Japan immediately with the establishment of Polyplastics Co., Ltd., as an import-marketing organization, handling principally the acetal co-polymer plastic which is replacing metals in automobile parts, appliances, pipe, containers and many other applications. Polyplastics Co. will be supplied with the plastic from Celanese production at Bishop, Texas.—V. 195, p. 2377.

Celotex Corp.—Ruberoid to Purchase Shares—

See Ruberoid Co., this issue.—V. 195, p. 2929.

Central Indiana Gas Co.—Earnings Statement—

Period Ended May 30—	1962	1961
Operating revenues	$9,518,800	$8,968,000
Net income	1,268,100	1,068,800
Earnings per share (1,087,426 shares in 1962; 1,100,000 shares in 1961)	$1.17	$0.97

—V. 195, p. 2489.

Central Soya Co., Inc.—Earnings Improve—

Increased earnings by the company were reported by Harold W. McMillen, Board Chairman, in his report to stockholders on the third quarter ended May 31, 1962.

Mr. McMillen reported that, after provision for Federal and state income taxes in the amount of $1,887,166, third quarter net income was $1,768,196, which compared favorably with the second quarter's $1,674,442 and the $1,263,702 earned in the third quarter of the previous year.

As a result of improved earnings in each quarter of the current fiscal year, net income for the nine months ended May 31, 1962, totaled $4,906,687, as compared to $3,565,648 last year.

Third quarter sales amounted to $80,552,097, down slightly from the second quarter's $81,395,790, but up substantially from third quarter sales of $71,791,287 a year ago. For the current nine-month period, sales totaled $255,378,798, as compared to $204,187,949 for the first nine months of the previous year.

Net profit per share for the third quarter was 61 cents (based upon 2,887,752 shares outstanding on May 31), an increase of three cents over the second quarter, and of 17 cents over last year's third quarter per share earnings. For the nine-month period, net profit per share amounted to $1.70, as compared to last year's $1.25.—V. 195, p. 1426.

Cincinnati Gas & Electric Co.—Additional Financing Details—Our June 25, 1962 issue reported the sale on June 22 of $25,000,000 of the company's first mortgage bonds, 4⅜% series due June 1, 1992, at 102.50% and accrued interest, to yield approximately 4.23%. The bonds were won at a competitive sale on June 21 by Halsey, Stuart & Co. Inc., New York City, and associates, on a bid of 101.759%.

Additional financing details follow:

UNDERWRITERS—The names of the several underwriters of the new bonds and the principal amounts of the new bonds which they have agreed to purchase are as follows:

	Amount (000's Omitted)		Amount (000's Omitted)
Halsey, Stuart & Co. Inc.	$8,900	New York Hanseatic Corp.	$1,000
A. E. Aub & Co.	100	Peters, Writer & Christensen, Inc.	100
Ball, Burge & Kraus	350	Wm. E. Pollock & Co., Inc.	600

—V. 195, p. 2929.

Colwell Co.—Record Loan Volume—

The company's consolidated May, 1962, mortgage loan origination volume, which includes the Peninsula Division in Northern California, was the most productive for a single month in the company's history, according to Bundy Colwell, President.

During the month, 1,076 loans valued at $20,271,369 were originated. Previous high for the California mortgage banking firm was recorded during May, 1961, when 983 loans valued at $13,879,000 were placed on the company's books.

For the five months period ended May 31, 1962, Colwell reported a record pace in loan originations with 3,070 valued at $51,962,000 compared to 2,758 loans valued at $41,708,998 for the like period last year.

At May 31, 1962, the company's consolidated mortgage loan portfolio contained 36,410 loans with $460,888,789 in principal balances outstanding. At Dec. 31, 1961 there were 34,711 loans in the portfolio valued at $424,255,587.—V. 195, p. 2031.

Commercial Trading Co., Inc. — Notes Placed Privately—On June 26, 1962, it was announced that $500,000 of this company's subordinated notes, due June 1, 1974, was privately placed through New York Securities Co., New York.—V. 193, p. 2433.

Consolidated Business Systems, Inc. — Sales Up 71%, Net Doubled—

The company, of New Brunswick, N. J., increased its net sales 71% from $2,503,892 to $4,272,364, in the fiscal year ended March 31, 1962 while its net earnings more than doubled, from $70,593 to $147,011, in the same period, J. William Pierce, President, reported.—V. 195, p. 636.

Crescent Petroleum Corp.—Appointment—

First National City Bank, New York City, has been appointed transfer agent for the common stock and 5% convertible preferred stock of the corporation.—V. 195, p. 2259.

Crossett Co.—Shares Solicited—

See Georgia-Pacific Corp. this issue.—V. 192, p. 896.

Dart Drug Corp.—Convertible Debentures Offered—Laird & Co., Corp., Wilmington, Del. and Jones, Kreeger & Co., Washington, D. C., on June 27, 1962, announced the public offering of $1,000,000 of this company's convertible subordinated debentures due July 1, 1977, at 100%.

PROCEEDS—Net proceeds from the financing are intended for application to the payment of bank loans, the proceeds of which were used for working capital. The company also intends to add the balance of the proceeds to general funds, to be available for working capital; to open new discount drug stores through 1963, and to provide inventory for such stores.

REDEMPTION FEATURES—The debentures are convertible into class A common stock immediately at conversion prices of $5 prior to July 1, 1967, of $7.00 prior to July 1, 1972, and of $10 prior to July 1, 1977. The debentures bear interest from July 1, 1962. They are redeemable at optional redemption prices ranging from 106% to 100%; and at the sinking fund redemption price of 100%, plus accrued interest in each case.

BUSINESS—Dart Drug, of Washington, D. C., and its subsidiaries are engaged in operating 14 discount retail drug stores, primarily in the Washington, D. C. area. The company's principal lines of merchandise are pharmaceuticals, vitamins, prescriptions and cosmetics. The company's stores also carry sundry articles customarily handled by metropolitan drug stores. National brand items and private label items are both sold by the company.

REVENUES—For the year ended March 31, 1962, on a consolidated basis, the company and its subsidiaries had sales of $6,973,648 and net income of $224,125, equal to 37 cents per share of common stock outstanding.—V. 195, p. 2373.

Diamond National Corp.—Sales, Profits Increased—

This company continued to show gains in sales and earnings during the first half of 1962, William H. Walters, Chairman and President, reported.

The company's profit after taxes for the 24 weeks ended June 18 totaled $6,922,000 compared to $6,556,000 in the like period a year ago. Profit per share of common after preferred dividends equaled $1.50 a share on 4,519,061 shares outstanding against $1.39 on 4,482,076 shares for the first half of 1961, or an increase of 8%.

First half earnings, Mr. Walters noted, were exclusive of net gain after taxes and associated expenses of approximately $10,700,000 or $2.36 a share Diamond National realized from the sale of its half interest in Dairypak Butler, Inc. in April, 1962.

Net sales for the first 24 weeks of this year totaled $113,019,000 against $108,835,000 for the same period a year ago.

In the 12-week period ended June 18, the company increased net earnings to $3,654,000 from $3,588,000 a year earlier. Earnings per common share were equal to 80 cents compared with 76 cents a share in the same period a year ago. Sales for the second quarter amounted to $59,381,000 compared to $57,028,000 in 1961.

Diamond National, which operates 39 manufacturing plants here and abroad, is a major producer of consumer packaging materials, paperboard, molded-pulp products, lumber, matches and woodenware. The company also operates 79 retail building-supply stores on the East and West Coasts.—V. 195, p. 2490.

Domestic Management, Inc.—Notes Placed Privately—On June 27, 1962, it was reported that this company placed privately through New York Securities Co., New York City, $1,500,000 of junior subordinated notes, due May 15, 1974, and $500,000 senior subordinated debentures, series B, due June 1, 1974.—V. 195, p. 2595.

Dynamic Gear Co., Inc.—Earnings Forecast—

The company's shareholders were told by President William A. Weigand, at the company's annual meeting, that sales and earnings for the year should substantially exceed those of last year when the company grossed $1.3 million and earned $63,636 equal to $0.12 per share.

Sales for the first half of the current year ended June 30, 1962, were estimated to compare favorably with the $749,000 billed in the comparable 1961 period, despite the small backlog with which the company started the year. New orders written place the current backlog at $350,000.—V. 195, p. 2490.

Dynascan Corp.—Formed Through Merger—

Two groups of Chicago-area electronics firms have merged to form Dynascan Corp., according to Carl Korn, President of the new organization.

Dynascan is a leading producer of equipment for the electronics and materials handling industries.

One group of merging firms consisted of B & K Manufacturing Co., Dyna-Scan Manufacturing Co., and Cheri Engineering Co. These companies were engaged in developing, designing, manufacturing and selling electronic test equipment for commercial television and general industrial application.

The other group was EFH Mark Microwave Inc., Mark Mobile, Inc. and Janline, Inc. These firms were engaged in developing, designing, manufacturing and selling antennas and microwave equipment for point-to-point and all-directional two-way radio. This equipment is used by police and fire departments, taxicab firms, truckers, railroads and similar industries where two-way communication is advantageous.

Combined sales for the two merging firms were $4,030,938 in 1961. Pro forma net earnings for the two groups were $399,918 in 1961, or $0.50 per share. Pro forma net earnings were $250,406 for 1960, or $0.31 per share, on sales of $2,594,531.

Dynascan has been capitalized at 2 million authorized shares with $1 par value per share. Currently 800,000 shares are outstanding. The shares are traded over the counter.

Dynascan Corp., the successor firm, will carry on the business activities of its predecessor firms. Corporate headquarters are located at 1801 W. Belle Plaine Ave., Chicago. Principal manufacturing facilities are located here and at 5439 W. Fargo, Skokie, Ill.—V. 195, p. 1923.

Eaton Manufacturing Co.—Expands Argentine Interests

Two major steps have been taken by the company which will further enlarge its manufacturing and engineering activities in the expanding Argentine automotive market.

E. M. de Windt, President of Eaton International, announced that the company has acquired a substantial equity interest in Compania Metalurgica Argentina AE S. A. I. C., a suspension spring manufacturer, and has concluded a licensing agreement with S. Beccui E Hijos S. A., a producer of forgings. Both companies are located in Buenos Aires.

Compania Metalurgica is the country's leading manufacturer of leaf and coil suspension springs. It also makes stabilizing bars and bumper supports.

The company has under construction a new 75,000-square-foot plant in San Miguel, on the outskirts of Buenos Aires, to manufacture suspension springs for original equipment applications in passenger cars and trucks. When completed, it will substantially broaden the operations of the present plant in Buenos Aires which will then limit its output to the railroad, automotive and truck replacement spring markets.

The license agreement with Beccui, a major manufacturer of forgings in Argentina, covers the production of induction hardened shafts by a process developed by Eaton. These shafts are used in the assembly of truck axles. Induction hardening provides maximum resistance of the shaft steel to fatigue failure.

Meanwhile, Eaton Ejes I. C. S. A., a wholly-owned subsidiary of Eaton Manufacturing Co., is currently bringing to completion a plant in Jose C. Paz, a suburb of Buenos Aires, for volume production of rear two-speed axles and front axles for medium-sized trucks. Eaton's investment here will exceed $8,000,000 for land, buildings, equipment and inventories.—V. 195, p. 1096.

Eddy Paper Co.—To Redeem Stock—

The company has called for redemption on July 20, 1962, all of its outstanding cumulative convertible class "A" shares (par $20) at $22.60 per share. Payment will be made at the Montreal Trust Co., Montreal, Toronto, St. Johns, Winnipeg, Vancouver and Halifax.—V. 195, p. 1799.

Electrical Products Corp. of Calif.—Merger Approved

See Federal Sign & Signal Corp. this issue.—V. 195, p. 1923.

Elgin National Watch Co.—Sales Up 33%, Net Increased

Net sales of the company for the quarter ended May 31 jumped 33% from the corresponding 1961 period, and the corporation reported a net operating profit of $114,593 as against a net operating loss of $124,507 a year earlier, Henry M. Margolis, Board Chairman, told the annual meeting of stockholders.

The net profit for the quarter — the first three months of the company's fiscal year — was equal to 12 cents per common share against a net operating loss of 13 cents in the year-ago period. However, because of a non-recurring income of $265,178, Elgin had a net profit of $140,671 or 15 cents in the 1961 quarter. No provision was made for Federal taxes in either period because of a tax loss carry-forward.

Mr. Margolis said that the company has adopted a fiscal year of 12 calendar months as against the previous policy of operating on a fiscal year of 13 equal accounting periods of four weeks each. For purposes of comparison, therefore, 1961 figures have been restated.

Net sales for the May quarter increased to $10,147,719 from $7,655,000 a year before, he reported.—V. 195, p. 2930.

(R. J.) Enstrom Corp.—Rights Offering—Pursuant to a June 18, 1962 offering circular the company is offering, without underwriting, to holders of its common shares the right to subscribe for additional shares at the rate of four-fifths of a share for each share held of record June 11, 1962, and the privilege to oversubscribe for additional shares, not to exceed five shares for each share held. The total number of shares so subscribed and oversubscribed for shall in no event exceed 30,000 common shares. Rights will expire on July 31, 1962. Net proceeds will be used for debt repayment, materials, overhead, promotion, and miscellaneous expenses.

BUSINESS—The company was incorporated under the laws of the State of Michigan on Dec. 22, 1959, and its office is located at Menominee County Airport, Menominee, Michigan.

The company was formed by a group of business men to develop and market a helicopter, using as a starting point the designs, patented rotor-blade control system and experimental machine created and built by Mr. Enstrom. The patented rotor-blade control system is not incorporated in the design of the company's present prototype and both the company and Mr. Enstrom, who is neither by education or training an aeronautical or helicopter engineer, recognize that Mr. Enstrom's most important contribution to the company was his development of basic concepts of straight-forward and simple helicopter design. Because Mr. Enstrom had built a helicopter reflecting his basic design concepts, the company was able to begin its program without devoting a significant amount of time to otherwise essential preliminary planning, designing, construction and testing and has reached the present stage of development at a cost, as of March 31, 1962, of $296,605 in cash, and shares and other considerations to be paid to Mr. Enstrom in accordance with the company's agreement with him. The company intends to adhere to the basic simplicity envisioned by Mr. Enstrom as the design of its helicopter continues to develop and to do so even if it is necessary to abandon details of the original design.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

	Authorized	Outstanding
Common shares (par $10)	80,000 shs.	68,100 shs.

—V. 195, p. 1799.

Fairchild Camera & Instrument Corp.—Acquisition—

The acquisition for cash of all inventories and equipment of the Central Electronic Manufacturers Division of Nuclear Corp. of America, Inc., and the product line of the division, was announced by Fairchild Camera & Instrument Corp.

Central Electronics will become a department of Fairchild's Du Mont Electronic Tube Division in Clifton, N. J. The amount involved in the transaction was not disclosed.

"Central Electronics has a proven reputation in the high power electronic tube field, associated power devices, as well as an active research and development program," Fairchild President John Carter commented. "These products and programs will serve to broaden the Du Mont Tube Division's position in the electronic tube field."—V. 195, p. 2032.

Federal Sign & Signal Corp.—Merger Approved—

The company announced that the proposed merger of Electrical Products Corp. of Los Angeles into Federal Sign & Signal Corp. was approved at special stockholder meetings.

Holders of more than 90% of Federal stock approved the merger at a meeting in Chicago, while at a meeting held in Los Angeles, holders of 84½% of EPCO stock voted their approval of the merger.

In Chicago, James F. Jones, President of Federal, said it is expected that the merger will be effected soon, following the issuance of appropriate approval by the Commissioner of Corporations of California.

Electrical Products was established in 1912 and produces electrical outdoor displays in major markets in California, Oregon, Arizona, and Nevada. Federal Sign operates branch plants and offices in the East, Midwest, and Southwest.—V. 195, p. 1923.

Floyd Bennett Stores, Inc.—Operates Add'l Stores—

The company, a publicly-owned discount department store chain, has begun direct operation of three previously leased furniture departments, and of a newly opened pet shop.

Earlier this year the company began direct operation of other previously leased departments, including food, housewares, hardware, paint, garden furniture, gardening equipment, and automotive accessories.

Floyd Bennett Stores has started to operate the furniture departments in its Valley Stream, L. I., Patchogue, L. I. and Manhasset, L. I. stores, and the pet shop in its Patchogue unit.

Operating leases of the Valley Stream and Patchogue furniture departments were acquired from Brod's, whose former head, Michael Brodsky, has joined Floyd Bennett Stores, Inc. as furniture merchandise manager. The lease for the furniture department in Manhasset was acquired from Miracle Sleep Products, Inc.—V. 195, p. 1663.

Forest Laboratories Inc.—Earnings Up—

Earnings of this company for the fiscal year ended March 31, increased 375% to $102,770 from the $21,306 registered in the preceding 12-month period, Hans Lowey, President, revealed.

These earning figures are equal to 38 cents per share as against 8 cents per share for the previous year.

Forest Laboratories is primarily engaged in developing and manufacturing "sustained action" pharmaceuticals and proprietary products for the drug, chemical specialties, and food industries in the United States and 27 foreign countries.—V. 194, p. 7.

Franklin Life Insurance Co. (Springfield) — To Be Merged—

See Greatamerica Corp. this issue.—V. 195, p. 2595.

Gabriel Co.—International Subsidiary Formed—

The company announced the formation of a new international subsidiary, Gabriel Europe, S. A., as a joint venture with a leading Belgian manufacturer, Compagnie General des Conduites d'Eau of Liege. Thomas J. Dolan, chief executive officer, said that construction of an automotive shock absorber plant would shortly begin on a ten-acre site near Liege, Belgium, in cooperation with the Belgian company.

The Compagnie Generale des Conduites d'Eau is one of the largest companies in Belgium and has been in business in Liege for more than 400 years.

The new million-dollar facilities, when in full operation, will have more than 100 employees and Gabriel shock absorbers will be distributed through well-established Gabriel distributors and representatives throughout Europe. Warehouse facilities to service the new automotive shock absorber plant have been opened in the Liege area. The new plant will be a one-story building of modern reinforced concrete construction.

Mr. Dolan said that he was proud that The Gabriel Co. would be associated with such a forward-looking and growth-minded company as Compagnie Generale des Conduites d'Eau, associated with leading citizens of Belgium and located centrally in the European Common Market.

Mr. Dolan pointed out the success of the two latest Gabriel plants which had already been established outside the United States—Gabriel of Canada Ltd. and Gabriel India Ltd., both of which are expanding production rapidly. In addition, Gabriel has commenced production in the Argentine. The Gabriel Co. is the world's leading manufacturer of shock absorbers.—V. 195, p. 1097.

General Mills—Net Down—

General Mills, net earnings for the fiscal year that ended May 31, 1962, will be approximately $10,150,000, or $1.25 per share, according to preliminary estimates. This compares with earnings of $12,800,000, or $1.63 per share, for the previous year.

The company emphasized that detailed accounting has not been completed, and the public accountants have not finished their review. The official annual report will be released July 30.

The Grocery Products Division, most important of General Mills' operating units, completed a highly profitable year. The company's reduced earnings were attributed largely to two factors.

First were losses in feed operations. Throughout the year, the company said, prices of broilers and turkeys were below the cost of production; consequently, General Mills' poultry growing operations as well as their customer business were highly unprofitable.

During the latter part of the year, General Mills announced plans to withdraw from the feed business, which had been a substantial drain on earnings for the past few years. Many of the company's feed mills have now been sold.

The second factor that affected earnings adversely, General Mills reported, was extreme competition in the flour industry which held profit margins to abnormally low levels.

Sales of $546,400,000, the company said, were down about 5% from those of the previous year, primarily because of discontinuance of feed operations.

During the fiscal year, General Mills continued quarterly dividend payments of 30 cents per share. Through its 34-year history, the company has earned and paid regular dividends on its common stock without reduction.—V. 195, p. 402.

General Motors Corp.—To Incr. Universities' Support

GM announced expansion in the amount of its contributions for support of higher education and a substantial increase in the number of participating colleges and universities.

The cost of the revised program, including operation of General Motors Institute at Flint, Mich., is expected to exceed $8,500,000 annually and benefits will be received by more than 730 colleges and universities, almost double the 388 under the current program.—V. 195, p. 2595.

General Steel Industries, Inc.—Stock Exchanged—

See White Motor Company this issue.—V. 195, p. 2152.

General Tire & Rubber Co.—Sales, Net Up—

The consolidated net sales of the General Tire & Rubber Co. for the first half of 1962 were $432,751,400 compared with $374,086,216 for the same 1961 period, it was announced.

In a joint report to shareholders, Chairman T. F. O'Neil and President M. G. O'Neil pointed out that this is an increase of 15.7% with all of the company's divisions showing sales increases.

Estimated net earnings for the six months ended May 31, 1962 were reported at $11,720,164 or a per-share earnings of 68 cents on common stock outstanding. This compares with $11,508,190 for last year when the per-share earnings were also 68 cents.

Increased first half earnings were experienced in 1962 in plastics and in industrial products, it was pointed out.

Commenting on the first-half results, President O'Neil said:

"Sales of the Tire Division increased in the first half of 1962 over last year. There was a distinct improvement in the earnings of this division during the second 1962 quarter as compared with the first three months of the year.

"While sales of Aerojet-General, our rocket and space age subsidiary, increased in the first half of 1962, net income declined because of expanded company-sponsored research and development effort and lower volume of fixed-price contracts."

The net income of RKO General, Inc., General Tire's Radio and Television subsidiary, was $2,426 248 for the 1962 half compared with $2,664,621 for the first six months in fiscal 1961. RKO General's pre-tax income in the two periods was approximately the same, it was explained.

On the year's outlook, shareholders were told: "We confidently expect our overall business to continue at or above current levels for the balance of the year."—V. 195, p. 1807.

Georgia-Pacific Corp.—Proposes Acquisition—

Georgia-Pacific Paper Corp., a wholly-owned subsidiary of Georgia-Pacific Corp., has mailed to all holders of class A and class B stock of the Crossett Co. of Crossett, Ark., an offer dated June 22, 1962, to purchase their shares at $55 a share. The offer expires at the close of business on July 2, 1962. In order to accept the offer, stock certificates must be deposited with either First National City Bank of New York City or Bank of America, National Trust & Savings Association, San Francisco, before the close of business on this date. —V. 195, p. 2930.

Glidden Co.—Sales Up 16%, Net 23%—

Net sales of the company for the nine months which ended May 31, 1962, were $172,709,305, compared with sales of $148,393,233 for the similar period in the previous fiscal year, Dwight P. Joyce, Chairman and President, reported.

Net income for the 1962 fiscal period amounted to $4,164,807, equal to $1.68 per common share after providing for preferred dividend requirements. Last year, net income for the comparable nine months was $3,386,279, or $1.47 per common share.

Totals for the 1962 period include operating results of Pemco Corp., which was acquired last year and is now the Pemco Division of the Chemicals Group.

Mr. Joyce reported that for the full nine months net sales were up 16% and net income 23%. In the third quarter of the fiscal year sales rose 14% and net income was up 8%.

"This slowdown in the rate of gain was anticipated," Mr. Joyce said. "In the spring of 1961 we experienced a very rapid business recovery and results for the third quarter of this year must be compared with the sharp gain recorded in the latter part of fiscal 1961."—V. 195, p. 218.

Goldfield Consolidated Mines Co.—Appointment—

The Irving Trust Company, New York City, has been appointed registrar for the common stock of the company.—V. 189, p. 1676.

(B. F.) Goodrich Co.—New Plant—

The company officially opened its sixth tire manufacturing plant in the United States.

J. W. Keener, President and Chief Executive officer of the company, in dedicating the new facility said total tire shipments for use on new cars in the U. S. should exceed 35 million units this year, an increase of about 17% over last year.

Total shipments of pneumatic tires of all types—including truck-bus, farm, industrial and aviation—will set a new record of 134 million units in 1962, he said—up 7 million units from the 1960 high, and 9 million from the total in 1961.

"This new plant provides improved access to growing tire replacement markets in the middle West and to more than half the nation's automobile manufacturing capacity, which is within overnight shipping distance," Mr. Keener said.

The BFG President said first-quarter replacement tire shipments this year were nearly 2 million above the same period in 1961, but he anticipated only modest gains during the rest of the year for replacement uses.

The Indiana plant is on a 270-acre tract east of Fort Wayne on the banks of the Maumee river. It is BFG's 35th manufacturing facility in this country.—V. 195, p. 2034.

Gould-National Batteries, Inc.—Receives Contract—

The U. S. Navy Department has just awarded the company a contract exceeding $1.5 million for Torpedo Seawater batteries. According to Albert H. Daggett, Chairman, this latest contract brings the fiscal year total of strictly military battery types to more than $10 million.

The largest portion of the $10 million was apportioned to Lead-Acid and Silver-Zinc batteries for aircraft; Seawater and Silver-Zinc torpedo batteries; and extra-heavy-duty batteries for conventional and nuclear submarines. The remainder consisted mainly of batteries for use by Army Ordnance (automotive types), and Army Signal Supply for use in portable sending and receiving sets. The aircraft batteries are designed for starting purposes only, while all the remainder are designed for power production.—V. 195, p. 1317.

Granite City Steel Co.—Notes Sold Privately—On June 29, 1962, it was reported that $48,000,000 of this company's 4⅞% notes, due in 1987, were issued privately to three insurance companies to refinance the two major elements in its long term debt.

The proceeds will be used to retire first mortgage bonds and revolving credit 90-day bank notes presently outstanding.

The three insurance companies are Metropolitan Life Insurance Co., Prudential Life Insurance Co., and Northwestern Mutual Life Insurance Co.—V. 195, p. 2034.

Great American Life Underwriters, Inc.—To Be Merged

See Greatamerica Corp. this issue.—V. 195, p. 2595.

Greatamerica Corp.—Plans Reorganization—

Shareowners of Great American Life Underwriters, Inc., a Texas corporation established in 1929, approved a plan for reorganizing their company into the nation's largest life insurance company management firm

Approval of the reorganization, given at a special meeting of Great American Life Underwriters shareowners, sets in motion the establishment of a new company under the name of Greatamerica Corp., having initial capital and surplus in excess of $200 million. The assets of its managed companies will amount to approximately $900 million.

Shareowners in Great American Life Underwriters, under terms of the proposal, will receive 10 shares of stock in Greatamerica Corp. for each share of their Great American Life Underwriters stock.

Through stock ownership Greatamerica will control the Franklin Life Insurance Co., Springfield, Ill.; Gulf Life Insurance Co., Jacksonville, Fla.; and American Life Insurance Co., Birmingham, Ala. Combined life insurance in force of the three firms is almost $7 billion. Great American Life Underwriters has controlled Franklin Life through stock ownership.

The proposal to create Greatamerica was submitted to vote of Great American Life Underwriters shareowners on the basis of Greatamerica initially exercising control of Franklin, Gulf, and American Life insurance companies.—V. 195, p. 2595.

Green Giant Co.—Record Sales, Profits—

Profits and sales of the company continue at or above the all-time record levels established for the year ended March 31, 1962.

L. E. Felton, President of the Le Sueur, Minn., packer of vegetable specialties, told stockholders attending the annual meeting that the company hopes to set new sales and profit records during the current year.

Profits for the year ended March 31, as previously announced, were $2,357,921, up nearly 9% from the previous year. Per share profits were $2.46, up from $2.28. Sales, rising about 11%, were $75,038,512.

Other company officers told attending stockholders of Green Giant's growing success with its recently introduced frozen foods, of the added per share profits that are the aim of the record $5 million capital expansion program to be carried out this year, and of the expanding research program aimed at improved and more profitable food specialties.—V. 195, p. 2596.

Gruen Industries, Inc.—Shows Profit for Year—

This eighty-eight year old firm in the hard-pressed American watch industry, showed a profit for the first time in eight years for its fiscal year ending March 31, 1962. The company's annual report, sent to stockholders, shows a profit of $118,484. Gruen's loss during 1960 was $1,830,723, and was reduced last year to $508,759.

The 1962 annual report also indicates that sales increased 15% while profit on sales ($3,106,191) increased by more than 25% over the previous year. Current liabilities were reduced by more than $800,000 during the same period.

The report also states that Gruen manufacturing facilities in their wholly-owned factory in Bienne, Switzerland, are now working at full capacity, more than doubling their production rate of two years ago.

A new management team headed by John H. Ballard, President and Chief Executive Officer, and Edward L. Love, Chairman of the Board, came to Gruen in the latter part of the company's 1960 fiscal year. Mr. Ballard, formerly President of the Bulova Watch Company and Mr. Love, formerly Executive Vice President of the Chase Manhattan Bank, are held largely responsible for the current improved profit picture. Under Mr. Ballard's direction, inventories have been reduced and sales increased without forced sales, and styling and marketing innovations have been introduced; under Mr. Love's directions, loans outstanding were consolidated, and an expanded revolving credit line, geared to seasonal requirements, was made possible. Production economies were also effected in this country and in Switzerland.

The Gruen report states that steps are now underway to further increase production capacities, and that a program of cost reduction, reflected in part in the current report, will continue this year.—V. 190, p. 2040.

Gulf Life Insurance Co. (Jacksonville, Fla.)—Merger Planned—

See Greatamerica Corp. this issue.—V. 195, p. 2596.

Gulf, Mobile & Ohio RR.—Trust Certificates Sold—On June 28, 1962, a group headed by Halsey, Stuart & Co. Inc., Chicago, purchased at competitive sale $3,150,000 of this company's equipment trust certificates, series J, due semi-annually, Jan. 15, 1963 to July 15, 1977, inclusive, on a bid of 98.66% for a 4⅛% coupon.

On reoffering, the certificates were priced to yield from 3.25% to 4.30%, according to maturity.

Net proceeds from the sale will be used to acquire 325 box cars.—V. 195, p. 2702.

Hallicrafters Co.—Sales Up 15%, Net 23%—

Earnings and sales for both nine-month and third quarter fiscal periods hit record peaks, the company, a Chicago electronics firm, reported to shareholders.

The company also announced the establishment of a Pacific Division to serve the aerospace industry, with headquarters in Santa Ana, Calif.

William J. Halligan, Chairman, and Robert F. Halligan, President, told shareholders that the company was "well on its way to surpassing the fiscal 1961 record-breaking year by a considerable margin." Year-end earnings are expected to exceed last year's by 25%, they indicated.

For the nine-month period ending May 31, 1962, net earnings amounted to a new high of $1,384,000, up 23% from the $1,125,000 figure for the same period a year ago. This was the equivalent of 57 cents per share, compared to 46 cents last year.

Nine-month sales totaled $51,417,000, a gain of 15% from $44,853,000 in 1961.

Record earnings for the third quarter came to $542,000, or 22 cents per share, up 37% from $397,000, or 16 cents per share, last year.

Third quarter sales increased 4% to $15,818,000 from $15,194,000 for the same period a year ago.

A 20,000-square-foot building has been leased in Santa Ana, Calif., and will house research, engineering, production, quality control and market and customer liaison functions. The facility is designed to serve the aerospace industry's requirements for high-speed data systems, miniatured circuitry and special QRC (Quick Reaction Capability) projects.

The executives reported that the company's Aerospace Division showed a 17% sales increase over 1961 for the first nine months and had received more than 60 highly diversified military engineering contracts during that period.

Sales were up 19% in the Commercial Products Division, with electronic organ shipments 13% ahead of last year. Consumer products, such as short-wave listening and Citizens Band radios, showed "phenomenal growth," with sales in April being the heaviest in the firm's history—112% ahead of April, 1961.

The $39,800,000 backlog on May 31, 1962, was reported to represent the widest range of product and engineering diversification that Hallicrafters has ever had.—V. 195, p. 7.

Handmacher-Vogel, Inc.—Proposed Acquisition—

The company has agreed to acquire all the outstanding stock of Country Miss, Inc., a leading manufacturer of shirtwaist dresses, it was announced by Alvin Handmacher, President.

Country Miss, of 1407 Broadway, New York, will continue as a wholly-owned subsidiary, operating independently under its former management. Mr. Al Gifford will continue as President of Country

Miss, in charge of sales and styling, and Mr. Nathan Melnick will continue as Treasurer with responsibility for production.

Handmacher-Vogel, is a leading manufacturer of high quality women's suits, retailing at prices from $25 to $100.

"This is our first step in a planned series of acquisitions which will transform Handmacher-Vogel into a diversified yet fully integrated soft goods company," said Mr. Alvin Handmacher.—V. 195, p. 1317.

(H. J.) Heinz Co.—Sales, Net at Record High—

According to a registration statement filed with the SEC, which became effective on June 25, 1962, the consolidated sales and net earnings of H. J. Heinz Co., Pittsburgh, Pa., for the fiscal year ended May 2, 1962, achieved a new high. Sales of the international food processing concern totaled $375,810,163 during the 52-week 1962 fiscal year, as compared with $365,989,576 in the preceding 53-week fiscal year. Net income totaled $14,165,806, as compared with $13,614,681 for the prior year. H. J. Heinz, II, Chairman, said that while the regular annual report of the company will be distributed as usual in the latter part of July, complete financial statements for the fiscal year are included as a part of the registration statement.

The net income this year was equivalent to $2.65 per share of common stock, compared to $2.52 per share a year ago after giving effect for both years to the elimination of unrealized gains and losses from foreign exchange. The net income announced a year ago, which does not give effect to such adjustments, was $13,147,418, or $2.53 per share. Dividends paid on common stock, of which 5,251,130 shares were outstanding at the end of the 1962 fiscal year totaled $5,209,292, as compared with dividends totaling $4,404,727 paid during the previous fiscal year, at the end of which 5,098,580 shares were outstanding. Dividends on preferred stock, which is being gradually retired, totaled $237,747 as compared with $255,376.

The registration statement is for 379,500 shares of common stock, of which 160,300 shares are outstanding. The balance of the registered shares are, or may be, optioned to key employees under the company's Incentive Stock Option Plan. Of the outstanding shares covered by the registration statement, 124,560 shares were issued in June, 1961, to shareholders of Hachmeister, Inc. in an exchange-of-stock transaction and the balance had been acquired by the employees on exercise of options.—V. 195, p. 1919.

Heli-Coil Corp.—Sales Up 19%, Net 37%—

The company reported a 19% increase in sales and other income for the fiscal year ended April 30, 1962, and a 37% increase in net income over the corresponding period of the preceding year.

Sales and other income totaled $8,650,525 compared with $7,258,132 in the preceding year. Net income amounted to $1,236,297 or $1.77 a share on the 699,442 average number of shares outstanding for the year, compared with $904,299 or $1.31 a share on the 690,758 average shares outstanding in the preceding fiscal year.

Eduard Baruch, President, in the report to stockholders expressed confidence over the outlook for the coming fiscal year, commenting that "the year should begin to reflect increased tangible results from new programs instituted." These programs include research and development which have produced new marketable products, and training and coordination of the sales and marketing organization.

Heli-Coil Corp. had a strong working capital position at the end of its fiscal year, $4,987,972 compared with $4,365,489 the year before. The company had $3,954,659 in cash and marketable securities at the fiscal year-end.

The board of directors of the company has decided to issue quarterly instead of semi-annual financial statements to stockholders, Mr. Baruch revealed. He noted also that the board had declared an extra dividend of 10 cents a share at the June 7 meeting, in addition to the regular 30 cent semi-annual dividend.—V. 195, p. 1663.

(Walter E.) Heller & Co.—Forms Puerto Rico Subs.—

The company announced the formation of Walter E. Heller & Co. of Puerto Rico, a wholly-owned subsidiary which will operate in San Juan, Puerto Rico.

The new firm will provide Puerto Rican industry with the complete Heller range of commercial financing services. These include revolving loans made on the security of accounts receivable and inventory, the financing of income producing equipment on installment and lease-rental plans, old line factoring, rediscounting, and the financing of independent consumer finance companies.

Opening of the San Juan office, located in the First Federal Bldg., will facilitate the processing of loans to Stateside companies which have manufacturing facilities in Puerto Rico. The new subsidiary will have its own credit resources. Its staff, comprised of local personnel, will be supervised by General Capital Corp., Miami, another Heller subsidiary.

The parent Heller company is one of the largest commercial finance houses in the United States. It employs funds of $380 million, and its volumes approximate $1.3 billion annually. Headquarters are in Chicago, with branches in New York City, Boston, Atlanta, Detroit, Los Angeles and Miami.—V. 195, p. 2702.

Henry's Drive-In, Inc.—Increases Deferred Income—

Net earnings of seven cents per share and an increase in deferred income to $2,203,645 for the three months ended March 31, 1962, were reported to shareholders on June 23 by Henry's Drive-In, Inc., Chicago.

Net earnings for the first quarter were $14,478, on total revenues of $121,705, according to Charles Robbins, President of the nationwide system of franchised drive-ins. The company had 213,000 shares outstanding on March 31, 1962.

Deferred income is the unearned profit portion in sales contract receivables. At the end of 1961, total deferred income was $1,657,858.

Mr. Robbins called the first quarter earnings "satisfactory despite one of the most severe winters" in the company's history.

He pointed out that when, at the corporation's annual meeting, he projected a 1962 earnings increase at least 60% above 1961 earnings, he was aware that first quarter results would be modest.

During the first quarter of 1962, contracts were signed for four new drive-ins under the company's "Own-as-You-Earn" plan in which each operator buys his business, including the real estate, building, and all other physical assets, from Henry's under a sales contract. The deferred income is derived from each sale during the life of the sales contract.

"Progress to date is consistent with our goal of opening 30 new 'Own-as-You-Earn' drive-ins by the end of the year," he said.—V. 195, p. 2034.

Hilco Homes Corp.—Sales Up 6%—

First quarter consolidated sales for the company, Philadelphia manufacturer of homes, are up 6% over the same period, ending June 30, a year ago, it was announced by Jerome J. Drucker, Chairman, to the company's annual stockholders' meeting.

Mr. Drucker disclosed that estimated consolidated gross sales for the current quarter of Hilco's fiscal year will total about $1,625,000. This compared with $1,527,000 in gross sales recorded during the June 30 quarter of 1961.

The Board Chairman also told the stockholders that the number of deposits placed by prospective customers during the first quarter of this year are 30% above the first fiscal year quarter of last year.

He also predicted "conservatively" that total consolidated sales for the 1962-63 fiscal year for Hilco Homes will top $6,000,000 for the first time in the company's history. This compares with gross sales of $5,301,263 reported for the immediate past 1961-62 fiscal year.—V. 195, p. 2931.

Hygiene Industries, Inc.—Record Sales, Earnings—

Sales and net income of Hygiene Industries, a leading manufacturer of plastic shower and window curtains and accessories, both reached record highs in the fiscal year ended Feb. 28, 1962, Abraham Hershson, President, announced. Sales rose to $4,072,467, an increase of 11% from fiscal 1961's sales of $3,665,900, and net income increased to $264,023, a gain of 12% from the previous year's net of $235,768.

Mr. Hershson said earnings in fiscal 1962 equalled 44 cents a common share, based on 600,000 shares of common stock outstanding, as compared with 39 cents a share on the same number of shares outstanding the year before.

He said that Hygiene has "strengthened its competitive position within the industry and laid the groundwork for future growth" through expansion of the company's production facilities at its two manufacturing plants, in Brooklyn, N. Y., and Gardena, Calif., and by broadening its sales and marketing programs. The company markets its line of products, under the trade names of "Hygiene," "Mayflower" and "Berkeley," through retail outlets in the 50 states and Puerto Rico.—V. 195, p. 977.

IMC Magnetics Corp.—Sales Up 20%—

The company, of Westbury, N. Y., had sales of $1,318,000 in the first quarter ended May 31, 1962, an increase of 20% over last year's first quarter of $1,101,000, Charles Wohlstetter, Chairman of the Board, told the annual meeting of stockholders.

The company's backlog at the end of this May was the highest in recent years, he added, standing at $1,822,000, compared with $1,490,000 at the end of May, 1961. New business in each month of the quarter exceeded the comparable month of the year before, he said, the year before, he said.

Sales for the fiscal year that ended Feb. 28, 1962, reached a record high of $5,068,853, an increase of 10% over sales of $4,622,061 in the preceding year, which was also a record, Mr. Wohlstetter reported. Net income after taxes in the fiscal year ended this February was $108,430, or 18 cents per common share, compared with a deficit of $74,955 in the year previous.—V. 194, p. 1508.

Ideal Precision Meter Co. Inc.—Yearly Statement—

Years Ended March 31—	1962	1961
Net sales	$1,838,792	$1,338,929
Net profit	85,068	36,695
Earnings per share	$0.24	*$0.11

* Based on number of shares outstanding at the end of the period amounting to 353,400 in 1962 compared to 337,500 in 1961.—V. 195, p. 865.

Independent Telephone Corp.—Acquisition—

This company has acquired the Steuben Telephone Co., now serving over 2,600 telephones in North Central Pennsylvania, and contiguous to other operating properties of the ITC System in New York State. The ITC System, operating in 11 states, now serves in excess of 60,000 telephones.

William B. Harrison, President of Independent Telephone, said that the purchase of 100% of the Steuben stock was for an undisclosed amount of cash. The stock purchased from the family of the late Veddar A. Manley, founder of the Steuben Telephone Co. His son, Lewis A. Manley, will continue as General Manager of the company, with principal offices in Elkland, Pa.

The company serves the communities of Mills, Elkland, Knoxville, Westfield, Osceola and Harrison Valley, all in Pennsylvania. All exchanges are dial operated.—V. 195, p. 2931.

Indian Head Mills, Inc.—Sales, Net Increase—

The company scored substantial gains in sales and pre-tax profits in both the second quarter and first half of its fiscal year, and net profits increased slightly, James E. Robison, President, disclosed in the company's quarterly report to stockholders. The improvements resulted from acquisitions completed within the past two years, Mr. Robison said.

Earnings in 1962 have come entirely from operations, he noted, while substantial non-recurring income was realized in 1961. In addition, a much larger portion of the company's profit was subject to Federal and foreign income taxes than in 1961.

Sales and operating revenues in the three months ended June 2, 1962, climbed 64% over the comparable period last year, rising to $38,896,000 from $23,699,000. Pre-tax profits rose to $1,314,000 from $1,037,000 a year ago, when non-operating income of $255,000 was realized. Federal and foreign income taxes increased to $354,000 from $100,000, and net profits amounted to $960,000 as compared with $937,000. After preferred stock dividends, earnings per common share were 73 cents in the quarter just ended, compared with 72 cents a year earlier, based on shares outstanding at the end of each period and adjusted for the 2-for-1 stock split in 1961.

In the first six months this year, sales and operating revenues were $73,545,000, an increase of 70% over sales of $43,369,000 a year earlier. Pre-tax profits increased 53% to $2,564,000 from $1,679,000 in the first half of 1961, when non-operating income amounted to $586,000. Provisions for Federal and foreign income taxes increased to $973,000, from $100,000 in the first half of 1962.

Commenting on the outlook for 1962, Mr. Robison said: "Profit margins of several divisions remain under extreme pressure as the result of increased costs for raw materials and higher wages paid without compensating price increases. Provisions for Federal and foreign income taxes will also continue well above the levels of a year ago, and for the full year will approximate the rate of the first six months. Nevertheless, the company's operating earning power has been greatly strengthened through diversification."—V. 195, p. 1808.

Inland Credit Corp.—Notes Placed Privately—On June 27, 1962, it was reported that this company placed privately, $1,500,000 of senior subordinated notes, due May 15, 1974, and $400,000 junior subordinated notes, due May 15, 1974, through New York Securities Co., New York City.—V. 195, p. 1664.

International House of Pancakes Inc.—Revenues Up 74%, Net 41%—

Speaking to the Los Angeles Society of Financial Analysts in Los Angeles, Al Lapin, Jr., President of the company, a national restaurant operator and franchisor, reported that the firm now has a total of 33 units operating or under franchise, and that revenues for the first nine months of the current fiscal year totaled $3,920,528, up 74% over revenues of $2,241,389 for the similar period a year ago.

Earnings for the nine month period ended June 3, 1962 were $264,838, an increase of 41% over year-ago earnings of $187,522 "despite the costs of expansion, which include substantial expenditures for research and development, executive training, and a thousand-and-one 'start up' items."

On a per share basis, net income this year for the nine months period equaled 43 cents per share on 621,047 shares outstanding on June 3, 1962. Earnings per share for the third quarter were 15 cents, based on 621,047 shares. Earnings per share for the first and second quarters were both 14 cents, based on 593,632 shares at March 4, 1962, and 575,638 shares on Dec. 3, 1961.

Mr. Lapin told the analysts that the company now has under construction five pancake restaurants, two Woody's Smorgasburger, restaurants, the Golden Oaks apartment hotel for senior citizens, and before the end of the current fiscal year Aug. 31, five additional Dog House restaurants will be in operation.

The International House of Pancakes became publicly owned Nov. 8, 1961, and per share earnings were not published for periods prior to that date. However, based on the 621,047 shares outstanding on June 3, 1962, per share earnings for the nine months ended June 4, 1961, were 30 cents.—V. 195, p. 866.

International Telephone & Telegraph Corp.—Receives Contracts—

The Industrial Products Division of I. T. & T. has received an order in excess of $100,000 from Raytheon's Communication and Data Processing Operation for 32 Type ND-5 Frequency Synthesizers for use at the Air Force Cambridge Research Laboratories.

The synthesizers are instruments that generate very stable radio frequencies.

Frederick H. Guterman, President of the ITT Industrial Products Division, said the synthesizers will be used to stabilize receivers and transmitters involved in a high-frequency pulse transmission system for ionospheric propagation studies. The system is to be produced at Raytheon's plant in Norwood, Mass.

Grumman Contract—

Award of a contract for the design, development, fabrication and testing of a boresighted star tracker and control logic unit for use in the National Aeronautics and Space Administration's Orbiting Astronomical Observatory Satellite program was announced at the same time by ITT Federal Laboratories, Fort Wayne.

ITT Federal Laboratories is a research and manufacturing division of International Telephone and Telegraph Corp.

The contract award was made by the Grumman Aircraft Engineering Corp., prime contractor and systems manager for the OAO Satellite, a project of NASA's Goddard Space Flight Center.—V. 195, p. 2380.

Investors Funding Corp. of New York—Appointment—

The Chase Manhattan Bank, New York City, has been appointed trustee, paying agent and registrar for the corporation's 10% registered subordinated debentures, series due Dec. 31, 1966, and Dec. 31, 1971 to 1975, inclusive.—V. 195, p. 2261.

Itek Corp.—Six Months' Results—

Franklin A. Lindsay, President, stated that operations for the six months ended March 31, 1962, resulted in sales of $21,590,078. Net income after taxes amounted to $57,332, or five cents per share of common stock outstanding.

Earnings from operations did not include a special credit of $217,336, or 18 cents per share, which resulted from the sale of certain investments.

"The first half of fiscal 1962," Mr. Lindsay reported, "was marked by encouraging progress in integrating and capitalizing upon Itek's unique ability to handle information photo-optically, chemically and electronically."

"Military business," he said, "accounted for the major portion of gross income. Much of this work was converted from cost-plus fixed-fee to a fixed-price basis.

"This permits us to translate operating efficiencies into increased earnings, while doing the work at a lower overall cost to the government."

"On the commercial products side," Mr. Lindsay continued, "Itek is now embarking on specific sales programs for new products." He stated that one of the company's most important long-term objectives is to build a substantial base of commercial business, warning, however, that it will be some time before Itek can expect to realize significant profits from this area.

"The last six months of fiscal 1962," Mr. Lindsay stated, "should see further strengthening of Itek's business."

Itek, specializing in information-processing products, has research facilities in Lexington, Mass., and Palo Alto, Calif. A new crystal filter plant is scheduled for opening in Burlington, Mass., in August.—V. 193, p. 2667.

Japan Steel & Tube Corp.—Six Months' Report—

A new high in sales for a six month period was reported last week by one of Japan's largest steel producers. Nippon Kokan K.K. (Japan Steel & Tube Corp.) reported sales totaling $225,000,000 for the period Oct. 1, 1961 to March 31, 1962, according to Kaichi Hikami, General Manager of the firm's New York office.

Announcing the new sales figures, Mr. Hikami stated:

"This represents a 29% gain over sales for the same period last year and a 12% rise over the preceding six months. For the current half year ending Sept. 30, we anticipate a further increase in sales to $230,000,000."

Mr. Hikami, whose firm is one of Japan's "Big Three" steel producers, further noted the following:

(1) Nippon Kokan's production of steel ingot was 1,284,959 tons, nearly 10% above the production for the previous six months period.

(2) Sales of steel products reached $156,000,000, of which $18,600,000 represented exports.

(3) Nippon Kokan's steel divisions reported a new sales high of $193,500,000, of which $37,500,000 represented sales of non-ferrous products. The company's shipbuilding division, which includes fabricated steel construction and engineering items as well as ships, accounted for sales of $31,500,000.

(4) Company profits for the period reached $14,000,000, up 47% from the previous six months.

(5) Net earnings were $1.80 per 100 shares, adjusted for stock split. The company paid a 12% cash dividend for the period.—V. 194, p. 2118.

Jerrold Electronics Corp.—Name Change Approved—

Stockholders of the Jerrold Electronics Corp. approved at the annual meeting a proposal to reorganize the corporate structure of the company and to change its name to the Jerrold Corp.

According to Sidney Harman, President, the new plan of organization more fully reflects the diversified character of the company which, during the past year, has engaged in a major acquisition program. In the fiscal year ended last Feb. 28th, Jerrold had the best record in its 14-year history, with sales up 51% and net earnings more than double that of the previous year.

Mr. Harmon explained that the corporate change calls for the creation of the Jerrold Corp. as a "parent" company with four subsidiary operating companies: Jerrold Electronics Corp., Philadelphia; Harmon-Kardon, Inc., Plainview, N. Y.; Technical Appliance Corp. (TACO), Sherburne, N. Y.; and Pilot Radio Corp., Long Island City, N. Y. TACO and Pilot were acquired by Jerrold during the past fiscal year (ended February 28, 1962). Harmon-Kardon was acquired in February, 1961.—V. 195, p. 2035.

Kane-Miller Corp.—Note Sold Privately—Kane-Miller Corp., a leading distributor of bulk groceries and allied food lines for institutional consumption, announced that it has arranged for the borrowing of $250,000 on a 6% subordinated note from K. B. Weissman of New Rochelle, N. Y., a private investor.

Principal and interest will be amortized over a five-year period, and the transaction involves a ten-year option of 25,000 shares of Kane-Miller stock.

Mr. Daniel Kane, President of Kane-Miller, pointed out that "these funds will strengthen our working capital position and enable us to take advantage of opportunities for further acquisition, thus bolstering our potential earning power."

In October, 1961, Kane-Miller acquired Economy Restaurant Supply Co. of New York City, and this year has already seen two further acquisitions in the Catskill Mountain resort area: K & S Wholesalers, Inc. and Sachs Wholesale Produce Corp., both of Liberty, N. Y.

Kane-Miller's sales are currently running at the rate of $9 million per year in comparison to $4.8 million reported for the year ended December 31, 1961.

After-tax profits for the first quarter of 1962 were 10 cents per share, compared to 6 cents for the first quarter of 1961, based on 300,000 shares outstanding.—V. 195, p. 2702.

Kendall Industries, Inc.—Sales Forecast—

According to a report by the company current volume indicates that sales for the fiscal year ending Sept. 30, 1962 will not only exceed the record levels of 1960 but go on to top $2,000,000 for the first time.

After averaging $135,779 a month during the first half, which ended March 31, sales increased to $208,402 in April and $201,868 in May. This $200,000-plus pace is continuing into June and, based on past performance, could increase substantially as the rest of the year unfolds. Historically, sales during the last half of the fiscal year exceed those of the first half, giving effect to an annual seasonal home building cycle. During the last six months of fiscal 1961, for example, they were $1,082,262 as compared with $774,157 in the first half.

Sales for the six months ended March 31 rose to $814,676 from $774,157 for the first half last year. Earnings after provision for taxes and profit sharing for the period were $5,148 vs. $18,310 a year earlier. These reflect primarily some non-recurring costs which resulted from the introduction of a new Kendall door line, last December, and a new mass-production window, the K-Slide International, last March. Most of the major costs of introducing these products have now been absorbed and profit margins are returning to normal.—V. 195, p. 1808.

Knott Hotels Corp.—Appointment—

The Chase Manhattan Bank has been appointed transfer agent for the common stock of the corporation effective July 2, 1962.—V. 195, p. 2492.

Koehring Co.—Record Earnings—

First half earnings of $1,412,000 or 87 cents per common share on net sales of $28,087,000 compared with earnings of $678,000 or 38 cents per share a year ago were reported by the company and its consolidated subsidiaries in an interim report to stockholders. Koehring's fiscal quarter ended May 31, 1962.

Commenting on half year results, Julien R. Steelman, Chairman and President, pointed out that both the dollar amount and the rate per share of earnings for this period have exceeded earnings for the comparable period in 1956 when, for the full year, Koehring's earnings attained their highest historical level.

Accounting for earnings improvement, Steelman said, "The most significant improvements were achieved at: (1) H-P-M division, resulting from product developments and increased sales of plastics injection molding machinery, (2) Buffalo-Springfield division, reflecting the effect of an aggressive cost reduction and margin improvement program, and (3) Koehring-Waterous Ltd., our Canadian subsidiary, through cost reductions and increased sales of machinery for the pulp and paper industry."—V. 195, p. 1808.

(K.) Kohnstamm & Co., Inc.—Appointment—

The Bank of New York has been appointed transfer agent for the common stock of the corporation.—V. 195, p. 971.

Laboratory for Electronics Inc.—Earns. Down for Year

Gross income of $61,482,000 for the fiscal year ended April 27, 1962, was reported here by Laboratory For Electronics. Henry W. Harding, President, said this figure is approximately 3% below last year's consolidated sales figure of $63,494,000.

Net income after Federal income tax, and after a $432,000 provision for loss on foreign investments, was $102,000 compared with $2,095,000 for fiscal 1961. Earnings per share on the 1,298,087 shares of common stock outstanding amounted to $.08 against $1.62 per share the previous year.

All figures include operations of Tracerlab and Eastern Industries for periods prior to the respective mergers, treated as "pooling of interests".

Recapping LFE's past fiscal period, Mr. Harding said, "Losses continued in the Tracerlab and Keleket Divisions and our Belgian subsidiary; these operations became part of LFE in the merger with Tracerlab, Inc., on Oct. 30, 1961. We entered into this merger for the long range growth potential of the nucleonics and medical electronics industries. This potential still exists in our opinion, but our original estimates of the time required to 'turn the situation around' were optimistic. Largely because of this, changes have been made in the management and the operating programs of these divisions and the Belgian subsidiary."—V. 195, p. 1318.

Lamb Industries, Inc.—Acquisition—

Everett A. Sisson, President of Lamb Industries, a diversified manufacturer with headquarters in Toledo, Ohio, announced that the company has acquired primary assets of the TM Manufacturing Co., formerly Textron Metals Co. of Pottsville, Pa.

Included in the cash transaction are all TM inventories, equipment, sales contracts, patents and trade marks for the TM prime window and sliding door products line. No disclosure was made concerning the amount of cash involved.

Mr. Sisson revealed that all TM manufacturing operations are being moved from Pottsville to a new plant being built in Milwaukee, Wisc., by the Alumatic Division of Lamb Industries, Inc. Production will be under way in the new facilities by July 1, Mr. Sisson stated.

The Alumatic Division of Lamb Industries, now manufactures combination storm and screen aluminum windows and doors in Milwaukee and in Windsor, Ont., Canada.—V. 195, p. 2487.

Leaseway Transportation Corp.—Sales, Earnings Increased—

The company, nationwide truck lessor and contract carrier, had net sales of $33,037,000 in the 12-month period ended April 30, 1962, William J. O'Neill, President, announced. Net income for the period was $1,995,000, the equivalent of $1.55 per share on 1,284,946 common shares outstanding.

The figures are for the year following the public offering of Leaseway stock.

For the fiscal year through last Dec. 31, Leaseway reported sales of $30,691,000 and net income of $1,734,000, equal to $1.35 a share.

Executive offices of the company are in Cleveland, Ohio.—V. 195, p. 1664.

Leeds & Northrop Co.—Earnings Up 33%—

The company announced an increase over the prior year of 13% in shipments and 33% in earnings per share for its fiscal year ended May 31, 1962. This major electronic instrument and automatic controls manufacturer also reported the highest new orders and shipments in its 59-year history.

Consolidated net earnings of the company and its Canadian subsidiary amounted to $1,343,000 for the year ended May 31, 1962 compared with $1,039,000 for the previous year. After providing for dividends on preferred stocks, the current earnings are equivalent to $1.52 a share based on the average number of 776,675 shares outstanding during the year compared with $1.14 a share on the average number of 759,378 shares outstanding last year. The per share earnings for the final quarter were 61 cents as compared with 34 cents for the same quarter last year. This is the third consecutive quarter in which earnings exceeded those of the previous year.

New orders during the company's fiscal year just closed amounted to $43,204,000, an increase of more than 13% over the new orders of $36,449,000 received last year. Consolidated net shipments for the current year amounted to $41,536,000 compared with $36,674,000 for the previous year, an increase of about 13%. The backlog of open orders at May 31, 1962 is $10,777,000 as compared with $9,109,000 a year earlier.

I. Melville Stein, President, called attention to the fact that new orders and shipments were at the highest level in the history of the company. He indicated that the 1% year-end common stock dividend not only recognized the improvement in performance, but also emphasized the company's confidence in future growth.—V. 193, p. 48.

Lithonia Lighting, Inc.—Annual Report—

The company's annual report indicated the results of a successful fiscal year ended March 31, 1962. Sales and profits were the highest in the company's history. Sales were $19,515,309—an increase of 36% over last year. Net profits after taxes were $905,613—an increase of 22% over last year. Earnings per share were 83 cents on 1,095,015 average number of shares outstanding during the year as compared to 74 cents earned last year on 1,000,001 shares—V. 194, p. 320.

Longchamps, Inc.—Shows Profit for Nine Months—

Longchamps earned net profit of $327,038 for the nine months ended March 31, or 65 cents a share, it is announced by Jan Mitchell, President. This compares with net loss of $18,719 the same period last year, after including a credit of $52,176 on real estate operations.

Sales for the nine restaurants presently comprising the chain rose to $5,349,096 from $4,952,278 the year before.

Current assets of $1,150,458 compared with current liabilities of $936,773. On March 31, 1961, current assets were $655,626, against current liabilities of $982,210.

Loral Electronics Corp.—Awarded Contracts—

Two contract awards, one for a specialized hydrofoil study program, the other for the development of new electronic fire-control gear for nuclear submarines, have been made to the corporation by the U. S. Naval Underwater Ordnance Station, Newport, R. I., it was announced.

As part of the study program, Loral will undertake an investigation of systems integration including fire-control and weapons for hydrofoil craft, a new class of vessels which are expected to play an important role in future anti-submarine warfare activities.

Annual Report—

Year Ended March 31—	1962	1961
Net sales	$41,456,887	$35,776,964
Income before taxes	3,798,765	2,804,023
Net income after taxes	1,774,153	1,301,618
Shares outstanding	2,173,305	1,738,944
Earnings per share	$0.82	$0.75

—V. 195, p. 1850.

MCA Inc.—Appointment—

The Chase Manhattan Bank has been appointed transfer agent for the $1.50 convertible preferred stock of the corporation.—V. 195, p. 2931.

Maine Public Service Co.—Appointment—

Manufacturers Hanover Trust Co., New York City, has been appointed trustee for the 5% debentures, due May 1, 1989 of the company.—V. 195, p. 2262.

Malone & Hyde, Inc.—Earnings Statement—

	Last Year	This Year
Sales	$68,461,929.67	$76,682,593.82
Profits	572,690.00	677,623.00

—V. 195, p. 1554.

Marinus Real Estate Investment Trust — Shares Offered—Pursuant to a June 7, 1962 offering circular, the Trust offered publicly, without underwriting, 30,000 shares of beneficial interest at $10 per share. Net proceeds, estimated at $255,000, will be used for investment.

BUSINESS—The Trust is a business trust created under the laws of the State of California by a Declaration of Trust dated Dec. 31, 1961, as amended. The office of the Trust is located at 205 Ave. I, Redondo Beach, Calif.

The objective of the Trust is to provide a broad and selected diversification of investments in the field of real estate and competent and continuous supervision of such investments. The Trust cannot eliminate the risks of ownership of real property or mortgages on real property. It will seek to reduce these risks by diversification and supervision. The Trust intends to contract with an independent contractor not yet selected who will manage the assets of the Trust. The purpose of the Trust through such diversification in real estate and supervision, is to achieve long-term growth of capital and income from investments primarily in real property and mortgages or trust deeds on real property to permit the investors to enjoy the advantages of indirect ownership of these trust properties. There is, of course, no assurance that this purpose will be achieved. The Trust will issue transferable certificates of beneficial interest representing undivided shares in the Trust assets. The proceeds of this offer will, pending the acquisition of suitable real estate investments, be invested principally in interest bearing obligations of the Federal Government, States, political subdivisions and their respective instrumentalities.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

	Authorized	Outstanding
Shares of beneficial interest	Unlimited	30,000 shs.

—V. 195, p. 1092.

Marrud, Inc.—Record Sales, Earnings—

Marrud, Inc., largest United States health, beauty aid, candy and stationery concessionaire, reported record sales and earnings for the nine months ended April 28, 1962. Sales of $14,932,712 were up 94% from the $7,721,800 reported in the nine months ended April 29, 1961. Earnings after taxes of $543,936 were up 85% from the $292,308 reported for the same period in fiscal 1961.

These earnings for the nine months ended April 28, 1962, are equivalent to 54 cents per share on the 1,000,000 shares outstanding at that date, compared with 29 cents per share in 1961 on the same number of shares.

Marrud is the world's largest operator of leased health, beauty aid, candy and stationery departments in discount chain stores such as Maxam's, Zayre, Bradleys, Mammoth Mart and Towers. The company operates concessions in 26 states and plans to have 190 leased departments in operation in 30 states and Puerto Rico by November. —V. 195, p. 641.

Massachusetts Electric Co.—Merger Proposed—

On June 25, 1962 it was reported that New England Electric System, parent, plans to merge four subsidiaries: Lynn Electric Co., Merrimack-Essex Electric Co., Suburban Electric Co., and Massachusetts Electric Co. In connection with this merger the survivor, Massachusetts Electric Co., proposes to sell not more than $60,000,000 of its first mortgage bonds and $7,500,000 of its preferred stock, both at competitive bidding.

The proceeds for this proposed financing would be utilized to redeem the existing first mortgage bonds of Merrimack-Essex Electric Co. and Suburban Electric Co., a serial note of Lynn Electric Co., the series E 5⅜% first mortgage bonds of Massachusetts Electric, the 5.52% preferred stock of Merrimack-Essex and notes payable of the participating companies.—V. 194, p. 10.

Massey-Ferguson Ltd.—Sales, Earnings Up 15%—

Massey-Ferguson world-wide sales for the first six months of the 1962 fiscal year reached a record of $263,000,000, an increase of $35,000,000 or 15% over the same period last year.

Profits before income taxes were $10,595,000 an increase of 15% over the comparable figure for 1961. Net income was $5,338,000, equal to 38 cents per common share compared to $3,818,000 or 26 cents per share for the same period last year.

A. A. Thornbrough, President, said that a profit increase was achieved despite generally higher costs experienced in all areas of operations and an unfavorable earnings position in France and Brazil.

In its quarterly statement to shareholders for the fiscal period ended April 30 the company said: "Beginning with this report a change has been made in the basis of interim reporting whereby, instead of prorating certain charges over the 12 months on the basis of total year sales, such costs have been absorbed as incurred against income of the current period."

For comparative purposes, 1961 first six months income has been re-stated to be consistent with the 1962 reporting basis. The company added that this change in this basis of interim reporting would have no effect on the results of operation for a full 12 month period.

North American sales of $90,000,000 were 7% above 1961 first-half year sales. In Europe, sales increased 21% to $126,000,000. Sales of Perkins (diesel and outboard engines) in the United Kingdom were approximately the same as last year, as were sales of the French operations unit. Sales in Italy were substantially higher and in Germany they increased 68%, reflecting continued progress in obtaining a more important percentage of that large market. In Australia and New Zealand sales increased 12%.

Mr. Thornbrough said that during the second half-year, sales of combine and harvesting machinery would, to a large degree, influence final year-end results. In a highly competitive market for these machines, weather conditions in both Europe and North America would be a critical factor, he said.

Massey-Ferguson is the world's largest manufacturers of tractors, combines and diesel engines.—V. 194, p. 1510.

Mastan Co., Inc.—Notes Sold Privately—On June 27, 1962, it was reported that this company placed privately, $2,500,000 of subordinated notes, due May 1, 1977, through New York Securities Co., New York City. —V. 195, p. 2597.

McKesson & Robbins, Inc.—Annual Report—

Record breaking sales and a substantial expansion in its distribution facilities marked the operations of McKesson & Robbins in its fiscal year ended March 31, 1962, according to the company's annual report.

Sales of $707,769,280 which resulted in net income, after taxes, of $9,438,852, equivalent to $2.25 a share, were reported to share owners by Herman C. Nolen, McKesson's president.

McKesson's sales in the previous fiscal year amounted to $691,696,305 with a net income of $10,486,496, equivalent to $2.51 a share.

In his letter to share owners, Mr. Nolen noted that starting-up expenses for new facilities, heightened competition at all levels of the drug industry, and an industry lag in new pharmaceutical product introductions contributed to the earnings decline in the 1961-1962 fiscal period.

The company's balance sheet showed current assets of $205,237,628, against current liabilities of $70,333,402, indicating working capital of $134,904,226, an increase of $1,111,471 over March 31, 1961.

All comparative figures for both fiscal years include the operations of Skaggs-Stone, Inc., acquired during the 1962 fiscal year by McKesson & Robbins in a pooling of interests.—V. 195, p. 2597.

Medical Securities Fund, Inc.—Appointment—

Chemical Bank New York Trust Co., New York City, has been appointed transfer agent for the common stock of the corporation. —V. 195, p. 2493.

Merrimack-Essex Electric Co.—Merger Proposed—

See Massachusetts Electric Co. this issue.—V. 192, p. 2122.

Metalfab, Inc.—Acquires Product Line—

M. N. Bondehagen, President, recently announced that the company has purchased the lift truck product line from Century Products Co. of Minneapolis, Minn.

This product line of hydraulic lift trucks is manually operated and is used primarily for handling, lifting and stacking, and moving small items short distances. It is called the "Century Hydraulic Lift Truck".

The lift truck is pushed manually by the operator. However, the hydraulic lift is powered by a heavy duty 12 volt battery system, and can be equipped with either fork or platform attachment.

Metalfab expects to start production of this product line at its Beaver Dam plant immediately. Sales of the lift truck will be handled by the company's wholly-owned subsidiary, Beaver Products. A sales organization is now being established by Beaver Products to handle the sales and distribution of the newly purchased line.

M. N. Bondehagen previously announced that Metalfab's sales through the fiscal third quarter were $3,876,417, an increase of 38% over the same period last year. This resulted in earnings per share for the nine months of 40 cents, an increase of 21% over the like 1961 period. A third quarter dividend of 7½ cents per share was paid to the stockholders on May 31, 1962.

Metalfab reported that sales for the fiscal fourth quarter, ending on June 30, are expected to be greater than sales for the same period one year ago, and that earnings for the fiscal year are expected to exceed earnings of fiscal 1961.—V. 195, p. 1210.

Metcom, Inc.—Sales, Net Up Over 100%—

This Salem, Mass. manufacturer of microwave tubes and devices, reported a three-fold increase in earnings and almost a 100% increase in sales for the fiscal year ended March 31, 1962.

Net income after taxes amounted to $125,829, equal to 10 cents per share, on sales of $2,754,181. This compares with net income of $41,884, equal to three cents per share, on sales of $1,527,949 for the fiscal year ended April 1, 1961.

Richard J. Broderick, President, said the current fiscal year promises as much as the year just ended with continuing active demand for the company's products. At the end of fiscal 1962, backlog amounted to $2 million.

The company's sales will continue to come from gas switching tubes, klystrons and magnetrons, Mr. Broderick said, but there will be a realignment of their relative contribution. Sales of klystrons and magnetrons are expected to make substantially greater percentage gains than sales of gas switching tubes. Unit volume of gas switching tubes should increase at a greater rate than dollar volume as new methods and techniques result in better quality and lower costs with a consequent reduction in prices.

During fiscal 1962, Metcom received qualification approval certificates from the Armed Services for several klystron tubes and set up a production line to manufacture them; perfected a simplified dosimeter for the immediate and exact measurement of radiation exposure; developed a gas amplifier to the point where government agencies are interested in possible contracts for its further refinement; and received contracts for highly-specialized work on such projects as the Talos missile and the Surveyor vehicle for soft landings on the moon.

Mr. Broderick said the company's main plant in Salem, Mass. was brought close to capacity operation and a high level of efficiency. Purchase of a second plant in Peabody, Mass., last fall will enable the company to handle a 100% increase in sales volume with little added capital expenses. Metcom now employs 240 compared with 140 a year ago.—V. 194, p. 2335.

Miami Extruders, Inc.—Earnings Double—

The company doubled its earnings per share for the year ended April 30, 1962, according to the company's annual report.

Earnings per share were 50 cents against 25 cents a share for the preceding year on the 437,500 shares of common stock outstanding. Sales for the year were $7,109,911 against $6,075,847. Net income was $220,582 compared with $109,489 for the prior year.

The company, listed on the American Stock Exchange, also announced plans for construction of a new building at Miami and purchase of a new, $250,000 extrusion press in 1962.

In his letter to shareholders, R. W. Van Dette, President, said the new plant facilities, the new press and a program for automation of present equipment will give the company 50% more production per man hour with a total capacity of 42 million pounds of metal a year.

Miami Extruders is now the largest producer of aluminum extrusions in Florida, Mr. Van Dette said. He added that the company plans to double its volume of business in the next three years.—V. 195, p. 1664.

Mid-Continent Telephone Corp.—Quarterly Report—

For the three months ended March 31	1962	1961
Operating revenues	$2,137,816	$1,881,812
Income before Federal Income Taxes	584,724	517,462
Net income applicable to Mid-Continent Shares	268,418	236,731
Common shares outstanding	1,447,946	1,441,194
Earnings per share (cents)	18.5¢	16.4¢
Number of telephones served	85,714	81,805

—V. 194, p. 116.

Mid-Eastern Electronics, Inc.—Sales, Earnings Up—

New products are credited for a sharp rise in sales and earnings for the company in the first four months of fiscal 1962, according to a report to shareholders issued by President Lawrence C. Oakley.

Sales in the four months ended March 31, 1962 rose by 159% to $238,490 from $91,964 in the like period a year ago. Net income totaled $20,987, or 7 cents a share on the 304,000 shares of common stock outstanding. A loss of $32,599 was sustained in the comparable 1961 period.

The rising trend of sales and earnings in the current fiscal year continues the pattern of the second half of fiscal 1961 when the company regained a profitable footing. Operations for the fiscal year ended November 30, 1961 showed a net loss of $73,180 on sales of $388,836, reflecting operating losses in the recessionary first half of 1961 and year-end inventory write downs of approximately $55,000. In fiscal 1960 Mid-Eastern showed a net profit of $5,134 on sales of $411,780, after heavy charges for research and development.

The current improvement stems from a decision in mid 1961 to supplement Mid-Eastern's proprietary products in precision test instrumentation and transistorized power fields with special design products in the space vehicle support and ground support equipment areas. Several contracts have been received for new products such as nose cone battery charges and missile power supplies.—V. 193,

Mill Factors Corp.—Record Volume —

The company, a leading factoring and commercial finance firm, reported volume for May was the highest for any month in its 51-year history.

"Total volume for May was $26,900,000, topping May 1961 by $5,600,000," Walter D. Yankauer, President of Mill Factors reported. "Commercial finance loans outstanding at the end of May were at an all-time high of $17,850,000, a 69% increase over the $10,550,000 outstanding on May 31, 1961."

Mr. Yankauer attributed the new record to the generally increased demand for factoring and commercial financing services by manufacturers, wholesalers and retailers in all industries throughout the nation.

Mill Factors, factoring and commercial financing from coast to coast, has headquarters in New York City and autonomous offices in Chicago and Miami. On July 1, the new autonomous office in Atlanta opened under the supervision of Julian L. Webb, Jr., Vice-President. —V. 195, p. 2036.

Miniature Instruments Inc.—Financing Arranged—

See Minnesota Capital Corp. of Minneapolis, this issue.—V. 194, p. 1056.

Minnesota Capital Corp. of Minneapolis — Financing Arranged—

Two separate loans totaling $450,000 were made by Minnesota Capital, it was announced by Melvin J. Silver, President.

A publicly owned corporation, Minnesota Capital invests in select firms qualifying under the Small Business Investment Act of 1958. It has 2,500,000 shares outstanding and more than 5,000 stockholders in all 50 states and Canada.

The loans were $200,000 to C. G. Rein Development Co. of St. Paul and $250,000 to Miniature Instruments, Inc. of Minneapolis. Both companies will use the additional working capital to finance expansion and development, said Silver.

(Philip) Morris Inc.—A S R Division Marketing Lifetime Guaranteed Razor—

The American Safety Razor Co., which produced the country's first safety razor in 1875, on June 27 introduced the world's first stainless, steel, adjustable injector razor and supporting it with the industry's first unconditional, free, lifetime guarantee.

Jay Salamon, Vice-President and director of marketing in his announcement of the new guarantee for the PAL stainless steel adjustable injector razor said: "This guarantee puts into action our feelings about this new product which we believe will last a lifetime and give the user the world's finest shaves. Since American Safety Razor Co. was the first to make razors and blades in this country, we feel it is only fitting that we now become the first company to give a free, unconditional lifetime guarantee for our new razor which we definitely believe is superior to any other now on the market."

While designed as the perfect companion piece for the recently introduced PAL Premium Edge Injector Blade, the new razor can be used with any injector blade on the market. The new PAL will retail at $1.95 including a package of ten PAL Premium Blades and a special new Dreyfuss-designed travel case.

ASR will support the new razor's debut in 1962 with a massive multi-million dollar advertising and promotional campaign. Benton & Bowles, Inc. is the advertising agency for the new product.

The campaign will feature extensive advertising on such network television programs as the Red Skelton Show, the Jackie Gleason variety program, Perry Mason, Rawhide, Route 66, CBS News With Walter Cronkite, and the National Professional Football League games. —V. 195, p. 2304.

Motor Parts Industries, Inc.—Appointment—

Chemical Bank New York Trust Co., New York City, has been appointed by the corporation to act as transfer agent for its class A stock.—V. 195, p. 2078.

Mueller Brass Co.—Sales, Earnings Higher—

Mueller Brass sales for the second quarter ended May 31, amounted to $17,847,182, with a net profit after tax of $246,027, or 44 cents per share, Mr. F. L. Riggin, Sr., Chairman of the Board, announced. This compared with sales of $17,087,413 and earnings of $169,206, or 30 cents per share, during the second quarter of fiscal 1961.

Sales in the first half of 1962 were $32,847,536, with net earnings after taxes of $511,190, or 91 cents per share, compared with sales of $30,047,207 and net earnings of $463,538, or 83 cents per share, for the same period of 1961. Mr. Riggin pointed out that included in the first half profit figure for 1961 was $215,417, or 38 cents per share of non-recurring income, arising from the sale of the land, buildings and equipment and dissolution of a wholly-owned subsidiary. —V. 195, p. 1554.

National Propane Corp.—Earnings Statement—

Year Ending April 30—	1962	1961
Consol. sales and operating revenues	$20,642,247	$19,854,653
Operating expenses exclud. depreciation	7,749,891	7,381,497
Depreciation	1,767,582	1,563,592
Income before taxes	2,208,296	1,609,057
Taxes on income	1,020,705	699,020
Net income	1,187,591	910,037
Dividends: Preferred stock	160,747	209,497
Per share earnings	1.17	1.05
Average outstanding shares	874,480 shs.	667,700 shs.
Outstanding shares: Year end	940,268 shs.	839,771 shs.

—V. 194, p. 1615.

National Tea Co.—Partial Redemption—

The company has called for redemption on Aug. 1, 1962, through operation of the sinking fund, $480,000 of its 5% debentures due Aug. 1, 1977 at 100% plus accrued interest. Payment will be made at the Morgan Guaranty Trust Co. of New York, 140 Broadway, New York 15, N. Y.—V. 194, p. 11.

Needham Packing Co., Inc.—New Amex Listing—On June 28, 1962, this company, of 1911 Warrington Road, Sioux City, Iowa, announced the listing of its common stock, no par value, on the American Stock Exchange under the ticker symbol NEP.—V. 192, p. 900.

New England Electric System—Earnings Higher—

This Boston utility reports consolidated net income of $9,151,000 for the first five months of 1962, equal to 69 cents a share, compared with $8,424,000 or 64 cents a share in the like period of 1961. President William Webster stated the $727,000 increase in the five months' net income was due to improved business conditions and higher electric and gas sales. This improvement boosted net income for the 12 months ended May 31 to $1.38 a share compared to $1.33 a year ago.

Subsidiary to Be Merged—

See Massachusetts Electric Co. this issue.—V. 195, p. 2822.

New Plan Realty Corp.—Class A Stock Offered—The company, of New York City, on June 29, 1962 announced a public offering of 150,000 shares of class A stock at a price of $11 per share.

In addition to the public sale the company is making an exchange offer in order to acquire interests in four Manhattan office buildings, two loft and showroom buildings, and industrial terminal, a bowling center, two smaller buildings containing retail stores, and a contract to acquire a newly constructed building of S. Klein Co. Department Store under a 30 year lease. All of these properties, with the exception of the industrial terminal and department store, are located in the New York City area.

PROCEEDS—Net proceeds from the sale of the stock will be used for debt repayment and working capital.

BUSINESS—The company was organized on Dec. 4, 1961 under the laws of the State of Delaware and qualified to do business in the State of New York on Dec. 8, 1961. The principal office of the company is located at 369 Lexington Ave., New York City.

The company was formed by Morris B. Newman and his sons, William Newman and Joseph Newman, who are all Certified Public Accountants, to own, operate and manage income-producing real property, initially the properties listed above. The company may also engage in constructing, financing and developing real property anywhere in the United States or Canada. Such activities may include the acquisition of additional properties or the disposition of properties presently owned or hereafter acquired. The company may also organize and sponsor syndications of real property and engage in real estate management, and related activities. The company at the present time has no commitment for the specific exercise of any of the foregoing powers, except as stated above.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

—V. 195, p. 525.

New York Securities Co. — Arranges Private Placements—On June 27, 1962, this company announced that it negotiated the private placement of five debt issues totaling $6,400,000 for three companies. See Domestic Management, Inc., Inland Credit Corp., and Mastan Co., Inc., this issue.

New York State Electric & Gas Corp.—Earnings Up—

The corporation has reported that the balance of net income applicable to the common stock was equivalent to $2.23 a share for the 12 months ended May 31, 1962, as compared to $2.01 a share for the 12 months ended May 31, 1961, based on the number of shares outstanding at the end of the respective periods.

Gross revenues were $119,057,084 for the year ended May 31, 1962, as compared to $113,341,877 for the previous twelve months period. Net income after fixed charges and before dividends on preferred stock for the year ended May 31, 1962 was $18,193,550 as compared to $16,611,218 for the previous twelve months period.—V. 195, p. 2305.

Nemaha Oil Co.—To Sell Assets—

See Wilshire Oil Co. of Texas this issue.—V. 183, p. 2766.

Nopco Chemical Co.—Rights Offering—The company is offering its common stockholders the right to subscribe to $5,687,800 of 4¾% convertible subordinated debentures due 1987, at a price of 100%, on the basis of $100 principal amount of debentures for each twenty shares held as of record June 26 with rights to expire July 11, 1962.

The unsubscribed portion of the offering will be underwritten by an investment group headed by White, Weld & Co. Inc., New York City. Application has been made to list the debentures on the N. Y. S. E.

PROCEEDS—Net proceeds from this financing will be used by the company to retire, at par, $4,000,000 principal amount of 4¾% bank notes. The balance will be made available for financing a portion of the company's 1962 capital expenditures.

REDEMPTION FEATURES—The debentures are convertible into common stock at $27.50 a share at any time prior to maturity, unless previously called for redemption. They are redeemable at the option of the company at redemption prices ranging from 108% to par, and for sinking fund at par with accrued interest in each case.

BUSINESS—The company, of Newark, N. J., was organized in 1912 as National Oil Products Co. and assumed its current name in 1947. The company is engaged in the manufacture of industrial chemical specialties, mainly organic in nature; fine chemicals, principally for nutritional purposes, and urethane foam plastics and intermediates, which it distributes throughout the U. S. and Canada.

—V. 195, p. 2822.

Norcold, Inc.—Net Loss on Increased Sales—

The well-known "Norcold" line is the pioneer and leader in the specialized field of compact quality refrigerators for trailers. Company's sales for six months ended March 31, 1962 were up 25% over the like year-earlier period. Substantial extraordinary expenses were incurred in the 1962 first half, including costs of moving to the new plant, promotion of new product lines, increased research and development, new tooling and increased personnel in anticipation of expanded activity. Despite this, loss declined to $4,101 from $9,006 for the first half of fiscal 1961. The first half of the fiscal year is the seasonal low period, with the second half traditionally accounting for most of the year's profits.

Fiscal 1962 results are expected to compare favorably with 1961, as this uptrend continues into the major selling season. The new electric line of compact refrigerators for home and office is only now reaching the market, and is expected to increase future sales and earnings. In fiscal 1961 sales were $2,048,000 versus $1,880,000 in 1960, while earnings increased to $65,514, from $22,784.—V. 195, p. 10.

Northern Natural Gas Co.—Partial Redemption—

The company has called for redemption on Oct. 1, 1962, through operation of the sinking fund, 10,000 shares of its 5½% preferred stock and 6,400 shares of its 5.80% preferred stock at $100 per share, plus accrued dividends. Payment will be made at The Chase Manhattan Bank, N. Y.—V. 195, p. 1099.

Northwest Airlines, Inc.—Revenues, Profits Up—

The company reported operating revenues of $12,801,000 for May, 1962, compared with $9,935,000 in May, 1961.

Net profit, after taxes, interest and all other expenses, in May, 1962, was $638,166. In May, 1961, the net profit was $307,850.

May revenues, up 28%, were the result of additional jet schedules compared with a year ago and an increase in transcontinental travel to and from Seattle's World's Fair—Northwest's operating revenues for the first five months of the year were $55,721,805. This compared with $33,559,948 for the same period in 1961, when revenues were depressed by a strike of flight engineers.—V. 195, p. 2493.

Northwest Natural Gas Co.—Debentures Placed Privately—Northwest Natural Gas Co., headquartered in Portland, Ore., announced on June 26 that $6,000,000 principal amount of the company's 5% debentures due June 1, 1982, have been placed privately. The private placement was arranged through Lehman Brothers, New York City.

Net proceeds from the financing will be used to retire bank loans and to provide for construction.—V. 195, p. 2493.

Nuclear Corp. of America—Division Sold—

See Fairchild Camera & Instrument Corp., this issue.—V. 194, p. 2120.

Occidental Petroleum Corp.—Wyoming Exploration—

The company is making its first exploratory effort in Wyoming and has spudded in a wildcat well for oil in the Gypsum Creek area of Big Horn County, the company announced.

The well, No. I Stape, will go down approximately 3,700 feet with its objective the Tensleep sand of the Pennsylvanian age which is productive on the Byron field seven miles to the southwest and on the Frannie field eleven miles to the northwest. These two fields have each produced in excess of 40 million barrels of crude from the Tensleep to date.

Occidental controls in excess of 4,000 acres around the drill site. The effort marks the company's initial exploration in the Rocky Mountain area aside from its activity in the San Juan Basin of Colorado and New Mexico.

The new well, with R. L. Manning of Denver the drilling contractor, is located in Section 16, Township 57 North, Range 96 West.— V. 195, p. 2598.

Pacific Airmotive Corp.—Six Months' Report—

Consolidated sales for the company and subsidiaries were $15,838,000 for the six-month period ended May 31, 1962. This is the company's second highest volume for a similar period and compares with sales of $12,895,000 for the first half of 1961.

Unaudited figures indicate a net operating profit for the first six months of $190,000, which is equivalent to 26½ cents a share on the 715,923 shares outstanding. In comparison, operations for the first half of 1961 resulted in a net profit of $149,000, or 22 cents a share on the 681,400 shares then outstanding. The increase in outstanding shares was due to the five percent stock dividend paid on April 27.

A nonrecurring capital net gain from the sale of our Spraymat operation resulted in an additional after-tax profit of $433,000, or 60½ cents a share. Combined with the net results from operations, the total profit for the first half of the current fiscal year was $623,000, which is equivalent to 87 cents a share.

Our Engine an Aircraft Products Divisions are operating at the highest levels in the company's history and the outlook for the remainder of the year is excellent.

On May 31, PacAero Engineering Corp., our subsidiary at Santa Monica, Calif., was moved to Lockheed Air Terminal, where all our aircraft operations are being combined into a single large facility. The new construction portion of this facility is expected to be completed by October, at which time the PAC aircraft service and overhaul activities now located on the opposite side of the same airport will be moved to the new facility.—V. 195, p. 1319.

Pacific Coast Co.—Sells Plant

The company has announced the sale of its plywood manufacturing plant at Sonoma, Calif., to the United States Plywood Corp.

The plywood transaction involves land, buildings, equipment, inventories and other items representing the total business. More than $600,000 was involved in the sale.

A Pacific Coast spokesman said the sale is in keeping with the company policy, stated at the time of its recent merger with The Bell Co., of concentrating on new growth industries. Cash proceeds of the sale, he said, will be used for acquisitions purposes.

Sale of the plywood manufacturing division terminates the company's interest in this field.

Last month, Pacific Coast sold three lumber subsidiaries to Kelly-Moore Paint Co., Inc., and previously had sold two shipping subsidiaries.—V. 195, p. 2598.

Pacific Hawaiian Products Co.—Appointment—

The Chase Manhattan Bank has been appointed New York transfer agent for the common stock of the company.—V. 195, p. 2746.

Pakco Management & Development Co. — Correction Our June 4, 1962 issue reported incorrectly that this company recorded lower revenues and earnings for the three months' period ended March 31. Actually, this Hammonton, N. J., diversified management company, with subsidiaries in financing, insurance, leasing, electronics and agriculture, earned $99,687 on gross revenues of $1,029,302 for the aboved-mentioned three months' period, which amounted to per share earnings of 13 cents on 755,557 shares outstanding. This compares favorably with the results for all of 1961, when the company reported gross revenues of $2,886,421 and after-tax earnings of $152,175, equal to 20 cents per share on the same capitalization.—V. 195, p. 2598.

Pall Corp.—Nine Months' Results—

This, Glen Cove, Long Island, company reported that sales and earnings have continued to grow during the nine month period ended April 30. Earnings rose to $503,424 (or 91 cents per share) from earnings of $425,683 (or 79 cents per share) in the corresponding period last year. Sales rose to $9,698,025 as compared with $8,118,459 for the same period in 1961.

Dr. David B. Pall, President, noted that large write-offs have been absorbed during this period in connection with various phases of the company's expansion program. They include the start-up of a new $1.8 million, 10 million pound-per-year fibrous glass plant, the reorganization of Hollinger Machine Co. Ltd. (Montreal, Canada) acquired in November 1960 and the start-up of PallUlster Ltd., Northern Ireland, whose new wire cloth weaving facility will supply the company with raw material for its filter manufacturing operations.

This is the seventh successive year in which the company, a leading manufacturer of airborne filters and of equipment for the control of fluids and environments has reported growth.—V. 195, p. 1596.

Parker-Hannifin Corp.—Forms German Subsidiary—

This Cleveland, Ohio, company has formed a new German subsidiary, to be known as Parker-Hannifin NMF, which has acquired the working assets and business of Niehler Machinenfabrik in Cologne, Germany, it was announced by C. C. Sigmier, Chairman of Parker-Hannifin.

Niehler Machinenfabrik manufactures a line of hydraulic piston pumps and other hydraulic devices which are complimentary to those made by Parker-Hannifin.

"This acquisition," Mr. Sigmier said, "provides the company with a manufacturing plant in being, located within the Common Market; and will enable it to produce, in Germany, other Parker-Hannifin products for that market."

Parker-Hannifin already has, in Amsterdam, Holland, a wholly owned subsidiary known as Parker-Hannifin, n.v., which functions as a sales, warehousing and service organization for Parker-Hannifin products on the continent and in England. It is anticipated, Mr. Sigmier said, that the facilities of this Amsterdam subsidiary will be utilized in the distribution of products manufactured in the company's Cologne plant.—V. 195, p. 2079.

Parkview Drugs, Inc.—Debentures Offered—Pursuant to a June 20, 1962 prospectus, Scherck, Richter & Co., St. Louis, Mo., and associates, offered publicly, $2,000,000 of this company's 5½% convertible subordinated debentures, due June 1, 1977, at 100%, plus accrued interest from June 1, 1962. These debentures are convertible prior to maturity into common stock at conversion price of $12.50 principal amount of debentures for each share of common stock if converted on or prior to June 1, 1967, thereafter at the conversion price of $15 principal amount for each share if converted on or prior to June 1, 1972, and thereafter at the conversion price of $17.50 on or prior to the maturity date, subject to adjustment under certain conditions.

PROCEEDS—The net proceeds to the company from the sale of the debentures offered will be added initially to the company's general funds.

BUSINESS—The company, of 2323 Grand Ave., Kansas City, Mo., and its subsidiaries is engaged in the retail drug business, both through conventional retail stores, and, since 1958, by the operation of licensed departments in closed door membership department stores. Messrs. Phillip and Harry L. Small and Mr. John Small, together with his wife, beneficially own approximately 67% of the outstanding common stock of the company. Approximately 33% of the outstanding common stock is held publicly.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

—V. 195, p. 2148.

Pearl Brewing Co.—Common Offered—Pursuant to a June 19, 1962 prospectus, A. C. Allyn & Co., Chicago, and Dewar, Robertson & Pancoast, San Antonio, Texas, and associates, offered publicly, 136,700 shares of this firm's common stock at $22.50 per share. Proceeds from the sale of the stock will accrue to selling stockholders.

BUSINESS—The company, with its principal executive offices at 312 Pearl Parkway, San Antonio, Texas, is a Texas corporation organized in 1922 as the successor to a business originally commenced in 1886 under the name of "San Antonio Brewing Association." It owns and operates a brewery in San Antonio, Texas, where "Pearl" beer is produced. It also owns and operates a brewery in St. Joseph, Missouri, where "Pearl" and "Goetz" beers, Country Club Malt Liquor and "Goetz Pale" near beer are produced. The sales of the company in 1961 ranked 17th in barrelage among all beers marketed in the United States.

Pendleton Tool Industries, Inc.—Appointment—

Manufacturers Hanover Trust Co., New York City, has been appointed co-transfer agent for the common stock of the corporation. —V. 195, p. 2932.

Petroleos Mexicanos (Pemex)—Private Financing Arranged—The Chase Manhattan Bank and nine institutional investors loaned $50 million to Petroleos Mexicanos (Pemex), Mexico's Government-owned petroleum industry. Proceeds of the loan, the first long-term loan to Pemex by private United States investors, will be used to refund short-term obligations, thus providing funds for expansion of the Mexican petroleum industry.

At the Chase Manhattan Bank's head office in New York, Pascual Gutierrez Roldan, Director General of Pemex, and Glenn C. Bassett, Jr., Vice-President of the bank, signed a loan agreement for $30 million, the bank's portion of the loan. It is evidenced by 6% serial notes that will mature within the next five years.

Simultaneously, purchase agreements for the other $20 million were being signed at the Northwest National Bank in Minneapolis. The 7% sinking fund notes evidencing this portion of the loan will mature over the period from 1967 to 1972. Investors in the sinking fund notes included Investors Diversified Services, Inc., State Mutual Life Assurance Co. of America and the Life Insurance Co. of Virginia.

Eastman Dillon, Union Securities Co., New York, placed the 7% sinking fund notes. The Chase Manhattan Bank has been appointed trustee for both the 6% serial notes and 7% sinking fund notes.

Phillips-Eckardt Electronic Corp.—Acquisition—

On June 25, 1962 it was reported that Rodman & Renshaw, Chicago, assisted in the negotiations leading to the acquisition of Rayflex Exploration Co. by Phillips-Eckardt. The details of the transaction were not disclosed.

Phillips-Van Heusen Corp.—Appointment—

First National City Bank has been appointed sole successor transfer agent to the Chase Manhattan Bank for 2,000,000 shares of Phillips-Van Heusen Corp. common stock and 3,343 shares of 5% cumulative preferred stock, effective July 2, 1962.—V. 195, p. 1597.

Planet Corp.—Annual Report—

At its fiscal year-end, March 31, 1962, Planet Corp. (custom designers and builders of automated materials handling equipment) had net working capital of $777,532 and a current ratio of 2.3 to 1, cash of $213,177, and had retired all long- and short-term indebtedness during the year, the annual report to stockholders announced. Total retained earnings were equivalent to $6.15 a share at the year-end.

For the 12 months to March 31, 1962, sales were a record $5,157,242 and net earnings after tax were $115,880 or 62 cents a share, compared with previous year's sales of $4,303,626 and net earnings of $144,644 or 77 cents a share on the same capitalization. Sales and earnings were reported on May 25.

"We bid on a record number of contracts during the year with encouraging results and enter the current year with a backlog of orders in excess of $4,000,000," president Frank Groeneveld, Jr., told stockholders. During the year offices were established in Atlanta, Pittsburgh and London.—V. 195, p. 2598.

Plough, Inc.—Stock Split Record Date—

The Board of Directors of this Memphis based proprietary drug manufacturer (St. Joseph Aspirin, Coppertone, etc.) at a special meeting passed a resolution directing that the amendment to the Certificate of Incorporation changing the authorized capital stock from 3,300,000 shares, par value $2.50 per share, to 5,000,000 shares, par value $1.25 per share, be filed and recorded on July 2, 1962, and setting the close of business on July 2, 1962 as the record date for the 2-for-1 stock split previously approved.

Certificates representing the additional shares will be mailed Aug. 3, 1962.—V. 195, p. 2746.

PneumoDynamics Corp.—Net Increased 14%—

Including the results of Cleveland Pneumatic Industries, Inc. for both periods, net income of PneumoDynamics Corp. in the six months ended May 31, 1962 showed an increase of 14% over the same half of fiscal 1961.

Sam S. Mullin, President of PneumoDynamics, in his interim report to stockholders said that as a result of the acquisition of CPI, which was completed in April of this year, "the company is larger, stronger, and more capable."

Consolidated net sales for the first half of fiscal 1962 amounted to $22,907,487, and net income was $916,621, equivalent to $1.07 on each of the 857,200 shares outstanding on May 31, 1962 prior to the recent payment of a 3% stock dividend. A year ago PneumoDynamics alone reported sales of $7,421,215 and net income of $384,643, or 70 cents a share on 550,000 shares.

The interim report points out that if CPI had been a part of PneumoDynamics a year ago, the six months' sales then would have been $25,017,306, and net income $805,487, or 94 cents a share on the basis of 857,200 shares.

The increased strength of the company as a result of its acquisition of Cleveland Pneumatic is apparent in part from a comparison of the financial statements, Mr. Mullin said. Working capital amounted to $12,995,337 on May 31, 1962 as compared to $4,089,674 available to PneumoDynamics last year before the acquisition, and the ratio of current assets to current liabilities has increased from 3 to 1 to 3.9 to 1.

Commenting on present and future operations of its new subsidiary, Mr. Mullin said: "CPI is currently expanding its activities in the missile, ordnance and aerospace fields to take up the interim slack in demand for landing gears, CPI's principal product. The subsidiary has received contracts recently in each of these new fields, with excellent prospects for follow-on work.—V. 195, p. 2079.

Public Service Co. of New Hampshire—Bonds Offered Halsey, Stuart & Co., Inc., Chicago, is manager of an underwriting group which offered on June 28, 1962, $24,000,000 of this company's first mortgage bonds, series M 4⅝% due July 1, 1992, at 101.385% and accrued interest to yield 4.54%. The group won award of the bonds at competitive sale on June 27 on a bid of 100.51%. The other bids, all for 4⅝s, were: Lehman Brothers, 100.499; Kidder, Peabody & Co., 100.48; and First Boston Corp., 100.382.

PROCEEDS—Net proceeds from the financing will be used to retire all of the company Series J, K and L bonds, due 1987, 1989 and 1990, respectively, at an estimated cost of $22,171,864, and to pay short-term borrowings incurred for interim financing of construction. The balance of the proceeds will be used for construction of additional facilities and for other corporate purposes.

REDEMPTION FEATURES—The bonds are redeemable at sinking fund redemption prices ranging from 101.34% commencing May 1965, to par; and at general redemption prices receding from 106.01% to par, plus accrued interest in both cases.

The company, of 1087 Elm St., Manchester, N. H. and its subsidiaries, operate a single integrated system furnishing electric service in the cities of Manchester, Nashua, Portsmouth, Berlin, Dover, Keene, Laconia, Franklin, Rochester and Somersworth and 172 other New Hampshire municipalities having a population of about 480,000 (1960 census) or about 80% of the total population of the state. They also sell electricity to nine other utilities; distribute and sell electricity in six towns in Vermont and six towns in Maine; and sell and service electric appliances.

REVENUES—On a consolidated basis, for the year ended Dec. 31, 1961, the company and its subsidiaries had operating revenues of $38,479,516, and net income of $5,681,605.

PURCHASERS—The purchasers named below have severally agreed to purchase from the company the following respective principal amounts of the series M bonds of the company:

	Amount (000's Omitted)		Amount (000's Omitted)

Public Service Electric & Gas Co. — Proposes Bond Issue—

The company announced that its finance committee will recommend to the board of directors at its July 17 meeting that the company proceed with the sale of $90,000,000 principal amount of its first and refunding mortgage bonds to be dated Aug. 1, 1962 and to mature Aug. 1, 1992. It is expected that the bonds will be offered at competitive bidding on Aug. 21, 1962.

The proceeds from the sale will be added to the general funds of the company and will be used by it for its general corporate purposes, including the redemption of $50,000,000 principal amount of its outstanding 5⅛% first and refunding mortgage bonds due 1989 and the payment of a portion of the cost of its construction program. —V. 195, p. 749.

Puget Sound Power & Light Co.—Preferred Offered—On June 28, 1962, an underwriting group headed by Blyth & Co., Inc., and Merrill Lynch, Pierce, Fenner & Smith Inc., New York City, offered publicly, 150,000 shares of this company's $4.84-dividend preferred stock, $100 par, at $100 per share.

REDEMPTION FEATURES—The stock will be redeemable at the option of the company at prices from $105 to $102, and will be entitled to a sinking fund, beginning May 15, 1966, designed to retire 2% of the outstanding stock annually.

PROCEEDS—Net proceeds from the sale will be used to repay an estimated $11,500,000 of bank loans, due Sept. 30, 1963, incurred for construction, and provide funds for the company's 1962 construction program.

BUSINESS—The company of 1400 Washington Bldg., Seattle, was incorporated in 1912 in Massachusetts, changed its corporate domicile on Nov. 16, 1960, to the State of Washington, by merger into a Washington corporation formed in 1960 for that purpose. The merger involved no change in name, business, management, properties or liabilities.

The company, which is an electric utility operating exclusively within the State of Washington, and its predecessors have been furnishing electric service in the Puget Sound-Cascade region for over 70 years. The company's service area covers approximately 3,200 square miles principally in the Puget Sound region of western Washington and includes part of Kittitas County in the central portion of the state. In March, 1962 the estimated population of the company's operating territory totaled 850,000 as compared with 500,000 for the same territory in 1952. The territory includes 272 communities and adjacent rural areas. Over 50% of the company's customers live outside of incorporated cities and towns, Bellingham, the largest city served, has an estimated population of 35,570. At March 31, 1962, the company had 1,597 regular employees and served 235,173 customers.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

Rayflex Exploration Co.—Acquisition—

See Phillips-Eckardt Electronic Corp., this issue.

Realtone Electronics Corp.—Sales at Record High—

The company has reported that net earnings on the sales of their transistor radios for the fiscal year ending March 31, 1962, rose to a record high of $255,772, an increase of 178% over last year's figure of $89,025—equal to 30 cents a share as against 14 cents per share. The current earnings were adjusted to include the additional 200,000 shares of stock sold to the public during the latter part of 1961.

Net sales totaling $5,489,470 exceeded the record established the previous year of $3,430,775.

"Two major factors were attributed to the upswing in sales and earnings for Realtone as well as for other companies in the industry," stated Ely E. Ashkenazi, President, whose corporation accounted for a substantial portion of all transistor radios sold in the United States. "The compact portable transistor has changed the radio image from a single household appliance to a personalized useful article for each member of the family. Low pricing, geared to reach even the lowest income brackets, have made them more available to a greater percentage of consumers."

He expressed the belief that the full potential and growth of the transistor radio industry is yet to be realized. "Many new developments are forthcoming: A combination-pocket size transistor radio-walkie talkie, a portable battery operated transistor tape recorder, a transmitter-receiver for automobiles with a 20 mile radious — all realistically priced for mass consumption. Realtone plans to market these new products within the year, giving added impetus to sales as well as justification for a continued bright business outlook."

For the fiscal year 1962, Mr. Ashkenazi estimates company sales to exceed $8,000,000 with net earnings expected to reach 45 cents or more per share.—V. 195, p. 1100.

Revenue Properties Co. Ltd.—Annual Report—

Since Revenue Properties was in active operation for the last 17 days only of 1961, the company's first annual report includes an audited statement of income for the first quarter of 1962. Revenue Properties is a real estate development, construction and holding company.

For the 3-month period ending March 31, 1962, net revenue of $73,870 is reported after all expenses including depreciation allowance, interest on mortgages and debentures. Revenue from rentals and interest totaled $394,549. President Alex J. Rubin states that first-quarter results, projected on an annual basis, indicate a net return in excess of that estimated at the time of organization last year.

As of Dec. 31, 1961, Revenue Properties shows assets of more than $17 million of which $15 million approximately, was represented by real estate at cost and $1.5 million cash.

Rohr Corp.—Awarded Follow-On Orders—

The company has been awarded follow-on orders amounting to $13,500,000 by the Lockheed Georgia Co. for additional engine pods for the C-130 Hercules turboprop transport series.

National and Eastern List of Over-The-Counter Securities (Quotations for Friday, June 29)

The following bid and asked quotations are obtained from the National Association of Securities Dealers, Inc., and other selected sources. They do not represent actual transactions. They are intended as a guide to the range within which these securities could have been sold (indicated by the "bid") or bought (indicated by the "asked") at the time of compilation. Origin of any quotation furnished on request. The "National" list is composed of securities which have a wide national distribution. The "Eastern" list comprises securities which have a wide distribution primarily in the Eastern region.

THE COURSE OF BANK CLEARINGS

Bank clearings this week will show an increase compared with a year ago. Preliminary figures compiled by us based upon telegraphic advices from the chief cities of the country, indicate that for the week ended Saturday, June 30, clearings for all cities of the United States for which it is possible to obtain weekly clearings will be 7.3% above those of the corresponding week last year. Our preliminary totals stand at $31,813,850,608 against $29,648,376,387 for the same week in 1961. At this center there is a gain for the week ending Friday, of 8.0%. Our comparative summary for this week follows:

CLEARINGS—RETURNS BY TELEGRAPH

Week Ended June 30	1962	1961	%
New York	$18,133,308,048	$16,785,279,478	+ 8.0
Chicago	1,348,514,397	1,352,541,846	— 0.3
Philadelphia	1,224,000,000	1,198,000,000	+ 2.2
Boston	940,174,661	883,811,184	+ 6.4
Kansas City	*520,000,000	493,872,230	+ 5.3
St. Louis	454,600,000	415,200,000	+ 9.5
San Francisco	914,449,000	827,635,154	+10.4
Pittsburgh	515,156,302	481,282,485	+ 7.0
Cleveland	*655,000,000	625,672,341	+ 4.7
Baltimore	412,888,046	407,924,981	+ 1.2
Ten cities, five days	$25,118,090,454	$23,471,219,699	+ 7.0
Other cities, five days	5,496,466,795	5,147,630,575	+ 6.8
Total all cities, five days	$30,614,557,249	$28,618,850,274	+ 7.0
All cities, one day	1,199,293,359	1,029,526,113	+16.5
Total all cities for week	$31,813,850,608	$29,648,376,387	+ 7.3

*Estimated.

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday and the Saturday figures are not available at time of going to press. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results of the previous week—the week ended June 23. For that week there was an increase of 6.9%, the aggregate clearings for the whole country having amounted to $33,880,386,625 against $31,704,218,157 in the same week in 1961. Outside of this city there was a gain of 8.1%, the bank clearings at this center showing an increase of 5.9%. We group the cities according to the Federal Reserve Districts in which they are located and from this we note that in the New York Reserve District the totals show an improvement of 6.4%; in the Boston Reserve District of 4.4%, and in the Philadelphia Reserve District of 1.2%. In the Cleveland Reserve District the totals are larger by 7.9%; in the Richmond Reserve District by 0.7%, and in the Atlanta Reserve District by 10.8%. The Chicago Reserve District has to its credit a gain of 3.4%; the St. Louis Reserve District of 15.4%, and the Minneapolis Reserve District of 6.6%. In the Kansas City Reserve District there is an increase of 11.4%; in the Dallas Reserve District of 14.2%, and in the San Francisco Reserve District of 11.1%.

In the following we furnish a summary by Federal Reserve Districts:

SUMMARY OF BANK CLEARINGS

Week Ended June 23		1962 $	1961 $	Inc. or Dec. %	1960 $	1959 $
1st Boston	12 cities	1,153,695,668	1,104,572,308	+ 4.4	1,182,873,494	974,491,104

Condition Statement of Member Banks

The condition statement of weekly reporting member banks of the Federal Reserve System in leading cities shows the following principal changes for the week ended June 20: Increases of $950 million in loans adjusted, $271 million in U. S. Government securities, $458 million in reserve balances with Federal Reserve Banks, and $2,172 million in U. S. Government demand deposits, and a decrease of $543 million in demand deposits adjusted.

Commercial and industrial loans increased in all but one district for a net gain of $434 million, reflecting quarterly tax date needs. During the two weeks ending June 20, these loans increased $537 million, as compared with an increase of $541 million during the corresponding two weeks a year ago. Loans to brokers and dealers for purchasing or carrying U. S. Government securities increased $76 million. Loans to sales and personal financing institutions increased $240 million. During the two weeks ending June 20, these loans increased $234 million, as compared with a net increase of $103 million during the corresponding two weeks of 1961. Loans to "other" nonbank financial institutions increased $63 million. Real estate loans increased $66 million. "Other" loans increased $56 million.

Holdings of Treasury bills by weekly reporting member banks increased by $119 million, Treasury certificates increased by $72 million, and the combined total of Treasury notes and U. S. Government bonds increased by $80 million.

Demand deposits adjusted decreased $215 million in the Chicago District, $204 million in the New York District, $83 million in the Cleveland District, and $74 million in the San Francisco District. Savings deposits increased $97 million and "other" time deposits of individuals, partnerships, and corporations decreased $55 million.

Borrowings of weekly reporting member banks from Federal Reserve Banks increased $337 million but borrowings from others decreased $754 million. Loans to domestic commercial banks decreased $541 million.

General Corporation and Investment News

Continued from page 10

The new order extends Rohr's present backlog for the series, orginally scheduled for completion in May, 1963, well into 1964, according to Fred H. Rohr, President.

In addition to the engine pods, Rohr also builds landing gear doors, nose landing gear doors, and wing formers for the Hercules series in its various configurations, and negotiations are under way for matching orders for these components for the extended program.

Sub-assembly parts are manufactured at Rohr's main Chula Vista plant, and assembled at the company's Winder, Ga., facility, now being expanded for this and other Lockheed orders.—V. 195, p. 2823.

Ruberoid Co.—To Purchase Shares—

The Ruberoid Co. has fixed July 17, 1962 as final date for accepting tenders of the Celotex Corp. shares unless at its option extends the invitation tenders to not later than July 31, 1962.

The Ruberoid Co. is inviting tenders of 350,000 shares of common stock of Celotex for purchase at $25 per share net. Ruberoid will be obligated to purchase 350,000 shares if at least that number is tendered, and will have an option to purchase any larger number of shares that may be tendered. If less than 350,000 shares are tendered, Ruberoid may elect to purchase all or none of the shares tendered.

If more shares are tendered than are purchased, Ruberoid will select the shares to be purchased on a pro rata basis.

Morgan Guaranty Trust Co. has been named as depositary for the tendered shares.—V. 195, p. 2933.

Ryan Aeronautical Co.—Receives Air Force Contract—

Award of an Air Force contract to the company for approximately $2 million to build exhaust manifold sets for the Douglas C-124 Globemaster cargo plane was announced.

The exhaust systems will be supplied as part of an extensive modernization program for the C-124, one of the major "workhorse" logistics support planes of the Air Force. A principal feature of the program is standardization of the power pack configuration to the Pratt & Whitney R-4360-63 engine.

Ryan has been fabricating and overhauling C-124 exhaust manifolds for several years at its San Diego plant. The aerospace firm is one of the world's leading producers of stainless steel exhaust systems for piston-engine aircraft in its widely diversified operations.

AUSTRALIAN CONTRACT—The third order for Doppler ground velocity indicators for aircraft of the Royal Australian Navy has been awarded Ryan Electronics, Division of Ryan Aeronautical Co., Owen S. Olds, Vice-President, announced.

The contract calls for a number of AN/APN-97A sets to be used in Westland Wessex helicopters, and follows previous orders for larger quantities of similar equipment on which deliveries are nearing completion.

The AN/APN-97A functions primarily as a hovering indicator for helicopters. It provides the manual or automatic means for the pilot to maintain his aircraft in a precise position under all conditions of visibility. It is in operational use by U. S. Navy ASW squadrons, and helcopters also used by the Marine Corps, Coast Guard, U. S. Army, and by certain units in Britain and the Netherlands.—V. 190, p. 2493.

Saturn Electronics Corp.—Class A Common Offered—Pursuant to a June 21, 1962 offering circular, Reese, Scheftel & Co., Inc., New York City, offered publicly, 80,000 shares of this firm's class A common stock at $3.75 per share. Net proceeds, estimated at $258,000, will be used for laboratory and production test equipment, relocation and improvements, research, and working capital.

BUSINESS—The company, a Delaware corporation, was incorporated on Feb. 26, 1962. The company was organized to acquire as a subsidiary, Saturn Electronics Corp., a Texas corporation, organized on Dec. 28, 1956. The company maintains its principal office at 10665 Harry Hines Blvd., Dallas, Texas and has additional factory space at 9758 Forest Lane, Dallas, Texas.

The company designs, manufactures, assembles, and distributes a line of high fidelity amplifiers, "black boxes" for data processing equipment, and magnetic components, which include transformers, filters and inductive reactors.

In the military electronics system category, the company is concentrating its efforts in the field of electronic countermeasures. The primary military product now being produced and marketed by the company is a frequency shift detector. In this device the company produces its own power supplies, bandpass filters, phase shifters and transformers.

In the magnetic components field, the company acts primarily as a subcontractor to the military and to prime contractors in the space field. National marketing of the company's products is done through manufacturers' representatives, who are paid on a straight commission basis. At the present time the company is represented in the Seattle, Washington, Denver, Colorada, and Dayton, Ohio areas. Representatives are presently being considered for appointment in the Los Angeles, California, New York, New York, and Boston, Massachusetts areas. In addition to national sales representatives the company has listed its products in the nationally distributed publication, Electronics Buyers Guide. Local customers (Texas area) are sold directly by the company's officers, directors and employees, who receive no compensation for making such sales.

Scantlin Electronics, Inc. — Expansion Approved by New York Stock Exchange—

The Board of Governors of the New York Stock Exchange has approved expansion of the activities of Scantlin Electronics, of Los Angeles, in the dissemination of NYSE stock quotations, it was announced by John R. Scantlin, President of the company.

According to Mr. Scantlin, arrangements have been made with the exchange for the company to utilize its computer complex, located in the Wall Street district, to furnish stock quotations instantaneously to United Press International correspondent newspapers throughout the world and to Scantlin's new electronic stock quotation boards and improved Quotron II desk quotation devices.

Capable of more than 3,000 computations per second, the Wall Street computers will process price data for brokers and will calculate up-to-the-second stock tables several times daily which will be transmitted to automatic typesetting machines in newspaper offices.

Scantlin Electronics, in 1960, was the first to solve the problem of putting the electronic signals from stock exchange ticker services directly into a computer. The company introduced Quotron to stock brokers' offices to provide, within seconds, price information on some 4,000 stocks. Currently. Quotron units are in service in 125 cities throughout the nation.—V. 195, p. 2494.

Schenley Industries, Inc.—Net Down—

Net profit of the company and consolidated subsidiaries for the nine months ended May 31, 1962 amounted to $5,230,206, including special credits after taxes of $830,876 (or 14 cents a share), and after providing a reserve for Canadian dollar devaluation loss of $578,128 (or 10 cents a share).

The net profit was equal after dividends on preference shares to 82 cents a share on 5,940,586 shares of common stock outstanding at the close of the period.

In the comparable nine months of 1960-61, the company reported net profit of $8,556,191, including special credits after taxes of $548,282 (or nine cents a share), equal after dividends on preference shares to $1.38 a share on 5,914,279 shares of common stock outstanding at the close of the period.

Provision for foreign and United States Federal and state taxes on income amounted to $5,125,000 in the 1962 period and $8,550,000 in the 1961 period.

The earnings, being for an interim period, are unaudited and subject to adjustment at the close of the company's fiscal year.—V. 195, p. 1853.

(Walter J.) Schneider Corp.—Appointment—

Chemical Bank New York Trust Co., New York City has been appointed to act as sole transfer agent for the common stock of the corporation.—V. 195, p. 2641.

Seligman & Latz, Inc.—Sales, Net Up—

Net sales of this company for the six months ending April 30, 1962, the first half of the company's fiscal year, amounted to $20,458,000, up from $19,363,000 in the corresponding period of fiscal 1961, Edwin K. Latz, President, reported.

Net income after taxes (unaudited) was $506,663, equal, after preferred dividends, to 63 cents per share on 757,100 shares common and class B common shares outstanding.

This compares with net earnings after taxes in the first half of 1961 of $495,366, equal to 61 cents per share on the same capitalization.

Seligman & Latz now has 310 beauty salons and one beauty culture school in operation, compared with 295 salons as of June 30, 1961. Contracts for ten additional beauty salons and one additional beauty culture school have been signed.—V. 195, p. 1967.

Shaer Shoe Corp.—Six Months' Results—

The corporation reported net income of $182,021 for the six months ended April 30, 1962, equivalent to 36 cents a share on 500,000 shares outstanding. Comparable data with the previous year is not available as the company became publicly-owned only last December.

Sales for the period amounted to $4,622,378 compared with $4,986,-567 for the six months ended April 30, 1961.

The decline in sales in the latest period was attributed by David L. Shaer, President, to the generally poor business in the women's popular-priced dress shoe field during the winter months. The National Shoe Fair recently held in New York, he said, "was very successful and the company had a good backlog of orders." However, he would be unable to guage the final results for the year's operations until he had seen the nature and the extent of re-orders, which will begin to come in during August and September.

Shaer Shoe has been in active discussion with several companies with a view to acquisition, and it continues to seek out shore manufacturing companies whose acquisition would strengthen its position in the industry.—V. 194, p. 2771.

Sierra Pacific Power Co. — Bonds Offered — Halsey, Stuart & Co. Inc., Chicago, managed an underwriting group which, on June 27, 1962, offered $5,000,000 of this company's first mortgage bonds, 4⅞% series, due June 1, 1992, at 101.988% and accrued interest, to yield 4.75%. The group won award of the bonds at competitive sale June 26 on a bid of 101.05%.

PROCEEDS—Net proceeds from the financing will be applied to the payment of outstanding bank loans incurred for construction purposes and for construction. The company expects that expenditures for construction in 1962 will amount to approximately $11,600,000.

REDEMPTION FEATURES—The bonds are redeemable at regular redemption prices ranging from 106.87% to par, and at special redemption prices receding from 101.99% to par; plus accrued interest in each case.

BUSINESS—The company, of 220 S. Virginia St., Reno, Nev., supplies electric power in the States of Nevada and California, and renders water and gas service in the cities of Reno and Sparks, Nev., and environs. The company's electric system is completely interconnected and covers a territory of about 15,000 square miles, having an estimated population of 180,000.

REVENUES—For the 12 months ended Feb. 28, 1962, operating revenues of the company aggregated $15,580,791 and net income was $2,190,960.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

—V. 195, p. 2641.

Smith-Corona Marchant, Inc.—To Sell Plant—

The company announced it planned to sell its Marchant Division plant in Oakland, Calif., and will relocate calculator production within 12 months in order to reduce overhead and improve manufacturing efficiency.

Accounting and data processing manufacturing personnel will not be affected by this change, and will continue to be located in the Oakland area.

The move is in accordance with a corporate program of modernization and consolidation of manufacturing facilities. In 1961, SCM closed its Syracuse office typewriter factory because of excessive manufacturing costs.—V. 195, p. 1598.

Solo Amusement & Vending Co. — Capital Stock Offered—Pursuant to a June 19, 1962 offering circular, Frank J. Mohr Investment Securities, San Francisco, offered publicly, 60,000 shares of this firm's capital stock at $5 per share. Net proceeds, estimated at $229,500, will be used for payment of recently acquired equipment, debt repayment, and working capital.

BUSINESS—The company of 219 9th St., San Francisco, Calif., was incorporated in 1959 as the successor of an individual proprietorship which was started in 1956. The business of Monroe G. Thomson, a sole proprietorship, was acquired by the corporation on Feb. 10, 1959 and the consideration for the business acquired was approximately equivalent to the net depreciated cost value of the assets of the predecessor.

It is engaged primarily in the placement of coin operated amusement rides known as "Kiddie Rides" in supermarkets and other suitable public locations in Northern California.

The "Kiddies Rides" industry which makes and operates these rides is a postwar baby that has matured rapidly.

The industry projects continuous expansion on the basis of the nation's rising number of births, already five million a year and is expected to go higher. It also looks for increased sales and profits from the growing number of retail outlets and shopping centers which have installed the rides. From 1959 to 1961 the number in use rose from 11,000 to 15,000.

The company operates primarily in Northern California, one of the fastest growing population centers in the United States.

—V. 195, p. 2375.

Southern Union Gas Co.—Revenues, Earnings Increase

An increase in total revenues as well as earnings were reported by the President of the company in an appearance before the New York Society of Security Analysts.

James C. Reid of Dallas also predicted a more favorable dividend rate on his company's common stock after allowing for adjustments from a recent stock split.

The Southern Union President announced that total operating revenues for the 12 months ended April 30 had climbed to $59,758,000, while earnings on the common stock were $4,627,000 for the same period. He stated that pro forma earnings were $1.86 per share on the 2,652,691 shares outstanding at April 30.

Compared to the $1.85 per common share earned in 1961 on shares then outstanding, Mr. Reid noted that all dilution from a 17½% increase in such shares had been overcome. The increased number of common shares had resulted from conversions of the company's 4.64% convertible preferred stock called for redemption on March 20.

If normal weather prevails, Mr. Reid predicted that the earnings figure reported for April 30 would not change materially by the end of the year.

Forecasting a bright future for the company's service area, Mr. Reid told the analysts that Southern Union is now serving more than 336,000 direct and 27,000 indirect customers in 71 communities in Texas, New Mexico, Arizona and Colorado. He pointed out that the average population growth between 1950 and 1960 in all cities served was more than 60%, compared to a national figure of 18½%, and in the company's three largest cities—Albuquerque, Austin and El Paso—the population increase averaged 85% for this period. Mr. Reid added that this growth trend continued in 1961 with 9,300 new customers added to Southern Union's lines.—V. 195, p. 2305.

Special Metals, Inc.—Annual Report—

This producer of special metal alloys, has announced that preliminary figures for the fiscal year ended May 31, 1962 show gross sales of approximately $11,170,000 and net income of $740,000, equal to $1.76 a share on 418,455 shares of common stock outstanding at the end of the period.

A comparison with the previous year is unavailable because the company was organized on March 22, 1961 to acquire, effective June 1, 1961, the established Metals Division of Kelsey-Hayes Company.

Results for the 1962 fiscal year reflect the use of straightline depreciation and a corresponding provision for deferred Federal income tax, the company said; previously published interim reports reflected accelerated depreciation.

Backlog of orders at the close of the fiscal year approximated $2,700,000, the highest in the history of the company or its predecessor division.—V. 194, p. 1429.

Sterchi Bros. Stores, Inc.—Income Statement—

For Quarter Ended May 31—	1962	1961
Net sales (incl. sales of leased department and carrying charges on instalment sales contracts)	$4,705,357	$4,058,599
Cost of goods sold (less discts.), occupancy, selling, advertising, credit and collection expenses	3,964,179	3,479,068

Deduct: Dividends on common stock	149,054	149,054
Retained earnings end of period	8,379,524	8,093,199

—V. 194, p. 262.

Sperry Rand Corp.—Financing Arranged—On June 29, 1962, it was reported that this company has made an agreement with a group of 11 banks to provide a 3-year revolving credit up to $230,000,000.

Sperry Rand, with main offices in New York, is a highly diversified company. Products include office equipment and defense and aviation equipment.

Banks involved in the credit agreement are: First National City

Bank, Chase Manhattan Bank, Morgan Guaranty Trust Co. of N. Y., Chemical Bank New York Trust Co., Bankers Trust Co., Mellon National Bank & Trust Co., National Bank of Detroit, First Pennsylvania Banking & Trust Co., Harris Trust & Savings Bank of Chicago and Marine Midland Trust Co. of N. Y.—V. 193, p. 243.

Suburban Electric Co.—Merger Proposed—

See Massachusetts Electric Co. this issue.—V. 188, p. 590.

Superior Industries Corp.—Record Sales, Profits—

Superior, the country's leading producer of folding home pool tables, which recently signed a contract for construction of a new $1,000,000 plant and executive offices in West Haven, Conn., reported sales for the first six months of fiscal 1962, ending April 30, at $1,909,746, a record high in the firm's 14 year-old history. This compares with $1,726,942 for the corresponding period in 1961.

Before taxes, earnings for the first six-months amounted to $216,943. Net earnings were $109,642, and earnings per share were 22 cents. Comparable figures for 1961, prior to the company's transition to public ownership, were $156,195 before taxes and net income was $80,473.

According to Melvin Zimmers, President, the sales increase is a reflection of the "growing popularity of pool playing as a wholesome family sport for home recreation." He predicted that 1962 should be the company's "most profitable year yet."—V. 194, p. 2598.

Supronics Corp.—Reports Loss for 1st Six Months—

The corporation showed a loss of $13,211, or $0.03 per share, for the six months ended Feb. 28, 1962, Lester Kaufman, president announced. This compares to net earnings of $114,501, or $0.35 per share, for the same period in 1961.

The deficit reflects a drop in net sales from $2,841,217 for the six-month period in 1961 to $1,651,451 in 1962.

Mr. Kaufman stated, "The phasing out of present work on the Titan I missile program, coupled with the delay in the start of our work on the World's Fair, has resulted in a contraction of both sales and earnings.

"Because of our commitment to a very large amount of World's Fair work, we have been reluctant to make any sizable new contracts. We are confident that as soon as the World's Fair starting date has been firmed up, the present temporary situation will be alleviated." —V. 194, p. 2273.

Swift Homes, Inc.—Earnings Down for Year—

Swift Homes, a leader in the manufactured home industry, reported that revenues for the fiscal year ended March 31, 1962, totalled $8,445,535 compared to $11,209,516 the previous year.

Net income was $820,987, equivalent to 76 cents a share, based on 1,083,333 shares, the average outstanding during the year, including a tax benefit of $268,000 equivalent to approximately 25 cents a share. In fiscal 1961, net income as reported was $984,443, equivalent to 92 cents a share.

Ira H. Gordon, President, noted that he is most optimistic about Swift Homes' future: "Because of the many steps taken in fiscal 1962," he said, "the years ahead offer us untold potentials both in sales and earnings."

Expressing agreement with national authorities who predict a sizable upturn in home building in the future, Mr. Gordon also cited the accelerating sale of the company's homes to builder-dealers and the increase in new sales outlets as other favorable factors in the company's sales and profits outlook.—V. 195, p. 792.

Texas Eastern Transmission Corp.—Partial Redempt'n

The corporation has called for redemption on Aug. 1, 1962, through operation of the sinking fund, $562,000 of its 5½% debentures due Dec. 1, 1976 at 100% plus accrued interest. Payment will be made at Dillon, Read & Co., 48 Wall St., New York 5, N. Y.—V. 195, p. 2198.

Texas Gas Transmission Corp.—Appointment—

The Chase Manhattan Bank has been appointed trustee and registrar for a $40,000,000 issue of 5% debentures, due June 1, 1982, of Texas Gas Transmission Corp.—V. 195, p. 2824.

Trans-Air System, Inc.—Quarterly Report—

Period Ended March 31—	1962	1961
Gross Revenues	$721,073	$215,924
Net Profit	18,207*	NC
Net Profit—Per Share	$0.09	NC
Common Shares Outstanding	205,000	NC

*No provision for Federal income taxes due to tax carry forward credit of $58,730.

NC Not comparable.

—V. 194, p. 2162.

Uneeda Vending Service, Inc.—Appointment—

Irving Trust Co., New York City, has been appointed registrar for the common stock of the corporation.—V. 195, p. 2642.

Union Carbide Corp.—To Triple Capacity—

Union Carbide Chemical Company, a Division of Union Carbide Corp., will triple its present capacity to produce acrylic acid and esters with construction of new facilities at its Institute, West Virginia, plant. Scheduled for completion during the third quarter of this year, the new production facility will be the largest acrylate unit in the United States.

"The purpose of the expansion," said E. E. Fogle, company President, "is to increase Carbide's participation in the acrylate monomer market." Products from the new facility will include acrylic acid, butyl acrylate, ethyl acrylate, and 2-ethylhexyl acrylate. The unit will also have the flexibility to produce developmental or commercial quantities of other acrylates as new markets are developed.

Acrylates are copolymerized with other monomers to produce latexes used in paints. Latexes made with acrylate monomers are important in the production of floor and shoe polishes and adhesives. Acrylates are also used in the processing of leather, paper, and textiles.—V. 195, p. 792.

United Australian Oil, Inc.—Exploration Program—

An important drilling and exploration program involving over $1,000,000 has just been consummated by United Australian it was announced by James R. Wendover, President of the Dallas-based oil and exploration company.

Amalgamated Petroleum N.L. of Melbourne, Australia, has agreed to expend $850,000 in drilling and exploration on United's acreage within the next two years. United has agreed to convey to Amalgamated two-thirds of their Queensland concession and a divided one-half interest in their Northern Territory and New South Wales concessions totaling 14,400,000 net acres. In addition to the above drilling commitment, United will receive $337,000 cash. United has an option to acquire 500,000 shares of Amalgamated at par (56 cents) for five years and was allotted 480,000 shares of Amalgamated common stock for a total of $258,000.

Amalgamated agrees to drill, free and clear of all cost to United, at least one well on each of the four concessions in the Northern Territory and New South Wales and at least 10,000 feet of hole on the Queensland concession. United Australian will still retain ownership of 14 million net acres offsetting this acreage plus having the right to reacquire for five years 10% of the acreage farmed out at cost.

United Corp.—Reports Net Value—

The corporation had a net asset value of $105,158,763, equal to $7.47 a share, on June 20, Wm. M. Hickey, President, reported to the annual meeting of stockholders in Wilmington, Del.

A year ago, at June 30, 1961 net asset value was $120,362,641 or $8.55 a share. However, the company has paid capital gains dividends since then totalling $7,036,070 or 50 cents per share of which $2,110,821 or 15 cents a share was paid in December 1961 and $4,925,249 or 35 cents a share in March 1962. After adjusting for these distributions, June 20 asset value is approximately 7% below that of a year ago.

Net holdings of cash and government and municipal obligations totaled $14,893,661 on June 20.

Net investment income for the three months ending June 30, 1962, is estimated at $930,000, or 6.6 cents a share, compared with actual net investment income of $973,935 or 6.9 cents a share in the corresponding quarter of last year, stockholders were informed.

In the current quarter the company also has realized profits of $2,648,176 or 18.8 cents a share on the sale of securities, compared with $2,193,933 or 15.6 cents a share in the June quarter of 1961. —V. 195, p. 2199.

Virginia Electric & Power Co.—Earnings—

Three Months End. Mar. 31—	1962	1961

—V. 195, p. 2255.

Voi-Shan Industries, Inc.—Record Earns. Anticipated

The company anticipates record earnings of between $2.50 and $2.60 per share on 623,450 shares for the fiscal year ending June 30, and additional gains of about 10% in sales and earnings for the coming fiscal year.

Mason Phelps, President of Voi-Shan, told the Los Angeles Society of Financial Analysts that these estimates are based on the continuing improvement of the company's six divisions and subsidiaries, and the fact that Voi-Shan reported record earnings of $1.93 per share for the first nine months of the current fiscal year.

The company recently increased its regular quarterly cash dividend from 15 cents per share to 20 cents per share, payable Aug. 15 to shareholders of record Aug. 1.

Mr. Phelps said the company is an industry leaser in each of five divisions and subsidiaries: D-M-E Corp., manufacturing die mold bases and accessories for the plastics industry; Michigan Magnetics, Inc., designing and manufacturing magnetic tape recorder heads; Voi-Shan Manufacturing Co., exotic-metal fasteners for missile, satellite and aircraft construction; Tubing Seal Cap Co., one-piece, seamless door knobs for lockset manufacturers, and Short Run Stamping Co., Inc., which provides small-lot production of specialized metal parts to industry. In addition, Voi-Shan operates Pheoll Manufacturing Co. of Minnesota, Minneapolis-based distributor of industrial fasteners for the past 35 years.—V. 195, p. 1708.

Wavelabs, Inc.—Acquisition—

The acquisition of the Airborne Vibration Monitoring line of equipment and related instrumentation systems from Consolidated Systems Corp. was announced by J. W. Finch, President of Wavelabs.

Purchase of the AVM equipment by Wavelabs will complement our present line and allow us to offer a more complete series, Mr. Finch said. The AVM equipment now manufactured by CSC is currently being used by a majority of the world's airlines.

Wavelabs, located in San Diego, is a company comprised of scientists and engineers with many years of experience in the instrumentation field. It works closely with universities and research laboratories in the developing of both laboratory and industrial analytical equipment. Mr. Finch stated that he was looking forward to a close working relationship with CSC in the development of other items in addition to those covered by this acquisition.—V. 195, p. 2593.

White Lighting Co.—Class A Stock Offered—Pursuant to a June 22, 1962 offering circular Costello, Russotto & Co., Beverly Hills, Calif., offered publicly 75,000 shares of this firm's class A stock at $4 per share. Net proceeds, estimated at $114,225, will be used for machinery and equipment, inventory, advertising and working capital.

BUSINESS—The company was incorporated in California on April 11, 1946, for the principal purpose of engaging in the manufacture, sale and distribution of lighting and electrical fixtures and related items.

The company's main office and plant are located at 5221 West Jefferson Boulevard, Los Angeles, Calif.

CAPITALIZATION GIVING EFFECT TO PRESENT FINANCING

	Authorized	Outstanding

Class B stock (25c par)	75,000 shs.	None

—V. 195, p. 1206.

White Motor Co.—Exchange Distribution—On June 29, 1962, it was reported that exchange distributions of 30,000 shares of this company's common stock and 5,000 shares of General Steel Industries, Inc. common stock, on the floor of the New York Stock Exchange, had been completed by Hornblower & Weeks, New York City. —V. 195, p. 2306.

Wilshire Oil Co. of Texas—Proposed Acquisition—

This company, the U. S. operating subsidiary of Britalta Petroleums Ltd., has entered into an agreement to acquire the assets of Nemaha Oil Co., Dallas, in exchange for 112,130 capital shares of Britalta plus the sum of $100,000 which will be used to retire Nemaha's outstanding bank loans, Robert L. Reed, President of Wilshire and of Britalta, announced.

Nemaha owns varying working interests in ten producing oil and gas wells in Texas and Nebraska, one of which is a recently completed gas distillate well in the Amelia field, Jefferson County, Texas, which tested 74,000,000 cubic feet of natural gas per day plus 25 barrels of distillate per million cubic feet of gas. Nemaha also owns mineral rights in several other states. In addition to these oil and gas properties, Wilshire will acquire Nemaha's other assets consisting principally of a drilling rig and related equipment, as well as field inventories.

The Wilshire purchase, which is subject to approval by Nemaha's stockholders, is scheduled to be closed on July 2, 1962, prior to the previously announced reorganization of Britalta and Wilshire, under which Wilshire will become the parent and listed company.

Presently, Britalta Petroleums Ltd. stock is listed on the American and Toronto Stock Exchanges. When the reorganization becomes effective, applications will be made to list Wilshire Oil Co. common stock on the American and Toronto Stock Exchanges, the announcement stated.—V. 195, p. 2306.

Work Wear Corp.—Revenues Up 36%, Net Higher—

Operating revenues of the company for the first quarter ended March 31 rose to $5,293,827, an increase of 36% over the $3,894,777 for the like period last year, Leighton A. Rosenthal, President, said in a report to shareholders.

Net profit for the three months amounted to $288,229, slightly over the 1961 first quarter figure of $285,342. Earnings per share were 28 cents, even with last year's on the basis of 1,020,604 shares currently outstanding.

Mr. Rosenthal reported that sales of both the company's manufactured goods and revenues from its laundry operations were up sharply, enabling the company to maintain net profit at last year's level despite a number of increased expenses. He also said that volume thus far in the second quarter was running well ahead of the second quarter last year, and "we are hopeful of sales and profit progress for the entire year."

Revenues from Work Wear laundry and rental operations amounted to $2,453,765 for the first quarter, an increase of 63% over the $1,507,240 for the comparable three months last year. Sales of manufactured goods during the quarter totalled $2,840,062, up 19% over the $2,387,536 for the first quarter of 1961.

Mr. Rosenthal explained that the company had changed its accounting procedures to spread the cost of garments put into service more evenly throughout the course of the year.—V. 195, p. 1970.

Youngstown Sheet & Tube Co. — Proposed Research Center—

A multi-million dollar research center soon will be built by the company on a 30-acre site just east of the company's general office building at 7655 Market St. in Boardman, Ohio.

This was announced by A. S. Glossbrenner, President, and Dr. Karl L. Fetters, Vice President, research and development, at a press conference.—V. 192, p. 1958.
